WASHINGTON : 2011
FOOTNOTE LOCATOR LIST and BATES LOCATOR LIST

The following two lists, Footnote Locator List starting below, and the following Bates Locator List, reference documents referred to in the Report’s footnotes. Footnotes which are not contained in either list are explanatory, reference Subcommittee interviews for which records are not available to the public, or reference a widely available public document.

Many documents are referenced in multiple footnotes. To locate a document by footnote number refer to the Footnote Locator List, using the first footnote in which the document is referenced. To locate a document by bates number, refer to the Bates Locator List. Both lists then provide the page number where the document can be found. That page number appears in the top right-hand corner of the Footnote Exhibits.

Footnote Locator List.

Subject: RE: Cash bonds

Arbind - ABS cash bond durations are from INTX. So as long as the cash bonds are marked appropriately the spreads and durations should get reflected accordingly.
I will also watch the jobs closely tonight. Thanks.

Subject: Cash bonds

Kevin
Given the huge changes in marks today, we expect Mortgage Trading VaR to shoot through the roof if we do not reflect mark/spread changes correctly on the cash ABS and CDO bonds in the cash feed limits. Please let us know if we perceive this to be a major problem tomorrow.
Thanks,
Arbind

Subject: RE: Problem

We are in an absolute war - been that way for awhile. We probably should have taken more time to put through the CDO market remark and check it/Elle it all the way through. But we pushed it because of basis and a desire to protect ourselves against counter-parties.

Subject: RE: Problem

Slightly more color around Dan's message below:

There are two standard ways in which ABS CDO positions are currently marked. Either its a cash bond, and the traders mark the price in N3, or it's a CDS, and the traders mark the CDS CDO price in SecDB. The system booking issue we're experiencing is because Hunt Bay was booked using a different mechanism from either of these two ways.

Trade 81: When the Hunt Bay query tranche was sold, ABS brought back the risk in total return swap form. The trade was booked using a 3rd approach which is not widely used by the secondary desk. This approach was to create an underlying CDS-style credit market to support Hunt Bay Note, and to then bank a genetic TRS against that market in SecDB.

Trade 82: GS then did another trade, which was to buy protection on the top 2/3 of the mezzanine tranche, further trancheing the position. This 3rd-order tranche trade was booked using the ABACUS tradeable, which applies a SecDB-based model to an underlying. The underlying was specified as a CDS CDO (rather than the TRS actually used to back Hunt Bay Note). So this means we now have two things in SecDB representing the same total return swap -- (a) a standard CDS CDO which the desk marked as part of it's usual swap, which informed the model-based value of the protection purchase, and (b) a credit market to back the TPS.

When CDS CDOs (but not the TPS) were re-marked in last week's sweep, no noise was created as Trade 82's value changed, but Trade 81's was not.

Our CDO trading team is. This week has had significant moves in CDOs, especially super-seniors, and activity has been crazy. We missed this position, and the form it's in and the systems issues we have made it challenging. We're working hard to trade in this market and manage the position - and the team had a very good week. That doesn't mean this error is acceptable, but we found it within a few days of the massive adjustment. We are working to make the system better.

It's a 1.2 billion dollar position; is that correct? How have we been marking AIG? Both controllers and the desk hadn't looked at it all month? Wouldn't there be a report of large positions where marks hadn't changed. Where's the book after it?

------ Original Message ------
From: Speaks, Daniel L
To: Muller, Donald; Montag, Tom; Lee, Brian-J (FI Controllers); McMahon, Bill; Wiesel, Eslinger; Smith, Sarah
Cc: Vasek, David; Cohn, Gary (ED 6530)
Subject: Question

One large synthetic position has not been marked since last month and has not been flowing through the position system, and the problem is large with the dramatic remark we made this week to CDOs. The trading team scrubbed everything this weekend with controllers and asset, and found this - not May 1 super senior (roughly $1.25B of a CDO of AA-1/sh paper done in March 2006 and without much CDO3). It's funded with another counterparty, and AIG wrote credit protection on the top 65%. We have the remaining 35% credit (sk), and a mark of 25 points needs to go through. There are various causes of our mistake (none good), but the form of the trade had a lot to do with it.

That's about $100m loss that we need to take.

The team has gone through everything elsewhere and does not feel there is anything else like this not feeding through, although there is a $50m senior pic swap the needs to be better analyzed in light of the market.

We can either put it in the estimate Monday, or put it in Friday as a large variance.

I'd rather I posted you live, but I just got the information and wanted to post this group quickly with month-end.

I'm around tonight 103-972-1346 or in the morning 2-2914.

Subject: RE: Problem

He's overseeing quotes, correlation and ido's. There are responsible line people in each. There is a systems issue in how this was evaluated that when corrected will prevent this. We made massive mark adjustments this week, pushed them through because of basis and counterparty exposure, and probably should have waited to work through everything.

Cc: Sarno, Daniel L  
Subject: RE: Talking Points Needed for Gary Cohn  
Attachments: PME speaking notes July 2007 for Gary Cohn.doc  

Talking Points posted below and attached... pls review  

Marketer Commentary  
- Subprime mortgage market continues to be dislocated and illiquid  
- Spreads tightened from March-May for technical reasons (supply & demand)  
- Increases in delinquencies, slower prepayment speeds and interest rate rising continued to weigh on the market in the face of weaker housing prices  
- RBSAM & other hedge fund managers (most recently Bear Stearns) announced they were halting fund redemptions and/or liquidating holdings, with some likely to fail  
- Rating agencies announced a series of downgrades and/or securities placed on negative watch. Agencies also adopted significant changes in rating and surveillance methodologies using more default loss assumptions which will result in more aggressive downgrades on existing deals and require greater credit enhancement on new deals  
- ABX prices dropped dramatically in reaction with new issue residential and CDO prices following suit. At Dec 31, 2006, ABX 06-2 BBB- synthetic tranche was trading at $0.1, it bottomed at $0.14 on July 13, 2007  
-  
Subprime loan & securitization commentary:  
- Industry wide, subprime loan origination is down 40% in 2007 and headed lower  
- 7 of the top 10 subprime lenders in 2006 are either out of business or have changed ownership  
- Subprime loan pools began to stabilize in the mid-2003 in late May and early June as dealers bid more aggressively to fund inventory into their securitization platforms but have since fallen more than a point in the face of worse fundamentals  
- Spread volatility increased, loans and new issue pricing has come under pressure with dealers having particular difficulty pricing lower rated securities  
- Goldman’s subprime loan purchase was less than $500m for April and May, but in June we were successful in bidding on a $750m subprime loan package from HSBC (secured loans (50% production) with some NPO embedded and strong payment histories)  
- Loans in mid-2006 were bought at 0.25% of face value, but now are priced higher and in the face of worse fundamentals  
- Bigger players are taking larger write-downs as more losses are recognized  
- More stringent due diligence procedures resulted in lower pull-through rates, reduced market share and pushback from originators, but results are difficult to argue against  
- CDO securitization market is coming to a standstill, GS has zero in warehouse  
- Non-prime loan inventory is currently at $3bn, drawn down from $12bn at fiscal year-end  
- Warehouse secured lending in this space has been reduced from just under $1bn as fiscal year-end to $500m currently

Subject: Talking Points Needed for Gary Cohen

All,
Lloyd has asked Gary to provide a 5-minute update on credit markets at the Monthly Partner Meeting this Tuesday, July 17th.
Would you be able to provide talking points for Gary? I would be grateful if you might be able to forward to me as soon as possible.
(Gary is traveling to Asia.)
Sorry for the last-minute request; this was just put on the agenda.
Best,
Eileen

Subject: Mortgage Derivative Collateral Disputes - 7/31 Update (COB 7/27 marks)

Over the past week the market has experienced continued volatility. As a result, there were a significant number of mark updates. The overall derivative collateral dispute amount is now $7.0 billion.

The following reflects a high level reconciliation from our last update:

<table>
<thead>
<tr>
<th>Date/Amount (in billions)</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>7/24</td>
<td>Previous total derivative dispute level on</td>
</tr>
<tr>
<td>GS calls</td>
<td>3.0</td>
</tr>
<tr>
<td>(0.5)</td>
<td>Resolved disputes</td>
</tr>
<tr>
<td>1.2</td>
<td>New disputes</td>
</tr>
<tr>
<td>3.7</td>
<td>Net increase in previous disputes</td>
</tr>
<tr>
<td>7/31</td>
<td>Current total derivative dispute level on</td>
</tr>
<tr>
<td>GS calls</td>
<td>7.0</td>
</tr>
</tbody>
</table>

The following table represents the 10 largest disputes and their respective increases/decreases since our last update. All numbers are in millions.

<table>
<thead>
<tr>
<th>Risk Party</th>
<th>Current Dispute Inc./Dec.</th>
<th>1/Q2 2007</th>
</tr>
</thead>
<tbody>
<tr>
<td>AIG FINANCIAL PRODUCTS CORP</td>
<td>-</td>
<td>1,891</td>
</tr>
<tr>
<td>CANADIAN IMPERIAL BANK OF COMMERCE</td>
<td>-</td>
<td>1,877</td>
</tr>
<tr>
<td>CALVIN...</td>
<td>-</td>
<td>136</td>
</tr>
<tr>
<td>USAA...</td>
<td>-</td>
<td>118</td>
</tr>
<tr>
<td>MORGAN STANLEY CAPITAL SERVICES INC</td>
<td>-</td>
<td>136</td>
</tr>
<tr>
<td>KIEH CORPORATE &amp; INVESTMENT BANK</td>
<td>-</td>
<td>215</td>
</tr>
<tr>
<td>DEUTSCHE BANK ANTI-SIEGBUSCH...</td>
<td>-</td>
<td>156</td>
</tr>
<tr>
<td>BAR KU BOEKE N.V....</td>
<td>-</td>
<td>494</td>
</tr>
<tr>
<td>SOCIETE GENERALE...</td>
<td>-</td>
<td>686</td>
</tr>
<tr>
<td>CITIBANK, N.A....</td>
<td>-</td>
<td>4,265</td>
</tr>
</tbody>
</table>

The table is focused on all of these. The bulk of the disputes have detailed...
reconciliations as of COB 7/27 and we are in the process of reaching out to each of the counterparties.

We will update this distribution as we make progress.

If there are any questions, please contact me directly.

Subject: Re: Repo

There are a few positions where repo either feels a put was agreed to or the department actually has agreed to it. Whether we do it or money makes does it - the firm still has it and we need to be diligent on marks and haircut. We also finance people in the warehouse business - notably basis and chase who we have been margin calling (appropriately!) a fair amount lately.

For very important trades, we should consider it. Kevin, can you circulate the list of bonds to this group.

Also, sales is making significant noise about go notable conservations in marking and haircut.

Subject: Repo

Yesterday we asked the repo desk to finance a CDO position that we were looking to sell to a client. While the trade with the client did not happen, the repo desk would have wanted
the mortgage department to write a "put" on the CDO bonds where we would own the bonds & the mark price minus the haircut in the event the bonds went south and the risk was put back to GS.

I know this issue has come up in the past but we should discuss.

Subject: RE: Mark to market prices

After much discussion internally, we will improve our bid to 98-30 given the market color we have observed in the past two days. The markdown was mostly a reaction to the rating agency downgrade and partly reflected the illiquidity of the position, but upon further analysis we have gotten more comfortable with the bid position and agree it should be marked at a higher price. However, we reserve the right to revisit the valuation for month-end upon the full release of the May trustee report.

GS MIBS-E-01106400

Report Footnote #2164
Pls see below request from BOC HK. We understand it a tough time for ABS trading, but as BOC HK is one of the key supporter of our ABS new business in the past, especially it bought second lien stuff mainly from GS with the belief that we have best credit management in this area, can we try our best to show "better" indicative prices for them? As u can see in the msg below, client is under pressure of being questioned that they bought something looks really bad. I think we are not asking off the market price for them, but for a AAA bond with half year ABS, we showed a prism of LREN 06 A 1 at US $500. It turns to be a spread of 1025 at 25 npr, this is something hard for client to believe... It's a hard time for both ABS investors and trading desk now, but for reputation and long run business relationship, we would like you to take the request seriously. We need them to think of GS as the best firm, and we need them to be our best client when next big boom comes... Once again, we understand that market risk is always the key issue for trading desk, but Pls try to do something possible to make sure clients won't disappointed on us when comparing us with our competitors. We discussed with Jay Lee and Omar on this, and also shared the key points with client this morning, seems client is still unhappy with our explanation... We would highly appreciate if a slightly aggressive price can be showed from trading desk. At least we can tell client that we tried our best we can for them in current market circumstance. Thanks us and pls let us know how we can solve this more constructively...

Subject: RE: Tokyo Star

If we have not traded TWolf or PTPLS recently (which we have not ...), I think it makes the most sense for us to speak to the underlying portfolio moves. We have seen several "A" CDOs which hold either deals trade since the past month.

I think it is important to point out that while our prices are actionable levels where they can buy/sell a specific amount if risk, other dealers do not price that way. In fact, we have been told by other accounts that other dealers' prices are not even indicative of the market.

We cannot put this on paper - it concerns me that they want something specifically in writing.

Subject: RE: Tokyo Star

Hm. If we have trade spots to point to, that's probably fine. However, if we just say 'it's the market price, here's our bid for protection, step up or clam up,' that will lead to a response along this vein:

1) Assuming Twolf itself hasn't traded recently and there are no markets on the security itself, what is the latest CDO+2 price? If there are, 2) What characteristics do we focus on when comparing Twolf to the more transparent bond (e.g., the number of underlying CDOs that have "flight triggers", the number of underlying CDOs that are on downgrades, etc.); and 3) Why do the other dealers all have higher marks on their CDO+2 if it's something as simple as "market price"?

Permanent Subcommittee on Investigations
Wall Street & The Financial Crisis
Report Footnote #2165

Footnote Exhibits - Page 4122

Will they share w/us the written material given to them by the other banks?

What about the marks?

FYI, Tokyo Star Bank continues to put a lot of pressure on us for something written on pricing methodology. They say they need something by Tuesday NYC COB, because they have a meeting on Wednesday morning with management.

We have made it clear that we cannot provide anything specifically related to Timberwolf or Point Pleasant, and that we can only provide methodology in general terms. We offered a conference call where we have the freedom to discuss the marks more specifically, but they insist that they need something written to show to their management when they provide their marks. They also say that other dealers have already sent information on their pricing methodology, and their marks are higher despite lower ratings.

I talked with Mr. Lee today.

I proposed conference call with NY traders tomorrow morning but he denied and said they need our answer in writing first.

Tokyo Star will have their internal meeting with management side on this Wednesday, so pls push NY traders and compliance so that we can send it on Wednesday morning Tokyo time.

FYI, other dealers have already sent their pricing methods and MTMs.

Basically the prices were higher than ours even though the ratings are AA. That is why they need our pricing method information as soon as possible.

I totally understand that this request is special and difficult for us to answer quickly but pls do your best.

Regards,

Koji Wada

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001912410
New York, November 20. The US structured finance markets remained in a state of quasi-paralysis with minimal liquidity and poor sentiment. The jitters of market participants was escalated by a report from Goldman Sachs analysts predicting that the mortgage markets crisis is likely to drag on and will have serious implications for a significant number of financial institutions.

"Write-downs and losses will continue to mount, fueling negative investor sentiment and keeping (equity) valuations under pressure," said William Tauro, Len Applebaum and other GS analysts in a report to their clients. "Sovereign components will have to raise capital, others will have to preserve capital, and management will need to repair some seriously damaged balance sheets.

Citing the problems of the residential mortgage market and RMBS CDOs, Goldman downgraded Citigroup to "sell" and recommended that investors avoid mortgage insurers and financial guarantors. The GS research team estimated that industry-wide losses reflecting marking-down of whole subprime mortgage CDO's will approach $900 billion; reflecting $871 billion of writedowns by financial firms for 2007 Q4, $76.5 billion in Q1 and a remaining balance of $9.174 billion in additional losses based on evaluations of current market prices.

The analysis assumes $224.8 billion of subprime mortgage CDO exposure across the universe of financial institutions: $214.8 billion for US broker-dealers, $40 billion for financial guarantors, $35.5 billion for REITs insurers, $2.3 billion of US banks, $1.05 billion of other insurers and $0.05 billion of other insurers.

"The patient remains in the hospital," quipped a portfolio manager for a major buy-side shop. Asked by the markets if the ABS CDO sector will be able to rebound, he said: "Sorry to say that the CDO market is dead." The ABS indices faded lower as market participants worried that the negative impact of the subprime debacle will be widespread. The closely followed Lehman's 30-day repo (LIBOR - 30 bp) from 8.64% to 8.77% on July 27. The [ABX 05-9 "BBB-" 2.45] declined 10.97/120 to 81-7/8. Meanwhile, the [LDCX-3] leveraged loan index was down 0.375 to 395.65, raising the yield by 116 bp to 356.11. (John Nash)

We are buying $6.5mm 1yr CDS protection on ACA Financial Guaranty Corp, monoline supplement, at 1.46bps.
Thanks to Paul Mutter for the trade. This leaves us with $2.7mm of 3yr ACA CDS exposure following the large ABA/ACUS 07-A1 trade we executed last month.

Can you send me the list of names that gets you to 35%?

Sugi - Verbal only for now. We need to check with compliance tomorrow morning if they really want the spreadsheet.

T-Wolf actually has closer to 35% exposure to the list of CDOs in the SP Report. P. Pleasant has around 21%. Please see the attached spreadsheets. Do not forward externally.

Can you provide the lists of CDOs (19% of Point Pleasant and 25% of Timberwolf mentioned below)?

Confidential Treatment Requested by Golst
George,

Below are some taking points for you related to today's price movements for Bids. Please note that the price moves sent to Bids (and the notes below) reflect the S&P actions that were announced this morning, but did not take into account the Moody's actions that were announced very late in the day here. We are still in the process of working through the Moody's actions.

Point Pleasant
- 19% of the total portfolio was listed in the attached S&P paper as having "material exposure" to the 612 RMBS that S&P placed on negative credit watch today (and stated on a conference call that they would be downgraded within days). If a portion of the assets with material exposure PIK (due to OC tests failing in the underlying CDO from the RMBS downgrades and resulting OC haircuts), the Point Pleasant BBBs will be cut off from cashflow.

Timberwolf
- Approximately 25% of the total portfolio was listed in the attached S&P paper as having "material exposure" to the 612 RMBS that S&P placed on negative credit watch today (and stated on a conference call that they would be downgraded within days).

Fort Denacon
- 17 RMBS assets (21% of the overall portfolio and 43% of the total RMBS component of the portfolio) were placed on negative credit watch today. In addition, 10 CDO assets (10% of the overall portfolio and 20% of the total CDO component of the portfolio) were on the list in the S&P paper. Asset downgrades in the Fort Denacon portfolio cause a diversion of all principal proceeds and a portion of interest proceeds away from the equity to amortize down the Class C Loan. Depending on the amount of principal amortization on the asset portfolio in each period, this will cause an overall reduction of principal payments to the Fort Denacon equity by 45-60%. Additionally, some Class D assets in the portfolio PIK (due to OC tests failing in the underlying CDOs from to the RMBS downgrades and resulting OC haircuts), that will cause additional reduction in payments that will be borne by the equity.

This deal was number 1 in the universe of CDO's that were downgraded by Moody's and S&P. 99.99% of the underlying assets were downgraded.

***INTERNAL ONLY***

ABACUS 2007-A01 - 2bn synthetic RMBS CDO

OVERVIEW
- Static portfolio consisting entirely of "AAA"-rated midprime/subprime RMBS
- ACA is one of the largest and most experienced CDO managers in the world (see Overview of ACA below)
- Goldman's market-leading ABACUS program currently has $5.1bn in outstanding CLNs with strong secondary trading desk support

RELATIVE VALUE
- Reference Portfolio more conservative (360 WAPF) than traditional <= ABS CDOs (450-500 WAPF)
- Capital Structure less aggressive than traditional <= ABS CDOs (see comp below)
- Attractive spreads relative to <= ABS CDOs currently in the market (see comp below)

PORTFOLIO
- Granular portfolio of 90 equally-sized reference obligations selected by ACA
- Static reference portfolio fully-identified, with no reinvestment, resecuritizations, substitutions or discretionary trading
- 100% Real Moody's-rated subprime/midprime (360 Moody's WAPF)
- Diversified across 30 issuers and 24 servicers

STRUCTURE
- Tranches offered across the entire capital structure
- No IO/OC tests: ABACUS notes will be uncollateralized and non-terminable
- Sequential Principal Paydown Sequence: no subordination is leaked to residual tranches under any circumstance
- No upfront structuring fees
- Investors will not bear WAC and/or available funds cap risk
- Projected 4- to 5- year issuance MRA at the reference portfolio pricing speed
- Tranches available in unfunded CDS format as well as in CLN format (in all major currencies)

OVERVIEW OF ACA MANAGEMENT LLC
- One of the largest CDO managers in the world
- Currently manages approximately $14bn in collateral assets across 22 CDOs
- No rated notes in any ACA's CDOs have ever been downgraded
- ACA team consists of 30 dedicated credit and portfolio management professionals with an average 11 years of relevant experience
- Portfolio Selection Pay structure aligns manager's incentive with investors'...

Re: Request for renewal of the existing $1 billion ($500 committed, $500 uncommitted, 1-year, revolving warehouse facility secured by subprime residential mortgage loans for Fremont Investment and Loan

I. Transaction Summary
We are requesting approval for the renewal of the existing $1 billion ($500 committed, $500 uncommitted), 1-year, revolving warehouse facility secured by subprime residential mortgage loans (the "Facility") for a 1-year term for Fremont Investment and Loan ("Fremont"). The current Facility matures February 27, 2008. Fremont is an important relationship for Goldman Sachs ("GS"), and renewing the Facility will enable GS to lock in warehouse revenue and maintain our opportunities for purchasing whole loan packages and securitization mandates through 2006.

II. Economics
GS has generated revenue totaling $7.01 million in 2003 as detailed below. We generated $540,900 in warehouse usage and commitment fees in 2003. GS generated significant ancillary revenue throughout 2003 from 6 whole loans purchases and 5 deal mandates (2005-0 revenue is recognized in 2006). We project increased revenue in 2006 of $9.34 million, attributable to the same warehouse commitment fee and a slightly lower usage fee, 3 securitization mandates (1 lead, 2 Co-Managed) and 3 to 7 whole loan package purchases. We anticipate average warehouse usage to be 5% to 10% in 2006, consistent with the low usage (8% average) throughout 2005.

Great Loren, thanks. Deling triggers may be one way to look at it but early deals are going to be so far from triggering I'd prefer, once we clear thru the emergency list, focusing on DC pattern the first 4 months of a deal.

 Kilii informs us that the data is being loaded today for 06 FM 2 and then a sample can be pulled. Working with Hibiki on NC2 should not be distracting. Assuming the confidentiality agreement was signed, they can work more closely with Clayton. Write off to other vendors at this point. BOtan in next week.

Results of the Digital Risk review will be provided next Tuesday. Over 2,500 loans were reviewed, a significant amount of those are Long Beach and Fremont shorts. Securites from FM1 are being reviewed internally.

Contrary to Clayton's initial review, on average, about 50% of about 200 files look to be repurchase obligations. Tom Winslow is looking at the Long Beach loans that Long Beach rejected repurchase. He is finding fraud that had not initially been alleged. Will forward those a few days to Wold contact.

Looking to develop a comprehensive deal sheet, perhaps based on delinquency triggers to use for prioritization and status tracking. Envision this centralized in Mozilla Group. Let me know if you have any other questions or comments. Thanks

Subject: RE: NC Visit

As you know, we have an extensive re-underwrite review underway on 06 NC2, and also other NC loans in the 07s deals that are in the pipeline for scrutiny. Should we change course at all here given the fact NC can’t pay? Keep in mind, we’re spending ~ $250k/loan for these scrutiny. Please give us some guidance here.

Thanks.

Subject: RE: NC Visit

On-Site Visit

- Very receptive & accommodating to my visit (collection mgmt), in an office with swag & freedom to come & go and meet with department managers.
- Overall feeling I received on-site is “normal servicing environment” – 100+ employees go about their business – decent amount of empty cubicles & offices...
  - Collection mgmt trying to keep employees focused on jobs at hand - met in small groups today to let them ask their questions (most likely not get answers) so they can get back to focusing on collecting.
- Front end collections (FEPD & <31 day dig) –
  - FPD - tenured collectors - overall cure ratio = 87%.
  - All day 17 & no contact - Skip tracing data file out to vendor, Marketing dept contacting brokers for adfl contact info & Door Knocking campaign (NCC) starts
- Delinquency/Collection Rs - received some initial reporting numbers (see below). Meeting w/Default Rating Wed morn to discuss specific write requests

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-02048651
Footnote Exhibits - Page 4138

- Also, going to setup details around special call campaign for our FPDs & EPDs.
- Investor Accting/Rating
- Appears issue with the wires coming to GS are due to delays in moving loans into 07-NC1 inv code - loans did not get moved from GS to 07-NC1 until 3/8/07
- Meeting w/Ing tomorrow afternoon to ensure all loans moved in appropriate investor code for rolling & remitting to Master Servicing going forward.
- Also need to determine how we want to handle the rolling for the Dec/Jul group of loans that transferred to Avelo - normally NC should be responsible for 1st rolling since they were servicing as of 2/28.

Subject: RE: NC Visit

Dear,

I spoke with the EPD/EPD Collection VP & he can run a special campaign on our EPD loans. I know you're still working on a settlement for the Decibels trade but it would be beneficial to run these through. He's going to pull the loans he shows as EPD for GS but he would like to compare to our list. Can you send me the loan list for the Decibels EPD?

I'm also having him include the loans from the Jan/30 trade that tentatively qualify today - they have through Thursday (45 days) to pay.

All,
I'll send an update on other items regarding my visit later tonight.

Thanks.

Erika Larson

Re: Request for renewal of the existing $1 billion ($500 committed, $500 uncommitted), 1-year, revolving warehouse facility secured by subprime residential mortgage loans for Fremont investment & loan.

I. Transaction Summary

We are requesting approval for the renewal of the existing $1 billion ($500 committed, $500 uncommitted), 1-year, revolving warehouse facility secured by subprime residential mortgage loans (the "Facility") for a 1-year term for Fremont Investment & Loan ("Fremont"). The current Facility matures February 26, 2007.

Fremont relies primarily on deposits and advances from Federal Home Loan Bank of San Francisco ("FHLB") to finance its originations. Because these sources offer less costly sources of funds compared to Fremont's existing warehouse facilities, Fremont uses the Facility as backup liquidity and does not expect to draw on the Facility in normal course of business to finance its loan originations. In the past, Fremont has used the Facility in cases where they have sold whole loans to Goldman Sachs Mortgage Company ("GSWMC") by temporarily moving the purchased loans onto the Facility for a week or less prior to settlement of the loan purchase to facilitate the settlement process. In addition, Fremont has also used the Facility to move loans prior to transferring them to a securitization where GS is the lead underwriter. Below is a summary of Fremont's sources of funds as of September 30, 2006.

Capital and Liquidity Capacity (as of 9/30/06)

<table>
<thead>
<tr>

<td>$500 billion</td>
</tr>
</tbody>
</table>

GS MBS-E-001157942
Footnote Exhibits - Page 4142

Fremont is an important relationship for Goldman Sachs ("GS"), and renewing the Facility will enable GS to lock in warehouse revenue and maintain our opportunities for purchasing whole loan packages and securitization mandates through 2007.

II. Current Warehouse Facility Terms

Fremont will report origination volume of $32.6 billion for 2008. Their warehouse terms are below:

- **Annual Commitment Fee**: 10 bps on the committed amount of $500 million ($500K)
- **Advance Rate**: 90% of market value, capped at par (10% haircut is three times our normal level)
- **Wet Funding**: None
- **Subprime**: L + 40 bps
- **Reserve**: Full recourse to Fremont Investment & Loan
- **Mark-to-Market**: GS has ability to mark collateral to market at its sole discretion

III. Economics

GS has generated revenues totaling $13.38 million in 2006 of which $620,000 came in the form of warehouse usage and commitment fees (net below). We project revenue in 2007 of $1.25 million, attributable to the same warehouse commitment fee and usage fee, as well as 3 securitization mandates (1 lead, 2 Co-Managers) and $3.4 billion in whole loan package purchases. We anticipate average warehouse usage to be 5% to 10% in 2007, consistent with the low usage (2.2% average) throughout 2006.

1. Assuming 25% average usage
2. Average usage in 2006 was 0.2%, at a spread of L + 40 bps. Same usage and terms assumed for 2007
3. Projected assuming average 1st lien at $1 billion at $3.4 billion average spread and 12% haircut on 3rd lien with 12% haircut on 3rd lien

IV. Pull-Through Rates

Below is a summary of the pull-through rates for the last three pools GSFS has purchased from Fremont:

<table>
<thead>
<tr>
<th>Pool Name</th>
<th># of pools</th>
<th>Dollar Value (BPP)</th>
<th>Charge on % of Pool</th>
</tr>
</thead>
<tbody>
<tr>
<td>[Details of pools]</td>
<td>[Details of pools]</td>
<td>[Details of pools]</td>
<td>[Details of pools]</td>
</tr>
</tbody>
</table>

Confidential Treatment Requested by Goldman Sachs  GS MBS-E-001157943
Fremont's pull-through rates are within range of other sub-prime originators that we have purchased significant sub-prime pools from in the past 3-6 months. Below are some weighted average pull-through rates for different originators.

<table>
<thead>
<tr>
<th>Originator</th>
<th>Average Pull-Through Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fremont</td>
<td>92%</td>
</tr>
<tr>
<td>Other</td>
<td>87%</td>
</tr>
</tbody>
</table>

To address issues relating to pull-through rates and EPD rates, Fremont has proactively established programs and underwriting guideline changes to enhance the quality of the loans they originate. Some of these changes include:

- Tightening of underwriting criteria, including elimination of 80/20 loans and greater restrictions on first-time homebuyers.
- Fraud training for its underwriters and establishment of an underwriter certification program.
- Implementation of Core Logic's LoanSafe system to help detect fraud.
- Review and identification of brokers with higher default rates.
- Running of AVMs for each loan.
- In-house appraisal review and additional diligence.
- Use of lender price or appraised value for properties owned less than 12 months.
- Greater restrictions on maximum allowable LTV for properties listed for sale for greater than 90 days.

As a result of these changes, Fremont hopes to realize a decreasing level of first payment defaults on its loans portfolio, which will result in lower levels of loan repurchases in 2007.

V. Credit Review

<table>
<thead>
<tr>
<th>Fremont General Corporation Loan</th>
<th>Fremont Investment &amp; Loan Recent Actions</th>
</tr>
</thead>
<tbody>
<tr>
<td>S&amp;P</td>
<td>B-/Stable</td>
</tr>
<tr>
<td>Moody's</td>
<td>B2/Stable</td>
</tr>
<tr>
<td>Fitch</td>
<td>B- / Negative</td>
</tr>
</tbody>
</table>

Key credit strengths include:
- Diversified funding mix. The company has a more diversified funding mix relative to other warehouse borrowers given its access to FDIC-insured deposits and PHLB borrowings. Although jumbo (non-core) deposits comprise a slightly higher proportion of total deposits every year, the total amount of deposit funding has grown year on year and reached $9.6bn as of 09/06 (86% of total funding).
- High levels of capital. Fremont holds substantially more capital against its operations than most peers. Although capital levels have come down in recent periods, as of 09/06, Fremont Investment & Loan had a Tier 1 leverage ratio of 12.69% (normal FDIC requirement for this ratio is 8.0%).
- Regulatory oversight. As an industrial bank Fremont Investment & Loan is regulated by the California Department of Financial Institutions and the FDIC.
- Strong asset quality metrics. On the residential real estate side, interest-only loans declined to 7.6% of production from 25.7% in 09/05 and the 40/30 and 50/30 products were 21% and 20.6% of production respectively in 09/06. This average FICO score of their residential portfolio is 627, which is on the high side for a sub-prime lender.

Key concerns:

Confidential Treatment Requested by Goldman Sachs  GS MBS-E-001157944
Declining profitability. Profitability metrics deteriorated significantly in 2006, return on average assets dropped to 0.87% for 2006, from 3.83% in 2005 and 4.20% in 2004. The company has informed us that they will post a loss of $27.7m in the bank for 4Q2006 (results will be published on Feb 26) due primarily to a reserve build for EPO claims; there will be an additional loss posted on a consolidated basis due to write downs of residual values at the holding company. They have also informed us they expect to post a loss in 1Q07 because of low gain on sale margins. The company is forecasting to be modestly profitable again in 2007 but that is heavily dependent on a rebound in market pricing for loans.

Traditionally high risk lines of business. Fremont operates in two traditionally high risk lines of business: commercial real estate (especially transition properties) and sub-prime residential real estate. Performance in these two business lines is somewhat correlated although the commercial side of the business remains profitable in the current market.

Minor geographic concentration in California and high single borrower concentrations in the CRE portfolio. Although in the past years, commercial real estate loan concentration in California raised concern, portfolio has become more diversified recently with California accounting for 16%, Florida 18%, and New York 12%. Single borrower concentrations still exist as well; however they are somewhat less of a concern as Fremont's capital base has grown 30% since 2004 and over 50% since 2003.

VI. Recommendation

Based on the strong sponsorship, expected future revenues and GS' significant relationship with Fremont, we recommend Mortgage Capital Committee approve the renewal of the Facility.

Subject: RE: ARX wider again today.

I think most hedge funds have been right on this (i.e. they've been short), so it's a
piling on effect that we're seeing rather than a risk unwind. We have reduced our risk by
about 50% over the past week, but it's still at risk. We hate to say our nervousness.
The synthetic CDO seems like a viable takeout here.  The feedback we've received has been positive thus far.
To give you a perspective on relative performance over the past month or so:

--- ARMs -- ARX index 150bp wider
--- BBB- cash sub prime virtually unchanged with deals pricing and selling (similar to
index)
--- BBB- single name sub prime CDS 10 wider --Equities up --CMBS unchanged --Corp credit
tighter

I believe the divergence has been caused by macro hedge funds shorting the index.  A CDO
would enable us to exploit the cheapening in the index vs. cash and single names.

INTRODUCTION
The advent of tranched ABS credit indices represents another milestone for the credit derivatives market. But while the trading of standardized tranches on a portfolio of ABS (exclusively Home Equity securities) provides new strategic opportunities for market participants, the inclusion of these new instruments in ABS CDO portfolios poses certain challenges.

These challenges revolve around the potential degree of overlap in ABS CDO collateral pools that can sharply increase pool-wide correlation. Coupled with the current environment, in which the new ABX-based tranches are trading at extremely wide spreads relative to similarly enhanced ABS CDO tranches, there is a risk that many ABS CDOs will see sharp increases in average pool-wide correlation through the purchase of the standardized ABX tranches in either synthetic or cash (credit-linked note) form.

What Are the New Tranced ABX Index Instruments?
The ABX credit indices were launched in January 2006. Each index includes 20 liquid Home Equity securities issued in the prior six months. The ABX 06-01 index is based on HE securities underwritten during the second half of 2005, the ABX 06-2 index on securities underwritten during the first half of 2006 and the ABX 07-1 index on securities underwritten during the second half of 2006. Unlike corporate credit indices, there is no overlap in underlying instruments between different series as each ABX series is associated with a single vintage.

The first tranched ABX indices ("TABX") began trading on February 14 of this year. At least initially, only the BBB and BBB- ABX sub-indices have been tranched.

The standardized tranches reference the combination of the ABX 06-2 and ABX 07-1 collateral pools, for a total of 40 credits. The attachment/detachment points are set as follows:

<table>

Moody’s Investors Service

Permittee Subcommittee on Investigations
Wall Street & The Financial Crisis
Report Footnote #2335

March 23, 2007
The Incentive to Include TABX in ABS CDOs

With the recent turmoil in the subprime mortgage market—the prices of the ABX indices have fallen dramatically over the past few months—the new TABX tranches are trading at very wide yields. Given the yields at which the TABX tranches have been priced, CDOStructured and managers may perceive an opportunity to add these tranches to ABS CDO portfolios in order to enhance portfolio-average spreads. The tranches could potentially be added directly to synthetic and hybrid ABS CDOs in credit default swap (CDS) in default swap, or transformed into credit-linked notes for inclusion in cash-flow CDOs.

Moody's View About the Addition of TABX Tranches

So long as they are properly treated, the addition of TABX tranches to ABS CDO portfolios may not raise any concerns.

As with the inclusion of the ABX, our primary concern is with correlation. In the case of the TABX, our immediate focus is on capturing the correlation within the CDO. For example, Moody's wants to make sure that any CLNs that reference TABX are classified as being correlated to one another and to other related single-name or index exposures in the CDO.

The key to capturing intra-CDO correlation is that any TABX exposure be properly identified. In general, collateral managers have wide discretion in classifying instruments that are incorporated into ABS CDO collateral pools. TABX tranches might, for example, simply be classified by the name of the vehicle which issued the CLN. Such a designation would fail to recognize that there could be other CLNs from other tranches which reference the same risk or that the CDO's portfolio could already be exposed to the names in the TABX, either through single-name CDS or through direct exposure to the ABX.

Given the novelty of TABX, neither existing CDO indentures, nor Moody's CODOROM software that is used to model ABS CDO asset correlations, provides for a TABX category to address Moody's concerns on correlation. Thus even the most conscientious CDO investor may not have an existing mechanism to accurately characterize the correlations associated with TABX tranches.

Treatment in CDOs

In light of the potentially significant correlation impact of adding TABX tranches to ABS CDO collateral pools, Moody's will review such proposals on a case-by-case basis. The review will ensure that an appropriate set of asset correlation (e.g., 100% for TABX tranches based on the same collateral pool) is reflected in CODOROM. Therefore, Moody's asks that CDOs and other rated vehicles that wish to offer protection on the TABX either through a CLN or swap first come to Moody's to discuss the appropriate treatment within the CDO.

In the months ahead, we anticipate that we will modify CODOROM in order to facilitate the appropriate correlation treatment for TABX tranches. Until that time, we propose the following guidelines for existing and recent CDOs:

1. The aggregate exposure of the CDO to the TABX and the ABX should not exceed 3% for High Grade deals and 5% for Mezzanine deals. Additionally, the exposure to any vintage should not exceed 2%.

2. To measure the correlation within the purchasing CDO:
   a. The TABX may be entered into CODOROM as a bespoke CDO (i.e., using a look-through approach in which each underlying HE tranche is entered into CODOROM individually) if such a CDO has the ability to add bespoke CDOs, or
   b. All products related to the ABX (TABX CLNs and swaps, ABX, single name CDS referenced in the various ABX) should use the term “ABX” in the “Transaction Name” field in CODOROM. (The issue date and the Key Agent fields may have to adjust to a single value in order for the CODOROM to function properly)

3. All other indenture restrictions/rules, such as the discount purchase rules, must apply.
Footnote Exhibits - Page 4179

Inter-CDO Correlations
In addition to intra-CDO correlations, Moody’s is also concerned about the impact of the ABX and TABX on correlations between ABS CDOs (e.g., in a CDO squared or the CDO basket of an ABS CDO). The asset correlations assumed in CDOROM between ABS CDOs were developed using the data that was available at the time we performed the original correlation analysis—i.e., based on transactions backed by cash collateral, which is not easily replicated across deals. More recently, with the growth of synthetics in ABS CDOs, it has become easier for multiple deals to have exposure to the same reference obligation. With the popularity of the ABX index, it comes as no surprise that Moody’s has found that many recent transactions have exposure to the ABX in both index and single name form. Essentially, this means that inter-CDO correlations are increasing.

While intra-CDO correlation concerns can be treated using a look-through approach as mentioned earlier, addressing correlations between ABS CDOs is more difficult. When an ABS CDO contains both ABS-related positions as well as tranches of other actively managed CDOs, it is difficult to perform a look-through analysis on an ongoing basis because of the dynamic nature of each underlying CDO’s portfolio. Moody’s is currently undergoing a research project to study the overlaps in ABS CDOs and will adjust our ABS CDO correlations accordingly. Until the research project is completed, Moody’s may consider look-through correlations for ABS CDOs in the initial rating process.

CONCLUSION
Moody’s believes that the proliferation of standardized index products may increase the correlation within and between CDOs. Because the models currently used by Moody’s do not contemplate products such as the ABX and TABX that may be infinitely replicated, we will shortly introduce refinements to our correlation framework and will solicit market comment on the proposal.

Subject: RE: AIG FF AXB basis trade

Debb/Mike: do you guys have any thought on this? I would like to be able to get back to AIG FF first thing Monday morning if possible. I think offering this trade at 1/2 point makes sense (can't imagine people would do a lot of work/ar through this brain damage for less than that) and just as an FYI, color from Andy Forster at AIG FF is the following (email that Will forwarded to me on Friday, coming from Andy Forster and I quote):

"I think this is the basic version where you pay us like 50bps. The issue though is that this has some real risk and I want to understand what the risks are. For example I think some bunds can step up but the index does not? Also the single names all trade at different spreads so if a high spread name defaults we lose more in income than we stop paying on the index etc etc. also something about delivery with the index only allowing one method?"

Subject: AIG FF AXB basis trade

See attached the trade we could show to AIG FF to close the Hudson Merz account. This account is long AIG and short single-name CSO. On a running basis, the account is net positive carry by 3bps -- however when looking closely at the combination of trades, the account is positive carry on 06-1 index and negative carry on 06-2 index. Question is at what price do we sell this position to remove the MMM vol risk of that account, as well as the basis risk -- the basis risks are the following:

-- positive basis: the single-name CSOs are cancellable individually by the protection buyer at the stop-up date
-- negative/positive basis: if 06-1 index amortizes / suffers writedowns faster than 06-2 index, the trade can become negative carry

I am suggesting we offer this trade to AIG at an upfront payment of $600 to have AIG FF take the MMM risk (and we know it is a pretty big risk) as well as the amortisation differential risk (pretty small in my mind).

We are close in talks with our counterparty on the super senior for the A&X CDO. Before we get execution, we need to show them levels on where we expect to lock in asset levels.

So far we have levels from CANS at +112.

On ARX we want to show 1bp inside mids:
- AX 2006-1 888 @ +137
- AX 2006-1 888-8+125
- AX 2006-1 888 @ +149
- AX 2006-1 888-8 @ +171

For the CDS given spread widening this week, we want to go with +120 for 888 flat and +20 for 888.

Can you confirm we are good on the above levels?

This is key to complete our work today on the Super Senior tranche.

That works
Given even composition between ABX 1 and 2, will get to the same spot from CDO investor’s viewpoint

Darryl we should use the 250 and 245 spread for ABX2 and ABX1 triple-B minus spread
and 145 and 140 for triple-B ABX2 and ABX1 triple-B spreads

We plan to announce Hudson Mezzanine Funding tomorrow in the am for Europe, Asia and the US
I’m circulating around to everyone the CDO portfolio and spreads we will be showing investors and agencies,
based on our agreed upon amounts and levels from last week.
Please let me know if you have questions or comments

Cc: Bremser, Josh; Swenson, Michael  
Subject: RE: Abs

Here are the points for your discussion:

On the ABS Side:

1. Very crowded trade - guys talking their position in the media (ie Grants, NY Post). Could be very violent about covering rally because most of the shorts facing non-market to market vehicles (ie CDOs).

2. Expensive break-evens. Despite the recent sell-off most macro players are at best flat given the carry hurdle.

3. Relative Value - Underperform stocks, and corporate credit by 2 points/6hp in the past 6 weeks. Also, CMBS is 6hp tighter over the same period. The Philadelphia housing index is up approx 10% over this period.

4. Basis - Index to single-name basis is at the wider (ie 4hp at BBB+ level). Index to cash is even more extreme at 7hp. Bids for cash deals remain strong and have barely widened.

5. CDO - we are going to price an innovative full capital structure RMBS CDO deal with 60% of the risk in ABS (no one has done this before). At the current levels we produce equity at levels that are approximately 10% (in return) cheaper than a typical CDO.

6. Property Derivatives - press release tomorrow. More direct way for the macro community to express their negative views on house prices. We expect existing shorts to explore swapping out of ABS shorts into Prop Derivatives.

Natural Buyers of Property Derivatives

1. Pension Funds
2. REITs
3. Insurers
4. CDOs - we are going to create rated CDS-like contracts and do a CDO using these contracts - similar structure to CMBS

Omar, I realize lack of manager may be tough hurdle for them. May be helpful to let Doob and I get on a call with the investor and discuss our asset selection criteria and I can go through asset sale criteria. Let me know if that would be useful.

VERBAL ONLY

If we have not already responded to the inquiry below, the dollar price of the BBBs assuming a spread of 600bps and a DM of 650bps at 56.30.

VERBAL ONLY

What is the approximate discount dollar price that equates to a par value coupon of L+600 on the Class E with a DM of L+607?

Low delta change we have interest from a private bank in Taiwan for this sort of security (though lack of manager is a big issue for them).

VERBAL ONLY

Sure. Here are the details:

Class Size(%) %Deal Holy/Select MAL[y] In/Out OC Guidance

Debb, we’ll take at look there. On adding Alt A, I would suggest an initial bucket of around 10-15 names to start. We could add more later on depending on appetite, but that will be a good start.

Thanks, Darryl

Subject: Ref Obs for Prop CDO

<books.xlsx> Pets/Darryl,
Attached are 60 RMBS Ref Obs and 5 GNMS/CMB CDO ref obs for the CDO we’re discussing. On the RMBS side, we chose 30 Bas1 and 30 Bas2 CMBS evenly split b/w 2005 and 2006 vintage. We can add a few Alt-A names as well. How many of those would you like?

Let us know what else you need.

Hudson Mezzanine Funding 2006-1, LTD.

$2.0 Billion Static Mezzanine Structured Product CDO

Note: The Credit Suisse Ladies A, B, C, D and Oxford Mezzanine Trust were reorganized under the Bankruptcy Act of 2005 in connection with the "business as usual" and are being sold in the United States in a qualified institutional offering ("QIO") in reliance on the exemptions for the reorganization transactions in the bankruptcy act provided by Rule 5-07 as well as qualified purchases in reliance on the Investment Company Act of 1940, as amended. Credit Suisse and Oxford Mezzanine Trust have notified Credit Suisse, in good faith, that the offerings are not covered by paragraphs (c) and (d) of Rule 5-07.
Hudson Mezzanine Funding 2006-1

Transaction Overview

- Hudson CDO program was developed by the CDO Desk in 2006 to create a consistent, programmatic approach to invest in attractive relative value opportunities in the RMBS and structured product market.
  - We successfully launched Hudson High Grade which is in the market now. This is a continuation of this program with mezzanine quality RMBS.

- The CDO is an Alpha Generator / Term Non-recourse with other non-AlixX names. 60% of the portfolio will consist of single name CDOS from the ABX 2006-1 and ABX 2006-2 index to pass through the relative value pickup between the index vs. single name CDOS. Term non-recourse execution of Hudson will lock in the arbitrage for the benefit of debt and equity investors.

- Goldman will buy equity and is long this risk via warehouse: 100% ramped

- This is not a tranched index CDO. CDO will utilize a cashflow waterfall with traditional OVC tests

- Super Seniors are done with one large sophisticated Wall Street CDO buyer

- Focus will be on the BBBs and BBs

  ▶ No CDOs
  ▶ No negative convexity (fixed rate)
  ▶ No BBs

Team, We are planning to begin marketing Hudson Mezz this week.

I have attached the marketing book and term sheet as it currently stands (still updating stress runs)

Would appreciate any feedback/comments you have on this because it discusses the current CIO and more importantly what our deal's strategy is with Hudson program for the future. Be interested in getting everyone's color

I am in the office tomorrow so can talk then or whenever you get a chance can reach me on my cell (946) 528-8258

HYPOTHETICAL ILLUSTRATIONS AND PRO FORMA INFORMATION

These materials contain statements that are not purely historical in nature. These include, among other things, hypothetical illustrations, scenarios or pro forma portfolio allocations or portfolio composition, economic analysis of returns and proposed or pro forma levels of diversification or scope measurement. These hypothetical illustrations or scenarios show a range of potential outcomes based upon certain assumptions. Such hypothetical outcomes are not a prediction by the Issuer, Goldman Sachs or any respective affiliates of the actual performance that can be expected to be realized. Actual results are not predictable and may be entirely different from the outcomes described herein. Actual results may differ from those assumed and such differences may be material.

There are risks associated with the use of these illustrations. Actual results may differ from the hypothetical return calculations or scenarios presented. Actual returns or results will not necessarily be materially lower than those presented. All illustrations included are based on information available on the date hereof, and none of the Issuer, Goldman Sachs or any respective affiliates assume any duty to update any such statement. Some important factors which could cause actual results to differ materially from those in any statements contained herein include the actual composition of the collateral and the price at which such collateral is actually purchased by the Issuer. Any defaults on the collateral, the timing of any defaults and subsequent recoveries, changes in interest rates, and any weakening of the specific credits included in the collateral, among others.

Prior investment results are not indicative of future performance and are not indicative of the future returns on the securities and obligations of the Issuer. Because of portfolio restrictions that apply to the Issuer, there are differences in market conditions, changes in interest rates, and any weakening of the specific credits included in the collateral, among others. The Offering Circular will contain other risk factors, which an investor should also consider in connection with an investment in the securities described herein.

Confidential Treatment Requested by Goldman Sachs

GS MD5:6-013267164
Risk Factors

Note: The Offering Circular will include more substantive descriptions of the risks described herein as well as additional risks relating to, among other things, conflicts of interest. Any decision to invest in the securities described herein should be made after reviewing such Offering Circular, conducting such investigations as the investor deems necessary and consulting the investor's own legal, accounting and tax advisors in order to make an independent determination of the suitability and consequences of an investment in the securities. The Offering Circular will supersede this document in its entirety.

- Limited Liquidity, Restrictions on Transfer and Limited Resource
  - There is currently no market for the Secured Notes or Income Notes and it is unlikely that any secondary market will develop. The Secured Notes and the Income Notes should be viewed as long-term investments, not as a trading vehicle. The value of the Secured Notes and the Income Notes may vary and the Secured Notes and the Income Notes, if sold, may be worth less than their original cost.
  - In addition, as the Secured Notes and the Income Notes will be sold in transactions exempt from SEC registration pursuant to Section 4(2), Rule 144A, and/or Rule S and the Issuer will not be regulated under the Investment Company Act of 1940 pursuant to the Section 3(b)(1) 'Readily Marketable' definition, as well as other restrictions on transfer of the Income Notes will apply.
  - All liabilities are payable solely from the cash flows available from the collateral pledged by the Issuer to secure all classes of Notes. No other assets will be available for payment in the event of any default. The Income Notes represent equity in the Issuer and as such are subordinated to the Secured Notes. The Income Notes are payable from the collateral which represents the only assets of the Issuer only after payment in full of amounts due on the Secured Notes.

- Leveraged Credit Risk
  - The Income Notes are in a first loss position with respect to defaults on the underlying collateral. The leveraged nature of the Income Notes magnifies the adverse impact of any collateral defaults.

- Subordination
  - The Income Notes are subordinated to the Class A Notes, Class B Notes, Class C Notes and Class E Notes and certain payments of expenses. The Class A Notes are subordinated to the Class B, Class C, Class D, and Class E Notes and certain payments of expenses. The Class D Notes are subordinated to the Class A, Class B, Class C, and Class E Notes and certain payments of expenses. The Class E Notes are subordinated to the Class A, Class B, Class C, and Class D Notes and certain payments of expenses. The Class B, Class C, Class D, and Class E Notes are subordinated to the Class A Notes and certain payments of expenses. No distributions of interest proceeds received on the collateral will be made to the Income Notes until interest on the Secured Notes and certain other expenses have been paid. In addition, in the event of a default, holders of the most senior class of Secured Notes will generally be entitled to determine the remedies to be exercised, such remedies could include the sale and the liquidation of the collateral and have an adverse effect on the Income Notes. The Income Notes will not be able to exercise any remedies following an event of default and will not receive payments after an event of default until the Secured Notes are paid in full.

Confidential Treatment Requested by Goldman Sachs

GS NSB E-014876165
Risk Factors

- Volatility of Collateral and Secured Notes and Income Notes Market Value
  - The Income Notes represent a leveraged investment in the Collateral Assets. This use of leverage generally magnifies an issuer's opportunities for gain and risk of loss. Therefore, changes in the market value of the Secured Notes and the Income Notes can be expected to be greater than changes in the market value of the underlying assets included in the collateral, which themselves are subject to credit, liquidity, and, with respect to the fixed rate portion of the portfolio, interest rate risk.
  - Changes in the market value of issuers from one sector or industry may impact the market value of issues from one or more of other sectors or industries included in the collateral.

- Collateral Risk
  - Collateral Assets inherently bear significant credit risks because issuers are primarily private entities.
  - The structure of Collateral Assets and the terms of the issuer's interest in the collateral can vary widely depending on the type of collateral, investor sentiment and the use of credit enhancements.
  - Adverse changes in the financial condition of the collateral obligor or in general economic conditions may adversely affect the obligor's ability to pay principal and interest on its debt.

- Illiquidity of Collateral Assets
  - Some of the Collateral Assets purchased by the Issuer will have no, or only a limited, trading market. This illiquidity may restrict the Issuer's ability to dispose of investments in a timely fashion or for a fair price.
  - Illiquid debt securities may also trade at a discount to comparable, more liquid investments. In addition, the Issuer may invest in privately placed Collateral Assets that are not transferable or are transferable only at prices less than the fair value of the original purchase price of the securities.

- Nature of Collateral
  - The Collateral Assets are subject to credit, liquidity and interest rate risk. In addition, the financial performance of the issuer may be affected by the price and availability of Collateral Assets to be purchased.
  - Some or all of the Collateral Assets may be subordinated securities which may be subject to leveraged credit risk.
  - The ability of the issuer to sell Collateral Assets prior to maturity is subject to certain restrictions and limitations under the indenture.
Risk Factors

- No Collateral Manager
  - The issuer will not engage a Collateral Manager. As a result, (i) the Collateral Assets held by the issuer on the Closing Date will be retained by the issuer even if it would be in the best interests of the issuer and the holders of the Income Notes and Secured Notes to dispose of certain Collateral Assets unless the Collateral Assets are required to be sold by the Liquidation Agent as described in the previous paragraph and (ii) the issuer will utilize the ability of the issuer to exercise discretion in certain actions, including a collateral manager in a managed securitization, to exercise collateral management discretion typically would have discretion to exercise such discretion on behalf of the issuer and the holders of Income Notes and Secured Notes. The inability of the issuer to exercise discretion in these contexts could adversely impact the issuer and the holders of the Income Notes and Secured Notes.

- Timing and Amount of Recoveries
  - Only Collateral Assets that meet the liquidation criteria (see page 12) may be sold. If a Collateral Asset meets the liquidation criteria, the Liquidation Agent is required to sell such affected assets in accordance with the terms of the Liquidation Agency Agreement. There can be no assurance as to the timing of the Liquidation Agent's sale of affected assets, or if there will be any market for such assets or as to the rates of recovery on such affected collateral. The inability to realize immediate recoveries at the recovery levels assumed herein may result in lower cash flows and a lower yield to the Income Notes and Secured Notes as compared to the returns generated using the Modeling Assumptions.

- Impairment of Credit Quality and/or Default on the Collateral
  - Decline in credit quality of the collateral or defaults could result in losses which would adversely affect the Income Notes and Secured Notes. The Collateral Assets are expected to have a Moody’s weighted average rating of at least A3/A-3 at the Closing Date.
  - There may be certain industry or sector concentrations in the CDO, all of which could have a material adverse impact on the Income Notes in the event of economic downturn or other events affecting the credit quality of any of the collateral.
Risk Factors

- Timing of Receipt of Accrued Interest Income
  - While the issuer of accrued interest income may affect the availability of cash which may be distributed to the holders of Secured Notes and Income Notes.

- International Investing
  - Investing outside the U.S. may involve greater risks which may include (1) less publicly available information, (2) varying levels of governmental regulation and supervision, (3) the difficulty of enforcing legal rights in a foreign jurisdiction and uncertainties as to the status, interpretation and application of laws, (4) less stringent accounting standards, (5) different bankruptcy and settlement procedures, (6) economic and political conditions and instability, (7) exchange control and foreign currency risks, (8) taxation and (9) repatriation risk.

- A portion of the Collateral Assets may consist of obligations of an issuer organized under the laws of the Bahamas, Bermuda, the Cayman Islands, the Channel Islands, the Netherlands Antilles or other jurisdictions offering favorable tax treatment.

- Tax Treatment of Income Notes
  - Since the issuer will be a passive foreign investment company, a U.S. person holding Income Notes may be subject to additional taxes unless it elects to treat the issuer as a qualified existing fund and to recognize currently its proportionate share of the issuer’s income. The income notes will be treated as equity for tax purposes.

- Income Notes holders should consult their tax advisors about the special U.S. tax regimes that apply to shareholders of passive foreign investment companies, controlled foreign corporations and foreign personal holding companies.

- Special tax considerations may apply to certain types of investors. Prospective investors should consult their own tax advisors regarding the tax implications of their investments.

- Material Tax Considerations
  - There is a possibility that the issuer will be engaged in a U.S. trade or business. In such a case, it would be subject to substantial U.S. income tax on its income.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-01457169
Risk Factors

- Hypothetical Illustrations and Estimates
  - Estimates of the weighted average lives of the Class A, B, C, D and E Notes and the returns and duration of the income notes included herein, together with any other hypothetical illustrations and estimates provided to prospective purchasers of the Class A, B, C, D and E Notes, are forward-looking statements. See "Hypothetical Illustrations and Pro Forma Information" on disclaimer page in the beginning of this book.
  - The hypothetical illustrations are only estimates. Actual results may vary, and the variations may be material. See "Hypothetical Illustrations and Pro Forma Information" on disclaimer page in the beginning of this book.

- Yield Due to Prepayments
  - The yield to maturity on the Income Notes could be affected by the rate of prepayment of the Collateral Assets. Payments to the Income Notes at a rate slower than the rate anticipated by investors purchasing the Income Notes at a discount will result in an actual yield that is lower than anticipated by such investors. Conversely, payments to the Income Notes at a rate faster than the rate anticipated by investors purchasing the Income Notes at a premium will result in an actual yield that is lower than anticipated by such investors.

- Changes in Tax Laws
  - The Collateral Notes are not permitted to be subject to withholding tax at the time of purchase, unless the issuer thereof is required to make "gross-up" payments. There can be no assurance that, as a result of any change in any applicable law, treaty, rule or regulation or interpretation thereof, the payments on the collateral might not in the future become subject to withholding tax which could adversely affect the amounts that would be available to make payments on the Income Notes and Secured Notes.
  - In case of a Withholding Tax Event (as defined in the Offering Circular), holders of more than 50% of any affected Note may require the issuer to repurchase the collateral on any Payment Date, and redeem the Class A, B, C, D and E Notes, prior to any distributions to holders of Income Notes.
I. Transaction Overview

Note: The information in this section is preliminary and subject to change.
Hudson Mezzanine Funding 2006-1
Transaction Overview

- Hudson CDO program was developed by Goldman Sachs in 2006 to create a consistent, programmatic approach to invest in attractive relative value opportunities in the RMBS and structured product market
  - We successfully launched Hudson High Grade in September. This is a continuation of the program using mezzanine quality RMBS

- Hudson CDOs are non-managed and static in nature and provide term non-recourse funding where Goldman Sachs acts as Liquidation Agent on an ongoing basis

- The portfolio composition of Hudson Mezzanine Funding 2006-1 will consist of 100% CDS on RMBS
  - 60% of the RMBS will be single name CDS on all 40 obligors in ABX 2006-1 and ABX 2006-2
  - 40% of the will consist of single name CDS on 2005 and 2006 vintage RMBS

- ABX Baa2 and Baa3 tranches trade approximately 30bps wider than the single name CDS on the 40 obligors representing the ABX
  - Hudson Funding will capture this basis arbitrage and the single name CDS will be put in at current ABX market levels. Term non-recourse execution of Hudson will look in the arbitrage for the benefit of debt and equity investors

- Goldman Sachs has aligned incentives with the Hudson program by investing in a portion of equity and playing the ongoing role of Liquidation Agent. The Liquidation Agent will be responsible for efficiently selling credit risk assets
Hudson Mezzanine Funding 2006-1, LTD
Transaction Overview

- Super Seniors have been executed with one large, sophisticated Wall Street investor in unfunded form
- This is a typical CASHFLOW CDO with GIC triggers. This is NOT a tranching index CDO
- Goldman Sachs, in the role of Liquidation Agent, will
  - Warehouse assets during the portfolio aggregation phase prior to closing
  - Liquidate any asset within one year after such asset performs below certain threshold levels determined prior to closing
- Goldman Sachs expects to invest in a portion of the Income Notes
- Goldman Sachs' objective is to develop a long-term association with selected partners that can adapt to and take advantage of market opportunities
  - The goal is to create attractive proprietary investments by leveraging expertise of both Goldman Sachs CDO and Mortgage Oeks while maintaining a consistent approach and creating a unified issuance program across multiple transactions

Confidential Treatment Requested by Goldman Sachs
Hudson Mezzanine Funding 2006-1, LTD
Transaction Overview

- Hudson Funding is a "static" mezzanine structured product CDO with the following features:
  - No exposure to reinvestment spread risk or reliance on reinvestment to generate excess interest to
cover debt
  - No fixed rate assets
  - 100% RMBS
  - No assets without an initial rating of at least Baa3 by Moody's or BBB- by S&P. Average WARF in the
    portfolio is expected to be 485
  - Overall transaction cost structure is significantly less than comparable mezzanine structured product
    CDOs in the market

- There will be no reinvestment, substitution, discretionary trading or discretionary sales. After closing, assets
  that are determined to be "credit risk" securities will be sold by the Liquidation Agent within one year of such
determination

- Goldman Sachs will act as Structuring, Placement and Liquidation Agent for Hudson Funding and will
  warehouse the portfolio prior to closing
  - Goldman Sachs will charge 10 bps ongoing fee for its role as Liquidation Agent

- Goldman Sachs' portfolio selection process:
  - Assets sourced from the Street, Hudson Funding is NOT a Balance Sheet CDO
  - Goldman Sachs CDO desk pre-screens and evaluates non A/BX related assets for portfolio suitability
  - Goldman Sachs' CDO desk reviews individual assets in conjunction with respective mortgage trading
deals (Subprime, Midprime, Prime, etc.) and makes decision to add or decline
  - All CDO use rating agency approved confirm (pay as you go)
Hudson Mezzanine Funding 2006-1, LTD
Transaction Overview - Asset Selection / Asset Liquidation

- Portfolio Aggregation Strategy:
  - 60% of portfolio will consist of the 40 obligors in ABX 2006-1 and ABX 2005-2
  - Select only assets rated explicitly Baa3/BBB- (Moody’s / S&P) and above. No notched rating of below Baa3 in the portfolio
  - No Fixed rate assets allowed decreasing interest rate swap basis mismatch
  - Maximum obligor concentration is 1.5% creating a very granular portfolio with 100 distinct obligors
  - Target portfolio with Weighted Average Rating Factor of 455 and duration weighted average spread of 184 bps

- Goldman Sachs, as Liquidation Agent, will liquidate any asset determined to be a "credit risk" asset within 12 months of such determination. "Credit risk" assets will include:
  - Any asset downgraded by Moody’s or S&P to below Baa3 or BB-
  - Any asset that is defaulted or would be experiencing a credit event as defined by the PAUG confirm

- Expected collateral quality statistics at closing
  - WARF: 455
  - Moody’s Asset Correlation (MAC) at closing: 23
  - Duration weighted average portfolio spread: 184 bps
  - Weighted Average Duration: 4.0 years

- LIBOR rates are based on the forward curve as of September 1, 2006.
- The deal's amortizing interest rate swap is put into place on the Closing Date.
- The Closing Date is November 1, 2006, and the first Payment Date on the Class A and B Notes is February 2, 2007 and the first Payment Date on the Class C and D Notes and Income Notes is March 2, 2007.
- The CDO is 100% invested on the Closing Date.
- Collateral average coupon and spread is each period is calculated based on the weighted average expected coupon and spread on each Collateral Asset outstanding during such period.
- Coupon, margin over LIBOR, and fund and floating rate percentages listed above are based on composition of actual warehouse assets as of September 1, 2006.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-014367195
Modeling Assumptions

Assumptions applicable to modeling runs (there can be no assurance that the transacted will reflect these assumptions):

- Expenses are paid at the end of each period at 0.1% per annum of the outstanding collateral balance. Analysis also includes, among other things, structuring fees, surveillance fees, underwriting fees and upfront legal plus other expenses totaling approximately 1% of the total collateral pool payable upfront and 1% of the outstanding collateral pool payable ongoing.
- Absent payments received in COO payment month are paid in that same applicable payment period.
- Any set proceeds and scheduled and unscheduled principal proceed will be used, first, to redeem the Class A Notes until the Class A Notes Target Overcollateralization Ratio is met, second, to redeem the Class B Notes until the Class B Notes Target Overcollateralization Ratio is met, third, to redeem the Class C Notes until the Class C Notes Target Overcollateralization Ratio is met and then will be paid to the Class D Notes.
- Pro rata payments among classes is assumed once the Target Overcollateralization levels are met unless defaults reduce Overcollateralization Ratios below Target Overcollateralization levels or if the collateral balance falls below $450mm.
- After earned interest (including accrued and capitalized Interest) is paid, the Class D Notes receive a scheduled principal payment (the "Class D Authorizing Principal Payment") equal to $70,000 per quarter for the first 12 months and $35,000 per quarter thereafter.
- CLO Test Levels. Class A/B – 101.5% made on the 2nd of each month, and all collateral payments are assumed to be received 7.5 days prior to each payment.
- While held in cash, all interest and principal receipts are assumed to earn a per annum rate of the LIBOR minus 0.25%.
- No trading gains or call premiums are assumed.
- Defaults, if applicable, start 18 months after issuance and default rate is assumed to be a percentage of outstanding collateral, unless otherwise specified.
- Recoveries are assumed immediately upon default at 40% recovery rate.

Potential investors should review the definitive Offering Circular relating to the Notes, including the description of Risk Factors contained in the Offering Circular prior to making a decision to invest in the Notes. The definitive Offering Circular will supersede this document in its entirety.

I have attached the marketing book and term sheet as it currently stands (still updating stress runs)

Would appreciate any feedback/comments you have on this because it discusses the current CDO and more importantly what our desk's strategy is with Hudson program for the future. Be interested in getting everyone's color.

I am in the office tomorrow so can talk then or whenever you get a chance can reach me on my cell [443] 326-9316

Subject:  ABX cdo

I am concerned that the levels we put on the ABX cdo for single-a and triple-bb do not
compare favorably with the single-a off of a ABX 1 - ABX 2 trade.

We need a good story as to why we think the risk is different.
ISDA
International Swap Dealers Association, Inc.

MASTER AGREEMENT

dated as of December 1, 2006

among
GOLDMAN SACHS INTERNATIONAL and HUDSON MEZZANINE FUNDING 2006-1, LTD.

have entered and/or anticipate entering into one or more transactions (each a “Transaction”) that are or will be governed by this Master Agreement, which includes the schedule (the “Schedule”), and the documents and other confirming evidence (each a “Confirmation”) exchanged between the parties confirming those Transactions. Accordingly, the parties agree as follows:

1. Interpretation

(a) Definitions. The terms defined in Section 14 and in the Schedule will have the meanings therein specified for the purpose of this Master Agreement.

(b) Inconsistencies. In the event of any inconsistency between the provisions of the Schedule and the other provisions of this Master Agreement, the Schedule will prevail. In the event of any inconsistency between the provisions of any Confirmation and this Master Agreement (including the Schedule), such Confirmation will prevail for the purpose of the relevant Transaction.

(c) Single Agreement. All Transactions are entered into in reliance on the fact that this Master Agreement and all Confirmations form a single agreement between the parties (collectively referred to as this “Agreement”), and the parties would not otherwise enter into any Transactions.

2. Obligations

(a) General Conditions.

(i) Each party will make each payment or delivery specified in each Confirmation to be made by it subject to the other provisions of this Agreement.

(ii) Payments under this Agreement will be made on the due date for value or on that date in the place of the account specified in the relevant Confirmation or otherwise pursuant to this Agreement, in freely transferable funds in and in the manner customary for payments in the required currency. Where settlement is by delivery (that is, other than by payment), such delivery will be made for receipt on the due date in the manner customary for the relevant obligation unless otherwise specified in the relevant Confirmation or elsewhere in this Agreement.

(iii) Each obligation of each party under Section 20(ii) is subject to (1) the condition precedent that no Event of Default or Potential Event of Default with respect to the other party has occurred and is continuing, (2) the condition precedent that no Early Termination Date in respect of the relevant Transaction has occurred or been effectively designated and (3) each other applicable condition precedent specified in this Agreement.
Footnote Exhibits - Page 4235

(b) Change of Account. Either party may change its account for receiving a payment or delivery by giving notice to the other party at least five Local Business Days prior to the scheduled date for the payment or delivery to which such change applies unless such other party gives timely notice of a reasonable objection to such change;

(c) Netting. If any date amounts would otherwise be payable—

(i) in the same currency; and

(ii) in respect of the same Transaction,

by each party to the other, then, on such date, each party's obligation to make payment of any such amount will be automatically satisfied and discharged and, if the aggregate amount that would otherwise have been payable by one party exceeds the aggregate amount that would otherwise have been payable by the other party, reduced by an obligation upon the party by whom the larger aggregate amount would have been payable to pay in the other party the excess of the larger aggregate amount over the smaller aggregate amount.

The parties may elect in respect of two or more Transactions that a net amount will be determined in respect of all amounts payable on the same date in the same currency in respect of such Transactions, regardless of whether such amounts are payable in respect of the same Transaction. The election may be made in the Schedule or a Confirmation by specifying that subparagraph (ii) above will not apply to the Transactions identified as being subject to the election, together with the starting date (in which case subparagraph (ii) above will not, or will cease to, apply to such Transactions from such date). This election may be made separately for different groups of Transactions and will apply separately to each pairing of Offices through which the parties make and receive payments or deliveries.

(d) Deduction or Withholding for Tax.

(i) Gross-Up. All payments under this Agreement will be made without any deduction or withholding for or on account of any Tax unless such deduction or withholding is required by any applicable law, or modified by the practice of any relevant governmental revenue authority, then in effect. If a party is so required to deduct or withhold, then that party ("X") will—

(1) promptly notify the other party ("Y") of such requirement;

(2) pay to the relevant authorities the full amount required to be deducted or withheld (including the full amount required to be deducted or withheld from any additional amount paid by X to Y under this Section 2(d)) promptly upon the manner of determining that such deduction or withholding is required or receiving notice that such amount has been assessed against Y;

(3) promptly forward to Y an official receipt (or a certified copy), or other documentation reasonably acceptable to Y, evidencing such payment to such authorities; and

(4) if such Tax is an Indemnifiable Tax, pay to Y, in addition to the payment to which Y is otherwise entitled under this Agreement, such additional amount as is necessary to ensure that the net amount actually received by Y (free and clear of Indemnifiable Taxes, whether assessed against X or Y) will equal the full amount Y would have received had no such deduction or withholding been required. However, X will not be required to pay any additional amount to Y to the extent that it would not be required to be paid but for—

(A) the failure by Y to comply with or perform any agreement contained in Section 4(6)(ii), 4(6)(iii) or 4(6); or

(B) the failure of a representation made by Y pursuant to Section 3(7) to be accurate and true unless such failure would not have occurred but for (i) any action taken by a taxing authority, or brought in a court of competent jurisdiction, on or after the date on which a Transaction is entered into (regardless of whether such action is taken or brought with respect to a party to this Agreement) or (ii) a Change in Tax Law.

ISDA 1992

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021622057
Footnote Exhibits - Page 4236

(2) Liability, if —

(1) X is required by any applicable law, as modified by the practice of any relevant governmental revenue authority, to make any deduction or withholding in respect of which X would not be required to pay an additional amount to Y under Section 2(6)(X)(ii);

(2) X does not so deduct or withhold, and

(3) a liability resulting from such Tax is assessed directly against X.

then, except to the extent Y has satisfied or has satisfied the liability resulting from such Tax, Y will promptly pay to X the amount of such liability (including any related liability for interest, but excluding any related liability for penalties only if Y has failed to comply with or perform any agreement contained in Section 4(3)(i), 4(3)(ii) or 4(6).

(e) Default Interest; Other Amounts. Prior to the occurrence or effective designation of an Early Termination Date in respect of the relevant Transaction, a party that defaults in the performance of any payment obligation will, in the case permitted by law and subject to Section 6(c), be required to pay interest (before as well as after judgment) on the overdue amount to the other party or demand in the same currency as such overdue amount, for the period from (and including) the original due date for payment to (but excluding) the date of actual payment, at the Default Rate. Such interest will be calculated on the basis of daily compounding and the actual number of days elapsed. If, prior to the occurrence or effective designation of an Early Termination Date in respect of the relevant Transaction, a party defaults in the performance of any obligation required to be satisfied by delivery, it will compensate the other party on demand if and to the extent provided for in the relevant Confirmation or elsewhere in this Agreement.

3. Representations

Each party represents to the other party (which representations will be deemed to be repeated by each party on each date on which a Transaction is entered into and, in the case of the representations in Section 3(b), at all times until the termination of this Agreement) that—

(3) Basic Representations.

(i) Status. It is duly organized and validly existing under the laws of the jurisdiction of its organization or incorporation and, if relevant under such laws, in good standing;

(ii) Power. It has the power to execute this Agreement and any other document relating to this Agreement to which it is a party, to deliver this Agreement and any other document relating to this Agreement that it is required by this Agreement to deliver and to perform its obligations under this Agreement and any obligations it has under any Credit Support Document to which it is a party and has taken all necessary action to authorize such execution, delivery and performance;

(iii) No Violation or Conflict. Such execution, delivery and performance do not violate or conflict with any law applicable to it, any provision of its constitutional documents, any order or judgment of any court or other agency of government applicable to it or any of its assets or any contractual restriction binding on or affecting it or any of its assets;

(iv) Consents. All governmental and other consents that are required to have been obtained by it with respect to this Agreement or any Credit Support Document to which it is a party have been obtained and are in full force and effect and all conditions of any such consents have been complied with; and

(v) Obligations Binding. Its obligations under this Agreement and any Credit Support Document to which it is a party constitute its legal, valid and binding obligations, enforceable in accordance with their respective terms (subject to applicable bankruptcy, reorganization, insolvency, moratorium or similar laws affecting creditors' rights generally and subject, as to enforceability, to equitable principles of general application (regardless of whether enforcement is sought in a proceeding in equity or at law)).
Footnote Exhibits - Page 4237

(b) Absence of Certain Events. No Event of Default or Potential Event of Default or, to its knowledge, Termination Event with respect to it has occurred and is continuing and no such event or circumstance would occur as a result of it entering into or performing its obligations under this Agreement or any Credit Support Document to which it is a party.

(c) Absence of Litigation. There is not pending or, to its knowledge, threatened against it or any of its Affiliates any action, suit or proceeding at law or in equity or before any court, tribunal, governmental body, agency or official or any arbitrator that is likely to affect the legality, validity or enforceability against it of this Agreement or any Credit Support Document to which it is a party or its ability to perform its obligations under this Agreement or such Credit Support Document.

(d) Accuracy of Specified Information. All applicable information that is furnished in writing by or on behalf of it to the other party and is identified for the purpose of this Section 3(i) of the Schedule is, as of the date of the information, true, accurate and complete in every material respect.

(e) Paper Tax Representation. Each representation specified in the Schedule as being made by it for the purpose of this Section 3(i) is accurate and true.

(f) Paper Tax Representations. Each representation specified in the Schedule as being made by it for the purpose of this Section 3(i) is accurate and true.

4. Agreements

Each party agrees with the other that, so long as either party has or may have any obligation under this Agreement or under any Credit Support Document to which it is a party:

(a) Furnish Specified Information. It will deliver to the other party or, in certain cases under subparagraph (iii) below, to such governmental taxing authority as the other party reasonably directs:

(i) any forms, documents or certificates relating to taxation specified in the Schedule or any Confirmation,

(ii) any other documents specified in the Schedule or any Confirmation; and

(iii) upon reasonable demand by such other party, any form or document that may be required or reasonably requested in writing in order to allow such other party or its Credit Support Provider to make a payment under this Agreement or any applicable Credit Support Document without any deduction or withholding for or on account of any Tax or with such deduction or withholding at a reduced rate (so long as the completion, execution or submission of such form or document would not materially prejudice the legal or commercial position of the party in receipt of such demand), with any such form or document to be accurate and complete in a manner reasonably satisfactory to such other party and to be executed and to be delivered with any reasonably required certification, in each case by the date specified in the Schedule or such Confirmation or, if none is specified, as soon as reasonably practicable.

(b) Maintain Authorizations. It will use all reasonable efforts to maintain in full force and effect all consents of any governmental or other authority that are required to be obtained by it with respect to this Agreement or any Credit Support Document to which it is a party and will use all reasonable efforts to obtain any other that may become necessary in the future.

(c) Comply with Laws. It will comply in all material respects with all applicable laws and orders to which it may be subject if failure so to comply would materially impair its ability to perform its obligations under this Agreement or any Credit Support Document to which it is a party.

(d) Tax Agreement. It will give notice of any failure of a representation made by it under Section 3(i) to be accurate and true promptly upon learning of such failure.

(e) Payment of Stamp Tax. Subject to Section 11, it will pay any Stamp Tax levied or imposed upon it or in respect of its execution or performance of this Agreement by a jurisdiction in which it is incorporated.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822059
Footnote Exhibits - Page 4238

organized, managed and controlled, or considered to have its seat, or in which a branch or office through which it is acting for the purpose of this Agreement is located ("Stamp Tax Jurisdiction") and will indemnify the other party against any Stamp Tax levied or imposed upon the other party or in respect of the other party's execution or performance of this Agreement by any such Stamp Tax Jurisdiction which is not also a Stamp Tax Jurisdiction with respect to the other party.

5. Events of Default and Termination Events

(a) Events of Default. The occurrence at any time with respect to a party or, if applicable, any Credit Support Provider of such party or any Specified Entity of such party of any of the following events constitutes an event of default (an "Event of Default") with respect to such party—

(i) Failure to Pay or Deliver. Failure by the party to make, when due, any payment under this Agreement or delivery under Section 3(a)(i) or (ii) required to be made by it if such failure is not remedied on or before the third Local Business Day after notice of such failure is given to the party;

(ii) Breach of Agreement. Failure by the party to comply with or perform any agreement or obligation (other than an obligation to make any payment under this Agreement or delivery under Section 3(a)(i) or (ii) or to give notice of a Termination Event or any agreement or obligation under Section 4(d)(i), 4(d)(ii) or 4(d)(iii) to be complied with or performed by the party in accordance with this Agreement if such failure is not remedied on or before the thirteenth day after notice of such failure is given to the party;

(iii) Credit Support Default. (1) Failure by the party or any Credit Support Provider of such party to comply with or perform any agreement or obligation to be complied with or performed by it in accordance with any Credit Support Document if such failure is continuing after any applicable grace period has elapsed;

(2) the expiration or termination of such Credit Support Document or the failing or ceasing of such Credit Support Document to be in full force and effect for the purpose of this Agreement (in either case other than in accordance with its terms) prior to the satisfaction of all obligations of such party under such Transaction to which such Credit Support Document relates without the written consent of the other party;

(3) the party or such Credit Support Provider disaffirms, disclaims, repudiates or rejects, in whole or in part, or challenges the validity of, such Credit Support Document;

(iv) Misrepresentation. A representation (other than a representation under Section 3(a) or (v)) made or repeated or deemed to have been made or repeated by the party or any Credit Support Provider of such party in this Agreement or any Credit Support Document proves to have been incorrect or misleading in any material respect when made or repeated or deemed to have been made or repeated;

(v) Default under Specified Transaction. The party, any Credit Support Provider of such party or any applicable Specified Entity of such party (1) defaults under a Specified Transaction and, after giving effect to any applicable notice requirement or grace period, there occurs a liquidation of, an acceleration of obligations under, or an early termination of, that Specified Transaction, (2) defaults, after giving effect to any applicable notice requirement or grace period, in making any payment or delivery due on the last payment, delivery or exchange date of, or any payment on early termination of, a Specified Transaction (or such default continues for at least three Local Business Days if there is no applicable notice requirement or grace period) or (3) disaffirms, disclaims, repudiates or rejects, in whole or in part, a Specified Transaction (or such action is taken by any person or entity appointed or empowered to operate it or act on its behalf);

(vi) Cross Default. If "Cross Default" is specified in the Schedule or applying to the party, the occurrence or existence of (1) a default, event of default or other similar condition or event however

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822060
described) in respect of such party, any Credit Support Provider of such party or any applicable specified Entity of such party under one or more agreements or instruments relating to Specified Indebtedness of any of them (individually or collectively) in an aggregate amount of net syntax if the applicable Threshold Amount (as specified in the Schedule) which has resulted in such Specified Indebtedness becoming, or becoming capable at such time of being declared, due and payable under such agreements or instruments, before it would otherwise have been due and payable or (2) a default by such party, such Credit Support Provider or such Specified Entity (individually or collectively) in making one or more payments on the due date thereof in an aggregate amount of net syntax if the applicable Threshold Amount under such agreements or instruments (after giving effect to any applicable notice requirement or grace period);

(viii) Bankruptcy. The party, any Credit Support Provider of such party or any applicable specified Entity of such party:

(1) is dissolved (other than pursuant to a consolidation, amalgamation or merger); (2) becomes insolvent or is unable to pay its debts or fully admits in writing its inability generally to pay its debts as they become due; (3) makes a general assignment, arrangement or composition with or for the benefit of its creditors; (4) institutes or has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and, in the case of any such proceeding or petition instituted or presented against it, such proceeding or petition (A) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation (B) is not dismissed, discharged, stayed or restrained in each case within 30 days of the institution or presentation thereof; (7) has a resolution passed for its winding-up, official management or liquidation (other than pursuant to a consolidation, amalgamation or merger); (6) seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for or for all or substantially all its assets; (7) has a secured party take possession of all or substantially all its assets or has a distress, execution, attachment, seizure or other process levied, enforced or used on or against all or substantially all its assets and such secured party maintains possession of any such process is not dismissed, discharged, stayed or restrained, in each case within 30 days thereof; (8) ceases or is subject to any event with respect to it which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in clauses (1) to (7) (inclusive); or (9) takes any action in furtherance of, or indicating its consent to, approval of, or acquiescence in, any of the foregoing acts;

(viii) Merger Without Assumption. The party or any Credit Support Provider of such party consolidates or amalgamates with, or merges with into, or, transfers all or substantially all its assets to, another entity and, at the time of such consolidation, amalgamation, merger or transfer:

(1) the resulting, surviving or transferee entity fails to assume all the obligations of such party or such Credit Support Provider under this Agreement or any Credit Support Document to which it or its predecessor was a party by operation of law or pursuant to an agreement reasonably satisfactory to the other party in this Agreement; or

(2) the benefits of any Credit Support Document fail to extend (without the consent of the other party) to the performance by such resulting, surviving or transferee entity of its obligations under this Agreement.

(b) Termination Event. The occurrence at any time with respect to a party or, if applicable, any Credit Support Provider of such party or any Specified Entity of such party of any event specified below constitutes an Event if the event is specified in (i) below, a Tax Event if the event is specified in (ii) below or a Tax Event Upon Merger if the event is specified in (iii) below and, if specified to be applicable, a Credit Event Event:

6 ISDA® 1992

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-02132261
Footnote Exhibits - Page 4240

Upon Merger if the event is specified pursuant to (v) below or an Additional Termination Event if the event is specified pursuant to (v) below:

(i) Illegality. Due to the adoption of, or any change in, any applicable law after the date on which a Transaction is entered into, or due to the promulgation of, or any change in, the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law after such date, it becomes unlawful (other than as a result of a breach by the party of Section 4(i)) for such party (which will be the Affected Party):

(1) to perform any absolute or contingent obligation to make a payment or delivery or to receive a payment or delivery in respect of such Transaction or to comply with any other material provision of this Agreement relating to such Transaction; or

(2) to perform, or for any Credit Support Provider of such party to perform, any contingent or other obligation which the party (or such Credit Support Provider) has under any Credit Support Document relating to such Transaction;

(ii) Tax Event. Due to (x) any action taken by a taxing authority, or brought in a court of competent jurisdiction, or on the date on which a Transaction is entered into (regardless of whether such action is taken or brought with respect to a party to this Agreement) or (y) a Change in Tax Law, the party (which will be the Affected Party) will, or there is a substantial likelihood that it will, on the next succeeding Scheduled Payment Date (1) be required to pay to the other party an additional amount in respect of an Indemnifiable Tax under Section 2(6)(X)(X) (except in respect of interest under Section 2(6)(X)(Y) or (X) or (2) receive a payment from which an amount is required to be deducted or withheld for or on account of a Tax (except in respect of interest under Section 2(6)(u) or (V)) and any additional amount is required to be paid in respect of such Tax under Section 2(6)(X)(Y) (other than by reason of Section 2(6)(X)(Y)(A) or (B));

(iii) Tax Event Upon Merger. The party (the "Surviving Party") on the next succeeding Scheduled Payment Date will either (1) be required to pay an additional amount in respect of an Indemnifiable Tax under Section 2(6)(X)(Y) (except in respect of interest under Section 2(6)(X)(Y) or (X)) or (2) receive a payment from which an amount has been deducted or withheld for or on account of any Indemnifiable Tax in respect of which the other party is not required to pay an additional amount (other than by reason of Section 2(6)(X)(Y)(A) or (B)), in either case as a result of a party consolidating or amalgamating with, or merging with or into, or transferring all or substantially all its assets to, another entity (which will be the Affected Party) where such event does not constitute an event described in Section 3(9)(h)(i);

(iv) Credit Event Upon Merger. If "Credit Event Upon Merger" is specified in the Schedule as applying to the party, such party ("X"), any Credit Support Provider of X or any applicable Specified Entity of X consolidates or amalgamates with, or merges with or into, or transfers all or substantially all its assets to, another entity and such action does not constitute an event described in Section 3(9)(c)(iii) but the creditworthiness of the resulting, surviving or transferee entity is materially weaker than that of X, such Credit Support Provider or such Specified Entity, as the case may be, immediately prior to such action (and, in such event, X or its successor or transferee, as appropriate, will be the Affected Party); or

(v) Additional Termination Event. If any "Additional Termination Event" is specified in the Schedule or any Confirmation as applying, the occurrence of such event (and, in such event, the Affected Party or Affected Parties shall be as specified for such Additional Termination Event in the Schedule or such Confirmation);

(c) Event of Default and Illegality. If an event or circumstance which would otherwise constitute or give rise to an Event of Default also constitutes an Illegality, it will be treated as an Illegality and will not constitute an Event of Default.
6. Early Termination

(a) Right to Terminate Following Event of Default. If at any time an Event of Default with respect to a party (the "Defaulting Party") has occurred and is then continuing, the other party (the "Non-defaulting Party") may, by not more than 20 days notice to the Defaulting Party specifying the relevant Event of Default, designate a day not earlier than the day such notice is effective as an Early Termination Date in respect of all outstanding Transactions. If, however, "Automatic Early Termination" is specified in the Schedule as applying to a party, then an Early Termination Date in respect of all outstanding Transactions will occur immediately upon the occurrence with respect to such party of an Event of Default specified in Section 5(a)(iv)(1), (2), (3), (4) or, to the extent analogous therein, (5), and so of the time immediately preceding the institution of the relevant proceeding or the presentation of the relevant petition upon the occurrence with respect to such party of an Event of Default specified in Section 5(a)(v)(A) or, to the extent analogous therein, (6).

(b) Right to Terminate Following Termination Event.

(i) Notice. If a Termination Event occurs, an Affected Party may, promptly upon becoming aware of it, notify the other party, specifying the nature of that Termination Event and such Affected Transaction and will also give such other information about that Termination Event as the other party may reasonably require.

(ii) Transfer to Avoid Termination Event. If either an Insolvency under Section 5(a)(ii)(i) or a Tax Event occurs and there is only one Affected Party, or if a Tax Event Upon Merger occurs and the Burdened Party is the Affected Party, the Affected Party will, as a condition to its right to designate an Early Termination Date under Section 6(a)(iv), use all reasonable efforts (which will not require such party to incur a loss, excluding immaterial, incidental expenses) to transfer within 20 days after it gives notice under Section 6(a)(i) all its rights and obligations under this Agreement in respect of the Affected Transactions to another of its Officers or Affiliates so that such Termination Event ceases to exist.

If the Affected Party is not able to make such a transfer it will give notice to the other party to that effect within such 20 day period, whereupon the other party may effect such a transfer within 30 days after the notice is given under Section 6(a)(i).

Any such transfer by a party under this Section 6(a)(ii) will be subject to and conditional upon the prior written consent of the other party, which consent will not be withheld if such other party's policies in effect at such time would permit it to enter into transactions with the transferee on the terms proposed.

(iii) Two Affected Parties. If an Insolvency under Section 5(a)(ii)(i) or a Tax Event occurs and there are two Affected Parties, such party will use all reasonable efforts to reach agreement within 30 days after notice thereof is given under Section 6(a)(i) on action to avoid the Termination Event.

(iv) Right to Terminate. If:

(1) a transfer under Section 6(a)(ii) or an agreement under Section 6(a)(iii), as the case may be, has not been effected with respect to all Affected Transactions within 30 days after an Affected Party gives notice under Section 6(a)(i); or

(2) an Insolvency under Section 5(a)(ii)(i), a Credit Event Upon Merger or an Additional Termination Event occurs, or a Tax Event Upon Merger occurs and the Burdened Party is not the Affected Party.

other party in the case of an Insolvency, the Burdened Party in the case of a Tax Event Upon Merger, any Affected Party in the case of a Credit Event or an Additional Termination Event if there is more than one Affected Party, or the party which is not the Affected Party in the case of a Credit Event Upon Merger or an Additional Termination Event if there is only one Affected Party may, by not more than 20 days notice to the other party and provided that the relevant Termination Event is then

GS MBS-E-021622063
Footnote Exhibits - Page 4242

continuing, designate a day not earlier than the day such notice is effective as an Early Termination Date in respect of all Affected Transactions.

(c) Effect of Designation.

(i) If notice designating an Early Termination Date is given under Section 6(a) or (b), the Early Termination Date will occur on the date so designated, whether or not the relevant Event of Default or Termination Event is then continuing.

(ii) Upon the occurrence or effective designation of an Early Termination Date, no further payments or deliveries under Section 10(a)(i) or (ii) in respect of the Terminated Transactions will be required to be made, but without prejudice to the other provisions of this Agreement. The amount, if any, payable in respect of an Early Termination Date shall be determined pursuant to Section 6(b).

(d) Calculations.

(i) Statement. On or as soon as reasonably practicable following the occurrence of an Early Termination Date, each party will make the calculations on its part, if any, contemplated by Section 6(a) and will provide to the other party a statement (1) showing, in reasonable detail, such calculations (including all relevant quotations and specifying any amount payable under Section 6(a) and (ii) giving details of the relevant account to which any amount payable to it is to be paid. In the absence of written confirmation from the source of a quotation obtained in determining a Market Quotation, the records of the party obtaining such quotation will be conclusive evidence of the existence and accuracy of such quotation.

(ii) Payment Date. An amount calculated as being due in respect of any Early Termination Date under Section 6(c) will be payable on the day that notice of the amount payable is effective (in the case of an Early Termination Date which is designated or occurs as a result of an Event of Default) and on the day which is two Local Business Days after the day on which notice of the amount payable is effective (in the case of an Early Termination Date which is designated as a result of a Termination Event). Such amount will be paid together with (to the extent permitted under applicable Law) interest thereon (before as well as after judgment) at the Lessor Interest Rate. Such interest will be calculated on the basis of daily compounding and the actual number of days elapsed.

(e) Payments on Early Termination. If an Early Termination Date occurs, the following provisions shall apply based on the parties’ election in the Schedule of a payment measure, either “Market Quotation” or “Loss”, and a payment method, either the “First Method” or the “Second Method”. If the parties fail to designate a payment measure or payment method in the Schedule, it will be deemed that “Market Quotation” or the “Second Method”, as the case may be, shall apply. The amount, if any, payable in respect of an Early Termination Date and determined pursuant to this Section shall be subject to any Set-off.

(f) Events of Default. If the Early Termination Date results from an Event of Default:—

(1) First Method and Market Quotation. If the First Method and Market Quotation apply, the Defaulting Party will pay to the Non-defaulting Party the excess, if any, of (A) the sum of the Settlement Amount (determined by the Non-defaulting Party) in respect of the Terminated Transactions and the Termination Currency Equivalent of the Unpaid Amounts owing to the Non-defaulting Party over (B) the Termination Currency Equivalent of the Unpaid Amounts owing to the Defaulting Party.

(2) First Method and Loss. If the First Method and Loss apply, the Defaulting Party will pay to the Non-defaulting Party, if a positive number, the Non-defaulting Party’s Loss in respect of this Agreement.

(3) Second Method and Market Quotation. If the Second Method and Market Quotation apply, an amount will be payable equal to (A) the sum of the Settlement Amount (determined by the
Non-defaulting Party in respect of the Terminated Transactions and the Termination Currency Equivalent of the Unpaid Amounts owing to the Non-defaulting Party less (B) the Termination Currency Equivalent of the Unpaid Amounts owing to the Defaulting Party. If that amount is a positive number, the Defaulting Party will pay it to the Non-defaulting Party; if it is a negative number, the Non-defaulting Party will pay the absolute value of that amount to the Defaulting Party.

(5) Second Method and Loss. If the Second Method and Loss apply, the amount will be payable equal to the Non-defaulting Party’s Loss in respect of this Agreement. If that amount is a positive number, the Defaulting Party will pay it to the Non-defaulting Party; if it is a negative number, the Non-defaulting Party will pay the absolute value of that amount to the Defaulting Party.

(ii) Termination Event. If the Early Termination Date results from a Termination Event:

(1) One Affected Party. If there is one Affected Party, the amount payable will be determined in accordance with Section 6(c)(3), if Market Quotation applies, or Section 6(c)(4), if Loss applies, except that, in either case, references to the Defaulting Party and to the Non-defaulting Party will be deemed to be references to the Affected Party and the party which is not the Affected Party, respectively, and, if Loss applies and fewer than all the Transactions are being terminated, Loss shall be calculated in respect of all Terminated Transactions.

(2) Two Affected Parties. If there are two Affected Parties:

(A) if Market Quotation applies, each party will determine a Settlement Amount in respect of the Terminated Transactions, and an amount will be payable equal to (i) the sum of (a) one-half of the difference between the Settlement Amount of the party with the higher Settlement Amount ("X") and the Settlement Amount of the party with the lower Settlement Amount ("Y") and (b) the Termination Currency Equivalent of the Unpaid Amounts owing to X less (ii) the Termination Currency Equivalent of the Unpaid Amounts owing to Y; and

(B) if Loss applies, each party will determine its Loss in respect of this Agreement (or, if fewer than all the Transactions are being terminated, in respect of all Terminated Transactions) and an amount will be payable equal to one-half of the difference between the Loss of the party with the higher Loss ("X") and the Loss of the party with the lower Loss ("Y").

If the amount payable is a positive number, X will pay it to Y; if it is a negative number, X will pay the absolute value of that amount to Y.

(iii) Adjustment for Bankruptcy. In circumstances where an Early Termination Date occurs because "Automatic Early Termination" applies in respect of a party, the amount determined under this Section 6(e) will be subject to such adjustments as are appropriate and permitted by law to reflect any payments or deliveries made by one party to the other under this Agreement (and retained by such other party) during the period from the relevant Early Termination Date to the date for payment determined under Section 6(d)(ii).

(iv) Pre-Enforcement. The parties agree that if Market Quotation applies or amount recoverable under this Section 6(e) is a reasonable pre-estimate of loss and not a penalty such amount is payable for the loss of bargain and the loss of profits against future deals and except as otherwise provided in this Agreement neither party will be entitled to recover any additional damages as a consequence of such losses.

GS MBS-E-021822065
7. Transfer

Subject to Section 6(b)(5), whether this Agreement nor any interest or obligation in or under this Agreement may be transferred (whether by way of security or otherwise) by either party without the prior written consent of the other party, except that:

(a) a party may make such a transfer of this Agreement pursuant to a consolidation or amalgamation with, or merge with or into, or transfer all or substantially all its assets to, another entity (but without prejudice to any other right or remedy under this Agreement); and

(b) a party may make such a transfer of all or any part of its interest in any amount payable to it from a Defaulting Party under Section 6(c).

Any purported transfer that is not in compliance with this Section will be void.

8. Contractual Currency

(a) Payment in the Contractual Currency. Each payment under this Agreement shall be made in the relevant currency specified in this Agreement for that payment (the “Contractual Currency”). To the extent permitted by applicable law, any obligation to make payments under this Agreement in the Contractual Currency will not be discharged or satisfied by any tender in any currency other than the Contractual Currency, except to the extent such tender results in the actual receipt by the party to which payment is owed, acting in a reasonable manner and in good faith in converting the currency so tendered into the Contractual Currency of the full amount in the Contractual Currency of all amounts payable in respect of this Agreement.

If for any reason the amount in the Contractual Currency so received falls short of the amount in the Contractual Currency payable in respect of this Agreement, the party required to make the payment will, to the extent permitted by applicable law, immediately pay such additional amount in the Contractual Currency as may be necessary to compensate for the shortfall. If for any reason the amount in the Contractual Currency so received exceeds the amount in the Contractual Currency payable in respect of this Agreement, the party receiving the payment will refund promptly the amount of such excess.

(b) Judgment. To the extent permitted by applicable law, if any judgment or order expressed in a currency other than the Contractual Currency is rendered (i) for the payment of any amount owing in respect of this Agreement, (ii) for the payment of any amount relating to any early termination in respect of this Agreement or (iii) in respect of a judgment or order of another court for the payment of any amount described in (i) or (ii) above, the party seeking recovery, after recovery in full of the aggregate amount to which such party is entitled pursuant to the judgment or order, will be entitled to receive immediately from the other party the amount of any shortfall of the Contractual Currency received by such party as a consequence of same paid in such other currency and will refund promptly to the other party any excess of the Contractual Currency received by such party as a consequence of same paid in such other currency if such shortfall or such excess arises or results from any variation between the rate of exchange at which the Contractual Currency is converted into the currency of the judgment or order for the purposes of such judgment or order and the rate of exchange at which such party is able, acting in a reasonable manner and in good faith in converting the currency received into the Contractual Currency, to purchase the Contractual Currency with the amount of the currency of the judgment or order actually received by such party. The term “rate of exchange” includes, without limitation, any premiums and costs of exchange payable in connection with the purchase of or conversion into the Contractual Currency.

(c) Severance Indemnities. To the extent permitted by applicable law, these indemnities constitute separate and independent obligations from the other obligations in this Agreement, will be enforceable as separate and independent causes of action, will apply notwithstanding any indulgence granted by the party to which any payment is owed and will not be affected by judgment being obtained or claim or proof being made for any other sums payable in respect of this Agreement.

(d) Evidence of Law. For the purpose of this Section 8, it will be sufficient for a party to demonstrate that it would have suffered a loss had an actual exchange or purchase been made.

GS MBS-E-021822065
Footnote Exhibits - Page 4245

9. Miscellaneous

(a) Entire Agreement. This Agreement constitutes the entire agreement and understanding of the parties with respect to its subject matter and supersedes all oral communications and prior writings with respect thereto.

(b) Amendment. No amendment, modification or waiver in respect of this Agreement will be effective unless in writing (including a writing evidenced by a facsimile transmission) and executed by each of the parties or confirmed by an exchange of telex or electronic messages on an electronic messaging system.

(c) Survival of Obligations. Without prejudice to Sections 2(a)(ii) and 6(c)(i), the obligations of the parties under this Agreement will survive the termination of any Transaction.

(d) Remedies Cumulative. Except as provided in this Agreement, the rights, powers, remedies and privileges provided in this Agreement are cumulative and not exclusive of any rights, powers, remedies and privileges provided by law.

(e) Counterparts and Confirmations.

(i) This Agreement (and each amendment, modification and waiver in respect of it) may be executed and delivered in counterparts (including by facsimile transmission), each of which will be deemed an original.

(ii) The parties intend that they are legally bound by the terms of each Transaction from the moment they agree in those terms (whether orally or otherwise). A Confirmation shall be entered into as soon as practicable and may be executed and delivered in counterparts (including by facsimile transmission) or be created by an exchange of telex or by an exchange of electronic messages on an electronic messaging system, which in each case will be sufficient for all purposes to evidence a binding supplement to this Agreement. The parties will specify therein or through another effective means that any such counterpart, telex or electronic message constitutes a Confirmation.

(f) No Waiver of Rights. A failure or delay in exercising any right, power or privilege in respect of this Agreement will not be presumed to operate as a waiver, and a single or partial exercise of any right, power or privilege will not be presumed to preclude any subsequent or further exercise, of that right, power or privilege or the exercise of any other right, power or privilege.

(g) Headings. The headings used in this Agreement are for convenience of reference only and are not to affect the construction of or to be taken into consideration in interpreting this Agreement.

10. Officer/ Multibranch Parties

(a) If Section 10(a) is specified in the Schedule as applying, each party that enters into a Transaction through an Office other than its head or home office represents to the other party that, notwithstanding the place of booking office or jurisdiction of incorporation or organization of such party, the obligations of such party are the same as if it had entered into the Transaction through its head or home office. This representation will be deemed to be repeated by such party on each date on which a Transaction is entered into.

(b) Neither party may change the Office through which it makes and receives payments or deliveries for the purpose of a Transaction without the prior written consent of the other party.

(c) If a party is specified as a Multibranch Party in the Schedule, each Multibranch Party may make and receive payments or deliveries under any Transaction through any Office listed in the Schedule, and the Office through which it makes and receives payments or deliveries with respect to a Transaction will be specified in the relevant Confirmation.

11. Expenses

A Defaulting Party will, on demand, indemnify and hold harmless the other party for and against all reasonable out-of-pocket expenses, including legal fees and Stamp Tax, incurred by such other party by reason of the enforcement and protection of its rights under this Agreement or any Credit Support Document.
Footnote Exhibits - Page 4246

12. Notices

(a) Effectiveness. Any notice or other communication in respect of this Agreement may be given in any manner as set forth below (except that a notice or other communication under Section 5 or 6 may not be given by facsimile transmission or electronic messaging system) to the address or number given in accordance with the electronic messaging system details provided (see the Schedule) and will be deemed effective as indicated:

(i) if in writing and delivered in person or by courier, on the date it is delivered;
(ii) if sent by telecopy, on the date the recipient's answering back is received;
(iii) if sent by facsimile transmission, on the date that transmission is received by a responsible employee of the recipient in legible form (it being agreed that the burden of proving receipt will be on the sender and will not be met by a transmission report generated by the sender's facsimile machine);
(iv) if sent by certified or registered mail (airmail, if overseas) or the equivalent (return receipt requested), on the date mail is delivered or its delivery is attempted, or
(v) if sent by electronic messaging system, on the date that electronic message is received, unless the date of such delivery (or attempted delivery) or that receipt, as applicable, is not a Local Business Day or that communication is delivered (or attempted) or received, as applicable, after the close of business on a Local Business Day, in which case that communication shall be deemed given and effective on the first following day that is a Local Business Day.

(b) Change of Address. Either party may by notice to the other change the address, telephone or facsimile number or electronic messaging system details at which notices or other communications are to be given to it.

13. Governing Law and Jurisdiction

(a) Governing Law. This Agreement will be governed by and construed in accordance with the law specified in the Schedule.

(b) Jurisdiction. With respect to any suit, action or proceedings relating to this Agreement ("Proceedings"), each party irrevocably:

(i) submits to the jurisdiction of the English courts, if this Agreement is expressed to be governed by English law, or to the non-exclusive jurisdiction of the courts of the State of New York and the United States District Court located in the Borough of Manhattan in New York City, if this Agreement is expressed to be governed by the laws of the State of New York; and
(ii) waives any objection which it may have at any time to the laying of venue of any Proceedings brought in any such court, waives any claim that such Proceedings have been brought in an inconvenient forum and further waives the right to object, with respect to such Proceedings, that such court does not have any jurisdiction over such party.

Nothing in this Agreement precludes either party from bringing Proceedings in any other jurisdiction (notwithstanding this Agreement is expressed to be governed by English law, the Contracting State is defined in Section 1(3) of the Civil Jurisdiction and Judgments Act 1992 or any modification, extension or re-enactment thereof for the time being in force) nor with the bringing of Proceedings in any one or more jurisdictions preclude the bringing of Proceedings in any other jurisdiction.

(c) Service of Process. Each party irrevocably appoints the Process Agent (if any) specified opposite its name in the Schedule to receive, for it and on its behalf, service of process in any Proceedings. If for any reason such Process Agent is not able to receive service of process for either party, then the address set forth in paragraph (b) above will be deemed the address for service of process.

13 ISDA 1992

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021622068
reason any party's Process Agent is unable to act as such, such party will promptly notify the other party and within 30 days appoint a substitute process agent acceptable to the other party. The parties irrevocably consent to service of process given in the manner provided for notices in Section 12. Nothing in this Agreement will affect the right of either party to serve process in any other manner permitted by law.

(d) Waiver of Immunity. Each party irrevocably waives, to the fullest extent permitted by applicable law, with respect to itself and its revenues and assets (irrespective of their use or intended use), all immunity on the grounds of sovereignty or other similar grounds from (i) suits, (ii) jurisdiction of any court, (iii) relief by way of injunction, order for specific performance or for recovery of property, (iv) attachment of its assets (whether before or after judgment) and (v) execution or enforcement of any judgment to which it or its revenues or assets might otherwise be subject in any Proceedings in the courts of any Jurisdiction and irrevocably agrees to the extent permitted by applicable law, that it will not claim any such immunity in any Proceedings.

14. Definitions

As used in this Agreement:

"Additional Termination Event" has the meaning specified in Section 5(h).

"Affected Party" has the meaning specified in Section 5(b).

"Affected Transaction" means (x) with respect to any Termination Event consisting of an Insolvency Event, Insolvency Event Upon Merger, Tax Event or Tax Event Upon Merger, all Transactions affected by the occurrence of such Termination Event and (y) with respect to any other Termination Event, all Transactions.

"Affiliate" means, subject to the Schedule, in relation to any person, any entity controlled, directly or indirectly, by the person, any entity that controls, directly or indirectly, the person or any entity directly or indirectly under common control with the person. For this purpose, "control" of any entity or person means ownership of a majority of the voting power of the entity or person.

"Applicable Rate" means:

(a) in respect of obligations payable or deliverable (or which would have been but for Section 2(a)(iii)) by a Defaulting Party, the Default Rate;

(b) in respect of any obligation to pay an amount under Section 4(a) of either party from and after the date determined in accordance with Section 6(d)(i) on which that amount is payable, the Default Rate;

(c) in respect of all other obligations payable or deliverable (or which would have been but for Section 2(a)(iii)) by a Non-defaulting Party, the Non-default Rate; and

(d) in all other cases, the Termination Rate.

"Barred Party" has the meaning specified in Section 9(b).

"Change in Tax Law" means the enactment, promulgation, execution or ratification of, or any change in or amendment to, any law (or in the application or official interpretation of any law) that occurs on or after the date on which the relevant Transaction is entered into.

"Consent" includes a consent, approval, action, authorisation, exemption, notice, filing, registration or exchange control consent.

"Credit Event Upon Merger" has the meaning specified in Section 5(b).

"Credit Support Document" means any agreement or instrument that is specified as such in this Agreement.

"Credit Support Provider" has the meaning specified in the Schedule.

"Default Rate" means a rate per annum equal to the cost (without proof or evidence of any actual cost) to the interest payer (as certified by it) if it were to fund or of funding the relevant amount plus 1% per annum.

14 ISDA® 1992

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822069
Footnote Exhibits - Page 4248

"Defaulting Party" has the meaning specified in Section 6(a).

"Early Termination Date" means the date determined in accordance with Section 6(a) or 6(b)(v).

"Event of Default" has the meaning specified in Section 4(a) and, if applicable, the Schedule.

"Illegal" has the meaning specified in Section 5(b).

"Indemnifiable Tax" means any Tax other than a Tax that would not be imposed in respect of a payment under this Agreement but for a present or former connection between the government or taxation authority imposing such Tax and the recipient of such payment or a person related to such recipient (including, without limitation, a connection arising from such recipient or related person being or having been a citizen or resident of such jurisdiction, or being or having been organised, present or engaged in a trade or business in such jurisdiction, or having or having had a permanent establishment or fixed place of business in such jurisdiction, but excluding a connection arising solely from such recipient or related person having executed, delivered, performed its obligations or received a payment under, or referred, this Agreement or a Credit Support Document).

"Law" includes any treaty, law, rule or regulation (as modified, in the case of any relevant government revenue authority) and "lawful" and "lawfulness" will be construed accordingly.

"Local Business Day" means, subject to the Schedule, a day on which commercial banks are open for business (including dealings in foreign exchanges and foreign currency deposits) (a) in relation to any obligation under Section 2(a)(i), in the place(s) specified in the relevant Confirmation or, if not so specified, as otherwise agreed by the parties in writing or determined pursuant to provisions contained, or incorporated by reference, in this Agreement, (b) in relation to any other payment, in the place where the relevant account is located and, if different, in the principal financial centre, (c) in any of the currency of such payment, (d) in relation to any notice or other communication, including notice contemplated under Section 5(a)(ii), in the city specified in the address for notice provided by the recipient and, in the case of a notice contemplated by Section 2(b), in the place where the relevant new account is to be located and (e) in relation to Section 5(a)(ii)(i), in the relevant locations for performance with respect to such Specified Transaction.

"Loss", with respect to this Agreement or one or more Terminated Transactions, as the case may be, and a party, the Terminated Transaction Equivalent of an amount that party reasonably determines in good faith to be its total losses and costs (or gains, in which case expressed as a negative number) in connection with this Agreement or the Terminated Transaction or group of Terminated Transactions, as the case may be, including any loss of bargain, cost of funding or, at the election of such party but without duplication, less or cost incurred as a result of its terminating, liquidating, obtaining or re-establishing any hedge or related trading position (or any gain resulting from any of them). Loss includes losses and costs (or gains) in respect of any payment or delivery required to have been made (assuming satisfaction of each applicable condition precedent) on or before the relevant Early Termination Date and not made, except, as so to avoid duplication, if Section 6(a)(x)(i) or (ii) or 6(b)(x)(ii)(A) applies. Loss does not include a party's legal fees and out-of-pocket expenses referred to under Section 11. A party will determine its Loss as of the relevant Early Termination Date or, if that is not reasonably practicable, as of the earliest date thereafter on a reasonably practicable. A party may (but need not) determine its Loss by reference to quotations of relevant rates or prices from one or more leading dealers in the relevant markets.

"Market Quotations" means, with respect to one or more Terminated Transactions and a party making the determination, an amount determined on the basis of quotations from Reference Market-makers. Each quotation will be for an amount, if any, that would be paid to such party (expressed as a negative number) or by such party (expressed as a positive number) in consideration of an agreement between such party (taking into account any existing Credit Support Document with respect to the obligations of such party) and the quoting Reference Market-maker to enter into a transaction (the "Repayment Transaction") that would have the effect of preserving for such party the economic equivalent of any payment or delivery (whether the underlying obligation was absolute or contingent and assuming the satisfaction of each applicable condition precedent) by the parties under Section 2(b)(i) in respect of each Terminated Transaction or group of Terminated Transactions that would, but for the occurrence of the relevant Early Termination Date, have
be determined.

*Non-default Rate* means a rate per annum equal to the cost (without proof or evidence of any actual cost) to the Non-defaulting Party (as certified by it) if it were to fund the relevant amount.

*Non-defaulting Party* has the meaning specified in Section 6(a).

*Office* means a branch or office of a party, which may be such party's head or home office.

*Potential Event of Default* means any event which, with the giving of notice or the lapse of time or both, would constitute an Event of Default.

*Reference Market-maker* means four leading dealers in the relevant market selected by the party determining a Market Quotation in good faith (a) from among dealers of the highest credit standing which satisfy all the criteria that such party applies generally at the time in deciding whether to offer or to make an extension of credit and (b) to the extent practicable, from among such dealers having an office in the same city.

*Relevant Jurisdiction* means, with respect to a party, the jurisdictions (a) in which the party is incorporated, organized, managed and controlled or considered to have its seat, (b) where an Office through which the party is acting for purposes of this Agreement is located, (c) in which the party executes this Agreement and (d) in relation to any payment, from or through which such payment is made.

*Scheduled Payment Date* means a date on which a payment or delivery is to be made under Section 2(a)(ii) with respect to a Transaction.

*Set-off* means set-off, offset, combination of accounts, right of retention or withholding or similar right or requirement to which the payer of an amount under Section 6 is entitled or subject (whether arising under this Agreement, another contract, applicable law or otherwise) that is exercised by, or imposed on, such payer.

*Settlement Amount* means, with respect to a party and any Early Termination Date, the sum of:

(a) the Termination Currency Equivalent of the Market Quotations (whether positive or negative) for each Terminated Transaction or group of Terminated Transactions for which a Market Quotation is determined; and

(b) such party's Loss (whether positive or negative and without reference to any Unpaid Amounts) for each Terminated Transaction or group of Terminated Transactions for which a Market Quotation cannot be determined or would not (in the reasonable belief of the party making the determination) produce a commercially reasonable result.

*Specified Entity* has the meanings specified in the Schedule.

16

ISDAB 1992

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822071
“Specified Indebtedness” means, subject to the Schedule, any obligation (whether present or future, contingent or otherwise, as principal or security or otherwise) in respect of borrowed money.

“Specified Transaction” means, subject to the Schedule, (a) any transaction (including any agreement with respect thereto) now existing or hereafter entered into between one party to this Agreement (or any Credit Support Provider of such party or any applicable Specified Entity of such party) and the other party to this Agreement (or any Credit Support Provider of such other party or any applicable Specified Entity of such other party) which is a rate swap transaction, basis swap, forward rate transaction, commodity swap, commodity option, equity or equity index swap, credit, equity or equity index option, bond option, interest rate option, foreign exchange transaction, cap transaction, floor transaction, collar transaction, currency swap transaction, cross-currency rate swap transaction, currency option or any other similar transaction (including any option with respect to any of these transactions), (b) any combination of these transactions and (c) any other transaction identified as a Specified Transaction in this Agreement or the relevant confirmation.

“Stamp Tax” means any stamp, registration, documentation or similar tax.

“Tax” means any present or future tax, levy, impost, duty, charge, assessment or fee of any nature (including interest, penalties and additions thereto) that is imposed by any government or other taxing authority in respect of any payment under this Agreement other than a stamp, registration, documentation or similar tax.

“Tax Event” has the meaning specified in Section 10(b).

“Tax Event Upon Merger” has the meaning specified in Section 10(b).

“Terminated Transaction” means with respect to any Early Termination Date (a) if resulting from a Termination Event, all Affected Transactions and (b) if resulting from an Event of Default, all Transactions (in either case) is effect immediately before the effectiveness of the notice designating that Early Termination Date (or, if “Automatic Early Termination” applies, immediately before the Early Termination Date).

“Termination Currency” has the meaning specified in the Schedule.

“Termination Currency Equivalent” means, in respect of any amount denominated in the Termination Currency, such Termination Currency amount and, in respect of any amount denominated in a currency other than the Termination Currency (the “Other Currency”), the amount in the Termination Currency determined by the party making the relevant determination as being required to purchase such amount of such Other Currency as at the relevant Early Termination Date or, if the relevant Market Operation or Loss (or the case may be), is determined as of a later date, that later date, with the Termination Currency at the rate equal to the spot exchange rate of the foreign exchange agent (selected as provided below) for the purchase of such Other Currency with the Termination Currency at or about 11:00 a.m. (or in the city in which such foreign exchange agent is located) on such date so would be customary for the determination of such a rate for the purchase of such Other Currency for value on the relevant Early Termination Date or that later date. The foreign exchange agent will, if only one party is obligated to make a determination under Section 6(e), be selected in good faith by that party and otherwise will be agreed by the parties.

“Termination Event” means an Insolvency, a Tax Event or a Tax Event Upon Merger or, if specified to be applicable, a Credit Event Upon Merger or an Additional Termination Event.

“Termination Rate” means a rate per annum equal to the arithmetic mean of the rate (without proof or evidence of any actual cost) to each party (as certified by such party) if it were to fund or of funding such amounts.

“Undefeated Amount” owing to any party means, with respect to an Early Termination Date, the aggregate of (a) in respect of all Terminated Transactions, the amounts that became payable (or that would have become payable but for Section 2(a)(iii) of such party under Section 2(a)(ii) or prior to such Early Termination Date and which remain unpaid as at such Early Termination Date and (b) in respect of each Terminated Transaction, for each obligation under Section 2(a)(i) which was (or would have been) but for Section 2(a)(iii) required to be settled by delivery to such party on or prior to such Early Termination Date and which has not been so settled as at such Early Termination Date, an amount equal to the Site mark.
value of that which was (or would have been) required to be delivered as of the originally scheduled date for delivery, in each case together with (or to the extent permitted under applicable law) interest, in the currency of such amounts, from (and including) the date such amounts or obligations were or would have been required to have been paid or performed as (not including) each applicable Date, at the Applicable Rate. Each amount of Earnest will be calculated on the basis of daily compounding and the actual number of days elapsed. The fair market value of any obligations referred to in clause (b) above shall be reasonably determined by the party obligated to make the determination under Section 16.1. Each party is or is alleged, it shall be the average of the Yen-based Currency Equivalents of the fair market value reasonably determined by each party.

In Witness Whereof the parties have caused this document to be executed as specified below with effect from the date specified on the first page of this document.

value of the amount required to be delivered as of the originally scheduled date for delivery, in each case together with (b) the accrued interest, in the currency of such amounts, from (and including) the date such amounts or obligations were or would have been required to have been paid or performed to (but excluding) such Early Termination Date, at the Applicable Rate. Such amounts of interest will be calculated on the basis of daily compounding and the actual number of days elapsed. The fair market value of any obligation referred to in clause (b) above shall be reasonably determined by the party obligated to make the determination under Section 4(v) or, if each party is so obligated, it shall be the average of the Termination Currency Equivalents of the fair market values reasonably determined by both parties.

IN WITNESS WHEREOF the parties have executed this document on the respective dates specified below with effect from the date specified on the first page of this document.

ISDA ¶ 1992
SCHEDULE

to the
ISDA MASTER AGREEMENT

dated as of
December 1, 2006

between
GOLDMAN SACHS INTERNATIONAL,
a company organized under the law of England and Wales
(“GSI”),

and
HUDSON MEZZANINE FUNDING 2006-1, LTD.,
a corporation incorporated under the laws of the Cayman Islands
(“Counterparty”)

(a) “Specified Entity”

(ii) means, in relation to Counterparty, none for the purpose of Sections 5(a)(v), 5(a)(vii), 5(a)(viii) and 5(b)(iv).

(b) “Specified Transaction”. The term “Specified Transaction” in Section 14 of the Agreement is amended in its entirety as follows:

“Specified Transaction” means, subject to the Schedule, (a) any transaction (including an agreement with respect thereto) now existing or hereafter entered into between one party to this Agreement (or any Credit Support Provider of such party or any applicable Specified Entity of such
party) and the other party to this Agreement (or any Credit Support Provider of such other party or any applicable Specified Entity of such other party) (i) which is a rate swap transaction, swap option, basis swap, forward rate transaction, commodity swap, commodity option, commodity spot transaction, equity or equity index swap, equity or equity index option, bond option, interest rate option, foreign exchange transaction, cap transaction, floor transaction, collar transaction, currency swap transaction, cross-currency rate swap transaction, currency option, weather swap, weather derivative, weather option, credit protection transaction, credit swap, credit default swap, credit default option, total return swap, credit spread transaction, repurchase transaction, reverse repurchase transaction, buy/sell-back transaction, securities lending transaction, or forward purchase or sale of a security, commodity or other financial instrument or interest (including any option with respect to any of these transactions) or (ii) which is a type of transaction that is similar to any transaction referred to in clause (i) that is currently, or in the future becomes, recurrently entered into the financial markets (including terms and conditions incorporated by reference in such agreements) and that is a forward, swap, future, option or other derivative on one or more rates, currencies, commodities, equity securities or other equity instruments, debt securities or other debt instruments, or economic indices or measures of economic risk or value, (b) any combination of these transactions and (c) any other transaction identified as a Specified Transaction in this agreement or the relevant confirmation."

(c) The "Breach of Agreement" provisions of Section 5(a)(ii) will not apply to GSI and will not apply to Counterparty.

(d) The "Credit Support Default" provisions of Section 5(a)(iii) will apply to GSI and will apply to Counterparty, but, in respect of Counterparty, shall be amended as follows:

(i) Section 5(a)(iii)(1) shall take effect with the words "relating to payment, delivery of collateral or the establishment or maintenance of, deposit to or withdrawal from the Collateral Account (as defined in the Indenture)" inserted after the words "any agreement or obligation" and by inserting the words "and, for the avoidance of doubt, a default in the payment of any interest on a Class E Note while the Senior Swap or a Class S Note, Class A Note, Class B Note, Class C Note or Class D Note is outstanding or, a default in the payment of any interest on a Class D Note while the Senior Swap or a Class S Note, Class A Note, Class B Note or Class C Note is outstanding or, a default in the payment of any interest on a Class C Note while the Senior Swap or a Class S Note, Class A Note or Class B Note is outstanding will not constitute a "Credit Support Default" hereunder" at the end of such Section 5(a)(iii)(1).
(ii) Section 5.5(3)(b)(2) shall be replaced in its entirety by the following: “the expiration or termination of such Credit Support Document or the failure or ceasing of such Credit Support Document, or any security interest granted by such party or such Credit Support Provider to the other party pursuant to any such Credit Support Document, to be in full force and effect for the purpose of this Agreement (in each case other than in accordance with its terms) prior to the satisfaction of all obligations of such party under each Transaction to which such Credit Support Document relates without the written consent of the other party; or”.

c) The "Misrepresentation" provisions of Section 5(a)(iv) will not apply to GSI and will not apply to the Counterparty.

d) The "Default Under Specified Transaction" provisions of Section 5(a)(v) will not apply to GSI and will not apply to the Counterparty.

e) The "Cross Default" provisions of Section 5(a)(vi) will not apply to GSI and will not apply to Counterparty.

f) The "Bankruptcy" provisions of Section 5(a)(vii) will apply to GSI and will apply to Counterparty, but, in respect of Counterparty, shall be amended as follows:

(i) Sections 5(a)(vii)(2) shall not apply,

(ii) Section 5(a)(vii)(3) shall take effect with the words "the Noteholders" substituted for "its creditors";

(iii) The words "(which, for the avoidance of doubt, shall not be construed as meaning the Trustee appointed pursuant to the Issue of the Notes)" shall be added after the word "trustee" in Section 5(a)(vii)(6),

(iv) Section 5(a)(vii)(6) and (7) shall take effect with the words "its assets comprised in the Pledged Assets (as defined in the Indenture)" substituted for "all or substantially all its assets", and

(v) Section 5(a)(vii)(8) shall take effect with reference to the other clauses of Section 5(a)(vii) as amended by this Part 1(b) of the Schedule.

(i) The "Credit Event Upon Merger" provisions of Section 5(b)(vi) will not apply to GSI and will not apply to Counterparty.

(ii) The "Automatic Early Termination" provision of Section 6(a) will not apply to GSI and will not apply to Counterparty.

(k) Payments on Early Termination. For the purpose of Section 6(e):

(i) Market Quotation will apply.
(ii) The Second Method will apply.

(i) "Termination Currency" means United States Dollars.

(m) The parties agree to amend the following subsections of Section 5(a) as follows:

(i) clause (i): in the third line of this clause, delete the word "third" and insert the word "fifth."

(ii) clause (ii): in the fifth line of this clause, delete the word "thirtieth" and insert the word "fifth;" and

(iii) clause (vii)(d): delete, following the word "liquidation" in line 9, the clause beginning with "and, in the case of" and ending with the word "thereof" in line 13; and in Clause (vii)(e): delete, following the word "assets" in line 19, the clause beginning with "and such secured party" and ending with the word "thereafter" in line 21, to eliminate the 10-day grace period.

(n) Additional Terminations Event will apply.

(l) Each of the following shall constitute an Additional Termination Event with respect to Counterparty:

a. It shall be an Additional Termination Event if an Event of Default (as defined in the Indenture) with respect to the Notes occurs and is continuing and there has been a liquidation (in whole), or the commencement of a liquidation (in whole), of the assets of Counterparty as set forth in the Indenture.

b. It shall be an Additional Termination Event if Counterparty redeems the Secured Notes in full pursuant to the Indenture (from proceeds at least equal to the applicable Secured Redemption Price) or the outstanding principal balance of the Secured Notes amortizes down to zero.

c. It shall be an Additional Termination Event if the Indenture is supplemented or amended without the consent of GSI and such supplement or amendment affects the provisions governing the rights of the Credit Protection Buyer (as such term is defined in the Indenture) and has, in the reasonable judgment of GSI, a material adverse effect on GSI, provided, however, that such consent shall not be unreasonably withheld or delayed by GSI, provided further that GSI has notified the Counterparty that such supplement or amendment would have a material adverse effect on GSI after GSI has received notice of any such supplement or amendment in accordance with Section 8.1(g) of the Indenture.

d. It shall be an Additional Termination Event if GSI, in its capacity as Credit Protection Buyer is no longer a Secured Party under the Indenture.
or if the Trustee's security interest in the Collateral and the Collateral Account is impaired or no longer existing.

For the purpose of each of the foregoing Additional Termination Events, the Affected Party shall be the Counterparty.

(ii) The following shall constitute an Additional Termination Event with respect to GSI.

Failure by GSI to take any action required under the ratings downgrade provision set forth below, unless the Rating Agency Condition (as defined herein) has been satisfied notwithstanding such failure.

(i) In the event that any Notes rated by S&P remain outstanding and the unsecured, unsubordinated debt rating of GSI or GSI's Credit Support Provider, whichever is higher, assigned by S&P at any time falls below "AA-" (or is on downgrade watch at "AA-") for its long term rating and GSI shall fail to make the Expected Fixed Payment as set forth in the related Confirmation, GSI shall, or shall cause its Credit Support Provider to, within 30 days of the date of such downgrade:

(A) transfer all of its rights and obligations under this Agreement to another entity which has such required ratings; or

(B) cause an entity with such required ratings to guarantee or provide an indemnity in respect of GSI's or its Credit Support Provider's obligations under this Agreement in a manner which satisfies the Rating Agency Condition with respect to S&P.

(ii) In the event that any Notes rated by Moody's remain outstanding and the unsecured, unsubordinated debt rating of GSI or GSI's Credit Support Provider, whichever is higher, assigned by Moody's at any time falls below "Aa3" for its long term rating (or is on downgrade watch at "Aa3"), and GSI shall fail to make the Expected Fixed Payment as set forth in the related Confirmation, GSI shall, or shall cause its Credit Support Provider to, within 30 days of the date of such downgrade:

(A) transfer all of its rights and obligations under this Agreement to another entity which has such required ratings; or

(B) cause an entity with such required ratings to guarantee or provide an indemnity in respect of GSI's or its Credit Support Provider's obligations under this Agreement in a manner which satisfies the Rating Agency Condition with respect to Moody's.

(iii) For the avoidance of doubt, GSI shall be responsible for:

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822079
Footnote Exhibits - Page 4258

(i) locating a party with the required ratings to transfer (within 30 days and at its own cost) all its interest in and obligations under this Agreement or to guarantee or provide an indemnity in respect of, its obligations under this Agreement or to post collateral in accordance with the CSA; and

(ii) any cost incurred by it in complying with its obligations under this Part 1(n).

(iv) In the event that any Notes rated by S&P remain outstanding and the unsecured, unsubordinated debt rating of GSI or GSI’s Credit Support Provider, whichever is higher, assigned by S&P at any time falls below “BBB+” for its long term rating and GSI or GSI’s Credit Support Provider posts collateral under a CSA, GSI shall, or shall cause its Credit Support Provider to, within 30 days of the date of such downgrade to provide to Counterparty an opinion as to the enforceability of such CSA, subject to customary and usual assumptions, carveouts and exceptions.

For the purpose of each of the foregoing Additional Termination Events, the Affected Party shall be GSI and all Transactions shall be Affected Transactions.

Part 2. Tax Representations

(a) Payor Tax Representations. For the purposes of Section 3(c), GSI and Counterparty make the following representation:

It is not required by any applicable law, as modified by the practice of any relevant governmental revenue authority, of any Relevant Jurisdiction to make any deduction or withholding for or on account of any Tax from any payment (other than interest under Section 2(e), 6(d)(ii), or 6(c) of this Agreement) to be made by it to the other party under this Agreement. In making this representation, it may rely on (i) the accuracy of any representations made by the other party pursuant to Section 3(f) of this Agreement, (ii) the satisfaction of the agreement contained in Section 4(a)(i) or 4(a)(ii) of this Agreement, and the accuracy and effectiveness of

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822080
any document provided by the other party pursuant to Section 4(a)(i) or 4(a)(ii) of this Agreement, and (ii) the satisfaction of the agreement of the other party contained in Section 4(d) of this Agreement, provided that it shall not be a breach of this representation where reliance is placed on clause (ii) and the other party does not deliver a form or document under Section 4(a)(iii) by reason of material prejudice to its legal or commercial position.

(b) Payee Tax Representations. For the purpose of Section 3(f), GSI and Counterparty make the following representation: Not Applicable.

Part 3. Agreement to Deliver Documents

(a) For the purpose of Section 4(a), Tax forms, documents, or certificates to be delivered are:

none

(b) Other documents to be delivered are:

<table>

GS MBS-E-021822082
(b) Process Agent. For the purpose of Section 13(c):
GSI appoints as its Process Agent:
Not applicable.
Counterparty appoints as its Process Agent:
CT Corporation, 111 Eighth Avenue, New York, New York 10011

(c) Offices. The provisions of Section 10(a) will apply to this Agreement.

(d) Multibranch Party. For the purpose of Section 10(c):
GSI is not a Multibranch Party.
Counterparty is not a Multibranch Party.

(e) Calculation Agent. The Calculation Agent is GSI.

(f) Credit Support Document. The Indenture shall constitute a Credit Support Document with respect to the obligations of Counterparty. Details of any other Credit Support Document, each of which is incorporated by reference in, and made part of, this Agreement and each Confirmation (unless provided otherwise in a Confirmation) as if set forth in full in this Agreement or such Confirmation:

(i) Each of the Guaranty by The Goldman Sachs Group, Inc. ("Goldman Group") in favor of Counterparty as beneficiary thereof and, if a Credit Support Annex is entered into between Counterparty and GSI, such Credit Support Annex, shall constitute a Credit Support Document with respect to the obligations of GSI.

(g) Credit Support Provider.
Credit Support Provider means in relation to GSI, Goldman Group.
Credit Support Provider means in relation Counterparty, none.

(h) Governing Law. Section 13(a) is hereby replaced with the following:

(a) Governing Law. This Agreement and each Transaction entered into hereunder will be governed by, and construed and enforced in accordance with, the law of the State of New York.

(i) Jurisdiction. Section 13(b) is hereby amended by:

(i) deleting in the second line of subparagraph (i) thereof the word "non-"; and
Footnote Exhibits - Page 4262

(ii) deleting the final paragraph thereof.

(i) **Netting of Payments.** Subparagraph (ii) of Section 2(c) will not apply to Transactions. Notwithstanding anything to the contrary in Section 2(c), unless otherwise expressly agreed by the parties, the netting provided for in Section 2(e) will not apply separately to any pairings of branches or Offices through which the parties make and receive payments or deliveries.

(k) "Affiliate" will have the meaning specified in Section 14 of this Agreement; provided that Counterparty shall be deemed to have no Affiliates other than Hudson Mezzanine Funding 2006-1, Corp.

(f) Notwithstanding any provision of this Agreement or any other existing or future agreement, each party irrevocably waives any and all rights it may have to set off, net, recoup or otherwise withhold or suspend or condition payment or performance of any obligation between it and the other party hereunder against any obligation between it and the other party under any other agreements.

Part 5. **Other Provisions**

(a) **Accuracy of Specified Information.** Section 3(b) is hereby amended by adding in the third line thereof after the word "respect" and before the period, the phrase "or, in the case of audited or unaudited financial statements, a fair presentation of the financial condition of the relevant person."

(b) [Reserved].

(c) **Additional Representations.** The parties agree to amend Section 3 by adding new Sections 3(g), (b), and (c) as follows:

(g) **Non-Reliance.** It is acting for its own account, and it has made its own independent decisions to enter into that Transaction and as to whether that Transaction is appropriate or proper for it based upon its own judgment and upon advice from such advisers as it has deemed necessary. It is not relying on any communication (written or oral) of the other party as investment advice or as a recommendation to enter into that Transaction; it being understood that information and explanations related to the terms and conditions of a Transaction shall not be considered investment advice or a recommendation to enter into that Transaction. No communication (written or oral) received from the other party shall be deemed to be an assurance or guarantee as to the expected results of that Transaction.

(h) **Assessment and Understanding.** It is capable of assessing the merits of and understanding (on its own behalf or through independent professional advice), and understands and accepts, the terms, conditions and risks of that Transaction. It is also capable of assuming, and assumes, the risks of that Transaction.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822084
Footnote Exhibits - Page 4263

(i) Status of Parties. The other party is not acting as a fiduciary for
or an adviser to it in respect of that Transaction.

(d) Non-Petition. GSI agrees that it will not, prior to the date following the payment
in full of all of the Notes and the expiration of a period of one year and one day
thereafter and any additional applicable preference periods then in effect under
the United States Bankruptcy Code or other applicable law relating to any such
payment, acquiesce, petition or otherwise invoke the process of any governmental
authority for the purpose of commencing a case (whether voluntary or
involuntary) against Counterparty under any bankruptcy, insolvency or similar
law or appointing a receiver, liquidator, assignee, trustee, custodian, reorganization
or other similar official of Counterparty or any substantial part of its property or
ordering the winding up or liquidation of the affairs of Counterparty; provided,
however, that this shall not restrict or prohibit GSI from joining in any existing
bankruptcy, reorganization, arrangement, insolvency, moratorium or liquidation
proceedings or other analogous proceedings under applicable laws. This "Non-
Petition" paragraph shall survive termination of this Agreement.

Limited Recourse to Counterparty. Notwithstanding anything to the contrary
contained herein, the obligations of Counterparty under this Agreement will
constitute limited recourse obligations of Counterparty payable solely from the
Collateral in accordance with the Indenture and following realization of the
Collateral any obligations of Counterparty and any claim against Counterparty
under this Agreement shall be extinguished and shall not thereafter revive. None
of the agents, partners, beneficiaries, officers, directors, employees, shareholders
or any Affiliate of Counterparty or any of their respective successors or assigns
shall be personally liable for any amounts payable, or performance due, under this
Agreement. It is understood that the foregoing provisions of this paragraph shall
not (i) prevent recourse to the Collateral for the sums due or to become due under
any security, instrument or agreement which is part of the Collateral or (ii)
constitute a waiver, release or discharge of any obligation under this Agreement
until all such Collateral has been realized and applied in accordance with the
Indenture, whereupon any outstanding obligation shall be extinguished and shall
not thereafter revive. It is further understood that the foregoing provisions of this
paragraph shall not limit the right of GSI to declare an Event of Default with
respect to Counterparty or to name Counterparty as a party defendant in any
action or suit or in the exercise of any other remedy under this Agreement, so long
as no judgment in the nature of a deficiency judgment or seeking personal liability
shall be asked for or (if obtained) enforced against Counterparty. This "Limited
Recourse to Counterparty" paragraph shall survive termination of this Agreement.

(e) No Transfer without Prior Satisfaction of the Rating Agency Conditions.
Section 7 of this Agreement is hereby amended by inserting (i) the following
immediately after the words "other party" and immediately before the words ",
except that:" "and unless the Rating Agency Condition (as defined herein) is
satisfied with respect to such transfer," (ii) in clause (a) the words "or
These exhibits are confidential and are the property of Goldman Sachs. Under no circumstances may they be reproduced or used without the written permission of Goldman Sachs.
"Trustee" means The Bank of New York Trust Company, National Association, as trustee, pursuant to the Indenture.

(1) Consent to Recording. Each party consents to the recording of telephone conversations between the trading, marketing and other relevant personnel of the parties, with or without the use of a warning tone, and their Affiliates in connection with this Agreement or any potential Transaction.

(2) Definitions. The definition of "Termination Currency Equivalent" in Section 14 is hereby amended by deleting in its entirety the text after the first three lines thereof and replacing it with the following:

"by the party making the relevant determination in any commercially reasonable manner as being required to purchase such amount of such Other Currency as at the relevant Early Termination Date, or, if the relevant amount determined in accordance with Section 6(e) is determined as of a later date, that later date, for value on the date the payment or settlement payment is due."

The definition of "Affected Transactions" in Section 14 is hereby amended by deleting in its entirety the text after the word "measure" in the first line thereof and replacing it with the following:

"with respect to any Termination Event, all Transactions which are Transactions under which such Termination Event occurs."
IN WITNESS WHEREOF, the parties have executed this document on the respective dates specified below with effect from the dates specified on the first page of this document.

GS MBS-E-021822089
CONFIRMATION

DATE: December 1, 2006

TO: Hudson Mezzanine Funding 2006-1, Ltd.

FROM: Goldman Sachs International
       Credit Derivatives Middle Office
       Telephone No.: 1 212 357 2610
       Facsimile No.: 1 212 428 9189

RE: Credit Derivative Transaction on Asset-Backed Securities with Pay-As-You-Go
    as Physical Settlement (RMBS)

REF NO: See Annex C

The purpose of this letter (the "Confirmation") is to confirm the terms and conditions of the
Credit Derivative Transaction entered into on the Trade Date specified below (each, a
Component Transaction, and collectively, the "Transaction") by Goldman Sachs International
("GSI"), guaranteed by The Goldman Sachs Group, Inc. ("Goldman Group"), and Hudson
Mezzanine Funding 2006-1, Ltd. ("Counterparty"). This Confirmation constitutes a
"Confirmation" as referred to in the ISDA Master Agreement specified below.

This Confirmation is subject to, and incorporates by reference, the 2003 ISDA Credit Derivatives
Definitions (the "Credit Derivatives Definitions"), as published by the International Swaps and
Derivatives Association, Inc. ("ISDA"). This Confirmation supplements, forms a part of and is
subject to the ISDA Master Agreement dated as of December 1, 2006 (the "Agreement")
between GSI and Counterparty. All provisions contained in, or incorporated by reference to, the
Agreement shall govern this Confirmation except as expressly modified below. In the event of
any inconsistency between this Confirmation, the Credit Derivatives Definitions, or the
Agreement, as the case may be, this Confirmation will control for purposes of each Component
Transaction to which this Confirmation relates.

References in this Confirmation to a "Reference Obligation" shall be to the terms of such
Reference Obligation (as defined below) set out in the related Underlying Instruments (as
defined below) as amended from time to time unless otherwise specified below.

GSI and Counterparty agree that, by entering into this Transaction, they have entered into a
separate and independent Credit Derivative Transaction (a "Component Transaction") in respect
of each Reference Obligation listed in Annex C attached hereto. A confirmation in the form of
this Confirmation shall be deemed to be entered into in respect of each such Component
Transaction evidencing the provision of credit default protection with respect to a Credit Event
of each such Reference Entity and each such Reference Obligation and that accordingly there
may be more than one Credit Event, more than one Physical Settlement amount and more than
one Physical Settlement Date and that the Definitions (and in particular the definition of
"Termination Date") should, for the purposes of this Confirmation, be interpreted accordingly.
Thus relevant sections of the Definitions (including but not limited to Sections 1.8, 3.2 and 7.8)

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822090
shall be continued to apply separately with respect to each Reference Entity or Reference Obligation, as applicable, except as otherwise provided in this Confirmation.

Each Component Transaction (a) constitutes a separate and independent Credit Derivative Transaction between GSI and Counterparty with respect to a Reference Obligation listed in Annex C attached hereto, (b) shall not be affected by any other Credit Derivative Transaction between GSI and Counterparty and (c) shall operate independently of each other Component Transaction in all respects.

The terms of the each Component Transaction to which this Confirmation relates are as follows:

1. **General Terms:**
   - **Trade Date:** December 1, 2006
   - **Effective Date:** December 5, 2006
   - **Scheduled Termination Date:** Subject to paragraph 5, for each Reference Obligation, the Legal Final Maturity Date set forth in Annex C attached hereto, subject to adjustment in accordance with the Following Business Day Convention.
   - **Termination Date:** The last to occur of:
     - (a) the fifth Business Day following the Effective Maturity Date;
     - (b) the last Floating Rate Payer Payment Date;
     - (c) the last Delivery Date; and
     - (d) the last Additional Fixed Amount Payment Date.
   - **Floating Rate Payer:** Counterparty (the "Seller")
   - **Fixed Rate Payer:** GSI (the "Buyer")
   - **Calculation Agent:** GSI
   - **Calculation Agent City:** New York
   - **Business Day:** New York, Houston and London

Confidential Treatment Requested by Goldman Sachs
Business Day Convention:
Following (which, with the exception of the Effective Date, the Final Amortization Date, each Reference Obligation Payment Date and the period end date of each Reference Obligation Calculation Period, shall apply to any date referred to in this Confirmation that falls on a day that is not a Business Day).

Reference Entity:
The relevant Reference Entity identified in Annex C attached hereto. References herein to "Issuer" shall mean the Reference Entity for the relevant Component Transaction.

Reference Obligation:
The obligation identified in Annex C attached hereto for the relevant Reference Entity.

"Original Principal Amount" shall mean the amount set forth in Annex C hereto for the relevant Reference Obligation.

"Initial Factor" shall mean the amount set forth in Annex C hereto for the relevant Reference Obligation.

Issuer: Not Applicable.

Section 2.30 of the Credit Derivatives Definitions shall not apply.

Reference Policy:
Not Applicable.

Reference Price:
100%

Applicable Percentage:
On any day, a percentage equal to A divided by B.

"A" means the product of the Initial Face Amount and the Initial Factor as decreased on each Delivery Date by an amount equal to (a) the outstanding principal balance of Deliverable Obligations Delivered to Seller (as adjusted by the Relevant Amount, if any) divided by the Current Factor on such day multiplied by (b) the Initial Factor.

"B" means the product of the Original Principal Amount and the Initial Factor:

(a) as increased by the outstanding principal balance of any further issues by the Reference Entity that are fungible with and form part of

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822092
the same legal series as the Reference Obligation; and

(b) as decreased by any cancellations of some or all of the Outstanding Principal Amount resulting from purchases of the Reference Obligation by or on behalf of the Reference Entity.

Initial Face Amount:
For each Reference Obligation, the Initial Face Amount set forth in Annex C attached hereto.

Reference Obligation Notional Amount:
On the Effective Date, the product of:
(a) the Original Principal Amount;
(b) the Initial Factor; and
(c) the Applicable Percentage.

Following the Effective Date, the Reference Obligation Notional Amount will be:
(i) decreased on each day on which a Principal Payment is made by the relevant Principal Payment Amount;
(ii) decreased on each day on which a Failure to Pay Principal occurs by the relevant Principal Shortfall Amount;
(iii) decreased on each day on which a Write-Down occurs by the relevant Write-Down Amount;
(iv) increased on each day on which a Write-Down Reimbursement occurs by any Write-Down Reimbursement Amount in respect of a Write-Down Reimbursement within paragraphs (ii) or (iii) of the definition of "Write-Down Reimbursement", and
(v) decreased on each Delivery Date by an amount equal to the relevant Exercise Amount minus the amount determined pursuant to paragraph (b) of "Physical Settlement Amount" below, provided that if any Relevant Amount is applicable, the Exercise Amount will also be deemed to be decreased by such amount.
Relevant Amount (or increased by the absolute value of such Relevant Amount if such Relevant Amount is negative) with effect from such Delivery Date;

provided that if the Reference Obligation National Amount would be less than zero, it shall be deemed to be zero.

Initial Payment: Not applicable

2. Fixed Payments:

Fixed Rate Payer: Buyer

Fixed Rate: The relevant Fixed Rate (expressed on a per annum basis) set forth in Annex C attached hereto corresponding to the relevant Reference Obligation, subject to adjustment in accordance with paragraph 5 below.

Fixed Rate Payer Period End Date: The first day of each Reference Obligation Calculation Period.

Fixed Rate Payer Payment Dates: Each day falling five Business Days after a Reference Obligation Payment Date; provided that the final Fixed Rate Payer Payment Date shall fall on the fifth Business Day following the Effective Maturity Date.

Fixed Amount: (I) With respect to any Fixed Rate Payer Payment Date on which the senior unsecured debt ratings of GS or the Goldman Group, whichever is higher, is at least "AA-" by S&P (and, if rated "AA-" is not on downgrade watch) and at least "Aa3" by Moody's (and, if rated "Aa3", is not on downgrade watch), an amount equal to the product of:

(a) the Fixed Rate;

(b) an amount determined by the Calculation Agent equal to (i) the sum of the Reference Obligation National Amount at 5:00 p.m. in the Calculation Agent City on each day in the related Fixed Rate Payer Calculation Period divided by (ii) the actual number of days in the related Fixed Rate Payer Calculation Period; and

(c) the actual number of days in the related Fixed
Rate Payer Calculation Period divided by 360.

(II) With respect to any Fixed Rate Payer Payment Date on which the senior unsecured debt ratings of GS1 or the Goldman Group, whichever is higher, is below "AA-" by S&P (or, if it is "AA-", is on downgrade watch) or below "Aa3" by Moody's (or, if it is "Aa3", is on downgrade watch), an amount equal to the greater of (a) zero and (b) the Expected Fixed Amount with respect to such Fixed Rate Payer Payment Date.

(III) With respect to the Fixed Rate Payer Payment Date immediately following the downgrade of the senior unsecured debt ratings of GS1 or the Goldman Group, whichever is higher, to lower than "AA-" by S&P or "Aa3" by Moody's (or if it is "AA-" or "Aa3", the placement on watch for possible downgrade by S&P or Moody's, respectively), the sum of the amounts calculated pursuant to (I) and (II) above shall be payable with respect to such Fixed Rate Payer Payment Date only.

Expected Fixed Amount:
With respect to any Fixed Rate Payer Payment Date, an amount equal to (a) the Fixed Amount for the next succeeding Fixed Rate Payer Calculation Period as calculated pursuant to clause (I) under "Fixed Amount" above, assuming that the Reference Obligation Notional Amount on each day in such Fixed Rate Payer Calculation Period is equal to the Reference Obligation Notional Amount on the last day of the Fixed Rate Payer Calculation Period relating to the Fixed Rate Payer Payment Date on which the payment is being made, plus (b) the difference (which may be positive or negative) between the Expected Fixed Amount paid on the prior Fixed Rate Payer Payment Date, if any, over the Fixed Amount for such Fixed Rate Payer Payment Date as calculated pursuant to clause (I) under "Fixed Amount" above.

Additional Fixed Amount Payment Dates:
(a) Each Fixed Rate Payer Payment Date; and

(b) in relation to each Additional Fixed Payment Event occurring after the second Business Day prior to the last Fixed Rate Payer Payment Date, the fifth Business Day after Buyer has received notification

Confidential Treatment Requested by Goldman Sachs
GS MBS-E-021822095
Footnote Exhibits - Page 4274

from Seller or the Calculation Agent of the occurrence of such Additional Fixed Payment Event.

Additional Fixed Payments:

Following the occurrence of an Additional Fixed Payment Event in respect of the Reference Obligation, Buyer shall pay the relevant Additional Fixed Amount to Seller on the first Additional Fixed Amount Payment Date falling at least two Business Days (or in the case of an Additional Fixed Payment Event that occurs after the second Business Day prior to the last Fixed Rate Payment Date, the fifth Business Day) after the delivery of a notice by the Calculation Agent to the parties or by Seller to Buyer stating that the related Additional Fixed Amount is due and showing in reasonable detail how such Additional Fixed Amount was determined; provided that any such notice must be given on or prior to the fifth Business Day following the day that is one calendar year after the Effective Maturity Date.

Additional Fixed Payment Event:

The occurrence on or after the Effective Date and on or before the day that is one calendar year after the Effective Maturity Date of a Writedown Reimbursement, Principal Shortfall Reimbursement or an Interest Shortfall Reimbursement.

Additional Fixed Amount:

With respect to each Additional Fixed Amount Payment Date, an amount equal to the sum of:

(a) the Writedown Reimbursement Payment Amount (if any);

(b) the Principal Shortfall Reimbursement Payment Amount (if any); and

(c) the Interest Shortfall Reimbursement Payment Amount (if any).

Writedown Reserve Requirement:

Upon receipt of any Writedown Amount, if the long-term rating of Buyer or any guarantor of Buyer's obligations under this Confirmation (whichever is higher) is below "AA-" by S&P (or such rating has been withdrawn), Buyer shall reserve with Seller the related Writedown Reserve Amount, if any.

Writedown Reserve Amounts:

With respect to any Writedown Amount received with respect to which there is a Writedown Reserve Requirement, the excess, if any, of (i) the product of

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822096
(1) the related Reference Obligation Amortized Amount of such Reference Obligation and (2) the Current Market Price of such Reference Obligation over (ii) the Reference Obligation Notional Amount.

If on any date Buyer shall be obligated to pay to Seller any Additional Fixed Amount in respect of such Reference Obligation but Buyer fails to do so, the Write-down Reserve Amount, if any, reserved with Seller shall be applied to pay such Additional Fixed Amounts.

3. Floating Payments:

Floating Rate Payer: Seller

Floating Rate Payer Payment Dates: In relation to a Floating Amount Event, the first Fixed Rate Payer Payment Date falling at least two Business Days (or in the case of a Floating Amount Event that occurs on the Legal Final Maturity Date or the Final Amortization Date, the fifth Business Day) after delivery of a notice by the Calculation Agent to the parties or a notice by Buyer to Seller that the related Floating Amount is due and showing in reasonable detail how such Floating Amount was determined; provided that in the case of a Floating Amount Event that occurs on the Legal Final Maturity Date or the Final Amortization Date, such notice must be given on or prior to the fifth Business Day following the Legal Final Maturity Date or the Final Amortization Date, as applicable.

Floating Payments: If a Floating Amount Event occurs, then on the relevant Floating Rate Payer Payment Date, Seller will pay the relevant Floating Amount to Buyer. For the avoidance of doubt, the Conditions to Settlement are not required to be satisfied in respect of a Floating Payment.

Floating Amount Event: A Write-down, Failure to Pay Principal or an Interest Shortfall.

Floating Amount: With respect to each Floating Rate Payer Payment Date, an amount equal to the sum of:

(a) the relevant Write-down Amount (if any);
(b) the relevant Principal Shortfall Amount (if any); and
Footnote Exhibits - Page 4276

(c) the relevant Interest Shortfall Payment Amount (if any).

For the avoidance of doubt, each Written Down Amount, Principal Shortfall Amount or Interest Shortfall Payment Amount (as applicable) shall be calculated using the Applicable Percentage which takes into account the aggregate adjustment made to the Applicable Percentage in respect of all Delivery Dates that have occurred prior to the date of such calculation.

Conditions to Settlement: Credit Event Notice
Notifying Party: Buyer
Notice of Publicly Available Information: Notice of Physical Settlement
Public Sources: The public sources listed in Section 3.7 of the Credit Derivatives Definitions; provided that Servicer Reports in respect of the Reference Obligation and, in respect of a Distressed Ratings Downgrade Credit Event only, any public communications by any of the Rating Agencies in respect of the Reference Obligation shall also be deemed Public Sources.
Specified Number: 1

provided that if the Calculation Agent has previously delivered a notice to the parties or Buyer has previously delivered a notice to Seller pursuant to the definition of "Floating Rate Payer Payment Dates" above in respect of a Written Down or a Failure to Pay Principal, the only Condition to Settlement with respect to any Credit Event shall be a Notice of Physical Settlement.

The parties agree that with respect to each Component Transaction and notwithstanding anything to the contrary in the Credit Derivatives Definitions:

(a) the Conditions to Settlement may be satisfied on more than one occasion;

Confidential Treatment Requested by Goldman Sachs
(b) multiple Physical Settlement Amounts may be payable by Seller;

(c) Buyer, when providing a Notice of Physical Settlement, must specify an Exercise Amount and an Exercise Percentage;

(d) if Buyer has delivered a Notice of Physical Settlement that specifies an Exercise Amount that is less than the Reference Obligation Notional Amount as of the date on which such Notice of Physical Settlement is delivered (calculated as though Physical Settlement in respect of all previously delivered Notices of Physical Settlement has occurred in full), the rights and obligations of the parties under the Component Transaction shall continue and Buyer may deliver additional Notices of Physical Settlement with respect to the initial Credit Event or with respect to any additional Credit Event at any time thereafter; and

(e) any Notice of Physical Settlement shall be delivered no later than 30 calendar days after the fifth Business Day following the earlier of the Effective Maturity Date and the Optional Step-up Early Termination Date.

Section 3.2(d) of the Credit Derivatives Definitions is amended to delete the words "that is effective no later than thirty calendar days after the Event Determination Date".

Credit Events: The following Credit Events shall apply to each Component Transaction (and the first sentence of Section 4.1 of the Credit Derivatives Definition shall be amended accordingly):

- Failure to Pay Principal
- Writedown
- Distressed Ratings Downgrade

Obligation: Reference Obligation Only

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822099
### 4. Interest Shortfall

**Interest Shortfall Payment Amount:**
In respect of an Interest Shortfall, the relevant Interest Shortfall Amount; provided that, if Interest Shortfall Cap is applicable and the Interest Shortfall Amount exceeds the Interest Shortfall Cap Amount, the Interest Shortfall Payment Amount in respect of such Interest Shortfall shall be the Interest Shortfall Cap Amount.

**Interest Shortfall Cap:**
Interest Shortfall Cap shall apply only in respect of those Component Transactions, if any, for which Interest Shortfall Cap is specified as being applicable on Annex C attached hereto.

**Interest Shortfall Cap Amount:**
As set out in Annex A attached hereto.

**Actual Interest Amount:**
With respect to any Reference Obligation Payment Date, payment by or on behalf of the Issuer of an amount in respect of interest due under the Reference Obligation including, without limitation, any deferred interest or defaulted interest, but excluding payments in respect of prepayment penalties or principal (except that the Actual Interest Amount shall include any payment of principal representing capitalized interest) paid to the holder(s) of the Reference Obligation in respect of the Reference Obligation.

**Expected Interest Amount:**
With respect to any Reference Obligation Payment Date, the amount of current interest that would accrue during the related Reference Obligation Calculation Period calculated using the Reference Obligation Coupon on a principal balance of the Reference Obligation equal to:

(a) the Outstanding Principal Amount taking into account any reductions due to a principal deficiency balance or realized loss amount (however described in the Underlying Instruments) that are attributable to the Reference Obligation, minus

(b) the Aggregate Impaired Writedown Amount (if any), and that will be payable on the related Reference Obligation Payment Date assuming for this purpose that sufficient funds are available therefor in
accordance with the Underlying Instruments.

Except as provided in (a) in the previous sentence, the
Expected Interest Amount shall be determined without
regard to (i) unpaid amounts in respect of accrued
interest on prior Reference Obligation Payment Dates,
or (ii) any prepayment penalties or yield maintenance
provisions, and in any case without regard to the effect
of any provisions (however described) of the
Underlying Instruments that otherwise permit the
limitation of due payments or distributions of funds
available from proceeds of the Underlying Assets, or
that provide for the capitalisation or deferral of interest
on the Reference Obligation, or that provide for the
extinguishing or reduction of such payments or
distributions (but, for the avoidance of doubt, taking
account of any Write-down within paragraph (i) of the
definition of "Write-down" occurring in accordance
with the terms of the Underlying Instruments).

Interest Shortfall:

With respect to any Reference Obligation Payment
Date, either (a) the non-payment of an Expected
Interest Amount or (b) the payment of an Actual
Interest Amount that is less than the Expected Interest
Amount.

For the avoidance of doubt, the occurrence of an event
within (a) or (b) shall be determined taking into
account any payment made under the Reference Policy,
if applicable.

Interest Shortfall Amount:

With respect to any Reference Obligation Payment
Date, an amount equal to the greater of:

(a) zero; and

(b) the amount equal to the product of:

(i) the Expected Interest Amount;

(ii) the Actual Interest Amount; and

provided that, with respect to the first Reference
Obligation Payment Date only, the Interest Shortfall
Amount shall be the amount determined in accordance
with (a) and (b) above multiplied by a fraction equal to:

12

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822101
Footnote Exhibits - Page 4280

(a) the number of days in the first Fixed Rate Payer Calculation Period; over

(b) the number of days in the first Reference Obligation Calculation Period.

Interest Shortfall Reimbursement: With respect to any Reference Obligation Payment Date, the payment by or on behalf of the Issuer of an Actual Interest Amount in respect of the Reference Obligation (including, for the avoidance of doubt, any payment of principal representing capitalized interest) that is greater than the Expected Interest Amount.

Interest Shortfall Reimbursement Amount: With respect to any Reference Obligation Payment Date, the product of (a) the amount of any Interest Shortfall Reimbursement on such day and (b) the Applicable Percentage.

Interest Shortfall Reimbursement Payment Amount: If Interest Shortfall Cap is not applicable, the relevant Interest Shortfall Reimbursement Amount. If Interest Shortfall Cap is applicable, the amount determined pursuant to Annex A attached hereto.

5. Consequences of Step-up of the Reference Obligation Coupon

Step-up provisions: The Step-up provisions shall apply only in respect of those Component Transactions, if any, for which the Step-up provisions are specified as being applicable on Annex C attached hereto.

If the Step-up provisions are applicable, then the following provisions of this paragraph 5 shall apply.

Step-up: On any day, an increase in the Reference Obligation Coupon due to the failure of the Issuer or a third party to redeem, cancel or terminate the Reference Obligation, as the case may be, in accordance with the Underlying Instruments.

Non-Call Notification Date: The date of delivery by the Calculation Agent to the parties or by Buyer to Seller of a Non-Call Notice.
Non-Call Notice: A notice given by the Calculation Agent to the parties or by Buyer to Seller that the Reference Obligation has not been purchased, redeemed, cancelled or terminated by the issuer or a third party, in accordance with the Underlying Instruments, pursuant to a “clean-up call” or other right to purchase, redeem, cancel or terminate (however described in the Underlying Instruments) the Reference Obligation, which failure will result in the occurrence of a Step-up.

Increase of the Fixed Rate: Subject to “Optional Step-up Early Termination” below, upon the occurrence of a Step-up, the Fixed Rate will be increased by the number of basis points by which the Reference Obligation Coupon is increased due to the Step-up, such increase to take effect as of the Fixed Rate Payment Date immediately following the Fifth Business Day after the Non-Call Notification Date.

Optional Step-up Early Termination: No later than five Business Days after the Non-Call Notification Date, Buyer shall notify Seller (such notification, a “Buyer Step-up Notice”) whether Buyer wishes to continue each affected Component Transaction at the increased Fixed Rate or to terminate such Component Transaction.

If Buyer elects to terminate a Component Transaction pursuant to the above, the date of delivery of the Buyer Step-up Notice shall be the Scheduled Termination Date (such date, the “Optional Step-up Early Termination Date”) and in such case “Increase of the Fixed Rate” in this paragraph 3 shall not apply.

No amount shall be payable by either party in respect of the Optional Step-up Early Termination Date other than any Fixed Amount, Additional Fixed Amount, Floating Amount or Physical Settlement Amount due in respect of such date. For the avoidance of doubt, the obligation of a party to pay any amount that has become due and payable under a Component Transaction and remains unpaid at the Optional Step-up Early Termination Date shall not be affected by the occurrence of the Optional Step-up Early Termination Date.
If Buyer fails to deliver the Buyer Step-up Notice by the fifth Business Day after the Non-Call Notification Date, Buyer shall be deemed to have elected to continue each affected Component Transaction at the increased Fixed Rate as described under “Increase of the Fixed Rate”.

If Buyer elects, or is deemed to have elected, to continue a Component Transaction at the increased Fixed Rate, such Component Transaction shall continue.

6. Settlement Terms

Settlement Method: Physical Settlement

Terms Relating to Physical Settlement:

Physical Settlement Period: Five Business Days

Deliverable Obligations: Exclude Accrued Interest

Deliverable Obligations: Deliverable Obligation Category: Reference Obligation Only

Physical Settlement Amount: An amount equal to:

(a) the product of the Exercise Amount and the Reference Price, minus

(b) the sum of:

(i) if the Aggregate Implied Writedown Amount is greater than zero, the product of (A) the Aggregate Implied Writedown Amount, (B) the Applicable Percentage, each as determined immediately prior to the relevant Delivery and (C) the Exercise Percentage; and

(ii) the product of (A) the aggregate of all Writedown Amounts in respect of Writedowns within paragraph (B) of the definition of “Writedown”, minus the aggregate of all Writedown Reimbursement Amounts in respect of

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822104
Footnote Exhibits - Page 4283

Written down Reimbursements within paragraph (a)(i) of the definition of “Written down Reimbursements” and (B) the Exercise Percentage;

provided that if the Physical Settlement Amount would exceed the product of:

(1) the Reference Obligation Notional Amount as of the date on which the relevant Notice of Physical Settlement is delivered calculated as though Physical Settlement in respect of all previously delivered Notices of Physical Settlement has occurred in full; and

(2) the Exercise Percentage;

then the Physical Settlement Amount shall be deemed to be equal to such product.

Delayed Payment:

With respect to a Delivery Date, if a Servicer Report that describes a Delayed Payment is delivered to holders of the Reference Obligation or to the Calculation Agent on or after such Delivery Date, Buyer will pay the applicable Delayed Payment Amount to Seller no later than five Business Days following such Delayed Payment.

Escrow:

Applicable

Non-delivery by Buyer:

If Buyer has delivered a Notice of Physical Settlement and

(a) Buyer does not Deliver in full the Deliverable Obligations specified in that Notice of Physical Settlement on or prior to the Physical Settlement Date, or

(b) the Effective Maturity Date occurs after delivery of the Notice of Physical Settlement but before Buyer Delivers the Deliverable Obligations specified in that Notice of Physical Settlement,

then such Notice of Physical Settlement shall be deemed not to have been delivered and any reference in this Confirmation to a previously delivered Notice of Physical Settlement shall exclude any Notice of Physical Settlement that is deemed not to have been

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822105
delivered. Sections 9.2(c)(ii) (except for the first sentence thereof), 9.3, 9.4, 9.5, 9.6, 9.9 and 9.10 of the Credit Derivatives Definitions shall not apply.

7. Additional Provisions:

(a) Delivery of Servicer Report

If either party makes a reasonable request in writing, the Calculation Agent agrees to provide such party with a copy of the most recent Servicer Report promptly following receipt of such request, if and to the extent such Servicer Report is reasonably available to the Calculation Agent (whether or not the Calculation Agent is a holder of the Reference Obligation). In addition, if a Floating Payment or an Additional Fixed Payment is due hereunder, then the Calculation Agent or the party that notifies the other party that the relevant Floating Payment or Additional Fixed Payment is due, as applicable, the "Notifying Party") shall deliver a copy of any Servicer Report relevant to such payment that is requested by the party that is not the Notifying Party or by either party where the Notifying Party is the Calculation Agent, if and to the extent that such Servicer Report is reasonably available to the Notifying Party (whether or not the Notifying Party is a holder of the Reference Obligation).

(b) Calculation Agent and Buyer and Seller Determinations

The Calculation Agent shall be responsible for determining and calculating (i) the Fixed Amount payable on each Fixed Rate Payment Date, (ii) the occurrence of a Floating Amount Event and the related Floating Amount and (iii) the occurrence of an Additional Fixed Payment Event and the related Additional Fixed Amount; provided that notwithstanding the above, each of Buyer and Seller shall be entitled to determine and calculate the above amounts to the extent that Buyer or Seller, as applicable, has the right to deliver a notice to the other party demanding payment of such amount. The Calculation Agent or Buyer or Seller, as applicable, shall make such determinations and calculations based solely on the basis of the Servicer Reports, to the extent such Servicer Reports are reasonably available to the Calculation Agent or such party. The Calculation Agent or Buyer or Seller, as applicable, shall, as soon as practicable after making any of the determinations or calculations specified in (i) and (ii) above, notify the parties or the other party, as applicable, of such determinations and calculations.

(c) Adjustment of Calculation Agent Determinations

To the extent that a Servicer furnishes any Servicer Reports correcting information contained in previously issued Servicer Reports, and such corrections impact calculations pursuant to any Component Transaction, the calculations relevant to such Component Transaction shall be adjusted retroactively by the Calculation Agent to reflect the corrected information (provided that, for the avoidance of doubt, no amounts in respect of interest shall be payable by either party and provided that the Calculation Agent in performing the calculations pursuant to this paragraph will assume that no interest has accrued on any adjusted amount), and the Calculation Agent shall promptly

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822106
notify both parties of any corrected payments required by either party. Any required corrected payments shall be made within five Business Days of the day on which such notification by the Calculation Agent is effective.

(d) **Collateral**

On the Effective Date, Counterparty shall deposit Collateral Securities and Eligible Investments with a face value equal to $800,000,000 on the Effective Date to the Collateral Account. Counterparty hereby agrees to maintain any principal proceeds received with respect to the Collateral in the Collateral Account unless another disposition is otherwise authorized hereunder or under the Indenture.

The Counterparty agrees to pledge the Collateral (and the principal proceeds therefrom) deposited from time to time in the Collateral Account and its rights under the Senior Swap and the Collateral Put Agreement to GSI as security for its obligations under the Transaction and grants to GSI a first priority security interest in and lien on all Collateral (and the principal proceeds therefrom) in the Collateral Account in accordance with the Indenture. If at any time an Event of Default or Termination Event with respect to Counterparty has occurred and is continuing, GSI shall have all rights and remedies available to a secured party under applicable law with respect to the Collateral, including, without limitation, the right to direct the liquidation of Collateral and apply the proceeds from such liquidation to any amounts payable by Counterparty in respect of the Component Transactions hereunder.

Notwithstanding anything to the contrary in this Confirmation, GSI acknowledges and agrees that in accordance with the terms of the Indenture, Counterparty’s obligations (other than any obligation of Counterparty to pay to GSI any Defaulted Swap Termination Payments) under each Component Transaction will be satisfied by the assets deposited to the Collateral Account. Amounts owing to the GSI will be due and payable in accordance with the terms of this Transaction and will be drawn (i) from the Collateral Account in accordance with the Collateral Liquidation Procedure, and with the benefit of Counterparty’s rights under the Collateral Put Agreement, where applicable, and (ii) once the balance of the Collateral Account has been reduced to zero, by demanding payment under the Senior Swap in an amount equal to the lesser of Counterparty’s obligations due and the Senior Swap Notional Amount. Counterparty’s obligation to pay GSI any Defaulted Swap Termination Payment will not be paid in accordance with the foregoing, but instead will be satisfied only by Proceeds available therefor in accordance with the Priority of Payments. If the Collateral Assets and Counterparty’s rights under the Senior Swap are insufficient to satisfy Counterparty’s obligations in respect of any Component Transaction hereunder, any such residual obligations of Counterparty shall be extinguished and of no further force or effect.

(e) **Additional Tax Representations**

The parties hereto confirm that this Transaction is not intended to be and does not constitute a contract of surety, insurance, guarantee or indemnity. The parties acknowledge that the payments to be made by the Counterparty will be made
independently and are not conditional upon GSI sustaining or being exposed to risk or loss and that the rights and obligations of the parties hereunder are not dependent upon GSI owning or having (and do not effectively require GSI to have) any legal, equitable or other interest in the Reference Obligations.

It is the intention of the parties that this Transaction be characterized as a notional principal contract (and not a surety bond, guarantee, insurance or similar contract) for all legal, regulatory and tax purposes. The terms of this Transaction shall be interpreted to further this intention of the parties. Further, each of the parties shall treat this Transaction accordingly for all legal, regulatory and tax reporting purposes and each party waives any right to assert any claim or defense that is inconsistent with this intention of the parties.

(f) Additional Termination Events

Subclause (ii) of Part 1(a) of the Schedule to the Master Agreement shall be replaced with the following: "With respect to any Event of Default or Termination Event under the terms of this Transaction where GSI is the Defaulting or Affected Party, the Market Quotation and First Method shall apply, otherwise, the Second Method will apply.

(g) Failure to Pay

Section 5(a)(i) of the Master Agreement shall be replaced by the following:

"(a) Failure to Pay or Deliver. Failure by the party to make, when due, any payment under this Agreement or delivery under Section 2(a)(i) or 2(c) required to be made by it if such failure is not remedied on or before the third Local Business Day after notice of such failure is given to the party; provided however, that any such failure by the Counterparty to make, when due, any payment under this Agreement or delivery under Section 2(a)(i) or 2(c) required to be made by it shall not constitute an Event of Default under this Section 5(1)(i) if such failure is a result of the Senior Swap Counterparty's failure to pay to the Counterparty any amount due under the Senior Swap."

9. Additional Definitions and Amendments to the Credit Derivatives Definitions

(a) References in Sections 4.1, 8.2, 9.1 and 9.2(a) of the Credit Derivatives Definitions as well as Section 3(a)(v) of the form of Novation Agreement set forth in Exhibit E to the Credit Derivatives Definitions to the Reference Entity shall be deemed to be references to both the Reference Entity and the Insurer in respect of the Reference Policy, if applicable.

(b) The definition of “Publicly Available Information” in Section 3.5 of the Credit Derivatives Definitions shall be amended by (i) inserting the words “the Insurer in respect of the Reference Policy, if applicable” at the end of subparagraph (a)(i)(A) thereof, (ii) inserting the words “servicer, sub-servicer, master servicer” before the words “or paying agent” in subparagraph (a)(i)(B) thereof and (iii) deleting the word “or” at the end of subparagraph (a)(iii) thereof and inserting at the end of subparagraph (a)(iv) thereof the following: “or (v) is information contained in a notice or on a website published by an internationally recognized rating agency that has at any time rated the Reference Obligation”.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822109
Footnote Exhibits - Page 4288

(ii) The definition of "Physical Settlement" in Section 8.1 of the Credit Derivatives Definitions shall be amended by (i) deleting the words "Physical Settlement Amount" from the last line of the second paragraph thereof and (ii) inserting in lieu thereof the words "Exercise Amount".

(ii) The definition of "Physical Settlement Date" in Section 8.4 of the Credit Derivatives Definitions shall be amended by deleting the last sentence thereof.

(c) For the purposes of each Component Transaction only, the following terms have the meanings given below:

"Actual Principal Amount" means, with respect to the Final Amortization Date or the Legal Final Maturity Date, payment on such day by or on behalf of the Issuer of an amount in respect of principal (excluding any capitalized interest) to the holder(s) of the Reference Obligation in respect of the Reference Obligation.

"Aggregate Implied Writedown Amount" means the greater of (i) zero and (ii) the aggregate of all Implied Writedown Amounts minus the aggregate of all Implied Writedown Reimbursement Amounts.

"Approved Dealer": Any of the Persons set forth below or their affiliates set forth below (including the successor to any such Person):

ABN AMRO Bank N.V.;
Bank of America Securities LLC;
Barclays Bank PLC;
Bear, Stearns & Co. Inc.;
BNP Paribas;
Canadian Imperial Bank of Commerce;
Citigroup, Inc.;
Commerzbank AG;
Countrywide Securities Corporation;
Credit Suisse Group;
Deutsche Bank AG;
Dresdner Bank AG;
First Tennessee Bank National Association;
Goldman, Sachs & Co.
Greenwich Capital Markets, Inc.;
HSBC Bank plc;

JP Morgan Chase & Co.;
Legg Mason, Inc.;
Lehman Brothers, Inc.;
Merrill Lynch & Co., Inc.;
Morgan Stanley & Co., Inc.;
Nomura Securities Co., Ltd.;
Raymond James Financial, Inc.;
Société Générale Group;
TD Bank Financial Group;
UBS AG;
United Capital Markets Inc.;
Wachovia Securities, LLC;
Washington Mutual, Inc.; or
WestLB AG.

"Collateral Account" has the meaning set forth in the Indenture.
"Collateral Liquidation Procedure" has the meaning set forth in the Indenture.
"Collateral Put Agreement" means the put agreement entered into by Counterparty and Goldman Sachs International on or prior to the Effective Date.
"Collateral Securities" has the meaning set forth in the Indenture.
"Collateral Securities Eligibility Criteria" has the meaning set forth in the Indenture.
"Current Factor" means the factor of the Reference Obligation as specified in the most recent Servicer Report; provided that if the Current Factor is not specified in the most recent Servicer Report, the Current Factor shall be the ratio equal to (i) the Outstanding Principal Amount as of such date, determined in accordance with the Servicer Report over (ii) the Original Principal Amount.

"Current Market Price" means, at any time of determination, with respect to a Reference Obligation, a percentage price determined by the Calculation Agent and confirmed by the Collateral Administrator by (x) using the pricing service used by the Collateral Administrator in its normal course of business for so long as the quote obtained from such pricing service has been provided by such pricing service within two Business Days of the time of such determination or (y) (1) if either (a) above is not applicable, asking five Approved Dealers to quote the offered-side price (excluding accrued interest) for such Reference Obligation (in an amount equal to its Reference Obligation Notional Amount) and (2) for so long as the Collateral Administrator is able to obtain one such quote from one such Approved Dealer, taking the arithmetic average of such quotation(s).
“Current Period Implied Write-Down Amount” means, in respect of a Reference Obligation Calculation Period, an amount determined as if the last day of such Reference Obligation Calculation Period were the last day of:

(i) zero; and

(ii) the product of:

(A) the Implied Write-Down Percentage; and

(B) the greater of:

(1) zero; and

(2) the pari passu amount plus the Senior Amount minus the aggregate outstanding asset pool balance securing the payment obligations on the Reference Obligation (all such outstanding asset pool balances as obtained by the Calculation Agent from the most recently dated Servicer Report available as of such day), calculated based on the face amount of the assets in such pool, whether or not any such asset is performing.

“Delayed Payment” means, with respect to a Delivery Date, a Principal Payment, Principal Shortfall Reimbursement or a Write-Down Reimbursement within paragraph (i) of the definition of “Write-Down Reimbursement” that is described in a Servicer Report delivered to holders of the Reference Obligation or to the Calculation Agent on or after such Delivery Date.

“Delayed Payment Amount” means, if persons who are holders of the Reference Obligation as of a date prior to a Delivery Date are paid a Delayed Payment on or after such Delivery Date, and amount equal to the product of (i) the sum of all such Delayed Payments, (ii) the Reference Price, (iii) the Applicable Percentage immediately prior to such Delivery Date and (iv) the Exercise Percentage.

“Distressed Ratings Downgrade” means that the Reference Obligation:

(i) if publicly rated by Moody’s, (A) is downgraded to "Ca1" or below by Moody’s or (B) has the rating assigned to it by Moody’s withdrawn and, in either case, not reinstated within five Business Days of such downgrade or withdrawal; provided that if such Reference Obligation was assigned a public rating of "Ba1" or higher by Moody’s immediately prior to the occurrence of such withdrawal, it shall not constitute a Distressed Ratings Downgrade if such Reference Obligation is assigned a public rating of at least "Ca1" by Moody’s within three calendar months of such withdrawal; or

(ii) if publicly rated by Standard & Poor’s, (A) is downgraded to "CCC" or below by Standard & Poor’s or (B) has the rating assigned to it by Standard & Poor’s withdrawn and, in either case, not reinstated within five Business Days of such downgrade or withdrawal, provided that if such
Reference Obligation was assigned a public rating of "BBB-" or higher by Standard & Poor's immediately prior to the occurrence of such withdrawal; it shall not constitute a Distressed Ratings Downgrade if such Reference Obligation is assigned a public rating of at least "CCC+" by Standard & Poor's within three calendar months of such withdrawal; or

(iii) if publicly rated by Fitch, (A) is downgraded to "CCC" or below by Fitch or (B) has the rating assigned to it by Fitch withdrawn and, in either case, not reinstated within five Business Days of such downgrade or withdrawal; provided that if such Reference Obligation was assigned a public rating of "BBB-" or higher by Fitch immediately prior to the occurrence of such withdrawal, it shall not constitute a Distressed Ratings Downgrade if such Reference Obligation is assigned a public rating of at least "CCC+" by Fitch within three calendar months of such withdrawal.

"Effective Maturity Date" means the earlier of (a) the Scheduled Termination Date and (b) the Final Amortization Date.

"Eligible Investments" has the meaning set forth in the Indenture.

"Exercise Amount" means, for purposes of a Component Transaction, an amount to which a Notice of Physical Settlement applies equal to the product of (i) the original face amount of the Reference Obligation to be Delivered by Buyer to Seller on the Physical Settlement Date; and (ii) the Current Factor. The Exercise Amount to which a Notice of Physical Settlement relates shall (A) be equal to or less than the Reference Obligation Notional Amount (determined, for this purpose, without regard to the effect of any Writedown or Writedown Reimbursement within paragraphs (i)(B) or (ii)(B) of "Writedown" or paragraphs (i)(B) or (iii) of "Writedown Reimbursement", respectively) as of the date on which the relevant Notice of Physical Settlement is delivered calculated as though the Physical Settlement of all previously delivered Notices of Physical Settlement has occurred in full and (B) not be less than the lesser of (1) the Reference Obligation Notional Amount as of the date on which the relevant Notice of Physical Settlement is delivered calculated as though Physical Settlement in respect of all previously delivered Notices of Physical Settlement has occurred in full and (2) USD100,000. The cumulative original face amount of Deliverable Obligations specified in all Notices of Physical Settlement shall not at any time exceed the Initial Face Amount.

"Exercise Percentage" means, with respect to a Notice of Physical Settlement, a percentage equal to the original face amount of the Deliverable Obligations specified in such Notice of Physical Settlement divided by an amount equal to (i) the Initial Face Amount minus (ii) the aggregate of the original face amount of all Deliverable Obligations specified in all previously delivered Notices of Physical Settlement.

"Expected Principal Amount" means, with respect to the Final Amortization Date or the Legal Final Maturity Date, an amount equal to (i) the Outstanding Principal Amount of the Reference Obligation payable on such day assuming for this purpose that sufficient funds are available for such payment, where such amount shall be determined in accordance with the Underlying Instruments, minus (ii) the sum of (A) the Aggregate Implied Writedown Amount (if any) and
(B) the net aggregate principal deficiency balance or realized loss amounts (however described in the Underlying Instruments) that are attributable to the Reference Obligation. The Expected Principal Amount shall be determined without regard to the effect of any limited recourse provisions (however described) of the Underlying Instruments that permit the limitation of due payments or distributions of funds in accordance with the terms of such Reference Obligation or that provide for the extinguishing or reduction of such payments or distributions.

"Failure to Pay Principal" means (i) a failure by the Reference Entity (or any Insurer) to pay an Expected Principal Amount on the Final Amortization Date or the Legal Final Maturity Date, as the case may be or (ii) payment on any such day of an Actual Principal Amount that is less than the Expected Principal Amount, provided that the failure by the Reference Entity (or any Insurer) to pay any such amount in respect of principal in accordance with the foregoing shall not constitute a Failure to Pay Principal if such failure has been remedied within any grace period applicable to such payment obligation under the Underlying Instruments or, if no such grace period is applicable, within three Business Days after the day on which the Expected Principal Amount was scheduled to be paid.

"Final Amortization Date" means the first to occur of (i) the date on which the Reference Obligation Notional Amount is reduced to zero and (ii) the date on which the assets securing the Reference Obligation or designated to fund amounts due in respect of the Reference Obligation are liquidated, distributed or otherwise disposed of in full and the proceeds thereof are distributed or otherwise disposed of in full.

"Fitch" means Fitch Ratings or any successor to the rating business thereof.

"Implied Writedown Amount" means, (i) if the Underlying Instruments do not provide for writedowns, applied losses, principal deficiencies or realized losses as described in (i) of the definition of "Writedown" to occur in respect of the Reference Obligation, on any Reference Obligation Payment Date, an amount determined by the Calculation Agent equal to the excess, if any, of the Current Period Implied Writedown Amount over the Previous Period Implied Writedown Amount, in each case in respect of the Reference Obligation Calculation Period to which such Reference Obligation Payment Date relates, and (ii) in any other case, zero.

"Implied Writedown Percentage" means (i) the Outstanding Principal Amount divided by (ii) the Par Paus Amount.

"Implied Writedown Reimbursement Amount" means, (i) if the Underlying Instruments do not provide for writedowns, applied losses, principal deficiencies or realized losses as described in (i) of the definition of "Writedown" to occur in respect of the Reference Obligation, on any Reference Obligation Payment Date, an amount determined by the Calculation Agent equal to the excess, if any, of the Previous Period Implied Writedown Amount over the Current Period Implied Writedown Amount, in each case in respect of the Reference Obligation Calculation Period to which such Reference Obligation Payment Date relates, and (ii) in any other case, zero.

"Legal Final Maturity Date" means the legal final maturity date for the relevant Reference Obligation set forth in Annex C attached hereto (subject, for the avoidance of doubt, to any business day convention applicable to the legal final maturity date of the Reference Obligation),
provided that if the legal final maturity date of the Reference Obligation is amended, the Legal Final Maturity Date shall be such date as amended.

"Moody's" means Moody's Investors Service, Inc. or any successor to the rating business thereof.

"Outstanding Principal Amount" means, as of any date of determination with respect to the Reference Obligation, the outstanding principal balance of the Reference Obligation as of such date, which shall take into account:

(iv) all payments of principal;

(v) all writedowns or applied losses (however described in the Underlying Instruments) resulting in a reduction in the outstanding principal balance of the Reference Obligation (other than as a result of a scheduled or unscheduled payment of principal);

(vi) forgiveness of any amount by the holders of the Reference Obligation pursuant to an amendment to the Underlying Instruments resulting in a reduction in the outstanding principal balance of the Reference Obligation;

(vii) any payments reducing the amount of any reductions described in (i) and (ii) of this definition; and

(viii) any increase in the outstanding principal balance of the Reference Obligation that reflects a reversal of any prior reductions described in (i) and (ii) of this definition.

"Pari Passu Amount" means, as of any date of determination, the aggregate of the Outstanding Principal Amount of the Reference Obligation and the aggregate outstanding principal balance of all obligations of the Reference Entity secured by the Underlying Assets and ranking pari passu in priority with the Reference Obligation.

"Previous Period Implied Writedown Amount" means, in respect of a Reference Obligation Calculation Period, the Current Period Implied Writedown Amount as determined in relation to the last day of the immediately preceding Reference Obligation Calculation Period.

"Principal Payment" means, with respect to any Reference Obligation Payment Date, the occurrence of a payment of an amount to the holders of the Reference Obligation in respect of principal (scheduled or unscheduled) in respect of the Reference Obligation other than a payment in respect of principal representing capitalized interest, excluding, for the avoidance of doubt, any Writedown Reimbursement or Interest Shortfall Reimbursement.

"Principal Payment Amount" means, with respect to any Reference Obligation Payment Date, an amount equal to the product of (i) the amount of any Principal Payment on such date and (ii) the Applicable Percentage.
"Principal Shortfall Amount" means, in respect of a Failure to Pay Principal, an amount equal to the greater of:

(a) zero; and

(b) the amount equal to the product of:

(A) the Expected Principal Amount minus the Actual Principal Amount;

(B) the Applicable Percentage; and

(C) the Reference Price.

If the Principal Shortfall Amount would be greater than the Reference Obligation Notional Amount immediately prior to the occurrence of such Failure to Pay Principal, then the Principal Shortfall Amount shall be deemed to be equal to the Reference Obligation Notional Amount at such time.

"Principal Shortfall Reimbursement" means, with respect to any day, the payment by or on behalf of the Issuer of an amount in respect of the Reference Obligation in or toward the satisfaction of any deferral of or failure to pay principal arising from one or more prior occurrences of a Failure to Pay Principal.

"Principal Shortfall Reimbursement Amount" means, with respect to any day, the product of (i) the amount of any Principal Shortfall Reimbursement on such day, (ii) the Applicable Percentage and (iii) the Reference Price.

"Principal Shortfall Reimbursement Payment Amount" means, with respect to an Additional Fixed Amount Payment Date, the sum of the Principal Shortfall Reimbursement Amounts in respect of all Principal Shortfall Reimbursements (if any) made during the Reference Obligation Calculation Period relating to such Additional Fixed Amount Payment Date, provided that the aggregate of all Principal Shortfall Reimbursement Payment Amounts at any time shall not exceed the aggregate of all Floating Amounts paid by Seller in respect of occurrences of Failure to Pay Principal prior to such Additional Fixed Amount Payment Date.

"Rating Agencies" means Fitch, Moody's and Standard & Poor's.

"Reference Obligation Amortized Amount" means, with respect to a Reference Obligation and any date of determination, (i) the product of (a) the Original Principal Amount, the Initial Factor and the Applicable Percentage minus (ii) the aggregate of Principal Payment Amounts with respect to such Reference Obligation on or prior to such date of determination.

"Reference Obligation Calculation Period" means, with respect to each Reference Obligation Payment Date, a period corresponding to the interest accrual period relating to such Reference Obligation Payment Date pursuant to the Underlying Instruments.
"Reference Obligation Coupon" means the periodic interest rate applied in relation to each Reference Obligation Calculation Period on the related Reference Obligation Payment Date, as determined in accordance with the terms of the Underlying Instruments as of the Effective Date, without regard to any subsequent amendment.

"Reference Obligation Payment Date" means (i) each scheduled distribution date for the Reference Obligation occurring on or after the Effective Date and on or prior to the Scheduled Termination Date, determined in accordance with the Underlying Instruments and (ii) any day after the Effective Maturity Date on which a payment is made in respect of the Reference Obligation.

"Relevant Amount" means, with respect to any Reference Obligation, if a servicer report that described a Principal Payment, Writedown or Writedown Reimbursement (other than a Writedown Reimbursement within paragraph (i) of "Writedown Reimbursement"), in each case that has the effect of decreasing or increasing the interest-accruing principal balance of such Reference Obligation as of a date prior to a Delivery Date but such servicer report is delivered to holders of such Reference Obligation or to the Calculation Agent on or after such Delivery Date, an amount equal to the product of (i) the sum of any such Principal Payment (expressed as a positive amount), Writedown (expressed as a positive amount) or Writedown Reimbursement (expressed as a negative amount), as applicable; (ii) the Reference Price; (iii) the Applicable Percentage immediately prior to such Delivery Date; and (iv) the Exercise Percentage.

"Senior Amount" means, as of any day, the aggregate outstanding principal balance of all obligations of the Reference Entity secured by the Underlying Assets and ranking senior in priority to the Reference Obligation.

"Senior Swap" means the swap agreement entered into on the Effective Date between Counterparty and Goldman Sachs International with an initial notional amount of $1,200,000,000.

"Senior Swap Notional Amount" has the meaning set forth in the Senior Swap.

"Servicer" means any trustee, servicer, sub servicer, master servicer, fiscal agent, paying agent or other similar entity responsible for calculating payment amounts or providing reports pursuant to the Underlying Instruments.

"Servicer Reports" means periodic statements or reports regarding the Reference Obligation provided by the Servicer to holders of the Reference Obligation.

"Standard & Poor's" means Standard & Poor's Rating Services, a division of McGraw-Hill Companies, Inc. or any successor to the rating business thereof.

"Underlying Assets" means the assets securing the Reference Obligation for the benefit of the holders of the Reference Obligation and which are expected to generate the cashflows required for the servicing and repayment (in whole or in part) of the Reference Obligation, or the assets to which a holder of such Reference Obligation is economically exposed where such exposure is created synthetically.
"Underlying Instruments" means the indenture, trust agreement, pooling and servicing agreement or other relevant agreement(s) setting forth the terms of the Reference Obligation.

"Writedown" means the occurrence at any time on or after the Effective Date of:

(i) (A) a writedown or applied loss (however described in the Underlying Instruments) resulting in a reduction in the Outstanding Principal Amount (other than as a result of a scheduled or unscheduled payment of principal), or

(B) the attribution of a principal deficiency or realized loss (however described in the Underlying Instruments) to the Reference Obligation resulting in a reduction of the current interest payable on the Reference Obligation;

(ii) the forgiveness of any amount of principal by the holders of the Reference Obligation pursuant to an amendment to the Underlying Instruments resulting in a reduction in the Outstanding Principal Amount; or

(iii) if the Underlying Instruments do not provide for writedowns, applied losses, principal deficiencies or realized losses as described in (i) above to occur in respect of the Reference Obligation, an Implied Writedown Amount being determined in respect of the Reference Obligation by the Calculation Agent, as applicable.

"Writedown Amount" means, with respect to any day, the product of (i) the amount of any Writedown on such day, (ii) the Applicable Percentage and (iii) the Reference Price.

"Writedown Reimbursement" means, with respect to any day, the occurrence of either:

(i) a payment by or on behalf of the Issuer of an amount in respect of the Reference Obligation in reduction of any prior Writedowns;

(ii) (A) an increase by or on behalf of the Issuer of the Outstanding Principal Amount of the Reference Obligation to reflect the reversal of any prior Writedowns; or

(B) a decrease in the principal deficiency balance or realized loss amounts (however described in the Underlying Instruments) attributable to the Reference Obligation; or

(iii) if the Underlying Instruments do not provide for writedowns, applied losses, principal deficiencies or realized losses as described in (i) above to occur in respect of the Reference Obligation, an Implied Writedown Reimbursement Amount being determined in respect of the Reference Obligation by the Calculation Agent.
"Writedown Reimbursement Amount" means, with respect to any day, an amount equal to the product of:

(i) the sum of all Writedown Reimbursements on that day;
(ii) the Applicable Percentage; and
(iii) the Reference Price.

"Writedown Reimbursement Payment Amount" means, with respect to an Additional Fixed Amount Payment Date, the sum of the Writedown Reimbursements Amounts in respect of all Writedown Reimbursements (if any) made during the Reference Obligation Calculation Period relating to such Additional Fixed Amount Payment Date, provided that the aggregate of all Writedown Reimbursement Payment Amounts at any time shall not exceed the aggregate of all Floating Amounts paid by Seller in respect of Writedowns occurring prior to such Additional Fixed Amount Payment Date.

Counterparty hereby agrees (a) to check this Confirmation carefully and immediately upon receipt so that errors or discrepancies can be promptly identified and rectified and (b) to confirm that the foregoing correctly sets forth the terms of the agreement between GSI and Counterparty with respect to the Component Transactions to which this Confirmation relates, by manually signing this Confirmation and providing the other information requested herein and immediately returning an executed copy to Swap Administration, Facsimile No.: 1 212 428 9189.

Annex A

If Interest Shortfall Cap is applicable, then the following provisions will apply:

**Interest Shortfall Cap Basis:** Fixed Cap

**Interest Shortfall Cap Amount:**

- **Reimbursement Payment Amount:**
  - **If Interest Shortfall Cap is applicable, then with respect to the first Additional Fixed Amount Payment Date, zero, and with respect to any subsequent Additional Fixed Amount Payment Date and calculated as of the Reference Obligation Payment Date immediately preceding such Additional Fixed Amount Payment Date, as specified by the Calculation Agent in its notice to the parties or by Seller in its notice to Buyer of the existence of an Interest Shortfall Reimbursement, an amount equal to the greater**

Confidential Treatment Requested by Goldman Sachs  GS MBS-E-021822122
Footnote Exhibits - Page 4301

of:

(a) zero; and

(b) the amount equal to:

(i) the product of:

(A) the Cumulative Interest Shortfall Payment Amount as of the Additional Fixed Amount Payment Date immediately preceding such Reference Obligation Payment Date; and

(B) the relevant Cumulative Interest Shortfall Payment Compounding Factor for the Fixed Rate Payer Calculation Period immediately preceding such Additional Fixed Amount Payment Date (or 1.0 in respect of any Additional Fixed Amount Payment Date occurring after the final Fixed Rate Payer Payment Date);

minus

(ii) the Cumulative Interest Shortfall Amount as of such Reference Obligation Payment Date,

provided that if the Interest Shortfall Reimbursement Payment Amount on an Additional Fixed Amount Payment Date would exceed the Interest Shortfall Reimbursement Amount in respect of the related Reference Obligation Payment Date, then such Interest Shortfall Reimbursement Payment Amount shall be deemed to be equal to such Interest Shortfall Reimbursement Amount.

Cumulative Interest Shortfall Amount:

With respect to any Reference Obligation Payment Date, an amount equal to the greater of:

(a) zero; and

(b) an amount equal to:

(i) the Cumulative Interest Shortfall Amount as of the Reference Obligation Payment Date

Annex A-2

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822123
Footnote Exhibits - Page 4302

immediately preceding such Reference Obligation Payment Date or, in the case of the first Reference Obligation Payment Date, zero; plus

(ii) the Interest Shortfall Amount (if any) in respect of such Reference Obligation Payment Date; plus

(iii) an amount determined by the Calculation Agent as the amount of interest that would accrue on the Cumulative Interest Shortfall Amount immediately preceding such Reference Obligation Payment Date during the related Reference Obligation Calculation Period pursuant to the Underlying Instruments or, in the case of the first Reference Obligation Payment Date, zero; minus

(iv) the Interest Shortfall Reimbursement Amount (if any) in respect of such Reference Obligation Payment Date.

Upon the occurrence of each Delivery, the Cumulative Interest Shortfall Amount shall be multiplied by a fraction equal to (a) the Applicable Percentage immediately following such Delivery divided by (b) the Applicable Percentage immediately prior to such Delivery; provided, however, that if more than one Delivery is made during a Reference Obligation Calculation Period, the Cumulative Interest Shortfall Amount calculated as of the Reference Obligation Payment Date occurring immediately after such Reference Obligation Calculation Period shall be multiplied by a fraction equal to (a) the Applicable Percentage immediately following the final Delivery made during such Reference Obligation Calculation Period and (b) the Applicable Percentage immediately prior to the first Delivery made during such Reference Obligation Calculation Period.

Cumulative Interest Shortfall Payment Amount:

The Cumulative Interest Shortfall Payment Amount with respect to any Fixed Rate Payer Payment Date and any Additional Fixed Amount Payment Date falling on such Fixed Rate Payer Payment Date shall be an amount equal to the greater of:

Annex A-3

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822124
Footnote Exhibits - Page 4303

(a) zero; and

(b) the amount equal to:

(i) the sum of:

(A) the Interest Shortfall Payment Amount for the Reference Obligation Payment Date corresponding to such Fixed Rate Payer Payment Date; and

(B) the product of:

(1) the Cumulative Interest Shortfall Payment Amount as of the Fixed Rate Payer Payment Date immediately preceding such Fixed Rate Payer Payment Date (or zero in the case of the first Fixed Rate Payer Payment Date); and

(2) the relevant Cumulative Interest Shortfall Payment Compounding Factor;

minus

(ii) any Interest Shortfall Reimbursement Payment Amount paid on such Fixed Rate Payer Payment Date.

With respect to any Additional Fixed Amount Payment Date falling after the final Fixed Rate Payer Payment Date, the Cumulative Interest Shortfall Payment Amount shall be equal to:

(a) the Cumulative Interest Shortfall Payment Amount as of the Additional Fixed Amount Payment Date immediately preceding such Additional Fixed Amount Payment Date (or as of the final Fixed Rate Payer Payment Date in the case of the first Additional Fixed Amount Payment Date occurring after the final Fixed Rate Payer Payment Date); minus

Annex A-4

Confidential Treatment Requested by Goldman Sachs  GS MBS-E-021822125
(y) any Interest Shortfall Reimbursement Payment Amount paid on such Additional Fixed Amount Payment Date.

Upon the occurrence of each Delivery, the Cumulative Interest Shortfall Payment Amount shall be multiplied by a fraction equal to (a) the Applicable Percentage immediately following such Delivery divided by (b) the Applicable Percentage immediately prior to such Delivery; provided, however, that if more than one Delivery is made during a Reference Obligation Calculation Period, the Cumulative Interest Shortfall Payment Amount calculated as of the Reference Obligation Payment Date occurring immediately after such Reference Obligation Calculation Period shall be multiplied by a fraction equal to (a) the Applicable Percentage immediately following the final Delivery made during such Reference Obligation Calculation Period and (b) the Applicable Percentage immediately prior to the first Delivery made during such Reference Obligation Calculation Period.

Ladies and Gentlemen:

For value received, The Goldman Sachs Group, Inc. (the "Guarantor"), a corporation duly organized under the laws of the State of Delaware, hereby unconditionally guarantees the prompt and complete payment when due, whether by acceleration or otherwise, of all obligations and liabilities, whether now in existence or hereafter arising, of Goldman Sachs International, a subsidiary of the Guarantor and an unlimited liability company duly organized under the laws of England (the "Company"), to Hudson Mezzanine Funding 2006-1, L.P. (the "Counterparty") arising out of or under the ISDA Master Agreement between the Company and the Counterparty dated as of December 1, 2006 (the "Obligations"). This Guaranty is one of payment and not of collection.

The Counterparty hereby waives notice of acceptance of this Guaranty and notice of the Obligations, and waives presentment, demand for payment, protest, notice of dishonor or non-payment of the Obligations, suit or the taking of any action by Counterparty against, and any other notice to, the Company, the Guarantor or others.

The Counterparty may at any time and from time to time without notice to or consent of the Guarantor and without impairing or releasing the obligations of the Guarantor hereunder: (1) agree with the Company to make any changes in the terms of the Obligations; (2) take of fall to take any action of any kind in respect of any security for the Obligations; (3) exercise or refrain from exercising any rights against the Company or others in respect of the Obligations; or (4) compromise or subordinate the Obligations, including any security therefor. Any other nonpayment defenses are hereby waived by the Guarantor.

This Guaranty shall continue in full force and effect until the opening of business on the fifth business day after Counterparty receives written notice of termination from the Guarantor. It is understood and agreed, however, that notwithstanding any such termination this Guaranty shall continue in full force and effect with respect to all Obligations which shall have been incurred prior to such termination.

The Guarantor may not assign its rights nor delegate its obligations under this Guaranty, in whole or in part, without prior written consent of the Counterparty, and any purported assignment or delegation absent such consent is void, except for an assignment and delegation of all of the Guarantor's rights and obligations hereunder in whatever form the Guarantor determines may be appropriate to a partnership, corporation, trust or other organization in whatever form that succeeds to all or substantially all of the Guarantor's assets and business and that assumes such obligations by contract, operation of law or otherwise. Upon any such assignment and assumption of obligations, the Guarantor shall be relieved of and fully discharged from all obligations hereunder, whether such obligations arose before or after such delegation and assumption.

THIS GUARANTY SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE INTERNAL LAWS OF THE STATE OF NEW YORK WITHOUT GIVING EFFECT TO PRINCIPLES OF CONFLICTS OF LAW. GUARANTOR AGREES TO THE EXCLUSIVE JURISDICTION OF COURTS LOCATED IN THE STATE OF NEW YORK, UNITED STATES OF AMERICA, OVER ANY DISPUTES ARISING UNDER OR RELATING TO THIS GUARANTY.

Very truly yours,

THE GOLDMAN SACHS GROUP, INC.

Subject: Cambridge Place deal

Cambridge is upset that we are delaying their deal. They know that Hudson West (as prop deal) is pushing their deal back. We are calling the PM at Cambridge ( ) and ___ today to discuss their deal and timing. Are you ok if we upsize their deal to 800m from 400m? This allows them to continue ramping and take additional equity placement risk (beyond the 60% of equity going into

ONCA). Deal is in good shape and we have pre-interest in the entire AA class and half the BMs and a third of the super seniors. This will price in Dec. or January.

Re: November 1st FRC Minutes

The November 1st Firewide Risk Committee meeting commenced at 7:30am. The meeting was chaired by Jerry Castigani. Apologies were received from David Visser, Lloyd Blackling, Mark McGillivray, Rob Zednick, and Liz Beisel.

Divisional Reports

Chris Jon-Brook

Ed Elder

Isabelle Elder

Joe Sobel
- ABX CDO priced last week with $1.6BN sold. Risks down from a high of $2.00M/bp to $1.00M/bp.
- Pinned strong calendar over the next weeks as there is a demand for cash products.
- Faced risks to business if CDO market slows or if there is a material repricing of residuals.

Subject: RE: Hudson Mezzanine Funding, 2006-1 Ltd. -- New Issue Announcement (144a/RegS) [external] (T-Mail)

Josh,

Tried calling. Sebel this morning in the firmwide risk committee mentioned that we have circled up the junior and some of the equity tranches.

Would like to get an update on this and have some follow up questions.

Please let me know when is a good time to call.

Thanks,

To: Cornachia, Thomas; Rosenblum, David J.
Cc: Herrick, Darryl K
Subject: Polygon

70 is NOT going to work on Hudson Mezz equity. 90 would work.

100 is a no-loss yield of 22%
95 is a no-loss yield of 24%
90 is a no-loss yield of 28%
85 is a no-loss yield of 28%

We have a 6mm of firm equity orders at par and we have only been marketing this equity for two weeks (60mm of total equity).

We see value in a large 30mm order and can offer 90 dollar price to help achieve that. We are reasonable and will listen to levels around 90.

The guy at Schroders looking at this deal has one main issue has has to get over: 
He is worried about how he is going to convince his boss to invest in a pool of sub prime mortgages with probably their greatest exposures in California and Florida. He is nervous on US house prices. 
Pretty fundamental question, but do we have a couple of key messages I should prepare him with? 
I have some background material on the mortgage market from Gasvoda's team, but anything specific material beyond this we can offer? 
I made the point repeatedly (to the point where he should be able to repeat it verbatim to his boss) that he has structural protection underneath each BSIB security in the pool, and some again in the CDO. Also discussed the value of diversity and the fact that most property price crashes and mortgage defaults tend to be localized, which should give him further comfort. 
Anything else you would offer? He is not a big believer in the Moody's data and ratings system. 
I WANT THIS GUY THERE AND IN SIZE! Please help if you can – just three bullet points would help. 

Cheers

GS MBS-E-0000030519
We should discuss this live, but I think their likelihood of getting principal back is almost zero, given market implied pricing for AXN.

-- AXN.HS.BBB.06-1 0 91 px
-- AXN.HS.BBB.06-1 0 86 px
-- AXN.HS.BBB.06-2 0 91 px
-- AXN.HS.BBB.06-2 0 71 px

The blended price of the AXN component of that portfolio (40% of the transaction) is approx 82, meaning that the equity has no NAV coverage. This piece of risk should trade like an IO, and the main risk at this point is downgrade risk that could cause triggers to fail and cause their equity cashflows to shorten for good.

Ben will give you more insight as to how the triggers are structured, and how much downgrades could cause those triggers to be activated.

some thoughts on the following:

1. Putting aside current pricing, I would have thought a form of delta hedging their exposures to either troublesome single names, or the ASX indices as a whole might work to some extent. In "normal" conditions, what sorts of strategies would you suggest?

2. In the context of current pricing, is there some compromise or variation on the above that might be helpful to them. Their main objective is ensuring recovery of principal. Presumably very challenging in the context of current markets.

I should have prefaced the above with the fact that I do not believe that they are about to hedge this position - the horse has bolted in pricing terms. They are no doubt getting questions from the company's board as to what could be done, as a learning exercise, and potentially as a complete downside case.

We will also point out that if they put on a hedge on the ASX and the index started screaming in they would have a very serious mark to market issue on their hands.

All thoughts welcome.

Cheers

Paul

Re: Placing debt and equity on a static mezzanine structured product CDO with GSC Partners ("GSC")

1. Introduction

We have been asked to structure a $500 million mezzanine structured product CDO backed by a portfolio of RMBS, CMBS, CDO and ABS with an average rating of Baa2/BBB ("Hudson Mezzanine Fund II"). Goldman will be engaged by Hudson Mezzanine Funding II as Liquidation Agent and in this role will have the responsibility of liquidating "Credit Risk Assets" (defined below in section III). Goldman and GSC Partners ("GSC") will co-select the portfolio that will collateralize the CDO. GSC Ellia Bridge, a CDO equity fund managed by GSC, has pre-committed to purchase 50% of the equity in the CDO total equity will be approx. $17.0 million upon closing of the transaction. GSC Ellia Bridge will share 50% of the warehouse risk on the first $20 million of potential loss exposure during the portfolio ramp-up and will initially post $5.0 million to collateralize this commitment, with additional postings up to $10.0 million as the portfolio grows.

We do not expect to charge any upfront fee and similarly, GSC will not charge any ongoing management fees. Without fees, the equity yield is expected to be approximately 30%. We expect to retain a senior mezzanine security which will reduce the CDO equity's yield to approximately 20%. This is the level we intend to offer equity to third parties.

In return for our role as Liquidation Agent, Goldman will receive an ongoing fee of 0.10% of the CDO's portfolio balance. Total economics to Goldman are expected to be $3.5 million upfront (includes the premium sale of equity and not carry from the warehouse) and $600k per annum over a 4 duration (the ongoing P/L of 0.10% for acting as liquidation agent which we cannot recognize upfront).

As Liquidation agent, Goldman will liquidate assets determined by the Trustee to be "Credit Risk Assets" based on specific guidelines. Goldman will have 12 months to sell these assets. Sales will be made under a competitive bidding process whereby we will solicit three outside bids and select the highest. Goldman's role in this transaction is comparable to the role we currently assume in the Houbt Bay and Hudson IG transactions. Prior to executing Houbt Bay I, in which we also played the Liquidation Agent role, we spoke with multiple counterparties as to our role as Liquidation Agent. We received approval for our role in this transaction from legal and accounting. We spoke with outside counsel, O'Melveny and Meffris, and they were comfortable providing true sale and non-consolidation opinions for the transaction. We spoke with Mary Mans in Accounting Policy and John Little in Product Control, and they in collaboration with Profitmax/MoodyCoopers were comfortable that the Houbt Bay transaction met true sale and non-consolidation conditions from an accounting perspective. Finally, we spoke with outside counsel, Almner Cullen, about potential issues related to the Investment Advisor Act. They are of the opinion that our role of Liquidation Agent does not cause us to be deemed an Investment Advisor based on an exception to
the Advisors Act for a "limited grant of discretion." For a more detailed account of Goldman's role as Liquidity Agent and related discussions with legal and accounting counterparts please see section III, "The Liquidity Agent: Goldman."

We expect to offer the subordinate triple-A, double-A, single-A and triple-B debt to the market through our syndicate. Goldman has no commitment on any of the offered notes, but Goldman may be subject to warehouse losses in the event the CDO does not close.

Goldman Sachs has a strong relationship with GSC. We closed a $900 MM middle market CLO with GSC in January 2006 (equity in the CLO was purchased by GSC Capital Corp.), earning $2.4 MM in structuring fees. We are currently marketing a high grade transaction with GSC and have a single-A focused structured product CDO ramping. In addition Goldman and GSC are working together on a CDO equity sponsorship vehicle, ORCA Funding. The head of the structured products team at GSC worked with us at J.M. moving to GSC, marketing us on the high grade CDO transactions, totaling $2 billion in issuance and $4 billion in loss to GS.

II. Transaction Overview

A Cayman Islands limited liability company (the "Issuer") will be established which will purchase the warehoused portfolio at closing and will issue the following notes and equity:

<table>
<thead>
<tr>
<th>Class</th>
<th>Balance</th>
<th>% of Capital Structure</th>
<th>Moody's/S&amp;P</th>
<th>Expected Spread</th>
<th>Expected Average Life</th>
</tr>
</thead>
<tbody>
<tr>
<td>Class A-1 Notes</td>

<td>L+325bp</td>
<td>7.0</td>
</tr>
<tr>
<td>Class E Notes</td>
<td>4.5 MM</td>
<td>0.9%</td>
<td>Ba1/BBB</td>
<td>L+550bp</td>
<td>7.8</td>
</tr>
<tr>
<td>Income Notes</td>
<td>17.0 MM</td>
<td>3.4%</td>
<td>NR</td>
<td>NA</td>
<td>NA</td>
</tr>
<tr>
<td>Portfolio</td>
<td>$880.0 MM</td>
<td>100.0%</td>
<td>Avg. A1/A2</td>
<td>L+1650bp</td>
<td>5.5</td>
</tr>
</tbody>
</table>

The transaction will have a legal maturity of 35 years, however the expected average life of the Notes will be approximately 5-7 years. The equity will also have the option to call the transaction after a 5-year non-call period.

P&L to Goldman will be approximately $5.5 MM upfront and $500k per annum thereafter over a 4 duration. In return for fees and 50% of the net warehouse carry (50% of the net carry will be approx. $6.5 MM), Goldman will (1) take half of the warehouse risk on the first $40 MM of losses and 100% of the warehouse risk if losses exceed $40 MM and (2) place the Class A, B, C, D, and E Notes and may place a portion of the income Notes (the income Notes are the equity class) on a "best efforts" basis. Goldman has committed to purchase 50% of the income Notes and GSC has committed to purchase the other 50%. GSC would like to hold only 25% of the income Notes upon closing, but we have agreed to sell down our commitments pro-rata and equally purchase any remaining equity.

Collateral Description

- 100% of the CDO portfolio will be identified at closing.
- 100% of the portfolio will be rated at least Baa3 by Moody's or BBB- by S&P.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-015475757
Footnote Exhibits - Page 4340

- The portfolio is expected to be approximately 80% subprime RMBS, 12% prime and ARA RMBS, 5% CMBS and 5% CDOs. Up to 100% of the portfolio may be single-name synthetic exposures.

III. Collateral Manager

GSC Partners was established in 1998 by Alfred C. Eckert, III, former Partner and Head of Private Equity/Distressed Debt Investing and Corporate Finance at Goldman Sachs. The team consists of 80 persons worldwide, 35 of whom are investment professionals.

GSC Partners has over $7.2bn in assets under management, with over $3.3bn invested in structured credit. Six CDO/CLO funds have been raised since 2009.

In early 2005, Frederick H. Horton joined GSC Partners from TCIW to build a structured products platform at GSC. Since joining GSC, the structured products group has leased a private mortgage REIT, GSC Capital Corp, and two synthetic mezzanine structured product CDOs.

For GSC, the CDO is an opportunity to grow their existing structured product CDO platform. For Goldman, the CDO will provide an opportunity to enhance our strategic relationship with GSC and maintain our leadership in the high grade structured product CDO market.

IV. Underwriting Commitments

Goldman Sachs will act as sole placement agent of the Class A, B, C, D, and E Notes and the Income Notes and will be working on a "best efforts" basis on all of the debt and has a firm commitment on 50% of the income notes. GSC Capital Corp is pre-committed to purchase 50% of the Income Notes.

The primary demand for mezzanine notes / equity in these types of transactions comes from European, Australian, and Asian banking and insurance institutions, US asset managers, other structured investment vehicles, and CDO equity funds. These various accounts continue to express interest in gaining a leveraged exposure to the U.S. structured product market. The structured product CDO vehicle allows them to gain this exposure on a diversified basis.

We expect to purchase approximately $2-4 NM of the equity on the pricing date, but we will have no commitment to hold such position after closing.

Goldman’s current portfolio of CDO and CLO equity held within the CDO group is detailed in Appendix B.

V. Portfolio Ramp-Up and Equity Marketing

Initially, Goldman will assume 50% of first loss risk in the warehouse on the first $40 MM of losses and 100% of second loss risk above $40 MM in the event the CDO fails to close. GSC Capital Corp. will be taking 50% of first loss risk in the warehouse on the first $40 MM and will initially put $50 MM to collateralize this commitment. Goldman will have full recourse to GSC Capital Corp. (currently $150-200 MM in capital) for losses in excess of the posted amount, but not to exceed $20 MM and will have the right to liquidate the portfolio upon any material negative mark-to-market.

Additionally, we will continue to pursue early equity and mezzanine debt commitments from additional investors to reduce the risk of a failed closing. Appendix A details our current warehouse exposures across the CDO group.

The general terms of the portfolio ramp-up are as follows:
  - GS has the right to veto all asset purchases and GSC has the right to veto all asset purchases;
  - GS has unilateral right to liquidate an asset or the warehouse;
  - All assets are sub-forward to the CDO at time of purchase and the forward price covers any hedge or trading mark-to-market on assets during the warehouse phase.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-013473758
Footnote Exhibits - Page 4341

- 50% of positive carry will be paid to GS (positive carry is equal to any net income in excess of Goldman’s cost of financing during the warehousing period). Net carry is expected to be approximately $1.0 MM which will be shared 50/50 between Goldman and GSC Capital Corp.
- Position sizes will be limited to $20 MM for assets rated single-A or higher and $10 MM for triple-B assets.

VI. Expected Fees

Goldman expects to recognize P&L equal to 1.5% times the par balance of the collateral portfolio. We expect a $500 MM transaction and the P&L, in that case, would be $7.5 MM. Additionally, Goldman expects to earn profit by selling assets into the CDO and from Goldman’s share of warehouse net carry (which is estimated to be $0.5 MM) and from our ongoing role as liquidation agent (which will be $500k per annum on a 4-duration).

VII. Reasons to Pursue

We are pursuing this transaction for the following reasons:

1. Goldman is approving every asset going into the warehouse. The respective trading desks are seated on each asset offered into the CDO by GSC from the street and we do not accept any asset that is not approved by the respective trading desk. In addition, we expect that 20-40% of the portfolio by dollar will come from Goldman’s offerings.

2. Although we will be marketing a $500 MM transaction, Goldman can price the transaction earlier with a lower balance if we are concerned about future market conditions or we can upsie the transaction if there are reasons to merit that action.

3. We will be offering the equity to third party investors with a no-loss yield of 18-20% which is consistent with CDO equity from mezzanine structured product CDOs currently being sold into the market.

4. We expect to generally market the debt and equity once the transaction is approximately 70% ramped. We expect to offer the equity and debt on an early commitment basis (we will commence those discussions upon initial portfolio ramp).

5. GSC Capital Corp. is taking half of the first loss risk in the warehouse and is committed to half of the equity. Goldman has a “best efforts” underwriting commitment on the debt, and Goldman’s expected total P&L of approximately $1.5 MM.

VIII. Strengths / Issues to Consider

Strengths
- Pre-Sold Equity: GSC Capital Corp. has pre-committed to purchase half of the equity.
- Repeat Collateral Manager: This transaction would represent GSC’s fourth CDO with Goldman in 2006 and GSC’s third structured product CDO.
- Collateral: 100% of the portfolio will have a rating of investment grade.
- Pre-Marketing: We will begin discussions with numerous investors on early commitments on equity and debt (TCW Equity Fund, Commerzbank, Bents Capital, Sanderman, Magnier, and Mariner).

Issues to Consider
- Warehouse: Goldman Sachs will be exposed to half of any first loss exposure on the first $40 MM and 100% of any second loss exposure above $40 MM if the deal fails to close. GSC Capital Corp. is
Footnote Exhibits - Page 4342

initially posting $5.0 MM to collateralize its risk sharing commitment and will make additional contributions up to $20 MM as the warehouse ramps.

IX. Recommendation

GSC is a repeat CDO issuer and is one of Goldman's strongest relationships in the structured product CDO market. Goldman Sachs will be involved in structuring the transaction, selling assets into the transaction, placing the Notes and the equity of the CDO and in return, will recognize P&L of approx. $5.5 MM.

In light of the above, we request that the Capital Committee approve our proposal to enter into a "best efforts" underwriting of the CDO amid, firm commitment on half the equity, and to move forward with the warehouse risk sharing arrangement with GSC.

I asked Ed and Josh early on if they wanted me to get you and Connacchia involved to get this moving and they said it was mere of an inquiry at that point. When I relayed to them that the team here had multiple points of contact with GSC already they asked me to just hold off until they had a better sense of who at Goldman was talking to various contacts at GSC. Yesterday they asked me to move forward again...I just received that response this morning.

Know them well, was just there with their ISO coverage and a bunch of banks including Bank of Tokyo etc.

Also our team recently hosted a dry-run for their new credit fund.

Also introducing John Lipton to equities and PB folks in Asia.

How can we help?

Are either of you familiar with GSC Partners? Several Ex-Salomon Partners involved. They currently have ~$9.3 Billion in AUM...although the fund they would like us to have discussions on is currently 1/2 in size. They are a strategic partner with the synthetic desk and have handed us multiple GSO/LSN mandates. Please let me know if we can arrange a discussion on this account.

Thanks

Subject: RE: GS/GBC EB Prop deal

Gentlemen,

Here is what we would do:
- $200m deal
- 50/50 on the equity. Any equity sales reduce our allocation pro-rata.
- no D/G test is ok. Suggest OC test diverting excess spread if BBB OC is less than 100.0% (no header).
- No underwriting fee
- No cap on expenses (we share that risk). But agree we try to keep it low (will definitely be higher than Bumen given agencies alone)
- GS pays 10bp PA on the NOPCB as Asset Liquidation Agent
- 3% size limit
- 3-in non-call
- No reinvestment
- Offer to sell protection on BBB to GSC at market for 0.75% times notional
- Happy to source assets via GSC
- Not sure we can leverage equity, but we will try to sell some BB debt if that helps

Let me know if that works.
Thanks,
Peter

Gentlemen,

Here's what we were thinking to make sure we are all on the same page, let us know what you think.
- 300 million deal (~4.5% non-IG notes and equity)
- No O/C/C tests
- GSC commits to 50% of the equity
- There is no underwriting fee on the deal
- Try to cap upfront expenses (legal, rating agencies, audit) at 1 million
- GS earns 10bps pa on the NOPCB as Asset Liquidation Agent

<table>

</tr>
</tbody>
</table>

- 1% target position size

- 3 year non-call
- No reinvestment
- GSC EB have the right to source up to 50 million of the Baa2 CDOs directly
- GS will use best efforts to source [12] million of the BBBs for GSC EB to short; GS will earn [0.75%] on the notional amount of the short paid upfront
  (fixed cap, with implied withdrawal)
- GS will leverage the equity 50% to GSC

Subject: Talking Points on New Century

- Historically New Century has on average displayed much better performance in terms of delinquency and default data.
- Prepayment have tended to be higher lowering the extension risk.
- Losses and REO are historically lower than the rest of the market.
- Traditionally the structures have strong enhancements/subordination.

Will book the tranche trades now and rename in tap - will let you know once completed - thanks.

From: Williams, Geoffray
Sent: Monday, September 13, 2008 2:01 PM
To: Fico-admg
Cc: Fico-itgqn-deals; Raiz, Max
Subject: PM: Expected Tranche Trades with GSC on Monday

GSC tranche trades booked in TAP. Also, have information on the ABX trades they did last week. Can you please rename and revert ASAP so we can get to Collateral and have all the trades linked? Thanks.

GS sells 25 mm ABX 06-1 BBB index '913 @ 105-06 - SDEB0133412681
GS sells 15mm ABX 06-1 BBB index '913 @ 105-26 - SDEB01334263

Follow-ups on tranched swaps with GSC / DB Prop / Magnetar; let us know if you have any questions or need anything else:

Strats -- I will send an updated TAP setup file for this portfolio (which is ABACUS 06-11) since this trade will not have any strat level like the protection buy side.

Ops -- can we please discuss how to link GSC’s ABX longs to their tranche shorts when booked so that they receive appropriate margin credit?

Credit -- please note updated sizes that GSC will do in their long/short strategy; can you please refresh the initial margin based on this?

Controllers -- can we please discuss what will be released on Mon?

Drafting -- find a draftconfirm that we have sent to GSC / DB Prop / Magnetar below, we will let you know when we have finalized with GSC / DB Prop / Magnetar.

From: Williams, Geoffray

Confidential Treatment Requested by Goldman Sachs

Preliminary Subcommitee on Investigations
Wall Street & The Financial Crisis
Report Footnote #336
Footnote Exhibits - Page 4354

We expect to write protection to GSC on each of the following tranches of all of the static reference portfolio attached below; GSC will pay to GS the premiums detailed below:

$10,625mm of 8.625%-12.875% (Class B) @ 200bps upfront and 100bps running
$6,250mm of 6.125%-6.875% (Class C) @ 200bps upfront and 200bps running
$5,937.5mm of 5.750%-5.125% (Class D) @ 200bps upfront and 400bps running

Against this, GSC has already bought $40mm of ABX.HE.BBB.B-01 from the ABS Trading desk; we need to link this trade to their tranche shorts so that they get margin credit for the long/short.

Other Key Terms:

Trade date: Monday, September 19, 2006
Effective date: Tuesday, September 26, 2006
Protection Seller: [Goldman Sachs International]
Protection Buyer: [GSC entity]
Termination Date: September 26, 2045
Non-Call Period: ends on September 26, 2009
Amortization Type: Modified Sequential

Reference portfolio:

Attached pls find the next list of names we wanted to ramp for Husson Mewn. The amount we would like to short into the deal is noted in the GS Hedge amount column. The amount out for bid is noted in the following column (SM - GS Hedge Amount).

We would love if your desk wanted to trade some of the ones we want to hedge as well.

Let us know what your levels are if you want to bid, and if we have approval to trade the names.

Thanks

Josh

</table>
Per the below, this is a materially adverse development. The issues involve inadequate EPD provisions and marks on residuals. The company reports substantial liquidity and the charges are non-cash in nature, but in a confidence sensitive industry it will be ugly even if all problems have been identified.

We have relatively significant exposure - $33mm in prospective losses from EPD claims alone, and $79mm or so in potential exposure, under substantial mortgage warehouse and whole loan trading lines to this entity. With $1.6bn in market cap and $2bn in book equity, they were considered one of the stronger sub-prime originators.

We have a call with the company in a few minutes (to be lead by Dan Sparks) and will follow up with a posting later today on our conclusions and action plan.

Feb. 9 (Bloomberg) -- Shares of New Century Financial Corp., the second-largest home lender to riskier borrowers, plunged 28 percent, the most since October 1996, when the Russian debt crisis was cutting off sales of such loans in securities.

Shares of the Irvine, California-based company tumbled $0.56 to $21.58 at 9:57 a.m. in New York Stock Exchange composite trading. New Century late yesterday said it probably lost money last quarter, will need to restate other 2006 earnings lower, and won't make as many loans this year as it had previously forecast.

Also today, HSBC Holdings PLC announced a management shakeup and changes to lending policies, after saying it was setting aside 20 percent more for bad-loan provisions than analysts had estimated because of rising problems in its U.S. mortgage business. Problems with new subprime loans increased last year as a result of a slumping housing and looser lending standards.

"It's kind of a watershed moment where the magnitude of the problems really are starting to come to the surface," said Brian Honey, general partner at Aurelius Partners LP in New York, which has sold short shares of New Century. "If you could fog a mirror, you could get a loan."

Contributing to New Century's restatement and fourth-quarter loss are repurchases of previously sold loans, the company said. Subprime loan buyers typically can force lenders to buy back the mortgages they sold if borrowers miss their first few payments, any type of fraud is discovered, or the loans otherwise fail to meet the guidelines laid out in a sales contract.

Here is what I am thinking on Hudson mess - we fix the marks that for the huudson mess that
did not get in. I have barrel looking into how to get the spv's to flow downstream through
it to controllers - that would eliminate variance which will get focused on big time.

At the same time mark anderson positions are we facing the warehouse at the right level.

What do you think?

Prefer to have the discussions over the phone.

Any comments or below before I send to Sal per Dan’s request?

NOTES:

- Each warehouse is marked by either a) MWM on each asset or b) mark to model which involves taking the portfolio through the expected CDO execution and calculating Goldman’s F4, given current market yields on debt and equity. MWM is preferred if CDO execution is highly uncertain or portfolio is small. Both the MWM and the MModel take into account risk sharing arrangements with 3rd parties.

- CDO execution has become more uncertain we have moved a couple warehouses closer to their MWM which has significantly increased our losses. Also, our MModel results have shown losses as expected liability spreads have widened significantly and the overall strength of the CDO market has weakened due to fundamental credit decline in 06/07 in MBS/ CDO subprime (90%+ of assets) and increased correlation between ASX/TAX levels and most debt levels in CDOs. We expect this to result in increased volatility in our warehouse marks for the a while (this series of events have happened quickly within the last month and the correlation is getting closer to 1 as global markets get more familiar with fundamentals in subprime and trading levels in ASX/TAX).

Additional losses have also resulted from the liquidation of 3 warehouses. In each case, the realized loss from the sale of assets has been higher than our MWM or MModel. This is attributable to both volatility in subprime markets and that our competitors are closing their CDO warehouse accounts from buying our subprime or CDO positions. The buyer base has suddenly shrunk significantly. As this continues, we expect this lack of liquidity to further weaken our MWMs and feed into our losses in our remaining warehouse marks.

Subject: Quarter End Marks

Dan,

Given the magnitude and frequency of market swings over the past few weeks, we'd like to request some assistance from your team with regard to quarter end pricing levels. Specifically, we'd like to get a write-up of the fundamental or quantitative analysis, coupled with the market technicals, that support today's closing levels for general groups of positions (for example, all BBB flats) for the following area's:

- CDO Warehouse (Ostrem)
- CDO Warehouse collapsed (Ostrem)
- Secondary cash positions (Bvanena)
- Subprime whole loans (Nicholas)
- Subprime retained (Nicholas)
- CDO retained (Case)
- Subprime residua (Nicholas)
- 2nds liquidity reserve (Bvanena or Darlush)

This feedback will be extremely helpful for us, especially when you consider how many sectors are affected by the recent market events.

Thanks in advance for supporting this request.

He knew that we have A1e, A1b and Bm. I'll check, but given the portfolio I suspect he's looking for a cleaner start.

may be interesting for him to look at the A-16's if he's concerned about downgrades. No triggers above the bonds, back-ended cash flow super senior risk (so it's wider than A-16's) but the trigger gets paid pro-rata with the A-16's in the event an OC test fails. Way to pick up wider spread super senior risk which is likely to pay off due to OC test failures/downgrades.

Subject: RE: Anderson Mezz Funding 2007-1 — Final Offering Circular (144a/Rag3) (external)

Andy,

We're going to pass on the deal for a number of reasons:

• Two bonds (FMGC 05-3 MB and HAGG 06-NC1 MB) have been downgraded or are on negative watch
• Another 12 bonds in the portfolio are negatively impacted by downgrades lower in the capital structure
• 28% of the portfolio is failing delinquency triggers
• We show that a lot of these bonds will take principal hits
• Not crazy about deal structure give the quality of the portfolio
  o Upon a breach of Class D OCC test, interest is used to pay down Class D notes (I would rather see the A and B notes get paid down)
  o Upon a breach of the Class C OCC test, interest is used to pay down Class A, B, and C pro-rata until 50% factor. (again, I would prefer to see A and B notes get paid off first)
  o If senior tests are in compliance, Class D and C interest shortfalls are paid from principal
  o Pro-rata paydown until 40% factor, not the standard 50%

Anderson Mezzanine Funding 2007-1, Ltd.

Executive Summary

- Anderson Mezzanine Funding 2007-1, Ltd. ("Anderson Funding") is a static $500 million cashflow CDO consisting of a diversified portfolio of RMBS and CDO securities.

- Anderson Funding will be a static, non-managed transaction. Anderson Funding will provide term non-recourse funding. Goldman Sachs will:
  - Warehouse assets during the portfolio aggregation phase prior to closing
  - In its role as Liquidation Agent, Goldman Sachs will liquidate any asset within one year after such asset performs below certain threshold levels determined prior to closing

- The portfolio consists of collateral which is rated at least Baa3 (if rated by Moody's) and BBB- (if rated by S&P) with an average rating of Baa2/Baa3. 100% of the portfolio will be real-estate related securities.

- Low fee structure and less "barbell" portfolio than other mezzanine CDOs in the current market.

- Transaction co-sponsored by Goldman Sachs and GSC Elliot Bridge (an ABS and CDO hedge fund managed by GSC Group).

HYPOTHETICAL ILLUSTRATIONS AND PRO FORMA INFORMATION

These materials contain statements that are not purely historical in nature. These include, among other things, hypothetical illustrations, sample or pro forma portfolio structures or portfolio composition, scenario analysis of returns and proposed or pro forma levels of diversification or sector investment. These hypothetical illustrations of returns illustrate a range of potential outcomes based upon certain assumptions. Such potential outcomes are not a prediction by the Issuer, Goldman Sachs or their respective affiliates of the performance of the securities described herein. Actual events are difficult to predict, are beyond the control of the Issuer, Goldman Sachs, or their respective affiliates, and actual events may differ from those assumed and such differences may be material. There can be no assurance that actual returns will be realized or materialized of that actual returns or results will not be materially lower than those presented. All statements included are based on information available on the date hereof, and none of the Issuer, Goldman Sachs or their respective affiliates assumes any duty to update any such statement. Some important factors which could cause actual results to differ materially from those in any statements contained herein include the actual composition of the collateral and the price at which such collateral is actually purchased by the Issuer, any defaults on the collateral, the timing of any defaults and subsequent recoveries, changes in interest rates, and any weakening of the specific credits included in the collateral, among others. The Offering Circular will contain other risk factors, which an investor should also consider in connection with an investment in the securities described herein.

PRIOR INVESTMENT RESULTS

Any prior investment results or returns are presented for illustrative purposes only and are not indicative of the future returns on the securities and obligations of the Issuer. Because of portfolio restrictions that apply to the Issuer and differences in market conditions, the investments selected by Goldman Sachs on behalf of the Issuer may differ substantially from prior investments made by Goldman Sachs. The Issuer has no operating history.
Risk Factors

Footnote Exhibits - Page 4372

Risk Factors

Footnote Exhibits - Page 4372
Risk Factors

- Liquidity of collateral assets
  - Some of the collateral assets purchased by the Issuer will have no, or only a limited, trading market. This liquidity may restrict the Issuer's ability to dispose of investments in a timely fashion and for a fair price as well as the ability to take advantage of market opportunities.
  - Liquidated securities may also trade at a discount to comparable, more liquid investments. In addition, the Issuer may invest in privately placed collateral assets that are non-transferable or are transferable only at prices less than the fair value or the original purchase price of the securities.

- Nature of Collateral
  - The Collateral Assets are subject to credit, liquidity and interest rate risk. In addition, the financial performance of the Issuer may be affected by the price and availability of Collateral Assets to be purchased.
  - Some or all of the Collateral Assets may be secured or otherwise subject to restrictions or limitations under the indenture.

- Collateral Manager
  - The Issuer will not engage a Collateral Manager. As a result, the Collateral Assets held by the Issuer on the Closing Date will be retained by the Issuer even if a Collateral Manager is not engaged. The Collateral Manager is required to be engaged by the Issuer before the Collateral Manager can engage in any activities on the Collateral Assets.

- Timing and Amount of Recovery
  - One Collateral Asset that meets the liquidation criteria may be sold. If a Collateral Asset meets the liquidation criteria, the Issuer will be required to sell the asset at the highest price in accordance with the terms of the indenture. The Issuer is required to sell the asset at the highest price in accordance with the terms of the indenture.

- Limited Activities of the Co-Issuer
  - The Issuer will be responsible for any losses incurred in the management of the Collateral Assets. The Issuer will also be responsible for any losses incurred in the management of the Collateral Assets.

- Investment of Credit Quality and Defaults on the Collateral
  - Decline in credit quality of the Collateral could result in losses which would adversely affect the Issuer's financial condition. The Issuer may experience losses in the event of defaults or other events affecting the credit quality of any of the Collateral.

- Yield Due to Prepayments
  - The yield to maturity on the Issuer Notes could be affected by the rate of prepayment of the Collateral Assets. Payments to the Issuer Notes at a rate slower than the rate anticipated by investors purchasing the Issuer Notes at a discount will result in an actual yield that is lower than anticipated by investors. Conversely, payments to the Issuer Notes at a rate faster than the rate anticipated by investors purchasing the Issuer Notes at a premium will result in an actual yield that is lower than anticipated by investors.
Risk Factors

- **Investment Decisions**
  - In making an investment decision, investors must rely on consultations with their own legal, accounting and audit advisors to determine whether and to what extent they should invest in the Notes or the Income Notes.

- **Change in the Rate of Interest Paid on the Notes**
  - There will be a base and forgoing interest between the Notes and the collateral assets, since the interest rates on such collateral assets may adjust more frequently or less frequently, on different dates and based on different indices, than the interest rates on the Notes. The fixed rate and the margin over LIBOR on other floating-rate assets or collateral assets may be lower than those on solid or amortized collateral assets which could cause a significant decline in interest earnings for the Notes.

- **If the Issuer may enter into collateral swap agreements to limit exposure to this risk, but no assurance can be given that such collateral swap agreements will be executed or will be successful in reducing the exposure to this risk. However, there may be a termination payment related to one or more collateral swap agreements in the event of a redemption of the Notes prior to the expiration of the collateral swap agreement.**

- **Credit Exposure to Portfolios of Reference Obligations**
  - On the closing date, the Issuer will enter into pay-as-you-go credit default swaps (the "Synthetic Securities") with Goldman Sachs International, ("GS") and to such company, the "Counterparty", pursuant to which the Issuer will sell credit default protection with respect to a portfolio of Reference Obligations. In a credit event occurs with respect to any of the Reference Obligations, the Issuer will pay the Counterparty the amount of the default in principal, plus, if the Counterparty elects to deliver the reference obligation, the notional amount of the Synthetic Security (the "Reference Price"). In return for the credit default protection, the Counterparty will pay the Issuer a premium which may be related (but not below par) to certain Reference Obligations experience interest rates. Credit events and interest rate changes may affect the Issuer's ability to make payments on the Notes and the Income Notes.

- **All Notes and Income Notes are subordinated to credit default protection payments under the Synthetic Securities and to certain termination payments made in the Counterparty in connection with a termination event. The magnitude of such issues will be affected by the number of credit events and the recovery amount of any deluded Reference Obligations and timing of such credit events.**

- **Nature of Reference Obligations**
  - The Reference Obligations are expected to consist of RMBS and CDO securities. The Reference Obligations are subject to the credit, market, structural, legal, prepayment and interest rate risks associated with RMBS and CDO securities, respectively. The economic return on the Synthetic Securities will depend substantially upon the performance of the related Reference Obligation.

- **Termination of the Synthetic Securities**
  - Pursuant to the Synthetic Securities, the Issuer or the Counterparty will have the right to terminate the Synthetic Securities in specified circumstances. In such event, the Issuer may be required to make substantial termination payments to the Counterparty and such payments would reduce the amounts available to make payments on the Notes and the Income Notes. In such event, the Issuer may not have sufficient funds to make payments when due on the Notes and Income Notes and may not have sufficient funds to redeem the Notes and Income Notes.

- **Credit Exposure to Counterparty**
  - The ability of the Issuer to meet its obligations under the Secured Notes and the Income Notes will be dependent on its receipt of payments from the Counterparty under the Synthetic Securities. Consequently, the performance of the Collateral Obligations will also affect the performance of the Counterparty to perform its obligations under the Synthetic Securities. The performance of the Counterparty or a default by the Counterparty would adversely affect the ability of the Issuer to pay principal when due under the Secured Notes and make distributions on the Income Notes and could result in a withdrawal or downgrade of the ratings on the Secured Notes.
Risk Factors

Tax Treatment of Income Notes
- Since the issuer will be a passive foreign investment company, U.S. persons holding Income Notes may be subject to additional taxes unless it elects to treat the issuer as a passive foreign electrical grid and to recognize currently its proportionate share of the issuer's income. The issuer has agreed, and to its acceptance of an Income Note, each holder of an Income Note will be deemed to have agreed, to treat the Income Notes as equity for tax purposes.

- Income Note holders should consult their tax advisors about the special U.S. tax regimes that apply to shareholders of passive foreign investment companies and controlled foreign corporations.

- Special tax considerations may apply to certain types of investors. Prospective investors should consult their tax advisors regarding the tax implications of their investment.

Subordination
- The Income Notes are subordinated to the Class S, Class A, Class B, Class C and Class D Notes and certain payments of expenses. The Class D Notes are subordinated to the Class B, Class C and Class A Notes and certain payments of expenses. The Class C Notes are subordinated to the Class S, Class B and Class D Notes and certain payments of expenses. The Class B Notes are subordinated to the class S Notes. Class A Notes and certain payments of expenses. The subordination of interest payments received on the collateral will be made to the Income Notes until interest on the Secured Notes and certain other expenses have been paid. In addition, in the event of default, holders of the most senior class of Secured Notes will generally be entitled to determine the remedies to be exercised; such remedies could include the sale and the liquidation of the collateral and have an adverse effect on the Income Notes. The Income Notes will not be able to exercise any remedies following an event of default and will not receive payments after an event of default until the Secured Notes are paid in full.

Impairment of Credit Quality and Defaults on the Collateral Assets
- Decline in credit quality of the collateral or defaults could result in losses which would adversely affect the Notes and the Income Notes.

- There may be certain incidents or events concerning the CDO, all of which could have a material adverse impact on the Notes and the Income Notes in the event of economic downturn or other events affecting the credit quality of any of the collateralized.

Redemption of Class S, A-1, A-2, B, C, and D Notes
- If certain overcollateralization or internal coverage tests are not met, redemptions of the Class S, A-1, A-2, B, C, and D Notes would be required, which may affect the yields on more subordinated classes of notes and the Income Notes and will be paid from amounts which otherwise will be available for payment to holders of the Income Notes.

- Mandatory redemption could result in an elimination, deferral or reduction in the amount paid to the Income Notes, which would adversely and materially affect their returns.

Auction of the Collateral Assets
- There can be no assurance that an auction of the collateral assets will be successful; a successful auction will shorten the duration of the Notes and the Income Notes and is not required to result in any proceeds for distribution to the holders of the Income Notes.
Footnote Exhibits - Page 4376

Risk Factors

- Timing of receipt of Accrued Interest Income.
- On an ongoing basis, the receipt by the issuer of accrued interest income may affect the availability of cash which may be distributed to the Holders of Senior Notes and Income Notes.

- International Investing
  - Investing outside the U.S. may involve greater risk which may include (1) less publicly available information, (2) varying levels of governmental regulation and supervision, (3) the difficulty of enforcing legal rights in a foreign jurisdiction and uncertainties as to the receipts, interpretation and application of laws, (4) less diligent accounting practices, (5) different clearance and settlement procedures, (6) economic and political conditions and instability, (7) exchange control and foreign currency risk, (8) insolvency and (9) repatriation risk.
  - A portion of the Collateral Assets may instead of obligations of an Issuer organized under the laws of the Bahamas, Bermuda, the Cayman Islands, the Channel Islands, the Netherlands Antilles or other jurisdictions offering favorable tax treatment.

- Tax Treatment of Income Notes
  - Since the Issuer will be a passive foreign investment company, U.S. persons holding Income Notes may be subject to additional taxes unless it elects to treat the Issuer as a qualified electing fund and to recognize currently the proportionate share of the Issuer's income. The Income Notes will be treated as qualifying for the availability of the deferral of taxes under Sect 881.
  - Income Notes holders should consult their tax advisors about the special U.S. tax effects that apply to shareholders of passive foreign investment companies, combined foreign corporations and foreign personal holding companies.
  - Special tax considerations may apply to certain types of investors. Prospective investors should consult their own tax advisors regarding the tax implications of their investments.

- National Tax Considerations
  - There is a possibility that the Issuer will be found to be engaging in U.S. trade or business. In such a case, it would be subject to substantial U.S. income tax on its income.

- Hypothetical Illustrations and Estimates
  - Estimates of the weighted average lives of the Class A, B, C and D Notes and the returns and duration of the Income Notes included herein, together with any other hypothetical illustrations and estimates provided to prospective purchasers of the Class A, B, C and D Notes, are forward-looking statements. See "Hypothetical Illustrations and Pro Forma Information" on Disclaimer page in the beginning of this book.
  - The hypothetical illustrations are only estimates. Actual results may vary, and the variations may be material. See "Hypothetical Illustrations and Pro Forma Information" on Disclaimer page in the beginning of this book.

- Changes in Tax Law
  - The Collateral Assets may not be permitted to be used for withholding tax at the time of purchase, unless the Issuer therefor is required to make "make-up" payments. There can be no assurance that, as a result of any change in any applicable law, treaty, rule or regulation or interpretation thereof, the payments on the collateral might not in the future become subject to withholding tax which could adversely affect the amounts that would be available to make payments on the Income Notes and Senior Notes.
  - In case of a Withholding Tax Event (as defined in the Offering Circular), holders of more than 50% of any affected Note may require the Issuer to liquidate the collateral on any Payment Date, and redeem the Class A, B, C and D Notes, prior to any distributions to holders of Income Notes.
Risk Factors

- Anti Money Laundering Policies
  - Uniting and Strengthening America by Providing Appropriate Tools Required to Interdict and Obstruct Terrorism Act of 2001 (the "USA PATRIOT Act"), signed into law on an urgent effective date of October 26, 2001, imposes anti-money laundering obligations on different types of financial institutions, including banks, broker-dealers, and investment companies. The USA PATRIOT Act requires the Secretary of the United States Department of the Treasury (the "Treasury") to prescribe regulations to define the types of investment companies subject to the USA PATRIOT Act and the related anti-money laundering obligations. It is not clear whether Treasury will require entities such as the Issuer to adopt anti-money laundering policies. It is possible that Treasury will promulgate regulations requiring the Issuer to adopt anti-money laundering policies. In connection with the establishment of anti-money laundering procedures, to share information with governmental authorities with respect to the Issuer and/or the Income Notes. Such regulations and the Issuer will require the Issuer to implement additional restrictions on the beneficial ownership of the Notes and/or the Issuer Notes. As may be required, the Issuer reserves the right to limit such information and take such actions as are necessary to enable it to comply with the USA PATRIOT Act.

- Investment Company Act
  - Neither the Issuer, nor any of its officers or directors, has registered as an investment company pursuant to the Investment Company Act. The Issuer has not so registered in reliance on an exception for Investment companies organized under the laws of a jurisdiction other than the United States whose investors resident in the United States are solely Qualified Purchasers and which do not make a public offering of their securities in the United States. Counsel for the Issuer will advise, in connection with the sale of the Notes by the Initial Purchasers, that neither the Issuer nor the Co-Issuer is an investment company required to be registered under the Investment Company Act (pursuant, for the purposes of such registration, to the requirements set forth by the Initial Purchaser in accordance with the terms of the Purchase Agreement). No opinion or no-action letter has been requested of the SEC.

- ERISA Regulations
  - Investors should review the "ERISA Considerations" section of the Offering Circular to determine their eligibility to hold the Notes and the Income Notes for purposes of the ERISA restrictions. Prospective investors should consult their own advisors regarding the ERISA-related implications of their investments.

- European Securities Regulations
  - The listing of Notes or Income Notes on any European Union stock exchange would subject the Issuer to regulation under certain European regulations, although the requirements applicable to the Issuer are not yet fully clarified. The Issuer will not require the Issuer to apply for, list or maintain a listing for any Class of Notes or Income Notes on a European Union stock exchange. If compliance with these regulations becomes burdensome, the legal status of the Notes or Income Notes may be negatively impacted.

- Material Tax Considerations
  - The Issuer does not expect it to be subject to net income taxation in the United States. If the Issuer were treated as engaged in a United States trade or business, it would be subject to substantials U.S. income tax on its income.
Anderson Mezzanine Funding 2007-1, Ltd.
Transaction Overview

- Anderson Mezzanine Funding is a static mezzanine structured product CDO with the following features:
  - No exposure to reinvestment spread risk or reliance on reinvestment to generate excess interest to cover debt service
  - No fixed rate assets
  - No assets without an initial rating of at least Baa3 by Moody's and BBB- by S&P. Average WARP in the portfolio is expected to be 500
  - Overall fee structure is significantly less than comparable mezzanine structured product CDOs in the market

- There will be no reinvestment, substitution, discretionary trading or discretionary sales. After closing, assets that are determined to be "credit risk" securities will be sold by the Liquidation Agent within one year of such determination

- Goldman Sachs will act as Structuring, Placement and Liquidation Agent for Anderson Funding and will warehouse the portfolio prior to closing
  - Goldman Sachs will receive 5 bps ongoing fee for its role as Liquidation Agent

- Portfolio selection process:
  - Assets sourced from the Street at then market levels
  - Assets pre-screened and evaluated for portfolio suitability
  - Goldman Sachs CDO desk reviews individual assets in conjunction with respective mortgage trading desks
  - All CDS use rating agency approved confirms (pay as you go)
Anderson Mezzanine Funding 2007-1, Ltd.
Transaction Overview - Asset Selection / Asset Liquidation

- Portfolio Aggregation Strategy:
  - Select only assets rated explicitly Baa3/BBB- (Moody’s / S&P) and above. No notched rating of below Baa3 in the portfolio
  - No Fixed rate assets allowed, eliminating fixed/ floating basis mismatch
  - Maximum obligor concentration is 1.5%, creating a very granular portfolio with 100 distinct obligors
  - Target portfolio with Weighted Average Rating Factor of [475] and duration weighted average spread of [205] bps

- Goldman Sachs, as Liquidation Agent, will liquidate any asset determined to be a "credit risk" asset within 12 months of such determination. "Credit risk" assets will include:
  - Any asset downgraded by Moody’s or S&P to below B3 or B-
  - Any asset that is defaulted and experiences a credit event as defined by the PAUG confirm

- Expected collateral quality statistics at closing
  - WARF: [475]
  - [100] Distinct Obligors
  - Moody’s Asset Correlation ("MAC") at closing: [26]
  - Duration weighted average portfolio spread: [205] bps
  - Weighted Average Duration: 3.1 years

Anderson Mezzanine Funding 2007-1, Ltd.
Structural Overview

- Anderson Mezzanine Funding is a cashflow CDO with:
  - A fully issued capital structure
  - Traditional overcollateralization tests

- Structure has the ability to tailor average life profile of senior tranches upon investor request

- Class A-1 Notes may be issued either in funded form or as an unfunded swap, depending on investor preference

- The deal will use a "modified sequential" principal paydown structure

- No Minimum Income Note IRR required to effect an auction call
  - Increases the likelihood of a successful auction call or optional redemption
  - Mitigated the back ended pressure on transaction as costs of financing increases

- Turbo to Class D Notes from excess interest shortens the tranche's expected average life
Transaction Details

General Information

Issuers: Anderson Mezzanine Funding 2007-1, Ltd. and Anderson Mezzanine Funding 2007-1, Corp.

Liquidation Agent, Structuring and Placement Agent: Goodman, Sachs & Co.

Liquidation Agent Fee: 5 bps per annum payable senior to all the Notes (other than the Class B Notes).

Reinvestment Period: None.

Discretionary Trading: None. Liquidation Agent will sell credit-risk assets based on pre-determined rules and the clean proceeds will be treated as principal payments.

Ramp-Up Period: None. Transaction will be completely ramped at closing.

Non-Call Period: 3 years.

Auction Call: 9 years. There is no minimum IRR requirement for successful Auction Call.

Payment Frequency: Monthly for Class B, A-1, A-2, B, C and D Notes, Quarterly for Income Notes.

Controlling Class: Class B and Class A Notes (the "Senior Notes") voting in the aggregate until paid in full, then Class B, Class C and Class D Notes in that order until each Class is paid in full.

Levered RMBS Structural Alternatives
Transaction Variant Summary

- Given that there are a variety of products allowing investors to take levered exposure to RMBS, it is important to understand structural similarities and differences.
- Three distinct types of transactions are considered for this comparison:

<table>
<thead>
<tr>
<th>NAME</th>
<th>GENERAL DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cashflow CDO</td>
<td>Fully secured transaction in which a selection agent or third party collateral manager selects the assets to be securitized through CDO. Cash proceeds from collateral assets flow through a waterfall to pay the issued Notes and Income Notes, which are broadly syndicated.</td>
</tr>
<tr>
<td>Bespoke Transaction</td>
<td>Customized transaction negotiated between the servicer and a &quot;sponsor&quot; investor/portfolio manager, who generally takes credit risk at one or more layers of the capital structure. Layers of risk not assumed by &quot;sponsor&quot; investor/portfolio manager are either hedged by the structured product correlation desk or distributed in subsequent offerings.</td>
</tr>
<tr>
<td>Tranched ABX</td>
<td>Standardized ABX tranche trading referencing both AAA and Aaa variants of the on-the-run and immediately off-the-run ABX.HE indices. The product has sponsorship from all ABX dealers and uses a market-based cost.</td>
</tr>
</tbody>
</table>

- Anderson Mezzanine Funding 2007-1, Ltd., is a cashflow CDO

I. Executive Summary

Note: The information in this section is preliminary and subject to change
Anderson Mezzanine Funding 2007-1

Executive Summary

- Anderson Mezzanine Funding 2007-1 ("Anderson Funding") will be a static $500 million cashflow CDO consisting of a diversified portfolio of RMBS and CDO securities.

- Goldman Sachs and GSC Group ("GSC") co-selected the assets.

- Anderson Funding will be non-managed and static in nature. Anderson Funding will provide term non-recourse funding. In its role as Liquidation Agent, Goldman Sachs will:
  - Liquidate any asset within one year after such asset performs below certain threshold levels determined prior to closing.

- The portfolio consists of collateral which is rated at least Baa3 (if rated by Moody’s) and BBB- (if rated by S&P) with an average rating of Baa2/Baa3. 100% of the portfolio will be real-estate related securities.

- Low fee structure and less "barbelled" portfolio than other mezzanine CDOs in the current market.

- Transaction co-sponsored by Goldman and GSC Elliot Bridge (an ABS and CDO hedge fund managed by GSC Group). Goldman Sachs and GSC has aligned incentives with Anderson Funding by investing in a portion of equity.
II. Disclaimer and Risk Factors

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-00092561
Disclaimer

The information contained herein is confidential information regarding securities that may in the future be offered by Anderson Mezzanine Funding 2007-1, Ltd. ("Administrator"), Anderson or the "Issuer"). The Information is being delivered to a limited number of sophisticated prospective institutional investors in order to assist them in determining whether they have an interest in the type of securities described herein and is solely for their internal use. By accepting this Information, the recipient agrees that it will use and will cause its directors, officers, employees and representatives to use the Information only to evaluate its potential interest in the securities described herein and for no other purpose and will not divulge any such information to any other party. Any reproduction of this Information, in whole or in part, is prohibited. Notwithstanding the foregoing, each recipient and each employee, representative, or other agent of each recipient may disclose to any and all other persons, without limitation or any kind, the tax treatment and tax structure of the Issuer, the securities described herein and any future offering to persons who have a need to know such tax treatment and tax structure. The recipient acknowledges that it is not purchasing the securities or entering into any transaction described herein for purposes of avoiding United States federal income tax treatment of the transaction, and the tax structure of a transaction is an aspect of the consideration to be given to the recipient in any such transaction. The recipient further acknowledges that the information contained herein relating to such tax treatment and tax structure. However, any such information relating to such tax treatment or tax structure is required to be kept confidential to the extent necessary to maintain the proprietary nature thereof. Any decision to invest in the securities described herein should be made after reviewing the Offering Circular, conducting such investigations as the recipient deems necessary or appropriate and consulting the investor’s own legal, accounting, tax, and other advisors in order to make an independent determination of the suitability and consequences of an investment in the securities.

The securities described herein will not be registered under the Securities Act of 1933, as amended, or the securities laws of any other jurisdiction and neither the Issuer nor the holder of securities held by the Issuer will be registered under the Investment Company Act of 1940, as amended. The securities offered herein will not be recommended by any United States federal or state securities commission or any other regulatory authority. Furthermore, the foregoing authorities have not confirmed the accuracy or determined the adequacy of this document. Any representation to the contrary is a material misstatement. The securities described herein will be subject to certain restrictions on transfers as described in the Offering Circular.

None of the Issuer, Goldman Sachs (as used herein, each shall include Goldman Sachs & Co. and all of its Affiliates), nor any of their respective Affiliates makes any representation or warranty, express or implied, as to the accuracy or completeness of the information contained herein and nothing contained herein shall be relied upon as a promise or representation whether as to the past or future performance. The information includes hypothetical illustrations and involves modeling assumptions that are required for purposes of such hypothetical illustrations. No representations are made as to the accuracy of such hypothetical illustrations or that of any analysis relating to such hypothetical illustrations have been considered or stated or that such hypothetical illustrations will be realized. The information contained herein does not purport to contain all of the information that may be required to evaluate such securities, and such recipient is encouraged to read the Offering Circular and conduct its own independent analysis of the data referred to herein. The Issuer, Goldman Sachs, and their respective Affiliates disclaim any and all liability arising from the Information, including, without limitation, any express or implied representation or warranty for statements contained in and the accuracy of the information contained herein. Nothing herein shall be considered an offer to sell or the solicitation of an offer to buy any securities. The Issuer and its Affiliates shall not be bound by the terms of the information contained herein except to the extent of the terms of the Offering Circular. Additional information may be available upon request. The securities and obligations of the Issuer are not deposit obligations of any financial institution. The securities and obligations of the Issuer are complex, structured securities and there is no assurance that a secondary market for such securities will exist at any time. Accordingly, prospective investors should be prepared, and have the ability, to hold such securities until their respective stated maturities or stated redemption dates.
Disclaimer

HYPOTHETICAL ILLUSTRATIONS AND PRO FORMA INFORMATION

These materials contain statements that are not purely historical in nature. These include, among other things, hypothetical illustrations, sample or pro forma portfolio structures or portfolio composition, scenario analysis of returns and proposed or pro forma levels of diversification or sector investment. These hypothetical illustrations of returns illustrate a range of potential outcomes based upon various assumptions. Such potential outcomes are not a prediction by the Issuer, Goldman Sachs or their respective affiliates of the performance of the securities described herein. Actual events are difficult to predict and are beyond the control of the Issuer, Goldman Sachs, or their respective affiliates. Actual events may differ from those assumed and such differences may be material. There can be no assurance that illustrated returns will be realized or materialized or that actual returns or results will not be materially lower than those presented. All statements included are based on information available on the date hereof, and none of the Issuer, Goldman Sachs or their respective affiliates assumes any duty to update any such statement. Some important factors which could cause actual results to differ materially from those in any statements contained herein include the actual composition of the collateral and the price at which such collateral is actually purchased by the Issuer, any defaults on the collateral, the timing of any defaults and subsequent recoveries, changes in interest rates, and any weakening of the specific credits included in the collateral, among others. The Offering Circular will contain other risk factors, which an investor should also consider in connection with an investment in the securities described herein.

PRIOR INVESTMENT RESULTS

Any prior investment results or returns are presented for illustrative purposes only and are not indicative of the future returns on the securities and obligations of the Issuer. Because of portfolio restrictions that apply to the Issuer and differences in market conditions, the investments selected by Goldman Sachs on behalf of the Issuer may differ substantially from prior investments made by Goldman Sachs. The Issuer has no operating history.
Risk Factors

Note: The Offering Circular will include more extensive descriptions of the risks described herein as well as additional risks relating to, among other things, control of interest, by a third party. The Offering Circular describes the risks that were or may occur after reviewing such Offering Circular, and is intended to be made to the investor in a manner that requires the investor to understand the materiality of the risks of the securities offered. The risks are intended to be made to the investor in a manner that is necessary and substantial to the investor's analysis and understanding of the risks of the securities offered. The Offering Circular will supplement this document in an orderly manner.

Limited Liability, Reimbursements on Transfer, and Limited Recourse
- There is currently no market for the Secured Notes or Income Notes, and it is unlikely that any secondary market will develop. The Secured Notes and the Income Notes should be viewed as a long-term investment, not as a trading vehicle. The value of the Secured Notes and the Income Notes may vary, and the Secured Notes and the Income Notes, if sold, may be worth less than their original cost.
- In addition, the Secured Notes and the Income Notes will be sold in transactions exempt from SEC registration pursuant to Section 4(a)(2) of the Securities Act, and the Issuer will not be required to register the Issuer under the Investment Company Act of 1940 pursuant to the Section 3(c)(7) of the Act. The Issuer's inability to register the Issuer, as other restrictions on transfer of the Income Notes will apply.
- All transfers are subject to a number of conditions, and the Income Notes will be available for payment in the event of any deficiency. The Income Notes are subject to the rights of the holder, and such rights are subject to the rights of the Secured Notes.
- The Income Notes are subject to the rights of the holder, and such rights are subject to the rights of the Secured Notes.
- The Issuer is subject to the rights of the holder, and such rights are subject to the rights of the Secured Notes.

Leverage Credit Risk
- The Income Notes are in a first lien position with respect to the underlying collateral. The leverage nature of the Income Notes magnifies the adverse impact of any collateral defaults.

Valuation of Collateral and Secured Notes and Income Notes' Market Value
- The Income Notes represent a leveraged investment in the Collateral Assets. The use of leverage generally magnifies the issuer’s opportunities for gain and risk of loss. Therefore, changes in the market value of the Secured Notes and the Income Notes can be expected to be greater than changes in the market value of the underlying assets (collateral) which themselves are subject to credit, liquidity, and, with respect to the fixed income portion of the portfolio, interest rate risk.
- Changes in the market value of the Issuer’s shares in the portfolio or industry may impact the market value of the Issuer’s shares in one or more of other sectors or industries included in the collateral.

Collateral Risk
- Collateral Assets may not be significant credit risks because issuers are primarily private entities.
- The structure of Collateral Assets, and the terms of the Issuer’s interest in the collateral, may be highly dependent on the type of collateral, issuer’s structure, and the use of credit enhancements.
- Adverse changes in the financial condition of the collateral, or to general economic conditions, may adversely affect the issuer’s ability to pay principal and interest on the debt.
Risk Factors

- Nature of Collateral
  - The Collateral Assets are subject to credit, liquidity and interest rate risk. In addition, the financial performance of the Issuer may be affected by the price and availability of Collateral Assets to be purchased.
  - Some or all of the Collateral Assets may be substituted securities which may be subject to increased credit risk.
  - The ability of the Issuer to sell Collateral Assets prior to maturity is subject to certain restrictions and limitations under the Indenture.

- No Collateral Manager
  - The Issuer will not engage a Collateral Manager. As a result, (i) the Collateral Assets held by the Issuer on the Closing Date will be retained by the Issuer even if it would be in the best interests of the Issuer and the holders of the Income Notes and Secured Notes to dispose of certain Collateral Assets unless the Collateral Assets are required to be sold by the Liquidation Agent as described in the previous paragraph and (ii) the Issuer will distribute the ability of the Issuer to exercise discretion in certain decisions to the holders of the Income Notes and Secured Notes.

- Timing and Arrangement of Reorganization
  - Only Collateral Assets that meet the liquidation criteria may be sold. If a Collateral Asset meets the liquidation criteria, the Liquidation Agent is required to sell such affected collateral in accordance with the terms of the Liquidation Agency Agreement. There can be no assurance as to the timing of the Liquidation Agency's sale of affected assets, or if there will be any material for such assets or as to the rates of recovery on such affected collateral. The rates of recovery for Collateral Assets sold at a loss may be lower than the original yield or paid to the Income Notes and the Secured Notes, as applicable, in the case of assets that are sold at a loss and may be lower than the yield to the Income Notes and the Secured Notes, as applicable, in the case of assets that are sold at a loss.

- Impairment of Credit Quality of the Collateral
  - Decline in credit quality of the collateral or defaults could result in losses which would adversely affect the Income Notes and Secured Notes.
  - There may be certain industry or sector concentration in the CDO, all of which could have a material adverse impact on the Income Notes in the event of economic downturns or other events affecting the credit quality of any of the collaterals.

- Yields Due to Prepayments
  - The yield to maturity on the Income Notes could be affected by the rate of prepayment of the Collateral Assets. Prepayments in the Income Notes may be at a rate slower or faster than the rate anticipated by investors, which could result in an actual yield that is lower than anticipated by such investors. Conversely, payments to the Income Notes at a rate faster than the rate anticipated by investors purchasing the Income Notes at a discount will result in an actual yield that is lower than anticipated by such investors.

- Timing of Receipt of Accrued Interest Income
  - On an ongoing basis, receipt by the Issuer of accrued Interest Income may affect the availability of cash which may be distributed to the Holders of the Income Notes and the Secured Notes.
Risk Factors

- International investing
  - Investing outside the U.S. may involve greater risks which may include (1) less publicly available information, (2) varying levels of governmental regulation and supervision, (3) the difficulty of enforcing legal rights in a foreign jurisdiction and uncertainties as to the status, interpretation and application of laws, (4) less stringent accounting practices, (5) different clearance and settlement procedures, (6) economic and political conditions and instability, (7) exchange control and foreign currency risk, (8) illiquidity and (9) expropriation risk.
  - A portion of the Collateral Assets may consist of obligations of on-lender organized under the laws of the Bahamas, Bermuda, the Cayman Islands, the Channel Islands, the Netherland Antilles or other jurisdictions offering favorable tax treatment.

- Tax Treatment of Income Notes
  - Since the issuer will be a passive foreign investment company, a U.S. person holding income notes may be subject to additional taxes unless it elects to treat the issuer as a qualified foreign corporation and to recognize currently its proportionate share of the issuer's income. The income notes will be treated as debt for tax purposes.
  - Income notes holders should consult their tax advisors about the specific U.S. tax regimes that apply to shareholders of passive foreign investment companies, controlled foreign corporations and foreign personal holding companies.
  - Special tax considerations may apply to certain types of investors. Prospective investors should consult their own tax advisors regarding the tax implications of their investments.

- Material Tax Considerations
  - There is a possibility that the issuer will be found to not be engaging in a U.S. trade or business. In such a case, it would be subject to substantial U.S. income tax on its income.

- Hypothetical Illustrations and Estimates
  - Estimates of the weighted average lives of the Class A, B, C, D and E Notes and the return on duration of the income notes included herein, together with any other hypothetical illustrations and estimates provided to prospective purchasers of the Class A, B, C, D and E Notes, are forward-looking statements. See "Hypothetical Illustrations and Pro Forma Information" on disclaimer page in the beginning of this book.
  - The hypothetical illustrations are only estimates. Actual results may vary, and the variables may be material. See "Hypothetical Illustrations and Pro Forma Information" on disclaimer page in the beginning of this book.

- Changes in the Laws
  - The Collateral Assets are not permitted to be subject to withholding tax at the time of purchase, unless the issuer thereof is required to make "gross-up" payments. There can be no assurance that, as a result of any change in any applicable law, treaty, rule or regulation or interpretation thereof, the payments on the collateral might not in the future become subject to withholding tax which could adversely affect the amounts that would otherwise be available to make payments on the income Notes and/or interests.
  - In case of a Withholding Tax Event (as defined in the Offering Circular), holders of more than 50% of any outstanding Note may require the issuer to liquidate the collateral on any Payment Date, and redeem the Class A, B, C, D and E Notes, prior to any distributions to holders of income Notes.
Risk Factors

- Subordination
  - The Income Notes are subordinated to the Class B, Class C, Class D, and Class E Notes and certain payments of expenses. The Class E Notes are subordinated to the Class A, Class B, Class C, and Class D Notes and certain payments of expenses. The Class D Notes are subordinated to the Class E, Class A, Class B, Class C, and Class D Notes and certain payments of expenses. The Class C Notes are subordinated to the Class A and Class B Notes and certain payments of expenses. The Class B Notes are subordinated to the Class A Notes and certain payments of expenses. No distributions of interest proceedings realized on the collateral will be made to the Income Notes until interest on the Secured Notes and certain other expenses have been paid. In addition, in the event of default, holders of the most junior class of Secured Notes will generally be entitled to determine the remedies to be exercised.

- Credit Exposure to Portfolio of Reference Obligations
  - On the closing date, the Issuer will enter into pay-when-earned credit default swaps (the "Synthetic Securities") with Goldman Sachs International ("GS") and its affiliate, the "Counterparty," pursuant to which the Issuer will buy credit default protection with respect to a portfolio of Reference Obligations. If a credit event occurs with respect to any of the Reference Obligations, the Issuer will pay the Counterparty the amount of the write-down or principal loss, if any. The Counterparty will pay the Issuer the proceeds of the sale of the Reference Obligations. In the event of default, the Counterparty will pay the Issuer a premium which may be reduced (but not below zero) if certain Reference Obligations experience interest shortfalls. Credit events and interest shortfalls may adversely affect the Issuer's ability to make payments on the Notes and the Income Notes.

- All Notes and Income Notes are subordinated to credit default protection payments under the Synthetic Securities and to certain termination payments payable to the Counterparty in connection with a termination event. The magnitude of such losses will be affected by the number of credit events and the recovery amount of any delivered Reference Obligations and timing of such credit events.
III. Transaction Overview

Note: The information in this section is preliminary and subject to change.
Anderson Mezzanine Funding 2007-1, Ltd.
Transaction Overview

- Anderson Mezzanine Funding is a "static" mezzanine structured product CDO with the following features:
  - No exposure to reinvestment spread risk or reliance on reinvestment to generate excess interest to cover debt
  - No fixed rate assets
  - No assets without an initial rating of at least Baa3 by Moody's and BBB- by S&P. Average WARF in the portfolio is expected to be 500
  - Overall transaction cost structure is significantly less than comparable mezzanine structured product CDOs in the market

- There will be no reinvestment, substitution, discretionary trading or discretionary sales. After closing, assets that are determined to be "credit risk" securities will be sold by the Liquidation Agent within one year of such determination

- Goldman Sachs will act as Structuring, Placement and Liquidation Agent for Anderson Funding and will warehouse the portfolio prior to closing
  - Goldman Sachs will charge 10 bps ongoing fee for its role as Liquidation Agent

- Goldman Sachs and GSC's portfolio selection process:
  - Assets sourced from the Street at then market levels
  - GSC pre-screens and evaluates assets for portfolio suitability
  - Goldman Sachs CDO desk reviews individual assets in conjunction with respective mortgage trading desks (Subprime, Miprime, Prime, etc.) and makes decision to add or decline
  - All CDS use rating agency approved confirms (pay as you go)
Anderson Mezzanine Funding 2007-1, Ltd.

Transaction Overview - Asset Selection / Asset Liquidation

- Portfolio Aggregation Strategy:
  - Select only assets rated explicitly Baa3/BBB- (Moody's / S&P) and above. No notched rating of below Baa3 in the portfolio
  - No fixed rate assets allowed, eliminating interest rate swap basis mismatch
  - Maximum obligor concentration is 1.5%, creating a very granular portfolio with 100 distinct obligors
  - Target portfolio with Weighted Average Rating Factor of 500 and duration weighted average spread of 202 bps

- Goldman Sachs, as Liquidation Agent, will liquidate any asset determined to be a "credit risk" asset within 12 months of such determination. "Credit risk" assets will include:
  - Any asset downgraded by Moody's or S&P to below Baa3 or BB-
  - Any asset that is defaulted and experiences a credit event as defined by the PAIG confirm

- Expected collateral quality statistics at closing:
  - WARF: 500
  - 100 Distinct Obligors
  - Moody's Asset Correlation ("MAC") at closing: 27
  - Duration weighted average portfolio spread: 202 bps
  - Weighted Average Duration: 3.1 years

VI. Comparison of Levered RMBS Structures
Comparison of Levered RMBS Structures
Transaction Variant Summary

- Given that there are a variety of products allowing investors to take levered exposure to RMBS, it is important to understand structural similarities and differences.
- We will consider three distinct types of transactions in this comparison:

<table>
<thead>
<tr>
<th>NAME</th>
<th>GENERAL DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cashflow CDX</td>
<td>Fully issued transaction in which a selection agent or third-party collateral manager selects the assets to be repackaged through CDX. Cash proceeds from collateral assets flow through a waterfall to pay the issued notes, which are broadly syndicated.</td>
</tr>
<tr>
<td>Bespoke Transaction</td>
<td>Customized transaction negotiated between the origination desk and a “sponsor” investor/portfolio manager, who generally takes credit risk at one or more layers of the capital structure. Layers of risk not assumed by “sponsor” investor/portfolio manager are either hedged by the structured product correlation desk or distributed in subsequent offerings.</td>
</tr>
<tr>
<td>Tranched ABX</td>
<td>Standardized ABX tranche trading referencing both the Aa2X and Aa3X variants of the on-the-run and immediately off-the-run ABX:HE indices. The product has sponsorship from all ABX dealers and uses a market standard confirm.</td>
</tr>
<tr>
<td>Comparison of Levered RMBS Structures</td>
<td></td>
</tr>
<tr>
<td>----------------------------------------</td>
<td></td>
</tr>
<tr>
<td>Transaction Variant Comparison</td>
<td></td>
</tr>
<tr>

## Comparison of Levered RMBS Structures

**Comparison of Key Structural Differences**

<table>
<thead>
<tr>
<th>Feature</th>
<th>Alternatives</th>
<th>Description</th>
<th>Comment*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Portfolio Amortizations</td>
<td>Sequential</td>
<td>Amortizations allocated sequentially</td>
<td>Best for senior debt holders, worst for equity holders</td>
</tr>
<tr>
<td>Modified</td>
<td>Amortizations allocated sequentially to each tranche until the target OC ratio (set at a level greater than initial OC ratio) is reached, then amortizations are allocated to subordinate tranches</td>
<td>Generally used for non-sequential GS transactions</td>
<td></td>
</tr>
<tr>
<td>Modified Pro-Rata</td>
<td>Amortizations allocated in a pro-rata fashion until total portfolio amortizations total 50% of initial balance</td>
<td>Worst for senior debt holders, best for equity holders</td>
<td></td>
</tr>
<tr>
<td>Callability</td>
<td>No Call</td>
<td>Transaction may not be optionally terminated in part or in whole</td>
<td>Best for debt holders</td>
</tr>
<tr>
<td></td>
<td>Call</td>
<td>Transaction may be terminated in whole after the non-call period given a majority vote of the equity holders</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Tranche by Tranche</td>
<td>Transaction may be terminated either in part or in whole at the option of the protection buyer</td>
<td>Worst for debt holders</td>
</tr>
<tr>
<td>Triggers</td>
<td>Yes</td>
<td>Built-in mechanism that directs cashflows from equity and potentially junior debt to senior debt should overcollateralization and/or interest coverage metrics underperform initial expectations</td>
<td>Generally good for repayment of debt, can be detrimental to junior debt holders if performance metrics deteriorate too quickly</td>
</tr>
<tr>
<td></td>
<td>No</td>
<td>No cashflow diversion based on metric underperformance</td>
<td>Simple to model when compared to transactions with triggers: debt cashflows only reduced when subordination has fully eroded</td>
</tr>
</tbody>
</table>

*Assumes all else equal
## Equity Yield Profile – Interest Rate Sensitivity

<table>
<thead>
<tr>
<th>Forward LIBOR</th>
<th>Equity Yield</th>
</tr>
</thead>
<tbody>
<tr>
<td>-500 bps</td>
<td>21.3%</td>
</tr>
<tr>
<td>-100 bps</td>
<td>22.7%</td>
</tr>
<tr>
<td>-200 bps</td>
<td>24.1%</td>
</tr>
<tr>
<td>+200 bps</td>
<td>25.8%</td>
</tr>
<tr>
<td>+250 bps</td>
<td>27.0%</td>
</tr>
</tbody>
</table>

3. Assumptions include economies of scale derived from our view that 5-year LIBOR is the most relevant policy rate for financial intermediaries, particularly in light of recent regulatory changes.

Confidential Treatment Requested by Goldman Sachs
## Equity Yield Profile – Prepayment Sensitivity

Prepayment Rate Sensitivity \(1,2,3,a\)
(Assuming 0.0% CDR, 8 Year Auction Call)

<table>
<thead>
<tr>
<th></th>
<th>Fast Case Prepayment Scenario(1,a)</th>
<th>Base Case Prepayment Scenario(1,a)</th>
<th>Slow Case Prepayment Scenario(1,a)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Equity Yield</td>
<td>23.0%</td>
<td>24.1%</td>
<td>27.8%</td>
</tr>
</tbody>
</table>

1. Base Case Prepayment Scenario assumes: pricing prepayment speed
2. Fast Case Prepayment Scenario assumes: 100% of the pricing prepayment speed
3. Slow Case Prepayment Scenario assumes: 50% of the pricing prepayment speed
4. See "Modeling Assumptions" for additional assumptions used.
<table>
<thead>
<tr>
<th>Call Year</th>
<th>Option Call Sensitivity (^1)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>(Assuming 0.0% CDR)</td>
</tr>
<tr>
<td>Equity Yield (Assets called at 0 bps tighter)</td>
<td>28.1% 28.4% 27.3% 25.8% 24.5% 24.1%</td>
</tr>
<tr>
<td>Equity Yield (Assets called at 20 bps tighter)</td>
<td>29.4% 28.9% 27.5% 25.8% 24.5% 24.1%</td>
</tr>
<tr>
<td>Equity Yield (Assets called at 40 bps tighter)</td>
<td>30.8% 29.4% 27.6% 25.9% 24.5% 24.1%</td>
</tr>
<tr>
<td>Equity Yield (Assets called at 60 bps tighter)</td>
<td>32.1% 29.9% 27.8% 25.9% 24.5% 24.1%</td>
</tr>
<tr>
<td>Equity Yield (Assets called at 80 bps tighter)</td>
<td>33.3% 30.3% 28.0% 25.9% 24.5% 24.1%</td>
</tr>
<tr>
<td>Equity Yield (Assets called at 100 bps tighter)</td>
<td>34.8% 30.8% 28.1% 25.9% 24.5% 24.1%</td>
</tr>
</tbody>
</table>

\(^1\) All assumptions are based on the Modeling Assumptions except for call dates and spread tightening as specified in the tables. See "Modeling Assumptions."
VII. Modeling Assumptions

Note: The information in this section is preliminary and subject to change.
## Modeling Assumptions

Assumptions applicable to modeling runs (there can be no assurance that the transaction will reflect these assumptions):

<table>
<thead>
<tr>
<th>Liability Structure</th>
<th>Par</th>
</tr>
</thead>
<tbody>
<tr>
<td>Class D Notes</td>
<td>$3.0 MM</td>
</tr>
<tr>
<td>Class A-1 Notes</td>
<td>$300.0 MM</td>
</tr>
<tr>
<td>Class A-2 Notes</td>
<td>$75.0 MM</td>
</tr>
<tr>
<td>Class B Notes</td>
<td>$40.0 MM</td>
</tr>
<tr>
<td>Class C Notes</td>
<td>$35.0 MM</td>
</tr>
<tr>
<td>Class D Notes</td>
<td>$28.5 MM</td>
</tr>
<tr>
<td>Class E Notes</td>
<td>$6.0 MM</td>
</tr>
<tr>
<td>Income Notes</td>
<td>$15.0 MM</td>
</tr>
</tbody>
</table>

- LIBOR rates are based on the forward curve as of February 20, 2007.
- The Equity yields are calculated using the XIRR function in Microsoft Excel.
- The Closing Date is May 12, 2007; the first Payment Date is October 12, 2007.
- The CDO is 100% invested at the Closing Date.
- Coupon and margin over LIBOR are based on the portfolio composition as of February 20, 2007 and are calculated based on the weighted average expected coupon and spread on the projected remaining asset pool outstanding during each period.
- Expenses are paid at the end of each period at 4.125 bps per annum of the outstanding collateral balance.

Potential investors should review the Final Offering Circular relating to the Preferred Shares, including the descriptions of Risk Factors contained in such Offering Circular prior to making a decision to invest in the Income Notes. This Offering Circular will supersede the document in its entirety.
Modeling Assumptions

Assumptions applicable to modeling runs (there can be no assurance that the transaction will reflect these assumptions):

- Any sale proceeds and scheduled and unscheduled Notional Reductions will be used, first, to redeem the Class A Notes until the Senior Overcollateralization ratio reaches [136.7%], second, to redeem the Class B Notes until the Class B Note Overcollateralization reaches [122.5%], third, to redeem the Class C Notes until the Class C Note Overcollateralization reaches [112.2%], fourth, to redeem the Class D Notes until Class D Note Overcollateralization reaches [105.8%], fifth to redeem the Class E Notes until the Class E Note Overcollateralization reaches [103.4%]. Once each respective target overcollateralization level is reached, proceeds are passed to the Income Notes. When the principal balance of Collateral Assets reaches $[200,000,000], the Notes remaining at that point are amortized sequentially.

- Class A/B OC Test level is [116.0%], Class C OC Test level is [107.2%], the Class D OC Test level is [100.0%], and the Class E OC Test level is [101.4%].

- Payments to the Class A Notes, Class B Notes, Class C Notes, Class D Notes and Class E Notes are made on the 12th of each month; payments to the Income Notes are made on the 12th day of every April, July, October, and January.

- All proceeds from collateral are assumed to be received 12 days prior to each payment date.

- While held in cash, all proceeds from collateral are assumed to earn a per annum rate of 1.50%.

- No trading gains or call premiums are assumed.

- Defaults commence at the end of month 12 and continue through the life of the transaction.

- Recoveries are realized immediately upon default. The assumed recovery rate is 35%

Subject: ACA Meeting

They came back and asked to do meeting in person. Doesn’t have to be this Friday, if that’s no good for you – they can also do early next week. Questions on ANOT – but also want to do managers due diligence. They’ve heard the GSC tech shows well – so want to meet in person.

Deal Summary.xls

From: Lin, Shelly
Sent: Thursday, January 03, 2008 6:06 PM
To: Case, Benjamin
Subject: LAA Deal Summary for Dan

See attached. It's also saved in the Liquidation Agent Information Folder:
V:\RCP\Market Research_DIR\Mortgage Credit Derivatives\Liquidation Agent Information\Deal Summary

I'm still trying to get marks for the cash bonds in the Houlihan and Hudson High Grade. I'll send you an updated spreadsheet when I have the levels.

<< File: Deal Summary.xls >>
For R2, let's get whatever marks we provided on any tranches on The Wolf and Point.
Please list in the below time range (doesn't have to be on those precise dates) and we will
go from there.

Subject: RE: Asia requests

1) All the W&F's for each deal were pulled from Intex. Spot checked a few that were
missing from the attached spreadsheet and was unable to pull them up manually - looks like
we're going to have to go with what was sent.

2) LOL.

3) I took a look back at the total number of CUSIPs from a look through back in May - and
I still see approximately 4500 CUSIPs. They may be looking at total CUSIPs rather than
unique CUSIPs. If that's the case, then the 7000 number sounds close to correct - although
I think the number back in May was 8050. The marketing book for the deal also mentions
approx 4200 unique CUSIPs (though I don't recall whether this was sent to them)

4) Shelly is sending

Subject: Asia requests

Apologies for any requests that have already been sent over separately --

1) BB Life asking again on Timberwolf whether we can get W&F's for deals that were not
sent in the trampers file. Please see attached on the W&F tab to see what I sent.
There were W&F's for 40 of the 55 CDO deals. I originally told them we could not when I
first sent the file, but they want to check again.

2) Tokyo Star wants historical offer-side DM's on Point Pleasant and Timberwolf for
the following dates across the capital structure. The purpose is to get more color on how the
CDO2 market has changed since when we marketed the deals to them, and we've already
rejected their request to provide generis DM's on all CDO2 deals on the grounds that the
market is too differentiated. Regarding this request, we have already told them the
following: a) we might be able to provide anything in writing (written only); b) if we can
provide levels they will probably be dollar prices (not DM's) and they can use Bloomberg
to estimate DM's on a p-p-basis if that's what they really want, c) we might not be
able to provide offer-side levels for all dates.

Can we do the best we can to get them what they want?

<Offer DM on Timberwolf:>

3) Tokyo Star is asking why there is such a big discrepancy between CUSIP counts from May (before they bought) and August (after they bought) on Timberwolf. May's CUSIP counts were much higher (7000+) compared to the data we are now providing (4000+). We told them there is changes in data from third party sources as well as our own techniques for exploding the data. Was wondering if there was any incremental information that you have on this -- if not, we should be able to handle.

4) Grier Life, who is looking at GIC 06-3NG, is asking if we can show the updated ratings on the underlying portfolio (given the recent rating changes, especially the ones announced August 16th on Alt-A downgrades)
Subject: Re: Questions you had asked

Dillon read: 1 bb deal, 50/50 risk.

Greywolf: 1 bb deal, now basically on risk because losses thru the greywolf upfront 50 percent first loss.

Subject: Questions you had asked

Last week the trading desks did the following:

(1) Cover around $1.5 billion single name subprime BBB CDO and around $700mm single name subprime BBB CDO. The desk also net sold over $400mm BBB- ANX Index. Desk is net short, but less than before. Shorts are in senior tranches of indexes sold and in single names. Plan is to continue to trade from short side, cover more single names and sell BBB- index outright.

(2) The CDO business liquidated 3 warehouses for deals of $950mm (about half risk was subprime related). Business also began liquidation of BBB- CDOs. All synthetics done, cash bonds will be sold in next few days. One more CDO warehouse may be liquidated this week - approximately $300mm with GCC as manager. That will leave us with 2 large CDOs of A-rated CDOs. 2 high grade deals with limited subprime risk, and 2 other small warehouses that are on hold. Getting super-senior done on CDOs is the critical path, and that is where the focus is - for the CDOs of CDOs, NAVIs (REIs) on Dillow Reid deal and Wincon (London) on Greywolf deal.

Sent: Sun May 14 05:28:37 2007
Subject: RE: Gameplan - asset model analysis

This correlation analysis does not incorporate 2 things:
- cds bid/offer
- cashflow triggers (underlying level)

For names where the underlying has been externalized, the cds offered side spread is going to be close to 2x the current quoted spread for many underlying. It will be important to use the cds cds trading franchise to source hedge the bid side at the win side of the market.

The downgrade sensitivity of the underlying issuers cashflow triggers means that is some hard to quantify; probability that some or all names essentially jump to default.

Sent: Mon May 14 00:45:22 2007
Subject: Re: Gameplan - asset model analysis

One point of this correlation analysis is that it provides a relative value argument about how to hedge the 30yr 2yr. It indicates (as the desk is aware) that it is currently cheaper to buy protection against the 30yr level than at the 2yr level to the extent that we can put on this hedge, we can remove the higher (70 cent) price, no matter how bad MBS looks.

Subject: Re: Gameplan - asset model analysis

David - We spoke briefly to Ben and Edwin earlier this evening and asked them if it would be possible to come up with CDS marks for any missing BBB/BBA- MBS deals as well as a heuristic for marking any high-grade tranche by vintage. As Paul says below, this would really help us run results through the asset model (as well as through the RV model analysis we'd discussed doing) for CDOs. I realize this might be painful (several thousand underlying MBS deals might need to be marked) but we'd like to come back to you when we have some stats on what we're missing and brainstorm on a good way to do this.

Subject: Re: Gameplan - asset model analysis

We estimate the value of the Timberwolf CDO's by applying a correlation model (the asset model). We have three questions to answer:

1. Based on marks for the single A CDOs under the CDO's, what should be the value of the Timberwolf CDO?
2. Based on marks for the MBS under the single A CDOs, what should be the marks on the CDOs that went into [1]?
3. In both [1] and [2], what market evidence do we have for the correlation that takes us from underlier valuation to the valuation one level up?

In brief, the answers we find are:

1. Based on current single-A CDO marks, the AA tranche of Timberwolf would have a price of 70 cents on the dollar. The price is not sensitive to correlation at these levels.
2. Based on a small sample of single-A CDOs for which we have complete underlier marks, we believe that the risks of the MBS underliers are frequently not fully reflected in marks on the CDOs. If the trends in this small sample are extrapolated, the fair spreads on the CDOs could even be double where they are marked now! If that were the case, the spread of the AA tranche of Timberwolf would actually be 35-41 cents on the dollar, depending on the correlation.
3. Recent Aaa/Aa CDOs and C02 have been marked with correlations in the 20-30% range. Median sector marks for mornie MBS imply a correlation of 22%.

Clearly, the next step is to get marks on more of the MBS underliers in order to be

Confidential Treatment Requested by Goldman Sachs

GB MBS-E-003361239
able to run more of the CDSs in Timberwolf through a model.

For (1), we find the following relationship between price of the A2 tranche of Timberwolf and the correlation. The results are also shown when all the underlying spreads are multiplied by a factor of two, based on the results of (2).

<table>
<thead>
<tr>
<th>CDS</th>
<th>Underlying Spread Multipled</th>
<th>Model Price 30%</th>
<th>Model Price 50%</th>
<th>Model Price 70%</th>
</tr>
</thead>
<tbody>

<td>72</td>
<td>72</td>
</tr>
<tr>
<td>TWOL:2007-A2</td>
<td>2</td>
<td>37</td>
<td>41</td>
<td>44</td>
</tr>
</tbody>
</table>

For (3), we have the following comparison between current spread marks on single-A CDSs, and Gaussian copula model spreads computed from the current spread on their underliers (mostly MBBS). The first three CDSs are Timberwolf underliers. In general, this analysis shows that at current underlier marks, single-A CDSs are equity-like (long correlation). However, per (3), market-implied correlations are low, in the range 20-50%.

Cc: Friedman, Nelson; R; Lehman, David A.

Subject: Gamplan

Following up from this afternoon's meeting -

We are going to better evaluate the CDO*2 risk using three distinct frameworks

1) Blended scenario analysis using EPA (Primer)
2) Risk neutral correlation framework, consistent with our current synthetic
   ABS CDSs (Burchard)
3) Simplest loss assumptions on underlyings / Market Value Coverage (Turck)

Let's lock to have something on R1 and R2 to discuss Monday. If I will likely
take some more time give the low coverage. Turck, pls let us know if you can stuff R3 with
our current coverage.

To quote Elilasha -

"Am thinking we want a concise walk-up of each methodology (one paragraph),
with a rank-ordered list of assumptions that show directionality and estimated impact of
each assumption. Also think we want to see results of bounding analysis in writing using
each methodology, with a description of what knob we turned, and how far, to come up the
bounding analysis."

In addition, the specific trading desks are taking a more detailed look # the
ABS/CMBS/CDO/Option Arm/SP CDO assets in the warehouse and in the retained position
account (outside of the CDO*2).

Pls add comment if there is anything I missed

Did you have a chance to talk to George about sales credits? I've gotten a few inquiries so far and think people are expecting something this week.

As it is right now - we're paying out around 100% in gross gal, but in light of Dan's pushback on Friday, I'm not sure what I should pay - or tell salespeople when they ask what they're getting paid.

They are acting very unprofessional. Disappointed in their inability to comprehend simple math. Anyways, not a good principal partner for near term. However, they are very interested in TCM managed index equity and want meeting at ALF. 

Let's discuss this account when I return.

Disclaimer: The attached information regarding the valuation of instruments is being provided at your request for your consideration and internal use only and not for the purpose of soliciting or recommending any action by you. You should carefully review the explanations that are included with the attached information and ensure that you understand the information that is being provided. Any questions regarding the nature of this information should be raised promptly with your Goldman Sachs contact person. The valuation listed in the attached information represents (i) the bid price at which Goldman, Sachs or one of its affiliates ("Goldman Sachs") would have been prepared to buy the specified instrument; and, (ii) if applicable, the price at which Goldman Sachs would have been prepared to enter into a credit default swap product by which Goldman Sachs would buy protection on the specified instrument. In each case, the valuation is valid only as of the open of business in New York on the date of the information; such valuation is not applicable at any other time. Moreover, such valuation may be affected by orders entered or transactions executed by us or other market participants after the time of the valuation. In addition, the valuations listed in the attached information are expressed in terms of a position in the relevant instrument of a specified size, which is not necessarily the size of any actual position, and the valuation is applicable only with respect to the specified size. The valuation does not indicate a price at which Goldman Sachs would be willing to enter into a transaction with respect to any other size, nor does it reflect a valuation that relates to (or may be extrapolated to) a position or transaction of any other size. In the future, Goldman Sachs may change the transaction size for which valuations are provided without notice. Because the valuations included in the attached information relate to different types of instruments, these valuations should not be used as the basis for determining a mid-market valuation. The valuations listed in the attached information do not necessarily reflect your entire portfolio. In determining the valuation of an instrument, Goldman Sachs might not take into account certain factors, including, without limitation, liquidity adjustments appropriate given the position size. In addition, the considerations and approach utilized in preparing such valuations may differ from those utilized by Goldman Sachs in valuing positions for purposes of its own books and records. Without limitation of the foregoing, Goldman Sachs may utilize valuation models for its own books to generate mid-market valuations that differ from the mid-point between bids and offers used to value client positions.

Not all - This is our shot to get this done - we want to stay on the offer and be aggressive

Thk abt this - if we establish a defined + healthy supply/demand dynamic in this product we can always CREATE more CDS at a significant profit vs current levels

I have heard from others on the street that Citi and ML in particular are holding on to stuff... and that the market feels that GS is being more aggressive than other dealers moving 2007/2 paper.

From: Case, Benjamin
Sent: Wednesday, June 06, 2007 4:22 PM
To: Wisenbaker, Scott; Bieber, Matthew G.; Lehman, David A.
Subject: FW: Moneygram marks

Brandon Gilligan called and said Moneygram may be interested in buying more Timberwolf A2 and Point Pleasant A2 in the context of their marks. He said Moneygram knows the market has moved wider from what they bought these bonds, so they were expecting their marks to be down (these are down 4-5 points from where they purchased). Also, interestingly he said Moneygram have been trying to get off levels from other dealers on CDO2 debt the other dealers own in inventory, but he said most won't give them offering levels and seem to want to hold the paper instead.

Subject: Re: Moneygram marks

There is real market meltdown potential (although far from certain). The market isn’t yet pricing it in - but the scenario is liquidity gets worse, downgrades/losses occur, and forced liquidations begin to happen - spiraling down that has steep drops.

Flip side is liquidity and demand for risk and cheap assets overwhelm concerns. These are pretty much the only distressed assets out there in size.

But the upside/downside makes it seem way to early - especially for us mark-to-market types.

I appreciate you are flat chat at the moment, but pls keep in mind GS is an aggressive seller of risk for QTR
end purposes (last day of quarter is this Friday).

We would certainly appreciate your support, and equally help create something where the return on Invested
capital for Basis is over 60% (assumen AAAs at 400bps; AAs at 500bps; 7.5% haircut and L=30bps funding).

George

Murphy, I hope you are getting your legs back. When are you free to re-visit this trade with the Graywolf
devil?

As indicated, I have been able to obtain approval for a fifth evergreen financing facility for this trade, which
are separate to the US$10bn facility we set up last year (and hence leaves some powder dry for other things).

The, 

gm

From: Maltese, George
Sent: Tuesday, 24 April 2007 4:02 PM
To: John Murphy
Cc: Stuart Fowler
Subject: leveraged AAAs and AAs

Murphy,

Further to our email traffic yesterday, I wanted to discover what might be possible in the levered AAA space.

To that end, I spoke with Dan Sparta and Peter Othien about potentially offering Basis a block of cheap
highly rated ABS CDOs on a levered basis.

04/05/2008
They were constructive with the enquiry & supportive to help structure something that should offer basis an attractive risk-adjusted return on capital proposition. We are still mulling through the terms, but I wanted to highlight some broad thoughts on a trade idea.

Are you free to discuss this?

CDO Transaction Details:
Deal: Timberwolf 1, Ltd
CDO Manager: Greywolf Capital Management LP
Description: US$1bn Single-A Structured Product CDO
(see attached zipped file containing final OC, term sheet, presentation, portfolio, cashflows, etc)

Indicative Financing Terms:
Haircut: 5-10%
Funding Rate: Libor plus 50-60bps
Return on Capital is in the 40-65% area
(see attached indicative calculations I prepared)

Investment Details:
Notional: US$100,000,000 (hence capital invested by Basis is $5 to $10mm)
Split across two tranches:
Class A2 (Aaa/AAA) +600bps (traded half the tranche originally at 100bps)
Class B (Aa/AA-) +300bps (traded half the tranche originally at 200bps)
(due was originally priced 13 March)

Timberwolf, a $1bn Single-A SP CDO Squared
- Portfolio selected and to be defensively managed by Greywolf (Greg Mount).
- Goldman and Greywolf each took half the equity.
- Higher in credit trade (portfolio is 100% rated at least single-A) with a focus on Mezz and High Grade SP CDO debt.
- No reinvestment risk. Greywolf has ability to sell assets that they feel are underperforming vs. expectations but all principal proceeds paydown debt.
- The two main portfolio managers have outstanding experience in the structured products markets: Greg Mount: Previously a Partner at Goldman Sachs who founded Goldman Sachs CDO business in 1998 and initiated their proprietary CDO Investing activity; & Joe Marcov: Previously a Managing Director and co-head of ABS Finance at Goldman Sachs.

Other transaction highlights
- Structural features
  - Legal maturity of [14] years
  - Non-call period of [2] years
  - Auction call at [9] years
- Greywolf has the discretion to sell "credit risk" and "defaulted" assets and the proceeds will be treated as principal paydowns.
- The portfolio is expected to be [100]% ramped at closing
- Fees:
  - Collateral Management Fee [6] bps pa
  - Deferred Structuring Fee [4] bps pa

Greywolf Capital Management

04/02/2008

JUL 000586
Footnote Exhibits - Page 4491

- Founded in 2003, now with 80 employees, including 27 investment professionals
- Greywolf principals previously held senior positions in credit trading at various sell-side institutions
- Greywolf has approximately $2.5bn AUM, including approximately $1bn in structured product exposure

Timberwolf I Break-Even

Assumptions:
Defaults are assumed to commence in September 2006; Recoveries occur immediately upon default.
Loss of interest and principal (discounted).

BCC: Subject: RE:

We have been working on a STY-like structure for structured product CDO product, but this still requires a great deal of work. From here...not to mention upfront exposure to establish such vehicles. The key guy working on this from our end is Rajiv Kamilla, who is actually going to be in Sydney next week. Rajiv is senior and experienced structuring and trading guy devoted to new product development. Perhaps we should set up a meeting when he is here next week to discuss such broader asset solutions. All that aside, however, this is still in design mode and the appetites are still not economical. The recovery market dynamics counterparty for this sort of thing are also in early stage. I'm just trying to be realistic on this side...

We also looked at a new swap and noted issues from a credit and continuum / tail risk perspective, hence not a no-brainer.

On your question below about taking the AAA paper in isolation, the issue we face (from a trading and risk management perspective) is on being able to properly model, mark, & value such a product. I think the current market environment is suggesting clarity on this is not there. I can tell you that I am doing any non-recourse financing at the moment on structured product CDOs.

From a pricing perspective, we have been trying to find better levered/AA and AAA levels. 330bp on AA-A and north of 750bp on A-A is considered fair value for 'Tier-1'; yet we are finding levels that are significantly higher. We appreciate you are seeing other stuff, and been to know which these levels are, but in this case I don't think the pricing is at the sentiment with regard to risk spreads levels. To be constructive, however, I know the desk is entertaining both side trades at the moment from real money accounts in the US and Asia at wide levels (much wider than what they have traded before). To give you a sense, I think there are represent 450-500bp and 650-750bp respectively (for size) at the wider level of such trades.

Overall, the fourth avenue financing proposal will move to the issue is the most efficient way I can see Goldman play here (at this point in time). As you can see from above, most functionality on price can be afforded, which should help create a very positively across a balanced position for you.

Again I appreciate your sense...I just don't want to lead you up the garden path.

Your thoughts?

George

VerDate Nov 24 2008 09:47 May 19, 2011 Jkt 066052 PO 00000 Frm 00426 Fmt 6602 Sfmt 6602 P:\DOCS\66052.TXT SAFFAIRS PsN: PAT
From our side we want to look at this like a concessional SV type arrangement.

If you sold the AAA paper in isolation, what is the volatility of the mark to market (from current levels) that needs to be covered? And what expiry dates would be needed? Would a swap swap help being forward the GMT and recovers into contract cash flow?

Subject: RE:

I have taken a look at this and am not convinced, but an earlier discussion internally “no reason” was far worse than what was shown with reserves.

Two key drivers:

1. the mark down by the business unit and credit department to get answerable with Banks Capital.

2. the excess cash burn in actually realised.

The AAA has a 4.5% coupon, so if funding is 1.535%, you end up with 2.965% of excess interest.

Assuming you average all of this to build excess credit support, this would potentially build an extra 3% in 2 years. That's clearly not a lot of buffer.

I'm just trying to highlight the issue, rather than over-promise. Any and all feedback is welcome.

George

Thanks George,

That's fine we can update the reports today with the new prices.

They should really meet the original call as the price dropped creating the call and has now gone back up to the 81.72 level decreasing the call. We will apply the new prices today and see where we are which should reduce the call.

Regards,

Mark

GS MBS-E-02/2003105
Hi Macdara, Julie and George,

Thanks a lot for your emails and clarifications.

We agree with Pac-Rim's Margin call USD 200,000 and will instruct our custodian to pay in the morning.

As to Yield Alpha I still have further concerns (sorry):

It seems that nearly 300,000 out of the $720,000 can be attributed to the mark down of our recent purchase of the Pleasant (which was marked from 81.72 down to 76.72),

However, the end of month in price mark that we just received from IBIS indicated that the price of the security remains at 81.72 —Please see attached the end of month mark.

Could you please kindly and urgently check this for us?

Many thanks,

Kind Regards,

Phillip Chan

Phillipa,

I thought it would be helpful to send updated reports and calls for both funds.

We have updated the 25% HD for Yield Alpha and hopefully you are happy with George's explanation of the new price on the VBFLAT attached.

We now see the following calls with details attached:

BASIS PAC-RIM OPPORTUNITY FUND (MASTER) - $200,000
BASIS YIELD ALPHA FUND (MASTER) - $720,000

Please let me know if you agree and the value data you will be paying the funds for.

Hi Phillip,

I checked with the secondary trader (Philip Ha) in NY and he confirmed the mark on NYFLAT. He said this was due to the 8.7% distribution on April 30.

I hope this helps.

Rgds,

George

Subject: RE: BASIS YIELD ALMA MARGIN CALL 25 APR 07

Hi Julie,

Hope you are well.

We have some questions regarding the call amount: the major contribution for the US 2.0m call is our recent purchase. Please note that 3.99 million call amount. We only recently bought this security and the haircut amount should be 25% instead of 50% as shown in the margin call examiner. Could you please double check for us?

Also could you please kindly review the price for NYFLAT 6.25%. As at the end of March the price was 74 and it is now priced at 87. Could you please kindly review this price with your pricing team and advise?

Many thanks,

Kind Regards,

Phillipa Chen

### Asset-Related Assumptions

- The spreads / coupons on the assets in the portfolio used for modeling purposes in every period are based on the expected spreads / coupons for each asset in the warehouse, based on such asset's expected amortization profile (and not of the 5 bps p.a. fee to CS as put provider)
- Default Swap Collateral is assumed to income interest at 1m L + 10 bps
- No trading gains or gains on assets are assumed
- All interest payments are held in cash for 30 days, and all principal proceeds are held in cash for 55 days, each earning a rate of 1 month LIBOR minus 30 bps prior to distribution on each quarterly payment date
- All principal proceeds are used to pay down the liabilities; there is no reinvestment period in this transaction
- Defaults (if any) commence in September 2005; Recoveries are 40% and take place immediately upon default

**Other Assumptions**

- Runs assume Auction Cell in Pd 97
### Timberwolf I, Ltd

Basis Capital is an AU (sydney) account which has been both a CDO buyer and CDO issuer/operator.

They are big and real in the sector.

Trading prices imply appr $4 on the AAAs and 76 on the AAs assuming 0bp cash/cds basis.

Acot wanted to trade in CDS b/f of the term "funding" GS is supplying through buying protection vs. granting the monthly/month financing risk in the repo market if they owned the bonds.

We pushed them towards cash but this was their preferred format.

Is it from basis? I don't know them.

Why would they write protection vs buying the underlying? What price does this imply?

Subject: Re: Point Pleasant mark

The David,

I have been exchanging messages with Stuart Fowler over the last hour or so.

Indeed they need to be synched with G3 on such issues. We claim we have marked point pleasant down 3 times since they bought the bonds. I believe he is mistaken. I feel I have been progressing things, to get to a resolution, but not officially there as yet. I have offered them time on the phone with you/trading to clarify all but no word back from Stuart. Its now 1030pm here.

Let's get the final legal issue (re isda) resolved and hit them back.

They need to be comfortable with their mark.

G3 has moved since their purchase, as evidenced by the pricing we are showing them on the offered side of the kinderwolf AAA and AA.

I am happy to get on the phone and discuss.

Should be no disconnect here b/w basis and the desk.

Subject: RE: Point Pleasant mark

Stuart - I assure you no foul here.

You bought these bonds at 1200dm / 81.75 dollar price on April 19 and the 75 mark for end-May is the first adjustment we've made since you bought the bonds.

I can also confirm we traded an original large block at 1000dm/88.33 dollar price at time of pricing the deal (April 19).

At just a week after the official pricing of the Pt Pleasant deal, we deemed 1200dm to be fair & reasonable - reflecting a "fair & reasonable" premium for the lack of liquidity for a block trade, and I can assure you each of John Hibbe, Dan Sparks & I sincerely appreciated your support.

I want to offer you some 1-on-1 time with the trading desk at your earliest convenience to walk through their trading activities and how the MTM movements have been reflected.  This can also be used to discuss the Timberwolf paper.

Please let me know how I can help address these issues.

George why is this happening each month?
Did we buy the bonds over a GS mark and that keeps coming back at us?
Is there some sort of internal price wedge between us, GS NY and through you?
I need to be very clear on this and are we going to see a similar problem on timberwolf?
Stuart

Hey GM,
Our Point Pleasant bonds have been marked down from a purchase price of 81.7 to 75 (for month end mark and for Margin call).
Considering we just bought this, why the significant move?
Also what should we do about the margin call whist this issue is pending?

Hi Sahil - there has certainly been further softening in the market since the Point Pleasant trade was put on 8 weeks ago. We have in fact traded some Point Pleasant BBBs at this level in the last 2 weeks, as compared to much worse levels we are hearing/seeing being done in the market on other AA-CDOspv deals. This is regarded consistent with the marked down Timberwolf paper, and the current offer (to basis) at ~84% (for AAA) and ~77% (for AAs).

I hope this is helpful.

Tks,

George

Basis questioning the 75 mark on their Pf Pleasant B-BAs.
As you know they bought 15m at 81.75 (1000dlm) and Maltezos bought 11m at 88.30 (1000dlm).
I am curious – where did you trade the last 6mm? (there were 32cm in the B-BAs close).

Does the 75 mark reflect actual trading or overall softness in the market?
I know you had indicated 70 was more like the number.

I would really appreciate your urgent attention here as Basis are crying foul...we may need to get on the phone with them NOW

Tks,
Omi

Subject: RE: URGENT: Basis

Dan - from what I can tell, we have credit & legal approvals in place. We will document under Long Form Conso.

I have sent to Basis an update of all the trade details & will look to execute today for 18/June settlement.

The only pending issue is related to Point Pleasant marks and helping them get comfortable with this.

I will post you on any & all updates.

George

Subject: RE: Urgent: Basis

Nema,

As you know, this language is standard for Basis on all their ISDA’s, including the one we currently have with their other fund.

This language is a "must have" for Basis. They will not sign an ISDA otherwise. To give you an idea, this point was negotiated for about 3 months last year.

Given the above, and David's comments below, the only solution I see is to trade under Long Form Confirmation.

Can we pls move forward on that basis please?

Rgds,
George

Subject: RE: Urgent: Basis

We are fine with the below language for the current trades, but not sure we want to commit to this language for the ISDA @ this time.

Can we carve those trades out and document under a LFC?

George, can u also push the client to agree to standard MQ where they get unwound @ the appropriate side of the net? IF not, as stated, we agree to the mid language for these trades, but need to think abt it more for the ISDA.

Subject: URGENT: Basis 

David, 

I refer to the below correspondence re: the ISDA with Basis Yield Alpha Fund (Master), and your email which George has kindly forwarded to us for reference.

As we understand that this is fairly urgent for tomorrow morning Sydney time, in order to facilitate the process, we would just like to clarify that the Market Quotation applied in the existing ISDA with Basis Pac-5im and also for this Fund is not the standard MQ per 1992 ISDA, but the amended version of MQ (copied below for your reference). I also attach for your reference the previous discussions about this from late last year.

"The Market Quotation will apply; provided that where an Early Termination Date is designated due to the occurrence of any Additional Termination Event, any quotation from a Reference Market-maker shall be a Mid-Market Quotation. For these purposes, a "Mid-market Quotation" means a quotation from a Reference Market-maker that has been adjusted to exclude any spread; provided that, if the Reference Market-maker will not reveal the spread included in its quotation, the Calculation Agent shall determine the appropriate adjustment in good faith and a commercially reasonable manner."

Accordingly, we would appreciate if you could kindly confirm that you are OK with the above amended version of Market Quotation to apply for the ISDA with Basis Yield Alpha Fund (Master) as well.

Many thanks, Hema

Murch & Stuart - I just wanted to mention David Lehman is in Barcelona and available for the next 500minutes to discuss the trading activities of Goldman and more specifically the Point Pleasant BBB notes.

He is en route to the airport, after which he will be flying to NY.

I wanted to ensure you had the opportunity to speak with him while he was available on any outstanding issues.

Pls call/email me your thoughts re next steps to help finalize the Timberwolf trade.

Subject: Timberwolf I, Ltd. -- PANG trade with Basis Cap (YIELD ALPHA FUND)

Good Morning Stuart.

Not sure how you want to deal with the Point Pleasant marks/discussion.
FYI - David Lehman (copied above), who runs out CDO trading business in NY is currently in Barcelona (conference) and available this morning to take your call to clarify any and all questions you have on the marking policy of Goldman, the actual marking of Point Pleasant, and the overall trading that has been seen by the GS desk in the last 1-6 months.

Please find below and attached updated trade details and cashflows on the $100m Timberwolf PANG trade. We are looking to trade this under Long Form Confirmation, incorporating all of the negotiated terms with Peter Dohse (which obviously reflects the standard language used by Basis on all of its ISDAs with the street).

Following the resolution of docc & credit, these are FIRM LEVELS (BID SIDE PROTECTION).
We would look to agree & trade this with Basel today for settlement Mon June 18, 2007.

You can reach me (at any time) on 0403 189 116 / (02) 9520 1431.

TWNLF 07-1 A2 Trade Details ("AAA" notes):

Stuart,
Please accept my sincerest apologies for the mis-information below. As David mentioned, the 75 mark on Pt Pleasant BBB was more reflective of an interpretation of softer AAA-AA rated CDO-sqrd paper translating to BBB part of the curve.

George

Subject: RE: Point Pleasant mark

Hi Sahil – there has certainly been further softening in the market since the Point Pleasant trade was put on 8 weeks ago. We have infact traded some Point Pleasant BBBS at this level in the last 2 weeks, as compared to much worse levels we are hearing/seeing being done in the market on other AA-CDOsqrd deals. This is regarded consistent with the marked down Timberwolf paper, and the current offer (to Basis) at ~84% (for AAs) and ~77% (for AAs).

I hope this is helpful.

Tks,
George
Hey GM,

Our Point Pleasant bonds have been marked down from a purchase price of 81.7 to 75 (for month end marks and for margin call).

Considering we just bought this, why the significant move?!

Also what should we do about the margin call whilst this issue is pending?

Regards,

Sahil Sachdev

Subject: RE: Basis

Update following conf call trading/legal/ốp [credit unable to join - have left an update v-p for Greg]

- Estimated clean funds available to meet call requirements approx USD13.5mm if Basis accepts GS bids.
- Estimated surplus after meeting repo margin requirement USD5mm approx
- documentation does not allow us to automatically use this to cover swaps collateral requirement. Client agreement/authorisation would be required.
- agreed to make client's agreement to this a condition of trade - ldm legal (Michaela) to draft suitable authorisation for David to send on.
- Ops will need to hand hold all events to make sure no external settlement made and funds applied to calls. Brian has reached out to give settlement groups a heads up.
- David to George on situation
- George to update this group on outcome of communication with Basis and how they plan to meet the calls either by accepting GS bids, or delivery of cash value tomorrow.

Subject: RE: Basis

Have just spoken to David Lehman and we have just left a v-m with Tom Rigs:

Update:

Gerry Ouderkirk and David Lehman are to meet with Dan Sparks and Don Mullin to agree bid pricing this in the next 90 minutes or so. David will revert to this group with an update following this. We should get an idea of the clean funds which might be available to Basis if they accept our bids. Clearly preference would be for Basis to meet calls with free cash.

David and I will circle back with legal/credit/ops to establish next steps re netting margin requirements vs proceeds to make sure we don’t inadvertently release funds/securities to the client.

David has a 3pmNY/7am Sydney call with George to update and agree approach with client.

John

Thanks Macdara. Does it mean that they'd need to see the full break down of the marks and

Confidential Treatment Requested by Goldman Sachs
Footnote Exhibits - Page 4542

talk to David again (earliest MY time tonight) before they'd decide whether they agree on
the marks? And there'll be at least 1 day delay for their margin?

Regards,
Desiree

Despite giving the impression that they agreed the CDO marks as discussed on the call with
the Trading desk, Basis have now stated that they want further clarification on these
marks before they are happy to meet the two Repo calls.

David - they are looking for a line by line breakdown of the changes for each mark.

The OTC has been agreed in full with a payment of $1.06mm paid for value today, we are
checking with Treasury to see when these funds hit our account.

Regards,

Nadara

Update:

There was a productive call between basis and trading [Lehman, Case, Ego] re marks at 8PM EST Wednesday.

Natalie Witt and I just spoke to John Murphy at basis. It seems the marks have been accepted and we are awaiting confirmation of basis’s plans to meet the margin call.

Will revert ASAP.

Subject: RE: Basis

I am following up with ops on the corporate actions to confirm if we can agree as soon as possible what the amounts are we owe them - I understand from ops (copied on this) that there is some clarification required from Basis.

To their question about netting the corporate action payments with the repo margin calls we are in no way obliged to do that. If they don't meet our margin calls by COB tomorrow we will be within our rights to close them out under the facility agreement and more.

That said, we should discuss the approach especially given the (fairly) response from Basis with a view to agreeing the marks on the repos as soon as possible and we may take the decision to agree to net the 2 amounts but we would need resolution on the corporate actions before COB tomorrow to do so and that may not be practical.

First up I think is to agree the marks then we can work out how we want to move on the margin vs the corporate action.

Subject: RE: Basis

Maurice and I just finished the call with Peter Tobson (Basis).

1 - Basis have plenty of cash to make the full margin call, but the approach by Goldman has been viewed as to be very aggressive and unwarranted & is hurting the relationship

2 - Basis will arrange for v/d 5 July the Timberwolf margin ($US5.04mm) subj to them receiving a note confirming the OTC swap would pay them any M/N improvement.

Confidential Treatment Requested by Goldman Sachs
Footnote Exhibits - Page 4546

3 - Basis is not prepared to pay the margin call on the Repos (US$0.72mm + US$4.63mm) until the discussion re: revals has been made. David - let's do this Thu morning SYD / Wed evening NY time. This is the case despite numerous suggestions for Basis to make a payment now and get a refund if the margin call was overstated.

4 - Basis cannot see any justification for the massive mark down in the securities (under the REPO), and are interpreting our revals as a way to reduce the repo financing line.

5 - They are disappointed Goldman have not paid to Basis the equity distributions under the REPO/SPA. We potentially owe Basis approx US$55mm here. Can this be netted against the margin call? Dilly - can you double check this pls?

6 - Basis claim Goldman have not cared to check in with Basis (from a credit perspective) to see how they are doing and instead are acting like the world is falling over with irrational behaviour.

Subject: Re: Basis

I can get on the phone this morning NY time to discuss (ie Wed works) w the client

I would like to know what the precedent there is here - does GS need (outside of the client issues) to provide the below info to justify our prices??

For example, on the TWLSF CDS, GS is willing to deal (bid and offer) in the context of our prices

On the equity securities, this is an illiquid mkt where there are not a lot of recent trade spots, but it is clear that 1) other parts of the CDO cap structure are materially wider 2) the underlying assets w/ the CDS are materially wider

If credit can speak to the above ASAP it would be appreciated

Subject:  basis

I just spoke with Peter Dobson at Basis (430pm ET time).
He is not concerned with the $1 of the margin call, but very concerned about the marks -
they are contesting these levels, is seeking clarity before agreeing to pay the margin.
They want to see:
- the comparable market data point for the Timberwolf marks
- more info for each of the ABS CDO marks like IRRs, CAR, CPR, reinvestment profile, WAL, cashflows, etc
- the market data point for those marks, & actual trade examples done at these levels
- any other colour specific to these deals which helps Basis understand the marks

I will be arranging a call b/wn Basis and the NY traders asap.

Rgds,
George

Update

George Maltese spoke with Basis late afternoon EDT time.

In short, the client is communicating that the PAC RMS fund is OK and the YLD ALPHA fund is in real trouble.

Basis indicated that GS was the first to send them default notices.

Basis is still not signing the 2-page netting agreement.

Basis has indicated that they will entertain a portfolio trade for all assets (CDs and Cash) in YLD ALPHA.

Basis has asked for "breathing space" w/r/t what they owe us, and claim other financing CPS are giving them some grace time.

I hope to get on with Basis in the next 12h.

Either way, let's circle up internally @ 8:00 EDT

Confidential Treatment Requested by Goldman Sachs
We have the ability to initiate a recall of the funds through Basis, but it would be accomplished with the consent of Basis allowing us to take back the funds, which is standard practice. I had a quick conversation with Basis and we thought it would be wise to present this option to the distribution to determine if we want to take this course of action.

Mary th

Tom,

I do not know any of the details behind this - I’ve asked for them.

Subject: FW: Basis

Per the attached, GS has a reverse repo trade with Basis Yield Alpha on GNM Brokers. This repo was opened over a recent date of a coupon payment. Consequently GNM received the coupon that, under the repo terms is due back to Basis. Upon a claim from Merrill Lynch (from their trading for Basis) Asset Services submitted this 8327K payment. This payment has now hit the high risk payments system for release.

Subject to comments from the group, we are not releasing these funds. If there are factors we should consider with respect to releasing payment, please let us know.

Thanks

Greg

Thanks for forwarding this email.
Footnote Exhibits - Page 4558

I want to bring everyone involved, ie Greg, the repo team and high risk team, up to speed that there is a $317,292 high risk payment pending. The attached email gives background on this payment.

Based on the email below we are obviously not releasing this money until we receive guidance from Greg.

Let me know if there are any questions.

Please forward to others as necessary.

Thanks very much.

Subject: RE: Basis

We have had several calls with basis today

George Ouderkirk provided the client with bid levels on 125MM face of CLO equity to free up capital to be applied against their margin call

Basis informed us that despite the net monies freed by the proposed CLO sale (~$317,292), they are unable or unwilling to provide add'l cash or collateral to meet our margin call

Our bids for the CLO equity are contingent upon basis signing a netting agreement which CSBS and GS Legal drafted

Our bids are also subject to material nth moves as well as basis executing by New York open

At this time the client is reviewing the netting agreement

After discussing with GS Legal, we have informed the client that a formal notice will be sent to them by GS Legal by 800 Thursday Sydney time w/ t their deficiency on meeting margin to preserve Goldman's rights and remedies

Subject: RE: Basis

Update following conf call trading/legal/Idem/HY/Ops (credit unable to join - have left an update w for Greg):

- Estimated clean funds available to meet call requirements approx USD15.5mm if Basis accepts GS side
- Estimated surplus after meeting repo margin requirement USD5mm approx
- Documentation does not allow us to automatically use this to cover swaps collateral requirement.
- Client agreement/authorisation would be required.
- Agree to make client's agreement to this a condition of trade - Idem legal (Michaela) to draft suitable authorisation for David to send on.
- Ops will need to hand hold all events to make sure no external settlement made and funds applied to calls. Brian has reached out to give settlement groups a heads up.
- David to George on situation
- George to update this group on outcome of communication with Basis and how they plan to meet the calls either by accepting GS side, or delivery of cash value tomorrow.

Subject: RE: Basis

Have just spoken to David Lehman and we have just left a v-m with Tom Higgins:

Update:
Gerry Oudekirk and David Lehman are to meet with Dan Sparks and Don Mullen to agree bid pricing this in the next 90 minutes or so. David will revert to this group with an update following this. We should get an idea of the clean funds which might be available to Basis if they accept our bids. Clearly preference would be for Basis to meet calls with free cash.

David and I will circle back with legal/credit/ops to establish next steps re setting margin requirements vs proceeds to make sure we don't inadvertently release funds/securities to the client.

David has a LpaNY/Am Sydney call with George to update and agree approach with client.

Shawn

Conversation this morning between George Malteros, Jean-Marc Morel, Desiree Lam, Shaun
Sheppard and I to confirm and agree expectations and timeline/actions around Basis meeting
the three calls we issued last night London time:
- Gerald Guderlev’s desk to provide bid pricing on CDS to Basis for Australia start of
business - David George please can you confirm to Gerald the positions to be priced if
not already done so?
- George to speak to Basis tomorrow, Sydney AM, to agree how client will honour the
margin call.
- Basis to agree calls by 12 Jul CDS Sydney time/30B London time
- Funds due to meet all calls by CDS 12 Jul

Thanks,
Maurice

Thanks Nedara. Does it mean that they'd need to see the full break down of the marks and talk to David again (earliest MT time tonight) before they'd decide whether they agree on the marks? And there'll be at least 1 day delay for their margin?

Regards,

Desiree

Subject: RE: Basis

Despite giving the impression that they agreed the CDO marks as discussed on the call with the Trading desk, basis have now stated that they want further clarification on these marks before they are happy to meet the two Repo calls.

David - they are looking for a line by line breakdown of the changes for each mark.

The OTC has been agreed in full with a payment of $3.90mm paid for value today, we are checking with Treasury to see when these funds hit our account.

Regards,

Nedara

Subject: RE: Basis

I am following up with ops on the corporate actions to confirm if we can agree as soon as possible what the amounts are we owe them. I understand from ops (copied on this) that there is some clarification required from Basis.

To their question about setting the corporate action payments with the repo margin calls we are in no way obliged to do that. If they don’t meet our margin calls by close tomorrow we will be within our rights to close them out under the facility agreement and use.

That said, we should discuss the approach especially given the (fairly?) recent from Basis with a view to agreeing the marks on the repos as soon as possible and we may take the decision to agree to not the 2 amounts but we would need resolution on the corporate actions before close tomorrow to do so and that may not be practical.

First up I think is to agree the marks then we can work out how we want to move on the margin vs the corporate action.

Subject: RE: Basis

Maurice and I just finished the call with Peter Dubson (Basis).

1 - Basis have plenty of cash to make the full margin call, but the approach by Goldman has been viewed to be very aggressive and unwarranted it is hurting the relationship.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001866406
Footnote Exhibits - Page 4568

2 - Basis will arrange for v/d 1 July the Timberwolf margin (USD5.40mm) sub to them receiving a note confirming the CTC swap would pay them any MTM improvement.

3 - Basis is not prepared to pay the margin call on the Repos (USD1.72mm) + USD4.43mm; until the discussion re: saws has been made. David -

4 - Basis cannot see any justification for the massive mark down in the securities (under the Repo), and are interpreting our reveals as a way to reduce the repo financing line.

5 - They are disappointed Goldman have not paid to Basis the equity distributions under the REPO/WMAX. We potentially own Basis approx USD40m here. Can this be netted against the margin call? Oily - can you double check this pls?

6 - Basis claim Goldman have not cared to check in with Basis (from a credit perspective) to see how they are doing and instead are acting like the world is falling over with irrational behaviour.

Even client disagrees on the marks, they are obligated to meet the call amount as provided by the calculator, 02. But they have the right to go through the prices with us. If they don't meet the call today, they are in danger of defaulting margin payment. George is trying to explain to client that if they have cash available, they are encouraged to first meet the call and continue the marks discussion throughout the next 2 days.

Copying Sonia Lim from Legal to confirm the legal proceedings, as we may potentially need to issue demand note tomorrow.

George, Maurice, how was the discussion with client? If necessary, we'd need to trouble David to be on call with client to understand what exactly they want to clarify in terms of the marks.

Desiree

Subject: Re: Basis

I can get on the phone this morning NY time to discuss (ie Wed works) w the client

I would like to know what the precedent there is here - does GS need (outside of the client issues) to provide the below info to justify our prices??

For example, on the TWOLF CDS, GS is willing to deal (bid and offer) in the context of our prices

On the equity securities, this is an illiquid asset where there are not a lot of recent trade spots, but it is clear that 3) other parts of the CDO cap structure are materially wider
2) the underlying assets w/i the CDS are materially wider

Subject: Basis

I just spoke with Peter Dobson at Basis (4:30pm SYD time).

He is not concerned with the $5 of the margin call, but very concerned about the marks - they are contesting these levels, i.e. seeking clarity before agreeing to pay the margin.

They want to see:
- the comparable market data point for the Timberwolf marks
- more info for each of the ABS CDO marks like IRRA, CDR, CFR, reinvestment profile, WAL, cashflows, etc
- the market data point for those marks, a actual trade examples done at these levels
- any other colour specific to these deals which helps Basis understand the marks

I will be arranging a call b/wn Basis and the NY traders asap

Rgds,
George

Basis Makes Blackstone to Limit Losses on Hedge Funds (Updated)

(Adds Basis Capital assets in second paragraph.)

By Lewis Cochrane
July 24 (Bloomberg) -- Basis Capital Fund Management Ltd., the Australian hedge fund manager battered by losses in the U.S. subprime mortgage market, hired Blackstone Group LP as an adviser to help avoid a fire sale of assets.

Blackstone, already helping Bear Stearns Cos. liquidate two hedge funds, will advise Basis Capital, "to prevent adverse pricing and selling of assets," the Sydney-based firm said in a statement today. Basis Capital, which had assets of $1 billion as recently as May, said July 19 that the value of its Yield Alpha fund may fall more than 35 percent if assets are sold at distressed prices.

The losses at the fund, which recorded an average annual return of 13.5 percent for the past five years, underscores the global impact of the subprime shakeout. Federal Reserve Chairman Ben S. Bernanke said July 19 that there will be "significant financial losses" from risky mortgages, pointing to estimates as high as $100 billion.

"The fallout from subprime is likely to impact most asset classes and investment strategies over the next couple of years because the ratings agencies completely goofed up," said Peter Douglas, founder of Singapore-based hedge fund research firm GPA Pte.

"Basis Capital is like a bellwether." Basis Capital's Aust-Rim Opportunity Fund and the Yield Alpha fund lost 9 percent and 14 percent respectively in June.

The funds are in trouble by investing in the unrelated, riskiest portions of collateralized debt obligations. These portions, also known by bankers as "toxic waste," are first in line for any losses when borrowers fall short on mortgage payments.

Delinquencies Rise

Sophia Harrison, a spokeswoman for Blackstone in London, declined to comment about the firm's role with Basis Capital.

The Australian firm was founded by Steve Howell and Stuart Fowler, who worked together at County Westminster in 1999. It was named "Fund of the Year" at the 2005 Alternative awards and Monequry Bank Ltd.'s "Skilled Manager of the Year" in 2004.

Delinquencies on U.S. subprime mortgages -- loans that people with poor credit acquired to a 10-year high this year after borrowing costs rose.

"While sales of CDOs -- used to pool bonds, loans and their derivatives into new debt -- coo fivefold to $533 billion last year from 2005, investor appetite for the securities is now waning. Analysts at New York-based JPMorgan Chase & Co. said yesterday that CDO sales dwindled to $5.7 billion in the U.S. this month from $44.2 billion in June.

Credit Markets

The extent of the asset declines such as those at Basis Capital and Bear Stearns Cos. is masked by the reluctance of investors to buy or sell the illiquid securities, said chair Percy-Dove, the Sydney-based head of credit research at Australia's New Zealand Banking Group Ltd.

"Every single CDO is very different," she said. "To get somebody to price a CDO at all can be difficult because people won't price something they don't understand."
Footnote Exhibits - Page 4579

Bear Stearns, the fifth-largest U.S. securities firm, said July 18 that investors in its two faltering hedge funds will get little if any money back after "unprecedented declines" in the value of securities used to bet on subprime mortgages.

The losses triggered a sell-off across credit markets because of concerns that CDO declines would mean losses for holders of even the least risky debt and that fewer sales of new CDOs would reduce demand for bonds and loans.

S&P Downgrades

The Basis Capital funds, which were open to individual and institutional investors, had the highest five-star ratings from Standard & Poor's before the ranking was put "on hold." July 17.

This means the rating is being reviewed because "issues potentially affecting the management of the fund have emerged," according to S&P's Web site.

David Edmonnes, a fund analyst at S&P, said the evaluation of Basis's assets had triggered margin calls from investment banks that have seized and begun to sell off assets. S&P today kept the funds on hold after meeting with management.

Investors have criticized S&P, Fitch Ratings and Moody's Investors Service, saying these ratings on bonds backed by U.S. mortgages to people with limited credit didn't reflect the rising default rate. They often gave top ratings to the securities. Some bonds have lost more than 50 cents on the dollar this year while their credit ratings haven't changed.

Australian Market

"This won't be the last fund in Australia or overseas to find itself in financial difficulty because of U.S. subprime," said Mark Boyle, a Sydney-based director in credit and structuring at ANZ Amcor Holding BV.

Mariner Bridge Investments Inc., another Sydney-based asset manager, wrote down its U.S. residential mortgage-back securities portfolio on July 25 to 26 percent below face value on subprime losses. Mariner said A$76 million of its A$302 million in assets was invested in U.S. residential mortgage-backed securities.

Australian investors, mostly individuals, had A$607 million in the two Basis funds, the Australian Financial Review said July 19. Hedge funds in Australia are open to retail investors, unlike in the U.S. where the largely unregulated pools of capital are generally limited to hedge funds and wealthy individuals. The funds' managers participate substantially in any gains on the money invested.

I called Blackstone this morning.
I told them I was very surprised not to have heard back from them (either way) last night.
I asked for specific feedback on our proposal and why they did not work.
Their only comment was "Basis could not get legal advice last night" and that they went to bed.
Disappointing to say the least.
They were aware we sent our notices.

Subject: Basis update - 9:30

Just got off a 10 minute call with Matt and Simon from Blackstone.
They discussed two things:

1) Fiduciary vs. Yid Alphas. Age old question. I reiterated our desire to holistically come to closure with basis. I assured them we were sensitive to the two distinct funds as is our proposed agreement.

2) Swap pricing. Sounds like the directors are concerned with committing to trading the
swaps as there has been no "third party verification." I told them our auction mechanism afforded them the best price in the market and walked them through our rationale. I told them if there was a way to get a higher actionable bid tomorrow it would be better for both SS and Basis and we should have that conversation.

They are touching base with Sydney and coming back.

David,

Thanks very much for the note. As we mentioned on the phone earlier, we will be speaking with our client and the other advisors later on (as call which is currently pencilled in for midnight UK time) and you will be a priority for discussion. Thanks for taking the time to discuss matters with us earlier and for keeping us updated as to decisions and progress from your side. With the aim of creating as transparent and open a process as possible, we will commit to do the same from our side.

Kind regards

Simon

Subject: Basis / GSI

Team Basis -

Over approximately the past 5 days, GSI has been working with Basis in good faith towards a consensual agreement regarding our repo and swap exposure.

After repeated attempts from GSI to continue our dialogue, GSI has not heard (e-mail or phone) from Basis over the past 60 hours.

As GSI and Basis previously maintained a good dialogue working towards a common end, GSI is concerned by the lack of communication given the current situation.

If the execution of a binding agreement cannot be reached by 12:00 New York Time tonight (3:00 p.m. Sydney Time), GSI expects to close out our repo and swap exposure.

GSI’s strong preference is a consensual resolution along the lines negotiated with Basis, but the lack of communication and inability to move our bilateral agreement forward leaves GSI little choice.

Please note that GSI has postponed the security and swap bid lists scheduled for this afternoon which were contemplated in our consensual agreement.

VIA HAND DELIVERY AND EMAIL:

Dear Sirs

EVENT OF DEFAULT UNDER ISDA MASTER AGREEMENT

1. Further to our letter dated 24 July 2007 in which we notified you of the occurrence of an Event of Default under the Agreement (as defined in that letter) we write to confirm that, as the Non-defaulting Party, we have calculated the resulting termination amount payable under Section 6(e) of the Agreement in respect of outstanding Transactions.

2. As required pursuant to the Agreement, we have designated U.S. Dollars as the Termination Currency. Accordingly, such termination amount is expressed in U.S. Dollars.

3. The termination amount payable by Yield Alpha to us as of the date hereof is U.S.$36,950,578.81, consisting of the Settlement Amount, Unpaid Amounts and expenses pursuant to Section 11 of the Agreement for our reasonable out-of-pocket expenses, including legal fees, incurred as at the date hereof by reason of the enforcement and protection of our rights under the Agreement and by reason of the early termination of the Transaction, each as detailed in the schedule hereeto. Please send your payment by close of business on 31 July 2007 to the following account:

ABA #: [Redacted]

BANK NAME: [Redacted]

CITY: NEW YORK

A/C #: [Redacted]

ACCOUNT NAME: GOLDMAN SACHS INTERNATIONAL

4. The Settlement Amount was calculated on the basis of Loss as detailed in the schedule hereeto as soon as reasonably practicable after the Early Termination Date as we were unable to obtain the required number of Market Quotations.

5. We reserve the right to exercise from time to time any additional rights, powers, privileges and remedies we have or to which we are entitled under the
Agreement or otherwise, including the right to seek additional legal fees, incurred by reason of the enforcement and protection of our rights under the Agreement and by reason of the early termination of the Transaction and recovery of amounts due to us in the Courts of England.

Yours faithfully

Goldman Sachs International

JUL 003960
Order of priority in terms of risk:
1. CDO-squareds
2. Hudson Mezz
3. All other positions - traditional-style CDOs with collateral managers

Gameplan for distribution:
1. CDO-squareds
   - Target real money institutional buyers that can take larger bids size than traditional CDO buyers and are focused on yield pick-up vs. other investments - for example, Asian banks and insurance companies.
   - Target European banks focused on new Basel II regulatory capital framework that achieve significant regulatory capital benefit for investing in highly rated assets vs. the previous system.
   - Offer CDO CDS protection on a portfolio of names in the Timberwolf and Poine Pleasant portfolios to buyers looking at cash liabilities from the two deals as a long/short pair trade - for example, AIG is currently focused on this trade idea.
   - Offer long CDS protection on 51 CDO names in the two portfolios and we have been aggressively sourcing further protection in the CDS market on names in the two portfolios recently.
   - Target hedge funds that can put on this type of relative value long/short trade with short-term financing to achieve returns attractive relative to CDO equity.

2. Hudson Mezz
   - Focus on institutional buyers that can take larger bids size than traditional CDO buyers.
   - Focus on buyers that are currently long ABS risk and can get comfortable with the Hudson Mezz underlying portfolio without needing the benefit of a collateral manager - for example, US insurance companies like Progressive.
   - Offer RMBS CDS protection to buyers looking at cash liabilities as a long/short pair trade.
   - Offer CDO CDS protection to buyers looking at cash liabilities as a long/short pair trade.
   - Pitch Hudson Mezz as a means to express long 68-106/2 vs. short 27-1 trade.
   - Target hedge funds that can put on these relative value long/short trades with short-term financing to achieve returns attractive relative to CDO equity.

3. Other positions
   - GSC super-senior ABS - Dreidorp is nearing completion of their work on $500mm of our $1.965bn position. Other options for the remaining size: CIG, Radian, FGIC.
   - Continue to focus on CDO managers ramping new deals and reinvesting principal paydowns in existing reinvestable deals for smaller cash pieces (examples in the last 2 weeks - sales to Terwin, Oppenheimer, Dearfield, and Vactor Capital).
   - Target buying protection in CDS format on the same names we are currently long in cash if they continue to be more liquid in CDS vs. cash due to market technicals, and when we reach critical mass ($50-100mm), compile a package of cash positions that we've bought protection on and offer the package as a negative basis trade.

Subject: RE: Timberwolf and Hungkuk Life

We received the following verbal order from Hungkuk Life on Timberwolf: 20556mm WOLF 2007-1A A2 (85+4 delta). Few comments:

- Timing: We expect to receive the 100% final order by Friday as we need to receive formal BOE approval and an internal deal / senior manager approval and are both not expected to be a problem. Once we have formal approval, we will be able to trade the ticket.
- Prioritize: Hungkuk Life will confirm shortly but currently they are in the 84-85 context per our offer.

Thanks.

Subject: Timberwolf and Hungkuk Life

Next week Hungkuk Life will submit an approval form on Timberwolf A2's. Their size will be 20mm-40mm, depending on offer price.

The largest hurdle from the client's perspective is whether or not they can get the mandate to buy something backed by synthetically securitized CDO's, as they have never bought CDO's before. Both the accounts GM and bank of Korea’s Central Bank can OK them on this.

The largest hurdle from seller's perspective is MTM. It is an important client, and if the mark widens out more than 1pt immediately after selling the asset to them, sales cannot sell it. Understanding that it is a volatile asset, sales wants to know that where we sell it to the client will not be more than 1pt less than where the mark would be, provided no new marked information.

Please provide the following by Sunday 7pm NYC (Monday morning Asia):

- Base Case GM: Other 3M such that the price is 1/4pt above where we intend to mark it (provided no mark change)
- Show Prices/OM table centered around the Base Case GM as defined above, and +/- 30bp dm by 10 GM (eg, 7 scenario total). Assume a scale of June 14th.

If there are any questions, please contact me at +81-90-3523-0936, or email at jay/le@ekweb.ne.jp

Subject: SP CDO Axes - Summary

Dear

For our conversation on Friday, wanted to make sure you had the complete update/summary of where we are on the CDO axes in Asia. Total firm bids for risk 316 ppsm with another potential 20 bpsm this week.

*Tokyo Star Bank (Japan) -- 20bps TWOFL AAA's. Sugii on our desk worked personally on this daily for 3 weeks.

*Sumitomo Life (Korea) -- 50bps TWOFL AAA's with of Fridays expect $20m on 20 bpsm more by mid next week (need to book as single ticket). Jay and Sugii working with entire Korea team (including in Park) to get this through. We have leveraged our personal relationship / time investment to date with the Korea team to push them on this.

*Basics Capital (Australia) -- 50bps AAA and 50bps AA TWOFL firm order in swap form as of last week (as you know, just finalising last two internal credit / doc issues). George has totally come through on this and again proves how invaluable he is to the business (we should keep this in mind as we continue to think about important personnel to global SPC and expand the trading/syndicate side of the business).

*Tokyo Star Bank (Japan) -- Appr. 20bpsm indication for Punt Pleasant AAA's. PM's taking deal to their risk committee on Tuesday of this week in Tokyo. Again, Sugii has been driving this process and getting it done.

Let me or Rusty know if you need further clarification on any of these. In Barcelona Monday/Tuesday. Thanks.

Subject: CDO marks

CDOs have widened a lot (BSAM situation, other) and we probably need to widen things/lower prices - next few days.

The effect on us will probably be a net positive, with retained CDO positions lower, CDS protection and correlation having gains. We are still doing work. We are also thinking through client mark issues including speaking to compliance about using hides.

Also, monthly subprime remittances are out today, and early read is performance is poor and speeds are slow.

Also, Moody's wants to speak (as our corporate rate). NYSE has questions, and I spoke with the SEC Thursday - all off the BSAM and related stuff.

Let's discuss live. Happy to look at his spreadsheet.

FTP... I can also email you this analysis.

1. Number should be 23%, I am assuming a 50% severity of the single-A CDO that has a writedown.
2. At the timberwolf level, OC triggers provide support in the case of a ratings downgrade, and prior to a writedown of the underlying single-A. In those cases, cashflow is directed towards the senior bonds allowing more OC to build at the Jr levels. However, in many of the underlying single-A CDOs, these same triggers could hurt timberwolf. On balance, it probably helps rather than hurts timberwolf at triple-A.
3. I came up with level after talking to ego. Having said that it is large and subjective and have not used it in discussing it with clients other than to say the attachment point for the A2 understates the protection for the A2.

As an aside, the results look even better if you break the 2006 production home equity into buckets based on fico. Without bucketing, roughly 27% of the underlying ref obs going all the way down through to the CDO of the CDO of the CDO, etc. are homeequity of 2006 or earlier production based on our weighting framework. This is better than the original analysis, which had that number at 34%. Even better is that only 14% on a weighted basis of the ref obs are truly subprime (fico 625 and lower). So, defaulting all of these does not hit the A2 attachment point.

In terms of telling customers, I prefer to give them the general idea of the trade. Then give them the excel spreadsheet with our info on ref obs and let them draw their own conclusions.

Thanks Alan, this is a really good contribution to analysis while doing internally as well regarding the pricing of Timberwolf and our structured product positions.

A couple of questions:

1) Can you explain how you got to 24% writedown based on 25% names defaulting?
2) What do you mean when you say that OC triggers could provide additional support beyond excess interest?
3) How did you come up with 4% enhancement at the Timberwolf and underlying CDO levels?
Footnote Exhibits - Page 4597

The trickiest part about sharing this analysis with custies is that it shows just how rudimentary our own understanding of these positions actually is. Are other dealers running cash flows for clients on this type of product? (Including valves for fee thoughts on what Lehman does.)

<< File: timberwolf ana 2.xls >>

Here is a spreadsheet with our latest info on timberwolf plus some simple analysis. I basically default every 2006 vintage subprime regardless of rating, and assume losses of 35% of face. I then look at those losses versus an adjusted cdio credit support to see if there are losses. This brute force approach defaults 25 of the 55 names, or 45%. This results in a writedown at the timberwolf level of 24%. Although the attachment point of the a2 is 20%, the effective attachment is higher, again using another 4% or 24% of cdio or attachment for the a2. (BTW this 4% only reflects the value of the excess interest, the cdio triggers would also give added support.)

This is pretty much the same results before, just hitting the low fico 2006 and just the beat1 and below would look better. Of course if you start getting complete writedowns of 2006, 2005s will take some hits as well. However, I think assuming all 2006 vintage beat1 and below get written down offsets that factor. However, this framework can provide some rudimentary analysis for us and for customers. Once we send them the spreadsheet with the information they can do this them selves.

INTERNAL

Fortress - have continued working and are having trouble modeling the deal in enough detail to be comfortable providing a level. Swavalman continuing to push - planning to have a call to address their questions and concerns early next week - pushing to have call Monday, but might happen Tuesday - also still need lookthru analysis that Strats are working on.

Winchester - have not come back with an answer - deal has been elevated to senior management - they are debating appetite for additional sector exposure, if comfortable adding risk they will come back with what levels work. Continuing to push early next week.

Stark - still looking, but concerned about correlation and recent report from Moody’s, also concerned with back ended return profile given lower coupon. Gaddi setting up call with the account Monday to address concerns.

Paramax - very low delta at this point.

UBS prop - started work on Timberwolf A1, B and Point Pleasant B class this AM - they have inherited the bonds that Dillon Read took down when the deal was priced.

Elliot - looking at Timberwolf mcan AAA’s for a vehicle - would be vs senior CLO’s - they are going to give us a list of CLO’s to bid on vs Timberwolf early next week - potential size 10-15MM.

AGC - asked for and received additional information on Timberwolf today - they currently have all the information they have asked for - they are working - Pennek to follow up early next week.

DeShaw - had call to discuss Timberwolf mcan AAA – asked for and received additional information on underlying deals - working - if they care, potential size would be 25-50MM - low delta.

Harvard - evaluating Pt Pleasant A1’s vs 40-100 ABX – GS offered at pick 50bps - account needs more spread and is evaluating counter - Radka to push next week.

Polygon - continuing to work - evaluating structure - Rasi to continue pushing next week.

Vanderbilt - evaluating for CDC bucket of their deal - very limited room in bucket so would be small (5-10MM) if they care.

Subject: Carlyle

I've been speaking with scott at carlyle about junior AAA CDO paper and he is starting to see value here - will show him the GBC deal and walk through it - he seems to have an appetite for risk at these levels which is good but the flip side is he thinks the market is "unhinged" w/ respect to valuations, i.e. everything trading on technicals and no one talking about fundamentals - one point, he is going to want to look at the TROW fund on a fundamental basis with a lot of supporting

runs to back up any additional mark downs we have - telling him we are busy when it comes to month end and we can’t run that analyst because we are resource-constrained will not be good enough!

This should be a double-edged sword that we can use to move risk however, so I hope we see this approach as a net positive.

Subject: RE: Timberwolf. Number should be 23.4. I am assuming a 50% severity of the single-a odd that has a writedown. oil analysis

Just want to give a little color, at Lehman (internal strictly), the analysis is more bottom-up. what I mean is that the individual subprime or other class bonds are analyzed under typical HPA scenarios, and then the cashflow gets sum up. Usually, the implied HPA of the worst priced Aaa index will be used as a "market implied mean HPA" to reflect the market price.

1. A standard deviation (historical national) will be applied on top of the implied HPA assuming very simplistic normal distribution
2. Individual bonds are modeled as subprime bonds call up subprime. CMBS bonds call up CMBS. Cashflows are run under the multiple HPA scenarios. So triggers are ran operations, the curves are based on model projection (and the triggers on top is, originator, vintage, etc.)
3. Cashflow summed up based on the CDO structure - this is in development and manual and not fully scalable the last time I heard it.
4. CDO cashflow under HPA scenarios. That's roughly how the mortgage side go about it.

As an aside, the results look even better if you break the 2005 production home equity into buckets based on FICO. Without bucketing, roughly 27% of the underlying ref obs going all the way down through to the cla of the cal of the cal of the cla of the cla, etc. are home equity of 2006 or later production based on our weighting framework. This is better than the original analysis, which had that number at 34%. Even better is that only 5% of the ref obs are truly subprime (FICO 625 and lower). So, defaulting all of these does not hit the 22 attachment point.

In terms of telling customers, I prefer to give them the general idea of the trade. Then give them the excel spread sheet with our info on ref obs and let them draw their own conclusions.

Thanks Alan, this is a really good contribution to analysis we're doing internally as well regarding the pricing of Timberwolf and our structured product positions.

A couple of questions:
1) Can you explain how you got to 24/26 write-down based on 25/36 names defaulting?
2) What do you mean when you say that the triggers could provide added support beyond excess interest?
3) How did you come up with 4% enhancement at the Timberwolf and underlying CDO levels?

The trickier part about sharing this analysis with others is that it shows just how rudimentary our own understanding of these positions actually is. Are other dealers running cashflows for clients on this type of product? (Including Vivien for her thoughts on what Lehman did).

Confidential Treatment Requested by Goixon GS MBS-E-004735378
< File: timberwolf and a.xls >>

Here is a spreadsheet with our latest info on timberwolf plus some simple analysis. I basically default every 2006 vintage subprime regardless of rating, and assume losses of 50% of face. I then look at those losses versus an adjusted 60% credit support to see if there are losses. This brute force approach defaults 25 of the 55 names, or 45%. This results in a writedown at the timberwolf level of 24%. Although the attachment point of the a2 is 20%, the effective attachment is higher, again using another 4% or 24% of ce or attachment for the a2. (BTW this 4% only reflects the value of the excess interest, the oc trappers would also give added support).

This is pretty much the same results before. Just hitting the low fico 2006 and just the baa1 and below would look better. Of course if you start getting complete writedowns of 2006, 2005s will take some hits as well. However, I think assuming all 2006 vintage baa1 and below get written down offsets that factor. However, this framework can provide some rudimentary analysis for us and for customers. Once we send them the spreadsheet with the information they can do this themselves.
Also, when u talk to john/stuart, it wud be good to know what (if anything) they r getting away

How many times do we have to request data points and scenarios by email. These were read out to us on the call and it was agreed that GS would send them through. I am getting wary of continually hearing about transparency and yet an obvious avoidance of ‘putting things to paper’.

Hi John,

Thanks for your notes.

As represented on the call on the morning, we want to be as helpful as possible here. However, as per the call, the trading desk does not necessarily use a single scenario to determine the marks. To that end, I would recommend doing a follow up call to go through the marking methodology for the remaining securities (and/or quot over the securities discussed on the call).

Does Monday morning SVD time work? If not, please indicate a time/day that does.

Thanks and kind regards,

George

Osawa-san,

To clarify, we understand there is urgency from the client’s end and we’re seeing something in writing by this Wednesday morning, and we are working to provide something.

However, under no circumstances are we going to be able to provide materials specific to Timberwolf and Point Pleasant, or even use the word “mark” in written materials. Instead, what we are working to provide is an introduction to some of the frameworks that can be used to analyze different types of CDO’s. Everything will be described in general terms, and if what we provide is too vague or general, the medium for further clarification must be oral, not written.

Subject: RE: Tokyo star

Our marking policy is a market price (bid and/or offer) -- We do not have a written methodology for pricing and we should tell Tokyo Star as such.

We are able to provide context to our prices verbally, including any CDO trades we have done (in the underlying deals or the CDO itself if we have traded), and the move in the underlying portfolio MPM, etc.

Also important to note that our marks are actionable bid and offer prices for cash (bid) or credit (offer) whereas it is not clear if our competitors marks are indicative of the current market prices.

Is there a reason Tokyo Star wants something in writing vs getting on the phone or discussing verbally?

Can discuss more live.

To: Maltese, George (GSJW); Carret, Paul (GSJW); Rolleston, Jeremy (GSJW)
Cc: for: request of aud

Gentlemen, we are getting good traction on the ABACUS 2007-AC1 transaction, the $5bn notional memo ARS CDO transaction with a portfolio consisting of 100% Ba1 rated RMBS bonds selected by ACA. We have gotten orders for approx $20bn of mazaa AAA CLNs and expect to price a first top of this transaction early next week. This transaction should be a good product to show your customers, to the extent they are not participating in Anderson Mezz, Timberwolves or Point Pleasant. I have attached below some key selling points for this trade, as well as price thoughts below:

Supersenior tranche (45-100 tranche, funded or unfunded): 45bps
Aaa/Aaa (5-45 tranche, funded or unfunded): L+85bps
Aaa/Aaa (21-35 tranche, funded or unfunded): L+150bps
Aaa/Aaa (16-21 tranche, funded or unfunded): L+175bps
Aaa/Aaa (11-16 tranche, funded or unfunded): L+250bps
Aaa/Aaa (10-13 tranche, funded or unfunded): L+500bps

Below are some key marketing points for the trade. Let's discuss what customer we can show this transaction to, thanks.

***INTERNAL ONLY***

ABACUS 2007-AC1 – 2bn synthetic RMBS CDO

OVERVIEW
• Static portfolio consisting entirely of "Basel"-rated midprime/subprime RMBS selected by ACA
• ACA is one of the largest and most experienced CDO managers in the world (see Overview of ACA below)
• Goldman’s market-leading ABACUS program currently has $3.1bn in outstanding CLNs with strong secondary trading desk support

RELATIVE VALUE
• Reference Portfolio more conservative (360 WARE) than traditional mezz ABS CDOs (400+550 WARE)
• Capital Structure less aggressive than traditional mezz ABS CDOs (see comp below)
• Attractive spreads relative to ABS CDOs currently in the market (see comps below)

PORTFOLIO
• Granular portfolio of 90 equally-sized reference obligations selected by ACA
• Static reference portfolio fully-identified, with no reinvestment, remarket, substitutions or discretionary trading
• 100% Ba1 Moody’s-rated subprime/midprime (360 Moody’s WARE)
• Diversified across 10 shives and 24 servicers
• Portfolio attached below

## Agenda

**Executive Summary**
- Evaluating Asset Classes

**Cash CDO Overview**
- Cash Collateralized Debt Obligations (CDOs)
- Cash Collateralized Loan Obligations (CLOs)

**Synthetic CDO Overview**
- Corporate Credit
- Asset Backed Securities (ABS)

**Appendix – Disclaimers & Risk Factors**
Executive Summary

- Structured products may represent an opportunity for banks to enhance yield, improve capital efficiency and diversify risk exposures.
- Financial institutions have begun to recognize the value of structured products and have been directing asset and resource allocation accordingly.
- Implementation of product efforts has been slow due to several factors:
  - Lack of internal product expertise
  - Balance sheet viewed as containing sufficient risk
  - Regulatory capital issues
  - Mark-to-market earnings volatility concerns
- Increasingly structured products are viewed as an efficient and effective vehicle to access credit:
  - Systemic exposures and managed transactions minimize need for intensive research capability while maximizing portfolio diversity
  - Attractive alternative for overly concentrated portfolios
  - Existing knowledge of MBS and ABS CDO's transferable to synthetic CDO's
  - Environment for structured products has become progressively more balance sheet and income statement friendly.
Traditional Bank Portfolios

- Banks seek to maximize investment portfolio returns subject to certain risk guidelines: liquidity, market risk, principal risk and regulatory capital.

- Banks have attempted to meet these goals through exposure to Treasuries, Agencies, Mortgage-Backed Securities (MBS), Asset-Backed Securities (ABS), Municipals and Corporates.

- Historically, banks have limited credit exposure in their investment portfolio:
  - MBS and ABS contain some consumer credit risk
  - Agency products contain limited credit risk
  - Corporate bond investment overall has been limited

- Consequently, interest rate risk has been the primary portfolio risk:
  - Upward sloping yield curves have provided alpha
  - Convexity in mortgage portfolios has enhanced yields but exposed banks to the increased volatility inherent in these products.
  - Corporate bonds fail to diversify rate risk because:
    - Limited component of bank investment portfolios
    - Only 11% of corporate bond coupon results from credit risk
    - Corporate bonds are not a source of hedge cap relief (100% risk weighting)

---

*This analysis is for illustrative purposes only, and is based solely on historical performance which may differ from actual performance. One-Jarvis 3yr CDX NA IG 4 metrics of Credit Default Swaps used for investment grade credit spreads. 3yr interest rate swap rate and 5yr CDX NA IG 4 spread of 24/500, used in conjunction with historic volatilities of 3yr interest rate swap rates and CDX NA IG spread to generate valuation volatility compositions.
CDO Product Overview

- As the structured products universe continues to expand, mortgage and corporate credit products as well as cash and synthetic CDO structures have continued to converge.

Evaluating Asset Classes

Overview

- Evaluating asset classes is a multi-step process that incorporates evaluation of:
  - Current yields of underlying asset class
  - Risk/return profile of underlying asset class
  - Correlation between asset classes in structured portfolio
  - Diversification/Overlap of exposure between structured credit portfolio and holdings in other portfolios

CDO Product Overview
CDO Participants

**Equity Investors**
- Investment Objectives:
  - Arbitrage between asset yields and financing costs
  - High current cash flow
  - Low correlation with other alternative investments
  - Lower management fees than other managed vehicles
  - Deliver margin alpha in chosen Asset Class

**Debt Investors**
- Investment Objectives:
  - Diversification: exposure to asset classes that may not otherwise be available or practical
  - Customized risk profiles
  - Attraction yields relative to comparable rated securities

**Underwriters**
- Goldman Sachs CDO Group
- Originates, structures and places transactions backed by diversified portfolios of bank loans (Collateralized Loan Obligations) or ABS (Collateralized Mortgage Obligations)
- Franchise record year for both CDO and SP CDO issuances in 2005

**Collateral Managers**
- Naries include:
  - Carlyle Investment Management
  - New York Life Investment Management
  - Ballyrock Investment Advisors
  - Eaton Vance Management
  - Deutsche Bank
  - Company of the West

**Participants**
- Participants:
  - Pension Funds
  - Hedge Funds

- Participants:
  - Insurance companies
  - Asset Managers
  - Banks
  - Hedge Funds
## Cashflow CDO Overview

### CDO Investor Base

Growth of Primary Market Issuance

Overview and Motivation for the Bank Loan Asset Class

- The collateral for a CLO consists primarily of leveraged loans
  - Leveraged loans are syndicated bank loans made to borrowers with non-investment grade credit ratings
  - The US leveraged loan market has matured into a major capital market with strong liquidity
  - Spreads over LIBOR on B-rated leveraged loans have averaged approximately 300 bps over the last seven years
  - Default rates for leveraged loans have historically tracked significantly lower than default rates for high yield bonds
  - Recovery rates for leveraged loans have historically tracked significantly higher than recovery rates for high yield bonds
- Since its development in 1998, the US cash flow arbitrage CLO market has developed into a major market
  - US Cash flow arbitrage CLO issuance reached approximately $42 billion in the first 3 quarters of 2005
  - CLOs own an estimated 65% of the US dollar institutional leveraged loan market

</table>
Growth of Primary Market Issuance
Broadly Syndicated Loans

- A syndicated leveraged loan is one that is provided by a group of commercial or investment banks to a non-investment grade company
- A syndicated loan typically consists of:
  - A revolving credit facility (pro-rata) which allows a borrower to draw down, repay, and reborrow
  - An amortizing loan with a progressive repayment schedule
  - One or more institutional term loan tranches that have longer maturities and back-ended repayment
- As the syndicated loan market has evolved, the banks that arrange loans have increasingly sold loans to institutional investors such as CLOs and prime funds
- US dollar denominated annual new issue volume for leveraged loans

![Chart showing new issue leveraged loan volume](chart.png)

### Growth of Primary Market Issuance

**Bank Loan Structural Features**

- Loans possess inherent structural and credit protections that make them attractive to own in a leveraged vehicle
  - Capital structure seniority
  - Covenant and security package
- As shown in this diagram for a hypothetical company’s capital structure, loans typically represent a company’s most senior source of capital

<table>
<thead>
<tr>

</tr>
</tbody>
</table>
Growth of Primary Market Issuance

Spread Averages

- Loans have demonstrated characteristics over the long-term that make them attractive to own in a leveraged vehicle like a CLO
  - Attractive risk-adjusted returns
  - Low volatility
  - Low total return correlation with other asset classes
  - High recovery rates

Synthetic CDO Overview

- CDOs are not an asset class.
- CDOs are a technology – a combination of derivatives and structured finance technology – applied to an asset class.
- CDO technology enables market participants to build customized investments to meet return objectives subject to risk tolerances.
- Credit portfolios tend to have asymmetric risk/return profiles due to idiosyncratic risk.
- Structured credit investments create systemic risk/return profiles as credit events decrease subordination before resulting in actual losses.
- Highly rated structured credit investments may provide for more efficient use of regulatory capital than comparably rated single name investments.
- Structured credit investments provide exposure to a variety of asset classes and may serve as a good source of diversification.
- Synthetic structured credit investments enable instant ramp up of assets and are not subject to supply constraints of the cash market.
Synthetic CDO Overview

- A synthetic CDO is an arrangement whereby the losses on a portfolio of CDSs are allocated among various participants according to specified priorities.
- Synthetic CDOs are a derivative extension of cash CDOs and have seen a large increase in volume over the past several years.
- A synthetic CDO combines the cash CDO securitization technology with credit derivative hedging technology.
- It retains the structure of a cash CDO but eliminates the need for tranches to absorb losses.
- The synthetic CDO is directly linked to the performance of the underlying reference portfolio and is rated or unrated.

Similar to a cash CDO, we can create tranches with different ratings by allowing different tranches to assume losses in a given order:

- The Equity tranche assumes the first losses on the reference portfolio, up to its tranche size. It is the riskiest tranche and requires a higher coupon.
- The mezzanine tranche assumes losses up to its tranche size. It is less risky and requires a lower coupon.
- The senior tranche assumes any remaining losses on the reference portfolio. It is therefore the safest part of the capital structure and receives the lowest coupon.

Transactions are documented using standard ISDA terms and credit losses on the reference portfolio are determined in accordance with ISDA credit derivative definitions.
Diversification

- Structured credit/product investments are available on a variety of asset classes:
  - Corporate credit
    - Investment grade
    - High yield
  - Emerging markets
  - Residential Real Estate Securities (RMBS)
  - Asset-Backed Securities (ABS)
  - Commercial Real Estate Securities (CMBS)
  - Collateralized Debt Obligations (CDOs)
Credit Derivatives Market Evolution
103% Growth in 2005

The credit derivative market is expected to grow to over $23.5 trillion in 2006.

Credit Derivatives Outstanding Notional

Credit Default Swaps

*Most Frequently Used Credit Products*

- Not surprisingly, the most actively used credit derivative products are credit default swaps.
- The introduction of credit derivative indices has been a major development and now account for 11% of the market.

</tbody>
</table>

Credit Default Swaps
Disaggregating Credit-Risky Bonds

- Given lack of development of a corporate repo market, cash credit markets have always been "sticky"
- Long/less long mentality
- Cash credit products embed several risks, including interest rate and credit risk
- Credit derivatives enable market participants to isolate the components of credit risk
- A credit default swap (CDS) allows investors to express long and short views on single-name credits and serves as the fundamental building block in structured credit

Illustrative only - diagram not to scale

- Bonds/loans are physical IOUs
- Government bonds are considered credit risk free
- Credit risky bonds, therefore, trade at a yield premium to government bonds to compensate for risk of default
- The CDS market focuses on trading the credit default risk premium
Structured Credit Tranches

Subordination and Tranche Size

- Structured credit relies on two key principles:
  - Subordination
    - The measure of losses that must occur within a portfolio before a tranche is at risk to loss
  - Tranche size
    - Reflects the notional (value-at-risk) of a structured credit investment
- In this example, the first loss tranche size is $100mm
- $100mm of reference portfolio losses would need to occur before the second-loss tranche is subject to loss
- Investors can thus create "credit enhanced" credit exposure through the use of subordination
- Tranche size is also a measure of leverage
  - For example, an investor may wish to invest $200mm into the same 10% first loss tranche and thus would reference a portfolio of $2bn rather than $1bn
- Combined with tranche size, varying levels of subordination enable investors to tailor both the structural leverage and the risk/return profile of their investment
Synthetic CDOs

Structure

- Investors customize tranche risk/return profile by specifying tranche subordination and tranche size
- Investors can create rated "credit enhanced" credit exposure through the use of subordination
  - In this example, the AAA rated tranche subordination is 10% ($100mm)
  - $100mm of reference portfolio losses would need to occur before the AAA tranche is subject to loss
- Tranche size is a measure of leverage
  - In this example, the AAA rated tranche size is 3% ($30mm)
  - Once portfolio losses reach 10% ($100mm), the tranche can withstand an additional 3% ($30mm) portfolio losses before exhaustion
Synthetic CDOs

How can we sell a single tranche?

- What happens to the rest of the capital structure? Who owns the equity?
- When a dealer executes a single tranche deal, they decompose the risk into a sensitivity to each of the underlying credits (the "delta").
  - Dealers will execute delta hedges on each of the names in the reference portfolio at the time they trade the tranche.
  - By only ramping up the risk associated with the tranche we place, we are able to execute single tranches without placing the entire capital structure.
Credit-Linked Notes
Transaction Structure Overview

- A special purpose vehicle (SPV) issues notes to the investor.
- The SPV uses the proceeds of the notes to purchase investment-grade (IG) collateral and receives the Collateral Coupon.
- The SPV enters into a credit swap with Goldman Sachs (GS).

Legend:
- — Cash Flow
- — Contingent payment

Note:
1. All losses are assumed to be as noted in the table.
2. Credit swap losses are paid to Goldman Sachs as outlined in the description of collateral at par.
## Concerns Around Credit Resolved

<table>
<thead>
<tr>
<th>Traditional reasons to limit credit exposure</th>

Synthetic CDOs

Relative Value & Yield Enhancement

- Structured credit product investments produce higher yields than comparably rated single name investments through structural leverage and exposure to "systemic" rather than idiosyncratic risk.
- Structured credit market may enable managers to articulate views without taking as much idiosyncratic-risk credit risk and may potentially generate benefits from these non-economic driven techniques.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-002055424
Systemic vs. Idiosyncratic Risk

- Tight spread and yield environment has triggered an extensive search for yield
- Increased single name exposure to higher yielding credits may increase idiosyncratic and asymmetric risk
- Structured credit/product investments rely on two key principles:
  - Subordination: measure of losses that must occur within a portfolio before a tranche is at risk to loss
  - Tranche size: reflects the notional (value-at-risk) of a structured credit investment
- Through the use of subordination investors can take highly rated exposure to lower rated collateral and articulate a systemic as opposed to idiosyncratic view on credit
Trading Flexibility

- The Manager will have the flexibility to trade the underlying Reference Portfolio – and trading will affect the subordination of the tranches
  - Typical trading is defensive – taking out wide spread names and replacing them with tighter names. These trades will result in a reduction in subordination
  - Manager can also take a view on the credit by taking out a tight spread name and replacing with a wider name for credits where the Manager believes that the new credit is trading wider than is reflected by the fundamental credit risk
    - These trades will result in an increase in subordination
- Trades will be subject to the following restrictions
  - Turnover Limit
    - Regional and industrial diversity requirements, spread distribution test. These are designed to ensure that the overall correlation and spread distribution of the portfolio remain broadly the same
    - S&P CDO Monitor Test – S&P require the S&P CDO Monitor to be run before each trade to ensure that the rating of each tranche is not adversely affected by the trade
    - Minimum Subordination for the lowest rated tranche of [2.0%]
    - Maximum increase in subordination from spread widening trades equal to [1.0%]
- There will not be any coverage tests as the Manager’s incentives are aligned with those of Investors through ownership of the notes
- Typical Trade Flow
  - Manager will have the ability to price check the levels quoted by GS with other dealers and trade at best market prices
Replacement Procedure Flow Chart

Manager notifies GS of a potential single tranche reference portfolio substitution or removal

GS quotes adjustment factors, and reference entity CDS spreads (old and new credit)

GS confirms that the replacement conditions are met, and assists in verifying that rating agency requirements are satisfied

Manager receives CDS quotes from other dealers on specified old and new reference entities

Assuming replacement conditions/rating agency requirements are met, the Manager may transect the reference portfolio substitution based upon GS or third-party dealer quoted CDS price

The single tranche confirmation is amended to reflect the change in the reference portfolio and subordination
Effect of Trading on Subordination

- Any change in subordination will be determined by the change in spread of the Reference Entity being removed, and the new Reference Entity (determined at the time of switch), obligor percentage and an adjustment factor:
  \[ \text{Subordination reduction} = (\text{Spread Old} - \text{Spread New}) \times \text{Adjustment Factor} \times \text{Obligor Percentage} \]

- What is the rationale behind Adjustment Factors?
  - When Manager trades a name, this changes the value of the portfolio credit default swap
  - In order for the substitution cost to be zero, the value of the portfolio credit default swap must remain the same — hence subordination must be changed
  - The Adjustment Factor is determined at the time of trading such that the net change in value is zero

- What determines the Adjustment Factor?
  - Adjustment Factors are determined by a number of variables that also determine the value of a tranche:
    - Time to Maturity
    - Absolute spreads and distribution of spreads in portfolio
    - Subordination of tranches
    - Recovery rates and recovery volatilities
    - Correlation between credits

- Since Adjustment Factors depend on a number of variables, it will be impossible for GS to predict what the Adjustment Factors will be at the outset of the transaction - this will be driven by the market conditions at the time of trading - hence, Adjustment Factors will be quoted at the time of the trade
Trading Example

- One year after the Effective Date, the spread of a Reference Entity has widened significantly since the original inclusion of that Reference Entity in the Portfolio. Manager is concerned about the increased potential for that Reference Entity to suffer a Credit Event and so wishes to replace that Reference Entity for a new Reference Entity which is trading at a much tighter spread.

- The following conditions exist:
  - Offered side spread of Reference Entity to be replaced = 600 basis points
  - Bid side spread of Replacement Reference Entity = 100 basis points
  - Let the Adjustment Factor = \([5.1]\)
  - All trading tests are satisfied
  - The average spread of the portfolio is \([1.00\%]\)
  - No defaults nor earlier trading since transaction start, hence subordination of mezzanine tranches = 5.1%

- Given the above, all the conditions necessary for Replacement have been met. The adjustment to the subordination is then calculated as follows:
  - SpreadOld = 600 basis points
  - SpreadNew = 100 basis points
  - Adjustment Factor = \([5.1]\)
  - Adjustment Percentage = \((5.00\% - 1.00\%) \times [5.1] \times 0.67\% = 0.17\%\)
  - New Subordination for mezzanine = 5.10\% - 0.17\% = 4.93\%
Case Study: Yankee Bank

- **Account Profile:** Yankee bank looking to purchase assets for securities arbitrage vehicle

- **Organizational Structure:**
  - Pre-transaction: Two synthetic CDO investments at home office level
  - Post-transaction: Decision making capabilities assumed by regional office assuming transactions fall within predetermined guidelines designed by credit committee

- **Portfolio:**
  - 188 name, 100% IG, globally diversified portfolio
  - Trade executed with significant subordination above Moody’s AAA for purposes of improved ratings stability

- **Process:**
  - GS worked with regional and home office teams and gained CFO approval
  - Client did not apply fundamental analysis to specific credits but rather worked within predefined parameters for portfolio characteristics
  - Client sought wider spectrum of decision making authority for future transactions

- **Conclusion:** Client has now executed the first in a series of trades for 2008
Agenda

Executive Summary

Evaluating Asset Classes

Cash CDO Overview
- Cash Collateralized Debt Obligations (CDOs)
- Cash Collateralized Loan Obligations (CLOs)

Synthetic CDO Overview
- Corporate Credit
- Asset Backed Securities (ABS)

Appendix - Disclaimers & Risk Factors
Overview of Structured Product Synthetics

- Structured product synthetics are credit derivatives referenced to a single underlying structured product security or to a basket of underlying structured product securities
  - Prime, Alt-A and Subprime RMBS
  - CMBS
  - Consumer ABS
  - Cash CDOs
- Market activity has been concentrated in real estate-related sectors of the structured finance market (i.e., RMBS and CMBS)
- The structured product synthetics market is expected to continue to exhibit rapid growth over the next few years, consistent with the trend line in the corporate credit derivatives market
- Structured product synthetics consist of:
  - Single-name CDS: Credit default swap (CDS) on a single reference obligation allowing investors to go long or short credit risk on a specific structured finance security synthetically
  - Basket/Index Trades: CDS on an unlevered basket of underlying reference obligations – equivalent to a basket of single-name CDS
  - Levered Synthetics: single tranche synthetic structured product CDOs backed by a portfolio of single-name structured product CDS, enabling investors to gain exposure to structured product cashflows in a levered synthetic fashion

Overview of Structured Product Synthetics

The Basics

- Basics of structured product synthetics
  - Long credit (self protection) or short credit (buy protection)
  - CDS trade references a specific CUSIP or basket of CUSIP's
  - Traded generally remain outstanding to the term of the underlying reference obligation
  - National balance is not constrained by the size of the cash security, and amortizes in parallel with the reference security

- Trade details are documented in a confirmation
  - Confirm details credit events, settlement mechanics, etc. of trade
  - ISDA released a standardized confirm for trading RMBS and CMBS reference obligations in June 2005 (updated in January 2006)

- Documents needed to trade
  - Legal
    - ISDA Master Agreement for derivative trades and related supporting documents
    - Credit Support Annex
    - CDS confirm (for each trade)
  - Credit
    - Credit lines; Margin is required initially and ongoing based on the mark-to-market of the contract
    - Counterparty suitability

Please see the draft implementation for full details of trade's mechanics. All materials contained herein are for discussion purposes only and will be superseded by full legal documentation in the event the parties decide to enter into any transaction.
Overview of Structured Product Synthetics
Structured Product Single Name CDS Sample Terms

Underlying
- Designated specific reference obligations along with the initial face amount

Payments
- Fixed payments (paid by protection buyer): CDS premium, Act/360 basis, paid monthly / quarterly
- Floating payments (paid by protection seller): Upon the occurrence of a credit event, the applicable settlement amount
- Additional fixed payments (paid by protection buyer): Upon the occurrence of a reimbursement of any prior floating payments, the applicable reimbursement amount

Please see the draft transaction confirmation for full details of trade mechanics. All materials contained herein are for discussion purposes only and will be superseded by full legal documentation in the event the parties decide to enter into any transaction.
Overview of Structured Product Synthetics
Structured Product Single Name CDS Sample Terms (cont)

Notional Balance
- Notional balance is adjusted as follows:
  - Reduced by amortizations on the reference obligations
  - Reduced by writedown amounts and principal shortfalls
  - Reduced by physical settlement
  - Increased by writedown reimbursements

Credit Events Settlement Amount
- Failure to pay principal Percent of class principal not paid x notional
- Writedown Percent of class written down x notional
- Downgrade to CCC / Caa3 Physical settlement only
- Optional physical settlement after any credit event

The PAUG includes a provision for giving an option to the protection buyer to terminate
the contract in part or in whole by delivering the reference obligation. This feature, called
the "Physical Settlement Option," is triggered by any credit event

Please see the draft transaction confirmation for full details of trade mechanics. All materials contained herein are for discussion purposes only and will be
superseded by full legal documentation in the event the parties decide to enter into any transaction.
Overview of Structured Product Synthetics
Structured Product Single Name CDS Sample Terms (cont)

Interest Shortfalls
Should the reference obligation experience interest shortfalls, the CDS premium payable by potential buyer will be offset in part or in whole by such shortfall. Unpaid CDS premium can be reimbursed should deferred interest on reference obligation be repaid.

Coupon Step-up
A coupon step-up can be triggered for certain securities if such security is not called before a certain date before its final maturity. If the Step-up provisions in a PAUG CDS are elected, the protection buyer is given the option to terminate the contract if the coupon step-up occurs on the reference obligation to avoid paying higher premium. If the option is not exercised, the CDS contract will continue and the premium will be raised by an amount equal to the related step-up.

Please see the draft transaction confirmation for full details of trade mechanics. All materials contained herein are for discussion purposes only and will be superseded by full legal documentation in the event the parties decide to enter into any transaction.
Overview of Structured Product Synthetics

What is an Interest Shortfall?

- An interest shortfall occurs when current scheduled interest is not paid on the reference obligation.
- Interest shortfalls can be driven by either credit problems on the assets underlying the reference obligation or by caps embedded in the structure.
- For subprime RMBS and CMBS reference obligations, coverage of interest shortfalls by the protection seller can take the form of one of the following options:
  - **Cap Applicable - Fixed Cap**: Interest shortfall capped at the amount of CDS premium owed by the protection buyer in any period. Under this option, protection seller will not have to go out-of-pocket to cover interest shortfalls.
  - **Cap Applicable - Variable Cap**: Interest shortfall capped at an amount equal to LIBOR plus the CDS premium owed by the protection buyer in any period. Under this option, protection seller may have to go out-of-pocket to cover interest shortfalls.
  - **Cap Not Applicable**: Interest shortfall uncapped at the full coupon on the reference obligation. This trade can only be executed at a CDS premium rate equal to the margin above LIBOR or the associated benchmark rate in the coupon and therefore would likely involve upfront payments by either buyer or seller. Under this option, protection seller may have to go out-of-pocket to cover interest shortfalls.
- The specific form of the interest shortfall reimbursement amount can be selected by the 2 parties in the CDS transaction.
- Subject to pricing differences, based on the amount of interest shortfall risk covered.
- GS has observed meaningful two-way flows under the Fixed Cap option.
- Both the ABX.HE and CMX indices are Fixed Cap Applicable.

Please see the draft transaction confirmation for full details of trade mechanics. All materials contained herein are for discussion purposes only and will be superseded by full legal documentation in the event the parties decide to enter into any transaction.

The New ABX/CMBX Indices

- CDS IndexCo
  - Owns and maintains the DJ CDX family of credit default swap (CDS) indices
  - Between $25 and $50 billion of CDX notional volume traded daily
  - Introduced second generation products such as index tranches and index options

- CDS IndexCo will apply a defined set of rules in order to construct a portfolio representative of each structured product sector's current market
  - ABX.HE began trading on January 19, 2005, and CMBX.NA on March 7, 2006

The ABX and CMBX Indices

The ABX.HE and CMBX Indices

Highlights

- ABX.HE references 20 HEL ABS obligations and CMBX references 25 CMBS obligations
- The indices comprise five subindices: AAA, AA, A, BBB and BBB-
- Each subindex, in turn, includes 20 Subprime Home Equity bonds or 25 CMBS securities
  - The reference obligations in each subindex comprise bonds at different rating levels
  - Bonds in each subindex are selected from the same set of reference entities
- Every six months, the Indices will be reconstituted using the same criteria
- On January 19, 2006, the ABX.HE began trading
  - As of March 27, we estimate that more than $30.0bn of trade notional has been executed on the ABX.HE indices
  - Goldman has executed more than $17.0bn of trade notional
- On March 7, 2006, the CMBX Index began trading

Trading the ABX.HE and CMBX Indices

XYZ Sells Protection on $100mm on ABX.HE.A.06-1

- The Fixed Rate on ABX.HE.A.06-1 Index is 54bp per annum, payable monthly
- The mechanics described below work similarly for the ABX.HE and CMBX Indices

**Fixed Rate Payee (Protection Buyer)**
- Pays 54bp per annum monthly to counterparty on notional amount
- Notional amount will decline over time based on the reference obligations amortization
- Receives payments from the Floating Rate Payee in the event of the following:
  - Interest Shortfall (capped at fixed rate)
  - Principal Shortfall
  - Writedown

**Floating Rate Payee (Protection Seller)**
- Receives 54bp per annum monthly to counterparty on notional amount
- Notional amount will decline over time based on the reference obligation’s amortization
- Pays Fixed Rate Payee in the event of the following:
  - Interest Shortfall (capped at fixed rate)
  - Principal Shortfall
  - Writedown

- Pays in the event of the following:
  - Interest Shortfall Reimbursement Amount
  - Principal Shortfall Reimbursement Amount
  - Writedown Reimbursement Amount

Note: All financial information and other data shown are for illustrative purposes only and are not intended to represent an actual transaction.

Credit Event (Writedown)

**XYZ Sells Protection on $100mm on ABX.HE.A.06-1**

Credit Event – Writedown

- Reference Obligation Original Factor = 1.0; Current Factor = 0.7
- A Writedown occurs on a Reference Obligation, for example, in year 3, in the amount of 1% of its current principal balance
  
  \[ \text{Writedown} = (\text{Current Factor} \times \text{Weighting} \times \text{Loss}) \times 100 \times 0.01 \times 0.035 = 0.035\% \]

- Protection Seller pays to Protection Buyer a floating amount \((0.035\% \times 100\text{MM}) = $35,000\)

- Index notional amount on which premium is paid reduces by an additional 0.035%, in addition to the principal payments of the month

- Following the Credit Event, protection seller receives premium of [70] bps on the remaining index notional amount until the earlier of the next credit event or scheduled termination

- The mechanics described above work similarly for the ABX.HE and CMBX Indices

Note: All financial information and other data shown are for illustrative purposes only and are not intended to represent an actual transaction.

GS Transactions in ABX.HE Indices\(^1\)
From 01/19/2006 to 05/11/2006

\(^1\) Source: Goldman Sachs
Trade Ideas using the ABX.HE Indices

- Bearish view on housing/consumers:
  - Customers with this view have been selling the Index (shorting credit; buying protection) at the A, BBB, and BBB-level

- Credit steepener trades:
  - View is that credit curve will steepen with adverse developments for subprime credits
  - Fund shorts by selling protection higher in the capital structure
  - Most common: BBB vs BBB, BBB vs AAA

- Transition Management:
  - Investors with cash to invest (or risk to add) have used the index to gain exposure to home equity spreads while they ramp up single-name or cash positions
  - Investors can scale out of the index as they put new cash to work (or add risk)

- ABS Basis trades:
  - Trading single names or cash vs the Index
  - Can structure positive carry trades or express leveraged views on particular names
  - Index arbitrage

Note: Past results are not indicative of future performance.
Trade Ideas using the ABX.HE Indices

Continued

- Hedging mortgage credit risk:
  - Originators have sold the index across the capital structure to hedge their origination pipelines
  - Originators or investors with positions in residuals have sold the BBB and BBB- Indexes to mitigate risk
  - Some originators view BBB/BBB- protection as cheap to mortgage insurance

- ABX vs corporate credit:
  - Hedge funds have traded BBB/BBB- vs correlated corporate credit such as consumer portion of CDX or HVOL

ABX.HE BBB- vs OTR CDX.IG

ABX.HE BBB- vs OTR CDX.HVOL

(1) Note: results are not reflections of future performance, indicative as of this date.
Trade Ideas using the ABX.HE Indices

Continued

- ABX vs. Equities:
  - Equity accounts and macro hedge funds have used the Index (primarily BBB and BBB-) to hedge the residual risk in originator stocks
  - Short is funded by high dividend yield
  - ABX and equity housing indices such as the Philadelphia Housing Index (HGX: index) have become more correlated

![ABX.HE BBB vs S&P 500](chart)

(i) Note: Past results are not indicators of future performance. Indicative as of 6/30/05.
Trade ideas using the ABX.HE indices

- Trading:
  - Significant interest/inquiry in trades.
  - Standardization, pricing, and liquidity should take time to evolve.

- Options:
  - Hedgers have expressed interest in options strategies to mitigate risk.
  - Similar in construction to options on CDX currently traded.

Structured Credit Tranches
Benefits of Single-Tranche Synthetic Securitizations

- Increasing liquidity in the single name CDS market enables creation of pure bespoke synthetic structured product CDOs
- Investors can build customized synthetic structured product portfolios
  - Not limited by new issuance calendar and bond allocations
  - Not limited by cash bonds in dealer inventory
  - Customized by sector (e.g., RMBS, CMBS, ABS), rating, vintage, servicer, etc.
- Investors can tranche synthetic portfolio to meet various investment objectives
  - Rating of investment
  - Degree of term leverage
  - Spread
  - Currency denomination

- Credit-linked notes issued in such synthetic transactions are usually uncapped and cannot defer interest, even though many of the underlying reference obligations may have embedded caps and/or may be permitted to defer interest
Structured Credit Tranches
Portfolio Selection Considerations

- Synthetic transactions have tended to focus on the sectors of the US structured products market that have either experienced or are expected to experience the heaviest activity in the single-name structured product CDS market
  - Prime, Alt-A and Subprime RMBS
  - US CMBS Conduits
  - Structured Product Cashflow CDOs and CLOs
  - Consumer ABS
- Most transactions are diversified across sectors
  - It is possible to structure single-sector transactions (i.e., 100% subprime RMBS)
- Portfolios referencing AAA through BB securities can be created, although the best liquidity is in the double-A through triple-B rated layer
- Most synthetic transactions focus on 2004, 2005 and 2006 vintage structured finance
- Reference portfolio can be static or dynamic, subject to constraints customized to investor requirements
Structured Credit Tranches
Tranche and Structural Considerations

- After selecting a reference portfolio (or appropriate assets in the case of a dynamic portfolio), ratings can be assigned to particular risk layers ("tranches")
- Investors can select the tranche which best meets their investment guidelines with respect to ratings and leverage
- Structure and cash flow mechanics are very similar to corporate single-tranche synthetics
- Transactions run to the legal final of the underlying reference obligations (typically 40 yrs)
  - Most tranches will have a 7-12 year expected weighted average life
  - The actual principal amortization of the transaction tracks that of the reference portfolio
  - The average life will reflect any borrower prepayments/extensions, credit performance, and the underlying structure of the reference obligations
- Tranches are usually not subject to caps which may be embedded in the underlying reference obligations, although the cost of such caps and other embedded options will be reflected in the spread of each tranche
- Most transactions include an optional call exercisable after a non-call period
- For a customized rated transaction, investment size generally needs to be $50 million or more to justify the fixed costs incurred
- Goldman can offer tranches in liquid currencies other than US dollars
## Structured Credit Tranches

### Overview of Credit-Linked Note Structure

- Investor purchases a credit-linked note (CLN) issued by an SPV issuer (the “issuer”), the proceeds of which are used to collateralize the notional amount of a credit default swap (CDS) referencing layers of risk of the reference portfolio.
- GS acts as protection buyer, while the issuer (and indirectly, the investor) acts as protection seller.
- Under the CDS, Goldman pays a running premium which covers the spread paid to the investor as well as upfront and ongoing expenses of the CLN issuer.
- Investor earns current interest at the stated floating coupon, accrued on the outstanding principal balance of the CLN.
- The junior-most tranche of CLN may have credit enhancement via a subordinated first loss amount.
- If a credit event occurs in respect of a reference obligation, a loss amount is calculated.
- Any such loss amount is deducted from the first loss amount remaining, if any, after which:
  - The principal of the junior-most CLN is written down.
  - Investor loses principal by the amount of such write down.
  - Goldman is paid protection under the CDS equal to the amount of such write down.
- CLN tranches are written-down by loss amounts in reverse sequential order of priority.
- Principal amortization (in the absence of credit events) tracks that of the reference portfolio.
Structured Credit Tranches

Example Credit-Linked Note Structure Diagram
ABACUS Program
Overview of ABACUS Transactions

- ABACUS is the GS brand name for single-tranche CLN issuances referencing portfolios comprised entirely of structured products.
- GS completed 12 pure bespoke single-tranche structured product synthetics since 2004.
- Since 2004, GS has distributed globally approximately $3.3bn of single-tranche CLNs to a variety of buy-and-hold investors seeking customized exposures to the US structured product market.
- Through CLN issuance and tranched CDS trading, GS traded approximately $21bn notional amount of structured product credit risk.
- Select sample transactions:
  - ABACUS 2005-4: $6.0bn AAA CMBS transaction
  - ABACUS 05-CB1: $750mm third party managed transaction
  - ABACUS 2005-7: $100mm levered supersenior transaction
ABACUS Program
ABACUS 2005-4: a Static “AAA” CMBS Transaction

- $6.0 billion static portfolio of 30 equally sized triple-A CMBS reference obligations
- GS issued $600mm of CLNs in six bespoke tranches rated by S&P and Moody’s
- Transaction illustrates a recurring theme of taking levered exposure to a portfolio of low leverage credit risks
- Transaction that enables investors to take exposure to the AAA US CMBS conduit market on a floating rate basis at attractive spreads compared to the underlying risk
- GS is currently working on similar transactions referencing portfolios of junior “AAA” CMBS securities and “AA” CMBS securities

Illustrative only—diagram not to scale
ABACUS Program
ABACUS 2005-2: a Diversified Single-A Multi-Sector Transaction

- $1.25 billion portfolio with 100 reference obligations
- GS issued $212.5mm of CLNs in five bespoke tranches rated by S&P and Moody's
- "A2" reference portfolio weighted average rating
- Portfolio composed of Asset-Backed (10%), CMBS (20%), RMBS (50%) and CDO Cashflow securities (15%)
- Investors take levered exposure to a diversified portfolio of single-A rated structured product securities with credit enhancement protection. Such exposure is rarely available in the cash ABS CDO market.
- Protection buyer has the right to substitute reference obligations in the reference portfolio subject to strictly defined rules customized by investors
- Substitution flexibility enables (a) GS to more easily manage its correlation book and (b) GS to pay significantly more spread to investors compared to the benchmark cash ABS CDO market.
ABACUS Program

ABACUS 2005-CB1: a Managed Subprime RMBS Transaction

- $750 million reference portfolio
- GS issued $238mm of CLNs in eight bespoke tranches rated by S&P and Fitch (excluding Super Senior, B8 – rated and first loss tranches that were not offered)
- 481 WARF Reference Portfolio (Baa2/Baa3)
- C-BASS serves as Portfolio Advisor
- The Portfolio Advisor selects, monitors the Reference Portfolio and has defensive management rights with respect to the reference portfolio
- GS is working with first tier portfolio managers to bring pure bespoke managed structured product synthetic CDO transactions in a format similar to the ABACUS 2005-CB1 transaction
ABACUS Program
ABACUS 2005-CB1: a Managed Subprime RMBS Transaction

Collateral Distribution
- RBMS - AAA: 2.0%
- ARS - Student Loan: 2.0%
- ARS - Credit Card: 3.3%
- CMBS - Credit: 16.0%
- RBMS - AAA: 74.0%
- RBMS - BB: 23.0%

Rating Distribution
- AA+: 6.0%
- AA: 1.3%
- A+: 16.7%
- A: 6.0%
- BBB+: 16.0%
ABACUS Program
ABACUS 2005-7: a Leveled Super-Senior Transaction

- First ever rated levered supersenior transaction referencing structured product credit risk
- Transaction referencing the 10% - 100% supersenior tranche off a portfolio consisting of 30 equally sized triple-A CMBS reference obligations
- AAA/AAA (S&P/Fitch)
- GS issued $130mn credit linked notes with a 10x leverage multiple, transferring the credit and spread risk of $1.3bn notional supersenior tranche
- Transaction uses spread triggers referencing the reference portfolio average CDS spread
  - If the average reference portfolio spread breaches an unwind trigger, investor can either
    - Unwind the transaction at market, or
    - Purchase additional CLNs in order not to crystallize its mark to market loss
  - Several triggers structured, which are "AAA" remote, with gradual deleveraging
- ABACUS 2005-7 enables a broad set of capital market investors to access supersenior credit risk, which used to be a risk available only to insurance companies
- GS is working with rating agencies to standardize the approach in order to replicate the levered supersenior format to other asset classes and other rating categories
Case Study: Super Regional

- **Account Profile:** Super Regional creating billion dollar structured products portfolio
- **Organizational Structure:** Asset purchasing decisions centralized under structured products portfolio management team
- **Portfolio:**
  - Purchased AAA tranche of ABACUS 2005-04
    - Static triple-A CMBS transaction
    - 30 equally weighted triple-A reference obligations
- **Process:** Decision subject to committee review
- **Transaction:**
  - Identified need to incorporate commercial real estate assets to concentrate residential exposure
  - Looked to take levered exposure to portfolio of high quality credits
- **Conclusion:** Unwound trade to capture gains via roll down benefit

HYPOTHETICAL ILLUSTRATIONS AND PRO FORMA INFORMATION

These materials contain statements that are not purely historical in nature. These include, among other things, hypothetical illustrations, sample or pro forma portfolio structures, portfolio composition, scenario analysis of returns and proposed or pro forma levels of diversification or sector investment. These hypothetical illustrations of returns illustrate a range of potential outcomes based upon certain assumptions. Such potential outcomes are not a prediction by the Issuer, Goldman Sachs or any of their respective affiliates of the performance of the securities described herein. Actual events may differ from those assumed and actual results may not be realized or materialized or those reported. Actual and realized returns may be materially higher or lower than those projected. Actual events may differ from those assumed and actual results may not be realized or materialized or those reported. Actual and realized returns may be materially higher or lower than those projected.

Actual events may differ from those assumed and actual results may not be realized or materialized or those reported. Actual and realized returns may be materially higher or lower than those projected.

Prior Investment Results

Any prior investment results or returns are presented for illustrative purposes only and are not indicative of the future returns on the securities or obligations of the Issuer.

Under no circumstances is this presentation to be used or considered as an offer to sell, or as solicitation of any offer to buy, any security. Any such offering may be made only by the Offering Circular. The information contained herein is in summary form for convenience of presentation. It is not complete and it should not be relied upon as such.

No person has been authorized to give any information or to make any representations other than those contained in the Offering Circular regarding the offering of any security described herein. An investment in the securities described herein, when and if offered, will involve substantial risk. Prior to investing, prospective investors should carefully consider the risks, which will be described in the Offering Circular, and should consult their own investment advisors, tax, legal, accounting and other regulatory advisors. Due to the risks involved in the Securities, investors should be prepared to suffer a loss of their entire investment.
Risk Factors

Prospective Investors Should Read the Offering Circular for a More Complete Description of Risk Factors Relevant to a Particular Investment

- Purchasing the Securities involves certain risks. Prospective investors should carefully consider the following factors, as well as the risk factors included in the final Offering Circular, prior to purchasing the Securities. The following is not intended to be an exhaustive list of the risks involved in the Transaction.

- The final Offering Circular will include more complete descriptions of the risks described below as well as additional risks. Any decision to invest in the Securities described herein should be made after reviewing the Offering Circular, conducting such investigations as the investor deems necessary and consulting the investor's own legal, accounting and tax advisors in order to make an independent determination of the suitability and consequences of an investment in the Securities.

Leveraged Credit Exposure to Reference Entities

- Investors will have leveraged exposure to the credit of a number of Reference Entities because the notional amount of the Reference Portfolio is significantly larger than the principal amount of the Notes. Following either (1) the delivery of a Credit Event Notice by Goldman Sachs in relation to a Credit Event with respect to a Reference Entity and the satisfaction of the other Conditions to Settlement or (2) removal of a Credit Risk Reference Obligation by the Portfolio Advisor and the determination of a related Discount Amount, the outstanding principal amount of the investment may be reduced. Investors in the Securities may suffer significant reductions in their outstanding principal amounts. The maximum loss for investors is the full principal amount.

No Legal or Beneficial Interest in Obligations of Reference Entities

- Participation in the Transaction does not constitute a purchase or other acquisition or assignment of any interest in any obligation of any Reference Entity. Neither the Issuer nor Investors will have recourse against any Reference Entity. Neither the Issuer nor any other entity will have any rights to acquire from Goldman Sachs any interest in any obligation of any Reference Entity, notwithstanding any reduction in the principal of the relevant class with respect to such Reference Entity. Neither the Issuer nor any investor will have the benefit of any collateral delivered by any Reference Entity or any right to enforce any remedies against any Reference Entity.
Risk Factors

Tax/Regulatory Impact

- There may be a tax or regulatory impact of investing in the Notes. Goldman Sachs does not provide any opinion on these issues. Any investor should consult with its own advisers prior to investing in the Notes.

Limited Liquidity of the Transaction

- There is currently no market for the Securities. There can be no assurance that a secondary market for the Securities will develop or, if a secondary market does develop, that it will provide the holder of the Securities with liquidity, or that it will continue for the life of the Securities. Moreover, the limited scope of information available to the investors regarding the Reference Entities, the nature of any Credit Event, including uncertainty as to the extent of any reduction to be applied to the notional amount of each class if a Credit Event has occurred and the amount of the relevant reduction in the notional amount has been determined, and the uncertainty regarding any Credit Risk Reference Obligation, including the ability of the Portfolio Adviser to remove such obligations from the referencing portfolio at any time and the extent of any reduction to be applied to the notional amount of each class if and when such Credit Risk Reference Obligations is removed, may further affect the liquidity of the Securities. Consequently, any investor in the Securities must be prepared to hold such Securities for an indefinite period of time or until final maturity.

Mark-to-Market Risk

- Investors are exposed to considerable mark-to-market volatility following changes in any of the following: spreads of the credits in the Reference Portfolio, comparable CDO spreads, ratings migration in the Reference Portfolio, ratings migration of the Securities, ratings migration of the Collateral of issuers or providers thereof, and Credit Events in the Reference Portfolio (and hence reduction of subordination). These will be reflected in mark-to-market valuations which are likely to be more volatile than an equivalently rated unsecured investment.

Credit Events may vary from Defaults

- Historical default statistics may not capture events that would trigger a Credit Event as specified under the Notes. All Credit Event definitions will be defined in the final legal documents and will be governed by the 2003 ISDA Credit Derivatives Definitions and any amendment or supplement thereto.

Credit Ratings

- Credit ratings represent the rating agencies' opinions regarding credit quality and are not a guarantee of quality. Rating agencies attempt to evaluate the safety of principal and interest payments and do not evaluate the risks of defaults in market value. Accordingly, the credit ratings may not fully reflect the true risks of the Transaction. Also, rating agencies may fail to make timely changes in credit ratings in response to subsequent events, so that an issuer's current financial condition may be better or worse than a rating indicates.
Risk Factors

Rating Volatility

Rating agencies may from time to time change the ratings of the Notes (or the Reference Entities in the portfolio) even if no losses have been incurred under the notes due to changes in rating methodology or rating migration of the Reference Entities in the portfolio. Due to the leveraged nature of the transaction, the rating may be significantly more volatile than corporate debt with an equivalent credit rating.

Certain conflicts of interest relating to Goldman Sachs and its Affiliates; no reliance

Goldman Sachs does not provide investment, accounting, tax or legal advice and shall not have a fiduciary relationship with any investor. In particular, Goldman Sachs does not make any representations as to (a) the suitability of purchasing Securities, (b) the appropriate accounting treatment or possible tax consequences of the transaction as described herein (the “Transaction”), (c) the future performance of the Transaction either in absolute terms or relative to competing investments, investors should obtain their own independent accounting, tax and legal advice and should consult their own professional investment advisor to ascertain the suitability of the Transaction, including such independent investigation and analyses regarding the risks, security arrangements and cash flows associated with the Transaction as they deem appropriate to evaluate the merits and risks of the Transaction.

Goldman Sachs may, by virtue of its status as an underwriter, advisor or otherwise, possess or have access to non-public available information relating to the Collateral, the issuer(s) thereof, the Reference Entities and/or the obligations of the Reference Entities and has not undertaken, and does not intend to disclose, such status or non-public information in connection with the Transaction. Accordingly, this presentation may not contain all information that would be material to the evaluation of the merits and risks of purchasing the Securities.

Goldman Sachs does not make any representation, recommendation or warranty, express or implied, regarding the accuracy, adequacy, reasonableness or completeness of the information contained herein or in any further information, notice or other document which may at any time be supplied in connection with the Transaction and accepts no responsibility or liability therefor. Goldman Sachs is currently and may be from time to time in the future an active participant on both sides of the market and have long or short positions in, or buy and sell, Securities, commodities, futures, options or other derivatives identical or related to those mentioned herein. Goldman Sachs may have potential conflicts of interest due to present or future relationships between Goldman Sachs and any Collateral, the Issuer thereof, any Reference Entity or any obligation of any Reference Entity.

Goldman Sachs will act as the initial purchaser for all classes of Notes, and affiliates of Goldman Sachs will act as the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider and the Collateral Disposal Agent.
Risk Factors

Risks Associated with Responsibilities of the Portfolio Advisor

- The exercise of responsibilities of the Portfolio Advisor by the Portfolio Advisor, particularly in the form of credit risk remediation affecting the subordination of the Notes, can potentially (a) increase the risk of the investment by reducing the subordination and hence increase the probability of suffering an actual loss from a subsequent removal of a Credit Risk Reference Obligation or a Credit Event; (b) cause a rating downgrade of the Notes or (c) increase the mark-to-market volatility of the Notes.

Certain conflicts of interest relating to the Portfolio Advisor and its Affiliates

- The Portfolio Advisor and its Affiliates may invest or invest for the account of others in debt obligations that would be appropriate as Reference Obligations and Collateral Securities and have no duty in making such investments or to act in a way that is favorable to the Issuer or the Noteholders. The Portfolio Advisor and its Affiliates may have economic interests in, or other relationships with, issuers in whose obligations or securities are Reference Obligations and Collateral Securities.

- The Portfolio Advisor, its Affiliates or any account managed by any of the foregoing may make and/or hold an investment in an Issuer’s securities that may be pari passu, senior or junior in ranking to an investment in such Issuer’s securities made and/or held by the Issuer or in which partners, security holders, officers, directors, agents or employees of the Portfolio Advisor, its Affiliates or any account managed by any of the foregoing serve on boards of directors or otherwise have ongoing relationships. Each of such ownership and other relationships may result in securities laws restrictions on transactions in such securities by the Issuer and otherwise create conflicts of interest for the Issuer.

Reliance on Creditworthiness of the Collateral

- The ability of the Issuer of the Notes to meet its obligations under the Notes will depend on, amongst other things, the receipt by it of payments of interest and principal from the Collateral. Consequently, investors are exposed not only to the occurrence of Credit Events in respect to any of the Reference Entities and/or the removal of Credit Risk Reference Obligations from the reference portfolio, but also to the ability of the Collateral or the Issuer or provider thereof to perform its obligations to make payments to the Issuer of the Notes. Although at the time of purchase, such Collateral will be highly rated, there is no assurance that such rating will not be reduced or withdrawn in the future, nor is a rating a guarantee of future performance.
Risk Factors

Creditworthiness of Goldman Sachs

- Premium payments will be required to be made by Goldman Sachs throughout the life of the transaction. Consequently, investors are exposed not only to the occurrence of Credit Events in relation to any of the Reference Entities, but also to the ability of Goldman Sachs to perform its obligations to make payments to the Issuer of the Notes, amongst other secured parties.

Historical Performance does not Predict Future Performance of Transaction

- Individual Reference Entities may not perform as indicated by historical performance for similarly rated credits.
- Furthermore, even if future credit performance is similar to that of historic performance for the entire market, investors must make their own determination as to whether the Reference Portfolio will reflect the experience of the universe of rated credits. Hence, the frequency of Credit Events experienced under the Notes may be higher than that of historical Credit Event rates, and that of future Credit Event rates for the entire market.
- The nature of, and risks associated with, the Issuer’s future investments may differ substantially from those investments and strategies undertaken historically by such persons and entities. There can be no assurance that the Issuer’s investments will perform as well as the past investments of any such persons or entities.

Projections, Forecasts and Estimates

- Any projections, forecasts and estimates contained herein are forward looking statements and are based upon certain assumptions that the Issuer considers reasonable. Projections are necessarily speculative in nature, and it can be expected that some or all of the assumptions underlying the projections will not materialize or will vary significantly from actual results. Accordingly, the projections are only an estimate. Actual results may vary from the projections, and the variations may be material.
Remember Paulson doesn’t really care abt us placing bbb risk. They are mostly looking at
higher rated layers of risk

Guys I think we need to be more mindful of distribution effectiveness if our goal is to
place further down. So not sure aladin or dcm look highly. We know that if we show us
with gcc or hbk (not name 2) in for 15m single-a’s on the wire plus maybe
triple-A’s. This does not cannibalize our other distribution because they like those two
managers so much. Perhaps we should focus on hbk since we have lower chance to do other
stuff with them.

Subject: RE: Paulson

Am thinking also Aladin, DCM, Greywolf, and... Well, why don't we try GCC as well, I
think it's a low delta but might be worth trying. Let's brainstorm as that we can identify
a couple of managers that:

-- will be ok acting as portfolio selection agent
-- will be flexible w.r.t. portfolio selection (i.e. ideally we will send them a list of
200 bad-rated 2006-vintage RMBS bonds that fit certain criteria, and the portfolio
selection agent will select 100 out of the 200 bonds)
-- will be ok working for at most $[50K] p.a. for 3 years, given a 02m transaction where
we distribute CLNs between 5% attach and 35% detach

Subject: RE: Paulson

There are more managers out there than just GSC / Factor. The way I look at it, the
easiest managers to work with should be used for our own names. Managers that are a bit
more difficult should be used for trades like Paulson given how avid Paulson seems to be
(i.e. I'm betting they can give on certain terms and overall portfolio increase).

GS MBS 0005022786
Q: Could you again just tell us how those names were pulled together?
A: Okay. They were pulled together by, you know, through discussions, through a variety of discussions between our desk, myself specifically, and Paulson and Paolo. Pelligrini and Siian, looking at, you know, securities issued, you know, since the beginning of 2006, which had specific, you know, criteria or specific concentrations in mortgages from, you know, interest-only mortgages to, you know, mortgages with a certain loan-to-value ratio, et cetera.

BY MR. ANTHONY:
Q: And in trying to sort of narrow this universe down, what were you looking for? Sort of what was the ultimate end to try to use these characteristics to find?
A: We didn’t narrow it down. We basically took the entire universe of subprime RMBS and applied a couple filters and that was it.
Q: Okay.
A: There was no narrow down.
Q: And these filters were designed to do what?
A: Well, I believe at that time that Paulson felt that these obligations or these type of characteristics may, you
24 know, be, you know, weaker from the credit quality standpoint
25 than other obligations that did not have these
0049 characteristics.
Q. In this introductory paragraph, I guess you summarize the transaction and the offering to Paulson as protection, and the last sentence reads, Through this arrangement, Goldman is effectively working an order for Paulson to buy protection on specific AC-1 capital structure at or inside specific spread levels.

A. What did you mean by that?

Q. The last sentence.

A. Last sentence. I think the order here is not used as a sort of legal concept but more the fact that Paulson had given us the inquiry to actually buy protection on layers of risk so that it would lead to our obligations and we were working towards, you know, hedging our risk by, you know, reoffering that risk in the market.

Q. It says, At or inside specific spread levels.

A. What’s that mean?

Q. That means that Paulson hedged, you know, pricing...
objectives. They were comfortable buying protection only to
the extent that the spreads they were paying were less than a
certain level.

BY MR. LEASURE:

1 Q So did you have to match the spreads that Paulson
2 was willing to pay with the spreads at which the CDO
3 liabilities would be priced?
4 A No. In fact, I think the -- I mean, we bought
5 protection at certain spread levels and we reoffered at
6 different spread levels to --

BY MR. ANTHONY:

8 Q But your profit was the difference between those
9 two, right?
10 A The profit was the difference between those two. I
11 want to say no, because, as I mentioned, Goldman Sachs was
12 not losing money on these transactions.
13 Q Well, I mean conceivably, right? And I think that
14 point, you know, I think we've yet to establish that
15 definitively, but it's your testimony.
16 But, I mean, you obviously didn't go into this
17 transaction with the intention of losing money, right? So
18 the way in which you believed you would make money on this
19 transaction was by offering a protection to Paulson at one
20 spread and offering the protection in the market at a higher
21 spread and keeping the difference, is that right?
22 A The opposite way around. I think, you know, when
23 you say offering protection --
24 Q I'm sorry. Yes, you're right.
25 A Yes, so there was -- as far as I remember, when we

were buying protection from the market, you know, we were
hoping to reoffer that protection to Paulson at a wider
spread. It may have been at some point some, you know,
formula at which, you know, we were discussing at which level
we were going to reoffer that protection, but I don't
remember the specifics of that.

PS1-Paulson-04 (Petagrin/Depo)-0002
Q. Well, we've alluded to the Abacus earlier. I wanted to sort of see if you could just tell us about the Abacus 2007 AC 1 deal. Just walk us through how it started and what you know about it.

A. I mean essentially it's the same idea. We had Credit Opportunity II, and we needed to sort of buy protection for Credit Opportunities II. We looked at what was available in the market and what Goldman told us what they would be able to do; a deal similar to the deal we had done in 2006. But they needed to have a collateral selection agent.

And essentially the idea was that even though we didn't want to have the type of sort of expense and sort of complication of a managed deal, Goldman felt that they would be more comfortable if there was a CDO manager who selected the initial portfolio with us so that there was a little more sort of due diligence done rather than simply relying on the blanket criteria that we had been able to rely on in the past.
Footnote Exhibits - Page 4743

1 BY MR. ANTHONY:

2 Q What difference did it make to Goldman? Why did
3 they want this?

4 A Well I think it was a marketing issue. So it was a
5 matter of from what I understood, sort of investors
6 feeling more comfortable if they had a collateral selection
7 agent than if they didn’t.

8 BY MS. KELLY:

9 Q How did you come to that understanding?

10 A Because the told me.

11 Q Who?

12 A I presume Fabrice.

13 Q Did he mention any particular investors or just
14 generally investors would want an agent? A portfolio
15 selection agent.

16 A He never mentioned any particular investors. So
17 let’s say it was a matter of sort of investors at that point
18 in time given market conditions. So it would be a general
19 statement.

20 BY MR. ANTHONY:

21 Q What was it about how the market had changed that
22 sort of made this more important?

23 A Well people were sort of not as sure that subprime
24 was going to do as well as they thought it was going to do
25 sort of a few months earlier. So it was harder with the

Unsigned

PSI-Paulson-04 (Pellegrini Depo)-0063
Footnote Exhibits - Page 4744

Q Then how did the inclusion of a collateral selection agent change that?
A Well because essentially having a collateral selection agent would mean that there is somebody with a reputation in the business looking at the securities and essentially agreeing to the composition of the portfolio. So I assume if you were an investor, you would take some comfort in that.

BY MR. MUOIO:

Q Now Fabricè's last name is Tourre.
A TOURRE.

Q And did you discuss with Mr. Tourre how you and the collateral selection agent would sort of collaborate in choosing the reference portfolio? What that process would be?
A Not sort of in any formal way.
Q In any way? I mean how the two of you would work together?
A I mean basically I think we had already submitted a target portfolio. So they would comment, say what they wanted to take out, take their comments and make counterproposals. It would be like an interview process until we got a portfolio that we were all satisfied with.

Q Is this the first time you sort of done something

Unsigned

PSJ-Paulson-04 (Pelligrini Depot)-0084
Footnote Exhibits - Page 4745

1 like that?
2 A Yes.
3 Q And again, this was an idea that you came up with
4 or that Mr. Tourre came up with?
5 A I think it was an idea that he came up with. I
6 think it was just a general sort of trend in the market.
7 Because people kind of liked the idea of sort of portfolio of
8 subprime mortgages, liked the idea of static portfolios and
9 sort of felt that there was still some value that could
10 be provided by traditional sort of CDO managers by helping
11 select the initial portfolio.

Redacted by the
Permanent Subcommittee on Investigations

Unsigned
PSI-Paulson-04 (Pellegreni Depo)-0035
Q. I get that. But then at some point I think, if I understood you correctly this morning, Mr. Tourre suggested that it would be easier to market or to find sort of a counterparty to your short trade if there was a portfolio selection agent involved. Right?

A. Right.
Footnote Exhibits - Page 4747

1 Q Did you ever have any sort of engagement letter
2 with Goldman that described the mechanism for your short
3 position?
4 A Yes. So I happened to have seen recently the
5 engagement letter for the first Abacus trade. I don't
6 believe there was an engagement letter for the second Abacus
7 trade.
8 Q Why is that?
9 A Because Goldman got sort of comfortable that sort
10 of it would execute. You know, they sort of didn't feel the
11 need to formalize an engagement letter.
12 Q So did Goldman and Paulson & Co. have any
13 discussions about or back and forth in terms of the language
14 of an engagement letter at all with respect to the ACA AC 1
15 deal?
16 A Sort of for the ACA transaction I'm not sure. I'm
17 not sure. I mean we definitely discussed the parameters of
18 their compensation. So we had sort of a strike level for the
19 sort of premium that we would pay on the different tranches.
20 And there was sort of a formula that tied their compensation
21 to sort of kind of the spread that they sort of presented to
22 or that they would present to us. Frankly, whether they did
23 achieve those spreads or different spreads. So once we kind
24 of agreed on those parameters, I think they were containing
25 some Excel files. I think that that was pretty much all that

Unsigned

PSI-Paulson-04 (Pellegrini Depo)-0118
was involved in the sort of discussion of fees for Goldman on this transaction.
Q. You've just been handed what's been marked Exhibit 29. For the record, I'll identify it as a one page document Bates stamped Paulson Abacus 254458. It's an e-mail from you to Shah Shu and Rob Lerner. The subject line is "Priority Task". What is this e-mail? Or what is Exhibit 29?

A. It's just sort of asking them to come up with a portfolio, as I described to you earlier, of RMBS securities issued in 2006 with more than 80% adjustable rate mortgages and with a weighted average FICO score between 600 and 650. And finally, with a deal size in excess of $750 million. And

Unsigned
the previous comment is that we got 111 million of subscriptions, so we needed to sort of buy protection to essentially invest that 111 million. And so we needed to put out a list of offers wanted in competition in addition to sending out the sort of list of obligation for sort of potential CDO similar to the one with that was later done with ACA and send them to Cohen. They are sort of three CDO managers.

Q So was this for a different deal than the one that ACA ended up being the portfolio selection agent? Or were they intentioned to be the portfolio selection agent for the Abacus deal?

A To tell you the truth, I forget now. Because I think that Cohen is actually both a broker dealer and a CDO manager. And sort of there was some sort of conversation to each of us following up. I think that Petra is one of the CDO managers to whom we were introduced by Merrill Lynch. And finally Tricadia is a unit of Mariner where I worked. And so I sent them sort of a proposed portfolio.

BY MR. ANTHONY:

Q Now this $111 million I think that you had talked about a number of times on the Opportunity Fund II was. With this much money would you be doing one CDO? Two CDOs?

A I think that this was kind of like you know, basically the idea is that with the $111 million we would be Unsigned

Footnote Exhibits - Page 4751

1 able to spend approximately 12% of that. So there would be
2 $13 million. So sort of any kind of transaction where the
3 cost of protection was less than $50 million a year would
4 sort of be feasible with this kind of money.
5 Q And just for the you know, a billion dollars at
6 120 something basis points was your average cost of
7 protection I think Abacus. Is that right? Roughly.
8 A I don't remember. It sounds like a reasonable
9 number.
10 Q You know, 10, $12 million a year for a billion
11 dollars of protection?
12 A Yes.
13 Q So then this implies that there is enough is
14 subscriptions for only one billion dollar CDO?
15 A Yes.
16 Q So is it fair to then say that here you're looking
17 for someone it roughly looks like it was the same time
18 that you were talking to Goldman. So you're talking to a
19 number of people about doing one CDO?
20 A Yes.
21 Q And then what was it that had you go with Goldman
22 and ACA over Cohen, Petra, Tricadia, Merrill Lynch, Morgan
23 Stanley, Deutsche Bank?
24 A As I said, ACA was the only one that kept going.
25 These kind of fell by the wayside.

Unsigned
Q: You had testified earlier that it was Goldman's idea to have a portfolio selection agent, correct?
A: Right.
Q: And you just as well could have done without one. Correct?
A: Absolutely. Yes.
Q: So why would you care if ACA relied on your analysis as opposed to their own?
A: Well because I think that if they sort of relied on our analysis essentially it would place some responsibility on us.

BY MR. MUOIO:
Q: Your portfolio analysis was designed in large part to identify bonds that weren't going to perform, right?
A: Right.
Q  Because you wanted to short those bonds?
A  Right.
Q  And as far as you were aware, the focus of ACA's
analysis of the portfolio was different, right?
A  Exactly.
Q  In fact, their aim was in many ways opposite
your's?
A  It was exactly opposite our's.
Q  They were trying to identify bonds that in their
view were going to perform.
A  Exactly.

Am thinking also Aladdin, SRGM, Greypool, and... Well, why don't we try USC as well. I think it's a low delta but might be worth trying. Let's brainstorm so that we can identify a couple of managers that:

-- will be ok acting as portfolio selection agent
-- will not need to take risk
-- will be flexible w.r.t. portfolio selection (i.e. ideally we will send them a list of 200 Aaa-rated 2005-vintage MBS bonds that fit certain criteria, and the portfolio selection agent will select 100 out of the 200 bonds)
-- will be ok working for at most $150k p.a. for 3 years, given a $2bn transaction where we distribute CMAs between 94 attach and 95% default.

There are more managers out there than just USC / Factor. The way I look at it, the easiest manager to work with should be used for our own axes. Managers that are a bit more difficult should be used for trades like Paulson gives how hard Paulson seems to be i.e. I'm betting they can give on certain terms and overall portfolio increase.

Subject: Re: Paulson

Fabio called to check in; he was concerned that his comments to the engagement letter had delayed us. I told him that the delay was still related to market conditions and deals in the pipeline and that we still needed to discuss his proposals with legal and rating agencies.

Fabio also suggested that he was open to the use of a manager to select a portfolio and including some higher-rated names in the portfolio.

From: Tauris, Fabrice
Sent: Tuesday, January 09, 2007 6:21 PM
To: Kreisman, Gail
Cc: Gest, David; fcc-mtgconc-desk
Subject: ACA

Gail, just a summary of ACA's role as "Portfolio Selection Agent" for the transaction that would be sponsored by Paulson (the "Transaction Sponsor"). Feel free to let David and I know if you have any questions.

- CDO Transaction Size: between $1bn and $2bn notional
- Reference Portfolio static, fully Identified upfront, and consisting of aprox. 100 equally-sized mezzanine subprime RMBS names issued between Q4 2005 and today. Starting portfolio would be ideally what the Transaction Sponsor shared, but there is flexibility around the names.
- Portfolio monitoring required: none
- Portfolio revaluations required: none
- Portfolio Selection Agent would be disclosed as having selected the Reference Portfolio
- Portfolio Selection Agent would not be required to retain any risk in the CDO transaction, although it would have the option to buy CDO notes/unfunded swaps that will be distributed in the market.
- Most likely to BWICs required to be run by the Portfolio Selection Agent
- Timing: the Transaction Sponsor is working under the assumption that Goldman is in the market with this transaction early February

Contemplated Capital Structure -- subject to Reference Portfolio:

- [34%]: 100% unfunded super senior tranche distributed to a super senior protection writer
- [22%]: 50% Aaa/AAA class A tranche distributed broadly on a best efforts' basis by Goldman
- [15%]: 22% Aa1/Aaa class B tranche distributed broadly on a best efforts' basis by Goldman
- [7%]: 15% Aa2/Aaa class C tranche distributed broadly on a best efforts' basis by Goldman
- [0%]: 39% pre-committed first loss

- Economics: for transactions like this, where the Portfolio Selection Agent is not required to retain any risk, we have seen fees in the order of 10bps to 20bps paid on the portfolio notional amount. For example, for the Magna-sponsored trade (ACA5 2005-ACA) for which ACA acted as portfolio manager, ACA was paid 10bps senior and 10bps subordinated (i.e., at risk fees, just above the equity) on the portfolio notional amount. In the context of this transaction, ACA should be thinking about getting paid fees in the lower end of what they have received in the past for Magna-like transactions, since there is no management requirement and the transaction is likely going to be larger than for a Magna transaction. In the context of this transaction, the portfolio selection fees will be paid in the form of a spread on the outstanding amount of the class A through class C tranches. For example, if the Portfolio Selection Agent was asking to be paid:
  - Class A Portfolio Management Fee: 0.25% p.a. (the tranche is [12%] thick)
  - Class B Portfolio Management Fee: 0.50% p.a. (the tranche is [77%] thick)
  - Class C Portfolio Management Fee: 1.00% p.a. (the tranche is [0%] thick)

This would mean that if Goldman is able to distribute 100% of the class A, class B and class C notes, the Portfolio Selection Agent would, on a blended basis, receive 0.125% p.a. on the portfolio notional. This compensation structure aligns everyone's interest: the Transaction Sponsor, the Portfolio Selection Agent and Goldman.

- The Transaction Sponsor is in discussions with a couple of potential CDO managers, and will work with the manager who will provide the most appealing economic proposal and will be able to address all the stated objectives.
Dan — per our discussion, we reached out GSC. Greywolf and ACA today re: acting as portfolio selection agent for a Paulson-sponsored trade.

1. GSC: Ed Shaffrin and Josh Blau at GSC are interested in meeting with the Paulson guys, this is likely going to happen tomorrow afternoon.

2. Greywolf: Mount and Marconi need to discuss whether the opportunity we are presenting to them is something they are interested in looking at, they are supposed to get back to me tomorrow.

3. ACA: Laura Schwartz at ACA is also interested in meeting them, this is likely going to happen early next week.

Also Appearing:
Q  And who selected the 90 reference credits?
A  We worked with Goldman in selecting, negotiating
what mortgage backed securities we'd like to buy protection
on.
Q  And what was your role in that?
A  I performed a collateral analysis on those
reference obligations.
Q  Can you explain that a little bit further?
A  I basically used the same database I mentioned
earlier—Bloomberg, Loan Performance and index — to look at
the collateral characteristics and collateral performance of
these mortgage backed securities and to make selections to
decide on which mortgage credit we believe will under perform
in the future is subject to higher default rates in the
future.
Q And what were the primary criteria that you were
looking for?
A The primary criteria (1) we would like to buy
protection on mortgage bonds with higher concentration in
California, Florida, Arizona, Nevada which we believe are a
bigger housing bubble than other areas in the country. We'd
like to buy protection on mortgage bonds with a higher hybrid
mortgage percentage. Because we believe these borrowers when
their mortgage resets there will be a payment chunk.
Q Are you talking about adjustable rate mortgages?
A Adjustable rate mortgages. Yes.
Q You called them something else.
A It's called hybrid because it's fixed for a couple
of years and then becomes floating.
Q Okay.
A So it's also called hybrid. But it is adjustment
rate mortgages. Yes.
Q We'd like to buy protection on mortgage bonds with
high percentage of limited documentation. Some borrowers can
prove their income when they apply for the mortgage, some
borrowers cannot. So we like to buy protection on mortgage
1. bonds where you have a higher limited documentation percentage.
2. Q And what was the end result of this analysis?
3. A The end result of the analysis is we picked some bonds we'd like to protection on.
4. Q How many?
5. A In Abacus CDO we have 90 bonds.
CONFIDENTIAL

January 1, 2007

Paulson Credit Opportunities Master Ltd.
e/o Paulson & Co. Inc.
500 Madison Avenue, 29th Floor
New York, NY 10022

Dear Sirs:

This letter (the "Letter Agreement"), when countersigned by you, will confirm that Paulson Credit Opportunities Master Ltd. ("PCO") has retained Goldman, Sachs & Co. to (1) provide credit protection on the Targeted Tranches of a portfolio of residential mortgage backed securities (each, a "Reference Obligation", and collectively, the "Reference Portfolio"), through one or more credit default swaps (each a "Back-to-Back CDS") between Goldman and certain counterparties (each such counterparty, a "Back-to-Back Protection Seller") and/or through the offering of multiple tranches of secured securities (such securities, the "Notes") of a synthetic securitization (the "CDO") that are expected to be issued from a special purpose company (the "Issuer") and (2) simultaneously sell to PCO, subject to the provisions of Paragraph 10, credit protection through one or more credit default swaps between PCO and Goldman (each, a "PCO CDS")establishing Back-to-Back CDS and/or Issuer CDS (except to the extent described in this Letter Agreement). For the purpose of this Letter Agreement, "Goldman" means Goldman, Sachs & Co. or any of its affiliates, provided however, that Goldman Sachs & Co. will guarantee the performance of this agreement by any such affiliate. Capitalized terms used herein and not otherwise defined have the meanings assigned to such terms in Annex B attached hereto.

The final terms and conditions of any Notes issued in connection with the CDO and the final terms and conditions of any Back-to-Back CDS will be set forth in complete documentation satisfactory in form and substance to Goldman and PCO.

PAULSON-ABACUS 0252738

FOIA Confidential Treatment Requested by
1. **Services of Goldman.** It is currently contemplated that, in connection with the CDO, the Issuer will undertake one or more offerings and/or placements of securities (such as “Offering”, the first such Offering, the “Initial Offering,” and the securities placed, the “Notes”), pursuant to Regulation S and/or Rule 144A, as the case may be, under the Securities Act of 1933, as amended, in the United States or otherwise. It is agreed that Goldman, subject to the conditions herein, will be offered the right to act as the sole book-running lead manager and/or fixed placement agent in each Offering. If Goldman agrees to act in such capacity, the Issuer and Goldman will enter into an appropriate form of underwriting, placement agency or other agreement relating to the type of transaction involved and containing customary terms and conditions, including provisions relating to our indemnity. Except to the extent that Goldman may separately commit to such an underwriting, placement agency or other agreement to purchase securities, there is no understanding or obligation, expressed or implied, on Goldman’s part of a commitment by Goldman to act as underwriter or placement agent with respect to any Offering or to purchase or place any securities in connection therewith and that any securities will be placed on a best efforts basis. Goldman’s execution of such underwriting, placement agency or other agreement will be subject to its complete discretion in, among other things, the underwriting and offering documentation and terms, satisfactory completion of its due diligence investigation, its internal approval processes and, of course, market conditions.

In addition, there is no understanding or obligation, expressed or implied, on Goldman’s part of a commitment by Goldman to enter into any Back-to-Back CDS and Goldman will only enter into such Back-to-Back CDS on a best efforts basis. Goldman’s execution of any documentation related to a Back-to-Back CDS will be subject to its complete discretion in, among other things, the documentation and terms, its internal approval processes and, of course, market conditions.

Subject to paragraph 2 of this Letter Agreement, the timing, amount and other terms of any issuance of the Notes or Goldman’s entry into any Back-to-Back CDS shall be determined by Goldman in its sole discretion. Goldman agrees to consult with ROD as to the timing of such issuance of the Notes or Goldman’s entry into any Back-to-Back CDS. ROD agrees to promptly provide Goldman with all relevant information regarding the timing, terms or other aspects of any such CDO transactions which may have a bearing on the marketing of the Notes or Goldman’s ability to enter into any Back-to-Back CDS.

2. **Contemplated Offering.** We understand, in connection with the CDO, that when the Issuer offers Goldman the right to act as the sole underwriter and/or sole placement agent in accordance with Paragraph 1 of this Letter Agreement, Goldman expects, subject to, among other things, the satisfactory completion of due diligence and the terms and conditions set forth in one or more placement agency agreements or other appropriate form of documentation, that it will purchase the securities issued as part of the Offering and offer them to prospective purchasers at a price to be agreed upon at the time of execution of such agreement.

FOIA Confidential Treatment Requested by Paulson & Co.

PAULSON-ABACUS 025737
The appointment of any co-managers in respect of any Offering will be subject to prior consent by Goldman.

As stated in Paragraph 1 above, PEO understands that until any such related placement or other agreement is signed, Goldman is not under any obligation, express or implied, to purchase or place securities in connection herewith. Goldman understands that the Issuer is under no obligation, express or implied, to complete an Offering until any such related placement or other agreement is signed.

In addition, as stated in Paragraph 1, PEO understands that until any such related documentation is signed, Goldman is not under any obligation, express or implied, to enter into any Back-to-Back CDS in connection herewith.

3. Issuer and its Structure: Additional Roles of Goldman. In connection with the Initial Offering of the CDO, it is anticipated that Goldman will enter into several agreements with the Issuer, including (i) a credit derivative transaction (the "Issuer CDS"), (ii) a basis swap transaction (the "Basis Swap"), (iii) a collateral put agreement (the "Collateral Put"), (iv) a collateral disposal agreement (the "Collateral Disposal Agreement"), and (v) a defensive disposition agreement (the "Defensive Disposition Agreement").

Pursuant to the Issuer CDS, it is anticipated, among other things, that:

- Goldman Sachs Capital Markets (or an affiliate thereof) will act as protection buyer (the "Protection Buyer"), buying protection on all or a portion of the Targeted Tranche;

- The Protection Buyer will make premium payments to the Issuer on an annual/semi-annual basis and will be entitled to the spread over the benchmark index for each Class of Notes, as reduced from time to time upon (1) principal repayment on any Reference Obligation (to the extent the cumulative principal repayments exceed the Instruction Date Payment, as set forth in Annex A) of the related Targeted Tranche immediately prior to such determination), (2) Credit Events with respect to any Reference Obligation (to the extent the cumulative Loss Amounts exceed the related Targeted Tranche Attachment Point as set forth in Annex B), immediately prior to such determination, and (3) any Partial Optional Redemption or partial redemption, in whole or in part, of the Notes;

- The nominal amount of each tranche will be reduced in sequential order of priority in connection with the amortization of the Reference Portfolio and the nominal amount of each tranche will be reduced in reverse sequential order of priority in connection with Credit Events related to the Reference Portfolio;

FOIA Confidential Treatment Requested by Paulson & Co. PAULSON-ABACUS 025738
• The Protection Buyer will make an upfront payment to the Issuer in order to cover, among other things, upfront expenses as described in paragraph 6 of this agreement;

• The Issuer will use the proceeds received from the issuance of the Notes to invest in senior triple-A structured product securities (the "Collateral Securities") and eligible investments ("Eligible Investments") (collectively, the "Collateral") selected by the Protection Buyer. Any principal repayments on Collateral will be reinvested into replacement Collateral selected by the Protection Buyer, subject to the applicable criteria specified in the Issuer CDS;

• The Protection Buyer will make ongoing payments to the Issuer covering ongoing transaction administrative expense, and one Portfolio Selection Agent Fees;

• "Failure to Pay Principal" and "Writedowns" (as defined in a manner consistent with the current form of the Credit Derivative Transaction on Mortgage-Backed Securities with Pay-As-You-Go or Physical Settlement (Form 2) Dealer Form) published by the International Swaps and Derivatives Association, Inc. (the "ISDA Dealer Forms") will be the sole credit events (the "Credit Events") under the CDS governing documents;

• A loss amount (a "Loss Amount") shall be determined following the occurrence of a Credit Event. Such Loss Amount will be equal to (a) the related Writedown Amount (as defined in the ISDA Dealer Forms) following the occurrence of a Writedown and (b) the related "Principal Shortfall Amount" (as defined in the ISDA Dealer Forms) following the occurrence of a Failure to Pay Principal;

• Following a Credit Event, the Protection Buyer will receive a cash settlement amount equal to the amount by which the related Loss Amount reduces the notional amount of the Targeted Transaction;

• There will be no discretionary substitution, reimbursement or replacement of Reference Obligations;

• The Protection Buyer will be sole notifying party of a Credit Event;

• The Protection Buyer, in its sole discretion, will have the right to terminate (with no termination payment payable by the Protection Buyer) portions of the Issuer CDS related to the Notes on any Payment Date occurring after the date that is specified as the indemnity or related pricing supplement (in each case, the "Applicable Non-Call Period") and any such redemption, a "Partial Optional Redemption," and the Notes redeemed in connection with any such Partial Optional Redemption will be redeemed at par; for avoidance of doubt, based on market conditions, Goldman, in its

---

FOIA Confidential Treatment Requested by Paulson & Co. PAULSON-ABACUS 0252729
The Protection Buyer shall be the calculation agent; and

- Termination payments payable to the Protection Buyer will be subordinated to payment of principal of the related Notes only in the event of a termination of the Issuer CDS (i) in respect of which the Protection Buyer is the "Defeathering Party," as such term is defined in the Issuer CDS, or (ii) for which the Protection Buyer was the sole "Affected Party" (as such term is defined in the Issuer CDS) (other than in connection with a "Tax Event" or "Insolvency," as such term is defined in the Issuer CDS).

The Reference Obligations are expected to be selected according to the following criteria (the "Portfolio Selection Criteria") and the final Reference Portfolio will be subject to the mutual agreement of Goldman and PCU:

(i) each Reference Obligation will have the same initial reference obligation notional amounts;

(ii) the Reference Portfolio will consist at least [185] distinct Reference Obligations;

(iii) each Reference Obligation must have been issued after [March 1, 2006];

(iv) as of the date of selection, each Reference Obligation must have an explicit rating of "Baa3" by Moody's;

(v) as of the time of selection, each Reference Obligation must have an actual public rating by Moody's and S&P, and such actual public rating by S&P must be no lower than ["BBB-"];

(vi) no Reference Obligation may have been issued by the name Reference Entity as any other Reference Obligation included in the Reference Portfolio;

(vii) the weighted average FICO score of the aggregate original collateral pool securing such Reference Obligation must be (a) greater than or equal to [600] and (b) less than or equal to [675];

(viii) the original aggregate principal amount of collateral securing such Reference Obligation must be greater than or equal to [2,000,000,000]; and

(ix) the original aggregate principal amount of mortgage collateral securing such Reference Obligation must be at least [80]% of the original aggregate principal amount of mortgage collateral securing such Reference Obligation.
A preliminary Reference Portfolio is identified in Annex C. Upon mutual agreement, Goldman and PCC may appoint a party (such party, a "Portfolio Selection Agent") to help select the final Reference Portfolio in return for the payment of an ongoing fee based on the aggregate outstanding amount of Notes of each Issued Tranche (each, a "Reference Portfolio Authorized Party"). The Reference Portfolio selected may be modified upon the mutual agreement of Goldman, PCC and the Portfolio Selection Agent (if any).

"Moody's" means Moody's Investors Service, Inc. and any successor or assigns thereof.

"S&P" means Standard & Poor's Rating Services, a division of The McGraw-Hill Companies, Inc. or any successor to the rating business thereof.

Pursuant to the Basis Swap, it is anticipated, among other things, that:

- Goldman Sachs International (or an affiliate thereof) will act as basis swap counterparty (the "Basis Swap Counterparty");

- Each payment period, the Issuer will swap with the Basis Swap Counterparty the total principal proceeds received on the Collateral held by the Issuer in exchange for the benchmark index of the Notes, based upon the aggregate outstanding amount of the Notes, as reduced from time to time by principal amortization of the Reference Portfolio, Credit Events, and/or Partial Optional Redemption or optional redemption in whole of the Notes;

- The Basis Swap Counterparty shall be the calculation agent; and

- Termination payments payable to the Basis Swap Counterparty will be subordinated to payment of principal of the related Notes solely in the event of a termination of the Basis Swap (i) in respect of which the Basis Swap Counterparty is the "Affected Party" (as such term is defined in the Basis Swap), (ii) resulting from a downgrade of the Basis Swap Counterparty's credit rating or (iii) in which the Basis Swap Counterparty was the sole "Affected Party" (as such term is defined in the Basis Swap) (other than in connection with a "Tax Event" or "Eligibility", in each case as defined in the Basis Swap).

Pursuant to the Collateral Put, it is anticipated, among other things, that:

- Goldman Sachs International (or an affiliate thereof) will act as collateral put provider (the "Collateral Put Provider") and as compensation for acting as Collateral Put Provider will receive a fee of [0.00%] per annum accrued on an annualized 360-day count convention on a notional amount equal to the aggregate outstanding amount of the Notes at the beginning of the related accrued period.
The Collateral Put Provider will cover any shortfall to par plus accrued interest arising from the liquidation of Collateral Securities and certain Eligible Investments held by the Issuer solely in connection with (i) principal amortization of the Reference Portfolio, (ii) recoveries on Reference Obligations following Credit Events, in the case of (i) and (ii), leading to principal amortization of one or more Classes of Notes, (iii) a Partial Optional Redemption or optional redemption in whole or in part of the Notes, and (iv) a redemption of the Notes at maturity;

The Collateral Put Provider will not cover any shortfalls in paying cash settlement amounts to Goldman following Credit Events if the Collateral Securities and certain Eligible Investments liquidated to make such payment is liquidated at a price of below 100% (in which case such market value risk will be borne by the Protection Buyer for such aforementioned Collateral who will be deemed to have been paid the related cash settlement amount in full) and (ii) with respect to the liquidation of Collateral in connection with a mandatory redemption (following a default of any Collateral Security, a default of Goldman, an adverse tax event, an event of default (as defined in the related CDO indenture) or other mandatory redemption event);

The Collateral Put Provider shall be the calculation agent; and

No termination payment will be payable under any circumstances in connection with the Collateral Put.

Pursuant to the Collateral Disposal Agreement, it is anticipated, among other things, that:

Goldman, Sachs & Co. (or an affiliate thereof) will act as collateral disposal agent (the "Collateral Disposal Agent"); and

In connection with any liquidation of Collateral Securities held by the Issuer that may be required from time to time, whether in connection with (i) a Credit Event or (ii) principal amortization of the Notes (including pursuant to an Optional Redemption in part), the Collateral Disposal Agent shall select in its sole discretion which Collateral Security or Collateral Securities shall be liquidated to satisfy such requirement.

4. Back-to-Back CDS

Goldman will, subject to the terms of this Letter Agreement, purchase credit protection from swap counterparties of its choice under one or more Back-to-Back CDS.

Pursuant to each Back-to-Back CDS, it is anticipated, among other things, that:

FOIA Confidential Treatment Requested by Paulson & Co. PAULSON-ABACUS 0252742
The Protection Buyer will pay protection on all or a portion of the Targeted Tranche;

The Protection Buyer will make premium payments to the related Back-to-Back Protection Seller on an annual/quarterly basis on the notional amount of such Back-to-Back CDS, as reduced from time to time upon (1) principal repayments on any Reference Obligation (or the extent the cumulative principal repayments exceed one minus the Exhaustion Point as set forth in Annex B of the related Targeted Tranche immediately prior to such determination), (2) Credit Events with respect to any Reference Obligation (to the extent the cumulative Loss Amounts exceed the related Targeted Tranche Accumulation Point (as set forth in Annex B) immediately prior to such determination), and (3) any optional termination of the Back-to-Back CDS following the expiration of an Applicable Non-Call Period as defined below);

The notional amount of each tranche will be reduced in sequential order of priority in connection with the amortization of the Reference Portfolio and the notional amount of each tranche will be reduced in reverse sequential order of priority in connection with Credit Events related to the Reference Portfolio;

"Failure to Pay Principal" and "Writedown" (as defined in a manner consistent with the ISDA Dealer Form) will be the sole Credit Events;

A Loss Amount (a "Loss Amount") shall be determined following the occurrence of a Credit Event. Such Loss Amount will be equal to (a) the related "Writedown Amount" (as defined in the ISDA Dealer Form) following the occurrence of a Writedown and (b) the related "Principal Shortfall Amount" (as defined in the ISDA Dealer Form) following the occurrence of a Failure to Pay Principal;

Following a Credit Event, the Protection Buyer will receive a cash settlement amount equal to the amount by which the related Loss Amount reduces the notional amount of the Targeted Tranche;

There will be no substitution, reinvestment or replacement of Reference Obligations;

The Protection Buyer will be sole notifying party of a Credit Event;

The Protection Buyer, in its sole discretion, will have the right to terminate (with no termination payment payable by the Protection Buyer) a Back-to-Back CDS on any Payment Date occurring after the date that is specified for such Back-to-Back CDS (in such case, the "Applicable Non-Call Period");
Footnote Exhibits - Page 4772

- The Protection Buyer shall be the calculation agent.

5. Breakage. If this Letter Agreement is terminated prior to the completion of the distribution of a notional amount of each Targeted Tranche equal to the Maximum Notional Amount of such Targeted Tranche by notification from PCO (in such capacity, the "Terminating Party") to Goldman (in such capacity, the "Non-Terminating Party") of such termination, then the Non-Terminating Party will be entitled to payment in an amount equal to the aggregate of any reasonable and documented out-of-pocket expenses (including, without limitation, attorneys, rating agency and accounting fees and printing costs) borne by the Non-Terminating Party in connection with its activities under this agreement and submitted to the Terminating Party, provided however that (a) no payment shall be due to the extent that such out of pocket expenses are less than the total amount paid by PCO to Goldman under Paragraph 6 hereof and (ii) if such out of pocket expenses exceed the total amount paid by PCO to Goldman under Paragraph 6 hereof, PCO shall be liable to Goldman only as to the amount of such excess. Any such amounts payable pursuant to this paragraph will be paid in immediately available funds to the Non-Terminating Party by the Terminating Party.

6. Fees, Expenses. On the closing date of the CDO (the "Closing Date") or as promptly as practicable after such closing date, the Issuer shall pay (using proceeds received from an upfront payment (the "Upfront Payment") made by the Protection Buyer at the Closing Date), without duplication, (i) reasonable fees and expenses of Goldman’s outside counsel incurred in connection with the CDO, (ii) reasonable fees and expenses of counsel to the Issuer (if different from outside counsel to Goldman) and any other agents or professionals engaged by Goldman in structuring the CDO (other than the Portfolio Selection Agent), and executing the initial Offering including local legal counsel, trustee, accountant, local administrator, printer, rating agency and their respective counsel, and other fees and expenses, plus any sales, use or similar taxes (including additions to such taxes, if any) arising in connection with any matter referred to in this Letter Agreement and (iii) the cost (in excess of pay) of any Collateral Securities acquired by the Issuer on the Closing Date.

Each Back-to-Back CDS or Issuer CDS, as the case may be, and the matching PCO CDS shall be executed simultaneously (such date of execution, an "Effective Date"). On each Effective Date, PCO will make a payment to Goldman equal to, for each Targeted Tranche for which an Issuer CDS or Back-to-Back CDS was executed on such Effective Date, the product of (a) the Upfront Fee Rate for such Targeted Tranche, as defined in Annex B, and (b) the notional amount of the PCO CDS for such Targeted Tranche. In addition, on the later of (i) the Closing Date and (ii) the first Effective Date on which cumulatively at least $350,000,000 aggregate notional amount of the Targeted Tranches have been distributed as and in such manner as, prior to such date, PCO will make a payment to Goldman equal to $3,000,000.

PCO will also pay all fees and expenses of PCO’s outside counsel incurred in connection with each PCO CDS and the arrangements contemplated hereby.

PAULSON-ABACUS 0257744
The Notes may be issued in US Dollars or other currencies at Goldman’s sole discretion. If Goldman elects to issue any Notes in a currency other than US Dollars, PCO shall have the option to either (i) bear the currency risk associated with such non-US Dollar placement or (ii) allow Goldman to bear such risk, in which case PCO will pay the Strike Spread associated with such notional amount of the related tranche on the US Dollar equivalent of such issued notional amount.

8. **Reserved.**

9. **Nature of Relationship.** As you know, Goldman Sachs is a full-service securities firm engaged, either directly or through its affiliates in various activities, including securities trading, investment management, financing and brokerage activities and financial planning and benefits counseling for both companies and individuals. In the ordinary course of these activities, Goldman Sachs may actively trade the debt and equity securities (or related derivative securities) of PCO and other companies which may be the subject of the matters contemplated by this Letter Agreement for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities.

PCO recognizes that pursuant to this Letter Agreement Goldman Sachs will rely upon and assume the accuracy and completeness of all of the financial, accounting, tax and other information disclosed with or reviewed by Goldman Sachs for such purposes, and it does not assume responsibility for the accuracy or completeness thereof. Goldman Sachs will have no obligation to conduct any independent evaluation or appraisal of the assets or liabilities of PCO or any other party or to advise or opine on any related advisory issues. It is understood and agreed that Goldman Sachs will act under this Letter Agreement as an independent contractor and nothing in this letter or the nature of our services shall be deemed to create a fiduciary, advisory or agency relationship between Goldman Sachs and PCO or their respective stockholders, employees or creditors. Nothing in this Letter Agreement is intended to confer upon any other person (including stockholders, employees or creditors of PCO) any rights or remedies hereunder or by reason hereof.

In connection with any transactions contemplated in this Letter Agreement, Goldman Sachs is acting as arm’s length counterparty to PCO. Goldman Sachs is not acting as agent or advisor to PCO with respect to any such transaction or the terms thereof.
10. **Agreement to Trade.** On each Effective Date, PCO will enter into one or more PCO CDS under which PCO will purchase from Goldman credit protection on a Targeted Tranche, in an amount equal to the notional amount of the Back-to-Back CDS executed on such Effective Date or Notes sold on such date with respect to the same Targeted Tranche, in each case only if (i) the Pricing Spread for such Back-to-Back CDS or such Notes is less than or equal to the Strike Spread for the Targeted Tranche as described in Annex B, (ii) the Applicable Non-Call Period is three years from the First Payment Date, (iii) the aggregate notional amount of Back-to-Back CDS and Issuer CDS for such Targeted Tranche (taking into account the Back-to-Back CDS or Issuer CDS for each Targeted Tranche executed on such Effective Date) is less than or equal to the Maximum Notional Amount of the Targeted Tranche and (iv) such Effective Date occurs prior to the Expiration Date, provided that, in its discretion, PCO may waive the requirements set forth in clauses (ii) and (iii) with respect to any Back-to-Back CDS or Notes and any Effective Date. The terms and conditions of the each PCO CDS shall be identical to the terms and conditions of the related Back-to-Back CDS or Issuer CDS, as the case may be, as summarized in this Letter Agreement (except for Goldman's role as calculation agent under each such CDS), terms related to the Collateral Securities and in connection with any amounts payable pursuant to Paragraph 6 of this Letter Agreement) unless such terms and conditions are revised subject to mutual agreement by Goldman and PCO.

11. **Disclosure of Transactions.** Without the prior consent of Goldman, PCO may not discuss or disclose any information about the Offering, any Back-to-Back CDS, any PCO CDS or any transaction related thereto with any third party other than (i) its legal, tax, accounting and other professional advisors and (ii) in the extent required by any applicable law. After the closing of the Offering, Goldman may publish a notice of the transaction in such format, in such publications and at such times as Goldman may deem appropriate and consistent with its customary practices. Communication of an approval or disapproval of any such notice referred to in this paragraph shall be made by the end of the second business day following the date such notice is submitted for approval.

12. **Rescind.**

13. **Amendments.** This Letter Agreement may not be amended or modified in any way except by a written executed by each of the parties hereto.

14. **Assignment.** Goldman may, in the performance of its services hereunder, delegate the performance of all or any portion of such services as it may elect to other Goldman affiliates or any affiliated entities; provided, however, that no such delegation by Goldman shall in any respect affect the terms hereof, and Goldman shall be responsible for any acts or omissions by any of its affiliated entities in the performance of any services delegated hereunder to such entity.
therewith, Goldman may direct such reasonable advance notice prior to the payment of any amount to be made to it hereunder, the payment of such amount to be made, in whole or in part, to a Goldman affiliated entity in satisfaction of the payment of such amount due to Goldman hereunder.

15. Enforceability of Provisions. The invalidity or enforceability of any provisions of this Letter Agreement shall not affect the validity or enforceability of any other provisions of this Letter Agreement, which shall remain in full force and effect.

16. Reserved

17. Choice of Law, Waiver of Jury Trial, Submission to Jurisdiction. This Letter Agreement shall be governed by and construed in accordance with the laws of the State of New York without regard to the conflict of laws provisions thereof. ANY RIGHT TO TRIAL BY JURY WITH RESPECT TO ANY CLAIM OR ACTION ARISING OUT OF THIS LETTER AGREEMENT OR CONDUCT IN CONNECTION WITH THIS LETTER AGREEMENT IS HEREBY WAIVED. The parties hereto submit to the exclusive jurisdiction of the federal and New York State courts located in the Borough of Manhattan of the City of New York in connection with any dispute related to this Letter Agreement or any of the matters contemplated hereby.

18. No Third Party Beneficiaries. There are no beneficiaries of this Letter Agreement, other than the named parties.

19. Miscellaneous. Goldman does not provide accounting, tax or legal advice. Notwithstanding anything herein to the contrary, PCO is authorized to disclose to any person, the U.S. federal and state income tax treatment and tax structure of the potential transaction and all materials of any kind (including tax opinions and other tax analyses) provided to PCO relating to that treatment and structure, without Goldman imposing any limitation of any kind. However, any information relating to the tax treatment and tax structure shall remain confidential (and the foregoing sentence shall not apply) to the extent necessary to enable any person to comply with securities laws. For this purpose, “tax structure” is limited to any facts that may be relevant to that treatment.

FCIA Confidential Treatment Requested by Paulson & Co.

PAULSON-ABACUS 0252747
If this Letter Agreement correctly sets forth PCO's understanding, please to confirm by countersigning and returning the enclosed copy. Upon receipt of the copy by Goldman, this Letter Agreement shall be deemed a binding agreement.

We are delighted to accept this agreement and look forward to working with you on this assignment.

Very truly yours,

(GOLDMAN, SACHS & CO.)

Annex B

"Targeted Tranche" means each of the Super Senior, Class A, Class B, Class C and Class D tranches that Goldman will distribute on a best efforts basis, as set forth in the column "Tranche" in the table below.

"Distributed Tranche" means, with respect to an Effective Date, a tranche that has been distributed (through Goldman's purchase of credit protection through a Back-to-Back CDS) on such Effective Date.

"Executed Spread" means, with respect to a PCO CDS, the Pricing Spread of the related Distributed Tranche.

"Minimum Fee Rate" means for each Distributed Tranche the rate as set forth in the table below in the column "Minimum Fee Rate" corresponding to the row related to such tranche.

"Payment Date": With respect to any Back-to-Back CDS or Issuer CDS, the 28th of each month or if such day is not a Business Day, the next succeeding Business Day, commencing on the month following the Effective Date and ending on the date specified in the related documentation.

"Pricing Spread" means, (i) for each Class of Notes, the sum of (a) the stated spread above or below the index stated for the Notes of such Class issued on the Closing Date, as set forth in the indenture or costing and paying agency agreement relating to the Notes, as applicable, and on the related Notes, provided that, with respect to any Class of Notes issued at a discount or premium to par, the amount discounted or premia in respect of such tranche, (g) shall be the discount margin (to maturity) to the index stated for the Notes of such Class, (b) 0.004% per annum related to the Collateral Trust Provider fee and (c) the rate per annum of the Portfolio Selection Agency Fee, with respect to such Class (if any) and (d) for each Back-to-Back CDS, the stated fixed rate spread with respect to such tranche.

"Initial Reference Portfolio Notional Amount" means $2,000,000,000.

"Strike Spread" means, with respect to each Distributed Tranche, the percentage corresponding to such tranche as set forth in the column "Strike Spread" in the table below.

"Maximum Notional Amount": For each Targeted Tranche, the product of (i) the percentage corresponding to such tranche as set forth in the column "Strike Spread" in the table below and (ii) the Initial Reference Portfolio Notional Amount.

"Effective Fee Rate" means, for each Distributed Tranche, the sum of (A) the Minimum Fee Rate for such tranche and (B) the product of (a) 10%, (b) 7 and (c) the greater of (a) zero and (d) the difference between (a) the Strike Spread and (e) the Executed Spread.

*gs-classification: External*

Ed, Josh, thanks for coming to the meeting on Friday. To give you some background on the portfolio that the Paulson guys are starting from, this is a portfolio that was selected using some of the following criteria:

- Start from the universe of RMBS transactions available in Intex
- Focus only on the 2006 vintage, bonds underwritten after March 1, 2006
- Baseline bonds
- Average FICO between 600 and 675
- RMBS transaction size greater than 8500mm
- Average ARM greater than 80%

We should discuss live on Monday when you get a chance.

Fabrice

Wall Street & The Financial Crisis
Report Footnote 4515
Laura,

Paulson is trying to get a sense, for the 2008 RMBS transactions identified by Paulson, for the level of the capital structure of those transactions that ACA has been comfortable investing in the past, whether for its own account or for a CDO of your own.

To: Paolo Pettinari; Eitan Baez
Cc: Oren, David; Razi, Caius
Subject: Substitutions for ABACUS 2007-AC1

Paolo, Eitan,
In order to replace the New Century serviced bonds in the ABACUS 2007-AC1 portfolio (CARR 2005-NC1 M8, CARR 2005-NC2 M8 and CARR 2006-NC3 M9), ACA is proposing the following substitute bonds:

SIAL 2007-2 M8
RCNMT 2007-1 M8
MLMIC 2007-FEL1 B2
MSAC 2007-NEX2 B2
SILFL 2007-AC1 A2
CMO 2007-AMC3 M8
CWL 2007-2 M8
SIAL 2007-1 M8

I asked ACA to send loan tapes for these bonds in order to help you select the names that fit you.

Cc: Keith Gorman
Subject: proposed Paulson Portfolio

Attached please find a worksheet with 86 sub-prime mortgage positions that we would recommend taking exposure to synthetically. Of the 182 names that were originally submitted to us for review, we have included only 86. We do not recommend including the other 86 names because either: 1) we did not like them at the recommended attachment point; 2) there are lower rated tranches that are already on negative watch; and 3) some names (i.e. Long Beach and Fremont) are very susceptible to investor push-back.

This 31 new names are heavily weighted to new issue names we believe the underlying collateral to be of better quality. We provided a total of 86 names to give us some room since the term-sheet mentioned 80 names at 1.25% each.

Please let me know if you have any questions.

Paolo, Sihan:

Attached is the feedback we received from ACA on the list of 123 names that you had provided. They have broken down your list into names that they would recommend including in the portfolio (55) and names that they would recommend excluding from the portfolio (68). In addition, they have included a separate list of 31 names for you to review that they would recommend for inclusion, with the objective of creating a portfolio with 80+ names.

Are you available for a quick call this afternoon to discuss these lists?

Thanks,

David

So I met with Paolo last night. We first talked about the collateral - why only 35 names from the list and why the Baa3 and A3 names. He had summary performance and credit statistics on each piece of collateral on a spreadsheet (he may as much of a nerd as I am since he brought a laptop to the bar and he also seemed to have a worksheet from DB and another manager). I don't think he wants the A3 names and wasn't too keen on the Baa3 names. Let's do the Baa3 names at Baa3. He also wanted to talk about if we had to have so many names - I said Goldman needed 100 to help sell the debt. He also wanted to talk about the super senior - I said we would definitely look at it if Goldman planned on placing it. We also talked about the auction call - he wants a 2 year. This may be tough to sell without a make whole. We left it that we would both work on our respective engagement letters this week - I certainly got the impression he wanted to go forward with this with us. He is also headed to ASF. Can we meet sometime on Feb 5th to discuss mechanics of this deal?

Sent: Fri, Jan 26, 2007 09:32:35 AM
Subject: RE: ABACUS - Initial Draft Engagement Letter for ACA

Laura -- all good questions. Some thoughts:

1. What expenses do you envision would be incurred in connection with the transaction? I think we/Paulson can envision paying your expenses in connection with marketing the transaction, subject to a reasonable cap.

2. In the engagement letter, the Portfolio Selection Fee is structured such that you get paid a spread (the "Portfolio Selection Fee Rate") on the tranches that are issued, subject to a floor of 30bp per annum. The Portfolio Selection Fee Rate is equal to 0.21% p.a. for the "AAA" tranche, 0.50% for the "AA" and "AA-" tranches, and 1.00% for the "A" tranche. Using our current capital structure for a libid transaction and assuming we issue all the "AAA" through "A" notes, the aggregate Portfolio Selection Fees would be approx $2.5 million p.a. If we are able to upsicle for a E2bn transaction and if we are able to issue all the "AAA" through "A" notes, the aggregate Portfolio Selection Fees would be approx $2.5 billion p.a.

3. We are using McKee Nelson as deal counsel since they have a deep knowledge of the ABACUS transaction documents. I am afraid that if we use counsel not familiar with our deal structure, legal expenses might be significantly higher than otherwise, and the transaction execution might take more time.

4. Paulo at Paulson is out of the office until Wednesday of next week. We are trying to get his feedback on the target portfolio you have in mind, as well as on the compensation structure we have been discussing with you. Subject to Paulo being comfortable with those 2 aspects, it sounds like we will be in a position to engage you on this transaction.

Confidential Treatment Requested by Goldman Sachs
Footnote Exhibits - Page 4800

Just a few questions before I send it to my counsel:

1. It says that any expenses we incur are for our account - I think the issuer/deal
   should pay our out of pocket, in connection with this transaction (such as any travel etc).
2. The fee rate is set at $1 million - is this regardless of the ultimate size?
3. We generally like our counsel (Schulte) to be deal counsel - do you believe that we
   have this deal? do we need to do the work on the engagement letter before we know if we
   have the deal?

Subject: ABACUS Transaction - update
Attachments: Paulson Portfolio 1-22-07 (2) .xls

Laura,

We wanted to provide you with an update on the transaction.

From the 100 name portfolio that you had agreed to with Paolo (attached here), we would like to exclude Sail 2066-BNC1 M7 and Sail 2066-BNC2 M7, which are both on negative credit watch by Moody's. This leaves us with a portfolio of 58 names, for which we have been updating our model to refresh the capital structure. In addition, we have been working on a flipbook and termsheet in anticipation of marketing the transaction.

We will continue our discussions with Paolo to confirm his agreement with the proposed transaction as structured and look forward to discussing the transaction and draft Engagement Letter on Monday. In the meantime, can you please send us recent ACA marketing materials that we can include in our draft flipbook and termsheet.

Thanks,

David

Subject: RE: portfolio

Laura,

Thank you for meeting with me, Shian and Fabrice this morning on such short notice. Coming into the meeting, I had not realized that you might have migrated the reference obligations on some of our original reference entities from the BA2 to the A3 rating category. I apologize for not explaining more clearly that we had taken the whole portfolio to the BA2 level, i.e., migrated both A3 and BA3 to BA2, assuming that the migration in opposite directions would have a neutral overall result. We then took the deals with AAM % > 75 and produced the list that we gave you this morning. If we take out the BA2 bonds listed below, I am not sure that the result is neutral relative to the starting point. However, if you are absolutely adamant about excluding each of the bonds listed below, I hope that you will be able to come up with recent names that fit our criteria. If so, getting loan data on such names becomes critical.

Best,

Paolo

I attach the portfolio you proposed with eight deletions. Two are duplicates and the others are either too assessed or have some other characteristics that make them too risky from our perspective. I understand from Fabrice that EQ names provide sufficient diversification and hope that you will find our counter-proposal acceptable.

Best regards.

Subjects: ABACUS Reference Portfolio

Paolo, Shian:

We believe we can create a more efficient capital structure by removing two of the proposed 92 names from the reference portfolio. We propose removing CARR 2006-FRE1 M9 (since we are currently referencing two obligations of the same
issues) and ABFC 2006-CP13 M9 (since it is not explicitly rated by S&P and needs to be notified to BB+ for purpose of
the transaction).

Portfolio Selection Agent

Secured Primarily by (i) the Collateral and (ii) the issuer's rights under (a) the Collateral Put Agreement,
(b) the Basis Swap and (c) as Production Seller, the Credit Default Swap referencing a pool of
Residential Mortgage-backed securities.

The Notes are being offered hereby by Goldman, Sachs & Co. to Qualified Institutional Buyers in the United States in reliance on Rule 144A under the Securities Act. In addition to the offering of the Notes in the United States, Goldman, Sachs & Co., selling through the agent, Goldman Sachs International is concurrently offering the Notes outside the United States to non-U.S. Persons in offshore transactions in reliance on Regulation S under the Securities Act. See “Underwriting.”

The Notes of any Class may be issued in more than one Series due to differences in or more of the date of issuance, the Series Interest Rate, the Approved Currency in which such Notes are denominated, the Stated Maturity, the Non-Call Period and the date from which interest will accrue.

See “Risk Factors” beginning on page 17 to read about factors you should consider before buying the Notes.

There is no established trading market for the Notes. Application will be made to admit the Notes on a stock exchange of the Issuer’s choice, if practicable. There can be no assurance that any such application will be sought, granted or maintained.

It is a condition of the issuance of the Notes hereinafter the Collateral Note that the Class A-1 Notes and the Class A-2 Notes be issued with a rating of “AA” by Moody’s Investors Service, Inc. (“Moody’s”), and “AA” by Standard & Poor’s Ratings Services, a division of The McGraw-Hill Companies, Inc. (“S&P”). A credit rating is a recommendation to buy, sell or hold securities and may be subject to revision, withdrawal or suspension at any time by the assigning rating agency. See “Ratings of the Notes.”

See “Underwriting” for a discussion of the terms and conditions of the purchase of the Notes by the Initial Purchaser.

The Notes are offered by the Initial Purchaser or its agent as so indicated, subject to its right to reject any order in whole or in part. It is expected that the Global Notes will be held for delivery in locked-out form only in New York, New York, on or about April 26, 2007, through the facilities of the Euroclear System or other persons holding Global Notes issued in Approved Currencies other than Dollars, if any, against payment therefor in immediately available funds. The Notes will have the minimum denominations set forth in “Summary—Notes.”

GS MBS-E-001918034
This Offering Circular supersedes in all respects all earlier dated Offering
Circulars.

General Notice

The information contained in this Offering Circular has been provided by the Issuers and other
sources identified herein. No representation or warranty, express or implied, is made by the Initial
Purchaser, the Protection Buyer or the Portfolio Selection Agent (except, with respect to the Protection
Buyer only, the information set forth under the heading "The Protection Buyer" and except, with respect to
the Portfolio Selection Agent only, the information set forth under the heading "The Portfolio Selection
Agent") as to the accuracy or completeness of such information, and nothing contained in this Offering
Circular is, or shall be relied upon as, a promise or representation by the Initial Purchaser, the Protection
Buyer or the Portfolio Selection Agent (except, with respect to the Protection Buyer only, the information
set forth under the heading "The Protection Buyer" and except, with respect to the Portfolio Selection
Agent only, the information set forth under the heading "The Portfolio Selection Agent").

The Issuers (and, with respect to the Information contained in this Offering Circular under the
heading "The Protection Buyer", the Protection Buyer and, with respect to the Information contained in
this Offering Circular under the heading "The Portfolio Selection Agent", the Portfolio Selection Agent),
having made all reasonable inquiries, confirm that the Information contained in this Offering Circular is
true and correct in all material respects and is not misleading, that the opinions and Intentions expressed
in this Offering Circular are honestly held and that there are no other facts the omission of which would
make any of such Information or the expression of any such opinions or Intentions misleading. The
Issuers (and, with respect to the Information contained in this Offering Circular under the heading "The
Protection Buyer", the Protection Buyer and, with respect to the Information contained in this Offering
Circular under the heading "The Portfolio Selection Agent", the Portfolio Selection Agent) take
responsibility accordingly.

No person has been authorized to give any information or to make any representation other than
these contained in this Offering Circular, and, if given or made, such information or representation must
not be relied upon as having been authorized. This Offering Circular does not constitute an offer to sell or
the solicitation of an offer to buy any securities other than the Notes.

The delivery of this Offering Circular at any time does not imply that the Information herein is
correct at any time subsequent to the date of this Offering Circular.

Each purchaser of the Notes must comply with all applicable laws and regulations in force in each
jurisdiction in which it purchases, offers or sells such Notes or possesses or distributes this Offering
Circular, and must obtain any consent, approval or permission required for the purchase, offer or sale by
it of such Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which
it makes such purchases, offers or sales, and none of the Issuers or the Initial Purchaser specified herein
shall have any responsibility therefor. Persons into whose possession this Offering Circular comes are
required by the Issuers and the Initial Purchaser to inform themselves about and to observe such
applicable laws and regulations. For a further description of certain restrictions on offering and sales of
the Notes, see "Transfer Restrictions" and "Underwriting". This Offering Circular does not constitute an
offer of, or an invitation to purchase, any of the Notes in any jurisdiction in which such offer or invitation
would be unlawful.

No invitation may be made to the public in the Cayman Islands to subscribe for the Notes.

INFORMATION APPLICABLE TO NON-U.S. INVESTORS

NOTICE TO RESIDENTS OF UNITED KINGDOM

There are restrictions on the offer and sale of the Notes in the United Kingdom. No action has been taken to permit the Notes to be offered to the public in the United Kingdom. This document may only be issued or passed on by reason of, or in connection with, section 21 of the Financial Services and Markets Act 2000 of the United Kingdom. It is the responsibility of all persons under whose control, or into whose possession this document comes, to inform themselves about and to ensure compliance with all applicable provisions of the Public Offers of Securities Regulations 1999 and the Financial Services and Markets Act 2000 in respect of anything done in relation to the Notes in, from or otherwise involving the United Kingdom. See "Underwriting".

NOTICE TO RESIDENTS OF GERMANY

The Notes will not be offered or sold in the Federal Republic of Germany other than in accordance with the German Securities Sales Prospectus Act of December 13, 1990 of the Federal Republic of Germany, as amended (Wertpapierverkaufsprospektgesetz), the German Investment Act of December 19, 2003 of the Federal Republic of Germany, as amended (Investmentsgesetz) and any other legal or regulatory requirements applicable in the Federal Republic of Germany governing the issue, offer and sale of securities. Upon the request of a German investor, the issuer will (i) make available to the German investors the information required pursuant to § 5 (1) sentence 1 nos. 1 and 2 in connection with sentence 3, § 5 (1) sentence 1 no. 4 and § 5 (2) sentence 1 of the Investmentgesetz (the "German Investment Tax Act"), (ii) furnish to the German Federal Tax Office (Bundesamt für Finanzen) upon its request within three months proof of the correctness of the information referred to under clause (i) above in accordance with § 5 (1) sentence 1 no. 5 of the German Investment Tax Act and (iii) make the publication in the electronic edition of the Federal Gazette (elektronischer Bundesanzeiger) required pursuant to § 5 (1) sentence 1 no. 3 of the German Investment Tax Act In the German language. All prospective German investors are urged to seek independent tax advice. The Initial Purchaser does not give tax advice.

NOTICE TO RESIDENTS OF NETHERLANDS

The Notes may not be offered or sold, transferred or delivered, as part of their initial distribution or at any time thereafter, directly or indirectly, to any individual or legal entity in the Netherlands other than to individuals or legal entities who or which trade or invest in securities in the conduct of their profession or trade, which includes banks, securities intermediaries, insurance companies, pension funds, other institutional investors and commercial enterprises which, as an ancillary activity, regularly trade or invest in securities.

NOTICE TO RESIDENTS OF HONG KONG

The Notes may not be offered or sold by means of any document other than to persons whose ordinary business is to buy or sell shares or debentures, whether as principal or agent, or in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32) of Hong Kong, and no advertisement, invitation or document relating to the Notes may be issued, whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Notes which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" within the meaning of the Securities and Futures Ordinance (Cap. 571) of Hong Kong and any rules made thereunder.
NOTICE TO RESIDENTS OF SINGAPORE

This Offering Circular has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this Offering Circular and any other document or material in connection with the offer or sale, or invitation or subscription or purchase, of the Notes may not be circulated or distributed, nor may the Notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than under circumstances in which such offer, sale or invitation does not constitute an offer or sale, or invitation for subscription or purchase, of the Notes to the public in Singapore.

NOTICE TO RESIDENTS OF JAPAN

The Notes have not been registered under the Securities and Exchange Law of Japan and are not being offered or sold and may not be offered or sold, directly or indirectly, in Japan or to or for the account of any resident of Japan, except (1) pursuant to an exemption from the registration requirements of the Securities and Exchange Law of Japan and (2) in compliance with any other applicable requirements of Japanese law.

INFORMATION APPLICABLE TO U.S. INVESTORS

This Offering Circular is confidential and is being furnished by the Issuers in connection with an offering exempt from registration under the Securities Act, solely for the purpose of enabling a prospective investor to consider the purchase of the Notes described herein. Except as otherwise authorized under the following paragraph, any reproduction or distribution of this Offering Circular, in whole or in part, and any disclosure of its contents or use of any information herein for any purpose other than considering an investment in the Notes is prohibited. Each offeree of the Notes, by accepting delivery of this Offering Circular, agrees to the foregoing.

EACH PROSPECTIVE INVESTOR (AND EACH EMPLOYEE, REPRESENTATIVE, OR OTHER AGENT OF SUCH PROSPECTIVE INVESTOR) MAY DISCLOSE TO ANY AND ALL PERSONS, WITHOUT LIMITATIONS OF ANY KIND, THE TAX TREATMENT AND TAX STRUCTURE OF THE TRANSACTION AND ALL MATERIALS OF ANY KIND (INCLUDING OPINION OR OTHER TAX ANALYSES) THAT ARE PROVIDED TO THE PROSPECTIVE INVESTOR RELATING TO SUCH TAX TREATMENT AND TAX STRUCTURE. HOWEVER, ANY SUCH INFORMATION RELATING TO THE TAX TREATMENT OR TAX STRUCTURE IS REQUIRED TO BE KEPT CONFIDENTIAL TO THE EXTENT REASONABLY NECESSARY TO COMPLY WITH APPLICABLE FEDERAL OR STATE SECURITIES LAWS. FOR PURPOSES OF THIS PARAGRAPH, THE TERMS "TAX TREATMENT", "TAX STRUCTURE", AND "TAX ANALYSES" HAVE THE MEANING GIVEN TO SUCH TERMS UNDER UNITED STATES TREASURY REGULATION SECTION 1.6111-4(e) AND APPLICABLE STATE OR LOCAL LAW.

THE NOTES OFFERED HEREIN HAVE NOT BEEN RECOMMENDED BY ANY UNITED STATES FEDERAL OR STATE SECURITIES COMMISSION OR REGULATORY AUTHORITY. FURTHERMORE, THE FOREGOING AUTHORITIES HAVE NOT CONFRIMED THE ACCURACY OR DETERMINED THE ADEQUACY OF THIS DOCUMENT. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

NOTICE TO NEW HAMPSHIRE RESIDENTS

NEITHER THE FACT THAT A REGISTRATION STATEMENT OR AN APPLICATION FOR A LICENSE HAS BEEN FILED UNDER CHAPTER 421-B OF THE NEW HAMPSHIRE REVISED STATUTES (THE "RSA") WITH THE STATE OF NEW HAMPSHIRE NOR THE FACT THAT A SECURITY IS EFFECTIVELY
REGISTERED OR A PERSON IS LICENSED IN THE STATE OF NEW HAMPSHIRE CONSTITUTES A FINDING BY THE SECRETARY OF STATE OF NEW HAMPSHIRE THAT ANY DOCUMENT FILED UNDER RSA 421-B IS TRUE, COMPLETE AND NOT MISLEADING. NEITHER ANY SUCH FACT NOR THE FACT THAT AN EXEMPTION OR EXCEPTION IS AVAILABLE FOR A SECURITY OR A TRANSACTION MEANS THAT THE SECRETARY OF STATE HAS PASSED IN ANY WAY UPON THE MERITS OR QUALIFICATIONS OF, OR RECOMMENDED OR GIVEN APPROVAL TO, ANY PERSON, SECURITY, OR TRANSACTION. IT IS UNLAWFUL TO MAKE, OR CAUSE TO BE MADE, TO ANY PROSPECTIVE PURCHASER, CUSTOMER, OR CLIENT ANY REPRESENTATION INCONSISTENT WITH THE PROVISIONS OF THIS PARAGRAPH.

AVAILABLE INFORMATION

To permit compliance with the Securities Act in connection with the sale of the Notes in reliance on Rule 144A, the Issuer will be required under the Indenture and the Issuing and Paying Agency Agreement to furnish upon request to a Holder or beneficial owner who is a Qualified Institutional Buyer of a Note sold in reliance on Rule 144A or a prospective investor who is a Qualified Institutional Buyer designated by such Holder or beneficial owner the information required to be delivered under Rule 144A(a)(4) under the Securities Act if at the time of the request the Issuer is neither a reporting company under Section 13 or Section 15(d) of the United States Securities Exchange Act of 1934, as amended, nor exempt from reporting pursuant to Rule 12g-3-2(b) under the Exchange Act.

In accordance with the indenture and the Issuing and Paying Agency Agreement, the Trustee and the Issuing and Paying Agent, as applicable, also will make available for inspection by Holders of the Notes certain reports or communications received from the Issuer.

Prior to making an investment decision, prospective investors should ensure that they have sufficient knowledge, experience and access to professional advisors to make their own legal, tax, accounting and financial evaluation of the merits and risks of investment in the Notes and should carefully consider the nature of the Notes, the matters set forth elsewhere in this Offering Circular and the extent of their exposure to the risks described in “Risk Factors”.

Confidential Treatment Requested by Goldman Sachs
TRANSACTION OVERVIEW

This overview is not complete and is qualified in its entirety by reference to (i) the detailed information appearing elsewhere in this Offering Circular, (ii) the terms and conditions of the Notes and (iii) the provisions of the documents referred to in this Offering Circular.

1. **Credit Default Swap**
   - **Fixed Payment**: 
   - **Cash Settlement Amounts**

2. **Stand Swap**
   - **Applicable Index**: 
   - **Collateral Interest Amount**:
     - **ABACUS 2007-AC1, Ltd.**
     - **ABACUS 2007-AC1, Inc.**

3. **Collateralized Payment Receivables**
   - **Applicable Index**: 
   - **Collateral Interest Amount**:

On or prior to the Closing Date, the initial Reference Portfolio will be selected by the Portfolio Selection Agent.

On the Closing Date, the Notes will be issued in the Principal Amount set forth in the “Summary-Rates”. From time to time following the Closing Date, additional Notes of any Class may be issued.

The Issuer will use the net proceeds of the offering of the Notes, together with part or all of the Interest Payment, to purchase the initial Collateral Security and Eligible Investments selected by the Protection Buyer, provided that, for each Applicable Currency, the aggregate principal amount of Collateral Security and Eligible Investments denominated in such Applicable Currency and purchased with the proceeds of the Offering and issued as a Note is at least 10% of the Currency Adjusted Aggregate Outstanding Amount of Notes and Notes of the same Class denominated in such Applicable Currency.

On the Closing Date, the Issuer and Goldman Sachs Capital Markets, L.P., as the Protection Buyer, will enter into the Credit Default Swap whereby the Issuer (x) pays to the Protection Buyer the interest on the Reference Portfolio in respect of the Subordinated Debt (y) receives from the Protection Buyer an amount equal to the return on the Reference Portfolio in respect of the Subordinated Debt. Following the occurrence of a Credit Event and the satisfaction of the Conversion to Settlement, the Issuer will pay to the Protection Buyer an amount equal to the Collateral Interest Amount. If the return on the Credit Default Swap Contract exceeds the return on the Reference Portfolio, the Issuer will pay to the Protection Buyer an amount equal to the difference between the return on the Credit Default Swap Contract and the return on the Reference Portfolio. If the return on the Credit Default Swap Contract is less than the return on the Reference Portfolio, the Protection Buyer will pay to the Issuer an amount equal to the difference between the return on the Reference Portfolio and the return on the Credit Default Swap Contract.

On the Closing Date, the Issuer and Goldman Sachs Capital Markets, L.P., as the Protection Buyer, will enter into the Collateralized Payment Receivables Swap whereby the Issuer (x) pays to the Protection Buyer the Interest Payment on the Reference Portfolio in respect of the Subordinated Debt (y) receives from the Protection Buyer an amount equal to the return on the Reference Portfolio in respect of the Subordinated Debt. Following the occurrence of a Credit Event and the satisfaction of the Conversion to Settlement, the Issuer will pay to the Protection Buyer an amount equal to the Collateral Interest Amount. If the return on the Collateralized Payment Receivables Swap Contract exceeds the return on the Reference Portfolio, the Issuer will pay to the Protection Buyer an amount equal to the difference between the return on the Collateralized Payment Receivables Swap Contract and the return on the Reference Portfolio. If the return on the Collateralized Payment Receivables Swap Contract is less than the return on the Reference Portfolio, the Protection Buyer will pay to the Issuer an amount equal to the difference between the return on the Reference Portfolio and the return on the Collateralized Payment Receivables Swap Contract.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918040
SUMMARY

The following summary is qualified in its entirety by the detailed information appearing elsewhere in this Offering Circular. For a discussion of certain factors to be considered in connection with an investment in the Notes, see "Risk Factors".

Capitalized terms used herein but not defined shall have the meanings set forth under "Glossary of Defined Terms".

The Issuer.......................... ABACLUS 2007-AC1, Ltd. (the "Issuer"), a company incorporated under the laws of the Cayman Islands for the sole purpose of issuing the Notes, acquiring the Collateral, entering into the Credit Default Swap, the Basis Swap, the Collateral Put Agreement and the Portfolio Selection Agreement and engaging in certain related transactions.

The Issuer will not have any material assets other than (i) the Collateral, (ii) its rights under the Credit Default Swap, the Basis Swap, the Collateral Put Agreement and the Portfolio Selection Agreement and (iii) certain other assets.

ABACLUS 2007-AC1, Inc. (the "Co-Issuer") and, together with the Issuer, the "Issuers", a company incorporated under the laws of the State of Delaware for the sole purpose of co-issuing the Co-Issued Notes.

The Co-Issuer will not have any assets (other than $10 of equity capital) and will not pledge any assets to secure the Notes. The Co-Issuer will have no claim against the Issuer in respect of the Issuer Assets.

The authorized share capital of the Issuer consists of 500 ordinary shares, par value $1.00 per share (the "Issuer Ordinary Shares"). 500 of which will be issued on or prior to the Closing Date. The Issuer Ordinary Shares that have been issued will be held by Magpies Finance Limited, a licensed trust company incorporated in the Cayman Islands and any successor thereto (the "Administrator"), as the trustee pursuant to the terms of a charitable trust (the "Share Trustee"). The common stock of the Co-Issuer will be held by the Issuer.

The Portfolio Selection Agent...... The Initial Reference Portfolio will be selected by ACA Management, LLC. ("ACA Management") and in such capacity, the "Portfolio Selection Agent" pursuant to the terms of the Portfolio Selection Agreement, dated as of the Closing Date (the "Portfolio Selection Agreement"), between the Issuer and the Portfolio Selection Agent. The Portfolio Selection Agent will not provide any other services to the Issuer or act as the "collateral manager" for the Collateral. The Portfolio Selection Agent will not have any fiduciary duties or other duties to the Issuer or to the holders of the Notes and will not have any ability to direct the Trustee to dispose of any items of Collateral. See "The Portfolio Selection Agent" and "The Portfolio Selection Agreement".
The Issuer Notes will be issued in accordance with one or more deeds of covenant (each, a "Deed of Covenant") and will be subject to the Issuing and Paying Agency Agreement, dated as of the Closing Date including the terms and conditions of such Notes contained therein (the "Issuing and Paying Agency Agreement"). The Issuing and Paying Agency Agreement, between the Issuer and LaSalle Bank National Association, as Issuing and Paying Agent (in such capacity, the "Issuing and Paying Agent"). See "Description of Notes—The Issuing and Paying Agency Agreement."

Status and Subordination

The Co-Issued Notes will be limited recourse obligations of the Issuer and the Issuer Notes will be limited recourse obligations of the Issuer. On (i) each Payment Date and (ii) any other Business Day on which Currency Adjusted Notional Principal Adjustment Amounts are paid by the Issuer to the Noteholders, the Class SG Notes will be senior in right of payment to the Class A-1 Notes; the Class A-1 Notes will be senior in right of payment to the Class A-2 Notes; the Class A-2 Notes will be senior in right of payment to the Class B Notes; the Class B Notes will be senior in right of payment to the Class C Notes; the Class C Notes will be senior in right of payment to the Class D Notes and the Class D Notes will be senior in right of payment to the Class FL Notes.

Use of Proceeds

The aggregate net proceeds of the offering of the Notes are expected to equal approximately $192,000,000 (including the USD Equivalent of the Notes denominated in Approved Currencies other than Dollars). The Issuer will use such net proceeds, together with part or all of the Upfront Payment, to purchase Collateral Securities and Eligible Investments that will have an aggregate principal amount of at least $192,000,000 (including the USD Equivalent of the Collateral Securities denominated in Approved Currencies other than Dollars); provided that, for each Approved Currency, the aggregate principal amount of Collateral Securities and Eligible Investments denominated in such Approved Currency and purchased with the proceeds of the offering will equal or exceed the Currency Adjusted Aggregate Outstanding Amount of Notes denominated in such Approved Currency on the Closing Date.

Distributions of Interest Proceeds

Interest Proceeds will be distributable monthly to Holders of the Notes in accordance with the Priority of Payments. See "Description of Notes—Priority of Payments."

Non-Call Period

With respect to each Series of Notes issued on the Closing Date, the period from the Closing Date to and including the Business Day immediately preceding the April 2009 Payment Date and, with respect to any Series of Notes issued after the Closing Date, the period designated for such Series at the time of issuance in the related offering circular supplement (the "Non-Call Period"). So long as the Non-Call Period for each Series of Notes Outstanding has expired, the Notes will be redeemed in full at

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001916043
the option of the Protection Buyer if the Protection Buyer elects to terminate the Credit Default Swap prior to the Scheduled Termination Date and certain conditions are satisfied. See "Description of the Notes—Optional Redemption in Whole and Partial Optional Redemption", "Description of the Notes—Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date and Mandatory Redemption Date" and "The Credit Default Swap—Credit Default Swap Early Termination—Credit Default Swap Termination Events".

After the applicable Non-Call Period, one or more Series of Notes may be redeemed in full if the Protection Buyer, in its sole discretion, elects to redeem such Series prior to its Stated Maturity and certain conditions are satisfied, in addition, if the Protection Buyer and/or one or more Affiliates thereof acquire any Notes prior to the end of the related Series' applicable Non-Call Period (such Notes, "Protection Buyer Notes"), such Notes may be redeemed notwithstanding that any such redemption may occur during the applicable Non-Call Period. See "Description of the Notes—Optional Redemption in Whole and Partial Optional Redemption", "Description of the Notes—Priority of Payments—Principal Proceeds—Other Payment Dates" and "The Credit Default Swap—Payments—Payment on a Partial Optional Redemption Date".

### Principal Payments on the Notes

The following table sets forth the general circumstances and dates upon which Holders of the Notes will receive principal payments on their Notes prior to the Stated Maturity:

See "Description of the Notes—Principal", "Description of the Notes—Optional Redemption in Whole and Partial Optional"
Redemption", "Description of the Notes—Mandatory Redemption", "Description of the Notes—Priority of Payments" and "Description of the Notes—The Indenture—Events of Default".

Decrease in the Class Notional Amount of each Class of Notes

The Class Notional Amount of each Class of Notes will be decreased by an amount (as expressed in Dollars) equal to:

(i) on the 5th Business Day following the calculation of any Loss Amount, if greater than zero, the lesser of (a) the aggregate Loss Amount determined on the related Credit Default Swap Calculation Date times (b) the Class Notional Amount of all Classes of Notes that are subordinated to such Class immediately prior to such determination and (ii) the Class Notional Amount of such Class immediately prior to such determination (such amount, the "Uncapped Credit Event Adjustment Amount"); and

(ii) on the Payment Date immediately following the Due Period in which such Reference Obligation Amortization Amount is determined by the Credit Default Swap Calculation Agent on one or more Reference Obligation(s), if greater than zero, the lesser of (a) the aggregate Notional Principal Amount allocable on such date less (b) the Class Notional Amount of all Classes of Notes that are senior to such Class immediately prior to such determination, and (ii) the Class Notional Amount of such Class immediately prior to such determination (such amount, the "Uncapped Notional Principal Adjustment Amount").

On any date of determination, increases and decreases to the Class Notional Amount of any Class of Notes will be determined by giving effect, in the following order: (i) aggregate Loss Amount (if any), (ii) aggregate Reference Obligation Reimbursement Amount (if any), and (iii) aggregate Notional Principal Amount (if any).

See "Description of Notes—Principal".

Increase in the Class Notional Amount of each Class of Notes

On the Payment Date immediately following the Due Period during which a Reference Obligation Reimbursement Amount is determined by the Credit Default Swap Calculation Agent with respect to one or more Reference Obligation(s), and so long as such Reference Obligation(s) remains in the Reference Portfolio at the time of such Reference Obligation Reimbursement, the Class Notional Amount of each Class of Notes will be increased by an amount (as expressed in Dollars) equal to, if greater than zero, the lesser of (i) such Reference Obligation Reimbursement Amount less the sum of the OIE Class Notional Amount...
Differentials for the Classes of Notes that are senior to such Class immediately prior to such determination, and (ii) the ICE Class Notional Amount Differential of such Class immediately prior to such determination (such amount, the "Unscaled Reimbursement Adjustment Amount") (if any).

On any date of determination, increases and decreases to the Class Notional Amount of any Class of Notes will be determined by giving effect, in the following order, to the (i) aggregate Loss Amount (if any), (ii) aggregate Reference Obligation Reimbursement Amount (if any) and (iii) aggregate Notional Principal Amount (if any).

See "Description of Notes—Principal".

Decrease in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes

The Aggregate USD Equivalent Outstanding Amount of each Class of Notes will be decreased by an amount (as expressed in Dollars) equal to:

(i) the holder Business Day following the calculation of any Loss Amount, without paying any principal on such Class of Notes, the product of (a) the related Unscaled Credit Event Adjustment Amount and (b) the related Note Scaling Factor (such amount determined under this subclause (i), the "Credit Event Adjustment Amount");

(ii) the Payment Date immediately following the Due Period in which a Reference Obligation Amortization Amount is determined by the Credit Default Swap Calculation Agent on one or more Reference Obligation(s), a payment of principal representing the product of (a) the related Unscaled Notional Principal Adjustment Amount and (b) the related Note Scaling Factor (such amount determined under this subclause (ii), the "Notional Principal Adjustment Amount");

(iii) on any Stated Maturity related to a Series of such Class, after giving effect to clauses (i) and (iv) above, the Aggregate USD Equivalent Outstanding Amount of each such Series maturing on such date; and

(iv) on a Partial Optional Redemption Date, after giving effect to clauses (i) through (iii) above, with respect to a Class of Notes for which (A) one or more Series of such Class is redeemed in full on such date or (B) Protection Buyer Notes are redeemed, in each case in connection with a Partial Optional Redemption, a payment of principal representing the Aggregate USD Equivalent Outstanding Amount of the Notes of such Class redeemed in connection with such Partial Optional Redemption.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918047
For the avoidance of doubt, with respect to a Class with more than one Series Outstanding at such time of determination, any pre-rate allocations made on such date pursuant to subclauses (i) through (iv) above will be based on the Aggregate USD Equivalent Outstanding Amount of each applicable Series of such Class, as expressed in Dollars.

On any date of determination, increases and decreases to the Aggregate USD Equivalent Outstanding Amount of any Class of Notes will be determined by giving effect, in the following order, to (i) the aggregate related Unsecured Credit Event Adjustment Amount (if any), (ii) the aggregate related Unsecured Reinstatement Adjustment Amount (if any) and (iii) the aggregate related Unsecured Principal Adjustment Amount (if any).

See “Description of Notes—Principal”.

The Aggregate USD Equivalent Outstanding Amount of each Class of Notes will be increased by an amount (as expressed in Dollars) equal to:

(i) on the Payment Date immediately following the Due Period during which a Reference Obligation Reimbursement Amount is determined by the Credit Default Swap Calculation Agent (with the related Currency Adjusted Reinstatement Adjustment Amount other than with respect to that portion of Reference Obligation Repayment Amount which will be applied to make principal payments on the Notes on such Payment Date) to be invested in Collateral Securities, or pending such investment, in Eligible Investments, as described under “—The Collateral Securities”), the product of (a) the related Unsecured Reinstatement Adjustment Amount and (b) the related Note Scaling Factor with respect to each Class of Notes (such amount, the “Reinstatement Adjustment Amount”); provided that the Aggregate USD Equivalent Outstanding Amount of each Class of Notes may only be increased by an amount less than or equal to the ICE Aggregate USD Equivalent Outstanding Amount Differential of such Class; and

(ii) on any day on which additional Notes of such Class are issued, the principal amount of each additional issuance (or the USD Equivalent of such principal amount if issued in an Approved Currency other than Dollars).

For the avoidance of doubt, with respect to a Class with more than one Series Outstanding at such time of determination, any pre-rate allocations made on such date pursuant to subclause (i) above will be based on the Aggregate USD Equivalent Outstanding Amount of each Series of such Class, as expressed in Dollars.
Decrease in the Currency Adjusted Aggregate Outstanding Amount of each Series of Notes

The Currency Adjusted Aggregate Outstanding Amount of any Series of Notes will be decreased, with respect to (A) any event described under clauses (i) and (ii) of "Decrease in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes", by an amount equal to the quotient of (a) such Notes’ allocation of any related Credit Event Adjustment Amount or National Principal Adjustment Amount, as applicable, divided by (b) the Applicable Series Foreign Exchange Rate (such quotient, the "Currency Adjusted Credit Event Adjustment Amount" or the "Currency Adjusted National Principal Adjustment Amount", as applicable), (ii) on the Stated Maturity with respect to a Series of Notes, the Currency Adjusted Aggregate Outstanding Amount of such Notes maturing on such date, after giving effect to any reductions pursuant to subclauses (A) above and (C) a Partial Optional Redemption of such Notes, by the Currency Adjusted Aggregate Outstanding Amount of such Notes, after giving effect to any reductions pursuant to subclauses (A) and (B) above.

Increase in the Currency Adjusted Aggregate Outstanding Amount of each Series of Notes

The Currency Adjusted Aggregate Outstanding Amount of any Series of Notes will be increased, with respect to any event described under clause (i) of "Increase in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes", by an amount equal to the quotient of (a) such Notes’ allocation of any related Reinstatement Adjustment Amount divided by (b) the Applicable Series Foreign Exchange Rate (such quotient, the "Currency Adjusted Reinstatement Adjustment Amount").

Cancellation of Notes

A Class of Notes will be deemed to be cancelled and no longer outstanding on the date that the ICE Class National Amount of such Class has been reduced to zero.

The Credit Default Swap

Credit Default Swap

On or prior to the Closing Date, the Issuer will enter into a credit default swap transaction (the "Credit Default Swap") with Goldman Sachs Capital Markets, L.P. (in such capacity, the "Protection Buyer") pursuant to which the Issuer will sell credit protection to the Protection Buyer with respect to a portfolio of Reference Obligations consisting of RMBS.

Documentation

The Credit Default Swap will be documented by a confirmation that will be governed by, from part of and be subject to a 1992 Master Agreement (Multicurrency-Cross-Border) (the "ISDA Master Agreement") published by the International Swaps and Derivatives Association, Inc. ("ISDA"), and Schedule thereto. The definitions and provisions of the ISDA Credit Derivatives Definitions will be incorporated into the Credit Default Swap by reference (as supplemented by the May 2003 Supplement to such definitions published by ISDA), subject to certain
amendments as set out in the Credit Default Swap. The Credit
Default Swap will be governed by New York law.

Reference Portfolio ............... On the Closing Date, it is expected that the Credit Default Swap
will reference 90 Reference Obligations (collectively, the
"Reference Portfolio"). See Schedule A.

The Protection Buyer is not required to have any credit exposure
to any Reference Entity or any Reference Obligation.

Modification of the Reference Portfolio ............... The Reference Portfolio is static and no replacement Reference Obligations may be included in the Reference Portfolio.
Following the redemption or amortization in full of a Reference Obligation, the Reference Obligation that has been redeemed or amortized in full, will be removed from the Reference Portfolio. Subject to the foregoing, if the Reference Obligation National Amount of a Reference Obligation that suffered one or more Credit Events is reduced to zero at any time on or prior to the Scheduled Termination Date and remains at zero for a period of one calendar year, such Reference Obligation shall be removed from the Reference Portfolio as of the last day of such one calendar year period; provided that, if such Reference Obligation that suffered one or more Credit Events experiences a Reference Obligation Reimbursement for which the Reference Obligation Repayment Amount equals the ICE Reference Obligation National Amount Differential of such Reference Obligation immediately prior to such determination, the Reference Obligation shall be removed from the Reference Portfolio immediately following the determination of such Reference Obligation Repayment Amount by the Credit Default Swap Calculation Agent.

Credit Events ..................... The following Credit Events (each a "Credit Event") shall apply
with respect to each Reference Obligation:

(i) Failure to Pay Principal, or
(ii) Waivedown.

See "The Credit Default Swap—Credit Events".

Conditions to Settlement ............ The "Conditions to Settlement" will be satisfied upon delivery
to the Issuer and the Trustee of a Credit Event Notice and a
Notice of Publicly Available Information.

Notifying Party ..................... The Protection Buyer.

Credit Default Swap Calculation Agent .......... Goldman Sachs Capital Markets, L.P. will be the calculation agent (in this capacity the "Credit Default Swap Calculation Agent") under the Credit Default Swap.

Settlement Method ................ Cash.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918050
Footnote Exhibits - Page 4830

Loss Amount

On the Business Day on which the Protection Buyer satisfied the Conditions to Settlement (in each case, a "Credit Default Swap Calculation Date"). the Credit Default Swap Calculation Agent will determine the loss amount (a "Loss Amount") with respect to the related Credit Event as follows:

(a) with respect to a Defaulted, the Loss Amount will be an amount equal to the related Defaulted Amount; and

(b) with respect to a Failure to Pay Principal, the Loss Amount will be an amount equal to the related Principal Shortfall Amount.

Cash Settlement Amount

On the fifth Business Day following a Credit Default Swap Calculation Date (a "Cash Default Swap Settlement Date"), subject to the provisions described in the following paragraph, the issuer will pay to the Protection Buyer an amount (a "Cash Settlement Amount") equal to the aggregate of any Currency Adjusted Credit Event Adjustment Amounts determined as such day payable in the currency of such Currency Adjusted Credit Event Adjustment Amounts.

Pursuant to the terms of the Credit Default Swap, if the liquidation proceeds of Eligible Investments and Collateral Securities would have been sufficient to pay a Cash Settlement Amount had such Collateral (other than Put Excluded Collateral) been liquidated at least at 100% of par (instead of below 100% of par), the issuer will be deemed to have paid such Cash Settlement Amount in full upon the Protection Buyer’s receipt of the actual related liquidation proceeds.

See "The Credit Default Swap—Payments".

Reimbursement following a Credit Event

If, after the occurrence of a Credit Event, a Reference Obligation Reimbursement occurs with respect to the related Reference Obligation, and so long as such Reference Obligation remains in the Reference Portfolio at the time of such Reference Obligation Reimbursement, the Protection Buyer will pay to the Issuer, on the Payment Date immediately following the Due Period during which the related Reference Obligation Reimbursement Amount is determined by the Credit Default Swap Calculation Agent, an amount equal to the aggregate of:

(a) the Currency Adjusted Restatement Adjustment Amounts payable on such date; and

(b) the ICE Currency Adjusted Interest Reimbursement Amounts payable on such date.

Credit Default Swap Early Termination

The Credit Default Swap may be terminated by the Issuer or by the Protection Buyer ("Credit Default Swap Early Termination") at the option of the non-defaulting or non-affected party, as applicable, upon the occurrence of a Credit Default Swap Event of Default or a Credit Default Swap Termination Event. Upon the Trustee becoming aware of the occurrence of
any event that gives rise to the right of the Issuer to terminate the Credit Default Swap, the Basis Swap or the Collateral Put Agreement, the Trustee or the Issuing and Paying Agent, as applicable, will as promptly as practicable notify the Noteholders of such event and will terminate any such agreement on behalf of the Issuer at the direction of (i) in the case of the Credit Default Swap or the Basis Swap, a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes and (ii) in the case of the Collateral Put Agreement, 100% of the Aggregate USD Equivalent Outstanding Amount of the Notes, in each case voting as a single class. In connection with any Noteholder vote to terminate the Collateral Put Agreement, any Notes held by or on behalf of the Collateral Put Provider or any of its Affiliates will have no voting rights and will be deemed not to be Outstanding in connection with any such vote.

See "The Credit Default Swap—Credit Default Swap Early Termination".

The Collateral Securities

The Initial Collateral Securities...  On the Closing Date, the Issuer will use part of the proceeds of the offering to purchase at least $192,000,000 principal amount of Collateral Securities and Eligible Investments selected by the Protection Buyer as described in "The Collateral Securities—The Initial Collateral Securities" (including the USD Equivalent of the Notes denominated in Approved Currencies other than Dollars); provided that, for each Approved Currency, the aggregate principal amount of Collateral Securities and Eligible Investments denominated in such Approved Currency and purchased with the proceeds of the offering will equal or exceed the Currency Adjusted Aggregate Outstanding Amount of Notes denominated in such Approved Currency on the Closing Date.

Supplemental Collateral Securities

Substitution Any Noteholder may request that the Issuer substitute one or more Collateral Securities in accordance with the terms of the Indenture.

See "Collateral Securities—Substitution of Collateral Securities".

Purchase of Supplemental Collateral Securities  Upon or subsequent to:

(i) the redemption or amortization, in whole or in part, of a Collateral Security (an "Amortized Collateral Security") and the principal amount of such redemption or amortization, the "Collateral Security Amortization Amount");

(ii) the additional issuance of Notes from time to time on any Payment Date after the Closing Date (the principal amount of such issuance, the "Additional Issuance Principal Amount").
(i) the receipt of Disposition Proceeds in connection with the liquidation of any principal amount of a Collateral Security in excess of the amount necessary to pay any Cash Settlement Amount, Currency Adjusted Notional Principal Adjustment Amount or in connection with a Partial Optional Redemption or a Stated Maturity (for the avoidance of doubt, excluding any Excess Disposition Proceeds) (such excess principal amount, the “Excess Principal Amount”), or

(iv) the issuer’s receipt of a Currency Adjusted Reinstatement Adjustment Amount (other than with respect to that portion of any Reference Obligation Repayment Amount which shall be applied to make principal payments on the Notes on such Payment Date),

the Protection Buyer may, in its sole discretion, direct the Issuer to purchase (and the Issuer shall so purchase) one or more replacement Collateral Securities or additional Collateral Securities (together, the “Supplemental Collateral Securities”), as the case may be, subject to (a) the Collateral Security Eligibility Criteria, (b) the Collateral Weighted Average Life Test and (c) the Collateral Security Quantity Constraint (in each case as confirmed by the Collateral Administrator based on information and calculations supplied by the Credit Default Swap Calculation Agent).

provided that (1) in the case of clauses (i) and (ii) above, such Supplemental Collateral Securities will be denominated in the same Approved Currency as the Collateral Security that has been amortized, redeemed, or otherwise disposed of and (2) in the case of clauses (iii) and (v) above, such Supplemental Collateral Securities will be denominated in the same currency as such Notes that are issued or reinstated. See “The Collateral Securities—Supplemental Collateral Securities”.

Pending any such reinvestment, the Issuer will invest the Collateral Security Amortization Amount, Additional Issuance Principal Amount, Excess Principal Amount or Currency Adjusted Reinstatement Adjustment Amount, as the case may be, in Eligible Investments.

If the Issuer liquidates a Collateral Security in order to pay a Cash Settlement Amount, a Currency Adjusted Notional Principal Adjustment Amount or in connection with a Partial Optional Redemption or a Stated Maturity, as the case may be, and the Issuer receives Disposition Proceeds in respect of such Collateral Security which exceed 100% of the principal amount of such Collateral Security (the excess proceeds described above, excluding any accrued and unpaid interest, “Excess Disposition Proceeds”), the Protection Buyer may, in its sole discretion, direct the Issuer to use such Excess Disposition Proceeds to purchase (and the Issuer shall so purchase) one or more Supplemental Collateral Securities in any Approved Currency, subject to clauses (iv), (v) and (vi) through (viii) of the Collateral Security Eligibility Criteria (as confirmed by the Collateral Administrator based on information and calculations supplied by the Credit Default Swap Calculation Agent).
"The Collateral Securities—Supplemental Collateral Securities": Pending any such reinvestment, the Issuer will invest such excess disposition proceeds in eligible investments.

Liquidation of Collateral Securities

The Collateral Securities will only be liquidated in connection with the events described below:

(i) On a Credit Default Swap Calculation Date, the Issuer or the Trustee will notify the Collateral Disposal Agent to liquidate Collateral Securities in an amount (assuming that the Issuer will receive at least 100% of par for such Collateral Securities in any such liquidation, other than Put-Excluded Collateral) that, when added to the proceeds from the liquidation of any Eligible Investments (assuming that the Issuer will receive at least 100% of par for such Eligible Investments, other than Put-Excluded Collateral), would be sufficient to pay the Protection Buyer the Cash Settlement Amount on the related Credit Default Swap Settlement Date;

(ii) Five Business Days prior to the Payment Date immediately following the Due Period in which a Reference Obligation Amortization Amount is determined, in each case by the Credit Default Swap Calculation Agent on one or more Reference Obligations(s), if any Currency-Adjusted Notional Principal Adjustment Amount will be paid to any Noteholders by the Issuer on the related Payment Date, the Issuer or the Trustee will notify the Collateral Disposal Agent to liquidate Collateral Securities in an amount (assuming that the Issuer will receive at least 100% of par for such Collateral Securities in any such liquidation, other than in connection with any Put-Excluded Collateral) that, when added to the proceeds from the liquidation of any Eligible Investments (assuming that the Issuer will receive at least 100% of par for such Eligible Investments, other than Put-Excluded Collateral), would be sufficient to pay to the applicable Noteholders such Currency-Adjusted Notional Principal Adjustment Amount on the related Payment Date (provided that if the Issuer will not receive at least 100% of par for a Selected Collateral Security, such Selected Collateral Security (other than Put-Excluded Collateral) will not be liquidated but the Trustee will instead deliver such Selected Collateral Security to the Collateral Put Provider in exchange for the payment by the Collateral Put Provider to the Issuer of an amount equal to a price of 100% for any such Selected Collateral Security, plus accrued and unpaid interest thereon);

(iii) After the occurrence and continuation of an Event of Default, if the Trustee is directed to liquidate the Collateral Securities in accordance with the terms of the
Footnote Exhibits - Page 4834

In connection with any Optional Redemption in Whole, the issuer or the Trustee will notify the Collateral Disposal Agent to liquidate all Collateral Securities provided that if the issuer will not receive at least 100% of par for a Selected Collateral Security, such Selected Collateral Security (other than Put Excluded Collateral) will not be liquidated but the Trustee will instead deliver such Selected Collateral Security to the Collateral Put Provider in exchange for the payment by the Collateral Put Provider to the issuer of an amount equal to 100% of par for such Selected Collateral Security, plus accrued and unpaid interest thereon.

In connection with any Partial Optional Redemption, the issuer or the Trustee will notify the Collateral Disposal Agent to liquidate Collateral Securities in an amount (assuming that the issuer will receive at least 100% of par for such Collateral Securities in any such liquidation, other than Put Excluded Collateral) that, when added to the proceeds from the liquidation of any Eligible Investments (assuming that the issuer will receive at least 100% of par for such Eligible Investments, other than Put Excluded Collateral), would be sufficient to pay to the applicable Noteholders the principal amount of such Notes redeemed in connection with such Partial Optional Redemption provided that if the issuer will not receive at least 100% of par for a Selected Collateral Security, such Selected Collateral Security (other than Put Excluded Collateral) will not be liquidated but the Trustee will instead deliver such Selected Collateral Security to the Collateral Put Provider in exchange for the payment by the Collateral Put Provider to the issuer of an amount equal to 100% of par for such Selected Collateral Security, plus accrued and unpaid interest thereon.

In connection with a Mandatory Redemption other than a Mandatory Redemption caused by a (a) termination of the Credit Default Swap pursuant to which the Protection Buyer is the defaulting party, (b) termination of the Collateral Put Agreement pursuant to which the Collateral Put Provider is the defaulting party or (c) termination of the Basis Swap pursuant to which the Basis Swap Counterparty is the defaulting party, the issuer or the Trustee will notify the Collateral Disposal Agent to liquidate all Collateral Securities.

In connection with a Mandatory Redemption other than as described in subclause (vi) above, Collateral Securities will be selected for liquidation and/or delivery to Noteholders pursuant to the Special Termination Liquidation Procedure.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918055
in connection with the Stated Maturity of any Series of Notes, the Issuer or Trustee will notify the Collateral Disposal Agent to liquidate Collateral Securities in an amount (assuming that the Issuer will receive at least 100% of par for such Collateral Securities) in any such liquidation, other than Put Excluded Collateral. If, when added to the proceeds from the liquidation of any Eligible Investments (assuming that the Issuer will receive at least 100% of par for such Eligible Investments, other than Put Excluded Collateral), would be sufficient to pay the applicable Noteholders the principal amount of such Notes maturing on the related Stated Maturity (provided that if the Issuer will not receive at least 100% of par for a Selected Collateral Security, such Selected Collateral Security (other than Put Excluded Collateral) will not be liquidated but the Trustee will instead deliver such Selected Collateral Security to the Collateral Put Provider in exchange for the payment by the Collateral Put Provider to the Issuer of an amount equal to 100% of par for such Selected Collateral Security, plus accrued and unpaid interest thereon); and

(b) in connection with the satisfaction of the replacement Counterparty Procedures, the Issuer, or the Trustees on behalf of the Issuer, will notify the Collateral Disposal Agent to liquidate all Collateral Securities.

The Credit Default Swap Calculation Agent will prepare information and calculations for (i) the Collateral Administrator for use in the Collateral Administrator’s confirmation of compliance of the Collateral (after the proposed addition of a Collateral Security) with any of the Collateral Security Eligibility Criteria, the Collateral Weighted Average Life Test and the Collateral Security Quantity Constraint, and (ii) the Trustee for use in the Trustee’s confirmation of the BBR Collateral Security Eligibility Criteria.

To the extent there is any difference between any of the Collateral Administrator’s or the Trustee’s (as the case may be) and the Credit Default Swap Calculation Agent’s determination of the satisfaction of any of the Collateral Security Eligibility Criteria, the Collateral Weighted Average Life Test or the Collateral Security Quantity Constraint, the Collateral Administrator will use commercially reasonable efforts to resolve such difference.

For the avoidance of doubt, the obligations of the Collateral Administrator under the Collateral Administration Agreement are
The Collateral Disposal Agreement

On or prior to the Closing Date, the Issuer will enter into a collateral disposal agreement (the "Collateral Disposal Agreement") with Goldman Sachs & Co. (in such capacity, the "Collateral Disposal Agent").

Terms

Pursuant to the terms of the Collateral Disposal Agreement, the Collateral Disposal Agent will (a) subject to subclause (b) below in connection with any partial liquidation of the portfolio of Collateral Securities, choose theSelected Collateral Securities to be liquidated (provided that no such Selected Collateral Securities will be denominated in the same currency as the Notes, the Currency Adjusted Aggregate Outstanding Amount of which is reduced by the related Credit Event Adjustment Amount, Notional Principal Adjustment Amount, Partial Optional Redemption or Stated Maturity), (ii) in connection with any liquidation of any Collateral Security, solicit bids on behalf of the Issuer and (iii) in connection with any liquidation of Collateral Securities as described in subclause (iv) under "The Collateral Securities—Liquidation of Collateral Securities", perform the acts described under "Description of the Notes—Mandatory Redemption", including, but not limited to, those acts described in the Special Terminations—Liquidation Procedures.

Additional Issuance

The Notes of any Class may be issued from time to time following the Closing Date. See "Description of the Notes—The Indenture—Additional Issuance".

Governing Law

The Co-Issued Notes, the Indenture, the Issuing and Paying Agency Agreement, the Credit Default Swap, the Basis Swap, the Collateral Put Agreement, the Collateral Disposal Agreement and the Portfolio Selection Agreement will be governed by, and construed in accordance with, the laws of the State of New York, and the Issuer Notes, the terms and conditions of the Issuer Notes (as set forth in the Issuing and Paying Agency Agreement) and each Deed of Covenant will be governed by, and construed in accordance with, the laws of the Cayman Islands.

RISK FACTORS

Prior to making an investment decision, prospective investors should carefully consider, in addition to the matters set forth elsewhere in this Offering Circular, the following factors:

Limited Liquidity and Restrictions on Transfer. There is currently no market for the Notes. Although the initial Purchaser has advised the Issuers that it intends to make a market in the Notes, the Initial Purchaser is not obligated to do so, and any such market-making with respect to the Notes may be discontinued at any time without notice. There can be no assurance that any secondary market for any of the Notes will develop, or, if a secondary market does develop, that it will provide the holders of such Notes with liquidity of investment or that it will continue for the life of such Notes. Consequently, a purchaser must be prepared to hold the Notes for an indefinite period of time or until Stated Maturity. In addition, no sale, assignment, participation, pledge or transfer of the Notes may be effected if, among other things, it would require any of the Issuer, the Co-Issuer or any of their officers or directors to register under, or otherwise be subject to, the provisions of, the Investment Company Act or any other similar legislation or regulatory action. Furthermore, the Notes will not be registered under the Securities Act or any state securities laws, and the Issuer has no plans, and is under no obligation, to register the Notes under the Securities Act. The Notes are subject to certain transfer restrictions and can be transferred only to certain transferees as described herein under “Transfer Restrictions”. Such restrictions on the transfer of the Notes may further limit their liquidity. See “Transfer Restrictions”. Application will be made to list the Notes on a stock exchange of the Issuer’s choice, if practicable, but there can be no assurance that such admission will be sought, granted or maintained.

Limited Recourse Obligations. The Co-Issuer Notes will be limited recourse obligations of the Issuers and the Issuer Notes will be limited recourse obligations of the Issuer, payable solely from the Issuer Assets pledged by the Issuer to secure the Notes. None of the Noteholders, the Initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent, the Portfolio Selection Agent, the Trustee, the Issuing and Pledging Agent, the Administrator, the Share Trustee or any Affiliate of any of the foregoing of the Issuer or any other person or entity will be obligated to make payments on the Notes. Accordingly, holders of the Notes must rely solely on distributions on the Issuer Assets pledged to secure the Notes for the payment of principal and interest thereon. If distributions on the Issuer Assets are insufficient to make payments on the Notes, no other assets (and, in particular, no assets of the Noteholders, the Initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent, the Portfolio Selection Agent, the Trustee, the Issuing and Pledging Agent, the Administrator, the Share Trustee or any Affiliate of any of the foregoing) will be available for payment of the deficiency and following realization of the Issuer Assets pledged to secure the Notes, the obligations of the Issuer to pay such deficiency shall be extinguished and shall not thereafter revive. Each Holder of a Note by its acceptance of such Note agrees to be deemed to have agreed not to take any action or institute any proceedings against the Issuer under any insolvency law applicable to the Issuer or which would be likely to cause the Issuer to be subject to, or to seek the protection of, any insolvency law applicable to the Issuer, subject to certain limited exceptions.

Subordination of the Notes. The rights of the Holders of the Notes with respect to the Issuer Assets will be subject to prior claims of the Trustee, the Issuing and Pledging Agent, the Portfolio Selection Agent, the Protection Buyer, the Basis Swap Counterparty and the Collateral Put Provider, and may be subject to the claims of any other creditor of the Issuer that is entitled to priority as a matter of law or by virtue of any nonconsensual lien that such creditor has on the Issuer Assets or pursuant to the Priority of Payments.

The Class A-1 Notes are subordinated to the Class SS Notes, Class A-2 Notes are subordinated to the Class A-1 Notes, the Class B Notes are subordinated to the Class A-2 Notes, the Class C Notes are subordinated to the Class B Notes, the Class D Notes are subordinated to the Class C Notes and the Class FL Notes are subordinated to the Class D Notes, in each case as described under “Summary—
Notes—Status and Subordination. No payments of interest from Interest Proceeds will be made on any Class of Notes on any Payment Date until current and defaulted interest on the Notes of each Class to which such Class is subordinated has been paid, and no payments of principal will be made on any such Class of Notes (i) on any Payment Date or (ii) any Business Day on which payments of Currency Adjusted Principal Adjustment Amounts are paid by the Issuer to the Noteholders, until principal of the Notes of each Class to which such Class is subordinated has been paid in accordance with the Priority of Payments described herein. See “Description of the Notes—Priority of Payments”.

In addition, if an Event of Default occurs, a Majority of the Aggregated USD Equivalent Outstanding Amount of the Notes voting as a single class will be entitled to determine the remedies to be exercised under the Indenture including the sale and liquidation of the Collateral in accordance with the procedures set forth in the Indenture. Remedies pursued by a Majority of the Aggregated USD Equivalent Outstanding Amount of the Notes voting as a single class could be adverse to the interests of the Holders of a particular Class or Classes of Notes. See “Description of the Notes—The Indenture—Events of Default.”

Mandatory Redemption and the Special Termination Liquidation Procedure. If a Mandatory Redemption occurs and the Special Termination Liquidation Procedure is applied, the Holders of the Class SS Notes, the Class A Notes, the Class B Notes and the Class C Notes voting as a single class will be entitled to determine whether Collateral Securities allocated to such Classes of Notes will be liquidated or delivered to such Noteholders in accordance with the Special Termination Liquidation Procedure. With respect to any of the Class SS Notes, the Class A Notes, the Class B Notes and the Class C Notes, such determination through voting as a single class could be adverse to the interests of the Holders of the Classes of Notes subordinated to such senior Classes, as the case may be, as Holders of any such senior Classes of Notes may elect to receive Collateral Securities with a market value in excess of the aggregated USD Equivalent Outstanding Amount of such senior Classes of Notes (plus accrued and unpaid interest thereon) rather than have the Collateral Securities allocated to such senior Classes liquidated, which would allow Holders of subordinated Classes of Notes to benefit from the liquidation of such Collateral Securities at a premium. See “Description of the Notes—Mandatory Redemption”.

Leverage. The aggregated USD Equivalent Outstanding Amount of the Notes will be $1,920,000,000 on the Closing Date (including, for the avoidance of doubt, the USD Equivalent of the Notes denominated in Approved Currencies other than Dollars). However, the Reference Portfolio National Amount will equal $2,000,000,000 on the Closing Date, which amount represents the aggregated Reference Obligation National Amount on the Closing Date. Through the Credit Default Swap, investors in the Notes will be effectively protecting the Protection Buyer’s loss protection with respect to each Reference Obligation up to the Reference Obligation National Amount of such Reference Obligation. Losses incurred will be borne by the Noteholders. Since the Reference Portfolio National Amount for the Reference Portfolio exceeds the aggregated USD Equivalent Outstanding Amount of the Notes, investors in the Notes are providing such loss protection to the Protection Buyer on a leveraged basis.

Volatility. Because investors in the Notes are providing loss protection to the Protection Buyer on a leveraged basis, the market value of the Notes may be subject to changes that are greater than the changes in market value that might occur to the Reference Portfolio. The market value of the Notes may vary over time and could be significantly less than par (or even zero) in certain circumstances.

Credit Leakage of the Notes. The Credit Default Swap will be linked to the credit of the Reference Entities. The amount payable in respect of principal of the Notes will depend upon, among other factors, whether and to the extent Credit Events have occurred under the Credit Default Swap. Under the Credit Default Swap, upon the occurrence of a Credit Event and the satisfaction of the Conditions to Settlement, the issuer will be obligated to pay the Protection Buyer a Cash Settlement Amount in an amount equal to any Currency Adjusted Credit Event Adjustment Amount. Any Cash Settlement Amount paid by the issuer will reduce the Aggregated USD Equivalent Outstanding Amount of the Notes (in reverse order of

Confidential Treatment Requested by Goldman Sachs  GS MBS-E-001918061
Footnote Exhibits - Page 4841

seniority. See "Summary—Notes—Decrease in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes". Except in the limited circumstances as described under "Summary—Notes—Increase in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes", a decrease in the Aggregate USD Equivalent Outstanding Amount of the Notes will be permanent and irreversable and the Noteholders will never receive a payment of principal in the amount of such decrease and from and after the date of such decrease, no interest will accrue on the amount of such decrease. See "—Subordination of the Notes" and "Description of the Notes—Priority of Payments".

Cash Available to Make Payments on the Notes. The ability of the Issuer to make payments on the Notes will depend primarily on several factors. To the extent (i) one or more Credit Events occur, (ii) the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider or the Collateral Disposal Agent fails to perform its obligations or (iii) there is a default in payments due in respect of any Collateral, the amount of available cash to make payments on the Notes in accordance with the Priority of Payments will be reduced. In addition, in the event that an Event of Default occurs in respect of the Notes or on the Mandatory Redemption Date, the Issuer may not be able to pay the principal of the Notes as a result of (a) paying unpaid Credit Default Swap Termination Payments, if any, owing to the Protection Buyer, (b) paying unpaid Basis Swap Termination Payments, if any, owing to the Basis Swap Counterparty, (c) amounts owed to the Collateral Put Provider pursuant to the Collateral Put Agreement and (d) the then applicable market value of the Collateral Securities being less than their principal amount. In the case of a Mandatory Redemption, the Holders of any subordinated Class of Notes could be adversely affected as described under "—Mandatory Redemption and the Special Cancellation and Payment Procedure". See "Description of the Notes—Mandatory Redemption".

Retention of a Portfolio Selection Agent. The Issuer will retain a portfolio selection agent to select the Initial Reference Portfolio, but following the Closing Date the Reference Portfolio will be static, subject to modification only in connection with the amortization of the Reference Portfolio. The Portfolio Selection Agent will provide any other services to the Issuer or act as the "collateral manager" for the Collateral. The Portfolio Selection Agent will not have any fiduciary duties or other duties to the Issuer or to the holders of the Notes and will not have any ability to direct the Trustee to dispose of any items of Collateral.

Interest Payments. Interest payments will be made on the Notes. The ability of the Issuer to make interest payments on the Notes prior to the occurrence of a Credit Default Swap Early Termination or a Basis Swap Early Termination will be dependent on its receipt of payments from the Protection Buyer under the Credit Default Swap and the Basis Swap Counterparty under the Basis Swap. The Issuer's primary sources of funds to make interest payments on the Notes will be the availability of funds available for distribution to the Issuer's primary sources of funds to make interest payments on the Notes. The Issuer will hold an amount of cash equal to the amount of interest payments due under the Notes for twenty-five days from the date of the most recent interest payment due on the Notes. The Issuer will hold an amount of cash equal to the amount of interest payments due under the Basis Swap for twenty-five days from the date of the most recent interest payment due on the Basis Swap. The Issuer will hold an amount of cash equal to the amount of interest payments due under the Credit Default Swap for twenty-five days from the date of the most recent interest payment due on the Credit Default Swap. The Issuer will hold an amount of cash equal to the amount of interest payments due under the Basis Swap for twenty-five days from the date of the most recent interest payment due on the Basis Swap. The Issuer will hold an amount of cash equal to the amount of interest payments due under the Credit Default Swap for twenty-five days from the date of the most recent interest payment due on the Credit Default Swap.

The Insolvency of the Protection Buyer will be a Credit Default Swap Event of Default under the Credit Default Swap. In the event of the insolvency of the Protection Buyer, the Issuer will be treated as a general creditor of the Protection Buyer. Additionally, certain events with respect to a Credit Default Swap Early Termination (which can occur due to the Insolvency of the Protection Buyer) will result in a Mandatory Redemption. Upon the occurrence of a Mandatory Redemption, the Trustee will liquidate all or a portion of the Collateral and will make any payments due to the Protection Buyer pursuant to the Credit Default Swap (other than a Protection Buyer Default Termination Payment), the Basis Swap Counterparty pursuant to the Basis Swap (other than a Basis Swap Counterparty Default Termination Payment) and the Collateral Put Provider pursuant to the Collateral Put Agreement prior to making
Footnote Exhibits - Page 4842

payments to the Noteholders. Under such circumstances, Noteholders may not receive sufficient funds to repay the principal of the Notes and, as a result, Noteholders should expect to lose a substantial part, if not all, of their principal investment in the Notes and to receive no interest on the Notes. In addition, in the case of a Mandatory Redemption, the Holders of any subordinated Class of Notes could be adversely affected as described under "—Mandatory Redemption and the Special Termination Liquidation Procedure". See "Description of the Notes—Mandatory Redemption".

The insolvency of the Basis Swap Counterparty will be a Basis Swap Event of Default under the Basis Swap. In the event of the insolvency of the Basis Swap Counterparty, the Issuer will be treated as a general creditor of the Basis Swap Counterparty. Additionally, certain events with respect to a Basis Swap Early Termination (which can occur due to the insolvency of the Basis Swap Counterparty) will result in a Mandatory Redemption. Upon the occurrence of a Mandatory Redemption, the Trustee will liquidate the Collateral and will make any payments due to the Protection Buyer pursuant to the Credit Default Swap (other than a Protection Buyer Default Termination Payment), the Basis Swap Counterparty pursuant to the Basis Swap (other than a Basis Swap Counterparty Default Termination Payment) and the Collateral Put Provider pursuant to the Collateral Put Agreement prior to making payments to the Noteholders. Under such circumstances, Noteholders may not receive sufficient funds to repay the principal of the Notes and, as a result, Noteholders should expect to lose a substantial part, if not all, of their principal investment in the Notes and to receive no interest on the Notes. In addition, in the case of a Mandatory Redemption, the Holders of any subordinated Class of Notes could be adversely affected as described under "—Mandatory Redemption and the Special Termination Liquidation Procedure". See "Description of the Notes—Mandatory Redemption".

Collateral Put Provider Default. In connection with an Optional Redemption in Whole, a Partial Optional Redemption, a Stated Maturity of any Series of Notes or the payment of any Currency Adjusted Principal Adjustment Amount by the Issuer to the Noteholders, if (x) the Collateral Disposal Agent is unable to obtain at least 100% of par for a Selected Collateral Security and/or (y) the Trustee is unable to obtain at least 100% of par for the Eligible Investments in each case (i) other than Post-liquidation Collateral and (ii) excluding any accrued and unpaid interest, the Collateral Disposal Agent will inform the Trustee and the Issuer (in the case of (x) above) and the Trustee will inform the Issuer (in the case of (y) above), who will then direct the Issuer to exercise the Issuer’s rights under the Collateral Put Agreement pursuant to which the Issuer will deliver such Selected Collateral Security and/or such Eligible Investment to the Collateral Put Provider in exchange for 100% of the principal amount of such Selected Collateral Security and/or such Eligible Investments (less accrued and unpaid interest). If a Collateral Put Provider defaults in its obligations under the Collateral Put Agreement, the Collateral Disposal Agent will be required to liquidate the Collateral in an amount which may be insufficient to pay such Currency Adjusted Principal Adjustment Amount or to redeem the Notes in full (in connection with an Optional Redemption in Whole) or in part (in connection with a Partial Optional Redemption) or the Holders of any subordinated Class of Notes could be adversely affected as described under "—Mandatory Redemption and the Special Termination Liquidation Procedure". See "Description of the Notes—Mandatory Redemption".

No Claims on the Reference Entities. The Credit Default Swap does not constitute a purchaser or other acquisition or assignment of any interest in any obligation of any Reference Entity. The Issuer will have a contractual relationship only with the Protection Buyer and not with any Reference Entity, and generally will have no rights to enforce directly compliance by any Reference Entity with the terms of its obligations that are referred to in the Credit Default Swap, nor rights of set-off against a Reference Entity, and no voting rights with respect to any Reference Entity. The Issuer will not directly benefit from any collateral securing the obligations of the Reference Entities, and the Issuer will not have the benefit of the remedies that would normally be available to a holder of such secured obligation.

To the extent that the Protection Buyer, the Credit Default Swap Calculation Agent, the Portfolio Selection Agent or any of their affiliates holds any obligation of a Reference Entity, neither the Protection Buyer, the Credit Default Swap Calculation Agent, the Portfolio Selection Agent nor any of their affiliates

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918063
will be, or will be deemed to be acting as, the issuer’s agent or trustee in connection with the exercise of, or the failure to exercise, any of the rights or powers of the Protection Buyer, the Credit Default Swap Calculation Agent, the Portfolio Selection Agent or any of their affiliates arising under or in connection with its or their holding of any such obligation. None of the issuer, the Trustee, the Issuing and Paying Agent, nor any Holder of any Note will have any right to acquire from the Protection Buyer, the Credit Default Swap Calculation Agent, the Portfolio Selection Agent or any of their affiliates (or to require the Protection Buyer, the Credit Default Swap Calculation Agent or any of their affiliates to transfer, assign or otherwise dispose of any interest in any Reference Obligation or other obligation of any Reference Entity pursuant to the Credit Default Swap. Furthermore, to the extent that the Protection Buyer, the Credit Default Swap Calculation Agent, the Portfolio Selection Agent or any of their affiliates holds any obligation of a Reference Entity, none of the Protection Buyer, the Credit Default Swap Calculation Agent, the Portfolio Selection Agent or any of their affiliates will grant the issuer, the Trustee or the Issuing and Paying Agent any security interest in such obligation.

In addition, in the event of the bankruptcy or insolvency of the Protection Buyer, the issuer will be treated as a general creditor of the Protection Buyer and will not have any claim with respect to the Reference Entities. Consequently, the issuer will be subject to the credit risk of the Protection Buyer as well as that of the Reference Entities.

Limited Provision of Information about Reference Obligations/Reference Entities. This Offering Circular does not provide any information with respect to any Reference Obligation or Reference Entity other than that contained in a description of the Reference Portfolio set forth under “The Credit Default Swap—The Reference Portfolio.” As the occurrence of a Credit Event may result in a permanent decrease in the amounts payable in respect of the Notes, investors should review the list of Reference Obligations set forth herein and conduct their own investigation and analysis with respect to the creditworthiness of each Reference Obligation and the likelihood of the occurrence of a Credit Event with respect to each Reference Entity and Reference Obligation.

The Protection Buyer and its affiliates and/or the Portfolio Selection Agent or its affiliates may have information, including material, non-public information, regarding the Reference Obligations and the Reference Entities. Neither the Protection Buyer nor the Portfolio Selection Agent will provide the issuer, the Trustee, the Issuing and Paying Agent, any Noteholder or any other Person with any such information. In addition, neither the Protection Buyer nor the Portfolio Selection Agent will provide the issuer, the Trustee, the Issuing and Paying Agent, any Noteholder or any other Person with any such information that is public (including financial information or notices), except in the case of information pertaining to one or more Credit Events with respect to each Reference Entity and one or more Reference Obligation(s) of such Reference Entity in connection with which the Protection Buyer is seeking payment of one or more Cash Settlement Amounts.

The issuer will be required pursuant to the Indenture to provide the Noteholders with periodic reports. See “Description of the Notes—The Indenture—Reports Prepared Pursuant to the Indenture.” None of the Initial Purchaser, the Protection Buyer, the Portfolio Selection Agent or any of their respective affiliates has any obligation to keep the issuer, the Trustee, the Issuing and Paying Agent or the Noteholders informed as to any other matters with respect to any Reference Entity or any Reference Obligation, including whether or not circumstances exist that give rise to the possibility of the occurrence of a Credit Event with respect to any Reference Obligation or a Reference Entity. None of the issuer, the Trustee, the Issuing and Paying Agent or the Noteholders will have the right to inspect any records of the Initial Purchaser, the Protection Buyer, the Portfolio Selection Agent or any of their respective affiliates. Except for the information contained in this Offering Circular, none of the Initial Purchaser, the Protection Buyer, the Portfolio Selection Agent and any of their respective affiliates will have any obligation to disclose any information or evidence regarding the existence or terms of any obligation of any Reference Entity or any matters arising in relation thereto or otherwise regarding any Reference Entity, any guarantor or any other person.
Concentration Risk. The concentration of the Reference Obligations in the Reference Portfolio in any one particular type of Structured Product Security subjects the Notes to a greater degree of risk with respect to credit defaults within such type of Structured Product Security. Investors should review the list of Reference Obligations set forth in and conduct their own investigation and analysis with regard to each Reference Obligation. See “The Credit Default Swap—The Reference Portfolio”.

Collateral Default. To the extent that defaults occur with respect to any Collateral, a Mandatory Redemption will occur and the Collateral Disposal Agent will be required to liquidate the Collateral Securities. Thereafter, liquidation proceeds will be applied in accordance with ‘Description of the Notes—Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date’. Depending on the market value of the remaining Collateral and the value of the Credit Default Swap and the Basis Swap at such time, the proceeds of such liquidation may not be sufficient to pay the unpaid principal and interest on all of the Notes.

Assets included in the Reference Portfolio or held as Collateral Securities. The risks generally described below under Commercial Mortgage-Backed Securities, Residential Mortgage-Backed Securities, CDO Cashflow Securities and Asset-Backed Securities could affect payments on the Notes to the extent any such asset is (i) included in the Reference Portfolio as a Reference Obligation and experiences a Credit Event or (ii) held by the Issuer as a Collateral Security and subsequently experiences a Collateral Default.

Commercial Mortgage-Backed Securities. The Collateral Securities may include Commercial Mortgage-Backed Securities.

CMBS bear various risks, including credit, market, interest rate, structural and legal risks. CMBS are backed by obligations (including certificates of participation in obligations) that are principally secured by mortgages on real property or interests therein having a multifamily or commercial use, such as regional malls, other retail space, office buildings, industrial or warehouse properties, hotels, rental apartments, self-storage, nursing homes and senior living centers. Risks affecting real estate investments include general economic conditions, the condition of financial markets, political events, developments or trends in any particular industry and changes in prevailing interest rates. The cyclical and leverage associated with real estate-related investments have historically resulted in periods, including significant periods, of adverse performance, including performance that may be materially more adverse than the performance associated with other investments. In addition, commercial mortgage loans generally lack standardized terms, tend to have shorter maturities than residential mortgage loans and may provide for the payment of all or substantially all of the principal only at maturity. Additional risks may be presented by the type and use of a particular commercial property. For instance, commercial properties that operate as hospitals and nursing homes may present special risks to lenders due to the significant governmental regulations of the ownership, operation, maintenance and financing of health care institutions. Hotel and motel properties are often operated pursuant to franchise, management or operating agreements which may be terminable by the franchisor or operator, and the transferrability of a hotel’s operating, liquor and other licenses upon a transfer of the hotel, whether through purchase or foreclosure, is subject to local law requirements. All of these factors increase the risks involved with commercial real estate lending. Commercial lending is generally viewed as exposing a lender to a greater risk of loss than residential one-to-four family lending since it typically involves larger loans to a single borrower than residential one-to-four family lending.

Commercial mortgage lenders typically look to the debt service coverage ratio of a loan secured by income-producing property as an important measure of the risk of default on such a loan. Commercial property values and net operating income are subject to volatility, and net operating income may be sufficient or insufficient to cover debt service on the related mortgage loan at any given time. The repayment of loans secured by income-producing properties is typically dependent upon the successful operation of the related real estate project rather than upon the liquidation value of the underlying real property.
estate. Furthermore, the net operating income from and value of any commercial property may be adversely affected by risks generally incident to interests in real property, including events which the borrower or manager of the property, or the issuer or servicer of the related issuance of commercial mortgage-backed securities, may be unable to predict or control, such as changes in general or local economic conditions and/or specific industry segments; declines in real estate values; declines in rental or occupancy rates; increases in interest rates, real estate tax rates and other operating expenses; changes in governmental rules, regulations and fiscal policies; acts of God; and social unrest and civil disturbances. The value of commercial real estate is also subject to a number of laws, such as laws regarding environmental clean-up and limitations on remedies imposed by bankruptcy laws and state laws regarding foreclosures and rights of redemption. Any decrease in income or value of the commercial real estate underlying an issue of CMBS could result in cash flow delays and losses on the related issue of CMBS.

A commercial property may not readily be converted to an alternative use in the event that the operation of such commercial property for its original purpose becomes unprofitable. In such cases, the conversion of the commercial property to an alternative use would generally require substantial capital expenditures. Thus, if the borrower becomes unable to meet its obligations under the related commercial mortgage loan, the liquidation value of any such commercial property may be substantially less, relative to the amount outstanding on the related commercial mortgage loan, than would be the case if such commercial property were readily adaptable to other uses. The exercise of remedies and successful realization of liquidation proceeds may be highly dependent on the performance of CMBS servicers or special servicers, of which there may be a limited number, and which may have conflicts of interest in any given situation. The failure of the performance of such CMBS servicers or special servicers could result in cash flow delays and losses on the related issue of CMBS.

At any time, a portfolio of CMBS may be backed by commercial mortgage loans with disproportionately large aggregate principal amounts secured by properties in only a few states or regions. As a result, the commercial mortgage loans may be more susceptible to geographic risks relating to such areas, such as adverse economic conditions, adverse events affecting industries located in such areas and natural hazards affecting such areas, than would be the case for a pool of mortgage loans having more diverse property locations.

Mortgage loans underlying a CMBS issue may provide for no amortization of principal or may provide for amortization based on a schedule substantially longer than the maturity of the mortgage loans, resulting in a "balloon" payment due at maturity. If the underlying mortgage borrower experiences business problems, or other factors limit refinancing alternatives, such balloon payment mortgages are likely to experience payment delays or even default. As a result, the related issue of CMBS could experience delays in cash flow and losses.

In addition, interest payments on CMBS may be subject to an available funds-cap and/or a weighted average coupon cap (which cap will, in each case, have the practical effect of deferring part or all of such interest payments) if interest rate rises substantially.

Residential Mortgage-Backed Securities. The Reference Obligations will include and the Collateral Securities may include Residential Mortgage-Backed Securities.

RMBS bear various risks, including credit, market, interest rate, structural and legal risks. RMBS represent interests in pools of residential mortgage loans secured by one- to four-family residential mortgage-loans. Such loans may be prepaid at any time. Residential mortgage loans are obligations of the borrowers thereunder only and are not typically insured or guaranteed by any other person or entity, although such loans may be securitized by Agencies and the securities issued are guaranteed. The rate of defaults and losses on residential mortgage loans will be affected by a number of factors, including general economic conditions and those in the area where the related mortgaged property is located, the borrower's equity in the mortgaged property and the financial circumstances of the borrower. If a
residential mortgage loan is in default, foreclosure of such residential mortgage loan may be a lengthy and difficult process, and may involve significant expenses. Furthermore, the market for defaulted residential mortgage loans or foreclosed properties may be very limited.

At any one time, a portfolio of RMBS may be backed by residential mortgage loans with disproportionately large aggregate principal amounts secured by properties in only a few states or regions. As a result, the residential mortgage loans may be more susceptible to geographic risks relating to such areas, such as adverse economic conditions, adverse events affecting industries located in such areas and natural hazards affecting such areas, than would be the case for a pool of mortgage loans having more diverse property locations. In addition, the residential mortgage loans may include so-called "jumbo" mortgage loans, having original principal balances that are higher than is generally the case for residential mortgage loans. As a result, such portfolio of RMBS may experience increased losses.

Each underlying residential mortgage loan in an issue of RMBS may have a balloon payment due on its maturity date. Balloon residential mortgage loans involve a greater risk to a lender than self-amortizing loans, because the ability of a borrower to pay such amount will normally depend on its ability to obtain refinancing of the related mortgage loan or sell the related mortgaged property at a price sufficient to permit the borrower to make the balloon payment, which will depend on a number of factors prevailing at the time such refinancing or sale is required, including, without limitation, the strength of the residential real estate markets, tax laws, the financial situation and operating history of the underlying property, interest rates and general economic conditions. If the borrower is unable to make such balloon payment, the related issue of RMBS may experience losses.

In addition, interest payments on RMBS may be subject to an available funds cap and/or a weighted average coupon cap (which cap will, in such case, have the practical effect of deferring part or all of such interest payments) if interest rate rises substantially.

Structural and Legal Risks of CMBS and RMBS. Residential mortgage loans in an issue of RMBS may be subject to various federal and state laws, public policies and principles of equity that protect consumers, which among other things may regulate interest rates and other charges, require certain disclosures, require licensing of originators, prohibit discriminatory lending practices, regulate the use of consumer credit information and regulate debt collection practices. Violation of certain provisions of these laws, public policies and principles may limit the servicer's ability to collect all or part of the principal or interest on a residential mortgage loan, entitle the borrower to a refund of amounts previously paid by it, or subject the servicer to damages and sanctions. Any such violation could result also in cash flow delays and losses on the related issue of RMBS.

In addition, structural and legal risks of CMBS and RMBS include the possibility that, in a bankruptcy or similar proceeding involving the originator or the servicer (or, in the event of any other entity or affiliate), the assets of the issuer could be treated as never having been truly sold by the originator to the issuer and could be subject to claims of the originator or the servicer. Challenges based on such doctrines could result in cash flow delays and losses on the related issue of CMBS or RMBS.

It is not expected that CMBS or RMBS (other than the RMBS Agency Securities) will be guaranteed or insured by any governmental agency or instrumentality or by any other person. Distributions on CMBS and RMBS will depend solely upon the amount and timing of payments and other collections on the related underlying mortgage loans.

Some of the CMBS may, and the RMBS referenced in the Initial Reference Portfolio will, be subordinated to one or more other senior classes of securities of the same series for purposes of, among other things, offsetting losses and other shortfalls with respect to the related underlying mortgage loans. In addition, in the case of CMBS and certain RMBS, no distributions of principal will generally be made with respect to any class until the aggregate principal balances of the corresponding senior classes
Footnote Exhibits - Page 4847

securities have been reduced to zero. As a result, the subordinate classes are more sensitive to risk of loss and write-downs than senior classes of such securities.

CDO Cashflow Securities. The Collateral Securities may include CDO Cashflow Securities. CDO Cashflow Securities generally are limited recourse obligations of the issuer thereof payable solely from the underlying assets of the issuer ("CDO Collateral") or proceeds thereof. Consequently, CDO Cashflow Securities must rely solely on distributions on the underlying CDO Collateral or proceeds thereof for payment in respect thereof. If distributions on the underlying CDO Collateral are insufficient to make payments on the CDO Cashflow Securities, no other assets will be available for payment of the deficiency and following realization of the underlying assets, the obligations of the issuer to pay such deficiency shall be extinguished.

CDO Cashflow Securities are subject to credit, liquidity and interest rate risks. CDO Collateral may consist of high yield debt securities, loans, structured finance securities and other debt instruments. High yield debt securities are generally unsecured (and loans may be unsecured) and may be subordinated to certain other obligations of the issuer thereof. The below investment grade ratings of high yield securities reflect a greater possibility that adverse changes in the financial condition of an issuer in general economic conditions or both may impair the ability of the issuer to make payments of principal or interest. Such investments may be speculative.

Issuers of CDO Cashflow Securities may acquire interests in loans and other debt obligations by way of assignment or participation. The purchaser of an assignment typically succeeds to all the rights and obligations of the assigning institution and becomes a lender under the credit agreement with respect to the debt obligation; however, its rights can be more restricted than those of the assigning institution.

CDO Cashflow Securities are subject to interest rate risk. The CDO Collateral of an issuer of CDO Cashflow Securities may bear interest at a fixed (floating) rate while the CDO Cashflow Securities issued by such issuer may bear interest at a floating (fixed) rate. As a result, there could be a floating/fixed rate or basis mismatch between such CDO Cashflow Securities and CDO Collateral which bears interest at a fixed rate and there may be a timing mismatch between the CDO Cashflow Securities and assets that bear interest at a floating rate as the interest rate on such assets bearing interest at a floating rate may adjust more frequently or less frequently, on different dates and based on different indices than the interest rates on the CDO Cashflow Securities. As a result of such mismatches, an increase or decrease in the level of the floating rate indices could adversely impact the ability to make payments on the CDO Cashflow Securities.

In addition, certain CDO Cashflow Securities may by their terms defer payment of interest or pay interest "in-arrears".

Asset-Backed Securities. The Collateral Securities may include Asset-Backed Securities. The structure of an Asset-Backed Security and the terms of the investors' interest in the collateral can vary widely depending on the type of collateral, the desires of investors and the use of credit enhancements. Individual transactions can differ markedly in both structure and execution. Important determinants of the risk associated with issuing, acquiring synthetic exposure through the Credit Default Swap or holding Asset-Backed Securities include the relative seniority or subordination of the class of Asset-Backed Securities, the relative allocation of principal and interest payments in the priorities by which such payments are made under the governing documents, how credit losses affect the issuing vehicle and the returns on the different classes, whether collateral represents a fixed set of specific assets or accounts, whether the underlying collateral assets are revolving or closed-end, under what terms (including maturity of the asset-backed instrument) any remaining balance in the accounts may revert to the issuing company and the extent to which the company that is the actual source of the collateral assets is obligated to provide support to the issuing vehicle or to any of the classes of securities. With respect to some types of Asset-Backed Securities, the risk is more closely correlated with the default risk on corporate bonds of similar terms and maturities than with the performance of a pool of receivables. In

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918068
addition, certain Asset-Backed Securities (particularly subordinated Asset-Backed Securities) provide that the non-payment of interest in cash on such securities will not constitute an event of default in certain circumstances and the holders of such securities will not have available to them any associated default remedies.

Holders of Asset-Backed Securities bear various risks, including credit risks, liquidity risks, interest rate risks, market risks, operations risk, structural risks and legal risks. Credit risk arises from losses due to defaults by the borrowers in the underlying collateral and the issuer's or servicer's failure to perform. These two elements may be related, as, for example, in the case of a servicer which does not provide adequate credit-review scrutiny to the serviced portfolio, leading to higher incidence of defaults. Market risk arises from the cash flow characteristics of the security, which for most Asset-Backed Securities tend to be predictable. The greatest variability in cash flows comes from credit performance, including the presence of wind-down or acceleration features designed to protect the investor in the event that credit losses in the portfolio rise well above expected levels. Interest rate risk arises for the issuer from the relationship between the pricing terms on the underlying collateral and the terms of the rate paid to holders of securities and from the need to risk to maintain the asset servicing or spread account proceeds carried on the balance sheet. For the holder of the security, interest rate risk depends on the expected life of the Asset-Backed Securities which may depend on prepayments on the underlying assets or the occurrence of wind-down or termination events.

If the servicer becomes subject to financial difficulty or otherwise ceases to be able to carry out its functions, it may be difficult to find other acceptable substitute servicers and cash flow disruptions or losses may occur, particularly with non-standard receivables or receivables originated by private retailers who collect many of the payments at their store. Structural and legal risks include the possibility that, in a bankruptcy or similar proceeding involving the originator or the servicer (often the same entity or affiliates), the assets of the issuer could be treated as never having been truly sold by the originator to the issuer and could be substantively consolidated with those of the originator, or the transfer of such assets to the issuer could be voided as a fraudulent transfer. Challenges based on such doctrines could result also in cash flow delays and reductions on the Asset-Backed Securities. Other similar risks relate to the degree to which cash flows on the assets of the issuer may be commingled with those on the originator's other assets.

Recent Developments in Subprime Residential Mortgage Lending. Recently, delinquencies, defaults and losses on residential mortgage loans have increased and may continue to increase, which may affect the performance of RMBS, in particular RMBS Residential B/C Mortgage Securities which are backed by subprime mortgage loans. Subprime mortgage losses are generally made to borrowers with lower credit scores. Accordingly, mortgage losses backing RMBS Residential B/C Mortgage Securities are more sensitive to economic factors that could affect the ability of borrowers to pay their obligations under the mortgage loans backing these securities. Market interest rates have been increasing and accordingly, with respect to adjustable rate mortgage loans and hybrid mortgage loans that have or will enter their adjustable-rate period, borrowers are likely to experience increases in their monthly payments and become increasingly likely to default on their payments obligations. Discovery of fraudulent mortgage loan applications in connection with rising default rates with respect to subprime mortgage loans may indicate that the risks with respect to those mortgage loans are particularly acute at this time. Such risks may result in further increases in default rates by subprime borrowers as it becomes more difficult for them to obtain refinancing.

These economic trends have been accompanied by a recent downward trend in rates of refinance of property values that is continued period of increase in property values. Because subprime mortgage loans generally have higher loan-to-value ratios, recoveries on defaulted mortgage loans are more likely to result in payment in full of amounts owed under such mortgage loans, resulting in higher net losses than would have been the case had property values remained the same or increased. A decline in property values will particularly impact recoveries on second lien mortgage loans that may be included in the mortgage pools backing RMBS Residential B/C Mortgage Securities.
Structural features of RMBS may contribute to the impact of increased delinquencies and defaults and lower recoveries on the underlying mortgage pool. In particular, there may be a decline in the interest rate payable under those RMBS structured to limit interest payable to investors based on a weighted average coupon cap. Mortgage loans bearing interest at a higher rate will have a greater tendency to default than those with lower mortgage rates. Such defaults will reduce the weighted average coupon of the underlying mortgage loans and accordingly the interest rate payable to investors in the related RMBS. In addition, delinquencies, defaults and lower recoveries on underlying mortgage loans will reduce interest and principal actually paid to investors to less than the amounts owed to investors in accordance with the terms of their RMBS. RMBS may not be structured with significant or any collateralization, so performance will be sensitive to delays or reductions in payments, particularly in the case of subordinated tranches of RMBS. To the extent that RMBS provide for write-downs of principal, interest will cease to accrue on the portion of principal of an RMBS that has been written down.

RMBS may provide that the servicer is required to make advances in respect of delinquent mortgage loans. However, servicers experiencing financial difficulties may not be able to perform these obligations. Servicers who have sought bankruptcy protection may, due to application of the provisions of bankruptcy law, not be required to advance such amounts. Even if a servicer were able to advance amounts in respect of delinquent mortgage loans, its obligation to make such advances may be limited to the extent that it does not expect to recover such advances due to the deteriorating credit of the delinquent mortgage loans. In addition, a servicer's obligation to make such advances may be limited to the amount of its servicing fee.

Recently, a number of originators and servicers of mortgage loans have experienced serious financial difficulties and, in some cases, have entered bankruptcy proceedings. These difficulties have resulted in part from declining markets for their mortgage loans as well as from claims for repurchases of mortgage loans previously sold under provisions that require repurchase in the event of early payment defaults or for breaches of representations regarding loan quality. Such financial difficulties may have a negative effect on the ability of servicers to pursue collection on mortgage loans that are experiencing increased delinquencies and defaults and to maximize recoveries on sale of underlying properties following foreclosures. The inability of the originator to repurchase such mortgage loans in the event of early payment defaults and other loan representation breaches may also affect the performance of RMBS backed by those mortgage loans.

Under certain circumstances, including a failure to perform its servicing obligations or a bankruptcy of the servicer, investors will be entitled to remove and replace the existing servicer. There is no guarantee, however, that a suitable servicer could be found to assume the obligations of the existing servicer, and the transition of servicing responsibilities to a replacement servicer could have an adverse effect on the performance of servicing functions during or following a transition period and a resulting increase in delinquencies and losses and decreases in recoveries.

Transfers of mortgage loans by the originator or seller will be characterized in the applicable sale agreement as a sale transaction. Nevertheless, in the event of a bankruptcy of the originator or seller, the trustee in bankruptcy could attempt to recharacterize the sale of the mortgage loans as a borrowing secured by a pledge of the mortgage loans. If such attempt were successful, the trustee in bankruptcy could prevent the trustee for the RMBS from exercising any of the rights of the owner of the mortgage loans and also could elect to liquidate the mortgage loans. Investors may suffer a loss in the extent that the proceeds of the liquidation of the underlying mortgage loans would not be sufficient to pay amounts owed in respect of their investments... if this occurs, investors would lose the right to future payments of interest and may fail to recover their initial investment. Regardless of whether a trustee elects to foreclose on the underlying mortgage loan pool, delays in payments on their investments and possible reductions in the amount of these payments could occur.
These adverse changes in market conditions may reduce the cashflow which the issuer receives from RMBS held by the issuer (or a Credit Default Swap that reference RMBS), decrease the market value of such RMBS and increase the incidence and severity of Credit Events under the Credit Default Swap.

Currency Exchange Risk. The Reference Portfolio may include non-Dollar denominated Reference Obligations. At the time that such non-Dollar denominated Reference Obligation is included in the Reference Portfolio, the Credit Default Swap Calculation Agent will determine the Notional Foreign Exchange Rate with respect to such non-Dollar denominated Reference Obligation. This Notional Foreign Exchange Rate will not change during the time such non-Dollar denominated Reference Obligation is in the Reference Portfolio, and, as such, will protect the Issuer from any unfavorable fluctuation of the applicable currency rate (which would increase the amount of any Cash Settlement Amount and/or Notional Principal Adjustment Amount relating to such non-Dollar denominated Reference Obligation). However, because the Notional Foreign Exchange Rate is fixed, the Issuer will not benefit from any favorable fluctuation of the applicable currency exchange rate (which would reduce the amount of any Cash Settlement Amount and/or Notional Principal Adjustment Amount relating to such non-Dollar denominated Reference Obligation).

In addition, in connection with a Mandatory Redemption, Collateral Securities may be liquidated and the proceeds of such liquidation may be insufficient to pay the Currency Adjusted Aggregate Outstanding Amount of each Series in full. To the extent that a Series of Notes is denominated in an Approved Currency for which there is insufficient proceeds in such Approved Currency (at the applicable level of priority) to pay the Currency Adjusted Aggregate Outstanding Amount of such Series of Notes in full, available proceeds denominated in other Approved Currencies will be exchanged for such needed Approved Currency at the applicable currency exchange rates at such time. Other Notes of such Class denominated in any such other Approved Currency and Notes junior to such Class may experience losses due to any adverse fluctuation of the applicable exchange currency rates. In addition, to the extent there would be insufficient Principal Proceeds after giving effect to any such exchange to make all principal payments on the Notes in connection with a Mandatory Redemption, with respect to any Class in which Notes are denominated in more than one Approved Currency, such shortfall shall be borne pro rata by Holders of such Class based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date, rather than the Applicable Series Foreign Exchange Rate for each related Series.

Average Life and Prepayment Considerations. The Stated Maturity of the Notes issued on the Closing Date is March 1, 2038. The Stated Maturity may vary with respect to any additional issuance of Notes; however, the average life of each Series of Notes is expected to be shorter than the number of years until the Stated Maturity.

The approximations of the average life of each Class of Notes set forth in the table in “Summary—Notes” with respect to the average life of each Class of Notes are not predictive and do not necessarily reflect historical performance of the Reference Obligations. Such approximations will also be affected by any Optional Redemption in Whole, Partial Optional Redemption, Mandatory Redemption or the characteristics of the Reference Obligations, including the existence and frequency of exercise of any optional redemption, mandatory prepayment or sinking fund features, the prevailing level of interest rates and the actual default rate.

Certain Conflicts of Interest Relating to the Initial Purchaser and its Affiliates. Various potential and actual conflicts of interest may Nevertheless arise from the activities of the Initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Agent Provider; the Collateral Disposal Agent and their affiliates. The following, together with "-Limited Provision of Information about Reference Obligations/Reference Entities", briefly summarize some of these conflicts, but is not intended to be an exhaustive list of all such conflicts.
Footnote Exhibits - Page 4851

It is expected that the initial Purchaser and/or its respective affiliates will have placed or underwritten certain of the Reference Obligations and/or Collateral Securities at original issuance and/or will have provided investment banking services, advisory, banking and other services to issuers of Reference Obligations and/or Collateral Securities. The initial Purchaser may not have completed its resales of the Notes by any date certain, which may affect the liquidity of the Notes as well as the ability, if any, of the initial Purchaser to make a market in the Notes. From time to time, the Issuer may purchase or sell Collateral Securities from and/or through Goldman, Sachs & Co. and/or any of its affiliates (collectively, "Goldman Sachs"). The Issuer may invest in money market funds that are managed by Goldman Sachs or for which the Trustee or its affiliates provide services, provided that such money market funds otherwise qualify as Eligible Investments.

The initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and certain of their respective affiliates are acting in a number of capacities in connection with the transactions described herein. The initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and each of their respective affiliates acting in such capacities will have only the duties and responsibilities expressly agreed to by such entity in the relevant capacity and will not, by virtue of acting in any other capacity, be deemed to have other duties or responsibilities, other than as expressly provided with respect to each such capacity. The initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and their respective affiliates in their various capacities may enter into business dealings with which they may derive revenues and profits in addition to the fees stated in the various transaction documents, without any duty to account therefor in such dealings. The initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and their respective affiliates may act in the same manner as if the Notes had not been issued, regardless of whether any such action (including without limitation, any action that might constitute or give rise to a Credit Event) might have an adverse effect on a Reference Entity, a Reference Obligation or any guarantor in respect thereof or otherwise.

The initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and their respective affiliates may hold long or short positions with respect to Reference Obligations and/or other securities or obligations of related Reference Entities and may enter into credit derivative or other derivative transactions with other parties pursuant to which it sells or buys credit protection with respect to one or more related Reference Entities and/or Reference Obligations. The initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and their respective affiliates may act with respect to these transactions and may exercise or enforce, or refrain from exercising or enforcing, any or all of its rights and powers in connection therewith as if it had not entered into the Credit Default Swap, the Basis Swap, the Collateral Put Agreement and the Collateral Disposal Agreement, and without regard to whether any such action might have an adverse effect on the Issuer, the Noteholders, a related Reference Entity or any Reference Obligation. If the initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent or their respective affiliates, holds claims against a Reference Entity or a Reference Obligation other than in connection with the transactions contemplated in this Offering Circular, such party’s interest as a creditor may be in conflict with the interests of the Issuer.

Certain Conflicts of Interest Relating to the Portfolio Selection Agent and its Affiliates. Various potential and actual conflicts of interest may arise from the overall investment activities of the Portfolio Selection Agent and its Affiliates. The Portfolio Selection Agent and its Affiliates will select the initial Reference Portfolio. The Portfolio Selection Agent, its Affiliates and accounts managed by any of the foregoing may invest or invest for the account of others in debt obligations that would be appropriate for inclusion in the Reference Portfolio and have no duty in making such investments or acting in a way that is favorable to the Issuer and to the Noteholders. Such investments may be different from those debt obligations included in the Reference Portfolio. The Portfolio Selection Agent, its Affiliates and accounts managed by any of the foregoing may have economic interests in, or other relationships with, Reference
Entities or Reference Obligations. The Portfolio Selection Agent, its Affiliates or any account managed by any of the foregoing may make and/or hold an investment in an issuer's securities, sell credit protection under a credit default swap referencing securities or issue financial guaranty insurance policies covering securities (or make loans) that may be pari passu, senior or junior in ranking to a Reference Obligation or in which partners, security holders, officers, directors, agents or employees of the Portfolio Selection Agent, its Affiliates or any account managed by any of the foregoing serve on boards of directors or otherwise have ongoing relationships. In such instances, the Portfolio Selection Agent and its Affiliates may in their discretion make investment recommendations and decisions (on behalf of itself or an account managed by it) that may be the same as or different from those made with respect to the issuer's investments. Accordingly, the Portfolio Selection Agent or any Affiliate of the Portfolio Selection Agent may be seeking, on behalf of itself or accounts for which it serves as manager, to acquire or dispose of securities which are included in the Initial Reference Portfolio (or securities of Reference Entities whose securities constitute Reference Obligations in the Initial Reference Portfolio) at the same time that the issuer enters into the Credit Default Swap to sell protection with respect to the Initial Reference Portfolio.

The Portfolio Selection Agent and its Affiliates may also serve as managers or co-managers of one or more other companies organized to invest in, or sell or buy credit protection with respect to, MBS, CMBS, CDO Cashflow Securities or other types of Asset-Backed Securities. The Portfolio Selection Agent and its Affiliates may pursue its own interests as an issuer or servicer of obligations which are Reference Obligations or as an owner, or seller of credit protection with respect to, other securities issued by an issuer of Reference Obligations, without considering the effect of its actions or omisions on the issuer.

The Portfolio Selection Agent, its Affiliates and client accounts for which the Portfolio Selection Agent or its Affiliates act as investment advisor may at times own Notes. Any Notes owned by the Portfolio Selection Agent or its Affiliates are subject to disposition by such parties in their discretion. At any given time the Portfolio Selection Agent and its Affiliates will be entitled to vote with respect to any Notes held by them and by such accounts with respect to all other matters. The ownership of Notes by the Portfolio Selection Agent or its Affiliates may give the Portfolio Selection Agent an incentive to take actions that vary from the interests of other holders of the Notes.

Relation to Prior Investment Results. The prior investment results of Portfolio Selection Agent and the persons associated with the Portfolio Selection Agent or any other entity or person described herein are not indicative of the Issuer's future investment results. The nature of, and risks associated with, the Issuer's future investments may differ substantially from those investments and strategies undertaken heretofore by such persons and entities. There can be no assurance that the Issuer's investments will perform as well as the past investments of any such persons or entities.

Evolving Nature of the Credit Default Swap Market. Credit default swaps are relatively new instruments in the market. While ISDA has published and supplemented the ISDA Credit Derivatives Definitions in order to facilitate transactions and promote uniformity in the credit default swap market, the credit default swap market is expected to change and the ISDA Credit Derivatives Definitions and terms applied to credit derivatives are subject to interpretation and further evolution. There can be no assurance that changes to the ISDA Credit Derivatives Definitions and other terms applicable to credit derivatives generally will be predictable or favorable to the Issuer. Amendments or supplements to the ISDA Credit Derivatives Definitions that are published by ISDA will only apply to the Credit Default Swap if the Credit Default Swap is amended. Therefore, in addition to the credit risk of Reference Obligations, Reference Entities and the credit risk of the Protection Buyer, the Issuer is also subject to the risk that the ISDA Credit Derivatives Definitions could be interpreted in a manner that would be adverse to the Issuer or that the credit derivatives market generally may evolve in a manner that would be adverse to the Issuer.
DESCRIPTION OF THE NOTES

The Co-issued Notes will be issued pursuant to an Indenture (the "Indenture"), dated as of the Closing Date, among the Issuers and LaSalle Bank National Association, as Trustee. Each Class of Issuer Notes will be issued in accordance with a Deed of Covenant and will be subject to the Issuing and Paying Agency Agreement including the terms and conditions of such Notes contained therein. The following summary describes certain provisions of the Notes, the Indenture and the Issuing and Paying Agency Agreement. The summary does not purport to be complete and is subject to, and qualified in its entirety by reference to, the provisions of the Indenture and the Issuing and Paying Agency Agreement, copies of which may be obtained as described under "Listing and General Information."

Status and Security

The Co-issued Notes will be limited recourse obligations of the Issuers and the Issuer Notes will be limited recourse obligations of the Issuer, secured as described below. Accordingly, payments of interest on and principal of the Notes will be made solely from the proceeds of the Issuer Assets, in accordance with the priorities described under "Priority of Payments" and in certain circumstances described under "Mandatory Redemption" subject to the Special Termination Liquidation Procedure.

Under the terms of the Indenture, the Issuer will grant to the Trustee, for the benefit of the Secured Parties, a security interest in the Issuer Assets that is of first priority (subject to the Trustee's lien described under "Description of the Notes—The Indenture—Events of Default"). free of any adverse claim or the legal equivalent thereof, as applicable, to secure the Issuer's obligations with respect to the Secured Parties.

Interest

The Notes will bear interest from the Closing Date at the annual rates set forth under "Summary—Notes", payable, in each case, monthly in arrears on each Payment Date commencing May 29, 2007 and ending on the Stated Maturity.

Interest will cease to accrue on each Note, or, in the case of a partial repayment, write-down, or Partial Optional Redemption on such part, from the date of such repayment, write-down, Partial Optional Redemption of such Series or Protection Buyer Notes or Stated Maturity unless payment of principal is improperly withheld or unless a default is otherwise made with respect to such payments of principal. See "Principal." To the extent lawful and enforceable, interest on any Defaulted Interest on the Notes will accrue at the interest rate applicable to such Notes, until paid as provided herein.

The interest rate per annum payable on the Notes will be calculated based on the applicable Day Count Fraction, commencing on the Closing Date. In the event that the date of any Payment Date or the Stated Maturity, as the case may be, shall not be a Business Day, then payment need not be made on such date, but may be made on the next succeeding Business Day with the same force and effect as if made on the nominal date of any such Payment Date or the Stated Maturity, as the case may be, and, other than within respect to any Interest Accrual Period for a Series of Notes ending on the Stated Maturity of such Series of Notes, no interest shall accrue on such payment of interest for the period from and after any such nominal date, provided that interest shall accrue from and including the immediately preceding Payment Date or, in the case of the first Payment Date, the Closing Date to but excluding the following Payment Date or the Stated Maturity, as applicable.

For purposes of calculating the Series Interest Rates, the Issuer will appoint as calculation agent LaSalle Bank National Association (solely in such capacity, the "Note Calculation Agent"). Absent manifest error, the Note Calculation Agent will determine each Series Interest Rate using the determination of each Applicable Index made by the Basis Swap Calculation Agent under the Basis Swap. The Basis Swap Calculation Agent will determine each Applicable Index in accordance with the
provisions set forth under the definitions of "LIBOR", "EURIBOR", "GBP-LIBOR", "AUD-LIBOR", "CAD-LIBOR", "JPY-LIBOR" and "NZD-IBOR"; provided that such determinations will be made only with respect to any Applicable Index for which Notes denominated in the related Approved Currency are Outstanding in such Applicable Period.

The Note Calculation Agent may be removed by the Issuers at any time. If the Note Calculation Agent is unable or unwilling to act as such or is removed by the Issuers, or if the Note Calculation Agent fails to determine the Series Interest Rates and the Series Interest Amounts for any Interest Accrual Period, the Issuers will promptly appoint a replacement Note Calculation Agent a leading bank which is engaged in transactions in deposits in the Euro-zone interbank market and the London interbank market and which does not control or is not controlled by or under common control with the Issuers or their Affiliates. The Note Calculation Agent may resign its duties without a successor having been duly appointed. For so long as any of the Notes remain Outstanding, there will at all times be a Note Calculation Agent for the purpose of calculating the Series Interest Rates. In addition, for so long as any of the Notes are listed on any stock exchange and the rules of such exchange so require, the Issuer will notify such stock exchange of the appointment, termination or change in the office of such Note Calculation Agent.

The Note Calculation Agent will cause the Series Interest Rates, the Series Interest Amounts and Payment Date to be communicated to Euroclear, Clearstream and if any Class of Notes is listed on any stock exchange, notify such stock exchange by the Business Day immediately following each Applicable Index Determination Date. The determination of the Series Interest Rates and the Series interest Amounts by the Note Calculation Agent shall (in the absence of manifest error) be final and binding upon all parties.

Principal
Principal will not be payable on the Notes prior to the Stated Maturity, except in connection with (i) payment of any Currency Adjusted Notional Principal Adjustment Amount, (ii) an Optional Redemption in Whole or Partial Optional Redemption and/or (iii) a Mandatory Redemption. See "Optional Redemption in Whole and Partial Optional Redemption" and "Mandatory Redemption" for details.

The Aggregated USD Equivalent Outstanding Amount of each Class of Notes and the Currency Adjusted Aggregate Outstanding Amount of each series of Notes will be adjusted from time to time in accordance with the methodologies described in "Summary—Decrease in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes", "Summary—Increase in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes", "Summary—Decrease in the Currency Adjusted Aggregate Outstanding Amount of each Series of Notes" and "Summary—Increase in the Currency Adjusted Aggregate Outstanding Amount of each Series of Notes".

From time to time, the aggregate amount of any Series of Notes is reduced, no interest will accrue with respect to such reduced amount. From and after the date on which the principal amount of any Class of Notes is increased, interest will accrue with respect to such increased amount.

Optional Redemption in Whole and Partial Optional Redemption
The Notes will be redeemed in whole or in any partial amount at any Payment Date after the latest Non-Call Period of any Series of Notes by the Issuer if (i) the Protection Buyer elects to terminate the Credit Default Swap prior to the Scheduled Termination Date (an "Optional Redemption in Whole") and (ii) the Collateral Put Agreement has not been terminated at such time, provided, however, that if one or more Credit Events have occurred the Aggregate USD Equivalent Outstanding Amount of one or more Classes of Notes to be

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918075
reduced, (i) Noteholders of each Reversible Loss Series must consent in writing to such redemption or (ii) the Protection Buyer must have agreed to pay the issuer, prior to the Optional Redemption Date, for each Reversible Loss Series, an amount equal to the Optional Redemption Reimbursement Amount (and the issuer shall pay such Optional Redemption Reimbursement Amount to Holders of any such Series of Notes in accordance with the Priority of Payments on the Optional Redemption Date). 

Notwithstanding the foregoing sentence, the issuer may not sell any Collateral unless, after giving effect to such sale, there will be sufficient funds to pay the amounts described in 16-3 “Optional Redemption in Whole Procedures” below (when taking into consideration the exercise of the issuer’s rights under the Collateral Put Agreement and whether the Protection Buyer will make any End Payment to the Issuer).

Any Optional Redemption in Whole of the Notes will be made at a price of, with respect to Notes denominated in any Approved Currency, 100% of the Currency-Adjusted Aggregate Outstanding Amount of such Notes (including accrued and unpaid interest) plus, under the circumstances described above with respect to each Series of Notes of each Reversible Loss Series, the Optional Redemption Reimbursement Amount. 

(i) The Notes of one or more Series will be redeemed in whole or any Payment Date after the applicable Non-Call Period or (ii) any Protection Buyer Notes will be redeemed on any Payment Date, in each case by the Issuer if (i) the Protection Buyer elects to optionally redeem such Series of Protection Buyer Notes, as applicable, prior to the Scheduled Termination Date (a “Partial Optional Redemption”), (ii) the Collateral Put Agreement has not been terminated at such time and (iii) in the case of a Partial Optional Redemption of any of the Issuer Notes, the Issuer receives an opinion of counsel to, or prior to such Partial Optional Redemption Date to the effect that the tax analyst of the Co-Issued Notes contained herein will not be affected by such Partial Optional Redemption, provided, however, that with respect to a Partial Optional Redemption pursuant to clause (i) above, if one or more Credit Events have caused the Aggregate USD Equivalent Outstanding Amount of one or more Series of Notes to be redeemed on such Payment Date to be reduced, (i) Noteholders of each such Reversible Loss Series must consent in writing to such redemption or (ii) the Protection Buyer must have agreed to pay the issuer, prior to the Partial Optional Redemption Date, with respect to each such Reversible Loss Series, an amount equal to the Optional Redemption Reimbursement Amount (and the issuer shall pay such Optional Redemption Reimbursement Amount to Holders of such Notes in accordance with the Priority of Payments on the Partial Optional Redemption Date). Notwithstanding the foregoing sentence, the Issuer may not sell any Collateral unless, after giving effect to such sale, there will be sufficient funds to pay the amounts described in 16-3 “Partial Optional Redemption Procedures” below (when taking into consideration the exercise of the Issuer’s rights under the Collateral Put Agreement and whether the Protection Buyer will make any Partial Optional Redemption End Payment to the Issuer).

Any Partial Optional Redemption of the Notes will be made at a price of 100% of the Currency-Adjusted Aggregate Outstanding Amount of such Notes (including accrued and unpaid interest) plus, under the circumstances described above with respect to each Reversible Loss Series being redeemed, the Optional Redemption Reimbursement Amount.

Optional Redemption in Whole Procedures: In connection with an Optional Redemption in Whole, if the Protection Buyer wishes to terminate the Credit Default Swap after the Non-Call Period of each Series of Notes Outstanding has expired, and therefore requires the Issuer to optionally redeem the Notes in whole, the Protection Buyer shall notify the Issuer, the Portfolio Selection Agent, the Trustee and the Issuing and Paying Agent in writing at least 15 Business Days prior to the proposed redemption date (which date must be a Payment Date). If one or more Reversible Loss Series exist at such time, the Trustee or the Issuing and Paying Agent, as applicable, shall deliver a notice to each Noteholder at each such Reversible Loss Series, (i) notifying each such Noteholder (1) that the Protection Buyer has sought to terminate the Credit Default Swap prior to the Scheduled Termination Date, (2) of the proposed Optional Redemption Date and (3) that the consent of each such Noteholder is required under the Indenture or else Holders of each such Reversible Loss Series must receive the Optional Redemption

Confidential Treatment Requested by Goldman Sachs
Reimbursement Amount allocable to each Series of such Class, (6) providing any other information that the Trustee or the Issuing and Paying Agent, as applicable, may deem appropriate in its sole discretion and (7) providing the consent of each such Noteholder. If the Trustee or the Issuing and Paying Agent, as applicable, does not receive the consent of each such Noteholder within ten Business Days of the transmission of such notice, the consent of each such Noteholder will be deemed not to have been obtained and an Optional Redemption in Whole may occur only if the Protection Buyer agrees to pay to the Issuer, for each Reversible Loss Series, the Optional Redemption Reimbursement Amount prior to the Optional Redemption Date.

The Trustee and the Issuing and Paying Agent, as applicable, will then provide notice of Optional Redemption in Whole by first-class mail, postage prepaid, mailed not less than 10 Business Days prior to the scheduled redemption date, to each Noteholder at such Noteholder’s address in the Note Register or the Issuer Note Register, as applicable, and for so long as any Class of Notes is listed on a stock exchange and the rules of such stock exchange shall so require, provide notice of an Optional Redemption in Whole to the Listing, Paying and Transfer Agent for such stock exchange.

The Notes shall not be optionally redeemed in whole unless the Trustee has determined (based on the advice of the Collateral Disposal Agent with respect to Collateral Securities) that the proceeds expected to be received upon the liquidation of the Collateral, together with any other amounts available to be used for such optional redemption (including any End Payment, Optional Redemption Reimbursement Amount and/or termination payments to be received by the Issuer under the Credit Default Swap and the Basis Swap), are equal to an amount sufficient to pay the amounts specified under subclauses (i) through (vi) in “—Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date”. See “—Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date”. In determining whether sufficient proceeds will be available to redeem the Notes in whole under the preceding sentence, the Issuer’s right under the Collateral Put Agreement to require the Collateral Put Provider to purchase Collateral (other than Put Excluded Collateral) at 100% of par of such Collateral and the Issuer’s ability to enter into a currency exchange (if necessary) shall be taken into consideration.

Optional Redemption Procedures. In connection with a Partial Optional Redemption, if the Protection Buyer elects to have the Issuer redeem one or more Series of Notes after the applicable Non-Call Period(s) (or, with respect to any Protection Buyer Notes, on any Payment Date), the Protection Buyer shall notify the Issuer, the Portfolio Selection Agent, the Trustee and the Issuing and Paying Agent in writing no less than 15 Business Days prior to the proposed redemption date (which date must be a Payment Date). If one or more Reversible Loss Series exist and will be redeemed at such time, the Trustee or the Issuing and Paying Agent, as applicable, shall deliver a notice to each Noteholder of each such Reversible Loss Series, (1) notifying each such Noteholder (1) that the Protection Buyer intends to redeem such Series of Notes prior to the Stated Maturity, (2) of the proposed Partial Optional Redemption Date and (3) that the consent of each such Noteholder is required under the indenture or else Holders of such Reversible Loss Series must receive the Optional Redemption Reimbursement Amount allocable to such Series, (6) providing any other information that the Trustee or the Issuing and Paying Agent, as applicable, may deem appropriate in its sole discretion and (7) soliciting the consent of each such Noteholder. If the Trustee or the Issuing and Paying Agent, as applicable, does not receive the consent of each such Noteholder within 10 Business Days of the transmission of such notice, the consent of each such Noteholder will be deemed not to have been obtained and a Partial Optional Redemption of such Series may occur only if the Protection Buyer agrees to pay to the Issuer, for each such Reversible Loss Series, the Optional Redemption Reimbursement Amount prior to the Partial Optional Redemption Date.

Neither the Notes of any Series nor any Protection Buyer Notes shall be optionally redeemed in connection with a Partial Optional Redemption unless the Trustee has determined (based on the advice of the Collateral Disposal Agent with respect to Collateral Securities) that the proceeds expected to be received upon the liquidation of the Eligible Investments and Selected Collateral Securities, together with...
any other amounts available to be used for such optional redemption (including any Partial Optional Redemption End Payment and/or Optional Redemption Reimbursement Amount), are equal to an amount sufficient to pay the principal amount of such Series of Notes and any Series senior to such Series under subclause (ii) in "—Priority of Payments—Principal Proceeds—Other Payment Dates". See "—Priority of Payments—Principal Proceeds—Other Payment Dates". In determining whether sufficient proceeds will be available to redeem the Notes in part under the proceeding sentence, the Issuer's right under the Collateral Put Agreement to require the Collateral Put Provider to purchase Collateral (other than Put Excluded Collateral) at 100% of the principal amount of such Collateral Security and the Issuer's ability to enter into a currency exchange (if necessary) shall be taken into consideration.

The Trustee and the Issuing and Paying Agent, as applicable, will then provide notice of a Partial Optional Redemption by first-class mail, postage prepaid, mailed not less than 10 Business Days prior to the scheduled redemption date, to each Holder of a Note to be redeemed at such Holder's address in the Note Register or the Issuer Note Register, as applicable, and for so long as any Class of Notes is listed on any stock exchange and the notes of such stock exchange shall so require, provide notice of a Partial Optional Redemption to the Listing, Paying and Transfer Agent for such stock exchange.

Mandatory Redemption

The occurrence of (i) either a termination event or an event of default (as such term is defined in the Credit Default Swap, Basis Swap and/or Collateral Put Agreement, as applicable) for which the Protection Buyer, Basis Swap Counterparty or Collateral Put Provider is the sole defaulting party or Affected Party (as such term is defined in the Credit Default Swap, Basis Swap and/or Collateral Put Agreement, as applicable) under the Credit Default Swap, Basis Swap and/or Collateral Put Agreement, as applicable, (ii) any termination event (other than a termination event triggered by an Event of Default or an event described in subclause (i)) or, after the Non-Call Period for each Series of Notes Outstanding has expired, the Protection Buyer's election to terminate the Credit Default Swap prior to its scheduled termination date or (iii) any event of default (other than an event described in subclause (i)) in each case under the Credit Default Swap, the Basis Swap or the Collateral Put Agreement where (a) in the case of subclause (i) the Replacement Counterparty Procedures are not satisfied within 30 days of the termination of the swaps or (y) in the case of subclause (i) or (ii) the party entitled to terminate such agreement has exercised such right shall constitute a "Mandatory Redemption".

Upon the occurrence of a Mandatory Redemption other than a Mandatory Redemption caused by a (i) termination of the Credit Default Swap pursuant to which the Protection Buyer is the defaulting party, (ii) termination of the Collateral Put Agreement pursuant to which the Collateral Put Provider is the defaulting party or (iii) termination of the Basis Swap pursuant to which the Basis Swap Counterparty is the defaulting party, the Trustee will liquidate all Eligible Investments and the Issuer or the Trustee will notify the Collateral Disposal Agent to liquidate all Collateral Securities and apply such proceeds as described under "—Priority of Payments—Principal Proceeds—Blended Maturity, Optional Redemption Date or Mandatory Redemption Date".

In the case of a Mandatory Redemption caused by a (i) termination of the Credit Default Swap pursuant to which the Protection Buyer is the defaulting party, (ii) termination of the Collateral Put Agreement pursuant to which the Collateral Put Provider is the defaulting party or (iii) termination of the Basis Swap pursuant to which the Basis Swap Counterparty is the defaulting party, the Trustee will request that the Collateral Disposal Agent solicit bids from all of the Collateral Securities and take the actions described below.

If the Trustee determines that the expected liquidation proceeds of the Collateral Securities (as advised by the Collateral Disposal Agent) and the Eligible Investments will be an amount equal to or greater than the aggregate of (i) the amounts required to be paid under subclauses (i) through (iii) of "—Priority of Payments—Principal Proceeds—Blended Maturity, Optional Redemption Date or Mandatory Redemption Date" and (ii) with respect to the Class B Notes, the Class A Notes, the Class B Notes and

Confidential Treatment Requested by Goldman Sachs

GS MSS-E-001918078
the Class C Notes, the Currency Adjusted Aggregate Outstanding Amount of each Series of such Classes of Notes plus any accrued interest thereon, the Trustee will liquidate the Eligible Investments and will notify the Collateral Disposal Agent to liquidate all Collateral Securities and, thereafter, apply such liquidation proceeds in accordance with the Priority of Payments.

If the Trustee determines that the expected liquidation proceeds of the Collateral Securities (as advised by the Collateral Disposal Agent) and the Eligible Investments cannot be sold in an amount equal to or greater than the aggregate of (i) the amounts required to be paid under subclauses (i) through (iii) of "-Priority of Payments-Principal Proceeds-Stated Maturity, Optional Redemption Date or Mandatory Redemption Date" and (ii) with respect to the Class SS Notes, the Class A Notes, the Class B Notes and the Class C Notes, the Currency Adjusted Aggregate Outstanding Amount of each Series of such Classes of Notes plus any accrued interest thereon, the Trustee will notify (such notice, the "Special Termination Notice") Holders of the Class SS Notes, the Class A Notes, the Class B Notes and Class C Notes (x) of such occurrence; (y) that such Noteholders have the following options: (1) with the consent of 100% of such Noteholders, the Issuer will direct the Collateral Disposal Agent to liquidate all Collateral Securities distributable to such Class of Notes pursuant to the Special Termination Liquidation Procedure and (2) if such consent is not obtained, each such Noteholder will have the option of either requesting the Issuer to (A) deliver to it the Collateral Securities distributable to such Noteholder pursuant to the Special Termination Liquidation Procedure or (B) direct the Collateral Disposal Agent to liquidate the Collateral Securities distributable to such Noteholder pursuant to the Special Termination Liquidation Procedure and (c) of the identity of any Collateral Securities distributable to such Noteholder pursuant to the Special Termination Liquidation Procedure.

Each Holder of the Class SS Notes, the Class A Notes, the Class B Notes and the Class C Notes may, within ten Business Days of receipt of a Special Termination Notice, notify (such notice, a "Special Termination Request Notice") the Trustee of the option(s) that it chooses to exercise under the Special Termination Notice and the delivery instructions for such Noteholder with respect to any Collateral Securities to be delivered to such Noteholder pursuant to the Special Termination Liquidation Procedure. If a Noteholder fails to so notify the Trustee within ten Business Days of receipt of such Special Termination Notice, such Noteholder will be deemed to have selected option (1) of the Special Termination Notice.

Following the period in which the Trustee may receive timely Special Termination Request Notices, the Trustee and the Collateral Disposal Agent, at the direction of the Issuer, will follow the procedures described below (such procedure, the "Special Termination Liquidation Procedure"):

(i) the Trustee will liquidate at Eligible Investments;

(ii) to the extent the liquidation proceeds of Eligible Investments are insufficient to make the payment described in this subclause (i), the Collateral Disposal Agent will liquidate the highest-priced Collateral Security in the smallest principal amount that, when added to the proceeds obtained pursuant to subclause (i), will be sufficient to provide the Issuer with funds to pay amounts owed pursuant to subclause (ii) of "-Priority of Payments-Principal Proceeds-Stated Maturity, Optional Redemption Date or Mandatory Redemption Date", subject to the Administrative Expense Cap on the Mandatory Redemption Date (and the Issuer shall make such payment), provided, that if more than one Collateral Security has received the highest bid price, the Collateral Disposal Agent will liquidate any of such Collateral Securities that it determines in a commercially reasonable manner would maximize the liquidation proceeds received on all Collateral Securities;

(iv) (A) if less than 100% of the Aggregate USD Equivalent Outstanding Amount of the Class SS Notes, the Class A Notes, the Class B Notes and the Class C Notes voting as a single class provide the Trustee with an effective Special Termination Request Notice exercising option (1) under the related Special Termination Notice, the Trustee will cause the remaining

Confidential Treatment Requested by Goldman Sachs
Collateral Securities to be delivered (in the case of the Notes) or liquidated (in the case of amounts owed pursuant to subclause (i) or (ii) of “Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date”) liquidation proceeds from Collateral Securities with an aggregate par amount equal to any amounts owed pursuant to subclause (i) or (ii) of “Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date” and second (ii) to the Holders of each Series of the Notes (after giving effect to the payment of any principal of and/or interest on the Notes with any remaining proceeds obtained pursuant to subclause (i) and (ii) above), a per amount of Collateral Securities (or, with respect to Collateral Securities denominated in any Approved Currency other than Dollars, the Dollar equivalent of such per amount as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date) equal to the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date, plus any accrued and unpaid interest thereon (provided that determination of any pro rata allocations of such payments to any Series of Notes of such Class will be based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date).

(3) to the Holders of each Series of the Notes (after giving effect to the payment of any principal of and/or interest on the Notes with any remaining proceeds obtained pursuant to subclause (i) and (ii) above), a per amount of Collateral Securities (or, with respect to Collateral Securities denominated in any Approved Currency other than Dollars, the Dollar equivalent of such per amount as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date) equal to the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date, plus any accrued and unpaid interest thereon (provided that determination of any pro rata allocations of such payments to any Series of Notes of such Class will be based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date).
principal amount of such notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date;

(4) to the Holders of each Series of the Class B Notes (after giving effect to the payment of any principal of and/or interest on the Class B Notes with any remaining proceeds obtained pursuant to subclause (b) and (6) above), a par amount of Collateral Securities (or with respect to Collateral Securities denominated in any Approved Currency other than Dollars the Dollar equivalent of such par amount as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date) equal to the Dollar equivalent principal amount of such notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date, plus any accrued and unpaid interest thereon (provided that determination of any pro rata allocations of such payments to any Series of Notes of such Class will be based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date; and

(5) to the Holders of each Series of the Class C Notes (after giving effect to the payment of any principal of and/or interest on the Class C Notes with any remaining proceeds obtained pursuant to subclause (f) and (ii) above), a par amount of Collateral Securities (or with respect to Collateral Securities denominated in any Approved Currency other than Dollars the Dollar equivalent of such par amount as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date) equal to the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date, plus any accrued and unpaid interest thereon (provided that determination of any pro rata allocations of such payments to any Series of Notes of such Class will be based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date);

provided that if any Holder of the Class SS Notes, the Class A Notes, the Class B Notes or the Class C Notes has selected option 2(b) in the related Special Termination Request Notice, the Trustee will, in lieu of distributing the relevant principal amount of Collateral Securities to such Noteholder pursuant to this subclause (a), notify the Collateral Disposal Agent which will liquidate the Collateral Securities deliverable to such Noteholders and the Trustee will pay the proceeds thereof to such Noteholder on the Mandatory Redemption Date (or, if such proceeds are determined in an Approved Currency other than the Approved Currency in which such Holder’s Notes are denominated, the Trustee will enter a currency exchange on behalf of the Issuer and pay such Holder in the Approved Currency in which such Holder’s Notes are denominated), and

(6) If 100% of the Aggregate USD Equivalent Outstanding Amount of the Class SS Notes, the Class A Notes, the Class B Notes and the Class C Notes voting as a single class provide the Trustee with an effective Special Termination Request Notice exercising option (1) under the Special Termination Notice, the Trustee will notify the Collateral Disposal Agent which will liquidate the Collateral Securities distributable to such Noteholders and as payments (in the case of amounts owed pursuant to subclause (a) or (ii) of “Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date”) and apply the liquidation proceeds of the Collateral Securities distributable to such Noteholders (after giving consideration to any currency exchange, if necessary) and as payments (in the case of amounts owed pursuant to subclause (a) or (ii) of “Priority of Payments—Principal Proceeds—
Footnote Exhibits - Page 4861

Stated Maturity, Optional Redemption Date or Mandatory Redemption Date) in the same priority as described in subclause (A) above; and

(iv) the Issuer will instruct the Collateral Disposal Agent to liquidate the remaining Collateral Securities and the liquidation proceeds thereof will be distributed in accordance with subclause (iv) with respect to the Class O Notes and Class F Notes only (provided that determination of any pro rata allocations of such payments with respect to any Series of Notes of such Class will be based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date) (after giving consideration to any currency exchange, if necessary) through (iv) of the "(i) Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date."

On the earliest of the Credit Default Swap Early Termination Date, the Basis Swap Early Termination Date and/or the Collateral Put Agreement Early Termination Date (the "Mandatory Redemption Date"), the Trustee shall apply Principal Proceeds in accordance with "(i) Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date". Notwithstanding any provision to the contrary contained herein, even if there will be insufficient proceeds on the Mandatory Redemption Date to repay the Currency Adjusted Aggregate Outstanding Amount of each Series of Notes (plus accrued and unpaid interest), the Notes will be deemed to have been paid in full so long as (i) funds are properly applied in accordance with the Priority of Payments and/or (ii) funds and/or Collateral Securities are properly applied and/or distributed as described above on such Mandatory Redemption Date.

Payments

Payments in respect of principal and interest on a Note will be made to the person in whose name the relevant Note is registered on the applicable record date. Payments on the Notes will be payable by wire transfer in immediately available funds to an account maintained by DTC or its nominee (in the case of the Global Notes) or each Noteholder (in the case of Individual definitive Notes) to the extent practicable or otherwise by check drawn on a bank or other financial institution in New York, New York, or by wire transfer in immediately available funds to an account maintained by DTC or its nominee (in the case of the Global Notes), or to each Holder of a Note at the Noteholder’s address appearing in the applicable register (in the case of individual definitive Notes).

Final payments in respect of principal of the Notes will be made only against surrender of the Notes, at the office of any paying agent. None of the Issuers, the Trustee or any paying agent will have any responsibility or liability for any aspects of the records maintained by DTC or its nominee or any of its participants relating to, or for payments made thereby on account of beneficial interests in, a Global Note.

The Issuers expect that DTC or its nominee, upon receipt of any payment of principal or interest in respect of a Global Note held by DTC or its nominee, will immediately credit participants’ accounts with payments in amounts proportionate to their respective beneficial interests in such Global Note as shown on the records of DTC or its nominee. The Issuers also expect that payments by participants to owners of beneficial interests in such Global Notes held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

For so long as the Notes are listed on any stock exchange and the rules of such exchange so require, the Issuers will have a listing agent, a paying agent and a transfer agent (which shall be the "Listing, Paying and Transfer Agent") for the Notes and will give prompt written notice to each Holder of the appointment, termination or change in the location of any such office or agency.
Priority of Payments

The Issuer will only make payments, subject to the final paragraph under "Summary—Decrease in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes", in accordance with priorities described below under "Retained Interest Proceeds—Principal Maturity, Optional Redemption Date or Mandatory Redemption Date" and "Retained Interest Proceeds—Other Payment Dates" (collectively, the "Priority of Payments").

Interest Proceeds.

On each Payment Date, the Optional Redemption Date, the Mandatory Redemption Date and/or the Stated Maturity, Interest Proceeds will be applied in the following order of priority:

(i) to the payment of Administrative Expenses, which, with respect to the sum of these amounts listed in subclauses (ii), (iii) and (iv) of the definition of "Administrative Expenses", will be subject to the Administrative Expense Cap;

(ii) to the payment to the Portfolio Selection Agent of any accrued but unpaid Portfolio Selection Fees in accordance with the terms of the Portfolio Selection Agreement;

(iii) (a) to the payment of the Basis Swap Payment and (b) thereafter, to the payment of the Collateral Put Provider Fee Amount;

(iv) to the payment of the Class Interest Distribution Amounts of each Class of Notes in sequential order of priority by Class, provided that, to the extent there are insufficient proceeds to pay all amounts payable under this clause (iv) with respect to a Class with more than one Series Outstanding at such time of determination, any proration allocations of such payments with respect to any Series of Notes of such Class will be based on the Aggregate USD Equivalent Outstanding Amount of each such Series, provided, further, that with respect to each Class of the Issuer Notes, such payment will be made to the Issuing and Paying Agent, for distribution to the Holders of such Class of Notes;

(v) to the payment of any Administrative Expenses not covered in subclause (i) above, and

(vi) the balance of Interest Proceeds (if any) will be distributed to the Protection Buyer.

In addition, if the Issuer purchases a Supplemental Collateral Security at the direction of the Protection Buyer, the Issuer may use Interest Proceeds on any Business Day to pay for the portion of the purchase price of a Supplemental Collateral Security constituting accrued and unpaid interest thereon (such amount, the "Purchased Accrued Interest Amount").

To the extent there is a sufficient amount of Interest Proceeds in each Approved Currency, the Trustee shall use Interest Proceeds in each such Approved Currency to make payments described in this section, provided that no payment is made toward any item until all higher ranking items have been paid in full.

If on any Determination Date (or, in connection with a Mandatory Redemption Date, the third Business Day immediately prior to such Mandatory Redemption Date) the Issuer determines that there would be an insufficient amount of Interest Proceeds in any Approved Currency on the related Payment Date or the Mandatory Redemption Date, as the case may be, to make the payments described in clauses (i) through (vi) above, then the Issuer shall provide for the relevant items by exchanging any excess Interest Proceeds (as determined by the Protection Buyer after giving effect to the application of Interest Proceeds to make all payments of a higher priority) in any Approved Currency for proceeds in

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918081
such other Approved Currency for which such shortfall existed at the relevant Spot FX Rate determined on such Determination Date (or, in connection with a Mandatory Redemption Date, the third Business Day immediately prior to such Mandatory Redemption Date); provided that to the extent there would be insufficient Interest Proceeds after giving effect to any such exchange to make all payments required under clause (iv) above with respect to any Class in which Notes are denominated in more than one Approved Currency, such distributions shall be made pro rata to Holders of such Class based on the Aggregate USD Equivalent Outstanding Amount of each Series of such Class (or, in connection with a Mandatory Redemption Date, pro rata to Holders of such Class based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date).

Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date.

On the Stated Maturity of any Series of Notes, the Optional Redemption Date or the Mandatory Redemption Date, as the case may be, Principal Proceeds (together with, in the case of the Optional Redemption Date, any End Payment) will be apportioned, subject to the provisions described under "Mandatory Redemption", in the following order of priority:

(i) (a) to the payment of amounts referred to in subclause (i) and (ii) of "Interest Proceeds" above, but only to the extent not paid in full thereunder and then (b) in connection with an Optional Redemption in Whole, to the payment to the Portfolio Selection Agent of any MakeWhole Amount pursuant to the Portfolio Selection Agreement;

(ii) to the payment of all amounts due to the Basis Swap Counterparty pursuant to the terms of the Basis Swap, other than a Basis Swap Counterparty Default Termination Payment (including, for the avoidance of doubt, any Basis Swap Payment not paid in full under subclause (ii)(a) of "Interest Proceeds" above);

(iii) (a) the payment of all amounts due to the Collateral Put Provider pursuant to the terms of the Collateral Put Agreement, and (b) thereafter, in the case of the Stated Maturity of any Series of Notes, the Optional Redemption Date or the Mandatory Redemption Date (other than in connection with a Collateral Default), to the payment of all amounts due to the Protection Buyer pursuant to the terms of the Credit Default Swap, other than a Protection Buyer Default Termination Payment;

(iv) (a) to the payment of amounts referred to in subclause (iv) of "Interest Proceeds" above, but only to the extent not paid in full thereunder and then (b) (1) in the case of the Stated Maturity of any Series of Notes, (A) to the payment of the Currency Adjusted Aggregate Outstanding Amount of each Series of Notes maturing on such date, at par, in each case, pursuant to the Note Payment Sequence (but only with respect to Classes in which any Series of Notes matures on such date) provided that in each case determination of any pro rata allocations of such payments within any Class issued in more than one Series maturing on such date will be based on the Aggregate USD Equivalent Outstanding Amount of each Series and (B) if a Redemption Withholdings Refund is received by the Issuer in connection with such Stated Maturity to the payment, from any available Redemption Withholdings Refund only, of an amount equal to the ICE Currency Adjusted Aggregate Outstanding Amount Differential of each Series for which a Redemption Withholdings Refund has been computed, in each case pursuant to the Note Payment Sequence (but only with respect to Classes in which a Series of Notes with an ICE Currency Adjusted Aggregate Outstanding Amount Differential greater than zero matures on such date), provided that in each case determination of any pro rata allocations of such

Confidential Treatment Requested by Goldman Sachs
payments within any Class issued in more than one Series maturing on such date with ICE Currency Adjusted Aggregate Outstanding Amount Differentials greater than zero will be based on the Aggregate USD Equivalent Outstanding Amount of such Notes; or

(2) in the case of the Optional Redemption Date, to the payment of the Currency Adjusted Aggregate Outstanding Amount of the Notes, at par, pursuant to the Note Payment Sequence, provided that in each case determination of any pro rata allocations of such payments within any Class issued in more than one Series will be based on the Aggregate USD Equivalent Outstanding Amount of such Notes plus, in the limited circumstances as described in "Optional Redemption in Whole and Partial Optional Redemption", with respect to any Reversible Loss Series, the Optional Redemption Reimbursement Amount, or

(3) in the case of a Mandatory Redemption (other than in connection with a Collateral Default), (A) to the payment of the Currency Adjusted Aggregate Outstanding Amount of the Notes, at par, pursuant to the Note Payment Sequence, provided that in each case determination of any pro rata allocations of such payments within any Class issued in more than one Series will be based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date) and (B) if a Redemption Warrant Refund is received by the Issuer in connection with such Mandatory Redemption to the payment, from any available Redemption Warrant Refund only, of an amount equal to the ICE Currency Adjusted Aggregate Outstanding Amount Differential of each Series for which a Redemption Warrant Refund has been calculated, in each case pursuant to the Note Payment Sequence, provided that in each case determination of any pro rata allocations of such payments within any Class issued in more than one Series being redeemed on such date in connection with such Mandatory Redemption with ICE Currency Adjusted Aggregate Outstanding Amount Differentials greater than zero will be based on the Dollar equivalent of such Notes (calculated using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date);

(4) in the case of the Mandatory Redemption Date in connection with a Collateral Default, in the following priority: (A) first to the payment, pro rata, (i) of all amounts due to the Protection Buyer pursuant to the terms of the Credit Default Swap, other than a Protection Buyer Default Termination Payment and (ii) pro rata to the payment of the Currency Adjusted Aggregate Outstanding Amount of the Class SS Notes, the Class A-1 Notes and the Class A-2 Notes, at par, not to exceed, in the case of this subclause (A), $400,000,000 (such limit to be determined, with respect to subclause (ii)(A)(ii), based on the Dollar equivalent of such amounts paid (calculated using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date), (B) second to the payment, pro rata, of the remaining Currency Adjusted Aggregate Outstanding Amount of the Class SS Notes, Class A-1 Notes and Class A-2 Notes, at par, (after giving effect to subclause (II)(A), (C) third to the payment of all remaining amounts due to the Protection Buyer pursuant to the terms of the Credit Default Swap, other than a Protection Buyer Default Termination Payment, such amount not to exceed the Currency Adjusted Aggregate Outstanding Amount of the Notes immediately prior to the distribution of Principal Proceeds on such Payment Date less amounts paid under subclause (II)(A)(ii) and (D) fourth with respect to the Class B Notes, the Class C Notes, the Class D Notes and the Class FI Notes, to the payment of the Currency Adjusted

GS MBS-E-001918085
Footnote Exhibits - Page 4865

Aggregate Outstanding Amount of each Series of such Class of Notes, at par, in accordance with the Note Payment Sequence; provided that in each case determination of any pro rata allocations of such payments within any Class issued in more than one Series will be based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date, provided, further, that with respect to each Class of Issuer Notes, any such payment will be made to the Issuing and Paying Agent, for payment to the Holders of such Class of Notes;

(v) to the payment of the Basis Swap Counterparty Default Termination Payment, if any;

(vi) to the payment of the Protection Buyer Default Termination Payment, if any;

(vii) to the payment of any Administrative Expenses not covered in subclause (i) above;

(viii) on the Stated Maturity of any Series of Notes other than the final Stated Maturity with respect to any Series of Notes, for reinvestment in Collateral Securities at the direction of the Protection Buyer and, pending such reinvestment, to be invested in Eligible Investments;

(ix) the balance of Principal Proceeds (if any) will be distributed to the Protection Buyer.

To the extent there is a sufficient amount of Principal Proceeds in each Approved Currency, the Trustee shall use Principal Proceeds in each such Approved Currency to make payments described in this section; provided that no payment is made toward any item until all higher ranking items have been paid in full.

If on any Determination Date (or, in connection with a Mandatory Redemption Date, as of the third Business Day immediately prior to such Mandatory Redemption Date) the Issuer determines that there would be an insufficient amount of Principal Proceeds in any Approved Currency on the related Payment Date of the Mandatory Redemption Date, as the case may be, to make the payments described in clauses (i) through (vii) above, then the Issuer shall provide for the relevant Items by exchanging any excess Principal Proceeds (as determined by the Protection Buyer after giving effect to the application of Principal Proceeds to make all payments of a higher priority in the Priority of Payments) in any Approved Currency for proceeds in such other Approved Currency for which such shortfall existed at the relevant Spot FX Rate determined on such Determination Date (or, in connection with a Mandatory Redemption Date, as of the third Business Day immediately prior to such Mandatory Redemption Date); provided, to the extent there would be insufficient Principal Proceeds after giving effect to any such exchange to make all payments required under clause (ix) above with respect to any Class in which Items are denominated in more than one Approved Currency, such shortfall shall be borne pro rata by Holders of such Class based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the Determination Date (or, in connection with a Mandatory Redemption Date, as of the third Business Day immediately prior to such Mandatory Redemption Date).

Principal Proceed—Other Payment Dates

On each Business Day (other than the Stated Maturity of any Series of Notes, the Optional Redemption Date or the Mandatory Redemption Date, Principal Proceeds (together with, in the case of any Partial Optional Redemption Date, any Partial Optional Redemption End Payment) will be applied in the following order of priority:

(i) on a Credit Default Swap Settlement Date, to the payment of all Cash Settlement Amounts payable on such date; provided that Principal Proceeds representing Put

Confidential Treatment Requested by Goldman Sachs

GS MGS-E-001918086
Proceeds shall not be applied to the payment of any amount described in this subclause (i):

(iv) for reinvestment in Collateral Securities at the direction of the Protection Buyer and, pending such reinvestment, to be invested in Eligible Investments.

To the extent there is a sufficient amount of Principal Proceeds in each Approved Currency, the Trustee shall use Principal Proceeds in each such Approved Currency to make payments described in this section, provided that no payment is made toward any item until all higher ranking items have been paid in full.

If on any Determination Date the Issuer determines that there would be an insufficient amount of Principal Proceeds in any Approved Currency on the related Payment Date, then the Issuer shall provide for the relevant items by exchanging any excess Principal Proceeds (as determined by the Protection Buyer after giving effect to the application of Principal Proceeds to make payments of a higher priority in the Priority of Payments in any Approved Currency for proceeds in such other Approved Currency for which such shortfall existed at the relevant Spot FX Rate determined on such Determination Date; provided that to the extent there would be insufficient Principal Proceeds after giving effect to any such exchange to make all payments required under clause (i) above with respect to any Class in which Notes are denominated in more than one Approved Currency, such shortfall shall be borne pro rata by holders of such Class based on the Aggregate USD Equivalent Outstanding Amount of such Notes in each such Approved Currency.

Form of the Notes

Each Class of Notes sold in offshore transactions in reliance on Regulation S will be represented by one or more Regulation S Global Notes deposited with the Trustee or the Issuing and Paying Agent, as applicable, as custodian for DTC and registered in the name of Cede & Co., a nominee of DTC, for the respective accounts of Euroclear and Clearstream. Interests in a Regulation S Global Note may be held only through Euroclear or Clearstream.
Each Class of Notes sold in reliance on Rule 144A under the Securities Act will be represented by one or more Rule 144A Global Notes deposited with the Trustee or the Issuing and Paying Agent, as applicable, as custodian for DTC and registered in the name of Cede & Co., as nominee of DTC.

The Notes will be subject to certain restrictions on transfer as set forth under “Transfer Restrictions.”

Any interest in one of the Regulation S Global Notes and the Rule 144A Global Notes that is transferred to a person who takes delivery in the form of an interest in the other Global Note will, upon transfer, cease to be an interest in such Global Note and become an interest in the other Global Note and, accordingly, will thereafter be subject to all transfer restrictions and other procedures applicable to beneficial interests in such other Global Note for as long as it remains such interest.

Except in the limited circumstances described herein, owners of beneficial interests in either the Regulation S Global Notes or the Rule 144A Global Notes will not be entitled to receive physical delivery of certificated Notes. The Notes are not issuable in bearer form.

The Indenture

The following summary describes certain provisions of the Indenture. The summary does not purport to be complete and is subject to, and qualified in its entirety by reference to, the provisions of the Indenture.

Events of Default. An “Event of Default” is defined in the Indenture as:

(i) a default in the payment of principal on any Note at its Stated Maturity or the Optional Redemption Date;

(ii) the failure on any Payment Date to disburse amounts available in the Payment Account in accordance with the Priority of Payments and continuation of such failure for a period of ten Business Days;

(iii) a circumstance in which either of the Issuers or the Issuer Agents becomes an investment company required to be registered under the Investment Company Act;

(iv) a default in the performance, in a material respect, or breach, in a material respect, of any covenant, representation, warranty or other agreement of the Issuers in the Indenture (other than a covenant or agreement which is specifically addressed elsewhere therein) or in any certificate or other writing delivered pursuant thereto or in connection therewith or if any representation or warranty of the Issuers in the Indenture, the Issuing and Paying Agency Agreement or in any certificate or other writing delivered pursuant thereto proves to be incorrect in any material respect when made, and the continuance of such default or breach for a period of 30 days after written notice thereof shall have been given to the Issuers and the Portfolio Selection Agent by the Trustee or the Issuing and Paying Agent, as applicable, or to the Issuers, the Portfolio Selection Agent, the Trustee and the Issuing and Paying Agent by the Holders of at least 25% of the Aggregate USD Equivalent Outstanding Amount of the Notes, specifying such default, breach or failure and requiring it to be remedied and stating that such notice is a “Notice of Default” under the Indenture or the Issuing and Paying Agency Agreement, as applicable;

(v) the entry of a decree or order by a court having competent jurisdiction adjudging either of the Issuers as bankrupt or insolvent or granting an order for relief or approving as proper a petition seeking reorganization, arrangement, adjustment or composition

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918086
of or in respect of either of the Issuers under the Bankruptcy Code, the bankruptcy or insolvency laws of the Cayman Islands or any other applicable law, or appointing a receiver, liquidator, assignee, or sequestrator (or other similar official) of either of the Issuers or of any substantial part of its property, or ordering the winding up or liquidation of its affairs; or an involuntary case or proceeding shall be commenced against either of the Issuers seeking any of the foregoing and such case or proceeding shall continue in effect for a period of 60 consecutive days; or

(v) the institution by either of the Issuers of proceedings to be adjudicated as bankrupt or insolvent, or the consent by it to the institution of bankruptcy or insolvency proceedings against it, or the filing by either of the Issuers of a petition or answer or consent seeking reorganization or relief under the Bankruptcy Code, the bankruptcy and insolvency laws of the Cayman Islands or any other applicable law, or the consent by it to the filing of any such petition or to the appointment of a receiver, liquidator, assignee, trustee or sequestrator (or other similar official) of either of the Issuers or of any substantial part of its property, or the making by it of an assignment for the benefit of creditors, or the admission by it in writing of its inability to pay its debts generally as they become due, or the taking of any action by either of the Issuers in furtherance of any such action.

If an Event of Default shall have occurred and be continuing, the Trustee by notice to the Issuers at the direction of the Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class, may, subject to the Indenture, declare the principal of and accrued and unpaid interest on all the Notes to be immediately due and payable (except that, in the case of an Event of Default described in subclause (v) or (vi) above, such an acceleration will occur automatically and shall not require any action by the Trustee or any Noteholder).

At any time after such a declaration of acceleration of maturity has been made and before a judgment or decree for payment of the money due has been obtained by the Trustee as provided in accordance with the terms of the Indenture, a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class, by written notice to the Issuers and the Trustee or the Issuing and Paying Agent, as applicable, may rescind and annul such declaration and its consequences if

(i) the Issuer or the Co-Issuer has paid or deposited with the Trustee a sum sufficient to pay, and shall pay:

(A) all overdue installments of interest on and principal of the Notes (other than amounts due solely as a result of such acceleration);

(B) to the extent that payment of such interest is lawful, interest upon any Defaulted Interest at the applicable Series Interest Rate;

(C) all unpaid taxes and Administrative Expenses and other sums paid or advanced by the Trustee hereunder and the reasonable compensation, expenses, disbursements and advances of the Trustee and its agents and counsel; and

(D) all unpaid Portfolio Selection Fees;

(ii) the Trustee has determined that at Events of Default, other than the non-payment of the interest on or principal of Notes that have become due solely by such acceleration, have been cured and a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class by written notice to the Trustee or the Issuing and Paying Agent, as applicable, has agreed with such determination or waived such Event of Default as provided in the Indenture; and
Footnote Exhibits - Page 4869

(ii) each of the Credit Default Swap, the Basic Swap, the Collateral Put Agreement and the Collateral Disposal Agreement has not been terminated or any such termination has been rescinded.

If an Event of Default should occur and be continuing, the Trustee will make payments to the holders of the Notes only in the manner described in "Description of the Notes—Priority of Payments", except that if acceleration has occurred in accordance with the terms of the Indenture, or if a Payment Default has occurred and has not been cured or waived, no interest shall be payable on any Class of Notes until the Currency Adjusted Aggregate Outstanding Amount of each Series of all Classes of Notes that are senior to such Class, if any, have been paid in full.

If an Event of Default should occur and be continuing, the Trustee will retain the Issuer Assets securing the Notes intact and continue making payments in the manner described above under "—Priority of Payments" unless:

(i) the Trustee determines that the anticipated proceeds of a sale or liquidation of the Collateral (after deducting the reasonable expenses of such sale or liquidation) would be sufficient to discharge in full the aggregate of the amounts referred to in subclause (b) through (vi) of "Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date" and a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class agrees with such determination;

(ii) the holders of at least 66 2/3% of the Aggregate USD Equivalent Outstanding Amount of each Class of Notes (voting separately by Class), subject to the provisions of the Indenture, direct the sale and liquidation of the Collateral;

As soon as practicable following the occurrence of either condition specified in subclause (i) or (ii) above, the Trustee will liquidate all Eligible Investments and the Issuer or the Trustee shall notify the Collateral Disposal Agent to liquidate all Collateral Securities.

A Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class will have the right to direct the Trustee in conducting any proceedings or in the sale of any or all of the Collateral, but only if (i) such direction will not conflict with any rule of law or the Indenture and (ii) the Trustee determines that such action will not involve it in liability (unless the Trustee has, in its opinion, received satisfactory indemnity against any such liability).

Pursuant to the Indenture, as security for the payment by the Issuer of the compensation and expenses of the Trustee and any sums the Trustee may be entitled to receive as indemnification by the Issuer, the Issuer has granted the Trustee a lien on the Issuer Assets, which is senior to the lien of the Holders of the Notes on the Issuer Assets. The Trustee's lien is exercisable by the Trustee only if the Notes have become due and payable following an Event of Default.

Subject to the provisions of the Indenture relating to the duties of the Trustee, in the event that an Event of Default with respect to the Notes occurs and is continuing, the Trustee is under no obligation to exercise any of the rights or powers under the Indenture at the request of any Holders of Notes, unless such Holders have offered to the Trustee reasonable security or indemnity in the opinion of the Trustee.

A Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class may, in certain cases, waive any default with respect to such Notes, except (a) a default specified in subclause (b) of the definition of "Events of Default" or (b) a default in respect of a covenant or provision of the Indenture that cannot be modified or amended without the waiver or consent of the Holder of each Outstanding Note adversely affected thereby.
Footnote Exhibits - Page 4870

No Holder of a Note will have the right to institute any proceeding with respect to the Indenture unless (i) such Holder previously has given to the Trustee or the Issuing and Paying Agent, as applicable, written notice of a continuing Event of Default; (ii) except in the case of a default in the payment of principal, the Holders of at least 25% of the Aggregate USD Equivalent Outstanding Amount of the Notes have made a written request upon the Trustee to institute such proceedings in its own name as Trustee and such Holders have offered the Trustee reasonable indemnity; (iii) the Trustee has for 30 days failed to institute any such proceeding; and (iv) no direction inconsistent with such written request has been given to the Trustee or the Issuing and Paying Agent, as applicable, during such 30-day period by a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class.

See "Glossary of Defined Terms—Outstanding" for determining whether the Holders of the requisite percentage of Notes have given any direction, notice or consent.

Notices. Notices to the Holders of the Notes shall be given by first class mail, postage prepaid, to each Holder at the address appearing in the Note Register or in the Issuer Note Register, as applicable. In addition, for so long as any Series of Notes is listed on any stock exchange and the rules of such stock exchange so require, notice given to the Holders of any such Series of Notes shall also be given to the stock exchange in accordance with its procedures.

Modification of Indenture. The Issuers and the Trustee may also enter into one or more supplemental indentures, without obtaining the consent of Holders of the Notes, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent or the Portfolio Selection Agent (x) so long as the S&P Rating Condition and the Moody's Rating Condition have been satisfied and if such supplemental indenture would have no materially adverse effect on any of the Holders of the Notes, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent (as evidenced by an opinion of counsel or an officer's certificate of the Issuer) or the Portfolio Selection Agent or (y) for any of the following purposes:

(i) to evidence the succession of any person to either the Issuer or Co-Issuer and the assumption by any such successor of the covenants of the Issuer or Co-Issuer in the Notes and the Indenture;

(ii) to add to the covenants of the Issuer or the Trustee for the benefit of the Holders of the Notes or to surrender any right or power conferred upon the Issuers;

(iii) to convey, transfer, assign, mortgage or pledge any property to or with the Trustee, or add to the conditions, limitations or restrictions on the authorized amount, terms and purposes of the issue, authentication and delivery of the Notes;

(iv) to evidence and provide for the acceptance of appointment by a successor trustee and to add to or change any of the provisions of the Indenture as shall be necessary to facilitate the administration of the trusts under the Indenture by more than one Trustee;

(v) to correct or amplify the description of any property at any time subject to the lien of the Indenture, or to correct, amplify or otherwise improve upon any pledge, assignment or conveyance to the Trustee of any property subject to or required to be subject to the lien of the Indenture (including, without limitation, any and all actions necessary or desirable as a result of changes in law or regulations) or subject to the lien of the Indenture any additional property;

(vi) subject to clause (xx) below, to modify the restrictions on and procedures for resales and other transfers of Notes to reflect any changes in applicable law or regulation or the interpretation thereof or to enable the Co-Issuers to rely upon any exemption thereto.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918091
registration under the Securities Act or the Investment Company Act or to remove restrictions on resale and transfer to the extent not required thereunder;

(vii) to otherwise correct any inconsistency, mistake or cure any ambiguity (a) arising under the Indenture or (b) in connection with the final offering circular or any other transaction document;

(viii) to take any action necessary or advisable to prevent the Issuer or the Trustee from becoming subject to withholding or other taxes, fees or assessments or to prevent the Issuer from being treated for United States federal income tax purposes as engaged in a United States trade or business or otherwise being subject to United States federal, state or local income tax on a net income basis;

(ix) to facilitate the issuance of additional Notes of any Class pursuant to the Indenture or the Selling and Paying Agency Agreement, as applicable;

(x) to modify certain representations and warranties relating to the Trustee's security interest in the Issuer Assets in order to maintain or strengthen security interests in response to changes in applicable law or regulation (or the interpretation thereof) relating thereto;

(xi) to facilitate the listing of any of the Notes on any exchange;

(xii) to facilitate the issuance of combination securities or other similar securities;

(xiii) to change the minimum denomination of the Notes, or

(xiv) to modify the applicable ERISA restrictions on and procedures for sales and other transfers of Notes to reflect any changes in applicable law or regulation (or the interpretation thereof) upon the receipt by the Issuer and the Trustee of satisfactory evidence, which may include an opinion of counsel, that such modified restrictions and/or modified procedures for sales and transfers are in compliance with applicable ERISA requirements.

The Trustee shall, consistent with the written advice of counsel, in its discretion determine whether or not the Holders of Notes, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent or the Portfolio Selection Agent would be materially adversely affected by any supplemental Indenture (after giving notice of such change to the Holders of Notes, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and the Portfolio Selection Agent), and such determination shall be conclusive on all present and future Holders.

With the consent of a Majority of the Aggregate USD Equivalent Outstanding Amount of Notes of each Class of Notes materially and adversely affected thereby, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent or the Portfolio Selection Agent, as the case may be, the Trustee and the Issuers may execute a supplemental Indenture to add provisions to, or change in any manner or eliminate any provisions of, the Indenture or modify in any manner the rights of the Holders of the Notes, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and the Portfolio Selection Agent; provided that, without the consent of each Holder of each Outstanding Note of each Class (or, in the case of subclause (i), each Series) materially adversely affected thereby no supplemental Indentures may be entered into which:

(i) change the Stated Maturity of any Note, or the date on which any installment of principal or interest on any Note is due and payable, reduce the principal amount of any Note or
the Series Interest Rate or the redemption price with respect to any Note, change the
earliest specified date on which any Note may be redeemed, change the provisions of
the Indenture for the application of Proceeds of any Issuer Assets to the payment of
principal of or interest on the Notes or change any place where, or the coin or currency in
which, any Note or the principal thereof or interest thereon is payable, or impair the
right to petition in the bankruptcy or reorganization of any such Issuer or to bring any
suit or other proceeding for its enforcement, on or after the Stated Maturity thereof
or, in the case of a redemption of a Note, on or after the Optional Redemption
Date, the applicable Partial Optional Redemption Date or the Mandatory Redemption
Date).

(i) reduce the percentage of the Aggregate USD Equivalent Outstanding Amount of Notes of
each Class whose consent is required for the authorization of any such supplemental indenture, or the consent of the Holders of which is required for any
waiver of compliance with certain provisions of the indenture or certain defaults
thereunder and their consequences;

(ii) impair or adversely affect the Issuer Assets except as otherwise permitted by the
Indenture;

(iii) except as expressly provided in the Indenture and other than the lien of the Indenture,
permit the creation of any lien with respect to any part of the Issuer Assets or terminate
such liens on any property at any time subject thereto or deprive the Holder of any Note or
the Trustee of the security afforded by the lien of the Indenture;

(iv) reduce the percentage of Holders of the Notes of each Class whose consent is required
to request the Trustee to preserve the Issuer Assets or rescind the Trustee’s election to
preserve the Issuer Assets or to sell or liquidate the Issuer Assets pursuant to the
Indenture;

(v) modify any of the provisions of the Indenture with respect to any supplemental indenture
except to increase the percentage of the Aggregate USD Equivalent Outstanding
Amount of Notes whose Holders’ consent is required for any such action or to provide
that other provisions of the indenture cannot be modified or waived without the consent
of the Holder of each Outstanding Note adversely affected thereby;

(vi) modify the definition in the indenture of the term “Outstanding”;

(vii) modify any of the provisions of the Indenture in such a manner as to (i) affect the
calculation of the amount of any payment of interest on or principal of any Note or (ii)
affect the right of the Holders of the Notes to the benefit of any provisions for the
redemption of the Notes contained therein;

(viii) amend any provision of the Indenture or any other agreement entered into by the Issuer
with respect to the transactions contemplated hereby relating to the institution of
proceedings for the Issuer or the Co-Issuer to be adjudicated as bankrupt or insolvent, or
the consent of the Issuer or the Co-Issuer to the institution of bankruptcy or insolvency
proceedings against it, or the filing with respect to the Issuer or the Co-Issuer of a
petition or answer or consent seeking reorganization, arrangement, moratorium or
liquidation proceedings, or other proceedings under the Bankruptcy Code or any similar
laws, or the consent of the Issuer or the Co-Issuer to the filing of any such petition or the
appointment of a receiver, liquidator, assignee, trustee or trustee or receiver (or other similar
official) of the Issuer or the Co-Issuer or any substantial part of its property, respectively;

Confidential Treatment Requested by Goldman Sachs
(x) amend any limited recourse provision of the indenture or any limited recourse provision of any other agreement entered into by the Issuer with respect to the transactions contemplated hereby (which limited recourse provision provides that the obligations of the Issuer are limited recourse obligations of the Issuer payable solely from the Issuer Assets in accordance with the terms of the indenture).

The Trustee shall, consistent with the written advice of counsel, in its discretion determine whether or not the Holders of the Notes, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent or the Portfolio Selection Agent would be adversely or materially adversely affected by any supplemental indenture (after giving notice of such change to the Holders of Notes, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and the Portfolio Selection Agent), and such determination shall be conclusive on all present and future Holders.

Unless the Portfolio Selection Agent has been given prior written notice of such amendment and has consented thereto in writing, no supplemental indenture may (a) affect the obligations or rights of the Portfolio Selection Agent including, without limitation, expanding or restricting the Portfolio Selection Agent's rights or obligations or (b) affect the amount, timing or priority of any fees payable to the Portfolio Selection Agent under the Portfolio Selection Agreement and the Indenture.

Under the Indenture, the Trustee will, for so long as the Notes are Outstanding and rated by the Rating Agencies, deliver a copy of any proposed supplemental indenture to the Rating Agencies not later than (i) 10 Business Days prior to the execution of such proposed supplemental indenture if such proposed supplemental indenture requires the S&P Rating Condition and the Moody's Rating Condition to be satisfied or (ii) at any time prior to the execution of such proposed supplemental indenture if such proposed supplemental indenture does not require the S&P Rating Condition or the Moody's Rating Condition to be satisfied, and no such supplemental indenture shall be entered into unless the S&P Rating Condition and the Moody's Rating Condition have been satisfied (other than a supplemental indenture entered into in accordance with clause (y) of the first paragraph of this section).

Notwithstanding anything to the contrary herein, any such supplemental indenture shall not affect the characterization of the Co-Issued Notes as debt for United States federal income tax purposes.

Additional Issuance. With respect to the Co-Issued Notes, a Series of any such Class may be issued from time to time following the Closing Date. Such additional issuance of such Series must satisfy the following conditions:

(a) the proceeds from any such additional issuance shall be used by the Issuer to purchase Collateral Securities at the direction of the Protection Buyer in a principal amount not less than the principal amount of such additional issuance or, pending such investment, deposited in the Principal Collection Account and invested in Eligible Investments; provided that the Collateral Securities and Eligible Investments purchased with the proceeds of such additional issuance will be denominated in the same Approved Currency in which such additional Series is denominated;

(b) the sum of the proceeds received from the issuance of such Series plus any Additional Issuance Upfront Payment received by the Issuer from the Protection Buyer in connection with such additional issuance must equal the principal amount of such Notes;

(c) the terms (other than the date of issuance, the Series Interest Rate, the Approved Currency in which such Notes are denominated, the Stated Maturity, the Non-Call Period, and the date from which interest will accrue) of any Series of Notes will be identical to the terms of any previously issued Notes of the relevant Class of such Series, if any.
Footnote Exhibits - Page 4874

(d) the Protection Buyer must notify the Rating Agencies of such additional issuance prior to such additional issuance;

(e) the S&P Rating Condition and the Moody’s Rating Condition must be satisfied, and

(f) if the additional issuance will cause the Aggregate USD Equivalent Outstanding Amount of any Class of Co-Issued Notes to exceed the Initial Class Notional Amount set forth in “Summary—Notes,” the issuer will receive written advice of counsel that, following such additional issuance, the Co-Issued Notes issued pursuant to such additional issuance will be treated as debt for U.S. federal income tax purposes and any Co-Issued Notes outstanding prior to such additional issuance would have received an opinion that such Co-Issued Notes will be treated as debt for U.S. federal income tax purposes after such additional issuance.

In connection with any such additional issuance, the issuer shall, to the extent required by the notes thereof, provide any applicable stock exchange with a listing circular or an offering circular supplement, relating to such notes.

Each Series of a given Class shall be pari passu with respect to Credit Event Adjustment Amounts, Notional Principal Adjustment Amounts and Reinvestment Adjustment Amounts as described herein.

For the avoidance of doubt, following a Partial Optional Redemption of any Series of Co-Issued Notes or Protection Buyer Notes that are Co-Issued Notes, additional Series of such Class may be issued in accordance with the requirements set forth in this section.

Jurisdictions of Incorporation. Under the Indenture, the issuer and the Co-Issuer will be required to maintain their rights and franchises as a company and a corporation incorporated under the laws of the Cayman Islands and the State of Delaware, respectively, to comply with the provisions of their respective organizational documents and to obtain and preserve their qualification to do business as foreign corporations in each jurisdiction in which such qualifications are or shall be necessary to protect the validity and enforceability of the Indenture, the Notes or any of the Issuer Assets; provided, however, that the Issuer shall be entitled to change its jurisdiction of incorporation from the Cayman Islands to any other jurisdiction reasonably selected by the Issuer and approved by the common shareholder of the Issuer so long as (a) such change is not disadvantageous in any material respect to the Issuer, the Holders of any Class of Notes, the Protection Buyer, the Basic Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and the Portfolio Selection Agent, (b) written notice of such change shall have been given by the Issuer to the Trustee, the Issuing and Paying Agent, the Holders of any Class of Notes, the Protection Buyer, the Basic Swap Counterparty, the Collateral Put Provider, the Portfolio Selection Agent and each of the Rating Agencies at least 10 Business Days prior to such change of jurisdiction, (c) the S&P Rating Condition shall have been satisfied and (d) on or prior to the 15th Business Day following such notice the Trustee or the Issuing and Paying Agent, as applicable, shall not have received written notice from a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class, the Protection Buyer, the Basic Swap Counterparty, the Collateral Put Provider or the Collateral Disposal Agent objecting to such change.

Petitions for Bankruptcy. The Indenture will provide that neither (i) the Trustee, in its own capacity, nor on behalf of any Noteholder nor (ii) the Noteholders may, prior to the date which is one year and one day (or, if longer, the applicable preference period) after the payment in full of all Notes institute against, or join any other person in instituting against, the Issuer or Co-Issuer any bankruptcy, reorganization, arrangement, moratorium or liquidation proceedings, or other proceedings under federal or state bankruptcy or similar laws, including under Cayman Islands law.

GS MBS-E-001918096
Satisfaction and Discharge of the Indenture. The Indenture will be discharged with respect to the Issuer Assets securing the Notes upon delivery to the Trustee or the Issuing and Paying Agent, as applicable, for cancellation of all of the Notes, or, within certain limitations (including the obligation to pay principal and interest), upon deposit with the Trustee of funds sufficient for the payment or redemption thereof and the payment by the Issuer of all other amounts due under the Indenture.

Trustee. LaSalle Bank National Association will be the Trustee under the Indenture for the Notes. The Trustee and their Affiliates may maintain other banking relationships in the ordinary course of business with the Trustees. The payment of the fees and expenses of the Trustee relating to the Notes is from the obligations of the Issuer. The Trustee and/or its Affiliates may receive compensation in connection with the Trustee’s investment of trust assets in certain eligible investments as provided in the Indenture and in connection with the Trustee’s administration of any securities lending activities of the Issuer.

The Indenture contains provisions for the indemnification of the Trustee for any loss, liability or expense incurred without negligence, willful misconduct or bad faith on its part, arising out of or in connection with the acceptance or administration of the Indenture.

Reports Prepared Pursuant to the Indenture. Upon the written request in the form of Exhibit A hereto, any Noteholder may request that the Trustee or the Issuing and Paying Agent, as applicable, prepare to such Noteholder the monthly reports and certain other reports prepared by or on behalf of the Issuer in accordance with the Indenture.

Governing Law. The Indenture and the Co-Issued Notes will be governed by, and construed in accordance with, the laws of the State of New York applicable to agreements made and to be performed therein.

The Notes will be in book-entry form. Persons acquiring beneficial ownership interests in the Notes will hold their interests through DTC if such Persons are direct participants in DTC, or indirectly through organizations that are participants in DTC. Therefore, a Person who holds a beneficial ownership interest in the Notes will only be permitted to exercise their rights through DTC and participants of DTC. DTC or any other intermediary shall be the registered holder of the Notes and DTC will only take action with respect to such rights as the instruction or the direction of the participants. Similarly, if the Trustee or the Issuing and Paying Agent, as applicable, has to provide any notice to Noteholders or to solicit the consent of any Noteholder, the Trustee or the Issuing and Paying Agent, as applicable, will only act through DTC (which in turn will notify its relevant participants, which in turn will notify Persons holding beneficial ownership interests in the Notes).

From time to time following the Closing Date, any Noteholder may submit to the Trustee, or the Issuing and Paying Agent, as applicable, in writing, a Notice Holder Communication Notice requesting that the contents of such communication be sent to all other Noteholders. Within three Business Days of receiving such Notice Holder Communication Notice, the Trustee or Issuing and Paying Agent, as applicable, will deliver to all Noteholders a Trustee Notice Holder Communication Notice.

The Issuing and Paying Agency Agreement

Pursuant to the Issuing and Paying Agency Agreement, LaSalle Bank National Association will be appointed as the Issuing and Paying Agent. The Issuer may at any time and from time to time terminate the appointment of the Issuing and Paying Agent and appoint one or more additional Issuing and Paying Agents. The Issuer will give prompt notice to the Trustee of the appointment or termination of the Issuing and Paying Agent and of the location and any change in the location of the Issuing and Paying Agent’s office or agency. The Issuing and Paying Agent will provide notice to the Holders of the Issuer Notes of any such change of which it receives notice.

Confidential Treatment Requested by Goldman Sachs

GS MSS-E-001918096
Pursuant to the Issuing and Paying Agency Agreement, LaSalle Bank National Association will be appointed as the Issuer Note Registrar. The Issuer Note Registrar will keep the note register and provide for the registration and transfer of the Issuer Notes. The Issuer may at any time and from time to time terminate the appointment of the Issuer Note Registrar and appoint one or more additional Issuer Note Registrars. The Issuer will give written notice to the Issuing and Paying Agent of the appointment or termination of the Issuer Note Registrar and of the location and any change in the location of the Issuer Note Registrar’s office. The Issuer Note Registrar will provide notice to the Holders of the Issuer Notes of any such change of which it receives notice.

The Issuing and Paying Agent will make distributions on the Issuer Notes and perform various fiscal services on behalf of the Issuer. On or prior to the Closing Date, the Issuing and Paying Agent will establish a segregated bank account designated as the “Issuer Notes Distribution Account.” The Issuing and Paying Agent will deposit any funds received from the Trustee pursuant to the Indenture (including, without limitation, all distributions of Interest Proceeds and Principal Proceeds on each Payment Date, any other Business Day on which Currency Adjusted National Principal Adjustment Amounts are paid by the Issuer to the Holders of the Issuer Notes or the Stated Maturity for, or date of redemption of, the applicable Issuer Notes, made by the Trustee to the Issuing and Paying Agent pursuant to the Indenture as described herein under “Priority of Payments”) into the Issuer Notes Distribution Account.

Pursuant to the Issuing and Paying Agency Agreement, the Issuing and Paying Agent, on behalf of the Issuer, will promptly give notice of the amount distributed thereunder for the relevant Payment Date to the Holders of the Issuer Notes and to the Issuer. The Issuing and Paying Agent will also make such information available to Holders of the Issuer Notes at its offices. Distributions to Holders of the Issuer Notes, if any, will be paid on each Payment Date, any other Business Day on which Currency Adjusted National Principal Adjustment Amounts are paid by the Issuer to the Holders of the Issuer Notes or the Stated Maturity for, or date of redemption of, a Class of the Issuer Notes, as applicable, to the persons in whose names such Issuer Notes are registered in the Issuer Note Registrar at the close of business on the Record Date for such Payment Date. Pursuant to the Issuing and Paying Agency Agreement, distributions to Holders of any Class of Issuer Notes will be paid pro rata to Holders of such Class; provided that such pro rata allocation will be based on the Aggregate USD Equivalent Outstanding Amount of such Class of Notes held by each such Holder but will be payable to each such Holder in the applicable Approved Currency with respect to each such Holder’s Currency Adjusted Aggregate Outstanding Amount of such Notes.

The Issuing and Paying Agency Agreement also provides for the terms of transfer and exchange of the Issuer Notes described herein under “Transfer Restrictions.” The payment of the fees and expenses of the Issuing and Paying Agent and the Issuer Note Registrar is solely the obligation of the Issuer. The Issuing and Paying Agency Agreement contains provisions for the determination of the Issuing and Paying Agent and the Issuer Note Registrar against any and all liabilities, costs and expenses (including reasonable legal fees and expenses) relating to or arising out of (i) in connection with their performance under the Issuing and Paying Agency Agreement, except to the extent that such liabilities, costs and expenses are caused by the negligence, willful misconduct or bad faith of the Issuing and Paying Agent or the Issuer Note Registrar, as the case may be.

Additional Issuance. With respect to the Issuer Notes, a Series of any such Class may be issued from time to time following the Closing Date. Such additional issuance of such Series must satisfy the following conditions:

(a) the proceeds from any such additional issuance shall be used by the Issuer to purchase Collateral Securities at the direction of the Protection Buyer in a principal amount not less than the principal amount of such additional issuance or, pending such investment, deposited in the Principal Collection Account and invested in Eligible Investments, provided that the Collateral Securities and Eligible Investments purchased with the
Footnote Exhibits - Page 4877

The proceeds of such additional issuance will be denominated in the same Approved Currency in which such additional Series is denominated;

(b) the sum of the proceeds received from the issuance of such Series plus any Additional Issuance Uplift Payment received by the Issuer from the Protection Buyer in connection with such additional issuance must equal the principal amount of such Notes;

(c) the terms (other than the date of issuance, the Series Interest Rate, the Approved Currency in which such Notes are denominated, the Stated Maturity, the Non-Call Period and the date from which interest will accrue) of any Series of Notes will be identical to the terms of any previously issued Notes of the relevant Class of such Series, if any;

(d) the Protection Buyer shall notify the Rating Agencies of such additional issuance prior to such additional issuance; and

(e) the S&P Rating Condition and the Moody’s Rating Condition must be satisfied.

In connection with any such additional issuance, the Issuer shall, to the extent required by the rules thereof, provide any applicable stock exchange with a listing circular or an offering circular supplement, relating to such Notes.

For the avoidance of doubt, following a Partial Optional Redemption of any Series of Issuer Notes or Protection Buyer Notes that are Issuer Notes, additional Series of such Class may be issued in accordance with the requirements set forth in this section.

Governing Law. The Issuer Notes and each Deed of Covenant will be governed by, and construed in accordance with, the laws of the Cayman Islands. The Issuing and Paying Agent Agreement will be governed by, and construed in accordance with, the laws of the State of New York applicable to agreements made and to be performed therein without regard to the conflict of laws principles thereof.

Reports Prepared Pursuant to the Indenture. Upon the written request in the form of Exhibit A hereof, any Holder of the Issuer Notes may request that the Issuing and Paying Agent provide to such Holder the monthly reports and certain other reports prepared by or on behalf of the Issuer in accordance with the terms of the Indenture.

USE OF PROCEEDS

The aggregate net proceeds of the offering of the Notes are expected to equal approximately $192,000,000 (including the USD Equivalent of the Notes denominated in Approved Currencies other than Dollar). The Issuer will use such net proceeds, together with part or all of the Uplift Payment, to purchase Collateral Securities and Eligible Investments that will have an aggregate principal amount of at least $192,000,000 (including the USD Equivalent of the Collateral Securities denominated in Approved Currencies other than Dollar), provided that, for each Approved Currency, the aggregate principal amount of Collateral Securities and Eligible Investments denominated in such Approved Currency and purchased with the proceeds of the offering will equal or exceed the Currency Adjusted Aggregate Outstanding Amount of Notes denominated in such Approved Currency on the Closing Date.

RATINGS OF THE NOTES

It is a condition to the issuance of the Notes issued on the Closing Date that the Notes of each such Class receive from the Rating Agencies the maximum rating indicated under “Summary—Ratings”. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating agency.

GS MBB-E-001916058
THE CREDIT DEFAULT SWAP

The following description of the Credit Default Swap is a summary of certain provisions of the Credit Default Swap. The following summary does not purport to be complete, and is qualified in its entirety by reference to the detailed provisions of the Credit Default Swap.

The Notes do not represent an obligation of the Protection Buyer. Noteholders will not have any right to proceed directly against the Protection Buyer in respect of the Protection Buyer’s obligations under the Credit Default Swap. However, the Holders of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class will have the right to direct the Issuer with respect to the enforcement of any claims that they may have against the Protection Buyer. Notwithstanding the foregoing, if the Protection Buyer is the sole defaulting party or Affected Party under the Credit Default Swap, then the Issuer will have 30 days to enter into a replacement credit default swap and basis swap (otherwise a Mandatory Redemption will occur). See “[Replacement].”

Effective Date and Termination Date

The effective date of the Credit Default Swap will be the Closing Date.

Unless terminated prior to its scheduled termination date, or unless an Extended Termination Date as described in this section occurs, the Credit Default Swap will terminate on February 22, 2023 (the “Scheduled Termination Date”).

Credit Event Notices may be given (the “Notice Delivery Period”) during the period from and including the Closing Date to and including the earlier of the Scheduled Termination Date or a Credit Default Swap Early Termination Date.

If, on the Scheduled Termination Date a Credit Event has occurred with respect to which the Conditions to Settlement have been satisfied, but with respect to which the Credit Default Swap Settlement Date has not occurred, the termination date of the Credit Default Swap will extend up to the day that is the last Credit Default Swap Settlement Date (such day, the “Extended Termination Date”).

The “Termination Date” of the Credit Default Swap will be the later of (i) the Scheduled Termination Date and (ii) the Extended Termination Date.

Payments

Upfront Payment by the Protection Buyer to the Issuer.

On the Closing Date, the Protection Buyer will make an upfront payment (the “Upfront Payment”) to the Issuer in an amount with respect to each Approved Currency, if greater than zero, equal to:

(i) the sum of (a) the amount needed to purchase the Initial Collateral Securities denominated in such Approved Currency (with an aggregate principal amount of at least the Currency Adjusted Aggregate Outstanding Amount of Notes denominated in such Approved Currency) and (b) expenses incurred on or prior to the Closing Date in such Approved Currency in connection with the offering of the Notes and the transactions contemplated hereby, less

(ii) the Currency Adjusted Aggregate Outstanding Amount of Notes denominated in such Approved Currency.
Periodic Payments by the Protection Buyer to the Issuer.

(i) On the Closing Date and each Payment Date prior to the earliest to occur of (a) the final Stated Maturity of all Series of Notes, (b) an Optional Redemption in Whole or (c) a Mandatory Redemption, the Protection Buyer will pay to the Issuer an amount equal to the aggregate of:

(i) the product, with respect to each Series of Notes Outstanding, of:

(a) the Applicable Spread for such Series;

(b) the Currency Adjusted Aggregate Outstanding Amount of such Series of Notes on such date; and

(c) the applicable Day Count Fraction for the Interest Accrual Period commencing on such date;

(ii) the product, with respect to each Class of Notes Outstanding, of:

(a) the Aggregate USD Equivalent Outstanding Amount of such Class on such date;

(b) the Applicable Class Portfolio Selection Fee Rate with respect to such Class of Notes; and

(c) the actual number of days in the Interest Accrual Period (or, if on such date the Protection Buyer has a long-term rating below "AA-" by S&P, the actual number of days in the next two Interest Accrual Periods) commencing on such date divided by 360;

(iii) an amount equal to the Collateral Put Provider Fee Amount due on the immediately succeeding Payment Date to the Collateral Put Provider pursuant to the Collateral Put Agreement; and

(iv) an amount equal to the Administrative Expenses expected to be paid pursuant to clause (i) of the "Description of the Notes—Priority of Payments—Interest Proceeds" on the immediately succeeding Payment Date (or, if on such date the Protection Buyer has a long-term rating below "AA-" by S&P, the amount determined to be due on the following two Payment Dates as determined by the Credit Default Swap Calculation Agent in a commercially reasonable manner (excluding, for the avoidance of doubt, any indemnities payable by the Issuer); plus

(f) on each Payment Date, an amount, if greater than zero, equal to:

(i) the amount required to be paid pursuant to clauses (i) through (v) of "Description of the Notes—Priority of Payments—Interest Proceeds" on such Payment Date (excluding, for the avoidance of doubt, any indemnities payable by the Issuer); less

(ii) the amount on deposit on such Payment Date in the CDS Issuer Fixed Payment Subaccount plus the Monthly Basis Swap Payment due on such Payment Date (each payment made under (i) and (ii) above, a "Fixed Payment").
Footnote Exhibits - Page 4880

Cash Settlement Amounts paid by the Issuer to the Protection Buyer.

On a Credit Default Swap Calculation Date, the Credit Default Swap Calculation Agent will
determine the Cash Settlement Amount that will need to be paid by the Issuer on the related Credit
Default Swap Settlement Date. See "Summary—The Credit Default Swap".

In addition, on a Credit Default Swap Calculation Date, the Trustee will direct the liquidation of
any Eligible Investments held by the Issuer and denominated in the Approved Currency in which such
Cash Settlement Amount is payable (assuming that the Issuer will receive at least 100% of par for such
Eligible Investments in any such liquidation, other than Put Excluded Collateral) in an amount sufficient to
pay the related Cash Settlement Amount on the Credit Default Swap Settlement Date.

If such liquidation proceeds are insufficient to pay such Cash Settlement Amount, the Issuer or
Trustee will direct the Collateral Disposal Agent to attempt to sell a par amount of Collateral Securities
(rounded up, if necessary, to reflect minimum denominations) in an amount (assuming that the Issuer will
receive at least 100% of par for such Collateral Securities in any such liquidation, other than Put Excluded
Collateral), when added to the amount of proceeds expected to be received by the Issuer from liquidation
of Eligible Investments (assuming that the Issuer will receive at least 100% of par for such Eligible
Investments, other than Put Excluded Collateral), sufficient to pay a Cash Settlement Amount (the par
amount of Collateral Securities to be liquidated in connection with any liquidation of the Collateral
Securities, the "Collateral Securities Principal Amount"), for settlement on the Credit Default Swap
Settlement Date. The Collateral Disposal Agent shall select in its sole discretion the particular Collateral
Securities to be liquidated in an aggregate principal amount equal to the Collateral Securities Principal
Amount (the Collateral Securities selected by the Collateral Disposal Agent to be liquidated in connection
with any liquidation of Collateral Securities, the "Selected Collateral Securities"), provided that any such
Selected Collateral Securities will be denominated in the same currency as the Notes, the Currency
Adjusted Aggregate Outstanding Amount of which is reduced by the related Currency Adjusted Credit
Event Adjustment Amount. The Collateral Disposal Agent will then attempt to solicit bids for the sale of
each such Selected Collateral Security. The Collateral Disposal Agent may, in its sole discretion, bid up
to 103% for such Selected Collateral Security (excluding any accrued interest) if the Collateral Disposal
Agent is not able to procure a third-party bid of at least 100% for a Selected Collateral Security will be sold
to the highest bidder for settlement on the Credit Default Swap Settlement Date. Pursuant to the terms of
the Credit Default Swap, if the liquidation proceeds of Eligible Investments and Collateral Securities would
have been sufficient to pay a Cash Settlement Amount (less such Collateral (other than Put Excluded
Collateral) been liquidated at least at 100% of par (instead of below 100% of par), the Issuer will be
deemed to have paid such Cash Settlement Amount in full upon the Protection Buyer's receipt of the
actual related liquidation proceeds.

See "Summary—The Credit Default Swap—Cash Settlement Amount".

Payment by the Protection Buyer to the Issuer in connection with a Reference Obligation
Reimbursement.

On the Payment Date immediately following the Due Period during which a Reference Obligation
Reimbursement Amount is determined by the Credit Default Swap Calculation Agent with respect to one
or more Reference Obligation(s), and so long as such Reference Obligation(s) remains in the Reference
Portfolio at the time of such Reference Obligation Reimbursement, the Protection Buyer will pay to the
Issuer an amount equal to the aggregate of (i) the Currency Adjusted Reimbursement Adjustment Amounts
payable on such date and (ii) the ICE Currency Adjusted Interest Reimbursement Amounts payable on
such date.
Footnote Exhibits - Page 4881

Payments by the Protection Buyer to the Issuer in connection with an additional issuance of
Notes.

Following the Closing Date, on or prior to the date on which the Issuer issues additional Notes,
the Protection Buyer will (in the event such additional issuance occurs) make a payment to the Issuer (in
the Approved Currency in which such additional Notes are denominated) equal to the product of (i) the
per amount of such additional Notes and (ii) the greater of (a) 100% less the issuance price of such
additional Notes (expressed as a percentage of the par amount thereof) and (b) zero (any such payment,
an "Additional Issuance Upfront Payment").

Payments by the Protection Buyer to the Issuer in connection with the Issuer's purchase of
Collateral Securities.

Following the Closing Date, on or prior to the date on which the Issuer purchases a Collateral
Security, the Protection Buyer shall (in the event the Issuer actually purchases a Collateral Security)
makes a payment to the Issuer equal to the product of (i) the per amount of such Collateral Security and
(ii) the greater of (a) the purchase price (including accrued and unpaid interest) of such Collateral Security
(expressed as a percentage of the par amount thereof) less 100.00% and (b) zero.

Payment on the Stated Maturity, the Optional Redemption Date or the Mandatory Redemption
Date.

On the Stated Maturity, the Optional Redemption Date or the Mandatory Redemption Date,
in addition to any Credit Default Swap Termination Payment, the Protection Buyer may, to the extent of
available Principal Proceeds, receive from the Issuer an amount as described under subclause (a) of
"Description of the Notes—Priority of Payments—Principal Proceeds—Stated Maturity, Optional
Redemption Date or Mandatory Redemption Date".

On the Stated Maturity for any Series of Notes or a Mandatory Redemption caused by a
termination of the Credit Default Swap as a result of a default by the Protection Buyer, a termination
of the Collateral Put Agreement as a result of a default by the Collateral Put Provider or a termination of the
Basis Swap as a result of a default by the Basis Swap Counterparty, the Protection Buyer will make a
payment to the Issuer in an amount equal to the aggregate of the Currency Adjusted Redemption Refund
Adjustment Amounts determined with respect to such date (any such payment, a "Redemption
Writearound Refund").

Payment in Connection with a Replacement Credit Default Swap.

On the date a replacement credit default swap is entered into with a Replacement Counterparty,
the Protection Buyer may receive a termination payment from the Issuer.

Payment on a Partial Optional Redemption Date.

In the case of a Partial Optional Redemption, at the sole discretion of the Protection Buyer, the
Protection Buyer may pay to the Issuer an amount (the "Partial Optional Redemption End Payment")
equal to (a) the aggregate amount required to be paid to the Issuer on the Partial Optional Redemption
Date in accordance with subclause (a) of "Description of the Notes—Priority of Payments—Principal
Proceeds—Other Payment Dates" plus (b) the Principal Proceeds that are expected to be available on
the Partial Optional Redemption Date to pay the amount described in subclause (a) after giving
consideration to any currency exchange, provided, however, that a Partial Optional Redemption will be
effectuated only in accordance with the Indenture.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001919102
Payment by the Protection Buyer to the Issuer in connection with Collateral denominated in Approved Currencies.

On each Credit Default Swap Settlement Date and with respect to each Approved Currency, the Protection Buyer will pay to the Issuer the difference, if greater than zero, between (i) the Currency Adjusted Aggregate Outstanding Amount of all Notes denominated in such Approved Currency and (ii) the principal balance of Collateral (including Cash) held by the Issuer in the Collateral Account and denominated in such Approved Currency (for the avoidance of doubt, such amounts as determined after giving effect to the payment of any Cash Settlement Amount on such date) so long as such difference arises in connection with the liquidation of Collateral in order to pay a Cash Settlement Amount (any such payment, an "Approved Currency Collateral Payment").

Credit Events

"Failure to Pay Principal" means, with respect to any Reference Obligation (i) a failure by the related Reference Entity or (or any Issuer thereof) to pay the Expected Principal Amount of such Reference Obligation on the applicable Final Amortization Date or the applicable Legal Final Maturity Date, as the case may be or (ii) payment on any such day of an Actual Principal Amount that is less than the Expected Principal Amount of such Reference Obligation, provided that the failure by such Reference Entity (or such Issuer) to pay any such amount in respect of principal in accordance with the foregoing shall not constitute a Failure to Pay Principal if such failure has been remedied within any grace period applicable to such payment obligation under the related Underlying Instruments or, if no such grace period is applicable, within three Business Days after the day on which such Expected Principal Amount was scheduled to be paid.

"Write-down" means with respect to any Reference Obligation, the occurrence at any time on or after the Closing Date of:

(i) a write-down or applied loss (however described in the related Underlying Instruments) resulting in a reduction in the Reference Obligation Outstanding Principal Amount with respect to such Reference Obligation (other than as a result of a scheduled or unscheduled payment of principal); or

(ii) the attribution of a principal deficiency or realized loss (however described in the related Underlying Instruments) to such Reference Obligation resulting in a reduction or subordination of the current interest payable on such Reference Obligation;

(iii) the forgiveness of any amount of principal by the holders of such Reference Obligation pursuant to an amendment to the related Underlying Instruments resulting in a reduction in the related Reference Obligation Outstanding Principal Amount; or

(iv) the related Underlying Instruments do not provide for write-downs, applied losses, principal deficiencies or realized losses as described in subclause (i) above to occur in respect of such Reference Obligation, an implied Write-down Amount being determined in respect of such Reference Obligation by the Credit Default Swap Calculation Agent.

The Reference Portfolio

The Reference Portfolio is set out in Schedule A and will not be modified other than as described under "Removal of Reference Obligations from the Reference Portfolio".

Confidential Treatment Requested by Goldman Sachs
Removal of Reference Obligations from the Reference Portfolio

Following a Credit Event and the satisfaction of the Conditions to Settlement making events, the Reference Obligation that is the subject of such Credit Event will not be removed from the Reference Portfolio, and in the case of a Reference Obligation that suffered a Write-down, such Reference Obligation may experience one or more subsequent Credit Events (including a subsequent Write-down).

Following the redemption or amortization in full of a Reference Obligation, the Reference Obligation that has been redeemed or amortized in full will be removed from the Reference Portfolio. Subject to the foregoing, if the Reference Obligation Notional Amount of a Reference Obligation that suffered one or more Credit Events is reduced to zero at any time on or prior to the Scheduled Termination Date and remains at zero for a period of one calendar year, such Reference Obligation shall be removed from the Reference Portfolio as of the last day of such one calendar year period, provided that if such Reference Obligation that suffered one or more Credit Events experiences a Reference Obligation Remuneration for which the Reference Obligation Repayment Amount equals the ICE Reference Obligation Notional Amount Difference of such Reference Obligation immediately prior to such determination, the Reference Obligation shall be removed from the Reference Portfolio immediately following the determination of such Reference Obligation Remuneration Amount by the Credit Default Swap Calculation Agent.

Credit Default Swap Early Termination

Credit Default Swap Event of Default.

The occurrence of any of the following events will constitute a ‘Credit Default Swap Event of Default’:

(i) failure by the Issuer, the Protection Buyer or the Protection Buyer Credit Support Provider to make, when due, any payment under the Credit Default Swap, and the continuance of such failure for three Business Days after notice of such failure is given to such party;

(ii) failure by the Protection Buyer or the Protection Buyer Credit Support Provider to comply with or perform any agreement or obligation to be complied with or performed by it, as the case may be, in accordance with any Protection Buyer Credit Support Document if such failure is continuing after any applicable grace period has elapsed;

(iii) the expiration or termination of any Protection Buyer Credit Support Document or the taking or ceasing of such Protection Buyer Credit Support Document to be in full force and effect for the purpose of the Credit Default Swap (in either case other than in accordance with its terms) prior to the satisfaction of all obligations of the Protection Buyer under the Credit Default Swap without the written consent of the Issuer; and (iv) the Protection Buyer or the Protection Buyer Credit Support Provider disaffirms, disclaims, repudiates or rejects, in whole or in part, or challenges the validity of, such Protection Buyer Credit Support Document; or

(iv) the occurrence of certain events of bankruptcy, insolvency, conservatorship, receivership or reorganization with respect to the Protection Buyer or the Protection Buyer Credit Support Provider.
Credit Default Swap Termination Events.

The occurrence of any of the following events will constitute a "Credit Default Swap Termination Event":

(i) it becomes unlawful for the Protection Buyer, the Protection Buyer Credit Support Provider or the Issuer to perform its obligation to make a payment or delivery or to receive a payment or delivery under the Credit Default Swap or to comply with any other material provision thereof or for the Protection Buyer or the Protection Buyer Credit Support Provider to perform its obligations under any Protection Buyer Credit Support Document and no party is able to transfer its obligations to a different jurisdiction or substitute another entity in its place so that such legality ceases to apply;

(ii) because of (a) any action taken by a taxing authority, or brought in a court of competent jurisdiction, on or after the Closing Date (regardless of whether such action is taken or brought with respect to the Issuer or the Protection Buyer) or (b) a change in tax law, such party will, or there is a substantial likelihood that it will, on the next succeeding payment date be required to (x) make a "gross-up" payment to the other party in respect of an indemnifiable tax or (y) receive a payment from the other party subject to withholding or deduction of a tax for which the other party is not required to make a "gross-up" payment;

(iii) as a result of the Issuer's or the Protection Buyer's consolidating or amalgamating with, or merging with or into, or transferring all or substantially all its assets to another entity, the Issuer or the Protection Buyer is required to (a) make a "gross-up" payment to the other party or (b) receive a payment from which an amount has been deducted or withheld for or on account of any indemnifiable tax;

(iv) a Collateral Default;

(v) the Notes becoming due and payable in accordance with the indenture at any time prior to their Stated Maturity after the occurrence of an Event of Default;

(vi) an Adverse Tax Event;

(vii) an Optional Redemption in Whole;

(viii) the designation of a Basis Swap Early Termination Date; or

(ix) the designation of a Collateral Put Agreement Early Termination Date.

Upon the Trustee or the Issuing and Paying Agent becoming aware of the occurrence of any event that gives rise to the right of the Issuer to terminates the Credit Default Swap, the Basis Swap or the Collateral Put Agreement, the Trustee or Issuer and Paying Agent, as applicable, will as promptly as practicable notify the Holders of such event and the Trustee will terminate any such agreement on behalf of the Issuer at the direction of (i) in the case of the Credit Default Swap or the Basis Swap, a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes and (ii) in the case of the Collateral Put Agreement, 100% of the Aggregate USD Equivalent Outstanding Amount of the Notes, in each case voting as a single class. In addition, if an Event of Default or a Termination Event (as such term is defined in the Credit Default Swap) for which the Protection Buyer is the sole defaulting party or Affected Party under the Credit Default Swap (as such term is defined in the Credit Default Swap), then the Issuer will have 30 days to enter into a replacement credit default swap. See "—Replacement".

GS MBS-E-001918105
Footnote Exhibits - Page 4885

Payments on Credit Default Swap Early Termination

Payment by the Issuer. Upon the occurrence of a Credit Default Swap Early Termination, the Issuer will be required to pay to the Protection Buyer the following amounts:

(i) any Cash Settlement Amounts owed by the Issuer to the Protection Buyer for any Credit Events that occur on or prior to the Credit Default Swap Early Termination Date for which the Conditions to Settlement have been satisfied; and
(ii) any Credit Default Swap Termination Payment.

Payment by the Protection Buyer. Upon the occurrence of a Credit Default Swap Early Termination, the Protection Buyer will be required to pay to the Issuer the following amounts:

(i) any accrued but unpaid Fixed Payments;
(ii) any Credit Default Swap Termination Payment; and
(iii) in the case of an Optional Redemption in Whole, at the sole discretion of the Protection Buyer, an amount (the "End Payment") equal to (x) the aggregate amount required to be paid by the Issuer on the Optional Redemption Date in accordance with subclauses (i) through (vi) of "Description of the Notes—Priority of Payments—Principal Proceeds—Stated Maturity; Optional Redemption Date or Mandatory Redemption Date" less (y) the Principal Proceeds that are expected to be available on the Optional Redemption Date to pay the amount described in subclause (a) (after giving consideration to any currency exchange, if necessary), provided, however, that an Optional Redemption in Whole will be effected only in accordance with the indenture.

As used herein, "Credit Default Swap Termination Payment" means the replacement cost or gain for a portfolio credit default swap with the financial terms of the Credit Default Swap, calculated in accordance with the terms of the Credit Default Swap, provided, however, that no Credit Default Swap Termination Payment shall be payable by the Protection Buyer in connection with a Credit Default Swap Early Termination caused by an Optional Redemption in Whole.

Amendment

The Credit Default Swap may be amended at any time without satisfying the S&P Rating Condition or the Moody's Rating Condition or obtaining the consent of the Noteholders so long as such amendment would not have a material adverse effect on any Holders of the Notes. Otherwise, the Credit Default Swap may be amended only with the satisfaction of the S&P Rating Condition and the Moody's Rating Condition and with the consent of the Noteholders (in a percentage as would have been required had such amendment been taken pursuant to the indenture).

Unless the Portfolio Selection Agent has been given prior written notice of such amendment and has concurred thereto in writing, no amendment to the Credit Default Swap may (a) affect the obligations or rights of the Portfolio Selection Agent including, without limitation, expanding or restricting the Portfolio Selection Agent's discretion, rights or obligations or (b) affect the amount, timing or priority of any fees payable to the Portfolio Selection Agent under the Portfolio Selection Agreement and the Credit Default Swap.
Transfer

Neither the issuer nor the Protection Buyer may transfer its rights and obligations under the Credit Default Swap without the prior written consent of the other party, which consent will not be unreasonably withheld or delayed, except that, and in any case subject to the S&P Rating Condition:

(i) a party may make such a transfer of its rights and obligations pursuant to a consolidation or amalgamation with, or merger into, or transfer of all or substantially all its assets to or reorganization, incorporation, reincorporation or reorganization into or as, another entity;

(ii) a party may make such a transfer of all or any part of its interest in certain amounts payable to it from a defaulting party under the Credit Default Swap; and

(iii) the Protection Buyer may, without recourse, transfer the Credit Default Swap (in whole and not in part only) to any of the Protection Buyer’s Affiliates so long as:
   (a) GS Group (or another entity with a credit rating at least equal to that of GS Group) guarantees such transferred obligations of the transferee pursuant to a guarantee in substantially the form of the guaranty of GS Group specified in the Credit Default Swap or such transferee has a credit rating at least equal to that of GS Group;
   (b) the issuer will not have to make any tax gross-up payments to such Affiliate in an amount greater than what the issuer would have been required to pay to the Protection Buyer in the absence of such transfer;
   (c) any payment paid by such Affiliate to the issuer will not be subject to any withholding tax in excess of what the Protection Buyer would have been required to so withhold or deduct in the absence of such transfer;
   (d) it does not become unlawful for either party to perform any obligation under the Credit Default Swap as a result of such transfer; and
   (e) a Credit Default Swap Early Termination does not occur as a result of such transfer.

Replacement

If an Event of Default or a Termination Event (as such term is defined in the Credit Default Swap, Basis Swap and/or Collateral Put Agreement, as applicable) for which the Protection Buyer, Basis Swap Counterparty and/or Collateral Put Provider is the sole defaulting party or Affected Party (as such term is defined in the Credit Default Swap, Basis Swap and/or Collateral Put Agreement, as applicable) under the Credit Default Swap, Basis Swap and/or Collateral Put Agreement, as applicable, then the issuer will automatically terminate the Credit Default Swap, Basis Swap and Collateral Put Agreement and shall, within 30 days following such termination, enter into a replacement credit default swap and basis swap with a party nominated by the Protection Buyer, Basis Swap Counterparty and/or Collateral Put Provider, as applicable, (the “Replacement Counterparty”), subject to satisfaction of the following (the "Replacement Counterparty Procedures") on or prior to the completion of such 30 day period:

(i) all of the Collateral (other than Put Excluded Collateral) will be liquidated (and the Collateral Put Agreement will not be exercisable in the case of such liquidation), and the proceeds thereof, after giving effect to any termination payments payable by the issuer to the Protection Buyer and the Basis Swap Counterparty, will be used by the issuer to acquire Put Excluded Collateral. If the aggregate principal amount of the Collateral denominated in each Approved Currency following such liquidation is not at least equal to the Currency Adjusted Aggregate Outstanding Amount of the Notes denominated in each such Approved Currency, such liquidation will be deemed to be a default hereunder. If the aggregate principal amount of the Collateral denominated in each Approved Currency following such liquidation is not at least equal to the Currency Adjusted Aggregate Outstanding Amount of the Notes denominated in each such Approved Currency, such liquidation will be deemed to be a default hereunder.
such Approved Currency, the Replacement Counterparty will pay as an upfront payment to the issuer under the replacement credit default swap an amount sufficient to cause the aggregate principal amount of the Collateral denominated in each Approved Currency to be at least equal the Currency Adjusted Aggregate Outstanding Amount of the Notes denominated in such Approved Currency, and the Issuer will use such funds to purchase additional Put Excluded Collateral;

(iii) the Replacement Counterparty will enter into a replacement credit default swap with the Issuer on substantially similar terms to the Credit Default Swap entered into on the Closing Date, with the effective date being the day on which the Credit Default Swap is terminated;

(iv) pursuant to the terms of a replacement credit default swap, any failure to maintain Put Excluded Collateral denominated in each Approved Currency in an amount at least equal to the Currency Adjusted Aggregate Outstanding Amount of the Notes denominated in such Approved Currency will be deemed an election by the Replacement Counterparty to terminate the replacement credit default swap and will cause an Optional Redemption in Whole;

(v) on the date that a replacement credit default swap is entered into between the Replacement Counterparty and the Issuer and on any date of determination thereafter, the Replacement Counterparty will post to the Issuer (a) the fixed payment due for all Payment Dates ending on the later of (1) the sixth Payment Date from the date of determination or (2) the end of the Non-Call Period, (provided that such payment will be calculated based on the Currency Adjusted Aggregate Outstanding Amount of the Notes denominated in each Approved Currency on the date of payment) and (b) any ICE Currency Adjusted Interest Reimbursable Amounts at such time of determination;

(vi) pursuant to the terms of the replacement credit default swap, any failure to post the amounts specified in clause (v) will be deemed an election by the Replacement Counterparty to terminate the replacement credit default swap and will cause an Optional Redemption in Whole;

(vii) the Replacement Counterparty will enter into a replacement basis swap with the Issuer on substantially similar terms to the Basis Swap entered into on the Closing Date, with the effective date being the day on which the Basis Swap is terminated;

(viii) on the date that a replacement basis swap is entered into between the Replacement Counterparty and the Issuer and on any date of determination thereafter, the Replacement Counterparty will post to the Issuer (a) the monthly basis swap payment due for all Payment Dates ending on the later of (1) the sixth Payment Date from the date of determination or (2) the end of the Non-Call Period, (provided that such payment will be calculated based on the Currency Adjusted Aggregate Outstanding Amount of the Notes denominated in each Approved Currency on the date of payment);

(ix) any failure to post the amounts specified in clause (viii) will be deemed an election by the Replacement Counterparty to terminate the replacement credit default swap and will cause an Optional Redemption in Whole;

(x) all interest accrued on the Put Excluded Collateral will be paid by the Issuer to the Replacement Counterparty as a basis swap payment pursuant to the terms of the replacement basis swap;

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001916108
Footnote Exhibits - Page 4888

(6) the payment of any unpaid Portfolio Selection Fees by the Issuer to the Portfolio Selection Agent following a corresponding payment by the Replacement Counterparty to the Issuer; and

(61) in all cases, any related opinions (including an opinion of nationally recognized tax counsel) experienced in such matters to the effect that such replacement credit default swap or basis swap will not cause the issuer to be treated as engaged in a United States trade or business which must be received in order to enter into any replacement credit default swap or basis swap. Documentation and agreements will be subject to review by the Rating Agencies, in the case of documentation or agreements, for the sole purpose of establishing that such documentation or agreements are consistent with the Replacement Counterparty Procedures and such documentation and agreements shall be subject to the satisfaction of the S&P Rating Condition.

Subject to the foregoing, Goldman Sachs has separately agreed to nominate a replacement counterparty under the circumstances described above.

If the Replacement Counterparty Procedures are not completed within such 30 day period, then a Mandatory Redemption will occur.

For the avoidance of doubt, any termination payments payable by either the Issuer or the Protection Buyer under the Credit Default Swap or to the Basis Swap Counterparty under the Basis Swap will not be payable until the earlier to occur of (a) the date that all of the Replacement Counterparty Procedures are satisfied and (b) the Mandatory Redemption Date, which payments in the case of clause (b) will be subject to the Priority of Payments.

Guarantee

GS Group will guarantee the obligations of the Protection Buyer under the Credit Default Swap.

THE PROTECTION BUYER

The Protection Buyer is Goldman Sachs Capital Markets, L.P. As described above, GS Group will guarantee the obligations of Goldman Sachs Capital Markets, L.P., as the Protection Buyer under the Credit Default Swap. Goldman Sachs Capital Markets, L.P. is an Affiliate of GS Group.

GS Group, together with its subsidiaries, is a leading global investment banking, securities and investment management firm that provides a wide range of financial services worldwide to a substantial and diversified clientbase that includes corporations, financial institutions, governments and high net-worth individuals. GS Group is required to file annual, quarterly and current reports, proxy statements and other information with the United States Securities and Exchange Commission (the "SEC"). GS Group’s filings with the SEC are also available to the public through the SEC’s Internet site at http://www.sec.gov and through the New York Stock Exchange, 20 Broad Street, New York, New York 10005, on which GS Group’s common stock is listed.

Investors in Notes are hereby informed that the reports and other information with respect to GS Group on file with the SEC to which investors are referred above are not and will not be "incorporated by reference" herein.

The Notes do not represent an obligation of, and will not be insured or guaranteed by, GS Group or any of its subsidiaries and investors will have no rights or recourse against GS Group or any of its subsidiaries.

THE COLLATERAL SECURITIES

The initial Collateral Securities

On the Closing Date, the Issuer will use the net proceeds of the offering and part or all of the Upfront Payment to purchase the securities described in the table below (the "Initial Collateral Securities"), together with Supplemental Collateral Securities and any BIE Collateral Securities purchased by the Issuer, the "Collateral Securities"), at the direction of the Protection Buyer. Such Initial Collateral Securities and any Eligible Investments purchased by the Issuer on the Closing Date will have a USD Equivalent aggregate principal amount of at least $192,999,999; provided that the aggregate principal amount of the Collateral Securities and Eligible Investments purchased with the proceeds of the offering denominated in any Approved Currency will equal the Currency Adjusted Aggregate Outstanding Amount of Notes denominated in such Approved Currency on the Closing Date. The Issuers of the Collateral Securities are subject to certain requirements of the Securities Exchange Act of 1934 and, in accordance therewith, file reports and other information with the SEC. Reports and other information filed by the Issuers of the Collateral Securities with the SEC can be inspected and copied at the public reference facilities maintained by the SEC at Room 1024, 450 Fifth Street, N.W., Washington, D.C. 20549 or can be obtained from the SEC through its website at www.sec.gov. With respect to the Initial Collateral Security that is a CLO Security, the related offering circular has been attached to this Offering Circular and provides a description of the terms of such initial Collateral Security.

Supplemental Collateral Securities

The Protection Buyer shall direct the Issuer to purchase a Supplemental Collateral Security only if it satisfies the following criteria at the time of purchase (the "Collateral Security Eligibility Criteria") (in each case as confirmed by the Collateral Administrator based on information and calculations supplied by the Credit Default Swap Calculation Agent); provided, however, that in the case of a Supplemental Collateral Security purchased with Excess Disposition Proceeds, such Collateral Security need only satisfy the criteria described in clauses (vi), (v) and (vi) through (xii) below:

1. other than with respect to an RMBS Agency Security, it has (a) an Actual Rating by S&P of "AAA" and (b) an Actual Rating by Moody's of "Aaa";

2. (a) it is the senior-most class of securities issued by its obligor, it being acknowledged and agreed that such senior class may be paid pro rata with other senior classes of such securities issued by such obligor with respect to the payment of interest but must be senior to any other classes of such securities issued by such obligor with respect to the redemption of principal and (b) the aggregate notional amount of such class of securities at the time of issuance, together with the aggregate notional amount of any pro rata classes described in subclause (a) at the time of issuance, is greater than 10% of the initial aggregate notional amount of securities issued by such obligor;

3. the obligor of such Supplemental Collateral Security is not a Reference Entity in respect of any Reference Obligation in the Reference Portfolio;

4. It is denominated in an Approved Currency;

5. it provides for the payment of interest at a floating rate determined by reference to LIBOR, EURIBOR, GBP-LIBOR, JPY-LIBOR, AUD-LIBOR, CAD-LIBOR or NZD-BRR.

GS MBS-E-001919110
(v) It is either (a) an ABS Credit Card Security, (b) an ABS Student Loan Security, (c) an ABS Automobile Security, (d) an ABS Car Rental Receivable Security, (e) a Residential Mortgage-Backed Security (other than an Excluded Specified Type), (f) a Commercial Mortgage-Backed Security (other than an Excluded Specified Type) or (g) a CLO Security other than an Excluded Specified Type;

(vi) It must have been offered by an underwriter, a placement agent or any person acting in a similar capacity through a public prospectus, private placement memorandum or any other similar document;

(vii) It must be acquired from a party acting in its capacity as broker-dealer in the ordinary course of business, or an arm's-length open market transaction, and if not, is approved by SAP;

(viii) It must not be a United States real property interest within the meaning of Section 897 of the Internal Revenue Code of 1986, as amended (the "Code");

(ix) It must not provide for delayed funding or is not a revolving loan;

(x) It is treated as debt for U.S. tax purposes or the Alternative Debt Test is satisfied;

(xi) It is Registered; and

(xii) If such obligation or security is subject to any withholding tax, the obligor of the obligation or security is required to make "gross-up" payments that cover the full amount of such withholding tax on an after-tax basis pursuant to the Underlying Instrument with respect thereto.

In addition to satisfying the Collateral Security Eligibility Criteria, a Supplemental Collateral Security or BEI Collateral Security will be eligible for inclusion in the Collateral only if, after the inclusion of such Supplemental Collateral Security or BEI Collateral Security in the Collateral, the Weighted Average Life of the Collateral would not exceed 7.0 years, with such maximum declining by approximately 0.25 years each year from the Payment Date in April 2008, provided that such maximum shall not be reduced to less than 2.0 years. Such Weighted Average Life, calculated in terms of years, shall in each case be rounded to one decimal place prior to the determination of compliance with the constraint referred to in the previous sentence. For example, a Weighted Average Life of 7.05 years will be rounded to 7.1 years (the test described in this paragraph, the "Collateral Weighted Average Life Test").

In addition to satisfying the Collateral Security Eligibility Criteria and the Collateral Weighted Average Life Test, including following the purchase of any Supplemental Collateral Securities, the Issuer may hold Collateral Securities issued by no more than 15 obligors at any one time (the "Collateral Security Quantity Constraint").

In addition to satisfying the Collateral Security Eligibility Criteria, the Collateral Weighted Average Life Test and the Collateral Security Quantity Constraint, a Supplemental Collateral Security must be denominated in a certain Approved Currency if so required as described under "Summary—The Collateral Securities—Supplemental Collateral Securities—Purchase of Supplemental Collateral Securities".

Substitution of Collateral Securities

From time to time following the Closing Date, any Noteholder may submit to the Trustee or the Issuing and Paying Agent, as applicable, in writing, a Collateral Security Substitution Request Notice requesting the substitution of one or more BEI Collateral Securities for one or more existing Collateral

Confidential Treatment Requested by Goldman Sachs GS MBS-E-0019181111
Securities, in whole or in part. The Trustee or the Issuing and Paying Agent, as applicable, will promptly forward such Collateral Security Substitution Request Notice to the Protection Buy. Within five Business Days of receiving such Collateral Security Substitution Request Notice, the Protection Buyer will determine whether each Proposed New BIE Collateral Security identified in the Collateral Security Substitution Request Notice is a BIE Collateral Security and will provide information and calculations in such respect to the Trustee. The Trustee will review and confirm such calculations and, if the BIE Collateral Security Eligibility Criteria are satisfied, the Trustee will determine the BIE Transaction Cost and (6) request the Basis Swap Calculation Agent to determine the BIE Basis Swap Payment. Upon such determination by the Trustee (or the Basis Swap Calculation Agent), the Trustee or the Issuing and Paying Agent, as applicable, will deliver either (1) a Collateral Security Substitution Information Notice or (2) a Collateral Security Substitution Receipt Notice to the Originating Noteholder with respect to each Collateral Security Substitution Request Notice, as applicable, provided, however, if the Trustee or the Issuing and Paying Agent, as applicable, delivers a Collateral Security Substitution Receipt Notice to the Originating Noteholder, the related Collateral Security Substitution Request Notice will be deemed to be void and of no further effect.

Within five Business Days of receiving a Collateral Security Substitution Information Notice relating to a Collateral Security Substitution Request Notice, the Originating Noteholder must notify the Trustee or the Issuing and Paying Agent, as applicable, and the Protection Buyer whether it wishes to proceed with the proposed substitution and, if it (i) agree to pay any BIE Transaction Cost (regardless of whether the Holders of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class consent to such proposed substitution) and, if the proposed substitution occurs, any applicable BIE Basis Swap Payment (the occurrence of substitutions (i) and (ii), a "Substitution Confirmation"), if a Substitution Confirmation is not received by the Trustee or the Issuing and Paying Agent, as applicable, within the time period specified above, the related Collateral Security Substitution Request Notice will be deemed to be void and of no further effect. Upon the receipt of a Substitution Confirmation, the Trustee or the Issuing and Paying Agent, as applicable, will deliver a BIE Consent Solicitation to the Portfolio Selector Agent and all Noteholders, including the Originating Noteholder. Upon receipt of such BIE Consent Solicitation, each Noteholder may, on or prior to the BIE Notification Date, submit written notice to the Trustee or the Issuing and Paying Agent, as applicable, indicating either (1) approval or (2) disapproval of the Proposed New BIE Collateral Security. If the Trustee determines that (1) the BIE Consent Solicitation failed to receive the approval of the Holders of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class by the BIE Notification Date, the Trustee or the Issuing and Paying Agent Agreement will deliver a Collateral Security Substitution Notiﬁcation Notice to the Originating Noteholder and the related Collateral Security Substitution Request Notice will be deemed void and of no further effect or (2) the BIE Consent Solicitation received the approval of holders of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class, it will deliver a BIE Acceptance Notice to the Originating Noteholder.

Upon receiving confirmation (1) from the Basis Swap Counterparty that the Originating Noteholder has paid the BIE Basis Swap Payment to the Basis Swap Counterparty, (2) that the Originating Noteholder has paid the BIE Transaction Cost to the Issuer and (3) that the relevant BIE Collateral Securities have been delivered to the issuer, and the par amount of such delivered BIE Collateral Securities is equal to the par amount of the existing Collateral Securities to be substituted, the Trustee shall, subject to its lien on the par amount of the relevant existing Collateral Securities to be substituted and deliver the par amount of such substituted Collateral Securities to such Originating Noteholder.

If (1) any BIE Collateral Security is not delivered to the Issuer, (2) the Issuer is not paid the BIE Transaction Cost or (3) the Basis Swap Counterparty is not paid the BIE Basis Swap Payment, in each case by the end of the BIE Exercise Period identified in the BIE Acceptance Notice, the BIE Acceptance Notice and the Collateral Security Substitution Request Notice will be deemed void and of no further effect.
821

Footnote Exhibits - Page 4892

Voting and Other Matters Relating to Collateral Securities

If the issuer has the right to vote or give consent in respect of any amendment, modification, waiver under any document relating to any Collateral Security or receives any other solicitation for any action with respect to any Collateral Security, the Trustee or the Issuing and Paying Agent, as applicable, shall give each Noteholder notice of such proposed action, including a description thereof, requesting instructions from each Noteholder as to whether or not to take such action, and, after receiving instruction from each Noteholder, the Trustee shall cause the issuer to give such vote, consent or withhold consent, as the case may be, making such determination based on decision of Holders of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class.

Notwithstanding the preceding paragraph, the Collateral Disposal Agent will have the right to direct the Trustee to take certain actions with respect to Collateral Securities. See "The Collateral Disposal Agreement—Exercise of Put, Repurchase or Similar Right".

THE BASIS SWAP

The following description of the Basis Swap is a summary of certain provisions of the Basis Swap. The following summary does not purport to be complete, and is qualified in its entirety by reference to the detailed provisions of the Basis Swap.

The Notes do not represent an obligation of the Basis Swap Counterparty. Noteholders will not have any right to proceed directly against the Basis Swap Counterparty in respect of the Basis Swap Counterparty's obligations under the Basis Swap. However, the Holders of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class will have the right to direct the issuer with respect to the enforcement of any claims that it may have against the Basis Swap Counterparty. Notwithstanding the foregoing, if the Basis Swap Counterparty is the sole defaulting party of Affected Party under the Basis Swap, then the issuer will have 30 days to enter into a replacement credit default swap and basis swap (otherwise a Mandatory Redemption will occur). See "The Credit Default Swap—Replacement".

Effective Date and Scheduled Termination

The effective date of the Basis Swap will be the Closing Date.

Unless terminated prior to its scheduled termination date, the Basis Swap will terminate on March 1, 2038.

Payments

Periodic Payments by the Basis Swap Counterparty to the Issuer.

On each Payment Date, the Basis Swap Counterparty will pay to the issuer the aggregate of (each aggregate with respect to any Payment Date, a "Monthly Basis Swap Payment"), for each Approved Currency in which Outstanding Notes are denominated, the products of:

(i) the Applicable Index for the Applicable Period;

(ii) the average daily Currency Adjusted Aggregate Outstanding Amount of such Notes during the preceding Basis Swap Calculation Period; and

(iii) the applicable Day Count Fraction.

Confidential Treatment Requested by Goldman Sachs

GS MSS-E-001916113
The Basis Swap Counterparty shall be the calculation agent, as defined under the Basis Swap (the "Basis Swap Calculation Agent").

**Periodic Payments by the Issuer to the Basis Swap Counterparty.**

Pursuant to the Basis Swap, the issuer is obligated to pay to the Basis Swap Counterparty the Basis Swap Payment on each Payment Date. See "Summary—The Basis Swap—Terms" and "Priority of Payments—Interest Proceeds".

**Basis Swap Early Termination.**

The occurrence of any of the following events will constitute a "Basis Swap Event of Default":

(i) failure by the issuer, the Basis Swap Counterparty or any Basis Swap Counterparty Credit Support Provider to make, when due, any payment under the Basis Swap, and the continuance of such failure for three Business Days after notice of such failure is given to such party;

(ii) failure by the Basis Swap Counterparty or any Basis Swap Counterparty Credit Support Provider to comply with or perform any agreement or obligation to be complied with or performed by it in accordance with any Basis Swap Counterparty Credit Support Document if such failure is continuing after any applicable grace period has elapsed;

(iii) the expiration or termination of any Basis Swap Counterparty Credit Support Document of the falling or ceasing of any such Basis Swap Counterparty Credit Support Document to be in full force and effect for the purpose of the Basis Swap (in either case other than in accordance with its terms) prior to the satisfaction of all obligations of the Basis Swap Counterparty under the Basis Swap without the written consent of the issuer; and

(iv) the occurrence of certain events of bankruptcy, insolvency, conservatorship, receivership or reorganization with respect to the issuer or the Basis Swap Counterparty.

**Basis Swap Termination Event.**

The occurrence of any of the following events will constitute a "Basis Swap Termination Event":

(i) it becomes unlawful for either the Basis Swap Counterparty, any Basis Swap Counterparty Credit Support Provider or the issuer to perform its obligation to make a payment or delivery or to receive a payment or delivery under the Basis Swap or to comply with any other material provision thereof or with the Basis Swap Counterparty or any Basis Swap Counterparty Credit Support Document and neither party is able to transfer its obligations to a different jurisdiction or substitute another entity in its place so that such legality ceases to apply;

(ii) because of (a) any action taken by a taxing authority, or brought in a court of competent jurisdiction, on or after the Closing Date (regardless of whether such action is taken or brought with respect to the issuer, the Basis Swap Counterparty, or any Basis Swap Counterparty Credit Support Provider) or (b) a change in tax law, the Basis Swap Counterparty or any Basis Swap Counterparty Credit Support Provider will, or there is a substantial likelihood that it will, on the next succeeding payment date be required to...
(1) make a "gross-up" payment in respect of an indemnifiable tax or (2) receive a payment subject to withholding or deduction of a tax for which the other party is not required to make a "gross-up" payment;

(ii) as a result of the Basis Swap Counterparty or any Basis Swap Counterparty Credit Support Provider consolidating or amalgamating with, or merging with or into, or transferring all or substantially all its assets to another entity, such party is required to (a) make a "gross-up" payment to the other party or (b) receive a payment from which an amount has been deducted or withheld for or on account of any indemnifiable tax, and neither party is able to transfer such obligation to a different jurisdiction or substitute another entity in its place such that the withholding or deduction does not apply;

(v) the Notes becoming due and payable in accordance with the indenture at any time prior to their Stated Maturity after the occurrence of an Event of Default;

(vi) an Adverse Tax Event;

(vii) the Basis Swap Counterparty or the Basis Swap Counterparty Credit Support Provider do not satisfy the Required Basis Swap Counterparty Rating and at least one of the following events has not occurred: (1) within the time period specified in the Basis Swap with respect to such downgrade, the Basis Swap Counterparty shall transfer the Basis Swap, in whole, but not in part, to a counterparty that satisfies the Required Basis Swap Counterparty Rating, (2) within the time period specified in the Basis Swap with respect to such downgrade, the Basis Swap Counterparty, so long as it has a long-term rating of at least "BBB+" by S&P, shall collateralize its exposure to the Issuer, subject to the satisfaction of the S&P Rating Condition or the Moody's Rating Condition, as applicable, (3) within the time period specified in the Basis Swap with respect to such downgrade, the obligations of the Basis Swap Counterparty under the Basis Swap shall be guaranteed by a person or entity that satisfies the Required Swap Counterparty Rating, subject to the satisfaction of the S&P Rating Condition or the Moody's Rating Condition, as applicable, or (4) within the time period specified in the Basis Swap with respect to such downgrade, the Basis Swap Counterparty shall take such other steps, if any, as each of the Rating Agencies that has downgraded the Basis Swap Counterparty may require in order to be able to confirm to the Issuer in writing that the Basis Swap Counterparty's obligations under the Basis Swap will be treated by such Rating Agency as if such obligations were owed by a counterparty that satisfies the Required Basis Swap Counterparty Rating, provided that in the case of subclause (2) above, or if the Basis Swap Counterparty has previously posted collateral due to a failure to satisfy the Required Basis Swap Counterparty Rating, the Basis Swap Counterparty (based on consultation with S&P) may be required to provide an opinion of counsel regarding the Issuer's ability to terminate the Basis Swap, liquidate the posted collateral and make amounts owed to it free of any stay or other delay due to a bankruptcy of the Basis Swap Counterparty, provided that in the case of any of subclauses (1) through (4) above, such actions shall be at the sole expense of the Basis Swap Counterparty;

(viii) the designation of a Credit Default Swap Early Termination Date;

(ix) the designation of a Collateral Put Agreement Early Termination Date; or

(x) a Collateral Default.

Upon the Trustee becoming aware of the occurrence of any event that gives rise to the right of the Issuer to terminate the Credit Default Swap, the Basis Swap or the Collateral Put Agreement, the Trustee or the Issuing and Paying Agent, as applicable, will as promptly as practicable notify the
Payments on Basis Swap Early Termination.

Payment by the Issuer. Upon the occurrence of a Basis Swap Early Termination, the issuer will be required to pay to the Basis Swap Counterparty the following amounts:

(i) any accrued but unpaid Basis Swap Payment; and
(ii) any Basis Swap Termination Payment.

Payment by the Basis Swap Counterparty. Upon the occurrence of a Basis Swap Early Termination, the Basis Swap Counterparty will be required to pay to the Issuer the following amounts:

(i) any accrued but unpaid Monthly Basis Swap Payments; and
(ii) any Basis Swap Termination Payment.

As used herein, "Basis Swap Termination Payment" means the replacement cost or gain for a cash flow swap with the financial terms of the Basis Swap, calculated in accordance with the terms of the Basis Swap.

Amendment

The Basis Swap may be amended at any time without satisfying the S&P Rating Condition or the Moody's Rating Condition, or obtaining the consent of the Noteholders so long as such amendment would not have a material adverse effect on any Holders of the Notes. Otherwise, the Basis Swap may be amended only with the satisfaction of the S&P Rating Condition and the Moody's Rating Condition and the consent of the Noteholders (in a percentage as would have been required had such amendment been taken pursuant to the Indenture).

Transfer

Neither the Issuer nor the Basis Swap Counterparty may transfer its rights and obligations under the Basis Swap without the prior written consent of the other party, which consent will not be unreasonably withheld or delayed, except that, and in any case subject to the S&P Rating Condition:

(i) a party may make such a transfer of its rights and obligations pursuant to a consolidation or amalgamation with, or merger into, or transfer of all or substantially all its assets to or reorganization, incorporation, reincorporation or reconstitution into or as, another entity;

(ii) a party may make such a transfer of all or any part of its interest in certain amounts payable to it from a defaulting party under the Basis Swap; and

(iii) the Basis Swap Counterparty may, without recourse, transfer the Basis Swap (in whole and not in part only) to any of the Basis Swap Counterparty's Affiliates so long as:

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001018116
(a) (1) such Affiliate has a long-term, unsecured, unsubordinated debt obligation rating or financial program rating (or other similar ratings) by S&P and Moody’s which are equal to or greater than the comparable long-term, unsecured, unsubordinated debt obligation rating or financial program rating (or other similar ratings) of the Basis Swap Counterparty immediately prior to such transfer, or (2) the obligations transferred to such transferee must be guaranteed by the Basis Swap Counterparty pursuant to a guaranty in substantially the form of the guaranty of any Basis Swap Counterparty Credit Support Provider or other agreement or instrument consented to by the Issuer or other agreement or instrument mutually agreed upon by both parties and satisfactory to S&P.

(b) the Issuer will not have to make any tax gross-up payments to such Affiliate in an amount greater than what the Issuer would have been required to pay to the Basis Swap Counterparty in the absence of such transfer;

(c) any payment paid by such Affiliate to the Issuer will not be subject to any withholding tax in excess of what the Basis Swap Counterparty would have been required to so withhold or deduct in the absence of such transfer;

(d) it does not become unlawful for either party to perform any obligation under the Basis Swap as a result of such transfer; and

(e) a Basis Swap Early Termination does not occur as a result of such transfer.

Replacement

See "The Credit Default Swap—Replacement".

Guarantee

GS Group will guarantee the obligations of the Basis Swap Counterparty under the Basis Swap.

THE COLLATERAL PUT AGREEMENT

The following description of the Collateral Put Agreement is a summary of certain provisions of the Collateral Put Agreement. The following summary does not purport to be complete, and is qualified in its entirety by reference to the detailed provisions of the Collateral Put Agreement.

The Notes do not represent an obligation of the Collateral Put Provider. Noteholders will not have any right to proceed directly against the Collateral Put Provider in respect of the Collateral Put Provider’s obligations under the Collateral Put Agreement. However, the holders of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class will have the right to direct the Issuer with respect to the enforcement of any claims that it may have against the Collateral Put Provider. Notwithstanding the foregoing, if the Collateral Put Provider is the sole defaulting party or Affected Party under the Collateral Put Agreement, then the Issuer will have 30 days to enter into a replacement credit default swap and basis swap (otherwise a Mandatory Redemption will occur). See "The Credit Default Swap—Replacement".

On each Payment Date, the Issuer will pay to the Collateral Put Provider an amount, in Dollars, (each, a "Collateral Put Provider Fee Amount") equal to the product of:

(i) a rate of 0.06% per annum; and
Footnote Exhibits - Page 4897

(i) the Aggregate USD Equivalent Outstanding Amount of the Notes on the first day of the preceding Interest Accrual Period; and

(ii) the actual number of days in the preceding Interest Accrual Period divided by 360.

Effective Date and Scheduled Termination

The effective date of the Collateral Put Agreement will be the Closing Date.

Unless terminated prior to its scheduled termination date, the Collateral Put Agreement will terminate on March 1, 2036.

Payments and Delivery

In connection with any liquidation of the Collateral (other than Put Excluded Collateral) in connection with (i) the payment of any Currency Adjusted Notional Principal Adjustment Amount by the Issuer to the applicable Noteholders, (ii) an Optional Redemption in Whole or a Partial Optional Redemption or (iii) a Stated Maturity of any Series of Notes, if (x) the Collateral Disposal Agent is unable to obtain at least 100% of par for a Collateral Security and/or (y) the Trustee is unable to obtain at least 100% of par for Eligible investments (in each case (i) other than Put Excluded Collateral and (ii) excluding any accrued and unpaid interest), the Collateral Disposal Agent will inform the Trustee and the Issuer (in the case of (x) above) and the Trustee will inform the Issuer (in the case of (y) above). The Trustee will then, on behalf of the Issuer, exercise the Issuer’s right under the Collateral Put Agreement pursuant to which the Trustee will deliver such Collateral (other than Put Excluded Collateral) to the Collateral Put Provider in exchange for the payment by the Collateral Put Provider to the Issuer of an amount equal to 100% of par for such collateral (plus accrued and unpaid interest).

The Collateral Put Agreement will not apply to the liquidation of Collateral to fund the payment of

(i) Cash Settlement Amounts to the Protection Buyer or (ii) principal of the Notes in connection with a Mandatory Redemption.

Collateral Put Agreement Early Termination

Upon the occurrence of an early termination of the Collateral Put Agreement, (i) the Issuer will be required to pay to the Collateral Put Provider any accrued but unpaid Collateral Put Provider Fee Amount,

(ii) the Collateral Put Provider will be required to pay the Issuer any unpaid amounts with respect to its purchase of Collateral Securities from the Issuer pursuant to the Collateral Put Agreement and (iii) no other amounts will be payable pursuant to the Collateral Put Agreement.

Collateral Put Agreement Event of Default

The occurrence of any of the following events will constitute a “Collateral Put Agreement Event of Default”:

(i) failure by the Issuer, the Collateral Put Provider or the Collateral Put Provider Credit Support Provider to make, when due, any payment under the Collateral Put Agreement, and the continuance of such failure for three Business Days after notice of such failure is given to such party;

(ii) the failure by the Collateral Put Provider or the Collateral Put Provider Credit Support Provider to comply with or perform any agreement or obligation to be complied with or performed by it in accordance with the Collateral Put Provider Credit Support Document if such failure is continuing after any applicable grace period has elapsed; (b) the expiration or termination of the Collateral Put Provider Credit Support Document or the failing or ceasing of such Collateral Put Provider Credit Support Document to be in full

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918118
Footnote Exhibits - Page 4898

force and effect for the purpose of the Collateral Put Agreement (in either case other than in accordance with its terms) prior to the satisfaction of all obligations of the Collateral Put Provider under the Collateral Put Agreement without the written consent of the Issuer; and (v) the Collateral Put Provider or the Collateral Put Provider Credit Support Provider disaffirms, disclaims, repudiates or rejects, in whole or in part, or challenges the validity of, the Collateral Put Provider Credit Support Document, or

(ii) the occurrence of certain events of bankruptcy, insolvency, conservatorship, receivership or reorganization with respect to the Issuer, the Collateral Put Provider or the Collateral Put Provider Credit Support Provider.

Collateral Put Agreement Termination Events.

The occurrence of any of the following events will constitute a "Collateral Put Agreement Termination Event":

(i) it becomes unlawful for either the Collateral Put Provider, the Collateral Put Provider Credit Support Provider or the Issuer to perform its obligation to make a payment or delivery or to receive a payment or delivery under the Collateral Put Agreement or to comply with any other material provision thereof or for the Collateral Put Provider or any Collateral Put Provider Credit Support Provider to perform its obligations under the Collateral Put Provider Credit Support Document and neither party is able to transfer its obligations to a different jurisdiction or substitute another entity in its place so that such illegality ceases to apply;

(ii) because of (a) any action taken by a taxing authority, or brought in a court of competent jurisdiction, on or after the Closing Date (regardless of whether such action is taken or brought with respect to the Issuer, the Collateral Put Provider, or the Collateral Put Provider Credit Support Provider(s) or (b) a change in tax law, the Collateral Put Provider or the Collateral Put Provider Credit Support Provider will, or there is a substantial likelihood that it will, on the next succeeding payment date be required to (1) make a "gross-up" payment in respect of an indemnifiable tax or (2) receive a payment subject to withholding or deduction of a tax for which the other party is not required to make a "gross-up" payment;

(iii) as a result of the Collateral Put Provider or the Collateral Put Provider Credit Support Provider consolidating or amalgamating with, or merging with or into, or transferring all or substantially all its assets to another entity, such party is required to (a) make a "gross-up" payment to the other party or (b) receive a payment from which an amount has been deducted or withheld for or on account of any Indemnifiable tax, and neither party is able to transfer such obligation to a different jurisdiction or substitute another entity in its place such that the withholding or deduction does not apply;

(iv) the Notes becoming due and payable in accordance with the Indenture at any time prior to their Stated Maturity after the occurrence of an Event of Default;

(v) an Adverse Tax Event;

(vi) the designation of a Credit Default Swap Early Termination Date;

(vii) the designation of a Basis Swap Early Termination Date;

(viii) a Collateral Default; or
(9) If (a) the Collateral Put Provider no longer satisfies the Replacement Counterparty Rating and (b) none of the following events has occurred:

(1) within five Business Days of such failure to satisfy the Replacement Counterparty Rating, GSI, a replacement counterparty or an entity that guarantees the obligations of GSI or such replacement counterparty, as the case may be, posts eligible collateral, pursuant to a credit support annex (the "Credit Support Annex"), to the Issuer in an amount that satisfies the S&P Rating Condition and the Moody’s Rating Condition; or

(2) within 30 days of such Collateral Put Provider failing to satisfy the Replacement Counterparty Rating, if GSI, a replacement counterparty or an entity that guarantees the obligations of GSI or such replacement counterparty, as the case may be, does not elect to post eligible collateral to the Issuer in accordance with subclause (f) above:

(A) GSI or a replacement counterparty, as the case may be, transfers the Collateral Put Agreement, in whole, but not in part, to a counterparty that satisfies the Replacement Counterparty Rating, subject to "—Transfer" below;

(B) the obligations of GSI, a replacement counterparty or an entity that guarantees the obligations of GSI or such replacement counterparty, as the case may be, under the Collateral Put Agreement are guaranteed by a Person that satisfies the Replacement Counterparty Rating;

(C) (i) GSI, a replacement counterparty or an entity that guarantees the obligations of GSI or such replacement counterparty, as the case may be, purchases from the Issuer at a price of 100% any Collateral Security that has a market value of 95% or less, as determined by the Collateral Disposal Agent and (ii) after giving effect to the purchase described in the preceding subclause, the S&P Rating Condition and the Moody’s Rating Condition will be satisfied; or

(D) GSI, a replacement counterparty or an entity that guarantees the obligations of GSI or such replacement counterparty, as the case may be, takes such other steps, if any, as S&P or Moody’s, as the case may be, may require in order to be able to confirm to the Issuer in writing that GSI’s, a replacement counterparty or an entity that guarantees the obligations of GSI or such replacement counterparty, as the case may be, obligations under the Collateral Put Agreement will be treated by such Rating Agency as if such obligations were owed by a counterparty that satisfies the Replacement Counterparty Rating.

Upon the Trustee becoming aware of the occurrence of any event that gives rise to the right of the Issuer to terminate the Credit Default Swap, the Basis Swap or the Collateral Put Agreement, the Trustee or the Issuing Agent, as applicable, will as promptly as practicable notify the Noteholders of such event and the Trustee will terminate any such agreement on behalf of the Issuer at the direction of (i) in the case of the Credit Default Swap or the Basis Swap, a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes and (ii) in the case of the Collateral Put Agreement, 100% of the Aggregate USD Equivalent Outstanding Amount of the Notes, in each case voting as a single class. In addition, if an Event of Default or a Termination Event (as such term is defined in the Collateral Put Agreement) for which the Collateral Put Provider is the sole defaulting party or Affected Party (as such term is defined in the Collateral Put Agreement) under the Collateral Put Agreement, then
the issuer will have 30 days to enter into a replacement credit default swap and basis swap (otherwise a Mandatory Redemption will occur). See "The Credit Default Swap—Replacement". In connection with any Noteholder vote to terminate the Collateral Put Agreement, any Notes held by or on behalf of the Collateral Put Provider or any of its Affiliates will have no voting rights and will be deemed not to be Outstanding in connection with any such vote.

Amendment

The Collateral Put Agreement may be amended at any time without satisfying the S&P Rating Condition and the Moody's Rating Condition or obtaining the consent of the Noteholders so long as such amendment would not have a material adverse effect on any Holders of the Notes. Otherwise, the Collateral Put Agreement may be amended only with the satisfaction of the S&P Rating Condition and the Moody's Rating Condition and the consent of the Noteholders (in a percentage as would have been required had such amendment been taken pursuant to the Indenture).

Transfer

Neither the issuer nor the Collateral Put Provider may transfer its rights and obligations under the Collateral Put Agreement without the prior written consent of the other party, which consent will not be unreasonably withheld or delayed, except that, and in any case subject to the S&P Rating Condition:

(i) a party may make such a transfer of its rights and obligations pursuant to a consolidation or amalgamation with, or merger into, or transfer of all or substantially all of its assets to, or reorganization, incorporation, reincorporation or reconstitution into or as, another entity;

(ii) a party may make such a transfer of all or any part of its interest in certain amounts payable to it from a defaulting party under the Collateral Put Agreement; and

(iii) the Collateral Put Provider may, without recourse, transfer the Collateral Put Agreement (in whole and not in part only) to any of the Collateral Put Provider's Affiliates so long as

(a) GS Group (or another entity with a credit rating at least equal to that of GS Group) guarantees such transferred obligations of the transferee pursuant to a guarantee in substantially the same form as the guarantee specified in the Collateral Put Agreement, or such transferee must have a credit rating at least equal to that of GS Group;

(b) the issuer will not have to make any tax gross-up payments to such Affiliate in an amount greater than what the issuer would have been required to pay to the Collateral Put Provider in the absence of such transfer;

(c) any payment paid by such Affiliate to the issuer will not be subject to any withholding tax in excess of what the Collateral Put Provider would have been required to so withhold or deduct in the absence of such transfer;

(d) it does not become unlawful for either party to perform any obligation under the Collateral Put Agreement or the Credit Support Annex, if any, as a result of such transfer; and

(e) a Collateral Put Agreement Early Termination does not occur as a result of such transfer.
Replacement

See "The Credit Default Swap—Replacement".

Guarantee

GS Group will guarantee the obligations of the Collateral Put Provider under the Collateral Put Agreement.

THE COLLATERAL DISPOSAL AGREEMENT

On the Closing Date, the Issuer will enter into the Collateral Disposal Agreement (the "Collateral Disposal Agreement") with Goldman, Sachs & Co. (in such capacity, the "Collateral Disposal Agent"). The following description of the Collateral Disposal Agreement is a summary of certain provisions of the Collateral Disposal Agreement. The following summary does not purport to be complete, and is qualified in its entirety by reference to the detailed provisions of the Collateral Disposal Agreement.

The Notes do not represent an obligation of the Collateral Disposal Agent. Noteholders will not have any right to proceed directly against the Collateral Disposal Agent in respect of the Collateral Disposal Agent's obligations under the Collateral Disposal Agreement. However, the Holders of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class will have the right to direct the Issuer with respect to the enforcement of any claims that it may have against the Collateral Disposal Agent.

Liquidation

In connection with any liquidation in part of the portfolio of Collateral Securities for any of the circumstances described in subclauses (i), (ii), (v) and (viii) under "Summary—The Collateral Securities—Supplemental Collateral Securities—Liquidation of Collateral Securities", the Collateral Disposal Agent will determine the Selected Collateral Securities to be liquidated (if applicable), after taking into consideration any proceeds from the liquidation of any Eligible Investments; provided that any such Selected Collateral Securities will be denominated in the same currency as the Notes for which the Currency Adjusted Aggregate Outstanding Amount is reduced by the related Currency Adjusted Credit Event Adjustment Amount. Currency Adjusted Notional Principal Adjustment Amount, Partial Optional Redemption or a Stated Maturity, as applicable.

In connection with any liquidation of any Collateral Securities, the Collateral Disposal Agent will use commercially reasonable efforts to solicit bids on behalf of the Issuer. The Collateral Disposal Agent may, in its sole discretion, bid up to 100% of the principal amount of a Collateral Security (excluding any accrued interest) if the Collateral Disposal Agent is not able to procure a third-party bid at least 100%. If such liquidation is in connection with the payment by the Issuer of a Currency Adjusted Notional Principal Adjustment Amount to the applicable Noteholders or an Optional Redemption in Whole or Partial Optional Redemption, the Issuer will have the benefit of the Collateral Put Agreement and no Collateral Security will be liquidated at less than 100% of par. See "The Collateral Put Agreement".

In connection with any liquidation of Collateral Securities as described in subclauses (v) under "Summary—The Collateral Securities—Supplemental Collateral Securities—Liquidation of Collateral Securities", the Collateral Disposal Agent will perform the acts described under "Description of the Notes—Mandatory Redemption", including, but not limited to, those acts described in the Special Termination Liquidation Procedure.

Confidential Treatment Requested by Goldman Sachs
Early Termination

The Collateral Disposal Agreement will terminate on the earlier of (i) the final Stated Maturity of any Series of Notes, (ii) the Optional Redemption Date, (iii) the Mandatory Redemption Date, (iv) a liquidation of all Collateral Securities following the occurrence of an Event of Default and (v) the termination of the Hediture in accordance with its terms.

Exercise of Put, Repurchase or Similar Right

Notwithstanding any provision to the contrary contained herein, the Collateral Disposal Agreement will permit the Trustee to exercise any put right, right under repurchase agreement or other similar right that the issuer has under any Collateral Security within the applicable time period.

Credit Support Amount Due and Payable

If a Credit Support Annex has been entered into by the Collateral Put Provider and the Issuer and any credit support amount becomes due and payable pursuant to the terms thereof, the Collateral Disposal Agent will (i) calculate the market value of each Collateral Security and (ii) notify the Collateral Put Provider of any such Collateral Security that has a market value of 95% or less.

Amendment

The Collateral Disposal Agreement may be amended only (i) if the S&P Rating Condition and the Moody's Rating Condition have been satisfied and (ii) with the consent of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class and the Protection Buyer. However, the Collateral Disposal Agreement may be amended at any time without the consent of the Noteholders so long as such amendment will not (i) reduce in any manner the amount of, or delay the timing of, payments which are required to be made to the Issuer or (ii) materially adversely affect the Noteholders (as evidenced by a failure of a Majority of the Noteholders to object to such amendment within 10 Business Days of the Issuer's delivering a notice of such amendment to all Noteholders).

THE PORTFOLIO SELECTION AGENT

The information appearing in this section (other than the information contained under the heading “General”) has been prepared by the Portfolio Selection Agent and has not been independently verified by the Issuer, the Initial Purchaser or any other person or entity. None of the Issuer or the Initial Purchaser assumes any responsibility for the accuracy, completeness or applicability of such information. Accordingly, the Portfolio Selection Agent assumes no responsibility for the accuracy, completeness or applicability of such information. The Portfolio Selection Agent does not assume responsibility for any other information in this Offering Circular.

General

The Portfolio Selection Agent will, pursuant to the terms of the Portfolio Selection Agreement, (a) select the Initial Reference Portfolio and (b) have the right to review the calculations of the Credit Default Swap Calculation Agent and the Trustee on any Determination Date. The Portfolio Selection Agent will not be responsible for producing or providing reports, notices or other information relating to the Notes or the Reference Portfolio. The Portfolio Selection Agent will not provide any other services to the Issuer or act as the "collateral manager" for the Collateral. The Portfolio Selection Agent will not have any fiduciary duties or other duties to the Issuer or to the holders of the Notes and will not have any ability to direct the Trustee to dispose of any items of Collateral.

The Portfolio Selection Agent is not permitted under the terms of the Credit Default Swap to remove or replace any Reference Obligations at any time.

Confidential Treatment Requested by Goldman Sachs  GS MBS-E-001918123
Footnote Exhibits - Page 4903

The Portfolio Selection Agent, its Affiliates or client accounts for which the Portfolio Selection Agent or its Affiliates act as investment advisor may at times own Notes. Any Notes owned by the Portfolio Selection Agent or its Affiliates are subject to disposition by such parties in their discretion. At any given time the Portfolio Selection Agent and its Affiliates will be entitled to vote with respect to any Notes held by them and by such accounts with respect to all other matters. See "Risk Factors—Certain Conflicts of Interest Relating to the Portfolio Selection Agent and its Affiliates".

ACA Management, L.L.C.

ACA Management, L.L.C. ("ACA Management"), a Delaware limited liability company formed on May 4, 2001 to provide asset management services to affiliated and non-affiliated investors, is the portfolio selection agent under the Portfolio Selection Agreement (in such capacity, together with any successor, the "Portfolio Selection Agent")

ACA Management is registered as an "investment advisor" under the U.S. Investment Advisers Act of 1940, as amended (the "Advisers Act").

ACA Management is an indirect wholly-owned subsidiary of ACA Capital Holdings, Inc. ("ACA Capital Holdings"). ACA Capital Holdings is a publicly traded company listed on the New York Stock Exchange under the ticker "ACA." Shareholders owning more than 5% of ACA Capital Holdings' outstanding common stock include Bear Stearns Merchant Banking, GCC Investments, Inc., S.F. Holding Corp., Third Avenue Value Fund and Perry Corp. In addition to ACA Management, ACA Capital Holdings' significant subsidiaries include ACA Risk Solutions, L.L.C. ("ACA Risk Solutions"), ACA Management's direct parent corporation, ACA Service, L.L.C. ("ACA Service"), the holding company for the ACA Capital Holdings U.S. structured finance businesses and direct parent corporation of ACA Risk Solutions, and ACA Financial Guaranty Corporation ("ACA Guaranty"), a financial guaranty insurance corporation and the direct parent corporation of ACA Service. Both ACA Risk Solutions and ACA Service are Delaware limited liability corporations and ACA Guaranty is a Maryland stock insurance company. ACA Capital Holdings and its subsidiaries, including ACA Management, are referred to herein as "ACA Capital". The offices of ACA Capital and all of its U.S. domiciled subsidiaries are located at 140 Broadway, 47th Floor, New York, New York 10005.

ACA Service will assist the Portfolio Selection Agent in selecting the Initial Reference Portfolio.

ACA Guaranty has "A" financial strength and financial enhancement ratings from S&P. The SAP rating reflects S&P's current assessment of the creditworthiness of ACA Guaranty and its ability to pay claims on its policies of insurance. Any further explanation as to the significance of the SAP's rating may be obtained only from S&P. The SAP rating is not a recommendation to buy, sell or hold any securities, and such rating may be subject to revision or withdrawal at any time by S&P.

THE PORTFOLIO SELECTION AGREEMENT

The following summary describes certain provisions of the Portfolio Selection Agreement. The summary does not purport to be complete and is subject to, and qualified in its entirety by reference to, the provisions of the Portfolio Selection Agreement.

The Portfolio Selection Agent will, pursuant to the Portfolio Selection Agreement, select the Initial Reference Portfolio and have the right to review the calculations of the Credit Default Swap Calculation Agent and the Trustee on any Determination Date.

As compensation for the performance of its obligations as Portfolio Selection Agent under the Portfolio Selection Agreement, the Portfolio Selection Agent will receive a fee (the "Portfolio Selection Fee"). The fee is based on a rate up to 0.05 basis points per annum, with the Priority of Payments in the event of default. The Portfolio Selection Fee will accrue daily from the Closing Date and will be an amount equal to the sum of (a) with respect to each Payment Date, the sum of the quotients determined for each Class of

Confidential Treatment Requested by Goldman Sachs

QS MBS-E-001918124
Footnote Exhibits - Page 4904

Notes on each day of the related Interest Accrual Period of (i) the product of (a) the average daily Aggregate USD Equivalent Outstanding Amount of such Class during the preceding Interest Accrual Period, (b) the Applicable Class Portfolio Selection Fee Rate with respect to such Class of Notes and (c) the actual number of days in the preceding Interest Accrual Period divided by (ii) 360, payable in arrears on each Payment Date and (y) on the Payment Date occurring in April, 2008 and occurring in each successive April to and including the Payment Date immediately following the end of the Non-Call Period, an amount equal to the excess (if any) of (1) $1,000,000 over (2) the aggregate of all Portfolio Selection Fees payable to the Portfolio Selection Agent from and excluding the Payment Date occurring in April of the immediately preceding year (or in the case of the Payment Date occurring in April 2008, from the Closing Date) and the Portfolio Selection Fee that is payable by the Issuer to the Portfolio Selection Agent pursuant to clause (x) on such date.

To the extent not paid on any Payment Date when due, any accrued Portfolio Selection Fee will be deferred and will be payable on the next subsequent Payment Date on which funds are available for the payment thereof in accordance with the Priority of Payments. Any unpaid Portfolio Selection Fee that is deferred due to the operation of the Priority of Payments will not accrue interest.

The Portfolio Selection Agent will be responsible for its own expenses and costs incurred in the course of performing its obligations under the Portfolio Selection Agreement.

The Portfolio Selection Agent will not be liable to the Issuer, the Trustee, the Initial Purchaser, the Noteholders, the Protection Buyer, the Collateral Put Provider, the Basis Swap Counterparty, the Collateral Disposal Agent or any of their respective Affiliates, partners, shareholders, officers, directors, employees, agents, accountants and attorneys for any losses, damages, claims, liabilities, costs or expenses (including attorney’s fees) incurred as a result of the actions taken or recommended by or on behalf of the Portfolio Selection Agent under the Portfolio Selection Agreement, the Credit Default Swap or the Indentures, except by reason of acts constituting bad faith, willful misdeed, gross negligence or reckless disregard of its duties and obligations thereunder.

The Portfolio Selection Agent and any of its Affiliates may engage in other businesses and may furnish investment management and advisory services to related entities whose investment policies may differ from or be similar to those followed by the Portfolio Selection Agent on behalf of the Issuer, as required by the Portfolio Selection Agreement. The Portfolio Selection Agent and its Affiliates will be free, in their sole discretion, to make recommendations to others, or effect transactions on behalf of themselves or others which may be the same as or different from those effected with respect to the Reference Portfolio. In addition, the Portfolio Selection Agent and its Affiliates may, from time to time, cause, direct or recommend that their clients buy or sell securities of the same or different kind or class of the same issuer as securities that are part of the Reference Portfolio and that the Portfolio Selection Agent directs to be included in or removed from the Reference Portfolio. See “Risk Factors—Certain Conflicts of Interest Relating to the Portfolio Selection Agent and its Affiliates.”

Neither the Portfolio Selection Agent nor any of its Affiliates are under any obligation to maintain any investment in the Notes.

ACCOUNTS
Interest Collection Account and Principal Collection Account

Interest Proceeds and interest payments received on the Collateral Securities (which interest payments shall be paid to the Basis Swap Counterparty pursuant to the Basis Swap) shall be deposited into a segregated trust account (within which related subaccounts may be created to deposit such amounts in different Approved Currencies) held in the name of the Issuer for the benefit of the Holders of the Notes (the “Interest Collection Account”). Amounts deposited in the Interest Collection Account will be available, together with reinvestment earnings thereon, for application to the payment of the amounts set forth under “Description of the Notes—Priority of Payments.”

Confidential Treatment Requested by Goldman Sachs
Footnote Exhibits - Page 4905

Principal Proceeds shall be deposited into a segregated trust account (within which related subaccounts may be created to deposit such amounts in different Approved Currencies) designated as the "Principal Collection Account". Amounts deposited in the Principal Collection Account will be invested in Eligible Investments until such Principal Proceeds are (i) reinvested in Collateral Securities (pending such reinvestment, reinvested in Eligible Investments) or (ii) applied in accordance with the Priority of Payments. See "Description of the Notes—Priority of Payments".

Payment Account

On or prior to each Payment Date and on or prior to any other Business Day on which any other payment is required to be made by the Issuer, the Trustee will deposit into a separate account (within which related subaccounts may be created to deposit such amounts in different Approved Currencies) held in the name of the Issuer for the benefit of the Holders of the Notes and designated as the "Payment Account" as set forth in the Indenture, the applicable amount of funds from the Interest Collection Account and/or the Principal Collection Account, as applicable, for payment of amounts described under "Description of the Notes—Priority of Payments".

Closing Date Expense Account

The Trustee will establish and maintain a segregated trust account (the "Closing Date Expense Account") for the payment of Closing Date expenses. On the Closing Date, the Trustee will deposit into the Closing Date Expense Account part of the Upfront Payment, and such amount will be used to pay expenses associated with the Closing Date. Any amount deposited in the Closing Date Expense Account and not required for payment of such expenses shall be transferred by the Trustee at the direction of the Protection Buyer.

Collateral Put Provider Account

If a Credit Support Annex has been entered into by the Collateral Put Provider and the Issuer, Post-Collateralized Collateral pursuant to the terms thereof shall be deposited into a segregated trust account or trust accounts so designated and established pursuant to the Indenture and held there pursuant to the Collateral Put Agreement (such account, the "Collateral Put Provider Account").

CDS Issuer Account

On the Closing Date, the Trustee will establish and maintain a segregated trust account (the "CDS Issuer Account") with respect to the CDS Default Swap, into which all required amounts received by the Trustee from the Protection Buyer shall be deposited by the Trustee (as directed by the Issuer). The Trustee will deposit each Fixed Payment received from the Protection Buyer pursuant to clauses (ii) through (v) of the definition of "Fixed Payment" (i.e. a subaccount of the CDS Issuer Account) on the Closing Date. On each succeeding Payment Date, amounts previously deposited in the CDS Issuer Account will be released by the Trustee and designated as Interest Proceeds. If a Replacement Counterparty enters into a replacement credit default swap and replacement basis swap pursuant to the Replacement Counterparty Procedures, the Trustee will establish a subaccount of the CDS Issuer Account in which amounts to be paid by such Replacement Counterparty shall be deposited.

THE ISSUERS

General

The Issuer was incorporated on March 1, 2007 in the Cayman Islands under the Companies Law (2004 Revision) of the Cayman Islands with the registration number 18303. The registered office of the Issuer is at the offices of Maples Finance Limited, P.O. Box 1031 GT, Queensgate House, South Church

Confidential Treatment Requested by Goldman Sachs

CS MBS-E-001918126
Footnote Exhibits - Page 4906

Street, George Town, Grand Cayman, Cayman Islands. The Issuer was incorporated for the specific purpose of carrying out the transactions described in this Offering Circular, which primarily consists of issuing the Notes, acquiring the Collateral, entering into the Credit Default Swap, the Basis Swap and the Collateral Put Agreement and engaging in certain related transactions, as set forth in Clause 3 of its Memorandum and Articles of Association. Prior to the date hereof, the Issuer has not engaged in any activities other than in connection with the acquisition of certain of the Collateral Securities to be held on the Closing Date.

The Co-Issuer was incorporated on February 27, 2007 in the State of Delaware under the General Corporation Law of the State of Delaware with the registration number 420559. The registered office of the Co-Issuer is at 850 Library Avenue, Suite 204, Newark, Delaware 19711. The Co-Issuer was organized for the specific purpose of carrying out the transactions described in this Offering Circular, which primarily consists of co-issuing the Co-Issued Notes, as set forth in Article Third of its Certificate of Incorporation. The Co-Issuer has no prior operating history.

The Co-Issued Notes are obligations only of the Issuer and not of the Trustee, the Issuing and Paying Agent, the Initial Purchaser, the Portfolio Selection Agent, the Administrator, the Share Trustee or any directors or officers of the Issuer or any of their respective Affiliates. The Issuer Notes are obligations only of the Issuer and not of the Co-Issuer, the Trustee, the Issuing and Paying Agent, the Initial Purchaser, the Portfolio Selection Agent, the Administrator, the Share Trustee or any directors or officers of the Issuer or any of their respective Affiliates.

At the Closing Date, the authorized share capital of the Issuer will consist of 300 ordinary shares, $1.00 par value per share (the "Issuer Ordinary Shares"), all of which shares will be issued prior to the Closing Date. The authorized common stock of the Co-Issuer consists of 1,000 shares of common stock, $0.01 par value (the "Co-Issuer Common Stock"), all of which shares will be issued prior to the Closing Date. All of the outstanding Issuer Ordinary Shares will be held by the Share Trustee under the terms of a declaration of trust, which provides that the shares and other amounts held on trust thereunder shall be divided into three equal parts to be held for the benefit of three mutually exclusive groups of corporations and companies whose objects are exclusively charitable and which provides that the Share Trustee shall not, as shareholder, give directions in relation to the management of the business of the Issuer without the prior written consent of the Trustee. The Co-Issuer Common Stock will be held by the Issuer. For so long as any of the Notes are Outstanding, no beneficial interest in the Issuer Ordinary Shares or the Co-Issuer Common Stock shall be registered to a U.S. Person.

Capitalization of the Issuer

The initial proposed capitalization (including the USD Equivalent of the Notes denominated in Approved Currencies other than Dollars) of the Issuer as of the Closing Date after giving effect to the issuance of the Notes and the Issuer Ordinary Shares (before deducting expenses of the offering) is as set forth below.
Footnote Exhibits - Page 4907

Amount
- Class SS Notes: $0
- Class A-1 Notes: $50,000,000
- Class A-2 Notes: $142,000,000
- Class B Notes: $0
- Class C Notes: $0
- Class D Notes: $0
- Class FL Notes: $0

Total Debt: $192,000,000
Issuer Ordinary Shares: $300
Total Equity: $300
Total Capitalization: $192,000,000

Capitalization of the Co-Issuer

The Co-Issuer will be capitalized only to the extent of common equity of $10, will have no assets other than its equity capital and will have no debt other than as Co-Issuer of the Co-Issued Notes.

The Co-Issuer has agreed to co-issue the Co-Issued Notes as an accommodation to the Issuer and the Co-Issuer is receiving no remuneration for such action. Because the Co-Issuer has no assets and is not permitted to have any assets, Noteholders will not be able to exercise their rights with respect to the Notes against any assets of the Co-Issuer. Noteholders must rely on the Issuer Assets held by the Issuer and pledged to the Trustee for the benefit of the Noteholders (and certain other providers) for payment on their respective Notes, in accordance with the Priority of Payments.

Business

The Issuers will not undertake any business other than the issuance of the Co-Issued Notes and, in the case of the Issuer, the issuance of the Issuer Notes and the Issuer Ordinary Shares, the acquisition of the Collateral and entering into the Credit Default Swap, the Portfolio Selection Agreement, the Basis Swap and the Collateral Put Agreement and, in each case, other related transactions. The Issuer will not have any subsidiaries other than the Co-Issuer. The Co-Issuer will not have any subsidiaries.

In addition, pursuant to the terms of the Collateral Administration Agreement, the Issuer will retain the Collateral Administrator to compile certain reports with respect to the Issuer Assets. The compensation paid by the Issuer for such services will be in addition to the fees paid to LeSelle Bank National Association in its capacity as Trustee, and will be treated as an expense of the Issuer and will be subject to the Priority of Payments.

The Administrator will act as the administrator of the Issuer. The office of the Administrator will serve as the general business office of the Issuer. Through this office and pursuant to the terms of an agreement, dated April 25, 2007, between the Administrator and the Issuer relating to the administration of the Issuer in the Cayman Islands, and as amended from time to time in accordance with the terms thereof (the "Administration Agreement"), the Administrator will perform various management functions on behalf of the Issuer, including communications with shareholders and the general public, and the provision of certain clerical, administrative and other services until the termination of the Administration Agreement. In consideration of the foregoing, the Administrator will receive various fees and other charges payable by the Issuer at rates agreed upon from time to time plus expenses. The directors of the Issuer listed below are also officers and/or employees of the Administrator.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918128
Footnote Exhibits - Page 4908

The Administrator will be subject to the overview of the Issuer's Board of Directors. The Administration Agreement may be terminated by either the Issuer or the Administrator upon three months' written notice.

The Administrator's principal office is: P.O. Box 1053 GT, Queensgate House, South Church Street, Grand Cayman, Cayman Islands.

Directors

The Directors of the Issuer are Wendy Eberns and Carrie Bunten.
The Director of the Co-Issuer is Donald Puglisi.

INCOME TAX CONSIDERATIONS

General

Purchasers of Notes may be required to pay stamp taxes and other charges in accordance with the laws and practices of the country of purchase in addition to the issue price of each Note.

Potential purchasers who are in any doubt about their tax position on purchase, ownership, transfer or exercise of any Note should consult their own tax advisers. In particular, no representation is made as to the manner in which payments under the Notes would be characterized by any relevant taxing authority. Potential investors should be aware that the relevant fiscal rules or their interpretation may change, possibly with retroactive effect, and that this summary is not exhaustive. This summary does not constitute legal or tax advice or a guarantee to any potential investor of the tax consequences of investing in the Notes.

Cayman Islands Tax Considerations

The following discussion of certain Cayman Islands income tax consequences of an investment in the Notes is based on the advice of Maples and Calder as to Cayman Islands law. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It assumes that the Issuer will conduct its affairs in accordance with assumptions made by, and representations made to, counsel. It is not intended as tax advice, does not consider any investors particular circumstances, and does not consider tax consequences other than those arising under Cayman Islands law.

The following is a general summary of Cayman Islands taxation in relation to the Notes.

Under existing Cayman Islands laws:

(i) payments of principal and interest in respect of, or distributions on, the Notes will not be subject to taxation in the Cayman Islands and no withholding will be required on such payments to any Holder of a Note and gains derived from the sale of Notes will not be subject to Cayman Islands income or corporation tax. The Cayman Islands currently have no income, corporation or capital gains tax and no estate duty, inheritance tax or gift tax; and
(ii) no stamp duty is payable in respect of the issue of the Notes. The Notes themselves will be stampable if they are executed in or brought into the Cayman Islands.

The Issuer has been incorporated under the laws of the Cayman Islands as an exempted company and, as such, has applied for and obtained an undertaking from the Governor in Cabinet of the Cayman Islands substantially in the following form:
In accordance with Section 6 of the Tax Concessions Law (1999 Revision), the Governor in Cabinet undertakes with:

ABACUS 2007-AC1, Ltd. ("the Company")

(a) that no Law which is hereafter enacted in the Islands imposing any tax to be levied on profits, income, gains or appreciations shall apply to the Company or its operations; and

(b) in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax shall be payable

(i) on or in respect of the shares, debentures or other obligations of the Company; or

(ii) by way of the withholding in whole or in part of any relevant payment as defined in Section 6(3) of the Tax Concessions Law (1999 Revision).

These concessions shall be for a period of THIRTY years from the 13th day of March 2007.

GOVERNOR IN CABINET

The Cayman Islands does not have an income tax treaty arrangement with the United States or any other country. The Cayman Islands has entered into an information exchange agreement with the United States.

THE PRECEDING DISCUSSION IS ONLY A SUMMARY OF CERTAIN TAX IMPLICATIONS OF AN INVESTMENT IN THE NOTES. PROSPECTIVE INVESTORS ARE URGED TO CONSULT WITH THEIR OWN TAX ADVISORS PRIOR TO INVESTING TO DETERMINE THE TAX IMPLICATIONS OF SUCH INVESTMENT IN LIGHT OF EACH INVESTOR'S PARTICULAR CIRCUMSTANCES.

United States Federal Income Taxation

General

The following summary describes the principal U.S. federal income tax consequences of the purchase, ownership and disposition of the Notes to investors that acquire the Notes at original issuance for an amount equal to the "Issue Price" of the relevant Class of Notes (for purposes of this section, with respect to each such Class of Notes, the first price at which a substantial amount of Notes of such Class are sold to the public (excluding bond houses, brokers, underwriters, placement agents, and wholesalers) is referred to herein as the "Issue Price"). This summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a particular investor's decision to purchase the Notes. In addition, this summary does not describe any tax consequences arising under the laws of any state, locality or taxing jurisdiction other than the United States federal income tax laws. In general, the summary assumes that a holder holds a Note as a capital asset and not as part of a hedge, straddle, or conversion transaction, within the meaning of Section 1228 of the Code.

The advice below was not written and is not intended to be used and cannot be used by any taxpayer for purposes of avoiding United States federal income tax penalties that may be imposed. The

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918130
advice is written to support the promotion or marketing of the transaction. Each taxpayer should seek advice based on the taxpayer’s particular circumstances from an independent tax advisor.

The foregoing disclaimer is provided to satisfy obligations under Circular 230 governing standards of practice before the Internal Revenue Service.

This summary is based on the U.S. tax laws, regulations (final, temporary and proposed), administrative rulings and practice and judicial decisions in effect or available on the date of this Offering Circular. All of the foregoing are subject to change or differing interpretation at any time, which change or interpretation may apply retroactively and could affect the continued validity of this summary.

This summary is included herein for general information only, and there can be no assurance that the U.S. Internal Revenue Service (the “IRS”) will take a similar view of the U.S. federal income tax consequences of an investment in the Notes as described herein. ACCORDINGLY, PROSPECTIVE PURCHASERS OF THE NOTES SHOULD CONSULT THEIR OWN TAX ADVISORS AS TO U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF THE NOTES, AND THE POSSIBLE APPLICATION OF STATE, LOCAL, FOREIGN OR OTHER TAX LAWS. IN PARTICULAR, NO REPRESENTATION IS MADE AS TO THE MANNER IN WHICH PAYMENTS UNDER THE NOTES WOULD BE CHARACTERIZED BY ANY RELEVANT TAXING AUTHORITY.

As used in this section, the term "U.S. Holder" includes a beneficial owner of a Note that is, for U.S. federal income tax purposes, a citizen or individual resident of the United States of America, an entity treated for United States federal income tax purposes as a corporation or a partnership created or organized in or under the laws of the United States of America or any state thereof or the District of Columbia, an estate the income of which is includable in gross income for U.S. federal income tax purposes regardless of its source, or a trust if, in general, a court within the United States of America is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all substantial decisions of such trust, and certain eligible trusts that have elected to be treated as United States persons. This summary assumes that a U.S. Holder has a U.S. Dollar functional currency and the Issuer has a non-U.S. Dollar functional currency. This summary also does not address the rules applicable to certain types of investors that are subject to special U.S. federal income tax rules, including but not limited to, dealers in securities or currencies, traders in securities, financial institutions, U.S. exploiters, tax-exempt entities, charitable remainder trusts and their beneficiaries, insurance companies, persons or their qualified business units ("QBUS") whose functional currency is not the U.S. Dollar, persons that own (directly or indirectly) equity interests in holders of Notes and subsequent purchasers of the Notes.

For U.S. federal income tax purposes, the Issuer, and not the Co-Issuer, will be treated as the issuer of the Co-Issued Notes.

Tax Treatment of the Issuer

The Code and the Treasury regulations promulgated thereunder provide a specific exemption from net income-based U.S. federal income tax to non-U.S. corporations that restrict their activities in the United States to trading in stocks and securities (and any other activity closely related thereto) for their own account, whether such trading (or such other activity) is conducted by the corporation or its employees or through a resident broker, commission agent, custodian or other agent. This particular exemption does not apply to non-U.S. corporations that are engaged in activities in the United States other than trading in stocks and securities (and any other activity closely related thereto) for their own account or that are dealers in stocks and securities.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918131
The issuer intends to rely upon the above exception and does not intend to operate so as to be subject to U.S. federal income taxes on its net income. In this regard, the Cashing Date, the Issuer will receive an opinion from McKee Nelson LLP, special U.S. tax counsel to the Issuer and the Co-Issuer ("Special U.S. Tax Counsel") to the effect that, although no activity closely comparable to that contemplated by the Issuer has been the subject of any Treasury regulation, administrative ruling or judicial decision, under current law and assuming compliance with the Issuer's relevant governing documents, the indenture, the Issuing and Paying Agency Agreement, the Portfolio Selection Agreement and other related documents (the "Documents"), the Issuer's permitted activities will not cause it to be engaged in a trade or business in the United States, and consequently, the Issuer's profits will not be subject to U.S. federal income tax on a net income basis. The opinion of Special U.S. Tax Counsel will be based on the Code, the Treasury regulations (final, temporary and proposed) thereunder, the existing authorities, and Special U.S. Tax Counsel's interpretation thereof and judgment concerning their application to the Issuer's permitted activities, and on certain factual assumptions and representations as to the Issuer's permitted activities. The Issuer intends to conduct its affairs in accordance with the Documents and such assumptions and representations, and the remainder of this summary assumes such result. In addition, in complying with the Documents and such assumptions and representations, the Issuer is entitled to rely upon the advice and/or opinions of their selected counsel, and the opinion of Special U.S. Tax Counsel will assume that any such advice and/or opinions are correct and complete. However, the opinion of Special U.S. Tax Counsel and any such other advice or opinions are not binding on the IRS or the courts, and no ruling will be sought from the IRS regarding this, or any other, aspect of the U.S. federal income tax treatment of the Issuer. Accordingly, in the absence of authority on point, the U.S. federal income tax treatment of the Issuer is not entirely free from doubt, and there can be no assurance that positions contrary to those stated in the opinion of Special U.S. Tax Counsel or any such other advice or opinions may not be asserted successfully by the IRS.

If, notwithstanding the Issuer's intention and the aforementioned opinion of Special U.S. Tax Counsel or any such other advice or opinions, it were nonetheless determined that the Issuer were engaged in a United States trade or business and the Issuer had taxable income that was effectively connected with such U.S. trade or business, the Issuer would be subject under the Code to the regular U.S. corporate income tax on such effectively connected taxable income (and possibly to the 30% branch profits tax as well). The imposition of such taxes would materially affect the Issuer's financial ability to make payments with respect to the Notes and could materially affect the yield of the Notes. In addition, the imposition of such taxes could constitute an Advance Tax Event.

Legislation recently proposed in the U.S. Senate would, for tax years beginning at least two years after the enactment, tax a corporation as a U.S. corporation if the equity of that corporation is regularly traded on an established securities market and the management and control of the corporation occurs primarily within the United States. It is unknown whether this proposal will be enacted in its current form and, whether enacted, the Issuer would be subject to its provisions. However, upon enactment of this or similar legislation, the Issuer will be permitted, with an opinion of counsel, to take such action as it deems advisable to prevent the Issuer from being subject to such legislation. These actions could include removing some classes of Notes from listing on a stock exchange.

Generally, foreign currency gains are sourced to the residence of the recipient. Thus, foreign currency gains of a non-U.S. corporation are generally treated as foreign source income. However, if for this purpose a non-United States corporation has a principal place of business in the United States (the "U.S. business"), even if the corporation has another principal place of business outside the United States, generally any foreign currency gain properly reflected as income of the U.S. business is treated as U.S. source income. Any U.S. source foreign currency gains that are not derived from the sale of property are subject to U.S. withholding tax. A non-U.S. corporation could be considered to have a U.S. business for this purpose even if it does not have any income effectively connected to a United States trade or business for purposes of being subject to U.S. taxation on its net income. The Issuer intends to take the position that none of its foreign currency gains will be subject to U.S. withholding tax. However, the application of these rules is unclear and the activities of the Issuer could cause it to have foreign

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001919132
currency gains subject to U.S. withholding tax. In addition, the imposition of such taxes could constitute an Adverse Tax Event.

United States Withholding Taxes. Although, based on the foregoing, the Issuer is not expected to be subject to U.S. federal income tax on net income basis, income derived by the Issuer may be subject to withholding taxes imposed by the United States or other countries. Generally, U.S. source interest income received by a foreign corporation not engaged in a trade or business within the United States is subject to U.S. withholding tax at the rate of 30% of the amount thereof. The Code provides an exemption (the “portfolio interest exemption”) from such withholding tax for interest paid with respect to certain debt obligations issued after July 15, 1984, unless the interest constitutes a certain type of contingent interest or is paid to a 10% shareholder of the payor, to a controlled foreign corporation related to the payor, or to a bank with respect to a loan entered into in the ordinary course of its business. In this regard, the Issuer is permitted to acquire a particular Collateral Security only if the payments thereon are exempt from U.S. withholding taxes at the time of purchase or commitment to purchase or the obligation is required to make “gross-up” payments that offset fully any such tax on any such payments. The Issuer does not anticipate that it will derive material amounts of any other items of income that would be subject to U.S. withholding taxes. Accordingly, assuming compliance with the foregoing restrictions and subject to the foregoing qualifications, interest income derived by the Issuer will be free of or fully “grossed up” for any material amount of U.S. withholding tax. For the Credit Default Swap, payments under the Credit Default Swap do not constitute interest for purposes of U.S. withholding taxes. The Issuer intends to treat the Credit Default Swap as either a “notional principal contract” or an option for U.S. Federal Income tax purposes. Generally, payments made pursuant to a notional principal contract or an option are not subject to U.S. withholding. However, the IRS may seek to characterize the Credit Default Swap in a manner that would make payment under it subject to U.S. withholding. Furthermore, there can be no assurance that income derived by the Issuer will not generally become subject to U.S. withholding tax as a result of a change in U.S. tax law or administrative practice, procedure, or interpretations thereof. Any change in U.S. tax law or administrative practice, procedure, or interpretations thereof resulting in the income of the Issuer becoming subject to U.S. withholding taxes could constitute an Adverse Tax Event. It is also anticipated that the Issuer will acquire Collateral Securities that consist of obligations of non-U.S. issuers. In this regard, the Issuer may only acquire a particular Collateral Security if either the payments thereon are not subject to foreign withholding tax or the obligor of the Collateral Security is required to make “gross-up” payments.

Prospective investors should be aware that, under certain Treasury Regulations, the IRS may disregard the participation of an intermediary in a “condol” financing arrangement and the conclusions reached in the immediately preceding paragraph assume that such Treasury Regulations do not apply. Those Treasury Regulations could require withholding of U.S. federal income tax from payments to the Issuer. In order to prevent “condol” classification, each Non-U.S. Holder and beneficial owner of an Issuer Note that is acquiring, directly or in conjunction with affiliates, more than 33 1/3% of the Aggregate USD Equivalent Outstanding Amount of any such Class of Issuer Notes, as applicable, will be deemed to make a representation to the effect that it is not an Affected Bank. “Affected Bank” means a “bank” for purposes of Section 881 of the Code or an entity affiliated with such a bank that neither (A) meets the definition of a U.S. Holder nor (B) is entitled to the benefits of an income tax treaty with the United States under which withholding taxes on interest payments made by obligors resident in the United States to such bank are reduced to 0%.

Tax Treatment of U.S. Holders of the Co-Issued Notes

Treatment of the Co-Issued Notes. Although there is no authority directly on point, and as a result, the opinion cannot be free from doubt, in the opinion of Special U.S. Tax Counsel, the Co-Issued Notes will be treated as debt for U.S. federal income tax purposes when issued. Although the Issuer Notes are denominated as debt, based on the capital structure of the Issuer and the characteristics of the Issuer Notes, it is unlikely that all the Issuer Notes, when issued, would be treated as debt of the Issuer for U.S. federal income tax purposes. However, it is possible that the IRS could assert that the Notes

Confidential Treatment Requested by Goldman Sachs

QS MBS-E-001918133
should be treated as the issuance of credit-linked debt by the Protection Buyer. The Holder of such Notes would have accrued income under the contingent debt rules which could affect the timing of such income. Any gain and certain losses from the sale of such Notes would result in ordinary income or loss because such Notes would be treated as contingent debt. This summary assumes that the treatment of the Co-Issued Notes as debt and the issuer Notes as equity of the Issuer for U.S. federal income tax purposes is correct. The Issuer Notes are discussed below under "—Tax Treatment of U.S. Holders of Issuer Notes." Further, the Issuer will treat, and each holder and beneficial owner of Co-Issued Notes (by acquiring such Notes or an interest in such Notes) will agree to treat, the Co-Issued Notes as debt for U.S. federal income tax purposes except (x) as otherwise required by applicable law, (y) to the extent a Holder of such Co-Issued Notes makes a protective QEF election (as described below under "—Tax Treatment of U.S. Holders of Issuer Notes—Investment in a Passive Foreign Investment Company") or (z) to the extent that the Holder files certain United States tax information returns required of only certain equity owners with respect to various reporting requirements under the Code (as described below under "—Transfer Reporting Requirements" and "—Tax Return Disclosure and Investor List Requirements"). The determination of whether a Co-Issued Note will be treated as debt for United States federal income tax purposes is based on the applicable law and facts and circumstances existing at the time such Note is issued. Material changes from those existing on the Closing Date (e.g., a material decline in the value of the Issuer's assets and/or a material change in the likelihood a Note will be repaid in full) may adversely affect the characterization of any Co-Issued Notes issued after (but not before) such changes. However, the opinion of Special U.S. Tax Counsel is based on current law and certain representations and assumptions (including the assumption that any subsequent opinion with respect to the tax characterization of the Co-Issued Notes is correct) and is not binding on the IRS or the courts, and no ruling will be sought from the IRS regarding this, or any other, aspect of the U.S. federal income tax treatment of the Notes. Accordingly, there can be no assurance that the IRS will not contend, and that a court will not ultimately hold, that one or more Classes of the Co-Issued Notes are properly treated as equity in the Issuer for U.S. federal income tax purposes. Recharacterization of a Class of Notes, particularly the Class C Notes, because of their place in the capital structure, may be more likely if a single investor or a group of investors that holds all of the Issuer Notes also holds all of the more senior Class of Notes in the same proportion as the Issuer Notes are held. If any Class of the Co-Issued Notes were treated as equity in, rather than debt of, the Issuer for U.S. federal income tax purposes, U.S. Holders of such Class would be subject to taxation under rules substantially the same as those set forth below under "—Tax Treatment of U.S. Holders of Issuer Notes" which could cause adverse tax consequences for such U.S. Holders upon the sale, exchange, redemption, retirement or other taxable disposition of, or the receipt of certain types of distributions on, such Notes.

In this regard, any U.S. Holder of a Co-Issued Note that treats such Note as equity in the Issuer for U.S. federal income tax purposes, inconsistently with the Issuer's treatment of such Notes for such purposes, is required to disclose such treatment on its U.S. federal income tax return. Additionally, if a U.S. Holder of a Co-Issued Note treats such Note as debt of the Issuer for U.S. federal income tax purposes, consistently with the Issuer's treatment of such Note for such purposes, it is unclear whether such S. Holder will be able to make a protective QEF election (described below under "—Tax Treatment of U.S. Holders of Issuer Notes—Investment in a Passive Foreign Investment Company") in anticipation of any possible recharacterization of such Note as equity in the Issuer.

Interest or Discount on the Co-Issued Notes. The Co-Issued Notes may be subject to the rules applicable to contingent payment debt instruments because the timing of their principal repayment is contingent on the principal payments of the Reference Obligations rather than obligations held by the Issuer. If these Notes are not treated as contingent payment debt obligations and subject to the discussion below, U.S. Holders of these Notes generally should include in gross income payments of stated interest received, in accordance with their usual method of accounting for U.S. federal income tax purposes, as ordinary interest income from sources outside the United States.

If the issue price of the Co-Issued Notes is less than such Note's respective "stated redemption price at maturity" by more than a de minimis amount, U.S. Holders will be considered to have purchased

Confidential Treatment Requested by Goldman Sachs

GS MS5-E-001918134
such Notes with original issue discount ("OID"). The respective stated redemption price at maturity of the Co-Issued Notes will be the sum of all payments to be received on such Notes, other than payments of stated interest which is unconditionally payable in money at least annually during the entire term of a debt instrument ("Qualified Stated Interest"). Interest can be considered unconditionally payable if nonpayment is sufficiently remote under the terms of the obligations or reasonable legal remedies exist to compel timely payment. Prospective U.S. Holders of the Co-Issued Notes should note that if any interest is not unconditionally payable in money on each Payment Date (and, therefore, not Qualified Stated Interest), all of the stated interest payments may be included in the stated redemption prices at maturity, and required to be accrued by U.S. Holders pursuant to the rules described below.

A U.S. Holder of a Co-Issued Note issued with OID will be required to accrue and include in gross income the sum of the daily portions of total OID for each day during the taxable year on which the U.S. Holder holds the Co-Issued Note, generally under a constant yield method, regardless of such U.S. Holder’s usual method of accounting for U.S. Federal income tax purposes. In addition, if a Co-Issued Note is not treated as issued with OID a U.S. Holder should include any de minimis OID in gross income proportionately as stated principal payments are received. Such de minimis OID should be treated as gain from the sale or exchange of property and may be eligible as capital gain if the Co-Issued Note is a capital asset in the hands of the U.S. Holder.

Because the Co-Issued Notes provide for a floating rate of interest, the amount of OID to be accrued over the term of each Co-Issued Note will be based initially on the assumption that the floating rate in effect for the first Interest Accrual Period will remain constant throughout the term. To the extent such rate varies with respect to any Interest Accrual Period, such variation will be reflected in an increase or decrease of the amount of OID accrued for such period. Under the foregoing method, if stated interest on a class of Co-Issued Notes is required to be accrued under the OID rules, U.S. Holders may be required to include in gross income increasingly greater amounts of OID and may be required to include OID in advance of the receipt of cash attributable to such income.

Unless the contingent payment obligation rules apply each Class of Co-Issued Notes issued with more than de minimis OID may be subject to rules requiring the use of an assumption as to the prepayments, as discussed below under “—OID on the Co-Issued Notes.” A prepayment assumption applies to debt instruments if payment under such debt instruments may be accelerated by reason of prepayments of other obligations securing such debt instruments. Application of a prepayment assumption is uncertain because prepayments on the Co-Issued Notes are generally dependent on prepayments on the Reference Portfolio rather than the Collateral Securities.

OID on the Co-Issued Notes. The Treasury regulations governing the calculation of OID on instruments having contingent interest payments specifically do not apply for purposes of calculating OID on debt instruments required to use a prepayment assumption. The Issuer intends to base its computations on a prepayment assumption for the Reference Portfolio, although, as noted above, it is uncertain whether such assumption is required or permitted. In addition, no regulatory guidance currently exists under the Code for prepayment assumptions. Accordingly, there can be no assurance that this methodology represents the correct manner of calculating OID. If the IRS were to successfully contend that another method of accruing OID with respect to the Co-Issued Notes is appropriate, the U.S. Federal income tax consequences to a U.S. Holder of the Co-Issued Notes could be adverse or more favorable.

If the Co-Issued Notes are deemed to be contingent debt obligations, then U.S. Treasury regulations may apply to the Co-Issued Notes that would apply the non-contingent bond method to non-U.S. Dollar denominated debt instruments that provide for certain contingent payments.

A subsequent purchaser of a Co-Issued Note issued with OID who purchases that Note at a cost less than the remaining stated redemption price at maturity will also be required to include in gross income the sum of the daily portions of OID on the Co-Issued Note. In computing the daily portions of OID for a subsequent purchaser of a Co-Issued Note (as well as an initial purchaser that purchases at a price higher than the adjusted Issue Price, but less than the stated redemption price at maturity),
Footnote Exhibits - Page 4915

however, the daily portion is reduced by the amount that would be the daily portion for the day (computed in accordance with the rules set forth above) multiplied by a fraction, the numerator of which is the amount, if any, by which the price paid by the U.S. Holder for the Co-Issued Note exceeds the difference between (a) the sum of the Issue Price plus the aggregate amount of OID that would have been able to be included in the gross income of an original U.S. Holder who purchased the Co-Issued Note at the Issue Price and (b) any prior payments included in the stated redemption price at maturity, and the denominator of which is the sum of the daily portions for the Co-Issued Note for all days beginning on the date after the purchase date and ending on the maturity date computed under the prepayment assumption.

A U.S. Holder who pays a premium for a Co-Issued Note (i.e., purchases the Co-Issued Note for an amount greater the stated redemption price at maturity) may elect to amortize such premium under a constant yield method over the life of the Co-Issued Note. The amortizable amount for any Interest Accrual Period would offset the amount of interest that must be included in the gross income of a U.S. Holder in such Interest Accrual Period. The U.S. Holder's basis in the Co-Issued Note would be reduced by the amount of amortization. It is not clear whether the prepayment assumption would be taken into account in determining the life of the for the timing of the amortization of such premium for this purpose.

If a U.S. Holder acquires a Co-Issued Note at a discount to the adjusted issue price of the Co-Issued Note that is greater than a specified minimum amount, such discount is treated as market discount. Absent an election to accrue into income currently, the amount of accrued market discount on a Co-Issued Note is included in income as ordinary income when principal payments are received or the U.S. Holder disposes of the Co-Issued Note. Market discount is accrued ratably unless the U.S. Holder elects to use a constant yield method for accrual. For this purpose, the term "ratably" may be based on the terms of the Co-Issued Note or a U.S. Holder may be permitted to accrue market discount in proportion to interest on Co-Issued Notes issued without OID or in proportion to OID on Co-Issued Notes issued with OID.

As a result of the complexity of the OID rules, each U.S. Holder of any Co-Issued Notes should consult its own tax advisor regarding the impact of the OID rules on its investment in such Notes.

Electio to Treat All Interest as OID. The OID rules permit a U.S. Holder of a Co-Issued Note to elect to accrue all interest, discount (including de minimis market or original issue discount) and premium in income as interest, based on a constant yield method. If an election to treat all interest as OID were to be made with respect to a Co-Issued Note with market discount, the U.S. Holder of such Note making such election would be deemed to have made an election to include in income currently market discount with respect to all other debt instruments having market discount that such U.S. Holder acquires during the year of the election or thereafter. Similarly, a U.S. Holder that makes this election for a Note that is accrued at a premium will be deemed to have made an election to amortize bond premium that such U.S. Holder owns or acquires. The election to accrue interest, discount and premium on a constant yield method with respect to a Co-Issued Note cannot be revoked without the consent of the IRS.

Disposition of the Co-Issued Notes. In general, a U.S. Holder of a Co-Issued Note initially will have a basis in such Note equal to the cost of such Note to such U.S. Holder. (i) increased by any amount includable in income by such U.S. Holder on OID with respect to such Note, and (ii) reduced by any amortized premium and by payments on the Co-Issued Note, other than payments of stated interest on the Co-Issued Note. Upon a sale, exchange, redemption, retirement or other taxable disposition of a Co-Issued Note, a U.S. Holder will generally recognize gain or loss equal to the difference between the amount realized on the sale, exchange, redemption, retirement or other taxable disposition (other than amounts attributable to accrued interest on a Co-Issued Note, which will be taxable as described above) and the U.S. Holder's tax basis in such Note. Except to the extent of accrued interest or market discount not previously included in income, or unless the rules applicable to contingent payment debt obligations apply, gain or loss from the disposition of a Co-Issued Note generally will be long-term capital gain or loss if the U.S. Holder held the Co-Issued Note for more than one year at the time of disposition, provided that

Confidential Treatment Requested by Goldman Sachs
the Co-Issued Note is held as a "capital asset" (generally, property held for investment) within the meaning of Section 1221 of the Code, except to the extent of accrued market discount not previously included in income.

However, if the IRS or a court determines that any Class of the Co-Issued Notes constitute contingent payment debt obligations subject to the non-contingent bond method, then a U.S. Holder generally will have a basis in such Co-Issued Note equal to the cost of such Co-Issued Note to such U.S. Holder (increased by OID accrued with respect to the Co-Issued Notes (determined without regard to adjustments made to reflect the differences between actual and projected payments) and (ii) reduced by the amount of any non-contingent payments and the projected amount of any contingent payments previously made on the Co-Issued Notes. Any gain recognized on the sale, exchange, redemption, retirement or other taxable disposition of the Co-Issued Note will be treated as ordinary income. Further, in such a case, any loss will be treated as ordinary loss to the extent of prior interest inclusions with respect to the Co-Issued Notes, reduced by the total net negative adjustments that the U.S. Holder has taken into account as ordinary loss with respect to the Co-Issued Notes; any remaining loss will be a capital loss.

In certain circumstances, U.S. Holders that are individuals may be entitled to preferential treatment for net long-term capital gains; however, the ability of U.S. Holders to offset capital losses against ordinary income is limited.

Any gain recognized by a U.S. Holder on the sale, exchange, redemption, retirement or other taxable disposition of a Co-Issued Note generally will be treated as from sources within the United States assuming that such Co-Issued Note is not held by a U.S. Holder through a non-U.S. branch.

Alternative Characterization of the Co-Issued Notes. Notwithstanding special U.S. tax laws governing the treatment of certain types of debt instruments, U.S. Holders should recognize that there is some uncertainty regarding the appropriate classification of instruments such as the Co-Issued Notes. It is possible, for example, that the IRS may contend that a Class of Co-Issued Notes should be treated as equity interests (or as part debt, part equity) in the Issuer. Such a recharacterization might result in material adverse U.S. federal income tax consequences to U.S. Holders. If U.S. Holders of a Class of the Co-Issued Notes were treated as owning equity interests in the Issuer, the U.S. federal income tax consequences to U.S. Holders of such recharacterized Co-Issued Notes would be as described under "—Tax Treatment of U.S. Holders of Issuer Notes", "—Transfer Reporting Requirements" and "—Tax Return Disclosure and Investor List Requirements". In order to avoid the application of the FIRC rules, each U.S. Holder of a Note should consider making a qualified election for the Co-Issued Notes on a "protective" basis (although such protective election may not be respected by the IRS because current regulations do not specifically authorize such protective election). See "Tax Treatment of U.S. Holders of Issuer Notes—Investment in a Passive Foreign Investment Company". Further, U.S. Holders of any Class of the Co-Issued Notes that may be recharacterized as equity in the Issuer should consult with their own tax advisors with respect to whether, if they owned equity in the Issuer, they would be required to file information returns in accordance with sections 6038, 6038B, and 6046 of the Code (and, if so, whether they should file such returns on a protective basis).

Payments of Interest and OID in Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen. A U.S. Holder with a U.S. Dollar functional currency that uses the cash method of accounting for U.S. federal income tax purposes and receives a payment of interest on a Co-Issued Note (other than OID) denominated in Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, will be required to include in gross income the U.S. Dollar value of the payment in U.S. Dollars or, as applicable, in the applicable currency to the extent such payment is received (based on the U.S. Dollar spot rate for the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on the date such payment is received) regardless of whether the payment is in fact converted to U.S. Dollars at that time. No exchange gain or loss will be recognized with respect to the receipt of such payment.

Confidential Treatment Requested by Goldman Sachs
GS MBS-E-001918137
A U.S. Holder that uses the accrual method of accounting for U.S. federal income tax purposes, or that otherwise is required to accrue interest prior to receipt, will be required to include in gross income the U.S. Dollar value of the amount of interest income that has accrued and is otherwise required to be taken into account with respect to a Co-Issued Note during an accrual period. The U.S. Dollar value of such accrued interest income will be determined by translating such interest income at the average U.S. Dollar exchange rate for the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, in effect during the accrual period or, with respect to an accrual period that spans two taxable years, the partial period within the taxable year. A U.S. Holder may elect, however, to translate such accrued interest income using the U.S. Dollar spot rate for the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on the last day of the accrual period or, with respect to an accrual period that spans two taxable years, on the last day of the taxable year. If the last day of an accrual period is within five business days of the date of receipt of the accrued interest, a U.S. Holder may translate such interest using the U.S. Dollar spot rate on the date of receipt. The above election must be applied consistently to all debt instruments from year to year and may not be changed without the consent of the IRS. Prior to making such an election, a U.S. Holder should consult its own tax advisor.

A U.S. Holder that uses the accrual method of accounting for U.S. federal income tax purposes may recognize exchange gain or loss with respect to accrued interest income on the date the payment of such income is received. The amount of any such exchange gain or loss recognized will equal the difference, if any, between the U.S. Dollar value of the payment in the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, received (based on the U.S. Dollar spot rate for the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on the date such payment is received) with respect to such accrued interest and the U.S. Dollar value of the income inclusion with respect to such accrued interest (computed as determined above). Any such exchange gain or loss will be treated as ordinary income or loss, but generally will not be treated as an adjustment to interest income, and will generally be treated as U.S. source income or loss, respectively.

The Issuer intends to take the position that OID for any accrual period on a Co-Issued Note will be determined in Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, and then translated into U.S. Dollars in the same manner as stated interest accrued on an accrual basis U.S. Holder, as described above. As described above, however, the treatment of Co-Issued Notes issued with OID is subject to uncertainty, and it is possible that different rules would apply. Applying this method, all payments on a Co-Issued Note (other than payments of Qualified Stated Interest) will generally be viewed first as payments of previously-accrued OID (to the extent thereof), with payments attributed last to the earliest-accrued OID, and then as payments of principal. Upon receipt of a payment attributable to OID (whether in connection with a payment of interest or on the sale, exchange, redemption, retirement or other taxable disposition of a Co-Issued Note), a U.S. Holder may recognize exchange gain or loss as described above with respect to accrued interest income. Any such exchange gain or loss will be treated as ordinary income or loss, but generally will not be treated as an adjustment to interest income, and will generally be treated as U.S. source income or loss, respectively.

Receipt of Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen. Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, received as payment on a Co-Issued Note or on a sale, exchange, redemption, retirement or other taxable disposition of a Co-Issued Note will have a tax basis equal to its U.S. Dollar value at the time such payment is received or at the time of such sale, exchange, redemption, retirement or other taxable disposition, as the case may be. Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, that are purchased will generally have a tax basis equal to the U.S. Dollar value of the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on the date of purchase. Any exchange gain or loss recognized on a sale, exchange, redemption, retirement or other taxable disposition of the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen (including their use to purchase Co-Issued Notes or upon exchange

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918138
Footnote Exhibits - Page 4918

for U.S. Dollars, as applicable, will be ordinary income or loss and will generally be treated as U.S. source income or loss, respectively.

Foreign Currency Gain or Loss on Purchase or Disposition. A U.S. Holder that purchases the Co-Issued Notes with Euros, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, generally will recognize exchange gain or loss in an amount equal to the difference (if any) between the U.S. Dollar fair market value of the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, used to purchase the Co-Issued Notes determined at the spot rate of exchange in effect on the date of purchase of the Co-Issued Notes and such U.S. Holder's tax basis in the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable. If a U.S. Holder receives Euros, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on a sale, exchange, redemption, retirement or other taxable disposition of a Co-Issued Note, the amount realized will be based on the U.S. Dollar value of the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on the date the payment is received or the date of disposition of the Co-Issued Note. Any gain or loss realized upon the sale, exchange, redemption, retirement or other taxable disposition of a Co-Issued Note that is attributable to fluctuations in currency exchange rates will be exchange gain or loss. Any gain or any loss attributable to fluctuations in currency exchange rates will equal the difference between the U.S. Dollar value of the principal amount of the Co-Issued Note, determined on the date such payment is received or such Co-Issued Note is disposed based on the U.S. Dollar spot rate for the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on such date and the U.S. Dollar value of principal amount of such Co-Issued Note, determined on the date the U.S. Holder acquired such Co-Issued Note based on the U.S. Dollar spot rate for the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on such date. Such exchange gain or loss will be recognized only to the extent of the total gain or loss realized by the U.S. Holder on the sale, exchange, redemption, retirement or other taxable disposition of such Co-Issued Note. Any exchange gain or loss will be treated as ordinary income or loss, but generally will not be treated as an adjustment to interest income, and will generally be treated as U.S. source income or loss, respectively.

As a result of the uncertainty regarding the U.S. federal income tax consequences to U.S. Holders with respect to the Co-Issued Notes and the complexity of the foregoing rules, each U.S. Holder of a Co-Issued Note is urged to consult its own tax advisor regarding the U.S. federal income tax consequences to the Holder of the purchase, ownership and disposition of such Co-Issued Note.

Tax Treatment of U.S. Holders of Issuer Notes

Investment in a Passive Foreign Investment Company. The Issuer will constitute a passive foreign investment company ("PFIC") for U.S. Holders of Issuer Notes (other than certain U.S. Holders that are subject to the rules pertaining to a controlled foreign corporation with respect to the Issuer, described below) in a PFIC. In general, a U.S. Holder of a PFIC may desire to make an election to treat the Issuer as a qualified electing fund ("QEF") with respect to such U.S. Holder. Generally, a QEF election should be made with the filing of a U.S. Holders federal income tax return for the first taxable year for which it holds the Issuer Notes. If a timely QEF election is made for the Issuer, an electing U.S. Holder will be required to include in gross income (i) ordinary income (ii) any capital gain, (iii) the holder's pro rata share of the Issuer's ordinary earnings and (iv) long-term capital gain, (v) the holder's pro rata share of the Issuer's net capital gain, whether or not distributed and (vi) U.S. Dollars using the average U.S. Dollar exchange rate for the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, for the Issuer's taxable year. For purposes of calculating the income of the Issuer, the deduction for interest paid to certain related parties may be deferred and ultimately denied. Related parties generally include a person owning more than 50% of the aggregate value of all Classes of Notes treated as equity of the Issuer (with special rules for partnerships and any real estate investment trust that treats the Issuer as a

Confidential Treatment Requested by Goldman Sachs QS MSS-E-00198139
Footnote Exhibits - Page 4919

848

taxable REIT subsidiary. A U.S. Holder will not be eligible for the dividends received deduction with respect to such income or gain. In addition, any losses of the Issuer in a taxable year will not be available to such U.S. Holder and may not be carried back or forward in computing the Issuer's ordinary earnings and net capital gain in other taxable years. An amount included in an eligible U.S. Holder's gross income should be treated as income from sources outside the United States for U.S. foreign tax credit limitation purposes. However, if U.S. Holders collectively own (directly or constructively) 95% or more (measured by vote or value) of the Issuer Notes, such amount will be treated as income from sources within the United States for such purposes to the extent that such amount is attributable to income of the Issuer from sources within the United States. If applicable to a U.S. Holder of Issuer Notes, the rules pertaining to a controlled foreign corporation, discussed below, generally override those pertaining to a PFIC with respect to which a QEF election is in effect.

In certain cases in which a QEF does not distribute all of its earnings in a taxable year, U.S. shareholders may also be permitted to elect to defer payment of some or all of the taxes on the QEF's income subject to an interest charge on the deferred amount. As a result, the issuer may have in any given year substantial amounts of earnings for U.S. federal income tax purposes that are not distributed on the Issuer Notes. Thus, absent an election to defer payment of taxes, U.S. Holders that make a QEF election with respect to the Issuer may owe tax on significant "phantom" income.

Moreover, there is no direct authority dealing with the tax treatment of financial instruments like the Credit Default Swap. The Issuer intends to treat the Credit Default Swap as a "total return swap" for U.S. federal income tax purposes. In which case, the Issuer's earnings for any period would be determined by taking into account the Credit Default Swap payments to the Issuer attributable to that period. In a statement in its preamble to recently proposed guidance regarding the tax accounting for contingent nonperiodic payments under notional principal contracts, the U.S. Department of Treasury indicated that certain persons, such as the Issuer, would be required under current law to take such payments into account for income tax purposes over the life of the contract under a reasonable amortization method. Although the application of this rule to the Credit Default Swap is not entirely clear, the income of the Issuer may be determined by taking into account an adjustment for any such contingent payments which the Issuer may be required to make under the Credit Default Swap. It is possible, however, that a Credit Default Swap could be characterized for tax purposes as an option written by the Issuer. Because payments received for writing an option are generally taken into account only upon the termination of the transaction, characterizing the Credit Default Swap as an option may considerably increase the Issuer's interest income, as determined for U.S. federal income tax purposes, into one or more taxable periods, which may result in the recognition of income in excess of any cash distributed on the Issuer Notes by the Issuer. U.S. Holders of the Issuer Notes should consult their tax advisors regarding the U.S. federal income tax consequences of holding any of the Issuer Notes.

The Issuer will provide, upon request, all information and documentation that a U.S. Holder making a QEF election is required to obtain for U.S. federal income tax purposes.

A U.S. Holder of Issuer Notes (other than certain U.S. Holders that are subject to the rules pertaining to a controlled foreign corporation with respect to the Issuer, described below) that does not make a timely QEF election will be required to report any gain on disposition of any Issuer Notes as if it were an excess distribution, rather than capital gain, and to compute the tax liability on such gain and any excess distribution received with respect to the Issuer Notes as if such item had been earned ratably over each day in the U.S. Holder's holding period (or a portion thereof) for the Issuer Notes. The U.S. Holder will be subject to tax on such item at the highest ordinary income tax rate for each taxable year, other than the current year of the U.S. Holder, in which the items were treated as having been earned ratably, regardless of the rate otherwise applicable to the U.S. Holder. Further, such U.S. Holder will also be liable for an additional tax equal to the interest on the tax liability attributable to income allocated to prior years as if such liability had been due with respect to each such prior year. For purposes of the rules, gifts, exchanges pursuant to corporate reorganizations and use of the Issuer Notes as security for a loan may be treated as a taxable disposition of the Issuer Notes. Very generally, an "excess distribution" is the amount by which distributions during a taxable year with respect to an Issuer Note exceed 25% of the average amount of distributions in respect thereof during the three preceding taxable years (or, if shorter,
the U.S. Holder's holding period for the Issuer Note. In addition, a stepped-up basis in the Issuer Note upon the death of an individual U.S. Holder may not be available.

In many cases, application of the tax on gain on disposition and receipt of excess distributions will be substantially more onerous than the treatment applicable if a timely QEF election is made. ACCORDINGLY, U.S. HOLDERS OF ISSUER NOTES SHOULD CONSIDER CAREFULLY WHETHER TO MAKE A QEF ELECTION WITH RESPECT TO THE ISSUER NOTES AND THE CONSEQUENCES OF NOT MAKING SUCH AN ELECTION.

Furthermore, in order to avoid the application of the PFIC rules, each U.S. Holder of a Note should consider making a qualified electing fund election on a "protective" basis (although such protective election may not be respected by the IRS because current regulations do not specifically authorize that particular protective election). Further, U.S. Holders of any Class of Notes that may be recharacterized as equity in the Issuer should consult with their own tax advisors with respect to whether, if they owned equity in the Issuer, they would be required to file information returns in accordance with sections 6018, 6038B, and 6046 of the Code (and, if so, whether they should file such returns on a protective basis).

Investment in a Controlled Foreign Corporation. The Issuer may be classified as a controlled foreign corporation ("CFC"). In general, a foreign corporation will be classified as a CFC if more than 50% of the shares of the corporation, measured by reference to combined voting power or value, is owned (actually or constructively) by "U.S. Shareholders". A U.S. Shareholder, for this purpose, is any U.S. person that possesses (actually or constructively) 10% or more of the combined voting power (generally the right to vote for directors of the corporation) of all classes of shares of a corporation. Although Issuer Notes do not vote for directors of the Issuer, it is possible that the IRS would assert that the Issuer Notes are de facto voting securities and that U.S. Holders possessing (actually or constructively) 10% or more of the total stated amount of outstanding Issuer Notes are U.S. Shareholders. If this argument were successful and Issuer Notes representing more than 50% of the voting power or value of the Issuer's equity are owned (actually or constructively) by such U.S. Shareholders, the Issuer would be treated as a CFC.

If the Issuer were treated as a CFC, a U.S. Shareholder of the Issuer would be treated, subject to certain exceptions, as receiving a deemed dividend at the end of the taxable year of the Issuer in an amount equal to that person's pro rata share of the subpart F income (as defined below) of the Issuer. Such deemed dividend would be treated as income from sources within the United States for U.S. foreign tax credit limitation purposes to the extent that it is attributable to income of the Issuer from sources within the United States. Among other items, and subject to certain exceptions, subpart F income includes dividends, interest, annuities, gains from the sale or exchange of shares and securities, certain gains from commodities transactions, certain types of insurance income and income from certain transactions with related parties. It is likely that, if the Issuer were to constitute a CFC, all or most of its income would be subpart F income and, in general, if the Issuer's subpart F income exceeds 70% of its gross income, the entire amount of the Issuer's income will be subpart F income. For purposes of calculating the income of the Issuer, the deduction for interest paid to certain related parties may be deferred and ultimately denied. Related parties generally include a person owning more than 50% of the aggregate value of all Classes of Notes treated as equity of the Issuer (with special rules for partnerships) and any real estate investment trust that treats the Issuer as a taxable REIT subsidiary. In addition, special rules apply to determine the appropriate exchange rate to be used to translate such amounts treated as a dividend and the amount of any foreign currency gain or loss with respect to distributions of previously taxed amounts attributable to movements in exchange rates between the times of deemed and actual distributions. U.S. Holders should consult their tax advisors regarding these special rules.

If the Issuer were treated as a CFC, a U.S. Shareholder of the Issuer which made a QEF election with respect to the Issuer would be taxable on the subpart F income of the Issuer under rules described in the preceding paragraph and not under the QEF rules previously described. As a result, to the extent subpart F income of the Issuer includes net capital gains, such gains will be treated as ordinary income of the U.S. Shareholder under the CFC rules, notwithstanding the fact that the character of such gains generally would otherwise be reserved under the QEF rules.
Furthermore, if the issuer were treated as a CPC and a U.S. Holder were treated as a U.S. Shareholder therein, the issuer would not be treated as a PFIC or a QEF with respect to such U.S. Holder for the period during which the issuer remained a CPC and such U.S. Holder remained a U.S. Shareholder therein (the "qualified portion" of the U.S. Holder's holding period for the Issuer Notes). If the qualified portion of such U.S. Holder's holding period for the Issuer Notes subsequently ceased (either because the issuer ceased to be a CPC or the U.S. Holder ceased to be a U.S. Shareholder), then solely for purposes of the PFIC rules, such U.S. Holder's holding period for the Issuer Notes would begin as beginning the first day following the end of such qualified portion, unless the U.S. Holder had owned any of such Class of Issuer Notes for any period of time prior to such qualified portion and had not made a QEF election with respect to the Issuer. In that case, the issuer would again be treated as a PFIC which is not a QEF with respect to such U.S. Holder and the beginning of such U.S. Holder's holding period for the Issuer Notes would continue to be the date upon which such U.S. Holder acquired such Issuer Notes, unless the U.S. Holder made an election to recognize gain with respect to such Issuer Notes and a QEF election with respect to the Issuer.

Credit Default Swap, Basis Swap and Collateral Put Agreement. The IRS may argue that the issuer does not own the Collateral Securities because the Credit Default Swap, the Basis Swap and the Collateral Put Agreement transfer the benefits and burdens of the ownership of the Collateral Securities to Goldman Sachs. Under such characterization, the issuer would hold an obligation of Goldman Sachs to pay to the issuer principal equal to the par value of the Collateral Securities and interest equal to the excess, if any, of interest payments on the Notes and the interest received on the Collateral Securities. Thus, under the PFIC or CFC rules discussed above, the timing of the income that a U.S. Holder reports may differ from the timing of such income if the Credit Default Swap, the Basis Swap and the Collateral Put Agreement are respected. Alternatively, the IRS could argue that the Credit Default Swap, the Basis Swap and the Collateral Put Agreement create a contingent debt obligation subject to the non-contingent bond method. Under such characterization, the issuer generally will have a basis in the contingent debt obligation equal to the cost of such obligation to the issuer (increased by OID accrued with respect to such obligation (determined without regard to adjustments made to reflect the difference between actual and projected payments), and (ii) reduced by the amount of any non-contingent payments and the projected amount of any contingent payments previously made on such obligation. Any gain recognized on the sale, exchange, redemption, retirement or other taxable disposition of the obligation will be treated as ordinary income. Further, in such a case, any loss will be treated as ordinary loss to the extent of prior interest inclusions with respect to the contingent debt obligation, reduced by the total net negative adjustments that the Issuer has taken into account as a deduction with respect to such obligation; any remaining loss will be a capital loss. This characterization would affect the timing and character of the income that a U.S. Holder reports. U.S. Holders where the Issuer Notes should consult their own tax advisors regarding the tax issues associated with the Credit Default Swap, the Basis Swap and the Collateral Put Agreement.

Distributions on the Issuer Notes. The treatment of actual distributions of cash on each Class of Issuer Notes, in very general terms, will vary depending on whether a U.S. Holder has made a timely QEF election as described above. See "—Investment in a Passive Foreign Investment Company." If a timely QEF election has been made, distributions should be allocated first to amounts previously taxed pursuant to the QEF election (or pursuant to the CFC rules, if applicable) and to this extent will not be taxable to U.S. Holders. Distributions in excess of amounts previously taxed pursuant to a QEF election (or pursuant to the CFC rules, if applicable) will be taxable to U.S. Holders as ordinary income upon receipt to the extent of any remaining amounts of unrealized capital gains and any remaining amounts of unrealized earnings and profits of the Issuer. Distributions in excess of any current and accumulated earnings and profits will be treated first as a non-taxable reduction to the U.S. Holder's tax basis for such Issuer Notes to the extent thereof and then as capital gains.

In the event that a U.S. Holder does not make a timely QEF election, then except to the extent that distributions may be attributable to amounts previously taxed pursuant to the CFC rules, some or all of the distributions with respect to the Issuer Notes may constitute excess distributions, taxable as previously described. See "—Investment in a Passive Foreign Investment Company." In that event,
Footnote Exhibits - Page 4922

except to the extent that distributions may be attributable to amounts previously taxed to the U.S. Holder pursuant to the CPC rules or are treated as excess distributions, distributions on the Issuer Notes generally would be treated as dividend income for U.S. Federal income tax purposes. However, if U.S. Holders collectively own directly or constructively 50% or more (measured by vote or value) of the Class of Issuer Notes, a percentage of the dividend income equal to the proportion of the Issuer's earnings and profits from sources within the United States generally will be treated as income from sources within the United States for such purposes.

Distributions paid in Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, will be translated into a U.S. Dollar amount based on the spot rate of exchange in effect on the date of receipt whether or not the payment is converted into U.S. Dollars at that time. A U.S. Holder will recognize exchange gain or loss with respect to distributions of previously taxed amounts attributable to movements in exchange rates between the times of the deemed distributions and actual distributions, and any such exchange gain or loss will be treated as ordinary income from the same source as the associated income inclusion. The tax basis of the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, received by a U.S. Holder generally will equal the U.S. Dollar value of the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, determined at the spot rate of exchange in effect on the date the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, are received, regardless of whether the payment is converted into U.S. Dollars at that time. Any gain or loss recognized on a subsequent conversion of the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, for U.S. Dollars, in an amount equal to the difference between the U.S. Dollars received and the U.S. Holder's tax basis in the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, generally will be U.S. source ordinary income or loss.

Purchase or Disposition of the Issuer Notes. A U.S. Holder that purchases the Issuer Notes with Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, generally will recognize U.S. source ordinary income or loss in an amount equal to the difference (if any) between the U.S. Dollar fair market value of the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, used to purchase the Issuer Notes determined at the spot rate of exchange in effect on the date of purchase of the Issuer Notes and such U.S. Holder's tax basis in the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable. In general, a U.S. Holder of an Issuer Note will recognize a gain or loss upon the sale, exchange, redemption, retirement or other taxable disposition of an Issuer Note equal to the difference between the amount realized and such U.S. Holder's adjusted tax basis in the Issuer Note. Except as discussed below (or if the applicable Class of Issuer Notes were characterized as a contingent debt instrument), such gain or loss will be a capital gain or loss and will be long-term capital gain or loss if the U.S. Holder held such Class of Issuer Notes for more than one year at the time of the disposition. In certain circumstances, U.S. Holders who are individuals may be entitled to preferential treatment for net long-term capital gains; however, the ability of a U.S. Holder to offset capital losses against ordinary income is limited. Any gain or loss recognized by a U.S. Holder on the sale, exchange, redemption, retirement or other taxable disposition of an Issuer Note (other than, in the case of a U.S. Holder treated as a "U.S. Shareholder", any such gain characterized as a dividend, as discussed below) generally will be treated as from sources within the United States.

Initially, a U.S. Holder's tax basis for an Issuer Note will equal the cost of such Issuer Note to such U.S. Holder. The cost of an Issuer Note to a U.S. Holder will be the U.S. Dollar value of the Euro, Sterling, Canadian Dollar, Australian Dollar, New Zealand Dollars or Yen purchase price, as applicable, based on the spot rate of exchange in effect on the date of purchase. Such basis will be increased by amounts taxable to such U.S. Holder by virtue of a QEF election, or by virtue of the CPC rules, as applicable, and decreased by actual distributions from the Issuer that are deemed to consist of such dividends, as applicable, until such time as an actual distribution on the Issuer Note is received. Such basis will be decreased by the amount of any loss recognized by the U.S. Holder on the taxable disposition of such Issuer Note.
Footnote Exhibits - Page 4923

previously taxed amounts or are treated as a non-taxable reduction to the U.S. Holder’s tax basis for such Issuer Note (as described above). If a U.S. Holder receives Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on the sale or other taxable disposition of an Issuer Note, the amount realized in U.S. Dollars generally will be based on the spot rate of exchange in effect on the date of the sale or other taxable disposition.

If a U.S. Holder does not make a timely QEF election as described above, any gain realized on the sale, exchange, redemption, retirement or other taxable disposition of an Issuer Note (or any gain deemed to accrue prior to the time a non timely QEF election is made) will be taxed as ordinary income and subject to an additional tax reflecting a deemed interest charge under the special tax rules described above. See “Investment in a Passive Foreign Investment Company.”

Subject to a special exception applicable to individuals, if the Issuer were treated as a CFC and a U.S. Holder were treated as a “U.S. Shareholder” therein, any gain realized by such U.S. Holder upon the disposition of Issuer Notes, other than gain constituting an excess distribution under the RRPC rules, if applicable, would be treated as ordinary income to the extent of the U.S. Holder’s share of the current or accumulated earnings and profits of the Issuer. In this regard, earnings and profits would not include any amounts previously taxed pursuant to a timely QEF election or pursuant to the CFC rules, as applicable.

Transfer Reporting Requirements

A U.S. Holder of Issuer Notes that owns (actually or constructively) at least 10% by vote or value of the Issuer (and each officer or director of the Issuer that is a U.S. citizen or resident) may be required to file an information return on IRS Form 5471. A U.S. Holder of Issuer Notes generally is required to provide additional information regarding the Issuer annually on IRS Form 5471 if it owns (actually or constructively) more than 50% by vote or value of the Issuer. U.S. Holders should consult their tax advisors regarding whether they are required to file IRS Form 5471.

A U.S. Person that purchases the Issuer Notes for cash will be required to file a Form 926 or a similar form with the IRS if (i) such person owns, directly or by attribution, immediately after the transfer at least 10% by voting power or value of the Issuer or (ii) if the transfer, when aggregated with all transfers made by such person (or any related person) within the preceding 12 month period, exceeds U.S.$100,000. In the event a U.S. Holder fails to file any such required form, the U.S. Holder could be required to pay a penalty equal to 10% of the gross amount paid for such Issuer Notes subject to a maximum penalty of U.S.$100,000, except in cases involving intentional disregard. U.S. Persons should consult their tax advisors with respect to this or any other reporting requirement that may apply with respect to their acquisition of the Issuer Notes.

Tax Return Disclosure and Investor List Requirements

Any person that files a U.S. federal income tax return or U.S. federal information return and participates in a reportable transaction in a taxable year is required to disclose certain information on IRS Form 8889 (or its successor form) attached to such person’s U.S. tax return for such taxable year and also file a copy of such form with the IRS’s Office of Tax Shelter Analysis and to retain certain documents related to the transaction. In addition, under these regulations, under certain circumstances, certain organizers and sellers of a reportable transaction will be required to maintain lists of participants in the transaction containing identifying information, retain certain documents related to the transaction, and furnish those lists and documents to the IRS upon request. There are significant penalties for failure to comply with these disclosure and list-keeping requirements. The definition of reportable transaction is highly technical. However, in very general terms, a transaction may be a “reportable transaction” if, among other things, it is offered under conditions of confidentiality or if it results in the claiming of a loss for U.S. federal income tax purposes in excess of certain threshold amounts.

Confidential Treatment Requested by Goldman Sachs

CS M83-E-001918144
Footnote Exhibits - Page 4924

In this regard, in order to prevent the transactions described herein from being treated as offered under conditions of confidentiality, the issuer and the Holders and beneficial owners of the Notes (and each of their respective employees, representatives or other agents) may disclose to any and all persons, without limitation of any kind, the U.S. tax treatment and U.S. tax structure of the transactions described herein and all matters of any kind (including opinions of other tax analysts) that are provided to them relating to such U.S. tax treatment and U.S. tax structure. However, any such disclosure of the tax treatment, tax structure and other tax-related materials shall not be made for the purpose of offering to sell the Notes offered hereby or soliciting an offer to purchase any such Notes. For purposes of this paragraph, the terms “tax treatment” and “tax structure” have the meaning given to such terms under Treasury regulation section 1.6011-4(c) and applicable state or local tax law. In general, the tax treatment of a transaction is the purported or claimed U.S. tax treatment of the transaction under applicable U.S. federal, state or local tax law, and the tax structure of a transaction is any fact that may be relevant to understanding the purported or claimed U.S. tax treatment of the transaction under applicable U.S. federal, state or local tax laws.

In addition, under these Treasury regulations, if the issuer participates in a reportable transaction, a U.S. Holder of the Issuer Notes that is a “reporting shareholder” of the Issuer will be treated as participating in the transaction and will be subject to the rules described above. Although most of the Issuer's activities generally are unlikely to give rise to reportable transactions, it is nonetheless possible that the Issuer will participate in certain types of transactions that could be treated as reportable transactions. A U.S. Holder of Issuer Notes will be treated as a reporting shareholder of the Issuer if (1) such U.S. Holder owns 10% or more of the Issuer Notes and makes a QEF election with respect to the Issuer or (2) the Issuer is treated as a CFC and such U.S. Holder is a U.S. Shareholder (as defined above) of the Issuer.

Prospective investors in the Notes should consult their own tax advisors concerning any possible disclosure obligations with respect to their ownership or disposition of the Notes in light of their particular circumstances.

Tax Treatment of Non-U.S. Holders of Notes

In general, payments on the Notes to a Holder that is not, for U.S. federal income tax purposes, a U.S. Holder (a “non-U.S. Holder”) and gain realized on the sale, exchange, redemption, retirement or other taxable disposition of the Notes by a non-U.S. Holder, will not be subject to U.S. federal income or withholding tax, unless (i) such income is effectively connected with a trade or business conducted by such non-U.S. Holder in the United States, or (ii) in the case of gain, such non-U.S. Holder is a non-resident alien individual who holds the Notes as a capital asset and is present in the United States for more than 183 days in the taxable year of the sale, exchange, redemption, retirement or other taxable disposition and certain other conditions are satisfied.

Information Reporting and Backup Withholding

Under certain circumstances, the Code requires “information reporting”, and may require “backup withholding” with respect to certain payments made on the Notes and the payment of the proceeds from the disposition of the Notes. Backup withholding generally will not apply to corporations, tax-exempt organizations, qualified pension and profit sharing trusts, and individual retirement accounts. Backup withholding will apply to a U.S. Holder if the U.S. Holder fails to provide certain identifying information (such as the U.S. Holder’s taxpayer identification number) or otherwise comply with the applicable requirements of the backup withholding rules. The application for exemption from backup withholding for a U.S. Holder is available by providing a properly completed IRS Form W-8.

A non-U.S. Holder of the Notes generally will not be subject to these information reporting requirements or backup withholding with respect to payments of interest or distributions on the Notes if (1) it certifies to the Trustee or the Issuing and Paying Agent, as applicable, its status as a non-U.S. Holder under penalties of perjury on the appropriate IRS Form W-8, and (2) in the case of a non-U.S.
Footnote Exhibits - Page 4925

Holder that is a “nonwithholding foreign partnership”, “foreign simple trust” or “foreign grantor trust” as defined in the applicable Treasury regulations, the beneficial owners of such non-U.S. Holder also certify to the Trustee or the Issuing and Paying Agent, as applicable, their status as non-U.S. Holders under penalties of perjury on the appropriate IRS Form W-8.

The payments of the proceeds from the disposition of a Note by a non-U.S. Holder to or through the U.S. office of a broker generally will not be subject to information reporting and backup withholding if the non-U.S. Holder certifies its status as a non-U.S. Holder (and, if applicable, its beneficial owners also certify their status as non-U.S. Holders) under penalties of perjury on the appropriate IRS Form W-8, satisfies certain documentary evidence requirements for establishing that it is a non-U.S. Holder or otherwise establishes an exemption. The payment of proceeds from the disposition of a Note by a non-U.S. Holder to or through a non-U.S. office of a non-U.S. broker will not be subject to backup withholding or information reporting unless the non-U.S. broker has certain specific types of relationships to the United States, in which case the treatment of such payment for such purposes will be as described in the following sentence. The payment of proceeds from the disposition of a Note by a non-U.S. Holder to or through a non-U.S. office of a U.S. broker or to or through a non-U.S. broker with certain specific types of relationships to the United States generally will not be subject to backup withholding but will be subject to information reporting unless the non-U.S. Holder certifies its status as a non-U.S. Holder (and, if applicable, its beneficial owners also certify their status as non-U.S. Holders) under penalties of perjury or the broker has certain documentary evidence in its files as to the non-U.S. Holder’s foreign status and the broker has no actual knowledge to the contrary.

Backup withholding is not an additional tax and may be refunded (or credited against the U.S. Holder’s or non-U.S. Holder’s U.S. federal income tax liability, if any), provided that certain required information is furnished to the IRS. The information reporting requirements may apply regardless of whether withholding is required.

ERISA CONSIDERATIONS

The advice below was not written and is not intended to be used and cannot be used by any taxpayer for purposes of avoiding United States federal income tax penalties that may be imposed. The advice is written to support the promotion or marketing of the transaction. Each taxpayer should seek advice based on the taxpayer's particular circumstances from an independent tax advisor.

The foregoing disclaimer is provided to satisfy obligations under Circular 230 governing standards of practice before the Internal Revenue Service.

The United States Employee Retirement Income Security Act of 1974, as amended ("ERISA"), imposes certain requirements on "employee benefit plans" (as defined in and subject to Section 3(3) of ERISA), including entities such as collective investment funds and separate accounts whose underlying assets include the assets of such plans and on those persons who are fiduciaries with respect to such plans. Investments by the plans are subject to ERISA’s general fiduciary requirements, including the requirement of investment prudence and diversification and the requirement that a plan’s investments be made in accordance with the documents governing the plan. The prudence of a particular investment must be determined by the responsible fiduciary of a plan by taking into account the plan’s particular circumstances and all of the facts and circumstances of the investment including, but not limited to, the matters discussed above under "Risk Factors" and the fact that in the future there may be no market in which such prudent investments will be able to sell or otherwise dispose of the Notes.

Section 405 of ERISA and Section 4975 of the Code prohibit certain transactions involving the assets of plans and arrangements subject to ERISA (as well as those plans that are not subject to ERISA but which are subject to Section 4975 of the Code, such as individual retirement accounts (the "Plans"))

Confidential Treatment Requested by Goldman Sachs GS MBS-E-001918146
Footnote Exhibits - Page 4926

and certain persons (referred to as "parties in interest" or "disqualified persons") having certain relationships to such Plans, unless a statutory or administrative exemption is applicable to the transaction. A party in interest or disqualified person who engages in a prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and Section 4975 of the Code.

The U.S. Department of Labor has promulgated regulations, 29 C.F.R. Section 2510.3-101 (the "Plan Asset Regulations"), describing what constitutes the assets of a Plan with respect to the Plan's investment in an entity for purposes of certain provisions of ERISA and Section 4975 of the Code, including the fiduciary responsibility provisions of Title I of ERISA and Section 4975 of the Code. Under the Plan Asset Regulations, if a Plan invests in an "equity interest" of an entity that is neither a "publicly offered security" nor a security issued by an investment company regulated under the Investment Company Act, the Plan's assets include both its equity interest and an undivided interest in each of the entity's underlying assets, unless it is established that the entity is an "operating company" or, as further discussed below, that equity participation in the entity by "benefit plan investors" is not "significant."

Prohibited transactions within the meaning of Section 406 of ERISA or Section 4975 of the Code may arise if the Notes are acquired with the assets of a Plan with respect to which the Issuer, the initial Purchaser, the Trustee, the Issuing and Paying Agent, any seller of Collateral Securities to the Issuer, the Protection Buyer, the Bond Sweep Counterparty, the Collateral Put Provider or any of their respective Affiliates, is a party in interest or a disqualified person. Certain exemptions from the prohibited transaction provisions of Section 406 of ERISA and Section 4975 of the Code may be applicable, however, depending in part on the type of Plan fiduciary making the decision to acquire a Note and the circumstances under which such decision is made. Included among these exemptions are Prohibited Transaction Class Exemption ("PTCE") 91-38 (relating to investments by bank collective investment funds), PTCE 84-14 (relating to transactions effected by a "qualified professional asset manager"), PTCE 95-1 (relating to investments by insurance company pooled separate accounts), PTCE 95-23 (relating to transactions effected by a "customer-centric asset manager"), and Prohibited Transaction Class Exemption ("PTCE") 96-1 (relating to transactions effected by a "qualified professional asset manager"). There is also a statutory exemption that may be available under Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code to a party in interest that is a service provider to a Plan investing in the Securities for adequate consideration, provided that the investment is not (i) a security issued by a Plan's assets used to acquire the Securities or an affiliate of such fiduciary or (ii) an affiliate of the employer sponsoring the Plan (the "Service Provider Exemption"). Adequate consideration means that market value as determined in good faith by the Plan fiduciary pursuant to regulations to be promulgated by the U.S. Department of Labor. There can be no assurance that any of these benefits-based exemptions or the Service Provider Exemption will be available with respect to any particular transaction involving the Notes.

Governmental plans and certain church plans, while not subject to the fiduciary responsibility provisions of ERISA or the provisions of Section 4975 of the Code, may nevertheless be subject to state, local, or other federal laws that are substantially similar to the foregoing provisions of ERISA and the Code. Fiduciaries of any such plans should consult their counsel before purchasing any Notes.

Any insurance company proposing to invest assets of its general account in the Notes should consider the extent to which such investment would be subject to the requirements of Title I of ERISA and Section 4975 of the Code in light of the U.S. Supreme Court's decision in John Hancock Mutual Life Insurance Co. v. Harris Trust and Savings Bank, 510 U.S. 88 (1993), and the enactment of Section 431(c) of ERISA on August 26, 1996. In particular, such an insurance company should consider (i) if the exemptive relief granted by the U.S. Department of Labor for transactions involving insurance company general accounts in PTCE 85-60 and (ii) if such exemptive relief is not available, whether its purchase of the Notes will be permissible under the final regulations issued under Section 431(c) of ERISA. The final regulations provide guidance on which assets held by an insurance company constitute "plan assets" for purposes of the fiduciary responsibility provisions of ERISA and Section 4975 of the Code. The regulations do not exempt the assets of insurance company general accounts from treatment

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918147
Footnote Exhibits - Page 4927

as "plan assets" to the extent they support certain participating annuities issued to Plans after December 31, 1999.

The Co-Issued Notes

The Plan Asset Regulations define an "equity interest" as any interest in an entity other than an instrument that is treated as indebtedness under applicable local law and which has no substantial equity features. As noted above in Income Tax Considerations, it is the opinion of tax counsel to the Issuer that the Co-Issued Notes will be treated as debt for U.S. income tax purposes. Although there is little guidance on the subject, at the time of their issuance, the Co-Issued Notes should be treated as indebtedness without substantial equity features for purposes of the Plan Asset Regulations. This determination is based in part upon (i) tax counsel's opinion that the Co-Issued Notes will be classified as debt for U.S. federal income tax purposes when issued and (ii) the traditional debt features of the Co-Issued Notes, including the reasonable expectation of purchasers of the Co-Issued Notes that they will be repaid when due, as well as the absence of conversion rights, warrants and other typical equity features. Based upon the foregoing and other considerations, subject to the considerations described below, the Co-Issued Notes may be purchased by a Plan. Nevertheless, without regard to whether the Co-Issued Notes are considered equity interests, prohibited transactions within the meaning of Section 406 of ERISA or Section 4975 of the Code may arise if the Co-Issued Notes are acquired with the assets of a Plan with respect to which the Issuer, the Initial Purchaser or the Trustee and the Issuing and Paying Agent or in certain circumstances, any of their respective affiliates, is a party in interest or a disqualified person. The Investor-Based Exemptions or the Service Provider Exemption may be available to cover such prohibited transactions.

By its purchase of any Co-Issued Notes, each purchaser and subsequent transferee thereof will be deemed to have represented and warranted, at the time of its acquisition and throughout the period it holds such Co-Issued Note, either that (a) it is neither a Plan nor any entity whose underlying assets include "plan assets" (within the meaning of the Plan Asset Regulations) by reason of such Plan's investment in the entity, nor a governmental, church, non-U.S. or other plan which is subject to any federal, state, local or non-U.S. law that is substantially similar to the provisions of Section 406 of ERISA or Section 4975 of the Code or (b) its purchase, holding and disposition of a Co-Issued Note will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code (or, in the case of a governmental, church, non-U.S. or other plan, a non-exempt violation under any substantially similar law).

The Issuer Notes

Equity participation in the Issuer of the Notes by "benefit plan investors" is "significant" and will cause the assets of the Issuer to be deemed the assets of an investing Plan (in the absence of another applicable Plan Asset Regulations exception) if 25% or more of the value of any Citrus of equity interest in the Issuer is held by "benefit plan investors." Recently, Section 3(24) of ERISA, as amended under the Pension Protection Act of 2006, effectively amended, by statute, the definition of "benefit plan investors" in the Plan Asset Regulations. Employee benefit plans that are not subject to Title I of ERISA and plans that are not subject to Section 4975 of the Code, such as U.S. governmental and church plans or non-U.S. plans, are no longer considered "benefit plan investors." Accordingly, only employee benefit plans subject to Title I of ERISA or Section 4975 of the Code or an entity whose underlying assets include plan assets by reason of such plan's investment in the entity are considered in determining whether investment by "benefit plan investor" represents 25% or more of any class of equity of the Issuer. Therefore, the term "benefit plan investor" includes (a) any employee benefit plan (as defined in Section 3(3) of ERISA) that is subject to the fiduciary responsibility provisions of ERISA, (b) a plan as defined in Section 4975(d)(1) of the Code that is subject to Section 4975 of the Code, (c) any entity whose underlying assets include "plan assets" by reason of any such employee benefit plan's or plan's investment in the entity or (d) as such term is otherwise defined in any regulations promulgated by the U.S. Department of Labor under Section 3(24) of ERISA (collectively, "ERISA Plans").

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918148
Footnote Exhibits - Page 4928

The Issuer Notes would likely be considered to have substantial equity features under the Plan Asset Regulations. In order not to exceed the 25 percent limit referred to above, no ERISA Plans shall be permitted to acquire the Issuer Notes in the initial offering or thereafter. Therefore, the fiduciary responsibility and prohibited transaction provisions of ERISA and Section 4975 of the Code should not be applicable to the Issuer. An unlimited number of other types of employee benefit plans, such as governmental or non-U.S. plans may invest in the Issuer Notes as their investment is disregarded for these purposes.

BY ITS PURCHASE OR HOLDING OF AN ISSUER NOTE, OR ANY INTEREST THEREIN, THE PURCHASER AND/ OR HOLDER THEREOF AND EACH TRANSFEREE WILL BE DEEMED TO HAVE REPRESENTED AND WARRANTED THAT, AT THE TIME OF ITS ACQUISITION, AND THROUGHOUT THE PERIOD THAT IT HOLDS SUCH NOTE OR INTEREST THEREIN, THAT (1) IT IS NOT AN ERISA PLAN AND IF AFTER ITS INITIAL ACQUISITION OF AN ISSUER NOTE OR ANY INTEREST THEREIN, THE INVESTOR DETERMINES, OR IT IS DETERMINED BY ANOTHER PARTY, THAT SUCH INVESTOR IS AN ERISA PLAN, THE INVESTOR WILL DISPOSE OF ALL OF ITS ISSUER NOTES IN A MANNER CONSISTENT WITH THE RESTRICTIONS SET FORTH IN THE INDENTURE, AND (2) IF IT IS A GOVERNMENTAL, CHURCH, NON-U.S. OR OTHER PLAN THAT IS SUBJECT TO ANY FEDERAL, STATE, LOCAL OR NON-U.S. LAW THAT IS SUBSTANTIALLY SIMILAR TO THE PROVISIONS OF TITLE I OF ERISA OR SECTION 4975 OF THE CODE, ITS PURCHASE, HOLDING AND DISPOSITION OF THE ISSUER NOTES WILL NOT CAUSE A NON-EXEMPT VIOLATION OF ANY U.S. FEDERAL, STATE OR LOCAL LAW OR ANY NON-U.S. LAW THAT IS SUBSTANTIALLY SIMILAR TO TITLE I OF ERISA OR SECTION 4975 OF THE CODE AS A RESULT OF THE TRANSACTIONS CONTEMPLATED HEREIN AND (3) IT WILL NOT SELL OR OTHERWISE TRANSFER ANY SUCH NOTE OR INTEREST THEREIN TO ANY PERSON WHO IS UNABLE TO SATISFY THE SAME FOREGOING REPRESENTATIONS AND WARRANTIES.

There can be no assurance that, despite the transfer restrictions relating to purchases by ERISA Plans, ERISA Plans will not in actually own 25% or more of such value.

If for any reason the assets of the Issuer are deemed to be "plan assets" of an ERISA Plan because one or more ERISA Plans is an owner of Issuer Notes (or a Note characterized as an "equity interest" in the Issuer), certain transactions that the Issuer might enter into, or may have entered into, in the ordinary course of its business might constitute non-exempt "prohibited transactions" under Section 406 of ERISA or Section 4975 of the Code and might have to be rescinded at significant cost to the Issuer. The Issuer may be prevented from engaging in certain investments (as not being an investment consistent with the ERISA prudent investment standards) or engaging in certain transactions or free amendments on investments because they might be deemed to cause non-exempt prohibited transactions. It is not clear that Section 404(b) of ERISA, which generally requires that all of the assets of a plan or a plan arrangement subject to ERISA be held in trust and limits delegation of investment management responsibility by fiduciaries of such plans or arrangements, would be satisfied. In addition, it is unclear whether Section 404(b) of ERISA, which generally provides that no fiduciary may maintain the indicia of ownership of any assets of a plan outside the jurisdiction of the district courts of the United States, would be satisfied or any of the exceptions to the requirement set forth in 29 C.F.R. Section 2550.404b-1 would be available.

Any fiduciary of a benefit plan investor or other person who proposes to use assets of any benefit plan investor to offload its purchase of any Note, is in no respect a representation by the Issuer or the Initial Purchaser that such an investment meets all relevant legal requirements with respect to investments by

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918149
benefit plan investors generally or any particular benefit plan investor, or that such an investment is appropriate for benefit plan investors generally or any particular benefit plan investor.

SETTLEMENT AND CLEARING

Global Notes

Upon the issuance of the Global Notes denominated in Dollars, DTC or its custodian will credit, on its internal system, the respective aggregate original principal amount of the individual beneficial interests represented by such Global Notes to the accounts of persons who have accounts with DTC. Upon the issuance of the Global Notes denominated in Approved Currencies other than Dollars, Euroclear or its nominee will credit, on their internal system, the respective aggregate original principal amount of the individual beneficial interests represented by such Global Notes to the accounts of persons who have accounts with Euroclear. Such accounts initially will be designated by or on behalf of the Initial Purchaser. Ownership of beneficial interests in Global Notes denominated in Dollars will be limited to persons who have accounts with DTC or Euroclear, as the case may be, ("participants") or persons who hold interests through participants. Ownership of beneficial interests in a Global Note will be shown on, and the transfer of such ownership will be effected only through, records maintained by DTC or Euroclear, as the case may be, or their nominee (with respect to interests of participants) and the records of participants (with respect to interests of persons other than participants).

With respect to Notes denominated in Dollars, so long as DTC, or its nominee, is the registered owner or Holder of the Global Notes, DTC or such nominee, as the case may be, will be considered the sole owner or Holder of each Class of the Notes represented by such Global Notes for all purposes under the Indenture and the Issuing and Paying Agency Agreement, as applicable, and such Notes. With respect to Notes denominated in Approved Currencies other than Dollars, so long as the Common Depository, or a nominee thereof, is the registered owner or Holder of the Global Notes, the Common Depository or its nominee, as the case may be, will be considered the sole owner or Holder of each Class of the Notes represented by such Global Notes for all purposes under the Indenture and the Issuing and Paying Agency Agreement, as applicable, and such Notes. Unless (a) DTC notifies the Issuers that it is unwilling or unable to continue as depositary for a global note or ceases to be a "Clearing Agency" registered pursuant to the provisions of Section 17A of the Exchange Act, or (b) Euroclear notifies the Issuers that it is unwilling or unable to continue as depositary for a global note or ceases to be a Clearing Agency, owners of the beneficial interests in the Global Notes will not be entitled to have any portion of such Global Notes registered in their names, will not receive or be entitled to receive physical delivery of Notes in certificated form and will not be considered to be the owners or Holders of any Notes under the Indenture or the Issuing and Paying Agency Agreement, as applicable. The owner of a beneficial interest in a Global Note will also be entitled to receive a certificated Note in exchange for such interest if an Event of Default has occurred and is continuing. In addition, no beneficial owner of an interest in the Global Notes will be able to transfer that interest except in accordance with DTC's applicable procedures (in addition to those under the Indenture referred to herein and, if applicable, those of Euroclear and Clearstream).

Investors may hold their interests in Regulation S Global Notes directly through Clearstream or Euroclear, if they are participants in these systems, or indirectly through organizations that are participants in these systems. With respect to Notes denominated in Dollars, Clearstream and Euroclear will hold interests in the Regulation S Global Notes on behalf of their participants through their respective depositaries, which in turn will hold the interests in the Regulation S Global Notes in customers' securities accounts in the depositaries' names on the books of DTC. Investors may hold their interests in a Rule 144A Global Note directly through DTC if they are participants in the system, or indirectly through organizations that are participants in the system.

With respect to Notes denominated in Dollars, payments of the principal of and interest or distributions on such Global Notes will be made to DTC or its nominee, as the registered owner thereof.
With respect to Notes denominated in an Approved Currency other than Dollars, payments of the principal of and interest or distributions on such Global Notes will be made to the Common Depository, as the registered owner thereof. None of the Issuers, the Trustee nor any paying agent will have any responsibility or liability for any aspect of the records relating to or payments or distributions made on account of beneficial ownership interests in the Global Notes or for any notice permitted or required to be given to Holders of Notes or any consent given or actions taken by DTC or Euroclear, as applicable, as Holder of Notes. The Issuers expect that DTC or Euroclear or their nominee, as the case may be, upon receipt of any payment of principal, interest or distributions, as the case may be, in respect of a Global Note representing any Notes held by it or its nominee, will immediately credit participants’ accounts, in the currency in which the Note is denominated, with payments in amounts proportionate to their respective interests in the principal amount of such Note in global form as shown on the records of DTC or Euroclear, as the case may be, or a nominee thereof. The Issuers also expect that payments by participants to owners of interests in such Global Note held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants. Payments of the principal of and interest or distributions on the Regulation S Global Notes denominated in Dollars will be made to Clearstream or Euroclear, as applicable, as indirect participants in DTC, in accordance with their respective rules and operating procedures. Payment of the principal of and interest or distributions on the Regulation S Global Notes denominated in Approved Currencies other than Dollars will be made directly to the nominee of Clearstream or Euroclear, as applicable, in accordance with their respective rules and operating procedures.

Transfers between participants of the same Clearing Agency will be effected in the ordinary way in accordance with such Clearing Agency’s rules and will be settled in same-day funds. The laws of some jurisdictions require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer beneficial interests in Global Notes to such persons may be limited. Because the Clearing Agencies can only act on behalf of participants, who in turn act on behalf of indirect participants and certain banks, the ability of a person having a beneficial interest in Global Notes to pledge its interest to persons or entities that do not participate in the DTC or Euroclear system, or otherwise take action in respect of its interest, may be affected by the lack of a physical certificate of the interest. Transfers between participants or account holders in Euroclear and Clearstream will be effected in the ordinary way in accordance with their respective rules and operating procedures.

With respect to Notes denominated in Dollars, subject to compliance with the transfer restrictions applicable to the Notes described above, cross-market transfers between DTC participants, on the one hand, and, directly or indirectly through Euroclear or Clearstream account holders, on the other, will be effected in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by its respective depository; however, these cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in the system in accordance with its rules and procedures and within its established deadlines (Brussels time). Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in a Regulation S Global Note in DTC, and making or receiving payment in accordance with normal procedures for a same-day funds settlement applicable to DTC. Clearstream and Euroclear account holders may not deliver instructions directly to the depositories for Clearstream or Euroclear.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a Global Note from a DTC participant will be credited during the securities settlement processing day (which must be a Business Day for Euroclear or Clearstream, as the case may be) immediately following the DTC settlement date and the credit of any transactions in interests in a Global Note settled during the processing day will be reported to the relevant Euroclear or
Clearstream participant on that day. Cash received in Euroclear or Clearstream as a result of sales of interests in a Global Note by or through a Euroclear or Clearstream participant to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Euroclear or Clearstream cash account only as of the Business Day following settlement in DTC.

DTC has advised the Issuers that it will take any action permitted to be taken by a Holder of the Notes (including the presentation of the applicable Notes for exchange as described below) only at the direction of one or more participants to whose account with DTC interests in a Global Note are credited and only in respect of that portion or number of the aggregate principal amount of the Notes as to which the participant or participants has or have given direction.

The giving of notices and other communications by any Clearing Agency to participants, by participants to persons who hold accounts with them and by such persons to Holders of beneficial interests in a Global Note will be governed by arrangements between them, subject to any statutory or regulatory requirements as may exist from time to time.

DTC has advised the Issuers as follows: DTC is a limited purpose trust company principally located under the laws of the State of New York, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the Uniform Commercial Code and a "Clearing Agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Participants include securities brokers and dealers, banks, trust companies and clearing corporations and may include certain other organizations. Indirect access to the DTC system is available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly ("indirect participants").

Euroclear and Clearstream each hold securities for their customers and facilitate the clearance and settlement of securities transactions through electronic book-entry transfer between their respective accountholders. Indirect access to Euroclear and Clearstream is available to other institutions that clear through or maintain a custodial relationship with an accountholder of either system. Euroclear and Clearstream provide various services including safeguarding, administration, clearance and settlement of internationally-traded securities and securities lending and borrowing. Euroclear and Clearstream also deal with domestic securities markets in several countries through established depositary and custodial relationships. Euroclear and Clearstream have established an electronic bridge between their two systems across which their respective customers may settle trades with each other. Their customers are worldwide financial institutions including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Investors may hold their interests in a RegS Global Note directly through Euroclear or Clearstream if they are accountholders therein ("direct participants") or as indirect participants through organizations that are direct or indirect accountholders in direct participants.

Although the Clearing Agencies have agreed to the foregoing procedures in order to facilitate transfers of interests in Global Notes among participants of the Clearing Agencies, they are under no obligation to perform or continue to perform these procedures, and the procedures may be discontinued at any time. Neither the Issuers, the Trustee nor the Issuing and Paying Agent will have any responsibility for the performance by the Clearing Agencies or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Each Regulation S Global Note denominated in an Approved Currency other than Dollars will have an ISIN and a Common Code and will be registered in the name of ABN AMRO GUTS NOMINEES LIMITED as nominee for ABN AMRO Bank N.V. (London Branch) as common depository for Clearstream and Euroclear, and deposited with the Common Depository.
Each Global Note denominated in Dollars will have a CUSIP number and will be registered in the name of Cede & Co., as nominee of, and deposited with LaSalle Bank National Association, as custodian (the "DTC Custodian") for, DTC. The DTC Custodian and DTC will electronically record the principal amount of the Notes held within the DTC system.

Individual Definitive Securities

If (a) DTC or any successor to DTC advises the Issuer in writing that it is at any time unwilling or unable to continue as a depositary for the reasons described in "—Global Notes" and a successor depositary is not appointed by the Issuer within 90 days, (b) Euroclear or its nominee or any successor to Euroclear or its nominee advises the Issuer in writing that it is at any time unwilling or unable to continue as a depositary for the reasons described in "—Global Notes" and a successor depositary is not appointed by the Issuer within 90 days, (c) as a result of any amendment to or change in the laws or regulations of the Cayman Islands or of any authority therein or thereof having power to tax or in the interpretation or administration of such laws or regulations which become effective on or after the Closing Date, the Issuer or the paying agent is or will be required to make any deduction or withholding from any payment in respect of the Notes which would not be required if the Notes were in definitive form or (d) upon the written request of any beneficial owner of an interest in a Global Note following the occurrence of an Event of Default, the Issuer will issue individual definitive Notes in registered form in exchange for the Global Notes. Upon receipt of such notice from any Clearing Agency, the Issuer will use its best efforts to make arrangements with such Clearing Agency for the exchange of interests in the Global Notes for Individual definitive Notes and cause the requested Individual definitive Notes to be executed and delivered to the Note Registrar or Issuer Note Registrar, as applicable, in sufficient quantities and authenticated by or on behalf of the Trustee or the Issuing and Paying Agent, as applicable, for delivery to Holders of the Notes. Persons exchanging interests in a Global Note for individual definitive Notes will be required to provide to the Trustee or the Issuing and Paying Agent, as applicable, through DTC, Clearstream or Euroclear, (i) written instructions and other information required by the Issuer and the Trustee or the Issuing and Paying Agent, as applicable, to complete, execute and deliver such individual definitive Notes, (ii) in the case of an exchange of an interest in a Rule 144A Global Note, such certification as to "Qualified Institutional Buyer" status, and that such Holder is a Qualified Purchaser, as the Issuer shall require and (iii) in the case of an exchange of an interest in a Regulation S Global Note, such certification as the Issuer shall require as to non-U.S. Person status. In all cases, individual definitive Notes delivered in exchange for any Note in global form or beneficial interests therein will be registered in the name, and issued in denominations in compliance with the minimum denominations specified for the applicable Notes in global form, requested by the applicable Clearing Agency.

Individual definitive Notes will bear, and be subject to, such legend as the Issuer requires in order to assure compliance with any applicable law. Individual definitive Notes will be transferable subject to the minimum denomination applicable to such Notes, in whole or in part, and exchangeable for individual definitive Notes of the same kind at the office of the Trustee or the Issuing and Paying Agent, as applicable, or the office of any transfer agent, upon compliance with the requirements set forth in the Indenture. Individual definitive Notes may be transferred through any transfer agent, upon the delivery and duly completed assignment of such Notes. Upon a partial transfer of any Notes represented by the applicable definitive notes therefor, the Trustee or the Issuing and Paying Agent, as applicable, will issue in exchange therefor the transferred one or more individual definitive Notes representing the amount being so transferred and will issue to the transferor one or more individual definitive Notes representing the remaining amount not being transferred. No service charge will be imposed for any registration of transfer or exchange, but payment of a sum sufficient to cover any tax or other governmental charge may be required. The Holder of a restricted individual definitive Note may transfer such Note, subject to compliance with the provisions of the legend thereon. Upon the transfer, exchange or replacement of Notes bearing the legend, or upon specific request for removal of the legend on a Note, the Issuer will deliver only Notes that bear such legend, or will refuse to remove such legend, as the case may be, unless there is delivered to the Issuer such satisfactory evidence, which may include an opinion of counsel, as may reasonably be required by the Issuer that neither the legend nor the restrictions on

Footnote Exhibits - Page 4933

transfer set forth therein are required to ensure compliance with the provisions of the Securities Act and the Investment Company Act. Payments of principal and interest on individual definitive Notes shall be payable by wire transfer to immediately available funds to an account maintained by the Holder thereof or its nominee or, if appropriate instructions are not received at least fifteen days prior to the relevant Payment Date, by check drawn on a bank and sent by mail to the Registered holder thereof or, for so long as any of the Notes are listed on any stock exchange and the notes of such stock exchange shall so require, at the office of the listing, paying and transfer agent.

TRANSFER RESTRICTIONS

Because of the following restrictions, purchasers are advised to consult legal counsel prior to making any offer, resale, pledge or transfer of the Notes. Any purchase or transfer of the Notes will be subject to the minimum denomination set forth in "Summary—Notes".

Rule 144A Global Notes

Each purchaser of a beneficial interest in a Rule 144A Global Note will be deemed to have represented and agreed with the Issuer as follows:

1. (A) the Issuer is a qualified institutional buyer and a qualified Purchaser, (B) the purchaser is purchasing the Notes for its own account or the account of another qualified Purchaser that is also a qualified institutional buyer as to which the purchaser exercises sole investment discretion, (C) the purchaser and any such account is acquiring the Notes as principal for its own account for investment and not for sale in connection with any distribution thereof, (D) the purchaser and any such account was not formed solely for the purpose of investing in the Notes (except when each beneficial owner of the purchaser or any such account is a qualified Purchaser), (E) to the extent the purchaser (or any account for which it is purchasing the Notes) is a private investment company (as defined in Section 3(a)(11) of the Securities Act) formed on or before April 30, 1996, the purchaser and each such account has received the necessary consent from its beneficial owner, (F) neither the purchaser nor any such account is a pension, profit sharing or other retirement trust fund or plan in which the partners, beneficiaries or participants, as applicable, may designate the particular investments to be made, (G) the purchaser agrees that it and each such account shall not hold such Notes for the benefit of any other Person and shall be the sole beneficial owner thereof for all purposes and that it shall not hold participation interests in the Notes or enter into any other arrangement pursuant to which any other Person shall be entitled to a beneficial interest in the distributions on the Notes, (H) if the Notes purchased directly or indirectly by the purchaser or any account for which it is purchasing the Notes constitute an investment of no more than 40% of the purchaser's and each such account's assets (except when each beneficial owner of the purchaser and each such account is a qualified Purchaser), (I) the purchaser and each such account is purchasing the Notes in a principal amount of not less than the minimum denomination requirement for the purchaser and each such account, (J) the purchaser will provide notice of the transfer restrictions set forth in the Indenture (including the exhibits thereto) to any transferees of its Notes, (K) the purchaser understands and agrees that the Issuer may receive a list of participants in the Notes from one or more book-entry depositories and (L) the purchaser understands and agrees that any purported transfer of the Notes to a purchaser that does not comply with the requirements of this paragraph (I) shall be null and void ab initio.

2. If any U.S. Person that is not both a qualified institutional buyer and a qualified Purchaser at the time it acquires an interest in a Note shall become the beneficial owner of any Note, (any such Person, a "Non-Permitted Holder"), the Trustee or the Issuing and Paying Agent, as applicable, shall, promptly after discovery that such Person is a Non-Permitted Holder inform the Issuer, the Co-Issuer, the Trustee or the Issuing and Paying Agent, as applicable (and notice by the Trustee, the Issuing and Paying Agent or the Co-Issuer to the Issuer, if any of them makes the discovery), send notice to such Non-Permitted Holder demanding that such Non-Permitted Holder transfer its interest to a Person that is not a Non-Permitted Holder within 14 days of the date of such notice. If such Non-Permitted Holder fails to transfer its Notes, the Issuer shall have the right, without further notice to the Non-

Footnote Exhibits - Page 4934

Permitted Holder, to sell such Notes or interest in Notes to a purchaser selected by the Issuer that is not a Non-Permitted Holder on such terms as the Issuer may choose. The Issuer, or the Trustee or the Issuing and Paying Agent, as applicable, acting on behalf of the Issuer, may select the purchaser by soliciting one or more bids from one or more brokers or other market professionals that regularly deal in securities similar to the Notes, and selling such Notes to the highest such bidder. However, the Issuer or the Trustee or the Issuing and Paying Agent, as applicable, may select a purchaser by any other means determined by it in its sole discretion and the Trustee or the Issuing and Paying Agent, as applicable, may, at the expense of the Issuer, engage an independent investment bank to assist in such sale. The Holder of each Note, the Non-Permitted Holder and each other Person in the chain of title from the Holder to the Non-Permitted Holder, by its acceptance of an interest in the Notes, agrees to cooperate with the Issuer and the Trustee or the Issuing and Paying Agent, as applicable, to effect such transfers. The proceeds of such sale, net of any commissions, expenses and taxes due in connection with such sale shall be remitted to the Non-Permitted Holder. The terms and conditions of any sale under this paragraph shall be determined in the sole discretion of the Issuer, and neither the Issuer nor the Trustee or Issuing and Paying Agent, as applicable, shall be liable to any Person having an interest in the Notes sold as a result of any such sale or the exercise of such discretion.

(1) an ERISA Plan or (2) a governmental, church, non-U.S. or other plan that is subject to any federal, state, local or non-U.S. law that is substantially similar to the provisions of Title I of ERISA or Section 4975 of the Code whose purchase, holding or disposition of an Issuer Note or any beneficial interest therein will result in a non-waivable violation of any federal, state, local or non-U.S. law substantially similar to Section 406 of ERISA or Section 4975 of the Code (any such person described in clause (1) or (2) a "Non-Permitted ERISA Plan Holder") becomes the owner of Issuer Notes, the Issuer shall, promptly after discovery that such person is a Non-Permitted ERISA Plan Holder by the Issuer or the Issuing and Paying Agent (and notice by the Issuing and Paying Agent to the Issuer, if the Issuing and Paying Agent makes the discovery), send notice to such Non-Permitted ERISA Plan Holder demanding that such Non-Permitted ERISA Plan Holder transfer its Issuer Notes to a Person that is eligible to purchase such Issuer Notes hereunder within 14 days of the date of such notice. If such Non-Permitted ERISA Plan Holder fails to so transfer such Issuer Notes, the Issuer shall have the right, without further notice to the Non-Permitted ERISA Plan Holder, to sell such Issuer Notes to a purchaser selected by the Issuer that is eligible to purchase such Issuer Notes hereunder on such terms as the Issuer may choose. The Issuer, or the Issuing and Paying Agent acting on behalf of the Issuer, may select the purchaser by soliciting one or more bids from one or more brokers or other market professionals that regularly deal in securities similar to the Issuer Notes and selling such Issuer Notes to the highest such bidder. However, the Issuer or the Issuing and Paying Agent acting on behalf of the Issuer may select a purchaser by any other means determined by it in its sole discretion and the Holder of each Issuer Note, the Non-Permitted ERISA Plan Holder and each other Person in the chain of title from the Holder to the Non-Permitted ERISA Plan Holder, by its acceptance of Issuer Notes agrees to cooperate with the Issuer and the Issuing and Paying Agent to effect such transfers. The proceeds of such sale, net of any commissions, expenses and taxes due in connection with such sale shall be remitted to the Non-Permitted ERISA Plan Holder. The terms and conditions of any sale under this paragraph shall be determined in the sole discretion of the Issuer, and the Issuer shall not be liable to any Person having an interest in the Issuer Notes sold as a result of any such sale or the exercise of such discretion.

(2) The purchaser understands and agrees that the Notes have not been and will not be registered or qualified under the Securities Act or any applicable state securities laws or the securities laws of any other jurisdiction and the sale of the Notes to the purchaser is being made in reliance on an exemption from registration under the Securities Act, and may be reoffered, resold, pledged or otherwise transferred only (A)(i) to a Person whom the purchaser reasonably believes is a Qualified Institutional Buyer purchasing for its own account or for the account of a Qualified Institutional Buyer as to which the purchaser exercises sole investment discretion in a transaction meeting the requirements of Rule 144A or (ii) in an offshore transaction complying with Rule 903 or Rule 904 of Regulation S and (B) in accordance with all applicable securities laws of the states of the United States. The Issuer, the Co-Issuer and the Issuer Assets have not been registered under the Investment Company Act and, therefore, no transfer

Confidential Treatment Requested by Goldman Sachs

GS MISS-E-001916155
having the effect of causing the Issuer, the Co-Issuer or the Issuer Assets to be required to be registered as an investment company under the Investment Company Act will be recognized. The Notes are subject to the restrictions on transfer set forth herein and in the Indenture and the Notes. The purchaser understands and agrees that any purported transfer of the Notes to a purchaser that does not comply with the requirements of this paragraph (b) shall be null and void ab initio.

(b) The purchaser is not a member of the public of the Cayman Islands.

(v) The purchaser is not purchasing the Notes with a view toward the resale, distribution or other disposition thereof in violation of the Securities Act. The purchaser understands and agrees that an investment in the Notes involves certain risks, including the risk of loss of its entire investment in the Notes under certain circumstances. The purchaser has had access to such financial and other information concerning the Issuer and the Notes as it deemed necessary or appropriate in order to make an informed investment decision with respect to its purchase of the Notes, including an opportunity to ask questions of, and request information from, the Issuer.

(vi) In connection with the purchase of the Notes: (A) none of the Issuers, the Initial Purchaser, the Trustee, the Issuing and Paying Agent, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent, the Portfolio Selection Agent, the Administrator of the Share Trustees (or any of their respective Affiliates) is acting as a fiduciary or financial or investment adviser for the purchaser; (B) the purchaser is not relying (for purposes of making any investment decision or otherwise) upon any advice, counsel or representations (whether written or oral) of the Issuers, the Initial Purchaser, the Trustee, the Issuing and Paying Agent, the Portfolio Selection Agent, the Administrator of the Share Trustees (or any of their respective Affiliates) other than in the final offering circular for such Notes and any representations expressly set forth in a written agreement with such party; (C) none of the Issuers, the Initial Purchaser, the Trustee, the Issuing and Paying Agent, the Portfolio Selection Agent, the Administrator of the Share Trustees (or any of their respective Affiliates) has given to the purchaser (directly or indirectly through any other Person) any assurance, guarantee, or representation whatsoever as to the expected or projected success, profitability, return, performance, result, risk, consequence or benefit (including legal, regulatory, tax, financial, accounting or otherwise) as to an investment in the Notes; (D) the purchaser has consulted with its own legal, regulatory, tax, business, investment, financial and accounting advisors to the extent it has deemed necessary, and it has made its own investment decisions (including decisions regarding the suitability of any transaction pursuant to the Indenture) based upon its own judgment and upon any advice from such advisors as it has deemed necessary and not upon any view expressed by the Issuers, the Initial Purchaser, the Trustee, the Issuing and Paying Agent, the Portfolio Selection Agent, the Administrator or the Share Trustees (or any of their respective Affiliates); (E) the purchaser has evaluated the terms and conditions of the purchase and sale of the Notes with a full understanding of all of the risks thereof (economic and otherwise); and it is capable of assuming, and willing to assume (financially and otherwise) those risks; (F) the purchaser is a sophisticated Investor; and (G) if acquiring the Notes for any account, the purchaser has not made any disclosure, assurance, guarantee or representation not consistent with the provisions and the requirements contained herein.

(vii) In the case of the Co-Issued Notes, at the time of its acquisition and throughout the period it holds such Co-Issued Note, either (A) the purchaser is not a Plan nor any entity whose underlying assets include "plan assets" (within the meaning of the Plan Asset Regulations) by reason of such Plan's investment in the entity, nor a governmental, church, non-U.S. or other plan which is subject to any federal, state, local or non-U.S. law that is substantially similar to the provisions of Section 406 of ERISA or Section 4975 of the Code or (B) if the purchaser is an entity described in (A), the purchase, holding and disposition of a Co-Issued Note, as the case may be, will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code (or, in the case of a governmental, church or non-U.S. or other plan, a non-exempt violation under any substantially similar federal, state, local or non-U.S. law). Any purported transfer of a Note to a purchaser that does not comply with the requirements of this paragraph (vii) shall be null and void ab initio.
(iv) In the case of the Issuer Notes, each purchaser and subsequent transferee of a beneficial interest in any such Note will be deemed to represent that the purchaser or transferee, as the case may be, from the date on which it acquires its interest in such Notes through and including the date on which such purchaser or transferee disposes of its interest in such Notes (1) it is not an ERISA Plan, and (2) if it is other than an ERISA Plan, it will dispose of all of its Issuer Notes in a manner consistent with the restrictions set forth in the indenture, and (3) it will not cause a non-exempt violation of any U.S. federal, state or local law or any non-U.S. law which is substantially similar to the provisions of Title I of ERISA or Section 4975 of the Code, its purchase, holding and disposition of any such Notes will not cause a non-exempt violation of any U.S. federal, state or local law or any non-U.S. law which is substantially similar to Title I of ERISA or Section 4975 of the Code as a result of the transactions contemplated herein and (3) it will not sell or otherwise transfer any such Note or interest therein to any person who is unable to satisfy the same lending representations and warranties.

(x) To the extent required by the Issuer, as determined by the Issuer, the Issuer may, upon notice to the Trustee and the Issuing and Paying Agent, impose additional transfer restrictions on the Notes to comply with the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the USA PATRIOT Act) and other similar laws or regulations, including, without limitation, requiring each transferee of a beneficial interest in a Note to make representations to the Issuer in connection with such compliance.

(x) The Co-Issued Notes will bear a legend substantially to the following effect:

THE NOTES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND THE ISSUERS HAVE NOT BEEN REGISTERED UNDER THE UNITED STATES INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE "INVESTMENT COMPANY ACT"). THE HOLDER HEREBY BY PURCHASING THE NOTES IN RESPECT OF WHICH THIS NOTE HAS BEEN ISSUED AGREES FOR THE BENEFIT OF THE ISSUERS THAT THE NOTES MAY BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED, ONLY (A) (1) TO A PERSON WHO THE HOLDER REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER WITHIN THE MEANING OF RULE 144A UNDER THE SECURITIES ACT, PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER, IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A UNDER THE SECURITIES ACT OR (2) IN AN OFFSHORE TRANSACTION COMPLYING WITH RULE 903 OR RULE 904 OF Regulation S UNDER THE SECURITIES ACT AND, IN THE CASE OF CLAUSE (1) A PRINCIPAL AMOUNT OF NOT LESS THAN $250,000 ($100,000) FOR THE PURCHASER AND FOR EACH ACCOUNT FOR WHICH IT IS ACTING TO A PURCHASER THAT (W) IS A QUALIFIED PURCHASER WITHIN THE MEANING OF SECTION 230(t) OF THE INVESTMENT COMPANY ACT, (x) WAS NOT FORMED FOR THE PURPOSE OF INVESTING IN THE ISSUER (EXCEPT WHEN EACH BENEFICIAL OWNER OF THE PURCHASER IS A QUALIFIED PURCHASER), (y) UNDERSTANDS AND AGREES THAT THE ISSUERS MAY RECEIVE A LIST OF PARTICIPANTS IN THE NOTES FROM ONE OR MORE BOOK-ENTRY DEPOSITARIES AND (z) HAS RECEIVED THE NECESSARY CONSENT FROM ITS BENEFICIAL OWNERS WHEN THE PURCHASER IS A PRIVATE INVESTMENT COMPANY FORMED ON OR BEFORE APRIL 30, 1996, AND IN A TRANSACTION THAT MAY BE EFFECTED WITHOUT LOSS OF ANY APPLICABLE INVESTMENT COMPANY ACT EXEMPTION OR EXCLUSION AND (b) IN ACCORDANCE WITH ALL APPLICABLE SECURITIES LAWS OF THE STATES OF THE UNITED STATES OR OTHER APPLICABLE JURISDICTION. ANY TRANSFER IN

1 Applicable to the Rule 144A Global Notes.
2 Applicable to Regulation S Global Notes denominated in Dollars.
3 Applicable to Regulation S Global Notes denominated in Approved Currencies other than Dollars, as applicable.
VIOLATION OF THE FOREGOING WILL BE OF NO FORCE AND EFFECT, WILL BE VOID AB INITIO AND WILL NOT OPERATE TO TRANSFER ANY RIGHTS TO THE TRANSFEREE. NOTWITHSTANDING ANY INSTRUCTIONS TO THE CONTRARY TO THE ISSUERS, THE TRUSTEE OR ANY INTERMEDIARY. EACH TRANSFEROR OF THIS NOTE WILL PROVIDE NOTICE OF THE TRANSFER RESTRICTIONS SET FORTH HEREIN AND IN THE INDENTURE TO ITS TRANSFEREE. IN ADDITION TO THE FOREGOING, THE ISSUER MAINTAINS THE RIGHT TO RESELL NOTES PREVIOUSLY TRANSFERRED TO NON-PERMITTED HOLDERS (AS DEFINED IN THE INDENTURE) IN ACCORDANCE WITH AND SUBJECT TO THE TERMS OF THE INDENTURE.

ANY TRANSFER, PLEDGE OR OTHER USE OF THIS NOTE FOR VALUE OR OTHERWISE BY OR TO ANY PERSON IS WRONGFUL SINCE THE REGISTERED OWNER HEREOF, CEDE & CO., HAS AN INTEREST HEREIN, UNLESS THIS NOTE IS PRESENTED BY AN AUTHORIZED REPRESENTATIVE OF THE DEPOSITORY TRUST COMPANY ("DTC") NEW YORK, NEW YORK, TO THE ISSUERS OR THEIR AGENT FOR REGISTRATION OF TRANSFER, EXCHANGE OR PAYMENT AND ANY NOTE ISSUED IS REGISTERED IN THE NAME OF CEDE & CO. OR OF SUCH OTHER ENTITY AS IS REQUESTED BY AN AUTHORIZED REPRESENTATIVE OF DTC (AND ANY PAYMENT HEREON IS MADE TO CEDE & CO.).

TRANSFERS OF THIS NOTE SHALL BE LIMITED TO TRANSFERS IN WHOLE, BUT NOT IN PART, TO NOMINEES OF DTC OR TO A SUCCESSOR THEREOF OR SUCH SUCCESSOR’S NOMINEE, AND TRANSFERS OR PORTIONS OF THIS NOTE SHALL BE LIMITED TO TRANSFERS MADE IN ACCORDANCE WITH THE RESTRICTIONS SET FORTH IN THE INDENTURE REFERRED TO HEREIN.

ANY TRANSFER, PLEDGE OR OTHER USE OF THIS NOTE FOR VALUE OR OTHERWISE BY OR TO ANY PERSON IS WRONGFUL SINCE THE REGISTERED OWNER HEREOF, ABN AMRO GSTS NOMINEES LIMITED AS NOMINEE FOR ABN AMRO BANK N.V. (LONDON BRANCH), HAS AN INTEREST HEREIN, UNLESS THIS NOTE IS PRESENTED BY AN AUTHORIZED REPRESENTATIVE OF THE EUROCLAR SYSTEM ("EUROCLAR"), TO THE ISSUERS OR THEIR AGENT FOR REGISTRATION OF TRANSFER, EXCHANGE OR PAYMENT AND ANY NOTE ISSUED IS REGISTERED IN THE NAME OF ABN AMRO GSTS NOMINEES LIMITED AS NOMINEE FOR ABN AMRO BANK N.V. (LONDON BRANCH) OR OF SUCH OTHER ENTITY AS IS REQUESTED BY AN AUTHORIZED REPRESENTATIVE OF EUROCLAR (AND ANY PAYMENT HEREON IS MADE TO ABN AMRO BANK N.V. (LONDON BRANCH)).

TRANSFERS OF THIS NOTE SHALL BE LIMITED TO TRANSFERS IN WHOLE, BUT NOT IN PART, TO NOMINEES OF EUROCLAR OR TO A SUCCESSOR THEREOF OR SUCH SUCCESSOR’S NOMINEE, AND TRANSFERS OR PORTIONS OF THIS NOTE SHALL BE LIMITED TO TRANSFERS MADE IN ACCORDANCE WITH THE RESTRICTIONS SET FORTH IN THE INDENTURE REFERRED TO HEREIN.

PRINCIPAL OF THIS NOTE IS PAYABLE AS SET FORTH HEREIN. ACCORDINGLY, THE OUTSTANDING PRINCIPAL OF THIS NOTE AT ANY TIME MAY BE LESS THAN THE AMOUNT SHOWN ON THE FACE HEREOF. ANY PERSON ACQUIRING THIS NOTE MAY ASCERTAIN ITS CURRENT PRINCIPAL AMOUNT BY INQUIRY OF THE TRUSTEE.

THE FAILURE TO PROVIDE THE ISSUER, THE TRUSTEE AND ANY PAYING AGENT WITH THE APPLICABLE U.S. FEDERAL INCOME TAX CERTIFICATIONS (GENERALLY, AN INTERNAL REVENUE SERVICE FORM W-9 (OR SUCCESSOR APPLICABLE FORM) IN THE CASE OF A PERSON THAT IS A "UNITED STATES PERSON" WITHIN THE MEANING OF SECTION 7701(A)(26)

1 Applicable to the Dollar-denominated Notes.
2 Applicable to the Notes denominated in Approved Currencies other than Dollars.

1 Applicable to the Dollar-denominated Notes.
2 Applicable to the Notes denominated in Approved Currencies other than Dollars.
Footnote Exhibits - Page 4940

(GENERALLY, AN INTERNAL REVENUE SERVICE FORM W-4 (OR SUCCESSOR APPLICABLE FORM) IN THE CASE OF A PERSON THAT IS A "UNITED STATES PERSON" WITHIN THE MEANING OF SECTION 7701(a)(16) OF THE INTERNAL REVENUE CODE OF 1986, AS AMENDED (THE "CODE") OR AN APPROPRIATE INTERNAL REVENUE SERVICE FORM W-4 (OR SUCCESSOR APPLICABLE FORM) IN THE CASE OF A PERSON THAT IS NOT A "UNITED STATES PERSON" WITHIN THE MEANING OF SECTION 7701(a)(50) OF THE CODE) MAY RESULT IN U.S. FEDERAL BACK-UP WITHHOLDING FROM PAYMENTS TO THE HOLDER IN RESPECT OF THIS NOTE.

BY ITS PURCHASE OR HOLDING OF AN ISSUER NOTE, OR ANY INTEREST THEREIN, THE PURCHASER AND/OR HOLDER THEREOF AND EACH TRANSFEREE WILL BE DEEMED TO HAVE REPRESENTED AND WARRANTED THAT, AT THE TIME OF ITS ACQUISITION, AND THROUGHOUT THE PERIOD THAT IT HOLDS SUCH NOTE OR INTEREST THEREIN, THAT (1) IT IS NOT (A) AN EMPLOYEE BENEFIT PLAN AS DEFINED IN SECTION 3(36) OF THE EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974, AS AMENDED ("ERISA") THAT IS SUBJECT TO THE FIDUCIARY RESPONSIBILITY PROVISIONS OF ERISA, (B) A PLAN AS DEFINED IN SECTION 4975(a)(1) OF THE CODE THAT IS SUBJECT TO SECTION 4975 OF THE CODE, (C) ANY ENTITY WHOSE UNDERLYING ASSETS INCLUDE "PLAN ASSETS" BY REASON OF ANY SUCH EMPLOYEE BENEFIT PLAN'S OR PLANS INVESTMENT IN THE ENTITY OR (D) A "BENEFIT PLAN INVESTOR" AS SUCH TERM IS OTHERWISE DEFINED IN ANY REGULATIONS PROMULGATED BY THE U.S. DEPARTMENT OF LABOR UNDER SECTION 3(42) OF ERISA (AN "ERISA PLAN"); AND IF AFTER ITS INITIAL ACQUISITION OF AN ISSUER NOTE OR ANY INTEREST THEREIN, THE INVESTOR DETERMINES, OR IT IS DETERMINED BY ANOTHER PARTY, THAT SUCH INVESTOR IS AN ERISA PLAN, THE INVESTOR WILL DISPOSE OF ALL OF ITS ISSUER NOTES IN A MANNER CONSISTENT WITH THE RESTRICTIONS SET FORTH IN THE ISSUING AND PAYING AGENCY AGREEMENT, AND (2) IF IT IS A GOVERNMENTAL, CHURCH, NON-U.S. OR OTHER PLAN THAT IS SUBJECT TO ANY FEDERAL, STATE, LOCAL OR NON-U.S. LAW THAT IS SUBSTANTIALLY SIMILAR TO THE PROVISIONS OF TITLE I OF ERISA OR SECTION 4975 OF THE CODE, ITS PURCHASE, HOLDING AND DISPOSITION OF THE ISSUER NOTES WILL NOT CAUSE A NON-EXEMPT VIOLATION OF ANY U.S. FEDERAL, STATE OR LOCAL LAW OR ANY NON-U.S. LAW THAT IS SUBSTANTIALLY SIMILAR TO TITLE I OF ERISA OR SECTION 4975 OF THE CODE AS A RESULT OF THE TRANSACTIONS CONTEMPLATED HEREIN AND (3) IT WILL NOT SELL OR OTHERWISE TRANSFER ANY SUCH NOTE OR INTEREST THEREIN TO ANY PERSON WHO IS UNABLE TO SATISFY THE SAME FOREGOING REPRESENTATIONS AND WARRANTIES.

(x) Each purchaser or subsequent transferee of Rule 144A Issuer Notes that (i) is not a "United States person" (as defined in Section 7701(a)(50) of the Code) and (ii) is acquiring, directly or in conjunction with affiliates, more than 3% of the Aggregate USD Equivalent Outstanding Amount of any Class of Issuer Notes, as applicable, will be deemed to have made a representation to the effect that it is not an Affiliated Bank.

Regulation S Global Notes

Each purchaser of a beneficial interest in a Regulation S Global Note will be deemed to have represented and agreed with the Issuer:

(i) as set forth in paragraphs (i), (iv), (v), (vi), (vii) (in the case of the Co-Issued Notes), (viii) (in the case of the Co-Issuer Notes), (ix), (x), (xi), (xii) (in the case of the Issuer Notes) under "Rule 144A Global Notes";

(ii) that the purchaser is a non-U.S Person acquiring the Notes in an offshore transaction meeting the requirements of Rule 903 or Rule 904 of Regulation S and in a principal amount of not less than the applicable minimum denomination requirement; and
(ii) each purchaser or subsequent transferee of Regulation S Global Notes that (i) is not a "United States person" as defined in Section 7701(a)(30) of the Code and (ii) is acquiring, directly or indirectly, in any manner, any of the Aggregate USD Equivalent Outstanding Amount of any Class of Issuer Notes will be deemed to make a representation to the effect that it is not an Affiliated Bank.

UNDERWRITING

Subject to the terms and conditions set forth in the Purchase Agreement, the Issuers, with respect to the Co-issued Notes issued on the Closing Date and the Issuer, with respect to the Issuer Notes issued on the Closing Date have agreed to sell, on the Closing Date, to Goldman Sachs & Co. has agreed to purchase all of such Notes.

Under the terms and conditions of the Purchase Agreement, the Initial Purchaser is committed to take and pay for all the Notes to be offered to the Initial Purchaser, not if any are taken. Under the terms and conditions of the Purchase Agreement, Goldman Sachs & Co. will be entitled to an underwriting discount. After the Notes are released for sale, the Initial Purchaser may change the offering price and other selling terms.

The Notes have not been and will not be registered under the Securities Act for offer of sale as part of their distribution and may not be offered or sold within the United States or to, or for the account or benefit of, a U.S. Person or a U.S. resident (as determined for purposes of the Investment Company Act, a "U.S. Resident") except in certain transactions exempt from, or not subject to, the registration requirements of the Securities Act.

The Issuers have been advised by the Initial Purchaser that (a) the Initial Purchaser proposes to resell the Notes outside the United States through its agent, Goldman Sachs International, in offshore transactions in reliance on Regulation S and in accordance with applicable law, and (b) the Initial Purchaser proposes to resell the Notes in the United States in reliance on Rule 144A under the Securities Act only to Qualified Institutional Buyers purchasing for their own accounts or for the accounts of Qualified Institutional Buyers each of which purchasers or accounts is a Qualified Purchaser. The offering price and the Initial Purchaser's underwriting discount will be the same for the Regulation S Global Notes and the Rule 144A Global Notes within each Class of Notes. Any offer or sale of Rule 144A Global Notes in reliance on Rule 144A or another exemption from the registration requirements of the Securities Act will be made by broker-dealers who are registered as such under the Exchange Act. After the Notes are released for sale, the offering price and other selling terms may from time to time be varied by the Initial Purchaser.

The Initial Purchaser has acknowledged and agreed that it will not offer, sell or deliver any Notes sold pursuant to Regulation S to, or for the account or benefit of, any U.S. Person or U.S. Resident (as determined for purposes of the Investment Company Act) as part of its distribution at any time and that it will send to each distributor, dealer or person receiving a selling concession, fee or other remuneration to which it is entitled pursuant to Regulation S a confirmation or other notice setting forth the prohibition on offers and sales of Notes sold pursuant to Regulation S within the United States or to, or for the account or benefit of, any U.S. Person or U.S. Resident.

With respect to the Notes initially sold pursuant to Regulation S, until the expiration of 40 days after the commencement of the distribution of this offering of Notes by the Initial Purchaser, an offer or sale of Notes within the United States by a dealer that is not participating in the offering may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with Rule 144A or pursuant to another exemption from registration under the Securities Act.

In connection with the offering, the Initial Purchaser may purchase and sell the Notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover

Confidential Treatment Requested by Goldman Sachs

GS MSS-E-001919162
positions created by short sales. Short sales involve the sale by the Initial Purchaser of a greater amount of Notes than they are required to purchase in the offering. Stabilizing transactions entail of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the Notes while the offering is in progress.

The Initial Purchaser also may impose a penalty bid. This occurs when the Initial Purchaser repays a portion of the underwriting discount received by it because such Initial Purchaser or its Affiliates have repurchased Notes sold by it or for the account of such Initial Purchaser in stabilizing or short covering transactions.

These activities by the Initial Purchaser may stabilize, maintain or otherwise affect the market price of the Notes. As a result, the price of the Notes may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the Initial Purchaser at any time. These transactions may be effected in the over-the-counter market or otherwise.

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "Relevant Member State"), the Initial Purchaser has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "Relevant Implementation Date"), it has not made and will not make an offer of Notes to the public in that Relevant Member State prior to the publication of a prospectus in relation to the Notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that it may, with effect from and including the Relevant Implementation Date, make an offer of Notes to the public in that Relevant Member State at any time:

(i) to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;

(ii) to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than €3,000,000 and (3) an annual net turnover of more than €50,000,000, as shown in its last annual or consolidated accounts;

(iii) to other legal persons, which do not require the publication by the issuer of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an "offer of Notes to the public" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

The Initial Purchaser has represented and agreed that:

(i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (ii) it has not offered or sold and will not offer or sell the Notes other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the Notes would otherwise
constitute a contravention of Section 19 of the Financial Services and Markets Act 2000 ("FSMA") by the Issuer;

(ii) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of the Notes in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer; and

(iii) it has completed and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the Notes in, from or otherwise involving the United Kingdom.

The Notes may not be offered or sold by means of any document other than to persons whose ordinary business is to buy or sell shares or debentures, whether as principal or agent, or in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32) of Hong Kong, and no advertisement, invitation or document relating to the Notes may be issued, whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Notes which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" within the meaning of the Securities and Futures Ordinance (Cap. 571) of Hong Kong and any rules made thereunder.

The Notes have not been and will not be registered under the Securities and Exchange Law of Japan (the Securities and Exchange Law) and the initial Purchaser has agreed that it will not offer or sell any Notes, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Securities and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

This Offering Circular has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this Offering Circular and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Notes may not be circulated or distributed, nor may the Notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to institutional investors within the meaning of Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the "SFA"), (ii) to a relevant person, or any person pursuant to Section 275(1)(a), and in accordance with the conditions, specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the Notes are subscribed or purchased under Section 275 by a relevant person which is: (a) a corporation (which is not an accredited investor) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor, or (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest in that trust shall not be transferable for six months after that corporation or that trust has acquired the notes under Section 275 except: (1) to an institutional investor under Section 274 of the SFA or to a relevant person, or any person pursuant to Section 275(1)(a), and in accordance with the conditions, specified in Section 275 of the SFA; (2) where no consideration is given for the transfer; or (3) by operation of law.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918194
Footnote Exhibits - Page 4944

The Initial Purchaser has agreed that it has not made and will not make any invitation to the public in the Cayman Islands to purchase any of the Notes.

Buyers of Notes pursuant to Regulation S sold by Goldman, Sachs & Co., may be required to pay stamp taxes and other charges in accordance with the laws and practice of the country of purchase in addition to the offering price set forth on the cover page hereof.

No action has been or will be taken in any jurisdiction that would permit a public offering of the Notes, or the possession, circulation or distribution of this Offering Circular or any other materials relating to the Issuers or the Notes, in any jurisdiction where action for such purpose is required. Accordingly, the Notes may not be offered or sold, directly or indirectly, and neither this Offering Circular nor any other offering material or advertisements in connection with the Notes may be distributed or published, in or from any country or jurisdiction except under circumstances that will result in compliance with any applicable rules and regulations of such country or jurisdiction.

The Notes are a new issue of securities with no established trading market. The Issuers have been advised by the Initial Purchaser that the Initial Purchaser intends to make a market in the Notes but is not obligated to do so and may discontinue market making at any time without notice. No assurance can be given as to the liquidity of the trading market for the Notes. See “Risk Factors—Certain Consequences of Ownership.”

Application will be made to admit the Notes on a stock exchange of the Issuer’s choice, if practicable. There can be no assurance that any admission will be sought, granted or maintained.

The Issuers have agreed to indemnify the Initial Purchaser, the Portfolio Selection Agent, the Trustee and the Issuing and Paying Agent against certain liabilities, including, but not limited to, liabilities under the Securities Act, or to contribute to payments they may be required to make in respect thereof. In addition, the Issuers have agreed to reimburse the Initial Purchaser for certain of its expenses.

LISTING AND GENERAL INFORMATION

1. Application will be made to admit the Notes on a stock exchange of the Issuer’s choice, if practicable. There can be no assurance that any such admission will be sought, granted or maintained.

2. For fourteen days following the date of this Offering Circular, copies of the Memorandum and Articles of Association of the Issuer, the By-Laws of the Co-Issuer, the Indenture, the Bond Purchase Agreement, each Deed of Covenant, the Credit Support Swap, the Basis Swap, the Collateral Pool Agreement, the Collateral Administration Agreement, the Portfolio Selection Agreement and the Indenture Agreement (such agreements collectively, the “Material Documents”) will be available for inspection at the principal office of the Issuer and the offices of any Listing, Paying and Transfer Agent, and copies thereof may be obtained upon request. In addition, copies of any reports (including, without limitation, monthly reports) prepared under the Indenture may be obtained upon request from any Listing, Paying and Transfer Agent.

3. Copies of the Certificate of Incorporation and Memorandum and Articles of Association of the Issuer, the Certificate of Incorporation and By-Laws of the Co-Issuer, the Administration Agreement, the resolutions of the Board of Directors of the Issuer authorizing the Issuance of the Notes, the resolutions of the Board of Directors of the Co-Issuer authorizing the Issuance of the Notes, will be available for inspection at the office of the Trustee and the Issuing and Paying Agent, as applicable, and at the office of any Listing, Paying and Transfer Agent.
4. Since the date of establishment, there has been no significant change in the financial or trading position of the Issuer and no annual report or accounts have been prepared as of the date hereof.

5. The Issuers are not involved in any litigation or arbitration proceedings relating to claims on amounts which are material in the context of the issue of the Notes, nor, so far as each of the Issuers is aware, in any such litigation or arbitration involving it pending or threatened.

6. The issuance of the Notes is expected to be authorized by the Board of Directors of the Issuer by resolution passed on or prior to the Closing Date. The issuance of the Notes is expected to be authorized by the sole Director of the Co-Issuer by resolution on or about April 25, 2007.

7. The Notes sold in offshore transactions in reliance on Regulation S under the Securities Act represented by Regulation S Global Notes have been accepted for clearance through Clearstream and Euroclear. The Co-Issued Notes sold to U.S. Persons that are Qualified Institutional Buyers/Qualified Purchasers under the Securities Act represented by Rule 144A Global Notes have been accepted for clearance through DTC. The CUSIP Numbers, Common Codes and International Securities Identification Numbers (ISIN) for the Co-Issued Notes represented by Rule 144A Global Notes and Regulation S Global Notes are as indicated in the chart "Summary—Notes", as applicable.

8. For so long as any of the Notes are listed on any stock exchange and the rules of such stock exchange shall so require, the Issuer will inform such stock exchange in accordance with its procedures, if the ratings assigned to any of the Notes are reduced or withdrawn.

9. The Issuers do not intend to publish annual reports and accounts. The indenture, however, requires the Issuers to provide written notification to the Trustee on an annual basis that no Event of Default or other matter which is required to be brought to the Trustee's attention has occurred.

LEGAL MATTERS

Certain legal matters will be passed upon for the Issuers and the Initial Purchaser by McKee Nelson LLP, New York, New York. Certain matters with respect to Cayman Islands corporate law and tax law will be passed upon for the Issuer by Maples and Calder, George Town, Grand Cayman, Cayman Islands. Certain legal matters will be passed upon for the Portfolio Selection Agent by Schulte Roth & Zabel LLP, New York, New York.
GLOSSARY OF DEFINED TERMS

"ABS Aircraft Securities": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from leases and subleases of aircraft, vessels and telecommunications equipment to businesses for use in the provisions of goods or services to consumers, the military or the government, generally having the following characteristics: (1) the leases and subleases having varying contractual maturities; (2) the leases or subleases are obligations of a relatively limited number of obligors and accordingly represent an undivided pool of obligor credit risk; (3) the repayment stream on such leases and subleases is primarily determined by a contractual payment schedule, with early termination of such leases and subleases predominantly dependent upon the disposition to a lessee, sublessee or third party or the underlying equipment; (4) such leases or subleases typically provide for the right of the lessee or sublessee to purchase the equipment for its stated residual value, subject to payments at the end of the lease term for excess usage or wear and tear; and (5) the obligations of the lessors or sublessors may be secured not only by the leased equipment but also by other assets of the lessor, sublessee or guarantees granted by third parties; provided that any security falling within this definition will be excluded from the definition of "Structured Product Security" (unless it is a Wrapped Security) and each other Excluded Specified Type.

"ABS Automobile Securities": Securities, other than ABS Subprime Auto Securities, that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on:

1. the cash flow from installment sale loans made to finance the purchase of, or from leases of, automobiles or light duty trucks or medium duty trucks, generally having the following characteristics:

   (i) the loans or leases may have varying contractual maturities;
   (ii) the loans or leases are obligations of numerous borrowers or lessees and accordingly represent a diversified pool of obligor credit risk;
   (iii) the repayment stream on such loans or leases is primarily determined by a contractual payment schedule, with early repayment on such loans or leases predominantly dependent upon the disposition of the underlying vehicle; and
   (iv) such leases typically provide for the right of the lessee to purchase the vehicle for its stated residual value and are subject to payments at the end of lease term for excess mileage or use in the event that the lessee does not exercise such purchase option; or

2. the cash flow from loans or leases made to finance the purchase of an automobile dealer's inventory, generally having the following characteristics:

   (i) the loans or leases may have varying contractual maturities;
   (ii) the repayment stream on such loans or leases is primarily determined by a contractual payment schedule, with early repayment on such loans or leases predominantly dependent upon the disposition of the underlying vehicle; and
   (iii) such leases typically provide for the right of the lessee to purchase the vehicle for its stated residual value and are subject to payments at the end of lease term for excess mileage or use in the event that the lessee does not exercise such purchase option.

Confidential Treatment Requested by Goldman Sachs
"ABS Car Rental Receivable Securities": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from leases and subleases of vehicles to car rental companies and their franchisees, generally having the following characteristics: (1) the leases and subleases have varying contractual maturities; (2) the subleases are obligations of numerous franchisees and accordingly represent a diversified pool of obligor credit risk; (3) the repayment stream on such leases and subleases is primarily determined by a contractual payment schedule, with early termination of such leases and subleases predominantly dependent upon the disposition to a lessee or third party of the underlying vehicle; and (4) such leases or subleases typically provide for the right of the lessor or sublessor to purchase the vehicle for its stated residual value and are subject to payments at the end of lease term for excess mileage or use in the event that the lessee or sublessee does not exercise such purchase option.

"ABS Credit Card Securities": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from balances outstanding under revolving consumer credit card accounts, generally having the following characteristics:

(i) the accounts have standardized payment terms and require minimum monthly payments;

(ii) the balances are obligations of numerous borrowers and accordingly represent a diversified pool of obligor credit risk; and

(iii) the repayment stream on such balances does not depend upon a contractual payment schedule, with repayment depending primarily on interest rates, availability of credit against a maximum credit limit and general economic matters.

"ABS Future Flow Securities": Securities that are financings by companies that export products and involve securitizations of offshore U.S. Dollar-denominated receivables under contracts with foreign buyers or from sales through an established market pursuant to which cash generated from the existing and future receivables is captured, typically paid to a trust or collateral account in the United States and is used to service the debt evidenced by such securities. In a typical existing and future receivables transaction, the originator of the receivables establishes a limited purpose financing vehicle that issues such securities. The originator receives the issuance proceeds and may use these funds for general corporate purposes. ABS Future Flow Securities are generally backed by one or more contracts requiring the originator to generate the receivables backing the securities. In such a situation, if the receivables are not generated or if insufficient amounts of receivables are generated, holders of such securities may not receive the payments they are owed. Sectors of receivables in future receivables transactions are frequently in countries with low credit ratings. ABS Future Flow Securities may achieve a rating above the target country sovereign rating of such company's country of domicile, thereby enabling the originator to obtain financing at a relatively lower cost than traditional loans or direct issuance of bonds by the originator. The determination of whether an ABS Future Flow Security shall be classified as an Excluded Specified Type shall be made by reference to the types of receivables expected to be generated. Any ABS Future Flow Security so classified as an Excluded Specified Type will be excluded from the definition of "Structured Product Security" (unless it is a Wrapped Security) and each other Excluded Specified Type.

"ABS Health Care Receivable Securities": Securities other than ABS Small Business Loan Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from leases and subleases of equipment to hospitals, non-hospital medical facilities, physicians and physician groups for use in the provision of healthcare services, generally having the following characteristics: (1) the leases and subleases have varying contractual maturities; (2) the leases or subleases are obligations of a relatively limited number of obligors and accordingly represent the
undiversified pool of obligor credit risk; (3) the repayment stream on such leases and subleases is primarily determined by a contractual payment schedule, with early termination of such leases and subleases predominantly dependent upon the disposition to a lessee, sublessee or third party of the underlying equipment; and (4) such leases or subleases typically provide for the right of the lessee or sublessee to purchase the equipment for its stated residual value, provided that any security falling within this definition will be excluded from the definition of "Structured Product Security" (unless it is a Wrapped Security) and each other Excluded Specified Type.

"ABS Mutual Fund Fee Securities": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from a pool of brokerage fees and costs relating to various mutual funds, generally having the following characteristics: (1) the brokerage fees and costs have standardized terms; (2) the brokerage fees and costs arise out of numerous mutual funds and accordingly represent a diversified pool of credit risk; and (3) the collection of brokerage fees and costs can vary substantially from the contractual payment schedule (if any), with the collection depending on numerous factors specific to the particular mutual funds and general economic matters, provided that any security falling within this definition will be excluded from the definition of "Structured Product Security" (unless it is a Wrapped Security) and each other Excluded Specified Type.

"ABS Small Business Loan Securities": Securities that entitle holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from general purpose loans made to "small business concerns" generally within the meaning given to such term by regulations of the United States Small Business Administration, including but not limited to (those (a) made pursuant to Section 7(a) of the United States Small Business Act, as amended, and (b) partially guaranteed by the United States Small Business Administration, generally have the following characteristics:

(i) the loans have payment terms that comply with any applicable requirements of the United States Small Business Act, as amended;
(ii) the loans are obligations of a relatively limited number of borrowers and accordingly represent an undiversified pool of obligor credit risk; and
(iii) repayment thereof can vary substantially from the contractual payment schedule (if any), with early repayment of individual loans depending on numerous factors specific to the particular obligors and upon whether, in the case of loans bearing interest at a fixed rate, such loans or securities include an effective prepayment premium.

"ABS Structured Settlement Securities": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from receivables representing the right of litigation claimants to receive future settlement payments under a settlement agreement that are funded by an annuity contract, provided that any security falling within this definition will be excluded from the definition of "Structured Product Security" (unless it is a Wrapped Security) and each other Excluded Specified Type.

"ABS Student Loan Securities": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from a pool of student loan receivables, generally having the following characteristics: (1) the student loan receivables have standardized terms; (2) the student loan receivables arise out of numerous students and accordingly represent a diversified pool of credit risk; and (3) the cash flow from the student loan receivables can vary substantially from the contractual payment schedule (if any), with the cash flow depending on numerous factors specific to the particular students and general economic matters, provided that any security falling within this definition will be excluded from the definition of "Structured Product Security" (unless it is a Wrapped Security) and each other Excluded Specified Type.
proceeds to holders of such securities) on the cash flow from loans made to students (or their parents) to finance educational needs.

"ABS Subprime Auto Securities": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from subprime installment sale loans made to finance the acquisition of, or from leases of, automobiles, generally having the following characteristics: (1) the loans or leases may have varying contractual maturities; (2) the loans or leases are obligations of numerous borrowers or lessees and accordingly represent a diversified pool of obligor credit risk; (3) the borrowers or lessees under the loans or leases generally have a poor credit rating; (4) the repayment stream on such loans or leases is primarily determined by a contractual payment schedule, with early repayment on such loans or leases predominately dependent upon the disposition of the underlying vehicle; and (5) such leases typically provide for the right of the lessee to purchase the vehicle for its stated residual value and are subject to payments at the end of the lease term for excess mileage or use in the event that the lessee does not exercise such purchase option; provided that any security falling within this definition will be excluded from the definition of "Structured Product Security" (unless it is a Wrapped Security) and each other Excluded Specified Type.

"ABS Tax Lien Securities": Securities that entitle the holders thereof to receive payment that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from a pool of tax obligations owed by businesses and individuals to state and municipal governmental taxing authorities, generally having the following characteristics: (1) the tax obligations are obligations of numerous borrowers and accordingly represent a diversified pool of obligor credit risk; and (2) the repayment stream on the obligation is primarily determined by a payment schedule entered into between the relevant taxing authority and obligor, with early repayment on such obligation predominately dependent upon interest rates and the income of the obligor following the commencement of amortization; provided that any security falling within this definition will be excluded from the definition of "Structured Product Security" (unless it is a Wrapped Security) and each other Excluded Specified Type.

"ABS Timeshare Securities": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from borrowers under timeshare mortgage loans. Timeshare mortgage loans are generally fixed-rate, fully amortizing loans that are secured by first mortgage liens on timeshare estates. A timeshare estate consists of an interval (generally measured in weeks) in vacation ownership of fully furnished vacation units or apartments. Usage and ownership is generally divided into 52 one-week intervals, with one or two weeks reserved for maintenance. Ownership can also be through undivided fee simple interests ("UDIs") in a group of units. Owners become tenants in common with other owners of undivided interests, with "use" rights which allow more flexibility in terms of length and timing of stay than fixed week intervals, as purchasers are not restricted to fixed week usage. Any security falling within this definition will be excluded from the definition of "Structured Product Security" (unless it is a Wrapped Security) and each other Excluded Specified Type.

"Actual Principal Amount": With respect to any Reference Obligation and its applicable Final Amortization Date or Legal Final Maturity Date, an amount paid on such day by or on behalf of the related Reference Entity in respect of principal (excluding any amounts representing capitalized interest that relates to the term of the Credit Default Swap) to the holder(s) of such Reference Obligation in respect of such Reference Obligation.

"Actual Rating": With respect to any Obligation, the actual expressly monitored outstanding rating assigned by a Rating Agency, without reference to any other rating by another Rating Agency and which rating by its terms addresses the full scope of the payment promise of the obligor on such Obligation, after taking into account any applicable guarantee or insurance policy or if no such rating is available from a Rating Agency, any "credit estimate" or "shadow rating" assigned by such Rating Agency.

Confidential Treatment Requested by Goldman Sachs GS MBS-E-001918170
Agency, as applicable. For purposes of this definition, the rating of a RMBS Agency Security shall be the rating assigned by a Rating Agency to the agency that guarantees such RMBS Agency Security.

"Administrative Expense Cap": On any Payment Date, $20,000.

"Administrative Expenses": Amounts due or accrued with respect to any Payment Date (which shall be payable in the following order) to:

(i) any Person not listed in subclause (i) through (vi) below in respect of any governmental fee, including all filing, registration and escrow return fees payable to the Cayman Islands government and registered office fees, charges or tax (other than withholding taxes);

(ii) the Trustee, its fees pursuant to the Indenture;

(iii) to the Trustee, its expenses pursuant to the Indenture;

(iv) to the Issuing and Paying Agent, its fees pursuant to the Issuing and Paying Agency Agreement;

(v) to the Issuing and Paying Agent, its expenses pursuant to the Issuing and Paying Agency Agreement;

(vi) pro rata to:

(a) the Collateral Administrator under the Collateral Administration Agreement;

(b) the independent accountants, agents and counsel of the Issuer for fees, including retainers, and expenses;

(c) the Rating Agencies for fees and expenses in connection with ratings of the Notes, ongoing surveillance of such ratings and the provision of credit estimates; and

(d) any other Person in respect of any other reasonable fees, costs, indemnities or expenses of the Issuer not prohibited under the Indenture (including, without limitation, any monies owed to the Portfolio Selection Agent under the Portfolio Selection Agreement and the Administrator under the Administration Agreement and registered office fees) and any reports and documents delivered pursuant to or in connection with the Indenture and the Notes.

"Adverse Tax Event": The adoption of, or a change in, any tax statute (including the Code), treaty, regulation (whether proposed, temporary or final), rule, ruling, practice, procedure or judicial decision or interpretation which results or will result in (a) reducing monies received by the Issuer from the Issuer Assets or (b) the payments due on the Notes or pursuant to the Basis Swap, the Collateral Put Agreement or the Credit Default Swap becoming properly subject to the imposition of U.S. or other withholding tax.

"Affiliate" or "Affiliated": With respect to a Person, (i) any other Person who, directly or indirectly, is in control of, controls or is under common control with, such Person or (ii) any other Person who is a director, officer or employee (a) of such Person, (b) of any subsidiary or parent company of such Person or (c) of any Person described in subclause (i) above. For purposes of this definition, control of a Person shall mean the power, direct or indirect, to vote more than 50% of the securities having ordinary voting power for the election of directors of any such Person or (ii) to direct or cause the direction of the management and policies of such Person whether by contract or otherwise. With respect
Footnote Exhibits - Page 4951

880

to the issuers, this definition shall exclude the Administrator and any other special purpose vehicle to which the Administrator is or will be providing administrative services or acting as share trustee.

“Aggregate Implied Writedown Amount”: With respect to any Reference Obligation, the greater of (i) zero and (ii) the aggregate of all Implied Writedown Amounts with respect to such Reference Obligation minus the aggregate of all Implied Writedown Reimbursement Amounts with respect to such Reference Obligation.

“Aggregate USD Equivalent Outstanding Amount”: When used with respect to any or all of the Notes, the aggregate principal amount of such Notes Outstanding on the date of determination; provided that, with respect to any Notes denominated in any Approved Currency other than Dollars, the Aggregate USD Equivalent Outstanding Amount of such Notes will equal the USD Equivalent of the Currency Adjusted Aggregate Outstanding Amount of such Notes.

“Alternative Debt Test”: A test that is satisfied with respect to a Collateral Security if, on the date such Collateral Security is included in the Collateral, each of the following is satisfied: (i) such Collateral Security is in the form of a note or other debt instrument and is treated as debt for corporate law purposes in the jurisdiction of the issuer of such Collateral Security, (ii) the documents pursuant to which such Collateral Security was offered, if any, do not require that any holder thereof treat such Collateral Security other than as debt for tax purposes, (iii) such Collateral Security bears interest at a fixed rate per annum or at a rate based upon a customary floating rate index plus or minus a spread, (iv) such Collateral Security has a fixed maturity occurring no later than the earliest Stated Maturity of any Series of Notes, (v) such Collateral Security has an Actual Rating or implied Rating of at least “BBB” by Moody’s, or at least “BBB-” by S&P or at least “BBB-” by Fitch as to ultimate payment of principal and interest and (vi) the issuer of such Collateral Security is treated as a corporation or grantor trust for U.S. federal income tax purposes; provided that, in the case of a Collateral Security, in the form of a beneficial interest in a trust that is treated (as evidenced by an opinion of counsel or a reference to an opinion of counsel in documents pursuant to which such Collateral Security was offered) as a grantor trust for U.S. federal income tax purposes (and not as a partnership or association taxable as a corporation), any of the conditions specified in clauses (i), (ii), (iii) and (iv) may be satisfied by reference to each asset held pursuant to such grantor trust arrangement rather than by reference to such beneficial ownership interests.

“Applicable Class Portfolio Selection Fee Rate”: With respect to (i) the Class A Notes, 0.25%; (ii) the Class A-2 Notes, 0.25%; (iii) the Class B Notes, 0.50%; (iv) the Class C Notes, 0.50%; and (v) the Class D Notes, 1.00%.

“Applicable Collateral Security Foreign Exchange Rate”: With respect to (i) a Collateral Security acquired with the proceeds of the offering of the Notes, or the receipt by the Issuer of an Additional Issuance Principal Amount or Currency Adjusted Reimbursement Amount, the Applicable Series Foreign Exchange Rate of the related Notes issued or reinstated, as applicable and (ii) a Supplemental Collateral Security acquired with any Collateral Security Amortization Amount, Excess Principal Amount or Excess Disposition Proceeds, the Applicable Collateral Security Foreign Exchange Rate of the Collateral Security with respect to which such Collateral Security Amortization Amount, Excess Principal Amount or Excess Disposition Proceeds was received by the Issuer.

“Applicable Index”: With respect to the Notes denominated in (i) AUD, AUD-LIBOR, (ii) CAD, CAD-LIBOR, (iii) Dollars, LIBOR, (iv) Euro, EUR/LIBOR, (v) NZD, NZD-BBB, (vi) Sterling, GBP-LIBOR and (vii) Yen, JPY-LIBOR.

133

GS MBS-E-001918172
"Applicable Index Determination Date": With respect to the determination of (i) LIBOR, JPY-
LIBOR and NZD-BOR, the second Business Day prior to the commencement of an Interest Accrual
Period; (ii) IBOR, the first day of an Interest Accrual Period; (iii) EURIBOR, the second TARGET
Settlement Day prior to the commencement of an Interest Accrual Period; and (iv) CAD-LIBOR and AUD-
LIBOR, the second London Banking Day prior to an Interest Accrual Period.

"Applicable Percentage": With respect to any Reference Obligation on any date, the ratio of (A)
the product of (a) the Initial Face Amount related to such Reference Obligation and (b) the Initial Factor
related to such Reference Obligation and (B) the product of (a) the Original Principal Amount related to
such Reference Obligation and (b) the Initial Factor related to such Reference Obligation (a) as increased
by the outstanding principal balance of any further issues by the related Reference Entity that are fungible
with and form part of the same legal series as such Reference Obligation; and (b) as decreased by any
cancellations of some or all of the Reference Obligation Outstanding Principal Amount resulting from
purchases of such Reference Obligation by or on behalf of the related Reference Entity.

"Applicable Period": With respect to (i) the first interest Accrual Period, the period from and
including the Closing Date to but excluding the first Payment Date and (ii) each Interest Accrual Period
thereafter, one month (except with respect to the last Applicable Period, to but excluding the Stated
Maturity).

"Applicable Series Foreign Exchange Rate": With respect to any Series of Notes denominated
in (a) an Approved Currency other than Dollars, the Spot FX Rate at the time of issuance of such Series of
Notes, as determined by the Credit Default Swap Calculation Agent and confirmed by the Collateral
Administrator and (b) Dollars, 100%.

"Applicable Spread": With respect to any Series of Notes issued on the Closing Date, the stated
spread above or below the related Applicable Index as set forth in the Indenture or the Issuing and Paying
Agency Agreement, as applicable, and on the related Notes, and with respect to any Series of Notes
issued after the Closing Date, as set forth in the related offering circular supplement and on the related
Notes.

"Approved Currency": Any of Australian Dollar, Canadian Dollar, Dollar, Euro, New Zealand
Dollar, Sterling or Yen.

"Approved Dealer": Any of the Persons set forth below or their affiliates (including the successor
to any such Person):

- ABN AMRO Bank N.V.;
- Banc of America Securities LLC;
- Barclays Bank PLC;
- BNP Paribas;
- Canadian Imperial Bank of Commerce;
- Citigroup, Inc.;
- Commerzbank AG;
- Countrywide Securities Corporation;
- Credit Suisse Group;
- Deutsche Bank AG;
- Dreidner Bank AG;

The list of Approved Dealers may be modified at any time by the Protection Buyer and the Portfolio Selection Agent upon mutual consent to such modification.

"Asset-Backed Securities" or "ABS": ABS Credit Card Securities, ABS Automobile Securities, ABS Car Rental Receivable Securities, ABS Small Business Loan Securities, ABS Student Loan Securities or ABS Other Securities, excluding, in each case, any securities that belong to an Excluded Specified Type.

"AUD-LIBOR": An amount determined only with respect to any Applicable Period for which Notes denominated in Australian Dollars are Outstanding. For purposes of calculating the Series Interest Rates for each Applicable Period, AUD-LIBOR shall equal AUD-LIBOR as used in the calculation of the Monthly Basis Swap Payment for such Applicable Period. For purposes of calculating the Monthly Basis Swap Payment for each Applicable Period, AUD-LIBOR shall be calculated by the Basis Swap Calculation Agent as follows:

(a) On each Applicable Index Determination Date, AUD-LIBOR shall equal the rate, as obtained by the Basis Swap Calculation Agent, for deposits in Australian Dollars for the Applicable Period which appears on the Telerate Page 3740 (as defined in the International Swaps and Derivatives Association, Inc. 2005 Interest Rate and Currency Exchange Definitions) or such page as may replace Telerate Page 3740, as of 11:00 a.m. (London time) on such Applicable Index Determination Date.

(b) If, on any Applicable Index Determination Date, such rate does not appear on Telerate Page 3740, or such page as may replace Telerate Page 3740, the Basis Swap Calculation Agent shall determine the arithmetic mean of the offered quotations of the Reference Banks to prime banks in the London interbank market for deposits in Australian Dollars for the Applicable Period in an amount determined by the Basis Swap Calculation Agent.

Confidential Treatment Requested by Goldman Sachs

Footnote Exhibits - Page 4954

Agent by reference to requests for quotations as of approximately 11:00 a.m. (London time) on the Applicable Index Determination Date made by the Basis Swap Calculation Agent to the Reference Banks. If, on any Applicable Index Determination Date, at least two of the Reference Banks provide such quotations, AUD-LIBOR shall equal the arithmetic mean of such quotations. If, on any Applicable Index Determination Date, only one or none of the Reference Banks provides such quotations, AUD-LIBOR shall be deemed to be the arithmetic mean of the rates quoted by major banks in Sydney selected by the Basis Swap Calculation Agent, at approximately 11:00 a.m. (Sydney time) are quoting on the relevant Applicable Index Determination Date for loans in Australian Dollars for the Applicable Period in an amount determined by the Basis Swap Calculation Agent equal to an amount that is representative for a single transaction in such market at such time to leading European banks; provided, however, that if the Basis Swap Calculation Agent is required but is unable to determine a rate in accordance with at least one of the procedures provided above, AUD-LIBOR shall be AUD-LIBOR as determined on the most recent date AUD-LIBOR was available. As used herein, "Reference Banks" means four major banks in the London Interbank market selected by the Basis Swap Calculation Agent.

c. The Basis Swap Calculation Agent shall provide AUD-LIBOR to the Note Calculation Agent as promptly as practicable following the determination thereof. As soon as possible after 11:00 a.m. (New York time) on each Applicable Index Determination Date, but in no event later than 11:00 a.m. (New York time) on the Business Day immediately following each Applicable Index Determination Date, the Note Calculation Agent will cause notice of the Series Interest Rates for the next Interest Accrual Period and the Series Interest Amounts (rounded to the nearest cent, with half a cent being rounded upward) on the related Payment Date to be communicated to the Issuers, the Trustee, the Issuing and Paying Agent, Euroclear, Clearstream and the paying agents. The Note Calculation Agent will also specify to the Issuers the quotations upon which the Series Interest Rates are based, and in any event the Note Calculation Agent shall notify the Issuers before 8:00 p.m. (New York time) on each Applicable Index Determination Date if it has not determined and is not in the process of determining the Series Interest Rates and the Series Interest Amounts, together with its reasons therefor.

"Australian Dollar," "A$" and "AUD": The lawful currency of Australia.

"Bank": LaSalle Bank National Association, a national banking association organized and existing under the laws of the United States of America, but in its individual capacity and not as Trustee or Issuing and Paying Agent, and any successor thereto.

"Bankruptcy Code": The United States Bankruptcy Code, Title 11 of the United States Code, as amended.

"Basis Swap Calculation Period": An Interest Accrual Period.

"Basis Swap Counterparty Credit Support Document": The meaning assigned to the term "Credit Support Document" in the Basis Swap and infi, the Guaranty dated as of the Closing Date by GS Group in favor of the Issuer as beneficiary thereof with respect to the obligations of the Basis Swap Counterparty under the Basis Swap.

"Basis Swap Counterparty Credit Support Provider": The meaning assigned to the term "Credit Support Provider" in the Basis Swap and infi, GS Group.

"Basis Swap Counterparty Default Termination Payment": Any Basis Swap Termination Payment required to be made by the Issuer to the Basis Swap Counterparty pursuant to the Basis Swap.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918175
Footnote Exhibits - Page 4955

in the event of a termination of the Basis Swap (i) in respect of which the Basis Swap Counterparty is the defaulting party, (ii) resulting from a downgrade of such Basis Swap Counterparty's credit rating or (iii) in which the Basis Swap Counterparty was the sole "Affected Party" (as such term is defined in the Basis Swap) (other than in connection with a "Tax Event" or "Negativity", in each case as defined in the Basis Swap).

"Basis Swap Early Termination": The occurrence of either a Basis Swap Event of Default or a Basis Swap Termination Event.

"Basis Swap Early Termination Date": An early termination date under the Basis Swap (other than as triggered by the Credit Default Swap or the Collateral Put Agreement).

"BIE Acceptance Notice": A notice from the Trustee or the Issuer and Paying Agent, as applicable, to an Originating Noteholder specifying (i) the BIE Collateral Security that will be substituted for the existing Collateral Security, (ii) each such Collateral Security to be substituted, (iii) the BIE Exercise Period, (iv) the BIE Transaction Cost, (v) the BIE Basis Swap Payment, (vi) account information of the Issuer for such Originating Noteholder to deliver such BIE Collateral Security to the Issuer and to present payment of the BIE Transaction Cost to the Issuer and (vii) account information for such Originating Noteholder to present payment of the BIE Basis Swap Payment to the Basis Swap Counterparty.

"BIE Basis Swap Payment": An amount equal to the greater of (i) the present value of (1) the Basis Swap Payments that the BIE Swap Counterparty would receive (assuming no substitution thereof described in subclause (ii) below occurs) and (2) the Basis Swap Payments that the BIE Swap Counterparty would receive (assuming that the BIE Collateral Securities identified in any related Collateral Security Substitution Request Notice have been substituted for the existing Collateral Securities identified therein) and (ii) zero.

"BIE Collateral Security": A Collateral Security that a Noteholder proposes to substitute for part or all of an existing Collateral Security pursuant to the Indenture.

"BIE Collateral Security Eligibility Criteria": (i) The Collateral Security Eligibility Criteria, (ii) the consent of each of the BIE Swap Counterparty, the Collateral Put Provider and the Protection Buyer (which consent not to be unreasonably withheld in each case), (iii) the Collateral Weighted Average Life Test, (iv) the par amount of all BIE Collateral Securities described in the related Collateral Security Substitution Request Notice must equal or exceed the par amount of all existing Collateral Securities proposed to be substituted, (v) the Collateral Security Quality Constraint and (vi) the Approved Currency in which the existing Collateral Securities proposed to be substituted are denominated.

"BIE Consent Solicitation": A notice from the Trustee or the Issuing and Paying Agent, as applicable, to each Noteholder, including the originating Noteholder, specifying (i) each Proposed New BIE Collateral Security and its par amount, (ii) each Collateral Security to be substituted and its par amount, and (iii) the BIE Notification Date.

"BIE Exercise Period": The period from and including the delivery of a BIE Acceptance Notice to and excluding the day that is three Business Days thereafter.

"BIE Notification Date": The Business Day by which a Noteholder must respond to a BIE Consent Solicitation, which date shall be 20 Business Days from the date of such BIE Consent Solicitation.

"BIE Transaction Cost": An amount, as determined by the Trustee, equal to the aggregate amount of the expenses of the Issuer and the Trustee that would be incurred as a result of the proposed substitution of each BIE Collateral Security for part or all of an existing BIE Collateral Security.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918170
"Business Day": Any day other than (i) Saturday or Sunday or (ii) a day on which commercial banking institutions are authorized by law, regulation or executive order to close in New York, New York, in Chicago, Illinois or in a State of the United States, Paying and Transfer Agent has been appointed and action is required of the Listing, Paying and Transfer Agent, the location of the Listing, Paying and Transfer Agent (with respect to the obligations of such Listing, Paying and Transfer Agent only), provided, however, that for the sole purpose of calculating the Series Interest Rates for the relevant place of presentation, "Business Day" shall be defined as (i) with respect to the determination of LIBOR, any day on which dealings in deposits in Dollars are transacted in the London interbank market, (ii) with respect to the determination of EURIBOR, a day on which the TARGET System is available for settlement of Euro payments, (iii) with respect to the determination of GBP-LIBOR, any day on which dealings in deposits in Sterling are transacted in the London interbank market, (iv) with respect to the determination of JPY-LIBOR, any day on which dealings in deposits in Yen are transacted in the London interbank market, (v) with respect to the determination of AUD-LIBOR, any day on which dealings in deposits in AUD are transacted in the London interbank market, (vi) with respect to the determination of CAD-LIBOR, any day on which dealings in CAD are transacted in the London interbank market and (vii) with respect to the determination of NZD-IBOR, any day on which dealings in deposits in NZD are transacted in the London interbank market.

"CAD-LIBOR": An amount determined only with respect to any Applicable Period for which Notes denominated in Canadian Dollars are outstanding. For purposes of calculating the Series Interest Rates for each Applicable Period, CAD-LIBOR shall equal CAD-LIBOR as used in the calculation of the Monthly Basis Swap Payment for such Applicable Period. For purposes of calculating the Monthly Basis Swap Payment for such Applicable Period, CAD-LIBOR shall be calculated by the Basis Swap Calculation Agent as follows:

(a) On each Applicable Index Determination Date, CAD-LIBOR shall equal the rate, as obtained by the Basis Swap Calculation Agent, for deposits in Canadian Dollars for the Applicable Period which appears on the Teletrader Page 3740 (as defined in the International Swaps and Derivatives Association, Inc. 2000 Interest Rate and Currency Exchange Definitions), or such page as may replace Teletrader Page 3740, as of 11:00 a.m. (London time) on such Applicable Index Determination Date.

(b) If, on any Applicable Index Determination Date, such rate does not appear on Teletrader Page 3740, or such page as may replace Teletrader Page 3740, the Basis Swap Calculation Agent shall determine the arithmetic mean of the offered quotations of the Reference Banks to prime banks in the London interbank market for deposits in Canadian Dollars for the Applicable Period in an amount determined by the Basis Swap Calculation Agent by reference to requests for quotations of approximately 11:00 a.m. (London time) on the Applicable Index Determination Date made by the Basis Swap Calculation Agent to the Reference Banks. If, on any Applicable Index Determination Date, at least two of the Reference Banks provide such quotations, CAD-LIBOR shall equal the arithmetic mean of such quotations. If, on any Applicable Index Determination Date, only one or none of the Reference Banks provides such quotations, CAD-LIBOR shall be the arithmetic mean of the rates quoted by major banks in Toronto selected by the Basis Swap Calculation Agent, at approximately 11:00 a.m. (Toronto time) on such Applicable Index Determination Date for loans in Canadian Dollars for the Applicable Period in an amount determined by the Basis Swap Calculation Agent equal to an amount that is representative for a single transaction in such market at such time to leading European banks; provided, however, that if the Basis Swap Calculation Agent is required but is unable to determine a rate in accordance with at least one of the procedures provided above, CAD-LIBOR shall be CAD-LIBOR as determined on the most recent date CAD-LIBOR was available. As used herein, "Reference Banks" means four major banks in the London interbank market selected by the Basis Swap Calculation Agent.
Footnote Exhibits - Page 4957

(c) The Basis Swap Calculation Agent shall provide CAD-LIBOR to the Note Calculation Agent as promptly as practicable following the determination thereof. As soon as possible after 11:00 a.m. (New York time) on each Applicable Index Determination Date, but in no event later than 11:00 a.m. (New York time) on the Business Day immediately following each Applicable Index Determination Date, the Note Calculation Agent will cause notice of the Series Interest Rates for the next Interest Accrual Period and the Series Interest Amounts (rounded to the nearest cent, with half a cent being rounded upward) on the related Payment Date to be communicated to the Issuers, the Trustee, the Issuing and Paying Agent, Euroclear, Clearstream and the paying agents. The Note Calculation Agent will also specify to the Issuers the quotations upon which the Series Interest Rates are based, and in any event the Note Calculation Agent shall notify the Issuers before 5:00 p.m. (New York time) on each Applicable Index Determination Date if it has not determined and is not in the process of determining the Series Interest Rates and the Series Interest Amounts, together with its reasons therefor.

*Canadian Dollar*, *$US* or *CAD*: The legal currency of Canada.

*Cash*: Such coin or currency of the United States of America, countries of the European Economic and Monetary Union who have adopted the Euro currency, Great Britain, Japan, Australia, New Zealand or Canada, as the case may be, as at the time shall be legal tender for payment of all public and private debts.

*CDO Cashflow Securities*: Collaterlized debt obligations, collateralized bond obligations or CLO Securities, including CDO Structured Product Securities, CDO Mortgage-Backed Securities and CDO Commercial Real Estate Securities, but, in each case, excluding any securities that belong to an Excluded Specified Type.

*CDO Commercial Real Estate Securities*: CDO Cashflow Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from (and not the market value of) a portfolio of at least 80% by principal balance of CMBS and/or REIT Debt Securities.

*CDO Corporate Bond Securities*: CDO Cashflow Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from (and not the market value of) a portfolio of primarily high yield or investment grade bonds.

*CDO Emerging Market Securities*: CDO Cashflow Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from (and not the market value of) a portfolio of investments, of which more than 20% are issued by issuers located in Emerging Market Countries.

*CDO Market Value Securities*: Collaterlized debt obligations, whose overcollateralization is measured with reference to the market value of the collateral portfolio securing such collateralized debt obligations.

*CDO Mortgage-Backed Securities*: CDO Cashflow Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from (and not the market value of) a portfolio of at least 80% by principal balance of Mortgage-Backed Securities.
"CDO Single-Tranche Synthetic Securities": Any CDO Structured Product Security for which (i) the spread component of the interest payment related to such security is generally provided for by a tranched credit default swap with attachment and exhaustion points under which the related obligor has written credit protection and (ii) the obligor of which issues an aggregate principal amount of liabilities less than the reference portfolio notional amount under the related tranched credit default swap.

"CDO Structured Product Securities": CDO Cashflow Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from a portfolio diversified among categories of REIT Debt Securities, Asset-Backed Securities, Commercial Mortgage-Backed Securities, Residential Mortgage-Backed Securities or CDO Cashflow Securities or any combination of more than one of the foregoing, where exposure to such asset classes in the portfolio is either actual or synthetic, or solely of CDO Cashflow Securities (and which in any such case may include limited amounts of Corporate Securities), generally having the following characteristics:

(i) repayment thereof can vary substantially from the contractual payment schedule (if any), with early prepayment of individual debt securities depending on numerous factors specific to the particular issuer or obligor and upon whether, in the case of loans or securities bearing interest at a fixed rate, such loans or securities include an effective prepayment premium, and

(ii) proceeds from such repayments can be for a limited period and subject to compliance with certain eligibility criteria be reinvested in additional loans or debt securities.

"CDO Trust Preferred Securities": Collateralized debt obligations backed primarily by a pool of either (a) bank trust preferred securities, (b) insurance trust preferred securities or (c) REIT Debt Securities that are trust preferred securities.

*Class*: All of the Notes having the same priority.

*Class A Notes*: Collectively, the Class A-1 Notes and the Class A-2 Notes.

*Class A-1 Notes*: The Class A-1 Variable Rate Notes, including any additional such Notes issued pursuant to the terms of the indenture and having the applicable Series Interest Rate and Stated Maturity, in each case (with respect to any Series of Class A-1 Notes issued on the Closing Date) as set forth under "Summary—Notes" or (with respect to any Series of Class A-1 Notes issued after the Closing Date) as set forth in the related offering circular supplement.

*Class A-2 Notes*: The Class A-2 Variable Rate Notes, including any additional such Notes issued pursuant to the terms of the indenture and having the applicable Series Interest Rate and Stated Maturity, in each case (with respect to any Series of Class A-2 Notes issued on the Closing Date) as set forth under "Summary—Notes" or (with respect to any Series of Class A-2 Notes issued after the Closing Date) as set forth in the related offering circular supplement.

*Class B Notes*: The Class B Variable Rate Notes, including any additional such Notes issued pursuant to the terms of the indenture and having the applicable Series Interest Rate and Stated Maturity, in each case (with respect to any Series of Class B Notes issued on the Closing Date) as set forth under "Summary—Notes" or (with respect to any Series of Class B Notes issued after the Closing Date) as set forth in the related offering circular supplement.

*Class C Notes*: The Class C Variable Rate Notes, including any additional such Notes issued pursuant to the terms of the indenture and having the applicable Series Interest Rate and Stated Maturity, in each case (with respect to any Series of Class C Notes issued on the Closing Date) as set forth under "Summary—Notes" or (with respect to any Series of Class C Notes issued after the Closing Date) as set forth in the related offering circular supplement.
the Closing Date) as set forth under "Summary—Notes" or (with respect to any Series of Class C Notes issued after the Closing Date) as set forth in the related offering circular supplement.

"Class D Notes": The Class D Variable Rate Notes, including any additional such Notes issued pursuant to the terms of the Issuing and Paying Agency Agreement and having the applicable Series Interest Rate and Stated Maturity, in each case (with respect to any Series of Class D Notes issued on the Closing Date) as set forth under "Summary—Notes" or (with respect to any Series of Class D Notes issued after the Closing Date) as set forth in the related offering circular supplement.

"Class FL Notes": The Class FL Variable Rate Notes, including any additional such Notes issued pursuant to the terms of the Issuing and Paying Agency Agreement and having the applicable Series Interest Rate and Stated Maturity, in each case (with respect to any Series of Class FL Notes issued on the Closing Date) as set forth under "Summary—Notes" or (with respect to any Series of Class FL Notes issued after the Closing Date) as set forth in the related offering circular supplement.

"Class SS Notes": The Class SS Variable Rate Notes, including any additional such Notes issued pursuant to the terms of the Indenture and having the applicable Series Interest Rate and Stated Maturity, in each case (with respect to any Series of Class SS Notes issued on the Closing Date) as set forth under "Summary—Notes" or (with respect to any Series of Class SS Notes issued after the Closing Date) as set forth in the related offering circular supplement.

"Class Interest Distribution Amount": With respect to any Class of Notes on any Payment Date, the aggregate of the Interest Distribution Amounts with respect to each Payment Date for each Series of Notes of such Class.

"Class Notional Amount": With respect to any Class of Notes on the Closing Date, the initial Class Notional Amount of such Class of Notes; thereafter it will be increased or decreased as described under "Summary—Decrease in the Class Notional Amount of each Class of Notes" and "Summary—Increase in the Class Notional Amount of each Class of Notes".

"Clearing Agencies": Collectively, DTC, Euroclear and Clearstream.

"Clearstream": Clearstream Banking, société anonyme, a corporation organized under the laws of the Grand Duchy of Luxembourg.

"CLO Securities": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from (and not the market value of) a portfolio of primary loans.

"Closing Date": April 28, 2007.

"CMBS Conduit Securities": Commercial Mortgage-Backed Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such Commercial Mortgage-Backed Securities) on the cash flow from a pool of commercial mortgage loans, generally having the following characteristics:

(i) the commercial mortgage loans have varying contractual maturities;

(ii) the commercial mortgage loans are secured by real property purchased or improved with the proceeds thereof (or to refinance an outstanding loan the proceeds of which were so used);
889

Footnote Exhibits - Page 4980

(s) the commercial mortgage loans are obligations of a relatively limited number of obligors and accordingly represent a relatively undiversified pool of obligor credit risk; and

(vi) repayment thereof can vary substantially from the contractual payment schedule (if any), with early repayment of individual loans depending on numerous factors specific to the particular obligors; however, in the case of loans bearing interest at a fixed rate, such loans or securities typically include significant or complete prepayment protection.

"CMBS Credit Tenant Lease Securities": Commercial Mortgage-Backed Securities (other than CMBS Large Loan Securities and CMBS Conduit Securities) that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such Commercial Mortgage-Backed Securities) on the cash flow from a pool of commercial mortgage loans made to finance the acquisition, construction and improvement of properties leased to corporate tenants (or on the cash flow from such leases), generally have the following characteristics:

(i) the commercial mortgage loans or leases have varying contractual maturities;

(ii) the commercial mortgage loans are secured by real property purchased or improved with the proceeds thereof (or to refinance an outstanding loan on the proceeds of which were so used);

(iii) the leases are secured by leasehold interests;

(iv) the commercial mortgage loans or leases are obligations of a relatively limited number of obligors and accordingly represent a relatively undiversified pool of obligor credit risk;

(v) repayment thereof can vary substantially from the contractual payment schedule (if any), with prepayment of individual loans or termination of leases depending on numerous factors specific to the particular obligors or leases and upon whether, in the case of loans bearing interest at a fixed rate, such loans include an effective prepayment premium; and

(vi) the creditworthiness of such corporate tenants is an important factor in any decision to invest in these securities.

"CMBS Franchise Securities": Commercial Mortgage-Backed Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such Commercial Mortgage-Backed Securities) on the cash flow from (a) a pool of franchise loans made to operators of franchises that provide oil, gasoline, restaurant or food services and provide other services related thereto and (b) leases or subleases of equipment to such operators for use in the provision of such goods and services. Such securities generally have the following characteristics:

(i) the loans, leases or subleases have varying contractual maturities;

(ii) the loans are secured by real property purchased or improved with the proceeds thereof (or to refinance an outstanding loan the proceeds of which were so used);

(iii) the obligations of the lessors or sublessors of the equipment may be secured not only by the leased equipment but also the related real estate;

(iv) the loans, leases and subleases are obligations of a relatively limited number of obligors and accordingly represent a relatively undiversified pool of obligor credit risk;
Footnote Exhibits - Page 4961

(v) payment of the loans can vary substantially from the contractual payment schedule (if any), with prepayment of individual loans depending on numerous factors specific to the particular obligors and upon whether, in the case of loans bearing interest at a fixed rate, such loans include an effective prepayment premium.

(vi) the repayment stream on the leases and subleases is primarily determined by a contractual payment schedule, with early termination of such leases and subleases predeterminately dependent upon the disposition to a lessee, a sublessee or third party of the underlying equipment; and

(vii) such leases and subleases typically provide for the right of the lessee or sublessee to purchase the equipment for its stated residual value.

"CMBS Large Loan Securities": Commercial Mortgage-Backed Securities (other than CMBS Conduit Securities and CMBS Credit Tenant Lease Securities) that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such Commercial Mortgage-Backed Securities) on the cash flow from a commercial mortgage loan or a pool of commercial mortgage loans made to finance the acquisition, construction and improvement of properties, generally having the following characteristics:

(i) the commercial mortgage loans have varying contractual maturities;

(ii) the commercial mortgage loans are secured by real property purchased or improved with the proceeds thereof (or to refinance an outstanding loan the proceeds of which were so used);

(iii) the commercial mortgage loans are obligations of a limited number of obligors and accordingly represent a relatively undiversified pool of obligor credit risk (including in comparison to CMBS Conduit Securities);

(iv) repayment thereof can vary substantially from the contractual payment schedule (if any), with early prepayment of individual loans depending on numerous factors specific to the particular obligors and upon whether, in the case of loans bearing interest at a fixed rate, such loans or securities include an effective prepayment premium;

(v) the valuation of individual properties securing the commercial mortgage loans is the primary factor in any decision to invest in these securities; and

(vi) the commercial mortgage loans have relatively large average balances (including in comparison to RMBS).

"CMBS RE-REMIC Securities": Securities that represent an interest in a real estate mortgage investment conduit backed by CMBS.

"Co-Issued Notes": Collectively, the Class SS Notes and the Class A-1 Notes.

"Collateral": Collectively, the Collateral Securities and the Eligible Investments.

"Collateral Account": The segregated trust account into which the Issuer shall, from time to time, deposit Issuer Assets.

"Collateral Administration Agreement": The Collateral Administration Agreement, dated as of the Closing Date, between the Issuer and the Collateral Administrator.
"Collateral Administrator": LaSalle Bank National Association, solely in its capacity as Collateral Administrator under the Collateral Administration Agreement, until a successor Person shall have become the Collateral Administrator pursuant to the applicable provisions of the Collateral Administration Agreement, and thereafter "Collateral Administrator" shall mean such successor Person.

"Collateral Default": An event of default (as defined in the related Underlying Instruments) which has (i) occurred and is continuing with respect to any of the Collateral (other than a Collateral Security that has been purchased with Excess Disposition Proceeds only and which at the time of its acquisition did not satisfy the requirements set forth in the Collateral Security Eligibility Criteria) and (ii) if the related Underlying Instruments require an acceleration to occur following an event of default (as defined in the relevant Underlying Instruments) in order to liquidate the related underlying collateral, resulted in such acceleration.

"Collateral Put Agreement Early Termination": The occurrence of either a Collateral Put Agreement Event of Default or a Collateral Put Agreement Termination Event.

"Collateral Put Agreement Early Termination Date": An early termination date under the Collateral Put Agreement (other than as triggered by the Credit Default Swap or the Basis Swap).

"Collateral Put Provider Credit Support Document": The meaning assigned to the term "Credit Support Document" in the Collateral Put Agreement and initially, the guaranty dated as of the Closing Date by GS Group with respect to the obligations of the Collateral Put Provider under the Collateral Put Agreement.

"Collateral Put Provider Credit Support Provider": The meaning assigned to the term "Collateral Put Provider Credit Support Document" in the Collateral Put Agreement and initially, GS Group.

"Collateral Security Substitution Information Notice": A notice from the Trustee or the Issuing and Paying Agent, as applicable, to an Originating Noteholder notifying such Originating Noteholder that (i) each Proposed New BIE Collateral Security identified in the related Collateral Security Substitution Request Notice is an Eligible BIE Collateral Security and (ii) the BIE Transaction Cost and the BIE Basis Swap Payment relating to such Proposed New BIE Collateral Security.

"Collateral Security Substitution Noteholder Refusal Notice": A notice from the Trustee or the Issuing and Paying Agent, as applicable, to an Originating Noteholder notifying such Originating Noteholder that the Holders of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class did not approve the Proposed New BIE Collateral Security by the BIE Notification Date.

"Collateral Security Substitution Refusal Notice": A notice from the Trustee or the Issuing and Paying Agent, as applicable, to an Originating Noteholder notifying such Originating Noteholder that (i) each Proposed New BIE Collateral Security identified in the related Collateral Security Substitution Request Notice is an Eligible BIE Collateral Security, (ii) the identity of each Eligible BIE Collateral Security and (ii) the identity of each Proposed New BIE Collateral Security that is not an Eligible BIE Collateral Security.

"Collateral Security Substitution Request Notice": A notice from an Originating Noteholder to the Trustee or the Issuing and Paying Agent, as applicable, (i) requesting the substitution of one or more Proposed New BIE Collateral Securities for one or more existing Collateral Securities, (ii) identifying each Collateral Security and the par amount to be substituted, (iii) identifying each Proposed New BIE Collateral Security and the par amount and (iv) any other information that such Originating Noteholder deems relevant.

Confidential Treatment Requested by Goldman Sachs
"Commercial Mortgage-Backed Securities" or "CMBS". Securities that represent interests in, or enable holders thereof to receive payments that depend on the cashflow primarily from credit default swaps that reference, in each case, obligations (including certificates of participation in obligations) that are principally secured by mortgages on real property or interests therein having a multifamily or commercial use, such as regional malls, other retail space, office buildings, industrial or warehouse properties, hotels, nursing homes and senior living centers and shall include, without limitation, CMBS Conduit Securities, CMBS Credit Tenant Lease Securities, CMBS Franchises Securities, CMBS Large Loan Securities or CMBS RE-REMIC Securities, excluding, in each case, any securities that belong to an Excluded Specified Type.

"Common Depository": ABN AMRO Bank N.V. (London Branch) on behalf of Euroclear.

"Corporate Securities": Publicly issued or privately placed debt obligations of corporate issuers which are not REIT Debt Securities or Wrapped Securities.

"Credit Default Swap Early Termination Date": An early termination date under the Credit Default Swap (other than as triggered by the Basis Swap or the Collateral Put Agreement).

"Credit Default Swap Fixed Rate Payee Calculation Period": An interest accrual period.

"Credit Event Notice": An irrevocable notice that describes a Credit Event.

"Currency Adjusted Aggregate Outstanding Amount": The aggregate principal amount of such Notes when issued, as expressed in its currency of denomination and thereafter adjusted as described in "Summary—Decrease in the Currency Adjusted Aggregate Outstanding Amount of each Series of Notes" and "Summary—Increase in the Currency Adjusted Aggregate Outstanding Amount of each Series of Notes".

"Currency Adjusted Redemption Refund Adjustment Amount": Any Series of Notes' allocation of any Redemption Refund Adjustment Amount divided by the Applicable Series Foreign Exchange Rate.

"Current Dollar Price": For each Reference Obligation and at any time of determination, the product of (a) the Current Market Price for such Reference Obligation at such time and (b) the ICE Reference Obligation Notional Amount of such Reference Obligation at such time.

"Current Market Price": At any time of determination, with respect to a Reference Obligation, a percentage price determined by the Credit Default Swap Calculation Agent and confirmed by the Collateral Administrator by (a) using the pricing service used by the Collateral Administrator in its normal course of business for as long as the quote obtained from such pricing service has been provided by such pricing service within two Business Days of the time of such determination or (b) (i) if Subclause (a) above is not applicable, asking the Approved Dealers to quote the offered-side price (excluding accrued interest) for such Reference Obligation (in an amount equal to its Reference Obligation Notional Amount) and (ii) for so long as the Collateral Administrator is able to obtain one such quote from one such Approved Dealer, taking the arithmetic average of such quotations.

"Current Period Implied Withdrawal Amount": For each Reference Obligation, with respect to any Reference Obligation Calculation Period for such Reference Obligation, an amount determined as of the last day of such Reference Obligation Calculation Period equal to the greater of (i) zero and (ii) the product of (A) the implied Withdrawal Percentage and (B) the greater of (1) zero and (2) the lesser of (a) the Per Passu Amount and (b) the Per Passu Amount plus the Senior Amount minus the aggregate outstanding asset pool balance securing the payment obligations on such Reference Obligation (all such outstanding asset pool balances as obtained by the Credit Default Swap Calculation Agent from the most

Footnote Exhibits - Page 4964

recently dated Servicer Report available as of such day), calculated based on the face amount of the assets (if in a trust pool or otherwise); whether or not any such asset is performing.

Day Count Fraction": With respect to Notes denominated in Australian Dollars, Canadian Dollars, New Zealand Dollars and Sterling, calculations will be based on the actual number of days in the calculation period in respect of which payment is being made divided by 365 (or, if any portion of the calculation period falls in a leap year, the sum of (i) the actual number of days in that portion of the calculation period falling in a leap year divided by 366 and (ii) the actual number of days in that portion of the calculation period falling in a non-leap year divided by 365) and (j) denominated in Dollars, Euros, Francs, Krons and Yen, calculations will be based on the actual number of days in the calculation period in respect of which payment is being made divided by 360.

"Defaulted Interest": Any interest due and payable in respect of any Note which is not punctually paid or duly provided for on the applicable Payment Date or at the Stated Maturity, as the case may be.

"Determination Date": With respect to a Payment Date, the last Business Day of the immediately preceding Due Period.

"Disposition Proceeds": All Sale Proceeds and Put Proceeds.

"Distribution": Any payment of principal or interest or any dividend, premium or fee payment made on, or any other distribution in respect of, a security or obligation.

"Dollar": A dollar or other equivalent unit in such coin or currency of the United States of America as at the time shall be legal tender for all debts, public and private.

"DTC": The Depository Trust Company, its nominees, and their respective successors.

"Due Period": With respect to any Payment Date or the Mandatory Redemption Date, the period commencing on the day immediately following the fifth Business Day prior to the preceding Payment Date (or, in the case of the Due Period relating to the first Payment Date, beginning on the Closing Date) and ending on (and including) the fifth Business Day prior to such Payment Date (or, in the case of a Due Period that is applicable to the Payment Date relating to the Stated Maturity of any Notes, on the Optional Redemption Date, a Partial Optional Redemption Date or the Mandatory Redemption Date, as the case may be, ending on (and including) the Business Day immediately preceding such Payment Date or Mandatory Redemption Date, as the case may be).

"Eligible BIE Collateral Security": A Proposed New BIE Collateral Security that satisfies the BIE Collateral security Eligibility Criteria.

"Eligible Country": Any country of the European Economic and Monetary Union that has adopted the Euro currency that has long-term sovereign debt obligations rated at least "AAA" by Moody's (or "AA+" in the case of Italy) and for which such country has been assigned a foreign currency issuer credit rating of "AAA" by S&P.

"Eligible Investment": Any investment denominated in an Approved Currency that, at the time it is delivered to the Trustee, is one or more of the following obligations or securities:

(i) direct (and, in the case of investments denominated in Dollars, Registered) obligations of, and (and, in the case of investments denominated in Dollars, Registered) obligations fully guaranteed by, the United States, any Eligible Country, Great Britain, Japan, Canada or Australia or any agency or instrumentalities of the United States, any Eligible Country, Great Britain, Japan, Canada or Australia the obligations of which are expressly backed

Confidential Treatment Requested by Goldman Sachs GS MBS-E-001918185
by the full faith and credit of the United States, any Eligible Country, Great Britain, Japan, Canada or Australia, so long as the related obligor or guarantor is rated "AAA" or "A-1+" by S&P;

(ii) demand and time deposits in, certificates of deposit of, or banker's acceptances issued by, any depository institution or trust company incorporated in the United States or any state thereof or any Eligible Country, Great Britain, Japan, Canada or Australia, which depository institution or trust company is subject to supervision and examination by federal or state authorities (or, in the case of investments denominated in Approved Currencies other than Dollars, governmental banking authorities) so long as (a) in the case of demand and time deposits, such deposits (i) are held by banks rated "P-1" by Moody's and "A-1+" by S&P or at least "A-1" by S&P in the case of demand and time deposits in Le Belle Bank National Association for so long as it is the Trustee hereunder and (b) are payable on demand only without any restrictions and (c) in the case of certificates of deposit or banker's acceptances, the related depository institution or trust company is rated at least "A-3" or "P-1" by Moody's and "AAA" or "A-1+" by S&P;

(iii) repurchase obligations with respect to (a) any security described in clause (i) above or (b) any other security issued or guaranteed by an agency or instrumentality of the United States, any Eligible Country, Great Britain, Japan, Canada or Australia, entered into with a depository institution or trust company described in clause (i) above or entered into with a corporation whose long-term senior unsecured rating is at least "A-1" by Moody's and "A-1+" by S&P and whose short-term credit rating is "P-1" by Moody's and "A-1+" by S&P at the time of such investment, with a term not in excess of 91 days, provided that if the term is greater than 30 days from the time of delivery, it has a long-term rating of "AAA" by S&P;

(iv) commercial paper or other short-term obligations of a corporation, partnership, limited liability company or trust, or any branch or agency thereof located in the United States or any of its territories or any Eligible Country, Great Britain, Japan, Canada or Australia, such commercial paper or other short-term obligations having a credit rating of "P-1" by Moody's and "A-1+" by S&P, and that are registered (in the case of investments denominated in Dollars) and either are interest bearing or are sold at a discount from the face amount thereof and have a maturity of not more than 91 days from their date of issuance in the case of S&P and Moody's, provided that if the term is greater than 30 days from the time of delivery, it has a long-term rating of "AAA" by S&P;

(v) offshore money market funds which have a credit rating of not less than "AaaMRA1+" by Moody's and "AAA" or "AAAa" or "AAAm-G" by S&P;

(vi) Cash; and

(vii) any other investments subject to satisfaction of the S&P Rating Condition and the Moody's Rating Condition;

which, in any case, (A) is acquired from a party acting in its capacity as broker-dealer in the ordinary course of business, or in an arm's length open market transaction, and if not, is approved by S&P, (B) is acquired at a price of no more than 100% of par and (C) if such obligation or security is subject to any withholding tax, the obligor of the obligation or security is required to make "gross-up" payments that cover the full amount of such withholding tax on an after-tax basis pursuant to the Underlying Instrument with respect thereto.

Footnote Exhibits - Page 4966

"Emerging Market Country": Any jurisdiction that is not the United States or does not have a foreign currency issuer rating of at least "AA" by S&P and a long-term sovereign debt rating of at least "AA" by Moody's.

"Enhanced Equipment Trust Certificate": An enhanced equipment trust certificate.

"EURIBOR": An amount determined only with respect to any Applicable Period for which non-compliant in Euros are outstanding. For purposes of calculating the Series Interest Rates for each Applicable Period, EURIBOR shall equal EURIBOR as used in the calculation of the Monthly Basis Swap Payment for such Applicable Period. For purposes of calculating the Monthly Basis Swap Payment for each Applicable Period, EURIBOR shall be calculated by the Basis Swap Calculation Agent as follows:

(a) On the Applicable Index Determination Date, the Basis Swap Calculation Agent will determine EURIBOR, expressed per annum, for deposits in Euro for the Applicable Period by reference to a quoted rate of 24-hour London Interbank Offered Rate ("London Interbank Offered Rate") or, in the event that the offered rate shown on the Teletrate monitor is replaced by corresponding interest rates of more than one bank, the Basis Swap Calculation Agent shall determine the arithmetic mean of such interest rates (at least two) so displayed (rounded if necessary to the nearest one hundred-thousandth of a percentage point, with 0.000001% being rounded upwards). "Teletrate" means the Teletrate Service of Teletrate Service, Ltd.

(b) In the event that the Teletrate Page 248 is not available or if no quotation appears thereon on the Applicable Index Determination Date, the Basis Swap Calculation Agent shall request the principal offices within the Euro-zone of four leading banks in the Euro-zone as selected by the Basis Swap Calculation Agent (the "Euro Reference Banks") to provide the Basis Swap Calculation Agent with its offered quotation (expressed as a percentage per annum) for deposits in Euros for the Applicable Period to be used in the Euro-zone market at approximately 11:00 a.m. (Brussels time) as the Applicable index Determination Date. If at least two of such quotations are provided, the EURIBOR for such Interest Accrual Period shall be the arithmetic mean (rounded if necessary to the nearest one hundred-thousandth of a percentage point, with 0.000001% being rounded upwards) of such offered quotations, all as determined by the Basis Swap Calculation Agent. If, on the Applicable Index Determination Date only one or none of the Euro Reference Banks provides the Basis Swap Calculation Agent with such offered quotations, the EURIBOR for the relevant Interest Accrual Period shall be the rate per annum which the Basis Swap Calculation Agent determines to be the arithmetic mean (rounded if necessary to the nearest one hundred-thousandth of a percentage point, with 0.000001% being rounded upwards) of the rates, as communicated to (and at the request of) the Basis Swap Calculation Agent by leading banks in the Euro-zone as selected by the Basis Swap Calculation Agent, at 11:00 a.m. (Brussels time) on the relevant Interest Determination Date, for loans in Euros for a period equal to the Applicable Period to leading banks in the Euro-zone, provided, however, that if the Basis Swap Calculation Agent is required but unable to determine a rate in accordance with one of the procedures provided above, EURIBOR shall be EURIBOR as determined on the most recent date EURIBOR was available. As used herein, "Reference Banks" means four major banks in the European interbank market selected by the Basis Swap Calculation Agent.

(c) The Basis Swap Calculation Agent shall provide EURIBOR to the Note Calculation Agent as promptly as practicable following the determination thereof. As soon as possible after 11:00 a.m. (New York time) on each Applicable Index Determination Date, but in no event later than 11:00 a.m. (New York time) on the Business Day immediately following each Applicable Index Determination Date, the Note Calculation Agent will cause the Series Interest Rates for the next Interest Accrual Period and the Series Interest...
Footnote Exhibits - Page 4967

Amounts (rounded to the nearest cent, with half a cent being rounded upward) on the related Payment Date to be communicated to the Issuer, the Trustee, the Issuing and Paying Agent, Euroclear, Clearstream and the paying agents. The Note Calculation Agent will also specify to the Issuer the quotations upon which the Series Interest Rates are based, and in any event the Note Calculation Agent shall notify the Issuer before 5:00 p.m. (New York time) on each Applicable Index Determination Date if it has not determined and is not in the process of determining the Series Interest Rates and the Series Interest Amounts, together with its reasons therefor.

"Euro", "Euro" and "€": The currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty establishing the European Community, as amended from time to time.

"Euroclear": The Euroclear System.

"Expected Principal Amount": With respect to any Reference Obligation and its Final Amortization Date or Legal Final Maturity Date, an amount equal to (i) the Reference Obligation Outstanding Principal Amount of such Reference Obligation payable on such day (excluding any amount representing capitalized interest that relates to the term of the Credit Default Swap) assuming for this purpose that sufficient funds are available for such payment, where such amount shall be determined in accordance with the related Underlying Instruments, minus (ii) the sum of (A) the Aggregate Implied Volatility Amount with respect to such Reference Obligation (if any) and (B) the net aggregate principal deficiency balance of realized loss amounts (however described in the related Underlying Instruments) that are attributable to such Reference Obligation. The Expected Principal Amount shall be determined without regard to the effect of any provisions (however described) of the related Underlying Instruments that permit the limitation of due payments or distributions of funds in accordance with the terms of such Reference Obligation or that provide for the extinguishing or reduction of such payments or distributions.

"Final Amortization Date": With respect to any Reference Obligation, the first to occur of (i) the date on which the Reference Obligation Nominal Amount of such Reference Obligation is reduced to zero and (ii) the date on which the assets securing such Reference Obligation are liquidated, distributed or otherwise disposed of in full and the proceeds thereof are distributed or otherwise disposed of in full.

"Fitch": Fitch, Inc. and its subsidiaries and any successor or successors thereto.

"GBP-LIBOR": An amount determined only with respect to any Applicable Period for which Notes denominated in Sterling are Outstanding. For purposes of calculating the Stated Interest Rates for each Applicable Period, GBP-LIBOR shall equal GBP-LIBOR as used in the calculation of the Monthly Basis Swap Payment for such Applicable Period. For purposes of calculating the Monthly Basis Swap Payment for each Applicable Period, GBP-LIBOR shall be calculated by the Basis Swap Determination Agent as follows:

149

Confidential Treatment Requested by Goldman Sachs

GS-MIS-E-001918198
Footnote Exhibits - Page 4968

(a) On each Applicable Index Determination Date, GBP-LIBOR shall equal the rate, as obtained by the Basis Swap Calculation Agent, for Starting deposits in Europe for the Applicable Period which appears on Telerate Page 3750 (as defined in the International Swaps and Derivatives Association, Inc. 2000 Interest Rate and Currency Exchange Definitions), or such page as may replace Telerate Page 3750, as of 11:00 a.m. (New York time) on such Applicable Index Determination Date.

(b) If, on any Applicable Index Determination Date, such rate does not appear on Telerate Page 3750, or such page as may replace Telerate Page 3750, the Basis Swap Calculation Agent shall determine the arithmetic mean of the offered quotations of the Reference Banks to leading banks in the London interbank market for Starting deposits in Europe for the Applicable Period in an amount determined by the Basis Swap Calculation Agent by reference to the offered rates of the Reference Banks to leading banks in the London interbank market for Starting deposits in Europe for the Applicable Period. The Basis Swap Calculation Agent shall determine the arithmetic mean of the offered quotations of the Reference Banks to leading banks in the London interbank market for Starting deposits in Europe for the Applicable Period in an amount determined by the Basis Swap Calculation Agent by reference to the offered rates of the Reference Banks to leading banks in the London interbank market for Starting deposits in Europe for the Applicable Period. If, on any Applicable Index Determination Date, at least one of the Reference Banks provides such quotations, GBP-LIBOR shall equal such arithmetic mean of such quotations. If, on any Applicable Index Determination Date, only one or none of the Reference Banks provides such quotations, GBP-LIBOR shall be deemed to be the arithmetic mean of the offered quotations that leading banks in the City of New York selected by the Basis Swap Calculation Agent are quoting on the relevant Applicable Index Determination Date for Eurodollar deposits for the Applicable Period in an amount determined by the Basis Swap Calculation Agent by reference to the principal London offices of leading banks in the London interbank market, provided, however, that if the Basis Swap Calculation Agent is required but is unable to determine a rate in accordance with at least one of the procedures provided above, GBP-LIBOR shall be determined as described in the most recent date GBP-LIBOR was available. As used herein, "Reference Banks" means four major banks in the London interbank market selected by the Basis Swap Calculation Agent.

(c) The Basis Swap Calculation Agent shall provide GBP-LIBOR to the Note Calculation Agent as promptly as practicable following the determination thereof. As soon as possible after 11:00 a.m. (New York time) on each Applicable Index Determination Date, the Note Calculation Agent will cause notice of the Series Interest Rates for the next Interest Accrual Period to be calculated on the Series Interest Amounts (rounded to the nearest cent, with half a cent being rounded upward) on the related Payment Date to be communicated to the Issuer, the Trustee, the Issuing and Paying Agent, Euroclear, Clearstream and the paying agents. The Note Calculation Agent will also specify to the Issuers the quotations upon which the Series Interest Rates are based, and in any event the Note Calculation Agent shall notify the Issuers before 5:00 p.m. (New York time) on each Applicable Index Determination Date if it has not determined and is not in the process of determining the Series Interest Rates and the Series Interest Amounts, together with its reasons therefor.

"Global Notes": Collectively, the Rule 144A Global Notes and the Regulation S Global Notes.

"GS Group": The Goldman Sachs Group, Inc.

"Holder" or "Noteholder": With respect to any Note, the Person in whose name such Note is registered on the Note Register or Issuer Note Register, as applicable.
"ICE Aggregate USD Equivalent Outstanding Amount": When used with respect to any or all of the Notes, initially, the Aggregate USD Equivalent Outstanding Amount of such Class on the Closing Date, thereafter, it will be:

(a) decreased by an amount equal to:

(i) on the fifth Business Day following the calculation of any ICE Loss Amount, the product of (a) the related ICE Unscaled Credit Event Adjustment Amount and (b) the related Note Scaling Factor (such amount determined under this subclause (i), the "ICE Credit Event Adjustment Amount");

(ii) on the Payment Date immediately following the Due Period in which a Reference Obligation Amendment Amount is determined by the Credit Default Swap Calculation Agent on one or more Reference Obligation(s), the Notional Principal Adjustment Amount with respect to such Class of Notes on such date;

(iii) on any Stated Maturity with respect to a Series of such Class, after giving effect to clauses (i) and (ii) above, the ICE Aggregate USD Equivalent Outstanding Amount of the Notes maturing on such date; and

(iv) on a Partial Optional Redemption Date, after giving effect to clauses (i) through (iii) above, the ICE Aggregate USD Equivalent Outstanding Amount of the Notes of such Class that are redeemed in connection with such Partial Optional Redemption; and

(b) increased on any day on which additional Notes of such Class are issued by the principal amount of such additional issuance (or the USD Equivalent of such principal amount if issued in an Approved Currency other than Dollars).

For the avoidance of doubt, with respect to a Class with more than one Series Outstanding at such time of determination, any pro rata allocations made on such date pursuant to subclauses (ii) through (iv) above will be based on the ICE Aggregate USD Equivalent Outstanding Amount of each Series of such Class, as expressed in Dollars.

On any date of determination, decreases to the ICE Aggregate USD Equivalent Outstanding Amount of any Class of Notes will be determined by giving effect, in the following order, to the (i) aggregate related ICE Credit Event Adjustment Amount (if any) and (ii) aggregate related Notional Principal Adjustment Amount (if any).

"ICE Aggregate USD Equivalent Outstanding Amount Differential": An amount equal to, with respect to any Class of Notes, at any time of determination, the greater of (i) the ICE Aggregate USD Equivalent Outstanding Amount of such Class at such time less the Aggregate USD Equivalent Outstanding Amount of such Class at such time and (ii) zero.

"ICE Class Notional Amount": With respect to any Class of Notes on the Closing Date, the Initial Class Notional Amount of such Class of Notes; thereafter it will be decreased by an amount (as expressed in Dollars) equal to:

(i) on the fifth Business Day following the calculation of any ICE Loss Amount, if greater than zero, the lesser of (a)(i) the related ICE Loss Amount and (b) the ICE Class Notional Amount of all Classes of Notes that are subordinated to such Class immediately prior to such determination and (b) the ICE Class Notional Amount of such Class immediately prior to such determination (such amount, the "ICE Unscaled Credit Event Adjustment Amount"); and
 foothnote exhibits - page 4970

(8) on the Payment Date immediately following the Due Period in which a Reference Obligation Amortization Amount is determined by the Credit Default Swap Calculation Agent on one or more Reference Obligations, the Unscaled Notional Principal Adjustment Amount with respect to such Class of Notes on such date.

On any date of determination, decreases to the ICE Class Notional Amount of any Class of Notes will be determined by giving effect, in the following order, to the (i) aggregate related ICE Unscaled Credit Event Adjustment Amount (if any) and (ii) aggregate related Unscaled Notional Principal Adjustment Amount (if any).

"ICE Class Notional Amount Differential": An amount equal to, with respect to a Class of Notes, at any time of determination, the greater of (a) the ICE Class Notional Amount of such Class at such time less the Class Notional Amount of such Class at such time and (b) zero.

"ICE Currency Adjusted Accrued Interest Amount": With respect to any Series of Notes, an amount equal to the aggregate amount of interest accrued, at the applicable Series Interest Rate, during the related Interest Accrual Period on the average daily ICE Currency Adjusted Aggregate Outstanding Amount of such Series of Notes during the preceding Interest Accrual Period.

"ICE Currency Adjusted Aggregate Outstanding Amount": When used with respect to any or all of the Notes, the aggregate principal amount of such Notes when issued, as expressed in their currency of denomination and thereafter decreased:

(1) with respect to any ICE Credit Event Adjustment Amount or Notional Principal Adjustment Amount, by an amount equal to the product of (a) such Note's allocation of any ICE Credit Event Adjustment Amount or Notional Principal Adjustment Amount, as described in the definition of "ICE Aggregate USD Equivalent Outstanding Amount", as applicable, and (b) the Applicable Series Foreign Exchange Rate;

(2) on the latest Maturity with respect to a Series of Notes, after giving effect to any reductions pursuant to subclause (i) above, by the ICE Currency Adjusted Aggregate Outstanding Amount of such Notes; and

(3) in connection with a Partial Optional Redemption of such Notes, after giving effect to any reductions pursuant to subclauses (i) and (ii) above, by the ICE Currency Adjusted Aggregate Outstanding Amount of such Notes redeemed in connection with such Partial Optional Redemption.

"ICE Currency Adjusted Aggregate Outstanding Amount Differential": An amount equal to, with respect to any Series of Notes, at any time of determination, the greater of (i) the ICE Currency Adjusted Aggregate Outstanding Amount of such Series at such time less the Currency Adjusted Aggregate Outstanding Amount of such Series at such time and (ii) zero.

"ICE Currency Adjusted Interest Differential": With respect to any Series of Notes of any Class, an amount equal to (a) the ICE Currency Adjusted Accrued Interest Amount less (b) the Interest Distribution Amount (other than with respect to clause (d) of the definition thereof) with respect to such Series of Notes.

"ICE Currency Adjusted Interest Reimbursement Amount": On any Payment Date, an amount equal to the aggregate of, with respect to any Series of Notes, the products of:

(1) the ICE Currency Adjusted Reimburseable Interest Amount relating to such Series of Notes on such Payment Date (prior to giving effect to subclause (3) in the definition thereof on such Payment Date); and

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918191
Footnote Exhibits - Page 4971

(iii) the lesser of (a) 1 or (b) a fraction, the numerator of which is, if greater than zero, (1) the aggregate Unscaled Reimbursement Adjustment Amount of the Class related to such Series determined by the Credit Default Swap Calculation Agent during the related Due Period less (2) the aggregate Unscaled Credit Event Adjustment Amount of the Class related to such Series with respect to Credit Events determined by the Credit Default Swap Calculation Agent during the related Due Period, and the denominator of which is the ICE Class Notional Amount Differential of the Class related to such Series on the Determination Date immediately prior to the previous Payment Date; provided, however, that if such ICE Class Notional Amount Differential on the Determination Date immediately prior to the previous Payment Date is zero, then this subclause (iii) will be deemed to have a value of zero.

"ICE Currency Adjusted Reimbursable Interest Amount". On the Closing Date and with respect to any Series of Notes, etc. On any Payment Date thereafter, the ICE Currency Adjusted Reimbursable Interest Amount with respect to any Series shall equal the sum of:

(A) the product of (i) the ICE Currency Adjusted Reimbursable Interest Amount with respect to such Series on the immediately preceding Payment Date (or, in the case of the first Payment Date, the Closing Date) (after giving effect to any adjustments on the preceding Payment Date or the Closing Date, as the case may be, in accordance with this definition) and (ii) one plus the product of (a) the Series Interest Rate with respect to such Series and (b) the applicable Day Count Fraction; plus

(B) the ICE Currency Adjusted Interest Differential related to the immediately preceding Interest Accrual Period; minus

(C) with respect to any Reference Obligation that was removed from the Reference Portfolio during the preceding Due Period (if any), any ICE Currency Adjusted Reimbursable Interest Amount corresponding to the sum of any Loss Amounts determined with respect to such Reference Obligation that have not been subsequently reimbursed; provided that, for the avoidance of doubt, this section (C) will only be applicable if an ICE Loss Amount with respect to such Series has been calculated in connection with such removal; minus

(D) any ICE Currency Adjusted Interest Reimbursement Amount (including, for the avoidance of doubt, as a component of any Optional Redemption Reimbursement Amount) paid to such Series of Notes of such Class on such Payment Date.

"ICE Loss Amount": On (i) any Credit Default Swap Calculation Date, with respect to a Credit Event, the ICE Loss Amount will be zero; and (ii) any Business Day on which a Reference Obligation for which one or more Credit Events has occurred is removed from the Reference Portfolio, the sum of any Loss Amounts that have not been subsequently reimbursed with respect to such Reference Obligation prior to such removal, provided that, with respect to any Reference Obligation not denominated in Dollars, the ICE Loss Amount shall equal the product of (a) the ICE Loss Amount denominated in such other currency determined under subclauses (i) and (ii) above and (b) the applicable Notional Foreign Exchange Rate.

"ICE Reference Obligation Notional Amount": With respect to any Reference Obligation, an amount equal to the Initial Reference Obligation Notional Amount on the Closing Date and that will be decreased on each day on which a Principal Payment or a Reference Obligation Repayment Amount is determined by the Credit Default Swap Calculation Agent, by the relevant Reference Obligation Amortization Amount.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001919192
"ICE Reference Obligation Notional Amount Differential": With respect to any Reference Obligation, the (i) ICE Reference Obligation Notional Amount of such Reference Obligation less (ii) the Reference Obligation Notional Amount of such Reference Obligation.

"Implied Rating": In the case of a rating of a Reference Obligation by a Rating Agency, a rating that is determined by reference to any publicly available, fully monitored rating by another rating agency that, by its terms, addresses the full scope of the payment promise of the obligor.

"Implied Writedown Amount": For each Reference Obligation, (i) if the related Underlying Instruments do not provide for writedowns, applied losses, principal deficiencies or realized losses as described in clause (i) of the definition of "Writedown" to occur in respect of each Reference Obligation, on any Reference Obligation Payment Date, an amount determined by the Credit Default Swap Calculation Agent equal to the excess, if any, of the Current Period Implied Writedown Amount over the Previous Period Implied Writedown Amount, in each case in respect of such Reference Obligation Calculation Period to which such Reference Obligation Payment Date relates, and (ii) in any other case, zero.

"Implied Writedown Percentage": For each Reference Obligation, the ratio of (i) the related Reference Obligation Outstanding Principal Amount divided by (ii) the related Par Passu Amount.

"Implied Writedown Reimbursement Amount": With respect to any Reference Obligation, (i) if the related Underlying Instruments do not provide for writedowns, applied losses, principal deficiencies or realized losses as described in (i) of the definition of "Writedown" to occur in respect of each Reference Obligation, on any Reference Obligation Payment Date for such Reference Obligation, an amount determined by the Credit Default Swap Calculation Agent equal to the excess, if any, of the Previous Period Implied Writedown Amount for such Reference Obligation over the Current Period Implied Writedown Amount for such Reference Obligation, in each case in respect of the related Reference Obligation Calculation Period to which such Reference Obligation Payment Date relates, and (ii) in any other case, zero; provided that the aggregate of all Implied Writedown Reimbursement Amounts at any time with respect to a Reference Obligation shall not exceed the Reference Obligation Outstanding Principal Amount.

"Independent": As to any Person, any other Person (including a firm of accountants or lawyers and any member thereof) who (i) does not have and is not committed to acquire any material direct or any material indirect financial interest in such Person or in any Affiliate of such Person, (ii) is not connected with such Person as an officer, employee, promoter, underwriter, voting trustee, partner, director or Person performing similar functions and (iii) is not Affiliated with a firm that fails to satisfy the criteria set forth in (i) and (ii). "Independent" when used with respect to any accountant who audits the books of any Person if in addition to satisfying the criteria set forth above the accountant is independent with respect to such Person within the meaning of Rule 101 of the Code of Ethics of the American Institute of Certified Public Accountants.

"Initial Class Notional Amount": With respect to: (i) the Class SS Notes, $1,100,000,000; (ii) the Class A-1 Notes, $200,000,000; (iii) the Class A-2 Notes, $200,000,000; (iv) the Class B Notes, $200,000,000; (v) the Class C Notes, $100,000,000; (vi) the Class D Notes, $200,000,000; and (vii) the Class PL Notes, $200,000,000; in each case denominated in Dollars or the USD Equivalent of any Approved Currency other than Dollars.

"Initial Face Amount": For each Reference Obligation, an amount as specified in the Reference Obligation Registry at the time of inclusion of such Reference Obligation in the Reference Portfolio, or, if such Reference Obligation is not denominated in Dollars, the product of (i) such amount and (ii) the applicable National Foreign Exchange Rate.

"Initial Factor": For each Reference Obligation, the factor for such Reference Obligation on the Closing Date, as specified in the Reference Obligation Registry.

Confidential Treatment Requested by Goldman Sachs
"Initial Purchaser": Goldman, Sachs & Co.

"Initial Reference Obligation Notional Amount": For (i) each Dollar denominated Reference Obligation, the notional amount of such Reference Obligation as recorded in the Reference Obligation Registry, and (ii) each Reference Obligation denominated in a currency other than Dollars, the product of (a) the notional amount of such Reference Obligation denominated in such other currency as recorded in the Reference Obligation Registry and (b) its Notional Foreign Exchange Rate, in each case as of the time of inclusion of such Reference Obligation in the Reference Portfolio.

"Initial Reference Portfolio": The portfolio of Reference Obligations on the Closing Date.

"Initial Reference Portfolio Notional Amount": The aggregate Reference Obligation Notional Amount of the Initial Reference Portfolio.

"Insurer": With respect to any Reference Obligation, the Insurer set out in Schedule A with respect to such Reference Obligation.

"Interest Accrual Period": The period from and including the Closing Date to but excluding the first Payment Date, and each successive period from and including each Payment Date to but excluding the following Payment Date (except with respect to the Payment Date preceding the Stated Maturity or the Mandatory Redemption Date, as the case may be, to but excluding the Stated Maturity or the Mandatory Redemption Date, as the case may be).

"Interest Distribution Amount": With respect to any Payment Date and with respect to any Series of Notes, the sum of:

(a) the aggregate amount of interest accrued, at the applicable Series Interest Rate, during the related Interest Accumulation Period on the average Daily Currency Adjusted Aggregate Outstanding Amount of such Series of Notes during the preceding Interest Accumulation Period;

(b) the aggregate amount of interest accrued, at the applicable Series Interest Rate, during the related Interest Accumulation Period, on any Defaulted Interest relating to such Series of Notes;

(c) any Defaulted Interest relating to such Series of Notes; and

(d) any ICE Currency Adjusted Interest Reimbursement Amount allocable to such Series.

"Interest Proceeds": With respect to any Payment Date (including the Optional Redemption Date or any Partial Optional Redemption Date, the Mandatory Redemption Date and/or the Stated Maturity), without duplication:

(i) the portion of the Collateral Interest Amount actually received during the related Due Period;

(ii) the Monthly Basis Swap Payment received on such Payment Date;

(iii) the Fixed Payment (for the avoidance of doubt, excluding those related amounts deposited in the CDS Issuer Fixed Payment Subaccount on such Payment Date but including those related amounts released from the CDS Issuer Fixed Payment Subaccount on such Payment Date) with respect to such Payment Date.
Footnote Exhibits - Page 4974

(v) any ICE Currency Adjusted Interest Reimbursement Amounts received during the related Due Period;

(vi) after an event of default, as such term is defined under the Collateral Put Agreement, any interest payment received by the issuer from the Posted Collateral during the related Due Period (but not to exceed the amount of the Collateral Put Provider’s obligations owed to the Issuer); and

(vii) all payments of principal on Eligible Investments purchased with the proceeds of any of items (i), (ii), (vi), (v) and (v) of this definition (without duplication) received during the related Due Period; provided that, prior to an event of default, as such term is defined in the Collateral Put Agreement, any payments received by the Issuer under the Posted Collateral shall not constitute “interest proceeds” and such amounts shall be deposited in the Collateral Put Provider Account and be treated in accordance with the Credit Support Annex, if any.

“ISDA Credit Derivatives Definitions”: The 2003 Credit Derivative Definitions published by the International Swap and Derivatives Association, Inc., as supplemented by the May 2003 Supplement to the 2003 Credit Derivatives Definitions.

“Issuer Assets”: All money (except for money, securities, investments and agreements in the Issuer’s bank account in the Cayman Islands), instruments and other property and rights, including, without limitation, the Collateral and the Issuer’s rights under the Credit Default Swap, the Basis Swap, the Collateral Put Agreement, the Collateral Disposal Agreement and the Portfolio Selection Agreement, subject to or intended to be subject to the lien of the Indenture for the benefit of the Secured Parties as of any particular time, including all Proceeds thereof and the rights, title and interest granted to the Issuer under the Indenture.

“Issuer Note Register”: The register maintained by the Issuing and Paying Agent or any Issuer Note Register with respect to the Issuer Notes under the Issuing and Paying Agency Agreement.

“Issuer Note Register”: The agent appointed by the Issuer under the Issuing and Paying Agency Agreement to act as note register for the purpose of registering and recording in the Issuer Note Register the Issuer Notes and transfers of such Notes.

“Issuer Notes”: Collectively, the Class A-2 Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class FL Notes.

“JPY-LIBOR”: An amount determined only with respect to any Applicable Period for which Notes denominated in Yen are Outstanding. For purposes of calculating the Series Interest Rates for each Applicable Period, JPY-LIBOR shall equal JPY-LIBOR as used in the calculation of the Monthly Basis Swap Payment for such Applicable Period. For purposes of calculating the Monthly Basis Swap Payment for each Applicable Period, JPY-LIBOR shall be calculated by the Basis Swap Calculation Agent as follows:

(a) On each Applicable Index Determination Date, JPY-LIBOR shall equal the rate, as obtained by the Basis Swap Calculation Agent, for deposits in Yen for the Applicable Period which appears on Toreset Page 3750 (as defined in the International Swaps and Derivatives Association, Inc. 2000 Interest Rate and Currency Exchange Definitions), or such page as may replace Toreset Page 3750, as of 11:00 a.m. (New York time) on such Applicable Index Determination Date.
(b) If, on any Applicable Index Determination Date, such rate does not appear on Telersate Page 3750, or such page as may replace Telersate Page 3750, the Basis Swap Calculation Agent shall determine the arithmetic mean of the offered quotations of the Reference Banks to leading banks in the London interbank market for deposits in Yen for the Applicable Period in an amount determined by the Basis Swap Calculation Agent by reference to requests for quotations as of approximately 11:00 a.m. (New York time) on the Applicable Index Determination Date made by the Basis Swap Calculation Agent to the Reference Banks. If, on any Applicable Index Determination Date, at least two of the Reference Banks provide such quotations, JPY-LIBOR shall equal such arithmetic mean of such quotations. If, on any Applicable Index Determination Date, only one or none of the Reference Banks provide such quotations, JPY-LIBOR shall be deemed to be the arithmetic mean of the offered quotations that leading banks in Tokyo selected by the Basis Swap Calculation Agent are quoting on the relevant Applicable Index Determination Date for loans in Yen for the Applicable Period in an amount determined by the Basis Swap Calculation Agent equal to an amount that is representative for a single transaction in such market at such time to leading European banks; provided, however, that if the Basis Swap Calculation Agent is required but is unable to determine a rate in accordance with at least one of the procedures provided above, JPY-LIBOR shall be JPY-LIBOR as determined on the most recent date JPY-LIBOR was available. As used herein, "Reference Banks" means four major banks in the London interbank market selected by the Basis Swap Calculation Agent.

(c) The Basis Swap Calculation Agent shall provide JPY-LIBOR to the Note Calculation Agent as promptly as practicable following the determination thereof. As soon as possible after 11:00 a.m. (New York time) on each Applicable Index Determination Date, but in no event later than 11:00 a.m. (New York time) on the Business Day immediately following each Applicable Index Determination Date, the Note Calculation Agent will cause notice of the Series Interest Rates for the next Interest Accrual Period and the Series Interest Amounts (rounded to the nearest cent, with half a cent being rounded upward) to be communicated to the Issuers, the Trustee, the Issuing and Paying Agent, Euroclear, Clearstream and the paying agents. The Note Calculation Agent will also specify to the Issuer the quotations upon which the Series Interest Rates are based, and in any event the Note Calculation Agent shall notify the Issuers before 5:00 p.m. (New York time) on each Applicable Index Determination Date if it has not determined and is not in the process of determining the Series Interest Rates and the Series Interest Amounts, together with its reasons therefor.

"Legal Final Maturity Date": With respect to any Reference Obligation, the "Rated Final Maturity Date" set out in Schedule A with respect to such Reference Obligation (subject, for the avoidance of doubt, to any business day convention applicable to the legal final maturity date of the Reference Obligation), provided that if the legal final maturity date of the Reference Obligation is amended, the Legal Final Maturity Date shall be such date as amended.

"LIBOR": An amount determined only with respect to any Applicable Period for which Notes denominated in Dollars are Outstanding. For purposes of calculating the Series Interest Rates for each Applicable Period, LIBOR shall equal LIBOR as used in the calculation of the Monthly Basis Swap Payment for such Applicable Period. For purposes of calculating the Monthly Basis Swap Payment for each Applicable Period, LIBOR shall be calculated by the Basis Swap Calculation Agent as follows:

(a) On each Applicable Index Determination Date, LIBOR shall equal the rate, as obtained by the Basis Swap Calculation Agent, for Euroclear deposits for the Applicable Period which appears on Telersate Page 3750 (as defined in the International Swaps and Derivatives Association, Inc. 2000 Interest Rate and Currency Exchange Definitions), or

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001919196
Footnote Exhibits - Page 4976

such page as may replace Telerate Page 3750, as of 11:00 a.m. (New York time) on such Applicable Index Determination Date.

(b) If, on any Applicable Index Determination Date, such rate does not appear on Telerate Page 3750, or such page as may replace Telerate Page 3750, the Basis Swap Calculation Agent shall determine the arithmetic mean of the offered quotations of the Reference Banks to leading banks in the London interbank market for Eurodollar deposits for the Applicable Period in an amount determined by the Basis Swap Calculation Agent by reference to requests for quotations as of approximately 11:00 a.m. (New York time) on the Applicable Index Determination Date made by the Basis Swap Calculation Agent to the Reference Banks. If, on any Applicable Index Determination Date, at least two of the Reference Banks provide such quotations, LIBOR shall equal such arithmetic mean of such quotations. If, on any Applicable Index Determination Date, only one or none of the Reference Banks provide such quotations, LIBOR shall be deemed to be the arithmetic mean of the offered quotations that leading banks in the City of New York selected by the Basis Swap Calculation Agent are quoting on the relevant Applicable Index Determination Date for Eurodollar deposits for the Applicable Period in an amount determined by the Basis Swap Calculation Agent by reference to the principal London offices of leading banks in the London interbank market; provided, however, that if the Basis Swap Calculation Agent is required but is unable to determine a rate in accordance with at least one of the procedures provided above, LIBOR shall be LIBOR as determined on the most recent date LIBOR was available. As used herein, "Reference Banks" means four major banks in the London interbank market selected by the Basis Swap Calculation Agent.

(c) The Basis Swap Calculation Agent shall provide LIBOR to the Note Calculation Agent as promptly as practicable following the determination thereof. As soon as possible after 11:00 a.m. (New York time) on each Applicable Index Determination Date, the Note Calculation Agent will cause notice of the Series Interest Rates for the next Interest Accrual Period and the Series Interest Amounts (rounded to the nearest cent, with half a cent being rounded upward) on the related Payment Date to be communicated to the Issuer, the Trustee, the Issuing and Paying Agent, Euroclear, Clearstream and the paying agents. The Note Calculation Agent will also specify to the Issuer the quotations upon which the Series Interest Rates are based, and in any event the Note Calculation Agent shall notify the Issuers before 5:00 p.m. (New York time) on each Applicable Index Determination Date if it has not determined or is not in the process of determining the Series Interest Rates and the Series Interest Amounts. Together with its reasons therefor.

"London Banking Day": A day on which commercial banks are open for general business (including dealings in foreign exchange and foreign currency deposits) in London.

"Majority": With respect to the Notes or any Class thereof, the holders of more than 50% of the Aggregate USD Equivalent Outstanding Amount of the Notes or of such Class, as the case may be.

"Makewhole Amount": In connection with an Optional Redemption in Whole prior to the Payment Date in April 2010, an amount calculated by the Trustee equal to the net present value of a stream of fixed payments, such fixed payments being the Portfolio Selection Fees related to the Notes being redeemed, that would have been payable to the Portfolio Selection Agent from the redemption to the Payment Date in April 2010, discounted from and including the date of calculation to but excluding the Payment Date in April 2010, (ii) at the applicable rate (the "LIBOR Swap Rate") on London interbank offered rate swap agreements ("LIBOR Swaps") (determined, if necessary, by interpolating linearly between the LIBOR Swap and the term closest to and greater than the time from the redemption date to

Confidential Treatment Requested by Goldman Sachs GS MSB-E-001918167
the Payment Date in April 2010 and the LIBOR Swap with the term closest to and less than the time from
the redemption date to the Payment Date in April 2010 as reported on page 19001 on the Teletrate
Access Service (or any successor page on such service) as of 10:00 a.m. (New York time) on the tenth
Business Day preceding the related redemption date or (y) if such LIBOR Swap Rates are not reported or
are not ascertainable, the LIBOR Swap Rate as determined by the Calculation Agent in accordance with
the calculation of LIBOR.

"Maximum Redemption Refund Amount": With respect to the Stated Maturity of any Series of
Notes or in connection with a Mandatory Redemption caused by a termination of the Credit Default Swap
as a result of a default by the Protection Buyer, a termination of the Collateral Put Agreement as a result
of a default by the Collateral Put Provider or a termination of the Basic Swap as a result of a default by
the Basic Swap Counterparty, if an ICE Reference Obligation Notional Amount Differential is greater
than zero with respect to one or more Reference Obligations (a) that remain in the Reference Portfolio at
such time of determination, (b) with respect to which the ICE Reference Obligation Notional Amount
Differential was equal to zero on the day that was one calendar year prior to such time of determination,
(c) that, at the time of such determination, has an Actual Rating above (1) if rated by Moody's, "Ca" or (2) if rated
by S&P, "CC" and (d) with respect to which no Credit Event (other than a Writeoff) has occurred at any
time on or prior to such time of determination, an amount, if greater than zero, equal to the aggregate of
the differences, determined for each such Reference Obligation, of (f) the ICE Reference Obligation
Notional Amount Differential of such Reference Obligation and (g) if greater than zero, the ICE Reference
Obligation Notional Amount of such Reference Obligation less the related Current Dollar Price.

"Moody's": Moody's Investors Service, Inc. and any successor or successors thereto.

"Moody's Rating": The following definition of "Moody's Rating" has been provided to the Issuer
by Moody's and capitalized terms used therein with respect to types of securities have the meanings
ascribed thereto by Moody's. With respect to an Obligation, a rating to be determined as follows:

(1) if such Obligation has an expressly mentioned outstanding rating assigned by Moody's,
which rating by its terms addresses the full scope of the payment promise of the obligor
of such Obligation, the Moody's Rating shall be such rating, or if such Obligation is not
rated by Moody's, but a request has been made to Moody's for a rating to such
Obligation, the Moody's Rating shall be the rating so assigned by Moody's; provided
that for purposes of this definition,

(i) the rating assigned by Moody's to an Obligation placed on watch for possible
downgrade by Moody's will be deemed to have been downgraded by two
subcategories, and

(ii) the rating assigned by Moody's to an Obligation placed on watch for possible
upgrade by Moody's will be deemed to have been upgraded by two
subcategories, provided that an Obligation rated "Aa1" by Moody's that is placed
on watch for possible upgrade by Moody's will be deemed to have been
upgraded by one rating subcategory; and

(2) if such Obligation is not rated by Moody's but is rated by S&P, then the Moody's
Rating of such Obligation may be an Implied Rating determined by subtracting
the number of subcategories from the Moody's equivalent rating according to the
following table ("notching").

### Notes

- If such Obligation is dual-rated Jumbo A or A+ A, the Moody’s Rating shall be the rating determined in subclause (b) above, plus one-half of a subcategory;
Footnote Exhibits - Page 4979

(d) If such Obligation is not rated by Moody's but is rated by S&P and is a Commercial Mortgage-Backed Security, the Moody's Rating of such Obligation may be determined by subtracting the number of notches from the Moody's equivalent rating according to the following table:

<table>
<thead>
<tr>
<th>Commercial Mortgage Backed Securities</th>
<th>Tranche rated by S&amp;P; no tranche in deal rated by Moody's</th>
<th>Tranche rated by S&amp;P; at least one other tranche in deal rated by Moody's</th>
</tr>
</thead>
<tbody>
<tr>
<td>Conduit</td>
<td>2 notches from S&amp;P</td>
<td>1.5 notches from S&amp;P</td>
</tr>
<tr>
<td>Credit Tenant Lease</td>
<td>Follow corporate notching practice</td>
<td>Follow corporate notching practice</td>
</tr>
<tr>
<td>Large Loan</td>
<td>No notching permitted</td>
<td></td>
</tr>
</tbody>
</table>

1 For purposes of the "Moody's Rating", conduits are defined as fixed rate, sequential pay, multi-borrower transactions having a Herfindahl score of 40 or higher at the loan level with all collateral consisting of loans. A minor, large lease, Credit Tenant Leases and any other real estate collateral factored in.

2 A 1.5 notch bailout implies, for example, that if the S&P rating were BBB, then the Moody's rating would be in between the Baa and Ba rating bands.

If such Obligation is a CDO Cashflow Security, no notching is permitted and the Moody's Rating shall be the rating as assigned by Moody's.

provided that (i) any ratings by S&P used to determined a Moody's Ratings shall (a) address the full return of interest and principal; (b) be for the benefit of multiple investors and remain valid if the Obligation is transferred to subsequent investors; (c) be actually expressly monitored ratings rather than any "credit estimate" or "shadow rating" and (d) be mentioned through the life of the Obligation and (2) no notching is permitted based upon a rating by S&P with an "R", "F" or "P" subscript; and provided, further, that the aggregate Reference Obligation National Amount of Reference Obligations that may be given a Moody's Rating based on Reference Obligations rated by only S&P may not exceed 7.5% of the Initial Reference Portfolio National Amount, and provided, further, that Asset-Backed Securities or Mortgage-Backed Securities, other than those listed in this paragraph (2) and any RMBS Agency Securities, shall have the rating assigned by Moody's.

"Moody's Rating Condition": With respect to any proposed action to be taken under the Indenture or any other document contemplated by the Indenture, a condition that is satisfied when Moody's has confirmed in writing to the Issuer and/or the Trustee that an immediate withdrawal or reduction with respect to any then-current rating by Moody's of any Class of Notes will not occur as a result of such proposed action.

*Mortgage-Backed Securities*: Any Residential Mortgage-Backed Securities or Commercial Mortgage-Backed Securities.

*New Zealand Dollar*: "NZD" or "NZ$: The official currency of New Zealand.

*Non-U.S. Obligor*: An Issuer or obligor of a Reference Obligation that (i) is not a Special Purpose Vehicle and (ii) is organized in a sovereign jurisdiction other than the United States of America.

*Note Payment Sequence*: The application, in accordance with the Priority of Payments, of Principal Proceeds, in the following order: to the payment of principal of the Class B Notes until redeemed or otherwise paid in full, then to the payment of principal of the Class A-1 Notes until redeemed or otherwise paid in full, then to the payment of principal of the Class A-2 Notes until redeemed or otherwise paid in full, then to the payment of principal of the Class A Notes until redeemed or otherwise paid in full, and finally to the payment of principal of the Class A-3 Notes until redeemed or otherwise paid in full.
otherwise paid in full, then to the payment of principal of the Class B Notes until redeemed or otherwise paid in full, then to the payment of principal of the Class C Notes until redeemed or otherwise paid in full, then to the payment of principal of the Class D Notes until redeemed or otherwise paid in full, then to the payment of principal of the Class FL Notes until redeemed or otherwise paid in full, provided that (i) with respect to any Class of Notes issued in more than one Series, allocation of principal to Notes of each related Series will be made pro rata based on (a) the Aggregate USD Equivalent Outstanding Amount of such Notes (other than in connection with a Mandatory Redemption) and (b) the Dollar equivalent principal amount of such Notes determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date (in connection with a Mandatory Redemption) and (ii) principal will be applied to Notes in the Approved Currency in which such Notes are denominated up to the Currency Adjusted Aggregate Outstanding Amount of such Notes.

"Note Register": The register maintained by the Trustee or any Note Registrar with respect to the Co-issued Notes under the Indenture.

"Note Registrar": The agent appointed by the Issuer under the Indenture to act as note registrar for the purpose of registering and recording in the Note Register the Co-issued Notes and transfers of such Notes.

"Note Scaling Factor": On any date of determination, with respect to any Class of Notes, a fraction equal to (i) the Aggregate USD Equivalent Outstanding Amount of such Class of Notes on such Date divided by (ii) the Class Notional Amount of such Class of Notes on such Date. For the avoidance of doubt, the Note Scaling Factor may exceed 1.

"Noteholder": A Holder of the Notes of any Class.

"Noteholder Communication Notice": A notice from an Originating Noteholder to the Trustee or the Issuing and Paying Agent, as applicable, of the contents of which are to be delivered by the Trustee or the Issuing and Paying Agent, as applicable, to all other Noteholders in accordance with the Indenture or the Issuing and Paying Agency Agreement, as applicable.

"Notes": Collectively, the Class SS Notes, the Class A Notes, Class B Notes, Class C Notes, Class D Notes and Class FL Notes.

"Notice of Publicity Available Information": An irrevocable notice from the Protection Buyer to the Trustee (which shall forward such notice to the Issuers, the Rating Agencies and the Collateral Disposal Agent) (which may be by telephone) that cites Publicly Available Information confirming the occurrence of a Credit Event. The notice must contain a copy, or a description in reasonable detail, of the relevant Publicly Available Information.

"Notional Foreign Exchange Rate": The Spot FX Rate determined as of the Closing Date.

"Notional Principal Amount": On any date of determination, the Reference Obligation Amortization Amounts.

"NZD-BBR": NZD-BBR will be an amount determined only with respect to any Applicable Period for which Notes denominated in New Zealand Dollars are Outstanding. For purposes of calculating the Issuance Interest Rates for each Applicable Period, NZD-BBR shall equal NZD-BBR as used in the calculation of the Monthly Basis Swap Payment for such Applicable Period. For purposes of calculating the Monthly Basis Swap Payment for each Applicable Period, NZD-BBR shall be calculated by the Basis Swap Calculation Agent as follows:

(a) On each Applicable Index Determination Date, NZD-BBR shall equal the rate, as obtained by the Basis Swap Calculation Agent, for deposits in New Zealand Dollar bills of
Footnote Exhibits - Page 4981

exchange for the Applicable Period which appears on the Teletrate Page 2484 (as defined in the International Swaps and Derivatives Association, Inc. 2000 Interest Rate and Currency Exchange Definitions), or such page as may replace Teletrate Page 2484, as of 11:30 a.m. (Wellington time) on such Applicable Index Determination Date.

(b) If, on any Applicable Index Determination Date, such rate does not appear on Teletrate Page 2484, or such page as may replace Teletrate Page 2484, the Basis Swap Calculation Agent shall determine the arithmetic mean on the basis of the bid and offered rates of the Reference Banks for New Zealand Dollar bills of exchange for the Applicable Period in an amount determined by the Basis Swap Calculation Agent by reference to requests for quotations as of approximately 11:00 a.m. (Wellington time) on the Applicable Index Determination Date made by the Basis Swap Calculation Agent to the principal New Zealand office of each of the Reference Banks. If, on any Applicable Index Determination Date, at least two of the Reference Banks provide sets of bid and offered rate quotations, NZD-BBR shall mean the arithmetic mean of such quotations. If, on any Applicable Index Determination Date, only one or none of the Reference Banks provides such bid and offered rate quotations, NZD-BBR shall mean the arithmetic mean of the rates quoted by major banks in New Zealand selected by the Basis Swap Calculation Agent, at approximately 11:00 a.m. (Wellington time) on the relevant Applicable Index Determination Date for New Zealand Dollar bills of exchange for the Applicable Period in an amount determined by the Basis Swap Calculation Agent equal to an amount that is representative for a single transaction in such market at such time; provided, however, that if the Basis Swap Calculation Agent is unable to determine a rate in accordance with at least one of the procedures provided above, NZD-BBR shall mean NZD-BBR as determined on the most recent date NZD-BBR was available. As used herein, "Reference Banks" means four major banks in the New Zealand money market selected by the Basis Swap Calculation Agent.

(c) The Basis Swap Calculation Agent shall provide NZD-BBR to the Note Calculation Agent as promptly as practicable following the determination thereof. As soon as possible after 11:00 a.m. (New York time) on each Applicable Index Determination Date, but in no event later than 11:00 a.m. (New York time) on the Business Day immediately following each Applicable Index Determination Date, the Note Calculation Agent will cause notice of the Issuance Interest Rates for the next Interest Accrual Period and the Issuance Interest Amounts (rounded to the nearest cent, with half a cent being rounded upward) on the related Payment Date to be communicated to the Issuer, the Trustee, the Issuing and Paying Agent, if applicable, Euroclear, Clearstream and the paying agents. The Note Calculation Agent will also specify to the Issuer the quotations upon which the Issuance Interest Rates are based, and in any event the Note Calculation Agent shall notify the Issuer before 5:00 p.m. (New York time) on each Applicable Index Determination Date if it has not determined and is not in the process of determining the Issuance Interest Rates and the Issuance Interest Amounts, together with its reasons thereof.

"Obligation": A Reference Obligation, a Collateral Security or an Eligible Investment, as the case may be.

"Optional Redemption Date": Any Payment Date specified for an Optional Redemption in Whole.

"Optional Redemption Reimbursement Amount": With respect to any Reversible Loss Series, the aggregate of the following amounts:

- the ICE Currency Adjusted Aggregate Outstanding Amount Differential with respect to such Series; and
Footnote Exhibits - Page 4982

(a) the ICE Currency Adjusted Reimbursable Interest Amount with respect to such Series.

"Original Principal Amount": For each Reference Obligation, the outstanding principal balance of such Reference Obligation as of the issuance date of such Reference Obligation, as recorded in the Reference Obligation Registry.

"Originating Noteholder": With respect to (i) any Collateral Security Substitution Request Notice, the Noteholder(s) submitting such Collateral Security Substitution Request Notice and (ii) any Noteholder Communication Notice, the Noteholder(s) submitting such Noteholder Communication Notice.

"Outstanding": With respect to the principal amount of any Note of any Class, as of any time of determination, the principal amount of such Note after giving effect to (i) each reduction (if any) in the principal amount of such Note as described in "Summary—Notes—Decrease in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes", (ii) each increase (if any) in the principal amount of such Note as described in "Summary—Notes—Increase in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes", (iii) each payment (if any) of the principal amount of such Note and (iv) any additional Notes of such Class issued pursuant to the Indenture, in each case prior to such time of determination, except:

(a) Notes theretofore cancelled by the Note Registrar or the Issuer Note Registrar, as applicable or delivered to the Note Registrar or the Issuer Note Registrar, as applicable, for cancellation;

(b) Notes or, in each case, portions thereof for whose payment or redemption funds in the necessary amount have been theretofore irrevocably deposited with the Trustee or any Paying Agent in trust for the Holders of such Notes, provided that if such Notes or portions thereof are to be redeemed, notice of such redemption has been duly given pursuant to the Indenture or the Issuing and Paying Agency Agreement, as applicable or provision therefor satisfactory to the Trustee or the Issuing and Paying Agent, as applicable, has been made;

(c) Notes in exchange for or in lieu of which other Notes have been authenticated and delivered pursuant to the Indenture or the Issuing and Paying Agency Agreement, as applicable, unless proof satisfactory to the Trustee or the Issuing and Paying Agent, as applicable, is presented that any such original Notes are held by a holder in due course;

(d) Notes alleged to have been mutilated, destroyed, lost or stolen for which replacement Notes have been issued as provided in the Indenture;

(e) In determining whether the Holders of the requisite Aggregate USD Equivalent Outstanding Amount have given any request, demand, authorization, direction, notice, consent or waiver hereunder, Notes owned by the Issuer or the Co-Issuer shall be disregarded and deemed not to be Outstanding, except that in determining whether the Trustee or Issuing and Paying Agent, as applicable, shall be protected in relying upon any such request, demand, authorization, direction, notice, consent or waiver, only notes that a Trust Officer of the Trustee or the Issuing and Paying Agent, as applicable, knows to be so owned shall be so disregarded;

(f) for the avoidance of doubt, any Notes held by, or with respect to which discretionary voting rights are held by, the Initial Purchaser and/or its Affiliates or its respective employees will have voting rights with respect to all matters as to which the Holders of Notes are entitled to vote.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001018203
(g) for the avoidance of doubt, any Notes held by, or with respect to which discretionary voting rights are held by, the Portfolio Selection Agent and/or its Affiliates or by any account or fund for which the Portfolio Selection Agent or any Affiliate has discretionary authority will have voting rights with respect to all matters as to which the Holders of Notes are entitled to vote, and

(h) Notes so owned that have been pledged in good faith may be regarded as Outstanding if the pledgee establishes to the satisfaction of the Trustee or the Issuer and Paying Agent, as applicable, that the pledgee has the right so to act with respect to such Notes and the pledgee is not the Issuer, the Co-Issuer or any other obligor upon the Notes or any Affiliate of the Issuer, the Co-Issuer or such other obligor.

"Paid in Full Amount": For each Reference Obligation, as of any date of determination, the aggregate of the Reference Obligation Outstanding Principal Amount of such Reference Obligation and the aggregate outstanding principal balance of all obligations of the related Reference Entity secured by the Underlying Assets and ranking pari passu in priority with such Reference Obligation.

"Partial Optional Redemption Date": Any Payment Date specified for a Partial Optional Redemption.

"Payment Date": The 28th of each month or if such day is not a Business Day, the next succeeding Business Day, commencing May 29, 2007 and ending on the Stated Maturity.

"Payment Default": Any Event of Default specified in subclauses (i), (ii), (iv) or (v) of the definition of such term.

"Person": An individual, corporation (including a business trust), partnership, limited liability company, joint venture, association, joint stock company, trust (including any beneficiary thereof), bank, unincorporated association or government or any agency or political subdivision thereof or any other entity of a similar nature.

"Portfolio Selection Agreement": An agreement dated as of the Closing Date, between the Issuer and the Portfolio Selection Agent relating to the Portfolio Selection Agent's performance on behalf of the Issuer of certain investment management duties with respect to the Reference Portfolio, as amended from time to time in accordance with its terms and the terms of the indenture.

"Posted Collateral": Any collateral posted by the Collateral Put Provider to the Issuer pursuant to the Credit Support Annex, if any.

"Previous Period Implied Writedown Amount": For each Reference Obligation, with respect to any Reference Obligation Calculation Period, the Current Period Implied Writedown Amount, as determined in relation to the last day of the immediately preceding Reference Obligation Calculation Period.

"Principal Payment": With respect to any Reference Obligation, the occurrence of a payment of an amount to the holders of the Reference Obligation in respect of principal (scheduled or unscheduled) in respect of the Reference Obligation other than a payment in respect of principal representing capitalized interest that relates to the term of the Credit Default Swap, excluding, for the avoidance of doubt, any Writedown Reimbursement.

"Principal Payment Amount": With respect to any Reference Obligation and in connection with a Principal Payment on such Reference Obligation, an amount equal to the product of (i) the amount of any such Principal Payment on such date, (ii) the Applicable Percentage and (iii) if such Reference Obligation is not denominated in Dollars, the applicable National Foreign Exchange Rate.
"Principal Proceeds": Without duplication (in each case for so long as it has not been previously applied):

(i) Disposition Proceeds;

(ii) all payments of principal (including optional or mandatory redemptions or prepayments) received on the Collateral;

(iii) all proceeds received from any additional issuance of Notes pursuant to the Indenture not previously invested in Collateral Securities;

(iv) any termination payments paid to the Issuer under the Credit Default Swap and the Basis Swap;

(v) any Currency Adjusted Reinstatement Adjustment Amount paid to the Issuer by the Protection Buyer (excluding from amounts available in the CDS Issuer Account (but not including amounts on deposit in the CDS Issuer Fixed Payment Subaccount));

(vi) any Optional Redemption Reimbursement Amount paid to the Issuer by the Protection Buyer (excluding from amounts available in the CDS Issuer Account (but not including amounts on deposit in the CDS Issuer Fixed Payment Subaccount));

(vii) any Approved Currency Collateral Payment paid to the Issuer by the Protection Buyer;

(viii) any Redemption Valuedown Refund paid to the Issuer by the Protection Buyer (excluding from amounts available in the CDS Issuer Account (but not including amounts on deposit in the CDS Issuer Fixed Payment Subaccount)); and

(ix) all payments of principal on Eligible Investments purchased with the proceeds of any of items (i) through (viii) of this definition (without duplication) and not applied during the related Due Period;

provided, that, prior to an event of default, as such term is defined under the Collateral Put Agreement, any payment received by the Issuer under the Posted Collateral shall not constitute Principal Proceeds and such amounts shall be deposited in the Collateral Put Provider Account and be treated in accordance with the Credit Support Annex, if any.

"Principal Shortfall Amount": With respect to any Reference Obligation that suffered a Failure to Pay Principal Credit Event, the greater of (i) zero and (ii) the amount equal to the product of (A) the Expected Principal Amount for such Reference Obligation minus the Actual Principal Amount for such Reference Obligation, (B) the Applicable Percentage and (C) if such Reference Obligation is not denominated in Dollars, the applicable Notional Foreign Exchange Rate.

"Principal Shortfall Reimbursement": With respect to any day and any Reference Obligation, the payment by or on behalf of the related Reference Entity of an amount in respect of the Reference Obligation in or toward the satisfaction of any default of or failure to pay principal arising from one or more prior occurrences of a Failure to Pay Principal with respect to such Reference Obligation.

"Principal Shortfall Reimbursement Amount": With respect to any day and any Reference Obligation, the product of (i) the amount of any Principal Shortfall Reimbursement related to such Reference Obligation on such day and (ii) the related Applicable Percentage.

"Proceeds": (i) Any property (including but not limited to cash and securities) received as a Distribution on the Issuer Assets or any portion thereof, (ii) any property (including but not limited to cash

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001919205
Footnote Exhibits - Page 4985

and securities) received in connection with the sale, liquidation, exchange or other disposition of the issuer Assets or any portion thereof, and (ii) all proceeds (as such term is defined in the UCC) of the issuer Assets or any portion thereof.

"Protection Buyer Credit Support Document": The meaning assigned to the term "Credit Support Document" in the Credit Default Swap and initially, the Guaranty dated as of the Closing Date by GS Group in favor of the Issuer as beneficiary thereof with respect to the obligations of the Protection Buyer under the Credit Default Swap.

"Protection Buyer Credit Support Provider": The meaning assigned to the term "Credit Support Provider" in the Credit Default Swap and initially, GS Group.

"Protection Buyer Default Termination Payment": Any Credit Default Swap Termination Payment required to be made by the Issuer to the Protection Buyer pursuant to the Credit Default Swap (i) in the event of a termination of the Credit Default Swap in respect of which the Protection Buyer is the defaulting party or (ii) in which the Protection Buyer was the sole "Affected Party" (as such term is defined in the Credit Default Swap) (other than in connection with a "Tax Event" or "Negligence"), in each case as defined in the Credit Default Swap.

"Protection Buyer Notes": Notes acquired by the Protection Buyer and/or one or more Affiliates thereof.

"Publicly Available Information": Any information that reasonably confirms any of the facts relevant to the determination that the Credit Event described in a Credit Event Notice has occurred and which (i) has been published in not less than two internationally recognized news sources or electronically displayed news sources (it being understood that each of Bloomberg News, Dow Jones Teletrate Service, Reuters, Market News Services, Dow Jones News Wire, Wall Street Journal, New York Times, Nikkei Keizai Shimbun, Asahi Shimbun, Yomiuri Shimbun, Financial Times, La Tribune, Les Echos or The Australian Financial Review (or successor publications) shall be deemed to be an internationally recognized news source or electronically displayed news source), provided that if either of the parties to the Credit Default Swap or any of their respective Affiliates is cited as the sole source of such information, then such information shall not be deemed to be Publicly Available Information unless such party or its Affiliate is acting in its capacity as trustee, custodian, administrative agent, clearing agent or paying agent for a Reference Obligation, (ii) is information received from (a) a Reference Entity, (b) a trustee, custodian, administrative agent, clearing agent or paying agent for a Reference Obligation or a Person which was a party to the offering or distribution of the related Reference Obligation or is a party to any agreement relating to the related Reference Obligation, in each case other than the Protection Buyer or any of its Affiliates, (c) a master servicer, a primary servicer, a special servicer or the servicer (or any successor servicer) of any trust or similar arrangement sponsored by a specialized servicer, (d) Trepp, LLC, Cberse, BNC, Moody's, S&P or Fitch or any successor thereto, in each case generally made available to the public, (e) Trepp, LLC, Cberse, BNC, Moody's, S&P or Fitch or any successor thereto, (f) any other Person acting in a similar capacity for a Reference Obligation, (g) Moody's, S&P or Fitch or any successor thereto, in each case generally made available to the public, (h) Moody's, S&P or Fitch or any successor thereto, (i) any other Person acting in a similar capacity for a Reference Obligation, (j) Moody's, S&P or Fitch or any successor thereto, (k) any other Person acting in a similar capacity for a Reference Obligation, (l) Moody's, S&P or Fitch or any successor thereto, (m) any other Person acting in a similar capacity for a Reference Obligation, (n) Moody's, S&P or Fitch or any successor thereto, (o) any other Person acting in a similar capacity for a Reference Obligation, (p) Moody's, S&P or Fitch or any successor thereto, (q) any other Person acting in a similar capacity for a Reference Obligation, (r) Moody's, S&P or Fitch or any successor thereto, (s) any other Person acting in a similar capacity for a Reference Obligation, (t) Moody's, S&P or Fitch or any successor thereto, (u) any other Person acting in a similar capacity for a Reference Obligation, (v) Moody's, S&P or Fitch or any successor thereto, (w) any other Person acting in a similar capacity for a Reference Obligation, (x) Moody's, S&P or Fitch or any successor thereto, (y) any other Person acting in a similar capacity for a Reference Obligation, (z) Moody's, S&P or Fitch or any successor thereto.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918206
Footnote Exhibits - Page 4986

information contained in a certificate of the Credit Default Swap Calculation Agent signed by a Managing Director or other equivalently senior officer of the Credit Default Swap Calculation Agent specifically authorized to provide such certification.

In relation to any information of the type described in (i), (ii), (iv) or (v), the party receiving such information may assume that such information has been disclosed to it without violating any law, agreement or understanding regarding the confidentiality of such information and that the party delivering such information has not taken any action or entered into any agreement or understanding with the Reference Entity or any affiliate thereof that would be breached by, or would prevent, the disclosure of such information to third parties.

"Purchase Agreement": The purchase agreement, dated as of April 10, 2007, among the issuers and the initial purchaser.

"Put Excluded Collateral": As of any time of determination, collectively, (i) demand and time deposits that are Eligible Investments as described in clause (b) of the definition thereof, (ii) Cash, (iii) any Collateral acquired with Excess Disposition Proceeds and/or (iv) any other Eligible Investments subject to satisfaction of the S&P Rating Condition and the Moody's Rating Condition, in each case, as of such date.

"Put Proceeds": All amounts received by the issuer from the Collateral Put Provider in accordance with the Collateral Put Agreement.

"Qualified Institutional Buyer": Any Person that, at the time of its acquisition, purported acquisition or proposed acquisition of the Notes, is a qualified institutional buyer as defined in Rule 144A.

"Qualified Purchaser": Any Person that, at the time of its acquisition, purported acquisition or proposed acquisition of the Notes, is a qualified purchaser for purposes of Section 3(c)(7) of the Investment Company Act.

"Rating Agencies": S&P and Moody's (each, a "Rating Agency") or, with respect to the Issuers of the Notes and the Trustee, any other nationally recognized statistical rating agency selected by the Issuers and reasonably satisfactory to a Majority of the aggregate principal amount of the Notes held as a single class. The event that at any time the Rating Agencies do not include S&P or Moody's, references to rating categories of S&P or Moody's in this definition shall be deemed instead to reference the equivalent categories of such other rating agency as of the most recent date as of which such other rating agency and S&P or Moody's published ratings for the type of security in respect of which such alternative rating agency is used. References to Rating Agencies with respect to any Class of Notes issued on the Closing Date shall apply only to Rating Agencies that assigned a rating (public or confidential) to such Class of the Notes on the Closing Date. Reference to Rating Agencies with respect to Classes of Notes that are not issued on the Closing Date shall apply only to any nationally recognized statistical rating agency selected by the Issuer that rates such Classes of Notes and, as the case may be, upon any issuance of such Notes.

"Redemption Refund Adjustment Amount": With respect to each Class of Notes on a Mandatory Redemption Date caused by a termination of the Credit Default Swap as a result of a default by the Protection Buyer, a termination of the Collateral Put Agreement as a result of a default by the Collateral Put Provider or a termination of the Basis Swap as a result of a default by the Basis Swap Counterparty or a Stated Maturity of any Series of such Class, the product of (i) the Unscaled Redemption Refund Adjustment Amount related to such Class and (ii) the related Note Scaling Factor immediately prior to such determination; provided that, for the avoidance of doubt, with respect to a Class with more than one Series Outstanding at such time of determination, any pro rata allocations of any Redemption Refund Adjustment Amount will be based on the Aggregate USD Equivalent Outstanding Amount of each applicable Series of such Class, as expressed in Dollars.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918207
Footnote Exhibits - Page 4987

"Reference Entity": The issuer of a Reference Obligation as set forth in the Reference Obligation Registry and, as determined by the Credit Default Swap Calculation Agent, any entity that succeeds to the obligations of such Reference Entity relating to such Reference Obligation.

"Reference Obligation": Each obligation listed as such in the Reference Obligation Registry on the Closing Date.

"Reference Obligation Amortization Amount": With respect to the redemption or amortization in whole or in part, of a Reference Obligation, the sum of (i) any Principal Payment Amounts and (ii) Reference Obligation Repayment Amounts on such date.

"Reference Obligation Calculation Period": For each Reference Obligation, with respect to each Reference Obligation Payment Date for such Reference Obligation, a period corresponding to the interest accrual period relating to such Reference Obligation Payment Date pursuant to the Underlying Instruments.

"Reference Obligation Notional Amount": Initially, with respect to any Reference Obligation, the initial Reference Obligation Notional Amount, and that in each case will be:

(i) decreased on each day on which a Principal Payment is determined by the Credit Default Swap Calculation Agent, by the relevant Principal Payment Amount;
(ii) decreased on the day, if any, on which a Failure to Pay Principal is determined by the Credit Default Swap Calculation Agent, by the relevant Principal Shortfall Amount;
(iii) decreased on each day on which a Writedown is determined by the Credit Default Swap Calculation Agent, by the relevant Writedown Amount; and
(iv) increased on each day on which a Writedown Reimbursement is determined by the Credit Default Swap Calculation Agent, by any Writedown Reimbursement Amount in respect of a Writedown Reimbursement within paragraphs (i) or (ii) of the definition of "Writedown Reimbursement";

provided that if the Reference Obligation Notional Amount would be less than zero, it shall be deemed to be zero.

For the avoidance of doubt, the Reference Obligation Notional Amount shall not be increased by any deferral or capitalization of interest that relates to the term of the Credit Default Swap or decreased by payment of any portion of the principal balance of the Reference Obligation that is attributable to the deferral or capitalization of interest during the term of the Credit Default Swap.

"Reference Obligation Outstanding Principal Amount": As of any date of determination with respect to any Reference Obligation, the outstanding principal balance of the Reference Obligation as of such date, which shall take into account:

(i) all payments of principal;
(ii) all writedowns or applied losses (however described in the related Underlying Instruments) resulting in a reduction in the outstanding principal balance of such Reference Obligation (other than as a result of a scheduled or unscheduled payment of principal);

Confidential Treatment Requested by Goldman Sachs
Footnote Exhibits - Page 4988

(ii) forgiveness of any amount by the holders of such Reference Obligation pursuant to an amendment to the Related Underlying Instruments resulting in a reduction in the outstanding principal balance of such Reference Obligation;

(iv) any payments reducing the amount of any reductions described in (i) and (ii) of this definition;

(v) any increase in the outstanding principal balance of such Reference Obligation that reflects a reversal of any prior reductions described in (i) and (ii) of this definition; and

(vi) any increase in the outstanding principal balance of the Reference Obligation that is attributable to the deferral or capitalization of interest prior to the Closing Date.

For the avoidance of doubt, the Reference Obligation Outstanding Principal Amount shall not include any portion of the outstanding principal balance of the Reference Obligation that is attributable to the deferral or capitalization of interest during the term of the Credit Default Swap.

"Reference Obligation Payment Date": For each Reference Obligation, each scheduled distribution date for such Reference Obligation occurring on or after the Closing Date.

"Reference Obligation Registry": A registry, maintained by the Credit Default Swap Calculation Agent in accordance with the Credit Default Swap that records, among other things, the identity of each Reference Obligation, the related Reference Entity, the Reference Obligation National Amount and certain other related information, which registry will be updated by the Credit Default Swap Calculation Agent to reflect any applicable changes.

"Reference Obligation Reimbursement": A Principal Shortfall Reimbursement or Withdrawn Reimbursement.

"Reference Obligation Reimbursement Amount": A Principal Shortfall Reimbursement Amount or a Withdrawn Reimbursement Amount.

"Reference Obligation Repayment Amount": With respect to a Reference Obligation, an amount equal to the sum of all Withdrawn Reimbursement Amounts related to such Reference Obligation on that day with respect to one or more Withdrawn Reimbursements pursuant to clause (i) of the definition of Withdrawn Reimbursement and/or Principal Shortfall Reimbursements related to such Reference Obligation on that day.

"Reference Portfolio National Amount": At any time of calculation, the aggregate Reference Obligation National Amount of all Reference Obligations at that time.

"Registered": A debt obligation that is issued after July 18, 1984 and that is in registered form within the meaning of Section 881(c)(2)(B)(ii) of the Code and the Treasury regulations promulgated thereunder.

"Regulation S" or "Reg S": Regulation S under the Securities Act.

"Regulation S Global Notes": One or more global notes for each Class of Notes in fully registered form without interest coupons sold in reliance on the exemption from registration under Regulation S.

"REIT": A real estate investment trust.

Confidential Treatment Requested by Goldman Sachs GS MBS-E-001910209
Footnote Exhibits - Page 4989

"REIT Debt Security": A security issued by publicly held real estate investment trusts (as defined in Section 636 of the Code or any successor provision).

"Replacement Counterparty Rating": With respect to a counterparty or entity guaranteeing the obligations of such counterparty, (i) a long-term senior, unsecured debt obligation rating, financial program rating or other similar rating (as the case may be, the "long-term rating") of at least "Aa3" by Moody's and (ii) a long-term rating of at least "AA" by S&P.

"Required Basis Swap Counterparty Rating": With respect to the Basis Swap Counterparty or any Basis Swap Counterparty Credit Support Provider, (i) if the Basis Swap Counterparty or Basis Swap Counterparty Credit Support Provider has a long-term rating by Moody's, a long-term senior, unsecured debt obligation rating, financial program rating or other similar rating (as the case may be, the "long-term rating") of at least "Aa3" by Moody's and if rated "Aa3" by Moody's is not on negative credit watch by Moody's and (ii) if the Basis Swap Counterparty or Basis Swap Counterparty Credit Support Provider has a long-term rating by S&P, a long-term rating of at least "AA" by S&P.

"Residential Mortgage-Backed Securities" or "RMBS": Securities that represent interests in, or enable holders thereof to receive payments that depend on the cashflow from or availability of payments on residential mortgage loans secured by one to four-family residential mortgage loans and shall include, without limitation, RMBS Residential A Mortgage Securities, RMBS Residential B/C Mortgage Securities, RMBS Home Equity Loan Securities or RMBS Agency Securities, excluding, in each case, any securities that belong to an Excluded Specified Type; provided that any RMBS whose underlying collateral does not consist of 20.0% or more of subordinate tranches at the time of its issuance shall be deemed to be any of the aforementioned types of RMBS as determined by the Protection Buyer in accordance with market standards.

"Reversible Loss Series": A Series of Notes for which, at such time of determination, following the occurrence of one or more Valuation Blows with respect to Reference Obligations that have not subsequently been redeemed from the Reference Portfolio, the Aggregate USD Equivalent Outstanding Amount of such Series is less than the ICE Aggregate USD Equivalent Outstanding Amount of such Series, provided that, for the avoidance of doubt, the determination of whether any Series of Notes is a Reversible Loss Series will be made at the time of election to redeem such Series in connection with a Partial Optional Redemption and not at the time of issuance of such Series.

"RMBS Home Equity Loan Securities": Residential Mortgage-Backed Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from balances (including revolving balances) outstanding under lines of credit secured by a first and/or subordinate line of credit (other than credit secured by a first and/or subordinate line of credit) on residential real estate (single or multi-family properties), the proceeds of which lines of credit are not used to purchase such real estate or to purchase or construct dwellings thereon (or to refinance indebtedness previously so used), generally having the following characteristics:

(i) the balances have standardized payment terms and require minimum monthly payments;

(ii) the balances are obligations of numerous borrowers and accordingly represent a diversified pool of obligor credit risk;

(iii) the repayment of such balances may be based on a fixed scheduled payment or, alternatively, may not depend upon a contractual payment schedule, with early

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001018210
Footnote Exhibits - Page 4990

repayment depending primarily on interest rates, availability of credit against a maximum line of credit and general economic matters; and

(iv) the combined loan-to-value ratios are higher than customary in the primary mortgage markets;

provided that any RMBS whose underlying collateral consists of 20.0% or more of subordinate liens at the time of its issuance shall be deemed to be an RMBS Home Equity Loan Security.

"RMBS Manufactured Housing Loan Securities": Residential Mortgage-Backed Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from manufactured housing (also known as mobile homes and prefabricated homes) installment sales contracts and installment loan agreements, generally having the following characteristics:

(i) the contracts and loan agreements have varying, but typically lengthy contractual maturities;

(ii) the contracts and loan agreements are secured by the manufactured homes and, in certain cases, by mortgages and/or deeds of trust on the real estate to which the manufactured homes are deemed permanently affixed;

(iii) the contracts and/or loans are obligations of a large number of obligors and accordingly represent a relatively diversified pool of obligor credit risk;

(iv) repayment thereof can vary substantially from the contractual payment schedule, with early prepayment of individual loans depending on numerous factors specific to the particular obligors and upon whether, in the case of loans bearing interest at a fixed rate, such loans or securities include an effective prepayment premium; and

(v) in some cases, obligations are fully or partially guaranteed by a governmental agency or instrumentality;

"RMBS Residential A Mortgage Securities": Residential Mortgage-Backed Securities (other than RMBS Residential B/C Mortgage Securities) that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from residential mortgage loans secured (on a first priority basis, subject to permitted liens, easements and other encumbrances) by residential real estate (single or multi-family properties) the proceeds of which are used to purchase real estate and purchase or construct dwelling places (or to refinance indebtedness previously so used), generally having the following characteristics:

(i) the mortgage loans have generally been underwritten to the standards of the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation or the Government National Mortgage Association (without regard to the size of the loan);

(ii) the mortgage loans have standardized payment terms and require minimum monthly payments;

(iii) the mortgage loans are obligations of numerous borrowers and accordingly represent a diversified pool of obligor credit risk, and
(iv) the repayment of such mortgage loans is subject to a contractual payment schedule, with early repayment depending primarily on interest rates and the sale of the mortgaged real estate and related dwelling.

"RMBS Residential B/C Mortgage Securities": Residential Mortgage-Backed Securities (other than RMBS Residential A Mortgage Securities) that enable the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from subprime residential mortgage loans secured (on a first priority basis, subject to permitted liens, easements and other encumbrances) by residential real estate (single or multi-family properties) the proceeds of which are used to purchase real estate and purchase or construct dwellings therein (or to refinance indebtedness previously so used), generally having the following characteristics:

(g) the mortgage loans have generally not been underwritten to the standards of the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation or the Government National Mortgage Association (without regard to the size of the loans);

(h) the mortgage loans have standardized payment terms and require minimum monthly payments;

(i) the mortgage loans are obligations of numerous borrowers and accordingly represent a diversified pool of obligor credit risk; and

(iv) the repayment of such mortgage loans is subject to a contractual payment schedule, with early repayment depending primarily on interest rates and the sale of the mortgaged real estate and related dwelling.

"Rule 144A": Rule 144A under the Securities Act.

"Rule 144A Global Notes": One or more global notes for each Class of Notes in fully registered form without interest coupons sold in reliance on exemption from registration under Rule 144A.

"S&P": Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc. or any successor to the ratings business thereof.

"S&P Rating": With respect to any Obligation, a rating determined as follows:

(a) (1) If S&P has assigned a rating to such Obligation either publicly or privately, the S&P Rating shall be the rating assigned thereto by S&P; provided, however, that if the rating assigned to such Obligation by S&P is on the then-current credit rating watch list with negative implications, then the rating of such Obligation will be one subcategory below the rating then assigned to such Obligation by S&P and if the rating assigned to such Obligation by S&P is on the then-current credit rating watch list with positive implications, then the rating of such Obligation will be one subcategory above the rating then assigned to such Obligation by S&P;

(2) If such Obligation is not rated by S&P (other than an RMBS Agency Security), then an application may be made to S&P for a confidential credit estimate, which shall be the S&P Rating of such Obligation; provided that pending receipt from S&P of such estimate, such Obligation shall have an S&P Rating of "CCC-" if the Issuer believes that such estimate will be at least "CCC-"; or

(3) If such Obligation is not rated by S&P and no application has been made to obtain an S&P Rating for such Obligation pursuant to subclause (2) above, then
the S&P Rating of such Obligation may be implied only by reference to the chart set forth below so long as such referenced rating is a publicly monitored rating; provided that if such Obligation is not rated by S&P, and the Issuer does not obtain an S&P Rating for such Obligation pursuant to this subclause (a) then no more than 20% of the Initial Reference Portfolio Notional Amount on the aggregate principal amount of Collateral Securities, as the case may be, may imply an S&P Rating pursuant to this subclause (a)(v).

Asset classes are eligible for notching if they are not first loss tranches or combination securities. If an Obligation is publicly rated by two agencies, notch down as shown below will be based on the lowest rating. If publicly rated only by one agency, then notch down what is shown below. Issue one additional notch based on the public rating.

No rating permitted with respect to COCLO Cash Flow Securities.

The information contained in the table above has been provided to the Issuer by S&P and the asset classes and related capitalized terms have the meanings ascribed thereto by S&P.

"S&P Rating Conditions": With respect to any proposed action to be taken under the Indenture or any other document contemplated by the Indenture, a condition that is satisfied when S&P has confirmed in writing to the Issuer and/or the Trustee that an immediate withdrawal or reduction with respect to any then-current rating by S&P of any Class of Notes will not occur as a result of such proposed action.

"Safe Proceeds": All amounts representing (i) proceeds from the sale or other disposition (other than Put Proceeds) of any Collateral, excluding any Collateral Interest Amount and (ii) any proceeds from liquidating Pledged Collateral after an event of default, as such term is defined under the Collateral Put Agreement, has occurred and is continuing under the Collateral Put Agreement (but not to exceed the amount of the Collateral Put Provider's obligations owed to the Issuer).

"Secured Parties": (i) The Trustee, (ii) the Noteholders, (iii) the Issuing and Paying Agent (iv) the Protection Buyer, (v) the Basis Swap Counterparty, (vi) the Collateral Put Provider and (vii) the Portfolio Selection Agent.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918214
"Securities Act": The U.S. Securities Act of 1933, as amended.

"Securities Intermediary": The meaning specified in Section 8-102(a)(14) of the UCC.

"Senior Amount": For any Reference Obligation, as of any date of determination, the aggregate outstanding principal balance of all obligations of the related Reference Entity secured by the related Underlying Assets and ranking senior in priority to such Reference Obligation.

"Series": All of the Notes of a Class issued (i) in the same Approved Currency, (ii) on the same date of issuance, (iii) with the same Series Interest Rate, (iv) with the same date from which interest will accrue, (v) with the same Non-Call Period, and (vi) with the same Stated Maturity.

"Series Interest Amount": With respect to any Series of Notes, as to each Interest Accrual Period, the amount of interest for such Interest Accrual Period payable in respect of each $1,000, $1,000, $1,000, $1,000, $1,000, $1,000, or $1,000 principal amount of such Series of Notes.

"Series Interest Amounts": Collectively, the Series Interest Amount for each Class of Notes.

"Series Interest Rate": With respect to any Series of Notes of any Class, the annual rate at which interest accrues on such Series of Notes, as specified, with respect to Notes issued on the Closing Date, in “Summary—Notes” and on the related Notes, and with respect to any Series of Notes of any Class issued after the Closing Date, at the applicable rate specified in the related offering circular supplement and on the related Notes.

"Series Interest Rates": Collectively, the Series Interest Rate for each Class of Notes.

"Servicer": For each Reference Obligation, any trustee, servicer, sub servicer, master servicer, fiscal agent, paying agent or other similar entity responsible for calculating payment amounts or providing reports pursuant to the related Underlying Instruments.

"Servicer Reports": For each Reference Obligation, periodic statements or reports regarding such Reference Obligation provided by the related Servicer to holders of such Reference Obligation.

"Share Trustee": The administrator as the trustee pursuant to the terms of a charitable trust.

"Spot FX Rate": A rate of exchange determined on any measurement date by the Credit Default Swap Calculation Agent as the prevailing rate of exchange (expressed as a number rounded to four decimal places) of Australian Dollars, Canadian Dollars, Euro, New Zealand Dollars, Sterling, Yen or other Approved Currencies, as the case may be, for Dollars at such time.

"Stated Maturity": With respect to any security or debt obligation, including a Note, the date specified in such security or debt obligation as the fixed date on which the final payment of principal of such security or debt obligation is due and payable or, if such date is not a Business Day, the next following Business Day. The Stated Maturity of the Notes issued on the Closing Date is March 1, 2038.

"Sterling" or "£": The lawful currency of the United Kingdom.

"Structured Corporate Security": A security that represents the debt of a corporate obligor through the creation of a trust and the pledge of specific corporate assets.

"Structured Finance Security": Any security that is an asset-backed security, mortgage-backed security, enhanced equipment trust certificate, collateralized debt obligation, collateralized bond obligation, collateralized loan obligation or similar instrument.
"Structured Product Security": Any of the following types of securities: ABS Future Flow Securities not classified as an Excluded Specified Type in accordance with the definition thereof, CDO Cashflow Securities, RMBS, CMBS, Wrapped Securities, MBS Debt Securities or Asset-Backed Securities.

"Synthetic CDO Security": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such Securities) on the cash flow from (and not the market value of) a portfolio of primarily credit default swaps and, if applicable, related securities.

"TARGET Settlement Day": Any day on which the TARGET System is open.

"TARGET System": The Trans-European Automated Real-Time Gross Settlement Express Transfer System or any successor thereto.

"Trustee": LaSalle Bank National Association, solely in its capacity as Trustee for the Noteholders, unless a successor Person shall have become the Trustee pursuant to the applicable provisions of the Indenture, and thereafter "Trustee" shall mean such successor Person.

"Trustee Noteholder Communication Notice": A notice from the Trustee to the Noteholders that includes the contents of a Notesender Communication Notice that an Originating Noteholder has requested to be communicated to all other Noteholders, provided that the Trustee will not under any circumstances be required to include the identity of such Originating Noteholder in the related Trustee Noteholder Communication Notice.

"U.S. Person": The meaning specified under Regulation S.

"U.S. Resident": The meaning specified under the Investment Company Act.

"Underlying Assets": For each Reference Obligation, the assets securing such Reference Obligation for the benefit of the holders of such Reference Obligation and which are expected to generate the cashflows required for the servicing and repayment (in whole or in part) of such Reference Obligation, or the assets to which a holder of such Reference Obligation is economically exposed where such exposure is created synthetically.

"Underlying Instruments": The indenture and any credit agreement, assignment agreement, participation agreement, pooling and servicing agreement, trust agreement, instrument or other agreement pursuant to which an Obligation was issued and/or created and each other agreement that governs the terms of or secures such Obligation or of which holders of such Obligation are the beneficiaries, and any instrument evidencing or consisting of such Obligation.

"Unascled Redemption Refund Adjustment Amount": With respect to the Class Notional Amount of each Class of Notes on a Mandatory Redemption Date caused by a termination of the Credit Default Swap as a result of a default by the Protection Buyer, a termination of the Collateral Put Agreement as a result of a default by the Collateral Put Provider or a termination of the Basis Swap as a result of a default by the Basis Swap Counterparty or a Stated Maturity of any Series of such Class, the lesser of (i) the applicable Maximum Redemption Refund Amount determined on such date less the sum of the ICE Class Notional Amount Differentials for the Classes of Notes that are senior to such Class immediately prior to such determination and (ii) the ICE Class Notional Amount Differential of such Class immediately prior to such determination.

"USD Equivalent": An amount expressed in Dollars which is equal to (i) with respect to any Notes, the quotient of (a) the Currency Adjusted Aggregate Outstanding Amount of such Notes divided by (b) the Applicable Series Foreign Exchange Rate and (ii) with respect to any Collateral Securities, the
quotient of (a) the principal amount of such Collateral Security as expressed in its Approved Currency of denomination divided by (b) the Applicable Collateral Security Foreign Exchange Rate.

"Weighted Average Life": As of any measurement date, the number obtained by the Credit Default Swap Calculation Agent and confirmed by the Collateral Administrator with respect to the Collateral by (i) for each Collateral Security and each Eligible Investment, multiplying the USD Equivalent of each scheduled principal payment by the number of years (rounded to the nearest hundredth) from such measurement date until such scheduled principal payment is due; (ii) summing all of the products calculated pursuant to subclause (i); and (iii) dividing the sum calculated pursuant to subclause (ii) by the sum of the USD Equivalent of all scheduled principal payments due on all the Collateral Securities and Eligible Investments as of such measurement date, provided that for purposes of determining the Weighted Average Life of the Collateral, the number calculated under clause (i) with respect to Eligible Investments shall equal zero.

"Wrapped Securities": Securities (other than RMBS Agency Securities) that (i) have the benefit of a financial guarantee insurance policy or surety bond provided by a monoline or multi-line insurer and (ii) are rated "AAA" by S&P or "Aaa" by Moody's, which ratings may take into consideration such financial guarantee insurance policy or surety bond.

"Writedown Amount": On any day, with respect to any Reference Obligation that suffered a Writedown Credit Event, the product of (i) the amount of such Writedown with respect to such Reference Obligation on such day, (ii) the Applicable Percentage with respect to such Reference Obligation and (iii) if such Reference Obligation is not denominated in Dollars, the applicable National Foreign Exchange Rate.

"Writedown Reimbursement": For any Reference Obligation, at any time on or after the Closing Date, the occurrence of:

(i) a payment by or on behalf of the related Reference Entity of an amount in respect of the Reference Obligation in reduction of any prior Writedowns;

(ii) (A) an increase by or on behalf of the related Reference Entity of the Reference Obligation Outstanding Principal Amount to reflect the reversal of any prior Writedowns or (B) a decrease in the principal deficiency balance or realized loss amounts (however described in the Underlying Instruments) attributable to the Reference Obligation or

(iii) if the Underlying Instruments do not provide for writedowns, applied losses, principal deficiencies or realized losses as described in (ii) above to occur in respect of the Reference Obligation, an implied Writedown Reimbursement Amount being determined in respect of the Reference Obligation by the Credit Default Swap Calculation Agent.

"Writedown Reimbursement Amount": For any Reference Obligation, an amount equal to the product of (i) the sum of all Writedown Reimbursements related to such Reference Obligation on that day, (ii) the Applicable Percentage with respect to such Reference Obligation and (iii) if such Reference Obligation is not denominated in Dollars, the applicable National Foreign Exchange Rate.

"yen": The lawful currency of Japan.

No dealer, salesperson or other person is authorized to give any information or to represent anything not contained in this Offering Circular. You must not rely on any unauthorized information or representations. This Offering Circular is an offer to sell only the Notes offered hereby, but only under circumstances and in jurisdictions where it is lawful to do so. The information contained in this Offering Circular is current only as of its date.
Footnote Exhibits - Page 5009

GREYWOLF CLO I, LTD.  
(Incorporated with limited liability in the Cayman Islands)

GREYWOLF CLO I, CORP.  
U.S.$2,000,000 Class A Floating Rate Notes, Due 2014  
U.S.$2,000,000 Class B Floating Rate Notes, Due 2021  
U.S.$5,000,000 Class C Floating Rate Notes, Due 2021  
U.S.$10,000,000 Class D Floating Rate Notes, Due 2021  
U.S.$17,500,000 Class E Floating Rate Notes, Due 2021

Secured (With Respect to the Secured Notes) Primarily by a Portfolio of Loans that are Senior Secured Loans

The Securities are being offered hereby by Goldman, Sachs & Co. (the "Initial Purchaser") in the United States to Qualified Institutional Buyers in reliance on Rule 144A of another exemption under the Securities Act and, solely in the case of the Subordinated Securities, to Accredited Investors in transactions exempt from registration under the Securities Act, in addition to the offering of such Securities by Goldman, Sachs & Co. in the United States, Goldman, Sachs & Co., acting through its agents, is concurrently offering the Securities outside the United States to non-U.S. Persons in offshore transactions in reliance on Regulation S under the Securities Act.

See "Risk Factors" beginning on page 11 to read about factors you should consider before buying any Security.

There is no established trading market for the Securities. Application has been made to the Irish Financial Services Regulatory Authority, as competent authority under Directive 2003/111/EC, for the Offering Circular (the "Offering Circular") to be approved. Application has been made to the Irish Stock Exchange for the Securities to be admitted to the Irish Stock List and to trading on its regulated market. Such approval relates only to Securities which are to be admitted to trading on the regulated market of the Irish Stock Exchange or other regulated markets for the purposes of Directive 2003/111/EC or which are to be offered to the public in any Member State of the European Economic Area. This document is considered an advertisement for purposes of applicable measures implementing E.U. Directive 2003/111/EC. Upon lining on the Irish Stock Exchange being granted, a "prospectus" prepared pursuant to the Prospectus Directive will be published, which can be obtained from the Issuer. There can be no assurance that such listing will be approved or maintained.

It is a condition of the issuance of the Securities that the Class A Notes and the Class A Notes be issued with a rating of "A3" by Moody's Investors Service, Inc. ("Moody's") and "A" by Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc. ("S&P"), that the Class B Notes be issued with a rating of at least "A3" by Moody's and at least "BBB" by S&P, that the Class C Notes be issued with a rating of at least "A2" by Moody's and at least "BBB" by S&P, that the Class D Notes be issued with a rating of at least "BB" by Moody's and at least "BBB" by S&P and that the Class E Notes be issued with a rating of at least "BBB" by Moody's and at least "BBB" by S&P. The Subordinated Securities will not be rated by any credit rating agency. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating agency. See "Rating of the Securities." See "Underwriting" for a discussion of the terms and conditions of the purchase of the Securities by the Initial Purchaser.

Certain Pledged Assets of the Issuer are the sole source of payments on the Securities, the Securities do not constitute an interest in or obligations of and are not insured or guaranteed by, the holders of the Securities, the Collateral Manager, Goldman, Sachs & Co. and any Holders are not guarantors, co-makers or endorsers of the Securities. The Securities are not registered under the U.S. Securities Act of 1933, as amended, and, neither of the Issuer, the Collateral Manager, Goldman, Sachs & Co. or any Holder is a "dealer" as defined under the U.S. Securities Act and none of the Issuer, the Collateral Manager, Goldman, Sachs & Co. or any Holder is a "broker" as defined under the U.S. Securities Act. The Securities may not be offered, sold, subscribed for or otherwise transferred except in reliance on Regulation S under the U.S. Securities Act and shall not be offered, sold, subscribed for or otherwise transferred in reliance on any other Rule under the U.S. Securities Act or under any other Rule or Regulation of the U.S. Securities and Exchange Commission.

The Securities are offered by Goldman, Sachs & Co. and/or its agents, subject to the rights of the Initial Purchaser. The Initial Purchaser may resell the Securities to or through underwriters, dealers and brokers and may retain any margins or other compensation in connection therewith and may invest in or retain any portion of the Securities for its own account. The Initial Purchaser may deal or arrange for others to deal in the Securities for the purpose of facilitating the public offering. The Initial Purchaser, the Collateral Manager, Goldman, Sachs & Co. and any Holder are not imposing any restrictions on the resale of the Securities. The Initial Purchaser, the Collateral Manager, Goldman, Sachs & Co. and any Holder are not making any representation or warranty that the Initial Purchaser, the Collateral Manager, Goldman, Sachs & Co. or any Holder is not a dealer or a broker or that the Initial Purchaser, the Collateral Manager, Goldman, Sachs & Co. or any Holder is not an affiliate of a dealer or a broker.

The Securities are being offered to persons who qualify as "Institutional Investors" pursuant to paragraph 2.7 of the ISDA Master Agreement. The Securities are being offered to persons who qualify as "Eligible counterparties" pursuant to paragraph 2.8 of the ISDA Master Agreement. The Securities are neither offered nor sold, directly or indirectly, in the United States. The Securities are not being offered or sold in any other market or jurisdiction where the offer or sale would contravene the laws of that market or jurisdiction and are being offered or sold for the account of persons who qualify as "Eligible counterparties" pursuant to paragraph 2.8 of the ISDA Master Agreement.

The Securities are offered to persons who qualify as "Eligible counterparties" pursuant to paragraph 2.8 of the ISDA Master Agreement. The Securities are neither offered nor sold, directly or indirectly, in the United States. The Securities are not being offered or sold in any other market or jurisdiction where the offer or sale would contravene the laws of that market or jurisdiction and are being offered or sold for the account of persons who qualify as "Eligible counterparties" pursuant to paragraph 2.8 of the ISDA Master Agreement.

GENERAL NOTICE

The information contained in this Offering Circular has been provided by the Issuers and other sources identified herein. No representation or warranty, express or implied, is made by the Initial Purchaser or the Collateral Manager (except with respect to the Collateral Manager only, the information set forth under the heading "The Collateral Manager") as to the accuracy or completeness of such information, and nothing contained in this Offering Circular is, or shall be relied upon as, a promise or representation by the Initial Purchaser or the Collateral Manager (except with respect to the Collateral Manager only, the information set forth under the heading "The Collateral Manager").

The Issuers accept responsibility for the information contained in this Offering Circular (other than the information contained in this Offering Circular under the heading "The Collateral Manager", for which information only the Collateral Manager accepts responsibility) and, having made all reasonable inquiries, confirm that, to the best knowledge and belief of the Issuers, the information contained in this Offering Circular is in accordance with the facts and does not omit anything likely to affect the import of such information. The Issuers (and with respect to the information contained in this Offering Circular under the heading "The Collateral Manager" only, the Collateral Manager) take responsibility accordingly.

No person has been authorized to give any information or to make any representation other than those contained in this Offering Circular, and, if given or made, such information or representation must not be relied upon as having been authorized. This Offering Circular does not constitute an offer to sell or the solicitation of an offer to buy any securities other than the Securities.

The delivery of this Offering Circular at any time does not imply that the information herein is correct at any time subsequent to the date of this Offering Circular.

Each purchaser of the Securities must comply with all applicable laws and regulations in force in each jurisdiction in which it purchases, offers or sells such Securities or possesses or distributes this Offering Circular and must obtain any consent, approval or permission required for the purchase, offer or sale by it of such Securities under the laws and regulations in force in any jurisdictions to which it is subject or in which it makes such purchases, offers or sales, and none of the Issuers, the Collateral Manager or the Initial Purchaser shall have any responsibility therefor. Persons into whose possession this Offering Circular comes are required by the Issuers and the Initial Purchaser to inform themselves about and to observe all applicable laws and regulations. For a further description of certain restrictions on offering and sales of the Securities, see "Transfer Restrictions" and "Underwriting". This Offering Circular does not constitute an offer of, or an invitation to purchase, any of the Securities in any jurisdiction in which such offer or invitation would be unlawful.

No invitation may be made to the public in the Cayman Islands to subscribe for the Securities and this document may not be issued or passed to any such person.

Notwithstanding anything to the contrary herein, except as necessary to comply with securities laws, such as the pro forma information and the role descriptions, any pro forma financial statements and other information in this Offering Circular may be prepared by persons not the Issuers and as a result may not be correct or complete. Any such information may be prepared by persons not the Issuers and as a result may not be correct or complete. Any such information may be prepared by persons not the Issuers and as a result may not be correct or complete.

Any purchaser of Secured Notes who is not a bank (as defined in Regulation U promulgated by the Board of Governors of the Federal Reserve System ("Regulation U"); and is not required to register with the Federal Reserve) will not be subject to any provisions of Regulation U as a result of such investment in the Secured Notes. Any purchaser of the Securities who is a bank or who is already registered with the Federal Reserve as a Regulation U lender, generally will be able to obtain from any person to whom it extends a loan or, if such person is not a bank, to whom it extends credit secured by a note (as defined in Regulation U) a Federal Reserve Form U-1 (with bank lenders) or Form U-2 (for non-bank lenders). Any purchaser of Secured Notes will be responsible for any compliance with Regulation U, including the filing by the purchaser of any required registration or annual report.

AVAILABLE INFORMATION

To permit compliance with the Securities Act in connection with the sale of the Securities in reliance on Rule 144A, the Issuer will be required under the Indenture to furnish upon request to a Holder or beneficial owner who is a Qualified Institutional Buyer of a Security sold in reliance on Rule 144A or a prospective investor who is a Qualified Institutional Buyer designated by such Holder or beneficial owner the information required to be delivered under Rule 144A(6)(4) under the Securities Act if at the time of the request the Issuer is neither a reporting company under Section 13 or Section 15(d) of the United States Securities Exchange Act of 1934, as amended, nor exempt from reporting pursuant to Rule 12g-3-2(b) under the Exchange Act. Neither of the Issuers expects to become such a reporting company or to be so exempt from reporting.

In accordance with the Indenture, the Trustee also will make available for inspection by Holders of the Securities certain reports or communications received from the Issuer.

Prior to making an investment decision, prospective Investors should ensure that they have sufficient knowledge, experience and access to professional advisors to make their own legal, tax, accounting and financial evaluation of the merits and risks of investment in the Securities and should carefully consider the nature of the Securities, the matters set forth elsewhere in this Offering Circular and the extent of their exposure to the risks described in "Risk Factors".

FORWARD LOOKING STATEMENTS

Any projections, forecasts and estimates contained herein are forward looking statements and are based upon certain reasonable assumptions. Projections are necessarily speculative in nature, and it can be expected that some or all of the assumptions underlying the projections will not materialize or will vary significantly from actual results. Accordingly, the projections are only an estimate. Actual results may vary from the projections, and the variations may be material. Consequently, the inclusion of projections herein should not be regarded as a representation by the Issuer, the Co-Issuer, the Collateral Manager, the Trustee, any Hedge Counterparty, the Collateral Administrator, the Initial Purchaser or any of their respective Affiliates or any other person or entity of the results that will actually be achieved by the Issuer. None of the Issuer, the Co-Issuer, the Trustee, the Collateral Administrator, the Collateral Manager, the Initial Purchaser, any Hedge Counterparty, and their respective Affiliates has any obligation to update or otherwise revise any projections, including any revisions to reflect changes in economic conditions or other circumstances arising after the date hereof or to reflect the occurrence of unanticipated events, even if the underlying assumptions do not come to fruition.
SUMMARY

The following summary is qualified in its entirety by the detailed information appearing elsewhere in the Offering Circular. For a discussion of certain factors to be considered in connection with an investment in the Securities, see "Risk Factors".

Capitalized terms used herein but not defined shall have the meanings set forth under "Glossary of Defined Terms".

The Issuers and the Collateral Manager

The Issuers

Graywolf CLO I, Ltd. (the "Issuer"), an exempted company with limited liability incorporated under the laws of the Cayman Islands for the sole purpose of acquiring the Collateral Obligations and Eligible Investments, entering into, and performing its obligations under, any Hedge Agreements, the Purchase Agreement and the Collateral Management Agreement, issuing the Securities and engaging in certain related transactions.

The Issuer will not have any material assets other than: (i) a portfolio of assets consisting primarily of Dollar-denominated loans (including Assignments or Participations), along with high yield debt securities, Finance Leases, Synthetic Securities and Structured Finance Securities; (ii) Eligible Investments, (iii) any Hedge Agreements as determined to be appropriate by the Collateral Manager and satisfactory to Moody's and S&P (iv) its rights under any Securities Lending Agreements; (v) its rights under the Collateral Management Agreement; (vi) its rights under the Purchase Agreement; and (vii) certain other assets.

Graywolf CLO I, Corp. (the "Co-Issuer" and, together with the Issuer, the "Issuers"), a company incorporated under the laws of the State of Delaware for the sole purpose of co-issuing the Co-Issued Notes, as described below.

The Co-Issuer will not have any assets other than $10 of equity capital and will not pledge any assets to secure the Co-Issued Notes. The Co-Issuer will have no claim against the Issuer in respect of the Collateral Obligations or otherwise.

The authorized share capital of the Issuer consists of 50,000 ordinary shares, par value $1.00 per share (the "Issuer Ordinary Shares", 250 of which will be issued on or prior to the Closing Date. The Issuer Ordinary Shares that have been issued and the common stock of the Co-Issuer will be held by Maples Finance Limited, a licensed trust company incorporated in the Cayman Islands and any successor thereto (the "Administrator"), as the trustee pursuant to a declaration of trust (the "Share Trustee").

The Collateral Manager

Graywolf Capital Management LP ("Graywolf") or any successor thereto (the "Collateral Manager"), will perform certain advisory and administrative functions with respect to the Issuer as collateral manager. The Collateral Manager and the Issuer will enter into a Collateral Management Agreement, dated as of the Closing Date (the "Collateral Management Agreement").
One or more funds managed by Greywolf will commit to purchase up to 100% of the initial notional amount of the Subordinated Securities. Thereafter, such funds may transfer or sell any such Subordinated Securities held thereby at any time or from time to time.

The Trustee ........................................ The Bank of New York Trust Company, National Association solely in its capacity as trustee (the “Trustee”) for the Securityholders, unless a successor Person shall have become the Trustee pursuant to the applicable provisions of the Indenture, and thereafter “Trustee” shall mean such successor Person.

#### Fifteen days prior to the applicable Payment Date

**Confidential Treatment Requested by Goldman Sachs**

GS MBS-E-0519182374
Status and Subordination

The Co-Issued Notes will be limited recourse secured obligations of the Issuer, the Class E Notes will be limited recourse secured obligations of the Issuer and the Subordinated Securities will be limited recourse unsecured obligations of the Issuer. Except as provided in the succeeding paragraph, with respect to both payment of interest and principal, the Class D Notes will be senior in right of payment on each Payment Date to the Class A Notes, Class B Notes, the Class C Notes, the Class E Notes and the Subordinated Securities, with respect to both payment of interest and principal, the Class A Notes will be senior in right of payment on each Payment Date to the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Subordinated Securities; with respect to both payment of interest and principal, the Class B Notes will be senior in right of payment on each Payment Date to the Class C Notes, the Class D Notes, the Class E Notes and the Subordinated Securities; with respect to both payment of interest and principal, the Class C Notes will be senior in right of payment on each Payment Date to the Class D Notes, the Class E Notes and the Subordinated Securities; with respect to both payment of interest and principal, the Class E Notes will be senior in right of payment on each Payment Date to the Subordinated Securities; and with respect to both payment of interest and principal, the Class E Notes will be senior in right of payment on each Payment Date to the Subordinated Securities.

Subject to the Priority of Payments, the right of the senior most Class of Secured Notes to be paid prior to a subordinate Class of Secured Notes does not apply if: (i) Interest Proceeds and Principal Proceeds are applied to the repayment of Deferral Interest of any Class of Secured Notes; or (ii) Interest Proceeds are applied to repay Class E Notes as a result of the failure of the Class E Par Value Test, as described in subclause (a)(ix) under "Disposition of the Securities—Priority of Payments—Interest Proceeds".

Use of Proceeds

The aggregate proceeds of the offering of the Securities are expected to equal approximately $922,000,000. Such proceeds will be used by the Issuer (i) to pay expenses related to the offering of the Securities, (ii) to pay the Issuer's obligations under certain warehouse arrangements with respect to a portfolio of Collateral Obligations acquired during the Accumulation Period or to purchase additional Collateral Obligations, (iii) to enter into one or more Hedge Agreements on or after the Closing Date, (iv) to deposit an amount equal to the Expense Reserve Amount in the Expense Reserve Account and (v) to deposit into the Revolving Credit Facility Reserve Account an amount equal to the Future Drawdown Amount as of the Closing Date.

On the Effective Date, as long as the Minimum Par Value Test is satisfied as of such date, the Collateral Manager may, in its sole discretion, instruct the Trustee in writing to utilize up to $1,000,000 of Principal Proceeds and unused proceeds of the offering of the Securities for application as either Interest Proceeds or Principal Proceeds in accordance with the Priority of Payments and/or transfer to the Discretionary Reserve Account for future application of such funds as either Interest Proceeds or Principal Proceeds in accordance with the Priority of Payments, in each case on or before
the Payment Date in February 2008. See "Security for the Secured Notes—Principal Collection Account" and "—Discretionary Reserve Account."

On the Closing Date, the proceeds of the issuance of the Class S Notes in an amount equal to approximately $2,000,000 will be deposited in the Interest Collection Account. On or before the first Payment Date the Collateral Manager may (in its sole discretion) instruct the Trustee in writing to transfer all or a portion of funds in the Interest Collection Account (representing proceeds of the issuance of the Class S Notes) to the Principal Collection Account for application as Principal Proceeds.

It is expected that approximately $491,909,375 of the aggregate proceeds of the offering of the Secured Notes will be available to the issuer to satisfy its obligations under certain warehouse arrangements with respect to a portfolio of Collateral Obligations acquired during the Accumulation Period and to purchase additional Collateral Obligations.

**Distributions of Interest Proceeds and Deferred Interest**  
Interest Proceeds will be distributable to Holders of the Securities in accordance with the Priority of Payments. See "Description of the Securities—Priority of Payments."

With respect to any Class C Notes, Class D Notes or Class E Notes, for so long as any senior Class or Classes of Secured Notes are Outstanding, to the extent that funds are not available to pay the full amount of interest on such Class C Notes, Class D Notes or Class E Notes in accordance with the Priority of Payments, as described herein, the cumulative amount of interest not paid on such Class C Notes, Class D Notes or Class E Notes on any Payment Date and all Payment Dates preceding such Payment Date (the "Deferred Interest"), will be deferred and added to the principal amount of such Class C Notes, Class D Notes or Class E Notes, as applicable, and will bear interest at the Interest Rate applicable to such Class C Notes, Class D Notes or Class E Notes, as applicable, to the extent lawful and enforceable. The failure to pay interest on any such Class of Securities due to insufficient funds being available therefor in accordance with the Priority of Payments will not be an Event of Default under the indenture so long as any senior Class or Classes of Secured Notes are Outstanding. See "Description of the Securities—Interest" and "—Priority of Payments."

**Non-Call Period**  
The period from the Closing Date to and including the Business Day immediately preceding the February 2015 Scheduled Payment Date (the "Non-Call Period").

**Reinvestment Period**  
The period from the Closing Date to and including the Business Day immediately preceding the February 2014 Scheduled Payment Date (the "Reinvestment Period").

**Principal Payments on the Secured Notes**  
The following table sets forth the circumstances and dates upon which Holders of the Secured Notes will receive principal payments on their Secured Notes (in all cases, pursuant to the Priority of Payments).
<table>

</tbody>
</table>

See "Description of the Securities—Principal" "Priority of Payments," "Optional Redemption," "Redemption by Refinancing" and "The Indenture—Events of Default".

**Redemption by Refinancing**

Subject to the satisfaction of certain conditions described in "Description of the Securities—Redemption by Refinancing" and "The Indenture" the Holders of at least a Majority of the Subordinated Securities may direct the redemption of any Class of Secured Notes in whole but not in part on any Payment Date after the Non-Call Period by directing the Issuer to issue Replacement Notes, the proceeds of which will be used to fully redeem such Class or Classes of Secured Notes, as applicable. See "Description of the Securities—Redemption by Refinancing".

**Security for the Secured Notes**

The Secured Notes will be secured by (a) Collateral Obligations that are expected to be rated below investment grade, (b) Eligible Investments, (c) the Issuer's rights under the Collateral Management Agreement, any Hedge Agreements, the Purchase Agreement and any Securities Lending Agreements, (d) any proceeds held in the Issuer Accounts and (e) certain other assets of the Issuer as set forth in the Indenture. See "Risk Factors—Limited Recourse Obligations".

The Subordinated Securities will not be secured.

**Collateral Obligations**

An obligation will constitute a collateral obligation (a "Collateral Obligation") and will be eligible for purchase if, at the time it is purchased or entered into (or a commitment to purchase or enter into such Collateral Obligation), it satisfies the following criteria ("Eligibility Criteria"): (i) it is (1) an Assignment or Participation of a Loan; (2) a debt security (including, subject to clause (x) below, a debt security that provides for conversion to an Equity Security or has equity features attached); (3) a Finance Lease which has a Moody's Recovery Rate and an S&P Recovery Rate that is the same as or higher than the Moody's Recovery Rate and S&P Recovery Rate that Moody's and S&P, respectively, currently assign to Senior Secured Loans; (4) a Structured Finance Security; (5) a Synthetic Security; or (6) a Senior Secured Floating Rate Note, in all cases the

Confidential Treatment Requested by Goldman Sachs

QS MBS-E-001916241
payments with respect to which are not by the terms of such obligation payable in a currency other than Dollars;

(f) other than an Exchanged Defaulted Obligation, (1) if it is a Structured Finance Security, § (A) has a Moody’s Default Probability Rating of at least “Ba1” or (B) has an S&P Rating of at least “BB” and (C) if such Structured Finance Security is a CDO Security collateralized by CDO Securities, such collateral is not managed by the Collateral Manager or an Affiliate of the Collateral Manager and (2) for any other type of Collateral Obligation, it has a Moody’s Default Probability Rating of at least “D” and has an S&P Rating of at least “CC,” which S&P Rating in the case of the foregoing clauses (1) and (2) does not have a “L,” “P,” “Q,” “Q” or an “T” subscript;

(g) (1) it is issued by an Issuer organized in the United States of America or in a sovereign jurisdiction the long-term foreign currency rating of which is at least “AA” by S&P and at least “Aa2” by Moody’s, (2) it is a Tax Haven Collateral Obligation, (3) it is a Maritime Collateral Obligation or (4) it is issued by a Special Purpose Vehicle;

(h) it is eligible to be entered into by, sold, assigned or participated to, the Issuer;

(i) it provides for periodic payments of interest thereon in cash at least semi-annually, other than a Zero-Coupon Security or a Step-Up Coupon Security during a period for which no interest is payable;

(j) it is an obligation or a credit default swap upon which no payments are subject to withholding tax imposed by any jurisdiction unless the obligor thereof or counterparty with respect thereto is required to make “gross-up” payments that cover the full amount of any such withholding tax on an after-tax basis (other than withholding taxes with respect to any amendment fees, extension fees and consent fees on a Collateral Obligation, any lending fees received under a Securities Lending Agreement or any commitment fees associated with Collateral Obligations constituting Revolving Credit Facilities or Delayed Funding Term Loans);

(k) it is not a Defaulted Obligation (other than an Exchanged Defaulted Obligation);

(l) it is not a CDO Security managed by the Collateral Manager or an Affiliate of the Collateral Manager, or a CDO Security the payments upon which are based on the market value of the underlying portfolio;

(m) it is not a Credit Risk Obligation;

(n) it is not an obligation that at the time of purchase or commitment to purchase provides for conversion into an
Equity Security (1) automatically after a specified period of time or (2) at the option of the issuer thereof at any time;

(xvi) It is not the subject of an offer other than (x) an offer of publicly registered securities with equal or greater face value and substantially identical terms issued in exchange for securities issued under Rule 144A or (b) a Permitted Offer;

(xvii) It is not an obligation in which interest payments of which are scheduled to decrease (although interest payments may increase due to unscheduled events such as a decrease of the index relating to a Floating Rate Collateral Obligation), the change from a default rate of interest to a non-default rate or an improvement in the obligor's financial condition;

(xviii) It is not an obligation pursuant to which future advances or future payment obligations may be required, except for future advances under a Revolving Credit Facility or a Delayed Funding Term Loan or future payment obligations under a Synthetic Security, in each case, for which the Issuer has deposited funds in the Revolving Credit Facility Reserve Account or a Synthetic Security Collateral Account, as applicable, in an amount sufficient to meet such future advances in future payment obligations, as applicable;

(xix) It is not a security whose payment is subject to the non-occurrence of certain catastrophes specified in the documents governing such security;

(xx) It is not a Deferrable Interest Obligation that is currently deferring interest or paying interest "in kind," unless interest is otherwise payable in cash, unless the S&P Rating Condition has been satisfied with respect to the purchase of such obligation (for the avoidance of doubt, this subclause shall not be interpreted to prohibit the inclusion of an Exchanged Deferrable Obligation in the Collateral Portfolio in accordance with the provisions described herein);

(xxi) If such obligation provides for the payment of interest at a floating rate, such floating rate is determined by reference to (1) the Dollar prime rate, LIBOR, Euro rate or similar interbank offered rate or commercial deposit rate or (2) any other index so long as at the time such index was first referenced each of the Moody's Rating Condition and the S&P Rating Condition was satisfied;

(xxii) It provides for payment of principal in cash on or prior to its stated maturity; and

(xxiii) It is not any of the Securities.

Purchase of Collateral Obligations by the Closing Date

It is expected that, by the Closing Date, the Issuer will have purchased or executed, or entered into agreements to purchase or execute, with the net proceeds of the issuance of the Securities, a
Footnote Exhibits - Page 5023

portfolio of Collateral Obligations selected by the Collateral Manager constituting approximately 87% of the Aggregate Principal Amount of Collateral Obligations to be purchased or entered into by the Issuer, representing approximately $450,000,000 in Aggregate Principal Amount of the Collateral Obligations.

Effective Date Ratings Confirmation

The Issuer will request that each of the Rating Agencies confirm the initial ratings of the Secured Notes on the Effective Date. Such confirmation will be deemed to have been obtained from Moody’s, so long as certain tests are met and Moody’s has received delivery of certain documents specified in the Indenture. A failure to obtain (or to be deemed to have obtained, in the case of Moody’s only) the Rating Agencies’ confirmation of the initial ratings of the Secured Notes on the Effective Date will result in an Effective Date Ratings Downgrade Event.

It is very unlikely that the Rating Agencies will confirm their initial ratings of the Secured Notes if any of the Collateral Quality Tests, the Par Value Tests, the Concentration Limitations or the Minimum Par Value Ratio is not satisfied on the Effective Date. Accordingly, the Issuer will seek to purchase additional Collateral Obligations during the Initial Investment Period so that the Collateral Quality Tests, the Par Value Tests, the Concentration Limitations and the Minimum Par Value Ratio will be satisfied on the Effective Date. The occurrence of an Effective Date Ratings Downgrade Event will not cause an Event of Default with respect to the Secured Notes. See “Risk Factors—Effective Date Ratings Downgrade Event.”

Concentration Limitations

Collateral Obligations acquired for the Collateral Portfolio will be subject to the concentration limitations set forth in the table below (the “Concentration Limitations”):

<table>
<thead>
<tr>
<th>By Principal Balance (as an amount or a percentage of the Aggregate Principal Amount of the Collateral Portfolio)</th>
</tr>
</thead>

Notwithstanding the new column combinations set forth above, the Collateral Manager on behalf of the Issuer may (in its sole discretion) determine a combination of values that is not set forth above using linear interpolation between values set forth above in accordance with the Indenture. Upon determination of a combination of values using linear interpolation, the Collateral Manager shall identify such combination to the Trustee and such combination shall be deemed a “new column combination” for purposes of the Ratings Matrix.

<table>

“Rating Factor Modifier,” as of any Measurement Date, will equal the number as calculated in the table below:

<table>
<thead>
<tr>
<th>Moody’s Weighted Average Recovery Rate as of such Measurement Date</th>
<th>Rating Factor Modifier</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than 0.00%</td>
<td>the product of (i) the Moody’s Weighted Average Recovery Rate as of such Measurement Date minus 43.00% and (ii) $500</td>
</tr>
</tbody>
</table>

provided that, if the Moody’s Weighted Average Recovery Rate shall be (1) greater than or equal to 0.00%, then solely for purposes of the calculation of the Rating Factor Modifier, the Moody’s Weighted Average Recovery Rate shall equal 0.00% or (2) less than or equal to 43.00%, then solely for purposes of the calculation of the Rating Factor Modifier, the Moody’s Weighted Average Recovery Rate shall equal 43.00%.

Minimum Weighted Average Coupon Test

The Weighted Average Spread must equal or exceed the Minimum Weighted Average Spread set forth in the Ratings Matrix based upon the option chosen by the Collateral Manager as currently applicable to the Collateral Obligations.

See “Security for the Secured Notes—The Collateral Quality Tests—Minimum Weighted Average Coupon Test.”

* The values specified herein are based on certain assumptions relating to the Collateral Portfolio as of the date hereof and such assumptions may change in the future. Therefore, there can be no assurance that the actual values for the Collateral Quality Tests on the Effective Date will be the same as the values specified herein. The expected value shown for the Maximum Rating Factor Test is the expected value unadjusted by the Rating Factor Modifier.

See "Security for the Secured Notes—The Coverage Tests" and "—The Collateral Quality Tests".

### Reinvestment in Collateral Obligations

During the Reinvestment Period, other than as described under "Description of the Securities—Priority of Payments—Principal Proceeds,” Principal Proceeds received in respect of the Collateral Obligations will be applied, at the sole discretion of the Collateral Manager (i) to purchase Collateral Obligations so long as the Reinvestment Criteria are satisfied and/or (ii) if the Collateral Manager determines, in its sole discretion, that it is impractical or

Confidential Treatment Requested by Goldman Sachs
not beneficial to reinvest Principal Proceeds prior to the end of an
Investment Due Period, to the payment of principal on the Co-
issured Notes pursuant to the Note Payment Sequence.

In addition, during the Reinvestment Period, Interest Proceeds
remaining prior to the payment of certain unpaid subordinated
expenses and unpaid hedge termination payments, the distribution
to the Collateral Manager in respect of the Indenture Collateral
Management Fee and the distributions in respect of the
Subordinated Securities will be used to reinvest in Collateral
Obligations (or deposited into the Principal Collection Account or, if
required under the terms of the Indenture, the Subordinated
Securities Principal Collection Account, for investment in Eligible
Investments pending investment in additional Collateral Obligations
prior to the end of the Reinvestment Period) up to the amount
necessary to satisfy the Reinvestment Test (but not to exceed 50%
of such Interest Proceeds available). See "Description of the
Securities—Priority of Payments—Interest Proceeds".

Any Eligible Post Reinvestment Proceeds may also be used, in the
sole discretion of the Collateral Manager, after the Reinvestment
Period, but no later than the end of the applicable Investment Due
Period, to purchase Collateral Obligations, so long as the
Reinvestment Criteria are satisfied and, if not so used, shall be
applied in accordance with the Priority of Payments. See
"Description of the Securities—Priority of Payments—Additional
Proceeds".

Additional Issuance

Additional Securities of all existing Classes may be issued and sold,
and the Issuer may use the proceeds to purchase additional
Collateral Obligations and, if applicable, enter into Hedge
Agreements, subject to the terms and conditions set forth herein.
See "Description of the Securities—Additional Issuance".

Governing Law

The Securities, the Indenture, the Collateral Management
Agreement, any Hedge Agreements, the Collateral Administration
Agreement and the Securities Account Control Agreement will be
governed by, and construed in accordance with, the laws of the
State of New York.

Listing and Trading

There is currently no trading market for the Securities and there
can be no assurance that such a market will develop. See "Risk
Factors—Limited Liquidity and Restrictions on Transfer".

Application has been made to the Irish Financial Services
Regulatory Authority, as competent authority under Directive
2009/115/EC, for this Offering Circular to be approved. Application
has been made to the Irish Stock Exchange for the Securities to be
admitted to the Official List and to trading on its regulated market.
There can be no assurance that such listing will be approved or
maintained. Such listing, if obtained, may be discontinued in certain
circumstances. See "Risk Factors—Irish Stock Exchange Listing"
and "Listing and General Information".

Tax Status

See "Income Tax Considerations".

ERISA Considerations

See "ERISA Considerations".
RISK FACTORS

Prior to making an investment decision, prospective investors should carefully consider, in addition to the matters set forth elsewhere in this Offering Circular, the following factors:

Limited Liquidity and Restrictions on Transfer. There is currently no market for the Securities. Although Goldman, Sachs & Co. has advised the Issuer that it intends to make a market in the Securities, Goldman, Sachs & Co. is not obligated to do so, and any such marketing efforts with respect to the Securities may be discontinued at any time without notice. There can be no assurance that any secondary market for any of the Securities will develop, or, if a secondary market does develop, that it will provide the Holders of such Securities with liquidity of investment or that it will continue for the life of such Securities. Consequently, a purchaser must be prepared to hold the Securities for an indefinite period of time or until Stated Maturity. In addition, no sale, assignee, participation, pledge or transfer of the Securities may be effected if, among other things, it would require any of the Issuer, the Co-Issuer or any of their respective officers or directors to register under, or otherwise be subject to the provisions of, the Investment Company Act or any other similar legislation or regulatory action. Furthermore, the Securities will not be registered under the Securities Act of 1933, as amended, and the Issuer has no plans, and is under no obligation, to register the Securities under the Securities Act. The Securities are subject to certain transfer restrictions and can be transferred only in certain transfers as described herein under "Transfer Restrictions." Such restrictions on the transfer of the Securities may further limit their liquidity. See "Transfer Restrictions." Application has been made to the Irish Financial Services Regulatory Authority, as competent authority under Directives 2003/71/EC, for this Offering Circular to be approved. Application has been made to the Irish Stock Exchange for the Securities to be admitted to the Official List and to trading on its regulated market. There can be no assurance that such listing will be approved or maintained.

Limited Recourse Obligations. The Co-Issued Notes will be limited recourse secured obligations of the Issuer and the Subordinated Securities will be limited recourse unsecured obligations of the Issuer. None of the Collateral Manager, the Securityholders, the Initial Purchaser, the Trustee, any Hedge Counterparty, the Administrator, the Share Trustee or any Affiliates of any of the foregoing or any other person or entity will be obligated to make payments on the Securities. Consequently, Holders of the Securities must rely solely on distributions on the Collateral for the payment of principal, interest and premium, if any, thereon. If distributions on the Collateral are insufficient to make payments on the Securities, no other assets (and, in particular, no assets of the Collateral Manager, the Securityholders, the Initial Purchaser, the Trustee, any Hedge Counterparty, the Administrator, the Share Trustee or any directors or officers of the Issuer or any Affiliates of any of the foregoing) will be available for payment of the deficiency and following realization of the Collateral, the obligations of the Issuer or, in the case of the Class E Notes and Subordinated Securities, the Issuer, to pay such deficiency shall be extinguished and shall not thereafter revive. Each Securityholder by its acceptance of each Security will agree or be deemed to have agreed not to take any action or institute any proceedings against the Issuer under any insolvency law applicable to the Issuers or which would be likely to cause the Issuer to be subject to, or to seek the protection of, any insolvency law applicable to the Issuers, subject to certain limited exceptions.

Subordination of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Subordinated Securities. Except as described in "Summary—Status and Subordination," the Class A Notes are subordinated on each Payment Date to the Class B Notes, the Class B Notes are subordinated on each Payment Date to the Class C Notes, the Class C Notes are subordinated on each Payment Date to the Class D Notes, the Class D Notes are subordinated on each Payment Date to the Class E Notes, the Class E Notes are subordinated on each Payment Date to the Class D Notes and the Subordinated Securities are subordinated on each Payment Date to the Class E Notes. Except as described in "Summary—Status and Subordination," no payments of interest or distributions from interest Proceeds will be made on any Class of Securities on any Payment Date until current or Deferred Interest on the Securities of each Class to which such Class is subordinated has been paid, and no payments of principal or distributions from Principal Proceeds will be made on any such Class of Securities on any Payment Date until principal of the Securities of each Class to which such Class is subordinated has been paid in full, in each case in accordance with the Priority of Payments described herein. No distributions of Principal

Confidential Treatment Requested by Goldman Sachs
Proceeds to the Holders of the Subordinated Securities will be made until the Secured Notes have been repaid in full. See "Description of the Securities—Priority of Payments".

In addition, if an Event of Default occurs, as long as any Securities of the Controlling Class are Outstanding, the Holders of the Controlling Class will be entitled to determine the remedies to be exercised under the Indenture including the sale and liquidation of the Collateral (except that if the Collateral may be sold and liquidated only if, among other things, the Trustee determines (and the Majority of the Controlling Class agrees with such determination) that the anticipated proceeds of such sale or liquidation (after deducting the reasonable expenses of such sale or liquidation) would be sufficient to pay in full the Aggregate Outstanding Amount of the Secured Notes, plus accrued and unpaid interest, and certain other amounts, or the holders of at least 68 2/3% of the Aggregate Outstanding Amount of the Secured Notes of each Class (with such Class voting separately) direct, subject to the provisions of the Indenture, such sale and liquidation). Remedies pursued by the Holders of the Controlling Class could be adverse to the interests of the holders of the subordinated Classes of Securities. See "Description of the Securities—The Indenture—Events of Default".

Unsecured Subordinated Securities. The Subordinated Securities are not secured by the Collateral Obligations or the other Collateral securing the Secured Notes. As such, the Holders of the Subordinated Securities will rank behind all of the secured creditors, whether known or unknown, of the Issuer, including, without limitation, the Holders of the Secured Notes and any Hedge Counterparties. No person or entity other than the Issuer will be required to make any distributions on the Subordinated Securities. Except with respect to the obligations of the Issuer to make payments pursuant to the Priority of Payments, the Issuer does not expect to have any creditors. Any distributions on the Subordinated Securities will be payable only to the extent funds are available in accordance with the Priority of Payments.

Optional Redemption of Securities. An optional redemption of Securities could require the Collateral Manager to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the realized value of the securities sold. In addition, the optional redemption requirements in the Indenture may require the Collateral Manager to aggregate securities to be sold together in one block transaction, thereby possibly resulting in a lower realized value for the securities sold.

Redemption by Refinancing. The Secured Notes are subject to Redemption by Refinancing. The Holders of at least a Majority of the Subordinated Securities may direct the redemption of any Class of Secured Notes in whole but not in part on any Scheduled Payment Date occurring after the Non-Call Period, in connection with a Redemption by Refinancing by directing the Issuer to issue Replacement Notes (which may accrue interest at a floating rate or fixed rate as described herein), the proceeds of which will be used to fully redeem such Class or Classes of Secured Notes, as applicable. A Redemption by Refinancing will be required to result in the redemption of all of the Secured Notes of the affected Class or Classes but need not result in the redemption of all Classes of Secured Notes. There is no assurance that the Holders of any Class of Secured Notes refinanced will be able to invest the proceeds thereof in comparable securities earning a comparable rate of return.

Mandatory Redemption of Secured Notes in Case of Failure of the Coverage Tests. If any Par Value Test (excluding the Class E Par Value Test) with respect to the applicable Class or Classes of Co-Issued Notes is not met on the Determination Date immediately preceding a Scheduled Payment Date or if any Interest Coverage Test with respect to any Class or Classes of Co-Issued Notes is not met on any Determination Date on or after the Second Determination Date, Proceeds (and, thereafter, Interest Proceeds that would have been paid to the holders of each Class of Securities that is subordinated to such Class or Classes will be used to redeem the Securities of the most senior Class or Classes then Outstanding to the extent necessary to restore the applicable Coverage Test to the minimum required level as described under "Security for the Secured Notes—The Coverage Tests" or cause any Class of Securities to which such unsatisfied last ranking to be redeemed in full. If the Class E Par Value Test is not met on the Determination Date immediately preceding a Scheduled Payment Date, Interest Proceeds that otherwise would have been paid to the holders of the Subordinated Securities will be used to redeem the Class E Notes, to the extent necessary to restore the Class E Par Value Test to the minimum required level. The foregoing could result in an elimination, deferral or reduction in the funds available to make interest payments or principal repayments to the Holders of the Class C Notes, the Class D Notes and the Class E Notes and distributions to the

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918251
Footnote Exhibits - Page 5031

Holders of the Subordinated Securities. See "Description of the Securities—Priority of Payments" and "Security for the Secured Notes—the Coverage Test."

Effective Date Ratings Downgrade Event. Although Collateral Obligations with an Aggregate Principal Amount equal to approximately 97% of the Collateral Portfolio to be purchased by the issuer will be purchased (or the issuer will have entered into agreements to purchase) as of the Closing Date, a portion of the Collateral Portfolio will be purchased after the Closing Date and the price and availability of Collateral Obligations may be adversely affected by volatility in the market for Collateral Obligations. Consequently, the ability of the issuer to purchase Collateral Obligations by the Effective Date at desirable prices and meeting the requirements set forth herein may be compromised. The issuer will request that each of the Rating Agencies confirm (or, in the case of Moody’s, submit information such that Moody’s may be deemed to have confirmed) the initial ratings of the Secured Notes on the Effective Date. The inability of the issuer to purchase a suitable portfolio prior to the Effective Date may result in an Effective Date Ratings Downgrade Event. If an Effective Date Ratings Downgrade Event occurs, the issuer is required to, in accordance with the Priority of Payments, apply Interest Proceeds and, to the extent the application of Interest Proceeds is insufficient, Principal Proceeds to pay principal of the Secured Notes (other than the Class S Notes) pursuant to the Note Payment Sequence until the Secured Notes (other than the Class S Notes) are paid in full or until such Effective Date Ratings Downgrade Event no longer exists. See "Description of the Securities—Priority of Payments". The occurrence of an Effective Date Ratings Downgrade Event will not cause an Event of Default.

Use of Interest Proceeds to Purchase Collateral Obligations. During the Reinvestment Period, Interest Proceeds remaining on each Payment Date prior to the payment of certain unpaid subordinated expenses and unpaid hedge termination payments, the distribution to the Collateral Manager in respect of the Incentive Collateral Management Fee and distributions in respect of the Subordinated Securities will be used to reinvest in Collateral Obligations up to the amount necessary to satisfy the Reinvestment Test (but not to exceed 50% of such Interest Proceeds available on such Payment Date). As a result, distributions to the Holders of Subordinated Securities will be reduced to the extent of the portion of Interest Proceeds used during the Reinvestment Period to reinvest in Collateral Obligations. See "Description of the Securities—Priority of Payments—Interest Proceeds."

Nature of Non-investment Grade Collateral: Loans. The Collateral is subject to credit, liquidity and interest rate risks. The Collateral Obligations pledged to secure the Secured Notes consist of a portfolio of assets which consist primarily of Dollar denominated loans (including Assignments or Participations) and high yield debt securities, primarily rated below investment grade (or of equivalent credit quality), Structured Finance Securities and Synthetic Securities, the Reference Obligations of which will likely be rated below investment grade, all of which will have greater credit and liquidity risk than investment grade sovereign or corporate bonds or loans.

High yield debt securities are generally unsecured (and loans may be unsecured) and may be subject to certain other obligations of the issuer thereof. The lower rating of high yield securities and below investment grade loans reflects a greater possibility that adverse changes in the financial condition of an issuer or obligor or in general economic conditions or both may impair the ability of the issuer or obligor to make payments of principal or interest. Such investments may be speculative. See "The Loan Market."

A portion of the Collateral Portfolio may consist of middle market loans and second lien loans, issuance sizes and lending syndicates for middle market loans are usually smaller than those for widely syndicated or leveraged loans and thus less liquid given their smaller loan sizes. The issuers tend to the proceeds on the liquidation of the collateral for a second lien loan will be subordinate to the rights of the holders of the first lien on the related collateral, and consequently, the issuer's recovery on such a loan may be reduced. Collateral Obligations that are second lien loans may be less liquid than loans secured by a first lien.

The issuer will acquire interests in loans and other debt obligations directly by way of sale, Assignment or Participation. The purchaser of an Assignment typically succeeds to all the rights and obligations of the assigning institution and becomes a lender under the credit agreement with respect to the debt obligation; however, its rights can be more restricted then those of the assigning institution. In
Footnote Exhibits - Page 5032

purchasing Participations, the Issuer generally has only a contractual relationship with the Seding institution and will have no right to directly enforce compliance by the borrower with the terms of the loan agreement. See "Assignments of and Participations in Loans".

Purchasers of loans are predominantly commercial banks, investment funds and investment banks. As secondary market trading volumes increased, new loans frequently contain standardized documentation to facilitate loan trading which may improve market liquidity. There can be no assurance, however, that future levels of supply and demand in loan trading will provide an adequate degree of liquidity or that the current level of liquidity will continue. Loans are not purchased or sold as easily as publicly traded securities are purchased or sold because, among other things, the holders of such loans are provided confidential information relating to the borrower; the loan agreement with respect to such loans is unique and customized; and such loans are privately syndicated. In addition, historically the trading volume in the loan market has been small relative to the high yield debt market. See "The Loan Market".

The market value of the Collateral Obligations will generally fluctuate with, among other things, changes in prevailing interest rates, general economic conditions, the condition of certain financial markets (including, particularly, the market for high yield debt obligations), international political events, developments or trends in any particular industry and the financial condition of the issuers of the Collateral Obligations. The public market for high yield debt obligations, in particular, has experienced periods of volatility and periods of reduced liquidity.

The offering of the Securities has been structured to withstand certain assumed losses relating to defaults on the underlying Collateral Obligations. See "Rating of the Securities". There is no assurance that actual losses will not exceed such assumed losses over any given time period. If any losses exceed such assumed levels, however, payments or distributions on the Securities could be adversely affected by defaults. To the extent that a default occurs with respect to any Collateral Obligation and the Trustee sells or otherwise disposes of such Collateral Obligation, it is not likely that the proceeds of such sale or disposition will be equal to the unpaid principal and interest thereon and such default and/or such disposition may reduce, if not eliminate, the availability of funds that would otherwise be distributable to the holders of the Securities.

Concentration Risk. The Issuer will invest in a portfolio of Collateral Obligations consisting of Assignments or Participations of loans, high yield debt securities, Synthetic Securities, Finance Leases and other Securitizations. Although no significant concentration with respect to any particular obligor, industry or country (other than the United States) is expected to exist at the Effective Date, the concentration of the portfolio in any one obligor would subject the Securities to a greater degree of risk with respect to defaults by such obligor, and the concentration of the portfolio in any one industry would subject the Securities to a greater degree of risk with respect to economic downturns relating to such industry. See "Security for the Secured Notes".

International investing. A portion of the Collateral may consist of Collateral Obligations that are obligations of non-U.S. obligors. Investing outside the United States may involve greater risks than investing in the United States. These risks include: (i) less publicly available information, (ii) varying levels of governmental regulation and supervision and (iii) the difficulty of enforcing legal rights in a non-U.S. jurisdiction and uncertainties as to the status, interpretation and application of laws. Moreover, non-U.S. obligors may not be subject to uniform accounting, auditing and financial reporting standards, practices and requirements comparable to those applicable to United States companies. Moreover, if the sovereign rating of a country in which an obligor on a Collateral Obligation is located is downgraded, the ratings applicable to such Collateral Obligation may decline as well.

Synthetic Securities. Synthetic Securities expose the Issuer to the credit risks associated with the Reference Obligations consisting of high yield debt securities and non-investment grade loans. However, the Issuer will usually have a contractual relationship only with the counterparty of such Synthetic Security, and not with the Reference Obligor. Generally, the Issuer will have no right to directly enforce compliance by the Reference Obligor with the terms of the Reference Obligation nor any rights of set-off against the Reference Obligor. The Issuer may be subject to set-off rights exercised by the Reference Obligor against the counterparty. The Issuer will not have any voting rights with respect to the Reference Obligation. The

Confidential Treatment Requested by Goldman Sachs

QS MBS-E-001918253
Issuer will not directly benefit from any collateral that may support the Reference Obligation and will not have the benefit of the remedies that would normally be available to a holder of such Reference Obligation. In addition, in the event of the insolvency of the counterparty, the issuer will be treated as a general creditor of such counterparty, and will not have any claims with respect to the Reference Obligation. Consequently, the issuer will be subject to the credit risk of the counterparty as well as that of the Reference Obligor. As a result, concentrations of Synthetic Securities in any one counterparty subject the Securities to an additional degree of risk with respect to defaults by such counterparty as well as by the Reference Obligor. The Collateral Manager will not perform independent credit analyses of the counterparties. However, any such counterparty, or an entity guaranteeing such counterparty, individually and in the aggregate shall satisfy the required ratings set forth in the definition of “Synthetic Security Counterparty”. The Rating Agencies may downgrade any of the Co-Issued Notes if a Synthetic Security Counterparty has been downgraded by either of the Rating Agencies such that the issuer is not in compliance with the Synthetic Security Counterparty rating requirements. The Initial Purchaser and/or one or more of its Affiliates, if necessary, may act as counterparty with respect to all or a portion of the Synthetic Security Counterparties, which may create certain conflicts of interest. See “—Certain Conflicts of Interest”.

Structured Finance Securities. A portion of the Collateral Obligations may consist of Structured Finance Securities. Structured Finance Securities may present risks similar to those of the other types of Collateral Obligations in which the issuer may invest and, in fact, such risks may be present to a greater degree in the case of Structured Finance Securities. Moreover, investing in Structured Finance Securities may entail a variety of unique risks. Among other risks, Structured Finance Securities may be subject to prepayment risk, credit risk, liquidity risk, market risk, structural risk, legal risk and interest rate risk (which may be exacerbated if the interest rate payable on a Structured Finance Security changes based on changes in interest rates or inversely in relation to changes in interest rates). In addition, certain Structured Finance Securities may provide that non-payment or default will not constitute an event of default in certain circumstances and the holders of such securities will not have available to them any associated default remedies. During such period of non-payment, such non-paid interest will generally be capitalized and added to the outstanding principal balance of the related security. Furthermore, (i) the performance of a Structured Finance Security will be affected by a variety of factors, including its priority in the capital structure of its issuer, the availability of any credit enhancement, the level and timing of payments and recoveries on and the characteristics of the underlying receivables, loans or other assets that are being securitized, remoteness of those assets from the originator or transferee, the adequacy of and ability to realize upon any related collateral and the competence of the servicer of the underlying assets and (ii) the price of a Structured Finance Security, if required to be sold, may also be subject to market and liquidity risks for securities of its type at the time of sale. The issuer will be subject to restrictions on the amount of Structured Finance Securities it may hold.

Securities Lending. The Collateral Obligations may be loaned to one or more Securities Lending Counterparties. See “Security for the Secured Notes—Securities Lending”. In the event that a Securities Lending Counterparty defaults on its obligation to return such loaned Collateral Obligation because of insolvency or otherwise, the issuer could experience delays and costs in gathering assets to be pledged by the borrower (and in extreme circumstances could be restricted from selling the collateral). In the event of the borrower defaulting, the holders of the Securities could suffer a loss to the extent of the unrealized value of the cash or securities securing the obligation of the borrower to return a loaned Collateral Obligation (less expenses) is less than the amount required to purchase such Collateral Obligation in the open market. This shortfall could be due to, among other things, discrepancies between the mark-to-market and actual transaction prices for the loaned Collateral Obligations arising from limited liquidity or availability of the loaned Collateral Obligations (and, in extreme circumstances, the loaned Collateral Obligations being unavailable at any price). The Rating Agencies may downgrade any of the Co-Issued Notes if a borrower of a Collateral Obligation or, if applicable, the entity guaranteeing the performance of such borrower, does not satisfy the Securities Lending Counterparty rating requirements. The Initial Purchaser and/or one or more of its Affiliates, with acceptable credit support arrangements, if necessary, may borrow Collateral Obligations, which may create certain conflicts of interest. In addition, the issuer may be required to indemnify the collateral agent or any other person acting in a similar capacity in connection with a Securities Lending Agreement (any such indemnity payments will constitute Administrative Expenses and will only be paid on a subordinated basis, subject to the Priority of Payments). See “—Certain Conflicts of Interest.”

Confidential Treatment Requested by Goldman Sachs

GS MBF-E-001918254
Insolvency: Considerations with Respect to Issuers of Collateral Obligations. In the event of the
insolvency of an Issuer or obligor of a Collateral Obligation, payments made on such Collateral Obligation
could be subject to avoidance as a "preference" if made within a certain period of time (which may be up to
nine months as one example) before insolvency. The Collateral Obligations consisting of obligations of non-U.S. issuers or
obligors may be subject to various laws enacted in the countries of their issuance for the protection of
creditors. These insolvency considerations will differ depending on the country in which each Issuer is
located or domiciled and may differ depending on whether the Issuer or obligor is a non-sovereign or a
sovereign entity.

Various laws enacted for the protection of creditors may apply to the Collateral Obligations. The
information in this and the following paragraph is applicable with respect to U.S. issuers or obligors subject to
United States federal bankruptcy law. Insolvency considerations may differ with respect to other issuers. If a
court in a lawsuit brought by an unpaid creditor or representative of creditors of an Issuer or obligor of a
Collateral Obligation, such as a trustee in bankruptcy, were to find that the Issuer or the obligor did not
receive fair consideration or reasonably equivalent value for incurring the indebtedness constituting the
Collateral Obligation and, after giving effect to such indebtedness, the Issuer or obligor (i) was insolvent, (ii)
was engaged in a business for which the remaining assets of such Issuer constituted unreasonably small
capital or (iii) intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as
they matured, such court could determine to invalidate, in whole or in part, such indebtedness as a fraudulent
conveyance, to subordinate such indebtedness to existing or future creditors of such Issuer or obligor, or to
recover amounts previously paid by such Issuer or obligor in satisfaction of such indebtedness. The
measure of insolvency for purposes of the foregoing will vary. Generally, an Issuer or obligor would be
considered insolvency at a particular time if the sum of its debts were then greater than all of its property at a
fair valuation, or if the present fair saleable value of its assets was then less than the amount that would be
required to pay its probable liabilities on its existing debts as they became absolute and matured. There can be
no assurance as to what standard a court would apply in order to determine whether the Issuer or obligor
was "insolvent" after giving effect to the incurrence of the indebtedness constituting the Collateral Obligation
or that, regardless of the method of valuation, a court would not determine that the Issuer was "insolvent"
upon giving effect to such insolvency.

In general, if payments on a Collateral Obligation are available, whether as fraudulent conveyances
or preferences, such payments may be recouped either from the initial recipient (such as the Issuer) or from
subsequent transferees of such payments (such as the Holders of the Securities). To the extent that any
such payments are recouped from the Issuer, the resulting loss will be borne first by the Holders of the
Subordinated Securities, then by the Holders of the Class E Notes, then by the Holders of the Class D Notes,
then by the Holders of the Class C Notes, then by the Holders of the Class B Notes, then by the Holders of
the Class A Notes and finally by the Holders of the Class S Notes (only to the extent such Note is
outstanding at such time). However, a court in a bankruptcy or insolvency proceeding would be able to
reverse the receipt of any such payment from a Holder of Securities only to the extent that such payment is
judgmental over such Holder or its assets. Moreover, it is likely that avoidable payments could not be
recouped directly from a Holder that has given value in exchange for its Security, in good faith and without
knowledge that the payments were avoidable. Nevertheless, since there is no judicial precedent relating to
structured securities such as the Securities, there can be no assurance that a Holder of the Securities will be
able to avoid recoupment on this or any other basis. See also "Assignments and Participations in Loans".

The Issuer does not intend to engage in conduct that would form the basis for a successful cause of
action based upon fraudulent conveyance, preference or equitable subordination. There can be no
assurance, however, that such a successful cause of action against the Issuer will not occur, or as to
whether any lending institution or other investor from which the Issuer acquired the Collateral Obligations
generated in any such conduct or any other conduct that would subject the Collateral Obligations and the
Issuer to insolvency laws and, if it did, as to whether such creditor claims could be asserted in a U.S. court
(or in the courts of any other country) against the Issuer.

Lender Liability Considerations: Equitable Subordination. A number of judicial decisions in the
United States have upheld the right of borrowers to sue lenders or bondholders on the basis of various
evolving legal theories (collectively, termed "lender liability"). Generally, lender liability is founded upon the
premise that an institutional lender or bondholder has violated a duty (whether implied or contractual) of good

Confidential Treatment Requested by Goldman Sachs
GS MBS-E-001919255
faith and fair dealing owed to the borrower or issuer or has assumed a degree of control over the borrower or issuer resulting in the creation of a fiduciary duty owed to the borrower or issuer or its other creditors or shareholders. Although it would be a novel application of the lender liability theories, the issuer may be subject to allegations of lender liability. However, the issuer does not intend to engage in conduct that would form the basis for a successful cause of action based upon lender liability.

In addition, under common law principles that in some cases form the basis for lender liability claims, if a lender or bondholder (g) intentionally takes an action that results in the undercapitalization of a borrower to the detriment of other creditors of such borrower; (h) engages in other inequitable conduct to the detriment of such other creditors, (c) engages in fraud with respect to, or makes misrepresentations to, such other creditors or (d) uses its influence as a stockholder to dominate or control a borrower to the detriment of other creditors of such borrower, a court may elect to subordinate the claim of the offending lender or bondholder to the claims of the disadvantaged creditor or creditors, such remedy called "equitable subordination". Because of the nature of the Collateral Obligations, the issuer may be subject to claims from creditors of an obligor that Collateral Obligations issued by such obligor that are held by the issuer should be equitably subordinated. However, the issuer does not intend to engage in conduct that would form the basis for a successful cause of action based upon the equitable subordination doctrine.

The preceding discussion is based upon principles of United States federal and state laws. Insular as Collateral Obligations that are obligations of non-United States obligors are concerned, the laws of certain foreign jurisdictions may impose liability upon lenders or bondholders under fiduciary circumstances similar to those described above, with consequences that may or may not be analogous to those described above under United States federal and state laws.

**Volatility of Collateral Market Value and the Securities.** The market value of the Collateral Obligations will generally fluctuate with, among other things, changes in prevailing interest rates, general economic conditions, the condition of certain financial markets, developments or trends in any particular industry and the financial condition of the issuers of the Collateral Obligations. The markets for high yield corporate debt securities and loans have in the past experienced periods of volatility and periods of reduced liquidity. A decrease in the market value of the Collateral Obligations would adversely affect the Issuer's ability to effect an optional redemption of the Securities, pay the principal of the Secured Notes or make distributions on the Subordinated Securities.

The financial markets have experienced substantial fluctuations in prices for loans and high yield debt securities and limited liquidity for such obligations. No assurance can be made that the conditions giving rise to such price fluctuations and limited liquidity will not continue or become more acute following the Closing Date. During periods of limited liquidity and higher price volatility, the Issuer's ability to acquire or dispose of Collateral Obligations at a price and time that the Issuer deems advantageous may be impaired. As a result, in periods of rising market prices, the Issuer may be unable to participate in price increases fully to the extent that it is unable to acquire desired positions quickly, and its Issuer's inability to obtain full and promptly of positions in declining markets will conversely cause its net asset value to decline as the value of unrealized positions is marked to lower prices.

There can be no assurance that current economic conditions and the effects of increased interest rates and corresponding price volatility will not adversely impact the investment returns ultimately realized by investors or continued compliance with, among other things, the Covenants Test.

Assignments of, and Participations in, Loans. The Issuer may purchase an interest in loans comprising Collateral Obligations either directly (by way of sale or Assignment) or indirectly (by way of Participation) subject to certain limitations set forth in the Indenture.

The purchaser of an Assignment typically succeeds to all the rights and obligations of the assigning institution and becomes a lender under the loan agreement with respect to the loan. The Issuer as an assignee will generally have the right to receive directly from the borrower all payments of principal and interest to which it is entitled under the Assignment. As a purchaser of an Assignment, the Issuer typically will have the same voting rights as other lenders under the applicable loan agreement and will have the right

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918256
to vote to waive enforcement of breaches of covenants. The Issuer will also have the same rights as other lenders to enforce compliance by the borrower with the terms of the loan agreement, to set-off claims against the borrower and to have access to collateral supporting the loan. As a result, in case of default, the Issuer will generally not assume the credit risk of the assigning institution, and the insolvency of an assigning institution should have little effect on the ability of the Issuer to continue to receive payments of principal or interest from the borrower. The Issuer will, however, assume the credit risk of the borrower.

In purchasing Participations, the Issuer will usually have a contractual relationship only with the Selling Institution, and not the borrower. When the Issuer holds a Participation in a loan it generally will not have the right to enforce compliance by the borrower with the terms of the loan agreement or have the right to vote to waive enforcement of any restrictive covenant breached by a borrower. However, most participation agreements provide that the Selling Institution may not vote in favor of any amendment, modification or waiver that forgiven principal or interest, reduces principal or interest that is payable, postpones any payment of principal (whether a scheduled payment or a mandatory prepayment) or interest or releases any material guarantee or security without the consent of the participant (at least to the extent that the participant would be affected by any such amendment, modification or waiver). Selling Institutions voting in connection with a potential waiver of a restrictive covenant may have interests different from those of the Issuer as such Selling Institutions are not required to consider the interests of the Issuer in connection with their vote. In addition, the Issuer will have the right of set-off against the borrower. The Issuer may not directly benefit from the collateral supporting the related loan and generally will have no right to enforce directly compliance by the borrower under the loan agreements. The Issuer may purchase a Participation from a Selling Institution that does not itself retain any portion of the loan and, therefore, may have limited interest in monitoring the terms of the loan agreement and the continuing creditworthiness of the borrower.

In addition, depending upon the circumstances in the event of the insolvency of the Selling Institution, under the laws of the United States of America and the States thereof, the Issuer may experience delays in receiving payments made to the Selling Institution by the borrower or may be treated as a general creditor of the Selling Institution with respect to certain payments and the Issuer may suffer a loss to the extent the borrower may set-off claims against the Selling Institution or, if it is treated as a general creditor of the Selling Institution it may not have any exclusive or senior claim with respect to the Selling Institutions interest in or the collateral with respect to, the loan. Consequently, the Issuer may be subject to the credit risk of the Selling Institution as well as that of the borrower. The Collateral Manager has not and will not perform independent credit analyses of the Selling Institutions.

Certain of the loans or Participations may be governed by the law of a jurisdiction other than a United States jurisdiction. The Issuer is unable to provide any information with respect to the risks associated with purchasing a Participation under an agreement governed by the laws of a jurisdiction other than a United States jurisdiction, including characterization under such laws of such Participation or sub-Participation in the event the insolvency of the institution from whom the Issuer purchases such Participation or sub-Participation or the insolvency of the institution from whom the grantor of the sub-Participation purchased its Participation.

Collateral Reinvestment Provisions: Restrictions on Acquisition and Disposition. During the Reinvestment Period and, to the limited extent described more fully herein, after the Reinvestment Period, so long as certain requirements are met, the Collateral Manager will have sole discretion to reinvest Principal Proceeds thereof in Substitute Collateral Obligations, in such case in compliance with the Reinvestment Criteria, and certain other requirements set forth herein and in the Indenture. The exercise by the Collateral Manager in its discretion in disposing of such Collateral Obligations and purchasing Substitute Collateral Obligations in compliance with the Reinvestment Criteria and such other requirements will expose the Issuer to the market conditions prevailing at the time of such sale and reinvestment. Such actions during periods of adverse market conditions may result in unfavorable changes in the characteristics and quality of the Collateral Portfolio and may result in a decrease in the overall yield on the Collateral Portfolio, adversely affecting the Issuer's ability to make payments on the Securities. Further, due to the significant restrictions imposed by the Indenture on the Collateral Manager's ability to buy and sell Collateral Obligations, during certain periods or in certain circumstances, the Collateral Manager may be unable as a result of such
restitutions to buy or sell securities or to take other actions which it might consider to be in the best interests of the Issuer and the Holders of the Securities. See "Security for the Secured Notes—Sale of Collateral Obligations; Substitute Securities; Exchange of Defeased Obligations and Reinvestment Criteria".

Prepayment of Loans. Loans are generally prepayable, in whole or in part, at any time at the option of the obligor thereof at par plus accrued and unpaid Interest thereon. Prepayments on loans may be caused by a variety of factors which are difficult to predict. Accordingly, there exists a risk that loans purchased at a price greater than par may experience a capital loss as a result of such a prepayment. In addition, Principal Proceeds received upon such a prepayment are subject to reinvestment risk as described in the preceding paragraph. Any failure of the Issuer to reinvest payments or other proceeds in Collateral Obligations with comparable interest rates that satisfy the Reinvestment Criteria may adversely affect the timing and amount of payments and distributions received by the Holders of the Securities and the yield to maturity of the Securities. There can be no assurance that the Issuer will be able to reinvest proceeds in Collateral Obligations with comparable interest rates that satisfy the Reinvestment Criteria or (if it is able to make such reinvestments) as to the length of any delays before such investments are made.

Recovery. To the extent that defaults occur with respect to any Collateral Obligation and the Issuer sells or otherwise disposes of such Collateral Obligation, it is unlikely that the proceeds of such sales or dispositions, together with the value of the remaining Collateral, will be equal to the unpaid principal of and interest on all of the Secured Notes and the purchase price of the Subordinated Securities. In addition, the Issuer may incur additional expenses to the extent it is required to seek recovery upon a default on a Collateral Obligation or participate in the restructuring of such Collateral Obligation. Moreover, there can be no assurance on the timing of any recoveries.

Average Life and Prepayment Considerations. The Stated Maturity of each Class of Securities (other than the Class S Notes) is the Payment Date in February 2024 and, with respect to the Class S Notes, February 2014; however, the average life of each Class is expected to be shorter than the number of years until the Stated Maturity. See "Summary—The Offering" and "Maturity and Prepayment Considerations".

The approximations of the average life of each Class of Secured Notes set forth in the table in "Summary—The Offering" with respect to the average life of each Class of Secured Notes are not predictive end do not necessarily reflect historical performance and defaults for loans and high yield debt securities; in fact, the average life of the Secured Notes will be affected by the ability of the Issuer to reinvest Principal Proceeds in Collateral Obligations during the Permitted Reinvestment Period (and to the extent of Eligible Post Reinvestment Proceeds, after the Reinvestment Period). Such approximations will also be affected by the financial condition of the Issuer of the underlying Collateral Obligations and the characteristics of such securities, including the existence and frequency of exercise of any optional redemption, mandatory prepayment or sinking fund features, the prevailing level of interest rates, the redemption price, the actual default if any thereof at par plus accrued and unpaid Interest thereon, the actual level of recoveries on any Defeased Obligations, the frequency of exchange offers for the Collateral Obligations and on any sales of Collateral Obligations. In addition, if prepayments on the Secured Notes occur under the circumstances described under "Summary—The Offering—Principal Payments on the Secured Notes," the actual life of the Secured Notes will also be affected. See "Summary—Maturity and Prepayment Considerations" and "Security for the Secured Notes—Sale of Collateral Obligations; Substitute Securities; Exchange of Defeased Obligations and Reinvestment Criteria".

Distribution of Principal Proceeds Prior to the End of the Reinvestment Period. On each Scheduled Payment Date during the Reinvestment Period, Principal Proceeds will be distributed to the Holders of the Secured Notes in accordance with the Priority of Payments, if the Collateral Manager determines, in its sole judgment (which judgment shall not be subject to question as a result of subsequent events), that it is impractical or not beneficial to reinvest Principal Proceeds by the end of the applicable Investment Due Date Period. Distribution of Principal Proceeds to Holders of the Secured Notes prior to the end of the Reinvestment Period may shorten the expected lives of the Secured Notes and affect the timing and amount of distributions on the Subordinated Securities. See "Maturity and Prepayment Considerations".

Interest Rate Risk: Floating Rate Indicators for Collateral Obligations. The Concentration Limitations require that not less than a certain percentage of the Collateral Portfolio will bear interest based on LIBOR or another floating rate index. See "Summary—Concentration Limitations". Principal Proceeds and Sale
Proceeds may be reinvested in Collateral Obligations, subject to certain limitations specified herein, or, together with Interest Proceeds, invested in Eligible Investments pending application in accordance with the Priorities of Investment. There is no requirement that such Eligible Investments bear interest at a rate equal to the Floating Rate Notes and the interest rates available for such Eligible investments are inherently uncertain. The Floating Rate Notes will bear interest at a rate based on LIBOR for Eurodollar deposits for the Applicable Period, as determined on each LIBOR Determination Date. As a result, there may be a floating/fixed rate or basis mismatch between the Floating Rate Notes and any underlying Fixed Rate Collateral Obligations and there may be a basis or timing mismatch between such Floating Rate Notes and the Floating Rate Collateral Obligations as the interest rate on such Floating Rate Collateral Obligations may adjust more frequently or less frequently, on different dates and based on different indices than the interest rates on the Floating Rate Notes. As a result of such mismatches, an increase in the level of LIBOR could adversely impact the ability to make payments on the Secured Notes, as well as the ability to make distributions on the Subordinated Securities. The Issuer may purchase one or more Hedge Agreements (which may be Interest Rate Swap Agreements or Interest Rate Cap agreements) in order to reduce the impact of the interest rate mismatch. However, despite the Issuer having the option of purchasing one or more Hedge Agreements and although distribution of Interest Proceeds to the Holders of the Subordinated Securities will be subordinated to the payment of interest on the Secured Notes, there can be no assurance that the Collateral Obligations and the Eligible Investments will in all circumstances generate sufficient Interest Proceeds to make timely payments of interest on the Secured Notes or amounts subordinated thereto including distributions to the Holders of the Subordinated Securities. The Initial Purchaser and/or one or more of its Affiliates, with acceptable credit support arrangements, if necessary, may act as counterparty with respect to all or some of such Hedge Agreements, which could create certain conflicts of interest. See "Certain Conflicts of Interest".

In the event of the insolvency of a Hedge Counterparty, the Issuer would be treated as a general creditor of such Hedge Counterparty.

Changes in Tax Law. No Gross-Up. A Collateral Obligation will be eligible for purchase by the Issuer if, at the time it is purchased (or committed for purchase), either the payments thereon are not subject to withholding taxes (except for withholding taxes with respect to fees received under a Securities Lending Agreement) and commitment fees associated with Collateral Obligations constitute Covered Credit Facilities or Delayed Funding Term Loans) imposed by any jurisdiction or the obligor is required to make "gross-up" payments that cover the full amount of any such withholding taxes. There is no assurance that, as a result of any change in any applicable law, treaty, rule or regulation or interpretation thereof, the payments on certain Collateral Obligations (such as Floating Rate Notes) would not become or be treated as subject to withholding taxes imposed by any jurisdiction. In addition, the Internal Revenue Service and the Treasury have requested comments on the treatment of credit default swaps, which are often referred to as Synthetic Securitization, and possible alternative treatments could result in withhold on payments received by the Issuer. In that event, if the holders of such Collateral Obligations were not then required to make or in fact failed to make "gross-up" payments that cover the full amount of any such withholding taxes, the amounts available to make payments on, or distributions to, the Holders of the Secured Notes would accordingly be reduced. There can be no assurance that the remaining payments on the Collateral would be sufficient to make timely payments of interest on and payment of principal at the Stated Maturity of each Class of Secured Notes and, consequently, to make distributions to the Holders of the Subordinated Securities. For additional tax considerations, see "Income Tax Considerations".

In the event that any withholding tax is imposed on payments on the Securities, the Holders of such Securities will not be entitled to receive "gross-up" amounts to compensate for such withholding tax. In addition, upon the occurrence of a Withholding Tax Event, the Issuer may have on any Business Day, whether during or after the Loan-In-Call Period, simultaneously more than one in whole but not in part, at redemption prices specified herein, the Securities in accordance with the procedures described under "Description of the Securities—Optional Redemption—Optional Redemption Procedures" below.

Additional Tax. The Issuer expects to conduct its affairs so that its net income will not become subject to U.S. federal income tax. There can be no assurance, however, that its net income will not become subject to United States federal income tax as the result of unanticipated activities by the Issuer, changes in law, contrary conclusions by the U.S. tax authorities or other causes. Investors should note that the
Footnote Exhibits - Page 5039

Treasur y and the Internal Revenue Service recently announced that they are considering taxpayer requests for specific guidance on, among other things, whether a foreign person may be treated as engaged in a trade or business in the United States by virtue of entering into credit default swaps. However, the Treasury and the Internal Revenue Service have not yet provided any guidance on whether they believe entering into credit default swaps may cause a foreign person to be treated as engaged in a trade or business in the United States and if so, what facts and circumstances must be present for this conclusion to apply. Any future guidance issued by the Treasury and/or the Internal Revenue Service may have an adverse impact on the tax treatment of the issuer. See discussion under the heading "Income Tax Considerations—Tax Treatment of the Issuer." below.

Legislation and Regulations in Connection With the Prevention of Money Laundering. The Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the "USA PATRIOT Act"), signed into law on and effective as of October 29, 2001, imposes anti-money laundering obligations on different types of financial institutions, including banks, broker-dealers and investment companies. The USA PATRIOT Act requires the Secretary of the United States Department of the Treasury (the "Treasury") to prescribe regulations to define the types of investment companies subject to the USA PATRIOT Act and the related anti-money laundering obligations.

It is not clear whether the Treasury will require entities such as the Issuer to enact anti-money laundering policies. It is possible that the Treasury will promulgate regulations requiring the Issuer or the Initial Purchaser or other service providers to the Issuer, in connection with the establishment of anti-money laundering procedures, to share information with governmental authorities with respect to investors in the Securities. Such legislation and/or regulations could require the Issuer to implement additional restrictions on the transfer of the Securities. As may be required, the Issuer reserves the right to request such information and take such actions as are necessary to enable it to comply with the USA PATRIOT Act.

Regulation U Requirements. Regulation U governs certain extensions of credit that are secured by Margin Stock by persons other than securities broker-dealers (such persons, "Regulation U Lenders"). Under current interpretations of Regulation U by the Board of Governors of the Federal Reserve System ("FRB") and its staff, the purchase of a debt security such as the Securities in a private placement may constitute an extension of credit. Among other things, Regulation U generally imposes certain limits on the amount of credit that Regulation U Lenders may extend which is used to purchase or carry Margin Stock ("Purpose Credit"). The provisions of the Indenture and the Collateral Management Agreement are intended to ensure that (i) the purchasers of the Subordinated Securities (which are not secured by Margin Stock) are not Regulation U Lenders and (ii) the credit extended by purchasing the Secured Notes (which is secured by the Collateral, which may include Margin Stock) is not Purpose Credit. Regulation U Lenders are not subject to the Regulation U credit limits with respect to extensions of credit that are not Purpose Credit.

Regulation U also generally requires Regulation U Lenders (other than persons that are banks within the meaning of Regulation U) who are not otherwise exempted from the registration requirements to register with the FRB. Under an interpretation of Regulation U by the FRB staff, Qualified Institutional Buyers purchasing debt securities in a transaction in compliance with Rule 144A are not required to register with the FRB where the proceeds of the securities are not Purpose Credit. Non-U.S. Persons purchasing Secured Notes in reliance on Regulation S who do not have their principal place of business in a Federal Reserve District of the FRB are also not required to register with the FRB. However, other purchasers of Secured Notes should consider whether they are required to register with the FRB. In addition, purchasers of Secured Notes subject to the registration requirements of Regulation U, as well as any purchasers of the Secured Notes that are banks within the meaning of Regulation U, may also be subject to certain additional requirements under Regulation U. If the registration or other requirements of Regulation U are applicable, the purchaser of Secured Notes and such purchaser does not comply with such requirements, such failure may affect the enforceability of such purchaser's Secured Notes. See "Security for the Secured Notes—Margin Stock". Purchasers of the Secured Notes should consult their own legal advisors as to Regulation U and its application to them.

Under the Indenture, each purchaser of an interest in a Secured Note will be deemed to have represented that either (a) such purchaser's principal place of business is not located within any Federal Reserve District of the United States Federal Reserve Bank or (b) such purchaser has satisfied and will
Footnote Exhibits - Page 5040

satisfy any applicable registration or other requirements of the FRB including, without limitation, Regulation U, in connection with its acquisition of the Secured Notes.

Dependence on the Collateral Manager and its Investment Professionals. The success of the Issuer will be highly dependent on the managerial expertise of the Collateral Manager. As a result, the Issuer will be highly dependent on the managerial expertise of certain individuals comprising the Collateral Manager’s management team. There is no requirement that there be employment arrangements with these individuals for the benefit of the Collateral Manager. The individuals comprising the Collateral Manager’s management team are also actively involved in other investment activities and will not be able to devote their full time and attention to the Issuer’s business and affairs. The loss of any of these individuals could have a material adverse effect on the performance of the Issuer. See “The Collateral Manager—Key Personnel.”

Certain Conflicts of Interest. Various potential and actual conflicts of interest may arise from the overall advisory, investment and other activities of the Collateral Manager, its Affiliates and/or any funds managed by the Collateral Manager and their respective clients and employees and from the conduct by the Initial Purchaser and its Affiliates of other transactions with the Issuer, including, without limitation, acting as counterparty with respect to the Hedge Agreements, the Securities Lending Agreements and Synthetic Securities. The following briefly summarizes some of these conflicts but is not intended to be an exhaustive list of all such conflicts.

Conflicts of Interest Involving the Collateral Manager and Affiliates. Various potential and actual conflicts of interest may arise from the overall investment activities of the Collateral Manager and its Affiliates and their respective clients and employees. The Collateral Manager and its Affiliates may invest, on behalf of themselves and other clients, in securities that would be appropriate as Collateral Obligations. The Collateral Manager and its Affiliates may give advice or take action for their own account or on other client accounts with similar strategies which may differ from advice given or action taken for the Issuer. The Collateral Manager and its Affiliates may also have ongoing relationships with counterparties whose securities are Collateral Obligations, and may own, directly or through other funds that they manage, equity or debt securities issued by obligors of Collateral Obligations or other Collateral. The Collateral Manager and its Affiliates may also have certain arrangements with companies that own Collateral Obligations, such as a general partner, adviser, officer, director, sponsor or manager of partnerships or companies organized to issue collateralized bond or other similar obligations secured by non-investment grade bank loans. The Collateral Manager may at certain times be engaged in seeking investments to purchase for the Issuer while at the same time the Collateral Manager or one or more Affiliates is also seeking to purchase or have purchased similar or identical investments for its own account or clients of the Collateral Manager, including for another entity for which it serves as a general partner, adviser, officer, director, sponsor, manager or collateral manager. By reason of the various activities of the Collateral Manager and its Affiliates, the Collateral Manager and such Affiliates may acquire confidential or material non-public information or be restricted from effecting transactions in certain Collateral Obligations or other Collateral that otherwise might have been initiated or prevented from liquidating a position. At times, the Collateral Manager, in an effort to avoid restrictions for the Issuer and its other clients, may elect not to receive information that other market participants or counterparties are eligible to receive or have received.

Neither the Collateral Manager nor any Affiliates thereof has any obligation (affirmative or otherwise) to offer any investments to the Issuer or to inform the Issuer of any investments before offering any investments to other funds or accounts that the Collateral Manager or any of its Affiliates manage or advise. The Collateral Manager and its Affiliates may also make investments on their own behalf without offering such investment opportunities to the Issuer. Furthermore, the Collateral Manager and its Affiliates may be bound by affirmative obligations at present or in the future, whereby it or they are obligated to offer certain investments to funds or accounts that it or they manage or advise before or without the Collateral Manager or its Affiliates offering those investments to the Issuer. Alternatively, the Collateral Manager and its Affiliates may offer certain investments to funds or accounts that it or they manage or advise simultaneously with or in

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918261
addition to offering those investments to the Issuer. Thus, other funds or accounts that it or they manage or advise could become co-investors with the Issuer.

The Collateral Manager will endeavor to resolve conflicts with respect to investment opportunities in a manner which it deems equitable (in its sole discretion) to the extent possible under the facts and circumstances. Further, the Collateral Manager will be prohibited under the terms of the Collateral Management Agreement from directing the acquisition of Collateral Obligations from, or disposition of Collateral Obligations to, its Affiliates or any other account managed by the Collateral Manager or any of its Affiliates except in a transaction conducted on terms as favorable to the Issuer as would apply if such person were not so affiliated.

On each Payment Date, the Collateral Manager will be paid the Incentive Collateral Management Fee to the extent of funds available in accordance with the Priority of Payments if the holders of the Subordinated Securities have earned the Specified Internal Rate of Return as of such Payment Date. See “The Collateral Management Agreement—Compensation of the Collateral Manager”. The manner in which the Incentive Collateral Management Fee is determined could create an incentive for the Collateral Manager to make more speculative investments in the Collateral Obligations than would otherwise be the case in order to increase the likelihood that the holders of the Subordinated Securities receive the Specified Internal Rate of Return for the Collateral Manager to be paid the Incentive Collateral Management Fee. Speculative investments in Collateral Obligations could lead to a higher level of defaults on the Collateral Obligations than initially expected, which could result in reductions or delays in payments on the Securities.

Upon the removal or resignation of the Collateral Manager, the holders of a majority of the Subordinated Securities may direct the Issuer to appoint a replacement collateral manager in the manner provided in the Collateral Management Agreement. Subordinated Securities and Secured Notes held by the Collateral Manager or any of its Affiliates will have no voting rights with respect to any vote on the removal or replacement of the Collateral Manager and will be deemed not to be outstanding in connection with any such vote, provided, however, that Subordinated Securities and Secured Notes held by the Collateral Manager or any of its Affiliates will have voting rights with respect to all other matters as to which the holders of Subordinated Securities or holders of the Secured Notes are entitled to vote, including, without limitation, any vote to direct an optional redemption of the Securities or a redemption following a Withholding Tax Event and any vote to appoint a replacement collateral manager that is not an Affiliate of the Collateral Manager pursuant to the Collateral Management Agreement. See “The Collateral Management Agreement” and “Description of the Securities—Optional Redemption”.

Under the Collateral Management Agreement, the Collateral Manager is permitted to recommend or affect direct trades between the Issuer and the Collateral Manager or an Affiliate or funds or accounts for which the Collateral Manager or an Affiliate serve as collateral manager, acting as principal or agent, subject to applicable legal requirements. The Collateral Manager, its Affiliates, and their respective directors, officers and employees may invest in obligations that would be appropriate as Collateral. Such investments may be different from those made on behalf of the Issuer. The Collateral Manager and its Affiliates may also have ongoing relationships with, render services to or engage in transactions with, companies whose obligations are included in the Collateral and may own equity or debt securities issued by issuers of and other obligations of Collateral Obligations. As a result, officers or Affiliates of the Collateral Manager may possess information relating to obligations of Collateral Obligations which is not known to the individuals at the Collateral Manager responsible for managing the Collateral and performing the other obligations under the Collateral Management Agreement. The possession of this information by the Collateral Manager (even if such information is not known to the individuals at the Collateral Manager responsible for monitoring the Collateral and performing the other obligations under the Collateral Management Agreement) may result the Collateral Manager from purchasing or selling securities of those obligors. In addition, Affiliates and clients of the Collateral Manager may invest in obligations that are similar to, or have interests different from or adverse to, the Collateral Obligations. The Collateral Manager and/or its Affiliates may at certain times be simultaneously seeking to purchase or dispose of investments for its respective accounts, the Issuer, any similar party for which it serves as manager or advisor and for its clients or Affiliates. It is the intention of the Collateral Manager that all Collateral Obligations will be purchased and sold by the Issuer on terms prevailing in the market. Neither the Collateral Manager nor any of its Affiliates is under any obligation to offer investment opportunities of which they become aware to the Issuer or to account to the Issuer (or share with the Issuer) or inform the

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918262
Footnote Exhibits - Page 5042

Issuer(s) of any such transaction or any benefit received by them from any such transaction. Furthermore, the Collateral Manager and/or its Affiliates may make an investment on behalf of any account that they manage or advise without offering the investment opportunity or making an investment on behalf of the Issuer. The Collateral Manager and/or its Affiliates have no affirmative obligation to offer any investments to the Issuer or to inform the Issuer of any investments before offering any investments to other funds or accounts that the Collateral Manager and/or its Affiliates manage or advise. Furthermore, Affiliates of the Collateral Manager may make an investment on their own behalf without offering the investment opportunity to the Issuer. Affirmative obligations may exist, or may arise in the future, wherein Affiliates of the Collateral Manager are obligated to offer certain investments to funds or accounts that such Affiliates manage or advise before or without the Collateral Manager offering those investments to the Issuer. Affiliates of the Collateral Manager may have no affirmative obligations to offer those investments to the Issuer or to inform the Issuer of any investments before engaging in any investments for themselves. The Collateral Manager will endeavor to resolve conflicts with respect to investment opportunities in a manner that it deems equitable (in its sole discretion) to the extent possible under the prevailing facts and circumstances. Although the professional staff of the Collateral Manager will devote as much time to the Issuer as the Collateral Manager deems appropriate (in its sole discretion), the staff may have conflicts in allocating its time and services among the Issuer and the Collateral Manager’s other accounts.

Funds managed by Greywolf will commit to purchase up to 100% of the initial notional amount of the Subordinated Securities. Thereafter, such funds may transfer or sell any such Subordinated Securities held thereby at any time and from time to time. As a Holder of Subordinated Securities, such funds may have interests adverse to the other Holders of Securities.

Members of the board of directors of the issuer who are not affiliated with the Collateral Manager or their delegates or other authorized representatives of the Issuer will have the responsibility for approving any transactions between the Issuer and the Collateral Manager or its Affiliates involving significant conflicts of interest (including principal trades). More particularly, directors unaffiliated with the Collateral Manager or any delegate designated by such directors will be responsible for approving any principal transactions for which Issuer consent is required pursuant to Section 206(3) of the Investment Advisers Act of 1940, as amended (the “Advisers Act”).

In addition, with the prior authorization of the Issuer, which has been given and can be revoked at any time, the Collateral Manager and/or its Affiliates may enter into agency cross-transactions where the Collateral Manager and/or its Affiliates act as broker for the Issuer and for the other party to the transaction, to the extent permitted under applicable law, in which case the Collateral Manager and/or any such Affiliates will receive commissions from, and have a potentially conflicting division of loyalties and responsibilities regarding, both parties to the transaction.

The Collateral Manager and its Affiliates are not required to obtain approval for any transaction unless such approval is required by law.

Conflicts of Interest involving the Initial Purchaser and Affiliates. The Initial Purchaser and/or its Affiliates may have placed or underwritten certain of the Collateral Obligations at original issuance and may have provided investment banking services, advisory, banking and other services to Issuers of Collateral Obligations. The Initial Purchaser may, from time to time as principal or through one or more investment funds that it manages make investments in the equity securities of one or more of the Issuers of Collateral Obligations with the result that one or more of such Issuers may be or may become controlled by the Initial Purchaser. The Initial Purchaser may not have completed its resale of the Securities by any date certain, which may affect the liquidity of the Securities as well as the ability of the Initial Purchaser to make a market in the Securities. From time to time, the Collateral Manager on behalf of the Issuer may purchase or sell Collateral Obligations through the Initial Purchaser and/or any of its Affiliates (collectively, “Initial Purchaser Entities”). The Issuer may invest in the securities of companies affiliated with the Initial Purchaser Entities or in which the Initial Purchaser Entities have an equity or participation interest. The purchase, holding and sale of such investments by the Issuer may enhance the profitability of the Initial Purchaser Entities’ own investments in such companies. In addition, it is expected that an Initial Purchaser Entity may also act as counterparty with respect to one or more Synthetic Securities or Securities Lending Agreements and may act as Hedge Counterparty with respect to one or more Hedge Agreements, in connection with the resale of the

Confidential Treatment Requested by Goldman Sachs GS MBS-E-001918263
Securities, a Initial Purchaser Entity expects to enter into one or more hedging arrangements relating to a portion of the Securities. Such hedging arrangements will be entered into by such Initial Purchaser Entity with one or more purchasers of the Securities or with one or more counterparties to such Initial Purchaser Entity. The Issuer may invest in money market funds that are managed by Graywolf or its Affiliates or the Initial Purchaser Entities or for which the Trustee or its Affiliates provides services; provided that such money market funds otherwise qualify as Eligible investments.

The Issuer’s purchase of Collateral Obligations, at the direction of the Collateral Manager, prior to the Closing Date was financed through the sale of participation interests therein to one or more Affiliates of Goldman, Sachs & Co. pursuant to a master participation agreement. Any gains or losses realized by the Issuer in respect of Collateral Obligations that are sold or otherwise disposed of prior to the Closing Date will be for the Issuer’s account. Collateral Obligations owned by the Issuer on the Closing Date were purchased in the open market, and the purchase price paid by the Issuer for such Collateral Obligations is the prevailing price at the time such Collateral Obligations were purchased. Because the purchase price of Collateral Obligations owned by the Issuer on the Closing Date is determined prior to such date, the prevailing market price of such Collateral Obligations on the Closing Date may be higher or lower than such purchase price. Accordingly, any unrealized losses or gains experienced by the Issuer in respect of the Collateral Obligations acquired by the Issuer prior to, and owned by the Issuer on, the Closing Date will be for the Issuer’s account.

Irish Stock Exchange Listing: Application has been made to the Irish Financial Services Regulatory Authority, as competent authority under Directive 2003/71/EC, for this Offering Circular to be approved. Application has been made to the Irish Stock Exchange for the Securities to be admitted to the Official List and to trading on its regulated market. There can be no assurance that such admission will be approved or maintained. The Indenture provides that, if the Collateral Manager or the Issuers determine that the maintenance of the listing of any of the Securities on the Irish Stock Exchange is unduly onerous or burdensome, including, but not limited to, circumstances in which the obtaining or maintenance of a listing on such securities exchange would require preparation of management reports or financial statements, or in any circumstances where the requirements of the European Union Transparency Obligations Directive would apply to either of the Issuers, the Issuers will have the right to de-list and will de-list at the sole direction of the Collateral Manager such Securities. The Issuers will use reasonable endeavors to obtain a listing of such Securities on another securities exchange as the Issuers may choose, except that no obligation to obtain such alternative listing shall exist if the alternative listing is or would be unduly onerous or burdensome in the judgment of the Collateral Manager in its sole discretion.

DESCRIPTION OF THE SECURITIES

The Securities will be issued pursuant to the Indenture. The following summary describes certain provisions of the Securities and the Indenture. The summary does not purport to be complete and is subject to, and qualified in its entirety by reference to, the provisions of the Indenture. Copies of the Indenture may be obtained as described under “Listing and General Information.”

Status and Security:

The Co-Issued Notes will be limited recourse secured obligations of the Issuers, the Class E Notes will be limited recourse secured obligations of the Issuer and the Subordinated Securities will be limited recourse unsecured obligations of the Issuer. Payments of interest on and principal of the Secured Notes and distributions to the Holders of the Subordinated Securities will be made solely from the proceeds of the Collateral, in accordance with the priorities described under “—Priority of Payments.” The Subordinated Securities will not be secured obligations of the Issuer and will be entitled to receive amounts available for distribution only after payment of all amounts payable prior thereto under the Priority of Payments.

All Securities of a single Class rank pari passu with all other Securities of the same Class. See “—Priority of Payments.” The right of payment with respect to the Securities is described in the “The Offering—Summary—Status and Subordination.” The right of payment with respect to the Securities is described in the “Summary—The Offering—Status and Subordination.”
The entire principal amount of the Secured Notes will be issued and outstanding on the Closing Date.

Under the terms of the Indenture, the issuer will grant to the Trustee, on behalf of the Secured Parties, a perfected security interest in the Collateral that is of first priority, free of any adverse claim or the legal equivalent thereof, as applicable, to secure the Issuer’s obligations with respect to the Secured Parties. See “Security for the Secured Notes”.

Interest

The Secured Notes will bear interest from the Closing Date at the per annum rates set forth under “Summary—The Offering—Securities Issued,” payable, in each case, quarterly in arrears on each Payment Date commencing August 18, 2007 and on the Stated Maturity. The Holders of the Subordinated Securities will be entitled to receive any excess Interest Proceeds in accordance with and subject to the Priority of Payments, to the extent funds are available therefor.

During the Reinvestment Period, Interest Proceeds remaining on each Scheduled Payment Date prior to the payment of certain unpaid subordinated expenses and any unpaid hedge termination payments, distribution to the Collateral Manager in respect of the Incentive Collateral Management Fee and distributions in respect of the Subordinated Securities will be used to reinvest in Collateral Obligations up to the amount necessary to satisfy the Reinvestment Test (but not to exceed 50% of such remaining Interest Proceeds available on such Scheduled Payment Date). As a result, distributions to the Holders of Subordinated Securities will be reduced to the extent of the portion of Interest Proceeds used during the Reinvestment Period to reinvest in Collateral Obligations. See “—Priority of Payments—Interest Proceeds”.

For so long as any senior Class or Classes of Securities are outstanding, to the extent that funds are not available to pay the full amount of interest on the Class C Notes, the Class D Notes or the Class E Notes on any Payment Date in accordance with the Priority of Payments, the amount of Deferred Interest with respect to each Class of Securities will be deferred and added to the principal amount of such Class of Securities and will bear interest at the interest rate applicable to such Class of Securities to the extent lawful and enforceable, and the failure to pay the Deferred Interest of each such Class of Securities will not be an Event of Default under the Indenture. See “—Priority of Payments” and “—The Indenture—Events of Default”.

Interest will cease to accrue on each Secured Note, or, in the case of a partial repayment, on such part, from the date of repayment or Stated Maturity unless payment of principal is improperly withheld or unless there is otherwise a default with respect to such payments of principal. See “—Principal”. To the extent lawful and enforceable, interest on any Defaulted Interest on the Secured Notes will accrue at the Interest rate applicable to such Secured Notes, until paid as provided herein.

Interest on the Floating Rate Notes will be calculated on the basis of the actual number of days elapsed in the applicable Interest Accrual Period divided by 360, commencing on the Closing Date.

For purposes of determining any Interest Accrual Period, if any Payment Date or the Stated Maturity, as the case may be, is not a Business Day, then the Interest Accrual Period ending on such Payment Date or the Stated Maturity, as the case may be, shall be extended to but excluding the date on which payment is required to be made pursuant to the Indenture and the succeeding Interest Accrual Period shall begin on and include such date. In the event that the date of any Payment Date or the Stated Maturity, as the case may be, shall not be a Business Day, then payment need not be made on such date, but may be made on the next succeeding Business Day with the same force and effect as if made on the original date of any such Payment Date or the Stated Maturity, as the case may be, and, other than with respect to any Interest Accrual Period for a Class of Secured Notes ending on the Stated Maturity of such Class of Secured Notes, no interest shall accrue on such payment for the period from and after any such nominal date; provided that, in the case of the Floating Rate Notes only, interest shall accrue from and including the immediately preceding Payment Date or, in the case of the first Payment Date, the Closing Date to but excluding the following Payment Date or the Stated Maturity, as applicable.
Footnote Exhibits - Page 5045

For purposes of calculating the Floating Rate Note Interest Rates, the Issuers will appoint the Trustee as Calculation Agent (solely in such capacity, the "Calculation Agent"). LIBOR shall be determined by the Calculation Agent in accordance with the provisions set forth under the definition of "LIBOR".

The Calculation Agent may be removed by the Issuers at any time. If the Calculation Agent is unable or unwilling to act as such or is removed by the Issuers, or if the Calculation Agent fails to determine the Floating Rate Note Interest Rates and the Floating Rate Note Interest Amounts for any Interest Accrual Period, the Issuers will promptly appoint as a replacement Calculation Agent a leading bank which is engaged in transactions in Eurodollars deposits in the International Eurodollar market and which does not control or is not controlled by or under common control with the Issuers or their Affiliates. The Calculation Agent may not resign its duties without a successor having been duly appointed. For so long as any of the Floating Rate Notes remain Outstanding, there will at all times be a Calculation Agent for the purpose of calculating the Floating Rate Note Interest Rates. In addition, for so long as any of the Securities are listed on the Irish Stock Exchange and the rules of such Exchange so require, the Issuer will publish in the Irish Stock Exchange's Official List notice of the appointment, termination or change in the office of such Calculation Agent.

The Calculation Agent will cause the Floating Rate Note Interest Rates, the Floating Rate Note Interest Amounts and the Payment Dates to be communicated to, in the case of the Secured Notes, Euroclear, Clearstream, the Collateral Manager and the Irish Paying Agent for delivery to the Irish Stock Exchange (as long as any of the Securities are listed thereon) by the Business Day immediately following each LIBOR Determination Date. The determination of the Floating Rate Note Interest Rates and the Floating Rate Note Interest Amounts by the Calculation Agent shall (in the absence of manifest error) be final and binding upon all parties.

Principal

Principal will not be payable on the Secured Notes and Principal Proceeds will not be distributed to the Holders of the Subordinated Securities prior to the end of the Non-Call Period, except (i) as a result of a mandatory redemption as described in "Mandatory Redemption," (ii) upon the occurrence of an optional redemption following a Withholding Tax Event as described under "Optional Redemption" and (iii) as described in the next two paragraphs.

On each Scheduled Payment Date during the Reinvestment Period, Principal Proceeds will be distributed to the Holders of the Secured Notes in accordance with the Priority of Payments determined by the Collateral Manager, in its sole judgment (which judgment shall not be subject to question as a result of subsequent events), that it is impractical or not beneficial to reinvest such Principal Proceeds by the end of the applicable Investment Due Date.

Principal will be payable on the Class S Notes in accordance with the Priority of Payments on each Payment Date in an amount equal to the Class S Principal Distribution Amount with respect to such Payment Date.

On each Scheduled Payment Date after the Reinvestment Period and on the Stated Maturity, principal will be payable on the Secured Notes and, after the Secured Notes have been paid in full, Principal Proceeds will be distributable to the Holders of the Subordinated Securities in accordance with the Priority of Payments to the extent of Principal Proceeds received in the related Due Period, provided that the Collateral Manager may elect to reinvest Eligible Post-Reinvestment Proceeds received after the Reinvestment Period in Collateral Obligations or test them for reinvestment in Collateral Obligations prior to the end of the Investment Due Period, subject to the exceptions described herein. See "Security for the Secured Notes—Sale of Collateral Obligations; Substitute Securities; Exchange of Defaulted Obligations and Reinvestment Covenants". The Collateral Manager will exercise its sole discretion in determining whether to reinvest Eligible Post-Reinvestment Proceeds received after the Reinvestment Period. Payments of principal or notional amount, as applicable, of the Securities described in the first sentence of this paragraph will be at the applicable Secured Note Redemption Price and will not constitute an optional redemption.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918285
Sale of Collateral Prior to Stated Maturity

On or prior to the date that is two Business Days prior to the Stated Maturity of the last Outstanding Security, the Collateral Manager on behalf of the Issuer shall direct the Trustee in writing to sell all Collateral Obligations to the extent necessary such that no Collateral Obligations will be held by the Issuer on or after such date. The settlement dates for any such sales of Collateral Obligations shall be no later than two Business Days prior to the Stated Maturity of the last Outstanding Security. The proceeds of such sale shall be applied in accordance with the Priority of Payments.

Optional Redemption

The Securities may be redeemed by the Issuer at the written direction of, or with the written consent of the Majority of the Subordinated Securities, in whole but not in part, from Liquidation Proceeds (a) on any Business Day after the Non-Call Period and (b) on any Business Day upon the occurrence of a Withholding Tax Event, as more fully described below. If the holders of the Majority of the Subordinated Securities elect to cause the redemption of the Securities as described herein, the Subordinated Securities will in any such case be redeemed simultaneously with all other Classes of Securities. In connection with an optional redemption, the Trustee shall notify the Collateral Manager of such optional redemption and the Collateral Manager on behalf of the Issuer shall direct the Trustee, in writing, to sell in the manner directed by the Collateral Manager in its sole discretion, and in accordance with the Indenture, any Collateral Obligation and upon such sale the Trustee shall release the lien upon such Collateral Obligation pursuant to the Indenture.

Notwithstanding the foregoing provisions, the Issuer may not direct the Trustee to sell any Collateral Obligation unless, after giving effect to such sale, there will be sufficient funds to pay the amounts described in "Optional Redemption Procedures" below.

Any optional redemption of the Secured Notes pursuant to subclause (a) or (b) of the second preceding paragraph will be made at the applicable Secured Note Redemption Prices plus accrued and unpaid interest.

Optional Redemption Procedures. If any Holder of the Subordinated Securities desires to direct the Issuer to optionally redeem the Securities, such Holder shall notify the Trustee in writing no less than 45 days (or such shorter period as may be acceptable to the Trustee) prior to the proposed redemption date (which date must be a Business Day). The Trustee will promptly notify the Issuer, the Collateral Manager and all other holders of the Subordinated Securities of the receipt of such notice. Each holder of the Subordinated Securities that also wishes to direct the Issuer to optionally redeem the Securities shall notify the Trustee (who shall promptly notify the Issuer and the Collateral Manager, of such direction) within 15 Business Days after the date of such notice. If a Majority of the Subordinated Securities has directed the Issuer to optionally redeem the Securities, the Issuer shall effect a redemption in whole of the Securities pursuant to the procedures described herein.

The Trustee will provide notice of any optional redemption by first-class mail, postage prepaid, mailed not less than ten Business Days prior to the scheduled redemption date, to each Securityholder at such Securityholder's address in the Register and for so long as the Securities are listed on the New York Stock Exchange and the rules of such Exchange shall so require, a publication shall be made in the Official List by the New York Listing Agent.

The Securities shall not be optionally redeemed unless either (1) at least seven Business Days before the scheduled redemption date, the Collateral Manager on behalf of the Issuer shall have furnished to the Trustee evidence, in form reasonably satisfactory to the Trustee, that the Issuer or the Collateral Manager on behalf of the Issuer has entered into a binding agreement or agreements (including in the form of a confirmation of sale) with a financial institution or institution whose short-term unsecured debt obligations have a credit rating of at least "A-1" from S&P or with a Person that the Collateral Manager in its sole discretion has determined to be appropriate (including, without limitation, a CDO Issuer that is managed or to be managed by the Collateral Manager) to purchase, not later than the Business Day immediately preceding the scheduled redemption date, in immediately available funds, all or part of the Collateral

Confidential Treatment Requested by Goldman Sachs
Footnote Exhibits - Page 5047

Obligations and terminate any Hedge Agreements at a purchase price at least equal to an amount sufficient, together with any other amounts available to be used for such optional redemption, to pay in the case of an optional redemption of the Securities at the request of a Majority of the Subordinated Securities on any Business Day after the Non-Call Period, the amounts specified under subclauses (i) through (iii) in "—Priority of Payments—Liquidation Proceeds," provided, that the Issuer shall not terminate any Hedge Agreements in connection with an optional redemption of the Securities as specified herein until the notice of redemption may no longer be withdrawn; or (ii) in the case of an optional redemption following the occurrence of a Withholding Tax Event, the amounts specified under subclauses (i) and (ii) (but excluding Omitted Hedge Termination Payments) in "—Priority of Payments—Liquidation Proceeds," or (iii) at least ten Business Days prior to the scheduled redemption date and prior to selling any Collateral Obligations, the Collateral Manager on behalf of the Issuer shall certify to the Trustee and to each of the Rating Agencies that the expected proceeds from such sale (calculated as provided in the next succeeding paragraph) together with any other amounts available to be used for such optional redemption will be delivered to the Trustee two Business Days prior to (but in no event later than the Business Day immediately preceding) the scheduled redemption date, in immediately available funds, and will equal or exceed 100% of all amounts specified in the immediately preceding subclause (i). See "—Priority of Payments—Liquidation Proceeds."

For purposes of determining the expected proceeds from a sale for purposes of subclause (2) of the immediately preceding paragraph, the expected proceeds shall be deemed to be (1) the Market Value of the Eligible Investments and, if Collateral Obligations are to be sold on the Business Day of the certification, the Market Value of the Collateral Obligations; or (2) the percentage of the Market Value of the Collateral Obligations set forth in the applicable column of the table below based upon the period of time between certification and the expected date of sale.

For the avoidance of doubt, the Issuer may, in effecting a sale contemplated by clause (1) of the preceding paragraph, enter into one or more participation agreements or similar arrangements with the purchaser of the Collateral Obligations whereby, in connection with the Issuer’s receipt of the purchase price with respect to all or a portion of the Collateral Obligations, the Issuer shall grant to such purchaser a participation interest in all or a portion of such Collateral Obligations and agree to use commercially reasonable efforts (or such other efforts as shall be specified) to complete the transfer of such Collateral Obligations to such purchaser thereunder.

Any notice of redemption may be withdrawn by the Issuer on or prior to the sixth Business Day prior to the scheduled redemption date by written notice from the Issuer to the Trustee, the Holders of the Subordinated Securities requesting or consenting to such optional redemption and the Collateral Manager. If (i) the Collateral Manager shall be unable to cause the delivery of such sale agreement or agreements or certifications, as the case may be, in form satisfactory to the Trustee or (ii) the Majority of the Subordinated

GS MBS-E-001918208
Securities direct such notice be withdrawn, provided, however, that the Majority of the Subordinated Securities may not direct such notice be withdrawn if the conditions set forth in the third paragraph under "Optional Redemption Procedures" have been satisfied. Notice of withdrawal having been given as aforesaid, the Trustee shall provide notice of such withdrawal to each Holder at the address appearing in the Register by overnight courier (when possible) guaranteeing next day delivery (unless the address provided in the Register is insufficient for such purposes, in which event such notice shall be given by first class mail, postage prepaid) and, to the extent required, provide notice to the Irish Paying Agent which shall cause notice of such withdrawal to be published in the Irish Stock Exchang’s Official List, in each case, not later than the third Business Day prior to the scheduled redemption date.

Redemption by Refinancing

The Holders of at least a Majority of the Subordinated Securities may direct (subject to the approval of the Collateral Manager as specified in the next paragraph) the redemption of any Class of Secured Notes in whole but not in part on any Payment Date occurring after the Non-Call Period, in connection with a Redemption by Refinancing by directing the issuer (with a copy of such direction to the Trustee and the Collateral Manager) to issue additional notes (the "Replacement Notes"), the proceeds of which will be used to fully redeem such Class of Secured Notes, as applicable (a "Redemption by Refinancing"). A Redemption by Refinancing will be required to result in the redemption of all of the Secured Notes of the affected Class or Classes but need not result in the redemption of all Classes of Secured Notes. The Replacement Notes issued pursuant to a Redemption by Refinancing would have such terms and priorities as are negotiated at the time and that are set forth in a supplemental indenture, subject to the conditions set forth below.

Upon receipt of a Notice of Redemption by Refinancing (as defined below), the Issuer and the Collateral Manager will cause the Issuer and the Co-Issuer to issue Replacement Notes having the terms, priorities and conditions set forth in a proposed amendment to the Indenture approved by the Holders of at least a Majority of the Subordinated Securities and approved by the Collateral Manager. The Issuer of the Replacement Notes, and the redemption of the applicable Class or Classes of Secured Notes, will be contingent on receipt by the Issuer of sufficient funds from the issuance of the Replacement Notes to redeem the applicable Classes of Secured Notes at the Secured Note Redemption Price plus accrued interest and pay the applicable expenses of the Issuer, and the conditions in the paragraph below being satisfied at the time of such redemption. If the conditions below are not met, the Replacement Notes will not be issued and the applicable Classes of Secured Notes will not be redeemed unless the Holders of a Majority of the Subordinated Securities then elect to effect an optional redemption.

If one or more Classes of Secured Notes will remain Outstanding following a Redemption by Refinancing, the following additional conditions must be satisfied: (i) the Aggregate Outstanding Amount of each Class of Replacement Notes equals the Aggregate Outstanding Amount of the corresponding Class of Secured Notes that is redeemed; (ii) the applicable interest rate for each Class of Replacement Notes shall either (A) be computed on the basis of the same interest rate index as, and with a spread to such index that does not exceed the spread of, the corresponding Class of Secured Notes that is redeemed or (B) be a fixed rate of interest (such fixed rate of interest not to exceed the then floating interest rate applicable to the corresponding Class of Secured Notes being redeemed); (iii) the stated maturity of the Replacement Notes is not stated to occur earlier than the Stated Maturity of the corresponding Class of Replacement Notes that is redeemed; (iv) the voting rights, consent rights, redemption rights and all other rights of each class of Replacement Notes are the same as the rights of the corresponding Class of Secured Notes that is redeemed, in all material respects, (v) each of the Moody’s Rating Condition and S&P Rating Condition is satisfied in respect of the Class or Classes of Secured Notes that are not redeemed (if being agreed that, with respect to the satisfaction of the S&P Rating Condition, S&P may apply its ratings criteria as in existence); (vi) the delivery to the Trustee of an opinion of a nationally recognized law firm with substantial expertise in such matters that the Redemption by Refinancing will not adversely affect the conclusions reached in the opinion of McKee Nelson LLP, as expressed at the time of the issuance of the Securities on the Closing Date, regarding the U.S. federal income tax characterization of the Secured Notes that are not redeemed; and (vii) any expenses incurred in connection with the issuance of any Replacement Notes shall

Confidential Treatment Requested by Goldman Sachs
be paid from the proceeds of the issuance of such Replacement Notes. In addition to the foregoing, any issuance of Replacement Notes will require the delivery to the Trustee of the following opinions of a nationally recognized law firm with substantial expertise in such matters: (A) that neither the Issuer nor the Co-Issuer will be required, as a result of the issuance of the Replacement Notes (assuming such Replacement Notes are offered and sold in the manner and only to the eligible persons contemplated by this Offering Circular, the Indenture and the Purchase Agreement, as applicable), to be registered as an investment company under the Investment Company Act, as amended and (B) the issuance of the Replacement Notes will not result in the Issuer being subject to U.S. federal income taxation with respect to its net income.

Notice of a Redemption by Refinancing (any such notice, a “Notice of a Redemption by Refinancing”) will be given by the Issuer to the Trustee and by the Trustee to each Holder of Securities, the Collateral Manager, the Administrator and each Rating Agency. Failure to give Notice of a Redemption by Refinancing to any Holder of any Securities selected for redemption or any notice therein will not impair or affect the validity of the redemption of any other Securities. In addition, for so long as any Securities are listed on the Irish Stock Exchange and so long as the rules of such exchange so require, Notice of a Redemption by Refinancing will also be given by the Trustee to the Irish Paying Agent for delivery to the Irish Stock Exchange. Any definitive Securities called for redemption must be surrendered at the place specified in the notice of such redemption in order for the Holder to receive the Secured Note Redemption Price.

The Issuer, at the direction of Holders of at least a Majority of the Subordinated Securities, will have the option to withdraw any Notice of Redemption by Refinancing up to the second Business Day prior to the scheduled redemption date by written notice to the Trustee and the Collateral Manager. If any Notice of Redemption by Refinancing is withdrawn or the Issuers are otherwise unable to complete a Redemption by Refinancing, the proceeds received from any sale of the Collateral in contemplation of such Redemption by Refinancing may during the Reinvestment Period, at the Collateral Manager's discretion, be reinvested in accordance with the Reinvestment Criteria. For the avoidance of doubt, the withdrawal of such Notice of Redemption by Refinancing or the inability of the Issuer to complete redemption of the Secured Notes will not constitute an Event of Default under the Indenture. No Hedge Agreement may be terminated in connection with any Redemption by Refinancing until such time as such Notice of Redemption by Refinancing can no longer be withdrawn by the Issuer.

Mandatory Redemption

Principal Proceeds and Interest Proceeds, in the case of the Secured Notes other than the Class E Notes, or Interest Proceeds only, in the case of the Class E Notes, that are available will be used to redeem the Secured Notes (other than the Class E Notes) as described under “—Priority of Payments” (i) on any Scheduled Payment Date on which any Par Value Test was not satisfied on the immediately preceding Determination Date or (ii) on any Scheduled Payment Date on or after the Second Determination Date on which any Interest Coverage Test was not satisfied on the immediately preceding Determination Date.

The Collateral Manager will not be required to sell Collateral Obligations if the Principal Proceeds and Interest Proceeds, in the case of the Secured Notes other than the Class E Notes, or Interest Proceeds only, in the case of the Class E Notes, available would be insufficient to cause any Coverage Test to be satisfied.

In addition, Principal Proceeds and Interest Proceeds that are available will be used to redeem the Secured Notes (other than the Class E Notes) as described under “—Priority of Payments” on any Scheduled Payment Date following an Effective Date Ratings Downgrade Event.

The Subordinated Securities are not subject to mandatory redemption.

Cancellation

All Securities that are redeemed or paid and surrendered for cancellation as described herein will forthwith be cancelled and may not be reissued or resold.
Footnote Exhibits - Page 5050

Payments

Payments in respect of principal and interest on a Secured Note and distributions to Holders of Subordinated Securities will be made to the person in whose name the relevant Security is registered on the applicable record date. Payments on the Securities will be payable by wire transfer in immediately available funds to a Dollar account maintained by DTC or its nominee (in the case of the Global Securities) or each Securityholder (in the case of individual definitive Securities) to the extent practicable or otherwise by Dollar check drawn on a bank in the United States sent by mail either to DTC or its nominee (in the case of the Global Securities), or to each Securityholder at the Holder's address appearing in the Register (in the case of individual definitive Securities).

Final payments in respect of the Securities will be made only against surrender of such Securities at the office of any paying agent. None of the issuers, the Trustee or any paying agent will have any responsibility or liability for any aspects of the records maintained by DTC or its nominee or any of its participants relating to, or for payments made thereby on account of beneficial interests in, a Global Security.

The issuers expect that DTC or its nominee, upon receipt of any payment of principal or interest in respect of a Global Security held by DTC or its nominee, will immediately credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in such Global Securities as shown on the records of DTC or its nominee. The issuers also expect that payments by participants to owners of beneficial interests in such Global Securities held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominee for such customers. Such payments will be the responsibility of such participants.

For so long as the Securities are listed on the Irish Stock Exchange and the rules of such Exchange so require, the issuers will have a paying agent and a transfer agent in Ireland and will give prompt written notice to each Holder and publish in an authorized newspaper, which is expected to be the Official List, notice of the appointment, termination or change in the location of any such office or agency.

The Indenture provides that, as a condition to the payment of distributions on any Subordinated Security without withholding U.S. federal backup withholding tax imposed under the U.S. Treasury regulations, the issuer or any paying agent may require the delivery of property completed and signed applicable U.S. federal income tax certifications (generally, an Internal Revenue Service Form W-9 (or applicable successor form) in the case of a person that is a "United States person" within the meaning of section 7701(a)(30) of the Code) or an appropriate Internal Revenue Service Form W-8 (or applicable successor form) to the case of a person that is not a "United States person" within the meaning of Section 7701(1)(30) of the Code) and/or such other certification reasonably acceptable to them in order to enable the Issuer, the Trustee or any paying agent to determine their duties and liabilities with respect to any taxes or other charges that they may be required to deduct or withhold from payments in respect of such Subordinated Security under any present or future tax law or regulation of the United States or any present or future or regulation of any political subdivision thereof or taxing authority therein or to comply with any reporting or other requirements under any such law or regulation.

Priority of Payments

On each Payment Date and on the Stated Maturity, the Issuer shall only make payments in accordance with the priorities (the "Priority of Payments") described below under "Interest Proceeds" and "Principal Proceeds," and, if such Payment Date is a Redemption Date, in accordance with the priorities described below under "Liquidation Proceeds".

Interest Proceeds. Without limiting any other applicable provision regarding the payment of Interest Proceeds, on each Payment Date and on the Stated Maturity, Interest Proceeds will be distributed in the following order of priority:

1. (a) to the payment of taxes of the Issuer, if any, and (b) thereafter, to the retention in the Interest Collection Account of an amount equal to (a) the Interest Reserve Amount for such
Footnote Exhibits - Page 5051

Payment Date minus (g) the Aggregate Interest Reserve Distribution Amount for such Payment Date;

(iii) to the payment of accrued and unpaid Administrative Expenses constituting (a) fees of the Trustee and reimbursement of expenses of the Trustee pursuant to the terms of the Indenture and (b) fees and reimbursement of expenses of the Collateral Administrator under the Collateral Administration Agreement; provided, however, that total payments pursuant to this subclause (i) shall not exceed, on any Payment Date other than the Initial Payment Date, an amount equal to a percentage of the Aggregate Principal Amount of the Collateral Portfolio equal to an annual rate of 0.275%, measured as of the beginning of the Due Period preceding such Payment Date (and, with respect to the Initial Payment Date, 0.0164% (not annualized) of the Aggregate Principal Amount of the Collateral Portfolio, measured as of the beginning of the Due Period preceding such Payment Date);

(iv) to the payment, pari passu, (1) to each Hedger Counterparty of the applicable Hedge Payment Amount; (2) of the Class B Interest Distribution Amount; and (3) of the Class B Principal Distribution Amount;

(v) to the payment to the Collateral Manager of, first, the current Senior Collateral Management Fee in accordance with the terms of the Collateral Management Agreement and, then, any accrued and previously unpaid Senior Collateral Management Fee;

(vi) to the payment of the Class A Interest Distribution Amount;

(vii) to the payment of the Class B interest Distribution Amount;

(viii) in the event that either the Class A/B Par Value Test is not satisfied on the immediately preceding Determination Date or the Class A/B Interest Coverage Test is not satisfied on the immediately preceding Determination Date or on or after the Second Determination Date after giving effect to the payment of any Interest Proceeds prior to this subclause (viii) and the payment of Principal Proceeds, if any, as described in subclause (6) of "Principal Proceeds" below, to the mandatory redemptions of the Class A Notes and then the Class B Notes, at the applicable Secured Note Redemption Price, pursuant to the Note Payment Sequence, so that the tax rate necessary to satisfy the Class A/B Par Value Test and the Class

A.B Interest Coverage Test, as applicable, or until the Class A Notes and the Class B Notes have been paid in full;

(i) to the payment of the Class C Interest Distribution Amount (other than the related Deferred Interest);

(ii) to the payment of the portion of the Class C Interest Distribution Amount that represents the related Deferred Interest;

(iii) in the event that either the Class C Par Value Test is not satisfied on the immediately preceding Determination Date or the Class C Interest Coverage Test is not satisfied on the immediately preceding Determination Date or on or after the Second Determination Date after giving effect to the payment of any Interest Proceeds prior to this subclause (ii) and the payment of Principal Proceeds, if any, as described in subclause (i) of “Principal Proceeds” below, to the mandatory redemption of the Class A Notes, then the Class B Notes and then the Class C Notes, at the applicable Secured Note Redemption Price, pursuant to the Note Payment Sequence, to the extent necessary to satisfy the Class C Par Value Test and the Class C Interest Coverage Test, as applicable, or until the Class A Notes, the Class B Notes and the Class C Notes have been paid in full;

(iv) to the payment of the Class D Interest Distribution Amount (other than the related Deferred Interest);

(v) to the payment of the portion of the Class D Interest Distribution Amount that represents the related Deferred Interest;

(vi) in the event that either the Class D Par Value Test is not satisfied on the immediately preceding Determination Date or the Class D Interest Coverage Test is not satisfied on the immediately preceding Determination Date or on or after the Second Determination Date after giving effect to the payment of any Interest Proceeds prior to this subclause (v) and the payment of Principal Proceeds, if any, as described in subclause (i) of “Principal Proceeds” below, to the mandatory redemption of the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes, at the applicable Secured Note Redemption Price, pursuant to the Note Payment Sequence, to the extent necessary to satisfy the Class D Par Value Test and the Class D Interest Coverage Test, as applicable, or until the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes have been paid in full;

(vii) to the payment of the Class E Interest Distribution Amount (other than the related Deferred Interest);

(viii) to the payment of the portion of the Class E Interest Distribution Amount that represents the related Deferred Interest;

(ix) in the event that the Class E Par Value Test is not satisfied on the immediately preceding Determination Date after giving effect to the payment of any Interest Proceeds prior to this subclause (vi) and the payment of any Principal Proceeds under “Principal Proceeds” below, to the mandatory redemption of the Class E Notes, at the applicable Secured Note Redemption Price, to the extent necessary to satisfy the Class E Par Value Test or until the Class E Notes have been paid in full;

(x) In the event an Effective Date Ratings Downgrade Event has occurred and is continuing, to the payment of principal of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes, at the applicable Secured Note Redemption Price, pursuant to the Note Payment Sequence, until such Effective Date Ratings Downgrade Event no longer exists;
