

must have a minimum biobased content of at least 75 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the total organic carbon in the finished product.

(c) *Preference compliance date.* No later than July 6, 2020, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased heating fuels and wick lamps. By that date, Federal agencies responsible for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased heating fuels and wick lamps.

[84 FR 32021, July 5, 2019]

§ 3201.136 Kitchenware and accessories.

(a) *Definition.* Kitchenware and accessories are products designed for food or drink preparation. These products include cookware and bakeware, such as baking cups, cookie sheets, parchment paper, and roasting bags or pans; cooking utensils, such as brushes, tongs, spatulas, and ladles; and food preparation items, such as cutting boards, measuring cups, mixing bowls, coffee filters, food preparation gloves, and sandwich and snack bags. These products exclude kitchen appliances, such as toasters, blenders, and coffee makers; disposable tableware; disposable cutlery; disposable containers; durable tableware; durable cutlery; and cleaning tools.

(b) *Minimum biobased content.* The Federal preferred procurement product must have a minimum biobased content of at least 22 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the total organic carbon in the finished product.

(c) *Preference compliance date.* No later than July 6, 2020, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased kitchenware and accessories. By that date, Federal agencies responsible for drafting or reviewing specifications for products to be procured shall ensure that the rel-

evant specifications require the use of biobased kitchenware and accessories.

§ 3201.137 Other lubricants.

(a) *Definition.* Other lubricants are lubricant products that do not fit into any of the BioPreferred Program's specific lubricant categories. This category includes lubricants that are formulated for specialized uses. Examples of other lubricants include lubricants used for sporting or exercise gear and equipment, musical instruments, and specialized equipment such as tree shakers. This category excludes lubricants that are covered by the specific lubricant categories such as chain and cable lubricants, firearm lubricants, forming lubricants, gear lubricants, multi-purpose lubricants, penetrating lubricants, pneumatic equipment lubricants, and slide way lubricants.

(b) *Minimum biobased content.* The Federal preferred procurement product must have a minimum biobased content of at least 39 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the total organic carbon in the finished product.

(c) *Preference compliance date.* No later than July 6, 2020, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased other lubricants. By that date, Federal agencies responsible for drafting or reviewing specifications for products to be procured shall ensure that the relevant specifications require the use of biobased other lubricants.

(d) *Determining overlap with a designated product category in the EPA's CPG program.* Qualifying products within this product category may overlap with the EPA's CPG-designated recovered content product category of Vehicular Products: Re-Refined Lubricating Oil. USDA is requesting that manufacturers of these qualifying biobased products provide information on the BioPreferred Program's website about the intended uses of the product, information on whether the product contains any recovered material, in addition to biobased ingredients, and performance standards against which the
