HELENA MAN, Law Clerk
ANTHONY G. COTTO, Counsel to the Minority
JOSEPH NIMMO, Intern
ROBERT PECKERMAN, Intern
MARY D. ROBERTSON, Chief Clerk

(II)
FOOTNOTE LOCATOR LIST and BATES LOCATOR LIST

The following two lists, Footnote Locator List starting below, and the following Bates Locator List, reference documents referred to in the Report’s footnotes. Footnotes which are not contained in either list are explanatory, reference Subcommittee interviews for which records are not available to the public, or reference a widely available public document.

Many documents are referenced in multiple footnotes. To locate a document by footnote number refer to the Footnote Locator List, using the first footnote in which the document is referenced. To locate a document by Bates number, refer to the Bates Locator List. Both lists then provide the page number where the document can be found. That page number appears in the top right-hand corner of the Footnote Exhibits.

Footnote Locator List.

Arbind - ABS cash bond durations are from Intex, so as long as the cash bonds are marked appropriately the spreads and durations should get reflected accordingly.

I will also watch the jobs closely tonight. Thanks.

Subject: Cash bonds

Kevin,

given the huge changes in marks today, we expect Mortgage Trading VaR to shoot through the roof if we do not reflect mark/spread changes correctly on the cash ABS and CDO bonds in the risk feed balance. Please let us know if we perceive this as a major problem tomorrow.

Thanks,
Arbind

We are in an absolute war – been that way for awhile. We probably should have taken more time to get through the CDO monstrosity and check it/fix it all the way through. But we pushed it because of basics and a desire to protect ourselves against counter-parties.

Subject: RE: Problem

Slightly more color around Dan’s message below:

There are two standard ways in which ABS CDO positions are currently marked. Either it’s a cash bond, and the traders mark the price LK 93, or it’s a CDS, and the traders mark the CDS CDO price in SecDB. The system booking issue we’re experiencing is because kunt Bay was booked using a different mechanism from either of these two ways.

Trade 81: When the Hunt Bay error tranches were sold, HS brought back the risk in total return swap form. The trade was booked using a 3rd approach which is not widely used by the secondary desk. This approach was to create an underlying CDS-style credit market by portion Hunt Bay Mezz, and to then book a generic TRS against that market in SecDB.

Trade 82: GS then did another trade, which was to buy protection on the top 2/3 of the mezzanine tranches, further trancheing the position. This 3rd-order tranches trade was booked using the ADBACN tradable, which applies a SecDB-based model to an underlying. The underlying was specified as a CDS CDO (rather than the TRS actually used to book Hunt Bay Mezz). So this means we now had two things in SecDB representing the same total return swap -- (a) a standard CDS CDO which the desk marked as part of it's usual sweep, which informed the model-based value of the protection purchase, and (b) a credit market to mark the TRS.

When CDS CDOs (but not the TRS) were re-marked in last week's sweep, pol noise was created as Trade 82's value changed, but Trade 81's was not.

Our CDQ trading team is. This week has had significant moves in CDQ, especially super-seniors, and activity has been crazy. We missed this position, and the firm it's in and the systems issues we have made it challenging; We're working hard to trade in this market and manage the position - and the team had a very good week.

That doesn't mean this error is acceptable, but we found it within a few days of the massive adjustment.

We are working to make the system better.

It's a 1.2 billion dollar position? Is that correct? How have we been marking AIG? Both controllers and the desk hadn't looked at it all month? Wouldn't there be a report of large positions where marks hadn't changed. Whose book was it in?

----- Original Message -----

Sent: Sun Jul 29 16:49:48 2007
Subject: Problem

One large synthetic position has not been marked since last month and has not been flowing through the position system, and the problems is large with the dramatic remark we made this week to COOs. The trading team scrubbed everything this weekend with controllers and found this - last day 1 super senior (roughly $1.2bn off a COO of AA-1sh paper done in March 2006 and without much CDS2). It's funded with another counterparty, and AIG wrote credit protection on the top 698. 29 has the remaining $3bn credit risk), and a mark of 25 points needs to go through. There are various causes for our mistake (none good), but the form of the trade had a lot to do with it.

That's about $10bn loss that we need to take.

The team has gone through everything else and does not feel there is anything else like this not flowing through, although there is a $5bn senior ppc swap the needs to be better analyzed in light of the market.

We can either put it in the estimate Monday, or put it in Friday as a large variance.

I'd rather I posted you live, but I just got the information and wanted to post this group quickly with month-end.

I'm around tonight 103-972-1366 or in the morning 2-2914.

Subject: Re: Problem

He’s overseeing trades, correlation and ad-o’s. There are responsible line people in each.
There is a systemic issue in how this was evaluated that when corrected will prevent this.
We made massive mark adjustments this week, pushed them through because of basis and
counterparty exposure, and probably should have waited to work through everything.

Subject: Re: Problem

Our COO trading team is. This week has had significant moves in CDOS, espically super-
swaps, and activity has been crazy. We missed this position, and the form it's in and
the system issues we have it challenging.
We're working hard to trade in this market and manage the position - and the team had a
very good week.
That doesn't mean this error is acceptable, but we found it within a few days of the
massive adjustment.
We are working to make the system better.

VerDate Nov 24 2008 09:47 May 19, 2011 Jkt 066052 PO 00000 Frm 00042 Fmt 6602 Sfmt 6602 P:\DOCS\66052.TXT SAFFAIRS PsN: PAT
One large synthetic position has not been marked since last month and has not been flowing through the position system, and the problem is large with the dramatic result we made this week to CDOs. The trading team scrubbed everything this weekend with controllers and street, and found this – about $100m loss that we need to take. That's about $100m loss that we need to take.

The team has gone through everything else and does not feel there is anything else like this not flowing through, although there is a $50m senior pic swap the needs to be better analyzed in light of the market.

We can either put it in the estimate Monday, or put it in Friday as a large variance.

I'm around tonight 203-972-1346 or in the morning 2-2014.

Subject: RE: Talking Points Needed for Gary Cohn  
Attachments: PMO speaking notes July 2007 for Gary Cohn.doc

Talking points posted below and attached pls review.

Market Commentary

- Subprime mortgage market continues to be dislocated and illiquid
- Spreads tightened from March-May for technical reasons (supply & short covering)
- Increases in delinquencies, slower prepayment speeds and interest rate rising continue to weigh on the market in the face of weaker housing prices
- BAA and other high-grade issuers (most recently Bank of America) announced they were halting funding redemptions and liquidating holdings, with some likely to fail
- Rating agencies announced a series of downgrades and/or securities placed on negative watch. Agencies also adopted significant changes in rating and surveillance methodologies using more positive stress assumptions which will result in more aggressive debt downgrade actions on existing deals and require greater credit enhancements on new deals
- ABX prices dropped dramatically in reaction with news that residential and CDO prices following suit. As of 10/10, ABX 06-2 BBB+ subordinated tranche was trading at 50c, 6 months ago was trading at 65c on July 13, 2007

Subprime loan & securitization commentary:

- Industry wide, subprime loan delinquencies are down 40% in 2007 and head lower
- 7 of the 10 subprime issuers in '06 are either in distress or have changed ownership
- Subprime loan delinquencies stabilize in the mid-20s in late May and early June as dealers bid more aggressively to find investors for their securitization platforms but have since faltered more than a quarter in the face of worse fundamentals
- Spreads over collateralized, loan, and raise issuance pricing has come under pressure with dealers having particular difficulty placing lower rated securities
- Goldman's subprime loan purchase was less than $50m in April and May, but in June we were successful in bidding on a $3bn subprime loan package from HSBC (unsold loans (20% production) as has some AAA rated and strong payment histories)
- More stringent due diligence procedures resulted in lower pull-through rates, reduced market share and pushback from originators, but results are difficult to argue against
- CDO securitization market is coming to a standstill, GS has zero in warehouse
- Non-prime loan inventory is currently at $3bn, drawn from $12bn as of year-end
- Warehouse secured lending in this space has been reduced from just under $1bn at fiscal year-end to $550m currently

All,

Lloyd has asked Gary to provide a 5-minute update on credit markets at the Monthly Partner Meeting this Tuesday, July 17th.

Would you be able to provide talking points for Gary? I would be grateful if you might be able to forward to me as soon as possible. (Gary is traveling to Asia.)

Sorry for the last-minute request; this was just put on the agenda.

Best,
Ellen

Subject: Mortgage Derivative Collateral Disputes - 7/31 Update (COB 7/27 marks)

Over the past week the market has experienced continued volatility. As a result, there were a significant number of mark updates.

The overall derivative collateral dispute amount is now $7.0 billion.

The following reflects a high level reconciliation from our last update:

<table>
<thead>
<tr>
<th>Date</th>
<th>Amount (in billions)</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>7/24</td>
<td>3.0</td>
<td>Previous total derivative dispute level on</td>
</tr>
<tr>
<td></td>
<td>(0.5)</td>
<td>Resolved disputes</td>
</tr>
<tr>
<td></td>
<td>1.2</td>
<td>New disputes</td>
</tr>
<tr>
<td></td>
<td>3.7</td>
<td>Net increase in previous disputes</td>
</tr>
<tr>
<td>7/31</td>
<td>7.0</td>
<td>Current total derivative dispute level on</td>
</tr>
</tbody>
</table>

The following table represents the 10 largest disputes and their respective increases/decreases since our last update. All numbers are in millions.

<table>
<thead>
<tr>
<th>Risk Party</th>
<th>Current Dispute Inc/(Dec)</th>
<th>Previous Dispute Inc/(Dec)</th>
</tr>
</thead>
<tbody>
<tr>
<td>AIG Financial Products Corp</td>
<td>1,891</td>
<td>1,770</td>
</tr>
<tr>
<td>Canadian Imperial Bank of Commerce...</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Calyon...</td>
<td></td>
<td></td>
</tr>
<tr>
<td>USAA...</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Morgan Stanley Capital Services Inc.</td>
<td>346</td>
<td></td>
</tr>
<tr>
<td>JPM Corporation &amp; Investment Bank</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Deutsche Bank Aktiengesellschaft...</td>
<td>118</td>
<td></td>
</tr>
<tr>
<td>ABN AMRO Bank N.V...</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Societe Generale...</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Citigroup, N.A...</td>
<td>3,604</td>
<td></td>
</tr>
</tbody>
</table>

The team is focused on all of these. The bulk of the disputes have detailed
reconciliations as of COR 7/27 and we are in the process of reaching out to each of the counterparties.

We will update this distribution as we make progress.

If there are any question, please contact me directly.

Subject: Re: Repo

There are a few positions where repo either feels a put was agreed to or the department actually has agreed to it. Whether we do it or money makrs does it - the firm still has it and we need to be diligent on marks and haircuts. We also finance people in the warehouse business - notably basis and chass who we have been margin calling (appropriately) a fair amount lately.

For very important trades, we should consider it. Kevin, can you circulate a list of bonds to this group. Also, sales is making significant noise about go notable conservatives in marking and haircut.

Subject: Repo

Yesterday we asked the repo desk to finance a CDO position that we were looking to sell to a client. While the trade with the client did not happen, the repo desk would have wanted...
the mortgage department to write a "put" on the CDO bonds where we would own the bonds &
the mark price minus the haircut in the event the bonds went south and the risk was put
back to G.

I know this issue has come up in the past but we should discuss.

After much discussion internally, we will improve our bid to 98-30 given the market color we have observed in the past two days. The markdown was mostly a reaction to the rating agency downgrade and partly reflected the illiquidity of the position, but upon further analysis we have gotten more comfortable with the risk position and agree it should be marked at a higher price. However, we reserve the right to re-evaluate the valuation for month-end upon the full release of the May trustee report.

Subject: for Mark to market prices

Please see below request from BOC HK. We understand it is a tough time for ABS trading but as 
BOC HK is one of the key supporters for our ABS new business in the past, especially it 
bought second lien stuff mainly from GS with the belief that we have been somewhat 
management in this area, can we try our best to show "better" indicative prices for 
them? As a can see in the the message below, client is under pressure of being questioned 
that they bought something looks really bad. I think we are not asking off the market 
price for them, but for a AAA bond with half year AVL, we showed a price of LMGBT 06 A1 
as of 95-01, It turns to be a spread of 1025 at 25 cap, this is something hard for client 
to believe... It is hard time for both ABS investors and trading desk now but for 
reputation and long run business relationship, we would like you to take these request 
seriously, we need them to think of GS as the best firm, and we need them to be our best 
client when next big boom comes... Once again, we understand that market risk is always 
the key issue for trading desk, but PL try to do something possible to make sure clients 
won't be disappointed on us when comparing us with our competitors. We discussed with Jay 
Lee and Omar on this, and also shared the key points with client this morning, seems 
client is still unhappy with our explanation... We would highly appreciate if a slightly 
aggressive price can be showed from trading desk. At least we can tell client that we 
tried our best we can for them in current market circumstance. Thank you and pls let us 
know how we can solve this more constructively... China team

Subject: RE: Tokyo Star

If we have not traded TWolf or PTPLS recently (which we have not...), I think this makes the most sense for us to speak to the underlying portfolio moves. We have seen several "A" CDOs which back other deals since the past month.

I think it is important to point out that while our prices are actionable levels where they can buy/sell a specific amount if risk other dealers do not price that way. In fact, we have been told by other accounts that other dealers' prices are not even indicative of the market.

We cannot put this on paper - it concerns me that they want something specifically in writing.

Subject: RE: Tokyo Star

Hi, if we have trade spots to point to, that's probably fine. However, if we just say it's the market price, here's our bid for protection, step up or clam up, that will lead to a response along this vein:

1) Assuming Twolf itself hasn't traded recently and there are not markets on the security itself, what is the last CDO* 2 price spot?
2) What characteristics do we focus on when comparing Twolf to the more transparent bond (e.g., the number of underlying CDOs that have "flight triggers", the number of underlying the downgrades list and in risk of Pitting, market value coverage, attachment/detachment points, etc.), and
3) Why do the other dealers all have higher marks on their CDO's if it's something as simple as "market price"?

Our marking policy is a market price (bid and/or offer) - We do not have a written methodology for pricing and we should tell them that.

Subject: RE: Tokyo Star

I can ask, but I think other dealers have actually provided marks on the specifics of the CDO's, instead of general terms.
We can ask for the general level of their marks from other dealers as well.

GS M05-E-001927891
Will they share w/us the written material given to them by the other banks?

What about the marks?

FYI, Tokyo Star Bank continues to put a lot of pressure on us for something written on pricing methodology. They say they need something by Tuesday, NYC COB, because they have a meeting on Wednesday morning with management.

We have made it clear that we cannot provide anything specifically related to Timberwolf or Point Pleasant, and that we can only provide methodology in general terms. We offered a conference call where we have the freedom to discuss the marks more specifically, but they insist that they need something written to show to their management when they provide their mark. They also say that other dealers have already sent information on their pricing methodology, and their marks are higher despite lower ratings.

I talked with Mr. Lee today.

I proposed a conference call with NY traders tomorrow morning but he denied and said they need our answer in writing first.

Tokyo Star will have their internal meeting with management on Wednesday, so pls push NY traders and compliance so that we can send it on Wednesday morning Tokyo time.

FYI, other dealers have already sent their pricing methods and MTMs. Basically the prices were higher than ours even though the ratings are AA.

That is why they need our pricing method information as soon as possible.

I totally understand that this request is special end difficult for us to answer quickly but pls do your best.

Regards,

Koji Wada
I can talk about the credit trenches if need be. They are broadly off as well, as one would expect.

The other AAs perhaps, I think the credit bonds are too subjective.

The AAAs were around 93 in April and 91 in May

Let me know if this is enough

Sent: Tuesday, November 20, 2007 8:10 AM
Subject: AIG: Market Tense As Goldman Predicts RMBS CDO Problems To Drag On

New York, November 20. The US structured finance markets remained in a state of quasi paralysis with minimal liquidity and poor sentiment. The jitteriness of market participants was escalated by a report from Goldman Sachs analysts predicting that the mortgage markets crisis is likely to drag on and will have serious implications for a significant number of financial institutions.

"Write-downs and losses will continue to mount, fueling negative investor sentiment and keeping (equity) valuations under pressure," said William Taubin, Lori Appelbaum and other GS analysts in a report to their clients. "Some companies will have to raise capital, others will have to preserve capital, and management will need to repair some seriously damaged balance sheets."

Citing the problems of the residential mortgage market and RMBS CDOs, Goldman downgraded Citigroup to "SELL" and recommended that investors avoid mortgage issuers and financial guarantors. The GS research staff estimated that industry-wide losses reflecting marking-down of whose in subprime mortgage CDOs" will approach $150 billion; reflecting $15 billion of write-downs by financial firms for 2007 Q3, $72 billion in Q4, and a remaining balance of $63 billion in additional losses based on evaluations of current market prices.

The analysis assumes $241 billion of subprime mortgage CDO exposure across the gamut of financial institutions: $82 billion for US banks plus C, JPM, $54 billion the financial guarantors, $25.5 billion non-Baa issuers, $23.5 billion US banks, $11.5 billion life insurers and $4.5 billion life insurers.

"The patient remains in the hospital," quipped a portfolio manager for a major buy-side shop. Asked by FDIMarkets if the AIG CDO sector will be able to recover, he said: "Sorry to say that the CDO market is dead." The AIG indices fainted lower as market participants worried that the negative impact of the subprime debacle will be widespread. The widely followed [INDEX-B-"878"] lost 0.67 percent to 257.27. The [INDEX-D-"878"] fell 1.09 percent to 2.17. Meanwhile, the [INDEX-D-"878"] leveraged loan index was down 0.72 percent to 95.65, raising the yield by 35 basis points. (John Nash)

T.Wolf actually has closer to 35% exposure to the list of CDOs in the SP Report. Please has around 21%. Please see the attached spreadsheets. Do not forward externally.

<< File: INTERNAL ONLY - Timberwolf Closing Portfolio - SP Exposure.xls >> << File: INTERNAL ONLY Copy of SP exposure - Point Pleasant 2007 - 1 Warehouse Acosta Closing.xls >>

Can you provide the lists of CDOs (19% of Point Pleasant and 25% of Timberwolf mentioned below)?

Confidential Treatment Requested by Goldstin

Wall Street & The Financial Crisis
Report Footnote #2186
George

Below are some talking points for you related to today's price movements for Baa3. Please note that the price moves sent to Basis (and the notes below) reflect the S&P actions that were announced this morning, but did not take into account the Moody's actions that were announced very late in the day here. We are still in the process of working through the Moody's actions.

Point Pleasant
- 19% of the total portfolio was listed in the attached S&P paper as having "material exposure" to the 612 RMBS that S&P placed on negative credit watch today (and stated on a conference call that they would be downgraded within days). If a portion of the assets with material exposure PIK (due to OC tests failing in the underlying CDOs from the RMBS and resulting OC haircuts), the Point Pleasant BBBs will be shut off from cashflow.

Timberwolf
- Approximately 25% of the total portfolio was listed in the attached S&P paper as having "material exposure" to the 612 RMBS that S&P placed on negative credit watch today (and stated on a conference call that they would be downgraded within days).

Fort Dayton
- 17 RMBS assets (21% of the overall portfolio and 43% of the total RMBS component of the portfolio) were placed on negative credit watch today, in addition, 10 CDO assets (10% of the overall portfolio and 20% of the total CDO component of the portfolio) were on the list in the S&P paper. Asset downgrades in the Fort Dayton portfolio cause a diversion of all principal proceeds and any portion (approximately 40%) or excess interest proceeds away from the equity to amortize down the Class C Loan. Depending on the amount of principal amortization on the asset portfolio in each period, this will cause an overall reduction of projected payments to the Fort Dayton equity by 45-50%. Additionally, if/when the CDO assets in the portfolio PIK (due to OC tests failing in the underlying CDOs from the RMBS and resulting OC haircuts), that will cause additional reduction in payments that will be borne by the equity.

This deal was number 1 in the universe of CDOs's that were downgraded by Moody's and S&P. 99.99% of the underlying assets were downgraded.

***INTERNAL ONLY***

ABACUS 2007-AC1 - 2bn synthetic RMBS CDO

OVERVIEW
- Static portfolio consisting entirely of "AAA"-rated midprime/subprime RMBS selected by ACA
- ACA is one of the largest and most experienced CDO managers in the world (see Overview of ACA below)
- Goldman's market-leading ABACUS program currently has $5.1bn in outstanding CLNs with strong secondary trading desk support

RELATIVE VALUE
- Reference Portfolio more conservative (360 WARR than traditional less ABS CDOs (450-500 WARR)
- Capital Structure less aggressive than traditional less ABS CDOs (see comp below)
- Attractive spreads relative to ABS CDOs currently in the market (see comp below)

PORTFOLIO
- Granular portfolio of 90 equally-sized reference obligations selected by ACA
- Static reference portfolio fully-identified, with no reinvestment, prepayment, substitutions or discretionary trading
- 10% Real Moody's-rated subprime/midprime (350 Moody's WARR)
- Diversified across 30 issuers and 24 servicers

STRUCTURE
- Tranches offered across the entire capital structure
- No IO/OC tranches: ABACUS notes will be unlocked and non-deferrable
- Sequential Principal Paydown Sequence: no subordination is leaked to residual tranches under any circumstance
- No upfront structuring fees
- Investors will not bear WAC and/or available funds cap risk
- Projected 4- to 5-year tranches WARR at the reference portfolio pricing spread
- Tranches available in unfunded CDS format as well as in CLN format (in all major currencies)

OVERVIEW OF ACA MANAGEMENT LLC
- One of the largest CDO managers in the world
- Currently manages approximately $1bn in collateral assets across 22 CDOs
- No rated notes in any ACA's CDOs have ever been downgraded
- ACA team consists of 30 dedicated credit and portfolio management professionals with an average 13 years of relevant experience
- Portfolio Selection Fee structure aligns manager's incentive with investors'

Re: Request for renewal of the existing $1 billion ($500 committed, $500 uncommitted, 1-year, revolving warehouse facility secured by subprime residential mortgage loans for Fremont Investment and Loan

I. Transaction Summary

We are requesting approval for the renewal of the existing $1 billion ($500 committed, $500 uncommitted), 1-year, revolving warehouse facility secured by subprime residential mortgage loans (the "Facility") for a 1-year term for Fremont Investment and Loan ("Fremont"). The current Facility matures February 27, 2006. Fremont is an important relationship for Goldman Sachs ("GS"), and renewing the Facility will enable GS to lock in warehouse revenue and maintain our opportunities for purchasing whole loan packages and securitization mandates through 2006.

II. Economics

GS has generated revenue totaling $7.01 million in 2003 as detailed below. We generated $540.9 million in warehouse usage and commitment fees in 2003. GS generated significant ancillary revenue throughout 2003 from 6 whole loan purchases and 5 deal mandates (2003-0 revenue is recognized in 2006). We project increased revenue in 2006 of $9.34 million, attributable to the same warehouse commitment fees and a slightly lower usage fee, 3 securitization mandates (1 lead, 2 Co-Managers) and 5 to 7 whole loan package purchases. We anticipate average warehouse usage to be 5% to 10% in 2006, consistent with the low usage (8% average) throughout 2005.

I like the idea of DC patterns. I'd like to list all deals of a certain status and use it as an inclusive list for prioritization. Thanks

Great Loren, thanks. Deferring triggers may be one way to look at it but early deals are going to be so far from triggering I'd prefer, once we clear thru the emergency list, focusing on DC pattern the first 4 months of a deal.

Kelly informs us that the data is being loaded today for O6 FM 2 and then a sample can be pulled. Working with HIBOR on NM2 should not be distracting. Assuming the confidentiality agreement was signed, they can work more closely with Clayton. Write off to other vendors at this point. Bohan in next week.

Results of the Digital Risk review will be provided next Tuesday. Over 2,000 loans were reviewed, a significant amount of those are Long Beach and Fremont seconds. Seconds from FM1 are being re-reviewed internally. Contrary to Clayton’s initial review, on average, about 50% of about 200 files look to be repurchase obligations. Tom Winslow is looking at the Long Beach loans that Long Beach rejected repurchase. He is finding fraud that had not initially been alleged. We’ll forward those a few days to Wakko contact.

Looking to develop a comprehensive deal sheet, perhaps based on delinquency triggers to use for prioritization and status tracking. Envision this centralized in the Northview Group. Let me know if you have any other questions or comments. Thanks

Yes and thank you regarding 2nd loan, I think priority sab on Fremont and Long Beach vs. NC on 2nd loan deals. Fremont first since they still have cash but may not for long. Do we have any early volume on Fremont 2nd lien deal scrutiny?

Confidential Treatment Requested by Gok. GS MBS-802048050
Footnote Exhibits - Page 4137

W/ H6K on NC2 we need to not halt that entirely but should pull back resources there. We should also move BFM2d up the priority list.

As you know, we have an extensive re-underwrite review underway on OSNC2, and also other NC loans in the 90s deals that are in pipeline for scrutiny. Should we change course at all here given the fact NC can’t pay? Keep in mind, we’re spending ~$250/k for these looker. Please give us some guidance here.

Thanks.

On-site Visit
- Very receptive & accommodating to my visit (especially collection mgm), in an office with some access and freedom to come & go and to meet with department managers.
- Overall feeling – very positive (not really 100% on-site, but with 100 employees go a month ago – decent amount of empty offices & offices.
- Collection mgmt trying to keep employees focused on job at hand – met in small groups today to tell them what’s going on (most likely not get answers) so they can get back to focusing on collecting.
- Front and collections (FPS & <30 day old) –
  - FPO - shared collections - overall cure ratio = 87%
- All day 17 & no contact - Skip tracing data file out to vendor, Marketing dept contacting brokers for adhnl contact info & Door Knocker campaign (NC2) starts.
- Deficiency/Collection Rs - received some initial print numbers (see below), meeting with Default team Wed morning to discuss specific print requests.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-002048051
Footnote Exhibits - Page 4138

- Also, going to set up details around special call campaign for our FFDs & EPDs.
- Investor Acct/Staging:
  - Appears issue with the wires coming to GS are due to delays in moving loans into 07 NC1 lyr code - loans did not get moved from GS to 07 NC1 until 3/8/07.
  - Meaning when tomorrow afternoon to ensure all loans moved in appropriate investor code for rolling & remitting to Master Servicing going forward.
  - Also need to determine how we want to handle the rolling for the Dec/5 group of loans that transferred to Avelo - normally NC should be responsible for the rolling since they were servicing as of 2/29.

Dear Mr. Larson,

I spoke with the EPo/EPo Collection VP & he can run a special campaign on our EPo loans. I know you are still working on a settlement for the DECCs trade but it would be beneficial to run these through. He is going to pull the loans he sees as EPo for GS but I would like to compare to our list. Can you send me the loan list for the DECCs EPo's?

I'm also having him include the loans from the Jan30 trade that tentative quality today - they have through Thursday (45 days) to pay.

All,
I'll send an update on other items regarding my visit later tonight.

Thanks,

Erika Larson

Re:       Request for renewal of the existing $1 billion ($500 committed, $500 uncommitted), 1-year, revolving warehouse facility secured by subprime residential mortgage loans for Fremont investment & Loan

I. Transaction Summary

We are requesting approval for the renewal of the existing $1 billion ($500 committed, $500 uncommitted), 1-year, revolving warehouse facility secured by subprime residential mortgage loans (the "Facility") for a 1-year term for Fremont Investment & Loan ("Fremont"). The current Facility matures February 28, 2007.

Fremont relies primarily on deposits and advances from Federal Home Loan Bank of San Francisco ("FHLB") to finance its originations. Because these sources offer less costly sources of funds compared to Fremont's existing warehouse facilities, Fremont uses the Facility as backup liquidity and does not expect to draw on the Facility in normal course of business to finance its loan originations. In the past, Fremont has used the Facility in cases where they have sold whole loans to Goldman Sachs Mortgage Company ("GSMC") by temporarily moving the purchased loans onto the Facility for a week or less prior to settlement of the loan purchase to facilitate the settlement process. In addition, Fremont has also used the Facility to move loans prior to transferring them to a securitization where GS is the lead underwriter. Below is a summary of Fremont's sources of funds as of September 30, 2006.

Capital and Liquidity Capacity (as of 9/30/06)

- $1 billion of unpledged financing availability
- $5 billion Warehouse Lines Availability
- $3 billion Federal Home Loan Bank Financing Availability
- $8 billion Federal Home Loan Bank Advances
- $8 billion Interbank Deposits
- $5 billion Retail Deposits
- $2 billion Capital

GS MBS-E-001157942
Footnote Exhibits - Page 4142

Fremont is an important relationship for Goldman Sachs ("GS"), and renewing the Facility will enable GS to look in warehouse revenue and maintain our opportunities for purchasing whole loan packages and securitization mandates through 2007.

II. Current Warehouse Facility Terms
Fremont will report origination volume of $32.6 billion for 2008. Their warehouse terms are below:

- **Annual Commitment Fee**: 10 bps on the committed amount of $300 billion ($300B)
- **Advance Rate**: 90% of market value, capped at par (10% haircut is three times our normal level)
- **Funding**: None
- **Usage fee**: L + 40 bps
- **Recourse**: Full recourse to Fremont Investment & Loan
- **Mark-to-Market**: GS has ability to mark collateral to market at its sole discretion

III. Economics
GS has generated revenues totaling $13.36 million in 2006 of which $802,000 came in the form of warehouse usage and commitment fees (see below). We project revenues in 2007 of $11.25 million, attributable to the same warehouse commitment fee and usage fee, as well as 3 securitization mandates (1 lead, 2 Co-Managers) and $3 billion in whole loan package purchases. We anticipate average warehouse usage to be 5% to 10% in 2007, consistent with the low usage (2.2% average) throughout 2006.

<table>

</tr>
</tbody>
</table>

1. Assuming 0.05% average
2. Average usage in 2006 was 0.2%, at a spread of L + 40 bps. Same usage and terms assumed for 2007
3. Assumes historical average loan size at 20 weighted average basis points per cent and 12.5% haircut on co-manager deals

IV. Pull Through Rates
Below is a summary of the pull-through rates for the last three pools GSIC has purchased from Fremont:

[Pull Through Rates Table]

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001157943
Footnote Exhibits - Page 4143

Fremont’s pull-through rates are within range of other sub-prime originators that we have purchased significant sub-prime pools from in the past 3-6 months. Below are some weighted average pull-through rates for different originators.

Pull-Through Rates ($ millions)

<table>
<thead>
<tr>

<td>90%</td>
<td>12%</td>
<td>0.0%</td>
<td>0.0%</td>
<td>0.0%</td>
<td>0.0%</td>
</tr>
</tbody>
</table>

To address issues relating to pull-through rates and EPD rates, Fremont has proactively established programs and underwriting guideline changes to enhance the quality of the loans they originate. Some of these changes include:

- Tightening of underwriting criteria, including elimination of 80/20 loans and greater restrictions on first-time homebuyers.
- Fraud training for its underwriters and establishment of an underwriter certification program.
- Implementation of Core Logic’s LoanSafe system to help detect fraud.
- Review and identification of brokers with higher default rates.
- Running of AVMs for each loan.
- In-hous appraiser review and additional diligence.
- Use of lower of purchase price or appraised value for properties owned less than 12 months.
- Greater restrictions on maximum allowable LTV for properties listed for sale for greater than 90 days.

As a result of these changes, Fremont hopes to realize a decreasing level of first payment defaults on its loans production, which will result in lower levels of loan repurchases in 2007.

V. Credit Review

<table>
<thead>
<tr>
<th>Fremont General Corporation</th>

</tr>
<tr>
<td>Fitch</td>
<td>B+ / Negative</td>
<td>Outlook Stable to Negative - Jan 25, 2002</td>
</tr>
</tbody>
</table>

Key credit strengths include:

- Diversified funding. The company has a more diversified funding mix relative to other warehouse borrowers given its access to FDIC-insured deposits and PHB borrowings. Although jumbo (non-core) deposits comprise slightly higher portion of total deposits every year, the total amount of deposit funding has grown each year and reached $9.81bn as of 09/06 (or 76% of total funding).
- High levels of capital. Fremont holds substantially more capital against its operations than most peers.
- Regulatory oversight. As an industrial bank, Fremont is regulated by the California Department of Financial Institutions and the FDIC.
- Strong asset quality metrics. On the residential real estate side, interest-only loans declined to 7.6% of production from 25.7% in 09/05 and the 40/30 and 50/30 products were 21% and 20.6% of production respectively in 06/06. This average FICO score of their residential portfolio is 627, which is on the high side for a sub-prime lender.

Key concerns:

- Reflects by the Permanent Subcommittee on Investigations

Confidential Treatment Requested by Goldman Sachs  GS MBS-E-001157944
Declining profitability. Profitability metrics deteriorated significantly in 2008; return on average assets dropped to 0.87% for 2008, from 3.3% in 2005 and 4.2% in 2004. The company has informed us that they will post a loss of $27.7m in the quarter (results will be published on Feb 26) due primarily to a reserve build for EPO claims (there will be an additional loss posted on a consolidated basis due to write downs of residual values at the holding company). They have also informed us they expect to post a loss in Q107 because of low gain on sale margins. The company is forecasting to be modestly profitable again in 2007 but that is heavily dependent on a rebound in market pricing for loans.

Traditionally high risk lines of business. Fremont operates in two traditionally high risk lines of business: commercial real estate (especially transition properties) and sub-prime residential real estate. Performance in these two business lines is somewhat correlated although the commercial side of the business remains profitable in the current market.

Minor geographic concentration in California and high single borrower concentrations in the CRE portfolio. Although in the past years, commercial real estate loan concentration in California raised concern, portfolio has become more diversified recently with California accounting for 1%, Florida 1%, and New York 12%. Single borrower concentrations still exist as well, however they are somewhat less of a concern as Fremont's capital base has grown 30% since 2004 and over 50% since 2003.

VI. Recommendation

Based on the strong sponsorship, expected future revenues and GS' significant relationship with Fremont, we recommend Mortgage Capital Committee approve the renewal of the Facility.

Subject: Tried calling you

Sober this morning; mentioned in the Firmwide Risk Committee meeting that we are looking at CDO exit for our long AIIX risk. Wanted to get some color on this, particularly in relation to how we are going to assemble/manufacture 80-100 names typically needed as CDO collateral (synthetic). Thanks.

I think most hedge funds have been right on this (i.e. they've been short), so it's a
piling on effect that we're seeing rather than a risk unwind. We have reduced our risk by
about 20% over the past week, but it's starting to feel overdue to me. The synthatic CDS
seems like a viable takeaway here. the feedback we've received has been positive thus far. To
give you a perspective on relative performance over the past month or so:

---BBM- ARX index : 45bp wider
---BBB- cash sub prime virtually unchanged with deals pricing and selling [similar to
index]
---BBB- single name sub prime CDS 110 wider --Equities up --CMBS unchanged --Corp credit
lighter

I believe the divergence has been caused by macro hedge funds shorting the index. A CDS
would enable us to exploit the cheapening in the index vs. cash and single names.

CDO Rating Factors
Inclusion of Tranced ABX Indices in ABS CDOs

INTRODUCTION
The advent of tranched ABS credit indices represents another milestone for the credit derivatives market. But while the trading of standardized tranches on a portfolio of ABS (exclusively Home Equity securities) provides new strategic opportunities for market participants, the inclusion of these new instruments in ABS CDO portfolios poses certain challenges.

These challenges revolve around the potential degree of overlap in ABS CDO collateral pools that can sharply increase pool-wide correlation. Coupled with the current environment, in which the new ABX-based tranches are trading at extremely wide spreads relative to similarly enhanced ABS CDO tranches, there is a risk that many ABS CDOs will see sharp increases in average pool-wide correlation through the purchase of the standardized tranches in either synthetic or cash (credit-linked note) form.

What Are the New Tranced ABS Index Instruments?
The ABX credit indices were launched in January 2006. Each index includes 20 liquid Home Equity securities issued in the prior six months. The ABX 06-01 index is based on HE securities underwritten during the second half of 2005, the ABX 06-2 index on securities underwritten during the first half of 2006 and the ABX 07-1 index on securities underwritten during the second half of 2006. Unlike corporate credit indices, there is no overlap in underlying instruments between different series as each ABX series is associated with a single vintage.

The first tranched ABX indices (TABX) began trading on February 14 of this year. At least initially, only the BBB and BBB- ABX sub-indices have been tranched. The standardized tranches reference the combination of the ABX 06-2 and ABX 07-1 collateral pools, for a total of 40 credits. The attachment/detachment points are set as follows:

<table>
<thead>
<tr>
<th>TABX Attachment/Detachment Points</th>

Footnote Exhibits - Page 4178

The Incentive to Include TABX in ABS CDOs

With the recent turmoil in the subprime mortgage market—the prices of the ABX indices have fallen dramatically over the past few months—the new TABX tranches are trading at very wide yields. Given the yields at which the TABX tranches have been priced, CDO structures and managers may perceive an opportunity to add the instruments to ABS CDO portfolios in order to enhance portfolio-average spreads. The tranches could potentially be added directly to synthetic and hybrid ABS CDOs in credit default swap form, or transformed into credit-linked notes for inclusion in cash-flow CDOs.

Moody's View About the Addition of TABX Tranches

So long as they are properly treated, the addition of TABX tranches to ABS CDO portfolios may not raise any concerns. As with the inclusion of the ABX, our primary concern is with correlation. In the case of the TABX, our immediate focus is on capturing the correlation within the CDO. For example, Moody's wants to make sure that any CLNs that reference TABX are classified as being correlated to one another and to other related single name or index exposures in the CDO.

The key to capturing intra-CDO correlation is that any TABX exposure be properly identified. In general, collateral managers have wide discretion in classifying instruments that are incorporated into ABS CDO collateral pools. TABX tranches might, for example, simply be classified by the name of the vehicle which issued the CLN. Such a designation would fail to recognize that there could be other CLNs from other vehicles which reference the same risk or that the CDO's portfolio could already be exposed to the names in the TABX, either through single name CDS or through direct exposure to the ABX.

Given the novelty of TABX, neither existing CDO incentives, nor Moody's CDOROM™ software that is used to model ABS CDO asset correlations, provides for a "TABX" category to address Moody's concerns on correlation. Thus even the most conscientious collateral manager may not have an existing mechanism to accurately characterize the correlations associated with TABX tranches.

Treatment in CDOs

In light of the potentially significant correlation impact of adding TABX tranches to ABS CDO collateral pools, Moody's will review such proposals on a case-by-case basis. The review will ensure that an appropriate set of asset correlation (e.g., 100% for TABX tranches based on the same collateral pool) is reflected in CDOROM. Therefore, Moody's asks that CDOs that wish to offer protection on the TABX either through a CLN or swap first come to Moody's to discuss the appropriate treatment within the CDO.

In the months ahead, we anticipate that we will modify CDOROM in order to facilitate the appropriate correlation treatment for TABX tranches. Until that time, we propose the following guidelines for existing and recent CDOs:

1. The aggregate exposure of the CDO to the TABX and the ABX should not exceed 2% for High Grade deals and 5% for Mezzanine deals. Additionally, the exposure to any vintage should not exceed 2%.

2. To measure the correlation within the purchasing CDO:
   a. The TABX may be entered into CDOROM as a bespoke CDO (i.e., using a look-through approach in which each underlying HE tranche is entered into CDOROM individually) if such a CDO has the ability to add bespoke CDOs or
   b. All products related to the ABX (TABX CLNs and swaps, ABX, single name CDS referenced in the various ABX) should be entered in the "Transaction Name" field in CDOROM. (The Issue Date and the Key Agent fields may have to adjust to a single value in order for the CDOROM to function properly)

3. All other indenture restrictions/rules, such as the discount purchase rules must apply.

2. Moody's Investors Service Inclusion of Tranching ABX Indices in ABS CDOs
Footnote Exhibits - Page 4179

Inter-CDO Correlations
In addition to intra-CDO correlations, Moody’s is also concerned about the impact of the ABX and TABX on correlations between ABS CDOs (e.g., in a CDO squared or the CDO basket of an ABS CDO). The asset correlations assumed in CDOROM between ABS CDOs were developed using the data that was available at the time we performed the original correlation analysis - i.e., based on transactions backed by cash collateral, which is not easily replicated across deals. More recently, with the growth of synthetics in ABS CDOs, it has become easier for multiple deals to have exposure to the same reference obligation. With the popularity of the ABX index, it comes as no surprise that Moody’s has found that many recent transactions have exposure to the ABX in both index and single name form. Essentially, this means that inter-CDO correlations are increasing.

While intra-CDO correlation concerns can be treated using a look-through approach as mentioned earlier, addressing correlations between ABS CDOs is more difficult. When an ABS CDO contains both ABS-related positions as well as tranches of other actively managed CDOs, it is difficult to perform a look-through analysis on an ongoing basis because of the dynamic nature of each underlying CDO’s portfolio. Moody’s is currently undergoing a research project to study the overlaps in ABS CDOs and will adjust our ABS CDO correlations accordingly. Until the research project is completed, Moody’s may consider look-through correlations for ABS CDOs in the initial rating process.

CONCLUSION
Moody’s believes that the proliferation of standardized index products may increase the correlation within and between CDOs. Because the models currently used by Moody’s do not contemplate products such as the ABX and TABX that may be infinitely replicated, we will shortly introduce refinements to our correlation framework and will solicit market comment on the proposal.

Subject: RE: AIG FP AIX basis trade

Deed/Ed/Mike:

I would like to be able to get back to you guys have any thought on this. I would like to be able to get back to you guys have any thought on this. I would like to be able to get back to AIG FP first thing Monday morning if possible. I think offering this trade at 1/2 point makes sense (can't imagine people would do a lot of work/air through this brain damage for less than that), and just as an FYI, color from Andy Forster at AIG FP is the following (email that I'll forward to me on Friday, coming from Andy Forster and I quote):

"I think this is the basic version where you pay us like 50bps, the issue though is that this has some real risk and I want to understand what the risks are, for example I think some bonds can move up but the index does not! Also the single names, all trade at different spreads so if a high spread name defaults we lose more in income than we stop paying on the index etc etc. Also something about delivery with the index only allowing one method."

Cc: FLOC-MAC-022-desk
Subject: AIG FP AIX basis trade

See attached the trade we could show to AIG FP to close the Hudson Mezz account. This account is long AIX and short single-name CDS. On a running basis, the account is set up to lose money by 3bps -- however, when looking closely at the combination of trades, the account is positive carry on 06-1 index and negative carry on 06-2 index. Question is at what price do we sell this position to remove the MMM vol risk of that account, as well as the basis risk -- the basis risks are the following:

-- positive basis: the single-name CDS are cancellable individually by the protection buyer at the stop-up date
-- negative/positive basis: if 06-1 index amortizes / suffers counterparty faster than 06-2 index, the trade can become negative carry

I am suggesting we offer this trade to AIG at an upfront payment of $600 to have AIG FP take the MMM risk (and we know it is a pretty big risk) as well as the amortisation differential risk (pretty small in my mind).

Subject: Lived Levels

We are close in talks with our counterparty on the super senior for the ABX CDO.

Before we get execution, we need to show them levels on where we expect to lock in asset levels.

So far we have levels from CANS at +112.

On ABX we want to show 1bp inside mid:

- ABX 2008-1 BBB @ +13
- ABX 2006-1 BBB- @ +15
- ABX 2006-1 BBB @ +149
- ABX 2005-2 BBB @ +121

For the CDS given spread widening this week, we want to go with +120 for BBB flat and +120 for BBB-

Can you confirm we are good on the above levels?

This is key to complete our work today on the Super Senior tranche.

Confidential Treatment Requested by Goldman Sachs
Here are the points for your discussion:

On the AXE Side

1. Very crowded trade - guys tending their position in the media (ie. Grants, NY Post). Could be very violent short covering rally because most of the shorts facing non-market to market vehicles (ie. CDSs).

2. Expensive break-evens. Despite the recent sell-off most macro players are at best flat given the carry hurdle.

3. Relative Value - Underperform stocks, and corporate credit by 2 points/60bp in the past 6 weeks. Also, CMBS is 4bp tighter over the same period. The Philadelphia Housing Index is up approx 10% over this period.

4. Basis - Index to single-name basis is at the widest (ie. 40bp at BBD level). Index to cash is even more extreme at 75bp. Bids for cash deals remain strong and have barely widened.

5. CDO - we are going to price an innovative full capital structure 1-AB CDO deal with 60% of the risk in AXE (no one has done this before). At the current levels we produce equity at levels that are approximately 10% (in return) cheaper than a typical CDO.

6. Property Derivatives - press release tomorrow. More direct way for the macro community to express their negative views on house prices. We expect existing shorts to explore swapping out of AXE shorts into Prop Derivatives

Natural Buyers of Property Derivatives

1. Pension Funds

2. REITs

3. Insurance Companies

4. CDOs - we are going to create rated CDS-like contracts and do a CDO using these contracts - similar structure to CRISIF

Omar, I realize lack of manager may be tough hurdle for them. May be helpful to let Doob and I get on a call with the investor and discuss our asset selection criteria and I can go through asset sale criteria. Let me know if that would be useful.

VERBAL ONLY

If we have not already responded to the inquiry below, the dollar price of the BBBs assuming a spread of 600bps and a DM of 65bps at 56.30.

What is the approximate discount dollar price that equates to a par value coupon of L-600 on the Class E with a DM of L-607?

Low delta chance we have interest from a private bank in Taiwan for this sort of security (though lack of manager is a big issue for them).

Subject: Re: Ref Obs for Prop CDO

Debby, we'll take a look there. On adding Alt A, I would suggest an initial bucket of
around 10 - 15 names to start. We could add some more later on depending on appetite, but
that will be a good start.

Thanks, Darryl!

Subject: Ref Obs for Prop CDO

< sickness als > Peter/Darryl,
Attached are 50 RMBS Ref Obs and 5 GNMA/CAS CDO ref obs for the CDO we're discussing. On
the RMBS side, we chose 30 Natl and 30 Real COMM with evenly split 2005 and 2006 vintage.
We can add a few self-obs as well. How many of those would you like?

Let us know what else you need.

### Transaction Details

- **Issuer:** Hudson Mezzanine Funding 2008-1, LTD, incorporated with limited liability in the Cayman Islands
- **Co-Issuer:** Hudson Mezzanine Funding 2008-1, Corp., corporation organized under the laws of the State of Delaware
- **Legal Advisor:** Greenblum, Akin G., et al.
- **Initial Purchaser:** Goldman Sachs & Co.
- **Listing Type:** April 2008
- **Initial Purchase:** Rule 144A. Initial purchase is subject to registration under the Securities Act of 1933.

### Lending, Closing & Settlement

- **Application:** Application may be made to transfer the securities on a non-termination basis to investors, with a minimum amount subject to change. A possibility exists that any such application will be made and that any such application will be granted. The Class A, B, C, D, and E Notes will settle through Euroclear/Clearstream/BV, Notes will settle with accrued interest, if any, from the Closing Date. The related USDR Rate on the A, B, C, D, and E Notes will be set two business days prior to the Closing Date.

### Notes

- **Repayment Period:** Approximately three years. Callable in whole or in part upon April 2010 by a majority vote of the Noteholders.
- **Accrued Call Date:** Starting April 2013 and annually to April 2014.
- **Minimum Call Price:** Class A, B, C, D, and E Notes (Call Date as of April 2014) are subject to a minimum call price.
- **Legal/Securities:** April 2008 for the classes of Class A, B, C, D, and E Notes. April 2014 for the Class D Notes.
- **Payment Frequency:** The Class D Notes, Class B, C, D, and E Notes will receive principal and interest payments semi-annually, commencing April 2007. The Class D Notes, Class B, C, D, and E Notes will receive principal and interest payments semi-annually, commencing April 2007. Note: The Class D Notes will receive full payments due on the payment of the principal.

### Tax Treatment

- **Interest:** The Class A, B, C, D, and E Notes are expected to be SDRS科目s, meaning that the issuer is on a proportional transaction for tax purposes.
- **Exemption:** The Class A, B, C, D, and E Notes are subject to withholding tax at the corporate tax rate.

### Collateral

- **Collateral:** Credit default swaps referencing KADS structure.

### Exigencies

- **Synthetic Securitization:** Pays de Vace ("PVD") SDA
- **Stated Amount:** Payment against the amount of the Credit Default Swap Collateral
- **Credit Event:** Payment of Credit Event
- **Default Swap Collateral:** Payment of Credit Event.

Hudson Mezzanine Funding 2006-1
Transaction Overview

- Hudson CDO program was developed by the CDO Desk in 2006 to create a consistent, programmatic
  approach to invest in attractive relative value opportunities in the RMBS and structured product market.
  We successfully launched Hudson High Grade which is in the market now. This is a continuation of
  this program with mezzanine quality RMBS.

- The CDO is an Alpha Generator/Term Non-recourse with other non-A1X names. 60% of the portfolio will
  consist of single name CDOs from the A1X 2006-1 and A1X 2006-2 index to pass through the relative value
  pickup between the index vs. single name CDO. Term non-recourse execution of Hudson will lock in
  the arbitrage for the benefit of debt and equity investors.

- Goldman will buy equity and is long this risk via warehouse: 100% ramped.

- This is not a tranching index CDO. CDO will utilize a cashflow waterfall with traditional CVC tests

- Super Seniors are done with one large sophisticated Wall Street CDO buyer

- Focus will be on the BBBs and BBs.
  - No CDOs
  - No negative convexity (fixed rate)
  - No BBs

Team, We are planning to begin marketing Hudson Mezz this week

I have attached the marketing book and term sheet as it currently stands (still updating stress runs)

Would appreciate any feedback/comments you have on this because it discusses the current CDO and more importantly what our deal's strategy is with Hudson program for the future. I'm interested in getting everyone's color

I am in the office tomorrow so can talk then or whenever you get a chance can reach me on my cell (946) 526-8256

HYPOTHETICAL ILLUSTRATIONS AND PRO FORMA INFORMATION

These materials contain statements that are not purely historical in nature. These include, among other things, hypothetical illustrations, scenarios or pro forma portfolio allocations or portfolio compositions, economic analysis of returns and proposed or pro forma levels of diversification or scope of investment. The hypothetical situations of returns illustrate a range of potential outcomes based upon certain assumptions. Such assumed outcomes are not a prediction by the issuer, Goldman Sachs or their respective affiliates of the returns that may be achievable by the investor in the described manner. Actual returns are difficult to predict and may vary according to the accounts of the issuer. Goldman Sachs, their respective affiliates. Actual events may differ from those assumed and such differences may be material. There can be no assurance that the returns will be achieved or materialized or that actual returns or results will not be materially lower than those presented. All statements included are based on information available on the date issued, and none of the issuer, Goldman Sachs or their respective affiliates assume any duty to update any such statement. Some important factors which could cause actual results to differ materially from those in any statements contained herein include the actual composition of the collateral and the price at which such collateral is actually purchased by the issuer, any defaults on the collateral, the timing of any defaults and subsequent recoveries, changes in interest rates, and any weakening of the specific credits included in the collateral among others. The Offering Circular will contain other risk factors, which an investor should also consider in connection with any investment in the securities described herein.

PRIOR INVESTMENT RESULTS

Any prior investment results or returns are presented for illustrative purposes only and are not indicative of the future returns on the securities and obligations of the issuer. Because of potential restrictions that apply to the issuer and differences in market conditions, the investments selected by Goldman Sachs on behalf of the issuer may differ substantially from prior investments made by Goldman Sachs. The issuer has no operating history.
Risk Factors

Note: The Offering Circular will include more extensive descriptions of the risks described herein as well as additional risks relating to, among other things, conflicts of interest. Any decision to invest in the securities described herein should be made after reviewing the Offering Circular, conducting such investigations as the investor deems necessary and consulting the investor's own legal, accounting and tax advisors in order to make an independent determination of the suitability and consequences of an investment in the securities. The Offering Circular will supplement this document in entirety.

- Limited Liquidity, Restrictions on Transfer and Limited Resale
  - There is currently no market for the Secured Notes or Income Notes and it is unlikely that any secondary market will develop. The Secured Notes and the Income Notes should be viewed as a long-term investment, not a trading vehicle. The value of the Secured Notes and the Income Notes may vary and the Secured Notes and the Income Notes, if at all, may be worth less than their original cost.
  - In addition, as the Secured Notes and the Income Notes will be sold in transactions exempt from SEC registration pursuant to Section 4(2), Rule 144A, and/or Rule S-4 and the issuer will not be registered under the Investment Company Act of 1940 pursuant to the Section 12(f)(2) 'federal restriction, as well as other restrictions on transfer of the Income Notes will apply.
  - All liabilities are payable solely from the cash flow available from the collateral pledged by the Issuer to secure all classes of Notes. No other assets will be available for payment in the event of any default. The Income Notes represent equity in the Issuer and as such are subordinate to the Secured Notes. The Income Notes are payable from the collateral which represents the only assets of the Issuer only after payment in full of amounts due on the Secured Notes.

- Leveraged Credit Risk
  - The Income Notes are in a first-loss position with respect to defaults on the underlying collateral. The leveraged nature of the Income Notes magnifies the adverse impact of any collateral defaults.

- Subordination
  - The Income Notes are subordinated to the Class A, Class B, Class C, Class D and Class E Notes and certain payments of expenses. The Class E Notes are subordinated to the Class A, Class B, Class C, and Class D Notes and certain payments of expenses. The Class D Notes are subordinated to the Class A, Class B, and Class C Notes and certain payments of expenses. The Class C Notes are subordinated to the Class A and Class B Notes and certain payments of expenses. The Class B Notes are subordinated to the Class A Notes and certain payments of expenses. The Class A Notes are subordinated to the Secured Notes and certain payments of expenses. No distributions of interest proceeds received on the collateral will be made to the Income Notes until interest on the Secured Notes and certain other expenses have been paid. In addition, in the event of a default, holders of the senior class of Secured Notes will generally be entitled to foreclose the collateral and have an absolute right on the Income Notes. The Income Notes will not be able to exercise any remedies following an event of default and will not receive payments under an event of default unless the Secured Notes are paid in full.
Risk Factors

- Volatility of Collateral and of Secured Notes' and Income Notes' Market Value
  - The Income Notes represent a leveraged investment in the Collateral Assets. The use of leverage generally magnifies an issuer's opportunities for gain and risk of loss. Therefore, changes in the market value of the Secured Notes and the Income Notes can be expected to be greater than changes in the market value of the underlying assets included in the collateral, which themselves are subject to credit, liquidity and, with respect to the fixed rate portion of the portfolio, interest rate risk.
  - Changes in the market value of issuers from one sector or industry may impact the market value of issuer from one or more of other sectors or industries included in the collateral.

- Collateral Risk
  - Collateral Assets inherently bear significant credit risk because issuers are primarily private entities.
  - The structure of Collateral Assets and the terms of the issuer's interest in the collateral can vary widely depending on the type of collateral, investor sentiment and the use of credit enhancements.
  - Adverse changes in the financial condition of the collateral obligor or in general economic conditions may adversely affect the obligor's ability to pay principal and interest on its debt.

- Illiquidity of Collateral Assets
  - Some of the Collateral Assets purchased by the Issuer will have no or only a limited trading market. This illiquidity may restrict the Issuer's ability to dispose of investments in a timely fashion or for a fair price.
  - Illiquid debt securities may also trade at a discount to comparable, more liquid investments. In addition, the Issuer may invest in privately placed Collateral Assets that are non-transferable or are transferable only at prices less than the fair value of the original purchase price of the securities.

- Nature of Collateral
  - The Collateral Assets are subject to credit, liquidity and interest rate risk. In addition, the financial performance of the Issuer may be affected by the price and availability of Collateral Assets to be purchased.
  - Some or all of the Collateral Assets may be subordinated securities which may be subject to leveraged credit risk.
  - The ability of the Issuer to sell Collateral Assets prior to maturity is subject to certain restrictions and limitations under the indenture.
Risk Factors

- No Collateral Manager
  - The Issuer will not engage a Collateral Manager. As a result, (i) the Collateral Assets held by the Issuer on the Closing Date will be retained by the Issuer even if it would be in the best interests of the Issuer and theholders of the Income Notes and Secured Notes to dispose of certain Collateral Assets unless the Collateral Assets are required to be sold by the Liquidation Agent as described in the preceding paragraphs and (ii) the Indenture will not allocate the ability of the Issuer to exercise discretion in certain circumstances, where a collateral manager in a managed or static collateralized debt obligation transaction typically would have discretion to exercise such discretion on behalf of the Issuer and holders of Income Notes and Secured Notes. The inability of the Issuer to exercise discretion in these contexts could adversely impact the Issuer and the holders of Income Notes and Secured Notes.

- Timing and Amount of Recoveries
  - Only Collateral Assets that meet the liquidation criteria (see page 12) may be sold. If a Collateral Asset meets the liquidation criteria, the Liquidation Agent is required to sell such affected collateral in accordance with the provisions of the Liquidation Agency Agreement. There can be no assurance as to the timing of the Liquidation Agent’s sale of affected collateral, or if there will be any market for such assets or as to the rates of recovery on such affected collateral. The inability to realize immediate recoveries at the recovery levels assumed herein may result in lower cash flow and a lower yield to the Income Notes and Secured Notes as compared to the returns generated using the Modeling Assumptions.

- Impairment of Credit Quality and/or Defaults on the Collateral
  - Decline in credit quality of the collateral or defaults could result in losses which would adversely affect the Income Notes and Secured Notes. The Collateral Assets are expected to have a Moody’s weighted average rating of at least A3/A-1 at the Closing Date.
  - There may be certain industry or sector concentrations in the CDO, all of which could have a material adverse impact on the Income Notes in the event of economic downturns or other events affecting the credit quality of any of the collateral.
Risk Factors

- Timing of Receipt of Accrued Interest Income
  - On an ongoing basis, the receipt by the issuer of accrued interest income may affect the availability of cash which may be distributed to the Holders of Secured Notes and Income Notes.

- International Issuing
  - Investing outside the U.S. may involve greater risk which may include (1) less publicly available information, (2) varying levels of governmental regulation and supervision, (3) the difficulty of enforcing legal rights in a foreign jurisdiction and uncertainties as to the status, interpretation and application of laws, (4) less stringent accounting practices, (5) different disposal and settlement procedures, (6) economic and political conditions and instability, (7) exchange control and foreign currency risk, (8) insolvency and (9) expiration risk.
  - A portion of the Collateral Assets may consist of obligations of an issuer organized under the laws of the Bahamas, Bermuda, the Cayman Islands, the Channel Islands, the Netherlands Antilles or other jurisdictions offering favorable tax treatment.

- Tax Treatment of Income Notes
  - Since the issuer will be a passive foreign investment company, a U.S. person holding Income Notes may be subject to additional taxes unless it elects to treat the issuer as a qualified investing fund and to recognize currently its proportionate share of the issuer’s income. The income notes will be treated as equity for tax purposes.
  - Income Notes holders should consult their tax advisors about the special U.S. tax regimes that apply to shareholders of passive foreign investment companies, controlled foreign corporations and foreign personal holding companies.

- Material Tax Considerations
  - There is a possibility that the issuer will be engaged in a U.S. trade or business. In such a case, it would be subject to substantial U.S. income tax on its income.

Confidential Treatment Requested by Goldman Sachs
Risk Factors

1. Hypothetical Illustrations and Estimates
   - Estimates of the weighted average lives of the Class A, B, C, D and E Notes and the returns and duration of the income notes included herein, together with any other hypothetical illustrations and estimates provided to prospective purchasers of the Class A, B, C, D and E Notes, are forward-looking statements. See "Hypothetical Illustrations and Pro Forma Information" on disclaimer page in the beginning of this book.
   - The hypothetical illustrations are only estimates. Actual results may vary, and the variations may be material. See "Hypothetical Illustrations and Pro Forma Information" on disclaimer page in the beginning of this book.

2. Yield Due to Prepayments
   - The yield to maturity on the Income Notes could be affected by the rate of prepayment of the Collateral Assets. Payments to the Income Notes at a rate slower than the rate anticipated by investors purchasing the Income Notes at a discount will result in an actual yield that is lower than anticipated by such investors. Conversely, payments to the Income Notes at a rate faster than the rate anticipated by investors purchasing the Income Notes at a premium will result in an actual yield that is lower than anticipated by such investors.

3. Changes in Tax Laws
   - The Collateral Assets are not permitted to be subject to withholding tax at the time of purchase, unless the issuer thereof is required to make "gross-up" payments. There can be no assurance that, as a result of any change in any applicable law, treaty, rule or regulation or interpretation thereof, the payments on the collateral might not in the future become subject to withholding tax which could adversely affect the amounts that would be available to make payments on the Income Notes and Secured Notes.
   - In case of a Withholding Tax Event (as defined in the Offering Circular), holders of more than 50% of any affected note may require the issuer to equalize the collateral or any Payment Date and redeem the Class A, B, C, D and E Notes, prior to any distributions to holders of Income Notes.

Confidential Treatment Requested by Goldman Sachs
Hudson Mezzanine Funding 2006-1
Transaction Overview

- Hudson CDO program was developed by Goldman Sachs in 2006 to create a consistent, programmatic approach to invest in attractive relative value opportunities in the RMBS and structured product market.
- We successfully launched Hudson High Grade in September. This is a continuation of the program using mezzanine quality RMBS.
- Hudson CDOs are non-managed and static in nature and provide term non-recourse funding where Goldman Sachs acts as Liquidation Agent on an ongoing basis.
- The portfolio composition of Hudson Mezzanine Funding 2006-1 will consist of 100% CDS on RMBS:
  - 60% of the RMBS will be single name CDS on all 40 obligors in ABX 2006-1 and ABX 2006-2
  - 40% of the RMBS will consist of single name CDS on 2005 and 2006 vintage RMBS.
- ABX Bear and Bear Tranches trade approximately 300bps wider than the single name CDS on the 40 obligors representing the ABX.
- Hudson Funding will capture this basis arbitrage and the single name CDS will be put in at current ABX market levels. Term non-recourse execution of Hudson will lock in the arbitrage for the benefit of debt and equity investors.
- Goldman Sachs has aligned incentives with the Hudson program by investing in a portion of equity and playing the ongoing role of Liquidation Agent. The Liquidation Agent will be responsible for efficiently selling credit risk assets.
Hudson Mezzanine Funding 2006-1, LTD
Transaction Overview

- Super Seniors have been executed with one large, sophisticated Wall Street investor in unfunded form
- This is a typical CASHFLOW CDO with OIC triggers. This is NOT a tranchted Index CDO
- Goldman Sachs, in the role of Liquidation Agent, will:
  - Warehouse assets during the portfolio aggregation phase prior to closing
  - Liquidate any asset within one year after such asset performs below certain threshold levels determined prior to closing
- Goldman Sachs expects to invest in a portion of the income notes
- Goldman Sachs' objective is to develop a long term association with selected partners that can adapt to and take advantage of market opportunities
  - The goal is to create attractive proprietary investments by leveraging expertise of both Goldman Sachs CDO and Mortgage Dexks while maintaining a consistent approach and creating a unified issuance program across multiple transactions
Hudson Mezzanine Funding 2006-1, LTD
Transaction Overview

- Hudson Funding is a "static" mezzanine structured product CDO with the following features:
  - No exposure to reinvestment spread risk or reliance on reinvestment to generate excess interest to cover debt
  - No fixed rate assets
  - 100% RMBS
  - No assets without an initial rating of at least Baa3 by Moody's or BBB- by S&P. Average WARF in the portfolio is expected to be 485
  - Overall transaction cost structure is significantly less than comparable mezzanine structured product CDOs in the market

- There will be no reinvestment, substitution, discretionary trading or discretionary sales. After closing, assets that are determined to be "credit risk" securities will be sold by the Liquidation Agent within one year of such determination

- Goldman Sachs will act as Structuring, Placement and Liquidation Agent for Hudson Funding and will warehouse the portfolio prior to closing
  - Goldman Sachs will charge 10 bps ongoing fee for its role as Liquidation Agent

- Goldman Sachs' portfolio selection process:
  - Assets sourced from the Street. Hudson Funding is NOT a Balance Sheet CDO
  - Goldman Sachs CDO desk pre-screens and evaluates non ABE related assets for portfolio suitability
  - Goldman Sachs CDO desk reviews individual assets in conjunction with respective mortgage trading desks (Subprime, Midprime, Prime, etc.) and makes decision to add or decline
  - All CDOs use rating agency approved criteria (as you go)

Confidential Treatment Requested by Goldman Sachs
Hudson Mezzanine Funding 2006-1, LTD
Transaction Overview - Asset Selection / Asset Liquidation

- Portfolio Aggregation Strategy:
  - 60% of portfolio will consist of the 40 obligors in ABX 2006-1 and ABX 2006-2
  - Select only assets rated explicitly Baa3/BBB+ (Moody's / S&P) and above. No notched rating of below Baa3 in the portfolio
  - No Fixed rate assets allowed decreasing interest rate swap basis mismatch
  - Maximum obligor concentration is 1.5% creating a very granular portfolio with 100 distinct obligors
  - Target portfolio with Weighted Average Rating Factor of 485 and duration weighted average spread of 184 bps

- Goldman Sachs, as Liquidation Agent, will liquidate any asset determined to be a "credit risk" asset within 12 months of such determination. "Credit risk" assets will include:
  - Any asset downgraded by Moody's or S&P to below Baa3 or B1-
  - Any asset that is defaulted or would be experiencing a credit event as defined by the PAUG confirm

- Expected collateral quality statistics at closing:
  - WARF: 485
  - Moody's Asset Correlation ("MAC") at closing: 23%
  - Duration weighted average portfolio spread: 184 bps
  - Weighted Average Duration: 4.9 years

#### Transaction Overview

Hudson Mezzanine CDO is a pure RMBS CDO and will look very different than most mezzanine deals currently in the market. Hudson will have note of the following:

- CDO bucket
- Negative convexity product (fixed rate RMBS)
- BB bucket

<tr>
<td>Income Notes</td>
<td>4.25%</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- LIBOR rates are based on the forward curve as of September 1, 2008.
- The deal's amortizing interest rate is put into place on the Closing Date.
- The Closing Date is November 1, 2008, and the first Payment Date on the Class A and B Notes is February 2, 2007 and the first Payment Date on the Class C and D Notes and Income Notes is March 2, 2007.
- The CDO is 100% invested on the Closing Date.
- Collateral average coupon and spread in each period was calculated based on the weighted average expected coupon and spread on each collateral asset outstanding during such period.
- Coupon, margin over LIBOR, and fixed and floating rate percentages listed above are based on composition of actual warehouse assets as of September 1, 2008.

Confidential Treatment Requested by Goldman Sachs
Modeling Assumptions

Assumptions applicable to modeling runs (there can be no assurance that the transection will reflect these assumptions):

- Expenses are paid at the end of each period at 0.91% per annum of the outstanding collateral balance. Analysis also includes, among other things, subordination fees, servicing fees, underwriting fees and upfront legal plus other expenses totaling approximately 1% of the total collateral pool payable upfront and 1% of the outstanding collateral pool payable ongoing.
- Any payments received in CDO payment month are paid in that same applicable payment period.
- Any late proceeds and scheduled and unscheduled principal proceeds will be used, first, to redeem the Class A Notes until the Class A Note Target Overcollateralization Ratio is met; second, to redeem the Class B Notes until the Class B Note Target Overcollateralization Ratio is met; third, to redeem the Class C Notes until the Class C Note Target Overcollateralization Ratio is met and then will be paid to the Class D Notes.
- Pro-rata payments among classes is assumed once the Target Overcollateralization levels are met unless defaults reduce Overcollateralization Ratios below Target Overcollateralization levels or the collateral balance falls below $450mm.
- After earned interest (excluding interest on delinquent and capitalized interest is paid, the Class D Notes receive a scheduled principal payment (the "Class D Authorizing Principal Payment") equal to $75,000 per quarter for the first 12 months and $50,000 per quarter thereafter.
- OCC Test Levels: Class A/B – 101.5% made on the 2nd of each month, and all collateral payments are assumed to be received 7.5 days prior to each payment.
- While held in cash, all interest and principal receipts are assumed to earn a per annum rate of 1% LIBOR minus 0.25%
- No trading gains or call premiums are assumed.
- Defaults, if applicable, start 12 months after issuance and default rate is assumed to be a percentage of outstanding collateral, unless otherwise specified.
- Recoveries are assumed immediately upon default at a 5% recovery rate.

Potential investors should review the definitive Offering Circular relating to the Notes, including the descriptions of Risk Factors contained in each Offering Circular prior to making a decision to invest in the Notes. The definitive Offering Circular will supersede this document in its entirety.

Subject: RE: Hudson Mezz

I have attached the marketing book and term sheet as it currently stands (still updating stress runs)

Would appreciate any feedback/comments you have on this because it discusses the current CDO and more importantly what our desk's strategy is with Hudson program for the future. Be interested in getting everyone's color.

I am in the office tomorrow so can talk then or whenever you get a chance can reach me on my cell (646) 326-9316.

Subject: ABS 090

I am concerned that the levels we put on the ABS 090 for single-a and triple-ba do not compare favorably with the single-a off of a abs 1 - abs 2 trade.

We need a good story as to why we think the risk is different.
ISDA.
International Swap Dealers Association, Inc.

MASTER AGREEMENT

dated as of December 1, 2006

among
GOLDMAN SACHS INTERNATIONAL and HUDSON MEZZANINE FUNDING 2006-1, LTD.

have entered into an agreement to enter into one or more transactions (each a "Transaction") that are or will be governed by this Master Agreement, which includes the Schedule (the "Schedule"), and the documents and other confirming evidence (each a "Confirmation") exchanged between the parties confirming those Transactions.

Accordingly, the parties agree as follows:

1. Interpretation
(a) Definitions. The terms defined in Section 14 and in the Schedule will have the meanings therein specified for the purpose of this Master Agreement.

(b) Inconsistencies. In the event of any inconsistency between the provisions of the Schedule and the other provisions of this Master Agreement, the Schedule will prevail. In the event of any inconsistency between the provisions of any Confirmation and this Master Agreement (including the Schedule), such Confirmation will prevail for the purpose of the relevant Transaction.

(c) Single Agreement. All Transactions are entered into in reliance on the fact that this Master Agreement and all Confirmations form a single agreement between the parties (collectively referred to as this "Agreement"), and the parties would not otherwise enter into any Transactions.

2. Obligations
(a) General Conditions.
(i) Each party will make each payment or delivery specified in each Confirmation to be made by it, subject to the other provisions of this Agreement.

(ii) Payments under this Agreement will be made on the due date for value on or before the date in the middle of the week in which the payment is due, or at such later date as is specified in the relevant Confirmation or otherwise pursuant to this Agreement, in freely transferable funds and in the manner customary for payments in the required currency. Where settlement is by delivery (that is, other than by payment), such delivery will be made for receipt on the due date in the manner customary for the relevant obligation unless otherwise specified in the relevant Confirmation or elsewhere in this Agreement.

(iii) Each obligation of each party under Section 200(c) is subject to (1) the condition precedent that no Event of Default or Potential Event of Default with respect to the other party has occurred and is continuing, (2) the condition precedent that no Early Termination Date in respect of the relevant Transaction has occurred or been effectively designated and (3) each other applicable condition precedent specified in this Agreement.

Confidential Treatment Requested by GS MBS-E-021822056
Footnote Exhibits - Page 4235

(b) Change of Account. Either party may change its account for receiving a payment or delivery by giving notice to the other party at least five Local Business Days prior to the scheduled date for the payment or delivery to which such change applies unless such other party gives timely notice of a reasonable objection to such change.

(c) Netting. If on any date amounts would otherwise be payable:

(i) in the same currency; and

(ii) in respect of the same Transaction,

by each party to the other, then on such date, each party’s obligation to make payment of any such amount will be automatically satisfied and discharged and, if the aggregate amount that would otherwise have been payable by one party exceeds the aggregate amount that would otherwise have been payable to the other party, replaced by an obligation upon the party by whom the larger aggregate amount would have been payable to pay the other party the excess of the larger aggregate amount over the smaller aggregate amount.

The parties may elect in respect of two or more Transactions that a net amount will be determined in respect of all amounts payable on the same date in the same currency in respect of such Transactions, regardless of whether such amounts are payable in respect of the same Transaction. The election may be made in the Schedule or a Confirmation by specifying that subparagraph (ii) above will not apply to the Transactions identified as being subject to the election, together with the starting date (in which case subparagraph (ii) above will not, or will cease to, apply to such Transactions from such date). This election may be made separately for different groups of Transactions and will apply separately to each pairing of Offices through which the parties make and receive payments or deliveries.

(d) Deduction or Withholding for Tax.

(1) Gross-Up. All payments under this Agreement will be made without any deduction or withholding for or on account of any Tax unless such deduction or withholding is required by any applicable law, as modified by the practice of any relevant governmental revenue authority, then in effect. If a party is so required to deduct or withhold, then that party (“X”) will:

(1) promptly notify the other party (“Y”) of such requirement;

(2) pay to the relevant authorities the full amount required to be deducted or withheld (including the full amount required to be deducted or withheld from any additional amount paid by X to Y under this Section 2(d)) promptly upon the failure of determining that such deduction or withholding is required or receipt notice that such amount has been assessed against Y;

(3) promptly forward to Y an official receipt (or a certified copy), or other documentation reasonably acceptable to Y, evidencing such payment to such authorities; and

(4) if such Tax is an Indemnifiable Tax, pay to Y, in addition to the payment to which Y is otherwise entitled under this Agreement, such additional amount as is necessary to ensure that the net amount actually received by Y (free and clear of Indemnifiable Taxes, whether assessed against X or Y) will equal the full amount X would have received had no such deduction or withholding been required. However, X will not be required to pay any additional amount to Y to the extent that it would not be required to be paid but for—

(A) the failure by Y to comply with or perform any agreement contained in Section 4(b)(ii), 4(b)(iii) or 4(d); or

(B) any breach of a representation made by Y pursuant to Section 3(2) to be accurate and true unless such failure would not have occurred but for (i) any action taken by a taxing authority, or brought in a court of competent jurisdiction, on or after the date on which a Transaction is entered into (regardless of whether such action is taken or brought with respect to a party to this Agreement) or (ii) a Change in Tax Law.

ISDA 1992

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822057
Footnote Exhibits - Page 4236

(6) Liability. If —

(1) X is required by any applicable law, as modified by the practice of any relevant governmental revenue authority, to make any deduction or withholding in respect of which X would not be required to pay an additional amount to Y under Section 2(6)(XIV);

(2) X does not so deduct or withhold; and

(3) a liability resulting from such Tax is assessed directly against X.

then, except to the extent Y has satisfied or will satisfy the liability resulting from such Tax, Y will promptly pay to X the amount of such liability (including any related liability for interest, but excluding any related liability for penalties only if Y has failed to comply with or perform any agreement contained in Section 4(4)(ii), 4(4)(vii) or 4(6).

(e) Default Interest; Other Amounts. Prior to the occurrence or effective designation of an Early Termination Date in respect of the relevant Transaction, a party that defaults in the performance of any payment obligation will, to the extent permitted by law and subject to Section 6(c), be required to pay interest (before as well as after judgment) on the overdue amount to the other party on demand in the same currency as such overdue amount, for the period from (and including) the original due date for payment to (but excluding) the date of actual payment, at the Default Rate. Such interest will be calculated on the basis of daily compounding and the actual number of days elapsed. If, prior to the occurrence or effective designation of an Early Termination Date in respect of the relevant Transaction, a party defaults in the performance of any obligation required to be satisfied by delivery, it will compensate the other party on demand if and to the extent provided for in the relevant Confirmation or elsewhere in this Agreement.

3. Representations

Each party represents to the other party (which representations will be deemed to be repeated by each party on each date on which a Transaction is entered into and, in the case of the representations in Section 3(f), at all times until the termination of this Agreement) that —

(a) Basic Representations.

(i) Status. It is duly organized and validly existing under the laws of the jurisdiction of its organization or incorporation and, if relevant under such laws, in good standing;

(ii) Power. It has the power to execute this Agreement and any other document relating to this Agreement to which it is a party, to deliver this Agreement and any other document relating to this Agreement that it is required by this Agreement to deliver and to perform its obligations under this Agreement and any obligations it has under any Credit Support Document to which it is a party and has taken all necessary action to authorize such execution, delivery and performance;

(iii) No Violation or Conflict. Such execution, delivery and performance do not violate or conflict with any law applicable to it, any provision of its constitutional documents, any order or judgment of any court or other agency of government applicable to it or any of its assets or any contractual restriction binding on or affecting it or any of its assets;

(iv) Consents. All governmental and other consents that are required to have been obtained by it with respect to this Agreement or any Credit Support Document to which it is a party have been obtained and are in full force and effect and all conditions of any such consents have been complied with; and

(v) Obligations Binding. Its obligations under this Agreement and any Credit Support Document to which it is a party constitute its legal, valid and binding obligations, enforceable in accordance with their respective terms (subject to applicable bankruptcy, reorganization, insolvency, moratorium or similar laws affecting creditors' rights generally and subject, as to enforceability, to equitable principles of general application (regardless of whether enforcement is sought in a proceeding in equity or at law)).
Footnote Exhibits - Page 4237

(b) **Absence of Certain Events.** No Event of Default or Potential Event of Default or, to its knowledge, Termination Event with respect to it has occurred and is continuing and no such event or circumstance would occur as a result of its entering into or performing its obligations under this Agreement or any Credit Support Document to which it is a party.

(c) **Absence of Litigation.** There is no pending or, to its knowledge, threatened against it or any of its Affiliates any action, suit or proceeding at law or in equity or before any court, tribunal, governmental body, agency or official or any proceeding that is likely to affect the legality, validity or enforceability against it of any of this Agreement or any Credit Support Document to which it is a party or its ability to perform its obligations under this Agreement or any Credit Support Document.

(d) **Accuracy of Specified Information.** All applicable information that is furnished in writing by or on behalf of it to the other party and is identified for the purpose of this Section 3(C) in the Schedule is, as of the date of the information, true, accurate and complete in each material respect.

(e) **Paper Tax Representation.** Each representation specified in the Schedule as being made by it for the purpose of this Section 3(D) is accurate and true.

(f) **Paper Tax Representations.** Each representation specified in the Schedule as being made by it for the purpose of this Section 3(D) is accurate and true.

4. **Agreements.**

Each party agrees with the other that, so long as either party has or may have any obligation under this Agreement or under any Credit Support Document to which it is a party —

(a) **Furnish Specified Information.** It will deliver to the other party or, in certain cases under subparagraph (iii) below, to such government or taxing authority as the other party reasonably directs—

(i) any forms, documents or certificates relating to taxation specified in the Schedule or any Confirmation;

(ii) any other documents specified in the Schedule or any Confirmation; and

(iii) upon reasonable demand by such other party, any form or document that may be required or reasonably requested in writing in order to allow such other party or its Credit Support Provider to make a payment under this Agreement or any applicable Credit Support Document without any deduction or withholding for or on account of any Tax or with such deduction or withholding at a reduced rate (so long as the completion, execution or submission of such form or document would not materially prejudice the legal or commercial position of the party in receipt of such demand), with any such form or document to be accurate and completed in a manner reasonably satisfactory to such other party and to be executed and/or delivered with any reasonably required certification, in each case by the date specified in the Schedule or such Confirmation or, if none is specified, as soon as reasonably practicable.

(b) **Maintain Authorities.** It will use all reasonable efforts to maintain in full force and effect all consents of any governmental or other authority that are required to be obtained by it with respect to this Agreement or any Credit Support Document to which it is a party and will use all reasonable efforts to obtain any that may become necessary in the future.

(c) **Comply with Laws.** It will comply in all material respects with all applicable laws and orders to which it may be subject if failure to so comply would materially impair its ability to perform its obligations under this Agreement or any Credit Support Document to which it is a party.

(d) **Tax Agreement.** It will give notice of any failure of a representation made by it under Section 3(D) to be accurate and true promptly upon learning of such failure.

(e) **Payment of Stamp Tax.** Subject to Section 11, it will pay any Stamp Tax levied or imposed upon it or in respect of its execution or performance of this Agreement by a jurisdiction in which it is incorporated.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822059
organized, managed and controlled, or considered to have its seat, or in which a branch or office through which it is acting for the purpose of this Agreement is located ("Stamp Tax Jurisdiction") and will indemnify the other party against any Stamp Tax levied or imposed upon the other party or in respect of the other party's execution or performance of this Agreement by any such Stamp Tax jurisdiction which is not also a Stamp Tax Jurisdiction with respect to the other party.

5. Events of Default and Termination Events

(a) Event of Default. The occurrence at any time with respect to a party or, if applicable, any Credit Support Provider of such party or any Specified Entity of such party of any of the following events constitutes an event of default (an "Event of Default") with respect to such party:

(i) Failure to Pay or Deliver. Failure by the party to make, when due, any payment under this Agreement or delivery under Section 3(c)(1) or 3(c) required to be made by it if such failure is not remedied on or before the third Local Business Day after notice of such failure is given to the party;

(ii) Breach of Agreement. Failure by the party to comply with or perform any agreement or obligation (other than an obligation to make any payment under this Agreement or delivery under Section 3(c)(1) or 3(c)) or to give notice of a Termination Event or any agreement or obligation under Section 4(d)(i), 4(d)(ii) or 4(d)(iii) to be complied with or performed by the party in accordance with this Agreement if such failure is not remedied on or before the third Local Business Day after notice of such failure is given to the party;

(iii) Credit Support Default. If (1) Failure by the party or any Credit Support Provider of such party to comply with or perform any agreement or obligation to be complied with or performed by it in accordance with any Credit Support Document if such failure is continuing after any applicable grace period has elapsed; (2) the expiration or termination of such Credit Support Document or the failing or ceasing of such Credit Support Document to be in full force and effect for the purpose of this Agreement (in either case other than in accordance with its terms) prior to the satisfaction of all obligations of such party under each Transaction to which such Credit Support Document relates without the written consent of the other party; or (3) the party or such Credit Support Provider disavows, disclaims, repudiates or rejects, in whole or in part, or challenges the validity of, such Credit Support Document;

(iv) Misrepresentation. A representation (other than a representation under Section 3(a) or (f)) made or repeated or deemed to have been made or repeated by the party or any Credit Support Provider of such party in this Agreement or any Credit Support Document proves to have been incorrect or misleading in any material respect when made or repeated or deemed to have been made or repeated;

(v) Default under Specified Transaction. The party, any Credit Support Provider of such party or any applicable Specified Entity of such party (1) defaults under a Specified Transaction and, after giving effect to any applicable notice requirement or grace period, there occurs a liquidation of, an acceleration of obligations under, or an early termination of, such Specified Transaction; (2) defaults, after giving effect to any applicable notice requirement or grace period, in making any payments or delivery due on the last payment, delivery or exchange date of, or any payment on early termination of, a Specified Transaction (or such default continues for at least three Local Business Days if there is no applicable notice requirement or grace period) or (3) disavows, disclaims, repudiates or rejects, in whole or in part, a Specified Transaction (or such action is taken by any person or entity appointed or empowered to operate it or act on its behalf);

(vi) Cross Default. If "Cross Default" is specified in the Schedule or applying to the party, the occurrence or existence of (1) a default, event of default or other similar condition or event, however
described in respect of such party, any Credit Support Provider of such party or any applicable Specified Entity of such party under one or more agreements or instruments relating to Specified Indebtedness of any of them (individually or collectively) in an aggregate amount of not less than the applicable Threshold Amount (as specified in the Schedule) which has resulted in such Specified Indebtedness becoming, or becoming capable at such time of being declared, due and payable under such agreements or instruments, before it would otherwise have been due and payable or (ii) a default by such party, such Credit Support Provider or such Specified Entity (individually or collectively) in making one or more payments or the due date thereof in an aggregate amount of not less than the applicable Threshold Amount under such agreements or instruments (after giving effect to any applicable notice requirement or grace period);

(viii) Bankruptcy. The party or any Credit Support Provider of such party or any applicable Specified Entity of such party:

1. is dissolved (other than pursuant to a consolidation, amalgamation or merger);
2. becomes insolvent or is unable to pay its debts or fails or admits in writing its inability generally to pay its debts as they become due;
3. makes a general assignment, arrangement or composition with or for the benefit of its creditors;
4. institutes or has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors’ rights, or a petition is presented for its winding-up or liquidation, and, in the case of any such proceeding or petition instituted or presented against it, such proceeding or petition (A) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (B) is not dismissed, discharged, stayed or restrained in each case within 30 days of the institution or presentation thereof; (C) has a resolution passed for its winding-up, official management or liquidation (other than pursuant to a consolidation, amalgamation or merger);
6. seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for or for all or substantially all its assets; (D) has a secured party take possession of all or substantially all its assets or has a distress, execution, attachment, remuneration or other legal process levied, enforced or used or against all or substantially all of its assets and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained, in each case within 30 days thereafter; (E) ceases or is subject to any event with respect to it which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in clauses (1) to (7) (inclusive); or (F) takes any action in furtherance of, or indicating its consent to, approval of, or acquiescence in, any of the foregoing acts; or

(viii) Merger Without Assumption. The party or any Credit Support Provider of such party consolidates or amalgamates with, or merges with or into, or transfers all or substantially all its assets to, another entity and, at the time of such consolidation, amalgamation, merger or transfer:

1. the resulting, surviving or transferee entity fails to assume all the obligations of such party or such Credit Support Provider under this Agreement or any Credit Support Document to which it or its predecessor was a party by operation of law or pursuant to an agreement reasonably satisfactory to the other party to this Agreement; or
2. the benefits of any Credit Support Document fail to extend (without the consent of the other party) to the performance by such resulting, surviving or transferee entity of its obligations under this Agreement.

Termination Event. The occurrence at any time with respect to a party or, if applicable, any Credit Support Provider of such party or any Specified Entity of such party of any event specified below constitutes an Event of Default if the event is specified in (i) below, a Tax Event if the event is specified in (ii) below or a Tax Event Upon Merger if the event is specified in (iii) below, and, if specified to be applicable, a Credit Event Upon Merger:

1. an event specified in (i) below, a Tax Event if the event is specified in (ii) below or a Tax Event Upon Merger if the event is specified in (iii) below, and, if specified to be applicable, a Credit Event Upon Merger:

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822061
Footnote Exhibits - Page 4240

Upon Merger if the event is specified pursuant to (v) below or in Additional Termination Event if the event is specified pursuant to (v) below—

(i) Illegality. Due to the adoption of, or any change in, any applicable law after the date on which a Transaction is entered into, or due to the promulgation of, or any change in, the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law after such date, it becomes unlawful (other than as a result of a breach by the party of Section 4(h)) for such party (which will be the Affected Party) —

(1) to perform any absolute or contingent obligation to make a payment or delivery or to receive a payment or delivery in respect of such Transaction or to pay or deliver any other consideration, provision of this Agreement relating to such Transaction; or

(2) to perform, or for any Credit Support Provider of such party to perform, any contingent or other obligation which the party (or such Credit Support Provider) has under any Credit Support Document relating to such Transaction;

(ii) Tax Event. Due to (a) any action taken by a taxing authority, or brought in a court of competent jurisdiction, on or after the date on which a Transaction is entered into (regardless of whether such action is taken or brought with respect to a party to this Agreement) or (b) a Change in Tax Law, the party (which will be the Affected Party) will, or there is a substantial likelihood that it will, on the next succeeding Scheduled Payment Date (1) be required to pay to the other party an additional amount in respect of an Indemnifiable Tax under Section 2(6)(X)(F) (except in respect of interest under Section 2(6)(X)(F) or 6(x)) or (2) receive a payment from which an amount is required to be deducted or withheld for or on account of a Tax (except in respect of interest under Section 2(6)(X)(F) or 6(x)) and no additional amount is required to be paid in respect of such Tax under Section 2(6)(X)(F) (other than by reason of Section 2(6)(X)(F)(A) or (B));

(iii) Tax Event Upon Merger. The party (the “Schoorted Party”) on the next succeeding Scheduled Payment Date will either (1) be required to pay an additional amount in respect of an Indemnifiable Tax under Section 2(6)(X)(F) (except in respect of interest under Section 2(6)(X)(F) or 6(x)) or (2) receive a payment from which an amount has been deducted or withheld for or on account of any Indemnifiable Tax in respect of which the other party is not required to pay an additional amount (other than by reason of Section 2(6)(X)(F)(A) or (B)), in either case as a result of a party consolidating or amalgamating with, or merging with or into, or transferring all or substantially all its assets to, another entity (which will be the Affected Party) where such action does not constitute an event described in Section 3(2)(A)(i):

(iv) Credit Event Upon Merger. If "Credit Event Upon Mergers" is specified in the Schedule as applying to, the party, such party ("X"), any Credit Support Provider of X or any applicable Specified Entity of X consolidates or amalgamates with, or merges with or into, or transfers all or substantially all its assets to, another entity and such action does not constitute an event described in Section 3(2)(A)(i) but the conditionality of the resulting, surviving or transferee entity is materially weaker than that of X, such Credit Support Provider or such Specified Entity, as the case may be, shall, immediately prior to such action (and, in such event, X or its successor or transferee, as appropriate, will be the Affected Party);

(v) Additional Termination Event. If any "Additional Termination Event" is specified in the Schedule or any Confirmation as applying, the occurrence of such event (and, in such event, the Affected Party or Affected Parties shall be as specified for such Additional Termination Event in the Schedule or such Confirmation);

(c) Event of Default and Illegality. If an event or circumstance which would otherwise constitute or give rise to an Event of Default also constitutes an Illegality, it will be treated as an Illegality and will not constitute an Event of Default.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021922062
6. Early Termination

(a) Right to Terminate Following Event of Default. If at any time an Event of Default with respect to a party (the "Defaulting Party") has occurred and is then continuing, the other party (the "Non-defaulting Party") may, by not more than 20 days notice to the Defaulting Party specifying the relevant Event of Default, designate a day not earlier than the day such notice is effective as an Early Termination Date in respect of all outstanding Transactions. If, however, "Automatic Early Termination" is specified in the Schedule as applying to a party, then an Early Termination Date in respect of all outstanding Transactions will occur immediately upon the occurrence with respect to such party of an Event of Default specified in Section 5(a)(vii)(A), (B), (C), (D) or (E) to the extent analogous thereto, or, to the extent analogous thereto, (F).

(b) Right to Terminate Following Termination Event.

(i) Notice. If a Termination Event occurs, an Affected Party will, promptly upon becoming aware of it, notify the other party, specifying the nature of the Termination Event and each Affected Transaction and will also give such other information about the Termination Event as the other party may reasonably require.

(ii) Transfer to Avoid Termination Event. If either an illegality under Section 5(a)(ii) or a Tax Event occurs and there is only one Affected Party, or if a Tax Event Upon Merger occurs and the Burdened Party is the Affected Party, the Affected Party will, as a condition to its right to designate an Early Termination Date under Section 6(a)(iv), use all reasonable efforts (which will not require such party to incur a loss, excluding immaterial, incidental expenses) to transfer within 20 days after it gives notice under Section 6(a)(ii) all its rights and obligations under this Agreement in respect of the Affected Transactions to another of its Officers or Affiliates so that such Termination Event ceases to exist.

If the Affected Party is not able to make such a transfer it will give notice to the other party that it will effect within such 20 day period, whenupon the other party may effect such a transfer within 30 days after the notice is given under Section 6(a)(ii).

Any such transfer by a party under this Section 6(a)(ii) will be subject to and conditional upon the prior written consent of the other party, which consent will not be withheld if such other party's policies in effect at such time would permit it to enter into transactions with the transferee on the same terms.

(iii) Two Affected Parties. If an illegality under Section 5(a)(ii) or a Tax Event occurs and there are two Affected Parties, each party will use all reasonable efforts to reach an agreement within 30 days after notice thereof is given under Section 6(a)(ii) on action to avoid the Termination Event.

(iv) Right to Terminate. If:

(1) a transfer under Section 6(a)(ii) or an agreement under Section 6(a)(iii), as the case may be, has not been effected with respect to all Affected Transactions within 30 days after an Affected Party gives notice under Section 6(a)(ii); or

(2) an illegality under Section 5(a)(ii), a Credit Event Upon Merger or an Additional Termination Event occurs, or a Tax Event Upon Merger occurs and the Burdened Party is not the Affected Party,

then the other party may, in the case of an illegality, the Burdened Party in the case of a Tax Event Upon Merger, any Affected Party in the case of a Tax Event, or an Additional Termination Event if there is more than one Affected Party, or the party which is not the Affected Party in the case of a Credit Event Upon Merger or an Additional Termination Event if there is only one Affected Party may, by not more than 20 days notice to the other party and provided that the relevant Termination Event is then
contingent, designate a day not earlier than the day such notice is effective as an Early Termination Date in respect of all Affected Transactions.

(c) **Effect of Designation.**

(i) If notice designating an Early Termination Date is given under Section 6(a) or (b), the Early Termination Date will occur on the date so designated, whether or not the relevant Event of Default or Termination Event is then continuing.

(ii) Upon the occurrence or effective designation of an Early Termination Date, no further payments or deliveries under Section 10(a) or (b) in respect of the Terminated Transactions will be required to be made, but without prejudice to the other provisions of this Agreement. The amount, if any, payable in respect of an Early Termination Date shall be determined pursuant to Section 6(d).

(d) **Calculations.**

(i) **Statement.** On or as soon as reasonably practicable following the occurrence of an Early Termination Date, each party will make the calculations on its part, if any, contemplated by Section 6(c) and will provide to the other party a statement (1) showing, in reasonable detail, such calculations (including all relevant quotations and specifying any amount payable under Section 6(d)) and (2) giving details of the relevant account to which any amount payable to it is to be paid. In the absence of written confirmation from the source of a quotation obtained in determining a Market Quotation, the records of the party obtaining such quotation will be conclusive evidence of the existence and accuracy of such quotation.

(ii) **Payment Date.** An amount calculated as being due in respect of any Early Termination Date under Section 6(d) will be payable on the day the notice of the amount payable is effective (in the case of an Early Termination Date which is designated or occurs as a result of an Event of Default) and on the day which is two Local Business Days after the day on which notice of the amount payable is effective (in the case of an Early Termination Date which is designated as a result of a Termination Event). Such amount will be paid together with (to the extent permitted under applicable Law) interest thereon (before as well as after judgment) in the Terminated Currency, from (and including) the relevant Early Termination Date to (but excluding) the date such amount is paid, at the Applicable Rate. Such interest will be calculated on the basis of daily compounding and the actual number of days elapsed.

(e) **Payments on Early Termination.** If an Early Termination Date occurs, the following provisions shall apply based on the parties' election in the Schedule of a payment measure, either "Market Quotation" or "Loss", and a payment method, either the "First Method" or the "Second Method". If the parties fail to designate a payment measure or payment method in the Schedule, it will be deemed that "Market Quotation" or the "Second Method", as the case may be, shall apply. The amount, if any, payable in respect of an Early Termination Date and determined pursuant to this Section will be subject to any Set-off.

(f) **Events of Default.** If the Early Termination Date results from an Event of Default:

(1) **First Method and Market Quotation.** If the First Method and Market Quotation apply, the Defaulting Party will pay to the Non-defaulting Party the excess, if any, of (A) the sum of the Settlement Amount (determined by the Non-defaulting Party) in respect of the Terminated Transactions and the Terminated Currency Equivalent of the Unpaid Amounts owing to the Non-defaulting Party over (B) the Terminated Currency Equivalent of the Unpaid Amounts owing to the Defaulting Party.

(2) **First Method and Loss.** If the First Method and Loss apply, the Defaulting Party will pay to the Non-defaulting Party, if a positive number, the Non-defaulting Party's Loss in respect of this Agreement.

(3) **Second Method and Market Quotation.** If the Second Method and Market Quotation apply, an amount will be payable equal to (A) the sum of the Settlement Amount (determined by the
Footnote Exhibits - Page 4243

Non-defaulting Party in respect of the Terminated Transactions and the Termination Currency Equivalent of the Unpaid Amounts owing to the Non-defaulting Party less (B) the Termination Currency Equivalent of the Unpaid Amounts owing to the Defaulting Party. If that amount is a positive number, the Defaulting Party will pay it to the Non-defaulting Party; if it is a negative number, the Non-defaulting Party will pay the absolute value of that amount to the Defaulting Party.

(6) Second Method and Loss. If the Second Method and Loss apply, an amount will be payable equal to the Non-defaulting Party’s Loss in respect of this Agreement. If that amount is a positive number, the Defaulting Party will pay it to the Non-defaulting Party; if it is a negative number, the Non-defaulting Party will pay the absolute value of that amount to the Defaulting Party.

(7) Termination Event. If the Early Termination Date results from a Termination Event: —

(1) One Affected Party. If there is one Affected Party, the amount payable will be determined in accordance with Section 6(a)(1)), (if Market Quotations apply, or Section 6(b)(4)), if Loss applies, except that, in either case, references to the Defaulting Party and to the Non-defaulting Party will be deemed to be references to the Affected Party and the party which is not the Affected Party, respectively, and, if Loss applies and fewer than all the Transactions are being terminated, Loss shall be calculated in respect of all Terminated Transactions.

(2) Two Affected Parties. If there are two Affected Parties: —

(A) if Market Quotations apply, each party will determine a Settlement Amount in respect of the Terminated Transactions, and an amount will be payable equal to (i) the sum of (a) one-half of the difference between the Settlement Amount of the party with the higher Settlement Amount (“X”) and the Settlement Amount of the party with the lower Settlement Amount (“Y”) and (b) the Termination Currency Equivalent of the Unpaid Amounts owing to X less (ii) the Termination Currency Equivalent of the Unpaid Amounts owing to Y; and

(B) if Loss applies, each party will determine its Loss in respect of this Agreement or, if fewer than all the Transactions are being terminated, in respect of all Terminated Transactions) and the amount will be payable equal to one-half of the difference between the Loss of the party with the higher Loss (“X”) and the Loss of the party with the lower Loss (“Y”).

If the amount payable is a positive number, Y will pay it to X; if it is a negative number, X will pay the absolute value of that amount to Y.

(iii) Adjustment for Bankruptcy. In circumstances where an Early Termination Date occurs because “Automatic Early Termination” applies in respect of a party, the amount determined under this Section 6(a) will be subject to such adjustments as are appropriate and permitted by law to reflect any payments or deliveries made by one party to the other under this Agreement (and retained by such other party) during the period from the relevant Early Termination Date to the date for payment determined under this Section 6(b).

(iv) Pre-Estimate. The parties agree that if Market Quotations apply or amount receivable under this Section 6(a) is a reasonable pre-estimate of loss and not a penalty. Such amount is payable for the loss of bargain and the loss of protection against future risks and except as otherwise provided in this Agreement neither party will be entitled to recover any additional damages as a consequence of such losses.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822065
7. Transfer
Subject to Section 6(b)(v), whether this Agreement nor any interest or obligation in or under this Agreement may be transferred (whether by way of security or otherwise) by either party without the prior written consent of the other party, except that:

(a) a party may make such a transfer of this Agreement pursuant to a consolidation or amalgamation with, or merger with or into, or transfer of all or substantially all its assets to, another entity (but without prejudice to any other right or remedy under this Agreement); and
(b) a party may make such a transfer of all or any part of its interest in any amount payable to it from a Defaulting Party under Section 6(c).

Any purported transfer that is not in compliance with this Section will be void.

8. Contractual Currency

(a) Payment in the Contractual Currency. Each payment under this Agreement will be made in the relevant currency specified in this Agreement for that payment (the “Contractual Currency”). To the extent permitted by applicable law, any obligation to make payments under this Agreement in the Contractual Currency will not be discharged or satisfied by any tender in any currency other than the Contractual Currency, except to the extent such tender results in the actual receipt by the party to which payment is owed, acting in a reasonable manner and in good faith, in converting the currency so tendered into the Contractual Currency of the full amount in the Contractual Currency of all amounts payable in respect of this Agreement.

If for any reason the amount in the Contractual Currency so received fails short of the amount in the Contractual Currency payable in respect of this Agreement, the party required to make the payment will, to the extent permitted by applicable law, immediately pay such additional amount in the Contractual Currency as may be necessary to compensate for the shortfall. If for any reason the amount in the Contractual Currency so received exceeds the amount in the Contractual Currency payable in respect of this Agreement, the party receiving the payment will refund promptly the amount of such excess.

(b) Judgement. To the extent permitted by applicable law, if any judgment or order expressed in a currency other than the Contractual Currency is rendered (i) for the payment of any amount owing in respect of this Agreement, (ii) for the payment of any amount relating to any early termination in respect of this Agreement or (iii) in respect of a judgment or order of another court for the payment of any amount described in (i) or (ii) above, the party seeking recovery, after recovery in full of the aggregate amount to which such party is entitled pursuant to the judgment or order, will be entitled to receive immediately from the other party the amount of any shortfall of the Contractual Currency received by such party as a consequence of sums paid in such other currency and will refund promptly to the other party any excess of the Contractual Currency received by such party as a consequence of sums paid in such other currency if such shortfall or such excess arises or results from any variation between the rate of exchange at which the Contractual Currency is converted into the currency of the judgment or order for the purposes of such judgment or order and the rate of exchange at which such party is able, acting in a reasonable manner and in good faith in converting the currency received into the Contractual Currency, to purchase the Contractual Currency with the amount of the currency of the judgment or order actually received by such party. The term “rate of exchange” includes, without limitation, any premiums and costs of exchange payable in connection with the purchase or conversion into the Contractual Currency.

(c) Severance Indemnity. To the extent permitted by applicable law, these Indemnities constitute separate and independent obligations from the other obligations in this Agreement, will be enforceable as separate and independent causes of action, and will apply notwithstanding any indulgence granted by the party to which any payment is owed and will not be affected by judgment being obtained, or claim or proof being made, for any other sums payable in respect of this Agreement.

(d) Evidence of Laws. For the purpose of this Section 8, it will be sufficient for a party to demonstrate that it would have suffered a loss had an actual exchange or purchase been made.

9. Miscellaneous
   (a) Entire Agreement. This Agreement constitutes the entire agreement and understanding of the parties with respect to its subject matter and supersedes all oral communication and prior writings with respect thereto.
   (b) Amendment. No amendment, modification or waiver in respect of this Agreement will be effective unless in writing (including a writing evidenced by a facsimile transmission) and executed by each of the parties or confirmed by an exchange of teleax or electronic messages on an electronic messaging system.
   (c) Survival of Obligations. Without prejudice to Sections 2(a)(ii) and 6(c)(ii), the obligations of the parties under this Agreement will survive the termination of any Transaction.
   (d) Remedies Cumulative. Except as provided in this Agreement, the rights, powers, remedies and privileges provided in this Agreement are cumulative and not exclusive of any rights, powers, remedies and privileges provided by law.
   (e) Counterparts and Confirmations.
      (i) This Agreement (and each amendment, modification and waiver in respect of it) may be executed and delivered in counterparts (including by facsimile transmission), each of which will be deemed an original.
      (ii) The parties intend that they are legally bound by the terms of each Transaction from the moment they agree to those terms (whether orally or otherwise). A Confirmation shall be entered into as soon as practicable and may be executed and delivered in counterparts (including by facsimile transmission) or be created by an exchange of teleax or by an exchange of electronic messages on an electronic messaging system, which is in each case will be sufficient for all purposes to evidence a binding supplement to this Agreement. The parties will specify therein or through another effective means that any such counterpart, telex or electronic message constitutes a Confirmation.
   (f) No Waiver of Rights. A failure or delay in exercising any right, power or privilege in respect of this Agreement will not be presumed to operate as a waiver, and a single or partial exercise of any right, power or privilege will not be presumed to preclude any subsequent or further exercise, of that right, power or privilege or the exercise of any other right, power or privilege.
   (g) Headings. The headings used in this Agreement are for convenience of reference only and are not to affect the construction of or to be taken into consideration in interpreting this Agreement.
10. Offices; Multibranch Parties
   (a) If Section 10(a) is specified in the Schedule as applying, each party that enters into a Transaction through an Office other than its head office represents to the other party that, notwithstanding the place of booking office or jurisdiction of incorporation or organization of such party, the obligations of such party are the same as if it had entered into the Transaction through its head office. This representation will be deemed to be repeated by such party on each date on which a Transaction is entered into.
   (b) Neither party may change the Office through which it makes and receives payments or deliveries for the purpose of a Transaction without the prior written consent of the other party.
   (c) If a party is specified as a Multibranch Party in the Schedule, each Multibranch Party may make and receive payments or deliveries under any Transaction through any Office listed in the Schedule, and the Office through which it makes and receives payments or deliveries with respect to a Transaction will be specified in the relevant Confirmation.
11. Expenses
   A Defaulting Party will, on demand, indemnify and hold harmless the other party for and against all reasonable out-of-pocket expenses, including legal fees and Stamp Tax, incurred by such other party by reason of the enforcement and protection of its rights under this Agreement or any Credit Support Document.
to which the Defaulting Party is a party or by reason of the early termination of any Transaction, including, but not limited to, costs of collection.

12. Notices
(a) Effectiveness. Any notice or other communication in respect of this Agreement may be given in any manner set forth below (except that a notice or other communication under Section 5 or 6 may not be given by facsimile transmission or electronic messaging system) to the address or number or in accordance with the electronic messaging system details provided (see the Schedule) and will be deemed effective as indicated:

(i) if in writing and delivered in person or by courier, on the date it is delivered;
(ii) if sent by facsimile transmission, on the date the recipient's facsimile is received;
(iii) if sent by facsimile transmission, on the date that transmission is received by a responsible employee of the recipient in legible form (it being agreed that the burden of proving receipt will be on the sender and will not be met by a transmission report generated by the sender's facsimile machine);
(iv) if sent by certified or registered mail (airmail, if overseas) or the equivalent (return receipt requested), on the date that mail is delivered or its delivery is attempted, or
(v) if sent by electronic messaging system, on the date that electronic message is received, unless the date of delivery (or attempted delivery) or that receipt, as applicable, is not a Local Business Day or that communication is delivered (or attempted) or received, as applicable, after the close of business on a Local Business Day, in which case that communication shall be deemed given and effective on the first following day that is a Local Business Day.

(b) Change of Addresses. Either party may by notice to the other change the address, facsimile number or electronic messaging system details at which notices or other communications are to be given to it.

13. Governing Law and Jurisdiction
(a) Governing Law. This Agreement will be governed by and construed in accordance with the law specified in the Schedule.

(b) Jurisdiction. With respect to any suit, action or proceedings relating to this Agreement ("Proceedings"), each party irrevocably—

(i) submits to the jurisdiction of the English courts, if this Agreement is expressed to be governed by English law, or to the non-exclusive jurisdiction of the courts of the State of New York and the United States District Court located in the Borough of Manhattan in New York City, if this Agreement is expressed to be governed by the laws of the State of New York; and
(ii) waives any objection which it may have at any time to the laying of venue of any Proceedings brought in any such court, waives any claim that such Proceedings have been brought in an inconvenient forum and further waives the right to object, with respect to such Proceedings, that such court does not have any jurisdiction over such party.

Nothing in this Agreement precludes either party from bringing Proceedings in any other jurisdiction (notwithstanding if this Agreement is expressed to be governed by English law, the Contracting States, as defined in Section 1(1) of the Civil Jurisdiction and Judgments Act 1992 or any modification, extension or re-enactment thereof for the time being in force) nor will the bringing of Proceedings in any one or more jurisdictions preclude the bringing of Proceedings in any other jurisdiction.

(c) Service of Process. Each party irrevocably appoints the Process Agent (if any) specified opposite its name in the Schedule to receive, for it and on its behalf, service of process in any Proceedings. If for any
reason any party's Process Agent is unable to act as such, such party will promptly notify the other party and within 30 days appoint a substitute process agent acceptable to the other party. The parties irrevocably consent to service of process given in the manner provided for notices in Section 12. Nothing in this Agreement will affect the right of either party to serve process in any other manner permitted by law.

(d) Waiver of Immunities. Each party irrevocably waives, to the fullest extent permitted by applicable law, with respect to itself and its revenues and assets (irrespective of their use or intended use), all immunity on the grounds of sovereignty or other similar grounds from (i) suits, (ii) jurisdiction of any court, (iii) relief by way of injunction, order for specific performance or for recovery of property, (iv) attachment of its assets (whether before or after judgment) and (v) execution or enforcement of any judgment in which it or its revenues or assets might otherwise be entitled in any Proceedings in the courts of any jurisdiction and irrevocably agrees, to the extent permitted by applicable law, that it will not claim any such immunity in any Proceedings.

14. Definitions

As used in this Agreement:

"Additional Termination Event" has the meaning specified in Section 5(b).

"Affected Party" has the meaning specified in Section 5(b).

"Affected Transaction" means (a) with respect to any Termination Event consisting of an Insolvency Event, Tax Event or Tax Event Upon Merger, all Transactions affected by the occurrence of such Termination Event and (b) with respect to any other Termination Event, all Transactions.

"Affiliate" means, subject to the Schedule, in relation to any person, any entity controlled, directly or indirectly, by the person, any entity that controls, directly or indirectly, the person or any entity directly or indirectly under common control with the person. For this purpose, "control" of any entity or person means ownership of a majority of the voting power of the entity or person.

"Applicable Rate" means:—

(a) in respect of obligations payable or deliverable (or which would have been but for Section 2(a)(iii)) by a Defaulting Party, the Default Rate;

(b) in respect of an obligation to pay an amount under Section 4(c) of either party from and after the date (determined in accordance with Section 6(b)(ii)) on which that amount is payable, the Default Rate;

(c) in respect of all other obligations payable or deliverable (or which would have been but for Section 2(a)(iii)) by a Non-defaulting Party, the Non-default Rate; and

(d) in all other cases, the Termination Rate.

"Burdened Party" has the meaning specified in Section 5(b).

"Change in Tax Law" means the enactment, promulgation, execution or ratification of, or any change in or amendment to, any law (or in the application or official interpretation of any law) that occurs on or after the date on which the relevant Transaction is entered into.

"Consent" includes a consent, approval, action, authorisation, exemption, notice, filing, registration or exchange control consent.

"Credit Event Upon Merger" has the meaning specified in Section 5(b).

"Credit Support Document" means any agreement or instrument that is specified as such in this Agreement.

"Credit Support Provider" has the meaning specified in the Schedule.

"Default Rate" means a rate per annum equal to the cost (without proof or evidence of any actual cost) to the interest payer (as certified by it) if it were to fund or fund the relevant amount plus 1% per annum.
Footnote Exhibits - Page 4248

"Debtor Party" has the meaning specified in Section 6(a).

"Early Termination Date" means the date determined in accordance with Section 6(a) or 6(b)(v).

"Event of Default" has the meaning specified in Section 3(a) and, if applicable, the Schedule.

"Illegality" has the meaning specified in Section 5(h).

"Indemnifiable Tax" means any Tax other than a Tax that would not be imposed in respect of a payment under this Agreement but for a present or former connection between the jurisdiction of the government or taxation authority imposing such Tax and the recipient of such payment or a person related to such recipient (including, without limitation, a connection arising from such recipient or related person being or having been a citizen or resident of such jurisdiction, or being or having been organized, present or engaged in a trade or business in such jurisdiction, or having or having had a permanent establishment or fixed place of business in such jurisdiction, but excluding a connection arising solely from such recipient or related person having executed, delivered, performed its obligations or received a payment under, or referenced, this Agreement or a Credit Support Document).

"law" includes any treaty, law, rule or regulation (as modified, in the case of any relevant government revenue authority) and "shall" and "may" will be construed accordingly.

"Local Business Day" means, subject to the Schedule, a day on which commercial banks are open for business (including dealings in foreign exchange and foreign currency deposits) (a) in relation to any obligation under Section 2(a)(ii) in the place(s) specified in the relevant Confirmation or, if not specified, as otherwise agreed by the parties in writing or determined pursuant to provisions contained, or incorporated by reference, in this Agreement, (b) in relation to any other payment, in the place where the relevant account is located and, if different, in the principal financial centers, if any, of the currency of such payment, (c) in relation to any notice or other communication, including notice contemplated under Section 5(x)(k), in the city specified in the address for notice provided by the recipient and, in the case of a notice contemplated by Section 2(b), in the place where the relevant new account is to be located and (d) in relation to Section 5(x)(k)(j), in the relevant locations for performance with respect to such Specified Transaction.

"Loss" means, with respect to this Agreement or one or more Terminated Transactions, as the case may be, and a party, the Termination Currency Equivalent of an amount that party reasonably determines in good faith to be its total losses and costs (or gains, in which case expressed as a negative number) in connection with the Agreement or the Terminated Transaction or group of Terminated Transactions, as the case may be, including any fees of brokers, cost of funding or, at the election of such party but without duplication, loss or cost incurred as a result of its terminating, liquidating, obtaining or reestablishing any hedge or related trading position (or any gain resulting from any of them), Losses includes losses and costs (or gains) in respect of any payment or delivery required to have been made (assuming satisfaction of all applicable condition precedent) on or before the relevant Early Termination Date and not made, except, so as to avoid duplication, if Section 6(a)(x)(i) or (ii) or 6(b)(6)(x)(A) applies. Loss does not include a party’s legal fees and out-of-pocket expenses referred to under Section 11. A party will determine its Loss as of the relevant Early Termination Date, or, if that is not reasonably practicable, as of the earliest date thereafter as reasonably practicable. A party may (but need not) determine its Loss by reference to quotations of relevant rates or prices from one or more leading dealers in the relevant markets.

"Market Quotations" means, with respect to one or more Terminated Transactions and a party making the determination, an amount determined on the basis of quotations from Reference Market-makers. Each quotation will be for an amount, if any, that would be paid to such party (expressed as a negative number) or by such party (expressed as a positive number) in consideration of an agreement between such party (taking into account any existing Credit Support Document with respect to the obligations of such party) and the quoting Reference Market-maker to enter into a transaction (the "Replacement Transaction") that would have the effect of preserving for such party the economic equivalent of any payment or delivery (whether the underlying obligation was absolute or contingent and assuming the satisfaction of each applicable condition precedent) by the parties under Section 2(a) in respect of each Terminated Transaction or group of Terminated Transactions that would, but for the occurrence of the relevant Early Termination Date, have
been required after that date. For this purpose, Unpaid Amounts in respect of the Terminated Transaction or group of Terminated Transactions are to be excluded but, without limitation, any payment or delivery that would, but for the relevant Early Termination Date, have been required (assuming satisfaction of each applicable condition precedent) after the Early Termination Date is to be included. The Replacement Transaction would be subject to such documentation as each party and the Reference Market-maker may, in good faith, agree. The party making the determination (or its agent) will request each Reference Market-maker to provide its quotation to the extent reasonably practicable as of the same day and time (without regard to different time zones) on or as soon as reasonably practicable after the relevant Early Termination Date. The day and time as of which these quotations are to be obtained will be selected in good faith by the party obliged to make a determination under Section 6(a), and, if such party is so obliged, after consultation with the other. If more than three quotations are provided, the Market Quotation will be the arithmetic mean of the quotations, without regard to the quotations having the highest and lowest values. If exactly three such quotations are provided, the Market Quotation will be the quotation remaining after disregarding the highest and lowest quotations. For this purpose, if more than one quotation has the same highest value or lowest value, then one of such quotations shall be disregarded. If fewer than three quotations are provided, it will be deemed that the Market Quotation in respect of such Terminated Transaction or group of Terminated Transactions cannot be determined.

"Non-defaulting Rate" means a rate per annum equal to the cost (without proof or evidence of any actual cost) to the Non-defaulting Party (as certified by it) if it were to fund the relevant amount.

"Non-defaulting Party" has the meaning specified in Section 6(a).

"Office" means a branch or office of a party, which may be such party’s head or home office.

"Potential Event of Default" means any event (which, with the giving of notice or the lapse of time or both, would constitute an Event of Default).

"Reference Market-maker" means four leading dealers in the relevant market selected by the party determining the Market Quotation in good faith (a) from among dealers of the highest credit standing which satisfy all the criteria that such party applies generally at the time in deciding whether to offer or to make an extension of credit and (b) is the extent practicable, from among such dealers having an office in the same city.

"Relevant Jurisdiction" means, with respect to a party, the jurisdictions (a) in which the party is incorporated, organized, managed and controlled or considered to have its seat, (b) where an Office through which the party is acting for purposes of this Agreement is located, (c) in which the party executes this Agreement and (d) in relation to any payment, from or through which such payment is made.

"Scheduled Payment Date" means a date on which a payment or delivery is to be made under Section 2(b)(ii) with respect to a Transaction.

"Set-off" means set-off, offset, combination of accounts, right of retention or withholding or similar right or requirement to which the payer of an amount under Section 6 is entitled or subject (whether arising under this Agreement, another contract, applicable law or otherwise) that is exercised by, or imposed on, such payer.

"Settlement Amount" means, with respect to a party and any Early Termination Date, the sum of:

(a) the Termination Currency Equivalent of the Market Quotations (whether positive or negative) for each Terminated Transaction or group of Terminated Transactions for which a Market Quotation is determined; and

(b) such party’s Loss (whether positive or negative and without reference to any Unpaid Amounts) for each Terminated Transaction or group of Terminated Transactions for which a Market Quotation cannot be determined or would (in the reasonable belief of the party making the determination) produce a commercially reasonable result.

"Specified Entity" has the meanings specified in the Schedule.

16

ISDAB 1992

GS MBS-E-021822071
Footnote Exhibits - Page 4250

“Specified Indebtedness” means, subject to the Schedule, any obligation (whether present or future, contingent or otherwise, as principal or surety or otherwise) in respect of borrowed money.

“Specified Transaction” means, subject to the Schedule, (a) any transaction (including an agreement with respect thereto) now existing or hereafter entered into between one party to this Agreement (or any Credit Support Provider of such party or any applicable Specified Entity of such party) and the other party to this Agreement (or any Credit Support Provider of such other party or any applicable Specified Entity of such other party) which is a rate swap transaction, basis swap, forward rate transaction, commodity swap, commodity option, equity or equity index swap, equity or equity index option, bond option, interest rate option, foreign exchange transaction, cap transaction, floor transaction, collar transaction, currency swap transaction, cross-currency rate swap transaction, currency option or any other similar transaction (including any option with respect to any of these transactions), (b) any combination of these transactions and (c) any other transaction identified as a Specified Transaction in this Agreement or the relevant confirmation.

“Stamp Tax” means any stamp, registration, documentation or similar tax.

“Tax” means any present or future tax, levy, impost, duty, charge, assessment or fee of any nature (including interest, penalties and additions thereto) that is imposed by any government or other taxing authority in respect of any payment under this Agreement other than a stamp, registration, documentation or similar tax.

“Tax Event” has the meaning specified in Section 10(b).

“Tax Event Upon Merger” has the meaning specified in Section 10(b).

“Terminated Transaction” means with respect to any Early Termination Date (a) if resulting from a Termination Event, all Affected Transactions and (b) if resulting from an Event of Default, all Transactions (in either case) in effect immediately before the effectiveness of the notice designating that Early Termination Date (or, if “Automatic Early Termination” applies, immediately before that Early Termination Date).

“Termination Currency” has the meaning specified in the Schedule.

“Termination Currency Equivalent” means, in respect of any amount denominated in the Termination Currency, such Termination Currency amount and, in respect of any amount denominated in a currency other than the Termination Currency (the “Other Currency”), the amount in the Termination Currency determined by the party making the relevant determination as being required to purchase such amount of such Other Currency at the relevant Early Termination Date, or, if the relevant Market Operation or Loss (in the case may be), is determined as of a later date, that later date, with the Termination Currency at the rate equal to the spot exchange rate of the foreign exchange agent (selected as provided below) for the purchase of such Other Currency with the Termination Currency or about 11:00 a.m. (in the city in which such foreign exchange agent is located) on such date so would be customary for the determination of such a rate for the purchase of such Other Currency for value on the relevant Early Termination Date or that later date. The foreign exchange agent will, if only one party is obliged to make a determination under Section 6(e), be selected in good faith by that party and otherwise will be agreed by the parties.

“Termination Event” means an illegality, a Tax Event or a Tax Event Upon Merger or, if specified to be applicable, a Credit Event Upon Merger or an Additional Termination Event.

“Termination Rate” means a rate per annum equal to the arithmetic mean of the cost (without proof or evidence of any actual cost) to each party (as certified by such party) if it were to fund or of funding such amounts.

“Unpaid Amount” owing to any party means, with respect to an Early Termination Date, the aggregate of (a) in respect of all Terminated Transactions, the amounts that became payable (or that would have become payable but for Section 2(a)(iii) to such party under Section 2(a)(i) on or prior to such Early Termination Date and which remain unpaid as at such Early Termination Date and (b) in respect of each Terminated Transaction, for each obligation under Section 2(a)(ii) which was (or would have been) but for Section 2(a)(iii) required to be settled by delivery to such party on or prior to such Early Termination Date and which has not been so settled as at such Early Termination Date, an amount equal to the face amount

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822072
value of that which was (or would have been) required to be delivered as of the originally scheduled date for delivery, in each case together with (b) the extent permitted under applicable law) interest, in the currency of such amounts, from (and including) the date such amounts or obligations were or would have been required to have been paid or performed to (but excluding) such Early Termination Date, at the Applicable Rate. Such amounts of interest will be calculated on the basis of daily compounding and the actual number of days elapsed. The fair market value of any obligation referred to in clause (b) above shall be reasonably determined by the party obliged to make the determination under Section 10(a)(i), if each party is so obliged, it shall be the average of the Terminations Currency Equivalents of the fair market values reasonably determined by both parties.

IN WITNESS WHEREOF the parties have executed this document on the respective dates specified below with effect from the date specified on the First page of this document.

GS MBS-E-021822074
SCHEDULE

to the
ISDA MASTER AGREEMENT

dated as of
December 1, 2006

between
GOLDMAN SACHS INTERNATIONAL,
a company organized under the law of England and Wales
("GSI"),

and

HUDSON MEZZANINE FUNDING 2006-1, LTD.,
a corporation incorporated under the laws of the Cayman Islands
("Counterparty")

(a) "Specified Entity"

(ii) means, in relation to Counterparty, none for the purpose of Sections 5(a)(v), 5(a)(vi), 5(a)(vii) and 5(b)(iv).

(b) "Specified Transaction". The term "Specified Transaction" in Section 14 of the Agreement is amended in its entirety as follows:

"Specified Transaction" means, subject to the Schedule, (a) any transaction (including an agreement with respect thereto) now existing or hereafter entered into between one party to this Agreement (or any Credit Support Provider of such party or any applicable Specified Entity of such
party) and the other party to this Agreement (or any Credit Support Provider of such other party or any applicable Specified Entity of such other party) (i) which is a rate swap transaction, swap option, basis swap, forward rate transaction, commodity swap, commodity option, commodity spot transaction, equity or equity index swap, equity or equity index option, bond option, interest rate option, foreign exchange transaction, cap transaction, floor transaction, collar transaction, currency swap transaction, cross-currency rate swap transaction, currency option, weather swap, weather derivative, weather option, credit protection transaction, credit swap, credit default swap, credit default option, total return swap, credit spread transaction, repurchase transaction, reverse repurchase transaction, buy/sell-back transaction, securities lending transaction, or forward purchase or sale of a security, commodity or other financial instrument or interest (including any option with respect to any of these transactions) or (ii) which is a type of transaction that is similar to any transaction referred to in clause (i) that is currently, or in the future becomes, recurrently entered into the financial markets (including terms and conditions incorporated by reference in such agreements) and that is a forward, swap, future, option or other derivative on one or more rates, currencies, commodities, equity securities or other equity instruments, debt securities or other debt instruments, or economic indices or measures of economic risk or value, (b) any combination of these transactions and (c) any other transaction identified as a Specified Transaction in this agreement or the relevant confirmation."

(c) The "Breach of Agreement" provisions of Section 5(a)(ii) will not apply to GSI and will not apply to Counterparty.

(d) The "Credit Support Default" provisions of Section 5(a)(iii) will apply to GSI and will apply to Counterparty, but, in respect of Counterparty, shall be amended as follows:

(i) Section 5(a)(iii)(1) shall take effect with the words "relating to payment, delivery of collateral or the establishment or maintenance of, deposit to or withdrawal from the Collateral Account (as defined in the Indenture)" inserted after the words "any agreement or obligation" and by inserting the words "and, for the avoidance of doubt, a default in the payment of any interest on a Class E Note while the Senior Swap or a Class S Note, Class A Note, Class B Note, Class C Note or Class D Note is outstanding or, a default in the payment of any interest on a Class D Note while the Senior Swap or a Class S Note, Class A Note, Class B Note or Class C Note is outstanding or, a default in the payment of any interest on a Class C Note while the Senior Swap or a Class S Note, Class A Note or Class B Note is outstanding will not constitute a "Credit Support Default" hereunder" at the end of such Section 5(a)(iii)(1).
(e) The "Misrepresentation" provisions of Section 5(a)(iv) will not apply to GSI and will not apply to the Counterparty.

(f) The "Default Under Specified Transaction" provisions of Section 5(a)(v) will not apply to GSI and will not apply to the Counterparty.

(g) The "Cross Default" provisions of Section 5(a)(vi) will not apply to GSI and will not apply to Counterparty.

(h) The "Bankruptcy" provisions of Section 5(a)(vii) will apply to GSI and will apply to Counterparty, but, in respect of Counterparty, shall be amended as follows:

(i) Sections 5(a)(vii)(2) shall not apply,

(ii) Section 5(a)(vii)(3) shall take effect with the words "the Noteholders" substituted for "the creditors;

(iii) The words "(which, for the avoidance of doubt, shall not be construed as meaning the Trustee appointed pursuant to the Trust Indenture)" shall be added after the word "trustee" in Section 5(a)(vii)(6),

(iv) Section 5(a)(vii)(6) and (7) shall take effect with the words "its assets comprised in the Pledged Assets (as defined in the Indenture) substituted for "all or substantially all its assets", and

(v) Section 5(a)(vii)(8) shall take effect with reference to the other clauses of Section 5(a)(vii) as amended by this Part 1(b) of the Schedule.

(i) The "Credit Event Upon Merger" provisions of Section 5(b)(iv) will not apply to GSI and will not apply to Counterparty.

(j) The "Automatic Early Termination" provision of Section 6(a) will not apply to GSI and will not apply to Counterparty.

(k) Payments on Early Termination. For the purpose of Section 6(e):

(i) Market Quotation will apply.
Footnote Exhibits - Page 4256

(ii) The Second Method will apply.

(i) "Termination Currency" means United States Dollars.

(m) The parties agree to amend the following subsections of Section 5(a) as follows:

(i) clause (i): in the third line of this clause, delete the word "third" and insert the word "first"

(ii) clause (ii): in the fifth line of this clause, delete the word "thirtieth" and insert the word "fifteenth" and

(iii) clause (vii)(d): delete, following the word "liquidation" in line 9, the clause beginning with "and, in the case of" and ending with the word "thereof" in line 13; and in Clause (vii)(e): delete, following the word "assets" in line 19, the clause beginning with "and such secured party" and ending with the word "thereafter" in line 21, to eliminate the 30-day grace period.

(n) Additional Termination Event will apply.

(j) Each of the following shall constitute an Additional Termination Event with respect to Counterparty:

a. It shall be an Additional Termination if an Event of Default (as defined in the Indenture) with respect to the Notes occurs and is continuing and there has been a liquidation (in whole), or the commencement of a liquidation (in whole), of the assets of Counterparty as set forth in the Indenture.

b. It shall be an Additional Termination Event if Counterparty redeems the Secured Notes in full pursuant to the Indenture (from proceeds at least equal to the applicable Secured Redemption Price) or the outstanding principal balance of the Secured Notes amortizes down to zero.

c. It shall be an Additional Termination Event if, the Indenture is supplemented or amended without the consent of GSI and such supplement or amendment affects the provisions governing the rights of the Credit Protection Buyer (as such term is defined in the Indenture) and has, in the reasonable judgment of GSI, a material adverse effect on GSI, provided, however, that such consent shall not be unreasonably withheld or delayed by GSI, provided further that GSI has notified the Counterparty that such supplement or amendment would have a material adverse effect on GSI after GSI has received notice of any such supplement or amendment in accordance with Section 8.1(c) of the Indenture.

d. It shall be an Additional Termination Event if GSI, in its capacity as Credit Protection Buyer is no longer a Secured Party under the Indenture.
or if the Trustee's security interest in the Collateral and the Collateral Account is impaired or no longer existing.

For the purpose of each of the foregoing Additional Termination Events, the Affected Party shall be the Counterparty.

(ii) The following shall constitute an Additional Termination Event with respect to GSI.

Failure by GSI to take any action required under the ratings downgrade provision set forth below, unless the Rating Agency Condition (as defined herein) has been satisfied notwithstanding such failure.

(i) In the event that any Notes rated by S&P remain outstanding and the unsecured, unsecured debt rating of GSI or GSI's Credit Support Provider, whichever is higher, assigned by S&P at any time falls below "AA-" (or is on downgrade watch at "AA-") for its long term rating, and GSI shall fail to make the Expected Fixed Payment as set forth in the related Confirmation, GSI shall, or shall cause its Credit Support Provider to, within 30 days of the date of such downgrade:

(A) transfer all of its rights and obligations under this Agreement to another entity which has such required ratings; or

(B) cause an entity with such required ratings to guarantee or provide an indemnity in respect of GSI's or its Credit Support Provider's obligations under this Agreement in a manner which satisfies the Rating Agency Condition with respect to S&P.

(ii) In the event that any Notes rated by Moody's remain outstanding and the unsecured, unsecured debt rating of GSI or GSI's Credit Support Provider, whichever is higher, assigned by Moody's at any time falls below "Aa3" for its long term rating (or is on downgrade watch at "Aa3"), and GSI shall fail to make the Expected Fixed Payment as set forth in the related Confirmation, GSI shall, or shall cause its Credit Support Provider to, within 30 days of the date of such downgrade:

(A) transfer all of its rights and obligations under this Agreement to another entity which has such required ratings; or

(B) cause an entity with such required ratings to guarantee or provide an indemnity in respect of GSI's or its Credit Support Provider's obligations under this Agreement in a manner which satisfies the Rating Agency Condition with respect to Moody's.

(iii) For the avoidance of doubt, GSI shall be responsible for:

Confidential Treatment Requested by Goldman Sachs
Footnote Exhibits - Page 4258

(i) locating a party with the required ratings to transfer (within 30 days and at its own cost) all its interest in and obligations under this Agreement or to guarantee or provide an indemnity in respect of, its obligations under this Agreement or to post collateral in accordance with the CSA; and

(ii) any cost incurred by it in complying with its obligations under this Part 1(a).

(iv) In the event that any Notes rated by S&P remain outstanding and the unsecured, unsubordinated debt rating of GSI or GSI's Credit Support Provider, whichever is higher, assigned by S&P at any time falls below "BBB+" for its long term rating and GSI or GSI's Credit Support Provider posts collateral under a CSA, GSI shall, or shall cause its Credit Support Provider to, within 30 days of the date of such downgrade to provide to Counterparty an opinion as to the enforceability of such CSA, subject to customary and usual assumptions, carveouts and exceptions.

For the purpose of each of the foregoing Additional Termination Events, the Affected Party shall be GSI and all Transactions shall be Affected Transactions.

(o) Early Termination. Notwithstanding anything to the contrary in Section 6(a) or Section 6(b), the parties agree that, except with respect to Transactions (if any) that are subject to Automatic Early Termination under Section 6(a), the Non-defaulting Party or the party that is not the Affected Party (in a case where a Termination Event under Section 3(b)(iv) has occurred) is not required to terminate the Transactions on a single day, but rather may terminate the Transactions over a commercially reasonable period of time (not to exceed ten days) (the "Early Termination Period"). The last day of the Early Termination Period shall be the Early Termination Date for purposes of Section 6; provided, however, that interest shall accrue on the Transactions terminated during the Early Termination Period prior to the Early Termination Date at the Non-default Rate.

Part 2.

Tax Representations

(a) Payor Tax Representations. For the purposes of Section 3(e), GSI and Counterparty make the following representations:

It is not required by any applicable law, as modified by the practice of any relevant governmental revenue authority, of any Relevant Jurisdiction to make any deduction or withholding for or on account of any Tax from any payment (other than interest under Section 2(e), 6(d)(i), or 6(c) of this Agreement) to be made by it to the other party under this Agreement. In making this representation, it may rely on (i) the accuracy of any representations made by the other party pursuant to Section 3(f) of this Agreement, (ii) the satisfaction of the agreement contained in Section 4(a)(ii) of this Agreement, and the accuracy and effectiveness of
any document provided by the other party pursuant to Section 4(a)(i) or 4(a)(ii) of this Agreement, and (ii) the satisfaction of the agreement of the other party contained in Section 4(d) of this Agreement, provided that it shall not be a breach of this representation where reliance is placed on clause (ii) and the other party does not deliver a form or document under Section 4(a)(iii) by reason of material prejudice to its legal or commercial position.

(b) Payee Tax Representations. For the purpose of Section 3(f), GSI and Counterparty make the following representation: Not Applicable.

Part 3. Agreement to Deliver Documents

(a) For the purpose of Section 4(a), Tax forms, documents, or certificates to be delivered are:

none

(b) Other documents to be delivered are:

Confidential Treatment Requested by Goldman Sachs
(b) Process Agent. For the purpose of Section 13(c):
GSI appoints as its Process Agent:
Not applicable.
Counterparty appoints as its Process Agent:
CT Corporation, 111 Eighth Avenue, New York, New York 10011
(c) Offices. The provisions of Section 10(a) will apply to this Agreement.
(d) Multibranch Party. For the purpose of Section 10(c):
GSI is not a Multibranch Party.
Counterparty is not a Multibranch Party.
(e) Calculation Agent. The Calculation Agent is GSI.
(f) Credit Support Document. The Indenture shall constitute a Credit Support Document with respect to the obligations of Counterparty. Details of any other Credit Support Document, each of which is incorporated by reference in, and made part of, this Agreement and each Confirmation (unless provided otherwise in a Confirmation) as if set forth in full in this Agreement or such Confirmation:
(i) Each of the Guaranty by The Goldman Sachs Group, Inc. ("Goldman Group") in favor of Counterparty as beneficiary thereof, and, if a Credit Support Annex is entered into between Counterparty and GSI, such Credit Support Annex, shall constitute a Credit Support Document with respect to the obligations of GSI.
(g) Credit Support Provider.
Credit Support Provider means in relation to GSI, Goldman Group.
Credit Support Provider means in relation Counterparty, none.
(h) Governing Law. Section 13(a) is hereby replaced with the following:
(a) Governing Law. This Agreement and each Transaction entered into hereunder will be governed by, and construed and enforced in accordance with, the law of the State of New York.
(i) Jurisdiction. Section 13(b) is hereby amended by:
(i) deleting in the second line of subparagraph (i) thereof the word "non-"; and
(ii) deleting the final paragraph thereof.

(j) Netting of Payments. Subparagraph (ii) of Section 2(c) will not apply to Transactions. Notwithstanding anything to the contrary in Section 2(c), unless otherwise expressly agreed by the parties, the netting provided for in Section 2(c) will not apply separately to any pairings of branches or Offices through which the parties make and receive payments or deliveries.

(k) "Affiliate" will have the meaning specified in Section 14 of this Agreement; provided that Counterparty shall be deemed to have no Affiliates other than Hudson Mezzanine Funding 2006-1, Corp.

(l) Notwithstanding any provision of this Agreement or any other existing or future agreement, each party irrevocably waives any and all rights it may have to set off, net, recoup or otherwise withhold or suspend or condition payment or performance of any obligation between it and the other party hereunder against any obligation between it and the other party under any other agreements.

Part 5. Other Provisions

(a) Accuracy of Specified Information. Section 3(g) is hereby amended by adding in the third line thereof after the word "respect" and before the period, the phrase "or, in the case of audited or unaudited financial statements, a fair presentation of the financial condition of the relevant person."

(b) [Reserved].

(c) Additional Representations. The parties agree to amend Section 3 by adding new Sections 3(g), (h), and (i) as follows:

(g) Non-Reliance. It is acting for its own account, and it has made its own independent decisions to enter into that Transaction and as to whether that Transaction is appropriate or proper for it based upon its own judgment and upon advice from such advisers as it has deemed necessary. It is not relying on any communication (written or oral) of the other party as investment advice or as a recommendation to enter into that Transaction; it being understood that information and explanations related to the terms and conditions of a Transaction shall not be considered investment advice or a recommendation to enter into that Transaction. No communication (written or oral) received from the other party shall be deemed to be an assurance or guarantee as to the expected results of that Transaction.

(b) Assessment and Understanding. It is capable of assessing the merits of and understanding (on its own behalf or through independent professional advice), and understands and accepts, the terms, conditions and risks of that Transaction. It is also capable of assuming, and assumes, the risks of that Transaction.
(d) Non-Petition. GSI agrees that it will not, prior to the date following the payment in full of all of the Notes and the expiration of a period of one year and one day thereafter and any additional applicable preference periods then in effect under the United States Bankruptcy Code or other applicable law relating to any such payments, acquiesce, petition or otherwise invoke the process of any governmental authority for the purpose of commencing a case (whether voluntary or involuntary) against Counterparty under any bankruptcy, insolvency or similar law or appointing a receiver, liquidator, assignee, trustee, custodian, sequestrator or any similar official of Counterparty or any substantial part of its property or ordering the winding up or liquidation of the affairs of Counterparty; provided, however, that this shall not restrict or prohibit GSI from joining in any existing bankruptcy, reorganization, arrangement, insolvency, moratorium or liquidation proceedings or other analogous proceedings under applicable laws. This "Non-Petition" paragraph shall survive termination of this Agreement.

Limited Recourse to Counterparty. Notwithstanding anything to the contrary contained herein, the obligations of Counterparty under this Agreement will constitute limited recourse obligations of Counterparty payable solely from the Collateral in accordance with the Indenture and following realization of the Collateral any obligations of Counterparty and any claim against Counterparty under this Agreement shall be extinguished and shall not thereafter revive. None of the agents, partners, beneficiaries, officers, directors, employees, shareholders or any Affiliate of Counterparty or any of their respective successors or assigns shall be personally liable for any amounts payable, or performance due, under this Agreement. It is understood that the foregoing provisions of this paragraph shall not (i) prevent recourse to the Collateral for the sums due or to become due under any security, instrument or agreement which is part of the Collateral or (ii) constitute a waiver, release or discharge of any obligation under this Agreement until all such Collateral has been realized and applied in accordance with the Indenture, whereupon any outstanding obligation shall be extinguished and shall not thereafter revive. It is further understood that the foregoing provisions of this paragraph shall not limit the right of GSI to declare an Event of Default with respect to Counterparty or to name Counterparty as a party defendant in any action or suit or in the exercise of any other remedy under this Agreement, so long as no judgment in the nature of a deficiency judgment or seeking personal liability shall be asked for or (if obtained) enforced against Counterparty. This "Limited Recourse to Counterparty" paragraph shall survive termination of this Agreement.

(e) No Transfer without Prior Satisfaction of the Rating Agency Condition. Section 7 of this Agreement is hereby amended by inserting (i) the following immediately after the words "other party" and immediately before the words "except that:"

"and unless the Rating Agency Condition (as defined herein) is satisfied with respect to such transfer;" (ii) in clause (a) the words "or
reorganization, incorporation, reincorporation, reorganization or reconstitution into or at, immediately before the word "another."

The last paragraph of Section 6(b)(ii) of this Agreement is hereby deleted in its entirety and replaced with the following paragraph:

"Any such transfer by a party under this Section 6(b)(ii) will be subject to and conditional upon the prior written consent of the other party and satisfaction of the Rating Agency Condition, which consent will not be witheld or delayed if such other party's policies in effect at such time would permit it to enter into transactions with the transferee on the terms proposed."

(f) Counterparty Pledge. Notwithstanding Section 7 of this Agreement to the contrary, GSI acknowledges that Counterparty will pledge its rights under this Agreement to the Trustee (as defined herein) for the benefit of the Secured Parties (as defined in the Indenture) pursuant to the Indenture, agrees to such pledge and acknowledges and agrees that the Trustee may directly enforce the rights of Counterparty hereunder. GSI shall be entitled to conclusively rely (without independent investigation) on any notice or communication from the Trustee.

(g) No Amendment without Prior Confirmation by Rating Agencies. Section 9(b) of this Agreement is hereby amended by adding the following at the end of such Section: ", and the Rating Agency Condition is satisfied with respect to such amendment".

(h) Additional Definitions. All capitalized terms used but not otherwise defined in this Agreement shall have the means assigned to them in the Indenture.

"Credit Support Annex" or "CSA" means the credit support annex, if any, entered into between GSI and Counterparty pursuant to Part 1(e), which credit support annex shall satisfy the Rating Agency Condition.

"Indenture" means the Indenture dated as of December 5, 2006, among Hudson Mezzanine Funding 2006-1, L.P., Hudson Mezzanine Funding 2006-1, Corp. and The Bank of New York Trust Company, National Association, as Trustee and Securities Intermediary, as the same may be amended, modified or supplemented from time to time in accordance with the terms thereof.

"Moody's" means Moody's Investors Service.

"Notes" means any Class of Notes issued pursuant to the Indenture rated by any Rating Agency.

"Rating Agency Condition" shall have the meaning assigned to it in the Indenture.

"S&P" means Standard and Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc.
"Trustee" means The Bank of New York Trust Company, National Association, as trustee, pursuant to the Indenture.

(i) Consent to Recording. Each party consents to the recording of telephone conversations between the trading, marketing and other relevant personnel of the parties, with or without the use of a warning tone, and their Affiliates in connection with this Agreement or any potential Transaction.

(ii) Definitions. The definition of "Termination Currency Equivalent" in Section 14 is hereby amended by deleting in its entirety the text after the first three lines thereof and replacing it with the following:

"by the party making the relevant determination in any commercially reasonable manner as being required to purchase such amount of such Other Currency as at the relevant Early Termination Date, or, if the relevant amount determined in accordance with Section 6(c) is determined as of a later date, that later date, for value on the date the payment or settlement payment is due."

The definition of "Affected Transactions" in Section 14 is hereby amended by deleting in its entirety the text after the word "measu" in the first line thereof and replacing it with the following:

"with respect to any Termination Event, all Transactions which are Transactions under which such Termination Event occurs."
IN WITNESS WHEREOF, the parties have executed this document on the respective dates specified below with effect from the date specified on the first page of this document.

GS MBS-E-021822089
CONFIRMATION

DATE: December 1, 2006
TO: Hudson Mezzanine Funding 2006-1, Ltd.
FROM: Goldman Sachs International
Credit Derivatives Middle Office
Telephone No.: 1 212 357 2610
Facsimile No.: 1 212 428 9189
RE: Credit Derivative Transaction on Asset-Backed Securities with Pay-As-You-Go
as Physical Settlement (RMBS)
REF NO: See Annex C

The purpose of this letter (the "Confirmation") is to confirm the terms and conditions of the
Credit Derivative Transaction(s) entered into on the Trade Date specified below (each, a
Component Transaction, and collectively, the "Transaction") by Goldman Sachs International
("GSI"), guaranteed by The Goldman Sachs Group, Inc. ("Goldman Group"), and Hudson
Mezzanine Funding 2006-1, Ltd. ("Counterparty"). This Confirmation constitutes a
"Confirmation" as referred to in the ISDA Master Agreement specified below.

This Confirmation is subject to, and incorporates by reference, the 2003 ISDA Credit Derivatives
Definitions (the "Credit Derivatives Definitions"), as published by the International Swaps
and Derivatives Association, Inc. ("ISDA"). This Confirmation supplements, forms a part of and is
subject to the ISDA Master Agreement dated as of December 1, 2006 (the "Agreement")
between GSI and Counterparty. All provisions contained in, or incorporated by reference to, the
Agreement shall govern this Confirmation except as expressly modified below. In the event of
any inconsistency between this Confirmation, the Credit Derivatives Definitions, or the
Agreement, as the case may be, this Confirmation will control for purposes of each Component
Transaction to which this Confirmation relates.

References in this Confirmation to a "Reference Obligation" shall be to the terms of such
Reference Obligation (as defined below) set out in the related Underlying Instruments (as
defined below) as amended from time to time unless otherwise specified below.

GSI and Counterparty agree that, by entering into this Transaction, they have entered into a
separate and independent Credit Derivative Transaction (a "Component Transaction") in respect
of each Reference Obligation listed in Annex C attached hereto. A confirmation in the form of
this Confirmation shall be deemed to be entered into in respect of each such Component
Transaction evidencing the provision of credit default protection with respect to a Credit Event
of each such Reference Entity and each such Reference Obligation and that accordingly there
may be more than one Credit Event, more than one Physical Settlement amount and more than
one Physical Settlement Date and that the Definitions (and in particular the definition of
"Termination Date") should, for the purposes of this Confirmation, be interpreted accordingly.
Thus relevant sections of the Definitions (including but not limited to Sections 1.8, 3.2 and 7.8)
shall be construed to apply separately with respect to each Reference Entity or Reference Obligation, as applicable, except as otherwise provided in this Confirmation.

Each Component Transaction (a) constitutes a separate and independent Credit Derivative Transaction between GSI and Counterparty with respect to a Reference Obligation listed in Annex C attached hereto, (b) shall not be affected by any other Credit Derivative Transaction between GSI and Counterparty and (c) shall operate independently of each other Component Transaction in all respects.

The terms of the each Component Transaction to which this Confirmation relates are as follows:

the same legal series as the Reference Obligation; and

(b) as decreased by any cancellations of some or all of the Outstanding Principal Amount resulting from purchases of the Reference Obligation by or on behalf of the Reference Entity.

Initial Face Amount:

For each Reference Obligation, the Initial Face Amount set forth in Annex C attached hereto.

Reference Obligation Notional Amount:

On the Effective Date, the product of:

(a) the Original Principal Amount;

(b) the Initial Factor; and

(c) the Applicable Percentage.

Following the Effective Date, the Reference Obligation Notional Amount will be:

(i) decreased on each day on which a Principal Payment is made by the relevant Principal Payment Amount;

(ii) decreased on each day on which a Failure to Pay Principal occurs by the relevant Principal Shortfall Amount;

(iii) decreased on each day on which a Write-down occurs by the relevant Write-down Amount;

(iv) increased on each day on which a Write-down Reimbursement occurs by any Write-down Reimbursement Amount in respect of a Write-down Reimbursement within paragraphs (ii) or (iii) of the definition of “Write-down Reimbursement”, and

(v) decreased on each Delivery Date by an amount equal to the relevant Exercise Amount minus the amount determined pursuant to paragraph (b) of “Physical Settlement Amount” below, provided that if any Relevant Amount is applicable, the Exercise Amount will also be deemed to be decreased by such amount.

201

Relevant Amount (or increased by the absolute value of such Relevant Amount if such Relevant Amount is negative) with effect from each Delivery Date;

provided that if the Reference Obligation National Amount would be less than zero, it shall be deemed to be zero.

Initial Payment: Not applicable

2. Fixed Payments:

Fixed Rate Payer: Buyer

Fixed Rate: The relevant Fixed Rate (expressed on a per annum basis) set forth in Annex C attached hereto corresponding to the relevant Reference Obligation, subject to adjustment in accordance with paragraph 5 below.

Fixed Rate Payer Period End Date: The first day of each Reference Obligation Calculation Period.

Fixed Rate Payer Payment Dates: Each day falling five Business Days after a Reference Obligation Payment Date, provided that the final Fixed Rate Payer Payment Date shall fall on the fifth Business Day following the Effective Maturity Date.

Fixed Amount:

(1) With respect to any Fixed Rate Payer Payment Date on which the senior unsecured debt ratings of GS or the Goldman Group, whichever is higher, is at least "AA-" by S&P (and, if rated "AA-" is not on downgrade watch) and at least "Aa3" by Moody’s (and, if rated "Aa3", is not on downgrade watch), an amount equal to the product of:

(a) the Fixed Rate;

(b) an amount determined by the Calculation Agent equal to (i) the sum of the Reference Obligation National Amount at 5:00 p.m. in the Calculation Agent City on each day in the related Fixed Rate Payer Calculation Period divided by (ii) the actual number of days in the related Fixed Rate Payer Calculation Period; and

(c) the actual number of days in the related Fixed

5

GS MBS-E-021822094
Footnote Exhibits - Page 4273

Rate Payer Calculation Period divided by 360.

(II) With respect to any Fixed Rate Payer Payment Date on which the senior unsecured debt ratings of GS1 or the Goldman Group, whichever is higher, is below "AA-" by S&P (or, if rated "Aa2", is on downgrade watch) or below "Aa3" by Moody’s (or, if rated "Aa3", is on downgrade watch), an amount equal to the greater of (a) zero and (b) the Expected Fixed Amount with respect to such Fixed Rate Payer Payment Date.

(III) With respect to the Fixed Rate Payer Payment Date immediately following the downgrade of the senior unsecured debt ratings of GS1 or the Goldman Group, whichever is higher, to lower than "AA-" by S&P or "Aa3" by Moody’s (or if rated "Aa2" or "Aa3", the placement on watch for possible downgrade by S&P or Moody’s, respectively), the sum of the amounts calculated pursuant to (I) and (II) above shall be payable with respect to such Fixed Rate Payer Payment Date only.

Expected Fixed Amount:

With respect to any Fixed Rate Payer Payment Date, an amount equal to (a) the Fixed Amount for the next succeeding Fixed Rate Payer Calculation Period as calculated pursuant to clause (I) under “Fixed Amount” above, assuming that the Reference Obligation Notional Amount on each day in such Fixed Rate Payer Calculation Period is equal to the Reference Obligation Notional Amount on the last day of the Fixed Rate Payer Calculation Period relating to the Fixed Rate Payer Payment Date on which the payment is being made, plus (b) the difference (which may be positive or negative) between the Expected Fixed Amount paid on the prior Fixed Rate Payer Payment Date, if any, over the Fixed Amount for such Fixed Rate Payer Payment Date as calculated pursuant to clause (I) under “Fixed Amount” above.

Additional Fixed Amount Payment Dates:

(a) Each Fixed Rate Payer Payment Date; and

(b) in relation to each Additional Fixed Payment Event occurring after the second Business Day prior to the last Fixed Rate Payer Payment Date, the fifth Business Day after Buyer has received notification...

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822085
Footnote Exhibits - Page 4274

from Seller or the Calculation Agent of the occurrence of such Additional Fixed Payment Event.

Additional Fixed Payments:
Following the occurrence of an Additional Fixed Payment Event in respect of the Reference Obligation, Buyer shall pay the relevant Additional Fixed Amount to Seller on the first Additional Fixed Amount Payment Date falling at least two Business Days (or in the case of an Additional Fixed Payment Event that occurs after the second Business Day prior to the last Fixed Rate Payor Payment Date, the fifth Business Day) after the delivery of a notice by the Calculation Agent to the parties or by Seller to Buyer stating that the related Additional Fixed Amount is due and showing in reasonable detail how such Additional Fixed Amount was determined; provided that any such notice must be given on or prior to the fifth Business Day following the day that is one calendar year after the Effective Maturity Date.

Additional Fixed Payment Event:
The occurrence on or after the Effective Date and on or before the day that is one calendar year after the Effective Maturity Date of a Writedown Reimbursement, Principal Shortfall Reimbursement or an Interest Shortfall Reimbursement.

Additional Fixed Amount:
With respect to each Additional Fixed Amount Payment Date, an amount equal to the sum of:

(a) the Writedown Reimbursement Payment Amount (if any);
(b) the Principal Shortfall Reimbursement Payment Amount (if any); and
(c) the Interest Shortfall Reimbursement Payment Amount (if any).

Writedown Reserve Requirement:
Upon receipt of any Writedown Amount, if the long-term rating of Buyer or any guarantor of Buyer’s obligations under this Confirmation (whichsoever is higher) is below “AA-” by S&P (or such rating has been withdrawn), Buyer shall reserve with Seller the related Writedown Reserve Amount, if any.

Writedown Reserve Amount:
With respect to any Writedown Amount received with respect to which there is a Writedown Reserve Requirement, the excess, if any, of (i) the product of

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822096
3. Floating Payments:

Floating Rate Payer: Seller

Floating Rate Payer Payment Dates: In relation to a Floating Amount Event, the first Fixed Rate Payer Payment Date falling at least two Business Days (or in the case of a Floating Amount Event that occurs on the Legal Final Maturity Date or the Final Amortization Date, the fifth Business Day) after delivery of a notice by the Calculation Agent to the parties or a notice by Buyer to Seller that the related Floating Amount is due and showing in reasonable detail how such Floating Amount was determined; provided that in the case of a Floating Amount Event that occurs on the Legal Final Maturity Date or the Final Amortization Date, such notice must be given on or prior to the fifth Business Day following the Legal Final Maturity Date or the Final Amortization Date, as applicable.

Floating Amount Event: A Writedown, Failure to Pay Principal or an Interest Shortfall.

Floating Amount: With respect to each Floating Rate Payer Payment Date, an amount equal to the sum of:

(a) the relevant Writedown Amount (if any);

(b) the relevant Principal Shortfall Amount (if any); and
(c) the relevant Interest Shortfall Payment Amount (if any).

For the avoidance of doubt, each Writedown Amount, Principal Shortfall Amount or Interest Shortfall Payment Amount (as applicable) shall be calculated using the Applicable Percentage which takes into account the aggregate adjustment made to the Applicable Percentage in respect of all Delivery Dates that have occurred prior to the date of such calculation.

Conditions to Settlement: Credit Event Notice
Notifying Party: Buyer
Notice of Publicly Available Information: Notice of Physical Settlement
Applicable Public Sources: The public sources listed in Section 3.7 of the Credit Derivatives Definitions; provided that Servicer Reports in respect of the Reference Obligation and, in respect of a Distressed Ratings Downgrade Credit Event only, any public communications by any of the Rating Agencies in respect of the Reference Obligation shall also be deemed Public Sources.
Specified Number: 1

provided that if the Calculation Agent has previously delivered a notice to the parties or Buyer has previously delivered a notice to Seller pursuant to the definition of "Floating Rate Payer Payment Dates" above in respect of a Writedown or a Failure to Pay Principal, the only Condition to Settlement with respect to any Credit Event shall be a Notice of Physical Settlement.

The parties agree that with respect to each Component Transaction and notwithstanding anything to the contrary in the Credit Derivatives Definitions:

(s) the Conditions to Settlement may be satisfied on more than one occasion;
Footnote Exhibits - Page 4277

(c) multiple Physical Settlement Amounts may be payable by Seller;

(d) Buyer, when providing a Notice of Physical Settlement, must specify an Exercise Amount and an Exercise Percentage;

(d) if Buyer has delivered a Notice of Physical Settlement that specifies an Exercise Amount that is less than the Reference Obligation Notional Amount as of the date on which such Notice of Physical Settlement is delivered (calculated as though Physical Settlement in respect of all previously delivered Notices of Physical Settlement has occurred in full), the rights and obligations of the parties under the Component Transaction shall continue and Buyer may deliver additional Notices of Physical Settlement with respect to the initial Credit Event or with respect to any additional Credit Event at any time thereafter; and

(e) any Notice of Physical Settlement shall be delivered no later than 30 calendar days after the fifth Business Day following the earlier of the Effective Maturity Date and the Optional Step-up Early Termination Date.

Section 3.2(d) of the Credit Derivatives Definitions is amended to delete the words “that is effective no later than thirty calendar days after the Event Determination Date”.

Credit Events:
The following Credit Events shall apply to each Component Transaction (and the first sentence of Section 4.1 of the Credit Derivatives Definition shall be amended accordingly):

- Failure to Pay Principal
- Writedown
- Distressed Ratings Downgrade

Obligation:
Reference Obligation Only

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822099
4. Interest Shortfall

Interest Shortfall Payment Amount: In respect of an Interest Shortfall, the relevant Interest Shortfall Amount; provided that, if Interest Shortfall Cap is applicable and the Interest Shortfall Amount exceeds the Interest Shortfall Cap Amount, the Interest Shortfall Payment Amount in respect of such Interest Shortfall shall be the Interest Shortfall Cap Amount.

Interest Shortfall Cap: Interest Shortfall Cap shall apply only in respect of those Component Transactions, if any, for which Interest Shortfall Cap is specified as being applicable on Annex C attached hereto.

Interest Shortfall Cap Amount: As set out in Annex A attached hereto.

Actual Interest Amount: With respect to any Reference Obligation Payment Date, payment by or on behalf of the Issuer of an amount in respect of interest due under the Reference Obligation including, without limitation, any deferred interest or default interest, but excluding payments in respect of prepayment penalties or principal (except that the Actual Interest Amount shall include any payment of principal representing capitalized interest) paid to the holder(s) of the Reference Obligation in respect of the Reference Obligation.

Expected Interest Amount: With respect to any Reference Obligation Payment Date, the amount of current interest that would accrue during the related Reference Obligation Calculation Period calculated using the Reference Obligation Coupon on a principal balance of the Reference Obligation equal to:

(a) the Outstanding Principal Amount taking into account any reductions due to a principal deficiency balance or realized loss amount (however described in the Underlying Instruments) that are attributable to the Reference Obligation, minus

(b) the Aggregate Impaired Writedown Amount (if any), and that will be payable on the related Reference Obligation Payment Date assuming for this purpose that sufficient funds are available therefor in

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822100
In accordance with the Underlying Instruments.

Except as provided in (a) in the previous sentence, the Expected Interest Amount shall be determined without regard to (i) unpaid amounts in respect of accrued interest on prior Reference Obligation Payment Dates, or (ii) any prepayment penalties or yield maintenance provisions, and in any case without regard to the effect of any provisions (however described) of the Underlying Instruments that otherwise permit the limitation of due payments or distributions of funds available from proceeds of the Underlying Assets, or that provide for the capitalization or deferral of interest on the Reference Obligation, or that provide for the extinguishing or reduction of such payments or distributions (but, for the avoidance of doubt, taking account of any Writedown within paragraph (i) of the definition of "Writedown" occurring in accordance with the terms of the Underlying Instruments).

Interest Shortfall:

With respect to any Reference Obligation Payment Date, either (a) the non-payment of an Expected Interest Amount or (b) the payment of an Actual Interest Amount that is less than the Expected Interest Amount.

For the avoidance of doubt, the occurrence of an event within (a) or (b) shall be determined taking into account any payment made under the Reference Policy, if applicable.

Interest Shortfall Amount:

With respect to any Reference Obligation Payment Date, an amount equal to the greater of:

(a) zero; and

(b) the amount equal to the product of:

(i) (A) the Expected Interest Amount;

(ii) (B) the Actual Interest Amount; and

(iii) the Applicable Percentage;

provided that, with respect to the first Reference Obligation Payment Date only, the Interest Shortfall Amount shall be the amount determined in accordance with (a) and (b) above multiplied by a fraction equal to:
Footnote Exhibits - Page 4280

(x) the number of days in the first Fixed Rate Payer Calculation Period, over
(y) the number of days in the first Reference Obligation Calculation Period.

Interest Shortfall Reimbursement: With respect to any Reference Obligation Payment Date, the payment by or on behalf of the Issuer of an Actual Interest Amount in respect of the Reference Obligation (including, for the avoidance of doubt, any payment of principal representing capitalized interest) that is greater than the Expected Interest Amount.

Interest Shortfall Reimbursement Amount: With respect to any Reference Obligation Payment Date, the product of (a) the amount of any Interest Shortfall Reimbursement on such day and (b) the Applicable Percentage.

Interest Shortfall Reimbursement Payment Amount: If Interest Shortfall Cap is not applicable, the relevant Interest Shortfall Reimbursement Amount. If Interest Shortfall Cap is applicable, the amount determined pursuant to Annex A attached hereto.

5. Consequences of Step-up of the Reference Obligation Coupon

Step-up provisions: The Step-up provisions shall apply only in respect of those Component Transactions, if any, for which the Step-up provisions are specified as being applicable on Annex C attached hereto.

If the Step-up provisions are applicable, then the following provisions of this paragraph 5 shall apply.

Step-up: On any day, an increase in the Reference Obligation Coupon due to the failure of the Issuer or a third party to redeem, cancel or terminate the Reference Obligation, as the case may be, in accordance with the Underlying Instruments.

Non-Call Notification Date: The date of delivery by the Calculation Agent to the parties or by Buyer to Seller of a Non-Call Notice.
Non-Call Notice: A notice given by the Calculation Agent to the parties or by Buyer to Seller that the Reference Obligation has not been purchased, redeemed, cancelled or terminated by the Issuer or any third party, in accordance with the Underlying Instruments, pursuant to a "clean-up call" or other right to purchase, redeem, cancel or terminate (however described in the Underlying Instruments) the Reference Obligation, which failure will result in the occurrence of a Step-up.

Increase of the Fixed Rate: Subject to "Optional Step-up Early Termination" below, upon the occurrence of a Step-up, the Fixed Rate will be increased by the number of basis points by which the Reference Obligation Coupon is increased due to the Step-up, such increase to take effect as of the Fixed Rate Payer Payment Date immediately following the fifth Business Day after the Non-Call Notice Date.

Optional Step-up Early Termination: No later than five Business Days after the Non-Call Notice Date, Buyer shall notify Seller (such notification, a "Buyer Step-up Notice") whether Buyer wishes to exercise such affected Component Transaction at the increased Fixed Rate or to terminate such Component Transaction.

If Buyer elects to terminate a Component Transaction pursuant to the above, the date of delivery of the Buyer Step-up Notice shall be the Scheduled Termination Date (such date, the "Optional Step-up Early Termination Date") and in such case "Increase of the Fixed Rate" in this paragraph 5 shall not apply.

No amount shall be payable by either party in respect of the Optional Step-up Early Termination Date other than any Fixed Amount, Additional Fixed Amount, Floating Amount or Physical Settlement Amount due in respect of such date. For the avoidance of doubt, no party shall be liable for any amounts that are not due and payable under a Component Transaction and remain unpaid at the Optional Step-up Early Termination Date shall not be affected by the occurrence of the Optional Step-up Early Termination Date.
If Buyer fails to deliver the Buyer Step-up Notice by the fifth Business Day after the Non-Call Notification Date, Buyer shall be deemed to have elected to continue each affected Component Transaction at the increased Fixed Rate as described under “Increase of the Fixed Rate”.

If Buyer elects, or is deemed to have elected, to continue a Component Transaction at the increased Fixed Rate, each Component Transaction shall continue.

6. Settlement Terms

Settlement Method: Physical Settlement

Terms Relating to Physical Settlement:

Physical Settlement Period: Five Business Days

Deliverable Obligations: Exclude Accrued Interest

Deliverable Obligations: Deliverable Obligation Category: Reference Obligation Only

Physical Settlement Amount: An amount equal to:

(a) the product of the Exercise Amount and the Reference Price, minus

(b) the sum of:

(i) if the Aggregate Implied Writedown Amount is greater than zero, the product of (A) the Aggregate Implied Writedown Amount, (B) the Applicable Percentage, each as determined immediately prior to the relevant Delivery and (C) the Exercise Percentage; and

(ii) the product of (A) the aggregate of all Writedown Amounts in respect of Writedowns within paragraph (i)(B) of the definition of "Writedown", minus the aggregate of all Writedown Reimbursement Amounts in respect of

15

Confidential Treatment Requested by Goldman Sachs  GS MBS-E-021822104
Footnote Exhibits - Page 4283

Writedown Reimbursements within paragraph (i)(D) of the definition of "Writedown Reimbursements" and (B) the Exercise Percentage;

provided that if the Physical Settlement Amount would exceed the product of:

1. the Reference Obligation Notional Amount as of the date on which the relevant Notice of Physical Settlement is delivered calculated as though Physical Settlement in respect of all previously delivered Notices of Physical Settlement has occurred in full; and

2. the Exercise Percentage;

then the Physical Settlement Amount shall be deemed to be equal to such product.

Delayed Payment:

With respect to a Delivery Date, if a Servicer Report that describes a Delayed Payment is delivered to holders of the Reference Obligation or to the Calculation Agent on or after such Delivery Date, Buyer will pay the applicable Delayed Payment Amount to Seller no later than five Business Days following such Delayed Payment.

Escrow:

Applicable

Non-delivery by Buyer:

If Buyer has delivered a Notice of Physical Settlement and

(a) Buyer does not Deliver in full the Deliverable Obligations specified in that Notice of Physical Settlement on or prior to the Physical Settlement Date, or

(b) the Effective Maturity Date occurs after delivery of the Notice of Physical Settlement but before Buyer Delivers the Deliverable Obligations specified in that Notice of Physical Settlement,

then such Notice of Physical Settlement shall be deemed not to have been delivered and any reference in this Confirmation to a previously delivered Notice of Physical Settlement shall exclude any Notice of Physical Settlement that is deemed not to have been

Confidential Treatment Requested by Goldman Sachs GS MBS-E-021822105
delivered. Sections 9.2(c)(ii) (except for the first sentence thereof), 9.3, 9.4, 9.5, 9.6, 9.9 and 9.10 of the Credit Derivatives Definitions shall not apply.

7. Additional Provisions:

(a) Delivery of Servicer Report

If either party makes a reasonable request in writing, the Calculation Agent agrees to provide such party with a copy of the most recent Servicer Report promptly following receipt of such request, if and to the extent such Servicer Report is reasonably available to the Calculation Agent (whether or not the Calculation Agent is a holder of the Reference Obligation). In addition, if a Floating Payment or an Additional Fixed Payment is due hereunder, then the Calculation Agent or the party that notifies the other party that the relevant Floating Payment or Additional Fixed Payment is due, as applicable, (the "Notifying Party") shall deliver a copy of any Servicer Report relevant to such payment that is requested by the party that is not the Notifying Party or by either party where the Notifying Party is the Calculation Agent, if and to the extent that such Servicer Report is reasonably available to the Notifying Party (whether or not the Notifying Party is a holder of the Reference Obligation).

(b) Calculation Agent and Buyer and Seller Determinations

The Calculation Agent shall be responsible for determining and calculating (i) the Fixed Amount payable on each Fixed Rate Payment Date, (ii) the occurrence of a Floating Amount Event and the related Floating Amount and (iii) the occurrence of an Additional Fixed Payment Event and the related Additional Fixed Amount; provided that notwithstanding the above, each of Buyer and Seller shall be entitled to determine and calculate the above amounts to the extent that Buyer or Seller, as applicable, has the right to deliver a notice to the other party demanding payment of such amount. The Calculation Agent or Buyer or Seller, as applicable, shall make such determinations and calculations based solely on the basis of the Servicer Reports, to the extent such Servicer Reports are reasonably available to the Calculation Agent or such party. The Calculation Agent or Buyer or Seller, as applicable, shall, as soon as practicable after making any of the determinations or calculations specified in (i) and (ii) above, notify the parties or the other party, as applicable, of such determinations and calculations.

(c) Adjustment of Calculation Agent Determinations

To the extent that a Servicer furnishes any Servicer Reports correcting information contained in previously issued Servicer Reports, and such corrections impact calculations pursuant to any Component Transaction, the calculations relevant to such Component Transaction shall be adjusted retroactively by the Calculation Agent to reflect the corrected information (provided that, for the avoidance of doubt, no amounts in respect of interest shall be payable by either party and provided that the Calculation Agent in performing the calculations pursuant to this paragraph will assume that no interest has accrued on any adjusted amount), and the Calculation Agent shall promptly...
notify both parties of any corrected payments required by either party. Any required corrected payments shall be made within five Business Days of the day on which such notification by the Calculation Agent is effective.

(d) Collateral

On the Effective Date, Counterparty shall deposit Collateral Securities and Eligible Investments with a face value equal to $800,000,000 on the Effective Date to the Collateral Account. Counterparty hereby agrees to maintain any principal proceeds received with respect to the Collateral in the Collateral Account unless another disposition is otherwise authorized hereunder or under the Indenture.

The Counterparty agrees to pledge the Collateral (and the principal proceeds therefrom) deposited from time to time in the Collateral Account and its rights under the Senior Swap and the Collateral Put Agreement to GSI as security for its obligations under the Transaction and grants to GSI a first priority security interest in and lien on all Collateral (and the principal proceeds therefrom) in the Collateral Account in accordance with the Indenture. If at any time an Event of Default or Termination Event with respect to Counterparty has occurred and is continuing, GSI shall have all rights and remedies available to a secured party under applicable law with respect to the Collateral, including, without limitation, the right to direct the liquidation of Collateral and apply the proceeds from such liquidation to any amounts payable by Counterparty in respect of the Component Transactions hereunder.

Notwithstanding anything to the contrary in this Confirmation, GSI acknowledges and agrees that in accordance with the terms of the Indenture, Counterparty’s obligations (other than any obligation of Counterparty to pay to GSI any Defaulted Swap Termination Payments) under each Component Transaction will be satisfied by the assets deposited to the Collateral Account. Amounts owing to the GSI will be due and payable in accordance with the terms of this Transaction and will be drawn (i) from the Collateral Account in accordance with the Collateral Liquidation Procedure, and with the benefit of Counterparty’s rights under the Collateral Put Agreement, where applicable, and (ii) once the balance of the Collateral Account has been reduced to zero, by demanding payment under the Senior Swap in an amount equal to the lesser of Counterparty’s obligations due and the Senior Swap Notional Amount. Counterparty’s obligation to pay GSI any Defaulted Swap Termination Payment will not be paid in accordance with the foregoing, but instead will be satisfied only by Proceeds available therefor in accordance with the Priority of Payments. If the Collateral Assets and Counterparty’s rights under the Senior Swap are insufficient to satisfy Counterparty’s obligations in respect of any Component Transaction hereunder, any such residual obligations of Counterparty shall be extinguished and of no further force or effect.

(e) Additional Tax Representations

The parties hereto confirm that this Transaction is not intended to be and does not constitute a contract of surety, insurance, guarantee or indemnity. The parties acknowledge that the payments to be made by the Counterparty will be made
independently and are not conditional upon GSI sustaining or being exposed to risk or loss and that the rights and obligations of the parties hereunder are not dependent upon GSI owning or having (and do not effectively require GSI to have) any legal, equitable or other interest in the Reference Obligations.

It is the intention of the parties that this Transaction be characterized as a notional principal contract (and not a surety bond, guarantee, insurance or similar contract) for all legal, regulatory and tax purposes. The terms of this Transaction shall be interpreted to further this intention of the parties. Further, each of the parties shall treat this Transaction accordingly for all legal, regulatory and tax reporting purposes and each party waives any right to assert any claim or defense that is inconsistent with this intention of the parties.

(f) Additional Termination Events
Subclause (ii) of Part 1(A) of the Schedule to the Master Agreement shall be replaced with the following: "With respect to any Event of Default or Termination Event under the terms of this Transaction where GSI is the Defaulting or Affected Party, the Market Quotation and First Method shall apply, otherwise, the Second Method will apply.

(g) Failure to Pay
Section 5(A)(i) of the Master Agreement shall be replaced by the following:

"(i) Failure to Pay or Deliver. Failure by the party to make, when due, any payment under this Agreement or delivery under Section 2(A)(i) or 2(e) required to be made by it if such failure is not remedied on or before the third Local Business Day after notice of such failure is given to the party; provided however, that any such failure by the Counterparty to make, when due, any payment under this Agreement or delivery under Section 2(A)(i) or 2(e) required to be made by it shall not constitute an Event of Default under this Section 5(A)(i) if such failure is a result of the Senior Swap Counterparty's failure to pay to the Counterparty any amount due under the Senior Swap."

9. Additional Definitions and Amendments to the Credit Derivatives Definitions

(a) References in Sections 4.1, 8.2, 9.1 and 9.2(a) of the Credit Derivatives
Definitions as well as Section 3(a)(v) of the form of Novation Agreement set
forth in Exhibit E to the Credit Derivatives Definitions to the Reference Entity
shall be deemed to be references to both the Reference Entity and the Insurer in
respect of the Reference Policy, if applicable.

(b) (i) The definition of “Publicly Available Information” in Section 3.5
of the Credit Derivatives Definitions shall be amended by (i) inserting the
words “the Insurer in respect of the Reference Policy, if applicable” as the
end of subparagraph (a)(i)(A) thereof, (ii) inserting the words “servicer,
sub-servicer, master servicer” before the words “or paying agent” in
subparagraph (a)(i)(B) thereof and (iii) deleting the word “or” at the end
of subparagraph (a)(iii) thereof and inserting at the end of subparagraph
(a)(vi) thereof the following: “or (v) is information contained in a notice
or on a website published by an internationally recognized rating agency
that has at any time rated the Reference Obligation”.

(ii) The definition of "Physical Settlement" in Section 8.1 of the Credit Derivatives Definitions shall be amended by (i) deleting the words "Physical Settlement Amount" from the last line of the second paragraph thereof and (ii) inserting in lieu thereof the words "Exercise Amount".

(ii) The definition of "Physical Settlement Date" in Section 8.4 of the Credit Derivatives Definitions shall be amended by deleting the last sentence thereof.

(c) For the purposes of each Component Transaction only, the following terms have the meanings given below:

"Actual Principal Amount" means, with respect to the Final Amortization Date or the Legal Final Maturity Date, payment on such day by or on behalf of the issuer of an amount in respect of principal (excluding any capitalized interest) to the holder(s) of the Reference Obligation in respect of the Reference Obligation.

"Aggregate Implied Writedown Amount" means the greater of (i) zero and (ii) the aggregate of all Implied Writedown Amounts minus the aggregate of all Implied Writedown Reimbursement Amounts.

"Approved Dealer": Any of the Persons set forth below or their affiliates set forth below (including the successor to any such Person):

ABN AMRO Bank N.V.;

"Collateral Account" has the meaning set forth in the Indenture.

"Collateral Liquidation Procedure" has the meaning set forth in the Indenture.

"Collateral Put Agreement" means the put agreement entered into by Counterparty and Goldman Sachs International on or prior to the Effective Date.

"Collateral Securities" has the meaning set forth in the Indenture.

"Collateral Securities Eligibility Criteria" has the meaning set forth in the Indenture.

"Current Factor" means the factor of the Reference Obligation as specified in the most recent Servicer Report; provided that if the Current Factor is not specified in the most recent Servicer Report, the Current Factor shall be the ratio equal to (i) the Outstanding Principal Amount as of such date, determined in accordance with the Servicer Report over (ii) the Original Principal Amount.

"Current Market Price" means, at any time of determination, with respect to a Reference Obligation, a percentage price determined by the Calculation Agent and confirmed by the Collateral Administrator by (a) using the pricing service used by the Collateral Administrator in its normal course of business for so long as the quote obtained from such pricing service has been provided by such pricing service within two Business Days of the time of such determination or (b) (1) if subclause (a) above is not applicable, asking five Approved Dealers to quote the offered-side price (excluding accrued interest) for such Reference Obligation (in an amount equal to its Reference Obligation Notional Amount) and (2) for so long as the Collateral Administrator is able to obtain one such quote from one such Approved Dealer, taking the arithmetic average of such quotation(s).

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822111
“Current Period Implied writedown amount” means, in respect of a Reference Obligation Calculation Period, an amount determined as of the last day of such Reference Obligation Calculation Period equal to the greater of:

(i) zero; and

(ii) the product of:

(A) the Implied Writedown Percentage; and

(B) the greater of:

(1) zero; and

(2) the Par Passu Amount plus the Senior Amount minus the aggregate outstanding asset pool balance securing the payment obligations on the Reference Obligation (all such outstanding asset pool balances as obtained by the Calculation Agent from the most recently dated Servicer Report available as of such day), calculated based on the face amount of the assets in such pool, whether or not any such asset is performing

“Delayed Payment” means, with respect to a Delivery Date, a Principal Payment, Principal Shortfall Reimbursement or a Writedown Reimbursement within paragraph (i) of the definition of “Writedown Reimbursement” that is described in a Servicer Report delivered to holders of the Reference Obligation or to the Calculation Agent on or after such Delivery Date.

“Delayed Payment Amount” means, if persons who are holders of the Reference Obligation as of a date prior to a Delivery Date are paid a Delayed Payment on or after such Delivery Date, and amount equal to the product of (i) the sum of all such Delayed Payments, (ii) the Reference Spread, (iii) the Applicable Percentage immediately prior to such Delivery Date and (iv) the Exercise Percentage.

“Distressed Ratings Downgrade” means that the Reference Obligation:

(i) if publicly rated by Moody’s, (A) is downgraded to “Ca2” or below by Moody’s or (B) has the rating assigned to it by Moody’s withdrawn and, in either case, not reinstated within five Business Days of such downgrade or withdrawal, provided that if such Reference Obligation was assigned a public rating of “Ca1” or higher by Moody’s immediately prior to the occurrence of such withdrawal, it shall not constitute a Distressed Ratings Downgrade if such Reference Obligation is assigned a public rating of at least “Ca1” by Moody’s within three calendar months of such withdrawal; or

(ii) if publicly rated by Standard & Poor’s, (A) is downgraded to “CCC” or below by Standard & Poor’s or (B) has the rating assigned to it by Standard & Poor’s withdrawn and, in either case, not reinstated within five Business Days of such downgrade or withdrawal, provided that if such
Reference Obligation was assigned a public rating of “BBB-” or higher by Standard & Poor’s immediately prior to the occurrence of such withdrawal, it shall not constitute a Distressed Ratings Downgrade if such Reference Obligation is assigned a public rating of at least “CCC+” by Standard & Poor’s within three calendar months of such withdrawal; or

(iii) if publicly rated by Fitch, (A) is downgraded to “CCC” or below by Fitch or (B) has the rating assigned to it by Fitch withdrawn and, in either case, not reinstated within five Business Days of such downgrade or withdrawal, provided that if such Reference Obligation was assigned a public rating of “BBB-” or higher by Fitch immediately prior to the occurrence of such withdrawal, it shall not constitute a Distressed Ratings Downgrade if such Reference Obligation is assigned a public rating of at least “CCC+” by Fitch within three calendar months of such withdrawal.

“Effective Maturity Date” means the earlier of (a) the Scheduled Termination Date and (b) the Final Amortization Date.

“Eligible Investments” has the meaning set forth in the Indenture.

“Exercise Amount” means, for purposes of a Component Transaction, an amount to which a Notice of Physical Settlement applies equal to the product of (i) the original face amount of the Reference Obligation to be Delivered by Buyer to Seller on the Physical Settlement Date; and (ii) the Current Factor. The Exercise Amount to which a Notice of Physical Settlement relates shall (A) be equal to or less than the Reference Obligation Notional Amount (determined, for this purpose, without regard to the effect of any Writedown or Writedown Reimbursement within paragraphs (ii)(B) or (iii) of “Writedown” or paragraphs (ii)(B) or (iii) of “Writedown Reimbursement”, respectively) as of the date on which the relevant Notice of Physical Settlement is delivered calculated as though the Physical Settlement of all previously delivered Notices of Physical Settlement has occurred in full and (B) not be less than the lesser of (1) the Reference Obligation Notional Amount as of the date on which the relevant Notice of Physical Settlement is delivered calculated as though Physical Settlement in respect of all previously delivered Notices of Physical Settlement has occurred in full and (2) USD100,000. The cumulative original face amount of Deliverable Obligations specified in all Notices of Physical Settlement shall not at any time exceed the Initial Face Amount.

“Exercise Percentage” means, with respect to a Notice of Physical Settlement, a percentage equal to the original face amount of the Deliverable Obligations specified in such Notice of Physical Settlement divided by an amount equal to (i) the Initial Face Amount minus (ii) the aggregate of the original face amount of all Deliverable Obligations specified in all previously delivered Notices of Physical Settlement.

“Expected Principal Amount” means, with respect to the Final Amortization Date or the Legal Final Maturity Date, an amount equal to (i) the Outstanding Principal Amount of the Reference Obligation payable on such day assuming for this purpose that sufficient funds are available for such payment, where such amount shall be determined in accordance with the Underlying Instruments, minus (ii) the sum of (A) the Aggregate Implied Writedown Amount (if any) and

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-021822113
(B) the net aggregate principal deficiency balance or realized loss amounts (however described in the Underlying Instruments) that are attributable to the Reference Obligation. The Expected Principal Amount shall be determined without regard to the effect of any limited recourse provisions (however described) of the Underlying Instruments that permit the limitation of due payments or distributions of funds in accordance with the terms of such Reference Obligation or that provide for the extinguishing or reduction of such payments or distributions.

"Failure to Pay Principal" means (i) a failure by the Reference Entity (or any Insurer) to pay an Expected Principal Amount on the Final Amortization Date or the Legal Final Maturity Date, as the case may be or (ii) payment on any such day of an Actual Principal Amount that is less than the Expected Principal Amount, provided that the failure by the Reference Entity (or any Insurer) to pay any such amount in respect of principal in accordance with the foregoing shall not constitute a Failure to Pay Principal if such failure has been remedied within any grace period applicable to such payment obligation under the Underlying Instruments or, if no such grace period is applicable, within three Business Days after the day on which the Expected Principal Amount was scheduled to be paid.

"Final Amortization Date" means the first to occur of (i) the date on which the Reference Obligation Notional Amount is reduced to zero and (ii) the date on which the assets securing the Reference Obligation or designated to fund amounts due in respect of the Reference Obligation are liquidated, distributed or otherwise disposed of in full and the proceeds thereof are distributed or otherwise disposed of in full.

"Fitch" means Fitch Ratings or any successor to the rating business thereof.

"Implied Writedown Amount" means, (i) if the Underlying Instruments do not provide for writedowns, applied losses, principal deficiencies or realized losses as described in (i) of the definition of "Writedown" to occur in respect of the Reference Obligation, on any Reference Obligation Payment Date, an amount determined by the Calculation Agent equal to the excess, if any, of the Current Period Implied Writedown Amount over the Previous Period Implied Writedown Amount, in each case in respect of the Reference Obligation Calculation Period to which such Reference Obligation Payment Date relates, and (ii) in any other case, zero.

"Implied Writedown Percentage" means (i) the Outstanding Principal Amount divided by (ii) the Pari Passu Amount.

"Implied Writedown Reimbursement Amount" means, (i) if the Underlying Instruments do not provide for writedowns, applied losses, principal deficiencies or realized losses as described in (i) of the definition of "Writedown" to occur in respect of the Reference Obligation, on any Reference Obligation Payment Date, an amount determined by the Calculation Agent equal to the excess, if any, of the Previous Period Implied Writedown Amount over the Current Period Implied Writedown Amount, in each case in respect of the Reference Obligation Calculation Period to which such Reference Obligation Payment Date relates, and (ii) in any other case, zero.

"Legal Final Maturity Date" means the legal final maturity date for the relevant Reference Obligation set forth in Annex C attached hereto (subject, for the avoidance of doubt, to any business day convention applicable to the legal final maturity date of the Reference Obligation),
provided that if the legal final maturity date of the Reference Obligation is amended, the Legal Final Maturity Date shall be such date as amended.

"Moody's" means Moody's Investors Service, Inc. or any successor to the rating business thereof.

"Outstanding Principal Amount" means, as of any date of determination with respect to the Reference Obligation, the outstanding principal balance of the Reference Obligation as of such date, which shall take into account:

(iv) all payments of principal;

(v) all writedowns or applied losses (however described in the Underlying Instruments) resulting in a reduction in the outstanding principal balance of the Reference Obligation (other than as a result of a scheduled or unscheduled payment of principal);

(vi) forgiveness of any amount by the holders of the Reference Obligation pursuant to an amendment to the Underlying Instruments resulting in a reduction in the outstanding principal balance of the Reference Obligation;

(vii) any payments reducing the amount of any reductions described in (vi) and (v) of this definition; and

(viii) any increase in the outstanding principal balance of the Reference Obligation that reflects a reversal of any prior reductions described in (ii) and (ii) of this definition).

"Pari Passu Amount" means, as of any date of determination, the aggregate of the Outstanding Principal Amount of the Reference Obligation and the aggregate outstanding principal balance of all obligations of the Reference Entity secured by the Underlying Assets and ranking pari passu in priority with the Reference Obligation.

"Previous Period Implied Writedown Amount" means, in respect of a Reference Obligation Calculation Period, the Current Period Implied Writedown Amount as determined in relation to the last day of the immediately preceding Reference Obligation Calculation Period.

"Principal Payment" means, with respect to any Reference Obligation Payment Date, the occurrence of a payment of an amount to the holders of the Reference Obligation in respect of principal (scheduled or unscheduled) in respect of the Reference Obligation other than a payment in respect of principal representing capitalized interest, excluding, for the avoidance of doubt, any Writedown Reimbursement or Interest Shortfall Reimbursement.

"Principal Payment Amount" means, with respect to any Reference Obligation Payment Date, an amount equal to the product of (i) the amount of any Principal Payment on such date and (ii) the Applicable Percentage.
"Principal Shortfall Amount\" means, in respect of a Failure to Pay Principal, an amount equal to the greater of:

(i) zero; and

(ii) the amount equal to the product of:

(A) the Expected Principal Amount minus the Actual Principal Amount;

(B) the Applicable Percentage; and

(C) the Reference Price.

If the Principal Shortfall Amount would be greater than the Reference Obligation Notional Amount immediately prior to the occurrence of such Failure to Pay Principal, then the Principal Shortfall Amount shall be deemed to be equal to the Reference Obligation Notional Amount at such time.

"Principal Shortfall Reimbursement\" means, with respect to any day, the payment by or on behalf of the Issuer of an amount in respect of the Reference Obligation in or toward the satisfaction of any deferral of or failure to pay principal arising from one or more prior occurrences of a Failure to Pay Principal.

"Principal Shortfall Reimbursement Amount\" means, with respect to any day, the product of (i) the amount of any Principal Shortfall Reimbursement on such day, (ii) the Applicable Percentage and (iii) the Reference Price.

"Principal Shortfall Reimbursement Payment Amount\" means, with respect to an Additional Fixed Amount Payment Date, the sum of the Principal Shortfall Reimbursement Amounts in respect of all Principal Shortfall Reimbursements (if any) made during the Reference Obligation Calculation Period relating to such Additional Fixed Amount Payment Date, provided that the aggregate of all Principal Shortfall Reimbursement Payment Amounts at any time shall not exceed the aggregate of all Floating Amounts paid by Seller in respect of occurrences of Failure to Pay Principal prior to such Additional Fixed Amount Payment Date.

"Rating Agencies\" means Fitch, Moody\'s and Standard & Poor\'s.

"Reference Obligation Amortized Amount\" means, with respect to a Reference Obligation and any date of determination, (i) the product of (a) the Original Principal Amount, the Initial Factor and the Applicable Percentage minus (ii) the aggregate of Principal Payment Amounts with respect to such Reference Obligation on or prior to such date of determination.

"Reference Obligation Calculation Period\" means, with respect to each Reference Obligation Payment Date, a period corresponding to the interest accrual period relating to such Reference Obligation Payment Date pursuant to the Underlying Instruments.
“Reference Obligation Coupon” means the periodic interest rate applied in relation to each Reference Obligation Calculation Period on the related Reference Obligation Payment Date, as determined in accordance with the terms of the Underlying Instruments on or after the Effective Date, without regard to any subsequent amendment.

“Reference Obligation Payment Date” means (i) each scheduled distribution date for the Reference Obligation occurring on or after the Effective Date and on or prior to the Scheduled Termination Date, determined in accordance with the Underlying Instruments and (ii) any day after the Effective Maturity Date on which a payment is made in respect of the Reference Obligation.

“Relevant Amount” means, with respect to any Reference Obligation, if a Servicer report that described a Principal Payment, Writedown or Writedown Reimbursement (other than a Writedown Reimbursement within paragraph (i) of “Writedown Reimbursement”), in each case that has the effect of decreasing or increasing the interest-accruing principal balance of such Reference Obligation as of a date prior to a Delivery Date but such Servicer report is delivered to holders of such Reference Obligation or to the Calculation Agent on or after such Delivery Date, an amount equal to the product of (i) the sum of any such Principal Payment (expressed as a positive amount), Writedown (expressed as a positive amount) or Writedown Reimbursement (expressed as a negative amount), as applicable; (ii) the Reference Price; (iii) the Applicable Percentage immediately prior to such Delivery Date; and (iv) the Exercise Percentage.

“Senior Amount” means, as of any day, the aggregate outstanding principal balance of all obligations of the Reference Entity secured by the Underlying Assets and ranking senior in priority to the Reference Obligation.

“Senior Swap” means the swap agreement entered into on the Effective Date between Counterparty and Goldman Sachs International with an initial notional amount of $1,200,000,000.

“Senior Swap Notional Amount” has the meaning set forth in the Senior Swap.

“Servicer” means any trustee, servicer, sub servicer, master servicer, fiscal agent, paying agent or other similar entity responsible for calculating payment amounts or providing reports pursuant to the Underlying Instruments.

“Servicer Reports” means periodic statements or reports regarding the Reference Obligation provided by the Servicer to holders of the Reference Obligation.

“Standard & Poor’s” means Standard & Poor’s Rating Services, a division of McGraw-Hill Companies, Inc. or any successor to the rating business thereof.

“Underlying Assets” means the assets securing the Reference Obligation for the benefit of the holders of the Reference Obligation and which are expected to generate the cashflows required for the servicing and repayment (in whole or in part) of the Reference Obligation, or the assets to which a holder of such Reference Obligation is economically exposed where such exposure is created synthetically.
"Underlying Instrument" means the indenture, trust agreement, pooling and servicing agreement or other relevant agreement(s) setting forth the terms of the Reference Obligation.

"Writedown" means the occurrence at any time on or after the Effective Date of:

(i) a writedown or applied loss (however described in the Underlying Instruments) resulting in a reduction in the Outstanding Principal Amount (other than as a result of a scheduled or unscheduled payment of principal); or

(ii) the attribution of a principal deficiency or realized loss (however described in the Underlying Instruments) to the Reference Obligation resulting in a reduction of the current interest payable on the Reference Obligation;

(iii) the forgiveness of any amount of principal by the holders of the Reference Obligation pursuant to an amendment to the Underlying Instruments resulting in a reduction in the Outstanding Principal Amount; or

(iv) if the Underlying Instruments do not provide for writedowns, applied losses, principal deficiencies or realized losses as described in (i) above to occur in respect of the Reference Obligation, an implied Writedown Amount being determined in respect of the Reference Obligation by the Calculation Agent, as applicable.

"Writedown Amount" means, with respect to any day, the product of (i) the amount of any Writedown on such day, (ii) the Applicable Percentage and (iii) the Reference Price.

"Writedown Reimbursement" means, with respect to any day, the occurrence of either:

(i) a payment by or on behalf of the Issuer of an amount in respect of the Reference Obligation in reduction of any prior Writedowns;

(ii) an increase by or on behalf of the Issuer of the Outstanding Principal Amount of the Reference Obligation to reflect the reversal of any prior Writedowns; or

(iii) a decrease in the principal deficiency balance or realized loss amounts (however described in the Underlying Instruments) attributable to the Reference Obligation; or

(iv) if the Underlying Instruments do not provide for writedowns, applied losses, principal deficiencies or realized losses as described in (i) above to occur in respect of the Reference Obligation, an implied Writedown Reimbursement Amount being determined in respect of the Reference Obligation by the Calculation Agent.
"Writedown Reimbursement Amount" means, with respect to any day, an amount equal to the product of:

(i) the sum of all Writedown Reimbursements on that day;

(ii) the Applicable Percentage; and

(iii) the Reference Price.

"Writedown Reimbursement Payment Amount" means, with respect to an Additional Fixed Amount Payment Date, the sum of the Writedown Reimbursement Amounts in respect of all Writedown Reimbursements (if any) made during the Reference Obligation Calculation Period relating to such Additional Fixed Amount Payment Date, provided that the aggregate of all Writedown Reimbursement Payment Amounts at any time shall not exceed the aggregate of all Floating Amounts paid by Seller in respect of Writedowns occurring prior to such Additional Fixed Amount Payment Date.

Counterparty hereby agrees (a) to check this Confirmation carefully and immediately upon receipt so that errors or discrepancies can be promptly identified and rectified and (b) to confirm that the foregoing correctly sets forth the terms of the agreement between GSI and Counterparty with respect to the Component Transactions to which this Confirmation relates, by manually signing this Confirmation and providing the other information requested herein and immediately returning an executed copy to Swap Administration, Facsimile No.: 1 212 428 9189.

### Annex A

If Interest Shortfall Cap is applicable, then the following provisions will apply:

<table>
<thead>
<tr>
<th>Interest Shortfall Cap Basis:</th>
<th>Fixed Cap</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Interest Shortfall Cap Amount:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>If the Interest Shortfall Cap Basis is Fixed Cap, the Interest Shortfall Cap Amount in respect of an Interest Shortfall shall be the Fixed Amount calculated in respect of the Fixed Rate Payer Payment Date immediately following the Reference Obligation Payment Date on which the relevant Interest Shortfall occurred.</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Interest Shortfall Reimbursement Payment Amount:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>If the Interest Shortfall Cap Basis is Variable Cap, the Interest Shortfall Cap Amount applicable in respect of a Floating Rate Payer Payment Date shall be an amount equal to the product of:</td>
<td></td>
</tr>
</tbody>
</table>

(a) the sum of the Relevant Rate and the Fixed Rate applicable to the Fixed Rate Payer Calculation Period immediately preceding the Reference Obligation Payment Date on which the relevant Interest Shortfall occurs;

(b) an amount determined by the Calculation Agent equal to:

(i) the sum of the Reference Obligation Notional Amount as at 5:00 p.m. in the Calculation Agent City on each day in such Fixed Rate Payer Calculation Period divided by

(ii) the actual number of days in such Fixed Rate Payer Calculation Period; and

(c) the actual number of days in such Fixed Rate Payer Calculation Period divided by 360.

<table>

Goldman Sachs

December 5, 2006

Hudson Mezzanine Funding 2006-1, Ltd.

c/o Maples Finance Limited
Quartermile House
South Church Street
Georgetown, Grand Cayman
Cayman Islands

Ladies and Gentlemen:

For value received, The Goldman Sachs Group, Inc. (the “Guarantor”), a corporation duly organized under the laws of the State of Delaware, hereby unconditionally guarantees the prompt and complete payment when due, whether by acceleration or otherwise, of all obligations and liabilities, whether now in existence or hereafter arising, of Goldman Sachs International, a subsidiary of the Guarantor and an unlimited liability company duly organized under the laws of England (the “Company”), to Hudson Mezzanine Funding 2006-1, Ltd. (the “Counterparty”) arising out of or under the ISDA Master Agreement between the Company and the Counterparty dated as of December 1, 2006 (the “Obligations”). This Guaranty is one of payment and not of collection.

The Guarantor hereby waives notice of acceptance of this Guaranty and notice of the Obligations, and waives presentment, demand for payment, protest, notice of dishonor or non-payment of the Obligations, suit or the taking of other action by Counterparty against, and any other notice to, the Company, the Guarantor or others.

The Counterparty may at any time and from time to time without notice to or consent of the Guarantor and without impairing or releasing the obligations of the Guarantor hereunder: (1) agree with the Company to make any changes in the terms of the Obligations; (2) take all or any action of any kind in respect of any security for the Obligations; (3) exercise or refuse from exercising any right against the Company or others in respect of the Obligations; or (4) compromise or subordinate the Obligations, including any security therefor. Any other Indemnity definition is hereby waived by the Guarantor.

This Guaranty shall continue in full force and effect until the opening of business on the fifth business day after Counterparty receives written notice of termination from the Guarantor. It is understood and agreed, however, that notwithstanding any such termination this Guaranty shall continue in full force and effect with respect to all Obligations which shall have been incurred prior to such termination.

Confidential Treatment Requested by Goldman Sachs
The Guarantor may not assign its rights nor delegate its obligations under this Guaranty, in whole or in part, without prior written consent of the Counterparty, and any purported assignment or delegation absent such consent is void, except for an assignment and delegation of all of the Guarantor's rights and obligations hereunder in whatever form the Guarantor determines may be appropriate to a partnership, corporation, trust or other organization in whatever form that succeeds by all or substantially all of the Guarantor's assets and business and that assumes such obligations by contract, operation of law or otherwise. Upon any such assignment and assumption of obligations, the Guarantor shall be relieved of and fully discharged from all obligations hereunder, whether such obligations arose before or after such delegation and assumption.

THIS GUARANTY SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE INTERNAL LAWS OF THE STATE OF NEW YORK WITHOUT GIVING EFFECT TO PRINCIPLES OF CONFLICTS OF LAW, GUARANTOR AGREES TO THE EXCLUSIVE JURISDICTION OF COURTS LOCATED IN THE STATE OF NEW YORK, UNITED STATES OF AMERICA, OVER ANY DISPUTES ARISING UNDER OR RELATING TO THIS GUARANTY.

Very truly yours,

THE GOLDMAN SACHS GROUP, INC.

Subject: Cambridge Place deal

Cambridge is upset that we are delaying their deal. They know that Hudson Mezz 053 prop deal is pushing their deal back. We are calling the PM at Cambridge (______) to discuss their deal and timing.

Are you ok if we upsie their deal to $800mm from $800mm? This allows them to continue ramping and we take additional equity placement risk (beyond the 6% of equity going into ONCA). Deal is in good shape and we have pre-interest in the entire AA class and half the BB+ and a third of the super seniors. This will price in Dec. or January.
Date: September 27th, 2006
To: Firmwide Risk Committee
Re: September 27th FRC Minutes

The September 27th Firmwide Risk Committee meeting commenced at 2:30pm. The meeting was chaired by David Viniar and Jerry Corzine. Apologies were received from Isabelle Sadek, Ramesh Agas, Mark McGoldrick, and Marc Spilker.

Josh,

Tried calling. Sobel this morning in the firmwide risk committee mentioned that we have circled up the junior and some of the equity tranches.

Would like to get an update on this and have some follow up questions.

Please let me know when is a good time to call.

Thanks,

100 is a no-loss yield of 22%
95 is a no-loss yield of 24%
80 is a no-loss yield of 26%
85 is a no-loss yield of 28%

We have a 6mm of firm equity orders at par and we have only been marketing this equity for two weeks (60mm of total equity).

We see value in a large 30mm order and can offer 90 dollar price to help achieve that. We are reasonable and will listen to levels around 90.

Subject: Hudson Meze - arguments required

The guy at Schroders looking at this deal has one main issue has has to get over:

He is worried about how he is going to convince his boss to invest in a pool of sub prime mortgages with probably their greatest exposures in California and Florida. He is nervous on US house prices.

Pretty fundamental question, but do we have a couple of key messages I should prepare him with?

I have some background material on the mortgage market from Gasvoda's team, but anything specific material beyond this we can offer?

I have made the point repeatedly (to the point where he should be able to repeat it verbatim to his boss) that he has structural problems underway each GHS security in the pool, and same again in the ODO. Also discussed the value of diversity and the fact that most property price crashes and mass mortgage defaults tend to be localised, which should give him further comfort.

Anything else you would offer? He is not a big believer in the Moody’s data and ratings system.

I WANT THIS GUY THERE AND IN SIZE!! Please help if you can – just three bullet points would help.

Cheers

Paul

Cc: Carratt, Paul  
Subject: RE: Hedging

We should discuss this live, but I think their likelihood of getting principal back is almost zero, given market implied pricing for AKN!

-- AKN.RE.BBB-06-1 0 91 px
-- AKN.RE.BBB-0.06-1 0 96 px
-- AKN.RE.BBB-06-2 0 91 px
-- AKN.RE.BBB-06-2 0 71 px

The blended price of the AKN component of that portfolio (60% of the transaction) is approx 82, meaning that the equity has no NAV coverage. This piece of risk should trade like an IO, and the the main risk at this point is downgrad risk that could cause triggers to fail and cause their equity cashflows to shrink for good. Ben will give you more insight as to how the triggers are structured, and how much downgrads could cause those triggers to be activated...

Subject: Hedging

Team

Mariner is interested in ideas for hedging their Hudson exposure. Could you please provide...
some thoughts on the following:

1. Putting aside current pricing, I would have thought a form of delta hedging their exposure to either troublesome single names, or the AXX indices as a whole might work to some extent. In "normal" conditions, what sorts of strategies would you suggest?

2. In the context of current pricing, is there some compromise or variation on the above that might be helpful to them. Their main objective is ensuring recovery of principal. Reasonably very challenging in the context of current markets.

I should have prefaced the above with the fact that I do not believe that they are about to hedge this position - the horse has bolted in pricing terms. They are no doubt getting questions from the company's board as to what could be done, as a learning exercise, and potentially as a complete downside case.

We will also point out that if they put on a hedge on the AXX and the index started screaming in they would have a very serious mark to market issue on their hands.

All thoughts welcome.

Cheers

Paul

Re: Placing debt and equity on a static mezzanine structured product CDO with GSC Partners ("GSC")

1. Introduction

We have been asked to structure a $500 million mezzanine structured product CDO backed by a portfolio of RMBS, CMBS, CDO and ABS with an average rating of Baa2/BBB ("Hudson Mezzanine Funding II"). Goldman will be engaged by Hudson Mezzanine Funding II as Liquidation Agent and in this role will have the responsibility of liquidating "Credit Risk Assets" (defined below in section II). Goldman and GSC Partners ("GSC") will co-select the portfolio that will collateralize the CDO. GSC Elbit Bridge, a CDO equity fund managed by GSC, has pre-committed to purchase 50% of the equity in the CDO. Total equity will be $170 to $180 million (all is equity) based on closing of the transaction. GSC Elbit Bridge will share 50% of the warehouse risk on the first $200 million of potential loss exposure during the portfolio ramp-up and will initially post $50 million to collateralize this commitment, with additional posting up to $100 million as the portfolio ramps.

We do not expect to charge any upfront fee and similarly, GSC will not charge any ongoing management fee. Without fees, the equity yield is expected to be approximately 30%. We expect to retain a senior IO security which will enhance the CDO equity yield to approximately 10%. This is the level we intend to offer equity to third parties.

In return for our role as Liquidation Agent, Goldman will receive an ongoing fee of 0.1% of the CDOs per portfolio balance. Total economics to Goldman are expected to be $5.5 million upfront (includes the premium sale of the equity and not carry from the warehouse) and $500k per annum over a 4 year ran (the ongoing P/L of 0.1% for acting as liquidation agent which we cannot recognize upfront).

As Liquidation agent, Goldman will liquidate assets determined by the Trustee to be "Credit Risk Assets" based on specific guidelines. Goldman will have 12 months to sell these assets. Sales will be made under a competitive bidding process whereby we will solicit three outside bids and select the highest. Goldman's role in this transaction is comparable to the role we currently assume in the Houst Bay and Hudson H&G transactions. Prior to executing Houst Bay I, in which we also played the Liquidation Agent role, we spoke with multiple counterparties as to our role as Liquidation Agent. We received approval for our role in this transaction from legal and accounting. We spoke with outside counsel, Omnia Heilig, and they were comfortable providing true sale and non-consolidation opinions for the transaction. We spoke with Mary Men in Accounting Policy and John Little in Product Control, and they in collaboration with Prudential/House & Coopers were comfortable that the Houst Bay transactions met true sale and non-consolidation conditions from an accounting perspective. Finally, we spoke with outside counsel, Willner Cutler, about potential issues related to the Investment Adviser Act. They are of the opinion that our role of Liquidation Agent does not cause us to be deemed an Investment Adviser based on an exception to

Confidential Treatment Requested by Goldman

Wall Street & The Financial Crisis
Report Footnote #2295
the Advisors Act for a "limited grant of discretion". For a more detailed account of Goldman's role as
Liquidity Agent and related discussions with legal and accounting counterparts please see section III,
"The Liquidity Agent: Goldman".
We expect to offer the subordinate triple-A, double-A, single-A and triple-B debt to the market through our
syndicate. Goldman has no commitment on any of the offered notes, but Goldman may be subject to
warehouse losses in the event the CDO does not close.
Goldman Sachs has a strong relationship with GSC. We closed a $900 MM middle market CLO with
gGSC in January 2008 (equity in the CLO was purchased by GSC Capital Corp.), earning $24 MM in
structuring fees. We are currently marketing a high grade transaction with GSC and have a single-A
focused structured product CDO ramping. In addition Goldman and GSC are working together on a CDO
equity sponsorship vehicle, ORCA Fund. The head of the structured products team at GSC worked
with us at Lehman Bros. to moving to GSC, marketing us on the high grade CDO transactions, totaling $3 billion in issuance and $4 billion in notes to GS.

II. Transaction Overview
A Cayman Islands limited liability company (the "Issuer") will be established which will purchase the
warehouse portfolio at closing and will issue the following notes and equity:

<table>
<thead>
<tr>
<th>Class</th>
<th>Balance</th>
<th>% of Capital Structure</th>
<th>Expected Ratings (Moody's/S&amp;P)</th>
<th>Expected Spread</th>
<th>Expected Average Life</th>
</tr>
</thead>
<tbody>

<td>NA</td>
</tr>
<tr>
<td>Portfolio</td>
<td>$660.0 MM</td>
<td>100.0%</td>
<td>Avg. A1/A2</td>
<td>L+168bp</td>
<td>5.5</td>
</tr>
</tbody>
</table>

The transaction will have a legal maturity of 35 years, however the expected average life of the Notes will
be approximately 5-7 years. The equity will also have the option to call the transaction after a 5 year non-
call period.
P&L to Goldman will be approximately $5.5 MM upfront and $500k per annum thereafter over a 4
duration. In return for fees and 50% of the net warehouse carry (50% of the net carry will be approx. $0.5
MM), Goldman will (a) take half of the warehouse risk on the first $40 MM of losses and 100% of the
warehouse risk on losses exceed $40 MM and (b) place the Class A-1, A-2, B, C, D, and E Notes and may place
a portion of the Income Notes (the Income Notes are the equity class) on a "best efforts" basis (Goldman
has committed to purchase 50% of the Income Notes and GSC has committed to purchase the other
50%). GSC would like to hold only 20% of the Income Notes upon closing, but we have agreed to sell
down our commitments pro-rata and equally purchase any remaining equity.

Collateral Description
- 100% of the CDO portfolio will be identified at closing.
- 100% of the portfolio will be rated at least Baa3 by Moody's or BB+ by S&P.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-015475757
Footnote Exhibits - Page 4340

- The portfolio is expected to be approximately 80% subprime RMBS, 12% prime and A/R RMBS, 5% CMBS and SP CDOs. Up to 100% of the portfolio may be single-name synthetic exposures.

III. Collateral Manager

GSC Partners was established in 1984 by Alfred C. Eichler, III, former Partner and Head of Private Equity/Distressed Debt Investing and Corporate Finance at Goldman Sachs. The team consists of 60 persons worldwide, 36 of whom are investment professionals.

GSC Partners has over $7.2bn in assets under management, with over $3.3bn invested in structured credit. Six CDO/CLO funds have been raised since 2009.

In early 2005, Frederick H. Horton joined GSC Partners from TCW to build a structured products platform at GSC. Since joining GSC, the structured products group has leased a private mortgage REIT, GSC Capital Corp, and two synthetic mezzanine structured product CDOs.

For GSC, the CDO is an opportunity to grow their existing structured product CDO platform. For Goldman, the CDO will provide an opportunity to enhance its strategic relationship with GSC and maintain its leadership in the high grade structured product CDO market.

IV. Underwriting Commitments

Goldman Sachs will act as sole placement agent of the Class A, B, C, D, and E Notes and the Income Notes and will be working on a "best efforts" basis on all of the debt and has a firm commitment on 5% of the Income Notes. GSC Capital Corp is pre-committed to purchase 50% of the Income Notes.

The primary demand for mezzanine notes / equity in these types of transactions comes from European, Australian, and Asian banking and insurance institutions, US asset managers, other structured investment vehicles, and CDO equity funds. These various accounts continue to express interest in gaining a leveraged exposure to the U.S. structured credit market. The structured product CDO vehicle allows them to gain this exposure on a diversified basis.

We expect to purchase approximately $2-4 NM of the equity on the pricing date, but we will have no commitment to hold such positions after closing.

Goldman’s current portfolio of CDOs and CLO equity held within the CDO group is detailed in Appendix B.

V. Portfolio Ramp-Up and Equity Marketing

Initially, Goldman will assume 50% of first loss risk in the warehouse on the first $40 MM of losses and 100% of second loss risk above $40 MM in the event the CDO fails to close. GSC Capital Corp. will be taking 50% of first loss risk in the warehouse on the first $40 MM and will initially post $3.5 CLO to collateralize this commitment. Goldman will have full recourse to GSC Capital Corp. (currently $150-200 MM in capital) for losses in excess of the posted amount but not to exceed $20 MM and will have the right to liquidate the portfolio upon any material negative mark-to-market.

Additionally, we will continue to pursue early equity and mezzanine debt commitments from additional investors to reduce the risk of a failed closing. Appendix A details our current warehouse exposures across the CDO group.

The general terms of the portfolio ramp-up are as follows:

- GS has the right to veto all asset purchases and GSC has the right to veto all asset purchases;
- GS has unilateral right to liquidate an asset or the warehouse;
- All assets are sold-forward to the CDO at time of purchase and the forward price covers any hedge or trading gains/losses on assets during the warehouse phase;

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-013473758
Footnote Exhibits - Page 4341

- 50% of positive carry will be paid to GS (positive carry is equal to any net income in excess of Goldman’s cost of financing during the warehousing period). Net carry is expected to be approximately $1.0 MM which will be shared 50/50 between Goldman and GSC Capital Corp.
- Position sizes will be limited to $20 MM for assets rated single-A or higher and $10 MM for triple-B assets.

VI. Expected Fees

Goldman expects to recognize P&L equal to 1.0% times the par balance of the collateral portfolio. We expect a $500 MM transaction and the P&L in that case, would be $5.0 MM. Additionally, Goldman expects to earn profit by selling assets into the CDO and from Goldman’s share of warehouse net carry (which is estimated to be $0.5 MM) and from our ongoing role as liquidation agent (which will be $500k per annum on a 4 duration).

VII. Reasons to Pursue

We are pursuing this transaction for the following reasons:

1. Goldman is approving every asset going into the warehouse. The respective trading desks are partnered on each asset offered into the CDO by GSC from the street and we do not accept any asset that is not approved by the respective trading desk. In addition, we expect that 20-40% of the portfolio by doing will come from Goldman’s offerings.

2. Although we will be marketing a $500 MM transaction, Goldman can price the transaction earlier with a lower balance if we are concerned about future market conditions or we can upsie the transaction if there are reasons to meet that action.

3. We will be offering the equity to third party investors with a no-loss yield of 18-25% which is consistent with CDO equity from mezzanine structured product CDOs currently being sold into the market.

4. We expect to generally market the debt and equity once the transaction is approximately 70% ramped. We expect to offer the equity and debt on an early commitment basis (we will commence those discussions upon initial portfolio ramp).

5. GSC Capital Corp. is taking half of the first loss risk in the warehouse and is committed to half of the equity, Goldman has a "best effort" underwriting commitment on the debt, and Goldman’s expected total P&L of approximately $5.5 MM.

VIII. Strengths / Issues to Consider

Strengths

- Pre-Sold Equity: GSC Capital Corp. has pre-committed to purchase half of the equity.
- Repeat Collateral Manager: This transaction would represent GSC’s fourth CDO with Goldman in 2006 and GSC’s third structured product CDO.
- Collateral: 100% of the portfolio will have a rating of investment grade.
- Pre-Marketing: We will begin discussions with numerous investors on early commitments on equity and debt (TCW Equity Fund, Commerzbank, Baus Capital, Saladman, Magnetar, and others).

Issues to Consider

- Warehouse: Goldman Sachs will be exposed to half of any first loss exposure on the first $42 MM and 100% of any second loss exposure above $42 MM if the deal fails to close. GSC Capital Corp. is

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-013473759
Footnote Exhibits - Page 4342

initially posting $5.0 MM to collateralize its risk sharing commitment and will make additional posts up to $20 MM as the warehouse ramps.

IX. Recommendation

GSC is a repeat CDO issuer and is one of Goldman’s strongest relationships in the structured product CDO market. Goldman Sachs will be involved in structuring the transaction, selling assets into the transaction, placing the Notes and the equity of the CDO and in return, will recognize P&L of approx. $6.5 MM.

In light of the above, we request that the Capital Committee approve our proposal to enter into a “best efforts” underwriting of the CDO debt, firm commitment on half the equity, and to move forward with the warehouse risk sharing arrangement with GSC.

Subject: RE: GSC - Prime Brokerage

I asked Ed and Josh early on if they wanted me to get you and Cosnacchia involved to get
this moving and they said it was now an inquiry at that point. When I relayed to them
that the team here had multiple points of contact with GSC already they asked me to just
hold off until they had a better sense of who at Goldman was talking to various contacts
at GSC. Yesterday they asked me to move forward again...I just received that response
this morning.

Know them well, we just there with their ISO coverage and a bunch of bankers including [redacted] etc.

Also our team recently hosted a dry-run for their new credit fund.

Also introducing John Lipton to equities and PB folks in Asia.

How can we help?

Are either of you familiar with GSC Partners? Several ex-Salomon Partners involved. They currently have ~$9.2 billion in AUM...although the fund they would like us to have discussions on is currently ~$6bn in size. They are a strategy partner with the Synthetic desk and have handed us multiple CDO/CDX mandates. Please let me know if we can arrange a discussion on this account.

Thanks

Subject:  RE: GS/GBC EB Prop deal

Gentlemen,

Here is what we would do:
- $700mm deal
- 50/50 on the equity. Any equity sales reduce our allocation pro-rata.
- no OC/IC tests is ok. Suggest OC test diverting excess spread if BBB OC is less than 100.0% (pro rata).
- No underwriting fee
- No cap on expenses (we share that risk). But agree we try to keep it low (will definitely be higher than 2.5mm given agencies alone)
- GS earns 10bp PA on the NOPCB as Asset Liquidation Agent
- 2% price size limit
- 3y non-call
- No reinvestment
- Offer to sell protection on BBB to GSC at market for 0.75% times notional
- Happy to source assets via GSC
- Not sure we can leverage equity, but we will try to sell some BB debt if that helps

Let me know if that works.
Thanks,
Peter

Gentlemen,

Here's what we were thinking to make sure we are all on the same page, let us know what you think.

-300 million deal (~4.5% sub-IG notes and equity)

Permanent Subcommittee on Investigations
Wall Street & The Financial Crisis
Report Footnote #3392

GS MBS-E-000904603
- No D/IO tests
- GSC commits to 30% of the equity
- There is no underwriting fee on the deal
- Try to cap upfront expenses (legal, rating agencies, audit) at $1 million
- GS earns 10bps pa on the NQPC as Asset Liquidation Agent
- Portfolio Composition
  - RMBS HELOC
  - RMBS HE/LC
  - SP GOO
  - SP GOO
- 1% target position size
- 3 year non call
- No reinvestment
- GSC EB have the right to source up to 50 million of the Basle2 CDOs directly
- GS will use best efforts to source [N] million of the BBBs for GSC EB to short; GS will earn (0.75)% on the notional amount of the short paid upfront
  (fixed cap, with implied writedowns)
- GS will leverage the equity 50% for GSC

From: Williams, Geoffrey  
Sent: Monday, September 18, 2006 2:01 PM  
To: rice-oatmeal@gs.com; Riaa, Max  
Subject: Re: Expected Tranche Trades with GSC on Monday

GSC tranche trades booked in TAP. Also, here information on the ABX trades they did last week. Can you please rename and revert ASAP so we can get to collateral and have all the trades linked? Thanks.

G5 sells 25 mm ABX 06-1 BBB index 9/13 @ 103.26 - SDEB02130425B1  
G5 sells 15mm ABX 06-1 BBB index 9/13 @ 100.25 - SDEB02130425B2

Follow-ups on tranched swaps with GSC / DB / Prop / Magnetar; let us know if you have any questions or need anything else.

Strata -- I will send an updated TAP setup file for this portfolio (which is ABACUS 06-11) since this trade will not have haircuts/strata like the protection buy side.

Ops -- can we please discuss how to link GSCs ABX langs to their tranche shorts when booked so that they receive appropriate margin credit?

Credit -- please note updated sizes that GSC will do in their long/short strategy; can you please refresh the initial margin based on this?

Controllers -- can we please discuss what will be released on Mon?

Drafting -- find a draft confirm that we have sent to GSC / DB Prop / Magnetar below, we will let you know when we have finalized with GSC / DB Prop / Magnetar.

Confidential Treatment Requested by Goldman
Footnote Exhibits - Page 4354

Scott:  Fides, September 15, 2008 4:24 PM
To:  Accounting-Staff
Cc:  Wasing, Carla
Subject:  Expected Transfer Trade with GSC on Monday

We expect to write protection to GSC on each of the following tranches of the static reference portfolio attached below; GSC will pay to GS the premiums detailed below:

$18,625mm of 8.625-12.875% (Class B) @ 200bps upfront and 150bps running
$6,250mm of 6.125-6.875% (Class C) @ 200bps upfront 250bps running
$5,000mm of 5.750-6.125% (Class D) @ 200bps upfront and 450bps running

Against this, GSC has already bought $40mm of ABX.HE.BBB-06-1 from the ABS Trading desk; we need to link this trade to their tranche shorts so that they get margin credit for the long/short.

Other Key Terms:

Trade date: Monday, September 15, 2008
Effective date: Tuesday, September 26, 2006
Protection Seller: [Goldman Sachs International]
Protection Buyer: [GSC entity]
Termination Date: September 26, 2045
Non-Call Period: ends on September 26, 2009
Amortization Type: Modified Sequential

Michael, I reviewed your list of names we wanted to ramp for Ilustra Mecz. The amount we would like to short into the deal is noted in the GSC Hedge amount column. The amount not for bid is noted in the following column (SM - GSC Hedge Amount).

We would love if your desk wanted to trade some of the ones we want to hedge as well.

Let us know what your levels are if you want to bid, and if so have approval to trade the names.

Thanks,

Josh

Wall Street & The Financial Crisis
Report Footnote #2307

GS MBS-E-000905571
Footnote Exhibits - Page 4358

From: Brodérick, Craig
Sent: Thursday, February 06, 2007 11:55 AM
To: Vinard, David; Fonel, Edward (BSIDSS)
Cc: Raphegel, Alan; Wildermuth, David; Sparks, Daniel L
Subject: New Century - restatement of earnings, 4th qtr loss, material control weaknesses, shares down 30%

Per the below, this is a materially adverse development. The issues involve inadequate EPU provisions and marks on residuals. The company reports substantial liquidity and the changes are non-cash in nature, but in a confidence sensitive industry it will be ugly even if all problems have been identified.

We have relatively significant exposure - $13mm in prospective losses from EPU claims alone, and $79mm or so in potential exposure, under substantial mortgage warehouse and whole loan trading lines to this entity. With $1.6bn in market cap and $2bn in book equity, they were considered one of the stronger sub-prime originators.

We have a call with the company in a few minutes (to be lead by Dan Sparks) and will follow up with a posting later today on our conclusions and action plan.

Feb. 9 (Bloomberg) — Shares of New Century Financial Corp., the second-largest home lender to the riskiest borrowers, plunged 28 percent, the most since October 1998, when the Russian debt crisis was cutting off sales of such loans in securities.

Shares of the Irvine, California-based company tumbled 80.58 to $21.58 at 9:57 a.m. in New York Stock Exchange composite trading. New Century late yesterday said it probably lost money last quarter, will need to restate other 2006 earnings lower, and won’t make as many loans this year as it had previously forecast.

Also today, HSBC Holdings PLC announced a management shake up and changes to lending policies, after saying it was setting aside 20 percent more for bad-loan provisions than analysts had estimated because of rising problems in its U.S. mortgage business. Problems with new subprime loans increased last year as a result of a slumping housing and tighter lending standards.

"It’s kind of a watershed moment where the magnitude of the problems really are starting to come to the surface," said Brian Henry, general partner at Aurelian Partners LP in New York, which has sold short shares of New Century. "If you could fog a mirror, you could get a loan." Contributing to New Century’s restatement and fourth-quarter loss are repurchases of previously sold loans, the company said. Subprime loan buyers typically can force lenders to buy back the mortgages they sell if borrowers miss their first few payments, any type of fraud is discovered, or the loans otherwise fail to meet the guidelines laid out in a sales contract.
He is right next to me - going through the anderson marks now.

Subject: Hudson mess

Here is what I am thinking on Hudson mess - we fix the marks that for the hudson mess that did not get in. I have Barrett looking into how to get the spo's to flow downstream through it to controllers - that would eliminate variance which will get focused on big time.

At the same time mark anderson positions we are facing the warehouse at the right level.

What do you think?

Preferred to have the discussions over the phone.

"Fair" is this better be marked at Herbert levels in our book if not and we are forced to liquidate then on Monday we really have no case.

We need to make sure all internal positions are marked appropriately because we will be asked to let people out of positions over the next few days.

Subject: FW Quarter End Marks

Any comments or below before I send to Sal per Dan's request?

COO Warehouses Outstanding

Each warehouse is marked by either (a) MTM on each asset or (b) mark to model which involves taking the portfolio through the expected COO execution and calculating Goldman’s P&L given current market yields on debt and equity. MTM is preferred if COO execution is highly uncertain or portfolio is small. Both the MTM and the MMModel take into account risk sharing arrangements with 3rd parties.

As COO execution has become more uncertain we have moved a couple warehouses closer to their MTM which has significantly increased our losses. Also, our MMModel results have shown losses at expected liability spreads have widened significantly and the overall strength of the COO Market has waned due to fundamental credit decline in 06/07 in NOSB subprime (90% of assets) and increased correlation between ABX/TAWM levels and risk free levels in COOs. We expect this correlation to increase volatility in our warehouse marks for the at least the next month and the correlation is getting closer to 1 as global markets get more familiar with fundamentals in subprime and trading levels in ABX/TAWM.

Additional losses have also resulted from the liquidation of 3 warehouses. In each case, the realized loss from the sale of assets has been higher than our MTM or MMModel. This is attributable to both volatility in subprime markets and that our competitors are closing their COO warehouse accounts from buying our subprime or COO positions. The buyer base has suddenly shrunk significantly. As this continues, we expect this lack of liquidity to further weaken our MTMs and feeds into our losses in our remaining warehouse marks.

To: Sparks, Daniel L
Cc: Lee, Brian J (PF Controllers); Simpson, Michael; Leventhal, Robert
Subject: Quarter End Marks

Dan,

Given the magnitude and frequency of market swings over the past few weeks, we'd like to request some assistance from your team with regard to quarter end pricing levels. Specifically, we'd like to get a write-up of the fundamental or quantitative analysis, coupled with the market technicals, that support today's closing levels for general groupings of positions (for example, all BBB fl oats) for the following areas:

- CDO Warehouse (Ostrem)
- CDO Warehouse collapsed (Ostrem)
- Secondary cash positions (Owenon)
- Subprime whole loans (Michie)
- Subprime retained (Michie)
- CDO retained (Case)
- Subprime retains (Michie)
- 2nds liquidity reserve (Owenon or Darlush)

This feedback will be extremely helpful for us, especially when you consider how many sectors are affected by the recent market events.

Thanks in advance for supporting this request.

Subject: RE: Anderson Mezz Funding 2007-1 - Final Offering Circular (144a/Rag5) (external)

May be interesting for him to look at the A-1s if he's concerned about downgrades. No triggers above the bonds, back-ended cash flow super senior risk (so higher wider than A1-E7) but the spreads get paid pro-rata with the A-1s in the event an OC test fails. Way to pick up wider spread super senior risk which is likely to pay due to OC test failure/downgrades.

Subject: RE: Anderson Mezz Funding 2007-1 - Final Offering Circular (144a/Rag5) (external)

Andy,

We're going to pass on the deal for a number of reasons:

- Two bonds (FMIG 06-3 MB and HASS 06-NC1 MB) have been downgraded or are on negative watch
- Another 12 bonds in the portfolio are negatively impacted by downgrades lower in the capital structure
- 28% of the portfolio is failing delinquency triggers
- We show that a lot of these bonds will take principal hits
- Not crazy about deal structure give the quality of the portfolio
  - Upon a breach of Class C OCC test, interest is used to pay down Class D notes (I would rather see the A and B notes get paid down)
  - Upon a breach of the Class C OCC test, interest is used to pay down Classes A, B, and C pro-rata until 50% factor. (again, I would prefer to see A and B notes get paid off first)
  - If Senior tests are in compliance, Class D and C interest shortfalls are paid from principal
  - Pro-rata paydown until 40% factor, not the standard 50%

A $500 Million Static Mezzanine Structured Product CDO
Goldman, Sachs & Co. – Liquidation, Structuring, and Placement Agent
Debt Marketing Book

February 2007

The information contained herein is indicative only and the actual terms of any transaction will be set forth in the definitive Offering Circular.
I. Executive Summary

Note: The information in this section is preliminary and subject to change.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000855353
Anderson Mezzanine Funding 2007-1, Ltd.

Executive Summary

- Anderson Mezzanine Funding 2007-1, Ltd. ("Anderson Funding") is a static $500 million cashflow CDO consisting of a diversified portfolio of RMBS and CDO securities.

- Anderson Funding will be a static, non-managed transaction. Anderson Funding will provide term non-recourse funding, Goldman Sachs will:
  - Warehouse assets during the portfolio aggregation phase prior to closing
  - In its role as Liquidation Agent, Goldman Sachs will liquidate any asset within one year after such asset performs below certain threshold levels determined prior to closing

- The portfolio consists of collateral which is rated at least Baa3 (if rated by Moody's) and BBB- (if rated by S&P) with an average rating of Baa2/Baa3. 100% of the portfolio will be real-estate related securities.

- Low fee structure and less "barbelled" portfolio than other mezzanine CDOs in the current market.

- Transaction co-sponsored by Goldman Sachs and GSC Elliot Bridge (an ABS and CDO hedge fund managed by GSC Group).

The Issuer and neither any of its affiliates, nor any person acting on its behalf, makes any representation or warranty as to the accuracy, completeness or adequacy of any information contained herein or that the future performance of any security or instrument discussed or described in the information contained herein will be as projected. The information contained herein does not purport to contain all of the information that may be required by law for an offering of interests in the Issuer and does not constitute an offering of interests in the Issuer under the laws of any jurisdiction, and is not intended to provide a complete description of the business, financial condition or results of operations of the Issuer. Any representation to the contrary is a criminal offense. The Issuer described herein will be subject to certain restrictions on transfers as described in the Offering Circular.

None of the Issuer, Goldman Sachs & Co. (as used herein, such term shall include Goldman, Sachs & Co. and all of its affiliates), nor any of their respective affiliates makes any representation or warranty, express or implied, as to the accuracy or completeness of the information contained herein and nothing contained herein shall be relied upon as a promise or representation whether as to the past or future performance. The information includes hypothetical illustrations and involves modeling components and assumptions that are not expected to be realized and are subject to change. Any representation or warranty relating to such hypothetical illustrations or that all assumptions relating to such hypothetical illustrations have been considered or made or that such hypothetical illustrations will be realized. The information contained herein does not purport to contain all of the information that may be required by law for an offering of interests in the Issuer and does not constitute an offering of interests in the Issuer under the laws of any jurisdiction, and is not intended to provide a complete description of the business, financial condition or results of operations of the Issuer. Any representation to the contrary is a criminal offense. The Issuer described herein will be subject to certain restrictions on transfers as described in the Offering Circular.

None of the Issuer, Goldman Sachs & Co. (as used herein, such term shall include Goldman, Sachs & Co. and all of its affiliates), nor any of their respective affiliates makes any representation or warranty, express or implied, as to the accuracy or completeness of the information contained herein and nothing contained herein shall be relied upon as a promise or representation whether as to the past or future performance. The information includes hypothetical illustrations and involves modeling components and assumptions that are not expected to be realized and are subject to change. Any representation or warranty relating to such hypothetical illustrations or that all assumptions relating to such hypothetical illustrations have been considered or made or that such hypothetical illustrations will be realized. The information contained herein does not purport to contain all of the information that may be required by law for an offering of interests in the Issuer and does not constitute an offering of interests in the Issuer under the laws of any jurisdiction, and is not intended to provide a complete description of the business, financial condition or results of operations of the Issuer. Any representation to the contrary is a criminal offense. The Issuer described herein will be subject to certain restrictions on transfers as described in the Offering Circular. Additional information may be available upon request. The securities and obligations of the Issuer are not issued by, obligations of, or guaranteed by Goldman Sachs, or their respective affiliates, or any other organization. In particular, the obligations of the Issuer are not appeal obligations of any Federal institution. The securities and obligations of the Issuer are complex, structured securities and there is no assurance that a secondary market for such securities will exist at any time. Accordingly, prospective investors should be prepared, and have the ability, to hold such securities until their respective global indices or related benchmarks decline.
Disclaimer

HYPOTHETICAL ILLUSTRATIONS AND PRO FORMA INFORMATION

These materials contain statements that are not purely historical in nature. These include, among other things, hypothetical illustrations, sample or pro forma portfolio structures or portfolio composition, scenario analysis of returns and proposed or pro forma levels of diversification or sector investment. These hypothetical illustrations of returns illustrate a range of potential outcomes based upon certain assumptions. Such potential outcomes are not a prediction by the Issuer, Goldman Sachs or their respective affiliates of the performance of the securities described herein. Actual events are difficult to predict and are beyond the control of the Issuer, Goldman Sachs, or their respective affiliates. Actual events may differ from those assumed and such differences may be material. There can be no assurance that illustrated returns will be realized or materialized or that actual returns or results will not be materially lower than those presented. All statements included are based on information available on the date hereof, and none of the Issuer, Goldman Sachs or their respective affiliates assumes any duty to update any such statement. Some important factors which could cause actual results to differ materially from those in any statements contained herein include the actual composition of the collateral and the price at which such collateral is actually purchased by the Issuer, any defaults on the collateral, the timing of any defaults and subsequent recoveries, changes in interest rates, and any weakening of the specific credits included in the collateral, among others. The Offering Circular will contain other risk factors, which an investor should also consider in connection with an investment in the securities described herein.

PRIOR INVESTMENT RESULTS

Any prior investment results or returns are presented for illustrative purposes only and are not indicative of the future returns on the securities and obligations of the Issuer. Because of portfolio restrictions that apply to the Issuer and differences in market conditions, the investments selected by Goldman Sachs on behalf of the Issuer may differ substantially from prior investments made by Goldman Sachs. The Issuer has no operating history.
Risk Factors

Note: The Offering Circular will include more extensive descriptions of the risks described herein as well as additional risks relating to, among other things, conflicts of interest. Any investor should consider the risks described herein and the risks described elsewhere in the Offering Circular. The offeror is not engaged in the underwriting of the securities, nor does the offeror have any role in the distribution of the Offering Circular.

Limited Liabilities, Restrictions on Transfer and Limited Redemption

- There is no publicity on record for the Security Notes or income notes and it is unlikely that any secondary market will develop. The Security Notes and the income notes should be viewed as a long-term investment, not as a trading vehicle. All sales of the Security Notes and the income notes may vary and the Security Notes and the income notes, if sold, may be worth more than their original cost.
- In addition, the Security Notes and the income notes for purchase by the Offeror and the Offeror will be sold in transactions exempt from SEC registration pursuant to Section 429 of the Securities Act of 1933, Rule 144A, as and under the rules and regulations of the Commission. The Security Notes and the income notes may be resold at any time, if and to the extent permitted by law. The Offeror will have no obligation to register the Security Notes or the income notes prior to the sale of the Offeror.
- All sales are subject to the cash flow available from the collateral pledged by the issuer to secure all of the Security Notes. All sales will be available for payment in the event of any deficiency. The income notes are subject to the same risks and liabilities as the Security Notes.
- The income notes are payable from the collateral (which represent the only assets of the issuer) only after payment in full of all other debentures due on the Security Notes.
- Limited Credit Risk:
- The Security Notes are in a first-loss position and the underlying collateral. The leveraged nature of the income notes magnifies the extent of any collateral defaults.
- Subordination:
- The Security Notes and the income notes are issued in a senior-subordinated structure, with the Class A Notes having the highest claim on the collateral. The payments on the income notes will be made only if, after the payment of the Class A Notes, there is any collateral left.
- Volatility of Collateral and of Security Notes and Income Notes’ Market Value:
- The income notes represent a leveraged investment in the collateral. The volatility of the collateral is subject to market conditions and will be subject to market risk. The income notes are dependent upon the market value of the collateral.
- Collateral Risk:
- The collateral is subject to a variety of credit risks. The collateral is subject to a variety of credit risks. The collateral is subject to a variety of credit risks.
Risk Factors

- Liquidity of collateral assets
  - Some of the collateral assets purchased by the Issuer will have no, or only a limited, trading market. This lack of liquidity may restrict the Issuer's ability to dispose of investments in a timely fashion and for a fair price and also its ability to take advantage of market opportunities.
  - Illiquid debt securities may also trade at a discount to comparable, more liquid investments. In addition, the Issuer may need to privately place collateral assets that are not transferable or are transferable only at prices less than the fair value or the original purchase price of the securities.

- Nature of Collateral
  - The Collateral Assets are subject to credit, liquidity and interest rate risk. In addition, the Issuer's investment performance may be affected by the price and availability of Collateral Assets to be purchased.
  - Some or all of the Collateral Assets may be acquired at a discount, which may be subject to certain restrictions and limitations under the indenture.

- No Collateral Manager
  - The Issuer will not engage a Collateral Manager. As a result, the Collateral Assets held by the Issuer on the Closing Date will be retained by the Issuer even if a Collateral Manager does not have the best interests of the Issuer or the holders of the Income Notes and Secured Notes in its opinion of the Collateral Assets unless the Collateral Manager is required to be by the Liquidation Agent as described in the indenture and the liquidation will eliminate the ability of the Issuer to exercise discretion in contexts where a Collateral Manager is not required; or to exercise discretion in contexts where a Collateral Manager is not required; or to exercise discretion in contexts where a Collateral Manager is required; or to exercise discretion in contexts where a Collateral Manager is required; or to exercise discretion in contexts where a Collateral Manager is required.

- Timing and Amount of Recoveries
  - The Collateral Assets may be sold and the proceeds may be used to repay the Issuer even if the proceeds are not sufficient to pay the full amount of the obligations of the Issuer. The Issuer may not sell the Collateral Assets if the proceeds are not sufficient to pay the full amount of the obligations of the Issuer. The Issuer may not sell the Collateral Assets if the proceeds are not sufficient to pay the full amount of the obligations of the Issuer. The Issuer may not sell the Collateral Assets if the proceeds are not sufficient to pay the full amount of the obligations of the Issuer. The Issuer may not sell the Collateral Assets if the proceeds are not sufficient to pay the full amount of the obligations of the Issuer.

- Limited Utilities of the Co-Issuers
  - The Co-Issuers are the entities that issue the Collateral Assets and have no prior operating history or prior businesses, other than those businesses that are ongoing. The Co-Issuers may not engage in any business activity other than the business of issuing the Collateral Assets and the Collateral Manager may not engage in any business activity other than the business of managing the Collateral Assets. The Issuer may not sell the Collateral Assets if the proceeds are not sufficient to pay the full amount of the obligations of the Issuer. The Issuer may not sell the Collateral Assets if the proceeds are not sufficient to pay the full amount of the obligations of the Issuer. The Issuer may not sell the Collateral Assets if the proceeds are not sufficient to pay the full amount of the obligations of the Issuer. The Issuer may not sell the Collateral Assets if the proceeds are not sufficient to pay the full amount of the obligations of the Issuer.

- Investment of Credit Quality and Defaults on the Collateral
  - The Collateral Manager is not required to engage in any business activity other than the business of managing the Collateral Assets. The Issuer may not sell the Collateral Assets if the proceeds are not sufficient to pay the full amount of the obligations of the Issuer. The Issuer may not sell the Collateral Assets if the proceeds are not sufficient to pay the full amount of the obligations of the Issuer. The Issuer may not sell the Collateral Assets if the proceeds are not sufficient to pay the full amount of the obligations of the Issuer. The Issuer may not sell the Collateral Assets if the proceeds are not sufficient to pay the full amount of the obligations of the Issuer.

- Yield and Prepayment Risk
  - The yield to maturity on the Income Notes could be affected by the rate of prepayment of the Collateral Assets. Payments to the Income Notes at a rate slower than the rate anticipated by investors purchasing the Income Notes at a discount will result in an actual yield that is lower than anticipated by such investors. Conversely, payments to the Income Notes at a rate faster than the rate anticipated by investors purchasing the Income Notes at a premium will result in an actual yield that is lower than anticipated by such investors.
Risk Factors

- **Investment Decisions**
  - In making an investment decision, investors must rely on consultations with their own legal, accounting and credit advisors to determine what extent they should invest in the Notes or the Income Notes.

- **Change in the Rate of Interest on the Notes**
  - If the interest rate on the Notes changes, the interest rate on the Income Notes may change more frequently or less frequently, or on different dates and based on different indices than the interest rate on the Notes. The fixed-rate and the notional rate will be adjusted based on the changes in the benchmark indices, and may be higher or lower than those in the Notes for collateral collateral assets which could cause a significant change in interest earnings for the Notes.

- **Termination of the Notes**
  - The issuer may enter into a cash settlement agreement in the event of the termination of the Notes, but any assurance can be given that such cash settlement agreements will be executed or will be successful in reducing the exposure to this risk. However, there may be a termination payment related to one or more cash settlement agreements in the event of a redemption of the Notes prior to the expiration of the cash settlement agreement.

- **Credit Exposure to Counterparty**
  - On the closing date, the issuer will enter into pay-in-kind credit default swaps on the synthetic securities (the Counterparty), pursuant to which the issuer will sell credit default protection with respect to a portfolio of Reference Obligations. If a credit event occurs with respect to any of the Reference Obligations, the issuer will pay the Counterparty the amount of the notional principal or principal in an amount equal to the notional amount of the Synthetic Securities. In the event of a credit event, the Counterparty will pay the issuer a premium which may be reduced (but not below zero) if certain Reference Obligations experience interest shortfalls. Credit events and interest shortfalls may adversely affect the issuer's ability to make payments on the Notes and the Income Notes.

- **Nature of Reference Obligations**
  - The Reference Obligations are expected to consist of RMBP and CDO securities. The Reference Obligations are subject to the credit, market, liquidity, legal, payment and interest rate risks associated with RMBP and CDO securities, respectively. The economic return on the Reference Obligations will depend substantially upon the performance of the Reference Obligations.

- **Termination of the Synthetic Securities**
  - Pursuant to the Synthetic Securities, the issuer or the Counterparty will each have the right to terminate the Synthetic Securities in specified circumstances. In such event, the issuer may be required to buy back and settle the Reference Securities and the issuer will reimburse the Counterparty for any amounts paid by the Counterparty under the Synthetic Securities. As a result, the issuer may not have sufficient funds to make payments when due on the Notes and Income Notes and may not have sufficient funds to redeem the Notes and Income Notes.

- **Credit Exposure to Counterparty**
  - The ability of the issuer to meet its obligations under the Notes and the Income Notes will depend on the receipt of payments from the Counterparty under the Synthetic Securities. Consequently, investors may be exposed not only to the creditworthiness of the Counterparty but also to the creditworthiness of the Counterparty to perform its obligations under the Synthetic Securities. The default by the issuer of a Synthetic Security would adversely affect the ability of the issuer to pay interest when due under the Secured Notes and make distributions on the Income Notes and could result in a withdrawal or downgrade of the ratings on the Secured Notes.
Risk Factors

- Tax Treatment of Income Notes
  - Since the issuer will be a passive foreign investment company, U.S. person holding Income Notes may be subject to additional taxes unless it elects to treat the issuer as a qualified electing fund and to recognize currently its proportionate share of the Issuer’s income. The Issuer has agreed, and by its acceptance of an Income Note, each holder of an Income Note will be deemed to have agreed, to treat the Income Notes as equity for tax purposes.
  - Income Notes investors should consult their tax advisors about the special U.S. tax regimes that apply to shareholders of passive foreign investment companies and controlled foreign corporations.
  - Special tax considerations may apply to certain types of investors. Prospective investors should consult their own tax advisors regarding the tax implications of their investments.

- Subordination
  - The Income Notes are subordinated to Series A Notes, Class B Notes, Class C Notes, and Class D Notes and certain payments of expenses. The Class B Notes are subordinated to the Class A Notes, Class C Notes, Class D Notes and certain payments of expenses. The Class C Notes are subordinated to the Class D Notes, Class B Notes, and certain payments of expenses. The Class B Notes are subordinated to the Class A Notes, Class C Notes, and certain payments of expenses. No distributions of interest proceeds received on the collateral will be made to the Income Notes until interest on the Secured Notes and certain other expenses have been paid. In addition, in the event of default, holders of the most senior class of Secured Notes will generally be entitled to receive payments to the extent that the proceeds of the collateral and have an adverse effect on the Income Notes. The Income Notes will not be able to exercise any remedies following an event of default and will not receive payments after an event of default until the Secured Notes are paid in full.

- Impairment of Credit Quality and/or Defaults on the Collateral Assets
  - Decline in credit quality of the collateral or defaults could result in losses which would adversely affect the Notes and the Income Notes.
  - There may be certain bankruptcy or creditor concentrations in the CDO, all of which could have a material adverse impact on the Notes and the Income Notes in the event of economic downturn or other events affecting the credit quality of any of the collateral.

- Redemption of Class A-1, A-2, B, and D Notes
  - If certain overcollateralization or internal coverage tests are not met, redemptions of the Notes A-1, A-2, B, and D Notes would be required, which may affect the yields on more subordinated classes of Notes and the Income Notes and will be paid from amounts otherwise available for payment to holders of the Income Notes.

- Monetary redemption could result in an elimination, deferral or reduction in the payment to the Notes, which would adversely and materially affect their returns.

- Auction of the Collateral Assets
  - There can be no assurance that the auction of the collateral assets will be successful, a successful auction will shorten the duration of the Notes and the Income Notes and is not required to result in any proceeds for distribution to the holder of the Income Notes.
Risk Factors

- Anti Money Laundering
  • Uniting and Strengthening America by Providing Appropriate Tools Required to Interdict and Obstruct Terrorism Act of 2001 (the "USA PATRIOT Act"), signed into law on an emergency basis as of October 26, 2001, increases anti-money laundering obligations on different types of financial institutions, including banks, broker dealers and investment companies. The USA PATRIOT Act requires the Secretary of the United States Department of the Treasury (the " Treasury") to prescribe regulations to define the types of investment companies subject to the USA PATRIOT Act and the related anti-money laundering obligations. It is not clear whether Treasury will require entities such as the Issuer to adopt anti-money laundering policies. It is possible that Treasury will promulgate regulations requiring the Issuer to notify the United States of any action or other actions taken pursuant to effectuate anti-money laundering procedures, to share information with governmental authorities with respect to investors in the Notes and/or the income Notes. Such regulations and/or regulations would require the Issuer to implement additional restrictions on the transfer of the Notes and/or the income Notes. As may be required, the Issuer reserves the right to require such information and take such action as are necessary to enable it to comply with the USA PATRIOT Act.

- Investment Company Act
  • Neither of the Issuers has registered with the United States Securities and Exchange Commission as an investment company pursuant to the Investment Company Act. The Issuer has not so registered in reliance on an exemption for investment companies organized under the laws of a jurisdiction other than the United States whose investors resident in the United States are subject to Anti-Money Laundering or similar laws. The Issuer has not so registered, in connection with the sale of the Notes by the Initial Purchaser, that neither the Issuer nor the Initial Purchaser is a "covered person," as such term is defined under the Investment Company Act (as amended, in the absence of such registration is required by the Initial Purchaser in accordance with the terms of the Purchase Agreement). No opinion or reservation of position has been requested of the SEC.

ERISA Regulations

- Issuer's counsel have reviewed the "ERISA Considerations" section of the Offering Circular to determine their eligibility to fund the Notes and the income Notes for purposes of the ERISA restrictions. Prospective investors should consult their own advisors regarding the ERISA-related implications of their investment.

European Economic Regulations

- The listing of Notes or income Notes in any European Union stock exchange would subject the Issuer to regulation under certain European regulations, although the requirements applicable to the Issuer are not yet fully clarified. The Issuance will not require the Issuer to apply for, list or maintain a listing for any Class of Notes or income Notes on a European Union stock exchange if compliance with these regulations becomes burdensome. Should the Issuer list any Notes or income Notes in any stock exchange, the holders of the Notes or income Notes will be entitled to receive and sell such Notes or income Notes to the secondary market may be negatively impacted.

Material Tax Considerations

- The Issuer does not expect to be subject to any income taxation in the United States. If the Issuer were treated as engaged in a United States trade or business, it would be subject to substantial U.S. income tax on its income.
Anderson Mezzanine Funding 2007-1, Ltd.

Transaction Overview

- Anderson Mezzanine Funding is a static mezzanine structured product CDO with the following features:
  - No exposure to reinvestment spread risk or reliance on reinvestment to generate excess interest to cover debt service
  - No fixed rate assets
  - No assets without an initial rating of at least Baa3 by Moody's and BBB- by S&P. Average WARF in the portfolio is expected to be 500
  - Overall fee structure is significantly less than comparable mezzanine structured product CDOs in the market

- There will be no reinvestment, substitution, discretionary trading or discretionary sales. After closing, assets that are determined to be "credit risk" securities will be sold by the Liquidation Agent within one year of such determination

- Goldman Sachs will act as Structuring, Placement and Liquidation Agent for Anderson Funding and will warehouse the portfolio prior to closing
  - Goldman Sachs will receive 5 bps ongoing fee for its role as Liquidation Agent

- Portfolio selection process:
  - Assets sourced from the Street at then market levels
  - Assets pre-screened and evaluated for portfolio suitability
  - Goldman Sachs CDO desk reviews individual assets in conjunction with respective mortgage trading desks
  - All CDS use rating agency approved confirms (pay as you go)
Anderson Mezzanine Funding 2007-1, Ltd.
Transaction Overview - Asset Selection / Asset Liquidation

- Portfolio Aggregation Strategy:
  - Select only assets rated explicitly Baa3/BBB- (Moody’s / S&P) and above. No notched rating of below Baa3 in the portfolio
  - No Fixed rate assets allowed, eliminating fixed/ floating basis mismatch
  - Maximum obligor concentration is 1.5%, creating a very granular portfolio with 100 distinct obligors
  - Target portfolio with Weighted Average Rating Factor of [475] and duration weighted average spread of [205] bps

- Goldman Sachs, as Liquidation Agent, will liquidate any asset determined to be a “credit risk” asset within 12 months of such determination. “Credit risk” assets will include:
  - Any asset downgraded by Moody’s or S&P to below B3 or B-
  - Any asset that is defaulted and experiences a credit event as defined by the PAUG confirm

- Expected collateral quality statistics at closing
  - WARF: [475]
  - [100] Distinct Obligors
  - Moody’s Asset Correlation (“MAC”) at closing: [26]
  - Duration weighted average portfolio spread: [205] bps
  - Weighted Average Duration: 3.1 years

Anderson Mezzanine Funding 2007-1, Ltd.
Structural Overview

- Anderson Mezzanine Funding is a cashflow CDO with:
  - A fully issued capital structure
  - Traditional overcollateralization tests

- Structure has the ability to tailor average life profile of senior tranches upon investor request

- Class A-1 Notes may be issued either in funded form or as an unfunded swap, depending on investor preference

- The deal will use a "modified sequential" principal paydown structure

- No Minimum Income Note IRR required to effect an auction call
  - Increases the likelihood of a successful auction call or optional redemption
  - Mitigates the back ended pressure on transaction as costs of financing increases

- Turbo to Class D Notes from excess interest shortens the tranche's expected average life

Levered RMBS Structural Alternatives
Transaction Variant Summary

- Given that there are a variety of products allowing investors to take levered exposure to RMBS, it is important to understand structural similarities and differences.
- Three distinct types of transactions are considered for this comparison:

<table>
<thead>
<tr>
<th>NAME</th>
<th>GENERAL DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cashflow CDO</td>
<td>Fully issued transaction in which a selection agent or third party collateral manager selects the assets to be repackaged through CDO. Cash proceeds from collateral assets flow through a waterfall to pay the issued Notes and Income Notes, which are broadly syndicated.</td>
</tr>
<tr>
<td>Bespoke Transaction</td>
<td>Customized transaction negotiated between the collateral desk and a &quot;sponsor&quot; investor/ portfolio manager, who generally takes credit risk at one or more layers of the capital structure. Layers of risk not assumed by &quot;sponsor&quot; investor/ portfolio manager are either hedged by the structured product correlation desk or distributed in subsequent offerings.</td>
</tr>
<tr>
<td>Tranched ABX</td>
<td>Standardized ABX tranche trading referencing both the Baa2 and Baa3 variants of the on-the-run and immediately off-the-run <a href="mailto:A@X.HE">A@X.HE</a> indices. The product has sponsorship from all ABX dealers and uses a market standard collat.</td>
</tr>
</tbody>
</table>

- Anderson Mezzanine Funding 2007-1, Ltd. is a cashflow CDO

<td>Borne by Structured Product Correlation Book</td>
</tr>
</tbody>
</table>
## Levered RMBS Structural Alternatives

### Comparison of Key Structural Differences

<table>
<thead>
<tr>
<th>Feature</th>
<th>Alternatives</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Portfolio Amortizations</strong></td>
<td>Sequential</td>
<td>Amortizations allocated sequentially</td>
</tr>
<tr>
<td></td>
<td>Modified</td>
<td>Amortizations allocated sequentially to each tranche until the target OC rim (set at a level greater than initial OC rim) is reached, then amortizations are allocated to subordinate tranche</td>
</tr>
<tr>
<td></td>
<td>Modified Pro-Rate</td>
<td>Amortizations allocated in a pro-rata fashion until portfolio amortization is 50% of initial balance</td>
</tr>
<tr>
<td><strong>Callability</strong></td>
<td>No Cell</td>
<td>Transaction may not be optionally terminated in part or in whole</td>
</tr>
<tr>
<td></td>
<td>Equity Cell</td>
<td>Transaction may be terminated in whole after the non-call period given a majority vote of the equity holders</td>
</tr>
<tr>
<td></td>
<td>Tranche by Tranche</td>
<td>Transaction may be terminated either in part or in whole at the option of the protection buyer</td>
</tr>
<tr>
<td><strong>Triggers</strong></td>
<td>Yes</td>
<td>Built-in mechanisms that diverts cashflows from equity and potentially junior debt to senior debt should over-collateralization and/or interest coverage metrics under-perform initial expectations</td>
</tr>
<tr>
<td></td>
<td>No</td>
<td>No cashflow diversion based on metric underperformance</td>
</tr>
</tbody>
</table>

Anderson Mezzanine Funding 2007-1

Executive Summary

- Anderson Mezzanine Funding 2007-1 ("Anderson Funding") will be a static $500 million cashflow CDO consisting of a diversified portfolio of RMBS and CDO securities.

- Goldman Sachs and GSC Group ("GSC") co-selected the assets.

- Anderson Funding will be non-managed and static in nature. Anderson Funding will provide term non-recourse funding. In its role as Liquidation Agent, Goldman Sachs will:
  - Warehouse assets during the portfolio aggregation phase prior to closing
  - Liquidate any asset within one year after such asset performs below certain threshold levels determined prior to closing

- The portfolio consists of collateral which is rated at least Baa3 (if rated by Moody’s) and BBB- (if rated by S&P) with an average rating of Baa2/Baa3. 100% of the portfolio will be real-estate related securities.

- Low fee structure and less "barbell" portfolio than other mezzanine CDOs in the current market.

- Transaction co-sponsored by Goldman and GSC Elliot Bridge (an ABS and CDO hedge fund managed by GSC Group). Goldman Sachs and GSC has aligned incentives with Anderson Funding by investing in a portion of equity.
II. Disclaimer and Risk Factors
Disclaimer

HYPOTHETICAL ILLUSTRATIONS AND PRO FORMA INFORMATION

These materials contain statements that are not purely historical in nature. These include, among other things, hypothetical illustrations, sample or pro forma portfolio structures or portfolio composition, scenario analysis of returns and proposed or pro forma levels of diversification or sector investment. These hypothetical illustrations of returns illustrate a range of potential outcomes based upon certain assumptions. Such potential outcomes are not a prediction by the Issuer, Goldman Sachs or their respective affiliates of the performance of the securities described herein. Actual events are difficult to predict and are beyond the control of the Issuer, Goldman Sachs, or their respective affiliates. Actual events may differ from those assumed and such differences may be material. There can be no assurance that illustrated returns will be realized or materialized or that actual returns or results will not be materially lower than those presented. All statements included are based on information available on the date hereof, and none of the Issuer, Goldman Sachs or their respective affiliates assumes any duty to update any such statement. Some important factors which could cause actual results to differ materially from those in any statements contained herein include the actual composition of the collateral and the price at which such collateral is actually purchased by the Issuer, any defaults on the collateral, the timing of any defaults and subsequent recoveries, changes in interest rates, and any weakening of the specific credits included in the collateral, among others. The Offering Circular will contain other risk factors, which an investor should also consider in connection with an investment in the securities described herein.

PRIOR INVESTMENT RESULTS

Any prior investment results or returns are presented for illustrative purposes only and are not indicative of the future returns on the securities and obligations of the Issuer. Because of portfolio restrictions that apply to the Issuer and differences in market conditions, the investments selected by Goldman Sachs as on behalf of the Issuer may differ substantially from prior investments made by Goldman Sachs. The Issuer has no operating history.
Risk Factors

Note: The Offering Circular will include more extensive descriptions of the risks described herein as well as additional risks relating to, among other things, market or economic conditions. Any decisions to invest in the securities described herein should be made after reviewing such Offering Circular, evaluating such investments as the investor deems necessary and considering the investor’s own risk, return and tax objectives in order to make an independent determination of the suitability and consequences of an investment in the securities. The Offering Circular will supersede this document in its entirety.

- Limited Liquidity, Ratings on Transfer and Limited Recourse
  - There is currently no market for the Secured Notes or Income Notes and it is unlikely that any secondary market will develop. The Secured Notes and the Income Notes should be viewed as a long-term investment, not as a short-term vehicle. The value of the Secured Notes and the Income Notes may vary and the Secured Notes and the Income Notes, if sold, may be worth less than their original cost.
  - In addition, the Secured Notes and the Income Notes will be sold in transactions exempt from SEC registration pursuant to Section 4(2) Rule 506, and the issuer will not be registered under the Investment Company Act of 1940 pursuant to the Section 3(17) Related Institutions, as well as other restrictions on resale of the Income Notes will apply.
  - All transfers are subject to the consent of the collateral pledged by the issuer to secure all classes of Notes. No other assets will be available for payment in the event of any deficiency. The Income Notes represent equity in the Issuer and do not represent ownership in the Secured Notes.
  - The Income Notes are repaid from the collateral (which represent all assets of the Issuer) only after payment in full of amounts due on the Secured Notes.

- Leveraged Credit Risk
  - The Income Notes are in a first lien position with respect to defaults on the underlying collateral. The leveraged nature of the Income Notes magnifies the adverse impact of any collateral defaults.

- Volatility of Collateral and Secured Notes’ and Income Notes’ Market Value
  - The income Notes represent a leveraged investment in the Collateral. The use of leverage generally magnifies an issuer’s opportunities for gain and risk of loss. Therefore, changes in the market value of the Secured Notes and the Income Notes can be expected to be greater than changes in the market value of the underlying assets included in the collateral, which themselves are subject to credit, liquidity, and, with respect to the fixed rate portion of the portfolio, interest rate risk.
  - Changes in the market value of Issuer from one sector or industry may impact the market value of Issuer from one or more of other sectors or industries included in the collateral.

- Collateral Risk
  - Collateral Assets may not perform as expected because Issuer are primarily private entities.
  - The structure of Collateral Assets and the terms of the Issuer’s interest in the Collateral can vary widely depending on the type of collateral, investor requirements and the use of other credit enhancements.
  - Adverse changes in the financial condition of the collateral obligor or in general economic conditions may adversely affect the collateral obligor’s ability to pay principal and interest on its debt.
Risk Factors

1. Market conditions affecting Collateralized Notes results in the decrease in the value of the underlying assets. The value of the underlying assets is determined by the market conditions and is subject to fluctuations. The decrease in the value of the underlying assets may result in the decrease in the value of the Collateralized Notes.

2. The Collateral Manager's ability to maintain a Collateralized Notes results in the decrease in the value of the underlying assets. The Collateral Manager's ability to maintain a Collateralized Notes is subject to fluctuations. The decrease in the value of the underlying assets may result in the decrease in the value of the Collateralized Notes.

3. The Collateral Manager's ability to maintain a Collateralized Notes results in the decrease in the value of the underlying assets. The Collateral Manager's ability to maintain a Collateralized Notes is subject to fluctuations. The decrease in the value of the underlying assets may result in the decrease in the value of the Collateralized Notes.

4. The Collateral Manager's ability to maintain a Collateralized Notes results in the decrease in the value of the underlying assets. The Collateral Manager's ability to maintain a Collateralized Notes is subject to fluctuations. The decrease in the value of the underlying assets may result in the decrease in the value of the Collateralized Notes.

Confidential Treatment Requested by Goldman Sachs
Risk Factors

- International Investing
  - Investing outside the U.S. may involve greater risks which may include (1) less publicly available information, (2) varying levels of governmental regulation and supervision, (3) the difficulty of enforcing legal rights in a foreign jurisdiction and uncertainties as to the status, interpretation and application of laws, (4) less stringent accounting practices, (5) different clearance and settlement procedures, (6) economic and political conditions and instability, (7) exchange control and foreign currency risk, (8) insolvency and (9) expropriation risk.
  - A portion of the Collateral Assets may consist of obligations of on-lender organized under the laws of the Bahamas, Bermuda, the Cayman Islands, the Channel Islands, the Netherlands Antilles or other jurisdictions offering favorable tax treatment.

- Tax Treatment of Income Notes
  - Since the issuer will be a passive foreign investment company, a U.S. person holding income notes may be subject to additional taxes unless it elects to treat the issuer as a qualified interest fund and to recognize currently its proportionate share of the issuer's income. The income notes will be treated as equity for tax purposes.
  - Income notes无聊 should consult their tax advisors about the specific U.S. tax regimes that apply to shareholders of passive foreign investment companies, controlled foreign corporations and foreign personal holding companies.
  - Special tax considerations may apply to certain types of investors. Prospective investors should consult their own tax advisors regarding the tax implications of their investments.

- Material Tax Considerations
  - There is a possibility that the issuer will be found to be engaging in a U.S. trade or business. In such a case, it would be subject to substantial U.S. income tax on its income.

- Hypothetical Illustrations and Estimates
  - Estimates of the weighted average lives of the Class A, B, C, D and E Notes and of the recovery and duration of the income notes included herein, together with any other hypothetical illustrations and estimates provided to prospective purchasers of the Class A, B, C, D and E Notes, are forward-looking estimates. See "Hypothetical Illustrations and Pro Forma Information" on the disclaimer page in the beginning of this book.
  - The hypothetical illustrations are only estimates. Actual results may vary, and the variables may be material. See "Hypothetical Illustrations and Pro Forma Information" on disclaimer page in the beginning of this book.

- Changes in Tax Law
  - The Collateral Assets are not permitted to be subject to withholding tax at the time of purchase, unless the issuer thereof is required to make "gross-up" payments. There can be no assurance that, as a result of any change in any applicable law, treaty, rule or regulation or interpretation thereof, the payments on the collateral might not in the future become subject to withholding tax which could adversely affect the amounts that would be available to make payments on the income notes and the income notes.
  - In case of a Withholding Tax Event (as defined in the Offering Circular), holders of more than 50% of any affected note may require the issuer to liquidate the collateral on any Payment Date, and redeem the Class A, B, C, D and E Notes, prior to any distributions to holders of income notes.

Footnote Exhibits - Page 4411
Risk Factors

- Subordination
  - The Income Notes are subordinated to the Class A, Class B, Class C, Class D and Class E Notes and certain payments of expenses. The Class E Notes are subordinated to the Class A, Class B, Class C, Class D and Class E Notes and certain payments of expenses. The Class E Notes are subordinated to the Class A, Class B, Class C, Class D and Class E Notes and certain payments of expenses. The Class C Notes are subordinated to the Class A and Class B Notes and certain payments of expenses. The Class B Notes are subordinated to the Class A Notes and certain payments of expenses.
  - In the event of a default, holders of the most senior class of Secured Notes will generally be entitled to determine the remedies to be exercised and the parties to whom any remedies will be exercised. Holders of the Secured Notes may not be able to exercise any remedies following an event of default and will not receive payments after an event of default until the Secured Notes are paid in full.

- Credit Exposure to Portfolios of Reference Obligations
  - On the closing date, the Issuer will enter into pay-when-owed credit default swaps ("Synthetic Securitization") with Goldman Sachs International, ("GS") and its parent company, the "Counterparty," pursuant to which the Issuer will not credit default protection with respect to a portfolio of Reference Obligations. If a credit event occurs with respect to any of the Reference Obligations, the Issuer will pay the Counterparty the amount of the write-down or principal loss, or if written down, the counterparty will pay the Issuer the amount of the write-down or principal loss. If a credit event occurs with respect to any of the Reference Obligations, the Counterparty will pay the Issuer a premium which may be reduced (but not below zero) if certain Reference Obligations experience interest shortfalls. Credit events and interest shortfalls may adversely affect the Issuer's ability to make payments on the Notes and the Income Notes.
  - All Notes and Income Notes are subordinated to credit default protection payments under the Synthetic Securitization and to certain termination payments payable to the Counterparty in connection with a termination event. The magnitude of such losses will be affected by the number of credit events and the recovery amount of any delivered Reference Obligations and timing of such credit events.
III. Transaction Overview

Confidential Treatment Requested by Goldman Sachs
Anderson Mezzanine Funding 2007-1, Ltd.
Transaction Overview

- Anderson Mezzanine Funding is a “static” mezzanine structured product CDO with the following features:
  - No exposure to reinvestment spread risk or reliance on reinvestment to generate excess interest to cover debt
  - No fixed rate assets
  - No assets without an initial rating of at least Baa3 by Moody's and BBB- by S&P. Average WARF in the portfolio is expected to be 500
  - Overall transaction cost structure is significantly less than comparable mezzanine structured product CDOs in the market

- There will be no reinvestment, substitution, discretionary trading or discretionary sales. After closing, assets that are determined to be “credit risk” securities will be sold by the Liquidation Agent within one year of such determination

- Goldman Sachs will act as Structuring, Placement and Liquidation Agent for Anderson Funding and will warehouse the portfolio prior to closing
  - Goldman Sachs will charge 10 bps ongoing fee for its role as Liquidation Agent

- Goldman Sachs and GSC’s portfolio selection process:
  - Assets sourced from the Street at then market levels
  - GSC pre-screens and evaluates assets for portfolio suitability
  - Goldman Sachs CDO desk reviews individual assets in conjunction with respective mortgage trading desks (Subprime, Midprime, Prime, etc.) and makes decision to add or decline
  - All CDS use rating agency approved confirms (pay as you go)
Anderson Mezzanine Funding 2007-1, Ltd.
Transaction Overview - Asset Selection / Asset Liquidation

- Portfolio Aggregation Strategy:
  - Select only assets rated explicitly Baa3/BBB- (Moody's / S&P) and above. No notched rating of below Baa3 in the portfolio
  - No fixed rate assets allowed, eliminating interest rate swap basis mismatch
  - Maximum obligor concentration is 1.5%, creating a very granular portfolio with 100 distinct obligors
  - Target portfolio with Weighted Average Rating Factor of 500 and duration weighted average spread of 202 bps

- Goldman Sachs, as Liquidation Agent, will liquidate any asset determined to be a "credit risk" asset within 12 months of such determination. "Credit risk" assets will include:
  - Any asset downgraded by Moody's or S&P to below Baa3 or BBB-
  - Any asset that is defaulted and experiences a credit event as defined by the PAUG confirm

- Expected collateral quality statistics at closing
  - WARF: 500
  - 100 Distinct Obligors
  - Moody's Asset Correlation ("MAC") at closing: 27
  - Duration weighted average portfolio spread: 202 bps
  - Weighted Average Duration: 3.1 years

VI. Comparison of Levered RMBS Structures
## Comparison of Levered RMBS Structures

### Transaction Variant Summary

- Given that there are a variety of products allowing investors to take levered exposure to RMBS, it is important to understand structural similarities and differences.
- We will consider three distinct types of transactions in this comparison:

<table>
<thead>
<tr>
<th>NAME</th>
<th>GENERAL DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cashflow CDO</td>
<td>Fully Issued transaction in which a selection agent or third party collateral manager selects the assets to be repackaged through CDO. Cash proceeds from collateral assets flow through a waterfall to pay the issued notes, which are broadly syndicated.</td>
</tr>
<tr>
<td>Bespoke Transaction</td>
<td>Customized transaction negotiated between the origination desk and a “sponsor” investor/portfolio manager, who generally takes credit risk at one or more layers of the capital structure. Layers of risk not assumed by “sponsor” investor/portfolio manager are either hedged by the structured product correlation desk or distributed in subsequent offerings.</td>
</tr>
<tr>
<td>Tranchted ABX</td>
<td>Standardized ABX tranche trading referencing both the Baa2 and Baa3 variants of the on-the-run and immediately off-the-run ABX-HE indices. The product has sponsorship from all ABX dealers and uses a market standard collar.</td>
</tr>
</tbody>
</table>

# Comparison of Levered RMBS Structures

## Comparison of Key Structural Differences

<table>
<thead>
<tr>
<th>Feature</th>
<th>Alternatives</th>
<th>Description</th>
<th>Comment*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Portfolio Amortizations</td>
<td>Sequential</td>
<td>Amortizations allocated sequentially</td>
<td>Best for senior debt holders, worst for equity holders</td>
</tr>
<tr>
<td></td>
<td>Modified</td>
<td>Amortizations allocated sequentially to each tranche until the target OC rate (set at a level greater than initial OC rate) is reached, then amortizations are allocated to subordinate tranche</td>
<td>Generally used for non-sequential GS transactions</td>
</tr>
<tr>
<td></td>
<td>Modified Pre-Rate</td>
<td>Amortizations allocated in a pro-rata fashion until total portfolio amortizations total 50% of initial balance</td>
<td>Worst for senior debt holders, best for equity holders</td>
</tr>
<tr>
<td>Callable</td>
<td>No Call</td>
<td>Transaction may not be optionally terminated in part or in whole</td>
<td>Best for debt holders</td>
</tr>
<tr>
<td></td>
<td>Equity Call</td>
<td>Transaction may be terminated in whole after the non-call period given a majority vote of the equity holders</td>
<td>Worst for debt holders</td>
</tr>
<tr>
<td>Trigger</td>
<td>Yes</td>
<td>Built-in mechanism that directs cashflows from equity and potentially junior debt to senior debt should overcollateralization and/or interest coverage metrics underperform initial expectations</td>
<td>Generally good for repayment of debt, can be detrimental to junior debt holders if performance metrics deteriorate too quickly</td>
</tr>
<tr>
<td></td>
<td>No</td>
<td>No cashflow diversion based on metric underperformance</td>
<td>Simple to model when compared to transactions with triggers; debt cashflows only reduced when subordination has fully eroded</td>
</tr>
</tbody>
</table>

*Assumes all else equal

VII. Modeling Assumptions

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-000892591
Modeling Assumptions

Assumptions applicable to modeling runs (there can be no assurance that the transaction will reflect these assumptions):

<table>
<thead>
<tr>
<th>Liability Structure</th>
<th>Par</th>
</tr>
</thead>
<tbody>
<tr>
<td>Class B Notes</td>
<td>$3.0 MM</td>
</tr>
<tr>
<td>Class A-1 Notes</td>
<td>$300.0 MM</td>
</tr>
<tr>
<td>Class A-2 Notes</td>
<td>$75.0 MM</td>
</tr>
<tr>
<td>Class B Notes</td>
<td>$40.0 MM</td>
</tr>
<tr>
<td>Class C Notes</td>
<td>$35.0 MM</td>
</tr>
<tr>
<td>Class D Notes</td>
<td>$28.5 MM</td>
</tr>
<tr>
<td>Class E Notes</td>
<td>$6.0 MM</td>
</tr>
<tr>
<td>Income Notes</td>
<td>$15.0 MM</td>
</tr>
</tbody>
</table>

- LIBOR rates are based on the forward curve as of February 20, 2007.
- The Equity yields are calculated using the XIRR function in Microsoft Excel.
- The Closing Date is May 12, 2007; the first Payment Date is October 12, 2007.
- The CDO is 100% invested at the Closing Date.
- Coupon and margin over LIBOR are based on the portfolio composition as of February 20, 2007 and are calculated based on the weighted average expected coupon and spread on the projected remaining asset pool outstanding during each period.
- Expenses are paid at the end of each period at 4.125 bps per annum of the outstanding collateral balance.

Potential investors should review the Final Offering Circular relating to the Preferred Shares, including the description of Risk Factors contained in such Offering Circular prior to making a decision to invest in the Income Notes. The Offering Circular will describe the documents in its entirety.
Modeling Assumptions

Assumptions applicable to modeling run(s) (there can be no assurance that the transaction will reflect these assumptions):

- Any sale proceeds and scheduled and unscheduled Notional Reductions will be used, first, to redeem the Class A Notes until the Senior Overcollateralization ratio reaches [136.7%], second, to redeem the Class B Notes until the Class B Note Overcollateralization reaches [122.5%], third, to redeem the Class C Notes until the Class C Note Overcollateralization reaches [112.2%], fourth, to redeem the Class D Notes until Class D Note Overcollateralization reaches [105.8%], fifth to redeem the Class E Notes until the Class E Note Overcollateralization reaches [103.8%].

- Once each respective target overcollateralization level is reached, proceeds are passed to the Income Notes. When the principal balance of Collateral Assets reaches $[200,000,000], the Notes remaining at that point are amortized sequentially.

- The Class A/B OC Test level is [116.0%], Class C OC Test level is [107.2%], the Class D OC Test level is [103.0%], and the Class E OC Test level is [101.4%].

- Payments to the Class A Notes, Class B Notes, Class C Notes, Class D Notes and Class E Notes are made on the 12th of each month; payments to the Income Notes are made on the 12th day of every April, July, October, and January.

- All proceeds from collateral are assumed to be received 12 days prior to each payment date.

- While held in cash, all proceeds from collateral are assumed to earn a per annum rate of 1.0%/26bps.

- No trading gains or call premiums are assumed.

- Defaults commence at the end of each month and continue through the life of the transaction.

- Recoveries are realized immediately upon default. The assumed recovery rate is 35%.

Potential investors should review the Offering Circular relating to the Preferred Shares, including the descriptions of Risk Factors contained in such Offering Circular prior to making a decision to invest in the Income Notes. This Offering Circular will supersede this document in entirety.

They came back and asked to do meeting in person. Doesn't have to be this Friday, if that's no good for you - they can also do early next week. Questions on ANOY - but also want to do some due diligence. They've heard the GSC team shows well - so want to meet you in person.

Deal Summary.xls

From: Lin, Shelly
Sent: Thursday, January 03, 2008 9:08 PM
To: Case, Benjamin
Subject: LAA Deal Summary for Dan

See attached. It's also saved in the Liquidation Agent Information Folder: V:\FCCSMarket_Research_NT\Mortgage Credit Derivatives\Liquidation Agent Information\Deal Summary

I'm still trying to get marks for the cash bonds in the Houlihan and Hudson High Grade. I'll send you an updated spreadsheet when I have the levels.

<< File: Deal Summary.xls >>
For (2), let's get whatever works we provided on any tranches on The Wolf and Point. Please see in the below time range (doesn't have to be on those precise dates) and we will go from there.

----- Original Message -----

Sent: Thu, Aug 23 03:13:16 2007
Subject: Re: Asia requests

1) All the WAP's for each deal were pulled from Intex. Spot checked a few that were missing from the attached spreadsheet and was unable to pull them up manually - looks like we're going to have to go with what was sent.

2) LOL

3) I took a look back at the total number of CUSIPS from a look through back in May - and I still see approximately 4500 CUSIPS. They may be looking at total CUSIPS rather than unique CUSIPS. If that's the case, then the 0000 number sounds close to correct - although I think the number back in May was 8500. The marketing book for the deal also mentions approx 4200 unique CUSIPS (though I don't recall whether this was sent to them)

4) Shelly is sending

Subject: Asia requests

Apologies for any requests that have already been sent over separately --

1) HK Life asking again on Timberwolf whether we can get WAP's for deals that were not sent in the trappers file. Please see attached on the "WAP" tab to see what I sent.

There were WAP's for 40 of the 53 CDO deals. I originally told them we could not when I first sent the file, but they want to check again.

<< File: Timberwolf CDO Data 2007-08-23.xls >>

2) Tokyo Star wants historical offer-side DM's on Point Pleasant and Timberwolf for the following dates across the capital structure. The purpose is to get more color on how the CDO2 market has changed since when we marketed the deals to them, and we've already rejected their request to provide generic DM's on all CDO2 deals on the grounds that the market is too differentiated. Regarding this request, we have already told them the following: a) we might be able to provide anything in writing (which only); b) if we can provide levels they will probably be dollar prices (not DM's); and they can use Bloomberg to estimate DM's on a no-loss basis if that's what they really want, c) we might not be able to provide offer-side levels for all dates.

Can we do the best we can to get them what they want?

<offer DM on Timberwolf>

3) Tokyo Star is asking why there is such a big discrepancy between CUSIP counts from May (before they bought) and August (after they bought) on Timberwolf. May's CUSIP counts were much higher (7050+) compared to the data we are now providing (4000+). We told them there is changes in data from third party sources as well as our own techniques for exploding the data. Was wondering if there was any incremental information that you have on this — if not, we should be able to handle.

4) Orix Life, who is looking at GSC 06-3HG, is asking if we can show the updated ratings on the underlying portfolio (gives the recent rating changes, especially the ones announced August 16th on Alt-A downgrades).
Dillon read: 1 bb deal, 50/50 risk.
Greywolf: 1 bb deal, now basically 50-50 risk because losses thru the greywolf upfront $50
percent first loss.

Report Footnote #2369
Footnote Exhibits - Page 4452

Still subprime, but only outright bbb subprime is in geo deal we may liquidate. Other subprime in form of a, aa, aaa subprime and in form of b-rated cdos (greywolf and Dillon read).

Subject: Questions you had asked 

Last week the trading desks did the following:

(1) Cover around $1.5 billion single name subprime BBB- CDO and around $700mm single name subprime BBB CDO. The desk also net sold over $400mm BBB- ANE index. Desk is net short, but less than before. Shorts are in senior tranches of indexes sold and in single names. Plan is to continue to trade from short side, cover single names and sell BBB- index outright.

(2) The CDO business liquidated 3 warehouses for deals of $930mm about half of its warehouse. With all synthetics done, cash bonds will be sold in next few days. One more CDO warehouse may be liquidated this week - approximately $300mm with GCG as manager. That will leave us with 2 large CDOs of A-rated CDOS, 2 high grade deals with limited subprime west risk, and 2 other small warehouses that are on hold. Getting super-senior done on CDOS is the critical path, and that is where the focus is - for the CDOS of GCGs, NAVISIS (FCA1S) on Dillon Reed deal and Windup (London) on Greywolf deal.
Of course — will you be circulating a draft of the email for Gary?

Subject: RE: Gamplan - asset model analysis

This correlation analysis does not incorporate 2 things:
- cds bid/offer:
- cashflow triggers (underlying level)

For names where the underlying credit was externalized, the cds offered spread is going to be close to 2x the current market spread for many underlies. It will be important to use the cds cds trading franchise to source hedges at the bid side of the market.

The downgrade sensitivity of the underlying cds cashflow triggers means that there is some hard to quantify probability that some or all names essentially jump to default.

Subject: Re: Gameplan - asset model analysis

One point of this correlation analysis is that it provides a relative value argument about how to hedge the cdo2 risk. It indicates (as the desk is aware) that it is currently cheaper to buy protection against the cdo2 level than at the mbs level. To the extent that we can put on this hedge, we can recover the higher (7/16 cent) price, no matter how bad mbs looks.

Subject: Re: Gameplan - asset model analysis

David - We spoke briefly to Ben and Edwin earlier this evening and asked them if it would be possible to come up with CDS marks for any missing BBB/BBA- MBS deals as well as a heuristic for marking any high-grade tranche by vintage. As Paul says below, this would really help us run results through the asset model (as well as through the NAV analysis we'd discussed doing) for CDOs. I realize this might be painful (several thousand underlying MBS deals might need to be marked) but we'd like to come back to you when we have some stats on what we're missing and brainstorm on a good way to do this.

Subject: Re: Gameplan - asset model analysis

2. Estimate the value of the Timberwolf CDO's by applying a correlation model (the asset model). We have three questions to answer:

   1. Based on marks for the single-A CDOs under the CDO's, what should be the value of the Timberwolf CDO's?

   2. Based on marks for the MBS under the single-A CDOs, what should be the marks on the CDOs that went into [1]?

   3. In both [1] and [2], what market evidence do we have for the correlation that takes us from underlier valuation to the valuation one level up?

In brief, the answers we find are:

1. Based on current single-A CDO marks, the A2 tranche of Timberwolf would have a price of 72 cents on the dollar. The price is not sensitive to correlation at these levels.

2. Based on a small sample of single-A CDOs for which we have complete underlier marks, we believe that the risks of the MBS underliers are frequently not fully reflected in spreads on the CDOs. If this trend in this small sample is extrapolated, the fair spread on the CDOs could even be double where they are marked now! If that were the case, the price of the A2 tranche of Timberwolf would actually be 35-41 cents on the dollar, depending on the correlation.

3. Recent Abario CDOs and CDO2 have been marked with correlations in the 30-50 range. Medium sector marks for maturing CDOs imply a correlation of 22.

Clearly, the next step is to get marks on more of the MBS underliers in order to be
able to run more of the CDOs in Timberwolf through a model.

For (2), we find the following relationship between price of the A2 tranche of Timberwolf and the correlation. The results are also shown when all the underlier spreads are multiplied by a factor of two, based on the results of (2).

<table>
<thead>
<tr>
<th>CDO</th>
<th>Underlier Spread Multiple</th>
<th>Model Price 30%</th>
<th>Model Price 50%</th>
<th>Model Price 70%</th>

<td>73</td>
</tr>
<tr>
<td>TWOLF 2007-1 A2</td>
<td>3</td>
<td>37</td>
<td>44</td>
<td>48</td>
</tr>
</tbody>
</table>

For (3), we have the following comparison between current spread marks on single-A CDOs, and Gaussian copula model spreads computed from the current spread marks on their underliers (mostly MBS). The first three CDOs are Timberwolf underliers. In general, this analysis shows that at current underlier marks, single-A CDOs are equity-like (long correlation). However, per (3), market-implied correlations are low, in the range 20-50%.

Subject: Gameplan

Following up from this afternoon's meeting -

We are going to better evaluate the CDO2.2 risk using three distinct frameworks:

1) Blended scenario analysis using MPA (Primer)
2) Risk neutral/correlation framework, consistent with our current synthetic
   ABS CDOs (Buchard)
3) Simplest loss assumptions on underlyings / Market Value Coverage (Turck)

Let's lock to have something on R1 and R2 to discuss Monday. I will likely take some more time give the low coverage. Turck, pls let us know if you can stuff R3 with our current coverage.

To quote Eliasha -

"I am thinking we want a concise write-up of each methodology (one paragraph), with a rank-ordered list of assumptions that show directionality and estimated impact of each assumption. Also think we want to see results of bounding analysis in writing using each methodology, with a description of what knobs we turned, and how far, to come up the bounding analysis."

In addition, the specific trading desks are taking a more detailed look at the ABS/MBS/CDO/Option Arm/RF CDO assets in the warehouse and in the retained position account (outside of the CDO2.2).

Ple add/comment if there is anything I missed

Disclaimer: The attached information regarding the valuation of instruments is being provided at your request for your consideration and internal use only and not for the purpose of soliciting or recommending any action by you. You should carefully review the explanations that are included with the attached information and ensure that you understand the information that is being provided. Any questions regarding the nature of this information should be raised promptly with your Goldman Sachs contact person. The valuation listed in the attached information represents (i) the bid price at which Goldman Sachs or one of its affiliates ("Goldman Sachs") would have been prepared to buy the specified instrument; and (ii) if applicable, the price at which Goldman Sachs would have been prepared to enter into a credit default product by which Goldman Sachs would buy protection on the specified instrument. In each case, the valuation is valid only as of the open of business in New York on the date of the information; such valuation is not applicable at any other time. Moreover, such valuation may be affected by orders entered or transactions executed by us or other market participants after the time of the valuation. In addition, the valuations listed in the attached information are expressed in terms of a position in the relevant instrument of a specified size, which is not necessarily the size of any actual position, and the valuation is applicable only with respect to the specified size. The valuation does not indicate a price at which Goldman Sachs would be willing to enter into a transaction with respect to any other size, nor does it reflect a valuation that relates to (or may be extrapolated to) a position or transaction of any other size. In the future, Goldman Sachs may change the transaction size for which valuations are provided without notice. Because the valuations included in the attached information relate to different types of instruments, these valuations should not be used as the basis for determining a mid-market valuation. The valuations listed in the attached information do not necessarily reflect your entire portfolio. In determining the valuation of an instrument, Goldman Sachs might not take into account certain factors, including, without limitation, liquidity adjustments appropriate given the position size. In addition, the considerations and approach utilized in preparing such valuations may differ from those utilized by Goldman Sachs in valuing positions for purposes of its own books and records. Without limitation of the foregoing, Goldman Sachs may utilize valuation models for its own books to generate mid-market valuations that differ from the mid-point between bids and offers used to value client positions.

Subject: Tonight's Estimate to Reflect Changes in Bid Offer Spreads

Importance: High
Attachments: Book19.xls

Traders:

We have decided to adjust bid offer spreads based upon where we are currently trading. This will impact the trading desks as follows. Please incorporate into your estimates tonight. We've attached the new bid offer spreads.

Thanks,
B

Subject: Re: Moneygram marks

Not all - This is our shot to get this done - we want to stay on the offer and be aggressive

This shot is - if we establish a defined healthy supply/demand dynamic in this product we can always CREATE more CDS at a significant profit vs current levels

Sent: Wednesday, June 06, 2007 4:22 PM
To: Wisniewski, Scott; Bieber, Matthew G.; Lehman, David A.
Subject: FW: Moneygram marks

Brandon Gilligan called and said Moneygram may be interested in buying more Timberwolf A2 and Point Pleasant A2 in the context of their mark. He said Moneygram knows the market has moved wider from when they bought these bonds, so they were expecting their marks to be down (these are down 4-5 points from where they purchased). Also, interestingly he said Moneygram have been trying to get offer levels from other dealers on CDO and the other dealers own in inventory, but he said most won't give them offering levels and seem to want to hold the paper instead.

CC: Swanson, Michael; Sparks, Daniel L
Subject: Re: Moneygram marks

There is real market meltdown potential (although far from certain). The market isn't yet pricing it in - but the scenario is liquidity getting worse, downgrades/losses occur, and forced liquidations begin to happen - spiral down that has steep drops.

Flip side is liquidity and demand for risk and cheap assets overwhelm concerns. These are pretty much the only distressed assets out there in size.

But the upside/downside makes it seem way to early - especially for us mark-to-market types.

I appreciate you are fast chat at the moment, but pls keep in mind GS is an aggressive seller of risk for QTR
and purposes (last day of quarter is this Friday).

We would certainly appreciate your support, and equally help create something where the return on invested
capital for basis is over 60% (assume AAAa at 400bp; AAs at 300bp; 7.5% haircut and L<30bps funding).

George

Murph, I hope you are getting your legs back. When are you free to re-visit this trade with the Greywolf
desk?

As indicated, I have been able to obtain approval for a fresh new financing facility for this trade, which
was separate to the US$100m facility we set up last year (and hence leaves some powder dry for other
things)

The,
gm

Subject: leveraged AAAa and AAs

Murph,

Further to our email traffic yesterday, I wanted to discover what might be possible in the levered AAA space.

To that end, I spoke with Dan Sparta and Peter Cutham about potentially offering basis a block of cheap
highly rated ABS CDOs on a levered basis.

04/05/2008

Permanent Subcommittee on Investigations
Wall Street & The Financial Crisis
Report Footnote #2412

JUL 000685
Footnote Exhibits - Page 4490

They were constructive with the enquiry & supportive to help structure something that should offer basis on attractive post-adjusted return on capital proposition. We are still mapping through the terms, but I wanted to highlight some broad thoughts on a trade idea.

Are you free to discuss this?

CDO Transaction Details:
Deal: Timberwolf I, Ltd
CDO Manager: Greenwolf Capital Management LP
Description: US$1bn Single-A Structured Product CDO
(see attached zip file containing final OC, term sheet, presentation, portfolio, cashflows, etc)

Indicative Financing Terms:
Haircut: 5-10%
Funding Rate: LIBOR plus 35-50bps
Return on Capital is in the 40-55% area
(see attached indicative calculations I prepared)

Investment Details:
Notional: US$100,000,000 (hence capital invested by Basis is $5 to $10mm)
Split across two tranches:
Class A (Aa1/AAA) +200bps (traded half the tranche originally at 100bps)
Class B (Aa2/A-A) +300bps (traded half the tranche originally at 200bps)
(due was originally priced 13 Month)

Timberwolf, a $1bn Single-A SP CDO Squared
- Portfolio selected and to be defensively managed by Greenwolf (Greg Mount).
- Goldman and Greenwolf each took half the equity.
- Higher in credit trade (portfolio is 100% rated at least single-A) with a focus on Mezz and High Grade SP CDO debt.
- No reinvestment risk, Greenwolf has ability to sell assets that they feel are underperforming vs. expectations but all principal proceeds payout debt.
- The two main portfolio managers have outstanding experience in the structured products markets: Greg Mount: Previously a Partner at Goldman Sachs who headed Goldman Sachs’ CDO business in 1996 and initiated their proprietary CDO Investing activity. & Joe Marcott: Previously a Managing Director and co-head of ABS Finance at Goldman Sachs.

Other transaction highlights
- Structural features
  - Legal maturity of [14] years
  - Non-call period of [2] years
  - Audit call at [8] years
- Greenwolf has the discretion to sell "credit risk" and "defaulted" assets and the proceeds will be treated as principal payments.
- The portfolio is expected to be [100]% ramped at closing
- Fees:
  - Collateral Management Fee [4] bps pa
  - Deferred Structuring Fee [4] bps pa

Greenwolf Capital Management

04/05/2008

JUL 000586
Footnote Exhibits - Page 4491

Page 3 of 4

- Founded in 2003, now with 60 employees, including 27 investment professionals
- Greywolf principals previously held senior positions in credit trading at various Wall Street institutions
- Greywolf has approximately $2.5bn AUM, including approximately $1bn in structured product exposures

We have been working on a STY-like structure for structured product CDO product, but this still requires a great deal of work from here... not to mention upfront expenses to establish such vehicles. The key guy working on this from our end is Rajan Kamilla, who is actually going to be in Sydney next week. Rajan is senior and experienced structuring and trading guy devoted to new product development. Perhaps we should set up a meeting when he is here next week to discuss such broader exotic solutions. All this being said, however, this is still in design mode and the agencies are still not committed. The money market desks/counterparties for this sort of thing are also in early stage. I'm just trying to be realistic on this side...

We also looked at a non-AAA swap and found losses from a credit and extension / tail risk perspective, hence not a no-brainer.

On your question below about taking the AAA rating in isolation, the issue we face (from a trading and risk management perspective) is on being able to properly model, react & value these exotic products. I think the current market environment is suggesting clearly we'me is not there. I can see you question is not doing any non-recourse financing at the moment or structured product CDOs.

From a pricing perspective, we have been trading Timberwolves AAA and AA levels. 150bps on AAA and north of 175bps on AA is considered fair value for Timberwolves. We appreciate you are raising other stuff, and keen to know which deals they are, but in this case I don't think the trading desk shares the sentiment with regards to risk spread levels. To be constructive, however, I know the desk is considering Moody's trade at the moment from real money accounts in the US and Asia at wider levels (much wider than what they have traded before). To give you an idea, I think these represent 600-650bps and 650-700bps respectively (for size) at the wider level of such margins.

Overall, the fact everyone financing proposal with access to the funds is the most efficient way I see Goldman play here (at this point in time). As you can see from above, some flexibility on price can be afforded, which should help create a very positively across a broad audience for you.

Again, appreciate your focus... I just don't want to lead you up the garden path.

Your thoughts?

George

Report Footnote #2413

JUL 002032
From our side we want to look at this like a causal or IV type arrangement.

If you look at the AAA paper in isolation, what is the volatility of the mark to market (from current levels) that needs to be covered? And what apply doing would be needed? Would a specific swap help bring forward the EMI and recover it into current cash flow?

Subject: RE:

I have taken a look at this, and am not so sure, but an earlier discussion internally “more resource” was far worse than what was shown with resource.

Two key drivers:
1. the work done by the business unit and credit department to get comfortable with Bank Capital
2. the excess cash burn is actually minimal. The AAA has a 1.5-1.8pp spread, so if funding is 1.53pp, you end up with 1.8ppc excess interest. Assuming you are all of this to build excess credit support, this would potentially lead to an extra 3% in 2 years. That’s clearly not a lot of bother.

I’m just trying to highlight the issue, rather than over-promise. Any and all feedback is welcome.

Thanks, George.

That's fine we can update the reports today with the new prices.

They should really meet the original call as the price dropped creating the call and has now gone back up to the
81.72 level decreasing the call.

We will apply the new prices today and see where we are which should reduce the call.

Regards,
Macdara

CONFIDENTIAL TREATMENT REQUESTED BY Goldman Sachs

GS MBS-E-02/2003105
Hi Macara, Julie and George,

Thanks a lot for your emails and clarifications.

We agree with Pac-Rim’s Margin call USD $260,000 and will instruct our custodian to pay in the morning.

As to Yield Alpha I still have further concerns (sorry):

It seems that nearly $600,000 out of the $720,000 can be attributed to the mark down of our recent purchase Palm Pleasance (which was marked from 81.72 down to 76.72).

However, the end of month price mark that we just received from GS indicated that the price of the security remains at 81.72. —Please see attached the end of month mark.

Could you please kindly and urgently check this for us?

Many thanks,

Kind Regards,

Phillip Chen

Phillip,

I thought it would be helpful to send updated reports and calls for both funds.

We have updated the 25% HD for Yield Alpha and hopefully you are happy with George’s explanation of the new price on the INYFLAT attached.

We now see the following calls with details attached:

Basis PAC-RIM OPPORTUNITY FUND (MASTER) - $260,000
Basis YIELD ALPHA FUND (MASTER) - $720,000

Please let me know if you agree and the value data you will be paying the funds for.

Subject: RE: BASIS YIELD ALMA MARGIN CALL 25 APR 07

Thank you very much for that Julie.

We'll be grateful if you could come back with the price for NYFILAT and will meet the call as soon as we hear back from you.

Thank you and have a nice day.

Kind Regards,

Phillip Chen

Hi Phillip,

The haircut for Pleasant Point has been amended to 25%, resulting in a margin call to you for USD 700,000. I have attached the PDF file containing the new marks, please confirm your agreement.

We are continuing to investigate the price query for Pac Rim.

Best regards,

Julie

Hi Julie,

Hope you are well.

We have some questions regarding the call amount; the major contribution for the US 3.2m call is our recent purchase of Peralta Point 3.09 billion call amount; we only recently bought this security and the haircut amount should be 25% instead of 50% as shown in the margin call statement. Could you please double check for us?

Also could you please kindly review the price for NYF3AT. As of the end of March the price was 74 and it is now priced at 87. Could you please kindly review this price with your pricing team and advise?

Many thanks,

Kind regards,

Phillipa Chen

Subject: Re: Basis - done on 50mm Twolf AAA and 50mm Twolf AA in CDS format

Basis Capital is an AUS (sydney) account which has been both a CDO buyer and CDO issuer/owner.

They are big and real in the sector.

Trading prices imply appr $4 on the AAAs and $6 on the AAs assuming 90p cash/cds basis.

Acct wanted to trade in CDS b/c of the term "funding" GS is supplying through buying protection vs. taking the month-to-month financing risk in the repo market if they owned the bonds.

We pushed them towards cash but this was their preferred format.

The David.

I have been exchanging messages with Stuart Fowler over the last hour or so.

Indeed they need to be synched with GS on such issues. We claims we have marked point pleasant down 3 times since they bought the bonds. I believe he is mistaken. I feel I have been progressing things, to get to a resolution, but not officially there as yet. I have offered them time on the phone with you/trading to clarify all but no word back from Stuart. Its now 1030pm here.

Let's get the final legal issue (re costs) resolved and hit them back.

Ysds

George

Subject: RE: Point Pleasant mark

Stuart - I assure you no foul here.

You bought these bonds at 1200dm / 81.75 dollar price on April 19 and the 75 mark for end-May is the first adjustment we've made since you bought the bonds.

I can also confirm we traded an original large block at 1000dm/88.33 dollar price at time of pricing the deal (April 19).

At just a week after the official pricing of the Pt Pleasant deal, we deemed 1200dm to be fair & reasonable - reflecting a "fair & reasonable" premium for the lack of liquidity for a block trade, and I can assure you each of John Hibb, Dan Spotts & I sincerely appreciated your support.

I want to offer you some 1-on-1 time with the trading desk at your earliest convenience to walk through their trading activity and how the MTM movements have been reflected. This can also be used to discuss the Timberwolf paper.

Please let me know how I can help address these issues.

Subject: RE: Point Pleasant mark

Hi Sahil - there has certainly been further softening in the market since the Point Pleasant trade was put on 8 weeks ago. We have in fact traded some Point Pleasant BBBs at this level in the last 2 weeks, as compared to much worse levels we are hearing/seeing being done in the market on other AA- CDOspd deals. This is regarded consistent with the marked down Timberwolf paper, and the current offer (to basis) at ~84% (for AAAa) and ~77% (for AAs).

I hope this is helpful.

Tks,
George

Subject: Point Pleasant mark

Hey GM,

Our Point Pleasant bonds have been marked down from a purchase price of 81.7 to 75 (for month end marks and for margin call).

Considering we just bought this, why the significant move?!

Also what should we do about the margin call whilst this issue is pending?

Regards,

Sahil Sachdev

Goldman Sachs JBWere Group 1300 366 790 or (61 3) 9679 1534
Basis questioning the 76 mark on their Pt Pleasant BBBs.
As you know they bought 15nm at 81.75 (1/2003) and Matra bought 11nm at 88.33 (1/2003).
I am curious - where did you trade the last 6nm? (there were 92mm in the BBB class)
Does the 76 mark reflect actual trading or overall softness in the market?
I know you had indicated 70 was more like the number.

I would really appreciate your urgent attention here as Basis are crying foul...we may need to get on the phone with them NOW

Tks,
Omi

Dan - from what I can tell, we have credit & legal approvals in place.

We will document under Long Form Condo.

I have sent a basis an update of all the trade details & will look to execute today for 18/June settlement.

The only pending issue is related to Point Pleasant & making them get comfortable with this.

I will post you on any & all updates.

George

Subject: Re: URGENT: Basis

Hema,

As you know, this language is standard for Basis on all their ISDAs, including the one we currently have with their other fund.

This language is a "must have" for Basis. They will not sign an ISA otherwise. To give you an idea, this point was negotiated for about 3 months last year.

Given the above, and David's comments below, the only solution I see is to trade under Long Form Confirmation.

Can we pls move forward on that basis please?

Rgds,
George

Subject: Re: Rev URGENT: Basis

We are fine with the below language for the current trades, but not sure we want to commit to this language for the ISA @ this time.

Can we carve these trades out and document under a LFC?

George, can you also push the client to agree to standard HQ where they get unwound @ the appropriate side of the net? If not, as stated, we agree to the mid language for these trades, but need to think abt it more for the ISA.

Subject: URGENT: Basis

David,

I refer to the below correspondence re: the ISDA with Basis Yield Alpha Fund (Master), and your email which George has kindly forwarded to us for reference.

As we understand that this is fairly urgent for tomorrow morning Sydney time, in order to facilitate the process, we would just like to clarify that the Market Quotation applied in the existing ISDA with Basis Pac-35m and also for this Fund is not the standard MQ per 1992 ISDA, but the amended version of MQ (copied below for your reference). I also attach for your reference the previous discussions about this from last year.

"The Market Quotation will apply; provided that where an Early Termination Date is designated due to the occurrence of any Additional Termination Event, any quotation from a Reference Market-maker shall be a Mid-Market Quotation. For these purposes, a "Mid-market Quotation" means a quotation from a Reference Market-maker that has been adjusted to exclude any spread; provided that, if the Reference Market-maker will not reveal the spread included in its quotation, the Calculation Agent shall determine the appropriate adjustment in good faith and a commercially reasonable manner."

Accordingly, we would appreciate if you could kindly confirm that you are OK with the above amended version of Market Quotation to apply for the ISDA with Basis Yield Alpha Fund (Master) as well.

Many thanks,
Hema

Subject: Timberwolf I, Ltd. -- PANG trade with Basis Cap (YIELD ALPHA FUND)

Good Morning Stuart,

Not sure how you want to deal with the Point Pleasant mark/discussion.
FYI - David Lehman (cited above), who runs our CDO trading business in NY is currently in Barcelona (conference) and available this morning to take your call to clarify any and all questions you have on the marking policy of Goldman, the actual marking of Point Pleasant, and the overall trading that has been seen by the GS desk in the last 1-6 months.

Please find below and attached updated trade details and cashflows on the $100mm Timberwolf PANG Trade. We are looking to trade this under Long Form Confirmation, incorporating all of the negotiated terms with Peter Dohm (which obviously reflects the standard language used by Basis on all of its ISDAs with the street).

Following the resolution of docs & credit, these are FIRM LEVELS (BID SIDE PROTECTION).
Footnote Exhibits - Page 4531

We would look to agree 4 trade this with us as today for settlement Mon June 18, 2007.

You can reach me (at any time) on 0403 189 116 / (02) 9220 1431.

Stuart,
Please accept my sincerest apologies for the mis-information below.
As David mentioned, the 75 mark on Pt Pleasant BBB was more reflective of an interpretation of softer AAA-AA rated CDO-sqeq paper translating to BBB part of the curve.

George

Hi Sahil – there has certainly been further softening in the market since the Point Pleasant trade was put on 8 weeks ago. We have in fact traded some Point Pleasant BBBs at this level in the last 2 weeks, as compared to much worse levels we are hearing/seeing being done in the market on other AA-CDOsqd deals. This is regarded consistent with the marked down Timberwolf paper, and the current offer (to Basis) at ~84% (for AAs) and ~77% (for AAs).

I hope this is helpful.

Tks,
George
Hey GM,

Our Point Pleasant bonds have been marked down from a purchase price of 81.7 to 75 (for month end marks and for margin call).

Considering we just bought this, why the significant move?!

Also what should we do about the margin call whilst this issue is pending?

Regards,

Sahil Sachdev

Subject: RE: Basis

Update following conf call trading/legal/credit (AXN)/Ops (credit unable to join - have left an update v/n for Greg)
- Estimated clean funds available to meet call requirements approx USD13.5m if Basis accepts GS bids.
- Estimated surplus after meeting repo margin requirement USD5m approx.
- Documentation does not allow us to automatically use this to cover swaps collateral requirement. Client agreement/authorisation would be required.
- Agreed to make client's agreement to this a condition of trade - idm legal (Michaela) to draft suitable authorisation for David to send on.
- Ops will need to hand hold all events to make sure no external settlement made and funds applied to calls. Brian has reached out to give settlement groups a heads up.
- David to George on situation
- George to update this group on outcome of communication with Basis and how they plan to meet the calls either by accepting GS bids, or delivery of cash value tomorrow.

Shawn

Subject: RE: Basis

Have just spoken to David Lehman and we have just left a v-m with Tom Riggs:

Update:

Gerry Oudkerk and David Lehman are to meet with Dan Sparks and Don Mullen to agree bid pricing this in the next 90 minutes or so. David will revert to this group with an update following this. We should get an idea of the clean funds which might be available to Basis if they accept our bids. Clearly preference would be for Basis to meet calls with free cash.

David and I will circle back with legal/credit/ops to establish next steps re netting margin requirements vs proceed to make sure we don’t inadvertently release funds/securities to the client.

David has a 5pm NY/7am Sydney call with George to update and agree approach with client.

Shawn

Subject: RE: Basis

I am following up with ops on the corporate actions to confirm if we can agree as soon as possible what the amounts are we owe them - I understand from ops (copied on this) that there is some clarification required from Basis.

To their question about settling the corporate action payments with the repo margin calls, we are in no way obliged to do that. If they don't meet our margin calls bycob tomorrow we will be within our rights to close them out under the facility agreement and mark.

That said, we should discuss the approach especially given the fair response from Basis with a view to agreeing on the margins as soon as possible and we may take the decision to agree to pay the 2 amounts but we would need resolution on the corporate actions before cob tomorrow to do so and that may not be practical.

First up I think is to agree the marks then we can work out how we want to move on the margin vs the corporate action.

Subject: RE: Basis

Maurice and I just finished the call with Peter Tobson (Basis).

1 - Basis have plenty of cash to make the full margin call, but the approach by Goldman has been viewed to be very aggressive and unwarranted & is hurting the relationship

2 - Basis will arrange for v/d 1 July the Timberwolf margin (US$5.46mm) subj to them receiving a note confirming the OTC swap would pay them any MTM improvement.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001990135
3 - Basis is not prepared to pay the margin call on the Repos (US$3.72mm
+ US$4.63mm) until the discussion re: reval has been made. David -
lets do this Thu morning SYD / Wed evening NY time. This is the case despite numerous
assumptions for Basis to make a payment now and get a refund if the margin call was
overstated.

4 - Basis cannot see any justification for the massive mark down in the securities (under
the REPO), and are interpreting our revals as a way to reduce the repo financing line.

5 - They are disappointed Goldman have not paid to Basis the equity distributions under
the REPO/DEMA. We potentially owe Basis approx US556m here. Can this be netted against
the margin call? Oily - can you double check this pls?

6 - Basis claim Goldman have not cared to check in with Basis (from a credit perspective)
to see how they are doing and instead are acting like the world is falling over with
irrational behaviour.

George

Subject: Re: Basis

I can get on the phone this morning NY time to discuss (ie Web works) w the client

I would like to know what the precedent there is here - docs GS need (outside of the

client issues) to provide the below info to justify our prices??

For example, on the TWIN CDS, GS is willing to deal (bid and offer) in the context of our

prices

On the equity securities, this is an illiquiak mkt where there are not a lot of recent trade
spots, but it is clear that i) other parts of the CDO cap structure are materially wider
2) the underlying assets w/ the CDS are materially wider

If credit can speak to the above ASAP it would be appreciated

Subject: basis

I just spoke with Peter Dobson at Basis (430pm EST time).
He is not concerned with the $1 of the margin call, but very concerned about the marks - they are contesting these levels, is seeking clarity before agreeing to pay the margin.

They want to see:
- the comparable market data point for the Timberwolf marks
- more info for each of the ABS CDO marks like 1Xs, 50%, CDR, CDR, reinvestment profile, WAL, cashflows, etc
- the market data point for those marks, & actual trade examples done at these levels
- any other colour specific to these deals which helps Basis understand the marks

I will be arranging a call b/w Basis and the NY traders soon.

Rgds,
George

Subject: RE: Basis

Update

George Maltezos spoke with Basis late afternoon SYD time

In short, the client is communicating that the PAC RM fund is OK and the YLD ALPHA fund is in real trouble

Basis indicated that GS was the first to send them default notices

Basis is still not signing the 2-page netting agreement

Basis has indicated that they will entertain a portfolio trade for all the assets (CDs and Cash) in YLD ALPHA

Basis has asked for "breathing space" w/it what they owe us, and claim 4 other financing CPs are giving them some grace time

I hope to get on with Basis in the next 24h

Either way, let's circle up internally @ 8:00 NYT

Domestic: 1-800-446-9294

Subject: RE: Basis

Attached please find updated marks for COB 12 July 2007 (see column N highlighted in yellow).

Please apply these marks to generate the margin call for Sydney open.

Also, for purposes of the TWOLF CDS versus Yield Alpha, we have input the follow marks for COB 12th July 2007:

TWOLF 60 = +17.5bps in favor of CDS (ie, 65 price) TWOLF 80 = +20.0bps in favor of CDS (ie, 60 price)

Please call David Lehman or Jonathan Egel with questions.

Subject: FW: Basis

For the attached, GS has a reverse repo trade with Basis Yield Alpha on GS DBROKER. This repo was opened over a recent date of a coupon payment. Consequently GS office received the coupon that, under the repo terms is due back to Basis. Upon a claim from Merrill Lynch (Merrill Lynch in behalf of Basis) Asset Services submitted this 8327's payment. This payment has now hit the high risk payments system for release.

Subject to comments from the group, we are not releasing these funds. If there are factors we should consider with respect to releasing payment, please let us know.

Thanks

Greg

I want to bring everyone involved, i.e. Greg, the repo team and high risk team, up to speed that there is a $317,292 high risk payment pending. The attached email gives background on this payment.

Based on the email below we are obviously not releasing this money until we receive guidance from Greg.

Let me know if there are any questions.

Please forward to others as necessary.

Thanks very much.

Subject: RE: Basis 

We have had several calls with basis tonight.

Gary Oderkirk provided the client with bid levels on $20m face of CLO equity to free up capital to be applied against their margin call.

Basis informed us that despite the net monies freed by the proposed CLO sale (~$20m), they are unable or unwilling to provide additional cash or collateral to meet our margin call.

Our bids for the CLO equity are contingent upon basis signing a netting agreement which CSRS and SG Legal drafted.

Our bids are also subject to material net moves as well as basis executing by NY open.

At this time the client is reviewing the netting agreement.

After discussing with SG legal, we have informed the client that a formal notice will be sent to them by SG Legal by 500 Thursday Sydney time w/their deficiency on meeting margin to preserve Goldman's rights and remedies.

Subject: RE: Basis

Update following conf call trading/legal/DMNY/Ops (credit unable to join - have left an update w for Greg):

- Estimated clean funds available to meet call requirements approx US$13.5mm if Basis accepts G5 side.
- Estimated surplus after meeting repo margin requirement US$60mm approx
- Documented does not allow us to automatically use this to cover swaps collateral requirement.
- Client agreement/authorisation would be required.
- Agreed to make client's agreement to this a condition of trade - iden legal (Michaela) to draft suitable authorisation for David to send on.
- Ops will need to hand hold all events to make sure no external settlement made and funds applied to calls. Brian has reached out to give settlement groups a heads up.
- David to George on situation
- George to update this group on outcome of communication with Basis and how they plan to meet the calls either by accepting G5 side, or delivery of cash value tomorrow.

Subject: RE: Basis

Have just spoken to David Lehman and we have just left a v-m with Tom Rigg:

Update:

Gerry Oudekerk and David Lehman are to meet with Dan Sparks and Don Mullen to agree bid pricing this in the next 90 minutes or so. David will revert to this group with an update following this. We should get an idea of the clean funds which might be available to Basis if they accept our bids. Clearly preference would be for Basis to meet calls with

free cash.

David and I will circle back with legal/credit/ops to establish next steps re netting margin requirements vs proceeds to make sure we don’t inadvertently release funds/securities to the client.

David has a 3pmNY/Tom Sydney call with George to update and agree approach with client.

Shawn

Ali,
These margin calls have been issued late in the London day on instruction from David Lehman, with the intention of ensuring the client has time to review and respond to the margin call by CoB Australia TVI.

Thanks,
Maurice

Hi,

Using the marks received by the desk, we see the following calls on BASIS.

These calls have been issued this evening London time for BASIS to receive first thing tomorrow morning.

REPO

Basis Rec Rim Opportunity $6,135,000

Basis Yield Alpha $270,000

OTC

Basis Yield Alpha $5,100,000

We will await the client's response and will keep you updated tomorrow.

Regards

Julie

Thanks Nandara. Does it mean that they'd need to see the full break down of the marks and talk to David again (earliest NY time tonight) before they'd decide whether they agree on the marks? And there'll be at least 1 day delay for their margin?

Regards,

Desiree

Subject: RE: Basis

Despite giving the impression that they agreed the CDO marks as discussed on the call with the Trading desk, basis have now stated that they want further clarification on these marks before they are happy to meet the two Repo calls.

David - they are looking for a line by line breakdown of the changes for each mark.

The OTC has been agreed in full with a payment of $9.00mm paid for value today, we are checking with Treasury to see when these funds hit our account.

Regards,

Nandara

Update:

There was a constructive call between basis and trading (Lehman, Case, Egol) re marks at 8PM EST Wednesday.

Natalie Witt and I just spoke to John Murphy at basis. It seems the marks have been accepted and we are awaiting confirmation of basis's plans to meet the margin call.

Will revert ASAP.

Subject: RE: Basis

I am following up with ops on the corporate actions to confirm if we can agree as soon as possible what the amounts are we owe them - I understand from ops (copied on this) that there is some clarification required from Basis.

To their question about setting the corporate action payments with the repo margin calls we are in no way obliged to do that. If they don't meet our margin calls bycob tomorrow we will be within our rights to close them out under the facility agreement and gcus.

That said, we should discuss the approach especially given the (fairly) response from Basis with a view to agreeing the marks on the repos as soon as possible and we may take the decision to agree to not the 2 amounts but we would need resolution on the corporate actions before cob tomorrow so as and that may not be practical.

First up I think is to agree the marks then we can work out how we want to move on the margin vs the corporate action.

Subject: RE: Basis

Maurice and I just finished the call with Peter Dubson (Basis).

1 - Basis have plenty of cash to make the full margin call, but the approach by Goldman has been viewed to be very aggressive and unwarranted it is hurting the relationship

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001866406
497

Footnote Exhibits - Page 4568

2 - Basis will arrange for v/d 3 July the Timberwolf margin (USD0.04mm) sub to them receiving a note confirming the CTC swap would pay them any MTM improvement.

3 - Basis is not prepared to pay the margin call on the Repos (USD5.72mm + USD4.43mm) until the discussion re: valuations has been made. David -

let’s do this Thu morning SBD / Wed evening NY time. This is the case despite numerous suggestions for Basis to make a payment now and get a refund if the margin call was overstated.

4 - Basis cannot see any justification for the massive mark down in the securities (under the Repo), and are interpreting our valuations as a way to reduce the repo financing line.

5 - They are disappointed Goldman have not paid to Basis the equity distributions under the Repo/GMMA. We potentially owe Basis approx USD0mm here. Can this be netted against the margin call? Oily - can you double check this pls?

6 - Basis claim Goldman have not cared to check in with Basis (from a credit perspective) to see how they are doing and instead are acting like the world is falling over with irrational behaviour.

George

Even client disagrees on the marks, they are obligated to meet the call amount as provided by the calculator, 02. But they have the right to go through the prices with us. If they don't meet the call today, they are in danger of defaulting margin payment. George is trying to explain to client that if they have cash available, they are encouraged to first meet the call and continue the marks discussion throughout the next 2 days.

Copying Sonia Lim from Legal to confirm the legal proceedings, as we may potentially need to issue demand note tomorrow.

George, Maurice, how was the discussion with client? If necessary, we'd need to trouble David to be on call with client to understand what exactly they want to clarify in terms of the marks.

Desiree

Subject: Re: Basis

I can get on the phone this morning NY time to discuss (ie Wed works) w the client.

I would like to know what the precedent there is here - does GS need (outside of the client issues) to provide the below info to justify our prices??

For example, on the TWOLF CDS, GS is willing to deal (bid and offer) in the context of our prices.

On the equity securities, this is an illiquid bit where there are not a lot of recent trade spots, but it is clear that 3) other parts of the CDS cap structure are materially wider
2) the underlying assets w/i the CDS are materially wider

Subject: Basis

I just spoke with Peter Dobson at Basis (430pm SYD time).

He is not concerned with the $5 of the margin call, but very concerned about the marks -
they are contesting these levels, ie seeking clarity before agreeing to pay the margin.

They want to see:
- the comparable market data point for the Timberwolf marks
- more info for each of the ABS CDO marks like IRRA, CDR, CR, reinvestment profile, WAL, cashflows, etc
- the market data point for those marks, & actual trade examples done at these levels
- any other colour specific to these deals which helps Basis understand the marks

I will be arranging a call b/wn Basis and the NY traders asap

Rgds,
George

Attached please find updated marks for CGB 12 July 2007 (see column N highlighted in yellow).

Please apply these marks to generate the margin call for Sydney open.

Also, for purposes of the TWOLF CES versus Yield Alpha, we have input the following marks for CGB 12th July 2007:

TWOLF A2 = $17.55m in favor of CES (ie 65 price) TWOLF B = $20.00m in favor of CES (ie 65 price)

Please call David Lehman or Jonathan Epol with questions.

RE: Basis update - 0:30

Basis Mires Blackstone to Limit Losses on Hedge Funds (Updated) 2007-07-24 10:41 (New York)

(Adds Basis Capital assets in second paragraph.)

By Laura Cochrane

July 24 (Bloomberg) -- Basis Capital Fund Management Ltd., the Australian hedge fund manager battered by losses in the U.S. subprime mortgage market, hired Blackstone Group LP as an adviser to help avoid a fire sale of assets.

Blackstone, already helping bear Stearns Cos. liquidate two hedge funds, will advise Basis Capital, "to prevent adverse pricing and selling of assets," the Sydney-based firm said in a statement today. Basis Capital, which had assets of $1 billion as recently as May, said July 18 that the value of its Yield Alpha fund may fall more than 50 percent if assets are sold at distressed prices.

The losses at the fund, which recorded an average annual return of 13.5 percent for the past five years, underscore the global impact of the subprime shakeout. Federal Reserve Chairman Ben S. Bernanke said July 19 that there will be "significant financial losses" from risky mortgages, pointing to estimates as high as $100 billion.

"The fallout from subprime is likely to impact most asset classes and investment strategies over the next couple of years because the ratings agencies completely goofed up," said Peter Douglass, founder of Singapore-based hedge fund research firm GPFA Pte.

"Basis Capital is a very conservative player." Basis Capital's Aus-AIM Opportunity Fund and the Yield Alpha fund lost 9 percent and 14 percent respectively in June.

The funds can": into trouble by investing in the unrated, riskiest portions of collateralized debt obligations. These portions, also known by bankers as "toxic waste," are first in line for any losses when borrowers fall short on mortgage payments.

Delinquencies Rise

Sophia Harrison, a spokeswoman for Blackstone in London, declined to comment about the firm's role with Basis Capital.
The Australian firm was founded by Steve Howell and Stuart Fowler, who worked together at County Eastmen, in 1999. It was named "Fund of the Year" at the 2005 M2Hedge awards and Manganese Bank Ltd.'s "Skilled Manager of the Year" in 2004.

Delinquencies on U.S. subprime mortgages -- home loans to people with poor credit -- surged to a 10-year high this year after borrowing costs rose.

"While sales of CDOs -- used to pool bonds, loans and their derivatives into new debt -- were fivefold to $533 billion last year from 2003, investor appetite for the securities is now waning," Analysts at New York-based JPMorgan Chase & Co. said yesterday that CDO sales declined to $37.7 billion in the U.S. this month from $42 billion in June.

Credit Markets

The extent of the asset declines such as those at Basis Capital and Bear Stearns Cos. is masked by the reluctance of investors to buy or sell the illiquid securities, said Sarah Pergo-Dove, the Sydney-based head of credit research at Australia & New Zealand Banking Group Ltd.

"Every single CDO is very different," she said, "to get somebody to price a CDO at all can be difficult because people won't price something they don't understand."
Bear Stearns, the fifth-largest U.S. securities firm, said July 18 that investors in its two failed hedge funds will get little if any money back after "unprecedented declines" in the value of securities used to bet on subprime mortgages.

The losses triggered a sell-off across credit markets because of concern that CDO declines would mean losses for holders of even the least risky debt and that fewer sales of new CDOs would reduce demand for bonds and loans.

S&P Downgrades

The Basis Capital funds, which were open to individual and institutional investors, had the highest five-star ratings from Standard & Poor's before the ranking was put "on hold" July 17. This means the rating is being reviewed because "issues potentially affecting the management of the fund have emerged," according to S&P's Web site.

David Eedonnes, a fund analyst at S&P, said the evaluation of Basis's assets had triggered margin calls from investment banks that have seized and begun to sell off assets. S&P today kept the funds on hold after meeting with management.

Investors have criticized S&P, Fitch Ratings and Moody's Investors Service, saying their ratings on bonds backed by U.S. mortgages to people with limited credit didn't reflect the rising default rate. They often gave top ratings to the securities. Some bonds have lost more than 50 cents on the dollar this year while their credit ratings haven't changed.

Australian Market

"This won't be the last fund to fail in Australia, or overseas to fail within financial difficulty because of U.S. subprime," said Mark Bayley, a Sydney-based director in credit and structuring at ANZ Amro Holding BV.

Mariner Bridge Investments Ltd., another Sydney-based asset manager, wrote down its U.S. residential mortgage-backed securities portfolio on July 20 to 26 percent below face value on subprime losses. Mariner said A$70 million of its A$302 million in assets was invested in U.S. residential mortgage-backed securities. Australian investors, mostly individuals, had A$675 million in the two Basis funds, the Australian Financial Review said July 19. Hedge funds in Australia are open to retail investors, unlike in the U.S. where the largely unregulated pools of capital are generally limited to institutions and wealthy individuals. The funds' managers participate substantially in any gains on the money invested.

I called Blackstone this morning.

I told them I was very surprised not to have heard back from them either way last night.

I asked for specific feedback on our proposal and why that did not work.

Their only comment was "Basis could not get legal advice last night" and that they went to bed.

Disappointing to say the least.

They were aware we sent our notices.

Subject: Basis update - 9:30

Just got off a 30 minute call with Martin and Simon from Blackstone.

They discussed two things:

1) F&H vs. Yid Alpha. Age old question. I reiterated our desire to holistically come 
closure with basis. I assured them we were sensitive to the two distinct funds as is our 
proposed agreement.

2) Swap pricing. Sounds like the directors are concerned with committing to trading the
Footnote Exhbits - Page 4582

swaps as there has been no “third party verification.” I told them our auction mechanism afforded them the best price in the market and walked them through our rationales. I told them if there was a way to get a higher actionable bid tomorrow it would be better for both S& and Baus and we should have that conversation.

They are touching base with Sydney and coming back.

David,

Thanks very much for the note. As we mentioned on the phone earlier, we will be speaking with our client and the other advisors later on (a call which is currently pencilled in for midnight UK time) and you will be a priority for discussion. Thanks for taking the time to discuss matters with us earlier and for keeping us updated on your decisions and progress from your side. With the aim of creating as transparent and open a process as possible, we will commit to do the same from our side.

Kind regards

Simon

Subject: Basis / GSI

Team Basis -

Over approximately the past 5 days, GSI has been working with Basis in good faith towards a consensual agreement regarding our repo and swap exposure.

After repeated attempts from GSI to continue our dialogue, GSI has not heard (e-mail or phone) from Basis over the past 60 hours.

As GSI and Basis previously maintained a good dialogue working towards a common end, GSI is concerned by the lack of communication given the current situation.

If the execution of a binding agreement cannot be reached by 12:00 New York Time tonight (10:00 p.m. Sydney Time), GSI expects to close out our repo and swap exposure.

GSI's strong preference is a consensual resolution along the lines negotiated with Basis, but the lack of communication and inability to move our bilateral agreement forward leaves GSI little choice.

Please note that GSI has postponed the security and swap bid lists scheduled for this afternoon which were contemplated in our consensual agreement.

VIA HAND DELIVERY AND EMAIL:

Dear Sirs

EVENT OF DEFAULT UNDER ISDA MASTER AGREEMENT

1. Further to our letter dated 24 July 2007 in which we notified you of the occurrence of an Event of Default under the Agreement (as defined in that letter) we write to confirm that, as the Non-defaulting Party, we have calculated the resulting termination amount payable under Section 6(e) of the Agreement in respect of outstanding Transactions.

2. As required pursuant to the Agreement, we have designated U.S. Dollars as the Termination Currency. Accordingly, such termination amount is expressed in U.S. Dollars.

3. The termination amount payable by Yield Alpha to us as of the date hereof is U.S.$36,950,578.81, consisting of the Settlement Amount, Unpaid Amounts and expenses pursuant to Section 11 of the Agreement for our reasonable out-of-pocket expenses, including legal fees, incurred as at the date hereof by reason of the enforcement and protection of our rights under the Agreement and by reason of the early termination of the Transaction, each as detailed in the schedule hereeto. Please send your payment by close of business on 31 July 2007 to the following account:

ABA #: [Redacted]
BANK NAME: [Redacted]
CITY: NEW YORK
A/C #: [Redacted]

ACCOUNT NAME: GOLDMAN SACHS INTERNATIONAL

4. The Settlement Amount was calculated on the basis of Loss as detailed in the schedule hereto as soon as reasonably practicable after the Early Termination Date as we were unable to obtain the required number of Market Quotations.

5. We reserve the right to exercise from time to time any additional rights, powers, privileges and remedies we have or to which we are entitled under the...
Agreement or otherwise, including the right to seek additional legal fees, incurred by
reason of the enforcement and protection of our rights under the Agreement and by
reason of the early termination of the Transaction and recovery of amounts due to us
in the Courts of England.

Yours faithfully

Goldman Sachs International

Order of priority in terms of risk:

1. CDO-squareds
2. Hudson Mezz
3. All other positions - traditional-style CDOs with collateral managers

Gameplan for distribution:

1. CDO-squareds
   - Target real money institutional buyers that can take larger bets size than traditional CDO buyers and are focused on yield
     pick-up vs. other investments - for example, Asian banks and insurance companies
   - Target European banks focused on new Basel II regulatory capital framework that achieve significant regulatory capital
     benefit for investing in highly rated assets vs. the previous system
   - Offer CDO CDS protection on a portfolio of names in the Timberwolf and Poinciana portfolios to buyers looking at
     cash liabilities from the two deals as a long/short pair trade - for example, AIG is currently focused on this trade idea.
     GS is currently long CDS protection on 51 CDO names in the two portfolios and we have been aggressively sourcing
     further protection in the CDS market on names in the two portfolios recently.
   - Target hedge funds that can put on this type of relative value long/short trade with short-term financing to achieve
     returns attractive relative to CDO equity

2. Hudson Mezz
   - Focus on institutional buyers that can take larger bets size than traditional CDO buyers
   - Focus on buyers that are currently long ABS risk and can get comfortable with the Hudson Mezz underlying portfolios
     without needing the benefit of a collateral manager - for example, US insurance companies like Progressive.
   - Offer RMBS CDS protection to buyers looking at cash liabilities as a long/short pair trade
   - Offer CDO CDS protection to buyers looking at cash liabilities as a long/short pair trade
   - Pitch Hudson Mezz as a means to express long 68-106/2 vs. short 77-1 trade
   - Target hedge funds that can put on these relative value long/short trades with short-term financing to achieve returns
     attractive relative to CDO equity

3. Other positions
   - GSE super-senior AAs - Drephin is nearing completion of their work on $500mm of our $1.665mm position. Other
     options for the remaining size: CDFG, Radian, FGIC
   - Continue to focus on CDO managers ramping new deals and reinvesting principal paydowns in existing reinvestable
     deals for smaller cash pieces (examples in the last 2 weeks - sales to Tewin, Oppenheimer, Dearfield, and Vactor
     Capital)
   - Target buying protection in CDS format on the same names we are currently long in cash if there continues to be more
     liquidity in CDS vs. cash due to market technicals, and when we reach critical mass ($50-100mm), compile a package of
     cash positions that we’ve sought protection on and offer the package at a negative basis trade

We received the following verbal order from Hungkuk Life on Timberwolf: 05356mm WOLF 2007-1A A2 (85+ % delta). Few comments:

- Timing: We expect to receive the 100% firm order by Friday as we need to receive formal BOK approval and an internal desk / senior manager approval these are both not expected to be a problem. Once we have formal approval, we will be able to trade the ticket.

- Prime Source: Hungkuk Life will confirm shortly but currently they are in the 84-85 context per our offer.

Thanks.

Subject: Timberwolf and Hungkuk Life

Next week Hungkuk Life will submit an approval form on Timberwolf A2's. Their size will be 20mm-40mm, depending on offer price.

The largest hurdle from the client's perspective is whether or not they can get the mandate to buy something backed by synthetically accrued CDOs, as they have never bought CDOs before. Both the accounts GM and bank of Korea (Korea's central bank) can OK them on this.

The largest hurdle from seller's perspective is MTM. It is an important client, and if the mark veers out more than 1pt immediately after selling the asset to them, sales cannot sell it. Understanding that it is a volatile asset, sales wants to know that where we sell it to the client will not be more than 1pt less than where the mark would be, provided no new much information.

Please provide the following by Sunday 7pm NYC (Monday morning Asia):

- Base Case GM: Other 2MM such that the price is 14pt above where we intend to mark it (provided no market changes). Show Price/OM table centered around the Base Case GM as defined above, and +/- 30bp OM by 10 GM (eg, 7 scenarios total). Assume a sale of June 14th.
- If there are any questions, please contact me at +81 90 3553 0936, or email at jay@lee@web.ne.jp

Subject: SP CDO Asset - Summary

Dear,

For our conversation on Friday, wanted to make sure you had the complete update/summary of where we are on the CDO asset in Asia. Total firm bias for risk 386mm with another potential 20mm this week.

*Tokyo Star Bank (Japan) -- 20mm TWOLF AAA's. Doug on our desk worked personally on this daily for 3 weeks.

*Shrepo Life (Korea) -- 35mm TWOLF AAA's firm as of Friday expect firm order on 20mm more by mid next week (need to knock as single ticket). Jay and Doug working with entire Korea team (including In Park) to get this through. We have leveraged our personal relationship / time investment to date with the Korea team to push them on this.

*Basis Capital (Australia) -- 50mm AAA and 50mm AA TWOLF firm order in swap form as of last week (as you know, just finalising last few internal credit/doc issues). George has totally come through on this and again proves how invaluable he is to the business (we should keep this in mind as we continue to think about important personnel to global SPC as we expand the trading/syndicate side of the business).

*Tokyo Star Bank (Japan) -- Appro. 20mm indication for Point Pleasant AAA's. PM's taking deal to their risk committee on Tuesday of this week in Tokyo. Again, Doug has been driving this process and getting it done.

Let me or Barry know if you need further clarification on any of these. In Barcelona Monday/Tuesday. Thanks.

Subject: CDO marks

CDOs have widened a lot (BSRM situation, other) and we probably need to widen things/lower prices - next few days.

The effect on us will probably be a net positive, with retained CDO positions lower, CDS protection and correlation having gains. We are still doing work. We are also thinking through client mark issues including speaking to compliance about using bids.

Also, monthly subprime remittances are out today, and early read is performance is poor and speeds are slow.

Also, Moody's wants to speak (as our corporate ratee). NYSE has questions, and I spoke with the SEC Thursday - all off the BSRM and related stuff.

Wall Street & The Financial Crisis  
Report Footnote #862

GS MBS-E-001860752
Let's discuss live. Happy to look at his spreadsheet.

FYI...I can also email you this analysis.

1. Number should be 23%, I am assuming a 50% severity of the single-A cdos that has a writedown.

2. At the timberwolf level, OC triggers provide support in the case of a ratings downgrade, and prior to a writedown of the underlying single-A. In those cases, cashflow is directed towards the senior bonds allowing more 0c to build at the jr levels. However, in many of the underlying single-A cdos, these same triggers could hurt timberwolf, on balance, it probably helps rather than hurts timberwolf more triple-A.

3. I came up with level after talking to egol. Having said that it is largely subjective and have not used it in discussing it with clients other than to say the attachment point for the a2 understates the protection for the a2.

As aside, the results look even better if you break the 2006 production home equity into buckets based on fico. Without bucketing, roughly 27% of the underlying ref obls going all the way down through to the cdo of the cdo of the cdo, etc., are homeequity of 2006 or later production based on our weighing framework. This is better than the original analysis, which had that number at 34%. Even better is that only 14% on a weighted basis of the ref are truly subprime (fico 625 and lower). So, defaulting all of these does not hit the a2 attachment point.

In terms of telling customers, I prefer to give them the general idea of the trade. Then give them the excel spread sheet with our info on ref obls and let them draw their own conclusions.

Thanks Alan, this is a really good contribution to analysis were doing internally as well regarding the pricing of Timberwolf and our structured product positions.

A couple of questions:

1) Can you explain how you got to 24% writedown based on 29/55 names defaulting?

2) What do you mean when you say that oc triggers could provide added support beyond excess interest?

3) How did you come up with 4% enhancement at the Timberwolf and underlying CDO levels?
Footnote Exhibits - Page 4597

The trickiest part about sharing this analysis with custodians is that it shows how rudimentary our own understanding of these positions actually is. Are other dealers running cashflows for clients on this type of product? (Including Views for the thoughts on what Lehman does).

<< File: timberwolf ana 2.xls >>

Here is a spreadsheet with our latest info on timberwolf plus some simple analysis. I basically default every 2006 vintage subprime regardless of rating, and assume losses of 35% of face. I then look at those losses versus an adjusted cdo credit support to see if there are losses. This brute force approach defaults 25% of the 55 names, or 45%. This results in a writedown at the timberwolf level of 24%. Although the attachment point of the a2 is 20%, the effective attachment is higher, again using another 4% or 24% of the cdo attachment for the a2. (BTW this 4% only reflects the value of the excess interest, the cdo triggers would also give added support).

This is pretty much the same results before, just hitting the low fico 2006 and just the ba1 and below would look better. Of course if you start getting complete writedowns of 2006, 2007s will take some hits as well. However, I think assuming all 2006 vintage ba1 and below get written down offsets that factor. However, this framework can provide some rudimentary analysis for us and for customers. Once we send them the spreadsheet with the information they can do this themselves.

Sent: Sunday, May 20, 2007 1:18 PM
To: Wessel, Eliza
Subject: RE: CDO 2 EDO Update - Feedback from today

Agreed on the likelihood of the fully completed letter. Not sure what a "big boy" letter is - accountant letter typically covers CM materials - not info put together after, so we're somewhat in uncharted territory.

From: Wessel, Eliza
Sent: Sunday, May 20, 2007 12:48 PM
To: Bieber, Matthew C.
Subject: RE: CDO 2 EDO Update - Feedback from today

Given how complex the data is for a CDO 2, there's little chance we'll ever get "fully" comfortable beyond the shadow of a doubt that there's nothing materially misleading in the data sets we provide. Is best outcome in this situation to just get a big-boy letter drafted? Have you seen any similar situations?

From: Bieber, Matthew C.

To: Wessel, Eliza
Subject: RE: CDO 2 EDO Update - Feedback from today

I'm happy to help. These issues come up at least once or twice for every transaction we do.
Footnote Exhibits - Page 4599

I am corresponding with Saunders on what's involved in disseminating the lookthru analysis - we're doing as much as we can to independently audit the lookthru machinery by another group in Strats, but at some point we're going to have to bite the bullet and send the best we have at whatever confidence level we're currently at.

If either of you have any experience in the "what can we show" thought process, I may need your help.

INTERNAL

Fortress - have continued working and are having trouble modeling the deal in enough detail to be comfortable providing a level. Davelman continues to push - planning to have a call to address their questions and concerns early next week - pushing to have call Monday, but might happen Tuesday - also still need lookthru analysis that strats are working on.

Winchester - have not come back with an answer - deal has been elevated to senior management - they are debating appetite for additional sector exposure - if comfortable adding risk they will come back with what levels work. Continuing to push early next week.

Stark - still looking, but concerned about correlation and recent report from Moody's, also concerned with back ended return profile given lower coupon. Gaddi setting up call with the account Monday to address concerns.

Paramax - very low delta at this point.

UBS reso - started work on Timberwolf A2, B and Point Pleasant B class this AM - they have inherited the bonds that Dillon Read took down when the deal was priced.

Elico - looking at Timberwolf mezz AAA's for a vehicle - would be vs senior CLOs - they are going to give us a list of CLOs to bid on vs Timberwolf early next week - potential size 10-15mm.

AG - asked for and received additional information on Timberwolf today - they currently have all the information they have asked for - they are working - Lenick to follow up early next week.

DeShaw - had call to discuss Timberwolf mezz AAA - asked for and received additional information on underlying deals - working - if they care, potential size would be 25-30mm - low delta.

Harvard - evaluating Pt Pleasant A's vs 40-100 ABX - GS offered at pick 5bps - account needs more spread and is evaluating counter - Fladdy to push next week.

Polygon - continuing to work - evaluating structure - Rasul to continue pushing next week.

Vanderbilt - evaluating for CDO bucket of their deal - very limited room in bucket so would be small (5-10mm) if they care.
Footnote Exhibits - Page 4600

Hyperion - looking, concerned with amount of credit support and moody's report on correlation and COP's.  lke discount dollar price.  Writing continuing to push.

Carlyle - still need lookthru analysis that strats are working on

Highland - still need lookthru analysis that strats are working on

Old Lane - still need lookthru analysis that strats are working on

SanDisk - still need lookthru analysis that strats are working on

Lehman AM - still need lookthru analysis that strats are working on

Updated Feedback sheet below.

From: Ruberti, Timothy
Sent: Monday, July 16, 2007 1:59 PM
To: Besh-Polley, Stacey; Lehman, David A.
Subject: Carlyle

I've been speaking with scott at carlyle about junior AAA CDO paper and he is starting to see value here - will show him the CBO deal and walk through it - he seems to have an appetite for risk at these levels which is good but the flip side is he thinks the market is "unhinged" to valuators, i.e. everything trading on technicals and no one talking about fundamentals - one point, he is going to want to look at the TWOF trade on a fundamental basis with a lot of supporting runs to back up any additional mark downs we have - telling him we are busy when it comes to model and we can't run that analyst because we are resource-constrained will not be good enough.

This should be a double-edged sword that we can use to move risk however, so I hope we see this approach as a net positive.

Wall Street & The Financial Crisis
Report Footnote #3465
Footnote Exhibits - Page 4602

From: Huang, Vivien
Sent: Monday, May 07, 2007 1:58 PM
To: Brazil, Alan; Wiswell, Sheila
Cc: Flax, Shiom; Tuck, Michael; Primer, Jeremy
Subject: RE: 'Timberwolf'. Number should be 23%. I am assuming a 50% severity of the single-a cdo that has a writedown. Off analysis

Just want to give a little color, at Lehman (internal strictly), the analysis is more bottom-up: what I mean is that the individual subprime or other classes bonds are analyzed under typical HPA scenarios, then the cashflow gets sum up; usually, the implied HPA of the worst priced ABC index will be used as a "market implied mean HPA" to reflect the market price
2. A standard deviation (historical national) will be applied on top of the implied HPA assuming very simplistic normal distribution
3. Individual bonds are calling sector models (subprime bonds each up subprime, CMBS bonds call up CMBS), cashflows are run under the multiple HPA scenarios. So triggers are run standalone, the curves are based on model projection (and the tweaks on top are, originator, vintage, etc.)
4. Cashflow summed up based on the CDO structure - this is in development and manual and not fully scalable the last time I heard it
5. CDO cashflow under HPA scenarios. That's roughly how the mortgage side go about it.

As an aside, the results look even better if you break the 2005 production home equity into buckets based on fico. Without bucketing, roughly 27% of the underlying ref obs going all the way down through the coo of the coo of the coo, etc., are homogeneity of 2005 or later production based on our weighting framework. This is better than the original analysis, which had that number at 34%. Even better is that only 14% on a weighted basis of the ref are truly subprime (Fico 525 and lower).

So, defaulting all of these does not hit the a2 attachment point.

In terms of telling customers, I prefer to give them the general idea of the trade. Then give them the excel spread sheet with our info on ref obs and let them draw their own conclusions.

Subject: Re: Basis conference call follow-ups

Hi John,

Thanks for your notes.

As represented on the call on the morning, we want to be as helpful as possible here.

However, as per the call, the trading desk does not necessarily use a single scenario to determine the marks. To that end, I would recommend doing a follow up call to go through the marking methodology for the remaining securities (and/or go over the securities discussed on the call).

Does Monday morning SVV time work? If not, please indicate a time/day that does.

Thanks and kind regards,
George

Oiwa-san,

To clarify, we understand there is urgency from the client's and to see something in writing by this Wednesday morning, and we are working to provide something.

However, under no circumstances are we going to be able to provide materials specific to Timberwolf and Point Pleasant, or even use the word "mark" in written materials. Instead, what we are working to provide is an introduction to some of the frameworks that can be used to analyze different types of CDO's. Everything will be described in general terms, and if what we provide is too vague or general, the medium for further clarification must be oral, not written.

Cc: Chauchary, Omar; Lee, Jay; Sugicka, Hirotaka
Subject: RE: Tokyo star

Our marking policy is a market price (bid and/or offer) -- we do not have a written methodology for pricing and we should tell Tokyo Star as much.

We are able to provide context to our prices verbally, including any CDO trades we have done (in the underlying deals or the CDO'T itself if we have traded), and the move in the underlying portfolio M/T, etc.

Also important to note that our marks are actionable bids and offer prices for cash (bid) or cdo offer; whereas it is not clear if our competitors' marks are indicative of the current market prices.

Is there a reason Tokyo Star wants something in writing vs getting on the phone or discussing verbally?

Can discuss more live.

Subject: ABACUS 07-AC1

Gentlemen, we are getting good traction on the ABACUS 2007-AC1 transaction, the $5bn notional mortgage ABS CDO transaction with a portfolio consisting of 100% Baa3 rated RMBS bonds selected by ACA. We have gotten orders for approx $200m of moz Aaa CLNs and expect to price a first top of this transaction early next week. This transaction should be a good product to show your customers, in the extent they are not participating in Anderson Mezz, Timberwolves or Point Pleasant. I have attached below some key selling points for this trade, as well as price thoughts below:

Super senior tranche (45-100 tranche, funded or unfunded): 45bps
Aaa/Aaa (65-85 tranche, funded or unfunded): L=85bps
Aaa/Aaa (81-130 tranche, funded or unfunded): L=110bps
Aaa/Aaa (81-130 tranche, funded or unfunded): L=175bps
Aaa/Aaa (135-18 tranche, funded or unfunded): L=250bps
Aaa/Aaa (10-13 tranche, funded or unfunded): L=500bps

Below are some key marketing points for the trade. Let's discuss what customer we can show this transaction to, thanks.

***INTERNAL ONLY***

ABACUS 2007-AC1 - 25bn synthetic RMBS CDO

OVERVIEW
- Static portfolio consisting entirely of "Baa3"-rated midprime/subprime RMBS selected by ACA
- ACA is one of the largest and most experienced CDO managers in the world (see Overview of ACA below)
- Goldman's market-leading ABACUS program currently has $3.1bn in outstanding CLNs with strong secondary trading desk support

RELATIVE VALUE
- Reference Portfolio more conservative (360 WARE) than traditional mezz ABS CDOs
- Capital Structure less aggressive than traditional mezz ABS CDOs (see comp below)
- Attractive spreads relative to ABS CDOs currently in the market (see comps below)

PORTFOLIO
- Granular portfolio of 90 equally-sized reference obligations selected by ACA
- Static reference portfolio fully-identified, with no reinvestment, resecuritization or discretionary trading
- 100% Baa3 Moody’s-rated subprime/midprime (360 Moody’s WARE)
- Diversified across 16 publishers and 24 servicers
- Portfolio attached below

**545**

**Footnote Exhibits - Page 4616**

**STRUCTURE**
- Tranches offered across the entire capital structure
- Sequential Principal Paydown Sequence: no subordination is leaked to residual tranches under any circumstance
- No upfront structuring fees
- Investors will not bear WAC and/or available funds cap risk
- Projected 4- to 5-year tranche WALS at the reference portfolio pricing speed
- Tranches available in unfunded CDS format as well as in CLN format (in all major currencies)

**OVERVIEW OF ACA MANAGEMENT LLC**
- One of the largest CDO managers in the world
- Currently manages approximately $1.6bn in collateral assets across 22 CDOs
- ACA team consists of 30 dedicated credit and portfolio management professionals with an average of 13 years of relevant experience
- Portfolio Selection Fee structure aligns manager's incentive with investors'

Evaluating Asset Classes

Cash CDO Overview
Cash Collateralized Debt Obligations (CDOs)
Cash Collateralized Loan Obligations (CLOs)

Synthetic CDO Overview
Corporate Credit
Asset Backed Securities (ABS)

Appendix - Disclaimers & Risk Factors
Executive Summary

- Structured products may represent an opportunity for banks to enhance yield, improve capital efficiency and diversify risk exposures.
- Financial institutions have begun to recognize the value of structured products and have been directing asset and resource allocation accordingly.
- Implementation of product efforts has been slow due to several factors:
  - Lack of internal product expertise
  - Balance sheet viewed as containing sufficient risk
  - Regulatory capital issues
  - Mark-to-market earnings volatility concerns
- Increasingly structured products are viewed as an efficient and effective vehicle to access credit:
  - Systemic exposures and managed transactions minimize need for intensive research capability while maximizing portfolio diversity
  - Attractive alternative for overly concentrated portfolios
  - Existing knowledge of MBS and ABS CDO's transferable to synthetic CDO's
  - Environment for structured products has become progressively more balance sheet and income statement friendly.
Traditional Bank Portfolios

- Banks seek to maximize investment portfolio returns subject to certain risk guidelines: liquidity, market risk, principal risk and regulatory capital.
- Banks have attempted to meet these goals through exposure to Treasuries, Agencies, Mortgage-Backed Securities (MBS), Asset-Backed Securities (ABS), Municipals and Corporates.
- Historically, banks have limited credit exposure in their investment portfolio:
  - MBS and ABS contain some consumer credit risk
  - Agency products contain limited credit risk
  - Corporate bond investment overall has been limited.
- Consequently, interest rate risk has been the primary portfolio risk:
  - Upward sloping yield curves have provided alpha
  - Convexity in mortgage portfolios has enhanced yields but exposed banks to the increased volatility inherent in these products.
  - Corporate bonds fail to diversify rate risk because:
    - Limited component of bank investment portfolios
    - Only 11% of corporate bond coupon results from credit risk
    - Corporate bonds are not a source of negative convexity (100% risk weighting).

Footnote Exhibits - Page 4622
CDO Product Overview

- As the structured products universe continues to expand, mortgage and corporate credit products as well as cash and synthetic CDO structures have continued to converge.

Evaluating Asset Classes

Overview

- Evaluating asset classes is a multi-step process that incorporates evaluation of:
  - Current yields of underlying asset class
  - Risk/return profile of underlying asset class
  - Correlation between asset classes in structured portfolio
  - Diversification/Overlap of exposure between structured credit portfolio and holdings in other portfolios
Current Yields of Underlying Asset Classes

Cashflow CDO Overview

Many CDOs have been substantially upsized, reflecting both rising demand and improved structuring.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-002055365
# CDO Product Overview

## CDO Participants

### Equity Investors
- **Investment Objectives**
  - Arbitrage between asset yields and financing cost
  - High current cash flow
  - Low correlation with other alternative investments
  - Lower management fees than other managed vehicles
  - Deliver manager alpha in chosen Asset Class

- **Participants**
  - Pension Funds
  - Hedge Funds
  - High Net Worth Clients
  - Insurance Companies
  - Structured Credit Funds

### Debt Investors
- **Investment Objectives**
  - Diversification; exposure to asset classes that may not otherwise be available or practical
  - Customized risk profile
  - Attraction yields relative to comparably rated securities

- **Participants**
  - Insurance companies
  - Asset Managers
  - Conduits
  - Hedge Funds

### Underwriters
- Goldman Sachs CDO Group
- Originates, structures and places transactions backed by diversified portfolios of bank loans (Collateralized Loan Obligations) or RMBS, CMBS CDOs and ABS (Structured Product CDOs)
- Franchise record year for both CLO and SP CDO issuances in 2005

### Collateral Managers
- **Assets under management**
  - Longer term mandate than typical accounts
  - Access to different investor base

- **Naries include**
  - Carlyle Investment Management
  - New York Life Investment Management
  - Ballymore Investment Advisors
  - Kasten
  - Debt Advisors, Trust Company of the West

Growth of Primary Market Issuance
Overview and Motivation for the Bank Loan Asset Class

- The collateral for a CLO consists primarily of leveraged loans
  - Leveraged loans are syndicated bank loans made to borrowers with non-investment grade credit ratings
  - The US leveraged loan market has matured into a major capital market with strong liquidity
  - Spreads over LIBOR on B-rated leveraged loans have averaged approximately 300 bps over the last seven years
  - Default rates for leveraged loans have historically tracked significantly lower than default rates for high yield bonds
  - Recovery rates for leveraged loans have historically tracked significantly higher than recovery rates for high yield bonds
- Since its development in 1996, the US cash flow arbitrage CLO market has developed into a major market
  - US Cash flow arbitrage CLO issuance reached approximately $42 billion in the first 3 quarters of 2005
  - CLOs own an estimated 65% of the US dollar institutional leveraged loan market
Growth of Primary Market Issuance
Broady Syndicated Loans

- A syndicated leveraged loan is one that is provided by a group of commercial or investment banks to a non-investment grade company
- A syndicated loan typically consists of:
  - A revolving credit facility (pro-rata) which allows a borrower to draw down, repay, and reborrow
  - An amortizing loan with a progressive repayment schedule
  - One or more institutional term loan tranches that have longer maturities and back-ended repayment
- As the syndicated loan market has evolved, the banks that arrange loans have increasingly sold loans to institutional investors such as CLOs and prime funds
- US dollar denominated annual new issue volume for leveraged loans

Growth of Primary Market Issuance

Bank Loan Structural Features

- Loans possess inherent structure and creditworthiness, making them attractive to own in a leveraged vehicle.

- Senior Secured Loans: 50%

- Unsecured Fraud Rate Debt: 15%

- Equity: 35%

The structure shown in this diagram for a hypothetical company's capital structure is typically represented by the most senior source of capital.
Growth of Primary Market Issuance

**Spread Averages**

- Loans have demonstrated characteristics over the long-term that make them attractive to own in a leveraged vehicle like a CLO
  - Attractive risk-adjusted returns
  - Low volatility
  - Low total return correlation with other asset classes
  - High recovery rates

### Transaction Overview
- [JYC CLO Ltd. will be a $500 million CLO consisting of a diversified portfolio of senior secured and second lien loans.](#)
- The portfolio consists of collateral which is rated at least B3 or B-, with an average rating of B1/B2.
- Senior Fees: [1] % of Portfolio Balance, paid senior to the Class A Notes.
- Subordinated Fees: [2] % of the Portfolio Balance, paid senior to the equity. Unpaid amount accrues at LIBOR + 3%.
- Incentive Fees: [2] % of the Portfolio Balance, but payable only after the Subordinated Securities have achieved an internal rate of return of 12%.

### Structural Highlights
- The transaction will feature a matrix of Diversity Score/Rating Factor Spread combinations, that the Collateral Manager will have the flexibility to select.
- 12-year legal final maturity, 5-year reinvestment period, 3-year non-call period.
- Class D PK Protection - During the Reinvestment Period, if deal proceeds are insufficient to pay the coupon on the Class D Notes, such coupon payments will be advanced by a PK protection provider. As deal proceeds become available, repayment of the advances will be subordinate to payments on the Class D Notes. Amounts advanced by the PK protection provider accrue at LIBOR + 3.0%.
- Tack/Prepay - Failure of the Class D Par Value Test will be remedied by using Interest Proceeds to pay down the principal of the Class D Notes directly.
- The Collateral Manager will select the portfolio and has the discretion to:
  - Up to 20% discretionary trading per year.
  - Un-limited selling of potential "credit improved" assets.
  - Unlimited selling of "credit improved" assets.
Transaction Overview

- [XYZ CLO Ltd], will be a $500 million CLO consisting of a diversified portfolio of senior secured and second lien loans
- The portfolio consists of collateral which is rated at least B3 or B-, with an average rating of B1/B2
- Senior Fee: [15] bps of Portfolio Balance, paid senior to the Class A Notes
- Subordinated Fee: [35] bps of the Portfolio Balance, paid senior to the Equity. Unpaid amount accrues at LIBOR + 3%
- Incentive Fee: [25] bps of the Portfolio Balance, but payable only after the Subordinated Securities have achieved an internal rate of return of 12%
Agenda

Executive Summary
Evaluating Asset Classes
Cash CDO Overview
  Cash Collateralized Debt Obligations (CDOs)
  Cash Collateralized Loan Obligations (CLOs)
Synthetic CDO Overview
  Corporate Credit
    Asset Backed Securities (ABS)
Appendix - Disclaimers & Risk Factors
Synthetic CDO Overview

- CDOs are not an asset class.
- CDOs are a technology – a combination of derivatives and structured finance technology – applied to an asset class.
- CDO technology enables market participants to build customized investments to meet return objectives subject to risk tolerance.
- Credit portfolios tend to have asymmetric risk/return profiles due to idiosyncratic risk.
- Structured credit investments create systemic based risk/return profiles as credit events decrease subordination before resulting in actual losses.
- Highly rated structured credit investments may provide for more efficient use of regulatory capital than comparably rated single name investments.
- Structured credit investments provide exposure to a variety of asset classes and may serve as a good source of diversification.
- Synthetic structured credit investments enable instant ramp up of assets and are not subject to supply constraints of the cash market.
Synthetic CDO Overview

- A synthetic CDO is an arrangement whereby the losses on a portfolio of CDS are allocated among various participants according to specified priorities.
- Synthetic CDOs are a derivative extension of cash CDOs and have seen a large increase in volume over the past several years:
  - A synthetic CDO combines the cash CDO securitization technology with credit derivative hedging technology.
- Like a cash CDO, the performance of a synthetic CDO is directly linked to the performance of the reference portfolio.
- They can be structured unfunded (as derivatives or guaranty policies) or funded (as Notes or bonds), rated or unrated.
- Similar to a cash CDO, we can create tailored risk profiles by allowing different tranches to assume losses in a given order:
  - The Equity tranche assumes the first losses on the reference portfolio, up to its tranche size. It is the riskiest part of the capital structure and receives the highest coupon.
  - A mezzanine tranche assumes subsequent losses up to its tranche size. It is less risky and receives a lower coupon.
  - The Senior tranche assumes any remaining losses on the reference portfolio. It is therefore the safest part of the capital structure and receives the lowest coupon.
- Transactions are documented using standard ISDA terms and credit losses on the reference portfolio are determined in accordance with ISDA credit derivative definitions.
Diversification

- Structured credit/asset investments are available on a variety of asset classes:
  - Corporate credit
  - Residential Real Estate Securities (RMBS)
  - Emerging markets
  - Asset Backed Securities (ABS)
  - High yield
  - Commercial Real Estate Securities (CMBS)
  - Collateralized Debt Obligations (CDOs)
Credit Derivatives Market Evolution

103% Growth in 2005

- The credit derivative market is expected to grow to over $23.5 trillion in 2006

Credit Default Swaps
Disaggregating Credit-Risky Bonds

- Given lack of development of a corporate repo market, cash credit markets have always been "sticky"
- Long/less long mentality
- Cash credit products embed several risks, including interest rate and credit risk
- Credit derivatives enable market participants to isolate the components of credit risk
- A credit default swap (CDS) allows investors to express long and short views on single-name credits and serves as the fundamental building block in structured credit

Illustrative only - diagram not to scale

- Bonds/loans are physical IOUs
- Government bonds are considered credit risk free
- Credit risky bonds, therefore, trade at a yield premium to government bonds to compensate for risk of default
- The CDS market focuses on trading the credit default risk premium
Credit Default Swaps

Example Mechanics

- Buyer of protection pays a quarterly credit spread premium to the seller of protection
- Credit Events may include:
  - Failure to pay
  - Bankruptcy
- If no credit event occurs, the only cash flow is the quarterly premium paid by the buyer to the seller
- If a credit event occurs, the premium payments stop and the transaction is settled either physically or through a cash valuation mechanism
  - Physical: The buyer delivers the seller Deliverable Obligation and the seller delivers 100% of the notional of the transaction to the buyer. Physical settlement is the market standard
  - Cash: A valuation mechanism is used to determine a "Final Price" for the defaulted obligations (generally a dealer poll) and the seller delivers the notional of the transaction x (100% - Final Price) to the buyer

(1) Please see appendix "Indebted Reference Portfolios & Definitions" for more details on Credit Event definitions.
Structured Credit Tranches

Subordination and Tranche Size

- Structured credit relies on two key principles:
  - Subordination
    - The measure of losses that must occur within a portfolio before a tranche is at risk to loss
  - Tranche size
    - Reflects the notional (value-at-risk) of a structured credit investment

- In this example, the first loss tranche size is $100mm
  - $100mm of reference portfolio losses would need to occur before the second-loss tranche is subject to loss
  - Investors can thus create "credit enhanced" credit exposure through the use of subordination

- Tranche size is also a measure of leverage
  - For example, an investor may wish to invest $200mm into the same 10% first-loss tranche and thus would reference a portfolio of $20n rather than $1n

- Combined with tranche size, varying levels of subordination enable investors to tailor both the structural leverage and the risk/return profile of their investment
Synthetic CDOs
Structure

- Investors customize tranche risk/return profile by specifying tranche subordination and tranche size
- Investors can create rated "credit enhanced" credit exposure through the use of subordination
  - In this example, the AAA rated tranche subordination is 10% ($100mm)
  - $100mm of reference portfolio losses would need to occur before the AAA tranche is subject to loss
- Tranche size is a measure of leverage
  - In this example, the AAA rated tranche size is 3% ($30mm)
  - Once portfolio losses reach 10% ($100mm), the tranche can withstand an additional 3% ($30mm) portfolio losses before exhaustion
Synthetic CDOs

How can we sell a single tranche?

- What happens to the rest of the capital structure? Who owns the equity?
- When a dealer executes a single tranche deal, they decompose the risk into a sensitivity to each of the underlying credits (the "delta")
  - Dealers will execute delta hedges on each of the names in the reference portfolio at the time they trade the tranche.
  - By only ramping up the risk associated with the tranche we place, we are able to execute single tranches without placing the entire capital structure.
## Concerns Around Credit Resolved

<table>
<thead>
<tr>
<th>Traditional reasons to limit credit exposure</th>
<th>Structured credit resolves past issues</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lack of internal expertise and infrastructure required for corporate credit analysis</td>
<td>Systemic risk exposure achieved utilizing existing knowledge of structures</td>
</tr>
<tr>
<td>View balance sheet as already containing sufficient credit risk</td>
<td>Negative correlation to mortgage products may provide needed asset class diversity</td>
</tr>
<tr>
<td>Regulatory capital requirements have traditionally limited the ability to efficiently gain systemic credit exposure (corporate bonds '100% risk weighting')</td>
<td>Capital efficiency achieved through ability to invest in rated securities with enhanced returns</td>
</tr>
<tr>
<td>Introducing credit to portfolio may cause earnings-based mark-to-market volatility</td>
<td>FASB amendments may allow tranche notes to be classified as Available for Sale securities¹</td>
</tr>
</tbody>
</table>
Synthetic CDOs
Relative Value & Yield Enhancement

- Structured credit/product investments produce higher yields than comparably rated single name investments through structural leverage and exposure to "systemic" rather than idiosyncratic risk.
- Structured credit market may enable managers to articulate views without taking as much idiosyncratic credit risk and may potentially generate benefits from these non-economic driven technicals.

![Graph showing indicative spreads for Corporate, Synthetic Investment Grade, High Yield CDOs.](image-url)
Systemic vs. Idiosyncratic Risk

- Tight spread and yield environment has triggered an extensive search for yield
- Increased single name exposure to higher yielding credits may increase idiosyncratic and asymmetric risk
- Structured credit/product investments rely on two key principles:
  - Subordination: measure of losses that must occur within a portfolio before a tranche is at risk to loss
  - Tranche size: reflects the notional (value-at-risk) of a structured credit investment
- Through the use of subordination investors can take highly rated exposure to lower rated collateral and articulate a systemic as opposed to idiosyncratic view on credit
Trading Flexibility

- The Manager will have the flexibility to trade the underlying Reference Portfolio – and trading will affect the subordination of the tranches
  - Typical trading is defensive – taking out wide spread names and replacing them with tighter names. These trades will result in a reduction in subordination
  - Manager can also take a view on the credit by taking out a tight spread name and replacing with a wider name for credits where the Manager believes that the new credit is trading wider than is reflected by the fundamental credit risk
    - These trades will result in an increase in subordination
- Trades will be subject to the following restrictions
  - Turnover Limit
  - Regional and industrial diversity requirements, spread distribution test. These are designed to ensure that the overall correlation and spread distribution of the portfolio remain broadly the same
  - S&P CDO Monitor Test – S&P require the S&P CDO Monitor to be run before each trade to ensure that the rating of each tranche is not adversely affected by the trade
  - Minimum Subordination for the lowest rated tranche of [2.0%]
  - Maximum increase in subordination from spread widening trades equal to [1.0%]
- There will not be any coverage tests as the Manager’s incentives are aligned with those of Investors through ownership of the notes
- Typical Trade Flow
  - Manager will have the ability to price check the levels quoted by GS with other dealers and trade at best market prices
Effect of Trading on Subordination

- Any change in subordination will be determined by the change in spread of the Reference Entity being removed, and the new Reference Entity (determined at the time of switch), obligor percentage and an adjustment factor:
  
  \[ \text{Subordination reduction} = (\text{Spread Old} - \text{Spread New}) \times \text{Adjustment Factor} \times \text{Obligor Percentage} \]

- What is the rationale behind Adjustment Factors?
  
  - When Manager trades a name, this changes the value of the portfolio credit default swap
  - In order for the substitution cost to be zero, the value of the portfolio credit default swap must remain the same – hence subordination must be changed
  - The Adjustment Factor is determined at the time of trading such that the net change in value is zero

- What determines the Adjustment Factor?
  
  - Adjustment Factors are determined by a number of variables that also determine the value of a tranche:
    - Time to Maturity
    - Absolute spreads and distribution of spreads in portfolio
    - Subordination of tranches
    - Recovery rates and recovery volatilities
    - Correlation between credits

- Since Adjustment Factors depend on a number of variables, it will be impossible for GS to predict what the Adjustment Factors will be at the outset of the transaction - this will be driven by the market conditions at the time of trading - hence, Adjustment Factors will be quoted at the time of the trade
Trading Example

1. One year after the Effective Date, the spread of a Reference Entity has widened significantly since the
original inclusion of that Reference Entity in the Portfolio. Manager is concerned about the increased
potential for that Reference Entity to suffer a Credit Event and wishes to replace that Reference Entity
for a new Reference Entity which is trading at a much lower spread.

2. The following conditions exist:
   a. Bid-side spread of Replacement Reference Entity = 5.1%
   b. Spread of existing Portfolio = 600 basis points
   c. The average spread of the portfolio is [0.00%]

3. To avoid a Credit Event, the adjustment would be calculated as follows:
   - Adjustment Factor = 5.1%
   - New Subordination for mezzanine = 5.10% - 0.1% = 4.92%

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-002055429
Case Study: Yankee Bank

- **Account Profile**: Yankee bank looking to purchase assets for securities arbitrage vehicle

- **Organizational Structure**:
  - Pre-transaction: Two synthetic CDO investments at home office level
  - Post-transaction: Decision making capabilities assumed by regional office assuming transactions fall within predetermined guidelines designed by credit committee

- **Portfolio**:
  - 188 name, 100% IG, globally diversified portfolio
  - Trade executed with significant subordination above Moody's AAA for purposes of improved ratings stability

- **Process**:
  - GS worked with regional and home office teams and gained CFO approval
  - Client did not apply fundamental analysis to specific credits but rather worked within predefined parameters for portfolio characteristics
  - Client sought wider spectrum of decision making authority for future transactions

- **Conclusion**: Client has now executed the first in a series of trades for 2008

Overview of Structured Product Synthetics

- Structured product synthetics are credit derivatives referenced to a single underlying structured product security or to a basket of underlying structured product securities
  - Prime, Alt-A and Subprime RMBS
  - CMBS
  - Consumer ABS
  - Cash CDOs
- Market activity has been concentrated in real estate-related sectors of the structured finance market (i.e., RMBS and CMBS)
- The structured product synthetics market is expected to continue to exhibit rapid growth over the next few years, consistent with the trend line in the corporate credit derivatives market
- Structured product synthetics consist of:
  - Single-name CDS: Credit default swap (CDS) on a single reference obligation allowing investors to go long or short credit risk on a specific structured finance security synthetically
  - Basket/Index Trades: CDS on an unlevered basket of underlying reference obligations – equivalent to a basket of single-name CDS
  - Levered Synthetics: single tranche synthetic structured product CDOs backed by a portfolio of single-name structured product CDS, enabling investors to gain exposure to structured product cashflows in a levered synthetic fashion
Overview of Structured Product Synthetics

The Basics

- Basics of structured product synthetics
  - Long credit (sell protection) or short credit (buy protection)
  - CDS trade references a specific CUSIP or basket of CUSIP's
  - Trades generally remain outstanding to the term of the underlying reference obligation
  - National balance is not constrained by the size of the cash security, and amortizes in parallel with the reference security
- Trade details are documented in a confirmation
  - Confirm details credit events, settlement mechanics, etc. of trade
  - ISDA released a standardized confirm for trading RMBS and CMBS reference obligations in June 2005 (updated in January 2006)
- Documents needed to trade
  - Legal
    - ISDA Master Agreement for derivative trades and related supporting documents
    - Credit Support Annex
    - CDS confirm (for each trade)
  - Credit
    - Credit lines; Margin is required initially and ongoing based on the mark-to-market of the contract
  - Counterparty suitability

Please see the draft confirmation for full details of trade's mechanics. All materials contained herein are for discussion purposes only and will be superseded by full legal documentation in the event the parties decide to enter into any transaction.
Overview of Structured Product Synthetics
Structured Product Single Name CDS Sample Terms

Underlying
- Designated specific reference obligations along with the initial face amount

Payments
- Fixed payments (paid by protection buyer): CDS premium, Act/360 basis, paid monthly / quarterly
- Floating payments (paid by protection seller): Upon the occurrence of a credit event, the applicable settlement amount
- Additional fixed payments (paid by protection buyer): Upon the occurrence of a reimbursement of any prior floating payments, the applicable reimbursement amount

Please see the draft transaction confirmation for full details of trade mechanics. All materials contained herein are for discussion purposes only and will be superseded by full legal documentation in the event the parties decide to enter into any transaction.

The PAUG includes a provision for giving an option to the protection buyer to terminate the contract in part or in whole by delivering the reference obligation. This feature, called the "Physical Settlement Option," is triggered by any credit event.

Please see the draft transaction confirmation for full details of trade mechanics. All materials contained herein are for discussion purposes only and will be superseded by full legal documentation in the event the parties decide to enter into any transaction.
Overview of Structured Product Synthetics

Structured Product Single Name CDS Sample Terms (cont)

Interest Shortfalls

Should the reference obligation experience interest shortfalls, the CDS premium payable by potential buyer will be offset in part or in whole by such shortfall, unpaid CDS premium can be reimbursed should deferred interest on reference obligation be repaid

Coupon Step-up

A coupon step-up can be triggered for certain securities if such security is not called before a certain date before its final maturity. If the Step-up provisions in a PAUG CDS are elected, the protection buyer is given the option to terminate the contract if the coupon step-up occurs on the reference obligation to avoid paying higher premium. If the option is not exercised, the CDS contract will continue and the premium will be raised by an amount equal to the related step-up

Please see the draft transaction confirmation for full details of trade mechanics. All materials contained herein are for discussion purposes only and will be superseded by full legal documentation if the parties decide to enter into any transaction
Overview of Structured Product Synthetics

What is an Interest Shortfall?

- An interest shortfall occurs when current scheduled interest is not paid on the reference obligation.
- Interest shortfalls can be driven by either credit problems on the assets underlying the reference obligation or by caps embedded in the structure.
- For subprime RMBS and CMBS reference obligations, coverage of interest shortfalls by the protection seller can take the form of one of the following options:
  - **Cap Applicable – Fixed Cap**: Interest shortfall capped at the amount of CDS premium owed by the protection buyer in any period. Under this option, protection seller will not have to go out-of-pocket to cover interest shortfalls.
  - **Cap Applicable – Variable Cap**: Interest shortfall capped at an amount equal to LIBOR plus the CDS premium owed by the protection buyer in any period. Under this option, protection seller may have to go out-of-pocket to cover interest shortfalls.
  - **Cap Not Applicable**: Interest shortfall uncapped at the full coupon on the reference obligation. This trade can only be executed at a CDS premium rate equal to the margin above LIBOR or the associated benchmark rate in the coupon and therefore would likely involve upfront payments by either buyer or seller. Under this option, protection seller may have to go out-of-pocket to cover interest shortfalls.
- The specific form of the interest shortfall reimbursement amount can be selected by the 2 parties in the CDS transaction.
- Subject to pricing differences, based on the amount of interest shortfall risk covered.
- **GS has observed meaningful two-way flows under the Fixed Cap option**
- Both the ABX.HE and CMBX indices are Fixed Cap Applicable

Please refer to the draft transaction confirmation for full details of trade mechanics. All materials contained herein are for discussion purposes only and will be superseded by full legal documentation in the event the parties decide to enter into any transaction.

The New ABX/CMBX Indices

- **CDS IndexCo**
  - Owns and maintains the DJ CDX family of credit default swap (CDS) indices
  - BETWEEN $25 and $50 billion of CDX notional volume traded daily
  - Introduced second generation products such as index tranches and index options

- **CDS IndexCo** will apply a defined set of rules in order to construct a portfolio representative of each structured product sector's current market
  - ABX.HE began trading on January 19, 2006, and CMBX.NA on March 7, 2006

### The ABX and CMBX Indices

**ABX Indices**

**CMBX Indices**

**Notes:**

1. ABX, ABX.HE, and CMBX NA are service marks of CDS IndexCo LLC and have been licensed by Goldman, Sachs & Co.

2. The ABX.HE and CMBX.NA Indices referenced herein are the property of CDS IndexCo LLC and are used under license. The transactions described herein are not sponsored, endorsed or promoted by CDS IndexCo LLC or any of its members, other than Goldman, Sachs & Co.
The ABX.HE and CMBX Indices

Highlights

- ABX.HE references 20 HEL ABS obligations and CMBX references 25 CMBS obligations
- The indices comprise five subindices: AAA, AA, A, BBB and BBB-
- Each subindex, in turn, includes 20 Subprime Home Equity bonds or 25 CMBS securities
  - The reference obligations in each subindex comprise bonds at different rating levels
  - Bonds in each subindex are selected from the same set of reference entities
- Every six months, the Indices will be reconstituted using the same criteria
- On January 19, 2006, the ABX.HE began trading
  - As of March 27, we estimate that more than $30.0bn of trade notional has been
    executed on the ABX.HE indices
  - Goldman has executed more than $17.0bn of trade notional
- On March 7, 2006, the CMBX Index began trading

Trading the ABX.HE and CMBX Indices

XYZ Sells Protection on $100mm on ABX.HE.A.06-1

- The Fixed Rate on ABX.HE.A.06-1 Index is 54bp per annum, payable monthly
- The mechanics described below work similarly for the ABX.HE and CMBX Indices

Fixed Rate Payer (Protection Buyer)
- Pays 54bp per annum monthly to counterparty on notional amount
  - Notional amount will decline over time based on the reference obligations amortization
- Receives payments from the Floating Rate Payer in the event of the following:
  - Interest Shortfall (capped at fixed rate)
  - Principal Shortfall
  - Writedown

Floating Rate Payer (Protection Seller)
- Receives 54bp per annum monthly to counterparty on notional amount
  - Notional amount will decline over time based on the reference obligation's amortization
- Pays Fixed Rate Payer in the event of the following:
  - Interest Shortfall (capped at fixed rate)
  - Principal Shortfall
  - Writedown
- Pays in the event of the following:
  - Interest Shortfall Reimbursement Amount
  - Principal Shortfall Reimbursement Amount
  - Writedown Reimbursement Amount

Note: All financial information and other data shown are for illustrative purposes only and are not intended to represent an actual transaction.

**Note:** All financial information and other data shown are for illustrative purposes only and are not intended to represent an actual transaction.
Credit Event (Writedown)

XYZ Sells Protection on $100mm on ABX.HE.A.06-1

Credit Event – Writedown

- Reference Obligation Original Factor = 1.0; Current Factor = 0.7
- A Writedown occurs on a Reference Obligation, for example, in year 3, in the amount of 1% of its current principal balance
  - (Current Factor * Weighting * Loss) = (0.70 * 0.05 * 0.01) = 0.0035 = 0.035%
- Protection Seller pays Protection Buyer a floating amount (0.035% x 100MM) = $35,000
- Index notional amount on which premia is paid reduces by an additional 0.035%, in addition to the principal payments of the month
- Following the Credit Event, protection seller receives premia of [70] bps on the remaining index notional amount until the earlier of the next credit event or scheduled termination
- The mechanics described above work similarly for the ABX.HE and CMBX Indices

Note: All financial information and other data shown are for illustrative purposes only and are not intended to represent an actual transaction.

GS Transactions in ABX.HE Indices
From 01/19/2006 to 06/11/2006
Trade Ideas using the ABX.HE Indices

- Bearish view on housing/consumers:
  - Customers with this view have been selling the Index (shorting credit; buying protection) at the A, BBB, and BBB-level

- Credit steepener trades:
  - View is that credit curve will steepen with adverse developments for subprime credits
  - Fund shorts by selling protection higher in the capital structure
  - Most common: BBB vs BBB, BBB vs AAA

- Transition Management:
  - Investors with cash to invest (or risk to add) have used the index to gain exposure to home equity spreads while they ramp up single-name or cash positions
  - Investors can scale out of the index as they put new cash to work (or add risk)

- ABS Basis trades:
  - Trading single names or cash vs the Index
  - Can structure positive carry trades or express leveraged views on particular names
  - Index arbitrage

Note: Past results are not indicators of future performance.
Trade Ideas using the ABX.HE Indices
Continued

■ Hedging mortgage credit risk:
  ■ Originators have sold the index across the capital structure to hedge their origination pipelines
  ■ Originators or investors with positions in residuals have sold the BBB and BBB- Indexes to mitigate risk
  ■ Some originators view BBB/BBB- protection as cheap to mortgage insurance

■ ABX vs corporate credit:
  ■ Hedge funds have traded BBB/BBB- vs correlated corporate credit such as consumer portion of CDX or HVOL.

---

(1) Note: Risk results are not indicative of future performance. Initiation as of 6-30-10.
Trade Ideas using the ABX.HE Indices

Continued

- ABX vs. Equities:
  - Equity accounts and macro hedge funds have used the Index (primarily BBB and BBB-) to hedge the residual risk in originator stocks
  - Short is funded by high dividend yield
  - ABX and equity housing indices such as the Philadelphia Housing Index (HGX <index>) have become more correlated

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

(1) Note: Past results are not indications of future performance. Inclusive as of 5/1/05.
Trade Ideas using the ABX.HE Indices
Continued

- Tranching:
  - Significant interest/inquiry in tranches
  - Standardization, pricing, and liquidity should take time to evolve

- Options:
  - Hedgers have expressed interest in options strategies to mitigate risk
  - Similar in construction to options on CDX currently traded

Note: Past results are not indications of future performance.

Structured Credit Tranches

Benefits of Single-Tranche Synthetic Securitizations

- Increasing liquidity in the single name CDS market enables creation of pure bespoke synthetic structured product CDOs
- Investors can build customized synthetic structured product portfolios
  - Not limited by new issuance calendar and bond allocations
  - Not limited by cash bonds in dealer inventory
  - Customized by sector (e.g., RMBS, CMBS, ABS), rating, vintage, servicer, etc.
- Investors can tranche synthetic portfolio to meet various investment objectives
  - Rating of investment
  - Degree of term leverage
  - Spread
  - Currency denomination
- Credit-linked notes issued in such synthetic transactions are usually uncapped and cannot defer interest, even though many of the underlying reference obligations may have embedded caps and/or may be permitted to defer interest
Structured Credit Tranches
Portfolio Selection Considerations

- Synthetic transactions have tended to focus on the sectors of the US structured products market that have either experienced or are expected to experience the heaviest activity in the single-name structured product CDS market
  - Prime, Alt-A and Subprime RMBS
  - US CMBS Conduits
  - Structured Product Cashflow CDOs and CLOs
  - Consumer ABS
- Most transactions are diversified across sectors
  - It is possible to structure single-sector transactions (i.e., 100% subprime RMBS)
- Portfolios referencing AAA through BB securities can be created, although the best liquidity is in the double-A through triple-B rated layer
- Most synthetic transactions focus on 2004, 2005 and 2006 vintage structured finance
- Reference portfolio can be static or dynamic, subject to constraints customized to investor requirements
Structured Credit Tranches

Tranche and Structural Considerations

- After selecting a reference portfolio (or appropriate rules in the case of a dynamic portfolio), ratings can be assigned to particular risk layers ("tranches")
- Investors can select the tranche which best meets their investment guidelines with respect to ratings and leverage
- Structure and cash flow mechanics are very similar to corporate single-tranche synthetics
- Transactions run to the legal final of the underlying reference obligations (typically 40 yrs)
  - Most tranches will have a 7-12 year expected weighted average life
  - The actual principal amortization of the transaction tracks that of the reference portfolio
  - The average life will reflect any borrower prepayments/extensions, credit performance, and the underlying structure of the reference obligations
- Tranches are usually not subject to caps which may be embedded in the underlying reference obligations, although the cost of such caps and other embedded options will be reflected in the spread of each tranche
- Most transactions include an optional call exercisable after a non-call period
- For a customized rated transaction, investment size generally needs to be $50 million or more to justify the fixed costs incurred
- Goldman can offer tranches in liquid currencies other than US dollars
Structured Credit Tranches
Overview of Credit-Linked Note Structure

- Investor purchases a credit-linked note (CLN) issued by an SPV issuer (the “issuer”), the proceeds of which are used to collateralize the notional amount of a credit default swap (CDS) referencing layers of risk of the reference portfolio.
- GS acts as protection buyer, while the issuer (and indirectly, the investor) acts as protection seller.
- Under the CDS, Goldman pays a running premium which covers the spread paid to the investor as well as upfront and ongoing expenses of the CLN issuer.
- Investor earns current interest at the stated floating coupon, accrued on the outstanding principal balance of the CLN.
- The junior-most tranche of CLN may have credit enhancement via a subordinated first loss amount.
- If a credit event occurs in respect of a reference obligation, a loss amount is calculated.
- Any such loss amount is deducted from the first loss amount remaining, if any, after which:
  - The principal of the junior-most CLN is written down
  - Investor loses principal by the amount of such write down
  - Goldman is paid protection under the CDS equal to the amount of such write down.
- CLN tranches are written-down by loss amounts in reverse sequential order of priority.
- Principal amortization (in the absence of credit events) tracks that of the reference portfolio.
Structured Credit Tranches

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-002055471
ABACUS Program
Overview of ABACUS Transactions

- ABACUS is the GS brand name for single-tranche CLN issuances referencing portfolios comprised entirely of structured products.
- GS completed 12 pure bespoke single-tranche structured product synthetics since 2004.
- Since 2004, GS has distributed globally approximately $3.3bn of single-tranche CLNs to a variety of buy-and-hold investors seeking customized exposures to the US structured product market.
- Through CLN issuance and tranched CDS trading, GS traded approximately $21bn notional amount of structured product credit risk.
- Select sample transactions:
  - ABACUS 2005-4: $6.0bn AAA CMBS transaction
  - ABACUS 05-CB1: $750mm third party managed transaction
  - ABACUS 2005-7: $100mm levered supersenior transaction
ABACUS Program
ABACUS 2005-4: a Static “AAA” CMBS Transaction

- $6.0 billion static portfolio of 30 equally sized triple-A CMBS reference obligations
- GS issued $600mm of CLN in six bespoke tranches rated by S&P and Moody’s
- Transaction illustrates a recurring theme of taking levered exposure to a portfolio of low leverage credit risks
- Transaction that enables investors to take exposure to the AAA US CMBS conduit market on a floating rate basis at attractive spreads compared to the underlying risk
- GS is currently working on similar transactions referencing portfolios of junior "AAA" CMBS securities and "AA" CMBS securities

Illustrative only – diagram not to scale
ABACUS Program

ABACUS 2005-2: a Diversified Single-A Multi-Sector Transaction

- $1.25 billion portfolio with 100 reference obligations
- GS issued $212.5mm of CLNs in five bespoke tranches rated by S&P and Moody's
- "A2" reference portfolio weighted average rating
- Portfolio composed of Asset-Backed (10%), CMBS (20%), RMBS (55%) and CDO Cashflow securities (15%)
- Investors take levered exposure to a diversified portfolio of single-A rated structured product securities with credit enhancement protection. Such exposure is rarely available in the cash ABS CDO market
- Protection buyer has the right to substitute reference obligations in the reference portfolio subject to strictly defined rules customized by investors
- Substitution flexibility enables (a) GS to more easily manage its correlation book and (b) GS to pay significantly more spread to investors compared to the benchmark cash ABS CDO market
ABACUS Program
ABACUS 2005-CB1: a Managed Subprime RMBS Transaction

- $750 million reference portfolio
- GS issued $238mm of CLNs in eight bespoke tranches rated by S&P and Fitch (excluding Super Senior, B8 - rated and first loss tranches that were not offered)
- 481 WARF Reference Portfolio (Baa2/Baa3)
- C-BASS serves as Portfolio Advisor
- The Portfolio Advisor selects, monitors the Reference Portfolio and has defensive management rights with respect to the reference portfolio
- GS is working with first tier portfolio managers to bring pure bespoke managed structured product synthetic CDO transactions in a format similar to the ABACUS 2005-CB1 transaction
ABACUS Program
ABACUS 2005-CB1: a Managed Subprime RMBS Transaction

ABACUS Program

ABACUS 2005-7: a Levered Super-Senior Transaction

- First ever rated levered supersenior transaction referencing structured product credit risk
- Transaction referencing the 10% - 100% supersenior tranche off a portfolio consisting of 30 equally sized triple-A CMBS reference obligations
- AAA/AAA (S&P/Fitch)
- GS issued $130mm credit linked notes with a 10x leverage multiple, transferring the credit and spread risk of $1.3bn notional supersenior tranche
- Transaction uses spread triggers referencing the reference portfolio average CDS spread
  - If the average reference portfolio spread breaches an unwind trigger, investor can either
    - Unwind the transaction at market, or
    - Purchase additional CLNs in order not to crystallize its mark to market loss
  - Several triggers structured, which are "AAA" remote, with gradual deleveraging
- ABACUS 05-7 enables a broad set of capital market investors to access supersenior credit risk, which used to be a risk available only to insurance companies
- GS is working with rating agencies to standardize the approach in order to replicate the levered supersenior format to other asset classes and other rating categories
Case Study: Super Regional

- **Account Profile**: Super Regional creating billion dollar structured products portfolio
- **Organizational Structure**: Asset purchasing decisions centralized under structured products portfolio management team
- **Portfolio**:
  - Purchased AAA tranche of ABACUS 2005-04
    - Static triple-A CMBS transaction
    - 30 equally weighted triple-A reference obligations
- **Process**: Decision subject to committee review
- **Transaction**:
  - Identified need to incorporate commercial real estate assets to concentrate residential exposure
  - Looked to take levered exposure to portfolio of high quality credits
- **Conclusion**: Unwound trade to capture gains via roll down benefit

HYPOTHETICAL ILLUSTRATIONS AND PRO FORMA INFORMATION

These materials contain statements that are not purely historical in nature. These include, among other things, hypothetical illustrations, sample or pro forma portfolio structures or portfolio composition, scenario analysis of returns and proposed or pro forma levels of diversification or sector investment. These hypothetical illustrations of returns illustrate a range of potential outcomes based upon certain assumptions. Such potential outcomes are not a prediction by the Issuer, Goldman Sachs or their respective affiliates of the performance of the securities described herein. Actual events are difficult to predict and are beyond the control of the Issuer, Goldman Sachs or their respective affiliates. Actual events may differ from those assumed and such differences may be material. There can be no assurance that the returns realized will be realized or materialized or that actual returns or results will not be materially lower than those presented. All statements included are based on information available on the date hereof and none of the Issuer, Goldman Sachs or their respective affiliates assumes any duty to update any such statement. Some important factors which could cause actual results to differ materially from those in any statements contained herein include the actual composition of the reference portfolio, any Credit Events on the reference portfolio, the timing of any Credit Events and subsequent recoveries, changes in interest rates, any weakening of the specific credits included in the reference portfolio, and the circumstances under which the Portfolio Advisor elects to remove any Credit Risk Reference Obligations, among others. The Offering Circular will contain other risk factors, which an investor should also consider in connection with any investment in the securities described herein.

PRIOR INVESTMENT RESULTS

Any prior investment results or returns are presented for illustrative purposes only and are not indicative of the future results on the securities and obligations of the Issuer.

Under no circumstances is this presentation to be used or considered as an offer to sell, or a solicitation of any offer to buy, any security. Any such offering may be made only by the Offering Circular. The information contained herein is in summary form for convenience of presentation. It is not complete and it should not be relied upon as such.

No person has been authorized to give any information or to make any representations other than those to be contained in the Offering Circular regarding the offering of any securities described herein. An investment in the securities described herein, when and if offered, will involve substantial risk. Prior to investing, prospective investors should carefully consider these risks, which will be described in the Offering Circular, and should consult their own investment advisors, and tax, legal, accounting and other regulatory advisors. Due to the risks involved in the Securities, investors should be prepared to suffer a loss of their entire investment.
Risk Factors

PROSPECTIVE INVESTORS SHOULD READ THE OFFERING CIRCULAR FOR A MORE COMPLETE DESCRIPTION OF RISK FACTORS RELEVANT TO A PARTICULAR INVESTMENT.

- Purchasing the Securities involves certain risks. Prospective investors should carefully consider the following factors, as well as the risk factors included in the final Offering Circular, prior to purchasing the Securities. The following is not intended to be an exhaustive list of the risks involved in the Transaction.

- The final Offering Circular will include more complete descriptions of the risks described below as well as additional risks. Any decision to invest in the Securities described herein should be made after reviewing the Offering Circular, conducting such investigations as the investor deems necessary and consulting the investor’s own legal, accounting and tax advisors in order to make an independent determination of the suitability and consequences of an investment in the Securities.

Leveraged Credit Exposure to Reference Entities

- Investors will have leveraged exposure to the credit of a number of Reference Entities because the notional amount of the Reference Portfolio is significantly larger than the principal amount of the Notes. Following either (1) the delivery of a Credit Event Notice by Goldman Sachs in relation to a Credit Event with respect to a Reference Entity and the satisfaction of the other Conditions to Settlement or (2) removal of a Credit Risk Reference Obligation by the Portfolio Advisor and the determination of a related Discount Amount, the outstanding principal amount of the investment may be reduced. Investors in the Securities may suffer significant reductions in their outstanding principal amounts. The maximum loss for investors is the full principal amount.

No Legal or Beneficial Interest in Obligations of Reference Entities

- Participation in the Transaction does not constitute a purchase or other acquisition or assignment of any interest in any obligation of any Reference Entity. Neither the Issuer nor Investors will have recourse against any Reference Entities. Neither the Issuer nor any other entity will have any rights to acquire from Goldman Sachs any interest in any obligation of any Reference Entity, notwithstanding any reduction in the principal of the relevant class with respect to such Reference Entity. Neither the Issuer nor any Investor will have the benefit of any collateral delivered by any Reference Entity nor any right to enforce any remedies against any Reference Entity.
Risk Factors

Tax/Regulatory Impact
- There may be a tax or regulatory impact of investing in the Notes. Goldman Sachs does not provide any opinion on these issues. Any investor should consult with its own advisors prior to investing in the Notes.

Limited Liquidity of the Transaction
- There is currently no market for the Securities. There can be no assurance that a secondary market for the Securities will develop or, if a secondary market does develop, that it will provide the holder of the Securities with liquidity, or that it will continue for the life of the Securities. Moreover, the limited scope of information available to the investors regarding the Reference Entities, the issuance of any Credit Event, including uncertainty as to the extent of any reduction to be applied to the notional amount of each class if a Credit Event has occurred (or the amount of the relevant reduction in the notional amount has not been determined), and the uncertainty regarding any Credit Risk Reference Obligation, including the ability of the参考方 to remove such obligations from the reference portfolio at any time and the extent of any reduction to be applied to the notional amount of each class if and when such Credit Risk Reference Obligation is removed, may further affect the liquidity of the Securities. Consequently, any investor in the Securities must be prepared to hold such Securities for an indefinite period of time or until final maturity.

Mark-to-Market Risk
- Investors are exposed to considerable mark-to-market volatility following changes in any of the following spreads of the credits in the Reference Portfolio, comparable CDO spreads, ratings migration in the reference portfolio, ratings migration of the Securities, ratings migration of the Collateral of issuers or providers thereof, and Credit Events in the Reference Portfolio (and hence reduction of subordination). These will be reflected in mark-to-market valuations which are likely to be more volatile than an equivalent-rated unleveraged investment.

Credit Events may vary from Defaults
- Historical default statistics may not capture events that would trigger a Credit Event as specified under the Notes. All Credit Event definitions will be defined in the final legal documents and will be governed by the 2003 ISDA Credit Derivatives Definitions and any amendment or supplement thereto.

Credit Ratings
- Credit ratings represent the rating agencies' opinions regarding credit quality and are not a guarantee of quality. Rating agencies attempt to evaluate the safety of principal and/or interest payments and do not evaluate the risks of future spillovers in market value. Accordingly, the credit ratings may not fully reflect the true risks of the Transaction. Also, rating agencies may fail to make timely changes to certain ratings in response to subsequent events, so that an issuer's current financial condition may be better or worse than a rating indicates.
Risk Factors

Rating Volatility

Rating agencies may from time to time change the ratings of the Notes (or the Reference Entities in the portfolio) even if no losses have been incurred under the Notes due to changes in rating methodology or rating migration of the Reference Entities in the portfolio. Due to the leveraged nature of the transaction, the rating may be significantly more volatile than corporate debt with an equivalent credit rating.

Certain conflicts of interest relating to Goldman Sachs and its Affiliates; No reliance

Goldman Sachs does not provide investment, accounting, tax or legal advice and shall not have a fiduciary relationship with any investor. In particular, Goldman Sachs does not make any representations as to (a) the suitability of purchasing Securities, (b) the appropriate accounting treatment or possible tax consequences of the transaction as described herein (the "Transaction") or (c) the future performance of the Transaction either in absolute terms or relative to competing investments. Investors should obtain their own independent accounting, tax and legal advice and should consult their own professional investment advisor to ascertain the suitability of the Transaction, including such independent investigation and analyses regarding the risks, security arrangements and cash flows associated with the Transaction as they deem appropriate to evaluate the merits and risks of the Transaction.

Goldman Sachs may, by virtue of its status as an underwriter, advisor or otherwise, possess or have access to non-public, available information relating to the Collateral, the issuer(s) thereof, the Reference Entities and/or the obligations of the Reference Entities and has not undertaken, and does not intend to disclose, such status or non-public information in connection with the Transaction. Accordingly, this presentation may not contain all information that would be material to the evaluation of the merits and risks of purchasing the Securities.

Goldman Sachs does not make any representation, recommendation or warranty, express or implied, regarding the accuracy, adequacy, reasonableness or completeness of the information contained herein or in any further information, notice or other document which may at any time be supplied in connection with the Transaction and accepts no responsibility or liability therefore. Goldman Sachs is currently and may be from time to time in the future an active participant on both sides of the market and have long or short positions in, or buy and sell, Securities, commodities, futures, options or other derivatives identical or related to those mentioned herein. Goldman Sachs may have potential conflicts of interest due to present or future relationships between Goldman Sachs and any Collateral, the issuer thereof, any Reference Entity or any obligation of any Reference Entity.

Goldman Sachs will act as the initial purchaser for all classes of Notes, and affiliates of Goldman Sachs will act as the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider and the Collateral Disposal Agent.
Risk Factors

Risks Associated with Responsibilities of the Portfolio Advisor

- The exercise of responsibilities of the Portfolio Advisor by the Portfolio Advisor, particularly in the form of credit risk remeasure affecting the subordination of the Notes, can potentially (a) increase the risk of the investment by reducing the subordination and hence increase the probability of suffering an actual loss from a subsequent removal of a Credit Risk Reference Obligation or a Credit Event, (b) cause a rating downgrade of the Notes or (c) increase the mark-to-market volatility of the Notes.

Certain conflicts of interest relating to the Portfolio Advisor and its Affiliates

- The Portfolio Advisor and its Affiliates may invest or invest for the account of others in debt obligations that would be appropriate as Reference Obligations and/or Collateral Securities and have no duty in making such investments or to act in a way that is favorable to the Issuer or the Noteholders. The Portfolio Advisor and its Affiliates may have economic interests in, or other relationships with, issuers in whose obligations or securities are Reference Obligations and/or Collateral Securities.

- The Portfolio Advisor, its Affiliates or any account managed by any of the foregoing may make and/or hold an investment in an Issuer’s securities that may be pari passu, senior or junior in ranking to an investment in such Issuer’s securities made and/or held by the Issuer or in which partners, security holders, officers, directors, agents or employees of the Portfolio Advisor, its Affiliates or any account managed by any of the foregoing serve on boards of directors or otherwise have ongoing relationships. Each such ownership and other relationships may result in securities laws restrictions on transactions in such securities by the Issuer and otherwise create conflicts of interest for the Issuer.

Reliance on Creditworthiness of the Collateral

- The ability of the Issuer of the Notes to meet its obligations under the Notes will depend, amongst other things, on the receipt by it of payments of interest and principal from the Collateral. Consequently, investors are exposed not only to the occurrence of Credit Events in relation to any of the Reference Entities and/or the removal of Credit Risk Reference Obligations from the reference portfolio, but also to the ability of the Collateral or the Issuer or provider thereof, to perform its obligations to make payments to the Issuer of the Notes. Although at the time of purchase, such Collateral will be highly rated, there is no assurance that such rating will not be reduced or withdrawn in the future, nor is a rating a guarantee of future performance.
Risk Factors

Creditworthiness of Goldman Sachs

- Premium payments will be required to be made by Goldman Sachs throughout the life of the transaction. Consequently, investors are exposed not only to the occurrence of Credit Events in relation to any of the Reference Entities, but also to the ability of Goldman Sachs to perform its obligations to make payments to the Issuer of the Notes, amongst other secured parties.

Historical Performance does not Predict Future Performance of Transaction

- Individual Reference Entities may not perform as indicated by historical performance for similarly rated credits. Furthermore, even if future credit performance is similar to that of historic performance for the entire market, investors must make their own determination as to whether the Reference Portfolio will reflect the experience of the universe of rated credits. Hence, the frequency of Credit Events experienced under the Notes may be higher than that of Historical Credit Event rates, and that of future Credit Event rates for the entire market.

- The nature of, and risks associated with, the Issuer’s future investments may differ substantially from those investments and strategies undertaken historically by such persons and entities. There can be no assurance that the Issuer’s investments will perform as well as the past investments of any such persons or entities.

Projections, Forecasts and Estimates

- Any projections, forecasts and estimates contained herein are forward looking statements and are based upon certain assumptions that the Issuer considers reasonable. Projections are necessarily speculative in nature, and it can be expected that some or all of the assumptions underlying the projections will not materialize or will vary significantly from actual results. Accordingly, the projections are only an estimate. Actual results may vary from the projections, and the variations may be material.

Subject: Re: Paulson

Guys, I think we need to be more mindful of distribution effectiveness if our goal is to place further down. So not sure aladdin or drm risk highly. We know that if we show us with gsc or hbk (to name 2) is in for long single-a's on the wire plus maybe triple-a. This does not cannibalize our other distribution because they like those two managers so much. Perhaps we should focus on hbk since we have lower chance to do other stuff with them.

Original Message

To: Toure, Fabrice; fico-mgtgrrr-desk  
Subject: Re: Paulson

An interesting idea: Aladdin, DCM, Greywolf, etc... well, why not we try GSC as well, I think it's a law delta, but might be worth trying. Let's brainstorm so that we can identify a couple of managers that:

--- will be ok acting as portfolio selection agent
--- will be flexible w.r.t. portfolio selection (i.e. ideally we will send them a list of 200 bad-rated 2006-vintage MBS bonds that fit certain criteria, and the portfolio selection agent will select 100 out of the 200 bonds)
--- will be ok waiting for at least $100K p.a. for 3 years, given a $2bn transaction where we distribute CMB between 5% attach and 35% detach

Subject: RE: Paulson

There are more managers out there than just GSC / Factor. The way I look at it, the

easiest managers to work with should be used for our own names. Managers that are a bit

more difficult should be used for trades like Paulson given how exed Paulson seems to be

(i.e. I'm betting they can give on certain terms and overall portfolio increase).

Confidential Treatment
Requested by Goldman Sachs

GS MBS 0000002786

Redacted by the Permanent Subcommittee on Investigations
Q. Could you again just tell us how those names were pulled together?
A. Okay. They were pulled together by, you know, through discussions, through a variety of discussions between our desk, myself specifically, and Paulson and Paoli, Pelligrini and Sihan, looking at, you know, securities issued, you know, since the beginning of 2006, which had specific, you know, criteria or specific concentrations in mortgages from, you know, interest-only mortgages to, you know, mortgages with a certain loan-to-value ratio, et cetera.

BY MR. ANTHONY:
Q. And in trying to sort of narrow this universe down, what were you looking for? Sort of what was the ultimate end to try to use these characteristics to find?
A. We didn't narrow it down. We basically took the entire universe of subprime RMBS and applied a couple filters and that was it.
Q. Okay.
A. There was no narrow down.
Q. And these filters were designed to do what?
A. Well, I believe at that time that Paulson felt that these obligations or these type of characteristics may, you
24 know, be, you know, weaker from the credit quality standpoint
25 than other obligations that did not have those
0049 1 characteristics.
4    Q  In this introductory paragraph, I guess you
5       summarize the transaction and the offering to Paulson as
6       protection, and the last sentence reads, Through this
7       arrangement, Goldman is effectively working an order for
8       Paulson to buy protection on specific AC-1 capital structure
9       at or inside specific spread levels.
10      What did you mean by that?
11    A  I'm sorry. Where did you --
12    Q  The last sentence.
13    A  Last sentence. I think the order here is not
14       used as a sort of legal concept but more the fact that
15       Paulson had given us the inquiry to actually buy protection
16       on layers of risk so that it would lead to our obligations
17       and we were working towards, you know, hedging our risk by,
18       you know, reoffering that risk in the market.
19    Q  It says, At or inside specific spread levels.
20      What's that mean?
21    A  That means that Paulson hed, you know, pricing
objectives. They were comfortable buying protection only to
the extent that the spreads they were paying were less than a
certain level.

BY MR. LEASURE:

0015

Q So did you have to match the spreads that Paulson
2 was willing to pay with the spreads at which the CDO
3 liabilities would be priced?
4 A No. In fact, I think the -- I mean, we bought
5 protection at certain spread levels and we reoffered at
6 different spread levels to --

BY MR. ANTHONY:

Q But your profit was the difference between those
9 two, right?

A The profit was the difference between those two. I
11 want to say no, because, as I mentioned, Goldman Sachs was
12 not losing money on these transactions.
13 Q Well, I mean conceivably, right? And I think that
14 point, you know, I think we've yet to establish that
15 definitively, but it's your testimony.
16 A But, I mean, you obviously didn't go into this
17 transaction with the intention of losing money, right? So
18 the way in which you believed you would make money on this
19 transaction was by offering a protection to Paulson at one
20 spread and offering the protection in the market at a higher
21 spread and keeping the difference, is that right?

22 A The opposite way around. I think, you know, when
23 you say offering protection --
24 Q I'm sorry. Yes, you're right.
25 A Yes, so there was -- as far as I remember, when we

0016

1 were buying protection from the market, you know, we were
2 hoping to reoffer that protection to Paulson at a wider
3 spread. It may have been at some point some, you know,
4 formula at which, you know, we were discussing at which level
5 we were going to reoffer that protection, but I don't
6 remember the specifics of that.

Q Well, we've alluded to the Abacus earlier. I wanted to sort of see if you could just tell us about the Abacus 2007 AC 1 deal. Just walk us through how it started and what you know about it.

A I mean essentially it's the same idea. We had Credit Opportunity II, and we needed to sort of buy protection for Credit Opportunities II. We looked at what was available in the market and what Goldman told us what they would be able to do; a deal similar to the deal we had done in 2006. But they needed to have a collateral selection agent.

And essentially the idea was that even though we didn't want to have the type of sort of expense and sort of complication of a managed deal, Goldman felt that they would be more comfortable if there was a CDO manager who selected the initial portfolio with us so that there was a little more sort of due diligence done rather than simply relying on the blanket criteria that we had been able to rely on in the past.
BY MR. ANTHONY:

Q What difference did it make to Goldman? Why did they want this?

A Well, I think it was a marketing issue. So it was a matter of what I understood, sort of investors feeling more comfortable if they had a collateral selection agent than if they didn’t.

BY MS. KELLY:

Q How did you come to that understanding?

A Because the told me.

Q Who?

A I presume Fabrice.

Q Did he mention any particular investors or just generally investors would want an agent? A portfolio selection agent.

A He never mentioned any particular investors. So let’s say it was a matter of sort of investors at that point in time given market conditions. So it would be a general statement.

BY MR. ANTHONY:

Q What was it about how the market had changed that sort of made this more important?

A Well, people were sort of not as sure that subprime was going to do as well as they thought it was going to do sort of a few months earlier. So it was harder with the

Unsigned

PSI-Paulson-04 (Pellegrini Depo)-0053
Q Then how did the inclusion of a collateral selection agent change that?
A Well because essentially having a collateral selection agent would mean that there is somebody with a reputation in the business looking at the securities and essentially agreeing to the composition of the portfolio. So I assume if you were an investor, you would take some comfort in that.

BY MR. MUOIO:
Q Now Fabrice's last name is Tourre.
A TOURRE.
Q And did you discuss with Mr. Tourre how you and the collateral selection agent would sort of collaborate in choosing the reference portfolio? What that process would be?
A Not sort of in any formal way.
Q In any way? I mean how the two of you would work together?
A I mean basically I think we had already submitted a target portfolio. So they would comment, say what they wanted to take out, take their comments and make counterproposals. It would be like an interview process until we got a portfolio that we were all satisfied with.
Q Is this the first time you sort of done something

Unsigned

PSI-Paulson-04 (Pelligrini Deposit) 0084
A. Yes.

Q. And again, this was an idea that you came up with or that Mr. Tourre came up with?

A. I think it was an idea that he came up with. I think it was just a general sort of trend in the market. Because people kind of liked the idea of sort of portfolio of subprime mortgages, liked the idea of static portfolios and sort of felt that there was still some value that could be provided by traditional sort of CDO managers by helping select the initial portfolio.
Q. I get that. But then at some point I think, if I understood you correctly this morning, Mr. Tourre suggested that it would be easier to market or to find sort of a counterparty to your short trade if there was a portfolio selection agent involved. Right?

A. Right.
Q  Did you ever have any sort of engagement letter with Goldman that described the mechanism for your short position?

A  Yes. So I happened to have seen recently the engagement letter for the first Abacus trade. I don't believe there was an engagement letter for the second Abacus trade.

Q  Why is that?

A  Because Goldman got sort of comfortable that sort of it would execute. You know, they sort of didn't feel the need to formalize an engagement letter.

Q  So did Goldman and Paulson & Co. have any discussions about or back and forth in terms of the language of an engagement letter at all with respect to the ACA AC-1 deal?

A  Sort of for the ACA transaction I'm not sure. I'm not sure. I mean we definitely discussed the parameters of their compensation. So we had sort of a strike level for the sort of premium that we would pay on the different tranches. And there was sort of a formula that tied their compensation to sort of kind of the spread that they sort of presented to or that they would present to us. Frankly, whether they did achieve those spreads or different spreads. So once we kind of agreed on those parameters, I think they were containing some Excel files. I think that that was pretty much all that
was involved in the sort of discussion of fees for Goldman on this transaction.
Q. You've just been handed what's been marked Exhibit 29. For the record, I'll identify it as a one page document Bates stamped Paulson Abacus 254458. It's an email from you to Shiht Shu and Rob Leimer. The subject line is "Priority Task". What is this email? Or what is Exhibit 29?

A. It's just sort of asking them to come up with a portfolio, as I described to you earlier, of RMBS securities issued in 2006 with more than 80% adjustable rate mortgages and with a weighted average FICO score between 600 and 650. And finally, with a deal size in excess of $750 million. And

Unsigned

PSI-Paulson-04 (Pelagro Depo)-0140
the previous comment is that we got 111 million of subscriptions, so we needed to sort of buy protection to essentially invest that 111 million. And so we needed to put out a list of offers wanted in competition in addition to sending out the sort of list of obligation for sort of potential CDO similar to the one with that was later done with ACA and send them to Cohen. They are sort of three CDO managers.

Q  So was this for a different deal than the one that ACA ended up being the portfolio selection agent? Or were they intentioned to be the portfolio selection agent for the Abacus deal?

A  To tell you the truth, I forget now. Because I think that Cohen is actually both a broker dealer and a CDO manager. And sort of there was some sort of conversation to each of us following up. I think that Petra is one of the CDO managers to whom we were introduced by Merrill Lynch. And finally Tricadia is a unit of Mariner where I worked. And so I sent them sort of a proposed portfolio.

BY MR. ANTHONY:

Q  Now this $111 million I think that you had talked about a number of times on the Opportunity Fund II was. With this much money would you be doing one CDO? Two CDOs?

A  I think that this was kind of like you know, basically the idea is that with the $111 million we would be...
able to spend approximately 12% of that. So there would be
$13 million. So sort of any kind of transaction where the
cost of protection was less than $50 million a year would
sort of be feasible with this kind of money.
Q And just for the you know, a billion dollars at
120 something basis points was your average cost of
A I don't remember. It sounds like a reasonable
number.
Q You know, 10, $12 million a year for a billion
dollars of protection?
A Yes.
Q So then this implies that there is enough is
subscriptions for only one billion dollar CDO?
A Yes.
Q So is it fair to then say that here you're looking
for someone it roughly looks like it was the same time
that you were talking to Goldman. So you're talking to a
number of people about doing one CDO?
A Yes.
Q And then what was it that had you go with Goldman
and ACA over Cohen, Petra, Tricadia, Merrill Lynch, Morgan
Stanley, Deutsche Bank?
A As I said, ACA was the only one that kept going.
These kind fell by the wayside.
Unsigned

PSLi-Paulson-04 (Pellegrei Depo)-0142
Q  You had testified earlier that it was Goldman's
idea to have a portfolio selection agent, correct?
A  Right.
Q  And you just as well could have done without one.
Correct?
A  Absolutely. Yes.
Q  So why would you care if ACA relied on your
analysis as opposed to their own?
A  Well because I think that if they sort of relied on
our analysis essentially it would place some responsibility
on us.

BY MR. MUOIO:
Q  Your portfolio analysis was designed in large part
to identify bonds that weren't going to perform, right?
A  Right.
1 Q Because you wanted to short those bonds?
2 A Right.
3 Q And as far as you were aware, the focus of ACA's
4 analysis of the portfolio was different, right?
5 A Exactly.
6 Q In fact, their aim was in many ways opposite
7 your's?
8 A It was exactly opposite our's.
9 Q They were trying to identify bonds that in their
10 view were going to perform.
11 A Exactly.

PSI-Paulson-04 (Pelgrini Depot): 0176
Am thinking also Aladdin, DCM, Graywolf, and... Well, why don't we try DSC as well. I think it's a low delta but might be worth trying. Let's brainstorm so that we can identify a couple of managers that:

-- will be ok acting as portfolio selection agent
-- will not need to take risk
-- will be flexible w.r.t. portfolio selection (i.e. ideally we will send them a list of 200 deal-rated 2005-vintage MMBS bonds that fit certain criteria, and the portfolio selection agent will select 100 out of the 200 bonds)
-- will be ok working for at most 2/150k p.a. for 3 years. given a $2bn transaction where we distribute CDs between 94 attach and 35k detach

Subject: RE: Paulson  

These are some managers out there then just GSC / Factor. The way I look at it, the easiest manager to work with should be used for our own axes. Managers that are a bit more difficult should be used for trades like Paulson given how used Paulson seems to be (i.e. I'm betting they can give on certain terms and overall portfolio increase).

Fabio called to check in: he was concerned that his comments to the engagement letter had delayed us. I told him that the delay was still related to market conditions and deals in the pipeline and that we still needed to discuss his proposals with legal and rating agencies.

Fabio also suggested that he was open to the use of a manager to select a portfolio and including some higher-rated names in the portfolio.

Confidential Treatment Requested by Goldman Sachs GS MBS-E-00253460
Footnote Exhibits - Page 4756

From: Tauris, Fabrice
To: Kreisman, Gail
Cc: Genti, David; fcc-mtcon-ask
Subject: ACA

Gail, just a summary of ACA's role as "Portfolio Selection Agent" for the transaction that would be sponsored by Paulson (the "Transaction Sponsor"). Feel free to let David and I know if you have any questions.

- CDO Transaction Size: between $1bn and $2bn notional
- Reference Portfolio static, fully identified upfront, and consisting of appr. 100 equally sized mezzanine subprime RMBS names issued between Q1 2005 and today. Starting portfolio would be identical to the Transaction Sponsor named, but there is flexibility around the names.
- Portfolio monitoring required: none
- Portfolio remuneration required: none
- Portfolio Selection Agent would be disclosed as having selected the Reference Portfolio
- Portfolio Selection Agent would not be required to retain any risk in the CDO transaction, although it would have the option to buy CDO notes/unfunded swaps that will be distributed in the market.
- Most likely no SWICs required to be run by the Portfolio Selection Agent
- Timing: the Transaction Sponsor is working under the assumption that Goldman be in the market with this transaction early February.

Contemplated Capital Structure — subject to Reference Portfolio:

- [34%] - [10%]: unfunded super-senior tranche distributed to a super-senior protection writer
- [22%] - [9%]: Aaa/AAA class A tranche distributed broadly on a best efforts basis by Goldman
- [15%] - [12%]: Aa/AA class B tranche distributed broadly on a best efforts basis by Goldman
- [4%] - [15%]: A/BBB class C tranche distributed broadly on a best efforts basis by Goldman
- [1%] - [9%]: pre-committed first loss

- Economics: for transactions like this, where the Portfolio Selection Agent is not required to retain any risk, we have seen fees in the order of 10bps to 20bps paid on the portfolio notional amount. For example, for the Magnet-sponsored trade (ACAS 2005-ACAS) for which ACA acted as portfolio manager, ACA was paid 10bps senior and 20bps subordinated (i.e. at risk fees, just above the equity) on the portfolio notional amount. In the context of this transaction, ACA should be thinking about getting paid fees in the lower end of what they have received in the past for Magnet-like transactions, since there is no management requirement and the transaction size is likely going to be larger than for a Magnet transaction. In the context of this transaction, the portfolio selection fees will be paid in the form of a spread on the outstanding amount of the class A through class C tranches. For example, if the Portfolio Selection Agent was asking to be paid:

  - Class A Portfolio Management Fee: 0.25% p.a. (the tranche is [12%] thick)
  - Class B Portfolio Management Fee: 0.50% p.a. (the tranche is [77%] thick)
  - Class C Portfolio Management Fee: 1.00% p.a. (the tranche is [9%] thick)

This would mean that if Goldman is able to distribute 100% of the class A, class B and class C notes, the Portfolio Selection Agent would, on a blended basis, receive 0.125% p.a. on the portfolio notional. This compensation structure aligns everyone's incentives: the Transaction Sponsor, the Portfolio Selection Agent and Goldman.

- The Transaction Sponsor is in discussions with a couple of potential CDO managers, and will work with the manager who will provide the most appealing economic proposal and will be able to address all the stated objectives.
Dan — per our discussion, we reached out GSC. Greywolf and ACA today re: acting as portfolio selection agent for a Paulson-sponsored trade.

1. GSC: Ed Shaheen and Josh Blau at GSC are interested in meeting with the Paulson guys, this is likely going to happen tomorrow afternoon.

2. Greywolf: Mount and Marconi need to discuss whether the opportunity we are presenting to them is something they are interested in looking at, they are supposed to get back to me tomorrow.

3. ACA: Laura Schwartz at ACA is also interested in meeting them, this is likely going to happen early next week.

Redacted by the Permanent Subcommittee on Investigations

PSI-Paulson-04 (Shu Drops) 0003
Q: And who selected the 90 reference credits?
A: We worked with Goldman in selecting, negotiating what mortgage backed securities we'd like to buy protection on.
Q: And what was your role in that?
A: I performed a collateral analysis on those reference obligations.
Q: Can you explain that a little bit further?
A: I basically used the same database I mentioned earlier—Bloomberg, Loan Performance and Index—to look at the collateral characteristics and collateral performance of these mortgage backed securities and to make selections to...
decide on which mortgage credit we believe will under perform
in the future is subject to higher default rates in the
future.

Q  And what were the primary criteria that you were
looking for?
A  The primary criteria (1) we would like to buy
protection on mortgage bonds with higher concentration in
California, Florida, Arizona, Nevada which we believe are a
bigger housing bubble than other areas in the country. We'd
like to buy protection on mortgage bonds with a higher hybrid
mortgage percentage. Because we believe these borrowers when
their mortgage resets there will be a payment chunk.

Q  · Are you talking about adjustable rate mortgages?
A  Adjustable rate mortgages. Yes.
Q  You called them something else.
A  It's called hybrid because it's fixed for a couple
of years and then becomes floating.

Q  Okay.
A  So it's also called hybrid. But it is adjustment
rate mortgages. Yes.
Q  We'd like to buy protection on mortgage bonds with
high percentage of limited documentation. Some borrowers can
prove their income when they apply for the mortgage, some
borrowers cannot. So we like to buy protection on mortgage
bonds where you have a higher limited documentation
percentage.
Q And what was the end result of this analysis?
A The end result of the analysis is we picked some
bonds we'd like to protection on.
Q How many?
A In Abacus CDO we have 90 bonds.
CONFIDENTIAL

January 1, 2007

Paulson Credit Opportunities Master Ltd.
 c/o Paulson & Co. Inc.
 500 Madison Avenue, 29th Floor
 New York, NY 10022

Dear Sir:

This letter (the "Letter Agreement"), when countersigned by you, will confirm that
Paulson Credit Opportunities Master Ltd. (Paulson Credit Opportunities Master Ltd.,
together with its affiliates, "PCO") has retained Goldman Sachs & Co. to (1) procure
credit protection on the Targeted Tranches of a portfolio of residential mortgage-backed
securities (each, a "Reference Obligation", and collectively, the "Reference Portfolio"),
through one or more credit default swaps (each a "Back-to-Back CDS") between
Goldman and certain counterparties (each such counterparty, a "Back-to-Back
Protection Seller") and/or through the offering of multiple tranches of secured securities
(each security, the "Notes") of a synthetic securitization (the "CDO") that are
expected to be issued from a special purpose company (the "Issuer") and (2) simultaneously
sell to PCO, subject to the provisions of Paragraph 10, credit protection
through one or more credit default swaps between PCO and Goldman (each a "PCO
CDS") matching each Back-to-Back CDS and/or Issuer CDS (except to the extent
described in this Letter Agreement). For the purpose of this Letter Agreement,
"Goldman" means Goldman Sachs & Co. or any of its affiliates, provided however,
that Goldman Sachs & Co. will guaranty the performance of this agreement by any such
affiliate. Capitalized terms used herein and not otherwise defined have the meanings
assigned to such terms in Annex B attached hereto.

The final terms and conditions of any Notes issued in connection with the CDO and the
final terms and conditions of any Back-to-Back CDS will be set forth in complete
documentation suitable in form and substance to Goldman and PCO.

[Signature]

Paulson Credit Opportunities Master Ltd.

[Signature]
1. **Services of Goldman.** It is currently contemplated that, in connection with the CDO, the Issuer will undertake one or more offerings and/or placements of securities (each an "Offering", the first such Offering, the "Initial Offering," and the securities placed, the "Notes"), pursuant to Regulation S and/or Rule 144A, as the case may be, under the Securities Act of 1933, as amended, in the United States or otherwise. It is agreed that Goldman, subject to the conditions herein, will be offered the right to act as the sole book-running lead manager and/or fixed placement agent in each Offering. If Goldman agrees to act in such capacity, the Issuer and Goldman will enter into an appropriate form of underwriting, placement agency or other agreement relating to the type of transaction involved and containing customary terms and conditions, including provisions relating to our indemnity. Except to the extent that Goldman may separately contract in such an underwriting, placement agency or other agreement to purchase securities, there is no understanding or obligation, expressed or implied, on Goldman’s part of a commitment by Goldman to act as underwriter or placement agent with respect to an Offering or to purchase or place any securities in connection therewith and that any securities will be placed on a best efforts basis. Goldman’s execution of such underwriting, placement agency or other agreement will be subject to its complete discretion in, among other things, mutual agreement as to the underwriting and offering documentation and terms, satisfactory completion of its due diligence investigation, its internal approval processes and, of course, market conditions.

In addition, there is no understanding or obligation, expressed or implied, on Goldman’s part of a commitment by Goldman to enter into any Back-to-Back CDS and Goldman will only enter into such Back-to-Back CDS on a best efforts basis. Goldman’s execution of any documentation relating to a Back-to-Back CDS will be subject in its complete discretion in, among other things, mutual agreement as to the documentation and terms, its internal approval processes and, of course, market conditions.

Subject to paragraph D of this Letter Agreement, the timing, amount and other terms of any issuance of the Notes or Goldman’s entry into any Back-to-Back CDS shall be determined by Goldman in its sole discretion. Goldman agrees to consult with RCD regarding the timing of such issuance of the Notes or Goldman’s entry into any Back-to-Back CDS. RCD agrees to promptly provide Goldman with all relevant information regarding the timing, terms or other aspects of any other CDO transactions which may have a bearing on the marketing of the Notes or Goldman’s ability to enter into any Back-to-Back CDS.

2. **Contemplated Offering.** We understand, in connection with the CDO, that when the Issuer offers Goldman the right to act as the sole underwriter and/or sole placement agent in accordance with Paragraph 1 of this Letter Agreement, Goldman expects, subject to, among other things, the satisfactory completion of its due diligence and the terms and conditions set forth in one or more placement agency agreements or other appropriate form of documentation, that it will purchase the securities issued as part of the Offering and issue them to prospective purchasers at a price to be agreed upon at the time of execution of such agreement.

FOIA Confidential Treatment Requested by Paulson & Co. PAULSON-ABACUS 0252737
The appointment of any co-managers in respect of any Offering will be subject to prior consent by Goldman.

As stated in Paragraph 1 above, POO understands that until any such related placement or other agreement is signed, Goldman is not under any obligation, express or implied, to purchase or place securities in connection herewith. Goldman understands that the Issuer is not under any obligation, express or implied, to complete an Offering until any such related placement or other agreement is signed.

In addition, as stated in Paragraph 1, POO understands that until any such related documentation is signed, Goldman is not under any obligation, express or implied, to enter into any Back-to-Back CDS in connection herewith.

3. Issuer and its Subsidiaries: Additional Roles of Goldman. In connection with the initial Offering of the CDS, it is anticipated that Goldman will enter into several agreements with the Issuer, including (i) a credit derivative transaction (the "Issuer CDS"), (ii) a basis swap transaction (the "Basis Swap"), (iii) a collateral put agreement (the "Collateral Put"), (iv) a collateral disposal agreement (the "Collateral Disposal Agreement"), and (v) a security attachment agreement (the "Security Attachment Agreement").

Pursuant to the Issuer CDS, it is anticipated, among other things, that:

- Goldman Sachs Capital Markets (or an affiliate thereof) will act as protection buyer (the "Protection Buyer"), buying protection on all or a portion of the Targeted Tranche;

- The Protection Buyer will make premium payments to the Issuer on an annual/60 day count convention on the notional amount of such Issuer CDS corresponding to the stated spread over the benchmark index for each Class of Notes, as reduced from time to time upon (1) principal repayment on any Reference Obligation (to the extent the cumulative principal repayments exceed the Known Payments (as set forth in Annex III) of the related Targeted Tranche immediately prior to such determination), (2) Credit Events with respect to any Reference Obligation (to the extent the cumulative Loss Amounts exceed the Known Payments (as set forth in Annex III) of the related Targeted Tranche immediately prior to such determination), and (3) any Partial Optional Redemption or optional redemption in whole of the Notes;

- The notional amount of each tranche will be reduced in sequential order of priority in connection with the amortization of the Reference Portfolio and the notional amount of each tranche will be reduced in reverse sequential order of priority in connection with Credit Events related to the Reference Portfolio;
FOIA Confidential Treatment Requested by Paulson & Co.  PAULSON-ABACUS 0252729
Footnote Exhibits - Page 4768

sole discretion, will have the right to cause the Issuer to issue Notes with a Non-Call Period longer than the Non-Call Period described above;

- The Protection Buyer shall be the calculation agent; and

- Termination payments payable to the Protection Buyer will be subordinated to payment of principal of the related Notes ability in the event of a termination of the Issue CDS (i) in respect of which the Protection Buyer is the "Refunding Party," as such term is defined in the Issue CDS; or (ii) for which the Protection Buyer was the sole "Affiliated Party" (as such term is defined in the Issue CDS) (other than in connection with a "Tax Event" or "Trigger," as each term is defined in the Issue CDS).

The Reference Obligations are expected to be selected according to the following criteria (the "Portfolio Selection Criteria") and the final Reference Portfolio will be subject to the mutual agreement of Goldman and PCU:

(i) each Reference Obligation will have the same initial reference obligation, notional amount;

(ii) the Reference Portfolio will contain at least 100 distinct Reference Obligations;

(iii) each Reference Obligation must have been issued after March 1, 2006;

(iv) as of the time of selection, each Reference Obligation must have an explicit rating of "A1+" by Moody's;

(v) as of the time of selection, each Reference Obligation must have an actual public rating by Moody's and S&P, and each actual public rating by S&P must be no lower than "BBB-");

(vi) each Reference Obligation may have been issued by the name Reference Entity as any other Reference Obligation included in the Reference Portfolio;

(vii) the weighted average FICO score of the aggregate original collateral pool securing such Reference Obligation must be (a) greater than or equal to 600 and (b) less than or equal to 760;

(viii) the original aggregate principal amount of collateral securing such Reference Obligation must be greater than or equal to $398,000,000; and

(ix) the original aggregate principal amount of collateral securing such Reference Obligation must be at least 80% of the original aggregate principal amount of collateral securing such Reference Obligation;

5

FOIA Confidential Treatment Requested by Paulson & Co. PAULSON-ABACUS 0253740
A preliminary Reference Portfolio is identified in Annex C (upon mutual agreement). Goldman and POC may appoint a party (each such party, a "Portfolio Selection Agent") to help select the final Reference Portfolio in return for the payment of an expense fee based on the aggregate outstanding amount of Notes if such party is not a "Portfolio Selection Agent Fee"). The Reference Portfolio selected may be modified upon the mutual agreement of Goldman, POC and the Portfolio Selection Agent(s) (as applicable).

"Moody's" means Moody's Investors Service, Inc. and any successor or assigns thereof.

"S&P" means Standard & Poor's Rating Services, a division of The McGraw-Hill Companies, Inc. or any successor to the rating business thereof.

Pursuant to the Basis Swap, it is anticipated, among other things, that:

- Goldman Sachs International Derivatives Product Inc. (or an affiliate thereof) will act as basis swap counterparty (the "Basis Swap Counterparty");
- Each payment period, the Issuer will swap with the Basis Swap Counterparty the total interest proceeds received on the Collateral held by the Issuer in exchange for the benchmark index of the Notes, based upon the aggregate outstanding amount of the Notes, as reduced from time to time by principal amortization of the Reference Portfolio, Credit Events, and/or Partial Optional Redemption or partial redemption in whole of the Notes;
- The Basis Swap Counterparty shall be the calculation agent; and
- Termination payments payable to the Basis Swap Counterparty will be subordinated to payment of principal of the Related Notes solely in the event of a termination of the Basis Swap (i) in respect of which the Basis Swap Counterparty is the "Affected Party" (as such term is defined in the Basis Swap), (ii) resulting from a downgrade of the Basis Swap Counterparty's credit rating or (iii) in which the Basis Swap Counterparty was the sole "Affected Party" (as such term is defined in the Basis Swap) (other than in connection with a "Tax Event" or "Eligibility," in each case as defined in the Basis Swap).

Pursuant to the Collateral Put, it is anticipated, among other things, that:

- Goldman Sachs International (or an affiliate thereof) will act as collateral put provider (the "Collateral Put Provider") and as compensation for acting as Collateral Put Provider will receive a fee of 0.05% per annum accrued on an annualized basis on collateral put obligations and the aggregate outstanding amount of the Notes at the beginning of each such accrual period.

---

FOIA Confidential Treatment Requested by Paulson & Co.

PAULSON-ABACUS 0252741
Footnote Exhibits - Page 4770

- The Collateral Put Provider will cover any shortfall to par plus accrued interest arising from the liquidation of Collateral Securities and certain Eligible Investments held by the Issuer solely in connection with (i) principal amortization of the Reference Portfolio, (ii) recoveries on Reference Obligations following Credit Events, in the case of (i) and (ii) leading to principal amortization of one or more Classes of Notes, (iii) a Partial Optional Redemption or optional redemption in whole or in part of the Notes, and (iv) a redemption of the Notes at maturity;

- The Collateral Put Provider will not cover any shortfalls in paying cash settlement amounts to Goldman following Credit Events if the Collateral Securities and certain Eligible Investments liquidated to make such payment is liquidated at a price of below 100% (in which case such market value risk will be borne by the Protection Buyer for such aforementioned Collateral who will be deemed to have been paid the related cash settlement amount in full) and (i) with respect to the liquidation of Collateral in connection with a mandatory redemption (following a default of any Collateral Security, a default of Goldman, an adverse tax event, an event of default (as defined in the related CDO indenture) or other mandatory redemption event);

- The Collateral Put Provider shall be the calculation agent; and

- No termination payment will be payable under any circumstances in connection with the Collateral Put.

Pursuant to the Collateral Disposal Agreement, it is anticipated, among other things, that:

- Goldman, Sachs & Co. (or an affiliate thereof) will act as collateral disposal agent (the "Collateral Disposal Agent"); and

- In connection with any liquidation of Collateral Securities held by the Issuer that may be required from time to time, whether in connection with (i) a Credit Event or (ii) principal amortization of the Notes (including pursuant to an Optional Redemption in part), the Collateral Disposal Agent shall select in its sole discretion which Collateral Security or Collateral Securities shall be liquidated to satisfy such requirement.

4. Back-to-Back CDS

Goldman will, subject to the terms of this Letter Agreement, purchase credit protection from swap counterparties of its choice under one or more Back-to-Back CDS.

Pursuant to each Back-to-Back CDS, it is anticipated, among other things, that:
The Protection Buyer will buy protection on all or a portion of the Targeted Tranche,

The Protection Buyer will make premium payments to the related Back-to-Back Protection Seller on an annual/560 day count convention on the notional amount of such Back-to-Back CDS, as reduced from time to time upon (1) principal repayments on any Reference Obligation for the extent the cumulative principal repayments exceed one minus the Exclusion Point (as set forth in Annex B) of the related Targeted Tranche immediately prior to such determination, (2) Credit Events with respect to any Reference Obligation (to the extent the cumulative Loss Amounts exceed the related Targeted Tranche Exclusion Point (as set forth in Annex B) immediately prior to such determination), and (3) any optional termination of the Back-to-Back CDS following the expiration of an Applicable Non-Call Period (as defined below);

The notional amount of each tranche will be reduced in sequential order of priority in connection with the amortization of the Reference Portfolio and the notional amount of each tranche will be reduced in reverse sequential order of priority in connection with Credit Events related to the Reference Portfolio;

"Failure to Pay Principal" and "Writedown" (as defined in a manner consistent with the ISDA Dealer Form) will be the sole Credit Events;

A loss amount (a "Loss Amount") shall be determined following the occurrence of a Credit Event. Such Loss Amount will be equal to (a) the related "Writedown Amount" (as defined in the ISDA Dealer Form) following the occurrence of a Writedown and (b) the related "Principal Shortfall Amount" (as defined in the ISDA Dealer Form) following the occurrence of a Failure to Pay Principal;

Following a Credit Event, the Protection Buyer will receive a cash settlement amount equal to the amount by which the related Loss Amount reduces the notional amount of the Targeted Tranche;

There will be no substitution, reinvestment or replacement of Reference Obligations;

The Protection Buyer will be sole notifying party of a Credit Event;

The Protection Buyer, in its sole discretion, will have the right to terminate (with no termination payment payable by the Protection Buyer) a Back-to-Back CDS on any Payment Date occurring after the date that is specified for such Back-to-Back CDS (in each case, the "Applicable Non-Call Period"), and
The Protection Buyer shall be the calculation agent.

3. Breakage. If this Letter Agreement is terminated prior to the completion of the distribution of a notional amount of each Targeted Tranche equal to the Maximum Notional Amount of such Targeted Tranche by noticestatements from PCO (in such capacity, the "Terminating Party") to Goldman (in such capacity, the "Non-Terminating Party") of such termination, then the Non-Terminating Party will be entitled to payment in an amount equal to the aggregate of any reasonable and documented out-of-pocket expenses (including, without limitation, attorneys, rating agency and accounting fees and printing costs) borne by the Non-Terminating Party in connection with its activities under this agreement and submitted to the Terminating Party, provided however that (i) no payment shall be due to the extent that such out of pocket expenses are less than the total amount paid by PCO to Goldman under Paragraph 6 hereof and (ii) if such out of pocket expenses exceed the total amount paid by PCO to Goldman under Paragraph 6 hereof, PCO shall be liable to Goldman only up to the amount of such excess. Any such amounts payable pursuant to this paragraph will be paid in immediately available funds to the Non-Terminating Party by the Terminating Party.

6. Fees. On the closing date of the CDO (the "Closing Date") or as promptly as practicable after such closing date, the Issuer shall pay (using proceeds received from an upfront payment the "Upfront Payment") made by the Protection Buyer at the Closing Date, without duplication, (i) reasonable fees and expenses of Goldman's outside counsel incurred in connection with the CDO, (ii) reasonable fees and expenses of counsel to the Issuer (if different from outside counsel to Goldman) and any other agents or professionals engaged by Goldman in structuring the CDO (other than the Portfolio Selection Agent) and executing the Initial Offering including local legal counsel, trustee, accountant, local administrator, printer, rating agency and their respective counsel, and other fees and expenses, plus any sales, use or similar taxes (including additions to such taxes, if any) arising in connection with any matter referred to in this Letter Agreement and (iii) the cost (in excess of pay) of any Collateral Securities acquired by the Issuer on the Closing Date.

Each Back-to-Back CDS or Issuer CDS, as the case may be, and the matching PCO CDS shall be executed simultaneously (such date of execution, an "Effective Date"). On each Effective Date, PCO will make a payment to Goldman in an amount, for each Targeted Tranche for which an Issuer CDS or Back-to-Back CDS was executed on such Effective Date, the product of (a) the Upfront Fee Rate for such Targeted Tranche, as defined in Annex B, and (b) the notional amount of the PCO CDS for such Targeted Tranche. In addition, on the later of (i) the Closing Date and (ii) the first Effective Date on which the sum of the aggregate notional amount of the Targeted Tranches have been distributed or prior to such date, PCO will make a payment to Goldman in $2,000,000.

PCO will also pay all fees and expenses of PCO's outside counsel incurred in connection with each PCO CDS and the arrangements contemplated hereby.
The Notes may be issued in US Dollars or other currencies at Goldman's sole discretion. If Goldman elects to place any Notes in a currency other than US Dollars, PCO shall have the option to either (i) bear the currency risk associated with such non-US Dollar placement or (ii) allow Goldman to bear such risk, in which case PCO will pay the Strike Spread associated with such notional amount of the related tranche on the US Dollar equivalent of such issued notional amount.

7. Reserved.

8. Term of Letter Agreement. This Letter Agreement shall terminate on the earlier of (i) March 31, 2007 (the "Expiration Date") and (ii) the pricing date on which, for each Targeted Tranche, the aggregate notional amounts of the PCO CSS is at least equal to the Maximum Notional Amount of the Targeted Tranche (the earlier of (i) and (ii), the "Final Date"), or such earlier date upon receipt by either party hereto of written notice of the other party's desire to terminate the Letter Agreement. Notwithstanding the foregoing, the provisions of Paragraphs 4, 5, 9 and 19 shall survive any such termination hereof.

9. Nature of Relationship. As you know, Goldman Sachs is a fully service securities firm engaged, either directly or through its affiliates in various activities, including securities trading, investment management, financing and brokerage activities, and financial planning and benefits counseling for both companies and individuals. In the ordinary course of these activities, Goldman Sachs may actively trade the debt and equity securities (or related derivative securities) of PCO and other companies which may be the subject of the matters contemplated by this Letter Agreement for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities.

PCO recognizes that pursuant to this Letter Agreement, Goldman Sachs will rely upon and assume the accuracy and completeness of all of the financial, accounting, tax and other information discussed with or reviewed by Goldman Sachs for such purposes, and it does not assume responsibility for the accuracy or completeness thereof. Goldman Sachs will have no obligation to conduct any independent evaluation or appraisal of the assets or liabilities of PCO or any other party or to advise or opine on any related advisory issues. It is understood and agreed that Goldman Sachs will act under this Letter Agreement as an independent contractor and nothing in this letter or the nature of our services shall be deemed to create a fiduciary, advisory or agency relationship between Goldman Sachs and PCO or their respective shareholders, employees or creditors. Nothing in this Letter Agreement is intended to confer upon any other person (including shareholders, employees or creditors of PCO) any rights or remedies hereunder or by reason hereof.

In connection with any transactions contemplated in the Letter Agreement, Goldman Sachs is acting as arm's length counterparty to PCO. Goldman Sachs is not acting as agent or advisor to PCO with respect to any such transaction or the terms thereof.
PCO, together with its legal, accounting and independent financial advisors, if any, may determine whether to accept the terms of any such transaction.

10. Agreement in Trade. On such Effective Date, PCO will enter into one or more PCO CDS under which PCO will purchase from Goldman credit protection on a Targeted Tranche, in an amount equal to the notional amount of the Back-to-Back CDS executed on such Effective Date or Notes sold on such date with respect to the same Targeted Tranche, in each case only if (1) the Pricing Spread for such Back-to-Back CDS or such Notes is less than or equal to the Strike Spread for the Targeted Tranche as described in Annex A, (2) the Applicable Non-Call Period is three years from the First Payment Date, (3) the aggregate notional amount of Back-to-Back CDS and Issuer CDS for such Targeted Tranche (taking into account the Back-to-Back CDS or Issuer CDS for such Targeted Tranche executed on such Effective Date) is less than or equal to the Maximum Notional Amount of the Targeted Tranche and (4) such Effective Date occurs prior to the Expiration Date, provided that, in its discretion, PCO may waive the requirements set forth in clauses (2) and (3), with respect to any Back-to-Back CDS or Notes and any Effective Date. The terms and conditions of the PCO CDS shall be identical to the terms and conditions of the related Back-to-Back CDS or Issuer CDS, as the case may be, as summarized in this Letter Agreement (except for Goldman’s role as calculation agent under each such CDS, terms related to the Collateral Securities and in connection with any amounts payable pursuant to Paragraph 6 of this Letter Agreement) unless such terms and conditions are revised subject to mutual agreement by Goldman and PCO.

11. Disclosure of Transaction. Without the prior consent of Goldman, PCO may not discuss or disclose any information about the Offering, any Back-to-Back CDS, any PCO CDS or any transaction relating thereto with any third party other than (i) its legal, tax, accounting and other professional advisors and (ii) to the extent required by any applicable law. After the closing of the Offering, Goldman may publish a notice of the transaction in such format, in such publications and at such times as Goldman may deem appropriate and consistent with its customary practices. Communication of an approval or disapproval of any such notice referred to in this paragraph shall be made by the end of the second business day following the date such notice is submitted for approval.

12. Rescission.

13. Amendments. This Letter Agreement may not be amended or modified in any term hereof except in a writing executed by each of the parties hereto.

14. Assignments. Goldman may, in the performance of its services hereunder, delegate the performance of all or any part of such services as it may select to any Goldman affiliates or any affiliated entities; provided, however, that no such delegation by Goldman shall in any respect affect the terms hereof, and Goldman shall be responsible for any acts or omissions by any of its affiliated entities in the performance of any services delegated hereunder to such entity. In connection therewith, PCO and its legal, financial, accounting and other professional advisors will consider the terms and conditions of any such delegation and may request information from Goldman regarding the financial condition and creditworthiness of any such Goldman affiliate or affiliated entity.
thereof, Goldman may direct such reasonable advance notice, prior to the payment of any amount to be made to it hereunder, that payment of such amount be made, in whole or in part, to a Goldman affiliated entity in fulfillment of the payment of such amount due to Goldman hereunder.

15 Enforceability of Provisions. The invalidity or enforceability of any provision of this Letter Agreement shall not affect the validity or enforceability of any other provision of this Letter Agreement, which shall remain in full force and effect.

16 Reserved

17 Choice of Law; Waiver of Jury Trial; Submission to Jurisdiction. This Letter Agreement shall be governed by and construed in accordance with the laws of the State of New York without regard to the conflict of laws provisions thereof. ANY RIGHT TO TRIAL BY JURY WITH RESPECT TO ANY CLAIM OR ACTION ARISING OUT OF THIS LETTER AGREEMENT OR CONDUCT IN CONNECTION WITH THIS LETTER AGREEMENT IS HEREBY WAIVED. The parties hereby submit to the exclusive jurisdiction of the Federal and New York State courts located in the Borough of Manhattan of the City of New York in connection with any dispute related to this Letter Agreement or any of the matters contemplated hereby.

18 No Third Party Beneficiaries. There are no beneficiaries of this Letter Agreement, other than the named parties.

19 Miscellaneous. Goldman does not provide accounting, tax or legal advice. Notwithstanding anything herein to the contrary, PCO is authorized to disclose to any person, the U.S. federal and state income tax treatment and tax structure of the potential transaction and all materials of any kind (including tax opinions and other tax analyses) provided to PCO relating to that transaction and structure, without Goldman imposing any limitation of any kind. However, any information relating to the tax treatment and tax structure shall remain confidential (and the foregoing sentence shall not apply) to the extent necessary to enable any person to comply with securities laws. For the purpose, “tax structure” is limited to any facts that may be relevant to that treatment.

If this Letter Agreement correctly sets forth POO's understanding, please to confirm by countersigning and returning the enclosed copy. Upon receipt of the copy by Goldman, this Letter Agreement shall be deemed a binding agreement.

We are delighted to accept this agreement and look forward to working with you on this assignment.

Very truly yours,

Annex B

"Targeted Tranche" means each of the Super Senior, Class A, Class B, Class C and Class D tranches that Goldman will distribute on a best efforts basis, as set forth in the column "Tranche" in the table below.

"Closed-End Tranche" means, with respect to an Effective Date, a tranche that has been distributed (through Goldman’s purchase of credit protection through a Back-to-Back CDS) on such Effective Date.

"Effective Spread" means, with respect to a PCO CDS, the Pricing Spread of the associated Distributed Tranche.

"Minimum Fee Rate" means for each Distributed Tranche the rate as set forth in the table below in the column "Minimum Fee Rate" corresponding to the row related to such tranche.

"Payment Date": With respect to any Back-to-Back CDS or Issuer CDS, the (21)st of each month or if such day is not a Business Day, the next succeeding Business Day, commencing on the month following the Effective Date and ending on the date specified in the related documentation.

"Pricing Spread" means, (i) for each Class of Notes, the sum of (a) the spread above or below the index stated for the Notes of such Class issued on the Closing Date, as set forth in the indenture or ceding and paying agency agreement relating to the Notes, as applicable, and on the related Notes, provided that, with respect to any Class of Notes issued at a discount or premium to par, the discount or premium payment to the subordinated (a) shall be the discount margin (to maturity) to the index stated for the Notes of such Class, (b) 20 basis points per annum related to the Collateralized Participation fee and (c) the rate per annum of the Portfolio Selection Agreement (as with respect to each Class of notes) and (d) for each Back-to-Back CDS, the stated fixed rate spread with respect to such tranche.

"Initial Reference Portfolio Notional Amount" means $2,000,000,000.

"Strike Spread" means, with respect to each Distributed Tranche, the percentage corresponding to such tranche as set forth in the column "Strike Spread" in the table below.

"Maximum Notional Amount": For each Targeted Tranche, the product of (i) the percentage corresponding to such tranche as set forth in the column "Targeted Notional Amount (%)" in the table below and (ii) the Initial Reference Portfolio Notional Amount.

"Upside Fee Rate" means, for each Distributed Tranche, the sum of (A) the Minimum Fee Rate for such tranche and (B) the product of (C) 15%, (D) 3 and (E) the greater of (a) zero and (b) the difference between (x) the Strike Spread and (y) the Executed Spread.

*gs-classification: External*

Ed, Josh, thanks for coming to the meeting on Friday. To give you some background on the portfolio that the Paulson guys are starting on, this is a portfolio that was selected using some of the following criteria:

- Start from the universe of RMBS transactions available in Intex
- Focus only on the 2006 vintage, bonds underwritten after March 1, 2006
- Baseline bonds
- Average FICO between 600 and 675
- RMBS transaction size greater than 6500mm
- Average ARM greater than 80%

We should discuss live on Monday when you get a chance,

Fabrice

Subject: Paulson Portfolio

Ed,

As discussed, here is a portfolio of 125 Baseline tranches of recent subprime deals. Please provide us with feedback and comments.

Regards,
Shan

Laura,

Paulson is trying to get a sense, for the 2006 RMBS transactions identified by Paulson, for the level of the capital structure of those transactions that ACA has been comfortable investing in the past, whether for its own account or for a CDO of your own.

Subject: Re: Substitutions for ABACUS 2007-AC1

ok so we will have the 3 following reference obligations:

SNCMT 2007-1 MB
MSFEL 2007-1 BS
MLAT 2007-2 MB

As replacements for the 3 CARER - New Century serviced bonds.

Sihan,

That name is included in the current portfolio as well. Are there any other proposed names that are acceptable?

Thanks,

Sihan Shu

We have already picked 3 names we'd like to use to replace three NC serviced bonds. Please forward them to ACA, and let us know if they have any questions.

HASC 07-QPTI M8
MSTRM 07-1 B2
GSAMP 07-PM1 M8

Thanks,
Silas

Subject: Substitutions for ABACUS 2007-AC1

Paolo, Silas,

In order to replace the New Century serviced bonds in the ABACUS 2007-AC1 portfolio (CARR 2005-NC1 M8, CARR 2005-NC2 M8 and CARR 2006-NC3 M8), ACA is proposing the following substitute bonds:

SEAT 2007-2 M8
NKCM7 2007-1 M8
MLME 2007-HE1 B2
MSAC 2007-HE2 B2
SURY 2007-UC1 A2
CMCTI 2007-AMC3 M8
CWL 2007-3 M8
HEAT 2007-1 M8

I asked ACA to send loan tapes for these bonds in order to help you select the names that fit you...

Rgds,

Subject: proposed Paulson Portfolio

Attachments: Paulson Portfolio 1-20-07.xls

Attached please find a worksheet with 86 sub-prime mortgage positions that we would recommend taking exposure to synthetically. Of the 123 names that were originally submitted to us for review, we have included only 86. We do not recommend including the other 37 names because either: 1) we did not like them at the recommended attachment point; 2) there are lower rated tranches that are already on negative watch; and 3) some names (i.e., Long Beach and Fremont) are very susceptible to investor push back.

The 37 names are heavily weighted to new issue names we believe the underlying collateral to be of better quality.

We provided a total of 86 names to give us some room since the term sheet mentioned 80 names at 1.25% each.

Please let me know if you have any questions.

Subject: ACA feedback
Attachments: Pauson Portfolio 1-22-07.xls

Paolo, Sihan:

Attached is the feedback we received from ACA on the list of 123 names that you had provided. They have broken down your list into names that they would recommend including in the portfolio (55) and names that they would recommend excluding from the portfolio (58). In addition, they have included a separate list of 31 names for you to review that they would recommend for inclusion, with the objective of creating a portfolio with 85+ names.

Are you available for a quick call this afternoon to discuss these lists?

Thanks,
David

Subject: Re: ABACUS - Initial Draft Engagement Letter for ACA

So I met with Paolo last night. We first talked about the collateral - why only 55 names from the first list and why the Ba3 and A3 names. He had summary performance and credit statistics on each piece of collateral on a spreadsheet (he may as much of a nerd as I am since he brought a laptop to the bar and he also seemed to have a worksheet from DB and another manager). I don’t think he wants the A3 names and wasn’t too keen on the Ba3 names. Let’s do the Ba3 names at Ba3. He also wanted to know if we had to have so many names - I said Goldman needed 100 to help sell the debt. He also wanted to talk about the super senior - I said we would definitely look at it if Goldman planned on placing it. We also talked about the auction call - he wants a 3 year. This may be tough to sell without a makewhole. We left it that we would both work on our respective engagement letters this week - I certainly got the impression he wanted to go forward on this with us. He is also headed to ASF. Can we meet sometime on Feb 5th to discuss mechanics of this deal?

Subject: RE: ABACUS - Initial Draft Engagement Letter for ACA

Leura -- all good questions. Some thoughts:

1. What expenses do you envision would be incurred in connection with the transaction? I think we/paulson can envision paying your expenses in connection with marketing the transaction, subject to a reasonable cap.

2. In the engagement letter, the Portfolio Selection Fee is structured such that you get paid a spread (the "Portfolio Selection Fee Rate") on the tranches that are issued, subject to a floor of 1% per annum. The Portfolio Selection Fee Rate is equal to 0.25% p.a. for the "AAA" tranche, 1.50% for the "AA" and "AA+" tranches, and 1.04% for the "A" tranche. (For our draft capital structure, these fees would be paid for a 3-year transaction and assuming we issue all the "AAA" tranche and "A" notes, the aggregate Portfolio Selection Fees would be approx $2.50m p.a.)

3. We are using McKee Nelson as deal counsel since they have a deep knowledge of the ABACUS transaction documents. I am afraid that if we use counsel not familiar with our deal structure, legal expenses might be significantly higher than otherwise, and the transaction execution might take more time.

4. Paulo at Paulson is out of the office until Wednesday of next week. We are trying to get his feedback on the target portfolio you have in mind, as well as on the compensation structure we have been discussing with you. Subject to Paulo being comfortable with those 2 aspects, it sounds like we will be in a position to engage you on this transaction.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-002444360
Footnote Exhibits - Page 4800

Just a few questions before I send it to my counsel:

1. It says that any expenses we incur are for our account - I think the issuer/deal
    should pay our out of pocket in connection with this transaction (such as any travel etc)
2. The fee rate is set at $1 million - is this regardless of the ultimate size?
3. We generally like our counsel (Schulte) to be deal counsel 6. Do you believe that we
    have this deal? Do we need to do the work on the engagement letter before we know if we
    have the deal?

intended recipient, please send a reply e-mail notifying us of the error and delete this
e-mail from your system. You are not authorized to and must not disclose, copy,
Laura,

We wanted to provide you with an update on the transaction.

From the 100 name portfolio that you had agreed to with Pasco (attached hereto), we would like to exclude SALD 2006- BNC1 M7 and SALD 2006- BNC2 M7, which are both on negative credit watch by Moody's. This leaves us with a portfolio of 58 names, for which we have been updating our model to refresh the capital structure. In addition, we have been working on a flipbook and term sheet in anticipation of marketing the transaction.

We will continue our discussions with Pasco to confirm his agreement with the proposed transaction as structured and look forward to discussing the transaction and draft Engagement Letter on Monday. In the meantime, can you please send us recent ACA marketing materials that we can include in our draft flipbook and term sheet.

Thanks,

David

Subject: ABACUS Transaction - update

Laura,

We wanted to provide you with an update on the transaction:

From the 100 name portfolio that you had agreed to with Paolo (attached here), we would like to exclude SAIL 2006-INCG1 M7 and SAIL 2006-INCG2 M7, which are both on negative credit watch by Moody’s. This leaves us with a portfolio of 108 names, for which we have been updating our model to refresh the capital structure. In addition, we have been working on a flipbook and term sheet in anticipation of marketing the transaction.

We will continue our discussions with Paolo to confirm his agreement with the proposed transaction as structured and look forward to discussing the transaction and draft Engagement Letter on Monday. In the meantime, can you please send us recent ACA marketing materials that we can include in our draft flipbook and term sheet.

Thx,

David

Laura,

Thank you for meeting with me, Shian and Fabrice this morning on such short notice. Coming into the meeting, I had not realized that you might have migrated the reference obligations on some of our original reference entities from the Bas2 to the A3 rating category. I apologize for not explaining more clearly that we had taken the whole portfolio to the Bas2 level, i.e., migrated both A3 and Bas3 to Bas2, assuming that the migration in opposite directions would have a neutral overall result. We then took the doots with APM % > 75 and produced the list that we gave you this morning. If we take out the Bas2 bonds listed below, I am not sure that the result is neutral relative to the starting point. However, if you are absolutely adamant about excluding each of the bonds listed below, I hope that you will be able to come up with recent names that fit our criteria. If so, getting loan data on such names becomes critical.

Best,

Paolo

Subjects: ABACUS Reference Portfolio

Paolo, Shian:

We believe we can create a more efficient capital structure by removing two of the proposed 92 names from the reference portfolio. We propose removing CARR 2006-FRE1 M9 (since we are currently referencing two obligations of the same issue) and ABFC 2006-CP73 M4 (since it is not explicitly rated by S&P and needs to be notified to BBA for purpose of the transaction).

ACA Management, L.L.C.
Portfolio Selection Agent

Secured Primarily by (i) the Collateral and (ii) the Issuer’s rights under (a) the Collateral Put Agreement,
(b) the Basis Swap and (c) as Production Seller, the Credit Default Swap referencing a pool of
Residential Mortgage-Backed Securities

The Notes are being offered hereby by Goldman, Sachs & Co. to Qualified Institutional Buyers in the United States in reliance on Rule 144A
under the Securities Act. In addition to the offering of the Notes in the United States, Goldman, Sachs & Co., acting through its agent, Goldman
Sachs International is concurrently offering the Notes outside the United States to non-U.S. Persons in offshore transactions in reliance on
Regulation S under the Securities Act. See “Underwriting.”

The Notes of any Class may be issued in more than one Series due to differences in one or more of the date of issuance, the Series Interest Rate, the Approved Currency in which such Notes are denominated, the Stated Maturity, the Non-Call Period and the date from which interest will accrue.

See “Risk Factors” beginning on page 71 to read about factors you should consider before buying the Notes.

There is no established trading market for the Notes. Application will be made to list the Notes on a stock exchange of the Issuer’s choice. The Issuer cannot, however, be certain that a market will develop. There can be no assurance that the Notes will be bought or sold at or above their face amount.

The Notes are offered by the Initial Purchaser on its own behalf and for its own account, subject to its right to reject any order in whole or in part. The Notes are being offered to and sold only to qualified institutional buyers in reliance on Rule 144A. The Notes are not being offered or sold outside the United States to non-U.S. Persons.

Wall Street & The Financial Crisis
Report Footnote 12539

GS MBS-0-001918034
THIS OFFERING CIRCULAR SUPERSEDES IN ALL RESPECTS ALL EARLIER DATED OFFERING CIRCULARS.

GENERAL NOTICE

The information contained in this Offering Circular has been provided by the Issuers and other sources identified herein. No representation or warranty, express or implied, is made by the Initial Purchaser, the Protection Buyer or the Portfolio Selection Agent (except, with respect to the Protection Buyer only, the information set forth under the heading "The Protection Buyer" and except, with respect to the Portfolio Selection Agent only, the information set forth under the heading "The Portfolio Selection Agent") as to the accuracy or completeness of such information, and nothing contained in this Offering Circular is, or shall be relied upon as, a promise or representation by the Initial Purchaser, the Protection Buyer or the Portfolio Selection Agent (except, with respect to the Protection Buyer only, the information set forth under the heading "The Protection Buyer" and except, with respect to the Portfolio Selection Agent only, the information set forth under the heading "The Portfolio Selection Agent").

The Issuers (and, with respect to the information contained in this Offering Circular under the heading "The Protection Buyer", the Protection Buyer and, with respect to the information contained in this Offering Circular under the heading "The Portfolio Selection Agent", the Portfolio Selection Agent), having made all reasonable inquiries, confirm that the information contained in this Offering Circular is true and correct in all material respects and is not misleading, that the opinions and intentions expressed in this Offering Circular are honestly held and that there are no other facts the omission of which would make any of such information or the expression of any such opinions or intentions misleading. The Issuers (and, with respect to the information contained in this Offering Circular under the heading "The Protection Buyer", the Protection Buyer and, with respect to the information contained in this Offering Circular under the heading "The Portfolio Selection Agent", the Portfolio Selection Agent) take responsibility accordingly.

The Initial Collateral Security set forth in this Offering Circular in the table under the heading "The Collateral Securities—Initial Collateral Securities" that is a CLO Security is described in the offering circular attached hereto, and prospective purchasers of the Notes should refer to such offering circular for a description of the terms of such Initial Collateral Security.

No person has been authorized to give any information or to make any representation other than those contained in this Offering Circular, and, if given or made, such information or representation must not be relied upon as having been authorized. This Offering Circular does not constitute an offer to sell or the solicitation of an offer to buy any securities other than the Notes.

The delivery of this Offering Circular at any time does not imply that the information herein is current at any time subsequent to the date of this Offering Circular.

Each purchaser of the Notes must comply with all applicable laws and regulations in force in each jurisdiction in which it purchases, offers or sells such Notes or possesses or distributes this Offering Circular and must obtain any consent, approval or permission required for the purchase, offer or sale of such Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers or sales, and none of the Issuers or the Initial Purchaser specified herein shall have any responsibility therefor. Persons into whose possession this Offering Circular comes are required by the Issuers and the Initial Purchaser to inform themselves about and to observe such applicable laws and regulations. For a further description of certain restrictions on offering and sales of the Notes, see "Transfer Restrictions" and "Underwriting". This Offering Circular does not constitute an offer of, or an invitation to purchase, any of the Notes in any jurisdiction in which such offer or invitation would be unlawful.

No invitation may be made to the public in the Cayman Islands to subscribe for the Notes.
INFORMATION APPLICABLE TO NON-U.S. INVESTORS

NOTICE TO RESIDENTS OF UNITED KINGDOM

There are restrictions on the offer and sale of the Notes in the United Kingdom. No action has been taken to permit the Notes to be offered to the public in the United Kingdom. This document may only be issued or passed on by reason of, or in connection with, section 21 of the Financial Services and Markets Act 2000 of the United Kingdom. It is the responsibility of all persons under whose control or into whose possession this document comes to inform themselves about and to ensure observance of all applicable provisions of the Public Offers of Securities Regulations 1995 and the Financial Services and Markets Act 2000 in respect of anything done in relation to the Notes in, from or otherwise involving the United Kingdom. See "Underwriting".

NOTICE TO RESIDENTS OF GERMANY

The Notes will not be offered or sold in the Federal Republic of Germany other than in accordance with the German Securities Sales Prospectus Act of December 13, 1990 of the Federal Republic of Germany, as amended (Wertpapierverkaufsprospektgesetz), the German Investment Act of December 13, 2003 of the Federal Republic of Germany, as amended (Investmentsgesetz) and any other legal or regulatory requirements applicable in the Federal Republic of Germany governing the issue, offer and sale of securities. Upon the request of a German investor, the Issuer will (i) make available to the German investors the information required pursuant to § 5 (1) sentence 1 nos. 1 and 2 in connection with sentence 3, § 5 (1) sentence 1 no. 4 and § 5 (3) sentence 1 of the Investmentgesetz (the "German Investment Tax Act"), (ii) furnish to the German Federal Tax Office (Bundesamt für Finanzen) upon its request within three months proof of the correctness of the information referred to under clause (i) above in accordance with § 5 (1) sentence 1 no. 3 of the German Investment Tax Act and (iii) make the publication in the electronic edition of the Federal Gazette (elektronischer Bundesanzeiger) required pursuant to § 5 (1) sentence 1 no. 3 of the German Investment Tax Act in the German language. All prospective German investors are urged to seek independent tax advice. The Initial Purchaser does not give tax advice.

NOTICE TO RESIDENTS OF NETHERLANDS

The Notes may not be offered or sold, transferred or delivered, as part of their initial distribution or at any time thereafter, directly or indirectly, to any individual or legal entity in the Netherlands other than to individuals or legal entities who or which trade or invest in securities in the conduct of their profession or trade, which includes banks, securities intermediaries, insurance companies, pension funds, other institutional investors and commercial enterprises which, as an auxiliary activity, regularly trade or invest in securities.

NOTICE TO RESIDENTS OF HONG KONG

The Notes may not be offered or sold by means of any document other than to persons whose ordinary business is to buy or sell shares or debentures, whether as principal or agent, or in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32) of Hong Kong, and no advertisement, invitation or document relating to the Notes may be issued, whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Notes which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" within the meaning of the Securities and Futures Ordinance (Cap. 571) of Hong Kong and any rules made thereunder.
Footnote Exhibits - Page 4816

NOTICE TO RESIDENTS OF SINGAPORE

This Offering Circular has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this Offering Circular and any other document or material in connection with the offer or sale, or invitation or subscription or purchase, of the Notes may not be circulated or distributed, nor may the Notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than under circumstances in which such offer, sale or invitation does not constitute an offer or sale, or invitation for subscription or purchase, of the Notes to the public in Singapore.

NOTICE TO RESIDENTS OF JAPAN

The Notes have not been registered under the Securities and Exchange Law of Japan and are not being offered or sold and may not be offered or sold, directly or indirectly, in Japan or to or for the account of any resident of Japan, except (1) pursuant to an exemption from the registration requirements of the Securities and Exchange Law of Japan and (2) in compliance with any other applicable requirements of Japanese law.

INFORMATION APPLICABLE TO U.S. INVESTORS

This Offering Circular is confidential and is being furnished by the Issuers in connection with an offering exempt from registration under the Securities Act, solely for the purpose of enabling a prospective investor to consider the purchase of the Notes described herein. Except as otherwise authorized under the following paragraph, any reproduction or distribution of this Offering Circular, in whole or in part, and any disclosure of its contents or use of any information herein for any purpose other than considering an investment in the Notes is prohibited. Each offeree of the Notes, by accepting delivery of this Offering Circular, agrees to the foregoing.

EACH PROSPECTIVE INVESTOR (AND EACH EMPLOYEE, REPRESENTATIVE, OR OTHER AGENT OF SUCH PROSPECTIVE INVESTOR) MAY DISCLOSE TO ANY AND ALL PERSONS, WITHOUT LIMITATIONS OF ANY KIND, THE TAX TREATMENT AND TAX STRUCTURE OF THE TRANSACTION AND ALL MATERIALS OF ANY KIND (INCLUDING OPINIONS OR OTHER TAX ANALYSES) THAT ARE PROVIDED TO THE PROSPECTIVE INVESTOR RELATING TO SUCH TAX TREATMENT AND TAX STRUCTURE. HOWEVER, ANY SUCH INFORMATION RELATING TO THE TAX TREATMENT OR TAX STRUCTURE IS REQUIRED TO BE KEPT CONFIDENTIAL TO THE EXTENT REASONABLY NECESSARY TO COMPLY WITH APPLICABLE FEDERAL OR STATE SECURITIES LAWS. FOR PURPOSES OF THIS PARAGRAPH, THE TERMS “TAX TREATMENT”, “TAX STRUCTURE”, AND “TAX ANALYSES” HAVE THE MEANING GIVEN TO SUCH TERMS UNDER UNITED STATES TREASURY REGULATION SECTION 1.6811-4(c) AND APPLICABLE STATE OR LOCAL LAW.

THE NOTES OFFERED HEREBY HAVE NOT BEEN RECOMMENDED BY ANY UNITED STATES FEDERAL OR STATE SECURITIES COMMISSION OR REGULATORY AUTHORITY. FURTHERMORE, THE FOREGOING AUTHORITIES HAVE NOT CONFRIMED THE ACCURACY OR DETERMINED THE ADEQUACY OF THIS DOCUMENT. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

NOTICE TO NEW HAMPshire RESIDENTS

NEITHER THE FACT THAT A REGISTRATION STATEMENT OR AN APPLICATION FOR A LICENSE HAS BEEN FILED UNDER CHAPTER 421-B OF THE NEW HAMPSHIRE REVISED STATUTES (THE “RSA”) WITH THE STATE OF NEW HAMPSHIRE NOR THE FACT THAT A SECURITY IS EFFECTIVELY
REGISTERED OR A PERSON IS LICENSED IN THE STATE OF NEW HAMPSHIRE CONSTITUTES A FINDING BY THE SECRETARY OF STATE OF NEW HAMPSHIRE THAT ANY DOCUMENT FILED UNDER RSA 421-B IS TRUE, COMPLETE AND NOT MISLEADING. NEITHER ANY SUCH FACT NOR THE FACT THAT AN EXEMPTION OR EXCEPTION IS AVAILABLE FOR A SECURITY OR A TRANSACTION MEANS THAT THE SECRETARY OF STATE HAS PASSED IN ANY WAY UPON THE MERITS OR QUALIFICATIONS OF, OR RECOMMENDED OR GIVEN APPROVAL TO, ANY PERSON, SECURITY, OR TRANSACTION. IT IS UNLAWFUL TO MAKE, OR CAUSE TO BE MADE, TO ANY PROSPECTIVE PURCHASER, CUSTOMER, OR CLIENT ANY REPRESENTATION INCONSISTENT WITH THE PROVISIONS OF THIS PARAGRAPH.

AVAILABLE INFORMATION

To permit compliance with the Securities Act in connection with the sale of the Notes in reliance on Rule 144A, the Issuer will be required under the Indenture and the Issuing and Paying Agency Agreement to furnish to a holder or beneficial owner who is a Qualified Institutional Buyer or a prospective investor who is a Qualified Institutional Buyer designated by such holder or beneficial owner the information required to be delivered under Rule 144A(a)(4) under the Securities Act if at the time of the request the Issuer is not a reporting company under Section 13 or Section 15(d) of the United States Securities Exchange Act of 1934, as amended, exempt from reporting pursuant to Rule 12g-3-2(b) under the Exchange Act.

In accordance with the Indenture and the Issuing and Paying Agency Agreement, the Trustee and the Issuing and Paying Agent, as applicable, may make available for inspection by Holders of the Notes certain reports or communications received from the Issuer:

Prior to making an investment decision, prospective investors should ensure that they have sufficient knowledge, experience and access to professional advisors to make their own legal, tax, accounting and financial evaluation of the merits and risks of investment in the Notes and should carefully consider the nature of the Notes, the matters set forth elsewhere in this Offering Circular and the extent of their exposure to the risks described in "Risk Factors."

TRANSACTION OVERVIEW

This overview is not complete and is qualified in its entirety by reference to (i) the detailed information appearing elsewhere in this Offering Circular, (ii) the terms and conditions of the Notes and (iii) the provisions of the documents referred to in this Offering Circular.

1. Fixed Payment
   - Cash Settlement Amounts

2. Applicable Index
   - Swiss Franc
   - Interest Amount

3. Collateral Put Agreement
   - 100%
   - Collateral

4. ABBACUS 2007-AC1, Ltd.
   - Proceeds of the Notes
   - Applicable Index and the Applicable Terms of each Series of notes

5. ABBACUS 2007-AC1, Inc.
   - at least the Currency Adjusted Aggregative Outstanding Amount of such OCS
   - expressed in each Approved Currency, as of the Closing Date

On or prior to the Closing Date, the Initial Reference Portfolio will be selected by the Portfolio Selection Agent.

On the Closing Date, the Notes will be issued in the Original Principal Amount set forth in the "Summary of Notes." From time to time following the Closing Date, additional Notes of any Class may be issued.

The Issuer will use the net proceeds of the offering of the Notes, together with part or all of the Uhren Payment, to purchase the initial Collateral Securities and Eligible Investments selected by the Protection Buyer, provided that, for each Approved Currency, the aggregate principal amount of Collateral Securities and Eligible Investments denominated in such Approved Currency and purchased with the proceeds of the Offering will equal or exceed the Currency Adjusted Aggregative Outstanding Amount of Notes expressed in each Approved Currency of such OCS.

On the Closing Date, the Issuer and Goldman Sachs Capital Markets, L.P., as the Protection Buyer, will enter into the Credit Default Swap whereby the Issuer (a) makes credit payments to the Protection Buyer with respect to a Reference Portfolio of WIBB and (b) receives from the Protection Buyer (i) an Uhren Payment on the Closing Date and (ii) a Fixed Payment on the Closing Date and each Uhren Payment. Following the consummation of a Credit Event and the satisfaction of the Continuance to Settlement, the Issuer will pay to the Protection Buyer an amount equal to the Uhren Settlement Amount. For a description of all payments to be made under the Credit Default Swap, see "The Credit Default Swap - Payments."

On the Closing Date, the Issuer and Goldman Sachs Capital Markets, L.P., as the Basis Swap Counterparty, will enter into the Basis Swap whereby the Issuer (a) pays to the Basis Swap Counterparty any Collateral Interest Amount and (b) receives an amount from the Basis Swap Counterparty equal to the sum of the proceeds for each Approved Currency in which Outstanding Notes are denominated at (1) the Applicable Index for the Applicable Period; (2) the average daily Currency Adjusted Aggregative Outstanding Amount of such Notes during the preceding Basis Swap Calculation Period; and (3) the actual number of days in the preceding Basis Swap Calculation Period in which a payment is made divided by 360.

On the Closing Date, the Issuer and Goldman Sachs International, as the Collateral Put Provider, will enter into the Collateral Put Agreement whereby the Issuer will have the right to put Collateral (other than Put Collateral) to the Collateral Put Provider in return for a payment of 100% of the principal amount of such Collateral if the Collateral cannot be liquidated for an amount equal to at least 100% of par or in accordance with (i) the payment by the Issuer to the applicable noteholders of any Currency Adjusted Additional Proceeds Adjustment Amount, (ii) an Optional Redemption in Whole or in Part, Optional Redemption and/or (iii) a Stated Maturity.

748
SUMMARY

The following summary is qualified in its entirety by the detailed information appearing elsewhere in this Offering Circular. For a discussion of certain factors to be considered in connection with an investment in the Notes, see "Risk Factors."

Capitalized terms used herein but not defined shall have the meanings set forth under "Glossary of Defined Terms."

The Issuer, ABACUS 2007-AC1 Ltd. (the "Issuer"), a company incorporated under the laws of the Cayman Islands for the sole purpose of issuing the Notes, acquiring the Collateral, entering into the Credit Default Swap, the Basis Swap, the Collateral Put Agreement and the Portfolio Selection Agreement and engaging in certain related transactions.

The Issuer will not have any material assets other than (i) the Collateral, (ii) its rights under the Credit Default Swap, the Basis Swap, the Collateral Put Agreement and the Portfolio Selection Agreement and (iii) certain other assets.

ABACUS 2007-AC1, Inc. (the "Co-Issuer" and, together with the Issuer, the "Issuers"), a company incorporated under the laws of the State of Delaware for the sole purpose of co-issuing the Co-Issued Notes.

The Co-Issuer will not have any assets (other than $10 of equity capital) and will not pledge any assets to secure the Notes. The Co-Issuer will have no claim against the Issuer in respect of the Issuer's Assets.

The authorized share capital of the Issuer consists of 500 ordinary shares, par value $1.00 per share (the "Issuer Ordinary Shares"). 500 of which will be issued on or prior to the Closing Date. The Issuer Ordinary Shares that have been issued will be held by Maple Finance Limited, a licensed trust company incorporated in the Cayman Islands and any successor thereto (the "Administrator"), as the trustee pursuant to the terms of a charitable trust (the "Share Trustee"). The common stock of the Co-Issuer will be held by the Issuer.

The Portfolio Selection Agent is the Initial Reference Portfolio will be selected by ACA Management, LLC. ("ACA Management" and in such capacity, the "Portfolio Selection Agent") pursuant to the terms of the Portfolio Selection Agreement, dated as of the Closing Date (the "Portfolio Selection Agreement"). Between the Issuer and the Portfolio Selection Agent. The Portfolio Selection Agent will not provide any other services to the Issuer or act as the "collateral manager" for the Collateral. The Portfolio Selection Agent will not have any fiduciary duties or other duties to the Issuer or to the holders of the Notes and will not have any ability to direct the Trustee to dispose of any items of Collateral. See "The Portfolio Selection Agent" and "The Portfolio Selection Agreement."
### The Issuer Notes

The Issuer Notes will be issued in accordance with one or more deeds of covenant (each, a "Deed of Covenant") and will be subject to the Issuing and Paying Agency Agreement, dated as of the Closing Date including the terms and conditions of such Notes contained therein (the "Issuing and Paying Agency Agreement"). Between the Issuer and LaSalle Bank National Association, as Issuing and Paying Agent (in such capacity, the "Issuing and Paying Agent"). See "Description of Notes—The Issuing and Paying Agency Agreement".

### Status and Subordination

The Co-Issued Notes will be limited recourse obligations of the Issuer and the Issuer Notes will be limited recourse obligations of the Issuer. On (i) each Payment Date and (ii) any other Business Day on which Currency-Adjusted Notional Principal Adjustment Amounts are paid by the Issuer to the Noteholders, the Class C Notes will be senior in right of payment to the Class A-1 Notes, the Class A-1 Notes will be senior in right of payment to the Class A-2 Notes, the Class A-2 Notes will be senior in right of payment to the Class B Notes, the Class B Notes will be senior in right of payment to the Class C Notes, and the Class D Notes will be senior in right of payment to the Class F Notes.

### Use of Proceeds

The aggregate net proceeds of the offering of the Notes are expected to equal approximately $192,000,000 (including the USD Equivalent of the Notes denominated in Approved Currencies other than Dollars). The Issuer will use such net proceeds, together with part or all of the Front Payment, to purchase Collateral Securities and Eligible Investments that will have an aggregate principal amount of at least $192,000,000 (including the USD Equivalent of the Collateral Securities denominated in Approved Currencies other than Dollars), provided that, for each Approved Currency, the aggregate principal amount of Collateral Securities and Eligible Investments denominated in such Approved Currency and purchased with the proceeds of the offering will equal or exceed the Currency-Adjusted Aggregate Outstanding Amount of Notes denominated in such Approved Currency on the Closing Date.

### Distributions of Interest Proceeds

Interest Proceeds will be distributable monthly to Holders of the Notes in accordance with the Priority of Payments. See "Description of the Notes—Priority of Payments".

### Non-Call Period

With respect to each Series of Notes issued on the Closing Date, the period from the Closing Date to and including the Business Day immediately preceding the April 2021 Payment Date, and, with respect to any Series of Notes issued after the Closing Date, the period designated for such Series at the time of issuance in the related offering circular supplement (the "Non-Call Period"). So long as the Non-Call Period for each Series of Notes Outstanding has expired, the Notes will be redeemed in full at

the option of the Protection Buyer if the Protection Buyer elects to terminate the Credit Default Swap prior to the Scheduled Termination Date and certain conditions are satisfied. See "Description of the Notes—Optional Redemption in Whole and Partial Optional Redemption", "Description of the Notes—Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date and Mandatory Redemption Date" and "The Credit Default Swap—Credit Default Swap Early Termination—Credit Default Swap Termination Events".

After the applicable Non-Call Period, one or more Series of Notes may be redeemed in full if the Protection Buyer, in its sole discretion, elects to redeem such Series prior to its Stated Maturity and certain conditions are satisfied. In addition, if the Protection Buyer and/or one or more Affiliates thereof acquires any Notes prior to the end of the related Series’ applicable Non-Call Period (such Notes, "Protection Buyer Notes"), such Notes may be redeemed notwithstanding that any such redemption may occur during the applicable Non-Call Period. See "Description of the Notes—Optional Redemption in Whole and Partial Optional Redemption", "Description of the Notes—Priority of Payments—Principal Proceeds—Other Payment Dates" and "The Credit Default Swap—Payments—Payment on a Partial Optional Redemption Date".

The following table sets forth the general circumstances and dates upon which Holders of the Notes will receive principal payments on their Notes prior to the Stated Maturity:

Redemption*, "Description of the Notes—Mandatory Redemption", "Description of the Notes—Priority of Payments" and "Description of the Notes—The Indenture—Events of Default".

Decrease in the Class Notional Amount of each Class of Notes

The Class Notional Amount of each Class of Notes will be decreased by an amount (as expressed in Dollars) equal to:

(i) on the fifth Business Day following the calculation of any Loss Amount, if greater than zero, the lesser of (a) the aggregate Loss Amount determined on the related Credit Default Swap Calculation Date less (b) the Class Notional Amount of all Classes of Notes that are subordinated to such Class immediately prior to such determination; and (ii) the Class Notional Amount of such Class immediately prior to such determination (such amount, the "Uncapped Credit Event Adjustment Amount"); and

(ii) on the Payment Date immediately following the Due Date in which such Reference Obligation Amortization Amount is determined by the Credit Default Swap Calculation Agent on one or more Reference Obligation(s), if greater than zero, the lesser of (a) the aggregate Principal Amount allocable to such Class less (b) the Class Notional Amount of all Classes of Notes that are senior to such Class immediately prior to such determination, and (ii) the Class Notional Amount of such Class immediately prior to such determination (such amount, the "Uncapped Notional Principal Adjustment Amount").

On any date of determination, increases and decreases to the Class Notional Amount of any Class of Notes will be determined by giving effect, in the following order: to (i) aggregate Loss Amount (if any), (ii) aggregate Reference Obligation Amortization Amount (if any), and (iii) aggregate Notional Principal Amount (if any).

See "Description of Notes—Principal".

Increase in the Class Notional Amount of each Class of Notes

On the Payment Date immediately following the Due Date during which a Reference Obligation Reimbursement Amount is determined by the Credit Default Swap Calculation Agent with respect to one or more Reference Obligation(s), and so long as such Reference Obligation(s) remains in the Reference Portfolio at the time of such Reference Obligation Reimbursement, the Class Notional Amount of each Class of Notes will be increased by an amount (as expressed in Dollars) equal to, if greater than zero, the lesser of (i) such Reference Obligation Reimbursement Amount less the sum of the ICE Class Notional Amount.
Differentials for the Classes of Notes that are senior to such Class immediately prior to such determination, and (ii) the ICE Class Notional Amount Differential of such Class immediately prior to such determination (such amount, the "Unscaled Reinvestment Adjustment Amounts") (if any).

On any date of determination, increases and decreases to the Class Notional Amount of any Class of Notes will be determined by giving effect, in the following order, to the (i) aggregate Loss Amount (if any), (ii) aggregate Reference Obligation Reimbursement Amount (if any) and (iii) aggregate Notional Principal Amount (if any).

See "Description of Notes—Principal".

The Aggregate USD Equivalent Outstanding Amount of each Class of Notes will be decreased by an amount (as expressed in Dollars) equal to:

(i) on the fifth Business Day following the calculation of any Loss Amount, without paying any principal on such Class of Notes, the product of (a) the related Unscaled Credit Event Adjustment Amount and (b) the related Note Scaling Factor (such amount determined under this subclause (i), the "Credit Event Adjustment Amount");

(ii) on the Payment Date immediately following the Due Period in which a Reference Obligation Amortization Amount is determined by the Credit Default Swap Calculation Agent on one or more Reference Obligations, a payment of principal representing the product of (a) the related Unscaled Notional Principal Adjustment Amount and (b) the related Note Scaling Factor (such amount determined under this subclause (ii), the "Notional Principal Adjustment Amount");

(iii) on any Stated Maturity related to a Series of such Class, after giving effect to clauses (i) and (ii) above, the Aggregate USD Equivalent Outstanding Amount of each such Series maturing on such date; and

(iv) on a Partial Optional Redemption Date, after giving effect to clauses (i) through (iii) above, with respect to a Class of Notes for which (a) one or more Series of such Class is redeemed in full on such date or (b) Protection Buyer Notes are redeemed, in each case in connection with a Partial Optional Redemption, a payment of principal representing the Aggregate USD Equivalent Outstanding Amount of the Notes of such Class redeemed in connection with such Partial Optional Redemption.
Footnote Exhibits - Page 4827

For the avoidance of doubt, with respect to a Class with more than one Series Outstanding at such time of determination, any pre rate allocations made on such date pursuant to subclauses (i) through (iv) above will be based on the Aggregate USD Equivalent Outstanding Amount of each applicable Series of such Class, as expressed in Dollars.

On any date of determination, increases and decreases to the Aggregate USD Equivalent Outstanding Amount of any Class of Notes will be determined by giving effect, in the following order, to (i) the aggregate related Unsecured Credit Event Adjustment Amount (if any), (ii) the aggregate related Unsecured Reinstatement Adjustment Amount (if any) and (iii) the aggregate related Unsecured Additional Principal Adjustment Amount (if any).

See "Description of Notes—Principal".

Increase in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes

The Aggregate USD Equivalent Outstanding Amount of each Class of Notes will be increased by an amount (as expressed in Dollars) equal to:

(i) on the Payment Date immediately following the Due Period during which a Reference Obligation Reimbursement Amount is determined by the Credit Default Swap Calculation Agent (with the related Currency Adjusted Reimbursement Amount (other than with respect to that portion of Reference Obligation Repayment Amount which will be applied to make principal payments on the Notes on such Payment Date) to be invested in Collateral Securities, or pending such investment, in Eligible Investments, as described under "—The Collateral Securities"), the product of (a) the related Unsecured Reimbursement Adjustment Amount and (b) the related Note Scaling Factor with respect to such Class of Notes (such amount, the "Reimbursement Adjustment Amount"), provided that the Aggregate USD Equivalent Outstanding Amount of each Class of Notes may only be increased by an amount less than or equal to the ICE Aggregate USD Equivalent Outstanding Amount Differential of such Class; and

(ii) on any day on which additional Notes of such Class are issued, the principal amount of such additional issuance (or the USD Equivalent of such principal amount if issued in an Approved Currency other than Dollars).

For the avoidance of doubt, with respect to a Class with more than one Series Outstanding at such time of determination, any pre rate allocations made on such date pursuant to subclause (i) above will be based on the Aggregate USD Equivalent Outstanding Amount of each Series of such Class, as expressed in Dollars.
See "Description of Notes—Principal".

Decrease in the Currency Adjusted Aggregate Outstanding Amount of each Series of Notes

The Currency Adjusted Aggregate Outstanding Amount of any Series of Notes will be decreased, with respect to (A) any event described under clauses (i) and (ii) of "—Decrease in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes", by an amount equal to the quotient of (a) such Notes' allocation of any related Credit Event Adjustment Amount or National Principal Adjustment Amount, as applicable, divided by (b) the Applicable Series Foreign Exchange Rate (such quotient, the "Currency Adjusted Credit Event Adjustment Amount" or the "Currency Adjusted National Principal Adjustment Amount", as applicable), (d) on the Stated Maturity with respect to a Series of Notes, the Currency Adjusted Aggregate Outstanding Amount of such Notes maturing on such date, after giving effect to any reductions pursuant to subclauses (A) above and (C) a Partial Optional Redemption of such Notes, by the Currency Adjusted Aggregate Outstanding Amount of such Notes, after giving effect to any reductions pursuant to subclauses (A) and (B) above.

Increase in the Currency Adjusted Aggregate Outstanding Amount of each Series of Notes

The Currency Adjusted Aggregate Outstanding Amount of any Series of Notes will be increased, with respect to any event described under clause (i) of "—Increase in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes", by an amount equal to the quotient of (a) such Notes' allocation of any related Reinvestment Adjustment Amount divided by (b) the Applicable Series Foreign Exchange Rate (such quotient, the "Currency Adjusted Reinvestment Adjustment Amount").

Cancellation of Notes

A Class of Notes will be deemed to be cancelled and no longer Outstanding on the date that the ICE Class National Amount of such Class has been reduced to zero.

The Credit Default Swap

Credit Default Swap

On or prior to the Closing Date, the Issuer will enter into a credit default swap transaction (the "Credit Default Swap") with Goldman Sachs Capital Markets, L.P. (in such capacity, the "Protection Buyer") pursuant to which the Issuer will sell credit protection to the Protection Buyer with respect to a portfolio of Reference Obligations consisting of RMBS.

Documentation

The Credit Default Swap will be documented by a confirmation that will be governed by, form part of and be subject to a 1992 Master Agreement (Multicurrency-Cross Border) (the "ISDA Master Agreement") published by the International Swap and Derivatives Association, Inc. ("ISDA"), and Schedule thereto. The definitions and provisions of the ISDA Credit Derivatives Definitions will be incorporated into the Credit Default Swap by reference (as supplemented by the May 2003 Supplement to such definitions published by ISDA), subject to certain

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918049
amendments as set out in the Credit Default Swap. The Credit Default Swap will be governed by New York law.

**Reference Portfolio**

On the Closing Date, it is expected that the Credit Default Swap will reference 90 Reference Obligations (collectively, the "Reference Portfolio"). See Schedule A.

The Protection Buyer is not required to have any credit exposure to any Reference Entity or any Reference Obligation.

**Modification of the Reference Portfolio**

The Reference Portfolio is static and no replacement Reference Obligations may be included in the Reference Portfolio. Following the redemption or amortization in full of a Reference Obligation, the Reference Obligation that has been redeemed or amortized in full, will be removed from the Reference Portfolio.

Subject to the foregoing, if the Reference Obligation Notional Amount of a Reference Obligation that suffered one or more Credit Events is reduced to zero at any time on or prior to the Scheduled Termination Date and remains at zero for a period of one calendar year, such Reference Obligation shall be removed from the Reference Portfolio as of the last day of such one calendar year period; provided that, if such Reference Obligation that suffered one or more Credit Events experiences a Reference Obligation Reimbursement for which the Reference Obligation Repayment Amount equals the ICE Reference Obligation Notional Amount, Differential of such Reference Obligation immediately prior to such determination, the Reference Obligation shall be removed from the Reference Portfolio immediately following the determination of such Reference Obligation Repayment Amount by the Credit Default Swap Calculation Agent.

**Credit Events**

The following Credit Events (each a "Credit Event") shall apply with respect to each Reference Obligation:

(i) Failure to Pay Principal; or

(ii) Voluntary Suspension.

See "The Credit Default Swap—Credit Events".

**Conditions to Settlement**

The "Conditions to Settlement" will be satisfied upon delivery to the Issuer and the Trustee of a Credit Event Notice and a Notice of Publicly Available Information.

**Notifying Party**

The Protection Buyer.

**Credit Default Swap Calculation Agent**

Goldman Sachs Capital Markets, L.P. will be the calculation agent (in this case) the "Credit Default Swap Calculation Agent") under the Credit Default Swap.

**Settlement Method**

Cash.

Confidential Treatment Requested by Goldman Sachs
Footnote Exhibits - Page 4830

| Loss Amount | On the Business Day on which the Protection Buyer satisfied the Conditions to Settlement (or each such case, a “Credit Default Swap Calculation Date”), the Credit Default Swap Calculation Agent will determine the loss amount (a “Loss Amount”) with respect to the related Credit Event as follows:
|             | (i) with respect to a Wire Transfer, the Loss Amount will be an amount equal to the related Wire Transfer Amount; and |
|             | (ii) with respect to a Failure to Pay Principal, the Loss Amount will be an amount equal to the related Principal Shortfall Amount. |

| Cash Settlement Amount | On the fifth Business Day following a Credit Default Swap Calculation Date (a “Credit Default Swap Settlement Date”), subject to the provisions described in the following paragraph, the Issuer will pay to the Protection Buyer an amount (a “Cash Settlement Amount”) equal to the aggregate of any Currency Adjusted Credit Event Adjustment Amounts determined on such day payable in the currency of such Currency Adjusted Credit Event Adjustment Amounts. |
|                       | Pursuant to the terms of the Credit Default Swap, if the liquidation proceeds of Eligible Investments and Collateral Securities would have been sufficient to pay a Cash Settlement Amount had such Collateral (other than Put Excluded Collateral) been liquidated at least at 100% of par (instead of below 100% of par), the Issuer will be deemed to have paid such Cash Settlement Amount in full upon the Protection Buyer’s receipt of the actual related liquidation proceeds. |
|                       | See “The Credit Default Swap—Payments”. |

| Reimbursement following a Credit Event | If, after the occurrence of a Credit Event, a Reference Obligation Reimbursement occurs with respect to the related Reference Obligation, and so long as such Reference Obligation remains in the Reference Portfolio at the time of such Reference Obligation Reimbursement, the Protection Buyer will pay to the Issuer, on the Payment Date immediately following the Due Period during which the related Reference Obligation Reimbursement Amount is determined by the Credit Default Swap Calculation Agent, an amount equal to the aggregate of:
|                                          | (i) the Currency Adjusted Reimbursement Amount payable on such date; and |
|                                          | (ii) the ICE Currency Adjusted Interest Reimbursement Amounts payable on such date. |

| Credit Default Swap Early Termination | The Credit Default Swap may be terminated by the Issuer or by the Protection Buyer (“Credit Default Swap Early Termination”) at the option of the non-defaulting or non-affected party, as applicable, upon the occurrence of a Credit Default Swap Event of Default or a Credit Default Swap Termination Event. Upon the Trustee becoming aware of the occurrence of |

(ii) the receipt of Disposition Proceeds in connection with the liquidation of any principal amount of a Collateral Security in excess of the amount necessary to pay any Cash Settlement Amount, Currency Adjusted Notional Principal Adjustment Amount or in connection with a Partial Optional Redemption or a Stated Maturity (for the avoidance of doubt, excluding any Excess Disposition Proceeds) (such excess principal amount, the "Excess Principal Amount"), or

(iv) the issuer’s receipt of a Currency Adjusted Reinstatement Adjustment Amount (other than with respect to that portion of any Reference Obligation Repayment Amount which shall be applied to make principal payments on the Notes on such Payment Date).

the Protection Buyer may, in its sole discretion, direct the issuer to purchase (and the issuer shall so purchase) one or more replacement Collateral Securities or additional Collateral Securities (together, the "Supplemental Collateral Securities"), as the case may be, subject to (a) the Collateral Security Eligibility Criteria, (b) the Collateral Weighted Average Life Test and (c) the Collateral Security Quantity Constraint (in each case as confirmed by the Collateral Administrator based on information and calculations supplied by the Credit Default Swap Calculation Agent).

provided that (1) in the case of clauses (i) and (ii) above, such Supplemental Collateral Securities will be denominated in the same Approved Currency as the Collateral Security that has been amortized, redeemed, or otherwise disposed of and (2) in the case of clauses (i) and (iv) above, such Supplemental Collateral Securities will be denominated in the same currency as such Notes that are issued or reinstated. See "The Collateral Securities—Supplemental Collateral Securities". Pending any such reinvestment, the issuer will invest the Collateral Security Amortization Amount, Additional Issuer Principal Amount, Excess Principal Amount or Currency Adjusted Reinstatement Adjustment Amount, as the case may be, in Eligible Investments.

If the issuer liquidates a Collateral Security in order to pay a Cash Settlement Amount, a Currency Adjusted Notional Principal Adjustment Amount or in connection with a Partial Optional Redemption or a Stated Maturity, as the case may be, and the issuer receives Disposition Proceeds in respect of such Collateral Security which exceed 100% of the principal amount of such Collateral Security (the excess proceeds described above, excluding any accrued and unpaid interest, "Excess Disposition Proceeds"), the Protection Buyer may, in its sole discretion, direct the issuer to use such Excess Disposition Proceeds to purchase (and the issuer shall so purchase) one or more Supplemental Collateral Securities in any Approved Currency, subject to clauses (iv), (v) and (vi) through (ix) of the Collateral Security Eligibility Criteria (as confirmed by the Collateral Administrator based on information and calculations supplied by the Credit Default Swap Calculation Agent). See

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918053
"The Collateral Securities—Supplemental Collateral Securities." Pending any such reinvestment, the issuer will invest such Excess Disposition Proceeds in Eligible Investments.

The Collateral Securities will only be liquidated in connection with the events described below:

(i) on a Credit Default Swap Calculation Date, the issuer or the Trustee will notify the Collateral Disposal Agent to liquidate Collateral Securities in an amount (assuming that the issuer will receive at least 100% of par for such Collateral Securities in any such liquidation, other than Put Excluded Collateral) that, when added to the proceeds from the liquidation of any Eligible Investments (assuming that the issuer will receive at least 100% of par for such Eligible Investments, other than Put Excluded Collateral), would be sufficient to pay the Protection Buyer the Cash Settlement Amount on the related Credit Default Swap Settlement Date;

(ii) five Business Days prior to the Payment Date immediately following the Due Period in which a Reference Obligation Amortization Amount is determined, in such case by the Credit Default Swap Calculation Agent on one or more Reference Obligation(s), if any Currency Adjusted Notional Principal Adjustment Amount will be paid to any Noteholders by the issuer on the related Payment Date, the issuer or the Trustee will notify the Collateral Disposal Agent to liquidate Collateral Securities in an amount (assuming that the issuer will receive at least 100% of par for such Collateral Securities in any such liquidation, other than in connection with any Put Excluded Collateral) that, when added to the proceeds from the liquidation of any Eligible Investments (assuming that the issuer will receive at least 100% of par for such Eligible Investments, other than Put Excluded Collateral), would be sufficient to pay to the applicable Noteholders such Currency Adjusted Notional Principal Adjustment Amount on the related Payment Date (provided that if the issuer will not receive at least 100% of par for a Selected Collateral Security, such Selected Collateral Security (other than Put Excluded Collateral) will not be liquidated but the Trustee will instead deliver such Selected Collateral Security to the Collateral Put Provider in exchange for the payment by the Collateral Put Provider to the issuer of an amount equal to a price of 100% for any such Selected Collateral Security, plus accrued and unpaid interest thereon);

(iii) after the occurrence and continuation of an Event of Default, if the Trustee is directed to liquidate the Collateral Securities in accordance with the terms of the
(iv) in connection with any Optional Redemption in Whole, the issuer or the Trustee will notify the Collateral Disposal Agent to liquidate all Collateral Securities (provided that if the issuer will not receive at least 100% of par for a Selected Collateral Security, such Selected Collateral Security (other than Put Excluded Collateral) will not be liquidated but the Trustee will instead deliver such Selected Collateral Security to the Collateral Put Provider in exchange for the payment by the Collateral Put Provider to the issuer of an amount equal to 100% of par for such Selected Collateral Security, plus accrued and unpaid interest thereon).

(v) in connection with any Partial Optional Redemption, the issuer or the Trustee will notify the Collateral Disposal Agent to liquidate Collateral Securities in an amount (assuming that the issuer will receive at least 100% of par for such Collateral Securities in any such liquidation, other than Put Excluded Collateral) that, when added to the proceeds from the liquidation of any Eligible Investments (assuming that the issuer will receive at least 100% of par for such Eligible Investments, other than Put Excluded Collateral), would be sufficient to pay to the applicable Noteholders the principal amount of such Notes redeemed in connection with such Partial Optional Redemption (provided that if the issuer will not receive at least 100% of par for a Selected Collateral Security, such Selected Collateral Security (other than Put Excluded Collateral) will not be liquidated but the Trustee will instead deliver such Selected Collateral Security to the Collateral Put Provider in exchange for the payment by the Collateral Put Provider to the issuer of an amount equal to 100% of par for such Selected Collateral Security, plus accrued and unpaid interest thereon).

(vi) in connection with a Mandatory Redemption other than a Mandatory Redemption caused by a (a) termination of the Credit Default Swap pursuant to which the Protection Buyer is the defaulting party, (b) termination of the Collateral Put Agreement pursuant to which the Collateral Put Provider is the defaulting party or (c) termination of the Basis Swap pursuant to which the Basis Swap Counterparty is the defaulting party, the issuer or the Trustee will notify the Collateral Disposal Agent to liquidate all Collateral Securities.

(vi) in connection with a Mandatory Redemption other than as described in subclause (vi) above, Collateral Securities will be selected for liquidation and/or delivery to Noteholders pursuant to the Special Termination Liquidation Procedure.
(vii) In connection with the Stated Maturity of any Series of Notes, the Issuer or Trustee will notify the Collateral Disposal Agent to liquidate Collateral Securities in an amount (assuming that the Issuer will receive at least 100% of par for such Collateral Securities in any such liquidation, other than Put Excluded Collateral that, when added to the proceeds from the liquidation of any Eligible Investments (assuming that the Issuer will receive at least 100% of par for such Eligible Investments, other than Put Excluded Collateral), would be sufficient to pay the applicable Noteholders the principal amount of such Notes maturing on the related Stated Maturity) that if the Issuer will not receive at least 100% of par for a Selected Collateral Security, such Selected Collateral Security (other than Put Excluded Collateral) will not be liquidated but the Trustee will instead deliver such Selected Collateral Security to the Collateral Put Provider in exchange for the payment by the Collateral Put Provider to the Issuer of an amount equal to 100% of par for such Selected Collateral Security, plus accrued and unpaid interest thereon); and

(b) In connection with the satisfaction of the Replacement Counterparty Procedures, the Issuer, or the Trustee on behalf of the Issuer, will notify the Collateral Disposal Agent to liquidate all Collateral Securities.

The Credit Default Swap Calculation Agent will supply information and calculations to (i) the Collateral Administrator for use in the Collateral Administrator's confirmation of compliance of the Collateral (after the proposed addition of a Collateral Security) with any of the Collateral Security Eligibility Criteria, the Collateral Weighted Average Life Test and the Collateral Security Quantity Constraint, and (ii) the Trustee for use in the Trustee's confirmation of the BMR Collateral Security Eligibility Criteria.

To the extent there is any difference between any of the Collateral Administrator's or the Trustee's (as the case may be) and the Credit Default Swap Calculation Agent's determination of the satisfaction of any of the Collateral Security Eligibility Criteria, the Collateral Weighted Average Life Test or the Collateral Security Quantity Constraint, the Collateral Administrator will use commercially reasonable efforts to resolve such difference.

For the avoidance of doubt, the obligations of the Collateral Administrator under the Collateral Administration Agreement are
The Basis Swap

The Basis Swap

On or prior to the Closing Date, the Issuer will enter into a basis swap transaction (the "Basis Swap") with Goldman Sachs Capital Markets, L.P. (in such capacity, the "Basis Swap Counterparty").

Terms

On each Payment Date, the Issuer will pay to the Basis Swap Counterparty an amount (the "Basis Swap Payment") equal to the Collateral Interest Amount.

"Collateral Interest Amount" means, with respect to any Payment Date (including the Optional Redemption Date and the Stated Maturity) or the Mandatory Redemption Date, without duplication (i) all interest payments that are scheduled to be paid by obligors of Collateral in accordance with the Underlying Instruments of such Collateral during the preceding Due Period, plus (ii) all amendment and waiver fees, late payment fees, make-whole premiums and other fees that are either (a) scheduled to be paid by obligors of Collateral during the preceding Due Period or (b) obligors of such Collateral have agreed to pay to holders of such Collateral during the preceding Due Period, plus (iii) all accrued and unpaid amounts described in subclause (i) and (ii) above that a buyer of such Collateral has agreed to pay to the Issuer upon the sale of such Collateral during the preceding Due Period, less any Purchased Accrued Interest Amount that the Issuer used in connection with the purchase of a Supplemental Collateral Security during the preceding Due Period, which in each of clauses (i) through (iii) above, for the avoidance of doubt, includes (a) amounts actually received by the Issuer and (b) amounts due and payable to the Issuer but not received by the Issuer.

On each Payment Date, the Basis Swap Counterparty will pay to the Issuer the Monthly Basis Swap Payment.

See "The Basis Swap" and "Description of the Notes—Priorities of Payments—Interest Proceeds".

The Collateral Put Agreement

The Collateral Put Agreement

On or prior to the Closing Date, the Issuer will enter into a put agreement (the "Collateral Put Agreement") with Goldman Sachs International ("GSM") or in such capacity, the "Collateral Put Provider").

Terms

With respect to the Issuer's liquidation of Collateral (other than Put Excluded Collateral) in connection with (i) the payment of any Currency Adjusted Notional Principal Adjustment Amount by the Issuer to the applicable Noteholders, (ii) an Optional Redemption in Whole or a Partial Optional Redemption or (iii) a Stated Maturity of any Series of Notes, if (x) the Collateral

### The Collateral Disposal Agreement

#### The Collateral Disposal Agreement

On or prior to the Closing Date, the Issuer will enter into a collateral disposal agreement (the "Collateral Disposal Agreement") with Goldman, Sachs & Co. (in such capacity, the "Collateral Disposal Agent").

#### Terms

Pursuant to the terms of the Collateral Disposal Agreement, the Collateral Disposal Agent will (i) subject to subclause (ii) below in connection with any partial liquidation of the portfolio of Collateral Securities, choose the Selected Collateral Securities to be liquidated (provided that any such Selected Collateral Securities will be denominated in the same currency as the Notes, the Currency Adjusted Aggregate Outstanding Amount of which is reduced by the related Credit Event Adjustment Amount, Notional Principal Adjustment Amount, Partial Optional Redemption or Stated Maturity), (ii) in connection with any liquidation of any Collateral Security, solicit bids on behalf of the Issuer and (iii) in connection with any liquidation of Collateral Securities as described in subclause (v) under "—The Collateral Securities—Liquidation of Collateral Securities", perform the acts described under "Description of the Notes—Mandatory Redemption", including, but not limited to, those acts described in the Special Termination Liquidation Procedures.

#### Additional Issuance

The Notes of any Class may be issued from time to time following the Closing Date. See "Description of the Notes—The Indenture—Additional Issuance" and "Description of the Notes—The Issuing and Paying Agency Agreement—Additional Issuance".

#### Governing Law

The Co-Issued Notes, the Indenture, the Issuing and Paying Agency Agreement, the Credit Default Swap, the Basis Swap, the Collateral Put Agreement, the Collateral Disposal Agreement and the Portfolio Selection Agreement will be governed by, and construed in accordance with, the laws of the State of New York. The Issuer Notes, the terms and conditions of the Issuer Notes (as set forth in the Issuing and Paying Agency Agreement) and each Deed of Covenant will be governed by, and construed in accordance with, the laws of the Cayman Islands.

OS MBS-E-001918058
Listing and Trading: There is no established trading market for the Notes. Application will be made to admit the Notes on a stock exchange of the issuer's choice, if practicable. There can be no assurance that such admission will be sought, granted or maintained. See "Listing and General Information".

Tax Status: See "Income Tax Considerations".

ERISA Considerations: See "ERISA Considerations".
RISK FACTORS

Prior to making an investment decision, prospective investors should carefully consider, in addition to the matters set forth elsewhere in this Offering Circular, the following factors:

Limited Liquidity and Restrictions on Transfer. There is currently no market for the Notes. Although the initial purchaser has advised the Issuers that it intends to make a market in the Notes, the initial purchaser is not obligated to do so, and any such market-making with respect to the Notes may be discontinued at any time without notice. There can be no assurance that any secondary market for any of the Notes will develop, or, if a secondary market does develop, that it will provide the Holders of such Notes with liquidity of investment or that it will continue for the life of such Notes. Consequently, a purchaser must be prepared to hold the Notes for an indefinite period of time or until Stated Maturity. In addition, no sale, assignment, participation, pledge or transfer of the Notes may be effected if, among other things, it would require any of the Issuers, the Co-Issuer or any of their officers or directors to register under, or otherwise be subject to the provisions of, the Investment Company Act or any other similar legislation or regulatory action. Furthermore, the Notes will not be registered under the Securities Act or any state securities laws, and the Issuer has no plans, and is under no obligation, to register the Notes under the Securities Act. The Notes are subject to certain transfer restrictions and can be transferred only to certain transferees as described herein under “Transfer Restrictions”. Such restrictions on the transfer of the Notes may further limit their liquidity. See “Transfer Restrictions”. Application will be made to list the Notes on a stock exchange of the Issuer’s choice, if practicable, but there can be no assurance that such admission will be sought, granted or maintained.

Limited Recourse Obligations. The Co-Issued Notes will be limited recourse obligations of the Issuers and the Issuer Notes will be limited recourse obligations of the Issuer, payable solely from the Issuer Assets pledged by the Issuer to secure the Notes. None of the Noteholders, the Initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent, the Portfolio Selection Agent, the Trustee, the Issuing and Paying Agent, the Administrator, the Share Trustee or any affiliates of any of the foregoing of the Issuers or any other person or entity will be obligated to make payments on the Notes. Consequently, Holders of the Notes must rely solely on distributions on the Issuer Assets pledged to secure the Notes for the payment of principal and interest thereon. If distributions on the Issuer Assets are insufficient to make payments on the Notes, no other assets (and, in particular, no assets of the Noteholders, the Initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent, the Portfolio Selection Agent, the Trustee, the Issuing and Paying Agent, the Administrator, the Share Trustee or any affiliates of any of the foregoing) will be available for payment of the deficiency and following realizations of the Issuer Assets pledged to secure the Notes, the obligations of the Issuers to pay such deficiency shall be extinguished and shall not thereafter revive. Each Holder of a Note by its acceptance of such Note shall agree or be deemed to have agreed not to take any action or institute any proceedings against the Issuer under any insolvency law applicable to the Issuer or which would be likely to cause the Issuers to be subject to, or to seek the protection of, any insolvency law applicable to the Issuer, subject to certain limited exceptions.

Subordination of the Notes. The rights of the Holders of the Notes with respect to the Issuer Assets will be subject to prior claims of the Trustee, the Issuing and Paying Agent, the Portfolio Selection Agent, the Protection Buyer, the Basis Swap Counterparty and the Collateral Put Provider, and may be subject to the claims of any other creditor of the Issuer that is entitled to priority as a matter of law or by virtue of any nonconsensual lien that such creditor has on the Issuer Assets or pursuant to the Priority of Payments.

The Class A-I Notes are subordinated to the Class SS Notes, Class A-II Notes are subordinated to the Class A-I Notes, the Class B Notes are subordinated to the Class A-II Notes, the Class C Notes are subordinated to the Class B Notes, the Class D Notes are subordinated to the Class C Notes and the Class FL Notes are subordinated to the Class D Notes, in each case as described under “Summary—
Footnote Exhibits - Page 4840

Notes—Status and Subordination. No payments of interest from Interest Proceeds will be made on any Class of Notes on any Payment Date until current and defaulted interest on the Notes of each Class to which such Class is subordinated has been paid, and no payments of principal will be made on any such Class of Notes (i) on any Payment Date or (ii) any other Business Day on which payments of Currency Adjusted National Principal Adjustment Amounts are paid by the Issuer to the Noteholders, until principal of the Notes of each Class to which such Class is subordinated has been paid in accordance with the Priority of Payments described herein. See "Description of the Notes—Priority of Payments".

In addition, if an Event of Default occurs, a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class will be entitled to determine the remedies to be exercised under the Indenture including the sale and liquidation of the Collateral in accordance with the procedures set forth in the Indenture. Remedies pursued by a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class could be adverse to the interests of the Holders of a particular Class or Classes of Notes. See "Description of the Notes—The Indenture—Events of Default".

Mandatory Redemption and the Special Termination Liquidation Procedure. If a Mandatory Redemption occurs and the Special Termination Liquidation Procedure is applied, the Holders of the Class SS Notes, the Class A Notes, the Class B Notes and the Class C Notes voting as a single class will be entitled to determine whether Collateral Securities allocated to such Classes of Notes will be liquidated or delivered to such Noteholders in accordance with the Special Termination Liquidation Procedure. With respect to any of the Class SS Notes, the Class A Notes, the Class B Notes and the Class C Notes, such determination through voting as a single class could be adverse to the interests of the Holders of the Classes of Notes subordinated to such senior Classes, as the case may be, as Holders of any such senior Classes of Notes may elect to receive Collateral Securities with a market value in excess of the Aggregate USD Equivalent Outstanding Amount of such senior Classes of Notes (plus accrued and unpaid interest thereon) rather than have the Collateral Securities allocated to such senior Classes liquidated, which would allow Holders of subordinated Classes of Notes to benefit from the liquidation of some Collateral Securities at a premium. See "Description of the Notes—Mandatory Redemption".

Leverage. The Aggregate USD Equivalent Outstanding Amount of the Notes will be $192,000,000 on the Closing Date (including, for the avoidance of doubt, the USD Equivalent of the Notes denominated in Approved Currencies other than Dollars). However, the Reference Portfolio Notional Amount will equal $2,000,000,000 on the Closing Date, which amount represents the aggregate Reference Obligation Notional Amount on the Closing Date. Through the Credit Default Swap, Investors in the Notes will be effectively providing the Protection Buyer loss protection with respect to each Reference Obligation up to the Reference Obligation Notional Amount of such Reference Obligation. Losses incurred will be borne by the Noteholders. Since the Reference Portfolio Notional Amount for the Reference Portfolio exceeds the Aggregate USD Equivalent Outstanding Amount of the Notes, Investors in the Notes are providing such loss protection to the Protection Buyer on a leveraged basis.

Volatility. Because investors in the Notes are providing loss protection to the Protection Buyer on a leveraged basis, the market value of the Notes may be subject to changes that are greater than the changes in market value that might occur in the Reference Portfolio. The market value of the Notes may vary over time and could be significantly less than par (or even zero) in certain circumstances.

Credit Linkage of the Notes. The Credit Default Swap will be linked to the credit of the Reference Entities. The amount payable in respect of principal of the Notes will depend upon, among other factors, whether and to the extent Credit Events have occurred under the Credit Default Swap. Under the Credit Default Swap, upon the occurrence of a Credit Event and the satisfaction of the Conditions to Settlement, the Issuer will be obligated to pay the Protection Buyer a Cash Settlement Amount in an amount equal to any Currency Adjusted Credit Event Adjustment Amounts. Any Cash Settlement Amount paid by the Issuer will reduce the Aggregate USD Equivalent Outstanding Amount of the Notes (in reverse order of
Footnote Exhibits - Page 4841

seniority). See "Summary—Notes—Decrease in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes". Except in the limited circumstances as described under "Summary—Notes—Decrease in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes", a decrease in the Aggregate USD Equivalent Outstanding Amount of the Notes will be permanent and irrevocable and the Noteholders will never receive a payment of principal in the amount of such decrease and from and after the date of such decrease, no interest will accrue on the amount of such decrease. See "—Subordination of the Notes" and "Description of the Notes—Priority of Payments".

Cash Available to Make Payments on the Notes. The ability of the Issuer to make payments on the Notes will depend primarily on several factors. To the extent (i) one or more Credit Events occur, (ii) the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider or the Collateral Disposal Agent fails to perform its obligations or (iii) there is a default in payments due in respect of any Collateral, the amount of available cash to make payments on the Notes in accordance with the Priority of Payments will be reduced. In addition, in the event that an Event of Default occurs in respect of the Notes or on the Mandatory Redemption Date, the Issuer may not be able to pay the principal of the Notes as a result of (a) paying unpaid Credit Default Swap Termination Payments, if any, owing to the Protection Buyer, (b) paying unpaid Basis Swap Termination Payments, if any, owing to the Basis Swap Counterparty, (c) amounts owed to the Collateral Put Provider pursuant to the Collateral Put Agreement and (d) the then applicable market value of the Collateral Securities being less than their principal amount. In the case of a Mandatory Redemption, the Holders of any subordinated Class of Notes could be adversely affected as described under "—Mandatory Redemption and the Special Termination Liquidation Procedure". See "Description of the Notes—Mandatory Redemption".

Retention of a Portfolio Selection Agent. The Issuer will retain a portfolio selection agent to select the Initial Reference Portfolio, but following the Closing Date the Reference Portfolio will be static, subject to modification only in connection with the amortization of the Reference Portfolio. The Portfolio Selection Agent will not provide any other services to the Issuer or act as the "collateral manager" for the Collateral. The Portfolio Selection Agent will not have any fiduciary duties or other duties to the Issuer or to the holders of the Notes and will not have any ability to direct the Trustee to dispose of any assets of Collateral.

Interest Payments Dependent Primarily upon the Protection Buyer's Performance under the Credit Default Swap and the Basis Swap Counterparty's Performance under the Basis Swap. Payments made by the Protection Buyer under the Credit Default Swap and payments made by the Basis Swap Counterparty under the Basis Swap are the Issuer's primary sources of funds to make interest payments on the Notes. Since the ability of the Issuer to make interest payments on the Notes prior to the occurrence of a Credit Default Swap Early Termination or a Basis Swap Early Termination will be dependent on its receipt of payments from the Protection Buyer under the Credit Default Swap and the Basis Swap Counterparty under the Basis Swap, the Noteholders are relying on the Protection Buyer to perform its obligations under the Credit Default Swap and the Basis Swap Counterparty to perform its obligations under the Basis Swap. Accordingly, if a Credit Default Swap Early Termination or a Basis Swap Early Termination occurs prior to a Payment Date, the Issuer may not have sufficient funds to make interest payments on all Classes of Notes.

The insolvency of the Protection Buyer will be a Credit Default Swap Event of Default under the Credit Default Swap. In the event of the insolvency of the Protection Buyer, the Issuer will be treated as a general creditor of the Protection Buyer. Additionally, certain events with respect to a Credit Default Swap Early Termination (which can occur due to the insolvency of the Protection Buyer) will result in a Mandatory Redemption. Upon the occurrence of a Mandatory Redemption, the Trustee will liquidate all or a portion of the Collateral and will make any payments due to the Protection Buyer pursuant to the Credit Default Swap (other than a Protection Buyer Default Termination Payment), the Basis Swap Counterparty pursuant to the Basis Swap (other than a Basis Swap Counterparty Default Termination Payment) and the Collateral Put Provider pursuant to the Collateral Put Agreement prior to making the payment described in the preceding sentence.

Confidential Treatment Requested by Goldman Sachs
payments to the Noteholders. Under such circumstances, Noteholders may not receive sufficient funds to repay the principal of the Notes and, as a result, Noteholders should expect to lose a substantial part, if not all, of their principal investment in the Notes and to receive no interest on the Notes. In addition, in the case of a Mandatory Redemption, the Holders of any subordinated Class of Notes could be adversely affected as described under "—Mandatory Redemption and the Special Termination Liquidation Procedure." See "Description of the Notes—Mandatory Redemption".

The insolvency of the Basis Swap Counterparty will be a Basis Swap Event of Default under the Basis Swap. In the event of the insolvency of the Basis Swap Counterparty, the Issuer will be treated as a general creditor of the Basis Swap Counterparty. Additionally, certain events with respect to a Basis Swap Early Termination (which can occur due to the insolvency of the Basis Swap Counterparty) will result in a Mandatory Redemption. Upon the occurrence of a Mandatory Redemption, the Trustee will liquidate the Collateral and will make any payments due to the Protection Buyer pursuant to the Credit Default Swap (other than a Protection Buyer Default Termination Payment), the Basis Swap Counterparty pursuant to the Basis Swap (other than a Basis Swap Counterparty Default Termination Payment) and the Collateral Put Provider pursuant to the Collateral Put Agreement prior to making payments to the Noteholders. Under such circumstances, Noteholders may not receive sufficient funds to repay the principal of the Notes and, as a result, Noteholders should expect to lose a substantial part, if not all, of their principal investment in the Notes and to receive no interest on the Notes. In addition, in the case of a Mandatory Redemption, the Holders of any subordinated Class of Notes could be adversely affected as described under "—Mandatory Redemption and the Special Termination Liquidation Procedure." See "Description of the Notes—Mandatory Redemption".

Collateral Put Provider Default. In connection with an Optional Redemption in Whole, a Partial Optional Redemption, a Stated Maturity of any Series of Notes or the payment of any Currency Adjusted Notional Principal Adjustment Amount by the Issuer to the Noteholders, if (a) the Collateral Disposal Agent is unable to obtain at least 100% of par for a Selected Collateral Security and/or (b) the Trustee is unable to obtain at least 100% of the par for Eligible Investments (in each case, other than CollateralDisposed Collateral and (c) excluding any accrued and unpaid interest), the Collateral Disposal Agent will inform the Trustee and the Issuer in the case of (a) and the Trustee will inform the Issuer in the case of (b) above, who will then direct the Issuer to exercise the Issuer’s rights under the Collateral Put Agreement pursuant to which the Issuer will deliver such Selected Collateral Security and/or such Eligible Investment to the Collateral Put Provider in exchange for 100% of the principal amount of such Selected Collateral Security and/or such Eligible Investments (plus accrued and unpaid interest). If a Collateral Put Provider defaults in its obligations under the Collateral Put Agreement, the Collateral Disposal Agent will be required to liquidate the Collateral in an amount which may be insufficient to pay such Currency Adjusted Notional Principal Adjustment Amount or to redeem the Notes in full (in connection with an Optional Redemption in Whole) or in part (in connection with a Partial Optional Redemption) or the Holders of any subordinated Class of Notes could be adversely affected as described under "—Mandatory Redemption and the Special Termination Liquidation Procedure." See "Description of the Notes—Mandatory Redemption".

No Claims on the Reference Entities. The Credit Default Swap does not constitute a purchase or other acquisition or assignment of any interest in any obligation of any Reference Entity. The Issuer will have a contractual relationship only with the Protection Buyer and not with any Reference Entity, and generally will have no rights to enforce directly compliance by any Reference Entity with the terms of its obligations that are referred to in the Credit Default Swap, no rights of set-off against a Reference Entity, and no voting rights with respect to any Reference Entity. The Issuer will not directly benefit from any collateral securing the obligations of the Reference Entities, and the Issuer will not have the benefit of the remedies that would normally be available to a holder of such secured obligation.

To the extent that the Protection Buyer, the Credit Default Swap Calculation Agent, the Portfolio Selection Agent or any of their affiliates holds any obligation of a Reference Entity, either the Protection Buyer, the Credit Default Swap Calculation Agent, the Portfolio Selection Agent or any of their affiliates

GS MBS-E-001918063
Footnote Exhibits - Page 4843

will be, or will be deemed to be acting as, the Issuer's agent or trustee in connection with the exercise of, or the failure to exercise, any of the rights or powers of the Protection Buyer, the Credit Default Swap Calculation Agent, the Portfolio Selection Agent or any of their affiliates arising under or in connection with its or their holding of any such obligation. None of the Issuer, the Trustee, the Issuing and Paying Agent, nor any Holder of any Note will have any right to acquire from the Protection Buyer, the Credit Default Swap Calculation Agent, the Portfolio Selection Agent or any of their affiliates or to require the Protection Buyer, the Credit Default Swap Calculation Agent or any of their affiliates to transfer, assign or otherwise dispose of any interest in any Reference Obligation or other obligation of any Reference Entity pursuant to the Credit Default Swap. Furthermore, to the extent that the Protection Buyer, the Credit Default Swap Calculation Agent, the Portfolio Selection Agent or any of their affiliates has any obligation of a Reference Entity, none of the Protection Buyer, the Credit Default Swap Calculation Agent, the Portfolio Selection Agent nor any of their affiliates will grant the Issuer, the Trustee or the Issuing and Paying Agent any security interest in such obligation.

In addition, in the event of the bankruptcy or insolvency of the Protection Buyer, the Issuer will be treated as a general creditor of the Protection Buyer and will not have any claim with respect to the Reference Entities. Consequently, the Issuer will be subject to the credit risk of the Protection Buyer as well as that of the Reference Entities.

Limited Provision of Information about Reference Obligations/Reference Entities. This Offering Circular does not provide any information with respect to any Reference Obligation or Reference Entity other than that contained in a description of the Reference Portfolio set forth under "The Credit Default Swap—The Reference Portfolio." As the occurrence of a Credit Event may result in a permanent decrease in the amounts payable in respect of the Notes, investors should review the list of Reference Obligations set forth herein and conduct their own investigation and analysis with respect to the creditworthiness of each Reference Obligation and the likelihood of the occurrence of a Credit Event with respect to each Reference Entity and Reference Obligation.

The Protection Buyer or its affiliates and the Portfolio Selection Agent or its affiliates may have information, including material, non-public information, regarding the Reference Obligations and the Reference Entities. Neither the Protection Buyer nor the Portfolio Selection Agent will provide the Issuer, the Trustee, the Issuing and Paying Agent, any Holder or any other Person with any such information that is not public and such other Person with any such information that is public (including financial information or notices), except in the case of information pertaining to one or more Credit Events with respect to each Reference Entity and one or more Reference Obligation(s) of such Reference Entity in connection with which the Protection Buyer is seeking payment of one or more Cash Settlement Amounts.

The Issuer will be required pursuant to the Indenture to provide the Noteholders with periodic reports. See "Description of the Notes—The Indenture—Reports Prepared Pursuant to the Indenture." None of the Initial Purchaser, the Protection Buyer, the Portfolio Selection Agent or any of their respective affiliates has any obligation to keep the Issuer, the Trustee, the Issuing and Paying Agent or the Noteholders informed as to any other matters with respect to any Reference Entity or any Reference Obligation, including whether or not circumstances exist that give rise to the possibility of the occurrence of a Credit Event with respect to any Reference Obligation or a Reference Entity.

None of the Issuer, the Trustee, the Issuing and Paying Agent or the Noteholders will have the right to inspect any records of the Initial Purchaser, the Protection Buyer, the Portfolio Selection Agent or any of their respective affiliates. Except for the information contained in this Offering Circular, none of the Initial Purchaser, the Protection Buyer, the Portfolio Selection Agent or any of their respective affiliates will have any obligation to disclose any information or evidence regarding the existence or terms of any obligation of any Reference Entity or any matters arising in relation thereto or otherwise regarding any Reference Entity, any guarantor or any other person.

Confidential Treatment Requested by Goldman Sachs

GS MBS-5-001918064
Concentration Risk. The concentration of the Reference Obligations in the Reference Portfolio in any one particular type of Structured Product Security subjects the Notes to a greater degree of risk with respect to credit defaults within such type of Structured Product Security. Investors should review the list of Reference Obligations set forth herein and conduct their own investigation and analysis with regard to each Reference Obligation. See “The Credit Default Swap—the Reference Portfolio”.

Collateral Default. To the extent that defaults occur with respect to any Collateral, a Mandatory Redemption will occur and the Collateral Disposal Agent will be required to liquidate the Collateral. Thereafter, liquidation proceeds will be applied in accordance with “Description of the Notes—Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date”. Depending on the market value of the remaining Collateral and the value of the Credit Default Swap and the Basis Swap at such time, the proceeds of such liquidation may not be sufficient to pay the unpaid principal and interest on all of the Notes.

Assets Included in the Reference Portfolio or heir as Collateral Securities. The risks generally described below under Commercial Mortgage-Backed Securities, Residential Mortgage-Backed Securities, CDO Cashflow Securities and Asset-Backed Securities could affect payments on the Notes to the extent any such asset is (i) included in the Reference Portfolio as a Reference Obligation or (ii) held by the Issuer as a Collateral Security and subsequently experiences a Collateral Default.

Commercial Mortgage-Backed Securities. The Collateral Securities may include Commercial Mortgage-Backed Securities.

CMSBS bear various risks, including credit, market, interest rate, structural and legal risks. CMSBS are backed by obligations (including certificates of participation in obligations) that are principally secured by mortgages on real property or interests therein having a multifamily or commercial use, such as regional malls, office buildings, industrial or warehouse properties, hotels, rental apartments, self-storage, nursing homes and senior living centers. Risks affecting real estate investments include general economic conditions, the condition of financial markets, political events, developments or trends in any particular industry and changes in prevailing interest rates. The cyclicality and leverage associated with real estate-related investments have historically resulted in periods, including significant periods, of adverse performance, including performance that may be materially more adverse than the performance associated with other investments. In addition, commercial mortgage loans generally lack standardized terms, tend to have shorter maturities than residential mortgage loans and may provide for the payment of all or substantially all of the principal only at maturity. Additional risks may be presented by the type and use of a particular commercial property. For instance, commercial properties that operate as hospitals and nursing homes may present special risks to lenders due to the significant governmental regulation of the ownership, operation, maintenance and financing of health care institutions. Hotel and motel properties are often operated pursuant to franchise, management or operating agreements which may be terminable by the franchisor/operating or, and the transferability of a hotel’s operating, liquor and other licenses upon a transfer of the hotel, whether through purchase or foreclosure, is subject to local law requirements. All of these factors increase the risks involved with commercial real estate lending. Commercial lending is generally viewed as exposing a lender to a greater risk of loss than residential one-to-four family lending since it typically involves larger loans to a single borrower than residential one-to-four family lending.

Commercial mortgage lenders typically look to the debt service coverage ratio of a loan secured by income-producing property as an important measure of the risk of default on such a loan. Commercial property values and net operating income are subject to volatility, and net operating income may be sufficient or insufficient to cover debt service on the related mortgage loan at any given time. The repayment of loans secured by income-producing properties is typically dependent upon the successful operation of the related real estate project rather than upon the liquidation value of the underlying real

Confidential Treatment Requested by Goldman Sachs

GS MBIS-E-001918065
Footnote Exhibits - Page 4845

estate. Furthermore, the net operating income from and value of any commercial property may be adversely affected by risks generally incident to interests in real property, including events which the borrower or manager of the property, or the issuer or servicer of the related issuance of commercial mortgage-backed securities, may be unable to predict or control, such as changes in general or local economic conditions and/or specific industry segments; declines in real estate values; declines in rental or occupancy rates; increases in interest rates, real estate tax rates and other operating expenses; changes in governmental rules, regulations and fiscal policies; acts of God; and social unrest and civil disturbances. The value of commercial real estate is also subject to a number of laws, such as laws regarding environmental clean-up and limitations or remedies imposed by bankruptcy laws and state laws regarding foreclosures and rights of redemption. Any decrease in income or value of the commercial real estate underlying an issue of CMBS could result in cash flow delays and losses on the related issue of CMBS.

A commercial property may not readily be converted to an alternative use in the event that the operation of such commercial property for its original purpose becomes unprofitable. In such cases, the conversion of the commercial property to an alternative use would generally require substantial capital expenditures. Thus, if the borrower becomes unable to meet its obligations under the related commercial mortgage loan, the liquidation value of any such commercial property may be substantially less, relative to the amount outstanding on the related commercial mortgage loan, than would be the case if such commercial property were readily adaptable to other uses. The exercise of remedies and successful realization of liquidation proceeds may be highly dependent on the performance of CMBS servicers or special servicers, of which there may be a limited number and which may have conflicts of interest in any given situation. The failure of the performance of such CMBS servicers or special servicers could result in cash flow delays and losses on the related issue of CMBS.

At any one time, a portfolio of CMBS may be backed by commercial mortgage loans with disproportionately large aggregate principal amounts secured by properties in only a few states or regions. As a result, the commercial mortgage loans may be more susceptible to geographic risks relating to such areas, such as adverse economic conditions, adverse events affecting industries located in such areas and natural hazards affecting such areas, than would be the case for a pool of mortgage loans having more diverse property locations.

Mortgage loans underlying a CMBS issue may provide for no amortization of principal or may provide for amortization based on a schedule substantially longer than the maturity of the mortgage loan, resulting in a "balloon" payment due at maturity. If the underlying mortgage borrower experiences business problems, or other factors limit refinancing alternatives, such balloon payment mortgages are likely to experience payment delays or even default. As a result, the related issue of CMBS could experience delays in cash flow and losses.

In addition, interest payments on CMBS may be subject to an available funds-cap and/or a weighted average coupon cap (which cap will, in each case, have the practical effect of deferring part or all of such interest payments) if interest rate rises substantially.

Residential Mortgage-Backed Securities. The Reference Obligations will include the Collateral Securities may include Residential Mortgage-Backed Securities.

RMBS bear various risks, including credit, market, interest rate, structural and legal risks. RMBS represent interests in pools of residential mortgage loans secured by one- to four-family residential mortgage-loans. Such loans may be prepaid at any time. Residential mortgage loans are obligations of the borrowers thereunder only and are not typically insured or guaranteed by any other person or entity, although such loans may be securitized by Agencies and the securities issued are guaranteed. The rate of defaults and losses on residential mortgage loans will be affected by a number of factors, including general economic conditions and those in the area where the related mortgage property is located, the borrower's equity in the mortgaged property and the financial circumstances of the borrower. If a
residential mortgage loan is in default, foreclosure of such residential mortgage loan may be a lengthy
and difficult process, and may involve significant expenses. Furthermore, the market for defaulted
residential mortgage loans or foreclosed properties may be very limited.

At any one time, a portfolio of RMBS may be backed by residential mortgage loans with
disproportionately large aggregate principal amounts secured by properties in only a few states or
regions. As a result, the residential mortgage loans may be more susceptible to geographic risks relating
to such areas, such as adverse economic conditions, adverse events affecting industries located in such
areas and natural hazards affecting such areas, than would be the case for a pool of mortgage loans
having more diverse property locations. In addition, the residential mortgage loans may include so-called
"jumbo" mortgage loans, having original principal balances that are higher than is generally the case for
residential mortgage loans. As a result, such portfolio of RMBS may experience increased losses.

Each underlying residential mortgage loan in an issue of RMBS may have a balloon payment due
on its maturity date. Balloon residential mortgage loans involve a greater risk to a lender than self-
amortizing loans, because the ability of a borrower to pay such amount will normally depend on its ability
to obtain refinancing of the related mortgage loan or sell the related mortgaged property at a price
sufficient to permit the borrower to make the balloon payment, which will depend on a number of factors
prevailing at the time such refinancing or sale is required, including, without limitation, the strength of the
residential real estate markets, tax laws, the financial situation and operating history of the underlying
property, interest rates and general economic conditions. If the borrower is unable to make such balloon
payment, the related issue of RMBS may experience losses.

In addition, interest payments on RMBS may be subject to an available funds-cap and/or a
weighted average coupon cap (which cap will, in each case, have the practical effect of deferring part or
all of such interest payments) if interest rate rises substantially.

Structural and Legal Risks of CMBS and RMBS. Residential mortgage loans in an issue of
RMBS may be subject to various federal and state laws, public policies and principles of equity that
protect consumers, which among other things may regulate interest rates and other charges, require
certain disclosures, require licensing of originators, prohibit discriminatory lending practices, regulate the
use of consumer credit information and regulate debt collection practices. Violation of certain provisions
of these laws, public policies and principles may limit the servicer's ability to collect all or part of the
principal or interest on a residential mortgage loan, entitle the borrower to a refund of amounts
previously paid by it, or subject the servicer to damages and sanctions. Any such violation could result
also in cash flow delays and losses on the related issue of RMBS.

In addition, structural and legal risks of CMBS and RMBS include the possibility that, in a
bankruptcy or similar proceeding involving the originator or the servicer (often the same entity or
affiliates), the assets of the issuer could be treated as never having been truly sold by the originator to the
issuer and could be substantially consolidated with those of the originator, or the transfer of such assets
to the issuer could be voided as a fraudulent transfer. Challenges based on such doctrines could result
also in cash flow delays and losses on the related issue of CMBS or RMBS.

It is not expected that CMBS or RMBS (other than the RMBS Agency Securities) will be
guaranteed or insured by any governmental agency or instrumentality or by any other person. Distributions on
CMBS and RMBS will depend solely upon the amount and timing of payments and other collections on
the related underlying mortgage loans.

Some of the CMBS may, and the RMBS referenced in the Initial Reference Portfolio will, be
subordinated to one or more other senior classes of securities of the same series for purposes of, among
other things, offsetting losses and other shortfalls with respect to the related underlying mortgage loans.
In addition, in the case of CMBS and certain RMBS, no distributions of principal will generally be made
with respect to any class until the aggregate principal balances of the corresponding senior classes of

Confidential Treatment Requested by Goldman Sachs

OS MBS-E-001916067
Footnote Exhibits - Page 4847

securities have been reduced to zero. As a result, the subordinate classes are more sensitive to risk of loss and write-downs than senior classes of such securities.

CDO Cashflow Securities. The Collateral Securities may include CDO Cashflow Securities. CDO Cashflow Securities generally are limited recourse obligations of the issuer thereof payable solely from the underlying assets of the issuer ("CDO Collateral") or proceeds thereof. Consequently, CDO Cashflow Securities must rely solely on distributions on the underlying CDO Collateral or proceeds thereof for payment in respect thereof. If distributions on the underlying CDO Collateral are insufficient to make payments on the CDO Cashflow Securities, no other assets will be available for payment of the deficiency and following realization of the underlying assets, the obligations of the issuer to pay such deficiency shall be extinguished.

CDO Cashflow Securities are subject to credit, liquidity and interest rate risks. CDO Collateral may consist of high yield debt securities, loans, structured finance securities and other debt instruments. High yield debt securities are generally unsecured (and loans may be unsecured) and may be subordinated to certain other obligations of the issuer thereof. The below investment grade ratings of high yield securities reflect a greater possibility that adverse changes in the financial condition of an issuer or in general economic conditions or both may impair the ability of the issuer to make payments of principal or interest. Such investments may be speculative.

Issuers of CDO Cashflow Securities may acquire interests in loans and other debt obligations by way of assignment or participation. The purchaser of an assignment typically succeeds to all the rights and obligations of the assigning institution and becomes a lender under the credit agreement with respect to the debt obligation; however, its rights can be more restricted than those of the assigning institution.

CDO Cashflow Securities are subject to interest rate risk. The CDO Collateral of an issuer of CDO Cashflow Securities may bear interest at a fixed (floating) rate while the CDO Cashflow Securities issued by such issuers may bear interest at a floating (fixed) rate. As a result, there could be a floating/fixed rate or basis mismatch between such CDO Cashflow Securities and CDO Collateral which bears interest at a fixed rate and there may be a timing mismatch between the CDO Cashflow Securities and assets that bear interest at a floating rate as the interest rate on such assets bearing interest at a floating rate may adjust more frequently or less frequently, on different dates and based on different indices than the interest rates on the CDO Cashflow Securities. As a result of such mismatches, an increase or decrease in the level of the floating rate indices could adversely impact the ability to make payments on the CDO Cashflow Securities.

In addition, certain CDO Cashflow Securities may by their terms defer payment of interest or pay interest "in-kind".

Asset-Backed Securities. The Collateral Securities may include Asset-Backed Securities. The structure of an Asset-Backed Security and the terms of the investor's interest in the collateral can vary widely depending on the type of collateral, the desires of investors and the use of credit enhancements. Individual transactions can differ markedly in both structure and execution. Important determinants of the risk associated with issuing, acquiring synthetic exposure through the Credit Default Swap or holding Asset-Backed Securities include the relative seniority or subordination of the class of Asset-Backed Securities, the relative allocation of principal and interest payments in the priorities by which such payments are made under the governing documents, how credit losses affect the issuing vehicle and the return on the different classes, whether collateral represents a fixed set of specific assets or accounts, whether the underlying collateral assets are revolving or closed-end, under what terms (including maturity of the asset-backed instrument) any remaining balance in the accounts may revert to the issuing company and the extent to which the company that is the actual source of the collateral assets is obligated to provide support to the issuing vehicle or to any of the classes of securities. With respect to some types of Asset-Backed Securities, the risk is more closely correlated with the default risk on corporate bonds of similar terms and maturities than with the performance of a pool of receivables.
addition, certain Asset-Backed Securities (particularly subordinated Asset-Backed Securities) provide that the non-payment of interest in cash on such securities will not constitute an event of default in certain circumstances and the holders of such securities will not have available to them any associated default remedies.

Holders of Asset-Backed Securities bear various risks, including credit risks, liquidity risks, interest rate risks, market risks, operations risk, structural risks and legal risks. Credit risk arises from losses due to defaults by the borrows in the underlying collateral and the issuer’s or servicer’s failure to perform. These two elements may be mixed, as, for example, in the case of a servicer which does not provide adequate credit-review scrutiny to the serviced portfolio, leading to higher incidence of defaults. Market risk arises from the cash flow characteristics of the security, which for most Asset-Backed Securities tend to be predictable. The greatest variability in cash flows comes from credit performance, including the presence of wind-down or acceleration features designed to protect the investor in the event that credit losses in the portfolio rise well above expected levels. Interest rate risk arises for the issuer from the relationship between the pricing terms on the underlying collateral and the terms of the rate paid to holders of securities and from the need to roll to maintain the access servicing or spread account proceeds carried on the balance sheet. For the holder of the security, interest rate risk depends on the expected life of the Asset-Backed Securities which may depend on prepayments on the underlying assets or the occurrence of wind-down or termination events.

If the servicer becomes subject to financial difficulty or otherwise ceases to be able to carry out its functions, it may be difficult to find other acceptable substitute servicers and cash flow disruptions or losses may occur, particularly with non-standard receivables or receivables originated by private relations who collect many of the payments at their store. Structural and legal risks include the possibility that, in a bankruptcy or similar proceeding involving the originator or the servicer (often the same entity or affiliate), the assets of the issuer could be invaded as never having been truly sold by the originator to the servicer and could be substantively consolidated with those of the originator or the transfer of such assets to the issuer could be voided as a fraudulent transfer. Challenges based on such doctrines could result also in cash flow delays and reductions on the Asset-Backed Securities. Other similar risks relate to the degree to which cash flows on the assets of the issuer may be commingled with those on the originator’s other assets.

Recent Developments in Subprime Residential Mortgage Lending. Recently, delinquencies, defaults and losses on residential mortgage loans have increased and may continue to increase, which may affect the performance of RMBS, in particular RMBS Residential B/C Mortgage Securities which are backed by subprime mortgage loans. Subprime mortgage loans are generally made to borrowers with lower credit scores. Accordingly, mortgage loans backing RMBS Residential B/C Mortgage Securities are more sensitive to economic factors that could affect the ability of borrowers to repay their obligations under the mortgage loans backing these securities. Market interest rates have been increasing and accordingly, with respect to adjustable-rate mortgage loans and hybrid mortgage loans that have or will enter their adjustable-rate period, borrowers are likely to experience increases in their monthly payments and become increasingly likely to default on their payment obligations. Discovery of fraudulent mortgage loan applications in connection with rising default rates with respect to subprime mortgage loans may indicate that the risks with respect to these mortgage loans are particularly acute at this time. Such risks may result in further increases in default rates by subprime borrowers as it becomes more difficult for them to obtain refinancing.

These economic trends have been accompanied by a recent downward trend or stabilization of property values after a sustained period of increase in property values. Because subprime mortgage loans generally have higher loan-to-value ratios, recoveries on defaulted mortgage loans are more likely not to result in payment in full of amounts owed under such mortgage loans, resulting in higher net losses than would have been the case had property values remained the same or increased. A decline in property values will particularly impact recoveries on second lien mortgage loans that may be included in the mortgage pools backing RMBS Residential B/C Mortgage Securities.
Structural features of RMBS may contribute to the impact of increased delinquencies and defaults and lower recoveries on the underlying mortgage pool. In particular, there may be a decline in the interest rate payable under those RMBS structured to limit interest payable to investors based on a weighted average coupon cap. Mortgage loans bearing interest at a higher rate will have a greater tendency to default than those with lower mortgage rates. Such defaults will reduce the weighted average coupon of the underlying mortgage loans and accordingly the interest rate payable to investors in the related RMBS. In addition, delinquencies, defaults and lower recoveries on underlying mortgage loans will reduce interest and principal actually paid to investors to less than the amounts owed to investors in accordance with the terms of their RMBS. RMBS may not be structured with significant or any overcollateralization, so performance will be sensitive to delays or reductions in payments, particularly in the case of subordinated tranches of RMBS. To the extent that RMBS provide for write-downs of principal, interest will cease to accrue on the portion of principal of an RMBS that has been written down.

RMBS may provide that the servicer is required to make advances in respect of delinquent mortgage loans. However, servicers experiencing financial difficulties may not be able to perform these obligations. Servicers who have sought bankruptcy protection may, due to application of the provisions of bankruptcy law, not be required to advance such amounts. Even if a servicer were able to advance amounts in respect of delinquent mortgage loans, its obligation to make such advances may be limited to the extent that it does not expect to recover such advances due to the deteriorating credit of the delinquent mortgage loans. In addition, a servicer's obligation to make such advances may be limited to the amount of its servicing fee.

Recently, a number of originators and servicers of mortgage loans have experienced serious financial difficulties and, in some cases, have entered bankruptcy proceedings. These difficulties have resulted in part from declining markets for their mortgage loans as well as from claims for repurchases of mortgage loans previously sold under provisions that require repurchase in the event of early payment defaults or for breaches of representations regarding loan quality. Such financial difficulties may have a negative effect on the ability of servicers to pursue collection on mortgage loans that are experiencing increased delinquencies and defaults and to maximize recoveries on sale of underlying properties following foreclosure. The inability of the originator to repurchase such mortgage loans in the event of early payment defaults and other repurchase representation breaches may also affect the performance of RMBS backed by these mortgage loans.

Under certain circumstances, including a failure to perform its servicing obligations or a bankruptcy of the servicer, investors will be entitled to remove and replace the existing servicer. There is no guarantee, however, that a suitable servicer could be found to assume the obligations of the existing servicer, and the transition of servicing responsibilities to a replacement servicer could have an adverse effect on the performance of servicing functions during or following a transition period and a resulting increase in delinquencies and losses and decreases in recoveries.

Transfers of mortgage loans by the originator or seller will be characterized in the applicable sale agreement as a sale transaction. Nevertheless, in the event of a bankruptcy of the originator or seller, the trustee in bankruptcy could attempt to recharacterize the sale of the mortgage loans as a borrowing secured by a pledge of the mortgage loans. If such attempt were successful, the trustee in bankruptcy could prevent the trustee for the RMBS from exercising any of the rights of the owner of the mortgage loans and also could elect to liquidate the mortgage loans. Investors may suffer a loss in the amount of the proceeds of the liquidation of the underlying mortgage loans would not be sufficient to pay amounts owed in respect of their investments. If this occurs, investors would lose the right to future payments of interest and may fail to recover their initial investment. Regardless of whether a trustee elects to foreclose on the underlying mortgage loan pool, delays in payments on their investments and possible reductions in the amount of these payments could occur.
These adverse changes in market conditions may reduce the cash flow which the Issuer receives from RMBS held by the Issuer (or a Credit Default Swap that reference RMBS), decrease the market value of such RMBS and increase the incidence and severity of Credit Events under the Credit Default Swap.

Currency Exchange Risk. The Reference Portfolio may include non-Dollar denominated Reference Obligations. At the time that such non-Dollar denominated Reference Obligation is included in the Reference Portfolio, the Credit Default Swap Calculation Agent will determine the Notional Foreign Exchange Rate with respect to such non-Dollar denominated Reference Obligation. This Notional Foreign Exchange Rate will not change during the time such non-Dollar denominated Reference Obligation is in the Reference Portfolio, and, as such, will protect the Issuer from any unfavorable fluctuation of the applicable currency rate (which would increase the amount of any Cash Settlement Amount and/or Notional Principal Adjustment Amount relating to such non-Dollar denominated Reference Obligation). However, because the Notional Foreign Exchange Rate is fixed, the Issuer will not benefit from any favorable fluctuation of the applicable currency exchange rate (which would reduce the amount of any Cash Settlement Amount and/or Notional Principal Adjustment Amount relating to such non-Dollar denominated Reference Obligation).

In addition, in connection with a Mandatory Redemption, Collateral Securities may be liquidated and the proceeds of such liquidation may be insufficient to pay the Currency Adjusted Aggregate Outstanding Amount of each Series in full. To the extent that a Series of Notes is denominated in an Approved Currency for which there is insufficient proceeds in such Approved Currency (at the applicable level of priority) to pay the Currency Adjusted Aggregate Outstanding Amount of such Series of Notes in full, available proceeds denominated in other Approved Currencies will be exchanged for such needed Approved Currency at the applicable currency exchange rates at such time. Other Notes of such Class denominated in any such other Approved Currency and Notes junior to such Class may experience losses due to any adverse fluctuation of the applicable exchange currency rates. In addition, to the extent there would be insufficient principal proceeds after giving effect to any such exchange to make all principal payments on the Notes in connection with a Mandatory Redemption, with respect to any Class in which Notes are denominated in more than one Approved Currency, such shortfall shall be borne pro rata by Holders of such Class based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date, rather than the Applicable Series Foreign Exchange Rate for each related Series.

Average Life and Prepayment Considerations. The Stated Maturity of the Notes issued on the Closing Date is March 1, 2038. The Stated Maturity may vary with respect to any additional issuance of Notes; however, the average life of each Series of Notes is expected to be shorter than the number of years until the Stated Maturity.

The approximations of the average life of each Class of Notes set forth in the table in "Summary—Notes" with respect to the average life of each Class of Notes are not predictive and do not necessarily reflect historical performance of the Reference Obligations. Such approximations will also be affected by any Optional Redemption in Whole, Partial Optional Redemption, Mandatory Redemption or the characteristics of the Reference Obligations, including the existence and frequency of exercise of any optional redemption, mandatory prepayment or sinking fund features, the prevailing level of interest rates and the actual default rate.

Certain Conflicts of Interest Relating to the Initial Purchaser and its Affiliates. Various potential and actual conflicts of interest may nevertheless arise from the activities of the Initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Pot Provider, the Collateral Disposal Agent and their affiliates. The following, together with "—Limited Provision of Information about Reference Obligations/Reference Entities", briefly summarize some of these conflicts, but is not intended to be an exhaustive list of all such conflicts.
It is expected that the initial Purchaser and/or its respective affiliates will have placed or underwritten certain of the Reference Obligations and/or Collateral Securities at original issuance and/or will have provided investment banking services, advisory, banking and other services to issuers of Reference Obligations and/or Collateral Securities. The initial Purchaser may not have completed its resales of the Notes by any date certain, which may affect the liquidity of the Notes as well as the ability, if any, of the initial Purchaser to make a market in the Notes. From time to time, the Issuer may purchase or sell Collateral Securities from and/or through Goldman, Sachs & Co. and/or any of its affiliates (collectively, "Goldman Sachs"). The Issuer may invest in money market funds that are managed by Goldman Sachs or for which the Trustee or its affiliates provide services, provided that such money market funds otherwise qualify as Eligible Investments.

The Initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and certain of their respective affiliates are acting in a number of capacities in connection with the transactions described herein. The Initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and each of their respective affiliates acting in such capacities will have only the duties and responsibilities expressly agreed to by such entity in the relevant capacity and will not, by virtue of acting in any other capacity, be deemed to have other duties or responsibilities, other than as expressly provided with respect to each such capacity. The Initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and their respective affiliates in their various capacities may enter into business dealings from which they may derive revenues and profits in addition to the fees stated in the various transaction documents, without any duty to account therefor. In such dealings, the Initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and their respective affiliates may act in the same manner as if the Notes had not been issued, regardless of whether any such action (including without limitation, any action that might constitute or give rise to a Credit Event) might have an adverse effect on a Reference Entity, a Reference Obligation or any guarantor in respect thereof or otherwise.

The Initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and their respective affiliates may hold long or short positions with respect to Reference Obligations and/or other securities or obligations of related Reference Entities and may enter into credit derivative or other derivative transactions with other parties pursuant to which it sells or buys credit protection with respect to one or more related Reference Entities and/or Reference Obligations. The Initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and their respective affiliates may act with respect to such transactions and may exercise or enforce, or refrain from exercising or enforcing, any or all of its rights and powers in connection therewith as if it had not entered into the Credit Default Swap, the Basis Swap, the Collateral Put Agreement and the Collateral Disposal Agreement, and with regard to whether any such action might have an adverse effect on the Issuer, the Note holders, a related Reference Entity or any Reference Obligation. If the Initial Purchaser, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent or their respective affiliates, holds claims against a Reference Entity or a Reference Obligation other than in connection with the transactions contemplated in this Offering Circular, such party’s interest as a creditor may be in conflict with the interests of the Issuer.

Certain Conflicts of Interest Relating to the Portfolio Selection Agent and its Affiliates. Various potential and actual conflicts of interest may arise from the overall investment activities of the Portfolio Selection Agent and its Affiliates. The Portfolio Selection Agent and its Affiliates will select the initial Reference Portfolio. The Portfolio Selection Agent, its Affiliates and accounts managed by any of the foregoing may invest or invest for the account of others in debt obligations that would be appropriate for inclusion in the Reference Portfolio and have no duty in making such investments or in acting in a way that is favorable to the Issuer and to the Note holders. Such investments may be different from those debt obligations included in the Reference Portfolio. The Portfolio Selection Agent, its Affiliates and accounts managed by any of the foregoing may have economic interests in, or other relationships with, Reference.

Confidential Treatment Requested by Goldman Sachs
Entities or Reference Obligations. The Portfolio Selection Agent, its Affiliates or any account managed by any of the foregoing may make and/or hold an investment in an issuer's securities, sell credit protection under a credit default swap referencing securities or issue financial guaranty insurance policies covering securities (or make loans) that may be pari passu, senior or junior in ranking to a Reference Obligation or in which partners, security holders, officers, directors, agents or employees of the Portfolio Selection Agent, its Affiliates or any account managed by any of the foregoing serve on boards of directors or otherwise have ongoing relationships. In such instances, the Portfolio Selection Agent and its Affiliates may make investment recommendations and decisions (on behalf of itself or an account managed by it) that may be the same as or different from those made with respect to the issuer's investments. Accordingly, the Portfolio Selection Agent or any Affiliate of the Portfolio Selection Agent may be seeking, on behalf of itself or accounts for which it serves as manager, to acquire or dispose of securities which are included in the Initial Reference Portfolio (or securities of Reference Entities whose securities constitute Reference Obligations in the Initial Reference Portfolio) at the same time that the issuer enters into the Credit Default Swap to sell protection with respect to the Initial Reference Portfolio.

The Portfolio Selection Agent and its Affiliates may also serve as managers or co-managers of one or more other companies organized to invest in, or sell or buy credit protection with respect to, RMBS, CMBS, CDO Cashflow Securities or other types of Asset-Backed Securities. The Portfolio Selection Agent and its Affiliates may purchase its own interests as an issuer or servicer of obligations which are Reference Obligations or as an owner, or seller of credit protection with respect to, other securities issued by an issuer of Reference Obligations, without considering the effect of its actions or omissions on the issuer.

The Portfolio Selection Agent, its Affiliates and client accounts for which the Portfolio Selection Agent or its Affiliates act as investment advisor may at times own Notes. Any Notes owned by the Portfolio Selection Agent or its Affiliates are subject to disposition by such parties in their discretion. At any given time the Portfolio Selection Agent and its Affiliates will be entitled to vote with respect to any Notes held by them and by such accounts with respect to all other matters. The ownership of Notes by the Portfolio Selection Agent or its Affiliates may give the Portfolio Selection Agent an incentive to take actions that vary from the interests of other holders of the Notes.

Relation to Prior Investment Results. The prior investment results of Portfolio Selection Agent and the persons associated with the Portfolio Selection Agent or any other entity or person described herein are not indicative of the issuer's future investment results. The nature of, and risks associated with, the issuer's future investments may differ substantially from those investments and strategies undertaken heretofore by such persons and entities. There can be no assurance that the issuer's investments will perform as well as the past investments of any such persons or entities.

Evolving Nature of the Credit Default Swap Market. Credit default swaps are relatively new instruments in the market. While ISDA has published and supplemented the ISDA Credit Derivatives Definitions in order to facilitate transactions and promote uniformity in the credit default swap market, the credit default swap market is expected to change and the ISDA Credit Derivatives Definitions and terms applied to credit derivatives are subject to interpretation and further evolution. There can be no assurance that changes to the ISDA Credit Derivatives Definitions and other terms applicable to credit derivatives generally will be predictable or favorable to the issuer. Amendments or supplements to the ISDA Credit Derivatives Definitions that are published by ISDA will only apply to the Credit Default Swap if the Credit Default Swap is amended. Therefore, in addition to the credit risk of Reference Obligations, Reference Entities and the credit risk of the Protection Buyer, the issuer is also subject to the risk that the ISDA Credit Derivatives Definitions could be interpreted in a manner that would be adverse to the issuer or that the credit derivatives market generally may evolve in a manner that would be adverse to the issuer.

Confidential Treatment Requested by Goldman Sachs
DESCRIPTION OF THE NOTES

The Co-issued Notes will be issued pursuant to an Indenture, dated as of the Closing Date, among the Issuers and LaSalle Bank National Association, as Trustee. Each Class of Issuer Notes will be issued in accordance with a Deed of Covenant and will be subject to the Issuing and Paying Agency Agreement including the terms and conditions of such Notes contained therein. The following summary describes certain provisions of the Notes, the Indenture and the Issuing and Paying Agency Agreement. The summary does not purport to be complete and is subject to, and qualified in its entirety by reference to, the provisions of the Indenture and the Issuing and Paying Agency Agreement, copies of which may be obtained as described under "Listing and General Information".

Status and Security

The Co-issued Notes will be limited recourse obligations of the Issuers and the Issuer Notes will be limited recourse obligations of the Issuer, secured as described below. Accordingly, payments of interest on and principal of the Notes will be made solely from the proceeds of the Issuer Assets, in accordance with the priorities described under "—Priority of Payments" and in certain circumstances described under "—Mandatory Redemption" subject to the Special Termination Liquidation Procedure.

Under the terms of the Indenture, the Issuer will grant to the Trustee, for the benefit of the Secured Parties, a security interest in the Issuer Assets that is of first priority (subject to the Trustee’s lien described under "—Description of the Notes—The Indenture—Events of Default"), free of any adverse claim or the legal equivalent thereof, as applicable, to secure the Issuers’ obligations with respect to the Secured Parties.

Interest

The Notes will bear interest from the Closing Date at the annual rates set forth under "Summary—Notes", payable, in each case, monthly in arrears on each Payment Date commencing May 29, 2007 and ending on the Stated Maturity.

Interest will cease to accrue on each Note, or, in the case of a partial repayment, write-down, or Partial Optional Redemption on such part, from the date of such repayment, write-down, Partial Optional Redemption of such Series or Protection Buyer Notes or Stated Maturity unless payment of principal is improperly withheld or unless a default is otherwise made with respect to such payments of principal. See "—Principal". To the extent lawful and enforceable, interest on any Defaulted Interest on the Notes will accrue at the interest rate applicable to such Notes, until paid as provided herein.

The interest rate per annum payable on the Notes will be calculated based on the applicable Day Count Fraction, commencing on the Closing Date. In the event that the date of any Payment Date or the Stated Maturity, as the case may be, shall not be a Business Day, then payment need not be made on such date, but shall be made on the next succeeding Business Day with the same force and effect as if made on the nominal date of any such Payment Date or the Stated Maturity, as the case may be, and, other than with respect to any Interest Accrued Period for a Series of Notes ending on the Stated Maturity of such Series of Notes, no interest shall accrue on such payment of interest for the period from and after any such nominal date, provided that interest shall accrue from and including the immediately preceding Payment Date or, in the case of the first Payment Date, the Closing Date to but excluding the following Payment Date or the Stated Maturity, as applicable.

For purposes of calculating the Series Interest Rates, the Issuer will appoint as calculation agent LaSalle Bank National Association (solely in such capacity, the "Note Calculation Agent"). Absent manifest error, the Note Calculation Agent will determine each Series Interest Rate using the determination of each Applicable Index made by the Basis Swap Calculation Agent under the Basis Swap. The Basis Swap Calculation Agent will determine each Applicable Index in accordance with the
provisions set forth under the definitions of "LIBOR", "EURIBOR", "GBP-LIBOR", "AUD-LIBOR", "CAD-LIBOR", "JPY-LIBOR" and "NZD-IBOR"; provided that such determinations will be made only with respect to any Applicable Index for which Notes denominated in the related Approved Currency are Outstanding in such Applicable Period.

The Note Calculation Agent may be removed by the Issuers at any time. If the Note Calculation Agent is unable or unwilling to act as such or is removed by the Issuers, or if the Note Calculation Agent fails to determine the Series Interest Rates and the Series Interest Amounts for any Interest Accrual Period, the Issuers will promptly appoint as a replacement Note Calculation Agent a leading bank which is engaged in transactions in deposits in the Euro-zone interbank market and the London interbank market and which does not control or is not controlled by or under common control with the Issuers or their Affiliates. The Note Calculation Agent may resign its duties without a successor having been duly appointed. For so long as any of the Notes remain Outstanding, there will at all times be a Note Calculation Agent for the purpose of calculating the Series Interest Rates. In addition, for so long as any of the Notes are listed on any stock exchange and the rules of such exchange so require, the Issuer will notify such stock exchange of the appointment, resignation or change in the office of such Note Calculation Agent.

The Note Calculation Agent will cause the Series Interest Rates, the Series Interest Amounts and Payment Date to be communicated to Euroclear, Clearstream and if any Class of Notes is listed on any stock exchange, notify such stock exchange by the Business Day immediately following each Applicable Index Determination Date. The determination of the Series Interest Rates and the Series Interest Amounts by the Note Calculation Agent shall (in the absence of manifest error) be final and binding upon all parties.

Principal

Principal will not be payable on the Notes prior to the Stated Maturity, except in connection with (i) payment of any Currency Adjusted Notional Principal Adjustment Amount, (ii) an Optional Redemption in Whole or Partial Optional Redemption and/or (ii) a Mandatory Redemption. See "Optional Redemption in Whole and Partial Optional Redemption", "Mandatory Redemption", "Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date" and "Priority of Payments—Other Payment Dates".

The Aggregate USD Equivalent Outstanding Amount of each Class of Notes and the Currency Adjusted Aggregate Outstanding Amount of each Series of Notes will be adjusted from time to time in accordance with the methodologies described in "Summary—Decrease in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes", "Summary—Increase in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes", "Summary—Decrease in the Currency Adjusted Aggregate Outstanding Amount of each Series of Notes" and "Summary—Increase in the Currency Adjusted Aggregate Outstanding Amount of each Series of Notes".

From and after the date on which the Currency Adjusted Aggregate Outstanding Amount of any Series of Notes is reduced, no interest will accrue with respect to such reduced amount. From and after the date on which the principal amount of any Class of Notes is increased, interest will accrue with respect to such increased amount.

Optional Redemption in Whole and Partial Optional Redemption

The Notes will be redeemed in whole or any Payment Date after the latest Non-Cut Period of any Series of Notes by the Issuer if (i) the Protection Buyer elects to terminate the Credit Default Swap prior to the Scheduled Termination Date (an "Optional Redemption in Whole") and (ii) the Collateral Put Agreement has not been terminated at such time, provided, however, that if one or more Credit Events have caused the Aggregate USD Equivalent Outstanding Amount of one or more Classes of Notes to be

Confidential Treatment Requested by Goldman Sachs GS MBS-E-001918075
784

Footnote Exhibits - Page 4855

reduced, (i) Noteholders of each Reversible Loss Series must consent in writing to such redemption or (ii) the Protection Buyer must have agreed to pay the issuer, prior to the Optional Redemption Date, for each Reversible Loss Series, an amount equal to the Optional Redemption Reimbursement Amount and the issuer shall pay such Optional Redemption Reimbursement Amount to Holders of any such Series of Notes in accordance with the Priority of Payments on the Optional Redemption Date).

Notwithstanding the foregoing sentence, the Issuer may not sell any Collateral unless, after giving effect to such sale, there will be sufficient funds to pay the amounts described in "Optional Redemption in Whole Procedures" below (when taking into consideration the exercise of the Issuer's rights under the Collateral Put Agreement and whether the Protection Buyer will make any End Payment to the Issuer).

Any Optional Redemption in Whole of the Notes will be made at a price of, with respect to Notes denominated in any Approved Currency, 100% of the Currency Adjusted Aggregate Outstanding Amount of such Notes (including accrued and unpaid interest) plus, under the circumstances described above with respect to each Series of Notes of each Reversible Loss Series, the Optional Redemption Reimbursement Amount.

(a) The Notes of one or more Series will be redeemed in whole or any Payment Date after the applicable Non-Call Period or (b) any Protection Buyer Notes will be redeemed on any Payment Date, in each case by the Issuer if (i) the Protection Buyer elects to optionally redeem such Series or Protection Buyer Notes, as applicable, prior to the Scheduled Termination Date (a "Partial Optional Redemption"), (ii) the Collateral Put Agreement has not been terminated at such time and (iii) in the case of a Partial Optional Redemption of any of the Issuer Notes, the Issuer receives an opinion of counsel to, or prior to such Partial Optional Redemption Date to the effect that the tax analysts of the Co-Issued Notes contained herein will not be affected by such Partial Optional Redemption; provided, however, that with respect to a Partial Optional Redemption pursuant to clause (ii) above, if one or more Credit Events have caused the Aggregate USD Equivalent Outstanding Amount of one or more Series of Notes to be redeemed on such Payment Date to be reduced, (C) Noteholders of each such Reversible Loss Series must consent in writing to such redemption or (ii) the Protection Buyer must have agreed to pay the Issuer, prior to the Partial Optional Redemption Date, with respect to each such Reversible Loss Series, an amount equal to the Optional Redemption Reimbursement Amount (and the Issuer shall pay such Optional Redemption Reimbursement Amount to Holders of such Notes in accordance with the Priority of Payments on the Partial Optional Redemption Date). Notwithstanding the foregoing sentence, the Issuer may not sell any Collateral unless, after giving effect to such sale, there will be sufficient funds to pay the amounts described in "Optional Partial Redemption Procedures" below (when taking into consideration the exercise of the Issuer's rights under the Collateral Put Agreement and whether the Protection Buyer will make any Partial Optional Redemption End Payment to the Issuer).

Any Partial Optional Redemption of the Notes will be made at a price of 100% of the Currency Adjusted Aggregate Outstanding Amount of such Notes (including accrued and unpaid interest) plus, under the circumstances described above with respect to each Reversible Loss Series being redeemed, the Optional Redemption Reimbursement Amount.

Optional Redemption in Whole Procedures. In connection with an Optional Redemption in Whole, if the Protection Buyer wishes to terminate the Credit Default Swap after the Non-Call Period of each Series of Notes Outstanding has expired, and therefore requires the Issuer to optionally redeem the Notes in whole, the Protection Buyer shall notify the Issuer, the Portfolio Selection Agent, the Trustee and the issuing and Paying Agent in writing no less than 15 Business Days prior to the proposed redemption date (which date must be a Payment Date). If one or more Reversible Loss Series exist at such time, the Trustee or the Issuing and Paying Agent, as applicable, shall deliver a notice to each Noteholder of each such Reversible Loss Series, (i) notifying each such Noteholder (1) that the Protection Buyer has sought to terminate the Credit Default Swap prior to the Scheduled Termination Date, (2) of the proposed Optional Redemption Date and (3) that the consent of each such Noteholder is required under the Indenture or else Holders of each such Reversible Loss Series must receive the Optional Redemption

Confidential Treatment Requested by Goldman Sachs
Footnote Exhibits - Page 4856

Reimbursement Amount allocable to each Series of such Class, (i) providing any other information that the Trustee or the Issuing and Paying Agent, as applicable, may deem appropriate in its sole discretion and (ii) subject to the consent of each such Noteholder. If the Trustee or the Issuing and Paying Agent, as applicable, does not receive the consent of each such Noteholder within ten Business Days of the transmittal of such notice, the consent of each such Noteholder will be deemed not to have been obtained and an Optional Redemption in Whole may occur only if the Protection Buyer agrees to pay to the Issuer, for each Reversible Loss Series, the Optional Redemption Reimbursement Amount prior to the Optional Redemption Date.

The Trustee and the Issuing and Paying Agent, as applicable, will then provide notice of Optional Redemption in Whole by first-class mail, postage prepaid, mailed not less than 10 Business Days prior to the scheduled redemption date, to each Noteholder at such Holder’s address in the Note Register or the Issuer Note Register, as applicable, and for so long as any Class of Notes is listed on a stock exchange and the rules of such stock exchange shall so require, provide notice of an Optional Redemption in Whole to the Listing, Paying and Transfer Agent for such stock exchange.

The Notes shall not be optionally redeemed in whole unless the Trustee has determined (based on the advice of the Collateral Disposal Agent with respect to Collateral Securities) that the proceeds expected to be received upon the liquidation of the Collateral, together with any other amounts available to be used for such optional redemption (including any End Payment, Optional Redemption Reimbursement Amount and/or termination payments to be received by the Issuer under the Credit Default Swap and the Basis Swap, and such amounts allocated under subclauses (i) through (iv) in “—Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date”, “—Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date”, “Stated Maturity, Optional Redemption Date or Mandatory Redemption Date”), in determining whether sufficient proceeds will be available to redeem the Notes in whole under the preceding sentence, the Issuer’s right under the Collateral Put Agreement to require the Collateral Put Provider to purchase Collateral (other than Put Excluded Collateral) at 100% of par of such Collateral and the Issuer’s ability to enter into a currency exchange (if necessary) shall be taken into consideration.

Partial Optional Redemption Procedures. In connection with a Partial Optional Redemption, if the Protection Buyer elects to have the Issuer redeem one or more Series of Notes after the applicable Non-Call Period(s) (or, with respect to any Protection Buyer Notes, on any Payment Date), the Protection Buyer shall notify the Issuer, the Portfolio Selection Agent, the Trustee and the Issuing and Paying Agent in writing no less than 15 Business Days prior to the proposed redemption date (which date must be a Payment Date). If one or more Reversible Loss Series exist and will be redeemed at such time, the Trustee or the Issuing and Paying Agent, as applicable, shall deliver a notice to each Noteholder of each such Reversible Loss Series, (i) notifying each such Noteholder (1) that the Protection Buyer through the Issuer has elected to redeem such Series of Notes prior to the Stated Maturity, (2) of the proposed Partial Optional Redemption Date and (3) that the consent of each such Noteholder is required under the indenture or else Holders of such Reversible Loss Series must receive the Optional Redemption Reimbursement Amount allocable to such Series, (ii) providing any other information that the Trustee or the Issuing and Paying Agent, as applicable, may deem appropriate in its sole discretion and (iii) soliciting the consent of each such Noteholder. If the Trustee or the Issuing and Paying Agent, as applicable, does not receive the consent of each such Noteholder within 10 Business Days of the transmittal of such notice, the consent of each such Noteholder will be deemed not to have been obtained and a Partial Optional Redemption of such Series may occur only if the Protection Buyer agrees to pay to the Issuer, for each such Reversible Loss Series, the Optional Redemption Reimbursement Amount prior to the Partial Optional Redemption Date.

Neither the Notes of any Series nor any Protection Buyer Notes shall be optionally redeemed in connection with a Partial Optional Redemption unless the Trustee has determined (based on the advice of the Collateral Disposal Agent with respect to Collateral Securities) that the proceeds expected to be received upon the liquidation of the Eligible Investments and Selected Collateral Securities, together with

Confidential Treatment Requested by Goldman Sachs

GS MRIS-E-001918077
any other amounts available to be used for such optional redemption (including any Partial Optional Redemption End Payment and/or Optional Redemption Reimbursement Amount), are equal to an amount sufficient to pay the principal amount of such Series of Notes and any Seiles senior to such Series under subclause (ii) in "—Priority of Payments—Principal Proceeds—Other Payment Dates". See "—Priority of Payments—Principal Proceeds—Other Payment Dates". In determining whether sufficient proceeds will be available to redeem the Notes in part under the preceding sentence, the Issuer’s right under the Collateral Put Agreement to require the Collateral Put Provider to purchase Collateral (other than Put Excluded Collateral) at 100% of the principal amount of such Collateral Security and the Issuer’s ability to enter into a currency exchange (if necessary) shall be taken into consideration.

The Trustee and the Issuing and Paying Agent, as applicable, will then provide notice of a Partial Optional Redemption by first-class mail, postage prepaid, mailed not less than 10 Business Days prior to the scheduled redemption date, to each Holder of a Note to be redeemed at such Holder’s address in the Note Register or the Issuer Note Register, as applicable, and for so long as any Class of Notes is listed on any stock exchange and the rates of such stock exchange shall so require, provide notice of a Partial Optional Redemption to the Listing, Paying and Transfer Agent for such stock exchange.

Mandatory Redemption

The occurrence of (i) either a termination event or an event of default (as such term is defined in the Credit Default Swap, Basis Swap and/or Collateral Put Agreement, as applicable) for which the Protection Buyer, Basis Swap Counterparty or Collateral Put Provider is the sole defaulting party or Affected Party (as such term is defined in the Credit Default Swap, Basis Swap and/or Collateral Put Agreement, as applicable) under the Credit Default Swap, Basis Swap and/or Collateral Put Agreement, as applicable, (ii) any termination event (other than a termination event triggered by an Event of Default or an event described in subclause (i) or, after the Non-Call Period for each Series of Notes Outstanding has expired, the Protection Buyer’s election to terminate the Credit Default Swap prior to its scheduled termination date) or (iii) any event of default (other than an event described in subclause (ii) in each case under the Credit Default Swap, the Basis Swap or the Collateral Put Agreement where (g) in the case of subclause (i) the Replacement Counterparty Procedures are not satisfied within 30 days of the termination of the swaps or (y) in the case of subclause (ii) or (iii) the party entitled to terminate such agreement has exercised such right shall constitute a "Mandatory Redemption".

Upon the occurrence of a Mandatory Redemption other than a Mandatory Redemption caused by a (i) termination of the Credit Default Swap pursuant to which the Protection Buyer is the defaulting party, (ii) termination of the Collateral Put Agreement pursuant to which the Collateral Put Provider is the defaulting party or (iii) termination of the Basis Swap pursuant to which the Basis Swap Counterparty is the defaulting party, the Trustee will liquidate all Eligible Investments and the Issuer or the Trustee will notify the Collateral Disposal Agent to liquidate all Collateral Securities and apply such proceeds as described under "—Priority of Payments—Principal Proceeds—Blotted Maturity, Optional Redemption Date or Mandatory Redemption Date".

In the case of a Mandatory Redemption caused by a (i) termination of the Credit Default Swap pursuant to which the Protection Buyer is the defaulting party, (ii) termination of the Collateral Put Agreement pursuant to which the Collateral Put Provider is the defaulting party or (iii) termination of the Basis Swap pursuant to which the Basis Swap Counterparty is the defaulting party, the Trustee will request that the Collateral Disposal Agent solicit bids for all of the Collateral Securities and take the actions described below.

If the Trustee determines that the expected liquidation proceeds of the Collateral Securities (as advised by the Collateral Disposal Agent) and the Eligible Investments will be an amount equal to or greater than the aggregate of (i) the amounts required to be paid under subclauses (i) through (iii) of "—Priority of Payments—Principal Proceeds—Blotted Maturity, Optional Redemption Date or Mandatory Redemption Date" and (ii) with respect to the Class SS Notes, the Class A Notes, the Class B Notes and
the Class C Notes, the Currency Adjusted Aggregate Outstanding Amount of each Series of such Classes of Notes plus any accrued interest thereon, the Trustee will liquidate the Eligible Investments and will notify the Collateral Disposal Agent to liquidate all Collateral Securities and, thereafter, apply such liquidation proceeds in accordance with the Priority of Payments.

If the Trustee determines that the expected liquidation proceeds of the Collateral Securities (as advised by the Collateral Disposal Agent) and the Eligible Investments cannot be sold in an amount equal to or greater than the aggregate of (i) the amounts required to be paid under subclause (b) of the "Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date" and (ii) with respect to the Class SS Notes, the Class A Notes, the Class B Notes and the Class C Notes, the Currency Adjusted Aggregate Outstanding Amount of each Series of such Classes of Notes plus any accrued interest thereon, the Trustee will notify (such notice, the "Special Termination Notice") Holders of the Class SS Notes, the Class A Notes, the Class B Notes and Class C Notes of such occurrence, (b) that such Noteholders have the following options: (1) with the consent of 100% of such Noteholders, the Issuer will direct the Collateral Disposal Agent to liquidate all Collateral Securities distributable to such Class of Notes pursuant to the Special Termination Liquidation Procedure and (2) if such consent is not obtained, each such Noteholder will have the option of either requesting the Issuer to (A) deliver to it the Collateral Securities distributable to such Noteholder pursuant to the Special Termination Liquidation Procedure or (B) direct the Collateral Disposal Agent to liquidate the Collateral Securities distributable to such Noteholder pursuant to the Special Termination Liquidation Procedure and (c) of the identity of any Collateral Securities distributable to such Noteholder pursuant to the Special Termination Liquidation Procedure.

Each Holder of the Class SS Notes, the Class A Notes, the Class B Notes and the Class C Notes may, within ten Business Days of receipt of a Special Termination Notice, notify (such notice, a "Special Termination Request Notice") the Trustee and the Collateral Disposal Agent at the direction of the Issuer, will follow the procedures described below (such procedure, the "Special Termination Liquidation Procedure") in the event that the Collateral Disposal Agent is unable to sell all Collateral Securities within the specified time period.

(1) the Trustee will liquidate all Eligible Investments;

(2) to the extent the liquidation proceeds of Eligible Investments are insufficient to pay the amounts payable as provided in this subclause, the Collateral Disposal Agent will require the proceeds obtained pursuant to subclause (i) of the "Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date," subject to the Administrative Expense Cap on the Mandatory Redemption Date (and the Issuer shall make such payment), provided, that if more than one Collateral Security has received the highest bid price, the Collateral Disposal Agent will liquidate any of such Collateral Securities that it determines in a commercially reasonable manner would maximize the liquidation proceeds received on all Collateral Securities;

(3) (A) if less than 100% of the Aggregate USD Equivalent Outstanding Amount of the Class SS Notes, the Class A Notes, the Class B Notes and the Class C Notes voting as a single class provide the Trustee with an effective Special Termination Request Notice exercising option (1) under the related Special Termination Notice, the Trustee will cause the remaining

GS MISS-E-001918070
Collateral Securities to be delivered (in the case of the Notes) or liquidated (in the case of amounts owed pursuant to subclause (i) or (ii) of "Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date") through the appropriate settlement method, in descending order of bid level as determined by the Collateral Disposal Agent, in a principal amount subject to any required minimum denomination of such Collateral Security to the extent necessary to satisfy subclauses (1) through (5) below in the following order of priority:

1. first (A) to any parties that are owed any amounts pursuant to subclause (i) or (ii) of "Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date", liquidating proceeds from Collateral Securities with an aggregate par amount equal to any amounts owed pursuant to subclause (i) or (ii) of "Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date" and second (B) to the Holders of each Series of the Class B2 Notes (after giving effect to the payment of any principal of and/or interest on the Class B2 Notes with any remaining proceeds obtained pursuant to subclause (i) and (ii) above), a par amount of Collateral Securities (or, with respect to Collateral Securities denominated in any Approved Currency other than Dollars, the Dollar equivalent of such par amount determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date) equal to the Dollar equivalent principal amount of the Class B2 Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date, plus any accrued and unpaid interest thereon (provided that determination of any pro rata allocations of such payments to any Series of Notes of such Class will be based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date);

2. to the Holders of each Series of the Class A-1 Notes (after giving effect to the payment of any principal of and/or interest on the Class A-1 Notes with any remaining proceeds obtained pursuant to subclause (i) and (ii) above), a par amount of Collateral Securities (or, with respect to Collateral Securities denominated in any Approved Currency other than Dollars, the Dollar equivalent of such par amount determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date) equal to the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date, plus any accrued and unpaid interest thereon (provided that determination of any pro rata allocations of such payments to any Series of Notes of such Class will be based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date);

3. to the Holders of each Series of the Class A-2 Notes (after giving effect to the payment of any principal of and/or interest on the Class A-2 Notes with any remaining proceeds obtained pursuant to subclause (i) and (ii) above), a par amount of Collateral Securities (or, with respect to Collateral Securities denominated in any Approved Currency other than Dollars, the Dollar equivalent of such par amount determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date) equal to the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date, plus any accrued and unpaid interest thereon (provided that determination of any pro rata allocations of such payments to any Series of Notes of such Class will be based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date).
principal amount of such notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date;

(4) to the Holders of each Series of the Class B Notes (after giving effect to the payment of any principal of and/or interest on the Class B Notes with any remaining proceeds obtained pursuant to subclause (b) and (i) above), a par amount of Collateral Securities (or, with respect to Collateral Securities denominated in any Approved Currency other than Dollars the Dollar equivalent of such par amount as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date) equal to the Dollar equivalent principal amount of such notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date, plus any accrued and unpaid interest thereon (provided that determination of any pro rata allocations of such payments to any Series of Notes of such Class will be based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date; and

(5) to the Holders of each Series of the Class C Notes (after giving effect to the payment of any principal of and/or interest on the Class C Notes with any remaining proceeds obtained pursuant to subclause (i) and (j) above), a par amount of Collateral Securities (or, with respect to Collateral Securities denominated in any Approved Currency other than Dollars the Dollar equivalent of such par amount as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date) equal to the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date, plus any accrued and unpaid interest thereon (provided that determination of any pro rata allocations of such payments to any Series of Notes of such Class will be based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date);

provided that if any Holder of the Class SS Notes, the Class A Notes, the Class B Notes or the Class C Notes has selected option (2)(B) in the related Special Termination Request Notice, the Trustee will, in lieu of distributing the relevant principal amount of Collateral Securities to such Noteholder pursuant to this subclause (A), notify the Collateral Disposal Agent which will liquidate the Collateral Securities deliverable to such Noteholders and the Trustee will pay the proceeds thereof to such Noteholder on the Mandatory Redemption Date (or, if such proceeds are denominated in an Approved Currency other than the Approved Currency in which such Holder’s Notes are denominated, the Trustee will enter a currency exchange on behalf of the Issuer and pay such Holder in the Approved Currency in which such Holders Notes are denominated), and

(6) if 100% of the Aggregate USD Equivalent Outstanding Amount of the Class SS Notes, the Class A Notes, the Class B Notes and the Class C Notes voting as a single class provide the Trustee with an effective Special Termination Request Notice exercising option (1) under the Special Termination Notice, the Trustee will notify the Collateral Disposal Agent which will liquidate the Collateral Securities distributable to such Noteholders and as payments (in the case of amounts owed pursuant to subclause (b) or (i) ofPriority of Payments—Principal Proceeds—Mandatory Liquidation, Optional Redemption Date or Mandatory Redemption Date and apply the liquidation proceeds of the Collateral Securities distributable to such Noteholders (after giving consideration to any currency exchange, if necessary) and as payments (in the case of amounts owed pursuant to subclause (b) or (i) ofPriority of Payments—Principal Proceeds—
Footnote Exhibits - Page 4861

Stated Maturity, Optional Redemption Date or Mandatory Redemption Date") in the same priority as described in subclause (A) above; and

(iv) the Issuer will instruct the Collateral Disposal Agent to liquidate the remaining Collateral Securities and the liquidation proceeds thereof will be distributed in accordance with subclause (iv) with respect to the Class O Notes and Class PL Notes only (provided that determination of any pro rata allocations of such payments with respect to any Series of Notes of such Class will be based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date) (after giving consideration to any currency exchange, if necessary) through (iv) of the "Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date".

On the earliest of the Credit Default Swap Early Termination Date, the Basis Swap Early Termination Date and/or the Collateral Put Agreement Early Termination Date (the "Mandatory Redemption Date"), the Trustee shall apply Principal Proceeds in accordance with "Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date". Notwithstanding any provision to the contrary contained herein, even if there will be insufficient proceeds on the Mandatory Redemption Date to repay the Currency Adjusted Aggregate Outstanding Amount of each Series of Notes (plus accrued and unpaid interest), the Notes will be deemed to have been paid in full so long as (i) funds are properly applied in accordance with the Priority of Payments and/or (ii) funds and/or Collateral Securities are properly applied and/or distributed as described above on such Mandatory Redemption Date.

Payments

Payments in respect of principal and interest on a Note will be made to the person in whose name the relevant Note is registered on the applicable record date. Payments on the Notes will be payable by wire transfer in immediately available funds to an account maintained by DTC or its nominee (in the case of the Global Notes) or each Noteholder (in the case of Individual definitive Notes) to the extent payable or otherwise by check drawn on a bank sent by mail either to DTC or its nominee (in the case of the Global Notes), or to each Holder of a Note at the Notepooler's address appearing in the applicable register (in the case of individual definitive Notes).

Final payments in respect of principal of the Notes will be made only against surrender of the Notes, at the office of any paying agent. None of the Issuers, the Trustee or any paying agent will have any responsibility or liability for any aspects of the records maintained by DTC or its nominee or any of its participants relating to, or for payments made thereby on account of beneficial interests in, a Global Note.

The Issuers expect that DTC or its nominee, upon receipt of any payment of principal or interest in respect of a Global Note held by DTC or its nominee, will immediately credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in such Global Note as shown on the records of DTC or its nominee. The Issuers also expect that payments by participants to owners of beneficial interests in such Global Notes held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

For so long as the Notes are listed on any stock exchange and the rules of such exchange so require, the Issuers will have a listing agent, a paying agent and a transfer agent (which shall be the "Listing, Paying and Transfer Agent") for the Notes and will give prompt written notice to such Holder of the appointment, termination or change in the location of any such office or agency.
Priority of Payments

The Issuer will only make payments, subject to the final paragraph under "Summary—Decrease in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes", in accordance with priorities described below under "(i) Interest Proceeds," "(ii) Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date" and "(iii) Principal Proceeds—Other Payment Dates" (collectively, the "Priority of Payments").

(i) Interest Proceeds.

On each Payment Date, the Optional Redemption Date, the Mandatory Redemption Date and/or the Stated Maturity, Interest Proceeds will be applied in the following order of priority:

(i) to the payment of Administrative Expenses, which, with respect to the sum of these amounts listed in subclauses (b), (c) and (d) of the definition of "Administrative Expenses," will be subject to the Administrative Expense Cap;

(ii) to the payment to the Portfolio Selection Agent of any accrued but unpaid Portfolio Selection Fees in accordance with the terms of the Portfolio Selection Agreement;

(iii) to the payment of the Basis Swap Payment and (b) thereafter, to the payment of the Collateral Put Provider Fee Amount;

(iv) to the payment of the Class Interest Distribution Amounts of each Class of Notes in sequential order of priority by Class; provided that, to the extent there are insufficient proceeds to pay all amounts payable under this clause (iv) with respect to a Class with more than one Series Outstanding at such time of determination, any prorata allocations of such payments with respect to any Series of Notes of such Class will be based on the Aggregate USD Equivalent Outstanding Amount of each such Series; provided, further, that with respect to each Class of the Issuer Notes, such payment will be made to the Issuing and Paying Agent, for distribution to the Holders of such Class of Notes;

(v) to the payment of any Administrative Expenses not covered in subclause (i) above; and

(vi) the balance of Interest Proceeds (if any) will be distributed to the Protection Buyer.

In addition, if the Issuer purchases a Supplemental Collateral Security at the direction of the Protection Buyer, the Issuer may use Interest Proceeds on any Business Day to pay for the portion of the purchase price of a Supplemental Collateral Security constituting accrued and unpaid interest thereon (such amount, the "Purchased Accrued Interest Amount").

To the extent there is a sufficient amount of Interest Proceeds in each Approved Currency, the Trustee shall use Interest Proceeds in each such Approved Currency to make payments described in this section, provided that no payment is made toward any item until all higher ranking items have been paid in full.

If on any Determination Date (or, in connection with a Mandatory Redemption Date, the third Business Day immediately prior to such Mandatory Redemption Date) the Issuer determines that there would be an insufficient amount of Interest Proceeds in any Approved Currency on the related Payment Date or the Mandatory Redemption Date, as the case may be, to make the payments described in clauses (i) through (v) above, then the Issuer shall provide for the relevant items by exchanging any excess Interest Proceeds (as determined by the Protection Buyer after giving effect to the application of Interest Proceeds to make all payments of a higher priority) in any Approved Currency for proceeds in

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918061
such other Approved Currency for which such shortfall existed at the relevant Spot FX Rate determined on such Determination Date (or, in connection with a Mandatory Redemption Date, the third Business Day immediately prior to such Mandatory Redemption Date), provided that to the extent there would be insufficient Interest Proceeds after giving effect to any such exchange to make all payments required under clause (iv) above with respect to any Class in which Notes are denominated in more than one Approved Currency, such distributions shall be made pro rata to Holders of such Class based on the Aggregate USD Equivalent Outstanding Amount of each Series of such Class (or, in connection with a Mandatory Redemption Date, pro rata to Holders of such Class based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date).

Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date.

On the Stated Maturity of any Series of Notes, the Optional Redemption Date or the Mandatory Redemption Date, as the case may be, Principal Proceeds (together with, in the case of the Optional Redemption Date, any End Payment) will be apportioned, subject to the provisions described under "Mandatory Redemption", in the following order of priority:

(i) (a) to the payment of amounts referred to in subclause (i) and (ii) of "Interest Proceeds" above, but only to the extent not paid in full thereunder and then (ii) in connection with an Optional Redemption in Whole, to the payment to the Portfolio Selection Agent of any Make-Whole Amount pursuant to the Portfolio Selection Agreement;

(ii) to the payment of all amounts due to the Basis Swap Counterparty pursuant to the terms of the Basis Swap, other than a Basis Swap Counterparty Default Termination Payment (including, for the avoidance of doubt, any Basis Swap Payment not paid in full under subclause (i)(ii) of "Interest Proceeds" above);

(iii) (a) in the payment of all amounts due to the Collateral Put Provider pursuant to the terms of the Collateral Put Agreement, and (b) thereafter, in the case of the Stated Maturity of any Series of Notes, the Optional Redemption Date or the Mandatory Redemption Date (other than in connection with a Collateral Default), to the payment of all amounts due to the Protection Buyer pursuant to the terms of the Credit Default Swap, other than a Protection Buyer Default Termination Payment;

(iv) (x) to the payment of amounts referred to in subclause (i) of "Interest Proceeds" above, but only to the extent not paid in full thereunder and then

(b) (1) in the case of the Stated Maturity of any Series of Notes, (a) to the payment of the Currency Adjusted Aggregate Outstanding Amount of each Series of Notes maturing on such date, at par, in each case, pursuant to the Note Payment Sequence (but only with respect to Classes in which any Series of Notes matures on such date) (provided that in each case determination of any pro rata allocations of such payments within any Class issued in more than one Series maturing on such date will be based on the Aggregate USD Equivalent Outstanding Amount of each Series of Notes and (b) if the Redemption Withdrawal Refund received is received by the Issuer in connection with such Stated Maturity to the payment, from any available Redemption Withdrawal Refund only, of an amount equal to the ICE Currency Adjusted Aggregate Outstanding Amount Differential of each Series for which a Redemption Withdrawal Refund has been computed, in each case pursuant to the Note Payment Sequence (but only with respect to Classes in which a Series of Notes with an ICE Currency Adjusted Aggregate Outstanding Amount Differential greater than zero matures on such date), provided that in each case determination of any pro rata allocations of such...
payments within any Class issued in more than one Series maturing on such date with ICE Currency Adjusted Aggregate Outstanding Amount Differentials greater than zero will be based on the Aggregate USD Equivalent Outstanding Amount of such Notes; or

(2) in the case of the Optional Redemption Date, to the payment of the Currency Adjusted Aggregate Outstanding Amount of the Notes, at par, pursuant to the Note Payment Sequence, provided that in each case determination of any pro rata allocations of such payments within any Class issued in more than one Series will be based on the Aggregate USD Equivalent Outstanding Amount of such Notes plus, in the limited circumstances as described in “Optional Redemption in Whole and Partial Optional Redemption”, with respect to any Reversible Loss Series, the Optional Redemption Reimbursement Amount, or

(3) in the case of a Mandatory Redemption (other than in connection with a Collateral Default), (A) to the payment of the Currency Adjusted Aggregate Outstanding Amount of the Notes, at par, pursuant to the Note Payment Sequence, provided that in each case determination of any pro rata allocations of such payments within any Class issued in more than one Series will be based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date and (B) if a Redemptionウィットダウン Refund is received by the Issuer in connection with such Mandatory Redemption to the payment, from any available Redemptionウィットダウン Refund only, of an amount equal to the ICE Currency Adjusted Aggregate Outstanding Amount Differential of each Series for which a Redemptionウィットダウン Refund has been calculated, in each case pursuant to the Note Payment Sequence, provided that in each case determination of any pro rata allocations of such payments within any Class issued in more than one Series being redeemed on such date in connection with such Mandatory Redemption with ICE Currency Adjusted Aggregate Outstanding Amount Differentials greater than zero will be based on the Dollar equivalent of such Notes (calculated using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date);

(4) in the case of the Mandatory Redemption Date in connection with a Collateral Default, in the following priority: (A) first to the payment, pro rata, of all amounts due to the Protection Buyer pursuant to the terms of the Credit Default Swap, other than a Protection Buyer Default Termination Payment and (B) pro rata to the payment of the Currency Adjusted Aggregate Outstanding Amount of the Class SG Notes, the Class A-1 Notes and the Class A-2 Notes, at par, not to exceed, in the case of this subclause (A), $400,000,000 (such limit to be determined, with respect to subclause (A)(ii), based on the Dollar equivalent of such amounts paid (calculated using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date), (B) second to the payment, pro rata, of the remaining Currency Adjusted Aggregate Outstanding Amount of the Class SG Notes, Class A-1 Notes and Class A-2 Notes, at par, after giving effect to subclause (A)(ii), (C) third to the payment of all remaining amounts due to the Protection Buyer pursuant to the terms of the Credit Default Swap, other than a Protection Buyer Default Termination Payment, such amount not to exceed the Currency Adjusted Aggregate Outstanding Amount of the Notes immediately prior to the distribution of Principal Proceeds on such Payment Date less amounts paid under subclause (A)(ii) and (D) fourth with respect to the Class B Notes, the Class C Notes, the Class D Notes and the Class FL Notes, to the payment of the Currency Adjusted
Footnote Exhibits - Page 4865

Aggregate Outstanding Amount of each Series of such Class of Notes, at par, in accordance with the Note Payment Schedule, provided that in each case determination of any pro rata allocations of such payments within any Class issued in more than one Series will be based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date; provided, further, that with respect to each Class of Issuer Notes, any such payment will be made to the Issuing and Paying Agent, for payment to the Holders of such Class of Notes;

(v) to the payment of the Basis Swap Counterparty Default Termination Payment, if any;

(vi) to the payment of the Protection Buyer Default Termination Payment, if any;

(vii) to the payment of any Administrative Expenses not covered in subclause (i) above;

(viii) on the Stated Maturity of any Series of Notes other than the final Stated Maturity with respect to any Series of Notes, for reinvestment in Collateral Securities at the direction of the Protection Buyer and, pending such reinvestment, to be invested in Eligible Investments;

(ix) the balance of Principal Proceeds (if any) will be distributed to the Protection Buyer.

To the extent there is a sufficient amount of Principal Proceeds in each Approved Currency, the Trustee shall use Principal Proceeds in each such Approved Currency to make payments described in this section, provided that no payment is made toward any item until all higher ranking items have been paid in full.

If on any Determination Date (or, in connection with a Mandatory Redemption Date, as of the third Business Day immediately prior to such Mandatory Redemption Date) the Issuer determines that there would be an insufficient amount of Principal Proceeds in any Approved Currency on the related Payment Date or the Mandatory Redemption Date, as the case may be, to make the payments described in clauses (i) through (vii) above, then the Issuer shall provide for the relevant items by exchanging any excess Principal Proceeds (as determined by the Protection Buyer after giving effect to the application of Principal Proceeds to make all payments of a higher priority in the Priority of Payments) in any Approved Currency for proceeds in such other Approved Currency for which such shortfall existed at the relevant Spot FX Rate determined on such Determination Date (or, in connection with a Mandatory Redemption Date, as of the third Business Day immediately prior to such Mandatory Redemption Date); provided, to the extent there would be insufficient Principal Proceeds after giving effect to any such exchange to make all payments required under clause (ix) above with respect to any Class in which Notes are denominated in more than one Approved Currency, such shortfall shall be borne pro rata by Holders of such Class based on the Dollar equivalent principal amount of such Notes as determined using the Spot FX Rate as of the Determination Date (or, in connection with a Mandatory Redemption Date, as of the third Business Day immediately prior to such Mandatory Redemption Date).

Principal Proceeds—Other Payment Dates

On each Business Day other than the Stated Maturity of any Series of Notes, the Optional Redemption Date or the Mandatory Redemption Date, Principal Proceeds (together with, in the case of any Partial Optional Redemption Date, any Partial Optional Redemption End Payment) will be applied in the following order of priority:

(i) on a Credit Default Swap Settlement Date, to the payment of all Cash Settlement Amounts payable on such date, provided that Principal Proceeds representing Put

Confidential Treatment Requested by Goldman Sachs

GS M85-E-001918086
Proceeds shall not be applied to the payment of any amount described in this subsection (i): 

(ii) on the Payment Date immediately following the Due Period in which a Reference Obligation Amortization Amount is determined by the Credit Default Swap Calculation Agent, if any Collateral was liquidated to pay any Currency Adjusted Notional Principal Adjustment Amount on such date relating to any such Reference Obligation Amortization Amount, to the payment of the principal of the Notes, at par, of the Currency Adjusted Notional Principal Adjustment Amounts allocable on such date, pursuant to the Note Payment Sequence, provided that, for the avoidance of doubt, with respect to a Class with more than one Series Outstanding at such time of determination, any pro rata allocations made pursuant to this subclause will be based on the Aggregate USD Equivalent Outstanding Amount of each Series of such Class;

(iii) on each Partial Optional Redemption Date and with respect to the Notes to be redeemed on such date, is the payment of principal of such Notes, at par, in accordance with the Note Payment Sequence; provided that, for the avoidance of doubt, with respect to a Class with more than one Series Outstanding being redeemed at such time of determination (including but not limited to, the redemption of an entire Series and the redemption of Protection Buyer Notes), any pro rata allocations made pursuant to this subclause between Notes of any such Class being redeemed will be based on the Aggregate USD Equivalent Outstanding Amount of such Notes of such Class being redeemed at such time of determination; plus, in the limited circumstances as described in "Optional Redemption in Whole and Partial Optional Redemption", with respect to any Reverse Collar Series, the Optional Redemption Reimbursement Amount; and

(iv) for reinvestment in Collateral Securities at the discretion of the Protection Buyer and, pending such reinvestment, to be invested in Eligible investments.

To the extent there is a sufficient amount of Principal Proceeds in each Approved Currency, the Trustee shall use Principal Proceeds in each such Approved Currency to make payments described in this subclause; provided that no payment is made toward any item until all higher ranking items have been paid in full.

If on any Determination Date the Issuer determines that there would be an insufficient amount of Principal Proceeds in any Approved Currency on the related Payment Date, then the Issuer shall provide for the relevant items by exchanging any excess Principal Proceeds (as determined by the Protection Buyer after giving effect to the application of Principal Proceeds to make all payments of a higher priority in the Priority of Payments) in any Approved Currency for proceeds in such other Approved Currency (for which such shortfall existed at the relevant Spot FX Rate determined on such Determination Date; provided that to the extent there would be insufficient Principal Proceeds after giving effect to any such exchange to make all payments required under clause (i) above with respect to any Class in which Notes are denominated in more than one Approved Currency, such shortfall shall be borne pro rata by holders of such Class based on the Aggregate USD Equivalent Outstanding Amount of such Notes in each such Approved Currency.

Form of the Notes

Each Class of Notes sold in offshore transactions in reliance on Regulation S will be represented by one or more Regulation S Global Notes deposited with the Trustee or the Issuing and Paying Agent, as applicable, as custodian for DTC and registered in the name of DTC, for the respective accounts of Euroclear and Clearstream. Interests in a Regulation S Global Note may be held only through Euroclear or Clearstream.
Each Class of Notes sold in reliance on Rule 144A under the Securities Act will be represented by one or more Rule 144A Global Notes deposited with the Trustee or the Issuing and Paying Agent, as applicable, as custodian for DTC and registered in the name of Cede & Co., as nominee of DTC.

The Notes will be subject to certain restrictions on transfer as set forth under "Transfer Restrictions".

Any interest in one of the Regulation S Global Notes and the Rule 144A Global Notes that is transferred to a person who takes delivery in the form of an interest in the other Global Note will, upon transfer, cease to be an interest in such Global Note and become an interest in the other Global Note and, accordingly, will thereafter be subject to all transfer restrictions and other procedures applicable to beneficial interests in such other Global Note for as long as it remains such interest.

Except in the limited circumstances described herein, owners of beneficial interests in either the Regulation S Global Notes or the Rule 144A Global Notes will not be entitled to receive physical delivery of certificated Notes. The Notes are not issuable in bearer form.

The Indenture

The following summary describes certain provisions of the Indenture. The summary does not purport to be complete and is subject to, and qualified in its entirety by reference to, the provisions of the Indenture.

Events of Default. An "Event of Default" is defined in the Indenture as:

(i) a default in the payment of principal on any Note at its Stated Maturity or the Optional Redemption Date;

(ii) the failure on any Payment Date to disburse amounts available in the Payment Account in accordance with the Priority of Payments and continuation of such failure for a period of ten Business Days;

(iii) a circumstance in which either of the Issuers or the Issuer Assets becomes an investment company required to be registered under the Investment Company Act;

(iv) a default in the performance, in a material respect, or breach, in a material respect, of any covenant, representation, warranty or other agreement of the Issuers in the Indenture (other than a covenant or agreement which is specifically addressed elsewhere herein) or in any certificate or other writing delivered pursuant thereto or in connection therewith or if any representation or warranty of the Issuers in the Indenture, the Issuing and Paying Agency Agreement or in any certificate or other writing delivered pursuant thereto proves to be incorrect in any material respect when made, and the continuance of such default or breach for a period of 30 days after written notice thereof shall have been given to the Issuers and the Portfolio Selection Agent by the Trustee or the Issuing and Paying Agent, as applicable, or to the Issuers, the Portfolio Selection Agent, the Trustee and the Issuing and Paying Agent by the Holders of at least 25% of the Aggregate USD Equivalent Outstanding Amount of the Notes, specifying such default, breach or failure and requiring it to be remedied and stating that such notice is a "Notice of Default" under the Indenture or the Issuing and Paying Agency Agreement, as applicable;

(v) the entry of a decree or order by a court having competent jurisdiction adjudging either of the Issuers as bankrupt or insolvent or granting an order for relief or approving as properly filed a petition seeking reorganization, arrangement, adjustment or composition
of or in respect of either of the Issuers under the Bankruptcy Code, the bankruptcy or insolvency laws of the Cayman Islands or any other applicable law, or appointing a receiver, liquidator, assignee, or sequestrator (or other similar official) of either of the Issuers or of any substantial part of its property, or ordering the winding up or liquidation of its affairs, or an involuntary case or proceeding shall be commenced against either of the Issuers seeking any of the foregoing and such case or proceeding shall continue in effect for a period of 60 consecutive days, or

(v) the institution by either of the Issuers of proceedings to be adjudicated as bankrupt or insolvent, or the consent by it to the institution of bankruptcy or insolvency proceedings against it, or the filing by either of the Issuers of a petition or answer or consent seeking reorganization or relief under the Bankruptcy Code, the bankruptcy and insolvency laws of the Cayman Islands or any other applicable law, or the consent by it to the filing of any such petition or to the appointment of a receiver, liquidator, assignee, trustee or sequestrator (or other similar official) of either of the Issuers or of any substantial part of its property, or the making by it of an assignment for the benefit of creditors, or the admission by it in writing of its inability to pay its debts generally as they become due, or the taking of any action by either of the Issuers in furtherance of any such action.

If an Event of Default shall have occurred and be continuing, the Trustee by notice to the Issuers at the direction of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class, may, subject to the Indenture, declare the principal of and accrued and unpaid interest on all the Notes to be immediately due and payable (except that, in the case of an Event of Default described in subclause (v) or (vi) above, such an acceleration will occur automatically and shall not require any action by the Trustee or any Noteholder).

At any time after such a declaration of acceleration of maturity has been made and before a judgment or decree for payment of the money due has been obtained by the Trustee as provided in accordance with the terms of the Indenture, a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class, by written notice to the Issuers and the Trustee or the Issuing and Paying Agent, as applicable, may rescind and annul such declaration and its consequences if

(i) the Issuer or the Co-Issuer has paid or deposited with the Trustee a sum sufficient to pay, and shall pay:

(A) all overdue installments of interest on and principal of the Notes (other than amounts due solely as a result of such acceleration);

(B) to the extent that payment of such interest is lawful, interest upon any Defaulted Interest at the applicable Series Interest Rate;

(C) all unpaid taxes and Administrative Expenses and other sums paid or advanced by the Trustee hereunder and the reasonable compensation, expenses, disbursements and advances of the Trustee and its agents and counsel; and

(D) all unpaid Portfolio Selection Fees;

(ii) the Trustee has determined that all Events of Default, other than the non-payment of the interest on or principal of Notes that have become due solely by such acceleration, have been cured and a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class by written notice to the Trustee or the Issuing and Paying Agent, as applicable, has agreed with such determination or waived such Event of Default as provided in the Indenture; and

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918089
Footnote Exhibits - Page 4869

(i) each of the Credit Default Swap, the Basis Swap, the Collateral Put Agreement and the Collateral Disposal Agreement has not been terminated or any such termination has been rescinded.

If an Event of Default should occur and be continuing, the Trustee will make payments to the Holders of the Notes only in the manner described in "Description of the Notes—Priority of Payments", except that if acceleration has occurred in accordance with the terms of the Indenture, or if a Payment Default has occurred and has not been cured, or waived, no interest shall be payable on any Class of Notes until the Currency Adjusted Aggregate Outstanding Amount of each Series of all Classes of Notes that are senior to such Class, if any, have been repaid in full.

If an Event of Default should occur and be continuing, the Trustee will retain the Issuer Assets securing the Notes intact and continue making payments in the manner described above under "—Priority of Payments" unless:

(j) the Trustee determines that the anticipated proceeds of a sale or liquidation of the Collateral (after deducting the reasonable expenses of such sale or liquidation) would be sufficient to discharge in full the aggregate of the amounts referred to in subclause (b) through (d) of "Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date" and a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class agrees with such determination; or

(k) the Holders of at least 66 2/3% of the Aggregate USD Equivalent Outstanding Amount of each Class of Notes (voting separately by Class), subject to the provisions of the Indenture, direct the sale and liquidation of the Collateral.

As soon as practicable following the occurrence of either condition specified in subclause (j) or (k) above, the Trustee will liquidate all Eligible Investments and the Issuer or the Trustee shall notify the Collateral Disposal Agent to liquidate all Collateral Securities.

A Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class will have the right to direct the Trustee in conducting any proceedings or in the sale of any or all of the Collateral, but only if (i) such direction will not conflict with any rule of law or the Indenture and (ii) the Trustee determines that such action will not involve it in liability (unless the Trustee has, in its opinion, received satisfactory indemnity against any such liability).

Pursuant to the Indenture, as security for the payment by the Issuer of the compensation and expenses of the Trustee and any sums the Trustee may be entitled to receive as indemnification by the Issuer, the Issuer has granted the Trustee a senior lien on the Issuer Assets, which is senior to the lien of the Holders of the Notes on the Issuer Assets. The Trustee's lien is exercisable by the Trustee only if the Notes have become due and payable following an Event of Default.

Subject to the provisions of the Indenture relating to the duties of the Trustee, in the event that an Event of Default with respect to the Notes occurs and is continuing, the Trustee is under no obligation to exercise any of the rights or powers under the Indenture at the request of any Holders of Notes, unless such Holders have offered to the Trustee reasonable security or indemnity in the opinion of the Trustee.

A Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class may, in certain cases, waive any default with respect to such notes, except (a) a default specified in subclause (j), (k), (l) or (m) of the definition of "Events of Default" or (b) a default in respect of a covenant or provision of the Indenture that cannot be modified or amended without the waiver or consent of the Holder of each Outstanding Note adversely affected thereby.
Footnote Exhibits - Page 4870

No Holder of a Note will have the right to institute any proceeding with respect to the Indenture unless (i) such Holder previously has given to the Trustee or the Issuing and Paying Agent, as applicable, written notice of a continuing Event of Default; (ii) except in the case of a default in the payment of principal, the Holders of at least 25% of the Aggregate USD Equivalent Outstanding Amount of the Notes have given a written request upon the Trustee to institute such proceeding in its own name as Trustee and such Holders have offered the Trustee reasonable indemnity; (iii) the Trustee has for 30 days failed to institute any such proceeding; and (iv) no direction inconsistent with such written request has been given to the Trustee or the Issuing and Paying Agent, as applicable, during such 30-day period by a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class.

See "Glossary of Defined Terms—Outstanding" for determining whether the Holders of the requisite percentage of Notes have given any direction, notice or consent.

Notices. Notices to the Holders of the Notes shall be given by first class mail, postage prepaid, to each Holder at the address appearing in the Note Register or the issuer Note Register, as applicable. In addition, for so long as any Series of Notes is listed on any stock exchange and the rules of such stock exchange so require, notice given to the Holders of any such Series of Notes shall also be given to the stock exchange in accordance with its procedures.

Modification of Indenture. The Issuers and the Trustee may also enter into one or more supplemental indentures, without obtaining the consent of Holders of the Notes, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent or the Portfolio Selection Agent (x) so long as the S&P Rating Condition and the Moody's Rating Condition have been satisfied and if such supplemental indenture would have no materially adverse effect on any of the Holders of the Notes, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent (as evidenced by an opinion of counsel or an officer's certificate of the Issuer) or the Portfolio Selection Agent or (y) for any of the following purposes:

(i) to evidence the succession of any person to either the Issuer or Co-Issuer and the assumption by any such successor of the covenants of the Issuer or Co-Issuer in the Notes and the Indenture;

(ii) to add to the covenants of the Issuer or the Trustee for the benefit of the Holders of the Notes or to surrender any right or power conferred upon the Issuer;

(iii) to convey, transfer, assign, mortgage or pledge any property to or with the Trustee, or add to the conditions, limitations or restrictions on the authorized amount, terms and purposes of the issue, authentication and delivery of the Notes;

(iv) to evidence and provide for the acceptance of appointment by a successor trustee and to add to or change any of the provisions of the Indenture as shall be necessary to facilitate the administration of the trusts under the Indenture by more than one Trustee;

(v) to correct or amplify the description of any property at any time subject to the lien of the Indenture, or to correct, amplify or otherwise improve upon any pledge, assignment or conveyance to the Trustee of any property subject to or required to be subject to the lien of the Indenture (including, without limitation, any and all actions necessary or desirable as a result of changes in law or regulations) or subject to the lien of the Indenture any additional property;

(vi) subject to clause (xx) below, to modify the restrictions on and procedures for resales and other transfers of Notes to reflect any changes in applicable law or regulation or the interpretation thereof or to enable the Co-Issuers to rely upon any exemption therefrom.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918091
registration under the Securities Act or the Investment Company Act or to remove restrictions on resale and transfer to the extent not required thereunder;

(vii) to otherwise correct any inconsistency, mistake or cure any ambiguity (a) arising under the indenture or (b) in connection with the final offering circular or any other transaction document;

(viii) to take any action necessary or advisable to prevent the Issuer or the Trustee from becoming subject to withholding or other taxes, fees or assessments or to prevent the Issuer from being treated for United States federal income tax purposes as engaged in a United States trade or business or otherwise being subject to United States federal, state or local income tax on a net income basis;

(ix) to facilitate the issuance of additional Notes of any Class pursuant to the Indenture or the Issuing and Paying Agency Agreement, as applicable;

(x) to modify certain representations and warranties relating to the Trustee’s security interest in the Issuer Assets in order to maintain or strengthen security interests in response to changes in applicable law or regulation (or the interpretation thereof) relating thereto;

(xi) to facilitate the listing of any of the Notes on any exchange;

(xii) to facilitate the issuance of combination securities or other similar securities;

(xiii) to change the minimum denomination of the Notes; or

(xiv) to modify the applicable ERISA restrictions on and procedures for resales and other transfers of Notes to reflect any changes in applicable law or regulation (or the interpretation thereof) upon the receipt by the Issuer and the Trustee of satisfactory evidence, which may include an opinion of counsel, that such modified restrictions and/or modified procedures for resales and transfers are in compliance with applicable ERISA requirements.

The Trustee shall, consistent with the written advice of counsel, in its discretion determine whether or not the Holders of Notes, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent or the Portfolio Selection Agent would be materially adversely affected by any supplemental indenture (after giving notice of such change to the Holders of Notes, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and the Portfolio Selection Agent), and such determination shall be conclusive on all present and future Holders.

With the consent of a Majority of the Applicable USD Equivalent Outstanding Amount of Notes of each Class of Notes materially and adversely affected thereby, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent or the Portfolio Selection Agent, as the case may be, the Trustee and the Issuers may execute a supplemental indenture to add provisions to, or change in any manner or eliminate any provisions of, the Indenture or modify in any manner the rights of the Holders of the Notes, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and the Portfolio Selection Agent, provided that, without the consent of each Holder of each Outstanding Note of each Class (or, in the case of subclause (i), each Series) materially adversely affected thereby no supplemental indentures may be entered into which:

(i) change the Stated Maturity of any Note, or the date on which any installment of principal or interest on any Note is due and payable, reduce the principal amount of any Note or
the Series Interest Rate or the redemption price with respect to any Note, change the
eallest specified date on which any Note may be redeemed, change the provisions of
the Indenture for the application of Proceeds of any Issuer Assets to the payment of
principal of or interest on the Notes or change any place where, or the coin or currency in
which, any Note or the principal thereof or interest thereon is payable, or impair the right
to institute suit for the enforcement of any such payment on or after the Stated Maturity
thereof or, in the case of a redemption of a Note, on or after the Optional Redemption
Date, the applicable Partial Optional Redemption Date or the Mandatory Redemption
Date),

(i) reduce the percentage of the Aggregate USD Equivalent Outstanding Amount of Notes of
each Class whose consent is required for the authorization of any such supplemental indenture, or the consent of the Holders of which is required for any
waiver of compliance with certain provisions of the indenture or certain defaults
thereunder and their consequences;

(ii) impair or adversely affect the Issuer Assets except as otherwise permitted by the
Indenture;

(iv) except as expressly provided in the indenture and other than the lien of the Indenture,
permit the creation of any lien with respect to any part of the Issuer Assets or terminate
such lien on any property at any time subject thereto or deprive the Holder of any Note or
the Trustee of the security afforded by the lien of the Indenture;

(v) reduce the percentage of Holders of the Notes of each Class whose consent is required to
request the Trustee to preserve the Issuer Assets or rescind the Trustee's election to
preserve the Issuer Assets or to sell or liquidate the Issuer Assets pursuant to the
Indenture;

(vi) modify any of the provisions of the Indenture with respect to any supplemental indenture
except to increase the percentage of the Aggregate USD Equivalent Outstanding
Amount of Notes whose Holders' consent is required for any such action or to provide
that other provisions of the indenture cannot be modified or waived without the consent
of the Holder of each Outstanding Note adversely affected thereby;

(vii) modify the definition in the indenture of the term "Outstanding";

(viii) modify any of the provisions of the Indenture in such a manner as to (i) affect the
calculation of the amount of any payment of interest on or principal of any Note or (ii)
affect the right of the Holders of the Notes to the benefit of any provisions for the
redemption of the Notes contained therein;

(ix) amend any provision of the indenture or any other agreement entered into by the Issuer
with respect to the transactions contemplated thereby relating to the institution of
proceedings for the Issuer or the Co-Issuer to be adjudicated as bankrupt or insolvent, or
the consent of the Issuer or the Co-Issuer to the institution of bankruptcy or insolvency
proceedings against it, or the filing with respect to the Issuer or the Co-Issuer of a
petition or answer or consent seeking reorganization, arrangement, moratorium or
liquidation proceedings, or other proceedings under the Bankruptcy Code or any similar
laws, or the consent of the Issuer or the Co-Issuer in the filing of any such petition or the
appointment of a receiver, liquidator, assignee, trustee or conservator (or other similar
official) of the Issuer or the Co-Issuer or any substantial part of its property, respectively;

Confidential Treatment Requested by Goldman Sachs

GS M9S-E-001918093
(a) amend any limited recourse provision of the indenture or any limited recourse provision of any other agreement entered into by the Issuer with respect to the transactions contemplated hereby (which limited recourse provision provides that the obligations of the Issuer are limited recourse obligations of the Issuer payable solely from the Issuer Assets in accordance with the terms of the indenture).

The Trustee shall, consistent with the written advice of counsel, in its discretion determine whether or not the Holders of the Notes, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent or the Portfolio Selection Agent would be adversely or materially adversely affected by any supplemental indenture (after giving notice of such charge to the Holders of the Notes, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and the Portfolio Selection Agent), and such determination shall be conclusive on all present and future Holders.

Unless the Portfolio Selection Agent has been given prior written notice of such amendment and has consented thereto in writing, no supplemental indenture may (1) affect the obligations or rights of the Portfolio Selection Agent including, without limitation, expanding or restricting the Portfolio Selection Agent's rights or obligations or (2) affect the amount, timing or priority of any fees payable to the Portfolio Selection Agent under the Portfolio Selection Agreement and the Indenture.

Under the Indenture, the Trustee will, for so long as the Notes are Outstanding and rated by the Rating Agencies, deliver a copy of any proposed supplemental indenture to the Rating Agencies not later than (i) 10 Business Days prior to the execution of such proposed supplemental indenture if such proposed supplemental indenture requires the S&P Rating Condition and the Moody's Rating Condition to be satisfied or (ii) at any time prior to the execution of such proposed supplemental indenture if such proposed supplemental indenture does not require the S&P Rating Condition or the Moody's Rating Condition to be satisfied, and no such supplemental indenture shall be entered into unless the S&P Rating Condition and the Moody's Rating Condition have been satisfied (other than a supplemental indenture entered into in accordance with clause (a) of the first paragraph of this section).

Notwithstanding anything to the contrary herein, any such supplemental indenture shall not alter the characterization of the Co-Issued Notes as debt for United States federal income tax purposes.

Additional Issuance. With respect to the Co-Issued Notes, a Series of any such Class may be issued from time to time following the Closing Date. Such additional issuance of such Series must satisfy the following conditions:

(a) the proceeds from any such additional issuance shall be used by the Issuer to purchase Collateral Securities at the direction of the Protection Buyer in a principal amount not less than the principal amount of such additional issuance or, pending such investment, deposited in the Principal Collection Account and invested in Eligible Investments; provided that the Collateral Securities and Eligible Investments purchased with the proceeds of such additional issuance will be denominated in the same Approved Currency in which such additional Series is denominated;

(b) the sum of the proceeds received from the issuance of such Series plus any Additional Issuance Upfront Payment received by the Issuer from the Protection Buyer in connection with such additional issuance must equal the principal amount of such Notes;

(c) the terms (other than the date of issuance, the Series Interest Rate, the Approved Currency in which such Notes are denominated, the Stated Maturity, the Non-Call Period, and the date from which interest will accrue) of any Series of Notes will be identical to the terms of any previously issued Notes of the relevant Class of such Series, if any.
Footnote Exhibits - Page 4874

(d) the Protection Buyer must notify the Rating Agencies of such additional issuance prior to such additional issuance;

(e) the S&P Rating Criteria and the Moody's Rating Criteria must be satisfied; and

(f) if the additional issuance will cause the Aggregate USD Equivalent Outstanding Amount of any Class of Co-Issued Notes to exceed the Initial Class Notional Amount set forth in "Summary—Notes", the issuer will receive written advice of counsel that, following such additional issuance, the Co-Issued Notes issued pursuant to such additional issuance will be treated as debt for U.S. federal income tax purposes and any Co-Issued Notes outstanding prior to such additional issuance would have received an opinion that such Co-Issued Notes will be treated as debt for U.S. federal income tax purposes after such additional issuance.

In connection with any such additional issuance, the Issuer shall, to the extent required by the notes thereof, provide any applicable stock exchange with a listing circular or an offering circular supplement, relating to such notes.

Each Series of a given Class shall be pari passu with respect to Credit Event Adjustment Amounts, Notional Principal Adjustment Amounts and Reinstatement Adjustment Amounts as described herein.

For the avoidance of doubt, following a Partial Optional Redemption of any Series of Co-Issued Notes or Protection Buyer Notes that are Co-Issued Notes, additional Series of such Class may be issued in accordance with the requirements set forth in this section.

Jurisdictions of Incorporation. Under the Indenture, the Issuer and the Co-Issuer will be required to maintain their rights and franchises as a company and a corporation incorporated under the laws of the Cayman Islands and the State of Delaware, respectively, to comply with the provisions of their respective organizational documents and to obtain and preserve their qualification to do business as foreign corporations in each jurisdiction in which such qualifications are or shall be necessary to protect the validity and enforceability of the Indenture, the Notes or any of the Issuer Assets; provided, however, that the Issuer shall be entitled to change its jurisdiction of incorporation from the Cayman Islands to any other jurisdiction reasonably selected by the Issuer and approved by the Common Shareholder of the Issuer so long as (a) such change is not disadvantageous in any material respect to the Issuer, the Holders of any Class of Notes, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent and the Portfolio Selection Agent, (b) written notice of such change shall have been given by the Issuer to the Trustee, the Issuing and Paying Agent, the Holders of any Class of Notes, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Portfolio Selection Agent and each of the Rating Agencies at least 30 Business Days prior to such change of jurisdiction, (c) the S&P Rating Criteria shall have been satisfied and (d) on or prior to the 15th Business Day following such notice the Trustee or the Issuing and Paying Agent, as applicable, shall have received written notice from a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider or the Collateral Disposal Agent objecting to such change.

Petitions for Bankruptcy. The Indenture will provide that neither (i) the Trustee, in its own capacity, nor (ii) by any Noteholder nor (iii) the Noteholders may, prior to the date which is one year and one day (or, if longer, the applicable preference period) after the payment in full of all Notes issued against, or join any other person in instituting against, the Issuer or Co-Issuer any bankruptcy, reorganization, arrangement, moratorium or liquidation proceedings, or other proceedings under federal or state bankruptcy or similar laws, including under Cayman Islands law.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918096
Footnote Exhibits - Page 4875

Satisfaction and Discharge of the Indenture. The Indenture will be discharged with respect to the Issuer Assets securing the Notes upon delivery to the Trustee or the Issuing and Paying Agent, as applicable, for cancellation of all of the Notes, or, within certain limitations (including the obligation to pay principal and interest), upon deposit with the Trustee of funds sufficient for the payment or redemption thereof and the payment by the Issuer of all other amounts due under the Indenture.

Trustee. LaSalle Bank National Association will be the Trustee under the Indenture for the Notes. The Issuer and their Affiliates may maintain other banking relationships with the Trustee. The payment of the fees and expenses of the Trustee relating to the Notes is subject to the obligations of the Issuer. The Trustee and/or its Affiliates may receive compensation in connection with the Trustee's investment of trust assets in certain eligible investments as permitted in the Indenture and in connection with the Trustee's administration of any securities lending activities of the Issuer.

The Indenture contains provisions for the indemnification of the Trustee for any loss, liability or expense incurred without negligence, willful misconduct or bad faith on its part, arising out of or in connection with the acceptance or administration of the Indenture.

Reports Prepared Pursuant to the Indenture. Upon the written request in the form of Exhibit A hereto, any Noteholder may request that the Trustee or the Issuing and Paying Agent, as applicable, provide to such Noteholder the monthly reports and certain other reports prepared by or on behalf of the Issuer in accordance with the Indenture.

Governing Law. The Indenture and the Co-Issued Notes will be governed by, and construed in accordance with, the laws of the State of New York applicable to agreements made and to be performed therein.

The Notes will be in book-entry form. Persons acquiring beneficial ownership interests in the Notes will hold their interests through DTC if such Persons are direct participants in DTC, or indirectly through organizations that are participants in DTC. Therefore, a Person who holds a beneficial ownership interest in the Notes will only be permitted to exercise their rights through DTC and participants of DTC. DTC or its nominee shall be the registered holder of the Notes and DTC will only take action with respect to such rights as the instruction or the direction of the participants. Similarly, if the Trustee or the Issuing and Paying Agent, as applicable, has to provide notice to Noteholders or to solicit the consent of any Noteholder, the Trustee or the Issuing and Paying Agent, as applicable, will only act through DTC (which in turn will notify its relevant participants, which in turn will notify Persons holding beneficial ownership interests in the Notes).

From time to time following the Closing Date, any Noteholder may submit to the Trustee, or the Issuing and Paying Agent, as applicable, in writing, a Notice to the Trustee to the effect that certain communications may be sent to any and all Noteholders. Within three Business Days of receiving such Notice to the Trustee, the Trustee will provide notice to the Issuer, the Issuing and Paying Agent, as applicable, of the contents of such Notice. From time to time, the Issuer or the Trustee may appoint a Noteholder as the Issuer's or Trustee's representative to receive communications to be sent to the Issuer or Trustee. The Issuer or Trustee will provide notice to the Issuer of the appointment or termination of the Issuer or Trustee's representative or the appointment of a new representative, and the Representative will provide notice to the Issuer of any such change of which it receives notice.

The Issuing and Paying Agency Agreement

Pursuant to the Issuing and Paying Agency Agreement, LaSalle Bank National Association will be appointed as the Issuing and Paying Agent. The Issuer may at any time and from time to time terminate the appointment of the Issuing and Paying Agent and appoint one or more additional Issuing and Paying Agents. The Issuer will give prompt notice to the Trustee of the appointment or termination of the Issuing and Paying Agent and of the location and any change in the location of the Issuing and Paying Agent's office or agency. The Issuing and Paying Agent will provide notice to the Holders of the Issuer Notes of any such change of which it receives notice.
Pursuant to the Issuing and Paying Agency Agreement, LaSalle Bank National Association will be appointed as the Issuer Note Registrar. The Issuer Note Registrar will keep the note register and provide for the registration and transfer of the Issuer Notes. The Issuer may at any time and from time to time terminate the appointment of the Issuer Note Registrar and appoint one or more additional Issuer Note Registrars. The Issuer will give prompt notice to the Issuing and Paying Agent of the appointment or termination of the Issuer Note Registrar and of the location and any change in the location of the Issuer Note Registrar’s office. The Issuer Note Registrar will provide notice to the Holders of the Issuer Notes of any such change of which it receives notice.

The Issuing and Paying Agent will make distributions on the Issuer Notes and perform various fiscal services on behalf of the Issuer. On or prior to the Closing Date, the Issuing and Paying Agent will establish a segregated bank account designated as the “Issuer Notes Distribution Account.” The Issuing and Paying Agent will deposit any funds received from the Trustee pursuant to the Indenture (including, without limitation, all distributions of Interest Proceeds and Principal Proceeds on each Payment Date, any other Business Day on which Currency Adjusted National Principal Adjustment Amounts are paid by the Issuer to the Holders of the Issuer Notes or on the Stated Maturity for, or date of redemption of, the applicable Issuer Notes, made by the Trustee to the Issuing and Paying Agent pursuant to the Indenture as described herein under “Priority of Payments”) into the Issuer Notes Distribution Account.

Pursuant to the Issuing and Paying Agency Agreement, the Issuing and Paying Agent, on behalf of the Issuer, will promptly give notice of the amount distributed thereofunder for the relevant Payment Date to the Holders of the Issuer Notes and to the Issuer. The Issuing and Paying Agent will also make such information available to Holders of the Issuer Notes as its offices. Distributions to Holders of the Issuer Notes, if any, will be paid on each Payment Date, any other Business Day on which Currency Adjusted National Principal Adjustment Amounts are paid by the Issuer to the Holders of the Issuer Notes or on the Stated Maturity for, or date of redemption of, a Class of the Issuer Notes, as applicable, to the persons in whose names such Issuer Notes are registered in the Issuer Note Registrar at the close of business on the Record Date for such Payment Date. Pursuant to the Issuing and Paying Agency Agreement, distributions to Holders of any Class of Issuer Notes will be paid pro rata to Holders of such Class; provided that such pro rata allocation will be based on the Aggregate US Dollar Equivalent Outstanding Amount of such Class of Notes held by each such Holder but will be payable to each such Holder in the applicable Approved Currency with respect to each such Holder’s Currency Adjusted Aggregate Outstanding Amount of such Notes.

The Issuing and Paying Agency Agreement also provides for the terms of transfer and exchange of the Issuer Notes described herein under “Transfer Restrictions.” The payment of the fees and expenses of the Issuing and Paying Agent and the Issuer Note Registrar is solely the obligation of the Issuer. The Issuing and Paying Agency Agreement contains provisions for the indemnification of the Issuing and Paying Agent and the Issuer Note Registrar against any and all liabilities, costs and expenses (including reasonable legal fees and expenses) relating to or arising out of or in connection with their performance under the Issuing and Paying Agency Agreement, except to the extent that such liabilities, costs and expenses are caused by the negligence, willful misconduct or bad faith of the Issuing and Paying Agent or the Issuer Note Registrar, as the case may be.

Additional Issuance. With respect to the Issuer Notes, a Series of any such Class may be issued from time to time following the Closing Date. Such additional issuance of such Series must satisfy the following conditions:

(a) the proceeds from any such additional issuance shall be used by the Issuer to purchase Collateral Securities at the direction of the Proctor, Buyer. A principal amount not less than the principal amount of such additional issuance or, pending such investment, deposited in the Principal Collection Account and invested in Eligible Investments, provided that the Collateral Securities and Eligible Investments purchased with the
proceeds of such additional issuance will be denominated in the same Approved
Currency in which such additional Series is denominated;
(b) the sum of the proceeds received from the issuance of such Series plus any Additional
Issuance Uplift Payment received by the Issuer from the Protection Buyer in
connection with such additional issuance must equal the principal amount of such Notes;
(c) the terms (other than the date of issuance, the Series Interest Rate, the Approved
Currency in which such Notes are denominated, the Stated Maturity, the Non-Call Period
and the date from which interest will accrue) of any Series of Notes will be identical to
the terms of any previously issued Notes of the relevant Class of such Series, if any,
(d) the Protection Buyer must notify the Rating Agencies of such additional issuance prior to
such additional issuance; and
(e) the S&P Rating Condition and the Moody's Rating Condition must be satisfied.

In connection with any such additional issuance, the Issuer shall, to the extent required by the
rules thereon, provide any applicable stock exchange with a listing circular or an offering circular
supplement, relating to such Notes.

For the avoidance of doubt, following a Partial Optional Redemption of any Series of Issuer Notes
or Protection Buyer Notes that are Issuer Notes, additional Series of such Class may be issued in
accordance with the requirements set forth in this section.

Governing Law. The Issuer Notes and each Deed of Covenant will be governed by, and
construed in accordance with, the laws of the Cayman Islands. The Issuing and Paying Agency
Agreement will be governed by, and construed in accordance with, the laws of the State of New
York applicable to agreements made and to be performed therein without regard to the conflict of laws
principles thereof.

Reports Prepared Pursuant to the Indenture. Upon the written request in the form of Exhibit A
herein, any Holder of the Issuer Notes may request that the Issuing and Paying Agent provide to such
Holder the monthly reports and certain other reports prepared by or on behalf of the Issuer in accordance
with the terms of the Indenture.

USE OF PROCEEDS

The aggregate net proceeds of the offering of the Notes are expected to equal approximately
$192,000,000 (excluding the USD Equivalent of the Notes denominated in Approved Currencies other
than Dollar). The Issuer will use such net proceeds, together with part or all of the Uplift Payment, to
purchase Collateral Securities and Eligible Investments that will have an aggregate principal amount of at
least $192,000,000 (including the USD Equivalent of the Collateral Securities denominated in Approved
Currencies other than Dollar), provided that, for each Approved Currency, the aggregate principal
amount of Collateral Securities and Eligible investments denominated in such Approved Currency and
purchased with the proceeds of the offering will equal or exceed the Currency Adjusted Aggregate
Outstanding Amount of Notes denominated in such Approved Currency on the Closing Date.

RATINGS OF THE NOTES

It is a condition to the issuance of the Notes issued on the Closing Date that the Notes of each
such Class receive from the Rating Agencies the minimum rating indicated under "Summary—Ratings". A
credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision or
withdrawal at any time by the assigning rating agency.
THE CREDIT DEFAULT SWAP

The following description of the Credit Default Swap is a summary of certain provisions of the Credit Default Swap. The following summary does not purport to be complete, and is qualified in its entirety by reference to the detailed provisions of the Credit Default Swap.

The Notes do not represent an obligation of the Protection Buyer. Noteholders will not have any right to proceed directly against the Protection Buyer in respect of the Protection Buyer's obligations under the Credit Default Swap. However, the Holders of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class will have the right to direct the Issuer with respect to the enforcement of any claims that it may have against the Protection Buyer. Notwithstanding the foregoing, if the Protection Buyer is the sole defaulting party or Affected Party under the Credit Default Swap, then the Issuer will have 30 days to enter into a replacement credit default swap and basis swap (otherwise a Mandatory Redemption will occur). See "Replacement."

Effective Date and Termination Date

The effective date of the Credit Default Swap will be the Closing Date.

Unless terminated prior to its scheduled termination date, or unless an Extended Termination Date as described in this section occurs, the Credit Default Swap will terminate on February 22, 2038 (the "Scheduled Termination Date").

Credit Event Notices may be given (the "Notice Delivery Period") during the period from and including the Closing Date to and including the earlier of the Scheduled Termination Date or a Credit Default Swap Early Termination Date.

If, on the Scheduled Termination Date a Credit Event has occurred with respect to which the Conditions to Settlement have been satisfied, but with respect to which the Credit Default Swap Settlement Date has not occurred, the termination date of the Credit Default Swap will extend up to the day that is the last Credit Default Swap Settlement Date (such day, the "Extended Termination Date").

The "Termination Date" of the Credit Default Swap will be the later of (i) the Scheduled Termination Date and (ii) the Extended Termination Date.

Payments

Upfront Payment by the Protection Buyer to the Issuer.

On the Closing Date, the Protection Buyer will make an upfront payment (the "Upfront Payment") to the Issuer in an amount with respect to each Approved Currency, if greater than zero, equal to:

(i) the sum of (a) the amount needed to purchase the Initial Collateral Securities denominated in such Approved Currency (with an aggregate principal amount of at least the Currency Adjusted Aggregate Outstanding Amount of Notes denominated in such Approved Currency) and (b) expenses incurred on or prior to the Closing Date in such Approved Currency in connection with the offering of the Notes and the transactions contemplated hereby, less

(ii) the Currency Adjusted Aggregate Outstanding Amount of Notes denominated in such Approved Currency.
Periodic Payments by the Protection Buyer to the Issuer.

(i) On the Closing Date and each Payment Date prior to the earliest to occur of (a) the final Stated Maturity of all Series of Notes, (b) an Optional Redemption in Whole or (c) a Mandatory Redemption, the Protection Buyer will pay to the Issuer an amount equal to the aggregate of:

- the product, with respect to each Series of Notes Outstanding, of:
  - (a) the Applicable Spread for such Series;
  - (b) the Currency Adjusted Aggregate Outstanding Amount of such Series of Notes on such date; and
  - (c) the applicable Day Count Fraction for the Interest Accrual Period commencing on such date;

- the product, with respect to each Class of Notes Outstanding, of:
  - (a) the Aggregate USD Equivalent Outstanding Amount of such Class on such date;
  - (b) the Applicable Class Portfolio Selection Fee Rate with respect to such Class of Notes; and
  - (c) the actual number of days in the Interest Accrual Period or, if on such date the Protection Buyer has a long-term rating below "AA-" by S&P, the actual number of days in the next two Interest Accrual Periods commencing on such date divided by 360;

- an amount equal to the Collateral Put Provider Fee Amount due on the immediately succeeding Payment Date to the Collateral Put Provider pursuant to the Collateral Put Agreement; and

- an amount equal to the Administrative Expenses expected to be paid pursuant to clause (i) of the "Description of the Notes—Priority of Payments—Interest Proceeds" on the immediately succeeding Payment Date or, if on such date the Protection Buyer has a long-term rating below "AA-" by S&P, the amount determined to be due on the following two Payment Dates as determined by the Credit Default Swap Calculation Agent in a commercially reasonable manner (excluding, for the avoidance of doubt, any indemnities payable by the Issuer); plus

(ii) on each Payment Date, an amount, if greater than zero, equal to:

- the amount required to be paid pursuant to clauses (i) through (v) of "Description of the Notes—Priority of Payments—Interest Proceeds" on such Payment Date (excluding, for the avoidance of doubt, any indemnities payable by the Issuer); less

- the amount on deposit on such Payment Date in the CDS Issuer Fixed Payment Subaccount plus the Monthly Basis Swap Payment due on such Payment Date (each payment made under (i) and (ii) above, a "Fixed Payment").
Cash Settlement Amounts paid by the Issuer to the Protection Buyer.

On a Credit Default Swap Calculation Date, the Credit Default Swap Calculation Agent will determine the Cash Settlement Amount that will need to be paid by the Issuer on the related Credit Default Swap Settlement Date. See "Summary—The Credit Default Swap".

In addition, on a Credit Default Swap Calculation Date, the Trustee will direct the liquidation of any Eligible Investments held by the Issuer and denominated in the Approved Currency in which such Cash Settlement Amount is payable (assuming that the Issuer will receive at least 100% of par for such Eligible Investments in any such liquidation, other than Put Excluded Collateral) in an amount sufficient to pay the related Cash Settlement Amount on the Credit Default Swap Settlement Date.

If such liquidation proceeds are insufficient to pay such Cash Settlement Amount, the Issuer or Trustee will direct the Collateral Disposal Agent to attempt to sell a par amount of Collateral Securities (rounded up, if necessary, to reflect minimum denominations) in an amount (assuming that the Issuer will receive at least 100% of par for such Collateral Securities in any such liquidation, other than Put Excluded Collateral), when added to the amount of proceeds expected to be received by the issuer from liquidation of Eligible Investments (assuming that the issuer will receive at least 100% of par for such Eligible Investments, other than Put Excluded Collateral), sufficient to pay a Cash Settlement Amount (the par amount of Collateral Securities to be liquidated in connection with any liquidation of the Collateral Securities, the "Collateral Securities Principal Amount"), for settlement on the Credit Default Swap Settlement Date. The Collateral Disposal Agent shall select in its sole discretion the particular Collateral Securities to be liquidated in an aggregate principal amount equal to the Collateral Securities Principal Amount (the Collateral Securities selected by the Collateral Disposal Agent to be liquidated in connection with any liquidation of Collateral Securities, the "Selected Collateral Securities"), provided that any such Selected Collateral Securities will be denominated in the same currency as the Notes, the Currency Adjusted Aggregate Outstanding Amount of which is reduced by the related Currency Adjusted Credit Event Adjustment Amount. The Collateral Disposal Agent will then attempt to solicit bids for the sale of each such Selected Collateral Security. The Collateral Disposal Agent may, in its sole discretion, bid up to 103% for such Selected Collateral Security (excluding any accrued interest) if the Collateral Disposal Agent is not able to procure a third-party bid of at least 100%. A Selected Collateral Security will be sold to the highest bidder for settlement on the Credit Default Swap Settlement Date. Pursuant to the terms of the Credit Default Swap, if the liquidation proceeds of Eligible Investments and Collateral Securities would have been sufficient to pay a Cash Settlement Amount had such Collateral (other than Put Excluded Collateral) been liquidated at least at 100% of par (instead of below 100% of par), the Issuer will be deemed to have paid such Cash Settlement Amount in full upon the Protection Buyer’s receipt of the actual related liquidation proceeds.

See "Summary—The Credit Default Swap—Cash Settlement Amount".

Payment by the Protection Buyer to the Issuer in connection with a Reference Obligation Reimbursement.

On the Payment Date immediately following the Due Period during which a Reference Obligation Reimbursement Amount is determined by the Credit Default Swap Calculation Agent with respect to one or more Reference Obligation(s), and so long as such Reference Obligation(s) remains in the Reference Portfolio at the time of such Reference Obligation Reimbursement, the Protection Buyer will pay to the Issuer an amount equal to the aggregate of (i) the Currency Adjusted Reimbursement Adjustment Amounts payable on such date and (ii) the ICE Currency Adjusted Interest Reimbursement Amounts payable on such date.

Confidential Treatment Requested by Goldman Sachs
Payments by the Protection Buyer to the Issuer in connection with an additional issuance of Notes.

Following the Closing Date, on or prior to the date on which the Issuer issues additional Notes, the Protection Buyer will (in the event such additional issuance occurs) make a payment to the Issuer (in the Approved Currency in which such additional Notes are denominated) equal to the product of (i) the per amount of such additional Notes and (ii) the greater of (a) 100% less the issuance price of such additional Notes (expressed as a percentage of the par amount thereof) and (b) zero (any such payment, an "Additional Issuance Upfront Payment").

Payments by the Protection Buyer to the Issuer in connection with the Issuer's purchase of Collateral Securities.

Following the Closing Date, on or prior to the date on which the Issuer purchases a Collateral Security, the Protection Buyer shall (in the event the Issuer actually purchases a Collateral Security) make a payment to the Issuer equal to the product of (i) the per amount of such Collateral Security and (ii) the greater of (a) the purchase price (including accrued and unpaid interest) of such Collateral Security (expressed as a percentage of the par amount thereof) less 100.00% and (b) zero.

Payment on the Stated Maturity, the Optional Redemption Date or the Mandatory Redemption Date.

On the Stated Maturity, the Optional Redemption Date or the Mandatory Redemption Date, in addition to any Credit Default Swap Termination Payment, the Protection Buyer may, to the extent of available Principal Proceeds, receive from the Issuer an amount as described under subclause (a) of "Description of the Notes—Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date".

On the Stated Maturity for any Series of Notes or a Mandatory Redemption caused by a termination of the Credit Default Swap as a result of a default by the Protection Buyer, a termination of the Collateral Put Agreement as a result of a default by the Collateral Put Provider or a termination of the Basis Swap as a result of a default by the Basis Swap Counterparty, the Protection Buyer will make a payment to the Issuer in an amount equal to the aggregate of the Credit Adjusted Redemption Refund Adjustment Amounts determined with respect to such date (any such payment, a "Redemption Write-down Refund").

Payment in Connection with a Replacement Credit Default Swap.

On the date a replacement credit default swap is entered into with a Replacement Counterparty, the Protection Buyer may receive a termination payment from the Issuer.

Payment on a Partial Optional Redemption Date.

In the case of a Partial Optional Redemption, at the sole discretion of the Protection Buyer, the Protection Buyer may pay to the Issuer an amount (the "Partial Optional Redemption Amount") equal to (a) the aggregate amount required to be paid by the Issuer on the Partial Optional Redemption Date in accordance with subclause (a) of "Description of the Notes—Priority of Payments—Principal Proceeds—Other Payment Date" and (b) the proceeds that are expected to be available on the Partial Optional Redemption Date to pay the amount described in subclause (a) after giving consideration to any currency exchange, provided, however, that a Partial Optional Redemption will be effected only in accordance with the Indenture.
Footnote Exhibits - Page 4882

Payment by the Protection Buyer to the Issuer in connection with Collateral denominated in Approved Currencies.

On each Credit Default Swap Settlement Date and with respect to each Approved Currency, the Protection Buyer will pay to the Issuer the difference, if greater than zero, between (i) the Currency Adjusted Aggregate Outstanding Amount of all Notes denominated in such Approved Currency and (ii) the principal balance of Collateral (including Cash) held by the Issuer in the Collateral Account and denominated in such Approved Currency (for the avoidance of doubt, such amounts as determined after giving effect to the payment of any Cash Settlement Amount on such date) so long as such difference arises in connection with the liquidation of Collateral in order to pay a Cash Settlement Amount (any such payment, an “Approved Currency Collateral Payment”).

Credit Events

“Failure to Pay Principal” means, with respect to any Reference Obligation (i) a failure by the related Reference Entity (or any Issuer thereof) to pay the Expected Principal Amount of such Reference Obligation on the applicable Final Amortization Date or the applicable Legal Final Maturity Date, as the case may be or (ii) payment on any such day of an Actual Principal Amount that is less than the Expected Principal Amount of such Reference Obligation, provided that the failure by such Reference Entity (or such Issuer) to pay any such amount in respect of principal in accordance with the foregoing shall not constitute a Failure to Pay Principal if such failure has been remedied within any grace period applicable to such payment obligation under the related Underlying Instruments or, if no such grace period is applicable, within three Business Days after the day on which such Expected Principal Amount was scheduled to be paid.

“Write-down” means with respect to any Reference Obligation, the occurrence at any time on or after the Closing Date of:

(i) a write-down or applied loss (however described in the related Underlying Instruments) resulting in a reduction in the Reference Obligation Outstanding Principal Amount with respect to such Reference Obligation (other than as a result of a scheduled or unscheduled payment of principal); or

(ii) the attribution of a principal deficiency or realized loss (however described in the related Underlying Instruments) to such Reference Obligation resulting in a reduction or substitution of the current interest payable on such Reference Obligation;

(iii) the forgiveness of any amount of principal by the holders of such Reference Obligation pursuant to an amendment to the related Underlying Instruments resulting in a reduction in the related Reference Obligation Outstanding Principal Amount; or

(iv) if the related Underlying Instruments do not provide for write-downs, applied losses, principal deficiencies or realized losses as described in subclause (i) above to occur in respect of such Reference Obligation, an Imputed Write-down Amount being determined in respect of such Reference Obligation by the Credit Default Swap Calculation Agent.

The Reference Portfolio

The Reference Portfolio is set out in Schedule A and will not be modified other than as described under “—Removal of Reference Obligations from the Reference Portfolio.”

Confidential Treatment Requested by Goldman Sachs
Removal of Reference Obligations from the Reference Portfolio

Following a Credit Event and the satisfaction of the Conditions to Settlement making events, the Reference Obligation that is the subject of such Credit Event will not be removed from the Reference Portfolio, and in the case of a Reference Obligation that suffered a Writedown, such Reference Obligation may experience one or more subsequent Credit Events (including a subsequent Writedown).

Following the redemption or amortization in full of a Reference Obligation, the Reference Obligation that has been redeemed or amortized in full will be removed from the Reference Portfolio. Subject to the foregoing, if the Reference Obligation Notional Amount of a Reference Obligation that suffered one or more Credit Events is reduced to zero at any time on or prior to the Scheduled Termination Date and remains at zero for a period of one calendar year, such Reference Obligation shall be removed from the Reference Portfolio as of the last day of such one calendar year period; provided that if such Reference Obligation that suffered one or more Credit Events experiences a Reference Obligation Reimbursement for which the Reference Obligation Reimbursement Amount equals the ICE Reference Obligation Notional Amount Differential of such Reference Obligation immediately prior to such determination, the Reference Obligation shall be removed from the Reference Portfolio immediately following the determination of such Reference Obligation Reimbursement Amount by the Credit Default Swap Calculation Agent.

Credit Default Swap Early Termination

Credit Default Swap Event of Default.

The occurrence of any of the following events will constitute a "Credit Default Swap Event of Default":

(i) failure by the Issuer, the Protection Buyer or the Protection Buyer Credit Support Provider to make, when due, any payment under the Credit Default Swap, and the continuance of such failure for three Business Days after notice of such failure is given to such party;

(ii) failure by the Protection Buyer or the Protection Buyer Credit Support Provider to comply with or perform any agreement or obligation to be complied with or performed by it, as the case may be, in accordance with any Protection Buyer Credit Support Document if such failure is continuing after any applicable grace period has elapsed;

(iii) the expiration or termination of any Protection Buyer Credit Support Document or the taking or ceasing of such Protection Buyer Credit Support Document to be in full force and effect for the purpose of the Credit Default Swap (in either case other than in accordance with its terms) prior to the satisfaction of all obligations of the Protection Buyer under the Credit Default Swap without the written consent of the Issuer; and (iv) the Protection Buyer or the Protection Buyer Credit Support Provider disaffirms, disclaims, repudiates or rejects, in whole or in part, or challenges the validity of, such Protection Buyer Credit Support Document; or

(v) the occurrence of certain events of bankruptcy, insolvency, conservatorship, receivership or reorganization with respect to the Protection Buyer or the Protection Buyer Credit Support Provider.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918104
Footnote Exhibits - Page 4884

Credit Default Swap Termination Events.

The occurrence of any of the following events will constitute a "Credit Default Swap Termination Event":

(i) it becomes unlawful for the Protection Buyer, the Protection Buyer Credit Support Provider or the Issuer to perform its obligation to make a payment or delivery or to receive a payment or delivery under the Credit Default Swap or to comply with any other material provision thereof or for the Protection Buyer or the Protection Buyer Credit Support Provider to perform its obligations under any Protection Buyer Credit Support Document and no party is able to transfer its obligations to a different jurisdiction or substitute another entity in its place so that such legality ceases to apply;

(ii) because of (a) any action taken by a taxing authority, or brought in a court of competent jurisdiction, on or after the Closing Date (regardless of whether such action is taken or brought with respect to the Issuer or the Protection Buyer) or (b) a change in tax law, such party will, or there is a substantial likelihood that it will, on the next succeeding payment date be required to (x) make a "gross-up" payment to the other party in respect of an indemnifiable tax or (y) receive a payment from the other party subject to withholding or deduction of a tax for which the other party is not required to make a "gross-up" payment;

(iii) as a result of the Issuer's or the Protection Buyer's consolidating or amalgamating with, or merging with or into, or transferring all or substantially all its assets to another entity, the Issuer or the Protection Buyer is required to (a) make a "gross-up" payment to the other party or (b) receive a payment from which an amount has been deducted or withheld for or on account of any indemnifiable tax;

(iv) a Collateral Default;

(v) the Notes becoming due and payable in accordance with the indenture at any time prior to their Stated Maturity after the occurrence of an Event of Default;

(vi) an Adverse Tax Event;

(vii) an Optional Redemption in Whole;

(viii) the designation of a Basis Swap Early Termination Date; or

(ix) the designation of a Collateral Put Agreement Early Termination Date.

Upon the Trustees or the Issuing and Paying Agent becoming aware of the occurrence of any event that gives rise to the right of the Issuer to terminate the Credit Default Swap, the Basis Swap or the Collateral Put Agreement, the Trustee or the Issuing and Paying Agent, as applicable, will as promptly as practicable notify the Noteholders of such event and the Trustee will terminate any such agreement on behalf of the Issuer at the direction of (i) in the case of the Credit Default Swap or the Basis Swap, a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes and (ii) in the case of the Collateral Put Agreement, 100% of the Aggregate USD Equivalent Outstanding Amount of the Notes, in each event voting as a single class. In addition, if an Event of Default or a Termination Event (as such term is defined in the Credit Default Swap), for which the Protection Buyer is the sole defaulting party or Affected Party under the Credit Default Swap (as such term is defined in the Credit Default Swap), then the Issuer will have 30 days to enter into a replacement credit default swap. See "Replacement".
Payments on Credit Default Swap Early Termination

Payment by the Issuer. Upon the occurrence of a Credit Default Swap Early Termination, the Issuer will be required to pay to the Protection Buyer the following amounts:

(i) any Cash Settlement Amounts owed by the Issuer to the Protection Buyer for any Credit Events that occur on or prior to the Credit Default Swap Early Termination Date for which the Conditions to Settlement have been satisfied; and

(ii) any Credit Default Swap Termination Payment.

Payment by the Protection Buyer. Upon the occurrence of a Credit Default Swap Early Termination, the Protection Buyer will be required to pay to the Issuer the following amounts:

(i) any accrued but unpaid Fixed Payments;

(ii) any Credit Default Swap Termination Payment; and

(iii) in the case of an Optional Redemption in Whole, at the sole discretion of the Protection Buyer, an amount (the "End Payment") equal to (x) the aggregate amount required to be paid by the Issuer on the Optional Redemption Date in accordance with subclauses (i) through (vi) of "Description of the Notes—Priority of Payments—Principal Proceeds—Stated Maturity, Optional Redemption Date or Mandatory Redemption Date" less (y) the Principal Proceeds that are expected to be available on the Optional Redemption Date to pay the amount described in subclause (a) (after giving consideration to any currency exchange, if necessary), provided, however, that an Optional Redemption in Whole shall be effected only in accordance with the Indenture.

As used herein, "Credit Default Swap Termination Payment" means the replacement cost or gain for a portfolio credit default swap with the financial terms of the Credit Default Swap, calculated in accordance with the terms of the Credit Default Swap, provided, however, that no Credit Default Swap Termination Payment shall be payable by the Protection Buyer in connection with a Credit Default Swap Early Termination caused by an Optional Redemption in Whole.

Amendment

The Credit Default Swap may be amended at any time without satisfying the S&P Rating Condition or the Moody's Rating Condition or obtaining the consent of the Noteholders so long as such amendment would not have a material adverse effect on any Holders of the Notes. Otherwise, the Credit Default Swap may be amended only with the satisfaction of the S&P Rating Condition and the Moody's Rating Condition and with the consent of the Noteholders (in a percentage as would have been required had such amendment been taken pursuant to the Indenture).

Unless the Portfolio Selection Agent has been given prior written notice of such amendment and has consented thereto in writing, no amendment to the Credit Default Swap may (a) affect the obligations or rights of the Portfolio Selection Agent including, without limitation, expanding or restricting the Portfolio Selection Agent's discretion, rights or obligations or (b) affect the amount, timing or priority of any fees payable to the Portfolio Selection Agent under the Portfolio Selection Agreement and the Credit Default Swap.

Confidential Treatment Requested by Goldman Sachs
Transfer

Neither the Issuer nor the Protection Buyer may transfer its rights and obligations under the Credit Default Swap without the prior written consent of the other party, which consent will not be unreasonably withheld or delayed, except that, and in any case subject to the S&P Rating Condition:

(i) a party may make such a transfer of its rights and obligations pursuant to a consolidation or amalgamation with, or merger into, or transfer of all or substantially all its assets to or reorganization, incorporation, reincorporation or reorganization into or as, another entity;
(ii) a party may make such a transfer of all or any part of its interest in certain amounts payable to it from a defaulting party under the Credit Default Swap; and
(iii) the Protection Buyer may, without recourse, transfer the Credit Default Swap (in whole and not in part only) to any of the Protection Buyer’s Affiliates so long as:

(a) GS Group (or any other entity with a credit rating at least equal to that of GS Group) guarantees such transferred obligations of the transferee pursuant to a guarantee substantially the form of the guaranty of GS Group specified in the Credit Default Swap or such transferee has a credit rating at least equal to that of GS Group;
(b) the Issuer will not have to make any tax gross-up payments to such Affiliate; and
(c) any payment paid by such Affiliate to the Issuer will not be subject to withholding tax in excess of what the Issuer would have been required to do in the absence of such transfer;
(d) it does not become unlawful for either party to perform any obligation under the Credit Default Swap as a result of such transfer; and
(e) a Credit Default Swap Early Termination does not occur as a result of such transfer.

Replacement

If an Event of Default or a Termination Event (as such term is defined in the Credit Default Swap, Basic Swap and Collateral Put Agreement, as applicable) for which the Protection Buyer, Basic Swap Counterparty or Collateral Put Provider is the sole defaulting party or Affected Party (as such term is defined in the Credit Default Swap, Basic Swap and Collateral Put Agreement, as applicable) under the Credit Default Swap, Basic Swap and Collateral Put Agreement, as applicable, then the Issuer will automatically terminate the Credit Default Swap, Basic Swap and Collateral Put Agreement and shall, within 30 days following such termination, enter into a replacement credit default swap and basic swap with a party nominated by the Protection Buyer, Basic Swap Counterparty and/or Collateral Put Provider, as applicable, (the "Replacement Counterparty"), subject to satisfaction of the following (the "Replacement Counterparty Procedures") or prior to the completion of such 30 day period:

(i) all of the Collateral (other than Collateral Excluded) will be liquidated (and the Collateral Put Agreement will not be exercisable in the case of such liquidation), and the proceeds thereof, after giving effect to any termination payments payable by the Issuer to the Protection Buyer and the Basic Swap Counterparty will be used by the Issuer to acquire Collateral Excluded. If the aggregate principal amount of the Collateral denominated in each Approved Currency following such liquidation is not at least equal to the Currency Adjusted Aggregate Outstanding Amount of the Notes denominated in
such Approved Currency, the Replacement Counterparty will pay as an upfront payment to the issuer under the replacement credit default swap an amount sufficient to cause the aggregate principal amount of the Collateral denominated in each Approved Currency to be at least equal to the Currency Adjusted Aggregate Outstanding Amount of the Notes denominated in such Approved Currency, and the Issuer will use such funds to purchase additional Put Excluded Collateral;

(ii) the Replacement Counterparty will enter into a replacement credit default swap with the issuer on substantially similar terms to the Credit Default Swap entered into on the Closing Date, with the effective date being the day on which the Credit Default Swap is terminated;

(iii) pursuant to the terms of a replacement credit default swap, any failure to maintain Put Excluded Collateral denominated in each Approved Currency in an amount at least equal to the Currency Adjusted Aggregate Outstanding Amount of the Notes denominated in such Approved Currency will be deemed an election by the Replacement Counterparty to terminate the replacement credit default swap and will cause an Optional Redemption in Whole;

(iv) on the date that a replacement credit default swap is entered into between the Replacement Counterparty and the Issuer and on any date of determination thereafter, the Replacement Counterparty will post to the Issuer (x) the fixed payment due for all Payment Dates ending on the later of (1) the sixth Payment Date from the date of determination or (2) the end of the Non-Call Period, (provided that such payment will be calculated based on the Currency Adjusted Aggregate Outstanding Amount of the Notes denominated in each Approved Currency on the date of payment) and (y) any ICE Currency Adjusted Interest Reimbursable Amounts at such time of determination;

(v) pursuant to the terms of the replacement credit default swap, any failure to post the amounts specified in clause (iv) will be deemed an election by the Replacement Counterparty to terminate the replacement credit default swap and will cause an Optional Redemption in Whole;

(vi) the Replacement Counterparty will enter into a replacement basis swap with the Issuer on substantially similar terms to the Basis Swap entered into on the Closing Date, with the effective date being the day on which the Basis Swap is terminated;

(vii) on the date that a replacement basis swap is entered into between the Replacement Counterparty and the Issuer and on any date of determination thereafter, the Replacement Counterparty will post to the Issuer (x) the monthly basis swap payment due for all Payment Dates ending on the later of (1) the sixth Payment Date from the date of determination or (2) the end of the Non-Call Period, (provided that such payment will be calculated based on the Currency Adjusted Aggregate Outstanding Amount of the Notes denominated in each Approved Currency on the date of payment);

(viii) any failure to post the amounts specified in clause (vii) will be deemed an election by the Replacement Counterparty to terminate the replacement credit default swap and will cause an Optional Redemption in Whole;

(ix) all interest accrued on the Put Excluded Collateral will be paid by the Issuer to the Replacement Counterparty as a basis swap payment pursuant to the terms of the replacement basis swap;

Confidential Treatment Requested by Goldman Sachs
(x) the payment of any unpaid Portfolio Selection Fees by the Issuer to the Portfolio Selection Agent following a corresponding payment by the Replacement Counterparty to the Issuer;

and

(xii) in all cases, any related opinions (including an opinion of nationally recognized tax counsel experienced in such matters to the effect that such replacement credit default swap or basis swap will not cause the Issuer to be treated as engaged in a United States trade or business which must be received in order to enter into any replacement credit default swap or basis swap), documentation and agreements will be subject to review by the Rating Agencies, in the case of documentation or agreements, for the sole purpose of establishing that such documentation or agreements are consistent with the Replacement Counterparty Procedures and such documentation and agreements shall be subject to the satisfaction of the S&P Rating Condition.

Subject to the foregoing, Goldman Sachs has separately agreed to nominate a replacement counterparty under the circumstances described above.

If the Replacement Counterparty Procedures are not completed within the such 30 day period, then a Mandatory Redemption will occur.

For the avoidance of doubt, any termination payments payable by either the Issuer or the Protection Buyer under the Credit Default Swap or to the Basis Swap Counterparty under the Basis Swap will not be payable until the earlier to occur of (a) the date that all of the Replacement Counterparty Procedures are satisfied and (b) the Mandatory Redemption Date, which payments in the case of clause (b) will be subject to the Priority of Payments.

Guarantee

GS Group will guarantee the obligations of the Protection Buyer under the Credit Default Swap.

THE PROTECTION BUYER

The Protection Buyer is Goldman Sachs Capital Markets, L.P. As described above, GS Group will guarantee the obligations of Goldman Sachs Capital Markets, L.P., as the Protection Buyer under the Credit Default Swap. Goldman Sachs Capital Markets, L.P. is an Affiliate of GS Group.

GS Group, together with its subsidiaries, is a leading global investment banking, securities and investment management firm that provides a wide range of financial services worldwide to a substantial and diversified clientele that includes corporations, financial institutions, governments and high net-worth individuals. GS Group is required to file annual, quarterly and current reports, proxy statements and other information with the United States Securities and Exchange Commission (the "SEC"). GS Group's filings with the SEC are also available to the public through the SEC's Internet site at http://www.sec.gov and through the New York Stock Exchange, 20 Broad Street, New York, New York 10005, on which GS Group's common stock is listed.

Investors in Notes are hereby informed that the reports and other information with respect to GS Group on file with the SEC to which investors are referred above are not and will not be "incorporated by reference" herein.

The Notes do not represent an obligation of, and will not be insured or guaranteed by, GS Group or any of its subsidiaries and investors will have no rights or recourse against GS Group or any of its subsidiaries.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918109
THE COLLATERAL SECURITIES

The initial Collateral Securities

On the Closing Date, the Issuer will use the net proceeds of the offering and part or all of the Upfront Payment to purchase the securities described in the table below the "Initial Collateral Securities", together with Supplemental Collateral Securities and any BIE Collateral Securities purchased by the Issuer, the "Collateral Securities", at the direction of the Protection Buyer. Such initial Collateral Securities and any Eligible Investments purchased by the Issuer on the Closing Date will have a USD Equivalent aggregate principal amount of at least $192,000,000; provided that the aggregate principal amount of the Collateral Securities and Eligible Investments purchased with the proceeds of the offering denominated in any Approved Currency will equal the Currency Adjusted Aggregate Outstanding Amount of Notes denominated in such Approved Currency on the Closing Date. The Issuers of the Collateral Securities are subject to certain requirements of the Securities Exchange Act of 1934 and, in accordance therewith, the rules and other information with the SEC. Reports and other information filed by the Issuers of the Collateral Securities with the SEC can be inspected and copied at the public reference facilities maintained by the SEC at Room 1024, 450 Fith Street, N.W., Washington, D.C. 20549 or can be obtained from the SEC through its website at www.sec.gov. With respect to the Initial Collateral Security that is a CLO Security, the related offering circular has been attached to this Offering Circular and provides a description of the terms of such initial Collateral Security.

Supplemental Collateral Securities

The Protection Buyer shall direct the Issuer to purchase a Supplemental Collateral Security only if it satisfies the following criteria at the time of purchase (the "Collateral Security Eligibility Criteria") in each case as defined by the Collateral Administrator based on information and calculations supplied by the Credit Default Swap Calculation Agent; provided, however, that in the case of a Supplemental Collateral Security purchased with Excess Disposition Proceeds, such Collateral Security need only satisfy the criteria described in clauses (vi), (v) and (vii) through (xii) below:

(i) other than with respect to an RMBS Agency Security, it has (a) an Actual Rating by S&P of "AAA" and (b) an Actual Rating by Moody's of "Aaa";

(ii) (a) it is the senior-most class of securities issued by its obligor, it being acknowledged and agreed that such senior class may be paid pro rata with other senior classes of such securities issued by such obligor with respect to the payment of interest but must be senior to any other classes of such securities issued by such obligor with respect to the acceleration of events and (b) the aggregate notional amount of such class of securities at the time of issuance, together with the aggregate notional amount of any pro rata classes described in subclause (a) at the time of issuance, is greater than 10% of the initial aggregate notional amount of securities issued by such obligor;

(iii) the obligor of such Supplemental Collateral Security is not a Reference Entity in respect of any Reference Obligation in the Reference Portfolio;

(iv) It is denominated in an Approved Currency;

(v) it provides for the payment of interest at a floating rate determined by reference to LIBOR, EURIBOR, GBP-LIBOR, JPY-LIBOR, AUD-LIBOR, CAD-LIBOR or NZD-BRR.
(vi) It is either (a) an ABS Credit Card Security, (b) an ABS Student Loan Security, (c) an ABS Automobile Security, (d) an ABS Commercial Paper Security, (e) a Residential Mortgage-Backed Security (other than an Excluded Specified Type), (f) a Commercial Mortgage-Backed Security (other than an Excluded Specified Type) or (g) a CLO Security (other than an Excluded Specified Type).

(vii) It must have been offered by an underwriter, a placement agent or any Person acting in a similar capacity through a public prospectus, a private placement memorandum or any other similar document.

(viii) It must be acquired from a party acting in its capacity as broker-dealer in the ordinary course of business, or in an arm's-length open market transaction, and if not, is approved by SAP.

(ix) It must not be a United States real property interest within the meaning of Section 897 of the Internal Revenue Code of 1986, as amended (the “Code”).

(x) It must not provide for delayed funding or is not a revolving loan.

(xi) It is treated as debt for U.S. tax purposes or the Alternative Debt Test is satisfied.

(xii) It is Registered; and

(xiii) If such obligation or security is subject to any withholding tax, the obligor of the obligation or security is required to make “gross-up” payments that cover the full amount of such withholding tax on an after-tax basis pursuant to the Underlying Instrument with respect thereto.

In addition to satisfying the Collateral Security Eligibility Criteria, a Supplemental Collateral Security or BIE Collateral Security will be eligible for inclusion in the Collateral only if, after the inclusion of such Supplemental Collateral Security or BIE Collateral Security in the Collateral, the Weighted Average Life of the Collateral would not exceed 7.5 years, with such maximum declining by approximately 0.25 years each year from the Payment Date in April 2008; provided that such maximum shall not be reduced by less than 2.0 years. Such Weighted Average Life, calculated in terms of years, shall in each case be rounded to one decimal place prior to the determination of compliance with the constraint referred to in the previous sentence. For example, a Weighted Average Life of 7.6 years would be rounded to 7.5 years (the text described in this paragraph, the “Collateral Weighted Average Life Test”).

In addition to satisfying the Collateral Security Eligibility Criteria and the Collateral Weighted Average Life Test, including following the purchase of any Supplemental Collateral Securities, the Issuer may hold Collateral Securities issued by no more than 15 obligors at any one time (the “Collateral Security Quantity Constraint”).

In addition to satisfying the Collateral Security Eligibility Criteria, the Collateral Weighted Average Life Test and the Collateral Security Quantity Constraint, a Supplemental Collateral Security must be denominated in a certain Approved Currency, as required as described under “Summary—the Collateral Securities—Supplemental Collateral Securities—Purchase of Supplemental Collateral Securities”.

Substitution of Collateral Securities

From time to time following the Closing Date, any Noteholder may submit to the Trustee or the Issuing and Paying Agent, as applicable, in writing, a Collateral Security Substitution Request Notice requesting the substitution of one or more BIE Collateral Securities for one or more existing Collateral

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918111
Footnote Exhibits - Page 4891

Securities, in whole or in part. The Trustee or the Issuing and Paying Agent, as applicable, will promptly forward such Collateral Security Substitution Request Notice to the Protection Buyer. Within five Business Days of receiving such Collateral Security Substitution Request Notice, the Protection Buyer will determine whether each Proposed New BIE Collateral Security identified in the Collateral Security Substitution Request Notice is a BIE Collateral Security and will provide information and calculations in such respect to the Trustee. The Trustee will review and confirm such calculations and, if the BIE Collateral Security Eligibility Criteria are satisfied, the Trustee will determine the BIE Transaction Cost and (b) request the Basis Swap Calculation Agent to determine the BIE Basis Swap Payment. Upon such determination by the Trustee (or the Basis Swap Calculation Agent), the Trustee or the Issuing and Paying Agent, as applicable, will deliver either (1) a Collateral Security Substitution Information Notice or (2) a Collateral Security Substitution Request Notice to the Originating Noteholder with respect to each Collateral Security Substitution Request Notice, as applicable, provided, however, if the Trustee or the Issuing and Paying Agent, as applicable, delivers a Collateral Security Substitution Request Notice to the Originating Noteholder, the related Collateral Security Substitution Request Notice will be deemed to be void and of no further effect.

Within five Business Days of receiving a Collateral Security Substitution Information Notice relating to a Collateral Security Substitution Request Notice, the Originating Noteholder must (i) notify the Trustee or the Issuing and Paying Agent, as applicable, and the Protection Buyer whether it wishes to proceed with the proposed substitution and, if so (ii) agree to pay any BIE Transaction Cost (regardless of whether the Holders of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class consent to such proposed substitution) and, if the proposed substitution occurs, any applicable BIE Basis Swap Payment (the occurrence of substitutions (i) and (ii), a "Substitution Confirmation"). If a Substitution Confirmation is not received by the Trustee or the Issuing and Paying Agent, as applicable, within the time period specified above, the related Collateral Security Substitution Request Notice will be deemed to be void and of no further effect. Upon the receipt of a Substitution Confirmation, the Trustee or the Issuing and Paying Agent, as applicable, will deliver a BIE Consent Solicitation to the Portfolio Selection Agent and all Noteholders, including the Originating Noteholder. Upon receipt of such BIE Consent Solicitation, each Noteholder may, on or prior to the BIE Notification Date, submit written notice to the Trustee or the Issuing and Paying Agent, as applicable, indicating either (1) approval or (2) disapproval of the Proposed New BIE Collateral Security. If the Trustee determines that (1) the BIE Consent Solicitation failed to receive the approval of the Holders of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class by the BIE Notification Date, the Trustee or the Issuing and Paying Agency Agreement will deliver a Collateral Security Substitution Noteholder Request Notice to the Originating Noteholder and the related Collateral Security Substitution Request Notice will be deemed void and of no further effect or (2) the BIE Consent Solicitation received the approval of holders of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class, it will deliver a BIE Acceptance Notice to the Originating Noteholder.

Upon receiving confirmation (1) from the Basis Swap Counterparty that the Originating Noteholder has paid the BIE Basis Swap Payment to the Basis Swap Counterparty, (2) that the Originating Noteholder has paid the BIE Transaction Cost to the Issuer and (3) that the relevant BIE Collateral Securities have been delivered to the Issuer, and the par amount of such delivered BIE Collateral Securities is equal to the par amount of the existing Collateral Securities to be substituted, the Trustee should (a) accept its lien on the par amount of the relevant existing Collateral Securities to be substituted and (b) deliver the par amount of such substituted Collateral Securities to such Originating Noteholder.

If any BIE Collateral Security is not delivered to the Issuer, (b) the Issuer is not paid the BIE Transaction Cost or (c) the Basis Swap Counterparty is not paid the BIE Basis Swap Payment, in each case by the end of the BIE Exercise Period identified in the BIE Acceptance Notice, the BIE Acceptance Notice and the Collateral Security Substitution Request Notice will be deemed void and of no further effect.
Footnote Exhibits - Page 4892

Voting and Other Matters Relating to Collateral Securities

If the issuer has the right to vote or give consent in respect of any amendment, modification, waiver under any document relating to any Collateral Security or receives any other solicitation for any action with respect to any Collateral Security, the Trustee or the Issuing Agent, as applicable, shall give each Holder of such proposed action, including a description thereof, requesting instructions from each Holder as to whether or not to take such action, and, after receiving instruction from each Holder, the Trustee shall cause the Issuer to give such vote, consent or withhold consent, as the case may be, making such determination based on decision of Holders of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class.

Notwithstanding the preceding paragraph, the Collateral Disposal Agent will have the right to direct the Trustee to take certain actions with respect to Collateral Securities. See "The Collateral Disposal Agreement—Exercise of Put, Repurchase or Similar Right".

THE BASIS SWAP

The following description of the Basis Swap is a summary of certain provisions of the Basis Swap. The following summary does not purport to be complete, and is qualified in its entirety by reference to the detailed provisions of the Basis Swap.

The Notes do not represent an obligation of the Basis Swap Counterparty. Holders will not have any right to proceed directly against the Basis Swap Counterparty in respect of the Basis Swap Counterparty's obligations under the Basis Swap. However, the Holders of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class will have the right to direct the Issuer with respect to the enforcement of any claims that it may have against the Basis Swap Counterparty. Notwithstanding the foregoing, if the Basis Swap Counterparty is the sole defaulting party or Affected Party under the Basis Swap, then the Issuer will have 30 days to enter into a replacement credit default swap and basis swap (otherwise a Mandatory Redemption will occur). See "The Credit Default Swap—Replacement".

Effective Date and Scheduled Termination

The effective date of the Basis Swap will be the Closing Date.

Unless terminated prior to its scheduled termination date, the Basis Swap will terminate on March 1, 2038.

Payments

Periodic Payments by the Basis Swap Counterparty to the Issuer.

On each Payment Date, the Basis Swap Counterparty will pay to the Issuer the aggregate of (each aggregate with respect to any Payment Date, a "Monthly Basis Swap Payment"), for each Approved Currency in which Outstanding Notes are denominated, the products of:

(i) the Applicable Index for the Applicable Period;

(ii) the average daily Currency Adjusted Aggregate Outstanding Amount of such Notes during the preceding Basis Swap Calculation Period; and

(iii) the applicable Day Count Fraction.

Confidential Treatment Requested by Goldman Sachs

GS MIS-E-001916113
The Basis Swap Counterparty shall be the calculation agent, as defined under the Basis Swap (the "Basis Swap Calculation Agent").

Periodic Payments by the Issuer to the Basis Swap Counterparty.

Pursuant to the Basis Swap, the Issuer is obligated to pay to the Basis Swap Counterparty the Basis Swap Payment on each Payment Date. See "Summary—The Basis Swap—Terms" and "Priority of Payments—Interest Proceeds".

Basis Swap Early Termination

Basis Swap Event of Default.

(1) The occurrence of any of the following events will constitute a "Basis Swap Event of Default":

(a) failure by the Issuer, the Basis Swap Counterparty or any Basis Swap Counterparty Credit Support Provider to make, when due, any payment under the Basis Swap and the continuation of such failure for three Business Days after notice of such failure is given to such party;

(b) failure by the Basis Swap Counterparty or any Basis Swap Counterparty Credit Support Provider to comply with or perform any agreement or obligation to be complied with or performed by it in accordance with any Basis Swap Counterparty Credit Support Document if such failure is continuing after any applicable grace period has elapsed;

(c) the expiration or termination of any Basis Swap Counterparty Credit Support Document or the failure or ceasing of any such Basis Swap Counterparty Credit Support Document to be in full force and effect for the purpose of the Basis Swap (in either case other than in accordance with its terms) prior to the satisfaction of all obligations of the Basis Swap Counterparty under the Basis Swap without the written consent of the Issuer; and/or

(d) the Issuer or the Basis Swap Counterparty Credit Support Provider disaffirms, disclaims, repudiates or rejects, in whole or in part, or challenges the validity of, such Basis Swap Counterparty Credit Support Document; or

(e) the occurrence of certain events of bankruptcy, insolvency, conservatorship, receivership or reorganization with respect to the Issuer or the Basis Swap Counterparty.

Basis Swap Termination Events.

The occurrence of any of the following events will constitute a "Basis Swap Termination Event":

(a) It becomes unlawful for either the Basis Swap Counterparty, any Basis Swap Counterparty Credit Support Provider or the Issuer to perform its obligation to make a payment or delivery or to receive a payment or delivery under the Basis Swap or to comply with any other material provision thereof or for the Basis Swap Counterparty or any Basis Swap Counterparty Credit Support Provider to perform its obligations under any Basis Swap Counterparty Credit Support Document and neither party is able to transfer the obligations to a different jurisdiction or substitute another entity in its place so that such illegality ceases to apply;

(b) because of (a) any action taken by a taxing authority, or brought in a court of competent jurisdiction, on or after the Closing Date regardless of whether such action is taken or brought with respect to the Issuer, the Basis Swap Counterparty, or any Basis Swap Counterparty Credit Support Provider or (b) a change in tax law, the Basis Swap Counterparty or any Basis Swap Counterparty Credit Support Provider will, or there is a substantial likelihood that it will, on the next succeeding payment date be required to

Confidential Treatment Requested by Goldman Sachs

GS MSS-E-001918114
(1) make a "gross-up" payment in respect of an indemnifiable tax or (2) receive a payment subject to withholding or deduction of a tax for which the other party is not required to make a "gross-up" payment;

(ii) as a result of the Basis Swap Counterparty or any Basis Swap Counterparty Credit Support Provider consolidating or amalgamating with, or merging with or into, or transferring all or substantially all its assets to another entity, such party is required to (a) make a "gross-up" payment to the other party or (b) receive a payment from which an amount has been deducted or withheld for or on account of any indemnifiable tax, and neither party is able to transfer such obligation to a different jurisdiction or substitute another entity in its place such that the withholding or deduction does not apply;

(v) the Notes becoming due and payable in accordance with the indenture at any time prior to their Stated Maturity after the occurrence of an Event of Default;

(vi) an Adverse Tax Event;

the Basis Swap Counterparty or the Basis Swap Counterparty Credit Support Provider do not satisfy the Required Basis Swap Counterparty Rating and at least one of the following events has not occurred: (1) within the time period specified in the Basis Swap with respect to such downgrade, the Basis Swap Counterparty shall transfer the Basis Swap, in whole, but not in part, to a counterparty that satisfies the Required Basis Swap Counterparty Rating, (2) within the time period specified in the Basis Swap with respect to such downgrade, the Basis Swap Counterparty, so long as it has a long-term rating of at least "BBB+" by S&P, shall collateralize its exposure to the Issuer, subject to the satisfaction of the S&P Rating Condition or the Moody's Rating Condition, as applicable, (3) within the time period specified in the Basis Swap with respect to such downgrade, the obligations of the Basis Swap Counterparty under the Basis Swap shall be guaranteed by a person or entity that satisfies the Required Basis Swap Counterparty Rating, subject to the satisfaction of the S&P Rating Condition or the Moody's Rating Condition, as applicable, or (4) within the time period specified in the Basis Swap with respect to such downgrade, the Basis Swap Counterparty shall take such other steps, if any, as each of the Rating Agencies that has downgraded the Basis Swap Counterparty may require in order to be able to confirm to the Issuer in writing that the Basis Swap Counterparty's obligations under the Basis Swap will be treated by such Rating Agency as if such obligations were owed by a counterparty that satisfies the Required Basis Swap Counterparty Rating, provided that in the case of subclause (2) above, or if the Basis Swap Counterparty has previously posted collateral due to a failure to satisfy the Required Basis Swap Counterparty Rating, the Basis Swap Counterparty (based on consultation with S&P) may be required to provide an opinion of counsel regarding the Issuer's ability to terminate the Basis Swap, liquidate the posted collateral and make amounts owed to it free of any stay or other delay due to a bankruptcy of the Basis Swap Counterparty, provided in the case of any of the events (1) through (4) above, such actions shall be at the sole expense of the Basis Swap Counterparty;

(vii) the designation of a Credit Default Swap Early Termination Date;

(viii) the designation of a Collateral Put Agreement Early Termination Date; or

(ix) a Collateral Default.

Upon the Trustee becoming aware of the occurrence of any event that gives rise to the right of the Issuer to terminate the Credit Default Swap, the Basis Swap or the Collateral Put Agreement, the Trustee or the Issuing and Paying Agent, as applicable, will, as promptly as practicable notify the

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001916115
Footnote Exhibits - Page 4895

Noteholders of such event and the Trustee will terminate any such agreement on behalf of the Issuer at the direction of (i) in the case of the Credit Default Swap or the Basis Swap, a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes and (ii) in the case of the Collateral Put Agreement, 100% of the Aggregate USD Equivalent Outstanding Amount of the Notes, in each case voting as a single class. In addition, if an Event of Default or a Termination Event (as such term is defined in the Basis Swap) for which the Basis Swap Counterparty is the sole defaulting party or Affected Party (as such term is defined in the Basis Swap) under the Basis Swap, then the Issuer will have 30 days to enter into a replacement credit default swap and basis swap (otherwise a Mandatory Redemption will occur). See "The Credit Default Swap—Replacement".

Payments on Basis Swap Early Termination.

Payment by the Issuer. Upon the occurrence of a Basis Swap Early Termination, the Issuer will be required to pay to the Basis Swap Counterparty the following amounts:

(i) any accrued but unpaid Basis Swap Payment; and

(ii) any Basis Swap Termination Payment.

Payment by the Basis Swap Counterparty. Upon the occurrence of a Basis Swap Early Termination, the Basis Swap Counterparty will be required to pay to the Issuer the following amounts:

(i) any accrued but unpaid Monthly Basis Swap Payments; and

(ii) any Basis Swap Termination Payment.

As used herein, "Basis Swap Termination Payment" means the replacement cost or gain for a cash-flow swap with the financial terms of the Basis Swap, calculated in accordance with the terms of the Basis Swap Amendment.

The Basis Swap may be amended at any time without satisfying the S&P Rating Condition or the Moody's Rating Condition, or obtaining the consent of the Noteholders so long as such amendment would not have a material adverse effect on any Holders of the Notes. Otherwise, the Basis Swap may be amended only with the satisfaction of the S&P Rating Condition and the Moody's Rating Condition and the consent of the Noteholders (in a percentage as would have been required had such amendment been taken pursuant to the indenture).

Transfer

Neither the Issuer nor the Basis Swap Counterparty may transfer its rights and obligations under the Basis Swap without the prior written consent of the other party, which consent will not be unreasonably withheld or delayed, except that, and in any case subject to the S&P Rating Condition:

(i) a party may make such a transfer of its rights and obligations pursuant to a consolidation or amalgamation with, or merger into, or transfer of all or substantially all its assets to or reorganization, incorporation, reincorporation or reconstitution into or as, another entity;

(ii) a party may make such a transfer of all or any part of its interest in certain amounts payable to it from a defaulting party under the Basis Swap; and

(iii) the Basis Swap Counterparty may, without recourse, transfer the Basis Swap (in whole and not in part only) to any of the Basis Swap Counterparty's Affiliates so long as:

Confidential Treatment Requested by Goldman Sachs OS MBS-E-0010181116
Footnote Exhibits - Page 4896

(a) (1) such Affiliate has a long-term, unrated, unsubordinated debt obligation rating or financial program rating (or other similar ratings) by S&P and Moody's which are equal to or greater than the comparable long-term, unrated, unsubordinated debt obligation rating or financial program rating (or other similar ratings) of the Basis Swap Counterparty immediately prior to such transfer, or (2) the obligations transferred to such transferee must be guaranteed by the Basis Swap Counterparty pursuant to a guaranty in substantially the form of the guaranty of any Basis Swap Counterparty Credit Support Provider or other agreement or instrument consented to by the Issuer or other agreement or instrument mutually agreed upon by both parties and satisfactory to S&P.

(b) the Issuer will not have to make any tax gross-up payments to such Affiliate in an amount greater than what the Issuer would have been required to pay to the Basis Swap Counterparty in the absence of such transfer;

(c) any payment paid by such Affiliate to the Issuer will not be subject to any withholding tax in excess of what the Basis Swap Counterparty would have been required to so withhold or deduct in the absence of such transfer;

(d) it does not become unlawful for either party to perform any obligation under the Basis Swap as a result of such transfer; and

(e) a Basis Swap Early Termination does not occur as a result of such transfer.

Replacement

See "The Credit Default Swap—Replacement".

Guarantee

GS Group will guarantee the obligations of the Basis Swap Counterparty under the Basis Swap.

THE COLLATERAL PUT AGREEMENT

The following description of the Collateral Put Agreement is a summary of certain provisions of the Collateral Put Agreement. The following summary does not purport to be complete and is qualified in its entirety by reference to the detailed provisions of the Collateral Put Agreement.

The Notes do not represent an obligation of the Collateral Put Provider. Noteholders will not have any right to proceed directly against the Collateral Put Provider in respect of the Collateral Put Provider's obligations under the Collateral Put Agreement. However, the claims of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class will have the right to direct the Issuer with respect to the enforcement of any claims that it may have against the Collateral Put Provider. Notwithstanding the foregoing, if the Collateral Put Provider is the sole defaulting party or Affected Party under the Collateral Put Agreement, then the Issuer will have 30 days to enter into a replacement credit default swap and basis swap (otherwise a Mandatory Redemption will occur). See "The Credit Default Swap—Replacement".

On each Payment Date, the Issuer will pay to the Collateral Put Provider an amount, in Dollars, (each, a "Collateral Put Provider Fee Amount") equal to the product of:

(i) a rate of 0.05% per annum; and
Footnote Exhibits - Page 4897

(i) the Aggregate USD Equivalent Outstanding Amount of the Notes on the first day of the preceding Interest Accrual Period; and

(ii) the actual number of days in the preceding Interest Accrual Period divided by 360.

Effective Date and Scheduled Termination

The effective date of the Collateral Put Agreement will be the Closing Date.

Unless terminated prior to its scheduled termination date, the Collateral Put Agreement will terminate on March 1, 2038.

Payments and Delivery

In connection with any liquidation of the Collateral (other than Put Excluded Collateral) in connection with (i) the payment of any Currency Adjusted Notional Principal Adjustment Amount by the Issuer to the applicable Noteholders, (ii) an Optional Redemption in Whole or a Partial Optional Redemption or (iii) a Stated Maturity of any Series of Notes, if (a) the Collateral Disposal Agent is unable to obtain at least 100% of par for a Collateral Security and/or (b) the Trustee is unable to obtain at least 100% of par for Eligible investments (in each case other than Put Excluded Collateral and (ii) excluding any accrued and unpaid interest), the Collateral Disposal Agent will inform the Trustee and the Issuer (in the case of (a) above) and the Trustee will inform the Issuer (in the case of (b) above). The Trustee will then, on behalf of the Issuer, exercise the Issuer’s right under the Collateral Put Agreement pursuant to which the Trustee will deliver such Collateral (other than Put Excluded Collateral) to the Collateral Put Provider in exchange for the payment by the Collateral Put Provider to the Issuer of an amount equal to 100% of par for such Collateral (plus accrued and unpaid interest).

The Collateral Put Agreement will not apply to the liquidation of Collateral to fund the payment of (i) Cash Settlement Amounts to the Protection Buyer or (ii) principal of the Notes in connection with a Mandatory Redemption.

Collateral Put Agreement Early Termination

Upon the occurrence of an early termination of the Collateral Put Agreement, (i) the Issuer will be required to pay to the Collateral Put Provider any accrued but unpaid Collateral Put Provider Fee Amount, (ii) the Collateral Put Provider will be required to pay the Issuer any unpaid amounts with respect to its purchase of Collateral Securities from the Issuer pursuant to the Collateral Put Agreement and (iii) no other amounts will be payable pursuant to the Collateral Put Agreement.

Collateral Put Agreement Event of Default

The occurrence of any of the following events will constitute a “Collateral Put Agreement Event of Default”:

(i) failure by the Issuer, the Collateral Put Provider or the Collateral Put Provider Credit Support Provider to make, when due, any payment under the Collateral Put Agreement, and the continuance of such failure for three Business Days after notice of such failure is given to such party;

(ii) (a) failure by the Collateral Put Provider or the Collateral Put Provider Credit Support Provider to comply with or perform any agreement or obligation to be complied with or performed by it in accordance with the Collateral Put Provider Credit Support Document if such failure is continuing after any applicable grace period has elapsed; (b) the expiration or termination of the Collateral Put Provider Credit Support Document or the failing or ceasing of such Collateral Put Provider Credit Support Document to be in full

Confidential Treatment Requested by Goldman Sachs

GS MSS-E-001916118
Footnote Exhibits - Page 4898

force and effect for the purpose of the Collateral Put Agreement (in either case other than in accordance with its terms) prior to the satisfaction of all obligations of the Collateral Put Provider under the Collateral Put Agreement without the written consent of the Issuer; and (ii) the Collateral Put Provider or the Collateral Put Provider Credit Support Provider disclaims, repudiates or rejects, in whole or in part, or challenges the validity of, the Collateral Put Provider Credit Support Document; or

(iii) the occurrence of certain events of bankruptcy, insolvency, conservatorship, receivership or reorganization with respect to the Issuer, the Collateral Put Provider or the Collateral Put Provider Credit Support Provider.

Collateral Put Agreement Termination Events.

The occurrence of any of the following events will constitute a "Collateral Put Agreement Termination Event":

(i) It becomes unlawful for either the Collateral Put Provider, the Collateral Put Provider Credit Support Provider or the Issuer to perform its obligation to make a payment or delivery or to receive a payment or delivery under the Collateral Put Agreement or to comply with any other material provision thereof or for the Collateral Put Provider or any Collateral Put Provider Credit Support Provider to perform its obligations under the Collateral Put Provider Credit Support Document and neither party is able to transfer its obligations to a different jurisdiction or substitute another entity in its place so that such illegality ceases to apply;

(ii) because of (a) any action taken by a taxing authority, or brought in a court of competent jurisdiction, on or after the Closing Date (regardless of whether such action is taken or brought with respect to the Issuer, the Collateral Put Provider, or the Collateral Put Provider Credit Support Provider) or (b) a change in tax law, the Collateral Put Provider or the Collateral Put Provider Credit Support Provider will, or there is a substantial likelihood that it will, on the next succeeding payment date be required to (1) make a "gross-up" payment in respect of an indemnifiable tax or (2) receive a payment subject to withholding or deduction of a tax for which the other party is not required to make a "gross-up" payment;

(iii) as a result of the Collateral Put Provider or the Collateral Put Provider Credit Support Provider consolidating or amalgamating with, or merging with or into, or transferring all or substantially all its assets to another entity, such party is required to (a) make a "gross-up" payment to the other party or (b) receive a payment from which an amount has been deducted or withheld for or on account of any indemnifiable tax, and neither is able to transfer such obligation to a different jurisdiction or substitute another entity in its place such that the withholding or deduction does not apply;

(iv) the Notes becoming due and payable in accordance with the Indenture at any time prior to their Stated Maturity after the occurrence of an Event of Default;

(v) an Adverse Tax Event;

(vi) the designation of a Credit Default Swap Early Termination Date;

(vii) the designation of a Basis Swap Early Termination Date;

(viii) a Collateral Default; or

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918110
(ix) if (a) the Collateral Put Provider no longer satisfies the Replacement Counterparty Rating and (b) none of the following events has occurred:

(1) within five Business Days of such failure to satisfy the Replacement Counterparty Rating, GSI, a replacement counterparty or an entity that guarantees the obligations of GSI or such replacement counterparty, as the case may be, posts eligible collateral pursuant to a credit support annex (the "Credit Support Annex"), to the Issuer in an amount that satisfies the S&P Rating Condition and the Moody's Rating Condition; or

(2) within 30 days of such Collateral Put Provider failing to satisfy the Replacement Counterparty Rating, if GSI, a replacement counterparty or an entity that guarantees the obligations of GSI or such replacement counterparty, as the case may be, does not elect to post eligible collateral to the Issuer in accordance with subsection (i) above:

(A) GSI or a replacement counterparty, as the case may be, transfers the Collateral Put Agreement, in whole, but not in part, to a counterparty that satisfies the Replacement Counterparty Rating, subject to "—Transfer" below;

(B) the obligations of GSI, a replacement counterparty or an entity that guarantees the obligations of GSI or such replacement counterparty, as the case may be, under the Collateral Put Agreement are guaranteed by a Person that satisfies the Replacement Counterparty Rating;

(C) (i) GSI, a replacement counterparty, or an entity that guarantees the obligations of GSI or such replacement counterparty, as the case may be, purchases from the Issuer at a price of 100% any Collateral Security that has a market value of 95% or less, as determined by the Collateral Disposal Agent and (ii) after giving effect to the purchase described in the preceding subclause, the S&P Rating Condition and the Moody's Rating Condition will be satisfied; or

(D) GSI, a replacement counterparty or an entity that guarantees the obligations of GSI or such replacement counterparty, as the case may be, sells such other slope, if any, as S&P or Moody's, as the case may be, may require in order to be able to continue to conduct in good faith and in a manner that ensures that the Issuer is not in default of any of the obligations of GSI or such replacement counterparty, as the case may be, obligations under the Collateral Put Agreement will be treated by such Rating Agency as if such obligations were owed by a counterparty that satisfies the Replacement Counterparty Rating.

Upon the Trustee becoming aware of the occurrence of any event that gives rise to the right of the Issuer to terminate the Credit Default Swap, the Basis Swap or the Collateral Put Agreement, the Trustee or the Issuing and Paying Agent, as applicable, will as promptly as practicable notify the Noteholders of such event and the Trustee will terminate any such agreement on behalf of the Issuer at the direction of (i) in the case of the Credit Default Swap or the Basis Swap, a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes and (ii) in the case of the Collateral Put Agreement, 100% of the Aggregate USD Equivalent Outstanding Amount of the Notes, in each case voting as a single class. In addition, if an Event of Default or a Termination Event (as such term is defined in the Collateral Put Agreement) for which the Collateral Put Provider is the sole defaulting party or Affected Party (as such term is defined in the Collateral Put Agreement) under the Collateral Put Agreement, then

81
the issuer will have 30 days to enter into a replacement credit default swap and basis swap (otherwise a Mandatory Redemption will occur). See “The Credit Default Swap—Replacement.” In connection with any Noteholder vote to terminate the Collateral Put Agreement, any Notes held by or on behalf of the Collateral Put Provider or any of its Affiliates will have no voting rights and will be deemed not to be Outstanding in connection with any such vote.

Amendment

The Collateral Put Agreement may be amended at any time without satisfying the S&P Rating Condition and the Moody's Rating Condition or obtaining the consent of the Noteholders so long as such amendment would not have a material adverse effect on any Holders of the Notes. Otherwise, the Collateral Put Agreement may be amended only with the satisfaction of the S&P Rating Condition and the Moody's Rating Condition and the consent of the Noteholders (as a percentage as would have been required had such amendment been taken pursuant to the Indenture).

Transfer

Neither the issuer nor the Collateral Put Provider may transfer its rights and obligations under the Collateral Put Agreement without the prior written consent of the other party, which consent will not be unreasonably withheld or delayed, except that, and in any case subject to the S&P Rating Condition:

(i) a party may make such a transfer of its rights and obligation pursuant to a consolidation or amalgamation with, or merger into, or transfer of all or substantially all its assets to or reorganization, incorporation, reincorporation or reconstitution into or as, another entity;

(ii) a party may make such a transfer of all or any part of its interest in certain amounts payable to it from a defaulting party under the Collateral Put Agreement; and

(iii) the Collateral Put Provider may, without recourse, transfer the Collateral Put Agreement (in whole and not in part only) to any of the Collateral Put Provider’s Affiliates so long as

(a) GS Group (or another entity with a credit rating at least equal to that of GS Group) guarantees such transferred obligations of the transferee pursuant to a guaranty in substantially the form of the guaranty of GS Group specified in the Collateral Put Agreement; or such transferee must have a credit rating at least equal to that of GS Group;

(b) the issuer will not have to make any tax gross-up payments to such Affiliate in an amount greater than what the issuer would have been required to pay to the Collateral Put Provider in the absence of such transfer;

(c) any payment paid by such Affiliate to the issuer will not be subject to any withholding tax in excess of what the Collateral Put Provider would have been required to so withhold or deduct in the absence of such transfer;

(d) it does not become unlawful for either party to perform any obligation under the Collateral Put Agreement or the Credit Support Annex, if any, as a result of such transfer; and

(e) a Collateral Put Agreement Early Termination does not occur as a result of such transfer.

GS MBS-E-301919121
Footnote Exhibits - Page 4901

Replacement

See "The Credit Default Swap—Replacement".

Guarantee

GS Group will guarantee the obligations of the Collateral Put Provider under the Collateral Put Agreement.

THE COLLATERAL DISPOSAL AGREEMENT

On the Closing Date, the Issuer will enter into the Collateral Disposal Agreement (the "Collateral Disposal Agreement") with Goldman, Sachs & Co. (in such capacity, the "Collateral Disposal Agent"). The following description of the Collateral Disposal Agreement is a summary of certain provisions of the Collateral Disposal Agreement. The following summary does not purport to be complete, and is qualified in its entirety by reference to the detailed provisions of the Collateral Disposal Agreement.

The Notes do not represent an obligation of the Collateral Disposal Agent. Noteholders will not have any right to proceed directly against the Collateral Disposal Agent in respect of the Collateral Disposal Agent's obligations under the Collateral Disposal Agreement. However, the Holders of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class will have the right to direct the Issuer with respect to the enforcement of any claims that it may have against the Collateral Disposal Agent.

Liquidation

In connection with any liquidation in part of the portfolio of Collateral Securities for any of the circumstances described in subclauses (i), (ii), (iv) and (vii) under "Summary—The Collateral Securities—Supplemental Collateral Securities—Liquidation of Collateral Securities", the Collateral Disposal Agent will determine the Selected Collateral Securities to be liquidated (if applicable), after taking into consideration any proceeds from the liquidation of any Eligible Investments; provided that any such Selected Collateral Securities will be denominated in the same currency as the Notes for which the Currency Adjusted Aggregate Outstanding Amount is reduced by the related Currency Adjusted Credit Event Adjustment Amount. Currency Adjusted Notional Principal Adjustment Amount, Partial Optional Redemption or a Stated Maturity, as applicable.

In connection with any liquidation of any Collateral Securities, the Collateral Disposal Agent will use commercially reasonable efforts to solicit bids on behalf of the Issuer. The Collateral Disposal Agent may, in its sole discretion, but up to 100% of the principal amount of a Collateral Security (excluding any accrued interest) if the Collateral Disposal Agent is not able to procure a third-party bid of at least 100%.

If such liquidation is in connection with the payment by the Issuer of a Currency Adjusted Notional Principal Adjustment Amount to the applicable Noteholders or an Optional Redemption in Whole or Partial Optional Redemption, the Issuer will have the benefit of the Collateral Disposal Agreement and no Collateral Security will be liquidated at less than 100% of par. See "The Collateral Put Agreement".

In connection with any liquidation of Collateral Securities as described in subclauses (iii) under "Summary—The Collateral Securities—Supplemental Collateral Securities—Liquidation of Collateral Securities", the Collateral Disposal Agent will perform the acts described under "Description of the Notes—Mandatory Redemption", including, but not limited to, those acts described in the Special Termination Liquidation Procedure.

Confidential Treatment Requested by Goldman Sachs
Footnote Exhibits - Page 4902

Early Termination

The Collateral Disposal Agreement will terminate on the earlier of (i) the final Stated Maturity of any Series of Notes, (ii) the Optional Redemption Date, (iii) the Mandatory Redemption Date, (iv) a liquidation of all Collateral Securities following the occurrence of an Event of Default and (v) the termination of the Hedging in accordance with its terms.

Exercise of Put, Repurchase or Similar Right

Notwithstanding any provision to the contrary contained herein, the Collateral Disposal Agreement will not be enforceable by the Trustee to exercise any put right, right under repurchase agreement or other similar right that the Issuer has under any Collateral Security within the applicable time period.

Credit Support Amount Due and Payable

If a Credit Support Annex has been entered into by the Collateral Put Provider and the Issuer and any credit support amount becomes due and payable pursuant to the terms thereof, the Collateral Disposal Agreement will (i) calculate the market value of each Collateral Security and (ii) notify the Collateral Put Provider of any such Collateral Security that has a market value of 95% or less.

Amendment

The Collateral Disposal Agreement may be amended only if (a) if the S&P Rating Condition and the Moody's Rating Condition have been satisfied and (b) with the consent of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class and the Protection Buyer. However, the Collateral Disposal Agreement may be amended at any time without the consent of the Noteholders so long as such amendment will not (i) reduce in any manner the amount of, or delay the timing of, payments which are required to be made to the Issuer or (ii) materially adversely affect the Noteholders (as evidenced by a failure of a Majority of the Noteholders to object to such amendment within 10 Business Days of the Issuer’s delivering a notice of such amendment to all Noteholders).

THE PORTFOLIO SELECTION AGENT

The information appearing in this section (other than the information contained under the heading “General”) has been prepared by the Portfolio Selection Agent and has not been independently verified by the Issuer, the Initial Purchaser or any other person or entity. None of the Issuer or the Initial Purchaser assumes any responsibility for the accuracy, completeness or applicability of such information. Accordingly, the Portfolio Selection Agent assumes sole responsibility for the accuracy, completeness or applicability of such information. The Portfolio Selection Agent does not assume responsibility for any other information in this Offering Circular.

General

The Portfolio Selection Agent will, pursuant to the terms of the Portfolio Selection Agreement, (a) select the Initial Reference Portfolio and (b) have the right to review the calculations of the Credit Default Swap Calculation Agent and the Trustee on any Determination Date. The Portfolio Selection Agent will not be responsible for producing or providing records, notices or other information relating to the Notes or the Reference Portfolio. The Portfolio Selection Agent will not provide any other services to the Issuer or act as the “collateral manager” for the Collateral. The Portfolio Selection Agent will not have any fiduciary duties or other duties to the Issuer or to the holders of the Notes and will not have any ability to direct the Trustee to dispose of any of the Issuer’s assets.

The Portfolio Selection Agent is not permitted under the terms of the Credit Default Swap to remove or replace any Reference Obligations at any time.

GS MBS-E-001918123
Footnote Exhibits - Page 4903

The Portfolio Selection Agent, its Affiliates or client accounts for which the Portfolio Selection Agent or its Affiliates act as investment advisor may at times own Notes. Any Notes owned by the Portfolio Selection Agent or its Affiliates are subject to disposition by such parties in their discretion. At any given time the Portfolio Selection Agent and its Affiliates will be entitled to vote with respect to any Notes held by them and by such accounts with respect to all other matters. See “Risk Factors—Certain Conflicts of Interest Relating to the Portfolio Selection Agent and its Affiliates”.

ACA Management, L.L.C.

ACA Management, L.L.C. (“ACA Management”), a Delaware limited liability company formed on May 4, 2001 to provide asset management services to affiliated and non-affiliated investors, will be the portfolio selection agent under the Portfolio Selection Agreement (in such capacity, together with any successor, the “Portfolio Selection Agent”).

ACA Management is registered as an “investment advisor” under the U.S. Investment Advisors Act of 1940, as amended (the “Advisers Act”).

ACA Management is an indirect wholly-owned subsidiary of ACA Capital Holdings, Inc. (“ACA Capital Holdings”). ACA Capital Holdings is a public company traded on the New York Stock Exchange under the ticker “ACA.” Shareholders owning more than 5% of ACA Capital Holdings’ outstanding common stock include Bear Stearns Merchant Banking, GCC Investments, Inc., S.F. Holding Corp., Third Avenue Value Fund and Perry Corp. In addition to ACA Management, ACA Capital Holdings’ significant subsidiaries include ACA Risk Solutions, L.L.C. (“ACA Risk Solutions”), ACA Management’s direct parent corporation, ACA Service, L.L.C. (“ACA Service”), the holding company for the ACA Capital Holdings U.S. structured finance businesses and direct parent corporation of ACA Risk Solutions, and ACA Financial Guaranty Corporation (“ACA Guaranty”), a financial guaranty insurance corporation and the direct parent corporation of ACA Service. Both ACA Risk Solutions and ACA Service are Delaware limited liability corporations and ACA Guaranty is a Maryland stock insurance company. ACA Capital Holdings and its subsidiaries, including ACA Management, are referred to herein as “ACA Capital.” The offices of ACA Capital and all of its U.S. domiciled subsidiaries are located at 140 Broadway, 47th Floor, New York, New York 10038.

ACA Service will assist the Portfolio Selection Agent in selecting the Initial Reference Portfolio.

ACA Guaranty has “A” financial strength and financial enhancement ratings from S&P. The S&P rating reflects S&P’s current assessment of the creditworthiness of ACA Guaranty and its ability to pay claims on its policies of insurance. Any further explanation as to the significance of the S&P’s rating may be obtained only from S&P. The S&P rating is not a recommendation to buy, sell or hold any securities, and such rating may be subject to revision or withdrawal at any time by S&P.

THE PORTFOLIO SELECTION AGREEMENT

The following summary describes certain provisions of the Portfolio Selection Agreement. The summary does not purport to be complete and is subject to, and qualified in its entirety by reference to, the provisions of the Portfolio Selection Agreement.

The Portfolio Selection Agent will, pursuant to the Portfolio Selection Agreement, select the Initial Reference Portfolio and have the right to review the calculations of the Credit Default Swap Calculation Agent and the Trustee on any Determination Date.

As compensation for the performance of its obligations as Portfolio Selection Agent under the Portfolio Selection Agreement, the Portfolio Selection Agent will receive a fee (the “Portfolio Selection Fee”), to the extent the funds available for such purpose in accordance with the Priority of Payments. The Portfolio Selection Fee will accrue daily from the Closing Date and will be an amount equal to the sum of (a) with respect to each Payment Date, the sum of the quotients determined for each Class of

Confidential Treatment Requested by Goldman Sachs
Notes on each day of the related Interest Accrual Period of (i) the product of (a) the average daily Aggregate USD Equivalent Outstanding Amount of such Class during the preceding Interest Accrual Period, (b) the Applicable Class Portfolio Selection Fee Rate with respect to such Class of Notes and (c) the actual number of days in the preceding Interest Accrual Period divided by (ii) 360, payable in arrears on each Payment Date and (ii) on the Payment Date occurring in April 2008 and occurring in each successive April to and including the Payment Date immediately following the end of the Non-Cash Period, an amount equal to the excess (if any) of (1) $1,000,000 over (2) the aggregate of all Portfolio Selection Fees payable to the Portfolio Selection Agent from and excluding the Payment Date occurring in April of the immediately preceding year (or in the case of the Payment Date occurring in April 2008, from the Closing Date) and the Portfolio Selection Fee that is payable by the Issuer to the Portfolio Selection Agent pursuant to clause (c) on such date.

To the extent not paid on any Payment Date when due, any accrued Portfolio Selection Fee will be deferred and will be payable on the next subsequent Payment Date on which funds are available for the payment thereof in accordance with the Priority of Payments. Any unpaid Portfolio Selection Fee that is deferred due to the operation of the Priority of Payments will not accrue interest.

The Portfolio Selection Agent will be responsible for its own expenses and costs incurred in the course of performing its obligations under the Portfolio Selection Agreement.

The Portfolio Selection Agent will not be liable to the Issuer, the Trustee, the Initial Purchaser, the Noteholders, the Protection Buyer, the Collateral Put Provider, the Basis Swap Counterparty, the Collateral Disposal Agent or any of their respective Affiliates, partners, shareholders, officers, directors, employees, agents, accountants and attorneys for any losses, damages, claims, liabilities, costs or expenses (including attorney’s fees) incurred as a result of the actions taken or recommended by or on behalf of the Portfolio Selection Agent under the Portfolio Selection Agreement, the Credit Default Swap or the Indentures, except by reason of acts constituting bad faith, willful misconduct, gross negligence or reckless disregard of its duties and obligations thereunder.

The Portfolio Selection Agent and any of its Affiliates may engage in other businesses and may furnish investment management and advisory services to related entities whose investment policies may differ from or be similar to those followed by the Portfolio Selection Agent on behalf of the Issuer, as required by the Portfolio Selection Agreement. The Portfolio Selection Agent and its Affiliates will be free, in their sole discretion, to make recommendations to others, or effect transactions on behalf of themselves or others which may be the same as or different from those effected with respect to the Reference Portfolio. In addition, the Portfolio Selection Agent and its Affiliates may, from time to time, cause, direct or recommend that their clients buy or sell securities of the same or different kind or class of the same issuer as securities that are part of the Reference Portfolio and that the Portfolio Selection Agent directs to be included in or removed from the Reference Portfolio. See “Risk Factors—Certain Conflicts of Interest Relating to the Portfolio Selection Agent and its Affiliates.”

Neither the Portfolio Selection Agent nor any of its Affiliates are under any obligation to maintain any investment in the Notes.

**ACCOUNTS**

Interest Collection Account and Principal Collection Account

Interest Proceeds and interest payments received on the Collateral Securities (which interest payments shall be paid to the Basis Swap Counterparty pursuant to the Basis Swap) shall be deposited into a segregated trust account (within which related subaccounts may be created to deposit such amounts in different Approved Currencies) held in the name of the Issuer for the benefit of the Holders of the Notes (the "Interest Collection Account"). Amounts deposited in the Interest Collection Account will be available, together with reinvestment earnings thereon, for application to the payment of the amounts set forth under "Description of the Notes—Priority of Payments."
Footnote Exhibits - Page 4905

Principal Proceeds shall be deposited into a segregated trust account (within which related subaccounts may be created to deposit such amounts in different Approved Currencies) designated as the "Principal Collection Account". Amounts deposited in the Principal Collection Account will be invested in Eligible Investments until such Principal Proceeds are (i) reinvested in Collateral Securities or pending such reinvestment, reinvested in Eligible Investments or (ii) applied in accordance with the Priority of Payments. See "Description of the Notes—Priority of Payments".

Payment Account

On or prior to each Payment Date and on or prior to any other Business Day on which any other payment is required to be made by the Issuer, the Trustee will deposit into a separate account (within which related subaccounts may be created to deposit such amounts in different Approved Currencies) held in the name of the Issuer for the benefit of the Holders of the Notes and designated as the "Payment Account" as set forth in the indenture, the applicable amount of funds from the Interest Collection Account and/or the Principal Collection Account as applicable, for payment of amounts described in accordance with the priorities described under "Description of the Notes—Priority of Payments".

Closing Date Expense Account

The Trustee will establish and maintain a segregated trust account (the "Closing Date Expense Account") for the payment of Closing Date expenses. On the Closing Date, the Trustee will deposit into the Closing Date Expense Account part of the Upfront Payment, and such amount will be used to pay expenses associated with the Closing Date. Any amount deposited in the Closing Date Expense Account and not required for payment of such expenses shall be transferred by the Trustee at the direction of the Protection Buyer.

Collateral Put Provider Account

If a Credit Support Annex has been entered into by the Collateral Put Provider and the Issuer, Pledged Collateral (as defined in the Credit Support Annex) shall be deposited into a segregated trust account or trust accounts so designated and established pursuant to the Indenture and held there pursuant to the Collateral Put Agreement (such account, the "Collateral Put Provider Account").

CDS Issuer Account

On the Closing Date, the Trustee will establish and maintain a segregated trust account (the "CDS Issuer Account") with respect to the Credit Default Swap, into which all required amounts received by the Trustee from the Protection Buyer shall be deposited by the Trustee (as directed by the Issuer). The Trustee will deposit each Fixed Payment received from the Protection Buyer pursuant to clauses (i) through (ii) of the definition of "Fixed Payment" (and a subaccount of the CDS Issuer Account (such subaccount, the "CDS Issuer Fixed Payment Subaccount"). On each succeeding Payment Date, amounts previously on deposit in the CDS Issuer Fixed Payment Subaccount will be released by the Trustee to the Protection Buyer in accordance with the Protection Agreement.

THE ISSUERS

General

The Issuer was incorporated on March 1, 2007 in the Cayman Islands under the Companies Law (2004 Revision) of the Cayman Islands with the registration number 182035. The registered office of the Issuer is at the offices of Maples Finance Limited, P.O. Box 1091 GT, Queensgate House, South Church

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918126
Street, George Town, Grand Cayman, Cayman Islands. The Issuer was incorporated for the specific purpose of carrying out the transactions described in this Offering Circular, which primarily consists of issuing the Notes, acquiring the Collateral, entering into the Credit Default Swap, the Basis Swap and the Collateral Put Agreement and engaging in certain related transactions, as set forth in Clause 3 of its Memorandum and Articles of Association. Prior to the date hereof, the Issuer has not engaged in any activities other than in connection with the acquisition of certain of the Collateral Securities to be held on the Closing Date.

The Co-Issuer was incorporated on February 27, 2007 in the State of Delaware under the General Corporation Law of the State of Delaware with the registration number 406059. The registered office of the Co-Issuer is at 880 Library Avenue, Suite 204, Newark, Delaware 19711. The Co-Issuer was organized for the specific purpose of carrying out the transactions described in this Offering Circular, which primarily consists of co-issuing the Co-Issued Notes, as set forth in Article Third of its Certificate of Incorporation. The Co-Issuer has no prior operating history.

The Co-Issued Notes are obligations only of the Issuer and not of the Trustee, the Issuing and Paying Agent, the Initial Purchaser, the Portfolio Selection Agent, the Administrator, or any directors or officers of the Issuer or any of their respective Affiliates. The Issuer Notes are obligations only of the Issuer and not of the Co-Issuer, the Trustee, the Issuing and Paying Agent, the Initial Purchaser, the Portfolio Selection Agent, the Administrator, or any directors or officers of the Issuer or any of their respective Affiliates.

At the Closing Date, the authorized share capital of the Issuer will consist of 300 ordinary shares, $1.00 par value per share (the “Issuer Ordinary Shares”), all of which shares will be issued prior to the Closing Date. The authorized common stock of the Co-Issuer consists of 1,000 shares of common stock, $0.01 par value (the “Co-Issuer Common Stock”), all of which shares will be issued prior to the Closing Date. All of the outstanding Issuer Ordinary Shares will be held by the Trustee, under the terms of a declaration of trust, which provides that the shares and other amounts held on trust thereunder shall be divided into three equal parts and be held for the benefit of three mutually exclusive groups of corporations and companies whose objects are exclusively charitable and which provide that the Trustee shall not, as shareholder, give directions in relation to the management of the business of the Issuer without the prior written consent of the Trustee. The Co-Issuer Common Stock will be held by the Issuer. For so long as any of the Notes are Outstanding, no beneficial interest in the Issuer Ordinary Shares or the Co-Issuer Common Stock shall be registered to a U.S. Person.

Capitalization of the Issuer

The initial proposed capitalization (including the USD Equivalent of the Notes denominated in Approved Currencies other than Dollars) of the Issuer as of the Closing Date after giving effect to the issuance of the Notes and the Issuer Ordinary Shares (before deducting expenses of the offering) is as set forth below.

Capitalization of the Co-Issuer

The Co-Issuer will be capitalized only to the extent of common equity of $10, will have no assets other than its equity capital and will have no debt other than as Co-Issuer of the Co-Issued Notes.

The Co-Issuer has agreed to co-issuer the Co-Issued Notes as an accommodation to the Issuer and the Co-Issuer is receiving no remuneration for so acting. Because the Co-Issuer has no assets, and is not permitted to have any assets, Noteholders will not be able to exercise their rights with respect to the Notes against any assets of the Co-Issuer. Noteholders must rely on the Issuer Assets held by the Issuer and pledged to the Trustee for the benefit of the Noteholders (and certain service providers) for payment on their respective Notes, in accordance with the Priority of Payments.

Business

The Issuer will not undertake any business other than the issuance of the Co-Issued Notes and, in the case of the Issuer, the issuance of the Issuer Notes and the Issuer Ordinary Shares, the acquisition of the Collateral and entering into the Credit Default Swap, the Portfolio Selection Agreement, the Basis Swap and the Collateral Put Agreement and, in each case, other related transactions. The Issuer will not have any subsidiaries other than the Co-Issuer. The Co-Issuer will not have any subsidiaries.

In addition, pursuant to the terms of the Collateral Administration Agreement, the issuer will retain the Collateral Administrator to compile certain reports with respect to the Issuer Assets. The compensation paid by the Issuer for such services will be in addition to the fees paid to LeGalle Bank National Association in its capacity as Trustee, and will be treated as an expense of the Issuer and will be subject to the Priority of Payments.

The Administrator will act as the administrator of the Issuer. The office of the Administrator will serve as the general business office of the Issuer. Through this office and pursuant to the terms of an agreement, dated April 25, 2007, between the Administrator and the Issuer relating to the administration of the Issuer in the Cayman Islands, and as amended from time to time in accordance with the terms thereof (the "Administration Agreement"), the Administrator will perform various management functions on behalf of the Issuer, including communications with shareholders and the general public, and the provision of certain clerical, administrative and other services until the termination of the Administration Agreement. In consideration of the foregoing, the Administrator will receive various fees and other charges payable by the Issuer at rates agreed upon from time to time plus expenses. The directors of the Issuer listed below are also officers and/or employees of the Administrator.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918128
Footnote Exhibits - Page 4908

The Administrator will be subject to the overview of the Issuer’s Board of Directors. The Administration Agreement may be terminated by either the Issuer or the Administrator upon three months’ written notice.

The Administrator’s principal office is: P.O. Box 1093 GT, Queensgate House, South Church Street, Grand Cayman, Cayman Islands.

Directors

The Directors of the Issuer are Wendy Ebenke and Carrie Bunten.
The Director of the Co-Issuer is Donald Puglisi.

INCOME TAX CONSIDERATIONS

General

Purchasers of Notes may be required to pay stamp taxes and other charges in accordance with the laws and practices of the country of purchase in addition to the issue price of each Note.

Potential purchasers who are in any doubt about their tax position on purchase, ownership, transfer or exercise of any Note should consult their own tax advisors. In particular, no representation is made as to the manner in which payments under the Notes would be characterized by any relevant taxing authority. Potential investors should be aware that the relevant fiscal rules or their interpretation may change, possibly with retroactive effect, and that this summary is not exhaustive. This summary does not constitute legal or tax advice or a guarantee to any potential investor of the tax consequences of investing in the Notes.

Cayman Islands Tax Considerations

The following discussion of certain Cayman Islands income tax consequences of an investment in the Notes is based on the advice of Maples and Calder as to Cayman Islands law. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It assumes that the Issuer will conduct its affairs in accordance with assumptions made by, and representations made to, counsel. It is not intended as tax advice, does not consider any investors particular circumstances, and does not consider tax consequences other than those arising under Cayman Islands law.

The following is a general summary of Cayman Islands taxation in relation to the Notes.

Under existing Cayman Islands laws:

(i) payments of principal and interest in respect of, or distributions on, the Notes will not be subject to taxation in the Cayman Islands and no withholding will be required on such payments to any Holder of a Note and gains derived from the sale of Notes will not be subject to Cayman Islands income or corporation tax. The Cayman Islands currently have no income, corporation or capital gains tax and no estate duty, inheritance tax or gift tax; and

(ii) no stamp duty is payable in respect of the issue of the Notes. The Notes themselves will be stampable if they are executed in or brought into the Cayman Islands.

The Issuer has been incorporated under the laws of the Cayman Islands as an exempted company and, as such, has applied for and obtained an undertaking from the Governor in Cabinet of the Cayman Islands substantially in the following form:

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001916129
THE TAX CONCESSIONS LAW
(1995 REVISION)
UNDERTAKING AS TO TAX CONCESSIONS

In accordance with Section 6 of the Tax Concessions Law (1995 Revision), the Governor in
Cabinet undertakes with:

ABACUS 2007-AC1, Ltd. ("the Company")

(a) that no Law which is hereafter enacted in the Islands imposing any tax to be levied on
profits, income, gains or appreciations shall apply to the Company or its operations; and

(b) in addition, that no tax to be levied on profits, income, gains or appreciations or which is
in the nature of estate duty or inheritance tax shall be payable

(i) on or in respect of the shares, debentures or other obligations of the Company;
or

(ii) by way of the withholding in whole or in part of any relevant payment as defined
in Section 6(3) of the Tax Concessions Law (1999 Revision).

These concessions shall be for a period of THIRTY years from the 12th day of March 2007.

GOVERNOR IN CABINET

The Cayman Islands does not have an income tax treaty arrangement with the United States or
any other country. The Cayman Islands has entered into an information exchange agreement with the
United States.

THE PRECEDING DISCUSSION IS ONLY A SUMMARY OF CERTAIN TAX IMPLICATIONS
OF AN INVESTMENT IN THE NOTES. PROSPECTIVE INVESTORS ARE URGED TO CONSULT
WITH THEIR OWN TAX ADVISORS PRIOR TO INVESTING TO DETERMINE THE TAX
IMPLICATIONS OF SUCH INVESTMENT IN LIGHT OF EACH INVESTOR'S PARTICULAR
CIRCUMSTANCES.

United States Federal Income Taxation

General.

The following summary describes the principal U.S. federal income tax consequences of the
purchase, ownership and disposition of the Notes to investors that acquire the Notes at original issuance
for an amount equal to the "Issuance Price" of the relevant Class of Notes (for purposes of this section, with
respect to each such Class of Notes, the first price at which a substantial amount of Notes of such
Class are sold to the public (excluding bond houses, brokers, underwriters, placement agents, and
wholesalers) is referred to herein as the "Issuance Price"). This summary does not purport to be a
comprehensive description of all the tax considerations that may be relevant to a particular investor's
decision to purchase the Notes. In addition, this summary does not describe any tax consequences
arising under the laws of any state, locality or taxing jurisdiction other than the United States federal
income tax laws. In general, the summary assumes that a holder holds a Note as a capital asset and not
as part of a hedge, straddle, or conversion transaction, within the meaning of Section 1225 of the Code.

The advice below was not written and is not intended to be used and cannot be used by any
taxpayer for purposes of avoiding United States federal income tax penalties that may be imposed. The

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918130
advice is written to support the promotion or marketing of the transaction. Each taxpayer should seek advice based on the taxpayer’s particular circumstances from an independent tax advisor.

The foregoing disclaimer is provided to satisfy obligations under Circular 230 governing standards of practice before the Internal Revenue Service.

This summary is based on the U.S. tax laws, regulations (final, temporary and proposed), administrative rulings and practice and judicial decisions in effect or available on the date of this Offering Circular. All of the foregoing are subject to change or differing interpretation at any time, which change or interpretation may apply retroactively and could affect the continued validity of this summary.

This summary is included herein for general information only, and there can be no assurance that the U.S. Internal Revenue Service (the "IRS") will take a similar view of the U.S. federal income tax consequences of an investment in the Notes as described herein. ACCORDINGLY, PROSPECTIVE PURCHASERS OF THE NOTES SHOULD CONSULT THEIR OWN TAX ADVISORS AS TO U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF THE NOTES AND THE POSSIBLE APPLICATION OF STATE, LOCAL, FOREIGN OR OTHER TAX LAWS. IN PARTICULAR, NO REPRESENTATION IS MADE AS TO THE MANNER IN WHICH PAYMENTS UNDER THE NOTES WOULD BE CHARACTERIZED BY ANY RELEVANT TAXING AUTHORITY.

As used in this section, the term "U.S. Holder" includes a beneficial owner of a Note that is, for U.S. federal income tax purposes, a citizen or individual resident of the United States of America, an entity treated for United States federal income tax purposes as a corporation or a partnership created or organized in or under the laws of the United States of America or any state thereof or the District of Columbia, an estate the income of which is includable in gross income for U.S. federal income tax purposes regardless of its source, or a trust if, in general, a court within the United States of America is able to exercise primary supervision over its administration and one or more U.S. persons have the authority to control all substantial decisions of such trust, and certain eligible trusts that have elected to be treated as United States persons. This summary assumes that a U.S. Holder has a U.S. Dollar functional currency and the Issuer has a non-U.S. Dollar functional currency. This summary also does not address the rules applicable to certain types of investors that are subject to special U.S. federal income tax rules, including but not limited to, dealers in securities or currencies, traders in securities, financial institutions, U.S. exploiters, tax-exempt entities, charitable remainder trusts and their beneficiaries, insurance companies, persons or their qualified business units ("QBUS") whose functional currency is not the U.S. Dollar, persons that own (directly or indirectly) equity interests in holders of Notes and subsequent purchasers of the Notes.

For U.S. federal income tax purposes, the issuer, and not the Co-Issuer, will be treated as the issuer of the Co-Issued Notes.

Tax Treatment of the Issuer

The Code and the Treasury regulations promulgated thereunder provide a specific exemption from net income-based U.S. federal income tax to non-U.S. corporations that reside their activities in the United States in trading in stocks and securities (and any other activity closely related thereto) for their own account, whether such trading (or such other activity) is conducted by the corporation or its employees or through a resident broker, commission agent, custodian or other agent. This particular exemption does not apply to non-U.S. corporations that are engaged in activities in the United States other than trading in stocks and securities (and any other activity closely related thereto) for their own account or that are dealers in stocks and securities.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918131
The issuer intends to rely on the above exemption and does not intend to operate so as to be subject to U.S. federal income taxes on its net income. In this regard, on the Closing Date, the issuer will receive an opinion from McKee Nelson LLP, special U.S. tax counsel to the Issuer and the Co-Issuer ("Special U.S. Tax Counsel") to the effect that, although no activity closely comparable to that contemplated by the Issuer has been the subject of any Treasury regulation, administrative ruling or judicial decision, under current law and assuming compliance with the Issuer's relevant governing documents, the indenture, the Issuing and Paying Agency Agreement, the Portfolio Selection Agreement and other related documents (the "Documents"), the Issuer's permitted activities will not cause it to be engaged in a trade or business in the United States, and consequently, the Issuer's profits will not be subject to U.S. federal income tax on a net income basis. The opinion of Special U.S. Tax Counsel will be based on the Code, the Treasury regulations (final, temporary and proposed) thereunder, the existing authorities, and Special U.S. Tax Counsel's interpretation thereof and judgment concerning their application to the Issuer's permitted activities, and on certain factual assumptions and representations as to the Issuer's permitted activities. The Issuer intends to conduct its affairs in accordance with the Documents and such assumptions and representations, and the remainder of this Summary assumes such result. In addition, in complying with the Documents and such assumptions and representations, the Issuer is entitled to rely upon the advice and/or opinions of their selected counsel, and the opinion of Special U.S. Tax Counsel will assume that any such advice and/or opinions are correct and complete. However, the opinion of Special U.S. Tax Counsel and any such other advice or opinions are not binding on the IRS or the courts, and no ruling will be sought from the IRS regarding the same; or any other aspect of the U.S. federal income tax treatment of the Issuer. Accordingly, in the absence of authority on point, the U.S. federal income tax treatment of the Issuer is not entirely free from doubt, and there can be no assurance that positions contrary to those stated in the opinion of Special U.S. Tax Counsel or any such other advice or opinions may not be asserted successfully by the IRS.

If, notwithstanding the Issuer's intention and the aforementioned opinion of Special U.S. Tax Counsel or any such other advice or opinions, it were nonetheless determined that the Issuer were engaged in a United States trade or business and the Issuer had taxable income that was effectively connected with such United States trade or business, the Issuer would be subject under the Code to the regular U.S. corporate income tax on such effectively connected taxable income (and possibly the 30% branch profits tax as well). The imposition of such taxes would materially affect the Issuer's financial ability to make payments with respect to the Notes and could materially affect the yield of the Notes. In addition, the imposition of such taxes could constitute an Advantage Tax Event.

Legislation recently proposed in the U.S. Senate would, for tax years beginning at least two years after the enactment, tax a corporation as a U.S. corporation if the equity of that corporation is regularly traded on an established securities market and the management and control of the corporation occurs primarily within the United States. It is unknown whether this proposal will be enacted in its current form and, whether enacted, the Issuer would be subject to its provisions. However, upon enactment of this or similar legislation, the Issuer would be subject, with an opinion of counsel, to take such action as it deems advisable to prevent the Issuer from being subject to such legislation. These actions could include removing some classes of notes from listing on a stock exchange.

Generally, foreign currency gains are taxable to the residence of the recipient. Thus, foreign currency gains of a non-U.S. corporation are generally treated as foreign source income. However, if for this purpose a non-United States corporation has a principal place of business in the United States (the "U.S. Business"), even if the corporation has another principal place of business outside the United States, generally any foreign currency gain properly reflected as income of the U.S. Business is treated as U.S. source income. Any U.S. source foreign currency gains that are not derived from the sale of property are subject to U.S. withholding tax. A non-U.S. corporation could be considered to have a U.S. Business for this purpose even if it does not have any income effectively connected to a United States trade or business for purposes of being subject to U.S. taxation on its net income. The Issuer intends to take the position that none of its foreign currency gains will be subject to U.S. withholding tax. However, the application of these rules is uncertain and the activities of the Issuer could cause it to have foreign
currency gains subject to U.S. withholding tax. In addition, the imposition of such taxes could constitute an adverse tax event.

United States Withholding Taxes. Although, based on the foregoing, the issuer is not expected to be subject to U.S. federal income tax on net income basis, income derived by the issuer may be subject to withholding taxes imposed by the United States or other countries. Generally, U.S. source interest income received by a foreign corporation not engaged in a trade or business within the United States is subject to U.S. withholding tax at the rate of 30% of the amount thereof. The Code provides an exemption (the "portfolio interest exemption") from such withholding tax for interest paid with respect to certain debt obligations issued after July 13, 1984, unless the interest constitutes a certain type of contingent interest or is paid to a 10% shareholder of the payor, to a controlled foreign corporation related to the payor, or to a bank with respect to a loan entered into in the ordinary course of its business. In this regard, the issuer is permitted to acquire a particular Collateral Security only if the payments thereon are exempt from U.S. withholding taxes at the time of purchase or commitment to purchase or the obligor is required to make "gross-up" payments that offset fully any such tax on any such payments. The issuer does not anticipate that it will derive material amounts of any other items of income that would be subject to U.S. withholding taxes. Accordingly, assuming compliance with the foregoing restrictions and subject to the foregoing qualifications, interest income derived by the issuer will be free of or fully "grossed up" for any material amount of U.S. withholding tax. As for the Credit Default Swap, payments under the Credit Default Swap do not constitute interest for purposes of U.S. withholding taxes. The issuer intends to treat the Credit Default Swap as either a "notional principal contract" or an option for U.S. Federal income tax purposes. Generally, payments made pursuant to a notional principal contract or an option are not subject to U.S. withholding. However, the IRS may seek to characterize the Credit Default Swap in a manner that would make payment under it subject to U.S. withholding. Furthermore, there can be no assurance that income derived by the issuer will not generally become subject to U.S. withholding tax as a result of a change in U.S. tax law or administrative practice, procedure, or interpretations thereof. Any change in U.S. tax law or administrative practice, procedure, or interpretations thereof, resulting in the income of the issuer becoming subject to U.S. withholding taxes could constitute an adverse tax event. It is also anticipated that the issuer will acquire Collateral Securities that consist of obligations of non-U.S. issuers. In this regard, the issuer may only acquire a particular Collateral Security if either the payments thereon are not subject to foreign withholding tax or the obligor of the Collateral Security is required to make "gross-up" payments.

Prospective investors should be aware that, under certain Treasury Regulations, the IRS may disregard the participation of an intermediary in a "condo" financing arrangement and the conclusions reached in the immediately preceding paragraph assume that such Treasury Regulations do not apply. Those Treasury Regulations could require withholding of U.S. federal income tax from payments to the issuer. In order to prevent "condo" classification, each non-U.S. Holder and beneficial owner of an Issuer Note that is acquiring, directly or in conjunction with affiliates, more than 33 1/3% of the Aggregate USD Equivalent Outstanding Amount of any such Class of Issuer Notes, as applicable, will be deemed to make a representation to the effect that it is not an Affected Bank. "Affected Bank" means a "bank" for purposes of Section 881 of the Code or an entity affiliated with such a bank that neither (x) meets the definition of a U.S. Holder nor (y) is entitled to the benefit of an income tax treaty with the United States under which withholding taxes on interest payments made by obligor resident in the United States to such bank are reduced to 0%.

Tax Treatment of U.S. Holders of the Co-Issued Notes

Treatment of the Co-Issued Notes. Although there is no authority directly on point, and as a result, the opinion cannot be free from doubt, in the opinion of Special U.S. Tax Counsel, the Co-Issued Notes will be treated as debt for U.S. federal income tax purposes when issued. Although the Issuer Notes are denominated as debt, based on the capital structure of the Issuer and the characteristics of the Issuer Notes, it is unlikely that all the Issuer Notes, when issued, would be treated as debt of the Issuer for U.S. federal income tax purposes. However, it is possible that the IRS could assert that the Notes...
should be treated as the issuance of credit-linked debt by the Protection Buyer. The Holder of such Notes would have accrued income under the contingent debt rules which could affect the timing of such income. Any gain or certain losses from the sale of such Notes would result in ordinary income or loss because such Notes would be treated as contingent debt. This summary assumes that the treatment of the Co-Issued Notes as debt and the Issuer Notes as equity of the Issuer for U.S. federal income tax purposes is correct. The Issuer Notes are discussed below under "—Tax Treatment of U.S. Holders of Issuer Notes." Further, the Issuer will treat, and each holder and beneficial owner of Co-Issued Notes (by acquiring such Notes or an interest in such Notes) will agree to treat, the Co-Issued Notes as debt for U.S. federal income tax purposes except as otherwise required by applicable law, (y) to the extent a Holder of such Co-Issued Notes makes a protective QEF election (as described below under "—Tax Treatment of U.S. Holders of Issuer Notes—Investment in a Passive Foreign Investment Company") or (z) to the extent that the Issuer agrees certain United States tax information returns required of only certain equity owners with respect to various reporting requirements under the Code (as described below under "—Transfer Reporting Requirements" and "—Tax Return Disclosure and Investor List Requirements"). The determination of whether a Co-Issued Note will be treated as debt for United States federal income tax purposes is based on the applicable law and facts and circumstances existing at the time such Note is issued. Material changes from those existing on the Closing Date (e.g., a material decline in the value of the Issuer’s assets and/or a material change in the likelihood a Note will be repaid in full) may adversely affect the characterization of any Co-Issued Notes issued after (but before) such changes. However, the opinion of Special U.S. Tax Counsel is based on current law and certain representations and assumptions (including the assumption that any subsequent opinion with respect to the tax characterization of the Co-Issued Notes is correct) and is not binding on the IRS or the courts, and no ruling will be sought from the IRS regarding this, or any other, aspect of the U.S. federal income tax treatment of the Notes. Accordingly, there can be no assurance that the IRS will not contend, and that a court will not ultimately hold, that one or more classes of the Co-Issued Notes are properly treated as equity in the Issuer for U.S. federal income tax purposes. Recharacterization of a Class of Notes, particularly the Class C Notes because of their place in the capital structure, may be more likely if a single investor or a group of investors that holds all of the Issuer Notes also holds all of the more senior Class of Notes in the same proportion as the Issuer Notes are held. If any Class of the Co-Issued Notes were treated as equity in, rather than debt of, the Issuer for U.S. federal income tax purposes, U.S. Holders of such Class would be subject to taxation under rules substantially the same as those set forth below under "—Tax Treatment of U.S. Holders of Issuer Notes" which could cause adverse tax consequences for such U.S. Holders upon the sale, exchange, redemption, retirement or other taxable disposition of, or the receipt of certain types of distributions on, such Notes.

In this regard, any U.S. Holder of a Co-Issued Note that treats such Note as equity in the Issuer for U.S. federal income tax purposes, inconsistently with the Issuer’s treatment of such Notes for such purposes, is required to disclose such treatment in its U.S. federal income tax return. Additionally, if a U.S. Holder of a Co-Issued Note treats such Note as debt of the Issuer for U.S. federal income tax purposes, consistently with the Issuer’s treatment of such Note for such purposes, it is unclear whether such a Holder will be able to make a protective QEF election (described below under "—Tax Treatment of U.S. Holders of Issuer Notes—Investment in a Passive Foreign Investment Company") in anticipation of any possible recharacterization of such Note as equity in the Issuer.

Internet or Discount on the Co-Issued Notes. The Co-Issued Notes may be subject to the rules applicable to contingent payment debt instruments because the timing of their principal repayment is contingent on the payments of the Reference Obligations rather than obligations held by the Issuer. If these Notes are not treated as contingent payment debt obligations and subject to the discussion below, U.S. Holders of these Notes generally should include in gross income payments of stated interest received, in accordance with their usual method of accounting for U.S. federal income tax purposes, as ordinary interest income from sources outside the United States.

If the Issue Price of the Co-Issued Notes is less than such Note’s respective "stated redemption price at maturity" by more than a de minimis amount, U.S. Holders will be considered to have purchased

Confidential Treatment Requested by Goldman Sachs
such Notes with original issue discount ("OID"). The respective stated redemption price at maturity of the Co-Issued Notes will be the sum of all payments to be received on such Notes, other than payments of stated interest which is unconditionally payable in money at least annually during the entire term of a debt instrument ("Qualified Stated Interest"). Interest can be considered unconditionally payable if nonpayment is sufficiently remote under the terms of the obligations or reasonable legal remedies exist to compel timely payment. Prospective U.S. Holders of the Co-Issued Notes should note that if any interest is not unconditionally payable in money on each Payment Date (and, therefore, not Qualified Stated Interest), all of the stated interest payments may be included in the stated redemption prices at maturity, and required to be accrued by U.S. Holders pursuant to the rules described below.

A U.S. Holder of a Co-Issued Note issued with OID will be required to accrue and include in gross income the sum of the daily portions of total OID for each day during the taxable year on which the U.S. Holder holds the Co-Issued Note, generally under a constant yield method, regardless of such U.S. Holder's usual method of accounting for U.S. Federal income tax purposes. In addition, if a Co-Issued Note is not treated as issued with OID by U.S. Holder should include any de minimis OID in gross income proportionately as stated principal payments are received. Such de minimis OID should be treated as gain from the sale or exchange of property and may be eligible as capital gain if the Co-Issued Note is a capital asset in the hands of the U.S. Holder.

Because the Co-Issued Notes provide for a floating rate of interest, the amount of OID to be accrued over the term of each Co-Issued Note will be based initially on the assumption that the floating rate in effect for the first Interest Accrual Period will remain constant throughout the term. To the extent such rate varies with respect to any Interest Accrual Period, such variation will be reflected in an increase or decrease of the amount of OID accrued for such period. Under the foregoing method, if stated interest on a class of Co-Issued Notes is required to be accrued under the OID rules, U.S. Holders may be required to include in gross income increasingly greater amounts of OID and may be required to include OID in advance of the receipt of cash attributable to such income.

Unless the contingent payment obligation rules apply each Class of Co-Issued Notes issued with more than de minimis OID may be subject to rules requiring the use of an assumption as to the prepayments, as discussed below under "-- OID on the Co-Issued Notes". A prepayment assumption applies to debt instruments if payment under such debt instruments may be accelerated by reason of prepayments of other obligations securing such debt instruments. Application of a prepayment assumption is uncertain because prepayments on the Co-Issued Notes are generally dependent on prepayments on the Reference Portfolio rather than the Collateral Securities.

OID on the Co-Issued Notes. The Treasury regulations governing the calculation of OID on instruments having contingent interest payments specifically do not apply for purposes of calculating OID on debt instruments required to use a prepayment assumption. The Issuer intends to base its computations on a prepayment assumption for the Reference Portfolio, although, as noted above, it is uncertain whether such assumption is required or permitted. In addition, no regulatory guidance currently exists under the Code for prepayment assumptions. Accordingly, there can be no assurance that this methodology represents the correct manner of calculating OID. If the IRS were to successfully contend that another method of accruing OID with respect to the Co-Issued Notes is appropriate, the U.S. Federal income tax consequences to a U.S. Holder of the Co-Issued Notes could be adverse or more favorable.

If the Co-Issued Notes are deemed to be contingent debt obligations, then U.S. Treasury regulations may apply to the Co-Issued Notes that would apply the non-contingent bond method to non-U.S. Dollar denominated debt instruments that provide for certain contingent payments.

A subsequent purchaser of a Co-Issued Note issued with OID who purchases that Note at a cost less than the remaining stated redemption price at maturity will also be required to include in gross income the sum of the daily portions of OID on the Co-Issued Note. In computing the daily portions of OID for a subsequent purchaser of a Co-Issued Note (as well as an initial purchaser that purchases at a price higher than the adjusted issue price, but less than the stated redemption price at maturity),
however, the daily portion is reduced by the amount that would be the daily portion for the day (computed in accordance with the rules set forth above) multiplied by a fraction, the numerator of which is the amount, if any, by which the price paid by the U.S. Holder for the Co-Issued Note exceeds the difference between (a) the sum of the issue Price plus the aggregate amount of OID that would have been able to be included in the gross income of an original U.S. Holder (who purchased the Co-Issued Note at the Issue Price) and (b) any prior payments included in the stated redemption price at maturity, and the denominator of which is the sum of the daily portions for the Co-Issued Note for all days beginning on the date after the purchase date and ending on the maturity date computed under the prepayment assumption.

A U.S. Holder who pays a premium for a Co-Issued Note (i.e., purchases the Co-Issued Note for an amount greater than the stated redemption price at maturity) may elect to amortize such premium under a constant yield method over the life of the Co-Issued Note. The amortizable amount for any Interest Accrual Period would offset the amount of interest that must be included in the gross income of a U.S. Holder in such Interest Accrual Period. The U.S. Holder's basis in the Co-Issued Note would be reduced by the amount of amortization. It is not clear whether the prepayment assumption would be taken into account in determining the life of the interest and the timing of the amortization of such premium for this purpose.

If the U.S. Holder acquires a Co-Issued Note at a discount to the adjusted issue Price of the Co-Issued Note that is greater than a specified minimum amount, such discount is treated as market discount. Absent an election to accrue into income currently, the amount of accrued market discount on a Co-Issued Note is included in income as ordinary income when principal payments are received or the U.S. Holder disposes of the Co-Issued Note. Market discount is accrued solely unless the U.S. Holder elects to use a constant yield method for accrual. For this purpose, the term "interest" may be based on the terms of the Co-Issued Note or a U.S. Holder may be permitted to accrue market discount in proportion to interest on Co-Issued Notes issued without OID or in proportion to OID on Co-Issued Notes issued with OID.

As a result of the complexity of the OID rules, each U.S. Holder of any Co-Issued Notes should consult its own tax advisor regarding the impact of the OID rules on its investment in such Notes.

**Election to Treat All Interest as OID.** The OID rules permit a U.S. Holder of a Co-Issued Note to elect to accrue all interest, discount (including de minimis market or original issue discount) and premium in income as interest, based on a constant yield method. If an election to treat all interest as OID were to be made with respect to a Co-Issued Note with market discount, the U.S. Holder of such Note making such election would be deemed to have made an election to include in income currently market discount with respect to all other debt instruments having market discount that such U.S. Holder acquires during the year of the election or thereafter. Similarly, a U.S. Holder that makes this election for a Note that is accreted at a premium will be deemed to have made an election to amortize bond premium with respect to all debt instruments having amortizable bond premium that such U.S. Holder owns or acquires. The election to accrue interest, discount and premium on a constant yield method with respect to a Co-Issued Note cannot be revoked without the consent of the IRS.

**Disposition of the Co-Issued Notes.** In general, a U.S. Holder of a Co-Issued Note initially will have a basis in such Note equal to the cost of such Note to such U.S. Holder, (i) increased by any amount includable in income by such U.S. Holder as OID with respect to such Note, and (ii) reduced by any amortized premium and by payments on the Co-Issued Note, other than payments of stated interest on the Co-Issued Note. Upon a sale, exchange, redemption, retirement or other taxable disposition of a Co-Issued Note, a U.S. Holder will generally recognize gain or loss equal to the difference between the amount realized on the sale, exchange, redemption, retirement or other taxable disposition (other than amounts attributable to accrued interest on a Co-Issued Note, which will be taxable as described above) and the U.S. Holder's basis in such Note. Except to the extent of accrued interest or market discount not previously included in income, or unless the rules applicable to contingent payment debt obligations apply, gain or loss from the disposition of a Co-Issued Note generally will be long-term capital gain or loss if the U.S. Holder held the Co-Issued Note for more than one year at the time of disposition, provided that...
the Co-Issued Note is held as a "capital asset" (generally, property held for investment) within the meaning of Section 1221 of the Code, except to the extent of accrued market discount not previously included in income.

However, if the IRS or a court determines that any Class of the Co-Issued Notes constitute contingent payment debt obligations subject to the non-contingent bond method, then a U.S. Holder generally will have a basis in such Co-Issued Note equal to the cost of such Co-Issued Note to such U.S. Holder (increased by OID accrued with respect to such Co-Issued Note after the date of determination of such non-contingent payment obligations) and (ii) reduced by the amount of any non-contingent payments and the projected amount of any contingent payments previously made on such Co-Issued Note. Any gain recognized on the sale, exchange, redemption, retirement or other taxable disposition of such Co-Issued Note will be treated as ordinary income. Further, in such a case, any loss will be treated as ordinary loss to the extent of prior interest income with respect to such Co-Issued Notes, reduced by the total net positive adjustments that the U.S. Holder has taken into account as ordinary loss with respect to such Co-Issued Notes; any remaining loss will be a capital loss.

In certain circumstances, U.S. Holders that are individuals may be entitled to preferential treatment for net long-term capital gains, however, the ability of U.S. Holders to offset capital losses against ordinary income is limited.

Any gain recognized by a U.S. Holder on the sale, exchange, redemption, retirement or other taxable disposition of a Co-Issued Note generally will be treated as from sources within the United States assuming that such Co-Issued Note is not held by a U.S. Holder through a non-U.S. branch.

Alternative Characterization of the Co-Issued Notes. Notwithstanding special U.S. tax court's opinion, U.S. Holders should recognize that there is some uncertainty regarding the appropriate classification of instruments such as the Co-Issued Notes. It is possible, for example, that the IRS may contend that a Class of Co-Issued Notes should be treated as equity interests (or as part debt, part equity) in the Issuer. Such a recharacterization might result in material adverse U.S. federal income tax consequences to U.S. Holders. If U.S. Holders of a Class of the Co-Issued Notes were treated as owning equity interests in the Issuer, the U.S. federal income tax consequences to U.S. Holders of such recharacterized Co-Issued Notes would be as described under "—Tax Treatment of U.S. Holders of Issuer Notes", "—Transfer Reporting Requirements" and "—Tax Return Disclosure and Investor List Requirements". In order to avoid the application of the PFIC rules, each U.S. Holder of a Note should consider making a qualified election fund election provided in Section 1295 of the Code on a "protective" basis (although such protective election may not be respected by the IRS because current regulations do not specifically authorize that particular election). See "Tax Treatment of U.S. Holders of Issuer Notes—Investment in a Passive Foreign Investment Company". Further, U.S. Holders of any Class of Co-Issued Notes that may be recharacterized as equity in the Issuer should consult with their own tax advisors with respect to whether, if they owned equity in the Issuer, they would be required to file information returns in accordance with sections 6038, 6038B, and 6046 of the Code (and, if so, whether they should file such returns on a protective basis).

Payments of Interest and OID in Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen. A U.S. Holder with a U.S. Dollar functional currency that uses the cash method of accounting for U.S. federal income tax purposes and receives a payment of interest on a Co-Issued Note (other than OID) denominated in Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, will be required to include in gross income the U.S. Dollar value of the payment in Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on the date such payment is received (based on the U.S. Dollar spot rate for the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on the date such payment is received) regardless of whether the payment is in fact converted to U.S. Dollars at that time. No exchange gain or loss will be recognized with respect to the receipt of such payment.
A U.S. Holder that uses the accrual method of accounting for U.S. federal income tax purposes, or that otherwise is required to accrue interest prior to receipt, will be required to include in gross income the U.S. Dollar value of the amount of interest income that has accrued and is otherwise required to be taken into account with respect to a Co-Issued Note during an accrual period. The U.S. Dollar value of such accrued interest income will be determined by translating such interest income at the average U.S. Dollar exchange rate for the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, in effect during the accrual period or, with respect to an accrual period that spans two taxable years, the partial period within the taxable year. A U.S. Holder may elect, however, to translate such accrued interest income using the U.S. Dollar spot rate for the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on the last day of the accrual period or, with respect to an accrual period that spans two taxable years, on the last day of the taxable year. If the last day of an accrual period is within five business days of the date of receipt of the accrued interest, a U.S. Holder may translate such interest using the U.S. Dollar spot rate on the date of receipt. The above election must be applied consistently to all debt instruments from year to year and may not be changed without the consent of the IRS. Prior to making such an election, a U.S. Holder should consult its own tax advisor.

A U.S. Holder that uses the accrual method of accounting for U.S. federal income tax purposes may recognize exchange gain or loss with respect to accrued interest income on the date the payment of such income is received. The amount of any such exchange gain or loss recognized will equal the difference, if any, between the U.S. Dollar value of the payment of the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, received (based on the U.S. Dollar spot rate for the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on the date such payment is received) with respect to such accrued interest and the U.S. Dollar value of the income inclusion with respect to such accrued interest (computed as determined above). Any such exchange gain or loss will be treated as ordinary income or loss, but generally will not be treated as an adjustment to interest income, and will generally be treated as U.S. source income or loss, respectively.

The Issuer intends to take the position that OID for any accrual period on a Co-Issued Note will be determined in Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, and then translated into U.S. Dollars in the same manner as stated interest accrued by an accrual basis U.S. Holder, as described above. As described above, however, the treatment of Co-Issued Notes issued with OID is subject to uncertainty, and it is possible that different rules would apply. Applying this method, all payments on a Co-Issued Note (other than payments of Qualified Stated Interest) will generally be viewed first as payments of previously-accrued OID to the extent thereof, with payments attributed last to the earliest-accrued OID, and then as payments of principal. Upon receipt of a payment attributable to OID (whether in connection with a payment of interest or on the sale, exchange, redemption, retirement or other taxable disposition of a Co-Issued Note), a U.S. Holder may recognize exchange gain or loss as described above with respect to accrued interest income. Any such exchange gain or loss will be treated as ordinary income or loss, but generally will not be treated as an adjustment to interest income, and will generally be treated as U.S. source income or loss, respectively.

Receipt of Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, received as payment on a Co-Issued Note or on a sale, exchange, redemption, retirement or other taxable disposition of a Co-Issued Note will have a tax basis equal to its U.S. Dollar value at the time such payment is received or at the time of such sale, exchange, redemption, retirement or other taxable disposition, as the case may be. Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, that are purchased will generally have a tax basis equal to the U.S. Dollar value of the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on the date of purchase. Any exchange gain or loss recognized on a sale, exchange, redemption, retirement or other taxable disposition of the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen (including their use to purchase Co-Issued Notes or upon exchange

Confidential Treatment Requested by Goldman Sachs
GS MBS-E-001918138
Footnote Exhibits - Page 4918

for U.S. Dollars, as applicable, will be ordinary income or loss and will generally be treated as U.S. source income or loss, respectively.

Foreign Currency Gain or Loss on Purchase or Disposition. A U.S. Holder that purchases the Co-issued Notes with Euros, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, will generally recognize exchange gain or loss in an amount equal to the difference (if any) between the U.S. Dollar fair market value of the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, used to purchase the Co-issued Notes determined at the spot rate of exchange in effect on the date of purchase of the Co-issued Notes and such U.S. Holder's tax basis in the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable. If a U.S. Holder receives Euros, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on a sale, exchange, redemption, retirement or other taxable disposition of a Co-issued Note, the amount realized will be based on the U.S. Dollar value of the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on the date the payment is received or the date of disposition of the Co-issued Note. Any gain or loss realized upon the sale, exchange, redemption, retirement or other taxable disposition of a Co-issued Note that is attributable to fluctuations in currency exchange rates will be exchange gain or loss. Any gain or any loss attributable to fluctuations in exchange rates will equal the difference between the U.S. Dollar value of the principal amount of the Co-issued Note, determined on the date such payment is received or such Co-issued Note is disposed based on the U.S. Dollar spot rate for the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on such date and the U.S. Dollar value of the principal amount of such Co-issued Note, determined on the date the U.S. Holder acquired such Co-issued Note based on the U.S. Dollar spot rate for the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on such date. Such exchange gain or loss will be recognized only to the extent of the total gain or loss realized by the U.S. Holder on the sale, exchange, redemption, retirement or other taxable disposition of such Co-issued Note. Any exchange gain or loss will be treated as ordinary income or loss, but generally will not be treated as an adjustment to interest income, and will generally be treated as U.S. source income or loss, respectively.

As a result of the uncertainty regarding the U.S. federal income tax consequences to U.S. Holders with respect to the Co-issued Notes and the complexity of the foregoing rules, each U.S. Holder of a Co-issued Note is urged to consult its own tax advisor regarding the U.S. federal income tax consequences to the Holder of the purchase, ownership and disposition of such Co-issued Note.

Tax Treatment of U.S. Holders of Issuer Notes

Investment in a Passive Foreign Investment Company. The Issuer will constitute a passive foreign investment company ("PFIC"). By treating the Issuer Notes, when issued, as equity in the Issuer, U.S. Holders of Issuer Notes (other than certain U.S. Holders that are subject to the rules pertaining to a controlled foreign corporation with respect to the Issuer, described below) will be considered U.S. shareholders in a PFIC. In general, a U.S. Holder of a PFIC may desire to make an election to treat the Issuer as a qualified electing fund ("QEF") with respect to such U.S. Holder. Generally, a QEF election should be made with the filing of a U.S. Holders' federal income tax return for the first taxable year for which it holds the Issuer Notes. A timely QEF election is made for the Issuer, an electing U.S. Holder will be required to include in gross income (i) ordinary income (ii) as ordinary income, such holder's pro rata share of the Issuer's ordinary earnings and (ii) as long-term capital gain, such holder's pro rata share of the Issuer's net capital gain, whether or not distributed and translated into U.S. Dollars using the average U.S. Dollar exchange rate for the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, for the Issuer's taxable year. In determining the Issuer's ordinary earnings, the OID interest that accrues on the Co-issued Notes may be treated as interest paid to related parties may be deferred and ultimately denied. Related parties generally include a person owning more than 50% of the aggregate value of all Classes of Notes treated as equity of the Issuer (with special rules for partnerships) and any real estate investment trust that treats the Issuer as a

Confidential Treatment Requested by Goldman Sachs

QS MSS-E-001918139
taxable REIT subsidiary. A U.S. Holder will not be eligible for the dividends received deduction with respect to such income or gain. In addition, any losses of the Issuer in a taxable year will not be available to such U.S. Holder and may not be carried back or forward in computing the Issuer's ordinary earnings and net capital gain in other taxable years. An amount included in an eligible U.S. Holder's gross income should be treated as income from sources outside the United States for U.S. foreign tax credit limitation purposes. However, if U.S. Holders collectively own (directly or constructively) 50% or more (measured by vote or value) of the Issuer Notes, such amount will be treated as income from sources within the United States for such purposes to the extent that such amount is attributable to income of the Issuer from sources within the United States. If applicable to a U.S. Holder of Issuer Notes, the rules pertaining to a controlled foreign corporation, discussed below, generally override those pertaining to a PFC with respect to which a QEF election is in effect.

In certain cases in which a QEF does not distribute all of its earnings in a taxable year, U.S. shareholders may also be permitted to elect to defer payment of some or all of the taxes on the QEF's income subject to an interest charge on the deferred amount. As a result, the Issuer may have in any given year substantial amounts of earnings for U.S. federal income tax purposes that are not distributed on the Issuer Notes. Thus, absent an election to defer payment of taxes, U.S. Holders that make a QEF election with respect to the Issuer may owe tax on significant "phantom" income.

Moreover, there is no direct authority dealing with the tax treatment of financial instruments like the Credit Default Swap. The Issuer intends to treat the Credit Default Swap as a "notional principal contract" for U.S. federal income tax purposes, in which case the Issuer's earnings for any period would be determined by taking into account the Credit Default Swap payments to the Issuer attributable to that period. In a statement in its preamble to recently proposed guidance regarding the tax accounting for contingent nonperiodic payments under notional principal contracts, the U.S. Department of Treasury indicated that certain persons, such as the Issuer, would be required under current law to take such payments into account for income tax purposes over the life of the contract under a reasonable amortization method. Although the application of this rule to the Credit Default Swap is not entirely clear, the income of the Issuer may need to be determined by taking into account an adjustment for any such contingent payments which the Issuer may be required to make under the Credit Default Swap. It is possible, however, that a Credit Default Swap could be characterized for tax purposes as an option written by the Issuer. Because payments received for writing an option are generally taken into account only upon the termination of the transaction, characterizing the Credit Default Swap as an option may crystallize the Issuer's positive earnings, as determined for U.S. federal income tax purposes, into one or more taxable periods, which may result in the recognition of income in excess of any cash distributed on the Issuer Notes by the Issuer. U.S. Holders of the Issuer Notes should consult their tax advisors regarding the U.S. federal income tax consequences of holding any of the Issuer Notes.

The Issuer will provide, upon request, all information and documentation that a U.S. Holder making a QEF election is required to obtain for U.S. federal income tax purposes.

A U.S. Holder of Issuer Notes (other than certain U.S. Holders that are subject to the rules pertaining to a controlled foreign corporation with respect to the Issuer, described below) that does not make a timely QEF election will be required to report any gain on disposition of any Issuer Notes as if it were an excess distribution; rather than capital gain, and to compute the tax liability on such gain and any excess distribution received with respect to the Issuer Notes as if such item had been earned ratably over each day in the U.S. Holder's holding period (or a portion thereof) for the Issuer Notes. The U.S. Holder will be subject to tax on such item at the highest ordinary income tax rate for each taxable year, other than the current year of the U.S. Holder, in which the items were treated as having been earned ratably, regardless of the rate otherwise applicable to the U.S. Holder. Further, such U.S. Holder will also be liable for an additional tax equal to interest on the tax liability attributable to income allocated to prior years as if such liability had been due with respect to each such prior year. For purposes of these rules, gifts, exchanges pursuant to corporate reorganizations and use of the Issuer Notes as security for a loan may be treated as a taxable disposition of the Issuer Notes. Very generally, an "excess distribution" is the amount by which distributions during a taxable year with respect to an Issuer Note exceed 125% of the average amount of distributions in respect thereof during the three preceding taxable years (or, if shorter,
the U.S. Holder's holding period for the Issuer Note). In addition, a stepped-up basis in the Issuer Note upon the death of an individual U.S. Holder may not be available.

In many cases, application of the tax on gain on disposition and receipt of excess distributions will be substantially more onerous than the treatment applicable if a timely QEF election is made. ACCORDINGLY, U.S. HOLDERS OF ISSUER NOTES SHOULD CONSIDER CAREFULLY WHETHER TO MAKE A QEF ELECTION WITH RESPECT TO THE ISSUER NOTES AND THE CONSEQUENCES OF NOT MAKING SUCH AN ELECTION.

Furthermore, in order to avoid the application of the PFIC rules, each U.S. Holder of a Note should consider making a qualified electing fund election on a "protective" basis (although such protective election may not be respected by the IRS because current regulations do not specifically authorize the particular protective election). Further, U.S. Holders of any Class of Notes that may be recharacterized as equity in the Issuer should consult with their own tax advisors with respect to whether, if they owned equity in the Issuer, they would be required to file information returns in accordance with sections 6038, 6038B, and 6046 of the Code (and, if so, whether they should file such returns on a protective basis).

Investment in a Controlled Foreign Corporation. The Issuer may be classified as a controlled foreign corporation ("CFC"). In general, a foreign corporation will be classified as a CFC if more than 50% of the shares of the corporation, measured by reference to combined voting power or value, is owned (actually or constructively) by "U.S. Shareholders". A U.S. Shareholder, for this purpose, is any U.S. person that possesses (actually or constructively) 10% or more of the combined voting power (generally the right to vote for directors of the corporation) of all classes of shares of a corporation. Although Issuer Notes do not vote for directors of the Issuer, it is possible that the IRS would assert that the Issuer Notes are de facto voting securities and that U.S. Holders possessing (actually or constructively) 10% or more of the total stated amount of outstanding Issuer Notes are U.S. Shareholders. If this argument were successful and Issuer Notes representing more than 50% of the voting power or value of the Issuer's equity are owned (actually or constructively) by such U.S. Shareholders, the Issuer would be treated as a CFC.

If the Issuer were treated as a CFC, a U.S. Shareholder of the Issuer would be treated, subject to certain exceptions, as receiving a deemed dividend at the end of the taxable year of the Issuer in an amount equal to that person's pro rata share of the subpart F income (as defined below) of the Issuer. Such deemed dividend would be treated as income from sources within the United States for U.S. foreign tax credit limitation purposes to the extent that it is attributable to income of the Issuer from sources within the United States. Among other items, and subject to certain exceptions, subpart F income includes dividends, interest, annuities, gains from the sale of exchange of shares and securities, certain gains from commodities transactions, certain types of insurance income and income from certain transactions with related parties. It is likely that, if the Issuer were to constitute a CFC, all or most of its income would be subpart F income and, in general, if the Issuer's subpart F income exceeds 70% of its gross income, the entire amount of the Issuer's income will be subpart F income. For purposes of calculating the income of the Issuer, the deduction for interest paid to certain related parties may be deferred and ultimately denied. Related parties generally include a person owning more than 50% of the aggregate value of all Classes of Notes treated as equity of the Issuer (with special rules for partnerships) and any real estate investment trust that treats the Issuer as a taxable REIT subsidiary. In addition, special rules apply to determine the appropriate exchange rate to be used to translate such amounts treated as a dividend and the amount of any foreign currency gain or loss with respect to distributions of previously taxed amounts attributable to movements in exchange rates between the times of deemed and actual distributions. U.S. Holders should consult their tax advisors regarding these special rules.

If the Issuer were treated as a CFC, a U.S. Shareholder of the Issuer which made a QEF election with respect to the Issuer would be taxable on the subpart F income of the Issuer under rules described in the preceding paragraph and not under the QEF rules previously described. As a result, to the extent subpart F income of the Issuer includes net capital gains, such gains will be treated as ordinary income of the U.S. Shareholder under the CFC rules, notwithstanding the fact that the character of such gains generally would otherwise be reserved under the QEF rules.

Confidential Treatment Requested by Goldman Sachs

102
Furthermore, if the issuer were treated as a CPC and a U.S. Holder were treated as a U.S. Shareholder therein, the issuer would not be treated as a PFC or a QEF with respect to such U.S. Holder for the period during which the issuer remained a CPC and such U.S. Holder remained a U.S. Shareholder therein (the "qualified portion" of the U.S. Holder's holding period for the Issuer Notes). If the qualified portion of such U.S. Holder's holding period for the Issuer Notes subsequently ceased (either because the issuer ceased to be a CPC or the U.S. Holder ceased to be a U.S. Shareholder), then solely for purposes of the PFC rules, such U.S. Holder's holding period for the Issuer Notes would be treated as beginning on the first day following the end of such qualified portion, unless the U.S. Holder had owned any of such Class of Issuer Notes for any period of time prior to such qualified portion and had not made a QEF election with respect to the Issuer. In that case, the Issuer would again be treated as a PFC which is not a QEF with respect to such U.S. Holder and the beginning of such U.S. Holder's holding period for the Issuer Notes would continue to be the date upon which such U.S. Holder acquired such Issuer Notes, unless the U.S. Holder made an election to recognize gain with respect to such Issuer Notes and a QEF election with respect to the Issuer.

Credit Default Swap, Basis Swap and Collateral Put Agreement. The IRS may argue that the issuer does not own the Collateral Securities because the Credit Default Swap, the Basis Swap and the Collateral Put Agreement transfer the benefits and burdens of the ownership of the Collateral Securities to Goldman Sachs. Under such characterization, the Issuer would hold an obligation of Goldman Sachs to pay to the Issuer principal equal to the par value of the Collateral Securities and interest equal to the excess, if any, of interest payments on the Notes and the interest received on the Collateral Securities. Thus, under the PFIC or CFC rules discussed above, the timing of the income that a U.S. Holder reports may differ from the timing of such income if the Credit Default Swap, the Basis Swap and the Collateral Put Agreement are respected. Alternatively, the IRS could argue that the Credit Default Swap, the Basis Swap and the Collateral Put Agreement create a contingent payment debt obligation subject to the non-contingent bond method. Under such characterization, the Issuer generally will have a basis in the contingent debt obligation equal to the cost of such obligation to the Issuer (i.e., increased by OID accrued with respect to such obligation (determined without regard to adjustments made to reflect the differences between actual and projected payments), and (ii) reduced by the amount of any non-contingent payments and the projected amount of any contingent payments previously made on such obligation. Any gain recognized on the sale, exchange, redemption, retirement or other taxable disposition of the obligation will be treated as ordinary interest income. Further, in such a case, any loss will be treated as ordinary loss to the extent of prior interest inclusions with respect to the contingent debt obligation, reduced by the total net negative adjustments that the Issuer has taken into account as ordinary losses with respect to such obligation; any remaining loss will be a capital loss. Such characterization would affect the timing and character of the income that a U.S. Holder reports. U.S. Holders of Issuer Notes should consult their own tax advisers regarding the tax issues associated with the Credit Default Swap, the Basis Swap and the Collateral Put Agreement.

Distributions on the Issuer Notes. The treatment of actual distributions of cash on each Class of Issuer Notes, in very general terms, will vary depending on whether a U.S. Holder has made a timely QEF election as described above. See "—Investment in a Passive Foreign Investment Company." If a timely QEF election has been made, distributions should be allocated first to amounts previously taxed pursuant to the QEF election (or pursuant to the CFC rules, if applicable) and to this extent will not be taxable to U.S. Holders. Distributions in excess of amounts previously taxed pursuant to a QEF election (or pursuant to the CFC rules, if applicable) will be taxable to U.S. Holders as ordinary income upon receipt to the extent of any remaining amounts of unrealized capital losses and profits of the Issuer. Distributions in excess of any current and accumulated earnings and profits will be treated first as a non-taxable reduction to the U.S. Holder's tax basis for such Issuer Notes to the extent thereof and then as capital gain.

In the event that a U.S. Holder does not make a timely QEF election, then except to the extent that distributions may be attributable to amounts previously taxed pursuant to the CFC rules, some or all of the distributions with respect to the Issuer Notes may constitute excess distributions, taxable as previously described. See "—Investment in a Passive Foreign Investment Company." In that event,
Footnote Exhibits - Page 4922

except to the extent that distributions may be attributable to amounts previously taxed to the U.S. Holder pursuant to the CFC rules or are treated as excess distributions, distributions or the Issuer Notes generally would be treated as dividends paid to the Issuer's present or accumulated earnings and profits not allocated to any excess distributions, then as a non-taxable reduction to the U.S. Holder's tax basis for the Issuer Notes to the extent thereof and then as capital gain. Dividends received from a foreign corporation generally will be treated as income from sources outside the United States for U.S. foreign tax credit limitation purposes. However, if U.S. Holders collectively own directly or constructively 50% or more (measured by vote or value) of the Class of Issuer Notes, a percentage of the dividend income equal to the proportion of the Issuer's earnings and profits from sources within the United States generally will be treated as income from sources within the United States for such purposes.

Distributions paid in Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, will be translated into a U.S. Dollar amount based on the spot rate of exchange in effect on the date of receipt whether or not the payment is converted into U.S. Dollars at that time. A U.S. Holder will recognize exchange gain or loss with respect to distributions of previously taxed amounts attributable to movements in exchange rates between the times of the deemed distributions and actual distributions, and any such exchange gain or loss will be treated as ordinary income from the same source as the associated income inclusion. The tax basis of the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, received by a U.S. Holder generally will equal the U.S. Dollar value of the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, determined at the spot rate of exchange in effect on the date the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, are received, regardless of whether the payment is converted into U.S. Dollars at that time. Any gain or loss recognized on a subsequent conversion of the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, for U.S. Dollars, in an amount equal to the difference between the U.S. Dollars received and the U.S. Holder's tax basis in the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, generally will be U.S. source ordinary income or loss.

Purchase or Disposition of the Issuer Notes. A U.S. Holder that purchases the Issuer Notes with Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, generally will recognize U.S. source ordinary income or loss in an amount equal to the difference (if any) between the U.S. Dollar fair market value of the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, used to purchase the Issuer Notes determined at the spot rate of exchange in effect on the date of purchase of the Issuer Notes and such U.S. Holder's tax basis in the Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable. In general, a U.S. Holder of an Issuer Note will recognize a gain or loss upon the sale, exchange, redemption, retirement or other taxable disposition of an Issuer Note equal to the difference between the amount realized and such U.S. Holder's adjusted tax basis in the Issuer Note. Except as discussed below (or if the applicable Class of Issuer Notes were characterized as contingent debt instrument), such gain or loss will be capital gain or loss and will be a long-term capital gain or loss if the U.S. Holder held such Class of Issuer Notes for more than one year at the time of the disposition. In certain circumstances, U.S. Holders who are individuals may be entitled to preferential treatment for net long-term capital gains; however, the ability of U.S. Holders to offset capital losses against ordinary income is limited. Any gain or loss recognized by a U.S. Holder on the sale, exchange, redemption, retirement or other taxable disposition of an Issuer Note (other than, in the case of a U.S. Holder treated as a "U.S. Shareholder", any such gain characterized as a dividend, as discussed below) generally will be treated as from sources within the United States.

Initially, a U.S. Holder's tax basis for an Issuer Note will equal the cost of such Issuer Note to such U.S. Holder. The cost of an Issuer Note to a U.S. Holder will be the U.S. Dollar value of the Euro, Sterling, Canadian Dollar, Australian Dollar, New Zealand Dollars or Yen purchase price, as applicable, based on the spot rate of exchange in effect on the date of purchase. Such basis will be increased by amounts taxable to such U.S. Holder by virtue of a QEF election, or by virtue of a CFC tax, as applicable, and decreased by actual distributions from the Issuer that are deemed to consist of such
Footnote Exhibits - Page 4923

previously taxed amounts or are treated as a non-taxable reduction to the U.S. Holder's tax basis for such Issuer Note (as described above). If a U.S. Holder receives Euro, Sterling, Canadian Dollars, Australian Dollars, New Zealand Dollars or Yen, as applicable, on the sale or other taxable disposition of an Issuer Note, the amount realized in U.S. Dollars generally will be based on the spot rate of exchange in effect on the date of the sale or other taxable disposition.

If a U.S. Holder does not make a timely QEF election as described above, any gain realized on the sale, exchange, redemption, retirement or other taxable disposition of an Issuer Note (or any gain deemed to accrue prior to the time a non-timely QEF election is made) will be taxed as ordinary income and subject to an additional tax reflecting a deemed interest charge under the special tax rules described above. See “Investment in a Passive Foreign Investment Company”.

Subject to a special exception applicable to individuals, if the Issuer were treated as a CFC and a U.S. Holder were treated as a “U.S. Shareholder” therein, then any gain realized by such U.S. Holder upon the disposition of Issuer Notes, other than gain constituting an excess distribution under the RIC rules, if applicable, would be treated as ordinary income to the extent of the U.S. Holder's share of the current or accumulated earnings and profits of the Issuer. In this regard, earnings and profits would not include any amounts previously taxed pursuant to a timely QEF election or pursuant to the CFC rules, as applicable.

Transfer Reporting Requirements

A U.S. Holder of Issuer Notes that owns (actually or constructively) at least 10% by vote or value of the Issuer (and each officer or director of the Issuer that is a U.S. citizen or resident) may be required to file an information return on IRS Form 5471. A U.S. Holder of Issuer Notes generally is required to provide additional information regarding the Issuer annually on IRS Form 5471 if it owns (actually or constructively) more than 50% by vote or value of the Issuer. U.S. Holders should consult their tax advisors regarding whether they are required to file IRS Form 5471.

A U.S. Person that purchases the Issuer Notes for cash will be required to file a Form 1099 or similar form with the IRS if (i) such person owned, directly or by attribution, immediately after the transfer at least 10% by voting power or value of the Issuer or (ii) if the transfer, when aggregated with all transfers made by such person (or any related person) within the preceding 12 month period, exceeds U.S.$100,000.

In the event a U.S. Holder fails to file any such required form, the U.S. Holder could be required to pay a penalty equal to 10% of the gross amount paid for such Issuer Notes subject to a maximum penalty of U.S.$100,000, except in cases involving intentional disregard. U.S. Persons should consult their tax advisors with respect to any other reporting requirement that may apply with respect to their acquisition of the Issuer Notes.

Tax Return Disclosure and Investor List Requirements

Any person that files a U.S. federal income tax return or U.S. federal information return and participates in a reportable transaction in a taxable year is required to disclose certain information on IRS Form 8889 (or its successor forms) attached to such person's U.S. tax return for such taxable year (and also file a copy of such form with the IRS's Office of Tax Shelter Analysis) and to retain certain documents related to the transaction. In addition, under these regulations, under certain circumstances, certain organizers and sellers of a reportable transaction will be required to maintain lists of participants in the transaction containing identifying information, retain certain documents related to the transaction, and furnish those lists and documents to the IRS upon request. There are significant penalties for failure to comply with these disclosure and record keeping requirements. The definition of reportable transaction is highly technical. However, in very general terms, a transaction may be a "reportable transaction" if, among other things, it is offered under conditions of confidentiality or if it results in the claiming of a loss for U.S. federal income tax purposes in excess of certain threshold amounts.

Confidential Treatment Requested by Goldman Sachs  

CS MIS-E-001918144
In this regard, in order to prevent the transactions described herein from being treated as offered under conditions of confidentiality, the Issuer and the Holders and beneficial owners of the Notes (and each of their respective employees, representatives or other agents) may disclose to any and all persons, without limitation of any kind, the U.S. tax treatment and U.S. tax structure of the transactions described herein and all matters of any kind (including opinions of other tax analysts) that are provided to them relating to such U.S. tax treatment and U.S. tax structure. However, any such disclosure of the tax treatment, tax structure and other tax-related materials shall not be made for the purpose of offering to sell the Notes offered hereby or soliciting an offer to purchase any such Notes. For purposes of this paragraph, the terms "tax treatment" and "tax structure" have the meaning given to such terms under Treasury regulation section 1.6011-4(c) and applicable state or local tax law. In general, the tax treatment of a transaction is the purported or claimed U.S. tax treatment of the transaction under applicable U.S. federal, state or local tax law, and the tax structure of a transaction is any fact that may be relevant to understanding the purported or claimed U.S. tax treatment of the transaction under applicable U.S. federal, state or local tax laws.

In addition, under these Treasury regulations, if the Issuer participates in a reportable transaction, a U.S. Holder of the Issuer that is a "reporting shareholder" of the Issuer will be treated as participating in the transaction and will be subject to the rules described above. Although most of the Issuer's activities generally are unlikely to give rise to "reportable transactions," it is nonetheless possible that the Issuer will participate in certain types of transactions that could be treated as reportable transactions. A U.S. Holder of Issuer Notes will be treated as a reporting shareholder of the Issuer if (i) such U.S. Holder owns 10% or more of the Issuer Notes and makes a QEF election with respect to the Issuer or (ii) the Issuer is treated as a CFC and such U.S. Holder is a U.S. Shareholder (as defined above) of the Issuer.

Prospective investors in the Notes should consult their own tax advisors concerning any possible disclosure obligations with respect to their ownership or disposition of the Notes in light of their particular circumstances.

**Tax Treatment of Non-U.S. Holders of Notes**

In general, payments on the Notes to a Holder that is not, for U.S. federal income tax purposes, a U.S. Holder (a "non-U.S. Holder") and gain realized on the sale, exchange, redemption, retirement or other taxable disposition of the Notes by a non-U.S. Holder, will not be subject to U.S. Federal income or withholding tax, unless (i) such income is effectively connected with a trade or business conducted by such non-U.S. Holder in the United States, or (ii) in the case of gain, such non-U.S. Holder is a non-resident alien individual who holds the Notes as a capital asset and is present in the United States for more than 183 days in the taxable year of the sale, exchange, redemption, retirement or other taxable disposition and certain other conditions are satisfied.

**Information Reporting and Backup Withholding**

Under certain circumstances, the Code requires "information reporting", and may require "backup withholding" with respect to certain payments made on the Notes and the payment of the proceeds from the disposition of the Notes. Backup withholding generally will not apply to corporations, tax-exempt organizations, qualified pension and profit sharing trusts, and individual retirement accounts. Backup withholding will apply to a U.S. Holder if the U.S. Holder fails to provide certain identifying information (such as the U.S. Holder's taxpayer identification number) or otherwise comply with the applicable requirements of the backup withholding rules. The application for exemption from backup withholding for a U.S. Holder is available by providing a properly completed IRS Form W-8.

A non-U.S. Holder of the Notes generally will not be subject to these information reporting requirements or backup withholding with respect to payments of interest or distributions on the Notes if (1) it certifies to the Trustee or the Issuing and Paying Agent, as applicable, its status as a non-U.S. Holder under penalties of perjury on the appropriate IRS Form W-8, and (2) in the case of a non-U.S.

Confidential Treatment Requested by Goldman Sachs  GS MBS-E-001918145
The payments of the proceeds from the disposition of a Note by a non-U.S. Holder to or through the U.S. office of a broker generally will not be subject to information reporting and backup withholding if the non-U.S. Holder certifies its status as a non-U.S. Holder and, if applicable, its beneficial owners also certify their status as non-U.S. Holders under penalties of perjury on the appropriate IRS Form W-9. The payments satisfy certain documentary evidence requirements for establishing that it is a non-U.S. Holder or otherwise establishes an exemption. The payment of the proceeds from the disposition of a Note by a non-U.S. Holder to or through a non-U.S. office of a non-U.S. broker will not be subject to backup withholding or information reporting unless the non-U.S. broker has certain specific types of relationships to the United States, in which case the treatment of such payment for such purposes will be as described in the following sentence. The payment of proceeds from the disposition of a Note by a non-U.S. Holder to or through a non-U.S. office of a U.S. broker or to or through a non-U.S. broker with certain specific types of relationships to the United States generally will not be subject to backup withholding but will be subject to information reporting unless the non-U.S. Holder certifies its status as a non-U.S. Holder (and, if applicable, its beneficial owners also certify their status as non-U.S. Holders) under penalties of perjury or the broker has certain documentary evidence in its files as to the non-U.S. Holder’s foreign status and the broker has no actual knowledge to the contrary. Backup withholding is not an additional tax and may be refunded (or credited against the U.S. Holder’s or non-U.S. Holder’s U.S. federal income tax liability, if any), provided that certain required information is furnished to the IRS. The information reporting requirements may apply regardless of whether withholding is required.

ERISA CONSIDERATIONS

The advice below was not written and is not intended to be used and cannot be used by any taxpayer for purposes of avoiding United States federal income tax penalties that may be imposed. The advice is written to support the promotion or marketing of the transaction. Each taxpayer should seek advice based on the taxpayer’s particular circumstances from an independent tax advisor.

The foregoing disclaimer is provided to satisfy obligations under Circular 230 governing standards of practice before the Internal Revenue Service.

The United States Employee Retirement Income Security Act of 1974, as amended ("ERISA") imposes certain requirements on "employee benefit plans" (as defined in and subject to Section 3(39) of ERISA), including entities such as collective investment funds and separate accounts whose underlying assets include the assets of such plans and on those persons who are fiduciaries with respect to such plans. Investments by the plans are subject to ERISA’s general fiduciary requirements, including the requirement of investment prudence and diversification and the requirement that a plan’s investments be made in accordance with the documents governing the plan. The prudentness of a particular investment must be determined by the responsible fiduciary of a plan by taking into account the plan’s particular circumstances and all of the facts and circumstances of the investment including, but not limited to, the matters discussed above under "Risk Factors" and the fact that in the future there may be no market in which such fiduciary will be able to sell or otherwise dispose of the Notes.

Section 409 of ERISA and Section 4975 of the Code prohibit certain transactions involving the assets of plans and arrangements subject to ERISA (as well as those plans that are not subject to ERISA but which are subject to Section 4975 of the Code, such as individual retirement accounts (the "Plans"))
Footnote Exhibits - Page 4926

and certain persons (referred to as ‘parties in interest’ or ‘disqualified persons’) having certain relationships to such Plans, unless a statutory or administrative exemption is applicable to the transaction. A party in interest or disqualified person who engages in a prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and Section 4975 of the Code.

The U.S. Department of Labor has promulgated regulations, 29 C.F.R. Section 2510.3-101 (the “Plan Asset Regulations”), describing what constitutes the assets of a Plan with respect to the Plan’s investment in an entity for purposes of certain provisions of ERISA and Section 4975 of the Code, including the fiduciary responsibility provisions of Title I of ERISA and Section 4975 of the Code. Under the Plan Asset Regulations, if a Plan invests in an “equity interest” of an entity that is neither a “publicly offered security” nor a security issued by an investment company registered under the Investment Company Act, the Plan’s assets include both the equity interest and any undivided interest in each of the entity’s underlying assets, unless it is established that the entity is an “operating company” or, as further discussed below, that equity participation in the entity by “benefit plan investors” is not significant.

Prohibited transactions within the meaning of Section 406 of ERISA or Section 4975 of the Code may arise if the Notes are acquired with the assets of a Plan with respect to which the Plan, the initial Purchaser, the Trustee, the Issuing and Paying Agent, any seller of Collateral Securities to the Issuer, the Protection Buyer, the Book Sweep Counterparty, the Collateral Put Provider or any of their respective Affiliates, is a party in interest or a disqualified person. Certain exemptions from the prohibited transaction provisions of Section 406 of ERISA and Section 4975 of the Code may be applicable, however, depending in part on the type of Plan fiduciary making the decision to acquire a Note and the circumstances under which such decision is made. Included among these exemptions are Prohibited Transaction Class Exemption ("PTCE") 91-38 (relating to investments by bank collective investment funds), PTCE 94-14 (relating to transactions effected by a "qualified professional asset manager"), PTCE 96-1 (relating to investments by insurance company pooled separate accounts), PTCE 95-60 (relating to investments by insurance company general accounts), and PTCE 96-23 (relating to transactions effected by a "professional trust officer"), ("Investment-Based Exemptions"). There is also a statutory exemption that may be available under Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code to a party in interest that is a service provider to a Plan investing in the Securities for adequate consideration, provided such service provider is not (i) a fiduciary with respect to the Plan’s assets used to acquire the Securities or an affiliate of such fiduciary or (ii) an affiliate of the employer sponsoring the Plan (the “Service Provider Exemption”). Adequate consideration means fair market value as determined in good faith by the Plan fiduciary pursuant to regulations to be promulgated by the U.S. Department of Labor. There can be no assurance that any of these Investor-Based Exemptions or the Service Provider Exemption or any other administrative or statutory exemption will be available with respect to any particular transaction involving the Notes.

Governmental plans and certain church plans, while not subject to the fiduciary responsibility provisions of ERISA or the provisions of Section 4975 of the Code, may nevertheless be subject to state, local or other federal laws that are substantially similar to the foregoing provisions of ERISA and the Code. Fiduciaries of any such plans should consult with their counsel before purchasing any Notes.

Any insurance company proposing to invest assets of its general account in the Notes should consider the extent to which such investment would be subject to the requirements of Title I of ERISA and Section 4975 of the Code in light of the U.S. Supreme Court’s decision in John Hancock Mutual Life Insurance Co. v. Harris Trust and Savings Bank, 510 U.S. 88 (1993), and the enactment of Section 401(c) of ERISA on August 22, 1996. In particular, such an insurance company should consider (i) the exemptive relief granted by the U.S. Department of Labor for transactions involving insurance company general accounts in PTCE 85-60 and (ii) if such exemptive relief is not available, whether the purchase of the Notes will be permissible under the final regulations issued under Section 401(c) of ERISA. The final regulations provide guidance on which assets held by an insurance company constitute “plan assets” for purposes of the fiduciary responsibility provisions of ERISA and Section 4975 of the Code. The regulations do not exempt the assets of insurance company general accounts from treatment...
as "plan assets" to the extent they support certain participating annuities issued to Plans after December 31, 1999.

The Co-Issued Notes

The Plan Asset Regulations define an "equity interest" as any interest in an entity other than an instrument that is treated as indebtedness under applicable local law and which has no substantial equity features. As noted above in Income Tax Considerations, it is the opinion of tax counsel to the Issuer that the Co-Issued Notes will be treated as debt for U.S. income tax purposes. Although there is little guidance on the subject, at the time of their issuance, the Co-Issued Notes should be treated as indebtedness without substantial equity features for purposes of the Plan Asset Regulations. This determination is based in part upon (i) the opinion of tax counsel that the Co-Issued Notes will be classified as debt for U.S. federal income tax purposes when issued and (ii) the traditional debt features of the Co-Issued Notes, including the reasonable expectation of purchasers of the Co-Issued Notes that they will be repaid when due, as well as the absence of conversion rights, warrants and other typical equity features. Based upon the foregoing and other considerations, subject to the considerations described below, the Co-Issued Notes may be purchased by a Plan. Nevertheless, without regard to whether the Co-Issued Notes are considered equity interests, prohibited transactions within the meaning of Section 406 of ERISA or Section 4975 of the Code may arise if the Co-Issued Notes are acquired with the assets of a Plan with respect to which the Issuer, the Initial Purchaser or the Trustee and the Issuing and Paying Agent or in certain circumstances, any of their respective affiliates, is a party in interest of a disqualified person. The Investor-Based Exemptions or the Service Provider Exemption may be available to cover such prohibited transactions.

By its purchase of any Co-Issued Notes, each purchaser and subsequent transferee thereof will be deemed to have represented and warranted, at the time of its acquisition and throughout the period it holds such Co-Issued Note, either that (a) it is neither a Plan nor any entity whose underlying assets include "plan assets" (within the meaning of the Plan Asset Regulations) by reason of such Plan's investment in the entity, nor a governmental, church, non-U.S. or other plan which is subject to any federal, state, local or non-U.S. law that is substantially similar to the provisions of Section 406 of ERISA or Section 4975 of the Code or (b) its purchase, holding and disposition of a Co-Issued Note will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code (or, in the case of a governmental, church, non-U.S. or other plan, a non-exempt violation under any substantially similar law).

The Issuer Notes

Equity participation in the Issuer of the Notes by "benefit plan investors" is "significant" and will cause the assets of the Issuer to be deemed the assets of an investing Plan (in the absence of another applicable Plan Asset Regulations exception) if 25% or more of the value of any Citizen of equity interest in the Issuer is held by "benefit plan investors." Recently, Section 3(42) of ERISA, as enacted under the Pension Protection Act of 2006, effectively amended, by statute, the definition of "benefit plan investors" in the Plan Asset Regulations. Employee benefit plans that are not subject to Title I of ERISA and plans that are not subject to Section 4975 of the Code, such as U.S. governmental and church plans or non-U.S. plans, are no longer considered "benefit plan investors." Accordingly, only employee benefit plans subject to Title I of ERISA or Section 4975 of the Code or an entity whose underlying assets include plan assets by reason of such Plan's investment in the entity are considered in determining whether investment by "benefit plan investors" represents 25% or more of any class of equity interest in the Issuer. Therefore, the term "benefit plan investor" includes (a) an employee benefit plan (as defined in Section 3(3) of ERISA) that is subject to the fiduciary responsibility provisions of ERISA, (b) a plan as defined in Section 4975(e)(1) of the Code that is subject to Section 4975 of the Code, (c) any entity whose underlying assets include "plan assets" by reason of any such employee benefit plan's or plan's investment in the entity or (d) as such term is otherwise defined in any regulations promulgated by the U.S. Department of Labor under Section 3(42) of ERISA (collectively, "ERISA Plans").

Confidential Treatment Requested by Goldman Sachs
GS MBS-E-001918148
The Issuer Notes would likely be considered to have substantial equity features under the Plan Asset Regulations. In order to not exceed the 25 percent limit referred to above, no ERISA Plans shall be permitted to acquire the Issuer Notes in the initial offering or thereafter. Therefore, the fiduciary responsibility and prohibited transaction provisions of ERISA and Section 4975 of the Code should not be applicable to the Issuer. An unlimited number of other types of employee benefit plans, such as governmental or non-U.S. plans may invest in the Issuer Notes as their investment is disregarded for these purposes.

BY ITS PURCHASE OR HOLDING OF AN ISSUER NOTE, OR ANY INTEREST THEREIN, THE PURCHASER AND/OR HOLDER THEREOF AND EACH TRANSFEREE WILL BE DEEMED TO HAVE REPRESENTED AND WARRANTED THAT, AT THE TIME OF ITS ACQUISITION, AND THROUGHOUT THE PERIOD THAT IT HOLDS SUCH NOTE OR INTEREST THEREIN, THAT (1) IT IS NOT AN ERISA PLAN, AND IF AFTER ITS INITIAL ACQUISITION OF AN ISSUER NOTE OR ANY INTEREST THEREIN, THE INVESTOR DETERMINES, OR IT IS DETERMINED BY ANOTHER PARTY, THAT SUCH INVESTOR IS AN ERISA PLAN, THE INVESTOR WILL DISPOSE OF ALL OF ITS ISSUER NOTES IN A MANNER CONSISTENT WITH THE RESTRICTIONS SET FORTH IN THE INDENTURE, AND (2) IF IT IS A GOVERNMENTAL, CHURCH, NON-U.S. OR OTHER PLAN THAT IS SUBJECT TO ANY FEDERAL, STATE, LOCAL OR NON-U.S. LAW THAT IS SubSTANTIALy SIMILAR TO THE PROVISIONS OF TITLE I OF ERISA OR SECTION 4975 OF THE CODE, ITS PURCHASE, HOLDING AND DISPOSITION OF THE ISSUER NOTES WILL NOT CAUSE A NON-EXEMPT VIOLATION OF ANY U.S. FEDERAL, STATE OR LOCAL LAW OR ANY NON-U.S. LAW THAT IS SUBSTANTIALy SIMILAR TO TITLE I OF ERISA OR SECTION 4975 OF THE CODE AS A RESULT OF THE TRANSACTIONS CONTEMPLATED HEREIN AND (3) IT WILL NOT SELL OR OTHERWISE TRANSFER ANY SUCH NOTE OR INTEREST THEREIN TO ANY PERSON WHO IS UNABLE TO SATISFY THE SAME FOREGOING REPRESENTATIONS AND WARRANTIES.

There can be no assurance that, despite the transfer restrictions relating to purchases by ERISA Plans, ERISA Plans will not in fact acquire 25% or more of such value.

If for any reason the assets of the Issuer are deemed to be "plan assets" of an ERISA Plan because one or more ERISA Plans is an owner of Issuer Notes (or of a Note characterized as an "equity interest" in the Issuer), certain transactions that the Issuer might enter into, or may have entered into, in the ordinary course of its business might constitute non-exempt "prohibited transactions" under Section 408 of ERISA or Section 4975 of the Code and might have to be rescinded at significant cost to the Issuer. The Issuer may be prevented from engaging in certain investments (as not being consistent with the ERISA prudent investment standards) or engaging in certain transactions or fee arrangements because they might be deemed to cause non-exempt prohibited transactions. It is not clear that Section 404(b) of ERISA, which generally requires that all of the assets of a plan or arrangement subject to ERISA be held in trust and limits delegation of investment management responsibilities by fiduciaries of such plans or arrangements, would be satisfied. In addition, it is unclear whether Section 404(b) of ERISA, which generally provides that no fiduciary may maintain the indicia of ownership of any assets of a plan outside the jurisdiction of the district courts of the United States, would be satisfied or any of the exceptions to the requirement set forth in 29 C.F.R. Section 2550.404(b)-1 would be available.

Any fiduciary of a benefit plan investor or other person who proposes to use assets of any benefit plan investor to purchase any Notes should consult with its counsel regarding the applicability of the fiduciary responsibility and prohibited transaction provisions of ERISA and Section 4975 of the Code to such an investment, and to confirm that such investment will not constitute or result in a non-exempt prohibited transaction or any other violation of an applicable requirement of ERISA.

The sale of any Note to a benefit plan investor, or to a person using assets of any benefit plan investor to affect its purchase of any Note, is in no respect a representation by the Issuer or the Initial Purchaser that such an investment meets all relevant legal requirements with respect to investments by

GS MBS-E-001918149
benefit plan investors generally or any particular benefit plan investor, or that such an investment is appropriate for benefit plan investors generally or any particular benefit plan investor.

SETTLEMENT AND CLEARING

Global Notes

Upon the issuance of the Global Notes denominated in Dollars, DTC or its custodian will credit, on its internal system, the respective aggregate original principal amount of the individual beneficial interests represented by such Global Notes to the accounts of persons who have accounts with DTC. Upon the issuance of the Global Notes denominated in Approved Currencies other than Dollars, Euroclear or its nominee will credit, on their internal system, the respective aggregate original principal amount of the individual beneficial interests represented by such Global Notes to the accounts of persons who have accounts with Euroclear. Such accounts initially will be designated by or on behalf of the initial Purchaser. Ownership of beneficial interests in Global Notes denominated in Dollars will be limited to persons who have accounts with DTC or Euroclear, as the case may be, or persons who hold interests through participants. Ownership of beneficial interests in a Global Note will be shown on, and the transfer of that ownership will be effected only through, records maintained by DTC or Euroclear, as the case may be, or their nominee (with respect to interests of participants) and the records of participants (with respect to interests of persons other than participants).

With respect to notes denominated in Dollars, so long as DTC, or its nominee, is the registered owner or Holder of the Global Notes, DTC or such nominee, as the case may be, will be considered the sole owner or Holder of each Class of the Notes represented by such Global Notes for all purposes under the Indenture and the Issuing and Paying Agency Agreement, as applicable, and such Notes. With respect to Notes denominated in Approved Currencies other than Dollars, so long as the Common Depository, or a nominee thereof, is the registered owner or Holder of the Global Notes, the Common Depository or its nominee, as the case may be, will be considered the sole owner or Holder of each Class of the Notes represented by such Global Notes for all purposes under the Indenture and the Issuing and Paying Agency Agreement, as applicable, and such Notes. Unless (a) DTC notifies the Issuers that it is unwilling or unable to continue as depositary for a global note or ceases to be a "Clearing Agency" registered pursuant to the provisions of Section 17A of the Exchange Act, or (b) Euroclear notifies the Issuers that it is unwilling or unable to continue as depositary for a global note or ceases to be a Clearing Agency, owners of the beneficial interests in the Global Notes will not be entitled to have any portion of such Global Notes registered in their names, will not receive or be entitled to receive physical delivery of Notes in certificated form and will not be considered to be the owners or Holders of any Notes under the Indenture or the Issuing and Paying Agency Agreement, as applicable. The owner of a beneficial interest in a Global Note will also be entitled to receive a certificate in exchange for such interest if an event of Default has occurred and is continuing. In addition, no beneficial owner of an interest in the Global Notes will be able to transfer that interest except in accordance with DTC's applicable procedures (in addition to those under the Indenture referred to herein and, if applicable, those of Euroclear and Clearstream).

Investors may hold their interests in Regulation S Global Notes directly through Clearstream or Euroclear, if they are participants in these systems, or indirectly through organizations that are participants in these systems. With respect to Notes denominated in Dollars, Clearstream and Euroclear will hold interests in the Regulation S Global Notes on behalf of their participants through their respective depositaries, which in turn will hold the interests in the Regulation S Global Notes in customers' securities accounts in the depositaries' names on the books of DTC. Investors may hold their interests in a Rule 144A Global Note directly through DTC if they are participants in the system, or indirectly through organizations that are participants in the system.

With respect to Notes denominated in Dollars, payments of the principal of and interest or distributions on such Global Notes will be made to DTC or its nominee, as the registered owner thereof,
Footnote Exhibits - Page 4930

With respect to Notes denominated in an Approved Currency other than Dollars, payments of the principal of and interest or distributions on such Global Notes will be made to the Common Depository, as the registered owner thereof. None of the Issuers, the Trustee nor any paying agent will have any responsibility or liability for any aspect of the records relating to or payments or distributions made on account of beneficial ownership interests in the Global Notes or for any notice permitted or required to be given to Holders of Notes or any consent given or actions taken by DTC or Euroclear, as applicable, as Holder of Notes. The Issuers expect that DTC or Euroclear or their nominee, as the case may be, upon receipt of any payment of principal, interest or distributions, as the case may be, in respect of a Global Note representing any Notes held by it or its nominee, will immediately credit participants’ accounts, in the currency in which the Note is denominated, with payments in amounts proportionate to their respective interests in the principal amount of such Note in global form as shown on the records of DTC or Euroclear, as the case may be, or a nominee thereof. The Issuers also expect that payments by participants to owners of interests in such Global Note held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants. Payments of the principal of and interest or distributions on the Regulation S Global Notes denominated in Dollars will be made to Clearstream or Euroclear, as applicable, as indirect participants in DTC, in accordance with their respective rules and operating procedures. Payments of the principal of and interest or distributions on the Regulation S Global Notes denominated in Approved Currencies other than Dollars will be made directly to the nominee of Clearstream or Euroclear, as applicable, in accordance with their respective rules and operating procedures.

Transfers between participants of the same Clearing Agency will be effected in the ordinary way in accordance with such Clearing Agency’s rules and will be settled in same-day funds. The laws of some jurisdictions require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer beneficial interests in Global Notes to these persons may be limited. Because the Clearing Agencies can only act on behalf of participants, who in turn act on behalf of indirect participants and certain banks, the ability of a person having a beneficial interest in Global Notes to pledge its interest to persons or entities that do not participate in the DTC or Euroclear system, or otherwise take action in respect of its interest, may be affected by the lack of a physical certificate of the interest. Transfers between participants or account holders in Euroclear and Clearstream will be effected in the ordinary way in accordance with their respective rules and operating procedures.

With respect to Notes denominated in Dollars, subject to compliance with the transfer restrictions applicable to the Notes described above, cross-market transfers between DTC participants, on the one hand, and, directly or indirectly through Euroclear or Clearstream account holders, on the other, will be effected in accordance with DTC’s rules on behalf of Euroclear or Clearstream, as the case may be, by its respective depository; however, these cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in the system in accordance with its rules and procedures and within its established deadlines (Brussels time). Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in a Regulation S Global Note in DTC, and making or receiving payment in accordance with normal procedures for a same-day funds settlement applicable to DTC. Clearstream and Euroclear account holders may not deliver instructions directly to the depositories for Clearstream or Euroclear. Notes denominated in Approved Currencies other than Dollars may only be transferred through Clearstream and Euroclear and may not be transferred through DTC.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a Global Note from a DTC participant will be credited during the securities settlement processing day (which must be a Business Day for Euroclear or Clearstream, as the case may be) immediately following the DTC settlement date and the credit of any transactions in interests in a Global Note settled during the processing day will be reported to the relevant Euroclear or
Footnote Exhibits - Page 4931

Clearstream participant on that day. Cash received in Euroclear or Clearstream as a result of sales of interests in a Global Note by or through a Euroclear or Clearstream participant to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Euroclear or Clearstream cash account only as of the Business Day following settlement in DTC.

DTC has advised the Issuers that it will take any action permitted to be taken by a Holder of the Notes (including the presentation of the applicable Notes for exchange as described below) only at the direction of one or more participants to whose account with DTC interests in a Global Note are credited and only in respect of that portion or number of the aggregate principal amount of the Notes as to which the participant or participants has or have given direction.

The giving of notices and other communications by any Clearing Agency to participants, by participants to persons who hold accounts with them and by such persons to Holders of beneficial interests in a Global Note will be governed by arrangements between them, subject to any statutory or regulatory requirements as may exist from time to time.

DTC has advised the Issuers as follows: DTC is a limited purpose trust company principally located under the laws of the State of New York, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the Uniform Commercial Code and a “Clearing Agency” registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Participants include securities brokers and dealers, banks, trust companies and clearing corporations and may include certain other organizations. Indirect access to the DTC system is available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly (“Indirect participants”).

Euroclear and Clearstream each hold securities for their customers and facilitate the clearance and settlement of securities transactions through electronic book-entry transfer between their respective accountholders. Indirect access to Euroclear and Clearstream is available to other institutions that clear through or maintain a custodial relationship with an accountholder of either system. Euroclear and Clearstream provide various services including safekeeping, administration, clearance and settlement of internationally-traded securities and securities lending and borrowing. Euroclear and Clearstream also deal with domestic securities markets in several countries through established depositary and custodial relationships. Euroclear and Clearstream have established an electronic bridge between their two systems across which their respective customers may settle trades with each other. Their customers are worldwide financial institutions including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Investors may hold their interests in a Regulation S Global Note directly through Euroclear or Clearstream if they are accountholders therein (“Direct participants”) or as Indirect participants through organizations that are direct or indirect accountholders in direct participants.

Although the Clearing Agencies have agreed to the foregoing procedures in order to facilitate transfers of interests in Global Notes among participants of the Clearing Agencies, they are under no obligation to perform or continue to perform these procedures, and the procedures may be discontinued at any time. Neither the Issuers, the Trustee nor the Issuing and Paying Agent will have any responsibility for the performance by the Clearing Agencies or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Each Regulation S Global Note denominated in an Approved Currency other than Dollars will have an ISIN and a Common Code and will be registered in the name of ABN AMRO GUARDS LIMITED as nominee for ABN AMRO Bank N.V., London Branch as common depository for Clearstream and Euroclear, and deposited with the Common Depository.

Confidential Treatment Requested by Goldman Sachs
Each Global Note denominated in Dollars will have a CUSIP number and will be registered in the name of Cede & Co. as nominee of, and deposited with LaSalle Bank National Association, as custodian (the "DTC Custodian") for DTC. The DTC Custodian and DTC will electronically record the principal amount of the Notes held within the DTC system.

Individual Definitive Securities

If (a) DTC or any successor to DTC advises the Issuer in writing that it is at any time unwilling or unable to continue as a depositary for the reasons described in "Global Notes" and a successor depositary is not appointed by the Issuer within 90 days or (b) Euroclear or its nominee or any successor to Euroclear or its nominee advises the Issuer in writing that it is at any time unwilling or unable to continue as a depositary for the reasons described in "Global Notes" and a successor depositary is not appointed by the Issuer within 90 days, (3) as a result of any amendment to or change in the laws or regulations of the Cayman Islands or of any authority therein or thereof having power to tax or in the interpretation or administration of such laws or regulations which become effective on or after the Closing Date, the Issuer or the paying agent is or will be required to make any deduction or withholding from any payment in respect of the Notes which would not be required if the Notes were in definitive form or (ii) upon the written request of any beneficial owner of an interest in a Global Note following the occurrence of an Event of Default, the Issuer will issue individual definitive Notes in registered form in exchange for the Global Notes. Upon receipt of such notice from any Clearing Agency, the Issuer will use its best efforts to make arrangements with such Clearing Agency for the exchange of interests in the Global Notes for Individual definitive Notes and cause the requested individual definitive Notes to be executed and delivered to the Note Registrar or Issuer Note Registrar, as applicable, in sufficient quantities and authenticated by or on behalf of the Trustee or the Issuing and Paying Agent, as applicable, for delivery to Holders of the Notes. Persons exchanging Interests in a Global Note for individual definitive Notes will be required to provide to the Trustee or the Issuing and Paying Agent, as applicable, through DTC, Clearstream or Euroclear, (i) written instructions and other information required by the Issuer and the Trustee or the Issuing and Paying Agent, as applicable, to complete, execute and deliver such individual definitive Notes, (ii) in the case of an exchange of an interest in a Rule 144A Global Note, such certification as to "Qualified Institutional Buyer" status, and that such Holder is a Qualified Purchaser, as the Issuer shall require and (ii) in the case of an exchange of an Interest in a Regulation S Global Note, such certification as the Issuer shall require as to non-U.S. Person status. In all cases, individual definitive Notes delivered in exchange for any Note in global form or beneficial interests therein will be registered in the names, and issued in denominations in compliance with the minimum denominations specified for the applicable Notes in global form, requested by the applicable Clearing Agency.

Individual definitive Notes will bear, and be subject to, such legend as the Issuer requires in order to assure compliance with any applicable law. Individual definitive Notes will be transferable subject to the minimum denomination applicable to such Notes, in whole or in part, and exchangeable for individual definitive Notes of the same kind at the office of the Trustee or the Issuing and Paying Agent, as applicable, or the office of any transfer agent, upon compliance with the requirements set forth in the Indenture. Individual definitive Notes may be transferred through any transfer agent, upon the delivery and duly completed assignment of such Notes. Upon a partial transfer of any Notes, represented by the applicable definitive notes therefor, the Trustee or the Issuing and Paying Agent, as applicable, will issue in exchange therefor to the transferee one or more individual definitive Notes representing the amount no transferred and will issue to the transferor one or more individual definitive Notes representing the remaining amount not being transferred. No service charge will be imposed for any registration of transfer or exchange, but payment of a sum sufficient to cover any tax or other governmental charge may be required. The Holder of a restricted individual definitive Note may transfer such Note, subject to compliance with the provisions of the legend thereon. Upon the transfer, exchange or replacement of Notes bearing the legend, or upon specific request for removal of the legend on a Note, the Issuer will deliver only Notes that bear such legend, or will refuse to remove such legend, as the case may be, unless there is delivered to the Issuer such satisfactory evidence, which may include an opinion of counsel, as may reasonably be required by the Issuer that neither the legend nor the restrictions on

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918153
transfer set forth therein are required to ensure compliance with the provisions of the Securities Act and
the Investment Company Act. Payments of principal and interest on individual definitive Notes shall be
payable by wire transfer to immediately available funds to an account maintained by the Holder thereof or
its nominee or, if appropriate instructions are not received at least fifteen days prior to the relevant
Payment Date, by check drawn on a bank and sent by mail to the Registered holder thereof, or, for so
long as any of the Notes are listed on any stock exchange and the notes of such stock exchange shall so
require, at the office of the listing, paying and transfer agent.

TRANSFER RESTRICTIONS

Because of the following restrictions, purchasers are advised to consult legal counsel prior to
making any offer, resale, pledge or transfer of the Notes. Any purchase or transfer of the Notes will be
subject to the minimum denomination set forth in "Summary—Notes".

Rule 144A Global Notes

Each purchaser of a beneficial interest in a Rule 144A Global Note will be deemed to have
represented and agreed with the Issuer as follows:

(i) (A) The purchaser is a Qualified Institutional Buyer and a Qualified Purchaser, (ii) the
purchaser is purchasing the Notes for its own account or the account of another Qualified Purchaser that
is also a Qualified Institutional Buyer as to which the purchaser exercises sole investment discretion, (C)
the purchaser and any such account is acquiring the Notes as principal for its own account for investment
and not for sale in connection with any distribution thereof, (D) the purchaser and any such account was
not formed solely for the purpose of investing in the Notes (except when any such beneficial owner of the
purchaser or any such account is a Qualified Purchaser), (E) to the extent the purchaser (or any account
for which it is purchasing the Notes) is a private investment company formed on or before April 30, 1996,
the purchaser and each such account has received the necessary consent from its beneficial owners, (F)
neither the purchaser nor any such account is a pension, profit sharing or other retirement trust fund or
plan in which the partners, beneficiaries or participants, as applicable, may designate the particular
investments to be made, (G) the purchaser agrees that it and each such account shall not hold such
Notes for the benefit of any other Person and shall be the sole beneficial owner thereof for all purposes
and that it shall not hold participation interests in the Notes or enter into any other arrangement pursuant
to which any other Person shall be entitled to a beneficial interest in the distributions on the Notes, (H) the
Notes purchased directly or indirectly by the purchaser or any account for which it is purchasing the Notes
constitute an investment of no more than 40% of the purchaser's and each such account's assets (except
when any beneficial owner of the purchaser and each such account is a Qualified Purchaser), (I) the
purchaser and each such account is acquiring the Notes in a principal amount of not less than the
minimum denomination requirement for the purchaser and each such account, (J) the purchaser will
provide notice of any transfer restrictions set forth in the indenture (including the exhibits thereto) to any
transferee of its Notes, (K) the purchaser understands and agrees that the Issuer may receive a list of
participants in the Notes from one or more book-entry depositories and (L) the purchaser understands
and agrees that any purported transfer of the Notes to a purchaser that does not comply with the
requirements of this paragraph (i) shall be null and void ab initio.

(ii) If any U.S. Person that is not both a Qualified Institutional Buyer and a Qualified
Purchaser at the time it acquires an interest in a Note shall become the beneficial owner of any Note,
(any such Person, a "Non-Permitted Holder"; the Trustee or the Issuing and Paying Agent, as applicable,
shall, promptly after discovery of such Person's status as a Non-Permitted Holder by the Issuer, the
Co-Issuer, the Trustee or the Issuing and Paying Agent, as applicable, and notice by the Trustee, the
Issuing and Paying Agent or the Co-Issuer to the Issuer, if any of them makes the discovery, send notice
to such Non-Permitted Holder demanding that such Non-Permitted Holder transfer its interest to a Person
that is not a Non-Permitted Holder within 14 days of the date of such notice. If such Non-Permitted
Holder fails to transfer its Notes, the Issuer shall have the right, without further notice to the Non-
Footnote Exhibits - Page 4934

Permitted Holder, to sell such Notes or Interest in Notes to a purchaser selected by the Issuer that is not a Non-Permitted Holder on such terms as the Issuer may choose. The Issuer, or the Trustee, the Issuing and Paying Agent, as applicable, acting on behalf of the Issuer, may select the purchaser by soliciting one or more bids from one or more brokers or other market professionals that regularly deal in securities similar to the Notes, and selling such Notes to the highest such bidder. However, the Issuer or the Trustee or the Issuing and Paying Agent, as applicable, may select a purchaser by any other means determined by it in its sole discretion and the Trustee or the Issuing and Paying Agent, as applicable, may, at the expense of the Issuer, engage an independent investment bank to assist in such sale. The Holder of each Note, the Non-Permitted Holder and each other Person in the chain of title from the Holder to the Non-Permitted Holder, by its acceptance of an interest in the Notes, agrees to cooperate with the Issuer and the Trustee or the Issuing and Paying Agent, as applicable, to effect such transfers. The proceeds of such sale, net of any commissions, expenses and taxes due in connection with such sale shall be remitted to the Non-Permitted Holder. The terms and conditions of any sale under this paragraph shall be determined in the sole discretion of the Issuer, and neither the Issuer nor the Trustee or Issuing and Paying Agent, as applicable, shall be liable to any Person having an interest in the Notes sold as a result of any such sale or the exercise of such discretion.

If (1) an ERISA Plan or (2) a governmental, church, non-U.S. or other plan that is subject to any federal, state, local or non-U.S. law that substantially similar to the provisions of Title I of ERISA or Section 4975 of the Code whose purchase, holding or disposition of an Issuer Note or any beneficial interest therein will result in a non-exempt violation of any federal, state, local or non-U.S. law substantially similar to Section 408 of ERISA or Section 4975 of the Code (any such person described in clause (1) or (2) a "Non-Permitted ERISA Plan Holder") becomes the owner of Issuer Notes, the Issuer shall, promptly after discovery that such person is a Non-Permitted ERISA Plan Holder by the Issuer or the Issuing and Paying Agent (and notice by the Issuing and Paying Agent to the Issuer, if the Issuing and Paying Agent makes the discovery), send notice to such Non-Permitted ERISA Plan Holder demanding that such Non-Permitted ERISA Plan Holder transfer its Issuer Notes to a Person that is eligible to purchase such Issuer Notes hereunder within 14 days of the date of such notice. If such Non-Permitted ERISA Plan Holder fails to so transfer such Issuer Notes, the Issuer shall have the right, without further notice to the Non-Permitted ERISA Plan Holder, to sell such Issuer Notes to a purchaser selected by the Issuer that is eligible to purchase such Issuer Notes hereunder on such terms as the Issuer may choose. The Issuer, or the Issuing and Paying Agent acting on behalf of the Issuer, may select the purchaser by soliciting one or more bids from one or more brokers or other market professionals that regularly deal in securities similar to the Issuer Notes and selling such Issuer Notes to the highest such bidder. However, the Issuer or the Issuing and Paying Agent acting on behalf of the Issuer may select a purchaser by any other means determined by it in its sole discretion. The Holder of each Issuer Note, the Non-Permitted ERISA Plan Holder and each other Person in the chain of title from the Holder to the Non-Permitted ERISA Plan Holder, by its acceptance of an interest in Notes agrees to cooperate with the Issuer and the Issuing and Paying Agent to effect such transfers. The proceeds of such sale, net of any commissions, expenses and taxes due in connection with such sale shall be remitted to the Non-Permitted ERISA Plan Holder. The terms and conditions of any sale under this paragraph shall be determined in the sole discretion of the Issuer, and the Issuer shall not be liable to any Person having an interest in the Issuer Notes sold as a result of any such sale or the exercise of such discretion.

(ii) The purchaser understands and agrees that the Notes have not been and will not be registered or qualified under the Securities Act or any applicable state securities laws or the securities laws of any other jurisdiction and the sale of the Notes to the purchaser is being made in reliance on an exemption from registration under the Securities Act, and may be resold, resold, resold or otherwise transferred only (A)(i) to a Person whom the purchaser reasonably believes is a Qualified Institutional Buyer purchasing for its own account or for the account of a Qualified Institutional Buyer as to which the purchaser exercises sole investment discretion in a transaction meeting the requirements of Rule 144A or (ii) in an offshore transaction complying with Rule 903 or Rule 904 of Regulation S and (iii) in accordance with all applicable securities laws of the states of the United States. The Issuer, the Co-Issuer and the Issuer Assets have not been registered under the Investment Company Act and, therefore, no transfer

Confidential Treatment Requested by Goldman Sachs

GS MISS-E-001918155
having the effect of causing the Issuer, the Co-Issuer or the Issuer Assets to be required to be registered as an investment company under the Investment Company Act will be recognized. The Notes are subject to the restrictions on transfer set forth herein and in the Indenture and the Notes. The purchaser understands and agrees that any purported transfer of the Notes to a purchaser that does not comply with the requirements of this paragraph (v) shall be null and void ab initio.

(v) The purchaser is not a member of the public of the Cayman Islands.

(vi) The purchaser is not purchasing the Notes with a view toward, or in connection with, the disposal of the Notes or any part thereof, or tasks, or for any other purpose, or as part of any plan or scheme to evade, or to act, as part of any plan or scheme to evade, the federal securities laws and the rules and regulations made thereunder.

(vii) In connection with the purchase of the Notes: (A) none of the Issuers, the Initial Purchaser, the Trustee, the Issuing and Paying Agent, the Protection Buyer, the Basis Swap Counterparty, the Collateral Put Provider, the Collateral Disposal Agent, the Portfolio Selection Agent, the Administrator of the Share Trustee (or any of their respective Affiliates) is acting as a fiduciary or financial or investment adviser for the purchaser; (B) the purchaser is not relying (for purposes of making any investment decision or otherwise) upon any advice, counsel or representations (whether written or oral) of the Issuers, the Initial Purchaser, the Trustee, the Issuing and Paying Agent, the Portfolio Selection Agent, the Administrator of the Share Trustee (or any of their respective Affiliates) other than in the final offering circular for such Notes and any representations expressly set forth in a written agreement with such party; (C) none of the Issuers, the Initial Purchaser, the Trustee, the Issuing and Paying Agent, the Portfolio Selection Agent, the Administrator of the Share Trustee (or any of their respective Affiliates) has given to the purchaser (directly or indirectly through any other Person) any assurance, guarantee, representation, or advice as to the expected or projected results, profitability, return, performance, result, degree of benefit or success (including legal, regulatory, tax, financial, accounting, or otherwise) as to an investment in the Notes; (D) the purchaser has consulted with its own legal, regulatory, tax, business, investment, financial and accounting advisors to the extent it has deemed necessary, and it has made its own investment decisions (including decisions regarding the suitability of any transaction pursuant to the Indenture) based upon its own judgment and upon any advice from such advisors as it has deemed necessary and not upon any view expressed by the Issuers, the Initial Purchaser, the Trustee, the Issuing and Paying Agent, the Portfolio Selection Agent, the Administrator of the Share Trustee (or any of their respective Affiliates); (E) the purchaser has evaluated the terms and conditions of the purchase of and sale of the Notes with a full understanding of all of the risks thereof (economic and otherwise), and it is capable of assuming, and willing to assume (financially and otherwise) these risks; (F) the purchaser is a sophisticated investor; and (G) if acquiring the Notes for any account, the purchaser has not made any disclosure, assurance, guarantee or representation not consistent with the provisions of the Indenture and the requirements contained therein.

(viii) In the case of the Co-Issued Notes, at the time of its acquisition and throughout the period it holds such Co-Issued Notes, either (A) the purchaser is not a Plan nor any entity whose underlying assets include "plan assets" (within the meaning of the Plan Asset Regulations) by reason of such Plan's investment in the entity, nor a governmental, church, non-U.S. or other plan which is subject to any federal, state, local or non-U.S. law that is substantially similar to the provisions of Section 406 of ERISA or Section 4975 of the Code or (B) if the purchaser is an entity described in (A), the purchase, holding and disposition of a Co-Issued Note, as the case may be, will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code (or, in the case of a governmental, church or non-U.S. or other plan, a non-exempt violation under any substantially similar federal, state, local or non-U.S. law). Any purported transfer of a Note to a purchaser that does not comply with the requirements of this paragraph (vi) shall be null and void ab initio.
Footnote Exhibits - Page 4936

(iv) In the case of the Issuer Notes, each purchaser and subsequent transferee of a beneficial interest in any such Note will be deemed to represent that the purchaser or transferee, as the case may be, from the date on which it acquires its interest in such Notes through and including the date on which such purchaser or transferee disposes of its interest in such Notes: (1) it is not an ERISA Plan; and if after its initial acquisition of any such Note or any interest therein, the investor determines, or if it is determined by another party, that such investor is an ERISA Plan, the investor will dispose of all of its Issuer Notes in a manner consistent with the restrictions set forth in the indenture, and (2) if it is a governmental, church, non-U.S. or other plan that is subject to any federal, state, local or non-U.S. law that is substantially similar to the provisions of Title I of ERISA or Section 4975 of the Code, its purchase, holding and disposition of any such Notes will not cause a non-exempt violation of any U.S. federal, state or local law or any non-U.S. law which is substantially similar to Title I of ERISA or Section 4975 of the Code as a result of the transactions contemplated herein and (3) it will not sell or otherwise transfer any such Note or interest therein to any person who is unable to satisfy the same meaning representations and warranties.

(ix) To the extent required by the Issuer, as determined by the Issuer, the Issuer may, upon notice to the Trustee and the Issuing and Paying Agent, impose additional transfer restrictions on the Notes to comply with the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the USA PATRIOT Act) and other similar laws or regulations, including, without limitation, requiring each transferee of a beneficial interest in a Note to make representations to the Issuer in connection with such compliance.

(x) The Co-Issued Notes will bear a legend substantially to the following effect:

THE NOTES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND THE ISSUERS HAVE NOT BEEN REGISTERED UNDER THE UNITED STATES INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE "INVESTMENT COMPANY ACT"). THE HOLDER HEREBY BY PURCHASING THE NOTES IN RESPECT OF WHICH THIS NOTE HAS BEEN ISSUED AGREES FOR THE BENEFIT OF THE ISSUERS THAT THE NOTES MAY BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED, ONLY (A)(1) TO A PERSON WHOM THE HOLDER REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER WITHIN THE MEANING OF RULE 144A UNDER THE SECURITIES ACT, PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER, IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A UNDER THE SECURITIES ACT OR (B) IN AN OFFSHORE TRANSACTION COMPLYING WITH RULE 903 OR RULE 904 OF REGULATION S UNDER THE SECURITIES ACT AND, IN THE CASE OF CLAUSE (1) A PRINCIPAL AMOUNT OF NOT LESS THAN $250,000 ($100,000) IN THE CASE OF CLAUSE (2) A PRINCIPAL AMOUNT OF NOT LESS THAN $100,000 ($50,000) IN THE CASE OF CLAUSE (3) A PRINCIPAL AMOUNT OF NOT LESS THAN $100,000 ($50,000) FOR THE PURCHASER AND FOR EACH ACCOUNT FOR WHICH IT IS ACTING TO A PURCHASER THAT (W) IS A QUALIFIED PURCHASER WITHIN THE MEANING OF SECTION 2(a)(7) OF THE INVESTMENT COMPANY ACT, (X) WAS NOT FORMED FOR THE PURPOSE OF INVESTING IN THE ISSUER (EXCEPT WHEN EACH BENEFICIAL OWNER OF THE PURCHASER IS A QUALIFIED PURCHASER), (Y) UNDERSTANDS AND AGREES THAT THE ISSUERS MAY RECEIVE A LIST OF PARTICIPANTS IN THE NOTES FROM ONE OR MORE BOOK-ENTRY DEPOSITARIES AND (Z) HAS RECEIVED THE NECESSARY CONSENT FROM ITS BENEFICIAL OWNERS WHEN THE PURCHASER IS A PRIVATE INVESTMENT COMPANY FORMED ON OR BEFORE APRIL 30, 1996, AND IN A TRANSACTION THAT MAY BE EFFECTED WITHOUT LOSS OF ANY APPLICABLE INVESTMENT COMPANY ACT EXEMPTION OR EXCLUSION AND (B) IN ACCORDANCE WITH ALL APPLICABLE SECURITIES LAWS OF THE STATES OF THE UNITED STATES OR OTHER APPLICABLE JURISDICTION. ANY TRANSFER IN

1 Applicable to the Rule 144A Global Notes.
2 Applicable to Regular Global Notes denominated in Dollars.
3 Applicable to Regular Global Notes denominated in Approved Currencies other than Dollars, as applicable.

(GENERALLY, AN INTERNAL REVENUE SERVICE FORM W-4 (OR SUCCESSOR APPLICABLE FORM) IN THE CASE OF A PERSON THAT IS A "UNITED STATES PERSON" WITHIN THE MEANING OF SECTION 7701(a)(36) OF THE INTERNAL REVENUE CODE OF 1986, AS AMENDED (THE "CODE") OR AN APPROPRIATE INTERNAL REVENUE SERVICE FORM W-4 (OR SUCCESSOR APPLICABLE FORM) IN THE CASE OF A PERSON THAT IS NOT A "UNITED STATES PERSON" WITHIN THE MEANING OF SECTION 7701(a)(36) OF THE CODE) MAY RESULT IN U.S. FEDERAL BACK-UP WITHHOLDING FROM PAYMENTS TO THE HOLDER IN RESPECT OF THIS NOTE.

BY ITS PURCHASE OR HOLDING OF AN ISSUER NOTE, OR ANY INTEREST THEREIN, THE PURCHASER AND/OR HOLDER THEREOF AND EACH TRANSFEREE WILL BE DEEMED TO HAVE REPRESENTED AND WARRANTED THAT, AT THE TIME OF ITS ACQUISITION, AND THROUGHOUT THE PERIOD THAT IT HOLDS SUCH NOTE OR INTEREST THEREIN, THAT (1) IT IS NOT A (A) AN EMPLOYEE BENEFIT PLAN AS DEFINED IN SECTION 3(36) OF THE EMPLOYER RETIREMENT INCOME SECURITY ACT OF 1974, AS AMENDED ("ERISA") THAT IS SUBJECT TO THE FIDUCIARY RESPONSIBILITY PROVISIONS OF ERISA, (B) A PLAN AS DEFINED IN SECTION 4975(c)(1) OF THE CODE THAT IS SUBJECT TO SECTION 4975 OF THE CODE, (C) ANY ENTITY WHOSE UNDERLYING ASSETS INCLUDE "PLAN ASSETS" BY REASON OF ANY SUCH EMPLOYEE BENEFIT PLAN'S OR PLANS' INVESTMENT IN THE ENTITY OR (D) A "BENEFIT PLAN INVESTOR" AS SUCH TERM IS OTHERWISE DEFINED IN ANY REGULATIONS PROMULGATED BY THE U.S. DEPARTMENT OF LABOR UNDER SECTION 3(42) OF ERISA (AN "ERISA PLAN"); AND IF AFTER ITS INITIAL ACQUISITION OF AN ISSUER NOTE OR ANY INTEREST THEREIN, THE INVESTOR DETERMINES, OR IT IS DETERMINED BY ANOTHER PARTY, THAT SUCH INVESTOR IS AN ERISA PLAN, THE INVESTOR WILL DISPOSE OF ALL OF ITS ISSUER NOTES IN A MANNER CONSISTENT WITH THE RESTRICTIONS SET FORTH IN THE ISSUING AND PAYING AGENCY AGREEMENT, AND (2) IF IT IS A GOVERNMENTAL, CHURCH, NON-U.S. OR OTHER PLAN THAT IS SUBJECT TO ANY FEDERAL, STATE, LOCAL OR NON-U.S. LAW THAT IS SUBSTANTIALLY SIMILAR TO THE PROVISIONS OF TITLE I OF ERISA OR SECTION 4975 OF THE CODE, ITS PURCHASE, HOLDING AND DISPOSITION OF THE ISSUER NOTES WILL NOT CAUSE A NON-EXEMPT VIOLATION OF ANY FEDERAL, STATE, LOCAL OR NON-U.S. LAW THAT IS SUBSTANTIALLY SIMILAR TO TITLE I OF ERISA OR SECTION 4975 OF THE CODE AS A RESULT OF THE TRANSACTIONS CONTEMPLATED HEREIN AND (3) IT WILL NOT SELL OR OTHERWISE TRANSFER ANY SUCH NOTE OR INTEREST THEREIN TO ANY PERSON WHO IS UNABLE TO SATISFY THE SAME FOREGOING REPRESENTATIONS AND WARRANTIES.

(x) Each purchaser or subsequent transferee of Rule 144A Issuer Notes that (i) is not a "United States person" (as defined in Section 7701(a)(36) of the Code) and (ii) is acquiring, directly or in conjunction with affiliates, more than 33 1/3% of the Aggregate USD Equivalent Outstanding Amount of any Class of Issuer Notes, as applicable, will be deemed to have represented to the effect that it is not an Affiliated Bank.

Regulation S Global Notes

Each purchaser of a beneficial interest in a Regulation S Global Note will be deemed to have represented and agreed with the Issuer:

(i) as set forth in paragraphs (ii), (vi), (vii), (xi), (xii) (in the case of the Co-Issuer Notes), (xiii) (in the case of the Issuer Notes), (x) (in the case of the Co-Issuer Notes) and (ii) (in the case of the Issuer Notes) under "-Rule 144A Global Notes;"

(ii) that the purchaser is a non-U.S. Person acquiring the Notes in an offshore transaction meeting the requirements of Rule 903 or Rule 904 of Regulation S and in a principal amount of not less than the applicable minimum denomination requirement; and

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918181
(b) each purchaser or subsequent transferee of Regulation S Global Notes that (i) is not a "United States person" (as defined in Section 7701(a)(30) of the Code) and (ii) is acquiring, directly or in conjunction with affiliates, more than 33 1/3% of the Aggregate USD Equivalent Outstanding Amount of any Class of Issuer Notes will be deemed to make a representation to the effect that it is not an Affiliated Bank.

UNDERWRITING

Subject to the terms and conditions set forth in the Purchase Agreement, the Issuers, with respect to the Co-issued Notes issued on the Closing Date and the Issuer, with respect to the Issuer Notes issued on the Closing Date have agreed to sell, on the Closing Date, and Goldman, Sachs & Co. has agreed to purchase all of such Notes.

Under the terms and conditions of the Purchase Agreement, the Initial Purchaser is committed to take and pay for all the Notes to be offered to the Initial Purchaser, not if any are taken. Under the terms and conditions of the Purchase Agreement, Goldman, Sachs & Co. will be entitled to an underwriting discount. After the Notes are released for sale, the Initial Purchaser may change the offering price and other selling terms.

The Notes have not been and will not be registered under the Securities Act for offer or sale as part of their distribution and may not be offered or sold within the United States or to, or for the account or benefit of, a U.S. Person or a U.S. resident (as determined for purposes of the Investment Company Act, a "U.S. Resident") except in certain transactions exempt from, or not subject to, the registration requirements of the Securities Act.

The Issuers have been advised by the Initial Purchaser that (a) the Initial Purchaser proposes to resell the Notes outside the United States through its agent, Goldman Sachs International, in offshore transactions in reliance on Regulation S and in accordance with applicable law, and (b) the Initial Purchaser proposes to resell the Notes in the United States in reliance on Rule 144A under the Securities Act only to Qualified Institutional Buyers purchasing for their own accounts or for the accounts of Qualified Institutional Buyers, each of which purchases or accounts is a Qualified Purchaser. The offering price and the Initial Purchaser's underwriting discount will be the same for the Regulation S Global Notes and the Rule 144A Global Notes within each Class of Notes. Any offer or sale of Rule 144A Global Notes in reliance on Rule 144A or another exemption from the registration requirements of the Securities Act will be made by broker-dealers who are registered as such under the Exchange Act. After the Notes are released for sale, the offering price and other selling terms may from time to time be varied by the Initial Purchaser.

The Initial Purchaser has acknowledged and agreed that it will not offer, sell or deliver any Notes sold pursuant to Regulation S to, or for the account or benefit of, any U.S. Person or U.S. Resident (as determined for purposes of the Investment Company Act) as part of its distribution at any time and that it will send to each distributor, dealer or person receiving a selling concession, fee or other remuneration to which it is entitled in connection with the sale of Notes pursuant to Regulation S a confirmation or other notice setting forth the prohibition on offers and sales of Notes sold pursuant to Regulation S within the United States or to, or for the account or benefit of, any U.S. Person or U.S. Resident.

With respect to the notes initially sold pursuant to Regulation S, until the expiration of 40 days after the occurrence of the distribution of the offering of Notes by the Initial Purchaser, an offer or sale of Notes within the United States by a dealer that is not participating in the offering may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with Rule 144A or pursuant to another exemption from registration under the Securities Act.

In connection with the offering, the Initial Purchaser may purchase and sell the Notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover
positions created by short sales. Short sales involve the sale by the initial Purchaser of a greater amount of Notes than they are required to purchase in the offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the Notes while the offering is in progress.

The initial Purchaser also may impose a penalty bid. This occurs when the initial Purchaser repays a portion of the underwriting discount received by it because such initial Purchaser or its Affiliates have repurchased Notes sold by or for the account of such initial Purchaser in stabilizing or short covering transactions.

These activities by the initial Purchaser may stabilize, maintain or otherwise affect the market price of the Notes. As a result, the price of the Notes may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the initial Purchaser at any time. These transactions may be effected in the over-the-counter market or otherwise.

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "Relevant Member State"), the initial Purchaser has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that relevant Member State (the "Relevant Implementation Date") it has not made and will not make an offer of Notes to the public in that Relevant Member State prior to the publication of a prospectus in relation to the Notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that it may, with effect from and including the Relevant Implementation Date, make an offer of Notes to the public in that Relevant Member State at any time:

(i) to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;

(ii) to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than €43,000,000 and (3) an annual net turnover of more than €50,000,000, as shown in its last annual or consolidated accounts; or

(iii) in any other circumstances which do not require the publication by the issuer of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an "offer of Notes to the public" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

The initial Purchaser has represented and agreed that:

(i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (ii) it has not offered or sold and will not offer or sell the Notes other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the Notes would otherwise
constitute a contravention of Section 19 of the Financial Services and Markets Act 2000 ("FSMA") by the Issuer;

(i) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of the Notes in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer; and

(ii) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the Notes in, from or otherwise involving the United Kingdom.

The Notes may not be offered or sold by means of any document other than to persons whose ordinary business is to buy or sell shares or debentures, whether as principal or agent, or in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32) of Hong Kong, and no advertisement, invitation or document relating to the Notes may be issued, whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Notes which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" within the meaning of the Securities and Futures Ordinance (Cap. 571) of Hong Kong and any rules made thereunder.

The Notes have not been and will not be registered under the Securities and Exchange Law of Japan (the Securities and Exchange Law) and the Initial Purchaser has agreed that it will not offer or sell any Notes, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to or for the benefit of, any resident of Japan, with prior consent of the registration requirements of, and otherwise in compliance with, the Securities and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

This Offering Circular has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this Offering Circular and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Notes may not be circulated or distributed, nor may the Notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the "SFA"); (ii) to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the Notes are subscribed or purchased under Section 275 by a relevant person which is: (a) a corporation (which is not an accredited investor) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest in that trust shall not be transferable for six months after that corporation or that trust has acquired the notes under Section 275 except: (1) to an institutional investor under Section 274 of the SFA or to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA; (2) where no consideration is given for the transfer; or (3) by operation of law.

GS MBS-E-001918154
Footnote Exhibits - Page 4944

The Initial Purchaser has agreed that it has not made and will not make any invitation to the public in the Cayman Islands to purchase any of the Notes.

Buyers of Notes pursuant to Regulation S sold by Goldman, Sachs & Co., may be required to pay stamp taxes and other charges in accordance with the laws and practice of the country of purchase in addition to the offering price set forth on the cover page hereof.

No action has been or will be taken in any jurisdiction that would permit a public offering of the Notes, or the possession, circulation or distribution of this Offering Circular or any other materials relating to the Issuers or the Notes, in any jurisdiction where action for such purposes is required. Accordingly, the Notes may not be offered or sold, directly or indirectly, and neither the Offering Circular nor any other offering material or documents in connection with the Notes may be distributed or published, in or from any country or jurisdiction except under circumstances that will result in compliance with any applicable rules and regulations of any such country or jurisdiction.

The Notes are a new issue of securities with no established trading market. The Issuers have been advised by the Initial Purchaser that the Initial Purchaser intends to make a market in the Notes but is not obligated to do so and may discontinue market making at any time without notice. No assurance can be given as to the liquidity of the trading market for the Notes. See “Risk Factors—Certain Risks of Investing.”

Application will be made to admit the Notes on a stock exchange of the Issuer’s choice, if practicable. There can be no assurance that any admission will be sought, granted or maintained.

The Issuers have agreed to indemnify the Initial Purchaser, the Portfolio Selection Agent, the Administrator, the Trustee and the Issuing and Paying Agent against certain liabilities, including, but not limited to, liabilities under the Securities Act, or to contribute to payments they may be required to make in respect thereof. In addition, the issuers have agreed to reimburse the Initial Purchaser for certain of its expenses.

LISTING AND GENERAL INFORMATION

1. Application will be made to admit the Notes on a stock exchange of the Issuer’s choice, if practicable. There can be no assurance that any such admission will be sought, granted or maintained.

2. For fourteen days following the date of this Offering Circular, copies of the Memorandum and Articles of Association of the Issuer, the By-Laws of the Co-Issuer, the Indenture, the Issuing and Paying Agency Agreement, each Deed of Covenant, the Credit Default Swap, the Basis Swap, the Collateral PSC Agreement, the Collateral Administration Agreement, the Portfolio Selection Agreement and the Administration Agreement (such agreements collectively, the “Material Contracts”) will be available for inspection at the registered office of the Issuer and the offices of any Listing, Paying and Transfer Agent, and copies thereof may be obtained upon request. In addition, copies of any reports (including, without limitation, monthly reports) prepared under the Indenture may be obtained upon request from any Listing, Paying and Transfer Agent.

3. Copies of the Certificate of Incorporation and Memorandum and Articles of Association of the Issuer, the Certificate of Incorporation and By-laws of the Co-Issuer, the Administration Agreement, the resolutions of the Board of Directors of the Issuer authorizing the issuance of the Notes, the resolutions of the Board of Directors of the Co-Issuer authorizing the issuance of the Notes, will be available for inspection at the office of the Trustee and the Issuing and Paying Agent, as applicable, and at the office of any Listing, Paying and Transfer Agent.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918165
4. Since the date of establishment, there has been no significant change in the financial or trading position of the Issuer and no annual report or accounts have been prepared as of the date hereof.

5. The Issuers are not involved in any litigation or arbitration proceedings relating to claims on amounts which are material in the context of the issue of the Notes, nor, so far as each of the Issuers is aware, is any such litigation or arbitration involving it pending or threatened.

6. The issuance of the Notes is expected to be authorized by the Board of Directors of the Issuer by resolution passed on or prior to the Closing Date. The issuance of the Notes is expected to be authorized by the sole Director of the Co-Issuer by resolution on or about April 25, 2007.

7. The Notes sold in offshore transactions in reliance on Regulation S under the Securities Act represented by Regulation S Global Notes have been accepted for clearance through Clearstream and Euroclear. The Co-Issued Notes sold to U.S. Persons that are Qualified Institutional Buyers/Qualified Purchasers under the Securities Act represented by Rule 144A Global Notes have been accepted for clearance through DTC. The CUSIP Numbers, Common Codes and International Securities Identification Numbers (ISIN) for the Co-Issued Notes represented by Rule 144A Global Notes and Regulation S Global Notes are as indicated in the chart "Summary—Notes", as applicable.

8. For so long as any of the Notes are listed on any stock exchange and the rules of such stock exchange shall so require, the issuer will inform such stock exchange in accordance with its procedures, if the ratings assigned to any of the Notes are reduced or withdrawn.

9. The Issuers do not intend to publish annual reports and accounts. The indenture, however, requires the Issuers to provide written confirmation to the Trustee on an annual basis that no Event of Default or other matter which is required to be brought to the Trustee's attention has occurred.

LEGAL MATTERS

Certain legal matters will be passed upon for the Issuers and the Initial Purchaser by McKee Nelson LLP, New York, New York. Certain matters with respect to Cayman Islands corporate law and tax law will be passed upon for the Issuer by Maples and Calder, George Town, Grand Cayman, Cayman Islands. Certain legal matters will be passed upon for the Portfolio Selection Agent by Schulte Roth & Zabel LLP, New York, New York.
GLOSSARY OF DEFINED TERMS

"ABS Aircraft Securities": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from leases and subleases of aircraft, vessels and telecommunications equipment to businesses for use in the provisions of goods or services to consumers, the military or the government, generally having the following characteristics: (1) the leases and subleases having varying contractual maturities; (2) the leases or subleases are obligations of a relatively limited number of obligors and accordingly represent an undiversified pool of obligor credit risk; (3) the repayment stream on such leases and subleases is primarily determined by a contractual payment schedule, with early termination of such leases and subleases predominantly dependent upon the disposition to a lessee, sublessee or third party or the underlying equipment; (4) such leases or subleases typically provide for the right of the lessee or sublessee to purchase the equipment for its stated residual value, subject to payments at the end of the lease term for excess usage or wear and tear; and (5) the obligations of the lessors or sub-lessors may be secured not only by the leased equipment but also by other assets of the lessor, sub-lessee or guarantees granted by third parties; provided that any security falling within this definition will be excluded from the definition of "Structured Product Security" (unless it is a Wrapped Security) and each other Excluded Specified Type.

"ABS Automobile Securities": Securities, other than ABS Subprime Auto Securities, that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on:

(1) the cash flow from installment sale loans made to finance the purchase of, or from leases of, automobiles or light duty trucks or medium duty trucks, generally having the following characteristics:

(i) the loans or leases may have varying contractual maturities;

(ii) the loans or leases are obligations of numerous borrowers or lessors and accordingly represent a diversified pool of obligor credit risk;

(iii) the repayment stream on such loans or leases is primarily determined by a contractual payment schedule, with early repayment on such loans or leases predominantly dependent upon the disposition of the underlying vehicle; and

(iv) such leases typically provide for the right of the lessee to purchase the vehicle for its stated residual value and are subject to payments at the end of lease term for excess mileage or use in the event that the lessee does not exercise such purchase option; or

(2) the cash flow from loans or leases made to finance the purchase of an automobile dealer's inventory, generally having the following characteristics:

(i) the loans or leases may have varying contractual maturities;

(ii) the repayment stream on such loans or leases is primarily determined by a contractual payment schedule, with early repayment on such loans or leases predominantly dependent upon the disposition of the underlying vehicle; and

(iii) such leases typically provide for the right of the lessee to purchase the vehicle for its stated residual value and are subject to payments at the end of lease term for excess mileage or use in the event that the lessee does not exercise such purchase option.
"ABS Car Rental Receivable Securities": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from leases and subleases of vehicles to car rental companies and their franchisees, generally having the following characteristics: (1) the leases and subleases have varying contractual maturities; (2) the subleases are obligations of numerous franchisees and accordingly represent a diversified pool of obligor credit risk; (3) the repayment stream on such leases and subleases is primarily determined by a contractual payment schedule, with early termination of such leases and subleases predominantly dependent upon the disposition to a lessee or third party of the underlying vehicle; and (4) such leases or subleases typically provide for the right of the lessor or sublessor to purchase the vehicle for its stated residual value and are subject to payments at the end of lease term for excess mileage or use in the event that the lessee or sublessee does not exercise such purchase option.

"ABS Credit Card Securities": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from balances outstanding under revolving consumer credit card accounts, generally having the following characteristics:

(i) the accounts have standardized payment terms and require minimum monthly payments;
(ii) the balances are obligations of numerous borrowers and accordingly represent a diversified pool of obligor credit risk; and
(iii) the repayment stream on such balances does not depend upon a contractual payment schedule, with repayment depending primarily on interest rates, availability of credit against a maximum credit limit and general economic matters.

"ABS Future Flow Securities": Securities that are financings by companies that export products and involve securitizations of offshore U.S. Dollar-denominated receivables under contracts with foreign buyers or from sales through an established market pursuant to which cash generated from the existing and future receivables is captured, typically paid to a trust or collateral account in the United States and is used to service the debt evidenced by such securities. In a typical existing and future receivables transaction, the originator of the receivables establishes a limited purpose financing vehicle that issues such securities. The originator receives the issuance proceeds and may use these funds for general corporate purposes. ABS Future Flow Securities are generally backed by one or more contracts requiring the originator to generate the receivables backing the securities. In such a situation, if the receivables are not generated or if insufficient amounts of receivables are generated, holders of such securities may not receive the payments they are owed. Sellers of receivables in future receivables transactions are frequently in countries with low credit ratings. ABS Future Flow Securities may achieve a rating above the foreign currency sovereign rating of such company's country of domicile, thereby enabling the originator to obtain financing at a relatively lower cost than traditional loans or direct issuance of bonds by the originator. The determination of whether an ABS Future Flow Security shall be classified as an Excluded Specified Type shall be made by reference to the types of receivables expected to be generated. Any ABS Future Flow Security so classified as an Excluded Specified Type will be excluded from the definition of "Structured Product Security" (unless it is a Wrapped Security) and each other Excluded Specified Type.

"ABS Health Care Receivables Securities": Securities other than ABS Small Business Loan Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from leases and subleases of equipment to hospitals, non-hospital medical facilities, physicians and physician groups for use in the provision of healthcare services, generally having the following characteristics: (1) the leases and subleases have varying contractual maturities; (2) the leases or subleases are obligations of a relatively limited number of obligors and accordingly represent an

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918168
undiversified pool of obligor credit risk; (3) the repayment stream on such leases and subleases is primarily determined by a contractual payment schedule, with early termination of such leases and subleases predominantly dependent upon the disposition to a lessee, sublessee or third party of the underlying equipment; and (4) such leases or subleases typically provide for the right of the lessee or sublessee to purchase the equipment for its stated residual value, provided that any security falling within this definition will be excluded from the definition of "Structured Product Security" (unless it is a Wrapped Security) and each other Excluded Specified Type.

"ABS Mutual Fund Fee Securities": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from a pool of brokerage fees and costs relating to various mutual funds, generally having the following characteristics: (1) the brokerage fees and costs have standardized terms; (2) the brokerage fees and costs arise out of numerous mutual funds and accordingly represent a diversified pool of credit risk; and (3) the collection of brokerage fees and costs can vary substantially from the contractual payment schedule (if any), with the collection depending on numerous factors specific to the particular mutual funds and general economic matters, provided that any security falling within this definition will be excluded from the definition of "Structured Product Security" (unless it is a Wrapped Security) and each other Excluded Specified Type.

"ABS Small Business Loan Securities": Securities that entitle holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from loans made to "small business concerns" (generally within the meaning given to such term by regulations of the United States Small Business Administration), including but not limited to those (a) made pursuant to Section 7(a) of the United States Small Business Act, as amended, and (b) guaranteed by the United States Small Business Administration, generally have the following characteristics:

(i) the loans have payment terms that comply with any applicable requirements of the United States Small Business Act, as amended;

(ii) the loans are obligations of a relatively limited number of borrowers and accordingly represent an undiversified pool of obligor credit risk; and

(iii) repayment thereof can vary substantially from the contractual payment schedule (if any), with early repayment of individual loans depending on numerous factors specific to the particular obligors and upon whether, in the case of loans bearing interest at a fixed rate, such loans or securities include an effective prepayment premium.

"ABS Structured Settlement Securities": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from receivables representing the right of litigation claimants to receive future settlement payments under a settlement agreement that are funded by an annuity contract, provided that any security falling within this definition will be excluded from the definition of "Structured Product Security" (unless it is a Wrapped Security) and each other Excluded Specified Type.

"ABS Student Loan Securities": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from student loan receivables representing the right of litigation claimants to receive future settlement payments under a settlement agreement that are funded by an annuity contract, provided that any security falling within this definition will be excluded from the definition of "Structured Product Security" (unless it is a Wrapped Security) and each other Excluded Specified Type.
proceeds to holders of such securities) on the cash flow from loans made to students (or their parents) to finance educational needs.

"ABS Subprime Auto Securities": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from subprime installment sale loans made to finance the acquisition of, or from leases of, automobiles, generally having the following characteristics: (1) the loans or leases may have varying contractual maturities; (2) the loans or leases are obligations of numerous borrowers or lessees and accordingly represent a diversified pool of obligor credit risk; (3) the borrowers or lessees under the loans or leases generally have a poor credit rating; (4) the repayment stream on such loans or leases is primarily determined by a contractual payment schedule, with early repayment on such loans or leases predominantly dependent upon the disposition of the underlying vehicle; and (5) such leases typically provide for the right of the lessee to purchase the vehicle for its stated residual value and are subject to payments at the end of the lease term for excess mileage or use in the event that the lessor does not exercise such purchase option; provided that any security falling within this definition will be excluded from the definition of "Structured Product Security" (unless it is a Wrapped Security) and each other Excluded Specified Type.

"ABS Tax Lien Securities": Securities that entitle the holders thereof to receive payment that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from a pool of tax obligations owed by businesses and individuals to state and municipal governmental taxing authorities, generally having the following characteristics: (1) the tax obligations are obligations of numerous taxpayers and accordingly represent a diversified pool of obligor credit risk; and (2) the repayment stream on the obligation is primarily determined by a payment schedule entered into between the relevant taxing authority and obligor, with early repayment on such obligation predominantly dependent upon interest rates and the income of the obligor following the commencement of amortization; provided that any security falling within this definition will be excluded from the definition of "Structured Product Security" (unless it is a Wrapped Security) and each other Excluded Specified Type.

"ABS Timeshare Securities": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from loans under timeshare mortgage loans. Timeshare mortgage loans are generally fixed rate, fully amortizing loans that are secured by first mortgage liens on timeshare estates. A timeshare estate consists of an interval (generally measured in weeks) in the ownership of a fully-furnished vacation unit or apartments. Usage and ownership is generally divided into 52 one-week intervals, with one or two weeks reserved for maintenance. Ownership can also be through undivided fee simple interests ("UDIs") in a group of units. Owners become tenants in common with other owners of undivided interests, with "use" rights which allow more flexibility in terms of length and timing of stay than fixed week intervals, as owners are not required to fixed fee usage. Any security falling within this definition will be excluded from the definition of "Structured Product Security" (unless it is a Wrapped Security) and each other Excluded Specified Type.

"Actual Principal Amount": With respect to any Reference Obligation and its applicable Final Amortization Date or Legal Final Maturity Date, an amount paid on such day by or on behalf of the related Note or Reference Entity (or paid on behalf of the related Note or Reference Entity in respect of principal (excluding any amounts representing capitalized interest that relates to the term of the Credit Default Swap) to the holder(s) of such Reference Obligation in respect of such Reference Obligation.

"Actual Rating": With respect to any Obligation, the actual expressly monitored outstanding rating assigned by a Rating Agency, without reference to any other rating by another Rating Agency and which rating by its terms addresses the full scope of the payment promise of the obligor on such Obligation, after taking into account any applicable guarantee or insurance policy or if no such rating is available from a Rating Agency, any "credit estimates" or "shadow rating" assigned by such Rating Agency.
Footnote Exhibits - Page 4950

Agency, as applicable. For purposes of this definition, the rating assigned by a Rating Agency to the agency that guarantees such RMBS Agency Security.

"Administrative Expense Cap": On any Payment Date, $22,000.

"Administrative Expenses": Amounts due or accrued with respect to any Payment Date (which shall be payable in the following order) to:

(i) any Person not listed in subclause (i) through (vi) below in respect of any governmental fee, including all filing, registration and similar returns or fees payable to the Cayman Islands government and registered office fees, charge or tax (other than withholding taxes);

(ii) the Trustee, its fees pursuant to the Indenture;

(iii) to the Trustee, its expenses pursuant to the Indenture;

(iv) to the Issuing and Paying Agent, its fees pursuant to the Issuing and Paying Agency Agreement;

(v) to the Issuing and Paying Agent, its expenses pursuant to the Issuing and Paying Agency Agreement;

(vi) pro rata to:

(a) the Collateral Administrator under the Collateral Administration Agreement;

(b) the Independent accountants, agents and counsel of the Issuer for fees, including retainers, and expenses;

(c) the Rating Agencies for fees and expenses in connection with ratings of the Notes, ongoing surveillance of such ratings and the provision of credit estimates; and

(d) any other Person in respect of any other reasonable fees, costs, indemnities or expenses of the Issuer not prohibited under the Indenture (including, without limitation, any monies owed to the Portfolio Selection Agent under the Portfolio Selection Agreement and the Administrator under the Administration Agreement and registered office fees) and any reports and documents delivered pursuant to or in connection with the Indenture and the Notes.

"Adverse Tax Event": The adoption of, or a change in, any tax statute (including the Code), treaty, regulation (whether proposed, temporary or final), rule, ruling, practice, procedure or judicial decision or interpretation which results or will result in (a) reducing monies received by the Issuer from the Issuer Assets or (b) the payments due on the Notes or pursuant to the Basis Swap, the Collateral PS Agreement or the Credit Default Swap becoming properly subject to the imposition of U.S. or other withholding tax.

"Affiliate" or "Affiliated": With respect to a Person, (i) any other Person who, directly or indirectly, is in control of, or controlled by, or is under common control with, such Person or (ii) any other Person who is a director, officer or employee (a) of such Person, (b) of any subsidiary or parent company of such Person, or (c) of any Person described in subclause (i) above. For purposes of this definition, control of a Person shall mean the power, direct or indirect, (i) to vote more than 50% of the securities having ordinary voting power for the election of directors of any such Person or (ii) to direct or cause the direction of the management and policies of such Person whether by contract or otherwise. With respect
Footnote Exhibits - Page 4951

880

to the Issuers, this definition shall exclude the Administrator and any other special purpose vehicle to which the Administrator or will be providing administrative services or acting as share trustee.

"Aggregate Implied Windedown Amount": With respect to any Reference Obligation, the aggregate of any Implied Windedown Amounts with respect to such Reference Obligation plus the aggregate of all Implied Windedown Reimbursement Amounts with respect to such Reference Obligation.

"Aggregate USD Equivalent Outstanding Amount": When used with respect to any or all of the Notes, the aggregate principal amount of such Notes Outstanding on the date of determination; provided that, with respect to any Notes denominated in any Approved Currency other than Dollars, the Aggregate USD Equivalent Outstanding Amount of such Notes will equal the USD Equivalent of the Currency Adjusted Aggregate Outstanding Amount of such Notes.

"Alternative Debt Test": A test that is satisfied with respect to a Collateral Security if, on the date such Collateral Security is included in the Collateral, each of the following is satisfied: (i) such Collateral Security is in the form of a note or other debt instrument and is treated as debt for corporate law purposes in the jurisdiction of the issuer of such Collateral Security, (ii) the documents pursuant to which such Collateral Security will be issued, if any, do not require that any holder thereof treat such Collateral Security as other than debt for tax purposes, (b) such Collateral Security bears interest at a fixed rate per annum or at a rate based upon a customary floating rate index plus or minus a spread, (v) such Collateral Security has a fixed maturity occurring no later than the earliest Stated Maturity of any Series of Notes, (vi) such Collateral Security has an Actual Rating or Implied Rating of at least "BBB" by Moody's, or at least "BBB" by S&P or at least "BBB-" by Fitch as to Ultimate payment of principal and interest and (vi) the issuer of such Collateral Security is treated as a corporation or grantor trust for U.S. federal income tax purposes; provided that, in the case of a Collateral Security, in the form of a beneficial interest in a trust that is treated (as evidenced by an opinion of counsel or a reference to an opinion of counsel in documents pursuant to which such Collateral Security was offered) as a grantor trust for U.S. federal income tax purposes (and not as a partnership or association taxable as a corporation), any of the conditions specified in clauses (i), (b), (b) and (v) may be satisfied by reference to each asset held pursuant to such grantor trust arrangement rather than by reference to such beneficial ownership interests.

"Applicable Class Portfolio Selection Fee Rate": With respect to (i) the Class A-1 Notes, 0.25%; (ii) the Class A-2 Notes, 0.25%; (iii) the Class B Notes, 0.50%; (iv) the Class C Notes, 0.50%, and (v) the Class D Notes, 1.00%.

"Applicable Collateral Security Foreign Exchange Rate": With respect to (i) a Collateral Security acquired with the proceeds of the offering of the Notes, or the receipt by the Issuer of an Additional Issuer Principal Amount or Currency Adjusted Reimbursement Adjustment Amount, the Applicable Series Foreign Exchange Rate of the related Notes issued or reinvested, as applicable and (ii) a Supplemental Collateral Security acquired with any Collateral Security Amortization Amount, Excess Principal Amount or Excess Disposition Proceeds, the Applicable Collateral Security Foreign Exchange Rate of the Collateral Security with respect to which such Collateral Security Amortization Amount, Excess Principal Amount or Excess Disposition Proceeds was received by the Issuer.

"Applicable Index": With respect to the Notes denominated in (i) AUD, AUD-LIBOR, (ii) CAD, CAD-LIBOR, (iii) DKK, DKK, (iv) Euro, EURIBOR, (v) NZD, NZD-BBR, (vi) Sterling, GBP-LIBOR and (vii) Yen, JPY-LIBOR.

133

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918172
"Applicable Index Determination Date": With respect to the determination of (i) LIBOR, JPY-LIBOR and NZD-BOR, the second Business Day prior to the commencement of an Interest Accrual Period; (ii) PERP-LIBOR, the first day of an Interest Accrual Period; (iii) EURIBOR, the second TARGET Settlement Day prior to the commencement of an Interest Accrual Period; and (iv) CAD-LIBOR and AUD-LIBOR, the second London Banking Day prior to an Interest Accrual Period.

"Applicable Percentage": With respect to any Reference Obligation on any date, the ratio of (A) the product of (i) the Initial Face Amount related to such Reference Obligation and (ii) the Initial Factor related to such Reference Obligation and (B) the product of (i) the Original Principal Amount related to such Reference Obligation and (ii) the Initial Factor related to such Reference Obligation as increased by the outstanding principal balance of any further issues by the related Reference Entity that are fungible with and form part of the same legal series as such Reference Obligation; and (ii) as decreased by any cancellations of some or all of the Reference Obligation Outstanding Principal Amount resulting from purchases of such Reference Obligation by or on behalf of the related Reference Entity.

"Applicable Period": With respect to (i) the first Interest Accrual Period, the period from and including the Closing Date to but excluding the first Payment Date and (ii) each Interest Accrual Period thereafter, one month (except with respect to the last Applicable Period, to but excluding the Stated Maturity).

"Applicable Series Foreign Exchange Rate": With respect to any Series of Notes denominated in (i) an Approved Currency other than Dollars, the Spot FX Rate at the time of issuance of such Series of Notes, as determined by the Credit Default Swap Calculation Agent and confirmed by the Collateral Administrator and (ii) Dollars, 100%.

"Applicable Spread": With respect to any Series of Notes issued on the Closing Date, the stated spread above or below the related Applicable Index as set forth in the Indenture or the Issuing and Paying Agency Agreement, as applicable, and on the related Notes, and with respect to any Series of Notes issued after the Closing Date, as set forth in the related offering circular supplement and on the related Notes.

"Approved Currency": Any of Australian Dollar, Canadian Dollar, Euro, New Zealand Dollar, Sterling or Yen.

"Approved Dealer": Any of the Persons set forth below or their affiliates (including the successor to any such Person):

Washington Mutual, Inc.; or
WestLB AG.

The list of Approved Dealers may be modified at any time by the Protection Buyer and the Portfolio Selection Agent upon mutual consent to such modification.

"Asset-Backed Securities" or "ABS": ABS Credit Card Securities, ABS Automobile Securities, ABS Car Rental Receivable Securities, ABS Small Business Loan Securities, ABS Student Loan Securities or ABS Other Securities, excluding, in each case, any securities that belong to an Excluded Specified Type.

"AUD-LIBOR": An amount determined only with respect to any Applicable Period for which Notes denominated in Australian Dollars are Outstanding. For purposes of calculating the Series Interest Rates for each Applicable Period, AUD-LIBOR shall equal AUD-LIBOR as used in the calculation of the Monthly Basis Swap Payment for each Applicable Period. For purposes of calculating the Monthly Basis Swap Payment for each Applicable Period, AUD-LIBOR shall be calculated by the Basis Swap Calculation Agent as follows:

(a) On each Applicable Index Determination Date, AUD-LIBOR shall equal the rate, as obtained by the Basis Swap Calculation Agent, for deposits in Australian Dollars for the Applicable Period which appears on the Telerate Page 3740 (as defined in the International Swaps and Derivatives Association, Inc. 2000 Interest Rate and Currency Exchange Definitions), or such page as may replace Telerate Page 3740, as of 11:00 a.m. (London time) on such Applicable Index Determination Date.

(b) If, on any Applicable Index Determination Date, such rate does not appear on Telerate Page 3740, or such page as may replace Telerate Page 3740, the Basis Swap Calculation Agent shall determine the arithmetic mean of the offered quotations of the Reference Banks to prime banks in the London interbank market for deposits in Australian Dollars for the Applicable Period in an amount determined by the Basis Swap Calculation Agent.
Footnote Exhibits - Page 4954

Agent by reference to requests for quotations as of approximately 11:00 a.m. (London time) on the Applicable Index Determination Date made by the Basis Swap Calculation Agent to the Reference Banks. If, on any Applicable Index Determination Date, at least two of the Reference Banks provide such quotations, AUD-LIBOR shall equal the arithmetic mean of such quotations. If, on any Applicable Index Determination Date, only one or none of the Reference Banks provides such quotations, AUD-LIBOR shall be deemed to be the arithmetic mean of the rates quoted by major banks in Sydney selected by the Basis Swap Calculation Agent, at approximately 11:00 a.m. (Sydney time) on the relevant Applicable Index Determination Date for loans in Australian Dollars for the Applicable Period in an amount determined by the Basis Swap Calculation Agent equal to an amount that is representative for a single transaction in such market at such time to leading European banks; provided, however, that if the Basis Swap Calculation Agent is required to determine a rate in accordance with at least one of the procedures provided above, AUD-LIBOR shall be AUD-LIBOR as determined on the most recent date AUD-LIBOR was available. As used herein, “Reference Banks” means four major banks in the London interbank market selected by the Basis Swap Calculation Agent.

(c) The Basis Swap Calculation Agent shall provide AUD-LIBOR to the Note Calculation Agent as promptly as practicable following the determination thereof. As soon as possible after 11:00 a.m. (New York time) on each Applicable Index Determination Date, but in no event later than 11:00 a.m. (New York time) on the Business Day immediately following such Applicable Index Determination Date, the Note Calculation Agent will cause notice of the Series Interest Rates for the next Interest Accrual Period and the Series Interest Amounts (rounded to the nearest cent, with half a cent being rounded upward) on the related Payment Date to be communicated to the Issuers, the Trustee, the Issuing and Paying Agent, Euroclear, Clearstream and the paying agents. The Note Calculation Agent will also specify to the Issuers the quotations upon which the Series Interest Rates are based, and in any event the Note Calculation Agent shall notify the Issuers before 6:00 p.m. (New York time) on each Applicable Index Determination Date if it has not determined and is not in the process of determining the Series Interest Rates and the Series Interest Amounts, together with its reasons therefor.

“Australian Dollar”, “A$” and “AUD” : The lawful currency of Australia.

“Bank”: LaSalle Bank National Association, a national banking association organized and existing under the laws of the United States of America, but in its individual capacity and not as Trustee or Issuing and Paying Agent, and any successor thereof.

“Bankruptcy Code”: The United States Bankruptcy Code, Title 11 of the United States Code, as amended.

“Basis Swap Calculation Period”: An Interest Accrual Period.

“Basis Swap Counterparty Credit Support Document”: The meaning assigned to the term “Credit Support Document” in the Basis Swap and, initially, the Guaranty dated as of the Closing Date by GS Group in favor of the Issuer as beneficiary thereof with respect to the obligations of the Basis Swap Counterparty under the Basis Swap.

“Basis Swap Counterparty Credit Support Provider”: The meaning assigned to the term “Credit Support Provider” in the Basis Swap and, initially, GS Group.

“Basis Swap Counterparty Default Termination Payment”: Any Basis Swap Termination Payment required to be made by the Issuer to the Basis Swap Counterparty pursuant to the Basis Swap

136

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918175
in the event of a termination of the Basis Swap (i) in respect of which the Basis Swap Counterparty is the defaulting party, (ii) resulting from a downgrade of such Basis Swap Counterparty's credit rating or (iii) in which the Basis Swap Counterparty was the sole "Affected Party" (as such term is defined in the Basis Swap) (other than in connection with a "Tax Event” or “Negotiation”, in each case as defined in the Basis Swap).

"Basis Swap Early Termination": The occurrence of either a Basis Swap Event of Default or a Basis Swap Termination Event.

"Basis Swap Early Termination Date": An early termination date under the Basis Swap (other than as triggered by the Credit Default Swap or the Collateral Put Agreement).

"BIE Acceptance Notice": A notice from the Trustee or the issuing and Paying Agent, as applicable, to an Originating Noteholder specifying (i) the BIE Collateral Security that will be substituted for an existing Collateral Security, (ii) each such Collateral Security to be substituted, (iii) the BIE Exercise Period, (iv) the BIE Transaction Cost, (v) the BIE Basis Swap Payment, (vi) account information of the Issuer for such Originating Noteholder to deliver such BIE Collateral Security to the Issuer and to present payment of the BIE Transaction Cost to the Issuer and (vii) account information for such Originating Noteholder to present payment of the BIE Basis Swap Payment to the Basis Swap Counterparty.

"BIE Basis Swap Payment": An amount equal to the greater of (i) the present value of (1) the Basis Swap Payments that the Basis Swap Counterparty would receive (assuming no such substitution(s) described in subclause (ii) below occurred) and (2) the Basis Swap Payments that the Basis Swap Counterparty would receive (assuming that BIE Collateral Securities identified in any related Collateral Security Substitution Request Notice have been substituted for the existing Collateral Securities identified therein) and (ii) zero.

"BIE Collateral Security": A Collateral Security that a Noteholder proposes to substitute for part or all of an existing Collateral Security pursuant to the Indenture.

"BIE Collateral Security Eligibility Criteria": (1) the Collateral Security Eligibility Criteria, (2) the consent of each of the Basis Swap Counterparty, the Collateral Put Provider and the Protection Buyer (which consent not to be unreasonably withheld in each case), (3) the Collateral Weighted Average Life Test, (4) the par amount of all BIE Collateral Securities described in the related Collateral Security Substitution Request Notice must equal or exceed the par amount of all existing Collateral Securities proposed to be substituted, (5) the Collateral Security Quantity Constraint and (6) the Approved Currency in which such BIE Collateral Security is denominated must be the same as the Approved Currency in which the existing Collateral Securities proposed to be substituted are denominated.

"BIE Consents Solicitation": A notice from the Trustee or the issuing and Paying Agent, as applicable, to each Noteholder, including the originating Noteholder, specifying (i) each Proposed New BIE Collateral Security and its par amount, (ii) each Collateral Security to be substituted and its par amount, and (iii) the BIE Notification Date.

"BIE Exercise Period": The period from and including the delivery of a BIE Acceptance Notice to but excluding the day that is three Business Days thereafter.

"BIE Notification Date": The Business Day by which a Noteholder must respond to a BIE Consent Solicitation, which date shall be 20 Business Days from the date of such BIE Consent Solicitation.

"BIE Transaction Cost": An amount, as determined by the Trustee equal to the aggregate amount of the expenses of the Issuer and the Trustee that would be incurred as a result of the proposed substitution of each BIE Collateral Security for part or all of an existing BIE Collateral Security.
"Business Day": Any day other than (i) Saturday or Sunday or (ii) a day on which commercial banking institutions are authorized by law, regulation or executive order to close in New York, New York, in Chicago, Illinois or in St. Louis. A Business Day shall also be any day on which dealings in deposits in Dollars are transacted in the London interbank market, (ii) with respect to the determination of EURIBOR, a day on which the TARGET System is available for settlement of Euro payments, (iii) with respect to the determination of GBP-LIBOR, any day on which dealings in deposits in Sterling are transacted in the London interbank market, (iv) with respect to the determination of JPY-LIBOR, any day on which dealings in deposits in Yen are transacted in the London interbank market, (v) with respect to the determination of AUD-LIBOR, any day on which dealings in deposits in AUD are transacted in the London interbank market, (vi) with respect to the determination of CAD-LIBOR, any day on which dealings in CAD are transacted in the London interbank market and (vii) with respect to the determination of NZD-BBRI, any day on which dealings in deposits in NZD are transacted in the London interbank market.

"CAD-LIBOR": An amount determined only with respect to any Applicable Period for which Notes denominated in Canadian Dollars are outstanding. For purposes of calculating the Series Interest Rates for each Applicable Period, CAD-LIBOR shall equal CAD-LIBOR as used in calculating the Monthly Basis Swap Payment for such Applicable Period. For purposes of calculating the Monthly Basis Swap Payment for each Applicable Period, CAD-LIBOR shall be calculated by the Basis Swap Calculation Agent as follows:

(a) On each Applicable Index Determination Date, CAD-LIBOR shall equal the rate, as obtained by the Basis Swap Calculation Agent, for deposits in Canadian Dollars for the Applicable Period which appears on the Teletrac Page 3740 (as defined in the International Swaps and Derivatives Association, Inc. 2000 Interest Rate and Currency Exchange Definitions), or such page as may replace Teletrac Page 3740, as of 11:00 a.m. (London time) on such Applicable Index Determination Date.

(b) If, on any Applicable Index Determination Date, such rate does not appear on Teletrac Page 3740, or such page as may replace Teletrac Page 3740, the Basis Swap Calculation Agent shall determine the arithmetic mean of the offered quotations of the Reference Banks to prime banks in the London interbank market for deposits in Canadian Dollars for the Applicable Period in an amount determined by the Basis Swap Calculation Agent by reference to requests for quotations as of approximately 11:00 a.m. (London time) on the Applicable Index Determination Date made by the Basis Swap Calculation Agent to the Reference Banks. If, on any Applicable Index Determination Date, at least two of the Reference Banks provide such quotations, CAD-LIBOR shall equal the arithmetic mean of such quotations. If, on any Applicable Index Determination Date, only one or none of the Reference Banks provides such quotations, CAD-LIBOR shall be the arithmetic mean of the rates quoted by major banks in Toronto selected by the Basis Swap Calculation Agent, at approximately 11:00 a.m. (Toronto time) are quoting on the relevant Applicable Index Determination Date in Canadian Dollars for the Applicable Period in an amount determined by the Basis Swap Calculation Agent equal to an amount that is representative for a single transaction in such market at such time, the leading European banks; provided, however, that if the Basis Swap Calculation Agent is unable to determine a rate in accordance with at least one of the procedures provided above, CAD-LIBOR shall be CAD-LIBOR as determined on the most recent date CAD-LIBOR was available. As used herein, "Reference Banks" means four major banks in the London interbank market selected by the Basis Swap Calculation Agent.

(c) The Basis Swap Calculation Agent shall provide CAD-LIBOR to the Note Calculation Agent as promptly as practicable following the determination thereof. As soon as possible after 11:00 a.m. (New York time) on each Applicable Index Determination Date, but in no event later than 11:00 a.m. (New York time) on the Business Day immediately following each Applicable Index Determination Date, the Note Calculation Agent will cause notice of the Series Interest Rates for the next Interest Accrual Period and the Series Interest Amounts (rounded to the nearest cent, with half a cent being rounded upward) on the related Payment Date to be communicated to the Issuers, the Trustee, the Issuing and Paying Agent, Euroclear, Clearstream and the paying agents. The Note Calculation Agent will also specify to the Issuers the quotations upon which the Series Interest Rates are based, and in any event the Note Calculation Agent shall notify the Issuers before 5:00 p.m. (New York time) on each Applicable Index Determination Date if it has not determined and is not in the process of determining the Series Interest Rates and the Series Interest Amounts, together with its reasons therefor.

*Canadian Dollar", "CS" or "CAD": The legal currency of Canada.

*Cash": Such coin or currency of the United States of America, countries of the European Economic and Monetary Union who have adopted the Euro currency, Great Britain, Japan, Australia, New Zealand or Canada, as the case may be, as at the time shall be legal tender for payment of all public and private debts.

*CDO Cashflow Securities": Collateralized debt obligations, collateralized bond obligations or CBO Securities, including CDQ Structured Product Securities, CDO Mortgage-Backed Securities and CDO Commercial Real Estate Securities, but, in each case, excluding any securities that belong to an Excluded Specified Type.

*CDO Commercial Real Estate Securities": CDO Cashflow Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from (and not the market value of) a portfolio of at least 80% by principal balance of CMBS and/or REIT Debt Securities.

*CDO Corporate Bond Securities": CDO Cashflow Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from (and not the market value of) a portfolio of primarily high yield or investment grade bonds.

*CDO Emerging Market Securities": CDO Cashflow Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from (and not the market value of) a portfolio of investments, of which more than 26% are issued by issuers located in Emerging Market Countries.

*CDO Market Value Securities": Collateralized debt obligations, whose overcollateralization is measured with reference to the market value of the collateral portfolio securing such collateralized debt obligations.

*CDQ Mortgage-Backed Securities": CDO Cashflow Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from (and not the market value of) a portfolio of at least 80% by principal balance of Mortgage-Backed Securities.
"CDO Single-Tranche Synthetic Securities": Any CDO Structured Product Security for which (i) the spread component of the interest payment related to such security is generally provided for by a tranching credit default swap with attachment and exhaustion points under which the related obligor has written credit protection and (ii) the obligor of which issues an aggregate principal amount of liabilities less than the reference portfolio nominal amount under the related tranching credit default swap.

"CDO Structured Product Securities": CDO Cashflow Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from a portfolio diversified among categories of REIT Debt Securities, Asset-Backed Securities, Commercial Mortgage-Backed Securities, Residential Mortgage-Backed Securities or CDO Cashflow Securities or any combination of more than one of the foregoing, where exposure to such asset classes in the portfolio is either actual or synthetic, or solely of CDO Cashflow Securities (and which in any such case may include limited amounts of Corporate Securities), generally having the following characteristics:

(i) repayment thereof can vary substantially from the contractual payment schedule (if any), with early prepayment of individual debt securities depending on numerous factors specific to the particular issuer or obligor and upon whether, in the case of loans or securities bearing interest at a fixed rate, such loans or securities include an effective prepayment premium, and

(ii) proceeds from such repayments can be for a limited period and subject to compliance with certain eligibility criteria be reinvested in additional loans and/or debt securities.

"CDO Trust Preferred Securities": Collateralized debt obligations backed primarily by a pool of either (a) bank trust preferred securities, (b) insurance trust preferred securities or (c) REIT Debt Securities that are trust preferred securities.

"Class": All of the Notes having the same priority.

"Class A Notes": Collectively, the Class A-1 Notes and the Class A-2 Notes.

"Class A-1 Notes": The Class A-1 Variable Rate Notes, including any additional such Notes issued pursuant to the terms of the indenture and having the applicable Series Interest Rate and Stated Maturity, in each case (with respect to any Series of Class A-1 Notes issued on the Closing Date) as set forth under "Summary—Notes" or (with respect to any Series of Class A-1 Notes issued after the Closing Date) as set forth in the related offering circular supplement.

"Class A-2 Notes": The Class A-2 Variable Rate Notes, including any additional such Notes issued pursuant to the terms of the issuing and paying agency agreement and having the applicable Series Interest Rate and Stated Maturity, in each case (with respect to any Series of Class A-2 Notes issued on the Closing Date) as set forth under "Summary—Notes" or (with respect to any Series of Class A-2 Notes issued after the Closing Date) as set forth in the related offering circular supplement.

"Class B Notes": The Class B Variable Rate Notes, including any additional such Notes issued pursuant to the terms of the issuing and paying agency agreement and having the applicable Series Interest Rate and Stated Maturity, in each case (with respect to any Series of Class B Notes issued on the Closing Date) as set forth under "Summary—Notes" or (with respect to any Series of Class B Notes issued after the Closing Date) as set forth in the related offering circular supplement.

"Class C Notes": The Class C Variable Rate Notes, including any additional such Notes issued pursuant to the terms of the issuing and paying agency agreement and having the applicable Series Interest Rate and Stated Maturity, in each case (with respect to any Series of Class C Notes issued on
the Closing Date) as set forth under "Summary—Notes" or (with respect to any Series of Class C Notes issued after the Closing Date) as set forth in the related offering circular supplement.

"Class D Notes": The Class D Variable Rate Notes, including any additional such Notes issued pursuant to the terms of the Issuing and Paying Agency Agreement and having the applicable Series Interest Rate and Stated Maturity, in each case (with respect to any Series of Class D Notes issued on the Closing Date) as set forth under "Summary—Notes" or (with respect to any Series of Class D Notes issued after the Closing Date) as set forth in the related offering circular supplement.

"Class FL Notes": The Class FL Variable Rate Notes, including any additional such Notes issued pursuant to the terms of the Issuing and Paying Agency Agreement and having the applicable Series Interest Rate and Stated Maturity, in each case (with respect to any Series of Class FL Notes issued on the Closing Date) as set forth under "Summary—Notes" or (with respect to any Series of Class FL Notes issued after the Closing Date) as set forth in the related offering circular supplement.

"Class SS Notes": The Class SS Variable Rate Notes, including any additional such Notes issued pursuant to the terms of the Indenture and having the applicable Series Interest Rate and Stated Maturity, in each case (with respect to any Series of Class SS Notes issued on the Closing Date) as set forth under "Summary—Notes" or (with respect to any Series of Class SS Notes issued after the Closing Date) as set forth in the related offering circular supplement.

"Class Interest Distribution Amount": With respect to any Class of Notes on any Payment Date, the aggregate of the Interest Distribution Amounts with respect to such Payment Date for each Series of Notes of such Class.

"Class Notional Amount": With respect to any Class of Notes on the Closing Date, the initial Class Notional Amount of such Class of Notes; thereafter it will be increased or decreased as described under "Summary—Decrease in the Class Notional Amount of each Class of Notes" and "Summary—Increase in the Class Notional Amount of each Class of Notes".

"Clearing Agencies": Collectively, DTC, Euroclear and Clearstream.

"Clearstream": Clearstream Banking, société anonyme, a corporation organized under the laws of the Grand Duchy of Luxembourg.

"CLO Securities": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from (and not the market value of) a portfolio of primary loans.

"Closing Date": April 26, 2007.

"CMBs Conduit Securities": Commercial Mortgage-Backed Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such Commercial Mortgage-Backed Securities) on the cash flow from a pool of commercial mortgage loans, generally having the following characteristics:

(i) the commercial mortgage loans have varying contractual maturities;

(ii) the commercial mortgage loans are secured by real property purchased or improved with the proceeds thereof (or to refinance an outstanding loan the proceeds of which were so used);
(v) the commercial mortgage loans or leases have varying contractual maturities;

(vi) the commercial mortgage loans or leases are secured by real property purchased or improved with the proceeds thereof (or to refinance an outstanding loan the proceeds of which were used);

(vii) the leases are secured by leasehold interests;

(viii) the commercial mortgage loans or leases are obligations of a relatively limited number of obligors and accordingly represent a relatively undiversified pool of obligor credit risk;

(ix) repayment thereof can vary substantially from the contractual payment schedule (if any), with prepayment of individual loans depending on numerous factors specific to the particular obligor; however, in the case of loans bearing interest at a fixed rate, such loans or securities typically include significant or complete prepayment protection.

"CMBS Credit Tenant Lease Securities": Commercial Mortgage-Backed Securities (other than CMBS Large Loan Securities and CMBS Conduit Securities) that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such Commercial Mortgage-Backed Securities) on the cash flow from a pool of commercial mortgage loans made to finance the acquisition, construction and improvement of properties leased to corporate tenants (or on the cash flow from such leases), generally have the following characteristics:

(i) the commercial mortgage loans or leases have varying contractual maturities;

(ii) the commercial mortgage loans are secured by real property purchased or improved with the proceeds thereof (or to refinance an outstanding loan the proceeds of which were used);

(iii) the leases are secured by leasehold interests;

(iv) the commercial mortgage loans or leases are obligations of a relatively limited number of obligors and accordingly represent a relatively undiversified pool of obligor credit risk;

(v) repayment thereof can vary substantially from the contractual payment schedule (if any), with prepayment of individual loans or termination of leases depending on numerous factors specific to the particular obligor or lessor and upon whether, in the case of loans bearing interest at a fixed rate, such loans include an effective prepayment premium; and

(vi) the creditworthiness of such corporate tenants is an important factor in any decision to invest in these securities.

"CMBS Franchise Securities": Commercial Mortgage-Backed Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such Commercial Mortgage-Backed Securities) on the cash flow from (a) a pool of franchise loans made to operators of franchises that provide oil, gasoline, restaurant or food services and provide other services related thereto and (b) leases or subleases of equipment to such operators for use in the provision of such goods and services. Such securities generally have the following characteristics:

(i) the loans, leases or subleases have varying contractual maturities;

(ii) the loans are secured by real property purchased or improved with the proceeds thereof (or to refinance an outstanding loan the proceeds of which were used);

(iii) the obligations of the lessors or sublessors of the equipment may be secured not only by the leased equipment but also the related real estate;

(iv) the loans, leases and subleases are obligations of a relatively limited number of obligors and accordingly represent a relatively undiversified pool of obligor credit risk;
Footnote Exhibits - Page 4961

(v) payment of the loans can vary substantially from the contractual payment schedule (if any), with prepayment of individual loans depending on numerous factors specific to the particular obligors and upon whether, in the case of loans bearing interest at a fixed rate, such loans include an effective prepayment premium;

(vi) repayment stream on the leases and subleases is primarily determined by a contractual payment schedule, with early termination of such leases and subleases predominately dependent upon the disposition to a lessee, a sublessee or third party of the underlying equipment; and

(vii) such leases and subleases typically provide for the right of the lessee or sublessee to purchase the equipment for its stated residual value.

"CMBS Large Loan Securities": Commercial Mortgage-Backed Securities (other than CMBS Conduit Securities and CMBS Credit Tenant Lease Securities) that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such Commercial Mortgage-Backed Securities) on the cash flow from a commercial mortgage loan or a pool of commercial mortgage loans made to finance the acquisition, construction and improvement of properties, generally having the following characteristics:

(i) the commercial mortgage loans have varying contractual maturities;

(ii) the commercial mortgage loans are secured by real property purchased or improved with the proceeds thereof (or to refinance an outstanding loan the proceeds of which were used);

(iii) the commercial mortgage loans are obligations of a limited number of obligors and accordingly represent a relatively undiversified pool of obligor credit risk (including in comparison to CMBS Conduit Securities);

(iv) repayment thereof can vary substantially from the contractual payment schedule (if any), with early prepayment of individual loans depending on numerous factors specific to the particular obligors and upon whether, in the case of loans bearing interest at a fixed rate, such loans or securities include an effective prepayment premium;

(v) the valuation of individual properties securing the commercial mortgage loans is the primary factor in any decision to invest in these securities; and

(vi) the commercial mortgage loans have relatively large average balances (including in comparison to RMBS).

"CMBS REMIC Securities": Securities that represent an interest in a real estate mortgage investment conduit backed by CMBS.

"Co-Issued Notes": Collectively, the Class SS Notes and the Class A-1 Notes.

"Collateral": Collectively, the Collateral Securities and the Eligible Investments.

"Collateral Account": The segregated trust account into which the issuer shall, from time to time, deposit Issuer Assets.

"Collateral Administration Agreement": The Collateral Administration Agreement, dated as of the Closing Date, between the Issuer and the Collateral Administrator.

Confidential Treatment Requested by Goldman Sachs
"Collateral Administrator": LaSalle Bank National Association, solely in its capacity as Collateral Administrator under the Collateral Administration Agreement, until a successor Person shall have become the Collateral Administrator pursuant to the applicable provisions of the Collateral Administration Agreement, and thereafter "Collateral Administrator" shall mean such successor Person.

"Collateral Default": An event of default (as defined in the relevant Underlying Instruments) which has (i) occurred and is continuing with respect to any of the Collateral (other than a Collateral Security that has been purchased with Excess Disposition Proceeds only and which at the time of its acquisition did not satisfy the requirements set forth in the Collateral Security Eligibility Criteria) and (ii) if the relevant Underlying Instruments require an acceleration to occur following an event of default (as defined in the relevant Underlying Instruments) in order to liquidate the related underlying collateral, resulted in such acceleration.

"Collateral Put Agreement Early Termination": The occurrence of either a Collateral Put Agreement Event of Default or a Collateral Put Agreement Termination Event.

"Collateral Put Agreement Early Termination Date": An early termination date under the Collateral Put Agreement (other than as triggered by the Credit Default Swap or the Basis Swap).

"Collateral Put Provider Credit Support Document": The meaning assigned to the term "Credit Support Document" in the Collateral Put Agreement and initially, the guaranty dated as of the Closing Date by GS Group with respect to the obligations of the Collateral Put Provider under the Collateral Put Agreement.

"Collateral Put Provider Credit Support Provider": The meaning assigned to the term "Credit Support Provider" in the Collateral Put Agreement and initially, GS Group.

"Collateral Security Substitution Information Notice": A notice from the Trustee or the Issuing and Paying Agent, as applicable, to an Originating Noteholder notifying such Originating Noteholder that (i) the Proposed New BIE Collateral Security identified in the related Collateral Security Substitution Request Notice is an Eligible BIE Collateral Security and (ii) the BIE Transaction Cost and the BIE Basis Swap Payment relating to such Proposed New BIE Collateral Security.

"Collateral Security Substitution Noteholder Refusal Notice": A notice from the Trustee or the Issuing and Paying Agent, as applicable, to an Originating Noteholder notifying such Originating Noteholder that the Holders of a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class did not approve the Proposed New BIE Collateral Security by the BIE Notification Date.

"Collateral Security Substitution Refusal Notice": A notice from the Trustee or the Issuing and Paying Agent, as applicable, to an Originating Noteholder notifying such Originating Noteholder that (i) the Proposed New BIE Collateral Security identified in the related Collateral Security Substitution Request Notice is not an Eligible BIE Collateral Security, (ii) the identity of each Eligible BIE Collateral Security and (iii) the identity of each Proposed New BIE Collateral Security that is not an Eligible BIE Collateral Security.

"Collateral Security Substitution Request Notice": A notice from an Originating Noteholder to the Trustee or the Issuing and Paying Agent, as applicable, (i) requesting the substitution of one or more Proposed New BIE Collateral Securities for one or more existing Collateral Securities, (ii) identifying each Collateral Security and the par amount to be substituted, (iii) identifying each Proposed New BIE Collateral Security and the par amount and (iv) any other information that such Originating Noteholder deems relevant.
"Commercial Mortgage-Backed Securities" or "CMBS": Securities that represent interests in, or enable holders thereof to receive payments that depend on the cashflows primarily from credit default swaps that reference, in each case, obligations (including certificates of participation in obligations) that are principally secured by mortgages on real property or interests therein having a multifamily or commercial use, such as regional malls, office space, office buildings, industrial or warehouse properties, hotels, nursing homes and senior living centers and shall include, without limitation, CMBS Conduit Securities, CMBS Credit Tenant Lease Securities, CMBS Franchise Securities, CMBS Large Loan Securities or CMBS RE-REMIC Securities, excluding, in each case, any securities that belong to an Excluded Specified Type.

"Common Depository": ABN AMRO Bank N.V. (London Branch) on behalf of Euroclear.

"Corporate Securities": Publicly issued or privately placed debt obligations of corporate issuers which are not REIT Debt Securities or Wrapped Securities.

"Credit Default Swap Early Termination Date": An early termination date under the Credit Default Swap (other than as triggered by the Basis Swap or the Collateral Put Agreement).

"Credit Default Swap Fixed Rate Payee Calculation Period": An interest Accrual Period.

"Credit Event Notice": An irrevocable notice that describes a Credit Event.

"Currency Adjusted Aggregate Outstanding Amount": When used with respect to any or all of the Notes, the aggregate principal amount of such Notes when issued, as expressed in its currency of denomination and thereafter adjusted as described in "Summary—Increase in the Currency Adjusted Aggregate Outstanding Amount of each Series of Notes" and "Summary—Increase in the Currency Adjusted Aggregate Outstanding Amount of all Series of Notes".

"Currency Adjusted Redemption Refund Adjustment Amount": Any Series of Notes' allocation of any Redemption Refund Adjustment Amount divided by the Applicable Series Foreign Exchange Rate.

"Current Dollar Price": For each Reference Obligation and at any time of determination, the product of (a) the Current Market Price for such Reference Obligation at such time and (b) the ICE Reference Obligation Notional Amount of such Reference Obligation at such time.

"Current Market Price": At any time of determination, with respect to a Reference Obligation, a percentage price determined by the Credit Default Swap Calculation Agent and confirmed by the Collateral Administrator by (a) using the pricing service used by the Collateral Administrator in its normal course of business for so long as the quote obtained from such pricing service has been provided by such pricing service within two Business Days of the time of such determination or (b) if Subclause (a) above is not applicable, asking the Approved Dealers to quote the offered-side price (excluding accrued interest) for such Reference Obligation in an amount equal to its Reference Obligation Notional Amount and (2) for so long as the Collateral Administrator is able to obtain one such quote from one such Approved Dealer, taking the arithmetic average of such quotations.

"Current Period Implied Write-down Amount": For each Reference Obligation, with respect to any Reference Obligation Calculation Period for such Reference Obligation, an amount determined as of the last day of such Reference Obligation Calculation Period equal to the greater of (i) zero and (ii) the product of (A) the implied Write-down Percentage and (B) the greater of (1) the lesser of (x) the Parr Passu Amount and (y) the Parr Passu Amount plus the Senior Amount minus the aggregate outstanding asset pool balance securing the payment obligations on such Reference Obligation (all such outstanding asset pool balances as obtained by the Credit Default Swap Calculation Agent from the most

recently dated Servicer Report available as of such day, calculated based on the face amount of the assets then in such pool, whether or not any such asset is performing.

"Day Count Fraction": With respect to Notes denominated in Australian Dollars, Canadian Dollars, New Zealand Dollars and Sterling, calculations will be based on the calendar days in the calculation period in respect of which payment is being made divided by 365 (or, if any portion of that calculation period falls in a leap year, the sum of (a) the actual number of days in that portion of the calculation period falling in a leap year divided by 366 and (b) the actual number of days in that portion of the calculation period falling in a non-leap year divided by 365) and (c) denominated in Dollars, Euros, Francs, Kronas and Yen, calculations will be based on the actual number of days in the calculation period in respect of which payment is being made divided by 360.

"Defaulted Interest": Any interest due and payable in respect of any Note which is not punctually paid or duly provided for on the applicable Payment Date or at the Stated Maturity, as the case may be.

"Determination Date": With respect to a Payment Date, the last Business Day of the immediately preceding Due Period.

"Disposition Proceeds": All Sale Proceeds and Put Proceeds.

"Distribution": Any payment of principal or interest or any dividend, premium or fee payment made on, or any other distribution in respect of, a security or obligation.

"Dollar": A dollar or other equivalent unit in such coin or currency of the United States of America as at the time shall be legal tender for all debts, public and private.

"DTC": The Depository Trust Company, its nominees, and their respective successors.

"Due Period": With respect to any Payment Date or the Mandatory Redemption Date, the period commencing on the day immediately following the 5th Business Day prior to the preceding Payment Date (or, in the case of the Due Period relating to the first Payment Date, the Closing Date) and ending on (and including) the fifth Business Day prior to such Payment Date (or, in the case of a Due Period that is applicable to the Payment Date relating to the Stated Maturity of any Note, the Optional Redemption Date, a Partial Optional Redemption Date or the Mandatory Redemption Date, as the case may be, ending on (and including) the Business Day immediately preceding such Payment Date or Mandatory Redemption Date, as the case may be).

"Eligible BIE Collateral Security": A Proposed New BIE Collateral Security that satisfies the BIE Collateral security Eligibility Criteria.

"Eligible Country": Any country of the European Economic and Monetary Union that has adopted the Euro currency that has long-term sovereign debt obligations rated at least "Aaa" by Moody's (or "AA" in the case of Italy) and for which such country has been assigned a foreign currency issuer credit rating of "AAA" by S&P.

"Eligible Investment": Any investment denominated in an Approved Currency that, at the time it is delivered to the Trustee, is one or more of the following obligations or securities:

(i) direct (and, in the case of investments denominated in Dollars, Registered) obligations of, and (and, in the case of investments denominated in Dollars, Registered) obligations fully guaranteed by, the United States, any Eligible Country, Great Britain, Japan, Canada or Australia or any agency or instrumentality of the United States, any Eligible Country, Great Britain, Japan, Canada or Australia the obligations of which are expressly backed

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918185
Footnote Exhibits - Page 4965

by the full faith and credit of the United States, any Eligible Country, Great Britain, Japan, Canada or Australia, so long as the related obligor or guarantor is rated "AAA" or "A-1+" by S&P;

(b) demand and time deposits in, certificates of deposit of, or banker's acceptances issued by, any depository institution or trust company incorporated in the United States or any state thereof or any Eligible Country, Great Britain, Japan, Canada or Australia, which depository institution or trust company is subject to supervision and examination by federal or state authorities (or, in the case of investments denominated in Approved Currencies other than Dollars, governmental banking authorities) so long as (a) in the case of demand and time deposits, such deposits (i) are held by banks rated "P-1" by Moody's and "A-1+" by S&P (or at least "A-1") by S&P in the case of demand and time deposits in Laeke Fee National Association for so long as it is the Trustee herein) and (ii) are payable on demand only without any restrictions and (b) in the case of certificates of deposit or banker's acceptances, the related depository institution or trust company is rated at least "A-1" or "P-1" by Moody's and "AAA" or "A-1+" by S&P;

(iii) repurchase obligations with respect to (a) any security described in clause (i) above or (b) any other security issued or guaranteed by an agency or instrumentality of the United States, any Eligible Country, Great Britain, Japan, Canada or Australia, entered into with a depository institution or trust company described in clause (i) above or entered into with a corporation whose long-term senior unsecured rating is at least "A-1" by Moody's and "AA-" by S&P and whose short-term credit rating is "P-1" by Moody's and "A-1+" by S&P at the time of such investment, with a term not in excess of 91 days; provided that if the term is greater than 30 days from the time of delivery, it has a long-term rating of "AAA" by S&P;

(iv) commercial paper or other short-term obligations of a corporation, partnership, limited liability company or trust, or any branch or agency thereof located in the United States or any of its territories or any Eligible Country, Great Britain, Japan, Canada or Australia, such commercial paper or other short-term obligations having a credit rating of "P-1" by Moody's and "A-1+" by S&P, and that are registered in the case of investments denominated in Dollars and are interest-bearing or are sold at a discount from the face amount thereof and have a maturity of not more than 91 days from their date of issuance. In the case of S&P and Moody's, provided that if the term is greater than 30 days from the time of delivery, it has a long-term rating of "AAA" by S&P;

(v) offshore money market funds which have a credit rating of not less than "Aa1" by Moody's and "AAA" or "AAAm" or "AAA-A" by S&P;

(vi) Cash and

(vii) any other investments subject to satisfaction of the S&P Rating Condition and the Moody's Rating Condition;

which, in any case, (A) is acquired from a party acting in its capacity as broker-dealer in the ordinary course of business, (ii) in an arm's length open market transaction, and if not, is approved by S&P, (B) is acquired at a price of no more than 100% of par and (C) if such obligation or security is subject to any withholding tax, the obligor of the obligation or security is required to make "gross-up" payments that cover the full amount of such withholding tax on an after-tax basis pursuant to the Underlying Instrument with respect thereto.
Footnote Exhibits - Page 4966

"Emerging Market Country": Any jurisdiction that is not the United States or does not have a foreign currency issuer rating of at least "AA" by S&P and a long-term sovereign debt rating of at least "Aa3" by Moody's.

"Enhanced Equipment Trust Certificate": An enhanced equipment trust certificate.

"EURIBOR": An amount determined only with respect to any Applicable Period for which notes denominated in Euros are Outstanding. For purposes of calculating the Series Interest Rates for each Applicable Period, EURIBOR shall equal EURIBOR as used in the calculation of the Monthly Basis Swap Payment for such Applicable Period. For purposes of calculating the Monthly Basis Swap Payment for each Applicable Period, EURIBOR shall be calculated by the Basis Swap Calculation Agent as follows:

(a) On the Applicable Index Determination Date, the Basis Swap Calculation Agent will determine EURIBOR, expressed per annum, for deposits in Euro for the Applicable Period by reference to offered quotation on Telerate Page 248 (or through a successor information service providing interest rates comparable thereto) as at 11:00 a.m. (Brussels time) on such Applicable Index Determination Date. In the event that the offered rate shown on the Telerate monitor is replaced by corresponding interest rates of more than one bank, the Basis Swap Calculation Agent shall determine the arithmetic mean of such interest rates (at least two) so displayed (rounded if necessary to the nearest one hundred-thousandth of a percentage point, with 0.00005% being rounded upwards). "Telerate" means the Associated Press-Dow Jones Telerate Service.

(b) In the event that the Telerate Page 248 is not available or if no quotation appears thereon on the Applicable Index Determination Date, the Basis Swap Calculation Agent shall request the principal offices within the Euro-zone of four leading banks in the Euro-zone as selected by the Basis Swap Calculation Agent (the "Euro Reference Banks") to provide the Basis Swap Calculation Agent with its offered quotation (expressed as a percentage per annum) for deposits in Euros for the Applicable Period to leading banks in the Euro-zone interbank market at approximately 11:00 a.m. (Brussels time) on the Applicable Index Determination Date. If at least two such quotations are provided, the EURIBOR for such Interest Accrual Period shall be the arithmetic mean (rounded if necessary to the nearest one hundred-thousandth of a percentage point, with 0.00005% being rounded upwards) of such offered quotations, all as determined by the Basis Swap Calculation Agent. If, on the Applicable Index Determination Date only one or none of the Euro Reference Banks provides the Basis Swap Calculation Agent with such offered quotations, the EURIBOR for the relevant Interest Accrual Period shall be the rate per annum which the Basis Swap Calculation Agent determines to be the arithmetic mean (rounded if necessary to the nearest one hundred-thousandth of a percentage point, with 0.00005% being rounded upwards) of the rates, as communicated to (and at the request of) the Basis Swap Calculation Agent by leading banks in the Euro-zone as selected by the Basis Swap Calculation Agent, as at 11:00 a.m. (Brussels time) on the relevant Interest Determination Date, for loans in Euros for a period equal to the Applicable Period to leading banks in the Euro-zone, provided, however, that if the Basis Swap Calculation Agent is required but is unable to determine a rate in accordance with one of the procedures provided above, EURIBOR shall be EURIBOR as determined on the most recent date EURIBOR was available. As used herein, "Reference Banks" means four major banks in the European interbank market selected by the Basis Swap Calculation Agent.

(c) The Basis Swap Calculation Agent shall provide EURIBOR to the Note Calculation Agent as promptly as practicable following the determination thereof. As soon as possible after 11:00 a.m. (New York time) on each Applicable Index Determination Date, but in no event later than 11:00 a.m. (New York time) on the Business Day immediately following each Applicable Index Determination Date, the Note Calculation Agent will cause notice of the Series Interest Rates for the next Interest Accrual Period and the Series Interest Rate.
Footnote Exhibits - Page 4967

Amounts (rounded to the nearest cent, with half a cent being rounded upward) on the related Payment Date to be communicated to the Issuer, the Trustee, the Issuing and Paying Agent, Euroclear, Clearstream and the paying agents. The Note Calculation Agent will also specify to the Issuer the quotations upon which the Series Interest Rates are based, and in any event the Note Calculation Agent shall notify the Issuers before 5:00 p.m. (New York time) on each Applicable Index Determination Date if it has not determined and is not in the process of determining the Series Interest Rates and the Series Interest Amounts, together with its reasons therefor.

"Euro"; "Euro"; and "€": The currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty establishing the European Community, as amended from time to time.

"Euroclear": The Euroclear System.

"Expected Principal Amount": With respect to any Reference Obligation and its Final Amortization Date or Legal Final Maturity Date, an amount equal to (i) the Reference Obligation Outstanding Principal Amount of such Reference Obligation payable on such day (excluding any amount representing capitalized interest that relates to the term of the Credit Default Swap) assuming for this purpose that sufficient funds are available for such payment, where such amount shall be determined in accordance with the related Underlying Instruments, minus (ii) the sum of (A) the Aggregate Implied Volatility Amount with respect to such Reference Obligation (if any) and (B) the net aggregate principal deficiency balance or realized loss amounts (however described in the related Underlying Instruments) that are attributable to such Reference Obligation. The Expected Principal Amount shall be determined without regard to the effect of any provisions (however described) of the related Underlying Instruments that permit the limitation of the payments or distributions of funds in accordance with the terms of such Reference Obligation or that provide for the extinguishing or reduction of such payments or distributions.

"Final Amortization Date": With respect to any Reference Obligation, the first to occur of (i) the date on which the Reference Obligation Notional Amount of such Reference Obligation is reduced to zero and (ii) the date on which the assets securing such Reference Obligation or designated to fund amounts due in respect of such Reference Obligation are liquidated, distributed or otherwise disposed of in full and the proceeds thereof are distributed or otherwise disposed of in full.

"Fitch": Fitch, Inc. and its subsidiaries and any successor or successors thereto.

"GBP-LIBOR": An amount determined only with respect to any Applicable Period for which Notes denominated in Sterling are Outstanding. For purposes of calculating the Series Interest Rates for each Applicable Period, GBP-LIBOR shall equal GBP-LIBOR as used in the calculation of the Monthly Basis Swap Payment for such Applicable Period. For purposes of calculating the Monthly Basis Swap Payment for each Applicable Period, GBP-LIBOR shall be calculated by the Basis Swap Calculation Agent as follows:

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918198
Footnote Exhibits - Page 4968

(a) On each Applicable Index Determination Date, GBP-LIBOR shall equal the rate, as obtained by the Basis Swap Calculation Agent, for Sterling deposits in Europe for the Applicable Period which appears on Telerate Page 3750 (as defined in the International Swaps and Derivatives Association, Inc. 2000 Interest Rate and Currency Exchange Definitions), or such page as may replace Telerate Page 3750, as of 11:00 a.m. (New York time) on such Applicable Index Determination Date.

(b) If, on any Applicable Index Determination Date, such rate does not appear on Telerate Page 3750, or such page as may replace Telerate Page 3750, the Basis Swap Calculation Agent shall determine the arithmetic mean of the offered quotations of the Reference Banks to leading banks in the London interbank market for Sterling deposits in Europe for the Applicable Period in an amount determined by the Basis Swap Calculation Agent by reference to requests for quotations as of approximately 11:00 a.m. (New York time) on the Applicable Index Determination Date made by the Basis Swap Calculation Agent to the Reference Banks. If, on any Applicable Index Determination Date, at least two of the Reference Banks provide such quotations, GBP-LIBOR shall equal such arithmetic mean of such quotations. If, on any Applicable Index Determination Date, only one or none of the Reference Banks provide such quotations, GBP-LIBOR shall be deemed to be the arithmetic mean of the offered quotations that leading banks in the City of New York selected by the Basis Swap Calculation Agent are quoting on the relevant Applicable Index Determination Date for Eurodollar deposits for the Applicable Period in an amount determined by the Basis Swap Calculation Agent by reference to the principal London offices of leading banks in the London interbank market; provided, however, that if the Basis Swap Calculation Agent is unable to determine a rate in accordance with at least one of the procedures provided above, GBP-LIBOR shall be GBP-LIBOR as determined on the most recent date GBP-LIBOR was available. As used herein, "Reference Banks" means four major banks in the London interbank market selected by the Basis Swap Calculation Agent.

(c) The Basis Swap Calculation Agent shall provide GBP-LIBOR to the Note Calculation Agent as promptly as practicable following the determination thereof. As soon as possible after 11:00 a.m. (New York time) on each Applicable Index Determination Date, but no event later than 11:00 a.m. (New York time) on the Business Day immediately following each Applicable Index Determination Date, the Note Calculation Agent will cause notice of the Series Interest Rates for the next Interest Accrual Period and the Series Interest Amounts (rounded to the nearest cent, with half a cent being rounded upward) on the related Payment Date to be communicated to the Issuers, the Trustee, the Issuing and Paying Agent, Euroclear, Clearstream and the paying agents. The Note Calculation Agent will also specify to the Issuers the quotations upon which the Series Interest Rates are based, and in any event the Note Calculation Agent shall notify the Issuers before 5:00 p.m. (New York time) on each Applicable Index Determination Date if it has not determined and is not in the process of determining the Series Interest Rates and the Series Interest Amounts, together with its reasons therefor.

"Global Notes": Collectively, the Rule 144A Global Notes and the Regulation S Global Notes.

"GS Group": The Goldman Sachs Group, Inc.

"Holder" or "Noteholder": With respect to any Note, the Person in whose name such Note is registered in the Note Register or Issuer Note Register, as applicable.
"ICE Aggregate USD Equivalent Outstanding Amount": When used with respect to any or all of the Notes, initially, the Aggregate USD Equivalent Outstanding Amount of such Class on the Closing Date, thereafter, it will be:

(a) decreased by an amount equal to:

(i) on the fifth Business Day following the calculation of any ICE Loss Amount, the product of (a) the related ICE Unscaled Credit Event Adjustment Amount and (b) the related Note Scaling Factor (such amount determined under this subclause (i), the “ICE Credit Event Adjustment Amount”);

(ii) on the Payment Date immediately following the Due Period in which a Reference Obligation Amortization Amount is determined by the Credit Default Swap Calculation Agent on one or more Reference Obligation(s), the Notional Principal Adjustment Amount with respect to such Class of Notes on such date;

(iii) on any Stated Maturity with respect to a Series of such Class, after giving effect to clauses (i) and (ii) above, the ICE Aggregate USD Equivalent Outstanding Amount of the Notes maturing on such date; and

(iv) on a Partial Optional Redemption Date, after giving effect to clauses (i) through (iii) above, the ICE Aggregate USD Equivalent Outstanding Amount of the Notes of such Class that are redeemed in connection with such Partial Optional Redemption;

(b) increased on any day on which additional Notes of such Class are issued by the principal amount of such additional issuance (or the USD Equivalent of such principal amount if issued in an Approved Currency other than Dollars).

For the avoidance of doubt, with respect to a Class with more than one Series Outstanding at such time of determination, any pro rata allocations made on such date pursuant to subclauses (ii), (iii) through (vi) above will be based on the ICE Aggregate USD Equivalent Outstanding Amount of each Series of such Class, as expressed in Dollars.

On any date of determination, decreases to the ICE Aggregate USD Equivalent Outstanding Amount of any Class of Notes will be determined by giving effect, in the following order, to the (i) aggregate related ICE Credit Event Adjustment Amount (if any) and (ii) aggregate related Notional Principal Adjustment Amount (if any).

"ICE Aggregate USD Equivalent Outstanding Amount Differential": An amount equal to, with respect to any Class of Notes, at any time of determination, the greater of (i) zero and (ii) the difference between the ICE Aggregate USD Equivalent Outstanding Amount of such Class at such time and the ICE Aggregate USD Equivalent Outstanding Amount of such Class at such time and (ii) zero.

"ICE Class Notional Amount": With respect to any Class of Notes on the Closing Date, the Initial Class Notional Amount of such Class of Notes; thereafter it will be decreased by an amount (as expressed in Dollars) equal to:

(i) on the fifth Business Day following the calculation of any ICE Loss Amount, if greater than zero, the lesser of (a) the related ICE Loss Amount and (b) the ICE Class Notional Amount of all Classes of Notes that are subordinated to such Class immediately prior to such determination and (ii) the ICE Class Notional Amount of such Class immediately prior to such determination (such amount, the "ICE Unscaled Credit Event Adjustment Amount").
Footnote Exhibits - Page 4970

(i) on the Payment Date immediately following the Due Period in which a Reference Obligation Amortization Amount is determined by the Credit Default Swap Calculation Agent on one or more Reference Obligations, the Unscaled Notional Principal Adjustment Amount with respect to such Class of Notes on such date.

On any date of determination, decreases to the ICE Class Notional Amount of any Class of Notes will be determined by giving effect, in the following order, to the (i) aggregate related ICE Unscaled Credit Event Adjustment Amount (if any) and (ii) aggregate related Unscaled Notional Principal Adjustment Amount (if any).

"ICE Class Notional Amount Differential": An amount equal to, with respect to a Class of Notes, at any time of determination, the greater of (i) the ICE Class Notional Amount of such Class at such time less the Class Notional Amount of such Class at such time and (ii) zero.

"ICE Currency Adjusted Accrued Interest Amount": With respect to any Series of Notes, an amount equal to the aggregate amount of interest accrued, at the applicable Series Interest Rate, during the related Interest Accrual Period on the average daily ICE Currency Adjusted Aggregate Outstanding Amount of such Series of Notes during the preceding Interest Accrual Period.

"ICE Currency Adjusted Aggregate Outstanding Amount": When used with respect to any or all of the Notes, the aggregate principal amount of such Notes when issued, as expressed in their currency of denomination and thereafter decreased:

(i) with respect to any ICE Credit Event Adjustment Amount or Notional Principal Adjustment Amount, by an amount equal to the product of (a) such Notes’ allocation of any ICE Credit Event Adjustment Amount or Notional Principal Adjustment Amount, as described in the definition of “ICE Aggregate USD Equivalent Outstanding Amount”, as applicable, and (b) the Applicable Series Foreign Exchange Rate;

(ii) on the latest Maturity with respect to a Series of Notes, after giving effect to any reductions pursuant to subclause (i) above, by the ICE Currency Adjusted Aggregate Outstanding Amount of such Notes; and

(iii) in connection with a Partial Optional Redemption of such Notes, after giving effect to any reductions pursuant to subclauses (i) and (ii) above, by the ICE Currency Adjusted Aggregate Outstanding Amount of such Notes redeemed in connection with such Partial Optional Redemption.

"ICE Currency Adjusted Aggregate Outstanding Amount Differential": An amount equal to, with respect to any Series of Notes, at any time of determination, the greater of (i) the ICE Currency Adjusted Aggregate Outstanding Amount of such Series at such time less the Currency Adjusted Aggregate Outstanding Amount of such Series at such time and (ii) zero.

"ICE Currency Adjusted Interest Differential": With respect to any Series of Notes of any Class, an amount equal to (i) the ICE Currency Adjusted Accrued Interest Amount less (ii) the Interest Distribution Amount (other than with respect to clause (d) of the definition thereof) with respect to such Series of Notes.

"ICE Currency Adjusted Interest Reimbursement Amount": On any Payment Date, an amount equal to the aggregate of, with respect to any Series of Notes, the products of:

(i) the ICE Currency Adjusted Reimburseable Interest Amount relating to such Series of Notes on such Payment Date (prior to giving effect to subclause (D) in the definition thereof on such Payment Date); and

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918191
the lesser of (a) 1 or (b) a fraction, the numerator of which is, if greater than zero, (1) the aggregate Unscaled Reimbursement Adjustment Amount of the Class related to such Series determined by the Credit Default Swap Calculation Agent during the related Due Period less (2) the aggregate Unscaled Credit Event Adjustment Amount of the Class related to such Series with respect to Credit Events determined by the Credit Default Swap Calculation Agent during the related Due Period, and the denominator of which is the ICE Class Notional Amount Differential of the Class related to such Series on the Determination Date immediately prior to the previous Payment Date; provided, however, that if such ICE Class Notional Amount Differential on the Determination Date immediately prior to the previous Payment Date is zero, then this subclause (i) will be deemed to have a value of zero.

"ICE Currency Adjusted Reimbursable Interest Amount": On the Closing Date and with respect to any Series of Notes, zero. On any Payment Date thereafter, the ICE Currency Adjusted Reimbursable Interest Amount with respect to any Series shall equal the sum of:

(A) the product of (i) the ICE Currency Adjusted Reimbursable Interest Amount with respect to such Series on the immediately preceding Payment Date (or, in the case of the first Payment Date, the Closing Date) after giving effect to any adjustments on the preceding Payment Date or the Closing Date, as the case may be, in accordance with this definition and (ii) one plus the product of (a) the Series Interest Rate with respect to such Series and (b) the applicable Day Count Fraction; plus

(B) the ICE Currency Adjusted Interest Differential related to the immediately preceding Interest Accrual Period; minus

(C) with respect to any Reference Obligation that was removed from the Reference Portfolio during the preceding Due Period (if any), any ICE Currency Adjusted Reimbursable Interest Amount corresponding to the sum of any Loss Amounts determined with respect to such Reference Obligation that have not been subsequently reimbursed, provided that, for the avoidance of doubt, this section (C) will only be applicable if an ICE Loss Amount with respect to such Series has been calculated in connection with such removal; minus

(D) any ICE Currency Adjusted Interest Reimbursement Amount (including, for the avoidance of doubt, as a component of any Optional Redemption Reimbursement Amount) paid to such Series of Notes of such Class on such Payment Date.

"ICE Loss Amount": On (i) any Credit Default Swap Calculation Date, with respect to a Credit Event, the ICE Loss Amount will be zero; and (ii) any Business Day on which a Reference Obligation for which one or more Credit Events has occurred is removed from the Reference Portfolio, the sum of any Loss Amounts that have not been subsequently reimbursed with respect to such Reference Obligation prior to such removal, provided that, with respect to any Reference Obligation not denominated in Dollars, the ICE Loss Amount shall equal the product of (a) the ICE Loss Amount denominated in such other currency determined under subclauses (i) and (ii) above and (b) the applicable Foreign Exchange Rate.

"ICE Reference Obligation Notional Amount": With respect to any Reference Obligation, an amount equal to the Initial Reference Obligation Notional Amount on the Closing Date and that will be decreased on each day on which a Principal Payment or a Reference Obligation Repayment Amount is determined by the Credit Default Swap Calculation Agent, by the relevant Reference Obligation Amortization Amount.
"ICE Reference Obligation Notional Amount Differential": With respect to any Reference Obligation, the (i) ICE Reference Obligation Notional Amount of such Reference Obligation less (ii) the Reference Obligation Notional Amount of such Reference Obligation.

"Implied Rating": In the case of a rating of a Reference Obligation by a Rating Agency, a rating that is determined by reference to any publicly available, fully monitored rating by another rating agency that, by its terms, addresses the full scope of the payment promise of the obligor.

"Implied Write-Down Amount": For each Reference Obligation, (i) if the related Underlying Instruments do not provide for write-downs, applied losses, principal deficiencies or realized losses as described in clause (i) of the definition of "Write-Down" to occur in respect of such Reference Obligation, on any Reference Obligation Payment Date, an amount determined by the Credit Default Swap Calculation Agent equal to the excess, if any, of the Current Period Implied Write-Down Amount over the Previous Period Implied Write-Down Amount, in each case in respect of such Reference Obligation Calculation Period to which such Reference Obligation Payment Date relates, and (ii) in any other case, zero.

"Implied Write-Down Percentage": For each Reference Obligation, the ratio of (i) the related Reference Obligation Outstanding Principal Amount divided by (ii) the related Par Passu Amount.

"Implied Write-Down Reimbursement Amount": With respect to any Reference Obligation, (i) if the related Underlying Instruments do not provide for write-downs, applied losses, principal deficiencies or realized losses as described in (i) of the definition of "Write-Down" to occur in respect of such Reference Obligation, on any Reference Obligation Payment Date for such Reference Obligation, an amount determined by the Credit Default Swap Calculation Agent equal to the excess, if any, of the Previous Period Implied Write-Down Amount for such Reference Obligation over the Current Period Implied Write-Down Amount for such Reference Obligation, in each case in respect of the related Reference Obligation Calculation Period to which such Reference Obligation Payment Date relates, and (ii) in any other case, zero; provided that the aggregate of all Implied Write-Down Reimbursement Amounts at any time with respect to a Reference Obligation shall not exceed the Reference Obligation Outstanding Principal Amount.

"Independent": As to any Person, any other Person (including a firm of accountants or lawyers and any member thereof) who (i) does not have and is not committed to acquire any material direct or any material indirect financial interest in such Person or in any Affiliate of such Person, (ii) is not connected with such Person as an officer, employee, promoter, underwriter, voting trustee, partner, director or Person performing similar functions and (iii) is not Affiliated with a firm that fails to satisfy the criteria set forth in (i) and (ii). "Independent" when used with respect to any accountant who audits the books of any Person if in addition to satisfying the criteria set forth above the accountant is independent with respect to such Person within the meaning of Rule 101 of the Code of Ethics of the American Institute of Certified Public Accountants.

"Initial Class Notional Amount": With respect to: (i) the Class SS Notes, $1,100,000,000; (ii) the Class A-1 Notes, $200,000,000; (iii) the Class A-2 Notes, $200,000,000; (iv) the Class B Notes, $200,000,000; (v) the Class C Notes, $100,000,000; (vi) the Class D Notes, $50,000,000; and (vii) the Class F Notes, $200,000,000; in each case denominated in Dollars or the USD Equivalent of any Approved Currency other than Dollars.

"Initial Face Amount": For each Reference Obligation, an amount as specified in the Reference Obligation Registry at the time of inclusion of such Reference Obligation in the Reference Portfolio or, if such Reference Obligation is not denominated in Dollars, the product of (i) such amount and (ii) the applicable National Foreign Exchange Rate.

"Initial Factor": For each Reference Obligation, the factor for such Reference Obligation on the Closing Date, as specified in the Reference Obligation Registry.
"Initial Purchaser": Goldman, Sachs & Co.

"Initial Reference Obligation Notional Amount": For (i) each Dollar denominated Reference Obligation, the notional amount of such Reference Obligation as recorded in the Reference Obligation Registry, and (ii) each Reference Obligation denominated in a currency other than Dollars, the product of (a) the notional amount of such Reference Obligation denominated in such other currency as recorded in the Reference Obligation Registry and (b) its Notional Foreign Exchange Rate, in each case as of the time of issuance of such Reference Obligation in the Reference Portfolio.

"Initial Reference Portfolio": The portfolio of Reference Obligations on the Closing Date.

"Initial Reference Portfolio Notional Amount": The aggregate Reference Obligation Notional Amount of the Initial Reference Portfolio.

"Insurer": With respect to any Reference Obligation, the Insurer set out in Schedule A with respect to such Reference Obligation.

"Interest Accrual Period": The period from and including the Closing Date to but excluding the first Payment Date, and each successive period from and including each Payment Date to but excluding the following Payment Date (except with respect to the Payment Date preceding the Stated Maturity or the Mandatory Redemption Date, as the case may be, to but excluding the Stated Maturity or the Mandatory Redemption Date, as the case may be).

"Interest Distribution Amount": With respect to any Payment Date and with respect to any Series of Notes, the sum of:

(a) the aggregate amount of interest accrued, at the applicable Series Interest Rate, during the related Interest Accrual Period on the average daily Currency Adjusted Aggregate Outstanding Amount of such Series of Notes during the preceding Interest Accrual Period;

(b) the aggregate amount of interest accrued, at the applicable Series Interest Rate, during the related Interest Accrual Period, on any Defaulted Interest relating to such Series of Notes;

(c) any Defaulted Interest relating to such Series of Notes; and

(d) any ICE Currency Adjusted Interest Reimbursement Amount allocable to such Series.

"Interest Proceeds": With respect to any Payment Date (including the Optional Redemption Date or any Partial Optional Redemption Date, the Mandatory Redemption Date or the Stated Maturity), without duplication:

(i) the portion of the Collateral Interest Amount actually received during the related Due Period;

(ii) the Monthly Basis Swap Payment received on such Payment Date;

(iii) the Fixed Payment (for the avoidance of doubt, excluding those related amounts deposited in the CDS Issuer Fixed Payment Subaccount on such Payment Date but including those related amounts released from the CDS Issuer Fixed Payment Subaccount on such Payment Date) with respect to such Payment Date.
Footnote Exhibits - Page 4974

(v) any ICE Currency Adjusted Interest Reimbursement Amounts received during the related Due Period;

(vi) after an event of default, as such term is defined under the Collateral Put Agreement, any interest payment received by the Issuer from the Posted Collateral during the related Due Period (but not to exceed the amount of the Collateral Put Provider’s obligations owed to the Issuer); and

(vii) all payments of principal on Eligible Investments purchased with the proceeds of any of the Notes (i), (ii), (iii), (iv) and (v) of this definition (without duplication) received during the related Due Period;

provided that, prior to an event of default, as such term is defined in the Collateral Put Agreement, any payments received by the Issuer under the Posted Collateral shall not constitute “interest proceeds” and such amounts shall be deposited in the Collateral Put Provider Account and be treated in accordance with the Credit Support Annex, if any.

*ISDA Credit Derivatives Definitions*: The 2003 Credit Derivative Definitions published by the International Swap and Derivatives Association, Inc., as supplemented by the May 2003 Supplement to the 2003 Credit Derivatives Definitions.

*Issuer Assets*: All money (except for money, securities, investments and agreements in the Issuer’s bank account in the Cayman Islands), instruments and other property and rights, including, without limitation, the Collateral and the Issuer’s rights under the Credit Default Swap, the Basis Swap, the Collateral Put Agreement, the Collateral Disposal Agreement and the Portfolio Selection Agreement, subject to or intended to be subject to the lien of the Indenture for the benefit of the Secured Parties as of any particular time, including all Proceeds thereof and the rights, title and interest granted by the Issuer to the Trustee under the Indenture.

*Issuer Note Register*: The register maintained by the Issuing and Paying Agent or any Issuer Note Registrar with respect to the Issuer Notes under the Issuing and Paying Agency Agreement.

*Issuer Note Registrar*: The agent appointed by the Issuer under the Issuing and Paying Agency Agreement to act as note registrar for the purpose of registering and recording in the Issuer Note Register the Issuer Notes and transfers of such Notes.

*Issuer Notes*: Collectively, the Class A-2 Notes, the Class B Notes, the Class C Note, the Class D Notes and the Class FL Notes.

*JPY-LIBOR*: An amount determined only for each applicable period for which Notes denominated in Yen are outstanding. For purposes of calculating the Series Interest Rates for each applicable period, JPY-LIBOR shall equal the Average of the Monthly Basis Swap Payment for such applicable period. For purposes of calculating the Monthly Basis Swap Payment for each applicable period, JPY-LIBOR shall be calculated by the Basis Swap Calculation Agent as follows:

(a) On each applicable index determination date, JPY-LIBOR shall equal the rate, as obtained by the Basis Swap Calculation Agent, for deposits in Yen for the applicable period which appears on the rate page 3750 as defined in the International Swaps and Derivatives Association, Inc. 2000 Interest Rate and Currency Exchange Definition, or such page as may replace the rate page 3750, as of 11:00 a.m. (New York time) on such applicable index determination date.

Confidential Treatment Requested by Goldman Sachs  GS MIIS-E-001918195
Footnote Exhibits - Page 4975

(b) If, on any Applicable Index Determination Date, such rate does not appear on Telebase Page 3750, or such page as may replace Telebase Page 3750, the Basis Swap Calculation Agent shall determine the arithmetic mean of the offered quotations of the Reference Banks to leading banks in the London interbank market for deposits in Yen for the Applicable Period in an amount determined by the Basis Swap Calculation Agent by reference to requests for quotations as of approximately 11:00 a.m. (New York time) on the Applicable Index Determination Date made by the Basis Swap Calculation Agent to the Reference Banks. If, on any Applicable Index Determination Date, at least two of the Reference Banks provide such quotations, JPY-LIBOR shall equal such arithmetic mean of such quotations. If, on any Applicable Index Determination Date, only one or none of the Reference Banks provide such quotations, JPY-LIBOR shall be deemed to be the arithmetic mean of the offered quotations that leading banks in Tokyo selected by the Basis Swap Calculation Agent are quoting on the relevant Applicable Index Determination Date for loans in Yen for the Applicable Period in an amount determined by the Basis Swap Calculation Agent equal to an amount that is representative for a single transaction in such market at such time to leading Euroyen banks; provided, however, that if the Basis Swap Calculation Agent is required but is unable to determine a rate in accordance with at least one of the procedures provided above, JPY-LIBOR shall be JPY-LIBOR as determined on the most recent date JPY-LIBOR was available. As used herein, "Reference Banks" means four major banks in the London interbank market selected by the Basis Swap Calculation Agent.

(c) The Basis Swap Calculation Agent shall provide JPY-LIBOR to the Note Calculation Agent as promptly as practicable following the determination thereof. As soon as possible after 11:00 a.m. (New York time) on each Applicable Index Determination Date, but in no event later than 11:00 a.m. (New York time) on the Business Day immediately following each Applicable Index Determination Date, the Note Calculation Agent will cause notice of the Series Interest Rates for the next Interest Accrual Period and the Series Interest Amounts (rounded to the nearest cent, with half a cent being rounded upward) on the related Payment Date to be communicated to the Issuers, the Trustee, the Issuing and Paying Agent, Euroclear, Clearstream and the paying agents. The Note Calculation Agent will also specify to the Issuer the quotations upon which the Series Interest Rates are based, and in any event the Note Calculation Agent shall notify the Issuers before 5:00 p.m. (New York time) on each Applicable Index Determination Date if it has not determined and is not in the process of determining the Series Interest Rates and the Series Interest Amounts, together with its reasons therefor.

"Legal Final Maturity Date": With respect to any Reference Obligation, the "Rated Final Maturity Date" set out in Schedule A with respect to such Reference Obligation (subject, for the avoidance of doubt, to any business day convention applicable to the legal final maturity date of the Reference Obligation), provided that if the legal final maturity date of the Reference Obligation is amended, the Legal Final Maturity Date shall be such date as amended.

"LIBOR": An amount determined only with respect to any Applicable Period for which Notes denominated in Dollars are Outstanding. For purposes of calculating the Series Interest Rates for each Applicable Period, LIBOR shall equal LIBOR as used in the calculation of the Monthly Basis Swap Payment for such Applicable Period. For purposes of calculating the Monthly Basis Swap Payment for each Applicable Period, LIBOR shall be calculated by the Basis Swap Calculation Agent as follows:

On each Applicable Index Determination Date, LIBOR shall equal the rate, as obtained by the Basis Swap Calculation Agent, for Euroclear deposits for the Applicable Period which appears on Telebase Page 3750 (as defined in the International Swaps and Derivatives Association, Inc. 2000 Interest Rate and Currency Exchange Definitions), or
such page as may replace Teletape Page 3750, as of 11:00 a.m. (New York time) on such Applicable Index Determination Date.

(b) If, on any Applicable Index Determination Date, such rate does not appear on Teletape Page 3750, or such page as may replace Teletape Page 3750, the Basis Swap Calculation Agent shall determine the arithmetic mean of the offered quotations of the Reference Banks to leading banks in the London interbank market for Eurodollars deposits for the Applicable Period in an amount determined by the Basis Swap Calculation Agent by reference to requests for quotations as of approximately 11:00 a.m. (New York time) on the Applicable Index Determination Date made by the Basis Swap Calculation Agent to the Reference Banks. If, on any Applicable Index Determination Date, at least two of the Reference Banks provide such quotations, LIBOR shall equal such arithmetic mean of such quotations. If, on any Applicable Index Determination Date, only one or none of the Reference Banks provides such quotations, LIBOR shall be deemed to be the arithmetic mean of the offered quotations that leading banks in the City of New York selected by the Basis Swap Calculation Agent are quoting on the relevant Applicable Index Determination Date for Eurodollars deposits for the Applicable Period in an amount determined by the Basis Swap Calculation Agent by reference to the principal London offices of leading banks in the London interbank market; provided, however, that if the Basis Swap Calculation Agent is required but is unable to determine a rate in accordance with at least one of the procedures provided above, LIBOR shall be LIBOR as determined on the most recent date LIBOR was available. As used herein, "Reference Banks" means four major banks in the London interbank market selected by the Basis Swap Calculation Agent.

(c) The Basis Swap Calculation Agent shall provide LIBOR to the Note Calculation Agent as promptly as practicable following the determination thereof. As soon as possible after 11:00 a.m. (New York time) on each Applicable Index Determination Date, the Note Calculation Agent will cause notice of the Series Interest Rates for the next Interest Accrual Period and the Series Interest Amounts (rounded to the nearest cent, with half a cent being rounded upward) on the related Payment Date to be communicated to the Issuers, the Trustee, the Issuing and Paying Agent, Euroclear, Clearstream and the paying agents. The Note Calculation Agent will also specify to the Issuers the quotations upon which the Series Interest Rates are based, and in any event the Note Calculation Agent shall notify the Issuers before 5:00 p.m. (New York time) on each Applicable Index Determination Date if it has not determined and is not in the process of determining the Series Interest Rates and the Series Interest Amounts, together with its reasons therefor.

"London Banking Day": A day on which commercial banks are open for general business (including dealings in foreign exchange and foreign currency deposits) in London.

"Majority": With respect to the Notes or any Class thereof, the holders of more than 50% of the Aggregate USD Equivalent Outstanding Amount of the Notes or of such Class, as the case may be.

"Makeup Whole Amount": In connection with an Optional Redemption in Whole prior to the Payment Date in April 2010, an amount calculated by the Trustee equal to the net present value of a stream of fixed payments, such fixed payments being the Portfolio Selection Fees related to the Notes being redeemed, that would have been payable to the Portfolio Selection Agent from the Redemption Date to the Payment Date in April 2010, discounted from and including the date of calculation to but excluding the Payment Date in April 2010, at the applicable rate (the "LIBOR Swap Rate") on London interbank offered rate swap agreements ("LIBOR Swaps") (determined, if necessary, by interpolating linearly between the LIBOR Swap and the term closest to and greater than the time from the redemption date to
the Payment Date in April 2010 and the LIBOR Swap with the term closest to and less than the time from the redemption date to the Payment Date in April 2010 as reported on page 19001 on the Telerate Access Service (or any successor page on such service) as of 10:00 a.m. (New York time) on the tenth Business Day preceding the related redemption date or (y) if such LIBOR Swap Rates are not reported or are not ascertainable, the LIBOR Swap Rate as determined by the Calculation Agent in accordance with the calculation of LIBOR.

"Maximum Redemption Refund Amount": With respect to the Stated Maturity of any Series of Notes or in connection with a Mandatory Redemption caused by a termination of the Credit Default Swap as a result of a default by the Protection Buyer, a termination of the Collateral Put Agreement as a result of a default by the Collateral Put Provider or a termination of the Basic Swap as a result of a default by the Basic Swap Counterparty, if an ICE Reference Obligation Notional Amount Differential is greater than zero with respect to one or more Reference Obligations, (a) that remain in the Reference Portfolio at such time of determination, (b) with respect to which the ICE Reference Obligation Notional Amount Differential was revised to zero on the day that was one calendar year prior to such time of determination, (c) that, at the time of such determination, has an Actual Rating above (1) if rated by Moody's, "Ca" or (2) if rated by S&P, "CC" and (d) with respect to which no Credit Event (other than a Watchdown) has occurred at any time on or prior to such time of determination, an amount, if greater than zero, equal to the aggregate of the differences, determined for each such Reference Obligation, of (f) the ICE Reference Obligation Notional Amount Differential of such Reference Obligation and (g) if greater than zero, the ICE Reference Obligation Notional Amount of such Reference Obligation less the related Current Dollar Price.

"Moody's": Moody's Investors Service, Inc. and any successor or successors thereto.

"Moody's Rating": The following definition of "Moody's Rating" has been provided to the Issuer by Moody's and capitalized terms used therein with respect to types of securities have the meanings ascribed thereto by Moody's. With respect to an Obligation, a rating to be determined as follows:

(1) If such Obligation has an expressly mentioned outstanding rating assigned by Moody's, which rating by its terms addresses the full scope of the payment promise of the obligor of such Obligation, the Moody's Rating shall be such rating, or if such Obligation is not rated by Moody's, but a request has been made to Moody's for a rating of such Obligation, the Moody's Rating shall be the rating so assigned by Moody's; provided that for purposes of this definition,

(i) the rating assigned by Moody's to an Obligation placed on watch for possible downgrade by Moody's will be deemed to have been downgraded by two subcategories, and

(ii) the rating assigned by Moody's to an Obligation placed on watch for possible upgrade by Moody's will be deemed to have been upgraded by two subcategories, provided that an Obligation rated "Aa1" by Moody's that is placed on watch for possible upgrade by Moody's will be deemed to have been upgraded by one rating subcategory, and

(2) If such Obligation is not rated by Moody's but is rated by S&P, then the Moody's Rating of such Obligation may be an implied Rating determined by subtracting the number of subcategories from the Moody's equivalent rating according to the following table ("notching").

</table>

If such Obligation is dual-rated Jumbo A or A+ A, the Moody's Rating shall be the rating determined in subclause (b) above, plus one-half of a subcategory;
Footnote Exhibits - Page 4979

(d) If such Obligation is not rated by Moody's but is rated by S&P and is a Commercial Mortgage-Backed Security, the Moody's Rating of such Obligation may be determined by subtracting the number of notches from the Moody's equivalent rating according to the following table:

<table>
<thead>
<tr>
<th>Commercial Mortgage-Backed Securities</th>
<th>Tranche rated by S&amp;P; no tranche in deal rated by Moody's</th>
<th>Tranche rated by S&amp;P; at least one other tranche in deal rated by Moody's</th>
</tr>

<td>Follow corporate notching practice</td>
</tr>
<tr>
<td>Large Loan</td>
<td>No notching permitted</td>
<td></td>
</tr>
</tbody>
</table>

1 For purposes of the "Moody's Rating", conduits are defined as fixed rate, sequential pay, multi-borrower transactions having a weighted average of 40 or higher at the loan level with all colonists including conduit loans, A minus, large loans, Credit Tenant Leases and any other real estate collateral included.

2 A 1.5 notch offset implies, for example, that if the S&P rating were BBB, then the Moody's rating would be halfway between the Baa and Baa-1 rating levels.

(iv) If such Obligation is a CDO Cashflow Security, no notching is permitted and the Moody's Rating shall be the rating assigned by Moody's.

provided that (1) any ratings by S&P used to determined a Moody's Ratings shall (a) address the full return of interest and principal; (b) be for the benefit of multiple investors and remain valid if the Obligation is transferred to subsequent investors; (c) be actually expressly monitored ratings rather than any "credit estimate" or "shadow rating" and (d) be mentioned through the life of the Obligation and (2) no notching is permitted based upon a rating by S&P with an "F", "F" or "FF" subscript; and provided, further, that the aggregate Reference Obligation National Amount of Reference Obligations that may be given a Moody's Rating based on Reference Obligations rated by only S&P may not exceed 75% of the Initial Reference Portfolio National Amount; and provided, further, that Asset-Backed Securities or Mortgage-Backed Securities, other than those listed in this paragraph (2) and any RMBS Agency Securities, shall have the rating assigned by Moody's.

"Moody's Rating Condition": With respect to any proposed action to be taken under the Indenture or any other document contemplated by the Indenture, a condition that is satisfied when Moody's has confirmed in writing to the Issuer and/or the Trustee that an immediate withdrawal or reduction with respect to any then-current rating by Moody's of any Class of Notes will not occur as a result of such proposed action.

"Mortgage-Backed Securities": Any Residential Mortgage-Backed Securities or Commercial Mortgage-Backed Securities.

"New Zealand Dollar", "NZD" or "NZ$: The official currency of New Zealand.

"Non-U.S. Obligor": An issuer or obligor of a Reference Obligation that (i) is not a Special Purpose Vehicle and (ii) is organized in a sovereign jurisdiction other than the United States of America.

"Note Payment Sequence": The application, in accordance with the Priority of Payments, of Principal Proceeds, in the following order: to the payment of principal of the Class A Notes until redeemed or otherwise paid in full, then to the payment of principal of the Class A-1 Notes until redeemed or otherwise paid in full, then to the payment of principal of the Class A-2 Notes until redeemed or otherwise paid in full, and finally to the payment of principal of the Class A-3 Notes until redeemed or otherwise paid in full.

Confidential Treatment Requested by Goldman Sachs  GS MBS-E-001918200
otherwise paid in full, then to the payment of principal of the Class B Notes until redeemed or otherwise paid in full, then to the payment of principal of the Class C Notes until redeemed or otherwise paid in full, then to the payment of principal of the Class D Notes until redeemed or otherwise paid in full, then to the payment of principal of the Class FL Notes until redeemed or otherwise paid in full, provided that (i) with respect to any Class of Notes issued in more than one Series, allocation of principal to Notes of each related Series will be made pro rata based on (a) the Aggregate USD Equivalent Outstanding Amount of such Notes (other than in connection with a Mandatory Redemption) and (b) the Dollar equivalent principal amount of such Notes determined using the Spot FX Rate as of the third Business Day immediately prior to such Mandatory Redemption Date (in connection with a Mandatory Redemption) and (c) principal will be applied to Notes in the Approved Currency in which such Notes are denominated up to the Currency Adjusted Aggregate Outstanding Amount of such Notes.

"Note Register": The register maintained by the Trustee or any Note Registrar with respect to the Co-issued Notes under the Indenture.

"Note Registrar": The agent appointed by the Issuer under the Indenture to act as note registrar for the purpose of registering and recording in the Note Register the Co-issued Notes and transfers of such Notes.

"Note Scaling Factor": On any date of determination, with respect to any Class of Notes, a fraction equal to (i) the Aggregate USD Equivalent Outstanding Amount of such Class of Notes on such date divided by (ii) the Class Notional Amount of such Class of Notes on such date. For the avoidance of doubt, the Note Scaling Factor may exceed 1.

"Noteholder": A Holder of the Notes of any Class.

"Noteholder Communication Notice": A notice from an Originating Noteholder to the Trustee or the Issuing and Paying Agent, as applicable, of the contents of which are to be delivered by the Trustee or the Issuing and Paying Agent, as applicable, to all other Noteholders in accordance with the Indenture or the Issuing and Paying Agency Agreement, as applicable.

"Notes": Collectively, the Class SS Notes, the Class A Notes, Class B Notes, Class C Notes, Class D Notes and Class FL Notes.

"Notice of Publicity Available Information": An irrevocable notice from the Protection Buyer to the Trustee (which shall forward such notice to the Issuer, the Rating Agencies and the Collateral Manager) that cites Publicly Available Information confirming the occurrence of a Credit Event. The notice must contain a copy, or a description in reasonable detail, of the relevant Publicly Available Information.

"Notional Foreign Exchange Rate": The Spot FX Rate determined as of the Closing Date.

"Notional Principal Amount": On any date of determination, the Reference Obligation Amortization Amounts.

"NZD-BBR": NZD-BBR will be an amount determined only with respect to any Applicable Period for which Notes denominated in New Zealand Dollars are Outstanding. For purposes of calculating the Issuance Interest Rate for such Applicable Period, NZD-BBR shall equal NZD-BBR as used in the calculation of the Monthly Basis Swap Payment for such Applicable Period. For purposes of calculating the Monthly Basis Swap Payment for such Applicable Period, NZD-BBR shall be calculated by the Basis Swap Calculation Agent as follows:

(a) On each Applicable Index Determination Date, NZD-BBR shall equal the rate, as obtained by the Basis Swap Calculation Agent, for deposits in New Zealand Dollar bills of
exchange for the Applicable Period which appears on the Telerate Page 2484 (as defined in the International Swaps and Derivatives Association, Inc. 2000 Interest Rate and Currency Exchange Definitions), or such page as may replace Telerate Page 2484, as of 11:30 a.m. (Wellington time) on such Applicable Index Determination Date.

(b) If, on any Applicable Index Determination Date, such rate does not appear on Telerate Page 2484, or such page as may replace Telerate Page 2484, the Basis Swap Calculation Agent shall determine the arithmetic mean on the basis of the bid and offered rates of the Reference Banks for New Zealand Dollar bids of exchange for the Applicable Period in an amount determined by the Basis Swap Calculation Agent by reference to requests for quotations as of approximately 11:00 a.m. (Wellington time) on the Applicable Index Determination Date made by the Basis Swap Calculation Agent to the principal New Zealand office of each of the Reference Banks. If, on any Applicable Index Determination Date, at least two of the Reference Banks provide sets of bid and offered rate quotations, NZD-BBR shall equal the arithmetic mean of such quotations. If, on any Applicable Index Determination Date, only one or none of the Reference Banks provides such bid and offered rate quotations, NZD-BBR shall be the arithmetic mean of the rates quoted by major banks in New Zealand selected by the Basis Swap Calculation Agent, at approximately 11:00 a.m. (Wellington time) on the relevant Applicable Index Determination Date for New Zealand Dollar bids of exchange for the Applicable Period in an amount determined by the Basis Swap Calculation Agent equal to an amount that is representative for a single transaction in such market at such time; provided, however, that if the Basis Swap Calculation Agent is required but is unable to determine a rate in accordance with at least one of the procedures provided above, NZD-BBR shall be NZD-BRR as determined on the most recent date NZD-BRR was available. As used herein, "Reference Banks" means four major banks in the New Zealand money market selected by the Basis Swap Calculation Agent.

(c) The Basis Swap Calculation Agent shall provide NZD-BRR to the Note Calculation Agent as promptly as practicable following the determination thereof. As soon as possible after 11:00 a.m. (New York time) on each Applicable Index Determination Date, but in no event later than 11:00 a.m. (New York time) on the Business Day immediately following each Applicable Index Determination Date, the Note Calculation Agent will cause notice of the Issuance Interest Rates for the next Interest Accrual Period and the Issuance Interest Amounts (rounded to the nearest cent, with half a cent being rounded upward) on the Related Payment Date to be communicated to the Issuer, the Trustee, the Issuing and Paying Agent, the custodian, Euroclear, Clearstream and the paying agents. The Note Calculation Agent will also specify to the Issuer the quotations upon which the Issuance Interest Rates and the Issuance Interest Amounts, together with their reasons therefor.

"Obligation": A Reference Obligation, a Collateral Security or an Eligible Investment, as the case may be.

"Optional Redemption Date": Any Payment Date specified for an Optional Redemption in Whole.

"Optional Redemption Reimbursement Amount": With respect to any Reversible Loss Series, the aggregate of the following amounts:

(a) the ICE Currency Adjusted Aggregate Outstanding Amount Differential with respect to such Series; and...
Footnote Exhibits - Page 4982

(a) the ICE Currency Adjusted Reimbursable Interest Amount with respect to such Series.

"Original Principal Amount": For each Reference Obligation, the outstanding principal balance of such Reference Obligation as of the issuance date of such Reference Obligation, as recorded in the Reference Obligation Registry.

"Originating Noteholder": With respect to (i) any Collateral Security Substitution Request Notice, the Noteholder(s) submitting such Collateral Security Substitution Request Notice and (ii) any Noteholder Communication Notice, the Noteholder(s) submitting such Noteholder Communication Notice.

"Outstanding": With respect to the principal amount of any Note of any Class, as of any time of determination, the principal amount of such Note after giving effect to (i) each reduction (if any) in the principal amount of such Note as described in "Summary—Notes—Decrease in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes", (ii) each increase (if any) in the principal amount of such Note as described in "Summary—Notes—Increase in the Aggregate USD Equivalent Outstanding Amount of each Class of Notes", (iii) each payment (if any) of the principal amount of such Note and (iv) any additional Notes of such Class issued pursuant to the Indenture, in each case prior to such time of determination, except:

(a) Notes theretofore cancelled by the Note Registrar or the Issuer Note Registrar, as applicable or delivered to the Note Registrar or the Issuer Note Registrar, as applicable, for cancellation;

(b) Notes or, in each case, portions thereof for whose payment or redemption funds in the necessary amount have been theretofore irrevocably deposited with the Trustee or any Paying Agent in trust for the Holders of such Notes, provided that if such Notes or portions thereof are to be redeemed, notice of such redemption has been duly given pursuant to the Indenture or the Issuing and Paying Agency Agreement, as applicable or provision therefor satisfactory to the Trustee or the Issuing and Paying Agent, as applicable, has been made;

(c) Notes in exchange for or in lieu of which other Notes have been authenticated and delivered pursuant to the Indenture or the Issuing and Paying Agency Agreement, as applicable, unless proof satisfactory to the Trustee or the Issuing and Paying Agent, as applicable, is presented that any such original Notes are held by a holder in due course;

(d) Notes alleged to have been mutilated, destroyed, lost or stolen for which replacement Notes have been issued as provided in the Indenture;

(e) In determining whether the Holders of the requisite Aggregate USD Equivalent Outstanding Amount have given any request, demand, authorization, direction, notice, consent or waiver hereunder, Notes owned by the Issuer or the Co-Issuer shall be disregarded and deemed not to be Outstanding, except that in determining whether the Trustee or Issuing and Paying Agent, as applicable, shall be protected in relying upon any such request, demand, authorization, direction, notice, consent or waiver, only notes that a Trust Officer of the Trustee or the Issuing and Paying Agent, as applicable, knows to be so owned shall be so disregarded;

(f) for the avoidance of doubt, any Notes held by, or with respect to which discretionary voting rights are held by, the Initial Purchaser and/or its Affiliates or its respective employees will have voting rights with respect to all matters as to which the Holders of Notes are entitled to vote;
Footnote Exhibits - Page 4983

(g) for the avoidance of doubt, any Notes held by, or with respect to which discretionary voting rights are held by, the Portfolio Selection Agent and/or its Affiliates or by any account or fund for which the Portfolio Selection Agent or any Affiliate has discretionary authority will have voting rights with respect to all matters as to which the Holders of Notes are entitled to vote, and

(h) Notes so owned that have been pledged in good faith may be regarded as Outstanding if the pledgee establishes to the satisfaction of the Trustee or the Issuer and the Portfolio Selection Agent that the pledgee has the right so to act with respect to such Notes and the pledgee is not the Issuer, the Co-Issuer or any other obligor upon the Notes or any Affiliate of the Issuer, the Co-Issuer or such other obligor.

"Part Passu Amount": For each Reference Obligation, as of any date of determination, the aggregate of the Reference Obligation Outstanding Principal Amount of such Reference Obligation and the aggregate outstanding principal balance of all obligations of the related Reference Entity secured by the Underlying Assets and ranking pari passu in priority with such Reference Obligation.

"Partial Optional Redemption Date": Any Payment Date specified for a Partial Optional Redemption.

"Payment Date": The 28th of each month or if such day is not a Business Day, the next succeeding Business Day, commencing May 29, 2007 and ending on the Stated Maturity.

"Payment Default": Any Event of Default specified in subclauses (i), (ii), (iv) or (v) of the definition of such term.

"Person": An individual, corporation (including a business trust), partnership, limited liability company, joint venture, association, joint stock company, trust (including any beneficiary thereof), bank, unincorporated association or government or any agency or political subdivision thereof or any other entity of a similar nature.

"Portfolio Selection Agreement": An agreement dated as of the Closing Date, between the Issuer and the Portfolio Selection Agent relating to the Portfolio Selection Agent's performance on behalf of the Issuer of certain investment management duties with respect to the Reference Portfolio, as amended from time to time in accordance with its terms and the terms of the indenture.

"Pledged Collateral": Any collateral posted by the Collateral Pledging Agent to the Issuer pursuant to the Credit Support Annex, if any.

"Previous Period Implied Writedown Amount": For each Reference Obligation, with respect to any Reference Obligation Calculation Period, the Current Period Implied Writedown Amount, as determined in relation to the last day of the immediately preceding Reference Obligation Calculation Period.

"Principal Amount": With respect to any Reference Obligation, the occurrence of a payment of an amount to the Holders of the Reference Obligation in respect of principal (scheduled or unscheduled) in respect of the Reference Obligation and not paid in respect of principal representing capitalized interest that relates to the term of the Credit Default Swap, excluding, for the avoidance of doubt, any Writedown Reimbursement.

"Principal Payment Amount": With respect to any Reference Obligation and in connection with a Principal Payment on such Reference Obligation, an amount equal to the product of (i) the amount of any such Principal Payment on such date, (ii) the Applicable Percentage and (iii) if such Reference Obligation is not denominated in Dollars, the applicable Notional Foreign Exchange Rate.
"Principal Proceeds": Without duplication (in each case for so long as it has not been previously applied):

(i) Disposition Proceeds;

(ii) all payments of principal (including optional or mandatory redemptions or prepayments) received on the Collateral;

(iii) all proceeds received from any additional issuance of Notes pursuant to the indenture not previously invested in Collateral Securities;

(iv) any termination payments paid to the Issuer under the Credit Default Swap and the Basis Swap;

(v) any Currency Adjusted Reinstatement Adjustment Amount paid to the Issuer by the Protection Seller (including from amounts available in the CDS Issuer Account (but not including amounts on deposit in the CDS Issuer Fixed Payment Subaccount));

(vi) any Optional Redemption Reimbursement Payment paid to the Issuer by the Protection Buyer (including from amounts available in the CDS Issuer Account (but not including amounts on deposit in the CDS Issuer Fixed Payment Subaccount));

(vii) any Approved Currency Collateral Payment paid to the Issuer by the Protection Seller;

(viii) any Redemption Waived Takedown Payment paid to the Issuer by the Protection Buyer (including from amounts available in the CDS Issuer Account (but not including amounts on deposit in the CDS Issuer Fixed Payment Subaccount)); and

(ix) all payments of principal on Eligible Investments purchased with the proceeds of any of items (i) through (viii) of this definition (without duplication) and not applied during the related Due Period;

provided, that, prior to an event of default, as such term is defined under the Collateral Put Agreement, any payment received by the Issuer under the Posted Collateral shall not constitute Principal Proceeds and such amounts shall be deposited in the Collateral Put Provider Account and be treated in accordance with the Credit Support Annex, if any.

"Principal Shortfall Amount": With respect to any Reference Obligation that suffered a Failure to Pay Principal Credit Event, the greater of (i) zero and (ii) the amount equal to the product of (A) the Expected Principal Amount for such Reference Obligation minus the Actual Principal Amount for such Reference Obligation, (B) the Applicable Percentage and (C) if such Reference Obligation is not denominated in Dollars, the applicable Notional Foreign Exchange Rate.

"Principal Shortfall Reimbursement": With respect to any day and any Reference Obligation, the payment by or on behalf of the related Reference Entity of an amount in respect of the Reference Obligation in or toward the satisfaction of any deferral of or failure to pay principal arising from one or more prior occurrences of a Failure to Pay Principal with respect to such Reference Obligation.

"Principal Shortfall Reimbursement Amount": With respect to any day and any Reference Obligation, the product of (i) the amount of any Principal Shortfall Reimbursement related to such Reference Obligation on such day and (ii) the related Applicable Percentage.

"Proceeds": (i) Any property (including but not limited to cash and securities) received as a Distribution on the Issuer Assets or any portion thereof, (ii) any property (including but not limited to cash

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001919205
Footnote Exhibits - Page 4985

and securities) received in connection with the sale, liquidation, exchange or other disposition of the
Issuer Assets or any portion thereof, and (ii) all proceeds (as such term is defined in the UCC) of the
Issuer Assets or any portion thereof.

"Proposed New BIE Collateral Security": The Proposed New BIE Collateral Securities set forth
in the related Collateral Security Substitution Request Notice.

"Protection Buyer Credit Support Document": The meaning assigned to the term "Credit
Support Document" in the Credit Default Swap and initially, the Guaranty dated as of the Closing Date by
QS Group in favor of the Issuer as beneficiary thereof with respect to the obligations of the Protection
Buyer under the Credit Default Swap.

"Protection Buyer Credit Support Provider": The meaning assigned to the term "Credit
Support Provider" in the Credit Default Swap and initially, QS Group.

"Protection Buyer Default Termination Payment": Any Credit Default Swap Termination
Payment required to be made by the Issuer to the Protection Buyer pursuant to the Credit Default Swap
(i) in the event of a termination of the Credit Default Swap in respect of which the Protection Buyer is the
defaulting party or (ii) in which the Protection Buyer was the sole "Affected Party" (as such term is defined
in the Credit Default Swap) (other than in connection with a "Tax Event" or "Negligence", in each case as
defined in the Credit Default Swap).

"Protection Buyer Notes": Notes acquired by the Protection Buyer and/or one or more Affiliates
thereof.

"Publicly Available Information": Any information that reasonably confirms any of the facts
relevant to the determination that the Credit Event described in a Credit Event Notice has occurred and
which (a) has been published in not less than two internationally recognized published or electronically
displayed news sources (it being understood that each of Bloomberg Service, Dow Jones Teletrate
Times, Nikkei Keizai Shinbun, Asahi Shinbun, Yomiuri Shinbun, Financial Times, La Tribune, Les Echos
or The Australian Financial Review (or successor publications) shall be deemed to be an internationally
recognized published or electronically displayed news source) provided that if either of the parties to the
Credit Default Swap or any of their respective Affiliates is cited as the sole source of such information,
then such information shall not be deemed to be Publicly Available Information unless such party or its
Affiliate is acting in its capacity as trustee, fiscal agent, administrative agent, clearing agent or paying
agent for a Reference Obligation, (b) is information received from (x) a Reference Entity, (y) a trustee,
fiscal agent, administrative agent, clearing agent or paying agent for a Reference Obligation or a Person
which was a party to the offering or distribution of the related Reference Obligation or is a party to any
agreement relating to the related Reference Obligation, in each case other than the Protection Buyer or
any of its Affiliates, (c) a master servicer, a primary servicer, a special servicer or the servicer (or any
successor servicer) or any other person acting in a similar capacity for a Reference Obligation, (d)
Moody’s, S&P or Fitch or any successor thereto, in each case generally made available to the public, (e)
Trepp, LLC, Conquest®, Intex Solutions, Inc., Realpoint®, Wall Street Analytics or any of their respective
successors and assigns or (f) any internationally recognized stock exchange on which the related
Reference Obligation is listed, (g) is information contained in any petition or filings instituting a proceeding
seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency
law or other similar law affecting creditors’ rights against or by a Reference Entity or a petition is
presented for the winding-up or liquidation of a Reference Entity, (h) is information contained in any
order, decree or notice, however described, of a court, tribunal or regulatory authority or a governmental
administrative or judicial body, (i) is information published in Asset-Backed Alert, International
Securitization and Structured Finance Report, BondWeek, Derivatives Week, Asset Securitization Report,
Securitization News, Commercial Mortgage Alert, Creditflux, Euromoney or International Financing
Review (or successor publications) or (ii) subject to the confirmation of the Rating Agencies, is

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918206
Footnote Exhibits - Page 4986

information contained in a certificate of the Credit Default Swap Calculation Agent signed by a Managing Director or other equivalently senior officer of the Credit Default Swap Calculation Agent specifically authorized to provide such certification.

In relation to any information of the type described in (i), (ii), (iv) or (v), the party receiving such information may assume that such information has been disclosed to it without violating any law, agreement or understanding regarding the confidentiality of such information and that the party delivering such information has not taken any action or entered into any agreement or understanding with the Reference Entity or any affiliate thereof that would be breached by, or would prevent, the disclosure of such information to third parties.

"Purchase Agreement": The purchase agreement, dated as of April 10, 2007, among the Issuers and the Initial Purchaser.

"Put Excluded Collateral": As of any time of determination, collectively, (i) demand and time deposits that are Eligible Investments as described in clauses (b) of the definition thereof, (ii) Cash, (iii) any Collateral acquired with Excess Disposition Proceeds and/or (iv) any other Eligible Investments subject to satisfaction of the S&P Rating Condition and the Moody's Rating Condition, in each case, as of such date.

"Put Proceeds": All amounts received by the Issuer from the Collateral Put Provider in accordance with the Collateral Put Agreement.

"Qualified Institutional Buyer": Any Person that, at the time of its acquisition, purported acquisition or proposed acquisition of the Notes, is a qualified institutional buyer as defined in Rule 144A.

"Qualified Purchaser": Any Person that, at the time of its acquisition, purported acquisition or proposed acquisition of the Notes, is a qualified purchaser for purposes of Section 3(c)(7) of the Investment Company Act.

"Rating Agencies": S&P and Moody's, each a "Rating Agency" or, with respect to the Issuer Assets generally, if at any time S&P or Moody's ceases to provide rating services generally, any other nationally recognized statistical rating agency selected by the Issuer and reasonably satisfactory to a Majority of the Aggregate USD Equivalent Outstanding Amount of the Notes voting as a single class. In the event that at any time the Rating Agencies do not include S&P or Moody's, references to rating categories of S&P or Moody's in the Indenture shall be deemed instead to be references to the equivalent categories of such other rating agency as of the next recent date on which such other rating agency and S&P or Moody's published ratings for the type of security in respect of which such alternative rating agency is used. References to Rating Agencies with respect to any Class of Notes issuable on the Closing Date shall apply only to Rating Agencies that assigned a rating (public or confidential) to such Class of the Notes on the Closing Date. Reference to Rating Agencies with respect to Classes of Notes that are not issued on the Closing Date shall apply only to any nationally recognized statistical rating agency selected by the Issuer that rates such Classes of Notes, as the case may be, upon any issuance of such Notes.

"Redemption Refund Adjustment Amount": With respect to each Class of Notes on a Mandatory Redemption Date caused by a termination of the Credit Default Swap as a result of a default by the Protection Buyer, a termination of the Collateral Put Agreement as a result of a default by the Collateral Put Provider or a termination of the Basis Swap as a result of a default by the Basis Swap Counterparty or a Stated Maturity of any Series of such Class, the product of (i) the Unpaid Redemption Refund Adjustment Amount related to such Class and (ii) the related Note Scaling Factor immediately prior to such determination; provided that, for the avoidance of doubt, with respect to a Class with more than one Series Outstanding at such time of determination, any pro rata allocations of any Redemption Refund Adjustment Amount will be based on the Aggregate USD Equivalent Outstanding Amount of each applicable Series of such Class, as expressed in Dollars.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918207
Footnote Exhibits - Page 4987

"Reference Entity": The issuer of a Reference Obligation as set forth in the Reference Obligation Registry and, as determined by the Credit Default Swap Calculation Agent, any entity that succeeds to the obligations of such Reference Entity relating to such Reference Obligation.

"Reference Obligation": Each obligation listed as such in the Reference Obligation Registry on the Closing Date.

"Reference Obligation Amortization Amount": With respect to the redemption or amortization in whole or in part, of a Reference Obligation, the sum of (i) any Principal Payment Amounts and (ii) Reference Obligation Repayment Amounts on such date.

"Reference Obligation Calculation Period": For each Reference Obligation, with respect to each Reference Obligation Payment Date for such Reference Obligation, a period corresponding to the interest accrual period relating to such Reference Obligation Payment Date pursuant to the Underlying Instruments.

"Reference Obligation Notional Amount": Initially, with respect to any Reference Obligation, the initial Reference Obligation Notional Amount, and that in each case will be:

(i) decreased on each day on which a Principal Payment is determined by the Credit Default Swap Calculation Agent, by the relevant Principal Payment Amount;

(ii) decreased on the day, if any, on which a Failure to Pay Principal is determined by the Credit Default Swap Calculation Agent, by the relevant Principal Shortfall Amount;

(iii) decreased on each day on which a Writeoff is determined by the Credit Default Swap Calculation Agent, by the relevant Writeoff Amount; and

(iv) increased on each day on which a Writeoff Reimbursement is determined by the Credit Default Swap Calculation Agent, by any Writeoff Reimbursement Amount in respect of a Writeoff Reimbursement within paragraphs (i) or (ii) of the definition of "Writeoff Reimbursement";

provided that if the Reference Obligation Notional Amount would be less than zero, it shall be deemed to be zero.

For the avoidance of doubt, the Reference Obligation Notional Amount shall not be increased by any deferral or capitalization of interest that relates to the term of the Credit Default Swap or decreased by payment of any portion of the principal balance of the Reference Obligation that is attributable to the deferral or capitalization of interest during the term of the Credit Default Swap.

"Reference Obligation Outstanding Principal Amount": As of any date of determination with respect to any Reference Obligation, the outstanding principal balance of the Reference Obligation as of such date, which shall take into account:

(i) all payments of principal;

(ii) all writeoffs or applied losses (however described in the related Underlying Instruments resulting in a reduction in the outstanding principal balance of such Reference Obligation (other than as a result of a scheduled or unscheduled payment of principal);

Confidential Treatment Requested by Goldman Sachs  GS MBS-E-001918208
Footnote Exhibits - Page 4988

(8) forgiveness of any amount by the holders of such Reference Obligation pursuant to an amendment to the related Underlying Instruments resulting in a reduction in the outstanding principal balance of such Reference Obligation;

(9) any payments reducing the amount of any reductions described in (8) and (9) of this definition;

(10) any increase in the outstanding principal balance of such Reference Obligation that reflects a reversal of any prior reductions described in (8) and (9) of this definition; and

(11) any increase in the outstanding principal balance of the Reference Obligation that is attributable to the deferral or capitalization of interest prior to the Closing Date.

For the avoidance of doubt, the Reference Obligation Outstanding Principal Amount shall not include any portion of the outstanding principal balance of the Reference Obligation that is attributable to the deferral or capitalization of interest during the term of the Credit Default Swap.

"Reference Obligation Payment Date": For each Reference Obligation, each scheduled distribution date for such Reference Obligation occurring on or after the Closing Date.

"Reference Obligation Registry": A registry, maintained by the Credit Default Swap Calculation Agent in accordance with the Credit Default Swap, that records, among other things, the identity of each Reference Obligation, the related Reference Entity, the Reference Obligation Total Amount and certain other related information, which registry will be updated by the Credit Default Swap Calculation Agent to reflect any applicable changes.

"Reference Obligation Reimbursement": A Principal Shortfall Reimbursement or Wadetown Reimbursement.

"Reference Obligation Reimbursement Amount": A Principal Shortfall Reimbursement Amount or a Wadetown Reimbursement Amount.

"Reference Obligation Repayment Amount": With respect to a Reference Obligation, an amount equal to the sum of all Wadetown Reimbursement Amounts related to such Reference Obligation on the day with respect to one or more Wadetown Reimbursements pursuant to clause (6) of the definition of Wadetown Reimbursement and/or Principal Shortfall Reimbursements related to such Reference Obligation on that day.

"Reference Portfolio Total Amount": At any time of calculation, the aggregate Reference Obligation Total Amount of all Reference Obligations at such time.

"Registered": A debt obligation that is issued after July 16, 1994 and that is in registered form within the meaning of Section 881(c)(2)(B)(ii) of the Code and the Treasury regulations promulgated thereunder.

"Regulation S" or "Reg S": Regulation S under the Securities Act.

"Regulation S Global Notes": One or more global notes for each Class of Notes in fully registered form without interest coupons sold in reliance on the exemption from registration under Regulation S.

"REIT": A real estate investment trust.
"REIT Debt Security": A security issued by publicly held real estate investment trusts (as defined in Section 656 of the Code or any successor provision).

"Replacement Counterparty Rating": With respect to a counterparty or entity guaranteeing the obligations of such counterparty, (i) a long-term senior, unsecured debt obligation rating, financial program rating or other similar rating (as the case may be, the "long-term rating") of at least "Aa3" by Moody's and (ii) a long-term rating of at least "AA" by S&P.

"Required Basis Swap Counterparty Rating": With respect to the Basis Swap Counterparty or any Basis Swap Counterparty Credit Support Provider, (a) if the Basis Swap Counterparty or Basis Swap Counterparty Credit Support Provider has a long-term rating by Moody's, a long-term senior, unsecured debt obligation rating, financial program rating or other similar rating (as the case may be, the "long-term rating") of at least "Aa3" by Moody's and if rated "Aa3" by Moody's is not on negative credit watch by Moody's and (b) if the Basis Swap Counterparty or Basis Swap Counterparty Credit Support Provider has a long-term rating by S&P, a long-term rating of at least "AA" by S&P.

"Residential Mortgage-Backed Securities" or "RMBS": Securities that represent interests in, or enable holders thereof to receive payments that depend on the cashflow property from credit default swaps that reference, in each case, pools of residential mortgage loans secured by one- to four-family residential mortgage loans and shall include, without limitation, RMBS Residential A Mortgage Securities, RMBS Residential B/C Mortgage Securities, RMBS Home Equity Loan Securities or RMBS Agency Securities, exclusive, in each case, any securities that belong to an Excluded Specified Type; provided that any RMBS whose underlying collateral does not consist of 20.0% or more of subordinate lens at the time of its issuance shall be deemed to be any of the aforementioned types of RMBS as determined by the Protection Buyer in accordance with common market practice.

"Reversible Loss Series": A Series of Notes for which, at such time of determination, following the occurrence of one or more Valuation and/or Reference Obligations that have not subsequently been removed from the Reference Portfolio, the Aggregate USD Equivalent Outstanding Amount of such Series is less than the ICE Aggregate USD Equivalent Outstanding Amount of such Series, provided that, for the avoidance of doubt, the determination of whether any Notes of any Series is a Reversible Loss Series will be made at the time of election to redeem such Series in connection with a Partial Optional Redemption and not at the time of issuance of such Series.

"RMBS Home Equity Loan Securities": Residential Mortgage-Backed Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from balances (including revolving balances) outstanding under lines of credit secured by a first and/or subordinate lien on residential real estate (single or multi-family properties), the proceeds of which lines of credit are not used to purchase such real estate or to purchase or construct dwellings therein (or to refinance indebtedness previously so used), generally having the following characteristics:

(i) the balances have standardized payment terms and require minimum monthly payments;
(ii) the balances are obligations of numerous borrowers and accordingly represent a diversified pool of obligor credit risk;
(iii) the repayment of such balances may be based on a fixed scheduled payment or, alternatively, may not depend upon a contractual payment schedule, with early

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001910210
Footnote Exhibits - Page 4990

repayment depending primarily on interest rates, availability of credit against a maximum line of credit and general economic matters; and

(iv) the combined loan-to-value ratios are higher than customary in the primary mortgage markets;

provided that any RMBS whose underlying collateral consists of 20.0% or more of subordinate lien at the time of issuance shall be deemed to be an RMBS Home Equity Loan Security.

"RMBS Manufactured Housing Loan Securities": Residential Mortgage-Backed Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from manufactured housing (also known as mobile homes and prefabricated homes) installment sales contracts and installment loan agreements, generally having the following characteristics:

(i) the contracts and loan agreements have varying, but typically lengthy contractual maturities;

(ii) the contracts and loan agreements are secured by the manufactured homes and, in certain cases, by mortgages and/or deeds of trust on the real estate to which the manufactured homes are deemed permanently affixed;

(iii) the contracts and/or loans are obligations of a large number of obligors and accordingly represent a relatively diversified pool of obligor credit risk;

(iv) repayment thereof can vary substantially from the contractual payment schedule, with early prepayment of individual loans depending on numerous factors specific to the particular obligors and upon whether, in the case of loans bearing interest at a fixed rate, such loans or securities include an effective prepayment premium; and

(v) in some cases, obligations are fully or partially guaranteed by a governmental agency or instrumentality.

"RMBS Residential A Mortgage Securities": Residential Mortgage-Backed Securities (other than RMBS Residential B/C Mortgage Securities) that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from residential mortgage loans secured (on a first priority basis, subject to permitted liens, easements and other encumbrances) by residential real estate (single or multi-family properties) the proceeds of which are used to purchase real estate and purchase or construct dwellings therein (or to refinance indebtedness previously so used), generally having the following characteristics:

(i) the mortgage loans have generally been underwritten to the standards of the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation or the Government National Mortgage Association (without regard to the size of the loan);

(ii) the mortgage loans have standardized payment terms and require minimum monthly payments;

(iii) the mortgage loans are obligations of numerous borrowers and accordingly represent a diversified pool of obligor credit risk, and
the repayment of such mortgage loans is subject to a contractual payment schedule, with early repayment depending primarily on interest rates and the sale of the mortgaged real estate and related dwelling.

"RMBS Residential B/C Mortgage Securities": Residential Mortgage-Backed Securities (other than RMBS Residential A Mortgage Securities) that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities) on the cash flow from subprime residential mortgage loans secured (on a first priority basis, subject to permitted liens, easements and other encumbrances) by residential real estate (single- or multi-family properties) the proceeds of which are used to purchase real estate and purchase or construct dwellings therein (or to refinance indebtedness previously so used), generally having the following characteristics:

(i) the mortgage loans have generally not been underwritten to the standards of the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation or the Government National Mortgage Association (without regard to the size of the loans);

(ii) the mortgage loans have standardized payment terms and require minimum monthly payments;

(iii) the mortgage loans are obligations of numerous borrowers and accordingly represent a diversified pool of obligor credit risk; and

(iv) the repayment of such mortgage loans is subject to a contractual payment schedule, with early repayment depending primarily on interest rates and the sale of the mortgaged real estate and related dwelling.

"Rule 144A": Rule 144A under the Securities Act.

"Rule 144A Global Note": One or more global notes for each Class of Notes in fully registered form without interest coupons sold in reliance on exemption from registration under Rule 144A.

"S&P": Standard & Poor’s Ratings Services, a division of The McGraw-Hill Companies, Inc. or any successor to the ratings business thereof.

"S&P Rating": With respect to any Obligation, a rating determined as follows:

(1) If S&P has assigned a rating to such Obligation, whether publicly or privately, the S&P Rating shall be the rating assigned thereto by S&P, provided, however, that if the rating assigned to such Obligation by S&P is on the then-current credit rating watch list with negative implications, then the rating of such Obligation will be one subcategory below the rating then assigned to such Obligation by S&P and if the rating assigned to such Obligation by S&P is on the then-current credit rating watch list with positive implications, then the rating of such Obligation will be one subcategory above the rating then assigned to such Obligation by S&P;

(2) If such Obligation is not rated by S&P (other than an RMBS Agency Security), then an application may be made to S&P for a confidential credit estimate, which shall be the S&P Rating of such Obligation; provided that pending receipt from S&P of such estimate, such Obligation shall have an S&P Rating of "CCC" if the Issuer believes that such estimate will be at least "CCC"; or

(3) If such Obligation is not rated by S&P and no application has been made to obtain an S&P Rating for such Obligation pursuant to subclause (2) above, then
the S&P Rating of such Obligation may be implied only by reference to the chart
set forth below so long as such referenced rating is a publicly monitored rating;
provided that if such Obligation is not rated by S&P, and the Issuer does not
obtain an S&P Rating for such Obligation pursuant to this subclause (c) then no
more than 20% of the Initial Reference Portfolio Notional Amount on the
aggregate principal amount of Collateral Securities, as the case may be, may
imply an S&P Rating pursuant to this subclause (ix)(ii).

Asset classes are eligible for notching if they are not first loss tranches or
combination securities. If an Obligation is publicly rated by two agencies, which
down as shown below will be based on the lowest rating. If publicly rated only by
one agency, then notch down what is shown below depending on the additional notch
based on the public rating.

The information contained in the table above has been provided to the Issuer by S&P and the asset classes and related capitalized terms have the meanings ascribed therein by S&P.

"S&P Rating Condition": With respect to any proposed action to be taken under the Indenture or any other document contemplated by the Indenture, a condition that is satisfied when S&P has confirmed in writing to the Issuer and/or the Trustee that an immediate withdrawal or reduction with respect to any then-current rating by S&P of any Class of Notes will not occur as a result of such proposed action.

"Sale Proceeds": All amounts representing (i) proceeds from the sale or other disposition (other than Put Proceeds) of any Collateral, excluding any Collateral Interest Amount and (ii) any proceeds from liquidating posted Collateral after an event of default, as such term is defined under the Collateral Put Agreement, has occurred and is continuing under the Collateral Put Agreement (but not to exceed the amount of the Collateral Put Provider's obligations owed to the Issuer).

"Secured Parties": (i) The Trustee, (ii) the Noteholders, (iii) the Issuing and Paying Agent (iv) the Protection Buyer, (v) the Basis Swap Counterparty, (vi) the Collateral Put Provider and (vii) the Portfolio Selection Agent.

Confidential Treatment Requested by Goldman Sachs  GS MBS-E-001918214
Footnote Exhibits - Page 4994

"Securities Act": The U.S. Securities Act of 1933, as amended.

"Securities Intermediary": The meaning specified in Section 8-102(a)(14) of the UCC.

"Senior Amount": For any Reference Obligation, as of any date of determination, the aggregate outstanding principal balance of all obligations of the related Reference Entity secured by the related Underlying Assets and ranking senior in priority to such Reference Obligation.

"Series": All of the Notes of a Class issued (i) in the same Approved Currency, (ii) on the same date of issuance, (iii) with the same Series Interest Rate, (iv) with the same date from which interest will accrue, (v) with the same Non-Call Period, and (vi) with the same Stated Maturity.

"Series Interest Amount": With respect to any Series of Notes, as to each Interest Accrual Period, the amount of interest for such Interest Accrual Period payable in respect of each $1,000, $10,000, $1,000,000, $5,000,000 or $50,000,000 principal amount of such Series of Notes.

"Series Interest Amounts": Collectively, the Series Interest Amount for each Class of Notes.

"Series Interest Rate": With respect to any Series of Notes of any Class, the annual rate at which interest accrues on such Series of Notes, as specified, with respect to Notes issued on the Closing Date, in "Summary—Notes" and on the related Notes, and with respect to any Series of Notes of any Class issued after the Closing Date, at the applicable rate specified in the related offering circular supplement and on the related Notes.

"Series Interest Rates": Collectively, the Series Interest Rate for each Class of Notes.

"Servicer": For each Reference Obligation, any trustee, servicer, sub servicer, master servicer, fiscal agent, paying agent or other similar entity responsible for calculating payment amounts or providing reports pursuant to the related Underlying Instruments.

"Servicer Reports": For each Reference Obligation, periodic statements or reports regarding such Reference Obligation provided by the related Servicer to holders of such Reference Obligation.

"Share Trustee": The Administrator as the trustee pursuant to the terms of a charitable trust.

"Spot FX Rate": A rate of exchange determined on any measurement date by the Credit Default Swap Calculation Agent as the prevailing rate of exchange (expressed as a number rounded to four decimal places) of Australian Dollars, Canadian Dollars, Euro, New Zealand Dollars, Sterling, Yen or other Approved Currencies, as the case may be, for Dollars at such time.

"Stated Maturity": With respect to any security or debt obligation, including a Note, the date specified in such security or debt obligation as the fixed date on which the final payment of principal of such security or debt obligation is due and payable or, if such date is not a Business Day, the next following Business Day. The Stated Maturity of the Notes issued on the Closing Date is March 1, 2038.

"Sterling" or "£": The lawful currency of the United Kingdom.

"Structured Corporate Security": A security that represents the debt of a corporate obligor through the creation of a trust and the pledge of specific corporate assets.

"Structured Finance Security": Any security that is an asset-backed security, mortgage-backed security, enhanced equipment trust certificate, collateralized debt obligation, collateralized bond obligation, collateralized loan obligation or similar instrument.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918215
"Structured Product Security": Any of the following types of securities: ABS Future Flow Securities not classified as an Excluded Specified Type in accordance with the definition thereof, CDO Cashflow Securities, RMBS, CMBS, Wrapped Securities, RMBS, CDO, or Asset-Backed Securities.

"Synthetic CDO Security": Securities that entitle the holders thereof to receive payments that depend (except for rights or other assets designed to assure the servicing of timely distribution of proceeds to holders of such Securities) on the cash flow from (and not the market value of) a portfolio of primarily credit default swaps and, if applicable, related securities.

"TARGET Settlement Day": Any day on which the TARGET System is open.

"TARGET System": The Trans-European Automated Real-Time Gross SettlementExpress Transfer System or any successor thereto.

"Trustee": LaSalle Bank National Association, solely in its capacity as Trustee for the Noteholders, unless a successor Person shall have become the Trustee pursuant to the applicable provisions of the Indenture, and thereafter "Trustee" shall mean such successor Person.

"Trustee Noteholder Communication Notice": A notice from the Trustee to the Noteholders that includes the contents of a Noteholder Communication Notice that an Originating Noteholder has requested to be communicated to all other Noteholders; provided that the Trustee will not under any circumstances be required to include the identity of such Originating Noteholder in the related Trustee Noteholder Communication Notice.

"U.S. Person": The meaning specified under Regulation S.

"U.S. Resident": The meaning specified under the Investment Company Act.

"Underlying Assets": For each Reference Obligation, the assets securing such Reference Obligation for the benefit of the holders of such Reference Obligation and which are expected to generate the cashflows required for the servicing and repayment (in whole or in part) of such Reference Obligation, or the assets to which a holder of such Reference Obligation is economically exposed where such exposure is created synthetically.

"Underlying Instruments": The indenture and any credit agreement, assignment agreement, participation agreement, pooling and servicing agreement, trust agreement, instrument or other agreement, document, or arrangement that governs the terms of or secures such Obligation or of which holders of such Obligation are the beneficiaries, and any instrument evidencing or evidencing such Obligation.

"Unearned Redeemalion Refund Adjustment Amount": With respect to the Class Note, the Class Note Amount of such Class of Notes on a Mandatory Redemption Date caused by a termination of the Credit Default Swap as a result of a default by the Protection Seller, a termination of the Collateral Put Agreement as a result of a default by the Collateral Put Provider or a termination of the Basis Swap as a result of a default by the Basis Swap Counterparty or a Stated Maturity of any Series of such Class, the lesser of (i) the applicable Maximum Redeemalion Refund Amount determined on such date less the sum of the ICE Class Note Amount Differentials for the Classes of Notes that are senior to such Class immediately prior to such determination and (b) the ICE Class Note Amount Differential of such Class immediately prior to such determination.

"USD Equivalent": An amount expressed in Dollars which is equal to (i) with respect to any Notes, the quotient of (a) the Currency Adjusted Aggregate Outstanding Amount of such Notes divided by (b) the Applicable Series Foreign Exchange Rate and (ii) with respect to any Collateral Securities, the
Footnote Exhibits - Page 4996

quotient of (a) the principal amount of such Collateral Security as expressed in its Approved Currency of denomination divided by (b) the Applicable Collateral Security Foreign Exchange Rate.

"Weighted Average Life": As of any measurement date, the number obtained by the Credit Default Swap Calculation Agent and confirmed by the Collateral Administrator with respect to the Collateral by (i) for each Collateral Security and each Eligible Investment, multiplying the USD Equivalent of each scheduled principal payment by the number of years (rounded to the nearest hundredth) from such measurement date until such scheduled principal payment is due; (ii) summing all of the products calculated pursuant to subclause (i); and (iii) dividing the sum calculated pursuant to subclause (i) by the sum of the USD Equivalent of all scheduled principal payments due on all the Collateral Securities and Eligible Investments as of such measurement date; provided that for purposes of determining the Weighted Average Life of the Collateral, the number calculated under clause (i) with respect to Eligible Investments shall equal zero.

"Wrapped Securities": Securities other than RMBS Agency Securities that (i) have the benefit of a financial guarantee insurance policy or surety bond provided by a monoline or multi-line insurer and (ii) are rated "AAA" by S&P or "Aaa" by Moody's, which ratings may take into consideration such financial guarantee insurance policy or surety bond.

"Writedown Amount": On any day, with respect to any Reference Obligation that suffered a Writedown Credit Event, the product of (i) the amount of such Writedown with respect to such Reference Obligation on such day, (ii) the Applicable Percentage with respect to such Reference Obligation and (iii) if such Reference Obligation is not denominated in Dollars, the applicable Notional Foreign Exchange Rate.

"Writedown Reimbursement": For any Reference Obligation, at any time on or after the Closing Date, the occurrence of:

(i) a payment by or on behalf of the related Reference Entity of an amount in respect of the Reference Obligation in reduction of any prior Writedowns;

(ii) (A) an increase by or on behalf of the related Reference Entity of the Reference Obligation Outstanding Principal Amount to reflect the reversal of any prior Writedowns or (B) a decrease in the principal deficiency balance or realized loss amounts (however described in the Underlying Instruments) attributable to the Reference Obligation; or

(iii) if the Underlying Instruments do not provide for writedowns, applied losses, principal deficiencies or realized losses as described in (ii) above to occur in respect of the Reference Obligation, an implied Writedown Reimbursement Amount being determined in respect of the Reference Obligation by the Credit Default Swap Calculation Agent.

"Writedown Reimbursement Amount": For any Reference Obligation, an amount equal to the product of (i) the sum of all Writedown Reimbursements related to such Reference Obligation on that day, (ii) the Applicable Percentage with respect to such Reference Obligation and (iii) if such Reference Obligation is not denominated in Dollars, the applicable Notional Foreign Exchange Rate.

"Yen": The lawful currency of Japan.

U.S.$17,500,000 Class E Floating Rate Notes, Due 2021  
U.S.$40,600,000 Subordinated Securities, Due 2021

Secured (With Respect to the Secured Notes) Primarily by a Portfolio of Loans that are Senior Secured Loans

The Securities are being offered hereby by Goldman, Sachs & Co. (the "Firm/Purchaser") in the United States to Qualified Institutional Buyers in reliance on Rule 144A under another exemption under the Securities Act and, solely in the case of the Subordinated Securities, to Accredited Investors in transactions exempt from registration under the Securities Act. In addition to the offering of such Securities by Goldman, Sachs & Co. in the United States, Goldman, Sachs & Co., acting through its agents, is concurrently offering the Securities outside the United States to non-U.S. Persons in offshore transactions in reliance on Regulation S under the Securities Act.

See "Risk Factors" beginning on page 1 to read about factors you should consider before buying any Security.

There is no established trading market for the Securities. Application has been made to the U.S. Financial Services Regulatory Authority, as competent authority under Directive 2003/71/EC, for the Offering Circular (the "Offering Circular") to be approved. Application has been made to the Irish Stock Exchange for the Securities to be admitted to the Official List and to trading on its regulated market. Such approval relates only to Securities which are to be admitted to trading on the regulated market of the Irish Stock Exchange or other regulated markets for the purposes of Directive 85/282/EC or which are to be offered to the public in any Member State of the European Economic Area. This document is considered an advertisement for purposes of applicable measures implementing E.U. Directive 2003/71/EC. Upon listing on the Irish Stock Exchange being granted, a "prospectus" prepared pursuant to the Prospectus Directive will be published, which can be obtained from the Issuer. There can be no assurance that such listing will be approved or maintained.

It is a condition of the issuance of the Securities that the Class A Notes and the Class A Notes be issued with a rating of "A2" by Moody’s Investors Service, Inc. ("Moody’s") and "AA" by Standard & Poor’s Ratings Services, a division of The McGraw-Hill Companies, Inc. ("S&P") that, the Class B Notes be issued with a rating of at least "A3" by Moody’s and at least "A" by S&P that the Class C Notes be issued with a rating of at least "B3" by Moody’s and at least "BB" by S&P that the Class D Notes be issued with a rating of at least "B1" by Moody’s and at least "BBB" by S&P and that the Class E Notes be issued with a rating of at least "B2" by Moody’s and at least "BB" by S&P. The Subordinated Securities will not be rated by any credit rating agency. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating agency. See "Rating of the Securities".

"Underwriting" for a description of the terms and conditions of the purchase of the Securities by the Initial Purchasers.

The Securities are offered by Goldman, Sachs & Co. and/or its agents, subject to their rights to reject any order in whole or in part. It is expected that the Global Securities will be ready for delivery in book-entry form only in New York, New York, or about January 16, 2007, through the facilities of DTCC, against payment therefor in immediately available funds. It is expected that delivery of the physical certificates representing the U.S. Subordinated Securities will be made in New York, New York on about January 16, 2007, against payment therefor in immediately available funds. The Securities will have the minimum denomination requirements set forth in "Summary—The Offering—Securities Issued by Goldman Sachs & Co.

The information contained in this Offering Circular has been provided by the issuers and other sources identified herein. No representation or warranty, express or implied, is made by the Initial Purchaser or the Collateral Manager (except with respect to the Collateral Manager only, the information set forth under the heading “The Collateral Manager”) as to the accuracy or completeness of such information, and nothing contained in this Offering Circular is, or shall be relied upon as, a promise or representation by the Initial Purchaser or the Collateral Manager (except with respect to the Collateral Manager only, the information set forth under the heading “The Collateral Manager”).

The issuers accept responsibility for the information contained in this Offering Circular (other than the information contained in this Offering Circular under the heading “The Collateral Manager”), for which information only the Collateral Manager accepts responsibility and, having made all reasonable inquiries, confirm that, to the best knowledge and belief of the issuers, the information contained in this Offering Circular is in accordance with the facts and does not omit anything likely to affect the import of such information. The issuers (and with respect to the information contained in this Offering Circular under the heading “The Collateral Manager” only, the Collateral Manager) take responsibility accordingly.

No person has been authorized to give any information or to make any representation other than those contained in this Offering Circular, and, if given or made, such information or representation must not be relied upon as having been authorized. This Offering Circular does not constitute an offer to sell or the solicitation of an offer to buy any securities other than the Securities.

The delivery of this Offering Circular at any time does not imply that the information herein is correct at any time subsequent to the date of this Offering Circular.

Each purchaser of the Securities must comply with all applicable laws and regulations in force in each jurisdiction in which it purchases, offers or sells such Securities or possesses or distributes this Offering Circular and must obtain any consent, approval or permission required for the purchase, offer or sale by it of such Securities under the laws and regulations in force in any jurisdictions to which it is subject or in which it makes such purchases, offers or sales, and none of the issuers, the Collateral Manager or the Initial Purchaser shall have any responsibility therefor. Persons into whose possession this Offering Circular comes are required by the issuers and the Initial Purchaser to inform themselves about and to observe such applicable laws and regulations. For a further description of certain restrictions on offering and sales of the Securities, see “Transfer Restrictions” and “Underwriting”. This Offering Circular does not constitute an offer of, or an invitation to purchase, any of the Securities in any jurisdiction in which such offer or invitation would be unlawful.

No invitation may be made to the public in the Cayman Islands to subscribe for the Securities and this document may not be issued or passed to any such person.

Notwithstanding anything to the contrary herein, except as necessary to comply with securities laws, each prospective investor (and each of their respective employers, representatives or other agents) may disclose to any and all persons, without limitation of any kind, the terms and conditions of such Securities, the U.S. tax treatment and tax structure of the transactions described herein and all materials of any kind (including opinions or other tax analyses) that are provided to them relating to such U.S. tax treatment and U.S. tax structure under applicable U.S. federal, state or local tax law. Any such disclosure of the tax treatment, tax structure and other tax-related materials shall not be made for the purpose of offering to sell the Securities offered hereby or soliciting an offer to purchase any such Securities.

Any purchaser of Secured Notes who is not a bank (as defined in Regulation U promulgated by the Board of Governors of the Federal Reserve System (“Regulation U”)) and is not required to register with the Federal Reserve will not be subject to any provisions of Regulation U as a result of an investment in the Secured Notes. Any purchaser of the Securities who is a bank or who is already registered with the Federal Reserve as a Regulation-U lender, generally must obtain from any person to whom it extends credit covered by Margin Stock (as such term is defined in Regulation U) a Federal Reserve Form L-1 (for bank lenders) or Form G-3 (for non-bank lenders). Each purchaser of Secured Notes will be responsible for its own compliance with Regulation U, including the filing by the purchaser of any required registration or annual

Footnote Exhibits - Page 5011

Footnote 940

Pursuant to Regulation U, Purchasers of Secured Notes should consult with their own legal advisors as to Regulation U and its application to them, including in relation to their investment in the Securities. Pursuants of Secured Notes not otherwise exempt from registering with the Federal Reserve will be deemed to have consented and agreed that if such purchaser is not registered with the Federal Reserve on or prior to the date of their purchase, such purchaser will, within the required time period, register with the Federal Reserve. Certain information regarding Margin Stock, if any, owned by the Issuer will be available through the Trustees upon written request by a Securityholder.

AVAILABLE INFORMATION

To permit compliance with the Securities Act in connection with the sale of the Securities in reliance on Rule 144A, the Issuer will be required under the Indenture to furnish upon request to a Holder or beneficial owner who is a Qualified Institutional Buyer of a Security sold in reliance on Rule 144A or a prospective Investor who is a Qualified Institutional Buyer designated by such Holder or beneficial owner the information required to be delivered under Rule 144A(d)(4) under the Securities Act if at the time of the request the Issuer is neither a reporting company under Section 13 or Section 15(d) of the United States Securities Exchange Act of 1934, as amended, nor exempt from reporting pursuant to Rule 12g-3-2(b) under the Exchange Act. Neither of the Issuers expects to become such a reporting company or to be so exempt from reporting.

In accordance with the Indenture, the Trustee also will make available for inspection by Holders of the Securities certain reports or communications received from the Issuers.

Prior to making an investment decision, prospective Investors should ensure that they have sufficient knowledge, experience and access to professional advice to make their own legal, tax, accounting and financial evaluation of the merits and risks of investment in the Securities and should carefully consider the nature of the Securities, the matters set forth elsewhere in this Offering Circular and the extent of their exposure to the risks described in "Risk Factors".

FORWARD LOOKING STATEMENTS

Any projections, forecasts and estimates contained herein are forward looking statements and are based upon certain reasonable assumptions. Projections are necessarily speculative in nature, and it can be expected that some or all of the assumptions underlying the projections will not materialize or will vary significantly from actual results. Accordingly, the projections are only an estimate. Actual results may vary from the projections, and the variations may be material. Consequently, the inclusion of projections herein should not be regarded as a representation by the Issuer, the Co-Issuer, the Collateral Manager, the Trustee, any Hedge Counterparty, the Collateral Administrator, the Initial Purchaser or any of their respective Affiliates or any other person or entity of the results that will actually be achieved by the Issuer. None of the Issuer, the Co-Issuer, the Trustee, the Collateral Administrator, the Collateral Manager, the Initial Purchaser, any Hedge Counterparty, and their respective Affiliates has any obligation to update or otherwise revise any projections, including any revisions to reflect changes in economic conditions or other circumstances arising after the date hereof or to reflect the occurrence of unanticipated events, even if the underlying assumptions do not come to fruition.
SUMMARY

The following summary is qualified in its entirety by the detailed information appearing elsewhere in this Offering Circular. For a discussion of certain factors to be considered in connection with an investment in the Securities, see "Risk Factors".

Capitalized terms used herein but not defined shall have the meanings set forth under "Glossary of Defined Terms".

The Issuers and the Collateral Manager

The Issuers

Greywolf CLO I, Ltd. (the "Issuer"), an exempted company with limited liability incorporated under the laws of the Cayman Islands for the sole purpose of acquiring the Collateral Obligations and Eligible Investments, entering into, and performing its obligations under, any Hedge Agreements, the Purchase Agreement and the Collateral Management Agreement, issuing the Securities and engaging in certain related transactions.

The Issuer may not have any material assets other than: (i) a portfolio of assets consisting primarily of Dollar-denominated loans (including Assignments of Participations), along with high-yield debt securities, Finance Leases, Synthetic Securities and Structured Finance Securities; (ii) Eligible Investments; (iii) any Hedge Agreements as determined to be appropriate by the Collateral Manager and satisfactory to Moody's and S&P (iv) any securities under any Securities Lending Agreements; (v) its rights under the Collateral Management Agreement; (vi) its rights under the Purchase Agreement; and (vii) certain other assets.

Greywolf CLO I, Corp. (the "Co-Issuer" and, together with the Issuer, the "Issuers"), a company incorporated under the laws of the State of Delaware for the sole purpose of co-issuing the Co-Issued Notes, as described below.

The Co-Issuer will not have any assets (other than $10 of equity capital) and will not pledge any assets to secure the Co-Issued Notes. The Co-Issuer will have no claim against the Issuer in respect of the Collateral Obligations or otherwise.

The authorized share capital of the Issuer consists of 50,000 ordinary shares, par value $1.00 per share (the "Issuer Ordinary Shares"), 250 of which will be issued on or prior to the Closing Date. The Issuer Ordinary Shares that have been issued and the common stock of the Co-Issuer will be held by Maples Finance Limited, a licensed trust company incorporated in the Cayman Islands and any successor thereto (the "Administrator"), as the trustee pursuant to the terms of a declaration of trust (the "Share Trustee").

The Collateral Manager

Greywolf Capital Management LP ("Greywolf") or any successor thereto (the "Collateral Manager") will perform certain advisory and administrative functions with respect to the Collateral for the Issuer as collateral manager. The Collateral Manager and the Issuer will enter into a Collateral Management Agreement, dated as of the Closing Date (the "Collateral Management Agreement").
Footnote Exhibits - Page 5015

One or more funds managed by Greywolf will commit to purchase up to 100% of the initial notional amount of the Subordinated Securities. Thereafter, such funds may transfer or sell any such Subordinated Securities held thereby at any time or from time to time.

The Trustee

The Bank of New York Trust Company, National Association solely in its capacity as trustee (the "Trustee") for the Securityholders, unless a successor Person shall have become the Trustee pursuant to the applicable provisions of the Indenture, and thereafter "Trustee" shall mean such successor Person.
Footnote Exhibits - Page 5016

Status and Subordination

The Co-Issued Notes will be limited recourse secured obligations of the Issuers, the Class E Notes will be limited recourse secured obligations of the Issuer and the Subordinated Securities will be limited recourse unsecured obligations of the Issuer. Except as provided in the preceding paragraph, with respect to both payment of interest and principal, the Class D Notes will be senior in right of payment on each Payment Date to the Class B Notes, the Class C Notes, the Class E Notes and the Subordinated Securities; with respect to both payment of interest and principal, the Class A Notes will be senior in right of payment on each Payment Date to the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Subordinated Securities; with respect to both payment of interest and principal, the Class B Notes will be senior in right of payment on each Payment Date to the Class C Notes, the Class D Notes, the Class E Notes and the Subordinated Securities; with respect to both payment of interest and principal, the Class C Notes will be senior in right of payment on each Payment Date to the Class D Notes, the Class E Notes and the Subordinated Securities; with respect to both payment of interest and principal, the Class D Notes will be senior in right of payment on each Payment Date to the Class E Notes and the Subordinated Securities; and, with respect to both payment of interest and principal, the Class E Notes will be senior in right of payment on each Payment Date to the Subordinated Securities.

Subject to the Priority of Payments, the right of the senior most Class of Secured Notes to be paid prior to a subordinated Class of Secured Notes does not apply if: (i) Interest Proceeds and Principal Proceeds are applied to the repayment of Deferred Interest of any Class of Secured Notes; or (ii) Interest Proceeds are applied to repay Class E Notes as a result of the failure of the Class E Par Value Test, as described in subclause (an) under "Disposition of the Securities—Priority of Payments—Interest Proceeds".

Use of Proceeds

The aggregate proceeds of the offering of the Securities are expected to equal approximately $502,000,000. Such proceeds will be used by the Issuer (i) to pay expenses related to the offering of the Securities, (ii) to satisfy the Issuer's obligations under certain warehouse arrangements with respect to a portfolio of Collateral Obligations acquired during the Accumulation Period or to purchase additional Collateral Obligations, (iii) to enter into one or more Hedge Agreements or after the Closing Date, (iv) to deposit an amount equal to the Expense Reserve Amount in the Expense Reserve Account and (v) to deposit into the Revolving Credit Facility Reserve Account an amount equal to the Future Drawdown Amount as of the Closing Date.

On the Effective Date, as long as the Minimum Par Value Ratio is satisfied as of such date, the Collateral Manager may, in its sole discretion, instruct the Trustee in writing to utilize up to $1,000,000 of Principal Proceeds and unused proceeds of the offering of the Securities for application as either Interest Proceeds or Principal Proceeds in accordance with the Priority of Payments and transfer to the Discretionary Reserve Account for future application of such funds as either Interest Proceeds or Principal Proceeds in accordance with the Priority of Payments, in each case on or before
the Payment Date in February 2008. See "Security for the Secured Notes—Principal Collection Account" and "—Discretionary Reserve Account."

On the Closing Date, the proceeds of the issuance of the Class S Notes in an amount equal to approximately $2,000,000 will be deposited in the Interest Collection Account. On or before the first Payment Date the Collateral Manager may (in its sole discretion) instruct the Trustee in writing to transfer all or a portion of funds in the Interest Collection Account (representing proceeds of the issuance of the Class S Notes) to the Principal Collection Account for application as Principal Proceeds.

It is expected that approximately $491,996,675 of the aggregate proceeds of the offering of the Securities will be available to the Issuer to satisfy its obligations under certain warehouse arrangements with respect to a portfolio of Collateral Obligations acquired during the Accumulation Period and to purchase additional Collateral Obligations.

- Redemption by Refinancing: Subject to the satisfaction of certain conditions described in “Description of the Securities—Redemption by Refinancing” and “The Indenture—Events of Default”. The Indenture” the Holders of at least a Majority of the Subordinated Securities may direct the redemption of any Class of Secured Notes in whole but not in part on any Business Day after the Non-Call Period by directing the Issuer to issue Replacement Notes, the proceeds of which will be used to fully redeem such Class or Classes of Secured Notes, as applicable. See “Description of the Securities—Redemption by Refinancing”.

- Security for the Secured Notes: The Secured Notes will be secured by (a) Collateral Obligations that are expected to be rated below investment grade; (b) Eligible Investments; (c) the Issuer’s rights under the Collateral Management Agreement, any Hedge Agreements, the Purchase Agreement and any Securities Lending Agreements; (d) any proceeds held in the Issuer Accounts; and (e) certain other assets of the Issuer as set forth in the Indenture. See “Risk Factors—Limited recourse Obligations”.

- Collateral Obligations: An obligation will constitute a collateral obligation (a “Collateral Obligation”) and will be eligible for purchase if all the time it is purchased or entered into (or a commitment is made to purchase or enter into such Collateral Obligation), it satisfies the following criteria (Eligibility Criteria): (i) it is (1) an Assignment or Participation of a Loan; (2) a debt security (including, subject to clause (x) below, a debt security that provides for conversion to an Equity Security or has equity features attached); (3) a Finance Lease which has a Moody’s Recovery Rate and an S&P Recovery Rate that is the same as or higher than the Moody’s Recovery Rate and S&P Recovery Rate that Moody’s and S&P, respectively, currently assign to Senior Secured Loans; (4) a Structured Finance Security; (5) a Synthetic Security, or (6) a Senior Secured Floating Rate Note, in all cases the

Confidential Treatment Requested by Goldman Sachs QS MBS-E-001918241
(f) other than an Exchanged Defaulted Obligation, (1) if it is a Structured Finance Security, it (A) has a Moody’s Default Probability Rating of at least “Ba1”, (B) has an S&P Rating of at least “BB” and (C) if such Structured Finance Security is a CDO Security collateralized by CDO Securities, such collateral is not managed by the Collateral Manager or an Affiliate of the Collateral Manager and (2) for any other type of Collateral Obligation, it has a Moody’s Default Probability Rating of at least “Caa1” and has an S&P Rating of at least “CCC-”, which S&P Rating in the case of the foregoing clauses (1) and (2) does not have a “L.” “p.” “q.” “g” or an “r” subscript;

(iii) (1) it is issued by an Issuer organized in the United States of America or in a sovereign jurisdiction the long-term foreign currency rating of which is at least “AA” by S&P and at least “Aa2” by Moody’s, (2) if it is a Tax Haven Collateral Obligation, (3) it is a Mortgage-Backed Security or (4) it is issued by a Special Purpose vehicle;

(iv) it is eligible to be entered into by, sold, assigned or participated to, the Issuer;

(v) it provides for periodic payments of interest thereon in cash at least semi-annually, other than a Zero-Coupon Security or a Step-Up Coupon Security during a period for which no interest is payable;

(vi) it is an obligation or a credit default swap upon which no payments are subject to withholding tax imposed by any jurisdiction unless the obligor thereof or counterparty with respect thereto is required to make “gross-up” payments that cover the full amount of any such withholding tax on an after-tax basis (other than withholding taxes with respect to any amendment fees, extension fees and consent fees on a Collateral Obligation, any fees owed under a Securities Lending Agreement or any commitment fees associated with Collateral Obligations constituting Revolving Credit Facilities or Delayed Funding Term Loans);

(vii) it is not a Defaulted Obligation (other than an Exchanged Defaulted Obligation);

(viii) it is not a CDO Security managed by the Collateral Manager or an Affiliate of the Collateral Manager, or a CDO Security the payments upon which are based on the market value of the underlying portfolio;

(ix) it is not a Credit Risk Obligation;

(x) it is not an obligation that at the time of purchase or commitment to purchase provides for conversion into an
Equity Security (1) automatically after a specified period of time or (2) at the option of the issuer thereof at any time;

(x) it is not the subject of an Offer other than (a) an offer of publicly registered securities with equal or greater face value and substantially identical terms issued in exchange for securities issued under Rule 144A or (b) a Permitted Offer;

(xi) it is not an obligation the Interest payments of which are scheduled to decrease (although interest payments may decrease due to unscheduled events such as a decrease of the index relating to a Floating Rate Obligation; or the change from a default rate of interest to a non-default rate or an improvement in the obligor's financial condition);

(xii) it is not an obligation pursuant to which future advances or future payment obligations may be required, except for future advances under a Revolving Credit Facility or a Delayed Funding Term Loan or future payment obligations under a Synthetic Security, in each case, for which the Issuer has deposited funds in the Revolving Credit Facility Reserve Account or a Synthetic Security Collateral Account, as applicable, in an amount sufficient to meet such future advances or future payment obligations, as applicable;

(xvi) it is not a security whose repayment is subject to the non-occurrence of certain catastrophes specified in the documents governing such security;

(xvii) it is not a Derivable Interest Obligation that is currently deferring interest or paying interest “in kind,” whose interest is otherwise payable in cash, unless the S&P Rating Condition has been satisfied with respect to the purchase of such obligation (for the avoidance of doubt, this subsection shall not be interpreted to prohibit the inclusion of an Exchanged Derivable Obligation in the Collateral Portfolio in accordance with the provisions described herein);

(xviii) if such obligation provides for the payment of interest at a floating rate, such floating rate is determined by reference to (1) the Dollar prime rate, LIBOR, Euro rate or similar interbank offered rate or commercial deposit rate or (2) any other index so long as at the time such index was first referenced each of the Moody's Rating Condition and the S&P Rating Condition was satisfied;

(xix) if it provides for payment of principal in cash on or prior to its stated maturity; and

(xx) it is not any of the Securities.

Purchase of Collateral Obligations by the Closing Date

It is expected that, by the Closing Date, the Issuer will have purchased or executed, or entered into arrangements to purchase or execute, with the net proceeds of the issuance of the Securities, a
**Footnote Exhibits - Page 5023**

**Effective Date Ratings Confirmation**

The Issuer will request that each of the Rating Agencies confirm the initial ratings of the Secured Notes on the Effective Date. Such confirmation will be deemed to have been obtained from Moody's, so long as certain tests are met and Moody's has received delivery of certain documents specified in the indenture. A failure to obtain (or to be deemed to have obtained, in the case of Moody's only) the Rating Agencies' confirmation of the initial ratings of the Secured Notes on the Effective Date will result in an Effective Date Ratings Downgrade Event.

It is very unlikely that the Rating Agencies will confirm their initial ratings of the Secured Notes if any of the Collateral Quality Tests, the Par Value Tests, the Concentration Limitations or the Minimum Par Value Ratio is not satisfied on the Effective Date. Accordingly, the Issuer will seek to purchase additional Collateral Obligations during the Investment Period so that the Collateral Quality Tests, the Par Value Tests, the Concentration Limitations and the Minimum Par Value Ratio will be satisfied on the Effective Date. The occurrence of an Effective Date Ratings Downgrade Event will not cause an Event of Default with respect to the Securities. See "Risk Factors—Effective Date Ratings Downgrade Event".

**Concentration Limitations**

Collateral Obligations acquired by the Collateral Manager will be subject to the concentration limitations set forth in the table below (the "Concentration Limitations"):

RISK FACTORS

Prior to making an investment decision, prospective investors should carefully consider, in addition to the matters set forth elsewhere in this Offering Circular, the following factors:

Limited Liquidity and Restrictions on Transfer. There is currently no market for the Securities. Although Goldman, Sachs & Co. has advised the Issuer that it intends to make a market in the Securities, Goldman, Sachs & Co. is not obligated to do so, and any such market-making with respect to the Securities may be discontinued at any time without notice. There can be no assurance that any secondary market for any of the Securities will develop, or, if a secondary market does develop, that it will provide the Holders of such Securities with liquidity of investment or that it will continue for the life of such Securities. Consequently, a purchaser must be prepared to hold the Securities for an indeterminate period of time or until Stated Maturity. In addition, no sale, assignment, participation, pledge or transfer of the Securities may be effected if, among other things, any law would require any of the Issuer, the Co-Issuer or any of their respective officers or directors to register under, or otherwise be subject to, the provisions of, the Investment Company Act or any other similar legislation or regulatory action. Furthermore, the Securities will not be registered under the Securities Act or any state securities laws, and the Issuer has no plans, and is under no obligation, to register the Securities under the Securities Act. The Securities are subject to certain transfer restrictions and can be transferred only to certain transferees as described herein under "Transfer Restrictions." Such restrictions on the transfer of the Securities may further limit their liquidity. See "Transfer Restrictions." Application has been made to the Irish Financial Services Regulatory Authority, as competent authority under Directive 2003/71/EC, for this Offering Circular to be approved. Application has been made to the Irish Stock Exchange for the Securities to be admitted to the Official List and to trading on its regulated market. There can be no assurance that such listing will be approved or maintained.

Limited Recourse Obligations. The Co-Issued Notes will be limited recourse secured obligations of the Issuer, and the Subordinated Securities will be limited recourse unsecured obligations of the Issuer. None of the Collateral Manager, the Securityholders, the Initial Purchaser, the Trustee, any Hedge Counterparty, the Administrator, the Share Trustee or any Affiliate of any of the foregoing or any other person or entity will be obligated to make payments on the Securities. Consequently, Holders of the Securities must rely solely on distributions on the Collateral for the payment of principal, interest and premium, if any, thereon. To the extent distributions on the Collateral are insufficient to make payments on the Securities, no other assets (and, in particular, no assets of the Collateral Manager, the Securityholders, the Initial Purchaser, the Trustee, any Hedge Counterparty, the Administrator, the Share Trustee or any directors or officers of the Issuer or any Affiliate of any of the foregoing) will be available for payment of the deficiency and following realization of the Collateral, the obligations of the Issuers or, in the case of the Class E Notes and Subordinated Securities, the Issuer, to pay such deficiency shall be extinguished and shall not thereafter revive. Each Securityholder by its acceptance of each Security will agree or be deemed to have agreed not to take any action or institute any proceedings against the Issuers under any insolvency law applicable to the Issuers or which would be likely to cause the Issuer to be subject to, or to seek the protection of, any insolvency law applicable to the Issuers, subject to contain limited exceptions.

Subordination of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes, the Class E Notes and the Subordinated Securities. Except as described in "Summary—Status and Subordination," the Class A Notes are subordinated on each Payment Date to the Class B Notes. The Class B Notes are subordinated on each Payment Date to the Class C Notes, the Class B Notes are subordinated on each Payment Date to the Class D Notes and the Class C Notes are subordinated on each Payment Date to the Class E Notes. Except as described in "Summary—Status and Subordination," no payments of interest or distributions from interest Proceeds will be made on any Class of Securities on any Payment Date until current or Deferred Interest on the Securities of each Class to which such Class is subordinated has been paid, and no payments of principal or distributions from Principal Proceeds will be made on any such Class of Securities on any Payment Date until principal of the Securities of each Class to which such Class is subordinated has been paid in full, in each case in accordance with the Priority of Payments described herein. No distributions of Principal

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918250
Footnote Exhibits - Page 5030

Proceeds to the Holders of the Subordinated Securities will be made until the Secured Notes have been repaid in full. See "Description of the Securities—Priority of Payments".

In addition, if an Event of Default occurs, as long as any Securities of the Controlling Class are Outstanding, the Holders of the Controlling Class will be entitled to determine the remedies to be exercised under the Indenture including the sale and liquidation of the Collateral (except that the Collateral may be sold and liquidated only if, among other things, the Trustee determines (and the Majority of the Controlling Class agrees with such determination) that the anticipated proceeds of such sale or liquidation (after deducting the reasonable expenses of such sale or liquidation) would be sufficient to pay in full the Aggregate Outstanding Amount of the Secured Notes, plus accrued and unpaid interest, and certain other amounts, or the Holders of at least 68.25% of the Aggregate Outstanding Amount of the Secured Notes of each Class (with each such Class voting separately) direct, subject to the provisions of the Indenture, such sale and liquidation). Remedies pursued by the Holders of the Controlling Class could be adverse to the interests of the Holders of the subordinated Classes of Securities. See "Description of the Securities—The Indenture—Events of Default".

Unsecured Subordinated Securities. The Subordinated Securities are not secured by the Collateral Obligations or the other Collateral securing the Secured Notes. As such, the Holders of the Subordinated Securities will rank behind all of the secured creditors, whether known or unknown, of the Issuer, including, without limitation, the Holders of the Secured Notes and any Hedge Counterparties. No person or entity other than the Issuer will be required to make any distributions on the Subordinated Securities. Except with respect to the obligations of the Issuer to make payments pursuant to the Priority of Payments, the Issuer does not expect to have any creditors. Any distributions on the Subordinated Securities will be payable only to the extent funds are available in accordance with the Priority of Payments.

Optional Redemption of Securities. An optional redemption of Securities could require the Collateral Manager to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the realized value of the securities sold. In addition, the optional redemption requirements in the Indenture may require the Collateral Manager to aggregate securities to be sold together in one block transaction, thereby possibly resulting in a lower realized value for the securities sold.

Redemption by Refinancing. The Secured Notes are subject to Redemption by Refinancing. The Holders of at least a Majority of the Subordinated Securities may direct the redemption of any Class of Secured Notes in whole but not in part on any Scheduled Payment Date occurring after the Non-Call Period, in connection with a Redemption by Refinancing by directing the Issuer to issue Replacement Notes (which may accrue interest at a floating rate or fixed rate as described herein), the proceeds of which will be used to fully redeem such Class or Classes of Secured Notes, as applicable. A Redemption by Refinancing will be required to result in the redemption of all of the Secured Notes of the affected Class or Classes but need not result in the redemption of all Classes of Secured Notes. There is no assurance that the Holders of any Class of Secured Notes refinanced will be able to invest the proceeds thereof in comparable securities earning a comparable rate of return.

Mandatory Redemption of Secured Notes In Case of Failure of the Coverage Tests. If any Per Value Test (excluding the Class E Per Value Test) with respect to the applicable Class or Classes of Co-Issued Notes is not met on the Determination Date immediately preceding a Scheduled Payment Date or if any Interest Coverage Test with respect to any Class or Classes of Co-Issued Notes is not met on any Determination Date on or after the Second Determination Date, Proceeds and, thereafter, Interest Proceeds that would have been paid to the Holders of each Class of Securities that is subordinated to such Class or Classes will be held to redeem the Securities of the most senior Class or Classes then Outstanding to the extent necessary to restore the applicable Coverage Test to the minimum required level as described under "Security for the Secured Notes—The Coverage Tests" or cause any Class of Securities to which such unsatisfied last line is applicable to be redeemed in full. If the Class E Per Value Test is not met on the Determination Date immediately preceding a Satus Payment Date, Interest Proceeds that otherwise would have been paid to the Holders of the Subordinated Securities will be used to redeem the Class E Notes, to the extent necessary to restore the Class E Per Value Test to the minimum required level. The foregoing could result in an elimination, deferral or reduction in the funds available to make interest payments or principal repayments to the Holders of the Class G Notes, the Class D Notes and the Class E Notes and distributions to the

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-031918251
Holders of the Subordinated Securities. See "Description of the Securities—Priority of Payments" and "Security for the Secured Notes—The Coverage Test".

Effective Date Ratings Downgrade Event. Although Collateral Obligations with an Aggregate Principal Amount equal to approximately 97% of the Collateral Portfolio to be purchased by the issuer will be purchased (or the issuer will have entered into agreements to purchase) as of the Closing Date, a portion of the Collateral Portfolio will be purchased after the Closing Date and the price and availability of Collateral Obligations may be adversely affected by volatility in the market for Collateral Obligations. Consequently, the ability of the issuer to purchase Collateral Obligations by the Effective Date at desirable prices and meeting the requirements set forth herein may be compromised. The issuer will request that each of the Rating Agencies confirm (or, in the case of Moody's, submit information such that Moody's may be deemed to have confirmed) the initial ratings of the Secured Notes on the Effective Date. The inability of the issuer to purchase a suitable portfolio prior to the Effective Date may result in an Effective Date Ratings Downgrade Event. If an Effective Date Ratings Downgrade Event occurs, the issuer is required to, in accordance with the Priority of Payments, apply Interest Proceeds and, to the extent the application of Interest Proceeds is insufficient, Principal Proceeds to pay principal of the Secured Notes (other than the Class B Notes) pursuant to the Note Payment Sequence until the Secured Notes (other than the Class B Notes) are paid in full or until such Effective Date Ratings Downgrade Event no longer exists. See "Description of the Securities—Priority of Payments". The occurrence of an Effective Date Ratings Downgrade Event will not cause an Event of Default.

Use of Interest Proceeds to Purchase Collateral Obligations. During the Reinvestment Period, Interest Proceeds remaining on each Payment Date prior to the payment of certain unpaid subordinated expenses and unpaid hedge termination payments, the distribution to the Collateral Manager in respect of the Incentive Collateral Management Fee and distributions in respect of the Subordinated Securities will be used to reinvest in Collateral Obligations up to the amount necessary to satisfy the Reinvestment Test (but not to exceed 5% of such Interest Proceeds available on such Payment Date). As a result, distributions to the Holders of Subordinated Securities will be reduced to the extent of the portion of Interest Proceeds used during the Reinvestment Period to reinvest in Collateral Obligations. See "Description of the Securities—Priority of Payments—Interest Proceeds".

Nature of Non-Investment Grade Collateral: Default: Loans. The Collateral is subject to credit, liquidity and interest rate risks. The Collateral Obligations pledged to secure the Secured Notes will consist of a portfolio of assets which consists primarily of Dollar denominated loans (including Assignments or Participations) and high yield debt securities, primarily rated below investment grade (or of equivalent credit quality), Structured Finance Securities and Synthetic Securities, the Reference Obligations of which will likely be rated below investment grade, all of which will have greater credit and liquidity risk than investment grade sovereign or corporate bonds or loans.

High yield debt securities are generally unsecured (and loans may be unsecured) and may be subject to certain other obligations of the issuer thereof. The lower rating of high yield securities and below investment grade loans reflects a greater possibility that adverse changes in the financial condition of an issuer or obligor or in general economic conditions or both may impair the ability of the issuer or obligor to make payments of principal or interest. Such investments may be speculative. See "The Loan Market".

A portion of the Collateral Portfolio may consist of middle market loans and second lien loans. Issuance sizes and lending syndicates for middle market loans are usually smaller than those for widely syndicated or leveraged loans and thus less liquid given their smaller loan sizes. The issuers and the proceeds on the liquidation of the collateral for a second lien loan will be subordinate to the rights of the holders of the first lien on the related collateral, and consequently, the issuer’s recovery on such a loan may be reduced. Collateral Obligations that are second lien loans may be less liquid than loans secured by a first lien.

The issuer will acquire interests in loans and other debt obligations directly by way of sale, assignment or participation. The purchaser of an Assignment typically succeeds to all the rights and obligations of the assigning institution and becomes a lender under the credit agreement with respect to the debt obligation; however, its rights can be more restricted than those of the assigning institution.

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-0010919252
purchasing Participations, the Issuer generally has only a contractual relationship with the Selling institution and will have no right to directly enforce compliance by the borrower with the terms of the loan agreement. See "Assignments of and Participations in Loans".

Purchasers of loans are predominantly commercial banks, investment funds and investment banks. As secondary market trading volumes increased, new loans frequently contain standardized documentation to facilitate loan trading which may improve market liquidity. There can be no assurance, however, that future levels of supply and demand in loan trading will provide an adequate degree of liquidity or that the current level of liquidity will continue. Loans are not purchased or sold as easily as publicly traded securities are purchased or sold because, among other things, the holders of such loans are provided confidential information relating to the borrower, the loan agreement with respect to such loans is unique and customized and such loans are privately syndicated. In addition, historically the trading volume in the loan market has been small relative to the high yield debt market. See "The Loan Market".

The market value of the Collateral Obligations will generally fluctuate with, among other things, changes in prevailing interest rates, general economic conditions, the condition of certain financial markets (including, particularly, the market for high yield debt obligations), international political events, developments or trends in any particular industry and the financial condition of the issuers of the Collateral Obligations. The public market for high yield debt obligations, in particular, has experienced periods of volatility and periods of reduced liquidity.

The offering of the Securities has been structured to withstand certain assumed losses relating to defaults on the underlying Collateral Obligations. See "Rating of the Securities". There is no assurance that actual losses will not exceed such assumed losses over any given time period. If any losses exceed such assumed levels, however, payments or distributions on the Securities could be adversely affected by defaults. To the extent that a default occurs with respect to any Collateral Obligation and the Trustee sells or otherwise disposes of such Collateral Obligation, it is not likely that the proceeds of such sale or disposition will be equal to the unpaid principal and interest thereon and such default and/or disposition may reduce, if not eliminate, the availability of funds that would otherwise be distributable to the holders of the Securities.

Concentration Risk. The Issuer will invest in a portfolio of Collateral Obligations consisting of Assignments or Participations of loans, high yield debt securities, Synthetic Securities, Finance Leases and Structured Finance Securities. Although no significant concentration with respect to any particular obligor, industry or country (other than the United States) is expected to exist at the Effective Date, the concentration of the portfolio in any one obligor would subject the Securities to a greater degree of risk with respect to defaults by such obligor, and the concentration of the portfolio in any one industry would subject the Securities to a greater degree of risk with respect to economic downturns relating to such industry. See "Security for the Secured Notes".

International Investing. A portion of the Collateral may consist of Collateral Obligations that are obligations of non-U.S. obligors. Investing outside the United States may involve greater risks than investing in the United States. These risks include: (i) less publically available information, (ii) varying levels of governmental regulation and supervision and (iii) the difficulty of enforcing legal rights in a non-U.S. jurisdiction and uncertainties as to the status, interpretation and application of laws. Moreover, non-U.S. obligors may not be subject to uniform accounting, auditing and financial reporting standards, practices and requirements comparable to those applicable to United States companies. Moreover, if the sovereign rating of a country in which an obligor on a Collateral Obligation is located is downgraded, the ratings applicable to such Collateral Obligation may decline as well.

Synthetic Securities. Synthetic Securities expose the Issuer to the credit risks associated with the Reference Obligations consisting of high yield debt securities and non-investment grade loans. However, the Issuer will usually not have a contractual relationship with the counterparty of such Synthetic Security, and not with the Reference Obligor. Generally, the Issuer will have no right to directly enforce compliance by the Reference Obligor with the terms of the Reference Obligation nor any rights of set-off against the Reference Obligor. The Issuer may be subject to set-off rights exercised by the Reference Obligor against the counterparty. The Issuer will not have any voting rights with respect to the Reference Obligation.
Issuer will not directly benefit from any collateral that may support the Reference Obligation and will not have the benefit of the remedies that would normally be available to a holder of such Reference Obligation. In addition, in the event of the insolvency of the counterparty, the issuer will be treated as a general creditor of such counterparty, and will not have any claims with respect to the Reference Obligation. Consequently, the issuer will be subject to the credit risk of the counterparty as well as that of the Reference Obligor. As a result, concentrations of Synthetic Securities in any one counterparty subject the Securities to an additional degree of risk with respect to defaults by such counterparty as well as by the Reference Obligor. The Collateral Manager will not perform independent credit analyses of the counterparties. However, any such counterparty, or an entity guaranteeing such counterparty, individually and in the aggregate, shall satisfy the required ratings set forth in the definition of *Synthetic Security Counterparty* . The Rating Agencies may downgrade any of the Co-Issued Notes if a Synthetic Security Counterparty has been downgraded by either of the Rating Agencies such that the Issuer is not in compliance with the Synthetic Security Counterparty rating requirements. The Initial Purchaser and/or one or more of its Affiliates, with acceptable credit support arrangements, if necessary, may act as counterparty with respect to all or a portion of the Synthetic Security Counterparties, which may create certain conflicts of interest. See *Certain Conflicts of Interest*.

Structured Finance Securities. A portion of the Collateral Obligations may consist of Structured Finance Securities. Structured Finance Securities may present risks similar to those of the other types of Collateral Obligations in which the Issuer may invest and, in fact, such risks may be present to a greater degree in the case of Structured Finance Securities. Moreover, investing in Structured Finance Securities may entail a variety of unique risks. Among other risks, Structured Finance Securities may be subject to prepayment risk, credit risk, liquidity risk, market risk, structural risk, legal risk and interest rate risk (which may be exacerbated if the interest rate payable on a Structured Finance Security changes based on changes in interest rates or inversely in relation to changes in interest rates). In addition, certain Structured Finance Securities may provide that non-payment of interest will not constitute an event of default in certain circumstances and the holders of such securities will not have available to them any associated default remedies. During such period of non-payment, such non-paid interest will generally be capitalized and added to the outstanding principal balance of the related security. Furthermore, (1) the performance of a Structured Finance Security will be affected by a variety of factors, including its priority in the capital structure of its issuer, the availability of any credit enhancement, the level and timing of payments and recoveries on and the characteristics of the underlying receivables, loans or other assets that are being securitized, remoteness of those assets from the originator or transferor, the adequacy of and ability to realize upon any related collateral and the competence of the servicer of the underlying assets and (2) the price of a Structured Finance Security, if required to be sold, may also be subject to certain market and liquidity risks for securities of its type at the time of sale. The Issuer will be subject to restrictions on the amount of Structured Finance Securities it may hold.

Securities Lending. The Collateral Obligations may be loaned to one or more Securities Lending Counterparties. See *Security for the Secured Notes—Securities Lending*. In the event that a Securities Lending Counterparty defaults on its obligation to return such loaned Collateral Obligation because of insolvency or otherwise, the Issuer could experience delays and costs in gleaning assets in a timely and cost-effective manner. The Issuer could therefore suffer a loss if, in the event of the occurrence of any such default, it is unable to realize the full value of the cash or securities securing the obligation of the borrower to return a loaned Collateral Obligation (less expenses). In addition, the Issuer could suffer a loss if, in the event of the occurrence of any such default, it is unable to realize a sufficient amount, on a timely basis, of the proceeds from the sale of such assets.

Insolvency Considerations with Respect to Issuers of Collateral Obligations. In the event of the insolvency of an issuer or obligor of a Collateral Obligation, payments made on such Collateral Obligation could be subject to avoidance as a "preference" if made within a certain period of time (which may be as little as one year) before insolvency. The Collateral Obligations consisting of obligations of non-U.S. issuers or obligors may be subject to various laws enacted in the countries of their issuance for the protection of creditors. These insolvency considerations will differ depending on the country in which each issuer is located or domiciled and may differ depending on whether the issuer or obligor is a non-sovereign or a sovereign entity.

Various laws enacted for the protection of creditors may apply to the Collateral Obligations. The information in this and the following paragraph is applicable with respect to U.S. issuers or obligors subject to United States federal bankruptcy law. Insolvency considerations may differ with respect to other issuers. If a court in a lawsuit brought by an unpaid creditor or representative of creditors of an issuer or obligor of a Collateral Obligation, such as a trustee in bankruptcy, were to find that the issuer or the obligor did not receive fair consideration or reasonably equivalent value for incurring the indebtedness constituting the Collateral Obligation and, after giving effect to such indebtedness, the issuer or obligor (i) was insolvent, (ii) was engaged in a business for which the remaining assets of such issuer constituted an unreasonably small capital or (iii) intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they mature, such court could determine to invalidate, in whole or in part, such indebtedness as a fraudulent conveyance, to subordinate such indebtedness to existing or future creditors of such issuer or obligor, or to recover amounts previously paid by such issuer or obligor in satisfaction of such indebtedness. The measure of insolvency for purposes of the foregoing will vary. Generally, an issuer or obligor would be considered insolvent at a particular time if the sum of its debts were then greater than all of its property at a fair valuation, or if the present fair saleable value of its assets was then less than the amount that would be required to pay its probable liabilities on its existing debts as they become absolute and matured. There can be no assurance as to what standard a court would apply in order to determine whether the issuer or obligor was "insolvent" after giving effect to the incurrence of the indebtedness constituting the Collateral Obligation or that, regardless of the method of valuation, a court would not determine that the issuer was "insolvent" upon giving effect to such insolvency.

In general, if payments on a Collateral Obligation are available, whether as fraudulent conveyances or preferences, such payments may be recouped either from the initial recipient (such as the issuer) or from subsequent transferees of such payments (such as the Holders of the Securities). To the extent that any such payments are recouped from the issuer, the resulting loss will be borne first by the Holders of the Subordinated Securities, then by the Holders of the Class E Notes, then by the Holders of the Class D Notes, then by the Holders of the Class C Notes, then by the Holders of the Class B Notes, then by the Holders of the Class A Notes and finally by the Holders of the Class S Notes (only to the extent such Notes is outstanding at such time). However, a court in a bankruptcy or insolvency proceeding would be able to direct the recapture of any such payment from a Holder of Securities only to the extent that such Holder is subject to jurisdiction over such Holder or its assets. Moreover, it is likely that available payments could not be recouped directly from a holder that has given value in exchange for its Securities, in good faith and without knowledge that the payments were available. Nevertheless, since there is no judicial precedent relating to subordinated securities such as the Securities, there can be no assurance that a Holder of the Securities will be able to avoid recoupment on this or any other basis. See also "Assignments of and Participations in Loans".

The issuer does not intend to engage in conduct that would form the basis for a successful cause of action based upon fraudulent conveyance, preference or equitable subordination. There can be no assurance, however, that such a successful cause of action against the issuer will not occur, or as to whether any lending institution or other investor from which the issuer acquired the Collateral Obligations engaged in any such conduct or any other conduct that would subject the Collateral Obligations and the issuer to insolvency laws, and, if it did, as to whether such creditor claims could be asserted in a U.S. court (or in the courts of any other country) against the issuer.

Liender Liability Considerations: Equitable Subordination. A number of judicial decisions in the United States have upheld the right of borrowers to sue lenders or bondholders on the basis of various evolving legal theories (collectively termed "lender liability"). Generally, lender liability is founded upon the premise that an institutional lender or bondholder has violated a duty (whether implied or contractual) of good

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918255
faith and fair dealing owed to the borrower or issuer or has assumed a degree of control over the borrower or issuer resulting in the creation of a fiduciary duty owed to the borrower or issuer or to other creditors or shareholders. Although it would be a novel application of the lender liability theories, the issuer may be subject to allegations of lender liability. However, the issuer does not intend to engage in conduct that would form the basis for a successful cause of action based upon lender liability.

In addition, under common law principles that in some cases form the basis for lender liability claims, if a lender or bondholder (g) intentionally takes an action that results in the undervaluation of a borrower to the detriment of other creditors of such borrower, (b) engages in other inequitable conduct to the detriment of such other creditors, (c) engages in fraud with respect to, or makes misrepresentations to, such other creditors or (d) uses its influence as a stockholder to dominate or control a borrower to the detriment of other creditors of such borrower, a court may elect to subordinate the claim of the offending lender or bondholder to the claims of the disadvantaged creditor or creditors, such remedy called "equitable subordination". Because of the nature of the Collateral Obligations, the issuer may be subject to claims from creditors of an obligor that Collateral Obligations issued by such obligor that are held by the issuer should be equitably subordinated. However, the issuer does not intend to engage in conduct that would form the basis for a successful cause of action based upon the equitable subordination doctrine.

The preceding discussion is based upon principles of United States federal and state laws. Insular as Collateral Obligations that are obligations of non-United States obligors are concerned, the laws of certain foreign jurisdictions may impose liability upon lenders or bondholders under fiduciary circumstances similar to those described above, with consequences that may or may not be analogous to those described above under United States federal and state laws.

Volatility of Collateral Market Value and the Securities. The market value of the Collateral Obligations will generally fluctuate with, among other things, changes in prevailing interest rates, general economic conditions, the condition of certain financial markets, developments or trends in any particular industry and the financial condition of the issuers of the Collateral Obligations. The markets for high yield corporate debt securities and loans have in the past experienced periods of volatility and periods of reduced liquidity. A decrease in the market value of the Collateral Obligations would adversely affect the value of the Securities and could ultimately affect the ability of the Issuers to effect an optional redemption of the Securities, pay the principal of the Secured Notes or make distributions on the Subordinated Securities.

The financial markets have experienced substantial fluctuations in prices for loans and high yield debt securities and limited liquidity for such obligations. No assurance can be made that the conditions giving rise to such price fluctuations and limited liquidity will not continue or become more acute following the Closing Date. During periods of limited liquidity and higher price volatility, the Issuers' ability to acquire or dispose of Collateral Obligations at a price and time that the Issuer deems advantageous may be impaired. As a result, in periods of rising market prices, the Issuer may be unable to participate in price increases fully to the extent that it is unable to acquire desired positions quickly, and the Issuer's inability to acquire or dispose of such positions in declining markets will conversely cause its net asset value to decline as the value of such positions is marked to lower prices.

There can be no assurance that current economic conditions and the effects of increased interest rates and corresponding price volatility will not adversely impact the investment returns ultimately realized by investors or continued compliance with, among other things, the Covenants.

Assignments of, and Participations in, Loans. The Issuer may purchase an interest in loans comprising Collateral Obligations either directly (by way of sale or Assignment) or indirectly (by way of Participation), subject to certain limitations set forth in the Indenture.

The purchaser of an Assignment typically succeeds to all the rights and obligations of the assigning institution and becomes a lender under the loan agreement with respect to the loan. The Issuer as an assignee will generally have the right to receive directly from the borrower all payments of principal and interest to which it is entitled under the Assignment. As a purchaser of an Assignment, the Issuer typically will have the same voting rights as other lenders under the applicable loan agreement and will have the right
to waive enforcement of breaches of covenants. The issuer will also have the same rights as other lenders to enforce compliance by the borrower with the terms of the loan agreement, to set-off claims against the borrower and to have recourse to collateral supporting the loan. As a result, in cases of default, the issuer will generally not assume the credit risk of the assigning institution, and the insolvency of an assigning institution should have little effect on the ability of the issuer to continue to receive payments of principal or interest from the borrower. The issuer will, however, assume the credit risk of the borrower.

In purchasing Participations, the issuer will usually have a contractual relationship only with the Selling institution, and not the borrower. When the Issuer holds a Participation in a loan it generally will not have the right to enforce compliance by the borrower with the terms of the loan agreement or have the right to sue to waive enforcement of any restrictive covenant breached by the borrower. However, most participation agreements provide that the Selling institution may not vote in favor of any amendment, modification or waiver that affects the interest of the issuer in the loan. Consequently, the issuer may be subject to the credit risk of the Selling Institution as well as that of the borrower. The Collateral Manager has not at any time and will not perform independent credit analyses of the Selling Institutions.

Certain of the loans or Participations may be governed by the laws of a jurisdiction other than a United States jurisdiction. The Issuer is unable to provide any information with respect to the risks associated with purchasing a Participation under an agreement governed by the laws of a jurisdiction other than a United States jurisdiction, including characterization under such laws of such Participation or sub-Participation in the event of the insolvency of the institution from whom the Issuer purchases such Participation or sub-Participation or the insolvency of the institution from whom the grantor of the sub-Participation purchased its Participation.

GS MBS-E-001919257
Footnote Exhibits - Page 5037

restrictions to buy or sell securities or to take other actions which it might consider to be in the best interests of the Issuer and the Holders of the Securities. See "Security for the Secured Notes—Sale of Collateral Obligations; Substitute Securities; Exchange of Defaulted Obligations and Reinvestment Criteria".

Prepayment of Loans. Loans are generally prepayable, in whole or in part, at any time at the election of the Borrower and subject to the prior written consent of the Lenders, and may be prepaid by the Borrower or a third party, subject to the prior written consent of the Lenders, subject to the conditions set forth in the Credit Agreement and in the applicable Loan Documents. Prepayments on loans may be caused by a variety of factors which are difficult to predict. Accordingly, there exists a risk that loans purchased at a price greater than par may experience a capital loss as a result of such a prepayment. In addition, Prepayments received upon such a prepayment are subject to reinvestment risk as described in the preceding paragraph. Any inability of the Issuer to reinvest payments or other proceeds in Collateral Obligations with comparable interest rates that satisfy the Reinvestment Criteria may adversely affect the timing and amount of payments and distributions received by the Holders of the Securities and the yield to maturity of the Securities. There can be no assurance that the Issuer will be able to reinvest proceeds in Collateral Obligations with comparable interest rates that satisfy the Reinvestment Criteria or (if it is able to make such reinvestments) as to the length of any delays before such investments are made.

Recovery. To the extent that defaults occur with respect to any Collateral Obligation and the Issuer sells or otherwise disposes of such Collateral Obligation, it is unlikely that the proceeds of such sales or dispositions, together with the value of the remaining Collateral, will be equal to the unpaid principal of and interest on all of the Secured Notes and the purchase price of the Subordinated Securities. In addition, the Issuer may incur additional expenses in the extent it is required to seek recovery upon a default on a Collateral Obligation or participate in the restructuring of such Collateral Obligation. Moreover, there can be no assurance on the timing of any recoveries.

Average Life and Prepayment Considerations. The Stated Maturity of each Class of Securities (other than the Class S Notes) is the Payment Date in February 2021 and, with respect to the Class S Notes, February 2014; however, the average life of each Class is expected to be shorter than the number of years until the Stated Maturity. See “Summary—The Offering” and “Maturity and Prepayment Considerations”.

The approximations of the average life of each Class of Secured Notes set forth in the table in “Summary—The Offering” with respect to the average life of each Class of Secured Notes are not predictive and do not necessarily reflect historical performance and defaults for loans and high yield debt securities; in fact, the average life of the Secured Notes will be affected by the ability of the Issuer to reinvest Principal Proceeds in Collateral Obligations during the Permitted Reinvestment Period and on any sales of Eligible Post Reinvestment Proceeds, after the Reinvestment Period. Such approximations will also be affected by the financial condition of the Issuer of the underlying Collateral Obligations and the characteristics of such securities, including the existence and frequency of exercise of any optional redemption, mandatory prepayment or sinking fund features, the prevailing level of interest rates, the redemption price, the actual default or the actual level of recoveries on any Defaulted Obligations, the frequency of any failures to make required exchange offers for the Collateral Obligations and on any sales of Collateral Obligations. In addition, if proceeds paid on the Secured Notes occur under the circumstances described under “Summary—The Offering—Principal Payments on the Secured Notes,” the average life of the Secured Notes will also be affected. See “Summary—Maturity and Prepayment Considerations” and “Security for the Secured Notes—Sale of Collateral Obligations; Substitute Securities; Exchange of Defaulted Obligations and Reinvestment Criteria”.

Distribution of Principal Proceeds Prior to the End of the Reinvestment Period. On each Scheduled Payment Date during the Reinvestment Period, Principal Proceeds will be distributed to the Holders of the Secured Notes in accordance with the Priority of Payments, if the Collateral Manager determines, in its sole judgment (which judgment shall not be subject to question as a result of subsequent events), that it is impractical or not beneficial to reinvest Principal Proceeds by the end of the applicable Investment Due Period. Distribution of Principal Proceeds to Holders of the Secured Notes prior to the end of the Reinvestment Period may shorten the expected lives of the Secured Notes and affect the timing and amount of distributions on the Subordinated Securities. See “Maturity and Prepayment Considerations”.

Interest Rate Risk: Floating Rate Indices for Collateral Obligations. The Concentration Limitations require that not less than a certain percentage of the Collateral Portfolio be invested based on LIBOR or another floating rate index. See “Summary—Concentration Limitations.” Principal Proceeds and Sale

Confidential Treatment Requested by Goldman Sachs

GS M8S-E-001918258
Proceeds may be reinvested in Collateral Obligations, subject to certain limitations specified herein, or, together with interest Proceeds, invested in Eligible Investments pending application in accordance with the Proceeds Agreement. There is no requirement that such Eligible Investments bear interest at LIBOR and the interest rates available for such Eligible investments are inherently uncertain. The Floating Rate Notes will bear interest at a rate based on LIBOR for Eurodollar deposits for the Applicable Period, as determined on each LIBOR Determination Date. As a result, there may be a floating/fixed rate or basis mismatch between the Floating Rate Notes and any underlying Fixed Rate Collateral Obligations and there may be a basis or timing mismatch between such Floating Rate Notes and the Floating Rate Collateral Obligations as the interest rate on such Floating Rate Collateral Obligations may adjust more frequently or less frequently, on different dates and based on different indexes than the interest rates on the Floating Rate Notes. As a result of such mismatches, an increase in the level of LIBOR could adversely impact the ability to make payments on the Secured Notes, as well as the ability to make distributions on the Subordinated Securities. The Issuer may purchase one or more Hedging Agreements (which may be interest rate swap agreements or interest rate cap agreements) in order to reduce the impact of the interest rate mismatch. However, despite the Issuer having the option of purchasing one or more Hedging Agreements and although distribution of interest Proceeds to the Holders of the Subordinated Securities will be subordinated to the payment of interest on the Secured Notes, there can be no assurance that the Collateral Obligations and the Eligible Investments will in all circumstances generate sufficient interest Proceeds to make timely payments of interest on the Secured Notes or amounts subordinated thereto including distributions to the Holders of the Subordinated Securities.

In the event of the insolvency of a Hedge Counterparty, the Issuer would be treated as a general creditor of such Hedge Counterparty.

Changes in Tax Law, No Gross-Up. A Collateral Obligation will be eligible for purchase by the Issuer if, at the time it is purchased (or committed for purchase), either the payments thereon are not subject to withholding taxes (except for withholding taxes with respect to fees received under a Securities Lending Agreement and commitment fees associated with Collateral Obligations constituting Revolving Credit Facilities or Delayed Funding Term Loans) imposed by any jurisdiction or the obligor is required to make "gross-up" payments that cover the full amount of any such withholding taxes. There can be no assurance that, as a result of any change in any applicable law, treaty, rule or regulation or interpretation thereof, the payments on certain Collateral Obligations (such as Finance Leases, if they were to be treated as leases rather than debt) would not become or be treated as subject to withholding taxes imposed by any jurisdiction. In addition, the Internal Revenue Service and Treasury have requested comments on the treatment of credit default swaps, which often are included as Synthetic Securities, and possible alternative treatments could result in withholding on payments received by the Issuer. In that event, if the collateral of such Collateral Obligations were not then required to make or in fact failed to make "gross-up" payments that cover the full amount of any such withholding taxes, the amounts available to make payments on, or distributions to, the holders of the Securities would accordingly be reduced. There can be no assurance that the remaining payments on the Collateral would be sufficient to make timely payments of interest on and payment in principal at the Stated Maturity of each Class of Secured Notes and, consequently, to make distributions to the Holders of the Subordinated Securities. For additional tax considerations, see "Income Tax Considerations".

In the event that any withholding tax is imposed on payments on the Securities, the Holders of such Securities will not be entitled to receive "gross-up" amounts to compensate for such withholding tax. In addition, upon the occurrence of a Withholding Tax Event, the Issuer may have on any Business Day, whether during or after the Non-Call Period, simultaneously more than one in whole but not in part, at redemption prices specified herein, the Securities in accordance with the procedures described under "Description of the Securities—Optional Redemption—Optional Redemption Procedures" below.

Additional Tax. The Issuer expects to conduct its affairs so that its net income will not become subject to U.S. federal income tax. There can be no assurance, however, that its net income will not become subject to United States federal income tax as a result of unanticipated activities by the Issuer, changes in law, contrary conclusions by the U.S. tax authorities or other causes. Investors should note that the
Footnote Exhibits - Page 5039

Treasury and the Internal Revenue Service recently announced that they are considering taxpayer requests for specific guidance on, among other things, whether a foreign person may be treated as engaged in a trade or business in the United States by virtue of entering into credit default swaps. However, the Treasury and the Internal Revenue Service have not yet provided any guidance on whether they believe entering into credit default swaps may cause a foreign person to be treated as engaged in a trade or business in the United States and if so, what facts and circumstances must be present for this conclusion to apply. Any future guidance issued by the Treasury and the Internal Revenue Service may have an adverse impact on the tax treatment of the issuer. See discussion under the heading "Income Tax Considerations— Tax Treatment of the Issuer" below.

Legislation and Regulations in Connection With the Prevention of Money Laundering. The Uniting and Strengthening America By Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the "UNITA PATRIOT Act") signed into law on and effective as of October 29, 2001, imposes anti-money laundering obligations on different types of financial institutions, including banks, broker-dealers and investment companies. The USA PATRIOT Act requires the Secretary of the United States Department of the Treasury (the "Treasury") to prescribe regulations to define the types of investment companies subject to the USA PATRIOT Act and the related anti-money laundering obligations. It is not clear whether the Treasury will require entities such as the Issuer to enact anti-money laundering policies. It is possible that the Treasury will promulgate regulations requiring the Issuer or the Initial Purchaser or other service providers to the Issuer, in connection with the establishment of anti-money laundering procedures, to share information with governmental authorities with respect to investors in the Securities. Such legislation and/or regulations could require the Issuer to implement additional restrictions on the transfer of the Securities. As may be required, the Issuer reserves the right to request such information and take such actions as are necessary to enable it to comply with the USA PATRIOT Act.

Regulation U Requirements. Regulation U governs certain extensions of credit that are secured by Margin Stock by persons other than securities broker-dealers (such persons, "Regulation U Lenders"). Under current interpretations of Regulation U by the Board of Governors of the Federal Reserve System ("FRB") and its staff, the purchase of a debt security such as the Securities in a private placement may constitute an extension of credit. Among other things, Regulation U generally imposes certain limits on the amount of credit that Regulation U Lenders may extend which is used to purchase or carry Margin Stock ("Purpose Credit"). The provisions of the Indenture and the Collateral Agreement are intended to ensure that (i) the purchasers of the Subordinated Securities (which are not secured by Margin Stock) are not Regulation U Lenders and (ii) the credit extended by purchasing the Secured Notes (which is secured by the Collateral, which may include Margin Stock) is not Purpose Credit. Regulation U Lenders are not subject to the Regulation U credit limits with respect to extensions of credit that are not Purpose Credit.

Regulation U also generally requires Regulation U Lenders (other than persons that are banks within the definition of Regulation U) who are not otherwise exempted from the regulation requirements to register with the FRB. Under an interpretation of Regulation U by the FRB staff, Qualified Institutional Buyers purchasing distressed securities in a transaction in compliance with Rule 144A are not required to register with the FRB where the proceeds of the securities are not Purpose Credit. Non-U.S. Persons purchasing Secured Notes in reliance on Regulation S who do not have their principal place of business in a Federal Reserve District of the FRB are also not required to register with the FRB. However, other purchasers of Secured Notes should consider whether they are required to register with the FRB. In addition, purchasers of Secured Notes subject to the registration requirements of Regulation U, as well as any purchasers of the Secured Notes that are banks within the meaning of Regulation U, may also be subject to certain additional requirements under Regulation U. If the registration or other requirements of Regulation U are applicable, a purchaser of Secured Notes and such purchaser does not comply with such requirements, such failure may affect the enforceability of such purchaser's Secured Notes. See "Security for the Secured Notes—Margin Stock." Purchasers of the Secured Notes should consult their own legal advisors as to Regulation U and its application to them.

Under the Indenture, each purchaser of an interest in a Secured Note will be deemed to have represented that either (i) such purchaser's principal place of business is not located within any Federal Reserve District of the United States Federal Reserve Bank or (ii) such purchaser has satisfied and will
Footnote Exhibits - Page 5040

satisfy any applicable registration or other requirements of the FRB including, without limitation, Regulation U, in connection with its acquisition of the Secured Notes.

Dependence on the Collateral Manager and its Investment Professionals. The success of the Issuer will be highly dependent on the managerial expertise of the Collateral Manager. As a result, the Issuer will be highly dependent on the managerial expertise of certain individuals comprising the Collateral Manager's management team. There is no requirement that there be employment arrangements with those individuals for the benefit of the Collateral Manager. The individuals comprising the Collateral Manager's management team are also actively involved in other investment activities and will not be able to devote their full time and attention to the Issuer's business and affairs. The loss of any of these individuals could have a material adverse effect on the performance of the Issuer. See "The Collateral Manager—Key Personnel".

Certain Conflicts of Interest. Various potential and actual conflicts of interest may arise from the overall advisory, investment and other activities of the Collateral Manager, its Affiliates and/or any funds managed by the Collateral Manager and their respective clients and employees and from the conduct by the Initial Purchaser and its Affiliates of other transactions with the Issuer, including, without limitation, acting as counterparty with respect to the Hedge Agreements, the Securities Lending Agreements and Synthetic Securities. The following briefly summarizes some of these conflicts but is not intended to be an exhaustive list of all such conflicts.

Conflicts of Interest Involving the Collateral Manager and Affiliates. Various potential and actual conflicts of interest may arise from the overall investment activities of the Collateral Manager and its Affiliates and their respective clients and employees. The Collateral Manager and its Affiliates may invest, on behalf of themselves and other clients, in securities that would be appropriate as Collateral Obligations. The Collateral Manager and its Affiliates may also give advice or take action for their own account or their other client accounts with similar strategies which may differ from advice given or action taken for the Issuer. The Collateral Manager and its Affiliates may also have ongoing relationships with counterparties whose securities are Collateral Obligations, and may own, directly or through other funds that they manage, equity or debt securities issued by obligors of Collateral Obligations or other Collateral. The Collateral Manager and its Affiliates may also provide certain services for a negotiated fee to companies whose obligations or other securities are pledged to secure the Issued Notes. In addition, the Collateral Manager, its Affiliates and their respective clients and employees may invest, or have already invested, in obligations and/or other securities that are identical to or senior to, or have interests different from or adverse to, the Collateral Obligations. In addition, the Collateral Manager and the Initial Purchaser or any of its respective Affiliates may serve as a general partner, adviser, officer, director, sponsor or manager of partnerships or companies organized to issue collateralized bond or loan obligations secured by non-investment grade bank loans. The Collateral Manager may at certain times be engaged in seeking investments to purchase for the Issuer while at the same time the Collateral Manager or one or more Affiliates is also seeking to purchase or has purchased similar or identical investments for its own account or clients or Affiliates or any other entity for which it serves as a general partner, adviser, officer, director, sponsor, manager or collateral manager. By reason of the various activities of the Collateral Manager and its Affiliates, the Collateral Manager and such Affiliates may acquire confidential or material non-public information or be restricted from effecting transactions in certain Collateral Obligations or other Collateral that otherwise might have been initiated or prevented from liquidating a position. At times, the Collateral Manager, is an effort to avoid restrictions for the Issuer and its other clients, may elect not to receive information that other market participants or counterparties are eligible to receive or have received.

Neither the Collateral Manager nor any Affiliate thereof has any obligation (affirmative or otherwise) to offer any investments to the Issuer or to inform the Issuer of any investments before offering any investments to other funds or accounts that the Collateral Manager or any of its Affiliates manages or advises. The Collateral Manager and its Affiliates may also make investments on their own behalf without offering such investment opportunities to the Issuer. Furthermore, the Collateral Manager and its Affiliates may be bound by affirmative obligations at present or in the future, whereby it or they are obligated to offer certain investments to funds or accounts that it or they manage or advise before or without the Collateral Manager or its Affiliates offering those investments to the Issuer. Alternatively, the Collateral Manager and its Affiliates may offer certain investments to funds or accounts that it or they manage or advise simultaneously with or in

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918261

-27-
addition to offering those investments to the Issuer. Thus, other funds or accounts that it or they manage or advise could become co-investors with the Issuer.

The Collateral Manager will endeavor to resolve conflicts with respect to investment opportunities in a manner which it deems equitable (in its sole discretion) to the extent possible under the facts and circumstances. Further, the Collateral Manager will be prohibited under the terms of the Collateral Management Agreement from directing the acquisition of Collateral Obligations from, or disposition of Collateral Obligations to, its Affiliates or any other account managed by the Collateral Manager or any of its Affiliates except in a transaction conducted on terms as favorable to the Issuer as would apply if such person were not so affiliated.

On each Payment Date, the Collateral Manager will be paid the Incentive Collateral Management Fee to the extent of funds available in accordance with the Priority of Payments if the holders of the Subordinated Securities have earned the Specified Internal Rate of Return as of such Payment Date. See "The Collateral Management Agreement—Compensation of the Collateral Manager". The manner in which the Incentive Collateral Management Fee is determined could create an incentive for the Collateral Manager to make more speculative investments in the Collateral Obligations than would otherwise be the case in order to increase the likelihood that the holders of the Subordinated Securities receive the Specified Internal Rate of Return for the Collateral Manager to be paid the Incentive Collateral Management Fee. Speculative investments in Collateral Obligations could lead to a higher level of defaults on the Collateral Obligations than initially expected, which could result in reductions or delays in payments on the Securities.

Upon the removal or resignation of the Collateral Manager, the holders of a majority of the Subordinated Securities may direct the Issuer to appoint a replacement collateral manager in the manner provided in the Collateral Management Agreement. Subordinated Securities held by the Collateral Manager or any of its Affiliates will have no voting rights with respect to any vote on the removal or replacement of the Collateral Manager and will be deemed not to be outstanding in connection with any such vote, provided, however, that Subordinated Securities and Secured Notes held by the Collateral Manager or any of its Affiliates will have voting rights with respect to all other matters as to which the holders of Subordinated Securities or holders of the Secured Notes are entitled to vote, including, without limitation, any vote to direct an optional redemption of the Securities or a redemption following a Withholding Tax Event and any vote to appoint a replacement collateral manager that is not an Affiliate of the Collateral Manager pursuant to the Collateral Management Agreement. See "The Collateral Management Agreement" and "Description of the Securities—Optional Redemption".

Under the Collateral Management Agreement, the Collateral Manager is permitted to recommend or effect direct trades between the Issuer and the Collateral Manager or an Affiliate or funds or accounts for which the Collateral Manager or an Affiliate serve as collateral manager, acting as principal or agent, subject to applicable legal requirements. The Collateral Manager, its Affiliates, and their respective employees may invest in obligations that would be appropriate as Collateral. Such investments may be different from those made on behalf of the Issuer. The Collateral Manager and its Affiliates may also have ongoing relationships with, render services to or engage in transactions with, companies whose obligations are included in the Collateral and may own equity or debt securities issued by issuers of other obligations of Collateral Obligations. As a result, officers or Affiliates of the Collateral Manager may possess information relating to obligations of Collateral Obligations which is not known to the individuals at the Collateral Manager responsible for monitoring the Collateral and performing the other obligations under the Collateral Management Agreement. The possession of this information by the Collateral Manager (even if such information is not known to the individuals at the Collateral Manager responsible for monitoring the Collateral and performing the other obligations under the Collateral Management Agreement) may result the Collateral Manager from purchasing or selling securities of those obligors. In addition, Affiliates and clients of the Collateral Manager may enter into transactions with certain obligors that are similar to, or have interests different from or adverse to, the Collateral Obligations. The Collateral Manager and/or its Affiliates may at certain times be simultaneously seeking to purchase or dispose of investments for its respective account, the Issuer, any similar entity for which it serves as manager or advisor and for its clients or Affiliates. It is the intention of the Collateral Manager that all Collateral Obligations will be purchased and sold by the Issuer on terms prevailing in the market. Neither the Collateral Manager nor any of its Affiliates is under any obligation to offer investment opportunities of which any of its Affiliates is aware to the Issuer or to account to the Issuer (or share with the Issuer or inform the

Confidential Treatment Requested by Goldman Sachs

GS MBS-E-001918262
Footnote Exhibits - Page 5042

Issuer of any such transaction or any benefit received by them from any such transaction. Furthermore, the Collateral Manager and/or its Affiliates may make an investment on behalf of any account that they manage or advise without offering the investment opportunity or making an investment on behalf of the Issuer. The Collateral Manager and/or its Affiliates have no affirmative obligation to offer any investments to the Issuer or to inform the Issuer of any investments before offering any investments to other funds or accounts that the Collateral Manager and/or its Affiliates manage or advise. Furthermore, Affiliates of the Collateral Manager may make an investment on their own behalf without offering the investment opportunity to the Issuer. Affirmative obligations may exist, or may arise in the future, whereby Affiliates or the Collateral Manager are obligated to offer certain investments to funds or accounts that such Affiliates manage or advise before or without the Collateral Manager offering those investments to the Issuer. Affiliates of the Collateral Manager have no affirmative obligations to offer those investments to the Issuer or to inform the Issuer of any investments before engaging in any investments for themselves. The Collateral Manager will endeavor to resolve conflicts with respect to investment opportunities in a manner that it deems equitable (in its sole discretion) to the extent possible under the prevailing facts and circumstances.

Although the professional staff of the Collateral Manager will devote as much time to the Issuer as the Collateral Manager deems appropriate (in its sole discretion), the staff may have conflicts in allocating its time and services among the Issuer and the Collateral Manager’s other accounts.

Funds managed by Greywolf will commit to purchase up to 100% of the initial notional amount of the Subordinated Securities. Thereafter, such funds may transfer or sell any such Subordinated Securities held thereby at any time and from time to time. As a Holder of Subordinated Securities, such funds may have interests adverse to the other Holders of Securities.

Members of the board of directors of the issuer who are not affiliated with the Collateral Manager or their delegates or other authorized representatives of the Issuer will have the responsibility for approving any transactions between the Issuer and the Collateral Manager or its Affiliates involving significant conflicts of interest (including principal trades). More particularly, directors unaffiliated with the Collateral Manager or any delegate designated by such directors will be responsible for approving any principal transactions for which Issuer consent is required pursuant to Section 206(3) of the Investment Advisers Act of 1940, as amended (the “Advisers Act”).

In addition, with the prior authorization of the Issuer, which has been given and can be revoked at any time, the Collateral Manager and/or its Affiliates may enter into agency cross-transactions where the Collateral Manager and/or its Affiliates act as broker for the Issuer and for the other party to the transaction, to the extent permitted under applicable law, in which case the Collateral Manager or any such Affiliate will receive commissions from, and have a potentially conflicting division of loyalties and responsibilities regarding, both parties to the transaction.

The Collateral Manager and its Affiliates are not required to obtain approval for any transaction unless such approval is required by law.

Conflicts of Interest involving the Initial Purchaser and Affiliates. The Initial Purchaser and/or its Affiliates may have placed or underwritten certain of the Collateral Obligations at original issuance and may have provided investment banking services, advisory, banking and other services to Issuers of Collateral Obligations. The Initial Purchaser may, from time to time as principal or through one or more investment funds that it manages, make investments in the equity securities of one or more of the Issuers of Collateral Obligations with the result that one or more of such Issuers may be or may become controlled by the Initial Purchaser. The Initial Purchaser may not have completed its resale of the Securities by any date certain, which could affect the liquidity of the Securities as well as the ability of the Initial Purchaser to make a market in the Securities. From time to time, the Collateral Manager on behalf of the Issuer may purchase or sell Collateral Obligations through the Initial Purchaser and/or any of its Affiliates (collectively, “Initial Purchaser Entities”). The Issuer may invest in the securities of companies affiliated with the Initial Purchaser Entities or in which the Initial Purchaser Entities have an equity or participation interest. The purchase, holding and sale of such investments by the Issuer may enhance the profitability of the Initial Purchaser Entities’ own investments in such companies. In addition, it is expected that an Initial Purchaser Entity may also act as counterparty with respect to one or more Synthetic Securities or Securities Lending Agreements and may act as Hedge Counterparty with respect to one or more Hedge Agreements. In connection with the resale of the

Footnote Exhibits - Page 5043

Securities, a Initial Purchaser Entity expects to enter into one or more hedging arrangements relating to a portion of the Securities. Such hedging arrangements will be entered into by such Initial Purchaser Entity with one or more purchasers of the Securities or with one or more counterparties to such Initial Purchaser Entity. The Issuer may invest in money market funds that are managed by Graywolf or its Affiliates or the Initial Purchaser Entities or for which the Trustee or its Affiliates provides services, provided that such money market funds otherwise qualify as Eligible investments.

The Issuer's purchase of Collateral Obligations, at the direction of the Collateral Manager, prior to the Closing Date was financed through the sale of participation interests therein to one or more Affiliates of Goldman, Sachs & Co. pursuant to a master participation agreement. Any gains or losses realized by the Issuer in respect of Collateral Obligations that are sold or otherwise disposed of prior to the Closing Date will be for the Issuer's account. Collateral Obligations owned by the Issuer on the Closing Date were purchased in the open market, and the purchase price paid by the Issuer for such Collateral Obligations is the prevailing price at the time such Collateral Obligations were purchased. Because the purchase price of Collateral Obligations owned by the Issuer on the Closing Date is determined prior to such date, the prevailing market price of such Collateral Obligations on the Closing Date may be higher or lower than such purchase price. Accordingly, any unrealized losses or gains experienced by the Issuer in respect of the Collateral Obligations acquired by the Issuer prior to, and owned by the Issuer on, the Closing Date will be for the Issuer's account.

Irish Stock Exchange Listing: Application has been made to the Irish Financial Services Regulatory Authority, as competent authority under Directive 2003/71/EC, for this Offering Circular to be approved. Application has been made to the Irish Stock Exchange for the Securities to be admitted to the Official List and to trading on its regulated market. There can be no assurance that such admission will be approved or maintained. The Indenture provides that, if the Collateral Manager or the Issuer determines that the maintenance of the listing of any of the Securities on the Irish Stock Exchange is unduly onerous or burdensome, including, but not limited to, circumstances in which the obtaining or maintenance of a listing on such securities exchange would require preparation of management reports or financial statements, or in any circumstances where the requirements of the European Union Transparency Obligations Directive would apply to either of the Issuers, the Issuers will have the right to de-list (and will de-list at the sole discretion of the Collateral Manager) such Securities. The Issuers will use reasonable endeavors to obtain a listing of such Securities on another securities exchange as the Issuers may choose, except that no obligation to obtain such alternative listing shall exist if the alternative listing or maintenance of the alternative listing would itself be unduly onerous and burdensome in the judgment of the Collateral Manager in its sole discretion.

DESCRIPTION OF THE SECURITIES

The Securities will be issued pursuant to the Indenture. The following summary describes certain provisions of the Securities and the Indenture. The summary does not purport to be complete and is subject to, and qualified in its entirety by reference to, the provisions of the Indenture. Copies of the Indenture may be obtained as described under "Listing and General Information." Status and Security:

The Co-Issuer Notes will be limited recourse secured obligations of the Issuer, the Class E Notes will be limited recourse secured obligations of the Issuer and the Subordinated Securities will be limited recourse unsecured obligations of the Issuer. Payments of interest on and principal of the Secured Notes and distributions to the Holders of the Subordinated Securities will be made solely from the proceeds of the Collateral, in accordance with the priorities described under "Priority of Payments." The Subordinated Securities will not be secured obligations of the Issuer and will be entitled to receive amounts available for distribution only after payment of all amounts payable prior thereto under the Priority of Payments.

All Securities of a single Class rank pari passu with all other Securities of the same Class. See "Priority of Payments." The right of payment with respect to the Securities is described in the "The Offering—Summary—Status and Subordination." The right of payment with respect to the Securities is described in the "Summary—The Offering—Status and Subordination."
Footnote Exhibits - Page 5044

The entire principal amount of the Secured Notes will be issued and outstanding on the Closing Date.

Under the terms of the Indenture, the Issuer will grant to the Trustee, on behalf of the Secured Parties, a perfected security interest in the Collateral that is of first priority, free of any adverse claim or the legal equivalent thereof, as applicable, to secure the Issuer’s obligations with respect to the Secured Parties. See “Security for the Secured Notes”.

Interest

The Secured Notes will bear interest from the Closing Date at the per annum rates set forth under “Summary—The Offering—Securities Issued,” payable, in each case, quarterly in arrears on each Payment Date commencing August 18, 2007 and on the Stated Maturity. The Holders of the Subordinated Securities will be entitled to receive any excess Interest Proceeds in accordance with and subject to the Priority of Payments, to the extent funds are available therefor.

During the Reinvestment Period, Interest Proceeds remaining on each Scheduled Payment Date prior to the payment of certain unpaid subordinated expenses and any unpaid hedge termination payments, distribution to the Collateral Manager in respect of the Incentive Collateral Management Fee and distributions in respect of the Subordinated Securities will be used to reinvest in Collateral Obligations up to the amount necessary to satisfy the Reinvestment Test (but not to exceed 50% of such remaining Interest Proceeds available on such Scheduled Payment Date). As a result, distributions to the Holders of Subordinated Securities will be reduced to the extent of the portion of Interest Proceeds used during the Reinvestment Period to reinvest in Collateral Obligations. See “—Priority of Payments—Interest Proceeds”.

For so long as any senior Class or Classes of Securities are outstanding, to the extent that funds are not available to pay the full amount of interest on the Class C Notes, the Class D Notes or the Class E Notes on any Payment Date in accordance with the Priority of Payments, the amount of Deferred Interest with respect to each such Class of Securities will be deferred and added to the principal amount of such Class of Securities and will bear interest at the interest rate applicable to such Class of Securities to the extent lawful and enforceable, and the failure to pay the Deferred Interest of each such Class of Securities will not be an Event of Default under the Indenture. See “—Priority of Payments” and “—The Indenture—Events of Default”.

Interest will cease to accrue on each Secured Note, or, in the case of a partial repayment, on such part, from the date of repayment or Stated Maturity unless payment of principal is improperly withheld or unless there is otherwise a default with respect to such payments of principal. See “—Principal.” To the extent lawful and enforceable, interest on any Defaulted Interest on the Secured Notes will accrue at the interest rate applicable to such Secured Notes, until paid as provided herein.

Interest on the Floating Rate Notes will be calculated on the basis of the actual number of days elapsed in the applicable Interest Accrual Period divided by 360, commencing on the Closing Date.

For purposes of determining any Interest Accrual Period, if any Payment Date or Stated Maturity, as the case may be, is not a Business Day, then the Interest Accrual Period ending on such Payment Date or Stated Maturity, as the case may be, shall be extended to but excluding the date on which payment is required to be made pursuant to the Indenture and the succeeding Interest Accrual Period shall begin on and include such date. In the event that the date of any Payment Date or the Stated Maturity, as the case may be, shall not be a Business Day, then payment need not be made on such date, but may be made on the next succeeding Business Day with the same force and effect as if made on the nominal date of any such Payment Date or Stated Maturity, as the case may be, and, other than with respect to any Interest Accrual Period for a Class of Secured Notes ending on the Stated Maturity of such Class of Secured Notes, no interest shall accrue on such payment for the period from and after any such nominal date, provided that, in the case of the Floating Rate Notes only, interest shall accrue from and including the immediately preceding Payment Date or, in the case of the first Payment Date, the Closing Date to but excluding the following Payment Date or the Stated Maturity, as applicable.

GS MBS-E-001918265
For purposes of calculating the Floating Rate Note Interest Rates, the Issuers will appoint the Trustee as calculation agent (solely in such capacity, the "Calculation Agent"). LIBOR shall be determined by the Calculation Agent in accordance with the provisions set forth under the definition of "LIBOR".

The Calculation Agent may be removed by the Issuers at any time, if the Calculation Agent is unable or unwilling to act as such or is removed by the Issuers, or if the Calculation Agent fails to determine the Floating Rate Note Interest Rates and the Floating Rate Note Interest Amounts for any Interest Accrual Period, the Issuers will promptly appoint as a replacement Calculation Agent a leading bank which is engaged in transactions in Eurodollar deposits in the international Eurodollar market and which does not control or is not controlled by or under common control with the Issuers or their Affiliates. The Calculation Agent may not resign its duties without a successor having been duly appointed. For so long as any of the Floating Rate Notes remain Outstanding, there will at all times be a Calculation Agent for the purpose of calculating the Floating Rate Note Interest Rates. In addition, so long as any of the Securities are listed on the Irish Stock Exchange and the rules of such Exchange so require, the Issuer will publish in the Irish Stock Exchange's Official List notice of the appointment, termination or change in the office of such Calculation Agent.

The Calculation Agent will cause the Floating Rate Note Interest Rates, the Floating Rate Note Interest Amounts and the Payment Date to be communicated to, in the case of the Secured Notes, Euroclear, Clearstream, the Collateral Manager and the Irish Paying Agent for delivery to the Irish Stock Exchange (as long as any of the Securities are listed thereon) by the Business Day immediately following each LIBOR Determination Date. The determination of the Floating Rate Note Interest Rates and the Floating Rate Note Interest Amounts by the Calculation Agent shall (in the absence of manifest error) be final and binding upon all parties.

Principal

Principal will not be payable on the Secured Notes and Principal Proceeds will not be distributed to the Holders of the Subordinated Securities prior to the end of the Non-Call Period, except (i) as a result of a mandatory redemption as described in "—Mandatory Redemption," (ii) upon occurrence of an optional redemption following a Withholding Tax Event as described under "—Optional Redemption" and (iii) as described in the next two paragraphs.

On each Scheduled Payment Date during the Reinvestment Period, Principal Proceeds will be distributed to the Holders of the Secured Notes in accordance with the Priority of Payments, if the Collateral Manager determines, in its sole judgment (which judgment shall not be subject to question as a result of subsequent events), that it is impractical or not beneficial to reinvest such Principal Proceeds by the end of the applicable Investment Due Period.

Principal will be payable on the Class S Notes in accordance with the Priority of Payments on each Payment Date in an amount equal to the Class S Principal Distribution Amount with respect to such Payment Date.

On each Scheduled Payment Date after the Reinvestment Period and on the Stated Maturity, principal will be payable on the Secured Notes and, after the Secured Notes have been paid in full, Principal Proceeds will be distributable to the Holders of the Subordinated Securities in accordance with the Priority of Payments to the extent of Principal Proceeds received in the related Due Period, provided that the Collateral Manager may elect to reinvest Eligible Post Reinvestment Proceeds received after the Reinvestment Period in Collateral Obligations or tend them for reinvestment in Collateral Obligations prior to the end of the Investment Due Period, subject to the exceptions described herein. See "Security for the Secured Notes—Sale of Collateral Obligations; Substitute Securities; Exchange of Defaulted Obligations and Reinvestment Criteria". The Collateral Manager will exercise its sole discretion in determining whether to reinvest Eligible Post Reinvestment Proceeds received after the Reinvestment Period. Payments of principal or notional amount, as applicable, of the Securities described in the first sentence of this paragraph will be at the applicable Secured Note Redemption Price and will not constitute an optional redemption.

GS MBS-E-001918266
Sale of Collateral Prior to Stated Maturity

On or prior to the date that is two Business Days prior to the Stated Maturity of the last Outstanding Security, the Collateral Manager on behalf of the Issuer shall direct the Trustee in writing to sell all Collateral Obligations to the extent necessary such that no Collateral Obligations will be held by the Issuer on or after such date. The settlement dates for any such sales of Collateral Obligations shall be no later than two Business Days prior to the Stated Maturity of the last Outstanding Security. The proceeds of such sale shall be applied in accordance with the Priority of Payments.

Optional Redemption
