The Securities may be redeemed by the Issuer at the written direction of, or with the written consent of the Majority of the Subordinated Securities, in whole but not in part, from Liquidation Proceeds (a) on any Business Day after the Non-Call Period and (b) on any Business Day upon the occurrence of a Withholding Tax Event, as more fully described below. If the Holders of the Majority of the Subordinated Securities elect to cause the redemption of the Securities as described herein, the Subordinated Securities will in any such case be redeemed simultaneously with all other Classes of Securities. In connection with an optional redemption, the Trustee shall notify the Collateral Manager of such optional redemption and the Collateral Manager on behalf of the Issuer shall direct the Trustee, in writing, to sell in the manner directed by the Collateral Manager in its sole discretion, and in accordance with the Indenture, any Collateral Obligation and upon any such sale the Trustee shall release the lien upon such Collateral Obligation pursuant to the Indenture.

Notwithstanding the foregoing provisions, the Issuer may not direct the Trustee to sell any Collateral Obligation unless, after giving effect to such sale, there will be sufficient funds to pay the amounts described in "Optional Redemption Procedures" below.

Any optional redemption of the Secured Notes pursuant to subclause (a) or (b) of the second preceding paragraph will be made at the applicable Secured Note Redemption Prices plus accrued and unpaid interest.

Optional Redemption Procedures. If any Holder of the Subordinated Securities desires to direct the Issuer to optionally redeem the Securities, such Holder shall notify the Trustee in writing no less than 45 days (or such shorter period as may be acceptable to the Trustee) prior to the proposed redemption date (which date must be a Business Day). The Trustee will promptly notify the Issuers, the Collateral Manager and all other Holders of the Subordinated Securities of the receipt of such notice. Each such Holder of the Subordinated Securities that also wishes to direct the Issuer to optionally redeem the Securities shall notify the Trustee (who shall promptly notify the Issuers and the Collateral Manager) of such direction within 15 Business Days after the date of such notice. If a Majority of the Subordinated Securities have directed the Issuer to optionally redeem the Securities, the Issuer shall effect a redemption in whole of the Securities pursuant to the procedures described herein.

The Trustee will provide notice of any optional redemption by first-class mail, postage prepaid, mailed not less than ten Business Days prior to the scheduled redemption date, to each Securityholder at such Holder's address in the Register and for so long as the Securities are listed on the New York Stock Exchange and the rules of such Exchange shall so require, a publication shall be made in the Official List by the New York Stock Exchange Agent.

The Securities shall not be optionally redeemed unless either (1) at least seven Business Days before the scheduled redemption date, the Collateral Manager on behalf of the Issuer shall have furnished to the Trustee evidence, in form reasonably satisfactory to the Trustee, that the Issuer or the Collateral Manager on behalf of the Issuer has entered into a binding agreement or agreements (including in the form of a confirmation of sale) with a financial institution or institutions whose short-term unsecured debt obligations have a credit rating of at least "A-1" from S&P or with a Person that the Collateral Manager in its sole discretion has determined to be appropriate (including, without limitation, a CDO issuer that is managed or to be managed by the Collateral Manager) to purchase, not later than the Business Day immediately preceding the scheduled redemption date, and in immediately available funds, all or part of the Collateral

Obligations and terminate any Hedge Agreements at a purchase price at least equal to an amount sufficient, together with any other amounts available to be used for such optional redemption, to pay (i) in the case of an optional redemption of the Securities at the request of a Majority of the Subordinated Securities on any Business Day after the Non-Call Period, the amounts specified under subclauses (i) through (iii) in "-Priority of Payments—Liquidity Proceeds," provided, that the Issuer shall not terminate any Hedge Agreements in connection with an optional redemption of the Securities as specified herein until the notice of redemption may no longer be withdrawn; or (ii) in the case of an optional redemption following the occurrence of a Withholding Tax Event, the amounts specified under subclauses (i) and (ii) (but excluding Optional Hedge Termination Payments) in "-Priority of Payments—Liquidity Proceeds," or (2) at least ten Business Days prior to the scheduled redemption date and prior to selling any Collateral Obligations, the Collateral Manager on behalf of the Issuer shall certify to the Trustee and to each of the Rating Agencies that the expected proceeds from such sale (calculated as provided in the next succeeding paragraph) together with any other amounts available to be used for such optional redemption will be delivered to the Trustee two Business Days prior to (but in no event later than the Business Day immediately preceding) the scheduled redemption date, in immediately available funds, and will equal or exceed 100% of all amounts specified in the immediately preceding subclause (1). See "-Priority of Payments—Liquidity Proceeds."  

For purposes of determining the expected proceeds from a sale for purposes of subclause (2) of the immediately preceding paragraph, the expected proceeds shall be deemed to be (1) the Market Value of the Eligible Investments and, if Collateral Obligations are to be sold on the Business Day of the certification, the Market Value of the Collateral Obligations; or (2) the percentage of the Market Value of the Collateral Obligations set forth in the applicable column of the table below based upon the period of time between certification and the expected date of sale.

For the avoidance of doubt, the Issuer may, in effecting a sale contemplated by clause (1) of the preceding paragraph, enter into one or more participation agreements or similar arrangements with the purchaser of the Collateral Obligations whereby, in connection with the Issuer’s receipt of the purchase price with respect to all or a portion of the Collateral Obligations, the Issuer will grant to such purchaser a participation interest in all or a portion of such Collateral Obligations and agree to use commercially reasonable efforts (or such other efforts as shall be specified) to complete the transfer of such Collateral Obligations to such purchaser therefor.

Any notice of redemption may be withdrawn by the Issuer on or prior to the sixth Business Day prior to the scheduled redemption date by written notice from the Issuer to the Trustee, the Holders of the Subordinated Securities requesting or consenting to such optional redemption and the Collateral Manager. If (i) the Collateral Manager shall be unable to cause the delivery of such sale agreement or agreements or certifications, as the case may be, in form satisfactory to the Trustee or (ii) the Majority of the Subordinated

Securities direct such notice be withdrawn, provided, however, that the Majority of the Subordinated Securities may not direct such notice be withdrawn if the conditions set forth in the third paragraph under "Redemption by Refinancing" have been satisfied. Notice of withdrawal having been given as aforesaid, the Trustee shall provide notice of such withdrawal to each Holder at the address appearing in the Register by overnight courier (when possible) guaranteeing next day delivery (unless the address provided in the Register is insufficient for such purposes, in which event such notice shall be given by first class mail, postage prepaid) and, to the extent required, provide notice to the Irish Paying Agent which shall cause notice of such withdrawal to be published in the Irish Stock Exchange's Official List, in each case, not later than the third Business Day prior to the scheduled redemption date.

Redemption by Refinancing

The Holders of at least a Majority of the Subordinated Securities may direct (subject to the approval of the Collateral Manager as specified in the next paragraph) the redemption of any Class of Secured Notes in whole but not in part on any Payment Date occurring after the Non-Call Period, in connection with a Redemption by Refinancing by directing the Issuer (with a copy of such direction to the Trustee and the Collateral Manager) to issue additional notes (the "Replacement Notes"), the proceeds of which will be used to fully redeem such Class or Classes of Secured Notes, as applicable (a "Redemption by Refinancing"). A Redemption by Refinancing will be required to result in the redemption of all of the Secured Notes of the affected Class or Classes but need not result in the redemption of all Classes of Secured Notes. The Replacement Notes issued pursuant to a Redemption by Refinancing would have such terms and priorities as are negotiated at the time and that are set forth in the supplement to indenture, subject to the conditions set forth below.

Upon receipt of a Notice of Redemption by Refinancing (as defined below), the Issuer and the Collateral Manager will cause the Issuer and the Co-Issuer to issue Replacement Notes having the terms, priorities and conditions set forth in a proposed amendment to the indenture approved by the Holders of at least a Majority of the Subordinated Securities and approved by the Collateral Manager. The Issuer of the Replacement Notes, and the redemption of the applicable Class or Classes of Secured Notes, will be contingent on receipt by the Issuer of sufficient funds from the issuance of the Replacement Notes to redeem the applicable Classes of Secured Notes at the Replacement Note Redemption Price plus accrued interest and pay the applicable expenses of the Issuer, and the conditions in the paragraph below being satisfied at the time of such redemption. If the conditions below are not met, the Replacement Notes will not be issued and the applicable Classes of Secured Notes will not be redeemed unless the Holders of a Majority of the Subordinated Securities then elect to effect an optional redemption.

If one or more Classes of Secured Notes will remain outstanding following a Redemption by Refinancing, the following additional conditions must be satisfied: (i) the Aggregate Outstanding Amount of each Class of Replacement Notes equals the Aggregate Outstanding Amount of the corresponding Class of Secured Notes that is redeemed; (ii) the applicable interest rate for each Class of Replacement Notes shall either (A) be computed on the basis of the same interest rate index as, and with a spread to such index that does not exceed the spread of, the corresponding Class of Secured Notes that is redeemed or (B) be a fixed rate of interest (such fixed rate of interest not to exceed the then floating interest rate applicable to the corresponding Class of Secured Notes being redeemed): (iii) the stated maturity of the Replacement Notes is not stated to occur earlier than the Stated Maturity of the corresponding Class of Replacement Notes that is redeemed; (iv) the voting rights, consent rights, redemption rights and all other rights of each class of Replacement Notes are the same as the rights of the corresponding Class of Secured Notes that is redeemed; (v) each of the Moody’s Rating Condition and S&P Rating Condition is satisfied in respect of the Class or Classes of Secured Notes that are not redeemed; and (vi) any expenses incurred in connection with the issuance of any Replacement Notes shall...
be paid from the proceeds of the issuance of such Replacement Notes. In addition to the foregoing, any issuance of Replacement Notes will require the delivery to the Trustee of the following opinions of a nationally recognized law firm with substantial expertise in such matters: (A) that neither the Issuer nor the Co-Issuer will be required, as a result of the issuance of the Replacement Notes (assuming such Replacement Notes are offered and sold in the manner and only to the eligible persons contemplated by the Offering Circular, the Indenture and the Purchase Agreement, as applicable), to be registered as an investment company under the Investment Company Act, as amended and (B) the issuance of the Replacement Notes will not result in the Issuer being subject to U.S. federal income taxation with respect to its net income.

Notice of a Redemption by Refinancing (any such notice, a “Notice of a Redemption by Refinancing”) will be given by the Issuer to the Trustee and by the Trustee to each Holder of Securities, the Collateral Manager, the Administrator and each Rating Agency. Failure to give Notice of a Redemption by Refinancing to any Holder of any Securities selected for redemption or any defect therein will not impair or affect the validity of the redemption of any other Securities. In addition, for so long as any Securities are listed on the Irish Stock Exchange and so long as the rules of such exchange so require, Notice of a Redemption by Refinancing will also be given by the Trustee to the Irish Paying Agent for delivery to the Irish Stock Exchange. Any definitive Securities called for redemption must be surrendered at the place specified in the notice of such redemption in order for the Holder to receive the Secured Note Redemption Price.

The Issuer, at the direction of Holders of at least a Majority of the Subordinated Securities, will have the option to withdraw any Notice of Redemption by Refinancing up to the second Business Day prior to the scheduled redemption date by written notice to the Trustee and the Collateral Manager. If any Notice of Redemption by Refinancing is withdrawn or the Issuer is otherwise unable to complete a Redemption by Refinancing, the proceeds received from any sale of the Collateral in contemplation of such Redemption by Refinancing may during the Reinvestment Period, at the Collateral Manager’s discretion, be reinvested in accordance with the Reinvestment Criteria. For the avoidance of doubt, the withdrawal of such Notice of Redemption by Refinancing or the inability of the Issuer to complete redemption of the Secured Notes will not constitute an Event of Default under the Indenture. No Hedge Agreement may be terminated in connection with any Redemption by Refinancing until such time as such Notice of Redemption by Refinancing can no longer be withdrawn by the Issuer.

Mandatory Redemption

Principal Proceeds and Interest Proceeds, in the case of the Secured Notes other than the Class E Notes, or Interest Proceeds only, in the case of the Class E Notes, that are available will be used to redeem the Secured Notes (other than the Class E Notes) as described under “—Priority of Payments” (i) on any Scheduled Payment Date on which any Par Value Test was not satisfied on the immediately preceding Determination Date or (ii) on any Scheduled Payment Date on or after the Second Determination Date on which any Interest Coverage Test was not satisfied on the immediately preceding Determination Date.

The Collateral Manager will not be required to sell Collateral Obligations if the Principal Proceeds and Interest Proceeds, in the case of the Secured Notes other than the Class E Notes, or Interest Proceeds only, in the case of the Class E Notes, available would be insufficient to cause any Coverage Test to be satisfied.

In addition, Principal Proceeds and Interest Proceeds that are available will be used to redeem the Secured Notes (other than the Class E Notes) as described under “—Priority of Payments” on any Scheduled Payment Date following an Effective Date Ratings Downgrade Event.

The Subordinated Securities are not subject to mandatory redemption.

Cancellation

All Securities that are redeemed or paid and surrendered for cancellation as described herein will forthwith be canceled and may not be reissued or resold.

OS MBS-E-001918770
Footnote Exhibits - Page 5050

Payments

Payments in respect of principal and interest on a Secured Note and distributions to Holders of Subordinated Securities will be made to the person in whose name the Security is registered on the applicable record date. Payments on the Securities will be payable by wire transfer to immediately available funds to a Dollar account maintained by DTC or its nominee (in the case of the Global Securities) or each Securityholder (in the case of individual Definitive Securities) to the extent practicable or otherwise by Dollar check drawn on a bank in the United States sent by mail to DTC or its nominee (in the case of the Global Securities), or to each Securityholder at the Holder's address appearing in the Register (in the case of individual Definitive Securities).

Final payments in respect of the Securities will be made only against surrender of such Securities at the office of any paying agent. None of the issuers, the Trustee or any paying agent will have any responsibility or liability for any aspects of the records maintained by DTC or its nominee or any of its participants relating to, or for payments made thereby on account of beneficial interests in, a Global Security.

The issuers expect that DTC or its nominee, upon receipt of any payment of principal or interest in respect of a Global Security held by DTC or its nominee, will immediately credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in such Global Securities as shown on the records of DTC or its nominee. The issuers also expect that payments by participants to owners of beneficial interests in such Global Securities held through such participants will be governed by standing instructions and customary practices, as now in the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

For so long as the Securities are listed on the Irish Stock Exchange and the rules of such Exchange require, the issuers will have a paying agent and a transfer agent in Ireland and will give prompt written notice to each Holder and publish in an authorized newspaper, which is expected to be the Official List, notice of the appointment, termination or change in the location of any such office or agency.

The Indenture provides that, as a condition to the payment of distributions on any Subordinated Security without withholding U.S. federal backup withholding tax imposed under the U.S. Treasury regulations, the Issuer or any paying agent may require the delivery of property completed and signed applicable U.S. federal income tax certifications (generally, an Internal Revenue Service Form W-9 (or applicable successor form) in the case of a person that is a "United States person" within the meaning of section 7701(a)(30) of the Code) or an appropriate Internal Revenue Service Form W-8 (or applicable successor form) in the case of a person that is not a "United States person" within the meaning of Section 7701(a)(30) of the Code) and/or such other certification reasonably acceptable to them in order to enable the Issuer, the Trustee or any paying agent to determine their duties and liabilities with respect to any taxes or other charges that they may be required to deduct or withhold from payments in respect of such Subordinated Security under any present or future law or regulation of the United States or any present or future law or regulation of any political subdivision thereof or taxing authority therein or to comply with any reporting or other requirements under any such law or regulation.

Priority of Payments

On each Payment Date and on the Stated Maturity, the Issuer shall only make payments in accordance with the priorities (the "Priority of Payments") described below under "Interest Proceeds" and "Principal Proceeds," and, if such Payment Date is a Redemption Date, in accordance with the priorities described below under "Liquidation Proceeds."

Interest Proceeds. Without limiting any other applicable provision regarding the payment of Interest Proceeds, on each Payment Date and on the Stated Maturity, Interest Proceeds will be distributed in the following order of priority:

(i) (a) the payment of taxes of the Issuer, if any, and (b) thereafter, to the retention in the Interest Collection Account of an amount equal to (x) the Interest Reserve Amount for such
Footnote Exhibts - Page 5051

Payment Date minus (g) the Aggregate Interest Reserve Distribution Amount for such Payment Date;

(iii) to the payment of accrued and unpaid Administrative Expenses constituting (a) fees of the Trustee and reimbursement of expenses of the Trustee pursuant to the terms of the Indenture and (b) fees and reimbursement of expenses of the Collateral Administrator under the Collateral Administration Agreement; provided, however, that total payments pursuant to this subclause (i) shall not exceed, on any Payment Date other than the Initial Payment Date, an amount equal to a percentage of the Aggregate Principal Amount of the Collateral Portfolio equal to an annual rate of 0.0275%, measured as of the beginning of the Due Period preceding such Payment Date (and, with respect to the Initial Payment Date, 0.0144% (not annualized) of the Aggregate Principal Amount of the Collateral Portfolio, measured as of the beginning of the Due Period preceding such Payment Date);

(iv) to the payment, in the order set forth in the definition of Administrative Expenses, of (a) first, remaining accrued and unpaid Administrative Expenses (other than indemnity payments) of the Issuers including other amounts payable by the Issuer to the Collateral Manager under the Collateral Management Agreement (excluding any Collateral Management Fee), and to the Trustee and the Collateral Administrator constituting Administrative Expenses not paid pursuant to subclause (i) above, and (b) second, remaining accrued and unpaid Administrative Expenses of the Issuance constituting indemnity payments; provided, however, that such payments pursuant to this subclause (iv) shall not exceed (x) in the case of the Initial Payment Date, together with all other Administrative Expenses of the Issuers paid from Interest Proceeds during the Immediately preceding Due Period, $150,000, (y) in the case of the second Payment Date, together with all other Administrative Expenses of the Issuers paid from Interest Proceeds during the two Immediately preceding Due Periods, $225,000, (z) in the case of the third Payment Date, together with all other Administrative Expenses of the Issuers paid from Interest Proceeds during the three Immediately preceding Due Periods, $300,000, (p) in the case of the fourth Payment Date, together with all other Administrative Expenses of the Issuers paid from Interest Proceeds during the four Immediately preceding Due Periods, $375,000, and (q) in the case of any other Payment Date, the greater of (i) the excess, if any, of (a) $300,000 over (b) all other Administrative Expenses of the Issuers paid from Interest Proceeds during the four Immediately preceding Due Periods and (c) $75,000, in each case, not including amounts paid pursuant to subclause (i) above;

(v) to the payment, pari passu, (1) to each Hedge Counterparty of the applicable Hedged Payment Amount; (2) to the Class A Interest Distribution Amount; and (3) of the Class B Principal Distribution Amount;

(vi) to the payment to the Collateral Manager of, first, the current Senior Collateral Management Fee in accordance with the terms of the Collateral Management Agreement and, then, any accrued and previously unpaid Senior Collateral Management Fee;

(vii) to the payment of the Class A Interest Distribution Amount;

(viii) to the payment of the Class B Interest Distribution Amount;

(ix) in the event that either the Class A/B Par Value Test is not satisfied on the immediately preceding Determination Date or the Class A/B Interest Coverage Test is not satisfied on the immediately preceding Determination Date or on or after the Second Determination Date after giving effect to the payment of any Interest Proceeds prior to this subclause (ix) and the payment of Principal Proceeds, if any, as described in subclause (p) of "Principal Proceeds" below, to the mandatory redemptions of the Class A Notes and then the Class B Notes, at the applicable Secured Note Redemption Price, pursuant to the Note Payment Sequence, to the extent necessary to satisfy the Class A/B Par Value Test and the Class
Footnote Exhibits - Page 5052

A/B Interest Coverage Test, as applicable, or until the Class A Notes and the Class B Notes have been paid in full;

(x) to the payment of the Class C Interest Distribution Amount (other than the related Defeered Interest);

(xi) to the payment of the portion of the Class C Interest Distribution Amount that represents the related Deferred Interest;

(xii) in the event that either the Class C Par Value Test is not satisfied on the immediately preceding Determination Date or the Class C Interest Coverage Test is not satisfied on the immediately preceding Determination Date or on or after the Second Determination Date after giving effect to the payment of any Interest Proceeds prior to this subclause (x) and the payment of Principal Proceeds, if any, as described in subclause (ii) of "Principal Proceeds" below, to the mandatory redemption of the Class A Notes, then the Class B Notes and the Class C Notes, at the applicable Secured Note Redemption Price, pursuant to the Note Payment Sequence, to the extent necessary to satisfy the Class C Par Value Test and the Class C Interest Coverage Test, as applicable, or until the Class A Notes, the Class B Notes and the Class C Notes have been paid in full;

(xiii) to the payment of the Class D Interest Distribution Amount (other than the related Defeered Interest);

(xiv) to the payment of the portion of the Class D Interest Distribution Amount that represents the related Deferred Interest;

(xv) in the event that either the Class D Par Value Test is not satisfied on the immediately preceding Determination Date or the Class D Interest Coverage Test is not satisfied on the immediately preceding Determination Date or on or after the Second Determination Date after giving effect to the payment of any Interest Proceeds prior to this subclause (xvi) and the payment of Principal Proceeds, if any, as described in subclause (ii) of "Principal Proceeds" below, to the mandatory redemption of the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes, at the applicable Secured Note Redemption Price, pursuant to the Note Payment Sequence, to the extent necessary to satisfy the Class D Par Value Test and the Class D Interest Coverage Test, as applicable, or until the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes have been paid in full;

(xvi) to the payment of the Class E Interest Distribution Amount (other than the related Defeered Interest);

(xvii) to the payment of the portion of the Class E Interest Distribution Amount that represents the related Deferred Interest;

(xviii) in the event that the Class E Par Value Test is not satisfied on the immediately preceding Determination Date after giving effect to the payment of any Interest Proceeds prior to this subclause (xviii) and the payment of any Principal Proceeds under "Principal Proceeds" below, to the mandatory redemption of the Class E Notes, at the applicable Secured Note Redemption Price, to the extent necessary to satisfy the Class E Par Value Test or until the Class E Notes have been paid in full;

(xix) In the event an Effective Date Ratings Downgrade Event has occurred and is continuing, to the payment of principal of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes, at the applicable Secured Note Redemption Price, pursuant to the Note Payment Sequence, until such Event no longer exists;

-39-

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918273
Footnote Exhibits - Page 5053

(a) to the payment to the Collateral Manager of, first, the current Subordinated Collateral Management Fee in accordance with the terms of the Collateral Management Agreement and, then, any accrued and previously unpaid Subordinated Collateral Management Fee plus interest thereon accrued at a rate of LIBOR for the Applicable Period plus 3.00% per annum to the extent not paid above.

(b) during the Reinvestment Period, the amount necessary to satisfy the Reinvestment Test (but not to exceed 50% of the remaining Interest Proceeds available on such Payment Date) shall be used to reinvest in Collateral Obligations or shall be deposited into the Principal Collection Account (or, if required under the terms of the Indenture, the Subordinated Securities Principal Collection Account) for investment in Eligible investments pending investment in such additional Collateral Obligations prior to the end of the Reinvestment Period.

(c) to the payment, first, pari passu, of any accrued and unpaid fees and expenses of the Trustee and the Collateral Administrator, and second, in the order set forth in the definition of Administrative Expenses, of any accrued and unpaid Administrative Expenses of the Issuer (including, for the avoidance of doubt and without limitation, (1) indemnities and amounts payable by the Issuer to the Trustee and the Collateral Administrator, (2) indemnities and amounts payable by the Issuer to the Collateral Manager under the Collateral Management Agreement (other than the Collateral Management Fee) and (3) indemnities and amounts payable by the Issuer pursuant to any Securities Lending Agreement or related collateral arrangement), in each case to the extent not paid pursuant to subclauses (i) and (ii) above.

(d) to the payment of any termination payments (including any Defaulted Hedge Termination Payments) due to any Hedging Counterparty payable by the Issuer pursuant to any Hedge Agreements, to the extent not paid from the proceeds of an upfront payment to the Issuer under a replacement Hedge Agreement and after giving effect to the payment of Principal Proceeds as provided for under subclauses (i) and (ii) of paragraph (vii) hereof.

(e) the balance of Interest Proceeds shall be allocated, pro rata, to each subclass of Subordinated Securities (based on the Aggregate Outstanding Amounts of each subclass of Subordinated Securities) and the amount so allocated to each such subclass of Subordinated Securities shall be applied to the payment of:

   (i) if such subclass of Subordinated Securities is an Included Subclass, the amount, if any, necessary to cause such Included Subclass to have realized an Internal Rate of Return of 12.0%, then

   (ii) the amount of the Incentive Collateral Management Fee with respect to such subclass of Subordinated Securities payable on such Payment Date; then

   (iii) to the Holders of the Subordinated Securities of such subclass as a distribution thereon, the balance of the Interest Proceeds so allocated to such subclass of Subordinated Securities.

On each Scheduled Payment Date, after the application of Interest Proceeds as provided above, any Interest Reserve Amount will be applied to the payment of the amounts referred to in subclauses (i) through (iii) above, in such order of priority, to the extent such amounts are not paid in full with Interest Proceeds as described above.

Interest Proceeds may be applied to the payment of Administrative Expenses of the Issuer on days other than Payment Dates, provided that, in any Due Period such payments shall not exceed (i) in the case of the Due Period immediately prior to the first Scheduled Payment Date, together with all other

Confidential Treatment Requested by Goldman Sachs
Administrative Expenses of the Issuers paid from Interest Proceeds during the immediately preceding Due Period, $150,000, (w) in the case of the second Scheduled Payment Date, together with all other Administrative Expenses of the Issuers paid from Interest Proceeds during the two immediately preceding Due Periods, $225,000, (x) in the case of the third Scheduled Payment Date, together with all other Administrative Expenses of the Issuers paid from Interest Proceeds during the three immediately preceding Due Periods, $300,000 and (y) in the case of fourth Scheduled Payment Date, together with all other Administrative Expenses of the Issuers, paid from Interest Proceeds during the four immediately preceding Due Periods, $375,000 and (z) in the case of any other Scheduled Payment Date, the greater of (a) the excess, if any, of (a) $300,000 over (b) all other Administrative Expenses of the Issuers paid from Interest Proceeds during the four immediately preceding Due Periods and (c) $75,000; provided, further that (d) such payments do not exceed the amounts permitted to be paid on the related Scheduled Payment Date pursuant to subordinate (e) above and (f) sufficient Interest Proceeds have therefore been received to cover such payments.

Principal Proceeds. Without limiting any other applicable provision regarding the payment of Principal Proceeds, on each Payment Date and on the Stated Maturity, Principal Proceeds will be distributed in the following order of priority:

(i) to the payment of the amounts referred to in subclauses (i)(e) and (j) through (k) of "—Interest Proceeds" above (in the order of priority set forth therein), but only to the extent not paid in full thereunder;

(ii) to the payment of (a) any net termination payments (other than the amount of any Defaulted Hedge Termination Payments) payable to the Issuer pursuant to any Hedge Agreements and (b) any amounts payable into a collateral account for the benefit of the related Hedge Counterparty (any such account, a "Counterparty Account"), if any, in accordance with the indenture and the hedge agreements;

(iii) first, to the payment of the amounts referred to in subclauses (v) through (x) of "—Interest Proceeds" above, in such order of priority, but, with respect to subclauses (v), (vi), (vii), (viii), (ix), (x), (xii), (xiii), (xiv) and (xv), only to the extent not paid in full thereunder and, with respect to subclauses (vii), (x), and (xiv), prior to giving effect to the payment of any Interest Proceeds, if any, as described in such subclauses, and second, to the payment of the amounts referred to in subclause (viii) of "—Interest Proceeds" above with respect to the Secured Notes (other than the Class B Notes), at the applicable Secured Note Redemption Price, pursuant to the Note Payment Sequence, to the extent necessary to cure an Effective Date Ratings Downgrade Event and only to the extent that the payment of Interest Proceeds thereunder for such purpose is not sufficient;

(iv) during the Reinvestment Period, at the sole discretion of the Collateral Manager:

(a) to the purchase or funding of Collateral Obligations or to the Principal Collection Account as the Reinvesting Credit Facility Reserve Account (as required under the terms of the indenture, the Subordinated Securities Principal Collection Account for investment in Eligible investments pending purchase or funding of Collateral Obligations at a later date in accordance with the Reinvestment Criteria, and/or

(b) to the payment of principal of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes, at the applicable Secured Note Redemption Price, pursuant to the Note Payment Sequence, to the extent of available funds therefor, if the Collateral Manager determines, in its sole judgment, (which judgment shall not be subject to question as a result of subsequent events), that it was impractical or not beneficial to reinvest such Principal Proceeds by the end of the applicable Investment Due Period;

(v) after the Reinvestment Period,
(a) In the case of Eligible Post Reinvestment Proceeds, at the sole discretion of the Collateral Manager, to (i) the purchase or funding of Collateral Obligations or to the Principal Collection Account or the Revolving Credit Facility Reserve Account, or (ii) required under the terms of the indenture, the Subordinated Securities Principal Collection Account for investment in Eligible Investments pending purchase or funding of Collateral Obligations at a later date, in accordance with the Reinvestment Criteria, and in the case of additional Collateral Obligations, prior to the end of the applicable Investment Due Period or (iii) to the payment of principal of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes, at the applicable Secured Note Redemption Price, pursuant to the Note Payment Sequence, and

(b) in the case of Principal Proceeds other than Eligible Post Reinvestment Proceeds, to the payment of principal of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes, at the applicable Secured Note Redemption Price, pursuant to the Note Payment Sequence;

(vi) after the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes have been paid in full,

(a) to the payment (i) first, pari passu, of any accrued and unpaid fees, expenses and indemnities of the Trustee and the Collateral Administrator and (ii) second, in the order set forth in the definition of Administrative Expenses, any other accrued and unpaid expenses of the Issuer (including, for the avoidance of doubt, Administrative Expenses, indemnities and amounts payable by the Issuer under the Collateral Management Agreement (other than the Collateral Management Fee)) to the extent not paid pursuant to subclause (ao)(e) or "interest Proceeds" above, then

(b) to the termination of any outstanding Hedge Agreements; then

(c) to the payment to the Collateral Manager of, first, the current Subordinated Collateral Management Fee in accordance with the terms of the Collateral Management Agreement and, then, any accrued and previously unpaid Subordinated Collateral Management Fee plus interest thereon accrued at a rate of LIBOR for the Applicable Period plus 3.00% per annum, in each case, to the extent not paid pursuant to subclause (ao)(e) or "interest Proceeds" above, and then

(vii) the balance of Principal Proceeds shall be allocated, pro rata, to each subclass of Subordinated Securities (based on the Aggregate Outstanding Amounts of each subclass of Subordinated Securities) and the amount so allocated to each such subclass of Subordinated Securities shall be applied to the payment of:

(a) if such subclass of Subordinated Securities is an Included Subclass, the amount, if any, necessary to cause such Included Subclass to have realized an Internal Rate of Return of 12.0%; then

(b) the amount of the Incentive Collateral Management Fee with respect to such subclass of Subordinated Securities payable on such Payment Date; then

(c) to the Holders of the Subordinated Securities of such subclass as a distribution therein, the balance of the Principal Proceeds so allocated to such subclass of Subordinated Securities.

The calculation of any Par Value Test on any Measurement Date shall be made by giving effect to all payments to be made pursuant to all subclauses of the Priority of Payments, as applicable, payable on the Payment Date following such Measurement Date. In addition no Principal Proceeds will be used to pay a subordinated Class on a Payment Date if, after giving effect to such payment, any Par Value Test of a more
Footnote Exhibits - Page 5056

senior Class of Secured Notes is falling on such Payment Date or would fall as a result of such application of the Principal Proceeds on such Payment Date. See "Security for the Secured Notes—The Coverage Tests".

Depending on the requirements of the entity that acts as Hedging Counterparty, the terms of a Hedging Agreement may grant the Hedging Counterparty the option to require the Issuer to post collateral into a Counterparty Account if the Issuer fails the Class C Per Value Test, as specified in subsection (g) under "—Principal Proceeds". If such posting requirements exist, the related Hedging Counterparty may be required to make certain payments to the Issuer to compensate the Issuer for the effect of such posting.

On a Business Day other than a Payment Date, Principal Proceeds (and to the extent there are insufficient Principal Proceeds, Interest Proceeds) may be applied to the payment of (a) any upfront payments due to any Hedging Counterparty or any replacement Hedging Counterparty, as the case may be, and (b) any net termination payments (other than the amount of any Defaulted Hedge Termination Payments) payable by the Issuer pursuant to any Hedging Agreements.

Liquidation Proceeds. On any Payment Date on which an optional redemption is occurring pursuant to the procedures described herein, Liquidation Proceeds will be distributed in the following order of priority:

(i) to the payment of the amounts referred to in subclauses (i), (b)(A), (b)(B) (without giving any consideration to subclause (viii), (k), (k)(iv) and (xvi) of "—Interest Proceeds" above which would otherwise be incorporated by reference) and (v)(a) (without giving any consideration to the lead-in language to such subclause (vii) of "—Principal Proceeds" above) of "—Principal Proceeds" above, in such order of priority;

(ii) without duplication of the amounts paid above, to the payment of the Secured Notes then Outstanding at the applicable Secured Note Redemption Price plus accrued and unpaid interest and then to any due and unpaid Defaulted Hedge Termination Payments;

(iii) to the payment to the Collateral Manager of, first, the current Subordinated Collateral Management Fee in accordance with the terms of the Collateral Management Agreement and, then, any accrued and previously unpaid Subordinated Collateral Management Fee plus interest thereon accrued at a rate of LIBOR for the Applicable Period plus 3.00% per annum; and

(iv) the balance of Liquidation Proceeds shall be allocated, pro rata, to each subclass of Subordinated Securities (based on the Aggregate Outstanding Amounts of each subclass of Subordinated Securities) and the amount so allocated to each such subclass of Subordinated Securities shall be applied to the payment of:

(a) if such subclass of Subordinated Securities is an Included Subclass, the amount, if any, necessary to cause such Included Subclass to have realized an Internal Rate of Return of 12.5%; then

(b) the amount of any Incentive Collateral Management Fee with respect to such subclasses of Subordinated Securities payable on such Payment Date; then

(c) to the Holders of the Subordinated Securities of such subclass as a distribution thereon, the balance of the Liquidation Proceeds so allocated to such subclass of Subordinated Securities.

Form of the Secured Notes

Each Class of Secured Notes sold in offshore transactions in reliance on Regulation S will be represented by one or more Regulation S Global Secured Notes deposited with the Trustee as custodian for DTC and registered in the name of Cede & Co., a nominee of DTC, for the respective accounts of Euroclear and Clearstream. Interests in a Regulation S Global Secured Note may be held only through Euroclear or Clearstream.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918277
Footnote Exhibits - Page 5057

The Secured Notes sold in reliance on Rule 144A or another exemption under the Securities Act will be represented by one or more Rule 144A Global Secured Notes deposited with the Trustee as custodian for DTC and registered in the name of Cede & Co., as nominee of DTC.

The Secured Notes will be subject to certain restrictions on transfer as set forth under "Transfer Restrictions".

Except in the limited circumstances described herein, owners of beneficial interests in either the Regulation S Global Secured Notes or the Rule 144A Global Secured Notes will not be entitled to receive physical delivery of certificated Secured Notes. The Secured Notes are not issuable in bearer form.

Form of the Subordinated Securities

The Subordinated Securities sold in offshore transactions in reliance on Regulation S will be represented by one or more Regulation S Global Subordinated Securities deposited with the Trustee as custodian for DTC and registered in the name of Cede & Co., as nominee of DTC, for the respective accounts of Euroclear and Clearstream. Interests in a Regulation S Global Subordinated Security may be held only through Euroclear or Clearstream.

The Subordinated Securities sold to Accredited Investors or Qualified Institutional Buyers will each be issued in the form of one or more certificated Subordinated Securities in fully registered form, registered in the name of the owner thereof.

The Subordinated Securities will be subject to certain restrictions on transfer as set forth under "Transfer Restrictions".

Except in the limited circumstances described herein, owners of beneficial interests in the Regulation S Global Subordinated Securities will not be entitled to receive physical delivery of certificated Subordinated Securities. The Subordinated Securities are not issuable in bearer form.

The Indenture

The following summary describes certain provisions of the Indenture. The summary does not purport to be complete and is subject to, and qualified in its entirety by reference to, the provisions of the Indenture.

Events of Default. An "Event of Default" is defined in the Indenture as:

(a) a default in the payment, when due and payable, of any interest on any Class S Note, on any Class A Note or Class B Note, or if there are no Class S Notes, Class A Notes or Class B Notes Outstanding, any Class C Note, or if there are no Class S Notes, Class A Notes, Class B Notes or Class C Notes Outstanding, any Class D Note, or if there are no Class S Notes, Class A Notes, Class B Notes, Class C Notes or Class D Notes Outstanding, any Class E Note, which default in each case shall continue for a period of five Business Days (or, in the case of a default in payment resulting solely from an administrative error or omission by the Trustee, any paying agent or the Registrar, such default continues for a period of ten Business Days after the Trustee receives written notice of or has actual knowledge of such administrative error or omission);

(b) a default in the payment of principal on any Secured note at its Stated Maturity or Redemption Date (unless notice of such redemption has been timely withdrawn);

(c) the failure on any Payment Date to distribute amounts available in the Payment Account in excess of $1,000 in accordance with the Priority of Payments and continuation of such failure for a period of ten Business Days (provided, if such failure results solely from an administrative error or omission by the Trustee, such default continues for a period of ten or
Footnote Exhibits - Page 5058

more Business Days after the Trustee receives written notice of or has actual knowledge of such administrative error or omission);

d) as of any Measurement Date after the Initial Investment Period, so long as the Class A Notes are Outstanding, the Class A Par Value Ratio is less than 100%;

e) a circumstance in which either of the Issuers or the pool of Collateral becomes an investment company required to be registered under the Investment Company Act;

f) a default in the performance, in a material respect, or breach, in a material respect, of any covenant, representation, warranty or other agreement of the Issuers in the Indenture (other than a covenant or agreement which is specifically addressed elsewhere in the Indenture) (it being understood that a failure to satisfy a Collateral Quality Test, a Covenant Test, the Reinvestment Test or a Concentration Limitation does not constitute a default or breach) or in any certificate or other writing delivered pursuant hereto or in connection herewith or if any representation or warranty of the Issuers in the Indenture or in any certificate or writing delivered pursuant hereto proves to be incorrect in any material respect when made, and, in each case, the continuance of such default or breach for a period of 30 days after written notice thereof shall have been given to the Issuers and the Collateral Manager by the Trustee or to the Issuers, the Collateral Manager and the Trustee by the Holders of at least 25% of the Aggregate Outstanding Amount of the Controlling Class, specifying such default, breach or failure and requiring it to be remedied and stating that such notice is a "Notice of Default" under the Indenture:

g) the entry of a decree or order by a court having competent jurisdiction adjudging either of the Issuers as bankrupt or insolvent or granting an order for relief or approving as property filed a petition seeking reorganization, arrangement, adjustment or composition of or in respect of either of the Issuers under the Bankruptcy Code, the bankruptcy or insolvency laws of the Cayman Islands (with respect to the Issuer) or any other applicable law, or appointing a receiver, liquidator, assignee, or sequestrator (or other similar official) of either of the Issuers or of any substantial part of its property, or ordering the winding up or liquidation of its affairs; or an involuntary case or proceeding shall be commenced against either of the Issuers seeking any of the foregoing and such case or proceeding shall continue in effect for a period of 90 consecutive days;

h) the institution by either of the Issuers of proceedings to be adjudicated as bankrupt or insolvent, or the consent by it to the institution of bankruptcy or insolvency proceedings against it, or the filing by either of the Issuers of a petition or answer or consent seeking reorganization or relief under the Bankruptcy Code, the bankruptcy and insolvency laws of the Cayman Islands (with respect to the Issuer) or any other applicable law, or the consent by it to the filing of any such petition or to the appointment of a receiver, liquidator, assignee, trustee or sequestrator (or other similar official) of either of the Issuers or of any substantial part of its property, or the making by it of an assignment for the benefit of creditors, or the admission by it in writing of its inability to pay its debts generally as they become due, or the taking of any action by either of the Issuers in furtherance of any such action.

If an Event of Default shall have occurred and be continuing, the Trustee may, by notice to the Issuers and the Collateral Manager or shall, at the written direction of a Majority of the Controlling Class by notice to the Issuers (and the Trustee shall in turn provide notice to the Holders of all Securities then Outstanding and the Collateral Managers), subject to the Indenture, declare the principal of and accrued and unpaid interest on all the Secured Notes to be immediately due and payable (except that, in the case of an Event of Default described in subclause (g) or (h) above, such an acceleration will occur automatically and shall not require any action by the Trustee or any Securedholder).

At any time after such a declaration of acceleration of the Stated Maturity of the Secured Notes has been made and before a judgment or decree for payment of the money due has been obtained by the Trustee as provided in accordance with the terms of the Indenture, a Majority of the Controlling Class, by
written notice to the Issuer, the Collateral Manager and the Trustee, may rescind and annul such declaration and its consequences if:
(i) the Issuer or the Co-Issuer has paid or deposited with the Trustee a sum sufficient to pay, and shall pay:
(A) all overdue installments of interest on and principal of the Secured Notes (other than amounts due solely as a result of such acceleration);
(B) to the extent that payment of such interest is lawful, interest upon any Deferred Interest and Defaulted Interest at the applicable Note Interest Rates;
(C) all unpaid taxes and Administrative Expenses and other sums paid or advanced by the Trustee under the Indenture and the reasonable compensation, expenses, disbursements and advances of the Trustee and its agents and counsel; and
(D) all amounts then due and payable to any Hedge Counterparty; and
(ii) the Trustee has determined that either (1) all Events of Default, other than the non-payment of the interest on or principal of Secured Notes that have become due solely by such acceleration, have been cured and a Majority of the Controlling Class by written notice to the Trustee has agreed with such determination or (2) a Majority of the Controlling Class by written notice to the Trustee has waived such Event of Default as provided in the Indenture.

If an Event of Default shall have occurred and be continuing and an acceleration has occurred, the Trustee shall retain the Collateral, collect and cause the collection of the proceeds thereof and make and apply all payments and deposits in the manner described under "Description of the Securities—Priority of Payments" unless:
(a) the Trustee determines, and a Majority of the Controlling Class agrees with such determination, that the anticipated proceeds of a sale or liquidation of the Collateral (after deducting the expenses of such sale or liquidation) would be sufficient to pay in full the sum of:
(i) the principal and accrued interest with respect to all the Outstanding Secured Notes,
(ii) (A) all Administrative Expenses, (B) the net amount, if any, then payable to Hedge Counterparties by the Issuer, and (C) all other items prior in the Priority of Payments to payments on the Secured Notes, and
(iii) up to 15% of the sum of the amounts described in subclause (i) and (ii) above based on the time elapsed between the confirmation of such determination by an independent certified public accountant and the sale of the Collateral Obligations and Eligible Investments; or
(b) the Holders of at least 66 2/3% of the Aggregate Outstanding Amount of each Class of Secured Notes (each Class voting separately) direct the sale and liquidation of the Collateral.

Notwithstanding any provision to the contrary contained herein, if an Event of Default should occur and be continuing, the Trustee will make payments to the Holders of the Securities only in the manner described in "Description of the Securities—Priority of Payments," except that if acceleration has occurred in accordance with the terms of the Indenture, or if a Payment Default has occurred and has not been cured or waived, no interest (including any Deferred Interest) shall be payable on any Class of Securities until the Aggregate Outstanding Amount of all Classes of Securities that are senior to such Class of Securities, if any, have been repaid in full.
A Majority of the Controlling Class will have the right to direct the Trustee in the conduct of any proceedings in or the sale of any or all of the Collateral, but only if (i) such direction will not conflict with any rule of law or the Indenture (including the limitations described in the paragraph above), (ii) the Trustee determines that such action will not involve it in liability or expense (unless the Trustee has, in its opinion, received reasonably satisfactory indemnity against any such liability or expense) and (iii) any such sale of any or all of the Collateral is at market prices.

Subject to the provisions of the Indenture relating to the duties of the Trustee, in the event that an Event of Default occurs and is continuing, the Trustee is under no obligation to exercise any of the rights or powers under the Indenture at the request of any Holders of Securities, unless such Holders have offered to the Trustee reasonable security or indemnity in the opinion of the Trustee. A Majority of the Controlling Class may, in certain cases, waive any default with respect to such Securities, except (i) a Payment Default or (ii) a default in respect of a covenant or provision of the Indenture that cannot be modified or amended without the waiver or consent of the Holder of each Outstanding Security adversely affected thereby or (iii) a default in respect of a covenant or provision for the individual protection or benefit of the Trustee, without its consent.

No Securityholder will have the right to institute any proceeding with respect to the Indenture unless (i) such Holder previously has given to the Trustee written notice of a continuing Event of Default; (ii) except in the case of a default in the payment of principal or interest, the Holders of at least 25% of the Aggregate Outstanding Amount of the Controlling Class have made a written request upon the Trustee to institute such proceedings in its own name as Trustee and such Holders have offered the Trustee reasonable indemnity; (iii) the Trustee has for 30 days failed to institute any such proceeding; and (iv) no direction inconsistent with such written request has been given to the Trustee during such 30-day period by a Majority of the Controlling Class.

The Issuer shall not terminate any Hedge Agreements in connection with the liquidation of Collateral pursuant to the Indenture, unless and until the conditions set forth in the Indenture and described above for liquidation of the Collateral have been satisfied.

See "Glossary of Defined Terms—Outstanding" for determining whether the Holders of the requisite percentage of Securities have given any direction, notice or consent.

Notices. Notices to the Holders of the Securities shall be given by first class mail, postage prepaid, to each Holder of Securities at the address appearing in the Register. In addition, for so long as the Securities are listed on the Irish Stock Exchange and so long as the rules of such Exchange so require, or as determined by the Irish Listing Agent, notices to the Holders of the Securities shall also be given by publication in the Official List.

Modification of Indenture. The Issuers and the Trustee may enter into one or more supplemental indentures without obtaining the consent of Holders of the Securities if either: (a) such supplemental indenture would have no material adverse effect on any of the Holders of the Securities (as evidenced by an opinion of counsel (which may be supported as to factuality (including financial and capital markets) matters by a certificate of an officer of the Collateral Manager and other documents necessary or advisable in the judgment of counsel delivering the opinion) or (b) such supplemental indenture is for any of the following purposes:

(i) to evidence the succession of any person to either the Issuer or Co-Issuer and the assumption by any such successor of the covenants of the Issuer or Co-Issuer in the Indenture and the Securities;

(ii) to add to the covenants of the Issuers or the Trustee for the benefit of the Holders of the Securities or to surrender any right or power conferred upon the Issuers;

(iii) to convey, transfer, assign, mortgage or pledge any property to or with the Trustee, or add to the conditions, limitations or restrictions on the authorized amount, terms and purposes of the issue, authentication and delivery of the Securities;

-47-

Confidential Treatment Requested by Goldman Sachs GS MBS-E-001918291
Footnote Exhibits - Page 5061

(iv) to evidence and provide for the acceptance of appointment by a successor trustee and to add to or change any of the provisions of the indenture as shall be necessary to facilitate the administration of the trusts under the indenture by more than one Trustee;

(v) to correct or amplify the description of any property at any time subject to the lien of the indenture, or to correct, amplify or otherwise improve upon any pledge, assignment or conveyance to the Trustee of any property subject to or required to be subject to the lien of the indenture (including, without limitation, any and all actions necessary or desirable as a result of changes in applicable law or regulations) or to cause any additional property to be subject to the lien of the indenture;

(vi) to modify the restrictions on and procedures for resale of and other transfers of Securities to reflect any changes in applicable law or regulation (or the interpretation thereof) or to enable the Issuer to rely upon any exemption from registration under the Securities Act or the Investment Company Act or to remove restrictions on resale and transfer to the extent not required thereunder;

(vii) to otherwise correct any inconsistency or mistake or cure any ambiguity (a) arising under the indenture or (b) in connection with the final offering circular or any other transaction document;

(viii) to take any action necessary or advisable to prevent the Issuer or the Trustee from becoming subject to withholding or other taxes, fees or assessments or to prevent the Issuer from being treated as engaged in a United States trade or business or otherwise being subject to United States federal, state or local income tax on a net income basis;

(ix) to facilitate the issuance of additional Securities or Replacement Notes pursuant to the indenture;

(x) to modify certain representations and warranties relating to the Trustee’s security interest in the Collateral;

(xi) to facilitate (A) the listing of any of the Securities on any exchange and/or (B) compliance with the rules of such exchange;

(xii) to facilitate the issuance of combination securities or other similar securities;

(xiii) to change the minimum denomination of the Securities, but in no event may denominations be less than the amount of the Dollar equivalent of $50,000;

(xiv) to facilitate securities lending (provided that no Securityholders are materially adversely affected thereby);

(xv) to accommodate the acquisition of Synthetic Securities so long as the related changes are administrative or mechanical in nature;

(xvi) to accommodate the issuance of any Securities in book-entry form through the facilities of DTC or otherwise;

(xvii) to amend the definition of “Eligible Investment” (and the related definitions) to include such other Eligible Investments that S&P has confirmed in writing to the Trustee or the Collateral Manager at the time of investment therein will not cause it to reduce or withdraw its then current rating of any Class of Secured Notes;

(xviii) to amend the definition of “Synthetic Security” (other than subclause (i), (ii), or (iii) of such definition) or “Reference Obligation” if any of the Rating Agencies changes its methodologies with respect to Synthetic Securities;
Footnote Exhibits - Page 5062

(b) to take any action necessary or advisable in the reasonable judgment of the Issuer or the Collateral Manager for the Issuer to comply with the European Union Transparency Obligations Directive or to permit the Issuers to de-list any listed Class of Securities in accordance with the Indenture;

(c) to evidence any waiver by any Rating Agency as to any requirement or condition, as applicable, of the Rating Agency in the Indenture;

(d) to facilitate hedging transactions;

(e) to modify any provision to facilitate an exchange of one security for another security of the same issuers that has substantially identical terms except transfer restrictions, including to effect any serial designation relating to the exchange; or

(f) with the consent in writing of the Collateral Manager, and upon certification in writing from, the Collateral Manager:

1. to modify the restrictions on the sales of the Collateral Obligations (and the related definitions); and

2. to enter into any additional agreement not expressly prohibited by the Indenture as well as any amendment, modification, or waiver;

provided, that, in each case above in this Item (f), the Issuer has determined that the amendment, modification, supplemental indenture or waiver would not be materially adverse to holders of any Class of Securities, as evidenced by an opinion of counsel (which may be supported as to federal (including financial and capital markets) matters by a certificate of an officer of the Collateral Manager and other documents necessary or advisable in the judgment of counsel delivering the opinion).

The Trustee may, based upon an officer’s certificate and an opinion of counsel provided to the Trustee by the party requesting such amendment, determine whether or not the Holders of Securities would be materially adversely affected by any supplemental indenture (after giving notice of such change to the Holders of Securities), and such determination shall be conclusive on all present and future Holders. In executing any such supplemental indenture, the Trustee shall be entitled to rely upon such officer’s certificate and opinion of counsel.

The Issuers and the Trustee may also enter into one or more supplemental indentures, without obtaining the consent of holders of the Securities, whether or not adversely affected thereby, but with the consent of the Collateral Manager, so long as each of the S&P Rating Condition and the Moody’s Rating Condition has been satisfied, for any of the following purposes:

(i) to change any of the components of the Ratings Matrix;

(ii) to change the Moody’s Minimum Weighted Average Recovery Rate Test;

(iii) to change the S&P Minimum Weighted Average Recovery Rate Test; or

(iv) to reflect changes in Rating Agency methodologies.

With the consent of a Majority of the Outstanding Securities of each Class of Securities materially and adversely affected thereby, the Trustee and the Issuers may execute a supplemental indenture to add provisions to, or change in any manner or eliminate any provisions of the Indenture or modify in any manner the rights of the Holders of the Securities, provided that, without the consent of each Holder of each Outstanding Security of each Class adversely affected thereby, no supplemental indentures may be entered into which:

991
(i) change the Stated Maturity of the principal of any Secured Note, or the date on which any installment of principal or interest on any Secured Note is due and payable, change the date of any scheduled distribution on the Subordinated Securities, reduce the principal amount of any Secured Note or the Note Interest Rate or the redemption price with respect to any Secured Note, change the earliest specified date on which any Security may be redeemed, change the provisions of the Indenture for the application of Proceeds of any Collateral to the payment of principal or interest on the Secured Notes or to the payment of distributions on the Subordinated Securities or change any place where, or the coin or currency in which, any Secured Note or the principal thereof or interest thereon is payable or any Subordinated Security or distributions thereon are payable, or impair the right to institute suit for the enforcement of any such payment or on or after the Stated Maturity thereof or, in the case of redemption of a Security, on or after the applicable Redemption Date of such Security;

(ii) reduce the percentage of the Aggregate Outstanding Amount of Securities of each Class the consent of the Holders of which is required for the authorization of any such supplemental indenture, or the consent of the Holders of which is required for any waiver of compliance with certain provisions of the Indenture or certain defaults thereunder and their consequences;

(iii) impair or adversely affect the Collateral except as otherwise permitted by the Indenture;

(iv) except as expressly provided in the Indenture and other than the lien of the Indenture, permit the creation of any lien with respect to any part of the Collateral or terminate such lien on any property at any time subject thereto or deprive any Holder of a Secured Note or the Trustee of the security afforded by the lien of the Indenture;

(v) reduce the percentage of Holders of the Secured Notes of each Class whose consent is required to request the Trustee to preserve the Collateral or rescind the Trustee's action to preserve the Collateral or to sell or liquidate the Collateral pursuant to the Indenture;

(vi) modify any of the provisions of the Indenture with respect to any supplemental indenture except to increase the percentage of Outstanding Securities whose consent is required for any such action or to provide that other provisions of the Indenture cannot be modified or waived without the consent of the Holder of each Outstanding Security adversely affected thereby;

(vii) modify the definition in the Indenture of the term "Outstanding";

(viii) modify any of the provisions of the Indenture in such a manner as to (a) affect the calculation of the amount of any payment of interest on or principal of any Secured Note, (b) modify any amount distributable to the Holders of the Subordinated Securities on any Payment Date or (c) affect the rights of the Holders of the Securities to the benefit of any provisions for the redemption of the Securities contained therein;

(ix) amend any provision of the Indenture or any other agreement entered into by the Issuer with respect to the transactions contemplated hereby relating to the institution of proceedings for the Issuer or the Co-Issuer to be adjudicated as bankrupt or insolvent, or the consent of the Issuer or the Co-Issuer to the institution of bankruptcy or insolvency proceedings against it, or the filing with respect to the Issuer or the Co-Issuer of a petition or answer in a court of competent jurisdiction seeking reorganization, arrangement, moratorium or liquidation proceedings, or other proceedings under the Bankruptcy Code or any similar laws, or the consent of the Issuer or the Co-Issuer to the filing of any such petition or the appointment of a receiver, liquidator, assignee, trustee or sequestrator (or other similar officer) of the Issuer or the Co-Issuer or any substantial part of its property, respectively; or
Footnote Exhibits - Page 5064

(d) amend any limited recourse provision of the Indenture or any limited recourse provision of any other agreement entered into by the Issuer or the Co-Issuer with respect to the transactions contemplated hereby (which limited recourse provision provides that the obligations of the Issuer or the Co-Issuer, as the case may be, are limited recourse obligations of the Issuer or the Co-Issuer, as the case may be, payable solely from the Collateral in accordance with the terms of the Indenture).

Unless the Collateral Manager has been given prior written notice of such amendment and has consented thereto in writing, such consent being in the sole discretion of the Collateral Manager, no supplemental Indenture may (a) affect the obligations or rights of the Collateral Manager including, without limitation, modifying the restrictions on the purchases or sales of Collateral Obligations or the Eligibility Criteria, the Collateral Quality Tests, the Coverage Tests or the Concentration Limitations or expanding or retrenching the Collateral Manager's discretion or (b) affect the amount or priority of any fees or other amounts payable to the Collateral Manager under the Collateral Management Agreement and the Indenture.

Under the Indenture, in connection with any supplemental indenture, the Trustee will, for so long as the Secured Notes are Outstanding and rated by the Rating Agencies, mail a copy of any proposed supplemental indenture to the Rating Agencies not later than 15 Business Days prior to the execution of such proposed supplemental indenture, and no such supplemental indenture shall be entered into unless S&P shall confirm in writing that such proposed supplemental indenture would not cause the rating of any Class of Secured Notes to be reduced or withdrawn.

Additional Issuance. The Indenture will provide that additional Securities of all existing Classes of Securities may be issued and the Issuer may use the proceeds to purchase additional Collateral Obligations and, if applicable, enter into additional Hedge Agreements if the following conditions are satisfied:

(a) such additional issuances may not exceed 100% in the aggregate of the original principal or notional amount of each applicable Class of Securities;

(b) such additional Securities must be issued for a cash sales price;

(c) additional Securities of the existing Secured Notes must be issued in a pro rata amount (based on the then Aggregate Outstanding Amount of each Class of Securities), other than the Class B Notes which may or may not be issued in a pro rata amount;

(d) the terms (other than the date of issuance, the issue price, the CUSIP and the date from which interest will accrue or, in the case of the Subordinated Securities, the date from which the Holders of Subordinated Securities are entitled to receive Interest Proceeds and Principal Proceeds as distributions thereon) of such additional Securities must be identical to the terms of the previously issued Securities of the Class of which such additional Securities, as applicable, are a part;

(e) the Moody's Rating Condition and the S&P Rating Condition must be satisfied with respect to such additional issuance;

(f) the Holders of the Subordinated Securities shall have been notified in writing at least 30 days prior to such issuance and shall have been afforded the first opportunity to purchase additional Subordinated Securities in an amount equal to the percentage of the Aggregate Outstanding Amount of Subordinated Securities each Holder held immediately prior to such issuance (the "Subordinated Securities Anti-Dilution Percentage") of such additional Subordinated Securities and on the same terms offered to investors generally and a majority of the Subordinated Securities consent to such additional issuance;

(g) the Collateral Manager shall have consented in writing to such additional issuance;

Confidential Treatment Requested by Goldman Sachs GS MSS-E-001916285
Footnote Exhibits - Page 5065

(h) an opinion of counsel will be delivered to the Trustee to the effect that none of the Issuer, the Co-Issuer or the pool of Collateral will be required, as a result of such issuance, to be registered as an investment company under the Investment Company Act;

(i) an opinion of tax counsel of nationally recognized standing in the United States experienced in such matters must be delivered to the Trustee to the effect that (a) such additional issuance will not result in the Issuer becoming subject to U.S. federal income taxation with respect to its net income, (b) such additional issuance would not cause Holders or beneficial owners of the Securities previously issued to be deemed to have sold or exchanged such Securities under Section 1001 of the Code and (c) any additional Co-Issued Notes will be debt for U.S. federal income tax purposes;

(j) such additional Securities shall be issued in a manner that will allow the Issuer to accurately provide the information described in United States Treasury Regulation Section 1.1275-3(b)(10) if such additional securities are not publicly offered and are issued with original issue discount within the meaning of such regulation;

(k) any Administrative Expenses incurred with respect to such issuance will be paid from the proceeds of such issuance; and

(l) the Issuer shall deliver an officer's certificate to the Trustee certifying that the conditions precedent to such issuance set forth under this section “Additional Issuance” have been satisfied.

In addition, the Issuer may issue and sell additional Subordinated Securities (without issuing additional Secured Notes of any Class); provided that the following conditions are satisfied:

(a) the subordination terms of such Subordinated Securities must be identical to the terms specified in the Indenture;

(b) the dates on which such additional Subordinated Securities receive any distribution from the Issuer must be the same dates as all other Subordinated Securities;

(c) each other term of such Subordinated Securities (other than the issue price thereof and the date from which the Holders of the Subordinated Securities are entitled to receive interest proceeds and principal proceeds as distributions thereon) must be no more favorable to the purchasers thereof than the corresponding term of the previously issued Subordinated Securities;

(d) such additional Subordinated Securities must be issued for a cash sales price;

(e) the Holders of the Subordinated Securities shall have been notified in writing at least 30 days prior to such issuance and shall have been afforded the first opportunity to purchase additional Subordinated Securities in an amount equal to the Subordinated Securities Anti-Dilution Percentage of such additional Subordinated Securities and on the same terms offered to investors generally (which right to purchase additional Subordinated Securities shall expire if not exercised prior to the end of business on the date 20 days after the date of receipt of notice of such issuance of such additional Subordinated Securities);

(f) the Collateral Manager shall have consented in writing to such additional issuance and S&P shall have been given prior written notice of such additional issuance;

(g) an opinion of counsel must be delivered to the Trustee to the effect that none of the Issuer, the Co-Issuer or the pool of Collateral will be required, as a result of such issuance, to be registered as an investment company under the Investment Company Act;

GS MBS-E-001918287
In connection with any additional issuance of Securities, the Issuer shall, to the extent required by the rules thereon, provide the New York Stock Exchange with a Listing Circular or an Offering Circular Supplement, relating to such additional Securities.

In addition, each additional issuance of Subordinated Securities shall be issued as a separate subclass of Subordinated Securities. In connection with the issuance of such subclass of Subordinated Securities, the Issuer shall designate whether the applicable subclass will be an “Included Subclass” or an “Excluded Subclass” (as those terms are used in the calculation and payment of incentive Collateral Management Fees). For the avoidance of doubt, the Subordinated Securities issued on the Closing Date will be deemed an Included Subclass.

Jurisdictions of Incorporation. Under the Indenture, the Issuer and the Co-Issuer will be required to maintain their rights and franchises as a company and a corporation incorporated under the laws of the Cayman Islands and the State of Delaware, respectively, to comply with the provisions of their respective organizational documents and to obtain and preserve their qualification to do business as foreign corporations in each jurisdiction in which such qualifications are or shall be necessary to protect the validation and enforceability of the Indenture, the Securities or any of the Collateral; provided, however, that the Issuer shall be entitled to change its jurisdiction of incorporation and principal place of business from the Cayman Islands to any other jurisdiction reasonably selected by the Issuer and approved by the ordinary shareholder of the Issuer, so long as (a) such change is not disadvantageous in any material respect to the Issuer, the Holders of any Class of Securities or the Collateral Manager; (b) written notice of such change shall have been given by the Issuer to the Trustee, the Holders, the Collateral Manager and each of the Rating Agencies at least 30 Business Days prior to such change of jurisdiction and (c) or on or prior to the 30th Business Day following such notice the Trustee shall not have received written notice from a Majority of the Controlling Class objection to such change.

Petitions for Bankruptcy. The Indenture will provide that neither (i) the Trustee, nor any officer of the Trustee, nor (j) any Securityholder, nor (k) any Person, nor (l) any court, or (m) any other Person in Instituting against, the Issuer or Co-Issuer any bankruptcy, reorganization, arrangement, moratorium or liquidation proceedings, or other proceedings under Cayman Islands, United States federal or state bankruptcy or similar laws.

Satisfaction and Discharge of the Indenture. The Indenture will be discharged with respect to the Collateral upon delivery to the Trustee for cancellation of all of the Securities, or, within certain limitations (including the obligation to pay principal and interest), upon deposit with the Trustee of funds sufficient for the payment or redemption thereof and the payment by the Issuer of all other amounts due under the Indenture.

Trustee. The Bank of New York Trust Company, National Association will be the Trustee under the Indenture for the benefit of the Holders of the Securities. The Issuer and the Affiliates may maintain other banking relationships and otherwise deal with the Trustee in the ordinary course of business with the Trustee. The payment of the fees and expenses of the Trustee relating to the Securities is solely the obligation of the Issuer. The Trustee and/or its Affiliates may receive compensation in connection with the Trustee’s investment of trust assets in certain Eligible Investments as provided in the Indenture and in connection with the Trustee’s administration of any securities lending activities of the Issuer.

The Indenture contains provisions for the indemnification of the Trustee for any loss, liability or expense incurred without negligence, willful misconduct or bad faith on its part, arising out of or in connection with the acceptance or administration of the Indenture. The Trustee may be removed at any time by a Majority of the Securityholders voting together as a single class, or may be removed at any time when an Event of Default shall have occurred and be continuing, by a Majority of the Controlling Class. No resignation or removal of the Trustee shall be effective until a successor Trustee has been appointed pursuant to the terms of the Indenture.

Reports Prepared Pursuant to the Indenture. Upon the written request in the form of Exhibit A hereto, any Securityholder (or its designee) may request that the Trustee provide to such Securityholder (or

Governing Law. The Indenture and the Securities will be governed by, and construed in accordance with, the laws of the State of New York applicable to agreements made and to be performed therein without regard to the conflict of laws principles thereof.

USE OF PROCEEDS

The aggregate proceeds of the offering of the Securities are expected to equal approximately $502,000,000. Such proceeds will be used by the Issuer (i) to pay expenses related to the offering of the Securities, (ii) to satisfy the Issuer’s obligations under certain warehouse arrangements with respect to a portfolio of Collateral Obligations acquired during the Accumulation Period, (iii) to enter into one or more Hedge Agreements or on or after the Closing Date, (iv) to deposit an amount equal to the Expense Reserve Amount in the Expense Reserve Account and (v) to deposit into the Revolving Credit Facility Reserve Account an amount equal to the Future Drawdown Amount.

On the Effective Date, so long as the Minimum Per Value Ratio is satisfied as of such date, the Collateral Manager may, in its sole discretion, instruct the Trustee in writing to utilize up to $1,000,000 of Principal Proceeds and unused proceeds of the offering of the Securities for application as either Interest Proceeds or Principal Proceeds in accordance with the Priority of Payments and/or transfer to the Discretionary Reserve Account for future application of such funds as either Interest Proceeds or Principal Proceeds in accordance with the Priority of Payments, in each case on or before the Payment Date in February 2006. See “Security for the Secured Notes—Principal Collection Account” and “—Discretionary Reserve Account”.

On the Closing Date, the proceeds of the issuance of the Class S Notes in an amount equal to approximately $2,000,000 will be deposited in the Interest Collection Account. On or before the first Payment Date the Collateral Manager may, in its sole discretion, instruct the Trustee in writing to transfer all or a portion of funds in the Interest Collection Account (representing proceeds of the issuance of the Class S Notes) to the Principal Collection Account for application as Principal Proceeds.

It is expected that approximately $491,966,875 of the aggregate proceeds of the offering of the Securities will be available to the Issuer to satisfy its obligations under certain warehouse arrangements with respect to a portfolio of Collateral Obligations acquired during the Accumulation Period and to purchase additional Collateral Obligations.

RATING OF THE SECURITIES

It is a condition to the issuance of the Securities that the Secured Notes of each Class receive from the Rating Agencies the minimum rating indicated under “Summary—The Offering”. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating agency. The Subordinated Securities will not be rated by any credit rating agency.

SECURITY FOR THE SECURED NOTES

Under the terms of the Indenture, the Issuer will grant to the Trustee, for the benefit of the Holders of the Secured Notes and certain other parties but not the Holders of the Subordinated Securities, a perfected security interest in the Collateral, including the Collateral Obligations, that is of first priority, free of any adverse claim or the legal equivalent thereof, as applicable, to secure the Issuer’s obligations under the Indenture, the Secured Notes and each Hedge Agreement. The Subordinated Securities are not secured.

Purchase of Collateral Obligations

It is expected that, by the Closing Date, the Issuer will have purchased, or entered into agreements to purchase, with the net proceeds of the issuance of the Securities, a portfolio of Collateral Obligations selected by the Collateral Manager consisting approximately 87% of the Aggregate Principal Amount of

Confidential Treatment Requested by Goldman Sachs

GS M99-E-001918289
Collateral Obligations expected to be purchased by the Issuer representing approximately $450,000,000 in Aggregate Principal Amount of Collateral Obligations.

On or prior to the 10th Business Day after the interim Targets Date, the Collateral Manager shall submit to Moody's (with a copy to the Trustee) (a) a statement showing compliance with the interim Targets or (b) if the interim Targets are not satisfied, a plan certified by the Collateral Manager as sufficient, in its judgment, to attain compliance as of the Effective Date with each of the Collateral Quality Tests (other than the S&P CDO Monitor Test), the Par Value Tests, the Minimum Par Value Ratio and the Concentration Limitations.

At the Effective Date, the Aggregate Principal Amount of the Collateral Obligations and the amount of cash and Eligible Investments deposited in the Issuer Accounts are expected to be approximately $493,500,000.

An obligation will be eligible for purchase by the Issuer if it meets the Eligibility Criteria. See "Summary—The Offering—Collateral Obligations".

The Collateral Quality Tests

The "Collateral Quality Tests" will consist of the Diversity Test, the Maximum Rating Factor Test, the Minimum Weighted Average Coupon Test, the Maximum Average Life Test, the Moody's Minimum Weighted Average Recovery Rate Test, the S&P Minimum Weighted Average Recovery Rate Test and the S&P CDO Monitor Test.

On and after the Effective Date, measurement of the degree of compliance with the Collateral Quality Tests will be required as of each Measurement Date.

The values at which each of the Collateral Quality Tests is satisfied and the expected value of each Collateral Quality Test upon the Effective Date are set forth in the table presented under "Summary—The Offering—Collateral Quality Tests".

Ratings Matrix. Subject to the provisions provided below, the Collateral Manager on behalf of the Issuer will have the option (in its sole discretion) to elect which combination of Maximum Rating Factor, Minimum Weighted Average Spread and Minimum Diversity set forth in the Ratings Matrix shall be applicable for purposes of the Diversity Test, the Minimum Weighted Average Coupon Test and the Maximum Rating Factor Test. On the Effective Date, the Collateral Manager on behalf of the Issuer, by notice in writing to the Trustee and Moody's, will elect (in its sole discretion) which "row/column combination" shall apply initially.

Thereafter, on two Business Days' written notice prior to any Measurement Date to the Trustee and Moody's, the Collateral Manager on behalf of the Issuer may elect (in its sole discretion) to have a different "row/column combination" apply. In no event will the Collateral Manager on behalf of the Issuer be obligated to elect to have a different "row/column combination" apply or to elect to have the same "row/column combination" apply.

Diversity Test. The "Diversity Test" is a test that will be satisfied if, as of any Measurement Date, the Diversity Score (rounded to the nearest whole number) equals or exceeds the number set forth in the column entitled "Minimum Diversity" in the Ratings Matrix based upon the "row/column combination" chosen by the Collateral Manager as currently applicable to the Collateral Obligations in accordance with the above. For purposes of the Diversity Test, (a) any Synthetic Security that has a single underlying Reference Obligor shall be included as a Collateral Obligation having the characteristics of the related Reference Obligation and not of the Synthetic Security and any Synthetic Security that has more than one underlying Reference Obligor shall not be included in the Diversity Test, (b) any Collateral Obligation issued to a Securities Lending Counterparty shall be included in the Diversity Test so long as such Securities Lending Counterparty is not in default under the related agreement governing the loan of such Collateral Obligations (a "Securities Lending Agreement") and (c) any CDO Security that is a collateralized loan obligation shall be excluded from the Diversity Test.
Footnote Exhibits - Page 5070

Maximum Rating Factor Test. The "Maximum Rating Factor Test" will be satisfied as of any Measurement Date if the Moody's Weighted Average Rating Factor of the Collateral Obligations is equal to or less than (i) the number set forth in the column entitled "Maximum Rating Factor" in the Ratings Matrix based upon the "Yieldcolumn combination" chosen by the Collateral Manager as currently applicable to the Collateral Obligations in accordance with the Indenture plus (ii) the Rating Factor Modifier. For purposes of the Maximum Rating Factor Test, (a) unless otherwise specified, a Synthetic Security shall be included as a Collateral Obligation having a Moody's Rating Factor determined as described under "Security for the Secured Notes—Certain Matters Relating to Synthetic Securities," and having the other characteristics of the Synthetic Security (and not of the Reference Obligations); and (b) any Collateral Obligation loaned to a Securities Lending Counterparty shall be included in the Maximum Rating Factor Test so long as such Securities Lending Counterparty is not in default under the related Securities Lending Agreement.

Maximum Average Life Test. The "Maximum Average Life Test" will be satisfied, if as of any Measurement Date, the Weighted Average Life of the Collateral Obligations is less than or equal to the number of years applicable to the period in which such Measurement Date occurs, as set forth in a schedule to the Indenture. On the Effective Date, the Maximum Average Life Test shall be met if the Weighted Average Life of the Collateral Obligations is 10 years or less.

Minimum Weighted Average Coupon Test. The "Minimum Weighted Average Coupon Test" will be satisfied, if as of any Measurement Date, the Weighted Average Spread as of such Measurement Date equals or exceeds the Minimum Weighted Average Spread.

The "Minimum Weighted Average Spread" as of any Measurement Date will equal or be greater than the percentage set forth in the row entitled "Minimum Weighted Average Spread" in the Ratings Matrix set forth in "Summary—The Offering—Collateral Quality Tests" based upon the "Yieldcolumn combination" chosen by the Collateral Manager as currently applicable to the Collateral Obligations in accordance with the Indenture.

Moody's Minimum Weighted Average Recovery Rate Test. The "Moody's Minimum Weighted Average Recovery Rate Test" will be satisfied as of any Measurement Date if the Moody's Weighted Average Recovery Rate is equal to or greater than the percentage set forth in "Summary—The Offering—Collateral Quality Tests".

S&P Minimum Weighted Average Recovery Rate Test. The "S&P Minimum Weighted Average Recovery Rate Test" will be satisfied as of any Measurement Date if the S&P Weighted Average Recovery Rate is equal to or greater than the percentage set forth in "Summary—The Offering—Collateral Quality Tests".

S&P CDO Monitor Test. The "S&P CDO Monitor Test" will be satisfied as of any Measurement Date after the Effective Date if, after giving effect to any purchase or sale (or both), if applicable, of a Collateral Obligation, as the case may be, each of the Class A Loss Differential, the Class A Loss Differential, the Class B Loss Differential, the Class C Loss Differential, the Class D Loss Differential and the Class E Loss Differential of the Proposed Portfolio is positive. The S&P CDO Monitor Test will be considered to be improved if each of the Class A Loss Differential, the Class A Loss Differential, the Class B Loss Differential, the Class C Loss Differential, the Class D Loss Differential and the Class E Loss Differential of the Proposed Portfolio is greater than the Class A Loss Differential, the Class A Loss Differential, the Class B Loss Differential, the Class C Loss Differential, the Class D Loss Differential and the Class E Loss Differential, respectively, of the Current Portfolio. For the calculation of the Class A Loss Differential, the Class A Loss Differential, the Class B Loss Differential, the Class C Loss Differential, the Class D Loss Differential and the Class E Loss Differential, the appropriate S&P CDO Monitor determined pursuant to the Indenture shall be used.

After the Effective Date, S&P shall provide nine (9) different S&P CDO Monitors to the Issuer, the Collateral Manager, the Collateral Administrator and the Trustee, such S&P CDO Monitors corresponding to portfolio with weighted average spreads of 2.10%, 2.20%, 2.30%, 2.40%, 2.50%, 2.60%, 2.70%, 2.80% and 2.90%, respectively. The Collateral Manager on behalf of the Issuer will have the option to elect (in its sole discretion) from time to time which S&P CDO Monitor shall apply for purposes of application under the

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001919291
Footnote Exhibits - Page 5071

Indenture. After the Effective Date, the Collateral Manager on behalf of the Issuer, by written notice to the Collateral Administrator, the Trustee and S&P, will elect (in its sole discretion) which S&P CDO Monitor shall apply initially and, thereafter, on two Business Days written notice prior to the Measurement Date to the Collateral Administrator, Trustee and S&P, the Collateral Manager on behalf of the Issuer may elect (in its sole discretion) to have a different S&P CDO Monitor apply, provided, that such elected S&P CDO Monitor must correspond to a portfolio with a weighted average spread that is equal to or lower than the Weighted Average Spread of the Floating Rate Collateral Obligations in the Collateral Portfolio at the time of such election; provided, further, that if the Weighted Average Spread of the Floating Rate Collateral Obligations in the Collateral Portfolio at the time of such election is less than 2.10%, then the S&P CDO Monitor that corresponds to a portfolio with a weighted average spread of 2.10% shall be used. In no event shall the Collateral Manager be obligated to elect a different S&P CDO Monitor or to retain the current S&P CDO Monitor election. For the avoidance of doubt, the selection of an S&P CDO Monitor as described in this paragraph shall be separate and independent of any election of the Collateral Manager on behalf of the Issuer (in its sole discretion) with respect to the Ratings Matrix pursuant to "—Ratings Matrix" above.

In calculating the Class S Scenario Default Rate, the Class A Scenario Default Rate, the Class B Scenario Default Rate, the Class C Scenario Default Rate, the Class D Scenario Default Rate and the Class E Scenario Default Rate, the S&P CDO Monitor considers each obligor's S&P Rating, the number of obligors in the portfolio, the obligor and industry concentrations in the portfolio and the remaining weighted average life of the Collateral Obligations and Eligible Investments and calculates a cumulative default rate based on the statistical probability of distributions of defaults on the Collateral Obligations and Eligible Investments.

The Coverage Tests

The Coverage Tests will be used primarily to determine whether (i) Interest may be paid on the Secured Notes, (ii) Interest Proceeds will be distributed to the Holders of the Subordinated Securities, (iii) Principal Proceeds may be reinvested in Collateral Obligations and (iv) Principal Proceeds and, to the extent needed, Interest Proceeds must be used to make mandatory redemptions of the Secured Notes (other than the Class S Notes) in accordance with the Priority of Payments. See "—Sale of Collateral Obligations; Substitute Securities; Exchange of Defaulted Obligations and Reinvestment Criteria", "Description of the Securities—Principal" and "—Priority of Payments".

"Coverage Tests" means the Par Value Tests and the interest Coverage Tests.

For purposes of the Coverage Tests:

(i) unless otherwise specified, a Synthetic Security shall be treated as set forth in "Security for the Secured Notes—Certain Matters Relating to Synthetic Securities";

(ii) (a) after the occurrence of an “event of default” (as such term is defined under the related Securities Lending Agreement), all Securities Lending Collateral deposited by the related Securities Lending Counterparty in the Securities Lending Account shall be deemed to be part of the Collateral Portfolio but not to exceed the amount of the Securities Lending Counterparty’s obligations owed to the Issuer; and (b) any Collateral Obligation issued to a Securities Lending Counterparty shall be included in the Coverage Tests for so long as an “event of default” (as such term is defined under the related Securities Lending Agreement), shall not have occurred and be continuing under the related Securities Lending Agreement;

(iii) amounts deposited in the Expense Reserve Account shall be excluded; and

(iv) amounts on deposit in each Synthetic Security Collateral Account shall be excluded unless (a) the Collateral Manager notifies the Trustee in writing that it has determined that the amount deposited in such Synthetic Security Collateral Account exceeds the amount owed by the Issuer to the related Synthetic Security Counterparty, in which case such excess portion shall be included or (b) a termination event or an event of default has occurred under the related Synthetic Security, in which case the amount by which the amount deposited in

GS MBS-E-001918292
Sale of Collateral Obligations: Substitute Securities; Exchange of Defaulted Obligations and Reinvestment Criteria

Sales of Collateral Obligations—Generally. The Collateral Obligations may be refinanced prior to their respective final maturities due to, among other things, the existence and frequency of exercise of any optional or mandatory redemption features of such Collateral Obligations. In addition, at any time, the Collateral Manager (in its sole discretion) on behalf of the Issuer may direct the Trustee to: (1) sell, and the Trustee shall sell, in the manner directed by the Collateral Manager (in its sole discretion) on behalf of the Issuer (i) any Security, (ii) any Defaulted Obligation, (iii) any Withholding Tax Security or (iv) any Credit Risk Obligation subject to, in the case of a Credit Risk Obligation, subclauses (i) and (ii) described under "Sale of Credit Improved Obligations and Credit Risk Obligations and Discretionary Sales of Collateral Obligations—Sales of Credit Risk Obligations and Credit Improved Obligations in cases of Co-Issued Notes" Ratings Withdrawal or Downgrade" or (2) exchange a Defaulted Obligation for an Exchangeable Defaulted Obligation in accordance with the limitations described herein. For so long as no Event of Default has occurred and is continuing, the Collateral Manager (in its sole discretion) on behalf of the Issuer may direct the Trustee to sell, and the Trustee shall sell, in the manner directed by the Collateral Manager (in its sole discretion) on behalf of the Issuer (i) any Credit improved Obligation or (ii) any other Collateral Obligation in addition to those described in the preceding sentence, in each case subject to the limitations on amounts and other requirements set forth in the Indenture and described herein.

Sale of Credit Improved Obligations and Credit Risk Obligations and Discretionary Sales of Collateral Obligations

Credit Risk Obligations

A Credit Risk Obligation may be sold during or after the Reinvestment Period. If the proposed sale occurs:

(i) during the Reinvestment Period, the Collateral Manager on behalf of the Issuer will seek to direct the reinvestment of the Sale Proceeds of such Credit Risk Obligation in one or more Substitute Collateral Obligations on or prior to the end of the Permitted Reinvestment Period; or

(ii) after the Reinvestment Period, if the Collateral Manager (in its sole discretion) on behalf of the Issuer elects to reinvest the Sale Proceeds of such Credit Risk Obligation, the Collateral Manager on behalf of the Issuer will seek to direct the reinvestment of the Sale Proceeds of such Credit Risk Obligation in one or more Substitute Collateral Obligations on or prior to the end of the Investment Due Period.

Credit improved Obligations

A Credit improved Obligation may be sold during or after the Reinvestment Period so long as:

(i) if the proposed sale occurs during the Reinvestment Period, the Collateral Manager on behalf of the Issuer will seek to direct the reinvestment of the Sale Proceeds of such Credit improved Obligation within 30 Business Days of settlement of such sale (and such 30 Business Day period may extend beyond the end of the Reinvestment Period if the end of the Reinvestment Period occurs prior to the end of such 30 Business Day period; or

(ii) if the proposed sale occurs after the Reinvestment Period, if the Collateral Manager (in its sole discretion) on behalf of the Issuer elects to reinvest the Sale Proceeds of...
such Credit Improved Obligation, the Collateral Manager on behalf of the Issuer will seek to direct the reinvestment of the Sale Proceeds of each Credit Improved Obligation in one or more Substitute Collateral Obligations within 30 Business Days of settlement of such sale.

Sales of Credit Risk Obligations and Credit Improved Obligations in cases of Co-Issued Notes’ Ratings Withdrawal or Downgrade

During or after the Reinvestment Period, if Moody’s has withdrawn its rating on any of the Secured Notes (other than the Class E Notes), or reduced its rating, in the case of the Class S Notes, the Class A Notes and the Class B Notes, below the initial rating as in effect on the Closing Date or, in the case of the Class C Notes and the Class D Notes, two subcategories below the initial rating as in effect on the Closing Date (regardless of any withdrawal or reduction if subsequent thereto Moody’s has upgraded any such reduced or withdrawn rating to the initial rating in the case of the Class S Notes, the Class A Notes and the Class B Notes and to a level not more than one subcategory below the initial rating in the case of the Class C Notes and the Class D Notes, as applicable), the Collateral Manager on behalf of the Issuer may only instruct the Trustee to sell a Credit Risk Obligation or a Credit Improved Obligation, as the case may be, if

(i) one or more of the Credit Improved Criteria or Credit Risk Criteria, as the case may be, has been satisfied with respect to such Collateral Obligation; or

(ii) prior to such sale, a Majority of the Controlling Class consents to such sale; or

(iii) prior to or following each such downgrade, a Majority of each Class of Secured Notes voting separately by Class, has consented to all or a specified lesser amount of sales of Credit Risk Obligations or Credit Improved Obligations, as the case may be (notwithstanding such downgrade), if being acknowledged and agreed that such consent will be valid for one or more such sales for each one such downgrade and that after any further downgrade, the consent of a Majority of each Class of Secured Notes, voting separately by Class, will need to be obtained again.

Discretionary Sales of Collateral Obligations

Any Collateral Obligation (other than a Defaulted Obligation, a Credit Risk Obligation, a Credit Improved Obligation, an Equity Security or a Withholding Tax Security) may be sold during the Reinvestment Period so long as:

(i) the Collateral Manager on behalf of the Issuer will seek to direct the reinvestment of the Sale Proceeds of each Collateral Obligation in one or more Substitute Collateral Obligations the Aggregate Principal Amount of which is not less than the Aggregate Principal Amount of the Secured Obligations sold within 30 Business Days of settlement of such sale (and such 30 Business Day period may extend beyond the end of the Reinvestment Period if the end of the Reinvestment Period occurs prior to the end of such 30 Business Day period); and

(ii) the Aggregate Principal Amount of Collateral Obligations (other than a Defaulted Obligation, a Credit Risk Obligation, a Credit Improved Obligation, an Equity Security or a Withholding Tax Security) sold in the 12 months prior to such sale (or, if the date of such sale is less than 12 months after the Effective Date, from the Effective Date to the date of such sale) does not exceed 10% of the Aggregate Principal Amount of the Collateral Portfolio, measured as of the beginning of each such twelve month period (or, if applicable, the Effective Date); provided that, for purposes of calculating the limitation under this subclause, (1) the Issuer shall be deemed to have sold any Collateral Obligation that has been loaned to a Securities...
Lending Counterparty but that the Securities Lending Counterparty has failed to return to the Issuer as of the date that such Securities Lending Counterparty notifies the Issuer of its inability to make such return; provided, further, that, in the event the Issuer is able to purchase a Collateral Obligation that a Securities Lending Counterparty has failed to return to the Issuer, the aforesaid deemed sale shall be deemed not to have occurred and (2) the amount of any Collateral Obligation sold shall be reduced to the extent of any purchases of Collateral Obligations of the same collateral (that are pari passu with such sold Collateral Obligation) occurring within 20 Business Days of such sale (determined based upon the date of any relevant trade confirmation or commitment letter).

Discretionary Sales of Collateral Obligations in cases of Co-issued Notes’ Ratings Downgrade

During or after the Reinvestment Period, if Moody's has withdrawn its rating of any of the Secured Notes (other than the Class E Notes), or, in the case of the Class B Notes, the Class A Notes and the Class B Notes, reduced its rating below the initial rating as in effect on the Closing Date or, in the case of the Class C Notes and the Class D Notes, reduced its rating to a rating two subcategories below the initial rating as in effect on the Closing Date (disregarding any withdrawal or reduction if subsequently affirmed by Moody's or reinstated any such reduced or withdrawn rating to at least the initial rating in the case of the Class B Notes, the Class A Notes and the Class B Notes and to a level not more than one subcategory below the initial rating in the case of the Class C Notes and the Class D Notes, as applicable), the Collateral Manager on behalf of the Issuer may only instruct the Trustee to sell a Collateral Obligation pursuant to the “Discretionary Sales of Collateral Obligations” if (a) a Majority of the Controlling Class consents to such sale or (b) prior to or following each such downgrade, a Majority of each Class of Secured Notes, voting separately by Class, has consented to all or a specified lesser amount of sales of Collateral Obligations (notwithstanding such downgrade), it being acknowledged and agreed that such consent will be valid for one or more such sales for each one such downgrade and that after any further downgrade, the consent of a Majority of each Class of Secured Notes, voting separately by Class, will need to be obtained again.

Sale of Equity Securities and Withholding Tax Securities

An Equity Security or a Withholding Tax Security may be sold during or after the Reinvestment Period. If the proposed sale occurs:

(i) during the Reinvestment Period, for so long as an Event of Default has occurred and is continuing, the Collateral Manager on behalf of the Issuer will seek to defer the reinvestment of the Sale Proceeds in one or more Substitute Collateral Obligations prior to the end of the Permitted Reinvestment Period; or

(ii) after the Reinvestment Period or after an Event of Default has occurred and is continuing, the Issuer or the Collateral Manager on behalf of the Issuer will instruct the Trustee to apply the Sale Proceeds thereof in accordance with the Priority of Payments.

Conversion into Equity Securities and Sale of Exchanged Equity Securities

A Collateral Obligation that is a convertible security may be voluntarily converted into an Equity Security by the Issuer only if (1) all Par Value Tests are satisfied following such conversion and (2) on any Determination Date on or after the Second Determination Date, all Interest Coverage Tests are satisfied following such conversion and, in each case, the Issuer, makes a good faith effort to enter into an agreement to sell such Equity Security in accordance with the timing specified in subclause (i) of the immediately following paragraph. For the avoidance of doubt, this paragraph will not be applicable to a purchase or exchange of an Exchanged Equity Security in accordance with "—Exchange of Defeased Obligations".

Confidential Treatment Requested by Goldman Sachs

GS MSS-E-001918265
Footnote Exhibits - Page 5075

Unless acquired in connection with a default or unless the Moody's Rating Condition is satisfied, the Collateral Manager on behalf of the Issuer shall seek to sell, and direct the Trustee in writing to sell, any Exchanged Equity Security within (i) in the case of an Exchanged Equity Security received in connection with an optional conversion at the option of the holder thereof, ten Business Days of the later of (A) the first date on which the Issuer may, in compliance with applicable laws, legally sell, assign or transfer such Exchanged Equity Security and (B) notice of receipt thereof; (ii) in the case of an Exchanged Equity Security not subject to subclause (i) and in the event that any of the Coverage Tests are not met on any Measurement Date following the receipt by the Issuer of such Exchanged Equity Security, 60 days after the first date following such Measurement Date on which the Issuer may, in compliance with applicable laws, legally sell, assign or transfer such Exchanged Equity Security, or (iii) in all other cases, one year after the first date on which the Issuer may, in compliance with applicable laws, legally sell, assign or transfer such Exchanged Equity Security.

Sale of Defaulted Obligations

The Collateral Manager on behalf of the Issuer may, if it believes such to be practicable in its judgment, instruct the Trustee in writing to sell, and the Trustee shall sell, any Defaulted Obligation at any time, provided, however, that during the Reinvestment Period the Collateral Manager on behalf of the Issuer will seek to purchase (on behalf of the Issuer) within 90 Business Days after the settlement date for such sale of a Defaulted Obligation, one or more additional Collateral Obligations having an Aggregate Principal Amount at least equal to the Disposition Proceeds (as defined herein) received from such sale (excluding Disposition Proceeds that constitute Interest Proceeds). After the Reinvestment Period, the Collateral Manager on behalf of the Issuer shall instruct the Trustee to apply the Sale Proceeds of Defaulted Obligations in accordance with the Priority of Payments. For the avoidance of doubt, the exchange of a Defaulted Obligation for an Exchanged Defaulted Obligation shall not be deemed to be a sale of a Defaulted Obligation and (B) the Issuer shall be under no obligation to set a Defaulted Obligation at any time.

Exchange of Defaulted Obligations

Notwithstanding the provisions described under "—Conversion into Equity Securities and Sale of Exchanged Equity Securities," at any time, the Collateral Manager (in its sole discretion) on behalf of the Issuer may instruct the Trustee in writing to exchange a Defaulted Obligation for (i) another Defaulted Obligation (an "Exchanged Defaulted Obligation") or (ii) an Exchanged Equity Security for so long as at the time of or in connection with such exchange:

(a) such Exchanged Defaulted Obligation or Exchanged Equity Security is issued by the same obligor as the Defaulted Obligation (or an Affiliate of or successor to such obligor or an entity that succeeds to substantially all of the assets of such obligor); and, in the case of such Exchanged Defaulted Obligation, ranks in right of payment no more junior than the Defaulted Obligation for which it was exchanged, provided that if the Issuer is also required to pay an amount for such Exchanged Defaulted Obligation or Exchanged Equity Security, the Issuer may use Interest Proceeds to effect such payment for so long as, after giving effect to such purchase, there would be sufficient proceeds in the Interest Collection Account or the Subordinated Securities Interest Collection Account to pay all amounts required to be paid pursuant to the Priority of Payments prior to any contributions to Holders of Subordinated Securities on the next succeeding Payment Date;

(b) in the case of an Exchanged Defaulted Obligation, (1) if any Par Value Test is not satisfied following such exchange, then such Par Value Test is at least as close to being satisfied after such exchange as prior to such exchange and (2) on any Determination Date on or after the Second Determination Date, if any Interest Coverage Test is not satisfied following such exchange, then such Interest Coverage Test is at least as close to being satisfied after such exchange as prior to such exchange.

GS MBS-E-001918296
Footnote Exhibits - Page 5076

(c) in the case of an Exchanged Defaulted Obligation, if rated by the Rating Agencies and if each of the Maximum Rating Factor Test or the SAP CDO Monitor Test is not satisfied following such exchange, then each such Maximum Rating Factor Test or the SAP CDO Monitor Test is at least as close to being satisfied following such exchange as prior to such exchange;

(d) in the case of an Exchanged Defaulted Obligation, the expected total recovery proceeds of such Exchanged Defaulted Obligation, as determined by the Collateral Manager, must be no less than the expected total recovery proceeds of the Defaulted Obligation for which it was exchanged; and

(e) as determined by the Collateral Manager on behalf of the Issuer, in the case of an Exchanged Defaulted Obligation, if any Concentration Limitation is not satisfied following such exchange, then any such Concentration Limitation is at least as close to being satisfied as prior to such exchange.

Reinvestment in Collateral Obligations

Reinvestment shall be subject to market conditions and the availability and suitability of available investments.

Reinvestment Criteria

The Reinvestment Criteria will be measured immediately before the Issuer commits to purchase or purchase a Collateral Obligation, and are designed to compare (i) the Collateral Portfolio before the proposed addition of a Collateral Obligation to the Collateral Portfolio and (ii) the Collateral Portfolio immediately after such Collateral Obligation is added to the Collateral Portfolio. Accordingly, when used with respect to the Reinvestment Criteria, the phrase "prior to such reinvestment" shall mean the following:

(i) Immediately prior to the sale of the related Collateral Obligation, with respect to the reinvestment of the Sale Proceeds of a Credit or a Collateral Obligation other than a Credit Risk Obligation, an Equity Security, a Withholding Tax Security or a Defaulted Obligation;

(ii) Immediately prior to the reinvestment of the Sale Proceeds of a Credit Risk Obligation, an Equity Security, a Withholding Tax Security or a Defaulted Obligation.

(A) Notwithstanding the foregoing discussion, but subject to subclause (B) below, if the Reinvestment Criteria would not be satisfied upon the proposed purchase of a single Collateral Obligation but the Reinvestment Criteria would be satisfied upon the proposed purchase of a number of Collateral Obligations (including such single Collateral Obligation), testing the Reinvestment Criteria as described below in subclause (i), then the Reinvestment Criteria will be deemed to be satisfied for all such Collateral Obligations if the following conditions are met:

(i) such Collateral Obligations have been acquired or will be acquired by the Issuer in accordance with a Trading Plan;

(ii) as evidenced by an officer's certificate of the Collateral Manager delivered to the Trustee on or prior to the earliest event specified in such Trading Plan, the Reinvestment Criteria are expected to be satisfied as of the trade date relating to the last Collateral Obligation that will be purchased pursuant to such Trading Plan or, if not expected to be satisfied as of such trade date, are expected to be maintained or improved as of such trade date;

(iii) the ratings by Moody's on the Class S Notes, the Class A Notes and the Class B Notes at the time of acquisition are not one or more rating subcategories, and the ratings by Moody's on the Class C Notes and the Class D Notes are not two or more rating subcategories, in

Confidential TreatmentRequested by Goldman Sachs
each case, below the applicable ratings in effect on the Closing Date or withdrawn by Moody's and

(iv) no more than one Trading Plan may be in effect at any time.

(b) Subject to (c) below, as measured on the last applicable trade date, if a Trading Plan that was implemented results in either (i) the Reinvestment Criteria were satisfied before the execution of such Trading Plan, the failure to satisfy such Reinvestment Criteria or (ii) if the Reinvestment Criteria were not satisfied before the execution of such Trading Plan, the issuer's failure to maintain or improve its level of compliance with the Reinvestment Criteria, the issuer will be prohibited from entering into any additional Trading Plan notwithstanding that such Trading Plan was implemented in good faith unless the events specified in clauses (i) or (ii) were due to (a) a failure of a counterparty or issuer to comply with any of its payment or delivery obligations to the issuer or any other default by such counterparty or issuer for reasons beyond the control of the issuer or any other terms that were agreed with the issuer at or prior to the commencement of such Trading Plan or (b) an error or omission of an administrative or operational nature made by any bank, broker-dealer, clearing corporation or other similar financial intermediary holding funds, securities or other property directly or indirectly for the account of the issuer. S&P will be notified of any failed Trading Plan.

(c) Notwithstanding subclause (b) above, following a prohibition to enter additional Trading Plans due to the circumstances described in subclauses (b)(i) or (b)(ii) above, if the issuer or the Collateral Manager, on behalf of the issuer, notifies each of the Rating Agencies of its intention to implement an additional Trading Plan, upon satisfaction of the S&P Rating Condition and the Moody's Rating Condition, the issuer may implement such additional Trading Plan in accordance with the limitations set forth in the Indenture. Upon satisfaction of the conditions set forth in the preceding sentence, any prohibition shall be lifted until a subsequent Trading Plan would otherwise cause the issuer to be prohibited from entering additional Trading Plans.

A Collateral Obligation (other than an Exchange Defaulted Obligation, which need not satisfy these tests to be included) will be eligible for inclusion in the Collateral only if subclause (a) or (b) is satisfied. as applicable (collectively, the "Reinvestment Criteria"). The Reinvestment Criteria are not required to be satisfied during the Initial Investment Period.

(a) During the Reinvestment Period after the Initial Investment Period:

(i) with respect to any reinvestment of Principal Proceeds (other than those amounts described in subclause (b) of the definition thereof), (1) if any Par Value Test is not satisfied following such reinvestment, then such Par Value Test is at least as close to being satisfied after such reinvestment as prior to such reinvestment, (2) on the Second Determination Date and any subsequent Measurement Date, if any interest Coverage Test is not satisfied following such reinvestment, then such Interest Coverage Test is at least as close to being satisfied after such reinvestment as prior to such reinvestment and (3) if the Minimum Par Value Ratio is not satisfied following such reinvestment, then either: (x) the Minimum Par Value Ratio is no lower after such reinvestment than prior to such reinvestment, or (y) any of the Moody's Weighted Average Rating Factor, Diversity Score or Weighted Average Life is improved after giving effect to such reinvestment;

(ii) with respect to any reinvestment of Principal Proceeds described in subclause (ii) of this definition thereof, (1) the Par Value Tests are satisfied following such reinvestment and (2) on the Second Determination Date and any subsequent Measurement Date, the Interest Coverage Tests are satisfied following such reinvestment;

(iii) if the Diversity Test is not satisfied following such reinvestment, then such Diversity Test is at least as close to being satisfied after such reinvestment as prior to such reinvestment;

54-
Footnote Exhibits - Page 5078

(iv) if the Maximum Rating Factor Test is not satisfied following such reinvestment, then the Moody's Weighted Average Rating Factor is no higher after such reinvestment than prior to such reinvestment;

(v) if the Minimum Weighted Average Coupon Test is not satisfied following such reinvestment, then the Weighted Average Spread is no lower after such reinvestment than prior to such reinvestment;

(vi) if the Maximum Average Life Test is not satisfied following such reinvestment, then the Weighted Average Life is no longer after such reinvestment than prior to such reinvestment;

(vii) if the Moody's Minimum Weighted Average Recovery Rate Test is not satisfied following such reinvestment, then the Moody's Weighted Average Recovery Rate is no lower after such reinvestment than prior to such reinvestment;

(viii) if the S&P Minimum Weighted Average Recovery Rate Test is not satisfied following such reinvestment, then the S&P Weighted Average Recovery Rate determined with respect to each Class of Secured Notes is no lower after such reinvestment than prior to such reinvestment;

(ix) if the S&P CDO Monitor Test is satisfied prior to such reinvestment, then the S&P CDO Monitor Test is satisfied after such reinvestment or if the S&P CDO Monitor Test is not satisfied prior to such reinvestment and the S&P CDO Monitor Test is not satisfied following such reinvestment, then the Class A Loss Differential, the Class B Loss Differential, the Class C Loss Differential, the Class D Loss Differential and the Class E Loss Differential are no lower after such reinvestment than prior to such reinvestment and (2) the Issuer shall notify S&P of the Class A Loss Differential, the Class B Loss Differential, the Class C Loss Differential, the Class D Loss Differential and the Class E Loss Differential immediately prior to, and immediately after, such reinvestment, provided, however, that this subsection (ix) shall not apply to the reinvestment of Sale Proceeds from the sale of Credit Risk Obligations, Defeased Obligations, Withholding Tax Securities and Equity Securities;

(x) no Event of Default exists at the time such Reinvestment Criteria are applied; and

(xi) with respect to the Collateral Portfolio, if any Concentration Limitation is not satisfied following such reinvestment, then any such Concentration Limitation is at least as close to being satisfied after such reinvestment as prior to such reinvestment.

For the avoidance of doubt, Sale Proceeds may be invested in Eligible Investments, each with a maturity date not to exceed the date that is one Business Day prior to the Scheduled Payment Date next succeeding the Due Period in which such Sale Proceeds are received, pending investment in Collateral Obligations.

(b) After the Reinvestment Period:

(i) the Class A Par Value Test, the Class C Par Value Test, the Class D Par Value Test and the Interest Coverage Tests must be satisfied;

(ii) if the Minimum Par Value Ratio is not satisfied following such reinvestment, then either: (a) the Minimum Par Value Ratio is no lower after such reinvestment than prior to such reinvestment, or (b) any of the Moody's Weighted Average Rating Factor, Diversity Score or Weighted Average Life is improved after giving effect to such reinvestment.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918269
(xii) if the Diversification Test is not satisfied following such reinvestment, then such Diversification Test is at least as close to being satisfied after such reinvestment as prior to such reinvestment;

(xv) the Maximum Rating Factor Test is satisfied after such reinvestment;

(xvi) if the Moody’s Minimum Weighted Average Recovery Rate Test is not satisfied following such reinvestment, then the Moody’s Weighted Average Recovery Rate is no lower after such reinvestment than prior to such reinvestment;

(xvii) if the Moody’s Minimum Weighted Average Recovery Rate Test is not satisfied following such reinvestment, then the Moody’s Weighted Average Recovery Rate determined with respect to each Class of Secured Notes is no lower after such reinvestment than prior to such reinvestment;

(xviii) no Event of Default exists at the time such Reinvestment Criteria are applied;

(xix) the Aggregate Principal Amount of Class CCC Collateral Obligations represents less than 7.5% of the Aggregate Principal Amount of the Collateral Portfolio;

(xx) with respect to the Collateral Portfolio, if any Concentration Limitation is not satisfied following such reinvestment, then such Concentration Limitation is at least as close to being satisfied after such reinvestment as prior to such reinvestment;

(xxi) the S&P CDO Evaluator Test is satisfied;

(xxii) the Maximum Average Life Test is satisfied following such reinvestment; and

(xxiii) the ratings assigned to the Secured Notes (other than the Class E Notes) by Moody’s as of the Closing Date have not been reduced by two or more subcategories in the case of the Class A Notes and the Class D Notes) by one or more subcategories in the case of the Class B Notes, the Class A Notes and the Class B Notes) since the Closing Date and have not been withdrawn by Moody’s (disregarding any withdrawal or reduction if subsequent thereto Moody’s has upgraded or reinstated any such reduced or withdrawn rating to at least the initial rating in effect as of the Closing Date (in the case of the Class A Notes and the Class B Notes) to or to a level not more than one subcategory below the initial rating in effect as of the Closing Date (in the case of the Class A Notes and the Class D Notes)).

Purchase of Equity Securities

Except in connection with the purchase or exchange of an Exchanged Equity Security as described under “—Sale of Collateral Obligations; Substitute Securities; Exchange of Defaulted Obligations and Reinvestment Criteria—Exchange of Defaulted Obligations,” if the Collateral Manager directs the Trustee to purchase any Collateral Obligation which is convertible into an equity security or which has equity features attached, the Collateral Manager on behalf of the Issuer shall determine the portion of the purchase price of such Collateral Obligation that is attributable to the value of the option to convert such Collateral Obligation into an equity security or to the value of equity features, as applicable. If the Collateral Manager determines (in its sole discretion) that there is any Excess Equity Feature Value or the Collateral Manager decides (in its sole discretion) on behalf of the Issuer to exercise any warrants received in respect of any Collateral Obligations, the Collateral Manager shall instruct the Trustee in writing to apply interest Proceeds allocable to the Subordinated Securities Interest Collection Account to pay such Excess Equity Feature Value or to
exert any such warrants, provided that the Collateral Manager shall not direct the Trustee to make such purchase or to exercise any such warrants if, after giving effect to such purchase or exercise, as applicable, there would be insufficient proceeds in the Interest Collection Account or the Subordinated Securities Interest Collection Account to pay all amounts required to be paid pursuant to the Priority of Payments prior to distributions to Holders of the Subordinated Securities on the next succeeding Payment Date.

No equity security may be acquired unless it is either (i) an Equity Security or (ii) an Exchanged Equity Security.

Certain Matters Relating to Synthetic Securities

General. Synthetic Securities will be purchased or entered into by the Issuer for such purposes as (but not limited to):

(i) structuring an investment in Reference Obligations with a desired maturity, currency or interest rate which otherwise may be inconsistent with the criteria for purchasing Collateral Obligations;

(ii) achieving yield enhancement based on the coupon payments by a Reference Obligor; or

(iii) establishing recovery floors or other means of credit protection as a result of defaults on Reference Obligations.

The Issuer's exposure to a particular Synthetic Security Counterparty will be subject to the limitations described in "Glossary of Defined Terms—Synthetic Security Counterparty".

As part of the purchase of a Synthetic Security, the Issuer may be required to purchase or post Synthetic Security Collateral. See "Synthetic Security Collateral Account".

Hedge Agreements

On or after the Closing Date, the Issuer may, subject to the conditions described herein, enter into one or more Hedge Agreements with one or more Hedge Counterparties.

After the Closing Date, the Issuer is authorized to and may enter into Hedge Agreements from time to time but solely for the purpose of managing interest rate and other risks in connection with the Issuer’s issuance of, and making of payments on, the Securities and the Issuer’s ownership and disposition of the Collateral Obligations and with such Hedge Counterparties as it may deem in its sole discretion, subject in all cases to the Moody’s Rating Condition and the S&P Rating Condition having been satisfied. All payments due to any Hedge Counterparty under any Hedge Agreement shall be paid in accordance with the Priority of Payments provided, however, that to the extent any payments are received by the Issuer as a result of entering into replacement transaction(s), the Hedge Counterparty that is being replaced shall have first priority as to such payments versus all other creditors of the Issuer, and the Issuer shall pay (or cause the Trustee to pay) such amounts equal to the termination payments over to the Hedge Counterparty that is being replaced immediately upon receipt. See “Description of the Securities—Priority of Payments”.

Except to the extent otherwise approved by the Rating Agencies, if either of the Rating Agencies downgrades the applicable Hedge Counterparty below the Required Hedge Counterparty Rating, an Additional Termination Event (as defined in the Hedge Agreement) (a “Downgrade Terminating Event”) shall occur unless (x) such Hedge Counterparty has a short-term rating of at least “A-3” by S&P or if no such short-term rating exists, a long-term senior unsecured debt rating, financial program rating, derivatives counterparty rating, counterparty risk rating or similar rating of at least “BBB-” by S&P and (y) at least one of the following events has occurred:

(i) within the time period specified in the Hedge Agreement with respect to such downgrade, such Hedge Counterparty shall transfer the Hedge Agreement, in whole, but not in part, to a counterparty that satisfies the Required Hedge Counterparty Rating, subject to the satisfaction of the Moody’s Rating Condition or the S&P Rating Condition, as applicable;

(ii) within the time period specified in the Hedge Agreement with respect to such downgrade, such Hedge Counterparty shall collateralize (pursuant to a credit support annex to be entered into at such time) its exposure to the Issuer, subject to the satisfaction of the Moody’s Rating Condition or the S&P Rating Condition, as applicable;

Footnote Exhibits - Page 5082

(ii) within the time period specified in the Hedge Agreement with respect to such downgrade, the obligations of such Hedge Counterparty under the Hedge Agreement shall be guaranteed by a person or entity that satisfies the Required Hedge Counterparty Rating, subject to the satisfaction of the Moody's Rating Condition or the S&P Rating Condition, as applicable; or

(iv) within the time period specified in the Hedge Agreement with respect to such downgrade, such Hedge Counterparty shall take such other steps, if any, to enable the Issuer to satisfy the Moody's Rating Condition or the S&P Rating Condition, as applicable.

It shall also be an Additional Termination Event (as defined in the Hedge Agreement) if a Hedge Counterparty has a short-term rating of at least "A-3" by S&P or, if no such short-term rating exists, a long-term senior unsecured debt rating, financial program rating, derivatives counterparty rating, counterparty risk rating or similar rating of less than "BBB" by S&P and within the time period specified in the Hedge Agreement, such Hedge Counterparty, while collateralizing its exposure to the Issuer, fails to transfer the Hedge Agreement, in whole, but not in part, to a counterparty that satisfies the Required Hedge Counterparty Rating, subject to satisfaction of the Moody's Rating Condition or the S&P Rating Condition, as applicable.

The Hedge Counterparties may be Affiliates of the Initial Purchaser and/or Affiliates of the Collateral Manager, which arrangements may create certain conflicts of interest. See "Risk Factors—Certain Conflicts of Interest".

Hedge Agreements may be terminated in accordance with their terms, whether or not the Secured Notes have been paid in full or redeemed prior to such termination, upon the earliest to occur of (I) certain events of bankruptcy, insolvency, conservatorship, receivership or reorganization of the Issuer or the related Hedge Counterparty, (ii) failure on the part of the Issuer or the related Hedge Counterparty to make any payment under the Hedge Agreement within the applicable grace period, (iii) a change in law making it illegal for either the Issuer or the related Hedge Counterparty to be a party to, or perform an obligation under, the Hedge Agreement; (iv) an optional redemption of the Securities as described in "Description of the Securities—Optional Redemption" or (v) certain other events specified in the related Hedge Agreement; provided, however, that (x) no Hedge Agreement may be terminated by any party thereto in connection with an event specified in clause (iv) above until the requirements set forth in the third paragraph under "Description of the Securities—Optional Redemption—Optional Redemption Procedures" have been satisfied and following the expiration of any right of the Issuer to withdrew the related notice of redemption, and (y) if the occurrence or continuance of any Event of Default (other than any Event of Default which is also an event specified in clauses (i) or (ii) above) is a termination event under a Hedge Agreement, then such Hedge Agreement may not be terminated by any party thereto for so long as a Majority of the Controlling Class may rescind and annul the declaration of the related Event of Default in accordance with the provisions of the Indenture.

If the Issuer is unable to or, if applicable, chooses not to obtain a substitute Hedge Agreement in the event that a Hedge Agreement is terminated, interest due on the Secured Notes will be paid from amounts received on the Collateral Obligations without the benefits of a Hedge Agreement or a substitute Hedge Agreement. If the Indenture obligates the Issuer to seek a replacement upon termination of the Hedge Agreement and the Issuer is unable to find a suitable replacement Hedge Agreement, there can be no assurance that the Moody's Rating Condition and the S&P Rating Condition will be satisfied in respect of the Secured Notes. There can be no assurance that such amounts will be sufficient to provide for the full payment of interest on the Secured Notes at the applicable Note Interest Rate or that amounts that would otherwise be distributable to the Holders of the Subordinated Securities will not be reduced in such case.

A termination of a Hedge Agreement does not constitute an Event of Default under the Indenture.

The occurrence of any optional redemption of the Securities will cause the termination of any Hedge Agreement in place at such time. Such termination may require the Issuer to make a termination payment to the Hedge Counterparty, and the Holders may be unable to effect an optional redemption (other than in connection with an optional redemption following a Withholding Tax Event) despite having sufficient proceeds prior to making such termination payment to pay or redeem the Secured Notes and certain

-90-

Confidential Treatment Requested by Goldman Sachs GS M9S-E-001918503

VerDate Nov 24 2008 09:47 May 19, 2011 Jkt 066052 PO 00000 Frm 01015 Fmt 6602 Sfmt 6602 P:\DOCS\66052.TXT SAFFAIRS PsN: PAT
expenses in full. In addition, in order to liquidate the Collateral following an Event of Default, the Hedge Agreement must be terminated and proceeds from such liquidation must be sufficient to pay any termination payment owing to the Hedge Counterparty in addition to any amounts owing under the Secured Notes. As a result, as set forth in the Indenture, the holders of the Secured Notes may be unable to effect a liquidation of the Collateral following an Event of Default despite having sufficient proceeds prior to the payment of such termination payment to pay the Secured Notes and certain expenses in full.

Depending on the requirements of the entity that acts as Hedge Counterparty, the Issuer may be required to post collateral to such Hedge Counterparty if the Class C Fair Value Test is not satisfied on any Determination Date or the Class C Interest Coverage Test is not satisfied on any Determination Date or the Second Determination Date, as specified in subclause (i) under "Description of the Securities—Priority of Payments—Principal Proceeds". If such posting requirements exist, the related Hedge Counterparty may be required to make certain payments to the Issuer to compensate the Issuer for the effect of such posting. See "Description of the Securities—Priority of Payments—Principal Proceeds".

With respect to any Hedge Agreement, (i) the Issuer may, with the consent of the applicable Hedge Counterparty, assign or transfer all or a portion of any Hedge Agreement, (ii) a Hedge Counterparty may assign its obligations under a Hedge Agreement to any institution, (iii) the Issuer may require the terms of the applicable Hedge Agreement, (iv) the Issuer and the Hedge Counterparty may amend a Hedge Agreement and/or (v) the Issuer may terminate a Hedge Agreement and replace a Hedge Counterparty; provided, however, that in the case of (iv) each of the Issuer’s Rating Condition and the S&P Rating Condition has been satisfied and, in such case (i), (ii) or (iv), the Moody’s Rating Condition has been satisfied and, if the Issuer will be required to make a payment in connection with such assignment, transfer or termination, the S&P Rating Condition has been satisfied; provided, further, that the Issuer may terminate a Hedge Agreement without satisfaction of the Moody’s Rating Condition or the S&P Rating Condition in connection with an optional redemption of the Securities if all conditions applicable to such optional redemption set forth in the Indenture have been satisfied.

Any Hedge Agreements will be governed by, and construed in accordance with, the laws of the State of New York without regard to the conflict of laws principles thereof and shall contain appropriate limited recourse and non-petition provisions as against the Issuer equivalent (mutatis mutandis) to those contained in the Indenture.

Securities Lending

Provided that no Event of Default has occurred and is continuing, the Collateral Manager on behalf of the Issuer may, from time to time, in its sole discretion, instruct the Trustee in writing to lend Collateral Obligations to Securities Lending Counterparties (which Securities Lending Counterparties may be Affiliates of the Initial Purchaser and/or Affiliates of the Collateral Manager) pursuant to one or more Securities Lending Agreements.

Such Securities Lending Agreements may create certain conflicts of interest. See "Risk Factors—Certain Conflicts of Interest". The duration of any Securities Lending Agreement, and the Collateral Portfolio leased thereunder, shall not exceed the Stated Maturity of the Securities.

Each Securities Lending Agreement shall be on market terms (except as may be required below), as determined by the Collateral Manager on behalf of the Issuer, in its sole judgment and shall:

(i) require that, in the first instance, the Securities Lending Counterparty return to the Issuer debt obligations that are identical (in terms of issue and class) to the loaned Collateral Obligations; provided that if the Issuer and the Trustee have received an opinion or advice of tax counsel of nationally recognized standing in the United States experienced in such matters to the effect that the failure of the Securities Lending Counterparty to return such loaned Collateral Obligations will not cause the Issuer to be engaged, or deemed to be engaged, in a trade or business in the United States for United States federal income tax purposes, or otherwise to be subject to United States federal income tax on a net basis, the Issuer may accept an alternative other than such loaned Collateral Obligations from the
Footnote Exhibits - Page 5084

Securities Lending Counterparty (for so long as the failure of the Securities Lending Counterparty to provide such alternative will not constitute an event of default under such Securities Lending Agreement);

(i) require that the Securities Lending Counterparty pay to the Issuer such amounts as are equivalent to all interest and other payments that the owner of the loaned Collateral Obligation is entitled to for the period during which the Collateral Obligation is loaned and such payments shall not be subject to any withholding tax imposed by any jurisdiction unless the Securities Lending Counterparty is required under the Securities Lending Agreement to make "gross-up" payments to the Issuer that cover the full amount of such withholding tax on an after-tax basis;

(ii) require that the Moody's Rating Condition and the S&P Rating Condition be satisfied;

(iii) be governed by the laws of New York; and

(iv) permit the Issuer to assign its rights thereunder to the Trustee pursuant to the Indenture.

In addition, the Issuer may indemnify a collateral agent or any other person acting in a similar capacity in connection with a Securities Lending Agreement (although any such indemnity payments will constitute Administrative Expenses and shall be subject to the Priority of Payments).

A Securities Lending Counterparty will be required to post with the Trustee, or any Securities Intermediary, Securities Lending Collateral to secure its obligation to return the Collateral Obligations. "Securities Lending Collateral" means any cash or direct Registered debt obligations of the United States of America that have a maturity of five years or less and that are pledged by a Securities Lending Counterparty as collateral pursuant to a Securities Lending Agreement.

Such collateral will be maintained at all times with the Trustee or any Securities Intermediary in an amount equal to an agreed upon percentage (no less than 100% and in accordance with the related Securities Lending Agreement) of the current market value (determined daily by the related Securities Lending Counterparty and monitored by the Collateral Manager on behalf of the Issuer) of the Issued Securities. Such collateral will not constitute Collateral Obligations and will not be available to support payments on the Secured Notes or for distribution to the Holders of the Subordinated Securities unless the related Securities Lending Counterparty defaults in its obligation to return the loaned Collateral Obligations to the Issuer.

If either of the Rating Agencies downgrades a Securities Lending Counterparty such that the Securities Lending Agreement or Securities Lending Agreements to which the Securities Lending Counterparty is a party are no longer in compliance with the requirements relating to the credit ratings of the Securities Lending Counterparty, then the Issuer, within 10 days thereof, will (i) terminate its Securities Lending Agreement or Securities Lending Agreements with such Securities Lending Counterparty; (ii) obtain a guarantor that meets the rating requirements of the definition of "Securities Lending Counterparty" for the Securities Lending Counterparty's obligations under the Securities Lending Agreement or Securities Lending Agreements; (iii) reduce the percentage of the Aggregate Principal Amount of the Collateral Portfolio loaned to such downgraded Securities Lending Counterparty so that the Securities Lending Agreement or Securities Lending Agreements to which such Securities Lending Counterparty is a party, together with all other Securities Lending Agreements, are in compliance with the requirements relating to the credit ratings of Securities Lending Counterparties; or (iv) take such other steps as each Rating Agency that has downgraded such Securities Lending Counterparty may require to satisfy each of the Moody's Rating Condition and the S&P Rating Condition.

The Issuer's exposure to a particular Securities Lending Counterparty will be subject to the limitations described in "Glossary of Defined Terms—Securities Lending Counterparty."
Footnote Exhibits - Page 5085

Collection and Payment Accounts

Interest Proceeds shall be deposited into a segregated trust account held in the name of the Issuer for the benefit of the Secured Parties (the "Interest Collection Account") (which may be a subaccount of the Collection Account), provided that any such amounts which are Interest Proceeds of assets whose acquisition is attributed to funds raised from the issuance of the Subordinated Securities will be deposited in a segregated trust account designated as the "Subordinated Securities Interest Collection Account" (which may be a subaccount of the Subordinated Securities Collection Account). Amounts deposited in the Interest Collection Account and the Subordinated Securities Interest Collection Account will be available, together with reinvestment earnings thereon, for application to the payment of the amounts set forth under "Description of the Securities—Priority of Payments" and for the acquisition of Substitute Collateral Obligations under the circumstances and pursuant to the requirements described herein and in the Indenture.

On or about the first Business Day prior to each Payment Date, the Trustee will deposit into a separate account held in the name of the Issuer for the benefit of the Secured Parties and designated as the "Payment Account" as set forth in the Indenture, all funds in the Interest Collection Account, the Subordinated Securities Interest Collection Account, the Principal Collection Account and the Subordinated Securities Principal Collection Account (other than amounts that the Issuer is entitled to retain in the Interest Collection Account, the Subordinated Securities Interest Collection Account, the Principal Collection Account or the Subordinated Securities Principal Collection Account for subsequent reinvestment in accordance with the Reinvestment Criteria, if the Issuer so elects as set forth in the Indenture) and any Reinvestment income required for payments to Holders of the Securities and payments of fees and expenses in accordance with the priorities described under "Description of the Securities—Priority of Payments".

On or before the first Payment Date the Collateral Manager may (in its sole discretion) instruct the Trustee in writing to transfer all or a portion of the funds in the Interest Collection Account (representing proceeds of the issuance of the Class S Notes and deposited therein pursuant to the Indenture) to the Principal Collection Account for application as Principal Proceeds.

Amounts retained in the Interest Collection Account, the Subordinated Securities Interest Collection Account, the Principal Collection Account, the Subordinated Securities Principal Collection Account and the Revolving Credit Facility Reserve Account during a Due Period will be invested in Eligible Investments. All proceeds from the Eligible Investments will be retained in the Interest Collection Account, the Subordinated Securities Interest Collection Account, the Principal Collection Account or the Subordinated Securities Principal Collection Account, as applicable, unless used to purchase Substitute Collateral Obligations in accordance with the Reinvestment Criteria, or used as otherwise permitted under the Indenture, in which case the following procedure will be followed: the Collateral Manager may make any required deposit into the Revolving Credit Facility Reserve Account in connection with the purchase of a Revolving Credit Facility or Delayed Funding Term Loan. See "Description of the Securities—Priority of Payments".

Principal Collection Account

Principal Proceeds and proceeds from the issuance and sale of the Securities and any interest payments from one of the Hedge Agreements described above (see "Description of the Securities—Priority of Payments") shall be deposited into a segregated trust account designated as the "Principal Collection Account" (which may be a subaccount of the Collection Account) or the Subordinated Securities Principal Collection Account, as applicable, provided that any such amounts which are Principal Proceeds of assets whose acquisition is attributed to funds raised from the issuance of the Subordinated Securities will be deposited in a separate segregated trust account designated as the "Subordinated Securities Principal Collection Account" (which may be a subaccount of the Subordinated Securities Collection Account). Amounts deposited in the Principal Collection Account and the Subordinated Securities Principal Collection Account will be invested in Eligible Investments until such Principal Proceeds are reinvested in Collateral Obligations in accordance with the Reinvestment Criteria, deposited in the Revolving Credit Facility Reserve Account in connection with the purchase of a Revolving Credit Facility or Delayed Funding Term Loan, or applied in accordance with the Priority of Payments. See "Description of the Securities—Priority of Payments".

-72-

Confidential Treatment Requested by Goldman Sachs

GS MSB-E-001918306
Any unused proceeds from the offering will remain in the Principal Collection Account and the Subordinated Securities Principal Collection Account until the earlier of (a) the day on which such proceeds are used to purchase or fund Collateral Obligations and (b) the end of the Reinvestment Period; provided, that on the Effective Date, so long as the Minimum Fair Value Ratio is satisfied, the Collateral Manager may, in its sole discretion, instruct the Trustee in writing to utilize up to $7,000,000 of Principal Proceeds and unused proceeds remaining in the Principal Collection Account and the Subordinated Securities Principal Collection Account for (i) transfer to the Interest Collection Account for application as Interest Proceeds in accordance with the Priority of Payments, (ii) application as Principal Proceeds in accordance with the Priority of Payments or (iii) transfer to the Discretionary Reserve Account for future transfer and/or application of such funds according to (i) or (ii) above as further described in "Discretionary Reserve Account" below, in each case on or before the Payment Date in February 2008. Any such unused proceeds remaining in the Principal Collection Account and the Subordinated Securities Principal Collection Account at the end of the Reinvestment Period (other than Reinvestment Income which shall be treated as interest Proceeds) shall be applied as Principal Proceeds on the first Scheduled Payment Date following the end of the Reinvestment Period. On any Determination Date on which any of the Fair Value Tests are not satisfied or on any Determination Date on or after the Second Determination Date on which any of the Interest Coverage Tests are not satisfied, all such unused proceeds (other than Reinvestment Income which shall be treated as interest Proceeds) shall be applied as Principal Proceeds in accordance with the Priority of Payments on the next succeeding Scheduled Payment Date. See "Description of the Securities—Priority of Payments".

From time to time after the Closing Date, at the written direction of the Collateral Manager, Principal Proceeds in an amount equal to the Future Drawdown Amount may be transferred from the Principal Collection Account to the Revolving Credit Facility Reserve Account.

Discretionary Reserve Account

If and to the extent that the Collateral Manager (in its sole discretion) instructs the Trustee in writing on the Effective Date to transfer amounts on deposit in the Principal Collection Account or the Subordinated Securities Principal Collection Account to a discretionary reserve account as set forth in "Principal Collection Account" above, the Trustee shall establish a segregated trust account for such purpose (such account, the "Discretionary Reserve Account") into which the Trustee will deposit such amounts as the Collateral Manager so instructs. As directed by the Collateral Manager (in its sole discretion) in writing from time to time until the Payment Date in February 2008, the Trustee shall withdraw funds deposited in the Discretionary Reserve Account for transfer to the Interest Collection Account for application as Interest Proceeds or the Principal Collection Account for application as Principal Proceeds, all as set forth in "Principal Collection Account" above. Amounts in the Discretionary Reserve Account will be invested in Eligible investments in accordance with the written instructions of the Collateral Manager (which may be in the form of standing instructions). On the Payment Date in February 2008, the Trustee shall transfer any amount remaining in the Discretionary Reserve Account to the Interest Collection Account for application as Interest Proceeds or the Principal Collection Account for application as Principal Proceeds, as directed by the Collateral Manager in its sole discretion in writing, and close the Discretionary Reserve Account.

Expense Reserve Account

On the Closing Date, the Issuer will deposit the Expense Reserve Amount into the "Expense Reserve Account". At the written direction of the Collateral Manager (in its sole discretion) or the Issuer, the Trustee may at any time withdraw funds deposited in the Expense Reserve Account solely to pay for any fees or expenses incurred by or on behalf of the Issuer in connection with (i) the structuring and consummation of the offering and the issuance of the Securities or (ii) the Effective Date (i) or (ii) above, the "Reserved Expenses". Amounts in the Expense Reserve Account will be invested in or used to purchase Eligible Investments in accordance with the written instructions of the Collateral Manager (in its sole discretion) which may be in the form of standing instructions) and will, for the avoidance of doubt, not be included in the Collateral Quality Tests and the Coverage Tests. At the written direction of the Collateral Manager (in its sole discretion), the Trustee may at any time transfer amounts deposited in the Expense Reserve Account to the Principal Collection Account so long as the Collateral Manager has confirmed to the Trustee that there are sufficient funds remaining in the Expense Reserve Account after such transfer to pay
Footnote Exhibits - Page 5087

for all accrued but unpaid Reserved Expenses. On the earlier of (i) the first Scheduled Payment Date and (ii) the Business Day that the Collateral Manager has confirmed to the Trustee that all Reserved Expenses have been paid by the Issuer, the Trustee shall transfer any amount remaining in the Expense Reserve Account to the Principal Collection Account and close the Expense Reserve Account. Any amounts transferred from the Expense Reserve Account to the Principal Collection Account will be treated as Principal Proceeds.

Rovolving Credit Facility Reserve Account

Upon the purchase of any Collateral Obligation that is a Revolving Credit Facility or a Delayed Funding Term Loan, funds from the Principal Collection Account or the Subordinated Securities Principal Collection Account, as applicable (including any Revolving Credit Facility Net-Back), will be deposited in the "Revolving Credit Facility Reserve Account” such that the amount of funds on deposit in the account will be equal to or greater than the Aggregate Underlying Undrawn Amount. After the initial purchase, all principal payments received on any Revolving Credit Facility will be deposited into the Revolving Credit Facility Reserve Account (and will not be available for distribution as Principal Proceeds) until the amount held in such account is equal to the Future Drawdown Amount, provided, however, that at all the written direction of the Collateral Manager (in its sole discretion), amounts deposited in the Revolving Credit Facility Reserve Account may be transferred to the Principal Collection Account from time to time so long as, immediately after such transfer, the amount on deposit in the Revolving Credit Facility Reserve Account is greater than or equal to the Aggregate Underlying Undrawn Amount. If a loan consists of a combination of a Revolving Credit Facility and a term loan, only that portion of the loan that constitutes a Revolving Credit Facility will be treated as a Revolving Credit Facility. Amounts in the Revolving Credit Facility Reserve Account will be invested in Eligible Investments and will be included in the Coverage Tests as described above under “—The Collateral Quality Tests” and “—The Coverage Tests”. For the avoidance of doubt, the Issuer will not be deemed to have violated the restriction set forth in clause (vi) of the definition of "Collateral Obligation" by satisfying the Issuer's funding obligations under any Revolving Credit Facilities or Delayed Funding Term Loans.

Synthetic Security Collateral Account

If at any time that any Synthetic Security requires the Issuer to secure its obligations with respect to such Synthetic Security, the Issuer shall establish a segregated trust account for such Synthetic Security (such account, the "Synthetic Security Collateral Account") into which, as directed by the Collateral Manager (in its sole discretion), the Issuer will deposit all amounts which are required to secure the obligations of the Issuer in accordance with the terms of any and all Synthetic Securities entered into between the Issuer and the related Synthetic Security Counterparty.

As directed by the Collateral Manager (in its sole discretion) on behalf of the Issuer in writing, amounts on deposit in a Synthetic Security Collateral Account on behalf of a Synthetic Security Counterparty shall be invested in Eligible Investments which are permitted by the applicable Synthetic Securities and any related credit support documents. Income received on amounts on deposit in such Synthetic Security Collateral Account may, as directed by the Collateral Manager (in its sole discretion) on behalf of the Issuer in writing, either (x) be retained in such Synthetic Security Collateral Account if the Aggregate Principal Amount of all remaining Eligible Investments in such account is not in excess of the Aggregate Principal Amount of any and all outstanding Synthetic Securities entered into between the Issuer and such Synthetic Security Counterparty and such Synthetic Security so provides and may, if so provided, be used to pay amounts owing to such Synthetic Security Counterparty or (y) be withdrawn from such account and deposited in the Issuer Collection Account; or, if the amounts on deposit were, or are the proceeds of, Subordinated Securities Collateral Obligations, the Subordinated Securities Interest Collection Account for distribution as Interest Proceeds. Principal payments received on amounts on deposit in each Synthetic Security Collateral Account prior to the release of the Synthetic Security Collateral will, (i) if so required under the terms of the applicable Synthetic Security and any related credit support documents, be reinvested and/or re-invested as Synthetic Security Collateral in accordance with the terms of such Synthetic Security and any related credit support documents, or (ii) if not so required, be withdrawn from such account and deposited in the Principal Collection Account (or, if the amounts on deposit were, or are, the proceeds of, Subordinated Securities Collateral Obligations, the Subordinated Securities Interest Collection Account) for distribution as Principal Proceeds. For the avoidance of doubt, any cash received from the liquidation of

Confidential Treatment Requested by Goldman Sacha
Synthetic Security Collateral and not paid to the Synthetic Security Counterparty will be deposited into the Principal Collection Account or the Subordinated Securities Principal Collection Account, as the case may be, and be treated as: (i) a recovery on a Defaulted Obligation in the event that the Synthetic Security was terminated as a result of a credit event, an event of default or a termination event (each as defined in the applicable Synthetic Security); (ii) Unscheduled Principal Payments in the event that the Synthetic Security was subject to an agreed-upon termination prior to its scheduled termination; or (iii) Principal Proceeds in the event that the Synthetic Security was terminated at its scheduled maturity or at the sole discretion of the Collateral Manager on behalf of the Issuer. Such cash will be deposited in the Principal Collection Account.

Amounts contained in any Synthetic Security Collateral Account shall not be considered to be an asset of the Issuer for purposes of any of the Collateral Quality Tests or the Coverage Tests (except as provided in subclause (ii) of the definition of "Coverage Test"), but the Synthetic Security which relates to such Synthetic Security Collateral Account shall be so considered an asset of the Issuer. If and to the extent that any Synthetic Securities or any related credit support documents so provide, upon the occurrence of a credit event or an event of default or a termination event (each as defined in the applicable Synthetic Security), amounts contained in the related Synthetic Security Collateral Account shall be liquidated and the proceeds thereof paid to the related Synthetic Security Counterparty, in any such case, only to the extent necessary to satisfy the obligations of the Issuer to the related Synthetic Security Counterparty in accordance with the terms of such Synthetic Security. For the avoidance of doubt, the payment by the Issuer of the proceeds of any liquidation of Eligible Investments contained in the Synthetic Security Collateral Account to a Synthetic Security Counterparty to the extent necessary to satisfy the obligations of the Issuer to the related Synthetic Security Counterparty in accordance with the terms of such Synthetic Security, shall not be deemed to be a violation of the restriction set forth in subclause (ii) of the definition of "Eligibility Criteria".

Securities Lending Account

Securities Lending Collateral pledged pursuant to a related Securities Lending Agreement shall be deposited into a segregated trust account or trust accounts (for Securities Lending Collateral that constitutes Financial Assets as defined in Section 8-131(a)(9) of the UCC) and a demand deposit account or demand deposit accounts (for Securities Lending Collateral that constitutes cash) so designated and established pursuant to the related Securities Lending Agreement (such account, the "Securities Lending Account").

Upon an event of default by any Securities Lending Counterparty under the related Securities Lending Agreement, the Issuer or the Trustee, as the case may be, may be, as permitted in the Securities Lending Agreement and in consultation with the Collateral Manager, shall promptly exercise its remedies under the Securities Lending Agreement, including liquidating, or causing the liquidation of, the related Securities Lending Collateral in accordance with written instructions from the Collateral Manager, in the sole discretion of the Issuer. The proceeds of any such liquidation shall be deposited in the Principal Collection Account and the Subordinated Securities Principal Collection Account, as applicable.

Margin Stock

The Collateral Portfolio may consist of securities that, at the time of purchase (or when a commitment to purchase is entered into), provide for conversion in the option of the holder of "new equity features attached." Debt securities that are convertible into Margin Stock may be also considered Margin Stock and securities with equity features may be considered Margin Stock. The Concentration Limitations limit the amount of such securities that can be purchased by the Issuer. See "Summary—The Offering—Concentration Limitations." Accordingly, the ability of the Issuer to acquire any types of convertible securities and securities with equity features will be restricted by the limitations imposed on the Issuer's ability to acquire Margin Stock. For instance, only proceeds of Subordinated Securities Collateral Obligations and funds on deposit in the Subordinated Securities Interest Collection Account and the Subordinated Securities Principal Collection Account may be used to purchase Collateral Obligations that constitute Margin Stock.

Regulation U governs certain extensions of credit by Regulation U Lenders. Under current interpretations of Regulation U by the FRB and its staff, the purchase of debt securities such as the

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918309
Securities in a private placement may constitute an extension of credit. Among other things, Regulation U generally imposes certain limits on the amount of Purpose Credit that Regulation U Lenders may extend that is secured directly or indirectly by Margin Stock. The provisions of the indenture and the Collateral Management Agreement are intended to ensure that (i) the purchasers of the Subordinated Securities (which are not secured by Margin Stock) are not Regulation U Lenders and (ii) the credit extended by purchasing the Secured Notes (which is secured by the Collateral, which may include Margin Stock) is not Purpose Credit. Regulation U Lenders are not subject to the Regulation U credit limits with respect to extensions of credit that are not Purpose Credit.

Regulation U also generally requires Regulation U Lenders (other than Persons that are banks within the meaning of Regulation U) to register with the FRB. Under an interpretation of Regulation U by the FRB staff, Qualified Institutional Buyers purchasing debt securities secured by Margin Stock in a transaction in compliance with Rule 144A are not required to register with the FRB where the proceeds of the securities are not used for Purpose Credit. Non-U.S. Persons purchasing Secured Notes in reliance on Regulation S who do not have their principal place of business in a Federal Reserve District of the FRB are also not required to register with the FRB.

Any purchaser of Secured Notes who is not a bank (as defined in Regulation U) and is not required to register with the FRB will not be subject to any provisions of Regulation U. Any purchaser of the Secured Notes who is a bank or who is already registered with the FRB as a Regulation U lender generally must obtain from any person to whom they extend credit secured by Margin Stock a Federal Reserve Form U-1 (for bank lenders) or Form U-3 (for non-bank lenders). Purchasers of the Secured Notes may obtain a Form U-1 or U-3, as applicable, executed by the issuer or the issuers, as applicable, from the issuer, for execution and retention by such purchaser on or prior to the Closing Date. Each purchaser of Secured Notes will be responsible for its own compliance with Regulation U, including the filing by the purchaser of any required registration or annual filings under Regulation U, and purchasers of Secured Notes should consult with their own legal advisors as to Regulation U and its application to them. Purchasers of Secured Notes not otherwise exempt from registering with the FRB will be deemed to have consented and agreed that if such purchaser is not registered with the FRB on or prior to the date of the purchaser’s purchase, such purchaser will, within the required time period, register with the FRB.

Under the Indenture, each purchaser of an Interest in a Regulation S Global Secured Note will be deemed to have represented that either (x) such purchaser’s principal place of business is not located within any Federal Reserve District of the United States Federal Reserve Bank or (y) such purchaser has satisfied and will satisfy any applicable registration or other requirements of the FRB including, without limitation, Regulation U, in connection with its acquisition of the Secured Notes.

The accounts established by, and the maintenance of funds and securities under, the Indenture have been structured with the intent that the proceeds of the Secured Notes not be treated as constituting Purpose Credit; however, such result is not guaranteed.

MATURED AND PREPAYMENT CONSIDERATIONS

The Stated Maturity of the Securities (other than the Class II Notes) is the Payment Date in February 2021 and, with respect to the Class II Notes, February 2014; however, the principal of the Secured Notes is expected to be paid in full prior to Stated Maturity. Average life refers to the average amount of time that will elapse from the date of delivery of a security until each Dollar of the principal of such security will be paid to the investor. The average lives of the Secured Notes will be determined by the amount and frequency of principal payments, which are dependent upon, among other things, the amount of sinking fund payments and any other payments received at or in advance of the scheduled maturity of Collateral Obligations (whether through sale, maturity, redemption, default or other liquidation or disposition). The actual average lives and actual maturities of the Secured Notes will be affected by the financial condition of the issuers of the underlying Collateral Obligations and the characteristics of such securities, including the existence and frequency of exercise of any optional or mandatory redemption features, the prevailing level of interest rates, the redemption price, the actual default rate, the actual level of recoveries on any Defaulted Obligations and the timing of defaults and recoveries, and the frequency of tender or exchange offers for such Collateral Obligations. Substantially all of the Collateral Obligations are expected to be subject to sinking fund payments.
payments or optional redemption or prepayment by the issuer of such securities. In addition, if principal payments on the Secured Notes occur under the circumstances described under "Summary—The Offering—Principal Payments on the Secured Notes," the average life of the Secured Notes will also be affected.

Any disposition of a Collateral Obligation may change the composition and characteristics of the Collateral Obligations and the rate of payment therein, and, accordingly, may affect the actual average lives of the Secured Notes. The rate of and timing of future defaults and the amount and timing of any cash realization from Defaulted Obligations also will affect the maturity and average lives of the Secured Notes. The ability of the Collateral Manager to reinvest any Principal Proceeds in the manner described under "Security for the Secured Notes—Sale of Collateral Obligations; Subsidiary Securities; Exchange of Defaulted Obligations and Reinvestment Criteria" and the decisions of the Collateral Manager regarding whether or not to reinvest such proceeds will also affect the average lives of the Secured Notes. For so long as any of the Securities are listed on the Irish Stock Exchange and the rules of such Exchange shall so require, notice of the Maturity of any Class of Securities shall be made in the Irish Stock Exchange's Official List.

THE COLLATERAL MANAGER

The information appearing in this section has been prepared by the Collateral Manager and has not been independently verified by the initial Purchaser or either of the Issuers. The initial Purchaser and the Issuers assume no responsibility for the accuracy, completeness or applicability of such information.

Greywolf Capital Management LP

The Collateral Manager for Greywolf CLO I, Ltd. is Greywolf Capital Management LP (the "Collateral Manager").

Greywolf Capital Management LP is an SEC-registered investment adviser and currently manages over $2 billion in capital. Greywolf was founded in 2003 by a team of former employees of Goldman Sachs' fixed income trading division and now has 29 investment professionals with extensive experience in distressed, high yield and structured product investing.

Key Personnel

Jonathan Savitz, Partner: Mr. Savitz co-founded Greywolf in February 2003 and is the Firm's Chief Executive Officer and the Funds' Chief Investment Officer. Prior to co-founding Greywolf, Mr. Savitz worked at Goldman Sachs for over 15 years from which he retired as a Partner of the firm in 2002. From 1988 – 2002, Mr. Savitz led Goldman's global distressed trading, sales and research effort and was a primary decision maker and risk manager in Goldman's proprietary investing activities across the fixed income markets. From 1995 – 1996, Mr. Savitz managed the high yield trading desk and prior thereto held positions in distressed proprietary investing and corporate bond trading. Mr. Savitz joined Goldman in 1987 after graduating with a B.A. with honors, from The Johns Hopkins University.

James Gillespie, Partner: Mr. Gillespie is a co-founder of Greywolf and is a Portfolio Manager of the Special Situations Funds. Prior to founding Greywolf, Mr. Gillespie worked at Goldman Sachs for six years. Mr. Gillespie was Head of Distressed Bond Investing where he ran Goldman's proprietary distressed bond portfolio on the trading desk. Prior thereto, Mr. Gillespie was director of distressed bond research after having been a distressed analyst for Goldman's bank loan and bond desks. Mr. Gillespie has significant experience in analyzing, valuing and investing in distressed securities as well as managing a large portfolio of distressed investments. He also has experience actively participating in the workout process as both a committee member and large creditor. Prior to Goldman, Mr. Gillespie worked at Salomon Brothers in high yield capital markets. Mr. Gillespie received a Bachelor of Commerce degree, with honors, from the University of British Columbia in 1995 and is a Leslie Wong Fellow. Mr. Gillespie is a CFA charterholder.

Robert Miller, Partner: Mr. Miller is a co-founder of Greywolf and a Portfolio Manager for the Greywolf High Yield Funds. Prior to founding Greywolf, Mr. Miller worked at Goldman Sachs for 10 years and ran Goldman's high yield trading desks in New York and London from 1998 – 2000. After retiring from Goldman, Mr. Miller was retained by the firm for almost two years as a consultant on electronic bond trading platforms. Prior to heading the high yield trading desk, Mr. Miller was a high yield and corporate bond trader.

-77-

Confidential Treatment Requested by Goldman Sachs
GS MBS-E-001918311
for Goldman and prior thereto was a credit analyst for PNC Bank. During his career, Mr. Miller has traded and analyzed most major industry sectors and held proprietary positions in straight debt, common and preferred stock, futures, commodities, trusts, preferreds, and credit derivatives. Mr. Miller received a B.A. magna cum laude from Franklin and Marshall College in 1983 and an M.B.A., with honors, from UNC-Chapel Hill in 1989.

Gregory Mount, Partner. Mr. Mount joined Greywolf in September 2005 as a Partner and is responsible for structured product investments. Prior to joining Greywolf, Mr. Mount worked at Goldman Sachs for 9 years from which he retired as a Partner of the firm in 2005. Mr. Mount founded Goldman’s CDO business in 1998 and later held numerous senior positions in credit derivatives and structured products, including co-head of the Structured Products Group, which consisted of the CMBS, RMBS, ABS and CDO businesses and head of Portfolio Credit Derivatives which encompassed cash and synthetic CDOs. Mr. Mount also initiated Goldman’s proprietary CDO investment activity in 2003 and was the primary decision-maker for that portfolio at its inception. Mr. Mount received a B.S. in Electrical Engineering from M.I.T. in 1987, and an M.B.A., with high honors, from The University of Chicago Graduate School of Business in 1992.

David Samiklagui, Partner. Mr. Samiklagui is a co-founder of Greywolf and a Portfolio Manager of the Special Situations Funds. Prior to founding Greywolf, Mr. Samiklagui worked at Goldman Sachs for ten years where he was one of three portfolio managers in the Special Situations Investing Group, a Goldman Sachs’ proprietary internal hedge fund. Prior to assuming his portfolio management role in 2000, Mr. Samiklagui held numerous positions in distressed investing at Goldman including director of research in both the US and Europe. Mr. Samiklagui joined Goldman in 1992 as a corporate finance generalist before moving to the distressed investing business as a credit analyst in 1998 after returning from business school. Mr. Samiklagui has extensive experience investing in all layers of levered capital structures both on the long and short side and, at times, participating actively in steering and creditors’ committees. Mr. Samiklagui received a B.A. cum laude from Hamilton College in 1992 and an M.B.A. from Harvard Business School in 1997.

William Troy, Partner. Mr. Troy is a co-founder of Greywolf and a Portfolio Manager of the High Yield Funds, as well as having responsibility for firmwide risk management. Prior to founding Greywolf, Mr. Troy was the key manager for JP Morgan’s High Yield business, which he joined following the merger of Smith Barney with Salomon Brothers. At JP Morgan, Mr. Troy was a member of the Senior Trader’s Committee, the Underwriting Committee, the Risk Committee and the Credit Committee. Prior to JP Morgan, Mr. Troy joined Smith Barney in 1995 as a Managing Director to co-head the High Yield business, overseeing sales, trading, research and syndicate. Prior to Smith Barney, Mr. Troy joined Goldman Sachs in 1988 as a senior corporate bond trader where he was responsible for risk taking activities with a further mandate to expand the business and develop new trading personnel. He was later asked to join the High Yield department in 1991 as the senior trader. Prior to Goldman Sachs, Mr. Troy joined Salomon Brothers in 1978 as a manager for the international business in cash flow operations and subsequently as a trader on the corporate bond trading desk. Mr. Troy began his 37-year Wall Street career in 1969 at Dean Witter.

Jeff Fergus, Vice President. Mr. Fergus joined Greywolf in March 2005 as a Vice President in the High Yield Group. Mr. Fergus will be the co-portfolio manager of Greywolf CLO I with Bob Miller. Prior to joining Greywolf Capital, Mr. Fergus was a Vice President of Goldman Sachs working in the European Special Situations Group in London where he set up and acted as Chief Investment Officer of a $2 billion CDO for Goldman’s bank loan and high yield investments. From 1999 until 2003, he was based in Hong Kong as a senior member of Goldman Sachs’ Asian Special Situations Group and co-Head of the ex-Japan corporate business where he focused on investing in distressed loans and bonds in various countries of Southeast Asia, Korea and China, including portfolios of defaulted loans packaged by various government agencies and AMCs. Mr. Fergus joined Goldman Sachs in 1998 in New York as Head of Bank Loan Research. In this capacity, Mr. Fergus worked with Messrs. Gillespie and Samiklagui who were research professionals in the same group. From 1993 until 1998, Mr. Fergus worked at ING Capital in New York in the proprietary investment group focusing on high yield and distressed investments. Prior to ING, Mr. Fergus worked at Prudential Capital and prior thereto for Continental Bank. Mr. Fergus received a B.A. in 1978 and an M.B.A. in 1980 from Indiana University.

GS MBS-E-001918312
Footnote Exhibits - Page 5092

Joe Marcanci, Vice President. Mr. Marcanci joined Greywolf in April 2008 and is responsible for structured product investments. Prior to joining Greywolf, Mr. Marcanci was a Managing Director in the Structured Products Group at Goldman Sachs where he was co-head of ABS Finance and a member of the Mortgage Capital Committee (which is responsible for approving capital commitments across the SMBS, RMBS, ABS and CDO businesses). Mr. Marcanci joined Goldman Sachs in 1993 and became a Managing Director in 2003. Prior to joining Goldman Sachs, from 1984 to 1993, Mr. Marcanci was an attorney with Creath, Swaine & Moore in New York and London. Mr. Marcanci received a B.A. in Economics, summa cum laude, from Columbia College in 1983 and was elected to Phi Beta Kappa. Mr. Marcanci also received a J.D. from Columbia Law School in 1984 and was a Harlan Fiske Stone Scholar each of his three years.

THE COLLATERAL MANAGEMENT AGREEMENT

General

Certain advisory and administrative functions with respect to the Issuer and the Collateral will be performed by the Collateral Manager under the agreement to be entered into between the Issuer and the Collateral Manager (the "Collateral Management Agreement"). Pursuant to the terms of the Collateral Management Agreement, and in accordance with the requirements set forth in the Indenture, the Collateral Manager will perform certain collateral management functions, including directing the purchase and sale of Collateral and performing certain administrative functions on behalf of the Issuer. The Collateral Manager will be authorized to, among other things, (i) select the Collateral Obligations to be acquired and sold by the Issuer, (ii) monitor the performance of Collateral Obligations on an ongoing basis and advise the Issuer as to which Collateral Obligations to sell and which Collateral Obligations to acquire, (iii) instruct the Trustee with respect to any disposition or tender of a Collateral Obligation or Eligible Investment or other Collateral by the Issuer, (iv) advise the Issuer with respect to Interest rate locks, cash flow timing and structuring and negotiating Hedge Agreements and (v) assist the Issuer in the preparation of reports, orders and other documents required pursuant to the Indenture.

The Collateral Manager shall use reasonable care in rendering its services under the Collateral Management Agreement, using a degree of skill and attention no less than that which the Collateral Manager exercises with respect to comparable assets that it manages for clients in substantially similar transactions in accordance with its practices and procedures which the Collateral Manager reasonableness believes to be consistent with those followed by institutional managers of national standing relating to assets of the nature and character of the Collateral Obligations. Neither the Collateral Manager nor its Affiliates will be liable to the Issuer, the Trustee, the holders of the Securities, or any other Person for any loss incurred as a result of the actions taken by or recommended by the Collateral Manager under the Collateral Management Agreement in accordance with the Indenture, except by reason of acts or omissions constituting bad faith, willful or reckless misconduct, gross negligence or reckless disregard, of its obligations hereunder. Subject to the above mentioned standard of liability, the Collateral Manager, its members, manager, officials, agents, employees and Affiliates will be entitled to indemnification by the Issuer for any losses or liabilities, including legal or other expenses, relating to the issuance of the Securities, the transactions contemplated by the Indenture or the performance of the Collateral Manager's obligations under the Collateral Management Agreement, which will be payable as Administrative Expenses in accordance with the Priority of Payments.

The Collateral Manager may assign its rights or responsibilities under the Collateral Management Agreement (even where such assignment would be deemed an "assignment" for purposes of Section 29A(3) of the Investment Advisers Act of 1940, as amended) by, (i) so long as any Securities rated by S&P are Outstanding, satisfying the S&P Rating Condition, (ii) so long as any Securities rated by Moody's are Outstanding, satisfying the Moody's Rating Condition and (iii) obtaining the consent of the Issuer as directed by a Majority of the Controlling Class and a Majority of the Subordinated Securities. The Collateral Manager may delegate to an agent selected with reasonable care any or all of the duties (other than its asset selection or trade execution duties) assigned to the Collateral Manager under the Collateral Management Agreement, provided that no delegation by the Collateral Manager of any of its duties under the Collateral Management Agreement shall relieve the Collateral Manager of any of its duties under the Collateral Management Agreement nor relieve the Collateral Manager of any liability with respect to the performance of such duties. The Collateral Manager may resign upon 60 days prior written notice to the Issuer, the Trustee and each Rating Agency.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918313
Notwithstanding the preceding paragraph, the Collateral Manager will be permitted, with the consent of a Majority of the Subordinated Securities, to assign any or all of its rights and delegate any or all of its obligations to an Affiliate.

The Collateral Manager may be removed for cause by the Issuer, acting upon the direction of (a) 68-29% of the Controlling Class, or (b) 92-20% of the Subordinated Securities (excluding any Securities owned by the Collateral Manager or its Affiliates) upon 10 Business Days' prior written notice. For purposes of the Collateral Management Agreement, "cause" will mean: (a) any willful violation in bad faith or willful breach in bad faith by the Collateral Manager of any provision of the Collateral Management Agreement or the indenture applicable to it; (b) any violation by the Collateral Manager of any provision of the Collateral Management Agreement or the indenture applicable to it (other than as covered by the preceding clause (a)) (it being understood that the failure of any Coverage Test or Collateral Quality Test, which is not caused by a breach described in clause (a) of this definition of "caused", is not such a violation) which violation (1) has a material adverse effect on the Holders of any Class of Securities and (2) is capable of being cured, is not cured within 30 days of the Collateral Manager receiving notice from the Issuer or the Trustee of such violation (or such longer period as is reasonably required to correct any such breach, provided that the Collateral Manager promptly commences and diligently continues to effectuate a cure, but in any event within 90 days after receipt of written notice thereof); (c) the failure of any representation, warranty, certification or statement made or delivered by the Collateral Manager, in or pursuant to the Collateral Management Agreement or the indenture, to be correct in any material respect when made which failure could reasonably be expected to have a material adverse effect on the Holders of any Class of Securities and is not corrected within 30 days of the Collateral Manager receiving notice of the occurrence of such breach; (d) any Events of Default that results from a breach by the Collateral Manager of its duties under the indenture or the Collateral Management Agreement; and (e) the occurrence or an act by the Collateral Manager of its officers having direct responsibility over the Issuer's investment activities that constitutes fraud or criminal activity in the performance of its obligations under the Collateral Management Agreement or its indictment for a criminal offense materially related to its business of providing asset management services.

The Collateral Management Agreement will be automatically terminated if it is determined in good faith that the Issuer or the Co-Issuer or the pool of Collateral has become required to register under the Investment Company Act, and the Issuer so notifies the Collateral Manager.

If the Collateral Manager is removed (but not yet replaced by a successor Collateral Manager) pursuant to one of the previous two paragraphs, the Collateral Manager shall give written notice thereof to the Issuer, the Trustee, and the holders of all Outstanding Securities promptly upon the Collateral Manager's becoming aware of the occurrence of such event.

Notwithstanding anything to the contrary set forth above, no resignation or termination of the Collateral Manager shall become effective until each of the Moody's Rating Condition and the S&P Rating Condition is satisfied with respect to a successor collateral manager selected by the Issuer with the approval of the Holders of a Majority of the Subordinated Securities; provided that the holders of a Majority of each Class of Secured Notes do not object within 90 days after notice of such proposed action (as set forth above, excluding in the event of a removal for cause or with respect to the appointment of an Affiliate as successor, any Securities owned by the Collateral Manager or its Affiliates).

In the event of a resignation by or termination of the Collateral Manager, if no successor Collateral Manager has been appointed or an instrument of acceptance by a successor Collateral Manager has not been delivered to the Collateral Manager within 120 days after the date of notice of resignation by or termination of the Collateral Manager, the resigned or terminated Collateral Manager may petition any court of competent jurisdiction for the appointment of a successor Collateral Manager subject to the satisfaction of the Moody's Rating Condition and the S&P Rating Condition but without the approval of the Issuer or Holders of the Securities.

There is no limitation or restriction on the Collateral Manager or any of its Affiliates with regard to acting as collateral manager (or in a similar role) to other parties or persons. This and other future activities...
of the Collateral Manager and/or their Affiliates may give rise to additional conflicts of interest. The Collateral Manager and its Affiliates currently serve, and will continue to serve, as Collateral Manager for, invest in or be affiliated with, other entities organized to issue collateralized debt obligations secured by high yield loans and bonds.

One or more funds managed by the Collateral Manager will commit to purchase up to 100% of the initial notional amount of the Subordinated Securities. Thereafter, such funds may, from time to time, transfer or sell all or any part of such Subordinated Securities held thereby.

Compensation of the Collateral Manager

As compensation for the performance of its obligations as Collateral Manager under the Collateral Management Agreement, the Collateral Manager will be entitled to receive from the Issuer the Senior Collateral Management Fee, the Subordinated Collateral Management Fee and the Incentive Collateral Management Fee.

The "Senior Collateral Management Fee" is payable in arrears on each Payment Date (subject to availability of funds and to the Priority of Payments) in an amount equal to 0.15% per annum of the Aggregate Principal Amount of the Collateral Portfolio measured as of the beginning of the Due Period preceding such Payment Date. The Senior Collateral Management Fee will be payable before any interest payments or distributions of interest Proceeds on the Securities and will be calculated on the basis of a calendar year consisting of 360 days and the actual number of days elapsed.

The "Subordinated Collateral Management Fee" is payable in arrears on each Payment Date (subject to availability of funds and to the Priority of Payments) in an amount equal to 0.05% per annum of the Aggregate Principal Amount of the Collateral Portfolio measured as of the beginning of the Due Period preceding such Payment Date. The Subordinated Collateral Management Fee will be payable before any interest payments or distributions of interest Proceeds on the Securities and will be calculated on the basis of a calendar year consisting of 360 days and the actual number of days elapsed. In addition, on any Payment Date that any part of the Subordinated Collateral Management Fee is not paid, it shall be carried over, will accrue interest at a rate of LIBOR for the applicable period plus 3.00% per annum and will be payable to the Collateral Manager on future Payment Dates in accordance with the Priority of Payments.

On each Payment Date, in accordance with the Priority of Payments, the Collateral Manager will be eligible to receive an incentive collateral management fee with respect to each subclass of Subordinated Securities (such, an "Incentive Collateral Management Fee"). On any Payment Date, the Incentive Collateral Management Fee with respect to each subclass of Subordinated Securities will equal 20% of the amount of interest Proceeds and Principal Proceeds remaining available for distribution to such subclass at the steps in the Priority of Payments at which the Incentive Collateral Management Fee may be paid. The Incentive Collateral Management Fee with respect to each Included Subclass will be payable on any Payment Date to the Collateral Manager in accordance with the Priority of Payments if the amount paid to such Included Subclass of Subordinated Securities has been sufficient for the holders of such Included Subclass of Subordinated Securities to have received an annualized internal rate of return (calculated on the basis of a 360-day year consisting of twelve 30-day months) of at least 12.0% on a deemed invested amount of $1,000 per Subordinated Security (the "Specified Internal Rate of Return") for the period from the Closing Date to such Payment Date. The Incentive Collateral Management Fee with respect to each Excluded Subclass, if any, will be payable on any Payment Date to the Collateral Manager in accordance with the Priority of Payments even if the Holders of such Excluded Subclasses have not received an Internal Rate of Return of at least 12.0%.

The Incentive Collateral Management Fee, the Senior Collateral Management Fee, and the Subordinated Collateral Management Fee are collectively referred to herein as the "Collateral Management Fees."

One or more funds managed by Greywolf will commit to purchase up to 100% of the initial notional amount of the Subordinated Securities. For so long as Greywolf is the Collateral Manager and any funds managed by Greywolf continue to hold any Subordinated Securities, any Collateral Management Fees
otherwise payable to the Collateral Manager hereunder shall be paid by the Issuer in the following order: (i) first, to such funds managed by Greywolf (on a pro rata basis among such funds), in an amount equal to the product of (x) such Collateral Management Fees and (y) a fraction the numerator of which is the notional amount of the Subordinated Securities held by such funds managed by Greywolf and the denominator of which is the aggregate notional amount of all of the Subordinated Securities and (ii) second, the remainder, if any, to Greywolf.

Any Subordinated Collateral Management Fees to which the Collateral Manager is entitled on any Payment Date that are not paid to the Collateral Manager, whether as a result of proceeds of the Collateral being insufficient therefor in accordance with the Priority of Payments or because the Collateral Manager, in its sole discretion, has instructed the Trustee that it wishes to defer payment of the fees until a subsequent Payment Date, will accrue interest at a rate of LIBOR for the applicable period plus 3.00%, and the fees, together with any interest accrued on them, will be payable on the next Payment Date specified by the Collateral Manager on which funds are available therefor in accordance with the Priority of Payments.

The Collateral Manager, in its sole discretion, may, from time to time, waive all or any portion of the Collateral Management Fees, and may defer all or any portion of the Collateral Management Fees. Any deferred Collateral Management Fees will become payable on the next Payment Date (and if not paid on such Payment Date, on one or more subsequent Payment Dates) in the same manner and priority as their original characterization would have required unless deferred again.

The Collateral Management Fees will be payable from Interest Proceeds, and, if Interest Proceeds are not sufficient, from Principal Proceeds, in accordance with the Priority of Payments. If on any Payment Date there are insufficient funds to pay the Senior Collateral Management Fee then due in full, the amount not so paid shall be deferred and shall be payable on the first succeeding Payment Date on which any funds are available therefor, as provided in the Indenture.

THE ISSUERS

General

The Issuer was incorporated on August 14, 2006 in the Cayman Islands under the Companies Law (2004 Revision) of the Cayman Islands with the registration number 172443. The registered office of the Issuer is at the offices of Maples Finance Limited, P.O. Box 1023 GT, Queensgate House, South Church Street, George Town, Grand Cayman, Cayman Islands. The telephone number of the registered office is (345) 945-7099. The Issuer was incorporated as a special purpose vehicle for the specific purpose of carrying out the transactions described in this Offering Circular, which primarily consists of purchasing the Collateral Obligations and any Eligible Investments that comprise the Collateral Portfolio, issuing the Securities and the Issuer Ordinary Shares and performing other activities related thereto. Prior to the date hereof, the Issuer has not engaged in any activities other than in connection with the acquisition of certain of the Collateral Obligations to be held on the Closing Date.

The Co-Issuer was incorporated on January 12, 2007, in the State of Delaware under the General Corporation Law of the State of Delaware with the registration number 428454. The registered office of the Co-Issuer is at 850 Library Avenue, Suite 204, Newark, Delaware 19711. The telephone number of the registered office is (302) 738-6680. The Co-Issuer was incorporated as a special purpose vehicle for the specific purpose of carrying out the transactions described in this Offering Circular, which primarily consists of issuing the Co-Issued Notes and performing other activities related thereto, as set forth in Article Third of its Certificate of Incorporation. The Co-Issuer has no prior operating history.

The Co-Issued Notes are obligations only of the Issuer and the Class E Notes and the Subordinated Securities are obligations only of the Issuer, and not of the Trustee, the Collateral Manager, the Initial Purchaser, the Administrator, the Share Trustee or any directors or officers of the Issuers or any of their respective Affiliates.

At the Closing Date, the authorized share capital of the Issuer will consist of 50,000 ordinary shares, $1.00 par value per share (the "Issuer Ordinary Shares"). 250 of which shares have been issued. The

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918316
Authorized common stock of the Co-Issuer consists of 1,000 shares of common stock, $.01 par value (the "Co-Issuer Common Stock"), all of which shares will be issued prior to the Closing Date. All of the outstanding Issuer Ordinary Shares and Co-Issuer Common Stock will be held by the Share Trustee under the terms of a declaration of trust. For as long as any of the Securities are Outstanding, no beneficial interest in the Issuer Ordinary Shares of the Co-Issuer Common Stock shall be registered to a U.S. Person.

### Capitalization of the Issuer

The initial proposed capitalization of the Issuer as of the Closing Date after giving effect to the issuance of the Securities and the Issuer Ordinary Shares (before deducting expenses of the Offering) is as set forth below.

### Capitalization of the Co-Issuer

The Co-Issuer will be capitalized only to the extent of common equity of $10, will have no assets other than its equity capital and will have no debt other than as Co-Issuer of the Co-Issued Notes.

The Co-Issuer has agreed to co-issue the Co-Issued Notes as an accommodation to the Issuer, and the Co-Issuer is receiving no remuneration for such acting. Because the Co-Issuer has no assets and is not permitted to have any assets, Securityholders will not be able to exercise their rights with respect to the Co-Issued Notes against any assets of the Co-Issuer. Holders of the Co-Issued Notes must rely on the Collateral held by the Issuer and pledged to the Trustee for the benefit of the Holders of the Co-Issued Notes (and certain service providers) for payment on their respective Co-Issued Notes, in accordance with the Priority of Payments.

### Business

The Issuers will not undertake any substantial business other than the issuance of the Co-Issued Notes, entering and performing their respective obligations under certain transaction documents and, in the case of the Issuer, the issuance of the Class E Notes, the Subordinated Securities and the Issuer Ordinary Shares, the acquisition and management of the Collateral and, in such case, other related transactions. Neither of the Issuers will have any subsidiaries.

In addition, pursuant to the terms of the Collateral Administration Agreement, the Issuer will retain the Collateral Administrator to compile certain reports with respect to the Collateral Obligations. The compensation paid by the Issuer for such services will be in addition to the fees paid to the Collateral Administrator and will be treated as an expense of the Issuer and will be subject to the Priority of Payments.

The Administrator will act as the administrator of the Issuer. The office of the Administrator will serve as the general business office of the Issuer. Through this office and pursuant to the terms of an agreement between the Administrator and the Issuer relating to the administration of the Issuer in the Cayman Islands, and as amended from time to time in accordance with the terms thereof (the "Administration Agreement"),
Footnote Exhibits - Page 5097

the Administrator will perform various administrative functions on behalf of the issuer, including communications with shareholders, and the provision of certain clerical, administrative and other services until the termination of the Administration Agreement. In consideration of the foregoing, the Administrator will receive various fees and other charges payable by the issuer at rates agreed upon from time to time plus expenses. The directors of the issuer listed below are also officers and/or employees of the Administrator.

The Administrator's activities will be subject to the overview of the issuer's Board of Directors. The appointment of the Administrator under the Administration Agreement shall continue until the termination of such agreement in accordance with its terms, at which time a replacement administrator may be appointed. The Administration Agreement may be terminated by either the Issuer or the Administrator upon three months' written notice or, upon the occurrence of certain events as specified in the Administration Agreement, upon 14 days' written notice.

The Administrator's principal office is: P.O. Box 1093 GT, Queensgate House, South Church Street, Grand Cayman, Cayman Islands.

Directors

The Directors of the issuer are Guy Major and Carrie Burton. The Directors may be contacted at the address of the Issuer or by telephone at (345) 945-7099.

The Director of the Co-Issuer is Donald Puglisi. He may be contacted at the address of the Co-Issuer or by telephone at (302) 738-6602.

THE LOAN MARKET

A substantial portion, by principal amount, of the Collateral Obligations is expected to consist of corporate loans rated below investment grade extended to U.S. and other borrowers located in countries whose long-term debt ratings with respect to Dollar-denominated obligations backed by the full faith and credit (or the local equivalent thereof) of such country or of a central bank is at least "A2" by Moody's and "AA" by S&P. Such loans are typically negotiated by one or more commercial banks or other financial institutions and syndicated among a group of commercial banks and financial institutions.

Corporate loans are typically at the most senior level of the capital structure, and are often secured by specific collateral, including but not limited to, trademarks, patents, accounts receivable, inventory, equipment, buildings, real estate, franchises and common and preferred stock of the obligor and its subsidiaries. Some loans may be unsecured, subordinated to other obligations of the obligor and may have greater credit and liquidity risk than is typically associated with senior secured corporate loans. The corporate loans expected to secure the Secured Notes are of a type generally incurred by the borrower in connection with a highly leveraged transaction, often to finance internal growth, acquisitions, mergers, stock purchases, or for other reasons. As a result of the additional debt incurred by the borrower in the course of the transactions, the borrower's creditworthiness is often judged by the lending agencies to be below investment grade. In order to induce the banks and institutional investors to invest in a borrower's loan facility, and to offer a favorable interest rate, the borrower often provides the banks and institutional investors with extensive information about its business, which is not generally available to the public. Because of the provision of confidential information, the unique and customized nature of a loan agreement, and the private syndication of the loan, loans are not as easily purchased or sold as a publicly traded security, and historically the trading volume in the loan market has been small relative to the high yield bond market.

Corporate loans often provide for restrictive covenants designed to limit the activities of the borrower in an effort to protect the right of lenders to receive timely payments of interest on and repayment of principal of the loans. Such covenants may include restrictions on dividend payments, specific mandatory minimum financial ratios, limits on total debt and other financial tests. A breach of covenant (after giving effect to any cure period) in a loan which is not waived by the lending syndicate normally is an event of acceleration which allows the syndicate to demand immediate repayment in full of the outstanding loan. Loans usually have
shorter terms than more junior obligations and may require mandatory prepayments from excess cash flow, asset dispositions and offerings of debt and/or equity securities.

A majority of loans bear interest based on a floating rate index, e.g., LIBOR, the certificate of deposit rate, a prime or base rate (each as defined in the applicable loan agreement) or other index, which may reset daily (or at most prime or base rate indices do) or offer the borrower a choice of one, two, three, six, nine or twelve month interest and rate reset periods. The purchaser of a loan may receive certain syndication or participation fees in connection with its purchase. Other fees payable in respect of a loan, which are separate from interest payments on such loan, may include facility, commitment, amendment and prepayment fees.

Purchasers of loans are predominantly investment and commercial banks, who have applied their experience in high yield securities to the commercial and industrial loan market, acting as both principal and broker. The range of investors for loans has broadened to include money managers, insurance companies, arbitrageurs, bankruptcy investors and mutual funds seeking increased potential total returns and portfolio managers of trusts or special purpose companies issuing collateralized bond and loan obligations. As secondary market trading volumes increase, new loans are frequently adopting more standardized documentation to facilitate loan trading, which should improve market liquidity. There can be no assurance, however, that future levels of supply and demand in loan trading will provide the degree of liquidity that currently exists in the market.

**INCOME TAX CONSIDERATIONS**

**General**

The following summary describes the principal U.S. federal income tax and Cayman Islands tax consequences of the purchase, ownership and disposition of the Securities to investors that acquire the Securities at original issuance and, in the case of the Secured Notes, for an amount equal to the Issue Price of the relevant Class of Secured Notes (for purposes of this section, with respect to each Class of Secured Notes, the first price at which a substantial amount of Secured Notes of such Class are sold to the public (excluding bond houses, brokers, underwriters, placement agents, and wholesalers) is referred to herein as the "Issue Price"). This summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a particular investor's decision to purchase the Securities. In addition, this summary does not describe any tax consequences arising under the laws of any state, locality or taxing jurisdiction other than the U.S. federal income tax laws and Cayman Islands tax laws. In general, the summary assumes that a beneficial owner of a Security holds the Security as a capital asset and not as part of a hedge, straddle or conversion transaction, within the meaning of Section 1228 of the U.S. Internal Revenue Code of 1986, as amended (the "Code").

The advice below was not written and is not intended to be used and cannot be used by any taxpayer for purposes of avoiding United States federal income tax penalties that may be imposed. The advice is written to support the promotion or marketing of the transaction. Each taxpayer should seek advice based on the taxpayer's particular circumstances from an independent tax advisor.

The foregoing disclaimer is provided to satisfy obligations under Circular 230 governing standards of practice before the Internal Revenue Service.

This summary is based on the U.S. and Cayman Islands tax laws, regulations (final, temporary and proposed), administrative rulings and practice and judicial decisions in effect or available on the date of this Offering Circular. All of the foregoing are subject to change or differing interpretation at any time, which change or interpretation may apply retroactively and could affect the continued validity of this summary.

This summary is included herein for general information only, and there can be no assurance that the U.S. Internal Revenue Service (the "IRS") will take a similar view of the U.S. federal income tax consequences of an investment in the Securities as described herein. ACCORDINGLY, PROSPECTIVE

As used in this section, the term "U.S. Holder" includes a beneficial owner of a Security that is, for U.S. federal income tax purposes, a citizen or individual resident of the United States of America, an entity treated for United States federal income tax purposes as a corporation or a partnership created or organized in or under the laws of the United States of America or any state thereof or the District of Columbia, an estate the income of which is includable in gross income for U.S. federal income tax purposes regardless of its source, or a trust, in general, a court within the United States of America is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all substantial decisions of such trust and certain eligible trusts that have elected to be treated as U.S. persons. This subsection does not address the rules applicable to certain types of investors that are subject to special U.S. federal income tax rules which are not discussed herein, including but not limited to, dealers in securities or currencies, traders in securities, financial institutions, U.S. expatriates, tax-exempt entities (except with respect to specific issues discussed herein), charitable remainder trusts and their beneficiaries, persons whose functional currency is not the Dollar, insurance companies, persons that own (directly or indirectly) equity interests in beneficial owners of Securities and subsequent purchasers of the Securities.

For U.S. federal income tax purposes, the Issuer, and not the Co-Issuer, will be treated as the Issuer of the Securities.

Tax Treatment of the Issuer

United States Federal Income Tax Consequences. The Code and the U.S. Department of Treasury regulations promulgated thereunder ("Treasury Regulations") provide a specific exemption from net income-based U.S. federal income tax to non-U.S. corporations that restrict their activities in the United States to trading in stocks and securities (and any other activity closely related thereto) for their own account, whether such trading (or such other activity) is conducted by the corporation or its employees or through a resident broker, commission agent, custodian or other agent. This particular exemption does not apply to non-U.S. corporations that are engaged in activities in the United States other than trading in stocks and securities (and any other activity closely related thereto) for their own accounts or that are dealers in stocks and securities.

The Issuer intends to rely on the above exemption and does not intend to operate so as to be subject to U.S. federal income taxes on its net income. In this regard, on the Closing Date, the Issuer will receive an opinion from McNee Nelson LLP, special U.S. tax counsel to the Issuer ("Special U.S. Tax Counsel") to the effect that, although no activity closely comparable to that contemplated by the Issuer has been the subject of any Treasury Regulation, administrative ruling or judicial decision, under current law and assuming compliance with the Issuer's Amended and Restated Memorandum and Articles of Association of Issuer, the Indenture, the Collateral Management Agreement, and other related documents (the "Documents") by all parties thereto, the Issuer's permitted activities will not cause it to be engaged in a trade or business in the United States under the Code and, consequently, the Issuer will not be subject to U.S. federal income tax on its net income (or the branch profits tax described below). The opinion of Special U.S. Tax Counsel will be based on the Code, the Treasury Regulations (final, temporary and proposed) thereunder, the existing authorities, and Special U.S. Tax Counsel's interpretation thereof and judgment concerning their application to the Issuer's permitted activities, and on certain factual assumptions and representations as to the Issuer's permitted activities. The Issuer intends to conduct its affairs in accordance with the Documents and such assumptions and representations, and the remainder of this summary assumes such result. In addition, in complying with the Documents and such assumptions and representations, the Issuer and the Collateral Manager are entitled to rely upon the advice and/or opinions of their selected counsel, and the opinion of Special U.S. Tax Counsel will assume that any such advice and/or opinions are correct and complete. However, the opinion of Special U.S. Tax Counsel and any such other advice or opinions are not binding on the IRS or any court, and no ruling will be sought from the IRS regarding this, or any other, aspect of the U.S. federal income tax treatment of the Issuer. Accordingly, in the absence of authority on point, the U.S. federal income tax treatment of the Issuer is not entirely free from doubt, and there can be no assurance that

Confidential Treatment Requested by Goldman Sachs
positions contrary to those stated in the opinion of Special U.S. Tax Counsel or any such other advice or opinions may not be asserted successfully by the IRS.

If, notwithstanding the Issuer's intention and the aforementioned opinion of Special U.S. Tax Counsel or any such other advice or opinions, it were nonetheless determined that the Issuer were engaged in a trade or business in the United States (as defined in the Code), and the Issuer had taxable income that was effectively connected with such U.S. trade or business, the Issuer would be subject under the Code to the regular U.S. corporate income tax on such effectively connected taxable income (and possibly to the 30% branch profits tax as well). The imposition of such taxes would materially affect the Issuer's financial ability to make payments with respect to the Securities and could materially affect the yield of the Secured Notes and the return on the Subordinated Securities.

Legislation recently proposed in the U.S. Senate would, for tax years beginning at least two years after its enactment, tax a corporation as a U.S. corporation if the equity of that corporation is regularly traded on an established securities market and the management and control of the corporation issues primarily within the United States. It is unknown whether this proposal will be enacted in its current form and, whether if enacted, the Issuer would be subject to its provisions. However, upon enactment of this or similar legislation, the Issuer will be permitted, with an opinion of counsel, to take such action as it deems advisable to prevent the Issuer from being subject to such legislation. These actions could include removing some classes of Securities from listing on the Irish Stock Exchange.

With respect to Cayman Islands taxation, see the discussion below in "—Cayman Islands Tax Considerations".

United States Withholding Taxes. Although, based on the foregoing, the Issuer is not expected to be subject to U.S. federal income tax on a net income basis, income derived by the Issuer may be subject to withholding taxes imposed by the United States or other countries. Generally, U.S. source interest income received by a foreign corporation not engaged in a trade or business within the United States is subject to U.S. withholding tax at the rate of 30% of the amount thereof. The Code provides an exemption (the "portfolio interest exemption") from such withholding tax for interest paid with respect to certain debt obligations issued after July 18, 1984, unless the interest constitutes a certain type of contingent interest or is paid to a 10% shareholder of the payor, to a controlled foreign corporation related to the payor, or to a bank with respect to a loan entered into in the ordinary course of its business. In this regard, the Issuer is permitted to acquire a particular Collateral Obligation only if the payments thereon are exempt from U.S. withholding taxes at the time of purchase or commitment to purchase (with the exception of commitment fees associated with Collateral Obligations constituting Revolving Credit Facilities or Delayed Funding Term Loans) or the obligor is required to make "gross-up" payments that offset fully any such tax on any such payments. Any commitment fees associated with Collateral Obligations constituting Revolving Credit Facilities or Delayed Funding Term Loans and any prepayment fees received under a Secured Lending Agreement may be subject to U.S. withholding tax, which would reduce the Issuer's net income from such collateral. However, the Issuer does not anticipate that it will otherwise derive material amounts of any other items of income that would be subject to U.S. withholding taxes. Accordingly, assuming compliance with the foregoing restrictions and subject to the foregoing qualifications, income derived by the Issuer will be free of or fully "grossed-up" for any material amount of U.S. withholding tax. It is possible that, as a result of a workout of a defaulted Collateral Debt Obligation, the Issuer could receive an asset subject to withholding.

However, there can be no assurance that income derived by the Issuer will not generally become subject to U.S. withholding tax as a result of a change in U.S. tax law or administrative practice, procedure, or interpretations thereof. See "Tax Factors—Changes in Tax Law—No Cross-Over". Any change in U.S. tax law or administrative practice, procedure, or interpretations thereof resulting in the income of the Issuer becoming subject to U.S. withholding taxes could constitute a Withholding Tax Event. See "Obligations of the Securities—Optional Redemption". It is also anticipated that the Issuer will acquire Collateral Obligations that consist of obligations of non-U.S. issuers. In this regard, the Issuer may only acquire a particular Collateral Obligation if either the payments thereon are not subject to foreign withholding tax (with the exception of commitment fees associated with Collateral Obligations constituting Revolving Credit Facilities and Delayed Funding Term Loans) or the obligor of the Collateral Obligation is required to make "gross-up" payments.

-87-

Confidential Treatment Requested by Goldman Sachs
Footnote Exhibits - Page 5101

Prospective investors should be aware that, under certain Treasury Regulations, the IRS may disregard the participation of an intermediary in a "conduit" financing arrangement and the conclusions reached in the immediately preceding paragraph assume that Affected Banks will not, as a result of holding Subordinated Securities, influence the selection of Collateral Obligations and that such Treasury Regulations do not apply. Those Treasury Regulations could require withholding of U.S. federal income tax from payments to the issuer of interest on the Collateral Obligations. In order to prevent "conduit" classification, each holder and beneficial owner of a Class E Note or Subordinated Security that (i) is not a "United States person" (as defined in Section 7701(a)(30) of the Code) and (ii) is acquiring, directly or in conjunction with affiliates, more than 33 1/3% of the Aggregate Outstanding Amount of any such Class of Securities will be deemed to make a representation to the effect that it is not an Affected Bank. "Affected Bank" means a "bank" for purposes of Section 881 of the Code or an entity affiliated with such a bank that neither (i) meets the definition of a U.S. Holder nor (ii) is entitled to the benefits of an income tax treaty with the United States under which withholding taxes on interest payments made by obligors resident in the United States to such bank are reduced to 0%.

Tax Treatment of U.S. Holders of the Secured Notes

Status of the Secured Notes. On the Closing Date, the Issuer will receive an opinion from Special U.S. Tax Counsel to the effect that the Co-Issued Notes will be, and the Class E Notes should be, treated as debt for U.S. federal income tax purposes when issued, and this summary assumes such treatment. Further, the Issuer and each U.S. Holder and beneficial owner of a Secured Note, by acquiring such Secured Note or an interest in such Secured Note, will agree to treat such Secured Note as debt for U.S. federal income tax purposes, except (a) as otherwise required by applicable law, (b) to the extent a Noteholder makes a positive QEF election (as described below under "Investment in a Passive Foreign Investment Company"), or (c) to the extent that the holder files certain United States tax information returns required of only certain equity owners with respect to various reporting requirements under the Code (as described below under "Certain Reporting Requirements" and "Tax Return Disclosure and Investor List Requirements"). The determination of whether a Secured Note will be treated as debt for United States federal income tax purposes is based on the applicable law and facts and circumstances existing at the time the Secured Note is issued. However, the opinions of Special U.S. Tax Counsel is based on current law and certain representations and assumptions and is not binding on the IRS or the courts, and no ruling will be sought from the IRS regarding this, or any other, aspect of the U.S. federal income tax treatment of the Secured Notes. Accordingly, there can be no assurance that the IRS will not contend, and that a court will not ultimately hold, that one or more Classes of the Secured Notes are properly treated as equity in the Issuer for U.S. federal income tax purposes. Recharacterization of a Class of Secured Notes, particularly the Class E Notes because of their place in the capital structure, may be more likely if a single investor or a group of investors that holds all of the Subordinated Securities also holds all of the more senior Class of Secured Notes in the same proportion as the Subordinated Securities are held. If a Class of the Secured Notes were treated as equity, rather than debt of the Issuer for U.S. federal income tax purposes, U.S. Holders of Secured Notes of such Class would be subject to taxation under rules substantially the same as those set forth below under the "Tax Treatment of U.S. Holders of Subordinated Securities" which could cause adverse tax consequences for such U.S. Holders upon the sale, exchange, retirement, redemption or other taxable disposition of, or the receipt of certain types of distributions on, such Secured Notes.

Interest or Discount on the Secured Notes. Subject to the discussion below, U.S. Holders of each Class of Secured Notes generally will include in gross income payments of stated interest received on such Class of Secured Notes. In accordance with their usual method of accounting for U.S. federal income tax purposes as ordinary interest income from sources outside the United States. If the Issue Price of a Class of Secured Notes is less than the "stated redemption price at maturity" of such Class of Secured Notes by more than a de minimis amount, U.S. Holders of Secured Notes of such Class will be considered to have purchased such Secured Notes with original issue discount (OID). The stated redemption price at maturity of a Class of Secured Notes will be the sum of all payments to be received on Secured Notes of such Class, other than payments of "qualified stated interest" (i.e., generally, stated interest which is unconditionally payable in money at least annually during the entire term of a debt instrument; interest is unconditionally payable only if reasonable legal remedies exist to compel timely...
Footnote Exhibits - Page 5102

payment or the debt instrument otherwise provides terms and conditions that make the likelihood of late payment or nonpayment a remote contingency. Prospective U.S. Holders of the Class C Notes, the Class D Notes or the Class E Notes should note that, because interest on these Secured Notes can be deferred, the Issuer intends to treat interest on these Classes as not unconditionally payable in money on each Payment Date (and, therefore, not "qualified stated interest"), and as a result include all of the stated interest payments on these Secured Notes in the stated redemption prices at maturity of these Secured Notes, and must therefore be accrued by U.S. Holders pursuant to the OID rules described below. Such OID inclusion on such Secured Notes generally will be treated as income from sources outside the United States.

A U.S. Holder of such Class of Secured Notes issued with OID will be required to accrue and include in gross income the sum of the "daily portions" of total OID on each such Secured Note for each day during the taxable year on which the U.S. Holder held such Secured Notes, generally under a constant yield method, regardless of such U.S. Holder's usual method of accounting for U.S. federal income tax purposes. If a Secured Note is issued with only a de minimis amount of OID, such discount is not subject to accrual under the OID rules and should be included in gross income proportionately as stated principal payments are received. Such de minimis OID should be treated as gain from the sale or exchange of property and may be eligible to be treated as a capital gain if the Secured Note is a capital asset in the hands of the U.S. Holder.

In the case of each Class of Secured Notes that provides for a floating rate of interest, the amount of OID to be accrued over the term of such Secured Notes will be based initially on the assumption that the floating rate in effect for the first accrual period of such Secured Notes will remain constant throughout their term. To the extent such rate varies with respect to any accrual period, such variation will be reflected in an increase or decrease of the amount of OID accrued for such period. Under the foregoing method, U.S. Holders of the Class C Notes, the Class D Notes or the Class E Notes may be required to include in gross income increasing greater amounts of OID and may be required to include OID in advance of the receipt of cash attributable to such income.

The Issuer intends to treat each Class of Secured Notes issued with more than de minimis OID as being subject to the rules prescribed by Section 1272(a)(6) of the Code using an assumption as to the prepayments on such Class of Secured Notes, as discussed below under "—OID on the Secured Notes." A prepayment assumption applies to debt instruments if payments under such debt instruments may be accelerated by reason of prepayments of other obligations securing such debt instruments.

OID on the Secured Notes. The following discussion will apply to a Class of Secured Notes if it is issued with more than de minimis OID. Because principal prepayments on these Secured Notes are subject to acceleration, the method by which OID on such Secured Notes is required to be accrued is uncertain. For purposes of accruing OID on these Secured Notes under such circumstances, the Issuer intends to treat these Secured Notes as being subject to the "prepayment assumption method." These rules require that the amount and rate of accrual of OID be calculated based on a prepayment assumption and the anticipated reinvestment rate, if any, relating to the Secured Notes and prescribe a method for adjusting the amount and rate of accrual of the discount where the actual prepayment rate differs from the prepayment assumption. Under the Code, the prepayment assumption must be determined in the manner prescribed by the Treasury Regulations, which have not yet been issued. The legislative history provides, however, that Congress intended the Treasury Regulations to require that the prepayment assumption be the prepayment assumption that is used in determining the initial offering price of the Secured Notes. Solely for purposes of determining OID, market discount and bond premium, the Issuer intends to assume that the Collateral Obligations will either not prepay or any prepayments will be reinvested. No representation is made that the Secured Notes will prepay at the prepayment assumption or at any other rate.

It is possible that the IRS could contend that another method of accruing OID with respect to these Secured Notes is appropriate and, if successful, could apply rules that may result in adverse or more favorable U.S. federal income tax consequences to a U.S. Holder of such Secured Notes. One such alternative method of accruing OID may be the noncontingent bond method that governs contingent payment debt obligations. Such method could affect the amount and character of the gain or loss recognized upon a disposition of a Secured Note.
Footnote Exhibits - Page 5103

A purchaser of a Secured note issued with OID who purchases such Secured Note at a price other than the adjusted Issue Price but at a cost less than the remaining stated redemption price at maturity will also be required to include in gross income the sum of the daily portions of OID on such Secured Note. In computing the daily portions of OID for a purchaser of a Secured Note that purchases at a price higher than the adjusted issue price, but less than the stated redemption price at maturity, however, the daily portion is reduced by the amount that would be the daily portion for the day (computed in accordance with the rules set forth above) multiplied by a fraction, the numerator of which is the amount, if any, by which the price paid by the U.S. Holder for such Secured Note exceeds the following amount:

- The sum of the Issue Price plus the aggregate amount of OID that would have been includable in the gross income of an original U.S. Holder (who purchased the Secured Note at the Issue Price), less

- Any prior payments included in the stated redemption price at maturity,

and the denominator of which is the sum of the daily portions for such Secured Note for all days beginning on the date after the purchase date and ending on the maturity date computed under the prepayment assumption.

As a result of the complexity of the OID rules, each U.S. Holder of Secured Notes should consult its own tax advisor regarding the impact of the OID rules on its investment in such Secured Notes.

Premium. A U.S. Holder who pays a premium (an amount in excess of the Secured Notes stated redemption price at maturity) for a Secured Note may elect to amortize such premium under a constant yield method over the life of such Secured Note. The amortizable amount for any accrual period would offset the amount of OID that must be included in the gross income of a U.S. Holder in such accrual period. The U.S. Holder's basis in such Secured Note would be reduced by the amount of amortization. It is not clear whether the prepayment assumption would be taken into account in determining the life of such Secured Note for this purpose.

Market Discount. If a U.S. Holder acquires a Secured Note at a discount to the adjusted issue price of the Secured Note that is greater than a statutory defined minimum amount, such discount is treated as market discount. Absent an election to accrue into income currently, the amount of accrued market discount on a Secured Note is included in income as ordinary income when principal payments are received or the U.S. Holder disposes of the Secured Note. Market discount is included solely unless a U.S. Holder elects to use a constant yield method for accrual. For this purpose, the term “habitable” may be based on the term of the Secured Note, or a U.S. Holder may be permitted to accrue market discount in proportion to interest on Secured Notes issued without OID or in proportion to OID on Secured Notes issued with OID.

Auction to Treat All Interest as OID. The OID rules permit a U.S. Holder of a Secured Note to elect to accrue all interest, discount (including de minimis market or original issue discount) and premium in income as interest, based on a constant yield method. If an election to treat all interest as OID were to be made with respect to a Secured Note with market discount, the U.S. Holder of such Secured Note would be deemed to have made an election to include in income currently market discount with respect to all other debt instruments having market discount that such U.S. Holder acquires during the year of the election or thereafter. Similarly, a U.S. Holder that makes this election for a Secured Note that is acquired at a premium will be deemed to have made an election to amortize bond premium with respect to all other debt instruments having amortizable bond premium that such U.S. Holder owns or acquires. The election to accrue interest, discount and premium on a constant yield method with respect to a Secured Note cannot be revoked without the consent of the IRS.

Disposition of the Secured Notes. In general, a U.S. Holder of a Secured Note initially will have a basis in such Secured Note equal to the cost of such Secured Note to such U.S. Holder, (i) increased by any amount includable in income by such U.S. Holder as OID (or accrued market discount such U.S. Holder previously included in income) with respect to such Secured Note, and (ii) reduced by amortized premium and by any payments on such Secured Note, other than payments of qualified stated interest on such Secured Note. Upon a sale, exchange, redemption, retirement or other taxable disposition of a Secured

-90-

Confidential Treatment Requested by Goldman Sachs
Footnote Exhibits - Page 5104

Note, a U.S. Holder will generally recognize gain or loss equal to the difference between the amount realized on the disposition (other than amounts attributable to accrued qualified stated interest on such Secured Note, which will be taxable as described above) and the U.S. Holder's tax basis in such Secured Note. Except to the extent of accrued interest or market discount not previously included in income, gain or loss from the disposition of a Secured Note generally will be long-term capital gain or loss if the U.S. Holder held the Secured Note for more than one year at the time of disposition, provided that such Secured Note is held as a "capital asset" (generally, properly held for investment) within the meaning of Section 1221 of the Code.

In certain circumstances, U.S. Holders that are individuals may be entitled to preferential treatment for net long-term capital gains; however, the ability of U.S. Holders to offset capital losses against ordinary income is limited.

Gain recognized by a U.S. Holder on the sale, exchange, redemption, retirement or other taxable disposition of a Secured Note generally will be treated as from sources within the United States and thus will be recognized generally will offset income from sources in the United States.

Alternative Characterization of the Secured Notes. Notwithstanding special U.S. tax counsel's opinion, U.S. Holders should recognize that there is some uncertainty regarding the appropriate classification of instruments such as the Secured Notes. It is possible, for example, that the IRS may contend that a Class of Secured Notes should be treated as equity interests (or as part debt, part equity) in the Issuer. Such a recharacterization might result in material adverse U.S. federal income tax consequences to U.S. Holders. If U.S. Holders of a Class of the Secured Notes were treated as owning equity interests in the Issuer, the U.S. federal income tax consequences to U.S. Holders of such recharacterized Secured Notes would be as described under "—Tax Treatment of U.S. Holders of Subordinated Notes", "—Certain Reporting Requirements" and "—Tax Return Disclosure and Investor List Requirements." In order to avoid the application of the PFIC rules, each U.S. Holder of a Note should consider making a qualified electing fund election provided in Section 1295 of the Code on a "protective" basis (although such protective election may not be respected by the IRS because current regulations do not specifically authorize that particular election). See "—Investment in a Passive Foreign Investment Company. Further, U.S. Holders of any Class of Secured Notes that may be recharacterized as equity in the Issuer should consult with their own tax advisors with respect to whether, if they owned equity in the Issuer, they would be required to file information returns in accordance with sections 6038, 6038A, and 6045 of the Code (and, if so, whether they should file such returns on a protective basis).

Tax Treatment of U.S. Holders of Subordinated Securities

Although not denominated as equity, based on the capital structure of the Issuer and the terms of the Subordinated Securities, it is likely the Subordinated Securities will be treated as equity for United States federal income tax purposes. The following discussion is based on the Subordinated Securities being treated as equity of the Issuer.

Investment in a Passive Foreign Investment Company. The Issuer will constitute a "passive foreign investment company" (PFIC). Accordingly, U.S. Holders of Subordinated Securities (other than certain U.S. Holders that are subject to the rules pertaining to a "controlled foreign corporation", described below) will be considered U.S. shareholders in a PFIC and will be required to file annual information returns on IRS Form 8621 with their U.S. federal income tax returns. In general, a U.S. Holder of a PFIC may desire to make an election to treat the Issuer as a "qualified electing fund" (QEF) with respect to such U.S. Holder. Generally, a QEF election should be made with the filing of IRS Form 8621 with a U.S. Holder's federal income tax return for the first taxable year for which it held Subordinated Securities. If a timely QEF election is made for the Issuer, an electing U.S. Holder generally will be required in each taxable year to include in gross income (i) ordinary income, such holder's pro rata share of the Issuer's ordinary earnings and (ii) as long-term capital gain, such holder's pro rata share of the Issuer's net capital gains, whether or not distributed.

A U.S. Holder will not be eligible for the preferential income tax rate on qualified dividends income (as defined in the Code) or the dividends received deduction with respect to any such income or gain. In addition, any losses of the Issuer in a taxable year will not be available to such U.S. Holder and may not be carried back or forward in computing the Issuer's ordinary earnings and net capital gain in other taxable years.
years. An amount included in an electing U.S. Holder's gross income should be treated as income from sources outside the United States for U.S. foreign tax credit limitation purposes. However, if U.S. Holders collectively own (directly or constructively) 50% or more (measured by vote or value) of the Subordinated Securities, such amount will be treated as income from sources within the United States for such purposes to the extent that such amount is attributable to income of the issuer from sources within the United States. If applicable to a U.S. Holder of Subordinated Securities, the rules pertaining to a “controlled foreign corporation”, discussed below, generally override those pertaining to a PFIC with respect to which a QEF election is in effect.

In certain cases in which a QEF does not distribute all of its earnings in a taxable year, U.S. shareholders may also be permitted to elect to defer payment of some or all of the taxes on the QEF's income subject to an interest charge on the deferred amount. In this respect, prospective purchasers of Subordinated Securities should be aware that it is possible that the Collateral Obligations may be purchased by the Issuer with substantial OID, the cash payment of which may be deferred, perhaps for a substantial period of time, and the Issuer may use interest and other income from the Collateral Obligations to purchase additional Collateral Obligations or to retire Securities. As a result, the Issuer may have in any given year substantial amounts of earnings for U.S. federal income tax purposes that are not distributed on the Subordinated Securities. Thus, absent an election to defer payment of taxes, U.S. Holders that make a QEF election with respect to the Issuer may owe tax on significant “phantom” income.

In addition, it should be noted that if the Issuer invests in obligations that are not in registered form, a U.S. Holder making a QEF election (a) may not be permitted to take a deduction for any loss attributable to such obligations when calculating its share of the Issuer’s earnings and (b) may be required to treat income attributable to such obligations as ordinary income even though the income would otherwise constitute capital gains. It is possible that some portion of the investments of the Issuer will constitute obligations that are not in registered form.

The Issuer will provide, upon request, all information and documentation that a U.S. Holder making a QEF election is required to obtain for U.S. federal income tax purposes.

A U.S. Holder of Subordinated Securities (other than certain U.S. Holders that are subject to the rules pertaining to a “controlled foreign corporation”, described below) that does not make a timely QEF election will be required to report any gain on disposition (including gain recognized upon a redemption) of any Subordinated Securities as if it were an excess distribution, rather than capital gain, and to compute the tax liability on such gain and any excess distribution received with respect to the Subordinated Securities as if such items had been earned ratably over each day in the U.S. Holder's holding period (or a certain portion thereof) for the Subordinated Securities. The U.S. Holder will be subject to tax on such items at the highest ordinary income tax rate for each taxable year, other than the current year of the U.S. Holder, in which such items are treated as having been earned, regardless of the rate otherwise applicable to the U.S. Holder. Further, such U.S. Holder will also be liable for an additional tax equal to interest on the tax liability attributable to income allocable to prior years as if such liability had been due with respect to each such prior year. For purposes of these rules, gifts, exchanges pursuant to corporate reorganizations and use of the Subordinated Securities as security for a loan may be treated as a taxable disposition of such Subordinated Securities. Very generally, an “excess distribution” in the amount by which distributions during a taxable year exceed 125 percent of the average amount of distributions in respect thereof during the three preceding taxable years (or, if shorter, the U.S. Holder's holding period for the Subordinated Security). In addition, a stepped-up basis in the Subordinated Securities upon the death of an individual U.S. Holder may not be available.

In many cases, application of the tax on gain on disposition and receipt of excess distributions will be substantially more onerous than the treatment applicable if a timely QEF election is made. ACCORDINGLY, U.S. HOLDERS OF SUBORDINATED SECURITIES SHOULD CONSIDER CAREFULLY WHETHER TO MAKE A QEF ELECTION WITH RESPECT TO THE SUBORDINATED SECURITIES AND THE CONSEQUENCES OF NOT MAKING SUCH AN ELECTION.

investment in a Controlled Foreign Corporation. The Issuer may be classified as a controlled foreign corporation ("CFC"). In general, a foreign corporation will be classified as a CFC if more than 50% of the

Confidential Treatment Requested by Goldman Sachs

OS MSS-E-001918326

-92-
shares of the corporation, measured by reference to combined voting power or value, is owned (actually or constructively) by "U.S. Shareholders." A U.S. Shareholder, for this purpose, is any person that possesses (actually or constructively) 10% or more of the combined voting power (generally, the right to vote for directors of the corporation) of all classes of shares of a corporation. Although the Subordinated Securities do not vote for directors of the issuer, it is possible that the IRS would assert that the Subordinated Securities are de facto voting securities and that U.S. Holders possessing (actually or constructively) 10% or more of the total combined voting power of all classes of stock entitled to vote (including the Subordinated Securities) are U.S. Shareholders. If this argument were successful and more than 50% of the Subordinated Securities (determined with respect to aggregate value or combined voting power) are owned (actually or constructively) by such U.S. Shareholders, the issuer would be treated as a CFC.

If the issuer were treated as a CFC, a U.S. Shareholder of the issuer would be treated, subject to certain exceptions, as receiving a deemed dividend at the end of the taxable year of the issuer in an amount equal to that person's pro rata share of the "subpart F income" of the issuer (which may include any subpart F Income of the issuer during the warehousing of the Collateral Obligations). Such deemed dividend would be treated as income from sources within the United States for U.S. foreign tax credit limitation purposes to the extent that it is attributable to income of the issuer from sources within the United States. Among other items, and subject to certain exceptions, "subpart F income" includes dividends, interest, annuities, gains from the sale or exchange of shares and securities, certain gains from commodities transactions, certain types of insurance income and income from certain transactions with related parties. It is likely that, if the issuer were to constitute a CFC, all or most of its income would be subpart F Income and, in general, if the issuer's subpart F income exceeds 70% of its gross income for a taxable year, the entire amount of the issuer's income for such taxable year will be treated as subpart F income.

If the issuer were treated as a CFC, a U.S. Shareholder of the issuer which made a QEF election with respect to the issuer would be taxable on the subpart F income of the issuer under rules described in the preceding paragraph and not under the QEF rules previously described. As a result, to the extent subpart F income of the issuer includes net capital gains, such gains will be treated as ordinary income of the U.S. Shareholder under the CFC rules, notwithstanding the fact that the character of such gains generally would otherwise be preserved under the QEF rules.

Furthermore, if the issuer were treated as a CFC and a U.S. Holder were treated as a U.S. Shareholder therein, the issuer would not be treated as a PFIC or a QEF with respect to such U.S. Holder for the period during which the issuer remained a CFC and such U.S. Holder remained a U.S. Shareholder therein (the "qualified period") of the U.S. Holder's holding period for the Subordinated Securities. If the qualified period of such U.S. holder's holding period for the Subordinated Securities subsequently ceased (either because the issuer ceased to be a CFC or the U.S. Holder ceased to be a U.S. Shareholder), then solely for purposes of the PFIC rules, such U.S. Holder's holding period for the Subordinated Securities would be treated as beginning on the first day following the end of such qualified period, unless the U.S. Holder had owned any Subordinated Securities for any period of time prior to such qualified period and had not made a QEF election with respect to the issuer. In that case, the issuer would again be treated as a PFIC which is not a QEF with respect to such U.S. Holder and the beginning of such U.S. Holder's holding period for the Subordinated Securities would continue to be the date upon which such U.S. Holder acquired the Subordinated Securities, unless the U.S. Holder made an election to recognize gain with respect to the Subordinated Securities and a QEF election with respect to the issuer.

Indirect Interests in PFICs and CFCs: If the Issuer owns a Collateral Obligation or an Equity Security issued by a non-U.S. corporation that is treated as equity for U.S. federal income tax purposes, U.S. Holders of Subordinated Securities could be treated as owning an indirect equity interest in a PFIC or a CFC and could be subject to capital gains tax consequences. In particular, if the Issuer owns equity interests in PFICs ("Lower-Tier PFICs"), a U.S. Holder of Subordinated Securities would be treated as owning directly the U.S. Holder's proportionate amount (by value) of the Issuer's equity interests in the Lower-Tier PFICs. A U.S. Holder's QEF election with respect to the issuer would not be effective with respect to such Lower-Tier PFICs. However, a U.S. Holder would be able to make QEF elections with respect to such Lower-Tier PFICs if the Lower-Tier PFICs provide certain terms.
information and documentation to the issuer in accordance with applicable Treasury Regulations. However, there can be no assurance that the issuer would be able to obtain such information and documentation from any Lower-Tier PFIC, and thus there can be no assurance that a U.S. Holder would be able to make or maintain a QEF election with respect to any Lower-Tier PFIC. If a U.S. Holder does not have a QEF election in effect with respect to a Lower-Tier PFIC, as a general matter, the U.S. Holder would be subject to the adverse consequences described above under "--Investment in a Passive Foreign Investment Company" with respect to any excess distributions made by such Lower-Tier PFIC to the Issuer, any gain on the disposition by the Issuer of its equity interest in such Lower-Tier PFIC treated as indirectly realized by such U.S. Holder, and any gain treated as indirectly realized by such U.S. Holder on the disposition of its equity in the Issuer (which may arise even if the U.S. Holder realizes a loss on such disposition). Such amount would not be reduced by expenses or losses of the Issuer, but any income recognized may increase a U.S. Holder's tax basis in its Subordinated Securities. Moreover, if the U.S. Holder has a QEF election in effect with respect to a Lower-Tier PFIC, the U.S. Holder would be required to include in income the U.S. Holder's pro rata share of the Lower-Tier PFIC's ordinary earnings and net capital gain as if the U.S. Holder's indirect equity interest in the Lower-Tier PFIC were directly owned, and it appears that the U.S. Holder would not be permitted to use any losses or other expenses of the Issuer to offset such ordinary earnings and/or net capital gains, but recognition of such income may increase a U.S. Holder's tax basis in its Subordinated Securities.

Accordingly, if any of the Collateral Obligations or Equity Securities are treated as equity interests in a PFIC, such U.S. Holders could experience significant amounts of phantom income with respect to such interests. Other adverse tax consequences may arise for such U.S. Holders that are treated as owning indirect interests in closed-end CFCs. U.S. Holders should consult their own tax advisors regarding the tax issues associated with such investments in light of their own individual circumstances.

Distributions on Subordinated Securities. The treatment of actual distributions of cash on the Subordinated Securities, in very general terms, will vary depending on whether a U.S. Holder has made a timely QEF election as described above. See "--Investment in a Passive Foreign Investment Company." If a timely QEF election has been made, distributions should be allocated first to amounts previously taxed pursuant to the QEF election (or pursuant to the CFC rules, if applicable) and to this extent will not be taxable to U.S. Holders. Distributions in excess of amounts previously taxed pursuant to a QEF election (or pursuant to the CFC rules, if applicable) will be treated as dividends (but not eligible for the reduced tax rate applicable to "qualified dividend income") and taxable to U.S. Holders as ordinary income upon receipt to the extent of any remaining amounts of unrealized current and accumulated earnings and profits of the issuer. Distributions in excess of any current and accumulated earnings and profits will be treated first as a non-taxable reduction to the U.S. Holder's tax basis for the Subordinated Securities to the extent thereof and then as capital gain.

In the event that a U.S. Holder does not make a timely QEF election, then except to the extent that distributions may be attributable to amounts previously taxed pursuant to the CFC rules, some or all of any distributions with respect to the Subordinated Securities may constitute "excess distributions," taxable as previously described. See "--Investment in a Passive Foreign Investment Company." In that event, except to the extent that distributions may be attributable to amounts previously taxed to the U.S. Holder pursuant to the CFC rules or are treated as "dividends distribution," distributions on the Subordinated Securities generally would be treated as dividends to the extent paid out of the Issuer's current or accumulated earnings and profits not allocated to any "excess distributions", then as a non-taxable reduction to the U.S. Holder's tax basis for the Subordinated Securities to the extent thereof and then as capital gain. Dividends on the Subordinated Securities would not be "qualified dividend income" and therefore would be taxable to individuals, trusts and estates as ordinary income rather than at the 15% net capital gain rate. Dividends received from a foreign corporation generally will be treated as income from sources outside the United States for U.S. foreign tax credit limitation purposes. However, if U.S. Holders collectively own (directly or constructively) 50% or more (measured by vote or value) of the Subordinated Securities, a percentage of the dividend income equal to the proportion of the Issuer's earnings and profits from sources outside the United States generally will be treated as income from sources within the United States for such purposes.

Disposition of the Subordinated Securities. In general, a U.S. Holder of a Subordinated Security will recognize gain or loss upon the sale, exchange, redemption, retirement or other taxable disposition of a

Confidential Treatment Requested by Goldman Sachs

QBM 001918328
Footnote Exhibits - Page 5108

Subordinated Security equal to the difference between the amount realized and such U.S. Holder’s adjusted tax basis in the Subordinated Security. Except as discussed below, such gain or loss will be long-term capital gain or loss if the U.S. Holder held the Subordinated Security for more than one year at the time of disposition. In certain circumstances, U.S. Holders who are individuals may be entitled to preferential treatment for net long-term capital gains; however, the ability of U.S. Holders to offset capital losses against ordinary income is limited. Gain recognized by a U.S. Holder on the sale, exchange, redemption, retirement, or other taxable disposition of a Subordinated Security (other than, in the case of a U.S. Holder treated as a “U.S. Shareholder,” any such gain characterized as a dividend, as discussed below) generally will be treated as from sources within the United States and lost so recognized generally will offset income from sources within the United States.

Initially, a U.S. Holder’s tax basis for a Subordinated Security will equal the amount paid for the Subordinated Security. Such basis will be increased by amounts taxable to such U.S. Holder by virtue of a QEP election, or by virtue of the CFC rules, as applicable, and decreased by actual distributions from the issuer that are deemed to consist of such previously taxed amounts or are treated as a nontaxable reduction to the U.S. Holder’s tax basis for the Subordinated Security (as described above).

If a U.S. Holder does not make a timely QEP election as described above, any gain realized on the sale, exchange, redemption, retirement or other taxable disposition of a Subordinated Security (or any gain deemed to accrue prior to the time a non-timely QEP election is made) will be taxed as ordinary income and subject to an additional tax reflecting a deemed interest charge under the special tax rules described above. See “Investment in a Passive Foreign Investment Company.”

Except for a limited exception applicable to individuals, if the issuer were treated as a CFC and a U.S. Holder were treated as a “U.S. Shareholder” thereof, then any gain realized by such U.S. Holder upon the disposition of Subordinated Securities, other than gain constituting an excess distribution under the PFIC rules, if applicable, would be treated as a dividend to the extent of the U.S. Holder’s share of the current or accumulated earnings and profits of the issuer. In this regard, earnings and profits would not include any amounts previously taxed pursuant to a timely QEP election or pursuant to the CFC rules.

Certain Reporting Requirements

A U.S. Holder of Subordinated Securities that owns (actually or constructively) at least 10% by vote or value of the issuer (and each officer or director of the issuer that is a U.S. citizen or resident) may be required to file an information return on IRS Form 5471. A U.S. Holder of Subordinated Securities generally is required to provide additional information regarding the issuer annually on IRS Form 5471. If it owns (actually or constructively) more than 50% by vote or value of the issuer, U.S. Holders should consult their own tax advisors regarding whether they are required to file IRS Form 5471.

A U.S. person (including a tax exempt entity) that purchases the Subordinated Securities for cash will be required to file an IRS Form 926 or similar form with the IRS if (i) such person owned, directly or by attribution, immediately after the transfer at least 10% by vote or value of the issuer or (ii) if the transfer, when aggregated with all transfers made by such person (or any related person) within the preceding 12 month period, exceeds $100,000. In the event a U.S. Holder fails to file any such required form, the U.S. Holder could be required to pay a penalty equal to 10% of the gross amount paid for such Subordinated Securities (subject to a maximum penalty of $100,000, except in cases involving intentional disregard). U.S. persons should consult their tax advisors with respect to this or any other reporting requirement which may apply with respect to their acquisition of the Subordinated Securities.

Tax Treatment of Tax-Exempt U.S. Holders of Securities

U.S. Holders which are tax-exempt entities ("Tax-Exempt U.S. Holders") will not be subject to the tax on unrelated business taxable income ("UBIT") with respect to interest and capital gains income derived from an investment in the Class A Notes or the Class E Notes (assuming that the Class E Notes are treated as debt of the issuer). However, a Tax-Exempt U.S. Holder that also acquires the Subordinated Securities (or, if recharacterized as equity in the issuer, the Class E Notes) should consider whether interest...
Footnote Exhibits - Page 5109

It receives with respect to the Securities may be treated as UBTI under rules governing certain payments received from controlled entities.

A Tax-Exempt U.S. Holder generally will not be subject to the tax on UBTI with respect to regular distributions or "excess distributions" (defined below under "—Tax Treatment of U.S. Holders of Subordinated Securities—Investment in a Passive Foreign Investment Company") on the Subordinated Securities. A Tax-Exempt U.S. Holder which is not subject to tax on UBTI with respect to "excess distributions" may not make a QEF election. In addition, a Tax-Exempt U.S. Holder which is subject to the rules relating to "controlled foreign corporations" with respect to the Subordinated Securities (or, if recharacterized as equity in the issue, the Class E Notes) generally should not be subject to the tax on UBTI with respect to income from such Subordinated Securities (or the Class E Notes).

Notwithstanding the discussion in the preceding two paragraphs, a Tax-Exempt U.S. Holder which incurs "acquisition indebtedness" (as defined in Section 514(c) of the Code) with respect to the Securities may be subject to the tax on UBTI with respect to income from the Securities to the extent that the Securities constitute "debt-financed property" (as defined in Section 514(b) of the Code) of the Tax-Exempt U.S. Holder. A Tax-Exempt U.S. Holder subject to the tax on UBTI with respect to income from the Subordinated Securities (or, if recharacterized as equity in the issue, the Class E Notes) will be taxed on "excess distributions" in the manner discussed above under "—Tax Treatment of U.S. Holders of Subordinated Securities—Investment in a Passive Foreign Investment Company". Such a Tax-Exempt U.S. Holder will be permitted, and should consider whether, to make a QEF election with respect to the issuer as discussed above.

Tax-Exempt U.S. Holders should consult their own tax advisors regarding an investment in the Securities.

Tax Return Disclosure and Investor List Requirements

Any person that files a U.S. federal income tax return or U.S. federal information return and participates in a "reportable transaction" in a taxable year is required to disclose certain information on IRS Form 8886 (or its successor form) attached to such person's U.S. tax return for such taxable year (and also file a copy of such form with the IRS's Office of Tax Shelter Analysis) and to retain certain documents related to the transaction. In addition, under certain circumstances, certain organizers and sellers and other advisors with respect to a "reportable transaction" will be required to file reports with the IRS and maintain lists of participants in the transaction containing identifying information, retain certain documents related to the transaction, and furnish these lists and documents to the IRS upon request. The definition of "reportable transaction" is highly technical. However, in very general terms, a transaction may be a "reportable transaction" if, among other things, it is offered under conditions of confidentiality or it results in the claiming of a loss or losses for U.S. federal income tax purposes in excess of certain threshold amounts.

In this regard, in order to prevent the investors' purchase of Securities in this offering from being treated as offered under conditions of confidentiality, the Collateral Manager, the issuer and the holders and beneficial owners of the Securities (and each of their respective employees, representatives or other agents) may disclose to any and all persons, without limitation of any kind, the U.S. tax treatment and U.S. tax structure of the transactions described herein and all materials of any kind (including opinions or other tax analyses) that are provided to them relating to such U.S. tax treatment and U.S. tax structure. For this purpose, the U.S. tax treatment of a transaction is the purported or claimed U.S. tax treatment of the transaction under applicable U.S. federal, state or local tax law, and the U.S. tax structure of a transaction is any fact that may be relevant to understanding the purported or claimed U.S. tax treatment of the transaction under applicable U.S. federal, state or local tax law.

If the Issuer participates in a "reportable transaction", a U.S. Holder of Subordinated Securities that is a "reporting shareholder" of the Issuer will be treated as participating in the transaction and will be subject to the rules described above. Although most of the Issuer's activities generally are not expected to give rise to "reportable transactions", the Issuer nevertheless may participate in certain types of transactions that...
could be treated as "reportable transactions". A U.S. Holder of Subordinated Securities will be treated as a "reporting shareholder" of the Issuer if (1) such U.S. Holder owns 10% or more of the Subordinated Securities and makes a QEF election with respect to the Issuer or (2) the Issuer is treated as a CFC and such U.S. Holder is a "U.S. Shareholder" (as defined above) of the Issuer. The Issuer will make reasonable efforts to make such information available.

Prospective investors in the Securities should consult their own tax advisors concerning any possible disclosure obligations under these Treasury Regulations with respect to their ownership or disposition of the Securities in light of their particular circumstances.

Tax Treatment of Non-U.S. Holders of Securities

In general, payments on the Securities to a Holder that is not, for U.S. federal income tax purposes, a U.S. Holder (a "Non-U.S. Holder") and gain realized on the sale, exchange, redemption, retirement or other disposition of the Securities by a Non-U.S. Holder, will not be subject to U.S. federal income or withholding tax, unless (a) such income is effectively connected with a trade or business conducted by such Non-U.S. Holder in the United States, or (b) in the case of gain, such Non-U.S. Holder is a nonresident alien individual who holds the Securities as a capital asset and is present in the United States for more than 182 days in the taxable year of the sale, exchange, redemption, retirement or other disposition of the Securities and certain other conditions are satisfied.

Information Reporting and Backup Withholding

Under certain circumstances, the Code requires "information reporting", and may require "backup withholding", with respect to certain payments made on the Securities and the payment of the proceeds from the disposition of the Securities. Backup withholding generally will not apply to corporations, tax-exempt organizations, qualified pension and profit sharing trusts, and individual retirement accounts. Backup withholding will apply to a U.S. Holder if the U.S. Holder fails to provide certain identifying information (such as the U.S. Holder's taxpayer identification number) or otherwise comply with the applicable requirements of the backup withholding rules. The application for exemption from backup withholding for a U.S. Holder is available by providing a properly completed IRS Form W-8.

A Non-U.S. Holder of the Securities generally will not be subject to these information reporting requirements or backup withholding with respect to payments of interest or distributions on the Securities if (a) it certifies to the Trustee its status as a Non-U.S. Holder under penalties of perjury on the appropriate IRS Form W-8, and (b) in the case of a Non-U.S. Holder that is a "nonwithholding foreign partnership", "foreign single member limited liability company", or "foreign grantor trust" as defined in the applicable U.S. Treasury Regulations under the Code, the beneficial owners of such Non-U.S. Holder also certify their status as Non-U.S. Holders under penalties of perjury on the appropriate IRS Form W-8.

The payments of the proceeds from the disposition of a Security by a Non-U.S. Holder to or through the U.S. office of a broker generally will not be subject to information reporting and backup withholding if the Non-U.S. Holder certifies its status as a Non-U.S. Holder (and, if applicable, its beneficial owners also certify their status as Non-U.S. Holders) under penalties of perjury on the appropriate IRS Form W-8, satisfies certain documentary evidence requirements for establishing that it is a Non-U.S. Holder, or otherwise establishes an exemption. The payment of the proceeds from the disposition of a Security by a Non-U.S. Holder to or through a non-U.S. office of a non-U.S. broker will not be subject to backup withholding or information reporting unless the non-U.S. broker has certain specific types of relationships to the United States, in which case the treatment of such payment for such purposes will be as described in the following sentence. The payment of proceeds from the disposition of a Security by a Non-U.S. Holder to or through a non-U.S. office of a U.S. broker or to or through a non-U.S. broker with certain specific types of relationships to the United States generally will not be subject to backup withholding but will be subject to information reporting unless the Non-U.S. Holder certifies its status as a Non-U.S. Holder (and, if applicable, its beneficial owners also certify their status as Non-U.S. Holders) under penalties of perjury or the broker has certain documentary evidence in its files as to the Non-U.S. Holder's foreign status and the broker has no actual knowledge to the contrary.
Footnote Exhibits - Page 511

Backup withholding is not an additional tax and may be credited against the U.S. Holder's or Non-U.S. Holder's U.S. federal income tax liability, and then refunded to the extent of any excess thereof; provided that certain required information is furnished to the IRS. The information reporting requirements may apply regardless of whether withholding is required.

Cayman Islands Tax Considerations

The following discussion of certain Cayman Islands income tax consequences of an investment in the Securities is based on the advice of Maples and Calder as to Cayman Islands law. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It assumes that the issuer will conduct its affairs in accordance with assumptions made by, and representations made to, counsel. It is not intended as tax advice, does not consider any investor's particular circumstances, and does not consider tax consequences other than those arising under Cayman Islands law.

The following is a general summary of Cayman Islands taxation in relation to the Securities.

Under existing Cayman Islands laws:

(i) payments of principal and interest in respect of, or distributions on, the Securities will not be subject to taxation in the Cayman Islands and no withholding will be required on such payments to any Holder of a Seconded Note and gains derived from the sale of Securities will not be subject to Cayman Islands income or capital gains tax. The Cayman Islands currently have no income, corporation or capital gains tax and no estate duty, inheritance tax or gift tax.

(ii) certificates evidencing the Securities, in registered form, to which title is not transferable by delivery, will not attract Cayman Islands stamp duty. However, an instrument transferring title to a Security, if brought to or executed in the Cayman Islands, would be subject to Cayman Islands stamp duty.

The Issuer has been incorporated under the laws of the Cayman Islands as an exempted company with limited liability and, as such, has applied for and expects to obtain an undertaking from the Governor in Cabinet of the Cayman Islands substantially in the following form:

"THE TAX CONCESSIONS LAW
(1999 REVISION)
UNDERTAKING AS TO TAX CONCESSIONS"

In accordance with Section 6 of the Tax Concessions Law (1999 Revision), the Governor in Cabinet undertakes with:

Graywolf CLO I, Ltd. ("the Company")

(a) that no Law which is hereafter enacted in the Islands imposing any tax to be levied on profits, income, gains or appreciations shall apply to the Company or its operations; and
(b) in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax shall be payable

(i) on or in respect of the shares, debentures or other obligations of the Company; or
(ii) by way of the withholding in whole or in part of any relevant payment as defined in Section 6(5) of the Tax Concessions Law (1999 Revision).

These concessions shall be for a period of TWENTY years from the 28th day of August 2009.

GOVERNOR IN CABINET

-98-

Confidential Treatment Requested by Goldman Sachs QSMBS-E-001918332
Footnote Exhibits - Page 5112

The Cayman Islands does not have an income tax treaty arrangement with the United States or any other country. The Cayman Islands has entered into an information exchange agreement with the United States.

THE PRECEDING DISCUSSION IS ONLY A SUMMARY OF CERTAIN TAX IMPLICATIONS OF AN INVESTMENT IN THE SECURITIES. PROSPECTIVE INVESTORS ARE URGED TO CONSULT WITH THEIR OWN TAX ADVISORS PRIOR TO INVESTING TO DETERMINE THE TAX IMPLICATIONS OF SUCH INVESTMENT IN LIGHT OF EACH INVESTOR'S PARTICULAR CIRCUMSTANCES.

ERISA CONSIDERATIONS

The advice below was not written and is not intended to be used and cannot be used by any taxpayer for purposes of avoiding United States federal income tax penalties that may be imposed. The advice is written to support the promotion or marketing of the transaction. Each taxpayer should seek advice based on the taxpayer's particular circumstances from an independent tax advisor.

The foregoing disclaimer is provided to satisfy obligations under Circular 230 governing standards of practice before the Internal Revenue Service.

The United States Employee Retirement Income Security Act of 1974, as amended ("ERISA") imposes certain requirements on "employee benefit plans" (as defined in Section 3(3) of, and that are subject to Title I of ERISA), including entities such as collective investment funds and insurance company separate accounts whose underlying assets include the assets of such plans (collectively, "ERISA Plans") and on those persons who are fiduciaries with respect to ERISA Plans. Investments by ERISA Plans are subject to ERISA's general fiduciary requirements, including the requirement of investment prudence and diversification and the requirement that an ERISA Plan's investments be made in accordance with the documents governing the ERISA Plan. The prudence of a particular investment must be determined by the responsible fiduciary of an ERISA Plan by taking into account the ERISA Plan's particular circumstances and all of the facts and circumstances of the investment including, but not limited to, the matters discussed above under "Risk Factors" and the fact that in the future there may be no market in which such fiduciary will be able to sell or otherwise dispose of the Securities.

Section 406 of ERISA and Section 4975 of the Code prohibit certain transactions involving the assets of an ERISA Plan (as well as those plans that are not subject to ERISA but which are subject to Section 4975 of the Code, such as individual retirement accounts together with ERISA Plans, " Plans") and certain persons (referred to as "parties in interest" or "disqualified persons") having certain relationships to such Plans, unless a statutory or administrative exemption is applicable to the transaction. A party in interest or disqualified person who engages in a prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and Section 4975 of the Code.

Governmental plans, certain church plans and non-U.S. plans, while not subject to the fiduciary responsibility provisions of ERISA or the provisions of Section 4975 of the Code, may nevertheless be subject to state, local or other federal and non-U.S. laws that are substantially similar to the foregoing provisions of ERISA and the Code. Fiduciaries of any such plans should consult with their counsel before purchasing any Securities.

The U.S. Department of Labor has promulgated regulations, 29 C.F.R. Section 2510.3-101 (the "Plan Asset Regulations"), describing what constitutes the assets of a Plan with respect to the Plan's investment in an entity for purposes of certain provisions of ERISA and Section 4975 of the Code, including the fiduciary responsibility provisions of Title I of ERISA and Section 4975 of the Code. Under the Plan Asset Regulations, if a Plan invests in an "equity interest" of an entity that is neither a "publicly offered security" nor a security issued by an investment company registered under the Investment Company Act, the Plan's assets include both the equity interest and an undivided interest in each of the entity's underlying

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918333
assets, unless it is established that the entity is an "operating company" or, as further discussed below, that equity participation in the entity by "benefit plan investors" is not "significant".

Prohibited transactions within the meaning of Section 406 of ERISA or Section 4975 of the Code may arise if Securities are acquired with the assets of a Plan with respect to which the Issuer, the Co-Issuer, the Initial Purchaser, the Trustee, the Collateral Manager, any seller of Collateral Obligations to the Issuer and the Co-Issuer or any of their respective Affiliates, is a party in interest or a disqualified person. Certain exemptions from the prohibited transaction provisions of Section 406 of ERISA and Section 4975 of the Code may be applicable, however, depending in part on the type of Plan fiduciary making the decision to acquire a Security and the circumstances under which such decision is made. Included among these exemptions are Prohibited Transaction Class Exemption ("PTCE") 91-38 (relating to investments by bank collective investment funds), PTCE 84-14 (relating to transactions effected by "a qualified professional asset manager"), PTCE 89-1 (relating to investments by insurance company pooled separate accounts), PTCE 95-06 (relating to investments by insurance company general accounts), and PTCE 85-23 (relating to transactions effected by "in house asset manager" or "Investment-Based Exemptions"). There is also a statutory exemption that may be available under Section 408(b)(17) of ERISA and Section 4975(d)(26) of the Code to a party in interest that is a service provider to a Plan investing in the Securities for adequate consideration, provided such service provider is not (i) the beneficiary with respect to the Plan's assets used to acquire the Securities, or an affiliate of such beneficiary or (ii) an affiliate of the employer sponsoring the Plan (the "Service Provider Exemption"). Adequate consideration means fair market as determined in good faith by the Plan fiduciary pursuant to regulations to be promulgated by the U.S. Department of Labor. There can be no assurance that any of these investment-based exemptions or the Service Provider Exemption or any other administrative or statutory exemption will be available with respect to any particular investment involving the ERISA Offered Securities.

Any insurance company proposing to invest assets of its general account in Securities should consider the extent to which such investment would be subject to the requirements of Title I of ERISA and Section 4975 of the Code in light of the U.S. Supreme Court's decision in John Hancock Mutual Life Insurance Co. v. Harris Trust and Savings Bank, 510 U.S. 86 (1993), and the enactment of Section 401(c) of ERISA on August 20, 1986. In particular, such an insurance company should consider (i) the exemptive relief granted by the U.S. Department of Labor for transactions involving insurance company general accounts under Section 4975(d)(26) of the Code and (ii) whether the purchase of Securities will be permitted under the final regulations issued under Section 401(c) of ERISA. The final regulations provide guidance on which assets held by an insurance company constitute "plan assets" for purposes of the fiduciary responsibility provisions of ERISA and Section 4975 of the Code. The regulations do not exempt the assets of insurance company general accounts from treatment as "plan assets" to the extent they support certain participating annuity issues issued to Plans after December 31, 1989.

The Co-Issued Notes

The Plan Asset Regulations define an "equity interest" as any interest in an entity other than an instrument that is treated as indebtedness under applicable local law and which has no substantial equity features. As noted above in Income Tax Considerations, it is the opinion of tax counsel to the Issuer and the Co-Issuer that the Co-Issued Notes will be treated as debt for U.S. income tax purposes. Although there is little guidance on the subject, at the time of their issuance, the Co-Issued Notes should be treated as indebtedness without substantial equity features for purposes of the Plan Asset Regulations. This determination is based in part upon (i) tax counsel's opinion that the Co-Issued Notes will be classified as debt for U.S. federal income tax purposes when issued and (ii) the traditional debt features of the Co-Issued Notes, including the reasonable expectation of purchasers of the Co-Issued Notes that they will be repaid when due, as well as the absence of conversion rights, warrants and other typical equity features. Based upon these factors, subject to the foregoing and other considerations, and subject to the consideration described below, the Co-Issued Notes may be purchased by a Plan. Nevertheless, without regard to whether the Co-Issued Notes are considered equity interests, prohibited transactions within the meaning of Section 406 of ERISA or Section 4975 of the Code may arise if the Co-Issued Notes are acquired with the assets of an ERISA Plan with respect to which the Issuer, the Co-Issuer, the Initial Purchaser or the Trustee or, in certain circumstances, any of their respective Affiliates, is a party in interest or a disqualified person.
Footnote Exhibits - Page 5114

Based Exemptions or the Service Provider Exemption may be available to cover such prohibited transactions.

By its purchase of any Co-Issued Notes, each purchaser and subsequent transferee thereof will be deemed to have represented and warranted, at the time of its acquisition and throughout the period it holds such Co-Issued Note, either that (a) it is neither a Plan nor any entity whose underlying assets include "plan assets" (within the meaning of the Plan Asset Regulations) by reason of such Plan's investment in the entity, nor a governmental, church, non-U.S. or other plan which is subject to any federal, state, local or non-U.S. law that is substantially similar to the provisions of Section 406 of ERISA or Section 4975 of the Code or (b) its purchase, holding and disposition of a Co-Issued Note will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code (or, in the case of a governmental, church, non-U.S. or other plan, a non-exempt violation of any substantially similar law).

The Subordinated Securities and the Class E Notes

Equity participation in an Issuer of Securities by "benefit plan investors" is "significant" and will cause the assets of the Issuer to be deemed the assets of an investing Plan (in the absence of another applicable Plan Asset Regulations exception) if 25% or more of the value of any class of equity interest in the Issuer is held by "benefit plan investors". Recently, the Pension Protection Act of 2006 effectively amended, by statute, the definition of "benefit plan investors" in the Plan Asset Regulations. Employee benefit plans that are not subject to Title I of ERISA and plans that are not subject to Section 4975 of the Code, such as U.S. governmental and most U.S. church plans or non-U.S. plans, are no longer considered "benefit plan investors". Accordingly, only employee benefit plans subject to Title I of ERISA or Section 4075 of the Code or an entity whose underlying assets include plan assets by reason of such plans' investment in the entity are considered in determining whether investment by "benefit plan investors" represents 25% or more of any class of equity of the Issuer. Hence, the term "benefit plan investor" includes (a) an employer benefit plan (as defined in Section 3(3) of ERISA) that is subject to the provisions of Title I of ERISA, (b) a plan as defined in Section 4975(k)(1) of the Code that is subject to Section 4975 of the Code, (c) any entity whose underlying assets include "plan assets" by reason of any such employee benefit plan's or plans' investment in the entity or (d) as such term is otherwise defined in any regulations promulgated by the U.S. Department of Labor under Section 3(2) of ERISA (collectively, "Benefit Plan Investors"). For purposes of making the 25% determination, the value of any equity interests held by a person (other than a Benefit Plan Investor) who has discretionary authority or control with respect to the assets of the Issuer or any person who provides investment advice for a fee (direct or indirect) with respect to such assets, or any affiliate of such person (each, a "Controlling Person"), is disregarded. Under the Plan Asset Regulations, an "affiliate" of a person includes any person, directly or indirectly through one or more intermediaries, controlling, controlled by or under common control with the person, and "control" with respect to a person other than an individual, means the power to exercise a controlling influence over the management or policies of such person. The Subordinated Securities and the Class E Notes are considered equity investments for the purposes of applying Title I of ERISA and Section 4975 of the Code. Accordingly, purchases of (i) Subordinated Securities by Benefit Plan Investors from the initial Purchaser or the Issuer and any subsequent Purchaser will be limited to less than 25% of the value of each of all Outstanding Subordinated Securities by requiring each such purchaser to make certain representations and/or to agree to certain transfer restrictions regarding their status as Benefit Plan Investors or Controlling Persons and (ii) the Class E Notes by Benefit Plan Investors will not be permitted. Subordinated Securities either (i) held as principal by the Collateral Manager, the Trustee, any of their respective affiliates, employers of the Collateral Manager, the Trustee or any of their affiliates and any charitable foundation of any such employees (other than any of such interests held as a Benefit Plan Investor) or (ii) held by persons that have represented that they are Controlling Persons (to the extent that such Controlling Person is not a Benefit Plan Investor), will be disregarded and will not be treated as Outstanding for purposes of determining compliance with such 25% limitation.

With respect to the U.S. Subordinated Securities or any beneficial interest therein, a purchaser will be required to represent and warrant, at the time of its acquisition and throughout the period it holds such Subordinated Security, (1) whether or not the purchaser is a Benefit Plan Investor, (2) whether or not the purchaser is a Controlling Person and (3) (a) if it is a Benefit Plan Investor, as purchaser, and disposition of Subordinated Securities will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or (b) if it is a governmental, church, non-U.S. or
Footnote Exhibits - Page 5115

other plan which is subject to any federal, state, local or non-U.S. law that is substantially similar to the provisions of Title I of ERISA or Section 4975 of the Code, its purchase, holding and disposition of Subordinated Securities will not constitute or result in a non-exempt violation under any such substantially similar law.

With respect to the purchase of a beneficial interest in the Regulation S Global Subordinated Securities from the Initial Purchaser or the Issuer, as the case may be, a purchaser will be required to represent and warrant, at the time of its acquisition and throughout the period it holds such Subordinated Security, (1) whether or not the purchaser is a Benefit Plan Investor, (2) whether or not the purchaser is a Controlling Person and (3) (a) if it is a Benefit Plan Investor, its purchase, holding and disposition of Subordinated Securities will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 475 of the Code or (b) if it is a governmental, church, non-U.S. or other plan which is subject to any federal, state, local or non-U.S. law that is substantially similar to the provisions of Title I of ERISA or Section 4975 of the Code, its purchase, holding and disposition of Subordinated Securities will not constitute or result in a non-exempt violation under any such substantially similar law. Each purchaser and subsequent transferee of a beneficial interest in a Regulation S Global Subordinated Security purchased from persons other than the Initial Purchaser or the Issuer, as the case may be, will be deemed to represent that the purchaser or transferee, as the case may be, from the date on which it acquires its interest in such Subordinated Securities through and including the date on which such purchaser or transferee disposes of its interest in such Subordinated Securities, (a) is not a Benefit Plan Investor or a Controlling Person and (b) if it is a governmental, church, non-U.S. or other plan that is subject to any federal, state, local or non-U.S. law that is substantially similar to the provisions of Title I of ERISA or Section 4975 of the Code, its purchase, holding and disposition of Class E Notes will not constitute or result in a non-exempt violation under any such substantially similar law.

By its purchase of any Class E Notes, each purchaser and subsequent transferee thereof will be deemed to have represented and warranted that, from the date on which it acquires its interest in such Class E Notes through and including the date on which such purchaser or transferee disposes of its interest in such Class E Notes, (a) is not a Benefit Plan Investor and (b) if it is a governmental, church, non-U.S. or other plan that is subject to any federal, state, local or non-U.S. law that is substantially similar to the provisions of Title I of ERISA or Section 4975 of the Code, its purchase, holding and disposition of Class E Notes will not constitute or result in a non-exempt violation under any such substantially similar law.

There can be no assurance that, despite the transfer restrictions relating to purchases by Benefit Plan Investors and Controlling Persons and the procedures to be employed by the Issuer to attempt to limit ownership by Benefit Plan Investors and Controlling Persons of the Class E Notes or the Subordinated Securities, (i) all or any of the assets of the Issuer are deemed to be "plan assets" of a Plan subject to ERISA or Section 4975 of the Code because one or more Plans is an owner of Class E Notes or the Subordinated Securities (or of a Co-Issued Note characterized as an "equity interest" in the Issuer), certain transactions that the Collateral Manager might enter into, or may have entered into, on behalf of the Issuer in the ordinary course of its business might constitute non-exempt "prohibited transactions" under Section 406 of ERISA or Section 4975 of the Code and might have to be rescinded at significant cost to the Issuer. The Collateral Manager could be deemed to be an ERISA Fiduciary and may be prevented from engaging in certain investments (as not being deemed consistent with the ERISA prudent investment standards) or engaging in certain transactions or the arrangements because they might be deemed to cause non-exempt prohibited transactions. It also is not clear that Section 403(a)(1) of ERISA, which limits delegation of investment management responsibilities by fiduciaries of ERISA Plans, would be satisfied.

Any Plan fiduciary or other person who proposes to use assets of any Plan to purchase any Securities should consult with its counsel regarding the applicability of the fiduciary responsibility and prohibited transaction provisions of ERISA and Section 4975 of the Code to such an investment, and to confirm that such investment will not constitute or result in a non-exempt prohibited transaction or any other violation of an applicable requirement of ERISA.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918336
Footnote Exhibits - Page 5116

The sale of any Security to a Plan, or to a person using assets of any Plan to effect its purchase, is in no respect a representation by the Issuer, the Initial Purchaser or the Collateral Manager that such an investment meets all relevant legal requirements with respect to investments by Plans generally or any particular Plan, or that such an investment is appropriate for Plans generally or any particular Plan.

CERTAIN LEGAL INVESTMENT CONSIDERATIONS

None of the Issuer, the Co-Issuer, the Collateral Manager and the Initial Purchaser make any representation as to the proper characterization of the Securities for legal investment or other purposes, as to the ability of particular investors to purchase Securities for legal investment or other purposes or as to the ability of particular investors to purchase Securities under applicable investment restrictions. Without limiting the generality of the foregoing, none of the Issuer, the Co-Issuer, the Collateral Manager and the Initial Purchaser make any representation as to the characterization of the Securities as a U.S. domestic or foreign (non-U.S.) investment under any state insurance code or related regulations, and they are not aware of any published pronouncement that addresses such characterization. Notwithstanding the foregoing, the Issuers understood that certain state insurance regulators, in response to a request for guidance, may be considering the characterization (as U.S. domestic or foreign (non-U.S.)) of certain collateralized debt obligation securities co-issued by a non-U.S. Issuer and a U.S. co-Issuer. There can be no assurance as to the nature of any guidance or other action that may result from such consideration. The uncertainties described above (and any unfavorable future determinations concerning legal investment or financial institution regulatory characteristics of the Securities) may affect the liquidity of the Securities. Accordingly, all institutions the activities of which are subject to legal investment laws and regulations, regulatory capital requirements or review by regulatory authorities should consult their own legal advisors in determining whether and to what extent the Securities are subject to investment, capital or other restrictions.

SETTLEMENT AND CLEARING

Global Securities

Upon the issuance of the Global Securities, DTC or its custodian will credit, on its internal system, the respective aggregate original principal amount or number, as the case may be, of the individual beneficial interests represented by such Global Securities to the accounts of persons who have accounts with DTC. Such accounts initially will be designated by or on behalf of the Initial Purchaser. Ownership of beneficial interests in Global Securities will be limited to persons who have accounts with DTC ("participants") or persons who hold interests through participants. Ownership of beneficial interests in a Global Security will be shown on, and the transfer of that ownership will be effectuated only through, records maintained by DTC or its nominee (with respect to interests of participants) and the records of participants (with respect to interests of persons other than participants).

So long as DTC, or its nominee, is the registered owner or Holder of the Global Securities, DTC or such nominee, as the case may be, will be considered the sole owner or Holder of each Class of the Securities represented by such Global Securities for all purposes under the Indenture and such Securities. Unless DTC notifies the Issuer that it is unwilling or unable to continue as depositary for a global security or ceases to be a "Clearing Agency" registered pursuant to the provisions of Section 17A of the Exchange Act, owners of the beneficial interests in the Global Securities will not be entitled to have any portion of such Global Securities registered in their names, will not receive or be entitled to receive physical delivery of Securities in certificated form and will not be considered to be the owners or Holders of any Securities under the Indenture. The owner of a beneficial interest in a Global Security will also be entitled to receive a certificated Security in exchange for such interest if an Event of Default has occurred and is continuing. In addition, no beneficial owner of an interest in the Global Securities will be able to transfer that interest except in accordance with DTC's applicable procedures (in addition to those under the Indenture referred to hereinafter and, if applicable, those of Euroclear and Clearstream).

Investors may hold their interests in Regulation S Global Securities directly through Clearstream or Euroclear, if they are participants in these systems, or indirectly through organizations that are participants in these systems. Clearstream and Euroclear will hold interests in the Regulation S Global Securities on behalf of their participants through their respective depositaries, which in turn will hold the interests in the
Footnote Exhibits - Page 5117

Regulation S Global Securities in customer's securities accounts in the depositaries' names on the books of DTC. Investors may hold their interests in a Rule 144A Global Security note directly through DTC if they are participants in the system, or indirectly through organizations that are participants in the system.

Payments of the principal of and interest or distributions on Global Securities will be made to DTC or its nominees, as the registered owner thereof. None of the Issuers, the Trustee nor any paying agent will have any responsibility or liability for any aspect of the records relating to or payments or distributions made on account of beneficial ownership interests in the Global Securities or for any notice permitted or required to be given to Holders of Securities or any consent given or actions taken by DTC as Holder of Securities. The Issuers expect that DTC or its nominee, upon receipt of any payment of principal, interest or distributions, as the case may be, in respect of a Global Security representing any Securities held by it or its nominee, will immediately credit participants' accounts with payments in amounts proportionate to their respective interests in the principal amount of such Security in globe form as shown on the records of DTC or its nominee. The Issuers also expect that payments by participants to owners of interests in such Global Security held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants. Payments of the principal of and interest or distributions on the Regulation S Global Securities will be made to Clearstream or Euroclear, as applicable, as indirect participants in DTC, in accordance with their respective rules and operating procedures.

Transfers between participants will be effected in the ordinary way in accordance with DTC's rules and will be settled in same-day funds. The laws of some jurisdictions require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer beneficial interests in Global Securities to these persons may be limited. Because DTC can only act on behalf of participants, who in turn act on behalf of indirect participants and certain banks, the ability of a person having a beneficial interest in Global Securities to pledge its interest to persons or entities that do not participate in the DTC system, or otherwise take action in respect of its interest, may be affected by the lack of a physical certificate of the interest. Transfers between account holders in Clearstream and Euroclear will be effected in the ordinary way in accordance with their respective rules and operating procedures.

Subject to compliance with the transfer restrictions applicable to the Securities described above, cross-market transfers between DTC participants, on the one hand, and, directly or indirectly through Clearstream or Euroclear account holders, on the other, will be effected in DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by its respective depository; however, these cross-market transfers will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in the system in accordance with its rules and procedures and within its established deadlines (Brussels time). Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement and, on its behalf by delivering or receiving interests in a Regulation S Global Security in DTC and making or receiving payment in accordance with normal procedures for a same-day funds settlement applicable to DTC. Clearstream and Euroclear account holders may not deliver instructions directly to the depositaries for Clearstream or Euroclear.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a Global Security from a DTC participant will be credited during the securities settlement processing day (which must be a Business Day for Euroclear or Clearstream, as the case may be) immediately following the DTC settlement date and the credit of any transactions in interests in a Global Security settled during the processing day will be reported to the relevant Euroclear or Clearstream participant on that day. Cash received in Euroclear or Clearstream as a result of sales of interests in a Global Security by or through a Euroclear or Clearstream participant to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Euroclear or Clearstream cash account only as of the Business Day following settlement in DTC.

DTC has advised the Issuers that it will take any action permitted to be taken by a Holder of the Securities (including the presentation of the applicable Securities for exchange as described below) only at the direction of one or more participants to whose account with DTC interests in a Global Security are...

Confidential Treatment Requested by Goldman Sachs

GS MBS:E:00198338
Footnote Exhibits - Page 5118

credited and only in respect of that portion of the aggregate principal amount or aggregate notional amount, as applicable, of the Securities as to which the participant or participants has or have given direction.

The giving of notices and other communications by DTC to participants, by participants to persons who hold accounts with them and by such persons to Holders of beneficial interests in a Global Security will be governed by interments between them, subject to any statutory or regulatory requirements as may exist from time to time.

DTC has advised the issuers as follows: DTC is a limited purpose trust company principally located under the laws of the State of New York, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the Uniform Commercial Code and a “clearing agency” registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Participants include securities brokers and dealers, banks, trust companies and clearing corporations and may include certain other organizations. Indeed access to the DTC system is available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly (“indirect participants”).

Although DTC, Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of interests in Global Securities among participants of DTC, Clearstream and Euroclear, they are under no obligation to perform or continue to perform these procedures, and the procedures may be discontinued at any time. Neither the issuer nor the Trustee will have any responsibility for the performance by DTC, Clearstream, Euroclear or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Individual Definitive Securities

If (i) DTC or any successor to DTC advises the Issuer in writing that it is at any time unwilling or unable to continue as a depositary for the reasons described in "Global Securities" and a successor depositary is not appointed by the Issuer within 90 days, (ii) as a result of any amendment to or change in the laws or regulations of the Cayman Islands or of any authority thereon or thereof having power to tax or in the interpretation or administration of such laws or regulations which become effective on or after the Closing Date, the Issuer or the paying agent or, or will be, required to make any deduction or withholding from any payment in respect of the Securities which would not be required if the Securities were in definitive form or (iii) upon the written request of any beneficial owner of an interest in a Global Security following the occurrence of an Event of Default, the Issuer will issue individual definitive Securities in registered form in exchange for the Global Securities. Upon receipt of such notice from DTC, the Issuer will use its best efforts to make arrangements with DTC for the exchange of interests in the Global Securities for individual definitive Securities and cause the requested individual definitive Securities to be executed and delivered to the Register in sufficient quantities and authenticated by or on behalf of the Trustee for delivery to Holders of the Global Securities. Persons exchanging interests in a Global Security for individual definitive Securities will be required to provide to the Trustee, through DTC, Clearstream or Euroclear, (i) written instructions and other information required by the Issuer and the Trustee to complete, execute and deliver such individual definitive Securities, (ii) in the case of an exchange of an interest in a Rule 144A Global Secured Note, such certification as to a “Qualified Institutional Buyer” status, and that such Holder is a Qualified Purchaser, as the Issuer shall require and (iii) in the case of an exchange of an interest in a Regulation S Global Security, such certification as the Issuer shall require as to non-U.S. Person status. In all cases, individual definitive Securities delivered in exchange for any Security in global form or beneficial interests therein will be registered in the names, and issued in denominations in compliance with the minimum denominations specified for the applicable Securities in global form, requested by DTC.

Individual definitive Securities will bear, and be subject to, such legend as the Issuer requires in order to assure compliance with any applicable law. Individual definitive Securities will be transferable subject to the minimum denomination applicable to such Securities, in whole or in part, and exchangeable for individual definitive Securities of the same kind, at the office of the Trustee or the office of any transfer agent, including the transfer agent in Ireland, upon compliance with the requirements so set forth in the indenture.

Confidential Treatment Requested by Goldman Sachs
Footnote Exhibits - Page 5119

Individual definitive Securities may be transferred through any transfer agent, including the transfer agent in Ireland, upon the delivery and duly completed assignment of such Securities. Upon a partial transfer of any Securities represented by the applicable definitive notes, the Trustee will issue in exchange therefor to the transferor one or more individual definitive Securities representing the amount being so transferred and will issue to the transferee one or more individual definitive Securities representing the remaining amount not being transferred. No service charge will be imposed for any registration of transfer or exchange, but payment of a sum sufficient to cover any tax or other governmental charge may be required. The Holder of a restricted individual definitive Security may transfer such Security subject to compliance with the provisions of the legend thereon. Upon the transfer, exchange or replacement of Securities bearing the legend, or upon specific request for removal of the legend on a Security, the issuer will deliver only Securities that bear such legend, or will refuse to remove such legend, as the case may be, unless there is delivered to the Issuer such satisfactory evidence, which may include an opinion of counsel, as may reasonably be required by the Issuer that neither the legend nor the restrictions on transfer set forth therein are required to ensure compliance with the provisions of the Securities Act and the Investment Company Act. Payments of principal and interest on individual definitive Secured Notes and Subordinated Securities shall be payable by wire transfer in immediately available funds to a Dollar account maintained by the Holder thereof or its nominee or, if appropriate instructions are not received at least fifteen days prior to the relevant Payment Date, by check drawn on a bank in the United States of America and sent by mail to the Registered Holder thereof or, for so long as any of the Securities are listed on the Irish Stock Exchange and the rules of such Exchange shall so require, at the office of the paying agent in Ireland.

TRANSFER RESTRICTIONS

Because of the following restrictions, purchasers are advised to consult legal counsel prior to making any offer, resale, pledge or transfer of the Securities. Any purchase or transfer of the Securities will be subject to the minimum denomination requirements set forth in “Summary—The Offering—Securities issued” (except in the limited circumstances set forth in the Indenture).

Rule 144A Global Secured Notes

Each purchaser of a beneficial interest in a Rule 144A Global Secured Note will be deemed to have represented and agreed with the Issuer as follows:

(a) The purchaser is a Qualified Institutional Buyer and a Qualified Purchaser, (b) the purchaser is purchasing the Secured Notes for its own account or the account of another Qualified Purchaser that is also a Qualified Institutional Buyer as to which the purchaser exercises sole investment discretion, (c) the purchaser and any such account is acquiring the Secured Notes primarily for investment and not for sale in connection with any distribution thereof, (d) the purchaser and any such account was not formed solely for the purpose of investing in the Secured Notes (except when each beneficial owner of the purchaser or any such account is a Qualified Purchaser), (e) in the event the purchaser (or any account for which it is purchasing the Secured Notes) is a private investment company formed on or before April 30, 1990, the purchaser and each such account has received the necessary consent from its beneficial owners, (f) the purchaser is not a broker-dealer that owns and invests in a discretionary basis less than $25,000,000 in securities of unaffiliated issuers, (g) the purchaser is not a plan, profit-sharing or other retirement trust fund or plan in which the partners, beneficiaries or participants or affiliates may designate the particular investment to be made, (h) the purchaser agrees that it and each such account shall not hold such Secured Notes for the benefit of any other Person and shall be the sole beneficial owner thereof for all purposes and that it shall not sell participation interests in the Secured Notes or enter into any other arrangement pursuant to which any other Person shall be entitled to a beneficial interest in the distribution on the Secured Notes (except when each beneficial owner of the purchaser or any such account is a Qualified Purchaser), (i) the Secured Notes purchased directly or indirectly by the purchaser or any account for which it is purchasing the Secured Notes constitute an investment of no more than 40% of the purchaser’s and each such account’s assets (except when each beneficial owner of the purchaser or any such account is a Qualified Purchaser), (j) the purchaser and each such account is purchasing the Secured Notes in a principal amount of not less than the minimum denomination requirement for the purchaser and each such account, (k) the purchaser will provide notice of the transfer restrictions set forth in the Indenture (including the exhibits thereto) to any transferee of its

GS MBS-E-001918340
Footnote Exhibits - Page 5120

Secured Notes, (l) the purchaser understands and agrees that the issuer may receive a list of participants in the Secured Notes from one or more book-entry depositories and (m) the purchaser understands and agrees that any purported transfer of the Secured Notes to a purchaser that does not comply with the requirements of this paragraph (l) shall be null and void ab initio.

(9) If any U.S. Person that is not both a Qualified Institutional Buyer and a Qualified Purchaser at the time it acquires an interest in a Secured Note shall become the beneficial owner of any Secured Note, (any such Person, a "Non-Permitted Holder"); the issuer shall, promptly after discovery that such person is a Non-Permitted Holder by the Issuer, the Co-Issuer or the Trustee (and notice by the Trustee or the Co-Issuer to the Issuer, if either of them makes the discovery), send notice to such Non-Permitted Holder demanding that such Non-Permitted Holder transfer its interest to a Person that is not a Non-Permitted Holder within 30 days of the date of such notice. If such Non-Permitted Holder fails to transfer its Secured Notes, the issuer shall have the right, without further notice to the Non-Permitted Holder, to sell such Secured Notes or interest in Secured Notes to a purchaser selected by the Issuer that is not a Non-Permitted Holder on such terms as the Issuer may choose. The Issuer, an investment bank selected by the Issuer, or the Trustee at the written direction of the Issuer (and approved by the Collateral Manager) may select the purchaser by soliciting one or more bids from one or more brokers or other market professionals that regularly deal in securities similar to the Secured Notes, and selling such Secured Notes to the highest such bidder. However, the Issuer or the Trustee, at the written direction of the Issuer, may select a purchaser by any other means determined by it in its sole discretion. The holder of each Secured Note, the Non-Permitted Holder and each other Person in the chain of title from the Holder to the Non-Permitted Holder, by its acceptance of an interest in the Secured Notes, agrees to cooperate with the Issuer and the Trustee to effect such transfers. The proceeds of such sale, net of any commissions, expenses, including fees of attorneys and agents, and taxes due in connection with such sale shall be remitted to the Non-Permitted Holder. The terms and conditions of any sale under this paragraph shall be determined in the sole discretion of the Issuer, and neither the Issuer nor the Trustee shall be liable to any Person having an interest in the Secured Notes sold as a result of any such sale or the exercise of such discretion (including for the price of such sale).

(9) The purchaser understands and agrees that the Secured Notes have not been and will not be registered or qualified under the Securities Act or any applicable state securities laws or the securities laws of any other jurisdiction and the sale of the Secured Notes to the purchaser is being made in reliance on an exemption from registration under the Securities Act, and may be reoffered, resold or pledged or otherwise transferred only (A)(i) to a Person who, at the time of the proposed transfer, is not a U.S. Person (as defined in Rule 902 of Regulation S) or (B)(ii) to a Person who is not a U.S. Person (as defined in Rule S03 or Rule S94 of Regulation S and Rule 997 of Regulation S) and who at the time of the proposed transfer is an Institutional Buyer and is a qualified Institutional Buyer purchasing for its own account or for the account of a Qualified Institutional Buyer as to which the purchaser exercises sole investment discretion in a transaction meeting the requirements of Rule 144A or (B) to a Person that is a U.S. Person in an offsite transaction complying with Rule 903 or Rule 904 of Regulation S and (D) in accordance with all applicable securities laws of the states of the United States. The Issuer, the Co-Issuer and the Collateral have not been registered under the Investment Company Act and, therefore, no transfer having the effect of causing the Issuer, the Co-Issuer or the Collateral Manager to be registered as an investment company under the Investment Company Act will be recognized. The Secured Notes are subject to the restrictions on transfer set forth herein and in the indenture and the Secured Notes. The purchaser understands and agrees that any purported transfer of the Secured Notes to a purchaser that does not comply with the requirements of this paragraph (D) shall be null and void ab initio.

(v) The purchaser is not purchasing the Secured Notes with a view toward the resale, distribution, or other disposition thereof in violation of the Securities Act. The purchaser understands and agrees that an investment in the Secured Notes involves certain risks, including the risk of loss of its entire investment in the Secured Notes under certain circumstances. The purchaser has had access to such financial and other information concerning the Issuer, the Co-Issuer and the Secured Notes as it deemed necessary or appropriate in order to make an informed investment decision with respect to its purchase of the Secured Notes, including an opportunity to ask questions of, and request information from, the Issuer and the Co-Issuer.

(vi) In connection with the purchase of the Secured Notes: (A) none of the Issuers, the initial Purchaser, the Trustee, the Collateral Manager, the Collateral Administrator, the Administrator or the

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918341
Registrar (or any of their respective Affiliates) is acting as a fiduciary or financial or investment adviser for the purchaser; (B) the purchaser is not relying (for purposes of making any investment decision or otherwise) upon any advice, counsel or representations (whether written or oral) of the Issuers, the Initial Purchaser, the Trustee, the Collateral Manager, the Collateral Administrator, the Administrator or the Registrar (or any of their respective Affiliates) other than the Issuers and the Collateral Manager (with respect to the sections entitled "The Collateral Manager", and "Risk Factors—Conflicts of Interest Involving the Collateral Manager and Affiliates") in the final offering circular for such Secured Notes and any representations expressly set forth in a written agreement with such party; (C) none of the Issuers, the Initial Purchaser, the Trustee, the Collateral Manager, the Collateral Administrator, the Administrator or the Registrar (or any of their respective Affiliates) has given to the purchaser (directly or indirectly through any other Person) any assurance, guarantee, or representation whatsoever as to the expected or projected success, profitability, return, performance, result, effect, consequence or benefit (including legal, regulatory, tax, financial, accounting or otherwise) as to an investment in the Secured Notes; (D) the purchaser has consulted with its own legal, regulatory, tax, business, investment, financial and accounting advisers to the extent it has deemed necessary, and it has made its own investment decisions (including decisions regarding the suitability of any transaction pursuant to the Indenture) based upon its own judgment and upon any advice from such advisers as it has deemed necessary and not upon any view expressed by the Issuers, the Initial Purchaser, the Collateral Manager, the Trustee, the Collateral Administrator, the Administrator or the Registrar (or any of their respective Affiliates); (E) the purchaser has evaluated the terms and conditions of the purchase and sale of the Secured Notes with a full understanding of all of the risks thereof (economic and otherwise), and it is capable of assuming, and willing to assume (financially and otherwise) those risks; (F) the purchaser is a sophisticated investor; and (G) if acquiring the Secured Notes for any account, the purchaser has not made any disclosure, assurance, guarantee or representation not consistent with the provisions and the requirements contained herein.

(vi) With respect to Rule 144A Global Secured Notes (other than Rule 144A Global Class E Notes), at the time of its acquisition and throughout the period it holds such Rule 144A Global Secured Note (other than a Rule 144A Global Class E Note) (other than Rule 144A Global Class E Notes) (other than a Rule 144A Global Class E Note), either (A) the purchaser is not a Plan or an entity whose underlying assets include "plan assets" (within the meaning of 29 C.F.R. § 2510.3-101) by reason of such Plan's investment in the entity or a governmental, church, non-U.S. or other plan which is subject to any federal, state, local or non-U.S. law that is substantially similar to the provisions of Section 406 of ERISA or Section 4975 of the Code or (B) if the purchaser is an entity described in (A), the purchase, holding and disposition of a Secured Note, as the case may be, will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code (or, in the case of a governmental, church, non-U.S. or other plan, a non-exempt violation under any substantially similar federal, state, local or non-U.S. law). Any purported transfer of a Secured Note to a purchaser that does not comply with the applicable requirements of this subsection (vi) shall be null and void at law.

(vi) The Secured Notes will bear a legend substantially to the following effect:

THE SECURED NOTES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND THE ISSUERS HAVE NOT BEEN REGISTERED UNDER THE UNITED STATES INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE "INVESTMENT COMPANY ACT"), THE HOLDER HEREOF, BY PURCHASING THE SECURED NOTES IN RESPECT OF WHICH THIS NOTE HAS BEEN ISSUED, AGREES FOR THE BENEFIT OF THE ISSUERS THAT THE SECURED NOTES MAY BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED, ONLY (A) TO A PERSON WHOSE SELLER REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER WITHIN THE MEANINGS OF RULE 144A UNDER THE SECURITIES ACT, PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER, IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A UNDER THE SECURITIES ACT OR (B) TO A PERSON THAT IS NOT A U.S. PERSON (AS DEFINED UNDER THE SECURITIES ACT) IN AN OFFSHORE TRANSACTION COMPLYING WITH RULE 903 OR RULE 904 OF REGULATION S UNDER THE SECURITIES ACT AND, IN THE CASE OF CLAUSE (1), THAT (i) IS A QUALIFIED PURCHASER WITHIN THE MEANING OF SECTION 230(47) OF THE INVESTMENT COMPANY ACT, (ii) WAS NOT FORMED FOR THE PURPOSE OF INVESTING IN THE ISSUER (EXCEPT WHEN EACH BENEFICIAL OWNER OF THE PURCHASER IS

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918342
A QUALIFIED PURCHASER, (M) UNDERSTANDS AND AGREES THAT THIS ISSUER MAY RECEIVE A
LIST OF PARTICIPANTS IN THE SECURITIES FROM ONE OR MORE BOOK-ENTRY DEPOSITORIES.
(X) IS NOT A BROKER-DEALER THAT OWNS AND INVESTS ON A DISCRETIONARY BASIS LESS THAN
$5,000,000 IN SECURITIES OF UNAFFILIATED ISSUERS. (Y) IS NOT A PENSION, PROFIT-SHARING
OR OTHER RETIREMENT TRUST FUND OR PLAN IN WHICH THE PARTNERS, BENEFICIARIES OR
PARTICIPANTS OR APPLIQUES MAY DESIGNATE THE PARTICULAR INVESTMENT TO BE MADE AND
(Z) HAS RECEIVED THE NECESSARY CONSENT FROM ITS BENEFICIAL OWNERS WHEN THE
PURCHASER IS A PRIVATE INVESTMENT COMPANY FORMED ON OR BEFORE APRIL 30, 1999, AND
IN A TRANSACTION THAT MAY BE EFFECTED WITHOUT LOSS OF ANY APPLICABLE INVESTMENT
COMPANY ACT EXEMPTION OR EXCLUSION, (A) IN A PRINCIPAL AMOUNT OF NOT LESS THAN THE
MINIMUM DENOMINATION SET FORTH IN THE INDENTURE AND (B) IN ACCORDANCE WITH ALL
APPLICABLE SECURITIES LAWS OF THE STATES OF THE UNITED STATES OR OTHER APPLICABLE
JURISDICTION. ANY TRANSFER IN VIOLATION OF THE FOREGOING WILL BE OF NO FORCE AND
EFFECT, WILL BE VOID AS INITIATED AND WILL NOT OPERATE TO TRANSFER ANY RIGHTS TO THE
TRANSFEREE, NOTWITHSTANDING ANY INSTRUCTIONS TO THE CONTRARY TO THE ISSuers, THE
TRUSTEE OR ANY INTERMEDIARY. EACH TRANSFEREE OF THIS NOTE WILL PROVIDE NOTICE OF
THE TRANSFER RESTRICTIONS SET FORTH HEREIN AND IN THE INDENTURE TO ITS TRANSFEREE.
IN ADDITION TO THE FOREGOING, THE ISSUER MAINTAINS THE RIGHT TO RESELL SECURITIES
PREVIOUSLY TRANSFERRED TO NON-PERMITTED HOLDERS (AS DEFINED IN THE INDENTURE) IN
ACCORDANCE WITH AND SUBJECT TO THE TERMS OF THE INDENTURE.

ANY TRANSFER, PLEDGE OR OTHER USE OF THIS NOTE FOR VALUE OR OTHERWISE BY
OR TO ANY PERSON IS WRONGFUL SINCE THE REGISTERED OWNER HEREOF, Cede & Co., HAS
AN INTEREST HEREIN, UNLESS THIS NOTE IS PRESENTED BY AN AUTHORIZED REPRESENTATIVE
OF THE DEPOSITORY TRUST COMPANY ("DTC"), NEW YORK, NEW YORK, TO THE ISSUER OR
THEIR AGENT FOR REGISTRATION OF TRANSFER, EXCHANGE OR PAYMENT AND ANY NOTE
ISSUER IS REGISTERED IN THE NAME OF Cede & Co. OR OF SUCH OTHER ENTITY AS IS
REQUESTED BY AN AUTHORIZED REPRESENTATIVE OF DTC (AND ANY PAYMENT HEREON IS
MADE TO Cede & Co.).

TRANSFERS OF THIS NOTE SHALL BE LIMITED TO TRANSFERS IN WHOLE, BUT NOT IN
PART, TO NOMINEES OF DTC OR TO A SUCCESSOR THEREOF OR SUCH SUCCESSOR OR NOMINEE,
AND TRANSFERS OF PORTIONS OF THIS NOTE SHALL BE LIMITED TO TRANSFERS MADE IN
ACCORDANCE WITH THE RESTRICTIONS SET FORTH IN THE INDENTURE REFERRED HEREIN.

PRINCIPAL OF THIS NOTE IS PAYABLE AS SET FORTH HEREIN. ACCORDINGLY, THE
OUTSTANDING PRINCIPAL OF THIS NOTE AT ANY TIME MAY BE LESS THAN THE AMOUNT SHOWN
ON THE FACE HEREOF. ANY PERSON ACQUIRING THIS NOTE MAY ASCERTAIN ITS CURRENT
PRINCIPAL AMOUNT BY INQUIRY OF THE TRUSTEE.

THE FAILURE TO PROVIDE THE ISSUER, THE TRUSTEE AND ANY PAYING AGENCY WITH THE
APPLICABLE U.S. FEDERAL INCOME TAX CERTIFICATIONS (GENERALLY, AN INTERNAL REVENUE
SERVICE FORM W-4 (OR SUCCESSOR APPLICABLE FORM) IN THE CASE OF A PERSON THAT IS A
"UNITED STATES PERSON" WITHIN THE MEANING OF SECTION 7701(a)(26) OF THE CODE, THE

SERVICE FORM W-8 (OR SUCCESSOR APPLICABLE FORM) IN THE CASE OF A PERSON THAT
IS NOT A "UNITED STATES PERSON" WITHIN THE MEANING OF SECTION 7701(a)(30) OF THE CODE)
MAY RESULT IN U.S. FEDERAL BACK-UP WITHHOLDING FROM PAYMENTS TO THE HOLDER IN
RESPECT OF THIS NOTE.

(xv) The Co-issued Notes will also bear the following legend:

EACH HOLDER OF THIS NOTE OR INTERESTS HEREIN WILL BE DEEMED TO HAVE MADE
THE REPRESENTATIONS AND AGREEMENTS SET FORTH IN THE INDENTURE, INCLUDING THE
REPRESENTATION AND AGREEMENT THAT IF IT IS AN EMPLOYEE BENEFIT PLAN (AS DEFINED IN
SECTION 3(3) OF THE EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974, AS AMENDED
("ERISA")) WHICH IS SUBJECT TO TITLE I OF ERISA OR A PLAN (AS DEFINED IN SECTION 4975(e)(1)

-109-
such transfer will be registered under the Indenture. Any purported transfer of a Class E Note in violation of the requirements set forth in this paragraph shall be null and void ab initio and will not operate to transfer any rights to the transferee, notwithstanding any instructions to the contrary to the Issuers, the Trustees or any intermediary. In addition to the foregoing, the Issuer maintains the right to restate any Class E Note previously transferred to non-permitted holders in accordance with and subject to the terms of the Indenture.

(30) Each purchaser and each transferee of Class E Notes that (i) is not a "United States person" (as defined in Section 7701(a)(30) of the Code) and (ii) is acquiring, directly or in conjunction with affiliates, more than 33 1/3% of the Aggregate Outstanding Amount of the Class E Notes will be deemed to make a representation to the effect that it is not an Affected Bank.

Regulation S Global Secured Notes

Each purchaser of a beneficial interest in a Regulation S Global Secured Note will be deemed to have represented and agreed with the Issuer (A) as set forth in paragraphs (i) through (vii), (q) and (x) (other than paragraphs (vi) and (viii) in the case of the Class E Notes) and solely in the case of the Class E Notes, paragraphs (n), (q) and (xii), under "—Rule 144A Global Secured Notes," mutatis mutandis; (B) that the purchaser is not a U.S. Person and is acquiring the Secured Notes in an offshore transaction meeting the requirements of Rule 903 or Rule 904 of Regulation S and in a principal amount of not less than the applicable minimum denomination requirement and (C) either (1) such purchaser's principal place of business is not located within any Federal Reserve District of the United States Federal Reserve Bank or (2) such purchaser has satisfied and will satisfy any applicable registration or other requirements of the Board of Governors of the Federal Reserve System including Regulation U in connection with its acquisition of the Secured Notes.

U.S. Subordinated Securities

Each purchaser of a U.S. Subordinated Security will be required to represent and agree with the Issuer as follows:

(i) Subject to the last sentence of subclause (b) below, the purchaser is (a) either (i) a Qualified Institutional Buyer or (ii) an Accredited Investor and (ii) (1) a Qualified Purchaser or (2) a Knowledgeable Employee.

(q) (A) The purchaser is purchasing the Subordinated Securities for its own account or for the account of another Qualified Purchaser or Knowledgeable Employee that is also a Qualified Institutional Buyer or, subject to the last sentence of this subclause (q), an Accredited Investor as to which the purchaser exercises sole investment discretion, (B) each of the purchaser and any such account is acquiring the Subordinated Securities as principal for its own account for investment and not for sale in connection with any distribution thereof, (C) neither the purchaser nor any such account was formed solely for the specific purpose of investing in the Subordinated Securities (except when each beneficial owner of the purchaser or each such account is a Qualified Purchaser or a Knowledgeable Employee), (D) to the extent the purchaser or any account for which it is purchasing the Subordinated Securities, is a private investment company formed on or before April 30, 1996, the purchaser and each such account has received the necessary consent from its beneficial owners, (E) the purchaser agrees that it and each such account shall not hold such Subordinated Securities for the benefit of any other Person and shall be the sole beneficial owner thereof for all purposes and that it shall not sell, assign or participate in the Subordinated Securities or enter into any other arrangement pursuant to which any other Person shall be entitled to a beneficial interest in the distributions on the Subordinated Securities (except when such Person is a Qualified Purchaser), (F) the Subordinated Securities purchased directly or indirectly by the purchaser or any account for which it is purchasing the Subordinated Securities constitute an investment of no more than 40% of the purchaser’s and each such account’s assets (except when each beneficial owner of the purchaser and each such account is a Qualified Purchaser or a Knowledgeable Employee), (G) the purchaser and each such account is purchasing the Subordinated Securities in a rational amount of not less than the minimum denomination requirement for the purchaser and each such account (except in the limited circumstances set forth in the

Confidential Treatment Requested by Goldman Sachs

GS MSIS-E-001918345
(i) The purchaser will provide notice of the transfer restrictions set forth in the indenture (including the exhibits thereto) to any transferee of its Subordinated Securities and (i) the purchaser understands and agrees that any purported transfer of the Subordinated Securities to a purchaser that does not comply with the requirements of the immediately preceding paragraph (i) and this paragraph (ii) shall be null and void ab initio. Notwithstanding the foregoing, in limited circumstances approved by Goldman, Sachs & Co., Subordinated Securities may be sold to Qualified Purchasers for purposes of Section 305(7) of the Investment Company Act who are not Accredited Investors, provided that such purchasers have purchaser representatives (as such term is defined in Regulation D).

(ii) Other than with respect to the circumstances described in the last sentence of subclause (i) above, if any U.S. Person that is not (a) a Qualified Purchaser or (b) a Knowledgeable Employee and (c) (c) a Qualified Institutional Buyer or (d) an Accredited Investor, shall become the owner of any Subordinated Securities (any such person, a "Non-Permitted Holder"), the Issuer shall, promptly after discovery that such Person is a Non-Permitted Holder by the Issuer or the Trustee (and notice by the Trustee to the Issuer, if the Trustee makes the discovery), send notice to such Non-Permitted Holder demanding that such Non-Permitted Holder transfer its interest to a Person that is not a Non-Permitted Holder within 30 days of the date of such notice. If such Non-Permitted Holder fails to transfer its Subordinated Securities, the Issuer shall have the right, without further notice to the Non-Permitted Holder, to sell such Subordinated Securities to a purchaser selected by the Issuer that is not a Non-Permitted Holder on such terms as the Issuer may choose. The Issuer, an investment bank selected by the Issuer, or the Trustee at the written direction of the Issuer (and approved by the Collateral Manager) may select a purchaser by any means determined by it in its sole discretion. The Holder of each Subordinated Security, the Non-Permitted Holder and each other Person in the chain of title from the Holder to the Non-Permitted Holder, by its acceptance of an interest in the Subordinated Securities, agrees to cooperate with the Issuer and the Trustee to effect such transfers. The proceeds of such sale, net of any commissions, expenses, including fees of attorneys and agents, and taxes due in connection with such sale shall be remitted to the Non-Permitted Holder. The terms and conditions of any sale under this paragraph shall be determined in the sole discretion of the Issuer, and neither the Issuer nor the Trustee shall be liable to any Person having an interest in the Subordinated Securities sold as a result of any such sale or the exercise of such discretion (including for the price of such sale).

(v) The purchaser will not, at any time, offer to buy or offer to sell the Subordinated Securities by any form of general solicitation or advertising, including, but not limited to, any advertisement, article, notice or other communication published in any newspaper, magazine or similar medium or broadcast over the television or radio or seminar or meeting where the purchaser has been invited by general solicitations or advertising.

(vi) The purchaser understands and agrees that the Subordinated Securities have not been and will not be registered or qualified under the Securities Act or any applicable state securities laws or the securities laws of any other jurisdiction and the sale of the Subordinated Securities to the purchaser is being made in reliance on an exemption from registration under the Securities Act, and may be resold, resold, offered, offered or otherwise transferred only (a) to a person whom the purchaser reasonably believes is a Qualified Institutional Buyer purchasing for its own account or for the account of a Qualified Institutional Buyer, or to which the purchaser exercises sole investment discretion in a transaction covered by the requirements of Rule 144A, (b) to a person that is not a U.S. Person in an offshore transaction complying with Rule 902 of Regulation S or (c) to an Accredited Investor for its own account or for the account of an Accredited Investor, and in the case of subclauses (a) and (b), to a transferee that is either (a) a Qualified Purchaser or (b) a Knowledgeable Employee and (c) in accordance with all applicable securities laws of the state of the United States. The Issuer and the Collateral have not been registered under the Investment Company Act and, therefore, no transfer having the effect of causing the Issuer or the Collateral to be required to be registered as an investment company under the Investment Company Act will be recognized. The Subordinated Securities are subject to the restrictions on transfer set forth herein, in the indenture and in the Subordinated Securities. Before any interest in a U.S. Subordinated Security may be offered, sold, pledged or otherwise transferred, the transferee will be required to provide the Issuer and the Trustee with a written certificate as to compliance with the transfer restrictions described herein. The purchaser understands and agrees that any purported transfer of the Subordinated Securities to a purchaser that does not comply with the requirements of this paragraph (vi) shall be null and void ab initio.
Footnote Exhibits - Page 5126

(vi) The purchaser is not purchasing the Subordinated Securities with a view toward the resale, distribution or other disposition thereof in violation of the Securities Act. The purchaser understands and agrees that an investment in the Subordinated Securities involves certain risks, including the risk of loss of its entire investment in the Subordinated Securities under certain circumstances. The purchaser has had access to such financial and other information concerning the issuer and the Subordinated Securities as it deems necessary or appropriate in order to make an informed investment decision with respect to its purchase of the Subordinated Securities, including an opportunity to ask questions of, and receive information from, the issuer.

(vii) In connection with the purchase of the Subordinated Securities: (A) none of the issuers, the Initial Purchaser, the Trustee, the Collateral Manager (except such representation is not made by advisory clients of the Collateral Manager that purchase any Subordinated Securities, with respect to the Collateral Manager), the Collateral Administrator, the Administrator, or the Registrar (or any of their respective Affiliates) is acting as a fiduciary or financial or investment adviser for the purchaser; (B) the purchaser is not relying (for purposes of making any investment decision or otherwise) upon any advice, counsel or representations (whether written or oral) of the issuers, the Initial Purchaser, the Trustee, the Collateral Manager, the Collateral Administrator, the Administrator or the Registrar (or any of their respective Affiliates) other than the issuers and the Collateral Manager (with respect to the sections entitled “The Collateral Manager,” and “Risk Factors—Conflicts of Interest Involving the Collateral Manager and Affiliates”) in the final offering circular and any representations expressly set forth in a written agreement with such party; (C) none of the issuers, the Initial Purchaser, the Trustee, the Collateral Manager, the Collateral Administrator, the Administrator or the Registrar (or any of their respective Affiliates) has given to the purchaser (directly or indirectly through any other person) any assurance, guarantee, or representation whatsoever as to the expected or projected success, profitability, return, performance, result, effect, consequence or benefit (including legal, regulatory, tax, financial, accounting or otherwise) as to an investment in the Subordinated Securities; (D) the purchaser has consulted with its own legal, regulatory, tax, business, investment, financial and accounting advisors to the extent it has deemed necessary, and it has made its own investment decisions (including decisions regarding the suitability of any transaction pursuant to the indenture) based upon its own judgment and upon any advice from such advisors as it has deemed necessary and not upon any view expressed by the issuers, the Initial Purchaser, the Collateral Manager, the Trustee, the Collateral Administrator, the Administrator or the Registrar (or any of their respective Affiliates); (E) the purchaser has evaluated the terms and conditions of the purchase and sale of the Subordinated Securities with a full understanding of all of the risks thereof (economic and otherwise), and it is capable of assuming and is willing to assume (financially and otherwise) those risks; (F) the purchaser is a sophisticated investor; and (G) if purchasing the Subordinated Securities for any account, the purchaser has not made any disclosure, assurance, guarantee or representation not consistent with the provisions and the requirements contained herein.

(viii) It is (or is not, as applicable) a Benefit Plan Investor or a Controlling Person. No Benefit Plan Investor or Controlling Person will be permitted to purchase Subordinated Securities, unless its purchase, holding and disposition of such Subordinated Securities, (i) will not cause participation by Benefit Plan Investors to be “significant” within the meaning of the Plan Asset Regulations and (ii) if the purchaser is a Benefit Plan Investor, the acquisition, holding and disposition of such Subordinated Securities, or any interest therein, will not constitute or result in a non-exempt prohibited transaction under Title 1 of ERISA or Section 4975 of the Code. If the purchaser is a governmental, church or other plan that is subject to any federal, state, local or non-U.S. law that is substantially similar to the provisions of Title I of ERISA or Section 4975 of the Code, such purchaser shall represent and warrant that its purchase, holding and disposition of a U.S. Subordinated Security will not constitute or result in a non-exempt violation under any such substantially similar law.

In determining whether participation by Benefit Plan Investors is “significant”, Subordinated Securities beneficially held by (i) the Collateral Manager, the Trustee, any of their respective Affiliates, employees of the Collateral Manager, or any of their respective Affiliates and any charitable foundation of any such employees or (ii) persons that have represented that they are Controlling Persons, will be disregarded and will not be treated as Outstanding for purposes of whether participation by Benefit Plan Investors is “significant” to the extent that persons listed in (i) or (ii) are not Benefit Plan Investors.

-113-

GS MBS-E-001918347
The purchaser acknowledges that a transfer of the Subordinated Securities will not be permitted, and no such transfer or exchange will be registered under the Indenture, to the extent that the transfer or exchange would result in Beneficial Plan Investors owning 25% or more of the Aggregate Outstanding Amount of the Subordinated Securities immediately after such transfer or exchange (determined in accordance with the Plan Asset Regulations and the indenture).

(i) The purchaser understands and agrees that, in order for the Issuer to satisfy its obligations to provide certain United States federal income tax information to beneficial owners of the Subordinated Securities that are United States persons within the meaning of Section 7701(a)(30) of the Code, the Initial Purchaser or any respective Affiliates thereof, the Issuer or the Trustee may provide to the Issuer’s accountants information concerning the purchaser’s name and address, the notional amount of Subordinated Securities owned by the purchaser and the date of such purchaser’s purchase, and the information related to the tax status of the purchaser as provided by the purchaser to the Issuer pursuant to the certifications required in the Indenture.

(ii) The purchaser understands and agrees that the Issuer will treat the Subordinated Securities as equity in the Issuer for United States federal, state and local income tax purposes, and the purchaser and the registered holder of the Subordinated Securities (if different from the purchaser), by acceptance of its Subordinated Securities or its interests in the Subordinated Securities, agrees to treat the Subordinated Securities as equity in the Issuer for United States federal, state and local income tax purposes.

(iii) Each purchaser or subsequent transferee of U.S. Subordinated Securities that (i) is not a “United States person” (as defined in Section 7701(a)(30) of the Code) and (ii) is acquiring, directly or indirectly, more than 33 1/3% of the Aggregate Outstanding Amount of the Subordinated Securities will be deemed to make a representation to the effect that it is not an Affected Person.

(iv) To the extent required by the Issuer, as determined by the Issuer or the Collateral Manager on behalf of the Issuer, the Issuer may, upon written notice to the Trustee and the Registrar, impose additional transfer restrictions on the Subordinated Securities to comply with the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the USA PATRIOT Act) and other similar laws or regulations, including, without limitation, requiring each transfer of a beneficial interest in a Subordinated Security to make representations to the Issuer in connection with such compliance.

(v) Each U.S. Subordinated Security will bear a legend substantially to the following effect:

THE SUBORDINATED SECURITIES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE “SECURITIES ACT”), AND THE ISSUER HAS NOT BEEN REGISTERED UNDER THE UNITED STATES INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE “INVESTMENT COMPANY ACT”), THE HOLDER HEREOF, BY PURCHASING THE SUBORDINATED SECURITIES REPRESENTED HEREBY, AGREES FOR THE BENEFIT OF THE ISSUER THAT SUCH SUBORDINATED SECURITIES MAY BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED, ONLY (A) (i) TO A PERSON WHO THE HOLDER REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER WITHIN THE MEANING OF RULE 144A UNDER THE SECURITIES ACT, PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL PURCHASER, IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A UNDER THE SECURITIES ACT, (ii) TO AN ACCREDITED INVESTOR (AS DEFINED IN REGULATION D UNDER THE SECURITIES ACT) PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF AN ACCREDITED INVESTOR, IN A TRANSACTION EXEMPT FROM REGISTRATION UNDER THE SECURITIES ACT, OR (iii) TO A PERSON THAT IS NOT A U.S. PERSON (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT) IN AN OFFSHORE TRANSACTION COMPLYING WITH RULE 902 OR RULE 904 OF REGULATION S UNDER THE SECURITIES ACT AND, IN EACH CASE, IN A PRINCIPAL AMOUNT OF NOT LESS THAN $100,000, FOR THE PURCHASER AND FOR EACH ACCOUNT FOR WHICH IT IS ACTING (EXCEPT AS OTHERWISE SET FORTH IN THE INDENTURE) AND, IN THE CASE OF SUBCLAIUSES (1) AND (2), TO A PURCHASER THAT (X) IS A QUALIFIED PURCHASER WITHIN THE MEANING OF SECTION 3(c)(7) OF THE INVESTMENT COMPANY ACT OR A

THE CASE OF A PERSON THAT IS NOT A "UNITED STATES PERSON" WITHIN THE MEANING
OF SECTION 7701(a)(30) OF THE CODE) MAY RESULT IN U.S. FEDERAL WITHHOLDING FROM
PAYMENTS TO THE HOLDER IN RESPECT OF THE SUBORDINATED SECURITIES REPRESENTED
HEREBY.

(xvi) The purchaser understands that Executive Orders issued by the President of the United
States of America, Federal regulations administered by OFAC and other federal laws prohibit, among other
things, U.S. persons or persons under the jurisdiction of the United States from engaging in certain
transactions with certain foreign countries, territories, entities and individuals, and that the lists of
prohibited countries, territories, entities and individuals can be found on, among other places, the OFAC website at
www.treas.gov/ofac. Neither the purchaser nor any of its Affiliates, owners, directors or officers is, or is
acting on behalf of, a country, territory, entity or individual named on such lists, nor is the purchaser or any of
its Affiliates, owners, directors or officers a natural person or entity with whom dealings are prohibited under
any OFAC regulation or other applicable federal law or acting on behalf of such a natural person or entity.

(xv) The purchaser represents that it is not a member of the public in the Cayman Islands.

Regulation S Global Subordinated Securities

(i) Each purchaser of a beneficial interest in a Regulation S Global Subordinated Security will
be deemed to have represented and agreed with the Issuer (A) as set forth in paragraphs (ii), (iii), (iv),
(vi), (ix) and (x) under "Interpretive Matters" and (B) that the purchaser is not a U.S. Person and is acquiring
the Subordinated Securities in an offshore transaction meeting the
requirements of Rule 902 or Rule 904 of Regulation S.

(ii) The purchaser understands and agrees that the Issuer will treat the Subordinated Securities
as equity in the Issuer for United States federal, state and local income tax purposes, and the purchaser
and the registered Holder of the Subordinated Securities (if different from the purchaser), by acceptance of its
Subordinated Securities or its interests in the Subordinated Securities, agrees to treat the Subordinated
Securities as equity in the Issuer for United States federal, state and local income tax purposes.

Each purchaser or subsequent transferee of a Regulation S Global Subordinated Security that (i) is
not a "United States person" (as defined in Section 7701(a)(30) of the Code) and (ii) is acquiring, directly or
in conjunction with affiliates, more than 33 1/3% of the Aggregate Outstanding Amount of the Subordinated
Securities will be deemed to make a representation to the effect that it is not an Affected Bank.

(iii) With respect to the purchase of Regulation S Global Subordinated Securities from the Initial
Purchaser or the Issuer, as the case may be, the purchaser will be required to represent that (A) it is (or is
not, as applicable) a Benefit Plan Investor or a Controlling Person and (B) (1) if it is a Benefit Plan Investor, its
pursuant, holding and disposition of Subordinated Securities will not constitute or result in a non-exempt
prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or (2) if it is a governmental,
church, non-U.S. or other plan which is subject to any federal, state, local or non-U.S. law that is
substantially similar to the provisions of Title I of ERISA or Section 4975 of the Code, its purchase, holding
and disposition of Subordinated Securities will not constitute or result in non-exempt violation under any such
substantially similar law.

-110-

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001916350
Footnote Exhibits - Page 5130

No Benefit Plan Investor or Controlling Person will be permitted to purchase Regulation S Global Subordinated Securities from the Initial Purchaser or the Issuer, as the case may be, unless its purchase, holding and disposition of such Subordinated Securities (i) will not cause participation by Benefit Plan Investors to be "significant" within the meaning of the Plan Asset Regulations and (ii) if the purchaser is a Benefit Plan Investor, the acquisition, holding and disposition of such Securities or any interest therein will not constitute or result in a non-exempt, prohibited transaction under Title I of ERISA or Section 4975 of the Code. If a purchaser is a governmental, church, non-U.S. or other plan that is subject to any federal, state, local or non-U.S. law that is substantially similar to the provisions of Title I of ERISA or Section 4975 of the Code, such purchaser shall represent and warrant or be deemed to have represented and warranted that its purchase, holding and disposition of a Regulation S Global Subordinated Security will not constitute or result in a non-exempt violation under any such substantially similar law.

In determining whether participation by Benefit Plan Investors is "significant," Subordinated Securities beneficially held by (i) the Collateral Manager, the Trustee, any of their respective Affiliates, employees of the Collateral Manager, or any of their respective Affiliates and any charitable foundation of any such employees or (ii) persons that have represented that they are Controlling Persons will be disregarded and will not be treated as Outstanding for purposes of whether participation by Benefit Plan Investors is "significant" to the extent that persons listed in (i) or (ii) are not Benefit Plan Investors.

Each Subsequent Transferee of a Beneficial Interest in a Regulation S Global Subordinated Security Purchased from Persons Other Than the Initial Purchaser or the Issuer, as the Case May Be, Will Be Deemed to Represent That the Transferee From the Date On Which It Acquires Its Interest in Such Subordinated Securities Through and Including the Date on Which Such Transferee, as the Case May Be, Disposes of Its Interest in Such Subordinated Securities, (A) Is Not a Benefit Plan Investor or a Controlling Person and (B) If It Is a Governmental, Church, Non-U.S. or Other Plan That Is Subject to Any Federal, State, Local or Non-U.S. Law That Is Substantially Similar to the Provisions of Title I of ERISA or Section 4975 of the Code, Its Purchase, Holding and Disposition of Subordinated Securities Will Not Constitute or Result in a Non-Exempt Violation Under Any Such Substantially Similar Law. The transferor acknowledges that a transfer of the Subordinated Securities will not be permitted, and the Trustee will not register any such transfer of which it has actual knowledge, to the extent that the transfer would result in Benefit Plan investors owning 25% or more of the Aggregate Outstanding Amount of the Subordinated Securities immediately after such transfer (determined in accordance with the Plan Asset Regulations and the Indenture). Any purported transfer of a beneficial interest in a Regulation S Global Subordinated Security in violation of the requirements set forth in this paragraph shall be null and void ab initio.

(v) Each Regulation S Global Subordinated Security will bear a legend substantially to the following effect:

THE SUBORDINATED SECURITIES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND THE ISSUER HAS NOT BEEN REGISTERED UNDER THE UNITED STATES INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE "INVESTMENT COMPANY ACT"). THE HOLDER, HERE OFBY PURCHASING THE SUBORDINATED SECURITIES IN RESPECT OF WHICH THIS SECURITY HAS BEEN ISSUED, AGREES FOR THE BENEFIT OF THE ISSUER THAT THE SUBORDINATED SECURITIES MAY NOT BE OFFERED, SOLICITED, PLEDGED OR OTHERWISE TRANSFERRED, SOLD, (X) I) TO OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER WITHIN THE MEANING OF RULE 144A UNDER THE SECURITIES ACT, PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER, IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A UNDER THE SECURITIES ACT, TO AN ACCREDITED INVESTOR (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT), PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF AN ACCREDITED INVESTOR, IN A TRANSACTION EXEMPT FROM REGISTRATION UNDER THE SECURITIES ACT; OR (Y) TO A PERSON THAT IS NOT A U.S. PERSON (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT) IN AN OFF-SHORE TRANSACTIONS. THE ISSUE OF THIS SECURITY AND THE OFFER, SALE OR PURCHASE OF ANY SUBORDINATED SECURITIES BY OR FOR THE ACCOUNT OF ANY SUBORDINATED SECURITIES_holder, IS SUBJECT TO SUCH INVESTMENT SALES CONTRACT TERMS AND CONDITIONS AS THE ISSUER MAY FROM TIME TO TIME SPECIFY.

AND INCLUDING THE DATE ON WHICH SUCH PURCHASER DISPOSES OF ITS INTEREST IN SUCH SUBORDINATED SECURITY. (b) IT IS NOT (A) A BENEFIT PLAN INVESTOR OR (B) A CONTROLLING PERSON AND (c) IF IT IS A GOVERNMENTAL, CHURCH, NON-U.S. OR OTHER PLAN THAT IS SUBJECT TO ANY FEDERAL, STATE, LOCAL OR NON-U.S. LAW THAT IS SUBSTANTIALLY SIMILAR TO THE PROVISIONS OF TITLE I OF ERISA OR SECTION 4975 OF THE CODE, ITS PURCHASE, HOLDING AND DISPOSITION OF THIS SUBORDINATED SECURITY WILL NOT CONSTITUTE OR RESULT IN A NON-EXEMPT VIOLATION UNDER ANY SUCH SUBSTANTIALLY SIMILAR LAW. NO TRANSFER OF ANY INTEREST IN THIS SUBORDINATED SECURITY WILL BE EFFECTIVE, AND THE TRUSTEE WILL NOT RECOGNIZE ANY SUCH TRANSFER IF IT WOULD RESULT IN 25% OR MORE OF THE VALUE OF THE SUBORDINATED SECURITIES BEING HELD BY BENEFIT PLAN INVESTORS. EACH BENEFICIAL OWNER OF THIS SUBORDINATED SECURITY WILL BE REQUIRED TO MAKE THE REPRESENTATIONS AND AGREEMENTS SET FORTH IN THE INDENTURE. ANY PURPORTED TRANSFER OF THE SUBORDINATED SECURITIES IN VIOLATION OF THE REQUIREMENTS SET FORTH IN THIS PARAGRAPH SHALL BE NULL AND VOID AB INITIO.

ANY TRANSFER, PLEDGE OR OTHER USE OF THE SUBORDINATED SECURITIES REPRESENTED HEREBY FOR VALUE OR OTHERWISE BY OR TO ANY PERSON IS WRONGFUL SINCE THE REGISTERED OWNER HEREOF, CEDE & CO., HAS AN INTEREST HEREIN, UNLESS THIS SECURITY IS PRESENTED BY AN AUTHORIZED REPRESENTATIVE OF THE DEPOSITORY TRUST COMPANY (DTC), NEW YORK, NEW YORK, TO THE ISSUER OR ITS AGENT FOR REGISTRATION OF TRANSFER, EXCHANGE OR PAYMENT AND ANY SUBORDINATED SECURITIES ISSUED ARE REGISTERED IN THE NAME OF CEDE & CO. (OR SUCH OTHER ENTITY AS IS REQUESTED BY AN AUTHORIZED REPRESENTATIVE OF DTC (AND ANY PAYMENT HEREOF IS MADE TO CEDE & CO.).

TRANSFERS OF THE SUBORDINATED SECURITIES REPRESENTED HEREBY SHALL BE LIMITED TO TRANSFERS IN WHOLE, BUT NOT IN PART, TO NOMINEES OF DTC OR TO A SUCCESSOR THEREOF OR Such SUCCESSOR’s NOMINEE, AND TRANSFERS OF THE SUBORDINATED SECURITIES REPRESENTED HEREBY SHALL BE LIMITED TO TRANSFERS MADE IN ACCORDANCE WITH THE RESTRICTIONS SET FORTH IN THE INDENTURE.

DISTRIBUTIONS OF PRINCIPAL PROCEEDS AND INTEREST PROCEEDS TO THE HOLDER OF THE SUBORDINATED SECURITIES REPRESENTED HEREBY ARE SUBORDINATE TO THE PAYMENT ON EACH PAYMENT DATE OF PRINCIPAL OF AND INTEREST ON THE SECURED NOTES OF THE ISSUER AND THE PAYMENT OF CERTAIN OTHER AMOUNTS, TO THE EXTENT AND AS DESCRIBED IN THE INDENTURE REFERRED TO HEREIN.

THE FAILURE TO PROVIDE THE ISSUER, THE TRUSTEE AND ANY PAYING AGENT WITH THE APPLICABLE U.S. FEDERAL INCOME TAX CERTIFICATIONS (GENERAL), AN INTERNAL REVENUE SERVICE FORM W-4 (OR APPLICABLE SUCCESSOR FORM) IN THE CASE OF A PERSON THAT IS A "UNITED STATES PERSON" WITHIN THE MEANING OF SECTION 7701(a)(30) OF THE CODE, AN APPROPRIATE INTERNAL REVENUE SERVICE FORM W-8 (OR APPLICABLE SUCCESSOR FORM) IN THE CASE OF A PERSON THAT IS NOT A "UNITED STATES PERSON" WITHIN THE MEANING OF SECTION 7701(a)(30) OF THE CODE) MAY RESULT IN U.S. FEDERAL BACK-UP WITHHOLDING FROM PAYMENTS TO THE HOLDER IN RESPECT OF THIS SECURITY.

LISTING AND GENERAL INFORMATION

1. Application has been made to the Irish Financial Services Regulatory Authority, as competent authority under Directive 2003/71/EC, for this Offering Circular to be approved. Application has been made to the Irish Stock Exchange for the Securities to be admitted to the Official List and to trading on its regulated market. Such approval relates only to Securities which are to be admitted to trading on the regulated market of the Irish Stock Exchange or other regulated markets for the purpose of Directive 93/22/EEC. This document is considered an advertisement for purposes of applicable measures implementing Directive 2003/71/EC. Upon listing on the Irish Stock Exchange being granted, a "prospectus" prepared pursuant to the Prospectus Directive will be published, which can be obtained from the Issuer. There can be no assurance that such listing will be approved or maintained. See "Risk Factors——
Footnote Exhibits - Page 5133

Irish Stock Exchange Listing". The Issuers have been advised by Arthur Cox Listing Services Limited (in such capacity, the "Irish Listing Agent") that the estimated upfront fees and expenses for obtaining such listing will be approximately €5,350 and the estimated ongoing expenses for maintaining such listing will be approximately €2,250 per annum.

2. Copies of the Certificate of Incorporation and Memorandum and Articles of Association of the Issuer, the Certificate of Incorporation and By-laws of the Co-Issuer, the Administration Agreement, the resolutions of the Board of Directors of the issuer authorizing the issuance of the Securities, the resolutions of the Board of Directors of the Co-Issuer authorizing the issuance of the Co-Issued Notes, the Indenture, the Collateral Management Agreement and any Hedge Agreements will be available in electronic form for inspection in the City of Houston, Texas at the office of the Trustee and at the office of the paying agent for the Securities in Ireland for so long as the Securities are listed on the Irish Stock Exchange.

3. Since the date of establishment, there has been no significant change in the financial or trading position of the Issuer or the Co-Issuer and no annual report or accounts have been prepared as of the date of this document. Since incorporation, the Issuers have not commenced trading, established any accounts or declared any dividends, except for the transactions described herein.

4. The Issuers are not involved in any legal, arbitration or governmental proceedings relating to claims or amounts which are material in the context of the issue of the Securities, nor, so far as each of the Issuers is aware, is any such litigation or arbitration involving it pending or threatened.

5. The issuance of the Securities will be authorized by the Board of Directors of the Issuer by resolution passed on or before the Closing Date. The issuance of the Co-Issued Notes will be authorized by the sole Director of the Co-Issuer by resolution on or before the Closing Date.

6. The Securities sold to Persons that are not U.S. Persons in offshore transactions in reliance on Regulation S under the Securities Act represented by Regulation S Global Securities are expected to be accepted for clearance through Clearstream and Euroclear. The Secured Notes sold to Persons that are Qualified Institutional Buyers/Qualified Purchasers under the Securities Act and represented by Rule 144A Global Secured Notes have been accepted for clearance through DTC. The CUSIP Numbers, Common Codes and International Securities Identification Numbers (ISIN) for the Securities represented by Rule 144A Global Secured Notes and Regulation S Global Securities are as indicated in the chart "Summary—The Offering—Securities Issued," as applicable.

7. For so long as any of the Securities are listed on the Irish Stock Exchange and the rules of such Exchange shall so require, the Issuer will inform the Irish Stock Exchange and publish a notice in an authorized newspaper, which is expected to be on the Official List, if the ratings assigned to any of the Securities are reduced or withdrawn.

8. The Securities representing the U.S. Subordinated Securities will bear the identification numbers as indicated in the chart "Summary—The Offering—Securities Issued," as applicable.

9. The Issuers do not intend to publish annual reports and accounts. The Indenture, however, requires the Issuers to provide written confirmation to the Trustee on an annual basis that no Event of Default or other matter which is required to be brought to the Trustee's attention has occurred. Copies of such confirmation will be available for inspection at the offices of the Issuer and Co-Issuer and in the City of Houston, Texas at the office of the Trustee and at the office of the paying agent for the Securities in Ireland for so long as the Securities are listed on the Irish Stock Exchange.

10. References to website addresses herein do not form part of the Offering Circular for the purposes of listing the Securities on the Irish Stock Exchange.

UNDERWRITING

Subject to the terms and conditions set forth in the Purchase Agreement, the Issuers, with respect to the Co-Issued Notes, and the Issuer, with respect to the Subordinated Securities, have agreed to sell, on the

Confidential Treatment Requested by Goldman Sachs GS MIE-E-001918354
Closing Date, and the Initial Purchaser has agreed to purchase $2,000,000 in Aggregate Outstanding Amount of the Class A Notes, $365,000,000 in Aggregate Outstanding Amount of the Class B Notes, $22,500,000 in Aggregate Outstanding Amount of the Class C Notes, $25,000,000 in Aggregate Outstanding Amount of the Class D Notes, $17,500,000 in Aggregate Outstanding Amount of the Class E Notes and $40,000,000 in Aggregate Outstanding Amount of the Subordinated Securities.

Under the terms and conditions of the Purchase Agreement, the Initial Purchaser is committed to take and pay for all the Securities to be offered by it, if any are taken. Under the terms and conditions of the Purchase Agreement, the Initial Purchaser will be entitled to (i) an underwriting discount on the Securities, and (ii) a fixed structuring fee based upon the aggregate principal or notional amount, as applicable, of the Securities. After the Securities are released for sale, the Initial Purchaser may change the offering price and other selling terms. The Initial Purchaser may allow a concession, not in excess of their respective underwriting discounts, to certain brokers or dealers.

The Securities have not been and will not be registered under the Securities Act for offer or sale as part of their distribution and may not be offered or sold within the United States or to, or for the account or benefit of, a U.S. Person or a U.S. resident (as determined for purposes of the Investment Company Act, a "U.S. Resident") except in certain transactions exempt from, or not subject to, the registration requirements of the Securities Act.

The Issuers have been advised by the Initial Purchaser that it proposes to resell the Securities, in each case outside the United States through their agents to Persons that are not U.S. Persons in offshore transactions in reliance on Regulation S and in accordance with applicable law. In addition, the Issuers have been advised by the Initial Purchaser that it proposes to resell the Securities to U.S. Persons and in the United States in reliance on Rule 144A or another exemption under the Securities Act, but only to Qualified Institutional Buyers (or, with respect to the U.S. Subordinated Securities, Accredited Investors) purchasing for their own accounts or for the accounts of Qualified Institutional Buyers (or, with respect to the U.S. Subordinated Securities, Accredited Investors) each of which purchasers or accounts is a Qualified Purchaser (or, with respect to the U.S. Subordinated Securities, a Knowledgeable Employee). Notwithstanding the foregoing, in limited circumstances approved by the Initial Purchaser, Subordinated Securities may be sold to Qualified Purchasers for purposes of Section 4(a)(7) of the Investment Company Act who are not Accredited Investors, provided that such purchasers have purchaser representatives (as such term is defined in Regulation D). The offering price and the Initial Purchaser's underwriting discount will be the same for the Regulation S Global Securities, the Rule 144A Global Secured Notes and the U.S. Subordinated Securities, as applicable, within each Class of Securities. Any offer or sale of Rule 144A Global Secured Notes or U.S. Subordinated Securities in reliance on Rule 144A or another exemption from the registration requirements of the Securities Act will be made by broker-dealers who are registered as such under the Exchange Act. After the Securities are released for sale, the offering price and other selling terms may from time to time be varied by the Initial Purchaser.

The Initial Purchaser has acknowledged and agreed that it will not offer, sell or deliver any Securities sold pursuant to Regulation S to, or for the account or benefit of, any U.S. Person or a U.S. Resident as part of their distribution at any time and that the Initial Purchaser will not sell to each distributor, dealer or person receiving a selling concession, fee or other remuneration to which they sell Securities pursuant to Regulation S a confirmation or other notice setting forth the prohibition on offers and sales of Securities sold pursuant to Regulation S within the United States or to, or for the account or benefit of, any U.S. Person or a U.S. Resident.

With respect to the Securities initially sold pursuant to Regulation S, until the expiration of 40 days after the commencement of the offering of the Securities by the Initial Purchaser, an offer or sale of such Securities within the United States by a dealer that is not participating in the offering may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with Rule 144A or pursuant to another exemption from registration under the Securities Act.

In connection with the issue of the Securities, the Initial Purchaser (the "Stabilizing Manager") (or persons acting on behalf of the Stabilizing Manager) may over-allot Securities (provided that the aggregate

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918355
principal amount of Securities allotted does not exceed 10% per cent. of the aggregate principal amount of the Securities or effect transactions with a view to supporting the market price of the Securities at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilising Manager (or partners acting on behalf of the Stabilising Manager) will undertake stabilisation action. Any stabilisation action may begin on or after the Closing Date and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the Securities and 90 days after the date of the allotment of the Securities.

The Initial Purchaser has represented, warranted and agreed that (i) it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000 (the "FSMA")) required by it in connection with the issue or sale of any Securities in circumstances in which section 2(1) of FSMA does not apply to the Issuer, and (ii) it has complied and will comply with all applicable provisions of FSMA with respect to anything done by them in relation to the Securities in, from or otherwise involving the United Kingdom.

The Securities may not be offered, sold or transferred to the public in a Member State of the European Economic Area which has implemented the Prospectus Directive (such a "Relevant Member State") prior to the publication of a prospectus in relation to the Securities which has been approved by the competent authority in that Relevant Member State or, where applicable, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that it may, with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State, make an offer of Securities to the public in that Relevant Member State at any time: (a) to legal entities which are authorised or regulated to operate in the financial markets or, if not so authorised or regulated, whose corporate purpose is solely to invest in securities; (b) to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than 440,000,000 and (3) an annual net turnover of more than 650,000,000, as shown in its last annual or consolidated accounts; or (c) in any other circumstances which do not require the publication by the Issuer of a prospectus pursuant to Annex III of the Prospectus Directive. For the purposes of this paragraph, the expression an "offer of Securities to the public" in relation to any Securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe for the Securities as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

The Initial Purchaser has acknowledged and agreed that the Securities have not been registered under the Securities and Exchange Law of Japan and are not being offered or sold and may not be offered or sold, directly or indirectly, in Japan or to or for the account of any resident of Japan, except (i) pursuant to an exemption from the registration requirements of the Securities and Exchange Law of Japan and (ii) in compliance with any other applicable requirements of Japanese law.

The Initial Purchaser has agreed that it has not made and will not make any invitation to the public in the Cayman Islands to purchase any of the Securities.

Buyers of Securities pursuant to Regulation S sold by Goldman Sachs international, as the agent of the Initial Purchaser, may be required to pay stamp taxes and other charges in accordance with the laws and practice of the country of purchase in addition to the offering price set forth on the cover page hereof.

No action has been or will be taken in any jurisdiction that would permit a public offering of the Securities, or the possession, circulation or distribution of this Offering Circular or any other material relating to the Issuer or the Securities, in any jurisdiction where action for such purpose is required. Accordingly, the Securities may not be offered or sold, directly or indirectly, and neither this Offering Circular nor any other offering material or advertisements in connection with the Securities may be distributed or published, in or from any country or jurisdiction except under circumstances that will result in compliance with any applicable rules and regulations of any such country or jurisdiction.
The Securities are a new issue of securities with no established trading market. The Issuers have been advised by the Initial Purchaser that the Initial Purchaser intends to make a market in the Securities but the Initial Purchaser is not obligated to do so and may discontinue market making at any time without notice. No assurance can be given as to the liquidity of the trading market for the Securities. See "Risk Factors—Certain Conflicts of Interest".

Material portions of certain Classes of Securities may be purchased by other structured vehicles, which may result in less liquidity in such Classes in the secondary market.

Application has been made to the Irish Financial Services Regulatory Authority, an competent authority under Directive 2003/71/EC, for the Offering Circular to be approved. Application has been made to the Irish Stock Exchange for the Securities to be admitted to the Official List and to trading on its regulated market. There can be no assurance that such listing will be approved or maintained.

The Issuers have agreed to indemnify the Initial Purchaser, the Collateral Manager, the Administrator and the Trustee against certain liabilities, including, but not limited to, liabilities under the Securities Act, or to contribute to payments they may be required to make in respect thereof. In addition, the Issuers have agreed to reimburse the Initial Purchaser for certain of its expenses.

LEGAL MATTERS

Certain legal matters will be passed upon for the Issuers and the Initial Purchaser by McKee Nelson LLP, New York, New York. Certain matters with respect to Cayman Islands corporate law and tax law will be passed upon for the Issuer by Maples and Calder. Certain legal matters will be passed upon for the Collateral Manager by Sidley Austin LLP, New York, New York.
GLOSSARY OF DEFINED TERMS

*Accredited Investor*: An "accredited investor" as defined in Regulation D.

*Accrued Interest Collateral Obligation*: Any Collateral Obligation whose sale price customarily includes accrued but unpaid interest.

*Accumulation Period*: The period prior to the Closing Date during which the Issuer acquires Collateral Obligations.

*Additional Issuance Date*: In respect of each subclass of additional Subordinated Securities as set forth under "Description of the Securities—The Indenture—Additional Issuance", the date on which such subclass of Subordinated Securities is issued.

*Administrative Expenses*: Amounts (other than any Reserved Expenses) due or accrued with respect to any Payment Date to:

(i) the Trustee pursuant to the Indenture;

(ii) the Collateral Administrator under the Collateral Administration Agreement;

(iii) any fees, costs, or expenses (including without limitation, any indemnity payments but excluding the Collateral Management Fee) under the Collateral Management Agreement;

(iv) the Independent accountants, agents and counsel of the Issuers for fees, including retainers, and expenses;

(v) the Rating Agencies for fees and expenses in connection with rating the Secured Notes, for conducting ongoing surveillance of the Secured Note ratings, and for providing and maintaining credit estimates for certain Collateral Obligations included in the Collateral Portfolio;

(vi) the Cash Paying Agent under the Cash Paying Agency Agreement;

(vii) any other Person in respect of any governmental fee, including all filing, registration and annual return fees payable to the Cayman Islands government and registered office fees, charges or taxes (other than withholding taxes);

(viii) without duplication, any Person in respect of any other reasonable fees or expenses of the Issuers (excluding in respect of any indemnity obligations, if applicable) not prohibited under the Indenture (including, without limitation, any monies owed to the Administrator under the Administration Agreement) and any reports and documents delivered pursuant to or in connection with the Indenture and the Securities;

(ix) any fees, costs or expenses (including, without limitation, any indemnity payments) in connection with any Securities Lending Agreement; and

(x) any fees, costs or expenses (including, without limitation, any indemnity payments, but excluding any Hedge Payment Amount or any applicable termination payments) in connection with any Repo Agreement.

*Affiliate* or *Affiliated*: With respect to a Person, (i) any other Person who, directly or indirectly, is in control of, or controlled by, or is under common control with, such Person or (ii) any other Person who is a director, officer or employee (a) of such Person, (b) of any subsidiary or parent company of such Person or (c) of any Person described in subclause (i) above. For purposes of this definition, control of a Person shall mean the power, direct or indirect, (i) to vote more than 50% of the securities having ordinary voting power for the election of directors of such Person or (ii) to direct or cause the direction of the management and operations of such Person. The term "Affiliated" shall have a correlative meaning.
Footnote Exhibits - Page 5138

policies of such Person whether by contrast or otherwise. With respect to the Issuers, this definition shall exclude the Administrator, its Affiliates and any other special purpose vehicle to which the Administrator is or will be providing administrative services and/or acting as Share Trustee, as a result solely of the Administrator acting in such capacity or capacities.

"Aggregate Funded Spread": As of any date of determination, the sum of the products obtained by multiplying (as applicable):

(i) in the case of each Floating Rate Collateral Obligation (excluding any Defeasible Obligation and any Defeasible Interest Obligation to the extent of any non-cash interest and the unfunded portion of any Revolving Credit Facility or Delayed Funding Term Loan) that bears interest at a spread over a London Interbank offered rate-based index, the stated interest rate spread on such Floating Rate Collateral Obligation above such index;

(ii) in the case of each Floating Rate Collateral Obligation (excluding any Defeasible Obligation and any Defeasible Interest Obligation to the extent of any non-cash interest and the unfunded portion of any Revolving Credit Facility or Delayed Funding Term Loan) that bears interest at a spread over an index other than a London Interbank offered rate-based index, the excess of the sum of such spread and such index then in effect as of such date over LIBOR calculated with respect to the Secured Notes then in effect as of such date; and

(iii) in the case of each Fixed Rate Collateral Obligation (excluding any Defeasible Obligation and any Defeasible Interest Obligation to the extent of any non-cash interest and the unfunded portion of any Revolving Credit Facility or Delayed Funding Term Loan), the excess of the coupon rate on such Fixed Rate Collateral Obligation above LIBOR calculated with respect to the Secured Notes then in effect as of such date (which spread or excess in the case of clause (b) or (c) may be expressed as a negative percentage); by

(iv) the Aggregate Principal Amount of each such Collateral Obligation that is not a Revolving Credit Facility or Delayed Funding Term Loan and the funded portion of each such Revolving Credit Facility or Delayed Funding Term Loan, in each case as of such date.

"Aggregate Interest Reserve Distribution Amount": With respect to any Payment Date, the sum of all Interest Reserve Distribution Amounts as of such Payment Date; provided that the Aggregate Interest Reserve Distribution Amount on any Payment Date shall not exceed the Interest Reserve Amount as of such Payment Date.

"Aggregate Outstanding Amount": When used with respect to any or all of the Securities, (i) the aggregate principal or notional amount of such Securities Outstanding on the date of determination plus (ii) in the case of the Class C Notes, the Class D Notes and the Class E Notes, for purposes other than determining whether a sufficient principal amount of the Class C Notes, the Class D Notes or the Class E Notes has voted with respect to matters relating to the Indenture or the Collateral Management Agreement, any related Defeasible Interest.

"Aggregate Principal Amount": When used with respect to any or all of the Collateral Obligations, Eligible Investments or cash, the aggregate of the Principal Balances of such Collateral Obligations, Eligible Investments or cash on the date of determination.

"Aggregate Underlying Undrawn Amount": At any time of determination, the unfunded portion of all Revolving Credit Facilities and Delayed Funding Term Loans held by the Issuer at such time.

"Aggregate Unfunded Spread": As of any date of determination, the products obtained by multiplying (i) for each Revolving Credit Facility or Delayed Funding Term Loan (other than a Revolving Credit Facility or Delayed Funding Term Loan that is a Defeasible Obligation), the commitment fee and/or facility fee then in effect as of such date and (ii) the unfunded commitments of each such Revolving Credit Facility or Delayed Funding Term Loan as of such date.
Footnote Exhibits - Page 5139

"Applicable Period": For the first Interest Accrual Period, the period from and including the Closing Date to but excluding the first Scheduled Payment Date and for each Interest Accrual Period thereafter, three months (except with respect to the last Applicable Period, the period from and including the immediately preceding Scheduled Payment Date to but excluding the Stated Maturity or the Redemption Date, as applicable).

"Assignment": An interest in a loan acquired directly by way of sale or assignment.

"Bank": The Bank of New York Trust Company, National Association, a limited purpose national banking association with trust powers, but in its individual capacity and not as Trustee, and any successor thereto.

"Bankruptcy Code": The United States Bankruptcy Code, as set forth in Title 11 of the United States Code, as amended.

"Bilateral Risk Obligation": (i) A Collateral Obligation that is issued pursuant to a Securities Lending Agreement, (ii) a Synthetic Security, (iii) a Participation or (iv) an obligation of a Non-U.S. Obligor organized under the laws of a sovereign jurisdiction, the foreign currency rating of which is below "AA" by S&P.

"Business Day": Any day other than (i) Saturday or Sunday or (ii) a day on which commercial banking institutions are authorized by law, regulation or executive order to close in (a) New York, New York, (b) Houston, Texas, (c) solely with respect to the calculation of LIBOR, London, England, and (d) with respect to matters relating solely to the Irish Stock Exchange, Dublin, Ireland.

"CaandCC Collateral Obligation": Any Collateral Obligations with a Moody’s Default Probability Rating of “Caand” or lower or with an S&P Rating of “CCD” or lower, it being understood and agreed that notwithstanding any provision of the indenture, the foregoing definition of “CaandCC Collateral Obligation” shall specifically exclude any Defaulted Obligation or Discount Collateral Obligation.

"CDO Security": Any collateralized debt obligation (cashflow or synthetic or a combination thereof), whose underlying collateral consists primarily of bank loans or any other similar collateral.

"Class": All of the Securities having the same priority and the same Stated Maturity.

"Class A Break-even Default Rate": As of any Measurement Date, the maximum percentage of defaults which the Current Portfolio or the Proposed Portfolio, as applicable, can sustain, as determined through application by the Collateral Manager of the S&P CDO Monitor, which, after giving effect to S&P’s assumptions on recoveries on defaulted securities and timing of such recoveries and to the Priority of Payments, will result in sufficient funds remaining for the payment of the Class A Notes in full by their Stated Maturity and the timely payment of interest on the Class A Notes.

"Class A Interest Distribution Amount": With respect to any Payment Date, an amount equal to the sum of:

(a) the aggregate amount of interest accrued, at the applicable Note Interest Rate, during the related Interest Accrual Period on the Aggregate Outstanding Amount of the Class A Notes as of the first day of such Interest Accrual Period;

(b) to the extent lawful and enforceable, the aggregate amount of interest accrued, at the applicable Note Interest Rate, during the related Interest Accrual Period, on any unpaid Defaulted Interest relating to the Class A Notes, and

(c) any unpaid Defaulted Interest relating to the Class A Notes.

"Class A Loss Differential": As of any Measurement Date, the rate calculated by subtracting the Class A Scenario Default Rate at such time from the Class A Break-even Default Rate at such time.
Footnote Exhibits - Page 5140

"Class A Note Interest Amount": As to each Interest Accrual Period, the amount of interest for such Interest Accrual Period payable in respect of each $1,000 principal amount of the Class A Notes.

"Class A Notes": The Class A Floating Rate Notes having the applicable Note Interest Rate and Stated Maturity as set forth under "Summary—The Offering—Securities Issued," including any additional Class A Notes issued as set forth under "Description of the Securities—The Indenture—Additional Issuance".

"Class A Par Value Ratio": On any Measurement Date, the Par Value Ratio as calculated with respect to the Class A Notes.

"Class A Scenario Default Rate": As of any Measurement Date, an estimate of the cumulative default rate for the Current Portfolio or the Proposed Portfolio, as applicable, consistent with a rating of "AAA" by S&P as determined by application of the S&P CDO Monitor at such time.

"Class A/B Interest Coverage Ratio": On the Second Determination Date and any subsequent Measurement Date, the Interest Coverage Ratio as calculated with respect to the Class A Notes and the Class B Notes.

"Class A/B Interest Coverage Test": A test satisfied as of the Second Determination Date and any subsequent Measurement Date if the Class A/B Interest Coverage Ratio is equal to or greater than the applicable amount set forth under "Summary—The Offering—Coverage Tests and the Reinvestment Test".

"Class A/B Par Value Ratio": On any Measurement Date, the Par Value Ratio as calculated with respect to the Class A Notes and the Class B Notes.

"Class A/B Par Value Test": A test satisfied as of the Effective Date and any subsequent Measurement Date if the Class A/B Par Value Ratio is equal to or greater than the applicable amount set forth under "Summary—The Offering—Coverage Tests and the Reinvestment Test".

"Class B Break-even Default Rate": As of any Measurement Date, the maximum percentage of defaults which the Current Portfolio or the Proposed Portfolio, as applicable, can sustain, as determined through application by the Collateral Manager of the S&P CDO Monitor, which, after giving effect to the assumptions on recoveries on defaulted securities and timing of such recoveries and to the Priority of Payments, will result in sufficient funds remaining for the payment of the Class B Notes in full by their Stated Maturity and the timely payment of interest on the Class B Notes.

"Class B Interest Distribution Amount": With respect to any Payment Date, an amount equal to the sum of:

(a) the aggregate amount of interest accrued, at the applicable Note Interest Rate, during the related Interest Accrual Period on the Aggregate Outstanding Amount of the Class B Notes as of the first day of such Interest Accrual Period.

(b) to the extent lawful and enforceable, the aggregate amount of interest accrued, at the applicable Note Interest Rate, during the related Interest Accrual Period, on any unpaid Defaulted Interest relating to the Class B Notes; and

(c) any unpaid Defaulted interest relating to the Class B Notes.

"Class B Loss Differential": As of any Measurement Date, the rate calculated by subtracting the Class B Scenario Default Rate at such time from the Class B Break-even Default Rate at such time.

"Class B Note Interest Amount": As to each Interest Accrual Period, the amount of interest for such Interest Accrual Period payable in respect of each $1,000 principal amount of the Class B Notes.

"Class E Par Value Ratio": On any Measurement Date, the Par Value Ratio as calculated with respect to the Class E Notes.

"Class E Par Value Test": A test satisfied as of the Effective Date and any subsequent Measurement Date if the Class E Par Value Ratio is equal to or greater than the applicable amount set forth under "Summary—The Offering—Coverage Tests and the Reinvestment Test".

"Class E Scenario Default Rate": As of any Measurement Date, an estimate of the cumulative default rate for the Current Portfolio or the Proposed Portfolio, as applicable, consistent with a rating of "BB" by S&P as determined by application of the S&P CDO Monitor at such time.

"Class S Break-even Default Rate": As of any Measurement Date, the maximum percentage of defaults which the Current Portfolio or the Proposed Portfolio, as applicable, can sustain, as determined through application by the Collateral Manager of the S&P CDO Monitor, which, after giving effect to S&P's assumptions on recoveries on defaulted securities and timing of such recoveries and to the Priority of Payments, will result in sufficient funds remaining for the payment of the Class S Notes in full by their Stated Maturity and the timely payment of interest on the Class S Notes.

"Class S Interest Distribution Amount": With respect to any Payment Date, an amount equal to:

(a) the aggregate amount of interest accrued, at the applicable Note Interest Rate, during the related Interest Accrual Period on the Aggregate Outstanding Amount of the Class S Notes as of the first day of such Interest Accrual Period;

-120-
Footnote Exhibits - Page 5144

(b) In the event lawfully enforceable, the aggregate amount of interest accrued, at the applicable Note Interest Rate, during the related interest accrual period, on any unpaid Defaulted Interest relating to the Class B Notes; and

c) any unpaid Defaulted Interest relating to the Class S Notes.

"Class S Loss Differential": As of any Measurement Date, the rate calculated by subtracting the Class S Scenario Default Rate at such time from the Class S Break-even Default Rate at such time.

"Class S Note Interest Amount": As to each Interest Accrual Period, the amount of interest for such Interest Accrual Period payable in respect of each $100,000 principal amount of the Class S Notes.

"Class S Notes": The Class S Floating Rate Notes having the applicable Note Interest Rate and Stated Maturity as set forth under "Summary—The Offering—Securities Issued", including any additional such Class S Notes issued as set forth under "Description of the Securities—The Indenture—Additional Issuance".

"Class S Principal Distribution Amount": With respect to any Payment Date, the amount set forth on Annex I hereto.

"Class S Scenario Default Rate": As of any Measurement Date an estimate of the cumulative default rate for the Current Portfolio or the Proposed Portfolio, as applicable, consistent with a rating of "AAA" by S&P as determined by application of the S&P CDO Monitor at such time.

"Clearstream": Clearstream Banking, société anonyme, a corporation organized under the laws of the Grand Duchy of Luxembourg.

"Closing Date": January 18, 2007.

"Co-Issued Notes": Collectively, the Class S Notes, the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes.

"Collateral": All money, instruments, investment property and other property and rights and all Proceeds thereof that have been granted by the Issuer to the Trustee under the Indenture. For the avoidance of doubt, Collateral will not include any Warehouse Accrued Interest.

"Collateral Account": The segregated trust account or accounts into which the Issuer shall, from time to time, deposit Collateral.

"Collateral Administration Agreement": An agreement dated as of the Closing Date, among the Issuer, the Collateral Manager and the Collateral Administrator.

"Collateral Administrator": The Bank, solely in its capacity as Collateral Administrator under the Collateral Administration Agreement, until a successor Person shall have become the Collateral Administrator pursuant to the applicable provisions of the Collateral Administration Agreement, and thereafter "Collateral Administrator" shall mean such successor Person.

"Collateral Interest Amount": As of any date of determination, on amount, determined in accordance with the indenture, equal to (i) the aggregate amount of Interest Proceeds that have been received by the Issuer or are expected by the Collateral Manager to be received by the Issuer (other than Interest Proceeds with respect to Collateral Obligations that pay interest less frequently than quarterly) in each case during the Due Period in which such date of determination occurs plus (ii) the Aggregate Interest Reserve Distribution Amount for the immediately following Payment Date, minus (iii) the amounts payable in respect of subclauses (i)(a), (i)(b), (iv) and (v) of "Description of the Securities—Priority of Payments—Interest Proceeds" on the following Payment Date.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918365
"Collateral Management Agreement": An agreement dated as of the Closing Date, between the issuer and the Collateral Manager relating to the Collateral Manager's performance on behalf of the issuer of certain investment management duties with respect to the Collateral, as amended from time to time in accordance with its terms and the terms of the indenture.

"Collateral Portfolio": On any date of determination, (i) all Pledged Obligations and all cash held in any Issuer Accounts (excluding Eligible Investments and cash constituting in each case Interest Proceeds), (ii) after the occurrence of an event of default, as such term is defined under a Securities Lending Agreement, Securities Lending Collateral deposited by the related Securities Lending Counterparty in the Securities Lending Account (but not to exceed the amount of the Securities Lending Counterparty's obligations owed to the Issuer) and (iii) the amount by which the amounts deposited in the Synthetic Security Collateral Accounts exceed the amounts owed by the Issuer to Synthetic Security Counterparties.

"Controlling Class": The Class S Notes and the Class A Notes (voting together as a single class), until the Class S Notes and the Class A Notes have been paid in full, then the Class B Notes until the Class B Notes have been paid in full, then the Class C Notes until the Class C Notes have been paid in full, then the Class D Notes until the Class D Notes have been paid in full, and then the Class E Notes until the Class E Notes have been paid in full, and then the Subordinated Securities.

"Corporate Family Rating": With respect to any Collateral Obligation and the Issuer or obligor thereof, (i) as of any date of determination, the "corporate family rating" as published by Moody's as of such date of determination, if applicable and available; or (ii) if Moody's has not published a "corporate family rating" for the Issuer or obligor of the Collateral Obligation as of such date of determination, but has published a "corporate family rating" for a parent company or another affiliate under the management control of the entity to which it is assigned, such rating.

"Credit Improved Criteria": With respect to any Collateral Obligation, the occurrence of any of the following:

(i) if such Collateral Obligation has been upgraded or put on a watch list for possible upgrade above the rating in effect on the date on which such Collateral Obligation was purchased by the Issuer by either of the Rating Agencies, or

(ii) if such Collateral Obligation is a Structured Finance Security (a) it has experienced an increase of at least 1.00% in its par value rating and an increase of at least 5.00% of the weighted average rating factor after the date on which such Structured Finance Security was purchased by the Issuer or (b) the Issuer thereof has since (i) failed any of its coverage tests which failure must have occurred after the date on which such Structured Finance Security was purchased by the Issuer, (ii) begun paying all of its coverage tests or (iii) paying interest "in-kind" (which payment "in-kind" must have occurred after the date on which such Structured Finance Security was purchased by the Issuer), (iii) begun making interest payments in cash or

(iii) if such Collateral Obligation is a Collateral Obligation other than a Structured Finance Security, (x) in the case of a loan, (i) the interest rate spread over the applicable reference rate for such Collateral Obligation has been decreased since the date of purchase by 0.25% or more due to an improvement in the related borrower's financial ratios or financial results in accordance with the underlying Collateral Obligation or (ii) the percentage change in price of such Collateral Obligation during the period from the date on which it was acquired by the Issuer to the date of determination is either more positive, or less negative, as the case may be, than 0.50% plus the percentage change in the average price of, an average price specified in, an Eligible Loan Index in respect of the same period or (y) in the case of a bond, such Collateral Obligation changed in price during the period from the date on which it was purchased by the Issuer to the date of determination by a percentage either more positive, or less negative, as the case may be, than the percentage change in the Merrill Lynch High Yield Index, Bloomberg ticker JOMO, Average Price Option plus 3.00%, over the same period.

GS MBS-E-001918366
Footnote Exhibits - Page 5146

"Credit Improved Obligation": Any Collateral Obligation that has significantly improved in credit quality (as determined by the Collateral Manager in its sole judgment, which judgment shall not be subject to question as a result of subsequent events).

"Credit Risk Criteria": With respect to any Collateral Obligation, the occurrence of any of the following:

(i) if such Collateral Obligation has been downgraded or put on a watch list for possible downgrade below the rating in effect on the date on which such Collateral Obligation was purchased by the Issuer by either of the Rating Agencies; or

(ii) if such Collateral Obligation is a Structured Finance Security (a) it has experienced a decrease of at least 1.50% in its par value ratio and a decrease of at least 5.00% of the weighted average rating factor after the date on which such Structured Finance Security was purchased by the Issuer or (b) the Issuer thereof has since first (1) passing all of its coverage tests (which such Issuer must have been passing on the date on which such Structured Finance Security was purchased by the Issuer), begun failing any of its coverage tests or (2) making interest payments in cash (when payments in cash such Issuer must have been making on the date on which such Structured Finance Security was purchased by the Issuer), begun paying interest "in kind"; or

(iii) if such Collateral Obligation is a Collateral Obligation other than a Structured Finance Security, (x) in the case of a loan, (1) the interest rate spread over the applicable reference rate for such Collateral Obligation has been increased since the date of purchase by 0.25% or more due to a deterioration in the related borrower’s financial ratio or financial results in accordance with the underlying Collateral Obligation or (2) the percentage change in price of such Collateral Obligation during the period from the date on which it was acquired by the Issuer to the date of determination is either more negative, or less positive, as the case may be, than 0.50% below the percentage change in the average price of, or average price specified in, an Eligible Loan Index in respect of the same period or (Y) in the case of a bond, such Collateral Obligation changed in price during the period from the date on which it was purchased by the Issuer to the date of determination by a percentage either more negative, or less positive, as the case may be, than the percentage change in the Merrill Lynch High Yield index, Bloomberg ticker JGAD, Average Price Option less 3.00%, over the same period.

"Credit Risk Obligation": Any Collateral Obligation that has a significant risk of declining in credit quality or, with the lapse of time, becoming a Defaulted Obligation (as determined by the Collateral Manager in its sole judgment, which judgment shall not be subject to question as a result of subsequent events).

"Current Pay Obligation": A Collateral Obligation (other than a DIP Loan, a Structured Finance Security or a Prime Leans):

(i) as to which no interest or principal payments are due and unpaid;

(ii) that pays interest at least quarterly;

(iii) that would satisfy subclauses (i), (ii) or (iv) of the definition of "Defaulted Obligation" (without giving effect to the proviso in subclauses (i), (ii) and (iv) relating to Current Pay Obligations);

(iv) that has a rating of at least "CasA" by Moody's (if rated by Moody's) (provided that if such rating is "CasA", such rating must not be on watch for possible downgrade by Moody’s); and

(v) if the Issuer of such Collateral Obligation is subject to a bankruptcy proceeding, a bankruptcy court has authorized the payment of interest, principal and/or amounts that would constitute adequate protection to the lender due and payable on such Collateral Obligation.

-133-

Confidential Treatment Requested by Goldman Sachs

GS MIS-E-001918367
A Collateral Obligation may not be designated as a Current Pay Obligation if doing so would cause more than 5.0% in Aggregate Principal Amount of the Collateral Portfolio to consist of Current Pay Obligations. For the avoidance of doubt, as specified in subclause (viii) of the definition of "Defaulter Obligation," the portion of any Collateral Obligation that would otherwise satisfy the definition of "Current Pay Obligation" but the inclusion of which would cause more than 5.0% in Aggregate Principal Amount of the Collateral Portfolio to consist of Current Pay Obligations shall be treated as a Defaulter Obligation.

"Current Portfolio": At any time, the Collateral Portfolio held by the Issuer:

"Defaulter Hedge Termination Payment": Any termination payment required to be made by the Issuer to a Hedge Counterparty pursuant to a Hedge Agreement as a result of an "Event of Default" with respect to which the Hedge Counterparty is the "Defaulter Party" or a "Termination Event" (other than "Insolvency" or "Tax Event") (each as defined in the Hedge Agreement), with respect to which the Hedge Counterparty is the sole "Affected Party" or with respect to a termination resulting from a Downgrade Terminating Event.

"Defaulter Interest": Any interest due and payable in respect of any Class A Note or Class B Note (or in respect of any Class C Notes after the Class A Notes and the Class B notes have been paid in full, or in respect of any Class D Note, after the Class A Notes, the Class B Notes and the Class C Notes have been paid in full, or in respect of any Class E Note, after the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes have been paid in full), which is not punctually paid or duly provided for on the applicable Payment Date or at the Stated Maturity, as the case may be.

"Defaulter Obligation": Any Collateral Obligation shall constitute a "Defaulter Obligation" if:

(i) there has occurred and is continuing, (x) without regard to any waiver, for the lesser of five Business Days and any applicable grace period (as the case may be), the "Cure Period," a default with respect to the payment of interest or principal or (y) any other default under the related underlying instrument in respect of such Collateral Obligation and an acceleration of such Collateral Obligation by the holders thereof; provided, however, that, (A) for purposes of clause (x) above, a Collateral Obligation shall constitute a Defaulter Obligation only until such default has been cured or the existence of such default has been eliminated in connection with a restructuring and a Cure Period shall only be available if the Collateral Manager has certified to the Trustee in writing that, in the judgment of the Collateral Manager, such default resulted from non-credit related causes; and (B) for purposes of clause (y) above, a Collateral Obligation shall constitute a Defaulter Obligation only until such default has been cured or waived;

(ii) any bankruptcy, insolvency or receivership proceeding has been initiated in connection with the issuer of such Collateral Obligation and is unstayed and undismissed, provided that if such proceeding is an involuntary proceeding, the condition of the subclause (i)(i) will not be satisfied until the earliest of the following: (I) the issuer consents to such proceeding, (II) an order for relief under the Bankruptcy Code, or any substantially similar order under a proceeding not taking place under the Bankruptcy Code, has been entered, and (III) such proceeding remains unstayed and undismissed for 90 days, provided, further, that a Current Pay Obligation or a DIP Loan shall not constitute a Defaulter Obligation under this subclause (ii)(i) notwithstanding such bankruptcy, insolvency or receivership proceeding; or (y) as to which there has been proposed or affected any distressed exchange or other distressed debt restructuring where the issuer of such Collateral Obligation has offered the debt holders a new security or package of securities that, in the judgment of the Collateral Manager, amounts to a diminished financial obligation; provided that a Collateral Obligation that was determined to be a Defaulter Obligation pursuant to this subclause (ii)(ii), shall not be considered to be a Defaulter Obligation if, as a result of subsequent events, the new security or package of securities received in connection with any distressed exchange or restructuring, in the judgment of the Collateral Manager, no longer amounts to a diminished financial obligation;

Confidential Treatment Requested by Goldman Sachs GS MISS-E-001918368
Footnote Exhibits - Page 5148

(ii) the Collateral Manager has actual knowledge that the Issuer thereof is in default as to payment of principal and/or interest on another obligation (and such default has not been cured), but only if one of the following conditions (i) or (ii) is met: (i) both such other obligation and the Collateral Obligation are unsecured obligations with the same security interest and the other obligation is senior to or pari passu with the Collateral Obligation in right of payment; or (ii) all of the following conditions (A), (B) and (C) are satisfied: (A) both such other obligation and the Collateral Obligation are full recourse secured obligations secured by identical collateral; (B) the security interest securing the other obligation is senior to or pari passu with the security interest securing the Collateral Obligation; and (C) the other obligation is senior to or pari passu with the Collateral Obligation in right of payment; provided that a Collateral Obligation shall not constitute a Defaulted Obligation under this subclause (ii) if it is a Current Pay Obligation or a DIP Loan, as the case may be;

(v) (1) such Collateral Obligation (v) has been rated "D" or "SD" (or, with respect to a Collateral Obligation that is a Structured Finance Security, "CC" or below) by S&P or (v) is a Structured Finance Security rated "Ca" or below by Moody's or (v) S&P has withdrawn its rating on such Collateral Obligation for negative credit related reasons and immediately prior to such withdrawal by S&P, such Collateral Obligation was rated "CC" or below by S&P; provided that (A) a Collateral Obligation shall not constitute a Defaulted Obligation pursuant to subclause (v) above if the S&P Rating Condition has been satisfied and (B) a Collateral Obligation shall not constitute a Defaulted Obligation under this subclause (v) if it is a Current Pay Obligation or a DIP Loan, as the case may be;

(vi) such Collateral Obligation is a Synthetic Security, and (1) there has occurred a "credit event" (as such term is defined in the related Synthetic Security) with respect to a Reference Obligation or a Reference Credit specified in such Synthetic Security, or (2) the related Synthetic Security Counterparty fails to make payments to the Issuer in accordance with the terms of such Synthetic Security;

(vii) such Collateral Obligation is an obligation that is delivered to the Issuer under a Synthetic Security that does not satisfy the definition of "Collateral Obligation";

(viii) such Collateral Obligation is a Participation and the related Selling Institution fails to make payments to the Issuer in accordance with the terms of such Participation; or

(ix) such Collateral Obligation or the portion of any such Collateral Obligation that would otherwise satisfy the definition of "Current Pay Obligation" but the inclusion of which in the definition of "Current Pay Obligation" would cause more than 5.0% in Aggregate Principal Amount of the Collateral Portfolio to consist of Current Pay Obligations.

For the avoidance of doubt, the Collateral Manager shall be deemed to have knowledge of all information of which the analysts and portfolio managers involved in the management of the Collateral Portfolio under the Collateral Management Agreement have actual knowledge.

Notwithstanding the foregoing definition, the Collateral Manager may declare any Collateral Obligation to be a Defaulted Obligation if, in the Collateral Manager's sole judgment, the credit quality of the Issuer of such Collateral Obligation (or, in the case of a Synthetic Security, the credit quality of the Synthetic Security Counterparty or Reference Credit with respect thereto, as applicable) has significantly deteriorated such that there is a reasonable expectation of payment default as of the next scheduled payment date with respect to such Collateral Obligation, provided that a Collateral Obligation that has been declared to be a Defaulted Obligation pursuant to this paragraph, shall cease to be considered as a Defaulted Obligation if, in the Collateral Manager's sole judgment, the circumstances supporting such declaration no longer exist.

"Defaulted Interest Obligation": Any Collateral Obligation that is a debt security or a loan (including a Finance Lease) that is permitted, at the time of its purchase or commitment to purchase, under its terms in certain (but not all) circumstances to make interest payments due thereon, which are otherwise payable in cash, on a deferred basis "in kind".

-135-

Confidential Treatment Requested by Goldman Sachs

GS MSS-E-001918369
Footnote Exhibits - Page 5149

"Delayed Funding Term Loan": A loan that requires one or more future advances to be made to the borrower but which, once all such advances have been made, has the characteristics of a term loan; provided that such loan shall only be considered a Delayed Funding Term Loan so long as any future funding obligations remain in effect and only with respect to any portion which constitutes a future funding obligation.

"Deliverable Obligation": A debt obligation or other security that is delivered to the issuer upon the occurrence of certain "credit events" under a Synthetic Security (if physical settlement is permitted thereunder) that satisfies the definition of "Collateral Obligation" at the time it is delivered to the issuer, except that such debt obligation or other security (i) may be a Defeasible Obligation or a Credit Risk Obligation at the time delivered to the issuer and (ii) does not have to satisfy the requirements set forth in subclause (i) of the definition of "Collateral Obligation".

Notwithstanding any provision to the contrary contained herein, the issuer may accept the delivery of a Deliverable Obligation that does not meet the requirements set forth in the definition of Deliverable Obligation if (i) the terms of the related Synthetic Security otherwise satisfy the definition of Deliverable Obligation at the time it is purchased by or entered into by the issuer and (ii) it would be impractical or impossible for the Synthetic Security Counterparty to deliver a Deliverable Obligation that satisfies the requirements set forth in the definition of Deliverable Obligation and cash settlement is not permitted; provided, however, the issuer may accept a Deliverable Obligation that does not meet the requirements of this definition (a "Substitute Deliverable Obligation"). Notwithstanding the foregoing, if the Collateral Manager has obtained written advice of a nationally recognized tax counsel experienced in such matters that the issuer's taking delivery of the Deliverable obligation will not cause the borrower to be treated as engaged in a United States trade or business for U.S. Federal income tax purposes or to otherwise be subject to tax on a net income basis and that payments on such Deliverable obligation are not subject to withholding tax. The Issuer shall notify S&P of the acquisition of any Substitute Deliverable Obligation.

"Determination Date": With respect to a Payment Date, the last Business Day of the immediately preceding Due Period.

"DIP Loan": A loan made to a debtor in possession as described in Section 1107 of the Bankruptcy Code (or a trustee if appointment of a trustee has been ordered) that is:

(i) paying interest on a current basis; and

(ii) approved by an order of the United States Bankruptcy Court, the United States District Court or any other court of competent jurisdiction, the enforceability of which order is not subject to any pending contested matter or proceeding, which order must provide that:

(1) such loan is secured by liens on the debtor's otherwise unencumbered assets pursuant to either section 364(c) or 364(i) (or any combination thereof) of the Bankruptcy Code;

(2) such loan is secured by liens of equal or senior priority on property of the debtor's estate that is otherwise subject to a lien pursuant to either section 364(c) or 364(i) (or any combination thereof) of the Bankruptcy Code;

(3) such loan is secured by junior liens on the debtor's encumbered assets and is fully secured based upon a current valuation or appraisal report; or

(4) if such loan or any portion thereof is unsecured, the repayment of such loan retains priority over all other administrative expenses pursuant to either section 364(c) or 364(i) (or any combination thereof) of the Bankruptcy Code;

provided, however, that (a) such loan shall not be rated by S&P and S&P shall have provided to write an estimated rating of such loan to the Issuer, and (b) such loan shall be explicitly rated by Moody's or

Confidential Treatment Requested by Goldman Sachs GS MISS-E-001918370
Footnote Exhibits - Page 5150

Moody's shall have provided in writing an estimated rating of such loan to the Issuer, or (b) in either case, the Collateral Manager has applied for such rating within five Business Days of its purchase of the loan;

provided, further, that if such loan or any portion thereof is unsecured, (a) either (i) the acquisition of such loan shall be subject to the satisfaction of the Moody's Rating Condition or (ii) such loan must have (b) a rating from Moody's of at least "Caaz" and a market value of at least 80% of par of (b) a rating from Moody's of at least "Caaz" and a market value of at least 85% of par and, in the case of any rating of under this clause (ii), such rating must not be on watch for possible downgrade by Moody's, and (b) the acquisition of such loans shall be subject to the satisfaction of the S&P Rating Condition.

If the DIP Loan has an S&P Rating pursuant to (v)(2)(a) or (v)(2)(b) of the definition thereof, then the Issuer (or the Collateral Manager on behalf of the Issuer), upon receipt thereof, shall cause to be forwarded to S&P any notice of restructuring or amendments relating to any DIP Loans held by the Issuer.

"Discount Collateral Obligation": A Collateral Obligation:

(i) that is purchased at a price of less than 80% of par if the Collateral Obligation is a loan and has a Moody's Rating of "93" or higher (including a DIP Loan and a Synthetic Security that has a Reference Obligation that is a loan that, at the time of the purchase of such Synthetic Security, has a Market Value of less than 80% of the principal balance of the Reference Obligation as defined under such Synthetic Security and has a Moody's Rating of "93" or higher);

(ii) that is purchased at a price of less than 85% of par if the Collateral Obligation is a loan and has a Moodys Rating of "Caaz" or lower (including a DIP Loan and a Synthetic Security that has a Reference Obligation that is a loan that, at the time of the purchase of such Synthetic Security, has a Market Value of less than 85% of the principal balance of the Reference Obligation as defined under such Synthetic Security and has a Moody's Rating of "Caaz" or lower);

(iii) that is purchased at a price of less than 80% of par if the Collateral Obligation is not a loan and has a Moody's Rating below "93" (including a Synthetic Security that has a Reference Obligation that is a bond that, at the time of the purchase of such Synthetic Security, has a Market Value of less than 80% of the principal balance of the Reference Obligation as defined under such Synthetic Security and has a Moody's Rating below "93"),

(iv) that is purchased at a price of less than 75% of par if the Collateral Obligation is not a loan and has a Moody's Rating of "93" or higher (including a Synthetic Security that has a Reference Obligation that is a bond that, at the time of the purchase of such Synthetic Security, has a Market Value of less than 75% of the principal balance of the Reference Obligation as defined under such Synthetic Security and has a Moody's Rating of "93" or higher);

(v) that is purchased at a price of less than 75% of par if the Collateral Obligation is a Structured Finance Security or a Finance Lease;

provided, however, that with respect to any Measurement Date on or after the 30th consecutive day on which the Market Value of a Discount Collateral Obligation (including for the avoidance of doubt, the Market Value of a Reference Obligation with respect to a Synthetic Security that is a Discount Collateral Obligation) has been equal to or greater than 90% of par (or, in the case of a Synthetic Security, the principal balance or notional amount of the Reference Obligation as defined under such Synthetic Security), such Collateral Obligation will cease to be a Discount Collateral Obligation.

"Disposition Proceeds": Proceeds received with respect to sales of Collateral Obligations, Eligible Investments or Equity Securities and the termination of any Hedge Agreement, in each case, net of reasonable out-of-pocket expenses and disposition costs in connection with such sales.

Confidential Treatment Requested by Goldman Sachs
Footnote Exhibits - Page 5151

"Distribution": Any payment of principal or interest or any dividend, premium or fee payment made on, or any other distribution in respect of, a security or obligation.

"Diversity Score": A single number that indicates collateral concentration in terms of both issuer and industry concentration. The Diversity Score for the collateral obligations is calculated by summing each of the industry diversity scores, which are calculated as follows:

(i) An "Obligor Par Amount" is calculated for each obligor represented in the collateral obligations by summing the principal balance of all collateral obligations in the collateral issued by that obligor.

(ii) An "Average Par Amount" is calculated by summing the Obligor Par Amounts and dividing by the number of obligors represented.

(iii) An "Equivalent Unit Score" is calculated for each obligor by taking the lesser of (A) one and (B) the Obligor Par Amount divided by the Average Par Amount.

(iv) An "Aggregate Industry Equivalent Unit Score" is then calculated for each of the Moody's industry categories by summing theEquivalent Unit Scores for each obligor in the industry.

(v) An "Industry Diversity Score" is then established by reference to the Diversity Score Table shown below for the related Aggregate Industry Equivalent Unit Score; provided that if any Aggregate Industry Equivalent Unit Score falls between any two such scores then the applicable Industry Diversity Score will be the lower of the two Industry Diversity Scores in the Diversity Score Table.

For purposes of calculating the Diversity Score, an affiliate of an obligor that is in a different industry from such obligor shall be treated as a separate obligor from such obligor if such treatment satisfies the Moody's Rating Condition.

In the event Moody's modifies its industry classification groups, the Collateral Manager may elect to have each Collateral Obligation reallocated among such modified industry classification groups for purposes of determining the Industry Diversity Score and the Diversity Score; provided that (i) the Collateral Manager shall have provided written notice of such election to Moody's, the Trustee and the Collateral Administrator and (ii) the Moody's Rating Condition has been satisfied.

</table>

"Dollar" or "$": A dollar or other equivalent unit in such coin or currency of the United States of America as at the time shall be the legal tender for all debts, public and private.

"DTC": The Depository Trust Company, its nominees, and their respective successors.

"Due Period": With respect to any Payment Date, the period commencing on the day immediately following the seventh Business Day prior to the preceding Payment Date (or in the case of the Due Period relating to the first Payment Date, beginning on the Closing Date and ending on (and including) the seventh Business Day prior to such Payment Date or, in the case of a Due Period that is applicable to the Payment Date relating to the Stated Maturity of any Security or a Redemption Date, ending on (and including) the Business Day immediately preceding such Payment Date).

"Effective Date": The earlier of (i) the date designated by the Collateral Manager by notice to the Trustees pursuant to the Indenture and (ii) the Business Day immediately preceding the Payment Date in August 2002.

"Effective Date Ratings Downgrade Event": The event that results from (i) the reduction or withdrawal of the initial ratings assigned to the Rated Notes by any of the Rating Agencies by the Effective Date of (ii) the failure of the Issuer (or the Collateral Manager on behalf of the Issuer) to obtain from the Rating Agencies confirmation of the initial ratings of such Rated Notes by the Effective Date: provided that (A) in the case of (i) and with respect to Moody’s only, the Issuer shall not be considered to have failed to obtain such confirmation if all of the Collateral Quality Trusts (other than the S&P CDO Monitor Test, the Par Value Test, the Minimum Par Value Ratio and the Concentration Limitations were satisfied as of the

Effective Date; provided that such deemed confirmation from Moody's shall no longer be effective (and thereby an Effective Date Ratings Downgrade Event will be deemed to have occurred) if the Issuer has failed to deliver to Moody's the accountant's certificate required to be delivered under the Indenture, and (b) the Issuer (or the Collateral Manager on behalf of the Issuer) shall have made the request (and delivered all the necessary information) to S&P no later than 30 days prior to the Effective Date.

"Effective Spread": With respect to any Floating Rate Collateral Obligation, the current per annum rate at which it pays interest in excess of three-month LIBOR or, if such Floating Rate Collateral Obligation bears interest based on a non-LIBOR based floating rate index, the Effective Spread shall be the then-current base rate applicable to such Floating Rate Collateral Obligation plus the rate at which such Floating Rate Collateral Obligation pays interest in excess of such base rate minus three-month LIBOR, which number may be less than zero.

"Eligibility Criteria": The requirements specified in subclause (i) through (viii) of the definition of "Collateral Obligations" in "Summary—Collateral Obligations".

"Eligible Investment": Any Dollar-denominated investment that, at the time it, or evidence of it, is delivered to the Trustee directly or through a Clearing Corporation, Securities Intermediary, banker or through book-entry crediting to a securities account in the name of, or under the "control" (as defined in Section 8-105 of the UCC) of, the Trustee, is one or more of the following obligations or securities:

(i) direct or guaranteed obligations of, and guaranteed obligations of, the United States of America or any agency or instrumentality of the United States of America, the obligations of which are expressly backed by the full faith and credit of the United States of America;

(ii) demand or time deposits in, certificated deposits of, or banker's acceptances issued by any depository institution or trust company incorporated under the laws of the United States of America or any state thereof, which depository institution or trust company is subject to supervision and examination by federal or state authorities, so long as the commercial paper and/or the debt obligations of such depository institution or trust company are rated at least "A-1" by Standard & Poor's and "AAA" by Moody's at the time of such investment and contractual commitment providing for such investment has been assigned a credit rating of at least "A3" by Moody's and "AAA" by S&P in the case of long-term senior unsecured debt obligations, or "F-1" by Moody's and "A-1" by S&P in the case of commercial paper, time deposits and short-term debt obligations, provided that in the case of commercial paper, time deposits and short-term debt obligations with a maturity of 91 days or less, at the time of such investment, the issuer thereof must have been assigned a rating of at least "A1" by Moody's; provided, further, that in the case of commercial paper and short-term debt obligations with a maturity of longer than 91 days, at the time of such investment, the issuer thereof must have been assigned a rating of at least "A3" by Moody's and "AAA" by S&P and, provided, further, that any investment in commercial paper or banker's acceptances shall not have a maturity in excess of 183 days;

(iii) unrated repurchase obligations with respect to (a) any security described in subclause (i) above or (b) any other security issued or guaranteed by an agency or instrumentality of the United States of America entered into with a depository institution or trust company (acting as principal) described in subclause (i) above or entered into with a corporation (acting as principal) whose long-term senior unsecured rating is at least "A2" by Moody's and "AAA" by S&P and whose short-term credit rating is at least "F-1" by Moody's and "A-1" by S&P at the time of such investment except that investments with a term not exceeding 30 days may be made in unrated repurchase obligations with corporates whose short term credit rating is at least "A-1" by S&P, provided that the amount of such repurchase obligations, when combined with the amount of (c) all other Eligible Investments issued by institutions that have a short term credit rating of "F-1" by Moody's and at least "A-1" by S&P and (d) all other Eligible Investments that have a short term credit rating of "F-1" by Moody's and at least "A-1" by S&P and (e) all other Eligible Investments that have a short term credit rating of "F-1" by Moody's and at least "A-1" by S&P;
(vi) Registered debt securities bearing interest or sold at a discount issued by any corporation incorporated under the laws of (i) the United States of America or (ii) any state thereof, which registered debt securities have a credit rating of at least "Aa3" by Moody's and "AA" by S&P, in the case of long-term senior unsecured debt obligations, and "P-1" by Moody's and "A-1" by S&P in the case of commercial paper and short-term debt obligations, at the time of such investment; or contractual commitment providing for such investment (except that investments with a term not exceeding 30 days may be made in registered debt securities having a short term credit rating of "P-1" by Moody's and at least "A-1" by S&P, provided that the amount of such registered debt securities, when combined with the amount of all other Eligible Investments that have a short term credit rating of "P-1" by Moody's and at least "A-1" by S&P, does not at such time exceed 20% of the Aggregate Outstanding Amount of the Secured Notes); and provided, further, that in the case of commercial paper and short-term debt obligations, at the time of such investment or contractual commitment providing for such investment, the issuer thereof has a rating of at least "Aa3" by Moody's with respect to such issuer's senior unsecured debt obligations;

(vi) commercial paper (including, without limitation, any asset-backed commercial paper) or other short-term debt obligations of a corporation, partnership, limited liability company or trust, or any branch or agency thereof, principally located, incorporated or otherwise located in the United States of America or any of its territories, such commercial paper or other short-term obligations (if having been assigned a rating at the time of such investment a rating of "P-1" by Moody's and "A-1" by S&P (except that investments with a term not exceeding 30 days may be made in commercial paper or other short-term debt obligations having a short term credit rating of "P-1" by Moody's and at least "A-1" by S&P, provided that the amount of investments in such commercial paper and short-term obligations, when combined with the amount of (i) all other Eligible Investments entered into institutions that have a short term credit rating of "P-1" by Moody's and at least "A-1" by S&P and (ii) all other Eligible Investments that have a short term credit rating of "P-1" by Moody's and at least "A-1" and (iii) by S&P, does not at such time exceed 20% of the Aggregate Outstanding Amount of the Secured Notes), and (c) being Registered and either (i) are interest-bearing or (ii) are sold at a discount from the face amount thereof and have a maturity of not more than 183 days from their date of issuance, provided that such debt security has a maturity of not less than 91 days or, at the time of such investment, the issuer thereof must also have been assigned a long-term senior unsecured rating of at least "A1" by Moody's, and provided, further, that if such debt security has a maturity of not less than 91 days, the time of such investment, the issuer thereof must also have been assigned a long-term senior unsecured rating of at least "Aa2" by Moody's and "AA" by S&P;

(vii) non-U.S. money market funds which have, at the time of such reinvestment, a credit rating of "Aaa" and "MM1+" by Moody's and "AAA" or "AAAm-1+" by S&P, and, in each case, matures (giving effect to any applicable grace period) no later than the second Business Day (or, in the case of direct Registered debt obligations described in subsection (i) above, no later than one Business Day) prior to the Payment Date next following the Due Period in which the date of investment occurs, unless such Eligible Investment is issued by the Banks, in which event such Eligible Investment may mature (giving effect to any applicable grace period) on the Business Day preceding such Payment Date;
Footnote Exhibits - Page 5155

provided, however, that Eligible Investments shall not include any mortgage-backed security, interest-only security, any security purchased at a price in excess of 100% of par, any security that is the subject of an Offer other than an offer of publicly registered securities with equal or greater face value and substantially identical terms issued in exchange for securities issued under Rule 144A or a Permitted Offer, any security that is subject to withholding or similar taxes unless the issuer or obligor thereof is required to make "gross-up" payments that cover the full amount of such taxes on an after-tax basis or any security whose repayment is subject to substantial non-credit related risk as determined by the Collateral Manager in its sole judgment (which judgment shall not be subject to question as a result of subsequent events); and provided, further, that the maturity of an investment shall be the date on which the holder of such a security will put (at par) the security to the issuer thereof for redemption if each put (at par) is either to the issuer of such security or to another entity rated "A-1+" by Moody's and "A-1+" by S&P. Eligible Investments may include those investments with respect to which the Trustee, the Bank or the Collateral Manager or an Affiliate of the Trustee, the Bank or the Collateral Manager is an obligor or provides services. As used in this definition, ratings may not include ratings with a "F.2." "F.3." "F.4." or an "F." subscript. For purposes of the rating requirements contained in this definition, each investment on negative credit watch by Moody's shall be treated as having been downgraded one rating subcategory by Moody's and each investment on credit watch for possible upgrade by Moody's shall be treated as having been upgraded one rating subcategory by Moody's.

"Eligible Loan Index": With respect to each Collateral Obligation that is a loan, the S&P/LSA Leveraged Loan Index and its sub-indices, the Credit Suisse Leveraged Loan Index and its sub-indices, the Lehman Brothers U.S. High Yield Loan Index and its sub-indices and the Goldman Sachs LCD Leveraged Loan Index or any other loan index selected by the Collateral Manager at the relevant time of determination (subject to the satisfaction of the Moody's Rating Condition).

"Eligible Post Reinvestment Proceeds": Any Unscheduled Principal Payments or Sale Proceeds of Credit Improved Obligations or Credit Risk Obligations, in each case received after the Reinvestment Period.

"Equity Security": (a) Any equity security or any other security that is not eligible for purchase by the issuer under the Indenture and is received with respect to a Collateral Obligation or (b) any security purchased as part of a "unit" with a Collateral Obligation and that itself is not eligible for purchase by the issuer under the Indenture.

"Euroclear": The Euroclear System.

"European I Country": Austria, Belgium, Denmark, Finland, France, Germany, Iceland, Ireland, Liechtenstein, Luxembourg, Netherlands, Norway, Spain, Sweden, Switzerland and United Kingdom and any other European country subject to the satisfaction of the Moody's Rating Condition and the S&P Rating Condition.

"European II Country": Greece, Italy and Portugal.

"Excess Equity Feature Value": In respect of any Collateral Obligation which either has equity features attached or which is convertible into an Equity Security, the portion of the acquisition price thereof which, in the sole judgment of the Collateral Manager, is attributable to the value of such equity feature or conversion option of such Equity Security and which is in excess of 2% of the total purchase price of such Collateral Obligation.

"Exchanged Defaulted Obligation": Any Defaulted Obligation exchanged for another Defaulted Obligation.

"Exchanged Equity Security": Any equity security or any other security that is not eligible for purchase by the issuer under the definition of "Collateral Obligation" and received in exchange for a Collateral Obligation.

-142-

Confidential Treatment Requested by Goldman Sachs OS MBS-E-001918376
Footnote Exhibits - Page 5156

"Excluded Subclass": Any subclass of Subordinated Securities issued under "Description of the Securities—The Indenture—Additional issuance" which shall be excluded for purposes of calculating the Incentive Collateral Management Fee payable pursuant to the Collateral Management Agreement.

"Expense Reserve Amount": $1,800,000.

"Finance Lease": A lease agreement or other agreement entered into in connection with and evidencing a Leasing Finance Transaction.

"Fitch": Fitch Ratings and any successor or successors thereto.

"Fixed Rate Collateral Obligations": Collateral Obligations (other than Defaulted Obligations) that, at the time of determination, bear interest at a fixed rate, including (i) any Step-Up Coupon Securities that (1) bear interest at a fixed rate at the time of determination or (2) do not bear any interest at the time of determination but whose interest rate will increase to a fixed rate and (ii) Synthetic Securities that provide for a payment to the Issuer based on a fixed rate.

"Floating Rate Collateral Obligations": Collateral Obligations (other than Defaulted Obligations) that, at the time of determination, bear interest at a floating rate, including (i) any Step-Up Coupon Securities that (1) bear interest at a floating rate at the time of determination or (2) do not bear any interest at the time of determination but whose interest rate will increase to a floating rate and (ii) Synthetic Securities that provide for a payment to the Issuer based solely on a floating rate.

"Floating Rate Note Interest Amounts": Collectively, the Class S Note Interest Amount, the Class A Note Interest Amount, the Class B Note Interest Amount, the Class C Note Interest Amount, the Class D Note Interest Amount and the Class E Note Interest Amount.

"Floating Rate Note Interest Rates": Collectively, the Note Interest Rate for the Class S Notes, the Note Interest Rate for the Class A Notes, the Note Interest Rate for the Class B Notes, the Note Interest Rate for the Class C Notes, the Note Interest Rate for the Class D Notes and the Note Interest Rate for the Class E Notes.

"Floating Rate Notes": Collectively, the Class S Notes, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes.

"Form-Approved Synthetic Security": A Synthetic Security:

(a) the Reference Obligation of which (or the relevant obligation(s) of the Reference Obligor), if a Collateral Obligation, could be purchased by the Issuer without any required action by the Rating Agencies or which would not cause either the Moody's Rating Condition or the S&P Rating Condition to be not satisfied in the reasonable judgment of the Collateral Manager;

(b) the documentation of which conforms (but for the amount and timing of periodic payments, the name of the Reference Obligation and/or Reference Obligor, the notional amount, the premium, the effective data, the termination date or maturity and other similarly necessary changes) to a form (it being understood that such documentation may incorporate by reference the Syndicated Secured Loan Credit Default Swap Standard Terms Supplement as published by ISDA as of June 8, 2009) (1) with respect to S&P, previously approved and not subsequently revoked by S&P for use in this transaction, and (2) with respect to Moody's, for which the Issuer or the Collateral Manager, on behalf of the Issuer, had previously obtained certification that the Moody's Rating Condition was satisfied; and

(c) which provides that any "credit event" thereunder shall be limited to either "bankruptcy" or "failure to pay" or both.

Confidential Treatment Requested by Goldman Sachs

OS MBS-E-001918377
The Issuer or the Collateral Manager on behalf of the Issuer shall promptly notify the Rating Agencies after any acquisition of a Form Approved Synthetic Security and cause the delivery of any documentation relating to such Form Approved Synthetic Security to S&P within ten Business Days of such acquisition; provided, however, that in the event the Collateral Manager fails to deliver any documentation within ten Business Days as required above, such failure shall not constitute a breach of any material term under the Indenture or the Collateral Management Agreement, provided that if S&P or Moody’s notifies the Trustee and the Collateral Manager that it has withdrawn form-approved status with respect to a particular Form Approved Synthetic Security, then the Issuer shall no longer use such form as a Form Approved Synthetic Security.

"Future Drawdown Amount": At any time of determination, an amount equal to the greater of (A) zero and (B) (i) the Aggregate Underlying Undrawn Amount at such time less (ii) the amount of funds in the Revolving Credit Facility Reserve Account at such time.

"Global Class E Notes": Collectively, the Rule 144A Global Class E Notes and the Regulation S Global Class E Notes.

"global Securities": Collectively, the Rule 144A Global Secured Notes, the Regulation S Global Secured Notes and the Regulation S Global Subordinated Securities.

"Hedge Agreement": Any interest rate exchange, cap or protection agreement or agreements entered into between the issuer and a Hedge Counterparty, as amended from time to time, including any confirmations evidencing the transactions thereunder.

"Hedge Counterparty": One or more institutions entering into or guaranteeing a Hedge Agreement with the Issuer (i) satisfying the Required Hedge Counterparty Rating or (ii) if not so rated by both of the Rating Agencies, the Moody’s Rating Condition and the S&P Rating Condition (as applicable to any Rating Agency that has not so rated such institution) have been satisfied with respect to any given Hedge Agreement, including any successor under any Hedge Agreement satisfying the foregoing rating requirements at the time of such succession.

"Hedge Payment Amount": With respect to a Hedge Agreement and any Payment Date, the positive amount, if any, then payable to the Hedge Counterparty by the Issuer (excluding any applicable termination payments) net of all amounts (excluding any applicable termination payments) then payable to the Issuer by the Hedge Counterparty.

"Holder" or "Securityholder": With respect to any Security, the Person in whose name such Security is registered in the Register, or for purposes of voting and determinations hereunder, as long as such Security is in global form, a beneficial owner thereof.

"Included Subclass": (i) the subclass of Subordinated Securities issued on the Closing Date and (ii) any subclass of Subordinated Securities issued under "Description of the Securities—The Indenture—Additional Issuance" which shall be included for purposes of calculating the Incentive Collateral Management Fee payable pursuant to the Collateral Management Agreement.

"Indenture": The indenture, dated as of January 15, 2007, among the Issuer, the Co-Issuer and the Trustee.

"Independent": As to any Person, any other Person (excluding a firm of accountants or lawyers and any member thereof or an investment bank and any member thereof) who (i) does not have and is not connected with such Person or in any Affiliate of such Person, (ii) is not connected with such Person as an officer, employee, promoter, underwriter, voting trustee, partner, director or Parent performing similar functions and (iii) is not affiliated with a firm that fails to satisfy the criteria set forth in (i) and (ii). "Independent" when used with respect to any accountant may include an accountant who audits the books of any Person if in addition to satisfying the criteria set forth above the accountant is independent with respect to such Person within the meaning of Rule 101 of the Code of Ethics of the American Institute of Certified Public Accountants.
Footnote Exhibits - Page 5158

"Initial Investment Period": The period from, and including, the Closing Date to, but excluding, the Effective Date.

"Interest Accrual Period": The period from and including the Closing Date to but excluding the first Scheduled Payment Date, and each successive period from and including each Scheduled Payment Date to but excluding the following Scheduled Payment Date (except with respect to the Scheduled Payment Date following the Stated Maturity or the Redemption Date, to but excluding the Stated Maturity or the Redemption Date, as the case may be).

"Interest Coverage Ratio": On any Measurement Date and as to any applicable Class of Secured Notes, the ratio (expressed as a percentage), after giving effect to clauses (b) through (d) as described under "Security for the Secured Notes--The Coverage Tests", obtained by dividing:

(a) the Collateral Interest Amount as of such date; by

(b) the sum of the scheduled interest payments due on the Securities of such Class (excluding the Class S Notes) and each senior Class (excluding the Class S Notes) on the following Payment Date, provided, however, the Class A Notes and the Class B Notes shall constitute one Class of Secured Notes for purposes of the Interest Coverage Ratio determined for the Class A/B Interest Coverage Test.

For purposes of calculating the Interest Coverage Ratio:

(1) distributions in the Due Period in which such Measurement Date occurs (but not yet paid) with respect to a Collateral Obligation which, in accordance with its terms, has an outstanding deferred interest balance, shall be included in such calculation only if (i) such Collateral Obligation paid all interest then currently due in cash on its immediately preceding payment date (including interest due on deferred interest, if any) and (ii) the Collateral Manager believes (in its sole judgment) such Collateral Obligation will not defer interest or make a payment "in kind" on its next succeeding payment date;

(2) distributions on the Collateral Obligations and the Eligible Investments will not include any scheduled interest payments as to which the Issuer or the Collateral Manager has actual knowledge that such payment will not be made during the applicable Due Period; and

(3) the expected interest income on Floating Rate Collateral Obligations and Eligible Investments and the expected interest payable on the applicable Class of Secured Notes will be calculated using the then-current interest rates applicable thereto.

"Interest Coverage Tests": The Class A/B Interest Coverage Test, the Class C Interest Coverage Test and the Class D/C Interest Coverage Test.

"Interest Proceeds": With respect to any Payment Date and the Stated Maturity, without duplication:

(i) all payments of interest and dividends, commitment fees and facility fees received during the related Due Period on the Pledged Obligations (including Reinvestment Income, if any), other than any payment of interest received on any Defaulted Obligation if the outstanding principal amount thereof then due and payable has not been released by the Issuer after giving effect to the receipt of such payments of interest;

(ii) to the extent not included in the definition of "Sale Proceeds," if so designated by the Collateral Manager (in its sole discretion) and notice thereof is conveyed to the Trustee, any portion of the accrued interest received during the related Due Period in connection with the sale of any Pledged Obligations (excluding accrued interest received in connection with the sale of (i) Defaulted Obligations if the outstanding principal amount

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918379
Footnote Exhibits - Page 5159

thereof has not been received by the Issuer after giving effect to such sale or (y) Pledged Obligations in connection with an optional redemption of the Securities; (ii) unless otherwise designated by the Collateral Manager in its sole discretion as Principal Proceeds and notice thereof is conveyed to the Trustee, all amendment and waiver fees, all late payment fees, all securities lending fees (net of administration fees paid in connection with securities lending) and all other fees received during such Due Period in connection with the Pledged Obligations, excluding (A) fees received in connection with Defaulted Obligations (but only to the extent that the outstanding principal amount thereof has not been received by the Issuer); (iii) fees received in connection with the purchase of Pledged Obligations and any Revolving Credit Facility Net-Backs; and (C) premiums (including prepayment premiums) constituting Principal Proceeds in accordance with subclause (iii) of the definition thereof; (v) all net payments (other than (a) termination payments, (g) payments constituting Liquidation Proceeds, (g) upon payments by a replacement Hedge Counterparty that are to be paid to any proceeds from the sale of a replaced Hedge Counterparty in accordance with the relevant Hedge Agreements, which payments shall, if received by the Issuer, be paid directly to such replaced Hedge Counterparty and not be subject to the Priority of Payments and (j) upon payments by a replacement Hedge Counterparty that constitute Principal Proceeds in accordance with subclause (v) (B) or (C) of the definition thereof) received pursuant to Hedge Agreements during the related Due Period or on the related Payment Date or the Business Day preceding the related Payment Date; (v) any recoveries on Defaulted Obligations in excess of the outstanding principal amount thereof (including, without limitation, any payments received by the Issuer upon the occurrence of a "credit event" under a Synthetic Security in excess of the Principal Balance of such Synthetic Security); (vi) proceeds received from any additional issuance of Securities if treated as Interest Proceeds in accordance with the Treatment of Additional Issuances of Securities; (vii) (x) any amounts remaining on deposit in the Interest Collection Account from the immediately preceding Payment Date and (y) any Principal Proceeds and unused proceeds transferred to the Interest Collection Account for application as Interest Proceeds as set forth in "Security for the Secured Notes—Principal Collection Account;" (viii) after an event of default, as such term is defined under the related Securities Lending Agreement, any interest payment received by the Issuer from the related Securities Lending Counterparty during the related Due Period (but not to exceed the amount of the Securities Lending Counterparty's obligations owed to the Issuer); (ix) any amounts transferred from the Synthetic Security Collateral Account that are deposited in the Interest Collection Account during the related Due Period and (y) all net payments received by the Issuer on Synthetic Securities; and (x) all payments of principal and interest on Eligible Investments purchased with the proceeds of any of Items (i) through (x) of this definition (without duplication); provided, however, that in connection with the final Payment Date, Interest Proceeds shall include any amount referred to in subclauses (i) through (x) above that is received from the sale of Collateral Obligations or the additional issuance of the Subordinated Securities on or prior to the day immediately preceding the final Payment Date.

For the avoidance of doubt, if the Issuer receives any payment from a Securities Lending Counterparty that relates to a Collateral Obligation that has been loaned to such Securities Lending Counterparty pursuant to a related Securities Lending Agreement, the portion of such payment that

Confidential Treatment Requested by Goldman Sachs QS MBS-E-001918380
Footnote Exhibits - Page 5160

would have constituted Interest Proceeds had such payment been paid from the issuer of such
traded Collateral Obligation to the issuer shall constitute "Interest Proceeds," and prior to an event of
default, as such term is defined under the related Securities Lending Agreement, any payment
received by the issuer under the related Securities Lending Agreement shall not constitute "Interest
Proceeds" and such amounts shall be deposited in the Securities Lending Account.

"Interest Reserve Amount": With respect to any Scheduled Payment Date, (i) the sum of all
interest payments received on Collateral Obligations which pay scheduled interest less frequently
than quarterly during all previous Due Periods (including, for the avoidance of doubt, the Due Period
corresponding to such Scheduled Payment Date), less (ii) the sum of the Aggregate Interest Reserve
Distribution Amounts on all prior Scheduled Payment Dates, less (iii) all amounts applied pursuant to the
genue paragraph in "Description of the Securities—Priority of Payments—Interest Proceeds."

"Interest Reserve Distribution Amount": For a Collateral Obligation that pays scheduled interest
less frequently than quarterly, an amount equal to:

(i) if such Collateral Obligation is a Fixed Rate Collateral Obligation, the product of (1) the
actual number of days in the related Due Period on a 360/360 basis, divided by 360, (2) the
annual coupon on such Collateral Obligation as of the immediately preceding Determination
Date and (3) the Principal Balance of such Collateral Obligation, or

(ii) if such Collateral Obligation is a Floating Rate Collateral Obligation, the product of (1) the
actual number of days in the related Due Period divided by 360, (2) the sum of (i) three-
month LIBOR, as of the immediately preceding Determination Date, and (3) the Effective
Spread, as of the immediately preceding Determination Date, on such Collateral Obligation
and (3) the Principal Balance of such Collateral Obligation.

"Interim Targets": With respect to the Collateral Portfolio on the Interim Targets Date, (i) a Minimum
Par Value Ratio equal to or greater than 99%, (ii) a Diversity Score equal to or greater than 48, (iii) a Moody's
Weighted Average Rating Factor less than or equal to 2500, (iv) a Weighted Average Spread equal to or
greater than 2.40% and (v) a Moody's Weighted Average Recovery Rate equal to or greater than 43.00%.

"Interim Targets Date": April 18, 2007.

"Internal Rate of Return": With respect to each Payment Date, the rate of return that would result in
a net present value of zero, assuming: (i) an aggregate purchase price of par for the Subordinated Securities
issued on the Closing Date or any related Additional issuance Date as the negative cash flow and all
distributions on the Subordinated Securities on each Payment Date after the Closing Date or any related
Additional issuance Date as positive cash flows, (ii) the initial date for the calculation as the Closing Date or
the related Additional issuance Date, as applicable, and (iii) the number of days to each Payment Date after
the Closing Date or related Additional issuance Date, as applicable, being calculated on the basis of a 360-
day year consisting of twelve 30-day months. Such rate of return shall be expressed on a semi-annual bond
equivalent basis and take into account any payments of the Incentive Collateral Management Fee on such
Payment Date.

"Investment Company Act": The U.S. Investment Company Act of 1940, as amended.

"Investment Due Period": The first Due Period following the Due Period of receipt of any Principal
Proceeds, Sale Proceeds of Credit Improved Obligations or Credit Risk Obligations, Unscheduled Principal
Payments or proceeds from additional issuances of the Securities, as applicable.

"Irish Paying Agency Agreement": An agreement between the Irish Paying Agent and the Issuer,
as amended from time to time in accordance with the terms thereof.

"Irish Paying Agent": Custom House Administration & Corporate Services Ltd. in Ireland, until a
successor Person shall have been appointed by the Issuer, and thereafter "Irish Paying Agent" shall mean
such successor person.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918381
Footnote Exhibits - Page 5161

"Issuer Accounts": The Interest Collection Account, the Subordinated Securities Interest Collection Account, the Payment Account, the Subordinated Securities Collateral Account, the Collateral Account, the Principal Collection Account, the Subordinated Securities Principal Collection Account, the Expense Reserve Account, the Discretionary Reserve Account and the Revolving Credit Facility Reserve Account.

"Knowledgeable Employee": A "knowledgeable employee" within the meaning of Rule 3c-5 of the Investment Company Act.

"Leasing Finance Transaction": Any transaction pursuant to which the obligations of the lessee to pay rent or other amounts on a triple net basis under any lease of (or other arrangement conveying the right to use) real or personal property, or a combination thereof, are required to be classified and accounted for as a capital lease on a balance sheet of such lessee under generally accepted accounting principles in the United States, but only if (a) such lease or other transaction provides for the unconditional obligation of the lessee to pay a stated amount of principal no later than a stated maturity date, together with interest thereon, and the payment of such obligation is not subject to any material non-credit related risk as determined by the Collateral Manager, (b) the obligations of the lessee in respect of such lease or other transaction are fully secured, directly or indirectly, by the property that is the subject of such lease and (c) the interest held in respect of such lease or other transaction is treated as debt for U.S. federal income tax purposes.

"LIBOR": The London Interbank Offered Rate. For purposes of calculating the Floating Rate Note Interest Rates for each Applicable Period, LIBOR shall, as more fully described in a schedule to the Indenture, be calculated as follows:

(i) On each LIBOR Determination Date, LIBOR shall equal the rate, as obtained by the Calculation Agent, for Eurodollar deposits for the Applicable Period which appears in Telerate Page 3750 (as defined in The International Swaps and Derivatives Association, Inc. 2000 Interest Rate and Currency Exchange Definitions), or such page as may replace Telerate Page 3750, as of 11:00 a.m. (London time) on such LIBOR Determination Date.

(ii) If, on any LIBOR Determination Date, such rate does not appear on Telerate Page 3750, or such page as may replace Telerate Page 3750, the Calculation Agent shall determine the arithmetic mean of the offered quotations of the Reference Banks to leading banks in the London interbank market for Eurodollar deposits for the Applicable Period in an amount determined by the Calculation Agent by reference to requests for quotations as of approximately 11:00 a.m. (London time) on the LIBOR Determination Date made by the Calculation Agent to the Reference Banks. If, on any LIBOR Determination Date, at least two of the Reference Banks provide such quotations, LIBOR shall equal such arithmetic mean of such quotations. If, on any LIBOR Determination Date, only one or none of the Reference Banks provides such quotations, LIBOR shall be deemed to be the arithmetic mean of the offered quotations that leading banks in the City of New York selected by the Calculation Agent for quoting on the relevant LIBOR Determination Date for Eurodollar deposits for the Applicable Period in an amount determined by the Calculation Agent by reference to the principal London offices of leading banks in the London interbank market; provided, however, that if the Calculation Agent is required but is unable to determine a rate in accordance with at least one of the procedures provided above, LIBOR shall be LIBOR as determined on the most recent date LIBOR was available. As used herein, "Reference Banks" means four major banks in the London interbank market selected by the Calculation Agent.

(iii) LIBOR for the first Applicable Period shall be determined based on the actual number of days in the Applicable Period using straight-line interpolation of two rates calculated in accordance with the above procedure, except that instead of using three-month deposits, one rate shall be determined using the period for which rates are obtainable next shorter than the Applicable Period and the other rate shall be determined using the period for which rates are obtainable next longer than the Applicable Period.
Footnote Exhibits - Page 5162

As soon as possible after 11:00 a.m. (London time) on each LIBOR Determination Date, but in no event later than 11:00 a.m. (London time) on the Business Day immediately following each LIBOR Determination Date, the Calculation Agent will, with respect to any Scheduled Payment Date, cause notice of the Floating Rate Note Interest Rates for the next Interest Accrual Period and the Class A Note Interest Amount, the Class B Note Interest Amount, the Class C Note Interest Amount, the Class D Note Interest Amount and the Class E Note Interest Amount (rounded to the nearest cent, with half a cent being rounded upward) on the related Payment Date to be communicated to the Issuers, the Trustee, Euroclear Clearstream, the Collateral Manager and the paying agents. The Calculation Agent will also specify to the Issuers the quotations upon which theFloating Rate Note Interest Rates are based, and in any event the Calculation Agent shall notify the Issuers, or the Collateral Manager on behalf of the Issuers, before 5:00 p.m. (London time) on each LIBOR Determination Date that either: (i) it has determined or is in the process of determining the applicable Floating Rate Note Interest Rates and the applicable Floating Rate Note Interest Amounts; or (ii) it has not determined and is not in the process of determining the applicable Floating Rate Note Interest Rates and the applicable Floating Rate Note Interest Amounts, together with its reasons therefor.

"LIBOR Determination Date": The second London Business Day prior to the commencement of an Interest Accrual Period.

"Liquidation Proceeds": With respect to any optional redemption include, without duplication: (i) all Sale Proceeds from Collateral Obligations sold in connection with such redemption; (ii) the aggregate amount received by the Issuer on or prior to the Business Day immediately preceding the relevant Payment Date from the termination or reduction of any Hedge Agreement in connection with such optional redemption; and (iii) all cash and Eligible Investments (other than Principal Proceeds and Interest Proceeds that will be paid pursuant to the Priority of Payments on such Redemption Date) on deposit in the Issuer Accounts.

"London Business Day": A day on which commercial banks are open for general business (including dealings in foreign exchange and foreign currency deposits) in London.

"Majority": With respect to the Securities or any Class thereof, the Holders of more than 50% of the Aggregate Outstanding Amount of the Securities or of such Class, as the case may be.

"Margin Stock": The meaning specified under Regulation U.

"Maritime Collateral Obligation": An obligation, other than a Structured Finance Security, in which the Issuer thereof (i) is organized in a Maritime Jurisdiction; and (ii) is determined by the Collateral Manager to be in the shipping industry and to have (or whose relevant obligations are guaranteed by an entity that the Collateral Manager has determined to have) at least 60% by reference to the latest available consolidated financial statements, of (A) its business operations or (B) its assets primarily responsible for generating its revenue located in (1) the United States of America, Canada, Australia, (2) a European Union Country or European Economic Area Country (as applicable) so long as, in each case, at the time of the acquisition by the Issuer, the foreign currency rating of such country is rated at least "AA" by S&P or (3) upon the satisfaction of each of the Moody's Rating Condition and the S&P Rating Condition, any other jurisdiction.

"Maritime Jurisdiction": (a) Australia, the Bahamas, Bermuda, the Cayman Islands, Norway, or (b) upon the satisfaction of each of the Moody's Rating Condition and the S&P Rating Condition, any other jurisdiction; provided that, if any of the countries listed in subclause (i) have a foreign currency rating of less than "AA" by S&P at the time of purchase of the related Maritime Collateral Obligation, the Collateral Manager shall notify S&P in writing of such fact; provided, further, that, none of the countries listed in subclause (i) shall have a foreign currency rating of less than "A2" by Moody's.

"Market Value": With respect to any Collateral Obligations, the amount determined by the Collateral Manager equal to: (i) the product of the principal amount and the average of the average bid and average ask price value determined by the Loan Pricing Corporation, Markit Partners Inc., or any other loan pricing service that is independent of the Collateral Manager and acceptable to S&P; or (ii) if any such service is not available or applicable then the average of at least three firm bids obtained from dealers (that are independent of the Collateral Manager and independent of each other) that the Collateral Manager

Confidential Treatment Requested by Goldman Sachs  GS MBS-E-001918383
determines (in its sole discretion) to be reasonably representative of the Collateral Obligation's current market value and reasonably reflective of current market conditions; (ii) if only two such bids can be obtained, the lower of such two bids shall be the Market Value of the Collateral Obligation; (iii) if only one such bid can be obtained, such bid shall be the Market Value of the Collateral Obligation; and (iv) if no such bids can be obtained, then, the Market Value of such Collateral Obligation shall be:

(A) so long as the Collateral Manager is registered as an investment adviser under the Advisers Act, the outstanding principal amount of such Collateral Obligation multiplied by the lesser of (a) 70% and (b) its market value (expressed as a percentage of such Collateral Obligation as determined by the Collateral Manager) consistent with the procedures used by the Collateral Manager to determine the market value for assets included in other funds managed by the Collateral Manager; or

(B) if the Collateral Manager is no longer registered as an investment adviser under the Advisers Act, the outstanding principal amount of such Collateral Obligation multiplied by the lesser of (a) 70%, (b) its Moody's Recovery Rate and (c) its bid market value (expressed as a percentage of par) determined by the Collateral Manager, provided that so long as the Collateral Manager is not registered as an investment adviser under the Advisers Act, if the Market Value of a Collateral Obligation cannot be calculated in accordance with any of subclauses (i) through (iv) above, the Market Value of such Collateral Obligation shall be deemed to be zero.

"Maturity": With respect to any Collateral Obligation, the date on which such obligation shall be deemed to mature (or its maturity date) shall be earlier of (a) the Stated Maturity of such obligation and (b) if the Issuer has a right to require the issuer or obligor of such Collateral Obligation to purchase, redeem or retire such Collateral Obligation (all par) on any one or more dates prior to its Stated Maturity (a "put right") and the Collateral Manager determines (in its sole discretion) that it shall exercise such put right on any such date, the maturity date shall be the date specified in such certification.

"Maturity": With respect to any Security, the date on which any unpaid principal or notional amount, as applicable, of such Security becomes due and payable as therein or herein provided, whether at the Stated Maturity or by declaration of acceleration, call for redemption or otherwise.

"Maximum Rating Factor": As of any Measurement Date the number set forth in the Ratings Matrix corresponding to the "row/column combination" chosen by the Collateral Manager as currently applicable to the Collateral Obligations in accordance with the terms of the Indenture.

"Measurement Date": On and after the Effective Date, (i) each date the Reinvestment Criteria apply in connection with a sale, purchase or substitution of a Collateral Obligation (giving effect to such sale, purchase or substitution), (ii) each Determination Date, (iii) the 20th day of each month for purposes of producing monthly reports provided by the Issuer pursuant to the Indenture summarizing the performance of the Collateral Portfolio and (iv) any Business Day specified as a Measurement Date, with not less than two Business Day's notice, by either of the Rating Agencies.

"Minimum Diversity": As of any Measurement Date the number set forth in the column entitled "Minimum Diversity" in the Ratings Matrix set forth in "Summary—The Offering—Collateral Quality Tests" based upon the "row/column combination" chosen by the Collateral Manager as currently applicable to the Collateral Obligations in accordance with the terms in the Indenture.

"Minimum Par Value Ratio": The Minimum Par Value Ratio will be satisfied, as of any Measurement Date if, the Class O Par Value Ratio is equal to or greater than 110.34%; provided that in calculating the Minimum Par Value Ratio, any portion of principal due on a Collateral Obligation after the Stated Maturity of the Securities will be treated as a Collateral Obligation that matures prior to or on the Stated Maturity.

"Moody's": Moody's Investors Service, Inc. and any successor or successors thereto.

Confidential Treatment Requested by Goldman Sachs

GS MISS-E-001918384
Footnote Exhibits - Page 5164

"Moody's Default Probability Rating": With respect to any Collateral Obligation as of any date of determination, the rating determined as follows:

(i) With respect to a Collateral Obligation other than a DIP Loan that is a Senior Secured Loan or Participation in a Senior Secured Loan, if the obligor of such Collateral Obligation has a Corporate Family Rating, then such Corporate Family Rating.

(ii) With respect to a Collateral Obligation other than a DIP Loan that is a Senior Secured Loan or Participation in a Senior Secured Loan, if not determined pursuant to subclause (i) above, if such Collateral Obligation (A) is publicly rated by Moody's, such public rating, or (B) is not publicly rated by Moody's but a rating or ratings estimate has been assigned by Moody's upon the request of the Issuer or the Collateral Manager, such rating or the rating estimate, as applicable.

(iii) With respect to a Collateral Obligation other than a Synthetic Security or a DIP Loan, if not determined pursuant to subclauses (i) or (ii) above, (A) if the obligor of such Collateral Obligation has one or more senior unsecured obligations publicly rated by Moody's, then the Moody's public rating on any such obligation as selected by the Collateral Manager or, if no such rating is available, then (B) if such Collateral Obligation is publicly rated by Moody's, such public rating or, if no such rating is available, then (C) if a rating or rating estimate has been assigned to such Collateral Obligation by Moody's upon the request of the Issuer or the Collateral Manager, such rating or, in the case of a rating estimate, the applicable rating estimate for such obligation.

(iv) With respect to a DIP Loan, (i) one rating subcategory below the facility rating (whether public or private) of such DIP Loan rated by Moody's or (ii) if such DIP Loan does not have a facility rating assigned by Moody's, (a) if Moody's has provided a ratings estimate with respect to such DIP Loan, one rating subcategory below the ratings estimate provided by Moody's, (b) if Moody's has been requested by the Issuer or the Collateral Manager to assign a rating or ratings estimate with respect to such DIP Loan but such rating or ratings estimate has not been received, pending receipt of such estimate, "NR" if the Collateral Manager believes that such estimate will be at least "BB" and if the Aggregate Principal Amount of Collateral Obligations determined pursuant to this clause (iv), together with the Aggregate Principal Amount of Collateral Obligations the Moody's Derived Rating of which is determined pursuant to subclause (B)(1) of the definition of "Moody's Derived Rating", does not exceed 1/3% of the Aggregate Principal Amount of all Collateral Obligations or (c) otherwise, "Cast".

(v) With respect to a Collateral Obligation other than a Synthetic Security, if not determined pursuant to subclause (i), (ii), (iii) or (iv) above, the Moody's Derived Rating.

(vi) With respect to a Synthetic Security, as determined as set forth in "Security for the Secured Notes—Certain Matters Relating to Synthetic Securities".

For purposes of calculating a Moody's Default Probability Rating, each applicable rating on credit watch by Moody's with positive or negative implication at the time of calculation will be treated as having been upgraded or downgraded by one rating subcategory, as the case may be, except that, with respect to ratings issued for Structured Finance Securities, each applicable rating will be treated as having been upgraded or downgraded by two rating subcategories.

"Moody's Derived Rating": With respect to a Collateral Obligation whose Moody's Rating or Moody's Default Probability Rating cannot otherwise be determined pursuant to the definitions thereof, such Moody's Rating or Moody's Default Probability Rating shall be determined as set forth below:

(i) If the obligor of such Collateral Obligation has a long-term issuer rating by Moody's, then such long-term issuer rating.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918385
Footnote Exhibits - Page 5165

(i) If not determined pursuant to subclause (i) above, if another obligation of the obligor is rated by Moody's, then by adjusting the rating of the related Moody's rated obligation of the related obligor by the number of rating subcategories according to the table below:

<table>
<thead>
<tr>
<th>Obligation Category of Rated Obligation</th>
<th>Number of Subcategories Relative to Rated Obligation Rating</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
<tr>
<td>Senior secured obligation</td>
<td>less than B2</td>
</tr>
<tr>
<td>Subordinated obligation</td>
<td>greater than or equal to B3</td>
</tr>
<tr>
<td>Subordinated obligation</td>
<td>less than B3</td>
</tr>
</tbody>
</table>

(ii) If not determined pursuant to subclause (i) or (ii) above, if the obligor of such Collateral Obligation has a Corporate Family Rating, then one subcategory below such Corporate Family Rating.

(iii) If not determined pursuant to subclause (b), (c), or (d) above, then by using any one of the methods provided below:

(A) (1) If such Collateral Obligation is rated by S&P, then by adjusting the S&P Rating by the number of rating subcategories according to the table below:

<table>
<thead>
<tr>
<th>S&amp;P Rating</th>
<th>Collateral Obligation Rated by S&amp;P</th>
<th>Number of Subcategories Relative to Moody's Equivalent of S&amp;P Rating</th>
</tr>
</thead>

<td>Loan</td>
<td></td>
</tr>
</tbody>
</table>

(B) If such Collateral Obligation is not rated by S&P but another security or obligation of the obligor is rated by S&P (**a parallel security**), then the rating of such parallel security will at the election of the Collateral Manager be determined in accordance with the table set forth in subclause (A)(1) above, and the Moody's Rating or Moody's Default Probability Rating of such Collateral Obligation will be determined in accordance with the methodology set forth in subclause (i) above for such purposes treating the parallel security as if it were rated by Moody's at the rating determined pursuant to this subclause (A)(2); or

(C) if such Collateral Obligation is a DIP Loan, no Moody's Rating or Moody's Default Probability Rating may be determined based on a rating by S&P or any other rating agency,

provided, however, that the Aggregate Principal Amount of Collateral Obligations the Moody's Default Probability Rating of which is determined pursuant to this clause (iv)(A) shall not exceed 10% of the Aggregate Principal Amount of all Collateral Obligations;

(D) if such Collateral Obligation is not rated by Moody's or S&P and no other security or obligation of the issuer of such Collateral Obligation is rated by Moody's or S&P, and if Moody's has been requested by the Issuer or the Collateral Manager to assign a rating or rating estimate with respect to such Collateral Obligation but such rating or rating estimate has not been received, pending receipt of such estimate, (1) "B3" if the Collateral Manager believes that such estimate will be at least "B3" and if the Aggregate Principal Amount of Collateral Obligations determined pursuant to this subclause (iv)(1), together with the Aggregate Principal Amount of Collateral Obligations the Moody's Default Probability Rating of which is determined pursuant to clause (iv) of the definition of

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918386
"Moody’s Default Probability Rating", does not exceed 10% of the Aggregate Principal Amount of all Collateral Obligations or (2) otherwise, "Caast";

(C) if the obligor of such Collateral Obligation is a U.S. obligor and if such Collateral Obligation is a senior secured obligation of the obligor and (1) neither the obligor nor any of its Affiliates has been subject to reorganization or bankruptcy proceedings, (2) no debt securities or obligations of the obligor are in default, (3) neither the obligor nor any of its Affiliates have defaulted on any debt during the past two years, (4) the obligor has been in existence for the past five years, (5) the obligor is current on any cumulative dividends, (6) the fixed-charge ratio for the obligor exceeds 125% for each of the past two fiscal years and for the most recent quarter, (7) the obligor has a net profit before tax in the past fiscal year and the most recent quarter and (8) the annual financial statements of the obligor are unaudited and certified by a firm of independent accountants of national reputation, and quarterly statements are unaudited but signed by a corporate officer, "Caast";

(D) if the obligor of such Collateral Obligation is a U.S. obligor and if such Collateral Obligation is a senior secured or senior unsecured obligation of the obligor and (1) neither the obligor nor any of its Affiliates has been subject to reorganization or bankruptcy proceedings and (2) no debt security or obligation of the obligor has been in default during the past two years, "Caast";

(E) if a debt security or obligation of the obligor has been in default during the past two years, "Caast".

For purposes of calculating a Moody’s Derived Rating, each applicable rating on credit watch by Moody’s with positive or negative implication at the time of calculation will be treated as having been upgraded or downgraded by one rating subcategory, as the case may be, except that, with respect to ratings issued for Structured Finance Securities, each such applicable rating will be treated as having been upgraded or downgraded by two rating subcategories.

"Moody’s Industry Category": Any of the industry categories set forth in the Indenture, including any such modifications that may be made thereto or such additional categories that may be subsequently established by Moody’s and provided by the Collateral Manager or Moody’s to the Trustee.

"Moody’s Rating": With respect to any Collateral Obligation as of any date of determination, the rating determined as follows:

(i) With respect to a Collateral Obligation (including a Synthetic Security) that (A) is publicly rated by Moody’s, such public rating, or (B) is not publicly rated by Moody’s but for which a rating or rating estimate has been assigned by Moody’s upon the request of the issuer or the Collateral Manager, such rating or, in the case of a rating estimate, the applicable rating estimate for such obligation.

(ii) With respect to a Collateral Obligation that is a Senior Secured Loan or Participation in a Senior Secured Loan, if not determined pursuant to subclause (i) above, if the obligor of such Collateral Obligation has a Corporate Family Rating, then such Corporate Family Rating.

(iii) With respect to a Collateral Obligation other than a Synthetic Security, if not determined pursuant to subclause (i) or (ii) above, if the obligor of such Collateral Obligation has one or more senior unsecured obligations publicly rated by Moody’s, then the Moody’s public rating on any such obligation as selected by the Collateral Manager.

(iv) With respect to a Collateral Obligation other than a Synthetic Security, if not determined pursuant to subclause (i), (ii) or (iii) above, the Moody’s Derived Rating.

(v) With respect to a Synthetic Security, if not determined pursuant to subclause (i) above, as provided by Moody’s.
For purposes of calculating a Moody's Rating, each applicable rating on credit watch by Moody's with positive or negative implication at the time of calculation will be treated as having been upgraded or downgraded by one rating subcategory, as the case may be, except that, with respect to ratings issued for Structured Finance Securities, each such applicable rating will be treated as having been upgraded or downgraded by two rating subcategories.

"Moody's Rating Condition": With respect to any proposed action to be taken under the Indenture or any other document contemplated by the Indenture, a condition that is satisfied when Moody's has confirmed in writing to the Issuer, the Trustee and the Collateral Manager that an immediate withdrawal or reduction with respect to any then-current rating by Moody's of any Class of Co-Issued Notes will not occur as a result of such proposed action.

"Moody's Rating Factor": With respect to any Collateral Obligation, is the number set forth in the table below opposite the rating of such Collateral Obligation, which may be adjusted from time to time by Moody's:

<table>
<thead>
<tr>
<th>Moody's Default Probability Rating</th>
<th>Moody's Rating Factor</th>

Solely for purposes of determining the Maximum Rating Factor Test:

(i) any Collateral Obligation issued or guaranteed as to the payment of principal and interest by the United States of America or any agency or Instrumentality thereof, the obligations of which are expressly backed by the full faith and credit of the United States of America, shall be assigned a Moody's Rating Factor of 1;

(ii) any Collateral Obligation with only a short-term rating of "P-1" by Moody's shall be assigned a Moody's Rating Factor equivalent to that of the senior unsecured rating of the Issuer;

(iii) any Collateral Obligation with only a short-term rating of "P-1" by Moody's of an issuer that does not have a senior unsecured rating shall be assigned a Moody's Rating Factor of 180; and

(iv) If a Collateral Obligation is not rated by Moody's and no other security or obligation of the Issuer is rated by Moody's, and such Collateral Obligation does not have a Moody's Derived Rating, then the Moody's Rating Factor of such Collateral Obligation will be deemed to be such estimate thereof as may be assigned by Moody's upon the request of the Issuer or the Collateral Manager, provided, however, that until such rating estimate is made, the Moody's...
Footnote Exhibits - Page 5168

Rating Factor of such security shall be deemed to be the lower of the Moody's Rating Factor corresponding to such security's rating as determined pursuant to the definition of "Moody's Default Probability Rating" and 10,000.

"Moody's Recovery Rate": With respect to any Collateral Obligation, as of any Measurement Date, the recovery rate specified in Table I below corresponding to such type of Collateral Obligation.

GS MBS-E-001918300
Footnote Exhibits - Page 5170

"Note U.S. Obligor": An issuer or obligor of a Collateral Obligation that is not a Special Purpose Vehicle and (2) that is organized in a sovereign jurisdiction other than the United States of America.

"Note Interest Rate": With respect to the Class B Notes, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes, the annual rate at which interest accrues thereon, as specified in "Summary—The Offering—Securities Issued".

"Note Payment Sequence": The application, in accordance with the Priority of Payments, of Interest Proceeds or Principal Proceeds, as applicable, in the following order: to the payment of principal of the Class A Notes until redeemed or otherwise paid in full, then to the payment of principal of the Class B Notes until redeemed or otherwise paid in full, then to the payment of principal of the Class C Notes until redeemed or otherwise paid in full, and then to the payment of principal of the Class D Notes until redeemed or otherwise paid in full and then to the payment of principal of the Class E Notes until redeemed or otherwise paid in full.

"Offer": (i) With respect to any Collateral Obligation or Eligible Investment, any offer by the issuer of such security or borrower with respect to such debt obligation or by any other Person made to all of the holders of such security or debt obligation to purchase or otherwise acquire such security or debt obligation (other than pursuant to any redemption in accordance with the terms of any related Reference Instrument or for the purpose of registering the security or debt obligation) or to exchange such security or debt obligation for any other security, debt obligation, cash or other property or (ii) with respect to any Collateral Obligation or Eligible Investment that constitutes a bond, any solicitation by the issuer of such security or borrower with respect to such debt obligation or any other Person to amend, modify or waive any provision of such security or debt obligation or any related Reference Obligation.

"Offering": The offering of the Securities on the Closing Date.

"Outstanding": With respect to a Class of Securities or all of the Securities, as of any date of determination, all of such Class of Securities or all of the Securities, theretofore authenticated and delivered under the Indenture, except:

(a) Securities therefore canceled by the Registrar or delivered to the Registrar for cancellation;

(b) Securities or, in each case, portions thereof for whose payment or redemption funds in the necessary amount have been therefore irredeemably deposited with the Trustee or any paying agent in trust for the Holders of such Securities, provided that if such Securities or portions thereof are to be redeemed, notice of such redemption has been duly given pursuant to the Indenture or provision herefore theretofore satisfactory to the Trustee has been made;

(c) Securities in exchange for or in lieu of which other Securities have been authenticated and delivered pursuant to the Indenture, unless proof satisfactory to the Trustee is presented that any such original Securities are held by a holder in due course;

(d) Securities alleged to have been mutilated, destroyed, lost or stolen for which replacement Securities have been issued as provided in the Indenture;

(e) in determining whether the Holders of the requisite Outstanding amount have given any request, demand, authorization, direction, notice, consent or waiver hereunder:

(1) Securities owned by the Issuer or the Co-Issuer shall be disregarded and deemed not to be Outstanding;

(2) (1) with respect to any vote in connection with the removal and replacement of the Collateral Manager, any Securities held by, or with respect to which discretionary voting rights are held by, the Collateral Manager and/or its Affiliates, shall be disregarded and deemed not to be Outstanding, except that, with respect to
subclause (i) above and this subclause (ii), in determining whether the Trustee shall be protected in relying upon any such request, demand, authorization, direction, notice, consent or waiver, only Securities held by a Trust Officer of the Trustee known to be so owned shall be so disregarded and (2) except as otherwise provided in the immediately preceding subclause (i), any Securities held by, or with respect to which discretionary voting rights are held by, the Collateral Manager and/or its Affiliates or their respective employees will have voting rights with respect to all matters as to which the Holders of Securities are entitled to vote;

(f) for the avoidance of doubt, any Securities held by, or with respect to which discretionary voting rights are held by, the Initial Purchaser and/or its Affiliates or its employees will have voting rights with respect to all matters as to which the Holders of Securities are entitled to vote; and

(g) Securities so owned that have been pledged in good faith may be regarded as Outstanding if the pledgee establishes to the satisfaction of the Trustee that the pledgee had the right so to act with respect to such Securities and the pledgee is not the Issuer, the Co-Issuer or any other obligor upon the Securities or any Affiliate of the Issuer, the Co-Issuer or such other obligor;

"Par Value Ratio": With respect to any applicable Class of Secured Notes, the ratio determined as of any Measurement Date (expressed as a percentage), after giving effect to the definition of "Coverage Tests" and "Principal Balance", obtained by dividing:

(a) the sum of (without duplication):

(i) the Aggregate Principal Amount of the Collateral Obligations (other than Defaulted Obligations) minus any Securities Lending Collateral Losses;

(ii) the principal amount of any cash and Eligible Investments together with any uninvested amounts on deposit in the Issuer Accounts (excluding amounts deposited in the Revolving Credit Facility Reserve Account) representing Principal Proceeds or Liquidation Proceeds (in each case excluding Reinvestment Income); and

(iii) the sum of the Principal Balances of all Defaulted Obligations; by

(b) the Aggregate Outstanding Amount of the Secured Notes of such Class and each Class senior to it (excluding the Class B Notes), provided, however, the Class A Notes and the Class B Notes shall constitute one Class of Secured Notes for purposes of the Par Value Ratio determined for the Class A/B Par Value Test plus (i) an amount equal to the Aggregate Underlying Undrawn Amount at such time less the amounts deposited in the Revolving Credit Facility Reserve Account.

"Par Value Tests": The Class A/B Par Value Test, the Class C Par Value Test, the Class D Par Value Test and the Class E Par Value Test.

"Participation": An interest in a loan acquired indirectly by way of participation from a Selling Institution.

"Payment Date": Each Scheduled Payment Date and any Redemption Date.

"Payment Default": Any Event of Default specified in subclauses (a), (b), (c), (g) or (i) of the definition of such term.
"Permitted Offer": An offer (i) pursuant to the terms of which the offeror offers to acquire a debt obligation (including a Collateral Obligation) in exchange for consideration consisting solely of cash in an amount equal to or greater than the full face amount of such debt obligation plus any accrued and unpaid interest and (ii) as to which the Collateral Manager has determined in its judgment that the offeror has sufficient access to financing to consummate the offer.

"Permitted Reinvestment Period": With respect to Principal Proceeds received during a Due Period, the period beginning on the day such Principal Proceeds are received by the Issuer and ending the last day of (i) the Reinvestment Period and (ii) the Investment Due Period.

"Person": An individual, corporation (including a business trust, partnership, limited liability company, joint venture, association, joint stock company, trust (including any beneficiary thereof), bank, unincorporated association or government or any agency or political subdivision thereof or any other entity of a similar nature.

"Plan": An employee benefit plan that is defined in Section 3(3) of ERISA and subject to Title I of ERISA or a plan that is defined in Section 4975(e)(1) of the Code and subject to Section 4975 of the Code.

"Pledged Obligations": On any date of determination, the Collateral Obligations and the Eligible Investments owned by the Issuer that have been granted to the Trustee.

"Principal Allocated Accrued Interest": With respect to any date of determination after the Effective Date, the aggregate cumulative amount of accrued interest receivable in connection with sales of Accrued Interest Collateral Obligations that constitutes Sale Proceeds pursuant to subclauses (b) and (i) of the definition thereof.

"Principal Balance": As of any date of determination, with respect to any Collateral Obligation, Eligible Investment or cash, the outstanding principal amount of such Collateral Obligation, Eligible Investment or cash; provided, however, that:

(i) the Principal Balance of a Synthetic Security (as to which a credit event has not occurred thereunder) shall be the notional amount or the outstanding principal amount, as the case may be, specified in such Synthetic Security and (ii) as to which a credit event has occurred thereunder, for purposes of calculating (A) the Par Value Refinancing, shall be as determined under subclause (ii) below, (B) the Collateral Quality Tests, shall be zero; and (C) the amounts payable to the Trustee and the Collateral Management Fee, shall be the notional amount or the outstanding principal amount specified in such Synthetic Security.

(ii) the Principal Balance of a Collateral Obligation received upon acceptance of an Offer (as described in subclause (i) of the definition thereof) (other than a Permitted Offer) to exchange a Collateral Obligation for such Collateral Obligation shall, until such time as Interest Proceeds or Principal Proceeds, as applicable, are first received when due with respect to such Collateral Obligation, be deemed to be the lesser of (a) a percentage of the outstanding principal amount equal to the Moody's Recovery Rate for such Collateral Obligation and (b) a percentage of the outstanding principal amount equal to the S&P Recovery Rate for such Collateral Obligation (determined with respect to each Class of Secured Notes and the relevant Par Value Ratio for such Class of Secured Notes); it being agreed that, with respect to the Class A/B Par Value Ratio, the S&P Recovery Rate shall be determined by reference to the Class A Notes only, provided that, for the purpose of calculating (1) the Collateral Quality Tests and the Concentration Limitations, the Principal Balance of such Collateral Obligation shall be zero, (2) the amounts payable to the Trustee pursuant to the Indenture, the Principal Balance of such Collateral Obligation shall be the outstanding principal amount thereof and (3) the Collateral Management Fee, the Principal Balance of such Collateral Obligation shall be the outstanding principal amount thereof.

(iii) the Principal Balance of each Defaulted Obligation shall be deemed to be zero; provided that (1) for the purpose of calculating the amounts payable to the Trustee pursuant to the
Incurrence, the Principal Balance of a defaulted Obligation shall be the outstanding principal amount of such Defaulted Obligation. For the purpose of calculating the Collateral Management Fee, the Principal Balance of a Defaulted Obligation shall be the outstanding principal amount of such Defaulted Obligation and (3) for the purpose of calculating the Par Value Ratio (including the calculation of the Class E Par Value Ratio for purposes of determining whether the Reinvestment Test has been satisfied), the Principal Balance of a Defaulted Obligation (A) that has been held by the Issuer for less than three years; or (B) if held by the Issuer for more than three years, such Collateral Obligation does not constitute the Defaulted Obligations in excess of 2.0% of the Aggregate Principal Amount of the Collateral Portfolio) shall be the product of (i) the least of the Moody's Recovery Rate, the S&P Recovery Rate (determined with respect to each Class of Secured Notes and the relevant Par Value Ratio for such Class of Secured Notes); (ii) being agreed to, with respect to the Class A/B Par Value Ratio, the S&P Recovery Rate shall be determined by reference to the Class A Notes only and the Market Value (expressed as a percentage) for such Defaulted Obligation and (iii) the principal amount of such Defaulted Obligation (or, in the case of a Defaulted Obligation that is a Step-Up Coupon Security during a period for which no interest is payable or a Zero-Coupon Security, the accreted value thereof at the time of default) or (B) that has been held by the Issuer for three years or more and that constitutes the Defaulted Obligations in excess of 2.0% of the Aggregate Principal Amount of the Collateral Portfolio, shall be deemed to have a Principal Balance of Item:

(a) the Principal Balance of each Equity Security and a non-Conduit Equity Security shall be deemed to be zero;

(b) the Principal Balance of any Conduit Security which, by its terms, does not at any time, pay interest thereon or any Step-Up Coupon Security during a period for which no interest is payable shall be deemed to be the accreted value of such Par Value Obligation as at the date of determination and any Deferrable Interest Obligation which, by its terms, does not at any time or from time to time pay interest thereon, shall be deemed to include capitalized interest;

(c) the Principal Balance of any Collateral Obligations and any Eligible Investment in which the Trustee does not have a first priority perfected security interest shall be deemed to be zero (other than Collateral Obligations to a Securities Lending Counterparty for so long as an event of default, as such term is defined under the related Securities Lending Agreement, shall not have occurred and be continuing under the related Securities Lending Agreement);

(d) for the purpose of calculating the Collateral Management Fee and the amounts payable to the Trustee pursuant to the Incurrence, the Principal Balance of such Collateral Obligation or Eligible investment shall be the outstanding principal amount thereof;

(e) for the purpose of calculating the Par Value Ratio (including the calculation of the Class E Par Value Ratio for purposes of determining whether the Reinvestment Test has been satisfied), the Principal Balance of any Deferrable Interest Obligation that is in accordance with its terms deferred interest or making payments due thereon "in kind" for (i) with respect to securities with a Moody's Rating of "Ba1" or lower, the lesser of 6 months or one payment period and (ii) with respect to securities with a Moody's Rating of "Baa3" or higher, the lesser of one year or two consecutive payment periods, shall be the product of (A) the least of the Moody's Recovery Rate, the S&P Recovery Rate (determined with respect to each Class of Secured Notes and the relevant Par Value Ratio for such Class of Secured Notes); (ii) being agreed to, with respect to the Class A/B Par Value Ratio, the S&P Recovery Rate shall be determined by reference to the Class A Notes only and the Market Value (expressed as a percentage) for such Deferrable Interest Obligation and (B) the principal amount of such Deferrable Interest Obligation;

(f) the Principal Balance of any Revolving Credit Facility or Delayed Funding Term Loan shall be the sum of the funded portion of such Revolving Credit Facility or Delayed Funding Term Loan.
Footnote Exhibits - Page 5174

Loan and the undrawn portion of such Revolving Credit Facility or Delayed Funding Term Loan;

(b) subject to subclause (a) below, the Principal Balance of a Current Pay Obligation for purposes of calculating the Par Value Ratios (including the calculation of the Class E Par Value Ratio for purposes of determining whether the Reinvestment Test has been satisfied) shall be (i) if the Market Value of such Current Pay Obligation is 85% or more of its Aggregate Principal Amount and such Collateral Obligation is rated Ca, the outstanding principal amount thereof, (ii) if the Market Value of such Current Pay Obligation is less than 85% of its Aggregate Principal Amount and such Collateral Obligation is rated Ca or any rating lower, the outstanding principal amount thereof and (iii) if the Market Value of such Current Pay Obligation is less than 85% of its Aggregate Principal Amount and such Collateral Obligation is rated Ca or any rating lower, the outstanding principal amount thereof.

(c) subject to subclause (b) below, the Principal Balance of a Ca/Ca Collateral Obligation for purposes of calculating the Par Value Ratios (including the calculation of the Class E Par Value Ratio for purposes of determining whether the Reinvestment Test has been satisfied) shall be determined as follows: if on any date (without duplication) the Aggregate Principal Amount of all Ca/Ca Collateral Obligations exceeds 7.5% of the Aggregate Principal Amount (as calculated without taking into consideration this subclause (c)) of the Collateral Portfolio, the Principal Balance of each Ca/Ca Collateral Obligation (or portion of a Ca/Ca Collateral Obligation) in excess of 7.5% of the Aggregate Principal Amount (as calculated without taking into consideration this subclause (c)) of the Collateral Portfolio will be included in the calculation of compliance with the Par Value Tests at each Collateral Obligation’s Market Value. In determining whether for purposes of determining the Ca/Ca Collateral Obligations (or portion of a Ca/Ca Collateral Obligation) comprising the excess of 7.5% of the Aggregate Principal Amount (as calculated without taking into consideration this subclause (c)) of the Collateral Portfolio, the Ca/Ca Collateral Obligations (or portion of a Ca/Ca Collateral Obligation) that have the lowest Market Value shall be deemed to comprise such excess.

(d) subject to subclause (b) below, the Principal Balance of a Ca/Ca Collateral Obligation for purposes of calculating the Par Value Ratios (including the calculation of the Class E Par Value Ratio for purposes of determining whether the Reinvestment Test has been satisfied) shall be the lesser of its Market Value and 92% of its outstanding principal amount.

(e) for purposes of calculating the Par Value Ratios (including the calculation of the Class E Par Value Ratio for purposes of determining whether the Reinvestment Test has been satisfied), the Principal Balance of a Collateral Obligation that has the characteristics of a Current Pay Obligation, a Ca/Ca Collateral Obligation (without giving effect to the proviso in the definition thereof and/or a Discount Collateral Obligation shall be the lesser value of the values that corresponds to the relevant type of Collateral Obligations (as determined by subclause (b), (d) and/or (e)) above);

(f) for purposes of calculating each of the Par Value Ratios (including the calculation of the Class E Par Value Ratio for purposes of determining whether the Reinvestment Test has been satisfied but not including calculating the Minimum Par Value Ratio), the Principal Balance of the portion of principal due on a Collateral Obligation after the Stated Maturity shall be (a) with respect to any such portion of principal due in one year or less following the Stated Maturity, (1) if such Collateral Obligation is a loan, 60% of the amount of such principal due in one year or less following the Stated Maturity and (2) if such Collateral Obligation is a bond, 75% of the amount of such principal due in one year or less following the Stated Maturity, or (b) with respect to any such portion of principal due after one year following the Stated Maturity, the amount of such portion of principal multiplied by the lower of its Moody’s Recovery Rate and its S&P Recovery Rate (determined with respect to each
Class of Secured Notes and the relevant Par Value Ratio for such Class of Secured Notes; it
being agreed that, with respect to the Class A/B Par Value Ratio, the S&P Recovery Rate
shall be determined by reference to the Class A Notes only);

(xv) for the avoidance of doubt, the Principal Balance of a DIP Loan will be the outstanding
principal amount thereof; and

(xvi) for the avoidance of doubt, the Principal Balance of any Substitute Deliverable Obligation will
be deemed to be zero.

"Principal Payments": With respect to any Payment Date, an amount equal to the sum of any
payments of principal (including optional or mandatory redemptions or prepayments) received on the
Pledged Obligations during the related Due Period, including payments of principal received in respect of
exchange offers and tender offers and recoveries on Defaulted Obligations up to the outstanding principal
amount thereof (including, without limitation, any payments received by the Issuer upon the occurrence of a
"credit event" under a Synthetic Security up to the Principal Balance of such Synthetic Security), but not
including Sale Proceeds received during the Reinvestment Period.

"Principal Proceeds": With respect to any Payment Date and the Stated Maturity, without
duplication:

(i) all Principal Payments, including Unscheduled Principal Payments, received during the
related Due Period on the Pledged Obligations;

(ii) any amounts, distributions or proceeds (including resulting from any sale) received on any
Defaulted Obligations (other than proceeds that constitute Interest Proceeds under
subclause (vi) of the definition thereof) during the related Due Period if the outstanding
principal amount thereof then due and payable has not been received by the Issuer after
giving effect to the receipt of such amounts, distributions or proceeds, as the case may be;

(iii) all premiums (including prepayment premiums) received during the related Due Period on
the Collateral Obligations;

(iv) (A) any amounts constituting unused proceeds remaining in the Principal Collection Account
and the Subordinated Securities Principal Collection Account from the Offering (1) at the end
of the Reinvestment Period or (2) on any Determination Date on which any of the Par Value
Tests are not satisfied or on any Determination Date on or after the Second Determination
Date on which any of the Interest Coverage Tests are not satisfied, other than Reinvestment
income (which shall be treated as Interest Proceeds), (B) all amounts transferred to the
Principal Collection Account from the Expense Reserve Account during the related Due
Period and (C) any Principal Proceeds and unused proceeds designated for application as
Principal Proceeds as set forth in "Security for the Secured Notes—Principal Collection
Account";

(v) Sale Proceeds received during the related Due Period (excluding any Sale Proceeds
received in connection with an optional redemption of the Securities);

(vi) (A) any net termination payments paid to the Issuer under any Hedge Agreement during
the related Due Period (excluding any amounts received in connection with an optional
redemption of the Securities);

(B) any upfront payment made by a Hedge Counterparty during the related Due Period
that is not a replacement Hedge Counterparty if so designated by the Collateral
Manager; and

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001018396
Footnote Exhibits - Page 5176

(C) any upfront payment made by a replacement Hedge Counterparty during the related
Due Period in excess of any hedge termination payment required to be paid by the
Issuer to the replaced Hedge Counterparty;

(vi) proceeds received from any additional issuance of Securities if treated as Principal Proceeds
in accordance with the Treatment of Additional Issuances of Securities;

(vii) Revolving Credit Facility Net-Basis received during the related Due Period;

(vii) any amounts transferred from the Synthetic Security Collateral Account that are deposited in
the Principal Collection Account during the related Due Period;

(viii) any up-front payments received in connection with the purchase of a Synthetic Security;

(ix) any amounts transferred to the Principal Collection Account from the Revolving Credit
Facility Reserve Account; and

(x) all other payments received during the related Due Period on the Collateral not included in
Interest Proceeds;

provided that any of the amounts referred to in subclauses (i) through (x) above shall be excluded from
Principal Proceeds to the extent such amounts were previously reinvested in Collateral Obligations or are
designated by the Collateral Manager as retained for investment or funding in accordance with the
Reinvestment Criteria and certain other restrictions set forth in the Indenture; provided, however, that with
respect to the final Payment Date, "Principal Proceeds" shall include any amounts referred to in subclauses
(i) through (x) above that are received from the sale of Collateral Obligations on or prior to the day
immediately preceding the final Payment Date.

For the avoidance of doubt, if the Issuer receives any payment from a Securities Lending
Counterparty that relates to a Collateral Obligation that has been loaned to such Securities Lending
Counterparty pursuant to a related Securities Lending Agreement, the portion of such payment that would
have constituted Principal Proceeds had such payment been paid from the Issuer of such leased Collateral
Obligation to the Issuer shall constitute Principal Proceeds, and prior to an event of default, as such term is
defined under the related Securities Lending Agreement, any other payment received by the Issuer under the
related Securities Lending Collateral shall not constitute Principal Proceeds and such amounts shall be
deposited in the Securities Lending Account.

"Proceeds": (i) Any property (including but not limited to cash and securities) received as a
Distribution on the Collateral or any portion thereof; (ii) any property (including but not limited to cash and
securities) received in connection with the sale, liquidation, exchange or other disposition of the Collateral or
any portion thereof, including any amounts resulting from the sale or disposition of any security pledged as
collateral pursuant to a Securities Lending Agreement and (iii) all proceeds (as such term is defined in the
UCC) of the Collateral or any portion thereof.

"Proposed Portfolio": The Collateral Portfolio resulting from the sale, maturity or other disposition
of a Collateral Obligation or a proposed reinvestment of Principal Proceeds or Interest Proceeds, as the case
may be, in a Substitute Collateral Obligation, as the case may be.

"Purchase Agreement": The purchase agreement, dated as of December 8, 2005, among the
Issuer, the Co-Issuer and Goldman, Sachs & Co., as the Initial Purchaser.

"Qualified Institutional Buyer": A qualified institutional buyer as defined in Rule 144A.

"Qualified Purchaser": Any Person that, at the time of its acquisition, purported acquisition or
proposed acquisition of the Securities, is a qualified purchaser for purposes of Section 3(c)(7) of the
Investment Company Act.

QS MBS-E-001918397
Footnote Exhibits - Page 5177

"Rating Agencies": Moody's and S&P (each, a "Rating Agency") or, with respect to Collateral Obligations generally, if at any time Moody's or S&P ceases to provide rating services generally, any other nationally recognized investment rating agency selected by the Issuer and reasonably satisfactory to a Majority of the Controlling Class. In the event that at any time the Rating Agencies do not include Moody's or S&P, references to rating categories of Moody's or S&P in the Indenture shall be deemed instead to be references to the equivalent categories of such other rating agency as of the most recent date on which such other rating agency and Moody's or S&P published ratings for the type of security in respect of which such alternative rating agency is used; provided that, with respect to S&P, the ratings of such other rating agency may not be used for notching purposes without S&P's written approval. References to Rating Agencies with respect to a Class of Secured Notes shall apply only to Rating Agencies that assigned a rating (public or confidential) to such Class of Secured Notes on the Closing Date.

"Redemption Date": Any date specified for a redemption of Securities pursuant to the Indenture or if such date is not a Business Day, the next following Business Day.

"Reference Instrument": The indenture, credit agreement or other agreement pursuant to which a Collateral Obligation has been issued or created and each other agreement that governs the terms of or secures the obligations represented by such Collateral Obligation or of which the holders of such Collateral Obligation are the beneficiaries.

"Reference Obligation": An obligation upon which a Synthetic Security is based; provided that such debt security or other obligation:

(i) is not itself a Synthetic Security or a Structured Finance Security;

(ii) satisfies (and, if owned by the issuer, would satisfy) the definition of "Collateral Obligation" except for subclauses (b)(4), (d), (f), (h), (i), (k) and (n) of the definition of "Collateral Obligation"; and

(iii) is not an Equity Security.

"Reference Obligor": An obligor on (i) a Reference Obligation (if a Reference Obligation is specified) or (ii) a reference entity (if no Reference Obligation is specified).

"Registrar": The register maintained by the Trustee or any Registrar with respect to the Securities under the Indenture.

"Registered": A debt obligation that is issued after July 18, 1984 and that is in registered form within the meaning of Section 410(c)(2)(B) of the Code and the Treasury regulations promulgated thereunder, provided that an interest in a grantor trust will be considered to be Registered if such interest is in registered form and each of the obligations or securities held by such trust was issued after July 18, 1984.

"Registrar": The agent appointed by the Issuer under the Indenture to act as registrar for the purpose of registering and recording in the Register the Securities and transfers of such Securities.

"Regulation D" or "Reg D": Regulation D under the Securities Act.

"Regulation S": Regulation S under the Securities Act.

"Regulation S Global Class E Notes": One or more permanent global notes for the Class E Notes in fully registered form without interest coupons sold in reliance on exemption from registration under Regulation S with the applicable legends set forth in the exhibit to the Indenture added to the form of such Class E Notes.

"Regulation S Global Secured Notes": One or more permanent global notes for the Class S Notes, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes in fully registered form without interest coupons sold in reliance on exemption from registration under
Footnote Exhibits - Page 5178

Regulation S with the applicable legends set forth in the exhibit to the Indenture added to the form of such Secured Notes.

"Regulation S Global Securities": Collectively, the Regulation S Global Secured Notes and the Regulation S Global Subordinated Securities.

"Regulation S Global Subordinated Securities": One or more permanent global securities for the Subordinated Securities in fully registered form without interest coupons sold in reliance on exemption from registration under Regulation S.

"Regulation U": Regulation U issued by the Board of Governors of the Federal Reserve System.

"Reinvestment Income": Any interest or other earnings on unused proceeds deposited in the Principal Collection Account or the Subordinated Securities Principal Collection Account, as the case may be.

"Reinvestment Test": A test satisfied as of any Measurement Date during the Reinvestment Period if the Class E Par Value Ratio is equal to or greater than the applicable amount set forth under "Summary—The Offering—Coverage Tests and the Reinvestment Test". The Reinvestment Test is calculated using the same methodology as the Class E Par Value Test.

"Repository": The internet-based password protected electronic repository of transaction documents relating to privately offered and sold collateralized debt obligation securities located at "www.cdslibrary.com" operated by The Bond Market Association and Index or any other CDO modeling service selected by the Collateral Manager (provided that the delivery requirements of any such other CDO modelling service selected by the Collateral Manager shall be reasonably acceptable to the Trustee and Collateral Administrator).

"Required Hedge Counterparty Rating": Except to the extent otherwise approved by the Rating Agencies, with respect to a counterparty or entity guaranteeing the obligations of such counterparty, (a) either (i) if such counterparty or entity has only a long-term rating by Moody's, a long-term senior unsecured debt rating, financial program rating, derivatives counterparty rating, counterparty risk rating or similar rating (as the case may be, the "long-term rating") of at least "Aa3" by Moody's and if stated "Aa3" by Moody's or (ii) if such counterparty or entity has a long-term rating and a short-term rating by Moody's, a long-term rating of at least "A1" by Moody's and a short-term rating of "P-1" by Moody's and, in each case, such rating is not on negative credit watch by Moody's and (b) (i) a short-term rating of at least "A-1" by S&P or (ii) if such counterparty or entity does not have a short-term rating by S&P, a long-term rating of at least "A+" by S&P.

"Revolving Credit Facility": A debt instrument that provides the borrower with a line of credit against which one or more borrowings may be made to the stated principal amount of such facility and which provide that such borrowed amount may be repaid and reborrowed from time to time; provided that such debt instrument shall only be considered a Revolving Credit Facility for so long as any future funding obligations remain in effect and only with respect to any portion which constitutes a future funding obligation.

"Revolving Credit Facility Net-Back": An amount representing a purchase price adjustment received by the Issuer in connection with the acquisition of a Revolving Credit Facility.

"Revolving Credit Facility Reserve Account": The trust account or accounts so designated and established pursuant to the Indenture.

"Rule 144A": Rule 144A under the Securities Act.

"Rule 144A Global Class E Notes": One or more permanent global notes for the Class E Notes in fully registered form without interest coupons sold in reliance on exemption from registration under Rule 144A with the applicable legends set forth in the exhibit to the Indenture added to the form of such Class E Notes.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918309
Footnote Exhibits - Page 5179

"Rule 144A Global Secured Notes": One or more permanent global notes for the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Rule 144A Global Class E Notes in fully registered form without interest coupons paid in reliance on exemption from registration under Rule 144A with the applicable legends set forth in the exhibit to the Indenture added to the form of such Secured Notes.

"S&P": Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc. or any successor to the ratings business thereof.

"S&P CDO Evaluator": A dynamic, analytical computer program developed by S&P to determine the credit risk of a portfolio of Collateral Obligations, which will be provided to the Collateral Manager and the Issuer after the Effective Date, and which may be modified by S&P from time to time.

"S&P CDO Evaluator Tool": A test satisfied, as of any Measurement Date after the Reinvestment Period, after giving effect to any purchase or sale (or both, if applicable) of a Collateral Obligation, as the case may be, of each of the Class S Scenario Default Rate, the Class A Scenario Default Rate, the Class B Scenario Default Rate, the Class C Scenario Default Rate, the Class D Scenario Default Rate and the Class E Scenario Default Rate is maintained or improved.

"S&P CDO Monitor": A dynamic, analytical computer program developed by S&P to determine the credit risk of a portfolio of Collateral Obligations and which may be modified by S&P from time to time which is used to determine the credit risk of a portfolio of underlying instruments, and which will be provided to the Collateral Manager, the Trustee and the Issuer (together with all assumptions and instructions necessary for running such program) after the Effective Date.

"S&P Priority Category": The meaning ascribed to such term in the table that is included under clause (b) in the definition of "S&P Weighted Average Recovery Rate".

"S&P Rating": With respect to a Collateral Obligation, the rating determined as follows (for the Issuer or the obligation, as applicable):

(i) if there is an Issuer credit rating by S&P of the Issuer of such Collateral Obligation, or the guarantor who unconditionally and irrevocably guarantees such Collateral Obligation, then the S&P Rating of such Issuer, or the guarantor, shall be such rating (regardless of whether there is a published rating by S&P on the Collateral Obligation of such Issuer held by the Issuer);

(ii) if there is not an Issuer credit rating by S&P but there is a rating by S&P on a senior unsecured obligation of the Issuer, then the S&P Rating of such Collateral Obligation shall be such rating;

(iii) if such Collateral Obligation is a senior secured or senior unsecured obligation of the Issuer:

(a) if there is not an Issuer credit rating or a rating on a senior secured obligation of the Issuer by S&P, but there is a rating by S&P on a senior secured obligation of the Issuer, then the S&P Rating of such Collateral Obligation shall be one subcategory below such rating; and

(b) if there is not an Issuer credit rating or a rating on a senior unsecured or senior secured obligation of the Issuer by S&P, but there is a rating by S&P on a subordinated obligation of the Issuer, then the S&P Rating of such Collateral Obligation shall be one subcategory above such rating if such rating is higher than "BB+" and will be two subcategories above such rating if such rating is "BB+_" or lower;

GS MBS-E-001918400
with respect to any Collateral Obligation that is a Synthetic Security, the S&P Rating of such Synthetic Security shall be determined in accordance with the table set forth in "Security for the Secured Notes—Certain Matters Relating to Synthetic Securities".

(1) with respect to a DIP Loan that has an S&P issue rating, the S&P Rating of such DIP Loan will be the S&P issue rating. (2) with respect to a DIP Loan that has no S&P issue rating, (a) if S&P has provided an estimated rating with respect to such DIP Loan, the S&P rating of such DIP Loan will be the estimated rating of such DIP Loan as provided by S&P; (b) if the Issuer or the Collateral Manager on behalf of the Issuer has applied to S&P for a rating estimate, pending receipt from S&P of such estimate, such DIP Loan shall have an S&P Rating of "B" if the Collateral Manager believes that such estimate will be at least "B" and if the Aggregate Principal Amount of Collateral Obligations that have an S&P Rating by reason of this subsection (vi)(2)(a), together with the Aggregate Principal Amount of Collateral Obligations that have an S&P Rating by reason of the first proviso to subsection (v)(3)(b) below, does not exceed 15% of the Aggregate Principal Amount of all Collateral Obligations; provided, however, that, if the rating estimate subsequently provided by S&P for any such DIP Loan is below "B", then the Collateral Manager shall no longer have the ability to assign ratings to any DIP Loans pursuant to this subsection (vi)(2)(a); and (b) in all other cases, such DIP Loan shall have an S&P Rating of "CCC".

(1) with respect to a Current Pay Obligation that has an S&P issue rating, the S&P Rating of such Current Pay Obligation will be such S&P issue rating and (2) with respect to a Current Pay Obligation that is rated "A" or "BB" or has no S&P issue rating, the S&P Rating of such Current Pay Obligation will be the greater of (a) "CCC" or (b) the subcategory below the S&P Rating of any related DIP Loan.

(a) if S&P has assigned a rating to such Collateral Obligation either publicly or privately (in the case of a private rating, with the appropriate consents for the use of such private rating), the S&P Rating shall be the rating assigned thereto by S&P.

(b) if such Collateral Obligation is not rated by S&P but the Issuer or the Collateral Manager on behalf of the Issuer has requested that S&P assign a rating to such Collateral Obligation, the S&P Rating shall be the rating so assigned by S&P; provided that pending receipt from S&P of such rating, if such Collateral Obligation is not eligible for nothing in accordance with a certain schedule ("Schedule H") to the Indenture, such Collateral Obligation shall have an S&P Rating of "CCC"; otherwise such S&P Rating shall be the rating assigned according to another schedule ("Schedule G") to the Indenture until such time as S&P shall have assigned a rating thereto; or

(c) if any Collateral Obligation is a Collateral Obligation that has not been assigned a rating by S&P and is not a Collateral Obligation listed in Schedule H to the Indenture, as identified by the Collateral Manager, the S&P Rating of such Collateral Obligation shall be determined in accordance with Schedule G to the Indenture; provided that if any Collateral Obligation shall, at the time of its purchase by the Issuer, be listed for a positive upgrade or downgrade on either Moody's or Fitch then current credit rating watch list, then the S&P Rating of such Collateral Obligation shall be one subcategory above or below, respectively, the rating then assigned to such item in accordance with Schedule G to the Indenture; provided, further, that the aggregate Principal Balance of the Collateral Obligation that may be given a rating based on this subparagraph (c) may not exceed 10% of the Aggregate Principal Amount of Collateral Obligations.

Footnote Exhibits - Page 5181

(vii) If such Collateral Obligation is a Finance Lease that is cancelable or does not have a "call or highwater" provision, then the S&P Rating of such Finance Lease shall be (1) with respect to a Finance Lease that has an S&P facility rating, such S&P facility rating and (2) with respect to a Finance Lease that has no S&P facility rating, the estimated rating of such Finance Lease as provided by S&P;

(b) if subclauses (i) through (vii) above do not apply, then the S&P Rating for such Collateral Obligation may be determined using any one of the methods below:

(a) If an obligation of the Issuer has a published rating from Moody's, then the S&P Rating will be determined in accordance with the methodologies for establishing the Moody's Rating, except that the S&P Rating of such obligation shall be (1) one subcategory below the S&P equivalent of the Moody's Rating if such security has a Moody's Rating of "Ba1" or higher or (2) two subcategories below the S&P equivalent of the Moody's Rating if such security has a Moody's Rating of "Ba2" or lower, provided that no more than 15% of the Collateral Obligations, by Aggregate Principal Amount, may be given an S&P Rating based on a rating given by Moody's as provided in this subclause (b);

(b) If no security or obligation of the Issuer or obligor is rated by S&P or Moody's, then the Issuer or the Collateral Manager on behalf of the Issuer may apply to S&P for a rating estimate, which shall be its S&P Rating; provided, that pending receipt from S&P of such estimate, such Collateral Obligation shall have an S&P Rating of "CCC" if the Collateral Manager believes that such estimate will be at least "B" and if no more than 12% of the Collateral Obligations, by Aggregate Principal Amount, have such S&P Rating by reason of this proviso or subclause (v)(2)(b) above, provided, further, that the Trustee, the Issuer and the Collateral Manager will not disclose any such estimated rating received from S&P; or

(c) if a security or obligation is not otherwise rated by S&P or Moody's and the Issuer or the Collateral Manager on behalf of the Issuer elects not to apply to S&P for a rating estimate, which would otherwise be its S&P Rating, such security or obligation shall have an S&P Rating of "CCC".

(a) notwithstanding the foregoing, so long as any of the Secured Notes remain Outstanding and are rated by S&P, prior to or immediately following the acquisition of any Collateral Obligation not publicly rated by S&P and on or prior to each one-year anniversary of the acquisition of any such Collateral Obligation, the Issuer shall submit to S&P a request to perform a credit estimate on such Collateral Obligation, together with all information reasonably required by S&P to perform such estimate.

Notwithstanding anything to the contrary in any of the foregoing:

(1) if such Collateral Obligation is (d) on S&P's then current watchlist for upgrade, it shall be treated as upgraded by one rating subcategory or (b) on watchlist for downgrade, it shall be treated as downgraded by one rating subcategory unless S&P has notified the Collateral Manager that such downgrade treatment is no longer required;

(2) if the obligor (or guarantor, as applicable) of a Collateral Obligation is not organized in the United States or its territories, then any reference to the S&P issuer credit rating in this definition shall mean the S&P foreign currency issuer credit rating of such obligor (or guarantor, as applicable);

(3) any reference in this definition to an S&P credit rating shall mean the public S&P credit rating unless (i) the obligor of a Collateral Obligation and any relevant parties have provided written authorization to S&P (which form of authorization shall be Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001018402
Footnote Exhibits - Page 5182

satisfactory to S&P for the use of such private or confidential credit rating in this transaction and (f) such private or confidential credit rating is continuously monitored by S&P.

(4) any S&P credit rating that contains a qualifier, including "p", "sp", "t", "r" or "q", shall not be a valid credit rating for use in this definition unless such use by the issuer or the Collateral Manager satisfies the S&P Rating Condition; and

(5) any reference in this definition to an S&P rating estimate or estimated rating must be such rating provided by S&P in writing and any such rating shall expire after one year of its provision by S&P.

"S&P Rating Condition": With respect to any proposed action to be taken under the Indenture or any other document contemplated by the Indenture, a condition that is satisfied when S&P has confirmed in writing to the Issuer, the Trustee and the Collateral Manager that an immediate withdrawal or reduction with respect to any then-current rating by S&P of any Class of Secured Notes will not occur as a result of such proposed action.

"S&P Recovery Rate": The meaning ascribed to such term in the table that is included in the definition of "S&P Weighted Average Recovery Rate".

"S&P Recovery Rating": The S&P recovery rating assigned to a Collateral Obligation and used in the tables included under clause (a) in the definition of "S&P Weighted Average Recovery Rate".

"S&P Weighted Average Recovery Rate": As of any Measurement Date, the number (expressed as a percentage) obtained by multiplying the products obtained by multiplying the Principal Balance of each Collateral Obligation by its S&P Recovery Rate (as set forth below in clause (a) or, if clause (a) is not applicable, then clause (b) or (c), as applicable), dividing such sum by the Aggregate Principal Amount of all such Collateral Obligations.

(a) If a Collateral Obligation has an S&P Recovery Rating, the S&P Recovery Rate for such Collateral Obligation shall be determined as follows:

#### Footnotes:

(b) If the rating of any Class of Secured Notes by S&P is below "CCC," or has been withdrawn by S&P, the S&P Recovery Rate relating to such Class of Secured Notes with respect to any Collateral Obligations shall be as assigned by S&P on a case-by-case basis.

"S&P Weighted Average Structured Finance Metric": The following information has been provided to the Issuer by S&P and the asset classes and related capitalized terms, to the extent not defined in the Indenture, have the meanings ascribed thereto by S&P.

(c) Subject to subclause (d) through (f) below, if a Structured Finance Security is the senior-most tranche of securities issued by the relevant obligor, the S&P Recovery Rate shall be as set forth below:

<table>
<thead>
<tr>
<th>S&amp;P Rating at the time of determination</th>

"Sale Proceeds": All amounts representing:

(i) proceeds from the sale or other disposition of any Collateral Obligation (other than Defaulted Obligations) or an Equity Security (including any accrued interest thereon, as provided for in subclauses (ii) and (iii) below);

(ii) to the extent that the sale of the Accrued Interest Collateral Obligation occurs on any date on which the Minimum Par Value Ratio is not satisfied, accrued interest received in connection with the sale of such Accrued Interest Collateral Obligation up to an amount equal to the greater of the amount of Unpledged Principal Proceeds as of such date and zero;

(iii) at the Collateral Manager's sole discretion, any accrued interest received in connection with the sale of any Collateral Obligation not included in subclause (i) above or any Eligible Investment purchased with any proceeds described in subclause (i);
(v) any proceeds from liquidating Securities Lending Collateral after an event of default, as such term is defined under the related Securities Lending Agreement, has occurred and is continuing under a Securities Lending Agreement (but not to exceed the amount of the Securities Lending Counterparty’s obligations owed to the Issuer); and

(vi) any proceeds of the foregoing, including from the sale of Eligible Investments purchased with any proceeds described in subclause (v) above (including any accrued interest thereon, but only to the extent so provided in subclause (iii) above).

In the case of each of subclauses (v) through (vi), Sales Proceeds (a) shall only include proceeds received on or prior to the last day of the relevant Due Period (or with respect to the final Payment Date, the day immediately preceding the final Payment Date) and (b) shall be net of any reasonable amounts incurred by the Collateral Manager or the Trustee in connection with such sale or other disposition.

"Scheduled Payment Date": Each February 18, May 19, August 19, and November 18 each year (or, if such day is not a Business Day, then the next succeeding Business Day), commencing August 18, 2007 and ending on the Stated Maturity.

"Second Determination Date": With respect to the second Scheduled Payment Date to occur after the Closing Date, the last Business Day of the Immediately preceding Due Period.

"Second Lien Loan": A Loan that (i) is not (and by its terms is not permitted to become) subordinate in right of payment to any other debt for borrowed money incurred by the obligor under the Loan, other than a Senior Secured Loan, and (ii) is secured by a valid and perfected security interest or lien on specified collateral securing the obligor’s obligations under such Loan, which security interest or lien is not subordinate to the security interest or lien securing any other debt for borrowed money other than a Senior Secured Loan on such specified collateral; provided, however, that with respect to clauses (i) and (ii) above, such right of payment, security interest or lien may be subordinate to customary permitted liens, such as, but not limited to, tax liens.

"Secured Note Redemption Price": With respect to the Secured Notes, an amount equal to the Aggregate Outstanding Amount thereof on a Redemption Date.

"Secured Notes": Collectively, the Co-Issued Notes and the Class E Notes.

"Secured Parties": (i) The Trustee, (ii) the Holders of the Secured Notes, (iii) the Hedge Counterparties, (iv) the Collateral Manager, (v) any Synthetic Security Counterparty in respect of a Synthetic Security which requires the Issuer to place funds in a Synthetic Security Collateral Account pursuant to the Indenture (but, in the case of subclause (v), only with respect to the applicable Synthetic Security Collateral Account) and (vi) the Collateral Administrator.

"Securities": Collectively, the Class B Notes, the Class A Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Subordinated Securities.

"Securities Account Control Agreement": The agreement dated January 18, 2007, by and among the Issuer, the Trustee and the Bank, as Securities Intermediary.

"Securities Act": The U.S. Securities Act of 1933, as amended.

"Securities Intermediary": The meaning specified in Section 8-102(a)(14) of the UCC.

"Securities Lending Agreement": An agreement pursuant to which, for a term of 60 days or less, the Issuer agrees to loan any Securities Lending Counterparty one or more Collateral Obligations and such Securities Lending Counterparty agrees to post Securities Lending Collateral with the Trustee or a Securities Intermediary to secure its obligation to return to the Issuer the Collateral Obligations.

-174-

Confidential Treatment Requested by Goldman Sachs
Footnote Exhibits - Page 5188

"Securities Lending Collateral Losses": With regard to any collateral posted by a Securities Lending Counterparty to the Issuer to secure the Securities Lending Counterparty's obligations under a Securities Lending Agreement, the positive difference, if any, between the value of the Collateral Obligations held pursuant to the terms of a Securities Lending Agreement and the value of such collateral from the date such collateral was posted until the applicable date of determination, provided, however, that the amount of such difference will not be Securities Lending Collateral Losses unless the Issuer invests such collateral and is obligated, under the applicable Securities Lending Agreement, to return collateral the value of which is equal to the value of the posted collateral as of the date of the posting of such collateral to such Securities Lending Counterparty.

"Securities Lending Counterparty": Any bank, broker-dealer or other financial institution that has a short-term senior unsecured debt rating or a guarantor with a rating of "A-1" from Moody's and not placed on credit watch by Moody's or an "A-1" from S&P and not placed on credit watch by S&P or, if no such short-term ratings are available, a long-term rating of at least "A+" by Moody's and a long-term rating of at least "A+" by S&P. No more than 20% of the Aggregate Principal Amount of the Collateral Portfolio may be loaned pursuant to Securities Lending Agreements regardless of duration.

"Selling Institution": Each institution from which a Participation is acquired. Immediately following the time a Participation is acquired by the Issuer, the percentage of the Aggregate Principal Amount of the Collateral Portfolio that represents Participations entered into by the Issuer with a single Selling Institution (or, if applicable, its guarantor), when combined with the Synthetic Securities entered into by the Issuer with a single Synthetic Securities Counterparty that is also a Selling Institution (or, if applicable, its guarantor) and the Securities Lending Agreements entered into by the Issuer with a single Securities Lending Counterparty that is also a Selling Institution (or, if applicable, its guarantor), will not exceed the individual percentage set forth below for the credit rating of such Selling Institution (or its Affiliates and, if applicable, guarantor) and the percentage of the Aggregate Principal Amount of the Collateral Portfolio that represents Participations entered into by the Issuer with the Selling Institutions (or their Affiliates and, if applicable, guarantor) having the same credit rating will not exceed the aggregate percentage set forth below for each such credit rating:

* Applies only so long as Moody's short-term unsecured debt rating is "A-1".
** Applies only so long as the S&P short-term unsecured debt rating is "A-1".

For purposes of determining compliance with this credit rating requirement, if the Moody's long-term senior unsecured debt rating of a Selling Institution (or, if applicable, its guarantor) is "A" in a Synthetic Security Counterparty has been put on a watch list for possible downgrade, such credit rating shall be one category below the Issuer's current Moody's rating or, if such credit rating has not been put on a watch list for possible upgrade, one category above the Issuer's current Moody's rating, provided that the Issuer may enter into a Participation with a Selling Institution (or, if applicable, its guarantor) having, at such time, a long-term senior unsecured debt rating or below "A+" by Moody's and "A" by S&P if the Moody's Rating Condition and the S&P Rating Condition have been satisfied.

"Senior Secured Floating Rate Notes": Any issuer-determined senior secured note issued pursuant to an indenture by a corporation, partnership or other person that (i) has a stated coupon that bears a floating rate of interest and (ii) is secured by a first priority, perfected security interest or lien on one or more specified collateral securing the issuer's obligations under such note and if the obligation is rated by Moody's, such rating is not lower than the Corporate Family Rating of such issuer.

Confidential Treatment Requested by Goldman Sachs 06 MBS-E-001918409
"Senior Secured Loan": Any Assignment of or Participation in or other interest (including a Synthetic Security) in a loan (i) that is not (and cannot by its terms become) subordinate (except with respect to (1) liquidation preferences with respect to pledged collateral and (2) any super-priority lien imposed by operation of law in right of payment to any obligation of the obligor in any bankruptcy, reorganization, arrangement, insolvency, moratorium or liquidation proceedings, (3) that is secured by the pledge of collateral and (4) unless secured by a first priority security interest in such collateral, (5) with respect to which the Collateral Manager determines in its reasonable business judgment (which shall not be subject to question as a result of subsequent events) that the value of the collateral securing the loan on or about the time of origination equals or exceeds the outstanding principal balance of the loan plus the aggregate outstanding balances of all other loans of equal or higher seniority secured by the same collateral, and (6) the facility rating is not lower than the Corporate Family Rating of such issuer, provided that for purposes of the definition of "BB Rated Recovery Rate," subclause (6) shall not apply.

"Senior Unsecured Loan": Any Assignment of or Participation in or other interest (including a Synthetic Security) in a loan that is not subordinated in right of payment and is not a Senior Secured Loan.

"Share Trustee": The Administrator as the trustee pursuant to the terms of a declaration of trust.

"Special Purpose Vehicle": Any special purpose vehicle organized under the laws of (1) any sovereign jurisdiction that is commonly used as the place of organization for an entity for the purpose of reducing or eliminating tax liabilities for such entity, which shall be limited to: the Cayman Islands, Bermuda, the British Virgin Islands, the Netherlands Antilles, the Netherlands, Luxembourg or the Channel Islands or (2) upon the satisfaction of each of the Moody's Rating Condition and the S&P Rating Condition, any other jurisdiction; provided that, if any of the countries listed in subclause (1) have a foreign currency rating of less than "Aaa" by Moody's or "AA" by S&P at the time of purchase, the Collateral Manager shall notify Moody's or S&P, as applicable, in writing of such fact.

"Stated Maturity": With respect to any security or debt obligation, including a Security, the date specified in such security or debt obligation as the fixed date on which the final payment of principal of such security or debt obligation is due and payable or, if such date is not a Business Day, the next following Business Day. The Stated Maturity with respect to the Securities (other than the Class S Notes) will be February 18, 2021 and, with respect to the Class S Notes, February 18, 2014.

"Step-Up Coupon Security": A security (i) that does not pay interest over a specified period of time ending prior to its maturity, but which does provide for the payment of interest after the expiration of such specified period or (ii) the interest rate of which increases over a specified period of time other than then due to the increase in the index relating to a Floating Rate Collateral Obligation.

"Structured Finance Security": Any obligation secured directly by, referenced to or representing ownership of, a pool consisting primarily of bank loans or similar security or repackaged security, but not including any Synthetic Security.

"Subordinated Loan": Any Assignment of or Participation in or other interest (including a Synthetic Security) in a loan that is subordinated in right of payment.

"Subordinated Securities": The U.S.$40,000,000 Subordinated Securities having the Stated Maturity as set forth under "Summary—The Offering—Securities Issued".

"Subordinated Securities Collateral Obligations": Collateral Obligations that (i) were purchased on or prior to the Closing Date and that were designated by the Collateral Manager in writing delivered to the Trustee as Collateral Obligations the distributions on which, and the proceeds received in respect of which, are to be deposited in the Subordinated Securities Interest Collection Account or the Subordinated Securities Principal Collection Account, as applicable; provided, however, that the amount of the Collateral Obligations (measured by the Issuer's acquisition cost, including any purchased interest) to be designated as Subordinated Securities Collateral Obligations by the Collateral Manager on the Closing Date, plus any amount deposited in the Subordinated Securities Principal Collection Account on the Closing Date, shall not
Footnote Exhibits - Page 5190

1119

exceed $500,000 or (i) are purchased after the Closing Date with funds from the Subordinated Securities Principal Collection Account or the Subordinated Securities Interest Collection Account.

"Substitute Collateral Obligation": A Collateral Obligation that is acquired by the Issuer in accordance with the Reinvestment Criteria in connection with the sale or other disposal of another Collateral Obligation.

"Substitute Deliverable Obligation": The meaning specified in the definition of Deliverable Obligation.

"Synthetic Security": Any derivative financial instrument with respect to a loan or a collateralized loan obligation, whether in the form of a swap transaction, credit-linked note, structured bond investment or otherwise (which derivative financial instrument is not a security backed by more than one credit default swap or more than one reference entity (unless such derivative financial instrument references an index) or a synthetic collateralized debt obligation, which, for the avoidance of doubt, shall, in each case, be treated as a "Structured Finance Security"), purchased, or entered into, by the Issuer with or from a Synthetic Security Counterparty which investment may contain (A) a maturity, interest rate, currency and other non-credit characteristics and recovery rates that may be different from that of the Reference Obligation (or the relevant obligation(s) of the Reference Obligation) to which the credit risk of the Synthetic Security relates or (B) terms that require the Issuer to make payments to a Synthetic Security Counterparty upon the occurrence of a credit event, an event of default or a termination event (such as defined in such Synthetic Security); provided that:

(i) the Issuer shall at no time during any taxable year of the Issuer hold a Synthetic Security which is not either (a) a credit default swap or treated as debt for U.S. federal income tax purposes, or (b) a security (as defined in Section 5(a)(58) of the Investment Company Act) other than any security which represents an interest in an entity treated as a grantor trust or a partnership for U.S. federal income tax purposes, unless, the Issuer has obtained an opinion or advice of tax counsel of nationally recognized standing in the United States experienced in such matters to the effect that the acquisition, disposition or ownership by the Issuer of such Synthetic Security will not cause the Issuer to be treated as engaged in a United States trade or business or subject to United States income tax on a net basis;

(ii) each Synthetic Security shall provide that no Deliverable Obligation may be delivered to the Issuer in settlement of the Synthetic Security if delivery thereof to the Issuer or transfer thereof by the Issuer to a third party would require or cause the Issuer to assume, or to subject the Issuer to, any obligation or liability (other than immaterial, nonpayment obligations);

(iii) each Synthetic Security contains appropriate limited recourse and non-recourse provisions to the extent that the Issuer has contractual payment or other obligations to the Synthetic Security Counterparty (equivalent (mutatis mutandis) to those contained in the indenture);

(iv) each of Moody’s or S&P may revoke its consent to the documentation underlying a Form-Approved Synthetic Security upon 30 days’ prior written notice (which revocation shall only take effect prospectively and not retroactively with respect to any Form-Approved Synthetic Securities then included in the Collateral Portfolio);

(v) unless the Synthetic Security is a Form-Approved Synthetic Security, the S&P Rating Condition shall have been satisfied (and upon the satisfaction of the S&P Rating Condition, S&P shall provide the Issuer with the S&P Rating and the S&P Recovery Rate for such Synthetic Security) and, in the case of a Form-Approved Synthetic Security, the Issuer shall have requested that S&P provide the S&P Recovery Rate for such Synthetic Security; provided that:

(a) Moody’s has been provided with notice of such proposed Synthetic Security and the documents relating to such Synthetic Security;

Confidential Treatment Requested by Goldman Sachs  GS MBS-E-001918411
Footnote Exhibits - Page 5191

(b) Moody's has acknowledged in a written confirmation (such written confirmation to be signed by an authorized officer of Moody's) that the documentation received in connection with such Synthetic Security is adequate for rating purposes (provided that if Moody's fails to provide such acknowledgement within five Business Days, it will be deemed to have provided such acknowledgement);

(c) Moody's has not indicated (orally or in writing) within ten Business Days of such acknowledgment that the inclusion of such proposed Synthetic Security will, at that time, cause it to downgrade, withdraw or qualify any of its then current ratings of any of the Co-Issued Notes; and

(d) Moody's has provided to the Issuer the Moody's Rating Factor and the Moody's Recovery Rate for such Synthetic Security;

(vi) a Synthetic Security shall not be used as a means of making future advances to a Synthetic Security Counterparty;

(vii) for the avoidance of doubt, a Synthetic Security need not specify a Reference Obligation and may specify an index;

(viii) the only "credit events" which a Synthetic Security may include are "failure to pay" and "bankruptcy"; and

(ix) a Synthetic Security whose Reference Obligation is a senior secured obligation shall provide that any Deferable Obligation must be a senior secured obligation and rank pari passu with the Reference Obligation.

"Synthetic Security Collateral": Collateral required to be pledged to a Synthetic Security Counterparty as collateral pursuant to the terms of a Synthetic Security, which collateral shall consist of Eligible Investments.

"Synthetic Security Collateral Account": The trust account or accounts established pursuant to the indenture.

"Synthetic Security Counterparty": An entity required to make payments on a Synthetic Security pursuant to the terms of such Synthetic Security or any guarantee thereof to the extent that a Reference Obligor makes payments on a related Reference Obligation. (A) which counterparty, or the long-term senior unsecured debt of such counterparty (or its secured debt if such counterparty is a trust and its debt is secured by a reference obligation), shall individually and, together with all other Synthetic Security Counterparties, in the aggregate satisfy the required debt ratings set forth in the table below, and (B) with respect to which, the BAP Rating Condition is satisfied. At the time a Synthetic Security is acquired by the Issuer, the percentage of the Aggregate Principal Amount of the Collateral Portfolio that represents Synthetic Securities entered into by the Issuer with a single Synthetic Security Counterparty, when combined with the Participations entered into by the Issuer with such Synthetic Security Counterparty, if such Synthetic Security Counterparty is also a Selling Institution, and the Securities Lending Agreements entered into by the Issuer with a single Securities Lending Counterparty, if such Synthetic Security Counterparty is also a Securities Lending Counterparty, will not exceed the individual percentage set forth below for the credit rating of such Synthetic Security Counterparty and/or Selling Institution (or its Affiliates), and the percentage of the Aggregate Principal Amount of the Collateral Portfolio that represents Synthetic Securities entered into by the Issuer with counterparties having the same credit rating will not exceed the aggregate percentage set forth below for such credit rating:

* Applies only as long as Moody's short-term unsecured debt rating is 'P-1'.
** Applies only as long as the S&P short-term unsecured debt rating is 'A-1'.
*** For purposes of determining compliance with this credit rating requirement, if the Moody's long-term senior unsecured debt rating of a bonding institution (or, if applicable, of a Synthetic Security Counterparty) has been put on a watch list for possible downgrade, such credit rating shall be one category below its then current Moody's rating or, if such credit rating has been put on a watch list for possible upgrade, one category above its then current Moody's rating.

Notwithstanding any provision to the contrary contained herein, if Moody's or S&P notifies the issuer that it ceases a Structured Finance Security to be subject to counterparty risk at the time such Structured Finance Security is purchased by the Issuer, the percentage limitations set forth in the above table of the preceding paragraph shall be applicable to the entity which is required to make payments on such Structured Finance Security pursuant to the terms of such Structured Finance Security (as if such entity were a Synthetic Security Counterparty).

"Tax Haven Collateral Obligation": An obligation, other than a Structured Finance Security, in which the issuer thereof (i) is organized in a Tax Haven Jurisdiction and (ii) is determined by the Collateral Manager in its sole judgment (which judgment shall not be subject to question as a result of subsequent events) to have (or whose relevant obligations are guaranteed by an entity that the Collateral Manager has determined to have) at least 60% (by reference to the latest available consolidated financial statements of (A) its business operations or (B) its assets primarily responsible for generating its revenue located in (1) the United States of America, Canada, Australia, (2) a European I Country or a European II Country (so long as, in such case, at the time of the acquisition by the Issuer, the foreign currency rating of such country is rated at least "AA" by S&P or (3) upon the satisfaction of each of the Moody's Rating Condition and the S&P Rating Condition, any other jurisdiction).

"Tax Haven Jurisdiction": (i) Any sovereign jurisdiction that is commonly used as the place of organization for an entity for the purpose of reducing or eliminating tax liabilities for such entity, which shall be limited to: the Cayman Islands, Bermuda, the British Virgin Islands, the Netherlands Antilles, the Netherlands, Luxembourg or the Channel Islands or (ii), upon the satisfaction of each of the Moody's Rating Condition and the S&P Rating Condition, any other jurisdiction; provided that, if any of the countries listed in (i) shall have a foreign currency rating of less than "AA" by S&P at the time of purchase, the Collateral Manager shall notify S&P in writing of such fact; provided, further, that, none of the countries listed in (i) shall have a foreign currency rating of less than "A2" by Moody's.

"Trading Plan": Any written trading plan delivered to the Trustee (a) pursuant to which the Collateral Manager believes all trades contemplated thereby will be entered into within ten calendar days, (b) specifying certain (i) amounts received or expected to be received as Principal Proceeds in connection with such Trading Plan, (c) Collateral Obligations relating to such Principal Proceeds and (d) Collateral Obligations acquired or intended to be acquired as a result of such Trading Plan, (c) for which the Collateral Manager believes (in its sole judgment) such plan can be executed according to its terms and (d) as to which the Aggregate Principal Amount of the Collateral Obligations expected to be acquired thereunder constitutes

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001916413
Footnote Exhibits - Page 5193

no more than 5% of the Aggregate Principal Amount of the Collateral Portfolio. The time period for such Trading Plan shall be measured from the earliest trade date to the latest trade date of any such amounts.

"Treasury": The U.S. Department of the Treasury.

"Trust Officer": When used with respect to the Trustee, any officer within the Corporate Trust Office (or any successor group of the Trustee) including any director, managing director, vice president, assistant vice president, associate or officer of the Trustee customarily performing functions similar to those performed by the persons who at the time shall be such officers, respectively, having direct responsibility for the administration of the Indenture or to whom any corporate trust matter is referred at the Corporate Trust Office because of his knowledge of and familiarity with the particular subject.

"Trustee": The Bank of New York Trust Company, National Association solely in its capacity as Trustee for the Securityholders, unless a successor Person shall have become the Trustee pursuant to the applicable provisions of the Indenture, and thereafter "Trustee" shall mean such successor Person.

"U.S. Person": The meaning specified under Regulation S.

"U.S. Subordinated Securities": Subordinated Securities in fully registered, certificated form without interest coupons sold to Qualified Institutional Buyers or Accredited investors in reliance on exemption from registration under Rule 144A or another applicable exemption from registration under the Securities Act, respectively, registered in the name of the owner thereof.

"UCGC": The Uniform Commercial Code as in effect in the state of the United States that governs the relevant security interest as amended from time to time.

"Unrealized Principal Proceeds": As of any date of determination after the Effective Date, an amount (which may be negative) equal to (A) the aggregate cumulative amount of accrued interest purchased after the Effective Date that was purchased with Principal Proceeds or Sale Proceeds less (B) the aggregate cumulative amount of Principal Allocated Accrued Interest to such date.

"Unscheduled Principal Payments": All Principal Payments received with respect to a Collateral Obligation as a result of optional redemptions, exchange offers, tender offers or other payments or prepayments made at the option of the issuer thereof.

"Warehouse Accrued Interest": Interest on Collateral Obligations that has accrued on or prior to the Closing Date but paid on or after the Closing Date, which interest shall not at any time be included as Interest Proceeds or part of the Collateral.

"Weighted Average Life": As of any Measurement Date, the number obtained by (i) for each Collateral Obligation (other than Defaulted Obligations), multiplying each scheduled Principal Payment by the number of years (rounded to the nearest whole number) from the Measurement Date until such scheduled Principal Payment is due, (ii) summing all of the products calculated pursuant to subclause (i) and (iii) dividing the sum calculated pursuant to subclause (i) by the sum of all scheduled Principal Payments due on all the Collateral Obligations as of such Measurement Date. For purposes of determining the Weighted Average Life of a Collateral Obligation that matures after the Stated Maturity, such Collateral Obligation shall be deemed to mature at the Stated Maturity of the Securities.

"Weighted Average Spread": As of any Measurement Date, a fraction (expressed as a percentage) obtained by dividing (A) the sum of (i) the Aggregate Funded Spread and (ii) the Aggregate Unfunded Spread by (B) the Aggregate Principal Amount of all of the Collateral Obligations (excluding Defaulted Obligations) held by the Issuer as of such Measurement Date.

"Withholding Tax Event": The adoption of, or a change in, any tax statute (including the Code), treaty, regulation (whether proposed, temporary or final), rule, ruling, practice, procedure or judicial decision or interpretation which results or will result in payments due from the obligor of Collateral Obligations representing in excess of 5% of the Aggregate Principal Amount of Collateral Obligations becoming property

Confidential Treatment Requested by Goldman Sachs
Footnote Exhibits - Page 5194

subject to the imposition of U.S. or other withholding tax as of the next scheduled payment date under such
Collateral Obligations (other than withholding taxes with respect to commitment fees associated with
Collateral Obligations constituting Revolving Credit Facilities or Delayed Funding Term Loans) with respect
to which such obligations are not required to make gross-up payments that cover the full amount of such
withholding taxes on an after-tax basis.

"Withholding Tax Security": A Collateral Obligation if (a) any payments thereon to the issuer are
subject to withholding tax imposed by any jurisdiction (other than U.S. backup withholding tax or other similar
withholding tax and other than withholding tax with respect to commitment fees associated with Collateral
Obligations constituting Revolving Credit Facilities or Delayed Funding Term Loans), and (b) under the
Reference Instrument with respect to such Collateral Obligation, the issuer of or counterparty with respect to
such Collateral Obligation is not required to make "gross-up" payments to the issuer that cover the full
amount of such withholding tax on an after-tax basis.

"Zero-Coupon Security": A security (other than a Step-Up Coupon Security) that, at the time of
determination, does not make periodic payments of interest.

OFFERING CIRCULAR

Goldman, Sachs & Co.
From: Tourn, Fabric
Sent: Monday, March 12, 2007 1:47 PM
To: Eppl, Jonathan; ficm-mdg-m-a-desk
Subject: Re: Abacus ACA

As discussed with Martey, we are taking his feedback into account and once we have gotten more feedback from accounts across the cap structure we will decide what the best course of action is.

Gerste, we need to have a follow up call with Paulson to see how they feel about the strike spreads and upfront fees we mentioned to them. When is this call happening?

Subject: Re: Abacus ACA

I suggest to hold off for the time being. Paulson will likely not agree to this unless we tell them that nobody will buy these bonds if we don't make that change.

PROPOSAL

We are seeking Senior Credit Committee's approval for: (1) ACA Management to act as Portfolio Selection Agent (an upfront role only) to a synthetic CDO backed by approximately 90 Ba2 subprime mortgage reference entities, by which we would receive ongoing asset management fees for identifying (but not managing) the portfolio; and (2) working with Goldman Sachs, the underwriter, to assist in their marketing efforts to sell Aaa/Aaa through A/A rated notes. This transaction was structured as a result of a "buyout pegment" whereby a New York City hedge fund did due diligence on several CDO managers and selected us as the Portfolio Selection Agent for a reverse equity inquiry CDO. The hedge fund is taking the 0.9% tranche. Structured Credit will have the opportunity to look at the super senior tranche as well. This is our first ABS CDO with Goldman Sachs (we are currently in ramp-up with them on a U.S. CLN).

Key Transaction Metrics

<table>
<thead>
<tr>
<th>Transaction Type:</th>
<th>$1 billion to $2 billion static synthetic mezzanine ABS CDO</th>
</tr>
</thead>
<tbody>
<tr>
<td>Liabilities will be modified sequential pay (target notional or basis)</td>
<td></td>
</tr>
<tr>
<td>ACA Management's (ACA) Role:</td>
<td>Portfolio Selection Agent only</td>
</tr>
<tr>
<td>Underwriter:</td>
<td>Goldman Sachs</td>
</tr>
<tr>
<td>ACA Required Investments:</td>
<td>None</td>
</tr>
<tr>
<td>Underlying collateral will be 100% synthetic Ba2 subprime residential mortgage positions.</td>
<td></td>
</tr>
<tr>
<td>Expected WAL of Underlying Assets:</td>
<td>4 years</td>
</tr>
<tr>
<td>Management Fees to ACA per annum:</td>
<td>As per tranche schedule on page 3 below with a minimum annual fee of $1 million</td>
</tr>
<tr>
<td>Warehouse:</td>
<td>ACA is not taking any warehouse risk/return or any ongoing risk (no equity investment).</td>
</tr>
<tr>
<td>Non-Call Period:</td>
<td>3 years</td>
</tr>
</tbody>
</table>

The hedge fund equity investee wanted to invest in the 0.9% tranche of a static mezzanine ABS CDO backed 100% by subprime residential mortgage securities. Over the past 3 weeks we have worked with the investor to construct a portfolio that meets their needs as well as ours. Our requirements for the portfolio were that all of the positions had been reviewed and approved by ACA's ABS credit committee and that all seasoned positions were performing within expectations for the vintage. Since there is no ongoing management function (no ability to definitively sell credit risk securities), we proposed a portfolio that was 100% Ba2 to potentially minimize the downgrade risk versus Ba3 underlying bonds. The risk to ACA in this transaction is one of reputation but even this is limited since we act solely as the portfolio selection advisor and have no ongoing management role (we may need to discuss our ongoing credit opinions on the underlying positions with investors upon request by investors).

What we have done in terms of minimizing our reputation risk is look at stress testing the portfolio to determine what downgrades (and defaults) can be sustained before the issued tranches are downgraded. Attached to the back of this write-up is the analysis provided by Goldman Sachs. We are working with our quant team on verifying this work.
Key Portfolio Metrics

We are seeking approval to build a portfolio of asset backed securities which would have the ratings and sector characteristics as shown below:

<table>
<thead>
<tr>
<th>Number of Reference Obligations:</th>
<th>Approximately 90</th>
</tr>
</thead>
<tbody>
<tr>
<td>Average Size of Each Underlying</td>
<td>1.1%</td>
</tr>
<tr>
<td>Position:</td>
<td></td>
</tr>
<tr>
<td>Moody's WARF:</td>
<td>360 (Bas2)</td>
</tr>
<tr>
<td>Expected WARF:</td>
<td>Approximately 250 bps</td>
</tr>
<tr>
<td>Sector Concentration:</td>
<td>100% Bas2 subprime mortgage positions</td>
</tr>
</tbody>
</table>

Transaction Overview

The following is the expected transaction capitalization structure:

<table>
<thead>
<tr>
<th>Class</th>
<th>Rating</th>
<th>Size</th>
<th>Management Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unfunded senior</td>
<td>Aaa/AAA</td>
<td>31-100%</td>
<td>98</td>
</tr>
<tr>
<td>Class A</td>
<td>Aaa/AAA</td>
<td>2-33%</td>
<td>22 bps</td>
</tr>
<tr>
<td>Class B</td>
<td>Aa2/AA</td>
<td>10-21%</td>
<td>50 bps</td>
</tr>
<tr>
<td>Class C</td>
<td>Aa3/AA-</td>
<td>13-19%</td>
<td>50 bps</td>
</tr>
<tr>
<td>Class D</td>
<td>A2/A</td>
<td>9.5-13%</td>
<td>100 bps</td>
</tr>
<tr>
<td>Equity</td>
<td>Not rated</td>
<td>0-0.5%</td>
<td></td>
</tr>
</tbody>
</table>

The rationale for this ABACUS transaction is our ongoing core, ABS CDO platform and the fact that this is new business with both a significant hedge fund and Goldman Sachs's ABS platform. We anticipate pricing and closing this transaction in March (once our current exclusive on ACA ABS 2007-1 expires).

STRENGTHS AND RISKS/MITIGATING FACTORS

ACA ABACUS 00004172
Redacted By The Permanent Subcommittee on Investigations
We did price $152 million in total of Class A1 and A2 today to settle April 26th. Paulson took down a proportionate amount of equity (0-10% tranche). Goldman does expect to issue more over the next 2 weeks as well.

Laura Schwartz
ACM Capital
(212) 375 2011
Lschwartz@acm.com
From: Tourre, Fabrice

Cc: Ganz, David; Krehm, Gal; fox-mtgcom-desk  
Subject: Transaction Summary

Laura, we wanted to summarize ACA’s proposed role as “Portfolio Selection Agent” for the transaction that would be sponsored by Paulson (the “Transaction Sponsor”). Feel free to let David and I know if you have any questions.

-- CDO Transaction Size: between $1bn and $2bn nominal
-- Reference Portfolio: static, fully identified upfront, and consisting of approx 100 equally-sized mezzanine subprime RMBS names issued between Q4 2005 and today. Starting portfolio would be ideally what the Transaction Sponsor shared, but there is flexibility around the names.
-- Portfolio monitoring required: none
-- Transaction reporting: on a monthly basis, done by trustee (trustee expected to be Lasalle)
-- Portfolio reinvestments required: none
-- Portfolio Selection Agent would be disclosed as having selected the Reference Portfolio
-- Portfolio Selection Agent would not be required to retain any risk in the CDO transaction, although it would have the option to buy CDO notes/unfunded swaps that will be distributed in the market.
-- Portfolio Selection Agent would be asked to facilitate the marketing of the notes (including putting together marketing materials on ACA, discussing with customers on conference calls). No roadshow is expected; no travel is expected.
-- No BWIs required to be run by the Portfolio Selection Agent
-- Timing: the Transaction Sponsor is working under the assumption that Goldman be in the market with this transaction early February

Contemplated Capital Structure -- subject to Reference Portfolio:

- [34]% - [100]%: unfunded supersenior tranche distributed to a supersenior protection writer
- [22]% - [34]%: Aaa/AAA class A tranche distributed broadly on a best efforts’ basis by Goldman
- [15]% - [22]%: Aa2/AA class B tranche distributed broadly on a best efforts’ basis by Goldman
- [9]% - [15]%: A/A class C tranche distributed broadly on a best efforts’ basis by Goldman
- [0]% - [9%]: pre-committed first loss

-- Economics: for transactions like this, where the Portfolio Selection Agent is not required to retain any risk, we have seen fees in the order of 15bps to 20bps paid on the portfolio notional amount (that’s what we have been seeing for most of the Magnetar-sponsored transactions). In the context of this transaction, the portfolio selection fees will be paid in the form of a spread on the outstanding amount of the class A through class C tranches. For example, if you are asking to be paid:

- Class A Portfolio Management Fee: 0.25% p.a. (the tranche is [12]% thick)
- Class B Portfolio Management Fee: 0.50% p.a. (the tranche is [7]% thick)
- Class C Portfolio Management Fee: 1.00% p.a. (the tranche is [6]% thick)
Footnote Exhibits - Page 5223

This would mean that if Goldman is able to distribute 100% of the class A, class B and class C notes, the Portfolio Selection Agent would, on a blended basis, receive 0.125% p.a. on the portfolio national. This compensation structure aligns everyone’s incentives: the Transaction Sponsor, the Portfolio Selection Agent and Goldman.

The Transaction Sponsor is in discussions with a couple of potential CDO managers, and will work with the manager who will provide the most appealing economic proposal and will be able to address all the stated objectives.

We will send you later today a termsheet that outlines the transaction structure. What would be constructive is for you to think about the fees that you would need to get paid to act as Portfolio Advisor, and also a draft portfolio that you would select, based upon the preliminary work you mentioned to us during the call.

Thanks,

Regards,

Fabrice

Subject:    ACA/Paulson post

ACA is going to be ok acting as portfolio selection agent for Paulson, in exchange for a portfolio advisory fee of at least $1mm per year. We will have to distribute supersenior through single-A rated notes off a static portfolio of mezzanine subprime RMBS obligations selected by ACA.

The transaction will not be broadly marketed until February 23 since ACA is already locked with another investment bank until that date. If everyone agrees, the idea is to quietly show this trade to a select number of accounts, and broadly announce the transaction on Feb 23 if it fits with the overall CDO pipeline and if we feel ok with our existing Basel RMBS risk position.

We are trying to get Paulson to give us an order on the following tranches:

- Up to $1.300mm of supersenior @ a strike spread of 340bps. Distribution fee of 0.20% + 1/2 the upside vs. the strike spread
- Up to $240mm of Asa/AAA @ an all-in strike spread (including portfolio advisory fees) of 100bps. Distribution fee of 1.00% + 1/2 the upside vs. the strike spread
- Up to $120mm of Asa/AAA @ an all-in strike spread (including portfolio advisory fees) of 150bps. Distribution fee of 2.00% + 1/2 the upside vs. the strike spread
- Up to $60mm of Asa/AA- @ an all-in strike spread (including portfolio advisory fees) of 175bps. Distribution fee of 2.50% + 1/2 the upside vs. the strike spread
- Up to $100mm of AA @ an all-in strike spread (including portfolio advisory fees) of 425bps. Distribution fee of 3.00% + 1/2 the upside vs. the strike spread

My assumption is that we can execute at the levels below, and PAL in that case would be up to $15mm for this trade ($7.5mm for a $1bn trade):

- supersenior @ 25bps
- Asa/AAA @ L+400bps (+400bps of portfolio advisory fees) = 650bps
- Asa/AA- @ L+650bps (+650bps of portfolio advisory fees) = 1300bps
- Asa/AA- @ L+180bps (+650bps of portfolio advisory fees) = 1430bps
- Asa/AA- @ L+275bps (+100bps of portfolio advisory fees) = 375bps

PAULSON-ABACUS 0250401
Dan,

We have been working with Paulsen (Cassie and Kyle have done a great job at covering the account) over the past few weeks to help them short the MBS market at a macro level through a $1.12bn super senior swap trade referencing a portfolio of 100 equally sized 2006-vintage AAA-rated MBS bonds. The engagement letter attached is a letter according to which Goldman agrees to work an order for Paulsen on this trade, and Goldman gets compensated according to a incentive-based schedule - I will come by on Monday and ask you to sign the letter.

In a nutshell, if we are able to place $1.12bn of super senior risk at a spread inside 30bps running, we get paid 20bps upfront (on the trade notional) plus half the upside vs. the strike spread of 20bps. In other words:

- if we are able to source super senior protection @ 30bps on the $1.12bn size, our PA will be approx $0.6m
- if we are able to source super senior protection @ 20bps on the $1.12bn size, our PA will be approx $1.6m

We have had dialogue with a couple of accounts who are interested in taking the risk at a spread around 20bps, we will post you next week when the trade materializes.

Wall Street & The Financial Crisis
Report Footnote #2549
CREDIT DEFAULT SWAP INSURANCE POLICY

Policy Number: SF0957-15

Effective Date: May 31, 2007

Obligor: ACA Credit Products - ABN AMRO, LLC.

Counterparty: ABN AMRO BANK, N.V.

Agreement: (1) ISDA Master Agreement dated as of May 30, 2007 between Counterparty and Obligor including the Schedule thereto dated as of May 31, 2007 together, the “Master”); (2) the Confirmation entered into hereunder with a trade date of May 31, 2007 (the “Confirmation”); and together with the Master, the “Agreement”)

ACA FINANCIAL GUARANTY CORPORATION ("ACA"), a Maryland stock insurance company, in consideration of the payment of the premium and subject to the terms and conditions contained in this Policy (which includes each Exhibit and endorsement hereto, together with all modifications and additions thereto) agrees to pay to the Counterparty the portion of each Lost Payment which shall exceed the Due Payment but shall be subject to the terms of the Agreement by the Obligor.

The Loss Payment will be made in the manner specified by ACA on the date following Business Day after the Business Day on which ACA shall have received a Notice of Default in the form of Exhibit A hereto.

The Obligor in the event of Default, commits itself, in accordance with the terms of the Agreement, to pay (i) the Due Payment in accordance with the Agreement; (ii) all premiums, interest, fees or other sums due and owing on the Due Payment or any other loss payment; (iii) all other sums due and owing under the Agreement; and (iv) any other sums due and owing under the Agreement.

This Policy is not revocable for any reason, including any failure of payment of the Due Payment under the Agreement. This Policy shall expire upon the termination of the Agreement.

The following terms shall have the meanings specified for all purposes of this Policy. The terms "Obligor" and "Counterparty" mean the respective entities identified at such time. The term "Agreement" means the Agreement identified as such above, together with any amendments, modifications thereto and any written agreements or other writings to which the Obligor, Counterparty, ACA and the Commissioner are parties.

EXHIBIT A

NOTICE OF NONPAYMENT

We refer to Credit Default Swap insurance Policy No. S00052C ("Policy") issued by ACA Financial Guaranty Corporation ("ACA"). Capitalized terms used herein are defined as set forth in the Policy or in the Agreement, or, unless the context clearly requires otherwise.

By due and authorized officers named below, we hereby certify that we are the Company referred to in the Policy and further certify as follows:

[FOR NONPAYMENT OF PRELIMINARY PAYMENTS:]

1. Pursuant to the [IDENTIFY CONFIRMATIONS] Confirmation under the Agreements, the Obligor is required to make a Preliminary Payment in the amount of [INSERT FULL AMOUNT OF PRELIMINARY PAYMENT] [INSERT PAYMENT DUE DATE].

2. The Company has received [INSERT PAYMENT DUE DATE] or a partial amount paid by [OBBLIGOR] [IN A CASH OR IN A FORM OF] [INSERT MANNER OF PAYMENT].

[FOR NONPAYMENT OF TERMINATION PAYMENTS:]

1. Pursuant to the Agreement, on [TERMINATION DATE], the Prejudgment has been declared. As a result of such misunderstanding, the Obligor is required to make an [TERMINATION PAYMENT] in the amount of [INSERT FULL AMOUNT OF TERMINATION PAYMENT] [INSERT DATE OR WHICH TERMINATION PAYMENT IS DUE].

2. The Company has received [INSERT PAYMENT DUE DATE] or a partial amount paid by [OBBLIGOR] [IN A CASH OR IN A FORM OF] [INSERT MANNER OF PAYMENT].

3. The [OBBLIGOR] has failed to make the [TERMINATION PAYMENT] in full or in part. The Company, therefore, requires the [OBBLIGOR] to make the [TERMINATION PAYMENT] in full or in part. The Company, therefore, requires the [OBBLIGOR] to make the [TERMINATION PAYMENT] in full or in part.

4. There are attached hereto the instruments of assignment referred to in the last paragraph of the Agreement.

5. We hereby request that ACA make payment of the [Fuller] to us in accordance with the Policy. We have attached hereto and delivered this Notice of Payment of all the documents referred to in the last paragraph of the Agreement.

ANY PERSON WHO KNOWINGLY AND WITH INTENT TO DEFEAT ANY INSURANCE COMPANY OR OTHER PERSON FILED A STATEMENT OR FILING WITH THE SECURITIES AND EXCHANGE COMMISSION CONCERNING ANY FACT MATERIAL THEREIN, CONSVIOLATES THE FRAUDULENT INSURANCE ACT, WHICH IS A CRIME, AND SHALL ALSO BE SUBJECT TO A CIVIL PENALTY.

Credit Default Swap Insurance Policy

Form of Assignment
Credit Default Swap Insurance Policy No. SP207-08

Exhibit B

Reference is hereby made to the Credit Default Swap Insurance Policy No. ______ dated ______, together with the Endorsements attached thereto, and any preendorsements thereto, the "Policy" issued by ACA Financial Guaranty Corporation ("ACA") relating to the (i) Class D U.S. Master Agreement dated as of ______ between the Counterparty and Obligor (each as defined therein) including the Schedule thereto dated as of ______ (the "Master") and (ii) Confirmation dated ______ entered into by such parties under the Master (the "Confirmation" and together with the "Master", the "Agreement"). Unless otherwise defined herein, capitalized terms used herein shall have the meanings assigned to them in the Policy.

1. In connection with the Issued Payment which is not an Avoided Payment of $______ paid by ACA to the Counterparty pursuant to a claim described on ______ under the Policy in accordance with the terms thereof, [insert]

2. In connection with the Avoided Payment of $______, made by the Obligor to the Counterparty under the Agreement and the payment by ACA in respect of such Avoided Payment pursuant to a claim therefore on ______ under the Policy in accordance with the terms thereof.

the Counterparty hereby irrevocably and unconditionally, without recourse, representation or warranty (except as provided below), sells, assigns, transfers, conveys and delivers to ACA all of the rights, title and interest it has in and to any rights or claims, whether secured, unsecured or otherwise, which the Counterparty now has or may hereafter acquire under the Agreement, or for any purpose, against any person including, but not limited to, the Obligor relating to, arising out of or in connection with such Avoided Payment or Avoided Payments, as the case may be, subject to the proviso that the rights acquired by ACA hereunder are not subject to further subrogation or transfer in rights of payment to the extent of the Avoided Payment referred to above.

In witness whereof, the Counterparty has duly executed and delivered this Assignment as of ______, 20__.

ACA ABACUS 00001596
Oh, thanks. LDL in the morning.

2005 vintage. Tier 2/Tier 3 names. Avg spread of approx 45bps vs mid-market. We already executed a few trades on 21-25 trendie (got that done at 110bps - 115bps mid-market). VERY good level, also traded 35-45 (got that done at 8bps - 9bps mid-market). Low level, more to be printed over the next few weeks. Give me a buzz if you want to discuss live.

vintage Tier?

what do we think is the portfolio spread?

100% (nearly) RMBB selected by ACA/PAulson

Remind me, what is the real portfolio?
Footnote Exhibits - Page 5235

Subject: Post on Paulson and AAMCUS 07-ACL

Dan,

As you know we have been working on the AAMCUS 07-ACL trade, the RMBS CDO short that we are brokering for Paulson. The super senior tranche off that portfolio is most likely going to be executed with ACA, through ASX, as an immediate counterparty. The exact trade would be the following: GS would buy protection on $1bn notional of 50-100 tranches off the reference portfolio at an all-in level 67bps. Paulson was initially expecting to short the 45-100 tranche, and at this point we are not 100% sure they would want to execute on 50-100. Here are the options we are going to walk them through:

Option 1: We offer them protection on 50-100 at 80bps running, 1st upfront, $1bn notional. We would make risk-free approx $16mm

Option 2: We offer them protection on 45-100 @ 80bps running, 1.50 bp upfront, $1bn notional. We would be at risk on $105mm of the 45-50 tranche, but assuming we can trade that tranche at approx 100bps spread (which I am confident we can do), we would make $16mm.

Let me know if you have any questions on this.

Hey Fab, I just caught up with Wade. He has confirmed he has lines for AOA and is interested in the trade. He has to wait to get the amount of capital it will use from Amsterdam on early Monday and then if all still ok will call us and haggle over price as he thinks there is a lot of money in the deal for GS. This seems to be moving in the right direction I have set up lunch for you with him on Thursday next week.

Have a good weekend

Charlie

Wade, sorry for the late response I was travelling yesterday and today. Here are my thoughts on your question:

1) the total credit spread of this 45-100 super senior tranche is going to be approx 55bps

Confidential Treatment Requested by Gold

GS MBS-E-002485172
Footnote Exhibits - Page 5237

(The tranche below, 35-45, just traded at 6bps). As you said this total spread is to be split intermediation/end credit risk.

2) As intermediary, you are getting paid for taking the supersenior tranche credit risk contingent on ACA defaulting. Therefore the fee intermediaries are traditionally paid is often directly proportional to the maximum potential exposure of a trade - a measure of how volatile the MIF of the trade can be. The fact that the spread on that supersenior tranche is wide can not directly be translated into higher MIF volatility than trades done at tighter spread levels. Note also that this transaction has been built with a full sequential paydown sequence (i.e. fast amortization of the supersenior tranche, roll down pretty significant, and short projected average life of the trade), which is going to rapidly reduce your counterparty risk.

3) I am sure we can discuss collectively with ACA and come up with an arrangement that can be satisfactory to all parties. We used to trade with a couple of other counterparties in the past at a cost of approx 4-5 bps running for similar underlying risks. Those counterparties have slowly gotten full on ACA’s name and that is why we are now trading at the 8-10bps wider level for ACA intermediation.

Let Charlie and I know if you are available tomorrow, we would love to get on the phone and discuss this with you. Thanks,

Regards,

Fabrice

Thanks for your note.

We may have issues on the economics.

It seems that GS have agreed 50 for ACA. This is troubling on two counts:

- Normally on intermediation the risk taker economics are shared 1/3 2/3
  Bank and Insurer. On this calculation we should be getting around 17
  by te us and 43 to ACA if ACA was AAA.
- However there is the additional challenge that ACA is a worse credit

Considering the above a figure of 8 to 10 is way off the mark.

Thoughts please?

Tim,

This is approved for GSI assuming that the trade will be covered under the existing ISDA/CSA with ABN AMRO BANK N.V.

Thanks

Tim

Tim, please check with Nico Friedman in GS Credit New York how the potential exposure calculation has been done in the past for these trades. Nico, we are talking about trading the 50-100 tranche ($1bn notional) @ 670p.a., portfolio details attached below.

<< File: ABACUS 2007-AC1 Reference Portfolio (GS Credit) 20070508.xls >>

Please call me if you have any questions.

Fabrice,

Could you give us an estimate of the spread volatility and expected maturity/duration of the tranche? Could you also please confirm that this trade will fall under the existing ISDA/CSA we have with GSI.

Thanks

Tim

Nico,

We are close to executing with ABN AMRO Bank NV London Branch (acting as protection seller) a $1bn super senior swap referencing the 50-100 tranche of a portfolio of Bas2 INAS obligations — see the trade details below. We wanted to make sure we have capacity to take ABN’s counterparty risk for this trade. Please let me know.

In connection with the ABACUS 07-AC1 transaction which is expected to price on Tuesday, April 10, 2001, we expect, on that same day, to execute the following two tranches with Paulson (entity would be Paulson Credit Opportunities):

- GS sells protection on $50mm notional of 36%–45% tranche off ABACUS 07-AC1 reference portfolio at a price of 2.30% upfront, 1.186 p.a. - 2 year non-call
- GS sells protection on $142mm notional of 21%–35% tranche off ABACUS 07-AC1 reference portfolio at a price of 2.30% upfront, 1.141 p.a. - 2 year non-call

See attached reference portfolio.

GS Start: can you include this portfolio in TAP?

GS Credit: can you please confirm that we are ok with those trades, and confirm the margin, if any, associated with those trades.

Sales Price Determination:
Prior to any assignment, termination or other disposition of a Directed Sale Security, a Credit Risk Obligation or a
Delivered Obligation, the Liquidation Agent shall use commercially reasonable efforts to solicit bids with respect to such security from at least three (3) independent dealers then making a market in such security (no more than one of which is the Liquidation Agent or any Affiliate thereof) on the Business Day on which the Indenture requires the Liquidation Agent to arrange such sale. If the Liquidation Agent obtains three (3) or more bids in accordance with the preceding sentence, then the Liquidation Agent shall use its commercially reasonable efforts to arrange for the sale of the applicable security at the highest bid price. If the Liquidation Agent obtains fewer than three (3) bids as provided above, then the Liquidation Agent, consistent with the other provisions of this Agreement and the Indenture, shall use its commercially reasonable efforts to arrange for the assignment, termination or other disposition of the applicable security at the higher of two (2) bid prices received and, if only one (1) bid is received, at the price so bid. Assuming at least one bid is received in accordance with the preceding sentence, the applicable security shall be disposed of at the highest bid price.

One exception in Anderson Meux:

In the case of a disposition of a CDS Transaction, such CDS Transaction shall only be disposed of if the Market Quote (as such term is defined in the Credit Default Swap) obtained pursuant to the terms of the Credit Default Swap expressed as a percentage of the related initial Reference Obligation Notional Amount shall be equal to or less than 50%, (checking with deal counsel currently on what this means exactly).

What constitutes a Credit Risk Obligation varies from transaction to transaction:

Hudson Meux Funding 2006-2

A "Credit Risk Obligation" is a Collateral Asset (i) the rating of which has been (a) downgraded or below "BBB-" or "BBB" or "Ba2" or "Ba1" by any Rating Agency (but not including any Collateral Assets which are rated "BBB-" or "BBB" or "Ba2" or "Ba1" and on credit watch for possible downgrade) (b) withdrawn or, (ii) that is a Defaulted Obligation, (iii) that is a PK Bond that has been defaulting interest for at least twelve (12) months or (iv) identified in Appendix B as Collateral Asset FWR 2006 2 FG, FWR 2006 2FG, FWR 2006 2FG, FWR 2006 2FG, FWR 2006 2FG, FWR 2006 2FG and one-month LIBOR exceeds 6.30% for at least twelve consecutive months. "PK Bond" means a CDO Security on which the deferral of interest does not constitute an event of default pursuant to the terms of the related underlying instruments (while any other senior debt obligation is outstanding if so provided by the related indenture or other underlying instruments).

Hudson Meux Funding 2006-1

A "Credit Risk Obligation" is a Collateral Asset if (i) the rating of which has been (a) downgraded or below "BBB-" or "BBB" or "Ba2" or "Ba1" by any Rating Agency (but not including any Collateral Assets which are rated "BBB-" or "BBB" or "Ba2" or "Ba1" and on credit watch for possible downgrade) (b) withdrawn or, (ii) that is a Defaulted Obligation, (iii) that is a PK Bond that has been defaulting interest for at least twelve (12) months, The proceeds from the disposition of a Collateral Asset may not be reinvested in other Collateral Assets. "PK Bond" means a CDO Security on which the deferral of interest does not constitute an event of default pursuant to the terms of the related underlying instruments (while any other senior debt obligation is outstanding if so provided by the related indenture or other underlying instruments).

Hudson High Grade Funding 2006-1

A "Credit Risk Obligation" is a Collateral Asset if (i) the rating of which has been (a) downgraded or below "BBB-" or "BBB" or "Ba2" or "Ba1" by any Rating Agency (but not including any Collateral Assets which are rated "BBB-" or "BBB" or "Ba2" or "Ba1" and on credit watch for possible downgrade) (b) withdrawn or, (ii) that is a Defaulted Obligation, (iii) that is a PK Bond that has been defaulting interest for at least twelve (12) months. The proceeds from the disposition of a Collateral Asset may not be reinvested in other Collateral Assets. "PK Bond" means a CDO Security on which the deferral of interest does not constitute an event of default pursuant to the terms of the related underlying instruments (while any other senior debt obligation is outstanding if so provided by the related indenture or other underlying instruments).

Anderson Meux Funding 2007-1

A "Credit Risk Obligation" is a Reference Obligation (i) the rating of which has been (a) downgraded to below "BB-" or "BB" or "Ba3" or "Ba2" by any Rating Agency (but not including any Reference Obligations which are rated "BB-" or "BB" or "Ba3" or "Ba2" and on credit watch for possible downgrade) or (b) withdrawn or, (ii) that is a Defaulted Obligation, (iii) that is a PK Bond that has been defaulting interest for at least twelve (12) months. "PK Bond" means a Reference Obligation or Delivered Obligation on which the deferral of interest does not constitute an event of default pursuant to the terms of the related underlying instruments (while any other senior debt obligation is outstanding if so provided by the related indenture or other underlying instruments).

Other Notes:

In the event that the Liquidation Agent is terminating a CDS contract on behalf of the CDO and a termination payment is owed to the Credit Protection Buyer (GS), the Credit Protection Buyer will be paid first from cash and eligible investments on deposit in the CDS collateral account (to the extent available), and then from the proceeds of liquidation of the Collateral Securities.

Date: July 17, 2006
Re: Placing debt and equity on a static high grade structured product CDO Squared with Goldman

1. Introduction

Invesco has engaged Goldman with respect to a $1.0 billion static high grade structured product CDO Squared ("Host Bay II") backed by a $1.5 billion portfolio of primarily double-A and single-A rated CDO assets with remaining assets consisting of AAA- and higher rated RMBS, ABS, and CMBS with an average rating on the portfolio of AAA/1. Goldman will be engaged by Host Bay II as Liquidation Agent and in this role will have the responsibility of liquidating "Credit Risk Assets" (defined below in section III). Goldman and Invesco will co-select the portfolio that will collateralize the CDO. Goldman will be lead placement agent for the debt and equity. Goldman will be co-placement agent with respect to the equity and has pre-committed to purchase half of the equity, subject to a cap of $7/MMM, with greater commitment subject to their credit committee's prior approval (expected size of equity tranche is 1/10 to 1/4/MM). Upon closing of the transaction, Invesco will share 50% of warehouse risk, subject to a cap of $10 MM, during the portfolio ramp-up.

In return for warehousing, structuring, its role as Liquidation Agent for, and placing the transaction, Goldman will receive a 0.25% fee ($2.5/MM on a $1.0 billion deal) from the CDO at closing, and an ongoing fee of 0.04% of the CDO's par portfolio balance. Total economics for Goldman are expected to be approximately 0.25% (includes 2.5 mm upfront fee, 0.04% ongoing fee, and approx. $1.2 MM not cash). We will be offering equity to third parties with a no-lose yield of approximately 17% and expected return of approximately 15% to 19% in return for co-placing the equity and pre-committing to 50% of the equity. Goldman will receive a 0.25% fee ($2.5/MM on a $1.0 billion deal) from the CDO at closing.

As Liquidation Agent, Goldman will liquidate assets determined by the Trustee to be "Credit Risk Assets" based on specific guidelines. Goldman will have 12 months to sell these assets. Sales will be made under a competitive bidding process whereby we will solicit three outside bids and select the highest. Prior to executing Host Bay II, in which we also play the Liquidation Agent role, we spoke with multiple counterparties as to our role as Liquidation Agent. We received approval for our role in this transaction from legal and accounting. We spoke with outside counsel, Orrick Hartington, and they were comfortable providing true sale and non-consolidation opinions for the transaction. We spoke with Mary Man in Accounting Policy and John Little in Product Control, and they in collaboration with PricewaterhouseCoopers are comfortable that the transaction meets true sale and non-consolidation conditions from an accounting perspective. Finally, we spoke with outside counsel, Wilmers-Cutter, about potential issues related to the Investment Advisor Act. They are of the opinion that our role of Liquidation Agent does not cause us to be deemed an Investment Advisor based on an exception to the Advisors Act for a "limited grant of discretion." For a more detailed account of Goldman's role as Liquidation Agent and
Footnote Exhibits - Page 5245

related discussions with legal and accounting counterparts please see section III, "The Liquidation Agent: Goldman".

So long as Goldman holds no more than half of the expected losses in the transaction, accounting is consistent with Goldman not having to consolidate the CDO on its balance sheet. We will hold no more than half of this risk in this transaction at closing.

We expect at least 30% of the portfolio upon closing will have been acquired from our various structured product trading desks in both cash and synthetic form.

We are currently discussing preliminary debt and equity commitments with third party investors on this transaction and we will be conducting a debt and equity roadshow with investors in December 2006 in Europe and Asia.

For the subordinate triple-A, double-A debt and single-A, we expect to offer it to the market through our syndicate. The double-A and single-A debt from our most recent high grade structured product CDOs was oversubscribed. For single-A and triple-B debt, we will be pursuing early commitments from investors in exchange for more customized deal tranches and/or commitment fees, similar to Houli Bay I.

II. Transaction Overview

A Cayman Islands limited liability company (the “Issuer”) will be established which will purchase the warehoused portfolio at closing and will issue the following notes and equity:

<table>
<thead>
<tr>
<th>Class</th>
<th>Balance</th>
<th>% of Capital Structure</th>
<th>Expected Ratings (Moody's/S&amp;P)</th>
<th>Expected Spread</th>
<th>Expected Average Life</th>
</tr>
</thead>

<td>100.0%</td>
<td>Avg. Aa3</td>
<td>L+41bp</td>
<td>6.2yr</td>
</tr>
</tbody>
</table>

The transaction will have a legal maturity of 35 years. However, the expected average life of the notes will be approximately 6 years respectively. The CDO equity will also have the option to call the transaction after 3 years.

Selling, placement and Liquidation Agent fees to Goldman will be approximately $5 MM ($2.5 MM upfront plus 0.3% of the CDO's portfolio balance per annum), in return for fees and 7% of the net warehouse carry (79% of the net carry will be approx. $1.2 MM). Goldman will take half of the warehouse risk on the first $200MM of losses. Goldman will take all of the warehouse risk above $200MM in losses, and Goldman will place the Class A, B, C and D Notes on a "best efforts" basis. While the Issuer has pre-committed to purchase half of the equity, we have agreed to reduce their allocation pro-rata vs. Goldman with third party equity sales. Goldman will fund their warehouse risk share upfront by initially depositing the entire $500MM with Goldman and consequently debiting another $500MM once the deal is 50% ramped.

Collateral Description

- 100% of the Houli Bay II portfolio will be identified at closing. There will be no discretionary trading of the portfolio and Goldman’s role as Liquidation Agent will be to liquidate assets determined to be

Confidential Treatment Requested by Goldman Sachs  GS MBS-E-013458156
credit risk assets (such determination will be made by the trustee pursuant to the Indenture). The liquidation proceeds from any credit risk sales will be used to pay down the CDO notes.

- 16% of the portfolio will be rated Aaa by Moody’s or AAA by S&P. 50% of the portfolio will be rated at least A3 by Moody’s or AA- by S&P. 100% of the portfolio will be rated at least A3 by Moody’s or A- by S&P.

- The Houy Bay II portfolio is expected to be approximately 10% subprime RMBS, 10% prime RMBS, 10% Commercial Real Estate CDOs, 5% Structured Products CDOs, 10% CLOs, and 5% ABS. Approximately 20-40% of the portfolio will be single-name synthetic exposures that will be collateralized with triple-A credit card or money market notes.

III. The Liquidation Agent: Goldman

Goldman will be engaged by the CDO as acting as the Liquidation Agent (same as Houy Bay I role). As Liquidation Agent, Goldman will be responsible with selling any asset that is determined to be a "Credit Risk Asset." Whether an asset is a Credit Risk Asset will be solely determined by the trustee to the CDO based on specific rules (see Credit Risk Rules below). Once an asset is determined to be a Credit Risk Asset, Goldman is responsible with liquidating that asset within 12 months of such determination and any liquidation proceeds will be remitted to the CDO bond holders according to the cashflow waterfall. The liquidation price of any Credit Risk Asset must be in the context of "Market Value" as determined by a three-bid process. For acting as Liquidation Agent, Goldman will receive an ongoing fee equal to 40% of the total portfolio per balance.

Credit Risk Assets:
- Any asset that is downgraded by Moody’s or S&P below Baa2
- Any asset that is defaulted

Traditionally, structured product CDOs have engaged Collateral Managers to trade and sell assets in the CDO portfolio. Any decisions to trade or sell any asset are made solely by the Collateral Manager, but such decisions are constrained by various covenants of the CDO (e.g. maximum trading limitations of 15% per annum, generic rules for credit improved or credit impaired sales). For a static high grade structured product CDO, Collateral Managers typically receive an 8-10bp ongoing collateral management fee. However, for high grade portfolios (double-A avg. credit quality), there is substantially less credit risk in the assets vs. a mezzanine structured product CDO portfolio (triple-B avg. credit quality). Also, the static nature of the portfolio eliminates reinvestment risk in the CDO portfolio while substantially limiting the ability of any Collateral Manager to add value through ongoing surveillance of the portfolio. Goldman and Goldman have agreed to eliminate the Collateral Manager role in this transaction and instead, we will create the role of Liquidation Agent where Goldman will receive part of the ongoing fees that would otherwise be paid to a Collateral Manager. Also, since the all-in fees are less than a CDO which engages a Collateral Manager, the equity premium for a higher compared to a similar transaction with a higher fee structure if we assume that expected portfolio losses will be comparable (we assume losses will be 2.2% or less).

We have discussed Goldman’s role as Liquidation Agent internally with Tim Saunders and externally with outside counsel, Wilmer Cutler. One concern about the role was whether Goldman would be viewed as an Investment Advisor. We specifically crafted Goldman’s role in Houy Bay I and in this case to eliminate both internal and external counsel’s concern about Goldman being viewed as an Investment Advisor. The main factors that made Tim Saunders and Wilmer Cutler comfortable that Goldman will not be treated as an Investment Advisor were:

- Goldman’s role is Liquidation Agent and not Collateral Manager. Goldman is engaged by the CDO to liquidate Credit Risk Assets and will receive an ongoing Liquidation Agent Fee for such services;
- Goldman does not determine whether an asset is a Credit Risk Asset. Such determination is made by the CDO based on specific rules (Law 10.2.2) for the same reasons that show whether an asset has become a Credit Risk Asset;
- Goldman must liquidate such Credit Risk Assets within 12 months of such determination and the price received on such liquidation must be in the context of a three-bid process;
Goldman does not receive any additional compensation and or control of the CDO for acting as Liquidation Agent.

We have discussed Goldman's role as Liquidation Agent in Host Bay I with internal accounting, Matt Schnieder, Mary Marr and John Lefk. One concern about this transaction was whether Goldman will receive a true sale of warehoused assets to the CDO once the transaction closes. Accounting was specifically concerned that the CDO's inability to trade / rehypothecate the underlying assets may cause problems based on FASB 140 rules. They argued that a CDO's independence needs to be demonstrated by either (a) being a QSPE or (b) ability to rehypothecate the underlying portfolio. Otherwise, the sale of our warehoused assets to the CDO may not receive true sale. We have agreed with accounting that we cannot structure the CDO such that the investors in the CDO will have the ability to perform a Beneficial Interest Exchange ("BIE") on any asset in the portfolio. In addition, investors will also have the ability to structure the CDO to perform a BIE on any security held in the funded collateral account for any single-name synthetic exposure in the portfolio. Under the BIE rules, a majority of the investor's net worth in the collateral account is at risk. The CDO may choose to rehypothecate the CDO collateral account, with a similar third party asset / security so long as the exchange is at market, the cost of such a transaction is covered by such investor, and the exchange will not violate the covenants of the CDO. On Host Bay 2008-I, we worked together with accounting and agreed on parameters for the BIE option. By structuring the BIE option into the CDO, accounting was comfortable that Goldman will receive a true sale.

We will build a provision into the deal documents to allow Goldman to resign as Liquidation Agent if appropriate notice is given and a replacement Liquidation Agent is in place.

IV. The Co-Placement Agent
V. Undeserving Commitments:

Goldman Sachs will act as sole placement agent of the Class A, B, C and D Notes, and up to 50% of the Class E Shares, and will be working on a "best efforts" basis on all of the debt, but third party equity sales can reduce Goldman and equity retention profits.

The primary demand for mezzanine notes / equity in those types of transactions comes from other structured investment vehicles and CDOs of CDOs, Asset Investment funds, high net worth individuals, and CDO equity funds. These various accounts continue to express interest in gaining a leveraged exposure to the U.S. high grade structured product market. The static high grade structured product CDO allows them to gain this exposure on a diversified basis without having to pay the significantly higher management fees associated with managed CDO transactions.

Goldman's current portfolio of CDO and CLO equity held within the CDO group is detailed in Appendix B.

VI. Portfolio Ramp-Up and Equity Marketing

Goldman will assume half of the first loss risk (first $20MM of risk) and all of the second loss risk (losses in excess of $20MM) in the warehouse in the event the CDO fails to close will deposit into the warehouse account upon opening of the warehouse.

Additionally, we will continue to pursue equity for mezzanine debt commitments from additional investors to reduce the risk of a failed closing. Appendix A details our current warehouse exposures across the CDO group.

The general terms of the portfolio ramp-up are as follows:
- GS selects assets for purchase and invests it the right to veto certain asset purchases;
- GS has unilateral right to liquidate an asset or the warehouse;
- All assets are sold forward to the CDO at time of purchase and the forward price covers any hedge or other purchase commitments on assets during the warehouse phase;
- 50% of the carry will be paid to GS (positive carry is equal to any net income in excess of Goldman's cost of financing during the warehousing period). Net carry is expected to be approximately $1.75 MM which will be shared 70/30 between Goldman and Inverted;
- Position sizes will be limited to $20 MM for assets rated triple-A, $20 MM for double-A, and $13 MM for single-A;
1178

Footnote Exhibits - Page 5249

100% of the collateral for the transaction will be identified at closing.

VII. Expected Fees

Goldman will earn a structuring, placement and Liquidation Agent fee equal to 0.25% times the per balance of the collateral portfolio at closing plus 0.04% per annum times the per balance of the collateral portfolio. We expect a $1.0 billion transaction and the fees, in that case, would be $2.5 MM plus 0.04% per annum of the per balance of the collateral. Additionally, Goldman expects to earn profits by selling assets into the CDO and from Goldman’s share of warehouse net carry (which is estimated to be $1.2 MM).

Separately, Goldman will earn a co-placement fee equal to 0.25% of the per balance of the collateral portfolio at closing.

VIII. Reasons to Pursue

We are pursuing this transaction for the following reasons:

1. The respective trading desks are posted on each asset offered into the CDO from the Street. In addition, we expect that 5% of the portfolio by closing will come from Goldman’s offerings.

2. Although we will be marketing a $1.0 billion Houli Bay II transaction, Goldman can price the transaction earlier with a lower balance if we are concerned about future market conditions or we can unprice the transaction if there are reasons to merit that action.

3. We will be offering the equity to third-party investors with an expected return of approx. 15%.

4. Goldman is taking a portion of the warehouse risk. Goldman is committed to 50% of the equity. Goldman has a “best efforts” underwriting commitment on the debt and remaining equity, and Goldman’s fees are 0.25% upfront ($2.5 MM on a $1.0 billion deal) plus 0.04% per annum of the CDO’s portfolio balance plus approx. $1.0 MM in net warehouse carry.

IX. Strengths/Issues to Consider

Strengths

- Pre-sold Equity: Goldman Sachs has pre-committed to purchase half of the equity.
- Sponsorship Opportunity: Goldman Sachs will sponsor the CDO through their warehouse risk sharing and equity commitment. In addition to the Houli Bay II mandate and the Houli Bay I equity purchase, Goldman Sachs has invested in or plans to invest in other SP CDO and CLO transactions underwritten by Goldman, and we expect our ongoing relationship with them to result in continued sponsorship of CDOs brought to market by Goldman.
- Efficient Fee Structure: Lower overall fees in this transaction (vs. other high-grade CDO spread deals in the market) allow more flexibility to select higher-quality assets and ramp-up the portfolio quickly and reduce execution risk to Goldman and investors.

Issues to Consider

- Warehouse: Goldman Sachs will be exposed to half of the first $20 MM of any net losses and all of the risk above $20 MM if the deal fails to close. Goldman Sachs is depositing when the warehouse opens to cover their entire net exposure in the warehouse.
X. Recommendation

Goldman Sachs will be involved in ramping and warehousing the portfolio for the transaction, structuring the transaction, placing the notes and the equity of the CDO, and in return will earn a $2.5 million fee at closing, an ongoing fee of 0.05% per annum of the CDO’s portfolio balance and approximately $1.2 million in net carry in the warehouse. Goldman Sachs has committed half of the equity in the transaction, to 50% of the first $200 million in warehouse losses in the event the CDO does not close, will collaborate with Goldman to ramp the portfolio for the CDO prior to the closing, and will be an ongoing surveillance agent after the CDO closes.

In light of the above, we request that the Capital Committee approve our proposal to enter into a "best efforts" underwriting of the CDO debt and commitment to 50% of the equity and to move forward with the warehouse risk sharing arrangement with Investec.

INTERNAL USE ONLY

Liquidation Agent Role - Talking Points

Liquidation Agent (Proposal)
- Our goal as Liquidation Agent is to attempt to maximize proceeds on the unwind of credit risk assets pursuant to the liquidation process governed by the CDO documents, rather than to liquidate at an arbitrary pre-specified time without regard to market conditions
- Original goal of the rating agencies in structuring the 12-month time period was to avoid forcing the CDO to liquidate in the immediate time period after significant ratings downgrades (which the rating agencies were concerned may be the worst time to liquidate due to decreased market liquidity)
- Although we are required to ask for unwind levels from three independent dealers, our intention is to go out to more than three dealers in order to increase possible number of bidders to try to get the best level available in the market
- Liquidation Agent role is run by GS CDO team (independent from the ABS/CMO secondary trading desk), with access to full resources and market color from ABS trading desk, Mortgage Strategies, and external resources (including credit views from third party CDO collateral managers)

Fundamentals
- Current credit performance data on the six Credit Risk Obligations between Hudson Mezz 1, Hudson Mezz 2, and Anderson:

Technicals
- Current indicative unwind levels on the six current Credit Risk Obligations range from 75-93 points upfront
- Recent flow in these types of names have been driven by hedge funds covering shorts, with dealers willing to take the other side (given length of IO remaining and out-of-the-money option value)
- No significant new initiation of trades on these names in either direction - hedge funds have preferred to initiate new shorts on the capital structure and on cleaner names - trades with more upside to short sides of trade

Current strategy - wait and continue to evaluate market conditions, rather than liquidating now
- Upside is that continued short-covering by hedge funds anxious to monetize profit could cause minor rally (5-10 points)
- Downside is that a speed-up of foreclosure process vs. current timeline expected by market could decrease IO value, or significant forced selling of similar name by CDO vehicles could push levels wider

Lira, like always we appreciate the focus glad Mike is being patient with his need for a response. Absolutely happy to get on this call tomorrow. Want to make certain if we go down this route which will be fairly long, Mike has approval to execute given the synthetic nature of the collateral.

We can discuss with Mike tomorrow if that works and get a better feel for his ability to participate. Tomorrow, my schedule is calls at 6, 9, 1, 3 and 3:30 and can get on the call at a time other than that. Thank you.

Subject: RABO Bank on Hudson - please read - IMPORTANT

Importance: High

Just had a really good heart-to-heart with Michael Halevi, who was very understanding of our inability to provide him with a written response thus far to his questions below. Rather than focusing on buying a tranche GS is not focused on selling. Halevi wanted to know what part of the capital structure GS was going to be focused on because he didn’t want to go through the process.

Bottom line:
We will focus on getting approvals to buy a chunk of Class B (AAA/AA rated) tranche as his conduit can buy down to single A rated notes but he was uncomfortable focusing on Class C since this was synthetic underlying which would be difficult for him to get approvals on a single A on the first go around.

Next steps:
He has made himself available for a call any time tomorrow. I need to email him with availability for Darryl or someone on his team to answer his below questions verbally so he can get business committee approval process in place to potentially buy the tranche.

Please come back to me soon with a firm time for us to give him a call tomorrow. Once this call is in place, he will try submit for business committee approval, and if it passes, he will need to have another due diligence call with his credit committee.

Darryl - ideally we would like you to be on the call since you already know Mike Halevi well. Can you please get back to me soon with available time slots for us to have a call with him tomorrow?

Before we can determine whether the AA note is a suitable investment for Hieu Amsterdam, it would be helpful if your structuring team could provide answers to the following 'big picture' questions.

A) It is understood that Goldman Sachs will act as liquidation agent and as such is required to liquidate any asset that is downgraded below AA or BB. What if I'd like more clarity on how transitional risk can be quantified. It seems as if we'd have to assess the historical transitional ratings of most MBS against market spreads alongside the adequacy of loss/default coverage. Do you have a 'worst case' example(s) of how much subordination can be lost from a deteriorating, but non-defaulted note tranche? Further, why is Goldman afforded up to 12 months to sell a credit risk asset?

B) How is the 'tail' risk on the AA note mitigated as all subordinate notes may be paid down prior to our note?

C) Explain how 'credit risk' trading occurs for an index. The PA66 structure for single-name CDS is understood.

Enjoy the holiday weekend,

Best,

Michael Halevi

NAB: How will the most recent downgrades affect the position?

Ben: About 25-28% is now at credit risk obligation overall a total 42% of the portfolio affected by ratings actions.

The majority names that took the worst have been downgraded except a handful of A (moody's said this would be their next focus)

The timing of the agency action is always uncertain, but otherwise this is not a huge surprise - actually surprising that market has traded off on higher ratings rather than BBB

Management update:

Starting to talk about transferring liquidation rights to 3rd party experienced ABS CDO collateral manager -

Think it will be in best interest of investors - the credit obligation term was originally written in with expectations that it was unlikely to happen.

Likelihood has dried up so market priced in before rating change, so automatic sale was not able to get these assets out before market sized the decline

Good for deal for several reasons:

1. Large institutional asset managers will be able to access more liquidity but they can access other broker dealers and get good pricing

2. even assuming the deal the way it is, the decision of when in the 12 month period to liquidate could be better handled by an experienced manager

NAB: What is the cost of this?

Ben: - they get transferred over the fees. No increase in fees - if an increase was needed, this would influence our decision about how to proceed.

NAB: - will they be able trade into new names?

Ben: - unlikely to amend the deal to add new names, but may be able to make an amendment to give them greater discretion to add value to the deal and to loosen other restrictions - to the 12 month mandatory sale requirements discretion to add value to the deal and to loosen other restrictions - in the 12 month mandatory sale requirements discretion to add value to the deal and to loosen other requirements.

NAB: - do we have a say in the choice of the manager?

Ben: - not yet able to speak about specific names.

NAB: - What role would GS have? We don't want to see GS disappear from transaction

Ben: - the liquidation agent duties would be assigned - we would not have discretion in the process. GS is involved on ongoing basis in terms of working with manager and trustee to make sure it is being administered properly, strategic advice, strategic advice - to at least the same level as with any other GS structured CDO.

NAB: what's the idea that GS wouldn't be able to get as good bids/offers as a 3rd party would.

Ben: - brokers will prefer to deal with clients and give them much more consideration than if they would another broker

NAB: - are there any credit assets that the trading desk considers to be worthless?

Ben: - no, generally they sell at least pay interest.

NAB: - What % of portfolio is being priced as IO?

Ben: - Could all investors come together and come up with a repackaging plan?

NAB: - All options that would benefit the deal are not being considered. Not a clear way to restructure that would benefit equally all investors - so tough to get unanimous consent.

NAB: What is the recovery on sale today - weighed avg price of the 28% in credit risk?

Ben: - 50% has up front - average recovery will be 15%

NAB: Held equity piece, you have written off completely?

Ben: - looks unlikely that equity will ever receive another payment.
NAB II told of all 28% of credit risk would that break out tranche
Ben - Your tranche is at around 28.9% - this sale would probably result in 23% loss and the AB A that is not in credit risk yet also assuming 1% recovery, but there is a little extra cushion for stress spread happens due to credit risk provision this tranche is probably right on the cusip

NAB - what are other investors saying?
Ben - Variety of sentiments - pessimistic, well and see, nothing too different than what NAB is saying: limited feedback on transfer of liquidation agent has been positive
NAB - GSG view on the risk (remaining 50% of portfolio) Ben - If we continue to see home prices declines, these could decline in value. If home prices recover - we may see a better scenario

Next step - let them know what happens with the liquidity agent change. They are most interested in removing the 12 month forced liquidation term.

GS MBS-E-0157386974
Footnote Exhibits - Page 5264

BC: Talked briefly. If we thought can get investor consent would be a good option - would need somewhere between majority (15-20) investors and unanimous depending on how material the change is judged to be.

# does GS hold any of this
Yes - del own equity and different pieces of various tranches no sure exactly, but decent size and number of classes on our books

# no physical settlement if a default event?
No written default is a very unlikely to have physical settlement - prob cash

# would we expect to have impairment
Don't have current mark - but looking at fundamentals high degree of uncertainty about whether NAB will be paid off in full - hard to say - range of scenarios

# is significant risk premium priced in bc of liquidity - what is the risk we are facing by holding out vs liquidation at market price?
BC - hard to say bc market conditions are uncertain - different types of -- overall large amount of current and future sales of risk and not a lot of buyers - so this inflects current mark to market

Range of reasonable assumptions - a number of scenarios and outcomes

- what is surveillance/monitoring process - how many loss pools?
BC - liquidation agent duties are run by COO team, Ben and roman et al - work with mortgage dept to get best resources to fulfill duties - listing deal to understand techniques of the markets. mortgage research and that groups focused on funds and quant analysis of mortgage credits including BBB names like these. other input w/ model.
Group - loan originators and servicers for coll. Use all of these inputs and resources to be most effective in making liquidation decisions

- have you applied your loss curves to this portfolio - exiting liquidation aside
BC - don't have one base case loss curve for each pool - much more complex given number of moving parts and number of drivers of loss curves

- what if we wanted to break the analysis based on specific HPAs? What would break the deal in terms of HPA?
BC - dispersion of home price appreciation vs average HPA makes

- can you set up my major city/location and use blanket for rest?
BC - don't apply standardized HPA across multiple areas - our analysis goes down to individual loan level and looks at different scenarios

- timing - when would we know if we would experience write down of principle
BC - when the assets get to the point that the assets that are going to be written down are, and the one going to return prin have - and have gone through waterfall - will see how it affects your payments - given the 3 yr lock, this would take at least 4 years + R - in a worse case assets going through foreclosure could result in earlier write downs - event of default shortfall of interest to AAA and AA - could come signig earlier than the return of principal would affect a write down

How would shortfall of interest occur?
Would happen if actual write down of cash undervalue assets - administered by servicers - lost rate payment on OIS due to write down and servicer has to make payment to pri buyer

If keep falling - the cash will be diverted to senior holders and there will not be cash for rest of Write down will only be triggered by

Next steps - monitoring? Or others?
BC - actively monitoring performance of assets and market conditions/potential for liquidation
Potential amendment to max liquidation pd or other beneficial structural changes - looking for these as well, but nothing that is imminent now - not a lot of great options yet. Actively seeking possible structural changes

- what is list of potential risky assets?
Watch headline numbers Roll rate of loans from current n 30 day dell 30-60 60-90 and how many go into foreclosures

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-015736971
Footnote Exhibits - Page 5265

and what recovery is, prepayment
Harder to predict rating agency downgrade decisions
-
- so basically a 50% chance of impairment to our class?
BC- that is hard to pin down but that does not sound unreasonable
-
- If impairment do you think it will be all or nothing or somewhere in-between?
BC - think imparment possible for some but not total impairment
-
- At what point do you try to get votes for an amendment?
Are considering that - would be something we would want to do as soon as we believe we can gather critical mass
-
- is it possible to take a poll of the investors and regroup
We are trying to do that and we will reach back out to you when we have other info

Minor vs material amendment - how long would that determination take?
That is in deal committee hands, relatively quick
Any fees paid out of the waterfall?
Yes - but that should not impact whether or not to do amendment - not a material amount
-
- What about rating agencies - how would they view the amendment?
BC - they would have to consent but are likely to do so based on the way they model cash flows on a CDO
-
- when do you think you will be ready to discuss support?
Few weeks to talk to all investors to get sense of whether could make a change to structure
-
- Could you please follow up with what GS holds?
So for what purpose?
Want to make sure you are making restructuring decisions for the right reasons - make sure serving the right interests
Our intended goal of liquidation agent is to serve the best interests of the CDO - that is the duty of liquidation agent -
it is a policy and process

Did GS write the super senior swap?
BC - no we don't hold risk - did back to back swaps transferring voting rights etc

Sidney is working on the various documents related to both the Liquidation Agent transfer and an amendment to remove the 12-month forced sale (discussed with [REDACTED] and that's the amendment they want to pursue). When we get the first drafts of the doc [I spoke to Sidney this morning and they said later today, so should be soon], we'll send them to [REDACTED] get their sign-off, and then collect the consents from investors and rating agencies. Once [REDACTED] signs off on the investor consent form, I'll begin speaking to investors - first, equity and super-senior for the Liquidation Agent transfer, and then after that, the other investors for the removal of forced sale amendment. Will need to discuss with you how to approach MS Peep on Hudson Hass I. Steven Walfisch in legal has already reviewed the first draft of the Liquidation Agent transfer docs.

Confidential Treatment Requested by Goldman Sachs

GS M95-E-021876335
February 29, 2008

Mr. Pablo Salame
Goldman Sachs & Co.
85 Broad Street
New York, NY 10004

Dear Mr. Salame:

We are writing because Goldman Sachs & Co. ("GS") has breached (and continues to breach) its contractual obligations by exercising investment discretion in connection with its role as Liquidation Agent for Hudson Mezzanine Funding 2006-1, Ltd. ("Hudson"), a synthetic CDO transaction structured and offered by GS in late 2006.

As Liquidation Agent, GS is currently responsible for liquidating approximately $1,000,000,000 of Credit Risk Obligations. The transaction documents clearly state that GS would not exercise investment discretion in its role as Liquidation Agent. GS has not yet liquidated a single Credit Risk Obligation, notwithstanding that some data back to August 2007. The GS employee handling the liquidation has explained this by stating that he believes the price for these obligations will increase in the future and it is better for the deal to liquidate these obligations at a later date.

We believe GS has breached the terms of the Liquidation Agency Agreement and that its actions as Liquidation Agent are contrary to the disclosures contained in the CDO. In addition, as a result of GS taking on the role of an "investment adviser", as defined under the Investment Adviser's Act of 1940 ("Adviser's Act"), the Credit Default Swap with Hudson constitutes a violation under the Advisers Act, as GS never secured informed consent to act as Credit Default Swap Counterparty while exercising investment discretion.

As a result of GS's actions, Morgan Stanley and Hudson have already suffered approximately $150 million in incremental losses, and these losses are continuing to increase. We demand that GS immediately cease exercising investment discretion regarding when to liquidate the Credit Risk Obligations and proceed to liquidate these obligations forthwith as required by the Liquidation Agency Agreement.

1 Capitalized terms used but not defined in this letter have the meanings ascribed thereto in the Offering Circular for the Hudson transaction dated December 1, 2006 (the "Offering Circular").
The Transaction

GS offered the Hudson transaction as an unmanaged synthetic ABS CDO in which Hudson, among other things, was to:

- issue approximately $800,000,000 in various Notes;
- sell credit protection to Goldman Sachs International ("GS") under a "pay as you go" credit default swap transaction with an initial notional amount of $2,000,000,000 relating to a portfolio of 140 RMBS securities (the "Credit Default Swap", and each underlying component swap on a particular RMBS security, a "CDS Transaction"); and
- buy credit protection from GS under another "pay as you go" swap transaction with an initial notional amount of $1,200,000,000 to fund payments that could be due under the Credit Default Swap in the event amounts available from the proceeds of the Notes pursuant to the Collateral Liquidation Procedure had been exhausted (the "Senior Swap").

The Hudson transaction closed on December 5, 2006. As of that date, Morgan Stanley Capital Services Inc. ("MSCS") purchased the Senior Swap through Goldman Sachs Capital Markets, LP ("GS Capital") by entering into a swap transaction with GS Capital explicitly linked and exactly mirroring the terms of the Senior Swap, under which GS Capital, among other things, passed through to MSCS all rights of the Senior Swap Counterparty to act in its capacity as a member of the Controlling Class or otherwise. GS Capital provided the OC to Morgan Stanley in connection with the marketing of the Senior Swap.

Amongst various other roles, GS was engaged by Hudson to act as Liquidation Agent pursuant to a Liquidation Agency Agreement dated December 5, 2006. Under the relevant terms of the Liquidation Agency Agreement, GS is obligated to, among other things, pay interest on the Notes. The Liquidation Agency Agreement states that "the Liquidation Agent (i) shall arrange for the assignment, termination or other disposition of the Pledged Assets, by following the procedures in Section 7 hereof, but shall have no ability or authority to direct the assignment, termination or other disposition of any Pledged or other assets so as to be "Intended manager" for the Pledged Assets and (ii) shall not have fiduciary duties to the Issuer or the Holders of the Notes." (Section 2(g) (emphasis added))
Similarly, the OC states that "the Liquidation Agent will not have the right, or the
obligation, to exercise any discretion with respect to the method or price of any
assignment, termination or disposition of a CDS Transaction that references a Reference
Obligation that is ... a Credit Risk Obligation; the sole obligation of the Liquidation
Agent will be to execute the assignment, termination or disposition of each CDS
Transaction in accordance with the terms of the Liquidation Agency Agreement." (OC
p. 46 (emphasis added)). The OC reinforces this point in a section titled "No Collateral
Manager" which states that "the Issuer has not engaged, and will not engage, a collateral
manager to select the Pledged Assets ... or to consult with the Issuer with respect to the Pledged Assets, including the advisability, timing or
terms of any disposition thereof. None of the Liquidation Agent or any of their [sic]
affiliates will provide investment advisory services to or act as an adviser to or an
agent of the Issuer or the Holders of the Notes ...". (OC p. 48 (emphasis added).)

The Current Dispute

During the month of October 2007, thirty-eight Reference Obligations became Credit
Risk Obligations, leaving the HUDCO transaction with approximately $561,000,000
original notional amount of CDS Transactions classified as Credit Risk Obligations.
Reference Obligations have continued to become Credit Risk Obligations over time,
including twenty-five more in January 2009. These are currently approximately
$1,000,000,000 original notional amount of CDS Transactions that are Credit Risk
Obligations.

Morgan Stanley learned in December 2007 that GS had appointed Ben Case as the GS
employee responsible for handling the Liquidation Agent function for GS. Since that
time, our trader John Pearce has consistently requested that GS, in its role as Liquidation
Agent, assign, terminate or otherwise dispose of the relevant CDS Transactions forthwith.
Mr. Case has consistently resisted Mr. Pearce’s requests, asserting that according to his
analysts, the optimal time for the Hudson transaction is not yet known... This is clearly an exercise of investment discretion, which renders GS a collateral
manager and a fiduciary, in each case a violation of the provisions of the Liquidation
Agency Agreement.

As stated above, Morgan Stanley believes that GS has breached the Liquidation Agency
Agreement by exercising investment discretion over the liquidation timing of the relevant
CDS Transactions. Also, since the OC makes it clear that the Liquidation Agent cannot
and will not be acting as a collateral manager or exercising investment discretion,

---

3 While the Liquidation Agency Agreement provides that the Liquidation Agent must complete the process of liquidating the relevant assets within twelve months, it does not provide the Liquidation Agent with any
right to delay the liquidation process based on the exercise of discretion. To the contrary, the
Liquidation Agency Agreement and the OC clearly state that no discretion or investment advisory services are ever to be provided by the Liquidation Agent.

4 Mr. Case has indicated that he is employing technical and fundamental analysis and his trading
judgment in an attempt to maximize recovery for Hudson. On his most recent call with Mr. Pearce, Mr. Case
explained his refusal to liquidate the CDS Transaction at this time by saying that he believes RMBS
rescue will rely on short positions and covered.

Confidential Treatment Requested

HUD-CDO-000006879
Morgan Stanley believes the OC, upon which we relied in making our decision to enter into the Senior Swap, contains material misstatements.

Furthermore, Morgan Stanley believes Mr. Case’s actions have resulted in GS becoming an “investment adviser” as defined under the Adviser’s Act. While GS did disclose and receive consent to act in the dual roles of Liquidation Agent and Credit Default Swap Counterparty, that consent and disclosure was predicated upon GS not acting as a collateral manager or exercising the sort of investment discretion that Mr. Cace has undertaken. Therefore, Morgan Stanley believes that the informed consent required under Section 206(3) of the Adviser’s Act for GS to act as an investment adviser and for an affiliate to act as Credit Default Swap Counterparty was never granted, making the Credit Default Swap an unlawful transaction pursuant to Section 10b.

As a result of GS’s breach of contract and violation of laws, Morgan Stanley and Hudson have suffered significant incremental losses. Those incremental losses have already reached approximately $150 million and could increase substantially in the future.

Conclusion

At this time, Morgan Stanley is demanding only that GS fulfill its contractual duties as required by the Liquidation Agency Agreement and assign, terminate or otherwise dispose of the relevant CDS Transactions forthwith. However, Morgan Stanley reserves all rights and remedies arising from the various contractual breaches and violations of law by GS arising from or in connection with the Hudson transaction. We look forward to discussing this situation and how best to resolve these issues with you in the near future.

Sincerely,

John Faulkner
Managing Director and
General Counsel of Institutional Securities

cc: Mr. Franz Bernanello, Goldman Sachs

* The level of investment discretion currently being exercised by Mr. Cace also raises regulatory questions, such as whether Mr. Cace is subject to GS’s compliance procedures applicable to persons acting as investment advisers, whether GS’s form ADV discloses the sort of advisory services provided to Hudson, and whether (and when) GS’s form ADV was delivered to Hudson.

* Our calculation is based on looking at the level of the relevant ratings and rating category of ABX on the first trading day a Reference Obligation became a Credit Risk Obligation and comparing that level to the relevant ABX level on February 27, 2008. In all cases, the relevant ABX level had dropped between the two measurement dates.

Subject: RE: TCW - Liquidation Agent

Just wanted to make you aware of this, since it might come up in your dealings with TCW — we’re going to assign our Liquidation Agent duties to TCW on the 5 static ABS COOs that we issued last year (Hudson Mezz 1, Hudson Mezz 2, Hudson High Grade, Anderson, and Hour Bay), and as part of the agreement they’re going to share 30% of the fees back to us. Win-win for both sides.

From: Case, Benjamin
Sent: Thursday, November 29, 2007 9:32 PM
To: Lehman, David A.; Weber, Matthew G.; Spada, David J.; Bethel-Hoyt, Sonya; Sweeney, Michael; Saunders, Tim
Subject: TCW - Liquidation Agent

Dick Luggins and I just spoke to Lou Lucido about the Liquidation Agent opportunity and offered him the opportunity at the 2nd best economic proposal shown to us — sharing 30% of the fees back to us on a running basis ($1.1mm annually in Q3). Lou sounded excited, ran it by Jeffrey, and called back to say they’d like to agree on those terms, subject to sign-off by his legal (they looked at the docs during the first round, but he wants them to review again — he understands the docs are on an "as is" basis).
Specific questions from Doron:
Why TCW vs other liquidation agent potentials, specifically why not RABO?
What fees will TCW receive?
Can you please call me when you have a second?

Spoke to Ben Casey.
GS is soliciting consent to assign GS role as liquidation agent to TCW b/c when liquidation agent role was designed, it was very "out of the money"; now, when the risk is very low, it is much more efficient to have a sophisticated collateral manager b/c
(i) TCW can access better liquidity than GS, so get bids from the entire street.
(ii) real asset manager can pursue further amendments to the doc to make liquidation more efficient b/c GS is not an asset manager under the investment act in 1940 and cannot act investment advisory services and can't act with optimal discretion
Requires approvals of:
both rating agencies Moody's and S&P
Simple majority (51%) of the controlling class (US holders) and equity.
He will also send the TW OM.

Dear Lee,
Please call me.

Dorson Crawford from Robo called asking:
1. Hudson Mez - whether GS was potentially seeking an amendment or indenture
   If there is an impairment on the asset, there is a forced liquidation, which may not be the best for the deal
   Is GS the other 50% controlling class of the US?

2. Also, Robo needs the indenture for TW, she has OM but missing indenture.

Nicole,

Attached please find:

- the Notice and Request for Consent forms discussing the proposed Liquidation Agent assignment, which are addressed to Goldman Sachs International (who faces the CDC)
- a direction letter related to the swap we have with Morgan Stanley, which Morgan Stanley can use to direct us if they would like to consent to the proposed assignment

Please ask Morgan Stanley to sign the direction letter and fax a signed copy to me at 212-428-1211.

If they have any questions or would like to discuss, please let me know and we'd be happy to discuss with them.

Regards,
Ben

<tr>
<th>FEMALE AUTOMATED VOICE</th>
<th>WEDNESDAY, 2/13/2008 AT 11:30 A.M.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ben Case</td>
<td>Morgan Stanley</td>
</tr>
<tr>
<td>Ben Case</td>
<td>it's Ben Case.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>Hey, Ben, How you doing, man?</td>
</tr>
<tr>
<td>Ben Case</td>
<td>Good, How you doing?</td>
</tr>
<tr>
<td>Ben Case</td>
<td>Oh, hanging in. Hanging in. Just, you know, just another, I wanted to sorts follow up, I don’t know, you know, how obviously we talked in the past, and, going through these things, just basically calling to see, you know, what if any updates, you know, from your front, how you see the market, how you're thinking about, this trade, the eligible assets, the timing, the state of the market, you know, kinds, kinda similar to what we talked about last week.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>Sure. Well let me give you my current thoughts. I mean I’d say, in general I’d say not a lot of new, new developments or new information -</td>
</tr>
<tr>
<td>Ben Case</td>
<td>- that’s, that’s affecting our current strategy, from the markets, since our last conversation, um, you know, in terms of the timing of the liquidations which I know is the point that you’re most specifically focused on -</td>
</tr>
<tr>
<td>Ben Case</td>
<td>- Yep.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>- that’s, that’s affecting our current strategy, from the markets, since our last conversation, um, you know, in terms of the timing of the liquidations which I know is the point that you’re most specifically focused on -</td>
</tr>
<tr>
<td>Ben Case</td>
<td>- Yep.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>I, you know, I’d say, kind of consistent with, with, with, uh, the conversation that, kind of, uh, topics we walked in our last, and my kind of thought process that we walked in the last conversation, I mean I do see the, the wave of short covering in the market kind of continuing to proceed -</td>
</tr>
<tr>
<td>Ben Case</td>
<td>- Yep.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>- and, you know, if, you know kind of as expected, kind of helping hold up valuations for these kind of assets, even where the ultimate, you know, fundamental, you know, write down amount, looks bleak, but, you know not causing, an actual upick in prices due to kind of a variety of, of other market forces that are, are holding levels down. And, you know, the farther we get into the short covering wave, the more the, the balance between the upside of holding longer, versus the downside of holding longer.</td>
</tr>
<tr>
<td>Confidential Treatment Requested</td>
<td></td>
</tr>
<tr>
<td>Ben Case</td>
<td>Right.</td>
</tr>
<tr>
<td>----------</td>
<td>--------</td>
</tr>
<tr>
<td>Ben Case</td>
<td>- you know, the risk balance in holding rather than liquidating, you know, changes to the downside -</td>
</tr>
<tr>
<td>Um hum.</td>
<td></td>
</tr>
<tr>
<td>Ben Case</td>
<td>So I think, as we see the short covering wave kind of continue to proceed to, you know, far enough along where we feel like that balance shifts further enough down, you know, it's gonna get to the point where it's in the best interest of the deal to start liquidating them -</td>
</tr>
<tr>
<td>Yep.</td>
<td></td>
</tr>
<tr>
<td>Ben Case</td>
<td>You know, I know we've talked about this twelve month period, you know, I can't give you a ton of specifics or predictions cause, as you know, we're constantly re-evaluating, but I can give you my current thought is, you know, it doesn't seem like it's gonna take till late in the twelve month process for the majority of these assets to get to that point -</td>
</tr>
<tr>
<td>Okay.</td>
<td></td>
</tr>
<tr>
<td>Ben Case</td>
<td>- you know, as we see the market moving along, it does seem to be, you know, coming noticeably sooner than that, so, you know, we do see that in progress we do see it moving along, and I think it's, you know, I think that's gonna mean the liquidations are gonna come, you know, kind of sooner rather than later within the twelve month period or the remaining period for, you know, each asset, but exactly what time frame that is, you know, how quickly that is, you know, will be governed by those market conditions, it's tough for me to put an exact, specific answer on that -</td>
</tr>
<tr>
<td>Right.</td>
<td>Well, I mean, look, okay, so now we're, we're what, basically a billion dollars now of eligible assets, right? A lot of it, you know, there have been fits and starts, a lot of it came on in October, and then a significant, you know, big, you know, another big chunk, you know, but, you know, sort of sixty percent October, forty percent, you know, at the end of January here, you know, we don't need to get into, you know, sort of my feelings about, you know, what, you know, what from an economic, cost standpoint that's meant for our position, because I do think it's significant -</td>
</tr>
<tr>
<td>Ben Case</td>
<td>I, I understand that, I -</td>
</tr>
<tr>
<td>And that's, and it's unfortunate -</td>
<td></td>
</tr>
<tr>
<td>Ben Case</td>
<td>- understand that.</td>
</tr>
</tbody>
</table>
So, so, and look, we've gone back and forth a lot. I wanna try to keep these discussions, you know, constructive. Cause I wanna, you know, I don't want you to be dreading, dreading these conversations every week, or whatever, but you know, I think that, as they, as they came in, right, give me, if you can, you know, one, sort of a way that you've sort of thought about, you know, kinda-kind of the market from October till now. You know, it's hard for me to, you know, looking at this, let's just look when I talk to my management, for example, about you, you know, the trends in the ABX, and the price movements since October, it's difficult for me to go back and sorta, sorta twenty-twenty, and I respect that. But it's, it's difficult to go back and sorta, sorta break that down, so, you know, just in general, clearly prices are down from where they were when these assets first got downgraded. Right, so clearly the strategy, if it is centered on short covering, hasn't, at least thus far paid off, of course it certainly could, you know, we can start to see a massive short covering rally in the market, no one would welcome it more than I would, but it may or may not happen, and then second, so that's part one, it's sort of, you know, your overall thought process, so I can get a feel if you can't give me specifics on liquidation, at least I can get a feel for, for your thoughts. And then two, if you've given any sort of thought to, from, when you do get to the liquidation point, if you've given any thought to how you would actually execute the liquidation. In other words, I don't think it makes sense to wait to the last day of eligibility and then sell the things on that day, right, that's not gonna be a price optimization exercise any more than selling it on the first day of eligibility would. So, you know, those, I think those two things right now would be most helpful in terms of me thinking about kinds, where you guys are coming from, in terms of thinking about this role.

Ben Case
Sure, okay, well let me go, let me address both of those things, I mean, certainly, you know, since I, on the first part, kind of what we've seen since October, and, you know, how we think about our strategy and how it's developed, you know, I mean, certainly, you know, it's pretty transparent to see just what the ABX, oh six two and oh six one.

Yes.

Ben Case
- kind of [inaudible] minus, indices you know, it's cover, a good portion of the portfolio, you know, what the price action has looked like over that time. You know, yeah, I think it's, you know, your characterization is right that, you know, over the course of this time and starting at, you know, kind of, you know, the beginning of the time, you know, sort of way, starting in October for the majority of assets that were, you know, were downgraded and became credit risk obligations.

Yes.

Ben Case
- at that point -
<table>
<thead>
<tr>
<th>Ben Case</th>
<th>You know, our strategy at that point was, you know, given expected market technicals and given, you know, weighing the, you know, the presented probability prices were gonna stay the same, which, you know, is, you know, kinda flat to the deal, I mean I’d say it’s, you know our goal is sort of, is to, you know, execute this in as responsible a manner as possible, relative to the goal that, or excuse me, relative to the chance that the prices were gonna go up, versus the prices were gonna go down -</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Sure. You know, I understand, you guys don’t have a crystal ball.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>Eliminating the, eliminating the percentage chance, you know, the probability chance that the assets were gonna stay the same, and comparing kind of the up versus the down -</td>
</tr>
<tr>
<td></td>
<td>Yep.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>- you know, we do think there was more upside than downside, and it, you know, specifically, you know, was driven by our expectation of, you know, our view on market technical flows, which, you know, it’s interesting, cause it’s kind of, come to pass and it hasn’t, I mean, if you looked at, you know, the flows we see, and exactly these kind of names that were, are credit risk obligations, these kind of CUSIPS -</td>
</tr>
<tr>
<td></td>
<td>Um hum.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>- you know, it has to come to pass that, the vast majority of flows are from short covering rather than, you know, either, either new long initiation or new short initiation -</td>
</tr>
<tr>
<td></td>
<td>Yep.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>You know, however, it did not cause upward price action, you know, due to, you know, the overall downward trend in prices related to, you know, all forms of residential credit -</td>
</tr>
<tr>
<td></td>
<td>Um hum.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>- particularly up the capital structure, you know, it certainly, driven to some degree, you know, particularly when you get up this capital structure by the new remittance report and clearing prices and other fundamental, data that’s come out.</td>
</tr>
<tr>
<td></td>
<td>Sure.</td>
</tr>
</tbody>
</table>

HUD-CDO-00006697
Ben Case | - over the time.
---|---
Yep.

Ben Case | It's driven, you know, to some degree by other kind of technical market factors such as, rating agency downgrades and, you know, the S&P actions in January.

Ben Case | Right. And throughout this, hold on one second, and I don't mean to cut you off, I appreciate, obviously all this color, I definitely, you know, I definitely want to try to get, you know, into, into what's how you're thinking about it, but through this time, you were, you know, getting paid, like when these assets become eligible, do you get prices on them? Like how do you, like how do you judge kind of where the market is, and where it is, cause you're not, right I know, cause we've talked about this before too, I know you're not part of the trading desk, right? You are separate, cordoned off from that.

Ben Case | Right.

Ben Case | So, how do you get, like, what is the process from which you continue to evaluate the market, are you just looking at ABX, or.

Ben Case | Sure, well to be clear I have access to the resources and color of, the trading desk is also part of.

Ben Case | Okay.

Ben Case | - the mortgage department here, so, it is, it is not, it is not accurate to say I, don't talk to those guys, or I'm, I'm segregated with it, a function that's independent.

Ben Case | Yep.

Ben Case | It is, independent in its decision making, but all, everything they can offer as an input.

Ben Case | Yeah.

Ben Case | I have access to. So I'd say, yeah, my color on market pricing and, and levels, comes primarily on a day-to-day basis from, our trading desk.

Ben Case | Okay, [inaudible] cool.

Ben Case | You know, I say secondarily from other market sources you know, people I talk to in the market, you know, other, you know, other stuff we see from, from, you know, either clients or other dealers or other parties in the market.
Ben Case: Would be your guy. Now, but you don’t have like I do, you don’t have street coverage, right, you’re not sitting there talking everyday to sales people at other firms, and to traders at other firms, or are you?

Ben Case: That’s correct.

Ben Case: You’re not. Okay, cool. All right. So I mean look, going forward, we’re, you know, kinda, gonna, you know I guess take under advisement, I, just so you know, my opinion stays the same, I’d like to see a bid list before three o’clock today.

Ben Case: OK.

Ben Case: We’re gonna, I guess take it under advisement, right, and consider it to evaluate. Not what are looking sort of, you know, we talked the last time about, you know, we feel like, all right, we’re at least partway through this short covering, there may or may not be more of these deals liquidating as we go into event of default, it will be sort of a tug of war between those two guys, you know, I don’t want to put words in your mouth, I, you know, that’s kind of what I’m thinking, would you agree generally with that statement?

Ben Case: Yeah, I, I do, I mean I think the, the majority of the flows, you know, that we estimate we will see on a going forward basis, is continued short covering, and then, you know, also, to whatever extent there are in the market, you know, CDO liquidations.

Ben Case: Yep.

Ben Case: And, yeah, I, the balance between those two, you know, kind of technically it’s probably gonna be the biggest driver of pricing, given.

Ben Case: Yep.

Ben Case: - you know, we expect those two phenomena to be the vast majority of flows in these exact types of CUSIPS. Yeah, and I say the short covering wave is, you know, it’s far enough along that it, you know, it feels like it’s closer to the end than the beginning.

Ben Case: Sure.

Ben Case: - I think last week I, you know, as I tried to amass, kind of across, you know the big macro guys, how much of, you know, their position that they want to get out of relatively in the future, have they already gotten out of?
<p>| Ben Case | And I think it's probably beyond half, I mean, I think it's somewhere between fifty and sixty percent - |
|          | Yeah. |
| Ben Case | Yep. So that's kinda where it was last week when we talked, right? |
| Ben Case | Yeah, I mean, maybe, you know, maybe it's marginally - |
|          | Little bit more. |
| Ben Case | Further, you know, we haven't seen this huge amount of activity in the last week - |
|          | Yeah that's a good point |
| Ben Case | obviously the conference last week kept things slow - |
|          | Yep. |
| Ben Case | So, you know, as that gets closer to the end, it's, you know, the upside down, down side balance changes, I would also say, you know, yes there are, I think at last count something like seventy-nine ABS CDOs in event of default - |
|          | Yep. |
| Ben Case | - and we've seen a handful, but it's certainly a single digit number - |
|          | Yep. |
| Ben Case | - proceeding with liquidations - |
|          | Okay. |
| Ben Case | And it's, you know, the greater the likelihood that a bigger number of magnitudes of move forward with liquidations, certainly is a big factor in changing the upside, downside balance - |
|          | Sure. |
| Ben Case | - holding versus liquidating - |
|          | Yep. |
| Ben Case | I, you know, I'd say it is not my expectation that imminently, we see - |
|          | -a bunch of liquidations. |</p>
<table>
<thead>
<tr>
<th>Ben Case</th>
<th>- you know, a lot more of, the seventy-nine, that have not started liquidation -</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Okay.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>immediately starting -</td>
</tr>
<tr>
<td></td>
<td>All right.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>But I do think the farther time goes -</td>
</tr>
<tr>
<td></td>
<td>Sure.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>you know, on the margin, the percentage chance of, that happening goes up, and the percentage chance that the short covering will affect pricing goes down, which is why, you know, I, right now, given all that, I don't see it, you know, being the best decision to wait until, very late in the twelve months -</td>
</tr>
<tr>
<td></td>
<td>Right.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>I think it's, you know, it's gonna be noticeably sooner than that. And it'll be, you know, how those two phenomena develop whether it's, you know, two weeks, a month, two months, whatever.</td>
</tr>
<tr>
<td></td>
<td>We'll see. Now what about fundamentals side, have you spent, you know, any time, either internally or externally or just for your own purposes, thinking about, you know, things like this lifeline thing, that we heard yesterday, or, you know, the fact that the HOPE NOW is kind of up and running and actually executing stuff, I mean, do you have any expectations for, you know, maybe, not for this particular set of assets but for the market more generally, you know, any hope really of any fundamental, you know, given the, given that we're working with this limited time frame for the documents, do you feel there's anything beyond sort of the technical nature of the markets that we've talked about in the past, that might help, or is that sort of, you know, like we're playing with technicians, and that's the nature of the beast at this point?</td>
</tr>
<tr>
<td>Ben Case</td>
<td>You know, the one thing, I mean, I think there is some chance, and I wouldn't necessarily call it a very high chance -</td>
</tr>
<tr>
<td></td>
<td>Yep.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>- but I think there is some, you know, some non-zero chance that, through these kind of programs, there will be, you know, a reasonable expectation of the market, of some lengthening of the foreclosure process -</td>
</tr>
<tr>
<td></td>
<td>Okay.</td>
</tr>
</tbody>
</table>
Ben Case: - and for the IO value on those kind of assets -

Okay.

Ben Case: - separate from technicals moving the price up and down, you know, all this stuff in terms of, loan modifications, and, you know, moratoriums on foreclosures, and, you know, pressuring, you know, servicers to, push for home retention -

Yep.

Ben Case: - programs as a bigger priority rela-

Have you thought about interest rates, you know, does that, is that enough to offset the lower liable running, you know, the points up front, you get paid to sell the protection here, what's your view kinda on the forward curve?

Ben Case: Yeah, I mean, look, you know, obviously, you know, the Fed has done what it's done, you know, it's down, significant from where it was, you know, there's more of that priced in, I'm somewhat agnostic, you know, kind of up or down on the forward curve from what's already priced in -

Okay.

Ben Case: - in terms of future Fed action, but, you know, the future Fed action, I mean, the expectations what's already priced in, you know I think it's real, and I'm not -

So you like the forward curve. You don't think it's been -

Ben Case: Yeah, I don't

- bent out of shape.

Ben Case: There's not a, I don't have a, strong view yeah that the forward curve is bent of shape in one direction or the other -

Okay.

Ben Case: - that would affect us.

All right. So last thing is, okay, let's say, all right, that's all great, you know, we can agree, I mean, there's a lot of that I agree with you with, I'm probably a little, obviously a little less optimistic about, you know, at least the short term prospects for any significant return of principal from, you know, from some of those initiatives for, at least this pool of assets.
<table>
<thead>
<tr>
<th>Ben Case</th>
<th>I agree with that, by the way, when I talk about lengthening the IO, it’s really, you know, the biggest or only possible factor, you know, when you talk about these kind of programs looking at, you know, what chance they’re gonna affect increased principal levels.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ben Case</td>
<td>Well, especially for these bonds, right?</td>
</tr>
<tr>
<td>Ben Case</td>
<td>Yeah, exactly. First you gotta look at the loan pool, and it’s, you know, maybe it’s marginal, but, you know, whatever effects it have I think are, gonna take much farther off the time for the market to get comfortable with, and incorporate in the pricing, it’s not a, you know, immediate next few months.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>Yeah.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>— phenomenon, and yeah, particularly with, you know, what kind of, you know, marginal effects it’ll have at the loan pool level relative to these kind of securities, yeah, I don’t think there’s much or any impact in terms of changing expectations for principal recovery or the lack thereof on these securities.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>Which is really, I mean that would be, if that, I mean that’s really the key to the, of a big change in price, right, I mean, that’s, you know, you can, we can move up in a plus or minus, three or four or five point range on technicals and IO but, to get any kind of real pop, would you agree that we need some sort of, you know, some sort of assumption by the market that, hey, wait a minute, we might be missing something here, maybe losses aren’t as bad as we think they’re gonna be? And that just seems pretty farfetched as this point.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>Yeah, you know, yeah, I think that’s right, that’s obviously gonna be much bigger magnitude than, you know, the IO, or the technicals, you know, yeah, and it’s, I mean, to some extent if you have a given security in the markets, pricing in, you know, zero probability of any principal recovery?</td>
</tr>
<tr>
<td>Ben Case</td>
<td>Yeah.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>Then there’s only one direction it could go, but I, the chance that it could move in that direction, at least in the next few months, you know, I mean, we’re not talking about, we have the choice here to wait, you know, five years or sell now.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>Right.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>— is de minimis I’d say.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>Okay. All right. So let’s switch gears now, just in terms of, you know, all right, let’s see now, I don’t know whether it’s a week, or two weeks, or a month, or whenever we get to the point where you, you know, start to initiate this process, you kinda decide that it’s the right time, what have you thought.</td>
</tr>
<tr>
<td>Ben Case</td>
<td>Sure. Let me give you the automated process.</td>
</tr>
<tr>
<td>----------</td>
<td>---------------------------------------------</td>
</tr>
<tr>
<td></td>
<td>- that we're required to file, and then I'll give you a couple of other thoughts related to the questions you've just asked.</td>
</tr>
<tr>
<td></td>
<td>- we, the process will be, we'll go out with, you know, one or more lists to a minimum of three nationally recognized broker dealers.</td>
</tr>
<tr>
<td></td>
<td>- making markets in these kind of assets.</td>
</tr>
<tr>
<td></td>
<td>- at the time we go out with it.</td>
</tr>
<tr>
<td></td>
<td>- you know, I'd say, right now my expectation is, there's no reason to limit it to three, you know, that's, you know, why not go to as many guys as possible.</td>
</tr>
<tr>
<td></td>
<td>- as many guys as we think could give us a price.</td>
</tr>
<tr>
<td></td>
<td>- to, you know, maximize the deal's chances of getting the best levels.</td>
</tr>
<tr>
<td></td>
<td>- so, you know, it's not that we do it in, you know, kind of one off negotiate a private transactions, it has to be done through that auction process, we have to.</td>
</tr>
</tbody>
</table>

Confidential Treatment Requested

HUD-CDO-00036904
Ben Case
- get the best levels of all we get, which are, you know, a minimum of three solicitations but, you know, more are permitted -

Right. But just like any manager you'd wanna try to broaden the net as wide as possible -

Ben Case
Yeah, yeah, absolutely, that -

Okay.

Ben Case
- it's in the best interest of the deal, I think.

Okay.

Ben Case
You know, in terms of whether it'd be driven by, you know, kind of, you know, flows we see from our clients on the flows of the market, I, yeah, I'd say that's, you know, just in terms of, you know, exact implementation of this process, you know, kind of all the color that we see and that's at our disposal, you know, will be used to try to do it in the most responsible manner -

Now the reserve levels apply, like do you have, you know, do you have ability, okay, so there's a decision about, okay, we're gonna do it on this day, and then as we get the prices in, like how much, you know, in terms of evaluating the prices themselves, I don't imagine that I, as a participant in the deal, you know, just like the equity or triple A's or anybody else, but, would be able to opine on whether or not you should hit bids, or lift off or some protection, how, have you thought about, you know, reserve levels apply in sort of your decision making process in regard to the actual bids when they come back?

Ben Case
Sure. You know, I'd say, there is no formal process built in to the deal by which we, you know, go out as if we're starting the official liquidation process for assets -

Okay.

Ben Case
- and then evaluate the reserve level and then pull back. You know, the formal process is, you know, we go out and we trade at the best level we get -

Okay.

Ben Case
- now I think, you know, we'll want to implement that as responsibly as possible, and certainly we, you know, we do have the ability, to outside of, whatever is the formal, official, you know, sale process -

Yep.
Ben Case: - prior to that, go out and solicit levels and decide not to trade, so, you know, we, I don't, I think when it makes sense for the deal, we're gonna want to implement it in, you know, just as straightforward a manner as possible -

---

Ben Case: - you know, but we're gonna be responsible about it, too, and it's, you know, we have some amount of, you know, decision in terms of, is this the formal last process that we're going out with, in which case we're required to sell at the best level, or is this a precursor to that, in which case -

---

Ben Case: - you know, there's no requirement on what we do.

---

Ben Case: So there could be some level, even at the individual line item asset of, you know, decision making that you could put into, okay, you know, goes, you know, we're not gonna sell protection on this thing, you know, or buy protection on this thing at ninety-nine and a half points up front, or something like that.

---

Ben Case: Yeah, I, you know, yeah, we're gonna want to be responsible about it, absolutely, and, you know, the other thing I'd say is in terms of how much do we put out at once, you know, one option is the whole thing in one, one slug -

---

Ben Case: - but we certainly also have the ability to do it in, you know, multiple phases, you know, I don't have a final decision on that for you, and that'll certainly be, you know, kind of, due to our valuation of market conditions this at the time, and we'll see how things go in the future, but my feeling is right now that, you know, a billion is a big list to put out in one day -

---

Ben Case: Yeah.

---

Ben Case: - and -

---

Ben Case: Didn't have to get to a billion, baby.

---

Ben Case: No, well, I hear ya. But it's, in terms of maximizing the -

---

Ben Case: Yeah, at this point it is what it is.

---

Ben Case: returns, in terms of maximizing the levels we get back -

---

Ben Case: Yep.
Ben Case: - it's not clear to me that putting out a billion or frankly anything close to that, is going to get us the highest levels back, so in terms of legging into with some kind of responsible manner, and certainly, we can put it out, and -

Ben Case: But if the deal doesn't restrict you necessarily from, but if the deal doesn't necessarily restrict you from executing on price X, Y or Z, why wouldn't you get as much information back as you possibly could about the widest net of asset.

Ben Case: Agree, other than if the size of the list initially affects the levels the guys are willing to give us.

Ben Case: Okay. So, sort of, you know, along the lines here, it sounds like I have, you know, you guys are gonna be involved in deciding not only when, but at the time when you decide it's sort of, you know, how, in terms of list size, and then even at the line item level there may be some level of decision about, you know, about price points.

Ben Case: Yeah, and I'd say, you know, look, if we're, you know, if we wanna do it in a couple of phases -

Ben Case: Yep.

Ben Case: - I, you know, my thought is obviously that, you know, the different line items that are gonna be at the highest dollar prices or lowest points up front -

Ben Case: Yep.

Ben Case: - have the, you know, most additional downside to waiting on them -

Ben Case: Right.

Ben Case: - versus the ones that are, you know, as close to zero or a hundred -

Ben Case: Sure.

Ben Case: points up front

Ben Case: - yeah, I mean, you know -

Ben Case: there's less you know, if you're putting those worst names out on a list of a hundred million or billion, there's only so much worse the price can get.

Ben Case: Not that much proceeds.

Ben Case: Right.
A billion doesn’t get so scary at ninety-nine and a half up.

Ben Case: So if we’re going to, you know, do it in phases rather than all at once, it would make sense to me to try to maximize value where there’s the most value to -

Okay.

Ben Case: - to be maximized.

Yeah.

Ben Case: In the you know, early part of that rather than later part of it.

Okay.

Ben Case: And I, you know -

All right.

Ben Case: - certainly give me, you know, any thoughts you have on anything specific I’m giving you like that, I know some of it is just, you know, we’ll evaluate it and be as responsible as possible as, you know, as we do it, but if you have other thoughts I’m happy to hear your thoughts too.

Yeah, I mean look, I think the key first step is, you know, I need to know, you know, when you guys, when you guys decide, or when you decide that this is the time, you know, I’m more than happy to engage in discussions with you about, you know, the execution side. I want to get a feel for it today, because we haven’t really spent a lot of time on that, and, it does sound like you guys are, it’s not there, at least getting closer to being there, you know, which is obviously given my stance, kind of music to my ears, and again, just for the record I, you know, I’d be happy if you, if you’d call me later today and told me it was this week, and at that time, again, more than happy to sort of talk about, you know, the execution strategy that we would prefer given that, you know, look, we still, we do that, we’ve been selling a lot of stuff lately, we’ve gotten pretty good at that, so, that’s it, but this is, look man, this is helpful.

Okay.

All right.

Ben Case: Cool.

So we’ll, touch base with you again next week.

Sounds good.

Ben,

JD from MS Prop would like to set up a conference call with you for early tomorrow morning - are you available? He'd like to get updates on the following:

1. With quarter end approaching - sensitivity on all SS positions - he wants to update everyone internally (particularly on Hudson) 2. In wake of recent market volatility with unwind of Peloton, wants to hear your market view at this point (remember last call we discussed our thoughts that market was going to rebound) 3. JD will give us an update on where they stand at this point
Perfect. Do we have a spreadsheet summary of this?

Permanent Submitter or Investigator
Wall Street & The Financial Crisis
Report Footnote #2613
March 10, 2008

John F. Kimbel, Esq.
Managing Director and
General Counsel of Institutional Securities
Morgan Stanley
1221 Avenue of the Americas
New York, New York 10020

Dear John:

I am responding to your letter of February 29, 2008 to Pablo Salame of Goldman Sachs regarding Goldman’s role as Liquidation Agent for Hudson Mezzanine Fund 2006-1, Ltd. ("Hudson") pursuant to a Liquidation Agency Agreement between Hudson and Goldman Sachs.

As a preliminary matter, we were surprised and disappointed to receive a letter voicing such serious accusations, without any prior dialogue among our respective legal professionals. We have always tried to maintain a professional working relationship between our institutions, and our firms have many communication channels that could have been exercised constructively before such a letter was sent. It would also not be our custom to have our lawyers initiate contact through your business professionals.

As to its substance, your letter is entirely mistaken in its suggestion that Goldman Sachs has somehow breached its obligations under the Liquidation Agency Agreement. As Mr. Pauloski’s letter recognizes, Section 2(h) of the Liquidation Agency Agreement specifically provides that Goldman, acting as Liquidation Agent, has up to twelve months in which to assign, terminate or otherwise dispose of Credit Risk Obligations assigned so that it is in the best interest of the Hudson. Obviously, establishment of a liquidation period of that duration is consistent with, and, indeed, consistent with Hudson’s informed consent – that the Liquidation Agent will necessarily exercise judgment in determining when and how to dispose of Credit Risk Obligations assigned so that it is in the best interest of the parties to require disposition in some kind of adversarial manner without regard to any market judgments or timing, the highly lawyered contract would have read very differently and judgments or timing, the highly lawyered contract would have read very differently and Goldman Sachs may well have declined to undertake such a constrained role.

Confidential Treatment Requested
Not does this expressly intended commercial ultimate transform Goldman Sachs into a de facto "investment advisor" to Hudson, as you suggest. The Agreements (Section 8) in fact categorically disclaims that Goldman Sachs or its affiliates will be providing investment advisory services or otherwise acting as an adviser or fiduciary to Hudson by virtue of its liquidation services. This disclaimer is perfectly consistent with discretion recently accorded to securities brokers in seeking to fulfill their obligation to obtain the best execution possible for their clients without making them "investment advisers." We assume that across Morgan Stanley's diverse brokerage businesses, including in the extent Morgan Stanley plays similar roles as a liquidator agent, your firm does not register as an investment adviser and follow the Investment Advisers Act simply by virtue of exercising such judgment and limited discretion.

In all events, we respectfully reject any suggestion that Goldman Sachs has failed to act in a commercially reasonable manner or in good faith in attempting to achieve an orderly liquidation of the Credit Risk Obligations in a challenging market environment.

To the contrary, Goldman Sachs has exercised its best judgment based on its expertise and the available information affecting these volatile markets. We note that although you clearly disagree with Goldman Sachs' judgments, you do not appear to contend that these judgments are not genuine or have been arrived at for a bad faith purpose.

Finally, we see no purpose at this time in addressing at length other matters raised by your letter, including the significant mischaracterization of Mr. Cohn's statement. Morgan Stanley's lack of standing even to advance many positions that are within the exclusive province of Hudson, and the partial effect on Morgan Stanley's contractual rights of the Agreement's broad circumscription and conflict waiver provisions provide sufficient response. Suffice it to say that Goldman Sachs will continue to perform its role in good faith, and we truly hope that Morgan Stanley will not escalate this matter into a needlessly legal dispute that will simply increase the costs for Hudson and the holders, given the Agreement's indemnification provisions. We are, of course, open to the views of Morgan Stanley and all other interested parties in this transaction. However, while it is obviously easy to criticize any judgment with hindsight, we believe that it would be more

Sincerely,

[Signature]

Subject: Hudson Mezz 2006-1 - Liquidation Agent trades

Erin,

Attached are details on today’s liquidations of Credit Risk Obligations from Hudson Mezz 2006-1. Trades listed with Lehman and Deutsche Bank will be novations — please follow the same novation protocol as last time. Trades with GS will be terminations. Trade levels are listed as the percentage of the notional amount that Hudson Mezz 2006-1 pays to the counterparties to novate or terminate, before adjusting for accrued interest.

Please let us know if you have any questions or need any more information.

Regards,
Ben

Goldman, Sachs & Co., as Liquidation Agent
85 Broad Street
New York NY 10004

June 6, 2008

To: The Issuers
   The Trustee
   (Each as defined in the Indenture referred to below)

Re: Hudson Mezzanine Funding 2006-1, Ltd. – Certain Dispositions

Ladies and Gentlemen:

Reference is made to the Indenture dated as of December 5, 2006 among Hudson Mezzanine Funding 2006-1, Ltd., Hudson Mezzanine Funding 2006-1, Corp. and The Bank of New York Trust Company, National Association, as Trustee (as the same may be amended, supplemented or otherwise modified from time to time, the "Indenture"). Capitalized terms used but not defined herein are used as defined in the Indenture.

The undersigned is the Liquidation Agent under the Liquidation Agency Agreement. The first sentence of Section 2(b) of the Liquidation Agency Agreement provides that the Liquidation Agent will, on behalf of the Issuer, pursuant to the terms of the Liquidation Agency Agreement, seize, terminate or otherwise dispose of (i) CDS Transactions held by the Issuer the Reference Obligations of which are determined by the Collateral Administrator, on behalf of the Issuer, pursuant to the Collateral Administration Agreement, to be Credit Risk Obligations and (ii) Delivered Obligations.

Attached hereto is a schedule of transactions effected pursuant to the first sentence of Section 2(b) of the Liquidation Agency Agreement during the period referred to in the schedules, together with certain related information.

The Liquidation Agent is providing this letter to the Issuers and the Trustee with the understanding that the Issuer is requesting that the Trustee promptly deliver a copy of this letter to each Noteholder.

Very truly yours,

Goldman, Sachs & Co., as Liquidation Agent

and under the exclusive control of the Trustee, to be held in trust for the benefit of the Secured Parties, as described herein. To the extent moneys deposited in a trust account exceed amounts insured by the Federal Deposit Insurance Corporation, or any agencies succeeding to the insurance functions thereof, and are not fully collateralized by direct obligations of the United States of America, such excess shall be invested in Eligible Investments pursuant to the Issuer Order.

ARTICLE 12

DISPOSITION OF COLLATERAL ASSETS

Section 12.1 Sale and Removal of Credit Risk Obligations and Defaulted Obligations.

(a) Provided that no Event of Default has occurred and is continuing and subject to the satisfaction of the conditions specified in Section 10.5 as applicable, and the remainder of this Section 12.1, the Collateral Manager may direct the Issuer to sell Credit Risk Obligations, Defaulted Obligations or equity securities or assign or terminate Synthetic Securities the Reference Obligations of which are Credit Risk Obligations, Defaulted Obligations or equity securities.

(b) The assignment, termination or disposition price for any such sale or removal of a Collateral Asset will equal the fair market value of such Collateral Asset. The fair market value of any such Collateral Asset will be the highest bid received by the Collateral Manager after attempting to solicit a bid from up to three independent third parties making a market in such Collateral Asset, at least one of which is not from the Collateral Manager, provided that, if upon commercially reasonable efforts of the Collateral Manager, bids from three independent third parties making a market in such Collateral Asset are not available, the highest of the bids from two such third parties may be used, provided, further that, if upon commercially reasonable efforts of the Collateral Manager, bids from two independent third parties making a market in such Collateral Asset are not available, one such bid may be used so long as it is not from the Collateral Manager. The proceeds from any such sale of Collateral Asset will be applied as Principal Proceeds on the next succeeding Payment Date and may not be reinvested in other Collateral Assets. The proceeds from the disposition of a Collateral Asset may not be reinvested in any other Collateral Asset.

(c) Equity securities received in exchange offers shall be sold as soon as commercially practicable in the Collateral Manager’s reasonable business judgment. Subject to applicable law, the Issuer shall use commercially reasonable efforts to sell any Margin Stock acquired by it by a date not later than 45 days after the date of the Issuer’s acquisition of such Margin Stock. The limits and time periods provided in this Section 12.1(c) may be extended subject to satisfaction of the Rating Agency Condition.

(d) If no Event of Default has occurred and is continuing, a Synthetic Security, if eligible for sale in accordance with Section 12.1(a) hereof, shall be assigned, terminated or sold (treating such assignment or termination as a sale for purposes of this Article 12) as directed by the Collateral Manager on behalf of the Issuer. Any cash received in payment of principal on or
upon the liquidation of Default Swap Collateral or Synthetic Security Collateral (not of any
amounts payable to the Synthetic Security Counterparty) shall be deemed to be Principal
Proceeds.

(e) The Issuer may also,

(i) in the case of an Optional Redemption by Liquidation, at the direction of
the Collateral Manager, direct the Trustee to sell, terminate or assign and the Trustee
shall sell, terminate or assign in the manner directed by the Collateral Manager in writing,
the Collateral Assets without respect to the limitations of Section 12.1(a), (b), (c) or (d)
hereof and the remaining Collateral; provided that the requirements set forth in Sections
9.1(a) and 9.2 hereof can be demonstrably met prior to any such sale, and that the
proceeds from such sale, determined in accordance with the criteria for an Optional
Redemption by Liquidation, will equal or exceed the Total Redemption Amount, and
upon such sale the Trustee shall release such Collateral from the lien of this Indenture;

(ii) in the case of a Tax Redemption, at the direction, or with the consent, of
the Collateral Manager on any Payment Date, direct the Trustee to sell, terminate or
assign, and the Trustee shall sell, terminate or assign in the manner directed by the
Collateral Manager in writing, the Collateral Assets without respect to the limitations of
Section 12.1(a), (b), (c) or (d) above and the remaining Collateral; provided that the
requirements set forth in Sections 9.1(b) and 9.2 hereof can be demonstrably met prior to
any such sale, and that the proceeds from such sale will equal or exceed the Total
Redemption Amount, and upon such sale the Trustee shall release such Collateral from
the lien of this Indenture; and

(iii) if, in connection with an Auction, the Collateral Manager receives timely
bids (which are each "firm offers") that are, in the aggregate, at least equal to the
Minimum Bid Amount, at the direction of the Collateral Manager, direct the Trustee to
sell, terminate or assign and the Trustee shall sell, terminate or assign the Collateral
Assets in the manner directed by the Collateral Manager in writing; provided further that,
the procedures set forth in this Indenture and in Schedule E of this Indenture, as
applicable, are satisfied.

Section 12.2 General Cashflow Swap Agreement Provisions.

(a) On the Closing Date, the Issuer shall enter into a Cashflow Swap Agreement
with Goldman Sachs International as initial Cashflow Swap Counterparty, provided that the
Issuer may replace the Cashflow Swap Agreement but shall not enter into any additional hedge
agreements after the Closing Date.

Pursuant to the Cashflow Swap Agreement, on each Payment Date occurring
through the termination of the Cashflow Swap Agreement in accordance with the Priority of
Payments, the Issuer will pay certain amounts due to the Cashflow Swap Counterparty in
accordance with the Cashflow Swap Agreement and the Cashflow Swap Counterparty will make
advances to the Issuer in accordance with the Cashflow Swap Agreement.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825708
(b) The Issuer shall ensure that the Cashflow Swap Agreement shall provide that the Cashflow Swap Counterparty will agree (a) that the Issuer's obligations under the Cashflow Swap Agreement are limited recourse obligations of the Issuer payable solely from the Collateral and subordinated as set forth in the Priority of Payments, (b) to a standard non-petition clause, and (c) such Cashflow Swap Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.

(c) Pursuant to the initial Cashflow Swap Agreement, the Issuer may terminate the initial Cashflow Swap Agreement if (A) Moody's First Rating Trigger Requirements apply and 30 or more local business days have elapsed since the last time the Moody's First Rating Trigger Requirements did not apply and Goldman Sachs International has failed to comply with or perform any obligation to be complied with or performed under the Credit Support Annex, and (B) (i) the Moody's Second Rating Trigger Requirements apply and 30 or more local business days have elapsed since the last time the Moody's Second Rating Trigger Requirements did not apply and (ii) an Eligible Replacement has not become the transferee of a transfer made in accordance with Part 5(4) of the Cashflow Swap Agreement, subject to satisfaction of the Rating Agency Condition and/or (ii) an entity with the Moody's First Trigger Required Ratings has not provided an Eligible Guarantee in respect of all of the initial Cashflow Swap Counterparty's present and future obligations under the Cashflow Swap Agreement;

(d) The Collateral Manager may cause the Issuer, promptly following the early termination of the Cashflow Swap Agreement (other than on a Final Payment Date) and to the extent possible through application of funds available in the Cashflow Swap Termination Receipts Account, to enter into a replacement Cashflow Swap agreement (a "Replacement Cashflow Swap") which may have different terms; provided that the Rating Agency Condition is satisfied.

(i) If (A) the funds available in the Cashflow Swap Termination Receipts Account exceed the costs of entering into a Replacement Cashflow Swap, (B) the Collateral Manager determines not to replace the terminated Cashflow Swap Agreement and the Rating Agency Condition is satisfied, or (C) the termination is occurring with respect to a Final Payment Date, then amounts in the Cashflow Swap Termination Receipts Account (after providing for the costs of entering into a Replacement Cashflow Swap, if any) shall be transferred to the Collection Account on the next following Transfer Date and shall be treated as Principal Proceeds and distributed in accordance with the Priority of Payments on the next Payment Date (or on such Final Payment Date, in the event the Notes are redeemed).

(ii) If the Cashflow Swap Agreement is terminated and the costs of entering into a Replacement Cashflow Swap exceed the funds credited to and available therefor in the Cashflow Swap Termination Receipts Account, then, after using the funds in the Cashflow Swap Termination Receipts Account, the Issuer may enter into a Replacement Cashflow Swap with such Cashflow Swap Replacement Amount payable to the replacement Cashflow Swap Counterparty in accordance with Section 11.1(a)(v) hereof on subsequent Payment Dates or, if such termination would result in a Defaulted Cashflow Swap Termination Payment, in accordance with Section 11.1(a)(viii) hereof on subsequent Payment Dates.

Confidential Treatment Requested by Goldman Sachs
Footnote Exhibits - Page 5310

(e) The amounts in the Cashflow Swap Replacement Account shall be applied directly to the payment of termination payments owing to the Cashflow Swap Counterparty, if any. To the extent not fully paid from Cashflow Swap Replacement Proceeds, such amounts shall be payable to the Cashflow Swap Counterparty in accordance with Section 11.1(a)(v) hereof on subsequent Payment Dates or, if such termination payment is a Defaulted Cashflow Swap Termination Payment, in accordance with Section 11.1(a)(viii) hereof on subsequent Payment Dates. To the extent that the funds available in the Cashflow Swap Replacement Account exceed any such termination payments (or if there are no termination payments), the excess amounts in the Cashflow Swap Replacement Account shall be transferred to the Collection Account on the next Transfer Date and shall be treated as Principal Proceeds and distributed in accordance with the Priority of Payments on the next Payment Date. If the termination amounts owing to the Cashflow Swap Counterparty exceed the Cashflow Swap Replacement Proceeds for such agreements, then, unless such amounts represent Defaulted Cashflow Swap Termination Payments, they will be paid before funds are applied to pay principal or interest on any Notes (except the Class S-1 Notes) in accordance with the Priority of Payments.

(f) The Issuer shall ensure that the Cashflow Swap Agreement may be terminated, whether or not the Notes have been paid in full or prior to such termination, upon, among other things, (i) certain events of bankruptcy, insolvency, conservatismhip, receivership or reorganization of the Issuer or the Cashflow Swap Counterparty, (ii) failure on the part of the Issuer or the Cashflow Swap Counterparty to make any payment under the Cashflow Swap Agreement within the applicable grace period, (iii) certain withholding or other taxes being imposed on payments to be made under the Cashflow Swap Agreement as set forth in Sections 5(h)(ii) and (iii) of the ISDA Master Agreement (incorporated in the Cashflow Swap Agreement), (iv) a change in law making it illegal for either the Issuer or the Cashflow Swap Counterparty to be a party to, or perform an obligation under, the Cashflow Swap Agreement, (v) an Event of Default under the Indenture occurs and is continuing and there has been a liquidation (in whole), or the commencement of a liquidation (in whole) of assets of the Issuer, (vi) the Indenture is supplemented or amended without the consent of the Cashflow Swap Counterparty as described therein, (vii) the Cashflow Swap Counterparty is no longer a Secured Party under the Indenture or (viii) the aggregate Principal Balance of the Collateral Assets becoming less than U.S.$50,000,000. Notwithstanding the foregoing, the Issuer will not optionally terminate any Cashflow Swap Agreement unless the Rating Agency Condition is satisfied in connection with such termination.

(g) In the event of the occurrence of an Optional Redemption by Liquidation, Tax Redemption or a successful Auction, if the Cashflow Swap Agreement is terminated in accordance with its terms, the Collateral Manager, on behalf of the Issuer, shall furnish to the Trustee evidence in form and substance satisfactory to the Trustee that the Collateral Manager on behalf of the Issuer has entered into one or more binding agreements (i) for the purchase of the Collateral with purchasers or counterparties whose short term debt ratings are "P-1" by Moody's and "A-1+" by S&P and (ii) for the pricing of termination payments under the Cashflow Swap Agreement, and which agreements provide for the purchase of the Collateral Assets and the termination of the Cashflow Swap Agreement in 10 days or less from the date thereof and that such redemption is non-revocable.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021925710
(b) The Trustee shall credit to the Cashflow Swap Collateral Account all amounts, securities and other collateral that are received from the Cashflow Swap Counterparty to secure the obligations of the Cashflow Swap Counterparty in accordance with the terms of such Cashflow Swap Agreement. Each item of collateral credited to the Cashflow Swap Collateral Account will be credited to a separate sub-account relating to the Cashflow Swap Counterparty which pledged such collateral. Except for investment earnings, the Cashflow Swap Counterparty shall not have any legal, equitable or beneficial interest in any Cashflow Swap Collateral Account other than in accordance with this Indenture, the applicable Cashflow Swap Agreement and applicable law.

As directed by an Issuer Order executed by the Collateral Manager in writing and in accordance with the Cashflow Swap Agreement (which may be in the form of standing instructions), amounts credited to a Cashflow Swap Collateral Account shall be invested in investments meeting the criteria of "Eligible Investments" unless otherwise specified in the Cashflow Swap Agreement (provided, for the avoidance of doubt, that such investments shall not constitute "Eligible Investments" for purposes of the Coverage Tests). Income received on amounts credited to the Cashflow Swap Collateral Account shall be withdrawn from such account and paid to the Cashflow Swap Counterparty in accordance with the applicable Cashflow Swap Agreement.

Section 12.3  Reserved.

Section 12.4  Reserved.

Section 12.5  Synthetic Securities.

(a) Under certain conditions described in the Synthetic Securities, each Synthetic Security Counterparty may be required to post Synthetic Security Collateral under the circumstances and as described in the Synthetic Securities. The Synthetic Security Collateral pledged by such Synthetic Security Counterparty will be credited by the Trustee to the Synthetic Security Collateral Account and held therein pursuant to the terms of the related Synthetic Security. Each item of collateral credited to the Synthetic Security Collateral Account will be credited to a separate sub-account relating to the Synthetic Security for which the related Synthetic Security Counterparty has pledged such collateral.

(b) The Synthetic Securities shall be structured as "pay-as-you-go" credit default swaps. As part of the purchase of each Synthetic Security on or before the Closing Date, the Issuer will be required to purchase Default Swap Collateral which satisfies the Default Swap Collateral Eligibility Criteria set forth in the related Synthetic Security and the inclusion of which has been consented to by the Synthetic Security Counterparty in the amount required to secure the obligations of the Issuer in accordance with the terms of the related Synthetic Security which shall be in at least an amount equal to the Aggregate Reference Obligation Notional Amount. The Synthetic Security Counterparty shall have consent rights with respect to the Default Swap Collateral and no Default Swap Collateral objected to by the Synthetic Security Counterparty may be purchased by the Issuer. Default Swap Collateral shall be credited to the Default Swap Collateral Account. The amount payable by the Issuer to the Synthetic Security Counterparty under a Synthetic Security shall not exceed the Default Swap Collateral.

Confidential Treatment Requested by Goldman Sachs  GS MBS-E-021825711
Footnote Exhibits - Page 5312

Interest payments and redemption premiums, dividend distributions or investment earnings on and any fees paid with respect to the Default Swap Collateral shall constitute property of the Issuer and shall be paid to the Trustee and credited to the Collection Account and treated as Proceeds unless such amounts are required to be paid to the related Synthetic Security Counterparty under the terms of the related Synthetic Security. Principal payments on the Default Swap Collateral prior to the termination of the Synthetic Security shall be held in accordance with such Synthetic Security in the Default Swap Collateral Account and invested in Eligible Investments until reinvested in Default Swap Collateral at the direction of the Collateral Manager on behalf of the Issuer with the consent of the Synthetic Security Counterparty.

In the event a Synthetic Security is terminated prior to its scheduled maturity without the occurrence of a Credit Event or a Floating Amount Event, the Collateral Manager on behalf of the Issuer shall cause such portion of the related Default Swap Collateral chosen by the Synthetic Security Counterparty as may be required to make any Synthetic Security Termination Payments, to be liquidated and any such Synthetic Security Termination Payments to be paid directly to the Synthetic Security Counterparty; provided that, in the case of Defaulted Synthetic Security Termination Payments, such amounts will be deposited to the Collection Account and paid in accordance with the Priority of Payments. The Synthetic Security Counterparty will bear any market risk on the liquidation of the Default Swap Collateral. The remaining related Default Swap Collateral to the extent not required to remain credited to the Default Swap Collateral Account and pledged to the Trustee for the benefit and security of the related Synthetic Security Counterparty shall be credited to the Collection Account. In the event that no Credit Event or Floating Amount Event under a Synthetic Security has occurred prior to the termination or scheduled maturity of the Synthetic Security, the Collateral Manager on behalf of the Issuer shall cause such Default Swap Collateral to be credited to the Collection Account.

The Synthetic Securities provide for cash settlement or physical settlement upon the occurrence of a Credit Event or Floating Amount Event under a Synthetic Security at the Synthetic Security Counterparty's choice. If the Synthetic Security Counterparty has chosen cash settlement, the item of Default Swap Collateral chosen by the Synthetic Security Counterparty after the application of any cash and Eligible Investments credited to the Default Swap Collateral Account will be sold by the Trustee to a buyer agreed upon by the Collateral Manager and any amounts owed to the Synthetic Security Counterparty and any amounts due to the Trustee will be paid from the sale proceeds. In the event such liquidation proceeds are less than par, the Synthetic Security Counterparty will accept the liquidation proceeds applicable to the face amount of Default Swap Collateral sold which is equal to the amount due to the Synthetic Security Counterparty. Any Proceeds not of purchased accrued interest or interest payments received upon the maturity or liquidation of a Deliverable Obligation shall be deposited to the Default Swap Collateral Account. In the event a Credit Event has occurred and the Issuer is required to liquidate Default Swap Collateral and deliver cash to the Synthetic Security Counterparty, the Synthetic Security Counterparty will bear any market risk on the liquidation of the Default Swap Collateral. If the Synthetic Security Counterparty has chosen physical settlement, the Default Swap Collateral chosen by the Synthetic Security Counterparty will be delivered to the Synthetic Security Counterparty in exchange for the related Reference Obligation.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825712
Footnote Exhibits - Page 5313

Any Default Swap Collateral credited to the Collection Account and any related Reference Obligation delivered to the Issuer whether either of such satisfies the definition of an Eligible Investment or qualifies as a Collateral Asset in the business judgment of the Collateral Manager may be retained or sold by the Issuer at the direction of and in the sole discretion of the Collateral Manager without regard to whether such sale would be permitted as a sale of a Defeated Obligation or a Credit Risk Obligation. Any Proceeds net of purchased accrued interest or interest payments received upon the maturity or liquidation of the Default Swap Collateral credited to the Collection Account shall be deposited to the Default Swap Collateral Account.

Upon the occurrence of any Interest Shortfall with respect to any Reference Obligation, the Fixed Amount payable under the related Synthetic Security by the Synthetic Security Counterparty to the Issuer will be reduced by an amount equal to the related Interest Shortfall Payment Amount, such reduction amount not to exceed the Fixed Amount, if "fixed cap" is applicable, or such reduction amount not to exceed the applicable floating cap, if "variable cap" is applicable, as described in such Synthetic Security. If any amount in satisfaction of the Interest Shortfall which gave rise to any Interest Shortfall Payment Amount, including interest accrued thereon, is later paid with respect to a Reference Obligation, the Synthetic Security Counterparty will pay such amount, or in certain circumstances a portion of such amount to the Issuer as an Interest Shortfall Reimbursement. Interest Shortfall Reimbursement Amounts will not exceed the cumulative Interest Shortfall Amounts (including any interest thereon) previously determined in relation to such Reference Obligation.

So long as the long-term ratings of the Synthetic Security Counterparty or any guarantor of the Synthetic Security Counterparty's obligation under a Synthetic Security are equal to or higher than (i) "Aa3" by Moody's (and, if rated "Aa3" by Moody's, is not on watch for possible downgrade) and (ii) "AA-" by S&P (and, if rated "AA-" by S&P, is not on watch for possible downgrade), the Fixed Amount due by the Synthetic Security Counterparty will be payable in arrears. However, if the long-term ratings of the Synthetic Security Counterparty or any guarantor fall below any such levels, the Synthetic Security Counterparty will be required to pay the Fixed Amount due under the Synthetic Securities in advance. The failure of the Synthetic Security Counterparty to pay the Fixed Amount in advance if such rating levels are no longer satisfied will constitute an "event of default" under the terms of the Synthetic Securities with the Synthetic Security Counterparty as the sole "Defeasing Party" under such Synthetic Security.

With respect to any Write-down Amount or Interest Shortfall Amounts received after the long-term rating of the Synthetic Security Counterparty is below "AA-" by S&P, the Synthetic Security Counterparty will be required to reserve the related Write-down Reserve Amount and the related Interest Shortfall Reserve Amount in the Synthetic Security Collateral Account in accordance with the terms of the Synthetic Security.

The Issuer will pay certain Floating Amounts to the Synthetic Security Counterparty following the occurrence of a Floating Amount Event with respect to a Reference Obligation. The Issuer will pay Floating Amounts to the Synthetic Security Counterparty on the Floating Rate Payer Payment Date following the occurrence of a Floating Amount Event with respect to the referenced Reference Obligation.

123

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825713
Following the occurrence of a Credit Event with respect to a Reference Obligation, the Synthetic Security Counterparty may deliver such Reference Obligation as a Deliverable Obligation to the Issuer, in exchange for which the Issuer will pay to the Synthetic Security Counterparty an amount (a “Physical Settlement Amount”), which amount shall be calculated in accordance with the related Synthetic Security and paid on the related Physical Settlement Date. The Synthetic Security Counterparty may elect to physically settle a Synthetic Security only in part, in which case, there may be more than one Physical Settlement Amount payable by the Issuer with respect to such Synthetic Security.

Any Deliverable Obligation delivered to the Issuer may be retained or sold by the Issuer at the sole discretion of the Collateral Manager without regard to whether such sale would be permitted as a sale of a Defaulted Obligation or a Credit Risk Obligation. The proceeds of such sale will be deposited by the Trustee into the Default Swap Collateral Account net of purchased accrued interest or interest payments thereon. In addition, any proceeds of interest received on such Deliverable Obligations prior to such sale will be deposited by the Trustee into the Collateral Account.

In connection with any early termination or assignment of a Synthetic Security, the Issuer may owe a Synthetic Security Termination Payment. Synthetic Security Termination Payments will generally be paid directly and outside of the Priority of Payment; provided that Defaulted Synthetic Security Termination Payments will be paid in accordance with the Priority of Payments.

The Issuer shall satisfy the Rating Agency Condition prior to any (i) replacement of the Synthetic Security Counterparty or (ii) assignment of the Synthetic Securities.

The Synthetic Securities may be amended only with (i) the satisfaction of the Rating Agency Condition and (ii) the consent of the Collateral Manager (which consent shall not be unreasonably withheld); provided however, that with respect to (i), such condition need not be satisfied with respect to any amendment that corrects a manifest error.

All principal payments on the Default Swap Collateral in the Default Swap Collateral Account will be invested in Eligible Investments at the direction of the Trustee until invested in Default Swap Collateral satisfying the Default Swap Collateral Eligibility Criteria at the direction of the Collateral Manager with the consent of the Synthetic Security Counterparty. Notwithstanding the foregoing, if and as long as the unsecured, unsubordinated credit rating of the Synthetic Security Counterparty or the credit support provider for the Synthetic Security Counterparty, whichever is higher, assigned by Moody’s is below “A1”, all principal payments on the Default Swap Collateral and Eligible Investments in the Default Swap Collateral Account will be maintained in Cash and Eligible Investments (unless otherwise required to be applied, in accordance with the terms of this Indenture, to either (i) the payment of the Notes or other amounts in accordance with the Priority of Payments or (ii) the payment of Credit Protection Amounts) until such time as the Balance of the Cash and Eligible Investments in the Default Swap Collateral Account is equal to the Aggregate outstanding Amount of the Class A Notes and the Class B Notes. Furthermore, all principal payments on the Default Swap Collateral and Eligible Investments in the Default Swap Collateral Account will be maintained in Cash and Eligible Investments (unless otherwise required to be applied, in accordance with the terms of

I think that would be helpful. I thought a scrub occurred at the end of the first quarter to identify the open items, I am aware of a number of them. You should coordinate with John McHugh who already has put together a list. Also, talk to Turk who I think was involved in the Q1 scrub.

Thanks, and please keep me posted and informed real time on how it progresses.

thanks clark,

in some sense, this is even more concerning to me. our processes have failed in a deeper way if some ops & controllers etc... were aware but (as seems to be the case) none of the people in the email list know. awaiting for john's list which i suppose will be a survey of what various constituencies know. in my opinion a reconciliation is warranted here. by this i mean reviewing all trades in areas that with your help we can identify as potentially having such issues and going through the chain. i think this would give us comfort and also be the opportunity to get everyone on the same page.

i'd be very happy to coordinate such an effort. having representatives from ops/controllers/i/bd/strats & ourselves work together to that effect.

pl let me know your thoughts,

sim

Cc: Pelaez, Albert
Subject: RE: Peloton pricing today

Peter/Matt - will spreads on the AAA default swap collateral be easily observable? how wide is the range of eligible assets (in terms of sectors, etc)?

Mike - do you expect any difficulties with modeling the put (that may include collateral from various sectors, of which the makeup could change, etc)? would you expect the value of the collateral puts to be material (or at least materially off from the $0/R estimate below)?

Even though the ABAACUS puts are different, we are trying to stay consistent in terms of P&L recognition - I believe those puts are modeled based on the actual collateral spreads (which is assessed for observability) and stressed value was asked their opinion on the materiality of the put value

does the termination arrangement match on your sell side? is there a chance you would incur unwind costs in excess of what you received from the CDO?

1. If the deal is called and there are termination payments payable to GS - those would come from default swap collateral

2. The default swap collateral is managed by the collateral manager, with approval rights by Goldman, there is predetermined criteria as to the composition of the account, so as assets in the account may pre-pay, they will still be subject to the criteria established in the indenture

3. Investors.

Peterinat - a few questions:
1. If the equity investor calls the deal in 3 years - are there agreed upon unwind costs and what happens in terms of your sell trades (trying to determine what type of risk you have there)?
2. After default swap collateral is reinstated to the CDO, how much ability do you have to change the makeup and do you decide where principal paydowns are reinvested?
3. Who gets the benefit if the default swap collateral is sold above par - GS or investors?

We are currently discussing modelling/observability with the appropriate people on our end.

thanks

Can we agree on how we want to treat P&L on Peloton relative to the put swap? We expect P&L of over $1mm for the stop reduction in the CUS premiums. I propose we

Subject: Unbought CDO Put issue

Hi Phil, Steve,

Wanted to come back with more color on the issue that was raised yesterday with regards to unbought CDO puts. Below is a high level summary of the issue, current process, and proposed solution. This was vetted today with Steve and the desk (Sparkt was part of the conversation as well).

This is being bumped up the Strait priority list in terms of getting a tradable issue for this. There is a follow up meeting next week which my team will attend as well. I believe some of the email correspondence forwarded by Steve indicated that there were upwards of 2 dozen trades potentially unbought. This number is actually 16. Steve we should probably log those as violations until the tradable is in place.

The bottom line on this is for the trades where this put option was not booked. Ops were not aware there was a put. It seems that although it has now come to light that this is a feature of all synthetic CDOs that we do - each deal team on the GS CDO desk documented and communicated this differently.

Please let me know if you'd like to discuss live at some point. Apologies, I realize this is a lot of information, but wanted you to have all the facts. It might be easier for us to put together a simple diagram for you to speak to.

Mechanics of CDO Put Option:
- For all GS underwritten Cash CDOs that have MTG Credit Default swaps in them - GS CDO desk is Buying Protection from the SPV/CDO
- The CDO Desk/Manager selects the cash bond default swap collateral (1-3 year duration & AAA rated) to coincide with the total notional of MTG CDS trades that GS is buying protection on.
- The SPV wakes the Put Option with the GS CDO desk which effectively means:
  - In the event of a CDS Credit Event, the GS trading desk will instruct the Trustee/SPV to liquidate a specific default swap collateral asset (if cash is not available) to pay GS as protection buyer on the CDS

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-015192547
Footnote Exhibits - Page 5320

- Ex: 1m Credit Event has occurred then 1m of Default Swap Collateral will need to be liquidated to cover the CE payment.
- The risk the desk is bearing is the difference the default swap collateral per value compared to the current market level. I think the risk here in terms of asset quality is low, we're basically writing a put to liquidate AAA rated securities at Par.

Current Put Option Booking Status: 22 Deals with the Put Option Feature
- 4 Deals that do have a Put Option Booked:
  - For these trades, Ops know about the Put as there was a confirmation and a trade booked.
  - The confirm went through our ETR process and was executed by both the 3PV and GS
- 18 Deals that do not have a Put Option Booked:
  - For these deals, there was no mention of a Put at all at the time of closing.
  - There was no derivative confirmation
  - The Put option was embedded into the deal documents (Indenture, Offering Circular, etc) — both of which are reviewed by outside counsel and GS legal as normal course of business — but are not reviewed by Operations.
  - For these trades, an intermediation fee was being taken on the CDS trades, but no specific Put was booked in our systems.
- The original explanation from the desk was the intermediation fee was being taken for the risks associated with standing in between the Street and the deal with no mention of the Put.

Proposed Solution (draft):
- A new model will need to be created (Projected Time Frame by this Quarter’s End)
- Stana & CDO Desk will assign one designated person on the project
- Once model is approved the un-booked Puts from past deals will be booked in Mgt TAP
- The un-booked Puts would be booked to reflect the risk but with 0 bps fee since the fee is already taken on the single names (mentioned above)
- Amend the existing Put Options booked to the new calculator

AAA paper held in trust that collateralizes CDS contracts. GS writes put on these in
situation where there's a credit event.

I am not responsible for the pricing of the collateral securities, but Bieber and I are going to appoint someone to monitor the collateral MTM on a regular basis and provide you with updated pricing

Agree we need to monitor these on a regular basis
We will come back to you on this shortly

David
We understand that you are responsible for marking the collateral in relation to the below CDO's. Is that true? If so can you please put us on your distribution list for these. We have some sizable in the money swap positions (i.e. CDO owes GS) and Credit needs to monitor these positions vs. collateral market value. Thanks
Pat

Yes - What do you think of this? Bruns?

I like Connie.

Possible to have someone on abs trading desk be point of contact for her w/ the collateral? Bruns or Kaufman?

Let's put someone in charge of AAA collaterals (including MTM each month) Nilya and Connie?

I don't think it needs to be daily. They are looking at counterparty MTM exposure and are seeing bid ask. I think it makes sense - Daily? Or as part of the month-end mark process?

Subject: RE: Timberwolf Report

CDS across all of our transactions are in the money. We've had conversations at length with credit regarding our exposure to the default swap collateral and are setting ourselves up for weekly monitoring/pricing of the default swap collateral across the CDS business.

We have discretionary approval over default swap collateral, however, it will be difficult for us to take the non-reinvestment approach.

Subject: RE: Timberwolf Report

We need to start monitoring MIM of the CDS collateral for the Wolf, given how much in the money the CDS are -- right now, average bid side for the AAA cash bonds is approx 66.99 - per Mahesh analysis below. Matt/Mahesh -- maybe we should look at the collateral reinvestment provisions in this deal - ideally principal proceeds on the CDS collateral should not be reinvested but I guess Greywater has discretion on this, right?

David,

Please find attached calculations of IC ratios with and without investing in AAA securities for CDS collateral. Let us know when you have some time to discuss. Aladdin is asking for approval on another purchase of assets for CDS collateral. Would like to discuss with you and finalize our approach before getting back to them.

Thanks,
Corrie

Subject: RE: Default Swap Collateral

David Matt,

I have added these fields: WA spread on the CDS facing the deals and NPV (WA and total) as discussed on Friday. I can send over what I have done so far if you prefer, if not I can add in the remaining marks on tomorrow morning and send in a completed version. Please let me know.

Thanks

Total: 1,431,55 | 3,866,625,76 | 2,834,580,052.00
Have added Total National of the CDS trades as well. Also, just to clarify, Hudson Mezz 1 and Point Pleasant had Unheded Super Seniors. In the case of Point Pleasant, we face XIS on 700mm approx of CDS trades the rest were shorted to the deal directly by (XIS) and the defualt Swap collateral per at closing = $1.0000 - 400.404m = 605.196m.

Thanks

David/Max/Ujon
Please find attached I have updated the marks on the underlying bonds. Please let me know if there are any questions.

Ok. I think we should be proactive in letting mangers know, then, rather than waiting for them to come to us for approval and then denying. There are a couple of one off situations which we should go through tomorrow morning.

Subject: RE: Default Swap Collateral Reinvestment

Was there any further discussion over the past few days on what we're going to be doing? With the 25th coming up, I suspect a bunch of managers are going to be looking to put cash to work....

Subject: RE: CDS Collateral re-investment

Marty,

Good speaking to you today. As discussed:

CMBS-CROSS, DOAMP, IPMAC, WIFER
CARRIS: ANOGA, BACOT, BOIT, MBNAS, COOG, CHAF, DONT
AUTO: DPAP, DDMOT, FORID, HARDOT, HOMOT, NALT, USAOT
STUDENT LOANS: ACCSIS, GODE, KSLT, NOILT, MLA (FISSL)

Generally speaking, looking at securities that are currently amortizing with average lives of less than 2 years.

Also, please make sure Matt Bieber is included in trade-by-trade approval requests.

Regards,

Ben

Subject: CDS Collateral re-investment

Ben -

We, at the direction of Connie and Roman, have not been reinvesting CDS collateral as it matures.
Footnote Exhibits - Page 5376

We've brought the topic up a few times over the past few months with your team. Last I heard, you were re-evaluating the market, and would come back to us with a breakdown of acceptable replacements. As the cash balances continue to grow, I'd like to address this issue, as the amount of cash drag is beginning to become meaningful.

Thank you in advance,

MC

Roman:

We are doing our credit work on these 3 bonds which are shown on the GS inventory sheet. If we get comfortable with these positions, would GS be ok adding them to Timberwolf as Default Swap Collateral? We should be done with our credit work today.

Thanks, Joe.

Confidential Treatment Requested by Goldman Sachs
David, as we discussed yesterday, I believe that yours is the best angle to approve the purchase of any additional Default Swap Collateral into Timberwolf is unreasonable and inconsistent with the way the transaction structure was originally presented to us. We were told that the purpose of the approved rights was to permit GS to review specific assets and approve or disapprove specific assets based on their relative credit metrics. If we thought for a second that you had the right to prohibit all new purchases indefinitely, we would have implemented the much simpler CDO structure that is used in most other synthetic CDOs and CDO2 transactions and thereby locked in a fixed spread to LIBOR for the term of our transaction. Also, the Timberwolf CDS economics are still on-going fire to GS for the put swap component of the trade; we would not have agreed to those terms if we thought you had this option. Finally, I believe that if anyone on the deal team thought you had this option, it would have been clearly disclosed in the OM. Specifically given current market conditions, I am surprised that you are taking a position that will directly result in less cash flow being available to debt and equity investors. As I said yesterday, we recognize the impact of current market conditions and, even before I spoke with Matt, I was suggesting we collectively focus on shorter average life AAA RMBS for the deal and I specifically solicited feedback on securities where GS would be comfortable. I continue to be surprised by your response, Joe.

Subject: FW: Timberwolf -- Default Swap Collateral

Impotance: High

David: I would like to have a call with you to discuss the purchase of Default Swap Collateral into Timberwolf. I understand you are traveling this week. Let me know when you will have some time to talk. In response to the attached message, Matt told me that GS will not approve the purchase of any additional Default Swap Collateral into Timberwolf. With that, GS does not expect any consent rights regarding the purchase of Default Swap Collateral, is blocked from approving any assets is inappropriate, inconsistent with the parties’ original expectations and will negatively impact the performance of both the debt and equity issued by Timberwolf. Give me a call when you can. Joe.

Subject: Timberwolf -- Default Swap Collateral

Roman:

We are doing our credit work on these 3 bonds which are shown on the GS inventory sheet. If we get comfortable with these positions, would GS be ok adding them to Timberwolf as Default Swap Collateral? We should be done with our credit work today.

Thanks, Joe.

FOIA Confidential Treatment
Requested by Greystone Capital Management LP
Pursuant to 17 C.F.R § 200.83

GW 107914
Bob,

With respect to your second question below, as noted in my letter of December 21, 2010, Section 12.5 of the Indenture for the Timberwolf CDO confers on the Secured Party the right to consent to the selection and reinvestment of default swap collateral. It is the position of Goldman Sachs that neither Section 12.5 of the Indenture nor any other relevant deal documents impose any obligation on the Secured Party to consent to reinvestment of default swap collateral, either on a case-by-case basis or generally. Of course, as you know, with respect to Timberwolf, reinvestment of default swap collateral did occur.

Thanks, Lee

Hi Lee – There are two items I wanted to follow up on with you:

1. I have read Goldman’s answer regarding its current views with respect to its right to object to reinvestment of collateral in the Timberwolf CDO. I realize that Section 12.5 of the Indenture provides consent rights to the Secured Party (GS) and no default swap collateral may be purchased by the issuer if it is objected to by the Secured Party. What I would like Goldman’s view on is whether that right can extend to and permit objecting to the purchase of any proposed default swap collateral (either on a case by case basis or via a blanket refusal to consent to the purchase of any default swap collateral) so that the issuer is unable to purchase any new or additional purchases of default swap collateral. In other words, would the rights given to Goldman as the Secured Party under Section 12.5 enable Goldman to prevent the issuer from purchasing any new or additional default swap collateral, so that as existing default swap collateral yields interest or dividends or pays down, all the income remains in cash and is not used to purchase new or additional default swap collateral?

Thanks.

Footnote Exhibits - Page 5391

David: As discussed yesterday, I believe that your refusal to approve the purchase of any additional Default Swap Collateral into Timberwolf is unreasonable and inconsistent with the way the transaction structure was originally presented to us. We were told that the purpose of the approval rights was to permit GS to review specific assets and approve or disapprove specific assets based on their relative credit merits. If we thought for a second that you had the right to prohibit all new purchases indefinitely, we would have implemented the much simpler CIC structure that is used in most other synthetic CDO and CDOs' transactions and thereby locked in a fixed spread to LIBOR for the term of our transaction. Also, the Timberwolf CDS economics include an ongoing fee to GS for the put swap component of the trades; we would not have agreed to those terms if we thought you had this option. Finally, I believe that if anyone on the deal team thought you had this option, it would have been clearly disclosed in the DRN. Especially given current market conditions, I am surprised that you are taking a position that will directly result in less cash flow being available to debt and equity investors. As I said yesterday, we recognize the impact of current market conditions and, even before I spoke with Matt, I was suggesting we collectively focus on shorter average life AAA PNLs for the deal and I specifically solicited feedback on securities where GS would be comfortable. I continue to be surprised by your response. Joe.

Junior,

We are doing our credit work on these 3 bonds which are shown on the GS inventory sheet.
If we get comfortable with these positions, would GS be ok adding them to Timberwolf as
Default Swap Collateral? We should be done with our credit work today.

Thanks, Joe.

Subjects: Timberwolf -- Default Swap Collateral

Roman:

We are doing our credit work on these 3 bonds which are shown on the GS Inventory sheet. If we get comfortable with these positions, would GS be ok adding them to Timberwolf as Default Swap Collaterals? We should be done with our credit work today.

Thanks, Joe.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021881087
I am an attorney employed by Goldman, Sachs & Co. ("Goldman Sachs") and, during 2007, my coverage responsibilities included, among other things, providing advice to the firm’s Mortgages Department. I have no present recollection of the circumstances surrounding any disagreement between Goldman Sachs and Greywolf Capital Management LP regarding Goldman Sachs’ right to consent to reinvestment of default swap collateral in Timberwolf I. I am aware that certain documents from that period appear to reflect that I may have been consulted in connection with the firm’s dealings with Greywolf on this issue in September 2007, but reviewing these documents has not refreshed my present recollection.

Timothy K. Saunders, Jr.
Managing Director & Associate General Counsel
Goldman, Sachs & Co.

December 22, 2010
Date
From August 27, 2007 through November 2008, I was employed by Goldman, Sachs & Co. ("Goldman Sachs" or the "Firm") as an attorney in its legal department, reporting to Tim Saunders. Throughout this time, my responsibilities included, among other things, providing advice to the Firm's Mortgages Department. Although I recall that a party raised issues concerning Goldman Sachs' right to consent to certain actions related to collateralized debt obligations, I have no recollection of any additional circumstances surrounding these issues, including the identity of the party that raised them, what the consent rights related to or any discussions concerning these issues. Although I understand that there are emails that suggest that a meeting was held to discuss these issues, I have no recollection of such a meeting, or whether a meeting even occurred. I have reviewed the documents identified by the Subcommittee staff that appear to reflect that I may have been asked to attend a meeting to discuss the Firm's dealings with Greywolf Capital Management LP on this issue in September 2007, but reviewing these documents has not refreshed my present recollection.

Permanent Subcommittee on Investigations
Wall Street & the Financial Crisis
Report Footnote #2657
From November 2005 through November 2008, I was employed by Goldman, Sachs & Co. ("Goldman Sachs" or the "Firm") in its Compliance department. During this time, I was assigned to provide coverage to the Firm's Mortgages Department. I have no present recollection of the circumstances surrounding any disagreement between Goldman Sachs and Greywolf Capital Management LP ("Greywolf") regarding Goldman Sachs' right to consent to reinvestment of default swap collateral in Timberwolf I. I have reviewed the documents identified by the Subcommittee staff that appear to reflect that I was invited to a meeting to discuss the Firm's dealings with Greywolf on this issue in September 2007, but reviewing these documents has not refreshed my present recollection. I would also note that my job responsibilities at the time did not include reviewing or interpreting transactional documents such as indentures, and it was not my practice to do so.

[Signature]
[Date: July 7, 2011]
Footnote Exhibits - Page 5407

I am a Managing Director at Goldman, Sachs & Co. ("Goldman Sachs" or "the Firm") and the co-head of the Structured Products Group Trading Desk, a position I have held since 2006.

As I discussed during my interview with the Subcommittee staff on September 27, 2010, my understanding is that on deals in which there was a collateral manager, such as the Timberwolf I CDO, the collateral manager would source collateral investments subject to the terms specified in the offering documents. Although I do not recall the specific rights that Goldman Sachs had under the agreements for each deal, my understanding is that Goldman Sachs generally retained the right to consent to the selection of collateral in order to protect its interests in the transaction.

As I also explained in my Subcommittee interview, I do not recall any formal agreements, other than the operative agreement for the deals, limiting the assets the collateral manager could select as default swap collateral. Further, as I stated in my interview, although I recall that counsel was consulted on the issue of contractual provisions relating to collateral reinvestment, I do not recall any advice counsel gave. I also recall informal discussions concerning the extent of Goldman Sachs’ exposure related to collateral in CDOs, but do not recall any resolution of this issue. I do not recall there being a significant debate with collateral managers on this subject.

More specifically, I have no present recollection of the circumstances surrounding any discussions between Goldman Sachs and Greywolf Capital Management LP ("Greywolf") regarding Goldman Sachs’ right to consent to reinvestment of default swap collateral in Timberwolf I. I have reviewed documents showing that I was emailed in September 2007 by Joe Marconi of Greywolf in connection with the Firm’s dealings with Greywolf on this issue and was carbon copied on emails proposing an internal meeting regarding the subject, but reviewing these documents has not refreshed my present recollection. I have no present recollection of what might have been discussed in such a meeting or even if such a meeting ever occurred.

David Leeman
Managing Director
Goldman, Sachs & Co.

Subject: TM Timberwolf -- Default Swap Collateral

David:

As we discussed yesterday, I believe that your refusal to approve the purchase of any additional default swap collateral into Timberwolf is unreasonable and inconsistent with the way the transaction structure was originally presented to us. We were told that the purpose of the approval rights was to permit us to review specific assets and approve or disapprove specific assets based on their relative credit merits. If we thought for a second that you had the right to prohibit all new purchases indefinitely, we would have implemented the much simpler GIC structure that is used in most other synthetic CDs and CDOs transactions and thereby locked in a fixed spread of 1500-2500 for the term of our transaction. Also, the Timberwolf CDS economics include an ongoing fee to 00 for the put swap component of the trade; we would not have agreed to those terms if we thought you had this option. Finally, I believe that if anyone on the deal team thought you had this option, it would have been clearly disclosed in the QM. Especially given current market conditions, I am surprised that you are taking a position that will directly result in less cash flow being available to debt and equity investors. As I said yesterday, we recognize the impact of current market conditions and, even before I spoke with Matt, I was suggesting we collectively focus on shorter average life AAA tranches for the deal and I specifically solicited feedback on securities where GS would be comfortable. I continue to be surprised by your response. Joe.

GS MBS-E-000766415
Subject: Mr. Timberwolf -- Default Swap Collateral
Importance: High

Dear Joe,

I would like to have a call with you to discuss the purchase of Default Swap Collateral into Timberwolf. I understand you are traveling this week, let me know when you will have some time to talk. In response to the attached message, Matt told me that GS will not approve the purchase of any additional Default Swap Collateral into Timberwolf. While GS does have consent rights regarding the purchase of Default Swap Collateral, a blanket refusal to approve any assets is inappropriate, inconsistent with the parties’ original expectations and will negatively impact the performance of both the debt and equity issued by Timberwolf. Give me a call when you can, Joe.

Cc: Joe Marconi; Greg Mount; Bieber, Matthew G.; Swanson, Michael

Subjects: FW: Timberwolf – Default Swap Collateral

Importances: High

Roman:

We are doing our credit work on these 3 bonds which are shown on the GS inventory sheet. If we get comfortable with these positions, would GS be ok adding them to Timberwolf as Default Swap Collateral? We should be done with our credit work today.

Subject: FW: Funded Collateral for Synthetics

One of the examples of the emails I mentioned below are others as well as contemporaneous notes of our conversation with Prior Graham when he presented the idea to us, and contemporaneous notes taken from other calls and meetings with your team, in case I wasn’t clear on the call, our three main points would be:

1. The aim of the collateral account was to provide LIRCR and not add additional risk to the deal.
2. GS said they would take market risk and clearly represented that to us and to the ratings agencies.
3. The only way the deal works, and the way the deal was marketed and explained to us, is that paydowns are equivalent to partial terminations. We do not believe you have any right to refuse to release excess cash that is no longer needed as collateral, and we do not believe you have the right to release bonds into the waterfall even, and certainly not when cash exists.

Perhaps the way you did these deals changed over time and you are comparing our deal to ones which you marketed or structured differently?

I look forward to hearing from you.

Ron

To: Peter Howard
Subject: RE: Funded Collateral for Synthetics

GS has exposure to 100% of the funded collateral backing the synthetic positions. If the liquidation proceeds of an asset (as swap counterparty gets to choose which assets are liquidated) are less than the written down asset owed to goldman - goldman has no risk. Deal retains upside (collateral liquidated at a premium).

Subjects: Funded Collateral for Synthetics

Here's an overview of the asset criteria we used in our last transaction:

(i) rated "AAA" and, if such asset has a long-term rating from Moody's, "Aaa" by Moody's and "A-1+" and, if such asset has a long-term rating from S&P

(ii) expected to have an outstanding principal balance of less than $1,000 after stated maturity of class A-1 notes, assuming a constant prepayment rate since the date of purchase equal to the lesser of (a) 5% per annum and (b) the constant prepayment rate reasonably expected by the collateral manager as of the date of purchase

(iii) after taking into consideration the addition of any such security (a) at least 20% of the default swap collateral by principal balance has an expected average life of less than or equal to 1 year, (b) at least 60% of the Default Swap Collateral by principal balance has an expected average life of less than or equal to 3.25 years and (c) all default swap collateral has an expected average life of less than or equal to 4 years

(iv) with the inclusion of such security, no more than 32% of the Default Swap Collateral by principal balance has single counterparty credit exposure including service, issuer and put swap counterparty exposure

(v) provides for payments of periodic interest and for a payment of principal in full at its final maturity and

(vi) each such security satisfies the definition of an "Eligible Investment" or is a residential mortgage backed security, a commercial mortgage backed security, an asset backed security or a collateralized debt obligation

Hi Matt,

As of today we have $5.5mm and $11.7mm in synthetic collateral cash in DSVII and WCI respectively from paydowns of synthetic collateral securities. We were able to find bonds from the September approved list below. Please let us know if you approve these names – or would like to keep the cash in the overnight account. Also let us know if you have a preferred allocation.

Hi Matt and Shelly,

Tomorrow the CP in DSVII’s synthetic collateral account rolls, leaving $4.6mm in synthetic collateral cash. So we will try to look for bonds per the email below. If we are unable to find one under the following parameters, would you still want to keep the cash in the overnight account or did you want to take a look at corp CP again? Thanks.

### Appendix 1. Guidelines for Sampling Correspondence

Confidential Treatment
Requested by Goldman Sachs

OS MRS 0000035600
Goldman Sachs communicates with its customers (including private individuals, institutions and other broker/dealers), counterparties, and the general public in many ways. The integrity of these communications is essential to the firm’s reputation and success. Therefore, with this manual, the firm is setting forth its policies regarding the preparation, supervision, distribution and retention of all written and electronic communications relating to our business.

For the purposes of these policies, “communication” is defined very broadly. It includes any and all written or electronic communication — from formal recommendations to casual opinions and thoughts relating to our business. It includes words, diagrams, pictures, graphs, and images. And it does not matter whether these be conveyed by note, letter, prospectus, advertisement, e-mail, television or radio broadcast, or any other means or media. Although these policies do not specifically cover oral communications, the same content guidelines apply to oral communications.

The policies stated in this memorandum outline the firm’s expectations and requirements with respect to communications with the public relating to any business of the firm. Individual divisions or business units may establish policies that supplement or supersede parts of the policies outlined here. In addition, the section entitled “ Firm Expectations of Employee Conduct” in the firm’s Employee Handbook contains standards and guidelines that apply to the communications covered here.

Therefore, this manual must be read and implemented in conjunction with the applicable Divisional Compliance policies and the requirements of the Employee Handbook. You are responsible to know the additional requirements of the Handbook and those of your division and business unit.

Business units and Divisional Compliance will be responsible for communicating the contents of these policies and any related divisional or regional policies by distributing them to all appropriate personnel, by distributing any periodic updates or revisions to them, and through both new employee and on-going training programs.

While business units and Divisional Compliance are responsible for communicating policies, it is the responsibility of each individual to understand the rules of the firm and of the businesses in which they work. Failure to comply with the policies may result in disciplinary action, including potential separation from the firm.

As with any compliance issues, the most important thing is that you be aware of your responsibilities and seek clarification and help if you have any questions. If you have any questions about the application or interpretation of these standards and requirements or about possible exceptions to them, speak with your Divisional Compliance officers, to Central Compliance or the Legal Department.
II. Categorization of Communications

While these policies apply to all written and electronic communication, there are three categories of communications for which there are specific rules. These categories are advertisements, sales literature, and sales correspondence. There are two types of content that merit special attention, as well. These are research and recommendations. These categories of communication and types of content are defined below.

A. Categories of Communication

Advertisements

An advertisement is any written or electronic communication relating to the firm's securities business that is made publicly available in such a way that the individual recipients are not known to and cannot be limited by the firm. In other words, the firm does not have control over who receives, sees, or hears an advertisement.

An advertisement may include material published or designed for use in a newspaper, magazine or other periodical, radio, television, telephone or tape recording, on a generally accessible website or in or on another publicly available medium.

Advertisements must conform to standards established by Corporate Communications and must be approved before use (as described later in this manual).

Sales Literature

Sales literature is any written or electronic communication relating to the firm's securities business that is sent or made available to multiple public recipients who are known or directly targeted by the firm.

Sales literature may include, but is not limited to, circulars, research reports (including most of the publications of the firm's Investment Research Department), market letters, performance reports or summaries, and form letters. Sales literature also includes the written text of any communication delivered orally to a broad audience, such as a telemarketing script or a seminar text and material posted on password-protected websites available to clients.

The key characteristic of sales literature is that it is addressed to multiple recipients specifically targeted by the firm.

As is the case with advertisements, sales literature must be approved before use (as described later in this manual).
Sales Correspondence

Sales correspondence is any written or electronic communication (other than that classified as advertising or sale literature) that is sent or made available to a current or prospective customer by a salesperson involved in the firm's securities business or by a person who is soliciting fee-based investment advisory or management services.

The key characteristic of sales correspondence is that it is directed to a specific recipient. It may or may not need to be approved prior to use.

B. Research and Recommendations

Sales literature and sales correspondence may include a recommendation to a customer and, in certain contexts, may constitute research. Recommendations and research each have its own approval process, and research requires specialized legends, which are discussed later in this manual. For the purposes of this manual:

- **Research** is an analysis of individual companies, industries, market conditions, or securities or other investment vehicles that provides information reasonably sufficient upon which to base an investment decision. While reports prepared by one of the firm's investment research departments generally fall into the category of research, materials prepared by other personnel also may constitute research under applicable regulations. Research does not include publicly available information, consensus data, or data attributable to management of the company being discussed.

- A **recommendation** to a customer is the promotion or endorsement of a transaction involving a security.

Note that there are significant restrictions on including any research or recommendations in marketing materials for asset management services. Consult Divisional Compliance policies for further guidance.

C. General Communication

As stated above, although these particular categories and types of communication require special attention, except where otherwise noted, this manual covers all written or electronic communication with the public relating to any business of the firm.
III. Content Standards

A. General Standards

No matter what you are communicating to the public, your words reflect on the reputation of the firm. Furthermore, the firm can be held accountable for what you communicate. The firm, therefore, requires that your communication reflect the high standards of the firm, not only in what you say, but also in the way you say it.

The following are general standards and requirements that the firm expects all of its employees to understand and follow in all of their communications.

Truthfulness and Completeness

Communications may not omit material facts or include untrue or misleading statements. Keep in mind that the level of detail or explanation necessary to make a communication clear, accurate, and understandable will depend, in part, on the breadth and sophistication of the intended audience and the complexity of the subject matter. For example, communicating complicated material or the lack of financial sophistication of the recipient will often warrant a more detailed presentation.

Professionalism and Good Taste

- All communications should be professional and in good taste. Of course, your communications should never contain obscene, offensive, or otherwise inappropriate, unprofessional, or unlawful language. Remember, that you do not control and you cannot always predict who the reader will be.

- Write using standard, formal written language. Pay attention to proper grammar and accurate word usage.

- Avoid superlatives and exaggerations.

- Communicate succinctly. Stay strictly to the topic of your communication. Do not include any gratuitous comments.

- Remember, your business communications become part of the official records of the firm. Regulators and other third parties may have access to these communications in the case of dispute, litigation, or criminal action.

Records of Past Performance

Any communication that portrays past performance of recommendations or actual transactions must be balanced and not misleading. In particular:
Past performance may not be used to promise or suggest, directly or indirectly, future profits or income, nor may it be presented as indicative of future performance.

Records or statistics must:

- disclose the existence of any relevant costs (e.g., commissions and interest charges, if applicable).
- be clearly defined as to scope (i.e., the universe of securities or transaction types covered) and context.
- cover at least the most recent 12-month period, if available.

Whenever annualized rates of return are used:

- All material assumptions used in the process of annualization must be disclosed.
- The date and price of each initial recommendation or transaction and the date and price at the earlier of when liquidation was suggested or effected must be included.
- Summaries or averages may be presented so long as they include the total number of items recommended or transacted, the number that advanced and declined, and an offer to provide the complete record upon request.

Finally, the communication should include an indication of general market conditions during the relevant period (e.g., the performance of the S&P 500). Any such comparison should be reasonable.

Note that there are special requirements for showing past performance of mutual funds and separate account composites, and for certain other investments (e.g., options). Consult Divisional Compliance policies for further guidance.

Speculating on Litigation Results

Do not speculate on or predict the outcome of any litigation involving the issuer of a security.

Guarantees

Do not make any guarantee of profit or against loss, or offer any promise of specific results.

Projections and Predictions

Communications may include projections and predictions (including forecasts of financial performance), but those projections and predictions must:
Be based on reasonable assumptions.

Be clearly labeled as opinion.

Include a description of the assumptions and information upon which projections and predictions are based or indicate that the underlying assumptions and information are available upon request.

Hypotheticals that look backwards in time and recalculate performance based on stated assumptions are not necessarily subject to the same standard of reasonableness as forward-looking projections or predictions. This is because with backward-looking projections evidence of what actually occurred is always available for consideration. The availability of actual data limits the danger of acting on an unreasonable assumption. Forward-looking projections, on the other hand, require more care.

Note that significantly stricter standards apply to the use of forward-looking or backward-looking projections in connection with asset management services. Consult Divisional Compliance policies for further guidance.

Balance of Risks and Potential Rewards

Any discussion of the merits of a potential investment should be balanced with a discussion of its risks. The discussion must also provide enough information to allow the recipient to understand the full nature of the investment and of its potential risks and rewards.

Suitability of Investments

Communications may not state or imply that any particular investment is suitable for all investors.

Subject to otherwise applicable firm policies on suitability and requirements to "know your customer," communications may state that an investment is suitable for a particular customer or class of similarly-situated customers.

Rumors

Communications may not circulate or encourage dissemination of unsubstantiated rumors. Therefore, it is the policy of the firm to make no comment on rumors whatsoever, even to deny rumors you believe to be untrue.

Dating Communications

All communications should be appropriately dated. Any significant information that is more than six months old or otherwise is not reasonably current must be noted.
Identifying Sources

All communications should include the firm's name and, when appropriate, the name of the person who prepared the communication.

Disclosure of Client Names and Positions

Names of clients of the firm and their assets, objectives, and positions are confidential and may not be disclosed outside of the firm, or to anyone within the firm without a "need to know". Despite this general rule, the name of a client may be disclosed with the client's consent, if permitted by applicable Divisional Compliance policies.

B. Providing Customers with Valuations of Their Positions

Because valuations of positions can be used for a variety of reasons (risk management, accounting, as the basis of trading decisions, margining, etc.) it is imperative that valuations are carefully prepared and that both the valuations themselves and the basis on which they have been calculated are communicated clearly and completely.

Check individual divisional policies for requirements as to the form and content of valuations and as to any disclosure statements (hedge clauses) that may be required to be used.

C. Third Party Material and Testimonials

Attribution of Sources

Using outside sources without attribution is plagiarism. Plagiarism is a serious breach of the firm's standards and exposes the firm to significant legal and reputational risk. Therefore:

- All material — whether words, graphs, charts, analyses, or other matter taken from outside sources, and whether directly quoted or simply referred to — must be properly attributed. This includes paraphrases and summaries of discussions.
- Attribution may appear in footnotes or in the text.
- The attribution must be specific. Generic phrases such as "experts claim" or "market sources agree" are not sufficient or acceptable.
Footnote Exhibits - Page 5441

Any market letter or research report prepared by an outside organization must identify the preparer and not give the impression that it was prepared by Goldman Sachs. See divisional policies regarding the use of such third-party material.

Testimonials

A testimonial is a quotation from a customer or outside expert expressing support for a Goldman Sachs product or activity. Any testimonial must be accompanied by a disclaimer, the substance of which includes the following:

- That the testimonial may not be representative of the experience of other customers.
- That the testimonial is not indicative of future performance or success.
- That it is a paid testimonial (if more than a nominal sum was paid for the testimonial).
- That the person making the testimonial has the knowledge and experience to form a valid opinion (if the testimonial concerns a technical aspect of investing).
- That the person making the testimonial has a relationship with the firm (if such a relationship exists).

If a testimonial is used in an advertisement, the Corporate Communications Department must also be consulted. Testimonials are prohibited in any communication related to asset management services.

D. Copyright Issues

Using published material from sources outside of the firm, with or without attribution, may constitute a copyright infringement. Copyright rules differ from situation to situation and from jurisdiction to jurisdiction.

Note that copyright rules are not restricted to printed material. They extend to material published in other media, including the internet.

You should consult the section entitled "Copyrighted Materials" in the Employee Handbook.
E. Recommendations of Securities Transactions by Securities Salespeople*

Suitability of Recommendations Made to Customers

Prior to recommending that a customer purchase, sell or exchange any security, salespeople must have reasonable grounds for believing that the recommendation is suitable for that particular customer upon the basis of the facts disclosed by the customer as to his/her other security holdings, investment objectives and financial situation.

Know the Security Being Recommended

The suitability concept also requires a salesperson to have an adequate and reasonable basis for his/her recommendation of a particular security. This requires familiarity with the characteristics (including potential risks and rewards) of the security being recommended. Therefore, salespeople must "know their security", as well as their customer.

Determining Whether a Recommendation is Made

A broad range of circumstances may cause a transaction to be considered recommended, and this determination does not depend on the classification of the transaction by divisional policies as "solicited" or "unsolicited." In particular, a transaction will be considered to be recommended when a representative of the firm brings a specific security to the attention of a particular customer (or group of customers) through any means, including telephone, mail, e-mail or fax.

Trade Ideas

Firm employees frequently provide so-called "trade ideas" to multiple recipients. Such trade ideas are designed to help clients take advantage of market conditions and intelligence, but are not intended to be specific buy/sell recommendations for specific clients or customers. Characteristics of trade ideas frequently include:

- Market situations to watch closely.
- "If/then" suggestions, such as: "If your position is X, consider taking advantage of Y." "If a security begins to do A, consider taking action B."
- Delivery to multiple recipients, rather than to specific clients.
- Suggestions about a range of actions rather than a specific transaction.

* Note that the requirements of this section apply to securities brokerage (including discretionary brokerage) accounts. For advisory account requirements, consult Divisional Compliance policies.
Such trade ideas are not considered to fall within the definition of a recommendation.

Seeking Additional Guidance

In sum, whether a particular transaction is in fact recommended depends on an analysis of all the relevant facts and circumstances. Therefore, employees are required to be familiar with divisional policies on recommendations and suitability, and are encouraged to consult their Divisional Compliance personnel or the Legal Department for assistance in answering any questions.

F. Recommendations Contained In Research Reports*

When a recommendation to a customer is made in advertising or sales literature (including the firm's published research), the market price of the security at the time of the recommendation must be indicated and the following information must be disclosed:

- Whether the firm makes a market in the security or will buy or sell the security on a principal basis
- Whether the firm was a manager or co-manager of any public offering by the issuer within the past three years
- Whether the firm, its officers, or any personnel involved in preparing the communication may have positions in the securities or options of the issuer.
- Whether the firm or any of its employees is a director of the issuer.

The publication of all research reports must be approved by one of the firm's investment research departments, which will add any additional required disclosures.

G. Restricted Trading List Securities

Sales correspondence may not include discussion of, nor may a salesperson recommend transactions in, any security on the firm's Restricted Trading List without prior approval of the Central Compliance Control Room.

Asset management personnel should refer to their Divisional Compliance policies which, in some instances, may differ from the foregoing.

* Note that the requirements of this section apply to securities brokerage (including discretionary brokerage) accounts. For advisory account requirements, consult Divisional Compliance policies.
H. Hedge Clauses

The proper hedge clauses must accompany all advertisements and sales literature. The hedge clauses may not be misleading or inconsistent with the content of the communication.

The required hedge clauses vary based upon product, country, recipient and a number of other factors. Therefore, contact Divisional Compliance to determine the proper hedge clauses to use on any material sent to third parties on behalf of the firm.

I. Internal-Use-Only Documents

No written or electronic communication marked (or customarily handled as) "for internal use only" or "for broker use only" may be distributed, in whole or in part, to anyone outside of the firm. This includes e-mail and material on the internal website.

If a particular business unit determines that material originally prepared for internal or broker-only use becomes appropriate for dissemination to the public, any internal use designation must be removed and all appropriate approval procedures and standards governing outside written communications, as detailed in this document, must be satisfied.

J. Distributing "To All" Memoranda

"To All" memos, whether distributed by memo, e-mail or other means, must be approved as described in the section entitled "Firmwide Memorands" in the Employee Handbook.

K. Dissemination of Information Concerning The Goldman Sachs Group, Inc.

The NYSE prohibits any recommendation or solicitation with respect to the common stock of The Goldman Sachs Group, Inc. Accordingly, only the Investor Relations or Corporate Communications Departments are authorized to make any comments regarding The Goldman Sachs Group, Inc.

L. Registered, Publicly-Offered Securities (other than GSAM Mutual Funds)

The U.S. securities laws impose severe restrictions on the distribution of any written materials in the United States by participants in a U.S. registered public offering (including both IPOs and follow-on offerings) in connection with such offering other than the most
recent “red herring” prospectus and, after the offering is priced, the final prospectus. It has always been the firm’s policy to adhere strictly to these requirements. In addition, it is the firm’s policy to apply these requirements in a variety of other circumstances.

These restrictions are as follows:

- No written materials may be distributed outside the firm in the United States in connection with any U.S. registered public offering (both IPOs and follow-on offerings) other than the “red herring” prospectus and, after pricing of the offering, the final prospectus. This includes e-mails (including responses to clients’ e-mails to us), faxes, and any other method of written communication. For example, neither the sales memorandum for the offering nor any portion thereof (nor any summary thereof) may be distributed outside the firm. In addition, only the entire “red herring” or final prospectus may be distributed; employees must not distribute selected pages from a prospectus, nor highlight or draw attention to selected portions of the prospectus. These restrictions continue in effect for the first 25 days after the pricing of a U.S. registered IPO.

- It is firm policy, in connection with U.S. registered public offerings, to observe the foregoing restrictions with respect to the distribution of written materials outside the U.S.

- It is also firm policy to observe the foregoing restrictions with respect to the distribution of written materials, both inside and outside the U.S., in connection with Regulation S and Rule 144A offerings.

Any exceptions to the first of the foregoing restrictions must be approved by the Legal Department or a senior member of the Special Execution Group. Any exceptions to the second or third of the foregoing restrictions must be approved by a member of the Commitments Committee in consultation with a senior member of the Special Execution Group.
Responsibility for obtaining reviews

In general, the employee preparing and sending a communication is responsible for obtaining any necessary approvals and for following the appropriate procedures for retention and review.

Documents previously approved

In certain instances, divisional policies may designate certain material sent to specified recipients as "pre-approved", in which case the pre-approved documents do not have to be re-approved each time they are sent.

Any additional correspondence accompanying the approved documents, such as a cover letter or note, may have to be approved, depending on the substance contained in it. For instance, casual correspondence, thank you notes, confirmations or schedules for meetings, invitations, and other correspondence that does not relate to business does not require approval.

Reviewer's Signature

When approval is required, the reviewer must initial or sign and date the firm's retained copy of any written communication (or, for certain business units, a "Compliance Cover Sheet") to indicate and record his/her review and approval or maintain a comparable record.

In cases where electronic correspondence requires approval, a record of the review and approval must be maintained. The nature of that record — an addition to the electronic file, a log file of reviews, a physical record on a hard copy, or other means — can be determined by the business unit. Whatever the nature of the record, it must clearly indicate the reviewer's approval and maintain the clear audit trail to the reviewed communication.

Advertisements and Sales Literature

In general, advertisements must be approved in advance by the Corporate Communications Department in order to assure compliance with firm-wide identity, branding, logo and other standards. In some divisions, this approval process may be handled by Divisional Compliance. In addition, advertisements related to the firm's sales and trading of securities must be approved prior to first use or first availability by a registered principal in the relevant business unit.
All sales literature must also comply with firm-wide design and content standards established by Corporate Communications. In addition, sales literature related to the firm's sales and trading of securities must be approved, prior to first use or availability, by a registered principal in the relevant business unit.

For any options-related sales literature, the approving registered principal must be the Compliance Registered Options Principal (CROP) or the CROP's designee.

Research reports must be approved by a supervisory analyst prior to issuance.

SRO Filing Requirements

Certain product-specific sales literature and advertisements (e.g., certain investment company-related materials, CMO-related advertisements, and options-related educational materials) must be filed with an appropriate SRO (NASD, CBOT, etc.) at least 10 days prior to first use or first availability. Approvals must be sought from the appropriate registered principal or Corporate Communications early enough to meet the 10-day filing requirement.

B. Review of Certain Outgoing Correspondence

Outgoing correspondence with the public by registered representatives and associated persons involved in the sale of securities, whether in hard-copy, fax, e-mail or other electronic format, will be subject to review by a registered principal or his/her designee.

Each division or business unit involved in the firm's broker/dealer business may approach the review of outgoing correspondence in one of two ways:

- Review all outgoing sales correspondence before it is sent; or
- Review a sample of outgoing sales correspondence after it is sent.

Guidelines for developing a sampling program appear in the Appendix at the end of this manual. Check your Divisional Compliance policies for the procedures applicable to you.

A copy of all such correspondence, no matter the medium in which it is delivered, must be retained in accordance with procedures established by the applicable division and must be readily available for review. The person who reviewed the correspondence must be easily ascertainable. Finally, the outgoing communications file will be subject to periodic review to assure compliance with these requirements.

Compliance with the requirements of these policies will be a subject of discussion at annual or other periodic performance reviews and will be the subject of remedial action, if required.
Compliance with the requirements for review of communications (including appropriate monitoring, testing, and documenting of results and evaluation of effectiveness) are subject to annual Central Compliance review and will be included in the Management Controls Department's periodic audits.

C. Review of Incoming Correspondence

All incoming written and electronic correspondence from the public directed to registered representatives and associated persons involved in the sale of securities are also subject to the firm's supervision and review in accordance with divisional procedures. Except for written correspondence (i.e., material in paper form) sent to registered representatives (all of which must be reviewed as described below), divisional policies may provide for either review of all such correspondence or a sample selected in substantially the same manner as outgoing correspondence.

Review of Incoming Written Correspondence Sent to Sales Representatives

In order to provide early notice of potential sales practice issues and customer complaints, and to help ensure proper handling of customer funds and securities, a registered principal or his/her designee will review all incoming written correspondence (i.e., correspondence in paper form) that is directed to registered representatives involved in the sale of securities. To facilitate this review:

- The correspondence will be opened by, or in the presence of, an authorized individual (a principal or his/her designee) to identify any possible complaints and to remove customer funds and securities.

- The individual reviewing the correspondence will, after the review is completed, forward the material as appropriate for proper retention.

- Funds and securities will be forwarded to the personnel responsible for custody of funds and securities in the office in which the funds or securities were received. These items should be delivered by hand, if possible, or by an alternative delivery method approved by the firm's operations officials.

- Any correspondence containing a possible customer complaint must be handled as described in the following section.

Correspondence that can be readily identified as regulatory bulletins, research or promotional material, advertising, periodicals, fund raising appeals or similar non-customer material need not be subject to this procedure.
Footnote Exhibits - Page 5449

Treatment of Customer Inquiries and Complaints

As a matter of good business practice, it is the firm's policy to handle and resolve any customer or client inquiry expeditiously, especially when it regards proper handling of business solicitations, transactions, and customer securities or funds. In addition, the Legal Department and Central Compliance will designate certain types of inquiries as "customer complaints," which require specific handling and regulatory reporting.

To make sure that all inquiries and potential "customer complaints' are handled expeditiously and properly, both from the business and regulatory points of view, employees must observe the following procedure.

Any employee who receives a written, electronic, or oral communication from a customer or any person acting on behalf of a customer alleging a grievance involving the solicitation or execution of any transaction or the disposition of securities or funds of that customer must report it to his or her supervisor immediately. A copy of the communication (unless it is oral) must be sent immediately to the supervisor.

The supervisor will first determine whether the communication might be classified as a "customer complaint." If the supervisor considers the communication to be a possible complaint, the supervisor will notify and forward copies of the communication to the Director of Central Compliance, the Legal Department and Divisional Compliance.

The Legal Department or Central Compliance will determine whether the inquiry actually constitutes a "customer complaint." If it does, Central Compliance will be responsible for reporting the complaint as required by regulation. The Legal Department will coordinate the firm's response to the communication and advise the Central Compliance Department and Divisional Compliance of the resolution.

Regulatory Inquiries and Litigation

Any complaint, notice, subpoena, interrogatories or other document relating to a litigation matter, an arbitration proceeding, or a regulatory investigation should be forwarded immediately to the Legal Department. See the section entitled "Legal Matters" in the Employee Handbook.

D. Handling of Sales Literature and Correspondence Off Firm Premises

Written Material

All sales literature and sales correspondence must be sent to and from the premises of the firm to facilitate proper supervision.
E-mail and FAX Communications

All electronic communications, including e-mail and fax traffic, concerning firm business that is to or from customers must be sent and received from or to a firm e-mail address or firm fax machine or from and to a firm-approved third-party computer system.

Therefore:

I. All e-mail traffic concerning firm business that is to and from the public must take place at the firm's premises or be routed through firm-provided, secure equipment.

II. Faxes containing sales literature or sales correspondence must be sent from and to the premises of the firm. Personnel who are out of town on business should route faxes to the firm where they will be forwarded to the appropriate recipients.

Additional policies concerning e-mail and other electronic communications are contained in the Employee Handbook.

Employees working from home offices

All sales correspondence from or to employees working from home offices must be routed through regional offices for purposes of review, approval, distribution and retention.

Employees working from home offices may not direct customers to send correspondence to the home office.

Employees may not send faxes containing sales literature or sales correspondence to customers or potential customers from home fax machines unless Divisional Compliance has approved such communication and established procedures for its supervision and retention.
### V. Retention

#### A. Material Relating to Securities Business

All written or electronic advertisements, sales literature, sales correspondence and other communications related to the firm's broker/dealer business must be retained for a minimum period of three years, except that:

- Communications relating to commodities or futures or options on commodities or futures must be retained for a minimum of five years.
- Communications relating to customer complaints must be retained for eight years.
- Communications relating to asset management services must be retained for six years.

Supervisors must retain evidence of supervisory reviews and approvals for the same periods.

#### B. Other Material

Retention of all other material will be in accordance with requirements established by individual divisions or business units.

Confidential Treatment Requested by Goldman Sachs

Retention

GS MSB 0000035818
VI. Other Issues

A. Education and Training

The firm's policies and procedures regarding written and electronic communications may be included in the firm's required annual compliance meeting and will otherwise be a part of the firm's continuing education program.

B. Monitoring

The policies set forth above will be subject to periodic review by the firm's Management Controls Department.
Divisions or business units may set up a system of reviewing appropriate samples of outgoing sales correspondence after they have been distributed.

If the division or business unit selects a sampling approach, regulations require that:

- Specific procedures must be designed and documented to provide reasonable supervision of each representative who conducts business with the public.

- The sampling techniques must be designed so that they can reasonably detect any potential violation of regulations under which the firm and its individual business units and divisions do business. Sampling levels must be set to provide statistically acceptable results. These levels must be determined in consultation with technology experts, business people, and the Legal and Compliance Departments. They will be reviewed periodically to assure reasonable accuracy and effectiveness.

In developing a sampling system, a number of additional factors should be taken into account:

- In determining the level of supervision appropriate for each sales representative, supervisors should consider the representative's overall complaint and disciplinary history, with particular emphasis on previous incidents involving communication with customers.

- Samples should be designed to reflect the breadth of an individual's communications, but need not be strictly random; samples may be concentrated on, for example, very active periods of time or very complicated or sensitive transactions.

- Electronic communications must be covered by the sample. Therefore, a selection of e-mails (and other electronic communications, if any) must also be reviewed. Where e-mail systems automatically save copies of outgoing e-mails, procedures should be adopted for the periodic review of saved e-mail folders for each person subject to review.

- The selection of specific electronic communications to be reviewed may be made by an automated system that selects individual communications for review based on key words or phrases.

- Individual supervisors are generally in the best position to determine the transactions or activities most likely to give rise to deviations from firm policies or risk to customers. Input will be sought from line-of-business supervisors in setting sampling guidelines.
Reviews are required to confirm the appropriateness of a representative's recommendations to customers. Therefore, sample selection criteria should assure that recommendations are included in the material reviewed for all representatives.

- Frequency of reviews should follow these guidelines:
  - Each individual's correspondence must be sampled no less often than annually.
  - Supervisors may wish to review the correspondence of junior employees (e.g., second- and third-year salespersons, certain lateral hires from other firms, etc.) more frequently than annually.
  - For the least-experienced employees (e.g., new hires, recent graduates of training programs, etc.), supervisors may find it advisable to review all correspondence prior to use or distribution until a level of confidence is reached as to the individual's work product.
  - Records must be kept of the reviews.
  - Divisions, business units, or supervisors may choose to review material more frequently or to increase the size of any sample.
  - In conjunction with the sampling program, a program of periodic training must be established to educate employees as to the regulatory requirements applicable to their communications. Records showing when programs were conducted and who attended or otherwise participated must be maintained and be available for audit.
EVENT DATE: May 7, 2010

TYPE: NEWS PROGRAM

SPEAKER: GOLDMAN SACHS CEO LLOYD BLANKFEIN

WITNESSES:
DAVID FABER, CNBC ANCHOR
GOLDMAN SACHS CEO LLOYD BLANKFEIN

TEXT:

FABER: We’re with Lloyd Blankfein, chairman and CEO of Goldman Sachs after the company’s annual meeting.

You mentioned introspection in answer to one of those questions that you received today, in terms of your own introspection when you looked back at this recent period. I’m curious, given that you’ve been introspective - not that you aren’t always - what are you finding? What are you thinking about? What conclusions, if any, have you come to as a result of that?

BLANKFEIN: In connection with what’s - in connection with what’s going on, there’s been - everybody is aware of the intense focus on us and how we’ve had to respond in the conditions in which we’ve been responding. If there is a silver lining to this for us, it causes us to have to be thoughtful about the context in which people are saying what they’re saying.

In other words, we can say this particular lawsuit that we don’t think - we may not think it has merit, or this activity - defend this activity against what somebody says is a poor activity. But we have to look at it and be honest and say, somehow there’s a context here in which there is a gap between the way we think about ourselves and the way the general public has thought about us and thinks about us. And we have to respond to it.

Now, a lot of our attention is going to still be, how do we work out some of the things and some of the things that people thought and defend certain aspects of behavior. But let me tell you, it is our nature, always, to be self critical and want to improve.
And the silver lining here is this causes me, the entire organization and I think ultimately the industry to be self critical about how they did things with a view to take standards which we may believe to be fine, and in our case, maybe we think we're already at the highest standards - we think we are. But to say, where do we need to go? Can we take it even higher.

FABER: Well, all right. Give me some specifics. I mean, you and I talked only a couple of weeks ago about synthetic CDO transactions. I asked you then whether they were appropriate. You at least gave an indication a couple of weeks ago, by a lot of introspection since then, that perhaps there are things that could have been done differently. Can you build on that?

BLANKFEIN: No, I think -- well, in that case - and again, this is work we're going to do. And we're going to be quite focused on this. We'll come up, I'm sure, with a lot of different points.

The question you had asked is about the social purpose. And I explained what the purpose of CDO's are, and allowing people with portfolios of exposure to the mortgage markets to be able to reshape their portfolio in an efficient way, which is what a lot of people use derivatives for across the spectrum.

I then said there may be another side, like complexity and a liquidity, which might mean that not withstanding that purpose, we may decide not to do that.

That's an inquiry we would ask ourselves.

FABER: And it's one that continue - because I'm trying to get to the point - if you're being introspective, have you come to any conclusions? Or when will you? Or when will we see?

BLANKFEIN: I'll give you categories of things - transparency, how we show ourselves. I know we have been criticized in the past for not being transparent about what we show about our business - you know, our business mix. There's always concerns.

You know, there's a reason why you get to any place you are. There's investors - or someone who need to know versus your own competitive advantage about not wanting to disclose too much. We're going to analyze these things and look at this. And maybe we'll come out with a different conclusion with respect to various trade-offs. How we manage business selection, who we represent.

You know, it can be very frequently the case that there's a property in the world for sale, and maybe five of the potential buyers might be clients of Goldman Sachs. How do we pick among them?

FABER: Right. But I mean, those are always challenges.

BLANKFEIN: They are.

FABER: Things that you deal with in your business. That's no different, I would think, then the way you've thought about those challenges in the past.

BLANKFEIN: No.

Listen, we are not going to originate some new issue that hasn't come across before. But how these things are resolved, how analytic, what kind of weight you give to one consideration versus another, most of these things are trade-offs in activities. And we're going to approach that, in, you know, frankly in a way that's
Informed by the current context in which we're operating.

FABER: There are reports that you're in settlement talks with the SEC. Is that true?

BLANKFEIN: There must be true that there are reports, because I saw things in the paper.

The fact is, that we - we're in a litigation with the SEC, but the SEC is not an ordinary litigant, it's someone who regulates us with whom we interact all the time on a lot of different bases in a normal course of activity. And so we're interacting with them regularly. And people...

FABER: Should there be an expectation in some way, though, that the fraud charges will be resolved prior to going to court?

BLANKFEIN: I can't - I can't comment on that.

FABER: Do you continue to maintain as you did vociferously when the charges first were made that you did nothing wrong? That Goldman Sachs has done nothing wrong?

BLANKFEIN: Yes. We maintain our belief that on the facts and on the law we think we were right and acted appropriately.

FABER: You said during the annual meeting as well that this period has been a strain on Goldman Sachs and on its clients.

BLANKFEIN: Yes.

FABER: Why?

BLANKFEIN: Well, when you retain Goldman Sachs, you're retaining us for our capability, our competence, our discretion, our ability to get things done cleanly - again, it's about the client. It puts a - you know, you can't deny that with Goldman so much in the forefront and so much in the news, people have to overcome a certain reticence to be to potentially join the, you know, the public scrutiny, if that's there.

Notwithstanding that, and I don't take this for granted, and believe me I'm very grateful, our clients have been tremendously loyal to us. They've supported us in every way beyond my expectations. At the same time I say that, I acknowledge I regret that we're in a position where showing our - showing support for us, you know, is not being made easy for them.

FABER: Right. Well, you said during the meeting that they were enthusiastic. Can you give me any evidence in terms of what you're talking about when you say that you've been shown support?

BLANKFEIN: I think our clients have, you know, have stuck with us. And you'll see - the proof is in the pudding.

FABER: Right. I mean, again, I know you don't like to comment quarter to quarter. I asked you this 10 days ago. Are you seeing any diminution in your business that you believe is a result of the reputational issues that are at stake for Goldman Sachs?

BLANKFEIN: You know, it's hard to know because of the cyclical aspects in the market as a whole is doing things differently today than it was doing before. And it's hard to know. And we'll know when we look back and we'll be able to see market shares.
But I believe we've been shown - and I know we've been shown, great, great support for our clients uniformly. And I even think some of our clients are, frankly, do more with us especially to show that kind of support.

FABER: You believe that they actually may be saying...

(CROSSTALK)

BLANKFEIN: Some people have had that conversation. I don't take it for granted. I appreciate it.

FABER: You're not going to do this again just to...

BLANKFEIN: I would say that it's not - it hasn't been worth it.

FABER: You and I spoke after you came out of a very long day of hearings not that long ago. When you look back on that interaction, particularly with you and Senator Levin, do you think that there's an understanding of what you're talking about when you speak to member of Congress?

BLANKFEIN: You know, I do largely. I think when you are a generalist - like a very smart generalist like a senator who has to have a sense and legislate and balance different elements - you know, like just like we were talking a few minutes ago, it's not a question is this good or is this bad, it's how good is this versus how bad is that? What should the trade-offs be. I think they are informed enough to make those kind of judgments.

Do they know the technicalities of the market? Is it...

FABER: Well, do they want to acknowledge the difference between an underwriter and a market maker? Because they certainly didn't seem to or...

BLANKFEIN: No, but I think they had an intuition that this didn't feel right. And to some extent, maybe I was inadequate to my purpose.

Let me tell you, in all our businesses, we put our clients first and we support our clients. That means different things in different parts of the business. So, for example, in an advisory business like banking, it's obvious we have a duty, a relationship to make sure they do the right thing. If they want to do X and we think it'll be right to do Y, we say, don't do X. We think you should do Y.

On the market making side, our duty to clients is served by us - whatever market conditions, whatever chaos prevails, using our capital to help our clients accomplish what they want to accomplish - we make hundreds of thousands, maybe millions of markets a day. Think of somebody going to the New York Stock Exchange, which is another kind of market.

No one is saying, I wouldn't sell that security here. No, you should buy this and not that. Client service and dedication to client in that case is standing there and being able to provide liquidity (ph) client no matter how tough the market is.

FABER: Before we wrap up, you mentioned the market, you mentioned the NYSE. Have you ever seen anything quite like that five minutes we saw yesterday in the equity markets?

BLANKFEIN: It was very unusual in the market.

https://w3.oxalis.com/new/delivery/PrintDoc.do?jobHandle=1862%3A27556460&fromCa... 3/21/2011
FAVER: Have you been told? Do you know? I mean, obviously Goldman has a pretty good feel for what's going on. Do you have an understanding of what happened yesterday?

BLANKFEIN: I've been - nobody has told me explicitly. I've been given several theories, because I have several theories - because I have several theories, I realize I have no theory. I think we're still examining some of these things.

FAVER: So you don't feel as though you even understand at this point what actually - I mean, stocks traded at a penny. I mean, something went very wrong.

BLANKFEIN: But you know what I've been doing for the last few hours? Because I can't tell you, doesn't mean that people don't know it, or it's not understandable. It's just that, you know where I'd been....

FAVER: High frequency trading may be blamed, in part, for what went on. Goldman conducts that business.

BLANKFEIN: I can't - I'm just not familiar with this theory. I just don't know.

FAVER: But what about that business in and of itself?

BLANKFEIN: I think that business in and of itself is a good business at Goldman Sachs. And I think it's an important liquidity generator for the market. I have no opinion, because I haven't heard any connection made to me.

FAVER: And finally Europe. We're dealing with, of course, a crisis there. I'm curious - you know, there's not a lot of business going on in Europe right now. And everybody is worrying about what's happening with sovereign debt and the issues that these countries - are you seeing a slow down in Europe? Are you concerned about Goldman's business in Europe? You have 5,000 people alone in London.

BLANKFEIN: Well, of course I'm concerned about the economy in Europe. And frankly - you know, the whole political and social environment reaches back to the European community. I'm pretty confident that the European sovereigns will do what's necessary to restore confidence.

A lot of what's going on, not that dissimilar to what happened a couple of years ago in the market has to do with confidence and sentiment and less to do with the actualities of someone's ability to make payments. But confidence matters, sentiment matters. And I think that...

FAVER: Matters, it's the most important thing.

BLANKFEIN: It's the most important thing. And I think that the governments have - in Europe, I think the motive and the willingness to restore that confidence. And I believe they will.

FAVER: And business in Europe, you seen a slow down?

BLANKFEIN: I think generally in business, but for this interlude which is just sort of recent, I think business around the world is correlating with, you know, renewed optimism about growth. And that's occurring in Europe as well as the United States and Asia.

FAVER: Lloyd Blankfein, thank you.

BLANKFEIN: Thank you very much, David.

U.S.$ 25,000,000 Income Notes Due 2047

Secured (with Respect to the Notes) Primarily by a Portfolio of CDO Securities and Synthetic Securities (referring to CDO Securities)

The Notes (as defined herein) and the Income Notes (as defined herein) (together, the "Securities") being offered hereby in the United States are qualified institutional buyers (as defined in Rule 4a46 under the United States Securities Act of 1933, as amended (the "Securities Act")) only if they are purchased from the Security being offered hereby in the United States as qualified institutional buyers (as defined in Rule 4a46) under the Securities Act who have a net worth of not less than U.S.$100 million in accordance with regulations under the Securities Act. The Securities are being offered for sale by Saffair (the "Issuer") only to persons that are also "qualified purchasers" (as defined for purposes of Section 3(b)(7) under the United States Investment Company Act of 1940, as amended (the "Investment Company Act")), namely, the Issuer is being offered hereby to the Issuer in accordance with Section 3(b)(7) of the Investment Company Act. The Securities are being offered hereby outside the United States to non-U.S. Persons in offshore transactions in reliance on Regulation S (Regulation S) under the Securities Act. See "Unregistration." See "Risk Factors" for a discussion of certain factors that should be considered in connection with an investment in the Securities.

There is no established trading market for the Securities. Application may be made to certain securities exchanges and the Issuer's broker for listing and trading of the Securities under the rules of the National Association of Securities Dealers, Inc. or other national securities exchanges, on which such Securities may be listed.

In addition, the Issuer has been advised that it may become necessary to register the Securities with the Securities and Exchange Commission and to comply with the Securities Act of 1933, as amended (the "Securities Act") and the rules and regulations thereunder, prior to the sale of the Securities to the holders thereof. If the Securities are not registered as such, the holders thereof may be entitled to exercise certain statutory rights, including the right to require public registration of the Securities under the Securities Act.

The holders of the Securities have the right to receive notice of any meetings of the holders of the Securities, or any other matters which may be of importance to the holders of the Securities. The Issuer has been advised that it may be necessary to register the Securities with the Securities and Exchange Commission and to comply with the Securities Act of 1933, as amended (the "Securities Act") and the rules and regulations thereunder, prior to the sale of the Securities to the holders thereof. If the Securities are not registered as such, the holders thereof may be entitled to exercise certain statutory rights, including the right to require public registration of the Securities under the Securities Act.

The holders of the Securities have the right to receive notice of any meetings of the holders of the Securities, or any other matters which may be of importance to the holders of the Securities. The Issuer has been advised that it may be necessary to register the Securities with the Securities and Exchange Commission and to comply with the Securities Act of 1933, as amended (the "Securities Act") and the rules and regulations thereunder, prior to the sale of the Securities to the holders thereof. If the Securities are not registered as such, the holders thereof may be entitled to exercise certain statutory rights, including the right to require public registration of the Securities under the Securities Act.

Timberwolf I, Ltd., an exempted company incorporated with limited liability under the laws of the Cayman Islands, the "Issuer," and Timberwolf I (Delaware) Corp., a Delaware corporation (the "Co-Issuer" and, together with the Issuer, the "Issuers"), will issue U.S.$9,000,000 principal amount of Class S-1 Floating Rate Notes Due September 2011 (the "Class S-1 Notes"), U.S.$28,000,000 principal amount of Class S-2 Floating Rate Notes Due September 2011, (the "Class S-2 Notes" and, together with the Class S-1 Notes, the "Class S Notes"). U.S.$100,000,000 principal amount of Class A-1a Floating Rate Notes Due 2009 (the "Class A-1a Notes"), U.S.$200,000,000 principal amount of Class A-1b Floating Rate Notes Due 2039 (the "Class A-1b Notes"), U.S.$160,000,000 principal amount of Class A-1c Floating Rate Notes Due 2044 (the "Class A-1c Notes"), U.S.$100,000,000 principal amount of Class A-1d Floating Rate Notes Due 2044 (the "Class A-1d Notes" and, together with the Class A-1a Notes, Class A-1b Notes and Class A-1c Notes, the "Class A-1 Notes"); U.S.$305,000,000 principal amount of Class A-2 Floating Rate Notes Due 2047 (the "Class A-2 Notes" and, together with the Class A-1 Notes, the "Class A Notes"), U.S.$107,000,000 principal amount of Class B Floating Rate Notes Due 2047 (the "Class B Notes") and, the Issuers will issue U.S.$38,000,000 principal amount of Class D Deferrable Floating Rate Notes Due 2047 (the "Class D Notes") and, the Issuers will issue U.S.$30,000,000 principal amount of Class D Deferrable Floating Rate Notes Due 2047 (the "Class D Notes" and, together with the Class S Notes, Class A Notes, Class B Notes and Class D Notes, the "Notes") pursuant to an Indenture (the "Indenture") dated on or about March 27, 2007 among the Issuers and The Bank of New York, as trustee and securities intermediary (the "Trustee" and the "Securities Intermediary," respectively).

In addition, the Issuer will issue U.S.$22,000,000 notional principal amount of Income Notes (the "Income Notes" and, together with the Notes, the " Securities") constituted by the deed of covenant executed by the Issuer on March 27, 2007 (the "Deed of Covenant") and subject to the terms and conditions thereof (the "Terms and Conditions") and issued pursuant to a fiscal agency agreement (the "Fiscal Agency Agreement") dated on or about March 27, 2007 between the Issuer and The Bank of New York, London Branch, as fiscal agent (the "Fiscal Agent").

The net proceeds received from the offering of the Securities will be applied by the Issuer to purchase a portfolio of CDO Securities and Synthetic Securities (the Reference Obligations of which are CDO Securities) as described herein (collectively, together with Deliverable Obligations and any Default Swap Collateral that has been released from the lien of the Synthetic Security Counterparty and credited to the Collateral Account as described herein, "Collateral Assets"). Default Swap Collateral and Eligible Investments. Certain summary information about the Collateral Assets and the Reference Obligations is set forth in Appendix B of this Offering Circular. On the Closing Date, the Issuer will enter into the Cashflow Swap Agreement. The Collateral Assets, the Eligible Investments and certain other assets of the Issuer will be pledged under the Indenture to the Trustee, for the benefit of the Securities Intermediary, and the security for, among other obligations, the Issuers' obligations under the Notes (but not the Income Notes) and to certain service providers. The Income Notes will be unsecured obligations of the Issuer.

Interest will be payable on the Class S-1 Notes, the Class S-2 Notes, the Class A-1 Notes, the Class A-2 Notes, the Class B Notes, the Class C Notes and the Class D Notes in arrears on the 3rd day of March, June, September and December of each year, or if any such date is not a Business Day, the immediately following Business Day (each such date, a "Payment Date") commencing on September 1, 2007. The Class S-1 Notes will bear interest at a per annum rate equal to LIBOR plus 0.20% for each Interest Accrual Period (as defined herein). The Class S-2 Notes will bear interest at a per annum rate equal to LIBOR plus 0.35% for each Interest Accrual Period. The Class A-1 Notes will bear interest at a per annum rate equal to LIBOR plus 0.50% for each Interest Accrual Period. The Class A-2 Notes will bear interest at a per annum rate equal to LIBOR plus 0.60% for each Interest Accrual Period. The Class A-1c Notes will bear interest at a per annum rate equal to LIBOR plus 1.00% for each Interest Accrual Period. The Class A-1d Notes will bear interest at a per annum rate equal to LIBOR plus 1.25% for each Interest Accrual Period. The Class A-2 Notes will bear interest at a per annum rate equal to LIBOR plus 1.40% for each Interest Accrual Period. The Class C Notes will bear interest at a per annum rate equal to LIBOR plus 4.00% for each Interest Accrual Period. The Class D Notes will bear interest at a per annum rate equal to LIBOR plus 10.00% for each Interest Accrual Period. Payments will be made on the Income Notes from funds available in accordance with the Priority of Payments.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021925372
All payments on the Securities will be made from Proceeds available in accordance with the Priority of Payments. On each Payment Date, except as otherwise provided in the Priority of Payments, payments on the Class S-1 Notes will be senior to payments on the Class S-2 Notes, the Class A-1 Notes, the Class A-2 Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Income Notes; payments on the Class S-2 Notes will be senior to payments on the Class A-2 Notes (provided, that payments of interest on the Class S-2 Notes and the Class A-2 Notes will be paid pro rata), the Class B Notes, the Class C Notes, the Class D Notes and the Income Notes; payments on the Class A-1 Notes will be senior to payments on the Class A-2 Notes (provided, that payments of interest on the Class A Notes will be paid pro rata), the Class B Notes, the Class C Notes, the Class D Notes and the Income Notes; payments on the Class A-2 Notes will be senior to payments on the Class B Notes, the Class C Notes, the Class D Notes and the Income Notes; payments on the Class B Notes will be senior to payments on the Class C Notes, the Class D Notes and the Income Notes; payments on the Class C Notes will be senior to payments on the Class D Notes and the Income Notes; and payments on the Class D Notes will be senior to payments on the Income Notes. In accordance with the Priority of Payments as described herein. The Notes (other than the Class S-1 Notes) are subject to mandatory redemption if a Coverage Test is not satisfied on any date of determination which may result in variations to the seniorities of distributions described above and as more fully described in the Priority of Payments. Payments of principal on the Class A-1 Notes will be paid in accordance with the Class A-1 Note Payment Sequence.

The Notes and, to the extent described herein, the Income Notes, are subject to redemption, (i) at any time as a result of a Tax Redemption, (ii) on an Auction Payment Date as a result of a successful Auction or (iii) as a result of an Optional Redemption by Refinancing or an Optional Redemption by Liquidation on or after the March 2010 Payment Date. The Income Notes will not be redeemed in full, or in part, in connection with an Optional Redemption by Refinancing. The stated maturity of the Notes and the Income Notes (other than the Class S Notes and the Class A-1 Notes) is the Payment Date in December 2047. The stated maturity of the Class S Notes is the Payment Date in September 2011. The stated maturity of the Class A-1 Notes and the Class A-2 Notes is the Payment Date in December 2036. The stated maturity of the Class A-1c Notes and the Class A-1d Notes is the Payment Date in September 2004. The actual final distribution on the Securities (other then the Class S Notes) is expected to occur substantially earlier than their respective stated maturities. See “Risk Factors—Securities—Average Lives, Duration and Prepayment Considerations.”

Notes sold in reliance on Rule 144A under the Securities Act (“Rule 144A”) will be evidenced by one or more global notes (the “Rule 144A Global Notes”) in fully registered form without coupons, deposited with a custodian for, and registered in the name of, a nominee of The Depository Trust Company (“DTC”). Beneficial interests in the Rule 144A Global Notes will trade in DTC’s Same Day Funds Settlement System, and secondary market trading activity in such interests will therefore settle in immediately available funds. Except as described herein, beneficial interests in the Rule 144A Global Notes will be shown on, and transfers thereof will be effected only through, records maintained by DTC and its direct and indirect participants. The Income Notes sold in reliance on Rule 144A under the Securities Act will be evidenced by one or more Definitive Notes in fully registered form.

The Securities that are being offered hereby in reliance on the exemption from registration under Regulation S (the “Regulation S Securities”) have not been, and will not be, registered under the Securities Act or the laws of any state of the United States, and therefore may not be offered or sold in the United States or to U.S. Persons (as defined in Regulation S) unless the purchaser certifies or is deemed to have certified that it is a qualified institutional buyer as defined in Rule 144A (a “Qualified Institutional Buyer”) and a “qualified purchaser” for the purposes of Section 3(c)(7) of the Investment Company Act (a “Qualified Purchaser”) or, solely in the case of the Income Notes, subject to an “accredited investor” as defined in Rule 501(a) under the Securities Act (an “Accredited Investor”) who has a net worth of not less than U.S. $10 million and a Qualified Purchaser. See “Description of the Securities” and “Underwriting.”

The Income Notes (other than the Regulation S Income Notes) will be evidenced by one or more definitive notes in fully registered form (each, an "Income Note Certificate"). See "Description of the Securities."

This Offering Circular is confidential and is being furnished to the Issuers in connection with an offering exempt from registration under the Securities Act, solely for the purpose of enabling a prospective investor to consider the purchase of the Securities described herein. The information contained in this Offering Circular has been provided by the Issuers and other sources identified herein. Except in respect of the information contained under the heading "The Collateral Manager," (other than the information contained under the subheading "General") for which the Collateral Manager accepts sole responsibility, to the extent described in such section, no representation or warranty, expressed or implied, is made by the Initial Purchaser, the Collateral Manager, the Cashflow Swap Counterparty (or any guarantor thereof), the Trustee, the Collateral Administrator, the Note Agents (as defined herein) or the Fiscal Agent (the Note Agents, the Collateral Administrator and the Fiscal Agent together, the "Agents") as to the accuracy or completeness of such information, and nothing contained in this Offering Circular is, or shall be relied upon as, a promise or representation by the Initial Purchaser, the Trustee, the Collateral Manager, the Cashflow Swap Counterparty (or any guarantor thereof) or the Agents. Any reproduction or distribution of this Offering Circular, in whole or in part, and any disclosure of its contents or use of any information herein for any purpose other than considering an investment in the Securities is prohibited. Each owner of the Securities, by accepting delivery of this Offering Circular, agrees to the foregoing.

THE SECURITIES OFFERED HEREBY HAVE NOT BEEN RECOMMENDED BY ANY UNITED STATES FEDERAL OR STATE SECURITIES COMMISSION OR REGULATORY AUTHORITY. FURTHERMORE, THE FOREGOING AUTHORITIES HAVE NOT CONFIRMED THE ACCURACY OR DETERMINED THE ADEQUACY OF THIS DOCUMENT. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The distribution of this Offering Circular and the offering and sale of the Securities in certain jurisdictions may be restricted by law. For further information, the Issuers and the Initial Purchaser require persons to whom this Offering Circular is distributed to observe any such restrictions. For a further description of certain restrictions on offering and sales of the Securities, see "Underwriting." This Offering Circular does not constitute an offer of, or an invitation to purchase, any of the Securities in any jurisdiction in which such offer or invitation would be unlawful.

NOTICE TO NEW HAMPSHIRE RESIDENTS

NEITHER THE FACT THAT A REGISTRATION STATEMENT OR AN APPLICATION FOR A LICENSE HAS BEEN FILED UNDER CHAPTER 421-B OF THE NEW HAMPSHIRE REVISED STATUTES ANNOTATED ("RSA 421-B") WITH THE STATE OF NEW HAMPSHIRE NOR THE FACT THAT A SECURITY IS EFFECTIVELY REGISTERED OR A PERSON IS LICENSED IN THE STATE OF NEW HAMPSHIRE CONSTITUTES A FINDING BY THE SECRETARY OF STATE OF NEW HAMPSHIRE THAT ANY DOCUMENT FILED UNDER RSA 421-B IS TRUE, COMPLETE AND NOT MISLEADING. NEITHER ANY SUCH FACT NOR THE FACT THAT AN EXEMPTION OR EXCEPTION IS AVAILABLE FOR A SECURITY OR A TRANSACTION MEANS THAT THE SECRETARY OF STATE HAS PASSED IN ANY WAY UPON THE MERITS OR QUALIFICATIONS OF, OR RECOMMENDED OR GIVEN APPROVAL TO, ANY PERSON, SECURITY, OR TRANSACTION. IT IS UNLAWFUL TO MAKE, OR CAUSE TO BE MADE, TO ANY PROSPECTIVE PURCHASER, CUSTOMER OR CLIENT ANY REPRESENTATION INCONSISTENT WITH THE PROVISIONS OF THIS PARAGRAPH.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825374
No invitation may be made to the public in the Cayman Islands to subscribe for the Securities.

The initial Purchaser has represented, warranted and agreed that: (i) it has only communicated or caused to be communicated or will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000 ("FSMA")) received by it in connection with the issue or sale of any Securities in circumstances in which section 21(1) of the FSMA does not apply to the issuer, and (ii) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the Securities in, from or otherwise involving the United Kingdom. See "Underwriting."

The Securities may not be offered or sold by means of any document other than to persons whose ordinary business is to buy or sell shares or debentures, whether as principal or agent, or in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32) of Hong Kong, and no advertisement, invitation or document relating to the Securities may be issued, whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Securities which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" within the meaning of the Securities and Futures Ordinance (Cap. 571) of Hong Kong and any rules made thereunder.

This Offering Circular has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this Offering Circular and any other document or material in connection with the offer or sale, or invitation or subscription or purchase, of the Securities may not be circulated or distributed, nor may the Securities be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than under circumstances in which such offer, sale or invitation does not constitute an offer or sale, or invitation for subscription or purchase, of the Securities to the public in Singapore.

The Securities have not been and will not be registered under the Securities and Exchange Law of Japan (the Securities and Exchange Law) and the Initial Purchaser has agreed that it will not offer or sell any Securities, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan, or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Securities and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

NOTICE TO RESIDENTS OF THE REPUBLIC OF IRELAND

THIS OFFERING CIRCULAR IS NOT A PROSPECTUS AND DOES NOT CONSTITUTE AN INVITATION TO THE PUBLIC TO PURCHASE OR SUBSCRIBE FOR ANY SECURITIES AND NEITHER IT NOR ANY FORM OF APPLICATION WILL BE ISSUED, CIRCULATED OR DISTRIBUTED TO THE PUBLIC.

THIS OFFERING CIRCULAR AND THE INFORMATION CONTAINED HEREIN IS CONFIDENTIAL AND IS FOR THE USE SOLELY OF THE PERSON TO WHOM IT IS ADDRESSED. ACCORDINGLY, IT MAY NOT BE REPRODUCED IN WHOLE OR IN PART, NOR MAY ITS CONTENTS BE DISTRIBUTED IN WRITING OR ORALLY TO ANY THIRD PARTY AND IT MAY BE READ SOLELY BY THE PERSON TO WHOM IT IS ADDRESSED AND HIS/her PROFESSIONAL ADVISERS.

In this offering circular, references to "U.S. Dollars," "$" and "U.S." are to United States dollars.

The issuers (and, with respect to the information contained in this offering circular under the heading "The Collateral Manager" (other than the information contained under the subheading "General"), the Collateral Manager to the extent described in such section), having made all reasonable inquiries, confirm that the information contained in this offering circular is true and correct in all material respects and is not misleading, that the opinions and intentions expressed in this offering circular are honestly held and that there are no other facts the omission of which would make any such information or the expression of any such opinions or intentions misleading. The issuers (and, with respect to the information in this offering circular under the heading "The Collateral Manager" (other than the information contained under the subheading "General"), the Collateral Manager, to the extent described in such section) take responsibility accordingly.

No person has been authorized to give any information or to make any representation other than those contained in this offering circular, and, if given or made, such information or representation must not be relied upon as having been authorized. This offering circular does not constitute an offer to sell or the solicitation of an offer to buy any securities other than the securities to which it relates, or an offer to sell or the solicitation of an offer to buy such securities by any person in any circumstances in which such offer or solicitation is unlawful. Neither the delivery of this offering circular nor any sale hereunder shall, under any circumstances, create any implication that the information contained herein is correct as of any time subsequent to the date of this offering circular.

NOTWITHSTANDING ANY OTHER EXPRESS OR IMPLIED AGREEMENT TO THE CONTRARY, EACH RECIPIENT OF THIS OFFERING CIRCULAR AGREES AND ACKNOWLEDGES THAT THE ISSUERS HAVE AGREED THAT EACH OF THEM AND THEIR EMPLOYEES, REPRESENTATIVES AND OTHER AGENTS MAY DISCLOSE, IMMEDIATELY UPON COMMENCEMENT OF DISCUSSIONS, TO ANY AND ALL PERSONS THE TAX TREATMENT AND TAX STRUCTURE OF THE SECURITIES, THE TRANSACTIONS DESCRIBED HEREBIN AND ALL MATERIALS OF ANY KIND (INCLUDING OPINIONS OR OTHER TAX ANALYSIS) THAT ARE PROVIDED TO ANY OF THEM RELATING TO SUCH TAX TREATMENT AND TAX STRUCTURE EXCEPT WHERE CONFIDENTIALITY IS REASONABLY NECESSARY TO COMPLY WITH THE SECURITIES LAWS OF ANY APPLICABLE JURISDICTION.

PROSPECTIVE INVESTORS SHOULD READ THIS OFFERING CIRCULAR CAREFULLY BEFORE DECIDING WHETHER TO INVEST IN THE SECURITIES AND SHOULD PAY PARTICULAR ATTENTION TO THE INFORMATION SET FORTH UNDER THE HEADING "RISK FACTORS". INVESTMENT IN THE SECURITIES IS SPECULATIVE AND INVOLVES SIGNIFICANT RISK. INVESTORS SHOULD UNDERSTAND SUCH RISKS AND HAVE THE FINANCIAL ABILITY AND WILLINGNESS TO ACCEPT THEM FOR AN EXTENDED PERIOD OF TIME.
NOTICE TO INVESTORS

Because of the following restrictions, purchasers are advised to consult legal counsel prior to making any offer, resale, pledge or other transfer of the Notes or the Income Notes offered hereby.

Each purchaser who has purchased Class S Notes, Class A Notes, Class B Notes, Class C Notes, Regulation S Class D Notes and Regulation S Income Notes will be deemed to have represented and agreed, and each purchaser of a Class D Note that is a Definitive Note and an Income Note Certificate will be required to represent and agree, in each case with respect to such Securities, as follows (forms used herein that are defined in Rule 144A or Regulation S are used herein as defined therein):

1. (a) In the case of Notes sold in reliance on Rule 144A, the purchaser of such Rule 144A Notes is a qualified institutional buyer (as defined in Rule 144A) ("Qualified Institutional Buyer"). (i) is aware that the sale of Notes to it is being made in reliance on Rule 144A, (ii) is acquiring the Rule 144A Notes for its own account or for the account of a Qualified Institutional Buyer as to which the purchaser exercises sole investment discretion, and in a principal amount of not less than U.S.$100,000,000 and (iii) will provide notice of the transfer restrictions described in this "Notice to Investors" to any subsequent transferee.

(b) In the case of Notes, other than any Notes in reliance on Regulation S, the purchaser of such Notes is a qualified institutional buyer, (i) is aware that the sale of the Notes to it is being made in reliance on Rule 144A, (ii) is acquiring the Notes for its own account or for the account of a Qualified Institutional Buyer as to which the purchaser exercises sole investment discretion, and, unless otherwise permitted by the Fiscal Agency Agreement, is purchasing an aggregate principal amount of not less than U.S.$100,000,000 Notes for the purchaser and for each such account and (v) will provide notice of the transfer restrictions described in this "Notice to Investors" to any subsequent transferee; or, if the purchaser is not a Qualified institutional Buyer, such purchaser (a) is a person who is an "accredited investor" (as defined in Rule 501(a) under the Securities Act) (an "Accredited Investor") who has a net worth of not less than U.S.$10 million that is purchasing the Income Notes for its own account, (b) is not acquiring the Notes with a view to any resale or distribution thereof, other than in accordance with the restrictions set forth below, (c) is purchasing an aggregate principal amount of not less than U.S.$100,000,000 Notes (unless otherwise permitted by the Fiscal Agency Agreement) and (d) will provide notice of the transfer restrictions described in this "Notice to Investors" to any subsequent transferee.

2. The purchaser understands that the Securities have not been and will not be registered or qualified under the Securities Act or any applicable state securities laws or the securities laws of any other jurisdiction, are being offered only in a transaction not involving any public offering, and may be resold, reoffered, resold or otherwise transferred only (A)(i) to a person whom the purchaser reasonably believes is a Qualified Institutional Buyer and is purchasing for its own account or for the account of a Qualified Institutional buyer as to which the purchaser exercises sole investment discretion in a transaction meeting the requirements of Rule 144A, (B)(i) to a non-U.S. person in an offshore transaction complying with Rule 903 or Rule 904 of Regulation S or (B)(ii) solely in the case of the Income Notes, to an Accredited Investor who has a net worth of not less than U.S.$10 million, and who shall have represented, warranted, covenanted and agreed in the case of the Class A Notes, the Class C Notes and the Income Notes (other than the Regulation S Class A Notes and Regulation S Income Notes), or shall be deemed to have satisfied, and shall otherwise be deemed to have represented, warranted, covenanted and agreed that it will continue to comply with, all requirements for transfer of the Securities specified in this offering circular, the Indenture, and, in the case of the Class D Notes and the Income Notes (other than the Regulation S Class A Notes and Regulation S Income Notes), In the Indenture and the Fiscal Agency Agreement, and, in the case of the Regulation S Income Notes, in the Fiscal Agency Agreement, and all other requirements for it to qualify for an exemption from registration under the Securities Act and (B)(ii) in accordance with all applicable securities laws of the states of the United States. Before any interest in a Rule 144A Note may be offered, sold, pledged or otherwise transferred to a person who takes delivery in the form of an interest in a Regulation S Global Note, the transferee will be required to provide the Note Transfer Agent with a written certification (in the form provided in the Indenture) as to compliance with the transfer restrictions.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825377
3. The purchaser of such Securities also understands that neither of the Issuers has been registered under the Investment Company Act. In the case of the Rule 144A Notes and the Income Notes described in paragraph (1) above, the purchaser and each account for which the purchaser is acquiring such Securities is a qualified purchaser for the purposes of Section 3(c)(7) of the Investment Company Act (a “Qualified Purchaser”). The purchaser is acquiring Notes in a principal amount, in the case of Rule 144A Notes, not less than U.S.$200,000, or, in the case of Notes sold in reliance on Regulation S (“Regulation S Notes”), not less than U.S.$100,000, or is purchasing Income Notes in the aggregate notional principal amount of not less than U.S.$100,000. The purchaser (or if the purchaser is acquiring Securities for any account, each such account) is acquiring the Securities as principal for its own account for investment and not for sale in connection with any distribution thereof. The purchaser and each such account: (a) was not formed for the specific purpose of investing in the Securities (except when each beneficial owner of the purchaser and each such account is a Qualified Purchaser), (b) to the extent the purchaser is a private investment company formed before April 30, 1996, the purchaser has received the necessary consent from its beneficial owners, (c) is not a pension, profit sharing or other retirement trust fund or plan in which the partners, beneficiaries or participants, as applicable, may designate the particular investments to be made and (d) is not a broker dealer that owns and invests in a discretionary basis less than U.S.$25,000,000 in securities of unaffiliated issuers. Further, the purchaser agrees with respect to itself and each such account: (i) that it shall not hold such Securities for the benefit of any other person and shall be the sole beneficial owner thereof for all purposes and (ii) that it shall not sell participation interests in the Securities or enter into any other arrangement pursuant to which any other person shall be entitled to a beneficial interest in the distributions on the Securities. The purchaser understands and agrees that any purported transfer of Securities to a purchaser that does not comply with the requirements of this paragraph (3) will, in the case of the Class S Notes, Class A Notes, Class B Notes, Class C Notes, the Regulation S Class D Notes and Regulation S Income Notes, be null and void ab initio and, in the case of the Class D Notes (other than the Regulation S Class D Notes) and Income Notes (other than the Regulation S Income Notes), not be permitted or registered by the Trustee or the Registrar or the Fiscal Agent or the Income Note Registrar, as applicable. The purchaser further understands that the Issuers have the right to compel any beneficial owner of Securities that is a U.S. Person and is not a Qualified Institutional Buyer or, in the case of the Income Notes, an Accredited Investor to sell its interest in such Securities, or the Issuers may sell such Securities on behalf of such owner.

4. (a) With respect to the Class S Notes, Class A Notes, Class B Notes and Class C Notes, each purchaser will be deemed, by its purchase, to have represented and warranted that neither (i) the purchaser is not and will not be an ERISA Plan (as defined herein), a plan that is subject to Section 4975 of the United States Internal Revenue Code of 1986, as amended (the “Code”), or any entity whose underlying assets include “plan assets” by reason of any such plan’s investment in the entity (“Plan Assets”), nor (ii) the purchaser’s purchase and holding of a Class S Note, Class A Note, Class B Note or a Class C Note does not and will not constitute or result in a prohibited transaction under Section 406 of the United States Employee Retirement Income Security Act of 1974, as amended (“ERISA”), or Section 4975 of the Code for which an exemption is not available. The purchaser understands and agrees that any purported transfer of a Note to a purchaser that does not comply with the requirements of this paragraph (4)(a) shall be null and void ab initio.
(b) With respect to each of the Income Notes and Class D Notes (other than Regulation S Income Notes and Regulation S Class D Notes) purchased or transferred on or after the Closing Date, the purchaser or transferee must disclose in writing in advance to the Trustee or the Fiscal Agent, as applicable, (i) whether or not it is (A) an “employee benefit plan” (as defined in Section 3(3) of ERISA), that is subject to Title I of ERISA; (B) a “plan” described in and subject to Section 4975 of the Code, or (C) an entity whose underlying assets include “plan assets” within the meaning of ERISA by reason of any such plan’s investment in the entity (all such persons and entities described in clauses (A) through (C) being referred to herein as “Benefit Plan Investors”); (ii) if the purchaser is a Benefit Plan Investor, either (x) the purchase and holding of Income Notes or Class D Notes (other than Regulation S Income Notes and Regulation S Class D Notes), as applicable, do not and will not constitute or result in a prohibited transaction under Section 406 of ERISA or Section 4975 of the Code for which an exemption is not available or (y) the purchase and holding of Income Notes or Class D Notes (other than Regulation S Income Notes and Regulation S Class D Notes), as applicable, is exempt under an identified Prohibited Transaction Class Exemption or individual exemption, based on the assumption that less than 25% of each of the outstanding Income Notes or Class D Notes, as applicable, are owned by Benefit Plan Investors; and (iii) whether or not it is the issuer or any other person (other than a Benefit Plan Investor) that has discretionary authority or control with respect to the assets of the issuer, a person who provides investment advice for a fee (direct or indirect) with respect to the assets of the issuer, or any “affiliate” (within the meaning of 29 C.F.R. Section 2510.3-101(f)(3)) of any such person (each, a “Controlling Person”). If a purchaser is an entity described in (B)(C) above, or an insurance company acting on behalf of its general account, it may be required to so indicate, and to identify a maximum percentage of its assets or the assets in its general account, as applicable, that may be or become plan assets, in which case it will be required to make certain further agreements that would apply in the event that such maximum percentage would thereafter be exceeded. The purchaser agrees that, before any interest in an Income Note or a Class D Note (other than a Regulation S Income Note or a Regulation S Class D Note) may be offered, sold, pledged or otherwise transferred, the transfers will be required to provide the Trustee or Fiscal Agent, as applicable, with an Income Note Purchase and Transfer Letter or a Class D Notes Purchase and Transfer Letter stating, among other things, whether the transferee is a Benefit Plan Investor. The purchaser acknowledges and agrees that no purchase or transfer will be permitted, and the Trustee or Fiscal Agent will not register any such transfer, to the extent that the purchase or transfer would result in Benefit Plan Investors owning 25% or more of either of the outstanding Income Notes or Class D Notes, immediately after such purchase or transfer (determined in accordance with the Fiscal Agency Agreement). The foregoing procedures are intended to enable Income Notes and Class D Notes (other than Regulation S Income Notes and Regulation S Class D Notes) to be purchased by or transferred to Benefit Plan Investors at any time, although no assurance can be given that there will not be circumstances in which purchases or transfers of Income Notes or Class D Notes will be required to be restricted in order to comply with the aforementioned 25% limitation. No Benefit Plan Investor or Controlling Person may purchase a Regulation S Income Note or Regulation S Class D Note. Purchasers of Regulation S Income Notes or Regulation S Class D Note are deemed to represent that they are not Regulation S Investors or Controlling Persons. See “ERISA Considerations.”

5. The purchaser is not purchasing the Securities with a view toward the resale, distribution or other disposition thereof in violation of the Securities Act. The purchaser understands that an investment in the Securities involves certain risks, including the risk of loss of its whole investment in the Securities under certain circumstances. The purchaser has had access to such financial and other information concerning the Issuer and the Securities as it deemed necessary or appropriate in order to make an informed Investment decision with respect to its purchase of the Securities, including an opportunity to ask questions of, and request information from, the Issuer.

6. In connection with the purchase of the Securities: (i) none of the Issuers, the Initial Purchaser, the Collateral Manager, the Trustee, the Agents, the Cashflow Swap Counterparty (or any guarantor thereof), the Issuer Administrator or the Share Trustee (as defined herein) is acting as a fiduciary or financial or investment adviser for the purchaser; (ii) the purchaser is not relying (for purposes of making any investment decision or otherwise) upon any advice, counsel or representations (whether written or oral) of the Issuer, the Initial Purchaser, the Collateral Manager, the Trustee, the Agents, the Cashflow Swap Counterparty (or any guarantor thereof), the Issuer Administrator or the Share Trustee.
other than in this offering circular for such Securities and any representations expressly set forth in a written agreement with such party; (ii) none of the Issuers, the Initial Purchaser, the Collateral Manager, the Trustee, the Agent, the Cashflow Swap Counterparty (or any guarantor thereof), the Issuer Administrator or the Share Trustee has given to the purchaser (directly or indirectly through any other person) any assurance, guarantee or representation whatsoever as to the expected or projected success, profitability, return, performance, results, effect, consequences or benefit (including legal, regulatory, tax, financial, accounting or otherwise) as to an investment in the Securities; (iii) the purchaser has consulted with its own legal, regulatory, tax, business, investment, financial and accounting advisors to the extent it has deemed necessary, and it has made its own investment decisions (including decisions regarding the suitability of any transaction pursuant to the Indenture and Fiscal Agency Agreement) based upon its own judgment and upon any advice from such advisors as it has deemed necessary and not upon any view expressed by issuers, the Initial Purchaser, the Collateral Manager, the Trustee, the Agent, the Cashflow Swap Counterparty (or any guarantor thereof), the Issuer Administrator or the Share Trustee; (iv) the purchaser has evaluated the risks, prices or amounts and other terms and conditions of the purchase and sale of the Securities with full understanding of all of the risks thereof (economic and otherwise), and is capable of assuming and willing to assume (financially and otherwise) those risks; and (v) the purchaser is a sophisticated investor.

7. Pursuant to the terms of the Indenture, unless otherwise determined by the Issuers in accordance with the Indenture, the Class B Notes, the Class A Notes, the Class D Notes, the Class C Notes and the Class D Notes sold to non-U.S. Persons in offshore transactions (the “Regulation S Class D Notes”) will bear a legend to the following effect:

ACCORDANCE WITH THE RESTRICTIONS SET FORTH IN THE INDENTURE.

PRINCIPAL OF THIS NOTE IS PAYABLE AS SET FORTH HEREIN. ACCORDINGLY,
THE OUTSTANDING PRINCIPAL OF THIS NOTE AT ANY TIME MAY BE LESS THAN
THE AMOUNT SHOWN ON THE FACE HEREOF. ANY PERSON ACQUIRING THIS
NOTE MAY ASCERTAIN ITS CURRENT PRINCIPAL AMOUNT BY INQUIRY OF THE
NOTE PAYING AGENT.

THE FOLLOWING INFORMATION IS PROVIDED PURSUANT TO UNITED STATES
TREASURY REGULATION SECTION 1.1275-3(b). THIS NOTE HAS BEEN ISSUED
WITH ORIGINAL ISSUE DISCOUNT FOR UNITED STATES FEDERAL INCOME TAX
PURPOSES. THE HOLDER OF THIS NOTE MAY OBTAIN THE INFORMATION
DESCRIBED IN UNITED STATES TREASURY REGULATION SECTION 1.1275-
3(b)(1)(i) FROM THE ADMINISTRATOR. AT THE FOLLOWING ADDRESS: P.O. BOX
1093 OT, GRAND CAYMAN, CAYMAN ISLANDS.

9. The purchaser acknowledges that it is its intent and that it understands it is the intent of
the issuer that, for purposes of U.S. federal income, state and local income and franchise tax and any
other income taxes, the issuer will be treated as a non-U.S. corporation; the Notes will be treated as
independent of the issuer; and the income Notes will be treated as equity in the issuer. The purchaser
agrees to such treatment and agrees to take no action inconsistent with such treatment.

10. If the purchaser or beneficial owner is a Non-U.S. Holder, such purchaser or beneficial
owner represents that (a) either (i) its purchase of the Note is not, directly or indirectly, an extension of
credit made by a bank pursuant to a loan agreement entered into in the ordinary course of its trade or
business, (ii) it is a person that is eligible for benefits under an income tax treaty with the United States
that eliminates United States federal income taxation of United States source interest not attributable to
a permanent establishment in the United States or (iii) all income from the Note is effectively connected
with a trade or business within the United States (as such terms are used in Section 882(b)(1) of the Code)
conducted by such Holder and (ii) it is not purchasing the Note in order to reduce its United States federal
income tax liability or pursuant to any tax avoidance plan.

11. The purchaser agrees not to treat the issuer as being engaged in the active conduct of a
banking, financing, insurance, or other similar business for purposes of Section 954(h)(2) of the Code.

12. The purchaser agrees to timely furnish the issuer or its agents any U.S. federal income
tax form or certification (such as IRS Form 8896 (Certification of Foreign Status), Form W-8NY
(Certification of Foreign Intermediary Status), Form W-8A (Request for Taxpayer Identification Number
and Certification) or Form W-8ECI (Certification of Foreign Person’s Claim for Exemption from Withholding on
Income Effectively Connected with Conduct of a U.S. Trade or Business) or any successors to such IRS
forms) that the issuer or its agents may reasonably request and to update or replace such form or
certification in accordance with its terms or its subsequent amendments.
13. The purchaser agrees to timely furnish the Issuer, upon request, with such information as may reasonably be requested by the Issuer (including but not limited to information relating to the beneficial owner of the Note) in connection with the Issuer's fulfillment of its tax reporting, notification, withholding and similar obligations arising under the Code (as amended from time to time) or the Transaction Documents.

14. The purchaser understands that the Issuer, the Trustee, the Initial Purchaser and the Collateral Manager and their counsel will rely upon the accuracy and truth of the foregoing representations, and the purchaser hereby consents to such reliance.

15. Pursuant to the terms of the Fiscal Agency Agreement, unless otherwise determined by the Issuer in accordance with the Fiscal Agency Agreement, the Income Notes (other than the Regulation S Income Notes) will bear a legend to the following effect:

THE INCOME NOTES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND THE ISSUER HAS NOT BEEN REGISTERED UNDER THE UNITED STATES INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE "INVESTMENT COMPANY ACT"), THE HOLDER HEREOF, BY PURCHASING THE INCOME NOTES REPRESENTED HEREBY, AGREES FOR THE BENEFIT OF THE ISSUER THAT SUCH INCOME NOTES MAY BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED, ONLY (A)(1) TO A PERSON WHOSE THE SELLER REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT AND IS PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER, IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A UNDER THE SECURITIES ACT, (2) TO AN ACCREDITED INVESTOR (AS DEFINED IN RULE 501(A) UNDER THE SECURITIES ACT) WHO HAS A NET WORTH OF NOT LESS THAN U.S.$10 MILLION IN A TRANSACTION EXEMPT FROM REGISTRATION UNDER THE SECURITIES ACT, OR (3) TO A NON-U.S. PERSON IN AN OFFSHORE TRANSACTION COMPLYING WITH RULE 902 OR RULE 904 OF REGULATION S UNDER THE SECURITIES ACT, AND IN EACH CASE IN A MINIMUM DENOMINATION OF U.S.$100,000. FURTHERMORE THE PURCHASER AND EACH ACCOUNT FOR WHICH IT IS ACTING AS A PURCHASER, OTHER THAN IN THE CASE OF CLAUSE (A)(2) ABOVE, REPRESENTS FOR THE BENEFIT OF THE ISSUER THAT IT (A) IS A QUALIFIED PURCHASER FOR THE PURPOSES OF SECTION 3(a)(7) OF THE INVESTMENT COMPANY ACT, (B) WAS NOT FORMED FOR THE PURPOSE OF INVESTING IN THE ISSUER (EXCEPT WHEN EACH BENEFICIAL OWNER OF THE PURCHASER IS A QUALIFIED PURCHASER), (C) HAS RECEIVED THE NECESSARY CONSENT FROM ITS BENEFICIAL OWNERS WHEN THE PURCHASER IS A PRIVATE INVESTMENT COMPANY FORMED BEFORE APRIL 30, 1966, (Y) IS NOT A BROKER-DEALER THAT OWNS AND INVESTS ON A DISCRETIONARY BASIS LESS THAN U.S.$25,000,000 IN SECURITIES OF UNAFFILIATED ISSUERS AND (Z) IS NOT A PENSION, PROFIT SHARING OR OTHER RETIREMENT TRUST FUND OR PLAN IN WHICH THE PARTNERS, BENEFICIARIES OR PARTICIPANTS, AS APPLICABLE, MAY DESIGNATE THE PARTICULAR INVESTMENTS TO BE MADE, AND IN A

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825385
TRANSACTION THAT MAY BE EFFECTED WITHOUT LOSS OF ANY APPLICABLE INVESTMENT COMPANY ACT EXEMPTION AND (B) IN ACCORDANCE WITH ALL APPLICABLE SECURITIES LAWS OF THE STATES OF THE UNITED STATES, ANY PURPORTED TRANSFER IN VIOLATION OF THE FOREGOING WILL NOT BE PERMITTED OR REGISTERED BY THE FISCAL AGENT OR THE INCOME NOTE REGISTRAR. EACH TRANSFEROR OF THE INCOME NOTES WILL PROVIDE NOTICE OF THE TRANSFER RESTRICTIONS SET FORTH HEREIN AND IN THE FISCAL AGENCY AGREEMENT TO ITS TRANSFEREE.

THE PURCHASER OR TRANSFEREE MUST DISCLOSE IN WRITING IN ADVANCE TO THE FISCAL AGENT (I) WHETHER OR NOT IT IS (A) AN "EMPLOYEE BENEFIT PLAN" (AS DEFINED IN SECTION 3(3) OF THE UNITED STATES EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974, AS AMENDED ("ERISA")), THAT IS SUBJECT TO THE PROVISIONS OF TITLE I OF ERISA, (B) A "PLAN" DESCRIBED IN AND SUBJECT TO SECTION 4975 OF THE UNITED STATES INTERNAL REVENUE CODE OF 1986, AS AMENDED (THE "CODE"), OR (C) AN ENTITY WHOSE ASSETS INCLUDE "PLAN ASSETS" (WITHIN THE MEANING OF ERISA) BY REASON OF ANY SUCH PLAN'S INVESTMENT IN THE ENTITY (ALL SUCH PERSONS AND ENTITIES DESCRIBED IN CLAUSES (A) THROUGH (C) BEING REFERRED TO HEREIN AS "BENEFIT PLAN INVESTORS"); (II) IF THE PURCHASER OR TRANSFEREE IS A BENEFIT PLAN INVESTOR, THAT THE PURCHASE AND HOLDING OR TRANSFER OF INCOME NOTES DO NOT AND WILL NOT CONSTITUTE OR RESULT IN A PROHIBITED TRANSACTION UNDER SECTION 409 OF ERISA OR SECTION 4975 OF THE CODE FOR WHICH AN EXEMPTION IS NOT AVAILABLE, AND (III) WHETHER OR NOT IT IS THE COLLATERAL MANAGER OR ANY OTHER PERSON (OTHER THAN A BENEFIT PLAN INVESTOR) WHO HAS DISCRETIONARY AUTHORITY OR CONTROL WITH RESPECT TO THE ASSETS OF THE ISSUER OR A PERSON WHO PROVIDES INVESTMENT ADVICE FOR A FEE (DIRECT OR INDIRECT) WITH RESPECT TO THE ASSETS OF THE ISSUER, OR ANY "AFFILIATE" (WITHIN THE MEANING OF 29 C.F.R. SECTION 2510.3-101(f)(3)) OF ANY SUCH PERSON.

CONFIDENTIAL TREATMENT REQUESTED BY GOLDMAN SACHS GS MBS-E-0218253386
A BENEFIT PLAN INVESTOR, NO PURCHASE OR TRANSFER OF INCOME NOTES WILL BE PERMITTED OR REGISTERED TO THE EXTENT THAT THE PURCHASE OR TRANSFER WOULD RESULT IN BENEFIT PLAN INVESTORS OWNING 25% OR MORE OF THE OUTSTANDING INCOME NOTES (OTHER THAN THE INCOME NOTES OWNED BY THE COLLATERAL MANAGER, THE TRUSTEE AND THEIR AFFILIATES) IMMEDIATELY AFTER SUCH PURCHASE OR TRANSFER (DETERMINED IN ACCORDANCE WITH SECTION 3(42) OF ERISA, 29 C.F.R. SECTION 2510.3-101 AND THE FISCAL AGENCY AGREEMENT).

PAYMENTS TO THE HOLDERS OF THE INCOME NOTES ARE SUBORDINATE TO THE PAYMENT ON EACH PAYMENT DATE OF PRINCIPAL OF AND INTEREST ON THE NOTES OF THE ISSUERS AND THE PAYMENT OF CERTAIN OTHER AMOUNTS, TO THE EXTENT AND AS DESCRIBED IN THE INDENTURE.

TRANSFERS OF THIS NOTE SHALL BE LIMITED TO TRANSFERS MADE IN ACCORDANCE WITH THE RESTRICTIONS SET FORTH IN THE FISCAL AGENCY AGREEMENT.  

16. Pursuant to the terms of the Fiscal Agency Agreement, unless otherwise determined by the Issuer in accordance with the Fiscal Agency Agreement, the certificates in respect of the Regulation S Income Notes will bear a legend to the following effect:

THE INCOME NOTES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND THE ISSUER HAS NOT BEEN REGISTERED UNDER THE UNITED STATES INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE "INVESTMENT COMPANY ACT"), THE HOLDER HEREBY, BY PURCHASING THE INCOME NOTES REPRESENTED HEREBY, AGREES FOR THE BENEFIT OF THE ISSUER THAT SUCH INCOME NOTES MAY BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED, ONLY (A) TO A PERSON WHO ACQUIRES, REGULARLY ENGAGES IN A BUSINESS ACTING AS A BROKER OR DEALER IN SECURITIES OR WHO IS A QUALIFIED INSTITUTIONAL BUYER AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT AND IS PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER, IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A UNDER THE SECURITIES ACT, (2) TO AN ACCREDITED INVESTOR (AS DEFINED IN RULE 501(a) UNDER THE SECURITIES ACT) WHO HAS A NET WORTH OF NOT LESS THAN $1,000,000 IN A TRANSACTION EXEMPT FROM REGISTRATION UNDER THE SECURITIES ACT, OR (3) TO A NON-U.S. PERSON IN AN OFFSHORE TRANSACTION COMPLYING WITH RULE 902 OR RULE 904 OF REGULATION S UNDER THE SECURITIES ACT, AND IN EACH CASE IN A MINIMUM DENOMINATION OF U.S.$100,000. FURTHERMORE THE PURCHASER AND EACH ACCOUNT FOR WHICH IT IS ACTING AS A PURCHASER, OTHER THAN IN THE CASE OF CLAUSE (A)(3) ABOVE, REPRESENTS FOR THE BENEFIT OF THE ISSUER THAT IT IS A QUALIFIED PURCHASER FOR THE PURPOSES OF SECTION 3(6) OF THE INVESTMENT COMPANY ACT. (V) WAS NOT FORMED FOR THE PURPOSE OF INVESTING IN THE ISSUER (EXCEPT WHEN EACH BENEFICIAL OWNER OF THE PURCHASER IS A QUALIFIED PURCHASER), (X) HAS RECEIVED THE NECESSARY
CONSENT FROM ITS BENEFICIAL OWNERS WHEN THE PURCHASER IS A PRIVATE INVESTMENT COMPANY FORMED BEFORE APRIL 30, 1996, (Y) IS NOT A BROKER-DEALER THAT OWNS AND INVESTS ON A DISCRETIONARY BASIS LESS THAN U.S.$25,000,000 IN SECURITIES OF UNAFFILIATED ISSUERS AND (Z) IS NOT A PENSION, PROFIT SHARING OR OTHER RETIREMENT TRUST FUND OR PLAN IN WHICH THE PARTNERS, BENEFICIARIES OR PARTICIPANTS, AS APPLICABLE, MAY DESIGNATE THE PARTICULAR INVESTMENTS TO BE MADE, AND IN A TRANSACTION THAT MAY BE EFFECTED WITHOUT LOSS OF ANY APPLICABLE INVESTMENT COMPANY ACT EXEMPTION AND (B) IN ACCORDANCE WITH ALL APPLICABLE SECURITIES LAWS OF THE STATES OF THE UNITED STATES. ANY PURPORTED TRANSFER IN VIOLATION OF THE FOREGOING WILL NOT BE PERMITTED OR REGISTERED BY THE FISCAL AGENT OR THE INCOME NOTE REGISTRAR. EACH TRANSFEROR OF THE INCOME NOTES WILL PROVIDE NOTICE OF THE TRANSFER RESTRICTIONS SET FORTH HEREIN AND IN THE FISCAL AGENCY AGREEMENT TO ITS TRANSFEREE.

THE TRANSFEREE OF THIS SECURITY WILL BE DEEMED TO HAVE REPRESENTED THAT THE TRANSFEREE IS NOT A U.S. PERSON.

THE PURCHASER OR TRANSFEREE OF THIS INCOME NOTE IS DEEMED TO REPRESENT (I) THAT IT IS NOT (A) AN "EMPLOYEE BENEFIT PLAN" (AS DEFINED IN SECTION 3(3) OF ERISA) THAT IS SUBJECT TO THE PROVISIONS OF TITLE I OF ERISA, (B) A "PLAN" DESCRIBED IN AND SUBJECT TO SECTION 4975 OF THE CODE, OR (C) AN ENTITY WHOSE ASSETS INCLUDE "PLAN ASSETS" WITHIN THE MEANING OF ERISA BY REASON OF ANY SUCH PLAN'S INVESTMENT IN THE ENTITY (ALL SUCH PERSONS AND ENTITIES DESCRIBED IN ClAUSES (A) THROUGH (C) BEING REFERRED TO HEREIN AS "BENEFIT PLAN INVESTORS"); AND (II) THAT IT IS NOT THE COLLATERAL MANAGER OR ANY OTHER PERSON (OTHER THAN A BENEFIT PLAN INVESTOR) WHO HAS DISCRETIONARY AUTHORITY OR CONTROL WITH RESPECT TO THE ASSETS OF THE ISSUER OR A PERSON WHO PROVIDES INVESTMENT ADVICE FOR A FEE (DIRECT OR INDIRECT) WITH RESPECT TO THE ASSETS OF THE ISSUER, OR ANY "AFFILIATE" (WITHIN THE MEANING OF 29 C.F.R. SECTION 2510.3-101(k)(2)) OF ANY SUCH PERSON. NO PURCHASE OR TRANSFER OF INCOME NOTES WILL BE PERMITTED OR REGISTERED TO THE EXTENT THAT THE PURCHASE OR TRANSFER WOULD RESULT IN BENEFIT PLAN INVESTORS OWNING MORE OF THE OUTSTANDING INCOME NOTES (OTHER THAN THE INCOME NOTES OWNED BY THE COLLATERAL MANAGER, THE TRUSTEE AND THEIR AFFILIATES) IMMEDIATELY AFTER SUCH PURCHASE OR TRANSFER (DETERMINED IN ACCORDANCE WITH SECTION 3(42) OF ERISA, 29 C.F.R. SECTION 2510.3-101 AND THE FISCAL AGENCY AGREEMENT).

ANY TRANSFER, PLEDGE OR OTHER USE OF THIS INCOME NOTE FOR VALUE OR OTHERWISE BY OR TO ANY PERSON IS WRONGFUL, SINCE THE REGISTERED OWNER HEREOF, CEDAR & CO., HAS AN INTEREST HEREIN. UNLESS THIS INCOME NOTE IS PRESENTED BY AN AUTHORIZED REPRESENTATIVE OF THE DEPOSITORY TRUST COMPANY ("DTC"), NEW YORK, NEW YORK, TO THE TRUSTEE OR THEIR AGENT FOR REGISTRATION OF TRANSFER, EXCHANGE OR PAYMENT AND ANY INCOME NOTE ISSUED IS REGISTERED IN THE NAME OF CEDAR & CO. OR SUCH OTHER ENTITY AS IS REQUESTED BY AN AUTHORIZED REPRESENTATIVE OF DTC (AND ANY PAYMENT HEREON IS MADE TO CEDAR & CO.).

TRANSFERS OF THIS INCOME NOTE SHALL BE LIMITED TO TRANSFERS IN WHOLE, BUT NOT IN PART, TO NOMINEES OF DTC OR TO A SUCCESSOR TO THIS NOTE THEREOF OR SUCH SUCCESSOR'S NOMINEE AND TRANSFERS OF PORTIONS
OF THIS INCOME NOTE SHALL BE LIMITED TO TRANSFERS MADE IN
ACCORDANCE WITH THE RESTRICTIONS SET FORTH IN THE FISCAL AGENCY
AGREEMENT.

PAYMENTS TO THE HOLDERS OF THE INCOME NOTES ARE SUBORDINATE TO
THE PAYMENT ON EACH PAYMENT DATE OF PRINCIPAL OF AND INTEREST ON
THE NOTES OF THE ISSUERS AND THE PAYMENT OF CERTAIN OTHER
AMOUNTS, TO THE EXTENT AND AS DESCRIBED IN THE INDENTURE.

The Securities that are being offered hereby in reliance on the exemption from registration
under Regulation S (the "Regulation S Notes"); the "Regulation S Income Notes"; and collectively,
the "Regulation S Securities") have not been and will not be registered under the Securities
Act and neither of the issuers will be registered under the Investment Company Act. The Regulation S
Securities may not be offered or sold within the United States or to U.S. Persons (as defined in
Regulation S) unless the purchaser certifies or is deemed to have certified that it is a qualified
Institutional buyer as defined in Rule 144A (a "Qualified Institutional Buyer") and a "qualified
purchaser" for the purpose of Section 3(c)(7) of the Investment Company Act (a "Qualified
Purchaser") or, solely in the case of the income Notes, that it is an "accredited investor" as
defined in Rule 501(a) under the Securities Act (an "Accredited Investor") who has a net worth of
not less than U.S.$10 million and a Qualified Purchaser, and takes delivery in the form of (i) an
interest in a Rule 144A Global Note or a definitive Class D Note in an amount at least equal to the
minimum denomination applicable to the Rule 144A Notes or (ii) an Income Note in a
notional principal amount of not less than U.S.$109,000. See "Description of the Securities" and
"Underwriting."

The requirements set forth under "Notice to Investors" above apply only to Securities offered
in the United States, except for the requirements set forth in Paragraphs (4), (5), (8), (9), (10), (11), (12),
(13) and (14) and except that the Regulation S Securities will bear the legends set forth in Paragraphs (7)
and (16) under "Notice to Investors" above.

THE ISSUERS ACCEPT RESPONSIBILITY FOR THE INFORMATION CONTAINED IN THIS
OFFERING CIRCULAR OTHER THAN INFORMATION PROVIDED IN THE SECTION ENTITLED "THE
COLLATERAL MANAGER." THE COLLATERAL MANAGER ACCEPTS RESPONSIBILITY FOR THE
INFORMATION PROVIDED IN "THE COLLATERAL MANAGER" SECTION OTHER THAN THE
INFORMATION CONTAINED UNDER THE SUB-HEADING "GENERAL," TO THE BEST OF THE
KNOWLEDGE AND THE BELIEF OF THE ISSUERS, THE INFORMATION CONTAINED IN THIS
OFFERING CIRCULAR IS IN ACCORDANCE WITH THE FACTS AND DOES NOT OMIT ANYTHING
LIKELY TO AFFECT THE IMPORT OF SUCH INFORMATION.

EACH PURCHASER OF THE SECURITIES MUST COMPLY WITH ALL APPLICABLE LAWS
AND REGULATIONS IN FORCE IN EACH JURISDICTION IN WHICH IT PURCHASES, OFFERS OR
SELLS SUCH SECURITIES OR POSSESSSES OR DISTRIBUTES THIS OFFERING CIRCULAR AND
MUST OBTAIN ANY CONSENT, APPROVAL OR PERMISSION REQUIRED FOR THE PURCHASE,
OFFER OR SALE BY IT OF SUCH SECURITIES UNDER THE LAWS AND REGULATIONS IN FORCE
IN ANY JURISDICTIONS TO WHICH IT IS SUBJECT OR IN WHICH IT MAKES SUCH PURCHASES,
OFFERS OR SALES, AND NONE OF THE ISSUERS, THE INITIAL PURCHASER, THE COLLATERAL
MANAGER, THE CASHFLOW SNAP COUNTERPARTY (OR ITS GUARANTOR) OR THEIR AGENTS
SPECIFIED HEREIN SHALL HAVE ANY RESPONSIBILITY THEREFOR.
AVAILABLE INFORMATION

To permit compliance with Rule 144A in connection with the resale of the Securities, the issuers will be required under the Indenture and the Fiscal Agency Agreement, to furnish upon request to a holder or beneficial owner of a Security and to a prospective investor who is a Qualified Institutional Buyer designated by such holder or beneficial owner, the information required to be delivered under Rule 144A(a)(4) if, at the time of the request neither the Issuer nor the Co-Issuer, as applicable, is a reporting company under Section 13 or Section 15(d) of the United States Securities Exchange Act of 1934, as amended (the "Exchange Act"), nor exempt from reporting pursuant to Rule 12b-2(b) under the Exchange Act.

To the extent the Trustee delivers any annual or other periodic report to the Holders of the Notes, the Trustee will include in such report a reminder that (1) each holder (other than those holders who are not U.S. Persons and have purchased their Notes outside the United States pursuant to Regulation S) is required to be (i) a Qualified Institutional Buyer and (ii) a Qualified Purchaser, in each case that can make all of the representations in the Indenture applicable to a holder that is a U.S. Person; (2) if the Notes are only be transferred (i) to a transferee that is (a) a Qualified Institutional Buyer and (ii) a Qualified Purchaser that can make all of the representations in the Indenture applicable to a holder who is a U.S. Person or (b) to a non-U.S. Person in an off-fair transaction complying with Rule 903 or 904 under Regulation S; and (3) the issuers have the right to compel any holder who does not meet the transfer restrictions set forth in the Indenture to transfer his interest in the Notes to a person designated by the issuers or sell such interests on behalf of the holder.

To the extent the Fiscal Agent delivers any annual or periodic reports to the Holders of the Income Notes, the Fiscal Agent will include in such report a reminder that (1) each holder (other than those holders who are not U.S. Persons and have purchased their Income Notes outside the United States pursuant to Regulation S) is required to be (i) a Qualified Institutional Buyer or an Accredited Investor who has a net worth of not less than U.S.$10 million and (ii) a Qualified Purchaser that can make all of the representations in the Income Notes Purchase and Transfer Letter applicable to a holder who is a U.S. Person; (2) the Income Notes can only be transferred to a transferee that is (i) a Qualified Institutional Buyer or an Accredited Investor who has a net worth not less than U.S.$10 million and (ii) a Qualified Purchaser or (b) a non-U.S. Person in an off-fair transaction complying with Rule 903 or Rule 904 under Regulation S; and (3) the Issuer has the right to compel any holder who does not meet the transfer restrictions set forth in the Fiscal Agency Agreement to transfer its Income Notes to a person designated by the Issuer or sell such Income Notes on behalf of the holder.

SUMMARY

The following summary is qualified in its entirety by the detailed information appearing elsewhere in this Offering Circular. For definitions of certain terms used in this Offering Circular, see "Appendix A — Certain Definitions" and for the location of the definitions of those and other terms, see "Index of Defined Terms." For a discussion of certain factors to be considered in connection with an investment in the Securities, see "Risk Factors."

The Issuer

Timberwolf I, Ltd. (the "Issuer") is an exempted company incorporated with limited liability under the laws of the Cayman Islands for the sole purpose of acquiring the Collateral Assets, Default Swap Collateral and the Eligible Investments, entering into, and performing its obligations under, the Collateral Management Agreement and Cashflow Swap Agreement, co-issuing the Notes and the Income Notes and engaging in certain related transactions.

The Issuer will not have any material assets other than the portfolio consisting of CDO Securities and Synthetic Securities (the Reference Obligations of which are CDO Securities) as described herein (collectively, together with Deliverable Obligations and any Default Swap Collateral that has been released from the lien of the Synthetic Security Counterparty and credited to the Collateral Account as described herein, "Collateral Assets"), the Default Swap Collateral Account, Eligible Investments and the cashflow swap agreement (the "Cashflow Swap Agreement"). The Collateral Management Agreement and certain other assets.

The Collateral Assets, the Eligible Investments and certain other assets of the Issuer will be pledged by the Issuer to the Trustee under the indenture, for the benefit of the Secured Parties, as security for, among other obligations, the Issuers' obligations under the Notes. The Default Swap Collateral Account will be pledged by the Issuer to the Trustee under the indenture for the benefit of the Synthetic Security Counterparty as security for the Issuers' obligations under the Synthetic Securities.

Timberwolf I (Delaware) Corp. (the "Co-Issuer" and, together with the Issuer, the "Issuers") is a corporation formed under the laws of the State of Delaware for the sole purpose of co-issuing the Notes (other than the Class D Notes).

The Co-Issuer will not have any assets (other than U.S.$10 of equity capital) and will not pledge any assets to secure the Notes. The Co-Issuer will have no claim against the Issuer in respect of the Collateral Assets or otherwise.

The authorized share capital of the Issuer is U.S.$50,000 which consists of 50,000 ordinary shares, par value U.S.$0.01 per share, ("Issuer Ordinary Shares"), 250 of which have been issued. The Issuer Ordinary Shares will be held by Maples Finance Limited, a licensed trust company incorporated in the Cayman Islands (the "Issuer Administrator") as the trustee pursuant to the terms of a charitable trust (the "Share Trustee") and all of the outstanding common equity of the Co-Issuer will be held by the Issuer.

GS MBS-E-C21825394
The Collateral Manager.................

Greywolf Capital Management LP, a Delaware limited liability company ("Greywolf" or any successor thereto (the "Collateral Manager"), will perform certain monitoring functions with respect to the Collateral Assets pursuant to a collateral management agreement to be dated as of the Closing Date (the "Collateral Management Agreement") between the Issuer and Greywolf, as Collateral Manager. Greywolf is a registered investment adviser under the United States Investment Advisers Act of 1940, as amended. See "The Collateral Manager."

Securities Offered..................

On the Closing Date, the Issuer and the Co-Issuer will issue U.S.$89,999,000 principal amount of Class S-1 Floating Rate Notes Due September 2011 (the "Class S-1 Notes"), U.S.$8,999,000 principal amount of Class S-2 Floating Rate Notes Due September 2011 (the "Class S-2 Notes" and, together with the Class S-1 Notes, the "Class S Notes"), U.S.$100,000,000 principal amount of Class A-1a Floating Rate Notes Due 2039 (the "Class A-1a Notes"), U.S.$200,000,000 principal amount of Class A-1b Floating Rate Notes Due 2039 (the "Class A-1b Notes"), U.S.$100,000,000 principal amount of Class A-1c Floating Rate Notes Due 2044 (the "Class A-1c Notes"), U.S.$100,000,000 principal amount of Class A-1d Floating Rate Notes Due 2044 (the "Class A-1d Notes" and, together with the Class A-1a Notes, Class A-1b Notes and Class A-1c Notes, the "Class A-1 Notes"), U.S.$305,000,000 principal amount of Class A-2 Floating Rate Notes Due 2047 (the "Class A-2 Notes" and, together with the Class A-1 Notes, the "Class A Notes"), U.S.$107,000,000 principal amount of Class B Floating Rate Notes Due 2047 (the "Class B Notes" and, U.S.$30,000,000 principal amount of Class C Deferrable Floating Rate Notes Due 2047 (the "Class C Notes"), and the Issuer will issue U.S.$10,000,000 principal amount of Class D Deferrable Floating Rate Notes Due 2047 (the "Class D Notes" and, together with the Class S Notes, Class A Notes, Class B Notes and Class C Notes, the "Notes") pursuant to an Indenture (the "Indenture") dated on or about March 27, 2007 among the Issuers and The Bank of New York, as Trustee and as securities intermediary (the "Trustee" and the "Securities Intermediary," respectively). Under the Indenture, The Bank of New York will also act as principal paying agent for the Notes (the "Principal Note Paying Agent"), as registrar (the "Note Registrar"), as calculation agent (the "Note Calculation Agent"), as transfer agent (the "Note Transfer Agent") and as paying agent for the Notes (the "Note Paying Agent" and, together with the Principal Note Paying Agent, the Note Registrar, the Note Calculation Agent, the Note Transfer Agent and the Paying Agent, the "Note Agents").

On the Closing Date, the Issuer will also issue U.S.$22,000,000 notional principal amount of Income Notes Due 2047 (the "Income Notes" and, together with the Notes, the "Securities"), pursuant to a deed of covenant (the "Deed of Covenant").
the issuer and subject to the terms and conditions of the
Income Notes (the "Terms and Conditions") appended
thereto and a fiscal agency agreement (the "Fiscal Agency
Agreement") dated on or about the Closing Date between
the issuer and The Bank of New York, London Branch, as fiscal
agent and transfer agent for the Income Notes (in such
capacities, the "Fiscal Agent" and, together with the Note
Agents and the Collateral Administrator, the "Agents"). Only
the Notes and the Income Notes (collectively, the
"Securities") are offered hereby.

The Note Paying Agent, the Principal Note Paying Agent and
any other Note paying agent appointed from time to time
under the Indenture are collectively referred to as the "Note
Paying Agents." The Note Paying Agents and the Fiscal
Agent are collectively referred to as the "Paying Agents."
The Note Transfer Agent and the Fiscal Agent are collectively
referred to as the "Transfer Agents." The Indenture, the
Collateral Management Agreement, the Cashflow Swap
Agreement, the Collateral Administration Agreement, the
Administration Agreement, the Deed of Covenant and the
Fiscal Agency Agreement are collectively referred to as the
"Transaction Documents."

Closing Date......................... The Issuer will issue the Income Notes and the Issuers will
issue the other Notes on or about March 27, 2007 (the
"Closing Date.")

Status of the Securities ............ The Notes (other than Class D Notes) will be limited
resources obligations of the Issuer and the Class D Notes
and the Income Notes will be limited resources obligations
of the Issuer. The Income Notes will not be secured obligations
of the Issuer and will only be entitled to receive amounts
available for distribution on any Payment Date after payment
of all amounts payable prior thereto under the Priority of
Payments. The Class S-1 Notes will be senior in right of
payment on each Payment Date to the Class S-2 Notes, the
Class A-1 Notes, the Class A-2 Notes, the Class B Notes, the
Class C Notes, the Class D Notes and the Income Notes; the
Class S-2 Notes will be senior in right of payment on each
Payment Date to the Class A-2 Notes (provided, that
payments of interest on the Class S-2 Notes and the Class A
Notes will be paid pro rata), the Class B Notes, the Class C
Notes, the Class D Notes and the Income Notes; the
Class A-1 Notes will be senior in right of payment on each
Payment Date to the Class A-2 Notes (provided, that payments
of interest on the Class A-1 Notes will be paid pro rata), the
Class B Notes, the Class C Notes, the Class D Notes and the
Income Notes; the Class A-2 Notes will be senior in right of
payment on each Payment Date to the Class B Notes, the
Class C Notes, the Class D Notes and the Income Notes; the
Class B Notes will be senior in right of payment on each
Payment Date to the Class C Notes, the Class D Notes and the
Income Notes; the Class C Notes will be senior in right of
payment on each Payment Date to the Class D Notes and
the Income Notes and the Class D Notes will be senior in
right of payment on each Payment Date to the Income Notes,

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825396
each to the extent provided in the Priority of Payments. Payments of principal on the Class A-1 Notes will be paid in accordance with the Class A-1 Note Payment Sequence. See "Description of the Securities—Status and Security" and "Priority of Payments."

Use of Proceeds...

The net proceeds associated with the offering of the Securities issued on the Closing Date are expected to equal approximately US$7,005,119,000. The net proceeds will be used by the Issuer to purchase on the Closing Date or within 90 days thereafter pursuant to agreements to purchase entered into on or prior to the Closing Date, the portfolio of Collateral Assets described herein having an aggregate Principal Balance of approximately US$5,000,000,000 and to purchase the Default Swap Collateral. See "Security for the Notes—Disposition of Collateral Assets" and "Use of Proceeds."

The Collateral Assets...

The Collateral Assets (as in the case of the Synthetic Securities, the Reference Obligations related therein) are initially expected to be comprised of 55 issues of CDO Securities.

Approximately 93.00% of the Collateral Assets (by Principal Balance) on the Closing Date are expected to be Synthetic Securities. All of the Reference Obligations referenced in the Synthetic Securities are expected to be CDO Securities. See "Security for the Notes—The Collateral Assets." Certain summary information about the Collateral Assets is set forth in Appendix B to this Offering Circular.

Synthetic Security Counterparty...

The Initial Synthetic Security Counterparty under the Synthetic Securities is Goldman Sachs International. The swap guarantor with respect to the Initial Synthetic Securities is The Goldman Sachs Group, Inc., a Delaware corporation, which is an affiliate of the Synthetic Security Counterparty.

Synthetic Securities...

Each of the Synthetic Securities to be entered into by the Issuer and the Synthetic Security Counterparty on or before the Closing Date will be structured as "pay-as-you-go" credit default swaps related to single Reference Obligations. Pursuant to each Synthetic Security, the Issuer will receive the Fixed Amount in exchange for providing credit protection to the Synthetic Security Counterparty in connection with certain Credit Events and Floating Amount Events that may occur with respect to the related Reference Obligations. To support any payments which may become due by the Issuer to the Synthetic Security Counterparty under the Synthetic Securities, the Issuer will be required to purchase Default Swap Collateral with a face value equal to the Initial Aggregate Reference Obligation Notional Amount of the Synthetic Securities and pledge to the Synthetic Security Counterparty a first priority security interest in such Default Swap Collateral. It is expected that all of the Reference Obligations referenced under the Synthetic Securities will be CDO Securities. For a detailed description of the Synthetic Securities, see "Security for the Notes—Synthetic Securities."
The Notes will accrue interest from the Closing Date and each Interest Period will be payable on the 3rd day of March, June, September and December of each year, or if any such date is not a Business Day, the immediately following Business Day (each such date, a "Payment Date") on or before the 3rd day of March, June, September and December of each year, commencing on September 4, 2007. Payments on the Notes will be payable in arrears on each Payment Date, commencing on September 4, 2007. All payments on the Notes will be made from Proceeds in accordance with the Priority of Payments.

The Class 5-1 Notes will bear interest during each Interest Accrual Period at a per annum rate (the "Class 5-1 Note Interest Rate") equal to LIBOR for such Interest Accrual Period plus 0.20%.

The Class 5-2 Notes will bear interest during each Interest Accrual Period at a per annum rate (the "Class 5-2 Note Interest Rate") equal to LIBOR for such Interest Accrual Period plus 0.35%.

The Class A-1e Notes will bear interest during each Interest Accrual Period at a per annum rate (the "Class A-1e Note Interest Rate") equal to LIBOR for such Interest Accrual Period plus 0.55%.

The Class A-1b Notes will bear interest during each Interest Accrual Period at a per annum rate (the "Class A-1b Note Interest Rate") equal to LIBOR for such Interest Accrual Period plus 0.50%.

The Class A-1c Notes will bear interest during each Interest Accrual Period at a per annum rate (the "Class A-1c Note Interest Rate") equal to LIBOR for such Interest Accrual Period plus 0.80%.

The Class A-1d Notes will bear interest during each Interest Accrual Period at a per annum rate (the "Class A-1d Note Interest Rate") equal to LIBOR for such Interest Accrual Period plus 1.30%.

The Class A-2 Notes will bear interest during each Interest Accrual Period at a per annum rate (the "Class A-2 Note Interest Rate") equal to LIBOR for such Interest Accrual Period plus 0.95%.

The Class B Notes will bear interest during each Interest Accrual Period at a per annum rate (the "Class B Note Interest Rate") equal to LIBOR for such Interest Accrual Period plus 1.40%.

The Class C Notes will bear interest during each Interest Accrual Period at a per annum rate (the "Class C Note Interest Rate") equal to LIBOR for such Interest Accrual Period plus 4.00%.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825398
The Class D Notes will bear interest during each Interest Accrual Period at a per annum rate (the "Class D Note Interest Rate") equal to LIBOR for such Interest Accrual Period plus 10.00%.

The Class S-1 Note Interest Rate, the Class S-2 Note Interest Rate, the Class A-1s Note Interest Rate, the Class A-1t Note Interest Rate, the Class A-1d Note Interest Rate, the Class A-2 Note Interest Rate, the Class B Note Interest Rate, the Class C Note Interest Rate and the Class D Note Interest Rate are collectively referred to herein as the "Note Interest Rates."

To the extent interest that is due is not paid on the Class C Notes on any Payment Date ("Class C Deferred Interest"), such unpaid amounts will be added to the principal amount of the Class C Notes, and shall accrue interest at the Class C Note Interest Rate to the extent lawful and enforceable. So long as any Class S Notes, Class A Notes or Class B Notes are outstanding, the failure to pay any interest on the Class C Notes on any Payment Date will not be an Event of Default under the Indenture. To the extent interest that is due is not paid on the Class D Notes on any Payment Date ("Class D Deferred Interest"), such unpaid amounts will be added to the principal amount of the Class D Notes, and shall accrue interest at the Class D Note Interest Rate to the extent lawful and enforceable. So long as any Class S Notes, Class A Notes, Class B Notes or Class C Notes are outstanding, the failure to pay any interest on the Class D Notes on any Payment Date will not be an Event of Default under the Indenture.

See "Description of the Securities — Interest and Distributions" and "— Priority of Payments."

LIBOR for the first Interest Accrual Period with respect to each Class of Notes will be determined as of the second Business Day preceding the Closing Date. Calculations of interest on each Class of Notes will be made on the basis of a 360-day year and the actual number of days in each Interest Accrual Period.

The "Interest Accrual Period" with respect to the Class S Notes, the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes and any Payment Date, is the period commencing on and including the immediately preceding Payment Date (or the Closing Date in the case of the first Interest Accrual Period) and ending on and including the day immediately preceding such Payment Date.

The Holders of the Income Notes will be entitled to receive, on each Payment Date, all cash remaining after the payment of all other amounts required to be paid in accordance with the Priority of Payments.
Footnote Exhibits - Page 5489

Principal Payments

The Notes (other than the Class S Notes and the Class A-1 Notes) and the Income Notes will mature on the Payment Date in December 2047 (such date the "Stated Maturity" with respect to each Class of Notes (other than the Class S Notes and the Class A-1 Notes) and Income Notes), the Class S Notes will mature on the Payment Date in September 2011 (the "Stated Maturity" with respect to the Class S Notes), the Class A-1a Notes and the Class A-1b Notes will mature on the Payment Date in December 2039 (the "Stated Maturity" with respect to the Class A-1a Notes and the Class A-1b Notes) and the Class A-1c Notes and the Class A-1d Notes will mature on the Payment Date in September 2044 (the "Stated Maturity" with respect to the Class A-1c Notes and the Class A-1d Notes) unless redeemed or retired prior thereto. The average life of the Notes (other than the Class S Notes) and the duration of the Income Notes is expected to be substantially shorter than the number of years from issuance until Stated Maturity for each Class of Notes and the Income Notes. See "Description of the Securities—Principal" and "Risk Factors—Securities—Average Lives, Duration and Prepayment Considerations."

Principal will be payable on the Class S-1 Notes in accordance with the Priority of Payments on each Payment Date commencing on the Payment Date occurring in December 2007 in an amount equal to the Class S-1 Notes Amortizing Principal Amount with respect to such Payment Date and, if an Event of Default or Tax Event has occurred and is continuing or an Optional Redemption by Liquidation or successful Auction has occurred and the Collateral is being liquidated pursuant to the terms of the Indenture, the Class S-1 Notes will be paid in full prior to any distributions to any other Securities. Principal will be payable on the Class S-2 Notes in accordance with the Priority of Payments on each Payment Date commencing on the Payment Date occurring in December 2007 in an amount equal to the Class S-2 Notes Amortizing Principal Amount with respect to such Payment Date and, if an Event of Default or Tax Event has occurred and is continuing or an Optional Redemption by Liquidation or successful Auction has occurred and the Collateral is being liquidated pursuant to the terms of the Indenture, the Class S-2 Notes will be paid in full prior to any distributions to any other Securities (other than the Class S-1 Notes and the Class A-1 Notes). The Class S-2 Notes are subject to mandatory redemption if the Class A8 Overcollateralization Test is not satisfied on any date of determination. "Shifting principle" will be payable on the Notes (other than the Class S Notes) in accordance with clause (IV) of the Priority of Payments on each Payment Date in accordance with the Priority of Payments.

As a result of the Priority of Payments, notwithstanding the subordination of the Notes described under "Status of the Securities" above, the Class S-2 Notes may be entitled to receive certain payments of principal while the Class S-1 Notes and the Class A-1 Notes are outstanding, the Class A-
Notes may be entitled to receive certain payments of principal while the Class S Notes are outstanding, the Class A-2 Notes may be entitled to receive certain payments of principal while the Class S Notes and the Class A-1 Notes are outstanding, the Class B Notes may be entitled to receive certain payments of principal while the Class S Notes and the Class A Notes are outstanding, the Class C Notes may be entitled to receive certain payments of principal while the Class S Notes, the Class A Notes and the Class B Notes are outstanding and the Class D Notes may be entitled to receive certain payments of principal while the Class S Notes, the Class A Notes, the Class B Notes and the Class C Notes are outstanding. In addition, the Income Notes may be entitled to receive certain payments while the Notes are outstanding. See "Description of the Securities—Priority of Payments."

In addition, to the extent funds are available therefor in accordance with the Priority of Payments, the Notes (other than the Class S-1 Notes) will be subject to mandatory redemption on any Payment Date if the Reserve Trusts are not satisfied as described herein. See "Description of the Securities—Principal" and "—Mandatory Redemption."

Tax Redemption

Subject to certain conditions described herein, the Notes will be redeemed from Liquidation Proceeds, in whole but not in part, on any Payment Date upon the occurrence of a Tax Event, at the written direction of, or with the written consent of, Holders of at least 66 2/3% of the aggregate outstanding notional principal amount of the affected Income Notes or Holders of at least a Majority of any Class of Notes which, as a result of the occurrence of such Tax Event, have not received 100% of the aggregate amount of principal and interest or other amounts due and payable to such Holders (such redemption, a "Tax Redemption"). No such Tax Redemption will occur unless the expected Liquidation Proceeds equal or exceed the Total Redemption Amount. Upon the occurrence of a Tax Redemption, the Income Notes will be simultaneously redeemed.

With respect to a Tax Redemption as described above, the Notes will be redeemed at their Redemption Prices, respectively, as described herein. The amount payable as the final payment to the Income Notes following any Tax Redemption will be the Liquidation Proceeds remaining after the payment of the Total Redemption Amount in accordance with the Priority of Payments.

See "Description of the Securities—Tax Redemption."

Auction

Sixty days prior to the Payment Date occurring in September of each year (the "Auction Date"); commencing on the September 2015 Payment Date, the Collateral Manager shall take steps to conduct an auction (the "Auction") of the Collateral in accordance with the procedures specified in the Indentures. If the Collateral Manager receives one or more bids from Eligible Bidders not later than ten Business Days prior to the Auction Date equal to or greater than the
Optional Redemption by Liquidation

The Notes may be redeemed by the Issuers from Liquidation Proceeds, in whole but not in part, on any Payment Date or at any time the Payment Date occurring in March 2010 (the "Optional Redemption Date"), at the written direction of, or with the written consent of the Holders of at least a Majority of the Income Notes (an "Optional Redemption" or an "Optional Redemption by Liquidation"). If the Holders of the Income Notes do not elect to cause an Optional Redemption by Liquidation, the Income Notes will also be redeemed in full.

In the event of an Optional Redemption by Liquidation, the Notes will be redeemed at their Redemption Prices as described herein.

No Securities shall be redeemed pursuant to an Optional Redemption by Liquidation and a final payment to the Income Notes shall not be made unless the Collateral Manager furnish certain assurances that the Total Redemption Amount will be available for distribution on the related Optional Redemption Date.

See "Description of the Securities—Optional Redemption by Liquidation."

Optional Redemption by Refinancing

Any Class or Classes of Notes may be redeemed by the Issuers from the net cash proceeds (the "Refinancing Proceeds") of a loan, credit or similar facility or an issuance of replacement notes, from or to one or more financial institutions or purchasers, in whole but not in part, on any Payment Date or after the Optional Redemption Date, at the written direction of, or with the written consent of the Holders of at least a Majority of the Income Notes (an "Optional Redemption" or an "Optional Redemption by Refinancing") subject to the satisfaction of the Rating Agency Condition (other than with respect to the Notes being redeemed) and the other restrictions described herein.

In the event of an Optional Redemption by Refinancing, the Class or Classes of Notes subject to such redemption will be redeemed at their Redemption Prices as described herein.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825402
Mandatory Redemption

On any Payment Date on which the Class A/B Overcollateralization Test, the Class C Overcollateralization Test or the Class D Overcollateralization Test is not satisfied as of the preceding Determination Date, certain of the Notes (other than the Class S-1 Notes) will be subjected to mandatory redemption in accordance with the Priority of Payments, until the applicable Notes have been paid in full (a "Mandatory Redemption"). The Collateral Manager is not permitted to sell Collateral Assets to generate additional Proceeds to be applied to redeem the Notes except to the extent such Collateral Assets may, at the discretion of the Collateral Manager, be otherwise sold as Credit Risk Obligations, equity securities or Defaulted Obligations. The Class S-1 Notes and the Income Notes are not subjected to mandatory redemption as a result of the failure of any Coverage Test. See "Description of the Securities—Mandatory Redemption" and "Priorities of Payments."

Security for the Notes

Under the terms of the Indenture, the Issuer will grant to the Trustee, for the benefit and security of the Trustee, for itself and on behalf of the Noteholders, the Fiscal Agent, the Collateral Administrator, the Collateral Manager, the Cashflow Swap Counterparty and the Synthetic Security Counterparty (together the "Secured Parties"), to secure the Issuer's obligations under the Notes, the Indenture, the Cashflow Swap Agreement, the Collateral Management Agreement and the Synthetic Securities (the "Security Obligations"), a first priority security interest in the Collateral. The Income Notes will not be secured.

Reports

A report will be made available to the Holders of the Notes and Holders of the Income Notes and will provide information on the CollateralAssets and payments to be made in accordance with the Priority of Payments (each, a "Payment Report") beginning in September 2007. See "Security for the Notes—Reports."

Coverage Tests

The following table identifies the Coverage Tests and the value at which such tests will be satisfied. See "Security for the Notes—The Coverage Tests."

GS MBS-E-021825403
The Offering

The Securities are being offered to non-U.S. Persons in offshore transactions in reliance on Regulation S, and in the United States to persons who are Qualified Institutional Buyers purchasing in reliance on the exemption from registration under Rule 144A or, with respect to Income Notes only, Accredited Investors purchasing in transactions exempt from registration under the Securities Act. Each purchaser who is a U.S. Person must also be a Qualified Purchaser. Each Accredited Investor must have a net worth of at least $1,000,000. See "Description of the Securities—Form of the Securities," "Underwriting" and "Notice to Investors."

Minimum Denominations

The Notes will be issued in minimum denominations of U.S.$250,000 (in the case of the Rule 144A Notes) and U.S.$100,000 (in the case of the Regulation S Notes) and integral multiples of U.S.$1 in excess thereof for each Class of Notes. The Income Notes will be issued in minimum denominations of U.S.$100,000 and integral multiples of U.S.$1 in excess thereof.

Form of the Securities

Each Class of Notes sold in offshore transactions in reliance on Regulation S will initially be represented by one or more temporary global notes (each, a "Temporary Regulation S Global Note"). Each Temporary Regulation S Global Note will be deposited on the Closing Date with The Bank of New York as custodian for, and registered in the name of Cede & Co., as nominee of The Depository Trust Company ("DTC"), for the respective accounts of Euroclear Bank S.A./N.V., as operator of the Euroclear System ("Euroclear"), and Clearstream Banking, société anonyme ("Clearstream"). Beneficial interests in a Temporary Regulation S Global Note may be held only through Euroclear or Clearstream and may not be held at any time by a U.S. Person ("U.S. Person") (as such term is defined in Regulation S under the Securities Act).

Each Class of Rule 144A Notes will be issued in the form of one or more global notes in fully registered form (the "Rule 144A Global Notes") and, together with the Temporary Regulation S Global Notes and the Regulation S Global Notes, the "Global Notes"), deposited with The Bank of New York as custodian for, and registered in the name of Cede & Co., as nominee of DTC, which will credit the account of each of its participants with the principal amount of Notes being

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825404
purchased by or through such participant. Beneficial interests in the Rule 144A Global Notes will be shown on, and transfers thereof will be affected only through, records maintained by OTC and its direct and indirect participants.

The Class D Notes (other than the Regulation S Class D Notes) will be evidenced by one or more notes in definitive, fully registered form, registered in the name of the owner thereof (each, a "Definitive Note").

Beneficial interests in the Global Notes and the Definitive Notes may not be transferred except in compliance with the transfer restrictions described herein. See "Description of the Securities—Form of the Securities" and "Notes to Investors."

The Income Notes (other than the Regulation S Income Notes) will be evidenced by one or more notes in definitive, fully registered form, registered in the name of the owner thereof (each, an "Income Note Certificate"). The Regulation S Income Notes will be evidenced by a global note in fully registered form. The Income Notes may not be transferred except in compliance with the transfer restrictions described herein. See "Description of the Securities—Form of the Securities" and "Notes to Investors."

**Governing Law**

The indenture, the Notes, the Cashflow Swap Agreement, the Synthetic Securities, the Collateral Administration Agreement and the Collateral Management Agreement will be governed by the laws of the State of New York. The Deed of Covenant, including the Terms and Conditions of the Income Notes and the Income Notes, the Fiduciary Agreement will be governed by the laws of the Cayman Islands.

**Listing and Trading**

There is currently no market for the Notes or Income Notes and there can be no assurance that such a market will develop. See "Risk Factors—Securities—Limited Liquidity and Restrictions on Transfer." Application may be made to admit the Securities on a stock exchange of the Issuer's choice, if practicable. There can be no assurance that such admission will be sought, granted or maintained. See "Listing and General Information."

**Ratings**

It is a condition of the issuance of the Securities that the Class B Notes, the Class A-1 Notes and the Class A-2 Notes be rated "Aaa" by Moody's and "AAA" by S&P. The Class B Notes will be rated at least "Aa3" by Moody's and at least "AA" by S&P. The Class C Notes will be rated at least "A2" by Moody's end at least "AA" by S&P. There is no assurance that such ratings will be maintained. See "Ratings of the Notes."

**Tax Status**

See "Income Tax Considerations."

**ERISA Considerations**

See "ERISA Considerations."

GS MBS-E-021825406
RISK FACTORS

Prior to making an investment decision, prospective investors should carefully consider, in addition to the matters set forth elsewhere in this Offering Circular, the following factors:

Securities

Limited Liquidity and Restrictions on Transfer. There is currently no market for the Securities. Although the Initial Purchaser has advised the Issuers that it intends to make a market in the Securities, the Initial Purchaser is not obligated to do so, and any such market making with respect to the Securities may be discontinued at any time without notice. There can be no assurance that any secondary market for any of the Notes will develop or, if a secondary market does develop, that it will provide the Holders of the Notes with liquidity of investment or that it will continue for the life of such Notes and consequently a purchaser must be prepared to hold the Notes until maturity. Consequently, a purchaser must be prepared to hold the Notes for an indefinite period of time or until Stated Maturity. Since it is likely that there will never be a secondary market for the Income Notes, a purchaser must be prepared to hold its Income Notes until the Stated Maturity.

In addition, no sale, assignment, participation, pledge or transfer of the Securities may be effected if, among other things, it would require any of the Issuer, the Co-Issuer or any of their officers or directors to register under, or otherwise be subject to the provisions of, the Investment Company Act or any other similar legislation or regulatory action. Furthermore, the Securities will not be registered under the Securities Act or any state securities laws or the laws of any other jurisdiction, and the Issuer has no plans, and is under no obligation, to register the Securities under the Securities Act or any state securities laws or under the laws of any other jurisdiction. The Securities are subject to certain transfer restrictions and can be transferred only to certain transferees as described herein under "Description of the Securities—Form of the Securities" and "Notice to Investors." Such restrictions on the transfer of the Securities may further limit their liquidity. See "Description of the Securities—Form of the Securities." Application may be made to admit the Securities on a stock exchange of the Issuer's choice, if practicable. There can be no assurance that such admission will be sought, granted or maintained.

Limited Recourse Obligations. The Income Notes and the Class D Notes will be limited recourse obligations of the Issuer and the Notes (other than the Class D Notes) will be limited recourse obligations of the Issuers payable solely from the Collateral pledged by the Issuer to secure the Notes. The Income Notes are determined to be a debt of the Issuer and are not secured by the Collateral Assets or the other collateral securing the Notes. None of the Collateral Manager, the Holders of the Notes, the Holders of the Income Notes, the Initial Purchaser, the Trustee, the Issuer Administrator, the Agent, the Cashflow Swap Counterparty or any affiliates of any of the foregoing or the Issuers' affiliates or any other person or entity will be obligated to make payments on the Notes or the Income Notes. Consequently, Holders of the Notes and Income Notes must rely solely on distributions on the Collateral pledged to secure the Notes for the payment of principal, interest and premium, if any. However, if distributions on the Collateral are insufficient to make payments on the Notes and Income Notes, no other assets (and, in particular, no assets of the Collateral Manager, the Holders of the Notes, the Holders of the Income Notes, the Initial Purchaser, the Trustee, the Issuer Administrator, the Agent, the Cashflow Swap Counterparty or any affiliates of any of the foregoing) will be available for payment of the deficiency, and following payment of the Collateral pledged to secure the Notes, the obligations of the Issuers to pay such deficiency shall be extinguished.

Subordination of the Securities. Payments of principal on the Class S-1 Notes will be senior to payments of principal of the Class S-2 Notes, the Class A-1 Notes, Class A-2 Notes, Class B Notes, Class C Notes and Class D Notes and senior to payments on the Income Notes on each Payment Date. Payments of principal on the Class S-2 Notes will be senior to payments of principal of the Class A-2 Notes, Class B Notes, Class C Notes and Class D Notes and senior to payments on the Income Notes on each Payment Date. Payments of principal on the Class A-1 Notes will be senior to payments of principal of the Class A-2 Notes, Class B Notes, Class C Notes and Class D Notes and senior to payments on the Income Notes on each Payment Date. Payments of principal on the Class S-2 Notes and the Class A-1
Footnote Exhibits - Page 5497

Notes will be paid as described in the Priority of Payments. Payments of principal on the Class A-2 Notes will be senior to payments of principal of the Class B Notes, Class C Notes and Class D Notes and senior to payments on the Income Notes on each Payment Date. Payments of principal on the Class B Notes will be senior to payments of principal on the Class C Notes and the Class D Notes and senior to payments on the Income Notes on each Payment Date. Payments of principal on the Class D Notes due on any Payment Date will be senior to payments on the Income Notes on such Payment Date. As a result of the Priority of Payments, notwithstanding the subordination of the Notes described under "Description of the Securities—Status and Security," the Class S-2 Notes will be entitled to receive certain payments of principal while the Class S-1 Notes are outstanding, the Class A-1 Notes will be entitled to receive certain payments of principal while the Class S Notes are outstanding, the Class B Notes will be entitled to receive certain payments of principal while the Class S Notes and the Class A Notes are outstanding, the Class C Notes will be entitled to receive certain payments of principal while the Class S Notes, the Class A Notes and the Class B Notes are outstanding and the Class D Notes will be entitled to receive certain payments of principal while the Class S Notes, the Class A Notes, the Class B Notes and the Class C Notes are outstanding. In addition, the Income Notes will be entitled to receive certain payments while the Notes are outstanding. See "Description of the Securities—Priority of Payments." To the extent that any losses are incurred by the Issuer in respect of any Collateral, such losses will be borne first by Holders of the Income Notes; then, by Holders of the Class D Notes; then, by Holders of the Class C Notes; then, by Holders of the Class B Notes; then, by Holders of the Class A-2 Notes; then, by Holders of the Class A-1 Notes; then, by Holders of the Class A-1b Notes; then, by Holders of the Class A-1a Notes and finally, by Holders of the Class S-1 Notes.

Payments of interest on the Class S-1 Notes due on any Payment Date will be senior to payments of interest on the Class S-2 Notes, the Class A-1 Notes, Class A-2 Notes, Class B Notes, Class C Notes and Class D Notes and senior to payments on the Income Notes on such Payment Date. Payments of interest on the Class S-2 Notes due on any Payment Date will be paid pro rata with payments of interest on the Class A-1 Notes and the Class A-2 Notes and will be senior to payments of interest on the Class B Notes, Class C Notes and Class D Notes and senior to payments on the Income Notes on such Payment Date. Payments of interest on the Class A-1 Notes due on any Payment Date will be paid pro rata with payments of interest on the Class S-2 Notes and the Class A-2 Notes and will be senior to payments of interest on the Class B Notes, Class C Notes and Class D Notes and senior to payments on the Income Notes on such Payment Date. Payments of interest on the Class A-2 Notes due on any Payment Date will be paid pro rata with payments of interest on the Class S-2 Notes and the Class A-1 Notes and will be senior to payments of interest on the Class B Notes, Class C Notes and Class D Notes and senior to payments on the Income Notes on such Payment Date. Payments of interest on the Class B Notes due on any Payment Date will be senior to payments of interest on the Class C Notes and the Class D Notes and senior to payments on the Income Notes on such Payment Date. Payments of interest on the Class C Notes due on any Payment Date will be senior to payments of interest on the Class D Notes and senior to payments on the Income Notes on such Payment Date. Payments of interest on the Class D Notes due on any Payment Date will be senior to payments on the Income Notes on such Payment Date. See "Description of the Securities."

On any Payment Date on which certain conditions are satisfied and funds are available therefor, the "shifting principal" method in clause (xi) of the Priority of Payments may permit Holders of the Class A Notes, the Class B Notes, Class C Notes and Class D Notes to receive payments of principal in accordance with the Priority of Payments while more senior Classes of Notes remain outstanding and more senior distributions of Principal Proceeds to the Holders of the Income Notes. To the extent funds are available in accordance with the Priority of Payments, while the Notes are outstanding. Amounts properly paid pursuant to the Priority of Payments to a junior Class of Notes or to the Income Notes will not be recoverable in the event of a subsequent shortfall in the amount required to pay a more senior Class of Notes. 38

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825408
Holders of the Controlling Class may not be able to effect a liquidation of the Collateral in an Event of Default. Holders of all other Classes of Notes and the Income Notes may be Adversely Affected by Actions of the Controlling Class. If an Event of Default occurs and is continuing, a Majority of the Controlling Class will be entitled to determine the remedies to be exercised under the Indenture; however, the Majority of the Controlling Class will not be able to direct a sale or liquidation of the Collateral unless, among other things, the Trustee determines that the anticipated proceeds of such sale or liquidation (after deducting the reasonable expenses of such sale or liquidation) would be sufficient to pay in full the sum of (A) the principal (including any Class C Deferred Interest and Class D Deferred Interest) and accrued interest (including all Defeased Interest and interest thereon) and any other amounts due with respect to all the outstanding Notes, (B) unpaid Administrative Expenses, (C) all amounts payable by the Issuer to the Synthetic Security Counterparty or an assignee of a Synthetic Security (other than Defaulted Synthetic Security Termination Payments) not of all amounts payable to the Issuer by any Synthetic Security Counterparty or an assignee of a Synthetic Security, (D) all amounts payable by the Issuer to any Cashflow Swap Counterparty (including any applicable termination payments other than Defaulted Cashflow Swap Termination Payments) not of all amounts payable to the Issuer by any Cashflow Swap Counterparty, (E) accrued and unpaid Deferred Structuring Expenses, (F) accrued and unpaid Collateral Management Fees, including any Cumulative Deferred Management Fees and (D) all other items in the Priority of Payments ranking prior to payments on the Notes. There can be no assurance that proceeds of a sale and liquidation, together with all other available funds, will be sufficient to pay in full such amount. In addition, even if the anticipated proceeds of such sale or liquidation would not be sufficient to pay in full such amount, the Holders of a Supermajority of the Controlling Class and any Cashflow Swap Counterparty (unless any such Cashflow Swap Counterparty will be paid in full the amounts due to it other than any Defaulted Cashflow Swap Termination Payments at the time of distribution of the proceeds of any sale or liquidation of the Collateral) may direct the sale and liquidation of the Collateral.

Remedies pursued by the Holders of the Class S-1 Notes and the Class A-1 Notes could be adverse to the interests of the Holders of the Class S-2 Notes, the Class A-2 Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Income Notes. After the Class S-1 Notes and the Class A-1 Notes are no longer outstanding, the Holders of the Class S-2 Notes and Class A-2 Notes will be entitled to determine the remedies to be exercised under the Indenture (except as noted above) if an Event of Default occurs. After the Class S Notes and the Class A Note is no longer outstanding, the Holders of the Class B Notes will be entitled to determine the remedies to be exercised under the Indenture (except as noted above) if an Event of Default occurs. After the Class S Notes, the Class A Notes and the Class B Notes are no longer outstanding, the Holders of the Class C Notes will be entitled to determine the remedies to be exercised under the Indenture (except as noted above) if an Event of Default occurs. After the Class S Notes, the Class A Notes, the Class B Notes, and the Class C Notes are no longer outstanding, the Holders of the Class D Notes will be entitled to determine the remedies to be exercised under the Indenture (except as noted above) if an Event of Default occurs. See "Description of the Securities—The Indenture and the Fiscal Agency Agreement—Events of Default".

CDO Securities May Underperform. Certain of the CDO Securities and Synthetic Securities the Reference Obligations of which are CDO Securities as of the Closing Date consists of or references PIK Bonds. While the Cashflow Swap Counterparty will make advances to the Issuer to cover certain Cashflow Swap Shortfall Amounts that could result in a shortfall of current interest payments on the Class S Notes, the Class A Notes and the Class B Notes, the Issuer may have insufficient funds as a result of such deferrals or payments "in-kind" to make payments on the Notes or distributions in respect of the Income Notes.

Status of the Income Notes. The Income Notes are unsecured debt obligations of the Issuer and are not secured by the Collateral Assets or the other Collateral securing the Notes. As such, the Holders of the Income Notes will rank behind the Holders of the Notes and any other secured creditors as set forth in the Indenture and pari passu with the unsecured creditors, whether secured or unsecured and known or unknown, of the Issuer. No person or entity other than the Issuer will be required to make any payments on the Income Notes. Except with respect to the obligations of the Issuer to make payments pursuant to the Priority of Payments (and outside of the Priority of Payments with respect to the Synthetic Security Counterparty) any and all other claims or demands against the Issuer will be subordinated to any and all claims or demands against the Collateral Assets and any other collateral securing the Notes.
Security Counterparty), the Issuer does not expect to have any creditors. The funds available to be paid to the Fiscal Agent for the benefit of the Holders of the Income Notes will depend in part on the weighted average of the Note Interest Rates.

Amounts on deposit in the Income Note Payment Account (as defined herein) will not be available to pay amounts due to the Holders of the Notes, the Trustee, the Collateral Manager, the Cashflow Swap Counterparty, the Synthetic Security Counterparty or any other creditor of the Issuer whose claim is limited to recourse to the Collateral. However, amounts on deposit in the Income Note Payment Account (as defined herein) may be subject to the claims of creditors of the Issuer that have not contractually limited their recourse to the Collateral. The Indenture and the Fiscal Agency Agreement will limit the Issuer’s activities to the issuance and sale of the Securities, the acquisition and disposition of the Collateral Assets, the acquisition and disposition of, and investment and reinvestment in, the Eligible Investments and the other activities related to the issuance and the sale of the Securities described under “The Issuer”. The Issuer does not expect to have any significant unfunded recourse liabilities that would be payable out of amounts on deposit in the Income Note Payment Account (as defined herein).

Leveraged Investment. The Income Notes represent a leveraged investment in the underlying Collateral Assets. The use of leverage generally magnifies an investor's opportunities for gain and risk of loss. Therefore, changes in the market value of the Income Notes can be expected to be greater than changes in the market value of the underlying assets included in the Collateral Assets, which are also subject to credit, liquidity and interest rate risk.

Optional Redemption and Tax Redemption of the Securities. Subject to the satisfaction of certain conditions, the Securities may be optionally redeemed in whole and not in part (i) on any Payment Date on or after the March 2010 Payment Date in connection with an Optional Redemption by Liquidation at the written direction of, or with the written consent of, Holders of at least a Majority of the Income Notes or (ii) on any Payment Date upon the occurrence of a Tax Event, at the written direction of, or with the written consent of, Holders of at least a Majority of any Class of Notes, if as a result of an occurrence of a Tax Event, such Class of Notes has not received 100% of the aggregate amount of principal and interest due and payable on such Class of Notes. Subject to the satisfaction of certain conditions, any Class or Classes of Notes may be optionally redeemed in whole and not in part on any Payment Date on or after the March 2010 Payment Date in connection with an Optional Redemption by Refinancing at the written direction of, or with the written consent of, Holders of at least a Majority of the Income Notes. If an Optional Redemption by Liquidation or Tax Redemption occurs, the Income Notes will be redeemed simultaneously.

There can be no assurance that after payment of the Redemption Prices for the Securities and all other amounts payable in accordance with the Priority of Payments, any additional Proceeds will remain to distribute to the Holders of the Income Notes upon redemption. See “Description of the Securities—Optional Redemption” and “—Tax Redemption.” An Optional Redemption by Liquidation or Tax Redemption of the Securities could require the Collateral Manager to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the realized value of the Collateral Assets sold. In addition, the redemption procedures in the Indenture may require the Collateral Manager to aggregate securities to be sold together in one block transaction, thereby possibly resulting in a lower aggregate realized value for the Collateral Assets sold. In any event, there can be no assurance that the market value of the Collateral Assets will be sufficient for the Holders of the Income Notes to direct an Optional Redemption or, in the case of a Tax Redemption, for the Holders of the affected Class of Notes or Income Notes to direct a Tax Redemption. A decrease in the market value of the Collateral Assets would adversely affect the proceeds that could be obtained upon a sale of the Collateral Assets; consequently, the conditions precedent to the exercise of an Optional Redemption by Liquidation or a Tax Redemption may not be met. The interests of the Holders of the Income Notes in determining whether to elect to effect an Optional Redemption and the interests of the Holders of the affected Class of Notes and the Income Notes with respect to a Tax Redemption may be different from the interests of the Holders of the other Classes of Securities in such respect. The Holders of the Securities also may not be able to invest the proceeds of the redemption of the Securities in one or more investments providing a return.
equal to or greater than the Holders of the Securities expected to obtain from their Investment in the Securities. An Optional Redemption or a Tax Redemption will shorten the average lives of the Securities and may reduce the yield to maturity of the Notes.

Repricing. Subject to the satisfaction of certain conditions, the Issuer (at the direction of or with the written consent of the Holders of a Majority of the Income Notes) may effect an Optional Redemption through an Optional Redemption by Refinancing. Among other reasons, the Holders of the Income Notes may elect to direct the Issuer to effect an Optional Redemption by Refinancing if interest rates on investments similar to any Class or Classes of Notes fall below current levels or if such Holders otherwise expect the Issuer to be able to achieve improved pricing. If exercised, such Optional Redemption by Refinancing would result in each such Class of Notes being redeemed at the Redemption Price in respect thereof at a time when they may be trading in the market at a premium and when other investments bearing the same rate of interest relative to the level of risk assumed may be difficult or expensive to acquire. In addition, if any Class or Classes of Notes are redeemed in connection with an Optional Redemption by Refinancing in which additional notes are issued or borrowings under secured loans are made, the Income Notes will be, and certain Classes of Notes may be, subordinated to payments on such additional notes or secured loans. The additional notes issued, or secured loans obtained, as the case may be, in connection with an Optional Redemption by Refinancing would have such terms and priorities as are negotiated at the time and that are set forth in a supplemental indenture.

Auction. There can be no assurance that an Auction of the Collateral on any Auction Date will be successful. The failure of an Auction may lengthen the expected average lives of the Notes and the duration of the Income Notes, may reduce the yield to maturity of the Notes and may adversely affect the yield on the Income Notes. A successful Auction of the Collateral is not required to result in any proceeds for distribution to the Holders of the Income Notes. Accordingly, in the event of an Auction, Holders of Income Notes may have their Income Notes redeemed without receiving any additional distributions on such Income Notes. In addition, the success of an Auction will shorten the average lives of the Notes and the duration of the Securities and may reduce the yield to maturity of the Notes.

Optional Redemption of Notes. If the Class A/B Overcollateralization Test is not met on the Determination Date immediately preceding a Payment Date, Proceeds that otherwise might have been distributed to the Holders of the Class C Notes, the Class D Notes and the Income Notes will be used to redeem, first, the Class A-1 Notes until paid in full (in accordance with the Class A-1 Note Payment Sequence), second, the Class A-2 Notes until paid in full, third, the Class A-2 Notes until paid in full and fourth, the Class B Notes until paid in full. If the Class C Overcollateralization Test is not met on the Determination Date immediately preceding a Payment Date, Proceeds that otherwise might have been distributed to the Holders of the Class D Notes and/or the Holders of the Income Notes will be used (a) to redeem, first, the Class A-1 Notes until paid in full (in accordance with the Class A-1 Note Payment Sequence), second, the Class A-2 Notes until paid in full, third, the Class A-2 Notes until paid in full and fourth, the Class B Notes until paid in full, provided, however, that if the Net Outstanding Portfolio Collateral Balance is less than U.S.$500,000,000, then such amount shall be paid first, to the payment of principal of all outstanding Class A-1 Notes in accordance with the Class A-1 Note Payment Sequence until the Class A-1 Notes are paid in full, second, to the payment of principal of all outstanding Class A-2 Notes until the Class A-2 Notes are paid in full, third, to the payment of principal of all outstanding Class B Notes until the Class B Notes are paid in full, and fourth, to the payment of principal of all outstanding Class C Notes, until the Class C Notes are paid in full and (b) to pay, with any remaining Proceeds, the principal of all outstanding Class C Notes until the Class C Notes are paid in full. If the Class D Overcollateralization Test is not met on the Determination Date immediately preceding a Payment Date, Proceeds that otherwise might have been distributed to the Holders of the Class C Notes and the Income Notes will be used to redeem the Class D Notes until paid in full. The foregoing redemptions could result in an elimination, deferral or reduction in the amounts available to make payments to the Holders of the Class C Notes, the Class D Notes and the Income Notes. See "Security for the Notes—The Coverage Tests." Any such redemptions will shorten the average life of the redeemed Notes, may lower the yield to maturity of the Notes and may adversely affect the yield on the Income Notes.
Collateral Accumulation. In anticipation of the issuance of the Securities, an affiliate of Goldman, Sachs & Co. has agreed to “warehouse” up to approximately U.S.$1,000,000,000 aggregate Principal Balance (or, in the case of Synthetic Securities, Reference Obligation Notional Amount) of Collateral Assets and up to U.S.$930,000,000 aggregate principal amount of Default Swap Collateral selected by the Collateral Manager for resale to the Issuer pursuant to the terms of a forward purchase agreement. As part of the warehouse arrangement, such affiliate of Goldman, Sachs & Co., the Issuer and third parties may enter into certain ancillary arrangements which the risk of loss of the value of the Collateral Assets during the accumulation period will be shared. Of such amount of Collateral Assets to be “warehoused”, it is expected that a portion will be purchased from affiliates of Goldman, Sachs & Co. and a portion will be purchased from third parties. It is also expected that a portion of such amount will be represented by one or more Synthetic Securities entered into between the Issuer and Goldman, Sachs & Co. or an affiliate thereof wherein the Issuer will be selling credit protection. Pursuant to the terms of the forward purchase agreement, the Issuer will be obligated to purchase the “warehoused” assets provided such Collateral Assets satisfy certain eligibility criteria on the Closing Date for a formula purchase price designed to reflect the yields or spreads (or premiums in the case of Synthetic Securities) at which the Collateral Assets were purchased (using the prepayment speed and other assumptions used to set the Initial price of such individual asset), adjusted for any hedging gain or loss and any loss or gain on any Collateral Assets sold to a party other than the Issuer during the warehousing period. Consequently, the market values of “warehoused” Collateral Assets at the Closing Date may be less than or greater than the formula purchase price paid by the Issuer. In addition, if a Collateral Asset becomes ineligible during the warehousing period and is not purchased by the Issuer on the Closing Date, or if a Collateral Asset is otherwise sold at the direction of the Collateral Manager or Goldman, Sachs & Co. (which sale may only occur with the consent of Goldman, Sachs & Co.), the Issuer will bear the loss or receive the gain on the sale of such Collateral Asset to a third party.

Disposition of Collateral Assets by the Collateral Manager Under Certain Circumstances. Under the Indenture, the Collateral Manager has the right, but is not obligated, to direct the Issuer to sell, at a price equal to the fair market value, Collateral Assets meeting the definition of Credit Risk Obligations, Defaulted Obligations or equity securities subject to satisfaction of the conditions described herein. Such sale of Collateral Assets may result in losses to the Issuer, which losses may result in the reduction or withdrawal of the rating of any or all of the Notes by any of the Rating Agencies. On the other hand, circumstances may exist under which it is in the best interests of the Issuer or the Holders of the Securities to dispose of Collateral Assets, but the Collateral Manager does not direct the Issuer or the Issuer does not otherwise sell such Collateral Assets.

Average Lives, Duration and Prepayment Considerations. The average lives of the Notes (other than the Class S Notes) and the duration of the Securities is expected to be shorter than the number of years until their Stated Maturity. See “Weighted Average Life and Yield Considerations.”

The average lives of the Notes and the duration of the Securities will be affected by the financial condition of the obligors on or issuers of the Collateral Assets and the characteristics of the Collateral Assets, including the existence and frequency of exercises of any prepayment, optional redemption or sinking fund features, the prepayment speed, the occurrence of any early amortization events, the prevailing level of interest rates, the redemption price, the actual default rate and the actual level of recoveries in respect of any Defaulted Obligations, the frequency of tender or exchange offers for the Collateral Assets and the tenor of any sales of Collateral Assets.

Some or all of the securities underlying the CDO Securities may be prepaid at any time (although certain of such securities may have “lockout” periods, defeasance provisions, prepayment penalties or other disincentives to prepayment). Defeates on and liquidations of the securities and other collateral underlying the CDO Securities may also lead to early repayment thereof. The existence and frequency of such prepayments, optional redemptions, defaults and liquidations will affect the average lives of, and credit support for, the Notes and the duration of the Securities. See “—Collateral Assets,” “Weighted Average Life and Yield Considerations” and “Security for the Notes.”

Projections, Forecasts and Estimates. Estimates of the weighted average lives of, and returns on, the Notes included herein, together with any other projections, forecasts and estimates provided to prospective purchasers of the Securities, are forward looking statements. Such statements are necessarily speculative in nature, as they are based on certain assumptions. It can be expected that some or all of the assumptions underlying such statements will not reflect actual conditions. Accordingly, there can be no assurance that any estimated projections, forecasts or estimates will be realized or that the forward looking statements will materialize, and actual results may vary from the projections, and the variations may be material.

Some important factors that could cause actual results to differ materially from those in any forward looking statements include changes in interest rates, market, financial or legal uncertainties, levels of default, liquidation and prepayments of the underlying assets, mismatches between the timing of accrual and receipt of Proceeds from the Collateral Assets and the effectiveness of the Cashflow Swap Agreement, among others.

None of the Issuer, the Co-Issuer, the Collateral Manager, the Initial Purchaser or any of their respective affiliates has any obligation to update or otherwise revise any projections, including any revisions to reflect changes in economic conditions or other circumstances arising after the date hereof or to reflect the occurrence of unanticipated events, even if the underlying assumptions do not come to fruition.

Dependence of the Issuer on the Collateral Manager. The Issuer has no employees and is dependent on the employees of the Collateral Manager to advise the Issuer in accordance with the terms of the Indenture and the Collateral Management Agreement. Consequently, the loss of one or more of the individuals employed by the Collateral Manager to administer the Collateral Assets or to provide disposition related services in respect of the Collateral Assets could have an adverse effect, which effect may be material, on the performance of the Issuer. See “The Collateral Manager” and “The Collateral Management Agreement.”

Collateral Assets

General. The following description of the Collateral Assets, the Default Swap Collateral and the Reference Obligations and the underlying documents and the risks related thereto is general in nature. Prospective purchasers of the Securities should review the summaries of the Initial Collateral Assets and Reference Obligations set forth in Appendix B to this Offering Circular.

Nature of Collateral. The Collateral is subject to credit, liquidity, prepayment and interest rate risks. The amount and nature of collateral securing the Notes has been established to withstand certain assumed deficiencies in payment occasioned by defaults in respect of the Collateral Assets and the Reference Obligations. See “Ratings of the Notes.” If any deficiencies exceed such assumed levels, however, payment of the Notes could be adversely affected. To the extent that a default or credit event occurs with respect to any Collateral Asset securing the Notes and the Collateral Manager exercises its right to cause the sale or other disposition of such Collateral Asset, it is not likely that the proceeds of such sale or other disposition will be equal to the amount of principal and interest owing to the Issuer in respect of such Collateral Asset.

The market value of the Collateral Assets and the Reference Obligations generally will fluctuate with, among other things, the financial condition of the Reference Obligations and obligors on or issuers of the Collateral Assets and the Reference Obligations, the credit quality of the underlying pool of assets in any Collateral Asset or Reference Obligation, the Synthetic Security Counterparty or other Collateral Manager, the condition of certain financial markets, political events, developments or trends in any particular industry and changes in prevailing interest rates. None of the Issuer, the Co-Issuer, the Initial Purchaser, the Collateral Manager, the Collateral Administrator or the Trustee has any liability or obligation to the Holders of Securities as to the amount or value of, or decrease in the value of the Collateral Assets from time to time.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021925413
If a Collateral Asset becomes a Credit Risk Obligation or a Defaulted Obligation, the Collateral Manager may direct the Issuer to sell, terminate or assign the affected Collateral Asset. There can be no assurance as to the timing of the Issuer’s sale, termination or assignment of the affected Collateral Asset, or as to the rates of recovery on such affected Collateral Asset. The inability to realize immediate recoveries at the recovery levels assumed herein may result in lower cash flow and a lower yield to maturity of the Notes and may adversely affect the yield on the Income Notes.

Synthetic Securities. Approximately 93.00% of the Collateral Assets (by Principal Balance) as of the Closing Date are expected to consist of Synthetic Securities. All of the Reference Obligations referenced in the Synthetic Securities are expected to be CDO Securities.

The economic return on a Synthetic Security depends substantially upon the performance of the related Reference Obligation and partially upon the performance of the collateral posted by the Issuer to secure its obligations to the Synthetic Security Counterparty on deposit in the Default Swap Collateral Account. Synthetic Securities generally have probability of default, recovery upon default and expected loss characteristics, which are closely correlated to the corresponding Reference Obligation, but may have different maturity dates, coupons, payment dates or other non-credit characteristics than the corresponding Reference Obligation. In addition to the credit risks associated with holding the Reference Obligation, with respect to Synthetic Securities, the Issuer will usually have a contractual relationship only with the related Synthetic Security Counterparty, and not with the Reference Obligor of the Reference Obligation. Due to the fact that a Synthetic Security may be liquid or may not be terminable on demand (or terminable on demand only upon payment of a substantial fee by the Issuer), the Issuer’s ability to dispose of a Synthetic Security, if circumstances arise permitting such disposal, may be limited. Any settlement payments and termination payments payable by the Issuer (net of any termination payments owing by the Synthetic Security Counterparty to the Synthetic Security Counterparty will reduce the amount available to pay the Holders of the Income Notes and the Notes in inverse order of seniority. The Issuer generally will have no right to directly enforce compliance by the Reference Obligor with the terms of the Reference Obligation nor any rights of set off against the Reference Obligor, nor have any voting rights with respect to the Reference Obligation. The Issuer will not directly benefit from the collateral supporting the Reference Obligation and will not have the benefit of the remedies that would normally be available to a holder of such Reference Obligation.

Because neither the Synthetic Security Counterparty nor the Issuer is required to hold any Reference Obligation, the Issuer will not have any right to obtain from either the Synthetic Security Counterparty or the Reference Obligor information on the Reference Obligations or information regarding any such Obligor. The Synthetic Security Counterparty will have no obligation to keep the Issuer informed as to matters arising in relation to any Reference Obligation including whether or not circumstances exist under which there is a possibility of the occurrence of a Credit Event of a Default Amount Event.

In addition, in the event of the insolvency of the Synthetic Security Counterparty, the Issuer will be treated as a general creditor of such Synthetic Security Counterparty, and will not have any claim with respect to the Reference Obligor or the Reference Obligation. Consequently, the Issuer will be subject to the credit risk of the Synthetic Security Counterparty as well as that of the Reference Obligor and the Reference Obligation. As a result, concentrations of Synthetic Securities in any one Synthetic Security Counterparty subject the Notes and the Income Notes to an additional degree of risk with respect to defaults by such Synthetic Security Counterparty. It is expected that Goldman Sachs International, an affiliate of Goldman, Sachs & Co., will act as the sole Synthetic Security Counterparty with respect to the Synthetic Securities, which creates concentration risk and may create certain conflicts of interest. In addition, neither the Synthetic Security Counterparty nor its affiliates will be (or be deemed to be) the agent or trustee of the Issuer, the Holders of the Notes or the Holders of the Income Notes in connection with the exercise of, or the failure to exercise, any of the rights of parties to the Synthetic Security Counterparty and/or its affiliates arising under or in connection with their respective holding of any Reference Obligation. The Synthetic Security Counterparty and its affiliates (i) may generally engage in any kind of commercial or investment banking or other
business transactions with any issuer of a Reference Obligation, and (ii) may act with respect to transactions described in the preceding clauses (i) and (ii) in the same manner as if the Synthetic Securities and the Notes did not exist and without regard to whether any such action might have an adverse affect on such Reference Obligation, the Issuer, the Holders of the Notes or the Holders of the Income Notes.

All of the Synthetic Securities are expected to be structured as "pay-as-you-go" credit default swaps. The obligation of the Issuer to make payments to the Synthetic Security Counterparty under the Synthetic Securities creates credit exposure to the related Reference Obligations (as well as to the default risk of the related Synthetic Security Counterparty). Following the occurrence of a Credit Event, the Issuer may be required to pay to the Synthetic Security Counterparty a "physical settlement payment". In addition, each Synthetic Security may require the Issuer, in its capacity as protection seller, to pay certain Floating Amounts to the Synthetic Security Counterparty equal to certain principal shortfall amounts, withdrawn payments and interest shortfalls with respect to the Reference Obligation upon the occurrence thereof. The payment of any such Credit Protection Amounts and Floating Amounts will be funded by the Issuer, through the liquidation Default Swap Collateral as described herein. The Synthetic Security Counterparty will be obligated to reimburse all or part of such payments to the Issuer if the withdrawn payments of the related shortfall are ultimately paid to holders of the Reference Obligations or if the related Reference Obligations are written up, the amounts available to the Issuer to make payments in respect of the Notes and the Income Notes may be reduced after payment by the Issuer of the relevant payment to the Synthetic Security Counterparty until the Issuer receives such reimbursement, if any, from the Synthetic Security Counterparty. Any Floating Amounts or Credit Protection Amounts payable by the Issuer, may result in a reduction of the Reference Obligation Notional Amount of the related Synthetic Security, and therefore reduce the amounts payable by the Synthetic Security Counterparty and the amount of interest collections available to pay interest on the Notes and distributions to Income Notes. In addition, any Floating Amounts or Credit Protection Amounts would reduce the Default Swap Collateral on deposit in the Default Swap Collateral Account that is available to pay the principal of the Notes and may reduce the interest collections available to pay interest on the Notes.

Determination of the Floating Amounts and Additional Fixed Amounts (as described in the Master Confirmation) will depend on the relevant servicing reports being available and on such reports containing adequate information to enable the required calculations to be made. Current private industry investigations of the market practices show that such reports can vary and that not all reports contain adequate information. In addition, access to servicing reports may be limited if such reports are confidential and neither counterparty holds the related Reference Obligation.

The Issuer will be required to purchase Default Swap Collateral and pledge to the Synthetic Security Counterparty a first priority security interest in such Default Swap Collateral. In the event a Credit Event or Floating Amount Event occurs under a Synthetic Security, the term of Default Swap Collateral chosen by the Synthetic Security Counterparty after the application of any cash on deposit in the Default Swap Collateral Account will be sold by the Trustee at the direction of the Collateral Manager and the amount owed to the Synthetic Security Counterparty will be paid by the Issuer from the liquidation proceeds of such Default Swap Collateral. In the event such liquidation proceeds are less than par, the Synthetic Security Counterparty will accept the liquidation proceeds applicable to the lesser amount of Synthetic Security Collateral sold which is equal to the amount due to the Synthetic Security Counterparty. In addition, under certain circumstances upon the occurrence of a Credit Event, the Default Swap Collateral chosen by the Synthetic Security Counterparty will instead be delivered to the Synthetic Security Counterparty in exchange for a Deliverable Obligation. Any Deliverable Obligation delivered to the Issuer will be treated as a Collateral Asset, provided that, notwithstanding the foregoing, each such Deliverable Obligation may be retained by the Collateral Manager or sold by the Collateral Manager at the sole discretion of the Collateral Manager without regard to whether such sale would be permitted as a sale of a Defaulted Obligation or a Credit Risk Obligation. Provided that no Event of Default has occurred and is continuing in the event that no Credit Event under a Synthetic Security occurs prior to the termination or scheduled maturity of such Synthetic Security, upon the termination or scheduled maturity of such Synthetic Security, the related Default Swap Collateral will be released from the lien of the Synthetic Security Counterparty and be treated as a Collateral Asset. If the Collateral Manager elects to
sell or terminate a portion of a Synthetic Security prior to its scheduled maturity, the Synthetic Security Counterparty will choose the Default Swap Collateral to be liquidated to make any termination payments due to the Synthetic Security Counterparty after the application of cash available in the Default Swap Collateral Account and the Collateral Manager will cause such portion of the Default Swap Collateral to be sold and the liquidation proceeds equaling any such termination payment to be paid to the Synthetic Security Counterparty. The remaining portion of Default Swap Collateral not required to be pledged to such Synthetic Security Counterparty will be delivered to the Trustee free of such lien. The Collateral Manager, in accordance with the terms of the related Synthetic Security and the Indenture and with the consent of the Synthetic Security Counterparty, may be able to reinvest the proceeds of Default Swap Collateral in substitute Default Swap Collateral prior to the termination or maturity of the related Synthetic Security. The Issuer may realize a loss upon any sale of any Default Swap Collateral.

Termination payments due to the Synthetic Security Counterparty, other than Defaulted Synthetic Termination Payments, will be paid by the Issuer directly through the liquidation of Default Swap Collateral outside of the Priority of Payments. In addition, liquidation proceeds needed to conduct an Avulsion, an Optional Redemption by Liquidation or a Tax Redemption or to liquidate the Collateral in connection with an Event of Default and acceleration under the Indenture, will be calculated after taking into account any termination payments (other than Defaulted Synthetic Security Termination Payments) that may be due to the Synthetic Security Counterparty upon the termination of the Synthetic Securities or any assignment payments due to an assignee of the Synthetic Securities. Any termination or assignment payments paid directly to the Synthetic Security Counterparty or any assignee of a Synthetic Security and not through the Priority of Payments may reduce amounts available for payments on the Securities.

"Pay-as-you-go" credit default swaps are a type of credit default swap developed to incorporate the unique structures of asset-backed securities. The International Swaps and Derivatives Association, Inc. ("ISDA") has published a form confirmation for "pay-as-you-go" credit default swaps referencing CDO Securities. The form confirmation expected to be used to document the Synthetic Securities is expected to be similar, but may differ substantially from the ISDA "pay-as-you-go" form. While ISDA has published its form confirmations and has published and supplemented the Credit Derivatives Definitions in order to facilitate transactions and promote uniformity in the credit default swap market, the credit default swap market is expected to change and the "pay-as-you-go" credit default swap forms and the Credit Derivatives Definitions and terms applied to credit derivatives are subject to interpretation and further evolution. ISDA is currently preparing forms for other types of asset-backed securities. There can be no assurance that such forms will be substantially similar to the form confirmation expected to be used for the Synthetic Securities. Past events have shown that the views of market participants may differ as to how the Credit Derivatives Definitions operate or should operate. As a result of the continued evolution of the ISDA "pay-as-you-go" credit default swap forms, the confirmations used to document the Synthetic Securities may differ from the future market standard. Such a result may have a negative impact on the liquidity and market value of the Synthetic Securities.

There can be no assurances that changes to the Credit Derivatives Definitions and other terms applicable to credit derivatives generally will be predictable or favorable to the Issuer. Amendments or supplements to the "pay-as-you-go" credit default swap forms and amendments and supplements to the Credit Derivatives Definitions that are published by ISDA will only apply to the Synthetic Securities executed prior to such amendment or supplement if the Issuer and the Synthetic Security Counterparty agree to amend the Synthetic Securities to incorporate such amendments or supplements and the Rating Agency Condition has been satisfied. Markets in different jurisdictions have also already adopted and may continue to adopt different practices with respect to the Credit Derivatives Definitions. Furthermore, the Credit Derivatives Definitions may contain ambiguous provisions that are subject to interpretation and may result in consequences that are adverse to the Issuer. In addition to the credit risk of the Reference Obligations and the credit risk of the Synthetic Security Counterparty, the Issuer is also subject to the risk that the Credit Derivatives Definitions could be interpreted in a manner that would be adverse to the Issuer or that the credit derivatives market generally may evolve in a manner that would be adverse to the Issuer.
PROSPECTIVE PURCHASERS OF THE NOTES AND THE INCOME NOTES SHOULD
CONSIDER AND ASSESS FOR THEMSELVES THE LIKELY LEVEL OF DEFAULTS ON THE
COLLATERAL ASSETS, AS WELL AS THE LIKELY LEVEL AND TIMING OF RECOVERIES ON THE
COLLATERAL ASSETS.

CDO Securities.

On the Closing Date, all of the Collateral Assets are expected to be CDO Securities and Synthetic Securities the Reference Obligations of which are CDO Securities, including without limitation high grade
and mezzanine structured finance CDO Securities and CDOs of CDOs. A portion of the Default Swap Collateral could consist of CDO Securities.

CDO Securities generally are limited recourse obligations of the issuer thereof payable solely from the underlying assets of the issuer ("CDO Collateral") or proceeds thereof. Consequently, holders of CDO Securities must rely solely on distributions on the underlying CDO Collateral or proceeds thereto for payment in respect thereof. If distributions on the underlying CDO Collateral are insufficient to make payments on the CDO Securities, no other assets will be available for payment of the deficiency and following realization of the underlying assets, the obligations of the issuer to pay such deficiency shall be extinguished. Many subordinate classes of CDO Securities provide that a default of interest thereon or a
write-down does not constitute an event of default and the holders of such securities will not have
availability to them any associated default remedies. During such periods of non payment or partial non-
payment, such non-paid interest will generally be capitalized and added to the outstanding principal balance of the related security. Any such default will reduce the amount of current payments made on
such CDO Securities.

CDO Securities are subject to credit, liquidity and interest rate risks. The assets backing CDO Securities may consist of high yield debt securities, loans, structured finance securities, other debt instruments and Synthetic Securities referencing debt instruments. High yield debt securities are
generally unsecured (and loans may be unsecured) and may be subordinated to certain other obligations of the issuer thereof. An increase in the default rates of high yield corporate debt securities or loans could increase the likelihood that payments may not be made to holders of CDO Securities which are secured by high yield corporate debt securities and loans. The risks associated with structured finance securities can vary widely depending on the type of collateral, state of credit enhancements, the relative subordination or subordination of the class of securities, the relative allocation of principal and interest payments in the priority, credit losses and defaults and whether the collateral represents a fixed pool or allows for reinvestment. In addition, CDO Securities backed by Synthetic Securities will be subject to risks similar to those described in respect of Synthetic Securities herein.

Issuers of CDO Securities may acquire interests in loans and other debt obligations by way of
assignment or participation. The purchaser of an assignment typically succeeds to all the right and
obligations of the assigning institution and becomes a lender under the credit agreement with respect to
the debt obligation; however, its rights can be more restricted than those of the assigning institution.

In purchasing participations, an issuer of CDO Securities will usually have a contractual
relationship only with the selling institution, and not the borrower. The issuer generally will have no right
directly to enforce compliance by the borrower with the terms of the loan agreement, nor any rights of set
off against the borrower, nor have the right to object to certain changes in the loan agreement agreed to
by the selling institution. The issuer may not directly benefit from the collateral supporting the related loan
and may be subject to any rights of set-off the borrower has against the selling institution. In addition, in
the event of the insolvency of the selling institution, under the laws of the United States of America and
the states thereof, the issuer may be treated as a general creditor of such selling institution, and may not
have any exclusive or senior claim with respect to the selling institution’s interest in, or the collateral with
respect to, the loan. Consequently, the issuer may be subject to the credit risk of the selling institution as
well as of the borrower.

Confidential Treatment Requested by Goldman Sachs
GS MBS-E-021825417
CDO Securities are subject to interest rate risk and day count basis risk. The CDO Collateral of an issuer of CDO Securities may bear interest at a fixed (floating) rate while the CDO Securities issued by such issuer may bear interest at a floating (fixed) rate. As a result, there could be a floating/fixed or fixed/ floating basis mismatch between such CDO Securities and CDO Collateral which bears interest at a fixed rate and there may be a timing mismatch between the CDO Securities and assets that bear interest at a floating rate as the interest rate on such assets bearing interest at a floating rate may adjust more frequently or less frequently, on different dates and based on different indices than the interest rates on the CDO Securities. As a result of such mismatches, an increase or decrease in the level of the floating rate index could adversely impact the ability to make payments on the CDO Securities. In addition, hedges may have been acquired to manage the interest rate risk of such CDO Securities, making such CDO Securities also subject to the credit risk of the applicable hedge counterparty.

Subordination of CDO Securities: 100% of the CDO Securities representing 100% of the CDO Collateral Assets (by Principal Balance) to be acquired by the Issuer are expected to be investment grade, each as of the Closing Date. Certain of the CDO Securities will be subordinated to one or more other classes of securities of the same series for purposes of, among other things, offsetting losses and other shortfalls with respect to the related underlying mortgage loans or assets. The subordinate classes are more sensitive to risk of loss and write-downs than senior classes of such securities.

Commercial Mortgage-Backed Securities (CMBS): A portion of the Definitive Swap Collateral may consist of Commercial Mortgage-Backed Securities ("CMBS") that satisfy the Definitive Swap Eligibility Criteria.

Holders of CMBS bear various risks, including credit, market, interest rate, structural and legal risks. CMBS are securities backed by obligations (including certificates of participation in obligations) that are principally secured by mortgages on real property or interests therein having a multifamily or commercial use, such as regional malls, other retail space, office buildings, industrial or warehouse properties, hotels, nursing homes and senior living centers. CMBS have been issued in public and private transactions by a variety of public and private issuers using a variety of structures, including senior and subordinated classes. Risks affecting real estate investments include general economic conditions, the condition of financial markets, political events, developments or trends in any particular industry and changes in prevailing interest rates. The cyclical and leverage associated with real estate-related investments have historically resulted in periodic, including significant periods, of adverse performance, including delinquency, foreclosure and realization rates that may be materially more adverse than the performance associated with real estate investments. In addition, commercial mortgage loans generally lack standardized terms, tend to have shorter maturities than residential mortgage loans and may provide for the payment of all or substantially all of the principal only at maturity. Additional risks may be presented by the type and use of a particular commercial property. For instance, commercial properties that operate as hospitals and nursing homes may present special risks to lenders due to the significant governmental regulation of the ownership, operation, maintenance and financing of healthcare institutions. Hotel and motel properties are often operated pursuant to franchises, management or operating agreements which may be terminable by the franchisee or operator and the transferability of the hotel's operating license upon a transfer of the hotel, whether through purchase or foreclosure, is subject to local law requirements. All of these factors increase the risks involved with commercial real estate lending. Commercial properties tend to be unique and are more difficult to value than single-family residential properties. Commercial lending is generally viewed as exposing a lender to a greater risk of loss than residential one-to-four family lending since it typically involves larger loans to a single borrower than residential one-to-four family lending.

Commercial mortgage lenders typically look to the debt service coverage ratio of a loan secured by income-producing property as an important measure of the risk of default on such a loan. Commercial property values and net operating income are subject to volatility, and net operating income may be sufficient or insufficient to cover debt service on the related mortgage loan at any given time. The repayment of loans secured by income-producing properties is typically dependent upon the successful operation of the related real estate project rather than upon the liquidation value of the underlying real

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825418
estate. Furthermore, the net operating income from and value of any commercial property may be adversely affected by risks generally incident to interests in real property, including events which the borrower or manager of the property, or the issuer or servicer of the related issuance of commercial mortgage-backed securities, may be unable to predict or control, such as changes in general or local economic conditions and/or specific industry segments; declines in real estate values; declines in rental occupancy rates; increases in interest rates, real estate tax rates and other operating expenses; changes in governmental rules, regulations and fiscal policies; acts of God; and social unrest and civil disturbances. The value of commercial real estate is also subject to a number of laws, such as laws regarding environmental clean-up and limitations on remedies imposed by bankruptcy laws and state laws regarding foreclosures and rights of redemption. Any decrease in income or value of the commercial real estate underlying an issue of CMBS could result in cash flow delays and losses on the related issue of CMBS.

A commercial property may not readily be converted to an alternative use in the event that the operation of such commercial property for its original purpose becomes unprofitable. In such cases, the conversion of the commercial property to an alternative use would generally require substantial capital expenditures. Thus, if the borrower becomes unable to meet its obligations under the related commercial mortgage loan, the liquidation value of any such commercial property may be substantially less, relative to the amount outstanding on the related commercial mortgage loan, than would be the case if such commercial property were readily adaptable to other uses. The exercise of remedies and successful realization of liens on property proceeds may be highly dependent on the performance of CMBS servicers or special servicers, of which there may be a limited number and which may have conflicts of interest in any given situation. The failure of the performance of such CMBS servicers or special servicers could result in cash flow delays and losses on the related issue of CMBS.

Mortgage loans underlying a CMBS issue may provide for no amortization of principal or may provide for amortization based on a schedule substantially longer than the maturity of the mortgage loan, resulting in a "balloon" payment due at maturity. If the underlying mortgage borrower experiences business problems, or other factors limit refinancing alternatives, such balloon payment mortgages are likely to experience payment delays or even default. As a result, the related issue of CMBS could experience delays in cash flow and losses.

In addition, structural and legal risks include the possibility that, in a bankruptcy or similar proceeding involving the originator or the servicer (often the same entity or affiliates), the assets of the issuer could be treated as never having been truly sold by the originator to the issuer or as not having been substantively consolidated with those of the originator or the servicer, or the transfer of such assets to the issuer could be voided as a fraudulent transfer. Challenges based on such doctrines could result also in cash flow delays and losses on the related issue of CMBS.

It is expected that none of the CMBS Included (or to be Included) in the Default Swap Collateral will be guaranteed or insured by any governmental agency or instrumentality or by any other person. Distributions on CMBS will depend solely upon the amount and timing of payments and other collections on the related underlying mortgage loans. Realized losses and trust expenses generally will be allocated to the most subordinated class of securities of the related series. Accordingly, to the extent any CMBS becomes the most subordinated class of securities of the related series, any delinquency or default on any underlying mortgage loan may result inshortfalls, realized loss allocations or reductions of its weighted average life and will have a more immediate and disproportionate effect on the related CMBS than on the related more senior securities. Curtailment of the Issuing CMBS Series have experienced delinquencies, defaults and losses on the underlying commercial mortgage loans.

In addition, in the case of certain CMBS, no distributions of principal will generally be made until the aggregate principal balance of the corresponding more senior securities has been reduced to zero and, in other cases, all or a disproportionate amount of principal distributions will be made to the holders of the more senior securities for a specified period of time. The holders of classes of securities that are
subordinate to the classes of CMBS owned by the issuer will generally control the exercise of remedies in connection with such CMBS. Such exercise of remedies by a holder of subordinate classes may be in conflict with the interests of the more senior securities. See ——Other Considerations—Certain Conflicts of Interest.

Residential Mortgage-Backed Securities. A portion of the Default Swap Collateral may consist of Residential Mortgage-Backed Securities ("RMBS") that satisfy the Default Swap Eligibility Criteria.

Holders of RMBS bear various risks, including credit, market, interest rate, structural and legal risks. RMBS represent interests in pools of residential mortgage loans secured by one- to four-family residential mortgage loans. Such loans may be prepaid at any time. Residential mortgage loans are obligations of the borrowers thereunder only and are not typically insured or guaranteed by any other person or entity, although such loans may be securitized by agencies and the securities issued are guaranteed. The rate of defaults and losses on residential mortgage loans will be affected by a number of factors, including general economic conditions and those in the area where the related mortgage property is located, the borrower's equity in the mortgaged property and the financial circumstances of the borrower. If a residential mortgage loan is in default, foreclosures of such residential mortgage loan may be a lengthy and difficult process, and may involve significant expenses. Furthermore, the market for defaulted residential mortgage loans or foreclosed properties may be very limited.

At any one time, a portfolio of RMBS may be backed by residential mortgage loans with disproportionately large aggregate principal amounts secured by properties in only a few states or regions. As a result, the residential mortgage loans may be more susceptible to geographic risks relating to such areas, such as advance economic conditions, adverse events affecting industries located in such areas and natural hazards affecting such areas, than would be the case for a pool of mortgage loans having more diverse property locations. In addition, the residential mortgage loans may include so called "jumbo" mortgage loans, having original principal balances that are higher than generally the case for residential mortgage loans. As a result, such portfolio of RMBS may experience increased losses.

Each underlying residential mortgage loan in an issue of RMBS may have a balloon payment due on its maturity date. Balloon residential mortgage loans involve a greater risk to a lender than self-amortizing loans, because the ability of a borrower to pay such amount will normally depend on its ability to obtain refinancing of the related mortgage loan or sell the related mortgaged property at a price sufficient to permit the borrower to make the balloon payment, which will depend on a number of factors prevailing at the time such refinancing or sale is required, including, without limitation, the strength of the residential real estate markets, tax laws, the financial situation and operating history of the underlying property, interest rates and general economic conditions. If the borrower is unable to make such balloon payment, the related issue of RMBS may experience losses.

Prepayments on the underlying residential mortgage loans in an issue of RMBS will be influenced by the prepayment provisions of the related mortgage notes and may also be affected by a variety of economic, geographic and other factors, including the difference between the interest rates on the underlying residential mortgage loans (giving consideration to the cost of refinancing) and prevailing mortgage rates and the availability of refinancing. In general, if prevailing interest rates fall significantly below the interest rates on the related residential mortgage loans, the rate of prepayment on the underlying residential mortgage loans would be expected to increase. Conversely, if prevailing interest rates rise to a level significantly above the interest rates on the related mortgages, the rate of prepayment would be expected to decrease. Prepayments could reduce the yield received on the related issue of RMBS.

Structural and Legal Risks of RMBS. Residential mortgage loans in an issue of RMBS may be subject to various federal and state laws, public policies and principles of equity that protect consumers, which among other things may regulate interest rates and other charges, require certain disclosures, require licensing of originators, prohibit discriminatory lending practices, regulate the use of consumer...
credit information and regulate debt collection practices. Violation of certain provisions of these laws, public policies and principles may limit the servicer's ability to collect all or part of the principal or interest on a residential mortgage loan, entitle the borrower to a refund of amounts previously paid by it, or subject the servicer to damages and sanctions. Any such violation could result also in cash flow delays and losses on the related issue of RMBS.

RMBS may have structural characteristics that distinguish them from other asset-backed securities. The rate of interest payable on RMBS may be set or effectively capped at the weighted average net coupon of the underlying mortgage loans themselves. As a result of this cap, the return to investors is dependent on the relative timing and rate of delinquencies and prepayments of mortgage loans bearing a higher rate of interest. In general, early prepayments will have a greater impact on the yield to investors. Federal and state law may also affect the return to investors by capping the interest rates payable by certain mortgagees. The Servicemembers' Civil Relief Act of 2003 (the 'Relief Act') provides relief for soldiers and members of the reserve called to active duty by capping the interest rates on their mortgage loans at 6% per annum. Certain RMBS may provide for the payment of only interest for a stated period of time.

In addition, structural and legal risks of RMBS include the possibility that, in a bankruptcy or similar proceeding involving the originator or the servicer (often the same entity or affiliates), the assets of the issuer could be treated as never having been truly sold by the originator to the issuer or could be substantively consolidated with those of the originator or the servicer, or the transfer of such assets to the issuer could be voided as a fraudulent transfer. Challenges based on such doctrines could result also in cash flow delays and losses on the related issue of RMBS.

It is not expected that the RMBS will be guaranteed or insured by any governmental agency or instrumentality or by any other person. Distributions on RMBS will depend solely upon the amount and timing of payments and other collections on the related underlying mortgage loans.

Recent Developments in RMBS May Adversely Affect the Performance and Market Value of RMBS. Recently, the residential mortgage market in the United States has experienced a variety of difficulties and changed economic conditions that may adversely affect the performance and market value of RMBS. Delinquencies and losses with respect to residential mortgage loans generally have increased in recent months, and may continue to increase, particularly in the subprime sector. In addition, in recent months housing prices and appraised values in many states have declined or stopped appreciating. A continued decline or an extended flattening of these values may result in additional increases in delinquencies and losses on RMBS generally.

Another factor that may result in higher delinquency rates is the increase in monthly payments on adjustable-rate mortgage loans. Borrowers with adjustable-rate mortgage loans are being exposed to increased monthly payments when the initial mortgage interest rate adjusts upward from the initial fixed rate or a low introductory rate. Borrowers seeking to avoid these increased monthly payments by refinancing their mortgage loans may no longer be able to find available replacement loans at comparable low interest rates. A decline in housing prices may also leave borrowers with insufficient equity in their homes to permit them to refinance. Furthermore, borrowers who intend to sell their homes on or before the expiration of the fixed rate periods on their mortgage loans may find that they cannot sell their properties for an amount equal to or greater than the unpaid principal balance of their loans. These events, alone or in combination, may contribute to higher delinquency rates and, as a result, adversely affect the performance and market value of RMBS.

In addition, numerous residential mortgage loan originators that originate subprime mortgage loans have recently experienced serious financial difficulties and, in some cases, bankruptcy. According to published reports, those difficulties have resulted in part from declining markets for mortgage loans as well as from claims for repurchases of mortgage loans previously sold under provisions that require repurchase in the event of early payment defaults, or for material breaches of representations and warranties made on the mortgage loans, such as fraud claims. These difficulties may affect the performance and market value of RMBS.
Asset-Backed Securities.

A portion of the Default Swap Collateral may consist of Asset-Backed Securities that satisfy the Default Swap Eligibility Criteria.

The structure of an Asset-Backed Security and the terms of the investors' interest in the collateral can vary widely depending on the type of collateral, the desires of investors and the use of credit enhancements. Individual transactions can differ markedly in both structure and execution. Important determinants of the risk associated with issuing or holding Asset-Backed Securities include the relative seniority or subordination of the class of Asset-Backed Securities held by an investor, the relative allocation of principal and interest payments in the priority by which such payments are made under the governing documents, how credit losses affect the issuing vehicle and the return to investors, whether collateral represents a fixed set of specific assets or accounts, whether the underlying collateral assets are revolving or closed end, under what terms (including maturity of the asset backed instrument) any remaining balance in the accounts may revert to the issuing company and to the extent to which the company that is the actual source of the collateral assets is obligated to provide support to the issuing vehicle or to the investors. With respect to some types of Asset-Backed Securities, the risk is more closely correlated with the default risk on corporate bonds of similar terms and maturities than with the performance of a pool of receivables. In addition, certain Asset-Backed Securities (particularly subordinated Asset-Backed Securities) provide that the non payment of interest in cash on such securities will not constitute an event of default in certain circumstances and the holders of such securities will not have available to them any associated default remedies. Interest not paid in cash will generally be capitalised and added to the outstanding principal balance of the related security. Any such default will reduce the yield on such Asset-Backed Securities.

Holders of Asset-Backed Securities bear various risks, including credit risks, liquidity risks, interest rate risks, market risks, operations risks, structural risks and legal risks. Credit risk arises from losses due to defaults by the borrowers in the underlying collateral and the issuer's or servicer's failure to perform. These two elements may be related, as, for example, in the case of a servicer which does not provide adequate credit review scouting to the serviced portfolio, leading to higher incidence of defaults. Market risk arises from the cash flow characteristics of the security, which for most Asset-Backed Securities tend to be predictable. The greatest variability in cash flows comes from credit performance, including the presence of wind down or acceleration features designed to protect the investor in the event that credit losses in the portfolio rise well above expected levels. Interest rate risk arises for the issuer from the relationship between the pricing terms on the underlying collateral and the terms of the note paid to holders of securities and from the need to market the excess servicing or spread account proceeds carried on the balance sheet. For the holder of the security, interest rate risk depends on the expected life of the Asset-Backed Securities which may depend on prepayments on the underlying assets or the occurrence of wind down or termination events.

If the servicer becomes subject to financial difficulty or otherwise ceases to be able to carry out its functions, it may be difficult to find other acceptable substitute servicers and cash flow disruptions or losses may occur, particularly with non standard receivables or receivables originated by private retailers who collected many of the payments at their stores. Structural and legal risks include the possibility that, in a bankruptcy or similar proceeding involving the originator or the servicer (often the same entity or affiliates), the assets of the issuer could be treated as never having been truly sold by the originator to the issuer and could be substantially consolidated with those of the originator or the servicer; or the transfer of such assets to the issuer could be voided as a fraudulent transfer. Challenges based on such doctrines could result also in cash flow delays and reductions. Other similar risks relate to the degree to which cash flows on the assets of the issuer may be commingled with those on the originator's or the servicer's other assets.

Intercreditor Considerations with Respect to Issuers of Collateral Assets. Various laws enacted for the protection of creditors may apply to the Collateral Assets. If a court in a lawsuit brought by an unpaid creditor or representative of creditors of an issuer of a Collateral Asset, such as a trustee in bankruptcy, were to find that the issuer did not receive fair consideration or reasonably equivalent value for incoming

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825422
the indebtedness constituting the Collateral Asset or for granting a lien securing the Collateral Asset, and, after giving effect to such indebtedness or such lien, the issuer (i) was insolvent, (ii) was engaged in a business for which the remaining assets of such issuer constituted unreasonably small capital or (iii) intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they mature, such court could determine to be insolvent. In whole or in part, such indebtedness or such lien as a fraudulent conveyance, to subordinate such indebtedness or such lien to existing or future creditors of such issuer, or to recover amounts previously paid by such issuer in satisfaction of such indebtedness. The measure of insolvency for purposes of the foregoing will vary. Generally, an issuer would be considered insolvent at a particular time if the sum of its debts were then greater than all of its property at a fair valuation, or if the present fair salable value of its assets was then less than the amount that would be required to pay its probable liabilities on its existing debts as they became absolute and matured. There can be no assurance as to what standard a court would apply in order to determine whether the issuer was “insolvent” after giving effect to the incurrence of the indebtedness constituting the Collateral Asset or the grant of a lien securing the Collateral Asset or that, regardless of the method of valuation, a court would not determine that the issuer was “insolvent” upon giving effect to such incurrence or grant.

In addition, in the event of the insolvency of an issuer of a Collateral Asset, payments made on such Collateral Asset or a lien securing such Collateral Asset could be subject to avoidance as a “preference” if made within a certain period of time (which may be as long as one year or longer) before insolvency. Payments made under loans underlying Collateral Assets may also be subject to avoidance in the event of the bankruptcy of the borrower.

In general, if payments on a Collateral Asset are available, whether as fraudulent conveyances or preferences, such payments can be recouped. To the extent that any such payments are recouped, the resulting loss will be borne first by the Holders of the Income Notes, then by the Holders of the Class D Notes, then by the Holders of the Class C Notes, then by the Holders of the Class B Notes, then by the Holders of the Class A-2 Notes, then by the Holders of the Class B-2 Notes, then by the Holders of the Class A-1d Notes, then by the Holders of the Class A-1c Notes, then by the Holders of the Class A-1b Notes, then by the Holders of the Class A-1a Notes and, finally, by the Holders of the Class S-1 Notes.

Iliqidity of Collateral Assets; Certain Restrictions on Transfer. There may be a limited trading market for many of the Collateral Assets purchased by the Issuer, and in certain instances there may be effectively no trading market therefor.

In addition, it is expected that substantially all of the Collateral Assets will generally not have been registered or qualified under the Securities Act, or the securities laws of any other jurisdiction, and no person or entity will be obligated to register or qualify any such Collateral Assets under the Securities Act or any other securities law. Consequently, the Issuer’s transfer of such Collateral Assets will be subject to satisfaction of legal requirements applicable to transfers that do not require registration or qualification under the Securities Act or any applicable state securities laws and upon satisfaction of certain other provisions of the respective agreements pursuant to which the Collateral Assets were issued. It is expected that such transfers will also be subject to satisfaction of certain other restrictions regarding the transfer thereof to, for the benefit of or with assets of, a Plan, as well as certain other transfer restrictions. The existence of such transfer restrictions will negatively affect the liquidity of, and consequently the price that may be realized upon a sale of, such securities.

The Issuer’s investment in Illiquid Collateral Assets may affect the Issuer’s right to sell such investments if they become Credit Risk Obligations or Defaulted Obligations and the timing and price thereof. The value of Illiquid Collateral Assets may depend on the view of market participants and the market for such assets. The Illiquidity of Collateral Assets and the restrictions on transfer of Collateral Assets, in each case as described above, may also affect the ability of the Issuer to conduct a successful Auction, to exercise rights under the purchase contract and to exercise the rights of the participant in connection with the exercise of remedies following an Event of Default.

Volatility of Market Value of Collateral Assets. The market value of the Collateral Assets and the Reference Obligations will generally fluctuate with, among other things, changes in prevailing interest rates, general economic conditions, the condition of certain financial markets, developments or trends in

Confidential Treatment Requested by Goldman Sachs
any particular industry and the financial condition of the issuers of the Collateral Assets and the Reference Obligations. A decrease in the market value of the Collateral Assets and the Reference Obligations would adversely affect the proceeds that could be obtained upon the sale of the Collateral Assets and could ultimately affect the ability of the Issuer to effect an Auction, an Optional Redemption by Liquidation of a Tax Redemption, or to pay the principal of the Notes, or make distributions on the Income Notes, upon a liquidation of the Collateral Assets following the occurrence of an Event of Default.

Interest Rate Risk; Cashflow Swap Agreement. There will be a basis and timing mismatch between such Notes and the Collateral Assets which bear interest at a floating rate, since the interest rates on such Collateral Assets bearing interest at a floating rate may adjust more frequently or less frequently, on different dates and based on different indices, than the interest rates on the Notes. The fixed rates and the margins over LIBOR or other floating rates borne by Collateral Assets may be lower than those on sold or amortized Collateral Assets which could cause a significant decline in interest coverage for the Notes.

On the Closing Date, the Issuer will enter into a Cashflow Swap Agreement to reduce the impact of the timing mismatches between payments of Interest on the Class S Notes, the Class A Notes and the Class B Notes and the receipt of payments on the Collateral Assets that are PFR Bonds. After the Closing Date, even if the Collateral Manager believes that engaging in a hedging technique (other than replacing an existing Cashflow Swap Agreement that is terminated) would be beneficial, the Collateral Manager will be unable to do so. Despite the Issuer having the benefit of a Cashflow Swap Agreement, there can be no assurance that the Collateral Assets and the Eligible Investments will in all circumstances generate sufficient Proceeds to make timely payments of stated interest on the Notes or amounts subordinated thereto. There is no assurance that the Cashflow Swap Agreement will solve all cashflow deferral mismatches.

The Issuer may only terminate the Cashflow Swap Agreement if the Rating Agency Condition is satisfied. In the event the Cashflow Swap Agreement is terminated prior to its expiration date, the Issuer has agreed to use reasonable efforts to enter into a substitute Cashflow Swap Agreement unless the Rating Agency Condition would not be satisfied by a substitute Cashflow Swap Agreement, but there is no assurance that a substitute will be found or that the Rating Agency Condition will be satisfied. Any termination of the Cashflow Swap Agreement, whether in whole or in part, may require the Issuer to pay termination payments to the Cashflow Swap Counterparty, which amounts are payable in accordance with the Priority of Payments prior to any payments on the Notes unless such payments are Definitive Cashflow Swap Termination Payments.

The Issuer’s ability to meet its obligations on the Notes will largely depend on the ability of the Cashflow Swap Counterparty to meet its obligations under the Cashflow Swap Agreement. In the event the Cashflow Swap Counterparty defaults or the Cashflow Swap Agreement is terminated, there can be no assurance that the amounts received from the Collateral Assets will be sufficient to provide for full payments due and payable on the Notes, or that amounts otherwise distributable to the Holders of the Income Notes will not be reduced.

In the event of the insolvency of the Cashflow Swap Counterparty, the Issuer will be treated as a general creditor of such Cashflow Swap Counterparty. Consequently, the Issuer will be subject to the credit of the Cashflow Swap Counterparty. As a result, concentrations of Cashflow Swap Agreements in any one Cashflow Swap Counterparty subject the Notes to an additional degree of risk with respect to defaults by such Cashflow Swap Counterparty.

Goldman Sachs International will be the Initial Cashflow Swap Counterparty.

Prospective purchasers of the Notes and the Income Notes should consider and assess for themselves the likelihood of a default by the Cashflow Swap Counterparty or a guarantor of its obligations, as well as the obligations of the Issuer under the Cashflow Swap Agreement, including the obligation to make termination payments to the Cashflow Swap Counterparty, and the ability of the Issuer to terminate or reduce the Cashflow Swap Agreement or enter into additional Cashflow Swap Agreements.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021852424
Concentration Risk: The Issuer will invest in a pool of Collateral Assets consisting of U.S. Dollar denominated CDO Securities and Synthetic Securities referencing CDO Securities. With regard to the Collateral Assets or the securities underlying the CDO Securities with respect to any particular obligor, industry or country (other than the United States), the concentration of the Collateral Assets (or the portfolio of securities underlying certain Collateral Assets) in any one obligor would subject the Securities to a greater degree of risk with respect to defaults by such obligor, and the concentration of the Collateral Assets (or the portfolio of securities underlying certain Collateral Assets) in any one industry would subject the Securities to a greater degree of risk with respect to economic downturns relating to such industry. In addition, the concentration of the Collateral Assets (or the portfolio of securities underlying certain Collateral Assets) in any one country (other than the United States) would subject the Securities to special risks related to regional economic conditions and sovereign risks. Further, the concentration of the Collateral Assets will change after the Closing Date as the underlying securities backing the CDO Securities or Reference Obligations are sold, paid or redeemed.

No single issuer (or, with respect to Synthetic Securities, no single issuer of the related Reference Obligation) will represent as of the Closing Date more than approximately 2.5% of the Collateral Assets by outstanding Principal Balance. See “Security for the Notes—The Collateral Assets.”

Other Considerations

Changes in Tax Law: No Gross-up. Payments on the Collateral Assets generally are expected to be exempt under current United States tax law from the imposition of United States withholding tax. See “Income Tax Considerations—United States Tax Considerations—Tax Treatment of Issuer.” However, the Issuer will not be making any independent investigation of the circumstances surrounding the individual assets comprising the Collateral Assets and, as a result, there can be no assurance that the payments on the Collateral Assets may not be subject to withholding taxes imposed by the United States or another jurisdiction. In that event, if the obligors of such Collateral Assets were not then required to make “gross-up” payments that cover the full amount of any such withholding taxes, the amounts available to make payments on, or distributions to, the Holders of the Securities would accordingly be reduced. There can be no assurance that remaining payments on the Collateral would be sufficient to make timely payments of interest on and payment of principal at the Stated Maturity of each Class of the Notes and, consequently, to make any payments on the Income Notes on the Stated Maturity.

In the event that any withholding tax is imposed on payments on the Securities, the Holders of such Securities will not be entitled to receive “grossed-up” amounts to compensate for such withholding tax. In addition, upon the occurrence of a Tax Event, the Issuer will reissue in whole but not in part, at approximate Description of the Securities—Tax Redemption,” “Optional Redemption by Liquidation,” “Optional Redemption by Reinvestment—Optional Redemption Procedures” herein.

Lack of Operating History. Each of the Issuers is a recently incorporated entity and has no substantial prior operating history. Accordingly, neither of the Issuers has a performance history for a prospective Investor to consider.

Investment Company Act. Neither of the Issuers has registered with the United States Securities and Exchange Commission (the “SEC”) as an investment company pursuant to the Investment Company Act. The Issuer has not so registered in reliance on an exception for investment companies organized under the laws of a jurisdiction other than the United States whose Investors resident in the United States are not subject to a public offering of their securities in the United States. Counsel for the Issuer will opine, in connection with the sale of the Securities by the Initial Purchaser, that neither the Issuer nor the Co-Issuer is on the Closing Date an investment company required to be registered under the Investment Company Act (assuming, for the purposes of such opinion, that the Securities are sold by the Initial Purchaser in accordance with the terms of the Purchase Agreement). No opinion or no-action position has been requested of the SEC.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825425
If the SEC or a court of competent jurisdiction were to find that the issuer or the Co-Issuer is required, but in violation of the Investment Company Act had failed, to register as an investment company, possible consequences include, but are not limited to, the following: (i) the SEC could apply to a district court to enjoin the violation; (ii) investors in the issuer or the Co-Issuer could sue the issuer or the Co-Issuer, as the case may be, and recover any damages caused by the violation; and (iii) any contract to which the issuer or the Co-Issuer, as the case may be, is a party that is made in, or whose performance involves a violation of the Investment Company Act would be unenforceable by any party to the contract unless a court were to find that under the circumstances enforcement would produce a more equitable result than non-enforcement and would not be inconsistent with the purposes of the Investment Company Act. Should the issuer or the Co-Issuer be subjected to any of or all of the foregoing, the issuer or the Co-Issuer, as the case may be, would be materially and adversely affected.

The Securities are only permitted to be transferred to Qualified Institutional Buyers in transactions meeting the requirements of Rule 144A and, solely in the case of the Income Notes, to Accredited Investors having a net worth of not less than $1,105,000 in transactions exempt from registration under the Securities Act, or in an offshore transaction, to a non-U.S. Person, complying with Rule 903 or Rule 904 of Regulation S. The Securities being offered in the United States are being offered only to persons that are also Qualified Purchasers. Any non-permitted transfer will be voided and the Issuer can require the transfer to sell its Securities to a permitted transferee, with such sale to be effected within 30 days after notice of such sale requirement is given. If such sale is not effected within such 30 day period, upon written direction from the Issuer, the Trustee will be authorized to conduct a commercially reasonable sale of such Securities to a permitted transferee and pending such transfer, no further payments will be made in respect of such Securities or any beneficial interest therein. See “Description of the Securities—Form of the Securities” and “Notice to investors.”

Credit Ratings. Credit ratings of debt securities represent the rating agencies’ opinions regarding their credit quality and are not a guarantee of quality. Rating agencies attempt to evaluate the safety of principal and interest payments and do not evaluate the risks of fluctuations in market value, therefore, they may not fully reflect the true risks of an investment. Also, rating agencies may fail to make timely changes in credit ratings in response to subsequent events, so that an issuer’s current financial condition may be better or worse than a rating indicates. Credit ratings of non-investment grade and comparable unrated obligations included in the Collateral Assets and Reference Obligations may be less reliable indicators of investment quality than would be the case with investments in investment-grade debt obligations.

Implementation of Securities Regulation in Europe. As part of a coordinated action plan for harmonization of securities markets in Europe, the European Parliament and the Council of the European Union has adopted a series of directives, including the Prospectus Directive (2003/71/EC) and the Transparency Directive (2004/109/EC) and the Market Abuse Directive (2003/60/EC) which aim to ensure investor protection and market efficiency in accordance with high regulatory standards across the European community. Pursuant to such directives member states have introduced, or are in the process of introducing, legislation into their domestic markets to implement the requirements of these directives. The introduction of such legislation has affected and will affect the regulation of issuers of securities that are offered to the public or admitted to trading on a European Union regulated market and the nature and content of disclosure required to be made in respect of such issuers and their related securities. The listing of Notes or Income Notes on any European Union stock exchange would subject the Issuer to regulation under these directives, although the requirements applicable to the Issuer are not yet fully clarified. The indenture will not require the Issuer to apply for, list or maintain a listing for any Class of Notes or Income Notes on a European Union stock exchange if compliance with these directives (or other requirements adopted by the European Parliament and Council of the European Union or a relevant member state) becomes burdensome. Should the Notes or Income Notes be delisted from any exchange, the ability of the holders of such Securities to sell such Securities in the secondary market may be negatively impacted.

EU Savings Directive. If following implementation of European Council Directive 2003/65/EC, a payment were to be made or collected through a member state that opted for a withholding system and an amount of or in respect of tax were to be withheld from that payment, neither the Issuer nor the paying
agent nor any other person would be obliged to pay additional amounts as a result of the imposition of such withholding tax. If a withholding tax is imposed on a payment made by a paying agent following implementation of this Directive, the issuer will be required to maintain a paying agent in a member state that will not be obliged to withhold or deduct tax pursuant to the Directive.

Certain Conflicts of Interest. Various potential and actual conflicts of interest may arise from the overall advisory, investment and other activities of the Collateral Manager, its affiliates and their respective clients and employees and from the overall investment activity of the Initial Purchaser, including in other transactions with the Issuer, including, without limitation, acting as counterparty with respect to any Cashflow Swap Agreement. The following briefly summarizes some of these conflicts, but is not intended to be an exhaustive list of all such conflicts.

The Collateral Manager. Various potential and actual conflicts of interest may arise from the overall advisory, investment and other activities of the Collateral Manager, its affiliates and their respective clients and employees. The following briefly summarizes some of these conflicts, but is not intended to be an exhaustive list of all such conflicts.

The Collateral Manager and/or its affiliates have ongoing relationships with, render service to, finance and engage in transactions with, and may own debt or equity securities issued by issuers of certain of the Collateral Assets. The Collateral Manager and/or its affiliates may invest on behalf of themselves and other clients in securities that are senior or subordinated to, or have interests different from or adverse to, the Collateral Assets. The interests of such parties may be different than or adverse to the interests of the Holders of the Securities. In addition, such persons may possess information relating to the Collateral Assets which is not known to the individuals at the Collateral Manager responsible for monitoring the Collateral Assets and performing the other obligations under the Collateral Management Agreement. Such persons will not be required (and may not be permitted) to share such information or pass it along to the Issuer, Collateral Manager or any Holder of any Security. Neither the Collateral Manager nor any of such persons will have liability to the Issuer if any Holder of any Security for failure to disclose such information or for taking, or failing to take, any action based upon such information.

In addition, the Collateral Manager and/or any of its affiliates may engage in any other business and furnish investment management and advisory services to others which may include, without limitation, serving as consultant or advisor to, investing in, lending to, being affiliated with or having other ongoing relationships with, other entities organized to issue collateralized debt obligations secured by assets similar to the Collateral Assets, and other trusts and pooled investments vehicles that acquire information provided in connection with or otherwise deal with securities issued by issuers that would be suitable investments for the Issuer. In the course of monitoring the Collateral Assets held by the Issuer, the Collateral Manager may consider its relationships with other clients (including entities whose securities (or those of its affiliates) are pledged to secure the Notes) and its affiliates. In providing services to other clients, the Collateral Manager and/or its affiliates may recommend activities that would compete with or otherwise adversely affect the Issuer. In addition, the Collateral Manager will be free, in its sole discretion, to make recommendations to others, or effect transactions on behalf of itself or for others, that may be the same as, similar to, or different from those affected on behalf of the Issuer, and the Collateral Manager may furnish advisory services to others who may have investment positions similar to those followed by the Issuer and who may own securities of the same class, or which are the same type as, the Collateral Assets. Under the terms of the Collateral Management Agreement, the Collateral Manager will be permitted to take whatever action is in the Collateral Manager’s best interest regardless of the impact on the Collateral Assets. In addition, under certain circumstances the Collateral Manager may direct the Issuer to sell certain Collateral Assets. Such sales of Collateral Assets may result in losses to the Issuer, which losses may result in the reduction or withdrawal of the rating of any or all of the Securities by any of the Rating Agencies. In determining whether to exercise such right, the Collateral Manager need not take into account the interests of the Issuer, the Noteholders, the income Noteholders or any other party.

The Collateral Manager and/or its affiliates may at certain times be simultaneously seeking to purchase or dispose of investments for their respective accounts or for another entity, including other collateralized debt obligation vehicles, at the same time as it is purchasing or disposing of investments for the Issuer. Accordingly, conflicts may arise regarding the allocation of sale opportunities.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825427
Footnote Exhibits - Page 5517

The Collateral Manager may aggregate sales of securities placed with respect to the Collateral Assets with similar sales being made simultaneously for other clients or other accounts managed by the Collateral Manager or with accounts of the affiliates of the Collateral Manager. If in the Collateral Manager's reasonable business judgment such aggregation will result in an overall economic benefit to the Issuer, taking into consideration the advantageous selling price, brokerage commission and other expenses. However, no provision of the Collateral Management Agreement requires the Collateral Manager or its affiliates to execute orders as part of concurrent authorizations or to aggregate sales. Nevertheless, the Collateral Manager may, in the allocation of business, take into consideration research and other brokerage services furnished to the Collateral Manager or its affiliates by brokers and dealers. Such services may be used by the Collateral Manager in connection with the Collateral Manager's other advisory services or investment operations.

No provision in the Collateral Management Agreement prevents the Collateral Manager or any of its affiliates from rendering services of any kind to the Issuer of any Collateral Assets and its affiliates, the Trustees, the Holders of the Securities, the Cashflow Swap Counterparty or any other entity. Without prejudice to the generality of the foregoing, the Collateral Manager and its affiliates, directors, officers, employees and agents may, among other things: (a) serve as general partner, adviser, sponsor or manager of partnerships or companies organized to issue collateralized bond or loan obligations secured by assets similar to the Collateral Assets, directors (whether supervisory or managing), partners, officers, employees, agents, nominees or signatories for an issuer of any Collateral Asset; (b) receive fees for services rendered to the Issuer of any Collateral Assets or any affiliate thereof; (c) be retained to provide services unrelated to the Collateral Management Agreement to the Issuer or its affiliates and be paid therefor; (d) serve as a member of any "creditors' board" or "creditors' committee" with respect to any Collateral Assets which has become or may become a Defaulted Obligation or with respect to any commercial mortgage loan securing any Collateral Assets or the respective borrower for any such commercial mortgage loan; (e) own or make loans to any borrower or affiliate of any borrower on any of the commercial mortgage loans securing the Collateral Assets; (f) invest, or have already invested, in obligations and/or other securities that are identical to or senior to, or have interests different from or adverse to, the Collateral Assets; (g) make investments on their own behalf without offering such investment opportunities to the Issuer or informing the Issuer of any investments before engaging in any investment for themselves; (h) recommend or effect direct trades between the Issuer and the Collateral Manager or a Collateral Manager Affiliate or funds or accounts for which the Collateral Manager or an Affiliate serve as Collateral Manager, acting as principal or agent, subject to applicable legal requirements; (i) invest in obligations that would be appropriate as Collateral and have ongoing relationships with, render services to, or engage in transactions with, companies whose obligations are included in the Collateral and may own equity or debt securities by issuers of and other obligors of Collateral Assets; and (j) enter into any agency cross-transactions where the Collateral Manager and the Collateral Manager Affiliates acts as broker for the Issuer and for other parties to the transaction, to the extent permitted under applicable law. Under the terms of the Collateral Management Agreement, the Collateral Manager will be permitted to take whatever action is in the Collateral Manager's best interest regardless of the impact on the Collateral Assets.

On the Closing Date it is expected that the Collateral Manager or one or more clients or affiliates of the Collateral Manager will purchase approximately 50% of the aggregate notional amount of the Income Notes and 100% of the Outstanding Amount of the Class D Notes and may purchase Notes and/or Income Notes on or after the Closing Date. This Collateral Manager or such clients or affiliates may at times also own other Securities. There is no assurance that the Collateral Manager or any of such clients or affiliates will continue to hold any or all of the Notes or the Income Notes (including the Income Notes and the Class D Notes purchased on the Closing Date) or that they will continue to hold interests in any securities related to the Collateral Assets. For so long as Graywolf is the Collateral Manager and any funds managed by Graywolf continue to hold any Income Notes, any Collateral Management Fees otherwise payable to the Collateral Manager hereunder shall be paid by the Issuer in the following order: (1) first, to such funds managed by Graywolf (on a pro rata basis among such funds), in an amount equal to the product of (a) such Collateral Management Fees and (b) a fraction the
numerator of which is the notional amount of the Income Notes held by such funds managed by Greywolf and the denominator of which is the aggregate notional amount of all the Income Notes and (ii) second, the remainder, if any, to Greycwolf.

Greywolf or any of its affiliates or subsidiaries will be permitted to exercise all voting rights with respect to any Securities that they may acquire (other than with respect to a vote regarding the removal of the Collateral Manager or the termination or assignment of the Collateral Management Agreement). The interests of such persons may be different from or adverse to the interests of the other Holders of Securities.

The Collateral Manager, in its sole discretion, may, from time to time, waive all or any portion of the Collateral Management Fee, and may defer all or any portion of the Collateral Management Fee. Any deferred Collateral Management Fees will become payable on the next Payment Date (and, if not paid on such Payment Date, on one or more subsequent Payment Dates) in accordance with the Priority of Payments.

Members of the board of directors of the Issuer who are not affiliated with the Collateral Manager or their delegates or other authorized representatives of the Issuer will have the responsibility for approving any transactions between the Issuer and the Collateral Manager or its affiliates involving significant conflicts of interest (including principal trades). More particularly, directors unaffiliated with the Collateral Manager or any delegate designated by such directors will be responsible for approving any principal transactions for which Issuer consent is required pursuant to Section 206(2) of the Advisers Act.

In addition, with the prior authorization of the Issuer, which has been given and can be revoked at any time, the Collateral Manager and/or its affiliates may enter into agency cross-transactions where the Collateral Manager and/or its affiliates acts as broker for the Issuer and for the other party to the transaction, to the extent permitted under applicable law, in which case the Collateral Manager or any such affiliate will receive commissions from, and have a potentially conflicting division of loyalties and responsibilities regarding, both parties to the transaction.

The Initial Purchaser. Various potential and actual conflicts of interest may arise from the conduct by the Initial Purchaser and its affiliates in other transactions with the Issuer, including, without limitation, acting as counterparty with respect to any Cashflow Swap Agreement and Synthetic Securities. The Initial Purchaser and/or its affiliates will act as an Initial Synthetic Security Counterparty and an affiliate of the Initial Purchaser will act as the Initial Cashflow Swap Counterparty. The following briefly summarizes some of these conflicts, but is not intended to be an exhaustive list of all such conflicts.

It is expected that Goldman, Sachs & Co. and/or its affiliates and selling agent will have placed or undersigned certain of the Collateral Assets at original issuance, own equity or other securities of issuers of or obligate on Collateral Assets and will have provided investment banking services, advisory, banking and other services to issuers of Collateral Assets. The Issuer may invest in the securities of companies affiliated with Goldman, Sachs & Co. and/or any of its affiliates or in which Goldman, Sachs & Co. and/or any of its affiliates have an equity or participation interest. The purchase, holding and sale of such investments by the Issuer may enhance the profitability of Goldman, Sachs & Co. and/or any of its affiliates’ own investments in such companies. In addition, it is expected that one or more affiliates of Goldman, Sachs & Co. may also act as counterparty with respect to one or more Synthetic Securities and may act as a counterparty with respect to total return swaps with certain investors in the Notes or the Income Notes. The Issuer may invest in money market funds that are managed by Greywolf or Goldman, Sachs & Co. or any of their affiliates, provided that such money market funds otherwise qualify as Eligible Investments. Goldman, Sachs & Co. and/or a consolidated entity controlled by Goldman, Sachs & Co. or an affiliate thereof intends to provide "warehouse" financing to the Issuer prior to the Closing Date. See "—Collateral Accumulation."

There is no limitation or restriction on the Initial Purchaser or any of its affiliates with regard to acting as investment advisor, initial purchaser or placement agent (or in a similar role) to other parties or persons. This and other future activities of the Initial Purchaser and/or its respective affiliates may give rise to additional conflicts of interest.
Anti-Money Laundering Provisions. Uniting and Strengthening America By Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the "USA PATRIOT Act"), signed into law on and effective as of October 26, 2001, imposes anti-money laundering obligations on different types of financial institutions, including banks, broker dealers and investment companies. The USA PATRIOT Act requires the Secretary of the United States Department of the Treasury (the "Treasury") to prescribe regulations to define the types of investment companies subject to the USA PATRIOT Act and the related anti-money laundering obligations. It is not clear whether Treasury will require entities such as the Issuer to enact anti-money laundering policies. It is possible that Treasury will promulgate regulations requiring the Issuers or the Initial Purchaser or other service providers to the Issuer, in connection with the establishment of anti-money laundering procedures, to share information with governmental authorities with respect to investors in the Notes and/or the Income Notes. Such legislation and/or regulations could require the Issuers to implement additional restrictions on the transfer of the Notes and/or the Income Notes. As may be required, the Issuer reserves the right to request such information and take such actions as are necessary to enable it to comply with the USA PATRIOT Act.

The Issuer. The Issuer is a recently incorporated Cayman Islands exempted limited liability company and has no substantial prior operating history. The Issuer will have no significant assets other than the Collateral Assets, the Default Swap Collateral Account, Eligible Investments, rights under the Cashflow Swap Agreement and certain other accounts and agreements entered into as described herein, and proceeds thereof, all of which have been pledged to the Trustee to secure the Issuer's obligations to the Holders of the Notes and the Cashflow Swap Counterparty. The Issuer will not engage in any business activity other than the issuance and sale of the Notes and the Income Notes as described herein, the issuance of the Ordinary Shares, the acquisition and disposition of the Collateral Assets and Eligible Investments as described herein, the entering into of, and the performance of its obligations under, the Indenture, the Cashflow Swap Agreement, the Account Control Agreement, the Collateral Management Agreement, the Collateral Administration Agreement, the Administration Agreement, the Fiscal Agency Agreement, the Debt of Covenant, any other applicable Transaction Document, the pledge of the Collateral as security for its obligations in respect of the Notes and otherwise for the benefit of the Secured Parties, certain activities conducted in connection with the payment of amounts in respect of the Notes and the Income Notes and the management of the Collateral and other activities incidental to the foregoing. Income derived from the Collateral Assets and other Collateral will be the Issuer's only source of cash.

The Co-Issuer. The Co-Issuer is a newly incorporated Delaware corporation and has no prior operating history. The Co-Issuer does not have and will not have any significant assets. The Co-Issuer will not engage in any business activity other than the co-issuance of the Class B Notes, the Class A Notes, the Class B Notes and the Class C Notes.

Tax. See "Income Tax Considerations."

ERISA. See "ERISA Considerations."

DESCRIPTION OF THE SECURITIES

The Income Notes will be constituted by the deed of covenant executed by the Issuer on March 27, 2007 (the "Deed of Covenant") and subject to the terms and conditions thereof (the "Terms and Conditions") and the Income Notes will be issued pursuant to the Fiscal Agency Agreement. The following summary describes certain provisions of the Securities, the Indenture, the Fiscal Agency Agreement and the Deed of Covenant. This summary does not purport to be complete and is subject to, and qualified in its entirety by reference to, the provisions of the Securities, the Indenture, the Fiscal Agency Agreement and the Deed of Covenant. Copies of the Indenture may be obtained by prospective purchasers of the Notes upon request in writing to the Trustees at The Bank of New York, 101 Barclay Street, Floor 5E, New York, New York, 10088, Attention: CDO Transaction Management Group – Timberwolf I, fax (212) 815-3115, and, so long as any Notes and/or Income Notes are listed on a stock exchange, the Indenture will be available for inspection free of charge from the office of the Listing and Paying Agent. Copies of the Fiscal Agency Agreement and the Issuer's Memorandum and Articles of Association may be obtained by prospective purchasers of Notes and Income Notes upon request in.
The Notes (other than the Class D Notes) will be limited recourse obligations of the Issuers and the Class D Notes and the Income Notes will be limited recourse obligations of the Issuer, secured as described below. The Income Notes will be debt obligations of the Issuer and will not be secured under the terms of the Indenture and will only be entitled to receive amounts available for payment to the Holders of the Income Notes after payment of all amounts payable prior thereto under the Priority of Payments. The Class S-1 Notes will be senior in right of payment on each Payment Date to the Class A-1 Notes, the Class A-2 Notes, the Class C Notes, the Class D Notes and the Income Notes to the extent provided in the Priority of Payments. The Class S-2 Notes will be senior in right of payment on each Payment Date to the Class A-2 Notes (provided that payments of interest on the Class S-2 Notes and the Class A Notes will be paid pro rata), the Class B Notes, the Class C Notes, the Class D Notes and the Income Notes to the extent provided in the Priority of Payments. The Class A-1 Notes will be senior in right of payment on each Payment Date to the Class A-2 Notes (provided that payments of interest on the Class A Notes will be paid pro rata), the Class B Notes, the Class C Notes, the Class D Notes and the Income Notes to the extent provided in the Priority of Payments. Payments of principal on the Class S-2 Notes and the Class A-1 Notes will be paid as described in the Priority of Payments. The Class A-2 Notes will be senior in right of payment on each Payment Date to the Class B Notes, the Class C Notes, the Class D Notes and the Income Notes to the extent provided in the Priority of Payments. The Class B Notes will be senior in right of payment on each Payment Date to the Class C Notes, the Class D Notes and the Income Notes to the extent provided in the Priority of Payments. The Class C Notes will be senior in right of payment on each Payment Date to the Class D Notes and the Income Notes to the extent provided in the Priority of Payments. Payments of principal on the Class A-1 Notes will be paid in accordance with the Class A-1 Note Payment Sequence. See “Priority of Payments.”

Under the terms of the Indenture, the Issuer will grant to the Trustee, for the benefit and security of the Trustee for itself and on behalf of the Noteholders, the Fiscal Agent, the Collateral Administrator, the Collateral Manager, the Cashflow Swap Counterparty and the Synthetic Security Counterparty (collectively, the “Secured Parties”), a first priority security interest in (i) the Collateral Assets; (ii) the Collection Account; (iii) the Payment Account; (iv) the Cashflow Swap Termination Receipts Account, the Cashflow Swap Replacement Account and the Cashflow Swap Collateral Account (subject, in each case, to the rights of the Cashflow Swap Counterparty); (v) the Expense Reserve Account; (vi) the Collateral Account; (vii) the Synthetic Security Collateral Account and the Default Swap Collateral Account (subject, in each case, to the rights of the Synthetic Security Counterparty) (items (i) through (vii), the “Accounts”; (viii) Eligible Investments; (ix) the Issuer’s rights under the Cashflow Swap Agreement; (x) the Issuer’s rights under the Collateral Management Agreement and (xi) certain other property (collectively, the “Collateral”).

Payments of interest on and principal of the Notes and payments on the Income Notes will be made solely from the proceeds of the Collateral in accordance with the Priority of Payments.

The aggregate amount that will be available for payments required or permitted to be made on the Notes and of certain expenses of the Issuers, the Trustee and the Agents on any Payment Date will be the total amount of payments and collections in respect of the Collateral (including the proceeds of the sale of any Collateral) received during the period (a “Due Period”) ending on (and including) the fourth Business Day prior to such Payment Date (or, in the case of a Due Period that is applicable to the Payment Date relating to the Stated Maturity of any Note, ending on (and including) the day preceding such Payment Date) (provided, that if the fourth Business Day prior to such Payment Date occurs before the 25th day of any calendar month, such Due Period shall end on, and include, the 25th day of such calendar month (or if the 25th day is not a Business Day, the immediately following Business Day)), and
commencing immediately following the fourth Business Day prior to the preceding Payment Date (or, in the case of the Due Period relating to the first Payment Date, on the Closing Date) (provided, that if a Due Period shall commence immediately following the 25th day of such calendar month (or if such day is not a Business Day, the immediately following Business Day) and any such amounts received in prior Due Periods that were not disbursed on a previous Payment Date.

**Interest and Distributions**

The Class A-1 Notes will bear interest during each Interest Accrual Period at the Class A-1 Note Interest Rate for such Interest Accrual Period. The Class A-2 Notes will bear interest during each Interest Accrual Period at the Class A-2 Note Interest Rate for such Interest Accrual Period. The Class A-1a Notes will bear interest during each Interest Accrual Period at the Class A-1a Note Interest Rate for such Interest Accrual Period. The Class A-2a Notes will bear interest during each Interest Accrual Period at the Class A-2a Note Interest Rate for such Interest Accrual Period. The Class A-1b Notes will bear interest during each Interest Accrual Period at the Class A-1b Note Interest Rate for such Interest Accrual Period. The Class A-2b Notes will bear interest during each Interest Accrual Period at the Class A-2b Note Interest Rate for such Interest Accrual Period. The Class A-1c Notes will bear interest during each Interest Accrual Period at the Class A-1c Note Interest Rate for such Interest Accrual Period. The Class A-2c Notes will bear interest during each Interest Accrual Period at the Class A-2c Note Interest Rate for such Interest Accrual Period. The Class A-1d Notes will bear interest during each Interest Accrual Period at the Class A-1d Note Interest Rate for such Interest Accrual Period. The Class A-2d Notes will bear interest during each Interest Accrual Period at the Class A-2d Note Interest Rate for such Interest Accrual Period. The Class B Notes will bear interest during each Interest Accrual Period at the Class B Note Interest Rate for such Interest Accrual Period. The Class C Notes will bear interest during each Interest Accrual Period at the Class C Note Interest Rate for such Interest Accrual Period. The Class D Notes will bear interest during each Interest Accrual Period at the Class D Note Interest Rate for such Interest Accrual Period. Interest with respect to the Class S Notes, the Class A-1 Notes, the Class A-2 Notes, the Class A-1a Notes, the Class A-2a Notes, the Class A-1b Notes, the Class A-2b Notes, the Class A-1c Notes, the Class A-2c Notes, the Class A-1d Notes, the Class A-2d Notes, the Class B Notes, the Class C Notes, and the Class D Notes will be payable quarterly in arrears, commencing on the September 2007 Payment Date. LIBOR for the first Interest Accrual Period with respect to the Notes will be determined as of the second Business Day preceding the Closing Date. Calculations of interest on the Notes will be made based on a 360-day year and the actual number of days in each Interest Accrual Period. The Holders of the Income Notes will receive on each Payment Date any amount of Proceeds that are available for distribution therein in accordance with the Priority of Payments on such Payment Date. The “Interest Accrual Period,” is with respect to the Notes and any Payment Date, the period commencing on and including the immediately preceding Payment Date (or the Closing Date in the case of the first Interest Accrual Period) and ending on and including the day immediately preceding such Payment Date.

If funds are not available on any Payment Date to pay the full amount of Interest on the Class C Notes, or on the extent interest that is due on such Notes is not paid in order to satisfy certain Coverage Tests, the interest not paid (the “Class C Deferred Interest”), will not be due and payable on such Payment Date, but will be added to the principal amount of the Class C Notes and, to the extent lawful and enforceable, thereafter shall accrue interest at the Class C Note Interest Rate. Interest not paid (the “Class C Deferred Interest”), will not be due and payable on such Payment Date, but will be added to the principal amount of the Class C Notes and, to the extent lawful and enforceable, thereafter shall accrue interest at the Class C Note Interest Rate. If funds are not available on any Payment Date to pay the full amount of interest on the Class C Notes, or on the extent interest that is due on such Notes is not paid in order to satisfy certain Coverage Tests, the interest not paid (the “Class C Deferred Interest”), will not be due and payable on such Payment Date, but will be added to the principal amount of the Class C Notes and, to the extent lawful and enforceable, thereafter shall accrue interest at the Class C Note Interest Rate. The Class C Notes are outstanding, the failure to pay Interest to the Holders of the Class C Notes will not be an Event of Default under the Indenture and so long as any Class S Notes, Class A Notes, Class B Notes or Class C Notes are outstanding, the failure to pay Interest to the Holders of the Class C Notes will not be an Event of Default under the Indenture. See “—Priority of Payments” and “—The Indenture and the Fiscal Agency Agreement—Events of Default.”

Interest will cease to accrue on each Note from the date of repayment in full or Stated Maturity, or in the case of partial repayment, on such part, unless payment of principal is improperly withheld or unreasonably delayed or otherwise made with respect to such payments of principal. See “—Principal.” To the extent lawful and enforceable, interest on any Defeased Interest on such Class of Notes and/or thereof will accrue at the interest rate applicable to such Class of Notes, until paid as provided herein. “Defeased Interest” means any interest due and payable in respect of (i) any Class S Note, Class A Note or Class B

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825432
Footnote Exhibits - Page 5522

Note or (ii) there are no Class S Notes, Class A Notes or Class B Notes outstanding, any Class C Note or if there are no Class S Notes, Class A Notes, Class B Notes or Class C Notes outstanding, any Class D Note which, in any such case, is not punctually paid or duly provided for on the applicable Payment Date or at Stated Maturity, as the case may be.

Determination of LIBOR

For purposes of calculating each of the Note Interest Rates, the Issuers will appoint as agent The Bank of New York (in such capacity, the "Note Calculation Agent"). LIBOR shall be determined by the Note Calculation Agent in accordance with the following provisions:

(j) On the second Business Day prior to the commencement of an Interest Accrual Period (each such day, a "LIBOR Determination Date"), LIBOR ("LIBOR") shall equal the rate, as obtained by the Note Calculation Agent, for Eurodollar deposits for, with respect to Class S Notes, the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes, a three-month period (or, in the case of a designated Initial payment period of less than 25 days or, in the case of the first Interest Accrual Period, the linear interpolation thereof, calculated in accordance with generally acceptable methodology) which appears on Bridge Telerate Page 3750 (as Telerate is defined in the International Swaps and Derivatives Association, Inc. Annex to the 2006 ISDA Definitions (June 2000 version)), or such page as may replace Bridge Telerate Page 3750, as of 11:00 a.m. (London time) on such LIBOR Determination Date.

(k) If, on any LIBOR Determination Date, such rate does not appear on Bridge Telerate Page 3750, or such page as may replace Bridge Telerate Page 3750, the Note Calculation Agent shall determine the arithmetic mean of the offered quotations of the Reference Banks for leading banks in the London interbank market for Eurodollar deposits for, with respect to Class S Notes, the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes, a three month period (or, in the case of a designated Initial payment period of less than 25 days, or, in the case of the first Interest Accrual Period, the linear interpolation thereof, calculated in accordance with generally acceptable methodology) in an amount determined by the Note Calculation Agent by reference to requests for quotations as of approximately 11:00 a.m. (London time) on the LIBOR Determination Date made by the Note Calculation Agent to the Reference Banks. If, on any LIBOR Determination Date, at least two of the Reference Banks provide such quotations, LIBOR shall equal such arithmetic mean of such quotations. If, on any LIBOR Determination Date, only one or none of the Reference Banks provide such quotations, LIBOR shall be deemed to be the arithmetic mean of the offered quotations that leading banks in the City of New York selected by the Note Calculation Agent (after consultation with the Issuer or the Collateral Manager on behalf of the Issuer) are quoting on the relevant LIBOR Determination Date for Eurodollar deposits for the applicable period in an amount determined by the Note Calculation Agent (after consultation with the Issuer or the Collateral Manager on behalf of the Issuer) by reference to the principal London offices of leading banks in the London interbank market, provided, however, that if the Note Calculation Agent is required but is unable to determine a rate in accordance with at least one of the procedures provided above, LIBOR shall be LIBOR as determined on the most recent date LIBOR was available. As used herein, "Reference Banks" means four major banks in the London interbank market selected by the Note Calculation Agent (after consultation with the Issuer or the Collateral Manager on behalf of the Issuer).

As soon as possible after 11:00 a.m. (New York time) on each LIBOR Determination Date, but in no event later than 11:00 a.m. (New York time) on the Business Day immediately following each LIBOR Determination Date, the Note Calculation Agent will cause notice of each of the Note Interest Rates for the next Interest Accrual Period and the amount of interest for such Interest Accrual Period payable in respect of each U.S.$1,000 principal amount of the Class S-1 Notes (the "Class S-1 Note Interest Amount"), of the Class S-2 Notes (the "Class S-2 Note Interest Amount"), of the Class S-1a Notes (the "Class S-1a Note Interest Amount"), of the Class A-1b Notes (the "Class A-1b Note Interest Amount"), of the Class A-1c Notes (the "Class A-1c Note Interest Amount"), of the Class A-1d Notes (the "Class A-1d Note Interest Amount"), of the Class A-2 Notes (the "Class A-2 Note Interest Amount"), of the Class B Notes (the "Class B Note Interest Amount") and of the Class C Notes (the "Class C Note Interest Amount") (each rounded to the nearest cent, with half a cent being rounded upward) on the related Payment Date.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825433
to be communicated to the Issuers, DTC, Euroclear, Creditem, the Note Paying Agent, the Trustee, the Collateral Manager, the Securities Intermediary and the Listing and Paying Agent for further delivery to any stock exchange so long as any of the Notes are listed thereon. In the last case, the Note Calculation Agent will furnish such information as soon as possible after its determination to the Listing and Paying Agent as long as any Notes are listed on any stock exchange. The Note Calculation Agent will also specify to the Issuers and the Collateral Manager the quotations upon which each of the Note Interest Rates are based. The Note Calculation Agent shall notify the Issuers and the Collateral Manager before 12:00 p.m. (New York time) on any LIBOR Determination Date if it has not determined and is not in the process of determining the applicable Note Interest Rates and Note Interest Amounts (collectively, the "Interest Calculations"), together with its reasons therefor. With respect to the Notes, "Business Day" means any day other than (a) Saturday or Sunday or (b) a day on which commercial banking institutions are authorized or obligated by law, regulation or executive order to close in New York, New York, London, England or in the city of the Trustee's corporate trust office (initially, The Bank of New York, 101 Barclay Street, Floor 6E, New York, New York, 10286; Attention: CDO Transaction Management Group); provided, however, that for the sole purpose of determining LIBOR, "Business Day" shall be defined as any day on which dealings in deposits in U.S. Dollars are transacted in the London interbank market and provided further, that to the extent action is required of the Listing and Paying Agent, the location of the Listing and Paying Agent shall be considered in determining the "Business Day" for purposes of determining when such Listing and Paying Agent action is required.

The Note Calculation Agent may be removed by the Issuers at the direction of the Collateral Manager at any time. If the Note Calculation Agent is unable or unwilling to act as such or is removed by the Issuers, or if the Note Calculation Agent fails to determine the applicable Interest Calculations for any Interest Accrual Period, the Issuers will promptly appoint as a replacement Note Calculation Agent a leading bank which is engaged in transactions in Eurodollar deposits in the international Eurodollar market and which does not control or is not controlled by or under common control with the Issuers or their affiliates. The Note Calculation Agent may not resign its duties without a successor having been duly appointed. In addition, for so long as any Notes are listed on any stock exchange and the rules of such exchange so require, notice of the appointment of any Note Calculation Agent will be furnished to such stock exchange. For so long as any of the Notes remain outstanding, there will at all times be a Note Calculation Agent for the purpose of calculating the applicable Interest Calculations. The determination of the applicable Interest Calculations by the Note Calculation Agent shall (in the absence of manifest error) be final and binding upon all parties.

Payments on Income Notes

On each Payment Date, the Holders of the Income Notes will be entitled to receive, as interest on the Income Notes, payment of amounts equal to the amounts remaining, after payment of all other senior payments (if applicable) and due on the Notes (other than the Notes that are the Class S Notes and the Class A-1 Notes) and the Income Notes, of the Class S Notes. The Class S Notes will mature on the Payment Date in September 2011 (the "Stated Maturity with respect to the Class S Notes"), the Class A-1a Notes and the Class A-1b Notes will mature on the Payment Date on December 2004 (the "Stated Maturity with respect to the Class A-1a Notes and the Class A-1b Notes") and the Class A-1c Notes and the Class A-1d Notes will mature on the Payment Date in September 2011 (the "Stated Maturity with respect to the Class S Notes and the Class A-1 Notes") and the Income Notes, the Class S Notes will mature on the Payment Date in September 2011 (the "Stated Maturity with respect to the Class S Notes"), the Class A-1a Notes and the Class A-1b Notes will mature on the Payment Date in December 2004 (the "Stated Maturity with respect to the Class A-1a Notes and the Class A-1b Notes") and the Class A-1c Notes and the Class A-1d Notes will mature on the Payment Date in September 2011 (the "Stated Maturity with respect to the Class S Notes and the Class A-1 Notes") and the Income Notes, the Class S Notes will mature on the Payment Date in September 2011 (the "Stated Maturity with respect to the Class S Notes"), the Class A-1a Notes and the Class A-1b Notes will mature on the Payment Date in December 2004 (the "Stated Maturity with respect to the Class A-1a Notes and the Class A-1b Notes") and the Class A-1c Notes and the Class A-1d Notes will mature on the Payment Date in September 2011 (the "Stated Maturity with respect to the Class S Notes and the Class A-1 Notes") and the Income Notes, the Class S Notes will mature on the Payment Date in September 2011 (the "Stated Maturity with respect to the Class S Notes"), the Class A-1a Notes and the Class A-1b Notes will mature on the Payment Date in December 2004 (the "Stated Maturity with respect to the Class A-1a Notes and the Class A-1b Notes") and the Class A-1c Notes and the Class A-1d Notes will mature on the Payment Date in September 2011 (the "Stated

Confidential TreatmentRequested by Goldman Sachs

GS MBS-E-021825434
Maturity" with respect to the Class A-1c Notes and the Class A-1d Notes). The average life of each Class of Notes (other than the Class S Notes) and duration of the Income Notes is expected to be substantially shorter than the number of years from issuance until the Stated Maturity for such Class of Notes or Income Notes. See "Risk Factors—Securities—Average Lives, Duration and Prepayment Considerations."

Principal will be payable on the Class S-1 Notes in accordance with the Priority of Payments on each Payment Date commencing on the Payment Date occurring in December 2007 in an amount equal to the Class S-1 Notes Amortizing Principal Amount with respect to such Payment Data and, if an Event of Default or Tax Event has occurred and is continuing or an Optional Redemption by Liquidation or successful Auction has occurred and the Collateral is being liquidated pursuant to the terms of the Indenture, the Class S-1 Notes will be paid in full prior to any distributions to any other Notes. Principal will be payable on the Class S-2 Notes in accordance with the Priority of Payments on each Payment Date commencing on the Payment Date occurring in December 2007 in an amount equal to the Class S-2 Notes Amortizing Principal Amount with respect to such Payment Date and, if an Event of Default or Tax Event has occurred and is continuing or an Optional Redemption by Liquidation or successful Auction has occurred and the Collateral is being liquidated pursuant to the terms of the Indenture, the Class S-2 Notes will be paid in full prior to any distributions to any other Notes (other than the Class S-1 Notes and the Class A-1 Notes). The Class S-2 Notes are subject to mandatory redemption if the Class A/B Overcollateralization Test is not satisfied on any date of determination. Principal will be payable on certain of the Securities on each Payment Date in accordance with the Priority of Payments.

On any Payment Date on which certain conditions are satisfied, principal will be paid to the Holders of the Class A Notes (pro rata between the Class A-1 Notes and the Class A-2 Notes, provided that principal on the Class A-1 Notes will be paid in accordance with the Class A-1 Note Payment Sequence), only in an amount required to increase (or maintain) the Class A Adjusted Overcollateralization Ratio to a specified target of 126.7%. After achieving and maintaining such target and minimum, the payment of remaining principal will shift to the Holders of the Class B Notes until such Holders have been paid an amount required to increase (or maintain) the Class B Adjusted Overcollateralization Ratio to the specified target of 110.6%. After achieving and maintaining such target level, the payment of remaining principal shifts to the Holders of the Class C Notes which will receive principal only in an amount required to increase (or maintain) the Class C Adjusted Overcollateralization Ratio to a specified target of 100.0%. After achieving and maintaining such target level, the payment of remaining principal shifts to the Holders of the Class D Notes which will receive principal only in an amount required to increase (or maintain) the Class D Adjusted Overcollateralization Ratio to a specified target of 102.7%. However, if the Net Outstanding Portfolio Collateral Balance is less than U.S.$300,000,000, then only Principal Proceeds received or held during the related Due Period will be paid, first, to the Class A-1 Notes in accordance with the Class A-1 Note Payment Sequence and then sequentially through the Class D Notes. The foregoing "shifting principal" method permits Holders of the Class A-1 Notes, the Class A-2 Notes, the Class B Notes, the Class C Notes and the Class D Notes to receive payments of principal in accordance with the Priority of Payments while more senior Classes of Notes remain outstanding and permits distributions of Principal Proceeds to the Holders the Income Notes, to the extent funds are available in accordance with the Priority of Payments, while Notes are outstanding.

Subject to the availability of funds therefor in accordance with the Priority of Payments, if any of the Coverage Tests are not satisfied on any Determination Date, the Notes (other than the Class S-1 Notes) will be subject to mandatory redemption on the related Payment Date until paid in full. See "—Mandatory Redemption" and the Priority of Payments for a description of the order in which such Notes are paid in connection with the failure of a Coverage Test.

Stated Maturity of the Income Notes

On or prior to the date that is one Business Day prior to the end of the Due Period applicable to the Stated Maturity of the Income Notes, the Collateral Manager will sell all remaining Collateral. The settlement dates for any such sales shall be no later than one Business Day prior to the end of such Due

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825435
Period. The proceeds of such sales will be paid to the Fiscal Agent after the payment of amounts senior to the Holders of the Income Notes in the Priority of Payments for deposit into the account maintained therefor by the Fiscal Agent (the "Income Note Payment Account") and payment to the Holders of the Income Notes as the redemption price for the Income Notes upon such payment (the "Income Notes Redemption Price"). Upon such payment, the Issuer shall redeem the Income Notes.

Auction

Sixty days prior to the Payment Date occurring in September of each year (each, an "Auction Date") commencing on the September 2015 Payment Date, the Collateral Manager will take steps to conduct an auction (the "Auction") of the Collateral in accordance with procedures specified in the Indenture. If the Collateral Manager receives one or more bids from Eligible Bidders not later than ten Business Days prior to the Auction Date equal to or greater than the Minimum Bid Amount, the Issuer will sell the Collateral for settlement on or before the 15th Business Day prior to such Auction Date and the Notes will be redeemed in whole on such Auction Date (any such date, an "Auction Payment Date"). If a successful Auction occurs, the Income Notes will also be redeemed in full. The Collateral Manager and its affiliates shall be considered Eligible Bidders. If the highest single bid on the entire portfolio of Collateral, or the aggregate amount of multiple bids with respect to individual items of Collateral, does not equal or exceed the Minimum Bid Amount or if there is a failure at settlement, then the redemption of Notes and the Income Notes on the related Auction Date will not occur.

The Notes will be redeemed following a successful Auction in accordance with the Priority of Payments at the applicable Redemption Price. The amount distributable as the final payment on the Income Notes following any such redemption will equal any amount remaining after the redemption of the Notes, the payment of any amounts due in connection with the termination of the Cashflow Swap Agreement and Synthetic Securities and the payment of all expenses in accordance with the Priority of Payments.

Tax Redemption

Subject to certain conditions described herein, the Securities may be redeemed by the Issuer at any time. In whole but not in part upon the occurrence of a Tax Event at their Redemption Prices at the written direction of, or with the written consent of, (i) the Holders of at least 66 2/3% of the aggregate outstanding notional principal amount of the affected Income Notes or (ii) the Holders of a Majority of any Class of Notes which, as a result of the occurrence of a Tax Event, has not received 100% of the aggregate amount of principal and interest or other amounts then due and payable on such Notes (the "Tax Redemption Price"); provided that no such redemption shall be effected unless the expected Liquidation Proceeds equal or exceed the sum of all amounts due as of the Redemption Date pursuant to clauses (i) through (v) of the Priority of Payments for Final Payment Dates (the "Total Redemption Amount"), which includes the Redemption Prices of the Notes. If a Tax Redemption occurs, the Income Notes will be redeemed simultaneously.

In connection with a Tax Redemption, the Issuer (to the extent of the applicable Taxes) shall notify the Trustee of such Tax Redemption and the Payment Date which is the date for redemption (the "Tax Redemption Date") and direct the Trustee, in writing, to sell, in the manner determined by the Collateral Manager, and in accordance with the Indenture, any Collateral and upon any such sale the Trustee shall release the lien upon such Collateral pursuant to the Indenture; provided, however, that the Issuer may not direct the Trustee to sell (and the Trustee shall not be obligated to release the lien upon) any Collateral except in accordance with the procedures set forth in the Indenture including, without limitation, the requirement that the Collateral Manager shall have forwarded to the Trustee binding agreements or certificates evidencing that the Liquidation Proceeds anticipated from the disposition of the Collateral and other assets of the Issuer will equal or exceed the Total Redemption Amount. Liquidation Proceeds available for distribution in connection with a Tax Redemption will be reduced by the amount of expected termination payments (other than Defaulted Synthetic Security Terminating Payments) due to the Synthetic Security Counterparty.
The amount payable in connection with any Tax Redemption of the Notes will equal the Total Redemption Amount. The amount payable as a final payment on the Income Notes following any Tax Redemption will equal the Liquidation Proceeds, if any, remaining after the distribution of the Total Redemption Amount by the Issuer in accordance with the Priority of Payments.

Optional Redemption by Liquidation

Subject to certain conditions described herein, the Notes may be redeemed by the Issuer and the Income Notes may be redeemed by the Issuer, in whole but not in part, at their Redemption Prices on any Payment Date or on or after the March 2010 Payment Date, at the written direction of, or with the written consent of, the Holders of at least a Majority of the aggregate outstanding notional principal amount of Income Notes (including Income Notes held by the Collateral Manager or any affiliate thereof) (such redemption, an "Optional Redemption" or an "Optional Redemption by Liquidation"); provided that no Optional Redemption by Liquidation shall be effected unless the expected Liquidation Proceeds would equal or exceed the Total Redemption Amount. If the Holders of the Income Notes so elect to cause an Optional Redemption by Liquidation, the Income Notes will be redeemed simultaneously.

In connection with an Optional Redemption by Liquidation, the Issuer (in the case of the Notes) and the Issuer (in the case of the Income Notes) shall notify the Trustee of such Optional Redemption by Liquidation and the Optional Redemption Date and direct the Trustee, in writing, to sell, in the manner determined by the Collateral Manager, and in accordance with the Indenture, any Collateral Asset and upon any such sale the Trustee shall release the lien upon such Collateral Assets pursuant to the Indenture; provided, however, that the Issuer may not direct the Trustee to sell (and the Trustee shall not be obligated to release the lien upon) any Collateral except in accordance with the procedures set forth in the Indenture including, without limitation, the requirement that the Collateral Manager shall have forwarded to the Trustee binding agreements or certificates evidencing that the Liquidation Proceeds anticipated from the disposition of the Collateral Assets and other assets of the Issuer will equal or exceed the Total Redemption Amount. Amounts available for distribution in connection with an Optional Redemption by Liquidation will be reduced by the amount of expected termination payments (other than Defaulted Synthetic Security Termination Payments) due to the Synthetic Security Counterparty.

The amount payable in connection with any Optional Redemption by Liquidation of the Notes will equal the Total Redemption Amount. The amount payable as the final payment on the Income Notes following any Optional Redemption by Liquidation will equal the Liquidation Proceeds, if any, remaining after the distribution of the Total Redemption Amount by the Issuer in accordance with the Priority of Payments.

Optional Redemption by Refinancing

Subject to certain conditions described herein, any Class of Class Notes may be redeemed by the Issuer from the net cash proceeds (the "Refinancing Proceeds") of a loan, credit or similar facility or an issuance of replacement notes, from or to one or more financial institutions or purchasers, in whole but not in part, on any Payment Date or on or after the Optional Redemption Date, at the written direction of, or with the written consent of, the Holders of at least a Majority of the Income Notes (an "Optional Redemption" or an "Optional Redemption by Refinancing"). The Issuer will conduct an Optional Redemption by Refinancing only if the Collateral Manager determines that: (i) the principal amount of any obligations providing the funds to be applied in respect of such Optional Redemption by Refinancing is no greater than the principal amount of the Notes being redeemed; (ii) the stated maturity of the obligations providing the funds to be applied in respect of such Optional Redemption by Refinancing is no earlier than the Stated Maturity of the Notes being redeemed; (iii) the agreements relating to the Optional Redemption by Refinancing contain limited-recourse and non-petition provisions equivalent to those set forth in the Indenture; (iv) the proceeds from the Optional Redemption by Refinancing will be at least sufficient to pay in full the Aggregate Outstanding Amount of the applicable Notes; (v) amounts are expected to be available in accordance with the Priority of Payments on the Payment Date related to such Optional Redemption by Refinancing; (a) to pay any fees and administrative expenses of the Issuer related to the Optional Redemption by Refinancing, (b) to pay any accrued and unpaid interest on the Notes being

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825437
redeemed (including Defaulted Interest and interest on Defaulted Interest) and (c) to pay any "Cashflow Swap Shortfall Amounts" (as such term is defined in the Cashflow Swap Agreement) that have been paid by the Cashflow Swap Counterparty under the Cashflow Swap Agreement but that have not been paid to the Cashflow Swap Counterparty (plus any accrued and unpaid interest thereon) pursuant to the Priority of Payments; (vii) the Refinancing Proceeds will be used (to the extent necessary) to redeem the applicable Notes; (viii) such Optional Redemption by Refinancing will not cause an Event of Default; and (ix) the Rating Agency Condition for each Rating Agency shall be satisfied (other than with respect to the Notes being redeemed). If any Holder of an Income Note to elect such Holder may pay all or a portion (pro rata with any other electing Holder of an Income Note) of the amounts required under clause (v) above directly as opposed to requiring that such amounts be paid through funds available in accordance with the Priority of Payments on the Payment Date related to the Optional Redemption by Refinancing. If any Holder of an Income Note so elects, the amounts due shall be remitted to the Trustee at least two days prior to the related Payment Date. Any such amounts paid by the Holders of the Income Notes will not be reimbursed by the Issuer. Any Refinancing Proceeds will be applied directly on the related Optional Redemption Date pursuant to the Indenture to redeem the Notes being refinanced without regard to the Priority of Payments described herein. Any Refinancing Proceeds that are not used to redeem the applicable Notes and to pay any administrative expenses of the Issuer will be treated as Principal Proceeds and will be applied in accordance with the Priority of Payments. None of the Issuers, the Trustee or any other Person will be liable to the Holders of the Income Notes for the failure to issue additional notes or to obtain secured loans.

Optional Redemption/Tax Redeem Procedure. To conduct an Optional Redemption or a Tax Redemption, the procedures set forth in the Indenture must be followed and any conditions precedent thereto must be satisfied.

Upon the occurrence of a Tax Redemption or an Optional Redemption, the Collateral Manager shall notify the Principal Note Paying Agent, in the case of the Holders of Notes or the Fiscal Agent, in the case of Holders of Income Notes, which in each case, shall notify the Trustee (with a copy to the Issuer) by written notice no less than thirty (30) Business Days prior to the Redemption Date. Such notice shall be irrevocable. The Fiscal Agent shall, within three (3) Business Days after receiving such notice, notify the other Holders of the Income Notes of the receipt of such notice.

The Trustee will provide notice of any Optional Redemption or Tax Redemption by first-class mail, postage prepaid, mailed not less than ten (10) Business Days prior to the scheduled Redemption Date or Optional Redemption Date, as applicable, to the Principal Note Paying Agent, to the Fiscal Agent, to each Cashflow Swap Counterparty, to each Noteholder at such Holder's address in the register maintained by the Note Registrar under the Indenture and to each Holder of an Income Note at such Holder's address in the income note register maintained pursuant to the Fiscal Agency Agreement and, as long as any Notes or Income Notes are listed on any stock exchange, the Trustee will also provide notice to the Listing and Paying Agent.

Notes called for redemption must be surrendered at the office of any paying agent appointed under the Indenture in order to receive the Redemption Price. The initial paying agents for the Notes are The Bank of New York, as Principal Note Paying Agent, and, so long as any Notes are listed on a stock exchange, The Trustee, the Fiscal Agent, the Listing and Paying Agent.

Income Notes called for redemption must be surrendered at the office of any paying agent appointed under the Fiscal Agency Agreement in order to receive final payments, if any, thereon. The initial paying agent for the Income Notes is The Bank of New York, New York Branch.

Any such notice of redemption may be withdrawn by the Issuers (with respect to the Notes) and the Issuer (with respect to the Income Notes) on or prior to the seventh Business Day prior to the scheduled redemption date by written notice from the Issuers to the Collateral Manager, the Trustee, each Cashflow Swap Counterparty, the Rating Agencie, the Holders of the Notes and the Holders of the Income Notes, but only if the Collateral Manager shall be unable to deliver the sale agreement or agreements or certificates or, in the case of an Optional Redemption by Refinancing, the loan, credit or

Confidential Treatment Requested by Goldman Sachs

GS M55-E-021625436
similar facility, required by the Indenture, in form satisfactory to the Trustee. The Cashflow Swap Agreement will not terminate upon notice to the respective counterparties of redemption until the time for withdrawal of notice has expired. The Collateral Manager shall be liable only for the failure to effect an Optional Redemption or Tax Redemption due to the Collateral Manager’s gross negligence or willful misconduct. Notice of any such withdrawal shall be given at the issuer’s expense by the Trustee to each Holder of a Security at the address appearing in the applicable register maintained by the Note Transfer Agent under the Indenture of the Income Note Registrar under the Fiscal Agency Agreement, as applicable, by overnight courier guaranteeing next day delivery sent not later than the third Business Day prior to the scheduled redemption date. The Trustee or the Fiscal Agent will also give notice to the Listing and Paying Agent of the stock exchange if any Securities are then held on a stock exchange.

Mandatory Redemption

On any Payment Date on which the Class A/B Overcollateralization Test was not satisfied on the last Business Day of the immediately preceding Due Period (such Business Day, the “Determination Date”), without giving effect to amounts payable under clauses (vii), (x) and (xi) of the Priority of Payments, Proceeds will be used to redeem the Class A-1 Notes in accordance with the Class A-1 Note Payment Sequence until the Class A-1 Notes have been paid in full, then to redeem the Class S-2 Notes until the Class S-2 Notes have been paid in full, then to redeem the Class A-2 Notes until the Class A-2 Notes have been paid in full and then to redeem the Class B Notes until the Class B Notes have been paid in full.

On any Payment Date on which the Class C Overcollateralization Test was not satisfied on the related Determination Date, without giving effect to amounts payable under clauses (a) and (vii) of the Priority of Payments, Principal Proceeds will be used to redeem the Class A-Notes (in accordance with the Class A-1 Note Payment Sequence), the Class B Notes and the Class C Notes, pro rata, until paid in full provided, however, that if the Net Outstanding Portfolio Collateral Balance is less than U.S. $500,000,000, then such amount shall be paid first, to the payment of principal of all outstanding Class A-1 Notes (pursuant to the Class A-1 Note Payment Sequence), second, to the payment of principal of all outstanding Class B Notes and fourth, to the payment of principal of all outstanding Class C Notes, and any remaining Proceeds will be used to redeem the Class C Notes until the Class C Notes have been paid in full.

On any Payment Date on which the Class D Overcollateralization Test (together with the Class A/B Overcollateralization Test and the Class C Overcollateralization Test the “Coverage Tests”) was not satisfied on the related Determination Date, Proceeds net of amounts payable under clauses (i) through (xii) of the Priority of Payments will be used to redeem the Class D Notes until the Class D Notes have been paid in full.

The Class S-1 Notes, the Class C Notes, the Class D Notes and the Income Notes will not be subject to mandatory redemption as a result of the failure of the Class A/B Overcollateralization Test. The Class B Notes, the Class D Notes and the Income Notes will not be subject to mandatory redemption as a result of the failure of the Class C Overcollateralization Test. The Class S Notes, the Class A Notes, the Class B Notes, the Class C Notes and the Income Notes will not be subject to mandatory redemption as a result of the failure of any Class D Overcollateralization Test.

Cancellation

All Notes and Income Notes that are redeemed or paid and surrendered for cancellation as described herein will forthwith be canceled and may not be reissued or resold.

Payments

Payments on any Payment Date in respect of principal of and Interest on the Notes issued as Global Notes will be made to the person in whose name the relevant Global Note is registered at the close of business on the Business Day prior to such Payment Date. For the Securities issued in definitive
form, payments on any Payment Date in respect of principal, interest and other distributions will be made to the Person in whose name the relevant Security is registered as of the close of business 10 Business Days prior to such Payment Date. Payments on the Global Notes will be payable by wire transfer in immediately available funds to a U.S. Dollar account maintained by DTC or its nominees (in the case of the Global Notes) or each Holder (in the case of Individual Definitive Notes) to the extent practicable or otherwise by U.S. Dollar check drawn on a bank in the United States sent by mail either to DTC or its nominees (in the case of the Global Notes), or to each Holder at its address appearing in the applicable register. Final payments in respect of principal on the Notes will be made only against surrender of the Notes at the office of any paying agent. None of the Issuers, the Securities Intermediary, the Trustee, the Collateral Manager, the Cashflow Swap Counterparty or any paying agent will have any responsibility or liability for any aspects of the records maintained by DTC or its nominees or any of its participants relating to, or for payments made thereby on account of beneficial interests in, a Global Note.

The Issuers expect that DTC or its nominees, upon receipt of any payment of principal or interest in respect of a Global Note held by DTC or its nominee, will immediately credit participants’ accounts with payments in amounts proportionate to their respective beneficial interests in such Global Notes as shown on the records of DTC or its nominee. The Issuers also expect that payments by participants to owners of beneficial interests in such Global Notes held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

If any payment on a Security is due on a day that is not a Business Day, then payment will not be made until the next succeeding Business Day.

For so long as the Securities are listed on any stock exchange and the rules of such exchange so require, the Issuers will have a paying agent and a transfer agent (which shall be the Listing and Paying Agent) for such Securities and payments on and transfers or exchanges of interest in such Securities may be effected through the Listing and Paying Agent. In the event that the Listing and Paying Agent is replaced at any time during such period, notice of the appointment of any replacement will be given to the applicable stock exchange as long as any Securities are listed thereon.

Priority of Payments

With respect to any Payment Date, all Proceeds received on the Collateral during the related Due Period will be applied by the Trustees in the priority set forth below (the “Priority of Payments”). For purposes of the Priority of Payments, amounts paid as interest, fees or distributions on the Notes on a “pro rata” basis shall be pro rata based on the amount of interest due on such Class or subclass of Notes or on any amounts paid as principal shall be paid pro rata based on the amount of principal outstanding on such Class or subclass of Notes and unless stated otherwise, Proceeds not constituting Principal Proceeds will be assumed to be applied prior to any Principal Proceeds.

Two Business Days prior to each Payment Date, to the extent there is a positive Aggregate Amortization Amount determined as of the related Determination Date, an amount (in cash or, at the option of the Trustee, by applying cash on deposit in the Default Swap Collateral Account and third-party Collateral Account or by the Issuer of the Notes) in the manner described above as “principal, second, by liquidating Eligible Investments in the Default Swap Collateral Account and third-party Collateral Account” shall be applied as limited to the extent necessary to make payments under the Notes and Trust Indenture Agreement as of the Related Payment Date.

On the Business Day prior to each Payment Date, the Trustee will transfer all funds held in the Collection Account (other than amounts received after the end of the related Due Period) into the Payment Account. On each Payment Date (other than a Final Payment Date), the Trustee will transfer all funds held in the Collection Account (other than amounts received after the end of the related Due Period) into the Payment Account. On each Payment Date (other than a Final Payment Date), the Trustee will transfer all funds held in the Collection Account (other than amounts received after the end of the related Due Period) into the Payment Account.
Payment Date, amounts in the Payment Account and any payments received from the Cashflow Swap Counterparty since the previous Payment Date will be applied by the Trustees in the manner and order of priority set forth below:

i. to the payment of taxes and filing and registration fees (including, without limitation, annual return fees) owed by the Issuers, if any;

ii. to the payment of accrued and unpaid fees of the Trustee up to a maximum amount on any Payment Date equal to the greater of U.S. $12,082.50 and 0.0018125% of the Quarterly Asset Amount for the related Due Period or, in the case of the first Due Period, as such amounts are adjusted based on the number of days in such Due Period;

iii. (a) first, to the payment of any remaining accrued and unpaid Administrative Expenses of the Issuers, excluding any indemnities (and legal expenses related thereto) payable by the Issuers first, to the Trustee, the Collateral Administrator and the Fiscal Agent and second, pro rata, to any other parties entitled thereto; (b) second, to the payment of any indemnities (and legal expenses related thereto) payable by the Issuers first, to the Trustee, the Collateral Administrator, the Fiscal Agent and second, pro rata, to any other parties entitled thereto; and (c) third, to the Expense Reserve Account the lesser of U.S. $50,000 and the amount necessary to bring the balance of such account to U.S. $200,000, provided, however, that the aggregate payments pursuant to subclauses (a) through (c) of this clause (iii) on any Payment Date shall not exceed U.S. $250,000 and the aggregate payments pursuant to subclauses (a) and (b) of this clause (iii) on the current and prior three Payment Dates shall not exceed U.S. $300,000;

iv. to the payment of (a) first, pro rata (based on amounts due) (i) amounts, if any, to be paid to the Cashflow Swap Counterparty pursuant to the Cashflow Swap Agreement including termination and partial termination payments (other than Defeated Cashflow Swap Termination Payments payable under clause (viii) below) and including on any Payment Date related to an Optional Redemption by refinancing all "Cashflow Swap Amounts" that have been advanced by the Cashflow Swap Counterparty under the Cashflow Swap Agreement but that have not been repaid plus accrued and unpaid interest thereon, (ii) accrued and unpaid interest on the Class S-1 Notes (including Defeated Interest and Defaulted Interest) and (iii) beginning with the Payment Date occurring in December 2007, principal of the Class S-1 Notes in an amount equal to the Class S-1 Notes Amortizing Principal Amount until the Class S-1 Notes are paid in full and (b) second, if an Event of Default or a Tax Event shall have occurred and is continuing or an Optional Redemption by Liquidation or a successful Auction has occurred and the Collateral Assets are being liquidated pursuant to the terms of the Indenture, to the payment of principal of the Class S-1 Notes until the Class S-1 Notes are paid in full;

v. to the payment, pro rata based on the amount due (a), to the Collateral Manager of the accrued and unpaid Collateral Management Fee, plus interest due on any portion of such Collateral Management Fee not paid on a prior Payment Date at a rate equal to LIBOR (excluding any portion thereof included in any Cumulative Deferred Management Fees that were not paid on a previous Payment Date); provided, however, the Collateral Manager may at its option defer all or a portion of such Collateral Management Fee (the amount, if any, so deferred on such Payment Date to be included in the Current Deferred Management Fee on such date) and (b) to the payment to the Initial Purchaser of any unpaid Deferred Structuring Expense, plus interest due on any portion of the Deferred Structuring Expense not paid on the prior Payment Date at a rate equal to LIBOR;

vi. to the payment of (a) first, pro rata, (i) accrued and unpaid interest on the Class A-1 Notes (including any Defaulted Interest and Interest thereon), (ii) accrued and unpaid interest on the Class A-2 Notes (including any Defaulted Interest and Interest thereon),
Footnote Exhibits - Page 5531

and (b) accrued and unpaid interest on the Class S-2 Notes (including any Defaulted Interest and any interest thereon), and (b) second, accrued and unpaid interest on the Class B Notes (including any Defaulted Interest and any interest thereon);

vii. if the Class A/B Overcollateralization Test is not satisfied on the Determination Date with respect to the related Payment Date after giving effect to all payments of principal on such Payment Date (without giving effect to any payments pursuant to this clause (vii) or clauses (v) and (vi) below), first, to the payment of principal of all outstanding Class A-1 Notes in accordance with the Class A-1 Note Payment Sequence until the Class A-1 Notes are paid in full, second, to the payment of principal of all outstanding Class S-2 Notes until the Class S-2 Notes are paid in full, third, to the payment of principal of all outstanding Class A-2 Notes until the Class A-2 Notes are paid in full, and fourth, to the payment of principal of all outstanding Class B Notes until the Class B Notes are paid in full;

viii. To the payment of (a) beginning with the Payment Date occurring in December 2007, principal of the Class S-2 Notes in an amount equal to the Class S-2 Notes Amortizing Principal Amount until the Class S-2 Notes are paid in full, and (b) if an Event of Default or a Tax Event shall have occurred and is continuing or an Optional Redemption by Liquidation or successful Auction has occurred and the Collateral Assets are being liquidated pursuant to the terms of the Indenture, principal of the Class S-2 Notes until the Class S-2 Notes are paid in full;

ix. to the payment of accrued and unpaid interest on the Class C Notes (including Defaulted Interest and any interest thereon but not including Class C Deferred Interest);

x. if the Class C Overcollateralization Test is not satisfied on the Determination Date with respect to the related Payment Date after giving effect to all payments of principal on such Payment Date (without giving effect to any payments pursuant to this clause (x) or clause (xii) below), then, (a) pro rata, Principal Proceeds only (i) to the payment of principal of all outstanding Class A-1 Notes in accordance with the Class A-1 Note Payment Sequence, (ii) to the payment of principal of all outstanding Class A-2 Notes, (iii) to the payment of principal of all outstanding Class B Notes and (iv) to the payment of principal of all outstanding Class C Notes, until the Class A-1 Notes, the Class A-2 Notes, the Class B Notes, and the Class C Notes are paid in full, provided, however, that if the Net Outstanding Portfolio Collateral Balance is less than U.S.$500,000,000, then such amount shall be paid first, to the payment of principal of all outstanding Class A-1 Notes in accordance with the Class A-1 Note Payment Sequence until the Class A-1 Notes are paid in full, second, to the payment of principal of all outstanding Class A-2 Notes until the Class A-2 Notes are paid in full, third, to the payment of principal of all outstanding Class B Notes until the Class B Notes are paid in full and fourth, to the payment of principal of all outstanding Class C Notes until the Class C Notes are paid in full; and (b) any remaining Proceeds to the payment of principal of all outstanding Class C Notes until the Class C Notes are paid in full;

xi. to the payment of accrued and unpaid interest on the Class D Notes (including Defaulted Interest and any interest thereon but not including Class D Deferred Interest);

xii. to the payment of principal of first, pro rata, the Class A Notes up to the amount specified in clause (b)(11) below (provided, that the Class A-1 Notes shall be paid in accordance with the Class A-1 Note Payment Sequence), second, the Class B Notes up to the amount specified in clause (b)(12) below, third, the Class C Notes up to the amount specified in clause (b)(13) below and fourth, the Class D Notes up to the amount specified in clause (b)(14) below in an aggregate amount equal to the lesser of (a) Principal Proceeds received or held during the related Due Period, and (b) the sum of (i) the amount necessary to increase the Class A Adjusted Overcollateralization Ratio to or
1461

Footnote Exhibits - Page 5532

maintain it at 126.7%, plus (2) the amount necessary to increase the Class B Adjusted Overcollateralization Ratio to or maintain it at 110.6%, plus (3) the amount necessary to increase the Class C Adjusted Overcollateralization Ratio to or maintain it at 105.9%, plus (4) the amount necessary to increase the Class D Adjusted Overcollateralization Ratio to or maintain it at 102.7%; provided, however, that if the Net Outstanding Portfolio Collateral Balance is less than U.S.$300,000,000, then only the amount described in subclause (a) of this clause (xii) will be paid, such amount to be allocated, first, to the payment of principal of all outstanding Class A-1 Notes in accordance with the Class A-1 Note Payment Sequence, second, to the payment of principal of all outstanding Class A-2 Notes, third, to the payment of principal of all outstanding Class B Notes, fourth, to the payment of principal of all outstanding Class C Notes, and fifth, to the payment of principal of all outstanding Class D Notes, until the Class A Notes, the Class B Notes, the Class C Notes, and the Class D Notes are paid in full;

xiii. if the Class D Overcollateralization Test is not satisfied on the Determination Date with respect to the related Payment Date after giving effect to all payments of principal on such Payment Date (without giving effect to any payments pursuant to this clause (xiii)) then to the payment of principal of all outstanding Class D Notes until the Class D Notes are paid in full;

xiv. to the payment to the Collateral Manager of the Cumulative Deferral Management Fee (or any portion thereof as directed by the Collateral Manager);

xv. first, to the payment of principal of the Class B Notes in an amount equal to that portion of the principal of the Class B Notes comprised of Class B Deferral Interest unpaid after giving effect to payments under clauses (x) and (xiii) above (amounts will be considered unpaid for this purpose if the principal balance of the Class B Notes after giving effect to clauses (x) and (xiii) above exceeds any previous lowest amount outstanding) and second, to the payment of principal of the Class D Notes in an amount equal to that portion of the principal of the Class D Notes comprised of Class D Deferral Interest unpaid after giving effect to payments under clauses (xii) and (xiii) above (amounts will be considered unpaid for this purpose if the principal balance of the Class D Notes after giving effect to clauses (xii) and (xiii) above exceeds any previous lowest amount outstanding);

xvi. after the Payment Date occurring in September 2015, first, to the payment of principal of all outstanding Class C Notes until the Class C Notes are paid in full, and second, to the payment of principal of all outstanding Class D Notes until the Class D Notes are paid in full;

xvii. to the payment of principal of the Class D Notes in an amount equal to the Class D Notes Amortizing Principal Amount;

xviii. to the payment of, pro rata, any Defaulted Cashflow Swap Termination Payments, with respect to the Cashflow Swap Agreement, pro rata, based on the amount owed and Defaulted Synthetic Security Termination Payments, with respect to the Synthetic Securities, pro rata, based on the amount owed;

xix. first (a) to the payment of any remaining accrued and unpaid Administrative Expenses of the Issuers not paid pursuant to clauses (i) and (ii) above (as the result of the limitations on amounts set forth therein) in the same order of priority set forth above in clause (iii) excluding any Indemnities (and legal expenses related thereto) payable by the Issuers; second, (b) to the payment of, pro rata, of any indemnities (and legal expenses related thereto) payable by the Issuers to the Issuers not paid pursuant to clause (i) above (as the result of the limitation on amounts set forth therein) in the same order of priority set forth above in clause (iii); and third, (c) to the Expense Reserve Account until the balance of such

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825443
account reaches U.S. $200,000 (after giving effect to any deposits made therein on such Payment Date under clause (ii) above), provided, however, that the aggregate payments pursuant to subclause (c) of this clause (iv) and subclause (c) of clause (ii) on any Payment Date shall not exceed U.S. $50,000; and

xx. any remaining amount to the payment to the Fiscal Agent for deposit into the Income Note Payment Account for payment to the holders of the Income Notes in addition to distributions (subject to certain restrictions imposed under Cayman Islands law and to the extent of funds legally available therefor).

On the Business Day prior to the Final Payment Date, the Trustee will transfer all funds thereon as in deposit in the Collection Account into the Payment Account. On the Final Payment Date, amounts in the Payment Account will be applied by the Trustee in the manner and order of priority set forth below:

i. to the payment of the amounts referred to in clauses (i) through (vi) of the Priority of Payments for Payment Dates which are not Final Payment Dates, in that order (without regard to the limitations in clause (ii) except for any Final Payment Date which is the Stated Maturity of a Note (other than the Class S Notes)), provided that no deposit shall be made to the Expense Reserve Account pursuant to subclause (i);

d. to the payment to the Class A-1 Notes in accordance with the Class A-1 Note Payment Sequence of the amount necessary to pay the full amount of such Note;

ii. to the payment to the Class A-2 Notes of the amount necessary to pay the outstanding principal amount of such Notes;

iv. to the payment to the Class B Notes of the amount necessary to pay the outstanding principal amount of such Notes;

v. to the payment to the Class C Notes of the amount necessary to pay the outstanding principal amount of such Notes in full;

vi. to the payment to the Class D Notes of the amount necessary to pay the outstanding principal amount of such Notes in full;

vii. to the payment to the Class A-2 Notes of the amount necessary to pay the outstanding principal amount of such Notes in full;

viii. to the payment of the amounts referred to in clause (xiv) of the Priority of Payments for Payment Dates that are not Final Payment Dates;

ix. to the payment of the amounts referred to in clause (xvi) of the Priority of Payments for Payment Dates that are not Final Payment Dates;

x. to the payment of the amounts referred to in subclause (a) and subclause (b) of clause (xvi) of the Priority of Payments on any Final Payment Date that is the Stated Maturity of any Notes (other than the Class S Notes); and

xi. to the payment of the amounts referred to in clause (xxi) of the Priority of Payments for Payment Dates which are not Final Payment Dates in accordance with the Fiscal Agency Agreement.
Upon payment in full of the last outstanding Note, the Issuer (or the Collateral Manager acting pursuant to the Collateral Management Agreement on behalf of the Issuer) will liquidate any remaining Collateral Assets, Eligible Investments, the Cashflow Swap Agreement and any other items comprising the Collateral and deposit the proceeds thereof in the Collection Account. The net proceeds of such liquidation and all available cash (other than the U.S.$250 of capital contributed by the owners of the Issuer Ordinary Shares) in accordance with the Issuer’s Memorandum and Articles of Association and U.S.$250 representing a transaction fee to the Issuer (the “Exceptioned Property”) will be distributed in accordance with the Priority of Payments for Final Payment Dates and all amounts remaining thereafter will be paid to the Holders of the Income Notes as a redemption payment, whereupon all of the Notes and the Income Notes will be canceled.

Income Notes

The final payment on the Income Notes will be made by the Issuer on the Stated Maturity of the Income Notes, unless redeemed or retired prior thereto in accordance with the Priority of Payments.

The Indenture and the Fiscal Agency Agreement

The following summary describes certain provisions of the Indenture and the Fiscal Agency Agreement. This summary is not to be complete and is subject to, and qualified in its entirety by reference to, the provisions of the Indenture and the Fiscal Agency Agreement.

Events of Default. An “Event of Default” under the Indenture includes:

i. a default in the payment, when due and payable, of any interest on any Class S Note, Class A Note or Class B Note or, if there are no Class S Notes, Class A Notes or Class B Notes outstanding, any Class C Note or, if there are no Class S Notes, Class A Notes, Class B Notes or Class C Notes outstanding, any Class D Note and a continuation of such default, in each case, for a period of 7 days (or, in the case of a default in payment resulting solely from an administrative error or omission by the Trustee, any Note Paying Agent or the Note Register, such default continues for a period of 7 days after the Trustee is made aware of such administrative error or omission);

ii. a default in the payment of principal due on any Note at its Stated Maturity or on any Redemption Date (or, in the case of a default in payment resulting solely from an administrative error or omission by the Trustee, any Note Paying Agent or the Note Register, such default continues for a period of 7 days after the Trustee is made aware of such administrative error or omission);

iii. the failure on any Payment Date to disburse amounts (other than in payment of interest on any Note or principal of any Note at its Stated Maturity or any date set for redemption as described in (i) and (ii) above) available in the Payment Account in excess of U.S.$250 in accordance with the Priority of Payments and a continuation of such failure for a period of 7 days after such failure has been recognized;

iv. a circumstance in which either of the Issuers or the Collateral or any portion thereof becomes an investment company required to be registered under the Investment Company Act;

v. a default, which has a material adverse effect on the Holders of the Notes (as determined by at least 50% in aggregate principal amount of the Controlling Class) in the performance, or breach, of any covenant, representation, warranty or other agreement of the Issuers in the Indenture (it being understood that a failure to satisfy a Coverage Test is not a default or breach) or in any certificate or writing delivered pursuant to the

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825445
If an Event of Default should occur and be continuing, the Trustee may, with the consent of the Holders of at least a Majority of the Controlling Class, and will at the direction of the Holders of at least a Majority of the Controlling Class, declare the principal of and accrued and unpaid interest on all Notes to be immediately due and payable (except that in the case of an Event of Default described in clause (vi) above, such an acceleration will occur automatically and shall not require any action by the Trustee or any Holder).

If an Event of Default should occur and be continuing, the Trustee is required to retain the Collateral intact and collect all payments in respect of the Collateral and continue making payments in the manner described under Priority of Payments unless (a) the Trustee determines (which determination will be based upon a certificate from the Collateral Manager) that the anticipated proceeds of a sale or liquidation of the Collateral based on an estimate obtained from a nationally recognized investment banking firm (which estimate takes into account the time elapsed between such estimate and the anticipated sale of the Collateral) would equal the amount necessary to pay in full (after deducting the reasonable expenses of such sale or liquidation) the sum of (i) the principal (including any Class C Deferred Interest and Class D Deferred Interest) and accrued interest (including all Deferred Interest, and interest thereon) and any other amounts due with respect to all the outstanding Notes; (ii) all Administrative Expenses; (iii) all amounts payable by the Issuer to the Synthetic Security Counterparty or any assignee of a Synthetic Security (other than Defaulted Synthetic Security Termination Payments) net of all amounts payable to the Issuer by any Synthetic Security Counterparty or any assignee of a Synthetic Security; (iv) all amounts payable by the Issuer to the Cashflow Swap Counterparty (other than Defaulted Cashflow Swap Termination Payments) net of all amounts payable to the Issuer by any Cashflow Swap Counterparty; (v) accrued and unpaid Deferred Structuring Expenses; and (vi) all other items in the Priority of Payments ranking prior to payments on the Notes, and, in any case, the Holders of a Majority of the Controlling Class agree with such determination or (b) the Holders of at least 95-2/3% of the Aggregate Outstanding Amount of the Controlling Class and any Cashflow Swap Counterparty (other than any Cashflow Swap Counterparty which will be paid in full the amounts due to it, including in any applicable termination payments other than Defaulted Cashflow Swap Termination Payments at the time of distribution of the proceeds of any sale or liquidation of the Collateral) direct, subject to the provisions of the Indenture, the sale and liquidation of the Collateral.

The Holders of a Majority of the Controlling Class will have the right to direct the Trustee in writing in the conduct of any proceedings or in the sale of any or all of the Collateral, but only if (1) such direction will not conflict with any rule of law or the Indenture (including the limitations described in the paragraphs above) and (2) the Trustee determines that such action will not involve it in liability (unless the Trustee has received an indemnity which is reasonably acceptable to the Trustee against any such liability).

Subject to the provisions of the Indenture relating to the duties of the Trustee, in case an Event of Default with respect to the Notes occurs and is continuing, the Trustee is under no obligation to exercise any of the rights or powers under the Indenture at the request of any Holders of Notes, unless such Holders have offered to the Trustee reasonable security or an indemnity which is reasonably acceptable to the Trustee. The Holders of a Majority of the Controlling Class may waive any default with respect to the Notes, except (a) a default in the payment of principal or interest on any Note; (b) failure on any Payment Date to disburse amounts available in the Payment Account in accordance with the Priority of Payments and continuation of such failure for a period of five days; (c) certain events of bankruptcy or

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825446
insolvency with respect to the Issuer; or (g) a default in respect of a provision of the Indenture that cannot be modified or amended without the waiver or consent of Holder of each outstanding Note adversely affected thereby.

Furthermore, any declaration of acceleration of maturity of the Notes may be revoked and annulled by the Holders of a Majority of the Controlling Class before a judgment or decree for the payment of money has been obtained by the Trustee or the Collateral has been sold or foreclosed in whole or in part, by notice to the Issuer, the Trustee and any Cashflow Swap Counterparties; if (a) the Issuer has paid or deposited with the Trustee a sum sufficient to pay, in accordance with the Priority of Payments, the principal and accrued interest (including all Defaulted Interest and the interest thereon), discount or other unpaid amounts with respect to the outstanding Notes and any other administrative expenses, fees or other amounts that, under the Transaction Documents and pursuant to the Priority of Payments, are payable prior to the payment of the principal and interest on the outstanding Notes, and (b) the Trustee has determined that all Events of Default, other than the non-payment of the interest on or principal of the outstanding Notes that have become due solely by such acceleration, have been cured and the Holders of a Majority of the Controlling Class by notice to the Trustee have agreed with such determination (which agreement shall not be unreasonably withheld) or waived such Event of Default in accordance with the provisions set forth in the Indenture.

Only the Trustee may pursue the remedies available under the Indenture and the Notes and no Holder of a Note will have the right to institute any proceeding with respect to the Indenture, its Note or otherwise unless (i) such Holder previously has given to the Trustee written notice of a continuing Event of Default; (ii) except in the case of a default in the payment of principal or interest, the Holders of at least 25%, by Aggregate Outstanding Amount, of the Controlling Class have made a written request upon the Trustee to institute such proceedings in its own name as Trustee and such Holders have offered the Trustee an indemnity which is reasonably acceptable to the Trustee; (iii) the Trustee has for 30 days failed to institute any such proceeding; and (iv) no direction inconsistent with such written request has been given to the Trustee during such 30-day period by the Holders of a Majority of the Controlling Class.

In determining whether the Holders of the requisite percentage of Notes have given any direction, notice or consent, Notes owned by the Issuer, the Co-Issuer or any affiliate thereof shall be disregarded and deemed not to be outstanding. In addition, Holders of Income Notes will not be considered to be affiliates of the Issuer or Co-Issuer by virtue of such ownership of Income Notes.

Notice. Notices to the Holders of the Notes shall be given by first-class mail, postage prepaid, to each Holder at the address appearing in the applicable note register. In addition, for so long as any of the Notes are listed on any stock exchange and so long as the rules of such exchange so require, notices to the Holders of such Notes shall also be published by the Listing and Paying Agent in the official list thereof.

Modification of the Indenture. Except as provided below, with the consent of the Holders of a Majority, by Aggregate Outstanding Amount, of the Notes materially adversely affected thereby, voting together as a single class, and a Majority of the Income Notes materially and adversely affected thereby, the Trustee and the Issuer, with respect to the Notes, may execute a supplemental indenture to add provisions to, or change in any manner or eliminate any provisions of, the Indenture or modify in any manner the rights of the Holders of the Notes of such class or the Income Notes; provided that the Rating Agency Condition would be satisfied after such addition, change or elimination. The Trustee may, consistent with the written advice of legal counsel or an officer's certificate, at the expense of the Issuer, determine whether or not the Holders of the Notes or Income Notes would be materially and adversely affected by such change. Such determination shall be conclusive and binding on all present and future Holders.

Without the consent of the Holders of each adversely affected Note and each adversely affected Income Note, and unless the Rating Agency Condition is satisfied, no supplemental indenture may be entered into which would (i) change the Stated Maturity of the principal of or the due date of any installment of interest or discount on a Note; reduce the principal amount thereof or the rate of interest thereon, or the applicable Redemption Price with respect thereto; change the earliest date on which a
Note may be redeemed, change the provisions of the Indenture relating to the application of proceeds of any Collateral to the payment of principal of or interest or discount on Notes or change any place where, or the coin or currency in which, Notes or the principal thereof or interest or discount thereon are payable, or impair the right to institute suit for the enforcement of any such payment or any Stated Maturity thereof (or, in the case of redemption, on or after the Redemption Date), (ii) reduce the percentage in aggregate principal amount of Holders of the Notes of each Class and Holders of the Income Notes whose consent is required for the authorization of any supplemental indenture or for any waiver of compliance with certain provisions of the Indenture or certain defaults thereunder or their consequences; (iii) impair or adversely affect the Collateral except as otherwise permitted by the Indenture; (iv) permit the creation of any security interest or lien prior to or on or after the security interest created by the Indenture with respect to any part of the Collateral (it being understood that the addition of the Cashflow Swap Counterparty having the benefit of the Indenture pursuant to its terms does not require consent under this clause) or terminate such security interest or lien; or (v) deprive the Holder of any Note, the Trustee or any other Secured Party of the security afforded by the Indenture; (v) reduce the percentage of Holders of the Notes of each Class whose consent is required to request the Trustee to preserve the Collateral or restructure the Trustee's election to preserve the Collateral or to sell or liquidate the Collateral pursuant to the Indenture; (vi) modify any of the provisions of the Indenture with respect to supplemental indentures, except to increase the percentage of outstanding Notes whose Holders' consent is required for any such action or to provide that other provisions of the Indenture cannot be modified or amended without the consent of the Holder of each outstanding Note adversely affected thereby; (vii) modify the definition of the term "Outstanding" or the Priority of Payments set forth in the Indenture; (viii) modify any of the provisions of the Indenture in such a manner as to affect the calculation of the amount of any payment of interest or discount on or principal of any Note or modify any amount distributable to the Collateral Agent for payment to the Holders of the Income Notes on any Payment Date or to affect the right of the Holders of the Notes or the Trustee to the benefit of any provisions for the redemption of such Notes contained therein; (ix) amend any provision of the Indenture or any other agreement entered into by the Issuer with respect to the transactions contemplated by the Indenture relating to the institution of proceedings for the Issuer or the Co-Issuer to be adjudicated as bankrupt or insolvent, or the consent of the Issuer or the Co-Issuer to the institution of bankruptcy or insolvency proceedings against it, or the filing with respect to the Issuer or the Co-Issuer of a petition or answer or consent seeking reorganization, arrangement, moratorium or liquidation proceedings, or other proceedings under the United States Bankruptcy Code or any similar laws, or the consent of the Issuer or the Co-Issuer to the filing of any such petition or the appointment of a receiver, liquidator, assignee, trustee or representative (or other similar official) of the Issuer or the Co-Issuer or any substantial part of its property, respectively; (x) increase the amount of the Collateral Management Fees payable to the Collateral Manager beyond the amount covered by the original Collateral Management Agreement; (xi) amend any provision of the Indenture or any other agreement entered into by the Issuer with respect to the transactions contemplated thereby that provides that the obligations of the Issuer or the Co-Issuer, as the case may be, are limited recourse obligations of the Issuer or the Co-Issuer, respectively, payable solely from the Collateral in accordance with the terms of the Indenture; (xii) at the time of execution of such supplemental indenture, cause the Issuer, any Cashflow Swap Counterparty, the Collateral Manager or any Paying Agent to become subject to withholding or other taxes, fees or assessments or cause the Issuer to be treated as engaged in a United States trade or business or otherwise be subject to United States, foreign, state or local income tax on a net income basis; or (xiii) at the time of execution of such supplemental indenture, result in a deemed sale or exchange of any of the Notes under Section 1001 of the Code (items (i) through (xii) above collectively, "the "Reserved Matters"").

Except as provided above, the Issuers and the Trustee may also enter into one or more supplemental indentures, without obtaining the consent of Holders of the Notes or the Income Notes but with satisfaction of the Rating Agency Condition, (i) if such supplemental indentures would have no material adverse effect on any of the Noteholders (as evidenced by an Officer's Certificate delivered by the Issuer, or the Collateral Manager on behalf of the Issuer, to the Trustee) or (i) for any of the following purposes: (a) to evidence the succession of any person to either the Issuer or Co-Issuer and the assumption by any such successor of the covenants of the Issuer or Co-Issuer in the Notes, the Cashflow Agency Agreement and the Indenture; (b) to add to the covenants of the Issuers or the Trustee for the benefit of the Holders of the Notes or the Income Notes or to surrender any right or power conferred upon 78

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825448
the Issuers; (c) to convey, transfer, assign, mortgage or pledge any property to the Trustee, or add to the conditions, limitations or restrictions on the authorized amount, terms and purposes of the issue, authentication and delivery of the Notes or the Income Notes; (d) to evidence and provide for the acceptance of appointment by a successor Trustee and to add to or change any of the provisions of the Indenture as shall be necessary to facilitate the administration of the Trust under the Indenture by more than one Trustee; (e) to correct or amplify the description of any property at any time subject to the security interest created by the Indenture, or to further assure, convey, and confirm unto the Trustee any property subject or required to be subject to the security interest created by the Indenture (including, without limitation, any and all actions necessary or desirable as a result of changes in law or regulations) or subject to the security interest created by the Indenture any additional property; (f) to otherwise correct any inconsistency or cure any ambiguity or manifest error or correct or supplement any provisions contained herein which may be defective or inconsistent with any provision contained herein or make any modification that is of a formal, minor or technical nature or which is made to correct a manifest error; (g) to take any action necessary or advisable to prevent the Issuer, the Trustee or any Paying Agents from becoming subject to withholding or other taxes, fees or assessments or to prevent the Issuer from being treated as engaged in a United States trade or business or otherwise being subject to United States federal, state or local income tax on a net income basis; (h) to conform the Indenture to the descriptions thereof in the final offering circular; (i) to comply with any reasonable requests made by any stock exchange in order to list or maintain the listing of any Notes or Income Notes on such stock exchange; (j) to reflect the terms of an Optional Redemption by Refinancing (including the grant of a security interest in the Collateral); or (k) to enter into any additional agreements not expressly prohibited by any of the Indenture or the other Transaction Documents, as well as any amendment, modification or waiver if the Issuer determines that entering into such an agreement or such amendment, modification or waiver thereof would not, upon or after becoming effective, materially and adversely affect the rights or interests of Holders of any Class of Notes or Income Notes. The Issuers and the Trustee shall not enter into any supplemental indenture, amendment or modification of the Indenture which would require the consent of any of the Holders of the Notes or Income Notes, any Cashflow Swap Counterparty or any Synthetic Security Counterparty due to an adverse effect or a material adverse effect, as applicable, on such person as a result of such supplemental indenture, amendment or modification without any such person’s consent (issued as provided below) if any such person could be reasonably determined to be adversely affected or materially adversely affected, as applicable, by any supplemental indenture, amendment or modification to this Indenture. The Issuer may give at least five (5) Business Days’ prior notice of any such supplemental indenture, amendment or modification which could reasonably be determined to give rise to an adverse effect or a material adverse effect to the Holders of the Notes and of the Income Notes, the Cashflow Swap Counterparty and the Synthetic Security Counterparty. All Cashflow Swap counterparties that fail to respond to any such notice or before the return date indicated on such notice shall be deemed to be not adversely affected or materially adversely affected by such change and the Issuers, the Trustee and any opinion of counsel may rely on the results of any such notice or on a certificate from the Issuer or the Collateral Manager. The Trustee may require the delivery of an opinion of counsel or an officer’s certificate delivered by the Issuer (or the Collateral Manager on behalf of the Issuer) to the Trustee, reasonably satisfactory to it, at the expense of the Issuer, that the execution of such amendment or modification is authorized or permitted under the terms of the Indenture. Such determination shall be conclusive and binding on all present and future Holders of Notes or Income Notes, any Synthetic Security Counterparty, the Collateral Manager and any Cashflow Swap Counterparty.

Notwithstanding anything to the contrary herein, (i) the Issuer will not consent to enter into any supplemental indenture or any supplement or amendment to any other document related thereto unless and until the Collateral Manager has received written notice of such proposed amendment or supplement and has consented in writing thereto and has received a final copy thereof from the Issuer or the Trustee and, if any such supplement or amendment would reasonably be expected to have a material adverse effect on the Synthetic Security Counterparty, such Synthetic Security Counterparty has received written notice of such amendment or supplement and has consented thereto in writing (which consent shall not be unreasonably withheld) and (ii) no amendment to the Indenture will be effective until the consent of each Cashflow Swap Counterparty (which shall not be unreasonably withheld) has been obtained to the extent required under the Cashflow Swap Agreement.

Confidential Treatment Requested by Goldman Sachs
Under the Indenture, the Trustee will, for so long as any of the Securities are outstanding and rated by the Rating Agencies, deliver a copy of any proposed supplemental indenture (whether or not required to be approved by the Holders of any Notes or Income Notes) to the Rating Agencies, each Cashflow Swap Counterparty and each Synthetic Security Counterparty not later than 20 Business Days prior to the execution of such proposed supplemental indenture, and no such supplemental indenture shall be entered into unless the Rating Agency Condition is met; provided that the Trustee shall, with the consent of the Holders of 100% of the Aggregate Outstanding Amount of Notes of each Class and Income Notes, each Synthetic Security Counterparty and each Cashflow Swap Counterparty, enter into any such supplemental indenture notwithstanding any potential reduction or withdrawal of the ratings of any outstanding Class of Notes. In addition, the Trustee will deliver a copy of any proposed supplemental indenture with respect to which a determination must be made pursuant to the forms of the Indenture as to whether the Controlling Class would be materially adversely affected thereby to the Controlling Class not later than five (5) Business Days prior to the execution of such proposed supplemental indenture for such shorter period prior to the execution of such proposed supplemental indenture as a Majority of the Controlling Class shall consent to, or otherwise agree is sufficient. The Trustee must provide notice of any amendment or modification of the Indenture (whether or not required to be approved by the Holders of any Notes or Income Notes) to the Holders of the Notes and Income Notes, each Cashflow Swap Counterparty, each Synthetic Security Counterparty and, for so long as any Notes or Income Notes are listed on any stock exchange, the Listing and Paying Agent, promptly upon the execution of such supplemental indenture.

In connection with any amendment, the Trustee may require the delivery of an opinion of counsel satisfactory to it, at the expense of the Issuer, that such amendment is permitted under the terms of the Indenture.

Jurisdictions of Incorporation and Formation. Under the Indenture, the Issuer and the Co-Issuer will be required to maintain their rights and franchises as a company incorporated under the laws of the Cayman Islands and a corporation formed under laws of the State of Delaware, respectively, to comply with the provisions of their respective organizational documents and to obtain and preserve their qualification to do business as foreign corporations in each jurisdiction in which such qualifications are or shall be necessary to protect the validity and enforceability of the Indenture, the Notes or any of the Collateral; provided, however, that the Issuers shall be entitled to change their jurisdictions of incorporation from the Cayman Islands or Delaware, as applicable, to any other jurisdiction reasonably selected by each Issuer or Co-Issuer, as applicable, and approved by its common shareholders, so long as (i) the Issuer or Co-Issuer, as applicable, does not believe such change is disadvantageous in any material respect to such entity, the Holders of any Class of Notes, the Cashflow Swap Counterparty or any Synthetic Security Counterparty; (ii) written notice of such change shall have been given by the Issuer or Co-Issuer, as applicable to the other of the Issuer or Co-Issuer, as applicable, the Trustee, the Agents, the Collateral Manager, the Cashflow Swap Counterparty, each Synthetic Security Counterparty, the Holders of each Class of Notes and each of the Rating Agencies at least thirty (30) Business Days prior to such change of jurisdiction; and (ii) on or prior to the 26th Business Day following such notice the Trustee, shall not have received written notice from Holders of a Majority of the Controlling Class, the Collateral Manager, the Cashflow Swap Counterparty, any Synthetic Security Counterparty or, so long as any Notes or Income Notes are listed thereon, any stock exchange objecting to such change.

Petitions for Bankruptcy. The Indenture will provide that no Secured Party may, prior to the date which is one year and one day (or, if longer, the applicable preference period then in effect) after the payment in full of all Securities, institute against, or join any other person in instituting against, the Issuer or Co-Issuer any bankruptcy, reorganization, arrangement, moratorium, liquidation or similar proceedings under the laws of any jurisdiction.

Satisfaction and Discharge of the Indenture. The Indenture will be discharged with respect to the Collateral securing the Notes upon delivery to the Note Paying Agent for cancellation all of the Notes, or, within certain limitations (including the obligation to pay principal and interest), upon deposit with the Trustee of funds sufficient for the payment or redemption thereof and the payment by the Issuers of all other amounts due under the Indenture.
Trustee. The Bank of New York will be the Trustee under the Indenture. The Issuers and their affiliates may maintain other banking relationships in the ordinary course of business with the Trustee. The payment of the fees and expenses of the Trustee relating to the Notes is solely the obligation of the Issuers. The Trustee and/or its affiliates may receive compensation in connection with the Trustee's investment of trust assets in certain Eligible Investments as provided in the Indenture and in connection with the Trustee's administration of any securities lending activities of the Issuer.

The Indenture contains provisions for the indemnification of the Trustee for any loss, liability or expense incurred without negligence, willful misconduct or bad faith on its part, arising out of or in connection with the acceptance or administration of the Indenture. The Trustee will not be bound to take any action unless indemnified for such action. The Noteholders shall together have the power, exercisable by a Majority of the Controlling Class, to remove the Trustee as set forth in the Indenture. The removal of the Trustee shall not become effective until the later of the effective date of the appointment of a successor trustee and the acceptance of appointment by a successor trustee. If the Trustee is removed without cause, costs and expenses of the Trustee incurred in connection with the transfer to the successor Trustee shall be paid by the successor Trustee or the Issuer.

Agent. The Bank of New York will be the Trustee Paying Agent, the Note Registrar, the Note Calculation Agent and the Note Transfer Agent under the Indenture. The Bank of New York will also be the Collateral Administrator pursuant to the Collateral Administration Agreement. The Issuers and their affiliates may maintain other banking relationships in the ordinary course of business with The Bank of New York. The payment of the fees and expenses of The Bank of New York relating to the Notes is solely the obligation of the Issuers. The Indenture contains provisions for the indemnification of The Bank of New York for any loss, liability or expense incurred without gross negligence, willful misconduct, default or bad faith on its part arising out of or in connection with the acceptance or administration of the Indenture.

Listing and Paying Agent. For so long as any of the Notes or the Income Notes are listed on any stock exchange and the rules of such exchange shall so require, the Issuers will have a Listing and Paying Agent and a paying agent (which shall be the "Listing and Paying Agent") for the Securities. The Issuers and their affiliates may maintain other businesses with the Listing and Paying Agent. The payment of the fees and expenses of the Listing and Paying Agent relating to the Securities is solely the obligation of the Issuers. The Indenture contains provisions for the indemnification of the Listing and Paying Agent for any loss, liability or expense incurred without gross negligence, willful misconduct or bad faith on their respective parts arising out of or in connection with the acceptance or administration of the Indenture.

Status of the Income Notes. The Holders of the Income Notes will have certain rights to vote with respect to limited matters arising under the Indenture and the Collateral Management Agreement including, without limitation, in connection with certain modifications to the Indenture. However, the Holders of the Income Notes will have no right to vote in connection with the realization of the Collateral or certain other matters under the Indenture.

Consolidation, Merger or Transfer of Assets. Except under the limited circumstances set forth in the Indenture, the Issuer will not be permitted to consolidate with, merge into, or transfer or convey all or substantially all of its assets to, any other corporation, partnership, trust or other person or entity. Except under the limited circumstances set forth in the Indenture, the Co-Issuer will not be permitted to consolidate with, merge into, or transfer or convey all or substantially all of its assets to, any other limited liability company, corporation, partnership, trust or other person or entity.

Fiscal Agency Agreement

Pursuant to the Fiscal Agency Agreement, the Fiscal Agent will perform various fiscal services on behalf of the Holders of the Income Notes. The payment of the fees and expenses of the Fiscal Agent is solely the obligation of the Issuer. The Fiscal Agency Agreement contains provisions for the
Indemnification of the Fiscal Agent for any loss, liability or expenses incurred without gross negligence, willful misconduct or bad faith on its part, arising out of or in connection with the acceptance or administration of the Fiscal Agency Agreement.

Governing Law of the Indenture, the Notes, the Fiscal Agency Agreement, the Cashflow Swap Agreement, the Synthetic Securitization, the Debt of Covenant, the Income Notes, the Collateral Management Agreement and the Collateral Administration Agreement

The Indenture, the Notes, the Cashflow Swap Agreement, the Collateral Management Agreement and the Collateral Administration Agreement will be governed by, and construed in accordance with, the laws of the State of New York applicable to agreements made and to be performed therein without regard to the conflict of laws principles thereof. Under the Indenture, the Fiscal Agency Agreement, the Cashflow Swap Agreement, the Collateral Management Agreement and the Collateral Administration Agreement the issues, as applicable, have submitted irrevocably to the non-exclusive jurisdiction of the courts of the State of New York and the courts of the United States of America in the State of New York (in each case sitting in the County of New York) for the purposes of hearing and determining any suit, action or proceedings or setting any disputes arising out of or in connection with the Indenture, the Notes, the Fiscal Agency Agreement, the Cashflow Swap Agreement, the Collateral Management Agreement and the Collateral Administration Agreement. The Fiscal Agency Agreement, the Debt of Covenant and the Income Notes will be governed by, and construed in accordance with, the laws of the Cayman Islands.

Form of the Securities

The Notes. Each Class of Notes (other than the Class D Notes) sold in reliance on Rule 144A under the Securities Act will be represented by one or more Rule 144A Global Notes and will be deposited with The Bank of New York as custodian for DTC and registered in the name of Cede & Co., a nominee of DTC. The Rule 144A Notes which are Class D Notes will be issued in definitive, fully registered form, registered in the name of the owner thereof ("Definitive Notes"). The Rule 144A Global Notes and the Definitive Notes (and any Notes issued in exchange therefor) will be subject to certain restrictions on transfer as set forth under "Notice to Investors."

Each Class of Notes sold in offshore transactions in reliance on Regulation S will initially be represented by a Temporary Regulation S Global Note deposited on the Closing Date with The Bank of New York as custodian for DTC and registered in the name of Cede & Co., a nominee of DTC, for the respective accounts of Euroclear and Clearstream. Beneficial interests in a Temporary Regulation S Global Note may be held only through Euroclear or Clearstream. Beneficial interests in a Temporary Regulation S Global Note will be exchanged for beneficial interests in a permanent Regulation S Global Note for the related Class of Notes in definitive, fully registered form upon the later of (i) the expiration of the Distribution Compliance Period and (ii) the first date on which the requisite certifications (in the form provided in the Indenture) are provided to the Trustee. The Regulation S Global Note will be registered in the name of Cede & Co., a nominee of DTC, and deposited with The Bank of New York as custodian for DTC for credit to the accounts of Euroclear and Clearstream for the respective accounts of the Holders of such Notes. Beneficial interests in a Regulation S Global Note may be held only through Euroclear or Clearstream.

A beneficial interest in a Regulation S Global Note, a Temporary Regulation S Global Note or a Regulation S Income Note may be transferred, whether before or after the expiration of the Distribution Compliance Period, to a U.S. person only, with respect to the Class S Notes, the Class A Notes, the Class B Notes or the Class C Notes, in the form of a transferor in a Rule 144A Global Note and, with respect to the Class D Notes or a Regulation S Income Note, in the form of a Definitive Note or an Income Note Certificate, as applicable, and only upon receipt by the Note Transfer Agent, in the case of the Notes, or Fiscal Agent, in the case of the Income Notes, of a written certification from the transferor (in the form provided in the Indenture, in the case of the Notes, or in the form provided in the Fiscal Agency Agreement, in the case of the Income Notes) to the effect that the transfer is being made to a person the transferor reasonably believes is a Qualified Institutional Buyer and a Qualified Purchaser.
In addition, transfers of a beneficial interest in a Regulation S Global Note or Temporary Regulation S
Global Note to a person who takes delivery of in the form of an interest in a Rule 144A Global Note may
occur only in denominations greater than or equal to the minimum denominations applicable to the Rule
144A Global Notes.

A beneficial interest in a Rule 144A Global Note may be transferred to a person who takes
delivery in the form of an interest in a Temporary Regulation S Global Note or a Regulation S Global
Note, as the case may be, whether during or after the expiration of the Distribution Compliance Period,
only upon receipt by the Note Registrar of a written certification from the transferor (in the form provided
in the indenture) to the effect that such transfer is being made to a non-U.S. Person in accordance with
Rule 903 or 904 of Regulation S.

Any beneficial interest in one of the Global Notes that is transferred to the person who takes
delivery in the form of an interest in another Global Note will, upon transfer, cease to be an interest in
such Global Note and become an interest in the other Global Note and, accordingly, will thereafter be
subject to all transfer restrictions and other procedures applicable to beneficial interests in such other
Global Note for as long as it remains such interest.

Except in the limited circumstances described below, owners of beneficial interests in any Global
Note will not be entitled to receive a Definitive Note. The Notes are not issuable in bearer form.

Each Note will be issued in minimum denominations of U.S.$250,000 (in the case of Rule 144A
Notes) and U.S.$100,000 (in the case of Regulation S Notes) and integral multiples of U.S.$1 in excess
thereof.

The Income Notes will be issued in minimum denominations of U.S.$100,000 notional principal
amount of Income Notes and integral multiples of U.S.$1 in excess thereof.

Global Notes. Upon the issuance of the Global Notes, DTC or its custodian will credit, on
its internal system, the respective aggregate original principal amount of the individual beneficial interests
represented by such Global Notes to the accounts of persons who have accounts with DTC. Such
accounts initially will be designated by or on behalf of the Initial Purchaser. Ownership of beneficial
interests in Global Notes will be limited to persons who have accounts with DTC ("participants") or
persons who hold interests through participants. Ownership of beneficial interests in a Global Note will be
sharable and the transfer of that ownership will be effected only through, records maintained by DTC or
its nominee (with respect to interests of participants) and the records of participants (with respect to
interests of persons other than participants).

So long as DTC, or its nominee, is the registered owner or Holder of the Global Notes, DTC or
such nominee, as the case may be, will be considered the sole owner or Holder of each Class of the
Notes represented by such Global Notes for all purposes under the Indenture and such Notes. Unless
DTC notifies the Issuer that it is unwilling or unable to continue as depositary for a global note or cease
to be a "Clearing Agency" registered under the Exchange Act, owners of the beneficial interests in
the Global Notes will not be entitled to have any portion of such Global Notes registered in their names,
will not receive or be entitled to receive physical delivery of Notes in certificated form and will not be
considered to be the owners or Holders of any Notes under the Indenture. In addition, no beneficial
owner of an Interest in the Global Notes will be able to transfer that interest except in accordance with
DTC's applicable procedures (in addition to those under the Indenture referred to herein and, if
applicable, those of Euroclear and Clearstream).

Investors may hold their interests in a Regulation S Global Note or a Temporary Regulation S
Global Note directly through Clearstream or Euroclear, if they are participants in these systems, or
indirectly through organizations which are participants in these systems. Clearstream and Euroclear will
hold interests in the Regulation S Global Notes on behalf of their participants through their respective
depositaries, which in turn will hold the interests in the Regulation S Global Notes and Temporary

Confidential Treatment Requested by Goldman Sachs

Footnote Exhibits - Page 5543

Regulation S Global Notes in customers’ securities accounts in the depositaries’ names on the books of DTC. Investors may hold their interests in a Note 144A Global Note directly through DTC if they are participants in the DTC system, or indirectly through organizations which are participants in the system.

Payments of the principal of and interest on the Global Notes will be made to DTC or its nominee, as the registered owner thereof. Neither the issuers, the Trustee, the Note Registrar, the income Note Registrar nor any paying agent will have any responsibility or liability for any aspect of the records relating to or payments made in account of beneficial ownership interests in the Global Notes or for any notice permitted or required to be given to Holders of Notes or any consent given or actions taken by DTC as Holder of Notes. The issuers expect that DTC or its nominee, upon receipt of any payment of principal or interest in respect of a Global Note representing any Notes held by it or its nominee, will immediately credit participants’ accounts with payments in amounts proportionate to their respective interests in the principal amount of such Global Notes as shown on the records of DTC or its nominee. The issuers also expect that payments by participants to owners of interests in such Global Notes held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

Transfers between participants will be effected in the ordinary way in accordance with DTC rules and will be settled in same-day funds. The laws of some jurisdictions require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer beneficial interests in Global Notes to these persons may be limited. Because DTC can only act on behalf of participants, who in turn act on behalf of individuated participants and certain banks, the ability of a person having a beneficial interest in Global Notes to pledge its interest to persons or entities that do not participate in the DTC system, or otherwise take actions in respect of its interest, may be affected by the lack of a physical certificate of the interest. Transfers between account holders in Euroclear and Clearstream will be effected in the ordinary way in accordance with their respective rules and operating procedures.

Subject to compliance with the investor restrictions applicable to the Notes described above, cross-market transfers between DTC participants, on the one hand, and, directly or indirectly through Euroclear or Clearstream account holders, on the other, will be effected in DTC in accordance with DTC rules on behalf of Euroclear or Clearstream, as the case may be, by its respective depositary; however, these cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in the system in accordance with its rules and procedures and within its established deadlines (Brussels time). Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depositary to take action to effect final settlement on its behalf by delivering or receiving interests in a Temporary Regulation S Global Note or a Regulation S Global Note in DTC, and making or receiving payment in accordance with normal procedures for a same-day funds settlement applicable to DTC. Euroclear and Clearstream account holders may not deliver instructions directly to the depositaries for Euroclear or Clearstream.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purporting to own an interest in a Global Note from a DTC participant will be credited during the securities settlement processing day (which must be a Business Day for Euroclear or Clearstream, as the case may be) immediately following the DTC settlement date and the credit of any transactions in interests in a Global Note settled during the processing day will be reported to the relevant Euroclear or Clearstream participant on that day. Cash received in Euroclear or Clearstream as a result of sales of interests in a Global Note by or through a Euroclear or Clearstream participant to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Euroclear or Clearstream cash account only as of the Business Day following settlement in DTC.

DTC has advised the issuers that it will take any action permitted to be taken by a Holder of the Notes (including the presentation of the applicable Notes for exchange as described below) only at the direction of one or more participants to whose account with DTC interests in a Global Note are credited and only in respect of that portion of the aggregate principal amount of the Notes as to which the participant or participants has or have given direction.

Confidential Treatment Requested by Goldman Sachs  GS MBS-E-021825454
The giving of notices and other communications by DTC to participants, by participants to persons who hold accounts with them and by such persons to Holders of beneficial interests in a Global Note will be governed by arrangements between them, subject to any statutory or regulatory requirements as may exist from time to time.

DTC has advised the Issuers as follows: DTC is a limited purpose trust company organized under the laws of the State of New York, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the Uniform Commercial Code and a "Clearing Agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Participants include securities brokers and dealers, banks, trust companies and clearing corporations and may include certain other organizations. Indirect access to the DTC system is available to others such as brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly ("Indirect participants").

Clearstream. Clearstream Banking, société anonyme, was incorporated as a limited liability company under Luxembourg law. Clearstream is owned by Cedel International, société anonyme, and Deutsche Börse AG. The shareholders of these two entities are banks, securities dealers and financial institutions.

Clearstream holds securities for its customers and facilitates the clearance and settlement of securities transactions between Clearstream customers through electronic book-entry changes in accounts of Clearstream customers, thus eliminating the need for physical movement of certificates. Clearstream provides to its customers, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities, securities lending and borrowing and collateral management. Clearstream interfaces with domestic markets in a number of countries. Clearstream has established an electronic bridge with Euroclear Bank S.A./N.V., the operator of the Euroclear System, to facilitate settlement of trades between Clearstream and Euroclear.

As a registered bank in Luxembourg, Clearstream is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector. Clearstream customers are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. In the United States, Clearstream customers are limited to brokers and dealers and banks and may include the initial Purchaser. Other institutions that maintain a custodial relationship with a Clearstream customer may obtain indirect access to Clearstream.

Contributions with respect to the Notes held beneficially through Clearstream will be credited to cash accounts of Clearstream customers in accordance with its rules and procedures, to the extent received by Clearstream.

The Euroclear System. The Euroclear System was created in 1968 to hold securities for participants of the Euroclear System and to clear and settle transactions between Euroclear participants through simultaneous electronic book-entry delivery against payment, thus eliminating the need for physical movement of certificates and the risk from lack of simultaneous transfers of securities and cash. Transactions may now be settled in many currencies, including U.S. Dollars and Japanese Yen. The Euroclear System provides various other services, including securities lending and borrowing and interfaces with domestic markets in several countries generally similar to the arrangements for cross-market transfers with DTC described above.

The Euroclear System is operated by Euroclear Bank S.A./N.V. (the "Euroclear Operator"), under contract with Euroclear Clearance System plc, a U.K. corporation (the "Euroclear Clearance System"). The Euroclear Operator conducts all operations, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Euroclear Clearance System. The Euroclear Clearance System establishes policy for the Euroclear System on behalf of Euroclear.
participating organizations. Euroclear participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the Initial Purchaser. Indirect access to the Euroclear System is also available to other firms that clear through or maintain a custodial relationship with a Euroclear participant, either directly or indirectly. Euroclear is an indirect participant in DTC.

The Euroclear Operator is a Belgian bank. The Belgian Banking Commission regulates and examines the Euroclear Operator.

The Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System and applicable Belgian law govern securities clearance accounts and cash accounts with the Euroclear Operator. Specifically, these terms and conditions govern:

(a) transfers of securities and cash within the Euroclear System;
(b) withdrawal of securities and cash from the Euroclear System;
(c) receipts of payments with respect to securities in the Euroclear System.

All securities in the Euroclear System are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the terms and conditions only on behalf of Euroclear participants and has no record of or relationship with persons holding securities through Euroclear participants.

Distributions with respect to Notes held beneficially through Euroclear will be credited to the cash accounts of Euroclear participating organizations in accordance with the Euroclear Terms and Conditions, to the extent received by the Euroclear Operator and by Euroclear.

Although DTC, Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of interests in the Regulation S Global Notes and in the Rule 144A Global Notes among participants of DTC, Clearstream and Euroclear, they are under no obligation to perform or continue to perform these procedures, and the procedures may be discontinued at any time. Neither the Issuers nor the Trustee will have any responsibility for the performance by DTC, Clearstream, Euroclear or any respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Payments; Certifications by Holders of Temporary Regulation S Global Notes. A Holder of a beneficial interest in a Temporary Regulation S Global Note must provide Clearstream or Euroclear, as the case may be, with a certificate in the form required by the Indenture certifying that the beneficial owner of the interest in such Global Note is not a U.S. Person (as defined in Regulation S), and Clearstream or Euroclear, as the case may be, must provide to the Trustee a certificate in the form required by the Indenture prior to (i) the payment of interest or principal with respect to such Holder's beneficial interest in the Temporary Regulation S Global Note and (ii) any exchange of such beneficial interest for a beneficial interest in a Regulation S Global Note.

Individual Definitive Notes. The Class S Notes, the Class A Notes, the Class B Notes and the Class C Notes will be initially issued in global form. The Class D Notes (other than Regulation S Class D Notes) will be represented by one or more Definitive Notes and will be subject to certain transfer restrictions as set forth under "Notices to Investors", if DTC or any successor to DTC advises the Issuer in writing that it is at any time unwilling or unable to continue as a depositary for the reasons described in ""-Global Notes" and a successor depositary is not appointed by the Issuers within ninety (90) days or as a result of any amendment to or change in, the laws or regulations of the Cayman Islands or the State of Delaware, as applicable, or of any authority thereunder or thereof having power to tax or in the interpretation or administration of such laws or regulations which become effective on or after the Closing Date, the Issuer or the Note Paying Agent is or will be required to make any deduction or withholding from any payment in respect of the Notes which would not be required if the Notes were in definitive form and the

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825456
Issuers will issue Definitive Notes in registered form in exchange for the Regulation S Global Notes and the Rule 144A Global Notes, as the case may be. Upon receipt of such notice from DTC, the issuers will use their best efforts to make arrangements with DTC for the exchange of interests in the Global Notes for individual Definitive Notes and cause the requested individual Definitive Notes to be executed and delivered to the Note Registrar in sufficient quantities and authenticated by or on behalf of the Note Transfer Agent for delivery to Holders of the Notes. Persons exchanging interests in a Global Note for individual Definitive Notes will be required to provide to the Note Transfer Agent, through DTC, Clearstream or Euroclear, (i) written instructions and other information required by the issuers and the Note Transfer Agent to complete, execute and deliver such individual Definitive Notes, (ii) in the case of an exchange of an interest in a Rule 144A Global Note, such certification as to Qualified Institutional Buyer status and that such Holder is a Qualified Purchaser, as the issuers shall require and (iii) in the case of an exchange of an interest in a Regulation S Global Note, such certification as the issuers shall require as to non-U.S. Person status. In all cases, individual Definitive Notes delivered in exchange for any Global Note or beneficial interests therein will be registered in the names, and issued in denominations in compliance with the minimum denominations specified for the applicable Global Notes, requested by DTC.

Individual Definitive Notes will bear, and be subject to, such legend as the Issuers require in order to assure compliance with any applicable law. Individual Definitive Notes will be transferable subject to the minimum denomination applicable to the Rule 144A Global Notes and Regulation S Global Notes, in whole or in part, and exchangeable for individual Definitive Notes of the same Class at the office of the Note Paying Agent, Note Transfer Agent or the office of any transfer agent, upon compliance with the requirements set forth in the Indenture. Individual Definitive Notes may be transferred through any transfer agent upon the delivery and duly completed assignment of such Notes. Upon transfer of any individual Definitive Note in part, the Note Transfer Agent will issue in exchange therefor to the transferor one or more individual Definitive Notes in the amount being so transferred and will issue to the transferee one or more individual Definitive Notes in the remaining amount not being transferred. No service charge will be imposed for any registration of transfer or exchange, but payment of a sum sufficient to cover any tax or other governmental charge may be required. The Holder of a restricted individual Definitive Note may transfer such Note, subject to compliance with the provisions of the legend thereon. Upon the transfer, exchange or replacement of Notes bearing the legend, or upon specific request for removal of the legend on a Note, the issuer will deliver only Notes that bear such legend, or will refuse to remove such legend, as the case may be, unless there is delivered to the Issuer such satisfactory evidence, which may include an opinion of counsel, as may reasonably be required by the Issuer that neither the legend nor the restrictions on transfer set forth therein are required to assure compliance with the provisions of the Securities Act and the Investment Company Act. Payments of principal and interest on individual Definitive Notes shall be payable by the Note Paying Agents by U.S. dollar check drawn on a bank in the United States of America and sent by mail to the registered Holder thereof, by wire transfer in immediately available funds. In addition, for so long as any Notes are listed on any stock exchange and the rules of such exchange shall so require, in the case of a transfer or exchange of individual Definitive Notes, a Holder thereof may effect such transfer or exchange by presenting such Notes at, and obtaining a new individual Definitive Note from the office of the Issuing and Paying Agent, in the case of a transfer of only a part of an Individual Definitive Note, a new Individual Definitive Note in respect of the balance of the principal amount of the individual Definitive Note not transferred will be delivered at the office of applicable stock exchange, and in the case of a replacement of any lost, stolen, mutilated or destroyed individual Definitive Notes, a Holder thereof may obtain a new individual Definitive Note from the Issuing and Paying Agent.

The Class D Notes (other than Regulation S Class D Notes). The Class D Notes (other than Regulation S Class D Notes) will be represented by one or more notes in definitive form and will be subject to certain restrictions on transfer as set forth under "Notice to Investors."

The Class D Notes (other than Regulation S Class D Notes) may be transferred only upon receipt by the Issuer and the Note Transfer Agent of a Class D Notes Purchase and Transfer Letter to the effect that the transfer is being made (i) to a Qualified Institutional Buyer that has acquired an interest in the Class D Notes in a transaction meeting the requirements of Rule 144A who is also a Qualified Purchaser.
Footnote Exhibits - Page 5547

or (ii) to a non-U.S. Person in an offshore transaction complying with Rule 903 or Rule 904 of Regulation S. The transferee must also make certain other representations applicable to such transferee, as set forth in the Class D Notes Purchase and Transfer Letter.

Payments on the Class D Notes (other than Regulation S Class D Notes) on any Payment Date will be made to the person in whose name the relevant Note is registered as of the close of business on Business Days prior to such Payment Date.

The Income Notes (other than the Regulation S Income Notes). The Income Notes (other than the Regulation S Income Notes) will be represented by one or more Income Note Certificates in definitive form and the Income Notes will be subject to certain restrictions on transfer as set forth under "Notes to Investors."

Income Notes (other than Regulation S Income Notes) may be transferred only upon receipt by the Issuer and the Fiscal Agent of an Income Notes Purchase and Transfer Letter to the effect that the transfer is being made (i) to a Qualified Institutional Buyer that has acquired an interest in the Income Notes in a transaction meeting the requirements of Rule 144A, or (ii) to an Accredited Investor having a net worth of not less than U.S.$10 million in a transaction exempt from registration under the Securities Act, who is a Qualified Purchaser, or (iii) to a non-U.S. Person in an offshore transaction complying with Rule 903 or Rule 904 of Regulation S. The transferee must also make certain other representations applicable to such transferee, as set forth in the Income Notes Purchase and Transfer Letter.

The Income Notes will be issued in minimum denominations of U.S.$100,000 and integral multiples of U.S.$1 in excess thereof. Payments on the Income Notes (other than Regulation S Income Notes) on any Payment Date will be made to the person in whose name the relevant Income Note is registered in the income note register as of the close of business on the first calendar day of the month in which such Payment Date occurs (or if such day is not a Business Day, the next succeeding Business Day).

USE OF PROCEEDS

The gross proceeds associated with the offering of the Securities are expected to equal approximately U.S.$1,007,769,000. Approximately U.S.$1,856,000 of such gross proceeds will be applied by the Issuer to pay upfront fees and expenses associated with the offering of the Securities. In addition, on the Closing Date, approximately U.S.$200,000 of the proceeds from the issuance of the Securities will be deposited into the Expense Reserve Account. On the Closing Date or promptly thereafter as is consistent with customary settlement procedures, pursuant to agreements to purchase entered into on or before the Closing Date, the Issuer will apply the net proceeds to purchase the Collateral Assets which are cash assets described herein having an aggregate Principal Balance of approximately U.S.$10,000,000 and to purchase the Default Swap Collateral and Eligible Investments of approximately U.S.$330,000,000 and will have entered into the Cashflow Swap Agreement.

RATINGS OF THE NOTES

It is a condition to the issuance of the Notes that the Class S Notes, the Class A-1 Notes and the Class A-2 Notes be rated "Aaa" by Moody’s and "AAA" by S&P, that the Class B Notes be rated at least "Aa2" by Moody’s and at least "AA" by S&P, that the Class C Notes be rated at least "A1" by Moody’s and at least "A" by S&P and that the Class D Notes be rated at least "Baa" by Moody’s and at least "BBB" by S&P. The Income Notes will not be rated. A rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time.

Moody’s Ratings

The ratings assigned to the Notes by Moody’s are based upon its assessment of the probability that the Collateral Assets will provide sufficient funds to pay such Securities, based largely upon Moody’s statistical analysis of historical default rates on debt obligations with various ratings, expected recovery

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825458
rates on the Collateral Assets and the asset and interest coverage required for such Securities (which is achieved through the subordination of more junior Notes), and the diversification requirements that the Collateral Assets must satisfy.

Moody's rating of (i) the Class S Notes, the Class A Notes and the Class B Notes addresses the ultimate cash receipt of all required principal payments and the timely cash receipt of all interest payments as provided in the governing documents and (ii) the Class C Notes and the Class D Notes addresses the ultimate cash receipt of all required interest and principal payments as provided in the governing documents. Moody's ratings are based on the expected loss posed to the Holders of the Notes relative to the promise of receiving the present value, calculated using a discounted rate equal to the promised interest rate of such payments. Moody's analyzes the likelihood that each debt obligation included in the portfolio will default, based on historical default rates for similar debt obligations, the historical volatility of such default rates (which increases as securities with lower ratings are added to the portfolio) and an additional default assumption to account for future fluctuations in defaults. Moody's then determines the level of credit protection necessary to achieve the expected loss associated with the rating of the structured securities, taking into account the potential recovery value of the Collateral Assets and the expected volatility of the default rate of the portfolio based on the level of diversification by issuer and industry.

In addition to these quantitative tests, Moody's ratings take into account qualitative features of a transaction, including the experience of the Collateral Manager, the legal structure and the risks associated with such structures, its view as to the quality of the participants in the transaction and other factors that it deems relevant.

S&P Ratings

S&P will rate the Notes in a manner similar to the manner in which it rates other structured issues. The ratings assigned to the Class S Notes, the Class A Notes and the Class B Notes by S&P address the likelihood of the timely payment of interest and the ultimate payment of principal on such Notes. The ratings assigned to the Class C Notes and the Class D Notes by S&P address the likelihood of the ultimate payment of interest and principal on such Notes. This requires an analysis of the following:

(i) credit quality of the Collateral Assets securing the Notes; (ii) cash flow used to pay liabilities and the priorities of these payments; and (iii) legal considerations. Based on these analyses, S&P determines the necessary level of credit enhancement needed to achieve a desired rating.

S&P's analysis includes the application of its proprietary default expectation computer model, the Standard & Poor's CDO Monitor (which will be provided to the Collateral Manager), which is used to estimate the default rate of the portfolio is likely to experience. The Standard & Poor's CDO Monitor calculates the projected cumulative default rate of a pool of Collateral Assets consistent with a specified benchmark rating level based upon S&P's proprietary corporate debt default studies. The Standard & Poor's CDO Monitor takes into consideration the rating of each issuer or obligor, the number of issuers or obligors, the issuer or obligor industry concentration and the remaining weighted average maturity of each of the Collateral Assets and Eligible Investments included in the portfolio. The risks posed by these variables are accounted for by effectively adjusting the necessary default level needed to achieve a desired rating. The higher the desired rating, the higher the level of defaults the portfolio must withstand.

Credit enhancement to support a particular rating is then provided based, in part, on the results of the Standard & Poor's CDO Monitor, as well as other more qualitative considerations such as legal issues and management capabilities. Credit enhancement is typically provided by a combination of overcollateralization/subordination, cash collateralize/variable account, excess spread/interest and amortization. A transaction-specific cash flow model (the "Transaction-Specific Cash Flow Model") is used to evaluate the portfolio and determine whether it can withstand an estimated level of default while fully repaying the class of debt under consideration.
Footnote Exhibits - Page 5549

There can be no assurance that actual loss on the Collateral Assets will not exceed those assumed in the application of the Standard & Poor's CDO Monitor or that recovery rates and the timing of recovery with respect thereto will not differ from those assumed in the Transaction-specific Cash Flow Model. The issuers make no representation as to the expected rate of defaults on the portfolio or as to the expected timing of any defaults that may occur.

S&P's rating of the Notes will be established under various assumptions and scenario analyses. There can be no assurance, and no representation is made, that actual defaults on the Collateral Assets will not exceed those in S&P's analysis, or that recovery rates with respect thereto (and, consequently, loss rates) will not differ from those in S&P's analysis.

SECURITY FOR THE NOTES

Under the terms of the Indenture, the Issuer will grant to the Trustee, for the benefit of the Secured Parties (but not the Holders of the Income Notes), a first priority perfected security interest in the Collateral (subject to the Synthetic Security Counterparty's interest in the Default Swap Collateral), including the Collateral Assets, that is free of any adverse claim, to secure the Issuer's obligations under the Indenture, the Notes and the Cashflow Swap Agreement.

On the Closing Date, the Issuer expects to acquire approximately U.S.$1,000,000,000 in aggregate Principal Balance of Collateral Assets. The Collateral Assets are expected to consist of CDO Securities and Synthetic Securities (the Reference Obligations of which are CDO Securities). Certain information with respect to the Collateral Assets and the Reference Obligations is included in Appendix B hereof. This information was provided by, or derived from information provided by, the Issuer, underwriters and/or the servicers for each underlying Collateral Asset. None of the Issuer, the Initial Purchaser, the Collateral Manager, the Collateral Administrator, the Cashflow Swap Counterparty, the Synthetic Security Counterparty (or any guarantor thereof), the Trustee, any of their affiliates or any party on their behalf has made any independent review or verification as to the accuracy and completeness of the information contained below. Accordingly, prospective purchasers must make their own evaluation regarding the extent to which they will rely on such information in making an investment decision.

The Collateral Assets

The Collateral Assets had an aggregate Principal Balance of approximately U.S.$1,000,000,000 (an aggregate "Collateral Asset Principal Balance") on or about March 31, 2007 (the "Reference Date"). The Reference Date balances of the Collateral Assets reflect their Principal Balances after giving effect to distributions received on March 31, 2007 and (without duplication) after application of all payments due on the Collateral Assets before the Reference Date, whether or not received. However, the first distributions on the Collateral Assets available to make payments on the Notes will be those made from March 31, 2007 through the end of the first Due Period. The use of a later Reference Date would result in a lower Reference Date balance for certain Collateral Assets and, consequently, a lower aggregate Collateral Asset Principal Balance. Unless otherwise stated herein, statistical information relating to the Collateral Assets is calculated on the basis of the Principal Balances of such Collateral Assets.

For purposes of the information set forth herein, unless otherwise specified, Synthetic Securities included in the Collateral Assets are treated in the category in which the related Reference Obligation would be treated. All of the Synthetic Securities, constituting approximately 93.00% of the Collateral Assets (by Principal Balance) on the Closing Date will referenda Reference Obligations which are CDO Securities.

On the Closing Date, the CDO Securities and the Reference Obligations which are CDO Securities include 56 whole and partial classes of CDO Securities, representing 100% of the Principal Balance of the Collateral Assets as of the Closing Date. The following is a list of the respective classes and series of CDO Securities included in the Collateral Assets:

*For purposes hereof, the Weighted Average Life of each Collateral Asset has been calculated individually in accordance with market convention. Such methodology may differ as between each Collateral Asset and may not reflect the actual Weighted Average Life of each Collateral Asset.*

Each of the CDO Securities are debt securities issued by a special purpose issuer, all of the assets of which are pledged to repay the CDO Securities and other classes of securities issued by such issuer. Certain of the CDO Securities provide for a revolving period during which certain proceeds of the underlying assets are reinvested in additional assets, and for a lockout period during which the CDO Securities will be redeemed or receive principal payments only in limited circumstances. While the classes of CDO Securities included in the Collateral Assets are each rated investment grade as of the date hereof, certain of the CDO Securities are subordinate in right of payment and rank junior to other securities in the same issuance, and all of the CDO Securities are senior to other more subordinate securities of the same issuance. Certain CDO Securities included in the Collateral Assets provide for the deferral of interest under certain circumstances and the failure to pay current interest on such classes of CDO Securities generally will not be an event of default so long as any more senior classes of securities are outstanding. The deferral of interest payments, if it occurs, would adversely affect the cash flow available to the Issuer.

Appendix D. The information included in Appendix B to this Offering Circular and elsewhere herein does not purport to be complete and is subject to and qualified in its entirety by reference to the provisions of the various agreements pursuant to which each of the Collateral Assets and the Reference Obligations were issued as to the other documents referred to herein pursuant to which certain classes of the Collateral Assets and the Reference Obligations were originally offered. Prospective investors are strongly urged to read them in their entirety to obtain material information concerning the Collateral Assets and the Reference Obligations. Investors should note, however, that, although they are substantially consistent in their overall presentation of information, this Offering Circular and such Disclosure Documents may vary in their use of defined terms, and any particular defined term should be read in the context of the document in which it is contained. Notwithstanding the foregoing, none of the respective issuers of the Collateral Assets or the Reference Obligations has passed on the accuracy or completeness of this Offering Circular or in any way associated with the offering of the Securities, nor does any such issuer make any representation or warranty as to the appropriateness of any document for use in connection with the offering of the Securities or take any responsibility for such use. The Issuers, the Initial Purchaser, the Collateral Manager, the Collateral Administrator, or the Trustee takes any responsibility for, or makes any representation or warranty as to the accuracy or completeness of, any of the Disclosure Documents used in connection with the original offerings of the Collateral Assets.

All numerical information provided herein with respect to the Collateral Assets and the Reference Obligations is provided on an approximate basis as of, unless otherwise specified, the Reference Date. All weighted average information provided herein with respect to the Collateral Assets and the Reference Obligations reflects weighting by the related Reference Date Balance.

The information contained herein with respect to the Collateral Assets and the Reference Obligations has been derived from a variety of sources including the disclosure documents, and reports from and communications with the related trustees, services, master servicer or special servicer. The Issuers, the Collateral Manager, the Collateral Administrator, the Initial Purchaser and the Trustee are limited in their ability to independently verify the information obtained from the above-referenced sources.
The Coverage Tests

The Coverage Tests will be used primarily to determine whether interest may be paid on the Class C Notes and the Class D Notes and whether Proceeds will be paid to the Holders of the Income Notes, and whether Proceeds must be used to make mandatory redemptions of the Class S-2 Notes, the Class A-1 Notes, the Class A-2 Notes, the Class B Notes, the Class C Notes and the Class D Notes. See "Description of the Securities—Principal" and "—Priority of Payments." The Coverage Tests will consist of the Class A/B Overcollateralization Test, the Class C Overcollateralization Test and the Class D Overcollateralization Test. For purposes of the Coverage Tests, the Class A Adjusted Overcollateralization Ratio, the Class B Adjusted Overcollateralization Ratio, the Class C Adjusted Overcollateralization Ratio and the Class D Adjusted Overcollateralization Ratio, (i) unless otherwise specified, a Synthetic Security shall be included as a Collateral Asset having the characteristics of the Reference Obligation (including, for the purposes of determining whether such Synthetic Security is a Defeasible Obligation and not of the Synthetic Security; provided, that if such Synthetic Security Counterparty is in default under the related Synthetic Security, such Synthetic Security shall not be included in the Coverage Tests or such Synthetic Security will be treated in such a way that will satisfy the Rating Agency Condition and (ii) the calculation of the Class A/B Overcollateralization Ratio, the Class C Overcollateralization Ratio and the Class D Overcollateralization Ratio on any Determination Date that such Coverage Test is applicable shall be made by giving effect to all payments scheduled or expected to be made pursuant to the Priority of Payments on the Payment Date following such Determination Date with certain exceptions. See "Description of the Securities—Principal" and "—Priority of Payments." For purposes of each of the Class A/B Overcollateralization Test, the Class C Overcollateralization Test and the Class D Overcollateralization Test, notwithstanding the definition of Principal Balance contained herein, the Principal Balance of any security that is not currently paying cash interest (excluding any security that is, in accordance with its terms, making payments due thereon "in kind") shall be the accrued value of such security as of the date on which it was purchased by the Issuer; provided, that such accrued value shall not exceed the par amount of such security.

The Class A/B Overcollateralization Test

The "Class A/B Overcollateralization Ratio" as of any Determination Date will equal the ratio (expressed as a percentage) obtained by dividing (i) the Net Outstanding Portfolio Collateral Balance on such Determination Date (for the purposes of such calculation, the Net Outstanding Portfolio Collateral Balance will not include Principal Proceeds held as cash and eligible Investments) by (ii) the sum of the Aggregate Outstanding Amount of the Class A Notes and the Class B Notes minus Principal Proceeds expected to be available prior to clause (vi) of the Priority of Payments on the related Payment Date assuming that the Coverage Tests are satisfied.

The "Class A/B Overcollateralization Test" will be satisfied on any Determination Date on which any Class A Notes or Class B Notes remain outstanding if the Class A/B Overcollateralization Ratio on such Determination Date is equal to or greater than 106.4%. As of the Closing Date, the Class A/B Overcollateralization Ratio is expected to be equal to 109.5%

The Class C Overcollateralization Test

The "Class C Overcollateralization Ratio" as of any Determination Date will equal the ratio (expressed as a percentage) obtained by dividing (i) the Net Outstanding Portfolio Collateral Balance on such Determination Date (for the purposes of such calculation, the Net Outstanding Portfolio Collateral Balance will not include Principal Proceeds held as cash and eligible Investments) by (ii) the sum of the Aggregate Outstanding Amount of the Notes (other than the Class S Notes and the Class D Notes and including Class C Defeasible Interests), minus Principal Proceeds expected to be available prior to clause (vi) of the Priority of Payments on the related Payment Date assuming that the Coverage Tests are satisfied.

The "Class C Overcollateralization Test" will be satisfied on any Determination Date on which any Class C Notes remain outstanding if the Class C Overcollateralization Ratio on such Determination Date is equal to or greater than 103.3%. As of the Closing Date, the Class C Overcollateralization Ratio is expected to be equal to 105.5%.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825463
The Class D Overcollateralization Test

The "Class D Overcollateralization Ratio" as of any Determination Date will equal the ratio (expressed as a percentage) obtained by dividing (i) the Net Outstanding Portfolio Collateral Balance on such Determination Date (for the purposes of such calculation, the Net Outstanding Portfolio Collateral Balance will not include Principal Proceeds held as cash and Eligible Investments) by (ii) the sum of the Aggregate Outstanding Amount of the Notes (other than the Class D Notes and including Class C Deferred Interest and Class D Deferred Interest), minus Principal Proceeds expected to be available prior to clause (ii) of the Priority of Payments on the related Payment Date assuming that the Coverage Tests are satisfied.

The "Class D Overcollateralization Test" will be satisfied on any Determination Date on which any Class D Notes remain outstanding if the Class D Overcollateralization Ratio on such Determination Date is equal to or greater than 101.1%. As of the Closing Date, the Class D Overcollateralization Ratio is expected to be equal to 122.2%.

Disposition of CDO Securities and Removal of Reference Obligations

The Collateral Assets may be retired, or in the case of a Synthetic Security, removed from the reference portfolio, prior to their respective final maturities due to, among other things, the existence and frequency of exercise of any optional or mandatory redemption features of such Collateral Assets and the Reference Obligations related thereto. In addition, pursuant to the indenture and subject to the restrictions contained therein, so long as no Event of Default has occurred and is continuing, the Collateral Manager may direct the Issuer to sell Credit Risk Obligations, Defaulted Obligations or equity securities or assign or terminate Synthetic Securities the Reference Obligations of which are Credit Risk Obligations, Defaulted Obligations or equity securities. The assignment, termination or disposition price for any such sale or removal of a Collateral Asset will equal the fair market value of such Collateral Asset. The fair market value of any such Collateral Asset will be the highest bid received by the Collateral Manager after attempting to solicit a bid from up to three independent third parties making a market in such Collateral Asset, at least one of which is not from the Collateral Manager, provided that, if upon commercially reasonable efforts of the Collateral Manager, bids from three independent third parties making a market in such Collateral Asset are not available, the higher of the bids from two such third parties may be used; provided further that, if upon commercially reasonable efforts of the Collateral Manager, bids from two independent third parties making a market in such Collateral Asset are not available, one such bid may be used so long as it is not from the Collateral Manager. The proceeds from any such sale of Collateral Asset will be applied as Principal Proceeds on the next succeeding Payment Date. A "Credit Risk Obligation" is a Collateral Asset and, in the case of Synthetic Securities, a Reference Obligation (i) the rating of which has been downgraded, qualified or withdrawn by any Rating Agency or has been put on "negative credit watch" or similar status for possible downgrading, qualification or withdrawal from the ratings that were in place as of the date the Issuer purchased such Collateral Asset or entered into such Synthetic Security and in respect of which the Collateral Manager believes that, since such Collateral Asset was purchased or such Synthetic Security was entered into by the Issuer, it has a material risk of declining in credit quality or, with a lapse of time, a risk of becoming a Defaulted Obligation or (ii) in respect of which the Collateral Manager believes that, since such Collateral Asset was purchased or such Synthetic Security was entered into by the Issuer, it has a material risk of declining in credit quality or, with a lapse of time, a risk of becoming a Defaulted Obligation; provided that, if Moody's has withdrawn or reduced its long-term ratings on any of the Class C Notes, the Class A Notes or the Class B Notes by two or more subcategories below the ratings in effect on the Closing Date (disregarding any withdrawal or reduction if subsequent thereto Moody's has upgraded any such reduced or withdrawn ratings to at least one subcategory below the initial long-term rating) or if Moody's has withdrawn or reduced its long-term ratings on any of the Class C Notes or the Class D Notes by three or more subcategories below the ratings in effect on the Closing Date (disregarding any withdrawal or reduction if subsequent thereto Moody's has upgraded any such reduced or withdrawn ratings to at least two subcategories below the initial long-term rating), (a) such Reference Obligation or Collateral Asset has been downgraded by Moody's at least one or more rating subcategories since it was acquired by the

GS MBS-E-021825464
Issuer or placed by Moody's on a watch list with negative implications since the date on which such Reference Obligation or Collateral Asset was purchased by the issuer, (b) the Holders of a Majority of the Controlling Class vote to waive the requirement of subclause (a) of this provision or (c) such Reference Obligation or Collateral Asset has experienced an increase in credit spread of 10% or more compared to the credit spread at which such Reference Obligation or Collateral Asset was purchased by the issuer, determined by reference to an applicable index selected by the Collateral Manager (subject to the satisfaction of the Rating Agency Condition with respect to Moody's). The proceeds from the disposition of a Collateral Asset may not be reinvested in other Collateral Asset.

The Issuer may also (i) in the case of an Auction, at the direction of the Collateral Manager, direct the Trustee to sell, terminate or assign and the Trustee shall sell, terminate or assign in the manner directed by the Collateral Manager in writing, the Collateral Assets and liquidate the remaining Collateral in connection with an Auction; provided, that the criteria for an Auction can be demonstrably met prior to any such sale and that the expected Liquidation Proceeds equal or exceed the Minimum Bid Amount; (ii) in the case of a Tax Redemption, at the direction, or with the consent, of the Collateral Manager on any Payment Date, direct the Trustee to sell, terminate or assign, and the Trustee shall sell, terminate or assign in the manner directed by the Collateral Manager in writing, the Collateral Assets and liquidate the remaining Collateral in connection with a Tax Redemption, provided that the criteria for a Tax Redemption can be demonstrably met prior to any such sale and that the expected Liquidation Proceeds equal or exceed the Total Redemption Amount; and (iii) in the case of an Optional Redemption by Liquidation, at the direction of the Collateral Manager, direct the Trustee to sell, terminate or assign and the Trustee shall sell, terminate or assign in the manner directed by the Collateral Manager in writing, the Collateral Assets and liquidate the remaining Collateral in connection with an Optional Redemption by Liquidation; provided that the criteria for an Optional Redemption by Liquidation can be demonstrably met prior to any such sale and that the expected Liquidation Proceeds equal or exceed the Total Redemption Amount. See "Description of the Securities—Auction," "—Tax Redemption" and "—Optional Redemption by Liquidation."

Accounts

Pursuant to the Indenture, the Issuer shall cause to be opened and at all times maintained the Collection Account, the Payment Account, the Expense Reserve Account, the Collateral Account, the Cashflow Swap Collateral Account, the Cashflow Swap Termination Receipts Account, the Cashflow Swap Replacement Account, the Cashflow Swap Collateral Account, the Default Swap Collateral Account and the Synthetic Security Collateral Account (each as hereinafter defined), each of which shall be a segregated account or sub-account established with the Securities Intermediary in the name of the Trustee for the benefit of the Secured Parties as further described in the Indenture. Each Account is required to be maintained by the Trustee or by another financial institution that is an Eligible Depository.

All distributions on the Collateral Assets and any proceeds received from the disposition of any Collateral Asset, all net proceeds from, and associated with the issuance of the Notes and the income Notes not used on the Closing Date to purchase Collateral Assets or Default Swap Collateral or to enter into Cashflow Swap Agreement or to be deposited to the Default Swap Collateral Account, the initial payment, if any, pursuant to the Cashflow Swap Agreement, any Cashflow Swap Receipt Amounts received prior to a Payment Date and any other amounts transferred to the Collection Account, the Payment Account, the Expense Reserve Account, the Collateral Account, the Cashflow Swap Termination Receipts Account, the Cashflow Swap Replacement Account, the Cashflow Swap Collateral Account, the Default Swap Collateral Account and the Synthetic Security Collateral Account as provided for in the Indenture will be remitted to an account (the "Collection Account") and will be available, together with reinvestment earnings thereon, for application in accordance with the Priority of Payments.

On the Business Day prior to each Payment Date other than a Final Payment Date (the "Transfer Date"), the Trustee will deposit into a separate account (the "Payment Account") all funds (including any reinvestment income) in the Collection Account (to the extent received prior to the end of the related Due Period) and any Cashflow Swap Receipt Amount received on the Transfer Date related to such Payment Date for application in accordance with the Priority of Payments.

Principal Proceeds shall be deposited in the Collection Account and applied in accordance with the Priority of Payments except as otherwise provided herein.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825465
On the Closing Date, U.S. $200,000 from the net proceeds of the offering of the Securities will be deposited by the Trustee into a single, segregated account established and maintained by the Trustee under the Indenture (the “Expense Reserve Account”). On each Payment Date, to the extent that funds are available for such purpose in accordance with and subject to the limitations of the Priority of Payments, the Trustee will deposit into the Expense Reserve Account an amount from Proceeds such that the amount on deposit in the Expense Reserve Account (after giving effect to such deposit) will equal U.S. $200,000. Amounts on deposit in the Expense Reserve Account may be withdrawn from time to time to pay accrued and unpaid Administrative Expenses of the Issuer. With respect to the first Payment Date, funds on deposit in the Expense Reserve Account in excess of U.S. $200,000 will be transferred by the Trustee to the Payment Account for application as Interest Proceeds. All funds on deposit in the Expense Reserve Account at the time when substantially all of the Issuer’s assets have been sold or otherwise disposed of will be transferred by the Trustee to the Payment Account for application as Proceeds on the immediately succeeding Payment Date.

The Synthetic Securities will require that the Issuer purchase or post Default Swap Collateral as security for its obligations under such Synthetic Security which complies with the criteria set forth in the Indenture and the Synthetic Securities. The Default Swap Collateral shall be deposited in a segregated trust account (the “Default Swap Collateral Account”). The Default Swap Collateral Account shall be established in the name of the Trustee.

Any Cashflow Swap Collateral pledged by the Cashflow Swap Counterparty will be deposited by the Trustee into a segregated account (the “Cashflow Swap Collateral Account”) established in the name of the Trustee and held therein pursuant to the terms of the Cashflow Swap Agreement.

Under certain conditions described in the Synthetic Securities, the Synthetic Security Counterparty may be required to post collateral (“Synthetic Security Collateral”) under the terms of the related Synthetic Security. The Synthetic Security Collateral pledged by such Synthetic Security Counterparty will be deposited by the Trustee into a segregated account (the “Synthetic Security Collateral Account”) established in the name of the Trustee and held therein pursuant to the terms of the related Synthetic Security. A separate sub-account of the Synthetic Security Collateral Account shall be established for each Synthetic Security Counterparty.

Amounts retained in the Accounts during a Due Period will be invested in Eligible Investments.

Synthetic Securities

The following description of the Synthetic Securities is a summary of certain provisions of the Synthetic Securities but does not purport to be complete and prospective investors must rely on the Synthetic Securities for more detailed information. Copies of the Master Agreement and Master Confirmation will be available to investors from the Trustee. Capitalized terms not otherwise defined in this section will have the meanings set forth in the Master Agreement or Master Confirmation.

The Synthetic Securities will be structured as “pay-as-you-go” credit default swaps and will be documented pursuant to a 1992 ISDA Master Agreement (Multicurrency-Cross Border), including the Schedule thereto (the “Master Agreement”), between the Issuer and the Synthetic Security Counterparty, along with a confirmation (the “Master Confirmation”) evidencing a transaction with respect to each Reference Obligation referenced thereunder.

Each Synthetic Security will have a specified Reference Obligation Notional Amount that represents the dollar amount of the credit exposure which the Issuer is assuming thereunder with respect to the Reference Obligation related to such Synthetic Security. The “Aggregate Reference Obligation Notional Amount” is the sum of the Reference Obligation Notional Amounts of all Synthetic Securities. On or before the Closing Date, the Issuer expects to enter into Synthetic Securities with an Aggregate Reference Obligation Notional Amount of approximately U.S. $395,000,000. After the Closing Date, in accordance with the terms of the Master Confirmation, the Reference Obligation Notional Amount of each Synthetic Security will be: (i) decreased on each day on which a Reference Obligation Principal Payment is made by an amount equal to the relevant Reference Obligation Principal Amortization Amount; (ii) decreased on each day on which a Failure to Pay Principal occurs by an amount equal to the relevant...
Principal Shortfall Amount; (ii) decreased on each day on which a Writedown occurs by an amount equal to the relevant Writedown Amount; (iv) increased on each day on which a Writedown Reimbursement occurs by an amount equal to any Writedown Reimbursement Amount in respect of a Writedown Reimbursement within paragraph (i) or (ii) of the definition of "Writedown Reimbursement"; and (v) decreased on each Delivery Date by an amount equal to the relevant Exercise Amount minus the relevant amount determined pursuant to paragraph (i) under the heading, "Settlement Terms—Physical Settlement Amount" in the Master Confirmation; provided that, in accordance with the Master Confirmation, if any Relevant Amount is applicable, the Exercise Amount will also be deemed to be decreased by such Relevant Amount (or increased by the absolute value of such Relevant Amount if such Relevant Amount is negative) with effect from such Delivery Date.

The effective date of the Synthetic Securities will be the Closing Date and the Synthetic Securities will terminate by their terms on the scheduled termination date thereof referenced in the Master Confirmation (the "Scheduled Termination Date") unless a Credit Event occurs with respect to a Synthetic Security and the final physical settlement date is scheduled to occur after such date.

For purposes of the Coverage Tests and for purposes of determining whether a Synthetic Security is aDefaulted Obligation or a Credit Risk Obligation, a Synthetic Security shall be included as a Collateral Asset having the characteristics of the Reference Obligation and not of the Synthetic Security, provided, that if such Synthetic Security Counterparty is in default under the related Synthetic Security, such Synthetic Security shall not be included in the Coverage Tests or such Synthetic Security will be treated in such a way that will satisfy the Rating Agency Condition.

All principal payments on the Default Swap Collateral in the Default Swap Collateral Account will be invested in Eligible Investments at the direction of the Trustee until invested in Default Swap Collateral satisfying the Default Swap Collateral Eligibility Criteria at the direction of the Collateral Manager with the consent of the Synthetic Security Counterparty. Notwithstanding the foregoing, if and so long as the unsecured, undiluted debt rating of the Synthetic Security Counterparty or the credit support provider for the Synthetic Security Counterparty, whichever is higher, assigned by Moody's is below "A1", all principal payments on the Default Swap Collateral and Eligible Investments in the Default Swap Collateral Account will be maintained in Cash and Eligible Investments (unless otherwise required to be applied, in accordance with the terms of the Indenture, to either (i) payment of the Notes or other amounts in accordance with the Priority of Payments or (ii) the payment of Credit Protection Amounts) until such time as the balance of the Cash and Eligible Investments in the Default Swap Collateral Account is equal to the Aggregate Outstanding Amount of the Class A Notes and the Class B Notes. Furthermore, all principal payments on the Default Swap Collateral and Eligible Investments in the Default Swap Collateral Account will be maintained in Cash and Eligible Investments (unless otherwise required to be applied, in accordance with the terms of the Indenture, to either (i) payment of the Notes or other amounts in accordance with the Priority of Payments or (ii) the payment of Credit Protection Amounts) such that the balance of the Cash and Eligible Investments in the Default Swap Collateral Account is at least equal to 120% of the projected amortization of the Aggregate Reference Obligation Normal Amount for the following six month period (recalculated on each Determination Date). Principal Shortfall Reimbursement Payment Amounts and Writedown Reimbursement Payment Amounts received by the Issuer from the Synthetic Security Counterparty will be deposited in the Default Swap Collateral Account.

Payments by the Synthetic Security Counterparty

Pursuant to the Synthetic Securities, on each Fixed Rate Payer Payment Date the Synthetic Security Counterparty will make a fixed rate payment (net of any related Interest Shortfall Amounts as described below and in the Master Confirmation) (the "Fixed Amount") to the Issuer, representing the aggregate Fixed Amounts payable with respect to the Reference Obligation Payment Date for the related Fixed Rate Payer Calculation Period. The Synthetic Security Counterparty will make certain other payments under the Synthetic Securities to the Issuer at the times and in the amounts described herein, including any Interest Shortfall Reimbursement Payment Amounts, Writedown Reimbursement Payment Amounts and any Principal Shortfall Reimbursement Payment Amounts (together "Additional Fixed Amounts"). In connection with any termination or assignment of a Synthetic Securities, proceeds, if any, from such termination or assignment will be deposited into the Default Swap Collateral Account.

Confidential Treatment Requested by Goldman Sachs
Upon the occurrence of any Interest Shortfall with respect to any Reference Obligation, the Fixed Amount payable under the related Synthetic Security by the Synthetic Security Counterparty to the Issuer will be reduced by an amount equal to the related Interest Shortfall Payment Amount, such reduction amount not to exceed the Fixed Amount. If “fixed cap” is applicable, or such reduction amount not to exceed the applicable floating cap, if “variable cap” is applicable, as described in each Synthetic Security, Interest may accrue on any Interest Shortfall Payment Amount at a rate equal to LIBOR plus the fixed rate as specified in the applicable Synthetic Security. If any amount in satisfaction of the Interest Shortfall which gave rise to any Interest Shortfall Payment Amount, including interest accrued thereon, is later paid with respect to a Reference Obligation, the Synthetic Security Counterparty will pay such amount, or in certain circumstances a portion of such amount, to the Issuer as an Interest Shortfall Reimbursement. Interest Shortfall Reimbursement Amounts will not exceed the cumulative Interest Shortfall Amounts (including any interest thereon) previously determined in relation to such Reference Obligation.

So long as the long-term ratings of the Synthetic Security Counterparty or any guarantor of the Synthetic Security Counterparty’s obligation under a Synthetic Security are equal to, or higher than, (i) “Aa3” by Moody’s (and, if rated “Aa3” by Moody’s, is not on watch for possible downgrade) and (ii) “A+” by S&P (and, if rated “A+” by S&P, is not on watch for possible downgrade), the Fixed Amount due by the Synthetic Security Counterparty will be payable in arrears. However, if the long-term ratings of the Synthetic Security Counterparty or any guarantor fell below any such levels, the Synthetic Security Counterparty will be required to pay the Fixed Amount due under the Synthetic Securities in arrears. The failure of the Synthetic Security Counterparty to pay the Fixed Amount in advance if such rating levels are no longer satisfied will constitute an “event of default” under the terms of the Synthetic Securities with the Synthetic Security Counterparty as the sole “Defaulting Party” under such Synthetic Security.

With respect to any Withdrawal Amount or Interest Shortfall Amounts received after the long-term rating of the Synthetic Security Counterparty is below “Aa3” by Moody’s, the Synthetic Security Counterparty will be required to reserve the related Withdrawal Reserve Amount and Interest Shortfall Reserve Amount in the Synthetic Security Counterparty Collateral Account in accordance with the terms of the Synthetic Security Agreement.

Payments by the Issuer

Under the Synthetic Securities, the Issuer will be required to pay certain Floating Amounts to the Synthetic Security Counterparty following the occurrence of a Floating Amount Event with respect to a Reference Obligation as described herein. The Issuer will pay Floating Amounts to the Synthetic Security Counterparty on the Floating Rate Payment Date following the occurrence of a Floating Amount Event with respect to the related Reference Obligation.

Following the occurrence of a Credit Event with respect to a Reference Obligation, the Synthetic Security Counterparty may deliver such Reference Obligation as a Deliverable Obligation to the Issuer in exchange for which the Issuer will pay to the Synthetic Security Counterparty an amount (a “Physical Settlement Amount”), which amount shall be calculated in accordance with the related Synthetic Security and paid on the related Physical Settlement Date. The Synthetic Security Counterparty may elect to physically settle a Synthetic Security only in part, in which case, there may be more than one Physical Settlement Amount payable by the Issuer with respect to such Synthetic Security.

Any Deliverable Obligation delivered to the Issuer will be deemed to be a Collateral Asset and may be retained or sold by the Issuer at the sole discretion of the Collateral Manager without regard to whether such sale would be permitted as a sale of a Delivered Obligation or a Credit Risk Obligation. The proceeds of such sale will be deposited by the Trustee into the Default Swap Collateral Account net of purchased accrued Interest or interest payments thereon. In addition, any principal proceeds or interest received on such Delivered Obligations prior to such sale, will be deposited by the Trustee into the Collateral Account.

In connection with any early termination or assignment of a Synthetic Security, the Issuer may owe a Synthetic Security Termination Payment. Synthetic Security Termination Payments will generally be paid directly and outside of the Priority of Payments, provided that Defaulted Synthetic Security Termination Payments will be paid in accordance with the Priority of Payments.
The obligations of the issuer to make payments under a Synthetic Security will exist irrespective of whether the Synthetic Security Counterparty suffers a loss on the related Reference Obligation upon the occurrence of a Credit Event. The issuer will have no rights of subrogation under the Synthetic Securities.

Credit Events and Floating Amount Events

A Credit Event with respect to any Synthetic Security and a Reference Obligation means the occurrence of any of the events specified in the Master Confirmation as a Credit Event on or before the scheduled termination date for such Synthetic Security. The Credit Events are expected to be Failure to Pay Principal, Withdown, Distressed Ratings Downgrade and Failure to Pay Interest. In addition to Credit Events which may trigger physical settlement, the Synthetic Securities will require the Issuer to pay to the Synthetic Security Counterparty Floating Amounts in connection with the occurrence of Floating Amount Events, which are expected to be Failure to Pay Principal, Withdow and Interest Shortfall. Failure to Pay Principal and Withdown are Floating Amount Events as well as Credit Events. Interest Shortfall is only a Floating Amount Event. The Master Confirmation may alter the standard definitions of such terms and the actual Synthetic Securities should be consulted for the details of the Credit Events applicable thereto. The capitalized terms used in this section and not otherwise defined, have the meanings set forth in the related Synthetic Securities.

A "Credit Event" is the occurrence of any of the following (however caused, directly or indirectly), as applicable:

(i) Failure to Pay Principal

"Failure to Pay Principal" means (a) a failure by the Reference Obligor (or any Insurr) to pay an Expected Principal Amount on the Final Amortization Date or the Legal Final Maturity Date, as the case may be or (b) payment on any such day of an Actual Principal Amount that is less than the Expected Principal Amount; provided that the failure by the Reference Obligor (or any Insurr) to pay any such amount in respect of principal in accordance with the foregoing shall not constitute a Failure to Pay Principal if such failure has been remedied within any grace period applicable to such payment obligation under the underlying instruments or, if no such grace period is applicable, within three Business Days after the day on which the Expected Principal Amount was scheduled to be paid.

(ii) Withdown

"Withdown" means the occurrence at any time on or after the Effective Date of: (A) a withdrawal or applied loss (however described in the underlying instruments) resulting in a reduction in the Outstanding Principal Amount (other than as a result of a scheduled or unscheduled payment of principal); or (B) the attribution of a principal deficiency or realized loss (however described in the underlying instruments) to the Reference Obligation resulting in a reduction of the current interest payable on the Reference Obligation; (ii) the forgiveness of any amount of principal by the holders of the Reference Obligation pursuant to an amendment to the underlying instruments resulting in a reduction in the Outstanding Principal Amount; or (iii) if the underlying instruments do not provide for withdrawals, applied losses, principal deficiencies or realized losses as described in (i) above to occur in respect of the Reference Obligation, an Implied Withdrawal Amount (if Implied Withdrawal Amounts are applicable to the related Synthetic Security) being determined in respect of the Reference Obligation by the Calculation Agent.

(iii) Distressed Ratings Downgrade:

"Distressed Ratings Downgrade" means, with respect to a Reference Obligation:

(i) if publicly rated by Moody's, (A) is downgraded to "Caaz" or below by Moody's or (B) has the rating assigned to it by Moody's withdrawn and, in either case, not reinstated within five Business Days of such downgrade or withdrawal; provided that if such Reference Obligation was assigned a public rating of at least "Baa3" or higher by Moody's immediately prior to the occurrence of such withdrawal, it shall not constitute a Distressed Ratings Downgrade if such Reference Obligation is assigned a public rating of at least "Caaz" by Moody's within three calendar months after such withdrawal; or
(v) Failure to Pay Interest: *Failure to Pay Interest* means, with respect to a Reference Obligation, the occurrence of an Interest Shortfall Amount or Interest Shortfall Amounts (calculated on a cumulative basis) in excess of the relevant Payment Requirement.

Implied Writedown will be applicable with respect to certain Reference Obligations where “*Fixed Cap*” is applicable under the Master Confirmation. Because most CDO Securities do not experience actual writedowns, the Master Confirmation has a modified form of Implied Writedown applicable to CDO Securities, whereby the Synthetic Security Counterparty, acting in its role as calculation agent thereunder, will be required to determine the Implied Writedown Amount by reference to the reported overcollateralization ratio in the servicer report for the Reference Obligation; provided, however, that if the overcollateralization ratio for the Reference Obligation is not reported thereon, the Synthetic Security Counterparty in its capacity as calculation agent may use other amounts, to the extent set forth in the servicer report, to determine an overcollateralization ratio. The overcollateralization ratio in the servicer report generally will take into account the “haircuts” on assets provided in the Underlying Instruments for the Reference Obligation (for example, on assets that have been downgraded, they “*PVA***” have deflated or were purchased at a discount), which will make an Implied Writedown more likely to occur on the Reference Obligation.

Credit Events must be physically settled with respect to a Distressed Ratings Downgrade and Failure to Pay Interest; provided, however, that if the Reference Obligation is a Shortfall Obligation, it will be a condition to physical settlement that a period of at least 360 calendar days have elapsed since the occurrence of the Failure to Pay Interest without reimbursement in full of the relevant Interest Shortfall. In the case of a Writedown or a Failure to Pay Principal, the Synthetic Security Counterparty may elect to receive a Floating Amount Payment from the Issuer rather than physical settlement. Multiple Credit Event notices may be delivered with respect to each Synthetic Security.

The Synthetic Security Counterparty will be required to reimburse the Issuer for all or any portion of any Defaulted Amount Payment if a corresponding payment has been made by the Reference Obligor to holders of the related Reference Obligation within one year after the earlier of (i) the legal final maturity date of the Reference Obligation underlying such Synthetic Security, as set forth in such Synthetic Security, and (ii) the related Final Amortization Date. However, in the case of an Interest Shortfall Reimbursement with respect to a Synthetic Security, the Synthetic Security Counterparty generally will be entitled to receive recovery of any portion of an Interest Shortfall under such Synthetic Security for which it was not compensated by the Issuer before it makes any payment to the Issuer in respect of an Interest Shortfall Reimbursement.

Synthetic Security Early Termination

The Issuer will have the right to terminate the Synthetic Securities upon the occurrence of an “Event of Default” or “Termination Event,” including, but not limited to, (a) payment defaults by the Synthetic Security Counterparty and any guarantor lasting a period of at least three local business days,
(b) a default by the Synthetic Security Counterparty or any guarantor on specific financial transactions as specified in the Synthetic Security, (c) bankruptcy-related events applicable to the Synthetic Security Counterparty or any guarantor, (d) any redemption of the Notes in whole, (e) a liquidation of the Collateral following the occurrence of an Event of Default under the Indenture, (f) it becomes unlawful for the Issuer to perform its obligations under the Synthetic Securities and the Issuer is not able to transfer its obligations to a different jurisdiction or substitute another entity in its place so that such illegality ceases to apply, (g) because of (h) any action taken by the Issuer, (i) a change in law, (j) the unsoundness, bankruptcy, or other condition of the Synthetic Security Counterparty or any guarantor of the Synthetic Security Counterparty, whichever is higher, (k) a downgrade of the Synthetic Security Counterparty's debt rating to below "AA" that is on a downgrade watch at "AA" or "Aa3" or (l) on a downgrade watch at "Aa2", the Synthetic Security Counterparty fails to make an Expected Fixed Amount as set forth in the Synthetic Securities and the Synthetic Security Counterparty, or its guarantor, fails to either (a) transfer all of its rights and obligations under the Synthetic Securities to another entity which has such ratings or (b) cause an entity which has such ratings to guarantee or provide an indemnity in respect of the Synthetic Security Counterparty's or its guarantor's obligations under the Synthetic Securities which satisfies the Rating Agency Condition.

The Synthetic Security Counterparty will have the right to terminate the Synthetic Securities upon the occurrence of an "Event of Default" or "Termination Event" under the Synthetic Securities, including, but not limited to (a) an Event of Default under the Indenture caused by a payment default by the Issuer lasting a period of at least three local business days, (b) any redemption of the Notes in whole, (c) bankruptcy-related events applicable to the Issuer, (d) an Event of Default under the Indenture that occurs and is continuing and there has been a liquidation (in whole), or the commencement of a liquidation (in whole) of the assets of the Issuer, (e) the Indenture is supplemented or amended without the consent of the Synthetic Security Counterparty as described therein, (f) the Synthetic Security Counterparty is no longer a Secured Party under the Indenture or the Trustee's security interest in the Default Swap Collateral or the Default Swap Collateral Account is impaired or no longer existing, (g) it becomes unlawful for the Synthetic Security Counterparty to perform its obligations under the Synthetic Securities and the Synthetic Security Counterparty is not able to transfer its obligations to a different jurisdiction or substitute another entity in its place so that such illegality ceases to apply, or (h) because of (i) any action taken by the Issuer, (j) a change in law, (k) a substantial likelihood that the Synthetic Security Counterparty will be required to make (l) a "gros-up" payment or (m) receive a payment subject to withholding for which another party is not required to make a "gros-up" payment. If the Synthetic Securities are terminated, the Issuer will no longer receive payments from the Synthetic Security Counterparty and will likely not have sufficient funds to make payments when due on the Notes and may not have sufficient funds to redeem the Notes in full.

The Issuer is required to satisfy the Rating Agency Condition prior to any (l) replacement of the Synthetic Security Counterparty or (m) assignment of the Synthetic Securities.

Payments on Synthetic Security Early Termination

Payments by the Issuer. Upon the occurrence of an early termination of a Synthetic Security, the Issuer will be required to pay to the Synthetic Security Counterparty the following amounts:

(i) any Physical Settlement Amounts owed by the Issuer to the Synthetic Security Counterparty for any Credit Events that occur on or prior to the termination date of the Synthetic Securities for which the Conditions to Settlement have been satisfied; and

(ii) any Synthetic Security Termination Payment due to the Synthetic Security Counterparty.
Payments by the Synthetic Security Counterparty. Upon the occurrence of an early termination of a Synthetic Security, the Synthetic Security Counterparty will be required to pay to the Issuer the following amounts:

(i) any accrued but unpaid Fixed Amounts and Additional Fixed Amounts; and
(ii) any Synthetic Security Termination Payment due to the Issuer.

There can be no assurance that, upon early termination by the Issuer or the Synthetic Security Counterparty, either the Synthetic Security Counterparty would be required to make any termination payment to the Issuer or, if it did make such a payment, the amount of the termination payment made by the Synthetic Security Counterparty would be sufficient to pay any amounts due in respect of the Notes. If the Issuer is required to make a Synthetic Security Termination Payment, such termination payment may be substantial and may result in losses to the holders of the Notes.

Amendment

The Synthetic Securities may be amended only with (i) the satisfaction of the Rating Agency Condition and (ii) the consent of the Collateral Manager (which consent shall not be unreasonably withheld), provided however, that with respect to (i), such condition need not be satisfied with respect to any amendment that corrects a manifest error.

Guarantee

The GS Group will guarantee the obligations of the Synthetic Security Counterparty under the Synthetic Security.

The Synthetic Security Counterparty

The initial Synthetic Security Counterparty under the Synthetic Security will be Goldman Sachs International. The swap guarantor with respect to the Synthetic Security is The Goldman Sachs Group, Inc., a Delaware corporation (the "GS Group"), which is an affiliate of the Synthetic Security Counterparty. Goldman Sachs International is located at Peterborough Court 133 Fleet Street, London EC4A 2BB.

The Annual Report on Form 10-K for the fiscal year ended November 30, 2006 filed by GS Group with the SEC (other than, in each case, documents of information deemed to have been furnished and not filed in accordance with SEC rules) will not form part of a prospectus prepared for the purposes of admission to the official list of the Irish Stock Exchange and to trading on its regulated market should any Notes be listed on such exchange.

GS Group, together with its subsidiaries, is a global investment banking, securities and investment management firm that provides financial services worldwide to clients that include corporations, financial institutions, governments and high net-worth individuals.

Any statement contained in a document incorporated or deemed to be incorporated by reference into this Offering Circular, or contained in this Offering Circular, will be deemed to be modified or superseded for purposes of this Offering Circular to the extent that a statement contained herein or in any other subsequently filed document which also is or is deemed to be incorporated by reference herein, modifies or supersedes such statement. Any such statement so modified or superseded will not be deemed, except as so modified or superseded, to constitute a part of this Offering Circular. GS Group's filings with the SEC are available to the public through the SEC's Internet site at http://www.sec.gov, and through the New York Stock Exchange, 20 Broad Street, New York, New York 10005, on which GS Group's common stock is listed.

The Notes do not represent an obligation of, and will not be insured or guaranteed by, GS Group or any of its subsidiaries and investors will have no rights or recourse against GS Group or any of its subsidiaries.

GS MBS-E-021825472
The Default Swap Collateral

Pursuant to the Synthetic Securitization, the Issuer will use the net proceeds from the offering of the Notes to purchase Default Swap Collateral and Eligible Investments which, in the aggregate, will have an initial principal amount of at least U.S.$300,000,000, which shall be deposited to the Default Swap Collateral Account.

The Default Swap Collateral is required to satisfy the following "Default Swap Collateral Eligibility Criteria":

(i) It (a) is rated "Aaa" by Moody's and, if such asset has a short-term rating from Moody's, "P-1", and "AAA" by S&P, and, if such asset has a short-term rating from S&P, it must be "A-1x" and (b) does not have a "Y", "G", "P" or "T" suffix;

(ii) (a) in all cases, the payments with respect to which are not payable in a currency other than U.S. Dollars and (b) it is expected to have an outstanding principal balance of less than U.S.$1,000,000 after the Stated Maturity of the Class B Notes, assuming a constant prepayment rate since the date of purchase equal to the constant prepayment rate reasonably expected by the Collateral Manager as of the date of purchase;

(iii) it is eligible to be entered into by, sold or assigned to, the Issuer;

(iv) it is not subject to an offer;

(v) it is an obligation upon which no payments are subject to withholding tax imposed by any jurisdiction unless the obligor thereof is required to make "gross-up" payments that cover the full amount of any such withholding taxes on an after-tax basis;

(vi) after taking into consideration the addition of any such security (a) at least 40% of the Default Swap Collateral acquired after the Closing Date and Eligible Investments in the Default Swap Collateral Account by principal balance have an expected average life (calculated by the Collateral Manager (1) based on market prepayment assumptions and (2) assuming that Eligible Investments have a weighted average life of zero) of less than or equal to 1.0 years, (b) 100% of the Default Swap Collateral acquired after the Closing Date and Eligible Investments in the Default Swap Collateral Account by principal balance has an expected average life (calculated by the Collateral Manager (1) based on market prepayment assumptions and (2) assuming that Eligible Investments have a weighted average life of zero) of less than or equal to 2.0 years, and (c) after Closing Date, the expected weighted average life (calculated by the Collateral Manager (1) based on market prepayment assumptions and (2) assuming that Eligible Investments have a weighted average life of zero) of the Default Swap Collateral acquired after the Closing Date and Eligible Investments in the Default Swap Collateral Account does not exceed the expected weighted average life of the portfolio of Reference Obligations at such time;

(vii) after taking into consideration the addition of any such security, the aggregate of the weighted average spread and the rate of the related index of the Default Swap Collateral and Eligible Investments in the Default Swap Collateral Account, in the aggregate, is at least equal to LIBOR plus 0.05% per annum (or if prior to acquisition of such form of Default Swap Collateral or Eligible Investment, the spread and the rate of the related index of the Default Swap and Eligible Investments in the Default Swap Collateral Account was less than LIBOR plus 0.05% per annum, such acquisition would maintain or improve the aggregate of the weighted average spread and the rate of the related index of the Default Swap and Eligible Investments in the Default Swap Collateral Account;

(viii) after taking into consideration the addition of any such security, no more than 50% of the Default Swap Collateral and Eligible Investments in the Default Swap Collateral Account by principal balance has single counterparty exposure including servicer, issuer and swap counterparty exposure;

(ix) it provides for payments of monthly periodic interest in cash at a floating rate and for a payment of principal in full and in cash at its final maturity;
(v) (A) either (i) constitutes a Residential Mortgage-Backed Security, a Commercial Mortgage-Backed Security, an Asset-Backed Security or a CDO Security which in each instance was either (a) offered by an underwriter, a placement agent or any person acting in a similar capacity through a public prospectus, a private placement memorandum or any other similar document, as to which neither the Collateral Manager nor any affiliate thereof was other than the underwriter, collateral manager, placement agent or otherwise involved in the negotiation of the terms or the conditions thereof and as to which a substantial amount of the security was acquired by one or more persons unrelated to the Issuer, the Collateral Manager or any other structured finance vehicle managed or controlled by the Collateral Manager substantially contemporaneously with, and on substantially the same terms as, the securities acquired by the Issuer or (b) (i) acquired on the secondary market, (ii) not acquired directly or indirectly from the Issuer of such security pursuant to a legally binding agreement made prior to the second business day after the issuance of such security, (iii) not acquired from the Collateral Manager, its Affiliates or any other structured finance vehicle managed or controlled by the Collateral Manager unless such entity regularly acquires securities of the same type for its own account, could have held the security for its own account consisted with its investment policies, did not identify the security as intended for sale to the Issuer within 90 days of its issuance and held the security, without any hedge with the Issuer, for at least 90 days and (iv) as to which neither the Collateral Manager nor any Affiliate thereof was involved in the negotiation of the terms or conditions of the security or (2) satisfies the definition of an “Eligible Investment”; (B) is not a United States real property interest within the meaning of Section 897 of the Code and (C) is treated as debt for U.S. federal income tax purposes.

(B) if it is a CDO Security, such CDO Security must (a) be a CDO S Note Security and (b) as of the time of purchase by the Issuer, be in compliance with the applicable eligibility criteria, profile tests and qualifying tests set forth in the related underlying instruments.

(C) at least 67.5% of the Default Swap Collateral by principal balance consists of Asset-Backed Securities, Residential Mortgage-Backed Securities or Commercial Mortgage-Backed Securities;

(D) the purchase price thereof is equal to at least 98% of the par value of such security and

(E) it is a security the acquisition (including the manner of acquisition), ownership or disposition of which will not cause the Issuer to be treated as engaged in a trade or business within the United States for United States federal income tax purposes.

The Default Swap Collateral is expected to be purchased in a face amount equal to the initial Aggregate Notional Amount of the Synthetic Securities. Under the terms of the Indenture, all Default Swap Collateral is required to be deposited in the Default Swap Collateral Account for the benefit of the Synthetic Security Counterparty. The Issuer will also grant to the Trustee for the benefit of the Securityholders a security interest in the Default Swap Collateral, subject to the lien of the Synthetic Security Counterparty and the right of the Issuer to sell such security interest. The Issuer must also obtain the consent of the Synthetic Security Counterparty to any initial Default Swap Collateral purchased by the Issuer and any Default Swap Collateral purchased thereafter.

Interest payments, redemption premium, dividend distributions, investment earnings on and any fees paid with respect to any Default Swap Collateral will constitute property of the Issuer and will be paid to the Trustee and deposited into the Default Swap Collateral Account and treated as Proceeds unless such amounts are required to be paid to the Synthetic Security Counterparty under the terms of the related Synthetic Security. Principal payments on the Default Swap Collateral prior to the termination of the Synthetic Securities shall be held in accordance with the Synthetic Securities in the Default Swap Collateral Account and invested in Eligible investments until reinvested in Default Swap Collateral which satisfy the Default Swap Collateral Eligibility Criteria with the consent of the Synthetic Security Counterparty.

In the event a Synthetic Security is terminated prior to its scheduled maturity without the occurrence of a Credit Event or a Floating Amount Event, the Collateral Manager on behalf of the Issuer shall cause such portion of the related Default Swap Collateral chosen by the Synthetic Security Counterparty as may be required to be made any Synthetic Security Termination Payments, to be liquidated.
and any such Synthetic Security Termination Payments to be paid directly to the Synthetic Security Counterparty; provided that, in the case of Defaulted Synthetic Security Termination Payments, such amounts will be deposited to the Collection Account and paid in accordance with the Priority of Payments. The remaining related Default Swap Collateral to the extent not required to be pledged to the related Synthetic Security Counterparty shall be released from the lien of the Synthetic Security Counterparty and delivered to the Trustee free of such lien. In the event that no Credit Event or Floating Amount Event under a Synthetic Security has occurred prior to the scheduled maturity of the Synthetic Security, upon the scheduled maturity of the Synthetic Security, the Synthetic Security Counterparty's lien on the Default Swap Collateral shall be released and the Collateral Manager on behalf of the Issuer shall cause such Default Swap Collateral to be delivered to the Trustee free of such lien. Upon release of the lien of the Synthetic Security Counterparty, the Issuer shall direct the Trustee to take any specific actions necessary to create in favor of the Trustee a valid, perfected, first priority security interest in such Default Swap Collateral under applicable law and regulations for the benefit of the Secured Parties. Any Default Swap Collateral released from the lien of the Synthetic Security Counterparty shall be treated as a Collateral Asset and may be retained by the Trustee or sold by the Collateral Manager in the sole discretion of the Collateral Manager without regard to whether such sale would be permitted as a sale of a Defaulted Obligation or a Credit Risk Obligation; provided that no Event of Default has occurred and is continuing. Any Proceeds net of purchase accrued interest or interest payments received upon the maturity or liquidation of the Default Swap Collateral released from the lien of the Synthetic Security Counterparty shall be deposited to the Default Swap Collateral Account.

Upon the occurrence of a Credit Event or Floating Amount Event under a Synthetic Security, the Default Swap Collateral chosen by the Synthetic Security Counterparty after the application of any cash and Eligible Investments on deposit in the Default Swap Collateral Account will be sold by the Collateral Manager in a sale arranged by the Collateral Manager and any amounts owed to the Synthetic Security Counterparty will be paid by the Issuer from the liquidation proceeds of such Default Swap Collateral. In the event such liquidation proceeds are less than par, the Synthetic Security Counterparty will accept the liquidation proceeds applicable to the face amount of Default Swap Collateral sold which is equal to the amount due to the Synthetic Security Counterparty. In addition, under certain circumstances upon the occurrence of a Credit Event, the Default Swap Collateral chosen by the Synthetic Security Counterparty will instead be delivered to the Synthetic Security Counterparty in exchange for a Deliverable Obligation. Any Deliverable Obligation delivered to the Issuer will be deemed to be a Collateral Asset and may be retained or sold by the Issuer at its sole discretion of the Collateral Manager without regard to whether such sale would be permitted as a sale of a Defaulted Obligation or a Credit Risk Obligation. Any Proceeds net of purchased accrued interest or interest payments received upon the maturity or liquidation of a Deliverable Obligation shall be deposited to the Default Swap Collateral Account. In the event a Credit Event has occurred and the Issuer is required to liquidate Default Swap Collateral and deliver cash to the Synthetic Security Counterparty, the Synthetic Security Counterparty will bear any market risk on the liquidation of the Default Swap Collateral.

The Synthetic Security Counterparty has the right to purchase any Default Swap Collateral being sold for less than its par amount at a price equal to the highest bid received for such Default Swap Collateral. The Collateral Manager shall provide the Synthetic Security Counterparty prior notice of the price at which any Default Swap Collateral is being sold prior to such sale.

Reports

A report will be made available to the Holders of the Notes and Holders of the Income Notes and will provide information on the Collateral Assets as well as information with respect to payments made on the related Payment Date (each, a “Payment Report”), beginning in September 2007.

The information in each Payment Report will be prepared as of the Determination Date preceding the related Payment Date and will set out, among other things, the amounts payable in accordance with the Priority of Payments on such Payment Date. The Issuer will instruct the Trustee to transfer the amounts set forth in such Payment Report in the manner specified in, and in accordance with, the Priority of Payments. As long as any Notes are listed on any stock exchange, the Payment Reports will be obtainable at the office of the Listing and Paying Agent.

VerDate Nov 24 2008 09:47 May 19, 2011 Jkt 066052 PO 00000 Frm 01497 Fmt 6602 Sfmt 6602 P:\DOCS\66052.TXT SAFFAIRS PsN: PAT
Cashflow Swap Agreement

General. On the Closing Date, the Issuer will enter into a Cashflow Swap Agreement with Goldman Sachs International ("GSI") as initial Cashflow Swap Counterparty. The Issuer may replace the Cashflow Swap Agreement but shall not enter into any additional hedge agreements after the Closing Date.

Pursuant to the Cashflow Swap Agreement, on each Payment Date occurring through the termination of the Cashflow Swap Agreement in accordance with the Priority of Payments, the Issuer will pay certain amounts to the Cashflow Swap Counterparty and the Cashflow Swap Counterparty will make advances to the Issuer in an amount equal to certain Cashflow Swap Shortfall Amount as described in the Cashflow Swap Agreement. Any Cashflow Swap Shortfall Amounts paid under the Cashflow Swap Agreement by the Cashflow Swap Counterparty to the Issuer will accrue interest and be repaid to the Cashflow Swap Counterparty in accordance with the Priority of Payments. See "Description of the Notes — Payments on the Notes — Priority of Payments." To the extent the Issuer has insufficient funds available to pay interest on the Class C Notes, the Class A Notes or the Class B Notes on a Payment Date as a result of any of the Collateral Assets receiving the payment of interest due thereon in accordance with their terms, interest on the Class C Notes, the Class A Notes and the Class B Notes will be payable by the Issuer from the amounts advanced by the Cashflow Swap Counterparty to the Issuer under the Cashflow Swap Agreement up to U.S.$50,000,000 (as reduced in accordance with the Cashflow Swap Agreement); provided that the Cashflow Swap Counterparty will not make advances to cover any shortfall resulting from any Collateral Asset foregoing interest beyond the second year.

The Issuer shall ensure that the Cashflow Swap Agreement shall provide that the Cashflow Swap Counterparty will agree (a) that the Issuer's obligations under the Cashflow Swap Agreement are limited recourse obligations of the Issuer payable solely from the Collateral and subordinated as set forth in the Priority of Payments and (b) to a standard non-petition clause, and (c) that such Cashflow Swap Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.

Payments (other than Defaulted Cashflow Swap Termination Payments) due to the Cashflow Swap Counterparty under the Cashflow Swap Agreement shall be paid, in accordance with the Priority of Payments, prior to any payments on the Securities, from proceeds available therefor on each Payment Date. The claims of the Cashflow Swap Counterparty shall rank pari passu with the claims of other Cashflow Swap Counterparties entitled to receive payments at the same level of priority within the Priority of Payments. Defaulted Cashflow Swap Termination Payments shall be paid after payment of Principal Proceeds to the Notes in accordance with the Priority of Payments.

Pursuant to the initial Cashflow Swap Agreement, the Issuer may terminate the initial Cashflow Swap Agreement if (A) the Moody's First Rating Trigger Requirements apply and 30 or more local business days have elapsed since the last time the Moody's First Rating Trigger Requirements did not apply and GSI has failed to comply with or perform any obligation to be complied with or performed under the Credit Support Annex, and (B) (x) the Moody's Second Rating Trigger Requirements apply and 30 or more local business days have elapsed since the last time the Moody's Second Rating Trigger Requirements did not apply and (y) an Eligible Replacement has not become the transferee of a transfer made in accordance with Part 55(b) of the Cashflow Swap Agreement, subject to satisfaction of the Rating Agency Condition and/or (ii) an entity with the Moody's First Trigger Required Ratings has not provided an Eligible Replacement in respect of all of the initial Cashflow Swap Counterparty's present and future obligations under the Cashflow Swap Agreement.

The Cashflow Swap Agreement may be terminated, whether or not the Notes have been paid in full or on or prior to such termination, upon, among other things, (i) certain events of bankruptcy, insolvency, conservatorship, receivership or reorganization of the Issuer or the related Cashflow Swap Counterparty, (ii) failure on the part of the Issuer or the related Cashflow Swap Counterparty to make any payment under the Cashflow Swap Agreement within the applicable grace period, (iii) certain withholding or other taxes being imposed on payments to be made under the Cashflow Swap Agreement as set forth in Sections 15(b)(i) and (ii) of the ISDA Master Agreement incorporated in the Cashflow Swap Agreement, (iv) a change in law making it illegal for either the Issuer or the related Cashflow Swap Counterparty to be
a party to, or perform an obligation under, the Cashflow Swap Agreement, (v) an Event of Default under the Indenture occurs and is continuing and there has been a liquidation (in whole), or the commencement of a liquidation (in whole) of the assets of the Issuer, (vi) the Indenture is supplemented or amended without the consent of the Cashflow Swap Counterparty as described therein, (vii) the Cashflow Swap Counterparty is no longer a Secured Party under the Indenture or (viii) the aggregate Principal Balance of the Collateral Assets is less than U.S. $50,000,000. Notwithstanding the foregoing, the Issuer will not optionally terminate any Cashflow Swap Agreement unless the Rating Agency Condition is satisfied in connection with such termination.

A termination of a Cashflow Swap Agreement will not constitute an Event of Default under the Indenture. Although the Issuer believes that any such termination is unlikely, the Issuer has agreed to use reasonable efforts to enter into a substitute Cashflow Swap Agreement on similar terms to the extent that the Issuer is able to enter into such an agreement, and shall apply any termination receipts to the purchase of a new Cashflow Swap Agreement. If the Issuer is unable to obtain a substitute Cashflow Swap Agreement, interest due on the Notes will be paid from amounts received on the Collateral Assets and Default Swap Collateral without the benefit of any Cashflow Swap Agreement. There can be no assurance that such amounts will be sufficient to provide for the full payment of interest on the Notes, or that amounts that would otherwise be distributable to the Holders of the Income Notes will not be reduced.

In the event of any early termination of a Cashflow Swap Agreement (i) any Cashflow Swap Termination Receipts paid to the Issuer and not concurrently applied in connection with the Issuer’s entering into a replacement Cashflow Swap Agreement will be deposited in a single, segregated trust account held in the name of the Trustee (the “Cashflow Swap Termination Receipts Account”) for the benefit of the Secured Parties and (ii) any amounts received by the Issuer from a replacement counterparty in consideration for entering into a substantially similar replacement agreement that preserves for the Issuer the economic equivalent of the terminated Cashflow Swap Agreement (“Cashflow Swap Replacement Proceeds”) will be deposited in a single, segregated trust account held in the United States in the name of the Trustee (the “Cashflow Swap Replacement Account”) for the benefit of the Secured Parties.

The Collateral Manager may cause the Issuer, promptly following the early termination of a Cashflow Swap Agreement (other than with respect to a Final Payment Date) and to the extent possible through application of funds available in the Cashflow Swap Termination Receipts Account, to enter into a replacement Cashflow Swap Agreement (a “Replacement Cashflow Swap Agreement”) which may have different terms, including different notional amounts, provided that the Rating Agency Condition is satisfied.

If (i) the funds available in the Cashflow Swap Termination Receipts Account exceed the costs of entering into a Replacement Cashflow Swap Agreement, (ii) the Collateral Manager determines not to replace the terminated Cashflow Swap Agreement and the Rating Agency Condition is satisfied, or (iii) the termination is occurring with respect to a Final Payment Date, then amounts in the Cashflow Swap Termination Receipts Account (after providing for the costs of entering into a Replacement Cashflow Swap Agreement, if any) will be transferred to the Collection Account on the next following Transfer Date and will be treated as Principal Proceeds and distributed in accordance with the Priority of Payments on the next Payment Date (or on such Final Payment Date, in the event the Notes are redeemed in full thereof).

If a Cashflow Swap Agreement is terminated and the costs of entering into a Replacement Cashflow Swap Agreement exceed the funds on deposit and available therefor in the Cashflow Swap Termination Receipts Account, then, after using the funds in the Cashflow Swap Termination Receipts Account, the Issuer may enter into a Replacement Cashflow Swap Agreement with the amount of such shortfall payable to the replacement Cashflow Swap Counterparty in accordance with the Priority of Payments on following Payment Dates.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825477
The amounts in the Cashflow Swap Replacement Account will be applied directly to the payment of termination amounts owing to the Cashflow Swap Counterparty, if any. To the extent not fully paid from Cashflow Swap Replacement Proceeds, such amounts will be payable to the Cashflow Swap Counterparty on subsequent Payment Dates in accordance with the Priority of Payments. To the extent that the funds available in the Cashflow Swap Replacement Account exceed any such termination amounts (or if there are no termination amounts), the excess amounts in the Cashflow Swap Replacement Account will be transferred to the Collection Account on the next Transfer Date and will be treated as Principal Proceeds and distributed in accordance with the Priority of Payments on the next Payment Date. If the termination amounts owing to the Cashflow Swap Counterparty exceed the Cashflow Swap Replacement Proceeds for such agreements, then, unless such amounts represent Defaulted Cashflow Swap Termination Payments, they will be paid before funds are applied to pay principal or interest on any Notes (except for the Class S-1 Notes) in accordance with the Priority of Payments.

In order to effect an Optional Redemption by Liquidation, Tax Redemption or Auction, the Cashflow Swap Agreement must be terminated and the proceeds from such termination and from the liquidation of the remaining Collateral must be sufficient to pay any termination payment owing to the Cashflow Swap Counterparty (other than any Defaulted Cashflow Swap Termination Payments) in addition to any amounts owing under the Notes and certain other expenses.

Each Cashflow Swap Agreement will provide that the related Cashflow Swap Counterparty may assign its obligations under a Cashflow Swap Agreement to any institution which satisfies the Rating Agency Condition with respect to such assignment.

The initial Cashflow Swap Counterparty is GSI. GSI is an affiliate of the Initial Purchaser, and other affiliates of the Initial Purchaser or the Collateral Manager may also act as Cashflow Swap Counterparties from time to time, which may create certain conflicts of interest. See "Risk Factors—Other Considerations—Certain Conflicts of Interest."

The Cashflow Swap Counterparty ratings requirements, termination events and the required consents and actions described herein are subject to modification prior to the Closing Date, and may be revised thereafter upon satisfaction of the Rating Agency Condition. The description of the provisions of the Cashflow Swap Agreement herein may vary from the actual Cashflow Swap Agreement to be entered into by the Issuer and GSI on the Closing Date.

Cashflow Swap Agreement. As of the Closing Date, the Issuer will enter into a Cashflow Swap Agreement with GSI and may from time to time enter into additional Cashflow Swap Agreements (each, a "Cashflow Swap Agreement") with GSI or other counterparties (each, a "Cashflow Swap Counterparty").

WEIGHTED AVERAGE LIFE AND YIELD CONSIDERATIONS

The Stated Maturity of the Notes (other than the Class S Notes and the Class A-1 Notes) and the Income Notes is the Payment Date in December 2047, the Stated Maturity of the Class S Notes is the Payment Date in September 2011, the Stated Maturity of the Class A-1a Notes and the Class A-1b Notes is the Payment Date in December 2039 and the Stated Maturity of the Class A-1c Notes and the Class A-1d Notes is the Payment Date in September 2044. However, the principal of the Notes (other than the Class S Notes) is expected to be paid in full prior to the Stated Maturity. Average life refers to the average amount of time that will elapse from the date of delivery of a security until each dollar of the principal of such security will be paid to the investor. The average lives of the Notes will be determined by the amount of principal payments which are dependent on a number of factors, including when the Collateral Assets are repaid.

Weighted Average Life. Weighted average life refers to the average amount of time that will elapse from the date of delivery of a security until each dollar of the principal of such security will be paid to the investor. The weighted average lives of the Notes of each Class will be determined by the amount and frequency of principal payments, which are dependent upon, among other things, the amount of

Confidential Treatment Requested by Goldman Sachs GS MBS-E-021825478
payments received at or in advance of the scheduled maturity of the Collateral Assets (whether through sale, maturity, redemption, prepayment, default or other liquidation or disposition). The actual weighted average lives and actual maturities of the Notes will be affected by the financial conditions of the obligors on or the issuers of the Collateral Assets or the obligors on the underlying assets, and the characteristics of such securities and assets, including the existence and frequency of exercise of any optional or mandatory redemption features, the prevailing level of interest rates, the redemption price, prepayment rates, any lockout periods or prepayment premiums or penalties, the actual default rate and the actual level of recoveries on any Defaulted Obligations, and the frequency of lender or exchange offers for such Collateral Assets. Any disposition of a Collateral Asset will change the composition and characteristics of the Collateral Assets and the scheduled payments and payment characteristics thereon, and, accordingly, may affect the actual weighted average lives of the Notes. The rate of future defaults and the amount and timing of any cash realization from Defaulted Obligations and Credit Risk Obligations also will affect the maturity and weighted average lives of the Notes. The weighted average life of the Notes of each Class may also vary depending on whether or not the Notes are redeemed. The weighted average lives of the Notes are expected to be shorter, and may be substantially shorter, than the Stated Maturity of the Notes.

The table set forth below indicates the percentage of the initial balance of each Class of Notes that would be outstanding on each Payment Date assuming no prepayments or losses and the weighted average life of each Class of Notes and principal window of each Class based on the following assumptions (the "Collateral Assets Assumptions"):

i. Forward three month LIBOR curve as of March 20, 2007 are assumed;

ii. the Closing Date is March 27, 2007, the first Payment Date is September 4, 2007, and Payment Dates are the third day of every March, June, September and December, not adjusting for Business Days;

iii. all of the net proceeds of the offering of the Securities are invested as of the Closing Date in the Collateral Assets and Default Swap Collateral;

iv. the Coverage Tests are satisfied as of the Closing Date;

v. expenses due under clauses (i), (ii) and (iii) of the Priority of Payments are paid on each Payment Date and will be $35,000 plus the greater of U.S. $32,000, 50 and 0.006125% of the Quarterly Asset Amount for the related Due Period (or, with respect to the first Payment Date, as such amounts are adjusted based on the number of days in such Due Period);

vi. the Collateral Management Fee is 0.04% per annum of the outstanding Principal Balance of the Collateral Assets;

vii. there are no Current Deferred Management Fees;

viii. the Deferred Structuring Expense is 0.04% per annum of the outstanding Principal Balance of the Collateral Assets;

ix. Prior to distribution on each Payment Date, interest collections are assumed to be deposited in the Collection Account for 30 days, and principal collections are assumed to be deposited in the Collection Account for 50 days, each earning a rate equal to three month LIBOR minus 0.30% per annum;

x. Default Swap Collateral and Eligible Investments in the Default Swap Collateral Account are assumed to accrue interest at three month LIBOR plus 0.10%;

xi. each Collateral Asset will pay principal and interest in accordance with its terms and scheduled payments will be timely received, unless otherwise specified;

Confidential Treatment Requested by Goldman Sachs
GS MBS-E-021825479
xii. failure to pay interest to the holders of the Class A Notes and the Class B Notes is not an Event of Default;

xiii. All unpaid Class C Notes and Class D Note interest is Deferred Interest;

xiv. there are no sales;

xv. no rating change occurs on any Collateral Asset or the Notes;

xvi. there is no Optional Redemption, Tax Redemption or, except with respect to the table setting forth the Percentages of Initial Principal Balance of the Class A-1 Notes, Class A-2 Notes, Class B Notes, Class C Notes and Class D Notes and the table setting forth the Sensitivity of Principal Payments to CDR, Auction Call;

xvii. defaults are incurred at the constant annual default rates and are applied on each Payment Date to the outstanding Principal Balance of the Collateral Assets as of such Payment Date commencing on the Payment Date in September 2008; and

xviii. there is no PIK interest on the Collateral Assets.

(1) The "Expected Principal Window" for a Class of Notes is the period in which (a) the Initial principal payment of the Class is expected to be made and (b) the final payment of principal of the Class is expected to be made under the Collateral Asset Assumptions (assuming no defaults).

(2) The "Expected Weighted Average Life" of each Class of Notes is determined by (i) multiplying the amount of each principal distribution on each Class that would result under the Collateral Asset Assumptions (assuming no defaults) by the number of years from the date of determination to the related Payment Date (assuming 360 days in each month and a 360-day year), (ii) adding the results and (iii) dividing the sum by the aggregate principal distributions referred to in clause (i).

The following table shows the "Expected Weighted Average Life" and the "Expected Principal Window" for each Class of Notes under various constant default rates. The "Expected Weighted Average Life" of each Class of Notes is determined by (i) multiplying the amount of each principal distribution on such Class that would result under the Collateral Asset Assumptions by the number of years from the closing date to the related Payment Date.

The table set forth below entitled “Class A-1, A-2, B, C and D Notes Constant Default Rate Stress Tests” shows the Constant Default Rate ("CDR") and Cumulative Defaults for each Class of Notes under three stress scenarios, assuming a 50% loss severity on defaulted Collateral Assets. In column one ("First Dollar of Loss"), CDR represents the CDR starting on the September 2009 Payment Date that would result in the first dollar of principal loss to the respective Class of Notes. Cumulative Defaults represent the sum of such defaults divided by the aggregate principal balance of the Collateral Assets at the Closing Date. In column two ("Flat Return"), CDR represents the CDR starting on the September.
Footnote Exhibits - Page 5571

2008 Payment Date that would result in a yield equivalent to a zero discount margin over three-month LIBOR for the Class A-1a Notes, Class A-1b Notes, Class A-1c Notes, Class A-1d Notes, Class A-2 Notes, Class B Notes, Class C Notes and Class D Notes. Cumulative Defaults represent the sum of such defaults divided by the aggregate principal balance of the Collateral Assets as of the Closing Date. In column three ("Return of investment, [0% return]"), the CDR represents the CDR standing on the September 2008 Payment Date that would result in an approximate 0.0% return for the Class A-1a Notes, Class A-1b Notes, Class A-1c Notes, Class A-1d Notes, Class A-2 Notes, Class B Notes, Class C Notes and Class D Notes. Cumulative Defaults represent the sum of such defaults divided by the aggregate principal balance of the Collateral Assets as of the Closing Date.

*Unless the Class A-1 Notes do not take a class of

The yield to maturity of the Notes of each Class will also be affected by the rate of repayment of the Collateral Assets, as well as by the redemption of the Notes in an Auction, an optional Redeemable for Tax at Redemption (and upon the Redemption Price then payable). The Issuer is not required to repay the Notes on any date prior to their Stated Maturity. The receipt of principal payments on the Notes at a rate slower than the rate anticipated by investors purchasing the Notes at a discount will result in an actual yield that is lower than anticipated by such investors.

The yield to maturity of the Notes may also be affected by the rate of deferrals and defaults on and liquidations of the Collateral Assets, the extent to which the Income Notes are not purchased by the Income Notes, and/or by the purchase of Collateral Assets having different scheduled payments and payment characteristics and the effect of the Coverage Tests on payments under the Priority of Payments. The yield to investors in the Notes will also be adversely affected to the extent that the Issuers incur certain expenses that are not absorbed by the Income Notes.

THE COLLATERAL MANAGER

The information appearing in this section (other than the information contained under the subheading "General") has been prepared by the Collateral Manager and has not been independently verified by the Initial Purchaser or either of the Issuers. Neither the Initial Purchaser nor the Issuers assume any responsibility for the accuracy, completeness or applicability of such information.

General

Certain management, administrative and advisory functions with respect to the Collateral Assets will be performed by Graywolf Capital Management LP, a Delaware limited partnership ("Graywolf"). The Collateral Manager under a Collateral Management Agreement between the Issuer and Graywolf dated at the Closing Date (the "Collateral Management Agreement"). Pursuant to the terms of the Collateral Management Agreement, the Collateral Manager will monitor the Collateral Assets and

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825482
provide certain information with respect to the Collateral Assets to the Trustee, (ii) direct the disposition of the Collateral Assets under the limited circumstances described herein, (iii) direct the reinvestment of the proceeds therefrom in Eligible Investments, (iv) monitor the Cashflow Swap Agreement and determine whether and when the Issuer should exercise any rights available under any Cashflow Swap Agreement, and (v) direct the reinvestment of Default Swap Collateral with the consent of the Synthetic Security Counterparty. The Collateral Manager will perform its duties in accordance with the requirements set forth in the Indenture and in accordance with the provisions of the Collateral Management Agreement. The Collateral Manager is also subject to certain other conflicts of interest. See “Risk Factors—Other Considerations—Certain Conflicts of Interest” and “Risk Factors—Other Considerations—The Collateral Manager.”

Greywolf Capital Management LP

Greywolf is an SEC-registered investment adviser and currently manages over $2,000,000,000 in capital. Greywolf was founded in 2003 by a team of former employees of Goldman Sachs in its income trading division and now has 29 investment professionals with extensive experience in distressed, high yield and structured product investing. A copy of the Collateral Manager’s Form ADV is being delivered to investors in connection with the delivery of this offering circular as Appendix B thereto.

Key Personnel

Set forth below is information regarding the background, principal responsibilities and other affiliations of certain of the principal officers and other employees of the Collateral Manager, including those personnel who will be primarily responsible for managing the Collateral Assets and for performing the advisory and administrative functions related thereto. Although these individuals are currently employed by the Collateral Manager and hold the offices indicated below with the Collateral Manager, such persons will not be engaged full-time in the management of the Collateral. In addition, such persons may not necessarily continue to be so employed during the entire term of the Collateral Management Agreement or may not continue to perform services for the Collateral Manager under the Collateral Management Agreement.

Collateral Management Team

Gregory Mount, Partner. Mr. Mount joined Greywolf in September 2005 as a Partner and is responsible for structured product investments. Mr. Mount will be the co-portfolio manager of Timkenwood I, Ltd. with Mr. Marcini. Prior to joining Greywolf, Mr. Mount worked at Goldman Sachs for 8 years from which he retired as a Partner of the firm in 2001. Mr. Mount founded Goldman’s CDO business in 1996 and later held numerous senior positions in credit derivatives and structured products, including co-head of the Structured Products Group, which comprised of the CMBS, RMBS, ABS and CDO businesses and head of Portfolio Credit Derivatives which encompassed cash and synthetic CDOs. Mr. Mount also initiated Goldman’s proprietary CDO investment activity in 2003 and was the primary decision-maker for that portfolio at its inception. Mr. Mount received a B.S. in Electrical Engineering from M.I.T. in 1987, and an M.B.A. with high honors, from The University of Chicago Graduate School of Business in 1992.

Joe Marcini, Vice President. Mr. Marcini joined Greywolf in April 2006 and is responsible for structured product investments. Mr. Marcini will be the co-portfolio manager of Timkenwood I, Ltd. with Mr. Mount. Prior to joining Greywolf, Mr. Marcini was a Managing Director in the Structured Products Group at Goldman Sachs where he was co-head of ABS Finance and a member of the Mortgage Capital Committee (which is responsible for approving capital commitments across the CMBS, RMBS, ABS and CDO businesses). Mr. Marcini joined Goldman Sachs in 1993 and became a Managing Director in 2003. Prior to joining Goldman Sachs, from 1994 to 1993, Mr. Marcini was an attorney with Cravath, Swaine & Moore in New York and London. Mr. Marcini received a B.A. in Economics, summa cum laude, from Columbia College in 1993 and was elected to Phi Beta Kappa. Mr. Marcini also received a J.D. from Columbia Law School in 1994 and was a Harlan Fake Stone Scholar each of his three years.

Jonathan Savitz, Partner. Mr. Savitz co-founded Greywolf in February 2003 and is the Firm’s Chief Executive Officer and the Fund’s Chief Investment Officer. Prior to co-founding Greywolf, Mr. Savitz worked at Goldman Sachs for over 10 years from which he retired as a Partner of the firm in 2002.
From 1998 – 2002, Mr. Savitz led Goldman’s global distressed trading, sales and research effort and was a primary decision maker and risk manager in Goldman’s proprietary investing activities across the fixed income markets. From 1995 – 1998, Mr. Savitz managed the high yield trading desk and prior thereto held positions in distressed proprietary investing and corporate bond trading. Mr. Savitz joined Goldman in 1997 after graduating with a B.A., with honors, from The Johns Hopkins University.

James Gillespie, Partner. Mr. Gillespie is a co-founder of Greywolf and is a Portfolio Manager of the Special Situations Funds. Prior to founding Greywolf, Mr. Gillespie worked at Goldman Sachs for six years. Mr. Gillespie was head of Distressed Bond Investing where he ran Goldman’s proprietary distressed bond portfolio on the trading desk. Prior thereto, Mr. Gillespie was director of distressed bond research after having been a distressed analyst for Goldman’s bank loan and bond desks. Mr. Gillespie has significant experience in analyzing, researching and investing in distressed securities as well as managing a large portfolio of distressed investments. He also has experience actively participating in the workout process as both a committee member and large creditor. Prior to Goldman, Mr. Gillespie worked at Salomon Brothers in high yield capital markets. Mr. Gillespie received a Bachelor of Commerce degree, with honors, from the University of British Columbia in 1995 and is a Leslie Wong Fellow. Mr. Gillespie is a CFA charterholder.

Robert Miller, Partner. Mr. Miller is a co-founder of Greywolf and a Portfolio Manager for the Greywolf High Yield Funds. Prior to founding Greywolf, Mr. Miller worked at Goldman Sachs for 10 years and ran Goldman’s high yield trading desks in New York and London from 1999 – 2000. After leaving from Goldman, Mr. Miller was retained by the firm for almost two years as a consultant on electronic bond trading platforms. Prior to heading the high yield trading desk, Mr. Miller was a high yield and corporate bond trader for Goldman and prior thereto was a credit analyst for PNC Bank. During his career, Mr. Miller has traded and analyzed most major industry sectors and held proprietary positions in straight debt, common and preferred stock, futures, convertible, trust preferred, and credit derivatives. Mr. Miller received a B.A. magna cum laude from Franklin and Marshall College in 1983 and an M.B.A. with honors, from UNC-Chapel Hill in 1989.

Cavetel Samikogula, Partner. Mr. Samikogula is a co-founder of Greywolf and a Portfolio Manager of the Special Situations Funds. Prior to founding Greywolf, Mr. Samikogula worked at Goldman Sachs for ten years where he was one of three portfolio managers in the Special Situations Investing Group, a Goldman Sachs’ proprietary internal hedge fund. Prior to assuming his portfolio management role in 2000, Mr. Samikogula held numerous positions in distressed investing at Goldman including director of research in both the US and Europe. Mr. Samikogula joined Goldman in 1992 as a corporate finance generalist before moving to the distressed investing business as a credit analyst in 1996 after returning from business school. Mr. Samikogula has extensive experience investing in all layers of levered capital structures both on the long and short side and, at times, participating actively in steering and creditors’ committees. Mr. Samikogula received a B.A. cum laude from Hamilton College in 1992 and an M.B.A. from Harvard Business School in 1997.

William Troy, Partner. Mr. Troy is a co-founder of Greywolf and a Portfolio Manager of the High Yield Funds, as well as having responsibility for worldwide risk management. Prior to founding Greywolf, Mr. Troy was the head manager for JP Morgan’s High Yield business, which he joined following the merger of Smith Barney with Salomon Brothers. At JP Morgan, Mr. Troy was a member of the Senior Traders’ Committee, the Underwriting Committee, the Risk Committee and the Credit Committee. Prior to JP Morgan, Mr. Troy joined Smith Barney in 1999 as a Managing Director to co-head the High Yield business, overseeing sales, trading, research and syndicate. Prior to Smith Barney, Mr. Troy joined Goldman Sachs in 1988 as a senior corporate bond trader where he was responsible for risk taking activities with a further mandate to expand the business and develop new trading personnel. He was later senior to join the High Yield Department in 1991 as the senior trader. Prior to Goldman Sachs, Mr. Troy joined Salomon Brothers in 1978 as a manager for the international business in consumer finance operations and subsequently as a trader on the corporate bond trading desk. Mr. Troy began his 37-year Wall Street career in 1969 at Dean Witter.
Conflicts of Interest

Various potential and actual conflicts of interest may arise from the overall advisory, investment and other activities of the Collateral Manager, affiliates and their respective clients and employees. The following briefly summarizes some of these conflicts, but is not intended to be an exhaustive list of all such conflicts.

The Collateral Manager and/or its affiliates have ongoing relationships with, render service to, finance and engage in transactions with, and may own debt or equity securities issued by issuers of certain of the Collateral Assets. The Collateral Manager and its affiliates may invest on behalf of themselves and other clients in securities that are senior or subordinated to, or have interests different from or adverse to, the Collateral Assets. The interests of such parties may be different than or adverse to the interest of the Holders of the Securities. In addition, such persons may possess information relating to the Collateral Assets that is not known to the individuals at the Collateral Manager responsible for monitoring the Collateral Assets and performing the other obligations under the Collateral Management Agreement. Such persons will not be required (and may not be permitted) to share such information or pass it along to the Issuer, the Collateral Manager or any holder of any Security. Neither the Collateral Manager nor any of such persons will have liability to the Issuer or any Holder of any Security for failure to disclose such information or for taking, or failing to take, any action based upon such information.

In addition, the Collateral Manager and/or any of its affiliates may engage in any other business and furnish investment management and advisory services to others which may include, without limitation, serving as consultant or services for, investing in, lending to, being affiliated with or have other ongoing relationships with, other entities organized to issue collateralized debt obligations secured by assets similar to the Collateral Assets, and other trusts and pooled investment vehicles that acquire interests in, provide financing to, or otherwise deal with securities issued by issuers that would be suitable investments for the Issuer. In the course of monitoring the Collateral Assets held by the Issuer, the Collateral Manager may consider its relationships with other clients (including entities whose securities (or those of its affiliates) are pledged to secure the Notes) and its affiliates. In providing services to other clients, the Collateral Manager and its affiliates may recommend activities that would compete with or otherwise adversely affect the Issuer. In addition, the Collateral Manager will be free, in its sole discretion, to make recommendations to others, or effect transactions on behalf of itself or for others, that may be the same as or different from those effected on behalf of the Issuer, and the Collateral Manager may furnish advisory services to others who may have investment policies similar to those followed by the Issuer and who may own securities of the same class, or which are the same type as, the Collateral Assets. Under the terms of the Collateral Management Agreement, the Collateral Manager will be permitted to take whatever action is in the Collateral Manager’s best interest regardless of the impact on the Collateral Assets. In addition, under certain circumstances the Collateral Manager may direct the Issuer to sell certain Collateral Assets. Such sales of Collateral Assets may result in losses by the Issuer, which losses may result in the reduction or withdrawal of the rating of any or all of the Securities by any of the Rating Agencies. In determining whether to exercise such right, the Collateral Manager need not take into account the interests of the Issuer, the Noteholders, the Income Noteholders or any other party.

The Collateral Manager and/or its affiliates may at certain times be simultaneously seeking to purchase or dispose of investments for their respective accounts or for another entity, including other collateralized debt obligation vehicles, at the same time as it is disposing of investments for the Issuer. Accordingly, conflicts may arise regarding the allocation of sale opportunities.

The Collateral Manager may aggregate sales of securities placed with respect to the Collateral Assets with similar sales being made simultaneously for other clients or other accounts managed by the Collateral Manager or with accounts of the affiliates of the Collateral Manager. If in the Collateral Manager’s reasonable business judgment such aggregation will result in an overall economic benefit to the Issuer, taking into consideration the advantageous selling price, brokerage commission and other expenses. However, no provision of the Collateral Management Agreement requires the Collateral Manager or its affiliates to execute orders as part of concurrent authorizations or to aggregate sales.
Nevertheless, the Collateral Manager may, in the allocation of business, take into consideration research and other brokerage services furnished to the Collateral Manager or its affiliates by brokers and dealers. Such services may be used by the Collateral Manager in connection with the Collateral Manager’s other advisory services or investment operations.

No provision in the Collateral Management Agreement prevents the Collateral Manager or any of its affiliates from rendering services of any kind to the Issuer of any Collateral Assets and its affiliates, the Trustee, the Holders of the Securities, the Cashflow Sweep Counterparty or any other entity. Without prejudice to the generality of the foregoing, the Collateral Manager and its affiliates, directors, officers, employees and agents may, among other things: (a) serve as general partner, advisor, sponsor or manager of partnerships or companies organized to issue collateralized bond or loan obligations secured by assets similar to the Collateral Assets, directors (whether supervisory or managing), partners, officers, employees, agents, nominees or signatories for an issuer of any Collateral Assets; (b) receive fees for services rendered to the Issuer of any Collateral Asset or any affiliate thereof; (c) be retained to provide services unrelated to the Collateral Management Agreement to the Issuer or its Affiliates and be paid therefor; (d) act as the sole or an underwriter or broker, or as agent, or as a broker or dealer, in connection with any underwriting or distribution of any of the Issuer’s Securitizations; (e) make loans or advances to or purchase and resell or otherwise acquire or otherwise invest or reinvest, or invest or lend, any of the Issuer’s Securitizations to any other person; (f) participate with one or more other persons in the receipt of any fee or other remuneration in connection with the Collateral Management Agreement or any of the Issuer’s Securitizations or any other undertaking; or (g) serve as a member of any "counsel" or "creditors' committee" with respect to any Collateral Assets which has become or may become a Defaulted Obligation or with respect to any commercial mortgage loan securing any Collateral Assets or the respective borrower for any such commercial mortgage loan; (i) own or make loans to any borrower or affiliate of any borrower on any of the commercial mortgage loans securing the Collateral Assets; (j) invest in obligations and/or other securities that are identical to or similar to, or have interests different from or adverse to, the Collateral Assets; (k) make investments on their own behalf without offering such investment opportunities to the Issuer or informing the Issuer of any investments before engaging in any investment for themselves; (l) recommend or effect direct trades between the Issuer and the Collateral Manager or any Collateral Manager Affiliate or funds or accounts for which the Collateral Manager or an Affiliate serves as Collateral Manager, acting as principal or agent, subject to applicable legal requirements; (m) invest in obligations that would be appropriate as Collateral and have ongoing relationships with, render services to or engage in transactions with, companies whose obligations are included in the Collateral and may own equity or debt securities by issuers of and other obligors of Collateral Assets, and (n) enter into agency cross-transactions where the Collateral Manager and/or the Collateral Manager Affiliate acts as broker for the Issuer and for the other party to the transaction, to the extent permitted under applicable law. Under the terms of the Collateral Management Agreement, the Collateral Manager will be permitted to take whatever action is in the Collateral Manager’s best interest regardless of the impact on the Collateral Assets.

Members of the board of directors of the Issuer who are not affiliated with the Collateral Manager or any delegate or other authorized representatives of the Issuer will have the responsibility for approving any transactions between the Issuer and the Collateral Manager or any affiliate involving significant conflicts of interest (including principal trades). More particularly, directors unaffiliated with the Collateral Manager or any delegate designated by such directors will be responsible for approving any principal transactions for which Issuer consent is required pursuant to Section 206(3) of the Advisers Act.

In addition, with the prior authorization of the Issuer, which has been given and can be revoked at any time, the Collateral Manager and/or its affiliates may enter into agency cross-transactions where the Collateral Manager and/or its affiliates acts as broker for the Issuer and for the other party to the transaction, to the extent permitted under applicable law, in which case the Collateral Manager or any such affiliate will receive commissions from, and have a potentially conflicting division of loyalties and responsibilities regarding, both parties to the transaction.

On the Closing Date it is expected that the Collateral Manager or one or more clients or affiliates of the Collateral Manager will purchase approximately 50% of the aggregate notional amount of the Income Notes, 100% of the Aggregate Outstanding Amount of the Class D Notes and any Purchase Notes and/or Income Notes or on or after the Closing Date, The Collateral Manager and/or one or more of its affiliates or employees, or funds managed by Greycourt may own from time to time additional Securities of one or more types. There can be no assurance that any of the foregoing persons will continue to hold...
any or all of such Securities. As a Holder of Income Notes or any other Securities, such person may have interests adverse to the other Holders of Securities. For as long as Greywolf is the Collateral Manager and any funds managed by Greywolf continue to hold any Income Notes, any Collateral management Fees or otherwise payable to the Collateral Manager hereunder shall be paid by the issuer in the following order: (i) first, to such funds managed by Greywolf (on a pro rata basis among such funds), in an amount equal to the product of (x) such Collateral management Fees and (y) a fraction the numerator of which is the notional amount of the Income Notes held by such funds managed by Greywolf and the denominator of which is the aggregate notional amount of all the Income Notes and (ii) second, the remainder, if any, to Greywolf.

Greywolf or any of its clients, affiliates or subsidiaries will be permitted to exercise all voting rights with respect to any Securities which they may acquire (other than with respect to a vote regarding the removal of the Collateral Manager or the termination or assignment of the Collateral Management Agreement). The interests of such persons may be different from or adverse to the interests of the other holders of Notes.

THE COLLATERAL MANAGEMENT AGREEMENT

General

The Collateral Manager will perform certain investment management and administrative functions with respect to the Issuer and Collateral Assets on behalf of the Issuer in accordance with the applicable provisions of the Indenture and the Collateral Management Agreement.

The Collateral Manager agrees to exercise that degree of skill and care consistent with the practices and procedures and attention no less than that which the Collateral Manager exercises with respect to comparable assets that it manages for clients in substantially similar transactions in accordance with its practices and procedures and which is consistent with those followed by reasonable and prudent institutional managers of national standing relating to assets of the nature and character of the Collateral Assets.

Neither the Collateral Manager nor its partners, directors, officers, stockholders or employees (collectively, the “Collateral Manager Affiliates”) will be liable to the Issuer, the Trustee, the Holders of the Securities, or any other person for any loss incurred as a result of the actions taken by or recommended by the Collateral Manager under the Collateral Management Agreement or the Indenture, except for reason of acts or omissions constituting bad faith, willful misconduct, gross negligence or reckless disregard of its obligations thereunder. Subject to the above mentioned standard of liability, the Collateral Manager and its affiliates, and each of their respective partners, shareholders, members, officers, directors, managers, employees, agents, accountants and attorneys will be entitled to indemnification by the Issuer for any losses or liabilities, including legal or other expenses, relating to the issuance of the Securities, the transactions contemplated by the Indenture or the performance of the Collateral Manager’s obligations under the Collateral Management Agreement.

The Collateral Manager may assign its rights or responsibilities under the Collateral Management Agreement provided that (i) such assignment satisfies the Rating Agency Condition, and (ii) the Collateral Manager obtains the consent of the Issuer as directed by a Majority of the Controlling Class and a Majority in Interest of Income Notes (unless such assignment would be deemed as “assignment” for purposes of Section 20A(b)(2) of the Advisers Act, in which case such consent shall not be required). The Collateral Manager may delegate to an agent selected with reasonable care any or all of the duties (other than its asset selection or trade execution duties) assigned to the Collateral Manager under the Collateral Management Agreement, provided that no delegation by the Collateral Manager of any of its duties under the Collateral Management Agreement shall relieve the Collateral Manager of any of its duties under the Collateral Management Agreement nor relieve the Collateral Manager of any liability with respect to the performance of such duties.
The Collateral Management Agreement may not be amended or modified (other than an amendment or modification of the type that may be made to the Indenture without the consent of the Holders of the Notes) without satisfaction of the Rating Agency Condition and the prior written consent of the Noteholders and any Cashflow Swap Counterparty, if the consent of such parties would be required were such an amendment made pursuant to the Indenture.

The Collateral Manager may be removed for cause by the Holders of at least 66 2/3% of the Controlling Class or a Special-Majority-in-Interest of Income Noteholders (as such term is defined in the Collateral Management Agreement) upon 20 calendar days prior written notice; provided, however, that any such vote will require any Securities held by the Collateral Manager, any affiliates of the Collateral Manager or any Securities over which the Collateral Manager or any of its affiliates has discretionary voting authority (the "Collateral Manager Securities"). For purposes of the Collateral Management Agreement, "causes" will mean (i) willful violation by the Collateral Manager of any provision of the Collateral Management Agreement or the Indenture applicable to it, (ii) certain events of bankruptcy or insolvency in respect of the Collateral Manager, (iii) the occurrence and continuation of an Event of Default under the Indenture which directly results from any breach by the Collateral Manager of its duties under the Indenture or the Collateral Management Agreement, (iv) the occurrence of an act by the Collateral Manager which constitutes fraud or criminal activity in the performance of its obligations under the Collateral Management Agreement or the indictment of the Collateral Manager or any of its officers or directors for a criminal offense materially related to its business of providing investment advisory services and (v) the failure of any representation, warranty, certification or statement made or delivered by the Collateral Manager in or pursuant to the Collateral Management Agreement or the Indenture to be correct when made if such failure (x) has a material adverse effect on either of the Issuers, the Noteholders or the Holders of the Income Notes and (y) if such failure can be cured, such failure is not cured within 90 days after the Collateral Manager acquires actual knowledge of or receives notice from the Trustee of such failure.

The Collateral Manager may resign upon 90 days' written notice to the Issuer, the Trustees, the Cashflow Swap Counterparty and the Rating Agencies or such shorter notice as is acceptable to the Issuer, the Trustees and the Rating Agencies; provided that the Collateral Manager shall have the right to resign immediately upon the effectiveness of any material change in applicable laws or regulations which renders the performance by the Collateral Manager of its duties under the Collateral Management Agreement or the Indenture to be a violation of such laws or regulations. The Collateral Management Agreement will terminate automatically in the event the Notes and the Income Notes are redeemed or cancelled in their entirety, or in the event of its assignment by the Collateral Manager in violation of the Collateral Management Agreement or if it is determined in good faith that the Issuer or the Collateral Manager or the pool of Collateral Assets has become required to register under the Investment Company Act, and the Issuer so notifies the Collateral Manager.

No removal, termination or resignation of the Collateral Manager or termination of the Collateral Management Agreement will be effective unless (i) a successor Collateral Manager is appointed by the Issuer and agrees in writing to assume all of the Collateral Manager's duties and obligations pursuant to the Collateral Management Agreement, (ii) the successor Collateral Manager is not objected to by the successor Special-Majority-in-Interest of Income Noteholders (as such term is defined in the Collateral Management Agreement) or a Majority of the Controlling Class (including, except with respect to a termination for cause of the Collateral Manager, any Collateral Manager Securities) within 30 days after notice and (iii) the Rating Agency Condition has been satisfied with respect to the appointment of such successor Collateral Manager. Such successor Collateral Manager must, in addition, meet certain qualifications specified in the Collateral Management Agreement (the "Replacement Manager Conditions").

In the event that the Collateral Manager has been removed, terminated or resigned and a successor Collateral Manager, meeting the Replacement Manager Conditions has not been appointed on or prior to (i) in the case of removal of the Collateral Manager "for cause," the date that is 60 days following the date of notice of removal delivered in accordance with the Collateral Management Agreement and (ii) in the case of any other removal or resignation of the Collateral Manager, the date of removal or resignation specified in the relevant notice, the resigning or removed Collateral Manager shall
be entitled to appoint a successor Collateral Manager and shall so appoint a replacement manager satisfying the Replacement Manager Conditions within 60 days thereafter, provided (but such successor Collateral Manager is not objected to by a Majority-in-Interest of Income Noteholders (as such term is defined in the Collateral Management Agreement) (excluding any Collateral Manager Securities) or a Majority of the Controlling Class (excluding any Collateral Manager Securities) within 15 days after such appointment. In lieu thereof, or if the successor Collateral Manager appointed by the resigning or removed Collateral Manager is not approved, the resigning or removed Collateral Manager may petition any court of competent jurisdiction for the appointment of a replacement manager satisfying the successor Collateral Manager Conditions, but such appointment shall not require the consent of, nor be subject to the disapproval of, the issuer or any Noteholder or Income Noteholder. Upon the appointment of a successor Collateral Manager satisfying the Replacement Manager Conditions and the written acceptance of such appointment by the successor Collateral Manager, all authority and power of the Collateral Manager under the Collateral Management Agreement will be automatically vested in the successor Collateral Manager. No compensation payable to a successor Collateral Manager from the Collateral Assets shall be greater than that paid to the Collateral Manager without (i) the prior written consent of (a) a Majority-in-Interest of Income Noteholders (as such term is defined in the Collateral Management Agreement) and (b) in the case of any increase or any Collateral Management Fee, the prior written consent of a Majority of the Notes (each voting as a separate Class) and (ii) the satisfaction of the Rating Agency Condition.

There is no limitation or restriction on the Collateral Manager or any Collateral Manager Affiliate with regard to acting as collateral manager (or in a similar role) to other parties or persons. This and other future activities of the Collateral Manager and/or the Collateral Manager Affiliate may give rise to additional conflicts of interest. The Collateral Manager and other entities may give rise to additional conflicts of interest. The Collateral Manager and the Collateral Manager Affiliate may not serve, and will continue to serve, as Collateral Manager for, invest in or be affiliated with, Collateral Management Agreement in accordance with the terms of the Collateral Management Agreement.

Compensation

As compensation for the performance of its obligations under the Collateral Management Agreement, the Collateral Manager will be entitled to receive a fee in accordance with the Priority of Payments, payable in arrears on each Payment Date, of 0.04% per annum (the “Collateral Management Fee”). The fee shall be paid to the Collateral Manager for the Collateral Management Fee on the first day of each month, as determined by the Collateral Trustee, and shall continue to be payable on each Payment Date, as determined by the Collateral Trustee, for so long as the Collateral Trustee shall be entitled to receive such fees. The Collateral Trustee shall be entitled to receive such fees on behalf of the Collateral Manager. The Collateral Management Fee shall be calculated on the basis of a 360-day year consisting of twelve 30-day months. All fees payable to the Collateral Manager on a Payment Date are subject to payment only in accordance with the Priority of Payments.
In its sole discretion, the Collateral Manager may on any Payment Date, other than the Final Payment Date, elect to defer its receipt of all or any portion of the Collateral Management Fee payable to it (the aggregate of amounts so deferred on such Payment Date being the "Current Deferred Management Fee") by providing written notice to the Trustee of such election at least five Business Days prior to such Payment Date. After such Payment Date, the Current Deferred Management Fee will accrue interest with respect to each Interest Accrual Period at a rate equal to LIBOR, compounded monthly and calculated on the basis of a year of 360 days and the actual number of days elapsed and be added to the cumulative amount of the Current Deferred Management Fees from prior Payment Dates, if any (the aggregate amount of such Current Deferred Management Fees being the "Cumulative Deferred Management Fee") and will be payable on subsequent Payment Dates on which funds are available therefor according to the Priority of Payments. The Collateral Manager may elect to receive payment of all or any portion of the Cumulative Deferred Management Fee on any Payment Date to the extent of funds available in accordance with the Priority of Payments by providing notice to the Trustee of such election and the amount of such fees to be paid on or before five Business Days preceding such Payment Date.

For so long as Greywolf is the Collateral Manager and any funds managed by Greywolf continue to hold any Income Notes, any Collateral Management Fees otherwise payable to the Collateral Manager hereunder shall be paid by the Issuer in the following order: (i) first, to such funds managed by Greywolf (on a pro rata basis among such funds), in an amount equal to the product of (x) such Collateral Management Fees and (y) a fraction the numerator of which is the notional amount of the Income Notes held by such funds managed by Greywolf and the denominator of which is the aggregate notional amount of all the Income Notes and (ii) second, the remainder, if any, to Greywolf.

THE ISSUERS

General

The Issuer was incorporated on March 5, 2007 in the Cayman Islands with the registered number 183317. The registered office of the Issuer is at the offices of Maples Finance Limited, P.O. Box 1090 GT, Queensgate House, South Church Street, George Town, Grand Cayman, Cayman Islands. The Issuer has no substantial prior operating history. The Issuer’s Memorandum of Association sets out the objects of the Issuer, which are unrestricted and therefore include the business to be carried out by the Issuer in connection with the Securities.

The Co-Issuer was incorporated on March 7, 2007 under the laws of the State of Delaware with the registered number 4515241. The registered office of the Co-Issuer is at Donald J. Puglisi & Associates, 860 Library Avenue, Suite 204, Newark, Delaware 19711. The Co-Issuer has no prior operating history. Article 3 of the Co-Issuer’s Certificate of Incorporation sets out the purpose of the Co-Issuer, which include the business to be carried out by the Co-Issuer in connection with the issuance of the Notes.

The Notes are obligations only of the Issuer and not of the Trustee, the Fiscal Agent, the Collateral Manager, the Initial Purchaser, the Issuer Administrator, the Collateral Manager, the Holders of the Income Notes, the Agents, the Share Trustee or any director, manager or officer of the Issuer or any of their respective affiliates.

The authorized share capital of the Issuer consists of 50,000 ordinary shares, U.S.$1.00 per value per share (the "Issuer Ordinary Shares"). 250 of the Issuer Ordinary Shares have been issued and will be held by the Share Trustee under the terms of a charitable trust. All of the outstanding common equity of the Co-Issuer will be held by the Issuer. For so long as any of the Notes are outstanding, no beneficial interest in the ordinary shares of the Issuer or of the common equity of the Co-Issuer shall be registered to a U.S. Person.

Issuer Ordinary Shares: 250

Total Equity: $250

Total Capitalization: $1,017,300,250

**Capitalization of the Co-Issuer**

The Co-Issuer will be capitalized only to the extent of its common equity of U.S. $10, will have no assets other than its equity capital and will have no debt other than as Co-Issuer of the Notes (other than the Class D Notes). The Co-Issuer has agreed to co-issue the Notes (other than the Class D Notes) as an accommodation to the Issuer, and the Co-Issuer is receiving no remuneration for so acting. Because the Co-Issuer has no assets, and is not permitted to have any assets, Holders of Securities will not be able to exercise their rights against any assets of the Co-Issuer. Holders of Notes must rely on the Collateral held by the Issuer and pledged to the Trustees for payment on their respective Notes, in accordance with the Priority of Payments.

**Flow of funds**

The approximate flow of funds of the Issuer from the gross proceeds of the offering of the Securities on the Closing Date is as set forth below:

**Business**

The Issuers will not undertake any business other than the issuance of the Notes and, in the case of the Issuer, the issuance of the Income Notes, the acquisition and management of the Collateral and, in each case, other related transactions. Neither of the Issuers will have any subsidiaries.

The Issuer Administrator will act as the administrator of the Issuer. The office of the Issuer Administrator will serve as the general business office of the Issuer. Through this office and pursuant to the terms of an agreement to be dated March 16, 2007 by and between the Issuer Administrator and the Issuer (the “Administration Agreement”), the Issuer Administrator will perform various administrative functions on behalf of the Issuer, including communications with shareholders and the general public, and the provision of certain clerical, administrative and other services until termination of the Administration Agreement. In consideration of the foregoing, the Issuer Administrator will receive various fees and other charges payable by the Issuer at rates agreed upon from time to time plus expenses. The directors of the Issuer listed below are also officers and/or employees of the Issuer Administrator and may be contacted at the address of the Issuer Administrator.

The activities of the Issuer Administrator under the Administration Agreement will be subject to the review of the Issuer’s Board of Directors. The Administration Agreement may be terminated by either the Issuer or the Issuer Administrator upon 3 months’ written notice (or, upon the occurrence of certain events, 14 days’ written notice).

The Issuer Administrator’s principal office is: Maples Finance Limited, P.O. Box 1093 OT, Queensgate House, South Church Street, George Town, Grand Cayman, Cayman Islands.

**Directors**

The Directors of the Issuer are: Guy Major and Carne Burton, each having an address at Maples Finance Limited, P.O. Box 1093 OT, Queensgate House, South Church Street, George Town, Grand Cayman, Cayman Islands.

The director of the Co-Issuer is Donald Puglisi who may be contacted at the address of the Co-Issuer.

Confidential Treatment Requested by Goldman Sachs
INCOME TAX CONSIDERATIONS

The following is a summary of certain of the United States federal income tax consequences of an investment in the Notes and the Income Notes by purchasers that acquire their Notes or Income Notes in the initial offering. The discussion and the opinions referenced below are based upon laws, regulations, rulings, and decisions in effect and available on the date hereof, all of which are subject to change, possibly with retroactive effect. Prospective investors should note that no rulings have been or are expected to be sought from the United States Internal Revenue Service (the “IRS”) with respect to any of the United States federal income tax consequences discussed below, and no assurance can be given that the IRS will not take contrary positions. Further, the following summary does not deal with all United States federal income tax consequences applicable to any given investor, nor does it address the United States federal income tax considerations applicable to categories of investors subject to special taxing rules (regardless of whether or not such persons constitute U.S. Holders), such as certain United States expatriates, banks, real estate investment trusts, regulated investment companies, insurance companies, tax-exempt organizations, dealers or traders in securities or currencies, partnerships, natural persons, cash method taxpayers, S corporations, estates and trusts, investors that hold their Notes or Income Notes as part of a hedge, straddle or an integrated or conversion transaction, or investors whose “functional currency” is not the U.S. dollar. Furthermore, it does not address alternative minimum tax consequences, or the indirect effects on persons who hold equity interests in either a U.S. Holder or a Non-U.S. Holder (as those terms are defined below). In addition, this summary is generally limited to investors that acquire their Notes or Income Notes on the Closing Date and, in the case of Notes, acquire their Notes for the issue price applicable to such Notes and who will hold their Notes or Income Notes as “capital assets” within the meaning of Section 1221 of the Code. Investors should consult their own tax advisors to determine the United States federal, state, local, and other tax consequences of the purchase, ownership, and disposition of the Notes and the Income Notes.

As used herein, “U.S. Holder” means a beneficial owner of a Note or Income Note that is an individual citizen or resident of the United States for United States federal income tax purposes, a corporation or other entity taxable as a corporation created or organized in or under the laws of the United States or any state thereof (including the District of Columbia), an estate the income of which is subject to United States federal income taxation regardless of its source or a trust where a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons (as defined in the Code) have the authority to control all substantial decisions of the trust (or a trust that has made a valid election under U.S. Treasury Regulations to be treated as a domestic trust). “Non-U.S. Holder” generally means any owner (or beneficial owner) of a Note or Income Note that is not a U.S. Holder (other than a partnership). If a partnership holds Notes or Income Notes, the tax treatment of a partner will generally depend upon the status of the partner and upon the activities of the partnership. Partners and partners of partnerships holding Notes or Income Notes should consult their own tax advisors regarding the tax consequences of an investment in the Notes or Income Notes (including their status as U.S. Holders or Non-U.S. Holders).

Tax Treatment of Issuer

Upon the issuance of the Notes, Orrick, Herrington & Sutcliffe LLP, special U.S. tax counsel to the issuer, will deliver an opinion generally to the effect that under current law, and assuming compliance with the indenture (and certain other documents) and based on certain factual representations made by the issuer, although the matter is not free from doubt, the issuer's permitted activities will not result in the issuer being engaged in the conduct of a trade or business in the United States. Accordingly, the issuer does not expect to be subject to net income taxation in the United States. Prospective investors should be aware that opinions of counsel are not binding on the IRS and the IRS might seek to treat the issuer as engaged in a United States trade or business, in which event the issuer would be subject, inter alia, to a 30% branch profits tax when such income is viewed as having been repatriated to the Cayman Islands (thereby materially adversely affecting the issuer's ability to make payments on the Securities).

Confidential Treatment Requested by Goldman Sachs
The opinion of special U.S. tax counsel is subject to several considerations. For example, the United States Treasury Department and the IRS recently announced that they are considering taxpayer requests for specific guidance on, among other things, whether a foreign person may be treated as engaged in a trade or business in the United States by virtue of entering into credit default swaps. No guidance has been issued to date. If any future guidance concludes that foreign persons entering into credit default swaps will be treated as engaged in a trade or business in the United States, such guidance would adversely impact the issuer's ability to pay principal and interest on the Notes. Additionally, it should be noted that gain or loss on a disposition by a foreign person of a United States real property interest may be subject to United States federal income tax as if the foreign person were engaged in a United States trade or business (even if the foreign person is not, in fact, so engaged). The determination of whether an asset constitutes a United States real property interest is made periodically and, therefore, it is possible that an asset that was not a United States real property interest at the time it was acquired by the issuer could, thereafter, become a United States real property interest. Similarly, if the issuer accepted a new security in exchange for an existing security or if the terms of an existing security were modified, the new or modified security might cause the issuer to become engaged in a United States trade or business for United States federal income tax purposes.

It is not expected that the issuer will derive material amounts of any other items of income that will be subject to United States withholding taxes. Notwithstanding the foregoing, any commitment fee, facility fee and similar fees that the issuer earns may be subject to a 30% withholding tax. Additionally, if the issuer is a CFC (defined below), the issuer would incur United States withholding tax on interest received from a related United States person. The issuer will not make any independent investigation of the circumstances surrounding the individual assets comprising the Collateral Assets and, thus, there can be no assurance that payments of interest and gain from the sale or disposition of the Collateral Assets will in all cases be received free of withholding tax.

The issuer will not be required to pay additional amounts to any Holder of Income Notes or any Class D Notes if taxes or related amounts are withheld from payments on the Income Notes or Notes or from payments on any Collateral Asset. However, withholding on the Collateral Assets could result in the Securities being redeemed by the issuer. See "Tax Redemption."

Tax Treatment of U.S. Holders of Notes

The issuer has agreed and, by its acceptance of a Note, each Holder of a Note will be deemed to have agreed, to treat its Notes as debt of the issuer for United States federal income tax purposes (although this shall not prevent a U.S. Holder from making a QEF election, as defined below, on a protective basis or from making protective filings under Section 5036, 8307, or 8546 of the Code). Upon the issuance of the Notes, Orrick, Herrington & Sutcliffe LLP will deliver an opinion generally to the effect that, assuming compliance with the Indenture (and certain other documents) and based on certain factual representations made by the issuer, the Class Notes, Class A Notes, Class B Notes and Class C Notes will, and the Class D Notes should, be characterized as debt for United States federal income tax purposes. Prospective investors should be aware that opinions of counsel are not binding on the IRS, and the IRS may disagree with the opinion that the Notes are characterized as debt. Except as provided under "Alternative Characterization of the Notes" below, the balance of this discussion assumes that the Notes will be characterized as debt of the issuer for United States federal income tax purposes.

Each U.S. Holder will include interest on the Notes in income in accordance with its regular method of accounting for United States federal income tax purposes unless the Notes are viewed as having been issued with original issue discount ("OID") in which case, generally, each U.S. Holder would be required to accrue interest on the Note on an accrual basis under a constant yield methodology, based on the original yield to maturity of the Note. Because interest on the Class Notes and Class D Notes may be deferred without giving rise to an Event of Default, all interest (including interest on accrued but unpaid interest) will be treated as OID unless the likelihood of deferral is remote. The Issuer has not determined whether the likelihood of deferral is remote for this purpose and, hence, will treat the interest on the Class Notes and Class D Notes as OID. Additionally, the Issuer will treat any

Confidential Treatment Requested by Goldman Sachs
Class of Notes as having been issued with OID if (A) such Class is issued at a discount equal to or in excess of the product of 0.25% of the stated redemption price at maturity of such Class and the anticipated weighted average life of such Class or (B) the issue price of such Class exceeds the principal amount thereof by more than the lesser of (i) 15% or (ii) 0.015 multiplied by the anticipated weighted average life of the Class. Any accrued but unpaid OID included in income of a U.S. holder will increase the U.S. holder’s basis in its Note and thereby reduce the amount of gain or increase the amount of loss recognized by the U.S. holder on a subsequent sale or other disposition of the Note.

Any OID on the Notes will likely be allocable under the special rules set forth in Section 1272(a)(6) of the Code (which apply to debt instruments that may be accelerated by reason of the prepayment of other debt obligations securing such debt instruments). If Section 1272(a)(6) does not apply, the Notes might be treated as "contingent payment debt instruments" ("CPDs") within the meaning of Treasury Regulation Section 1.1272-4. If the Notes were considered CPDs, among other consequences, gain on the sale of such Notes that might otherwise be capital gain would be ordinary income. Prospective investors should consult with their own tax advisors regarding the potential application of Section 1272(a)(6) of the Code to the Notes and the rules governing CPDs.

In general, a U.S. Holder of a Note will have a tax basis in such Note equal to the cost of such Note increased by any OID and any market discount that the U.S. Holder has elected to include in income on a current basis and reduced by any amortized premium and payments of principal and OID. Upon a sale, exchange or other disposition of such a Note, a U.S. Holder will generally recognize gain or loss equal to the difference between the amount realized on the sale, exchange or other disposition (less any accrued and unpaid interest, which would be taxable as such) and the U.S. Holder’s tax basis in such Note (as reduced by any accrued and unpaid interest). Such gain or loss generally will be long-term capital gain or loss (other than accrued market discount if the U.S. Holder has not elected to include such discount in income on a current basis) assuming that the U.S. Holder has held the Note for more than one year at the time of disposition. In certain circumstances, U.S. Holders that are individuals may be entitled to preferential treatment for long-term capital gains; however, the ability of U.S. Holders to offset capital losses against ordinary income is limited.

Alternative Characterization of the Notes. Notwithstanding special U.S. tax counsel’s opinion, U.S. Holders should recognize that there is some uncertainty regarding the appropriate classification of instruments such as the Notes. It is possible, for example, that the IRS may contend that the Class D Notes and possibly other Classes of Notes should be treated as equity interests (or as part-debt, part-equity) in the issuer. Such a recharacterization might result in materially adverse tax consequences to U.S. Holders. As a result, U.S. Holders of Notes may wish to consider the advisability of making a "QEF election" provided in Section 1295 of the Code on a "protective" basis (although this election may not be reversible since the current QEF regulations do not authorize protective QEF elections for debt that may be recharacterized as equity). Additionally, any such characterization might necessitate those U.S. Holders of a Class of Notes that is characterized as equity to file information returns with the IRS with respect to their acquisition of the Notes (and be subject to significant penalties for failures to do so). For the consequences that would apply if any Class of Notes were characterized as equity for United States federal income tax purposes, see below.”

Tax Treatment of U.S. Holders of Income Notes

The income Notes, although in the form of debt, will likely be characterized as equity for U.S. federal income tax purposes. Additionally, the issuer has agreed, and, by its acceptance of an Income Note, each Holder of an Income Note will be deemed to have agreed, to treat the Income Notes as equity for U.S. federal income tax purposes. For purposes of this discussion, it is assumed that the Income Notes will be so characterized. It is noted, however, that in the event that the Income Notes were characterized as debt for United States federal income tax purposes, they would constitute contingent payment debt instruments; among the consequences that would result from an application of the rules applicable to contingent payment debt instruments, the issuer would not be able to reduce the investor’s basis in the Notes on the sale of the Notes that might otherwise be capital gain would constitute ordinary income.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825495
Subject to the rules discussed below relating to "passive foreign investment companies" (PFICs) or "controlled foreign corporation" (CFCs), payments on the Income Notes should be treated as dividends to the extent of the current or accumulated earnings and profits of the issuer. Payments characterized as dividends would be taxable at regular marginal income tax rates applicable to ordinary income, and would not be entitled to the benefit of the dividends received deduction or any reduction in tax rates that may be available for certain dividends. Distributions in excess of the issuer's earnings and profits would be non-taxable to the extent of, and would be applied against and reduce, the U.S. Holder's adjusted tax basis in the Income Notes and, to the extent in excess of such basis, would be taxable as gain from the sale or exchange of property.

The tax consequences discussed in the preceding paragraph are likely to be significantly modified as a result of the application of the PFIC and CFC rules discussed below. Thus, U.S. Holders of the income Notes will be viewed as owning stock in a PFIC and, possibly, in a CFC (depending, in the latter instance, on the percentage of voting equity that is acquired and held by certain U.S. Holders). If applicable, the rules pertaining to CFCs would generally override those pertaining to PFICs, although in some circumstances both sets of rules could apply simultaneously.

Under the PFIC rules, U.S. Holders of the Income Notes (other than U.S. Holders that make a timely "QEF election," as described below) will be subject to special rules relating to the taxation of "excess distributions" – with excess distributions being defined to include certain distributions made by a PFIC on its stock as well as gain recognized on a disposition of PFIC stock. For this purpose, a U.S. Holder that uses its Income Notes as security for an obligation will be treated as having made a disposition of PFIC stock. In general, Section 1291 of the Code provides that the amount of any "excess distribution" will be allocated to each day of the U.S. Holder's holding period for its PFIC stock. The amount allocated to the current year will be included in the U.S. Holder's gross income for the current year as ordinary income. With respect to amounts allocated to prior years, the tax imposed for the current year will be increased by the "deferred tax amount," which is an amount calculated with respect to each prior year by multiplying the amount allocated to such year by the highest rate of tax in effect for such year, together with an interest charge as though the amounts of tax were overdue.

In order to avoid the application of the PFIC rules, U.S. Holders of Income Notes may wish to consider making the QEF election provided in Section 1295 of the Code. In lieu of the PFIC rules discussed above, a U.S. Holder of Income Notes that makes a valid QEF election will, in very general terms, be required to include its pro rata share of the issuer's ordinary income and net capital gains, unrelied and any prior year losses, in income for each taxable year (as ordinary income and long-term capital gain, respectively) and to pay tax thereon, even if the amount of such income is not the same as gains or losses, if any, distributed on the Income Notes during the year. If the issuer later distributes the income or gain on which the U.S. Holder has already paid taxes under the QEF rules, the amounts so distributed will not again be subject to tax in the hands of the U.S. Holder. A U.S. Holder's tax basis in any Income Notes as to which a QEF election has been irrevocably made will be increased by the amount included in such U.S. Holder's income as a result of the QEF election and decreased by the amount of nontaxable distributions received by the U.S. Holder. On the disposition (including redemption or retirement) of an Income Note, a U.S. Holder making the QEF election generally will recognize capital gain or loss equal to the difference, if any, between the amount realized upon such disposition and its adjusted tax basis in the Income Note. In general, a protective QEF election should be made on or before the due date for filing a U.S. Holder's federal income tax return for the first taxable year for which the U.S. Holder has held its Income Notes. In no event, however, will a QEF election be effective if certain required information is not made available by the issuer. Upon request, the issuer will provide any U.S. Holder of Income Notes and any U.S. Holder of a Class of Notes that may reasonably be characterized as equity in the issuer for United States federal income tax purposes with the information necessary for such U.S. Holder to make the QEF election. Nonetheless, there can be no assurance that such information will always be available.

The issuer may be treated as holding securities issued by non-U.S. corporations that are characterized as equity in one or more PFICs for United States federal income tax purposes, such as CDO Securities. In that event, U.S. Holders of the Income Notes would be treated as holding an interest in these indirectly-owned PFICs. Because the U.S. Holder – and not the issuer – would be required to make any QEF election with respect to any such indirectly-owned PFIC, and because PFIC information

Confidential Treatment Requested by Goldman Sachs
Footnote Exhibits - Page 5586

statements necessary for any such election may not be made available by the PFIC, there can be no assurance that a U.S. Holder would be able to make a QEF election with respect to any particular interest held in a PFIC. If the U.S. Holder of any income Notes has not made a QEF election with respect to an indirectly-owned PFIC, the U.S. Holder would be subject to the consequences described above with respect to the excess distributions of such PFIC (including gain indirectly realized with respect to such PFIC on the sale of the issuer's interest in the PFIC and with respect to the sale by the U.S. Holder of the income Notes). Alternatively, if the U.S. Holder has made a QEF election with respect to the indirectly-owned PFIC, the U.S. Holder would be required to include in income its share of the indirectly-owned PFIC's ordinary earnings and net capital gain.

U.S. tax law also contains special provisions relating to CFCs. A foreign corporation is a CFC if "U.S. Shareholders" in the aggregate own, directly or indirectly, more than 50% of the voting power or value of the stock of such corporation. For this purpose, a United States person that owns, directly or indirectly, ten percent or more of the voting stock of a CFC is considered a "U.S. Shareholder" with respect to the CFC. If an U.S. Holder of Income Notes were properly viewed as a U.S. Shareholder of the issuer under the CFC rules, the U.S. Holder would be subject each year to U.S. income tax (at ordinary income rates) on its pro rata share of the income of the issuer (assuming that the issuer is properly classified as a CFC for the year and that the U.S. Holder holds its Income Notes as of the end of the year), regardless of the amount of cash distributions received by the U.S. Holder with respect to its Income Notes during the year. Earnings subject to tax to a U.S. Holder under the CFC rules would generally not be taxed again when distributed to the U.S. Holder. In addition, if the issuer is a CFC and a U.S. Holder is a U.S. Shareholder with respect to the issuer, all or a portion of the income that otherwise would be characterized as capital gain upon a sale of U.S. Holder's Income Notes may be classified as ordinary income.

Prospective investors should be aware that in computing the taxpayer's earnings for purposes of the CFC rules, losses on dispositions of securities in bearer form may not be allowed, while in computing the taxpayer's ordinary earnings and net capital gains for purposes of the PFIC rules, losses on dispositions of securities in bearer form may be allowed and any gain on such securities may be ordinary rather than capital. Further, prospective investors should be aware that in the event that any of the Notes is not fully paid upon maturity, the issuer may recognize cancellation of indebtedness income for United States federal income tax purposes, without any corresponding offsetting loss (due to tax character differences or otherwise). In such a case, U.S. Holders of the Income Notes (and U.S. Holders of any Class of Notes treated as equity for United States federal income tax purposes) may also have phantom income as a result of such recognition by the issuer (pursuant to the QEF and CFC rules discussed above), as to which an offsetting loss may not be available to the U.S. Holders.

Tax Treatment of Non-U.S. Holders

A Non-U.S. Holder of Notes or Income Notes that has no connection with the United States generally should not be subject to United States withholding tax on payments in respect of Notes or Income Notes, and also should not be subject to United States federal income tax on any gains recognized in connection with the sale or other disposition of the Notes or Income Notes, provided that the Non-U.S. Holder makes certain tax representations regarding the identity of the beneficial owner of the Notes or Income Notes and, with respect to any gain recognized in connection with the sale or other disposition of the Notes or Income Notes by a nonresident alien individual, such individual is not present in the United States for 183 days or more in the taxable year of the sale or other disposition and certain other conditions are met.

Information Reporting Requirements

Information reporting to the IRS may be required with respect to payments on the Notes or Income Notes and with respect to proceeds from the sale of the Notes and Income Notes to Holders other than corporations and certain other exempt recipients. A "backup" withholding tax may also apply to such payments if a Holder fails to provide certain Identifying Information (such as the Holder's taxpayer identification number or an attestation to the status of the Holder as a Non-U.S. Holder). Backup withholding tax may not apply if the Holder provides the IRS with the Holder's taxpayer identification number or a valid certification that the Holder is a "qualified intermediary" or a "nonresident alien individual". Ordinarily, a Holder is not required to report gains from the sale of Notes or Income Notes, unless the Holder is a U.S. Holder that holds the Notes or Income Notes as a "U.S. holder of a SYF income event". If the Holder is a U.S. Holder that holds the Notes or Income Notes as a "U.S. holder of a SYF income event", the Holder will be required to report gains from the sale of Notes or Income Notes to the IRS. A "SYF income event" is the "sale of a foreign corporation to a non-U.S. person". The IRS may also require certain Holders to report information on a year-end basis.

Confidential Treatment Requested by Goldman Sachs GS MBS-E-021825497
withholding is not an additional tax and may be refunded (or credited) against the Holder’s United States federal income tax liability, if any, provided that certain required information is furnished to the IRS in a timely manner.

Prospective investors should consult with their own tax advisors regarding whether they are required to file an IRS Form 8886 in respect of this transaction (as to certain “reportable transactions”). Thus, for example, if a U.S. Holder were to sell its Notes or Income Notes at a loss, it is possible that the loss could constitute a reportable transaction and need to be reported on Form 8886. As another example, a transaction may be reportable if it is offered under conditions of confidentiality. In this regard, each Holder and beneficial holder of a Note and Income Note (and each of their respective employees, representatives or other agents) hereby advises that it is permitted to disclose to any and all persons, without limitation of any kind, the tax treatment and tax structure of the transactions described herein (including the ownership and disposition of the Notes and Income Notes) except where confidentiality is reasonably necessary to comply with the securities laws of any applicable jurisdiction. Significant penalties apply for failure to file Form 8886 when required, and U.S. Holders are therefore urged to consult their own tax advisors.

U.S. Holders of Income Notes and of any Class of Notes classified as equity for United States federal income tax purposes may be required to file Forms with the IRS under the applicable reporting provisions of the Code. For example, such U.S. Holders may be required, under Sections 6038, 6038A and/or 6046 of the Code, to supply the IRS with certain information regarding the U.S. Holder, other U.S. Holders and the Issuer if (i) each person owns at least 10% of the total value or 10% of the total combined voting power of all classes of stock entitled to vote or (ii) the acquisition, when aggregated with certain other acquisitions that may be treated as related under applicable regulations, exceeds $100,000. Upon request, the Issuer will provide U.S. Holders of Income Notes and of any Class of Notes that may reasonably be recharacterized as equity for United States federal income tax purposes with information about the Issuer and its shareholders that the Issuer possesses and that may be needed to complete any Form that is so required. In the event a U.S. Holder fails to file a form when required to do so, the U.S. Holder could be subject to substantial tax penalties.

Circular 230

Under 31 C.F.R. part 10, the regulations governing practice before the IRS (Circular 230), the issuer and its tax advisors are (or may be) required to inform prospective investors that:

i. Any advice contained herein, including any opinions of counsel referred to herein, is not intended or written to be used, and cannot be used by any taxpayer, for the purpose of avoiding penalties that may be imposed on the taxpayer;

ii. Any such advice is written to support the promotion or marketing of the Securities and the transactions described herein (or in such opinion or other advice); and

iii. Each taxpayer should seek advice based on the taxpayer’s particular circumstances from an independent tax advisor.

Cayman Islands Tax Considerations

The following discussion of certain Cayman Islands income tax consequences of an investment in the Notes is based on the advice of Maples and Calder as to Cayman Islands law. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It assumes that the Issuer will conduct its affairs in accordance with assumptions made by, and representations made to, counsel. It is not intended as tax advice, does not consider any investor’s particular circumstances, and does not consider tax consequences other than those arising under Cayman Islands law.
Under existing Cayman Islands laws:

(i) payments of principal and interest in respect of the Notes will not be subject to taxation in the Cayman Islands and no withholding will be required on such payments to any Holder of a Note and gains derived from the sale of Notes will not be subject to Cayman Islands income or corporation tax. The Cayman Islands currently have no income, corporation or capital gains tax and no estate duty, inheritance tax or gift tax; and

(ii) the Holder of any Note (or the legal personal representative of such Holder) whose Note is brought into the Cayman Islands may in certain circumstances be liable to pay stamp duty imposed under the laws of the Cayman Islands in respect of such Note. In addition, an instrument transferring title to a Note, if bought or executed in the Cayman Islands, would be subject to Cayman Islands stamp duty.

The Issuer has been incorporated under the laws of the Cayman Islands as an exempted company and, as such, has applied for and obtained an undertaking from the Governor In Cabinet of the Cayman Islands in the following form:

**THE TAX CONCESSIONS LAW (1999 REVISION) UNDERTAKING AS TO TAX CONCESSIONS**

In accordance with Section 6 of the Tax Concessions Law (1999 Revision) the Governor In Cabinet undertakes with Timberwolf I, Ltd. (the "Company"):

(a) that no law which is hereafter enacted in the Islands imposing any tax to be levied on profits, income, gains or appreciations shall apply to the Company or its operations; and

(b) in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax shall be payable

(i) on or in respect of the shares, debentures or other obligations of the Company;

or

(ii) by way of the withholding in whole or in part of any relevant payment as defined in Section 6(6) of the Tax Concessions Law (1999 Revision).

These concessions shall be for a period of twenty years from the date of the undertaking.

**ERISA CONSIDERATIONS**

The United States Employee Retirement Income Security Act of 1974, as amended ("ERISA"), imposes certain requirements on "employee benefit plans" (as defined in Section 3(3) of ERISA) subject to Title I of ERISA, including entities such as collective investment funds and separate accounts whose underlying assets include the assets of such plans (collectively, "ERISA Plans"), and on those persons who are fiduciaries with respect to ERISA Plans. Investments by ERISA Plans are subject to ERISA's general fiduciary requirements, including the requirement of investment prudence and diversification and the requirement that an ERISA Plan's investments be made in accordance with the documents governing such ERISA Plan. The prudence of a particular investment must be determined by the responsible fiduciary of an ERISA Plan by taking into account the ERISA Plan's particular circumstances and all of the facts and circumstances of the investment including, but not limited to, the matters discussed above under "Risk Factors" and the fact that in the future there may be no market in which such fiduciary will be able to sell or otherwise dispose of the Security.

Section 409 of ERISA and Section 4975 of the Code prohibit certain transactions involving the assets of an ERISA Plan (as well as those plans that are not subject to ERISA but which are subject to Section 4975 of the Code, such as Individual retirement accounts (together with ERISA Plans, "Plans") and certain persons (referred to as "parties in interest" under ERISA or "disqualified persons" under the...
Footnote Exhibits - Page 5589

1518

Code (collectively, "Parties in Interest") having certain relationships to such Plans, unless a statutory, regulatory or administrative exemption is applicable to the transaction. A Party in Interest who engages in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and Section 4975 of the Code.

The United States Department of Labor ("DOL") has promulgated a regulation, 29 C.F.R. Section 2510.3-101, describing what constitutes the assets of a Plan ("Plan Assets") with respect to the Plan's investment in an entity for purposes of applying ERISA and Section 4975 of the Code. Section 2(42) of ERISA also describes what constitutes Plan Assets. Section 2(3)(2) of ERISA and 29 C.F.R. Section 2510.3-101 are collectively the "Plan Asset Regulation." Under the Plan Asset Regulation, if a Plan invests in an "equity interest" of an entity that is neither a "publicly offered security" nor a security issued by an investment company registered under the Investment Company Act, the Plan's assets include both the equity interest and an undivided interest in each of the entity's underlying assets, unless it is established that the entity is an "operating company" or that equity participation in the entity by Benefit Plan Investors is not "significant." Section 2(3)(2) of ERISA modified 29 C.F.R. Section 2510.3-101 to exclude plans not subject to Title I of ERISA or Section 4975 of the Code from the Benefit Plan Investor definition.

Prohibited transactions may arise under Section 406 of ERISA or Section 4975 of the Code if Securities are acquired with Plan Assets with respect to which the Issuer, the Initial Purchaser, the Collateral Manager or any of their respective affiliates, is a Party in Interest. Certain exemptions from the prohibited transaction provisions of Section 406 of ERISA and Section 4975 of the Code may be applicable, however, including a statutory exemption under Section 408(b)(17) of ERISA for transactions involving "adequate consideration" with persons who are Parties in Interest solely by reason of their (or their affiliates') status as a service provider to the Plan involved and none of whom is a fiduciary with respect to the Plan Assets involved (or an affiliate of such a fiduciary). In addition, an administrative exemption may be available depending on part on the type of Plan Fiduciary making the decision to acquire a Security and the circumstances under which such decision is made. Included among these exemptions are: DOL Prohibited Transaction Class Exemption ("PTCE") 86-23, regarding transactions effected by certain "in-house asset managers." PTCE 91-30, regarding investments by bank collective investment funds; PTCE 90-1, regarding investments by insurance company general accounts; PTCE 91-38, regarding investments by bank collective investment funds; and PTCE 84-14, regarding transactions effected by independent "qualified professional asset managers." There can be no assurance that any class or other exemption will be available with respect to any particular transaction involving the Security, or that, if available, the exemption would cover all possible prohibited transactions.

Governments plans and certain churches and other plans, while not necessarily subject to the fiduciary responsibility provisions of ERISA or the provisions of Section 4975 of the Code, may nevertheless be subject to state or other federal laws that are substantially similar to the foregoing provisions of ERISA and the Code. Fiduciaries of any such plans should consult with their counsel regarding any Securities.

Any insurance company proposing to invest assets of its general account in the Securities should consider the extent to which such investment would be subject to the requirements of ERISA in light of the U.S. Supreme Court's decision in John Hancock Mutual Life Insurance Co. v. Merrill Trust and Savings Bank, 510 U.S. 98 (1993), and the enactment of Section 421(e) of ERISA. In particular, such an insurance company should consider the retroactive and prospective exemptive relief granted by the DOL for transactions involving insurance company general accounts in PTCE 96-40 and the regulations issued by the DOL, 29 C.F.R. Section 2550.401c-1 (January 5, 2000). Certain additional information regarding general accounts is set forth below.

Any Plan Fiduciary or other person who proposes to use Plan Assets to purchase any Securities should consult with its counsel regarding the applicability of the fiduciary responsibility and prohibited transaction provisions of ERISA and Section 4975 of the Code to such an investment, and to confirm that such investment will not constitute or result in a non-exempt prohibited transaction or any other violation of an applicable requirement of ERISA.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825500
The sale of any Security to a Plan, or to a person using Plan Assets to effect its purchase of any Security, is no respect a representation by the Issuer, the Initial Purchaser or the Collateral Manager that such an investment meets all relevant legal requirements with respect to investments by Plans generally or any particular Plan, or that such an investment is appropriate for Plans generally or any particular Plan.

Class S Notes, Class A Notes, Class B Notes and Class C Notes

For purposes of the Plan Asset Regulation, an equity interest includes any interest in an entity other than an instrument that is treated as indebtedness under applicable local law and which has no substantial equity features. Because the Notes (a) are expected to be treated as indebtedness under local law and for federal tax purposes (see “Income Tax Considerations” herein), and (b) should not be deemed to have any “substantial equity features,” purchases of the Notes with Plan Assets should not be treated as equity investments and, therefore, the Collateral Assets should not be deemed to be Plan Assets of the investing Plans. These conclusions are based, in part, upon the traditional debt features of the Notes, including the reasonable expectation of purchasers of the Notes that the Notes will be repaid when due, as well as the absence of conversion rights, warrants and other typical equity features. However, if the Notes were nevertheless treated as equity interests for purposes of the Plan Asset Regulation and if the assets of the Issuer were deemed to constitute Plan Assets of an Investing Plan, (i) transactions involving the assets of the Issuer could be subject to the fiduciary responsibility and prohibited transaction provisions of ERISA and Section 4075 of the Code, (ii) the assets of the Issuer could be subject to ERISA’s reporting and disclosure requirements, and (iii) the fiduciary causing the Plan to make an investment in the Notes could be deemed to have delegated its responsibility to manage Plan Assets.

By its purchase or any Class S Note, Class A Note, Class B Note or Class C Note, the purchaser thereof will be deemed to have represented and warranted that (i) it is not and will not be a Plan or an entity whose underlying assets include Plan Assets by reason of any Plan’s investment in the entity; or (ii) its purchase and holding of a Class S Note, Class A Note, Class B Note or Class C Note are eligible for the exemptive relief available under any of Section 406(b)(17) of ERISA or PTCE 84-14, 90-1, 97-38, 95-62, 98-23 or a similar exemption.

Class D Notes and Income Notes

Equity participation in an entity by Benefit Plan Investors is “significant” under the Plan Asset Regulation (as defined above) if 25%, or more of the value of any class of equity interest in the entity is held by Benefit Plan Investors. If equity participation in the Issuer by Benefit Plan Investors is “significant,” the assets of the Issuer could be deemed to be Plan Assets of Plans investing in the equity. If the assets of the Issuer were deemed to constitute Plan Assets of an Investing Plan, (i) transactions involving the assets of the Issuer could be subject to the fiduciary responsibility and prohibited transaction provisions of ERISA and Section 4075 of the Code, (ii) the assets of the Issuer could be subject to ERISA’s reporting and disclosure requirements, and (iii) the fiduciary causing the Plan to make an equity investment in the Issuer could be deemed to have delegated its responsibility to manage Plan Assets. The term “Benefit Plan Investor” includes (i) an employee benefit plan (as defined in Section 3(3) of ERISA) that is subject to the provisions of Title I of ERISA, (ii) a plan described in and subject to Section 4075(a)(1) of the Code and (iii) any entity whose underlying assets include Plan Assets by reason of any such plan’s investment in the entity. An entity described in (iii) above will be asked (i) to identify the maximum percentage of its assets that may be or become Plan Assets and (ii) without limiting the remedies that may be available, in the event the maximum percentage is thereafter exceeded, to agree to notify the Issuer, and dispose of Income Notes as instructed by the Issuer, before the specified maximum percentage is exceeded. For purposes of making this 25% determination, the value of any equity interests in the Issuer held by a person (other than a Benefit Plan Investor) who has discretionary authority or control with respect to the assets of the Issuer, any person who provides investment advice for a fee (direct or indirect) with respect to such assets, or any affiliate of such a person (any of the foregoing, a “Controlling Person”), are disregarded. Under the Plan Asset Regulation, an “affiliate” of a person includes any person, directly or

VerDate Nov 24 2008 09:47 May 19, 2011 Jkt 066052 PO 00000 Frm 01523 Fmt 6602 Sfmt 6602 P:\DOCS\66052.TXT SAFFAIRS PsN: PAT
Indirectly through one or more intermediaries, controlling, controlled by, or under common control with the person, and "control" with respect to a person, other than an individual, means the power to exercise a controlling influence over the management or policies of such person.

The income notes are not indebtedness under applicable local law and will be equity interests for purposes of applying ERISA and Section 4975 of the Code. The Class D Notes may also be treated as equity interests for purposes of applying ERISA and Section 4975 of the Code. Accordingly, purchases and transfers of income notes will be limited, so that less than 20% of the value of each of the Class D Notes and income notes will be held by benefit plan investors, by requiring each purchaser or transferee of a Class D Note and an income note to make certain representations and agree to additional transfer restrictions described under "Notice to Investors." Benefit plan investors and controlling persons will not be permitted to purchase Regulation S income notes or Regulation S class D Notes. No purchase of a Class D note or an income note (other than a Regulation S income note and a Regulation S class D note) by, or proposed transfer to, a person that has represented that it is a benefit plan investor or a controlling person will be permitted to the extent that such purchase or transfer would result in persons that have represented that they are benefit plan investors owning 25% or more of any of the outstanding Class D Notes and income notes immediately after such purchase or proposed transfer (determined in accordance with the plan asset regulation and the indenture and the fiduciary agreement), based upon the representations made by investors. In addition, the initial purchaser, the collateral manager and the trustee agree that neither they nor any of their respective affiliates will acquire any Class D Notes or income notes unless such acquisition would not, as determined by the trustee, result in persons that have acquired Class D Notes or income notes and represented that they are benefit plan investors owning 25% or more of the outstanding Class D Notes or income notes immediately after such acquisition by the initial purchaser, the collateral manager or the trustee. Class D notes or income notes held as principal by the initial purchaser, the collateral manager, the trustee, any of their respective affiliates and persons that have represented that they are controlling persons will be disregarded and will not be treated as outstanding for purposes of determining compliance with the 25% limitation to the extent that a controlling person is not a benefit plan investor. Any benefit plan investor that acquires Class D notes or income notes (other than Regulation S income notes or Regulation S class D notes) will be required to represent and agree that the acquisition and holding of the Class D Notes or Income Notes (other than Regulation S Income Notes or Regulation S Class D Notes) do not and will not constitute a prohibited transaction under ERISA or Section 4975 of the Code for which an exemption is not available.

The U.S. Supreme Court, in John Hancock (cited above), held that those funds allocated to the general account of an insurance company pursuant to a contract with an employee benefit plan which vary with the investment experience of the insurance company are "plan assets." In the preamble to PTE 96-60 (also cited above), the DOL noted that, for purposes of calculating the 25% threshold under the asset-gain participation test of the plan asset regulation, only the proportion of an insurance company general account's equity investment in the entity that represents plan assets should be taken into account in calculating that portion of the general account that is a benefit plan investor in an insurance company holding general account assets to purchase Class D Notes or income notes (other than Regulation S income notes or Regulation S class D Notes) will be used (i) to identify the maximum percentage of the assets of the general account that may be in or become plan assets, (ii) whether it is a "controlling person" (defined above), and (iii) without limiting the remedies that may be available. In the event that the maximum percentage is thereafter exceeded, to agree to notify the issuer, and dispose of Class D notes or income notes as instructed by the issuer, before the specified maximum percentage is exceeded. Insurance companies using general account assets that are plan assets may not purchase Regulation S income notes or Regulation S class D notes.

CERTAIN LEGAL INVESTMENT CONSIDERATIONS

Institutions whose investment activities are subject to legal investment laws and regulations or to review by certain regulatory authorities may be subject to restrictions on investments in the notes or the income notes. Any such institution should consult its legal advisors in determining whether and to what extent the notes or the income notes would be subject to these restrictions.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021625502
Extent there may be restrictions on its ability to invest in the Notes and the Income Notes. Without limiting the foregoing, any financial institution that is subject to the jurisdiction of the Comptroller of Currency, the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, the Office of Thrift Supervision, the National Credit Union Administration, any state insurance commission, or any other federal or state agency with similar authority should review any applicable rules, guidelines and regulations prior to purchasing the Notes or the Income Notes. Depository institutions should review and consider the applicability of the Federal Financial Institutions Examination Council Supervisory Policy Statement on Securities Activities, which has been adopted by the respective federal regulators.

None of the Issuers or the Initial Purchaser make any representation as to the proper characterization of the Notes or Income Notes for legal investment or other purposes, or as to the ability of particular investors to purchase the Notes or Income Notes for legal investment or other purposes, or as to the ability of particular investors to purchase the Notes or Income Notes under applicable investment restrictions. The Issuers understand that certain state insurance regulators, in response to a request for guidance, may be considering the characterization (as U.S. domestic or foreign (non-U.S.) of certain collateralized debt obligation securities co-issued by a non-U.S. Issuer and a U.S. co-Issuer. There can be no assurance as to the nature of any guidance or other action that may result from such consideration. The uncertainties described above (and any unfavorable future determinations concerning legal investment or financial institution regulatory characteristics of the Notes or Income Notes) may affect the liquidity of the Notes or Income Notes. Accordingly, all institutions whose activities are subject to legal investment laws and regulations, regulatory capital requirements or review by regulatory authorities should consult their own legal advisors in determining whether and to what extent the Notes or Income Notes are subject to investment, capital or other restrictions.

LISTING AND GENERAL INFORMATION

1. Application may be made to admit some or all of the Securities on a stock exchange of the Issuer's choice, if practicable. There can be no assurance that such admission will be sought, granted or maintained. Copies of the offering circular, the Memorandum and Articles of Association of the Issuer and the organization documents of the Co-Issuer, the Indenture, the Collateral Management Agreement, the Fiscal Agency Agreement and the Cashflow Swap Agreement will be deposited with the Note Paying Agent, the Listing and Paying Agent and at the registered office of the Issuer, where copies thereof may be obtained, free of charge, upon request within fourteen days of the date of the Listing Particulars.

2. Copies of the Memorandum and Articles of Association of the Issuer, the organizational documents of the Co-Issuer, the resolutions of the Board of Directors of the Issuer authorizing the issuance of the Securities, and the execution of the Indenture, the Deed of Covenant, the Fiscal Agency Agreement, the Collateral Management Agreement and the Cashflow Swap Agreement and the resolutions of the sole member of the Co-Issuer authorizing the issuance of the Notes, and the execution of the Indenture may be obtained free of charge upon request within thirty days of the date of this offering circular at the office of a Paying Agent on behalf of the Issuer.

3. Each of the Issuers represents that there has been no material adverse change in its financial position since the date of creation.

4. The Issuer is not required by Cayman Islands law, and the Issuer does not intend, to publish annual reports and accounts. The Co-Issuer is not required by Delaware law, and the Co-Issuer does not intend, to publish annual reports and accounts. The Indenture, however, requires the Issuer to deliver to the Trustee a Director's Certificate stating, as to each signatory thereto, that (a) a review of the activities of the Issuer during the prior year and of the Issuer's performance under the Indenture has been made under his supervision; and (b) to the best of his knowledge, based on such review, the Issuer has fulfilled all of its obligations under the Indenture throughout the prior year, or, if there has been a default in the fulfillment of any such obligation, specifying each such default known to him and the nature and status thereof.

5. The issuers are not, and have not since incorporation or formation, as applicable, been, involved in any litigation or arbitration proceedings relating to claims in amounts which may have or have had a material effect on the issuers in the context of the issue of the Notes nor, so far as each of the issuers is aware, is any such litigation or arbitration involving it pending or threatened.

6. The issuance of the Securities will be authorized by the Board of Directors of the issuer by resolutions passed on or about the Closing Date. The issuance of the Notes will be authorized by the sole member of the Co-Issuer by action by written consent of the sole member passed on or about the Closing Date. Since incorporation or formation, as applicable, neither the issuer nor the Co-Issuer has commenced trading or established any accounts, except as disclosed herein or accounts used to hold amounts received with respect to share capital and fees.

7. The Notes sold in offshore transactions in reliance on Regulation S and represented by the Regulation S Global Notes have been accepted for clearance through Clearstream and Euroclear under the Common Codes indicated below. The CUSIP Numbers and International Securities Identification Numbers ("ISIN") for the Notes represented by Regulation S Global Notes and Rule 144A Global Notes are as indicated below.

LEGAL MATTERS

Certain legal matters will be passed upon for the Collateral Manager by Sidley Austin LLP, New York, New York. Certain matters with respect to Cayman Islands law will be passed upon for the Issuer by Maples and Calder. Certain legal matters will be passed upon for the Issuer and Goldman, Sachs & Co. by Orrick, Herrington & Sutcliffe LLP, New York, New York.

UNDERWRITING

The Securities will be offered by Goldman, Sachs & Co. (the "Initial Purchaser"), from time to time at varying prices in negotiated transactions subject to prior sale, when, as and if issued. Subject to the terms and conditions set forth in the Purchase Agreement (the "Purchase Agreement") dated as of March 27, 2007 among Goldman, Sachs & Co. and the Issuers, the Issuers have agreed to sell to Goldman, Sachs & Co. the Notes, the Issuers and Goldman, Sachs & Co. has agreed to purchase all of the Notes and the Income Notes. Under the terms and conditions of the Purchase Agreement, Goldman, Sachs & Co. is committed to take and pay for all the Securities to be offered by it, if any are taken. Furthermore, under the terms and conditions of the Purchase Agreement, Goldman, Sachs & Co. may be entitled to an underwriting discount on the Securities purchased by it and will be entitled to the Deferred Structuring Expenses on each Payment Date in accordance with the Priority of Payments.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825504
The Securities purchased from the Issuers by the Initial Purchaser will be offered by it from time to time for sale in negotiated transactions or otherwise at varying prices to be determined at the time of sale plus accrued interest, if any, from the Closing Date.

The Securities have not been and will not be registered under the Securities Act for offer or sale as part of their distribution and may not be offered or sold within the United States or to, or for the account or benefit of, a U.S. Person or a U.S. resident (as determined for purposes of the Investment Company Act, a "U.S. Resident") except in certain transactions exempt from, or not subject to, the registration requirements of the Securities Act.

The Issuers have been advised by the Initial Purchaser that (a) it proposes to resell the Securities outside the United States (in part, by Goldman, Sachs & Co., through its selling agent) in offshore transactions in reliance on Regulation S and in accordance with applicable law and (b) it proposes to resell the Securities in the United States only to (1) Qualified Institutional Buyers in reliance on Rule 144A purchasing for their own accounts or for the accounts of Qualified Institutional Buyers or (2) in the case of the Notes only, Accredited Investors, which have a net worth of not less than U.S.$10 million each of which purchasers or accounts is a Qualified Purchaser. The Initial Purchaser's discount will be the same for the Regulation S Notes and the Rule 144A Notes offered hereby and for the Income Notes within each Class of Securities.

The Initial Purchaser has acknowledged and agreed that it will not, sell, offer or deliver any Regulation S Notes or Regulation S Income Notes purchased by it, or for the account or benefit of, any U.S. Person or U.S. Resident (as determined for purposes of the Investment Company Act) as part of its distribution at any time and that it will send to such distributor, dealer or person receiving a selling concession, fee or other remuneration to which it sells Regulation S Notes or Regulation S Income Notes purchased by it a confirmation or other notice setting forth the prohibition on offers and sales of the Regulation S Notes or Regulation S Income Notes within the United States or to, or for the account or benefit of, any U.S. Person or U.S. Resident.

With respect to the Securities initially sold pursuant to Regulation S, until the expiration of (x) 40 days after the commencement of the distribution of the offering of the Notes by the Initial Purchaser, with respect to offers or sales of the Notes and (y) one year after the commencement of the distribution of the Income Notes, with respect to offers or sales of the Income Notes purchased by Goldman, Sachs & Co., an offer or sale of Securities within the United States by a dealer that is not participating in the offering may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with Rule 144A or pursuant to another exemption from registration under the Securities Act.

The Initial Purchaser has represented, warranted and agreed that: (i) it has only communicated or caused to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000 ("FSMA");) or, in connection with the issue or sale of any Securities in circumstances in which section 21(1) of the FSMA does not apply to the Issuer; and (ii) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the Securities in, from or otherwise involving the United Kingdom. See "Undertaking."

The Securities may not be offered or sold by means of any document other than to persons whose ordinary business is to buy or sell shares or debentures, whether as principal or agent, or in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32) of Hong Kong, and no advertisement, invitation or document relating to the Securities may be issued, whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Securities which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" within the meaning of the Securities and Futures Ordinance (Cap. 571) of Hong Kong and any rules made thereunder.
This Offering Circular has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this Offering Circular and any other document or material in connection with the offer or sale, or invitation or subscription or purchase, of the Securities may not be circulated or distributed, nor may the Securities be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the "SFA"); (ii) to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the Securities are subscribed or purchased under Section 275 by a relevant person which is: (a) a corporation (which is not an accredited investor) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor, or (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest in that trust shall not be transferable for 6 months after that corporation or that trust has acquired the Securities under Section 275 except: (1) to an Institutional Investor under Section 274 of the SFA or to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA; (2) where no consideration is given for the transfer; or (3) by operation of law.

The Securities have not been and will not be registered under the Securities and Exchange Law of Japan (the Securities and Exchange Law) and the Initial Purchaser has agreed that it will not offer or sell any Securities, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Securities and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

The Initial Purchaser has agreed that it has not made and will not make any invitation to the public in the Cayman Islands to purchase any of the Securities.

Buyers of Regulation S Securities sold by the selling agent of Goldman, Sachs & Co. may be required to pay stamp taxes and other charges in accordance with the laws and practice of the country of purchase in addition to the purchase price.

No action has been or will be taken in any jurisdiction that would permit a public offering of the Securities, or the possession, circulation or distribution of this Offering Circular or any other material relating to the Issuer or the Securities, in any jurisdiction where action for such purpose is required. Accordingly, the Securities may not be offered or sold, directly or indirectly, and neither this Offering Circular nor any other offering material or advertisements in connection with the Securities may be distributed or published, in or from any country or jurisdiction except under circumstances that will result in compliance with any applicable rules and regulations of any such country or jurisdiction.

The Securities are a new issue of securities with no established trading market. The Issuer have been advised by the Initial Purchaser that it may make a market in the Securities but is not obligated to do so and may discontinue making any time without notice. No assurance can be given as to the liquidity of the trading market for the Securities. There can be no assurance that any secondary market for any of the Securities will develop, or, if a secondary market does develop, that it will provide the Holders of the Securities with liquidity of investment or that it will continue for the life of the Securities.

Application may be made to admit the Securities to a stock exchange of the Issuer's choice, if practicable. There can be no assurance that such admission will be sought, granted or maintained.

GS MBS-E-021825506
The issuers have agreed to indemnify the Initial Purchaser, the Collateral Manager, the Issuer Administrator, the Collateral Administrator and the Trustee against certain liabilities, including in the case of the Initial Purchaser, liabilities under the Securities Act, or to contribute to payments they may be required to make in respect thereof. In addition, the issuers have made certain representations and warranties to the Initial Purchaser and have agreed to reimburse the Initial Purchaser for certain of their expenses.

The Initial Purchaser may, from time to time as principal or through one or more investment funds that it manages, make investments in the equity securities of one or more of the Issuers of Collateral Assets with the result that one or more of such Issuers may be or may become controlled by the Initial Purchaser.

APPENDIX A

Certain Definitions

"Accounts" means collectively, the Collection Account, the Payment Account, the Expense Reserve Account, the Cashflow Swap Termination Receipts Account, the Cashflow Swap Replacement Account, the Cashflow Swap Collateral Account, the Default Swap Collateral Account, the Synthetic Security Collateral Account and the Collateral Account.

"Actual Interest Amount" means with respect to any Reference Obligation Payment Date, payment by or on behalf of the Reference Entity of an amount in respect of interest due under the Reference Obligation (including, without limitation, any deferred interest or defaulted interest relating to the Synthetic Security but excluding payments in respect of prepayment penalties, yield maintenance provisions or principal, except that the Actual Interest Amount shall include any payment of principal representing capitalized interest) to the holder(s) of the Reference Obligation in respect of the Reference Obligation.

"Actual Principal Amount" means, with respect to the Final Amortization Date or the legal final maturity date of any Reference Obligation, the amount paid on such day by or on behalf of the Reference Entity in respect of principal (excluding any capitalized interest) to the holder(s) of the Reference Obligation in respect of the Reference Obligation.

"Actual Rating" means with respect to any Collateral Asset or Eligible Investment, the actual expressly monitored outstanding public rating assigned by a Rating Agency without reference to any other rating by another Rating Agency, and which rating, by its terms addresses the full scope of the payment promise of the obligor on such Collateral Asset or Eligible Investment, after taking into account any applicable guarantee or Insurance policy or (i) if no such rating is available from a Rating Agency, any "credit estimate" or "shadow rating" assigned by such Rating Agency. For purposes of this definition, (i) the rating of "AAA" assigned by Moody's to a Collateral Asset or an Eligible Investment placed on watch for possible downgrade by Moody's will be deemed to have been downgraded by Moody's by one subcategory and any other rating assigned by Moody's to a Collateral Asset or an Eligible Investment placed on watch for possible downgrade by Moody's will be deemed to have been downgraded by Moody's by two subcategories, (ii) the rating assigned by S&P to a Collateral Asset or an Eligible Investment placed on watch for possible downgrade by S&P will be deemed to have been downgraded by S&P by one subcategory, and (iii) the rating assigned by Moody's or S&P to a Collateral Asset or Eligible Investment placed on watch for possible upgrade by such Rating Agency will be deemed to have been upgraded by such Rating Agency by one subcategory.

"Adjusted Net Outstanding Portfolio Collateral Balance" means, on any Determination Date, the Net Outstanding Portfolio Collateral Balance reduced by the excess, if any, of (i) the product of (a) the Statistical Loss Amount and (b) the lesser of 1 and a fraction the numerator of which is U.S.$1,000,000,000 and the denominator of which is the Net Outstanding Portfolio Collateral Balance as of such Determination Date over (ii) the product of (a) U.S.$3,750,000 and (b) the lesser of 1 and a fraction the numerator of which is the Net Outstanding Portfolio Collateral Balance as of such Determination Date and the denominator of which is U.S.$1,000,000,000.

"Administrative Expenses" means amounts (including indemnities) due or accrued with respect to any Payment Date and payable by the Issuer and/or the Collateral Trustee or (i) any trustee pursuant to the Indenture or any co-trustee appointed pursuant to the Indenture, the Collateral Administrator pursuant to the Collateral Administration Agreement and the Collateral Manager pursuant to the Collateral Management Agreement; (ii) any trustee administrator pursuant to the Administration Agreement; (iii) any independent accountants, agents, custodians or other agents (other than the Notes Registrar) and counsel of the Issuer for fees and expenses (including amounts payable in connection with the preparation of tax forms on behalf of the Issuer); (iv) the Collateral Manager pursuant to the Collateral Management Agreement (other than the Collateral Management Fee); (v) the Rating Agencies for fees and expenses in connection with any rating or credit estimate (including the fees payable to the Rating Agencies for the monitoring of

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825513
any rating or credit estimate) of the Notes, including fees and expenses, if any, due or accrued in connection with any rating of the Collateral Assets; (vi) any other person in respect of any governmental fees, charges or tax in relation to the issuer or the Co-Issuer; (vii) to the liquidation(s) of the Issuer for the fees and expenses of liquidating the Issuer following the redemption of all of the Notes; (viii) any stock exchange listing any Securities at the request of the Issuer; and (ix) any other person in respect of any other fees or expenses (including indemnities and fees relating to the provision of the Issuer’s registered office) permitted under the Transaction Documents; provided that Administrative Expenses shall not include (a) any amounts due or accrued with respect to the actions taken on or in connection with the Closing Date, (b) amounts payable in respect of the Notes and the Income Notes, (c) amounts payable under any Cashflow Swap Agreement and (d) any Collateral Management Fee payable pursuant to the Collateral Management Agreement.

"Aggregate Amortization Amount" means, with respect to any Determination Date, the excess, if any, of (i) the par amount of Default Swap Collateral and Eligible Investments and cash from principal payments received thereon, on deposit in the Default Swap Collateral Account over (ii) the sum of (a) the Reference Obligation Notional Amount and (b) the par value of any Deliverable Obligations.

"Aggregate Calculation Amount of Defaulted Obligations and Deferred Interest PIK Bonds" means the least of (a) the Aggregate Moody’s Recovery Value of all Defaulted Obligations and Deferred Interest PIK Bonds, (b) the Aggregate S&P Recovery Value of all Defaulted Obligations and Deferred Interest PIK Bonds, and (c) the aggregate of the Market Values of all Defaulted Obligations and Deferred Interest PIK Bonds.

"Aggregate Moody’s Recovery Value" means, with respect to Defaulted Obligations and Deferred Interest PIK Bonds, the aggregate of (a) the Moody’s Recovery Rate for each such asset multiplied by (b) the Principal Balance of such asset.

"Aggregate Outstanding Amount" means, with respect to any of the Notes or Income Notes, the aggregate principal amount of such Notes or Income Notes at the date of determination.

"Aggregate Principal Amount" means the aggregate of the Principal Balances of all Collateral Assets and Eligible Investments purchased with Principal Proceeds and the amount of any cash which constitutes Principal Proceeds.

"Aggregate S&P Recovery Value" means the sum of, with respect to each Defaulted Obligation and each Deferred Interest PIK Bond of the Issuer of (a) the Market Value of such Defaulted Obligation or Deferred Interest PIK Bond, as applicable, and (b) the S&P Recovery Rate for such Collateral Asset multiplied by the Principal Balance of such Collateral Asset.

"Applicable Percentage" means, on any day, a percentage equal to A divided by B, where "A" means the product of the Initial Face Amount (as such term is defined in the Master Confirmation) and the Initial Factor (as such term is defined in the Master Confirmation) as decreased on each Delivery Date by an amount equal to (a) the outstanding principal balances of Defaulted Obligations delivered to the Issuer (as adjusted by the Relevant Amount, if any) divided by the Current Factor (as such term is defined in the Master Confirmation) on such day multiplied by (b) the Initial Factor (as such term is defined in the Master Confirmation) and where "B" means the product of the Original Principal Amount (as such term is defined in the Master Agreement) of the related Reference Obligation and the Initial Factor (as such term is defined in the Master Confirmation), (e) as increased by the outstanding principal balance of any further issues by the Reference Entity that are fungible with and form part of the same legal series as the Reference Obligation; and (f) as decreased by any cancellations of some or all of the outstanding principal amount of the related Reference Obligation resulting from purchases of the Reference Obligation by or on behalf of the Reference Entity.

"Applicable Recovery Rate" means, with respect to any Collateral Asset on any Determination Date, the lesser of the Moody’s Recovery Rate and the S&P Recovery Rate.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825514
"Asset-Backed Securities" or "ABS Securities" means any obligation that is a security that is primarily serviced by the cash flows of a discrete pool of receivables or other financial assets, either fixed or revolving and that, by its terms, converts to cash within a finite time period.

"Auction Payment Date" means the Auction Date on which the Notes and Income Notes are redeemed in whole in connection with a successful Auction.

"Board of Directors" means, with respect to the Issuer or the Co-Issuer, the directors of the Issuer or the Co-Issuer, as applicable, duly appointed by the shareholders or the directors of the Issuer or the Co-Issuer, as applicable.

"Calculation Amount" means, (i) with respect to any Definitive Obligation or Deferred Interest PK Bond not related to a Synthetic Security, the lesser of (x) the Market Value of such Definitive Obligation or Deferred Interest PK Bond or (y) the Applicable Recovery Rate multiplied by the Principal Balance of such Definitive Obligation or Deferred Interest PK Bond and (ii) with respect to any Definitive Obligation or Deferred Interest PK Bond related to a Synthetic Security, the lesser of (x) the Market Value of the related Reference Obligation and (y) the Market Value of the Synthetic Security and (iii) the Applicable Recovery Rate multiplied by the Principal Balance of such Definitive Obligation or Deferred Interest PK Bond. For purposes of determining the Calculation Amount, the Principal Balance of a Definitive Obligation shall be deemed to be its outstanding principal amount and the Principal Balance of a Deferred Interest PK Bond shall be deemed to be its outstanding principal amount without regard to any deferred or capitalized interest.

"Cashflow Swap Collateral" means, any cash, securities or other collateral delivered and/or pledged by the Cashflow Swap Counterparty to or for the benefit of the Issuer, including, without limitation, any upfront payment of cash or delivery of securities made by the Cashflow Swap Counterparty to satisfy or secure its payment obligations pursuant to the terms of the related Cashflow Swap Agreement.

"Cashflow Swap Receivables Amount" means, with respect to the Cashflow Swap Agreement and any Payment Date, any Cashflow Swap Agreement receivable, including any other amounts so payable in respect of a termination of any Cashflow Swap Agreement.

"Cashflow Swap Shortfall Replacement Amount" means the amount by which the costs of entering into a Replacement Cashflow Swap Agreement exceed the funds available therefor in the Cashflow Swap Termination Receipts Account.

"Cashflow Swap Shortfall Amount" has the meaning set forth in the Cashflow Swap Agreement.

"Cashflow Swap Termination Receipts" means any amount payable by a Cashflow Swap Counterparty to the Issuer upon termination of a Cashflow Swap Agreement.

"CDO Securities" means the collateralized debt obligations (including, without limitation, any synthetic collateralized debt obligations) at any time on deposit in the Collateral Account that are not subject to withholding or similar taxes unless the relevant Issuer is required to make "gross up" payments that cover the full amount of any such taxes.

"CDO S Note Securities" means CDO Securities that, pursuant to the terms of the related underlying instruments, are senior to all other securities issued in the related transaction and are entitled to principal payments in accordance with a fixed payment schedule, which principal payments are paid by applying, first, interest proceeds available, and second, principal proceeds available.

"Class" means each class of Notes having the same Stated Maturity and same alphabetical (but not necessarily numerical) designation of any of "B-1", "B-2", "B", "A-1", "A-1a", "A-1b", "A-2", "A", "B", "C" or "D" as a single class, and the Income Notes as a single class.

GS MBS-E-021825515
“Class A Adjusted Collateralization Ratio” means, with respect to any Determination Date, the Adjusted Net Outstanding Portfolio Collateral Balance (as the purpose of such calculation, the Adjusted Net Outstanding Portfolio Collateral Balance will not include Principal Proceeds held as cash and Eligible Investments) divided by the Aggregate Outstanding Amount of the Class A-1 Notes and the Class A-1 Notes, after giving effect to payments to be made on the succeeding Payment Date in accordance with the Priority of Payments.

“Class A-1 Note Payment Sequence” shall mean the application of funds in respect of the Class A-1 Notes, first, to the payment of principal in respect of the Class A-1a Notes until the Aggregate Outstanding Amount thereof is paid in full, second, to the payment of principal in respect of the Class A-1b Notes until the Aggregate Outstanding Amount thereof is paid in full, third, to the payment of principal in respect of the Class A-1c Notes until the Aggregate Outstanding Amount thereof is paid in full, and, fourth, to the payment of principal in respect of the Class A-1d Notes until the Aggregate Outstanding Amount thereof is paid in full.

“Class A-1a Note Redemption Price” shall equal (i) the Aggregate Outstanding Amount of the Class A-1a Notes plus (ii) accrued and unpaid Interest thereon (including Defaulted Interest and Interest on Defaulted Interest, if any) to but excluding the Redemption Date.

“Class A-1b Note Redemption Price” shall equal (i) the Aggregate Outstanding Amount of the Class A-1b Notes plus (ii) accrued and unpaid Interest thereon (including Defaulted Interest and Interest on Defaulted Interest, if any) to but excluding the Redemption Date.

“Class A-1c Note Redemption Price” shall equal (i) the Aggregate Outstanding Amount of the Class A-1c Notes plus (ii) accrued and unpaid Interest thereon (including Defaulted Interest and Interest on Defaulted Interest, if any) to but excluding the Redemption Date.

“Class A-1d Note Redemption Price” shall equal (i) the Aggregate Outstanding Amount of the Class A-1d Notes plus (ii) accrued and unpaid Interest thereon (including Defaulted Interest and Interest on Defaulted Interest, if any) to but excluding the Redemption Date.

“Class A-2 Note Redemption Price” shall equal (i) the Aggregate Outstanding Amount of the Class A-2 Notes plus (ii) accrued and unpaid Interest thereon (including Defaulted Interest and Interest on Defaulted Interest, if any) to but excluding the Redemption Date.

“Class B Adjusted Collateralization Ratio” means, with respect to any Determination Date, the Adjusted Net Outstanding Portfolio Collateral Balance (as the purpose of such calculation, the Adjusted Net Outstanding Portfolio Collateral Balance will not include Principal Proceeds held as cash and Eligible Investments) divided by the sum of the Aggregate Outstanding Amount of the Class A Notes, the Class B Notes and the Class C Notes, including Class C Deferred Interest, after giving effect to payments, as applicable, to be made on the succeeding Payment Date in accordance with the Priority of Payments.

“Class B Note Redemption Price” shall equal (i) the Aggregate Outstanding Amount of the Class B Notes, plus (ii) accrued Interest thereon (including Defaulted Interest and Interest on Defaulted Interest, if any) to but excluding the Redemption Date.

“Class C Adjusted Collateralization Ratio” means, with respect to any Determination Date, the Adjusted Net Outstanding Portfolio Collateral Balance (as the purpose of such calculation, the Adjusted Net Outstanding Portfolio Collateral Balance will not include Principal Proceeds held as cash and Eligible Investments) divided by the sum of the Aggregate Outstanding Amount of the Class A Notes, the Class B Notes and the Class C Notes, including Class C Deferred Interest, after giving effect to payments, as applicable, to be made on the succeeding Payment Date in accordance with the Priority of Payments.

“Class C Note Redemption Price” shall equal the sum of (i) Aggregate Outstanding Amount of the Class C Notes (including any Class C Deferred Interest) plus (ii) accrued Interest thereon (including any Defaulted Interest and any Interest on Defaulted Interest, if any) to but excluding the Redemption Date.

Confidential Treatment Requested by Goldman Sachs
"Class D Adjusted Overcollateralization Ratio" means, with respect to any Determination Date, the Adjusted Net Outstanding Portfolio Collateral Balance (for the purposes of such calculation, the Adjusted Net Outstanding Portfolio Collateral Balance will not include Principal Proceeds held as cash and Eligible Investments) divided by the sum of the Aggregate Outstanding Amount of the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes, including Class C Deferred Interest and Class D Deferred Interest, after giving effect to payments, as applicable, to be made on the succeeding Payment Date in accordance with the Priority of Payments.

"Class D Note Redemption Price" shall equal the sum of (i) the Aggregate Outstanding Amount of the Class D Notes (including any Class D Deferred Interest) plus (ii) accrued Interest thereon (including any Deferred Interest and any Interest on Defaulted Interest, if any) to but excluding the Redemption Date.

"Class D Notes Amortizing Principal Amount" means an amount equal to the lesser of (a) with respect to the first Payment Date U.S. $200,000, and with respect to any other Payment Date up to and including the Payment Date in March 2014, U.S. $100,000, and (b) the remaining principal balance of the Class D Notes (including any Deferred Interest and any Defaulted Interest and Interest thereon).

"Class S-1 Note Redemption Prior" shall equal (i) the Aggregate Outstanding Amount of the Class S-1 Notes, plus (ii) accrued Interest thereon (including Defaulted Interest and Interest on Defaulted Interest, if any) to, but excluding, the Redemption Date.

"Class S-1 Notes Amortizing Principal Amount" means, with respect to any Payment Date commencing with the Payment Date in December 2007, the lesser of (a) U.S. $502,000,000, plus the aggregate amount of any Class S-1 Notes Amortizing Principal Amounts that were due on any prior Payment Date and not paid on one or more prior Payment Dates, plus accrued Interest at the Class S-1 Note Interest Rate on any such unpaid amount from the prior Payment Date and (b) the Aggregate Outstanding Amount of the Class S-1 Notes.

"Class S-2 Note Redemption Prior" shall equal (i) the Aggregate Outstanding Amount of the Class S-2 Notes, plus (ii) accrued Interest thereon (including Defaulted Interest and Interest on Defaulted Interest, if any) to, but excluding, the Redemption Date.

"Class S-2 Notes Amortizing Principal Amount" means, with respect to any Payment Date commencing with the Payment Date in December 2007, the lesser of (a) U.S. $616,750,000, plus the aggregate amount of any Class S-2 Notes Amortizing Principal Amounts that were due on any prior Payment Date and not paid on one or more prior Payment Dates, plus accrued Interest at the Class S-2 Note Interest Rate on any such unpaid amount from the prior Payment Date and (b) the Aggregate Outstanding Amount of the Class S-2 Notes.

"Collateral Account" means a segregated non-interest bearing trust account, including all sub-accounts thereof, held in the name of the Trustee into which Collateral will be deposited from time to time.

"Collateral Administration Agreement" means the Collateral Administration Agreement, dated as of the Closing Date, among the Issuer, the Collateral Administrator and the Collateral Manager, as the same may be amended, supplemented or otherwise modified from time to time in accordance with its terms.

"Collateral Administrator" means The Bank of New York, or any successor Collateral Administrator under the Collateral Administration Agreement.

"Collateral Asset" means a Synthetic Security, a CDO Security, a Deliverable Obligation or an item of Default Swap Collateral that has been released from the Ian of the Synthetic Security Counterparty and credited to the Collateral Account as described herein. A-5

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825517
"Commercial Mortgage-Backed Securities" or "CMBS" means securities backed by obligations (including certificates of participation in obligations) that are principally secured by mortgages on real property or interests therein having a multifamily or commercial use, such as residential rental space, office buildings, industrial or warehouse properties, hotels, nursing homes and senior living centers.

"Controlling Class" will be the Class S-1 Notes and the Class A-1 Notes for so long as any Class S-1 Notes and Class A-1 Notes are outstanding, if no Class S-1 Notes are outstanding but Class A-1 Notes are outstanding, then the Class A-1 Notes; if no Class S-1 Notes or Class A-1 Notes are outstanding, then the Class B-2 Notes and the Class A-2 Notes, for so long as any Class B-2 Notes and Class A-2 Notes are outstanding; if no Class B-2 Notes are outstanding but Class A-2 Notes are outstanding, then the Class A-2 Notes; if no Class S Notes or Class A Notes are outstanding, then the Class B Notes, so long as any Class B Notes are outstanding; if no Class S Notes, Class A Notes or Class B Notes are outstanding, then the Class C Notes, so long as any Class C Notes are outstanding; and if no Class S Notes, Class A Notes, Class B Notes or Class C Notes are outstanding, then the Class D Notes, so long any Class D Notes are outstanding.

"Credit Derivatives Definitions" means the 2003 ISDA Credit Derivatives Definitions.

"Credit Protection Amounts" means Physical Settlement Amounts, Writedown Amounts, Principal Shortfall Amounts, Interest Shortfall Amounts and Synthetic Security Termination Payments (which, for the avoidance of doubt, will not include Defaulted Swap Termination Payments) payable by the Issuer to the Synthetic Security Counterparty.

"Credit Support Annex" means the ISDA Credit Support Annex entered into by the Issuer and the Cashflow Swap Counterparty on the Closing Date.

"Deed of Covenant" means the deed of covenant executed by the Issuer on or about the Closing Date constituting the Income Notes.

"Defaulted Cashflow Swap Collateral Account" means the securities on deposit in the Defaulted Cashflow Swap Collateral Account which satisfy the Defaulted Cashflow Swap Collateral Eligibility Criteria.

"Defaulted Cashflow Swap Termination Payments" means any termination payment required to be made by the Issuer to the Cashflow Swap Counterparty pursuant to a Cashflow Swap Agreement in the event of a termination of a Cashflow Swap Agreement in respect of which such Cashflow Swap Counterparty is the sole Defaulted Party or the sole Affected Party (as defined in the Cashflow Swap Agreement), other than with respect to "Illegality" or "Tax Event" (as defined in the Cashflow Swap Agreement).

"Defaulted Obligation" means any Reference Obligation or CDO Security with respect to which:

1) the Issuer thereof has defaulted in the payment of principal or interest without regard to any applicable grace period or waiver; provided that a Collateral Asset will not constitute a Defaulted Obligation under this clause (1) if (a) the Collateral Manager certifies in writing to the Trustee, in its reasonable business judgment, that such payment default is due to non-credit and non-credit related reasons and such default does not continue for more than five Business Days (or, if earlier, until the next succeeding Determination Date) or (b) such payment default has been cured by the payment of all amounts that were originally scheduled to have been paid, provided, further, however, that, notwithstanding the foregoing, any Collateral Asset that is in default with respect to the payment of interest or principal as of a Determination Date shall not be a Defaulted Obligation if such default is cured through the payment of all past due interest and principal within three Business Days after such Determination Date (and the Collateral Manager shall determine whether a default has occurred and is continuing on or prior to the second Business Day prior to the Payment Date) of such Collateral Asset shall not be treated as a Defaulted Obligation if the Collateral Manager believes the default on such Collateral Asset will be cured as of the next Determination Date, such Collateral Asset does not have an S&P Rating of "CC" or lower, "D" or "SD" and the Rating Agency Condition has been satisfied relative to such treatment.

GS MBS-E-021826518
Footnote Exhibits - Page 5608

(i) the principal amount of such Collateral Asset has been written down;

(ii) any bankruptcy, insolvency or receivership proceeding has been initiated in connection with the issuer of such Collateral Asset and is undismissed and undischarged; provided, that, if such proceeding is an involuntary proceeding, the condition of this clause (ii) will not be satisfied until the earliest of the following: (i) the issuer consents to such proceeding, (ii) an order for relief under the United States Bankruptcy Code, or any similar order under a proceeding not taking place under the United States Bankruptcy Code, has been entered, and (iii) such proceeding remains undismissed and undischarged for 90 days;

(iv) such Collateral Asset has an S&P Rating of "CCC" or lower, "D" or "SD" or, if S&P withdraws its rating and the S&P Rating at the time of withdrawal is "CCC" or below or such Collateral Asset has a Moody's Rating of "C" or lower or "Ca";

(v) in the case of a Synthetic Security, the related Synthetic Security Counterparty is in default pursuant to the terms of such Synthetic Security; or

(vi) the Collateral Manager believes that such Collateral Asset will default on or before the next Determination Date.

"Deemed Synthetic Security" means any termination payment required to be made by the Issuer to the Synthetic Security Counterparty pursuant to a Synthetic Security in the event of a termination of a Synthetic Security in respect of which such Synthetic Security Counterparty is the sole Defaulting Party or the sole Affected Party (as defined in the Synthetic Security), other than with respect to "illegality" or "Tax Event" (as defined in the Synthetic Security).

"Deemed Interest PIK Bond" means a PIK Bond that (1) has an Actual Rating of "Baa3" or above by Moody’s and makes payments less frequently than monthly and has deferred interest in an amount equal to the amount of interest that would accrue over the shorter of two payment periods or one-year; or (2) has an Actual Rating of "Baa1" or above by Moody’s and makes payments on a monthly basis and has deferred interest in an amount equal to the amount of interest that would accrue over the shorter of (i) one year and (ii) the longer of (A) the number of months between any two consecutive defaults of interest and (B) six months or (3) has an Actual Rating of "Baa2" or below by Moody’s and makes payments less frequently than monthly and has deferred interest in an amount equal to the amount of interest that would accrue over the shorter of one payment period or six months, or (4) has an Actual Rating of "Baa1" or above by Moody’s and makes payments on a monthly basis and has deferred interest in an amount equal to the amount of interest that would accrue over three months; provided that such PIK Bond would no longer be a Deemed Interest PIK Bond once payment of interest has resumed and all capitalized or deferred interest has been paid in full in accordance with the underlying documents.

"Deemed Structuring Expense" means a fee payable to the Initial Purchaser in accordance with the Priority of Payments, payable in arrears on each Payment Date, of 0.34% per annum times the Aggregate Principal Amount, measured as of the beginning of the Due Period preceding each Payment Date. The Deferred Structuring Expenses will be calculated on the basis of a 360 day year consisting of twelve 30-day months.

"Definitive Notes" means Notes or Income Notes issued in definitive, fully registered form, registered in the name of the owner thereof.

"Deliverable Obligation" means an obligation which, pursuant to the terms of the Synthetic Security, may be delivered to the Issuer as a result of a Credit Event.

"Delivery Date" means the date on which a Deliverable Obligation is delivered to the Issuer pursuant to the Synthetic Security.

"Distribution Compliance Period" means, with respect to the Notes, the period that ends 60 days after the later of (i) the commencement of the offering of the Notes and (ii) the Closing Date.

GS MBS-E-021825519
"Double B Calculation Amount" means the sum of the products of (i) the Principal Balance of each Double B Rated Asset and (ii) 99.5%.

"Double B Rated Asset" means any Collateral Asset that is not a Single B Rated Asset or Triple C Rated Asset with an Actual Rating from S&P less than "BBB-" or with an Actual Rating from Moody's less than "Ba3".

"Effective Date" means March 27, 2007.

"Eligible Bidders" are (i) any Institutions, which may include affiliates of the Initial Purchaser, the Collateral Manager and Holders of the Notes and the income Notes, whose short-term unsecured debt obligations have a rating of at least "A-1+" by Moody's or "A-1+" by S&P and (ii) the Collateral Manager.

"Eligible Depositary" shall be a financial institution organized under the laws of the United States or any state thereof, authorized to accept deposits, having a combined capital and surplus of at least U.S.$200,000,000, and having (or if its obligations are guaranteed by its parent company, its parent holding), a long term debt rating of at least "Ba1" by Moody's and (if rated "Ba1"), such rating is not on watch for downgrade) and "BBB-" by S&P and a short term debt rating of "A-1" by Moody's and (if not on watch for downgrade) and at least "A-1" by S&P.

"Eligible Guarantees" means an unconditional and irrevocable guarantee that is provided by a guarantor as principal debtor rather than surety and is directly enforceable by the Issuer, where either (A) a law firm has given a legal opinion confirming that none of the guarantor's payments to Issuer under such guarantee will be subject to withholding for tax (B) such guarantee provides that, in the event that any of such guarantor's payments to Issuer are subject to withholding for tax, such guarantor is required to pay such additional amount as is necessary to ensure that the net amount actually received by Issuer (free and clear of any withholding tax) will equal the full amount issued would have received had there not been any withholding been required.

"Eligible Investment" means any U.S. Dollar-denominated investment that, at the time it is delivered to the Trustee, is one of more of the following obligations or securities (including security entitlements with respect thereto): (i) direct Registered obligations of, and Registered obligations fully guaranteed by, the United States or any agency or instrumentality of the United States (the obligations of which are expressly backed by the full faith and credit of the United States); (ii) demand and time deposits in, certificates of deposit of, or bankers' acceptances issued by, any depository institution or trust company incorporated in the United States or any state thereof, which depository institution or trust company is subject to supervision and examination by federal or state authorities, with a maturity not in excess of 182 days, and with a credit rating by S&P of at least "A-1+" or at least "Aa3", as applicable, a credit rating by Moody's of at least "A-1+" or at least "Aa3" (and if rated "Aa3", not on watch for downgrade), as applicable, in the case of a maturity in excess of 30 days, or a credit rating by S&P of at least "A1-" and a credit rating by Moody's of at least "Ba1" (and not on watch for downgrade) in the case of a maturity of less than 30 days; (iii) any other security issued or guaranteed by an agency or instrumentality of the United States, entered into with a depository institution or trust company described in clause (ii) above or entered into with a corporation whose long-term senior unsecured rating is at least "A1-" (and if rated "A1-", not on watch for downgrade) by Moody's and "Aa3" by S&P and whose short-term credit rating is "P-1+" (and not on watch for downgrade) by Moody's and "A-1+" by S&P at the time of such investment, with a term not in excess of 91 days; (iv) Registered debt securities bearing interest or sold at a discount issued by any corporation incorporated under the laws of the United States or any state thereof that have a credit rating of at least "Aa3" (and if rated "Aa3", not on watch for downgrade) or "P-1+" (and not on watch for downgrade) by Moody's and "Aa3" or "A-1+" by S&P, or commercial paper or other short-term obligations of a corporation, partnership, limited liability company or trust, or any branch or agency thereof located in the United States or any of its territories, such commercial paper or other short-term obligations having a credit rating of "P-1+" (and not on watch for downgrade) by Moody's and "A-1+" by S&P, and that are Registered and either are interest bearing or are sold at a discount from the face amount thereof and...
have a maturity of not more than 91 days from their date of issuance; and (vi) offshore money market funds which have a credit rating of not less than "Aa3MR1+" by Moody's and "AAAm" or "AAA" by S&P, provided however, that each rating in clauses (i) through (vi) above by Moody's or S&P shall be an Actual Rating and provided further, that any such investment purchased on the basis of S&P's short-term rating of "A-1" shall mature no later than 30 days after the date of purchase and may not, other than overnight investments from The Bank of New York (so long as The Bank of New York is the Trustee under the Indenture), exceed 20% of the Aggregate Outstanding Amount of the Notes rated by S&P.

Eligible Investments shall not include any RMBS, CMBS, any inverse floater, any security subject to withholding tax if owned by the issuer, any security subject to an offer, any Interest only security, any principal only security (other than treasury bills or commercial paper), any security with a price in excess of 100% of par or any security the repayment of which is dependent on substantial non-credit related risk as determined by the Collateral Manager or any other security the acquisition (including the manner of acquisition), ownership or disposition of which would cause the issuer to be treated as engaged in a trade or business within the United States for United States federal income tax purposes. Each such Eligible Investment shall mature no later than the second Business Day immediately preceding the Payment Date next following the Due Period in which the date of investment occurs, unless such Eligible Investment is issued by the institution acting as Securities Intermediary, in which event such Eligible Investment may mature on the Business Day preceding such Payment Date. Eligible Investments may include those investments with respect to which the Securities Intermediary, the Trustee, the Collateral Manager or the Initial Purchaser or an affiliate of the Trustee, the Collateral Manager or the Initial Purchaser provides services. As used in this definition, ratings may not include ratings with an "R", "P", "Q", "Pf" or "T" subscript.

"Eligible Replacement" means an entity (i) (A) with the Moody's First Trigger Required Ratings or (B) whose present and future obligations owing to it are guaranteed pursuant to an Eligible Guarantee provided by a guarantor with the Moody's First Trigger Required Ratings, subject to satisfaction of the Rating Agency Condition and (ii) that is either a Qualified Purchaser or a person that is not a "U.S. Person" as defined in Regulation S under the Securities Act of 1933.

"Expected Amount" means the amount determined in connection with a Credit Event in accordance with the related Synthetic Security.

"Expected Payment Amount" has the meaning set forth in the Master Confirmation.

"Expected Interest Amount" means with respect to any Reference Obligation Payment Date, the amount of current interest that would accrue during the related Reference Obligation Calculation Period calculated using the Reference Obligation Coupon on a principal balance of the Reference Obligation equal to the outstanding principal amount taking into account any reductions due to a principal deficiency realized loss amount (however defined in the underlying instruments) that are attributable to the Reference Obligation, and that will be payable on the related Reference Obligation Payment Date assuming for the purpose that sufficient funds are available therefor in accordance with the underlying instruments, calculated in accordance with the related Synthetic Security.

"Expected Principal Amount" means with respect to the Final Amortization Date or the legal final maturity date of the related Reference Obligation, an amount equal to (i) the Outstanding Principal Amount of the Reference Obligation payable on such day (excluding capitalized interest) assuming for this purpose that sufficient funds are available for such payment, where such amount shall be determined in accordance with the underlying instruments, minus (ii) the sum of (A) the "Aggregate Implied Voluntary Amount" (as such term is defined in the related Synthetic Security) (if any) and (B) the net aggregate principal deficiency balance or realized loss amount (however described in the underlying instruments) that are attributable to the Reference Obligation. For purposes hereof, the Expected Principal Amount shall be determined without regard to the affect of any provisions (however described) of the underlying instruments that permit the limitation of due payments or distributions of funds in accordance with the terms of such Reference Obligation or that provide for the extinguishing or reduction of such payments or distributions.
"Failure to Pay Interest" means, with respect to any Synthetic Security, the occurrence of an Interest Shortfall Amount or Interest Shortfall Amounts (calculated on a cumulative basis) in excess of the relevant Payment Requirement.

"Final Amortization Date" means the first to occur of (i) the date on which the Reference Obligation Notional Amount is reduced to zero and (ii) the date on which the assets securing the Reference Obligation or designated to fund amounts due in respect of the Reference Obligation are liquidated, distributed or otherwise disposed of in full and the proceeds thereof are distributed or otherwise disposed of in full.

"Final Payment Date" means a Payment Date with respect to an Optional Redemption by Liquidation, a Payment Date in connection with the Stated Maturity (other than with respect to the Class S Notes), Tax Redemption, an Auction or redemption due to an Event of Default resulting in acceleration of the Notes and liquidation of the Collateral in full.

"Fixed Rate" means the relevant fixed rate (expressed on a per annum basis) set forth in the Master Confirmation, subject to adjustment in accordance with the Master Confirmation.

"Fixed Rate Payment Calculation Period" has the meaning set forth in the Credit Derivatives Definitions.

"Fixed Rate Payment Date" means each Business Day falling within the Business Days after a Reference Obligation Payment Date; provided, however, that in the case of a Floating Rate Payment Date that occurs on the fifth Business Day following the Effective Maturity Date (as set forth in the Master Confirmation).

"Floating Amounts" means with respect to any Synthetic Security, an amount equal to the sum of (a) the relevant Writedown Amount (if any), (b) the relevant Principal Shortfall Amount (if any), (c) the relevant Interest Shortfall Payment Amount (if any) and (d) the relevant Physical Settlement Amount (if any).

"Floating Amount Event" means with respect to any Synthetic Security, the occurrence of a Writedown, a Failure to Pay Principal or an Interest Shortfall (as each such term is defined in the related Synthetic Security) with respect to the Reference Obligation thereunder.

"Floating Amount Payment" means payment of a Floating Amount.

"Floating Rate Payment Date" means, in relation to a Floating Amount Event, the first Floating Rate Payment Date falling at least two Business Days (or, in the case of a Floating Amount Event that occurs on the Legal Final Maturity Date (as set forth in the Master Confirmation) or the Final Amortization Date, the fifth Business Day) after delivery of a notice by the Calculation Agent to the parties or a notice by Goldman Sachs International to the Synthetic Security Counterparty that the related Floating Amount is due and showing in reasonable detail how such Floating Amount was determined; provided, however, that in the case of a Floating Amount Event that occurs on the Legal Final Maturity Date or the Final Amortization Date, such notice must be given on or prior to the fifth Business Day following the Legal Final Maturity Date or the Final Amortization Date, as applicable.

"Holder" or "Noteholder" means, with respect to any Note the person in whose name such Note is registered, or, for purposes of voting, the granting of consents and other similar determinations under the Indenture, with respect to any Notes in global form, a beneficial owner thereof and, with respect to any Income Note, the person in whose name such Income Note is registered in the income note register of the Issuer.

"Implied Rating" means, in the case of a rating on a Collateral Asset, a rating that is determined by reference to any publicly available, fully monitored rating by another rating agency that, by its terms, addresses the full scope of the payment promise of the obligor. As used in this definition, ratings may not include ratings with a "P", "pi", "q", "r" or "I" subscript or any other qualifiers.
"Implied Weitdown Amount" means (a) if the underlying instruments relating to the Reference Obligation do not provide for weitdowns, applied losses, principal deficiencies or realized losses as described in clause (i) of the definition of "Weitdown" above in respect of the Reference Obligation, on any Reference Obligation Payment Date, the amount determined by the Synthetic Security Counterparty in its capacity as calculation agent and equal to the excess, if any, of the Implied Weitdown Amount for the interest accrual period relating to the current Reference Obligation Payment Date over the Implied Weitdown Amount for the immediately preceding interest accrual period and (b) in any other case, zero.

"Income Note Registrar" means The Bank of New York, as income note registrar for the Income Notes.

"Interest Proceeds" means, in respect of any Payment Date, all Investment Income received on the Collateral Assets and Eligible Investments that are on deposit in the Collateral Account and the Fixed Amounts received from the Synthetic Security Counterparty under the Synthetic Securities in the related Due Period.

"Interest Shortfall" means with respect to any Reference Obligation Payment Date and any Reference Obligation, either (a) the nonpayment of an Expected Interest Amount or (b) the payment of an Actual Interest Amount that is less than the Expected Interest Amount, as described in the related Synthetic Security.

"Interest Shortfall Amount" means with respect to any Reference Obligation Payment Date, an amount equal to the greater of: (a) zero; and (b) the amount equal to the product of: (i) the Expected Interest Amount; minus (ii) the Actual Interest Amount; and (iii) the Applicable Percentage.

"Interest Shortfall Cap" means the cap, if any, on Interest Shortfalls as set forth in the related Master Confirmation.

"Interest Shortfall Cap Amount" means the amount of any Interest Shortfall Cap as set forth in the related Master Confirmation.

"Interest Shortfall Payment Amount" means in respect of an Interest Shortfall, the relevant Interest Shortfall Amount; provided, however, that if the Interest Shortfall Cap is applicable and the Interest Shortfall Amount exceeds the Interest Shortfall Cap Amount, the Interest Shortfall Payment Amount in respect of such Interest Shortfall shall be the Interest Shortfall Cap Amount.

"Interest Shortfall Reimbursement" means with respect to any Reference Obligation Payment Date, the payment by or on behalf of the Reference Entity of an Actual Interest Amount in respect of the Reference Obligation that is greater than the Expected Interest Amount.

"Interest Shortfall Reimbursement Payment Amount" means with respect to any Reference Obligation Payment Date, the product of (a) the amount of any Interest Shortfall Reimbursement on such day and (b) the Applicable Percentage.

"Interest Shortfall Reimbursement Payment Amount" means (a) if Interest Shortfall Cap is not applicable, the relevant Interest Shortfall Reimbursement Amount, and (b) if Interest Shortfall Cap is applicable, the amount determined pursuant to the related Synthetic Security, provided, in either case, that the aggregate of all Interest Shortfall Reimbursement Payment Amounts (determined for this purpose on the basis that "Interest Shortfall Compounding" is not applicable) at any time shall not exceed the aggregate of Interest Shortfall Payment Amounts paid by the Issuer in respect of Interest Shortfalls occurring prior to the date of payment of any such Additional Fixed Amount.

"Interest Shortfall Reserve Amount" has the meaning set forth in the Master Confirmation.

"Issue" of a Collateral Asset means any such Collateral Asset issued by the same Issuer, having the same terms and conditions (as to, among other things, coupon, maturity, security and subordination) and otherwise being fungible with one another.

GS MBS-E-021625523
"Liquidation Proceeds" means, without duplication, (i) all Sale Proceeds from Collateral Assets and Default Swap Collateral sold in connection with such redemption minus any termination payments (other than Defaulted Synthetic Security Termination Payments) due to the Synthetic Security Counterparty or payments due to any assignee of a Synthetic Security from the Default Swap Collateral Account in connection with the termination or assignment of the Synthetic Securities, (ii) the aggregate amount received by the Issuer net of any amount required to be paid to the Issuer on or prior to the Business Day immediately preceding the relevant Payment Date from the termination of any Cashflow Swap Agreement in connection with such redemption, and (iii) cash and Eligible Investments on deposit in the Accounts, to the extent available therefor, including any amounts designated by the Collateral Manager as retained for reinvestment in Eligible Investments (and also including any payments received under any Cashflow Swap Agreement on or prior to the day preceding the Payment Date, but only to the extent that such payments are required to be paid as a result of an Optional Redemption by liquidation or Tax Redemption of Notes), in each case as determined by the Collateral Manager.

"Majority" means (a) with respect to any Class or Classes of Notes, the Holders of more than 50% of the Aggregate Outstanding Amount of such Class or Classes of Notes and (b) with respect to the Income Notes, the Holders of more than 50% of the notional principal amount of Income Notes.

"Market Value" means, with respect to the Collateral Assets and/or Eligible Investments, (i) the average of three bona fide bids for such Collateral Asset or Eligible Investment obtained by the Collateral Manager at such time from any three nationally recognized dealers, which dealers are independent from one another and from the Collateral Manager, or (ii) if the Collateral Manager is unable to obtain three such bids, the lesser of two bona fide bids for such Collateral Asset or Eligible Investment obtained by the Collateral Manager at such time from any two nationally recognized dealers acceptable to the Collateral Manager, which dealers are independent from one another and from the Collateral Manager, or (iii) in the event the Collateral Manager is unable to obtain two such bids, the price on such date provided to the Collateral Manager by an independent pricing service reasonably selected by the Collateral Manager, or (iv) in the event the Collateral Manager cannot in good faith determine the market value of such Collateral Asset or Eligible Investment using commercially reasonable efforts to apply the methods specified in clauses (i) through (iii) above, as determined in good faith by the Collateral Manager using commercially reasonable efforts to apply its reasonable business judgment. If the method of determining Market Value is based solely on the Collateral Manager’s determination, such Market Value shall not exceed the SAP Recovery Rate, multiplied by the Principal Balance of the Collateral Asset and/or Eligible Investment, and shall be considered zero after 30 days or until such time as the Collateral Manager obtains a bid for such Collateral Asset or Eligible Investment. For purposes of clause (iv) of the definition of Calculation Amount, "Market Value" means the sum of (i) the notional amount of any such Synthetic Security and (ii) the "Market Value" (which represents a trading termination payment or upfront payment in respect of a termination or assignment of such Synthetic Security) and which amount, if payable by the Issuer in respect of such termination or assignment, will be a negative number(s) of such Synthetic Security otherwise determined pursuant to this definition of Market Value.

"Minimum Bid Amount" is an amount equal to the sum of (a) the Redemption Price with respect to the Auction Payment Date, (b) any amount payable by the Issuer to the Cashflow Swap Counterparty upon termination of the Cashflow Swap Agreement less any amounts payable by the Cashflow Swap Counterparty to the Issuer upon the termination of the Cashflow Swap Agreement, (c) unpaid Defaulted Synthetic Security Termination Payments, (d) accrued and unpaid Collateral Management Fees, (e) accrued and unpaid Deferred Structuring Expenses and (f) 10% of all unpaid expenses of the Issuer, less amounts on deposit in the Accounts which are available to redeem the Notes or pay amounts provided in clause (b) through (e) above which would not include amounts on deposit in the Default Swap Collateral Account due to the Synthetic Security Counterparty or any assignee of a Synthetic Security including termination payments (other than Defaulted Synthetic Security Termination Payments).

"Moody’s First Rating Trigger Requirement" shall apply so long as no relevant entity has the Moody’s First Trigger Required ratings.
"Moody's First Trigger Required Ratings" shall apply to an entity if such entity has a long-term, unrated and unsecured debt or counterparty obligation rating of "A3" (and not on watch for downgrade) or above by Moody's.

"Moody's "idealized" Cumulative Expected Loss Rate" as defined in Schedule G to the Indenture.

"Moody's Rating" means the rating determined in accordance with the methodology described in the Indenture.

"Moody's Recovery Rate" means, with respect to a Collateral Asset (or in the case of a Synthetic Security, the related Reference Obligation), an amount equal to the percentage for such Collateral Asset set forth in the recovery rate assumptions for Moody's attached as Part I of Schedule D to the Indenture, provided, however, that (A) Defaulted Obligations which exceed 2.5% of the Aggregate Principal Amount and have been defaulted for more than one year will be deemed to have a Moody's Recovery Rate of 0%, (B) Defaulted Obligations which exceed 1.25% of the Aggregate Principal Amount and have been defaulted for more than 2 years shall be deemed to have a Moody's Recovery Rate of 0%, and (C) Defaulted Obligations which have been defaulted for more than 3 years shall be deemed to have a Moody's Recovery Rate of 0%.

"Moody's Second Rating Trigger Requirements" means a requirement that shall apply as long as no Relevant Entity has the Moody's Second Trigger Required Ratings.

"Moody's Second Trigger Required Ratings" means an entity shall have the Moody's Second Trigger Required Ratings if such an entity has a long-term, unrated and unsecured debt or counterparty obligation rating of "A3" (and not on watch for downgrade) or above by Moody's; the "Moody's Second Rating Trigger Requirements" shall apply as long as no Relevant Entity has the Moody's Second Trigger Required Ratings.

"Not Outstanding Portfolio Collateral Balance" means, on any Determination Date, an amount equal to (i) the aggregate Principal Balance on such Determination Date of all Collateral Assets, plus (ii) the aggregate Principal Balance of all Principal Proceeds held as cash and Eligible Investments purchased with Principal Proceeds, minus (iii) the aggregate Principal Balance on such date of determination of all Collateral Assets that are (A) Defaulted Obligations, (B) Deferred Interest PIK Bonds, (C) Double B Rated Assets, (D) Single B Rated Assets and (E) Triple C Rated Assets, plus (iv) the Aggregate Calculation Amount of Defaulted Obligations and Deferred Interest PIK Bonds, the Double B Calculation Amount, the Single B Calculation Amount and the Triple C Calculation Amount, minus (v) 25% of the projected Principal Balance of each Collateral Asset other than a Defaulted Obligation, Deferred Interest PIK Bond, Double B Rated Asset, Single B Rated Asset or Triple C Rated Asset that is expected to be paid after the Stated Maturity of the Class B Notes.

"Outstanding Principal Amount" means, as of any date of determination with respect to the Reference Obligation, the outstanding principal balance of the Reference Obligation as of such date, which shall take into account:

(i) all payments of principal;

(ii) all write downs or applied losses (however described in the underlying instruments (as set forth in the Master Confirmation)) resulting in a reduction in the outstanding principal balance of the Reference Obligation (other than as a result of a scheduled or unscheduled payment of principal);

(iii) forgiveness of any amount by the holders of the Reference Obligation pursuant to an amendment to the underlying instruments resulting in a reduction in the outstanding principal balance of the Reference Obligation;

(iv) any payments reducing the amount of any reductions described in (i) and (iii) of this definition; and

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825525
(v) any increase in the outstanding principal balance of the Reference Obligation that reflects a reversal of any prior reductions described in (i) and (ii) of this definition.

For the avoidance of doubt, the Outstanding Principal Amount shall not include any portion of the outstanding principal balance of the Reference Obligation that is attributable to the deferral or capitalization of interest during the Term (as set forth in the Credit Derivatives Definitions) of the Component Transaction (as set forth in the Master Confirmation).

"Overcollateralization Ratio" means the Class A/B Overcollateralization Ratio, the Class A Adjusted Overcollateralization Ratio, the Class B Adjusted Overcollateralization Ratio, the Class C Overcollateralization Ratio, the Class C Adjusted Overcollateralization Ratio, the Class D Overcollateralization Ratio and the Class D Adjusted Overcollateralization Ratio.

"Payment Date" means the third day of every March, June, September and December, or if any such date is not a Business Day, the immediately following Business Day, commencing on September 4, 2007.

"Payment Requirement" means the amount specified as such, in U.S. Dollars, in the related Master Confirmation.

"Physical Settlement Amount" means, following the occurrence of a Credit Event with respect to a Reference Obligation, an amount paid by the Issuer to the Synthetic Security Counterparty, calculated in accordance with the related Synthetic Security and paid on the related Physical Settlement Date, in exchange for the delivery of a Reference Obligation as a Deliverable Obligation by the Synthetic Security Counterparty to the Issuer.

"Physical Settlement Date" has the meaning set forth in the Master Confirmation.

"P&L Bond" means a Collateral Asset on which the deferral of interest does not constitute an event of default pursuant to the terms of the related underlying instruments (while any other senior debt obligation is outstanding if so provided by the related indenture or other underlying instruments).

"Principal Balance" means, with respect to any Collateral Asset or Eligible Investment, as of any date of determination, the outstanding principal amount of such Collateral Asset or Eligible Investment, subject to the following exceptions: (1) the Principal Balance of a Collateral Asset received upon acceptance of an offer to exchange a Collateral Asset for such Collateral Asset shall be deemed to be the percentage of the outstanding principal amount equal to the least of (a) the Moody's Recovery Rate and (b) the S&P Recovery Rate for such Collateral Asset until such time as Proceeds are first received when due with respect to such Collateral Asset; (ii) the Principal Balance of each Defaulted Obligation shall be deemed to be zero; (A) for purposes of the calculation of the Coverage Tests, in which case the Principal Balance of Defaulted Obligations shall equal the respective outstanding principal amount (unless otherwise indicated in such tests); (B) for purposes of calculating any trustee fees and the Collateral Management Fee, the Principal Balance of each Defaulted Obligation shall equal the Collateral Amount for such Defaulted Obligation and (C) as otherwise expressly indicated, (ii) the Principal Balance of any cash shall be the amount of such cash; (vi) the Principal Balance of any Collateral Assets and any Eligible Investments in which the Trustee does not have a perfected security interest shall be deemed to be zero; (v) the Principal Balance of any Collateral Asset that is an equity security shall be deemed to be zero; (vi) the Principal Balance of a Synthetic Security shall be the Reference Obligation Notional Amount of such Synthetic Security minus any implied Write-down Amounts; and (vii) the Principal Balance of any Default Swap Collateral shall be deemed to be zero as long as the related Synthetic Security is outstanding.

"Principal Proceeds" means, with respect to any Due Period, the sum (without duplication) of: (i) all payments of principal on the Collateral Assets and Eligible Investments received in cash by the Issuer during such Due Period (including, without duplication, principal payments received on any Default Swap Collateral released from the lien of the Synthetic Security Counterparty), prepayments or mandatory
sinking fund payments, or payments in respect of optional redemptions, exchange offers, tender offers (other than payments of principal of Eligible Investments acquired with Proceeds other than Principal Proceeds) and recoveries and interest on Defaulted Obligations up to the payment amount of such Defaulted Obligation; (i) any termination payments received from a Synthetic Security Counterparty; (ii) any Additional Fixed Amounts (other than Interest Shortfall Reimbursement Payment Amounts) in respect of Interest Shortfall Payments satisfied by offsetting Fixed Payments received from a Synthetic Security Counterparty; (iv) Sale Proceeds received by the Issuer during such Due Period (excluding accrued interest on sold or disposed Collateral Assets or Eligible Investments); (v) all amendment, waiver, late payment fees, restructuring and other fees and commissions collected during the related Due Period in respect of Defaulted Obligations up to the payment amount; (vi) any proceeds resulting from the termination, replacement and liquidation of any Cashflow Swap Agreement to the extent such proceeds exceed the cost of entering into a replacement Cashflow Swap Agreement received during the period commencing on the date after the first Payment Date following the commencement of such Due Period (or the Closing Date, in the case of the first Due Period) and ending on and including the first Payment Date following the end of such Due Period; (vii) all payments received in cash by the Issuer during such Due Period that represent call, prepayment or redemption premiums but not in excess of the purchase premium paid thereon and (viii) any Proceeds other than Interest Proceeds; provided, however, that Principal Proceeds shall not include any accrued interest or any funds from the Income Note Payment Account and any Excluded Property.

"Principal Shortfall Amount" means, in respect of a Failure to Pay Principal, an amount equal to the greater of: (i) zero; and (ii) the amount equal to the product of: (A) the Expected Principal Amount minus the Actual Principal Amount; (B) the Applicable Percentage; and (C) the Reference Price. For purposes of clause (1) of the preceding sentence, if the Principal Shortfall Amount would be greater than the Reference Obligation Notional Amount immediately prior to the occurrence of such Failure to Pay Principal, then the Principal Shortfall Amount shall be deemed to be equal to the Reference Obligation Notional Amount at such time.

"Principal Shortfall Reimbursement" means, with respect to any day, the payment by or on behalf of the Reference Entity of an amount in respect of the Reference Obligation in or toward the satisfaction of any deferment of or failure to pay principal arising from one or more prior occurrences of a Failure to Pay Principal.

"Principal Shortfall Reimbursement Payment" means, with respect to any day, the product of (i) the amount of any Principal Shortfall Reimbursement on such day; (ii) the Applicable Percentage and (iii) the Reference Price.

"Principal Shortfall Reimbursement Payment Amount" means, as of any date of determination, the sum of the Principal Shortfall Reimbursement Amounts in respect of all Principal Shortfall Reimbursements (if any) made during the Reference Obligation Calculation Period relating to such date, provided that the aggregate of all Principal Shortfall Reimbursement Payment Amounts at any time shall not exceed the aggregate of allFloating Amounts paid by the Issuer in respect of occurrences of Failure to Pay Principal prior to such date.

"Proceeds" means, with respect to any Due Period, without duplication, (i) all amounts received by the Trustee with respect to the Collateral Assets (excluding principal payments received on any related Default Swap Collateral) on deposit in the Default Swap Collateral Account unless otherwise provided in this Indenture but including all investment income on Default Swap Collateral), (ii) all amounts received as amendment, waiver, late payment fees and commissions collected during the Due Period on Collateral Assets, (iii) all amounts received with respect to Eligible Investments in the Accounts, (iv) any amounts to be released or withdrawn on the related Payment Date from the Expense Reserve Account and (v) all amounts received under any Cashflow Swap Agreement relating to the Due Period, including Principal Proceeds.
"Quarterly Asset Amount" means, with respect to any Payment Date, the Aggregate Principal Amount on the first day of the related Due Period.

"Rating Agency Condition" means, with respect to any action taken or to be taken under the Transaction Documents, a condition that is satisfied when each Rating Agency has confirmed in writing to the Issuer and the Collateral Manager that such action will not result in the immediate withdrawal, reduction or other adverse action with respect to any then-current rating of any Class of Notes or the Income Notes.

"Redemption Date" means any Tax Redemption Date or Optional Redemption Date.

"Redemption Price" is the Class 5-1 Note Redemption Price, the Class 5-2 Note Redemption Price, the Class A-1a Note Redemption Price, the Class A-1b Note Redemption Price, the Class A-1c Note Redemption Price, the Class A-1d Note Redemption Price, the Class A-2 Note Redemption Price, the Class B Note Redemption Price, the Class C Note Redemption Price and the Class D Note Redemption Price, as applicable.

"Reference Entity" means the issuer of, or the obligor on, a Reference Obligation.

"Reference Obligation" means a CDO Security referenced under the Synthetic Security.

"Reference Obligation Calculation Period" means, with respect to each Reference Obligation Payment Date, a period corresponding to the interest accrual period relating to such Reference Obligation Payment Date pursuant to its "Underlying Instruments," as defined in accordance with the Master Confirmation. For the avoidance of doubt, the first Reference Obligation Calculation Period will begin on the Reference Obligation Payment Date falling on or immediately prior to the Closing Date.

"Reference Obligation Coupon" means the periodic interest rate applied in relation to each Reference Obligation Calculation Period on the related Reference Obligation Payment Date, as determined in accordance with the terms of the underlying Instruments as at the Closing Date, without regard to any subsequent amendment.

"Reference Obligation Notional Amount" means, with respect to each Synthetic Security, the notional amount specified therein, which will be reduced or increased pursuant to the terms of such Synthetic Security.

"Reference Obligation Payment Date" means (f) each scheduled distribution date for a Reference Obligation occurring on or after the Closing Date and on or prior to such Reference Obligation's "Legal Final Maturity Date" (as set forth in the Synthetic Security), determined in accordance with the Underlying Instruments and (g) any day after such Reference Obligation's "Effective Maturity Date" (as set forth in the Master Confirmation) on which a payment is made in respect of such Reference Obligation.

"Reference Obligation Principal Amortization Amount" means, with respect to any Reference Obligation Principal Payment Date, an amount equal to the product of (i) the amount of any Reference Obligation Principal Payment on such date and (ii) the Applicable Percentage.

"Reference Obligation Principal Payment" means, with respect to any Reference Obligation Payment Date, the occurrence of a payment of an amount to the holders of the Reference Obligation in respect of principal (scheduled or unscheduled) in respect of the Reference Obligation other than a payment in respect of principal representing capitalized interest, excluding, for the avoidance of doubt, any Debtor-Related Reimbursement or Interest Shortfall Reimbursement.

"Reference Obligor" means the obligor on a Reference Obligation.

"Reference Price" means the reference price (expressed as a percentage) specified in the related Synthetic Security.

VerDate Nov 24 2008 09:47 May 19, 2011 Jkt 066052 PO 00000 Frm 01550 Fmt 6602 Sfmt 6602 P:\DOCS\66052.TXT SAFFAIRS PsN: PAT
"Registered" means, with respect to any debt obligation or debt security, a debt obligation or debt security that is issued after July 18, 1994, and that is in registered form within the meaning of Section 881(2)(B)(i) of the Code and the Treasury regulations promulgated thereunder.

" Relevant Amount" means with respect to the related Reference Obligation, if a servicer report that describes a Reference Obligation Principal Payment, Writedown or Writedown Reimbursement (other than a Writedown Reimbursement within paragraph (i) of "Writedown Reimbursement"), in each case that has the effect of decreasing or increasing the interest accruing principal balance of such Reference Obligation as of a date prior to a Delivery Date but such servicer report is delivered to holders of such Reference Obligation or to the calculation agent under the related Synthetic Security on or after the related Delivery Date, an amount equal to the product of (i) the sum of any such Reference Obligation Principal Payment (expressed as a positive amount), Writedown (expressed as a positive amount) or Writedown Reimbursement (expressed as a negative amount), as applicable; (ii) the Reference Prior; (iii) the Applicable Percentage immediately prior to such Delivery Date; and (iv) the Exercise Percentage (as defined in such Master Confirmation).

"Residential Mortgage-Backed Securities" or "RMBS" means securities that represent interests in pools of residential mortgage loans secured by 1 to 4 family residential mortgage loans.

"S&P Rating" means the rating determined in accordance with the methodology described in the Indenture.

"S&P Recovery Rate" means, with respect to a Collateral Asset (or in the case of a Synthetic Security, the related Reference Obligation) on any Determination Date, an amount equal to the percentage for such Collateral Asset set forth in the S&P Recovery Rate Matrix attached as Part II of Schedule O to the Indenture in (a) the applicable table set forth therein and (b) the row in such table opposite the S&P Rating (determined in accordance with procedures prescribed by S&P for such Collateral Asset on the date of its purchase by the Issuer or, in the case of a Defaulted Obligation, the S&P Rating immediately prior to default).

"Sale Proceeds" means all amounts representing Proceeds (including accrued interest) from the sale or other disposition of any Collateral Asset or Eligible Investment received during such Due Period, net of any reasonable amounts expended by the Collateral Manager or the Trustee in connection with such sale or other disposition.

"Single B Calculation Amount" means the sum of the products of (i) the Principal Balance of each Single B Rated Asset and (ii) 70%.

"Single B Rated Asset" means any Collateral Asset, that is not a Triple C Rated Asset, with an Actual Rating from S&P less than "BBB-" or with an Actual Rating from Moody's less than "Ba1".

"Statistical Loss Amount" means, as of any Determination Date, the sum of, for each Collateral Asset, the product of (i) the Principal Balance of such Collateral Asset and (ii) the Moody's Expected Loss Rates as set forth in the Indenture for such Collateral Asset. For purposes of the calculation of the Statistical Loss Amount on any Determination Date with respect to Single B Rated Assets, Defaulted Interest PK Bonds, Double B Rated Assets, Triple C Rated Assets, Defaulted Obligations and the principal amount of any Collateral Assets expected to be paid in full after the December 2007 Payment Date, the principal amount thereof expected to be paid after the Payment Date related to such Determination Date shall be excluded.

"SuperMajority" means (a) with respect to any Class of Notes, the Holders of more than 65-2/3% of the Aggregate Outstanding Amount of such Class of Notes and (b) with respect to the Income Notes, more than 65-2/3% of the aggregate outstanding notional principal amount of the Income Notes.

"Synthetic Security" means the credit default swaps entered into by the Issuer and Goldman Sachs International on March 31, 2007, effective as of the Closing Date, evidenced by an ISDA Master Agreement (Multicurrency Cross Border) and the Master Confirmation.

VerDate Nov 24 2008 09:47 May 19, 2011 Jkt 066052 PO 00000 Frm 01551 Fmt 6602 Sfmt 6602 P:\DOCS\66052.TXT SAFFAIRS PsN: PAT
"Synthetic Security Counterparty" means Goldman Sachs International and, if Goldman Sachs International is no longer the Synthetic Security Counterparty, any entity required to make payments on a Synthetic Security pursuant to the terms of such Synthetic Security or any guarantee thereof.

"Synthetic Security Termination Payment" means any termination or assignment payment required to be paid by the issuer in the event of a termination or assignment of the Synthetic Securities.

"Tax Event" means (i) the adoption of, or a change in, any tax statute (including the Code), treaty, regulation (whether temporary or final), rule, ruling, practice, procedure or judicial decision or interpretation which results or will result in withholding tax payments representing in excess of 3% of the aggregate interest due and payable on the Collateral Assets during the Due Period in which such event occurs as a result of the imposition of U.S. or other withholding tax with respect to which the obligors are not required to make gross-up payments that cover the full amount of such withholding taxes on an after-tax basis or (ii) the adoption of, or change in, any tax statute (including the Code), treaty, regulation (whether temporary or final), rule, ruling, practice, procedure or judicial decision or interpretation which results or will result in taxation of the issuer's net income in an amount equal to 3% or more of the net income of the issuer during any Due Period in which such event occurs.

"Total Redemption Amount" means the sum of all amounts due as of the Redemption Date pursuant to clauses (i) through (k) of the Priority of Payments for Final Payment Dates.

"Treasury" means the United States Department of the Treasury.

"Triple C Calculation Amount" means the sum of the products of (i) the Principal Balance of each Triple C Rated Asset and (ii) 50%.

"Triple C Rated Asset" means any Collateral Asset (other than a Defeased Obligation) with an Actual Rating from S&P of less than "B" or with an Actual Rating from Moody's of less than "B3".

"Widetdown Amount" means, with respect to any day, the product of (i) the amount of any Widetdown on such day, (ii) the Applicable Percentage and (iii) the Reference Price.

"Widetdown Reimbursement Amount" means, with respect to any day, the occurrence of: (i) a payment by or on behalf of the Reference Entity of an amount in respect of the Reference Obligation in reduction of any prior Widetdown; (ii) an increase by or on behalf of the Reference Entity of the outstanding principal amount of the Reference Obligation to reflect the reversal of any prior Widetdown; or (iii) a decrease in the principal deficiency balance or realized loss amounts (however described in the underlying instruments) attributable to the Reference Obligation; or (ii) if "Implied Widetdown" (as defined in the related Synthetic Security) is applicable and the underlying instruments do not provide for widetdowns, applied losses, principal deficiencies or realized losses as described in (ii) above to occur in respect of the Reference Obligation, an "Implied Widetdown Reimbursement Amount" (as defined in the related Synthetic Security) being determined in respect of the Reference Obligation by the calculation agent thereunder.

"Widetdown Reimbursement Amount" means, with respect to any day, an amount equal to the product of: (i) the sum of all Widetdown Reimbursements on that day; (ii) the Applicable Percentage; and (iii) the Reference Price.

"Widetdown Reimbursement Payment Amount" means, with respect to any date of determination, the sum of the Widetdown Reimbursement Amount in respect of all Widetdown Reimbursements (if any) made during the Reference Obligation Calculation Period relating to such date; provided that the aggregate of all Widetdown Reimbursement Payment Amounts at any time shall not exceed the aggregate of all Placing Amounts paid by the issuer in respect of Widetdowns occurring prior to such date.

"Widetdown Reserve Amount" has the meaning set forth in the Master Confirmation.

Re: Timberwolf I, Ltd.
Income Notes

Dear Sirs:

Reference is hereby made to the Income Notes (the "Income Notes") issued by Timberwolf I, Ltd. (the "Issuer"), described in the Issuer’s Offering Circular dated March 23, 2007 ("Offering Circular") to be purchased and held by us. We (the "Purchaser") are purchasing U.S.$ [ ] aggregate notional amount of Income Notes (the "Purchaser’s Income Notes"). Terms defined or referenced in the Offering Circular and not otherwise defined or referenced herein shall have the meanings set forth in the Offering Circular.

The Purchaser hereby represents, warrants and covenants for the benefit of the Issuer that:

(a) [ ] (i) The Purchaser is (check one) (x) a qualified institutional buyer (as defined in Rule 144A under the Securities Act of 1933, as amended (the "Securities Act"); (a) "Qualified Institutional Buyer"); (y) a non-U.S. Person (as defined in Regulation S under the Securities Act) that is acquiring the Purchaser’s Income Notes in an offshore transaction complying with Rule 903 or Rule 904 of Regulation S of the Securities Act or (z) an "accredited investor" (as defined in Rule 501(a) under the Securities Act) (an "Accredited Investor") who has a net worth of not less than U.S.$10 million that is purchasing the Income Notes for its own account; (ii) The Purchaser, in the case of clauses (x) or (y) above, is a "qualified purchaser" for the purposes of Section 3(c)(7) of the Investment Company Act of 1940, as amended (the "Investment Company Act") (a "Qualified Purchaser"); (iii) The Purchaser, in the case of clause (z) above, is not acquiring the Income Notes with a view to any resale or distribution thereof, other than in accordance with the restrictions set forth below; (iv) The Purchaser is aware that the sale of the Purchaser’s Income Notes to the Purchaser is being made in reliance on an exemption from registration under the Securities Act; (v) The Purchaser (unless otherwise permitted under the Fiduciary Agency Agreement) is acquiring Income Notes in the aggregate notional principal amount of not less than U.S.$100,000 with integral multiples of U.S.$1 in excess thereof; (vi) With respect to any transferees, the Purchaser also understands that, in conjunction with any transfer of the Purchaser’s ownership of any Purchaser’s Income Notes purchased hereunder, it will not transfer or cause the transfer of such Purchaser’s Income Notes without obtaining from the transferee a certificate substantially in the form of this Income Notes Purchase and Transfer Letter; (vii) The Purchaser will provide notice of the transfer restrictions described in any subsequent transfers.

(b) The Purchaser is purchasing the Purchaser’s Income Notes in an amount equal to or exceeding the minimum denominations thereof for its own account (or, if the Purchaser is a Qualified Institutional Buyer, for the account of another Qualified Institutional Buyer with respect to which the Purchaser exercises sole investment discretion) for investment purposes only and not for sale in connection with any distribution thereof, but nevertheless subject to the understanding that the

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825535
disposition of its property shall at all times be and remain within its control (subject to the restrictions set forth in the Offering Circular, the note in respect of the Purchaser's income notes and the Fiscal Agency Agreement).

(c) The Purchaser understands that the Purchaser's Income Notes have not been and will not be registered or qualified under the Securities Act or any applicable state securities law or the securities laws of any other jurisdiction and are being offered only in a transaction not involving any public offering within the meaning of the Securities Act, are being offered only in a transaction not involving any public offering, and may be reoffered, resold or pledged or otherwise transferred only in accordance with the restrictions on transfer set forth herein and in the Fiscal Agency Agreement. The Purchaser understands and agrees that any purported transfer of Income Notes to a purchaser that does not comply with the requirements herein will not be permitted or registered by the Fiscal Agent. The Purchaser further understands that the Issuer has the right to compel any beneficial owner of Income Notes that is a U.S. Person and is not (a) either an Accredited Institutional Buyer or an Accredited Investor with a net worth of U.S. $10 million or more and (b) a Qualified Purchaser, to sell its interest in such Income Notes, or the Issuer may sell such Income Notes on behalf of such owner.

(d) If the Purchaser or any account for which the Purchaser is purchasing the Purchaser's Income Notes is a U.S. Person (as defined in Regulation S under the Securities Act) the following representations shall be true and correct. The Purchaser (or if the Purchaser is acquiring the Purchaser's Income Notes for any account, such account) is acquiring the Purchaser's Income Notes as principal for its own account for investment and not for resale in connection with any distribution thereof. The Purchaser and each such account: (a) was not formed for the specific purpose of investing in the Income Notes (except when each beneficial owner of the Purchaser and each such account is a Qualified Purchaser), (b) to the extent the Purchaser is a private investment company formed before April 30, 1999, the Purchaser has received the necessary consent from its beneficial owners, (c) is not a pension, profit sharing or other retirement trust fund or plan in which the partners, beneficiaries or participants, as applicable, may designate the particular investments to be made; and (d) is not a broker-dealer that owns and invests on a discretionary basis less than U.S.$25,000,000 in securities of unaffiliated issuers. Further, the Purchaser agrees: (i) that neither it nor such account shall hold the Purchaser's Income Notes for the benefit of any other person and such purchaser of such account shall be the sole beneficial owner thereof for all purposes; and (ii) that neither it nor such account shall sell participation interests in the Purchaser's Income Notes or enter into any other arrangement pursuant to which any other person shall be entitled to a beneficial interest in the distributions on the Purchaser's Income Notes. The Purchaser understands and agrees that any purported transfer of the Purchaser's Income Notes to a Purchaser that does not comply with the requirements of this clause (d) will not be permitted or registered by the Fiscal Agent or the Income Note Registrar, as applicable.

(e) In connection with the purchase of the Purchaser's Income Notes: (i) none of the Issuers, the Initial Purchaser, the Collateral Manager, the Issuer Administrator or the Income Note Registrar is acting as a fiduciary or financial or investment advisor for the Purchaser; (ii) the Purchaser is not relying (for purposes of making any investment decision or otherwise) upon any advice, counsel or representations (whether written or oral) of the Issuers, the Initial Purchaser, the Collateral Manager, the Issuer Administrator or the Income Note Registrar, other than in the Offering Circular and any representations expressly set forth in a written agreement with such party; (iii) none of the Issuers, the Initial Purchaser, any Cashflow Swap Counterparty, the Collateral Manager, the Administrator or the Income Note Registrar has given to the Purchaser (directly or indirectly through any other person) any assurance, guarantees, or representation whatsoever as to the expected or projected success, profitability, return, performance, result, effect, consequence or benefit (including legal, regulatory, tax, financial, accounting or otherwise) as to any investment in the Purchaser's Income Notes; (iv) the Purchaser has consulted with its own legal, regulatory, tax, business, investment, financial and accounting advisers to the extent it has deemed necessary, and it has made its own investment decisions (including decisions regarding

the suitability of any transaction pursuant to the Indenture and the Fiscal Agency Agreement based upon its own judgment and upon any advice from such advisers as it has deemed necessary and not upon any view expressed by the Issuer, the Initial Purchaser, any Cautionary Counterparty, the Collateral Manager, the Issuer Administrator or the Income Note Register. (v) The Purchaser has evaluated the rates, prices or amounts and other terms and conditions of the purchase and sale of the Purchaser’s Income Notes with a full understanding of all of the risks thereof (economic and otherwise), and it is capable of assuming (financially and otherwise) those risks; and (vi) the Purchaser is a sophisticated investor.

(5) The certificates in respect of the Income Notes (other than the Regulation S Income Notes) will bear a legend to the following effect unless the Issuer determines otherwise in compliance with the Fiscal Agency Agreement and applicable law.

THE INCOME NOTES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE “SECURITIES ACT”), AND THE ISSUER HAS NOT BEEN REGISTERED UNDER THE UNITED STATES INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE “INVESTMENT COMPANY ACT”). THE HOLDER HEREOF, BY PURCHASING THE INCOME NOTES REPRESENTED HEREBY, AGREES FOR THE BENEFIT OF THE ISSUER THAT SUCH INCOME NOTES MAY BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED ONLY (1) TO A PERSON WHO THE SELLER REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL PURCHASER AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT AND IS PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL PURCHASER IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A UNDER THE SECURITIES ACT, (2) TO AN ACCREDITED INVESTOR (AS DEFINED IN RULE 501(a) UNDER THE SECURITIES ACT) WHO HAS A NET WORTH OF NOT LESS THAN U.S.$10 MILLION IN A TRANSACTION EXEMPT FROM REGISTRATION UNDER THE SECURITIES ACT, OR (3) TO A NON-U.S. PERSON IN AN OFFSHORE TRANSACTION COMPLYING WITH RULE 902 OR RULE 904 OF REGULATION S UNDER THE SECURITIES ACT. AND IN EACH CASE IN A MINIMUM DENOMINATION OF U.S.$100,000. FURTHERMORE THE PURCHASER AND EACH ACCOUNT FOR WHICH IT IS ACTING AS A PURCHASER, OTHER THAN IN THE CASE OF CLAUSE (A) ABOVE, REPRESENTS FOR THE BENEFIT OF THE ISSUER THAT IT (1) IS A QUALIFIED PURCHASER FOR THE PURPOSES OF SECTION 3(a)(7) OF THE INVESTMENT COMPANY ACT, (2) WAS NOT FORMED FOR THE PURPOSE OF INVESTING IN THE ISSUER (EXCEPT WHEN EACH BENEFICIAL OWNER OF THE PURCHASER IS A QUALIFIED PURCHASER), (3) HAS RECEIVED THE NECESSARY CONSENT FROM ITS BENEFICIAL OWNERS WHEN THE PURCHASER IS A PRIVATE INVESTMENT COMPANY FORMED BEFORE APRIL 30, 1996. (4) IS NOT A BROKER-DEALER THAT OWNS AND INVESTS ON A DISCRETIONARY BASIS LESS THAN U.S.$25,000,000 IN SECURITIES OF UNAFFILIATED ISSUERS AND (5) IS NOT A PENSION, PROFIT SHARING OR OTHER RETIREMENT TRUST FUND OR PLAN IN WHICH THE PARTNERS, BENEFICIARIES OR PARTICIPANTS, AS APPLICABLE, MAY DESIGNATE THE PARTICULAR INVESTMENTS TO BE MADE, AND IN A TRANSACTION THAT MAY BE EFFECTED WITHOUT LOSS OF ANY APPLICABLE

A-1-3

INVESTMENT COMPANY ACT EXEMPTION AND (B) IN ACCORDANCE WITH ALL APPLICABLE SECURITIES LAWS OF THE STATES OF THE UNITED STATES. ANY PURPORTED TRANSFER IN VIOLATION OF THE FOREGOING WILL NOT BE PERMITTED OR REGISTERED BY THE FISCAL AGENT OR THE INCOME NOTE REGISTRAR. EACH TRANSFEROR OF THE INCOME NOTES WILL PROVIDE NOTICE OF THE TRANSFER RESTRICTIONS SET FORTH HEREIN AND IN THE FISCAL AGENCY AGREEMENT TO ITS TRANSFEREE.

IF THE TRANSFER OF INCOME NOTES IS TO BE MADE PURSUANT TO CLAUSE (A)(1) OR (A)(2) OF THE PRECEDING PARAGRAPH, THE TRANSFEREE OF THE INCOME NOTES WILL BE REQUIRED TO EXECUTE AND DELIVER TO THE ISSUER AND THE FISCAL AGENT AN INCOME NOTES PURCHASE AND TRANSFER LETTER, SUBSTANTIALLY IN THE FORM ATTACHED TO THE FISCAL AGENCY AGREEMENT, STATED THAT AMONG OTHER THINGS, THE TRANSFEREE IS (A) A QUALIFIED INSTITUTIONAL BUYER AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER, OR (B) AN ACCREDITED INVESTOR (AS DEFINED IN RULE 102(a) UNDER THE SECURITIES ACT) WHO HAS A NET WORTH OF NOT LESS THAN U.S.$10 MILLION AND (2) A QUALIFIED PURCHASER FOR THE PURPOSES OF THE INVESTMENT COMPANY ACT.

THE PURCHASER OR TRANSFEREE MUST DISCLOSE IN WRITING IN ADVANCE TO THE FISCAL AGENT (i) WHETHER OR NOT IT IS (A) AN "EMPLOYEE BENEFIT PLAN" (AS DEFINED IN SECTION 3(3) OF THE UNITED STATES EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974, AS AMENDED ("ERISA")), THAT IS SUBJECT TO THE PROVISIONS OF TITLE I OF ERISA, (B) A "PLAN" DESCRIBED IN AND SUBJECT TO SECTION 4975 OF THE UNITED STATES INTERNAL REVENUE CODE OF 1986, AS AMENDED ("THE CODE"), OR (C) AN ENTITY WHOSE ASSETS INCLUDE "PLAN ASSETS" WITHIN THE MEANING OF ERISA BY REASON OF ANY SUCH PLAN'S INVESTMENT IN THE ENTITY (ALL SUCH PERSONS AND ENTITIES DESCRIBED IN CLAUSES (A) THROUGH (C) BEING REFERRED TO HEREIN AS "BENEFIT PLAN INVESTORS"), (ii) IF THE PURCHASER OR TRANSFEREE IS A BENEFIT PLAN INVESTOR, THAT THE PURCHASE AND HOLDING OR TRANSFER AND HOLDING OF INCOME NOTES DO NOT AND WILL NOT CONSTITUTE OR RESULT IN A PROHIBITED TRANSACTION UNDER SECTION 406 OF ERISA OR SECTION 4975 OF THE CODE FOR WHICH AN EXEMPTION IS NOT AVAILABLE, AND (iii) WHETHER OR NOT (IT IS THE COLLATERAL MANAGER OR ANY OTHER PERSON (OTHER THAN A BENEFIT PLAN INVESTOR) WHO HAS DISCRETIONARY AUTHORITY OR CONTROL RESPECT TO THE ASSETS OF THE ISSUER OR A PERSON WHO PROVIDES INVESTMENT ADVICE FOR A FEE (DIRECT OR INDIRECT) WITH RESPECT TO THE ASSETS OF THE ISSUER, OR ANY "AFFILIATE" (WITHIN THE MEANING OF 26 C.F.R. SECTION 2610(3)) OF ANY SUCH PERSON, IF A PURCHASER IS AN ENTITY DESCRIBED IN (C)) ABOVE, OR AN INSURANCE COMPANY ACTING ON BEHALF OF ITS GENERAL ACCOUNT, IT WILL BE PERMITTED TO DO AN ACTING, AND REQUIRED TO IDENTIFY A MAXIMUM PERCENTAGE OF ITS ASSETS OR THE ASSETS IN ITS GENERAL ACCOUNT, AS APPLICABLE, THAT MAY BE OR BECOME PLAN ASSETS, IN WHICH CASE, IT WILL BE REQUIRED TO MAKE CERTAIN FURTHER AGREEMENTS THAT WOULD APPLY IN THE EVENT THAT SUCH MAXIMUM PERCENTAGE WOULD THEREAFTER BE EXCEEDED. THE PURCHASER AGREES THAT, BEFORE ANY INTEREST IN AN INCOME NOTE MAY BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED, THE TRANSFEREE WILL BE REQUIRED TO PROVIDE THE FISCAL AGENT WITH AN INCOME NOTES PURCHASE AND TRANSFER LETTER (SUBSTANTIALLY IN THE FORM ATTACHED TO THE FISCAL AGENCY AGREEMENT) STATING, AMONG OTHER THINGS, WHETHER THE TRANSFEREE IS A BENEFIT PLAN INVESTOR. NO PURCHASE OR TRANSFER OF INCOME NOTES

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825538
WILL BE PERMITTED OR REGISTERED TO THE EXTENT THAT THE PURCHASE OR TRANSFER WOULD RESULT IN BENEFIT PLAN INVESTORS OWNING 25% OR MORE OF THE OUTSTANDING INCOME NOTES (OTHER THAN THE INCOME NOTES OWNED BY THE COLLATERAL MANAGER, THE TRUSTEE AND THEIR AFFILIATES) IMMEDIATELY AFTER SUCH PURCHASE OR TRANSFER (DETERMINED IN ACCORDANCE WITH SECTION 342 OF ERISA, 29 C.F.R. SECTION 2510.3-101 AND THE FISCAL AGENCY AGREEMENT).

PAYMENTS TO THE HOLDERS OF THE INCOME NOTES ARE SUBORDINATE TO THE PAYMENT ON EACH PAYMENT DATE TO PRINCIPAL AND INTEREST ON THE NOTES OF THE ISSUER AND THE PAYMENT OF CERTAIN OTHER AMOUNTS, TO THE EXTENT AND AS DESCRIBED IN THE INDENTURE.

TRANSFERS OF THIS NOTE SHALL BE LIMITED TO TRANSFERS MADE IN ACCORDANCE WITH THE RESTRICTIONS SET FORTH IN THE FISCAL AGENCY AGREEMENT.

The certificate in respect of the Regulation S Income Notes will bear a legend to the following effect unless the Issuer determines otherwise in compliance with the Fiscal Agency Agreement and applicable law:

THE INCOME NOTES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITY ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND THE ISSUER HAS NOT BEEN REGISTERED UNDER THE UNITED STATES INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE "INVESTMENT COMPANY ACT"), THE HOLDER HEREOF, BY PURCHASING THE INCOME NOTES REPRESENTED HEREBY, AGREED FOR THE BENEFIT OF THE ISSUER THAT SUCH INCOME NOTES MAY BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED, ONLY (X) TO A PERSON WHOSE SELLER REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT AND IS PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER, IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A UNDER THE SECURITIES ACT, (2) TO AN ACCREDITED INVESTOR (AS DEFINED IN RULE 501(a) UNDER THE SECURITIES ACT) WHO HAS A NET WORTH OF NOT LESS THAN U.S.$10 MILLION IN A TRANSACTION EXEMPT FROM REGISTRATION UNDER THE SECURITIES ACT, OR (3) TO A NON-U.S. PERSON IN AN OFFSHORE TRANSACTION COMPLYING WITH RULE 903 OR RULE 904 OF REGULATION S UNDER THE SECURITIES ACT, AND IN EACH CASE IN A MINIMUM DENOMINATION OF U.S.$100,000. FURTHERMORE THE PURCHASER AND EACH ACCOUNT FOR WHICH IT IS ACTING AS A PURCHASER, OTHER THAN IN THE CASE OF CLAUSE (A) ABOVE, REPRESENTS FOR THE BENEFIT OF THE ISSUER THAT IT (I) IS A QUALIFIED PURCHASER FOR THE PURPOSES OF SECTION 30(7) OF THE INVESTMENT COMPANY ACT, (II) WAS NOT FORMED FOR THE PURPOSE OF INVESTING IN THE ISSUER (EXCEPT WHEN EACH BENEFICIAL OWNER OF THE PURCHASER IS A QUALIFIED PURCHASER), (III) HAS RECEIVED THE NECESSARY

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825539
CONSENT FROM ITS BENEFICIAL OWNERS WHEN THE PURCHASER IS A PRIVATE INVESTMENT COMPANY FORMED BEFORE APRIL 30, 1996, (Y) IS NOT A BROKER-DEALER THAT OWNS AND INVESTS ON A DISCRETIONARY BASIS LESS THAN U.S.$25,000.00 IN SECURITIES OF UNAFFILIATED ISSUERS AND (Z) IS NOT A PENSION, PROFIT SHARING OR OTHER RETIREMENT TRUST FUND OR PLAN IN WHICH THE PARTNERS, BENEFICIARIES OR PARTICIPANTS, AS APPLICABLE, MAY DESIGNATE THE PARTICULAR INVESTMENTS TO BE MADE, AND IN A TRANSACTION THAT MAY BE EFFECTED WITHOUT LOSS OF ANY APPLICABLE INVESTMENT COMPANY ACT EXEMPTION AND (B) IN ACCORDANCE WITH ALL APPLICABLE SECURITIES LAWS OF THE STATES OF THE UNITED STATES. ANY PURPORTED TRANSFER IN VIOLATION OF THE FOREGOING WILL NOT BE PERMITTED OR REGISTERED BY THE FISCAL AGENT OR THE INCOME NOTE REGISTRAR. EACH TRANSFEROR OF THE INCOME NOTES WILL PROVIDE NOTICE OF THE TRANSFER RESTRICTIONS SET FORTH HEREIN AND IN THE FISCAL AGENCY AGREEMENT TO ITS TRANSFEREE.

THE TRANSFEREE OF THIS SECURITY WILL BE DEEMED TO HAVE REPRESENTED THAT THE TRANSFEREE IS NOT A U.S. PERSON.

THE PURCHASER OR TRANSFEREE OF THIS INCOME NOTE IS DEEMED TO REPRESENT (A) THAT IT IS NOT (A) AN "EMPLOYEE BENEFIT PLAN" (AS DEFINED IN SECTION 3(3) OF ERISA) THAT IS SUBJECT TO THE PROVISIONS OF TITLE I OF ERISA, (B) A "PLAN" DESCRIBED IN AND SUBJECT TO SECTION 4975 OF THE CODE, OR (C) AN ENTITY WHOSE ASSETS INCLUDE "PLAN ASSETS" WITHIN THE MEANING OF ERISA BY REASON OF ANY SUCH PLAN'S INVESTMENT IN THE ENTITY (ALL SUCH PERSONS AND ENTITIES DESCRIBED IN CLAUSES (A) THROUGH (C) BEING REFERRED TO HEREIN AS "BENEFIT PLAN INVESTORS"); AND (D) THAT IT IS NOT THE COLLATERAL MANAGER OR ANY OTHER PERSON (OTHER THAN A BENEFIT PLAN INVESTOR) WHO HAS DISCRETIONARY AUTHORITY OR CONTROL WITH RESPECT TO THE ASSETS OF THE ISSUER OR A PERSON WHO PROVIDES INVESTMENT ADVICE FOR A FEE (DIRECT OR INDIRECT) WITH RESPECT TO THE ASSETS OF THE ISSUER, OR ANY "AFFILIATE" (WITHIN THE MEANING OF 29 C.F.R. SECTION 2510.3-101(2)(i)) OF ANY SUCH PERSON, NO PURCHASE OR TRANSFER OF INCOME NOTES WILL BE PERMITTED OR REGISTERED TO THE EXTENT THAT THE PURCHASE OR TRANSFER WOULD RESULT IN BENEFIT PLAN INVESTORS OWNING 25% OR MORE OF THE OUTSTANDING INCOME NOTES (OTHER THAN THE INCOME NOTES OWNED BY THE COLLATERAL MANAGER, THE TRUSTEE AND THEIR AFFILIATES) IMMEDIATELY AFTER SUCH PURCHASE OR TRANSFER (DETERMINED IN ACCORDANCE WITH SECTION 3(42) OF ERISA, 29 C.F.R. SECTION 2510.3-101 AND THE FISCAL AGENCY AGREEMENT).

ANY TRANSFER, PLEDGE OR OTHER USE OF THIS INCOME NOTE FOR VALUE OR OTHERWISE BY OR TO ANY PERSON IS WRONGFUL SINCE THE REGISTERED OWNER HEREOF, CEDE & CO., HAS AN INTEREST HEREIN, UNLESS THIS INCOME NOTE IS PRESENTED BY AN AUTHORIZED REPRESENTATIVE OF THE DEPOSITORY TRUST COMPANY ("DTC"), NEW YORK, NEW YORK, TO THE ISSUER OR THEIR AGENT FOR REGISTRATION OF TRANSFER, EXCHANGE OR PAYMENT AND ANY INCOME NOTE ISSUED IS REGISTERED IN THE NAME OF CEDE & CO. OR SUCH OTHER ENTITY AS IS REQUESTED BY AN AUTHORIZED REPRESENTATIVE OF DTC (AND ANY PAYMENT HEREON IS MADE TO CEDE & CO.).

TRANSFERS OF THIS INCOME NOTE SHALL BE LIMITED TO TRANSFERS IN WHOLE, BUT NOT IN PART, TO NOMINEES OF DTC OR TO A SUCCESSOR "HEREOF" OR SUCH SUCCESSOR'S NOMINEE AND TRANSFERS OF PORTIONS
OF THIS INCOME NOTE SHALL BE LIMITED TO TRANSFERS MADE IN ACCORDANCE WITH THE RESTRICTIONS SET FORTH IN THE FISCAL AGENCY AGREEMENT.

PAYMENTS TO THE HOLDERS OF THE INCOME NOTES ARE SUBORDINATE TO THE PAYMENT ON EACH PAYMENT DATE OF PRINCIPAL OF AND INTEREST ON THE NOTES OF THE ISSUER AND THE PAYMENT OF CERTAIN OTHER AMOUNTS, TO THE EXTENT AND AS DESCRIBED IN THE INDENTURE.

(h) With respect to Income Notes (other than Regulation S Income Notes) transferred or purchased on or after the Closing Date, the Purchaser understands and agrees that the representations and agreements made in this paragraph (h) will be deemed made on each day from the date hereof through and including the date on which the Purchaser disposes of the Income Notes (other than the Regulation S Income Notes).

(i) The Purchaser is not (check one) (i) an “employee benefit plan” (as defined in Section 3(3) of the United States Employee Retirement Income Security Act of 1974, as amended (“ERISA”), that is subject to the provisions of Title I of ERISA, (ii) a plan described in and subject to Section 4975 of the United States Internal Revenue Code of 1986, as amended (the “Code”), or (iii) an entity whose underlying assets include assets of any such plan (for purposes of ERISA or Section 4975 of the Code) by reason of any such plan’s investment in the entity (such persons and entities described in clauses (i) through (iii) being referred to herein as “Benefit Plan Investors”); and (j) if the Purchaser is a Benefit Plan Investor, the Purchaser’s purchase and holding of an Income Note do not and will not constitute or result in a prohibited transaction under Section 405 of ERISA or Section 4975 of the Code for which an exemption is not available.

The Purchaser is not (check one) the issuer or any other person (other than a Benefit Plan Investor) that has discretionary authority or control with respect to the assets of the issuer, a person who provides investment advice for a fee (direct or indirect) with respect to the assets of the issuer, or any “affiliate” (within the meaning of 29 C.F.R. Section 316.3-1(b)(9)(iii)) of any such person (any such person described in this paragraph being referred to as a “Controlling Person”).

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825541
The Purchaser is not purchasing the Purchaser’s Income Notes with a view toward the resale, distribution or other disposition thereof in violation of the Securities Act. The Purchaser understands that an investment in the Purchaser’s Income Notes involves certain risks, including the risk of loss of its entire investment in the Purchaser’s Income Notes under certain circumstances. The Purchaser has had access to such financial and other information concerning the Issuer and the Purchaser’s Income Notes as it deemed necessary or appropriate in order to make an informed investment decision with respect to its purchase of the Purchaser’s Income Notes, including an opportunity to ask questions of, and request information from, the Issuer.

If the purchaser or beneficial owner is a Non-U.S. Holder, such purchaser or beneficial owner represents that (a) either (i) its purchase of the Income Note is not, directly or indirectly, an extension of credit made by a bank pursuant to a loan agreement entered into in the ordinary course of its trade or business, or (ii) it is a person that is eligible for benefits under an income tax treaty with the United States that eliminates United States federal income taxation of United States source interest not attributable to a permanent establishment in the United States or (b) all income from the Income Note is effectively connected with a trade or business within the United States (as such terms are used in Section 862(b)(12) of the Code) conducted by such Holder and (ii) it is not purchasing the Income Note in order to reduce its United States federal income tax liability or pursuant to a tax avoidance plan.

The Purchaser agrees to treat the Purchaser’s Income Notes as equity in the Issuer for United States federal, state and local income tax purposes.

The Purchaser acknowledges that due to money laundering requirements operating in the Cayman Islands, the Issuer and the Fiscal Agent may require further identification of the Purchaser before the purchase application can proceed. The Issuer and the Fiscal Agent shall be held harmless and indemnified by the Purchaser against any loss arising from the failure to process the application if such information as has been required by the Purchaser has not been provided by the Purchaser.

The Purchaser agrees to complete any other Instrument of transfer as required under Cayman Islands law.

The Purchaser is not a member of the public in the Cayman Islands.

The purchaser agrees not to treat the Issuer as being engaged in the active conduct of a banking, financing, insurance, or other similar business for purposes of Section 954(b)(2) of the Code.

The purchaser agrees to timely furnish the Issuer or its agents any U.S. federal income tax form or certification (such as IRS Form W-4BEN (Certification of Foreign Status), Form W-9MY (Certification of Foreign Intermediary Status), Form W-8 (Request for Taxpayer Identification Number and Certification) or Form W-8ECI (Certification of Foreign Parent’s Claim for Exemption from Withholding on Income Effectively Connected with Conduct of a U.S. Trade or Business) or any successor to such IRS forms) that the Issuer or its agents may reasonably request and to update or replace such form or certification in accordance with its terms or its subsequent amendments.

The purchaser agrees to timely furnish the Issuer, upon request, with such information as may reasonably be requested by the Issuer (including but not limited to information relating to the beneficial owner of the Note) in connection with the Issuer’s fulfillment of its tax reporting, notification, withholding and similar obligations arising under the Code (as amended from time to time) or the Transaction Documents.

The purchaser agrees to treat the Issuer as a non-U.S. corporation for purposes of U.S. federal income, state and local income and franchise tax and any other income taxes.

ANNEX A-2

FORM OF CLASS D NOTES PURCHASE AND TRANSFER LETTER

The Bank of New York
101 Barclay Street, 9th Floor East
New York, New York 10286
Attention: CDO Transaction Management Group – Timberwolf I, Ltd.

Re: Timberwolf I, Ltd.
Class D Notes

Dear Sirs:

Reference is hereby made to the Class D Notes (the "Class D Notes") issued by Timberwolf I, Ltd. (the "Issuer"), described in the Issuer’s Offering Circular dated March 23, 2007 ("Offering Circular") to be purchased and held by us. We (the "Purchaser") are purchasing U.S.$______ Class D Notes (the "Purchaser’s Class D Notes"). Terms defined or referenced in the Offering Circular and not otherwise defined or referenced herein shall have the meanings set forth in the Offering Circular.

The Purchaser hereby represents, warrants and covenants for the benefit of the Issuer that:

(a) (i) The Purchaser is (check one) (a) a qualified institutional buyer (as defined in Rule 144A under the Securities Act of 1933, as amended (the "Securities Act"); or (b) a non-U.S. Person (as defined in Regulation S under the Securities Act) that is acquiring the Purchaser’s Class D Notes in an offshore transaction complying with Rule 903 or Rule 904 of Regulation S of the Securities Act; (ii) The Purchaser, in the case of clause (a) above, is a "qualified purchaser" for the purpose of Section 3(c)(7) of the Investment Company Act of 1940, as amended (the "Investment Company Act"); or (iii) The Purchaser is aware of the sales of the Purchaser’s Class D Notes to the Purchaser is being made in reliance on an exemption from registration under the Securities Act: (iv) The Purchaser is acquiring not less than U.S.$350,000 of Purchased Notes; (v) With respect to any transfers, the Purchaser also understands that, in conjunction with any transfer of the Purchaser’s ownership of any Purchaser’s Class D Notes purchased hereunder, it will not transfer or cause the transfer of such Purchaser’s Class D Notes without obtaining from the transferee a certificate substantially in the form of this Class D Notes Purchase and Transfer Letter; (vi) The Purchaser will provide notice of the transfer restrictions described to any subsequent transferee.

(b) The Purchaser is purchasing the Purchaser’s Class D Notes in an amount equal to or exceeding the minimum permitted amount thereof for its own account or, if the Purchaser is a Qualified Institutional Buyer, for the account of another Qualified Institutional Buyer with respect to which the Purchaser exercises sole investment discretion for investment purposes only and not for resale in connection with any distribution thereof, but nevertheless subject to the understanding that the disposition of its property shall at all times be and remain within its control (subject to the restrictions set forth in the Offering Circular and the Indenture).

(c) The Purchaser understands that the Purchaser’s Class D Notes have not been and will not be registered or qualified under the Securities Act or any applicable state securities laws or the securities laws of any other jurisdiction and are being offered only in a transaction not involving any public offering, and may be reoffered, resold or pledged or otherwise transferred

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825545
only in accordance with the restrictions on transfer set forth herein and in the Indenture. The Purchaser understands and agrees that any purported transfer of Class D Notes to a purchaser that does not comply with the requirements herein will not be permitted or registered by the Note Transfer Agent. The Purchaser further understands that the Issuer has the right to compel any beneficial owner of Class D Notes that is a U.S. Person and is not (a) either a Qualified Institutional Buyer and (b) a Qualified Purchaser, to sell its interest in such Class D Notes, or the Issuer may sell such Class D Notes on behalf of such owner.

(d) If the Purchaser or any account for which the Purchaser is purchasing the Purchaser's Class D Notes is a U.S. Person (as defined in Regulation S under the Securities Act) the following representations shall be true and correct: The Purchaser (or if the Purchaser is acquiring the Purchaser’s Class D Notes for any account, each such account) is acquiring the Purchaser’s Class D Notes as principal for its own account for investment and not for sale in connection with any distribution thereof. The Purchaser and each such account: (a) was not formed for the specific purpose of investing in the Class D Notes (except when each beneficial owner of the Purchaser and each such account is a Qualified Purchaser), (b) to the extent the Purchaser is a private investment company formed before April 30, 1996, the Purchaser has received the necessary consent from its beneficial owners, (c) is not a pension, profit sharing or other retirement trust fund or plan in which the partners, beneficiaries or participants, as applicable, may designate the particular investments to be made; and (d) is not a broker-dealer that owns and invests on a discretionary basis less than U.S.$25,000,000 in securities of unaffiliated issuers. Further, the Purchaser agrees: (i) that neither it nor such account shall hold the Purchaser’s Class D Notes for the benefit of any other person and such purchaser of such account shall be the sole beneficial owner thereof for all purposes; and (ii) that neither it nor such account shall sell participation interests in the Purchaser’s Class D Notes or enter into any other arrangement pursuant to which any other person shall be entitled to a beneficial interest in the distributions on the Purchaser’s Class D Notes. The Purchaser understands and agrees that any purported transfer of the Purchaser’s Class D Notes to a Purchaser that does not comply with the requirements of this clause (d) will not be permitted or registered by the Note Transfer Agent.

(e) In connection with the purchase of the Purchaser’s Class D Notes: (i) none of the Issuers, the Initial Purchaser, the Collateral Manager or the Administrator is acting as a fiduciary or financial or investment adviser for the Purchaser; (ii) the Purchaser is not relying (for purposes of making any investment decision or otherwise) upon any advice, counsel or representation (whether written or oral) of the Issuers, the Initial Purchaser, the Collateral Manager or the Administrator other than in the Offering Circular and any representations expressly set forth therein in agreement with such party; (iii) none of the Issuers, the Initial Purchaser, the Cashflow Swap Counterparty, the Collateral Manager or the Administrator has given to the Purchaser (directly or indirectly through any other person) any assurance, guarantee, or representation whatsoever as to the expected or projected success, profitability, return, performance, result, effect, consequences or benefit (including legal, regulatory, tax, financial, accounting or otherwise) as to an investment in the Purchaser’s Class D Notes; (iv) the Purchaser has consulted with its own legal, regulatory, tax, business, investment, financial and accounting advisors to the Issuers has deemed necessary, and it has made its own investment decisions (including decisions regarding the suitability of any transaction pursuant to the Indenture) based upon its own judgment and upon any advice from such advisors as it has deemed necessary and not upon any view expressed by the Issuers, the Initial Purchaser, the Cashflow Swap Counterparty, the Collateral Manager or the Administrator; (v) the Purchaser has evaluated the risks, prices or amounts and other terms and conditions of the purchase and sale of the Purchaser’s Class D Notes with a full understanding of all of the risks thereof (economic and otherwise), and it is capable of assuming and willing to assume (financially and otherwise) those risks; and (vi) the Purchaser is a sophisticated investor.

(f) The certificates in respect of the Class D Notes (other than the Regulation S Class D Notes) will bear a legend to the following effect unless the Issuer determines otherwise in compliance with the Indenture and applicable law:

A-2-2

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825546
THIS NOTE HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND THE ISSUERS HAVE NOT BEEN REGISTERED UNDER THE UNITED STATES INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE "INVESTMENT COMPANY ACT"). THE HOLDER HEREOF, BY PURCHASING THE NOTES IN RESPECT OF WHICH THIS NOTE HAS BEEN ISSUED, AGREES FOR THE BENEFIT OF THE ISSUER THAT THE NOTES MAY BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED, ONLY (A)(1), TO A PERSON WHO THE SELLER REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT THAT IS NOT A BROKER DEALER WHICH OWNS AND INVESTS ON A DISCRETIONARY BASIS LESS THAN U.S.$25 MILLION IN SECURITIES OF ISSUERS THAT ARE NOT AFFILIATED PERSONS OF THE INITIAL PURCHASER AND IS NOT A PLAN REFERRED TO IN PARAGRAPH (a)(1)(i)(D) OR (a)(1)(i)(E) OF RULE 144A OR A TRUST FUND REFERRED TO IN PARAGRAPH (a)(1)(i)(F) OF RULE 144A THAT HOLDS THE ASSETS OF SUCH A PLAN, IF INVESTMENT DECISIONS WITH RESPECT TO THE PLAN ARE MADE BY THE BENEFICIARIES OF THE PLAN, PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER, IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A UNDER THE SECURITIES ACT OR (2) TO A NON-U.S. PERSON IN AN OFFSHORE TRANSACTION COMPLYING WITH RULE 903 OR RULE 904 OF REGULATION S UNDER THE SECURITIES ACT AND, IN THE CASE OF CLAUSE (1), IN A PRINCIPAL AMOUNT OF NOT LESS THAN U.S.$250,000 OR IN THE CASE OF CLAUSE (2), IN A PRINCIPAL AMOUNT OF NOT LESS THAN U.S.$100,000, FOR THE PURCHASER AND FOR EACH ACCOUNT FOR WHICH IT IS ACTING, TO A PURCHASER THAT, OTHER THAN IN THE CASE OF CLAUSE (2), (Y) IS A QUALIFIED PURCHASER FOR PURPOSES OF SECTION 3(b)(1) OF THE INVESTMENT COMPANY ACT, (W) WAS NOT FORMED FOR THE PURPOSE OF INVESTING IN THE ISSUER (EXCEPT WHEN EACH BENEFICIAL OWNER OF THE PURCHASER IS A QUALIFIED PURCHASER), (X) HAS RECEIVED THE NECESSARY CONSENT FROM ITS BENEFICIAL OWNERS WHEN THE PURCHASER IS A PRIVATE INVESTMENT COMPANY FORMED BEFORE APRIL 30, 1996, (Y) IS NOT A BROKER DEALER THAT OWNS AND INVESTS ON A DISCRETIONARY BASIS LESS THAN U.S.$25,000,000 IN SECURITIES OF UNAFFILIATED ISSUERS AND (Z) IS NOT A PENSION, PROFIT SHARING OR OTHER RETIREMENT TRUST FUND OR PLAN IN WHICH THE PARTNERS, BENEFICIARIES OR PARTICIPANTS, AS APPLICABLE, MAY DESIGNATE PARTICULAR INVESTMENTS TO BE MADE, AND IN A TRANSACTION THAT MAY BE EFFECTED WITHOUT LOSS OF ANY APPLICABLE INVESTMENT COMPANY ACT EXEMPTION AND (B) IN ACCORDANCE WITH ALL APPLICABLE SECURITIES LAWS OF THE STATES OF THE UNITED STATES. ANY PURPORTED TRANSFER IN VIOLATION OF THE FOREGOING WILL NOT BE PERMITTED OR REGISTERED BY THE NOTE TRANSFER AGENT. EACH TRANSFEROR OF THIS NOTE WILL PROVIDE NOTICE OF THE TRANSFER RESTRICTIONS SET FORTH HEREIN AND IN THE INDENTURE TO ITS TRANSFEREE.

IF THE TRANSFER OF CLASS D NOTES IS TO BE MADE PURSUANT TO CLAUSE (A)(1) OF THE PRECEDING PARAGRAPH, THE TRANSFEREE OF THE CLASS D NOTES WILL BE REQUIRED TO EXECUTE AND DELIVER TO THE ISSUER AND THE NOTE TRANSFER AGENT A CLASS D NOTE PURCHASE AND TRANSFER LETTER, SUBSTANTIALLY IN THE FORM ATTACHED TO THE INDENTURE, STATING THAT AMONG OTHER THINGS,
THE TRANSFEREE IS (1) A QUALIFIED INSTITUTIONAL BUYER AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER AND (2) A QUALIFIED PURCHASER FOR THE PURPOSES OF THE INVESTMENT COMPANY ACT.

THE PURCHASER OR TRANSFEREE OF THIS NOTE MUST DISCLOSE IN WRITING IN ADVANCE TO THE TRUSTEE (I) WHETHER OR NOT IT IS (A) AN "EMPLOYEE BENEFIT PLAN" AS DEFINED IN SECTION 3(3) OF THE UNITED STATES EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974, AS AMENDED ("ERISA"), THAT IS SUBJECT TO THE PROVISIONS OF TITLE I OF ERISA, (B) A "PLAN" DESCRIBED IN AND SUBJECT TO SECTION 4975 OF THE UNITED STATES INTERNAL REVENUE CODE OF 1986, AS AMENDED (THE "CODE"), OR (C) AN ENTITY WHOSE ASSETS INCLUDE "PLAN ASSETS" WITHIN THE MEANING OF ERISA BY REASON OF ANY SUCH PLAN'S INVESTMENT IN THE ENTITY (ALL SUCH PERSONS AND ENTITIES DESCRIBED IN CLAUSES (A) THROUGH (C) BEING REFERRED TO HEREIN AS "BENEFIT PLAN INVESTORS"), (2) IF THE PURCHASER OR TRANSFEREE IS A BENEFIT PLAN INVESTOR, THAT THE PURCHASE AND HOLDING OR TRANSFER AND HOLDING OF CLASS D NOTES DO NOT AND WILL NOT CONSTITUTE OR RESULT IN A PROHIBITED TRANSACTION UNDER SECTION 406 OF ERISA OR SECTION 4975 OF THE CODE FOR WHICH AN EXCETPTION IS NOT AVAILABLE; AND (3) WHETHER OR NOT IT IS THE COLLATERAL MANAGER OR ANY OTHER PERSON (OTHER THAN A BENEFIT PLAN INVESTOR) WHO HAS DISCRETIONARY AUTHORITY OR CONTROL WITH RESPECT TO THE ASSETS OF THE ISSUER OR A PERSON WHO PROVIDES INVESTMENT ADVICE FOR A FEE (DIRECT OR INDIRECT) WITH RESPECT TO THE ASSETS OF THE ISSUER, OR ANY "AFFILIATE" (WITHIN THE MEANING OF 29 C.F.R. SECTION 2510.3-101(D)(3)) OF ANY SUCH PERSON. IF A PURCHASER IS AN ENTITY AS DESCRIBED IN (I)(1) ABOVE, OR AN INSURANCE COMPANY ACTING ON BEHALF OF ITS GENERAL ACCOUNT, IT WILL BE PERMITTED TO SO INDICATE, AND REQUIRED TO IDENTIFY A MAXIMUM PERCENTAGE OF ITS ASSETS OR THE ASSETS IN ITS GENERAL ACCOUNT, AS APPLICABLE, THAT MAY BE OR BECOME PLAN ASSETS, IN WHICH CASE IT WILL BE REQUIRED TO MAKE CERTAIN FURTHER AGREEMENTS THAT WOULD APPLY IN THE EVENT THAT SUCH MAXIMUM PERCENTAGE WOULD THEREAFTER BE EXCEEDED. THE PURCHASER AGREED THAT, BEFORE ANY INTEREST IN A CLASS D NOTE MAY BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED, THE TRANSFEREE WILL BE REQUIRED TO PROVIDE THE NOTE TRANSFER AGENT WITH A CLASS D NOTES PURCHASE AND TRANSFER LETTER (SUBSTANTIALLY IN THE FORM ATTACHED TO THE INDENTURE) STATING, AMONG OTHER THINGS, WHETHER THE TRANSFEREE IS A BENEFIT PLAN INVESTOR. NO PURCHASE OR TRANSFER OF CLASS D NOTES WILL BE PERMITTED OR REGISTERED TO THE EXTENT THAT THE PURCHASE OR TRANSFER WOULD RESULT IN BENEFIT PLAN INVESTORS OWNING 25% OR MORE OF THE OUTSTANDING CLASS D NOTES (OTHER THAN THE NOTES OWNED BY THE COLLATERAL MANAGER, THE TRUSTEE AND THEIR AFFILIATES) IMMEDIATELY AFTER SUCH PURCHASE OR TRANSFER (DETERMINED IN ACCORDANCE WITH SECTION 3(40) OF ERISA, 29 C.F.R. SECTION 2510.3-101 AND THE INDENTURE).

TRANSFERS OF THIS NOTE SHALL BE LIMITED TO TRANSFERS MADE IN ACCORDANCE WITH THE RESTRICTIONS SET FORTH IN THE INDENTURE.

GS MBS-E-021825548
PRINCIPAL OF THIS NOTE IS PAYABLE AS SET FORTH HEREIN. ACCORDINGLY, THE OUTSTANDING PRINCIPAL OF THIS NOTE AT ANY TIME MAY BE LESS THAN THE AMOUNT SHOWN ON THE FACE HEREOF. ANY PERSON ACQUIRING THIS NOTE MAY ASCERTAIN ITS CURRENT PRINCIPAL AMOUNT BY INQUIRY OF THE NOTE PAYING AGENT.

The certificates in respect of the Regulation S Class D Notes will bear a legend to the following effect unless the Issuer determines otherwise in compliance with the Indenture and applicable law:

THIS NOTE HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND THE ISSUER HAS NOT BEEN REGISTERED UNDER THE UNITED STATES INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE "INVESTMENT COMPANY ACT"). THE HOLDER HEREOF, BY PURCHASING THE NOTES IN RESPECT OF WHICH THIS NOTE HAS BEEN ISSUED, AGREES FOR THE BENEFIT OF THE ISSUER THAT THE NOTES MAY BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED, ONLY (A) TO A PERSON WHOSE SELLER REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT THAT IS NOT A BROKER DEALER WHICH OWNS AND INVESTS ON A DISCRETIONARY BASIS LESS THAN U.S.$25 MILLION IN SECURITIES OF ISSUERS THAT ARE NOT AFFILIATED PERSONS OF THE INITIAL PURCHASER AND IS NOT A PLAN REFERRED TO IN PARAGRAPH (A)(1)(ii) OR (A)(1)(ii) OF RULE 144A OR A TRUST FUND REFERRED TO IN PARAGRAPH (A)(1)(ii)(F) OF RULE 144A THAT HOLDS THE ASSETS OF SUCH A PLAN, IF INVESTMENT DECISIONS WITH RESPECT TO THE PLAN ARE MADE BY THE BENEFICIARIES OF THE PLAN, PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A UNDER THE SECURITIES ACT OR (2) TO A NON-U.S. PERSON IN AN OFFSHORE TRANSACTION COMPLYING WITH RULE 903 OR RULE 904 OF REGULATION S UNDER THE SECURITIES ACT AND, IN THE CASE OF CLAUSE (1), IN A PRINCIPAL AMOUNT OF NOT LESS THAN U.S.$250,000 OR IN THE CASE OF CLAUSE (2), IN A PRINCIPAL AMOUNT OF NOT LESS THAN U.S.$100,000, FOR THE PURCHASER AND FOR EACH ACCOUNT FOR WHICH IT IS ACTING TO A PURCHASER THAT, OTHER THAN IN THE CASE OF CLAUSE (2), (V) IS A QUALIFIED PURCHASER FOR PURPOSES OF SECTION 3(a)(11) OF THE INVESTMENT COMPANY ACT, (W) WAS NOT FORMED FOR THE PURPOSE OF INVESTING IN THE ISSUER (EXCEPT WHEN EACH BENEFICIAL OWNER OF THE PURCHASER IS A QUALIFIED PURCHASER), (X) HAS RECEIVED THE NECESSARY CONSENT FROM ITS BENEFICIAL OWNERS WHEN THE PURCHASER IS A PRIVATE INVESTMENT COMPANY FORMED BEFORE APRIL 30, 1946, (Y) IS NOT A BROKER DEALER THAT OWNS AND INVESTS ON A DISCRETIONARY BASIS LESS THAN U.S.$25,000,000 IN SECURITIES OF AFFILIATED ISSUERS AND (Z) IS NOT A PENSION, PROFIT SHARING OR OTHER RETIREMENT TRUST FUND OR PLAN IN WHICH THE PARTNERS, BENEFICIARIES OR PARTICIPANTS, AS APPLICABLE, MAY DESIGNATE THE PARTICULAR INVESTMENTS TO BE MADE, AND IN A TRANSACTION THAT MAY BE EFFECTED WITHOUT LOSS OF ANY APPLICABLE INVESTMENT COMPANY ACT EXEMPTION AND (B) IN ACCORDANCE WITH ALL APPLICABLE SECURITIES LAWS OF THE STATES OF THE UNITED STATES. EACH HOLDER HEREOF SHALL BE DEEMED TO MAKE THE REPRESENTATIONS AND AGREEMENTS SET FORTH IN THE INDENTURE.
(AS DEFINED HEREIN). ANY TRANSFER IN VIOLATION OF THE FOREGOING WILL BE OF NO FORCE AND EFFECT, WILL BE NULL AND VOID AS IN/TIT AND WILL NOT OPERATE TO TRANSFER ANY RIGHTS TO THE TRANSFEREE. NOTWITHSTANDING ANY INSTRUCTIONS TO THE CONTRARY TO THE ISSUERS, THE NOTE TRANSFER AGENT OR ANY INTERMEDIARY. EACH TRANSFEROR OF THIS NOTE WILL PROVIDE NOTICE OF THE TRANSFER RESTRICTIONS SET FORTH HEREIN AND IN THE INDENTURE TO ITS TRANSFEREE. IN ADDITION TO THE FOREGOING, THE ISSUERS HAVE THE RIGHT, UNDER THE INDENTURE (AS DEFINED HEREIN), TO COMPEL ANY BENEFICIAL OWNER OF AN INTEREST IN A RULE 144A GLOBAL NOTE (AS DEFINED IN THE INDENTURE) THAT IS A U.S. PERSON AND IS NOT BOTH A QUALIFIED PURCHASER AND A QUALIFIED INSTITUTIONAL PURCHASER TO SELL ITS INTEREST IN THE NOTES, OR MAY SELL SUCH INTERESTS ON BEHALF OF SUCH OWNER.

THE PURCHASER OR TRANSFEREE OF A CLASS D NOTE IS DEEMED TO REPRESENT TO THE NOTE TRANSFER AGENT (I) THAT IT IS NOT (A) AN "EMPLOYEE BENEFIT PLAN" (AS DEFINED IN SECTION 3(3) OF ERISA), THAT IS SUBJECT TO THE PROVISIONS OF TITLE I OF ERISA, (B) A "PLAN" DESCRIBED IN AND SUBJECT TO SECTION 4975 OF THE CODE, OR (C) AN ENTITY WHOSE ASSETS INCLUDE "PLAN ASSETS" WITHIN THE MEANING OF ERISA BY REASON OF ANY SUCH PLAN'S INVESTMENT IN THE ENTITY (ALL SUCH PERSONS AND ENTITIES DESCRIBED IN CLAUSES (A) THROUGH (C) BEING REFERRED TO HEREIN AS "BENEFIT PLAN INVESTORS"); AND (II) THAT IT IS NOT THE COLLATERAL MANAGER OR ANY OTHER PERSON (OTHER THAN A BENEFIT PLAN INVESTOR) WHO HAS DISCRETIONARY AUTHORITY OR CONTROL WITH RESPECT TO THE ASSETS OF THE ISSUER OR A PERSON WHO PROVIDES INVESTMENT ADVICE FOR A FEE (DIRECT OR INDIRECT) WITH RESPECT TO THE ASSETS OF THE ISSUER, OR ANY "AFFILIATE" (WITHIN THE MEANING OF 29 C.F.R. SECTION 2510.3-101) OF ANY SUCH PERSON. NO PURCHASE OR TRANSFER OF CLASS D NOTES WILL BE PERMITTED OR REGISTERED TO THE EXTENT THAT THE PURCHASE OR TRANSFER WOULD RESULT IN BENEFIT PLAN INVESTORS OWNING 25% OR MORE OF THE OUTSTANDING CLASS D NOTES (OTHER THAN THE CLASS D NOTE OWNED BY THE COLLATERAL MANAGER, THE TRUSTEE AND THEIR AFFILIATES) IMMEDIATELY AFTER SUCH PURCHASE OR TRANSFER (DETERMINED IN ACCORDANCE WITH SECTION 2(2) OF ERISA, 29 C.F.R. SECTION 2510.3-101 AND THE INDENTURE).

ANY TRANSFER, PLEDEE OR OTHER USE OF THIS NOTE FOR VALUE OR OTHERWISE BY OR TO ANY PERSON IS WRONGFUL SINCE THE REGISTERED OWNER HEREOF, Cede & Co., HAS AN INTEREST HEREIN. UNLESS THIS NOTE IS PRESENTED BY AN AUTHORIZED REPRESENTATIVE OF THE DEPOSITORY TRUST COMPANY ("DTC"). NEW YORK, NEW YORK, TO THE ISSUER OR THEIR AGENT FOR REGISTRATION OF TRANSFER, EXCHANGE OR PAYMENT AND ANY NOTE ISSUED IS REGISTERED IN THE NAME OF Cede & Co. OR OF SUCH OTHER ENTITY AS IS REQUESTED BY AN AUTHORIZED REPRESENTATIVE OF DTC (AND ANY PAYMENT HEREON IS MADE TO Cede & Co.).

TRANSFERS OF THIS NOTE SHALL BE LIMITED TO TRANSFERS IN WHOLE BUT NOT IN PART, TO NOMINEES OF DTC OR TO A SUCCESSOR THEREOF OR SUCH SUCCESSOR'S NOMINEE AND TRANSFERS OF
PORTIONS OF THIS NOTE SHALL BE LIMITED TO TRANSFERS MADE IN ACCORDANCE WITH THE RESTRICTIONS SET FORTH IN THE INDENTURE.

PRINCIPAL OF THIS NOTE IS PAYABLE AS SET FORTH HEREIN. ACCORDINGLY, THE OUTSTANDING PRINCIPAL OF THIS NOTE AT ANY TIME MAY BE LESS THAN THE AMOUNT SHOWN ON THE FACE HEREOF. ANY PERSON ACQUIRING THIS NOTE MAY ASCERTAIN ITS CURRENT PRINCIPAL AMOUNT BY INQUIRY OF THE NOTE PAYING AGENT.

THE FOLLOWING INFORMATION IS PROVIDED PURSUANT TO UNITED STATES TREASURY REGULATION SECTION 1.1275-3(c). THIS NOTE HAS BEEN ISSUED WITH ORIGINAL ISSUE DISCOUNT FOR UNITED STATES FEDERAL INCOME TAX PURPOSES. THE HOLDER OF THIS NOTE MAY OBTAIN THE INFORMATION DESCRIBED IN UNITED STATES TREASURY REGULATION SECTION 1.1275-3(c)(1)(ii) FROM THE ADMINISTRATOR, AT THE FOLLOWING ADDRESS: P.O. BOX 1283 GT, GRAND CAYMAN, CAYMAN ISLANDS.

(h) With respect to Class D Notes (other than the Regulation S Class D Notes) transferred or purchased on or after the Closing Date, the Purchaser understands and agrees that the representations and agreements made in this paragraph (h) will be deemed made on each day from the date hereof through and including the date on which the Purchaser disposes of the Class D Notes (other than the Regulation S Class D Notes).

(x) The Purchaser is __, is not __ (check one) (i) an “employee benefit plan” (as defined in Section 3(3) of the United States Employee Retirement Income Security Act of 1974, as amended (“ERISA”)), that is subject to the provisions of Title I of ERISA, (ii) a “plan” described in and subject to Section 4975 of the United States Internal Revenue Code of 1986, as amended (the “Code”), or (iii) an entity whose underlying assets include assets of any such plan (for purposes of ERISA or Section 4975 of the Code) by reason of any such plan’s investment in the entity (such persons and entities described in clauses (i) through (iii) being referred to herein as “Benefit Plan Investors”); and (y) if the Purchaser is a Benefit Plan Investor, the Purchaser’s purchase and holding of a Class D Note do not and will not constitute or result in a prohibited transaction under Section 406 of ERISA or Section 4975 of the Code (or, in the case of an employee benefit plan not subject to ERISA or Section 4975 of the Code, any federal, state, local or foreign law that is substantially similar to Section 406 of ERISA or Section 4975 of the Code) for which an exemption is not available.

The Purchaser is __, is not __ (check one) the issuer or any other person (other than a Benefit Plan Investor) that has discretionary authority or control with respect to the assets of the issuer, a person who provides investment advice for a fee (direct or indirect) with respect to the assets of the issuer, or any “affiliate” (within the meaning of 24 C.F.R. Section 2010.3-101(f)(3)) of any such person (any such person described in this paragraph being referred to as a “Controlling Person”).

If the Purchaser is a Benefit Plan Investor described in (x) above, or an insurance company acting on behalf of its general account __ (check if true), then (i) not more than __ % (complete by entering a percentage), (the “Maximum Percentage”) of its assets of the assets of such general account, as applicable, constitutes assets of Benefit Plan Investors for purposes of Section 3(4)(c) of ERISA and the “plan assets” regulations under ERISA, and (ii) without limiting the remedies that may otherwise be available, the Purchaser agrees that it shall (x) immediately notify the issuer if the Maximum Percentage is exceeded, and (y) dispose of all or a portion of the Class D Notes as may be instructed by the issuer (including, in the discretion of the issuer, a disposition back to the issuer or an affiliate thereof (or other person designated by the issuer) for the then value of the Class D Notes as reasonably determined by the issuer, in any case in which the Purchaser cannot otherwise make a disposition it has been instructed by the issuer to make).

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825551
(i) The Purchaser understands and acknowledges that the Trustee will not register any purchase or transfer of Class D Notes either to a proposed initial purchaser or to a proposed subsequent transferee of Class D Notes that has, in either case, represented that it is a Benefit Plan Investor or a Controlling Person if, after giving effect to such proposed transfer, persons that have represented that they are Benefit Plan Investors would own 25% or more of the outstanding Class D Notes. For purposes of this determination, Class D Notes held by the Collateral Manager, the Trustee, any of their respective affiliates and persons that have represented that they are Controlling Persons will be disregarded and will not be treated as outstanding. The Purchaser understands and agrees that any purported purchase or transfer of the Purchaser’s Class D Notes to a Purchaser that does not comply with the requirements of this clause (i) will not be permitted or registered by the Note Transfer Agent.

(j) The purchaser is not purchasing the Purchaser’s Class D Notes with a view toward the resale, distribution or other disposition thereof in violation of the Securities Act. The Purchaser understands that an investment in the Purchaser’s Class D Notes involves certain risks, including the risk of loss of its entire investment in the Purchaser’s Class D Notes under certain circumstances. The Purchaser has had access to such financial and other information concerning the Issuer and the Purchaser’s Class D Notes as it deemed necessary or appropriate in order to make an informed investment decision with respect to its purchase of the Purchaser’s Class D Notes, including an opportunity to ask questions of, and request information from, the Issuer.

(k) If the purchaser or beneficial owner is a Non-U.S. Holder, such purchaser or beneficial owner represents that (x) either (A) its purchase of the Class D Note is not, directly or indirectly, an extension of credit made by a bank pursuant to a bank agreement entered into in the ordinary course of its trade or business, (B) it is a person that is eligible for benefits under an income tax treaty with the United States that eliminates United States federal income taxation of United States source interest not attributable to a permanent establishment in the United States or (C) all income from the Class D Note is effectively connected with a trade or business within the United States (as such terms are used in Section 882(b)(1) of the Code) conducted by such Holder and (y) it is not purchasing the Class D Note in order to reduce its United States federal income tax liability or pursuant to a tax avoidance plan.

(l) The Purchaser agrees to treat the Purchaser’s Class D Notes as debt for U.S. federal income tax purposes.

(m) The Purchaser acknowledges that due to money laundering requirements operating in the Cayman Islands, the Issuer and Note Transfer Agent may require further identification of the Purchaser before the purchase application can proceed. The Issuer and the Note Transfer Agent shall be held harmless and indemnified by the Purchaser against any loss arising from the failure to process the application if such information as has been required from the Purchaser has not been provided by the Purchaser.

(n) The Purchaser agrees to complete any other instrument of transfer as required under Cayman Islands law.

(o) The Purchaser is not a member of the public in the Cayman Islands.

We acknowledge that you and other persons will rely upon our confirmation, acknowledgments, representations, warranties, covenants and agreements set forth herein, and we hereby irrevocably authorize you and such other persons to produce this letter or a copy thereof to any interested party in any administrative or legal proceeding or official inquiry with respect to the matters covered hereby.
This letter shall be governed by, and construed in accordance with, the laws of the State of New York.

Very truly yours,

[]

5. Education and Business Standards:

Are there any general standards of education or business experience that the applicant requires of those involved in determining or giving investment advice to clients? Yes ☒ No ☐

(If yes, describe those standards on Schedule F.)

6. Education and Business Background:

For:

- each member of the investment committee or group that determines general investment advice to be given to clients, or
- if the applicant has no investment committee or group, each individual who determines general investment advice given to clients (if more than five, require only for their supervisors)
- each principal executive officer of applicant or each person with similar status or performing similar functions.

On Schedule F, give the:

- name
- formal education after high school
- year of birth
- business background for the preceding five years

7. Other Business Activities (check those that apply):

- ☐ A. Applicant is actively engaged in a business other than giving investment advice.
- ☐ B. Applicant sells products or services other than investment advice to clients.
- ☐ C. The principal business of applicant or its principal executive officers involves something other than providing investment advice.

(For each checked box, describe the other activities, including the time spent on them, on Schedule F.)

8. Other Financial Industry Activities or Affiliations (check those that apply):

- ☐ A. Applicant is registered (or has an application pending) as a securities broker-dealer.
- ☐ B. Applicant is registered (or has an application pending) as a futures commission merchant, commodity pool operator, or commodity trading advisor.

- ☐ C. Applicant has arrangements that are material to its advisory business or its clients with a related person who is:
  - ☐ (1) broker-dealer
  - ☐ (2) investment company
  - ☐ (3) other investment advisor
  - ☐ (4) financial planning firm
  - ☐ (5) commodity pool operator, commodity trading advisor, or futures commission merchant
  - ☐ (6) bank or thrift institution
  - ☐ (7) accounting firm
  - ☐ (8) law firm
  - ☐ (9) insurance company or agency
  - ☐ (10) pension consultant
  - ☐ (11) real estate broker or dealer
  - ☐ (12) entity that creates or packages limited partnerships

(For each checked box in C, on Schedule F, identify the related person and describe the relationship and the arrangements.)

- ☐ D. Is applicant or a related person a general partner in any partnership in which clients are solicited to invest? Yes ☒ No ☐

(If yes, describe on Schedule F the partnerships and what they invest in.)

Answer all boxes. Complete expanded pages to last, circle expanded item and file with commence page (page 35).

B. Does applicant or a related person suggest brokers to clients?  
If yes, describe any fees and/or the authority. For each yes to A(1), A(2), A(3), or B, describe on Schedule F the factors considered in selecting brokers and determining the reasonableness of their commissions. If the value of products, research and services given to the applicant or a related person is a factor, describe:

- the products, research and services
- whether clients may pay commissions higher than those obtainable from other brokers in return for those products and services
- whether research is paid to service all of applicant’s accounts or just those accounts paying for it; and
- any procedures the applicant used during the last fiscal year to direct client transactions to a particular broker in return for products and research services received.

**13. Additional Compensation:**

Does the applicant or a related person have any arrangements, oral or in writing, where:

A. Is paid directly or receives some economic benefit (including commissions, equipment or non-research services) from a non-client in connection with giving advice to clients?

<table>
<thead>
<tr>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
</table>

B. Directly or indirectly compensates any person for client referrals?

<table>
<thead>
<tr>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
</table>

(For each yes, describe the arrangements on Schedule F.)

**14. Balance Sheet:** Applicant must provide a balance sheet for the most recent fiscal year on Schedule G if applicable:

- has custody of client funds or securities (unless applicant is registered or registering only with the Securities and Exchange Commission); or
- requires prepayment of more than $500 in fees per client and 6 or more months in advance

Has applicant provided a Schedule G balance sheet?

Schedule F of Form ADV

Contribution Sheet for Form ADV Part II

Applicant:

Graywolf Capital Management LP

SEC File Number:

812-66489

Date:

March 12, 2007

1. Full name of applicant as stated in Item 1A of Part I of Form ADV:

GS Emp. Reg. No.:

54-2106223

Item of Form (identify)

Answer

Introduction

Graywolf Capital Management LP ("GCM") provides investment management services to private pooled investment vehicles that are offered to investors on a private placement basis. In connection with providing those investment management services, GCM (and its affiliates) have discretionary trading authority with respect to Graywolf Capital Partners II LP ("GCP II"), Graywolf High Yield Partners LP ("GHYP"), Graywolf Structured Products Fund I LP ("GSPF I"), Graywolf Capital Overseas Fund ("GCOF"), Graywolf High Yield Overseas Fund ("GHYOF"), Graywolf High Yield Master Fund ("GHYMF"), Graywolf Structured Products Fund Officers I, LLC, ("GSPFO I"), Graywolf Structured Products Master Fund ("GSPM") and Graywolf CLO I, Ltd. ("OLCL I") (collectively, the "Funds") and each individually as a "Fund.") Additional detailed information about GCM (and such affiliates) is provided below, including information about GCM's advisory services, investment approach, personnel, affiliations and brokerage practices.

Advisory Services

GCM serves as the management company in the GCP II and GHYP and serves as the general partner to GSPF I, each a private investment fund organized under the laws of the State of Delaware. Graywolf Advisors LLC ("PFA" or the "General Partner"), a Delaware limited liability company affiliated with GCM, serves as the general partner to GCP II and GHYP. The interests in GCP II, GHYP and GSPF I are offered on a private placement basis, and in reliance on Section 3(c)(7) of the Investment Company Act of 1940, as amended (the "Investment Act"), and are offered to persons who are "accredited investors" as defined under the Securities Act of 1933, as amended (the "Securities Act"), and "qualified purchasers" as defined under the Securities Act and the regulations thereunder, and subject to certain other conditions, which are set forth in the offering documents for each respective Fund.

GCM also serves as the investment manager to GCOF, GHYO, GHYFM, GSPFO I, and GSPM, each a private investment fund organized under the laws of the Cayman Islands. GHYOF and GSPFO I invest substantially all of their capital in the GHYFM. GSPFO I and GSPF I invest substantially all of their capital in GSPM. Shares in the GCOF, GHYOF and GSPFO I are offered on a private placement basis, and in reliance to U.S. tax-exempt investors, in reliance on Section 3(c)(7) (for GCOF) and Section 3(c)(7) (for GHYOF and GSPFO I) of the Investment Act. Shares are offered to persons who are either not "U.S. persons" (as such term is defined in Regulation S under the Securities Act) or U.S. tax-exempt investors. U.S. tax-exempt investors in GCOF must be (i) "accredited investors" as defined in Regulation D under the Securities Act, (ii) "qualified purchasers" as defined in the Investment Act and the regulations thereunder. Additionally, investors in GCOF, GHYOF and GSPFO I are subject to certain other conditions, which are set forth in the respective offering documents of such respective Fund.

GCM also serves as collateral manager of the portfolio of collateral, consisting primarily of loans, held by OLCL I, a special purpose vehicle organized under the laws of the Cayman Islands. The secured notes and subordinated notes issued by OLCL I are offered on a private placement basis, and in reliance on Section 3(c)(7) of the Investment Act. The secured notes are offered in the United States to persons who are "qualified institutional buyers" as defined in Rule 144A under the Securities Act and "qualified purchasers" as defined in the Investment Act and the regulations thereunder. The subordinated notes are offered in the United States to persons who are either (i) "qualified institutional buyers" as defined in Rule 144A under the Securities Act or "accredited investors" as defined in Regulation D under the Securities Act and (ii) "qualified purchasers" as defined in the Investment Act and the regulations thereunder or "knowledgeable employees" within the meaning of Rule 506 of the Investment Act. The secured notes and the subordinated notes are offered and sold outside the United States to persons who are not U.S. persons (as such term is defined in Regulation S of the Securities Act). Additionally, investors in OLCL I are subject to certain other conditions, which are set forth in the offering documents for the Fund.

<tr>
<th>Item of Form</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>GCM (including, for these purposes, GA) has full discretionary authority with respect to investment decisions, and its advice with respect to the Funds is made in accordance with the investment objectives and guidelines as set forth in each Fund’s respective offering memorandum and, with respect to OCLOI, in accordance with the external management agreement between GCM and OCLOI and the indenture between OCLOI and the trustee.</td>
<td></td>
</tr>
<tr>
<td>The fees applicable to each Fund are set forth in detail in each of the Fund’s respective offering memorandum. A brief summary of these fees is provided below.</td>
<td></td>
</tr>
<tr>
<td><strong>Fees for GCP II and GNTY</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Management Fee</strong></td>
<td></td>
</tr>
<tr>
<td>With respect to GCP II and GNTY, GCM generally is paid a quarterly management fee equal to 0.1250% (1.50% annually) of each capital account’s opening balance for the quarter, calculated and paid in arrears of each quarter but amortized over the respective quarter. “Special Investments” (also referred to “late-pallet” investments), held in GCP II will be carried at fair value (which may be cost). (See from LC, “Special Situations Investing”). In addition, a pro rata portion of the management fee will be paid to GCM out of any capital contributions made to GCP II and GNTY by new or exiting limited partners or any dollar that does not fall on the first business day of a quarter, based on the actual number of months remaining in such partial quarter. For these purposes, a “business day” is any day on which commercial banks in New York City are open for business. In the case of a withdrawal from a capital account other than as of the last business day of a fiscal quarter, the pro rata portion of the management fee (based on the actual number of months remaining in such partial quarter) will be repaid to GCM to the applicable Fund and distributed to the withdrawing investor.</td>
<td></td>
</tr>
<tr>
<td><strong>Incentive Allocation</strong></td>
<td></td>
</tr>
<tr>
<td>Generally, at the end of each fiscal year, 20% of the cause of any realized and unrealized net capital appreciation (taking into account, with respect to GCP II, gains and losses relating to applicable realized or unrealized Special Investments) allocable to each capital account for such year, the management fee described in item 2 above, the capital account for such year will be reconstituted in the capital account of the General Partner. Generally, any realized and unrealized net loss is a fiscal year allocated to each capital account is carried forward (the “High Water Mark”) as that no incentive allocation is charged to such capital account until prior losses have been recovered, subject to certain adjustments.</td>
<td></td>
</tr>
<tr>
<td>The General Partner, in its discretion, may elect to reduce, waive or cap the allocation of the management fee with respect to certain limited partners, including, without limitation, limited partners that are affiliates or employees of GCM, members of the immediate families of such persons, or other entities for their benefit. Each Fund reserves the right to impose different fees on future investments.</td>
<td></td>
</tr>
<tr>
<td><strong>Complete included pages in all, circle amended lines and file with successive page (page 1)</strong></td>
<td></td>
</tr>
<tr>
<td>Item of Fees (Identify)</td>
<td>Answer</td>
</tr>
<tr>
<td>------------------------</td>
<td>--------</td>
</tr>
<tr>
<td>Accounts (in the case of a termination) or from the capital accounts from which a withdrawal is made (in the case of a withdrawal) will be reallocated to the General Partner as set forth above. The incentive allocation with respect to capital amounts of partners in CCP II that have fully withdrawn except for interests in one or more “special investment accounts” (i.e., “side pockets”), will be reallocated to the General Partner upon “realization” or “deemed realization” (as further detailed in the U.S. Funds’ respective offering documents) of the applicable side pocket investment.</td>
<td></td>
</tr>
</tbody>
</table>

**Fees for GCOF and GHYF**

**Management Fees**

GCM generally is paid a quarterly management fee equal to 0.25% (1.59% annualized) of the net asset value ("NAV") of each series of shares for GCOF and GHYF, calculated and paid in arrears at the beginning of each quarter but amortized monthly over the respective quarter. A pro-rata portion of the management fee will be paid to GCM out of any subscriptions for shares made to GCOF or GHYF by new or existing shareholders on any date that does not fall on the first day of a quarter, based on the actual number of months remaining in such partial quarter. If shares are redeemed at any time other than at the end of a quarter from GCOF or GHYF, a pro rata portion of the management fee (based on the actual number of days remaining in such partial quarter) will be repaid by GCM to the appropriate Fund and distributed to the redeeming shareholder.

**Incentive Fees**

At the end of each Fund’s fiscal year, GCM is entitled to receive an incentive fee equal to 20% of the net realized and net unrealized appreciation in the NAV of each series of "ordinary" shares (i.e., the class S shares) of each Fund during the respective year (adjusted for any redemptions and any exercises of the incentive fees paid during the year (the "Adjusted NAV"); provided, however, that no incentive fee will only be paid with respect to the portion of the Adjusted NAV of a series of shares that is in excess of the "Prior High NAV" of such series of shares with respect to GCOF, Adjusted NAV also includes adjustments for the issuance of additional "ordinary" shares of an existing series following the realization or deemed realization of a "special" or "side pocket" investment (which will be recorded as "class S shares") and the subsequent exchange of class S shares resulting therein, in either case, occurring during such year. The Prior High NAV of a series of shares is the NAV of that series immediately following the date as of which the last year-end incentive fee was determined with respect to such series (or, if no incentive fee has yet been determined with respect to such series, the NAV of that series immediately following its initial offering). The Prior High NAV of a series of shares will be adjusted for redemption from such series. The Prior High NAV of a series of shares in GHYF will also be adjusted for redemption of "ordinary" shares of a series exchanged for class S shares (i.e., open the making of a Special Investment) and the issuance of additional "ordinary" shares following the realization or deemed realization of a Special Investment.

The Funds reserve the right to reduce, waive or calculate differently the management fee and the incentive fee with respect to any shareholder. In addition, the Funds reserve the right to impose different fees on future investments.

GHYF does not charge directly any management, incentive or other fees for the benefit of GCM.

GCM may elect to receive all or a portion of the incentive fees and/or management fees from the Funds currently or on a deferred basis, subject to a deferred compensation arrangement.

Finally, any performance-based fees will be charged in accordance with Section 205 of the Advisers Act and Rule 206(4)-1.

### Types of Clients

As noted above, GCM provides investment advice to the Funds, which are formed for the purpose of investment and are excluded from registration under Section 3(c)(7) and/or Section 3(c)(1) of the Company Act. Investors in the Funds generally include individuals, investment companies, pension and profit sharing plans, insurance companies, trusts, estates, charitable organizations, corporations, partnerships and limited liability companies.

### Types of Investments

GCM has a broad mandate to invest the Fund’s assets, on margin or otherwise, in securities and financial instruments of U.S. and foreign entities, including, without limitation, capital stocks; all manner of equity securities (whether registered or unregistered, traded or privately offered); shares of beneficial interest; partnership interests and similar financial instruments; bonds, notes and debentures (whether subordinated, convertible or otherwise); currencies; interest rate, currency, equity and other derivative products, including, without limitation, (i) futures contracts (and options thereon) relating to stock indices, currencies, United States Government securities, securities of non-U.S. government and other financial instruments and all other commodities, (ii) swaps, options, rights, warrants, when-issued securities, caps, collars, floors, forward rate agreements, and repurchase and reverse repurchase agreements and other such agreements, (iii) spot and forward currency transactions, and (iv) agreements relating to or securing such transactions; loans, including, without limitation, equipment lease certificates; equipment trust certificates; bonds, OCP borrowings; assets and notes receivable and payable held by trades or other creditors; trade acceptances and claims; contract and other claims; securitization securities; participations; mutual funds; U.S. and non-U.S. money market funds and instruments; obligations of the United States, any state thereof, non-U.S. governments and instrumentalities of any of them; commercial paper, certificates of deposit, bankers’ acceptances, trust receipts; letters of credit, money market instruments, accounts payable; notes and/or bank acceptance drafts and bank credits; and other obligations and instruments or evidence of indebtedness of whatever kind or nature, in each case, of any person, corporation, government or other entity whatsoever, whether or not publicly traded or readily marketable.

Investments are made in accordance with the Investment objectives and guidelines as set forth in each Fund’s respective Offering Memorandums and Investment Management or Collateral Management Agreement, as applicable, and, in the case of GCLD I, in accordance with the indenture between GCLD I and the trustee.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021925568
For a more comprehensive description of the securities and financial instruments that each Fund may invest in, see the respective offering documents of each such Fund.

From time to time, the Funds may gain exposure to investments through their participation in special purpose vehicles (which may include domestic and offshore limited partnerships, limited liability companies and corporations) managed, held or sponsored by GCM, its affiliates and/or by unaffiliated parties. GCM is generally not entitled to any compensation in connection with investments through such special purpose vehicles.

Methods of Analysis, Sources of Information and Investment Strategies

GCM uses quantitative, economic, fundamental, cyclical, technical and quantitative analyses. In addition, the principals and members of the investment team of GCM have developed their own methodology and resources to assist in the identification of opportunities in the relevant markets. GCM utilizes the key relationships that its principals and other members of the investment team have developed during their careers to expeditiously identify and analyze investment opportunities.

The collateral management functions performed by GCM with respect to the Collateral Portfolio held by OCLD include (i) selecting the collateral to be acquired and sold, (ii) monitoring the Collateral Portfolio on an ongoing basis and advising OCLD as to which collateral to acquire and which to sell, (iii) negotiating the terms of the transactions, (iv) advising OCLD on the terms of collateral selection and (v) negotiating the terms of collateral selection and (vi) advising OCLD on the terms of collateral selection and (vii) advising OCLD on the terms of collateral selection.

With respect to the Funds other than OCLD, GCM focuses on three primary investment strategies, as described below. For a more detailed description of the strategies to be utilized by each Fund, investors should review each Fund's offering documents. The descriptions contained herein of specific strategies the GCM is or may be engaged in should not be understood as in any way limiting its investment activities.

Special Situations Investing

Special situations investing includes a variety of tactics aimed at capitalizing on market opportunities resulting from unusual events and/or value propositions created by market inefficiencies. GCM's main focus in this respect is credit-specific with a focus on distressed securities, special situations and capital structure arbitrage opportunities, where GCM believes that the market is either over- or under-pricing that event value. In order to identify opportunities, GCM focuses on markets or issues underlying periods of volatility. Volatility may be caused by operational problems, legislative or regulatory changes, legal actions, management issues, flow or adverse market demand shifts. Significant price fluctuations often occur in securities whose issuers are the subject of corporate reorganizations or restructurings, liquidity stress, mergers, spin-offs or credit rating changes. The volatility of the market for these securities often results in their being mispriced. GCM intends to utilize long and short strategies based on relative value assessments.

High Yield Investing

In pursuing high yield investing, portfolio investments will be concentrated in long and short positions in high-yield bonds, credit default swaps and bank loans to leveraged companies. Similar allocations in investment grade bonds and other corporate obligations may also be made.

GCM's high yield investing approach focuses on making long and short investments using fundamental analysis, as well as by exploiting inefficiencies and trading opportunities in the credit markets. In carrying out this investment strategy, GCM attempts to maximize portfolio liquidity and preserve capital.

The investment process focuses on credit analysis of individual companies, but industry dynamics and macroeconomic conditions are also considered. Once a company is targeted for investment, a relative value matrix of each company's capital structure is constructed, and capital structure arbitrage positions may be established. GCM may also seek to alleviate industry or company-specific risk by shorting a security closely correlated with that risk (i.e., a paired trade).

### Structural Products

The structured transactions are expected to consist substantially of cash and/or synthetic collateralized debt obligations ("CDOs") and the equity securities of CDO issuers ("CDO Equity Securities"), including CDOs collateralized primarily by other CDOs ("CMO/CDO"), together with CDO Equity Securities and CDOs. CDO Prefeneters, but may also include commercial mortgage-backed securities ("CMO/BP"), residential mortgage-backed securities ("Fannie MBS"), credit default swaps ("CDS") and other derivative instruments, and other types of structured products. The CDOs may consist of or reference corporate debt instruments, ABS, MBS, RMBS, other CDOs or other assets.

CDO will invest primarily in structured portfolio risk in both the cash and synthetic market segments. This will include investments in cash and synthetic CDO Products, as well as cash and synthetic investments in the CMBS, RMBS, and ABS markets.

CDO may invest in all parts of the remaining capital structure from equity risk in senior/subordinated (senior) risk. CDO may take long or short positions in structured risk. CDO will invest primarily in portfolio risk, it may also take long or short positions as single name or index risk to hedge or take outright exposure, including common stock, preferred stock, corporate and/or consumer loans on an individual or portfolio basis.

**Item 5**

It is expected that a significant portion of the positions in this strategy will be invested in portfolio risk sourced from the new investment grade corporate bond, as well as CDO and CMBS markets. CDO may also invest in portfolio risk sourced from the investment grade corporate bond, the emerging market debt, the corporate and residential real estate markets, the consumer credit market, and other types of structured products.

**Education and Business Standards**

Generally, individuals engaged in determining and implementing investment strategies will have, at a minimum, a four-year college degree. In addition, most of these individuals will have significant experience in the financial industry. CDO expects that additional persons employed by CDO in the future will have qualifications and backgrounds consistent with those of its current employees.

**Education and Business Background**

Item B.C. Other Financial Industry Activities and Affiliations

As noted previously, Greywolf Advisors LLC serves as the general partner of the U.S. Funds. Mr. Jawaher Sapsed, CIF's Chief Executive Officer and Chief Investment Officer, the managing member of UCITS general partner, and is also the senior managing member of Greywolf Advisors LLC and Messrs. William Gilgropy, Robert Miller, Gregory Mount and Gerhard Sammich has the managing members (collectively, with Mr. Sapsed, the "Principal").

Item B.D. GCM does not provide investment advisory services to persons with individually managed accounts and therefore generally does not solicit clients to invest in the Funds.

GCIF has purchased 100% of the initial notional amount of the subordinated securities of GCLO I. Under this arrangement, the Collateral Management Fees otherwise payable by GCLO I to GCM are paid to GCIF.

Item 9 Participation or Interest in Client Transactions and Conflict of Interest

<tr>
<td>GCM and its personnel do not purchase or sell any securities for their own accounts or on the Funds’ behalf. However, from time to time, subject to Fund investment guidelines and restrictions, GCM may direct one Fund to sell securities into another Fund through an internal cross transaction in which neither GCM nor a related person will receive compensation. Any such transaction will be effected based on the then current independent market price and consistent with valuation procedures established by GCM. To the extent that any such cross transaction may be viewed as a principal transaction due to the ownership interest in the Fund by GCM and its parent, GCM will comply with the requirements of Section 36(b) of the Advisers Act, including that GCM will notify the Fund (or an independent representative of the Fund).</td>
<td></td>
</tr>
</tbody>
</table>

Confidential Exhibit

The Funds are subject to a number of actual and potential conflicts of interest. Certain inherent conflicts of interest arise from the fact that GCM and its affiliates (including the General Partner, the "Graywolf Group") provide investment management services to the Funds and may, in the future, provide management services to additional funds or other accounts and proprietary accounts in which the Funds will have no interest (collectively, "Other Accounts"). The respective investment programs of the Funds and Other Accounts may or may not be substantially similar. The portfolio strategies employed by the Graywolf Group for Other Accounts could conflict with the transactions and strategies employed by the Graywolf Group in managing the Funds and affect the prices and availability of the securities and instruments in which the Funds invest. Conversely, participation in specific investment opportunities may be appropriate, at times, for one or more of the Funds and Other Accounts. In such cases, participation in such opportunities will be allocated on an equitable basis, as more fully described under "Investment Strategies - General Investment Policies and Procedures" below. Such considerations are likely to result in allocations of certain investments among the Funds and Other Accounts on a fair and just basis.

From time to time, GCM may acquire securities or other financial instruments of an issuer for a Fund (or Other Account) which are senior to, or junior to securities or financial instruments of the same issuer that are held by, or acquired for, another Fund (or Other Account) (e.g., one Fund (or Other Account) may acquire senior debt while another Fund (or Other Account) may acquire subordinated debt). GCM recognizes that conflicts may arise under such circumstances. When this occurs, the portfolio managers will attempt to determine which of the "conflicting investments" has the highest profitability potential (such investment, the "Preferred Investment"). Taking into account such considerations as size of position, the relationship of profit and likelihood of success of a particular course of action (i.e., exercising remedies under loan, note or security agreements, foreclosing or selling DIP financing or other remedies in a bankruptcy court, pursuing litigation or proposing or supporting a plan of reorganization in bankruptcy, alcohol and costs and demands on GCM’s resources and personnel), in the absence of an agreement among the portfolio managers as to the Preferred Investment, Mr. Savitt, or in his absence, Mr. Troy, may make such determination.

Applicable tax, regulatory and other considerations may sometimes lead to certain equity and real estate investments being structured in a manner such that a Fund (or the entity through which a Fund makes an investment) will lend capital to (or enter into a similar transaction with) U.S. funds affiliated with the Funds. The debt interest of each such Fund, while senior to the equity interest held by the affiliated U.S. funds, is often structured to yield a definite return (and a lower rate of return than the U.S. funds’ return on their equity). As a result of such structures, GCM must weigh the conflicting interests of the different investors and funds in determining the amount to allocate to each investor and find a way to reflect these interests. GCM will attempt to deal with such conflicting interests in a manner similar to that of Preferred Investments. Additionally, the equity and debt holders with respect to an investment may have conflicting interests during the term of a particular investment, especially if the investment is not performing well.

Once the Preferred Investment is determined, the portfolio managers will take actions which seek to maximize value. Such actions could possibly be adverse to other investments held by the Funds or Other Accounts. To the extent any adverse impact resulting from such action, GCM may seek to sell in a commercially reasonable manner the non-Preferred Investment. Alternatively, a determination may be made that an immediate sale would result in a lesser return on the non-Preferred Investment than would be the case if the investment remained in the portfolio, in which case GCM would maintain the position. There can be no guarantee, however, that carrying the non-Preferred Investment will not result in greater losses than would have resulted had the investment been sold.

<tbody>
<tr>
<td>In addition, the Graywolf Group may give advice on or take action with respect to the investments of one or more Funds (or Other Accounts) that may not be given or taken with respect to other Funds with similar investment programs, objectives, or strategies. Accordingly, Funds having similar strategies may not hold the same securities or instruments to achieve the same performance. The Graywolf Group may advise Funds (or Other Accounts) with conflicting programs, objectives or strategies. These activities also may adversely affect the prices and availability of other securities or instruments held by or potentially considered for one or more Funds. Finally, OCM, its principals and other personnel may have conflicts in allocating their time and services among the Funds (and/or Other Accounts). OCM and its principals, officers and employees may devote as much of their time to the activities of the Funds as OCM deems necessary and appropriate.</td>
<td></td>
</tr>
<tr>
<td>From time to time one Fund managed by OCM (the “Selling Fund”) may offer to another Fund managed or advised by OCM (the “Purchasing Fund”) assignments or sales of, loans (or interests therein) that the Selling Fund has originated or purchased. Such offers will usually be made after the Selling Fund has already held such investment (including the portion offered) for a period of time. The price of the participation, assigned or sold interest (as the case may be) will be established based on third-party valuations. Further, the decision by the Purchasing Fund to accept or reject the offer made by the Selling Fund will be made by partners or individuals not involved in the origination or purchase decision on behalf of the Selling Fund. In determining the target amount of a particular loan originated or purchased by the Selling Fund, the Selling Fund may take into consideration the fact that it anticipates offering participations or assigning or selling a portion of such loan as described above. If the offered funds and accounts decide not to participate in such participations, assignments or interests in such investments, the Selling Fund will be forced to hold that portion of the investment until such time as it can be disposed of. This may result in the Selling Fund being “overweighted” with respect to a particular investment for a significant period of time.</td>

GCM may from time to time invest in or purchase funds in one or more Funds and/or in securities or instruments in which it may invest the Funds’ assets. Similarly, GCM, its principals, officers and employees may from time to time make personal investments in securities or instruments in which GCM may invest the Funds’ assets. GCM and its personnel may buy, sell, or hold securities or other instruments for its or their own account(s) while engaging in different investment decisions for one or more Funds. In addition, certain GCM’s principals and employees have substantial personal investments in one or more Funds. The amount of such principal or employee personal investment in a Fund (if any) may change from time. A principal or employee may decide to invest only in certain Fund(s) and not in others. Investors will be provided with notice of principals’ or employees’ investment in, or withdrawal from, a Fund (except to the extent such notice is required under a Fund’s offering documents). |

The above list is not a complete description of every conflict of interest that could be deemed to exist. |

Certain of GCM’s principals, officers and employees are former employees of Goldman, Sachs & Co., which exits on prime brokerage and other transactions to Funds. Such former Goldman, Sachs & Co. employees (i) have no conflict of interest in, or other business dealings with, Goldman, Sachs & Co. Such continuing relationships with Goldman, Sachs & Co. may be deemed to create a conflict of interest for GCM with respect to its advising or managing the Funds’ relationships with Goldman, Sachs & Co.  

**Code of Ethics**  

GCM strives to foster and maintain a reputation for honesty, integrity and professionalism. In seeking to meet these standards, GCM has adopted a Code of Ethics (the "Code"). The Code incorporates the following general principles: that all employees are expected to uphold ethical standards at all times when acting on behalf of client funds; all personal securities transactions must be conducted in a manner consistent with the Code; and any actual or potential conflicts of interest or any abuse of an employee's position of trust and responsibility must be promptly and completely disclosed and accounted for. Investors must not take any inappropriate advantage of their positions. Information concerning the identity of securities and financial circumstances of the Funds, including the Funds’ investment strategies, must be kept confidential and independent in the investment decision-making process must be maintained at all times. The

Item 2

Answer

Code also places restrictions on personal trades by employees, including that they disclose their personal securities holdings and transactions to GCM on a periodic basis. GCM disapproves employees from engaging in personal securities transactions and requires that employees pre-clear all personal securities transactions (except for a limited number of exempt transactions (e.g., shares issued by open-ended mutual funds, money market funds, U.S. Treasury bonds, commercial paper, etc.) before effecting a personal transaction in securities. Investors may request a copy of the Code by contacting GCM at the address or telephone number listed on the first page of this document.

GCM also maintains insider trading policies and procedures (the “Insider Trading Policies”) that are designed to prevent the misuse of material, non-public information. GCM’s personnel are required to comply with these policies and procedures, including the Insider Trading Policies, on a periodic basis.

Restrictions Due to Insider Information

GCM’s Insider Trading Policies prohibit GCM and its personnel (to the extent prohibited by law) from trading for the Funds or themselves, or recommending trading, in securities of an issuer on the basis of material, non-public information (“Insider Information”) that the investor disclosed to any person not entitled to receive it, and from assisting anyone in transacting business on the basis of Insider Information through a third party. By reason of its various activities, GCM may receive or be exposed to Insider Information or be involved in affecting transactions in certain investments that might otherwise have been held. GCM has developed and implemented policies and procedures designed to comply with the requirements of the Federal securities laws relating to insider trading. Among other things, such policies and procedures seek to control and monitor the flow of Insider Information to and within GCM, as well as prevent trading on the basis of Insider Information. Companies about which GCM has Insider Information will be placed on GCM’s restricted list. GCM’s ability to trade public securities the issuers of which are placed on the restricted list is extremely limited.

Conditions for Managed Accounts

Investors in the Special Situation Funds and the High Yield Funds are generally required to make minimum initial investments of at least US$200,000 and investors in the Structured Products Funds are generally required to make minimum initial investments of at least US$1,000,000. Thereafter, additional investments may be accepted in US$25,000 increments with respect to the Special Situation Funds and the High Yield Funds. The additional investments may be made by the General Partner (in the case of the U.S. Funds) or by the board of directors (in the case of the Offshore Funds), provided that the Offshore Funds may not accept minimum initial investments of less than US$50,000.

Investors in the Funds are not freely transferable and are subject to limitations on their liquidity, including, without limitation, "lock-up" or "amortization" periods, gains, limited liquidity dates and potentially punitive withdrawal penalties or redemption of shares may be suspended. Such limitations must be considered significant.

To review the specific liquidity terms of each Fund, investors should review the Fund’s respective offering documents.

SCHEDULE OF EXHIBITS

ITEM 12

INVESTMENT OR BROKERAGE DISCLOSURE

As noted previously, OCM has full discretionary authority to manage the Funds, including authority to make decisions with respect to which securities are bought and sold, the amount and price of those securities, the brokers or dealers to be used for a particular transaction, and commissions or markups and markdowns paid. OCM's authority in this regard is limited by its own internal policies and procedures and each Fund's investment guidelines and, in the case of OCFLO, in accordance with the indenture between OCFLO and the trustee.

In selecting an appropriate broker-dealer to effect a client trade, OCM seeks to obtain best execution, taking relevant factors into consideration, including, but not limited to: price quotes, the size of the transaction, the nature of the market for the security, the timing of the transaction; difficulty of execution; the broker-dealer's expertise in the specific security or sector in which the client wants to trade; the extent to which the broker-dealer makes a market in the security involved or has access to such markets; availability of accurate information regarding the market for the security; the broker-dealer's skill in positioning the securities involved; the broker-dealer's propensity of execution; the broker-dealer's financial stability; adequacy of the broker-dealer's trading infrastructure, technology and capital; the broker-dealer's reputation for diligence, fairness and integrity; quality of service rendered by the broker-dealer in other transactions for OCM; the broker-dealer's reputation for diligence, fairness and integrity, quality of service rendered by the broker-dealer in other transactions for OCM; the quality and usefulness of research services and investment ideas generated by the broker-dealer; the broker-dealer's ability and willingness to commit resources; the broker-dealer's ability to accommodate any special execution or underwriting requirements that may be the concern of a particular transaction; and other factors affecting the services obtained. OCM need not restrict competitive bids and does not have an obligation to seek the lowest possible commission rate or spread. OCM maintains policies and procedures to review the quality of executions, including periodic reviews by its investment professionals.

SELF-DEALER DISCUSSION

From time to time, OCM may pay a broker-dealer commissions (or markups or markdowns with respect to certain types of trades) in connection with transactions involving the brokerage and research services provided by the broker-dealer. OCM may offset such commissions, and receive such brokerage and research services, only in the event that they fall within the same basket provided for in Section 29(a) of the Securities Exchange Act of 1934 and subject to prevailing interpretations of Section 29(a) provided by the SEC. OCM believes it is important to its investment decision-making processes to have access to independent research.

If OCM concludes that the compensation charged by a broker or the spreads applied by a dealer are reasonable in relation to the value of the brokerage and research products or services provided by such broker or dealer, the Funds may pay commissions or be subject to spreads in such broker-dealer in an amount greater than the amount another broker-dealer might charge or apply.

</tr>
</tbody>
</table>

Generally, research services provided by broker-dealers may include information on the company, industries, groups of securities, individual companies, statistical information, accounting and tax law interpretations, political developments, legal developments affecting portfolio securities, technical market action, pricing and appraisal services, credit analysis, risk measurement analysis, performance analysis, and analysis of corporate responsibility issues. Such research services are received primarily in the form of written reports, telephone contacts, and personal meetings with securities analysts. In addition, such research services may be provided in the form of meetings arranged with corporate and industry spokespersons, economists, academicians, and government representatives. In many cases, research services and products provided by the broker-dealer are generated by third parties. Corroborate, Graywolf does not have, and does not anticipate having, any such third-party soft dollar arrangements.

Also, consistent with Section 28(f), research products or services obtained with "soft dollars" generated by one or more Funds may be used by GCM to service one or more other Funds. Nonetheless, GCM believes that such investment information provides the Funds with benefits by supplementing the research otherwise available to the Funds.

On a periodic basis, GCM considers the amount and nature of research and research services provided by broker-dealers, as well as the extent to which each service is relied upon, and attempts to allocate a portion of the brokerage business of its Funds on the basis of that consideration. Broker-dealers sometimes suggest a level of business they would like to receive in return for the various products and services they provide. Actual brokerage business awarded by any broker-dealer may be less than the suggested allocation, but can exceed the suggested level, because total brokerage is allocated on the basis of all the considerations described above. In no case will GCM make binding commitments as to the level of brokerage commissions it will allocate to a broker-dealer, nor will it commit to pay such a level in any future period, if such services are not received. A broker is not excluded from receiving business because it has not been identified as providing research products or services.

GCM may open "average price" accounts with broker-dealers. "Average price" accounts are supported by an average price on the basis of purchases and sales orders placed during the trading day on behalf of the Funds. Other Accounts or affiliates of GCM are combined, and securities bought and sold pursuant to such orders are allocated among such accounts on an average price basis.

Additional Brokerage Considerations

Fees (time to time, GCM may receive over-the-counter trades on an agency basis rather than on a principal basis. In these situations, the broker used by GCM may acquire or dispose of a security through a market-maker (a practice known as "marketmaking"). The transaction may then be subject to both a commission and a markup or markdown. GCM believes that the use of a broker is in such instances is consistent with its duty of determining best execution for the Funds. The use of a broker can provide anonymity in connection with a transaction. In addition, a broker may, in certain cases, have greater expertise or greater ability to connect with brokers acquiring the market and executing a transaction.

GCM has entered into agreements on behalf of its Funds with certain broker-dealers that act as prime brokers and/or clearing agents on behalf of the Funds. The Funds are not committed to continue their relationship with such brokers and custodians, or any minimum period, and GCM, in its discretion, may select other or additional brokers to act as prime broker(s) or custodian(s) for the Funds.

Goldman Sachs & Co. 1 New York Plaza, 44th Floor, NY, NY 10004 serves as the primary prime broker to the Funds and custodians for the Funds’ assets. In addition, Cigna Group Global Markets Inc., 390 Greenwich Street, 1st Floor, NY, NY 10013; BMO Nesbitt Burns Inc. Prime Brokerage Services, 1 First Canadian Place, 36th Floor, Toronto, ON M5X 1S7 Canada, BMO Nesbitt Burns Inc., 390 Greenwich Street, 1st Floor, New York, NY 10013; Morgan Stanley & Co. Incorporated, 1221 Avenue of Americas, New York, New York 10020, and Lehman Brothers Inc., 745 Seventh Avenue, 19th Floor, New York, New York 10151 also serve as custodians to the Funds.

Fees (time to time, GCM’s personnel may speak at conferences and programs for potential investors interested in investing in hedge funds which are sponsored by the Funds’ prime brokers. Through such "capital introduction" events, prospective investors in the Funds have the opportunity to meet with GCM. Neither GCM nor the Funds

</tr>
</tbody>
</table>

Trade Allocation and Investment Policies and Procedures

It is the policy of GCM to allocate investment opportunities for the Funds fairly and equitably. To address trade allocation, GCM has adopted a written "Trade Allocation Policy and Procedure" setting forth general principles of allocation designed to result in the fair and equitable distribution of aggregated investment opportunities among investment advisory accounts.

The Trade Allocation Policy and Procedure is summarized as follows. Before entering an aggregated order, a statement which specifies the Funds that will be participating in each order and how the order will be allocated among those Funds will be noted in the Firm's trade blotter. When the Funds that participate in an aggregated order have different investment programs, the allocation plan will take into account, among other considerations:

(a) whether the risk-return profile of the proposed investment is consistent with the Fund's objectives, whether such objectives are considered (i) solely in the context of the specific investment under consideration or (ii) in the context of the portfolio's overall holdings; (b) the potential for the proposed investment to create an imbalance in the Fund's portfolio; (c) liquidity requirements of the Fund; (d) the potential adverse tax consequences (e.g., Unrealized Losses); and (e) regulatory restrictions that would or could limit a Fund's ability to participate in a proposed investment; (f) the need to re-value the Fund's portfolio; and (g) such other factors considered relevant by GCM. If the aggregated order is filled in its entirety, such order will be allocated among the relevant Funds in accordance with the Allocation Statement.

From time to time, certain underallocated accounts may receive priority allocations consistent with specified terms in the respective client account documents or in connection with trading one or more new products such as CDOs or CLO Fund.

When an aggregated order is filled through multiple trades at different prices on the same day, each participating Fund will receive the average price with transaction costs allocated pro rata based on the size of each Fund's participation in the order (or allocation in the event of a partial fill) as determined by GCM. On occasion, GCM will not be able to purchase or sell all the securities ordered as part of an aggregated order in a single day. If the order is partially filled, it will generally be allocated pro rata in proportion to the size of the orders placed for each Fund based on the Allocation Statement. Notwithstanding the foregoing, if an order is partially filled, it may be allocated on a basis different from that specified in the Allocation Statement, provided that all Funds receive fair and equitable treatment. Reasons for allocating on a basis different from that specified in the Allocation Statement include, in addition to the reasons mentioned above, avoiding odd-lots or a de minimis allocation to one or more Funds.

On occasion, transactions for the same instrument may be placed for different Funds at different times on the same day. Subject to GCM's discretion, such trades may not be aggregated and the order filled that will be given priority.

Trade Errors

GCM may incur occasional errors with respect to trades executed on behalf of its clients. Trade errors can result from a variety of situations, including, for example, when the wrong security is purchased or sold, or when more or fewer shares were purchased than were intended. In such events, GCM will endeavor to correct trade errors promptly and, if necessary, will indemnify clients on an equitable basis. Any gains resulting from a trade error shall be for the benefit of the affected Funds. To the extent trade errors result from GCM's own errors, the client will be indemnified.

#### Miscellaneous

**Proxy Voting Policies and Procedures**

The Securities and Exchange Commission adopted Rule 22e-4 under the Advisers Act, which requires registered investment advisers that exercise voting authority over client securities to implement proxy voting policies. In compliance with such rules, GCM has adopted proxy voting policies and procedures (the “Policies”).

The general policy is to vote proxy proposals, amendments, consent or rejection relating to client accounts, including interests in private investment funds, if any (collectively, “proposals”), in a manner that serves the best interests of the Fund, as determined by GCM in its discretion, taking into account the following factors: (i) the impact on the value of the investments, (ii) the anticipated associated costs and benefits, (iii) the continued or increased availability of portfolio information, and (iv) industry and business practices. In limited circumstances, GCM may refrain from voting proxies where GCM believes that voting would be imprudent taking into consideration the cost of voting the proxy and the anticipated benefits to the Fund. Finally, GCM has adopted detailed procedures to address potential circumstances in which it may have a conflict between its own interests and those of the Fund. A copy of the Policies and information regarding any proxies actually voted by GCM may be obtained by contacting the Chief Compliance Officer, Greywolf Capital Management LP, 4 Merchantville Road Suite 201, Piscataway, New Jersey 08857.

#### Class Action Lawsuits

From time to time, GCM may receive notices regarding class action lawsuits involving securities that are or were held by the Funds. As a matter of policy, GCM’s clients may not file any class action litigation and also refrain from submitting proofs of claim when GCM believes that other law firms are likely to be retained by GCM. In such cases, GCM will have to accept confidential treatment of the data submitted in connection with the proof of claim. As a result, GCM, in most cases, does not participate in class action lawsuits.

OFFERING CIRCULAR

Goldman, Sachs & Co.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021825582
IMPORTANT NOTICE

Attached is an electronic copy of the Confidential Offering Circular (the “Offering Circular”), dated March 16, 2007, relating to the offering by Anderson Mezzanine Funding 2007-1, Ltd (the “Issuer”) and Anderson Mezzanine Funding 2007-1, Corp. (the “Co-Issuer” and, together with the Issuer, the “Issuers”) of the Notes described therein.

No registration statement relating to these securities has been filed with the Securities and Exchange Commission. These securities are being offered pursuant to an exemption from the registration requirements of the United States Securities Act of 1933, as amended. This Offering Circular is confidential and will not constitute an offer to sell or the solicitation of an offer to buy, nor will there be any sale of these securities in any jurisdiction where such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any jurisdiction.

No purchase of these securities may be made except pursuant to the Offering Circular. This Offering Circular may be transmitted electronically, but each investor in the securities should receive a printed version thereof prior to purchase. If you do not receive a printed version of this Offering Circular, please contact your Initial Purchaser representative at the address provided herein.

Distribution of this electronic transmission of the Offering Circular to any person other than (a) the person receiving this electronic transmission from the Initial Purchaser on behalf of the Issuer and/or the Co-Issuer and (b) any person retained to advise the person receiving this electronic transmission with respect to the offering contemplated by the Offering Circular (each, an “Authorized Recipient”) is unauthorized. Any photocopying, disclosure or alteration of the contents of the Offering Circular, and any forwarding of a copy of the Offering Circular or any portion thereof by electronic mail or any other means to any person other than an Authorized Recipient, is prohibited. By accepting delivery of this Offering Circular, each recipient agrees to the foregoing.

Secured primarily by (i) the Collateral and (ii) the Lender’s rights under the Credit Default Swap referencing a portfolio of Residential Mortgage-Backed Securities and CDO RMBS Securities.

The Second Lien Note (as defined herein) and the Junior Notes (as defined herein) (collectively, the “Officer Notes”) are being offered hereby by Goldman, Sachs & Co. to the United States as qualified institutional buyers as defined in Rule 144A under the United States Securities Act of 1933, as amended (“Securities Act”), in reliance on Rule 144A, under the Securities Act, and, to the extent of the Officer Notes, as “exempted persons” as defined in Rule 144A under the Securities Act who are not “affiliates” of such third and who are not “persons” under the Securities Act for whom an exemption from registration under the Securities Act is available. The Officer Notes are being offered hereby to a United States as a qualified institutional buyer in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act.

See “Risk Factors” for a discussion of certain factors to be considered in connection with an investment in the Notes.

It is the intention of the Issuer that the Class A-1 Notes, the Class A-1A Notes, the Class A-2 Notes, the Class A-3 Notes and the Class A-4 Notes are issued with a rating of “BB+” by Moody’s Investors Service, Inc. (“Moody’s”), an “A2” rating by Fitch Ratings, Inc. (“Fitch”) and a “BBB” rating by Standard & Poor’s Rating Service, a division of The McGraw-Hill Companies (“S&P”). The Moody’s, Fitch and S&P ratings were assigned due to the fact that the Issuer (i) had a rating of “BB+” by Moody’s, (ii) had a rating of “A2” by Fitch and (iii) had a rating of “BBB” by S&P.

The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act.

The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act. The Officer Notes are being offered hereby in reliance on the exemption from the registration requirements of the Securities Act (i) under Rule 144A and (ii) with respect to the Officer Notes not being “affiliated persons” under the Securities Act.

Goldman, Sachs & Co.

Confidential Treatment Requested by Goldman Sachs
GS MBS-E-000912575
Anderson Mezzanine Funding 2007-1, Ltd., an exempted company incorporated with limited liability under the laws of the Cayman Islands (the "Issuer"), and Anderson Mezzanine Funding 2007-1 Coop, a Delaware corporation (the "Co-Issuer" and, together with the Issuer, the "Issuers"), will issue U.S.$1,000,000 principal amount of Class A-1a Floating Rate Notes Due 2013 (the "Class A-1a Notes"), U.S.$150,000,000 principal amount of Class A-1b Floating Rate Notes Due 2014 (the "Class A-1b Notes"), U.S.$5,000,000 principal amount of Class A-2a Floating Rate Notes Due 2014 (the "Class A-2a Notes"), U.S.$30,500,000 principal amount of Class A-2b Floating Rate Notes Due 2014 (the "Class A-2b Notes") and, together with the Class A-1a Notes, the Class A-1b Notes, and the Class A-2a Notes, the Class A Notes, U.S.$12,000,000 principal amount of Class B Floating Rate Notes Due 2014 (the "Class B Notes"), U.S.$16,775,000 principal amount of Class C Deferrable Floating Rate Notes Due 2014 (the "Class C Notes") and U.S.$11,090,000 principal amount of Class D Deferrable Floating Rate Notes Due 2014 (the "Class D Notes"), and, together with the Class B Notes, Class A Notes, Class C Notes and the Class D Notes, the "Bearer Notes" or the "Secured Notes" pursuant to an Indenture (the "Indenture") dated on or about March 20, 2007 among the Issuers and LaSalle Bank National Association, as trustee and securities intermediary (in such capacity, the "Trustee" and the "Securities Intermediary," respectively).

In addition, the Issuer will issue U.S.$10,055,000 principal amount of Income Notes Due 2017 (the "Income Notes" and, together with the Secured Notes, the "Notes") pursuant to a Fiscal Agency Agreement dated on or about March 20, 2007 (the "Fiscal Agency Agreement") between the Issuer and LaSalle Bank National Association, as fiscal agent (in each capacity, the "Fiscal Agent").

The net proceeds received from the offering of the Notes will be applied by the Issuer to purchase the initial Collateral Securities (as defined herein) and certain Eligible Investments (as defined herein) selected by the Credit Protection Buyer (as defined herein). The Collateral Securities and Eligible Investments (collectively, the "Collateral"), together with the Delivered Obligations (as defined herein), if any, delivered to the Issuer will secure the Issuer’s obligations under a defeasance transaction (the "Credit Default Swap") to be entered into on the Closing Date by the Issuer and Goldman Sachs International (in such capacity, the "Credit Protection Buyer") pursuant to which the Issuer (in such capacity, the "Credit Protection Seller") will sell credit protection to the Credit Protection Buyer with respect to a portfolio of Reference Obligations (as defined herein) consisting of Residential Mortgage-Backed Securities (as defined herein) and CDO KMBS Securities (as defined herein). Certain summary information about the Reference Portfolio is set forth in Appendix 1 to this Offering Circular. The Collateral Securities, the Eligible Investments, the Delivered Obligations, the Issuer’s rights under the Indenture Agreement and certain other assets of the Issuer (collectively, the "Pledged Assets") will be pledged under the Indenture to the Trustee, for the benefit of the Senior Parties (as defined herein), as security for, among other obligations, the Issuer’s obligations under the Secured Notes and to certain service providers.

The Income Notes will be unsecured obligations of the Issuer.

Interest will be payable on the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes in arrears on the 15th day of each calendar month, or if any such date is not a Business Day, on the immediately following Business Day (each date, a "Monthly Payment Date") commencing July 12, 2007. The Class B Notes will bear interest at a per annum rate equal to LIBOR (as defined herein) plus 0.20% for each Interest Accrual Period (as defined herein). The Class A-1b Notes will bear interest at a per annum rate equal to LIBOR plus 0.33% for each Interest Accrual Period. The Class A-1b Notes will bear interest at a per annum rate equal to LIBOR plus 0.37% for each Interest Accrual Period. The Class A-2b Notes will bear interest at a per annum rate equal to LIBOR plus 1.37% for each Interest Accrual Period. The Class C Notes will bear interest at a per annum rate equal to LIBOR plus 1.37% for each Interest Accrual Period. The Class D Notes will bear interest at a per annum rate equal to LIBOR plus 1.50% for each Interest Accrual Period. Payments will be made on the Income Notes on the 15th day of each January, April, July and October of each year, or if any such day is not a Business Day, the immediately following Business Day (each such date, a "Quarterly Payment Date") commencing July 12, 2007, to the contumt accounts are available, as described herein. "Payment Date" means (i) with respect to each Class of Notes other than the Income Notes, each Monthly Payment Date, and (ii) with respect to the Income Notes, each Quarterly Payment Date.

All payments on the Notes will be made from Proceeds available in accordance with the Priority of Payments. On each Payment Date, except as otherwise provided in the Priority of Payments, payments on the Class 2

Confidential Treatment Requested by Goldman Sachs

OS MBS-E-000912576
5 Notes will be senior to payments on the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Income Notes; payments on the Class A Notes will be made in accordance with the Priority of Payments either pro rata or sequentially and will be senior to payments on the Class B Notes, the Class C Notes, the Class D Notes and the Income Notes; payments on the Class B Notes will be senior to payments on the Class C Notes, the Class D Notes and the Income Notes; and payments on the Class C Notes will be senior to payments on the Class D Notes and the Income Notes, and payments on the Class D Notes will be senior to payments on the Income Notes, in each case in accordance with the Priority of Payments as described herein. Certain of the Secured Notes (other than the Class S Notes) are subject to mandatory redemption and are subject to redemption, in whole or in part, if a Conversion Test is not satisfied on any date of determination which may result in variations in the order of distributions described above and as more fully described in the Priority of Payments.

The Notes are subject to redemption, in each case, in whole and not in part, (i) at any time as a result of a Tax Redemption (as defined herein), (ii) on an Auction Payment Date (as defined herein) as a result of a successful Auction (as defined herein) or (iii) as a result of an Optional Redemption (as defined herein) on or after the July 2010 Payment Date. The stated maturity of the Notes (other than the Class S Notes) is the Payment Date in July 2042. The actual final distribution on the Notes (other than the Class S Notes) is expected to occur substantially earlier. The stated maturity of the Class S Notes is the Payment Date in July 2033. See "Risk Factors—Notes—Average Lives, Duration and Prepayment Considerations."

The Notes (other than the Income Notes) sold in reliance on Rule 144A under the Securities Act ("Rule 144A") will be evidenced by one or more global notes (the "Rule 144A Global Notes") in fully registered form without coupon, deposited with a custodian, and registered in the name of, a nominee of The Depository Trust Company ("DTC"). Beneficial interests in the Rule 144A Global Notes will trade in DTC's Same Day Funds Settlement System, and secondary market trading activity in such interests will therefore settle in immediately available funds. Except as described herein, beneficial interests in the Rule 144A Global Notes will be shown on, and transfers thereof will be effected only through, records maintained by DTC and its direct and indirect participants. The Income Notes sold in reliance on Rule 144A under the Securities Act and, in the case of the Income Notes only, to Accredited Investors who have a net worth of not less than U.S. $10 million, will be evidenced by one or more Definitive Notes in fully registered form.

The Notes that are being offered hereinafter in reliance on the exemption from registration under Regulation S (collectively, the "Regulation S Notes"); and in the case of the Income Notes, the "Regulation S Income Notes") have not been and will not be registered under the Securities Act and neither of the Issuers will be registered under the Investment Company Act. The Regulation S Notes may not be offered or sold within the United States or to U.S. Persons (as defined in Regulation S) unless the purchaser certifies or is deemed to have certified that it is a qualified institutional buyer as defined in Rule 144A (a "Qualified Institutional Buyer") and a "qualified purchaser" (as defined in Section 3(c)(7) of the Investment Company Act) and, in the case of the Income Notes, in the form of an interest in a Rule 144A Global Note or a definitive Income Note, in an amount equal to at least U.S.$25,000,000. See "Description of the Notes" and "Underwriting."

This Offering Circular is confidential and is being furnished to the Issuers in connection with an offering exempt from registration under the Securities Act, solely for the purpose of enabling a prospective investor to consider the purchase of the Offered Notes described herein. The information contained in this Offering Circular has been provided by the Issuers and other sources identified herein, No representation or warranty, express or implied, is made by the Initial Purchaser, the Liquidation Agent, the Credit Protection Buyer, the Trustee, the Note Holders, the Fiscal Agent, the Income Note Trust Transfer Agent, the Paying Agent, the Note Notes Trust Transfer Agent, the Paying Agent, the Note Notes Trust Transfer Agent, together, the "Agents") as to the accuracy or completeness of such information, and nothing contained in this Offering Circular is, or shall be relied upon as, a promise or representation by the Initial Purchaser, the Trustee, the Liquidation Agent, the Credit Protection Buyer or the Agents. Any reproduction or distribution of this Offering Circular, in whole or in part, and any disclosure of its contents or use of any information herein, for any purpose other than considering an investment in the Offered Notes is prohibited. Each offer or the Offered Notes, by accepting delivery of this Offering Circular, agrees to the foregoing.

THE NOTES OFFERED HEREBY HAVE NOT BEEN RECOMMENDED BY ANY UNITED STATES FEDERAL OR STATE SECURITIES COMMISSION OR REGULATORY AUTHORITY.

Confidential Treatment Requested by Goldman Sachs
FURTHERMORE, THE FOREGOING AUTHORITIES HAVE NOT CONFIRMED THE ACCURACY OR DETERMINED THE ADEQUACY OF THIS DOCUMENT. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The distribution of this Offering Circular and the offering and sale of the Offered Notes in certain jurisdictions may be restricted by law. The Issuers and the Initial Purchaser reserve persons into whose possession this Offering Circular comes to inform themselves about and to observe any such restrictions. For a further description of certain restrictions on offering and sales of the Offered Notes, see "Underwriting." This Offering Circular does not constitute an offer of, or an invitation to purchase, any of the Offered Notes in any jurisdiction in which such offer or invitation would be unlawful.

NOTICE TO NEW HAMPSHIRE RESIDENTS

NEITHER THE FACT THAT A REGISTRATION STATEMENT OR AN APPLICATION FOR A LICENSE HAS BEEN FILED UNDER CHAPTER 421-B OF THE NEW HAMPSHIRE REVISED STATUTES ANNOTATED ("RSA 421-B") WITH THE STATE OF NEW HAMPSHIRE NOR THE FACT THAT A SECURITY IS EFFECTIVELY REGISTERED OR A PERSON IS LICENSED IN THE STATE OF NEW HAMPSHIRE CONSTITUTES A FINDING BY THE SECRETARY OF STATE OF NEW HAMPSHIRE THAT ANY DOCUMENT FILED UNDER RSA 421-B IS TRUE, COMPLETE AND NOT MISLEADING. NEITHER ANY SUCH FACT NOR THE FACT THAT AN EXEMPTION OR EXCEPTION IS AVAILABLE FOR A SECURITY OR A TRANSACTION MEANS THAT THE SECRETARY OF STATE HAS PASSED IN ANY WAY UPON THE MERITS OR QUALIFICATIONS OF, OR RECOMMENDED OR GIVEN APPROVAL TO, ANY PERSON, SECURITY, OR TRANSACTION. IT IS UNLAWFUL TO MAKE, OR CAUSE TO BE MADE, TO ANY PROSPECTIVE PURCHASER, CUSTOMER OR CLIENT ANY REPRESENTATION INCONSISTENT WITH THE PROVISIONS OF THIS PARAGRAPH.

No invitation may be made to the public in the Cayman Islands to subscribe for the Notes.

NOTICE TO RESIDENTS OF THE REPUBLIC OF IRELAND

THIS OFFERING CIRCULAR IS NOT A PROSPECTUS AND DOES NOT CONSTITUTE AN INVITATION TO THE PUBLIC TO PURCHASE OR SUBSCRIBE FOR ANY SECURITIES AND NEITHER NOR ANY FORM OF APPLICATION WILL BE ISSUED, CIRCULATED OR DISTRIBUTED TO THE PUBLIC.

THIS OFFERING CIRCULAR AND THE INFORMATION CONTAINED HEREIN IS CONFIDENTIAL AND IS FOR THE USE SOLELY OF THE PERSON TO WHOM IT IS ADDRESSED. ACCORDINGLY, IT MAY NOT BE REPRODUCED IN WHOLE OR IN PART, NOR MAY ITS CONTENTS BE DISTRIBUTED IN WRITING OR ORALLY TO ANY THIRD PARTY AND IT MAY BE READ SOLELY BY THE PERSON TO WHOM IT IS ADDRESSED AND HIS/HER PROFESSIONAL ADVISERS.

In this Offering Circular, references to "U.S. Dollar," "$" and "U.S." are to United States dollars.

The Issuers having made all reasonable inquiries, confirm that the information contained in this Offering Circular is true and correct in all material respects and is not misleading, that the opinions and intentions expressed in this Offering Circular are honestly held and that there are no other facts the omission of which would make any such information or the expression of any such opinions or intentions misleading and, as applicable, take responsibility accordingly.

No person has been authorized to give any information or to make any representation other than those contained in this Offering Circular, and, if given or made, such information or representation must not be relied upon as having been authorized. This Offering Circular does not constitute an offer to sell or the solicitation of an offer to buy any securities other than the securities to which it relates, or an offer to sell or the solicitation of an offer to buy such securities by any person in any circumstances in which such offer or solicitation is unlawful. Neither the delivery of this Offering Circular nor any sale hereunder shall, under any circumstances, create any implication that the information contained herein is current as of any time subsequent to the date of this Offering Circular.

NOTWITHSTANDING ANYTHING TO THE CONTRARY CONTAINED HEREIN, A PROSPECTIVE INVESTOR (AND EACH EMPLOYEE, REPRESENTATIVE, OR OTHER AGENT OF A PROSPECTIVE INVESTOR) MAY DISCLOSE TO ANY AND ALL PERSONS, WITHOUT LIMITATION OF ANY KIND, THE TAX TREATMENT AND TAX STRUCTURE OF THE TRANSACTIONS DISCUSSED IN THIS OFFERING CIRCULAR AND ALL MATERIALS OF ANY KIND THAT ARE PROVIDED TO THE PROSPECTIVE INVESTOR RELATING TO SUCH TAX TREATMENT AND TAX STRUCTURE (AS SUCH TERMS ARE DEFINED IN TREASURY REGULATION SECTION 1.6011-4). THIS AUTHORIZATION OF TAX DISCLOSURE IS RETROACTIVELY EFFECTIVE TO THE COMMENCEMENT OF DISCUSSIONS WITH PROSPECTIVE INVESTORS REGARDING THE TRANSACTIONS CONTEMPLATED HEREIN.

PROSPECTIVE INVESTORS SHOULD READ THIS OFFERING CIRCULAR CAREFULLY BEFORE DECIDING WHETHER TO INVEST IN THE SECURITIES AND SHOULD PAY PARTICULAR ATTENTION TO THE INFORMATION SET FORTH UNDER THE HEADING "RISK FACTORS." INVESTMENT IN THE SECURITIES IS SPECULATIVE AND INVOLVES SIGNIFICANT RISK. INVESTORS SHOULD UNDERSTAND SUCH RISKS AND HAVE THE FINANCIAL ABILITY AND WILLINGNESS TO ACCEPT THEM FOR AN EXTENDED PERIOD OF TIME.
NOTICE TO INVESTORS

Because of the following restrictions, purchasers are advised to consult legal counsel prior to making any offer, resale, pledge or other transfer of the Notes.

Each purchaser who has purchased Class S Notes, Class A Notes, Class B Notes, Class C Notes, Class D Notes and Regulation S Income Notes, will be deemed to have represented and agreed, and each purchaser of Income Notes (other than the Regulation S Income Notes) will be required to represent and agree, in each case with respect to such Notes, as follows (unless used herein that are defined in Rule 14A or Regulation S are used herein as defined thereto):

1. (a) In the case of Secured Notes sold in reliance on Rule 14A (the "Rule 14A Notes"), the purchaser of each Rule 14A Note (i) is a qualified institutional buyer (as defined in Rule 14A) (a "Qualified Institutional Buyer"), (ii) is aware that the sale of Secured Notes to it is being made in reliance on Rule 14A, (iii) is acquiring the Rule 14A Notes for its own account or for the account of a Qualified Institutional Buyer as to which the purchaser exercises sole investment discretion, and in which the purchaser exercises sole investment discretion, and to a principal amount of not less than $5,000,000 and (iv) will provide notice of the transfer restrictions described in this "Notice to Investors" to any subsequent transferee.

(b) In the case of the Income Notes (other than the Regulation S Income Notes), the purchaser of each Income Note (i) is a Qualified Institutional Buyer, (ii) is aware that the sale of the Income Notes to it is being made in reliance on Rule 14A, (iii) is acquiring the Income Notes for its own account or for the account of a Qualified Institutional Buyer as to which the purchaser exercises sole investment discretion, and, unless otherwise permitted by the Fiscal Agency Agreement purchasing a principal amount of not less than $500,000 for the purchaser and for each such account and (iv) will provide notice of the transfer restrictions described in this "Notice to Investors" to any subsequent transferee, or, if the purchaser is not a Qualified Institutional Buyer, such purchaser (v) is a person who is an "accredited investor" (as defined in Rule 501(a) under the Securities Act) (an "Accredited Investor") who has a net worth of not less than U.S.$10 million that is purchasing the Income Notes for its own account, (vi) is not acquiring the Income Notes with a view to any resale or distribution thereof, other than in accordance with the restrictions set forth below, (vii) is purchasing a principal amount of net less than $100,000 (unless otherwise permitted by the Fiscal Agency Agreement) and (viii) will provide notice of the transfer restrictions described in the "Notice to investors" to any subsequent transferee.

2. The purchaser understands that the Notes have not been and will not be registered or qualified under the Securities Act or any applicable state securities laws or the securities laws of any other jurisdiction, are being offered only in a transaction not involving any public offering, and may be reoffered, resold or pledged or otherwise transferred only (A) to a person who the purchaser reasonably believes is a Qualified Institutional Buyer and who is purchasing for its own account or for the account of a Qualified Institutional Buyer as to which the purchaser exercises sole investment discretion in a transaction meeting the requirements of Rule 14A, (B) to a non-U.S. person in an offshore transaction complying with Rule 902 or Rule 904 of Regulation S or (C) solely in the case of the Income Notes, to an Accredited Investor who has a net worth of not less than U.S.$10 million, and, in each case, who shall have satisfied, and in the case of Income Notes (other than the Regulation S Income Notes) shall have represented, warranted, covered and agreed, that it will not transfer, or otherwise dispose of any of the Securities, as aforesaid, and shall be deemed to have represented, warranted, covered and agreed that it will continue to comply with, all requirements for transfer of the Notes specified in this Offering Circular, in the case of the Secured Notes, the Indenture, and, in the case of the Income Notes, the Fiscal Agency Agreement, and all other requirements for it to qualify for an exemption from registration under the Securities Act and (B) in accordance with all applicable securities laws of the states of the United States. Before any interest in a Rule 14A Note may be offered, sold, pledged or otherwise transferred to a person who takes delivery in the form of an interest in a Regulation S Global Note, the transfer will be required to provide the Note Transfer Agent with a written certification (in the form provided in the Indenture) as to compliance with the transfer restrictions described herein. Before any interest in an Income Note (other than a Regulation S Income Note) may be offered, sold, pledged or otherwise transferred, the transferee will be required to provide the Issuer, and, in the case of an Income Note, the Income Note Transfer Agent, with a letter substantially in the form attached to this Offering Circular as Annex A-1 (the "Income Note Purchase and Transfer Letter"). The purchaser understands and agrees that any purported transfer of Notes to a person that does not comply with the requirements of this paragraph (2) will, in the case of the Class S Notes, Class A Notes, Class B Notes, Class C Notes, Class D Notes and Regulation S Income Notes, be null and void ab
3. The purchaser of such Notes also understands that neither of the Issuers has been registered under the Investment Company Act. In the case of the Rule 144A Notes and the lacrosse Notes (other than the Regulation S Income Notes) described in paragraph (1) above, the purchaser and each account for which the purchaser is acquiring such Notes is a qualified purchaser for the purposes of Section 3(c)(7) of the Investment Company Act (a "Qualified Purchaser"). The purchaser is acquiring Notes in a principal amount, in the case of Rule 144A Notes and, in the case of Income Notes sold to Accredited Investors, of not less than U.S.$250,000, or, in the case of Notes sold in reliance on Regulation S ("Regulation S Notes"), of not less than U.S.$100,000, in each case for the purchaser and for each such account. The purchaser (or if the purchaser is acquiring Notes for any account, each such account) is acquiring the Notes as principal for its own account for investment and not for resale in connection with any distribution thereof. The purchaser and each such account: (a) was not formed for the specific purpose of investing in the Notes (except when each beneficial owner of the purchaser and each such account is a Qualified Purchaser), (b) to the extent the purchaser is a private investment company formed before April 30, 1996, the purchaser has received the necessary consent from its beneficial owners, (c) is not a pension, profit sharing or other retirement trust fund or plan in which the partners, beneficiaries or participants, as applicable, may designate the particular investments to be made and (d) is not a broker dealer that owns and invests in a discretionary basis less than U.S.$25,000,000 in securities of unlisted interests. Further, the purchaser agrees with respect to itself and each such account: (i) that it shall not hold such Notes for the benefit of any other person and shall be the sole beneficial owner thereof for all purposes and (ii) that it shall not sell participation interests in the Notes or enter into any other arrangement pursuant to which any other person shall be entitled to a beneficial interest in the distributions on the Notes. The purchaser understands and agrees that any purported transfer of Notes to a purchaser that does not comply with the requirements of this paragraph (1) will, in the case of the Class S Notes, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Regulation S Income Notes, be null and void of title, and, in the case of the Income Notes (other than the Regulation S Income Notes), be not permitted or registered by the Income Notes Transfer Agent. The purchaser further understands that the Issuers have the right to compel any beneficial owner of Notes that is a U.S. Person and is not a Qualified Purchaser to sell its interest in such Notes, or the Issuers may sell such Notes on behalf of such owner.

4. (a) With respect to the Class S Notes, Class A Notes, Class B Notes, Class C Notes and Class D Notes, each purchaser will be deemed, by its purchase, to have represented and warranted that either (i) the purchaser is not and will not be an "employee benefit plan" as defined in and subject to Title I of the United States Employee Retirement Income Security Act of 1974, as amended ("ERISA"), or a plan as defined in and subject to Sections 4975 of the United States Internal Revenue Code of 1986, as amended (the "Code"); any entity whose underlying assets include "plan assets" by reason of an employee benefit plan’s or other plan’s investment in the entity, or another employee benefit plan subject to any federal, state, local or foreign law that is substantially similar to the provisions of Section 406 of ERISA, or Section 4975 of the Code ("Similar Law") or (ii) the purchaser’s participation in the Notes does not and will not constitute or result in a prohibited transaction under Section 406 of ERISA or Section 4975 of the Code (or, in the case of such another plan, any Similar Law) for which an exemption is not available. The purchaser understands and agrees that any purported transfer of Notes to a purchaser that does not comply with the requirements of this paragraph (4)(a) shall be null and void ab initio.

(b) With respect to the Income Notes (other than the Regulation S Income Notes) purchased or transferred on or after the Closing Date, the purchaser or transferee must disclose in writing in advance to the Notes Transfer Agent or the Income Notes Trustee as applicable, (i) whether or not it is a (A) an "employee benefit plan" as defined in and subject to Title I of ERISA, (B) a "plan" as defined in and subject to Section 4975 of the Code, or (C) any entity whose underlying assets include "plan assets" within the meaning of ERISA by reason of an employee benefit plan or other plan’s investment in the entity (all such persons and entities described in clauses (A) through (C) being referred to herein as "Benefit Plan Investors"); (i) if the purchaser is a Benefit Plan Investor (or other employee benefit plan subject to Similar Law), then (i) the purchase and holding of the Income Notes will not constitute or result in a prohibited transaction under Section 406 of ERISA or Section 4975 of the Code (or, in the case of another employee benefit plan subject to Similar Law, any Similar Law) for which an exemption is not available;
available or (v) solely in the case of Beneficiary Plan Investors, the purchase and holding of Income Notes is exempt under an identified Prohibited Transaction Class Exemption or individual exemption based on the assumption that less than 25% of the Outstanding Income Notes are owned by Beneficiary Plan Investors; and (iii) whether or not it is the Issuer or any other person (other than a Beneficiary Plan Investor) that has discretionary authority or control with respect to the assets of the Issuer, a person who provides investment advice for a fee (direct or indirect) with respect to the assets of the Issuer, or any "affiliate" (within the meaning of 29 C.F.R. Section 1910.3-1(c)(2)) of any such person ("Controlling Person"). If a purchaser is an insurance company acting on behalf of its general account or another entity deemed to be holding plan assets, it may be required to do so, and to identify a maximum percentage of the assets in such general account or entity that may be or become plan assets, in which case the purchaser will be required to make certain further agreements that would apply in the event that such maximum percentage would thereafter be exceeded. The purchaser agrees that, before any interest in an Income Note (other than a Regulation S Income Note) may be offered, sold, pledged or otherwise transferred, the transferee will be required to provide the Income Note Transfer Agent with an Income Note Purchase and Transfer Letter, as applicable, stating, among other things, whether the transferee is a Beneficiary Plan Investor. The purchaser acknowledges and agrees that no purchase or transfer will be permitted, and the Note Transfer Agent or the Income Notes Transfer Agent, as applicable, will not register any such transfer, to the extent that the purchase or transfer would result in Beneficiary Plan Investor owning 25% or more of the total value of the Outstanding Income Notes immediately after such purchase or transfer (determined in accordance with the Indenture or Fiscal Agency Agreement, as applicable). The foregoing procedures are intended to enable the Income Notes (other than the Regulation S Income Notes) to be purchased or transferred to Beneficiary Plan Investors at any time, although no assurance can be given that they will not be circumstances in which purchases or transfers of Income Notes will be required to be restricted in order to comply with the aforementioned 25% limitation. See "ERISA Considerations."

(c) With respect to the Regulation S Income Notes, each purchaser will be deemed, by its purchase, to have represented and warranted that it is not a Beneficiary Plan Investor or a Controlling Person. Each purchaser also will be deemed, by its purchase, to have represented and warranted that it is an employee benefit plan subject to Section 401 of the Internal Revenue Code and is not a named fiduciary of such plan. Each purchaser also will be deemed, by its purchase, to have represented and warranted that it is not a fiduciary of an employee benefit plan subject to Section 401 of the Internal Revenue Code.

5. The purchaser is not purchasing the Notes with a view toward the resale, distribution or other disposition thereof in violation of the Securities Act. The purchaser understands that an investment in the Notes involves certain risks, including the risk of loss of its entire investment in the Notes under certain circumstances. The purchaser has had access to such financial and other information concerning the Issuer and the Notes as it deemed necessary or appropriate in order to make an informed investment decision with respect to its purchase of the Notes, including an opportunity to ask questions of, and request information from, the Issuer.

6. In connection with the purchase of the Notes: (i) none of the Issuer, the Initial Purchaser, the Liquidation Agent, the Trustees, the Agents, the Administrator or the Share Trustee is acting as a fiduciary or financial or investment advisor for the purchaser; (ii) the purchaser is acting for purposes of making the investment decision or otherwise upon its advice, directly or indirectly; (iii) none of the Issuer, the Initial Purchaser, the Liquidation Agent, the Trustees, the Agents, the Administrator or the Share Trustee is acting for any other person or entity with respect to the Notes; (iv) none of the Issuer, the Initial Purchaser, the Liquidation Agent, the Trustees, the Agents, the Administrator or the Share Trustee is a participant in any underwriting syndicate or group that is participating in the distribution of the Notes; and (v) none of the Issuer, the Initial Purchaser, the Liquidation Agent, the Trustees, the Agents, the Administrator or the Share Trustee is a participant in any underwriting syndicate or group that is participating in the distribution of the Notes or that, directly or indirectly, has engaged in a course of conduct that has imposed on it a fiduciary or other special relationship with any person that has been or will become a security holder in the Notes.

GS MBS-E-000912592
capable of assuming and willing to assume (financially and otherwise) these risks; and (vi) the purchaser is a
sophisticated investor.

7. Pursuant to the terms of the Indenture, unless otherwise determined by the Issuers in accordance
with the Indenture, the Class S Notes, Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes
will bear a legend to the following effect:

THIS NOTE HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES
SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND THE ISSUERS HAVE
NOT BEEN REGISTERED UNDER THE UNITED STATES INVESTMENT COMPANY ACT OF
1940, AS AMENDED (THE "INVESTMENT COMPANY ACT"). THE HOLDER HEREOF, BY
PURCHASING THE NOTES IN RESPECT OF WHICH THIS NOTE HAS BEEN ISSUED, AGREES
FOR THE BENEFIT OF THE ISSUERS THAT THE NOTES MAY BE OFFERED, SOLD, PLEDGED
OR OTHERWISE TRANSFERRED, ONLY (A)(i) TO A PERSON WHOM THE SELLER
REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER AS DEFINED IN RULE
144A UNDER THE SECURITIES ACT THAT IS NOT A BROKER DEALER WHICH OWNS AND
INVESTS ON A DISCRETIONARY BASIS LESS THAN $5 MILLION IN SECURITIES OF ISSUERS
THAT ARE NOT AFFILIATED PERSONS OF THE INITIAL PURCHASER AND IS NOT A PLAN
REFERRED TO IN PARAGRAPH (b)(1)(i) OR (b)(1)(ii) OF RULE 144A OR A TRUST FUND
REFERRED TO IN PARAGRAPHS (b)(1)(i) OR (b)(1)(ii) OF RULE 144A THAT HOLDS THE ASSETS OF SUCH
A PLAN, IF INVESTMENT DECISIONS WITH RESPECT TO THE PLAN ARE MADE BY THE
BENEFICIARIES OF THE PLAN, PURCHASING FOR ITS OWN ACCOUNT OR FOR THE
ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER, IN A TRANSACTION MEETING THE
REQUIREMENTS OF RULE 144A UNDER THE SECURITIES ACT OR (B) TO A NON-U.S. PERSON
IN AN OFFSHORE TRANSACTION COMPLYING WITH RULE 901 OR RULE 904 OF
REGULATION S UNDER THE SECURITIES ACT AND, IN THE CASE OF CLAUSE (i), IN A
PRINCIPAL AMOUNT OF NOT LESS THAN $50,000 OR IN THE CASE OF CLAUSE (ii) IN A
PRINCIPAL AMOUNT OF NOT LESS THAN $100,000, FOR THE PURCHASER AND FOR EACH
ACCOUNT FOR WHICH IT IS ACQUIRING, TO A PURCHASER THAT, OTHER THAN IN THE CASE
OF CLAUSE (i), (A) IS A QUALIFIED PURCHASER FOR PURPOSES OF SECTION 4(A)(1) OF THE
INVESTMENT COMPANY ACT, (B) WAS NOT FORMED FOR THE PURPOSE OF INVESTING IN
THE ISSUER (EXCEPT WHEN EACH BENEFICIAL OWNER OF THE PURCHASER IS A
QUALIFIED PURCHASER), (C) HAS RECEIVED THE NECESSARY CONSENT FROM ITS
BENEFICIAL OWNERS WHEN THE PURCHASER IS A PRIVATE INVESTMENT COMPANY
FORMED BEFORE APRIL 19, 1996, (D) IS NOT A BROKER DEALER THAT OWNS AND INVESTS
ON A DISCRETIONARY BASIS LESS THAN $50,000,000 IN SECURITIES OF UNAFFILIATED
ISSUERS AND (E) IS NOT A PENSION, PROFIT-ShARING OR OTHER RETIREMENT TRUST
FUND OR PLAN IN WHICH THE PARTNERS, BENEFICIARIES OR PARTICIPANTS, AS
APPLICABLE, MAY DESIGNATE THE PARTICULAR INVESTMENTS TO BE MADE, AND IN A
TRANSACTION THAT MAY BE EFFECTED WITHOUT LOSS OF ANY APPLICABLE
INVESTMENT COMPANY ACT EXEMPTION AND (iii) IN ACCORDANCE WITH ALL
APPLICABLE SECURITIES LAWS OF THE STATES OF THE UNITED STATES. EACH HOLDER
HEREOF SHALL BE DEEMED TO MAKE THE REPRESENTATIONS AND AGREEMENTS SET
FORTH IN THE INDIKURE (AS DEFINED HEREIN), ANY TRANSFER IN VIOLATION OF
THE FOREGOING WILL BE OF NO FORCE AND EFFECT, WILL BE NULL AND VOID AB INITIO
AND WILL NOT OPERATE TO TRANSFER ANY RIGHTS TO THE TRANSFEREE.
NOTWITHSTANDING ANY INSTRUCTIONS TO THE CONTRARY TO THE ISSUERS, THE NOTE
TRANSFER AGENT OR ANY INTERMEDIARY, EACH TRANSFEROR OF THIS NOTE WILL
PROVIDE A COPY OF THE TRANSFER RESTRICTIONS SET FORTH HEREIN AND IN THE
INDENTURE TO ITS TRANSFEREE. IN ADDITION TO THE FOREGOING, THE ISSUERS
HAVE THE RIGHT UNDER THIS INDENTURE (AS DEFINED HEREIN), TO COMPLY ANY BENEFICIAL
OWNER OF AN INTEREST IN A RULE 144A GLOBAL NOTE (AS DEFINED IN THE INDENTURE)
THAT IS A U.S. PERSON AND IS NOT BOTH A QUALIFIED PURCHASER AND A QUALIFIED
INSTITUTIONAL BUYER TO SELL ITS INTEREST IN THE NOTES, OR MAY SELL SUCH
INTERESTS ON BEHALF OF SUCH OWNER.

THE HOLDER HEREOF, BY PURCHASING THE NOTES IN RESPECT OF WHICH THIS NOTE HAS BEEN ISSUED, AGREES FOR THE BENEFIT OF THE ISSUERS THAT EITHER (I) THE HOLDER IS NOT AND WILL NOT BE AN EMPLOYEE BENEFIT PLAN AS DEFINED IN AND SUBJECT TO TITLE I OF THE UNITED STATES EMPLOYEES RETIREMENT INCOME SECURITY ACT OF 1974, AS AMENDED (“ERISA”), A PLAN DEFINED IN AND SUBJECT TO SECTION 4975 OF THE UNITED STATES INTERNAL REVENUE CODE OF 1986, AS AMENDED (THE “CODE”), OR ANY ENTITY WHOSE UNDERLYING ASSETS INCLUDE “PLAN ASSETS” BY REASON OF ANY SUCH EMPLOYEE BENEFIT PLAN’S OR OTHER PLAN’S INVESTMENT IN THE ENTITY, OR ANOTHER EMPLOYEE BENEFIT PLAN SUBJECT TO ANY FEDERAL, STATE, LOCAL OR FOREIGN LAW THAT IS SUBSTANTIALLY SIMILAR TO THE PROVISIONS OF SECTION 409 OF ERISA OR SECTION 4975 OF THE CODE (“SIMILAR LAW”) OR (II) THE HOLDER’S PURCHASE AND HOLDING OF A NOTE DO NOT AND WILL NOT CONSTITUTE OR RESULT IN A PROHIBITED TRANSACTION UNDER SECTION 406 OF ERISA OR SECTION 4975 OF THE CODE (OR, IN THE CASE OF SUCH ANOTHER PLAN, ANY SIMILAR LAW) FOR WHICH AN EXEMPTION IS NOT AVAILABLE. ANY PURPORTED TRANSFER OF A NOTE TO A HOLDER THAT DOES NOT COMPLY WITH THE REQUIREMENTS SET FORTH ABOVE SHALL BE NULL AND VOID AB INITIO.

ANY TRANSFER, PLEDGE OR OTHER USE OF THIS NOTE FOR VALUE OR OTHERWISE BY OR TO ANY PERSON IS WRONGFUL, SINCE THE REGISTERED OWNER HEREOF, Cede & Co., HAS AN INTEREST HEREIN, UNLESS THIS NOTE IS PRESENTED BY AN AUTHORIZED REPRESENTATIVE OF THE DEPOSITORY TRUST COMPANY (“DTC”), NEW YORK, NEW YORK, TO THE ISSUERS OR THEIR AGENT FOR REGISTRATION OF TRANSFER, EXCHANGE OR PAYMENT AND ANY NOTE ISSUED IS REGISTERED IN THE NAME OF Cede & Co. OR OF SUCH OTHER ENTITY AS IS REQUESTED BY AN AUTHORIZED REPRESENTATIVE OF DTC (AND ANY PAYMENT HEREON IS MADE TO Cede & Co.).

TRANSFERS OF THIS NOTE SHALL BE LIMITED TO TRANSFERS IN WHOLE, BUT NOT IN PART, TO NOMINEES OF DTC OR TO A SUCCESSOR THEREOF OR TO SUCH SUCCESSOR’S NOMINEE AND TRANSFERS OF PORTIONS OF THIS NOTE SHALL BE LIMITED TO TRANSFERS MADE IN ACCORDANCE WITH THE RESTRICTIONS SET FORTH IN THE INDENTURE.

PRINCIPAL OF THIS NOTE IS PAYABLE AS SET FORTH HEREIN. ACCORDINGLY, THE OUTSTANDING PRINCIPAL OF THIS NOTE AT ANY TIME MAY BE LESS THAN THE AMOUNT SHOWN ON THE FACE HEREOF. ANY PERSON ACQUIRING THIS NOTE MAY ASK DTC TO CERTIFY THE CURRENT PRINCIPAL AMOUNT BY INQUIRY OF THE NOTE PAYING AGENT.

8. The purchaser acknowledges that it is its interest and that it understands it is the intent of the issuer that, for purposes of U.S. federal income, state and local income and franchise tax and any other income taxes, the issuer will treated as a corporation, the Issued Notes will be treated as indebtedness of the issuer and the income Notes will be treated as equity in the issuer, the purchaser agrees to such treatment and agrees to take no action inconsistent with such treatment.

9. The purchaser understands that the Issuer, the Trustee, the Initial Purchaser, the Liquidation Agent and their counsel will rely upon the accuracy and truth of the foregoing representation, and the purchaser hereby consents to such reliance.

10. Pursuant to the terms of the Fiscal Agency Agreement, unless otherwise determined by the Issuer in accordance with the Fiscal Agency Agreement, the Income Notes sold to non-U.S. Persons in offshore transactions (the “Regulation S Income Notes”) will bear a legend to the following effect:

THE INCOME NOTES ARE THE SUBJECT OF, AND ARE ISSUED SUBJECT TO THE TERMS AND CONDITIONS OF, THE FISCAL AGENCY AGREEMENT, DATED ON OR ABOUT MARCH 20, 2007 (THE “FISCAL AGENCY AGREEMENT”) BY AND BETWEEN THE ISSUER OF THE INCOME

NOTES AND LA SALLE BANK NATIONAL ASSOCIATION, AS FISCAL AGENT. COPIES OF THIS FISCAL AGENCY AGREEMENT MAY BE OBTAINED FROM THE FISCAL AGENT.

THE INCOME NOTES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND THE ISSUER HAS NOT BEEN REGISTERED UNDER THE UNITED STATES INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE "INVESTMENT COMPANY ACT"), THE HOLDER HEREBY, BY PURCHASING THE INCOME NOTES REPRESENTED HEREBY, AGREES FOR THE BENEFIT OF THE ISSUER THAT SUCH INCOME NOTES MAY BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED, ONLY (A) TO A PERSON WHO, WHERE REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT AND IS PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER, IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A UNDER THE SECURITIES ACT, (B) TO AN ACCREDITED INVESTOR (AS DEFINED IN RULE 501A UNDER THE SECURITIES ACT WHO HAS A NET WORTH OF NOT LESS THAN $10,000,000 IN A TRANSACTION EXEMPT FROM REGISTRATION UNDER THE SECURITIES ACT, OR (C) TO A NON-U.S. PERSON IN AN OFFSHORE TRANSACTION COMPLYING WITH RULE 902 OR RULE 904 OF REGULATION S UNDER THE SECURITIES ACT, AND, IN THE CASE OF CLAUSE (B) AND (C) IN A PRINCIPAL AMOUNT OF NOT LESS THAN $50,000 OR IN THE CASE OF CLAUSE (C) IN A PRINCIPAL AMOUNT OF NOT LESS THAN $100,000 FURTHERMORE, THE PURCHASER AND EACH ACCOUNT FOR WHICH IT IS ACTING AS A PURCHASER, OTHER THAN IN THE CASE OF CLAUSE (C) ABOVE, REPRESENTS FOR THE BENEFIT OF THE ISSUER THAT IF (V) IS A QUALIFIED PURCHASER FOR THE PURPOSES OF SECTION 11A(1) OF THE INVESTMENT COMPANY ACT, (W) WAS NOT FORMED FOR THE PURPOSE OF INVESTING IN THE ISSUER (EXCEPT WHEN EACH BENEFICIAL OWNER OF THE PURCHASER IS A QUALIFIED PURCHASER), (X) HAS RECEIVED THE NECESSARY CONSENT FROM ITS BENEFICIAL OWNERS WHEN THE PURCHASER IS A PRIVATE INVESTMENT COMPANY FORMED BEFORE APRIL 30, 1996, (Y) IS NOT A BROKER-DEALER THAT OWNS AND INVESTS ON A DISCRETIONARY BASIS LESS THAN $2,000,000 IN SECURITIES OF UNAFFILIATED ISSUERS AND (Z) IS NOT A PENSION, PROFIT SHARING OR OTHER RETIREMENT TRUST FUND OR PLAN IN WHICH THE PARTNERS, BENEFICIARIES OR PARTICIPANTS, IN EACH CASE AS APPLICABLE, MAY DESIGNATE THE PARTICULAR INVESTMENTS TO BE MADE, AND IN A TRANSACTION THAT MAY BE EFFECTED WITHOUT THE LOSS OF ANY APPLICABLE INVESTMENT COMPANY ACT EXEMPTION AND (B) IN ACCORDANCE WITH ALL APPLICABLE SECURITIES LAWS OF THE STATES OF THE UNITED STATES. ANY PURPORTED TRANSFER IN VIOLATION OF THE FOREGOING WILL NOT BE PERMITTED OR REGISTERED BY THE INCOME NOTES TRANSFER AGENT. EACH TRANSFEROR OF THE INCOME NOTES WILL PROVIDE NOTICE OF THE TRANSFER RESTRICTIONS SET FORTH HEREIN AND IN THE FISCAL AGENCY AGREEMENT, AND EACH TRANSFEREE IN ADDITION TO THE FOREGOING, THE ISSUER HAS THE RIGHT TO COMPULSAR ANY BENEFICIAL OWNER OF AN INCOME NOTE THAT IS A U.S. PERSON AND IS NOT A QUALIFIED PURCHASER AND (E) EITHER A QUALIFIED INSTITUTIONAL BUYER OR AN ACCREDITED INVESTOR WHO HAS A NET WORTH OF NOT LESS THAN $10,000 TO SELL SUCH INCOME NOTES, OR MAY SELL SUCH INCOME NOTES ON BEHALF OF SUCH OWNER.

IF THE TRANSFER OF INCOME NOTES IS TO BE MADE PURSUANT TO CLAUSE (AX) OR (AX) OF THE FOREGOING PARAGRAPH, THE TRANSFEREES OF THE INCOME NOTES WILL BE REQUIRED TO EXECUTE AND DELIVER TO THE ISSUER AND THE FISCAL AGENT AN INCOME NOTES PURCHASE AND TRANSFER CERTIFICATE, SUBSTANTIALLY IN THE FORM ATTACHED TO THE FISCAL AGENCY AGREEMENT, STATING THAT AMONG OTHER THINGS, THE TRANSFEREE IS (A) A QUALIFIED INSTITUTIONAL BUYER AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER, OR (B) AN ACCREDITED INVESTOR (AS DEFINED IN RULE 501A UNDER THE SECURITIES ACT WHO HAS A NET WORTH OF NOT LESS THAN $10,000 AND (Z) A QUALIFIED PURCHASER FOR THE PURPOSES
OF THE INVESTMENT COMPANY ACT AND (2) RECEIVE ONE OR MORE DEFINITIVE INCOME
NOTES.

IF THE TRANSFER OF INCOME NOTES IS TO BE MADE PURSUANT TO CLAUSE (A) OF THE
SECOND PRECEDING PARAGRAPH, THE TRANSFEREE OF THE INCOME NOTES WILL BE
REQUIRED TO DELIVER TO THE ISSUER AND THE FISCAL AGENT AN INCOME NOTES
PURCHASE AND TRANSFER LETTER, SUBSTANTIALLY IN THE FORM ATTACHED TO THE
FISCAL AGENCY AGREEMENT, STATING THAT AMONG OTHER THINGS, THE TRANSFEREE
IS NOT A U.S. PERSON (AS DEFINED IN REGULATION S).

WITH RESPECT TO THE INCOME NOTES PURCHASED OR TRANSFERRED AFTER THE
CLOSING DATE, THE PURCHASER OR TRANSFEREE IS DEEMED TO REPRESENT AND
WARRANT, THAT (i) IT IS NOT (A) AN "EMPLOYEE BENEFIT PLAN" AS DEFINED IN AND
SUBJECT TO TITLE I OF THE UNITED STATES EMPLOYER RETIREMENT INCOME SECURITY
ACT OF 1974, AS AMENDED ("ERISA"), (B) A "PLAN" AS DESCRIBED IN SECTION 4975 OF THE
UNITED STATES INTERNAL REVENUE CODE OF 1986, AS AMENDED (THE "CODE"), OR (C)
AN ENTITY WHOSE ASSETS INCLUDE "PLAN ASSETS" WITHIN THE MEANING OF ERISA BY
REASON OF AN EMPLOYEE BENEFIT PLAN'S OR OTHER PLAN'S INVESTMENT IN THE
ENTITY (ALL SUCH PERSONS AND ENTITIES DESCRIBED IN CLAUSES (A) THROUGH (C)
BEING REFERRED TO HEREIN AS "BENEFIT PLAN INVESTORS"); AND (ii) IT IS NOT A
PERSON WHO HAS DISCRETIONARY AUTHORITY OR CONTROL WITH RESPECT TO THE
ASSETS OF THE ISSUER OR A PERSON WHO PROVIDES INVESTMENT ADVICE FOR A FEE
(DIRECT OR INDIRECT) WITH RESPECT TO THE ASSETS OF THE ISSUER, OR ANY
"AFFILIATE" (WITHIN THE MEANING OF 19 C.F.R. SECTION 251.3-101(c)(1)) OF ANY SUCH
PERSON. IF THE PURCHASER OR TRANSFEREE IS AN EMPLOYEE BENEFIT PLAN SUBJECT
TO ANY FEDERAL, STATE, LOCAL OR FOREIGN LAW THAT IS SUBSTANTIALLY SIMILAR TO
THE PROVISIONS OF SECTION 406 OF ERISA OR SECTION 4975 OF THE CODE ("SIMILAR
LAW"), SUCH PURCHASER OR TRANSFEREE ALSO IS DEEMED TO REPRESENT AND
WARRANT THAT ITS PURCHASE AND HOLDING OF THE INCOME NOTES WILL NOT
CONSTITUTE OR RESULT IN A VIOLATION OF ANY SIMILAR LAW FOR WHICH AN
EXEMPTION IS NOT AVAILABLE. ANY PURCHASED TRANSFER OF AN INCOME NOTE THAT
DOES NOT COMPLY WITH THE REQUIREMENTS SET FORTH ABOVE SHALL BE NULL AND
VOID AB INITIO.

PAYMENTS TO THE HOLDERS OF THE INCOME NOTES ARE SUBORDINATE TO THE
PAYMENT ON EACH QUARTERLY PAYMENT DATE OF PRINCIPAL OF AND INTEREST ON
THE SECURED NOTES OF THE ISSUER OR CO-ISSUER, AS APPLICABLE, AND THE PAYMENT
OF CERTAIN OTHER AMOUNTS, TO THE EXTENT AND AS DESCRIBED IN THE INDENTURE.

11. Pursuant to the terms of the Fiscal Agency Agreement, unless otherwise determined by the Issuer
in accordance with the Fiscal Agency Agreement, the Income Notes (other than the Regulation S Income Notes) will
be subject to the following:

THE INCOME NOTES ARE THE SUBJECT OF, AND ARE ISSUED SUBJECT TO THE TERMS AND
CONDITIONS OF, THE FISCAL AGENCY AGREEMENT, DATED ON OR ABOUT MARCH 20, 2007
(THE "FISCAL AGENCY AGREEMENT") BY AND BETWEEN THE ISSUER OF THE INCOME
NOTES AND LABAG, NATIONAL BANK, AS FISCAL AGENT. COPIES OF THE
FISCAL AGENCY AGREEMENT MAY BE OBTAINED FROM THE FISCAL AGENT.

THE INCOME NOTES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED
STATES SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND THE
NOTES HAVE NOT BEEN REGISTERED UNDER THE UNITED STATES INVESTMENT COMPANY ACT OF
1940, AS AMENDED (THE "INVESTMENT COMPANY ACT"). THE HOLDER HEREBY, BY
PURCHASING THE INCOME NOTES REPRESENTED HEREBY, AGREES FOR THE BENEFIT OF
THE ISSUER THAT SUCH INCOME NOTES MAY BE OFFERED, SOLD, PLEDGED OR
OTHERWISE TRANSFERRED, ONLY (A) TO A PERSON WHOM THE SELLER REASONABLY
Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912587
WITH RESPECT TO THE INCOME NOTES PURCHASED OR TRANSFERRED ON OR AFTER THE CLOSING DATE, THE PURCHASER OR TRANSFEREE MUST DISCLOSE IN WRITING IN ADVANCE TO THE FISCAL AGENT (1) WHETHER OR NOT IT IS (A) AN "EMPLOYEE BENEFIT PLAN" AS DEFINED IN AND SUBJECT TO TITLE I OF THE UNITED STATES EMPLOYER RETIREMENT INCOME SECURITY ACT OF 1974, AS AMENDED ("ERISA"), (B) A "PLAN" DESCRIBED IN AND SUBJECT TO SECTION 4975 OF THE UNITED STATES INTERNAL REVENUE CODE OF 1986, AS AMENDED (THE "CODE"), OR (C) AN ENTITY WHOSE ASSETS INCLUDE "PLAN ASSETS" WITHIN THE MEANING OF ERISA BY REASON OF AN EMPLOYEE BENEFIT PLAN OR OTHER PLAN'S INVESTMENT IN THE ENTITY (ALL SUCH PERSONS AND ENTITIES DISCLOSED IN CLAUSES (A) THROUGH (C) BEING REFERRED TO HEREIN AS "BENEFIT PLAN INVESTORS"); (2) IF THE PURCHASER OR TRANSFEREE IS A BENEFIT PLAN INVESTOR (OR ANOTHER EMPLOYEE BENEFIT PLAN SUBJECT TO ANY FEDERAL, STATE, LOCAL OR FOREIGN LAW THAT IS SUBSTANTIALLY SIMILAR TO THE PROVISIONS OF SECTION 406 OF ERISA OR SECTION 4975 OF THE CODE ("SIMILAR LAW"), THAT THE PURCHASE AND HOLDING OR TRANSFER AND HOLDING OF INCOME NOTES WILL NOT CONSTITUTE OR RESULT IN A PROHIBITED TRANSACTION UNDER SECTION 406 OF ERISA OR SECTION 4975 OF THE CODE (OR IN THE CASE OF ANOTHER EMPLOYEE BENEFIT PLAN SUBJECT TO SIMILAR LAW, ANY SIMILAR LAW) FOR WHICH AN EXEMPTION IS NOT AVAILABLE, AND (3) WHETHER OR NOT IT IS A PERSON (OTHER THAN A BENEFIT PLAN INVESTOR WHO HAS DISCRETIONARY AUTHORITY OR CONTROL WITH RESPECT TO THE ASSETS OF THE ISSUER OR A PERSON WHO PROVIDES INVESTMENT ADVICE FOR A FEE (DIRECT OR INDIRECT) WITH RESPECT TO THE ASSETS OF THE ISSUER, OR ANY "AFFILIATE" (WITHIN THE MEANING OF 29 C.F.R. SECTION 2510.3-10(ii)(3)) OF ANY SUCH PERSON, IF A PURCHASER IS AN INSURANCE COMPANY ACTING ON BEHALF OF ITS GENERAL ACCOUNT OR OTHER ENTITY DESIGNED TO BE HOLDING PLAN ASSETS, IT WILL BE PERMITTED TO SO INDICATE, AND REQUIRED TO IDENTIFY A MAXIMUM PERCENTAGE OF THE ASSETS IN SUCH GENERAL ACCOUNT OR ENTITY THAT MAY BE OR BECOME PLAN ASSETS, IN WHICH CASE THE PURCHASER OR TRANSFEREE WILL BE REQUIRED TO MAKE CERTAIN FURTHER AGREEMENTS THAT WOULD APPLY IN THE EVENT THAT SUCH MAXIMUM PERCENTAGE WOULD THEREAFTER BE EXCEEDED. THE PURCHASER AGREES THAT, BEFORE ANY INTEREST IN AN INCOME NOTE MAY BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED, THE TRANSFEREE WILL BE REQUIRED TO PROVIDE THE INCOME NOTES TRANSFER AGENT WITH AN INCOME NOTE PURCHASE AND TRANSFER LETTER (SUBSTANTIALLY IN THE FORM ATTACHED TO THE FISCAL AGENCY AGREEMENT) STATING, AMONG OTHER THINGS, WHETHER THE TRANSFEREE IS A BENEFIT PLAN INVESTOR, THE TRUSTEE OR INCOME NOTES TRANSFER AGENT WILL NOT PERMIT OR REGISTER ANY PURCHASE OR TRANSFER OF INCOME NOTES TO THE EXTENT THAT THE PURCHASE OR TRANSFER WOULD RESULT IN BENEFIT PLAN INVESTORS OWNING 25% OR MORE OF THE TOTAL VALUE OF THE OUTSTANDING INCOME NOTES (OTHER THAN THE INCOME NOTES OWNED BY THE LIQUIDATION AGENT, THE TRUSTEE AND THEIR AFFILIATES) IMMEDIATELY AFTER SUCH PURCHASE OR TRANSFER (DETERMINED IN ACCORDANCE WITH THE PLAN ASSET REGULATION (AS DEFINED HEREIN) AND IN THE FISCAL AGENCY AGREEMENT).

PAYMENTS TO THE HOLDERS OF THE INCOME NOTES ARE SUBORDINATE TO THE PAYMENT ON EACH QUARTERLY PAYMENT DATE OF PRINCIPAL OF AND INTEREST ON THE SECURED NOTES OF THE ISSUER OR CO-ISSUER, AS APPLICABLE, AND THE PAYMENT OF CERTAIN OTHER AMOUNTS, TO THE EXTENT AND AS DESCRIBED IN THE INDENTURE.

12. The purchaser is not purchasing the Notes in order to reduce any United States federal income tax liability or pursuant to a tax avoidance plan with respect to United States federal income taxes within the meaning of U.S. Treasury Regulation Section 1.881-3(a)(4).

13. The purchaser agrees, in the case of the Secured Notes, to treat the Notes as debt for United States federal, state and local income taxes and, in the case of the Income Notes, to treat such Income Notes as equity for United States federal, state and local income tax purposes.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912588
14. The purchaser acknowledges that due to money laundering requirements operating in the Cayman Islands, the Ionex and the Note Transfer Agent or the Income Notes Transfer Agent, as applicable, may require further identification of the purchaser before the purchase application can proceed. The Ionex and the Note Transfer Agent or the Income Notes Transfer Agent shall be held harmless and indemnified by the purchaser against any loss arising from the failure to process the application if such information has not been provided by the purchaser.

The Notes that are being offered hereby in reliance on the exemption from registration under Regulation S, are “Regulation S Notes” and, collectively, the “Regulation S Notes”, have not been and will not be registered under the Securities Act and neither of the issuers will be registered under the Investment Company Act. The Regulation S Notes may not be offered or sold within the United States or to U.S. Persons (as defined in Regulation S) unless the purchaser certifies or is deemed to have certified that it is a qualified institutional buyer as defined in Rule 144A or a “qualified institutional buyer” and a “qualified purchaser” for the purposes of Section 4(2) of the Investment Company Act or a “qualified purchaser” or, when in the case of the Income Notes, that it is an “accredited investor” as defined in Rule 501(a) under the Securities Act or an “accredited investor” who has a net worth of not less than $10 million and a Qualified Purchaser, and takes delivery in the form of (i) an interest in a Rule 144A Global Note in an amount at least equal to $250,000. See “Description of Notes” and “Underwriting.”

The requirements set forth under “Notice to Investors” above apply only to Notes offered in the United States, except for the requirements set forth in Paragraphs (4), (5), (6), (8), (9), (10) and (11) and except that the Regulation S Notes will bear the legends set forth in Paragraphs (7) and (10) under “Notice to Investors” above.

EACH PURCHASER OF THE NOTES MUST COMPLY WITH ALL APPLICABLE LAWS AND REGULATIONS IN FORCE IN EACH JURISDICTION IN WHICH IT PURCHASES, OFFERS OR SELLS SUCH NOTES OR POSSESS OR Distributes THIS OFFERING CIRCULAR AND MUST OBTAIN ANY CONSENT, APPROVAL OR PERMISSION REQUIRED FOR THE PURCHASE, OFFER OR SALE BY IT OF SUCH NOTES UNDER THE LAWS AND REGULATIONS IN FORCE IN ANY JURISDICTION TO WHICH IT IS SUBJECT OR IN WHICH IT MAKES SUCH PURCHASES, OFFERS OR SALES, AND NONE OF THE ISSUERS, THE INITIAL PURCHASER, THE LIQUIDATION AGENT, THE CREDIT PROTECTION BUYER OR THEIR AGENTS SPECIFIED HEREIN SHALL HAVE ANY RESPONSIBILITY THEREFOR.
AVAILABE INFORMATION

To permit compliance with Rule 144A in connection with the resale of the Notes, the Issuer will be required under the Indenture and the Fiscal Agency Agreement, to furnish upon request to a Holder or beneficial owner of a Note and to a prospective investor who is a Qualified Institutional Buyer designated by such Holder or beneficial owner, the information required to be delivered under Rule 144A under SEC if, at the time of the request under the Indenture, the Co-Issuer, as applicable, is a reporting company under Section 13 or Section 15(d) of the United States Securities Exchange Act of 1934, as amended (the "Exchange Act") or exempt from reporting pursuant to Rule 13f-1(b) under the Exchange Act.

To the extent the Issuer or the Trustee delivers any annual or other periodic report to the Holders of the Secured Notes, the Issuer or the Trustee will include in such report a reminder that (i) each Holder other than those Holders who are not U.S. Persons and have purchased their Notes outside the United States pursuant to Regulation S, is required to be (a) a Qualified Institutional Buyer and (b) a Qualified Purchaser, in each case that can make all of the representations in the Indenture applicable to a Holder that is a U.S. Person, (2) the Notes can only be transferred (i) to a transferee that is (a) a Qualified Institutional Buyer and (b) a Qualified Purchaser that can make all of the representations in the Indenture applicable to a Holder that is a U.S. Person or (ii) to a non-U.S. Person in an offshore transaction complying with Rule 903 or 904 under Regulation S, and (3) the Issuers have the right to compel any Holder who does not meet the transfer restrictions set forth in the Indenture to transfer its interest in the Notes to a person designated by the Issuers or sell such interests on behalf of the Holder.

To the extent the Issuer or the Fiscal Agent delivers any annual or periodic reports to the Holders of the Income Notes, the Issuer or the Fiscal Agent, as applicable, will include in such report a reminder that (i) each Holder other than those Holders who are not U.S. Persons and have purchased their Income Notes outside the United States pursuant to Regulation S is required to be (a) a Qualified Institutional Buyer or an Accredited Investor who has a net worth of not less than U.S.$10 million and (b) a Qualified Purchaser that can make all of the representations in the Income Notes Purchase and Transfer Letter applicable to a Holder that is a U.S. Person, (2) the Income Notes can only be transferred to a transferee that is (a) a Qualified Institutional Buyer or an Accredited Investor who has a net worth of not less than U.S.$10 million and (b) a Qualified Purchaser or (ii) to a non-U.S. Person in an offshore transaction complying with Rule 903 or Rule 904 under Regulation S, and (3) the Issuer has the right to compel any Holder who does not meet the transfer restrictions set forth in the Fiscal Agency Agreement to transfer its Income Notes to a person designated by the Issuer or sell such Income Notes on behalf of the Holder.

In addition, notwithstanding the foregoing, any prospective purchaser (and each employee, representative, or other agent of a prospective purchaser) may disclose to any and all persons, without limitation of any kind (including employees or other tax advisors) that are provided to the prospective purchaser relating to each other transfer and tax structure. This authorization of tax disclosure is notwithstanding the commencement of discussions with the prospective purchaser regarding the transactions contemplated herein.

TRANSACTION OVERVIEW

This overview is not complete and is qualified in its entirety by reference to (i) the detailed information appearing elsewhere in this Offering Circular, (ii) the terms and conditions of the Notes and (iii) the provisions of the documents referred to in this Offering Circular.

1. Credit Default Swap
   - Fixed Payments
   - Credit Protection Payments

2. Interest at the Applicable Note Interest Rate of each Class of Notes
   - Proceeds of the Notes

3. Notes

4. Andromeda Mezzanine Funding 2007-1, Ltd.

5. Net Proceeds
   - Collateral Interest and Certain Principal Amounts and Amounts Applied to Fund Amounts Due under the Credit Default Swap and the Notes

6. Collateral Securities

---

1. On the Closing Date, the Notes will be issued in the aggregate outstanding amount set forth in the Summary—The Notes.

2. The Issuer will pay the net proceeds of the offering of the Notes to purchase the initial Collateral Interest and Eligible Investments selected by the Credit Protection Buyer.

3. On the Closing Date, the Issuer and Goldman Sachs International, as the Credit Protection Buyer, will enter into the Credit Default Swap whereby the Issuer (a) sells credit protection to the Credit Protection Buyer with respect to a Reference Portfolio of RMBS Securities and CMOS Securities and (b) receives from the Credit Protection Buyer (i) a Fixed Payment on each Payment Date and (ii) certain Additional Payments. The Issuer will pay to the Credit Protection Buyer (i) certain Additional Trading Amounts and (ii) following the occurrence of a Credit Event and the satisfaction of the Conditions to Settlement, an amount equal to the Physical Settlement Amount. For a description of all payments to be made under the Credit Default Swap, see "The Credit Default Swap—Credit Protection Buyer Payments" and "Credit Protection Seller Payments."
| FOOTNOTE EXHIBITS - PAGE 5693 |

**SUMMARY**

The following summary is qualified in its entirety by the detailed information appearing elsewhere in this Offering Circular. For definitions of certain terms used in this Offering Circular see "Appendix A — Certain Defined Terms" and for the location of the definitions of those and other terms, see "Index of Defined Terms." For a discussion of certain factors to be considered in connection with an investment in the Notes, see "Risk Factors."

### The Issuers

Anderson Mezzanine Funding 2007-1, Ltd. (the "Issuer") is an exempted company incorporated under the laws of the Cayman Islands for the sole purpose of (i) entering into and performing its obligations under, the Credit Default Swap, (ii) acquiring the Collateral Securities and the Eligible Investments, (iii) entering into and performing its obligations under the Liquidation Agency Agreement, (iv) co-issuing the Co-Issued Notes, (v) issuing Income Notes and (vi) engaging in certain related transactions.

The Issuer will not have any assets other than (i) the Collateral Securities and the Eligible Investments (collectively, the "Collateral"), (ii) the Delivered Obligations, if any, and any principal payments received thereon, if any, delivered to the Issuer, (iii) the Issuer’s rights under the Credit Default Swap and the Liquidation Agency Agreement and (iv) certain other assets that will be pledged by the Issuer to the Trustee under the Indenture (the "Pledged Assets"), for the benefit of the Secured Parties, as security for, among other obligations, the Issuer’s obligations under the Secured Notes.

Anderson Mezzanine Funding 2007-1, Corp. (the "Co-Issuer" and, together with the Issuer, the "Issuers") is a corporation formed under the laws of the State of Delaware for the sole purpose of co-issuing the Secured Notes.

The Co-Issuer will not have any assets (other than U.S.$10 of equity capital) and will not pledge any assets to secure the Secured Notes. The Co-Issuer will have no claim against the Issuer in respect of the Pledged Assets or otherwise.

The authorized share capital of the Issuer consists of 250 ordinary shares, par value U.S.$1.00 per share ("Issuer Ordinary Shares"), which have been issued. The Issuer Ordinary Shares and all of the outstanding common equity of the Co-Issuer will be held by Mapius Finance Limited, a licensed trusts company incorporated in the Cayman Islands (the "Administrator") in the manner pursuant to the terms of a declaration of trust for the benefit of charitable and similar purposes (the "Share Trustee").

1. "Floating Payment" means, with respect to the Senario Notes and any Pay Date, the period commencing on and including the immediately preceding Payment Date (or the Closing Date in the case of the 1st Interest Payment Period) and ending on and including the day immediately preceding each Payment Date.

Confidential Treatment Requested by Goldman Sachs

GS MS/E-000912596
The Indenture

On the Closing Date, the Issuer and the Co-Issuer will co-issue U.S.$2,649,000,000 principal amount of Class S Floating Rate Notes Due 2013 (the “Class S Notes”), U.S.$130,000,000 principal amount of Class A-1a Floating Rate Notes Due 2042 (the “Class A-1a Notes”), U.S.$9,000,000 principal amount of Class A-1b Floating Rate Notes Due 2042 (the “Class A-1b Notes”), and, together with the Class A-1a Notes, the “Class A-1 Notes”), U.S.$50,000,000 principal amount of Class A-2 Floating Rate Notes Due 2042 (the “Class A-2 Notes”) and, together with the Class A-1 Notes, the “Class A Notes”), U.S.$50,000,000 principal amount of Class B Floating Rate Notes Due 2042 (the “Class B Notes”), U.S.$16,775,000 principal amount of Class C Deferrable Floating Rate Notes Due 2042 (the “Class C Notes”) and U.S.$11,990,000 principal amount of Class D Deferrable Floating Rate Notes Due 2042 (the “Class D Notes”) and, together with the Class S Notes, Class A Notes, the Class B Notes and the Class C Notes, the “Co-Issued Notes” or the “Secured Notes”) pursuant to an Indenture (the “Indenture”) dated on or about March 20, 2007, among the Issuers and LaSalle Bank National Association, as trustee and as securities intermediary (in such capacity, the “Trustee” and the “Securities Intermediary”, respectively). Under the Indenture, LaSalle Bank National Association will also act as principal paying agent for the Notes (the “Principal Note Paying Agent”), as registrar (the “Note Registrar”), as calculation agent (the “Note Calculation Agent”), as transfer agent (the “Note Transfer Agent”) and as paying agent for the Notes (the “Note Paying Agent” and, together with the Principal Note Paying Agent, the Note Registrar, the Note Calculation Agent, the Note Transfer Agent and the Note Paying Agent (if any), the “Note Agents”).

The Fiscal Agency Agreement

On the Closing Date, the Issuer will also issue U.S.$20,955,000,000 principal amount of Income Notes Due 2042 (the “Income Notes”) and, together with the Secured Notes, the “Notes”) pursuant to a Fiscal Agency Agreement (the “Fiscal Agency Agreement”) dated on or about the Closing Date between the Issuer and LaSalle Bank National Association, as fiscal agent (in such capacity, the “Fiscal Agent”). The Fiscal Agent will initially be appointed as the Income Notes transfer agent (in such capacity, the “Income Notes Transfer Agent”) and, together with the Fiscal Agent and the Note Agents, the “Agents”) under the Fiscal Agency Agreement. The Note Paying Agent, the Principal Note Paying Agent and any other paying agents appointed from time to time under the Indenture are collectively referred to as the “Paying Agents.” The Note Paying Agents and the Fiscal Agent are collectively referred to as the “Paying Agents.” The Note Transfer Agent and the Income Notes Transfer Agent are collectively referred to as the “Transfer Agents.” The Indenture, the Credit Default Swap, the Liquidation Agency Agreement, the Collateral Administration Agreement, the Administration Agreement and the Fiscal Agency Agreement are collectively referred to as the “Transaction Documents.” Only the Secured Notes and the Income Notes (collectively, the “Offered Notes”) are offered hereby.

Status of the Notes

The Co-Issued Notes will be limited mandate obligations of the Issuer. The Income Notes will be limited mandate obligations of the Issuer, will not be secured obligations of the Issuer and will only be entitled to receive amounts available for payment on an Quarterly Payment Date after payment of all amounts payable prior thereto under the Priority of Payments and only out of funds legally available therefor. Interest on the Class A-1a Notes, Class A-1b Notes and Class A-2 Notes will be paid pro rata. Principal on the Class A-1a Notes and Class A-1b Notes will be paid pro rata.
either pro rata or first to the Class A-1a Notes and second to the Class A-2 Notes depending on the circumstances as more fully described in the Priority of Payments. Principal on the Class A Notes will be paid either pro rata or first to the Class A-1 Notes and second to the Class A-2 Notes depending on the circumstances as more fully described in the Priority of Payments. The Class A Notes will be senior in right of payment on each Payment Date to the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Income Notes, the Class A Notes will be paid in accordance with the Priority of Payments either pro rata or sequentially and the Class A Notes will be senior in right of payment on each Payment Date to the Class B Notes, the Class C Notes, the Class D Notes and the Income Notes; the Class B Notes will be senior in right of payment on each Payment Date to the Class C Notes, the Class D Notes and the Income Notes; the Class C Notes will be senior in right of payment on each Payment Date to the Class D Notes and the Income Notes, and the Class D Notes will be senior in right of payment on each Payment Date to the Income Notes, each to the extent provided in the Priority of Payments. Payments on the Income Notes will be paid on each Quarterly Payment Date solely from and to the extent of the available proceeds from distributions on the Pledged Assets after payment of all of the liabilities of the Issuer that rank ahead of the Income Notes pursuant to the Indenture or applicable law. See “Description of the Notes—Status and Security” and “—Priority of Payments.”

Security for the Secured Notes

Under the terms of the Indenture, the Issuer will grant to the Trustees, for the benefit and security of the Trustee on behalf of the Holders of the Secured Notes, the Fiscal Agent, the Liquidation Agent and the Credit Protection Buyer (together the “Secured Parties”), to secure the Issuer’s obligations under the Secured Notes, the Indenture, the Liquidation Agency Agreement and the Credit Default Swap (the “Secured Obligations”), a first priority security interest in the Pledged Assets. The Income Notes will not be secured.

Use of Proceeds

The net proceeds associated with the offering of the Notes issued on the Closing Date, after the payment of applicable fees and expenses and deposit into the Expense Reserve Account, are expected to equal approximately $305,942,000. The net proceeds will be used by the Issuer to purchase on the Closing Date the Collateral Securities and Rioughe Investments having an aggregate Principal Balance on the Closing Date of approximately $305,942,000. See “The Collateral Securities” and “Use of Proceeds.”

Interest and Other Payments on the Notes

The Secured Notes will accrue interest from the Closing Date and each interest will be payable, on the 15th day of each calendar month, or if any such date is not a Business Day, the immediately following Business Day (each such date, a “Monthly Payment Date”) commencing on July 15, 2007. Payments on the Income Notes will be payable in arrears on January, April, July and October of each year, or if any such date is not a Business Day, immediately following Business Day (each such date, a “Quarterly Payment Date”) commencing on July 15, 2007, out of Income Amounts (as defined below). “Payment Date” means (i) with respect to each Class of Notes other than the Income Notes, each Monthly Payment Date, and (ii) with respect to the Income Notes, each Quarterly Payment Date. All payments on the Notes will be made from Proceeds in accordance with the Priority of Payments.
To the extent interest that is due is not paid on the Class C Notes on any Payment Date ("Class C Deferred Interest"), such unpaid amounts will be added to the principal amount of the Class C Notes, and shall accrue interest at the Class C Note Interest Rate to the extent lawful and enforceable. So long as any Class S Notes, Class A Notes or Class B Notes are outstanding, the failure to pay any interest on the Class C Notes or any Payment Date will not be an Event of Default under the Indenture. To the extent interest that is due is not paid on the Class D Notes on any Payment Date ("Class D Deferred Interest"), such unpaid amounts will be added to the principal amount of the Class D Notes, and shall accrue interest at the Class D Note Interest Rate to the extent lawful and enforceable. So long as any Class S Notes, Class A Notes, Class B Notes or Class C Notes are outstanding, the failure to pay any interest on the Class D Notes or any Payment Date will not be an Event of Default under the Indenture.

See "Description of the Notes—Interest on the Secured Notes" and "—Priority of Payments."

The Income Notes will not bear interest based upon any fixed or floating rate. The Fiscal Agent will make payments to the Holders of the Income Notes out of the Proceeds, if any, available pursuant to clause (vi) on each Quarterly Payment Date (or pursuant to clause (vii) in the case of the Final Payment Date) under "Description of the Notes—Priority of Payments.” Such payments will be made on the Income Notes only after all interest and other payments due on the Secured Notes have been made and all expenses of the Issuers have been paid (with such remaining Proceeds referred to as "Excess Amounts"). See "Risk Factors—Notes—Subordination of the Income Notes; Unsecured Obligations."

Principal Payments

The Notes (other than the Class S Notes) will mature on the Payment Date in July 2041 (each such date the "Stated Maturity" with respect to each Note), and the Class S Notes will mature on the Payment Date in July 2033 (the "Stated Maturity" with respect to the Class S Notes), unless redeemed or retired prior thereto. The average life of the Secured Notes (other than the Class S Notes) is expected to be substantially shorter than the number of years from issuance until Stated Maturity for each Class of Notes. See "Description of the Notes—Principal and "Risk Factors—Notes—Average Lives, Durations and Prepayment Considerations."

Principal will be payable on the Class S Notes in accordance with the Priority of Payments on each Payment Date commencing on the Payment Date occurring in August 2007 in an amount equal to the Class S Notes Amortizing Principal Amount with respect to such Payment Date and, if an Event of Default or Tax Event has occurred and is continuing or an Optional Redemption or Auction has occurred and the Pledged Assets are being liquidated pursuant to the terms of the Indenture, the Class S Notes will be paid in full prior to any distributions to any other Notes. The Class A Notes will be payable (pursuant to clause (vi) of the Priority of Payments) on the Secured Notes in accordance with the Priority of Payments on each Payment Date commencing on the Payment Date occurring in July 2007 as described in the Priority of Payments. As a result of the Priority of Payments, notwithstanding the subordination of the Notes described under "Subordination of the Notes" above, the Class A Notes may be entitled to receive certain payments of principal while the Class S Notes are outstanding, the Class B Notes may be entitled to receive certain...
payments of principal while the Class S Notes and the Class A Notes are outstanding, the Class C Notes may be entitled to receive certain payments of principal while the Class S Notes, the Class A Notes and the Class B Notes are outstanding and the Class D Notes may be entitled to receive certain payments of principal while the Class S Notes, the Class A Notes, the Class B Notes and the Class C Notes are outstanding. In addition, the Income Notes may be entitled to receive certain payments on each Quarterly Payment Date while the Second Notes are outstanding. See "Description of the Notes—Priority of Payments."

In addition, to the extent funds are available therefor in accordance with the Priority of Payments, certain of the Secured Notes (other than the Class S Notes) will be subject to mandatory redemption on any Payment Date if the Covenants Tests are not satisfied as described herein. See "Description of the Notes—Principal", "Mandatory Redemption" and "Priority of Payments."

**Tax Redemption** Subject to certain conditions described herein, the Second Notes will be redeemed from Liquidation Proceeds, in whole but not in part, on the 90th day (which 90-day period may be extended an additional 30 days, as described under "Description of the Notes—Tax Redemption") following the Issuer becoming aware of the occurrence of a Tax Event, at the written direction of, or with the written consent of, Holders of at least 60% of the Income Notes or Holders of at least a Majority of any Class of Secured Notes which, as a result of the occurrence of such Tax Event, have not received 100% of the aggregate amount of principal and interest or other amounts due and payable to such Holders (such redemption, a "Tax Redemption"). No such Tax Redemption will occur unless the expected Liquidation Proceeds equal or exceed the Total Redemption Amount. Upon the occurrence of a Tax Redemption, the Income Notes will be simultaneously redeemed. No such Tax Redemption will occur unless all amounts payable to the Credit Protection Buyer (including all Credit Default Swap Termination Payments) will have been paid in full, in each case, on the stated redemption date.

With respect to a Tax Redemption as described above, the Second Notes will be redeemed at their Liquidation Note Redemption Prices, respectively, as described herein. The amount distributable to the first payment on the Income Notes following any Tax Redemption will equal the amount of the Liquidation Proceeds remaining after the redemption of the Second Notes in full together with the payment of all other amounts required to be paid in accordance with the Priority of Payments. See "Description of the Notes—Tax Redemption."

**Auction** Sixty (60) days prior to the Payment Date occurring in July of each year (the "Auction Date"), commencing on the July 2015 Payment Date, the Liquidation Agent, on behalf of the Issuer, shall take steps to conduct an auction (the "Auction") of the Credit Default Swap, the Eligible Investments (other than cash), the Delivered Obligations, if any, and the Collateral Securities in accordance with the procedures specified in the Indenture. If the Liquidation Agent receives one or more bids from Eligible Bidders not later than ten (10) Business Days prior to the Auction Date, which, when added to the cash on deposit in the Collateral Account, equal or exceed the Minimum Bid Amount, it will sell, assign, terminate

Confidential Treatment Requested by Goldman Sachs
or otherwise dispose of the Credit Default Swap, the Eligible Investments (other than cash), the Delivered Obligations, if any, and the Collateral Securities on or before the fifth Business Day prior to such Auction Date. The Secured Notes will be redeemed in whole on such Auction Date (the "Auction Payment Date"). If a successful Auction occurs, the Income Notes will also be redeemed in full. If the highest single bid on the entire portfolio, or the aggregate amount of multiple bids with respect to individual Collateral Securities, Eligible Investments (other than cash) and Delivered Obligations when added with the other Liquidation Proceeds and cash in deposit in the Collateral Account, does not equal or exceed the Minimum Bid Amount or if there is a failure at settlement, the Credit Default Swap will not be terminated or assigned, the Eligible Investments (other than cash), Collateral Securities and the Delivered Obligations, if any, will not be sold and no redemption of Notes on the related Auction Date will occur.

Optional Redemption
The Secured Notes may be redeemed by the Issuers from Liquidation Proceeds, in whole but not in part, on any Payment Date on or after the Payment Date occurring in July 2010 (the "Optional Redemption Date"), at the written direction of, or with the written consent of the Holders of a Majority of the Income Notes (the "Optional Redemption"). If the Holders of the Income Notes so elect to cause an Optional Redemption of the Secured Notes, the Income Notes will also be redeemed.

In the event of an Optional Redemption, the Secured Notes will be redeemed at their Secured Note Redemption Prices as described herein.

No Secured Notes shall be redeemed pursuant to an Optional Redemption and a final payment to the Income Notes shall not be made unless the Aggregate Reference Obligations National Amount of the Credit Default Swap will be reduced to zero and the Liquidation Agent furnishes certain assurances that the Total Redemption Amount will be available for payment on the related Optional Redemption Date.

In the event of any redemption of the Secured Notes, the Fiscal Agent will receive for payment to the Holders of the Income Notes the remaining balance, if any, of funds in the Payment Account (net of all expenses of the Issuers after payment of the Secured Note Redemption Prices of the Secured Notes and the payment of all other amounts payable prior to payments to the Fiscal Agent) for payment to the Holders of the Income Notes pursuant to the Priority of Payments (the "Income Note Payment Price").

See "Description of the Notes—Optional Redemption."

Mandatory Redemption
On any Payment Date on which any Overcollateralization Test is not satisfied as of the preceding Determination Date certain of the Secured Notes (other than the Class 3 Notes) will be subject to mandatory redemption in accordance with the Priority of Payments, until the applicable Secured Notes have been paid in full (a "Mandatory Redemption"). The Class 3 Notes and the Income Notes are not subject to mandatory redemption as a result of the failure of any Coverage Test. See "Description of the Notes—Principal", "—Mandatory Redemption" and "—Priority of Payments."
<table>
<thead>
<tr>
<th>Coverage Tests</th>

</table>

On the Closing Date, the Class A/B Overcollateralization Ratio is expected to be 110.9%, the Class C Overcollateralization Ratio is expected to be 111.7% and the Class D Overcollateralization Ratio is expected to be 107.4%.

The Credit Default Swap Documentation

The Credit Default Swap will be structured as a "pay-as-you-go" credit default swap and will be documented pursuant to a 1992 ISDA Master Agreement (Multicurrency-Cross Border), including the Schedule thereto (the "Master Agreement"), along with two confirmations (each a "Master Confirmation") between the Issuer, as Credit Protection Seller, and Goldman Sachs International ("GS"), as the Credit Protection Buyer, evidencing a transaction with respect to each Reference Obligation in the Reference Portfolio (each such transaction, a "CDS Transaction").

Reference Obligation National Amount

Each CDS Transaction is expected to have a specified notional amount (the "Reference Obligation National Amount") which represents the dollar amount of the credit exposure which the Issuer is assuming thereunder with respect to the Reference Obligation related to each CDS Transaction. The "Aggregate Reference Obligation National Amount" is the sum of the aggregate Reference Obligation National Amounts of all CDS Transactions comprising the Reference Portfolio. On the Closing Date, the Issuer expects to enter into CDS Transactions with the Credit Protection Buyer referencing the Reference Obligations described herein and having an Aggregate Reference Obligation National Amount of approximately U.S.$105,000,000. In accordance with the terms of the Credit Default Swap, the Reference Obligation National Amount of a CDS Transaction is expected after the Closing Date to be:

(i) decreased on each day on which a Reference Obligation Principal Payment is made by the relevant Reference Obligation Principal Amounts;

(ii) decreased on each day on which a Failure to Pay Principal occurs by the relevant Principal Shortfall Amount;
Footnote Exhibits - Page 5701

(iii) decreased on each day on which a Write-down occurs by the relevant Write-down Amount;

(iv) increased on each day on which a Write-down Reimbursement occurs by any Write-down Reimbursement Amount in respect of a Write-down Reimbursement within paragraphs (ii) or (iii) of the definition of "Write-down Reimbursement"; and

(v) decreased on each Delivery Date by an amount equal to the relevant Exercise Amount minus the relevant amount determined pursuant to paragraph (ii) under the heading "Physical Settlement Amount" in the related Master Confirmation; provided that, if any Relevant Amount is applicable, the Exercise Amount will also be deemed to be decreased by such Relevant Amount (or increased by the absolute value of such Relevant Amount if such Relevant Amount is negative) with effect from such Delivery Date.

Each CDS Transaction will terminate by its terms no later than the scheduled legal final maturity of the related Reference Obligation unless a Credit Event occurs or a Floating Amount becomes due with respect to such CDS Transaction and the physical settlement date is scheduled to occur after such date.

For a more detailed description of the Credit Default Swap, see "The Credit Default Swap", Copies of the Master Agreement and the Master Confirmations are available to in-cumbers from the Trustee.

The Reference Portfolio

On the Closing Date, the Credit Default Swap will reference (i) Reference Obligations (collectively, the "Reference Portfolio"). See Appendix B to this Offering Circular for certain summary information about the Reference Portfolio.

The types of (i) Residential Mortgage-Backed Securities that constitute Reference Obligations in the Reference Portfolio will include RMBS Multiclass Mortgage Securities and RMBS Subprime Mortgage Securities and (ii) CDO Securities that constitute Reference Obligations in the Reference Portfolio will include CDO RMBS Securities.

Credit Events

The following Credit Events (each a "Credit Event") shall apply with respect to such Reference Obligation:

(i) Failure to Pay Principal;

(ii) Write-down;

(iii) Distressed Ratings Downgrade; or

(iv) Failure to Pay Interest (in the case of CDO RMBS Security Reference Obligations only).

See "The Credit Default Swap—Credit Events."

Conditions to Settlement

The "Conditions to Settlement" will be satisfied upon delivery to the Credit Protection Seller and the Trustee of a Credit Event Notice and a Notice of Publicly Available Information.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912603
Footnote Exhibits - Page 5702

Notifying Party ............................................. The Credit Protection Buyer.

Credit Default Swap Calculation Agent ................................... CSII will be the calculation agent (in this capacity the "Credit Default Swap Calculation Agent") under the Credit Default Swap.

Settlement Method ................................................. Physical.

Credit Default Swap Early Termination ...................................... The Credit Default Swap may be terminated by the Issuer or by the Credit Protection Buyer (a "Credit Default Swap Early Termination") at the option of the non-defaulting or non-affected party, as applicable, upon the occurrence of an "Event of Default" or "Termination Event" (each, as defined in the Master Agreement). Upon the Issuer having actual knowledge of the occurrence of any event that gives rise to the right of the Issuer to terminate the Credit Default Swap, the Trustee or the Fiscal Agent, as applicable, will as promptly as practicable notify the Noteholders of each event but will only terminate any such agreement on behalf of the Issuer: (i) at the direction of a Majority of the Income Notes or (ii) (a) upon the redemption of the Senior Notes in full, (b) if the principal balance of the Senior Notes is reduced to zero or (c) upon the acceleration of the maturity of the Senior Notes pursuant to the terms of the Indenture. The Issuer is required to satisfy the Rating Agency Condition prior to any (i) replacement of the Credit Protection Buyer or (ii) assignment of the Credit Default Swap.

The Collateral Securities ............................................. The Issuer will use the net proceeds from the offering of the Notes to purchase Collateral Securities and Eligible Investments having an initial principal amount as of the Closing Date of approximately U.S.$305,000,000. The Collateral Securities are required to have the characteristics and satisfy the criteria described herein under "The Collateral Securities."

The Liquidation Agent, on behalf of the Issuer, will obtain the funds to pay Credit Protection Amounts (which, for the avoidance of doubt, will not include Default Swap Termination Payments) by applying the Collateral Liquidation Procedure.

If the Notes become due in connection with an Optional Redemption, Tax Redemption or Auction, (i) the Liquidation Agent, on behalf of the Issuer, will assign or terminate the Credit Default Swap and will liquidate all of the Collateral Securities and Eligible Investments in the Collateral Account and all Derivatives Obligations in the Collateral Obligations Account and (ii) the Issuer will pay to the Credit Protection Buyer any Credit Protection Amounts and Credit Default Swap Termination Payments. The Issuer is required to pay to the Credit Protection Buyer or any assignee in connection with an assignment or termination of the CDS Transactions. Certain amounts will be held back if one or more outstanding Credit Events remain due as of the Redemption Date.

If the Credit Default Swap is terminated in connection with the occurrence of an Event of Default or Termination Event (each, as defined in the Master Agreement), the Liquidation Agent, on behalf of the Issuer, will pay to the
Credit Protection Buyer or any assignee any Credit Default Swap Termination Payments (which, for the avoidance of doubt, will not include Dealt Swap Termination Payments) owed by the Issuer to the Credit Protection Buyer by applying the Collateral Liquidation Procedure. Certain amounts will be held back in one or more outstanding Credit Events exist or Floating Amounts remain due as of any termination date.

If a CDS Transaction terminates on its scheduled termination date without a Credit Event occurring, following the reduction of the Aggregate Reference Obligation Notional Amount, an amount equal to the Aggregate Amortization Amount shall be drawn from the Collateral Account pursuant to the Amortization Liquidation Procedure and deposited into the Payment Account to be applied to, among other things, reduce the amounts of the Notes in accordance with the Priority of Payments on the immediately following Payment Date.

See "The Collateral Securities"

Liquidation of Collateral

On or immediately prior to the final maturity date of the Notes or in connection with any Optional Redemption, Auction, Tax Redemption or Event of Default, the Liquidation Agent, on behalf of the Issuer, will (i) assign, terminate or otherwise dispose of (a) CDS Transactions the Reference Obligations of which are determined pursuant to the Collateral Administration Agreement by the Collateral Administrator, on behalf of the Issuer to be Credit Risk Obligations and (b) Delivered Obligations, (ii) sell, assign, terminate or otherwise dispose of the Credit Default Swap, Delivered Obligations, Collateral Securities and Eligible Investments of the Issuer in connection with (a) a redemption of the Notes as a result of an Event of Default as required under the Indenture as described herein and (b) an acceleration of Notes as a result of an Event of Default as required under the Indenture as described herein, and (iii) perform certain other functions, as described herein. The Liquidation Agent will have twelve (12) months to assign, terminate or otherwise dispose of (a) CDS Transactions the Reference Obligations of which are determined pursuant to the Collateral Administration Agreement by the Collateral Administrator, on behalf of the Issuer, to be Credit Risk Obligations and (b) Delivered Obligations in accordance with the terms of the Liquidation Agency Agreement (each twelve months measured from the date the Liquidation Agent is notified of either (1) such determination by the Collateral Administrator or (2) the receipt of such Delivered Obligation by the Issuer, as applicable). The proceeds of any such sale of Delivered Obligations will be deposited by the Trustee into the Collateral Account and invested in Eligible Investments and Collateral Securities selected at the direction of the Liquidation Agent. In addition, any principal proceeds received as such Delivered Obligations.
prior to such sale, will be deposited by the Trustee into the Collateral Account. The Liquidation Agent will not have the right, or the obligation, to exercise any discretion with respect to the method or the price of any assignment, termination or disposition of a CDS Transaction; the sole obligation of the Liquidation Agent will be to execute such assignment or termination of a CDS Transaction in accordance with the terms of the Liquidation Agency Agreement. Notwithstanding the appointment of the Liquidation Agent, the Liquidation Agent shall have no responsibility for, or liability relating to, the performance of the Issuer or any CDS Transaction, Reference Obligation, Collateral Security or Eligible Investment.

See "The Liquidation Agency Agreement."

Reports

A report will be made available to the Holders of the Notes and will provide information on the Reference Portfolio, Collateral Securities and payments to be made in accordance with the Priority of Payments (each, a "Note Valuation Report") beginning in July, 2007. See "Reports."

The Offering

The Offered Notes are being offered to non-U.S. Persons in offshore transactions in reliance on Regulation S, and in the United States to persons who are "Qualified Institutional Buyers" purchasing in reliance on the exemption from registration under Rule 144A or, with respect to Income Notes only, Accredited Investors purchasing in transactions exempt from registration under the Securities Act. Each purchaser who is a U.S. Person must also be a "Qualified Purchaser." Each Accredited Investor must have a net worth of at least U.S.$10 million. See "Description of the Notes—Form of the Notes," "Underwriting" and "Notice to Investors."

Minimum Denominations

The Notes will be issued in minimum denominations of U.S.$250,000.00 (in the case of the Rule 144A Notes and the Income Notes sold to Accredited Investors) and U.S.$100,000.00 (in the case of the Regulation S Notes) and integral multiples of U.S.$1 in excess thereof for each Class of Notes.

Form of the Notes

Each Class of Notes sold in offshore transactions in reliance on Regulation S will initially be represented by one or more temporary global Notes (each, a "Temporary Regulation S Global Note"). Each Temporary Regulation S Global Note will be deposited with the Trustee as custodian for, and registered in the name of DTC or as nominee of the Depository Trust Company ("DTC"), for the respective accounts of Euroclear Bank S.A./N.V., as operator of the Euroclear System ("Euroclear"), and Clearstream Banking, société anonyme ("Clearstream"). Beneficial interests in a Temporary Regulation S Global Note may be held only through Euroclear or Clearstream and may not be held at any time by a U.S. Person ("U.S. Person") (as such term is defined in Regulation S under the Securities Act).

Each Class of Rule 144A Notes (other than the Income Notes) will be issued in the form of one or more global Notes in a fully registered form (the "Rule 144A Global Notes") and, together with the Temporary Regulation S Global Notes and the Regulation S Global Notes, the "Global Notes," deposited with Lake Shore National Association as custodian for, and registered in the name of DTC, which will credit the account of each of its participants with the principal amount of Notes being purchased by or through such participant. Beneficial interests in the
Rule 144A Global Notes will be shown on, and transferred thereof will be effected only through, records maintained by DTC and its direct and indirect participants.

The Income Notes (other than the Regulation S Income Notes) will be evidenced by one or more notes in definitive, fully registered form, registered in the name of the owner thereof (such a "Definitive Note").

Beneficial interests in the Global Notes and the Definitive Notes may not be transferred except in compliance with the transfer restrictions described herein. See "Description of the Notes—Form of the Notes" and "Notice to Investors."

Governing Law........................................ The Indenture, the Collateral Administration Agreement, the Credit Default Swap, the Notes, the Liquidation Agency Agreement, and the Fiscal Agency Agreement will be governed by the laws of the State of New York.

Listing and Trading.................................... There is currently no market for the Notes and there can be no assurance that such a market will develop. See "Risk Factors—Notes—Limited Liquidity and Restrictions on Transfer." Application may be made to the Irish Stock Exchange for the Notes to be admitted to the official list of the Irish Stock Exchange and to trading on its regulated market. There can be no assurance that any such application will be made or that any such listing will be obtained or maintained.

Irish Listing Agent; Irish Paying Agent (if any)........................................ If application is made to list the Notes on the Irish Stock Exchange, (i) Maples and Company Listing Services Limited will be the Irish Listing Agent for the Notes (the "Irish Listing Agent") and (ii) Maples Finance Dublin will be the Irish Paying Agent for the Notes (the "Irish Paying Agent").

Tax Status........................................... See "Income Tax Considerations."

ERISA Considerations................................ See "ERISA Considerations."

Confidential Treatment Requested by Goldman Sachs

GS MSB-E-000912607
RISK FACTORS

Prior to making an investment decision, prospective investors should carefully consider, in addition to the matters set forth elsewhere in this Offering Circular, the following factors:

Notes

Limited Liquidity and Restrictions on Transfer. There is currently no market for the Notes. Although O&GCo has advised the Issuer that it intends to make a market in the Offered Notes, O&GCo is not obligated to do so, and any such market making with respect to the Offered Notes may be discontinued at any time without notice. There can be no assurance that any secondary market for any of the Notes will develop, or, if a secondary market does develop, that it will provide the Holders of the Notes with liquidity of investment or that it will continue for the life of such Notes and consequently a purchaser must be prepared to hold the Notes until the Stated Maturity.

In addition, or sub, assignment, participation, pledge or transfer of the Notes may be effected if, among other things, it would require any of the Issuer, the Co-Issuer or any of their officers or directors to register under, or otherwise be subject to, the provisions of, the Investment Company Act or any other similar legislation or regulatory action. Furthermore, the Notes will not be registered under the Securities Act or any state securities laws or the laws of any other jurisdiction, and the Issuer has no plans, and is under no obligation, to register the Notes under the Securities Act or any state securities laws or under the laws of any other jurisdiction. The Notes are subject to certain transfer restrictions and can be transferred only to certain transferees as described herein under “Description of the Notes—Form of the Notes” and “Notes to Investors.” Such restrictions on the transfer of the Notes may further limit their liquidity. See “Description of the Notes—Form of the Notes.” Application may be made for the Notes to be admitted to the official list of the Irish Stock Exchange and to trading on its regulated market. There can be no assurance that any such application will be made or that any such listing will be obtained.

Limited Recourse Obligations. The Class A Notes, Class B Notes, Class C Notes and Class D Notes will be limited recourse obligations of the Issuer, in each case, payable solely from the Pledged Assets pledged by the Issuer to secure the Secured Notes. The Income Notes will be limited recourse obligations of the Issuer and will not be secured by the Pledged Assets securing the Secured Notes. None of the Issuance Agent, the Holders of the Notes, the Initial Purchaser, the Trustee, the Administrator, the Share Trustee, the Agents, the Credit Protection Buyer or any affiliates of any of the foregoing or the Issuer’s affiliates or any other person or entity will be obligated to make payments on the Secured Notes or the Income Notes. Consequently, the Holders of the Secured Notes must rely solely on distributions on the Pledged Assets pledged to secure the Secured Notes for the payment of principal, interest, premiums and other distributions thereon. If distributions on the Pledged Assets are insufficient to make payments in respect of the Secured Notes, no other assets (and, in particular, no assets of the Issuance Agent, the Holders of the Secured Notes, the Holders of the Income Notes, the Initial Purchaser, the Trustee, the Administrator, the Share Trustee, the Agents, the Credit Protection Buyer or any affiliates of any of the foregoing) will be available for payment of the deficiency, and following realization of the Pledged Assets pledged to secure the Secured Notes, the obligations of the Issuer to pay such deficiency shall be extinguished and shall not revive.

Subordination of the Notes. Payments of principal on the Class B Notes will be senior to payments of principal on the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes and to the distribution of Proceeds to the Holders of the Secured Notes on each Payment Date to the extent set forth in the Priority of Payments. Payments of principal of the Class A-1a Notes and the Class A-1b Notes will be either pro rata or first to the Class A-1a Notes and second to the Class A-1b Notes as described herein. Payments of principal on the Class A-2 Notes will be either pro rata with principal payments on the Class A-2 Notes or senior to payments of principal to the Class A-2b Notes as described herein. Payments of principal on the Class C Notes due on any Payment Date will be senior to payments of principal of the Class B Notes, the Class C Notes and the Class D Notes and to the distribution of Proceeds to the Holders of the Secured Notes on such Payment Date to the extent set forth in the Priority of Payments. Payments of principal on the Class B Notes due on any Payment Date will be senior to payments of principal on the Class C Notes and the Class D Notes and senior to the distributions of Proceeds to the Holders of the Secured Notes on such Payment Date to the extent set forth in the Priority of Payments. Payments of principal on the Class C Notes due on any Payment Date will be senior to payments of principal on the Class D Notes and senior to the distributions of Proceeds to the Holders of the Secured Notes on such Payment Date to the extent set forth in the Priority of Payments. Payments of principal on the Class D Notes due on any Payment Date...
Footnote Exhibits - Page 5707

will be senior to the distributions of Proceeds to the Holders of the Income Notes on such Payment Date to the extent set forth in the Priority of Payments. As a result of the Priority of Payments, notwithstanding the subordination of the Notes described under "Description of the Notes—Subordination and Priority," the Class B Notes will be entitled to receive certain payments of principal while the Class S Notes are outstanding, the Class C Notes will be entitled to receive certain payments of principal while the Class D Notes, the Class C Notes and the Class B Notes are outstanding and the Class D Notes will be entitled to receive certain payments of principal while the Class S Notes, the Class B Notes and the Class C Notes are outstanding. In addition, the Income Notes will be entitled to receive certain payments on each Quarterly Payment Date while the Secured Notes are outstanding. See "Description of the Notes—Priority of Payments.”

To the extent that any liens are imposed by the Issuer in respect of any Pledged Assets, such liens will be junior to any liens imposed by the Holders of the Income Notes, then, by Holders of the Class D Notes, then, by Holders of the Class C Notes, then, by Holders of the Class B Notes, then, by Holders of the Class A Notes, then, pro rata, by Holders of the Class A-1 Notes and finally, by Holders of the Class B Notes.

Payments of interest on the Class B Notes due on any Payment Date will be senior to payments of interest on the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes and senior to the distributions of Proceeds to the Holders of the Income Notes on such Payment Date. Payments of interest on the Class A Notes due on any Payment Date will be senior to payments of interest on the Class B Notes, the Class C Notes and the Class D Notes and senior to the distributions of Proceeds to the Holders of the Income Notes on such Payment Date. Payments of interest on the Class S Notes due on any Payment Date will be senior to payments of interest on the Class C Notes and the Class D Notes and senior to the distributions of Proceeds to the Holders of the Income Notes on such Payment Date. Payments of interest on the Class A Notes due on any Payment Date will be senior to payments of interest on the Class B Notes and the Class D Notes and senior to the distributions of Proceeds to the Holders of the Income Notes on such Payment Date. See "Description of the Notes.”

On any Payment Date on which certain conditions are satisfied and funds are available therefor, the "distributing principal" method is the method in which payments of principal may be paid to the Holders of the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes in accordance with the Priority of Payments. In the event that the Income Notes are not in the aggregate outstanding, the Trustee will act in accordance with the Priority of Payments in determining the order of payments of principal to the Holders of the Income Notes.

holders of the Controlling Class may not be able to effect a liquidation of the Pledged Assets in the Event of Default. Holders of Class A Notes may be adversely affected by actions of a Controlling Class. If an Event of Default occurs and is continuing, a Majority of the Controlling Class will be entitled to determine the remedies to be exercised under the Indenture; however, the Majority of the Controlling Class will not be able to effect a liquidation of the Pledged Assets unless, among other things, the Trustee determines (which determination will be based upon a certificate of the Liquidation Agent as to the estimated proceeds) that the estimated proceeds of such sale or liquidation (after deducting the reasonable expenses of such sale or liquidation) would be sufficient to pay in full the sum of (A) the principal (including any Class C Deferred Interest and Class D Deferred Interest) and accrued interest (including all Delayed Interest, and interest thereon) and any other amounts due with respect to all outstanding Notes, (B) unpaid Administrative Expenses, (C) all amounts, including Credit Default Swap Termination Payments, due to the Credit Protection Buyer or any assignee upon termination or assignment of the Credit Default Swap, net of termination or assignment payments payable to the Issuer by the Credit Protection Buyer or any assignee and (D) all other items in the Priority of Payments ranking prior to payments to the Notes and a Majority of the Controlling Class agrees with such determination. There can be no assurance that proceeds of a sale and liquidation, together with all other available funds, will be sufficient to pay in full such amount. Notwithstanding the foregoing, even if the anticipated proceeds of such sale or liquidation would be sufficient to pay in full such amount, the requisite Holders of Notes as determined pursuant to the Indenture or the Holders of a Super Majority of the Controlling Class may direct the sale and liquidation of the Pledged Assets.

Footnote Exhibits - Page 5708

Restatements pursued by the Holders of the Class S Notes and Class A Notes could be adverse to the interests of the Holders of the Class B Notes, the Class C Notes, the Class D Notes and the Income Notes. After the Class S Notes and the Class A Notes are no longer outstanding, the Holders of the Class B Notes will be entitled to determine the remedies to be exercised under the Indenture (except as noted above) if an Event of Default occurs. After the Class S Notes, the Class A Notes, and the Class B Notes are no longer outstanding, the Holders of the Class C Notes will be entitled to determine the remedies to be exercised under the Indenture (except as noted above) if an Event of Default occurs. After the Class S Notes, the Class A Notes, the Class B Notes and the Class C Notes are no longer outstanding, the Holders of the Class D Notes will be entitled to determine the remedies to be exercised under the Indenture (except as noted above) if an Event of Default occurs. See "Description of the Notes—The Indenture—Events of Default."

Subordination of the Income Notes; Unsecured Obligations. The Income Notes are limited recourse obligations of the Issuer and are not secured by the Pledged Assets securing the Secured Notes. As such, the Holders of the Income Notes will make all of the secured creditors and part pass with all unsecured creditors, whether known or unknown, of the Issuer. The Issuer, pursuant to the Indenture, has pledged substantially all of its assets to secure the Secured Notes and contain other obligations of the Issuer. The proceeds of such assets will only be available to make payments in respect of the Income Notes as and when such proceeds are released from the lien of the Indenture and in accordance with the Priority of Payments. There can be no assurance that, after payment of principal and interest on the Secured Notes and other fees and expenses of the Issuer in accordance with the Priority of Payments, the Issuer will have funds remaining to make payments in respect of the Income Notes. Failure to pay the full principal amount of the Income Notes will in no event constitute an Event of Default. No person or entity other than the Issuer will be required to make any payments on the Income Notes. Except with respect to the obligations of the Issuer to make payment pursuant to the Priority of Payments, the Issuer does not expect to have any creditors. The funds available to be paid to the Fiscal Agent will depend in part on the weighted average of the Note Interest Rates.

Any amounts that are released from the lien of the Indenture for payment to the Holders of the Income Notes in accordance with the Priority of Payments on any Quarterly Payment Date will not be available to make payments in respect of the Secured Notes on any subsequent Payment Date.

Leverage and Investment. The Income Notes represent a leveraged investment in the underlying Pledged Assets. The use of leverage generally magnifies an investor’s opportunities for gain and risk of loss. Therefore, changes in the market value of the Income Notes can be expected to be greater than changes in the market value of the underlying assets included in the Pledged Assets, which are also subject to credit, liquidity and interest rate risk. The cash flow and the market value of the Income Notes may fluctuate, potentially in a material manner, as a result of fluctuations in the investment income earned by the Issuer on the Pledged Assets (including the Collateral Securities and Eligible Investments held in the Collateral Account).

Supplemental Indenture May Modify the Indenture, and Some Supplemental Indenture Do Not Require Consent of Holders of Notes. The Indenture provides that the Issuers and the Trustee may enter into supplemental indentures to modify various provisions of the Indenture. The execution of supplemental indentures is subject to various conditions precedent. In certain cases, the consent of the Holders of the Notes is required, but in certain cases, such consent is not required. Furthermore, if no Holder of a Note of a Class responds to notice of a proposed amendment within the prescribed time period, all Notes of such Class may be deemed not to have been adversely or materially adversely affected by the proposed supplemental indenture. See "Description of the Notes—The Indenture—Modification of the Indenture."

Optional Redemption and Tax Redemption of Notes. Subject to the satisfaction of certain conditions, the Secured Notes may be optionally redeemed in whole and not in part (i) on any Payment Date on or after the July 2010 Payment Date at the written direction of, or with the written consent of, Holders of at least a Majority of the Income Notes or (ii) on the date that is 90 days from the date on which the Issuers first become aware of the occurrence of a Tax Event (provided that such 90-day period shall be extended by another 90 days if, during the initial 90-day period, the Issuers have notified the Holders of the Notes that the related Issuer expects that it shall have changed its place of residence by the end of the latter 90-day period), at the written direction of, or with the written consent of, Holders of at least 66 2/3% of the Income Notes or the Holders of at least a Majority of any Class of Notes, if as a result of an occurrence of a Tax Event, each Class of Notes has not received 100% of the

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912610
aggregated amount of principal and interest due and payable on each Class of Notes. If an Optional Redemption or Tax Redemption of the Secured Notes occurs, the Income Notes will be redeemed simultaneously.

There can be no assurance that after payment of the Secured Note Redemption Prices for the Secured Notes, amounts payable in connection with the termination of the Credit Default Swap and all other amounts payable in accordance with the Priority of Payments, any Proceeds will remain to distribute to the Holders of the Income Notes upon redemption. See "Description of the Notes—Optional Redemption" and "—Tax Redemption." An Optional Redemption or Tax Redemption of the Notes could require the Liquidation Agent to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the realized value of the CDS Transactions, the Eligible Investments, the Collateral Securities or the Delivered Obligations. In addition, the redemption procedures in the Indenture may require the Liquidation Agent to aggregate securities to be sold together in one block transaction, thereby possibly realizing in a lower aggregate realized value for the CDS Transactions, the Collateral Securities, the Eligible Investments or the Delivered Obligations. In any event, there can be no assurance that the market value of the CDS Transactions, the Eligible Investments, the Collateral Securities or the Delivered Obligations would adversely affect the proceeds that could be obtained upon a disposition of the CDS Transactions, the Eligible Investments or the Delivered Obligations; consequently, the conditions precedent to the exercise of an Optional Redemption or a Tax Redemption may not be met. The interests of the Holders of the Income Notes in determining whether to elect an Optional Redemption and the interests of the Holders of the affected Class of Secured Notes and the Income Notes with respect to a Tax Redemption may be different from the interests of the Holders of the other Classes of Notes in such respect. The Holders of the Notes also may not be able to invest the proceeds of the redemption of the Notes in one or more investments providing a return equal to or greater than the Holders of the Notes expected to obtain from their investment in the Notes. An Optional Redemption or a Tax Redemption will shorten the average lives of the Secured Notes and the duration of the Notes and may reduce the yield to maturity of the Notes.

Auction. There can be no assurance that an Auction of the Pledged Assets on any Auction Date will be successful. The failure of an Auction may lengthen the expected average lives of the Secured Notes and may reduce the yield to maturity of the Secured Notes. In the event of an Auction, Holders of Income Notes may have their Income Notes redeemed without receiving any payments on such Income Notes. In addition, the success of an Auction will shorten the average lives of the Notes and may reduce the yield to maturity of the Secured Notes.

 Mandatory Redemption of Notes. If the Class A/B CDS Overcollateralization Test is not met on the Determination Date immediately preceding a Payment Date, Proceeds that otherwise might have been distributed to the Holders of the Class C Notes, the Class D Notes and the Income Notes will be used to redeem the Class A Notes and the Class B Notes in full in the order described in the Priority of Payments. If the Class C Overcollateralization Test is not met on the Determination Date immediately preceding a Payment Date, Proceeds that otherwise might have been distributed to the Holders of the Class D Notes and the Income Notes will be used to redeem the Class A Notes and the Class B Notes in full in the order described in the Priority of Payments. If the Class D Overcollateralization Test is not met on the Determination Date immediately preceding a Payment Date, Proceeds that otherwise might have been distributed to the Holders of the Income Notes will be used to redeem the Class D Notes in full. In the event of further reductions in the amounts available to make payments to the Holders of the Class C Notes, the Class D Notes and payments to Holders of the Income Notes may reduce the average lives of the redeemed Notes, may lower the yield to maturity of the Notes.

Collateral Acceleration. In anticipation of the issuance of the Notes, GS&I has agreed to "warehouse" up to U.S.$305,000,000 aggregate notional amount of CDS Transactions and up to U.S.$305,000,000 aggregate principal amount of Collateral Securities and Eligible Investments, for any purposes by the Issuer or related to the Issuer, as applicable, pursuant to the terms of a forward purchase agreement (the "Forward Purchase Agreement"). No officer, manager or other person acting on behalf of the Issuer has reviewed the prices established pursuant to such Forward Purchase Agreement (nor has there been any third party verification of such prices). All of such notional amount will be represented by one or more CDS Transactions entered into between the Issuer and GS&I or an affiliate thereof, wherein the Issuer will be selling credit protection. Pursuant to the terms of the Forward Purchase

Confidential Treatment Requested by Goldman Sachs
Agreement, the Issuer will be obligated to acquire or purchase, as applicable, the "warehouse" assets provided that with respect to the Collateral Securities, such securities satisfy certain eligibility criteria on the Closing Date, for a formula purchase price designed to reflect the premiums at which such "warehouse" assets were assumed or purchased, or replicable (e.g., as applicable, the repayment speed and other assumptions used to set the initial price of each individual asset), as adjusted for any hedging gain or loss and any loss or gain on any "warehouse" asset assigned or sold, as applicable, to a party other than the Issuer during the warehousing period. Consequently, the market value of "warehouse" assets at the Closing Date may be less than or greater than the formula purchase price paid by the Issuer. In addition, if a CDS Transaction, Collateral Security or Eligible Investment becomes ineligible during the warehousing period and is not assumed or purchased, as applicable, by the Issuer on the Closing Date, or if a CDS Transaction, Collateral Security or Eligible Investment is otherwise disposed of at the direction of CDS (which disposition may only occur with the consent of CDS's affiliates), the Issuer will bear the loss or receive the gain on the disposition of such CDS Transaction, Collateral Security or Eligible Investment to a third party.

Disposition of CDS Transactions by the Liquidation Agent Under Certain Circumstances. Under the Indenture, the Liquidation Agent will be required to assume, terminate or otherwise dispose of, on behalf of the Issuer, any CDS Transactions that reference Reference Obligations that are determined pursuant to the Collateral Administration Agreement by the Collateral Administrator, on behalf of the Issuer, to meet the definition of Credit Risk Obligations subject to satisfaction of the conditions described herein. The Liquidation Agent will have twelve (12) months from the date it is notified of the determination of the Collateral Administrator to assume, terminate or otherwise dispose of such CDS Transactions. The Liquidation Agent will not have the right, or the obligation, to exercise any discretion with respect to the method or the price of any assignment, termination or disposition of a CDS Transaction that references a Reference Obligation that is determined pursuant to the Collateral Administration Agreement by the Collateral Administrator, on behalf of the Issuer, to be a Credit Risk Obligation, the sole obligation of the Liquidation Agent will be to execute the assignment, termination or disposition of such CDS Transaction in accordance with the terms of the Liquidation Agency Agreement. There can be no assurance that the Liquidation Agent will be able to dispose of any such CDS Transaction that references a Reference Obligation that is so determined to be a Credit Risk Obligation. Any such sale of a CDS Transaction that references a Reference Obligation that is so determined to be a Credit Risk Obligation may result in losses to the Issuer, which losses may result in the reduction or withholding of the rating of any or all of the Secured Notes by any of the Rating Agencies. See "--No Collateral Manager--"

Average Lives, Durations and Prepayment Considerations. The average lives of the Secured Notes (other than the Class S Notes) are expected to be shorter than the number of years until their Stated Maturity. See "Weighted Average Life and Yield Considerations."

The average lives of the Secured Notes will be affected by the financial condition of the obligors on or issuers of the Reference Obligations and the characteristics of the Reference Obligations, including the existence and frequency of exercise of any prepayment, optional redemption or sinking fund features, the prepayment speeds, the occurrence of any early amortization events, the prevailing level of interest rates, the redemption price, the actual default rate and the actual level of prepayments in respect of any Collateral Obligations, the frequency of issuer or exchange offers for the Reference Obligations and the net of any sales of CDS Transactions.

Some or all of the loans underlying the RMBS may be prepaid at any time (although certain of such mortgage loans may have "lockout" periods, defeasance provisions, prepayment penalties or other disincentives to prepayment). Defeasance on and liquidations of the loans and other collateral underlying the RMBS may also lead to early repayment thereof. Prepayments on loans are affected by a number of factors. If prevailing rates for similar loans fall below the interest rates on such loans, prepayment rates would generally be expected to increase. Conversely, if prevailing rates for similar loans rose above the interest rates on such loans, prepayment rates would generally be expected to decrease. The existence and frequency of such prepayments, optional redemptions, defaults and liquidations will affect the average lives of, and credit support for, the Notes. See "Weighted Average Life and Yield Considerations."

Projections, Forecasts and Estimates. Estimates of the weighted average lives of, and returns on, the Secured Notes included herein, together with any other projections, forecasts and estimates provided to prospective purchasers of the Secured Notes, are forward-looking statements. Such statements are necessarily speculative in

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912012
nature, as they are based on certain assumptions. It can be expected that some or all of the assumptions underlying such statements will not reflect actual conditions. Accordingly, there can be no assurance that any estimated projections, forecasts or estimates will be realized or that the forward-looking statements will materialize, and actual results may vary from the projections, and the variations may be material.

Some important factors that could cause actual results to differ materially from those in any forward-looking statements include changes in interest rates, market, financial or legal uncertainties, the timing of acquisitions of the Reference Obligations, differences in the actual allocation of the Reference Obligations among asset categories from those assumed and mismanipulations between the timing of accrual and receipt of Proceeds from the Reference Obligations, among others.

None of the Issuer, the Co-Issuer, the Liquidation Agent, the Initial Purchaser or any of their respective affiliates has any obligation to update or otherwise review any projections, including any revisions to reflect changes in economic conditions or other circumstances existing after the date hereof or to reflect the occurrence of unanticipated events, even if the underlying assumptions do not come to fruition.

Dependence of the Issuer on the Liquidation Agent. The Issuer has no employees and is dependent on the employees of the Liquidation Agent to perform its obligations under the Liquidation Agency Agreement in accordance with the terms of the Indenture and the Liquidation Agency Agreement. Consequently, the loss of one or more of the individuals employed by the Liquidation Agent to perform its obligations under the Liquidation Agency Agreement could have an adverse effect, which effect may be material, on the performance of the Issuer.

Static Transaction. The Anderson Mezzanine Funding 2007-1 Ltd. transaction is a static collateralized debt obligation transaction. As a result, the CDS Transactions held by the Issuer on the Closing Date will be retained by the Issuer even if it would be in the best interests of the Issuer and the Holders of the Notes to assign, terminate or dispose of certain CDS Transactions unless Reference Obligations referenced by those CDS Transactions are designated as Credit Risk Obligations and are required to be assigned, terminated or disposed by the Liquidation Agent pursuant to the terms of the Indenture and the Liquidation Agency Agreement. See "The Credit Default Swap—Removal of Reference Obligations from the Reference Portfolio." In addition, circumstances may exist under which it is in the best interests of the Issuer or the Holders of the Notes to assign, terminate or otherwise dispose of a CDS Transaction, but (i) pursuant to the Collateral Administration Agreement, the Collateral Administrator, on behalf of the Issuer, does not determine that the Reference Obligation referenced by such CDS Transaction is a Credit Risk Obligation or (ii) the Liquidation Agent is not able to assign, terminate or otherwise dispose, on behalf of the Issuer, such CDS Transaction in accordance with the terms of the Liquidation Agency Agreement.

Substitution of Collateral Securities. From time to time following the Closing Date, any Holder of any Note may submit to the Trustee or the Fiscal Agent, as applicable, a request to substitute one or more new CDS Securities in whole or in part. Each substitution will be subject to the affirmative approval of the Holders of a Majority of each Class of Notes. Any such substitution could (i) adversely affect the Issuer and the Issuer’s ability to make payments on the Notes, (ii) affect the weighted average lives of the Security Notes, (iii) adversely affect the returns on the Notes and (iv) increase the frequency of defaults on the Collateral Securities or reduce the proceeds following the liquidation of any Collateral Securities. On the other hand, it is also possible that a Holder of a Note could propose a substitution which would be beneficial to the Issuer and the Holders of the Notes but such substitutions is not permitted because such proposal is not affirmatively approved by the Holders of a Majority of each Class of Notes.

No Collateral Manager. The Issuer has not engaged and will not engage, a collateral manager to select the Pledged Assets (or to verify their prices), to monitor the Pledged Assets on a regular basis or to consult with the Issuer with respect to the Pledged Assets, including the advisability, timing or terms of any disposition thereof. None of the Liquidation Agent or any of its affiliates will provide investment advisory services to the Issuer or to an agent for the Issuer or the Holders of the Notes, and they will not have any fiduciary duties to, nor be obligated to consider the interests of the issuer or the Holders of the Notes. As a result, the Issuer and the Holders of the Notes will not have the benefit of the provisions of the Investment Advisors Act of 1940 which afford certain protections to clients of investment advisors. Furthermore, because there is no collateral manager in the Anderson Mezzanine Funding 2007-1 Ltd. transaction, the Indenture eliminates the ability of the Issuer to exercise

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912813
description in context when a collateral manager in a managed, or static, collateralized debt obligation transaction customarily has discretion to act on behalf of the Issuer. For example, the Indenture provides, among other things, that (i) the Issuer has the beneficial interest of a Collateral Security or Delivered Obligation, or the Trustee, as the registered owner of a Collateral Security, has the right to exercise a vote or consent or (or otherwise approve of) any action, or interest, pursuant to the terms of such Collateral Security or Delivered Obligation and its related underlying documentation or (ii) an offer by the Issuer of such Collateral Security or Delivered Obligation or by any other person to purchase or otherwise acquire such Collateral Security or Delivered Obligation or to convert or exchange such Collateral Security or Delivered Obligation for cash or any other consideration, the Trustee, as directed by the applicable holders, acting in its capacity as registered owner of such Collateral Security or Delivered Obligation, shall direct the Issuer’s vote to be cast in the following manner: (a) if all holders of the class of which such Collateral Security or Delivered Obligation is a part are required to act by consent, in the same manner as the votes of a plurality of the voting holders of such class, (or) if no other holders of such class exercise a vote or if there are no other holders of such class, but holders of different classes issued under the same governing instrument respond, in the same manner as the votes of a plurality of the voting holders of all classes issued under the governing instrument pursuant to which such Collateral Security or Delivered Obligation was issued (based on the Principal Balance of all such classes and treated as a single class) or (b) if all holders of any class issued under the same governing instrument respond or if there are no other holders, the Issuer’s vote shall be exercised against such action or inaction and (ii) the Issuer will have no discretion with respect to the temporary investment of funds held pending application thereof in accordance with the terms of the Indenture. The inability of the Issuer to exercise discretion in these contexts could adversely affect the Issuer and the Holders of the Notes, and it is impossible to quantify the potential magnitude of this impact. Potential investors in the Notes are urged to (a) review carefully the Offering Circular and the related terms of the Indenture, the Final Agency Agreement and other operative documents and (b) take the inability of the Issuer to exercise discretion into account before investing in any of the Notes.

Scheduled Maturity of CDS Transactions. From time to time, the scheduled maturity or termination of one or more CDS Transactions is likely to occur without a Credit Event occurring. Any such maturity or termination of a CDS Transaction will result in a decrease in the Aggregate Reference Obligation Notional Amount and may result in a required redemption of the Notes in accordance with the Priority of Payments. The Issuer anticipates that payments of principal of the Collateral Securities and Rights Investments in the Collateral Account will be applied to as herein the Notes, but it is possible that such payments of principal will not be sufficient to permit such redemption.

The Credit Default Swap and Reference Obligations

General. The following description of the Credit Default Swap and Reference Obligations and the underlying documents and the risks related thereto is general in nature. The attributes and risks related to each individual Reference Obligation may differ in significant and material manners from the general description of the Reference Obligations and the underlying documents and the risks related thereto.

Nature of Reference Portfolio. The Reference Portfolio is subject to credit, liquidity, prepayment and insurance risks. The amount and nature of collateral securing the Secured Notes has been established to withstand certain assumed deficiencies in payment occasioned by defaults in respect of the Reference Obligations and the Early Amendments. See "Radings of the Notes." If any deficiencies exceed such assumed levels, however, payment of the Notes could be adversely affected. To the extent that any Reference Obligation referenced by a CDS Transaction is determined pursuant to the Collateral Administrative Agreement by the Collateral Administrator, on behalf of the Issuer, to be a Credit Risk Obligation and the Liquidation Agent, on behalf of the Issuer, assigns, terminates or otherwise disposes of such Credit Default Swap Disposition Transaction, it is not unlikely that the proceeds of such assignment, termination or other disposition will be equal to the amounts owing to the Issuer in respect of such CDS Transaction.

The market value of the CDS Transactions and the Reference Obligations generally will fluctuate with, among other things, the financial condition of the related Reference Obligations and obligations on or interests in the Reference Obligations, the credit quality of the underlying pool of assets in any Reference Obligation, general economic conditions, the condition of certain financial markets, political events, developments or trends in any particular industry and changes in prevailing interest rates. None of the Issuer, the Co-Issuer, the Initial Purchaser,
the Liquidation Agent, the Collateral Administrator, the Credit Protection Buyer or the Trustee has any liability or obligations to the Holders of the Notes as to the amount or value of, or decrease in the value of, the Reference Obligations from time to time, or makes any representation or warranty as to the performance of the Reference Obligations.

If any Reference Obligation referred to by a CDS Transaction is determined pursuant to the Collateral Administration Agreement by the Collateral Administrator on behalf of the Issuer, to be a Credit Risk Obligation, the Liquidation Agent is required, subject to the terms of the Liquidation Agency Agreement, to assign, terminate or otherwise dispose on behalf of the Issuer the affected CDS Transaction. There can be no assurance as to the timing of the Issuer’s disposition of the affected CDS Transaction, or as to the termination costs associated with such affected CDS Transaction. The inability to realize immediate recoveries at the recovery levels assumed herein may result in lower cash flow and a lower yield to maturity of the Notes.

CDS Transactions. As of the Closing Date, (i) 98.4% of the CDS Transactions (by Reference Obligation National Amount) will consist of CDS Transactions the Reference Obligations of which are RMBS Securities and (ii) 1.6% of the CDS Transactions (by Reference Obligation National Amount) will consist of CDS Transactions the Reference Obligations of which are CDO RMBS Securities.

The economic return on a CDS Transaction depends substantially upon the performance of the related Reference Obligation and partially upon the performance of the collateral held by the Issuer to secure its obligations to the Credit Protection Buyer on deposit in the Collateral Account. CDS Transactions generally have probability of default, recovery upon default and expected loss characteristics which are closely correlated to the corresponding Reference Obligation, but may have different maturity dates, coupon, payment dates or other non-credit characteristics than the corresponding Reference Obligation. In addition to the credit risks associated with holding the Reference Obligations, with respect to CDS Transactions, the Issuer will usually have a contractual relationship only with the related Credit Protection Buyer, and not with the Reference Obligator of the Reference Obligation. Due to the fact that a CDS Transaction may be illiquid or may not be terminable on demand (or terminable on demand only upon payment of a substantial fee by the Issuer), the Issuer’s ability to dispose of a CDS Transaction, if circumstances arise permitting such disposal, may be limited. Any settlement payments and termination payments payable by the Issuer (net of any termination payments owing by the Credit Protection Buyer) to the Credit Protection Buyer will reduce the amount available to pay the Holders of the Income Notes and the Secured Notes in inverse order of seniority. The Issuer generally will have no right to directly enforce compliance by the Reference Obligator with the terms of the Reference Obligation nor any rights of set off against the Reference Obligator, nor have any voting rights with respect to the Reference Obligation. The Issuer will not directly benefit from the collateral supporting the Reference Obligations and will not have the benefits of remedies that would normally be available to the holders of such Reference Obligation.

Because neither the Credit Protection Buyer nor the Issuer is required to hold any Reference Obligations, the Issuer will not have any rights to obtain from either the Credit Protection Buyer or the Reference Obligator information on the Reference Obligations or information regarding any Reference Obligation. The Credit Protection Buyer will have no obligation to keep the Issuer, the Trustee, the Liquidation Agent, the Holders of the Secured Notes or the Holders of the Income Notes informed as to matters arising in relation to any Reference Obligations including whether or not circumstances exist under which there is a possibility of the occurrence of a credit event.

In addition, in the event of the insolvency of the Credit Protection Buyer, the Issuer will be treated as a general creditor of such Credit Protection Buyer, and will not have any claim with respect to the Reference Obligor or the Reference Obligations. Consequently, the Issuer will be subject to the credit risk of the Credit Protection Buyer as well as that of the Reference Obligor and the Reference Obligations. As a result, concentrations of CDS Transactions in any one Credit Protection Buyer subject the Notes to an additional degree of risk with respect to defaults by such Credit Protection Buyer. It is expected that Goldman Sachs International, an affiliate of Goldman, Sachs & Co., will act as the sole Credit Protection Buyer with respect to the Credit Default Swap, which creates concentration risk and may create certain conflicts of interest. In addition, neither the Credit Protection Buyer nor its affiliates will, or will be deemed to be acting as, the agent or trustee of the Issuer, the Holders of the Secured Notes or the Holders of the Income Notes in connection with the exercise of, or the failure to exercise, any of the rights or powers of the Credit Protection Buyer and/or its affiliates acting under or in connection with their respective holding of any Reference Obligation. The Credit Protection Buyer and its affiliates (i) may deal in any...
Footnote Exhibits - Page 5714

Reference Obligation, (ii) may generally engage in any kind of commercial or investment banking or other business transactions with any Issuer of a Reference Obligation, and (iii) may act with respect to transactions described in the preceding clauses (i) and (ii) in the same manner as if the Credit Default Swap and the Notes did not exist and without regard to whether any such action might have an adverse effect on such Reference Obligation, the Issuer, the Holders of the Secured Notes or the Holders of the Income Notes.

All of the CDS Transactions are expected to be structured as “pay-as-you-go” credit default swaps. The obligations of the Issuer to make payments to the Credit Protection Buyer under the Credit Default Swap creates credit exposure to the related Reference Obligations (as well as to the default risk of the related Credit Protection Buyer). Following the occurrence of a “credit event”, the Issuer may be required to pay to the Credit Protection Buyer a “physical settlement payment”. In addition, each Credit Default Swap Disposition Transaction may require the Issuer, in its capacity as protection seller, to pay certain “broking amounts” to the Credit Protection Buyer equal to certain principal shortfall amounts, withdrawal payments and interest shortfalls under the Reference Obligations upon the occurrence thereof. The payment of any such credit protection payments and broking amounts will be funded by the Issuer, or the Liquidation Agent (on behalf of the Issuer), by applying the Collateral Liquidation Procedure. The Credit Protection Buyer will be obligated to maintain all or part of such payments to the Issuer if the withdrawable payments of the related shortfalls are ultimately paid to Holders of the Reference Obligations or if the related Reference Obligations are written up, the amounts available to the Issuer to make payments in respect of the Secured Notes and Income Notes may be reduced after payment by the Issuer of the relevant payment to the Credit Protection Buyer until the Issuer receives such reimbursement, if any, from the Credit Protection Buyer. Any “floating payments” or credit protection payments payable by the Issuer, may result in a reduction of the notional amount of the Credit Default Swap, and therefore reduce the amount payable by the Credit Protection Buyer and the amount of interest collections available to pay interest on the Notes. In addition, any “floating payment” or “physical settlement payment” would reduce the Collateral Securities on deposit in the Collateral Account that is available to pay the principal of the Notes and may reduce the interest collections available to pay interest on the Notes.

Determination of the floating amounts and additional fixed amounts (as described in the related Master Confirmation) will depend on the relevant servicing reports being available and on such reports containing adequate information to enable the required calculations to be made. Current private industry investigations of the market practices show that such reports come vary and that not all reports contain adequate information. In addition, access to such reports may be limited if such reports are confidential and neither counterpart holds the related Reference Obligation.

In the event a “credit event” occurs under the Credit Default Swap, the Liquidation Agent, on behalf of the Issuer, will obtain funds to pay Credit Protection Payments (which, for the avoidance of doubt, will not include Defaulted Swap Termination Payments) owed by the Issuer to the Credit Protection Buyer by applying the Collateral Liquidation Procedure. In addition, under certain circumstances upon the occurrence of a “credit event”, the Liquidation Agent, on behalf of the Issuer will pay any related Physical Settlement Amount owed by the Issuer to the Credit Protection Buyer as exchange for a Delivered Obligation by applying the Collateral Liquidation Procedure. Any Delivered Obligation delivered to the Issuer will be sold by the Liquidation Agent, on behalf of the Issuer, pursuant to the terms of the Liquidation Agency Agreement. If a CDS Transaction is terminated prior to its scheduled maturity, the Liquidation Agent, on behalf of the Issuer, will make any terminations payments payable, which, for the avoidance of doubt, shall not include Defaulted Swap Termination Payments due to the Credit Protection Buyer by applying the Collateral Liquidation Procedure.

"Pay-as-you-go" credit default swaps are a type of credit default swap developed to incorporate the unique structures of asset-backed securities. The International Swaps and Derivatives Association, Inc. ("ISDA") has published one form confirmations for "pay-as-you-go" credit default swaps referencing CDO Securities and a second form of confirmation for "pay-as-you-go" credit default swaps referencing CDO Securities. The form confirmations expected to be used to document the Credit Default Swaps are expected to be similar to the ISDA Securities "pay-as-you-go" forms and the CDO Securities "pay-as-you-go" forms, but may differ in significant ways. While ISDA has published its form confirmations and has published and supplemented the Credit Derivatives Definitions in order to facilitate transactions and promote uniformity in the credit default swap market, the credit default swap market is expected to change and the "pay-as-you-go" credit default swap forms and the Credit Derivatives Definitions and terms applied to credit derivatives are subject to interpretation and further evolution.

Confidential Treatment Requested by Goldman Sachs
ISDA is currently preparing forms for other types of asset-backed securities. There can be no assurance that such forms will be substantially similar to the form confirmations expected to be used for the Credit Default Swap. Past events have shown that the views of market participants may differ as to how the Credit Derivatives Definitions operate or should operate. As a result of the continued evolution of the ISDA “pay-when-payable” credit default swap forms, the confirmations used to document the Credit Default Swap may differ from the future market standard. Such a result may have a negative impact on the liquidity and market value of the Credit Default Swap.

There can be no assurances that changes to the Credit Derivatives Definitions and other terms applicable to credit derivatives generally will be favorable to the issuer. Amendments or supplements to the “pay-when-payable” credit default swap forms and amendments and supplements to the Credit Derivatives Definitions that are published by ISDA will only apply to the Credit Default Swap executed prior to such amendments or supplements if the Issuer and the Credit Protection Buyer agree to amend the Credit Default Swap to incorporate such amendments or supplements and the Rating Agency Conditions has been satisfied. Markets in different jurisdictions have also already adopted and may continue to adopt different practices with respect to the Credit Derivatives Definitions. Furthermore, the Credit Derivatives Definitions may contain ambiguous provisions that are subject to interpretation and may result in consequences that are adverse to the Issuer. In addition to the credit risk of the Reference Obligations and the credit risk of the Credit Protection Buyer, the Issuer is also subject to the risk that the Credit Derivatives Definitions could be interpreted in a manner that would be adverse to the Issuer or that the credit derivatives market generally may evolve in a manner that would be adverse to the Issuer.

Residential Mortgage Backed Securities. 99.4% of the Aggregate Reference Obligation Notional Amount will consist of Residential Mortgage Backed Securities (“RMBS”) as of the Closing Date. The types of Residential Mortgage Backed Securities that constitute the Reference Obligations related to the CDS Transactions the Issuer will enter into on the Closing Date will consist of RMBS MBS prime Mortgage Securities and RMBS Subprime Mortgage Securities.

Holders of RMBS bear various risks, including credit, market, interest rate, structural and legal risks. RMBS represent interests in pools of residential mortgage loans secured by one-to-four-family residential mortgage loans. Such loans may be prepaid at any time. Residential mortgage loans are obligations of the borrowers thereunder only and are not typically insured or guaranteed by any other person or entity, although such loans may be securitized by agencies and the securities issued are guaranteed. The net of defaults and losses on residential mortgage loans will be affected by a number of factors, including general economic conditions and those in the area where the related mortgaged property is located, the borrower’s ability to meet the mortgage payment and the financial circumstances of the borrower. If a residential mortgage loan is in default, foreclosure of such residential mortgage loan is subject to lengthy and difficult process, and may involve significant expenses. In addition, the market for detailed residential mortgage loans or a foreclosed properties may be very limited.

At any one time, a portfolio of RMBS may be backed by residential mortgage loans with disproportionately large aggregate principal amounts secured by properties in only a few states or regions. As a result, the residential mortgage loans may be more susceptible to geographic risks relating to such areas, such as adverse economic conditions, adverse events affecting industries located in such areas and natural hazards affecting such areas, than would be the case for a pool of mortgage loans having more diverse property locations. In addition, the residential mortgage loans may include so-called “jumbo” mortgage loans, having original principal balances that are higher than is generally the case for residential mortgage loans. As a result, such portfolio of RMBS may experience increased losses.

Each underlying residential mortgage loan in an issue of RMBS may have a balloon payment due on its maturity date. Balloon residential mortgage loans involve a greater risk to a lender than traditional mortgage loans, because the ability of a borrower to pay such amount will normally depend on the ability to obtain refinancing of the related mortgage loan or sell the related mortgaged property at a price sufficient to permit the borrower to make the balloon payment, which will depend on a number of factors prevailing at the time each refinancing or sale is required, including, without limitation, the strength of the residential real estate markets, tax laws, the financial situation and operating history of the underlying property, interest rates and general economic conditions. If the borrower is unable to make such balloon payment, the related issue of RMBS may experience losses.
Prepayments on the underlying residential mortgage loans in an issue of RMBS will be influenced by the prepayment provisions of the related mortgage notes and also be affected by a variety of economic, geographic and other factors, including the difference between the interest rates on the underlying residential mortgage loans (giving consideration to the cost of refinancing) and prevailing mortgage rates and the availability of refinancing. In general, if prevailing interest rates fall significantly below the interest rates on the related residential mortgage loans, the rate of prepayment on the underlying residential mortgage loans would be expected to increase. Conversely, if prevailing interest rates rise to a level significantly above the interest rates on the related mortgages, the rate of prepayment would be expected to decrease. Prepayments could reduce the yield received on the related issue of RMBS.

Structural and Legal Risks of RMBS. Residential mortgage loans in an issue of RMBS may be subject to various federal and state laws, public policies and principles of equity that protect consumers, which among other things may regulate interest rates and other charges, require certain disclosures, require licensing of originators, prohibit discriminatory lending practices, regulate the use of consumer credit information and regulate debt collection practices. Violation of certain provisions of these laws, public policies and principles may limit the servicer’s ability to collect all or part of the principal or interest on a residential mortgage loan, entitle the borrower to a refund of amounts previously paid by it, or subject the servicer to damages and sanctions. Any such violation could result also in cash flow delays and losses on the related issue of RMBS.

RMBS may have structural characteristics that distinguish them from other asset-backed securities. The rate of interest payable on RMBS may be set or effectively capped at the weighted average net coupons of the underlying mortgage loans themselves or a cap based on an index designated by the index provider. If a cap is used, the return to investors is dependent on the relative timing and rate of delinquencies and prepayments of mortgage loans housing a higher rate of interest. In general, early prepayments will have a greater impact on the yield to investors. Federal and state law may also affect the return to investors by capping the interest rates payable by certain mortgagees. The Servicers’ Civil Relief Act of 2000 (the “Relief Act”) provides relief for certain servicers and members of the reserve called to active duty by capping the interest rates on their mortgage loans at 6% per annum. In addition, pursuant to the laws of various states, under certain circumstances, payments on the underlying mortgage loans by residents in such states who are called into active duty with the National Guard or the reserves will be deferred. These state laws may also limit the ability of the servicer to foreclose on the related mortgaged property. This could result in delays or reductions in payment and increased losses on the underlying mortgage loans which impact the return to investors. Certain RMBS may provide for the payment of interest for a fixed period of time.

In addition, structural and legal risks of RMBS include the possibility that, in a bankruptcy or similar proceeding involving the originator or the servicer (often the same entity or affiliates), the assets of the issuer could be seized or at least having been sold by the originator to the servicer or could be re-invested in securities of the originator or the servicer, or the transfer of such assets to the servicer could be voided as a fraudulent transfer. Challenges based on such doctrines could result also in cash flow delays and losses on the related issue of RMBS.

It is not expected that the RMBS will be guaranteed or insured by any governmental agency or instrumentality or by any other person. Distributions on RMBS will depend solely upon the amount and timing of payments and other collections on the related underlying mortgage loans.

Recent Developments in RMBS May Adversely Affect the Performance and Market Value of RMBS. According to published reports, recently, the residential mortgage market in the United States has experienced a variety of difficulties and changed economic conditions that may adversely affect the performance and market value of RMBS. Delinquencies and losses with respect to residential mortgage loans generally reported have increased in recent months, and may continue to increase, particularly in the subprime sector. In addition, in recent months published reports have indicated that housing prices and approved values in many states have declined or stopped appreciating. A continued decline or an extended flattening of these values may result in additional increases in delinquencies and losses on RMBS.

Another factor that may result in higher delinquency rates is the reported increase in monthly payments on adjustable rate mortgage loans. Borrowers with adjustable rate mortgage loans are being exposed to increased
monthly payments when the related mortgage interest rate adjusts upward from the initial fixed rate or a low introductory rate. Borrowers seeking to avoid these increased monthly payments by refinancing their mortgage loans may no longer be able to find available replacement loans at comparably low interest rates. A decline in housing prices may also leave borrowers with insufficient equity in their homes to permit them to refinance. Furthermore, borrowers who intend to sell their homes on or before the expiration of the fixed rate period on their mortgage loans may find that they cannot sell their properties for an amount equal to or greater than the unpaid principal balance of their loans. These events, alone or in combination, may contribute to higher delinquency rates and, as a result, adversely affect the performance and market value of RMBS.

In addition, numerous residential mortgage loan originators that originate subprime mortgage loans have reportedly recently experienced serious financial difficulties and, in some cases, bankruptcy. These difficulties may have resulted in part from declining markets for mortgage loans as well as from claims for repurchases of mortgage loans previously sold under provisions that require repurchase in the event of early payment defaults, or for material breaches of representations and warranties made on the mortgage loans, such as fraud claims. These difficulties may affect the performance and market value of RMBS.

CDO Securities. 1.6% of the Aggregate Reference Obligation National Amount will consist of CDO Securities as of the Closing Date. CDO Securities generally are limited recourse obligations of the issuer thereof payable solely from the underlying assets of the issuer ("CDO Collateral") or proceeds thereof. Consequently, holders of CDO Securities must rely solely on distributions on the underlying CDO Collateral or proceeds thereof for payment in respect thereof. If distributions on the underlying CDO Collateral are insufficient to make payments on the CDO Securities, no other assets will be available for payment of the deficiency and following realization of the underlying assets, the obligations of the issuer to pay such deficiency shall be extinguished. Many subordinate classes of CDO Securities provide that a default of interest thereon or a write-down does not constitute an event of default and the holders of such securities will not be entitled to any associated default remedies. During such periods of non-payment or partial non-payment, such non-payment interest will generally be capitalized and added to the outstanding principal balance of the related security. Any such default will reduce the amount of current payments made on each CDO Security.

CDO Securities are subject to credit, liquidity and interest rate risks. The assets backing CDO Securities may consist of high-yield debt securities, loans, trust preferred securities, structured finance securities and other debt instruments. High-yield debt securities are generally unrated (and loans may be unrated) and may be subordinated to certain other obligations of the issuer thereof. An increase in the default rates of high-yield corporate debt securities or loans could increase the likelihood that payments may not be made to holders of CDO Securities which are secured by high-yield corporate debt securities and loans.

Issuers of CDO Securities may acquire interests in loans and other debt obligations by way of assignment or participation. The purchaser of an assignment typically receives all the rights and obligations of the assigning institution and becomes a holder under the credit agreement with respect to the debt obligation, however, its rights can be more restricted than those of the assigning institution.

In purchasing participations, an issuer of CDO Securities will usually have a contractual relationship only with the selling institution, and not the borrower. The issuer generally will have no right directly to enforce compliance by the borrower with the terms of the loan agreement, nor any right of set-off against the borrower, nor the right to object to certain changes in the loan agreement agreed to by the selling institution. The issuer may also not benefit from the collateral supporting the related loan and may be subject to any rights of the buyer of the participation, even if the buyer has against the selling institution. In addition, in the event of the insolvency of the selling institution, under the laws of the United States of America and the states thereof, the issuer may be treated as a general creditor of each selling institution, and may not have any exclusive or senior claim with respect to the selling institution’s interest in, or the collateral with respect to, the loan. Consequently, the issuer may be subject to the credit risk of the selling institution as well as of the borrower.

CDO Securities are subject to interest rate risk and may not correlate with the underlying assets. As a result, there could be a mismatch between CDO Securities and CDO Collateral which bears interest at a fixed rate and those that may bear interest at a floating (index) rate. As a result, there could be a floating/fixed rate or basis mismatch between such CDO Securities and CDO Collateral which bears interest at a fixed rate and there may be a timing mismatch between the payment of the fixed rate or basis.
between the CDO Securities and assets that bear interest at a floating rate as the interest rate on such assets bearing interest at a floating rate may adjust more frequently or less frequently, on different dates and based on different indices than the interest rates on the CDO Securities. As a result of such mismatches, an increase or decrease in the level of the floating rate indices could adversely impact the ability to make payments on the CDO Securities. In addition, hedges may have been acquired to manage the interest rate risk of such CDO Securities, making such CDO Securities more sensitive to risk of loss and withdrawal than senior classes of such securities.

Subordination of Reference Obligations. All of the Reference Obligations are senior to the CDO Securities. Some of the Reference Obligations will be subordinated to one or more other classes of securities of the same series for purposes of, among other things, offsetting losses and other shortfalls with respect to the related underlying mortgage loans. The subordinated classes are more sensitive to risk of loss and withdrawal than senior classes of such securities.

PROSPECTIVE PURCHASERS OF THE SECURED NOTES AND THE INCOME NOTES SHOULD CONSIDER AND ASSESS FOR THEMSELVES THE LIKELY LEVEL OF DEFAULTS ON THE REFERENCE OBLIGATIONS, AS WELL AS THE LIKELY LEVEL AND TIMING OF RECOVERIES ON THE REFERENCE OBLIGATIONS.

Insolvency Considerations with Respect to Defaults of Reference Obligations. Various laws enacted for the protection of creditors may apply to the Reference Obligations. If a default occurs in a lawsuit brought by an unpaid creditor or representative of creditors of an issuer of a Reference Obligation, such as a trustee in bankruptcy, they may find that the issuer did not receive fair consideration or reasonably equivalent value for incurring the indebtedness constituting the Reference Obligation or for granting a lien securing the Reference Obligation and, after giving effect to such indebtedness or such lien, the issuer (i) was insolvent, (ii) was engaged in a business for which the remaining assets of such issuer constituted unreasonably small capital or (iii) intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they matured, such suit could determine the invalidation, in whole or in part, such indebtedness or such lien as a fraudulent conveyance, to subordinate such indebtedness or such lien to existing or future conditions of such issuer, or to recover amounts previously paid by such issuer in satisfaction of such indebtedness. The measure of insolvency for purposes of the foregoing will vary. Generally, an issuer would be considered insolvent at a particular time if the sum of its debts were then greater than all of its property at a fair valuation, or if the present fair salable value of its assets was then less than the amount that would be required to pay its probable liabilities as they become absolute and matured. There can be no assurance as to what standard a court would apply in order to determine whether the issuer was "insolvent" after giving the effect of the occurrence of the indebtedness constituting the Reference Obligation or the grant of a lien securing the Reference Obligation or that, regardless of the method of valuation, a court would not determine that the issuer was "insolvent" upon giving effect to such indebtedness or such lien. In addition, in the event of the insolvency of an issuer of a Reference Obligation, payments made on such Reference Obligation or a lien securing such Reference Obligation could be subject to avoidance as a "preferential" if made within a certain period of time (which may be as long as one year or longer) before insolvency. Payments made under loans underlying Reference Obligations may also be subject to avoidance in the event of the bankruptcy of the borrower.

In general, if payments on a Reference Obligation are avoidable, whether as fraudulent conveyance or preference, such payments can be recovered. To the extent that any such payments are recovered, the resulting loss will be borne first by the Holders of the Class A Notes, then by the Holders of the Class C Notes and finally, by the Holders of the Class B Notes, then by the Holders of the Class D Notes, then by the Holders of the Class A Notes and finally, by the Holders of the Class B Notes.

Illegality of CDS Transactions: Certain Restrictions on Transfer. There may be a limited trading market for many of the CDS Transactions entered into by the Issuer, and in certain instances there may be effectively no trading market therefor. The illegality of CDS Transactions may also affect the ability of the Issuer to conduct a successful Offer to Redeem, Tag Redemption or Auction, to exercise redemptions and may also affect the amount and timing of receipt of proceeds from the disposition of CDS Transactions in connection with the exercise of remedies following an Event of Default.

Volatility of Market Value of Collateral Securities. CDS Transactions and the related Reference Obligations. The market value of the Collateral Securities, CDS Transactions and the related Reference Obligations...
Footnote Exhibits - Page 5719

will generally fluctuate with, among other things, changes in prevailing interest rates, general economic conditions, the condition of certain financial markets, developments or trends in any particular industry and the financial condition of the parties to, or issuer of, the Collateral Securities, CDS Transactions and the related Reference Obligations. A decline in the market value of the Collateral Securities, CDS Transactions and the related Reference Obligations would adversely affect the proceeds that could be obtained upon the assignment, termination or other disposition of the Collateral Securities, CDS Transactions and the related Derivatives Obligations and could ultimately affect the ability of the Issuer to effect an Auction, an Optional Redemption or a Tax Redemption, or to pay the principal of the Notes upon a liquidation of the Collateral Securities, CDS Transactions and the related Derivatives Obligations following the occurrence of an Event of Default.

Interest Rate Risk. There will be a basis and timing mismatch between such Notes and the Collateral Securities which bear interest at a floating rate, since the interest rate on such Collateral Securities bearing interest at a floating rate may adjust more frequently (or less frequently, in different amounts and based on different indices) than the interest rate on the Notes.

Concentration Risk. The Issuer will invest in CDS Transactions which relate to the portfolio of Reference Obligations described in Appendix B hereto. Payments on the Notes could be adversely affected by the concentration in the portfolio of any one issuer or any one servicer if such issuer or servicer were to default. No single issuer will represent as of the Closing Date more than approximately 6.64% of the Aggregate Reference Obligation Notional Amount. See "The Credit Default Swap—The Reference Portfolio."

PROSPECTIVE PURCHASERS OF THE NOTES SHOULD CONSIDER AND ASSESS FOR THEMSELVES THE LIKELIHOOD OF A DEFAULT BY EITHER THE CREDIT PROTECTION BUYER, AS WELL AS THE OBLIGATIONS OF THE ISSUER UNDER EITHER THE CREDIT PROTECTION BUYER, INCLUDING THE OBLIGATION TO MAKE TERMINATION PAYMENTS TO EITHER THE CREDIT PROTECTION BUYER.

Other Considerations

Changes in Tax Law; No Gross-Up. Under current tax law of the United States and other jurisdictions, payments made by the Credit Protection Buyer under the Credit Default Swap and obligations on any Eligible Investments are not expected to be subject to the imposition of U.S. federal or other withholding tax. There can be no assurance, however, that as a result of a change in any applicable law, treaty, rule or regulation or interpretation thereof or other causes, such payments might not in the future become subject to U.S. federal or other withholding tax. In the event that any withholding tax should be determined to be applicable to payments on any Eligible Investments and the obligor thereon were then required to make "gross-up" payments that cover the full amount of any such withholding taxes, such tax would reduce the amounts available to make payments on the Notes.

In the event that any withholding tax is imposed on payments on the Notes, the Holders of such Notes will not be entitled to receive "grossed-up" amounts to compensate for such withholding tax. In addition, 90 days following the issuers becoming aware of the occurrence of a Tax Event (which 90-day period may be extended by 90 days, if the Issuer will not make in whole but not in part, or applicable Secured Note Redemption Price or the Income Note Redemption Price, as applicable, specified herein, the Notes in accordance with the procedures described under "Description of the Notes—Tax Redemption," "Optional Redemption—Optional Redemption Tax Redemption Procedure" herein.

Lack of Operating History. Each of the Issuers is a newly organized entity and has no prior operating history. Accordingly, neither of the Issuers has a performance history for a prospective investor to consider.

Investment Company Act. Neither of the Issuer has registered with the United States Securities and Exchange Commission (the "SEC") as an investment company pursuant to the Investment Company Act. The Issuer has not so registered in reliance on an exception for investment companies organized under the laws of a jurisdiction other than the United States whose investor resident in the United States are solely Qualified Purchasers and which do not make a public offering of their securities in the United States. Consent for the Issuer will remain, in connection with the sale of the Notes by the Initial Purchaser, that neither the Issuer nor the Co-Issuer is the Closing Date an investment company required to be registered under the Investment Company Act

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912621
Footnote Exhibits - Page 5720

(assuming, for the purposes of each opinion, that the Notes are sold by the Initial Purchaser in accordance with the terms of the Purchase Agreement). No opinion or no-action position has been requested by the SEC.

If the SEC or a court of competent jurisdiction were to find that the Issuer or the Co-Issuer is required, but in violation of the Investment Company Act had failed, to register as an investment company, possible consequences include, but are not limited to, the following: (i) the SEC could apply to a district court to enjoin the violation; (ii) investors in the Issuer or the Co-Issuer could sue the Issuer or the Co-Issuer, as the case may be, and recover any damages caused by the violation; and (iii) any contract to which the Issuer or the Co-Issuer, as the case may be, is a party that is made in, or whose performance involves a violation of the Investment Company Act would be unenforceable by any party to the contract unless a court were to find that under the circumstances enforcement would produce a more equitable result than non-enforcement and would not be inconsistent with the purposes of the Investment Company Act. Should the Issuer or the Co-Issuer be subjected to any or all of the foregoing, the Issuer or the Co-Issuer, as the case may be, would be materially and adversely affected.

The Notes are only permitted to be transferred to Qualified Institutional Buyers in transactions meeting the requirements of Rule 144A and, solely in the case of the Inflation-Indexed Notes, to Accredited Investors having a net worth of not less than U.S.$10 million in transactions exempt from registration under the Securities Act, or in an offshore transaction, to a non-U.S. Person, complying with Rule 903 or Rule 904 of Regulation S. The Notes being offered in the United States are being offered only to persons that are also Qualified Purchasers. Any non-permitted transfer will be voided and the Issuer may require the transferee to sell its Notes to a permitted transferee, with such sale to be effected within 10 days after notice of such sale requirement is given. If such sale is not effected within such 10-day period, upon written direction from the Issuer or the Liquidity Agent, on behalf of the Issuer, will be authorized to conduct a commercially reasonable sale of such Notes to a permitted transferee and pending such transfer, no further payments will be made in respect of such Notes or any beneficial interest therein. See “Description of the Notes—Form of the Notes” and “Notice to Investors.”

Credit Ratings. Credit ratings of debt securities represent the rating agencies’ opinions regarding their credit quality and are not a guarantee of quality. Rating agencies attempt to evaluate the safety of principal and interest payments and do not evaluate the risk of fluctuation in market value, therefore, they may not fully reflect the true risks of an investment. Also, rating agencies may fail to make timely changes in credit ratings in response to subsequent events, so that an issuer’s current financial condition may be better or worse than a rating indicates.

Document Repository. Pursuant to the Indenture, the Issuer will consent to the posting of this Offering Circular, the Indenture and certain periodic reports required to be delivered pursuant to the Transaction Documents, together with any amendments or modifications thereto, to the internet-based password-protected electronic repository of investor documents relating to privately offered and sold collateralized debt obligation securities located at “www.coldmoney.com.”

Implementation of Securities Regulation in Europe. As part of a coordinated action plan for harmonization of securities markets in Europe, the European Parliament and the Council of the European Union has adopted a series of directives, including the Prospectus Directive (2003/71/EC) and the Transparency Directive (2004/109/EC) and the Market Abuse Directive (2003/6/EC) which aim to ensure investor protection and market efficiency in accordance with high regulatory standards across the European Community. Pursuant to such directives member states must transpose or amend their national law to ensure compliance with the requirements of such directives. The introduction of such legislation has effected and will effect the regulation of issuers of securities that are offered to the public or admitted to trading on a European Union regulated market and of the nature and content of disclosure required to be made in respect of such issuers and their related securities. The listing of Notes on any European Union stock exchange would subject the Issuer to regulation under these directives; although the requirements applicable to the Issuer are not yet fully clarified. The Indenture will not require the Issuer to apply for, list or maintain a listing for any Class of Notes on a European Union stock exchange if such listing is authorized by or in compliance with those directives or other requirements adopted by the European Parliament and Council of the European Union or a relevant member state becomes burdensome. Should the Notes be delisted from any exchange, the ability of the holder of such Notes to sell such Notes in the secondary market may be negatively impacted.

GS MBS-E-000912622
EU Savings Directive. If, following implementation of European Council Directive 2003/46/EC, a payment were to be made or collected through a member state that consent for a withholding system and an amount of or in respect of tax were to be withheld from that payment, neither the issuer nor the Paying Agent nor any other person would be obliged to pay additional amounts as a result of the imposition of such withholding tax. If a withholding tax is imposed on a payment made by a paying agent following implementation of this Directive, the Issuer will be required to maintain a paying agent in a member state that will not be obliged to withhold or deduct tax pursuant to the Directive.

Certain Conflicts of Interest. Various potential and actual conflicts of interest may arise from the overall activities of the Credit Protection Buyer, the overall underwriting, investment and other activities of the Issuing Agent, their respective affiliates and its clients and employees and from the overall investment activity of the Initial Purchaser, including in other transactions with the Issuer. The following briefly summarizes some of these conflicts, but is not intended to be an exhaustive list of all such conflicts.

The Credit Protection Buyer. GSI will be the Initial Credit Protection Buyer. The following briefly summarizes some potential and actual conflicts of interests related to the Credit Protection Buyer, but the following is not intended to be an exhaustive list of all such conflicts.

GSI and/or its affiliates may be in possession of information in relation to a Reference Entity or otherwise that is or may be material in the context of the Notes and may or may not be publicly available to Holders. None of GSI or any of its affiliates has any obligation to disclose to Holders any such information.

GSI and/or any of its affiliates may invest and/or deal, for their own respective accounts for which they have investment discretion, in securities or in other interests in the Reference Entities, in obligations of the Reference Entities or in the obligations in respect of any Reference Obligations or Capped Securities (the “Investments”) or in credit default swaps (whether as protection buyer or seller), total return swaps or other instruments enabling credit and/or other risks to be traded that are linked to one or more Investments. Such Investments, credit derivatives and/or instruments may have the same or different terms from any of the credit derivatives referred to in the terms of the Notes. In addition, GSI and/or any of its affiliates may invest and/or deal, for their own respective accounts or for accounts for which they have investment discretion, in guarantees or state loans or have other rights that are senior to, or have interests different from or adverse to, any of the Investments and may act as or act as an advisor to, may be a lender to, and may have other ongoing relationships with, the Issuer or obligors of Investments and obligations of any Reference Entities. GSI may at certain times be simultaneously seeking to purchase or sell Investments and/or protection under credit derivatives or other instruments enabling and/or other risks to be traded for any entity for which it serves as manager in the future.

Various potential and actual conflicts of interest may arise from the overall activities of GSI and/or any of its affiliates. GSI and/or its affiliates may, among other things: (a) serve as directors, officers, partners, employees, agents, nominees or aigilates for any Investors, any originator and/or servicer of or any other party interested in an Investment or the obligors in respect of the Investments; (b) receive fees for services of any nature rendered to any obligor in respect of the Investments or any originator and/or servicer of or any other party interested in the Investments; (c) be a secured or unsecured creditor of, or hold an equity interest in any obligor in respect of the Investments, any originator and/or servicer of or any other party interested in the Investments; (d) underwrite, act as a distributor of, or make a market in any Investments, or in the securities of any originator and/or servicer of or any other party interest in the Investments; (e) invest in an Investment, or in any other securities issued by any originator and/or servicer of or any other party interested in the Investments; (f) serve as a member of any "advisory" committee with respect to any formal or informal workout group with respect to any obligor in respect of the Investments, any originator and/or servicer of or any other party interest in the Investments; (g) act as the advisor or investment advisor to any other person, entity or fund; and (h) maintain other relationships with any obligor in respect of the Investments, any originator and/or servicer of or any other party interested in the Investments.

Any existing amounts owed by the Issuer may be greater or less than the actual loss, if any, incurred by the Credit Protection Buyer with respect to the related Reference Obligation. The Credit Protection Buyer has no obligations to hold the Reference Obligations or to incur a loss in order to receive a credit protection payment. To
the extent it holds a Reference Obligation, the Credit Protection Buyer or their respective affiliates, as the case may be, will have the right to exercise of all the voting and consent rights of a holder of such Reference Obligation and it will exercise those rights in such manner as it determines to be in its own commercial interests without regard to the holders of the Notes.

The Liquidation Agent. GS&Co. will be the initial Liquidation Agent. Although the Liquidation Agent will exercise no discretion with respect to the Pledged Assets and the Liquidation Agent is not providing investment advisory services or acting as an advisor to, the Issuer or the Holders of the Notes, various potential and actual conflicts of interest may arise from the overall underwriting, investment and other activities of the Liquidation Agent, its affiliates and its clients. The Liquidation Agent is also the Initial Purchaser. The following briefly summarizes some of these conflicts, but is not intended to be an exhaustive list of all such conflicts.

The Liquidation Agent and its affiliates have ongoing relationships with, render services to, finance and engage in transactions with, and may own debt or equity securities issued by issuers of certain of the Reference Obligations and Collateral Securities. The Liquidation Agent, its affiliates and its clients may invest in securities that are senior or subordinated to, or have interests different from or adverse to, the Reference Obligations and Collateral Securities. The interests of such parties may be different from or adverse to the interests of the holders of the Notes. In addition, such persons may possess information relating to the Reference Obligations and Collateral Securities which is not known to the individuals at any time acquiring the obligations under the Liquidation Agency Agreements. Such persons will not be required (and may not be permitted) to share such information or pass it along to the Issuer, the Liquidation Agent or any holder of any Notes. Neither the Liquidation Agent nor any of such persons will have liability to the Issuer or any holder of any Notes for failure to disclose such information or for taking, or failing to take, any action based upon such information.

In addition, the Liquidation Agent and/or any of its affiliates may engage in any other business and furnish investment banking and other services to others which may include, without limitation, investing in, lending to, being affiliated with or have other ongoing relationships with, other entities organized to issue collateralized debt obligations secured by assets similar to the Reference Obligations, and the Collateral Securities and other trusts and pooled investment vehicles that acquire interests in, provide financing to, or otherwise deal with securities issued by issuers that would be suitable investments for the Issuer. In providing services to other clients, the Liquidation Agent and its affiliates may engage in activities that would compete with or otherwise adversely affect the Issuer. In addition, the Liquidation Agent will be free, in its sole discretion, to effect transactions on behalf of itself or for others, that may be the same as or different from those effected on behalf of the Issuer, and the Liquidation Agent and/or its affiliates may furnish investment banking or other services to others who may have investment policies similar to those followed by the Issuer and who may own securities of the same class, or which are the same type as, the Reference Obligations and the Collateral Securities on behalf of the Issuer. In addition, under certain circumstances, the Liquidation Agent will be required to dispose of certain CDS Transactions which reference Reference Obligations in accordance with the procedures set forth in the Liquidation Agency Agreements. Such disposition of CDS Transactions which reference Reference Obligations may result in losses to the Issuer, which losses may result in the reduction or withdrawal of the rating of any or all of the Notes by any of the Rating Agencies. In making any such sales, the Liquidation Agent need not take into account the interests of the Holders of the Notes or any other party. The Liquidation Agent and its affiliates may at certain times be simultaneously seeking to purchase or dispose of investments for their respective accounts or for another entity at the same time as it is disposing of investments for the Issuer. Accordingly, conflicts may arise regarding the allocation of sale opportunities.

No provision in the Liquidation Agency Agreement prevents the Liquidation Agent or any of its affiliates from rendering services of any kind to the Issuer or any Reference Obligations or Collateral Securities and their respective affiliates, the Trustee, the holders of the Notes or any other entity. Without prejudice to the generality of the foregoing, the Liquidation Agent and its affiliates, directors, officers, employees and agents may, among other things, (i) serve as a director, partner, officer, employee, agent, nominee or guarantor for an issuer of any Reference Obligations or Collateral Securities, (ii) receive fees for services rendered to the Issuer or any Reference Obligations or any affiliate thereof, (iii) be a secured or unsecured creditor of, or hold an equity interest in, any issuer of any Reference Obligations or Collateral Securities, and (iv) serve as a member of any "credit committee" with respect to any Reference Obligations or Collateral Securities which has become or may become a Defaulted Obligation.
The Liquidation Agent or any of its affiliates or subsidiaries will be permitted to exercise all voting rights with respect to any Notes which they may acquire (other than with respect to a vote regarding the removal of the Liquidation Agent or the termination or assignment of the Liquidation Agency Agreement).

The Initial Purchaser, GICCo. will be the Initial Purchaser. Various potential and actual conflicts of interest may arise from the conduct by the Initial Purchaser and its affiliates in other transactions with the Issuer, including, without limitation, acting as counterparty with respect to the Credit Default Swap. GICCo. will also initially act as the Liquidation Agent under the Liquidation Agency Agreement. The following brief summary contains some of these conflicts, but is not intended to be an exhaustive list of all such conflicts.

It is expected that the Initial Purchaser and/or its affiliates and selling agent will have placed or underwritten certain of the Reference Obligations and Collateral Securities at original issuance, will own equity or other securities of issuers of or obliged on Reference Obligations and Collateral Securities and will have provided investment banking services, advisory, banking and other services to issuers of Reference Obligations and Collateral Securities. The Issuer may invest in the securities of companies affiliated with the Initial Purchaser and/or any of its affiliates or in which the Initial Purchaser and/or any of its affiliates have an equity or participation interest. The purchase, holding and sale of such investments by the Issuer may enhance the profitability of the Initial Purchaser's takeover net of all of its affiliates' own investments in such companies. In addition, it is expected that one or more affiliates of the Initial Purchaser will also act as counterparty with respect to all of the CDS Transactions. The Issuer may invest in money market funds that are managed by the Initial Purchaser or its affiliates; provided that such money market funds otherwise qualify as Eligible Investments. GICCo. and/or a consolidated entity controlled by GICCo. or an affiliate thereof is providing "warehouse" financing to the Issuer prior to the Closing Date and GICCo. selected the warehouse Credit Default Swap and Collateral Securities which will be held to the Issuer on the Closing Date pursuant to the terms of the Forward Purchase Agreement. No collateral manager or other person acting on behalf of the Issuer has received the prices mentioned pursuant to such Forward Purchase agreement (nor has there been any third party verification of such prices). See "Notes—Collateral Accumulation."

There are no limitations or restrictions on the Initial Purchaser or any of its affiliates with regard to acting as investment advisor, initial purchaser or placement agent (or in a similar role) to other parties or persons. This and other financial activities of the Initial Purchaser and/or its affiliates may give rise to additional conflicts of interest.

Anti-Money Laundering Provisions. The Uniting and Strengthening America By Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the "USA PATRIOT Act"), signed into law on and effective as of October 26, 2001, imposes anti-money laundering obligations on different types of financial institutions, including banks, brokers dealers and investment companies. The USA PATRIOT Act requires the Secretary of the United States Department of the Treasury (the "Treasury") to prescribe regulations to define the types of investment companies subject to the USA PATRIOT Act and the related anti-money laundering obligations. It is not clear whether the Treasury will require entities such as the Issuer to meet anti-money laundering policies. It is possible that the Treasury will promulgate regulations requiring the Issuer or the Initial Purchaser or other service providers to the Issuer, in connection with the establishment of anti-money laundering procedures, to share information with governmental authorities with respect to investors in the Secured Notes and/or the Income Notes. Such legislation and/or regulations could require the Issuers to implement additional restrictions on the transfer of the Secured Notes and/or the Income Notes. As may be required, the Issuer reserves the right to request such information and take such actions as are necessary to comply with the USA PATRIOT Act.

The Issuer. The Issuer is a newly incorporated Cayman Islands exempted company and has no substantial prior operating history. The Issuer will have no significant assets other than the CDS Transactions, the Collateral Securities, Eligible Investments, rights under the Credit Default Swap, rights under the Liquidation Agency Agreement, and certain other accounts and agreements entered into as described herein, and proceeds thereof, all of which have been pledged to the Trustee to secure the Issuer's obligations to the Holders of the Secured Notes and the Credit Protection Buyer. The Issuer will not engage in any business activity other than the issuance and sale of the Secured Notes and the Income Notes as described herein, the issuance of the Ordinary Shares, the entering into and performance of its obligations under the Credit Default Swap, the acquisition and disposition of Collateral Securities and Eligible Investments as described herein, the entering into of, and the performance of its obligations under, the Trust Agreement, the Account Agreement, the Liquidation Agency Agreement, the Collateral Administration Agreement, any other applicable Transaction Documents, the pledge of the

Pledged Assets as security for its obligations in respect of the Secured Notes and otherwise for the benefit of the Secured Parties, certain assets contained in connection with the payment of amounts in respect of the Secured Notes and the Income Notes and the management of the Pledged Assets and other activities incidental to the foregoing. Income derived from the Pledged Assets will be the Issuer’s only source of cash.

The Co-Issuer. The Co-Issuer is a newly incorporated Delaware corporation and has no prior operating history. The Co-Issuer does not have and will not have any significant assets. The Co-Issuer will not engage in any business activity other than the co-issuance of the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes.

Tax. See “Inclusion Tax Considerations.”

ERISA. See “ERISA Considerations.”

Listing: Applications may be made to the Irish Stock Exchange for the Notes to be admitted to the official list of the Irish Stock Exchange and to trading on its regulated market. There can be no assurance that any application will be approved or that, if it is approved, that it will be maintained by the Issuer. If any Class or Classes of Notes are admitted to the official list of the Irish Stock Exchange, the Issuer may at any time terminate the listing of such Notes. If the Issuer terminates the listing, it may, but is under no obligation to, seek a replacement listing on another stock exchange.

DESCRIPTION OF THE NOTES

The Secured Notes will be issued by the Issuers pursuant to the Indenture. The Income Notes will be issued by the Issuer pursuant to the Fiscal Agency Agreement. The following summary describes certain provisions of the Notes, the Indenture and the Fiscal Agency Agreement. This summary does not purport to be complete and is subject to, and qualified in its entirety by reference to, the provisions of the Notes, the Indenture and the Fiscal Agency Agreement. Copies of the Indenture may be obtained by prospective purchasers of the Secured Notes upon request in writing to the Trustee at LaSalle Bank National Association, 181 W. Madison Street, 17th Floor, Chicago, Illinois 60602, Attention: CDO Trust Services Group —Anderson Mezzanine Funding 2007-1, Ltd. (telephone number (312) 992-5312). Copies of the Fiscal Agency Agreement may be obtained by prospective purchasers of Income Notes upon request in writing to the Fiscal Agent at LaSalle Bank National Association, 181 W. Madison Street, 17th Floor, Chicago, Illinois 60602, Attention: CDO Trust Services Group —Anderson Mezzanine Funding 2007-1, Ltd (telephone number (312) 992-5312).

Status and Security

The Co-Issued Notes will be limited recourse obligations of the Issuer, secured as described below. The Income Notes will be limited recourse obligations of the Issuer, which will not be secured obligations of the Issuer and will only be entitled to receive amounts available for payment to the Holders of the Secured Notes after payment of all amounts payable prior thereto under the Priority of Payments. The Class B Notes will be senior in right of payment on each Payment Date to the Class A Notes, the Class C Notes, the Class D Notes and the Income Notes to the extent provided in the Priority of Payments. The Class A Notes will be senior in right of payment on each Payment Date to the Class B Notes, the Class C Notes, the Class D Notes and the Income Notes. Interests on the Class A-1a Notes, Class A-1b Notes and Class A-2 Notes will be paid pro rata (based upon amounts due). Payments of principal of the Class A-1 Notes will be either senior to or pro rata with payments of principal of the Class A-2 Notes as more fully described in the Priority of Payments. All principal allocated to the Class A-1 Notes will be allocated either (i) first to the Class A-1a Notes until the Class A-1a Notes are paid in full and then to the Class A-1b Notes or (ii) pro rata to the Class A-1a Notes and the Class A-1b Notes as more fully described in the Priority of Payments. The Class B Notes will be senior in right of payment on each Payment Date to the Class C Notes, the Class D Notes and the Income Notes. The Class C Notes will be senior in right of payment on each Payment Date to the Class D Notes and the Income Notes. The Class D Notes will be senior in right of payment on each Payment Date to the Income Notes. See “—Priority of Payments.”

Confidential Treatment Requested by Goldman Sachs

OS MBS-E-000912026
Under the terms of the Indenture, the Issuer will grant to the Trustees, for the benefit and security of the Trustees on behalf of the Secured Notes, the Fiscal Agent, the Liquidation Agent and the Credit Protection Buyer (but only to the extent of (a) the Collateral Securities and Eligible Investments in the Collateral Account and (b) the Delivered Obligations in the Delivered Obligations Account (collectively, the “Secured Parties”), a first优先 security interest in (i) the Credit Default Swap; (ii) the Interest Collection Account; (iii) the Payment Account; (iv) the Eligible Reserve Account; (v) the Collateral Obligations Account; (vi) the Monetization Account; (vii) the CDSCollateralized Collateral Account and (viii) the Collateral Account (including the Cash Collateral Account) (jointly (i) through (viii), the “Accounts”); (v) Eligible Investments; (vi) the Issuer’s rights under the Credit Default Swap; (vii) the Issuer’s rights under the Liquidation Agency Agreement and (viii) certain other property (collectively, the “Pledged Assets”). Payments of interest on and principal of the Secured Notes and payments to the Holders of the Income Notes, will be made solely from the proceeds of the Pledged Assets in accordance with the Priority of Payments.

The aggregate amount that will be available for payments required or permitted to be made on the Notes and of certain expenses of the Issuer, the Trustees and the Agents on any Payment Date will be the total amount of Proceeds received during the period in “Due Period”) ending on (and including) the fourth Business Day prior to such Payment Date (or, in the case of a Due Period that is applicable to the Payment Date relating to the Issued Maturity of any Note, ending on (and including) the day preceding such Payment Date), and commencing immediately following the fourth Business Day prior to the preceding Payment Date (or, in the case of the Due Period relating to the first Payment Date, on the Closing Date).

Interest on the Secured Notes

The Class S Notes will bear interest during each Interest Accrual Period at the Class S Note Interest Rate for such Interest Accrual Period. The Class A-1a Notes will bear interest during each Interest Accrual Period at the Class A-1a Note Interest Rate for such Interest Accrual Period. The Class A-1b Notes will bear interest during each Interest Accrual Period at the Class A-1b Note Interest Rate for such Interest Accrual Period. The Class A-2b Notes will bear interest during each Interest Accrual Period at the Class A-2b Note Interest Rate for such Interest Accrual Period. The Class B Notes will bear interest during each Interest Accrual Period at the Class B Note Interest Rate for such Interest Accrual Period. The Class C Notes will bear interest during each Interest Accrual Period at the Class C Note Interest Rate for such Interest Accrual Period. The Class D Notes will bear interest during each Interest Accrual Period at the Class D Note Interest Rate for such Interest Accrual Period.

Interest with respect to the Class S Notes, the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes will be payable monthly in arrears on each Payment Date, commencing on the July 2007 Payment Date, and on the first Business Day of each month thereafter in an amount equal to the outstanding principal amount of the Notes on the Interest Accrual Date for such Interest Accrual Period, multiplied by one-twelfth of the applicable annualized yield on the Notes as determined by the Issuer. The Issuer will pay interest and all other amounts due under the Indenture and the Notes in lawful money of the United States at the address of the Issuer specified in the Indenture, or at such other place as the Issuer may designate in writing.

If funds are not available on any Payment Date to pay the full amount of interest on the Class C Notes, or to the extent interest that is due on such Notes is not paid in order to satisfy certain Coverage Tests, the interest not paid (the “Class C Deflected Interest”), will not be due and payable on such Payment Date, but will be added to the principal amount of the Class C Notes and, to the extent lawful and enforceable, thereafter shall accrue interest at the Class C Note Interest Rate. If funds are not available on any Payment Date to pay the full amount of interest on the Class D Notes, or to the extent interest that is due on such Notes is not paid in order to satisfy certain Coverage Tests, the interest not paid (the “Class D Deflected Interest”), will not be due and payable on such Payment Date, but will be added to the principal amount of the Class D Notes and, to the extent lawful and enforceable, thereafter shall accrue interest at the Class D Note Interest Rate. So long as any Class S Notes, Class A Notes, Class B Notes or Class C Notes are outstanding, the failure to pay interest to the Holders of the Class C Notes will not be an Event of Default under the Indenture. So long as any Class S Notes, Class A Notes, Class B Notes or Class C Notes are outstanding, the failure...
Footnote Exhibits - Page 5726

to pay interest to the Holders of the Class D Notes will not be an Event of Default under the Indenture. See "— Priority of Payments" and "— The Indenture—Events of Default."

Interest will cease to accrue on each Secured Note from the date of repayment in full or Stated Maturity, or in the case of partial repayment, on such part, unless payment of principal is improperly withheld or if demand is otherwise made with respect to such payments of principal. See "— Principal." To the extent lawful and enforceable, interest on any Defaulted Interest on each Class of Secured Notes entitled thereto will accrue at the interest rate applicable to each Class of Notes, until paid as provided herein. "Defaulted Interest" means any interest due and payable in respect of any Class S Note, Class A Note or Class B Note or if there are no Class S Notes, Class A Notes or Class B Notes outstanding, any Class C Note or if there are no Class S Notes, Class A Notes, Class B Notes or Class C Notes outstanding, any Class D Note which, in any case, is not punctually paid or duly provided for on the applicable Payment Date or at Stated Maturity, as the case may be.

Determination of LIBOR

For purposes of calculating each of the Note Interest Rates, the Issuers will appoint as agent LaSalle Bank National Association (in such capacity, the "Note Calculation Agent"). LIBOR shall be determined by the Note Calculation Agent in accordance with the following provisions:

(2) On the second Business Day prior to the commencement of an Interest Accrual Period (each such day, a "LIBOR Determination Date"); LIBOR ("LIBOR") shall equal the rate, as obtained by the Note Calculation Agent, for Eurodollar deposits for, with respect to the Class S Notes, the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes, a one-month period (or, in the case of a designated initial payment period of less than 25 days or, in the case of the first Interest Accrual Period, the linear interpolation thereof, calculated in accordance with generally acceptable methodology, which appears on Bridge Termate Page 3750 (as Termate is defined in the International Swaps and Derivatives Association, Inc. Annex to the 2000 ISDA Definitions (June 2000 version)); or such page as may replace Bridge Termate Page 3750, as of 11:00 a.m. (London time) on each LIBOR Determination Date.

(3) If, on any LIBOR Determination Date, such rate does not appear on Bridge Termate Page 3750, or such page as may replace Bridge Termate Page 3750, the Note Calculation Agent shall determine the arithmetic mean of the offered quotations of the Reference Banks to leading banks in the London interbank market for Eurodollar deposits for, with respect to the Class S Notes, the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes, a one-month period (or, in the case of a designated initial payment period of less than 25 days or, in the case of the first Interest Accrual Period, the linear interpolation thereof, calculated in accordance with generally acceptable methodology, as an amount determined by the Note Calculation Agent by reference to requests for quotations as of approximately 11:00 a.m. (London time) on the LIBOR Determination Date made by the Note Calculation Agent to the Reference Banks. If, on any LIBOR Determination Date, at least two of the Reference Banks provide a quotation, LIBOR shall equal such arithmetic mean of such quotations. If, on any LIBOR Determination Date, only one or none of the Reference Banks provide such quotations, LIBOR shall be deemed to be the arithmetic mean of the offered quotations that leading banks in the City of New York provided by the Note Calculation Agent (after consultation with the Issuer or the Liquidation Agent on behalf of the Issuer) or by reference to the principal London offices of leading banks in the London interbank market; provided, however, that if the Note Calculation Agent is required but is unable to determine a rate in accordance with at least one of the procedures provided above, LIBOR shall be LIBOR as determined on the most recent date LIBOR was available. As used hereinafter, "Reference Banks" means four major banks in the London interbank market selected by the Note Calculation Agent (after consultation with the Issuer or the Liquidation Agent on behalf of the Issuer).

As soon as possible after 11:00 a.m. (New York time) on each LIBOR Determination Date, but in no event later than 11:00 a.m. (New York time) on the Business Day immediately following each LIBOR Determination Date, the Note Calculation Agent will cause notice of such of the Note Interest Rates for the next Interest Accrual Period and the amount of Interest for each Interest Accrual Period payable in respect of each U.S.$1,000 principal amount of the Class S Notes (the "Class S Note Interest Amount"); of the Class A-1a Notes (the "Class A-1a Note Interest Amount"); of the Class A-1b Notes (the "Class A-1b Note Interest Amount"); and of the Class A-2 Notes (the "Class A-2 Note Interest Amount") to be paid to the Holders of the Class S Notes, Class A-1a Notes, Class A-1b Notes, Class A-2 Notes, Class B Notes, Class C Notes, Class D Notes, Class A Notes, Class B Notes, Class C Notes, Class D Notes, Class A-1a Notes, Class A-1b Notes, Class A-2 Notes, Class B Notes, Class C Notes, and Class D Notes, respectively.
Footnote Exhibits - Page 5727

"Class A-2 Note Interest Amount" of the Class B Notes (the "Class B Note Interest Amount"), of the Class C Notes (the "Class C Note Interest Amount"), and of the Class D Notes (the "Class D Note Interest Amount") (collectively, the "Note Interest Amount") each rounded to the nearest cent, with half a cent being rounded upward on the related Payment Date, to be communicated to the Issuers, DTC, Euroclear, Clearstream, the Note Paying Agent, the Trustee, the Liquidation Agent, the Securities Intermediary and the Irish Paying Agent (if any) for further delivery to the Irish Stock Exchange (as long as any Class Notes is listed on such exchange). In the last case, the Note Calculation Agent will furnish such information as soon as possible after its determination to the Irish Paying Agent (if any) as long as any Notes are listed on the Irish Stock Exchange. The Note Interest Amount on any Payment Date of any Class of Notes shall be calculated based on the Outstanding principal balance of such Class prior to the payment of any Amortization Share Amount. The Note Calculation Agent will also specify to the Issuers and the Liquidation Agent the payments upon which each of the Note Interest Amounts is based. The Note Calculation Agent shall notify the Issuers and the Liquidation Agent before 11:50 a.m. (New York time) on any LIBOR Determination Date if it has not determined and is not in the process of determining the applicable Note Interest Rates and Note Interest Amounts (collectively, "Interest Calculations"), together with its reasons therefor. "Business Day" means any day other than (x) Saturday or Sunday or (y) a day on which commercial banking institutions are authorized or obligated by law, regulation or executive order to close in New York, New York, Chicago, Illinois, the city of the Corporate Trust Office or, for the purposes of the Credit Default Swap only, London, provided, however, that for the sole purpose of determining LIBOR, "Business Day" shall be defined as any day on which dealings in deposits in U.S. dollars are transacted in the London interbank market and provided further, that to the extent action is required of the Irish Paying Agent (if any), the location of such Irish Paying Agent shall be considered in determining the "Business Day" for purposes of determining when such Irish Paying Agent action is required.

The Note Calculation Agent may not be removed by the Issuers unless the entity that is serving as Trustee is removed as trustee. If the Note Calculation Agent is unable or unwilling to act as such or, in accordance with the foregoing sentence, is removed by the Issuers, or if the Note Calculation Agent fails to determine the applicable Interest Calculations for any Interest Accrual Period, the Issuers will promptly appoint as a replacement Note Calculation Agent a leading bank which is engaged in transactions in Eurodollar deposits in the international Eurodollar market and which does not control or is not controlled by or under common control with the Issuers or their affiliates. The Note Calculation Agent may not resign its duties without a successor having been duly appointed. In addition, if and for so long as any Notes are listed on the Irish Stock Exchange and the notes of such exchange are required, notice of the appointment of any Note Calculation Agent will be furnished to such stock exchange. For so long as any of the Notes remain outstanding, there will at all times be a Note Calculation Agent for the purpose of calculating the applicable Interest Calculations. The determination of the applicable Interest Calculations by the Note Calculation Agent shall (in the absence of manifest error) be final and binding upon all parties.

Payments on the Income Notes

The Income Notes will not bear interest based upon any fixed or floating rate.

The Initial Agent will receive Proceeds on each Quarterly Payment Date (and make payments to the Holders of the Income Notes) in the amount prescribed in the Indenture, if any, such Proceeds are available pursuant to clause (vii) (or pursuant to clause (viii) (in the case of the Final Payment Date) under "—Priority of Payments." Such payments will be made on the Income Notes only after all interest and other payments due on the Secured Notes have been made and all expenses of the Issuers have been paid (with such remaining Proceeds referred to as "Excess Amounts"). See "Risk Factors—Notes—Subordination of the Income Notes; Unsecured Obligations."

Except as indicated in the Priority of Payments, no principal payments will be made on the Income Notes until principal of, and accrued and unpaid interest on, the Secured Notes, and all other payments, fees and expenses, have been paid in full in accordance with the Priority of Payments.

Principal

The Notes (other than the Class S Notes) will mature on the Payment Date in July 2042 (such each such date the "Stated Maturity" with respect to such Notes) and the Class S Notes will mature on the Payment Date in July 2013.
(the "Stated Maturity" with respect to the Class S Notes). The average life of each Class of Secured Notes (other than the Class S Notes) is expected to be substantially shorter than the number of years from issuance until the Stated Maturity for each Class of Notes. See "Risk Factors—Notes—Average Lives, Duration and Prepayment Considerations."

Principal will be payable on the Class S Notes in accordance with the Priority of Payments on each Payment Date commencing on the Payment Date occurring in August 2007 in an amount equal to the Class S Notes Amortizing Principal Amount with respect to each Payment Date and, if an Event of Default or Tax Event has occurred and is continuing or as Optional Redemption or Annexation has occurred and the Hedged Assets are being liquidated pursuant to the terms of the Indenture, the Class S Notes will be paid in full prior to any distributions to any other Notes. Principal will be payable on certain of the Notes on each Payment Date, in accordance with the Priority of Payments. On any Payment Date, on which certain conditions are satisfied, principal will be paid to the Holders of the Class A Notes pursuant to the Priority of Payments, only in an amount required to increase (or maintain) the Class A Adjusted Overcollateralization Ratio to a specified target of 147.1%. After achieving and maintaining such target and minimum, the payment of remaining principal will shift to the Holders of the Class B Notes until such Holders have been paid an amount required to increase (or maintain) the Class B Adjusted Overcollateralization Ratio to the specified target of 114.0%. After achieving and maintaining such target level, the payment of remaining principal shifts to the Holders of the Class C Notes which will receive principal only in an amount required to increase (or maintain) the Class C Adjusted Overcollateralization Ratio to a specified target of 108.1%. However, if the Net Outstanding Portfolio Collateral Balance is less than U.S.$123,000,000 on the Determination Date with respect to the related Payment Date, then the only amount described above to be paid to the Class A Notes will be allocated or paid, such amount to be allocated, first, to the payment in full of principal of all outstanding Class A Notes (provided; however, that all principal allocated to the Class A-1 Notes will first be allocated to the Class A-1a Notes until the Class A-1a Notes are paid in full and then to the Class A-1b Notes until the Class A-1b Notes are paid in full and then to the Class A-1c Notes until the Class A-1c Notes are paid in full); second, to the payment of principal of all outstanding Class B Notes until the Class B Notes have been paid in full; third, to the payment of principal of all outstanding Class C Notes until the Class C Notes have been paid in full; fourth, to the payment of all outstanding Class D Notes until the Class D Notes have been paid in full. The foregoing "shifting principal" method permits Holders of the Class B Notes, the Class C Notes and the Class D Notes to receive payments of principal in accordance with the Priority of Payments while more senior Classes of Notes remain outstanding and permits distributions of Proceeds to the Holders of the Income Notes, to the extent funds are available in accordance with the Priority of Payments, while more senior Notes are outstanding. Accrued interest paid pursuant to the Priority of Payments to a junior Class of Secured Notes or to the Income Notes will not be recoverable in the event of a subsequent shortfall in the amount required to pay a more senior Class of Secured Notes.

Subject to the availability of funds therefor in accordance with the Priority of Payments, if any of the Coverage Tests are not satisfied on any applicable Determination Date, certain of the Secured Notes (other than the Class S Notes) will be subject to mandatory redemption on the related Payment Date until paid in full. See "— Mandatory Redemption" and the "—Priority of Payments" for a description of the order in which such Notes are paid in connection with the failure of a Coverage Test.

Scheduled Redemption of Income Notes

On or prior to the date that is one (1) Business Day prior to the end of the Due Period applicable to the Maturity Date, the Liquidating Agent will sell, assign, remunerate or otherwise dispose of all remaining Pledged Assets. The settlement dates for any such sales or other dispositions shall be no later than one (1) Business Day prior to the end of such Due Period. The proceeds of such sales or other dispositions will be paid to the Fiscal Agent after the payment of amounts due to the Holders of the Income Notes in the Priority of Payments for interest due on the account maintained thereby by the Fiscal Agent (the "Income Note Payment Account") and payments to the Holders of the Income Notes as the redemption price for the Income Notes upon such payment. Upon such payment, the Issuer shall redeem the Income Notes.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912630
Footnote Exhibits - Page 5729

Auction

Sixty (60) days prior to the Payment Date occurring in July of each year (each, an "Auction Date") commencing on the July 2015 Payment Date, the Liquidation Agent, on behalf of the Issuer, will take steps to conduct an auction (the "Auction") of the Credit Default Swap, the Eligible Investments (other than cash), the Delivered Obligations and the Collateral Securities in accordance with procedures specified in the Indenture. If the Liquidation Agent receives one or more bids from Eligible Bidders not later than ten (10) Business Days prior to the Auction Date, which, when added to the cash on deposit in the Collateral Account, equals or exceeds the Minimum Bid Amount, it will sell, assign, terminate or otherwise dispose of the Credit Default Swap, Eligible Investments (other than cash), the Delivered Obligations and the Collateral Securities for settlement on or before the fifth Business Day prior to each Auction Date and the Notes and the Income Notes will be redeemed in whole or in part on such Auction Date (any such date, an "Auction Payment Date"). The Liquidation Agent and its affiliates shall be considered Eligible Bidders. If the highest single bid on the entire portfolio, or the aggregate amount of multiple bids with respect to individual Collateral Securities, Eligible Investments (other than cash) and Delivered Obligations, when added to the other Liquidation Proceeds and cash on deposit in the Collateral Account, does not equal or exceed the Minimum Bid Amount or if there is a failure at settlement, the Credit Default Swap will not be terminated or assigned, the Eligible Investments (other than cash), Collateral Securities and the Delivered Obligations will not be sold and the redemption of the Notes on the related Auction Date will not occur.

The Notes will be redeemed in whole at the applicable Second Note Redemption Price following a successful Auction in accordance with the Priority of Payments. The amount distributable as the final payment on the Income Notes following any such redemption will equal the Income Note Redemption Price, which may be less than the then current Aggregate Outstanding Amount of the Income Notes.

Tax Redemption

Subject to certain conditions described herein, the Securities may be redeemed by the Issuer at any time, in whole but not in part, 90 days following the Issuer becoming aware of the occurrence of a Tax Event provided that such 90-day period shall be extended by another 90 days if, during the initial 90-day period, the Issuer has notified the Holders of the Notes that the Issuer expects (x) that it shall have changed its place of residence by the end of the later 90-day period at their Second Redemption Price or the Income Note Redemption Price, as applicable, at the written request of, or with the written consent of, (i) the Holders of at least a Super Majority of the Income Notes or (ii) the Holders of a Majority of any Class of Second Notes which, as a result of the occurrence of a Tax Event, has not received 100% of the aggregate amount of principal and interest or other amounts due and payable on such Notes on any Payment Date (such redemption, a "Tax Redemption"; provided that no such redemption shall be effected unless the expected Liquidation Proceeds equal or exceed the Total Redemption Amount); or, if a Tax Redemption occurs, the Income Notes will be redeemed simultaneously. If such Tax Redemption will occur unless all amounts payable to the Credit Protection Buyer or any assignee (including all Credit Default Swap Termination Payments) has been paid in full, in each case, on the redemption date.

In connection with a Tax Redemption, the Issuer shall notify the Trustee and the Principal Agent, of such Tax Redemption and the Payment Date which is the date for redemption (the "Tax Redemption Date") and direct the Trustee, in the name, and at the expense, of the Issuer to sell, assign, terminate or otherwise dispose of, in the manner determined by the Liquidation Agent, and in accordance with the Indenture, the Credit Default Swap, Collateral Securities, Eligible Investments and Delivered Obligations upon any such assignment, termination or other disposition, the Trustee shall release the lien upon the Credit Default Swap or any such Collateral Security, Eligible Investment and Delivered Obligation pursuant to the Indenture, provided, however, that the Issuer may not direct the Trustee to assign, terminate or otherwise dispose of any Collateral Security, Eligible Investment or Delivered Obligation except in accordance with the procedures set forth in the Indenture and, in addition, without limitation, the requirement that the Liquidation Agent shall have forwarded to the Trustee binding agreements or certificates evidencing that the Liquidation Proceeds anticipated from the disposition of the Pledged Assets equal or exceed the Total Redemption Amount. The proceeds available for distribution in connection with a Tax Redemption will be reduced by the amount of expected Credit Default Swap Termination Payments due to the Credit Protection Buyer or any assignees.
The amount payable to the Holders of the Second Notes in connection with any Tax Redemption of the Second Notes will equal the Second Note Redemption Prices thereof. The amount distributable as a final redemption payment on the Income Notes following any redemption of the Second Notes will equal the Income Note Redemption Price.

Optional Redemption

Subject to certain conditions described herein, the Second Notes may be redeemed by the Issuer, in whole but not in part, at their Second Note Redemption Prices or the Income Note Redemption Price, as applicable, on any Payment Date or after the July 3010 Payment Date; at the written direction of, or with the written consent of, the Holders of a majority of the Second Notes (including Income Notes held by the Liquidation Agent or any affiliate thereof) (such redemption, an "Optional Redemption"); provided that no Optional Redemption shall be effected unless the expected Liquidation Proceeds will equal or exceed the Total Redemption Amount. If the Holders of the Income Notes so elect to cause an Optional Redemption, the Income Notes will be redeemed simultaneously.

In connection with an Optional Redemption, the Issuer shall notify the Trustee and the Fiscal Agent, as applicable, of such Optional Redemption and the Optional Redemption Date and direct the Trustee, in writing, to sell, assign, terminate or otherwise dispose of, in the manner determined by the Liquidation Agent, and in accordance with the Indenture, the Credit Default Swap, Collateral Securities, Eligible Investments and Delivered Obligations and upon any such sale, assignment, termination or other disposition, the Trustee shall release the lien upon the Credit Default Swap, Collateral Securities, Eligible Investments and Delivered Obligations pursuant to the Indenture, provided, however, that the Issuer may not direct the Trustee to assign, terminate or otherwise dispose of (and the Trustee shall not be obligated to release the lien upon the Credit Default Swap or any Collateral Security, Eligible Investment or Delivered Obligation except in accordance with the procedures set forth in the Indenture including, without limitation, the requirement that the Liquidation Agent shall have forwarded to the Trustee binding agreements or certificates evidencing that the Liquidation Proceeds anticipated from the assignment, termination or other disposition of the Credit Default Swap, Collateral Securities, Eligible Investments and Delivered Obligations and other assets of the Issuer will equal or exceed the Total Redemption Amount.

The amount payable to the Holders of the Second Notes in connection with any Optional Redemption of the Second Notes will equal the Second Note Redemption Prices thereof. The amount distributable as a final redemption payment on the Income Notes following any redemption of the Second Notes will equal the Income Note Redemption Price.

Optional Redemption/Tax Redemption Procedures. To conduct an Optional Redemption or a Tax Redemption, the procedures set forth in the Indenture must be followed and any conditions precedent thereto must be satisfied.

If in the case of a Tax Redemption or an Optional Redemption of the Second Notes and the Income Notes, any Holder of an Income Note or, in the case of a Tax Redemption, any Holder of a Second Note affected by a Tax Event, desires to direct the Trustee with respect to the Second Notes and the Issuer with respect to the Income Notes to redeem the Second Notes and the Income Notes, such person shall notify the Principal Note Paying Agent, in the case of a Holder of Second Notes or the Fiscal Agent, in the case of a Holder of Income Notes, which in such case will in turn notify the Trustee (with a copy to the Issuer, the Liquidation Agent and the Credit Protection Buyer) of such desire in writing no less than thirty (30) Business Days prior to such Payment Date. Such notice shall be irrevocable.

The Trustee will provide notice of any Optional Redemption or Tax Redemption by first-class mail, postage prepaid, mailed not less than two (2) Business Days prior to the scheduled Tax Redemption Date or Optional Redemption Date, as applicable, to the Principal Note Paying Agent, to the Fiscal Agent, to the Credit Protection Buyer, the Rating Agencies and to each Holder of a Second Note at such Holder’s address to which the notice is required to be given. The Fiscal Agent will provide the same notice to each Holder of an Income Note at such Holder’s address in the Income Notes Register maintained by the Income Notes Trustee Agent pursuant to the Fiscal Agency Agreement. In addition, the Trustee or the Fiscal Agent will, if and for as long as any Class of Second Notes or the Income Notes to be redeemed is listed on the Irish Stock Exchange, direct the

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912632
Irish Paying Agent to (i) cause notice of such Optional Redemption or Tax Redemption to be delivered to the Company Announcements Office of the Irish Stock Exchange not less than ten (10) Business Days prior to the Redemption Date and (ii) promptly notify the Irish Stock Exchange of such Optional Redemption or Tax Redemption.

The initial paying agents for the Notes are LaSalle Bank National Association, as Principal Note Paying Agent, and, if and so long as any Notes are listed on the Irish Stock Exchange, the Irish Paying Agent.

Secured Notes or Income Notes called for redemption (other than in the case of an Auction) must be surrendered at the office of any paying agent appointed pursuant to the Indenture or the Fiscal Agency Agreement, respectively, in order to receive any final payments on the Notes. The initial paying agent for the Secured Notes and Income Notes is LaSalle Bank National Association and if and so long as any Notes are listed on the Irish Stock Exchange, the Irish Paying Agent.

Any such notice of redemption shall be deemed to be withdrawn in its entirety by the Issuer on the seventh Business Day prior to the scheduled redemption date if the Liquidation Agent shall not have delivered the said agreement or instruments, required by the Indenture by such date. In such event, the Trustee shall notify the Fiscal Agent that the notice of redemption has been withdrawn by overnight courier guaranteeing next day delivery sent not later than the seventh Business Day prior to such scheduled redemption date with a copy by facsimile transmission. The Liquidation Agent shall be liable only for the failure to effect an Optional Redemption or Tax Redemption due to the Liquidation Agent’s gross negligence or willful misconduct. Notice of any such withdrawal shall be given at the Issuer’s expense by the Trustee or the Fiscal Agent, as applicable, to each Holder of a Note at the address appearing in the applicable register maintained by the Note Transfer Agent under the Indenture or the Income Notes Trust Agreement under the Fiscal Agency Agreement, as applicable, by overnight courier guaranteeing next day delivery sent not later than the third Business Day prior to the scheduled redemption date, with a copy by facsimile transmission to the Credit Protection Buyer, the Liquidation Agent and the Rating Agencies (as long as any of the Notes are rated). The Trustee or the Fiscal Agent will also give notice to the Irish Paying Agent if any Notes are then listed on the Irish Stock Exchange.

Mandatory Redemption

On any Payment Date on which the Class A/B Overcollateralization Test was not satisfied on the last Business Day of the immediately preceding Due Period (such Business Day, the “Determination Date”), the Class A Notes and the Class B Notes will be redeemed at par plus accrued interest as follows:

If the Class A/B Overcollateralization Test is not satisfied on any Determination Date related to a Payment Date after giving effect to all payments of principal on such Payment Date (without giving effect to any payments pursuant to clause (vii) or clauses (l) and (n) of the Priority of Payments), all Proceeds net of amounts payable under clauses (i) through (vi) of the Priority of Payments will be used, first, pro rata, to the payment of principal of the Class A-1a Notes and the Class A-1b Notes until the Class A-1a Notes are paid in full, second, to the payment of principal of the Class A-2 Notes until the Class A-2 Notes are paid in full, and third, to the payment of principal of the Class B Notes until the Class B Notes are paid in full. The Class B Notes, the Class C Notes, the Class D Notes and the Income Notes will not be subject to mandatory redemption as a result of the failure of the Class A/B Overcollateralization Test.

If the Class C Overcollateralization Test is not satisfied on any Determination Date related to a Payment Date after giving effect to all payments of principal on such Payment Date (without giving effect to any payments pursuant to clause (vii) or clauses (l) and (n) of the Priority of Payments), (d) Amortization Proceeds only net of amounts payable under clause (i) through (vi) of the Priority of Payments will be applied pro rata (i) to the payment of principal of all outstanding Class A Notes, (ii) to the payment of principal of all outstanding Class B Notes and (iii) to the payment of principal of all outstanding Class C Notes, until the Class A Notes, the Class B Notes and the Class C Notes are paid in full, provided that, if the Net Outstanding Portfolio Collateral Balance is less than $512,900,000 on the Determination Date with respect to the related Payment Date, then such amount will be applied first, pro rata (i) to the payment of principal of all outstanding Class A Notes and the Class A-1b Notes until the Class A-1a Notes are paid in full, second, to the payment of principal of the Class A-2 Notes until the Class A-2 Notes are paid in full, third, to the payment of principal of the Class B Notes until the 59

Confidential Treatment Requested by Goldman Sachs GS MBS-E-000012633
Class B Notes are paid in full and fourth (iv) to the payment of principal of the Class C Notes until the Class C Notes are paid in full, and (v) any remaining Proceeds to the payment of principal of all outstanding Class C Notes until the Class C Notes are paid in full. The Class S Notes, the Class D Notes and the Income Notes will not be subject to mandatory redemption as a result of the failure of the Class C Overcollateralization Test.

If the Class D Overcollateralization Test is not satisfied on any Determination Date related to a Payment Date (together with the Class A/B Overcollateralization Test and the Class C Overcollateralization Test, the "Coverage Tests"); amounts available pursuant to clause (vi) of the Priority of Payments, will be applied to the payment of principal of all outstanding Class D Notes until the Class D Notes are paid in full. The Class S Notes, the Class A Notes, the Class B Notes, the Class C Notes and the Income Notes will not be subject to mandatory redemption as a result of the failure of the Class D Overcollateralization Test.

The Coverage Tests will be used primarily to determine whether interest may be paid on the Class C Notes and the Class D Notes and whether Proceeds will be distributed to the Holders of the Income Notes, and whether Proceeds must be used to make mandatory redemptions of the Class A-1 Notes, the Class A-2 Notes, the Class B Notes, the Class C Notes and the Class D Notes. See "Description of the Notes—Principal" and "Priority of Payments." The Coverage Tests will consist of the Class A/B Overcollateralization Test, the Class C Overcollateralization Test and the Class D Overcollateralization Test. For purposes of the Coverage Tests, (i) unless otherwise specified, a CDS Transaction shall be included as a Pledged Asset having the characteristics of the Reference Obligations and not of the CDS Transaction, provided, that if a Credit Protection Buyer is in default under the related CDS Transaction, such CDS Transaction shall not be included as a Collateral Asset for purposes of the Coverage Tests or such CDS Transaction will be treated in such a way that will satisfy the Rating Agency Conditions and (ii) the calculation of the Class A/B Overcollateralization Ratio, the Class C Overcollateralization Ratio and the Class D Overcollateralization Ratio on any Determination Date that such Coverage Test is applicable shall be made by giving effect to all payments scheduled or expected to be made pursuant to the Priority of Payments on the Payment Date following each Determination Date. For purposes of each of the Class A/B Overcollateralization Test, the Class C Overcollateralization Test and the Class D Overcollateralization Test, notwithstanding the dilution of Principal Balance contained herein, the Principal Balance of any security that is not currently paying cash interest (excluding any security that is, in accordance with its terms, making payments due "as and when due") shall be the accreted value of such security as of the date on which it was purchased by the Issuer; provided, that such accreted value shall not exceed the per amount of such security.

The Class A/B Overcollateralization Test

The "Class A/B Overcollateralization Ratio" as of any Determination Date will equal the ratio (expressed as a percentage) obtained by dividing (i) the Net Outstanding Portfolio Collateral Balance on such Determination Date by (ii) the Aggregate Outstanding Amount of the Class A Notes and the Class B Notes, minus the Amortization Proceeds expected to be available prior to clause (vi) of the Priority of Payments on the related Payment Date assuming that the Coverage Tests are satisfied.

The "Class A/B Overcollateralization Test" will be satisfied on any Determination Date on which any Class A Notes or Class B Notes remain outstanding if the Class A/B Overcollateralization Ratio on such Determination Date is equal to or greater than 116.0%. As of the Closing Date, the Class A/B Overcollateralization Ratio is expected to be equal to 119.5%.

The Class C Overcollateralization Test

The "Class C Overcollateralization Ratio" as of any Determination Date will equal the ratio (expressed as a percentage) obtained by dividing (i) the Net Outstanding Portfolio Collateral Balance on such Determination Date by (ii) the Aggregate Outstanding Amount of the Notes (other than the Class S Notes, the Class D Notes and the Income Notes, and including Class C Deferred Interest), minus the Amortization Proceeds expected to be available prior to clause (vi) of the Priority of Payments on the related Payment Date assuming that the Coverage Tests are satisfied.

The "Class C Overcollateralization Test" will be satisfied on any Determination Date on which any Class C Notes remain outstanding if the Class C Overcollateralization Ratio on such Determination Date is equal to or
Footnote Exhibits - Page 5733

1662

greater than 109.9%. As of the Closing Date, the Class C Overcollateralization Ratio is expected to be equal to 111.7%.

The Class D Overcollateralization Test

The "Class D Overcollateralization Ratio" as of any Determination Date will equal the ratio (expressed as a percentage) obtained by dividing (i) the Net Outstanding Portfolio Collateral Balance on such Determination Date by (ii) the Aggregate Outstanding Account of the Notes (other than the Class D Notes and Income Notes and including Class C Deferral Interest and Class D Deferral Interest), (after giving effect to the application of funds pursuant to clause (vi) of the Priority of Payments on the related Payment Date), assuming that the Coverage Tests are satisfied.

The "Class D Overcollateralization Test" will be satisfied on any Determination Date on which any Class D Notes remain outstanding if the Class D Overcollateralization Ratio on such Determination Date is equal to or greater than 105.9%. As of the Closing Date, the Class D Overcollateralization Ratio is expected to be equal to 107.4%.

Cancellation

All Notes that are referenced as paid and surrendered for cancellation as described herein will forthwith be canceled and may not be resold or resold.

Payments

Payments on any Payment Date in respect of principal and interest on the Notes issued or Global Notes will be made to the person in whose name the relevant Global Note is registered at the close of business on the Business Day prior to such Payment Date. For the Notes issued in definitive form, payments on any Payment Date in respect of principal, interest and other distributions will be made to the person in whose name the relevant Security is registered at the close of business 10 Business Days prior to such Payment Date. Payments on the Global Notes will be payable by wire transfer to immediately available funds to a U.S. Dollar account maintained by DTC or its nominee (in the case of the Global Notes) or each Holder (in the case of individual Definitive Notes) to the extent practicable or otherwise by U.S. Dollar check drawn on a bank in the United States and by mail either to DTC or its nominee (in the case of the Global Notes), or to each Holder at an address appearing in the applicable register. Final payments in respect of principal on the Notes will be made only against surrender of the Notes at the office of any paying agent. None of the Issuers, the Securitization Intermediary, the Trustee, the Liquidation Agent, the Collateral Pledges Buyer or any paying agent will have any responsibility or liability for any aspects of the records maintained by DTC or its nominee or any of its participants relating to, or for payments made or held on account of beneficial interests in a Global Note.

The Issuers expect that DTC or its nominee, upon receipt of any payment of principal or interest in respect of a Global Note held by DTC or its nominee, will immediately credit participants’ accounts with payments in amounts proportionate to their respective beneficial interests in such Global Notes as shown on the records of DTC or its nominee. The Issuers also expect that payments by participants to owners of beneficial interests in such Global Notes held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

If any payment on a Note is due on a day that is not a Business Day, then payment will not be made until the next succeeding Business Day.

If paid for so long as the Notes are listed on the Irish Stock Exchange and the rules of such exchange so require, the Issuers will have a paying agent and a transfer agent in accordance with the requirements of the rules of such exchange for such Notes and payments on and transfers or exchanges of interest in such Notes may be effected through the Irish Paying Agent. In the event that the Irish Paying Agent (if any) is replaced at any time during such
period, notice of the appointment of any replacement will be given to the Irish Stock Exchange if and as long as any Notes are listed thereon.

Amortization Amounts

Two Business Days prior to each Payment Date, to the extent there is a positive Aggregate Amortization Amount for such Payment Date determined as of the related Determination Date, pursuant to the Amortization Liquidation Procedure, an amount (such amount, the "Amortization Proceeds" with respect to such Payment Date) equal to up to the Aggregate Amortization Amount shall be withdrawn by the Trustee and deposited in the Payment Account for application in accordance with the Priority of Payments on such Payment Date.

If on any Payment Date there exists an Amortization Shortfall Amount, the Collateral Account Amount shall be deemed to be reduced by the full Aggregate Amortization Amount and the Trustee shall calculate, and maintain a record of, how much Amortization Shortfall Amount would have been paid out on a pro forma basis on such Payment Date in accordance with the Priority of Payments had the amount available pursuant to the Amortization Liquidation Procedure from the Collateral Account on such Payment Date been equal to the full Aggregate Amortization Amount. In such case, following any payment Date on which an Amortization Shortfall Amount occurred, all principal payments received by the Issuer on the Collateral Securities and the Eligible Investments in the Collateral Account up to an amount equal to such Amortization Shortfall Amount shall be deposited by the Trustee in the Amortization Shortfall Account. Amounts on deposit in the Amortization Shortfall Account shall be applied by the Trustee on the immediately following Payment Date for the purpose and to the Persons that would have otherwise received such amounts in accordance with the calculations (and records) of the Trustee maintained pursuant to the first sentence of this paragraph. To the extent there remains any unsatisfied Amortization Shortfall Amount on the next Payment Date, for purposes of calculating the Amortization Proceeds on such Payment Date the Principal Balance of the Collateral Securities and Eligible Investments on deposit in the Collateral Account shall be reduced by the amount of any unsatisfied Amortization Shortfall Amount from any prior Payment Date.

Priority of Payments

With respect to any Payment Date, all Proceeds received on the Pledged Assets during the related Due Period in the Internet Collection Account will be applied by the Trustee in the priority set forth below (the "Priority of Payments"). For purposes of the Priority of Payments, amounts paid as interest, fees or distributions on the Notes on a "pro rata" basis shall be pro rata based on the amount due on each Class or selection of Notes, amounts paid as principal shall be pro rata based on the amount of principal then outstanding on each Class or selection of Notes and unless stated otherwise, Proceeds not constituting Amortization Proceeds will be assumed to be applied prior to any Amortization Proceeds.

Amounts due in respect of Defaulted Credit Default Swap Terminations Payments shall be deposited into the Payment Account and paid in accordance with the Priority of Payments on each Payment Date. Credit Protection Amounts due to the Credit Protection Buyer (or any assigns thereof) will be paid when due pursuant to the terms of the Credit Default Swap.

On the Business Day prior to each Payment Date (other than a Final Payment Date), the Trustee will transfer all funds then on deposit in the Internet Collection Account (other than amounts received after the end of the related Due Period) into the Payment Account. On such Payment Date (other than a Final Payment Date), amount in the Payment Account will be applied by the Trustee pursuant to the Note Valuation Report in the manner and order of priority set forth below:

i. to the payment of taxes and filing and registration fees (including, without limitation, annual return fees) owed by the Issuer, if any;

iii. to the payment of accrued and unpaid fees of the Trustee up to a maximum amount on any Payment Date equal to the greater of U.S.$2,083 and 0.002086% of the Monthly Asset Amount for

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912636
the related Due Period (or, in the case of the first Due Period, as such amounts are adjusted based on the number of days in such Due Period),

iii. (a) first, to the payment of any remaining accrued and unpaid Administrative Expenses of the Issuer, excluding any indemnification (and legal expenses related thereto) payable by the Issuer first, to the Trustee, the Collateral Administrator, the Paying Agent and the Issuer Notes Transfer Agent and second, pro rata, to any other parties entitled thereto; (b) second, to the payment of any indemnification (and legal expenses related thereto) payable by the Issuer first, to the Trustee, the Collateral Administrator and the Paying Agent and second, pro rata, to any other parties entitled thereto; and (c) third, to the Reserve Account the Issuer of U.S.$50,000 and the amount necessary to bring the balance of such account to U.S.$1,000,000, provided, however, that the aggregate payments pursuant to subsections (a) through (c) of this clause (iii) on any Payment Date shall not exceed U.S.$300,000 and the aggregate payments pursuant to subsections (a) and (b) of this clause (iii) and the prior 11 Payment Dates shall not exceed U.S.$300,000,

iv. to the payment of (a) first, accrued and unpaid interest on the Class S Notes (including Defaulted Interest and interest therein) and beginning with the Payment Date occurring in August 2007, principal of the Class S Notes in an amount equal to the Class S Notes Amortizing Principal Amount until the Class S Notes are paid in full, and (b) second, if an Event of Default or Tax Event shall have occurred and in continuing or an Optional Redeem or Auction has occurred and the Pledged Assets are being liquidated pursuant to the terms of the Indenture, the payment of principal to the Class S Notes until the Class S Notes are paid in full;

v. to the payment to the Liquidation Agent of the accrued and unpaid Liquidation Agent Fee;

vi. to the payment of (a) first, pro rata, accrued and unpaid interest on the Class A Notes (including any Defaulted Interest and interest therein) and (b) second, accrued and unpaid interest on the Class B Notes (including any Defaulted Interest and any interest thereon);

vii. if the Class A/C Overcollateralization Test is not satisfied on the Determination Date with respect to the related Payment Date after giving effect to all payments of principal on such Payment Date (without giving effect to any payments pursuant to this clause (vi) or clause (vii) below), then first, pro rata, to the payment of principal of all outstanding Class A-1 Notes and Class A-1 B Notes until the Class A-1 Notes and the Class A-1 B Notes are paid in full, second, to the payment of principal of all outstanding Class A-2 Notes until the Class A-2 Notes are paid in full, and third, to the payment of principal of all outstanding Class B Notes until the Class B Notes are paid in full;

viii. to the payment of accrued and unpaid interest on the Class C Notes (including Defaulted Interest and any interest therein but not including Class C Defeased Interest);

ix. if the Class C Overcollateralization Test is not satisfied on the Determination Date with respect to the related Payment Date after giving effect to all payments of principal on such Payment Date (without giving effect to any payments pursuant to this clause (vii) below), then (i) pro rata, Amortization Proceeds only (i) to the payment of principal of all outstanding Class A Notes, (ii) to the payment of principal of all outstanding Class B Notes and (iii) to the payment of principal of all outstanding Class C Notes, until the Class A Notes, the Class B Notes and the Class C Notes are paid in full, provided, however, that if the Net Outstanding Portfolio Collateral Balance is less than U.S.$17,000,000 on the Determination Date with respect to the related Payment Date then such amount will be paid first (i) pro rata, to the payment of principal of all outstanding Class A-1 Notes until the Class A-1 Notes are paid in full, second (ii) to the payment of principal of all outstanding Class A-2 Notes until the Class A-2 Notes are paid in full, third (iii) to the payment of principal of all outstanding Class B Notes until the Class B Notes are paid in full and fourth (iv) to the payment of principal of all outstanding Class C Notes until the Class C Notes are paid in full, and (b) any remaining Proceeds in the payment of principal of all outstanding Class C Notes until the Class C Notes are paid in full,
x. in the payment of accrued and unpaid interest on the Class D Notes (including Defaulted Interest and any interest thereon but not including Class D Deferred Interest);

xi. to the payment of principal of first, pro rata, the Class A Notes up to the amount specified in clause (b)(1) below, provided, however, that all principal allocated to the Class A-1 Notes will first be allocated to the Class A-1 Notes until the Class A-1 Notes are paid in full and then to the Class A-1b Notes until the Class A-1b Notes are paid in full, second, to the payment of principal of the Class B Notes up to the amount specified in clause (b)(2) below, third, to the payment of principal of the Class C Notes up to the amount specified in clause (b)(3) below, and fourth, to the payment of principal of the Class D Notes up to the amount specified in clause (b)(4) below, in an aggregate amount equal to the lesser of (a) the Amortization Proceeds received or held during the related Due Period, and (b) the sum of (i) the amount necessary to increase the Class A Adjusted Overcollateralization Ratio to or maintain it at 141.1%, plus (ii) the amount necessary to increase the Class B Adjusted Overcollateralization Ratio to or maintain it at 121.0%, plus (iii) the amount necessary to increase the Class C Adjusted Overcollateralization Ratio to or maintain it at 114.7%, plus (iv) the amount necessary to increase the Class D Adjusted Overcollateralization Ratio to or maintain it at 108.1%, provided that, if the Net Outstanding Portfolio Collateral Balance is less than $322,000,000 on the Determination Date with respect to the related Payment Date, then only the amount described in sub-clause (a) of this clause (xi) will be applied, first, pro rata, to the payment of principal of all outstanding Class A-1 Notes and Class A-2 Notes until the Class A-1 Notes and Class A-2 Notes are paid in full, provided, however, that all principal allocated to the Class A-1 Notes will first be allocated to the Class A-1 Notes until the Class A-1 Notes are paid in full and then to the Class A-1b Notes until the Class A-1b Notes are paid in full, second, to the payment of principal of all outstanding Class B Notes until the Class B Notes are paid in full, third, to the payment of principal of all outstanding Class C Notes until the Class C Notes are paid in full and fourth, to the payment of principal of all outstanding Class D Notes until the Class D Notes are paid in full;

xii. if the Class D Overcollateralization Test is not satisfied on the Determination Date with respect to the related Payment Date after giving effect to any payments pursuant to this clause (xii), then, in the payment of principal of all outstanding Class D Notes until the Class D Notes are paid in full;

xiii. first, to the payment of principal of the Class C Notes in an amount equal to that portion of the principal of the Class C Notes comprised of Class C Defaulted Interest unpaid after giving effect to payments under clauses (x) and (xii) above (amounts will be considered unpaid for this purpose if the principal balance of the Class C Notes after giving effect to clauses (x) and (xii) above exceeds any previous lowest amount outstanding) and second, to the payment of principal of the Class D Notes in an amount equal to that portion of the principal of the Class D Notes comprised of Class D Defaulted Interest unpaid after giving effect to payments under clauses (x) and (xii) above (amounts will be considered unpaid for this purpose if the principal balance of the Class D Notes after giving effect to clauses (x) and (xii) above exceeds any previous lowest amount outstanding);

xiv. after the Payment Date occurring in July 2015, first, to the payment of principal of all outstanding Class C Notes until the Class C Notes are paid in full and second, to the payment of principal of all outstanding Class D Notes until the Class D Notes are paid in full;

xv. to the payment of any unpaid Defaulted Swap Termination Payment;

xvi. first (a) to the payment of any remaining accrued and unpaid Administrative Expenses of the Issuers not paid pursuant to clauses (xii) and (xiii) above (as the result of the limitations on amounts set forth therein), in the same order of priority on forth above in clause (x), excluding any indemnities (and legal expenses related thereto) payable to the Issuers; second, (b) to the payment, pro rata, of any indemnisities (and legal expenses related thereto) payable to the Issuers not paid pursuant to clause (x) above (as the result of the limitations on amounts set forth therein) in the
the payment of the Class D Notes Amortizing Principal Amount;

vii. on Quarterly Payment Dates only, any remaining amount to the Fiscal Agent for deposit into the Income Note Payment Account for payment to the Holders of the Income Notes; and

viii. on such Payment Date, any remaining amount to be deposited to the Interest Collection Account for distribution on the next Payment Date.

On the Business Day prior to the Final Payment Date, the Trustee will transfer all funds then on deposit in the Interest Collection Account into the Payment Account and, after the liquidation of (i) the Credit Default Swap, (ii) the Collateral Securities and Eligible Investments in the Collateral Account, (iii) the Amortization Proceeds drawn from the Collateral Account to the Payment Account and (iv) the Delivered Obligations and Eligible Investments in the Delivered Obligations Account, the Trustee will deposit all proceeds thereof, into the Payment Account. On the Final Payment Date, amounts in the Payment Account will be applied by the Trustee pursuant to the Note Valuation Report in the manner and order of priority set forth below:

i. to the payment of the amounts referred to in clauses (i) through (iv) of the Priority of Payments for Payment Dates which are not Final Payment Dates, in that order (without regard to the limitations in clause (iii)); provided that no deposit shall be made to the Expense Reserve Account pursuant to subclause (iii);

ii. first, pro rata, to the payment of the Class A-1a Notes and the Class A-1b Notes, in each case, the amount necessary to pay the outstanding principal amount of such Notes in full;

iii. to the payment of the Class A-2 Notes, the amount necessary to pay the outstanding principal amounts of such Notes, in full;

iv. to the payment of the Class B Notes, the amount necessary to pay the outstanding principal amount of such Notes in full;

v. to the payment of the Class C Notes, the amount necessary to pay accrued and unpaid interest on and the outstanding principal amount of such Notes (including any Deferred Interest and Defaulted Interest and any interest therein) in full;

vi. to the payment of the Class D Notes, the amount necessary to pay accrued and unpaid interest on and the outstanding principal amount of such Notes (including any Deferred Interest and Defaulted Interest and any interest therein) in full;

vii. to the payment of the amounts referred to in clauses (vi) of the Priority of Payments for Payment Dates that are not Final Payment Dates; and

viii. any remaining amount to the Fiscal Agent for deposit in the Income Note Payment Account for payment to the Holders of the Income Notes.

Upon payment in full of the last outstanding Secured Note, the Issuer (or the Liquidation Agent acting pursuant to the Liquidation Agency Agreement on behalf of the Issuer) will liquidate any remaining Pledged Assets, including the Credit Default Swap, the Eligible Investments, the Collateral Securities, the Delivered Obligations and any other items comprising the Pledged Assets and deposit the proceeds thereof into the Interest Collection Account. The net proceeds of such liquidation and all available cash (other than the U.S.$250 of capital contributed by the

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912639
Footnote Exhibits - Page 5738

owners of the Issuer Ordinary Shares in accordance with the Issuer's Memorandum and Articles of Association and U.S. $250 representing a transaction fee to the Issuer and any interest income earned on such amounts) will be distributed in accordance with the Priority of Payments for Final Payment Dates and all amounts remaining thereafter will be distributed to the Holders of the Income Notes as a redemption payment whenever all of the Notes and the Income Notes will be canceled.

Income Notes

The final payment on the Income Notes will be made by the Issuer on the Maturity Date, unless redeemed or retired prior thereto in accordance with the Priority of Payments.

The Indenture

The following summary describes certain provisions of the Indenture. The summary does not purport to be complete and is subject to, and qualified in its entirety by reference to, the provisions of the Indenture.

Event of Default: An "Event of Default" under the Indenture includes:

i. a default in the payment, when due and payable, of any interest on any Class A Note, Class B Note or Class C Note or, if there are no Class A Notes, Class B Notes or Class C Notes outstanding, any Class B Note or, if there are no Class A Notes, Class B Notes or Class C Notes outstanding, any Class D Note and a continuation of such default, in each case, for a period of 7 days (or, in the case of a default in payment resulting solely from an administrative error or omission by the Trustee, any Note Paying Agent or the Note Registrar, such default continues for a period of 7 days after the Trustee is made actually aware of such administrative error or omission);

ii. a default in the payment of principal due on any Secured Note at its Stated Maturity or on any Redemption Date (or, in the case of a default in payment resulting solely from an administrative error or omission by the Trustee, any Note Paying Agent or the Note Registrar, such default continues for a period of 7 days after the Trustee is made actually aware of such administrative error or omission);

iii. the failure on any Payment Date to discharge amounts (other than in payment of interest on any Secured Note or principal of any Secured Note at its Stated Maturity or any date set for redemption as described in (i) and (ii) above) payable in the Payment Account in excess of $150,000 in accordance with the Priority of Payments and a continuation of such failure for a period of 7 days after such failure has been recognized by the Trustee;

iv. a circumstance in which either of the Issuers becomes an investment company required to be registered or the Pledged Assets or any portion thereof becomes subject to regulation under the Investment Company Act;

v. a default, which has a material adverse affect on the Holders of the Secured Notes (as determined by at least a Majority, by interest, of the Controlling Class), in the performance, or breach, of any covenant, representation, warranty or other agreement of the Issuers in the Indenture (it being understood that a default to satisfy a Coverage Test is not a default or breach) or in any certificate or writing delivered pursuant to the Indenture, or if any representation or warranty of the Issuers made in the Indenture or in any certificate or writing delivered pursuant thereto proves to be incorrect in any material respect when made, and the continuation of such default or breach for a period of 30 days after notice thereof shall have been given to the Issuers and the Liquidation Agent by the Trustee or to the Issuer, the Liquidation Agent and the Trustee by at least a Majority, by interest, of the Controlling Class;

Confidential Treatment Requested by Goldman Sachs  GS MBS-E-000912640
the Credit Default Swap is terminated (without replacement) (excluding a termination, in part, in connection with the assignment, termination or revocation of a CDS Transaction); and

vi. certain events of bankruptcy, insolvency, receivership or reorganization of either of the issuers.

If an Event of Default should occur and be continuing, the Trustee may and will (i) if the Credit Protection Buyer is in default under the Credit Default Swap, at the directions of not less than a Majority of the Class A Notes, the Class A Notes and the Class B Notes (the Class A Notes, the Class A Notes and the Class B Notes voting as a single class), for so long as any Class A Notes, Class A Notes or Class B Notes are Outstanding; if no Class A Notes, Class A Notes or Class B Notes are Outstanding, then the Class C Notes, for so long as any Class C Notes are Outstanding; and if no Class S Notes, Class A Notes, Class B Notes or Class C Notes are Outstanding, the Class D Notes, for so long as any Class D Notes are Outstanding; and otherwise (ii) at the direction of the Holders of at least a Majority of the Controlling Class, declare the principal of and accrued and unpaid interest on all Second Notes to be immediately due and payable (except that in the case of an Event of Default described in clause (vi) or (vii) above, such an acceleration will occur automatically and shall not require any action by the Trustee or any Secured Noteholder).

If an Event of Default should occur and be continuing, the Trustee is required to receive the Pledged Assets intact and collect all payments in respect of the Pledged Assets and continue making payments in the manner described under Priority of Payments unless (a) the Trustee determines (such determination will be based upon a certificate from the Liquidation Agent) that the anticipated proceeds of a sale or liquidation of the Pledged Assets based on an estimate obtained from a nationally recognized investment banking firm (which estimate takes into account the time elapsed between such estimate and the anticipated sale of the Pledged Assets) would exceed the amount necessary to pay in full (after deducting the reasonable expenses of such sale or liquidation) the sum of (i) the principal (including any Class C Deferral Interest and Class D Deferral Interest) and accrued interest (including all Deferral Interest, and Interest thereon) and any other amounts due with respect to all the outstanding Second Notes, (ii) all Administrative Expenses, (iii) any unpaid amounts due the Credit Protection Buyer and any unpaid amounts due any assignee of a CDS Transaction net of amounts payable to the Issuer by the Credit Protection Buyer or assignee of a CDS Transaction, and (iv) all other items in the Priority of Payments ranking prior to payments on the Second Notes, and, in any case, the Holders of a Majority of the Controlling Class agree with such determination or (b) the requisite Holders of Notes as determined pursuant to the Indenture or the Holders of a Super Majority of the Controlling Class (whichever directed the acceleration of the Second Notes pursuant to the preceding paragraph) direct, subject to the provisions of the Indenture, the sale and liquidation of the Pledged Assets.

The Holders of a Majority of the Controlling Class will have the right to direct the Trustee in writing the conduct of any proceedings to sell in the sale of any or all of the Pledged Assets, but only if (i) such directions will not conflict with any rule of law or the Indenture (including the limitations described in the paragraph above) and (ii) the Trustee determines that such action will not involve it in liability (unless the Trustee has received an indemnity which is reasonably acceptable to the Trustee against any such liability).

Subject to the provisions of the Indenture relating to the duties of the Trustee, in case an Event of Default with respect to the Second Notes occurs and in continuing, the Trustee is under no obligation to exercise any of the rights or powers hereunder that may be exercised by the Indenture at the request of any Holders of Second Notes, unless such Indenture is offered to the Trustee reasonable security or an indemnity which is reasonably acceptable to the Trustee. The Holders of a Majority of the Controlling Class may waive any default with respect to the Second Notes, except (a) any default in the payment of principal or interest on any Second Note; (b) failure on any Payment Date to disburse amounts available in the Payment Account in accordance with the Priority of Payments and coordination of such failure for a period of seven (7) days; (c) certain events of bankruptcy or insolvency with respect to the Issuer; or (d) a default in respect of a provision of the Indenture that cannot be modified or amended without the waiver or consent of the Holders of each outstanding Note concerned.

Furthermore, any declaration of acceleration of maturity of the Second Notes may be revoked and annulled by the requisite Holders of Notes as determined pursuant to the Indenture or the Holders of a Majority of the Controlling Class, as applicable, before a judgment or decree for the payment of money has been obtained by the Trustee or the Pledged Assets have been sold or formulated to whole or in part, by notice to the Issuer and the

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912641
Trustee, if (a) the Issuer has paid or deposited with the Trustee a sum sufficient to pay, in accordance with the Priority of Payments, the principal and accrued interest (including all Defeathered Interest and the interest thereon), discount or other unpaid amounts with respect to the outstanding Secured Notes and any other administrative expenses, fees or other amounts that, under the Transaction Documents and pursuant to the Priority of Payments, are payable prior to the payment of the principal of and interest on the outstanding Secured Notes, and (b) the Trustee has determined that all threats of Default, other than the non-payment of the interest on or principal of the outstanding Secured Notes that have become due solely by such acceleration, have been cured and the Holders of a Majority of the Controlling Class by action in the Trustee have agreed with such determination (which agreement shall not be unreasonably withheld) or waived such Event of Default in accordance with the provisions are forth in the Indenture.

Only the Trustee may pursue the remedies available under the Indenture or the Secured Notes and no Holder of a Secured Note will have the right to institute any proceeding with respect to the Indenture, its Notes, or otherwise unless (i) such Holder previously has given to the Trustee written notice of a continuing Event of Default, (ii) except as the case of a default in the payment of principal or interest, the Holders of at least 25% by Aggregate Outstanding Amount, of the Controlling Class have made a written request upon the Trustee to institute such proceedings in its own name as Trustee and such Holders have offered the Trustee an indemnity which is reasonably acceptable to the Trustee, (iii) the Trustee has for 90 days failed to institute any such proceeding, and (iv) no direction inconsistent with such written request has been given to the Trustee during such 90-day period by the Holders of a Majority of the Controlling Class.

In determining whether the Holders of the requisite percentage of Secured Notes have given any direction, notice or consent, Secured Notes owned by the Issuer, the Co-Issuer or any Affiliate thereto shall be disregarded and deemed not to be outstanding. In addition, Holders of Income Notes will not be considered to be affiliates of the Issuer or Co-Issuer by virtue of such ownership of Secured Notes.

Notice: Notices to the Holders of the Secured Notes shall be given by first-class mail, postage prepaid, to each Noteholder at the address appearing in the applicable note register. In addition, if and for so long as any of the Secured Notes are listed on the Irish Stock Exchange and so long as the rules of such exchange so require, notices to the Holders of such Secured Notes shall also be published by the Irish Listing Agent in the official list therefor or otherwise required by the rules of such exchange.

Modification of the Indenture. Without obtaining the consent of Holders of the Notes, the Issuer and the Trustee may enter into one or more supplemental indentures for any of the following purposes:

(i) to evidence the retirement of any person to either the Issuer or Co-Issuer and the assumption by any such successor of the covenants of the Issuer or Co-Issuer in the Notes, the Fiscal Agency Agreement and under the Indenture;

(ii) to add to the covenants of the Issuer or the Trustee for the benefit of the Holders of the Notes or to surrender any right or power conferred upon the Issuer;

(iii) to convey, transfer, assign, mortgage or pledge any property to the Trustee, or add to the condition, limitations or restrictions on the authorized amount, terms and purposes of the issue, authentication and delivery of the Notes;

(iv) to evidence and provide for the acceptance of appointment by a successor trustee and to add to or change any of the provisions of the Indenture as shall be necessary to facilitate the administration of the trust under the Indenture by more than one Trustee;

(v) to correct or amplify the description of any property at any time subject to the security interest created by the Indenture, or to better, release, convey, and confirm into the Trustee any property subject or required to be subject to the security interest created by the Indenture (including, without limitation, any and all actions necessary or desirable as a result of changes in law or regulations) or subject to the security interest created by the Indenture any additional property;
Footnote Exhibits - Page 5741

(iv) to otherwise correct any inconsistency or cure any ambiguity or manifest error or correct or supplement any provisions contained in the Indenture which may be defective or inconsistent with any provision contained in the Indenture or make any modification that is of a formal, minor or technical nature or which is made to correct a manifest error;

(vii) to take any action necessary or advisable to prevent the Issuer, the Trustee, any Note Paying Agent or the Fiscal Agent from becoming subject to withholding or other taxes, fees or assessments or to prevent the Issuer from being treated as engaged in a United States trade or business or otherwise being subject to United States federal, state or local income tax or a net income tax basis;

(viii) to conform the Indenture to the descriptions contained in the Offering Circular;

(ix) to comply with any reasonable requests made by the Irish Stock Exchange in order to list or maintain the listing of any Notes on such stock exchange; or

(x) to make any other change for the purpose of adding any provisions to, or changing in any manner or eliminating any of the provisions of, the Indenture or any other Transaction Document, provided however that such changes would have no material adverse effect on any of the Notes (which may be evidenced by an opinion of counsel or a Noteholder Poll (as hereinafter defined)).

With the written consent of the Holders of (a) at least a Majority, by Aggregate Outstanding Amount, of the Secured Notes materially adversely affected thereby (voting together as a single class) and (b) at least a Majority of the Income Notes materially adversely affected thereby, the Trustee and the Issuers may cause a supplemental indenture to add provisions to, or change in any manner or eliminate any provisions of, the Indenture or modify in any manner the rights of the Holders of the Notes.

Notwithstanding anything in the Indenture to the contrary, without the written consent of each Noteholder of each Class adversely affected thereby no supplemental indenture may:

(i) change the Stated Maturity of the principal of or the due date of any installment of interest or discount on a Note; reduce the principal amount thereof or the rate of interest thereon, or the applicable Secured Note Redemption Price with respect thereto; change the earliest date on which a Note may be redeemed; change the provisions of the Indenture relating to the application of proceeds of any Pledged Asset to the payment of principal of or interest on Notes or change any place where, or the coin or currency in which, Notes or the principal thereof or interest thereon are payable, or impair the right to institute suit for the enforcement of any such payment or after the Stated Maturity date or other due date thereof (or, in the case of redemption, on or after the Redemption Date);

(ii) reduce the percentage in aggregate principal amount of Holders of the Notes of each Class whose consent is required for the authorization of any supplemental indenture or for any waiver of compliance with certain provisions of the Indenture or certain defaults under the Indenture or their consequences;

(iii) impair or adversely affect the Pledged Assets except as otherwise permitted by the Indenture;

(iv) permit the creation of any security interest making prior or on a parity with the security interest created by the Indenture with respect to any part of the Pledged Assets or terminate such security interest on any property at any time subject thereto or deprive the Holder of any Note, the Trustee or any other Secured Party of the security afforded by the lien of the Indenture;

(v) reduce the percentage of Holders of the Notes of each Class whose consent is required to request the Trustee to preserve the Collateral Assets or rescind the Trustee’s election to preserve the Collateral Assets or to sell or liquidate the Collateral Assets pursuant to the Indenture.
Footnote Exhibits - Page 5742

(vi) modify any of the provisions of the Indenture with respect to supplemental indentures, except to increase the percentage of Outstanding Notes whose Holders' consent is required for any such action or to provide that other provisions of the Indenture cannot be modified or waived without the consent of the Holders of such outstanding Notes adversely affected thereby;

(vii) modify the definition of the term "Outstanding," or the Priority of Payments set forth in

the Indenture;

(viii) modify any of the provisions of the Indenture in such a manner as to affect the calculation of the amount of any payment of interest on or principal of any Secured Note or modify any amount distributable to the Fiscal Agent for payment to the Holders of the Income Notes on any Quarterly Payment Date or to affect the right of the Holders of the Notes or the Trustee to the benefit of any provisions for the redemption of such Notes contained therein;

(ix) amend any provision of the Indenture or any other agreement entered into by the Issuer with respect to the transactions contemplated by the Indenture relating to the institution of proceedings for the Issuer or the Co-Issuer to be adjudicated an bankrupt or insolvent, or the consent of the Issuer or the Co-Issuer to the institution of bankruptcy or insolvency proceedings against it, or the filing with respect to the Issuer or the Co-Issuer of a petition or answer or consent seeking reorganization, arrangement, reorganization or liquidation proceedings, or other proceedings under the United States Bankruptcy Code or any similar laws, or the consent of the Issuer or the Co-Issuer to the filing of any such petition or the appointment of a receiver, liquidator, assignee, trustee or sequestrator (or other similar official) of the Issuer or the Co-Issuer or any substantial part of its property, respectively;

(x) increase the amount of the Liquidation Agent Fees payable to the Liquidation Agent beyond the amount provided for in the original Liquidation Agency Agreement;

(xi) amend any provision of the Indenture or any other agreement entered into by the Issuer with respect to the transactions contemplated thereby that provides that the obligations of the Issuer or the Issuer, as the case may be, are limited or governed by the Pledged Assets in accordance with the terms of the Indenture;

(xii) at the time of execution of such supplemental Indenture, cause payments made by or to the Issuer, the Credit Protection Buyer, the Liquidation Agent or any Paying Agent to become subject to withholding or other taxes, fees or assessments or cause the Issuer to be treated as engaged in a United States trade or business or otherwise be subject to United States federal, state or local income tax on a net income basis, or

(xiii) at the time of the execution of such supplemental Indenture, result in a deemed sale or exchange of any of the Notes under Section 1001 of the Code (Items (i) through (xii) above collectively, the "Reserved Matters").

Notwithstanding anything to the contrary herein, no supplement or amendment to the Indenture will be effective unless at the consent of each of the Credit Protection Buyer (which shall not be unreasonably withheld) and the Liquidation Agent (which consent shall not be unreasonably withheld) has been obtained.

Under the Indenture, in making the determination of whether a proposed amendment has or would have no material adverse effect on any of the Notes, which Notes are materially adversely affected by a proposed amendment or which Classes of Notes are adversely affected by any Reserved Matter (each such determination, an "Amendment Determination"), the Trustee may rely on an opinion of counsel. If no opinion of counsel is provided with respect to a proposed amendment, a Noteholder Poll shall be conclusively determinative of such Amendment Determination and the Trustee shall be entitled to conclusively rely on such Noteholder Poll. The results of such Noteholder Poll shall be conclusive and binding on the Issuer and all present and future Noteholders.

"Noteholder Poll" with respect to a proposed supplemental indenture means the following:

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912644
The Trustee will (as the expenses of the Issuer give written notice of any proposed supplemental indenture to the Holders of the Second Notes and to the Fiscal Agent for notification by the Fiscal Agent to the Holders of the Income Notes. If any Holder of a Note of a Class delivers a written objection to any portion of such supplemental indenture to the Trustee, in the case of the Secured Notes, and the Fiscal Agent, in the case of the Income Notes, within 20 Business Days after the date on which such notice was given by the Trustee or the Fiscal Agent, as applicable, each Note of such Class will be deemed to be held adversely affected and materially and adversely affected. If no Holder of a Note of a Class delivers a written objection to the Trustee or the Fiscal Agent, as applicable, written such period, all Notes of such Class shall be deemed not to be materially and adversely affected and not to be adversely affected by such supplemental indenture. The Fiscal Agent will promptly communicate the Trustee the receipt of any such written objection from a Holder of an Income Note or if no such written objection is received within the prescribed time period, that no written objections were received from any Income Holder.

Under the Indenture, the Trustee will deliver a copy of any proposed supplemental indenture to the Holders of the Second Notes, the Fiscal Agent, the Rating Agencies (for as long as any of the Notes are outstanding and rated by the Rating Agencies), the Credit Protection Buyer and the Liquidation Agent not later than 20 Business Days prior to execution of a proposed supplemental indenture. The Fiscal Agent will deliver a copy of the same to the Holders of the Income Notes. For as long as any of the Notes are outstanding and rated by the Rating Agencies, no supplemental indenture shall be entered into unless the Rating Agency Condition is met, provided that the Trustee shall, with the consent of the Holders of 100% of the Aggregate Outstanding Amount of Secured Notes of each Class and the Income Notes, whose consent, in the case of the Income Notes, will be communicated to the Fiscal Agent for notice to the Trustee, the Liquidation Agent and the Credit Protection Buyer, enter into any such supplemental indenture notwithstanding any potential reduction or withdrawal of the ratings of any outstanding Class of Notes. The Trustee and provide notice of any amendment or modification of the Indenture, whether or not required to be approved by such parties to the Holders of the Second Notes, the Fiscal Agent, the Liquidation Agent, the Credit Protection Buyer and if and for so long as any Secured Notes are listed on the Irish Stock Exchange, the Irish Paying Agent promptly upon the execution of such supplemental indenture. The Fiscal Agent will provide notice of any such amendment or modification of the Indenture to the Holders of the Income Notes and if and for so long as any Income Notes are listed on the Irish Stock Exchange, the Irish Paying Agent promptly upon the execution of such supplemental indenture.

In connection with any amendment, the Trustee may require the delivery of an opinion of counsel satisfactory to it (which opinion of counsel may rely on an officer’s certificate from the Liquidation Agent), at the expense of the Issuer, that such amendment is permitted under the terms of the Indenture.

In addition, the Issuer and the Trustee may enter into any additional agreements not expressly prohibited by the indenture or any other Transaction Document.

Jurisdictions of Incorporation and Formation. Under the Indenture, the Issuer and the Co-Issuer will be required to maintain their rights and franchises as a company incorporated under the laws of the Cayman Islands and a corporation formed under the laws of the State of Delaware, respectively, to comply with the provisions of their respective organizational documents and to obtain and preserve their qualifications to do business as foreign corporations in each jurisdiction in which such qualifications are or shall be necessary to protect the validity and enforceability of the Indenture, the Second Notes, or any of the Pledged Assets; provided, however, that the Issuer shall be entitled to change their jurisdictions of incorporation from the Cayman Islands to Delaware, as applicable, to any other jurisdiction reasonably selected by such Issuer or Co-Issuer, as applicable, and approved by its common shareholders, so long as (i) the Issuer or Co-Issuer, as applicable, does not believe such change is disadvantageous to any material respect to such entity or the Holders of any Class of Secured Notes; (ii) written notice of such change shall have been given by the Issuer or Co-Issuer, as applicable to the other of the Issuer or Co-Issuer, as applicable, the Trustee, the Note Paying Agent, the Indenture Agent, the Credit Protection Buyer, the Holders of each Class of Notes, and each of the Rating Agencies at least thirty (30) Business Days prior to such change of jurisdiction and the Rating Agent Condition with respect to S&P shall have been satisfied with respect to each change; and (iii) on or prior to the 15th Business Day following such notice the Trustee shall not have received written notice from Holders of a Majority of the Outstanding Class, the Liquidation Agent or the Credit Protection Buyer or, if and for so long as any Notes are listed thereon, the Irish Stock Exchange objecting to such change.
Footnote Exhibits - Page 5744

Petitions for Bankruptcy. The Indenture will provide that neither (i) the Paying Agent, the Liquidation Agent, the Note Registrar, nor the Trustee, in its own capacity, or on behalf of any Secured Holder, nor (ii) the Secured Holders may, prior to the date which is one year and one day (or, if longer, the applicable preference period then in effect) after the payment in full of all Notes, institute against, or join any other person in instituting against, the Issuer or Co-Issuer any bankruptcy, reorganization, arrangement, moratorium, liquidation or similar proceedings under the laws of any jurisdiction.

Satisfaction and Discharge of the Indenture. The Indenture will be discharged with respect to the Pledged Assets securing the Secured Notes upon delivery to the Note Paying Agent for cancellation all of the Secured Notes and the payment in full of the Secured Notes, or, without cause, upon deposit with the Trustee of funds sufficient for the payment of or redemption thereof and the payment by the Issuer of all other amounts due under the Indenture.

Trustee. LaSalle Bank National Association will be the Trustee under the Indenture. The Issuers and their affiliates may maintain other banking relationships in the ordinary course of business with the Trustee. The payment of the fees and expenses of the Trustee relating to the Issuer Notes is solely the obligation of the Issuers. The Trustee and/or its affiliates may receive compensation in connection with the Trustee’s investment of trust assets in certain eligible investments as provided in the Indenture and in connection with the Trustee’s administration of any securities lending activities of the Issuer.

The Indenture contains provisions for the indemnification of the Trustee for any loss, liability or expense incurred without negligence, willful misconduct or bad faith on its part, arising out of or in connection with the acceptance or administration of the Indenture. The Trustee will not be bound to take any action unless indemnified for such action. The Secured Holders shall indemnify the Trustee and/or its affiliates for any loss, liability or expense incurred without negligence, willful misconduct, default or bad faith on its part arising out of or in connection with the acceptance or administration of the Indenture.

Irish Pledging Agent. If and for as long as any of the Secured Notes or the Income Notes are listed on the Irish Stock Exchange, and the rules of such exchange shall so require, the Issuer will have an Irish Pledging Agent in accordance with the requirements of the rules of such exchange for the Notes. The Issuers and their affiliates may maintain other banking relationships in the ordinary course of business with the Irish Pledging Agent. The payment of the fees and expenses of the Irish Pledging Agent relating to the Notes is solely the obligation of the Issuers.

Status of the Income Notes. The Holders of the Income Notes will have certain rights to vote with respect to limited matters arising under the Indenture and the Liquidation Agency Agreement including, without limitation, in connection with certain modifications to the Indenture. However, the Holders of the Income Notes will have no right to vote in connection with the realization of the Pledged Assets or certain other matters under the Indenture.

Fiscal Agency Agreement

The Income Notes will be issued by the Issuer and administered in accordance with a Fiscal Agency Agreement (the “Fiscal Agency Agreement”) between LaSalle Bank National Association as fiscal agent (in such capacity, the “Fiscal Agent”). The following summary describes certain provisions of the Income Notes and the Fiscal Agency Agreement. This summary does not purport to be complete and is subject to, and qualified in its entirety by reference to, the provisions of the Fiscal Agency Agreement. After the closing, copies of the Fiscal

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912648
Agency Agreement may be obtained by prospective investors upon request in writing to the Fiscal Agent at LaSalle Bank National Association, 181 W. Madison Street, 33rd Floor, Chicago, Illinois 60602. Attention: CDD Trust Services Group—Amberton Miscellaneous Funding 2007-1, Ltd. (telephone number (312) 952-3312).

Pursuant to the Fiscal Agency Agreement, the Fiscal Agent and the Income Notes Transfer Agent will perform various fiscal services on behalf of the Holders of the Income Notes. The payment of the fees and expenses of the Fiscal Agent and Income Notes Transfer Agent is solely the obligation of the Issuer. The Fiscal Agency Agreement contains provisions for the indemnification of the Fiscal Agent and Income Notes Transfer Agent for any fees, liability or expenses incurred without gross negligence, willful misconduct or bad faith on its part, arising out of or in connection with the acceptance or administration of the Fiscal Agency Agreement.

Status. The Income Notes are not secured by the Pledged Assets securing the Secured Notes. There can be no assurance that, after payment of principal and interest on the Secured Notes and other fees and expenses of the Issuer in accordance with the Priority of Payments, the Issuer will have funds remaining to make payments in respect of the Income Notes. As a result, the rights of the Income Note holders to receive payments will rank (i) behind the rights of all secured creditors of the Issuer, whether known or unknown, including the Holders of the Secured Notes, the Liquidation Agent and the Credit Protection Trustee and (ii) pari passu with all unsecured creditors of the Issuer, whether known or unknown. The Issuer, pursuant to the Indenture, has pledged substantially all of its assets to secure the Secured Notes and certain other obligations of the Issuer. The proceeds of such assets will only be available to make payments in respect of the Income Notes as and when such proceeds are released from the lien of the Indenture in accordance with the Priority of Payments. See "-Priority of Payments."

Payment. On each Quarterly Payment Date, to the extent funds are available therefor, and after the Secured Notes and certain other amounts due and payable on each Quarterly Payment Date that rank senior to payments on the Income Notes have been paid in full, funds will be released from the lien of the Indenture in accordance with the Priority of Payments and paid to the Fiscal Agent on such Quarterly Payment Date for payment to the Holders of the Income Notes. See "-Status and Security", "-Indenture on the Secured Notes" and "-Principal."

Payments on any Income Note will be made to the person in whose name such Income Note is registered 10 Business Days prior to the applicable Quarterly Payment Date. Payments will be made by wire transfer to immediately available funds to a U.S. Dollar account maintained by the Holder named appearing in the Income Notes Register in accordance with wire transfer instructions received from such Holder by the Fiscal Agent on or before the Record Date or, if no wire transfer instructions are received by the Fiscal Agent, by a U.S. Dollar check drawn on a bank in the United States. Final distributions or payments made in the course of a winding up of the Issuer will be made only against surrender of the certificate representing such Income Notes held at the office of the Income Notes Trustee. The Income Notes Trustee Agent will communicate or cause communications of such distributions and payments and the related Payment Date to the Issuer, the Fiscal Agent, Registrar and Transfer Agent.

Modification of the Fiscal Agency Agreement. The Fiscal Agency Agreement may be amended by the Issuer and the Fiscal Agent without the consent of any of the Income Noteholders or any of the following, including, without limitation: (i) to evidence the succession of any person to either the Issuer or Co-Issuer and the assumption by such successor of the covenants of the Issuer or Co-Issuer in the Note, the Fiscal Agency Agreement and the Indenture; (ii) to add to the covenants of the Issuer or the Fiscal Agent for the benefit of the Holders of the Notes or to surrender any right or power conferred upon the Issuer; (iii) to cure any ambiguity, defect or mistake or correct or supplement any provisions contained herein which may be defective or inconsistent with any provision contained herein or make any modification that is in a formal, minor or technical nature or which is made to correct a manifest error; (iv) to take any action necessary, or advisable, to prevent the Issuer, the Trustee, any Note Paying Agent or the Fiscal Agent from becoming subject to withholding or other taxes, fees or assessments or to prevent the Issuer from being taxed as engaged in a United States trade or business or otherwise being subject to United States federal, state or local income tax on a net income basis; (v) to conform the Fiscal Agency Agreement to the descriptions contained in this Offering Circular, (vi) to comply with any reasonable requests made by the Irish Stock Exchange in order to list or maintain the listing of any Notes on such stock exchange; or (vii) to make any other changes for the purpose of adding any provisions to, or changing in any manner or eliminating any of the provisions of, the Fiscal Agency Agreement, provided, however that such changes would have no material adverse effect on any of the Notes.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912647
The Fiscal Agency Agreement may also be amended from time to time by the Issuer and the Fiscal Agent with the consent of a Majority of Income Noteholders for the purpose of adding any provisions or to changing any manner or diluting any of the provisions of the Fiscal Agency Agreement, or of modifying in any manner the rights of the Income Noteholders provided, that no such amendment shall (i) reduce in any manner the amount of, or delay the timing of, or change the allocation of, the payments on the Income Notes or (ii) reduce the voting percentage of the Income Noteholders required to consent to any amendment to the Fiscal Agency Agreement, in each case without the consent of the Income Noteholders of all of the Income Notes.

Income Notes Register. The Fiscal Agent will initially be appointed as Income Notes Transfer Agent (in such capacity, the “Income Notes Transfer Agent”) for the purpose of registering and administrating the transfer of Income Notes. The Income Notes Transfer Agent shall maintain at its offices, a register (the “Income Notes Register”) in which it shall provide for the registration of Income Notes and the registration of transfers of Income Notes in accordance with the Fiscal Agency Agreement.

Notice. Notices to the Income Note holders will be given by first class mail, postage prepaid, to the registered holders of the Income Notes at their addresses appearing in the Income Notes Register. In addition, if and for so long as any of the Income Notes are listed on the Irish Stock Exchange and so long as the rules of such exchange so require, notices to the Holders of each Income Note shall also be published by the Irish Listing Agent in the official list thereof as otherwise required by the rules of such exchange.

Governing Law of the Transaction Documents

The Indenture, the Fiscal Agency Agreement, the Notes, the Credit Default Swap and the Liquidation Agency Agreement will be governed by, and construed in accordance with, the laws of the State of New York applicable to agreements made and to be performed therein without regard to the conflict of laws principles thereof. Under the Indenture, the Fiscal Agency Agreement and the Liquidation Agency Agreement, the Issuers have submitted unconditionally to the non-exclusive jurisdiction of the courts of the State of New York and of the United States of America in the State of New York (in each case sitting in the County of New York) for the purposes of hearing and determining any suit, action or proceeding or setting any dispute arising out of or in connection with the Indenture, the Notes, the Fiscal Agency Agreement and the Liquidation Agency Agreement.

Form of the Notes

The Notes. Each Class of Notes (other than the Income Notes) sold in reliance on Rule 144A under the Securities Act will be represented by one or more Rule 144A Global Notes and will be deposited with LaSalle Bank National Association as custodian for DTC and registered in the name of Code & Co., a nominee of DTC, for the respective accounts of Euroclear and Clearstream. Beneficial interests in a Temporary Regulation S Global Note held in book-entry through Euroclear or Clearstream are beneficial interests in a Temporary Regulation S Global Note held by Euroclear or Clearstream. Beneficial interests in a Temporary Regulation S Global Note held in the name of the Issuer are beneficial interests in a Temporary Regulation S Global Note held by the Issuer. Beneficial interests in a Regulation S Global Note held in the name of the Issuer are beneficial interests in a Regulation S Global Note held by the Issuer. Beneficial interests in a Regulation S Global Note held by Euroclear or Clearstream are beneficial interests in a Regulation S Global Note held by Euroclear or Clearstream.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912648
A beneficial interest in a Regulation S Global Note or a Temporary Regulation S Global Note may be transferred, whether before or after the expiration of the Distribution Compliance Period, to a U.S. person only, subject to the Class S Notes, the Class A Notes, the Class B Notes, the Class C Notes or the Class D Notes, in the form of a definitive Income Note, as applicable, and only upon receipt by the Note Transfer Agent or Income Notes Transfer Agent, as applicable, of a written certification from the transferee (in the form provided in the Indenture or the Fiscal Agency Agreement, as applicable) to the effect that the transfer is being made to a person the transferee reasonably believes is (a) a Qualified Institutional Buyer or, solely in the case of the Income Notes, an Accredited Investor who has a net worth of not less than U.S.$10 million and (b) a Qualified Purchaser. In addition, transfers of a beneficial interest in a Regulation S Global Note or Temporary Regulation S Global Note to a person who takes delivery in the form of an interest in a Rule 144A Global Note or, a Definitive Note to the case of the Income Notes, may occur only in denominations greater than or equal to the minimum denominations applicable to the Rule 144A Global Notes or in a principal amount of not less than $250,000.

A beneficial interest in a Rule 144A Global Note may be transferred to a person who takes delivery in the form of an interest in a Temporary Regulation S Global Note or a Regulation S Global Note, as the case may be, whether during or after the expiration of the Distribution Compliance Period, only upon receipt by the Note Registry or Income Notes Transfer Agent, as applicable, of a written certification from the transferee (in the form provided in the Indenture) to the effect that such transfer is being made to a non-U.S. Person in accordance with Rule 903 or 904 of Regulation S.

Any beneficial interest in any of the Global Notes that is transferred to the person who takes delivery in the form of an interest in another Global Note will, upon transfer, cease to be an interest in such Global Note and become an interest in the other Global Note and, accordingly, will thereafter be subject to all transfer restrictions and other procedures applicable to beneficial interests in such other Global Note for as long as it remains such interest.

Except as the limited circumstances described below, owners of beneficial interests in any Global Notes will not be entitled to receive a Definitive Note. The Notes are not transferable in bearer form.

Each Note will be issued in minimum denominations of U.S.$250,000 in the case of Rule 144A Notes and in the case of Income Notes sold to Accredited Investors and U.S.$100,000 in the case of Regulation S Notes and integral multiples of U.S.$1 in excess thereof.

Global Notes. Upon the issuance of the Global Notes, DTC or its custodian will credit, on its record system, the respective aggregate original principal amount of the individual beneficial interests represented by the Global Notes to the accounts of persons who have accounse with DTC. Such accounts initially will be designated by or on behalf of the Initial Purchaser. Ownership of beneficial interests in Global Notes will be limited to (a) persons who have accounts with DTC (“participants”) or persons who hold interests through participants. Ownership of beneficial interests in a Global Note will be shown on, and the transfer of that ownership will be effected only through, records maintained by DTC or its nominee (with respect to interests of participants) and the records of participants (with respect to interests of persons other than participants).

So long as DTC, or its nominee, in the registered owner or Holder of the Global Notes, DTC or such nominee, as the case may be, will be considered the sole owner or Holder of each Class of the Notes represented by each Global Notes for all purposes under the Indenture and such Notes. Unless DTC notifies the Issuers that it is unwilling or unable to continue as depository for a global note or ceases to be a “Clearing Agency” registered under the Exchange Act, owners of the beneficial interests in the Global Notes will not be entitled to have any portion of such Global Notes registered in their names, will not receive or be entitled to receive physical delivery of Notes in certificate form and will not be considered to be the owners or Holders of any Notes under the Indenture. In addition, no beneficial owner of an interest in the Global Notes will be able to transfer that interest except in accordance with DTC’s applicable procedures (in addition to those under the Indenture referred to herein and, if applicable, those of Euroclear and Clearstream).

Investors may hold their interests in a Regulation S Global Note or a Temporary Regulation S Global Note directly through Clearstream or Euroclear, if they are participants in these systems, or indirectly through organizations which are participants in these systems. Clearstream and Euroclear will hold interests in the
Footnote Exhibits - Page 5748

Regulation S Global Notes on behalf of their participants through their respective depositories, which in turn will hold the interests in the Regulation S Global Notes and Temporary Regulation S Global Notes in customers' securities accounts in the depositories' names on the books of DTC. Investors may hold their interests in a Rule 144A Global Note directly through DTC if they are participants in the system, or indirectly through organizations which are participants in the system.

Payments of the principal and interest on the Global Notes will be made to DTC or its nominee, as the registered owner thereof. Neither the Issuers, the Trustee nor any paying agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the Global Notes or for any notice permitted or required to be given to Holders of Notes or any consent given or action taken by DTC as Holder of Notes. The Issuers expect that DTC or its nominee, upon receipt of any payment of principal or interest in respect of a Global Note representing any Notes held by it or its nominee, will immediately credit participants' accounts with payments in amounts proportionate to their respective interests in the principal amount of such Global Notes as shown on the records of DTC or its nominee. The Issuers also expect that payments by participants to owners of interests in such Global Notes sold through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

Transfers between participants will be effected in the ordinary way in accordance with DTC rules and will be settled in same-day funds. The laws of some jurisdictions require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer beneficial interests in Global Notes to those persons may be limited. Because DTC can only act on behalf of participants, and in turn act on behalf of indirect participants and certain banks, the ability of a person having a beneficial interest in Global Notes to pledge its interest to persons or entities that do not participate in the DTC system, or otherwise take action in respect of its interest, may be affected by the lack of a physical certificate of the interest. Transfers between account holders in Euroclear and Clearstream will be effected in the ordinary way in accordance with their respective rules and operating procedures.

Subject to compliance with the transfer restrictions applicable to the Notes described above, cross-market transfers between DTC participants, on the one hand, and, directly or indirectly through Euroclear or Clearstream, on the other, will be effected in DTC in accordance with DTC rules on behalf of Euroclear or Clearstream, as the case may be, by its respective depositary; however, these cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in the system in accordance with its rules and procedures and within its established deadlines (Brussels time). Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depositary to take action to effect final settlement on its behalf by delivering or receiving interests in a Temporary Regulation S Global Note or a Regulation S Global Note in DTC, and making or receiving payment in accordance with normal procedures for a same-day funds settlement applicable to DTC. Clearstream and Euroclear account holders may not deliver instructions directly to the depositories for Clearstream or Euroclear.

Because of time zone differences, the securities account of a transactor or Clearstream participant purchasing an interest in a Global Note from a DTC participant will be credited during the securities settlement processing day (which must be a Business Day for Euroclear or Clearstream, as the case may be) immediately following the DTC settlement date and the credit of any transactions in interests in a Global Note settled during the previous day will be reported to the relevant Euroclear or Clearstream participant on that day. Credit to the account of Euroclear or Clearstream as a result of sales of interests in a Global Note by or through a Euroclear or Clearstream participant to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Euroclear or Clearstream account only as of the Business Day following settlement in DTC.

DTC has advised the Issuers that it will take any action permitted to be taken by a Holder of the Notes (including the presentation of the applicable Notes for exchange as described below) only at the direction of one or more participants in whose account the DTC interests in a Global Note are credited and only in respect of that portion of the aggregate principal amount of the Notes as to which the participant or participants has or have given direction.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912650
The giving of notices and other communications by DTC to participants, by participants to persons who hold accounts with them and by such persons to Holders of beneficial interests in a Global Note will be governed by arrangements between them, subject to any statutory or regulatory requirements as may exist from time to time.

DTC has advised the Issuers as follows: DTC is a limited purpose trust company organized under the laws of the State of New York, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the Uniform Commercial Code and a "Clearing Agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificated securities. Participants include securities brokers and dealers, banks, trust companies and clearing corporations and may include certain other organizations. Indirect access to the DTC system is available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly ("indirect participants").

Clearstream. Clearstream Banking, société anonyme, was incorporated as a limited liability company under Luxembourg law. Clearstream is owned by Cedel International, société anonyme, and Deutsche Börse AG. The shareholders of these two entities are banks, securities dealers and financial institutions.

Clearstream holds securities for its customers and facilitates the clearance and settlement of securities transactions between Clearstream customers through electronic book-entry changes in accounts of Clearstream customers, thus eliminating the need for physical movement of certificates. Clearstream provides to its customers, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities, securities lending and borrowing, and collateral management. Clearstream interfaces with domestic markets in a number of countries. Clearstream has established an electronic bridge with Euroclear Bank S.A./N.V., the operator of the Euroclear System, to facilitate settlement of orders between Clearstream and Euroclear.

As a registered bank in Luxembourg, Clearstream is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector. Clearstream customers are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. In the United States, Clearstream customers are limited to securities brokers and dealers and trusts and may include the Initial Purchaser. Other institutions that maintain a custodial relationship with a Clearstream customer may obtain indirect access to Clearstream. Clearstream is an indirect participant in DTC.

Distributions with respect to the Notes held beneficially through Clearstream will be credited to cash accounts of Clearstream customers in accordance with its rules and procedures, to the extent received by Clearstream.

The Euroclear System. The Euroclear System was created in 1968 to hold securities for participants of the Euroclear System, to clear and settle transactions between Euroclear participants through simultaneous electronic book-entry delivery against payment, thus eliminating the need for physical movement of certificates and risk from lack of simultaneous transfers of securities and cash. Transactions may now be settled in many currencies, including U.S. Dollars and Japanese Yen. The Euroclear System provides various other services, including securities lending and borrowing and interfaces with domestic markets in several countries similarly to the arrangements for cross-market clearance described above.

The Euroclear System is operated by Euroclear Bank S.A./N.V. (the "Euroclear Operator"), under contract with Euroclear Clearing System plc, a U.K. corporation (the "Euroclear Clearing System"). The Euroclear Operator conducts all operations, and all Euroclear settlement clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Euroclear Clearing System. The Euroclear Clearing System establishes policy for the Euroclear System on behalf of Euroclear participating organizations. Euroclear participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the Initial Purchaser. Indirect access to the Euroclear System is also available to other firms that clear through or maintain a custodial relationship with a Euroclear participant, either directly or indirectly. Euroclear is an indirect participant in DTC.
The Euroclear Operator is a Belgian bank. The Belgian Banking Commission regulates and examines the Euroclear Operator.

The Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System and applicable Belgian law govern securities clearance accounts and cash accounts with the Euroclear Operator. Specifically, these terms and conditions govern:

(a) transfers of securities and cash within the Euroclear System;
(b) withdrawal of securities and cash from the Euroclear System; and
(c) receipts of payments with respect to securities in the Euroclear System.

All securities in the Euroclear System are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the terms and conditions only on behalf of Euroclear participants and has no mentor of or relationship with persons holding securities through Euroclear participants.

Distributions with respect to Notes held beneficially through Euroclear will be credited to the cash accounts of Euroclear participating organizations in accordance with the Euroclear Terms and Conditions, to the extent received by the Euroclear Operator and by Euroclear.

Although DTC, Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfer of interests in the Regulation S Global Notes and in the Rule 144A Global Notes among participants of DTC, Clearstream and Euroclear, they are under no obligation to perform or continue to perform these procedures, and the procedures may be discontinued at any time. Neither the Issuers nor the Trustee will have any responsibility for the performance by DTC, Clearstream, Euroclear or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Payments: Certifications by Holders of Temporary Regulation S Global Notes. A Holder of a beneficial interest in a Temporary Regulation S Global Note must provide Clearstream or Euroclear, as the case may be, with a certificate in the form required by the Indenture certifying that the beneficial owner of the interest in each Global Note is not a U.S. Person (as defined in Regulation S), and Clearstream or Euroclear, as the case may be, must provide to the Trustee a certificate in the form required by the Indenture prior to (i) the payment of interest or principal with respect to such Holder’s beneficial interest in the Temporary Regulation S Global Note and (ii) any exchange of such beneficial interest for a beneficial interest in a Regulation S Global Note.

Individual Definitive Notes. The Class S Notes, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Regulation S Income Notes will be initially issued in global form. The Income Notes (other than the Regulation S Income Notes) will be held by DTC and will be represented by one or more Definitive Notes. If DTC or any successor to DTC advises the Issuer in writing that it is at any time unwilling or unable to continue as a depository for the reasons described in "— Global Notes" and a successor depository is not appointed by the Issuers within 90 days or as a result of any amendment or change in, the laws or regulations of the Cayman Islands or the State of Delaware, as applicable, or of any authority thereunder or thereof having power to tax or in the interpretation or administration of such laws or regulations which become effective on or after the Closing Date, the Issuers, the Note Paying Agent or the Fiscal Agent is or will be required to make any deduction or withholding from any payments in respect of the Notes which would not be required if the Notes were in definitive form and the Issuers will issue Definitive Notes in registered form in exchange for the Regulation S Global Notes and the Rule 144A Global Notes, at the case may be. Upon receipt of such notice from DTC, the Issuers will use their best efforts to make arrangements with DTC for the exchange of interests in the Global Notes for individual Definitive Notes and cause the required individual Definitive Notes to be executed and delivered to the Note Register or Income Notes Transfer Agent, as applicable, in sufficient quantities and authenticated by or on behalf of the Note Transfer Agent or Income Notes Transfer Agent, as applicable, for delivery to Holders of the Notes. Persons exchanging interests in a Global Note for individual Definitive Notes will be required to provide to the Note Transfer Agent or the Income Notes Transfer Agent, as applicable, through DTC, Clearstream or Euroclear, (i) written instructions and other
Footnote Exhibits - Page 5751

information required by the Issuer, the Note Transfer Agent and the Issuer Notes Transfer Agent to complete, execute and deliver such individual Definitive Notes, (ii) in the case of an exchange of an interest in a Rule 144A Global Note, such certification as to (a) Qualified Institutional Buyer status or, solely in the case of the Income Notes, as to Accredited Investor status and (b) that such Holder is a Qualified Purchaser, as the Issuers shall require and (iii) in the case of an exchange of an interest in a Regulation S Global Note, such certification as the Issuer shall require as to non-U.S. Person status. In all cases, individual Definitive Notes delivered in exchange for any Global Note or beneficial interest therein shall be registered in the names and in denominations in compliance with the minimum denominations specified for the applicable Global Notes, requested by DTC.

Individual Definitive Notes will bear, and be subject to, such legend as the Issuers require in order to assure compliance with any applicable law. Individual Definitive Notes will be transferable subject to the minimum denominations applicable to the Rule 144A Global Notes and Regulation S Global Notes, in whole or in part, and exchangeable for individual Definitive Notes of the same Class at the office of the Note Paying Agent, Note Transfer Agent, Income Notes Transfer Agent or the office of any transfer agent, upon compliance with the requirements set forth in the Indenture or the Fiscal Agency Agreement, as applicable. Individual Definitive Notes may be transferred through any transfer agent upon the delivery and duly completed assignment of such Notes. Upon transfer of any individual Definitive Note in part, the Note Transfer Agent or Income Notes Transfer Agent, as applicable, will cause to be in exchange for the transferee one or more individual Definitive Notes in the amount being so transferred and will cause to the transferor one or more individual Definitive Notes in the remaining amount not being transferred. No service charge will be imposed for any registration of transfer or exchange, but payment of a sum sufficient to cover any tax or other governmental charge may be required. The Holder of a minimal individual Definitive Note may transfer such Note, subject to compliance with the provisions of the legend therein.

Upon the transfer, exchange or assignment of Notes bearing the legend, or upon specific request for removal of the legend on a Note, the Issuer will deliver only Notes that bear such legend, or will refuse to remove such legend, as the case may be, unless there is delivered to the Issuer such satisfactory evidence, which may include an opinion of counsel, as may reasonably be required by the Issuer that neither the legend nor the restrictions on transfer set forth therein are required to assure compliance with the provisions of the Securities Act and the Investment Company Act. Payments of principal and interest on individual Definitive Notes shall be payable by the Note Paying Agent or the Fiscal Agent, as applicable, by U.S. Dollar check drawn on a bank in the United States of America and sent by mail to the registered Holder thereof, by wire transfer in immediately available funds. In addition, if and for so long as any Notes are listed on the Irish Stock Exchange and the rules of such exchange shall so require, in the case of a transfer or exchange of individual Definitive Notes, a Holder thereof may effect such transfer or exchange by presenting such Notes at, and obtaining from a new individual Definitive Note from the office of the Irish Paying Agent, in the case of a transfer of only a part of an individual Definitive Note, a new individual Definitive Note in respect of the balance of the principal amount of the individual Definitive Note not transferred will be delivered at the office of the Irish Stock Exchange and in the case of a replacement of any lost, stolen, mutilated or destroyed individual Definitive Note, a Holder thereof may obtain a new individual Definitive Note from the Irish Paying Agent.

The Income Notes. The Regulation S Income Notes will initially be in global form. The Income Notes (other than Regulation S Income Notes) will not be global and will be represented by one or more Income Note Certificates in definitive form. All Income Notes will be subject to certain restrictions on transfer as set forth under “Notice to Investors.”

Income Notes may be transferred only (i) upon receipt by the Issuer and Income Notes Transfer Agent of an Income Notes Purchase and Transfer Letter to the effect that the transfer is being made (a) to a Qualified Institutional Buyer that has acquired an interest in the Income Notes in a transaction meeting the requirements of Rule 144A or (b) to an Accredited Investor having a net worth of not less than U.S.$10 million in a transaction exempt from registration under the Securities Act, who is a Qualified Purchaser or (c) to a non-U.S. Person in an offer ruling transaction complying with Rule 903 or Rule 904 of Regulation S. The transfer of an Income Note (other than a Regulation S Income Note) must also make certain other representations applicable to such transfers, as set forth in the Income Notes Purchase and Transfer Letter.

Each Purchaser of a Regulation S Income Note will be deemed by its purchase to have represented and warranted as set forth under “Notice to Investors.”

79

Confidential Treatment Requested by Goldman Sachs GS MBS-E-000912053
Payments on the Income Notes on any Payment Date will be made to the person in whose name the relevant Income Note is registered in the Income Notes Register as of the close of business 10 Business Days prior to such Payment Date.

USE OF PROCEEDS

The gross proceeds associated with the offering of the Notes are expected to equal approximately U.S.$309,400,000. Approximately U.S.$1,655,000 of such gross proceeds will be applied by the Issuer to pay underwriting fees and expenses associated with the offering of the Notes. On the Closing Date or promptly thereafter as is consistent with customary settlement procedures, pursuant to agreements to purchase entered into on or before the Closing Date, the Issuer will apply the net proceeds to purchase the Collateral Securities and Eligible Investments described herein having an aggregate Principal Balance of approximately U.S.$309,000,000 and will have extended into the Credit Default Swap. In addition, on the Closing Date, approximately U.S.$200,000 of the net proceeds from the issuance of the Notes will be deposited into the Reserve Account.

RATINGS OF THE NOTES

It is in the judgment of the Issuer that the Class A Notes, the Class A-1a Notes, the Class A-1b Notes and the Class A-2 Notes be rated “Aaa” by Moody’s and “AAA” by S&P, that the Class B Notes be rated at least “Aa2” by Moody’s and at least “AA” by S&P, that the Class C Notes be rated at least “A2” by Moody’s and at least “A” by S&P and that the Class D Notes be rated at least “Baa” by Moody’s and at least “BBB” by S&P. The Income Notes will not be rated by either Rating Agency. A rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time.

If and for as long as any Class of Notes is listed on the Irish Stock Exchange, the Trustee will inform the Irish Paying Agent if any rating assigned to any Class of Notes is revoked or withdrawn.

Moody’s Ratings

The ratings assigned to the Secured Notes by Moody’s are based upon its assessment of the probability that the Credit Default Swap and the Collateral Assets will provide sufficient funds to pay such Secured Notes, based largely upon Moody’s historical analysis of historical default rates on debt obligations with various ratings, expected recovery rates on the Reference Obligations and the Collateral Assets, the asset and interest coverage required for such Secured Notes (which is achieved through the subordination of more Junior Notes), and the diversification requirements that the Pledged Assets must satisfy.

Moody’s rating of (i) the Class A Notes, the Class A-1a Notes and the Class B Notes addresses the ultimate cash receipt of all required principal payments and the timely cash receipt of all interest or premium payments as provided in the governing documents and (ii) the Class C Notes and the Class D Notes addresses the ultimate cash receipt of all required interest and principal payments as provided in the governing documents. Moody’s ratings are based on the expected loss posed to the Holders of the Notes relative to the present value of receiving the present value, capitalizing a discounted cash flow equal to the present value of interest and principal payments. Moody’s analyses the likelihood that each debt obligation included in the portfolio will default, based on historical default rates for similar debt obligations, the historical volatility of such default rates (which increases as securities with lower ratings are added to the portfolio) and an additional default assumption to account for future fluctuations in defaults. Moody’s then determines the level of credit protection necessary to achieve the expected loss associated with the rating of the structured securities, taking into account the potential recovery value of the Pledged Assets and the expected volatility of the default rate of the portfolio based on the level of diversification by issuer and industry.

In addition to these quantitative tests, Moody’s ratings take into account qualitative features of a transaction, including the experience of the Liquidation Agent, the legal structure and the risks associated with such structure, its view as to the quality of the participants in the transaction and other factors that it deems relevant.

Confidential Treatment Requested by Goldman Sachs
S&P Ratings

S&P will rate the Seconded Notes in a manner similar to the manner in which it rates other structured issues. The ratings assigned to the Class E Notes, the Class F Notes and the Class G Notes by S&P address the likelihood of the timely payment of interest and the ultimate payment of principal on such Seconded Notes. The ratings assigned to the Class C Notes and the Class D Notes by S&P address the likelihood of the ultimate payment of interest and principal on each Seconded Note. This requires an analysis of the following: (i) credit quality of the Pledged Assets securing the Seconded Notes; (ii) cash flow used to pay interest and the provision of those payments, and (iii) legal considerations. Based on these analyses, S&P determines the necessary level of credit enhancement needed to achieve a desired rating.

S&P’s analysis includes the application of its proprietary default expectation computer model, the Standard & Poor’s CDO Monitor (which will be provided to the Issuer), which is used to estimate the default rate the portfolio is likely to experience. The Standard & Poor’s CDO Monitor calculates the projected cumulative default rate of a pool of collateral consistent with a specified benchmark rating level based upon S&P’s proprietary corporate default studies. The Standard & Poor’s CDO Monitor takes into consideration the rating of each issuer or obligor, the number of issuers or obligors, the issuer or obligor industry concentration and the remaining weighted average maturity of each of the Reference Obligations included in the Reference Portfolio. The risks posed by these variables are accounted for by effectively adjusting the necessary default level needed to achieve a desired rating. The higher the desired rating, the higher the level of defaults the portfolio must withstand.

Credit enhancement to support a particular rating is then provided based, in part, on the results of the Standard & Poor’s CDO Monitor, as well as other more qualitative considerations such as legal issues and management capabilities. Credit enhancement is typically provided by a combination of overcollateralization/overallocation, cash collateral/reserve account, excess spread/interest and amortization. A transaction-specific cash flow model (the “Transaction-Specific Cash Flow Model”) is used to evaluate the portfolio and determine whether it can withstand an estimated level of default while fully repaying the class of debt under consideration.

There can be no assurance that actual loss on the Pledged Assets will not exceed those assumed in the application of the Standard & Poor’s CDO Monitor or that recovery rates and the timing of recovery with respect to defaults will not differ from those assumed in the Transaction-Specific Cash Flow Model. The Issuers make no representation as to the expected rate of defaults on the portfolio or as to the expected timing of any defaults that may occur.

S&P’s rating of the Notes will be established under various assumptions and accrual analyses. There can be no assurance, and no representation is made, that actual defaults on the Pledged Assets will not exceed those in S&P’s analysis, or that recovery rates with respect thereto (and, consequentially, loss rates) will not differ from those in S&P’s analysis.

THE CREDIT DEFAULT SWAP

General

The following description of the Credit Default Swap is a summary of certain provisions of the Credit Default Swap but does not purport to be complete and prospective investors must refer to the Credit Default Swap for more detailed information regarding the Credit Default Swap. Copies of the Master Agreement and the Master Confirmations will be available to investors from the Trustee. Capitalized terms not otherwise defined in this section will have the meanings set forth in the Master Agreement and related Master Confirmations.

The Credit Default Swap will be structured as a “pay-as-you-go” credit default swap and will be documented pursuant to a 1992 ISDA Master Agreement (Multicurrency-Cross Border), including the Schedule thereto (the “Master Agreement”), between the Issuer and the Credit Protection Buyer along with two confirmations (each a “Master Confirmation”) evidencing a transaction with respect to each Reference Obligation in the Reference Portfolio (each such transaction, a “CDS Transaction”).

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912655
Each CDS Transaction is expected to have a specified Reference Obligation Nominal Amount which represents the dollar amount of the credit exposure which the Issuer is assuming thereunder with respect to the Reference Obligation related to such CDS Transaction. The "Aggregate Reference Obligation Nominal Amount" is the sum of the Reference Obligation Nominal Amounts of all CDS Transactions. On the Closing Date, the Issuer expects to enter into a Credit Default Swap with an Aggregate Reference Obligation Nominal Amount of approximately U.S.$310,000,000. In accordance with the terms of the CDS Transactions, the Reference Obligation Nominal Amount of each CDS Transaction is expected after the Closing Date to be: (i) decreased on each day on which a Reference Obligation Principal Payment is made by the relevant Reference Obligation Principal Authorization Amount; (ii) decreased on each day on which a default payment is made by the relevant Reference Obligation Nominal Amount; (iii) decreased on each day on which a Withdrawal occurs by the relevant Withdrawal Amount; (iv) increased on each day on which a Withdrawal Reimbursement occurs by any Withdrawal Reimbursement Amount in respect of a Withdrawal Reimbursement within paragraphs (ii) or (iii) of the definition of "Withdrawal Reimbursement"; and (v) decreased on each Delivery Date by an amount equal to the relevant Event Amount minus the relevant amount determined pursuant to paragraph (ii) under the heading, "Physical Settlement Amount" in the related Master Confirmation, provided that, in accordance with the related Master Confirmation, if any Relevant Amount is applicable, the Event Amount will also be decreed to be decreed by such Relevant Amount (or increased by the absolute value of such Relevant Amount if such Relevant Amount is negative) with effect from such Delivery Date.

The effective date of the Credit Default Swap will be the Closing Date and the Credit Default Swap will terminate by its terms on July 13, 2042 (the "Scheduled Termination Date") unless a Credit Event occurs with respect to the Credit Default Swap and the physical settlement date is scheduled to occur after each date.

Credit Protection Buyer Payments

Pursuant to the Credit Default Swap, on each Determination Date, the Credit Protection Buyer will make a fixed rate payment (minus any related interest shortfall amounts as described below and in the related Master Confirmation) (the "Fixed Amount") to the Issuer, representing the aggregate Fixed Amounts which became due with respect to the Reference Obligation Payment Dates during the related Due Period. The Credit Protection Buyer will make certain other payments under the Credit Default Swap to the Issuer at the times and in the amounts described herein, including any Interest Shortfall Reimbursement Payment Amounts, Withdrawal Reimbursement Payment Amounts and any Principal Shortfall Reimbursement Payment Amounts (together "Additional Fixed Amounts"). In connection with any termination or assignment of a CDS Transaction, proceeds from such termination or assignment, if any, will be deposited into the Interest Collection Account.

Upon the occurrence of any Interest Shortfall with respect to any Reference Obligation, the Fixed Amount payable under a CDS Transaction by the Credit Protection Buyer to the Issuer will be reduced by an amount equal to the related Interest Shortfall Amount, such reduction amount not to exceed the Fixed Amount. Interest will accrue on any Interest Shortfall Payment Amount as a rate equal to LIBOR plus the fixed rate as specified in the applicable CDS Transaction. Interest Shortfall Payment Amounts are subject to the Interest Shortfall Cap as described in the Credit Default Swap. If any amount in satisfaction of the Interest Shortfall which grew due to any Interest Shortfall Payment Amount, including interest accrued thereon, is later paid with respect to a Reference Obligation, the Credit Protection Buyer will pay such amount, or in certain circumstances a portion of such amount, to the Issuer as an Interest Shortfall Reimbursement Payment. Interest Shortfall Reimbursement Payment Amounts will not exceed the cumulative Interest Shortfall Payment Amounts (including any interest thereon) previously withheld from the Issuer relating to such Reference Obligation.

So long as the long-term ratings (or, in the case of clause (ii) of this paragraph only, the short-term rating) of the Credit Protection Buyer or any guarantor of the Credit Protection Buyer’s obligations under the Credit Default Swap are equal to or higher than (i) “Aa3” by Moody’s (and, if rated “Aa3” by Moody’s, is not on watch for possible downgrades) and (ii) “A-1+” by S&P (and, if rated “A-1+” by S&P, is not on watch for possible downgrades) or (iii), if Goldman Sachs International is not the Credit Protection Buyer, “A-1+” by S&P (and, if rated “A-1+” by S&P, is not on watch for possible downgrades), the fixed payment due by the Credit Protection Buyer will be the fixed payment due under the Credit Default Swap in advance. The failure of the Credit Protection Buyer to make
the final payment in advance if such mixing levels are no longer satisfied will constitute a termination event under the terms of the Credit Default Swap with the Credit Protection Buyer as the sole "Affected Party" under the Credit Default Swap.

Credit Protection Seller Payments

Under the Credit Default Swap, the Issuer will be required to pay certain Payment Amounts to the Credit Protection Buyer following the occurrence of a Floating Amount Event with respect to a Reference Obligation as described herein. The Issuer will pay to the Credit Protection Buyer all Payment Amounts which become due during each Due Period, if any, on the related Determination Date.

Upon the occurrence of a Credit Event with respect to a Reference Obligation, the Credit Protection Buyer may deliver such Reference Obligation to the Issuer, in exchange for which the Issuer will pay to the Credit Protection Buyer an amount (a "Physical Settlement Amount"). which amount shall be calculated in accordance with the related CDS Transaction. The Issuer will pay to the Credit Protection Buyer all Payment Settlement Amounts which become due during the related Due Period, if any, on the related Determination Date.

Delivered Obligations delivered to the Issuer will be credited to the Delivered Obligation Account. Any Delivered Obligation delivered to the Issuer shall be sold by the Liquidation Agent within twelve (12) months of the date on which the Liquidation Agent receives notice of such delivery in accordance with the Liquidation Agency Agreement. provided that no Event of Default has occurred and is continuing. The proceeds of each sale will be deposited by the Trustee into the Collateral Account and invested in Eligible Investments and Collateral Securities selected at the direction of the Liquidation Agent. In addition, any principal proceeds or interest received on such Delivered Obligations prior to such sale, will be deposited by the Trustee into the Collateral Account.

In connection with any termination or assignment of a CDS Transaction, the Issuer may owe a Credit Default Swap Termination Payment; provided, however, that the Issuer will not be obligated to make any Credit Default Swap Termination Payments to the Credit Protection Buyer in the event of a termination or assignment of the Credit Default Swap in respect of which the Credit Protection Buyer is the "Defaulting Party" or the sole "Affected Party" (each as defined in the Credit Default Swap). Credit Default Swap Termination Payments due to the Credit Protection Buyer will be paid directly and outside of the Priority of Payments in accordance with the following paragraph. Delivered Swap Termination Payments due to the Credit Protection Buyer will be paid in accordance with the Priority of Payments. Credit Default Swap Termination Payments due to an assignee of a CDS Transaction will be paid as and when they become due to the extent of available funds.

The Liquidation Agent, on behalf of the Issuer, will obtain the funds to pay Credit Protection Amounts (which, for the avoidance of doubt, shall not include Delivered Swap Termination Payments) by withdrawing amounts from the Collateral Account pursuant to the Collateral Liquidation Procedure. In the event the Credit Default Swap is terminated prior to its scheduled maturity without the occurrence of a "credit event" or a "Floating amount event", the Liquidation Agent, on behalf of the Issuer, shall apply the Collateral Liquidation Procedure with respect to Collateral having a par amount equal to the amount of the Credit Default Swap Termination Payments, if any, owed to the Credit Protection Buyer and any such termination payment will be paid to the Credit Protection Buyer. The Credit Protection Buyer will bear any market risk on the liquidation of such Collateral. The Credit Default Swap will also provide for cash settlement upon the occurrence of a "credit event" or a "Floating amount event" or physical settlement upon the occurrence of a "credit event" under such Credit Default Swap upon notice from the Credit Protection Buyer. If the Credit Protection Buyer has elected cash settlement, the Liquidation Agent, on behalf of the Issuer, shall apply the Collateral Liquidation Procedure with respect to Collateral having a par amount equal to the amount of any related Credit Protection Amounts owed to the Credit Protection Buyer and any such related Credit Protection Amounts owed to the Credit Protection Buyer will be paid by the Liquidation Agent, on behalf of the Issuer, from the liquidation proceeds of such Collateral. In the event such liquidation proceeds are less than par, the Credit Protection Buyer will accept the liquidation proceeds applicable to the face amount of Collateral sold which is equal to the loss or writedown amount. In the event a "credit event" or a "Floating amount event" has occurred and the Issuer is required to liquidate Collateral and deliver said to the Credit Protection Buyer, the Credit Protection Buyer will bear any market risk on the liquidation of such Collateral. If the Credit Protection Buyer has chosen physical settlement, the Collateral chosen by the Credit Protection Buyer will be delivered to the Credit Protection Buyer in exchange for a Delivered Obligation.

Confidential Treatment Requested by Goldman Sachs GS MBB-E-000912657
The obligations of the Issuer to make payments under a CDS Transaction will exist irrespective of whether the Credit Protection Buyer suffers a loss on the related Reference Obligation upon the occurrence of a Credit Event. The Issuer will have no rights of subrogation under the Credit Default Swap.

Credit Events

A Credit Event with respect to the Credit Default Swap and any Reference Obligation means the occurrence of any of the events specified in the Credit Default Swap or a Credit Event on or before the scheduled termination date for each CDS Transaction. The Credit Events are expected to be Failure to Pay Principal, Writedown and Distressed Ratings Downgrades. Each Master Confirmation may alter the standard definitions of such terms and the actual CDS Transactions should be consulted for the details of the Credit Events applicable thereto. The capitalized terms used in this section and not otherwise defined, have the meanings set forth in the related CDS Transactions.

A “Credit Event” is the occurrence of any of the following (however caused, directly or indirectly), as applicable:

(i) Failure to Pay Principal

“Failure to Pay Principal” means (i) a failure by the Reference Entity (or any Issuer) to pay an Expected Principal Amount on the Final Amortization Date or the Legal Final Maturity Date, as the case may be or (ii) payment on any such day of an Actual Principal Amount that is less than the Expected Principal Amount, provided that the failure by the Reference Entity (or any Issuer) to pay any such amount is in respect of principal in accordance with the foregoing shall not constitute a Failure to Pay Principal if such failure has been remedied within any grace period applicable to such payment obligation under the underlying instruments or, if no such grace period is applicable, within three Business Days after the day on which the Expected Principal Amount was scheduled to be paid.

(k) Writedown

“Writedown” means the occurrence at any time on or after the Effective Date of: (i) A writedown or application loss (however described in the underlying instruments) resulting in a reduction in the Outstanding Principal Amount (other than as a result of a scheduled or unscheduled payment of principal); or (ii) the attribution of a principal deficiency or realized loss (however described in the underlying instruments) to the Reference Obligation resulting in a reduction of the current interest payable on the Reference Obligation; (ii) the forgiveness of any amount of principal by the holders of the Reference Obligation pursuant to an amendment to the underlying instruments resulting in a reduction in the Outstanding Principal Amount; or (iii) if the underlying instruments do not provide for writedown, applied losses, principal deficiencies or realized losses as described in (i) above to occur in respect of the Reference Obligation, an implied Writedown Amount being determined in respect of the Reference Obligation by the Calculation Agent.

(ii) Distressed Ratings Downgrade:

“Distressed Ratings Downgrade” means, with respect to a Reference Obligation:

(i) if publicly rated by Moody’s, (A) is downgraded to “Caa3” or below by Moody’s or (B) has the rating assigned to it by Moody’s downgraded and, in either case, not reinstated within five Business Days of such downgrade or withdrawal, provided that if such Reference Obligation was assigned a public rating of at least “Baa3” or higher by Moody’s immediately prior to the occurrence of such withdrawal, it shall not constitute a Distressed Ratings Downgrade if such Reference Obligation is assigned a public rating of at least “Caa3” by Moody’s within three calendar events after such withdrawal; or

(ii) if publicly rated by Standard & Poor’s, (A) is downgraded to “CCC” or below by Standard & Poor’s or (B) has the rating assigned to it by Standard & Poor’s downgraded and, in either case, not reinstated within five Business Days of such downgrade or withdrawal; provided that if such Reference Obligation was assigned a
public rating of at least "BBB-" or higher by Standard & Poor's immediately prior to the occurrence of such withdrawal, it shall not constitute a Downgraded Rating Downgrade if such Reference Obligation is assigned a public rating of at least "CCC+" by Standard & Poor’s within three calendar months after such withdrawal; or

(iii) if publicly rated by Fitch, (A) is downgraded to "CCC" by Fitch, or (B) has its rating withdrawn and, in either case, not restored within five Business Days of such downgrade or withdrawal, provided that if such Reference Obligation was assigned a public rating of at least "BBB-" by Fitch immediately prior to the occurrence of such withdrawal, it shall not constitute a Downgraded Rating Downgrade if such Reference Obligation is assigned a public rating of at least "CCC" by Fitch within three calendar months after such withdrawal.

(iv) Failure to Pay Interest

"Failure to Pay Interest" means with respect to any Reference Obligation, the occurrence of an Interest Shortfall Amount or Interest Shortfall Amounts (calculated on a cumulative basis) in excess of the relevant Payment Requirement.

In respect of the Failure to Pay Interest, if the Reference Obligation is a PIK Bond, it shall be a Condition to Settlement that a period of at least 365 calendar days has elapsed since the occurrence of the Credit Event without the relevant Interest Shortfall having been disbursed in full.

The Reference Portfolio

The Aggregate Reference Obligation National Amount on the Closing Date is expected to be $500,000,000. The Reference Obligations will consist of $1 billion across two categories of RMBS Securities and one category of CDO Securities. The Reference Portfolio will include RMBS Subprime Mortgage Securities, RMBS Prime Mortgage Securities and CDO RMBS Securities.

As of the Closing Date, (i) RMBS Subprime Mortgage Securities are expected to make up approximately 41.0% of the Aggregate Reference Obligation National Amount, (ii) RMBS Prime Mortgage Securities are expected to make up approximately 57.6% of the Aggregate Reference Obligation National Amount and (iii) CDO RMBS Securities are expected to make up approximately 1.4% of the Aggregate Reference Obligation National Amount. See Appendix B to this Offering Circular for certain summary information with respect to the Reference Portfolio.

Removal of Reference Obligations from the Reference Portfolio

Following a Withdrawal and the satisfaction of the Conditions to Settlement relating thereto, the Reference Obligation that is the subject of such Credit Event will not be removed from the Reference Portfolio, and such Reference Obligation may experience one or more subsequent Credit Events (including a Withdrawal).

Following (i) the scheduled maturity, redemption or amortization in full of a Reference Obligation or (ii) a Credit Event other than a Withdrawal and the satisfaction of the Conditions to Settlement, the Reference Obligation that matured, redeemed or amortized in full or that is the subject of such Credit Event will be removed from the Reference Portfolio. Subject to the foregoing, if the Reference Obligation National Amount of a Reference Obligation that suffered one or more Withdrawals is reduced to zero at any time on or prior to the Scheduled Termination Date and remains at zero for a period of one calendar year, such Reference Obligation shall be removed from the Reference Portfolio as of the last day of such one calendar year period. The Aggregate Reference Obligation National Amount of each Reference Obligation restored from the Reference Portfolio.

The Issuer will not have the authority to assign, terminate or otherwise dispose of any CDS Transaction on a discretionary basis. The only CDS Transactions that shall be assigned, terminated or otherwise disposed of by the Issuer are CDS Transactions that reference Reference Obligations that are determined pursuant to the Collateral Administration Agreement by the Collateral Administrator, on behalf of the Issuer, to be Credit Risk Obligations.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000913659
Pursuant to the terms of the indenture and subject to the restrictions contained therein and in the Liquidation Agency Agreement, the Liquidation Agent shall assign, terminate or otherwise dispose of, on behalf of the Issuer, any such CDS Transaction that references a Reference Obligation that is so determined to be a Credit Risk Obligation within one (1) year from the date on which the Collateral Administrator, on behalf of the Issuer, presents to the Collateral Administrator Agreement, identifies to the Liquidation Agent such Reference Obligation as a Credit Risk Obligation. The assignment, termination or disposition prior for any such assignment, termination or disposition of a CDS Transaction that references a Reference Obligation that is so determined to be a Credit Risk Obligation will equal the fair market value of such CDS Transaction. The fair market value of any such CDS Transaction will be the highest bid received by the Liquidation Agent after attempting to solicit a bid from up three independent third parties making a market in such CDS Transaction that references a Reference Obligation that is so determined to be a Credit Risk Obligation, at least one of which is not from the Liquidation Agent or an affiliate thereof; provided that, if upon commercially reasonable efforts of the Liquidation Agent, bids from three independent third parties making a market in such CDS Transaction are not available, the higher of the bids from two such third parties may be used; provided further that, if upon commercially reasonable efforts of the Liquidation Agent, bids from two independent third parties making a market in such CDS Transaction that references a Reference Obligation that is so determined to be a Credit Risk Obligation are not available, one such bid may be used. See "Risk Factors—Notes—Static Transaction" and "—No Collateral Manager." The proceeds from any such disposition of a CDS Transaction that references a Reference Obligation that is so determined to be a Credit Risk Obligation (exclusive of any accrued interest) will be deposited in the Collateral Account for investment in Eligible Investments or Collateral Securities, and may be applied as Amortization Proceeds pursuant to the calculation of the Aggregate Amortization Amount. In the event the Credit Default Swap is terminated prior to its scheduled maturity without the occurrence of a "credit event" or a "buyout amount event," the Liquidation Agent, on behalf of the Issuer, shall apply the Collateral Liquidation Proceeds with respect to Collateral having a per unit amount equal to the amount of the Credit Default Swap Termination Payment, if any, to the Credit Protection Buyer and any such termination payment will be paid to the Credit Protection Buyer. The Credit Protection Buyer will bear any market risk on the liquidation of such Collateral. A "Credit Risk Obligation" is a Reference Obligation (i) the rating of which has been (a) downgraded to below "B-" or "B3" by any Rating Agency (but not including any Reference Obligations which are rated "B-" or "B3" and no credit watch for possible downgrades) or (b) withdrawn or, (ii) that is a Defaulted Obligation or (iii) that is a PIK Bond that has been deferred interest for at least twelve consecutive months.

The Liquidation Agent, on behalf of the Issuer, may also (i) in the case of an Auction terminate the Credit Default Swap and liquidate the remaining Pledged Assets, provided, that the criteria for an Auction can be demonstrated one prior to any such disposition and that the expected Liquidation Proceeds equal or exceed the Minimum Bid Amount, (ii) in the case of a Tax Redemption on any Payment Date, dispose of the Credit Default Swap and liquidate the remaining Pledged Assets in connection with a Tax Redemption, provided, that the criteria for a Tax Redemption can be demonstrated prior to any such disposition and that the expected Liquidation Proceeds equal or exceed the Total Redemption Amount; and (iii) in the case of an Optional Redemption, dispose of the Credit Default Swap and liquidate the remaining Pledged Assets in connection with an Optional Redemption, provided, that the criteria for an Optional Redemption can be demonstrated prior to any such disposition and that the expected Liquidation Proceeds equal or exceed the Total Redemption Amount. See "Description of the Notes—Auction," "—Tax Redemption" and "—Optional Redemption."

Credit Default Swap Early Termination

The Issuer will have the right to terminate the Credit Default Swap upon the occurrence of an "Event of Default." "Event of Default," including but not limited to, (a) payment defaults by the Credit Protection Buyer or any guarantor, (b) a default by the Credit Protection Buyer or any guarantor on specific financial transactions as specified in the Credit Default Swap, (c) bankruptcy-related events applicable to the Credit Protection Buyer or any guarantor, (d) any redemption of the Notes in whole, (e) a liquidation of all the Pledged Assets following the occurrence of an Event of Default under the Indenture, (f) it becomes unlawful for the Issuer to perform its obligations under the Credit Default Swap and the Issuer is not able to transfer its obligations to a different jurisdiction or substitute another entity in its place so that such illegality ceases to apply, (g) because of (x) any action taken by a taxing authority, or brought in a court, or involving a change in tax law, there is a substantial likelihood that the Issuer will be required to (1) make a "green-up" payment to the Issuer for which another party is not required to make a "green-up" payment or (h) the unsecured, unsubordinated debt rating of the Credit Protection Buyer at any

Confidential Treatment Requested by Goldman Sachs
guarantor of the Credit Protection Buyer, whichever is higher, assigned by S&P or Moody's at any time falls below "AA-" (or is on downgrade watch at "AA-" or "AA") or "Aa3" (or is on downgrade watch at "Aa3"), the Credit Protection Buyer fails to make an Expected Fixed Payment as set forth in the Credit Default Swap and the Credit Protection Buyer, or its guarantor, fails to either (a) satisfy all of the rights and obligations under the Credit Default Swap to another entity which has such rating or (b) cause an entry which has such rating to guarantee or to provide an indemnity in respect of the Credit Protection Buyer's or its guarantor's obligations under the Credit Default Swap which satisfies the Rating Agency Condition.

The Credit Protection Buyer will have the right to terminate the Credit Default Swap upon the occurrence of an "Event of Default" or "Termination Event" under the Credit Default Swap, including, but not limited to (a) an Event of Default under the Indenture caused by a payment default by the Issuer lasting a period of at least three business days, (b) any redemption of the Notes in whole, (c) bankruptcy-related events applicable to the Issuer, and (d) a liquidation of all the Pledged Assets following the occurrence of an Event of Default under the Indenture, (i) it becomes unlawful for the Credit Protection Buyer to perform its obligations under the Credit Default Swap and the Credit Protection Buyer is not able to transfer its obligations to a different jurisdiction or sublease another entity in place so that such illegality ceases to apply, or (ii) because of (x) any action taken by a taxing authority, or brought in a court, or after the Closing Date or (ii) a change in tax law, there is a substantial likelihood that the Credit Protection Buyer will be required to make (1) a "gross-up" payment or (2) receive a payment subject to withholding for which another party is not required to make a "gross-up" payment. If the Master Agreement and the CDS Transactions made thereunder are terminated, the Issuer will no longer receive payments from the Credit Protection Buyer and will likely not have sufficient funds to make payments when due on the Notes and may not have sufficient funds to redeem the Notes in full.

Upon the Trustee having actual knowledge of the occurrence of any event that gives rise to the right of the Issuer to terminate the Credit Default Swap, the Trustee or the Fiscal Agent, as applicable, will as promptly as practicable notify the Noteholders of each event but will only terminate any such agreement on behalf of the Issuer (1) at the direction of a Majority of the Issuers' Notes or (2) upon the redemption of the Second Notes in full, (b) if the principal balance of the Second Notes is reduced to zero or (c) upon the acceleration of the Second Notes in accordance with the terms of the Indenture. The Issuer is required to satisfy the Rating Agency Condition prior to any replacement of the Credit Protection Buyer or assignment of the Credit Default Swap. In connection with any Noteholder vote to terminate the Credit Default Swap, any Notes held by or on behalf of the Credit Protection Buyer or any of its respective Affiliates will have no voting rights and will be deemed not to be outstanding in connection with any such vote.

If an Event of Default or a Termination Event occurs under the Credit Default Swap and (i) the Credit Protection Buyer is the Defaulting Party or Affected Party, "Market Quotation" and "First Method" will apply and unless otherwise ("Market Quotation" and "Second Method" will apply in such case as set forth in the Credit Default Swap, to value the CDS Transactions under the Credit Default Swap.

Payments on Credit Default Swap Early Termination

Payments by the Issuer. Upon the occurrence of a Credit Default Swap Early Termination, the Issuer will be required to pay to the Credit Protection Buyer the following amounts:

(i) any Physical Settlement Amounts owed by the Issuer to the Credit Protection Buyer for any Credit Default Swap Early Termination Event for which the Conditions to Settlement have been satisfied, and

(ii) any Credit Default Swap Early Termination Payment due to the Credit Protection Buyer.

Payments by the Credit Protection Buyer. Upon the occurrence of a Credit Default Swap Early Termination, the Credit Protection Buyer will be required to pay to the Issuer the following amounts:

(i) any accrued but unpaid Fixed Amount and Additional Fixed Amounts; and
Footnote Exhibits - Page 5760

1689

(ii) Any Credit Default Swap Termination Payment due to the Issuer.

There can be no assurance that, upon early termination by the Issuer or the Credit Protection Buyer, either the Credit Protection Buyer would be required to make any termination payment to the Issuer or, if it did make such a payment, the amount of the termination payment made by the Credit Protection Buyer would be sufficient to pay any amounts due in respect of the Notes. If the Issuer is required to make a Credit Default Swap Termination Payment to the Credit Protection Buyer, such termination payment may be substantial and may result in losses to the holders of the Notes.

Amendment

The Credit Default Swap may be amended only with (i) the satisfaction of the Rating Agency Condition, (ii) the consent of the Holders (in a percentage as would have been required had such amendment been taken pursuant to this Indenture) and (iii) the consent of the Liquidation Agent (which consent shall not be unreasonably withheld), provided however, that (A) with respect to (i), such Rating Agency Condition with respect to Moody’s need not be satisfied with respect to any amendment that corrects a manifest error and (B) with respect to (ii) and (iii), such consent shall not be required, if, in reliance on an opinion of counsel or an officer’s certificate of the Liquidation Agent, the Issuer determines that such amendment would not have a material adverse effect on such party.

Guarantee

The GS Group will guarantee the obligations of the Credit Protection Buyer under the Credit Default Swap.

THE CREDIT PROTECTION BUYER

The initial Credit Protection Buyer under the Credit Default Swap will be Goldman Sachs International. The swap guarantee with respect to the Credit Default Swap is The Goldman Sachs Group, Inc., a Delaware corporation (the “GS Group”), which is an affiliate of the Credit Protection Buyer. Goldman Sachs International is located at 85 Broad Street, New York, New York 10004.

The Annual Report on Form 10-K for the fiscal year ended November 30, 2006 filed by GS Group with the SEC (other than, in each case, documents or information deemed to have been furnished and not filed in accordance with SEC rules) will not be part of a prospectus prepared for the purposes of admission to the Official List of the Irish Stock Exchange and in trading on the regulated market should any Notes be listed on such exchange.

GS Group, together with its subsidiaries, is a global investment banking, securities and investment management firm that provides financial services worldwide to clients that include corporations, financial institutions, governments and high-net-worth individuals.

Any statement contained in a document incorporated or deemed to be incorporated by reference into this Offering Circular, or contained in this Offering Circular, will be deemed to be modified or superseded for purposes of this Offering Circular to the extent that a statement contained herein or in any other subsequently filed document which also is or is deemed to be incorporated by reference herein, modifies or supersedes such statement. Any such statement so modified or superseded will not be deemed, except as so modified or superseded, to constitute a part of this Offering Circular. GS Group’s filings with the SEC are available to the public through the SEC’s Internet site at http://www.sec.gov, and through the New York Stock Exchange, 20 Broad Street, New York, New York 10005, on which GS Group’s common stock is listed.

The Notes do not represent an obligation of, and will not be insured or guaranteed by, GS Group or any of its subsidiaries and investors will have no rights or recourse against GS Group or any of its subsidiaries.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912862
THE COLLATERAL SECURITIES

The Initial Collateral Securities

Pursuant to the Credit Default Swap, the Lessor will use the net proceeds from the offering of the Notes to purchase Collateral Securities and Eligible Investments (having an initial principal amount as of the Closing Date of approximately U.S.$10,000,000).

The Collateral Securities or Eligible Investments for deposit after the Closing Date in the Collateral Account, as applicable, are required to satisfy the following "Collateral Securities Eligibility Criteria":

(i) if it is rated "Aaa" by Moody's and, if such asset has a short-term rating from Moody's, "P-1", and "AAA" by S&P, and, if such asset has a short-term rating from S&P, "A-1" and (b) does not have a "T", "Y", "Q", "F", or "V" suffix;

(ii) in all cases, the payments with respect to which are not payable in a currency other than Dollars and (b) it is expected to have no outstanding principal balance of less than U.S.$1,000 after the Stated Maturity of the Class B Notes, assuming a constant prepayment rate since the date of purchase equal to the constant prepayment rate reasonably expected by the Liquidation Agent as of the date of purchase;

(iii) it is eligible to be entered into by, sold or assigned to, the Lessor;

(iv) if not subject to an Ofer;

(v) it is subject to withholding tax imposed by any jurisdiction unless the obligor thereof is required to make "gross-up" payments that cover the full amount of any such withholding taxes on an after-tax basis;

(vi) after taking into consideration the addition of any such security (a) at least 60% of the Collateral Securities and Eligible Investments by principal balance have an expected average life (calculated by the Liquidation Agent (1) based on market prepayment assumptions and (2) assuming that Eligible Investments have a weighted average life of zero) of less than or equal to 1.0 years, (b) 100% of the Collateral Securities and Eligible Investments by principal balance have an expected average life (calculated by the Liquidation Agent based on market prepayment assumptions) of less than or equal to 2.0 years, and (c) after Closing Date, the expected weighted average life (calculated by the Liquidation Agent (1) based on market prepayment assumptions and (2) assuming that Eligible Investments have a weighted average life of zero) of the Collateral Securities and Eligible Investments does not exceed the expected weighted average life of the Reference Portfolio at such time;

(vii) after taking into consideration the addition of any such security, the aggregate of the weighted average spread and the rate of the related index of the Collateral, in the aggregate, is at least equal to LIBOR or if prior to the acquisition of such Collateral Security or Eligible Investment the spread and the rate of the related index of the Collateral was less than LIBOR, such acquisition would maintain or improve the aggregate of the weighted average spread and the rate of the related index of the Collateral;

(viii) after taking into consideration the addition of any such security, no more than 50% of the Collateral Securities and Eligible Investments by principal balance has single counterparty exposure including servicer, issuer and put swap counterparty exposure;

(ix) it provides for payments of monthly periodic interest in cash at a floating rate and for a payment of principal in full and in cash at the final maturity;

(x) each such security satisfies the definition of an "Eligible Investment" or is a Residential Mortgage-Backed Security, a Commercial Mortgage-Backed Security, an Asset-Backed Security or a CDO Security;

(xi) shall not have a maturity later than the Stated Maturity of the Notes (other than the Class S Notes)
(xvi) if it is a CDO Security, each CDO Security must (a) be a CDO S-Note Security and (b) as of the

time of purchase by the Issuer, be in compliance with the applicable eligibility criteria, profile tests and quality tests

set forth in the related Underlying Instruments;

(xvii) at least 87.5% of the Collateral Securities by principal balance consists of Asset-Backed Securities, Residential Mortgage-Backed Securities or Commercial Mortgage-Backed Securities; and

(xviii) the purchase price thereof is equal to at least 98% of the par value of such security.

The Collateral Securities are expected to be purchased in a face amount equal to the initial Aggregate

Notional Amount of the Credit Default Swap. Under the terms of the Indenture, all Collateral Securities are

required to be deposited in the Collateral Account for the benefit of the Credit Protection Buyer. The Issuer will

also grant to the Trustee for the benefit of the Second Parties, a security interest in the Collateral Securities, subject

to the lien of the Credit Protection Buyer, and shall notify the Credit Protection Buyer of such security interest. The

Issuer must obtain the consent of the Credit Protection Buyer with respect to any initial Collateral Securities

purchased by the Issuer and any Collateral Securities purchased thereafter.

Principal payments on the Collateral Securities prior to the termination of the Credit Default Swap shall be

held in accordance with the Credit Default Swap in the Collateral Account and invested in Eligible Investments until

monitored in Collateral Securities which satisfy the Collateral Securities Eligibility Criteria with the consent of the

Credit Protection Buyer.

The Liquidation Agent, on behalf of the Issuer, will obtain the funds to pay Credit Protection Amounts

(which, for the avoidance of doubt, will not include Defaulted Swap Terminations Payments) by applying the

Collateral Liquidation Procedure.

If the Notes become due in connection with an Optional Redemption, the Redemption or Auction, (i) the

Liquidation Agent, on behalf of the Issuer, will assign or transfer the Credit Default Swap and liquidate all of the

Collateral Securities and Eligible Investments in the Collateral Account and all Delivered Obligations in the

Delivered Obligations Account and (ii) the Issuer will pay to the Credit Protection Buyer (and/or one or more

assignees thereof) any Credit Default Swap Terminations Payments the Issuer is required to pay to the Credit

Protection Buyer (if any) in connection with any assignment or termination of the Credit Default Swap. Certain

amounts will be held back if (and/or such assignees) one or more outstanding Credit Events or Floating Amounts

remain due as of a Redemption Date.

If the Credit Default Swap is terminated in connection with the occurrence of an Event of Default or

Termination Event (such as defined in the Master Agreement), the Liquidation Agent, on behalf of the Issuer, will

pay to the Credit Protection Buyer any Credit Default Swap Terminations Payments (which, for the avoidance of

doubt, will not include Defaulted Swap Terminations Payments) owed to the Issuer by the Credit Protection Buyer by

applying the Collateral Liquidation Procedure. Certain amounts will be held back if one or more outstanding Credit

Events exist or Floating Amounts remain due as of any termination date.

For purposes of the Convergence Tests and for purposes of determining whether a Credit Default Swap is a

Credit Risk Obligation, a Credit Default Swap shall be included as a Pledged Asset having the characteristics of the

Reference Obligation and net of the Credit Default Swap, provided, that if such Credit Protection Buyer is in default

under the related Credit Default Swap, such Credit Default Swap shall not be included in the Convergence Tests or such

Credit Default Swap will be treated in such a way that will satisfy the Rating Agency Conditions.

Substitution of Collateral Securities

From time to time following the Closing Date, any Holder of any Note may submit to the Trustee or the

Fiscal Agent, as applicable, a Collateral Securities Substitution Request Notice requesting substitution of one or

more securities for one or more existing Collateral Securities, in whole or in part. Following receipt of such request,

pursuant to the Collateral Administration Agreement, the Collateral Administrator, on behalf of the Issuer, will

determine the BSE Transaction Cost. Upon such determination by the Collateral Administrator, the Trustee or the

Confidential Treatment Requested by Goldman Sachs GS MBS-E-000912684
Fiscal Agent, as applicable, will deliver a Collateral Securities Substitution Information Notice to the Originating Nonseller.

Within five Business Days of receiving a Collateral Securities Substitution Information Notice, the Originating Nonseller may (i) notify the Trustee or the Fiscal Agent, as applicable, whether it wishes to proceed with the proposed substitution and, if so, (ii) agree to pay any BIE Transaction Cost (regardless of whether the Holders of a Majority of the Notes of each Class consent to such proposed substitution) (the occurrence of substitute (i) and (ii), a "Substitution Confirmation"). If a Substitution Confirmation is not received by the Trustee or the Fiscal Agent, as applicable, within the time period specified above, the related request will be deemed to be void and of no further effect. Upon the receipt of a Substitution Confirmation, the Trustee or the Fiscal Agent, as applicable, will deliver a BIE Consent Solicitation Notice to all Holders of Notes, including the Originating Nonseller with a copy to the Credit Protection Buyer. Upon receipt of such BIE Consent Solicitation Notice, each Holder of a Note may, on or prior to the BIE Notification Date, submit written notice to the Trustee or the Fiscal Agent, as applicable, indicating either (1) approval or (2) disapproval of any proposed BIE Consent Solicitation Notice by the BIE Notification Date. If the BIE Consent Solicitation Notice fails to receive the affirmative approval of the Holders of a Majority of each Class of Notes by the BIE Notification Date, the Trustee or the Fiscal Agent will deliver a Collateral Securities Substitution Nonseller Refusal Notice to the Originating Nonseller and the related Collateral Securities Substitution Request Notice will be deemed void and of no further effect. If the BIE Consent Solicitation Notice receives the approval of the Holders of a Majority of each Class of Notes, the Trustee or the Fiscal Agent, as applicable, will deliver a BIE Acceptance Notice to the Originating Nonseller and the Liquidation Agent.

Upon receipt of the BIE Acceptance Notice and confirmation from the Trustee (1) that the Originating Nonseller has paid the BIE Transaction Cost to the Trustee and (2) that the relevant BIE Collateral Security has been delivered to the Trustee, and the par amount of such delivered BIE Collateral Security (which, for the avoidance of doubt, will meet the Collateral Securities Eligibility Criteria at the time of acquisition by the Issuer) is at least equal to each of the par amounts of each of the Collateral Securities to be substituted, the Trustee shall release its lien on the par amount of the relevant existing Collateral Security to be substituted and deliver the par amount of such substituted Collateral Security to the Originating Nonseller.

If (i) any BIE Collateral Security is not delivered to the Issuer or (ii) the Issuer is not paid the BIE Transaction Cost, in each case by the end of the BIE Indemnification Period identified in the BIE Acceptance Notice, the BIE Acceptance Notice and the Collateral Securities Substitution Request Notice will be deemed void and of no further effect.

Voting and Other Matters Relating to Collateral Securities and Delivered Obligations

Under the Indenture, where the Issuer, as the beneficial owner of a Collateral Security or Delivered Obligation, or the Trustee, as the registered owner of a Collateral Security or Delivered Obligation, has the right to exercise a vote or consent to (or otherwise approve of) (i) any action, inaction, pursuant to the terms of such Collateral Security or Delivered Obligation and its related underlying documentation or (ii) an offer by the Issuer of such Collateral Security or Delivered Obligation or by any other person to purchase or otherwise acquire such Collateral Security or Delivered Obligation or to convert or exchange such Collateral Security or Delivered Obligation for cash or any other consideration, the Trustee, as directed by the applicable holder, acting in its capacity as registered owner of such Collateral Security or Delivered Obligation, shall direct the Issuer's vote be cast in the following manner: (a) if other holders of the class of which such Collateral Security or Delivered Obligation is a part respond to such solicitation for vote or consent, in the same manner as the votes of a plurality of the other voting holders of such class (based on the Principal Balance of such Collateral Security or Delivered Obligation), (b) if no other holders of such class exercise a vote or if there are no other holders of such class, but holders of different classes issued under the same governing instrument respond, in the same manner as the votes of a plurality of the voting holders of all such classes and counted as a single class or (c) if no holders of any class issued under the same governing instrument respond or if there are no other holders, the Issuer's vote shall be exercised against such action or inaction.

Confidential Treatment Requested by Goldman Sachs GS MBS-E-000912565
THE LIQUIDATION AGENCY AGREEMENT

The following summary describes certain provisions of the Liquidation Agency Agreement. The summary does not purport to be complete and is subject to, and qualified in its entirety by reference to, the provisions of the Liquidation Agency Agreement.

General

The Liquidation Agent will, on behalf of the Issuer, pursuant to the Liquidation Agency Agreement, (i) assign, terminate or otherwise dispose of (a) CDS Transactions the Reference Obligations of which are determined by the Collateral Administrator, on behalf of the Issuer, pursuant to the Collateral Administration Agreement, to be Credit Risk Obligations or (b) Delivered Obligations, (ii) sell, assign, terminate or otherwise dispose of the CDS Transactions, Collateral Securities, Delivered Obligations and Eligible Investments of the Issuer in connection with (A) a redemption of the Notes as a result of an Optional Redemption, a Tax Redemption, an Auction or as otherwise required under the indenture as described herein and (B) an acceleration of the Notes as a result of an Event of Default as required under the indenture as described herein, (iii) invest, on behalf of the Issuer, available funds in Collateral Securities and Eligible Investments in accordance with the terms of the indenture and (iv) perform certain other functions, as described herein. The Liquidation Agent will have twelve (12) months to assign, terminate or otherwise dispose of (a) CDS Transactions the Reference Obligations of which are determined pursuant to the Collateral Administration Agreement by the Collateral Administrator, on behalf of the Issuer, to be Credit Risk Obligations and (b) Delivered Obligations in accordance with the terms of the Liquidation Agency Agreement (such twelve month period measured from the date the Liquidation Agent is notified of either (1) such determination by the Collateral Administrator or (2) the receipt of such Delivered Obligation by the Issuer, as applicable). The proceeds of such sale of Delivered Obligations will be deposited into the Collateral Account and invested in Eligible Investments and Collateral Securities at the discretion of the Liquidation Agent. In addition, any principal proceeds received on such Delivered Obligations prior to such sale, will be deposited into the Collateral Account. The Liquidation Agent will have no ability or authority to direct the assignment, termination or other disposition of any CDS Transactions. The Liquidation Agent will not provide investment advisory services to the Issuer or act as the "collateral manager" for the Credit Default Swap. The Liquidation Agent will not have fiduciary duties to the Issuer or to the holders of the Notes.

The Liquidation Agent

The Liquidation Agent is Goldman, Sachs & Co. ("GS&Co."). GS&Co. is a New York limited partnership and a registered U.S. broker-dealer. The Notes do not represent an obligation of, and will not be issued or guaranteed by GS&Co., its parent or any of its subsidiaries or its affiliates and investors will have no rights or recourse against GS&Co., its parent or any of its subsidiaries or affiliates.

Compensation

As compensation for the performance of its obligations under the Liquidation Agency Agreement, the Liquidation Agent will be entitled to receive a fee in accordance with the Priority of Payments, payable as annuity on each Payment Date, of 0.05% per annum (the "Liquidation Agent Fee") times the Aggregate Outstanding Portfolio Amount, measured as of the beginning of the Due Period preceding such Payment Date.

If annuities distributable as any Payment Date in accordance with the Priority of Payments are insufficient to pay the Liquidation Agent Fee as full, then the shortfall will be deferred and will be payable on subsequent Payment Dates on which funds are available therefore according to the Priority of Payments.

The Liquidation Agent Fee will be calculated on the basis of a 360-day year consisting of twelve 30-day months. All fees payable to the Liquidation Agent on a Payment Date are subject to payment only in accordance with the Priority of Payments.

The Liquidation Agent may, at its election and upon notice to the Issuer and the Trustee, direct for a predetermined period of time that all or a portion of the amount that is due to it as the Liquidation Agent Fee be paid.
directly to a third party; provided, that the Liquidation Agent will not (unless it is assigning all of its rights and obligations in accordance with the Liquidation Agency Agreement) be relieved of any of its duties under the Liquidation Agency Agreement or the Indenture as a result of the redirection of its right to receive all or a portion of the Liquidation Agent Fee.

Procedure for Disposition of CDS Transaction, Eligible Investments, Collateral Securities and Delivered Obligations

Pursuant to the Liquidation Agency Agreement, whenever the assignment, termination or other disposition of CDS Transactions, Eligible Investments, Collateral Securities and Delivered Obligations is required under the Indenture, as described under "The Credit Default Swap—Removal of Reference Obligations from the Reference Portfolio," the Liquidation Agent will use commercially reasonable efforts to solicit bids from at least three independent market makers, at least one of which is not the Liquidation Agent or an affiliate thereof. If after such commercially reasonable efforts, bids from three independent market makers are not available, the higher of two such bids may be used if bids from two such independent market makers are not available, one such bid may be used. Assuming at least one bid is received in accordance with the preceding sentence, the applicable CDS Transactions, Eligible Investments, Collateral Securities and Delivered Obligations shall be disposed of at the highest bid price, provided, however, that in the case of a disposition of a CDS Transaction, such CDS Transaction shall only be disposed of if the Market Quotations (as such term is defined in the Credit Default Swap) obtained pursuant to the terms of the Credit Default Swap expressed as a percentage of the related Initial Reference Obligation Notional Amount should be equal to or less than 60%. The Liquidation Agent or an Affiliate of the Liquidation Agent may purchase a CDS Transaction, Eligible Investment, Collateral Security or Delivered Obligation assigned, terminated or otherwise disposed as described above. Notwithstanding the foregoing, any Auction shall be conducted in accordance with the auction procedures set forth in the Indenture.

Termination, Removal and Resignation

If the Liquidation Agency Agreement is terminated for any reason or the entity then serving as Liquidation Agent resigns or is removed, the Liquidation Agent Fee owing to each entity will be prorated for any partial period between Payment Dates and such prorated amount will be due and payable on the first Payment Date following the date of such termination, subject to the priority of payments.

The Liquidation Agent may resign, upon 60 days' (or such shorter notice as is acceptable to the Issuer) written notice to the Issuer, the Trustee and the Rating Agencies. If the Liquidation Agent resigns, the Issuer agrees to use its best efforts to appoint a successor Liquidation Agent, and the effectiveness of such resignation will be conditioned upon the appointment of such successor.

The Liquidation Agent may be removed for "cause" (i) by the Issuer or the Trustee; provided that written notice thereof shall have been given to the holders of the Notes and each Rating Agency stating that such termination shall be effective only if directed in writing within 30 days after the date of such notice by, the holders of at least a Super Majority of the Income Notes and a Super Majority of the Control Class, but excluding in any such calculation any Notes held by the Liquidation Agent or any Notes over which the Liquidation Agent has discretionary voting authority, (ii) in the case of an event described in clause (i) below, by the Issuer or the Trustee upon 10 days' prior written notice to the Liquidation Agent, or (iii) by holders of at least a Super Majority of the Income Notes and a Super Majority of the Control Class, but excluding in any such calculation any Income Notes or Notes held by the Liquidation Agent or any Notes over which the Liquidation Agent has discretionary voting authority, upon 10 days' prior written notice to the Liquidation Agent.

For purposes of determining "cause" with respect to any such termination of the Liquidation Agency Agreement, each such term shall mean the occurrence and continuation of any one of the following events: (i) the Liquidation Agent willfully violates, or takes any action that it knows breach, any provision of the Liquidation Agency Agreement or the Indenture applicable to it; (ii) the Liquidation Agent breaches in any material respect any provision of the Liquidation Agency Agreement or any terms of the Indenture applicable to it, which breach (i) has a material adverse effect on the holders of the Notes and (ii) within 30 days of its becoming aware (or receiving notice from the Trustee) of such breach, the Liquidation Agent fails to cure such breach; (iii) the Liquidation Agent is wound up or dissolved or there is appointed over it or over all or substantially all of its assets a receiver,
1695

Footnote Exhibits - Page 5766

administrative receivers, trustees or similar officers, or the Liquidation Agent (v) means to, or admits in writing its inability to, pay its debts as they become due and payable, or makes a general assignment for the benefit of creditors; (w) applies for or consents (by admission of material allegations of a petition or otherwise) to the appointment of a receiver, trustee, assignee, custodian, liquidator, or sequestrator (or other similar official) of the Liquidation Agent or of all or substantially all of its properties or assets, or authorizes such an application or consent, or proceedings seeking such appointment are commenced without such authorization, consent or application against the Liquidation Agent and continue undeterred for 60 consecutive days; (y) authorizes or files a voluntary petition in bankruptcy, or applies for or consents (by admission of material allegations of a petition or otherwise) to the application of any bankruptcy, reorganization, arrangement, readjustment of debt, insolvency or dissolution, or authorizes such application or consent, or proceedings in such cases are commenced against the Liquidation Agent without such authorization, application or consent and are approved by a proper court and remain undeterred for 60 consecutive days or result in adjudication of bankruptcy or insolvency, or (z) proclaims or suffers all or substantially all of its properties or assets to be sequestered or attached by court order and the order remains undeterred for 60 consecutive days, or (4) the Issuer, the Co-Issuer or the Pledged Assets have become required to be registered as an investment company under the provisions of the Investment Company Act, as a result of a material breach by the Liquidation Agent in violation of the Liquidation Agency Agreement. The Liquidation Agent shall notify the Trustee, each Rating Agency (to the extent any Secured Notes outstanding are rated by such Rating Agency), the Fiscal Agent and the holders of the Income Notes if a "cause" event, or an event which with the giving of notice or the lapse of time (or both) becomes "cause," occurs.

Any resignation or removal of the Liquidation Agent will be effective only upon (i) the appointment by the holder of a Super Majority of the Income Notes (including any Income Notes owned by the Issuer, any Affiliate of the Issuer or any entity over which the Issuer has discretion), (ii) the consent of the Rating Agency (in its discretion), and (iii) the filing of a statement with the Trustee setting forth the facts upon which the resignation or removal is based. Any successor Liquidation Agent shall have the right to assume, with or without the prior consent of the Issuer or the holders of any Secured Notes, the duties and obligations of the Liquidation Agent and the name and corporate status of the Liquidation Agent shall not thereby be changed. Any successor Liquidation Agent shall be appointed upon the occurrence of any event of default described in clauses (1) to (3) above, and shall be entitled to compensation and reimbursement and an indemnity agreed to by the Issuer, the holders of any Secured Notes, the Rating Agencies and the Trustee. The Issuer, the holders of any Secured Notes, the Rating Agencies and the Trustee shall cooperate and assist the successor Liquidation Agent.

Any holder of a Note or holder of Secured Notes may remove the Liquidation Agent at any time by giving written notice of the same to the Fiscal Agent and the Issuer and the holders of any Secured Notes. Such removal shall be effective upon the appointment of, and the consent to the appointment of, a successor Liquidation Agent.

Any Notes held by the Liquidation Agent or any Notes over which the Liquidation Agent has discretionary voting or voting power, in each case will have no voting rights with respect to any vote in connection with the removal of the Liquidation Agent or the disposition of any Cash Transaction or Eligible Investment and will be deemed not to be outstanding in connection with any such vote; provided, however, that any such Notes will have voting rights and will be deemed outstanding with respect to all other matters as to which holders of Notes are entitled to vote.
The Liquidation Agent may assign the Liquidation Agency Agreement, in whole or in part, to an affiliate of the Liquidation Agent without the consent of the Issuer, any Class of Secured Notes or the Income Notes and without satisfaction of the Rating Agency Conditions. In the event of any such assignment, Goldman Sachs & Co. will have no further obligations to the Issuer.

Except for the assignment to an affiliate, the Liquidation Agency Agreement may not be assigned by the Liquidation Agent, in whole or in part, without the prior written consent of the Issuer, (i) the prior written consent of a Majority of the Controlling Class and the holders of a Majority of the Income Notes and (ii) satisfaction of the Rating Agency Conditions with respect to such assignment or delegation.

The Liquidation Agency Agreement will terminate when the earliest of the following occurs: (i) the payment in full of the Notes; (ii) the liquidation of the Pledged Assets and the actual distribution of the proceeds of such liquidation to the Holders of the Notes; or (iii) the termination thereof due to the resignation or removal of the Liquidation Agent in accordance with the Liquidation Agency Agreement.

The Liquidation Agency Agreement may not be amended or modified or any provision thereof waived (other than in connection with an assignment to an affiliate of the Liquidation Agent) except by an instrument in writing signed by the parties thereto. (ii) the prior written consent of a Majority of the Controlling Class and (iii) written confirmation from each Rating Agency to the effect that such amendment, modification or waiver will not cause a qualification, downgrading or withdrawal of its then current ratings of any Class of Notes rated by such Rating Agency unless the holders of 100% of each Class of Notes that would be qualified, reduced or withdrawn due to an amendment, modification or waiver approves such amendment, modification or waiver.

The Liquidation Agent, its affiliates and their respective members, principals, partners, managers, directors, officers, stockholders, partners, agents and employees will not be liable to the Co-issuers, the Trustee, the Fiscal Agent, the holders of the Notes or any other Persons for any losses, claims, damages, demands, charges, judgments, assessments, costs or other liabilities incurred by the Co-issuers, the Trustee, the Fiscal Agent, the Holders of the Notes or any other Person that arise out of or in connection with the performance by the Liquidation Agent of its duties under the Liquidation Agency Agreement or the Indenture, or for any decrease in the value of the Pledged Assets, provided that the Liquidation Agent shall be subject to liability by reason of its own or its agents' bad faith, willful misconduct or gross negligence in the performance, or reckless disregard, of the obligations of the Liquidation Agent under the Liquidation Agency Agreement and under the terms of the Indenture applicable to the Liquidation Agent, provided that in no event shall the Liquidation Agent or any of its affiliates be liable for consequential, special, exemplary or punitive damages. Subject to the priority of payments described herein, the Liquidation Agent will be entitled to indemnification by the Issuer under certain circumstances.

Various potential and actual conflicts of interest may arise from the overall activities of the Liquidation Agent and its affiliates. In certain circumstances, the interests of the Issuer and the holders of the Notes with respect to matters in which the Liquidation Agent is advising the Issuer may conflict with the interests of the Liquidation Agent or its affiliates. See "Risk Factors—Other Considerations—Certain Conflicts of Interest" and "—The Liquidation Agent."

ACCOUNTS

Pursuant to the Indenture, the Issuer shall cause them to be opened and at all times maintained the Interest Collection Account, the Payment Account, the Reserve Account, the Cash Collateral Account (including the Cash Collateral Account), the Disbursed Obligation Account and, if the context requires, the American Bankers Association Collateral Account and the Canadian Counterparty Collateral Account (each as hereinafter defined), each of which shall be a segregated account or sub-account established with the Securities Intermediary in the name of the Trustee for the benefit of the Trustee or the trustee as further described in the Indenture. Each Account is required to be maintained by the Trustee or by another financial institution that is an Eligible Depository.

Certain distributions on the Pledged Assets, including Fixed Amounts received by the Issuer under the Credit Default Swap will be maintained to a single, segregated account established and maintained under the Indenture (the "Interest Collection Account") and will be available, in the amounts and for the purposes described herein. Funds held in the Interest Collection Account will be invested by the

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912669
Trustee in Eligible Investments in accordance with the terms of the Indenture. All Fixed Amounts and Interest

Sheriff's Reimbursement Payment Amounts paid by the Credit Protection Buyer to the Issuer under a CDS
Transaction and any investment income on the Collateral will be remitted to the Interest Collection Account. If

Expected Fixed Amounts (as defined in the related Master Confirmation) are paid by the Credit Protection Buyer to

the Issuer in accordance with the Credit Default Swap, following a downgrade or placement on watch for downgrade

of the Credit Protection Buyer, on the Payment Date immediately thereafter, the Expected Fixed Amount (as defined

in the related Master Confirmation) will not be transferred to the Payment Account to be distributed in accordance

with the Priority of Payments for such Payment Date but will instead be held in the Interest Collection Account until

the next Payment Date.

On the Closing Date, the net proceeds of the offering of the Notes issued on each date will be used to

purchase Collateral Securities and Eligible Investments with an initial principal balance of $105,000,000 which will

be deposited into a single, segregated account established and maintained under the Indenture (the “Collateral

Account”). The “Cash Collateral Account” shall be a subaccount of the Collateral Account. Termination payments

paid by the Credit Protection Buyer to the Issuer, any amounts paid by an assignee of a CDS Transaction to the

Issuer, Sale Proceeds from Collateral Securities, Delivered Obligations and Eligible Investments (other than (i)

proceeds of Collateral Securities and Eligible Investments applied to pay Credit Protection Amounts and (ii) Sale

Proceeds from Eligible Investments purchased with principal payments on the Collateral Securities diverted into the

Amortization Sheriff’s Account) received by the Issuer will be remitted by the Trustee to the Collateral Account and

invested in Eligible Investments. The Collateral Securities and any Eligible Investments on deposit in the Collateral

Account may be used to pay Credit Protection Amounts and to reduce the Notes as described herein. In addition, if

an Amortization Sheriff’s Amount exists in respect of a Payment Date, all principal payments received by the Issuer

on Collateral Securities and Eligible Investments (other than cash) on deposit in the Collateral Account shall be

deposited by the Trustee in the Amortization Sheriff’s Account up to the amount required to satisfy all outstanding

Amortization Sheriff’s Amounts. All investment earnings from the Collateral Securities and Eligible Investments in

the Collateral Account will be remitted to the Interest Collection Account (and will not be included in the Collateral

Account Amount). All principal payments on Collateral Securities in the Collateral Account will be invested in

Eligible Investments at the direction of the Liquidation Agent until invested in Collateral Securities satisfying the

Collateral Securities Eligibility Criteria at the direction of the Liquidation Agent.

On the Business Day prior to each Payment Date other than a Final Payment Date (each a “Transfer Date”),

the Trustee will deposit into a separate account (the “Payment Account”) all funds (including any reinvestment

income) in the Interest Collection Account (to the extent received prior to the end of the related Due Period) for

application in accordance with the Priority of Payments.

Principal Proceeds shall be deposited in the Collateral Account and subject to the calculation of the

Aggregate Amortization Amount. On each Transfer Date, the Trustee will deposit all Amortization Proceeds into the

Payment Account for the application in accordance with the Priority of Payments.

On the Closing Date, U.S.$200,000 from the net proceeds of the offering of the Notes will be deposited by

the Trustee in a single, segregated account established and maintained by the Trustee under the Indenture (the

“Expense Reserve Account”). On each Payment Date, to the extent that funds are available for such purpose in

accordance with and subject to the limitations of the Priority of Payments, the Trustee will deposit into the Expense

Reserve Account an amount from Proceeds such that the amount on deposit in the Expense Reserve Account (after

giving effect to such deposit) will equal U.S.$200,000. Amounts on deposit in the Expense Reserve Account may

be withdrawn from time to time to pay accrued and unpaid Administrative Expenses of the Issuer. With respect to

the first Payment Date, funds on deposit in the Expense Reserve Account in excess of U.S.$200,000 will be

transferred by the Trustee to the Payment Account for application in the interest proceeds. All funds on deposit in the

Expense Reserve Account at the time when substantially all of the Issuer’s assets have been sold or otherwise

disposed of will be transferred by the Trustee to the Payment Account for application as Proceeds on the

immediately succeeding Payment Date.

Under certain conditions described in the Credit Default Swap, the Credit Protection Buyer may be

required to post collateral (“CDS Counterparty Collateral”) under the terms of the Credit Default Swap. The CDS

Counterparty Collateral pledged by the Credit Protection Buyer will be deposited by the Trustee into a segregated

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912670
account (the "CDS Counterparty Collateral Account") established in the name of the Trustee and held therein pursuant to the terms of the Credit Default Swap.

On or before the first date on which there exists an Amortization Shortfall Amount, the Trustee will establish and maintain a single, segregated account established and maintained under the Indenture (the "Amortization Shortfall Account") into which certain principal payments and interest received by the Issuer on Collateral Securities and Eligible Investments in the Collateral Account shall be deposited up to the Amortization Shortfall Amount.

On or before the first date that a Delivered Obligation is received by the Issuer, the Trustee will establish and maintain under the Indenture a segregated collateral account (the "Delivered Obligation Account") into which all Delivered Obligations shall be deposited. Each Delivered Obligation will be held in the Delivered Obligation Account until such Delivered Obligation is sold by the Liquidation Agent, on behalf of the Issuer, pursuant to the terms of the Indenture.

Amounts retained in the Accounts during a Due Period will be invested in Eligible Investments.

REPORTS

A report will be made available to the Holders of the Secured Notes and Holders of the Income Notes and will provide information on the Pledged Assets as well as information with respect to payments made on the notes. A report will be made available to the Holders of the Secured Notes and Holders of the Income Notes and will provide information on the Pledged Assets as well as information with respect to payments made on the notes.

The information in each Note Valuation Report will be prepared as of the Determination Date preceding the stated Payment Date and will set out, among other things, the amounts payable in accordance with the Priority of Payments on each Payment Date. The Issuer will instruct the Trustee to transfer the amounts set forth in each Note Valuation Report in the manner specified in, and in accordance with, the Priority of Payments.

WEIGHTED AVERAGE LIFE AND YIELD CONSIDERATIONS

The Stated Maturity of the Notes (other than the Class S Notes) is the Payment Date in July 2042.

However, the principal of the Notes (other than the Class S Notes) is expected to be paid in full prior to the Stated Maturity. Average life refers to the average amount of time that will elapse from the date of delivery of a security until each dollar of the principal of such security will be paid to the investor. The average lives of the Notes will be determined by the amount of principal payments which are dependent on a number of factors, including when the Reference Obligations are repaid.

Weighted Average Life. Weighted average life refers to the average amount of time that will elapse from the date of delivery of a security until each dollar of the principal of such security will be paid to the investor. The weighted average lives of the Notes of each Class will be determined by the amount and frequency of principal payments, which are dependent upon, among other things, the amount of payments received at or in advance of the scheduled maturity of the Reference Obligations (whether through sale, maturity, redemption, prepayment, default or other liquidation or disposition). The actual weighted average lives and actual maturities of the Notes will be affected by the financial conditions of the obligor on or the issuers of the Reference Obligations or the obligors on the underlying assets and the characteristics of such securities and assets, including the existence and frequency of exercise of any optional or mandatory redemption features, the prevailing level of interest rates, the redemption price, prepayment rates, any payment periods or prepayment premiums or penalties, the actual default rate and the actual level of recoveries on any Defaulted Obligations, and the frequency of issuance or exchange offers for such Reference Obligations. Any disposition of a CDS Transaction may change the composition and characteristics of the Reference Portfolio and Collateral Securities and the scheduled payments and payment characteristics thereof, and, accordingly, may affect the actual weighted average lives of the Notes. The rate of future defaults and the amount and timing of any cash realization from CDS Transactions the Reference Obligations of which are determined to be Credit Risk Obligations also will affect the maturity and weighted average lives of the Notes. The weighted average life of the Notes of each Class may also vary depending on whether or not the Notes are redeemed. The weighted
1699

Footnote Exhibits - Page 5770

average lives of the Notes are expected to be shorter, and may be substantially shorter, than the Stated Maturity of the Notes.

The table set forth below indicates the percentage of the initial balance of each Class of Notes that would be outstanding on each Payment Date assuming no prepayments or losses and the weighted average life of each Class of Notes and principal window, which is based on the assumptions (the "Collateral Assumptions") set forth below. The table set forth below is included only for illustrative purposes, and none of the Issuers, the Liquidation Agent, the Trustee or the Initial Purchaser makes any representation as to whether such assumptions will be realized.

i. Forward 1-month LIBOR curve as of March 12, 2007 are assumed;
ii. the Closing Date is March 12, 2007 and the first Payment Date is July 12, 2007 and the first Quarterly Payment Date is July 12, 2007;
iii. all of the net proceeds of the offering of the Notes are invested as of the Closing Date in the Collateral Securities;
iv. the Coverage Tests are satisfied as of the Closing Date;
v. expenses due under clauses (i), (ii) and (iii) of the Priority of Payments are paid on each Payment Date and is equal to 0.05172% per annum of the Aggregate Outstanding Portfolio Amount;
vi. the Liquidation Agent Fee is 0.05% per annum of the Aggregate Outstanding Portfolio Amount;

vii. each CDS Transaction will pay monthly on the 25th day of the month in which each payment is due and receipts will be reinvested for 12 days at a rate equal to one-month LIBOR minus 0.25%;
viii. amounts due on the Collateral Securities are fully paid out in accordance with the Priority of Payments on the 12th day of the month in which they are received (each of which is assumed to be a Business Day) and receipts will be reinvested for 12 days at a rate equal to one-month LIBOR minus 0.25%;
ix. failure to pay interest to the Holders of the Class S Notes, the Class A Notes and the Class B Notes is not an Event of Default;
x. all unpaid C notes and Class D Note interest is Deferred Interest;
xii. there are no dispositions of CDS Transactions;
xiii. no rating change occurs on any Reference Obligation or the Notes;
xiv. there is no Optional Redemption, Tax Redemption or Auction (except for the computation of the CDS Table and Sensitivity of Reference Obligation Principal Payments in CDS Table below);
xv. defaults are incurred at the constant annual default rate and are applied on each Payment Date to the outstanding Reference Obligation Portfolio Amount of the Reference Portfolio as of each Payment Date commencing on the Payment Date in July 2008; and
xvi. the Expense Reserve Account is assumed to stay fully funded at $200,000 on each Payment Date.

### Notes:
1. The "Expected Principal Window" for a Class of Notes is the period in which (a) the initial principal payment of the Class is expected to be made and (b) the final payment of principal of the Class is expected to be made under the Collateral Assumptions (assuming no defaults).
2. The "Expected Weighted Average Life" of each Class of Notes is determined by (i) multiplying the amount of each principal distribution on each Class that would result under the Collateral Assumptions by the number of years from the Closing Date to the related Payment Date (assuming 365 days in each month and a 365-day year), (ii) adding the results and (iii) dividing the sum by the aggregate principal distribution referred to in clause (i). The "Expected Principal Window" for a Class of Notes is the period in which the first and last payments of principal are expected to be made under the Collateral Assumptions. The loss severity is assumed to be 65%.

The table set forth below entitled “Class A-1a, A-1b, A-2, B, C and D Note Constant Default Rate Stress Tests” shows the Constant Default Rate (“CDR”) and Cumulative Defaults for each Class of Notes under three stress scenarios, assuming a 65% loss severity on defaulted Reference Obligations. In column one (“First Dollar of Loss”), CDR represents the CDR starting on the July 2008 Payment Date that would result in the first dollar of principal loss to the respective Class of Notes. Cumulative Defauls represent the sum of such defaults divided by the aggregate notional amount of the Reference Obligations as of the Closing Date. In column two (“Post Return”), CDR represents the CDR starting on the July 2008 Payment Date that would result in a yield equivalent to a zero discount margin over one-month LIBOR for the Class A-1a Notes, the Class A-1b Notes, the Class A-2 Notes, the Class B Notes, the Class C Notes and the Class D Notes. Cumulative Defaults represent the sum of such defaults divided by the aggregate notional amount of the Reference Obligations as of the Closing Date. In column two (“Return of Investment (6% return”), the CDR represents the CDR starting on the July 2008 Payment Date that would result in an approximate 0.5% return for the Class A-1a Notes, the Class A-1b Notes, the Class A-2 Notes, the Class B Notes, the Class C Notes and the Class D Notes. Cumulative Defaults represent the sum of such defaults divided by the aggregate notional amount of the Reference Obligations as of the Closing Date.

</table>

**Yield.** The yield to maturity of the Notes of each Class will also be affected by the rate of performance of the Reference Obligations, as well as by the redemption of the Notes in an Auction, an Optional Redemption or Tax Redemption (and upon the Note Redemption Price or Income Note Redemption Price, as applicable, then payable).
The Issuer is not required to repay the Notes on any date prior to their Stated Maturity. The receipt of principal payments on the Notes is at a rate slower than the rate anticipated by investors purchasing the Notes at a discount will result in an actual yield that is lower than anticipated by such investors.

The yield to maturity of the Notes may also be affected by the rate of deflation and defaults on and liquidations of the Reference Obligations and Collateral Securities, in the event not absorbed by the Income Notes, dispossession of CDS Transactions and the effect of the Coverage Tests on payments under the Priority of Payments. The yield to investors in the Notes will also be adversely affected to the extent that the Issuers incur certain expenses that are not absorbed by the Income Notes.

THE ISSUERS

General

The Issuer was incorporated as Hudson Membrature Funding II, Ltd. on September 20, 2006 in the Cayman Islands with the registered number 170253. The Issuer’s name was changed to Anderson Membrature Funding 2007-1, Ltd. on March 8, 2007. The registered office of the Issuer is at the offices of Maples Finance Limited, P.O. Box 303727, Queensgate House, South Church Street, George Town, Grand Cayman, Cayman Islands. Maples Finance Limited’s telephone number is (345) 945-7099. The Issuer has no prior operating history. The Issuer’s Memorandum of Association sets out the objects of the Issuer, which include the business to be carried out by the Issuer in connection with the Notes.

The Co-Issuer was incorporated on February 22, 2007 under the laws of the State of Delaware with the registered number 4301859. The registered office of the Co-Issuer is at Donald J. Puglisi, Puglisi & Associates, 850 Library Avenue, Suite 204, Newfield, Delaware, 19963. The Co-Issuer’s telephone number is (302) 738-6690. The Co-Issuer has no prior operating history. Article 7 of the Co-Issuer’s Certificate of Incorporation sets out the purpose of the Co-Issuer, which include the business to be carried out by the Co-Issuer in connection with the issuance of the Secured Notes.

The Co-Issued Notes are obligations only of the Issuer and the Income Notes are obligations only of the Issuer, and not of the Trustee, the Liquidation Agent, the Initial Purchaser, the Administrative Agent, the Co-Issuer or any directors, managers or officers of the Issuer in any of their respective affinities.

The authorized share capital of the Issuer consists of 250 Ordinary Shares, U.S.$1.00 par value per share (the "Issuer Ordinary Shares"). All of the Issuer Ordinary Shares will be issued on or prior to the Closing Date. All of the outstanding Issuer Ordinary Shares will be held by the Share Trustee pursuant to the terms of a declaration of trust for the benefit of the beneficial holders, and will be held by the Share Trustee under the terms of a declaration of trust for the benefit of the shareholders of the Issuer Ordinary Shares. For so long as any of the Notes are outstanding, no beneficial interest in the ordinary shares of the Issuer or of the common equity of the Co-Issuer shall be registered in any name.
Capitalization of the Issuer

The initial proposed capitalization of the Issuer as of the Closing Date after giving effect to the issuance of the Notes and the Issuer Ordinary Shares before deducting expenses of the offering of the Notes is as set forth below:

<table>
<thead>
<tr>

Capitalization of the Co-Issuer

The Co-Issuer will be capitalized only to the extent of its common equity of U.S.$10, will have no assets other than its equity capital and will have no debt other than as Co-Issuer of the Secured Notes. The Co-Issuer has agreed to co-issue the Second Notes as an accommodation to the Issuer, and the Co-Issuer is receiving no remuneration for no-asset Co-Issuer. Because the Co-Issuer has no assets, and is not permitted to have any assets, Holders of Notes will not be able to exercise their rights against any assets of the Co-Issuer. Holders of Secured Notes must rely on the Pledged Assets held by the Issuer and pledged to the Trustees for payment on their respective Secured Notes in accordance with the Priority of Payments.
Flow of Funds

The approximate flow of funds of the Issuer from the gross proceeds of the offering of the Notes on the Closing Date is as set forth below:

<table>

Business

The Issuers will not undertake any business other than the issuance of the Co-Issued Notes and, in the case of the Issuer, the issuance of the Income Notes, the acquisition and management of the Pledged Assets and, in each case, other related transactions. Neither of the Issuers will have any subsidiaries other than the Co-Issuer in the case of the Issuer.
The Administrator will act at the administrator of the Issuer. The office of the Administrator will serve as the general business office of the Issuer. Through this office and pursuant to the terms of an agreement to be dated on or about the Closing Date by and between the Administrator and the Issuer (as amended, supplemented or otherwise modified from time to time, the "Administrative Agreement"), the Administrator will perform various management functions on behalf of the Issuer, including communications with shareholders and the general public, and the provision of certain clerical, administrative and other services until termination of the Administrative Agreement. In consideration of the foregoing, the Administrator will receive various fees and other charges payable by the Issuer at rates agreed upon from time to time plus expenses. The directors of the Issuer listed below are also officers and/or employees of the Administrator and may be contacted at the address of the Administrator.

The Administrator will be subject to the overview of the Issuer’s Board of Directors. The Administrative Agreement may be terminated by either the Issuer or the Administrator upon 30 days’ written notice.

The Administrator’s principal office is: Maples Finance Limited, P.O. Box 1091G, Queen’s Gate House, South Church Street, George Town, Grand Cayman, Cayman Islands.

Directors

The Directors of the Issuer are Carole Bunting and Carlos Pagaitah, each having an address at Maples Finance Limited, P.O. Box 1091G, Queen’s Gate House, South Church Street, George Town, Grand Cayman, Cayman Islands.

The director of the Co-Issuer is Donald Puglia who may be contacted at the address of the Co-Issuer.

INCOME TAX CONSIDERATIONS

Circular 230

Any discussion of U.S. federal tax matters set forth in this Offering Circular was written in connection with the preparation and marketing by the Issuer and the Initial Purchaser of the Notes (as defined herein). Such discussion was not intended or written to be legal or tax advice to any person and was not intended or written to be used, and it cannot be used, by any person for the purpose of avoiding any U.S. federal tax penalty that may be imposed on such person. Each investor should seek advice based on its particular circumstances from an independent tax advisor.

United States Tax Considerations

The following is a summary of certain of the United States Federal income tax consequences of an investment in the Notes by purchasers that acquire their Notes in their initial offering. The discussion and the opinions or statements contained below are based upon laws, regulations, rulings and decisions currently in effect, all of which are subject to change, possibly with retroactive effect. Prospective investors should note that no rulings have been or are expected to be sought from the Internal Revenue Service (the "IRS") with respect to any of the United States Federal income tax consequences discussed below, and no assurance can be given that the IRS will not take contrary positions. Further, the following summary does not deal with all United States Federal income tax consequences applicable to any given investor, nor does it address (except, in some instances, in very general terms) the United States Federal income tax considerations applicable to all categories of investors, some of which may be subject to special rules, such as Non-U.S. Holders (defined below), banks, regulated investment companies, real estate investment trusts, insurance companies, tax-exempt organizations, dealers in securities or currencies, closing large partnerships, certain persons, each such person's tax returns, 5 corporations, estates and trusts, investors that hold the Notes as part of a hedge, straddle, or an integrated or conversion transaction, or investors whose "functional currency" is not the United States dollar. Furthermore, it does not address alternative minimum tax consequences or the salient effects on the investors of equity interests in either a U.S. Holder (defined below) or a Non-U.S. Holder. In addition, this summary is generally limited to investors that will hold the Notes as "capital assets" within the meaning of section 1221 of the Internal Revenue Code of 1986 (the "Code"). Investors should consult their own tax advisors with respect to their particular tax situations.

Confidential Treatment Requested by Goldman Sachs

GS MSS-E-000912878
advisors to determine the United States federal, state, local and other tax consequences of the purchase, ownership and disposition of the Notes.

As used herein, "U.S. Holder" means any holder (or beneficial holder) of a Note that is an individual citizen or resident of the United States for U.S. federal income tax purposes, a corporation or partnership or other entity treated as a corporation or partnership for U.S. federal income tax purposes created or organized in or under the laws of the United States or any state thereof (including the District of Columbia), an estate the income of which is subject to U.S. federal income taxation regardless of its source or a trust for which a court within the United States is able to exercise primary supervision over its administration and for which one or more U.S. persons (as defined in the Code) have the authority to control all of its substantial decisions or a trust that has made a valid election under U.S. Treasury Regulations to be treated as a domestic trust. If a partnership holds the Notes, the tax treatment of a partner will generally depend upon the status of the partner and upon the activities of the partnership. Partners of partnerships holding the Notes should consult their own tax advisors. "Non-U.S. Holder" means any holder (or beneficial holder) of a Security that is not a U.S. Holder.

U.S. Federal Income Tax Consequences to the Issuer

Upon the issuance of the Notes, Sidley Austin LLP, special U.S. tax counsel to the Issuer, will deliver an opinion generally to the effect that under current law, and assuming compliance with the Indenture (and certain other documents) and based on certain factual representations made by the Issuer and/or GS&Co., although the matter is not free from doubt, the Issuer will not be engaged in the conduct of a trade or business in the United States. Accordingly, the Issuer does not expect to be subject to net income taxation in the United States. Prospective investors should be aware that opinions of counsel are not binding on the IRS and there can be no assurance that the IRS will not adopt a view that the Issuer is engaged in a United States trade or business.

The Issuer intends to acquire Collateral Assets and enter into certain swap transactions the interest on which, and any gain from the sale or disposition thereof, is expected not to be subject to United States federal withholding tax or withholding tax imposed by other countries (unless subject to being "purchased up"). The Issuer will not, however, make any independent investigation of the circumstances surrounding the issuance of the individual assets comprising the Collateral Assets or Reference Obligations and that there can be no assurance that the IRS may not take a contrary view. Furthermore, the Issuer reserves the right to change its view of the tax consequences of any swap transaction entered into by the Issuer.

The following rules are not subject to the United States withholding tax on interest received from a United States source unless otherwise indicated.

In addition, it is not expected that the Issuer will derive material amounts of any other items of income that would be subject to United States withholding taxes.

If withholding or deduction of any taxes from payments is required by law in any jurisdiction, the Issuer shall be under no obligation to make any additional payments to the holders of any Notes in respect of such withholding or deduction. Notwithstanding the foregoing, any commitment or facility fee (or other similar fee) that the Issuer earns may be subject to a 30% withholding tax.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912679
Alternative Characterization of the Secured Notes* below, the balance of this discussion assumes that the Secured Notes will be characterized as debt of the Issuer for federal income tax purposes.

For U.S. federal income tax purposes, the Issuer of the Secured Notes, and not the Co-Issuer, will be treated as the issuer of the Secured Notes.

Subject to the following paragraphs, U.S. Holders of the Secured Notes will include payments of stated interest received on the Secured Notes in income in accordance with their method of tax accounting as ordinary interest income.

While not absolutely certain, it appears that the Class C Notes and the Class D Notes will be issued with original issue discount ("OID") and, in such case, an "OID Note" (because interest payments on such Notes ("OID interest payments") may not be considered to be unconditionally payable (as required for interest to not constitute OID) since they will be deferred in the event that certain overcollateralization tests are not met and failure to pay interest will not, in certain circumstances, be an event of default). A U.S. Holder of an OID Note will be required to include OID in gross income as it accretes under a constant yield method, based on the original yield to maturity of the Note. Thus, the U.S. Holder of an OID Note will be required to include original issue discount in income as it accrues, prior to the receipt of the cash attributable to such income. U.S. Holders, however, would not be entitled to claim a loss upon maturity or other disposition of an OID Note with respect to interest amounts accrued and included in gross income for which cash is not received. Such a loss generally would be a capital loss.

Although there can be no assurance, the Secured Notes should not be "contingent payment debt instruments" ("CPDIs") within the meaning of Treasury Regulation section 1.1272-4, effective for debt instruments issued after August 12, 1996. If any Class of Notes were considered such instruments, among other consequences, gain on the sale of such notes that might otherwise be capital gain would be ordinary income. Prospective investors should consult their own tax advisors regarding the possible characterization of the Notes as CPDIs.

The Secured Notes may be debt instruments described in section 1272(a)(5) of the Code (debt instruments that may be accelerated by reason of the prepayment of other debt obligations securing such debt instruments). Special tax rules principally relating to the accrual of original issue discount, market discount and bond premium apply to debt instruments described in section 1272(a)(5). Further, these debt instruments may not be part of an integrated transaction with a related hedge under Treasury Regulation §1.1274-6. Prospective investors should consult with their own tax advisors regarding the effects of section 1272(a)(5).

In general, a U.S. Holder of a Secured Note will have a tax basis in such Note equal to the cost of such Note increased by any market discount includable in income by such U.S. Holder and reduced by any amortized premium and any principal payments and any OID interest payments. Upon a sale, exchange or other disposition of a Secured Note (including redemption or retirement), a U.S. Holder will generally recognize gain or loss equal to the difference between the amount realized on the sale, exchange or other disposition (less any accrued and unpaid interest, which would be taxable as such) and the U.S. Holder’s tax basis in such Secured Note. Such gains or losses generally will be long-term capital gain or loss if the U.S. Holder held the Note for more than one year at the time of disposition. In certain circumstances, U.S. Holders that are individuals may be entitled to preferential treatment for net long-term capital gains; however, the ability of U.S. Holders to offset capital losses against ordinary income is limited.

Alternative Characterization of the Secured Notes. U.S. Holders should recognize that there is some uncertainty regarding the appropriate classification of instruments such as the Secured Notes. It is possible, for example, that the IRS may contend that a class of Secured Notes should be treated as equity interests (or as part debt, part equity) in the Issuer. Such a recharacterization might result in material adverse tax consequences to U.S. Holders. If U.S. Holders of Secured Notes were treated as owning equity interests in the Issuer, the U.S. federal income tax consequences to U.S. Holders of such recharacterized Notes would be as described under "—United States Tax Treatment of Holders of Income Notes." In addition, in order to avoid application of the PFIC rules, each U.S. Holder should consider making a qualified electing fund election (the "QEF election") provided in section 1295 of the Code on a "protective" basis (although such protective election may not be respected by the IRS because current regulations do not specifically authorize that protective election). See "—United States Tax Treatment of Holders of Income Notes—Status of the Issuer as a PFIC" and "—QEF Election."
Footnote Exhibits - Page 5779

Information Reporting Requirements. Under United States federal income tax law and regulations, certain categories of U.S. Holders must file information returns with respect to their investment in, or involvement in, a foreign corporation. These reporting requirements apply to both taxable and tax-exempt U.S. Holders. Penalties for failure to file certain of these information returns are severe. Purchasers of the Securities should consult with their own tax advisors regarding the necessity of filing information returns.

If requested by the Issuer, each Holder will be required to provide the Issuer with the name and status of each beneficial owner of a Secured Note that is a U.S. Holder.

Prospective investors should consult with their own tax advisors with respect to whether they are required to file IRS Form 8886 (Reporting Transaction Disclosure Statement).

Non-U.S. Holders

A Non-U.S. Holder of a Secured Note that has no connection with the United States will not be subject to U.S. withholding tax on interest payments. Non-U.S. Holders may be required to make certain tax representations regarding the identity of the beneficial owner of the Notes in order to receive payments free of withholding.

United States Tax Treatment of Holders of Income Notes

General. Prospective investors of the Income Notes should not rely on this summary only and should consult their own tax advisors regarding alternative characterizations of the Income Notes and the consequences of their acquiring, holding, and disposing of the Income Notes, including the possibility that the Income Notes will be treated as contingent payment debt instruments. Subject to the anti-deferral rules discussed below, payments on Income Notes paid by the Issuer to a U.S. Holder that is subject to United States federal income tax will be taxable to each U.S. Holder as a payment on the extent of the current and accumulated earnings and profits of the Issuer. Dividends will not be eligible for the dividends received deductions allowable to corporations. Distributions in excess of earnings and profits will be non-taxable to the extent of, and will be applied against and reduce, the U.S. Holder's adjusted tax basis in the Income Notes. Distributions in excess of earnings and profits and the U.S. Holder's tax basis will be taxable as gain from the sale or exchange of property.

The tax consequences discussed in the preceding paragraph are likely to be materially modified by the anti-deferral rules discussed below. In general, each U.S. Holder's investment in the Notes will be taxed as an investment in a "passive foreign investment company" ("PFIC"). In addition, each U.S. Holder's investment in the Notes may be treated as an investment in a "CFC", depending (in part) upon the percentage of the Issuer's equity that is acquired and held by certain U.S. Holders. If applicable, the rules pertaining to CFCs generally override those pertaining to PFICs (although, in certain circumstances, more than one set of rules may be applicable simultaneously).

Prospective investors should be aware that in determining what percentage of the equity of the Issuer is held by various categories of investor (for example, for purposes of the CPC and information reporting rules described below) and the Liquidation Agent's interest in certain portions of the Notes and certain classes of Secured Notes may be considered equity (and might be considered voting equity).

Prospective investors should be aware that the Issuer's income that is allocable to holders (under the QEF rules or under the CPC rules discussed below) will not necessarily bear any particular relationship to any year or the amount of cash that is distributed on the Income Notes and in any given year may be substantially greater. Such an excess will arise, among other circumstances, when Collateral Assets are purchased at a discount, an uncertain amount of income on the Collateral Assets or Credit Default Swap (which is included in gross income) is used to acquire other Collateral Assets or to repay principal on the Secured Notes (which does not give rise to a deduction).

Status of the Issuer as a PFIC. The Issuer will be treated as a "passive foreign investment company" or "PFIC" for United States federal income tax purposes. U.S. Holders in PFIC, other than U.S. Holders that make a timely "qualified electing fund" or "QEF" election described below, are subject to special rules for the taxation of...
"excess distributions" (which include both certain distributions by a PFIC and any gain recognized on a disposition of PFIC stock). In general, section 1295 of the Code provides that the amount of any "excess distribution" will be allocated to each day of the U.S. Holder’s holding period for its PFIC stock. The amount allocated to the current year will be included in the U.S. Holder’s gross income for the current year as ordinary income. With respect to amounts allocated to prior years, the tax imposed for the current year will be increased by the "deferred tax amount" (an amount calculated with respect to each prior year by multiplying the amount allocated to such year by the highest rate of tax in effect for such year, together with an interest charge, as though the amount of tax were owed).

An excess distribution is the amount by which distributions for a taxable year exceed 125 percent of the average distribution in respect of the Income Notes during the three preceding taxable years (or, if shorter, the investor’s holding period for the Income Notes). As indicated above, any gain recognized upon disposition (or deemed disposition) of the Income Notes will be treated as an excess distribution and taxed as described above (i.e., not be taxable as capital gain). For this purpose, a U.S. Holder that uses an Income Note as security for an obligation may be treated as having disposed of the Income Note.

**QEP Election.** If a U.S. Holder (including certain U.S. Holders indirectly owning Income Notes) makes the qualified electing fund election ("QEP election") provided in section 1295 of the Code, the U.S. Holder will be required to include in its pro rata share of the Issuer’s ordinary income and net capital gains (computed by any prior year investors) in income (as ordinary income and long-term capital gain, respectively) for each taxable year and pay tax thereon even if such income and gain is not distributed to the U.S. Holder by the Issuer. In addition, any losses of the Issuer will not be deductible by such U.S. Holder. A U.S. Holder that makes the QEP election, may, however (in general) elect to defer the payment of tax on undeistributed income (until such income is distributed to the Income Note is transferred), provided it agrees to pay interest on such deferred tax liability. For this purpose, a U.S. Holder that uses an Income Note as security for an obligation may be treated as having transferred such Income Note. If the Issuer later distributes the income or gain on which the U.S. Holder has already paid taxes, amounts so distributed to the U.S. Holder will not be further taxable to the U.S. Holder. A U.S. Holder’s tax basis in the Income Notes will be increased by the amount included in such U.S. Holder’s income and decreased by the amount of receivable distributions. In general, a U.S. Holder making the QEP Election will recognize, on the disposition of the Income Notes, capital gain or loss equal to the difference, if any, between the amount realized upon such disposition (including redemption or retirement) and its adjusted tax basis in such Income Notes. Such gain or loss generally will be long term capital gain or loss if the U.S. Holder held the Income Note for more than one year at the time of disposition. In certain circumstances, U.S. Holders that are individuals may be entitled to preferential treatment for net long term capital gains; however, the ability of U.S. Holders to offset capital losses against ordinary income is limited.

In general, a QEP election should be made on or before the due date for filing a U.S. Holder’s federal income tax return for the first taxable year for which it held an Income Note.

The QEP election is effective only if certain required information is made available by the Issuer to the IRS. The Issuer will undertake to comply with the IRS information requirements necessary to be a QEP, which will permit U.S. Holders to make the QEP election. Nonetheless, there can be no assurance that such information will always be available or presented.

Where a QEP election is not timely made by a U.S. Holder for the year in which it acquired its Income Notes, but is made for a later year, the excess distribution rules can be avoided by making elections to recharacterize gain from a deemed sale of the Income Notes at the time when the QEP election becomes effective.

A U.S. Holder should consult its own tax advisors regarding whether it should make a QEP election (and, if it failed to make an initial election, whether it should make an election in a subsequent taxable year).

**Status of the Issuer as a CPC.** U.S. tax law also contains special provisions dealing with controlled foreign corporations ("CFCs"). A U.S. Holder (or any other holder of an interest treated as voting equity in the foreign corporation that would meet the definition of a U.S. Holder but for the fact that such holder does not hold Income Notes) that owns (directly or indirectly) at least 10 percent of the voting stock of a foreign corporation, the U.S. Holder is considered a "U.S. Shareholder" with respect to the foreign corporation. If U.S. Shareholders in the

Confidential Treatment Requested by Goldman Sachs

OS MBS-E-000912682
aggregate own (directly or indirectly) more than 50% of the voting power or value of the stock of such corporation. The foreign corporation will be classified as a CFC. Complex attribution rules apply for purposes of determining ownership of stock in a foreign corporation such as the Issuer.

If the Issuer is classified as a CFC, a U.S. Shareholder (and possibly any U.S. Holder that is a direct or indirect holder of a greater trust that is considered to be a U.S. Shareholder) that is a shareholder of the Issuer as of the end of the Issuer’s taxable year generally would be subject to current U.S. tax on income that is earned by the Issuer and includes income that is earned by a non-U.S. Holder generally will not be taxed again when they are distributed to the U.S. Holder. In addition, income that would otherwise be characterized as capital gain and gain on the sale of the CFC’s stock by a U.S. Shareholder (during the period that the corporation is a CFC and thereafter for a two-year period) would be classified in whole or in part as dividend income.

Certain income generated by a corporation conducting a banking, financing, insurance, or other similar business would not be includible in a holder’s income under the CFC rules. However, each holder of an Income Note will agree, by its acquisition of the Income Notes, not to take the position that the Issuer is engaged in such a business. Accordingly, if the CFC rules apply, a U.S. Shareholder would generally be subject to tax on its share of all of the Issuer’s income.

Information Reporting. In general, U.S. Holders that acquire any Income Notes (or any Class of Notes recharacterized as equity in the Issuer) for which such Holder must pay is required to file a U.S. Form 1040 with the U.S. to supply certain information to the IRS. For example, if a U.S. Holder owns (directly or indirectly) immediately after the transfer, at least 10% of the voting power or value of the Issuer or (b) the parent corporation’s income from unrelated business is more than $500,000. In the event a U.S. Holder that is required to file tax return for the year the U.S. Holder would be subject to a penalty of up to $10,000.00 (computed as 10% of the gross amount paid for the Income Notes) or more if the failure to file was due to intentional disregard of its obligations. Other important information reporting requirements apply to persons that acquire 10% or more of a foreign corporation’s equity.

Prospective investors should consult with their own tax advisors concerning the investment decisions.

Tax-Exempt Investors. Special considerations apply to persons and other investors (“Tax-Exempt Investors”) that are subject to tax only on their “unrelated business taxable income” ("UBIT"). A Tax-Exempt Investor’s income from an investment in the Issuer generally should be treated as resulting in an UBIT under current law, as long as such investor’s acquisition of stock in the Issuer is not de facto, and such investor does not own more than 50% of the Issuer’s equity (which, the Income Notes and any Class of Secured Notes (if any) that is recharacterized as equity).

Tax-Exempt Investors should consult with their own tax advisors regarding an investment in the Issuer.

Cayman Islands Tax Considerations

The tax consequences of Cayman Islands income tax legislation on the holder of the Notes is based on the advice of Maples and Calder as to Cayman Islands law. The discussion is a general summary of current rules, which are subject to prospective and retrospective change. It assumes that the Issuer will conduct its affairs in accordance with representations made by, and representations made to, counsel. It is not intended to tax advice, does not consider any investor’s particular circumstances, and does not consider tax consequences other than those arising under Cayman Islands law.
Under existing Cayman Islands laws:

(i) payments of principal and interest in respect of the Notes will not be subject to taxation in the Cayman Islands and no withholding will be required on such payments to any Holder of a Note and gains derived from the sale of Notes will not be subject to Cayman Islands income or corporation tax. The Cayman Islands currently have no income, corporation or capital gains tax and no estate duty, inheritance tax or gift tax; and

(ii) no stamp duty is payable in respect of the issue of the Notes. The Notes themselves will be stampable if they are executed in or brought into the Cayman Islands. An instrument of transfer in respect of a Note is stampable if executed in or brought into the Cayman Islands.

The Issuer has been incorporated under the laws of the Cayman Islands as an exempted company and, as such, has applied for and obtained an undertaking from the Governor in Cabinet of the Cayman Islands in the following form:

**THE TAX CONCESSIONS LAW (1999 REVISION)**

**UNDEARTAKING AS TO TAX CONCESSIONS**

In accordance with Section 6 of the Tax Concessions Law (1999 Revision) the Governor in Cabinet undertakes with Anderson Mezzanine Funding 2007-1, Ltd. (the "Company"):

(a) that no law which is hereafter enacted in the Islands imposing any tax to be levied on profits, income, gains or appreciations shall apply to the Company or its operations; and

(b) in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of stamp duty or inheritance tax shall be payable:

(i) on or in respect of the shares, debenture or other obligations of the Company; or

(ii) by way of the withholding in whole or in part of any relevant payment as defined in Section 6(3) of the Tax Concessions Law (1999 Revision).

These concessions shall be for a period of twenty years from the 3rd day of October, 2006.

**ERISA CONSIDERATIONS**

The United States Employee Retirement Income Security Act of 1974, as amended (“ERISA”), imposes certain requirements on “employee benefit plans” as defined in and subject to Title I of ERISA, including entities such as collective investment funds and separate accounts where underlying assets include the assets of such plans (collectively, “ERISA Plans”) and on those persons who are fiduciaries with respect to a plan. Investments by ERISA Plans are subject to ERISA’s general fiduciary requirements, including the requirement of investment prudence and diversification and the requirement that an ERISA Plan’s investments be made in accordance with the documents governing such ERISA Plan. The prudence of a particular investment must be determined by the responsible fiduciary of an ERISA Plan by taking into account the ERISA Plan’s particular circumstances and all of the factors and circumstances of the investments including, but not limited to, the matters discussed above under “Risk Factors” and the fact that in the future there may be no market in which such fiduciary will be able to sell or otherwise dispose of the Notes.

Sections 402 of ERISA and Section 4975 of the Code prohibit certain transactions involving the assets of an ERISA Plan (as well as certain plans that are not subject to ERISA but which are subject to Section 4975 of the Code, such as individual retirement accounts (together with ERISA Plans, “Plans”) and certain persons (referred to as "prohibited persons") under ERISA or "disqualified persons" under the Code (collectively, "Parties in Interest") having certain relationships to such Plans, unless a statutory, regulatory or administrative exemption is applicable.
the transaction. A Party in Interest who engages in a prohibited transaction may be subject to civil, taxes and other
penalties and liabilities under ERISA and Section 4975 of the Code.

The United States Department of Labor ("DOL") has promulgated a regulation, 29 C.F.R. Section 2550.3-101 (the "Plan Asset Regulation"), as modified by Section 3(42) of ERISA, describing what constitutes the assets of a Plan ("Plan Assets") with respect to the Plan's investment in an entity for purposes of applying ERISA and Section 4975 of the Code. Under the Plan Asset Regulation, if a Plan invests in an "equity interest" of an entity that is neither a "publicly offered security" nor a security issued by an investment company registered under the Investment
Company Act, the Plan's assets include both the equity interest and an undivided interest in each of the entity's underlying assets, unless it is established that the entity is an "operating company" or that equity participation in the entity by Benefit Plan Investors is not "significant."

Prohibited transactions may arise under Section 406 of ERISA or Section 4975 of the Code if Notes are
acquired with Plan Assets with respect to which the Issuer, the Initial Purchaser, the Liquidating Agent, the Trustee, the Fiscal Agent or any of their respective affiliates, is a Party in Interest. Certain exemptions from the prohibited transaction provisions of Sections 406 of ERISA and Section 4975 of the Code may be available, however, depending in part on the type of Plan fiduciary making the decision to acquire a Security and the circumstances under which such decision is made. Included among these exemptions are: DOL Prohibited Transaction Class Exemptions ("PTCE") 96-23, regarding transactions effected by an "in-house asset manager," PTCE 95-60, regarding investments by insurance company general account; PTCE 91-38, regarding investments by bank collective investment funds; PTCE 90-1, regarding investment by insurance company pooled separate accounts; and PTCE
86-14, regarding transactions effected by "qualified professional asset managers," and the service provider exemption under new Section 408(b)(17) of ERISA and new Section 4975(b)(20) of the Code (the "Service Provider Exemption"). There can be no assurance that any class or other exemption will be available with respect to any
particular transaction involving the Notes, or that, if available, the exemption would cover all possible prohibited
transactions.

Governmental plans and certain church and other plans, while not necessarily subject to the fiduciary responsibility provisions of ERISA or the provisions of Section 4975 of the Code, may nevertheless be subject to state or other federal laws that are substantially similar to the foregoing provisions of ERISA and the Code. Fiduciaries of any such plans should consult with their counsel before purchasing any Notes.

Any insurance company proposing to invest assets of its general account in the Notes should consider the
extent to which such investment would be subject to the requirements of ERISA in light of the U.S. Supreme
and the enactment of Section 401(a)(32) of ERISA. In particular, such an insurance company should consider the
nonservice and prospective contingent relief granted by the DOL for transactions involving insurance company
general accounts in PTCE 95-60 and the regulations issued by the DOL, 29 C.F.R. Section 2550.401(a-1) (January 5, 2000). Certain additional information regarding general accounts is set forth below.

Any Plan fiduciary or other person who proposes to use Plan Assets to purchase any Notes should consult
with its counsel regarding the applicability of the fiduciary responsibility and prohibited transaction provisions of
ERISA and Section 4975 of the Code to such an investment, and to confirm that such investment will not constitute or result in a non-exempt prohibited transaction or any other violation of an applicable requirement of ERISA.

The role of any Security in a Plan, or to a person using Plan Assets to effect its purchase of any Security, is
no respect a representation by the Issuer, the Initial Purchaser, the Liquidating Agent, the Trustee or the Fiscal
Agent that such an investment meets all relevant legal requirements with respect to investments by Plans generally
or any particular Plan, or that such an investment is appropriate for Plans generally or any particular Plan.

Class A Notes, Class A-1 Notes, Class B Notes, Class C Notes and Class D Notes

For purposes of the Plan Asset Regulation, an equity interest includes any interest in an entity other than an
instrument that is treated as indebtedness under applicable local law and which has no substantial equity features. Because the Secured Notes (a) are expected to be treated as indebtedness under local law and for federal tax purposes (see "Income Tax Considerations" herein), and (b) should not be deemed to have any "substantial equity

Confidential Treatment Requested by Goldman Sachs

GS MS-5-E-000912685
footnote,” purchases of the Secured Notes with Plan Assets should not be treated as equity investments and, therefore, the Pledged Assets should not be deemed to be Plan Assets of the investing Plan. Those conclusions are based, in part, upon the traditional debt features of the Secured Notes, including the reasonable expectation of purchase of the Secured Notes that the Secured Notes will be repaid when due, as well as the absence of conversion rights, warrants and other typical equity features. However, if the Secured Notes were nevertheless treated as equity interests for purposes of the Plan Asset Regulation and if the assets of the issuers were deemed to constitute Plan Assets of an investing Plan, (i) transactions involving the assets of the issuers could be subject to the fiduciary responsibility and prohibited transaction provisions of ERISA and Section 4975 of the Code, (ii) the assets of the issuers could be subject to ERISA’s reporting and disclosure requirements, and (iii) the fiduciary causing the Plan to make an investment in the Notes could be deemed to have delegated its responsibility to manage Plan Assets.

By its purchase of any Class S Note, Class A Note, Class B Note, Class C Note or Class D Note, the purchaser thereof will be deemed to have represented and warranted either that (i) it is not and will not be a Plan or an entity whose underlying assets include Plan Assets by reason of any Plan’s investment in the entity, or an employee benefit plan which is subject to any federal, state, local or foreign law (“Similar Law”) that is substantially similar to the provisions of Sections 404 of ERISA or Section 4975 of the Code; or (ii) purchase and holding of any Class S Note, Class A Note, Class B Note, Class C Note or Class D Note are eligible for the exemptive relief available under FTC 84-14, 90-1, 91-38, 93-60, 96-23, the Service Provider Exemption, or a similar exemption or, in the case of a plan subject to Similar Law, do not and will not constitute or result in a prohibited transaction under Similar Law for which an exemption is not available.

Income Notes

Equity participation in an entity by Benefit Plan Investors is “significant” under the Plan Asset Regulation (see above) if 15% or more of the total value of one class of equity interest in the entity is held by Benefit Plan Investors. If equity participation in either Issuer by Benefit Plan Investor is “significant,” the assets of such Issuer could be deemed to be Plan Assets of Plans investing in the equity. If the assets of such Issuer were deemed to constitute Plan Assets of an investing Plan, (i) transactions involving the assets of such Issuer could be subject to the fiduciary responsibility and prohibited transaction provisions of ERISA and Section 4975 of the Code, (ii) the assets of the Issuer could be subject to ERISA’s reporting and disclosure requirements, and (iii) the fiduciary causing the Plan to make an equity investment in the Issuer could be deemed to have delegated its responsibility to manage Plan Assets. The term “Benefit Plan Investor” includes (i) an employee benefit plan as defined in and subject to the provisions of Title I of ERISA, (ii) a plan as described in and subject to Section 4975(c)(1) of the Code and (iii) any entity whose underlying assets include Plan Assets by reason of any such employee benefit plan’s or plan’s investment in the entity. For purposes of making the 15% determinations, the value of any equity interests in the Issuer held by a person (other than a Benefit Plan Investor who has discretionary authority or control with respect to the assets of the Issuer, any person who provides investment advice for a fee (direct or indirect) with respect to such assets, or an affiliate of such person (any of the foregoing, a “Controlling Person”), are disregarded. Under the Plan Asset Regulation, an “affiliate” of a person includes any person, directly or indirectly through one or more intermediaries, controlling, controlled by or under common control with the person, and “control” with respect to a person, other than an individual, means the power to exercise a controlling influence over the management or policies of such person. If the equity participation in an entity by Benefit Plan Investors is significant, then the entity’s assets will be deemed to constitute Plan Assets to the extent of such investor’s interest in the entity.

The Income Notes will be equity interests for purposes of applying ERISA and Section 4975 of the Code. Accordingly, purchases and transfers of Income Notes will be limited, as described above, to the extent of the total value of all such Income Notes held by Benefit Plan Investors, by requiring such purchase or transfer of an Income Note (other than a Regulation S Income Note) to be made (or in the case of a Regulation S Income Note, to be deemed to have made) certain representations and agree to additional transfer restrictions described under “Notice to Investors.” No purchase of an Income Note by, or proposed transfer to, a person that has represented, or (where a Benefit Plan Investor or a Controlling Person will be permitted to the extent that such purchase or transfer would result in persons that have represented that they are Benefit Plan Investors owning 15% or more of the total value of the outstanding Income Notes immediately after such purchase or proposed transfer (determined in accordance with the Plan Asset Regulation and the Fiscal Agency Agreement), based upon the representations made by investors. In addition, the Initial Purchaser, the Liquidation Agent, the Trustee and the Fiscal Agent agree that neither they nor
any of their respective affiliates will acquire any Income Notes unless such acquisition would not, as determined by the Trustee or the Fiscal Agent, result in persons that have acquired Income Notes and represented that they are Beneficial Plan Investors owning 5% or more of the total value of the outstanding Income Notes immediately after such acquisitions by the Initial Purchaser, the Liquidation Agent, the Trustee or the Fiscal Agent. Income Notes held as principal by the Initial Purchaser, the Liquidation Agent, the Trustee, the Fiscal Agent, any of their respective affiliates and persons that have represented that they are Controlling Persons will be disregarded and will not be treated at outstanding for purposes of determining compliance with the 5% limitation to the extent that such a Controlling Person is not a Beneficial Plan Investor. Any Beneficial Plan Investor that acquires Income Notes (other than the Regulation S Income Notes) will be required to represent and agree (or, in the case of the Regulation S Income Notes, will be deemed to have represented and agreed) that the acquisition and holding of the Income Notes will not constitute a prohibited transaction under ERISA or Section 4975 of the Code, for which an exemption is not available. If any purchase or transfer of Income Notes is an employee benefit plan subject to Simpler Law, such purchase or transfer will be deemed to have represented and warranted that the purchase and holding of the Income Notes will not constitute or result in a violation of any Simpler Law for which an exemption is not available.

Any entity using Plan Assets to purchase Notes, including an insurance company using global account assets, may be asked (i) to identify the maximum percentage of the assets of such entity or general account (that may be in Income Plan Assets); (ii) whether it is a "Controlling Person" (defined above); and (iii) without limiting the remedies that may be available if the maximum percentage is thereafter exceeded, to agree to notify the Issuer, and dispose of certain Notes as instructed by the Issuer, before the specified maximum percentage is exceeded.

CERTAIN LEGAL INVESTMENT CONSIDERATIONS

Institutions whose investment activities are subject to legal investment laws and regulations or to review by certain regulatory authorities may be subject to restrictions on investments in the Secured Notes and the Income Notes. Any such institution should consult its legal advisors in determining whether and to what extent they may be restricted on its ability to invest in the Secured Notes and the Income Notes. Without limiting the foregoing, any financial institution that is subject to the jurisdiction of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, the Office of Thrift Supervision, the National Credit Union Administration, any state insurance commission, or any other federal or state agency with similar authority should review any applicable rules, guidelines and regulations prior to purchasing the Secured Notes or the Income Notes. Depositary institutions should review and consider the applicability of the Federal Financial Institutions Examination Council Supervisory Policy Statement on Securities Activities, which has been adopted by the respective federal regulators.

None of the Issuer or the Initial Purchaser makes any representation as to the proper characterization of the Secured Notes or Income Notes for legal investment or other purposes, or as to the ability of particular investors to purchase the Secured Notes or Income Notes for legal investment or other purposes, or as to the ability of particular investors to purchase the Secured Notes or Income Notes under applicable investment restrictions. The investors should consult their own counsel in connection with any request for purchase, may be considering the characterization of the notes (as U.S. domestic or foreign (non-U.S.) of certain collateralized debt obligations securities co-issued by a non-U.S. interest and a U.S. co-issuer). There may be no assurance as to the nature of any guidance or other action that may result from such consideration. The uncertainties described above (and any unfavorable future determinations concerning legal investment or financial institution regulatory characteristics of the Secured Notes or Income Notes) may affect the liquidity of the Secured Notes or Income Notes. Accordingly, all institutions whose activities are subject to legal investment laws and regulations, regulatory capital requirements or review by regulatory authorities should consult their own legal advisors in determining whether and to what extent the Secured Notes or Income Notes are subject to investment, capital or other restrictions.

LEGAL MATTERS

Certain legal matters will be passed upon for the Issuer and the Initial Purchaser by Sidley Austin LLP. Certain matters with respect to Cayman Islands law will be passed upon for the Issuer by Maples and Calder, Grand Cayman, Cayman Islands.
UNDERWRITING

The Offered Notes will be offered by Goldman, Sachs & Co. (the "Initial Purchaser"), from time to time at varying prices in negotiated transactions subject to prior sale, when, as and if issued. Subject to the terms and conditions set forth in the Purchase Agreement (the "Purchase Agreement") dated as of March 12, 2007 among Goldman, Sachs & Co. and the Issuers, the Issuers have agreed to sell to Goldman, Sachs & Co. and Goldman, Sachs & Co. has agreed to purchase all of the Secured Notes and the Income Notes.

Under the terms and conditions of the Purchase Agreement, the Initial Purchaser is committed to take and pay for all the Offered Notes to be offered by it, if any are taken. Furthermore, under the terms and conditions of the Purchase Agreement, the Initial Purchase will be subject to an underwriting discount on the Offered Notes purchased by it and a fixed structuring fee based upon the aggregate principal amount of the Notes.

The Offered Notes purchased from the Issuers by the Initial Purchaser will be offered by it from time to time for sale in negotiated transactions or otherwise at varying prices to be determined at the time of sale plus accrued interest, if any, from the Closing Date.

The Notes have not been and will not be registered under the Securities Act for offer or sale as part of their distribution and may not be offered or sold within the United States or to, or for the account or benefit of, a U.S. Person or a U.S. resident (as determined for purposes of the Investment Company Act, a "U.S. Resident") except in certain transactions exempt from, or not subject to, the registration requirements of the Securities Act.

The Issuers have been advised by (a) the Initial Purchaser that it proposes to resell the Offered Notes (b) outside the United States (in part, by Goldman, Sachs & Co., through its selling agent) in offshore transactions in reliance on Regulation S and in accordance with applicable law and (c) in the United States only to (1) Qualified Institutional Buyers in reliance on Rule 144A purchasing for their own accounts or for the accounts of Qualified Institutional Buyers or (2) in the case of the Income Notes only, Accredited Investors, which have a net worth of not less than $10 million, each of which purchasers or accounts is a Qualified Purchaser. The Initial Purchaser's discount will be the same for the Regulation S Notes and the Rule 144A Notes offered hereby and for the Income Notes within each Class of Notes.

The Initial Purchaser has acknowledged and agreed that it will not, offer, sell or deliver any Regulation S Notes purchased by it to, or for the account or benefit of, any U.S. Person or U.S. Resident (as determined for purposes of the Investment Company Act) as part of its distribution at any time and that it will derive any such distributions of any kind and that it will not engage in any activities in connection with the issuance, offer or sale of the Regulation S Notes purchased by it in any manner that would cause the offer or sale of the Regulation S Notes to be made in violation of Regulation S.

With respect to the Notes initially sold pursuant to Regulation S, until the expiration of (x) forty-five (45) days after the commencement of the distribution of the offering of the Secured Notes by Goldman, Sachs & Co. with respect to the initial offering of the Secured Notes and (y) one year after the commencement of the distribution of the Income Notes, with respect to offering or selling of the Income Notes purchased by the Initial Purchaser, we offer or sell Notes within the United States by a dealer that is not participating in the offering may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with Rule 144A or pursuant to another exemption from registration under the Securities Act.

The Initial Purchaser has represented, warranted and agreed that: (i) it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000 (as amended) ("FSMA")) to persons who have professional experience in matters relating to investments falling within Article 19(5) of the FSMA (Financial Promotion) Order 2001 or in circumstances in which section 23 of the FSMA does not apply to the Issuer; and (ii) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the Notes in, from or otherwise involving the United Kingdom.
Footnote Exhibits - Page 5787

The Notes may not be offered or sold by means of any document other than to persons whose ordinary business is to buy or sell shares or debentures, whether as principal or agent, or to circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32) of Hong Kong, and no advertisement, invitation or document relating to the Notes may be issued, whether in Hong Kong or elsewhere, which is directed at, or is likely to be read or accessed by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Notes which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” within the meaning of the Securities and Futures Ordinance (Cap. 571) of Hong Kong and any rules made thereunder.

This Offering Circular has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this Offering Circular and any other document or material in connection with the offer or sale, or invitation or subscription or purchase, of the Notes may not be circulated or distributed, nor may the Notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) on an institutional basis under Section 274 of the Securities and Futures Act, Chapter 329 of Singapore (the “SFA”), (ii) to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the Notes are subscribed or purchased under Section 275 by a relevant person which is (a) a corporation (which is not an accredited investor) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor, or (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries’ rights and interests in that trust shall not be transferable for 6 months after that corporation or that trust has required the Notes under Section 275 except: (1) to an institutional investor under Section 274 of the SFA or to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA, (2) where no consideration is given for the transfer, or (3) by operation of law.

The Notes have not been and will not be registered under the Securities and Exchange Law of Japan (the “Securities and Exchange Law”) and the Initial Purchaser has agreed that it will not offer or sell any Notes, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Securities and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a “Relevant Member State”), the Initial Purchaser has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the “Relevant Implementation Date”) it has not made and will not make an offer of Notes to the public in that Relevant Member State prior to the publication of a prospectus in relation to the Notes which has been approved by the competent authority in that Relevant Member State or, where applicable, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that it may, with effect from and including the Relevant Implementation Date, make an offer of Notes to the public in that Relevant Member State at any time:

(a) to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities,

(b) to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than €35,000,000; and (3) an annual net turnover of more than €50,000,000, as shown in its last annual or consolidated accounts; or

(c) in any other circumstances which do not require the publication by the Issuer of a prospectus pursuant to Article 3 of the Prospectus Directive.
For the purposes of this provision, the expression an "offer of Notes to the public" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered to an investment community, in such Relevant Member State, so as to enable an investor to decide to purchase or subscribe to the Notes, as the case may be, in that Relevant Member State by any means implementing the Prospectus Directive in that Relevant Member State and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

The Initial Purchaser has agreed that it has not made and will not make any invitation to the public in the Cayman Islands to purchase any of the Offshore Notes.

Buyers of Regulation S Securities sold by the selling agents of Goldman, Sachs & Co. may be required to pay stamp taxes and other charges in accordance with the laws and practice of the country of purchase in addition to the purchase price.

No action has been or will be taken in any jurisdiction that would permit a public offering of the Notes, or the possession, circulation or distribution of this Offering Circular or any other material relating to the Issuers or the Notes, in any jurisdiction where action for such purpose is required. Accordingly, the Notes may not be offered or sold, directly or indirectly, and neither this Offering Circular nor any other offering material or advertisements in connection with the Notes may be distributed or published, in or from any country or jurisdiction except under circumstances that will result in compliance with any applicable rules and regulations of any such country or jurisdiction.

The Notes are a new issue of securities with no established trading market. The Issuers have been advised by Goldman, Sachs & Co. that it may make a market in the Notes it is offering but is not obligated to do so and may discontinue a market at any time without notice. No assurance can be given as to the liquidity of the trading market for the Notes. There can be no assurance that any secondary market for any of the Notes will develop, or, if a secondary market does develop, that it will provide the holders of the Notes with liquidity of investment or that it will continue for the life of the Notes.

Application may be made to the Irish Stock Exchange for the Notes to be admitted to the official list of the Irish Stock Exchange and to trading on its regulated market. There can be no assurance that any such application will be made or that any such listing will be obtained.

The Issuers have agreed to indemnify the Initial Purchaser, the Liquidating Agent, the Administrator and the Trustee and their respective directors, officers, employees and agents against certain liabilities, including in the case of the Initial Purchaser, liabilities under the Securities Act, or to contributors to payments they may be required to make in respect thereof. In addition, the Issuers have made certain representations and warranties to the Initial Purchaser and have agreed to indemnify the Initial Purchaser for certain of its expenses.

The Initial Purchaser may, from time to time as principal or through one or more investment funds that it manages, make investments in the equity securities of one or more of the issuers of Reference Obligations and Collateral Securities with the result that one or more of such issuers may be or may become controlled by the Initial Purchaser.

APPENDIX A

Certain Defined Terms

"Accounts" means collectively, the Interest Collection Account, the Payment Account, the Expense Reserve Account, the Collateral Account (including the Cash Collateral Account), the CDS Counterparty Collateral Account, the Amortization Shortfall Account and the Delivered Obligation Account.

"Actual Interest Amount" means with respect to any Reference Obligation Payment Date, payment by or on behalf of the Reference Entity of an amount to reflect interest due under the Reference Obligation (excluding, without limitation, any deferred interest or default interest relating to the CDS Transaction but excluding payments in respect of prepayment penalties, yield maintenance provisions or principal, except that the Actual Interest Amount shall include any payment of principal representing capitalized interest) to the holder(s) of the Reference Obligation in respect of the Reference Obligation.

"Actual Principal Amount" means, with respect to the Final Amortization Date or the legal final maturity date of any Reference Obligation, the amount paid on such day by or on behalf of the Reference Entity in respect of principal (excluding any capitalized interest) to the holder(s) of the Reference Obligation in respect of the Reference Obligation.

"Actual Rating" means with respect to any Reference Obligation, Delivered Obligation or Eligible Investment, the actual expressly-announced outstanding public rating assigned by a Rating Agency. Without reference to any other rating by another Rating Agency, and which rating by its terms addresses the full scope of the payment provisions of the obligor on such Reference Obligation, Delivered Obligation or Eligible Investment, after taking into account any applicable guarantees or insurance policies or, if no such rating is available from a Rating Agency, any "credit ratings" or "shadow rating" assigned by such Rating Agency. For purposes of this definition, (i) the rating of "Aaa" assigned by Moody's to a Reference Obligation, Delivered Obligation or an Eligible Investment placed on watch for possible downgrade by Moody's will be deemed to have been downgraded by Moody's by one subcategory and any other rating assigned by Moody's to a Reference Obligation, Delivered Obligation or an Eligible Investment placed on watch for possible downgrade by Moody's will be deemed to have been downgraded by Moody's by two subcategories, (ii) the rating assigned by S&P to a Reference Obligation, Delivered Obligation or an Eligible Investment placed on watch for possible downgrade by S&P will be deemed to have been downgraded by S&P by one subcategory, (iii) the rating of "Aa1" assigned by Moody's to a Reference Obligation, Delivered Obligation or an Eligible Investment placed on watch for possible upgrade by Moody's will be deemed to have been upgraded by Moody's by one subcategory and any other rating assigned by Moody's to a Reference Obligation, Delivered Obligation or an Eligible Investment placed on watch for possible upgrade by Moody's will be deemed to have been upgraded by S&P by one subcategory.

"Additional Payment Amount" means any Payment Amount described in clause (a), (b) or (c) of the definition of Payment Amount.

"Adjusted Net Outstanding Portfolio Collateral Balance" means, on any Determination Date, the Net Outstanding Portfolio Collateral Balance reduced by the excess, if any, of: (i) the product of the Statistical LossAmount and (b) the lesser of: (i) a fraction the numerator of which is $595,000,000,000 and the denominator of which is the Net Outstanding Portfolio Collateral Balance as of such Determination Date over (ii) the product of: (a) U.S.$310,000,000 and (b) the lesser of: 1.0 and a fraction the numerator of which is the Net Outstanding Portfolio Collateral Balance as of such Determination Date and the denominator of which is U.S.$310,000,000.

"Administrative Expenses" means amounts (including indemnities) due and owing with respect to each Payment Date and payable by the Issuer and/or the Co-Issuer to the Trustee pursuant to the Indenture or any co-trustee appointed pursuant to the Indenture, (ii) the Administrator pursuant to the Administration Agreement, (iii) the independent accountants, agents (including the Note Agents under the Indenture, the Fiscal Agent and Income Net Transfer Agent as defined under the Fiscal Agency Agreement and the Collateral Administrator under the Collateral Administration Agreement) and counsel of the Issuer for fees and expenses (including amounts payable in connection with the issuance, registration or placement of the Notes).
connection with the preparation of tax forms on behalf of the Issuer; (v) the Liquidating Agent pursuant to the Liquidation Agency Agreement (other than the Liquidating Agent Fee), (vi) the Rating Agencies for fees and expenses in connection with any rating or credit estimate (including the fees payable to the Rating Agencies for the monitoring of any rating or credit estimate) of the Notes, including fees and expenses, if any, due or accrued in connection with any rating of the Reference Obligation; (vii) any other person in respect of any governmental fee, charge or tax in relation to the Issuer or the Co-Issuer; (viii) to the liquidator(s) of the Issuer for the fees and expenses of liquidating the Issuer following the redemption of all of the Notes; (ix) the Irish Stock Exchange listing any Notes at the request of the Issuer; and (x) any other person in respect of any other fees or expenses (including indemnification and fees relating to the provision of the Issuer’s registered office) permitted under the Transaction Documents, provided that Administrative Expenses shall not include (a) any amounts due or accrued with respect to the aforesaid taken on or in connection with the Closing Date, (b) amounts payable in respect of the Secured Notes and the Income Notes and (c) any Liquidation Agent Fee payable pursuant to the Liquidation Agency Agreement.

"Aggregate Amortization Amount" means, with respect to any Payment Date calculations, the excess, if any, of (i) the Maximum Principal Amount on such date over (ii) the sum of (a) the Aggregate Reference Obligation Notional Amount and (b) the value of any Delivered Obligations, Eligible Investments and any such amounts on deposit in the Delivered Obligations Account, which amounts will be drawn from the Collateral Account pursuant to the Amortization Liquidation Procedure and deposited in the Payment Account for distribution in accordance with the Priority of Payments on such Payment Date.

"Aggregate Calculation Amount of Defaulted Obligations and Deferred Interest PIK Bonds" means the least of (a) the Aggregate Moody’s Recovery Value of all Defaulted Obligations and Deferred Interest PIK Bonds, (b) the Aggregate S&P Recovery Value of all Defaulted Obligations and Deferred Interest PIK Bonds, and (c) the aggregate of the Market Values of all Defaulted Obligations and Deferred Interest PIK Bonds.

"Aggregate Moody’s Recovery Value" means, with respect to Defaulted Obligations and Deferred Interest PIK Bonds, the aggregate of (a) the Moody’s Recovery Rate for each such asset multiplied by (b) the Principal Balance of such asset.

"Aggregate Outstanding Amount" means, with respect to any of the Secured Notes or Income Notes on any date of determination, the aggregate principal amount of such Secured Notes or Income Notes outstanding on such date.

"Aggregate Outstanding Portfolio Amount" means the sum of (i) the Aggregate Reference Obligation Notional Amount and (ii) the Principal Balance of the Delivered Obligations and any Eligible Investments in the Delivered Obligations Account.

"Aggregate S&P Recovery Value" means the sum of, with respect to each Defaulted Obligation and each Deferred Interest PIK Bond of the Issuer of (a) the Market Value for such Defaulted Obligation or Deferred Interest PIK Bond, as applicable, and (b) the S&P Recovery Rate for such Defaulted Obligation or Deferred Interest PIK Bond multiplied by the Principal Balance of such Defaulted Obligation or Deferred Interest PIK Bond.

"Amortization Liquidation Procedure" means, in connection with the payment of any Aggregate Amortization Amount, (i) first, by applying each amount on deposit in the Collateral Account received as principal on the collateral Security and Eligible Investments and (ii) second, once any such cash on deposit in the Collateral Account has been reduced to zero, by liquidating Eligible Investments in the Collateral Account, in each case, up to the lesser of (a) such Aggregate Amortization Amount or (b) amounts available in the Collateral Account pursuant to subsection (i) above and, if necessary, (ii).

"Amortization Shortfall Amount" means, on any Payment Date where sufficient funds cannot be drawn from the Collateral Account pursuant to the Amortization Liquidation Procedure, the difference between the Aggregate Amortization Amount for such Payment Date and the amounts available from the Collateral Account on such Payment Date pursuant to the Amortization Liquidation Procedure.
"Applicable Percentage" means, on any day, a percentage equal to A divided by B, where "A" means the product of the Initial Face Amount (as such term is defined in the related CDS Transaction) and the Initial Factor (as such term is defined in the related CDS Transaction) as determined on each Delivery Date by an amount equal to (a) the outstanding principal balance of Delivered Obligations delivered to the Issuer (as adjusted by the Reference Amount, if any) divided by the Current Factor (as such term is defined in the related CDS Transaction) on such day multiplied by (b) the Initial Factor (as such term is defined in the related CDS Transaction) and where "B" means the product of the Original Principal Amount of the related Reference Obligation and the Initial Factor (as such term is defined in the related CDS Transaction); (c) as increased by the outstanding principal balance of any further issues by the Reference Entity that are fungible with and form part of the same legal series as the Reference Obligation; and (d) as decreased by any cancellations of some or all of the outstanding principal amount of the related Reference Obligation resulting from purchases of the Reference Obligation by or on behalf of the Reference Entity.

"Applicable Recovery Rate" means, with respect to any Reference Obligation or Collateral Asset on any Determination Date, the lesser of the Moody’s Recovery Rate and the S&P Recovery Rate.

"Asset-Backed Securities" or "ABS Securities" means structured finance securities which have the benefit of a financial guaranty insurance policy, or senior bond or corporate guarantee issuing or guaranteeing the timely payment of interest or the ultimate payment of interest and the ultimate payment of principal.

"Auction Payment Date" means the Auction Date on which the Secured Notes and Income Notes are redeemed in connection with a successful Auction.

"Balance" means, on any date, with respect to each Collateral Security, Delivered Obligations or Eligible Investments in any account, the aggregate of (i) cash held in such account, (ii) principal amount of interest bearing corporate and government securities, money market accounts and repurchase obligations; and (iii) purchase price or accrued value (but not greater than the face amount) of non-interest bearing government and corporate securities and commercial paper.

"BIE Acceptance Notice" means a notice from the Trustee or the Income Notes Transfer Agent, as applicable, to a Collateral Security Holder specifying (i) each BIE Collateral Security that will be substituted for an existing Collateral Security; (ii) each such Collateral Security to be substituted; (iii) the BIE Exercise Period; (iv) the BIE Transaction Cost and (v) account information of the Issuer for such Collateral Security to the Issuer and to present payment of the BIE Transaction Cost to the Issuer.

"BIE Collateral Security" means any security that any Holder of a Note proposes to substitute for part or all of an existing Collateral Security pursuant to the Indenture.

"BIE Consent Solicitation Notice" means a notice from the Trustee or the Fiscal Agent, as applicable, to each Holder of a Note, including the Originating Noteholder with a copy to the Credit Protection Buyer specifying (i) each proposed BIE Collateral Security and its par amount, (ii) each Collateral Security to be substituted and its par amount and (iii) the BIE Notification Date.

"BIE Exercise Period" means the period from and including the delivery of a BIE Acceptance Notice to but excluding the day that is three Business Days thereafter.

"BIE Notification Date" means the Business Day by which a Holder of a Note must respond to a BIE Consent Solicitation Notice, which date shall be 20 Business Days from the date of such BIE Consent Solicitation Notice.

"BIE Transaction Cost" means an amount, as determined pursuant to the Collateral Administration Agreement, by the Collateral Administrator, on behalf of the Issuer, equal to the aggregate amount of the expenses of the Issuer and the Trustee that would be incurred as a result of the proposed substitution of each BIE Collateral Security for part or all of an existing Collateral Security including the purchase price of any such BIE Collateral Security.
Footnote Exhibits - Page 5796

"Board of Directors" means, with respect to the Issuer or the Co-Issuer, the directors of the Issuer or the Co-Issuer, as applicable, duly appointed by the shareholders or the directors of the Issuer or the Co-Issuer, as applicable.

"Calculation Amount" means, with respect to any Defaulted Obligation or Deferred Interest PIK Bond at any time, the lesser of (i) the Market Value of such Defaulted Obligation or Deferred Interest PIK Bond or (ii) the Applicable Recovery Rate multiplied by the Principal Balance of such Defaulted Obligation or Deferred Interest PIK Bond. For purposes of determining the Calculation Amount, the Principal Balance of a Defaulted Obligation shall be deemed to be its outstanding principal amount or Reference Obligation Notional Amount, as applicable, and the Principal Balance of a Deferred Interest PIK Bond shall be deemed to be its outstanding principal amount or Reference Obligation Notional Amount, as applicable, without regard to any deferred or capitalized interest.

"Cash Proceeds" means, with respect to any Due Date Period, the amount on deposit or expected to be on deposit in the Payment Account on the related Payment Date (as calculated by the Trustee two Business Days prior to such Payment Date), without taking into account any Aggregate Amortization Amount or amounts calculated in relation thereto that may be available on such Payment Date.

"CDO RMBS Securities" means CDO Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such CDO Securities) on the cash flow from (and net the market value of) a portfolio of at least 80% by principal balance of RMBS Securities.

"CDO 8 Note Securities" means CDO Securities that, pursuant to the terms of the related Underlying Instruments, are subject to all other securities equal in the related transaction and are entitled to principal payments in accordance with a fixed payment schedule, which principal payments are paid by applying, first, interest proceeds available, and second, principal proceeds available.

"CDO Securities" means collateralized debt obligations (including, without limitation, any synthetic collateralized debt obligations or collateralized loan obligations) which may be categorized as CDO Structured Product Securities, CDO RMBS Securities, Collected Loan Securities and CDO Trust Preferred Securities.

"CDO Structured Product Securities" means CDO Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such CDO Securities) on the cash flow from a portfolio diversified among categories of Residential Mortgage-Backed Securities, Commercial Mortgage-Backed Securities, REIT Debt Securities, Asset-Backed Securities and CDO Securities or any combination of more than one of the foregoing or as security of CDO Securities (and which may include limited amounts of corporate securities), generally having the following characteristics: (i) repayments thereof can vary substantially from the contractual payment schedule (if any), with early repayment of individual debt securities depending on numerous factors specific to the particular issuer or obligor and upon whether, in the case of loans or securities having interest at a fixed rate, such loans or securities include an effective prepayment premium, and (ii) proceeds from such repayments can flow to a limited pool and subject to compliance with certain eligibility criteria be reinvested in collateral loans and/or debt securities.

"CDO Trust Preferred Securities" means CDO Securities that entitle the holder thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such CDO Securities) on the cash flow from a portfolio of trust preferred securities issued by banks, thrifts, other depository institutions or trust subsidiaries.

"Class" means each class of Senior Notes having the same Senior Status and same alphabetical (but not necessarily numerical) designation of any of "A", "B", "C", or "D" as a single class and the Income Notes as a single class.

"Class A Adjusted Overcollateralization Ratio" means, with respect to any Determination Date, the Adjusted Net Outstanding Portfolio Collateral Balance divided by the Aggregate Outstanding Amount of the Class...
Footnote Exhibits - Page 5797

A Note after giving effect to payments to be made on the succeeding Payment Date in accordance with the Priority of Payments.

"Class A Note Redemption Price" shall equal (i) in the case of the Class A-1a Notes, the Class A-1a Note Redemption Price; (ii) in the case of the Class A-1b Notes, Class A-1b Note Redemption Price and (iii) in the case of the Class A-2 Notes, the Class A-2 Note Redemption Price.

"Class A-1a Note Redemption Price" shall equal (i) in the case of the Class A-1a Notes, the Class A-1a Note Redemption Price and (ii) in the case of the Class A-1b Notes, the Class A-1b Note Redemption Price.

"Class A-1a Note Interest Rate" means, for each Interest Accrual Period, a per annum rate equal to LIBOR for such Interest Accrual Period plus 0.32%.

"Class A-1b Note Redemption Price" shall equal (i) the outstanding principal amount of the Class A-1 Notes plus (ii) accrued and unpaid interest thereon (including Defaulted Interest and interest on Defaulted Interest, if any) but excluding the Redemption Date.

"Class A-1b Note Interest Rate" means, for each Interest Accrual Period, a per annum rate equal to LIBOR for such Interest Accrual Period plus 0.65%.

"Class A-2 Note Redemption Price" shall equal (i) the outstanding principal amount of the Class A-2b Notes plus (ii) accrued and unpaid interest thereon (including Defaulted Interest and interest on Defaulted Interest, if any) but excluding the Redemption Date.

"Class A-2 Note Interest Rate" means, for each Interest Accrual Period, a per annum rate equal to LIBOR for such Interest Accrual Period plus 0.90%.

"Class B-1 Adjusted Overcollateralization Ratio" means, with respect to any Determination Date, the Adjusted Net Outstanding Portfolio Collateral Balance divided by the Aggregate Outstanding Amount of the Class A Notes and the Class B Notes, after giving effect to payments or reductions, as applicable, to be made on the succeeding Payment Date in accordance with the Priority of Payments.

"Class B Note Interest Rate" means, for each Interest Accrual Period, a per annum rate equal to LIBOR for such Interest Accrual Period plus 1.37%.

"Class B Note Redemption Price" shall equal (i) the outstanding principal amount of the Class B Notes, plus (ii) accrued interest thereon (including Defaulted Interest and interest on Defaulted Interest, if any) but excluding, the Redemption Date.

"Class C Adjusted Overcollateralization Ratio" means, with respect to any Determination Date, the Adjusted Net Outstanding Portfolio Collateral Balance divided by the Aggregate Outstanding Amount of the Class A Notes, the Class B Notes and the Class C Notes, after giving effect to payments or reductions, as applicable, to be made on the succeeding Payment Date in accordance with the Priority of Payments.

"Class C Note Interest Rate" means, for each Interest Accrual Period, a per annum rate equal to LIBOR for such Interest Accrual Period plus 5.50%.

"Class C Note Redemption Price" shall equal the sum of (i) the outstanding principal amount of the Class C Notes (including any Class C Defeated Interest) plus (ii) accrued interest thereon (including any Defaulted Interest and interest on Defaulted Interest, if any) but excluding the Redemption Date.

Confidential Treatment Requested by Goldman Sachs GS MBS-E-000912699
"Class D Adjusted Overcollateralization Ratio" means, with respect to any Determination Date, the Adjusted Net Outstanding Portfolio Collateral Balance divided by the Aggregate Outstanding Amount of the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes, after giving effect to payments or redemptions, as applicable, to be made on the succeeding Payment Date in accordance with the Priority of Payments.

"Class D Note Interest Rate" means, for each Interest Accrual Period, a per annum rate equal to LIBOR for each Interest Accrual Period plus 1.00%.

"Class D Notes Redemption Premium" means on each Payment Date commencing with the Payment Date in July 2010, the product of (i) the Aggregate Outstanding Amount of the Class D Notes and (ii) the percentage corresponding to the related Payment Date according to the table below:

<table>

"Class D Notes Redemption Price" shall equal the sum of (i) the outstanding principal amount of the Class D Notes (including any Class D Deferred Interest) plus (ii) accrued interest thereon (including any Defaulted Interest on Defaulted Interest, if any) but excluding the Redemption Date plus (iii) the Class D Notes Redemption Premium (if any).

"Class D Notes Amortizing Principal Amount" means an amount equal to the lesser of (a) with respect to the first Payment Date the excess, if any, of any Proceeds remaining after payment of all amounts payable under clauses (i) through (vii) of the Priority of Payments and (b) the product of the remaining principal balance of the Class D Notes after giving effect to clauses (i) through (vii) in the priority of payments, 5% per annum (calculated based upon a 360-day year and the actual number of days in each Interest Accrual Period) with respect to each Interest Accrual Period.

"Class D Notes Redemption Price" means (i) the outstanding principal amount of the Class D Notes plus (ii) accrued and unpaid interest thereon (including Defaulted Interest and interest on Defaulted Interest, if any) but excluding the Redemption Date.

"Class D Note Interest Rate" means, for each Interest Accrual Period, a per annum rate equal to LIBOR for each Interest Accrual Period plus 1.00%.

"Class E Notes Amortizing Principal Amount" means an amount equal to the lesser of (a) the sum of (i) with respect to the first Payment Date, $5,890 and with respect to each subsequent Payment Date, U.S.$34,853.33 and (ii) the aggregate amount of any Class E Notes Amortizing Principal Amount that were due on any prior Payment Date and not paid on one or more prior Payment Dates, and (b) the remaining principal balance of the Class E Notes.

"Closing Date" means March 20, 2007.
"CMBS Conduit Securities" means Commercial Mortgage Backed Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such Commercial Mortgage Backed Securities) on the cash flow from a pool of commercial mortgage loans.

"CMBS Credit Tenant Lease Securities" means Commercial Mortgage Backed Securities (other than CMBS Large Loan Securities and CMBS Conduit Securities) that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such Commercial Mortgage Backed Securities) on the cash flow from a pool of commercial mortgage loans made to finance the acquisition, construction and improvement of properties leased to corporate tenants (or on the cash flow from such leases).

"CMBS Large Loan Securities" means Commercial Mortgage Backed Securities (other than CMBS Conduit Securities and CMBS Credit Tenant Lease Securities) that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such Commercial Mortgage Backed Securities) on the cash flow from a pool of commercial mortgage loans made to finance the acquisition, construction and improvement of properties. Generally, five or fewer commercial mortgage loans shall account for more than 20% of the aggregate principal balance of the entire pool of commercial mortgage loans supporting payments on the securities.

"CMBS Recapitalizing Securities" means a security that entitles the holders thereof to receive payments that depend on the cash flow from a portfolio of all (100%) CMBS Securities, REIT Debt Securities and other interests in commercial mortgage loans or similar commercial real estate interests.

"Collateral Account Amount" means, the sum amount of Eligible Investments, Collateral Securities, Principal Proceeds and principal payments received therein on deposit in the Collateral Account, provided, however, that the Collateral Account Amount shall not include any Interest Proceeds.

"Collateral Administration Agreement" means the Collateral Administration Agreement, dated as of the Closing Date, between the Issuer and the Collateral Administrator, as the same may be amended, supplemented or otherwise modified from time to time in accordance with its terms.

"Collateral Administrator" means LaSalle Bank National Association, or any successor Collateral Administrator under the Collateral Administration Agreement.

"Collateral Asset" means a Collateral Security, Eligible Investment or Delivered Obligation.

"Collateralized Loan Securities" means CDO Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from a portfolio of at least 90% by principal balance of commercial loans.

"Collateral Liquidation Procedure" means, where specified in connection with the payment of any amount, such amount shall be drawn from the Collateral Account: (i) first, by applying cash amounts on deposit in the Collateral Account that were received as principal payments on the Collateral Securities and Eligible Investments, (ii) second, once the amount of such cash on deposit in the Collateral Account has been reduced to zero, by liquidating Eligible Investments in the Collateral Account and (iii) third, once the principal balance of Eligible Investments on deposit in the Collateral Account has been reduced to zero, by liquidating Collateral Securities on deposit in the Collateral Account; in each case, up to the lesser of (i) the amount specified for such payment and (ii) the amount and principal balance available in the Collateral Account pursuant to subclause (i) and, to the extent necessary, subclause (ii).

"Collateral Securities" means securities or other collateral purchased by the Issuer meeting the Collateral Securities Eligibility Criteria using the proceeds of the Notes and from time to time using the principal payments thereon and securing the Issuer's obligations under the Credit Default Swap and the Indenture.

A-7

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912701
"Collateral Securities Substitution Information Notice" means a notice from the Trustee or the Fiscal Agent, as applicable, to an Originating Noteholder notifying such Originating Noteholder of the BIE Transaction Cost relating to each proposed BIE Collateral Security.

"Collateral Securities Substitution Noteholder Refusal Notice" means a notice from the Trustee or the Fiscal Agent, as applicable, to an Originating Noteholder notifying such Originating Noteholder that the Holders of a Majority of a Class of Notes did not approve of one or more proposed BIE Collateral Securities by the BIE Notification Date.

"Collateral Securities Substitution Request Notice" means a notice from an Originating Noteholder to the Trustee or the Fiscal Agent, as applicable, (i) requesting the substitution of one or more BIE Collateral Securities for one or more existing Collateral Assets, (ii) identifying each Collateral Security and the par amount to be substituted, (iii) identifying each proposed BIE Collateral Security and the par amount and (iv) any other information that such Originating Noteholder deems relevant.

"Commercial Mortgage-Backed Securities" or "CMBS" means securities backed by obligations (including certificates of participation in obligations) that are principally secured by mortgages on real property or interest therein having a multifamily or commercial use, such as regional malls, other retail space, office buildings, industrial or warehouse properties, hotels, nursing homes and senior living centers and shall include, without limitation, CMBS Conduit Securities, CMBS Credit Trustee Purchase Securities, CMBS Large Loan Securities and CMBS Re packaging Securities.

"Controlling Class" will be the Class B Notes, the Class A-1 Notes, the Class A-1b Notes and the Class A-2 Notes (the Class A Notes, the Class A-1 Notes, the Class A-1b Notes and the Class A-2 Notes voting together as a single class), for so long as any Class A Notes or Class A-1 Notes are outstanding; if no Class A Notes or Class A-1 Notes are outstanding, then the Class B Notes, so long as any Class B Notes are outstanding; if no Class B Notes, Class A Notes or Class A-1 Notes are outstanding, then the Class C Notes, so long as any Class C Notes are outstanding; and if no Class C Notes, Class A Notes, Class B Notes or Class C Notes are outstanding, then the Class D Notes, so long any Class D Notes are outstanding.

"Corporate Trust Office" means the principal corporate trust office of the Trustee, currently located at 100 North Wacker Drive, Chicago, Illinois 60606, Attention: CDO Trust Services Group—Anderson Mortgage Funding 2009-1, Ltd., or such other address as the Trustees may designate from time to time by notice to the Noteholders, the Liquidation Agent and the Issuers or the principal corporate trust office of any successor Trustee.

"Credit Default Swap" means the credit default swap entered into by the Issuer, as Credit Protection Seller, and Goldman Sachs International, as Credit Protection Buyer, on the Closing Date, evidenced by an ISDA Master Agreement (Multicurrency Cash Boilers) and the Master Confirmations.

"Credit Default Swap Early Termination Date" means the meaning set forth in the Credit Default Swap.

"Credit Default Swap Termination Payment" means any termination or assignment payment required to be paid by the Issuer in the event of a termination or assignment of the Credit Default Swap. For the avoidance of doubt, no termination payments or assignment payments are required to be paid by the Issuer in the event of a termination or assignment of the Credit Default Swap in respect of which the Credit Protection Buyer is the "Deceased Party" or the sole "Affected Party" (each as defined in the Credit Default Swap).

"Credit Protection Amounts" means Physical Settlement Amounts, Writing Down Amounts, Principal Stenfall Amounts and Credit Default Swap Termination Payments (which, for the avoidance of doubt, will not include Defeasance Swap Termination Payments) payable by the Issuer to the Credit Protection Buyer.

"Credit Protection Buyer" means Goldman Sachs International and, if Goldman Sachs International is no longer the Credit Protection Buyer, any entity required to make payments on the Credit Default Swap pursuant to the terms of the Credit Default Swap or any guarantor thereof.
Footnote Exhibits - Page 5001

"Deferral" means any Event of Default or any occurrence that is, or with notice or the lapse of time or both would become, an Event of Default.

"Defaulter Obligations" means any Reference Obligation or Delivered Obligation with respect to which:

(i) there has occurred and is continuing as of the date hereof (1) Business Days and any applicable grace period, a default with respect to the payment of interest or principal on such Reference Obligation or Delivered Obligation in accordance with its terms, provided that, the Reference Obligation or Delivered Obligation shall not constitute a Defaulted Obligation if and when such default has been cured through the payment of all past due interest and principal or waived;

(ii) the Principal Balance of such Reference Obligation or Delivered Obligation has been written down;

(iii) the Trustee has received notice of any bankruptcy, insolvency or receivership proceeding has been initiated in connection with the issuer of such Reference Obligation or Delivered Obligation and is stayed and undenominable; provided, that, if such proceeding is an involuntary proceeding, the condition of this clause (ii) will not be satisfied until the earlier of the following: (i) the issuer consents in such proceeding, (ii) an order for relief under the United States Bankruptcy Code, in any similar order under a proceeding not taking place under the United States Bankruptcy Code, has been entered, and (iii) such proceeding remains stayed and undenominated for 60 days; or

(iv) such Reference Obligation or Delivered Obligation has an S&P Rating of "CC" or lower, "D" or "SD" or, if S&P withdraws its rating and the S&P Rating at the time of withdrawal is "CCC" or below or such Reference Obligation or Delivered Obligation has a Moody’s Rating of "C" or lower or "Ca".

"Deferral Swap Termination Payment" means any Credit Default Swap Termination Payment required by a bankruptcy court or receiver (on a proceeding at law or in equity) to be paid by the Issuer notwithstanding the terms of the Credit Default Swap in the event of a resolution or assignment of the Credit Default Swap as respect of which the Credit Protection Buyer is the "Defaulter Party" or the sole "Affected Party" (as defined in the Credit Default Swap).

"Defaulted Interest" "PSK Bond" means a PSK Bond that (1) has an Actual Rating of "Bad" or above by Moody’s and makes payments less frequently than monthly and has deferred interest in an amount equal to the amount of interest that would have been paid over the shorter of two payment periods or one year, or (2) has an Actual Rating of "Bad" or above by Moody’s and makes payments on a monthly basis and has deferred interest in an amount equal to the amount of interest that would have been paid over the shorter of (i) one year and (ii) the longer of (A) the number of months between two consecutive deferrals of interest and (B) six months or (3) has an Actual Rating of "Bad" or below by Moody’s and makes payments less frequently than monthly and has deferred interest in an amount equal to the amount of interest that would have been paid over the shorter of one payment period or six months, or (4) has an Actual Rating of "Bad" or below by Moody’s and makes payments on a monthly basis and has deferred interest in an amount equal to the amount of interest that would have been paid over three months, provided that such PSK Bond would no longer be a Defaulter Bond (1) once payment of interest has resumed and all capitalized or deferred interest has been paid in full in accordance with the underlying documents.

"Deliverable Obligation" means an obligation which, pursuant to the terms of the Credit Default Swap, may be delivered to the Credit Protection Seller as a result of a Credit Event.

"Deliverable Obligation" means any Deliverable Obligation delivered to the Issuer pursuant to a Notice of Physical Settlement under the Credit Default Swap.

"Delivery Date" means the date on which a Deliverable Obligation is delivered to the Issuer pursuant to the Credit Default Swap.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912703
"Distribution Compliance Period" means, with respect to the Notes, the period that ends 40 days after the later of (a) the commencement of the offering of the Notes and (b) the Closing Date.

"Double B Calculation Amount" means the sum of the products of (a) the Principal Balance of each Double B Rated Asset and (b) 90%.

"Double B Rated Asset" means any Collateral Asset or Reference Obligation with an Actual Rating or Implied Rating from S&P less than "BBB-" but with an Actual Rating greater than "B" or with an Actual Rating or Implied Rating from Moody's less than "Ba3" but with an Actual Rating greater than "B1-".

"Eligible Bidder" are (i) any institutions, which may include affiliates of the Initial Purchasers or the Liquidating Agent and Holders of the Secured Notes and the Income Notes, whose short-term unsecured debt obligations have a rating of at least "P-1" by Moody's or "A-1+" by S&P and (ii) the Liquidating Agent.

"Eligible Depository" shall be a financial institution organized under the laws of the United States or any state thereof, authorized to accept deposits, having a combined capital and surplus of at least U.S.$300,000,000, and having (or if its obligations are guaranteed by its parent company, its parent having, a long-term debt rating of at least "Baa1" by Moody's, (and if rated "Baa1", such rating is not on watch for downgrades) and "A-1+" by S&P and a short-term debt rating of "P-1" by Moody's (and not on watch for downgrades) and at least "A-1+" by S&P.

"Eligible Investment" means any U.S. dollar-denominated investment that, at the time it is delivered to the Trustee, is one or more of the following obligations or securities (including security certificates with respect thereto): (i) direct Registered obligations of, and Registered obligations fully guaranteed by, the United States or any agency or instrumentality of the United States the obligations of which are expressly backed by the full faith and credit of the United States; (ii) demand and time deposits in, certificates of deposit of, or banker's acceptances issued by, any depository institution or trust company incorporated in the United States or any state thereof, which depository institution or trust company is subject to supervision and examination by federal or state authorities, with a maturity not in excess of 183 days; and with a credit rating by S&P of at least "A-1+" or at least "AA-" as applicable, and a credit rating by Moody's of at least "P-1" or at least "Aa3" and if rated "Aa3", not on watch for downgrades, as applicable, in the case of a maturity in excess of 30 days, or a credit rating by S&P of at least "A-1" and a credit rating by Moody's of at least "P-1" (and not on watch for downgrades) in the case of a maturity of less than 30 days; (iii) repurchase obligations with respect to (a) any security described in clause (i) above or (b) any other security issued or guaranteed by an agency or instrumentality of the United States, entered into with a depository institution or trust company described in clause (ii) above or entered into with a corporation whose long-term senior unsecured rating is at least "A1" (and if rated "A1", not on watch for downgrades) by Moody's and "AA-", by S&P and whose short-term credit rating is a "P-1" (and not on watch for downgrades) by Moody's and "A-1+" by S&P at the time of such investment, with a term not in excess of 31 days; (iv) commercial paper or other short-term obligations of a corporation, partnership, limited liability company or trust, or any foreign or foreign agency, thereof located in the United States or any of its territories, such commercial paper or other short-term obligations having a credit rating of "P-1" and not on watch for downgrades by Moody's and "A-1+" by S&P, and that are Registered and either are investment-grade or are sold at a discount and in a transaction that does not affect the credit rating of or have a credit rating of not less than "Aa3/BBB-" by Moody's and "AA-/A-1+" or "A1-/A-1+" by S&P, provided, however, that such rating in clauses (iii) through (vi) above by Moody's or S&P shall be an Actual Rating and provided further, that any such investment purchased on the basis of S&P's short-term rating of "A-1+" shall mature no later than 360 days after the date of purchase and may not, other than overnight investments from LaSalle Bank National Association (i) in the Trust under the Indenture and (ii) in a short-term rating from S&P of at least "A1-"), receive 20% of the Aggregate Outstanding Amount of the Notes held by S&P. Eligible Investments shall not include any REMS, CMBS, any inverse floaters, any security subject to withholding tax if owned by the Issuer, any security subject to an offer, any interest only security, any principal only security (other than Treasury bills or commercial paper) or any security with a price in excess of 100% of par. Each such Eligible Investment shall mature no later than the second Business Day immediately preceding the Payment Date next following the Due Date in which the date of investment occurs, unless such Eligible Investment is issued by the
Footnote Exhibits - Page 5803

1732

Institution acting as Securities Intermediary, in which event such Eligible Investment may remain on the Business Day preceding such Payment Date. Eligible Investments may include those investments with respect to which the Securities Intermediary, the Trustee, the Liquidating Agent or the Initial Purchaser or an Affiliate of the Trustee, the Liquidating Agent or the Initial Purchaser provides services. As used in this definition, ratings may not include ratings with an "r", "p", "q", "p" or "q" subscript.

"Expected Amount" means the amount determined in connection with a Credit Event in accordance with the related CDS Transaction.

"Expected Fixed Payment" shall have the meaning set forth in the Credit Default Swap.

"Expected Interest Amount" means with respect to any Reference Obligation Payment Date, the amount of current interest that would accrue during the related Reference Obligation Calculation Period calculated using the Reference Obligation Coupon on a principal balance of the Reference Obligation equal to: (a) the outstanding principal amount taking into account any reductions due to a principal deficiency balance or realized loss amount (however described in the underlying instruments) that are attributable to the Reference Obligation; minus (b) the "Aggregate Impaired Writedown Amount" (as such term is defined in the related CDS Transaction) (if any), and that will be payable on the related Reference Obligation Payment Date assuming for this purpose that sufficient funds are available therefor in accordance with the underlying instruments, calculated in accordance with the related CDS Transaction.

"Expected Principal Amount" means, with respect to the Final Amortization Date or the legal final maturity date of the related Reference Obligation, an amount equal to (i) the outstanding principal amount of the Reference Obligation payable on such day (excluding capitalized interest) assuming for this purpose that sufficient funds are available for such payment, where such amounts shall be determined in accordance with the underlying instruments, minus (ii) the sum of (A) the "Aggregate Impaired Writedown Amount" (as such term is defined in the related CDS Transaction) (if any) and (B) the net aggregate principal deficiency balance or realized loss amounts (however described in the underlying instruments) that are attributable to the Reference Obligation. For purposes hereof, the Expected Principal Amount shall be determined without regard to the effect of any provisions (however described) of the underlying instruments that permit the limitation of due payments or distributions of funds in accordance with the terms of such Reference Obligation or that provide for the extinguishing or reduction of such payments or distributions.

"Final Amortization Date" means the first to occur of (i) the date on which the Reference Obligation Nontangible Amount is reduced to zero and (ii) the date on which the assets securing the Reference Obligation or designated to fund payments due in respect of the Reference Obligation are liquidated, distributed or otherwise disposed of in full and the proceeds thereof are distributed or otherwise disposed of in full.

"Final Payment Date" means a Payment Date with respect to an Optional Redemption, a Payment Date in connection with the Stated Maturity, Tax Redemption, an Auction or redemption due to an Event of Default resulting in acceleration of the Secured Notes and liquidation of the Pledged Assets.

"Floating Amount" means with respect to any CDS Transaction, an amount equal to the sum of (a) the relevant Writedown Amount (if any), (b) the relevant Principal Deficiency Amount (if any), (c) the relevant Interest Shortfall Payment Amount (if any) and (d) the relevant Physical Settlement Amount (if any).

"Floating Amount Event" means with respect to any CDS Transaction, the occurrence of a Writedown, a Failure to Pay Principal or an Interest Shortfall (in each such event as defined in the related CDS Transaction) with respect to the Reference Obligation thereunder.

"Holder" or "Noteholder", means, with respect to any Note the person in whose name such Note is registered or, for purposes of voting, the granting of consents and other similar determinations under the Indenture or Trust Agreement, as applicable, with respect to any Notes in global form, a beneficial owner thereof. "Second Noteholder", means, with respect to any Secured Note, the Holder of such Secured Note.

Confidential Treatment Requested by Goldman Sachs

QS MBS-E-000912705
"Implied Rating" means, in the case of a rating on a Collateral Asset or Reference Obligation, a rating that is determined in accordance with the terms set forth for assets not rated by a particular Rating Agency by reference to any publicly available, fully source-rated by another Rating Agency that, by its terms, addresses the full scope of the payment terms of the obligor.

"Income Note Documents" means the resolution of the Board of Directors of the Issuer authorizing the execution and delivery of the Indenture, the Memorandum and Articles of Association and the Fiscal Agency Agreement.

"Interest Proceeds" means, in respect of any Payment Date, all investment income received on the Collateral Securities and the Eligible Investments on deposit in the Collateral Account and the Fused Amounts received from the Credit Protection Buyer under the Credit Default Swap in the related Due Period, which Interest Proceeds shall be deposited in the Interest Collection Account (and will not be included in the Collateral Account Amount).

"Interest Shortfall" means, in respect of any Reference Obligation Payment Date and any Reference Obligation, either (a) the nonpayment of an Expected Interest Amount or (b) the payment of an Actual Interest Amount that is less than the Expected Interest Amount, as described in the related CDS Transaction.

"Interest Shortfall Amount" means, in respect of any Reference Obligation Payment Date, an amount equal to the greater of: (a) zero; and (b) the amount equal to the product of: (i) the Expected Interest Amount; minus (ii) the Actual Interest Amount; and (iii) the Applicable Percentage.

"Interest Shortfall Cap" means, if any on Interest Shortfalls as set forth in the related CDS Transaction.

"Interest Shortfall Cap Amount" means the amount of any Interest Shortfall Cap as set forth in the related CDS Transaction.

"Interest Shortfall Payment Amount" means, in respect of an Interest Shortfall, the relevant Interest Shortfall Amount, provided that, if Interest Shortfall Cap is applicable and the Interest Shortfall Amount exceeds the Interest Shortfall Cap Amount, the Interest Shortfall Payment Amount in respect of such Interest Shortfall shall be the Interest Shortfall Cap Amount.

"Interest Shortfall Reimbursement" means with respect to any Reference Obligation Payment Date, the payment by or on behalf of the Reference Entity of an Actual Interest Amount in respect of the Reference Obligation that is greater than the Expected Interest Amount.

"Interest Shortfall Reimbursement Payment" means with respect to any Reference Obligation Payment Date, the product of: (a) the amount of any Interest Shortfall Reimbursement on such day and (b) the Applicable Percentage.

"Interest Shortfall Reimbursement Payment Amount" means, (x) if Interest Shortfall Cap is not applicable, the relevant Interest Shortfall Reimbursement Amount, and (y) if Interest Shortfall Cap is applicable, the amount determined pursuant to the related CDS Transaction, provided, in either case, that the aggregate of all Interest Shortfall Reimbursement Payment Amounts (determined for this purpose on the basis that "Interest Shortfall Reimbursement" is not applicable) at any time shall not exceed the aggregate of Interest Shortfall Payment Amounts paid by the Issuer in respect of Interest Shortfalls occurring prior to the date of payment of any such Additional Fused Amount.

"Issue" of a Collateral Asset or Reference Obligation means any such Collateral Asset or Reference Obligation issued by the same Issuer, having the same terms and conditions (as to, among other things, coupon, maturity, security and subordination) and otherwise being fungible with one another.
"Liquidation Proceeds" means, with respect to any Optional Redemption, Tax Redemption, Auction or the Final Payment Date, including, without duplication, (i) all proceeds from CDS Transactions, Collateral Securities, Eligible Investments and Delivered Obligations, terminated, assigned or otherwise disposed of in connection with such redemption and payable to the Issuer, including any termination or assignment payments or other amounts payable to the Issuer, (ii) cash on deposit in the Accounts, in the amount available therefor, including any amounts designated by the Credit Protection Buyer as retained for investment in Eligible Investments and Collateral Securities, in each case as determined by the Credit Protection Buyer, (iii) any termination payments or other amounts payable to the Issuer by the Credit Protection Buyer (net of any termination payments or other amounts payable by the Issuer to the Credit Protection Buyer) and (iv) any payments receivable by the Issuer from any assignee of a CDS Transaction (net of any payments payable by the Issuer to any assignee of a CDS Transaction), in each case as determined by the Liquidation Agent.

"Majority" means (i) with respect to any Class or Classes of Secured Notes, the Holders of not less than 50% of the Aggregate Outstanding Amount of such Class or Classes of Secured Notes and (ii) with respect to the Income Notes, the Holders of not less than 50% of the outstanding Income Notes, calculated on the basis of the Aggregate Outstanding Amount (or, if the Aggregate Outstanding Amount has been paid in full, based on the original Aggregate Outstanding Amount) of the Income Notes held by each Income Noteholder.

"Market Value" means, with respect to any Collateral Asset or Reference Obligation, (i) the average of three bona fide bids for such Collateral Asset or Reference Obligation obtained by the Liquidation Agent at such time from any three nationally recognized dealers, which dealers are independent of one another and from the Liquidation Agent, or (ii) if the Liquidation Agent is unable to obtain three such bids, the lesser of two bona fide bids for such Collateral Asset or Reference Obligation obtained by the Liquidation Agent at such time from any two nationally recognized dealers acceptable to the Liquidation Agent, which dealers are independent of one another and the Liquidation Agent, or (iii) if the Liquidation Agent is unable to obtain two such bids, the price on such date provided to the Liquidation Agent by an independent pricing service reasonably selected by the Liquidation Agent, or (iv) in the event the Liquidation Agent cannot in good faith determine the market value of such Collateral Asset or Reference Obligation using commercially reasonable efforts to apply the methods specified in clauses (i) through (iii) above, the lesser of (a) the product of (1) the Principal Balance of such Collateral Asset or Reference Obligation and (2) the Applicable Recovery Rate and (b) the Market Value as determined in good faith by the Liquidation Agent using commercially reasonable efforts to apply its reasonable business judgment. If the method of determining Market Value is based solely on clause (iv) above, such Market Value shall be considered zero after 30 days until such time as the Market Value for such Collateral Asset or Reference Obligation may be determined applying the methods specified in clauses (i) through (iv) above.

"Maximum Principal Amount" means, as of any date of determination, an amount equal to the Collateral Account Amount.

"Minimum Bid Amount" means an amount equal to the sum of (a) the Secured Note Redemption Price with respect to the Auction Payment Date, (b) unpaid amounts due under the CDS Transactions upon termination or non-performance of the CDS Transactions, (c) accrued and unpaid Liquidation Agent Fees and (d) 10% of all unpaid expenses of the Issuer, less amounts on deposit in the Accounts which are available to indemnify the Notes.

"Mortgagor Asset Amount" means, with respect to any Payment Date, the Aggregate Reference Obligation Notional Amount on the first day of the related Due Period.

"Moody’s Rating" means the rating determined in accordance with the methodology described in the Indenture.

"Moody’s Recovery Rate" means, with respect to a Collateral Asset or Reference Obligation, an amount equal to the percentage for such Collateral Asset or Reference Obligation set forth in the recovery rate assumptions for Moody’s attached as Part I of Schedule C to the Indenture, provided, however, that (A) Defaulted Obligations which represent 7.5% of the Aggregate Outstanding Portfolio Amount and have been defaulted for more than one year will be deemed to have a Moody’s Recovery Rate of 90%, (B) Defaulted Obligations which exceed 1.0% of the Aggregate Outstanding Portfolio Amount and have been defaulted for more than two years shall be deemed to have a
Footnote Exhibits - Page 5806

Moody’s Recovery Rate of 0% and (C) Defaulted Obligations which have been defaulted for more than 3 years shall be deemed to have a Moody’s Recovery Rate of 0%.

"Net Outstanding Portfolio Collateral Balance" means, on any Determination Date, an amount equal to (i) the Aggregate Reference Obligation Notional Amount on such Determination Date plus the Principal Balance of all Delivered Obligations, minus (ii) the Aggregate Principal Balance on such date of determination of all Delivered Obligations that are and all CDS Transactions that reference Reference Obligations that are: (A) Defaulted Obligations, (B) Deferred Interest FRN Bonds, (C) Double B Rated Assets, (D) Single B Rated Assets and (E) Triple C Rated Assets, plus (iii) the Aggregate Calculation Amount of Defaulted Obligations and Deferred Interest FRN Bonds, the Double B Calculation Amount, the Single B Calculation Amount and the Triple C Calculation Amount plus (iv) the Amortization Surplus Amount as of such date of determination. For purposes of calculating the Net Outstanding Portfolio Collateral Balance, if a Reference Obligation or a Delivered Obligation could be classified in more than one of the categories set forth in clauses (A) through (E) above, such Reference Obligation or Delivered Obligation will not be counted multiple times but will be treated in the applicable category that results in the largest discount thereof.

"Non-Call Period" means the period commencing on and including the Closing Date and ending on but excluding the Payment Date on July 2010.

"Note Interest Rates" means, collectively, the Class E Note Interest Rate, the Class A-1a Note Interest Rate, the Class A-1b Note Interest Rate, the Class A-2 Note Interest Rate, the Class B Note Interest Rate, the Class C Note Interest Rate and the Class D Note Interest Rate.

"Noteholder Communication Notice" means a notice from an Originating Noteholder to the Trustee or the Fiscal Agent, as applicable, the content of which are to be delivered by the Trustee or the Fiscal Agent, as applicable to all other Holders of Notes in accordance with the Indenture or the Fiscal Agency Agreement, as applicable.

"Noteholder" means, with respect to any Note, the person in whose name such Note is registered, or, for purposes of voting, the grantee of a power of attorney, proxy or other similar instrument, or, in the case of a beneficial owner, each beneficial owner thereof.

"Originating Noteholder" means with respect to (i) any Collateral Securities Substitution Request Notice, the Holder(s) of a Note submitting such Collateral Securities Substitution Request Notice and (ii) any Noteholder Communication Notice, the Holder(s) of a Note submitting such Noteholder Communication Notice.

"Outstanding" or "outstanding" means, with respect to each Class of Secured Notes, as of any date of determination, all of such Class of Secured Notes that have been authenticated and delivered under the Indenture and registered in the Note Register as outstanding, except:

(a) Notes thereafter canceled by the Note Register or delivered to the Note Register for cancellation;

(b) Notes or portions thereof for whose payment or redemption funds in the necessary amount have been advanced irrevocably deposited with the Trustee or any Paying Agent in trust for the Holders of such Notes, provided that, if such Notes or portions thereof are to be refunded, notice of such redemption has been duly given pursuant to the Indenture or provision therefor satisfactory to the Trustee has been made;

(c) Notes in exchange for or in lieu of which other Notes have been authenticated and delivered pursuant to the Indenture, unless proof satisfactory to the Trustee is presented that any such Notes are held by a Holder in due course;

(d) Notes alleged to have been mutilated, destroyed, lost or stolen for which replacement Notes have been issued as provided in the Indenture;
in connection with any waiver; (i) all Notes (if any) held by the Trustee and its affiliates if the relevant waiver relates to a Default or an Event of Default arising primarily from any act or omission of the Trustee and, (ii) all Notes (if any) held by the Liquidating Agent and its affiliates if the relevant waiver relates to a Default or an Event of Default arising primarily from any act or omission of the Liquidating Agent;

(f) in connection with the termination of the Trustee or the Liquidating Agent, as applicable, (i) all Notes (if any) held by the Trustee and its affiliates if the termination relates to a Default or an Event of Default arising primarily from any act or omission of the Trustee and (ii) all Notes (if any) held by the Liquidating Agent and its affiliates if the relevant termination relates to a Default or an Event of Default arising primarily from any act or omission of the Liquidating Agent;

(ii) with respect to the Income Notes, as of any date of determination, all of the Income Notes issued pursuant to the Income Notes Documents and included in the Income Notes Register as Outstanding except in connection with the termination of the Trustee or the Liquidating Agent, as applicable:

(a) all Income Notes (if any) held by the Trustee and its affiliates if the termination relates to a Default or an Event of Default arising primarily from any act or omission of the Trustee, and

(b) all Income Notes (if any) held by the Liquidating Agent and its affiliates if the relevant termination relates to a Default or an Event of Default arising primarily from any act or omission of the Liquidating Agent;

provided that in determining whether the Holders of the requisite Aggregate Outstanding Amount of the Second Notes or Income Notes have given any request, demand, authorization, direction, notice, consent or waiver, Second Notes or Income Notes owned by the Issuer or the Co-Issuer or any other obligor upon the Second Notes or Income Notes or any Affiliate thereof shall be disregarded and deemed not to be Outstanding, except that, in determining whether the Issuer and the Trustee shall be protected in relying upon any such request, demand, authorization, direction, notice, consent or waiver, only Second Notes and Income Notes that the Issuer or Trustee knows to be so owned shall be disregarded. Second Notes or Income Notes so owned that have been pledged in good faith may be regarded as Outstanding if the pledgor has no beneficial interest in the Second Notes or Income Notes and the pledgor and the trustor the pledgee’s right so to act with respect to such Second Notes or Income Notes and that the pledgee is not the Issuer, the Co-

"Outstanding Principal Amount" has the meaning set forth in the related CDS Transaction.

"Overcollateralization Ratios" means the Class A/B Overcollateralization Ratio, the Class C Overcollateralization Ratio and the Class D Overcollateralization Ratio.

"Overcollateralization Tests" means the Class A/B Overcollateralization Test, the Class C Overcollateralization Test and the Class D Overcollateralization Test.

"Payment Requirements" has the meaning set forth in the Credit Default Swap.

"PFR Bond" means a Reference Obligation or Delivered Obligation on which the default of interest does not constitute an event of default pursuant to the terms of the related underlying instruments (while any other senior debt obligation is outstanding if so provided by the related indenture or other underlying instruments).

"Principal Balance" means, with respect to any Reference Obligation, Collateral Security, Delivered Obligation or Eligible Investment, as of any date of determination, the Reference Obligation Indebtedness Amount of such Reference Obligation and the outstanding principal amount of each Collateral Security, Delivered Obligation or Eligible Investment, subject to the following exceptions: (i) the Principal Balance of each Defaulted Obligation shall be deemed to be zero, except (A) for purposes of the calculation of the Coverage Tests, in which case, the Principal Balance of Defaulted Obligations shall equal their respective outstanding principal amount as Reference

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912709
Footnote Exhibits - Page 5808

Obligation National Amount, as applicable (unless otherwise indicated in such text), (B) for purposes of determining whether an Event of Default described in clause (V) of the definition thereof has occurred, Defaulted Obligations shall be included at their Applicable Recovery Rate, (C) for purposes of calculating any trustee fees and the Liquidation Agent Fee, the Principal Balance of each Defaulted Obligation shall equal the Calculation Amount for such Defaulted Obligations and (D) as otherwise expressly indicated, (ii) the Principal Balance of any cash shall be the amount of such cash, (iii) the Principal Balance of any Delivered Obligations, any Collateral Securities and any Eligible Investments in which the Tranche does not have a perfected security interest shall be deemed to be zero, and (iv) the Principal Balance of any Reference Obligation, Collateral Security or Delivered Obligation that is an equity security shall be deemed to be zero.

"Principal Proceeds" means, with respect to any Due Period, the sum (without duplication) of: (i) all payments of interest and principal on, or liquidation proceeds of, the Delivered Obligations and Eligible Investments on deposit in the Delivered Obligations Account received in cash by the Issuer during such Due Period, (ii) any termination payments received from the Credit Protection Buyer during such Due Period and (iii) any Additional Fund Amounts (excluding Interest Shortfall Reimbursement Payment Amounts) received from the Credit Protection Buyer during such Due Period; and (iv) any Amortization Proceeds on deposit in the Payment Account on the related Payment Date, provided, however, that Principal Proceeds shall not include any accrued interest or any funds from the Interest Note Payment Account and all funds deposited in or credited thereto, transaction fees payable to the Issuer and its share capital on account of its ordinary shares held in its account in the Cayman Islands.

"Principal Shortfall Amount" means, in respect of a Failure to Pay Principal, an amount equal to the greater of: (i) zero; and (ii) the amount equal to the product of: (A) the Expected Principal Amount minus the Actual Principal Amount; (B) the Applicable Percentage; and (C) the Reference Price. For purposes hereof, if the Principal Shortfall Amount would be greater than the Reference Obligation National Amount immediately prior to the occurrence of such Failure to Pay Principal, then the Principal Shortfall Amount shall be deemed to be equal to the Reference Obligation National Amount at such time.

"Principal Shortfall Reimbursement" means, with respect to any day, the payment by or on behalf of the Reference Entity of an amount in respect of the Reference Obligation in or toward the satisfaction of any default or failure to pay principal arising from one or more prior occurrences of a Failure to Pay Principal.

"Principal Shortfall Reimbursement Payment" means, with respect to any day, the product of (i) the amount of any Principal Shortfall Reimbursement on such day, (ii) the Applicable Percentage and (iii) the Reference Price.

"Principal Shortfall Reimbursement Payment Amounts" means, as of any date of determination, the sum of the Principal Shortfall Reimbursement Amounts in respect of all Principal Shortfall Reimbursements (if any) made during the Reference Obligation Calculation Period relating to such date, provided that the aggregate of all Principal Shortfall Reimbursement Payment Amounts at any time shall not exceed the aggregate of all Floating Amounts paid by the Issuer in respect of occurrences of Failure to Pay Principal prior to such date.

"Proceeds" means, with respect to any Due Period, without duplication, (i) all Amortization Proceeds with respect to the related Payment Date, (ii) all Interest Proceeds with respect to the related Payment Date and (iii) any amounts to be released or withdrawn from the related Payment Date from the Expense Reserve Account for deposit to the Payment Account.

"Quarterly Payment Date" means the 15th day of every January, April, July and October or if any such date is not a Business Day, the immediately following Business Day, commencing on July 15, 2007.

"Raising Agency Condition" means, with respect to any action taken or to be taken under the Transaction Documents, a condition that is satisfied when each Raising Agency has confirmed in writing to the Issuer and the Trustee that such action will not result in the immediate withdrawal, reduction or other adverse action with respect to any then-current rating of any Class of Notes.

"Record Date" means, (i) with respect to any Payment Date and any Notes issued in book-entry form, the close of business on the Business Day prior to such Payment Date and (ii) with respect to any Payment Date and any

Confidential Treatment Requested by Goldman Sachs

GS M8S-E-000912710
None issued in definitive form, the tenth day prior to such Payment Date (or, if such day is not a Business Day, the next succeeding Business Day).

"Redemption Date" means any Optional Redemption Date, Tax Redemption Date or Auction Payment Date.

"Reference entity" means the issuer of a Reference Obligation.

"Reference Obligation" means a Residential Mortgage-Backed Security referenced under the Credit Default Swap.

"Reference Obligor" means the obligor on a Reference Obligation.

"Reference Obligation Calculation Period" means, with respect to each Reference Obligation Payment Date, a period corresponding to the interest accrual period relating to each Reference Obligation Payment Date pursuant to its underlying instruments. For the avoidance of doubt, the first Reference Obligation Calculation Period will begin on the Reference Obligation Payment Date falling on or immediately prior to the Closing Date.

"Reference Obligation Coupon" means the periodic interest rate applied in relation to each Reference Obligation Calculation Period on the related Reference Obligation Payment Date, as determined in accordance with the terms of the underlying instruments as at the Closing Date, without regard to any subsequent amendment.

"Reference Obligation Notional Amount" means, with respect to each CDS Transaction, the notional amount specified therein or reduced or increased pursuant to the terms of such CDS Transaction.

"Reference Obligation Payment Date" means (i) each scheduled distribution date for a Reference Obligation occurring on or after the Closing Date and on or prior to the scheduled termination date of the related CDS Transaction determined in accordance with the underlying instruments and (ii) any day after the effective maturity date on which a payment is made in respect of such Reference Obligation.

"Reference Obligation Principal Amortization Amount" means, with respect to any Reference Obligation Payment Date, an amount equal to the product of (i) the amount of any Reference Obligation Principal Payment on such date and (ii) the Applicable Percentage.

"Reference Obligation Principal Payment" means, with respect to any Reference Obligation Payment Date, the occurrence of a payment of an amount to the holders of the Reference Obligation in respect of principal (scheduled or unscheduled) in respect of the Reference Obligation other than a payment in respect of principal representing capitalized interest, excluding, for the avoidance of doubt, any Write-down Reimbursement or Interest Shortfall Reimbursement.

"Reference Price" means the reference price (expressed as a percentage) specified in the related CDS Transaction.

"Registered" means, with respect to any debt obligation or debt security, a debt obligation or debt security that is issued after July 18, 1984, and that is in registered form within the meaning of Section 881(c)(2)(B)(i) of the Code and the Treasury regulations promulgated thereunder.

"REIT Debt Security" means a security issued by publicly held real estate investment trusts (as defined in Section 856 of the Code or any successor provision).

"Relevant Amount" means with respect to any Reference Obligation, if a service report that describes a Reference Obligation Principal Payment, Write-down or Write-back Reimbursement (other than a Write-down Reimbursement that is a Write-down Reimbursement within paragraph (i) of "Write-down Reimbursement"), in each case that has the effect of decreasing or increasing the interest-paying principal balance of such Reference Obligation as of a date prior to a Delivery Date but such service report is delivered to holders of such Reference Obligation or to the calculation agent under

A-17
the related CDS Transaction or on or after the related Delivery Date, an amount equal to the product of (i) the sum of any such Reference Obligation Principal Payment (expressed as a positive amount), Withdrawn (expressed as a positive amount) or Withdrawn (expressed as a negative amount), as applicable; (ii) the Reference Price; (iii) the Applicable Percentage immediately prior to such Delivery Date; and (iv) the Exercise Percentage (as defined in the related CDS Transaction).

"Residential Mortgage-Backed Securities", "RMBS Securities" or "RMBS" means securities that represent interests in pools of residential mortgage loans secured by 1- to 4-family residential mortgage loans and shall include, without limitation, RMBS Prime Mortgage Securities, RMBS Subprime Mortgage Securities, and RMBS Alt-Alt Mortgage Securities.

"RMBS Prime Mortgage Securities" means Residential Mortgage-Backed Securities (other than RMBS Subprime Mortgage Securities and RMBS Prime Mortgage Securities) that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such Residential Mortgage-Backed Securities) on the cash flow from prime residential mortgage loans secured (on a first priority basis, subject to permitted losses, curtailments and other uncertainties) by 1- to 4-family residential real estate, the proceeds of which are used to purchase real estate and purchase or construct dwellings therein (or to refinance indebtedness previously so used). At issuance, the loans in the portfolio underlying each such RMBS Prime Mortgage Security will have a weighted average FICO Score greater than 625, but less than 700.

"RMBS Subprime Mortgage Securities" means Residential Mortgage-Backed Securities (other than RMBS Subprime Mortgage Securities and RMBS Prime Mortgage Securities) that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such Residential Mortgage-Backed Securities) on the cash flow from subprime residential mortgage loans secured (on a first priority basis, subject to permitted losses, curtailments and other uncertainties) by 1- to 4-family residential real estate, the proceeds of which are used to purchase real estate and purchase or construct dwellings therein (or to refinance indebtedness previously so used). At issuance, the loans in the portfolio underlying each such RMBS Subprime Mortgage Security will have a weighted average FICO Score of 625 or below.

"S&P Rating" means the rating determined in accordance with the methodology described in the Indenture.

"S&P Recovery Rate" means, with respect to a Collateral Asset or Reference Obligation, on any Determination Date, an amount equal to the percentage for such Collateral Asset or Reference Obligation set forth in the S&P Recovery Rate Matrix attached to the Indenture (determined in accordance with procedures prescribed by S&P for such Credit Default Swap, Reference Obligation or Debenture Obligation on the date of its purchase by the Issuer or, in the case of a Debenture Obligation, the S&P Rating immediately prior to default).

"Sale Proceeds" means all amounts representing Proceeds (including accrued interest) from the sale, assignment, termination or other disposition of any CDS Transaction, Collateral Securities, Debenture Obligation or Eligible Investments received during such Due Period, net of any reasonable amounts expended by the Liquidation Agent or the Trustee in connection with such sale or other disposition.

"Second Note Redemption Price" means the Class A-1/2 Note Redemption Price, the Class A-1/2 Note Redemption Price, the Class A-2 Note Redemption Price, the Class A-2 Note Redemption Price, the Class B Note Redemption Price, the Class C Note Redemption Price and the Class D Note Redemption Price, as applicable.
“Service” means, with respect to any Reference Obligation or Collateral Asset, the entity that, absent any default, event of default or similar condition (however described), is primarily responsible for monitoring and otherwise administering the cash flows from which payments to investors in such Reference Obligation or Collateral Asset are made.

“Single B Calculation Amount” means the sum of the products of (a) the Principal Balance of each Single B Rated Asset and (b) 50%.

“Single B Rated Asset” means any Collateral Asset or Reference Obligation, that is not a Triple C Rated Asset, with an Actual Rating from S&P less than “BB-” or with an Actual Rating from Moody’s less than “Baa.”

“Statistical Loss Amount” means, as of any Determination Date, the sum of, for each Reference Obligation and Collateral Asset, the product of (i) the Principal Balance of each Reference Obligation or Collateral Asset and (ii) the Moody’s “Idealized” Cumulative Expected Loss Rate as set forth in the Indenture for such Reference Obligation and Collateral Asset. For purposes of the calculation of the Statistical Loss Amount on any Determination Date with respect to Single B Rated Assets, Defeased Interest FRN Bonds, Double B Rated Assets, Triple C Rated Assets, Defeased Obligations and the principal amount of any Reference Obligations and Collateral Assets expected to be paid in full after the July 12, 2004 Payment Date, the principal amount thereof expected to be paid after the Payment Date related to such Determination Date shall be excluded.

“Step-Down Bond” means a security which by the terms of the related underlying instrument provides for a decrease, in the case of a fixed rate security, in the par amount interest rate on such security or, in the case of a floating rate security, in the spread over the applicable index or benchmark rate, solely as a function of the passage of time, provided that a Step-Down Bond shall not include any such security providing for payment of a constant rate of interest at all times after the date of calculation.

“Super Majority” means, with respect to any Class of Notes, the Holders of more than 66-2/3% of the Aggregate Outstanding Amount of such Class of Notes.

“Tax Event” means (1) the adoption of, or a change in, any tax statute (including the Code), treaty, regulation (whether temporary or final), rule, ruling, practice, procedure or judicial decision or interpretation which results or will result in withholding tax payments representing in excess of 3% of the aggregate premium and interest due and payable on the Credit Default Swap and Pledged Assets during the Due Period in which such event occurs as a result of the imposition of U.S. or other withholding tax with respect to which the Obligors are not required to make gross-up payments that cover the full amount of such withholding taxes on an after-tax basis or (2) the adoption of, or change in, any tax statute (including the Code), treaty, regulation (whether temporary or final), rule, ruling, practice, procedure or judicial decision or interpretation which results or will result in taxation of the Issuer’s net income in an amount equal to 1% or more of the net income of the Issuer during any Due Period in which such event occurs.

“Total Redemption Amount” means the sum of (a) all amounts due us as of the Redemption Date pursuant to clauses (i), (ii), (iii), (iv), (v), (vi) and (vii) of the Priority of Payments and (b) the Secured Note Redemption Price.

“Treasury” means the United States Department of the Treasury.

“Triple C Calculation Amount” means the sum of the products of (a) the Principal Balance of each Triple C Rated Asset and (b) 30%.

“Triple C Rated Asset” means any Collateral Asset or Reference Obligation (other than a Defaulted Obligation) with an Actual Rating from S&P of less than “BB-” or with an Actual Rating from Moody’s of less than “Baa.”

“Writedown Amount” means, with respect to any day, the product of (i) the amount of any Writedown on such day, (ii) the Applicable Percentage and (iii) the Reference Price.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000912713
"Writedown Reimbursement" means, with respect to any day, the occurrence of: (i) a payment by or on behalf of the Reference Entity of an amount in respect of the Reference Obligation in reduction of any prior Writedown, (ii)(A) an increase by or on behalf of the Reference Entity of the Outstanding Principal Amount of the Reference Obligation to reflect the reversal of any prior Writedown, or (B) a decrease in the principal deficiency balance or realized loss amounts (whenever described in the underlying instruments) attributable to the Reference Obligation; or (iii) if "Spotted Writedown" (as defined in the related CDS Transaction) is applicable and the underlying instruments do not provide for writedowns, applied losses, principal deficiencies or realized losses as described in (ii) above to occur in respect of the Reference Obligation, an "Spotted Writedown Reimbursement Amount" (as defined in the related CDS Transaction) being determined in respect of the Reference Obligation by the calculation agent thereunder.

"Writedown Reimbursement Amount" means, with respect to any day, an amount equal to the product of:

(i) the sum of all Writedown Reimbursements on that day,
(ii) the Applicable Percentage, and
(iii) the Reference Price.

"Writedown Reimbursement Payment Amount" means, with respect to any date of determination, the sum of the Writedown Reimbursement Amounts in respect of all Writedown Reimbursements (if any) made during the Reference Obligation Calculation Period relating to such date, provided that the aggregate of all Writedown Reimbursement Payment Amounts at any time shall not exceed the aggregate of all Fleeting Amounts paid by the Issuer in respect of Writedown occurring prior to such date.
FORM OF INCOME NOTES PURCHASE AND TRANSFER LETTER

LaSalle Bank National Association

Attention: CDO Trust Services Group - Anderson Mezzanine Funding 2007-1, Ltd.

Re: Anderson Mezzanine Funding 2007-1, Ltd.
Income Notes

Dear Sirs:

Reference is hereby made to the Income Notes due 2042 (the "Income Notes") issued by Anderson Mezzanine Funding 2007-1, Ltd (the "Issuer"), described in the Issuer's Offering Circular dated March 16, 2007 ("Offering Circular") to be purchased and held by us in definitive certificated form. We (the "Purchaser") are purchasing $[ ] principal amount of Income Notes (the "Purchaser's Income Notes"). Terms defined or referred to in the Offering Circular and not otherwise defined or referred herein shall have the meanings set forth in the Offering Circular.

The Purchaser hereby represents, warrants and covenants for the benefit of the Issuer that:

(a) (i) The Purchaser is (check one) (x) __, a qualified institutional buyer (as defined in Rule 144A under the Securities Act of 1933, as amended (the "Securities Act")) (a "Qualified Institutional Buyer") (y) __, an accredited investor (as defined in Rule 501(a) under the Securities Act) (an "Accredited Investor") who has a net worth of not less than U.S.$10 million that is purchasing the Income Notes for its own account; (ii) The Purchaser is a "qualified purchaser" for the purposes of Section 5(b)(5) of the Investment Company Act of 1940, as amended (the "Investment Company Act") (a "Qualified Purchaser"); (iii) The Purchaser, in the case of clause (i) above, is not acquiring the Income Notes with a view to sale or redistribution thereof, other than in accordance with the restrictions set forth below; and (iv) The Purchaser is aware that the sale of the Purchaser's Income Notes to the Purchaser is being made in reliance on an exemption from registration under the Securities Act. (v) With respect to any transfers, the Purchaser also understands that, in conjunction with any transfer of the Purchaser's ownership of any Purchaser's Income Notes purchased hereunder, it will not transfer or cause the transfer of such Purchaser's Income Notes without obtaining from the transferee a certificate substantially in the form of this Income Note Purchase and Transfer Letter; (vi) The Purchaser will provide notice of the transfer restrictions described to any subsequent transferees.

(b) The Purchaser is purchasing the Purchaser's Income Notes at an amount equal to or exceeding the maximum permitted number thereof for its own account (or, if the Purchaser is a Qualified Institutional Buyer, for the account of another Qualified Institutional Buyer with respect to which the Purchaser exercises sole investment discretion) for investment purposes only and not for sale or redistribution with any distribution thereof, but nevertheless subject to the understanding that the disposition of its property shall at all times be and remain within its control (subject to the restrictions set forth in the Offering Circular, the certificate in respect of the Purchaser's Income Notes and the Fiscal Agency Agreement).

(c) The Purchaser understands that the Purchaser's Income Notes have not been and will not be registered or qualified under the Securities Act or any applicable state securities laws or the securities laws of any other jurisdiction and are being offered only in a transaction not involving any public offering within the meaning of the Securities Act, are being offered only in a transaction not involving any public offering, and may be restriced, restricted or qualified or otherwise transferred only in accordance with the requirements hereof and in the Fiscal Agency Agreement. The Purchaser understands and agrees that any proposed transfer of Income Notes to a purchaser that does not comply with the requirements herein will not be permitted or registered by the Income Notes Transfer Agent. The Purchaser further understands that the Issuer has the right to compel any beneficial owner of Income Notes that is a U.S. Person and is not
(a) either a Qualified Institutional Buyer or an Accredited Investor with a net worth of U.S. $10 million or more and (b) a Qualified Purchaser, to sell its interest in such Income Notes, or the Issuer may sell such Income Notes on behalf of such owner.

(d) If the Purchaser or any account for which the Purchaser is purchasing the Purchaser’s Income Notes is a U.S. Person (as defined in Regulation S under the Securities Act) the following representations shall be true and correct: The Purchaser (or if the Purchaser is acquiring the Purchaser’s Income Notes for any account, each such account) is acquiring the Purchaser’s Income Notes as principal for its own account for investment and not for sale in connection with any distribution thereof. The Purchaser and each such account: (a) was not formed for the specific purpose of investing in the Income Notes (except when each beneficial owner of the Purchaser and each such account is a Qualified Purchaser), (b) to the extent the Purchaser is a private investment company formed before April 30, 1996, the Purchaser has received the necessary consent from its beneficial owners, (c) is not a pension, profit-sharing or other retirement trust fund or plan in which the partners, beneficiaries or participants, as applicable, may designate the particular investments to be made, and (d) is not a broker-dealer that owns and invests in a discretionary basis less than U.S. $25,000,000 in securities of unaffiliated issuers. Further, the Purchaser agrees: (i) that neither it nor such account shall hold the Purchaser’s Income Notes for the benefit of any other person and each purchaser of such account shall be the sole beneficial owner thereof for all purposes, and (ii) that neither it nor such account shall sell participation interests in the Purchaser’s Income Notes or enter into any other arrangement pursuant to which any other person shall be entitled to a beneficial interest in the distributions on the Purchaser’s Income Notes. The Purchaser understands and agrees that any purported transfer of the Purchaser’s Income Notes to a Purchaser that does not comply with the requirements of this clause (d) will not be permitted or registered by the Income Notes Transfer Agent.

(e) In connection with the purchase of the Purchaser’s Income Notes: (i) none of the Issuers, the Initial Purchaser, the Liquidation Agent, the Administrator or the Fiscal Agent, is acting as a fiduciary or financial or investment advice for the Purchaser, (ii) the Purchaser is not relying for purposes of making any investment decision or otherwise upon any advice, counsel or representation (whether written or oral) of the Issuers, the Initial Purchaser, the Liquidation Agent, the Administrator or the Fiscal Agent other than in the Offering Circular and any representations expressly set forth in a written agreement with such party, (iii) none of the Issuers, the Initial Purchaser, the Liquidation Agent, the Administrator or the Fiscal Agent has given to the Purchaser (directly or indirectly through any intermediary) any assurance, guarantee, or representation whatsoever as to the expected or projected success, profitability, return, performance, result, effect, consequence or benefit (including legal, regulatory, tax, financial, accounting or otherwise) as to an investment in the Purchaser’s Income Notes, (iv) the Purchaser has consulted with its own legal, regulatory, tax, business, investment, financial and accounting advisors to the extent it has deemed necessary, and it has made its own investment decisions (including decisions regarding the suitability of any transaction pursuant to the indenture and the Fiscal Agency Agreement) based upon its own judgment and upon any advice from such advisors as it has deemed necessary and not upon any view expressed by the Issuers, the Initial Purchaser, the Liquidation Agent, the Administrator or the Fiscal Agent, (v) the Purchaser has evaluated the risks, prices or amounts and other terms and conditions of the purchase and sale of the Purchaser’s Income Notes with a full understanding of all of the risks thereof (economic and otherwise), and it is capable of assuming and willing to assume (financially and otherwise) those risks, and (vi) the Purchaser is a sophisticated investor.

(f) The certificates in respect of the Income Notes (other than the Regulation S Income Notes) will bear a legend to the following effect unless the Issuer determines otherwise in compliance with the Fiscal Agency Agreement and applicable law:

THE INCOME NOTES ARE THE SUBJECT OF, AND ARE ISSUED SUBJECT TO THE CONDITIONS OF, THE FISCAL AGENCY AGREEMENT, DATED ON OR ABOUT MARCH 20, 1997 (THE "FISCAL AGENCY AGREEMENT") BY AND BETWEEN THE ISSUER OF THE INCOME NOTES AND LASALLE BANK NATIONAL ASSOCIATION, AS FISCAL AGENT. COPIES OF THE FISCAL AGENCY AGREEMENT MAY BE OBTAINED FROM THE FISCAL AGENT.

THE INCOME NOTES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND THE ISSUER HAS NOT BEEN REGISTERED UNDER THE UNITED STATES INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE "INVESTMENT COMPANY ACT"), THE HOLDER HEREBY, AGREES FOR THE BENEFIT OF THE ISSUER THAT SUCH INCOME NOTES MAY BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED, ONLY (A)(1) TO A PERSON WHO THE SELLER REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BORROWER AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT AND IS PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER, IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A UNDER THE SECURITIES ACT, (2) TO AN ACCREDITED INVESTOR (AS DEFINED IN RULE 506(a) UNDER THE SECURITIES ACT) WHO HAS A NET WORTH OF NOT LESS THAN $1,000,000 IN A TRANSACTION EXEMPT FROM REGISTRATION UNDER THE SECURITIES ACT, OR (3) TO A NON-U.S. PERSON IN AN OFFSHORE TRANSACTION COMPLYING WITH RULE 902 OR RULE 904 OF REGULATION S UNDER THE SECURITIES ACT, AND, IN THE CASE OF CLAUSE (1) AND (2) IN A PRINCIPAL AMOUNT OF NOT LESS THAN $100,000 OR IN THE CASE OF CLAUSE (3) IN A PRINCIPAL AMOUNT OF NOT LESS THAN $100,000. FURTHERMORE, THE PURCHASER AND EACH ACCOUNT FOR WHICH IT IS ACTING AS A PURCHASER, OTHER THAN IN THE CASE OF CLAUSE (A)(3) ABOVE, REPRESENTS FOR THE BENEFIT OF THE ISSUER THAT IT IS A QUALIFIED PURCHASER FOR THE PURPOSES OF SECTION 3(a)(7) OF THE INVESTMENT COMPANY ACT, (9) WAS NOT FORMED FOR THE PURPOSE OF PURCHASING THE INCOME NOTES FOR THE ACCOUNT OR BENEFIT OF ANY OTHER PERSON, AND (10) EACH BENEFICIAL OWNER OF THE PURCHASER IS A QUALIFIED PURCHASER, (11) HAS RECEIVED THE NEEDED CONSENT FROM ITS BENEFICIAL OWNERS WHEN THE PURCHASER IS A PRIVATE INVESTMENT COMPANY FORMED BEFORE APRIL 30, 1996, (12) IS NOT A BROKER-DEALER THAT OWNS AND INVESTS IN A DISCRETIONARY BASIS LESS THAN $5,000,000 IN SECURITIES OF UNAFFILIATED ISSUERS AND (2) IS NOT A PENSION PROFIT SHARING OR OTHER RETIREMENT TRUST FUND OR PLAN IN WHICH THE PARTNERS, BENEFICIARIES OR PARTICIPANTS, AS APPLICABLE, MAY DESIGNATE THE PARTICULAR INVESTMENTS TO BE MADE, AND IN EACH CASE IN A TRANSACTION THAT MAY BE EFFECTED WITHOUT LOSS OF ANY APPLICABLE INVESTMENT COMPANY ACT EXEMPTION AND (B) IN ACCORDANCE WITH ALL APPLICABLE SECURITIES LAWS OF THE STATES OF THE UNITED STATES. ANY PURPORTED TRANSFER IN VIOLATION OF THE FOREGOING WILL NOT BE PERMITTED OR REGISTERED BY THE INCOME NOTES TRANSFER AGENT. EACH TRANSFER OF THE INCOME NOTES WILL BE NOTIFIED TO THE TRANSFER AGENT IN WRITING, WHICH WILL NOTIFY THE ISSUER OF THE TRANSFER. ANY INCOME NOTE THAT IS A U.S. PERSON AND THAT IS A QUALIFIED PURCHASER, (12) A QUALIFIED INSTITUTIONAL BUYER OR AN ACCREDITED INVESTOR WHO HAS A NET WORTH OF NOT LESS THAN $1,000,000 MILLION TO SELL SUCH INCOME NOTES, OR MAY SELL SUCH INCOME NOTES ON BEHALF OF SUCH OWNER.

IF THE TRANSFER OF INCOME NOTES IS TO BE MADE PURSUANT TO CLAUSE (A)(3) OR (A)(2) OF THE PRECEDING PARAGRAPH, THE TRANSFEROR OF THE INCOME NOTES WILL (1) BE REQUIRED TO EXECUTE AND DELIVER TO THE ISSUER AND THE INCOME NOTES TRANSFER AGENT AND THE PURCHASER A TRANSFER LETTER, SUBSTANTIALLY IN THE FORM ATTACHED TO THE FISCAL AGENCY AGREEMENT, STATING THAT AMONG OTHER THINGS, THE TRANSFEREE IS A QUALIFIED INSTITUTIONAL BUYER AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER, OR (V) AN ACCREDITED INVESTOR (AS

DEFINITION IN RULE 501(a) UNDER THE SECURITIES ACT, WHO HAS A NET WORTH OF
NOT LESS THAN U.S.$10 MILLION AND (2) A QUALIFIED PURCHASER FOR THE
PURPOSES OF THE INVESTMENT COMPANY ACT AND (3) RECEIVE ONE OR MORE
DEFERRED INCOME NOTES.

IF THE TRANSFER OF INCOME NOTES IS TO BE MADE PURSUANT TO CLAUSE (A)(1)
OF THE SECOND PRECEDING PARAGRAPH, THE TRANSFEREE OF THE INCOME
NOTES WILL BE REQUIRED TO DELIVER TO THE ISSUER AND THE INCOME NOTES
TRANSFER AGENT AN INCOME NOTES PURCHASE AND TRANSFER LETTER,
SUBSTANTIALLY IN THE FORM ATTACHED TO THE FISCAL AGENCY AGREEMENT
STATING THAT AMONG OTHER THINGS, THE TRANSFEREE IS NOT A U.S. PERSON
(AS DEFINED IN REGULATION S).

WITH RESPECT TO THE INCOME NOTES PURCHASED OR TRANSFERRED ON OR
AFTER THE CLOSING DATE, THE PURCHASER OR TRANSFEREE MUST DISCLOSE IN
WRITING IN ADVANCE TO THE FISCAL AGENT (1) WHETHER OR NOT IT IS (A) AN
"EMPLOYEE BENEFIT PLAN" AS DEFINED IN AND SUBJECT TO TITLES I OF THE
UNITED STATES EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974, AS
AMENDED ("ERISA"), (B) A "PLAN" DISCLOSED IN AND SUBJECT TO SECTION 4953
OF THE UNITED STATES INTERNAL REVENUE CODE OF 1986, AS AMENDED (THE
"CODE"), OR (C) AN ENTITY WHOSE ASSETS INCLUDE "PLAN ASSETS" WITHIN
THE MEANING OF ERISA BY REASON OF AN EMLOYEE BENEFIT PLAN'S OR OTHER
PLAN'S INVESTMENT IN THE ENTITY (ALL SUCH PERSONS AND ENTITIES
DESCRIBED IN CLAUSES (A) THROUGH (C) BEING REFERRED TO HEREIN AS
"BENEFIT PLAN INVESTORS"), (i) IF THE PURCHASER OR TRANSFEREE IS A
BENEFIT PLAN INVESTOR (OR ANOTHER EMPLOYEE BENEFIT PLAN SUBJECT TO
ANY FEDERAL, STATE, LOCAL OR FOREIGN LAW THAT IS SUBSTANTIALLY
SIMILAR TO THE PROVISIONS OF SECTION 406 OF ERISA OR SECTION 4953 OF THE
CODE ("SIMILAR LAW"), THAT THE PURCHASE AND HOLDING OR TRANSFER AND
HOLDING OF INCOME NOTES DOES NOT AND WILL NOT CONSTITUTE OR RESULT IN A
PROHIBITED TRANSACTION UNDER SECTION 406 OF ERISA OR SECTION 4953 OF
THE CODE (OR IN THE CASE OF ANOTHER EMPLOYEE BENEFIT PLAN SUBJECT TO
SIMILAR LAW, ANY SIMILAR LAW) FOR WHICH AN EXEMPTION IS NOT
AVAILABLE, AND (ii) WHETHER OR NOT IT IS A PERSON OTHER THAN A BENEFIT
PLAN INVESTOR WHO HAS DISCRETIONARY AUTHORITY OR CONTROL WITH
RESPECT TO THE ASSETS OF THE ISSUER OR A PERSON WHO PROVIDES
INVESTMENT ADVICE FOR A FEE (DIRECT OR INDIRECT) WITH RESPECT TO THE
ASSETS OF THE ISSUER, OR ANY "AFFILIATE" (WITHIN THE MEANING OF 26 C.F.R.
SECTION 54.803-1(h) OR (b) OF ANY SUCH PERSON, IF A PURCHASER IS AN
INSURANCE COMPANY ACTING ON BEHALF OF ITS GENERAL ACCOUNT OR OTHER
ENTITY DEEMED TO BE HOLDING PLAN ASSETS, IT WILL BE PERMITTED TO
INDICATE, AND REQUIRED TO IDENTIFY A MAXIMUM PERCENTAGE OF THE
ASSETS IN SUCH GENERAL ACCOUNT OR ENTITY THAT MAY BE OR BECOME PLAN
ASSETS, IN WHICH CASE THE PURCHASER OR TRANSFEREE WILL BE REQUIRED TO
MAKE CERTAIN FURTHER AGREEMENTS THAT WOULD APPLY IN THE EVENT THAT
SUCH MAXIMUM PERCENTAGE WOULD THEREAFTER BE EXCEEDED. THE
PURCHASER AGREES THAT, BEFORE ANY INTEREST IN AN INCOME NOTE MAY BE
OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED, THE TRANSFEREE WILL
BE REQUIRED TO PROVIDE THE INCOME NOTES TRANSFER AGENT WITH AN
INCOME NOTES PURCHASE AND TRANSFER LETTER (SUBSTANTIALLY IN THE
FORM ATTACHED TO THE FISCAL AGENCY AGREEMENT) STATING, AMONG OTHER
THINGS, WHETHER THE TRANSFEREE IS A BENEFIT PLAN INVESTOR, THE TRUSTEE
OR INCOME NOTES TRANSFER AGENT WILL NOT PERMIT OR REGISTER ANY
PURCHASE OR TRANSFER OF INCOME NOTES TO THE EXTENT THAT THE
PURCHASE OR TRANSFER WOULD RESULT IN BENEFIT PLAN INVESTORS OWING
25% OR MORE OF THE TOTAL VALUE OF THE OUTSTANDING INCOME NOTES

A-1-6
IN A VIOLATION OF ANY SIMILAR LAW FOR WHICH AN EXEMPTION IS NOT AVAILABLE, ANY PURPORTED TRANSFER OF AN INCOME NOTE THAT DOES NOT COMPLY WITH THE REQUIREMENTS SET FORTH ABOVE SHALL BE NULL AND VOID AB INITIO.

PAYMENTS TO THE HoldERS OF THE INCOME NOTES ARE SUBORDINATE TO THE PAYMENT ON EACH PAYMENT DATE OF PRINCIPAL OF AND INTEREST ON THE SECURED NOTES OF THE ISSUER OR CO-ISSUEs, AS APPLICABLE, AND THE PAYMENT OF CERTAIN OTHER AMOUNTS, TO THE EXTENT AND AS DESCRIBED IN THIS INDENTURE.

(9) With respect to Income Notes transferred or purchased on or after the Closing Date, the Purchaser understands and agrees that the representations and agreements made in this paragraph (j) will be deemed made on each day from the date hereof through and including the date on which the Purchaser disposes of the Income Notes.

(9) The Purchaser is __, is not __ (check one) and (v) an “employee benefit plan” as defined in and subject to Title I of the U.S. Employee Retirement Income Security Act of 1974, as amended (“ERISA”), (vi) a “plan” as defined in and subject to Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the “Code”), and (vii) an entity whose underlying assets include assets of any such employee benefit plan or other plan (for purposes of ERISA or Section 4975 of the Code) by reason of a plan’s investment in the equity (such persons and entities described in clauses (i) through (vi) being referred to herein as “Benefit Plan Investors”), and (i) if the Purchaser is a Benefit Plan Investor (or another employee benefit plan subject to any federal, state, local or foreign law substantially similar to Section 401 of ERISA or section 4975 of the Code (“Similar Law”), the Purchaser’s purchase and holding of an Income Note do not and will not constitute or result in a prohibited transaction under Section 406 of ERISA or Section 4975 of the Code (or, in the case of an employee benefit plan subject to Similar Law, any Similar Law) for which an exemption is not available.

The Purchaser is __, is not __ (check one) the Issuer or any other person (other than a Benefit Plan Investor) that has discretionary authority or control with respect to the assets of the Issuer, a person who provides investment advice for a fee (direct or indirect) with respect to the assets of the Issuer, or any “affiliate” (within the meaning of 29 C.F.R. Section 2510.3-101(b)(7)) of any such person (any such person described in this paragraph being referred to as a “Controlling Person”).

If the Purchaser is an insurance company acting on behalf of its general account or any other entity holding plan assets of Benefit Plan Investors __ (check if true), then (i) not more than ___% [complete by entering a percentage], (ii) the “Maximum Percentage” of the assets of such general account or entity consisting of assets of Benefit Plan Investors for purposes of the “plan assets” regulations under ERISA, and (iii) without limiting the remedies that may otherwise be available, the Purchaser agrees that it shall (a) immediately notify the Issuer of the Maximum Percentage is exceeded, and (b) dispose of all or any part of the Income Notes as may be instructed by the Issuer (including, in the discretion of the Issuer, a disposition back to the Issuer or an affiliate thereof (or other person designated by the Issuer) for the then value of the Income Notes as reasonably determined by the Issuer, in any case in which the Purchaser cannot otherwise make a disposition it has been instructed by the Issuer to make).

(9) The Purchaser understands and acknowledges that the Income Notes Transfer Agent will not register any purchase or transfer of Income Notes other to a proposed initial purchaser or to a proposed subsequent transferee of Income Notes that has, in either case, represented that it is a Benefit Plan Investor or a Controlling Person if, after giving effect to such proposed transfer, persons that have represented that they are Benefit Plan Investors would own 25% or more of the total value of the outstanding Income Notes. For purposes of this determination, Income Notes held by the Liquidation Agent, the Trustee, any of their respective affiliates and persons that have represented that they are Controlling Persons will be disregarded and will not be treated as outstanding. The Purchaser understands and agrees that any purported purchase or transfer of the Purchaser’s Income Notes in a Purchaser that does not comply with the requirements of this clause (j) will not be permitted or registered by the Income Notes Transfer Agent.

Confidential Treatment Requested by Goldman Sachs

GS MSS-E-000912727
The Purchaser is not purchasing the Purchaser's Income Notes with a view toward the resale, distribution or other disposition thereof in violation of the Securities Act. The Purchaser understands that an investment in the Purchaser's Income Notes involves certain risks, including the risk of loss of its entire investment in the Purchaser's Income Notes under certain circumstances. The Purchaser has had access to such financial and other information concerning the Issuer and the Purchaser's Income Notes as it deemed necessary or appropriate in order to make an informed investment decision with respect to its purchase of the Purchaser's Income Notes, including an opportunity to ask questions of, and request information from, the Issuer.

The Purchaser is not purchasing the Purchaser's Income Notes in order to reduce any United States federal income tax liability or pursuant to a tax avoidance plan.

The Purchaser agrees to treat the Purchaser's Income Notes as equity for United States federal, state and local income tax purposes.

The Purchaser acknowledges that due to money laundering requirements operating in the Cayman Islands, the Issuer and the Income Notes Transfer Agent may require further identification of the Purchaser before the purchase application can proceed. The Issuer and the Income Notes Transfer Agent, as applicable, shall be held harmless and indemnified by the Purchaser against any loss arising from the failure to process the application if such information as has been required from the Purchaser has not been provided by the Purchaser.

The Purchaser agrees to complete any other instrument of transfer as required under Cayman Islands law.

The Purchaser is not a member of the public in the Cayman Islands.

We acknowledge that you and other persons will rely upon our confirmation, acknowledgments, representations, warranties, covenants and agreements set forth herein, and we hereby irrevocably authorize you and such other persons to produce this letter or a copy thereof to any interested party in any administrative or legal proceeding or official inquiry with respect to the matters covered hereby.

Dan,

Could you please particularly look at the last Q&A. We're not satisfied with this and wondered if you had any suggestions.

Thanks,
Michael

The structured products trading group made $4 billion during this fiscal year.

The structured products trading group and the larger mortgage business, of which it is a part, both were profitable this year. However, the WSJ story greatly overstates the profitability of the SPT group.

A tiny group of traders was responsible for the large profit.

The situation in the mortgage market this year was very severe. Senior management and many different parts of the firm, including legal, controllers and risk management, spent significant amounts of time with the various mortgages desks to help navigate the problems.

The traders in the structured products trading group made $5-$15 billion dollars.

We do not comment on individuals’ compensation.

Goldman Sachs rolls the dices with its own money.

The overwhelming majority of Goldman Sachs’ trading profits come from transactions where the firm acts as a principal for clients.

Goldman Sachs made money on the backs of people who are being thrown out of their houses.

The profits discussed in the Wall Street Journal story were made in the secondary trading market. Goldman Sachs did not originate the subprime loans that have become problematic. That said, we continue to believe a robust subprime market that boosts homeownership among credit-challenged consumers is a desirable social outcome.

Goldman Sachs sold CDOs to investors and simultaneously had a short trading bet that CDOs would decline in value.

Goldman Sachs stopped ramping up new CDOs at the end of last year in response to market conditions. Regardless of that, the CDO trading desk can be long or short at any point in time, including hedge positions. That process is unrelated to the activity of underwriting securities, which are distributed to highly-qualified institutional investors on market terms and with full disclosure so that customers may make their own investment decisions based on their appetite and risk tolerance.

Goldman Sachs traders deal with clients and also trade their own book.

Clients trade with Goldman Sachs because of our reliable execution and unique trading ideas. In the fixed-income world, the firm takes risk on every trade done for clients. Some traders are allowed to express their own market views using the firm's capital.

Subject: Morgan Super Traders Worry Hedge Funds
Attachments: Picture (Moleskin)

I met with some of these Morgan Stanley guys this week. As we merge our secondary structured products trading (CMBS, sub-prime MBS, ABS, correlation, index) business with Will's structured credit trading business, expanding the activities of a prop group covered by the street will make sense and we plan to grow that group.

Morgan Stanley is going overboard by taking most of their experienced and known traders out of the franchise. We should keep our franchise leaders in the seats and continue to allow them to take prop views - the customer flows they see make them more effective.

Morgan Super Traders Worry Hedge Funds
New York Post - 13 Apr 2006 - By Robby Boyd
Copyright (c) 2006, N.Y.P. Holdings, Inc. All rights reserved.

April 13, 2006 -- Morgan Stanley has created an all-star team of bond traders to wager its own cash in the market, a move that is raising eyebrows of its crucial hedge-fund clients.

Bond executives at Morgan told The Post the change will put clients' needs first, rather than focus on longer-term trades for the investment bank's own account, which is "kind of opposed to the idea of customer business," according to one trader.

All told, about 30 of Morgan's asset-backed bond traders, analysts and technology specialists are moving to a different floor at the firm's headquarters.

A senior Morgan executive told The Post that feedback from mutual and pension funds "has been excellent. They are always concerned about us being distracted or putting ourselves first."

However, he acknowledged that hedge funds "might have some concerns."

The chief investment officer at a $5 billion Midtown hedge fund called the arrangement "a hedge fund with a lower cost of capital, pure and simple."

Morgan, he said, "will compete with us for product, and their best traders are off the desk."

The move comes as Wall Street's biggest firms have evolved into something close to hedge funds. They are using massive capital bases and access to cheap capital to place huge bets for their own accounts.

Proprietary trading might be the last great gold rush: Wall Street, Morgan's primary competitor, Goldman Sachs, earned $16.3 billion in net revenue trading for its own account last year.

The hedge fund executive said fighting the trend toward greater prop trading was useless.
"What's the difference between having a separate [prop] group versus a Goldman that takes the same kinds of risks on the various trading desks?" the executive asked.

Subject: FICC 2008 business plan presentation to Firm

Lahary's team is preparing a presentation for Monday and Tom asked for more color in several areas...here's what I've collected today, let me know if you want me to change anything...thanks.

General market expectations / assumptions built-in

We are expecting mortgage delinquencies to continue to increase due to ARM resets and declining HPA. Losses will begin to accumulate with increasing severity as troubled assets work through the system causing rating agency downgrades of RMBS and CDOs to continue through 2008. Whole loan trading and securitization market will continue to be dislocated in subprime and Alt A sectors, with Prime AAAs functioning at reduced volumes. CDO origination will be negligible. Cash RMBS and CDO prices continue to decline until distressed pricing comes in and creates a bottom. Single name RMBS and ABX prices continue to decline from current levels until the cash market finds a bottom and fundamentals improve.

Banks and broker dealers will continue to report write-downs from declining RMBS and CDO pricing/view. Competitors will be scaling back mortgage risk taking and operations, giving us a competitive advantage.

Assumptions/initiatives in ABS area:

- Capturing greater cash and synthetic market flows from weakened competitors
- Facilitating SVCCO liquidations and portfolio changes
- Good prop opportunity capitalizing on selling pressure, selective distressed asset purchases
- Expect prop flow split to be roughly 50/50

European expansion

Establishing a European origination business focused initially on the UK marketplace. Expected revenues from the opportunity are £25mm in 2006, direct headcount will expand from 1 person to 11 people in 2008 as origination volumes will be small until securitization market stabilizes.

We are also expanding the secondary trading desk to establish a correlation trading desk. Headcount will increase from 1 person at the beginning of 2007 to 3 people in 2008 with expected revenues of £525mm (up from £51mm in 2007). Initiatives include expanded index synthetics trading, and single tranche synthetic CDO trading

David and Scott,

Steve and I wanted to post you on the current status and plans at the Leh CDO fund. In the way of background, the Leh CDO fund 1 consists of primarily equity of predominately [redacted] (they have bought equity in a couple of [redacted] deals). Their performance to date has been well received by their investors. They are currently raising their 2nd fund and already have commitments north of $200mm without any OC or marketing materials (including [redacted] from the [redacted] that Steve tee'd up before he left). Their initial intentions were to raise another $75mm fund, but given their success as far they are contemplating a larger fund with a longer drawdown period. The strategy of the 2nd fund will have a slightly different twist. Consistent with the 1st fund, they will be investing heavily in [redacted] but they want to also execute macro hedging and long short structured credit strategies along with exploring MV structures with the appropriate managers.

Below is a list of managers that Leh has multiple commitments with:

Subject: Another idea...

Am I crazy to be thinking we might want to grow the harbinger trade and do our own abs desk etc. there'll be so much juice in it. It would blow out. We could sell supersenior and maybe some equity. Then the remaining mezz would be a cover of a couple hundred million of our cdo short. Haven't crunched the numbers, but I'm guessing we'd effectively cover well north of 1000 plus own some call rights. Or we also keep equity and own it for free.

To select the portfolio, we look at the underlying rhms deals in our cdo shorts. And replicate that as best as possible.

Just an idea... I've also compiled a list of 15 or so potential accounts that we could help monetize as shorts if we don't want harbinger's full size. Could probably clip 1-2pts plus own another 5-pts upside in 30

Sent from my BlackBerry Wireless Device
That's fine. My number 1 concern is that its traded by the right people bc the opportunity is huge. Its a product that needs to be traded as a prop product. I would be so upset if the teachers pcet has any control over it. That would be a big mistake. U need to be in charge and we need prop minded guys involved

How much of each placed and retained by them don’t care (for now) the investors just want to see what portion of deal was sold.

I thanks for the update...going to get a lot bumpier very soon....lets get the finkel deal out the door...

Original Message

From: Michael Leumont <michael.lemont@db.com>
At: 2/25/2007 13:30:22

Good color. I am out w a fever. back tomorrow

After reflection I think the biggest issue for dealers are the cdo's. For the giant negmker mbs cdo deals the situation isn't great, but the aa/aa/as probably clear at a level, and the dealer can play games w the 80 -- 90/91 junior piece. Keep 60-top mark not observable, dealer takes down bbb and a's, sticks equity to hedge fund like negmker at equity floor, maybe looses 3-5 after fees. The bbb/a cdo backed by mid/late 2006 vintage are the lose your job problem I think, not sure how any deals will clear. And for hi grade abs cdo's. Mr did 24bn in hi grade last year. 23-25 cdo mostly as some a. Say conservatively they have 10bn in ramp up to 3 bbl of a/aas cdo. If the mkt starts to price their hi grade like cdo in addition to their cdo2 ramp up of bbb/a [12/19/07] it ramped! they will have an even worse problem. Same problem at citi i think they are relativly ok on merr abs risk but not on cdo's.

Calyon pulled out of ralph coffee meerz deal, won't do so, we were next in line, ralph now coming to us. Calyon are rumored to have 15/16a of risk on their lines. At the same time gilp and maha still writing tickets (maha did a negmker type deal last week, structural change tgl) get them in a was we test in principal waterfall not interest waterfall.

Thanks - would you have a report that shows certain stresses on the market and what bullish assumptions on CDS, loss severity would do? I'm looking at materials that would have been used to pitch bullish/longs on MBS - and not the bears.

Also, is this report, referred to in the Halcyon report, handy?

"SINGLED HUNGRY MARKET DECLINE REVEALS DEFAULTS ONLY IN LOWEST-PAYED U.S. MBS TRANSACTIONS" Standard and Poor's, September 2005

Thanks, Marc

Margolones Baa2 at n+160 YRS BREAK AT 5% cun loss....look like a disaster!!
That implies a base loss of 8%.... or about 2.5 loss rate a year....
Fico is 660, sohardt prime..... card loss rate for this fico about 10, so say cuz the guys home is on the line he
only defaults at 5%....
Read case loss around 17 to 20 then....
And BBB should have around 35 to 40 beneath it....
Means that the BBB attachment should be around where paulie has his AA....
Everything else is CRAP and should be 100ks and 1000ks book of offer....
Even though paulie says Winter group can sell this stuff I cannot believe anyone thinks the ratings agencies
have the sub levels right.... their loss levels are based on an environment of refs.... but you sam ranieri owns
all the winter group seconds deals mezz paper twerwise edba

Sent from my BlackBerry Handheld.
HY Sales...there's a lot of you who have put people into the sub prime "short" trade with Greg Lippsman. I think the following is a great way to express this view while saving considerable carry. (you would also be moving an important axe for the CDO desk.)

In Greg Lippsman's trade, your customer is getting short the BBB- tranche (the first tranche after equity) of a pool of Subprime MBS. The approx carry is 200bps, currently.

Although many believe we're on the verge of payment stress or so called "housing bubble", none are too sure of the timing. I believe the following is a way to pay for this carry while putting on an implied "correlation" trade on the housing mkt. Or even a Sr/Sub trade.

The attached is an offer for $9.5mm equity in a HIGH GRADE Cdo, which is made up of 70% RMBS (only 15% of this 70% is "subprime")

Currently, this piece is offered at a yield of ~17-18%

You would have to believe that if your equity piece is experiencing stress, then there would be a high degree of "correlation" on all sub prime mortgage/income equities.

The key is deciding what "delta" you would use. Considering there's only 18% on 9.5mm, you could easily get short 80mm BBB- (~200bps) and still have a slight positive carry.

Pls speak to Anthony Pawlowski / Ilincio Bogza on the CDO desk, and Greg Lippsman on the ABS desk for more details. DP

Attached is the Mount Skylight equity presentation. Price Yield table to follow

Anshu,

Unlike Greg, I am not in the camp that housing Armageddon is around the corner, although I do think that if home prices decline modestly over a year or two (say a 10-15% probability), the sub-prime borrower will have some real difficulties. My main motivation behind this trade is that I think the correlation risk in sub-prime MBS/CDOs is mis-priced, given how similar the borrowers from one deal to another will be in a time of distress. Compared with the popular macro hedge-fund trade of buying single-name protection on BBB- ABS at I=250, this structure seems like a slam dunk. Basically, I think of this protection as a cheap way for anyone in my overall business that lets me do other profitable interest rate and credit trades without worrying too much about the tail risk of a housing collapse.

Deutsche at its best

Anahu,

I wanted to let you know that last night we closed on a synthetic CDO transaction (TYTON 2006-6) where I bought $350mm of mezzanine protection on a bespoke portfolio of BBA and BBB- sub-prime MBN. Deutsche placed all of this Risk through structured notes sold to investors, and was an incredible partner through the process of portfolio selection, structuring, pricing and distribution. My long-standing and trusting relationships with Fred Breitnocker and Andy Zawors, coupled with Greg Lipman’s top-tier presence in this market, were the main factors in my choosing Deutsche as a counterparty for this complex transaction. Needless to say, I am quite pleased with what great work these three individuals did during the four months from conception to closing, and hope this transaction could be the start of a series of similar trades in the future.

 draft final treatment, requested by DGS1
I hope everything is going well for you, and look forward to catching up when I visit London early next year.

I'm back in town and went through all of the memos yesterday. I feel good about how the book is marked. Here's what we did.

The wildcard is Gemstone VII, the CDQ we are currently marketing. Pricing is set for Tour Fee 20 and I think we will get the deal done as soon as possible. That makes the read a very good investment. I'm writing now and the deal falls apart, it will be marked down something like $20 - $50. In my best estimates, I think we will need to consult with Accounting to determine whether we should reserve a portion of the deal.

Jordan,

glad you can give us some color on how good the BB bonds are in the attached XLS portfolio for
comment 7. It seems there are a few fixtures but none have been downgraded. According to Scott,
all are reasonably good. He is asking us to do a revolving deal for him with BB reinvestments,
and we might want to throw out non-cleanIss.

all BB bonds are highlighted in yellow. Somewhat urgent.

thanks,

Abhayad

06/26/2008 09:31 AM

Removed 8 bonds from the 58 all name portfolio (7 short WALs, 1 long WAL). There are 22 SPVs to which we've got credit exposure, most of them have got short WAL. Would they take a reduced spread and a discount? Other solution: get all their Guaranteed portfolios and pick 2003-2004 names which match our book. If the all the names have short WALs, and the WALs are not tantalised the spread should be good.

Economics:

203 bps WALspread assumption:

dose offer it yet, but in theory we would be very happy to sell them the 3.4-100 so that they would be long 0-3 and 40-100 and short 3-40--but that begs the question as to where the 3-40 is in theory being taken down and we dont want to go there...

They want to short the market and are willing to pay the freight. In the correlation trade they are long idiosyncratic risk, they also ran hedges - which they feel are high-2 events virtually knock out the equity - for every subsequent event their max benefit is 1.8 mm, maybe, but they would need 7 events to break even. (i.e. this ignores spread widening on the remainder) -they think a more efficient short is a bespoke trade, their ideal short would be the belly of the capital structure. When we last spoke about it, we told them the equity and the AAA were the parts we found difficult to place. They are willing to buy the equity and ever the AAA's get an efficient short of the belly...

What does that mean? Will they massively over short vs fix coupon??

Subject: King Street

Which is it? Magnetar is fully placed and talk to lamont. If they want to do our trade but short entire delta we can price that too.

Subject: King Street

Spoke with King Street this morning, rather than do the carry neutral conversion trade, the would like to pursue a bespoke or Magnetar trade. They want more leverage and are willing to hold the equity in a 375mm type transaction, and short the rest of the capital structure- the 75 names we have can be used, or we can add if need be- thanks Sean.
I appreciate you taking a crack at this. Let me know how you do.

Given the market structure as it exists now, who ends up holding the credit risk? Pension funds, foreign treasurers, GNMAs, etc.

Now do CDOs invest CDOs - European and Asian banks and insurers, insurance companies like AXA, CIG, Atlantis, Wall Street Commercial Paper Conduits, ABS Hedge Funds

Now the buyers really do the credit work? Do they have the risk appropriately priced or are they just participating to deploy massive liquidity and looking at just relative pricing with the rating agencies looked at as polishing out the big problems?

With 500 loans per deal and 200 deals per CDO, this would seem to be more of a statistical analysis than a detailed one but increase any claim otherwise.

The ability to lay off credit risk changes? The investment bank “party line” in that they don’t take or hold deal credit risk, it’s all sold off. Is this accurate or do they have to hold residual risk to do the business and are they typically also extending warehouse lines? Are these other areas to look at for pressure beyond negative marks on securities, warehouse exposure and credit quality of any loans held directly?

Warehouse lines are extending to all origination - every line on wall street own home equity residuals.

Besides residuals and warehouse lines, what areas can we see performance risks should things continue to worsen?

Would seem to be it.

The ABS themselves are held in trading accounts - this could produce a negative mark to market, correct?

Most are re-securitized into CDOs which do not have to mark to market until downgrades if ever.

What in CDO behavior now? How generally as active as they have been historically or is there any sort of a buyer’s strike?

Last few days have seen a marked slowdown in CDO activity and there are rumors of dealers losing money on several deals.

Was the ability to lay off credit risk changed recently? Can we tell from the filings really when they sold?

Tough to say, but massive increases in put back of delinquent loans (REOs) and probably greater scrutiny / kickouts of initial loans perhaps leading to worsening relative quality of retained loans. I don’t know how to read filings as no else.

How do you treat and address the residual risk/“equity tranches”? Must this always be held or can this be securitized and sold in some way?

In the ABS someone owns it either the dealer, originator or a hedge fund. ..

Does either the OC or access spread in any way insulate the equity tranche or that and immediately vulnerable to any losses?

The residual gets all access spread so any decline in a/b/c of losses is a hit. If you mean the equity in the ever abs ods, yes the access spread protects it.

Does the equity piece change based on the structure? Can its size vary in any deal?
Yes... all deals are slightly different given quality of the loans, mortgage and bond coupon, duration/ability to sell down cap structure i.e. 6M, 3M... How do you look at risk control with respect to residual risk? Who determines what deals you participate in and what residuals are held?

I do not see the trading of residual for whole loans speak to Michael Gomaxero. If you mean CRE equity we look for early commitment of equity by manager or investor or we feel the manager has a good story.

In NEW like the 5 companies that have previously failed-in irrelevant issue as does its failure meaningfully degrade the performance of the market or create a buyer's strike in some way. What makes NEW different, if anything?

The combined problems for the originators is relevant b/c these loans MUST be refinanced and as capacity leaves the system the marginal buyer will have trouble getting a new loan (also as investors / agencies etc are more picky about businesses many of the weakest businesses will be trapped in current loans) we need 15-20% of the people to default to make 100% so we are not betting on a system meltdown but rather a squeeze on the weakest credits.
see below. the analyst is looking at potentially adding to current position in CUS and also
potentially expressing the bet in some of the equity names. had a few questions before he moved
forward tho. do you have time to speak to both? know. we

This is the new data with ABS CDO sales made by IB in past 2 years. This will give you a general sense of where the paper went but it's a little hard to decipher. Eq. data shows that Morgan bought a lot of high quality OAS equity in 2006- but it has no sell-off lockout triggers. Citi wrapped some AAA paper, but it is actually a static, challenged portfolio. Many of the buyers listed are CDOs (Comm, PB, Vivus, Deepfield, Dynamic, Merling, etc). We will send you some more qualitative analysis shortly.

Accounts in my mind with the most risk from our list are Commonwealth, Harris, BNPAM (DSF), DBR. This probably in line with the broader market although we haven't done much high grade ABS CDO business the last few years. Compare ML and Citi, that have placed a tremendous amount of paper into Asia with accounts like DMB, JPM, SOH, Good, etc. These deals aren't severely dented as of yet but could get there.

You may also want to follow up with ABS Correlation / Liquidation. In the end most of the ABS CDO cash investors who went to others ABS CDOs. I think ABS correlation business across the street has had more of a real money explanation focus.

ADDITIONAL DOCUMENTS RELATED TO GOLDMAN SACHS
From: Sandler, David [mailto:dsandler@omn.com]
Sent: Thursday, April 07, 2011 08:37 AM
To: Goshorn, Daniel (HS/GAC)
Subject: Goldman Sachs

Dan —

On August 20, 2010, Goldman Sachs provided the wire transfer numbers in conjunction with their testing of the Federal Reserve discount window as requested by the Subcommittee. As highlighted in previous responses, Goldman Sachs only used this access to test that all the necessary policies, procedures and operational capabilities required to access this funding were in place. The amounts borrowed were returned in their entirety the next day.

Goldman Sachs recently discovered that one test transaction was inadvertently omitted from the information previously provided to the Subcommittee due to the test being conducted by Goldman Sachs Bank USA, a Utah industrial bank, which tested their necessary policies, procedures and operational capabilities with the Federal Reserve discount window.

Below is a chart providing details of the transaction, including the wire transfer number:

<table>
<thead>
<tr>
<th>Borrow Date</th>
<th>Return Date</th>
<th>Collateral Pledged</th>
<th>Amount Borrowed</th>
<th>Reference Number</th>
</tr>
</thead>
<tbody>
<tr>
<td>09/23/2010</td>
<td>09/24/2010</td>
<td>$100,000,000.00</td>
<td>$50,000,000.00</td>
<td>20080922QMG0W002000003</td>
</tr>
</tbody>
</table>

With this supplementation, we believe Goldman Sachs' prior production on this issue is complete.

On the AAA outperformance question, I think AAAa would have performed similarly without our adding. Given the remote likelihood of loss on "real" RMBS AAAa (i.e. not AAA CDOs), trading around 90 is mostly a liquidity trade and last week's injection of liquidity should have been particularly constructive for AAAa. Of note, we saw AAA buying from relatively conservative accounts not normally involved in outright strategies (III, for example).

Subject: Re: Mtg Department Weekly Update

Going back to your previous question - Net/net the department is long 50ish AA/AAAs (short the seasoned 07-1, long the newer 07-1 index)

Sweeney or Birnbaum can speak to your question re: AAA AAK ps action

Wt correlation, just the super senior RMBS trades (40-100% or 50-100% of BBB/BBD-
nonprime portfolio) were impacted

The desk is currently evaluating the right parameter for the cmbs super senior shorts but we have not had as much observability as we have had in mbbs

Subject: RE: Mtg Department Weekly Update

Got it

Of the ~1.6bb AAA ABX but I believe 900mm was SPG trading getting longer and 700mm was short covering in books (All A Hybrid)

I doubt the current AAA ABX position @ the dept level in front of us but will get it and circle back

* Hedges: Pass-throughs, Swaps

Fixed Agency/Prime

* Spreads continue to widen under selling pressure (AAA super-senior pass-throughs now 1-24 back from FMMAs)
  - Dealers (particularly Countrywide) are overloaded and dumping bonds into any available bid -- month
  - Only 2-3 active street bidders; most dealers are pressing on everything
* Recent two-way flow: sold roughly $180 MM on week, and bought approximately $700m
* P&L on week: ~100m on spread widening; making money trading, but losing more money on positions mark-downs in widening
* Position sizes [Secondary / Loans]: ~$2b
* Hedges: Frequently Agency Pass-throughs, with some swaps

Hybrid Agency/Prime

* Very heavy selling: Bid $100-110B on the week mostly out of Reits (Burlington, R.B., BBA)
* Spreads continue to push wider on supply pressure (AAA Libor Floaters now 2400)
* Bought and sold over $2B. Developing good supply/demand balance with large money managers becoming big buyers
* P&L on week: ~750m
* Position sizes [Secondary / Loans]: ~$1B
* Hedges: ~500m ARX (down from over $1B), Agency Pass-throughs, and Swaps

Alt-A

* Very light origination volumes: less than $500mm on week
* Significant widening in Alt-A, both Fixed and ARMs
  - Super-Seniors: AAA pass-throughs widened a point on week from FMMAs, now back 2-34
  - [3pt widening per month]
  - AAA Hybrids also much wider: 25bps on week
* P&L on week (net residual writedowns): 417mm on ARX widening
* Position sizes: ~500mm loans
* Hedges: short $18 ARX AAA
  - Covered back 500+mm ARX on week, need to cover more

Subprime/scratch and Dent

* Very quiet with essentially no new origination
* We continue to work on Chas portfolio for potential buy opportunity
* Also, working on new deal with NDBC loans: week investor interest
* P&L on week: ~$1m (ARX widening)
* $1.3B ARX short vs $1b Subprime and 600m 640 position

ABS Summary (Swenson)

1. Closing Prices and Changes for the week ended ARX 07-1:

   Weekly Change
   
   AAA 91-00  +1.1ptts
   AA 77-00  -3.9ptts
   A 45-00  -3.4ptts
   BBB 55-00  -3.2ptts
   BBB- 43-16  -1.1ptts

2) General Credit

* Market was up as much as 6 or 7 points post Fed announcement this morning. Market came off the highs as fast money faded the rally with the market closing up 2 points on average.
* Further liquidations from real money accounts facing redemptions. Multiple billions of AAA and AA name equity out for bid with roughly two-thirds trading.
* Moody's downgraded 84% of the second lien universe including 78 AAA bonds, likely to trigger numerous forced sales.
* S&P downgraded 15% Alt-A deals that had been previously on watch.

3) Current SPV Trading Desk Position Summary:

* FNMA AAA - Long $2.23bn
* FNMA AA - Long $1.72bn
* FNMA Single-As - Net short $0.40bn 100% in single-name CDO
* FNMA BBB+/BBB- - Net short $3.35bn (60% in single-name CDOs - 60% in 2005 vintage)

4) August 13th - 17th

Total ABX Indices by Rating bought this week:

AAA $1.38bn
AA (+46m)
A (+30)
BBB (+155)

CDOs (Lehman)
* Desk was able to short 100m notional on the week
* Sold one cash "A" and bought protection from two different counterparties @ the
"AA" and "A" level.
* Flows largely from hedge funds and fast money desks covering short risk positions -
we still have not seen a lot of new longs in the market
* First time in 61 weeks we have seen decent trading activity
* Market continues to be dislocated with few dealers making markets and nobody looking
to get long risks

GOLDMAN SACHS REPORTS RECORD
EARNINGS PER COMMON SHARE OF $24.73 FOR 2007
FOURTH QUARTER EARNINGS PER COMMON SHARE WERE $7.61

NEW YORK, December 18, 2007 - The Goldman Sachs Group, Inc. (NYSE: GS) today reported
net revenues of $46.99 billion and net earnings of $11.60 billion for the year ended November 30,
2007. Diluted earnings per common share were $24.73, an increase of 26% compared with $19.69
for the year ended November 24, 2006. Return on average tangible common shareholders'
equity (ROTE) was 38.2% and return on average common shareholders' equity (ROE) was
32.7% for 2007.

Fourth quarter net revenues were $10.74 billion and net earnings were $3.22 billion. Diluted
earnings per common share were $7.61 compared with $5.69 for the same 2006 quarter and $6.13
for the third quarter of 2007. Annualized ROTE (1) was 40.1% and annualized ROE was 34.6% for
the fourth quarter of 2007.

Annual Business Highlights

- Goldman Sachs achieved record net revenues, net earnings and diluted earnings per common
share in 2007.
- Book value per common share increased 25% to $90.43 in 2007. The firm repurchased
41.2 million shares of its common stock for a total cost of $6.96 billion.
- The firm produced record results in the Americas, Europe and Asia, and derived over one-half
of its pre-tax earnings outside of the Americas.
- Investment Banking produced net revenues of $7.56 billion, 34% higher than the previous
record set in 2006. The firm ranked first in worldwide announced mergers and acquisitions. (8)
- Fixed Income, Currency and Commodities (FICC) generated net revenues of $16.17 billion,
13% higher than the previous record set in 2006, reflecting strong performance in all major
businesses.
- Equities produced net revenues of $11.35 billion, 32% above the previous record set in 2006.
- Principal Investments achieved net revenues of $3.76 billion, reflecting record in both
corporate and real estate investing.
- Asset Management generated record net revenues of $4.49 billion, as assets under
management increased $192 billion, or 26%, to $868 billion. Net inflows were $161 billion in
2007.
- Securities Services achieved record net revenues of $2.72 billion.

"The talent of our people and our focus on teamwork were at the core of our ability to support our
clients while delivering strong returns for our shareholders," said Lloyd C. Blankfein, Chairman and
Chief Executive Officer. "Inherent in our commitment to our clients is the need to help them
execute their transactions in all market conditions and, as a result, we are ever mindful of the
importance of effective risk management. Looking forward, we continue to see significant growth
opportunities across the global economy."

Footnote Exhibits - Page 5895
Net Revenues

Investment Banking

Full Year
Net revenues in Investment Banking were $7.56 billion for the year, 34% higher than 2006. Net revenues in Financial Advisory were $4.22 billion, 64% higher than 2006, primarily reflecting growth in industry-wide completed mergers and acquisitions. Net revenues in the firm’s Underwriting business were $3.30 billion, 9% higher than 2006, due to higher net revenues in debt underwriting, primarily reflecting strength in leveraged finance during the first half of the year. Net revenues in equity underwriting were also strong, but essentially unchanged from 2006.

Fourth Quarter
Net revenues in Investment Banking were $1.97 billion, 47% higher than the fourth quarter of 2006 and 8% lower than a particularly strong third quarter of 2007. Net revenues in Financial Advisory were $1.24 billion, 98% higher than the fourth quarter of 2006, reflecting increased client activity. Net revenues in the firm’s Underwriting business were $735 million, essentially unchanged from the fourth quarter of 2006. Net revenues in equity underwriting were higher, primarily reflecting an increase in initial public offerings. Results in debt underwriting were lower, primarily due to a decrease in leveraged finance and mortgage-related activity, reflecting challenging market conditions, partially offset by an increase in investment-grade activity.

The firm’s investment banking transaction backlog decreased during the quarter, but was higher than at the end of 2006.  

Trading and Principal Investments

Full Year
Net revenues in Trading and Principal Investments were $31.23 billion for the year, 22% higher than 2006.

Net revenues in FICC were $16.17 billion for the year, 13% higher than 2006, reflecting significantly higher net revenues in currencies and interest rate products. In addition, net revenues in mortgages were higher despite a significant deterioration in the mortgage market throughout the year, while net revenues in credit products were strong, but slightly lower compared with the prior year. Credit products included substantial gains from equity investments, including a gain of approximately $800 million related to the disposition of Horizon Wind Energy, LLC, as well as a loss of approximately $1 billion, net of hedges, related to non-investment-grade credit origination activities. Net revenues in commodities were also strong but lower compared with 2006. During 2007, FICC operated in an environment generally characterized by strong customer-driven activity and favorable market opportunities. However, during the year, the mortgage market experienced significant deterioration and, in the second half of the year, the broader credit markets were characterized by wider spreads and reduced levels of liquidity.

Net revenues in Equities were $11.30 billion for the year, 33% higher than 2006, reflecting significantly higher net revenues in both the firm’s customer-facing businesses and principal strategies. The customer-facing businesses benefited from significantly higher commission volumes. During 2007, Equities operated in an environment characterized by strong customer-driven activity, generally higher equity prices and higher levels of volatility, particularly during the second half of the year.
