HEARING ADVISORY

Boustany and Brady Announce Hearing on the Verification of Income and Insurance Information Under the Affordable Care Act

1100 Longworth House Office Building at 10:30 AM
Washington, June 3, 2014

House Ways and Means Oversight Subcommittee Chairman Charles Boustany, Jr., M.D. (R-L(A)) and Health Subcommittee Chairman Kevin Brady (R-T(X)) today announced that the subcommittees will hold a joint hearing on the verification system for income and eligibility for tax credits under the President's health care law. The hearing will take place on Tuesday, June 10, 2014, in 1100 Longworth House Office Building, beginning at 10:30 A.M.

In view of the limited time available to hear from witnesses, oral testimony at this hearing will be from invited witnesses only. However, any individual or organization not scheduled for an oral appearance may submit a written statement for consideration by the Committee and for inclusion in the printed record of the hearing. A list of invited witnesses will follow.

BACKGROUND:

The Affordable Care Act (ACA) created an income-based premium tax credit for certain individuals who purchase health insurance through the new Exchanges. The accuracy of these tax credits, which began this year, depends on multiple pieces of data, including an individual's income and eligibility for affordable employer-sponsored insurance. The Administration's 2013 decision to delay employer-reporting requirements has further complicated the government's ability to verify an offer of "affordable employer-sponsored insurance."

Without accurate income and insurance information, the government is unable to guarantee the accuracy of the tax credits, which are paid directly to insurance companies. The consequences of this failure may result in overpayments, which the ACA requires the IRS to recoup directly from individuals during the 2015 tax-filing season.

The Continuing Appropriations Act, 2014 required that "prior to making such credits and reductions available, the Secretary shall certify to the Congress that the Exchanges verify such eligibility consistent with the requirements of such Act." Despite the difficulties in the launch of the Exchanges and healthcare.gov, on January 1, 2014, Health and Human Services Secretary Kathleen Sebelius provided Congress with such certification. Subsequently, reports have indicated that the Department of Health and Human Services and the Exchanges are in fact having difficulty verifying income. For example, on May 17, *The Washington Post* reported, "The government may be paying incorrect subsidies to more than 1 million Americans for their health plans in the new federal insurance marketplace and has been unable so far to fix the errors."

The hearing will explore the sufficiency of government's procedures to verify income and insurance information and ensure the accuracy of premium tax credits. The hearing will also examine the challenges employers and individuals are likely to face in the 2015 tax-filing year due to new employer-reporting requirements and unexpected tax debt for individuals because of subsidy recapture.

In announcing the hearing, Chairman Boustany stated, **"As with many other problems - from stimulus to healthcare.gov—the Administration prefers to spend taxpayer dollars first and ask questions later. The White House took a poorly written law and implemented it incompetently. At the end of the day, employers and individual taxpayers will pay the price. The Committee has been warning about this problem for some time, and has an obligation to continue holding the Administration accountable."**

In announcing the hearing, Chairman Brady stated, **"It's clear the ACA income and eligibility verification system is not ready and not complete. I'm deeply concerned about the fairness of imposing the risk and burden onto individual taxpayers for the disastrous implementation of this poorly designed law. Millions of Americans could be hit with a large and surprising tax bill on April 15th, and the White House doesn't appear to be doing much to fix the problems."**

FOCUS OF THE HEARING:

The hearing will focus on the government's ability to verify income and insurance information, ensure accuracy of premium tax credits, and the likely effect of these challenges on the 2015 tax-filing season.

Chairman BRADY. Good morning, everyone. This hearing will come to order.

Before we start, I would like to recognize the ranking member, Dr. McDermott, for a statement.

Mr. MCDERMOTT. Thank you, Mr. Chairman.

Before we start today, I want to acknowledge the service of Jennifer Friedman.

Jennifer has been with the Ways and Means Committee for 7 years and has handled Medicare things on a variety of levels, and this is her last week of service. She is on her way to Japan. Her husband is in the State Department, and she going to take a Council of Foreign Relations fellowship there, and we want to thank her for her service. Jennifer, please stand up.

Chairman BRADY. Jennifer, you will be missed, and best wishes.

As we begin this hearing, you may remember then Speaker Nancy Pelosi famously warned Congress and the American people about the Affordable Care Act: We have to pass the bill so we can find out what is in it. Over 4 years later, the American people continue to learn and continue to be surprised.

Today the Health and Oversight Subcommittees will hear testimony about yet another surprise. Today, 8 months after the start of open enrollment and well over a month after the extended open enrollment ended, the income and eligibility verification system is not yet completed and the burden and the cost of that failure will fall on the American people. That is simply unfair and unacceptable.

What we will hear today from our distinguished panel is trouble. Potentially millions of Americans are currently receiving the wrong tax credits and cost-sharing subsidies, including some people that are completely ineligible to receive any at all. As required by the Affordable Care Act, individuals who receive subsidy overpayments must repay the government. Americans who tried to do the right thing could be hit with unexpected tax bills from the IRS next April.

For many, this could mean thousands of dollars and while the cost of the loss failures fall on the individual, the blame for this mess falls squarely on the White House. Time after time Republicans on this committee raised concerns with the administration witnesses sitting in these chairs, including cabinet officers and IRS commissioners, and we said the website, the exchanges, the eligibility verification systems, were not ready to go, but the White House pushed ahead, focusing on the advertising campaign, launching healthcare.gov instead of the steps to make the system actually work.

As a result, according to the Washington Post, piles of unprocessed proof documents are sitting in the Federal contractor's Kentucky office while incorrect subsidies continue to be paid. Because the system isn't ready, these inconsistencies have to be resolved manually one by one, and there are over 1 million related to income alone, and the contractors haven't even started.

As we will hear, for the verification system to work as designed, a massive amount of reporting data is required from employers, data the Government has never collected before. The amount of data is so massive, that around this time last year, the White

House gave up and delayed reporting requirements for 2014, after legitimate complaints from businesses about the cost of compliance.

We are not here to revisit the controversy that decision set off, but it is important to understand that decision meant very plainly and very clearly that for 2014, there is not a working verification system.

In order to effectively manage the Affordable Care Act, the administration either needs to employ a reporting information. Why else would you impose such a high cost on employers? The information is needed to enforce the so-called firewall, that prohibits an individual with an offer of affordable employer insurance from receiving tax credits, and yet it does not exist for 2014.

All that is left is for the American people to verify their eligibility for themselves. They need to understand the rules around the offer of affordable health insurance. They need to know it is on them to notify the Government if they have received a raise or had a child or lost a loved one. If they don't understand this, they could be hit with a tax bill for thousands of dollars, and that is not fair.

Democrats and Republicans came together and passed a law last October that stated very clearly that before any tax credit went out, the secretary of HHS had to certify to Congress that the verification system was working. Clearly Secretary Sebelius erred in sending that certification. It wasn't working then and it isn't working today, and the burden and cost of that failure will fall on the American people. It isn't fair and it isn't right.

Before I recognize Health Subcommittee Ranking Member Dr. McDermott for the purposes of an opening statement, I ask unanimous consent that all members' written statements be included in the record. Without objection, so ordered.

I now recognize Mr. McDermott for his opening statement.

Mr. MCDERMOTT. Thank you, Mr. Chairman.

Our Republican colleagues have called us here this morning once again to try to tear down the Affordable Care Act, to find all the defects they possibly can before the election. They have staged this political event, really, to blow another implementation issue out of proportion. What is more, they have decided that one subcommittee isn't enough. They needed to put together two subcommittees to prove a purely partisan political point.

It really is a disappointing choice on my Republican colleagues' part, because they should accept that the ACA is working. Seven million people have joined. Many states have accepted Medicare expansions. Access to quality health care coverage has expanded dramatically since we enacted the law. Eight million people have bought insurance through the exchanges. Six million middle class people have saved money through tax—

[Audible alarm.]

Mr. MCDERMOTT. There is a flash flood warning.

Mr. THOMPSON. Roll up your pants.

Chairman BRADY. Republicans did not make that announcement.

Mr. MCDERMOTT. They did not.

The success of this act, though, is really unquestionable and you can see it in the New York Times yesterday where they had the story about Texarkana, Texas, on the border with Arkansas, and

people on one side of the street had health care, and on the other side, they don't. You can see that this information is seeping out across the country.

But access isn't everything, and we still have plenty to do with the ACA even today. We must control the cost. I am hand in hand with the chairman on that issue. That is why I have been working to combat the fraud, the waste and the abuse in the system and to promote shared savings programs that save providers, taxpayers and patients money.

Reforms such as these will reform the ACA and provide better health security to American families, but instead of working on that issue and building on the success of the ACA, we are called here today to talk about a distorted view of the premium tax credit verification system.

Virtually none of the criticisms are sincere and there is little or no facts to support their claims. Everybody knew that when you tried to enroll 30 million people, you would have errors. We might even look to ourselves in the mirror and remember how many times we have filled out something wrong and it was not considered fraud or abuse or waste, just human error.

When my Republican colleagues talk about inconsistencies, they are not telling the full story. Although there have been inconsistencies, only a fraction actually impact anyone's tax credits. In fact, many inconsistencies relate to applications that were never even completed.

Now, just think about what the solution to the issue is. A letter was written to Secretary Lew to stop all tax credits. Now, you have got seven million people out there enrolled, and suddenly we are going to put a blanket stop on everything. That is trying to kill the law. If my colleagues on the other side had their way, no middle class families, even those without inconsistencies, would benefit from the tax credits for the foreseeable future.

And when we hear the other side pretend that these inconsistencies are unprecedented, let's look at the facts. Medicaid, CHIP and other highly successful programs have handled similar data inconsistencies before. We saw this morning when we wrote the ACA—we saw this coming when we wrote the ACA, which is why we included provisions to correct the inaccuracies. It is important to get this right, and designed the system to make sure that we did.

The more data that comes out, the more stories we hear of people getting coverage, the more we can ensure the ACA is working. Just this past Thursday, a new Gallup Poll showed that the uninsured rate in America is at its lowest point since Gallup began selecting such data. That is not political spin or fuzzy math to say that the ACA has been a success. The Republicans should join Democrats in discussing how to make it even better and for that reason, I am glad we are having the hearing, but it ought to be about how we control costs, not about inconsistencies, which ultimately we will have a hearing on this.

A year from now, if we haven't got a better system than we have got today, that would be one thing, but when you take 3 months in and say you are going to have everything perfect, you simply have never tried to do anything, whether it is build a car, build a

missile. How many failures do we have in the missile system? Did we have them in every week to say, how many failures have you had? That is what we are doing here. We are jumping before it really needs to be done.

I yield back the balance of my time.

Chairman BRADY. I now recognize the Oversight and Subcommittee Ranking Member, Mr. Lewis, for his opening statement.

Mr. LEWIS. Thank you very much.

Thank you very much, Mr. Chairman, Mr. McDermott.

In my heart of hearts, I believe that health insurance or health care is a right. When President Obama signed the Affordable Care Act into law, a new day began, one that was free of worry about what would happen if someone in their family got sick. The Affordable Care Act has opened the door for millions of Americans to access this sacred right for the first time in our country's history.

Let us take a moment to review the many accomplishments of the Affordable Care Act. Eight million people now have health insurance coverage; 3.1 million young people are able to stay on their parents' health plan instead of being uninsured; and 129 million Americans, including 17 million children, with pre-existing conditions are no longer denied coverage or charged high premiums.

Sometimes I think we forget what it is like to get sick and not be able to go to the hospital or see a doctor. We forget or maybe we do not know what it is like to look at the face of your sick son or your sick daughter and know that you cannot afford the treatment they need. The Affordable Care Act changed that reality for millions of people.

Today women can now no longer be charged high premiums just because they are women and 105 million Americans no longer face a dollar limit on their coverage. This means that if faced with an expensive disease like cancer, they know their treatment will be covered and their family will not go bankrupt.

The Affordable Care Act did that. This is a law that has literally saved people's lives by giving them health insurance for the first time. We will not and must not return to the dark days when many of our fellow citizens could not afford health care and the Federal Government did nothing.

Republicans have voted 52 times to repeal the Affordable Care Act. Whenever a topic about the ACA is on the table, it seems to be a code for one thing: repeal, destroy, go back. We have come too far, we have made too much progress, and we are not going back. After 52 votes to nowhere, I think it is very clear that we will not go back. Instead of focusing on repeal, we should encourage improvement. For the good of all of our citizens, we need to look forward and put an end to the political games.

Realizing the dream of health care has meant a new challenge for the Federal Government. It has not been easy, it is not a light task. We must ensure that the agencies have the resources, the staff, training and technology that they need to help our citizens, our people to get the health care services they need and deserve.

I hope that we can put our differences aside and come together to make the transition smoother for our citizens, for the most vulnerable people in our society and for those trying to serve them.

Thank you, and I yield back, Mr. Chairman.

Chairman BRADY. Thank you.

I now recognize the Chairman of the Oversight Subcommittee, Mr. Boustany.

Chairman BOUSTANY. Thank you, Chairman Brady, for convening this really important hearing.

In recent years, the Ways and Means Subcommittees on Oversight and Health have held numerous hearings on the implementation of the Affordable Care Act, including the new tax burdens under the law, the improper administration of tax credits, and taxpayer rights.

This morning's hearing will explore the Affordable Care Act's income and eligibility verification system, which lies at the nexus of all three of these concerns. What is increasingly clear is that even if this system works as intended, there is a potential nightmare scenario developing for the 2015 tax filing season.

Under the Affordable Care Act, the Internal Revenue Service will distribute over \$1 trillion in new premium subsidies over the next decade, \$1 trillion. To administer these subsidies accurately, the Federal Government requires precise and timely information about income, family status, the availability of employer-sponsored insurance, and other eligibility information. Yet after implementation delays, failures of healthcare.gov, and other poor administration, the Federal Government lacks this information, but has nonetheless begun to pay out billions of dollars in potentially incorrect premium subsidies. We know from experience where this story leads, and it does not end well for the American taxpayers.

The rate of improper payments across the Federal Government is 4.35 percent. The rate of improper payments for the earned income tax credit, which like premium subsidies is paid based on income calculations, is approximately 22 percent, the worst error rate in Government. If this new subsidy is implemented with the average degree of improper payment, the low end for the IRS, the Federal Government will pay out over \$44 billion in improper payments.

If premium subsidies are administered with the same degree of accuracy as the earned income tax credit, the Federal Government will pay out a whopping \$220 billion in improper payments over 10 years. We have to get a handle on this and we haven't gotten a handle on the EITC, and yet we have this whole new area of implementation.

Although these subsidies are going correctly to insurers next year, the IRS will be in the position of recouping overpayments directly from individuals. Many of these individuals will end up with unexpected tax debt through no fault of their own, but from simply not understanding the quirks and complexities of the President's health law.

The rules regarding employer-sponsored insurance, for example, can leave a taxpayer owing the IRS the entirety of their subsidy payments. These are not hypothetical problems in the distant future. These are problems developing now and ones that will haunt taxpayers and businesses during the next filing season. I hope today's hearing will cast new light on these issues.

And I want to thank our guests for joining us in this very important discussion.

I yield back.

Chairman BRADY. Thank you.

Today we will hear from five distinguished witnesses: Douglas Holtz-Eakin, president of the American Action Forum; Ryan Ellis, tax policy director for the Americans For Tax Reform, an IRS registered tax return preparer; Katie Mahoney, executive director of health policy for the U.S. Chamber of Commerce; Bryan Skarlatos, a partner of Kostelanetz & Fink law firm; and Ron Pollack, executive director of Families USA.

Welcome to all of you. I look forward to your testimony.

Mr. Holtz-Eakin, we will begin with you. As usual, we have preserved 5 minutes for the statement and questions as well and because we are holding a joint hearing, we are going to stay close to the limits today. Mr. Holtz-Eakin.

**STATEMENT OF DOUGLAS HOLTZ-EAKIN, PRESIDENT,
AMERICAN ACTION FORUM, WASHINGTON, D.C.**

Mr. HOLTZ-EAKIN. Well, thank you, Chairman Brady, Chairman Boustany, Ranking Member McDermott, Ranking Member Lewis. It is a privilege to be here today to talk about the income and subsidy verification systems in the Affordable Care Act.

I want to make three basic points in my testimony. Point number one is that the system itself is very complex in its best circumstances, if it worked exactly as designed, and that the series of waivers and delays that have been implemented over the past several years have made the system essentially unworkable, in my view, and we will see more about that.

The second is that it complicates an already far too complicated tax system. The Ways and Means Committee has spent a considerable amount of time on tax implication and reforms. Many of the features of the Affordable Care Act verification system make things much, much worse.

And then the third is that the combination of the complexity really does expose the taxpayer to additional unwarranted burdens and the likelihood of spending above what would be anticipated from the Affordable Care Act itself.

The first point is that it is just very complicated. There is a graphic which we had hoped to show which my staff put together, which shows the verification system. It is in my written testimony. Yeah. That is a good faith effort to replicate the sequence of decisions and rulings that would take place in trying to verify the income and subsidies as the system stands at the moment.

Just a glance at that tells you this is a system that is going to overwhelm taxpayers. In particular, this is a tax filing population that may not in fact be used to file tax returns at all and will have to begin to do so only because of the Affordable Care Act and to satisfy they verification. So it is a very, very complex system. It adds new information requirements, it adds new forms to reconcile to the actual subsidies in the Tax Code, they are required to report quarterly changes in their family status, changes in custodial relationships with children, kids who graduate from college and move out of the house, divorces. An enormous amount of personal information must be reported quarterly and on a timely basis to get the

reconciliation right. This is all going to prove to be quite complicated for this population to comply with.

It will complicate the Tax Code. We do not yet know for sure how the IRS will do a lot of the implementation, but there is a very real chance that many of these taxpayers will no longer be able to file a 1040EZ form, for example, be forced into a more complicated filing status, something with which they are completely unfamiliar and will probably have to appeal to paid tax preparers for low income individuals. It doesn't make a lot of sense.

And the recapture itself will be very complicated. Many people have finally begun to understand how the child tax credit works or how the EITC works, and the recapture will interfere with their receipt of their normal refunds and they will find the system harder to manage.

And my concern is the one that Chairman Boustany mentioned in his opening remarks, is that in the end, we have a system which will have individual eligibility requirements that look very much like the EITC, and these are layered—layered on top of this are employer requirements for affordable insurance, where the reporting is not yet in place but which in principle they would have to provide.

That complicated system is likely to lead to error rates in payments and as you mentioned, if we have a 20 percent error rate, we are looking at \$150 to \$200 billion in inappropriate payments over the next decade. It is not a trivial problem, it is a serious budget problem at a time when the U.S. faces chronic budget deficits and long-run spending problems, so I am concerned about that.

If you step back, I think it would be important for the committee to focus on two different things. The first is there are a set of issues which really are about the startup and what will a filing season look like next year, what will a population that is not used to receiving a, you know, a form 1095A which says, this is what your subsidies were, they may just throw those in the trash, will the error reconciliation process work effectively, we have no idea, but a bunch of startup problems.

And then there is the longer-run problem, which is that this system is like the EITC, it is like Medicare. This is a pay-and-chase policy: pay people and then go find inappropriate payments. We have not proven capable of doing that in a very efficient fashion. We worry about the \$60 to \$80 billion a year in inappropriate payments to Medicare, we worry about the 20 percent error rate in the EITC. This is another program that has the same fundamental character, and I worry about whether it will be effective in the long-run.

But I am pleased to have the opportunity to be here today and I would look forward to answering your questions.

Chairman BRADY. Great. Thank you.

Subsidy Verification in the ACA: Complexity Creating Taxpayer Risk

United States House of Representatives
Committee on Ways and Means
Subcommittee on Oversight
Subcommittee on Health

Douglas Holtz-Eakin, President*
American Action Forum

June 10, 2014

The views expressed here are my own and not those of the American Action Forum. I thank
Angela Boothe, Christopher Holt, and Gordon Gray, for their assistance.

Chairman Boustany, Chairman Brady, Ranking Member Lewis, Ranking member McDermott and members of the committee, thank you for the opportunity to testify today regarding the budget vulnerabilities created by the Affordable Care Act's (ACA) income verification system. The American Action Forum has closely followed the implementation of the ACA, and I am pleased to discuss the potential impacts of determination of subsidy eligibility and the implications of delays in employer reporting requirements issued earlier this year by the Department of Health and Human Services (HHS). I will also address some of the burdens imposed on the tax system, the taxpayers and the federal budget through the ACA.

I hope to convey three main points:

- The subsidy eligibility system is too difficult for consumers to navigate. The complexity of the subsidy eligibility system, and the information required of the consumers and employers will result in erroneous subsidy allotments.
- The tax system is already too complicated and in need of reform. The additions to the tax code stemming from the ACA will continue to worsen this problem, placing taxpayers at risk when requesting ACA benefits.
- The complexities and burdens created by the subsidy eligibility system and income verification flaws in the ACA are generating serious vulnerabilities in the federal budget. These vulnerabilities will come in the form of fraudulent spending, increased program costs, and a heavier taxpayer burden.

I will discuss each of these issues in turn.

Introduction

The Affordable Care Act (ACA) was signed into law in 2010 with the goal of providing accessible, affordable health insurance coverage. In the fourth year of implementation, the administration has issued thousands of pages of regulations detailing the guidelines for the programs contained within the law, as well as requirements for stakeholders participating in these programs. The insurance subsidies and the guidance surrounding eligibility and employer involvement in this portion of the law were designed to provide insurance coverage deemed affordable. The provisions regarding subsidy eligibility and employer reporting requirements work together forming massive vulnerabilities for the federal budget and therefore the taxpayer.

Complications of the Subsidy Eligibility Provisions in the Affordable Care Act

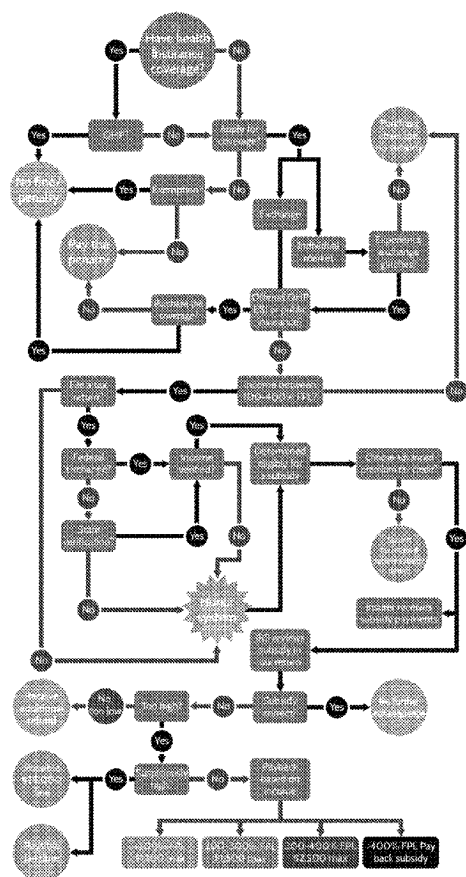

From a 30,000 foot view, subsidy eligibility requirements in the ACA seem straight forward. An individual applies for coverage through the newly created insurance exchange and requests assistance with their monthly premium payment. If an individual is between 100 percent and 400 percent of the federal poverty level (FPL) they are eligible for a credit, which the federal government pays directly to the insurance company of the individual's choice, thereby decreasing their share of the plan's premiums for the year. However, the closer to practical application you get, the more complicated the subsidy eligibility process becomes.

Consumers requesting an insurance subsidy must be within the income bracket described above, and the subsidy received for the year is based on the consumer's self-estimated income for that plan year. Though some people may experience a steady income throughout the year, many Americans change jobs, have children, receive unexpected bonuses or experience other life events that could greatly alter their originally predicted income. If these changes occur and consumers do not update their status through the exchange, then the amount of the premium received will have to be reconciled in their next tax return.

Figure 1 walks through the potential steps faced by a consumer working to gain subsidy eligibility for 2014.

An individual (or family) applies for coverage through the online exchange portal, where they are then assessed for premium assistance eligibility. The eligibility process could turn out in a variety of ways. In order to be determined eligible for a subsidy, individuals must provide both income information and family size data. When the exchange sends consumer information to the federal data hub for verification, the IRS data available is from two years ago – so it may not be accurate, depending on the applicant's financial situation. Further, the exchanges currently do not have access to information that can verify family size and self-attestation is the only form of data at this time. If data is not available, the applicant must attest to their projected income for the plan year.¹ Therefore, two pieces of information required to receive premium assistance need only to be attested by the applicant.

Figure 1

AMERICAN ACTION
FORUM

This process is different for individuals in states that implemented a state based exchange, and documentation of income may not be needed at all. Instead, in 2014 state-run exchanges just have to verify income for a “statistically significant” sample of people who say their earnings will drop by at least 10 percent, under rules issued by the administration.²

This process is further complicated by the delay in employer reporting requirements. According to the White House,³ the regulations imposed on employers were too complicated to implement for the 2014 plan year and the requirement for employers to provide affordable coverage to their employees was delayed one to two years, based on the size on the employer. For employees that are not offered coverage, they can receive coverage in the meantime through the insurance exchange. According to the final rule issued in March of 2010, employers do not have to begin reporting on the insurance offered to their employees until the 2015 plan year.⁴ However, this makes subsidy eligibility more complicated.

If an individual is offered employer sponsored coverage that is deemed affordable through the ACA’s requirements, then the individual and their family are not eligible for subsidies through the exchange. This barrier prohibits those offered affordable employer sponsored insurance from signing up for exchange coverage. Though some employers only offer individual coverage, the barrier applies to the entire family, making those without coverage ineligible for a subsidy. However, the delay in reporting requirements makes it impossible to determine which employers are offering affordable coverage and which ones are not for 2014. For example, an employee could be offered affordable coverage through their employer, but choose to gain coverage through the exchange in order to receive a subsidy. Since an employer is not required to provide affordable coverage this year (it is optional for 2014), or report on the coverage offered, the federal government cannot determine who is offered ESI and whether or not it is an affordable option.

Once an applicant sifts through the subsidy process and is determined eligible for assistance, the applicant may choose to use the subsidy as an advanced premium tax credit (APTC) where the subsidy is sent directly to the insurer OR the individual can choose to wait until filing their taxes to claim their subsidy dollars.⁵ The amount of money received in each subsidy is based on a sliding scale of income levels within the bracketed FPL range. A family of four could make up to \$95,400 a year and receive a subsidy and a single, childless adult making \$11,670 could receive a subsidy as well.⁶

It is important to note that all individuals receiving a subsidy will have to reconcile the funds received on the next year's tax returns. Consumers could be held accountable for over payment of subsidies and inaccurate reporting. As is apparent above, this is a complicated system where consumers are asked to estimate their income a year in advance, and are then held accountable for a system that is difficult to navigate and understand. There are bound to be errors in consumer reporting. Even discounting those out to defraud the federal government by intentionally reporting lower incomes, consumers cannot always prevent major fluctuations in income, creating room for error in reporting. These errors will reflect on the federal budget and the country's taxpayers.

The Affordable Care Act Increases Burdens on the Tax Code and on Taxpayers

As I have mentioned in previous testimony,⁷ the ACA creates an additional \$30 billion in regulatory compliance costs. Some of these costs are generated by the increased burden on compliance with new tax requirements resulting from the subsidy eligibility process. Though HHS is responsible for determining subsidy eligibility and overseeing the insurance exchanges, the IRS is responsible for ensuring the repayment of subsidies that were inaccurately issued.⁸ Taxpayers will be required to present proof of health insurance to avoid the individual mandate penalty.⁹ Further, those qualifying for subsidies will have to maintain records in order to reconcile the credit and/or any discrepancies in the level of premium eligibility.¹⁰ Needless to say, the subsidy provisions in the ACA generate more hours of regulatory burden and complicate tax filings for consumers.

For those consumers receiving exchange coverage and premium assistance, there is an increased risk. The reconciliation process for exchange subsidy discrepancies could become complicated if the consumer fails to report major life events that may impact the amount of subsidy received. If the subsidy received is too high, there are some "claw back" provisions in place where consumers must return part of the subsidy with their 2014 tax return. For example, if a consumer applies for a subsidy and subsequently receives an unexpected raise, their income is higher than originally estimated during the 2014 application process. When filing their 2014 taxes, the consumer may have to repay a portion of the subsidy, but it's complicated. The amount you have to repay varies according to the following rules:¹¹

Below 200 percent FPL, an individual cannot be required to pay back more than \$300. If the consumer's income is between 200 and 300 percent FPL, individuals only have to pay up to \$700. This limit is increased for those making between 300 and 400 percent FPL, with a \$1,250 limit.¹² Those making more than four times the poverty level¹³ or that were inaccurately determined eligible have to repay the entire subsidy.¹⁴

These adjustments are in place for those that underestimate their income within reasonable levels. More serious consequences exist for income claims that are believed to be fraudulent. If the estimate is excessively low, the penalty for unintentional negligence could be as much as \$25,000, and intentional misrepresentation could result in a fine of \$250,000 or incarceration.¹⁵

Risks also exist for the federal budget in the inaccurate estimation of income for insurance exchanges. If an individual underestimates their income, but does not pay taxes or are not eligible for a tax refund, no criminal penalties can be brought against the individual and no liens or levies may be imposed, therefore, actions do not exist for the federal government to recoup those funds.¹⁶

Income Verification and Risks to the Federal Budget

With so much at stake, it is to be expected that the income verification process should be one that places extreme emphasis on program integrity. However, the administration has failed to build a system that allows for the protection of subsidy beneficiaries or for the taxpayers funding those subsidies.

The Earned Income Tax Credit (EITC) is a reasonable proxy for considering the potential for payment errors with respect to ACA subsidies. Like the ACA premium credits, the EITC is a means-tested, refundable tax credit, and is the largest refundable tax credit in the tax code at the moment. Eligibility for the credit is based on income and family size. However, the eligibility rules are complex – warranting a 60 page instruction booklet – and give rise to payment errors.¹⁷ Owing to the size of the program, these payment errors present significant budgetary effects. According to the Treasury Inspector General for Tax Administration, 21 percent to 25 percent of EITC payments made in 2012 were in error – costing \$11.6 to \$13.6 billion.¹⁸ Since 2003, even under the minimum estimated payment error rate, erroneous payments have exceeded \$110 billion. The Treasury department attributed these errors to a host of factors that include general and specific areas of complexity that introduce confusion in eligibility

determination, high turnover of claimants, as well as unscrupulous practices by tax-preparers and outright fraud.

There is every reason to suspect that ACA premium credit payments will be subject to similar if not greater challenges. ACA premium credits are novel, which when paired with a complex design will likely precipitate erroneous payments. The combination of these elements and lax enforcement standards risks error rates on the order of those observed in the EITC program. These erroneous payments will result in enormous budgetary costs. While the EITC is at present the largest refundable tax credit, it will soon be eclipsed in budgetary terms by ACA premium credits. By 2021, the cost of ACA premium credits will exceed the cost of the EITC by 80 percent. Accordingly, a payment error rate similar to that of the EITC program will be that much costlier. Outlays for premium credits are estimated to total \$726 billion over 2015-2024.¹⁹ An error rate of 21 percent, the minimum rate estimated by Treasury over 10 years of EITC payments, would result in \$152 billion in erroneous ACA premium credit payments.

The risk of erroneous payment as seen in EITC is especially important for 2014. This year the exchange subsidies are based on an honor system, creating an even greater vulnerability than exists within the EITC program and at a greater magnitude due to the size of the program. The administration announced in a July 2013 final rule that income verification will rely more heavily on self-attestation until 2015, when a reliable verification system will be up and running.²⁰ This contradicts a letter Secretary Sebelius wrote to Vice President Biden at the beginning of the year, stating that HHS has put in place “numerous systems and processes” to ensure that incomes are verified.²¹ Further, the so-called “back-end” of the healthcare.gov website that tracks payments to insurers is not yet functional, and the federal government is using a spreadsheet system to account for payments to insurers.²² For a program that comprises \$36 billion dollars of federal spending, there are many holes in the process that can and will compromise the integrity of the federal budget.²³

The inability of the administration to provide security for the federal tax dollars used in the dissemination of federal subsidies in an appropriate way creates large vulnerabilities in the budget. As reported last month by the *Washington Post*, up to 1.5 million individuals may be receiving inaccurate subsidy amounts.²⁴ Some of these individuals could be receiving too low of a subsidy, harming tight family budgets. Others will be responsible for re-paying all or part of the subsidy granted to them through the exchange. Meanwhile, insurers are receiving payments based on a fragile system with high potential for human error.

The federal budget is further exposed to inaccuracies by the exceptions provided to states not implementing the ACA expansion of Medicaid. If a consumer resides in a state that has not expanded Medicaid, and the individual would be Medicaid eligible if the state expanded (i.e. the coverage gap), then the individual may not be held liable for intentionally inaccurately reporting income. If their income is overestimated so as to be exchange eligible, such as stating your income is 105 percent FPL instead of 90 percent FPL, there is no penalty for the overpayment.²⁵ This is just one quirk in a sweeping law that allows for holes in the budget.

Finally, the loose requirements for income verification will decrease the dollars gained through the individual mandate penalty. If an individual does not have to truly verify their income, and the consequences are minimal, revenue from those not gaining coverage will be diminished.²⁶

Conclusion

The process for verifying eligibility and receiving subsidies is far too complex to rely on such tenuous information. The enrollment period is over, and those that applied to receive subsidies are currently receiving them in some form, and these individuals will be asked to provide an answer for inaccuracies in a system bound for error and fraudulent payments. Not only does this impact the taxpayer, but it could unnecessarily increase federal spending through inaccurate subsidy payments – both unintentional and fraudulent.

The additional burden of reporting health insurance status and payments through the tax filing process could create large liabilities for taxpayers, and increases the complexity of the federal tax system. The Treasury Inspector General even testified that the IRS will have difficulty implementing fraud prevention measures imposed on the agency until the system is more robust.²⁷

With the 2015 open enrollment season just around the corner, the administration should be ensuring that proper verification systems are in place and do away with the self-attestation honor system that leaves taxpayers liable and encourages additional spending at the federal level. The current subsidy eligibility system places too heavy of a responsibility on the individual, the employer and the federal budget.

Chairman BRADY. Mr. Ellis, you are recognized.

STATEMENT OF RYAN ELLIS, TAX POLICY DIRECTOR, AMERICANS FOR TAX REFORM, IRS REGISTERED TAX RETURN PREPARER, WASHINGTON, D.C.

Mr. ELLIS. Chairman Brady, Chairman Boustany, Mr. McDermott, Mr. Lewis, Members of the Committee, thank you for inviting me to testify today.

My name is Ryan Ellis. I come here today as a small business owner of a tax preparation firm, in the Commonwealth of Virginia and also as an IRS enrolled agent. I am also tax policy director at

Americans For Tax Reform, which is a non-profit here in Washington, D.C.

Now I am here today to tell you that the upcoming tax filing season has the potential to be one of the most chaotic in years. One of the key elements of the Affordable Care Act, popularly known as Obamacare, is the creation of advanceable tax credits for the purchase of exchange health insurance plans. Taxpayers applying for credit assistance must be evaluated by government entities ranging from the SSA, to CMS, to the IRS.

The goal is to have an educated estimate based on the most immediately available government documentation, e.g., prior year tax returns, et cetera, of the taxpayer's probable income for the year, which in turn determines the size of the tax credit. In an effort to get this tax benefit out quickly, the estimated credit is advanced to the insurance company by the IRS, which applies it to customer premiums. This is an important point. The money has left the IRS's hands up to over a year before the taxpayer actually calculates his final credit amount. The insurance companies have collected it, and they are not required to give it back.

Press reports this month indicated that the Government was having a hard time doing all this, with 1.2 million of the 6 million Federal exchange applicants having to be asked for additional income verification information from CMS. That is not surprising. Applicants are asked to complete a detailed, confusing 12-page application, which asks for income, family size, et cetera. It is rather like trying to fill out a 1040 on the fly. Added to this is the lack of employer reporting requirements and the failure to complete the back end of the website properly.

Inconsistencies, some of which are the results of failures of the healthcare.gov system, some of which are poor records from the government, and some of which are mistakes from the individual are not surprising, but they are a problem.

Here it is the middle of June, and many people have now been receiving inaccurate subsidies for 6 months. To the public's knowledge, not a single advanced tax credit has been adjusted this year.

So what happens if the flawed, confusing process results in a tax credit larger than what the law calls for? A hypothetical example might help illustrate. A health exchange customer selects an Obamacare exchange plan, the Government estimates that this taxpayer will earn \$30,000 this year, which makes her eligible for a \$2,000 tax credit. This \$2,000 is paid to the taxpayer's insurance company to help with premiums. The next spring, our customer slash taxpayer is filling out her tax return. Unfortunately, the Government estimated the taxpayer earned too little and paid out too large a credit. She actually earned \$40,000 and so only had a \$1,500 credit coming to her.

Depending on the taxpayer's income level and availability of verified affordable workplace insurance, she will have to pay back much or all of the \$500 overage to the IRS. This means skinnier refunds and maybe even a tax liability, and it won't be the taxpayer's fault, it will be the Government's fault. It is also inevitable that many people are receiving tax credits which they are completely ineligible.

The firewall of the offer of employer-sponsored insurance is a new concept. Tax preparers will have difficulty figuring out how it works in operation. There is virtually no way to catch it on the front end, but come tax filing season, many people will end up owing thousands of dollars and it will be a complete surprise to them and to their tax preparer.

The burden of explaining why the Government allowed individuals to accept too large a subsidy will fall on the tax preparer community.

It is in the interest of the Congress to make sure that the entirety of the Obamacare sign-up system is fully functional; not just the front-end website, which got all the headlines, but the really important back end, where this complex income verification system must be able to work.

Thank you for allowing me to testify today, and I look forward to your questions.

Chairman BRADY. Thank you.

**STATEMENT OF KATIE W. MAHONEY, EXECUTIVE DIRECTOR
OF HEALTH POLICY, U.S. CHAMBER OF COMMERCE, WASH-
INGTON, D.C.**

Ms. MAHONEY. Thank you, Chairman Boustany and Brady. Ranking Members Lewis and McDermott, and other Members of the Subcommittees for the opportunity to participate in today's hearing.

We appreciate this hearing's focus on the challenges in verifying income and insurance information, given the delay of the reporting requirements under the health reform law, hopefully by examining the law's interrelated provisions and how they were intended to work, we may be able to identify and advance solutions to alleviate the challenges that remain.

My name is Katie Mahoney. I am the executive director at the U.S. Chamber of Commerce. While the Chamber opposed the

health reform law during the legislative debate, we are moving forward to do whatever we can to help our member companies understand and comply with the law. We continue to work with the regulators to mitigate the burdens and challenges of implementation and with members of Congress to provide relief to business. We have made some progress, but much more work needs to be done on both fronts.

Since the law was enacted, the Chamber has filed 77 comment letters, many of which were in response to items issued to implement the employer mandate. While today's hearing is on the verification of income and insurance information, I have been asked to testify specifically on the two reporting requirements contained in Sections 6055 and 6056. These sections were designed to provide the IRS with the data and information necessary to implement at least three other major provisions in the law: the employer mandate provision, the premium tax credit provision and the individual mandate provision.

6056 requires employers subject to the employer mandate to report information to the IRS and to their employees to demonstrate compliance with the employer mandate. This information is necessary to determine which employers may be penalized and which individuals may be eligible for a premium tax credit.

6055 requires those entities that insure individuals with minimum essential coverage to report to the IRS and those individuals the information necessary to demonstrate which individuals are covered and what that coverage looks like. This information is necessary for the IRS to know which individuals have met the requirement to obtain minimum essential coverage under the individual mandate and which individuals may be subject to a penalty.

Even when described as simply as possible, the complexities are striking. Clearly the challenge of drafting regulations to implement these provisions is immense, but it is one that we have found the Treasury officials to take very seriously and approach very carefully. Efforts to promulgate regulations to implement 6056 and 65 specifically began in 2012 in conjunction with other efforts to promulgate regulations on the employer mandate, which began in 2011.

At least ten regulatory items were issued in nearly 2 years between May of 2011 and April of 2013. We had many exchanges with Treasury during this process and filed numerous comments. In addition to responding to Treasury's specific proposals, we repeatedly asked for transition relief, safe harbors and compliance assistance rather than strict enforcement of the provisions. As I shared with the House Energy and Commerce Subcommittee nearly a year ago, businesses needed more time.

On July 2nd of 2013, Treasury announced that the reporting requirement regulations were not ready. As a result, transition relief for 2014 was provided to allow additional time to comply with the reporting requirements and the employer mandate, delaying compliance with these provisions. It would not have been possible to enforce the employer mandate provision without the information that the reporting requirements would collect.

Following that announcement, Treasury continued its work, soliciting feedback and issuing eight more items in roughly 9 months,

including the NPRM's on 6055 and 6056. We have worked with Treasury officials for the past 4 years as they labored to implement these requirements. We found their commitment to minimize the cost and burden to business while implementing the law as intended to be commendable.

Many of the concerns and recommendations that we raised were explored and incorporated into the final rule, including several simplified reporting methods that will help ease the burden for some business and reduce reporting of statutorily specified but unnecessary data points.

We applaud the officials at Treasury for their efforts, however, the extensive costs and time necessary to comply with these reporting requirements continues to be daunting.

Many companies offer exceptional benefits, for which employees pay only a small portion of the premium. These businesses, like many others, are committed to improving the health of their employees and offering coverage that is highly valued. It is unfortunate that because of the way the statute is written, these businesses must direct resources to report on the coverage they offer rather than use those resources to pay for a greater portion of the cost of that coverage.

Even more unfortunate is the extreme expense of these reporting requirements and the challenges in identifying precisely which month's coverage is offered to which employees may incent employers to stop offering coverage all together. Clearly this is not what was intended and it is not what is best for employers or employees.

In conclusion, what is to be done? Well, enacting the legislation passed by the House earlier this year to restore the long-standing definition of full-time employment to 40 hours would be helpful. We urge you to consider legislation to permit businesses greater flexibility and protection, and work with stakeholders to identify possible ways to provide further relief.

Thank you.

Chairman BRADY. Thank you.

Executive Director, Health Policy
U.S. Chamber of Commerce

DATE: June 10, 2014

The Chamber's mission is to advance human progress through an economic,
political and social system based on individual freedom,
incentive, initiative, opportunity and responsibility.

The U.S. Chamber of Commerce is the world's largest business federation representing the interests of more than 3 million businesses of all sizes, sectors, and regions, as well as state and local chambers and industry associations. The Chamber is dedicated to promoting, protecting, and defending America's free enterprise system.

More than 96% of Chamber member companies have fewer than 100 employees, and many of the nation's largest companies are also active members. We are therefore cognizant not only of the challenges facing smaller businesses, but also those facing the business community at large.

Besides representing a cross-section of the American business community with respect to the number of employees, major classifications of American business—e.g., manufacturing, retailing, services, construction, wholesalers, and finance—are represented. The Chamber has membership in all 50 states.

The Chamber's international reach is substantial as well. We believe that global interdependence provides opportunities, not threats. In addition to the American Chambers of Commerce abroad, an increasing number of our members engage in the export and import of both goods and services and have ongoing investment activities. The Chamber favors strengthened international competitiveness and opposes artificial U.S. and foreign barriers to international business.

Positions on issues are developed by Chamber members serving on committees, subcommittees, councils, and task forces. Nearly 1,900 business people participate in this process.

The U.S. Chamber of Commerce would like to thank Chairmen Boustany and Brady and Ranking Members Lewis and McDermott, and other members of the subcommittees for the opportunity to participate in today’s hearing. We appreciate this hearing’s focus on the challenges in verifying income and insurance information given the delay of the reporting requirements under the health reform law. Indeed, it is critical that we understand how the law’s interrelated provisions were intended to work and the challenges that remain for businesses and individuals as they struggle to comply with the complex and intricate reporting requirements.

My name is Katie Mahoney and I am the Executive Director of Health Policy at the U.S. Chamber of Commerce. I have more than 16 years of health care experience in hospital and health plan operations, as well as health policy. At the Chamber, I am responsible for developing and advocating the organization’s policy on health and working with members of Congress, the administration, and regulatory agencies to promote the Chamber’s health policy priorities.

The U.S. Chamber of Commerce is the world's largest business federation, representing more than three million businesses of every size, sector and region. More than 96 percent of the Chamber's members are small businesses with 100 or fewer employees, 71 percent of which have 10 or fewer employees. Yet, virtually all of the nation's largest companies are also active members. We are particularly cognizant of the problems of smaller businesses, as well as issues facing the business community at large.

BACKGROUND

During the legislative process, the Chamber opposed the Patient Protection and Affordable Care Act ("ACA") because it would: do very little to control the rise of unnecessary health care spending; impose benefit mandates, requirements, taxes and penalties increasing the cost of coverage, and; limit the flexibility that employers and employees alike need in choosing coverage options that they can afford. Before the law was enacted, the Chamber testified before both the House Committee on Ways and Means and the Senate Health, Education, Labor and Pensions Committee as to our significant concerns.^{1, 2} Since the law's enactment, we have brought nine member companies to testify on the impact that the law will have on their businesses and employees. Most recently, I testified a year ago this month before the House Energy and Commerce's Subcommittee on Oversight on the implementation of employer mandate – urging members to pass legislation to restore the long-standing definition of full-time

employment to 40 hours and articulating the need for the Administration to allow flexibility, safe harbors and transition relief in enforcement. Even though we have seen some progress, we will continue to work with Congress and the regulators to ease the burdens on businesses.

As the law's implementation continues, so do the challenges. While we appreciate the importance of monitoring and highlighting the effects the law is having on businesses and employees, we also believe it is critical to the extent possible to search for and act on opportunities to provide relief. Our country must continue to focus on improving the ability of all Americans to: access affordable health care coverage; receive innovative and high-quality care; and realize better health.

Our view continues to be that reform does not end here. As we continue to struggle with the implementation of the ACA, we must examine ways to further advance and strengthen our health care system. To this end, the Chamber released a report in June of last year with proposals to advance access to affordable coverage and to improve health care value.³ While we continue to pursue legislative action to further reform and strengthen our health care system in accordance with the proposals in the report, we also remain focused on ameliorating the burdens of the current requirements by working with the regulators to identify ways to simplify, streamline and ease compliance. Since the law was enacted, the Chamber has submitted 77 comment letters in response to 8 Interim Final Regulations (IFRs), 3 Final Rules, 20 Requests for Comments (RFCs), 34 Proposed Rules, 1 Information Collection Request (ICR), 2 Amendments to the IFRs, 6 Requests for Information (RFIs), 1 FAQ, 1 Draft Letter, and 1 Draft Guidance Notice.

Many of the comments that we filed were in response to items issued that are directly or indirectly necessary to implement the employer mandate. Beyond the complex language in the employer mandate provision (4980H), there are at least three other critical provisions that interrelate to this direct requirement for employers: the premium tax credit provision (Section 36B), the reporting requirement for employers subject to the employer mandate (Section 6056), and the reporting requirements for issuers, including self-insured employers (Section 6055). While today's hearing is on the verification of income and insurance information under the ACA, I have been asked to testify specifically on the two reporting requirements contained in Sections 6055 and 6056 of the ACA. My testimony will offer: a brief and simplified overview of what these reporting requirement provisions were intended to do; our view of the Administration's efforts to promulgate regulations to implement these provisions; the unfortunate consequences that the statutory requirements will have on employers and employees; and possible solutions moving forward.

THE REPORTING REQUIREMENTS: AN OVERVIEW

As enacted, the reporting requirements contained in Sections 6055 and 6056 were designed to provide the data and information necessary for the Internal Revenue Service (IRS) and the U.S. Department of the Treasury (Treasury) to implement at least three other major provisions in the law: the employer mandate (Section 4980H), the premium tax credit provision (Section 36B) and the individual mandate (Section 5000A). These two reporting provisions, while short in

statutory text (each are 3 pages in length), have broad-reaching ramifications and are intricately connected to other significant provisions.

Section 6056: Reporting Requirement for Applicable Large Employers

Under Section 6056, an employer that is required to offer health coverage under the employer mandate (an applicable large employer with 50 or more full-time equivalent employees) must report information to the IRS and to the employees to facilitate the enforcement of the employer mandate. The information provided by the applicable large employer (ALE) under Section 6056 is designed to inform the IRS as to which full-time employees (and their dependents) receive an offer of employer-sponsored coverage. Extensive information must be reported to enable the IRS to determine whether an employer may be subject to a penalty for either failing to “offer coverage to all full-time employees and their dependents” under the Section 4980H(a) requirements, or may be subject to a penalty because the coverage offered to the full-time employees fails to satisfy the minimum value and/or affordable coverage requirement under Section 4980H(b). Under Section 6056, information is also reported to individuals to provide them with the documentation necessary to show whether he/she and his/her dependents may be eligible for a premium tax credit because they do not have an offering of employer-sponsored coverage.

Section 6055: Reporting Requirements on Minimum Essential Coverage

Section 6055 requires those entities that insure individuals (i.e. self-insured employers, health insurers, governmental entities, etc.) with minimum essential coverage to report information necessary to document to the IRS which individuals satisfy the individual mandate requirement. This information is necessary for the IRS to know which individuals have met the requirement to obtain minimum essential coverage under the individual mandate (5000A) and which individuals may be subject to a penalty. It also provides documentation to the individual so that he/she can demonstrate compliance with the individual mandate.

THE EFFORT TO PROMULGATE REGULATIONS

Even when the interwoven provisions of the statute are described as simply as possible, the complexities are striking. Clearly the challenge of drafting, much less finalizing, regulations to implement these two reporting provisions is immense. It is also a challenge that we have found that the Treasury in particular takes very seriously and approaches very thoughtfully. Not only is this evident in some of the reporting alternatives offered in the Final Rules, but also in the numerous solicitations for input and proposals, as well as the measured evaluation of the feedback provided. Efforts to promulgate regulations to implement Sections 6056 and 6055 specifically began in 2012, but were intertwined with efforts to promulgate regulations to implement Section 4980H (the employer mandate) which began in 2011. We were involved in many exchanges with the Treasury and IRS during this process and filed numerous comments on these provisions specifically.

Further, during the throws of this regulatory process, I had the pleasure of testifying before the House Energy and Commerce Oversight Subcommittee on June 26, 2013. At that hearing, I shared with the Subcommittee the tremendous confusion among businesses. While we in Washington were exploring safe harbors for affordability, many owners were still confused as to how to determine whether they were an “applicable large employer” and therefore subject to the employer mandate. As I shared with the Subcommittee on that day, businesses needed additional time not only to meet the employer mandate requirements, but also to demonstrate compliance with the mandate. While Treasury and IRS had invested time and energy in issuing numerous notices and requests for information, by June of 2013, they still had not issued a proposed rule on the reporting requirements which were to be imposed on employers in less than 6 months’ time.

On July 2, 2013, the IRS and the Treasury announced that because the regulations for the reporting requirements were not ready, they would delay enforcement of section 6056 and 6055 and therefore, also have to delay enforcement of section 4980H, the employer mandate. Without the information that the reporting requirements would collect, it would be impossible to enforce the employer mandate provision.

Following that announcement, the Treasury and IRS continued to work on the regulations and solicit feedback. Less than 2 months later, the NPRMs were issued on 6055 and 6056. Here is a detailed chronological list of the items issued by Treasury and the IRS as they gathered feedback and worked to promulgate regulations implementing the reporting requirements and the employer mandate. The Chamber filed comments on nearly every item.

- March 10, 2014, the Treasury & IRS published two Final Rules on 6056 & 6055

COMMENDABLE EFFORTS

We have worked with officials at the Treasury for over three years during their efforts to promulgate regulations to implement these requirements. We have found their commitment to promulgating regulations that minimize the cost and burden to business while implementing the law as intended to be commendable. As they espoused in the Final Rule, we believe that Treasury truly has “sought to develop final information reporting rules that will be as streamlined, simple, and workable as possible, consistent with effective implementation of the

law. This has reflected a considered balancing of the importance of (1) minimizing cost and administrative tasks for reporting by entities and individuals, (2) providing individuals the information to complete their tax returns accurately, including with respect to the individual shared responsibility provisions and potential eligibility for the premium tax credit, and (3) providing the IRS with information needed for effective and efficient tax administration.”⁴ As proof of this commitment, we cite a number of simplifications and alternatives provided for in the Final Rules which we understand from our members may help some employers comply somewhat more easily with the reporting requirements of Section 6056. Many of the comments, concerns and recommendations that we raised given the feedback we received from our member companies were explored, adopted and sometimes incorporated into the Final Rule. Further, Treasury has identified data points that are not relevant to individual taxpayers or the IRS for purposes of administering the premium tax credit and section 4980H, or that is already provided at the same time through other means. While we applaud the officials at Treasury for their efforts, the extensive burdens of cost and time to comply with these reporting requirements continues for the majority of employers.

HARMFUL AND EXPENSIVE CONSEQUENCES REMAIN

Despite the commendable efforts of the officials at the Treasury, exceedingly high administrative burdens and expenses remain as businesses grapple with how to comply with the reporting requirements contained in the statute. First and foremost, the greatest complaint we hear from our members is about the extraordinary expense of complying with the reporting requirements.

⁴ Information Reporting by Applicable Large Employer on Health Insurance Coverage Offered Under Employer-Sponsored Plans, Final Rule, 79 Fed. Reg. at 13232 (available at: <http://www.gpo.gov/dlsys/pkg/FR/2014-03-10/pdf/2014-05050.pdf>).

This includes challenges with identifying which employees are full-time during which months as well as, for those employers that self-insure, challenges with collecting social security numbers for dependents.

Many of our larger member companies have long offered exceptional benefits for which employees pay only a small portion of the premium. These businesses – like many – are committed to improving the health of their employees and offering coverage that is highly valued. It is unfortunate that because of the way the statute is written, these businesses must redirect resources to report on the coverage they offer, rather than use those resources to pay for a greater portion of the cost of that coverage. Even more unfortunate is that the extreme expense of these reporting requirements and the challenges in identifying precisely which months coverage is offered to which employees may incent employers to stop offering coverage all together. Clearly, this is not what was intended and is not what is best for employers or employees.

CONCLUSION

Clearly these reporting requirements as prescribed by the statute and efforts to promulgate regulations to implement them are very complicated. Despite laudable efforts by the dedicated and pragmatic officials at the Treasury and the IRS, the significant challenges and tremendous costs to comply remain exceedingly burdensome for business. Many of the efforts to streamline reporting and offer alternative or simplified methods will be helpful to some employers, but we will continue to explore additional ways to ease the burden of compliance. Proposing a solution

for the regulators to adopt is difficult given the statutory requirements and the need for this data to enforce and verify many other provisions and elements. However, enacting the legislation passed by the House earlier this year restoring the longstanding definition of full-time employment to 40 hours a week would be an important first step.

Therefore, we urge you to consider additional legislative ways to offer businesses greater flexibility and protection and work with stakeholders such as those here today to identify possible ways to provide relief to businesses. We also urge the regulators to continue to identify ways to streamline and simplify reporting requirements as new scenarios and fact patterns present different challenges and additional opportunities. Permitting a compliance assistance approach as opposed to strict enforcement is critical.

**STATEMENT OF BRYAN C. SKARLATOS, PARTNER,
KOSTELANETZ & FINK, LLP, NEW YORK, N.Y.**

Mr. SKARLATOS. Good morning, Chairman Boustany, Chairman Brady, Members of the Committee.

Thank you for inviting me here this morning. My name is Bryan Skarlatos. I am an attorney in New York, and my practice focuses in large part on tax procedure issues.

I am here to talk to you today about how the IRS collects taxes, and you may find that relevant to how the IRS may collect over-

payments of credits. When we talk about how the IRS collects taxes, it is important to remember the IRS is not an ordinary creditor like you or me. If somebody owes me money, I have to go to court, start an action to invoke the authority of the court to give me a judgment that I can use to collect the property to pay the debt. I can't just take somebody's car or take somebody's bank account.

It is different for the IRS. Because the IRS has a need to collect taxes, Congress has given the IRS super creditor powers. The IRS doesn't need to go to court. It can act unilaterally, using its powers of lien and levy to collect taxes. Those are the two main tools it has.

A lien is the first and most important concept. It is an intangible concept. It is not something the IRS does; it is a thing that arises by operation of law and the lien is what gives the IRS the right to collect somebody's property, or to take somebody's property. It is sort of like a string that the IRS can pull to take property from someone.

A levy, is distinct from a lien. The levy is the actual procedure it uses to take the property. It can go in and take things that the taxpayer has an interest in, like a bank account, a car, wages or something like that.

Now, the IRS can't just do this without first having an assessment. It needs an assessment of taxes. Most taxes get assessed on the tax return and taxpayers themselves say, I owe a thousand dollars. That is a self-assessment and we indeed have a self-assessment system. If the taxpayer doesn't pay the taxes that they say they owe, then the IRS has these collection powers, or if the IRS later comes in and says, you owe more money, you owe \$2,000, not a thousand dollars, then the IRS has these collection powers, because the assessment arises.

Once the assessment arises automatically, it doesn't arise automatically. Excuse me. What happens first is that the IRS has to say, hey, you owe money, there is an assessment, and demand payment. If the taxpayer then fails to pay the tax, the assessment arises automatically and then the lien arises automatically upon the assessment, giving the IRS rights to the property.

The lien is the important concept, as I mentioned, because it is very broad. It affects anything that the taxpayer owns or anything that the taxpayer could have an interest in. It also includes things like after-acquired property. So if the taxpayer buys a car or receives an inheritance after the assessment, the lien will attach to that after-acquired property.

The IRS can also file a notice of tax lien. It does this in order to give itself priority over other creditors. It files the notice in the local county clerk's office or in the local court office. That notice of tax lien by mere filing can have an impact on the taxpayer's credit standing and it can affect certain agreements it has, credit agreements, mortgages, it can trigger events of default simply by filing the notice of lien.

But the lien itself, as I said, is not the thing that takes the property. The thing that takes the property is the levy. The levy and the seizure, and levy and seizure are basically the same words for, similar words for two same concepts, is when the IRS goes in and

takes things. It can go to the taxpayer or it can go to third parties like a bank or like an employer or a customer who owes the taxpayer money.

The levy, though, unlike the lien, does not attach to after-acquired property, so if a levy hits on a certain day and somebody deposits money into a bank account the next day, the levy does not attach to that. There is one exception, however, and that is for a levy on wages. A levy on wages continues, and continues on the taxpayer like a vacuum cleaner, continuing to take the wages as they are earned.

The IRS has to give the taxpayer notice, 30-days' notice before it is going to levy and take the property and at that time the taxpayer has the right to request a collection due process hearing to contest the levy or the underlying assessment of taxes.

Now, the IRS doesn't just take things without giving some notice and demand, and there are a series of notices that come out in the usual case and in that case, the taxpayer can try to negotiate an installment agreement or an offer in compromise where they pay less than the full amount due, depending on the taxpayer's current assets and ability to pay.

One other factor you should consider is that if there is an overpayment of tax in another year, the IRS can offset an underpayment simply by reducing the overpayment in another year.

So those are some of the tools that the IRS has at its disposal to collect taxes. Thank you.

Chairman BRADY. Thank you.

[The prepared statement of Mr. Skarlatos follows:]

**WRITTEN TESTIMONY
OF
BRYAN C. SKARLATOS, ESQ.**

The Internal Revenue Service (the “Service”) is a “Super Creditor” because Congress has given it powers to collect money and property that far exceed those of any ordinary creditor. Typically, a creditor who is owed money cannot just take property of the debtor. Instead, the creditor must first bring a lawsuit, obtain a judgment, and then invoke the power of the court to execute on the judgment by seizing the debtor’s property, usually with the help of a court order or a public servant such as a marshal. In contrast, when taxes are assessed, the Internal Revenue Code automatically creates a lien in favor of the Service in a taxpayer’s property. Then, the Service has the unique and powerful ability to levy on or seize property that is subject to a federal tax lien. In addition, the Service can sue in federal court to collect taxes.

Assessment

The first step in the tax collection process is the assessment. In general, the Service cannot attempt to collect from a taxpayer until a tax has been assessed.

The Internal Revenue Code gives the Secretary of the Treasury the authority to assess tax. A tax is assessed when it is recorded as a liability, or account receivable, on the Service’s records.

Once a tax has been assessed, the Service is required to notify the taxpayer that the tax has been assessed and to demand payment of the tax. The notice and demand for payment must be made within sixty days of the assessment. The notice and demand must be left at the taxpayer’s home or place of business, or sent to the taxpayer’s last known residence. Failure to pay an assessed tax after notice and demand for payment has been made gives rise to a federal tax lien and the Service’s ability to collect through levy or seizure of property.

Federal Tax Lien

If any person liable to pay a tax fails to pay after notice and demand, the amount not paid, including interest and penalties, becomes a lien in favor of the United States upon all property and rights to property belonging to such person. The tax lien is the mechanism that gives the Service rights to the taxpayer's property. However, the lien itself does not transfer any value to the Service. As discussed below, a levy is the tool used to transfer the actual property to the possession of the Service.

A federal tax lien arises against any person liable for the tax and attaches to any interest in property that the person may have. A tax lien also attaches to any property the taxpayer may acquire in the future. This is another way of saying that the tax lien attaches to after acquired property.

The law of each individual state determines whether and when a taxpayer has an interest in some type of property. Federal law determines the extent to which the federal tax lien attaches to that interest. For example, the tax lien attaches to a taxpayer's interest in a joint bank account to the extent that the taxpayer can withdraw money from the account. Similarly, if under state law, one spouse has a right to community property, then the tax lien attaches to that spouse's interest in community property. Or, if one spouse has an interest in property held as tenants by the entirety, then the federal tax lien can attach to that interest. A federal tax lien attaches to interests in personal or real property, bank accounts, retirement accounts, Social security benefits, alimony (but not child support) payments, beneficial interests in trusts, contingent interests, future interests, and intangibles such as accounts receivable, trademarks, licenses, royalties and franchise rights.

The federal tax lien relates back to the date of assessment. However, a federal tax lien does not have priority over purchasers for value, holders of security interests, mechanics lienors or judgment creditors until a Notice of Federal Tax Lien (a “Notice of Lien”) is filed. The Service may file a Notice of Lien to obtain priority over these holders of interests through the general rule of “first in time, first in right.” The interest that is perfected first has priority if and when the property rights are sold or seized.

State law determines where a Notice of Lien must be filed to be effective. Generally, Notices of Lien are filed with clerk of the court in the county where real property is located, with the clerk of the court in the county where the taxpayer is located in the case of personal property, or with the clerk of the federal district court in the district where the real property or taxpayer is located. Filing the Notice of Lien provides constructive notice to anyone else who may hold or acquire an interest in property and gives rise to the “first in time, first in right” rule.

The Notice of Lien is merely a device that provides deemed notice to other interested parties for purposes of establishing priority. The federal tax lien exists independently from the Notice of Lien and there is no requirement that the Service even file the Notice of Lien. However, if the Service does file a Notice of Lien, it must give the taxpayer written notice that the Notice of Lien is being filed with five days of the filing and give the taxpayer an opportunity to request a Collection Due Process hearing (a “CDP Hearing”) to contest the filing of the Notice of Lien. Requesting a CDP Hearing does not stop the filing of the Notice of Lien; it just gives the taxpayer a forum to request that the lien be lifted.

Once a federal tax lien arises, it generally is valid until the taxpayer’s liability is satisfied or until the time for enforcing the lien expires. Generally, an assessment may be collected by

levy or court proceeding within ten years after the date of assessment. The ten-year period can be extended under limited circumstances.

The filing of a Notice of Lien, by necessity, is open to the public and can harm a taxpayer's credit standing and can affect business relationships by, for example, triggering a default under certain credit agreements, etc.

Levy and Seizure

If any person liable to pay a tax fails to do so within ten days after notice and demand, then the Service may collect the tax by levying on all property owned by that taxpayer, or on which there is a federal tax lien for the payment of such tax. Levies and seizures are ways in which the Service takes possession of property or rights to property. Levies and seizures are essentially the same thing. The term "levy" is typically used when the Service takes possession of intangible property or rights to property and the term "seizure" is typically used when the Service takes possession of real or personal property. A levy or seizure is a provisional collection device, meaning that disputes over ownership, priority or even liability for the tax can still be disputed after the levy or seizure.

Two notices must be issued before the Service can execute a valid levy or seizure. First, the Service may not attempt any collection until ten days after a notice and demand for payment of the tax. This notice and demand can be the same notice and demand that must be made within sixty days after the assessment as described above. Typically, the Service sends two or three notices and demands for payment of taxes before it proceeds with the levy process.

Second, the Service must notify the taxpayer in writing of its intention to levy on the taxpayer's property or rights to property at least 30 days before the date of the levy (the "Notice of Intent to Levy"). The Notice of Intent to Levy must be given either in person, left at the

taxpayer's dwelling or usual place of business, or sent by certified or registered mail, return receipt requested, to the taxpayer's last known address.

Like the Notice of Tax Lien, the Notice of Intent to Levy must inform the taxpayer of the right to request a CDP Hearing within 30 days of the Notice of Intent to Levy. At the CDP Hearing, the taxpayer can challenge the appropriateness of the collection activity and, in some cases, the validity of the underlying tax liability. If the taxpayer timely requests a CDP Hearing, the Service may not proceed with levy until the CDP Hearing is complete.

The Service can use a levy to take any property subject to the federal tax lien. This includes just about any kind of property in the possession of the taxpayer or property in the hands of a third party to which the taxpayer is entitled. The Service can levy property from a third party simply by serving the levy on that third party. No special notice or procedure is required to levy property from a third party.

Typically, a levy only reaches property in possession or rights in existence as of the date the levy is issued. Unlike a federal tax lien which attaches to after-acquired property, most levies do not reach after acquired property. Thus, a levy served on a bank will reach the balance in the account on the day of the levy and does not reach a deposit made the day after the levy. However, there is an exception to this rule. A continuing levy can be issued on salary and wages. A continuing levy is like a vacuum cleaner that continues to sweep up money as it is paid to the taxpayer.

There are very few types of property that are exempt from a levy. State laws that provide homestead exemptions, protect certain types of retirement accounts, or limit the amount of a person's salary that can be garnished, do not trump the federal levy laws and are ineffective against the Service's power to levy. Federal law provides limited exemptions for things like

school books, tools of trade, wearing apparel, fuel, provisions, furniture and personal effects, unemployment or workers compensation benefits and a minimum amount of wages.

As noted above, the Service typically has ten years from the date of assessment to collect a tax by levy.

Judicial Proceedings

In addition to the administrative lien and levy procedures described above, the Service can also request the Tax Division of the Department of Justice to sue a taxpayer in federal court to collect a federal tax liability. Federal courts have subject matter jurisdiction over suits to obtain judgments pursuant to the Internal Revenue Laws. While an assessment and lien are not necessary prerequisites for such suits, there usually is an assessment and related federal tax lien. The Service sometimes uses the judicial remedy to reduce a federal tax lien to judgment when the statute of limitations for collecting administratively by levy is about to expire. If the Service obtains a judgment against the taxpayer, a whole new statute of limitations for collection on the judgment begins to run.

The Service also uses judicial remedies to sue third parties who have failed to turn over property in response to a levy, to establish liability against a transferee of property, or to recover a refund of taxes that was mistakenly paid to a taxpayer.

Taxpayer Defenses

There are many ways that a taxpayer can defend against the collection of taxes. The CDP Hearing requests referred to above are some of the most powerful tools that a taxpayer can use because, while a CDP Hearing request does not stop the filing of a Notice of Lien, it can stop a levy pending the outcome of the CDP Hearing. Of course, if the Service collects money or property improperly, the taxpayer can sue for a refund.

If the taxpayer agrees that he or she owes taxes but wishes to avoid enforced collection activity through a lien or levy, the taxpayer can negotiate an installment payment agreement whereby the Service will suspend certain collection activity if the taxpayer adheres to an agreed upon collection plan. The amount of periodic payment and the length of the installment plan depend, in large part, on the taxpayer's individual finances as reflected on a Collection Information Statement which is essentially a personal or business financial statement. Interest and some penalties continue to run while the installment plan is in place.

Alternatively, a taxpayer can negotiate an offer in compromise to pay less than the full amount demanded by the Service. Again, whether the Service will compromise a tax liability for less than the full amount due and the terms of any such compromise depend on the taxpayer's individual finances as reflected in a Collection Information Statement. Typically, the Service will not compromise a tax liability for less than the full amount due unless the taxpayer does not have sufficient current assets and expectations of additional assets in the future to pay the tax liability.

Chairman BRADY. Mr. Pollack, you are recognized.

**STATEMENT OF RON POLLACK, EXECUTIVE DIRECTOR,
FAMILIES USA, WASHINGTON D.C.**

Mr. POLLACK. Thank you, Chairman Brady and Boustany, Ranking Members McDermott and Lewis, Members of the Committee.

Today's hearing is important, because it is essential that tax credit premium subsidies be provided based on good and accurate information. This is needed to ensure that there are neither underpayments or overpayments of such subsidies.

In undertaking today's examination, it is crucial to single out two important words, both with very separate meanings. These words are "inconsistencies" and "inaccuracies." The two words should not be confused with one another, because they are not synonymous, and conflating those two words, like some in this Congress have done, does an enormous disservice to today's inquiry. For example, two sets of data may be inconsistent, one depicting a situation 2 years ago and another depicting the situation today, and they both may be accurate. It is crucial, therefore, to underscore the differences between inconsistencies and inaccuracies as we examine the discrepancies that appear to exist in application submissions versus Government data files among 2.1 million people enrolled in affordable care-related coverage.

Of the 2.1 million discrepancies, over half concern discrepancies about applicants' income. This should not be surprising, because applicants are supposed to provide information about their current 2014 income, while the Government's data reflects such households' income based on their 2012 tax returns. Many significant changes occur in income status over those 2 years.

Many people change jobs, resulting in gains or losses of income; many people receive differences in compensation, again, up or down; many people experience differences in real or expected over-time. Changes in family composition significantly impact income, and some families move from jobs to becoming students, and vice versa. And many other factors cause incomes to change over the course of 2 years.

These 2-year differences should be reviewed, but there is little reason to surmise that these differences are inaccuracies in applications that should cause reductions in premium subsidies.

The same is true with the almost 1 million discrepancies with respect to immigration and citizen-related information. Keep in mind, people eligible for marketplace coverage include citizens and nationals and others lawfully in the United States. The only persons disqualified for coverage are those who are not lawfully in the country, and those individuals are hardly likely to contact an exchange or other governmental entity.

The kinds of discrepancies that do exist in this area involve matters that are innocuous and do not affect eligibility for or the size of premium subsidies. They include the precise Social Security Number, whether a person does or does not have a hyphenated name, whether the person has a permanent resident card or a green card, whether they are missing a digit in an address.

There are other reasons to believe that the number of inaccuracies are small, and when we see verification, that they would be rectified, four reasons: one, similar verification systems exist in programs like Medicaid and CHIP, and the vast majority of instances consumers' information is found to be accurate; second, Serco, which is the contractor responsible for obtaining information from beneficiaries to address ACA enrollment inconsistencies, briefed the House Energy and Commerce Committee last week, and what they said, they indicated that upwards of 99 percent of the inconsistencies would be in, quote, "innocuous", end quote, or benign, and easily resolved without impact on beneficiaries' costs or coverage; third, consumers attest in their application form under

penalty of perjury, and that is not taken lightly; and lastly, if a review shows a household's initial subsidy is inaccurate, the marketplace will adjust it for the remainder of the year, and places like the District of Columbia have actually suggested to people that they only take 85 percent of their subsidy so that they are on the conservative side of this, and, of course, then there is true up and reconciliation.

The bottom line in all this is that it makes sense to complete the examination of discrepancies as soon as possible, but with respect to the number of inaccuracies, to borrow from William Shakespeare, this is much about very little.

Chairman BRADY. Thank you.

Written Statement for the Record by

Families USA

For the U.S. House of Representatives

Committee on Ways and Means

Hearing on the Verification of Income and Insurance Information Under the Affordable Care Act

Tuesday, June 10th, 2014

Since 1982, Families USA has worked to promote access to affordable, high-quality health care for all Americans. The Affordable Care Act took an enormous step forward to provide that care to people who were previously shut out of the health insurance market.

Background on the Application System

The Affordable Care Act envisioned a modern, streamlined application system for health insurance and premium tax credits that would avoid the need for people to bring shoeboxes full of documents into government offices. As with any large new program, it took a while to make that new system a reality. But the marketplace succeeded in reaching its enrollment targets by the close of the enrollment period and allowed millions of Americans to complete the application process online, with help from trusted community assisters.

Generally, the online application confirms eligibility using the follow process:

- 1) An applicant answers a series of questions about who is applying for coverage, his or her address, whether he or she wants financial help, whether the applicant is a citizen or lawful resident, the income of members of the tax household, and whether the members of the household who want financial help with marketplace insurance have offers of employer-sponsored coverage. The applicant signs that, under penalty of perjury, he or she has provided true information to the best of his or her knowledge.
- 2) The marketplace searches a data hub to confirm the accuracy of the information. If documents that are already available to the government match the applicant's attestation,¹ the

¹ Rules define an inconsistency that has to be reconciled as a discrepancy in income of 10 percent or more that would make a difference as to eligibility. If a person is not income-eligible for premium tax credits and would not be found eligible regardless of which data source was used, the difference does not need to be reconciled.

application is confirmed. If information in the data hub does not match the applicant's attestation, the applicant has 90 days to provide additional documents.ⁱ For example, the applicant might provide a W-2 form, paystub, or letter from an employer to verify his or her current income. (Healthcare.gov provides a list of acceptable verification documents here: <https://www.healthcare.gov/help/how-do-i-resolve-an-inconsistency/>.) The applicant can do this by uploading the documents or by mailing them to the marketplace processing center. This period for "resolving inconsistencies" provides a critical due process protection to consumers while ensuring that the marketplace obtains the necessary verification.

Meanwhile, the initial assessment of eligibility is based on the applicant's attestation. If the applicant's identity has been verified and the person appears to be eligible for advance premium tax credits, the person can enroll in a plan with those tax credits. The applicant is also warned that he or she may have to pay back money at tax time, or may be able to get more assistance at tax time, if the amount that he or she receives in advance is not correct.

3) After the marketplace reviews any further documentation that the applicant sends, if documents show that the person is not receiving the correct amount of advance premium tax credits, the marketplace will adjust the amount of those tax credit payments for the remainder of the year.

Inconsistencies Are Not a Big Deal

Reports have shown that, for about 2 million enrollees, the marketplace is in the process of resolving inconsistencies between the documentation previously on file with government agencies and the information applicants provided.ⁱⁱ We expect that, in the overwhelming majority of these cases, the marketplace will ultimately determine that enrollees are entitled to about the same amount of assistance as they currently receive.

Here is why.

Income inconsistencies: CMS reports that the federal marketplace is still reconciling income inconsistencies for 1.2 million enrollees. *Because the income data that are readily available to the government are old, we expect that the information people record on their applications will generally be more accurate and up-to-date than the information that marketplaces find in the data hub.*

Applicants must project their 2014 adjusted gross income on their application forms. In fact, they are *supposed* to guess their future income.ⁱⁱⁱ They are told that their final premium tax credits will be adjusted based on their actual 2014 incomes when they file their taxes, and they have the option of taking less than the full amount of tax credits in advance if they do not want to risk repayment. (Some state marketplaces, such as the District of Columbia's HealthLink, help applicants decide whether to take less than the full amount of tax credits in advance. The District's website provides as a default option that applicants will take 85 percent of their tax credit in advance.)

The federal data hub provides information from a 2012 tax return and from Social Security records. Marketplaces can also check wage information from employers that is provided by Equifax, an employment verification service, but not all employers provide information to Equifax. Therefore, in many cases, the information that applicants mail or upload in response to a request to resolve an inconsistency will be better, more recent income information that more closely matches their applications than information previously available to the government through electronic databases.

Income inconsistencies may also arise for people with irregular income. For example, a construction worker is paid by the job. This year, he may not have gotten much work during the snowy winter, but he guesses he'll have more income for the remainder of the year. He may therefore project a higher total income for 2014 on his application than the available databases indicate and may therefore take a lower amount in advance premium tax credits.

Citizenship and immigration inconsistencies: CMS reports that it is still reconciling 461,000 inconsistencies about citizenship information and 505,000 inconsistencies about immigration information. This is due to ongoing technical problems: The electronic verification system is still not working properly. These problems are not the fault of the applicants, who have provided the information they were asked to provide. Many of the current inconsistencies simply reflect that the documentation provided by applicants has not yet been processed by the agency. Due to the nature of these inconsistencies, it is highly likely that, once processed, eligibility will be confirmed for these cases.

People are eligible for marketplace coverage if they are citizens, nationals, or lawfully present in the United States. This information must be verified.

For individuals who attest to being a U.S. citizen, the system first attempts to verify citizenship using the applicant's Social Security number and querying the Social Security Administration (SSA). However, because of deficiencies in the SSA database (which is not updated when an individual naturalizes), many naturalized citizens cannot be verified through SSA. If SSA cannot verify citizenship, the system attempts to verify the individual's citizenship with U.S. Citizenship and Immigration Services (USCIS) using their SAVE system.

Lawfully present individuals must provide information from immigration documentation they've received from the Department of Homeland Security. Using this information, the system attempts to verify immigration status with USCIS using SAVE. There are many transfers of data throughout this process: the marketplace → federal data services hub → SAVE → the federal data hub → the marketplace. At any of these transfer points, there may be a problem with the electronic interface and the exchange of information that results in a glitch that creates a problem in the verification process.

Initially, additional technical problems included an application glitch in the federal marketplace: Even when all the information from an individual's immigration document was entered, the system didn't recognize it and wasn't able to process the information. In some cases, slight misspellings of names or the inclusion of a middle initial or hyphenated name may have thrown off a search.

Workarounds were developed and have evolved. For example, sometimes it helped to enter the information in all capital letters, and sometimes it helped to leave off hyphens or to leave out certain information. Therefore, the marketplace asked many applicants to submit additional documentary evidence of their immigration status simply because the marketplace's electronic interfaces were not working. Applicants responded (and continue to respond) by uploading documents or by mailing copies of their immigration documents to the federal processing center. [Here's a [link](#) to a list of accepted immigration documents: Permanent Resident Card or green card, Employment Authorization Document and Arrival/Departure Record or I-94 are probably the most common.]

We know from assisters and immigration advocacy organizations that many consumers who have submitted these documents are still awaiting notice that their documents have been received and processed. This accounts for a large number of the "inconsistencies" that are currently being resolved. In fact, inconsistency is a misnomer for these situations—the government is simply trying to obtain or process documentation for cases in which it had problems accessing electronic data.

Verification of Employer-Based Coverage

The Affordable Care Act makes premium tax credits available to people in the individual market who have financial need for premium assistance and who do not have an affordable offer of minimum-value coverage through their employers. We support this aspect of the law: It does not supplant employer-based coverage; rather, it makes coverage available to people who previously could not get coverage either through their employers or through the individual market due to cost or their health conditions. With the protections of the Affordable Care Act, people no longer are locked into jobs to get health insurance—they can work for themselves or start a new business. Workers in small firms that did not provide coverage before can also buy coverage, and low- and middle-wage workers whose employers do not offer coverage can get premium tax credits.

Applications for premium assistance therefore require applicants to provide information about any available employer-sponsored coverage. They can use an "employer coverage tool" to get the relevant information from their employers. Unless the marketplace receives contradictory information (for example, through data on coverage that is offered to federal employees), it generally accepts the applicants' attestation about available coverage. Rules require the marketplace to conduct further verification of employer-sponsored coverage offers for a random sample of enrollees.

Going forward, we believe that some aspects of the rules pertaining to employer-sponsored coverage should be improved. We know from assisters that some applicants tried, in good faith, to provide information about their employer-sponsored coverage, but they or their employers did not understand some of the requirements.

In particular, if dependents can be covered on the employer's plan, and the employee's share of premiums is affordable, the rules ban the entire family from getting premium tax credits—even if the employer contributes little or nothing to dependents' coverage and the dependents do not enroll in the employer's plan. This "family glitch" defies logic and fairness, and we know that applicants may not have

understood or provided correct information about employers' offers of dependent coverage. This was not anticipated^v and should be fixed through regulation or legislation.

In addition, some applicants had difficulty getting their employers to complete the coverage tool at all. Applicants would be able to provide more accurate information if, during open enrollment season, they automatically received relevant information from their employers about available employer-sponsored coverage. Enhancements to the Summary of Benefits and Coverage could help with this in future years.

Reconciliation

The Affordable Care Act distinguishes advance premium tax credits from final premium tax credits. When people file their taxes, they list their actual income for the year, and if that differs from the income they predicted, they may get more in premium tax credits than they took in advance, or they may have to pay back a portion of the premium tax credits that they took in advance. Thus, as CMS resolves inconsistencies between documents and applications, if people actually did get more or less assistance than they should have, two mechanisms will resolve any over- or underpayments: First, the marketplace will adjust premium tax credits for the remainder of the year. Second, discrepancies will be corrected through reconciliation.

As noted, we believe that, once all verification is complete, the marketplace will not find major discrepancies in the amounts *most* consumers should receive in premium tax credits. But we share concerns that the longer the process of verifying and resolving inconsistencies takes, the more *some* consumers will owe when they reconcile their tax returns.

Congress can work in a bipartisan way to minimize the effects of reconciliation on consumers who tried, in good faith, to maintain health insurance and obtain the proper amount of premium assistance. When the Affordable Care Act was passed, repayments for families with income below 400 percent of the federal poverty line were capped at \$400 annually.^v In later years, Congress revised the reconciliation caps so that they were scaled to income but increased to \$2,500 for a family with income below 400 percent of poverty.

Congress should again consider providing more protective caps on reconciliation, either on a temporary or permanent basis; disregarding inconsistencies that were resolved within a few months; or disregarding certain types of inconsistencies, such as those that reflect minor mistakes in an employer coverage tool. We would be glad to work with you on such an initiative.

^{iv} Letter from Members Levin, Waxman, Miller, Stark, Pallone, Andrews and Dingell to Secretary Timothy Geithner, December 6, 2011.

^v Patient Protection and Affordable Care Act Section 1401(f)(2)(B).

Chairman BRADY. While some today try to dismiss this, this as no big deal, the truth is Republicans and Democrats have been concerned about this for some time, with the risk to taxpayers by inadvertently committing taxpayer funded fraud, unfortunately, if this is not fixed.

Mr. Holtz-Eakin, on the screen, in barely readable type, is the income verification system of the Continuing Appropriations Act 2014. This was passed Republicans and Democrats, signed by the President, includes language principally by Representative Black of Tennessee, an important section reads this way: Prior to making such credits and reductions available, the Secretary shall certify to the Congress that the exchanges verify such eligibilities consistent with the requirements of such act. And Secretary Sebelius made that certification January 1.

One, was that certification in error, and two, as of today as it currently stands, does this system meet the requirements of the law?

Mr. HOLTZ-EAKIN. In my opinion, it does not meet that requirement and the Secretary clearly made the certification for reasons that she can defend, but by delaying for 1 to 2 years depending on the size of the firm any collection other than voluntary of information from the employer side, you cannot know if someone has an offer of affordable insurance. That is a key piece of the eligibility requirement.

Second, there are essentially different rules for Federal exchanges and state exchanges, and my understanding is that the administration is going to treat differently those states that did and did not expand Medicaid. You cannot make a sweeping statement that there is an overall certification system in those circumstances.

Chairman BRADY. As of today—

Mr. HOLTZ-EAKIN. Yes.

Chairman BRADY. As of today. Here we are June 10th, we have not even begun to resolve, even begun to resolve income-related inconsistencies. CMS acknowledges there is well over a million of these. They hope to get through them by the end of the summer; not yet known if that will happen or not. Obviously everyone acknowledges there is a long way to go in this.

Some will say this is all working out, no problem, this will work itself out, but even if they fix all the technical items, will HHS and the IRS really ever have a working income verification system? Doesn't the law, based on a very poor design, really prevent any agency from verifying income information before sending out the tax subsidy?

Mr. HOLTZ-EAKIN. There is no existing program that does what you described effectively. My concern is from experience with the earned income tax credit, from experience with the Medicare payment programs that this is yet another program that will, in fact, place a premium on getting money out the door, it will then make a good faith effort to identify errors in payment and recapture, but we have as a Government never done that particularly successfully.

And so, I understand the folks who point to particular details that can be fixed and done better, but as an overall track record, these kinds of programs have large errors in payment, and those are large taxpayer sums of money.

Chairman BRADY. So the problems that we will see won't merely fix themselves. The design of the system really makes it, as you indicated in your testimony, creates that pay-and-chase process, again, where we will always be paying out incorrect subsidies, chasing them down with some degree of success or not.

Mr. HOLTZ-EAKIN. Absolutely. And indeed, this law, in fact, exacerbates that slightly by making it the case that the recapture comes from taking money out of refunds. If there is no refund from which to take the overpayment, the taxpayer has—the recipient of the payment has no obligation to repay the Federal Government and thus the taxpayers.

So, you know, you have designed it so as to not get back all the overpayments. There is no doubt about that. It is going to be in particular, people like Mr. Ellis in a bad position. If you are a tax preparer, you can have an individual sitting in front of you saying, I am not going to pay what I owe, and will he sign off on that as a tax return? I won't answer for him, but I wouldn't want to be in that position. This is really a poorly designed system from that perspective.

Chairman BRADY. And in your testimony, you made the case that many of these individuals may not be as familiar with the tax preparation system. You are asking them to follow a very complex set of rules that they may have really no experience in dealing with?

Mr. HOLTZ-EAKIN. Yes. I mean, there are two people on this panel that can speak to this better than I can, but I worry about what happens next February. There are going to be people who have not traditionally filed returns who are going to get an information form in the mail, it is a 1095A, and my guess is half of them will toss it, they will have no idea what that is.

They will then have an obligation to file a return and reconcile the information on that form through another form, an 860—890—8962 form, and if they don't put that form in, the IRS will reject the filing and send it back to them. They won't get their earned income tax credit, they won't get their child care, they won't get anything.

I think there is going to be enormous amount of confusion. This population is not used to this process, the forms are new. The way error checking and reconciliation is going to happen is, in fact, not clear.

You know—

Chairman BRADY. And if I understand it correctly, because of the way Ms. Maloney talked about, if taxpayers don't catch it this next tax season, with the reporting requirements put in place in 2015, they will be caught in the 2016 tax system, which means they could be on the hook for 2 years of either overpayments or ineligible subsidies; is that correct?

Mr. HOLTZ-EAKIN. That would be my reading of the law and the practice. I would encourage you, you know, to have the IRS commissioner come up and explain how they do in fact plan to do that. I think there is some uncertainty about that at the moment.

Chairman BRADY. Thank you very much.

Mr. Ellis, to sort of follow up, there is really a second group of taxpayers we are concerned about, and you identified them in your testimony. And so if an individual, if I go to my employer and ask, is the insurance you offer me affordable according to the Affordable Care Act, will that employer necessarily know what that means?

Mr. ELLIS. No, because the employer doesn't have all the information that it needs in order to make that judgment. The defini-

tion of affordable insurance from the workplace is nine and a half percent of someone's adjusted gross income, of an individual's adjusted gross income, but, of course, individuals if they are part of a family unit don't file taxes as individuals. That only happens if they are single.

If you are married or if you have dependent children and all these other things that come into a more complicated tax return situation, the employer is not necessarily going to have all that information.

That is why the employer community was so insistent upon having this waiver of reporting, I think, for 2014, because they knew that they didn't want to make an attestation to the Government based on information that was incomplete.

Chairman BRADY. So if I have asked that question of my employer, they may not necessarily know what that means. So Serco, the Government contractor hired to process all the paper applications, resolve the conflicts of data, contact taxpayers and all, if they ask an employer today, is the insurance you offer John Q employee affordable, is the employer going to know that answer?

Mr. ELLIS. Probably not, because that employer probably doesn't have any more information than he did at any point this year.

Chairman BRADY. So, the Government can supposedly check, and they are doing this manually, so doubt they are doing much checking right now, but can they check and get the wrong answer?

Mr. ELLIS. Absolutely, they can get the wrong answer, and they will.

Chairman BRADY. And then, who pays that back if the answer is wrong? Is it the individual?

Mr. ELLIS. Ultimately the final liability lies with the taxpayer himself or herself that has received this advanced credit.

Chairman BRADY. Okay. Final point. Mr. Ellis, in his testimony, Mr. Pollack stated the Affordable Care Act envisioned a modern, streamlined application system for health insurance and premium tax credits that would avoid the need for people to bring shoeboxes full of documents into Government offices. The Washington Post reports, piles of unprocessed proof documents are sitting in a Federal contractor's Kentucky office. Quite literally there are millions of documents, much of which presumably came from someone's shoebox.

As the tax preparer, does the Affordable Care Act meet the goal envisioned by Mr. Pollack, and do you expect it to be overwhelmed by the contents of these shoeboxes next April?

Mr. ELLIS. I expect it to be overwhelming, in that taxpayers will not know what they don't know when they walk into a tax preparation meeting. I think tax preparers are going to have to learn themselves what it is taxpayers are going to need to bring. We are probably going to have to send them back home, send them back to the Government agencies that maybe they threw away forms from and come back and do follow-up meetings. So it is going to be burdensome on the entire process next filing season.

Chairman BRADY. The purpose of the hearing is not to minimize the problem, it is to shine line on it. So both individuals, employers, others who could be caught up in this can take action now to

try to prevent it, and the Federal Government can actually do the job it was supposed to do under this law.

So I now recognize the Health Subcommittee ranking member, Dr. McDermott, for 5 minutes.

Mr. MCDERMOTT. Thank you, Mr. Chairman.

God, it sounds like the game is over, it is all—it is hopeless.

Mr. Pollack, the ACA—doesn't the IRS have a process at the end of the year that will take the income that you report that year and match it up with what you said you were going to have?

Mr. POLLACK. Yes, of course they do and, you know, what is really important in this inquiry is not to confuse two different sets of things.

One is verification of information that looks retrospectively, which is really the issue that is currently being considered when they say there are a couple million inconsistencies. The other is prospectively. When people provide the best information which is accurate at the time they provide that information, you and I don't know, they don't know whether in the middle of the tax year their employer is going to give them a bonus, whether their employer is going to increase their salary, whether there is going to be a difference in overtime pay. Those are the kinds of things that will be checked later on at the end of the tax year. That does not mean that the application that has been filed has current inaccuracies.

I am concerned that the retrospective effort—I am sorry, that the effort at trying to adjust tax credits in the following year, which may have to look at things that nobody predicted and that are not contrary to what the information that was provided in good faith could result in a tax liability, but that is very different than saying that there are current inaccuracies.

Mr. MCDERMOTT. It sounds to me like the testimony of some of the other witnesses is fear mongering to make people afraid to say, I think my income this year is going to be \$30,000, and therefore I would be eligible for X amount of subsidy, and to take it, because it may turn out that something changes during the year and suddenly they are faced then with, it was \$40,000 you made, you owe \$500 back. Is that a fair statement of what the—

Mr. POLLACK. Yeah. There is no question that those who have opposed the Affordable Care Act have tried to deflate the number of people who apply for coverage and seek subsidies.

Thankfully, the Affordable Care Act did better than anyone predicted. Over 8 million people actually enrolled in private coverage, about 5 million people enrolled in Medicaid coverage, another 1 million enrolled in Medicaid coverage in April after the first enrollment period expired, but thankfully people, when they get counseling—and they are receiving counselors. There are navigators and assisters that are providing information to people so that those who are unfamiliar with the form and have difficulties with the form can fill it out accurately.

Mr. MCDERMOTT. And was there anything in that process when they were filing that said, give us your income for 2 years ago so we can match what you tell us with what you received 2 years ago? Was that the earliest—the best data available to the IRS?

Mr. POLLACK. Yeah. Well, of course when we move away from this shoebox mentality that we have had with social welfare programs where people have to come in with W-2's and 1099's and a host of other data, now we are doing it digitally, and what we then do is verification digitally. What we can only do with the best data that we have, and the best data that we have with respect to income is income in the tax files of a couple years ago.

Mr. MCDERMOTT. So if I am making \$30,000 now, maybe I was making 27 when I—the last time, in 2012. So when I report \$30,000 as my income today, it will be matched against that 27 of 2012, and it will look like an inconsistency, right?

Mr. POLLACK. Yes and especially any inconsistency that exceeds 10 percent, and that—from \$2,700 to—\$27,000 to \$30,000, that is an increase a little above 10 percent, that will appear to be an inconsistency, but it doesn't mean that the \$30,000 response was inaccurate.

Mr. MCDERMOTT. So what is being created here is the impression that there are thousands of people sitting out there saying, I think I will put my income down real low so I can get a big subsidy and see how far I could get with it. Is that a fair way to characterize?

Mr. POLLACK. Well, I don't think people—

Mr. MCDERMOTT. And I yield back the balance of my time.

Mr. POLLACK. I don't think people are looking at it that way.

Chairman BRADY. If you would like to answer in a later question or submit it in writing, that would be perfect.

Mr. POLLACK. I would be happy to do so.

Chairman BRADY. Chairman Boustany.

Chairman BOUSTANY. Thank you, Chairman Brady. The Oversight Subcommittee of Ways and Means has had multiple hearings looking at improper payments in various areas of the Tax Code, and we have tried to focus on this nexus of complexity in the Code and how it leads to improper payments, what is the IRS trying to do to deal with all this, and the compliance burden. We know that improper payments come about from identity theft, honest miscalculation, or the government's inability to administer credits properly. We know that refundable credits are very difficult from an administration standpoint, and that is based on multiple conversations I have had with the IRS Commissioner, privately as well as in hearings. And I referenced government-wide, just under 5 percent improper payment rate. EITC is more problematic, and we still have not gotten a full handle on this. But Mr. Holtz-Eakin and Mr. Ellis, comment on the vulnerability that this premium tax credit is going to pose in terms of creating significant improper payment, and what can the Federal Government do better, if we are going to have this system, and I would submit, I think, the policy prescription is pretty flawed, and we are seeing the implementation flawed as a result; but given that scenario, what can we do?

Mr. HOLTZ-EAKIN. I guess the thing I would like to emphasize is that the reason I am concerned is because of the EITC experience, and this committee has looked at it for a number of years I know. There is no income attestation in the EITC. This is not about inaccuracies in attestations. It is about correctly delivering the right amount of a refundable credit to a deserving individual,

and we get that wrong at alarmingly high rates, 1 in 5, hundreds of billions of dollars. And that track record is the focus of my concern.

It can be improved by effective electronic information sharing, and there is, you know, great efforts by the IRS to do that. I think at the startup of the ACA, there is going to be big problems there. We know that, in fact, the States have simply not been asked to do that. If you are on a Federal exchange, there was an attempt to check the records a few years ago; but I think for a number of years, until the employers are fully in the system and the matching and error checking is done effectively, it is going to be impossible, regardless of attestation, to simply line up the records and give the right amount of money out, and that is my concern.

Chairman BOUSTANY. This level of complexity, especially with the problems they are having with the employer mandate and the reporting is significant. Ms. Mahoney laid out a number of major concerns in that regard. And I know we have talked, I think you have testified before about the additional \$30 billion in regulatory compliance on taxpayers because of the Affordable Care Act. How does this situation with the subsidy eligibility process, employer reporting as we know the status today, these requirements, how will they really add to the compliance cost, and what is the effect going to be both on tax compliance and economic growth?

Mr. HOLTZ-EAKIN. I have been concerned for quite some time that the Affordable Care Act does not cost you anything like a pro-growth policy at a time when the U.S. is recovering poorly from a very deep recession. And so as a whole, it goes in the wrong direction. This is not what you would do to stimulate economic growth. The particulars of the compliance costs are quite troubling because the number is high, the paperwork and self-reported compliance cost—these are all figures from the agencies themselves—look like \$300 billion over a 10-year horizon. Much of it is going to be visited upon a very low income population, the deserving targets of the exchange subsidies. They are the ones who are going to have to report every change in their personal lives quarterly to these exchanges. They are the ones that are going to have to identify the information statements that come in the mail, file new tax forms that they did not previously have to file, do the reconciliation, perhaps be denied their EITC until a second filing confirms the appropriateness of their subsidy. Those compliance costs are going to visit on that population, and that is not going to improve their economic lives.

Chairman BOUSTANY. Mr. Pollack quoted Shakespeare earlier to the tune of much about nothing, but I would submit that \$220 billion over 10 years is significant; and this is just one piece in a budget problem that we have. I would like you to comment. I mean, this \$220 billion estimate, give us a little more insight into where that figure might have come from?

Mr. HOLTZ-EAKIN. How big is that? I mean, where it came from, if we spend \$1 trillion in exchange subsidies over the next 10 years at roughly 20 to 22 percent inappropriate payment rate, that is a \$220 billion taxpayer finance mistake. And that is not entirely hypothetical because we have had that experience in the EITC, which is a smaller program. For perspective, right now the

gap between payments coming in, payroll taxes and premiums, and spending going out in Medicare is \$300 billion. Crucial piece of the social safety net, \$300 billion deficit every year, that is the size of the mistake that we are potentially making that could be applied to legitimate taxpayer goals like funding programs they want and reducing taxes they don't think they need.

Chairman BOUSTANY. Do you think the error rate, we are basically, for the sake of calculation, using a 20 to 22 percent error rate, do you think it is going to be higher? This strikes me as being actually more complicated than the EITC and suggests to me that the error rate could be higher.

Mr. HOLTZ-EAKIN. Well, the EITC asks you to provide at the individual level, household level, your income, family size, the parameters of qualification for your credit. This is that, plus the employer side on affordable insurance, and it is by definition more complex and leads the situations that Mr. Ellis talked about where you might decide something is unaffordable for an individual, send them off to the exchanges, look at the family unit as a whole, decide it was affordable, they got the subsidies inappropriately. They are now in a very bad position of owing the entire amount back, perhaps with quite large penalties. It is going to be difficult to operate effectively.

Chairman BOUSTANY. Ms. Mahoney, do you want to add anything to this? You focused a little bit on the employer reporting requirements and the complexity there. Is there anything that you would like to add?

Ms. MAHONEY. I think that one thing to consider is that businesses are very different in terms of their population of employees, in terms of the size of their company, in terms of whether they self-insure or do not self-insure. And so one of the things that we would like to continue to see is flexibility in terms of what compliance means for the reporting requirements because there are so many different types of businesses and different types of employees with variable hourly employees as opposed to seasonal employees as opposed to a population that you anticipate their hours very clearly. So I think that adds a huge layer for the employer.

Chairman BOUSTANY. To put all this back into perspective, some very disturbing trends have already emerged, and as a physician, I know what the impact of this will truly be. We are now seeing more people in the emergency rooms across the country. This means that a lot of people who need medical care are getting their first line care in the emergency room where it is more expensive, typically later in the process, and it is certainly not the best way to establish a high-quality doctor-patient relationship. I don't think this was the intent of this law, but this is the consequence of a flawed policy. With that, I will yield back, Mr. Chairman.

Chairman BRADY. Thank you, Chairman. Ranking Member Lewis.

Mr. LEWIS. Mr. Pollack. It is good to see you again. Thank you for being here. Thank you for continuing to fight the good fight. Almost 50 years ago you were down in Mississippi in the heart of the Delta trying to help people get registered to vote. Fifty years later you are still fighting, standing up for what is fair. Just thank you for being here. As you travel around the country, what do you see?

What do you hear about the Affordable Care Act? What are the American people saying about it? And I want you to take your time, and if you want to respond to anything, I want you to use my 5 minutes to say what you want to say.

Mr. POLLACK. Thank you. Thank you, Mr. Lewis. You know, the last Census Bureau report tells us something that is truly extraordinary. What the Census Bureau reports said was that there were 48 million people in our Nation who are uninsured. You know, it is hard to put your arms around that number, 48 million. So think about it this way: Take the entire population of Oregon, and then Oklahoma, and then Iowa, and New Mexico, and Mississippi and Utah, Nebraska, Montana, North Dakota, South Dakota, Connecticut, Arkansas, Kansas, Nevada, West Virginia, Idaho, Hawaii, Maine, New Hampshire, Rhode Island, Delaware, Alaska, Vermont, and Wyoming, 24 States, and you aggregate the population together and throw in the District of Columbia, and you have fewer than 48 million people.

What the Affordable Care Act does is it changes that, and we have seen some significant improvements already. For example, we just learned from the Gallup Survey that the number of people who are uninsured has reduced very significantly, and that is very important. But the Affordable Care Act is doing a whole lot more. It is providing peace of mind to people, people who had preexisting health conditions like asthma or diabetes or high blood pressure or history of cancer, they no longer have to worry whether they can get health insurance from an insurance company. Young adults who can't afford insurance are now getting coverage, over 3 million of them, through their parents' policy. And a lot of people who could never afford health insurance before are now receiving significant subsidies that makes premiums affordable and that make out-of-pocket costs affordable. And community health centers are receiving more money to serve more people.

So the Affordable Care Act has taken some very important steps that are long overdue, and in the process, it is also doing something about health care costs that Mr. McDermott talked about. It is aligning payments so we pay for quality rather than quantity of care. It is improving quality effectiveness research to make sure that the care we get is the best care possible. It is improving coordination of care. Those are all very important steps, so I am really thankful that the Affordable Care Act, which is by no means perfect, but it is an extraordinary step in the right direction.

Mr. LEWIS. Thank you very much. Mr. Chairman, I yield back.

Chairman BRADY. Thank you. Mr. Johnson is recognized.

Mr. JOHNSON. Thank you, Mr. Chairman. I can't say what I want to say. You know, defenders of the President's health care law claim the problems we are talking about today are predictable challenges in implementing new programs, the administration is working out the kinks and the problems will go away. I don't think that is true, is it? Mr. Holtz-Eakin, are the problems of income reconciliation, unexpected tax debt or potential waste, fraud, and abuse issues of implementation, or do they go to the very core of how this law operates?

Mr. HOLTZ-EAKIN. As I said in my opening statement, I think there are lots of issues that will arise in the first filing season due

to the deferral and waiving of some of the provisions, but the fundamental issue is much like the EITC and other programs and will not disappear. It is a problem in the design.

Mr. JOHNSON. Well, I guess we have to wait and see. Mr. Ellis, as a tax preparer, what are your biggest concerns about the 2015 tax filing season?

Mr. ELLIS. My biggest concern is that there is a lack of education that is happening on both the preparer side and on the taxpayer side, that there is going to be a completely different dynamic in the tax interview for many of these clients next spring than we have had up until this point. We are going to have an added dimension of having to deal with this, and really everyone I think is going to be caught flat-footed in this. Taxpayers are not going to expect it coming. They, frankly, come in with a big pile of paper and have no idea what they are bringing to a tax meeting. That's the honest truth. This will simply be added to that pile.

They won't be prepared to answer the type of questions that we are going to have to ask as tax preparers, tax preparers having to deal with a completely new set of forms and a completely new process to interview taxpayers are also ill-prepared for this.

So my biggest concern is that we are going to have a lack of information all around, and then that doesn't even bring into account the agency, the IRS, and their ability to educate both taxpayers and preparers in that regard.

Mr. JOHNSON. Well, and they are going to be unable to fathom all the facets of this law I think ultimately. Thank you, Mr. Chairman. I yield back.

Chairman BRADY. Thank you. Mr. Davis.

Mr. DAVIS. Thank you. Thank you very much, Mr. Chairman. I want to thank the witnesses. You know, I was in church Sunday, and I was kind of touched with the message that the pastor gave, and he was trying to figure out why it is that sometimes we see things and just refuse to believe it, that he was pushing the fact that what the eyes see, the heart must believe. And so it amazes me that we continue to hear that ACA is not working when we can see, if we put in perspective, more than 8 million people have marketplace health insurance plans, including more than 6 million who are receiving tax credits. Approximately 6 million lower wage individuals have enrolled in Medicaid coverage, 6 million young adults have been able to stay on their parents' health plan; 129 million Americans with preexisting conditions, including 17 million children, can no longer be denied coverage or charged higher premiums because of their conditions; and more than 100 million Americans no longer have a dollar limit on their coverage, providing them and their families with peace of mind that they will not go bankrupt if they are diagnosed with an expensive disease.

The bottom line is that the ACA helps people with preexisting conditions, those who are between jobs wanting to become self-employed, and obviously this is a tremendous amount of improvement.

Mr. Pollack, you have indicated that as you have talked to people and get the impressions from them how they see this, if they see it one way, I am wondering, why do so many other people seem to see it another way? Or if their hearts just refuse to believe what their eyes see. How would you respond to that?

Mr. POLLACK. I think there are three words that really reflect what has happened to people who are gaining coverage through the Affordable Care Act. Those three words are "peace of mind." People now know that when they or a family member need care, they will be able to receive it, and I think that if you take a look at the surveys of those people who have enrolled, you will find that by an extraordinary margin, people are very happy with that. And I think as more people get enrolled, and more people will get enrolled over the course of the next year and the following year, I think you are going to see that the American public understands that the Affordable Care Act provides a very significant contribution to the improvement of America's health care system. It is by no means perfect, and we are still going to have to make some changes to it, but it is a big step in a positive direction.

Mr. DAVIS. Thank you very much, and I just hope that their hearts will catch up to their eyes, and they too will see that the Affordable Care Act is what America needs, and I yield back, Mr. Chairman.

Mrs. BLACK. [Presiding.] Mr. Roskam.

Mr. ROSKAM. Thank you, Madam Chairman. Mr. Holtz-Eakin, I noticed the first point that you made in your opening remarks I thought was interesting, and you cited the complexity of the Affordable Care Act, and I want to follow up on that. You know, one of the reasons that we have this hearing today is because it is so complicated that the administration is calling upon an honor system that just basically says, you know, you all just report in, and we will attribute, give that the imprimatur of actuality on it. We will just assume that what you say is true because it is so big and it is so complex and it is so difficult that the administration can't deal with it. We know that the Congressional Budget Office recently came out, and they said, in part, that some of these elements of the Affordable Care Act are so complicated and so difficult to discern that the Congressional Budget Office can't get its arms around the totality of this impact, and not to indict the CBO, they are just saying this is the reality, and the footnote in part says that CBO and Joint Committee on Taxation can no longer determine exactly how the provisions of the ACA that are not related to the expansion of health insurance coverage have affected their projections of direct spending and revenues. Then it goes on, isolating the incremental effects of those provisions on previously existing programs and revenues 4 years after enactment of the ACA is not possible.

In other words, it is so big and it is so complicated and it is so overwhelming that a few months ago they were able to estimate that the 10-year cost was \$1.3 trillion, and now they have said it is too big, there is no way to get our heads around this.

One of the remedies, I believe, and I am interested in your insight in this, is legislation that I have introduced along with 80 Members of the House calling for a Special Inspector General to monitor the Affordable Care Act. The thinking is this incredibly complicated piece of legislation that implicitly is so complicated that the administration can't get its heads around it is implementing the honor system.

Explicitly, the Congressional Budget Office says it is so big and complicated, we can't get our heads around this thing, that I think

it is time for us to enact similar to what happened with the Troubled Asset Recovery Program, similar to Inspectors General on Iraq and Afghanistan, and an overall Inspector General to get the information to report back and to get our arms around these big questions. Can you give us any insight or thoughts you have, particularly on a large Inspector General and how the need for that? Am I overstating this? Am I overcharacterizing it? How would you think of that.

Mr. HOLTZ-EAKIN. Well, first of all, I would, you know, issue the caveat that I haven't read your bill.

Mr. ROSKAM. It is really good reading. You would love it.

Mr. HOLTZ-EAKIN. I am remiss, I know I should have. The Inspector Generals have been very valuable additions to agencies, they have, and I think the track record of their bringing to light inefficiencies, outright malfeasance, things like that is superb. What is unique about this law is really its breadth, the number of agencies it encompasses. I wouldn't even be able to list them all. You have got DHS, IRS, Treasury, you have got HHS, you have got the Social Security Administration, the list goes on. Each of the IGs in those agencies is probably very good and looking as carefully as they can at the operations, but they are not going to see the big picture, they are not going to ask the question, are we seeing an efficient, good-faith implementation of the law that the Congress passed and the President signed. It makes sense to me to put someone in that position, particularly for such a very, very large amount of money. This is an extraordinarily important and large program. It makes perfect sense from that perspective.

Mr. ROSKAM. Let me just direct you specifically to three questions that we prepared in advance. Is there any entity today that could give us an accurate report of how taxpayer dollars are being spent for this law across the entire Federal Government, the interactions with State government and the private sector?

Mr. HOLTZ-EAKIN. No.

Mr. ROSKAM. Do you agree that SIGMA would bring, that is this Special Inspector General Monitoring the Affordable Care Act, as you have come to understand it would bring much needed clarity to the law that has been haphazardly implemented, and where there are strong concerns about waste, fraud, and abuse?

Mr. HOLTZ-EAKIN. Yes, because the implementation is now more important than the law. It has been so uneven.

Mr. ROSKAM. And regardless of someone's perspective on the Affordable Care Act, isn't it a rational thing to say more information as it relates to the implementation of the law is a better thing?

Mr. HOLTZ-EAKIN. Absolutely.

Mr. ROSKAM. I yield back.

Mrs. BLACK. The gentleman from Nebraska, Mr. Smith, is recognized.

Mr. SMITH. Thank you, Madam Chair. Mr. Ellis, can you explain the difference between inconsistencies, that is, the difference between information entered on an application and government records, and then ineligibility based on an offer of affordable employer-sponsored insurance? Now, in the case of inconsistency the applicant will receive a notice of inconsistency; is that correct?

Mr. ELLIS. That is correct.

Mr. SMITH. And then they will have the opportunity to rectify those inconsistencies, would that be accurate?

Mr. ELLIS. That is accurate.

Mr. SMITH. So in the case of an applicant, I would say someone acting in good faith who receives a tax credit not realizing or fully understanding they are ineligible because they or a family member were offered employer-sponsored coverage will receive an inconsistency notice. What will they owe when the error is identified?

Mr. ELLIS. If the taxpayer in question was eligible for affordable employer-provided insurance, they would owe the entirety of their advance tax credit back. If they were simply given an overage, they would owe back the extra amount presuming that they make more than a certain amount of income as set in law by statute.

Mr. SMITH. Now, if they did not have a refund coming, what would happen in that case? In that case they would have a straight liability to the IRS. They would have to do a payment. That payment could potentially have interest, and also if payment does not happen, the liens and levies that were discussed earlier could also come into play.

Mr. SMITH. Okay. Mr. Pollack, would you agree with that analysis?

Mr. POLLACK. Yes, I do.

Mr. SMITH. So that a taxpayer acting in good faith could see a lien coming as a result of the complexities of the Tax Code?

Mr. POLLACK. Is that a hypothetical potential? Of course there is. But the real issue here is really not the error scenario that we are focusing on right now. The real potential is for liability is not significantly in errors as we talked about errors before. It is because when people honestly, accurately portray their current circumstances, and they receive a tax credit subsidy accordingly, where the potential for liability is significant is that despite the fact that the response was honest and accurate, things change over the course of the year. Someone may have gotten a bonus in terms of their compensation. They may have received an increase in their salary. They may have had more overtime than they had expected.

There are a variety of factors like that which mean that the accurate, not error, information provided by an individual changes over the course of that year. And that will result in a potential liability. That is what I think may very well happen in April of 2015. I do not believe that we are going to see liability to any significant degree because of errors as we have been talking about it in this hearing. It is what happens prospectively that was unpredictable, rather what happened retrospectively that was reported inaccurately.

Mr. SMITH. My concern is that the Tax Code was already very complicated before we added more complications as a result of this healthcare issue, and my concern is that a taxpayer acting in good faith and wishing to do the right thing could see a pretty significant penalty. Thank you. I yield back.

Mrs. BLACK. The gentleman yields back. The lady from California, Ms. Sanchez, is recognized.

Ms. SANCHEZ. Thank you. I want to thank our chairmen and our ranking members for this hearing. I want to begin by pointing out that the Affordable Care Act is working. Gallup recently found

that the percentage of uninsured Americans has dropped to 13.4 percent, which is the lowest recorded rate ever. More than 8 million people have signed up for exchange plans, with 6.8 million of those receiving an average tax credit of \$4,400 to provide the peace of mind of having health insurance, many for the first time.

Another 6 million have enrolled in Medicaid thanks to the ACA's Medicaid expansion, including 1.4 million people enrolling in California's medical system, and I could go on and on with numbers, but the bottom line is that the ACA is helping people, people with preexisting conditions, people between jobs and many, many others.

Now is the law perfect? Well, no law is, but a tremendous improvement over the discriminatory, dysfunctional, and irrational market that existed prior to its enactment, it is doing much better. And we can agree that some of the issues that HealthCare.gov have encountered are unacceptable. However, it is not the first time that we have seen a troubled rollout. The implementation of Medicare Part D was riddled with false starts and complaints, but we didn't defund it and we didn't repeal it. We didn't throw our hands up in the air and woe is me because it is complex or it is a little bit difficult or it could change.

So let's just all stop kidding ourselves and admit that there will be glitches with the ACA, but if we spend our time working together to ensure that the law worked, maybe we could make it easier for families to buy affordable health insurance. But the hearing today unfortunately does very little to accomplish that goal. It is clear that this hearing is just another attempt to bash the ACA and play politics with Americans' livelihoods.

Like most Republican hearings we have had recently, this is meant to produce a lot of noise and some crocodile tears but very few solutions moving forward. The majority is playing up a false sense of populism and claims that they are worried about people owing a huge tax bill to the IRS during the 2015 filing season. Well, I think that is ironic given that the Republicans eliminated improvements made by Democrats, and they want Secretary Lew to halt all tax credits that make health insurance more affordable.

I think it is unconscionable, and that kind of demand demonstrates that Republicans are out of touch with everyday American families. Life is complicated, yes. And it is full of surprises. People get new jobs, they get married, they have children, they move from State to State. The verification system known as true-up ensures that tax credits accurately reflect the changing nature of people's lives, and I am one of those examples.

I have a biological son and I have stepchildren. I come from an immigrant family, and I use an accent over my last name. And my life, like so many southern Californians, could be considered complicated, but the ACA will recognize those complexities through the verification process during next year's tax filing season. HHS has been transparent about the process and has tried to be proactive in its outreach. We shouldn't deny Americans the assistance they need to buy affordable health care just weeks after they have received it. So if we spent a little more time really caring about the needs of real people instead of trying to tear down the law and defund it or repeal it, we might be able to work together in a con-

structive way, in a bipartisan way, to help ensure that Americans receive quality, affordable health insurance, and I am sorry for stepping on my soap box just now, but I felt it was important to point that out through this entire hearing.

What I would like to do is I would like to ask Mr. Pollack what happens if we repeal or defund the Affordable Care Act as Republicans have suggested time and time again? What happens?

Mr. POLLACK. Ms. Sanchez, I don't think we are going to repeal the Affordable Care Act. We are not going to defund the Affordable Care Act. There are 8 million people who are now receiving subsidies, who are receiving coverage. Most of them, 85 percent are receiving subsidies. Five million people are receiving coverage through the Medicaid program, or CHIP. Three million kids are getting coverage through their parents' policies. We are going to see those numbers increase substantially. I don't think that this Congress, I don't think any Congress is going to take away these benefits that are so important that make health coverage affordable for the first time.

Ms. SANCHEZ. Let me ask you what I hope is a constructive question, which is how can we work to improve the application process for immigrant families in particular?

Mrs. BLACK. Mr. Pollack, the lady's time is expired. We will ask that you submit the answer to this question in writing. Thank you.

The gentlelady from Kansas, Ms. Jenkins, is recognized.

Ms. JENKINS. Thank you, Madam Chairman. Thank you for holding this hearing and thank you all for joining us today. A month ago, our Oversight Subcommittee was able to host IRS Commissioner Koskinen at a hearing on the IRS filing season. At that hearing, I asked Mr. Koskinen about the administration of the Affordable Care Act's premium tax credit reconciliation process. As we have already covered at today's hearing, the ACA's premium tax subsidy will be based on folks' income estimates, and these estimates will often use the prior year's tax returns. Taxpayers will eventually have to reconcile the premium subsidies they received with the amounts they were eligible to receive based on their actual income. In many cases, whether it is due to a salary increase, move across State lines, or other change in situation, they could find themselves owing thousands of dollars back to the IRS.

Recently CMS data indicated that 1.2 million enrollees had discrepancies related to income, and this is before we begin to factor in life changes that will occur throughout this year. I have asked Mr. Koskinen if he believes that taxpayers fully understand the risk that comes with failure to report a life change to the exchange and how they will handle the reconciliation process. He responded that the IRS is concerned that taxpayers need to understand the risk, and they are beginning to publicize this so that taxpayers have various modes of outreach, including their Web site and that he hopes that taxpayers will notify the exchange so that they will not be surprised.

Mr. Ellis and Mr. Skarlatos, would you be willing to answer a few questions for me? Do you think that taxpayers are at all aware of their obligation to notify the exchange with their good news of getting a raise or marriage throughout the year, and do you believe that taxpayers understand their risk of failing to do so? Mr. Ellis.

Mr. ELLIS. No. Because if there is one constant in the tax preparation industry, it is that people forget about the IRS as quickly as they can once they file their tax return, and they don't think about it again until the next January.

Ms. JENKINS. Mr. Skarlatos.

Mr. SKARLATOS. I don't think taxpayers are aware. I think that is what tax preparers should be doing with them. They should be educating them as much as they can.

Ms. JENKINS. Okay. Thank you. Do you believe the IRS' efforts to publicize this information, either through a YouTube account or their Website, will make taxpayers understand their obligation?

Mr. ELLIS. That requires taxpayers to have the interest to go to IRS.gov or to be recipients of the information in some other way that they would actually see it. Based on my experience with real world people that actually file their taxes, I think that is incredibly unlikely.

Mr. SKARLATOS. I agree. I think it is unlikely. I think the burden again should be on the tax return preparers to educate the taxpayers. Ms. Jenkins. And as someone who has prepared tax returns and has had to deliver bad news to taxpayers regarding refunds, are you concerned the tax preparers will be the real frontline of taxpayer education at a time when it is too late.

Mr. ELLIS. There is a joke inside the tax preparer world that it is always the taxpayer's fault when you are in a meeting with a client, and I think that is probably going to be exacerbated here. I think the tax preparers themselves are going to be very unprepared for this. They are going to be talking to people who make a modest amount of income by definition. The 400 percent of Federal poverty line is not a very high level of income. These are not people that have a lot of liquidity to be able to deal with surprises. So, yes, I think it will be very tense, those conversations between preparers and clients.

Mr. SKARLATOS. I agree. The Tax Code is very complex. The tax return preparers are the gatekeepers to the system, and it will be difficult for them to educate taxpayers in this way, but it is really the only way it can be done.

Ms. JENKINS. Thank you. I yield back.

Mrs. BLACK. Mr. Paulsen from Minnesota, you are recognized.

Mr. PAULSEN. Thank you, Madam Chair, and thank you also for presiding over the hearing today.

Just to recap, when the President's health law was passed back in 2010, the law called for verifying individuals' income in order to determine if they are eligible to receive a subsidy. The administration said we are not going to enforce that provision. So Congress moves in, re-passes legislation, the President signs into law that includes the provision once again that we require income verification. But then today now, we know that there are over 2 million people of the 8 million that are in the exchanges, these applicants, have unresolved inconsistencies. So that means 25 percent of applicants in the exchanges had discrepancies. This isn't a glitch. This is clearly a systemic issue, and so the May 17 Washington Post report showing that as many as 1.5 million people; there are cases of significant inaccurate subsidy payments now due to incorrect income data.

In other words, there is no verification resulting in millions of taxpayers, families being on the hook potentially for billions of dollars in waste and fraud, and some of those cases bear out, I think, with Mr. Holtz-Eakin had mentioned earlier in terms of the EITC. So we are no longer talking about hypothetical problems regarding the new healthcare law. We are talking about real risks that are in place now, and this harm is happening as we speak, and during next year's tax filing season millions of Americans are going to find out that they owe the IRS money because their premium credits were paid incorrectly.

And the IRS and the administration in general is going to have to face a choice. One, they can go after innocent taxpayers creating financial hardship and confusion for those millions of families; or two, just and choose to once again ignore the law and force other taxpayers to cover billions of dollars in excess premium credit payments. Those are both very, very bad choices, and it didn't have to be that way. That is what comes when you pass just a one-sided partisan law without bipartisan buy in. Mr. Ellis, is this really how the law was supposed to operate?

Mr. ELLIS. Well, if you look at the actual letter of the law, it is operating the way it is supposed to operate. That speaks more to think the process not having been thought through properly when the law was drafted. As you point out, if the IRS implements the law as written, it is going to face that very difficult choice between going after people who have very modest levels of income and savings in order to pay this overage or simply ignoring their mandate to carry out the laws as written by the Congress.

Mr. PAULSEN. Let me just follow up because as a tax preparer, you know what questions to ask when people seek your services. But what about the people who don't seek your services? Typically how are they going to know? How are they going to know what they are responsible for as a part of verification, and aren't those typically lower income Americans or individuals or families that aren't seeking your services that are going to be trapped in this situation?

Mr. ELLIS. Well, by definition if you look at the upper band of who is going to be affected by this, people that are receiving premium credits at all, 400 percent of the Federal poverty line is about \$44,000 for a single person. It is about \$90,000 for a family of four. So it is everybody between that and below all the way down to Medicaid eligibility. So many of those people are not today using tax preparers. They will continue to file their tax returns or not as they have up until the past. When they are going to find out about it is when they are going to get a notice of deficiency from the IRS after they file.

Mr. PAULSEN. Mr. Holtz-Eakin, I just want to give you a chance to respond too real quick maybe to that or a couple of those points if you could.

Mr. HOLTZ-EAKIN. I think that's exactly right, and my concern is that for this population, they are going to be in uncharted waters. There is a question about whether some of the State exchanges will be able to get the information statements to the recipients, their subsidy payments. Once people receive it, will they know to hold on to it, this is something they need or it was about

that health thing they already did. Do they know to go to a preparer and thus send a reconciliation form? If they don't send in a reconciliation form, my understanding is the IRS is simply going to reject the tax return and tell them to start over. That will be a shocker, particularly if they are used to getting an EITC. It can be a bumpy ride in 2015.

Mr. PAULSEN. Thank you, Madam Chair. I yield back.

Mrs. BLACK. The gentleman yields back. The gentleman from New York, Mr. Crowley, is recognized.

Mr. CROWLEY. Thank you, Madam Chair. It is really a remarkable hearing today. It is unbelievable in many respects to me that my colleagues are willing to say and do just about anything to tarnish the Affordable Care Act and undermine access to health care in this country. Let me be very clear about a few things: One, the vast majority of what we are talking about when we hear inconsistency isn't fraud. It isn't malicious or a sign of anything bigger. These are expected, anticipated issues that happen with any Federal program checking various items of data.

Two, there is, in fact, a verification system. It happens now as we speak and it is clearing the majority of inconsistencies. And three, there was a backup verification process that happens at the next tax filing when we know what a person's actual income was for that filing year. This reconciliation process is necessary and helpful because people's incomes, as has been stated over and over again, and family circumstances change over the course of a year, hopefully for the better. Some people maybe didn't get all the tax credits that they were entitled to, in fact. But what's shocking to me is all the fake outrage from my colleagues on the other side of the aisle about this reconciliation process when they have voted time and again to make this process harder on working families.

After passage of the Affordable Care Act, Democrats worked to improve this reconciliation process, so families wouldn't see their income taxes raised if they received even a small end-of-the-year bonus. But opponents of this law in their unending zeal to undermine the Affordable Care Act and to scare away people from accessing health insurance went back to this again and again to undo all the improvements we made and actually made it worse than before.

I guess using Speaker Boehner's metric of judging this majority based on what the undo rather than what they do, they consider what they have done a success.

And that is not even enough for them. Twice more, they put forward proposals to completely repeal all protections for families to repay tax credits that turned out to be more than they needed. So when you hear them now crying crocodile tears about the burden on people to pay back some or all of their tax credits, remember that they themselves have themselves to thank for increasing this tax burden.

Madam Chairlady, I would like to ask unanimous consent to enter into the record each of these Republican attempts to force a tax increase on working families, H.R. 4, H.R. 5652, and H.R. 436.

Mrs. BLACK. Without objection.

21 of 1995 (2 U.S.C. 1531) is amended to read as follows:

22 **“SEC. 201. REGULATORY PROCESS AND PRINCIPLES.**

23 “(a) IN GENERAL.—Each agency shall, unless other-
24 wise expressly prohibited by law, assess the effects of Fed-
25 eral regulatory actions on State, local, and tribal govern-

1 ments and the private sector (other than to the extent that
2 such regulatory actions incorporate requirements specifi-
3 cally set forth in law) in accordance with the following
4 principles:

5 “(1) Each agency shall identify the problem
6 that it intends to address (including, if applicable,
7 the failures of private markets or public institutions
8 that warrant new agency action) as well as assess
9 the significance of that problem.

10 “(2) Each agency shall examine whether exist-
11 ing regulations (or other law) have created, or con-
12 tributed to, the problem that a new regulation is in-
13 tended to correct and whether those regulations (or
14 other law) should be modified to achieve the in-
15 tended goal of regulation more effectively.

16 “(3) Each agency shall identify and assess
17 available alternatives to direct regulation, including
18 providing economic incentives to encourage the de-
19 sired behavior, such as user fees or marketable per-
20 mits, or providing information upon which choices
21 can be made by the public.

22 “(4) If an agency determines that a regulation
23 is the best available method of achieving the regu-
24 latory objective, it shall design its regulations in the
25 most cost-effective manner to achieve the regulatory

1 objective. In doing so, each agency shall consider in-
2 centives for innovation, consistency, predictability,
3 the costs of enforcement and compliance (to the gov-
4 ernment, regulated entities, and the public), flexi-
5 bility, distributive impacts, and equity.

6 “(5) Each agency shall assess both the costs
7 and the benefits of the intended regulation and, rec-
8 ognizing that some costs and benefits are difficult to
9 quantify, propose or adopt a regulation, unless ex-
10 pressly prohibited by law, only upon a reasoned de-
11 termination that the benefits of the intended regula-
12 tion justify its costs.

13 “(6) Each agency shall base its decisions on the
14 best reasonably obtainable scientific, technical, eco-
15 nomic, and other information concerning the need
16 for, and consequences of, the intended regulation.

17 “(7) Each agency shall identify and assess al-
18 ternative forms of regulation and shall, to the extent
19 feasible, specify performance objectives, rather than
20 specifying the behavior or manner of compliance
21 that regulated entities must adopt.

22 “(8) Each agency shall avoid regulations that
23 are inconsistent, incompatible, or duplicative with its
24 other regulations or those of other Federal agencies.

1 “(9) Each agency shall tailor its regulations to
2 minimize the costs of the cumulative impact of regu-
3 lations.

4 “(10) Each agency shall draft its regulations to
5 be simple and easy to understand, with the goal of
6 minimizing the potential for uncertainty and litiga-
7 tion arising from such uncertainty.

8 “(b) REGULATORY ACTION DEFINED.—In this sec-
9 tion, the term ‘regulatory action’ means any substantive
10 action by an agency (normally published in the Federal
11 Register) that promulgates or is expected to lead to the
12 promulgation of a final rule or regulation, including ad-
13 vance notices of proposed rulemaking and notices of pro-
14 posed rulemaking.”.

15 **SEC. 109. EXPANDING THE SCOPE OF STATEMENTS TO AC-**

2 date that may result in an annual effect on State, local,

5 shall prepare a written statement containing the following:

10 rulemaking or final rule will meet that need.

11 “(2) An assessment of the potential costs and
12 benefits of the proposed rulemaking or final rule, in-
13 cluding an explanation of the manner in which the
14 proposed rulemaking or final rule is consistent with
15 a statutory requirement and avoids undue inter-
16 ference with State, local, and tribal governments in
17 the exercise of their governmental functions.

18 “(3) A qualitative and quantitative assessment,
19 including the underlying analysis, of benefits antici-
20 pated from the proposed rulemaking or final rule
21 (such as the promotion of the efficient functioning of
22 the economy and private markets, the enhancement
23 of health and safety, the protection of the natural
24 environment, and the elimination or reduction of dis-
25 crimination or bias).

1 “(4) A qualitative and quantitative assessment,
2 including the underlying analysis, of costs antici-
3 pated from the proposed rulemaking or final rule
4 (such as the direct costs both to the Government in
5 administering the final rule and to businesses and
6 others in complying with the final rule, and any ad-
7 verse effects on the efficient functioning of the econ-
8 omy, private markets (including productivity, em-
9 ployment, and international competitiveness), health,
10 safety, and the natural environment).

11 “(5) Estimates by the agency, if and to the ex-
12 tent that the agency determines that accurate esti-
13 mates are reasonably feasible, of—

14 “(A) the future compliance costs of the
15 Federal mandate; and

16 “(B) any disproportionate budgetary ef-
17 fects of the Federal mandate upon any par-
18 ticular regions of the Nation or particular
19 State, local, or tribal governments, urban or
20 rural or other types of communities, or par-
21 ticular segments of the private sector.

22 “(6)(A) A detailed description of the extent of
23 the agency’s prior consultation with the private sec-
24 tor and elected representatives (under section 204)
25 of the affected State, local, and tribal governments.

1 “(13) A detailed summary of the comments and
 2 concerns that were presented by the private sector
 3 and State, local, or tribal governments either orally
 4 or in writing to the agency.

5 “(C) A detailed summary of the agency’s eval-
 6 uation of those comments and concerns.

7 “(7) A detailed summary of how the agency

10 “(2) Agencies shall consult with a wide variety
11 of State, local, and tribal officials and impacted par-
12 ties within the private sector (including small busi-
13 nesses). Geographic, political, and other factors that
14 may differentiate varying points of view should be
15 considered.

16 “(3) Agencies should estimate benefits and
17 costs to assist with these consultations. The scope of
18 the consultation should reflect the cost and signifi-
19 cance of the Federal mandate being considered.

20 “(4) Agencies shall, to the extent practicable—

21 “(A) seek out the views of State, local, and
22 tribal governments, and impacted parties within

 7 impact of regulations on the affected entities.

8 “(6) Agencies may accept electronic submis-

17 (b) Section 553 of title 5, United States Code, is
18 amended by striking subsections (b) through (c) and in-
19 serting the following:

20 “(b) RULE MAKING CONSIDERATIONS.—In a rule
21 making, an agency shall make all preliminary and final
22 factual determinations based on evidence and consider, in
23 addition to other applicable considerations, the following:

24 “(1) The legal authority under which a rule
25 may be proposed, including whether a rule making

1 is required by statute, and if so, whether by a spe-
2 cific date, or whether the agency has discretion to
3 commence a rule making.

4 “(2) Other statutory considerations applicable
5 to whether the agency can or should propose a rule
6 or undertake other agency action.

7 “(3) The specific nature and significance of the
8 problem the agency may address with a rule (includ-
9 ing the degree and nature of risks the problem poses
10 and the priority of addressing those risks compared
11 to other matters or activities within the agency’s ju-
12 risdiction), whether the problem warrants new agen-
13 cy action, and the countervailing risks that may be
14 posed by alternatives for new agency action.

15 “(4) Whether existing rules have created or
16 contributed to the problem the agency may address
17 with a rule and whether those rules could be amend-
18 ed or rescinded to address the problem in whole or
19 part.

20 “(5) Any reasonable alternatives for a new rule
21 or other response identified by the agency or inter-
22 ested persons, including not only responses that
23 mandate particular conduct or manners of compli-
24 ance, but also—

1 “(A) the alternative of no Federal re-
 2 sponse;

3 “(B) amending or rescinding existing
 4 rules;

5 “(C) potential regional, State, local, or
 6 tribal regulatory action or other responses that
 7 could be taken in lieu of agency action; and

8 “(D) potential responses that—

9 “(i) specify performance objectives
 10 rather than conduct or manners of compli-
 11 ance;

12 “(ii) establish economic incentives to
 13 encourage desired behavior;

14 “(iii) provide information upon which
 15 choices can be made by the public; or

16 “(iv) incorporate other innovative al-
 17 ternatives rather than agency actions that
 18 specify conduct or manners of compliance.

19 “(6) Notwithstanding any other provision of
 20 law—

21 “(A) the potential costs and benefits asso-
 22 ciated with potential alternative rules and other
 23 responses considered under section 553(b)(5),
 24 including direct, indirect, and cumulative costs
 25 and benefits and estimated impacts on jobs (in-

1 cluding an estimate of the net gain or loss in
 2 domestic jobs), wages, economic growth, innova-
 3 tion, and economic competitiveness;

4 “(B) means to increase the cost-effective-
 5 ness of any Federal response; and

6 “(C) incentives for innovation, consistency,
 7 predictability, lower costs of enforcement and
 8 compliance (to government entities, regulated
 9 entities, and the public), and flexibility.

10 “(e) ADVANCE NOTICE OF PROPOSED RULE MAKING

 12 PACT ON JOBS AND WAGES RULES, AND RULES INVOLV-

 14 a rule making for a major rule, a high-impact rule, a nega-
 15 tive-impact on jobs and wages rule, or a rule that involves
 16 a novel legal or policy issue arising out of statutory man-
 17 dates, not later than 90 days before a notice of proposed
 18 rule making is published in the Federal Register, an agen-
 19 cy shall publish advance notice of proposed rule making
 20 in the Federal Register. In publishing such advance notice,
 21 the agency shall—

22 “(1) include a written statement identifying, at
 23 a minimum—

24 “(A) the nature and significance of the
 25 problem the agency may address with a rule, in-

1 including data and other evidence and informa-
2 tion on which the agency expects to rely for the
3 proposed rule;

4 “(B) the legal authority under which a rule
5 may be proposed, including whether a rule mak-
6 ing is required by statute, and if so, whether by
7 a specific date, or whether the agency has dis-
8 cretion to commence a rule making;

9 “(C) preliminary information available to
10 the agency concerning the other considerations
11 specified in subsection (b);

12 “(D) in the case of a rule that involves a
13 novel legal or policy issue arising out of statu-
14 tory mandates, the nature of and potential rea-
15 sons to adopt the novel legal or policy position
16 upon which the agency may base a proposed
17 rule; and

18 “(E) an achievable objective for the rule
19 and metrics by which the agency will measure
20 progress toward that objective;

21 “(2) solicit written data, views or argument
22 from interested persons concerning the information
23 and issues addressed in the advance notice; and

1 “(3) provide for a period of not fewer than 60
2 days for interested persons to submit such written
3 data, views, or argument to the agency.

4 “(d) NOTICES OF PROPOSED RULE MAKING; DETER-
5 MINATIONS OF OTHER AGENCY COURSE.—(1) Before it
6 determines to propose a rule, and following completion of
7 procedures under subsection (c), if applicable, the agency
8 shall consult with the Administrator of the Office of Infor-
9 mation and Regulatory Affairs. If the agency thereafter
10 determines to propose a rule, the agency shall publish a
11 notice of proposed rule making, which shall include—

12 “(A) a statement of the time, place, and nature
13 of public rule making proceedings;

14 “(B) reference to the legal authority under
15 which the rule is proposed;

16 “(C) the terms of the proposed rule;

17 “(D) a description of information known to the

19 rule, including but not limited to—

20 “(i) a summary of information known to
21 the agency concerning the considerations speci-
22 fied in subsection (b);

23 “(ii) a summary of additional information
24 the agency provided to and obtained from inter-
25 ested persons under subsection (c);

1 “(iii) a summary of any preliminary risk
2 assessment or regulatory impact analysis per-
3 formed by the agency; and

4 “(iv) information specifically identifying all
5 data, studies, models, and other evidence or in-
6 formation considered or used by the agency in
7 connection with its determination to propose
8 the rule;

9 “(E)(i) a reasoned preliminary determination of
10 need for the rule based on the information described
11 under subparagraph (D);

12 “(ii) an additional statement of whether a rule
13 is required by statute; and

14 “(iii) an achievable objective for the rule and
15 metrics by which the agency will measure progress
16 toward that objective;

17 “(F) a reasoned preliminary determination that
18 the benefits of the proposed rule meet the relevant
19 statutory objectives and justify the costs of the pro-
20 posed rule (including all costs to be considered under
21 subsection (b)(6)), based on the information de-
22 scribed under subparagraph (D);

23 “(G) a discussion of—

1 “(i) the alternatives to the proposed rule,
2 and other alternative responses, considered by
3 the agency under subsection (b);

4 “(ii) the costs and benefits of those alter-
5 natives (including all costs to be considered
6 under subsection (b)(6));

7 “(iii) whether those alternatives meet rel-
8 evant statutory objectives; and

9 “(iv) why the agency did not propose any
10 of those alternatives; and

11 “(H)(i) a statement of whether existing rules
12 have created or contributed to the problem the agen-
13 cy seeks to address with the proposed rule; and

14 “(ii) if so, whether or not the agency proposes
15 to amend or rescind any such rules, and why.

16 All information provided to or considered by the agency,
17 and steps to obtain information by the agency, in connec-
18 tion with its determination to propose the rule, including
19 any preliminary risk assessment or regulatory impact
20 analysis prepared by the agency and all other information
21 prepared or described by the agency under subparagraph
22 (D) and, at the discretion of the President or the Adminis-
23 trator of the Office of Information and Regulatory Affairs,
24 information provided by that Office in consultations with
25 the agency, shall be placed in the docket for the proposed

1 rule and made accessible to the public by electronic means
2 and otherwise for the public's use when the notice of pro-
3 posed rule making is published.

4 “(2)(A) If the agency undertakes procedures under
5 subsection (c) and determines thereafter not to propose
6 a rule, the agency shall, following consultation with the
7 Office of Information and Regulatory Affairs, publish a
8 notice of determination of other agency course. A notice
9 of determination of other agency course shall include in-
10 formation required by paragraph (1)(D) to be included in
11 a notice of proposed rule making and a description of the
12 alternative response the agency determined to adopt.

13 “(B) If in its determination of other agency course
14 the agency makes a determination to amend or rescind
15 an existing rule, the agency need not undertake additional
16 proceedings under subsection (c) before it publishes a no-
17 tice of proposed rule making to amend or rescind the exist-
18 ing rule.

19 All information provided to or considered by the agency,
20 and steps to obtain information by the agency, in connec-
21 tion with its determination of other agency course, includ-
22 ing but not limited to any preliminary risk assessment or
23 regulatory impact analysis prepared by the agency and all
24 other information that would be required to be prepared
25 or described by the agency under paragraph (1)(D) if the

1 agency had determined to publish a notice of proposed rule
2 making and, at the discretion of the President or the Ad-
3 ministrator of the Office of Information and Regulatory
4 Affairs, information provided by that Office in consulta-
5 tions with the agency, shall be placed in the docket for
6 the determination and made accessible to the public by
7 electronic means and otherwise for the public's use when
8 the notice of determination is published.

9 “(3) After notice of proposed rule making required
10 by this section, the agency shall provide interested persons
11 an opportunity to participate in the rule making through
12 submission of written data, views, or arguments with or
13 without opportunity for oral presentation, except that—

14 “(A) if a hearing is required under paragraph
15 (4)(B) or subsection (e), opportunity for oral presen-
16 tation shall be provided pursuant to that require-
17 ment; or

18 “(B) when other than under subsection (e) of
19 this section rules are required by statute or at the
20 discretion of the agency to be made on the record
21 after opportunity for an agency hearing, sections
22 556 and 557 shall apply, and paragraph (4), the re-
23 quirements of subsection (e) to receive comment out-
24 side of the procedures of sections 556 and 557, and

1 the petition procedures of subsection (e)(6) shall not
2 apply.

3 The agency shall provide not fewer than 60 days for inter-
4 ested persons to submit written data, views, or argument
5 (or 120 days in the case of a proposed major or high-
6 impact rule).

7 “(4)(A) Within 30 days of publication of notice of
8 proposed rule making, a member of the public may peti-
9 tion for a hearing in accordance with section 556 to deter-
10 mine whether any evidence or other information upon
11 which the agency bases the proposed rule fails to comply
12 with the Information Quality Act.

13 “(B)(i) The agency may, upon review of the petition,
14 determine without further process to exclude from the rule
15 making the evidence or other information that is the sub-
16 ject of the petition and, if appropriate, withdraw the pro-
17 posed rule. The agency shall promptly publish any such
18 determination.

19 “(ii) If the agency does not resolve the petition under
20 the procedures of clause (i), it shall grant any such peti-
21 tion that presents a prima facie case that evidence or other
22 information upon which the agency bases the proposed
23 rule fails to comply with the Information Quality Act, hold
24 the requested hearing not later than 30 days after receipt
25 of the petition, provide a reasonable opportunity for cross-

1 examination at the hearing, and decide the issues pre-
2 sented by the petition not later than 60 days after receipt
3 of the petition. The agency may deny any petition that
4 it determines does not present such a prima facie case.

5 “(C) There shall be no judicial review of the agency’s
6 disposition of issues considered and decided or determined
7 under subparagraph (B)(ii) until judicial review of the
8 agency’s final action. There shall be no judicial review of
9 an agency’s determination to withdraw a proposed rule
10 under subparagraph (B)(i) on the basis of the petition.

11 “(D) Failure to petition for a hearing under this
12 paragraph shall not preclude judicial review of any claim
13 based on the Information Quality Act under chapter 7 of
14 this title.

15 “(e) HEARINGS FOR HIGH-IMPACT RULES.—Fol-
16 lowing notice of a proposed rule making, receipt of com-
17 ments on the proposed rule, and any hearing held under
18 subsection (d)(4), and before adoption of any high-impact
19 rule, the agency shall hold a hearing in accordance with
20 sections 556 and 557, unless such hearing is waived by
21 all participants in the rule making other than the agency.
22 The agency shall provide a reasonable opportunity for
23 cross-examination at such hearing. The hearing shall be
24 limited to the following issues of fact, except that partici-

1 pants at the hearing other than the agency may waive de-
2 termination of any such issue:

3 “(1) Whether the agency’s asserted factual
4 predicate for the rule is supported by the evidence.

5 “(2) Whether there is an alternative to the pro-
6 posed rule that would achieve the relevant statutory
7 objectives at a lower cost (including all costs to be
8 considered under subsection (b)(6)) than the pro-
9 posed rule.

10 “(3) If there is more than one alternative to the
11 proposed rule that would achieve the relevant statu-
12 tory objectives at a lower cost than the proposed
13 rule, which alternative would achieve the relevant
14 statutory objectives at the lowest cost.

15 “(4) Whether, if the agency proposes to adopt
16 a rule that is more costly than the least costly alter-
17 native that would achieve the relevant statutory ob-
18 jectives (including all costs to be considered under
19 subsection (b)(6)), the additional benefits of the
20 more costly rule exceed the additional costs of the
21 more costly rule.

22 “(5) Whether the evidence and other informa-
23 tion upon which the agency bases the proposed rule
24 meets the requirements of the Information Quality
25 Act.

1 “(6) Upon petition by an interested person who
2 has participated in the rule making, other issues rel-
3 evant to the rule making, unless the agency deter-
4 mines that consideration of the issues at the hearing
5 would not advance consideration of the rule or
6 would, in light of the nature of the need for agency
7 action, unreasonably delay completion of the rule
8 making. An agency shall grant or deny a petition
9 under this paragraph within 30 days of its receipt
10 of the petition.

11 No later than 45 days before any hearing held under this
12 subsection or sections 556 and 557, the agency shall pub-
13 lish in the Federal Register a notice specifying the pro-
14 posed rule to be considered at such hearing, the issues
15 to be considered at the hearing, and the time and place
16 for such hearing, except that such notice may be issued
17 not later than 15 days before a hearing held under sub-
18 section (d)(4)(B).

19 “(f) FINAL RULES.—(1) The agency shall adopt a
20 rule only following consultation with the Administrator of
21 the Office of Information and Regulatory Affairs to facili-
22 tate compliance with applicable rule making requirements.

23 “(2) The agency shall adopt a rule only on the basis
24 of the best reasonably obtainable scientific, technical, eco-

1 nomic, and other evidence and information concerning the
2 need for, consequences of, and alternatives to the rule.

3 “(3)(A) Except as provided in subparagraph (B), the
4 agency shall adopt the least costly rule considered during
5 the rule making (including all costs to be considered under
6 subsection (b)(6)) that meets relevant statutory objectives.

7 “(B) The agency may adopt a rule that is more costly
8 than the least costly alternative that would achieve the rel-
9 evant statutory objectives only if the additional benefits
10 of the more costly rule justify its additional costs and only
11 if the agency explains its reason for doing so based on
12 interests of public health, safety or welfare that are clearly
13 within the scope of the statutory provision authorizing the
14 rule.

15 “(4) When it adopts a final rule, the agency shall
16 publish a notice of final rule making. The notice shall in-
17 clude—

18 “(A) a concise, general statement of the rule’s
19 basis and purpose;

20 “(B) the agency’s reasoned final determination
21 of need for a rule to address the problem the agency
22 seeks to address with the rule, including a statement
23 of whether a rule is required by statute and a sum-
24 mary of any final risk assessment or regulatory im-
25 pact analysis prepared by the agency;

1 “(C) the agency’s reasoned final determination
2 that the benefits of the rule meet the relevant statu-
3 tory objectives and justify the rule’s costs (including
4 all costs to be considered under subsection (b)(6));

5 “(D) the agency’s reasoned final determination
6 not to adopt any of the alternatives to the proposed
7 rule considered by the agency during the rule mak-
8 ing, including—

9 “(i) the agency’s reasoned final determina-
10 tion that no alternative considered achieved the
11 relevant statutory objectives with lower costs
12 (including all costs to be considered under sub-
13 section (b)(6)) than the rule; or

14 “(ii) the agency’s reasoned determination
15 that its adoption of a more costly rule complies
16 with subsection (f)(3)(B);

17 “(E) the agency’s reasoned final determina-
18 tion—

19 “(i) that existing rules have not created or
20 contributed to the problem the agency seeks to
21 address with the rule; or

22 “(ii) that existing rules have created or
23 contributed to the problem the agency seeks to
24 address with the rule, and, if so—

1 “(I) why amendment or rescission of
2 such existing rules is not alone sufficient
3 to respond to the problem; and

4 “(II) whether and how the agency in-
5 tends to amend or rescind the existing rule
6 separate from adoption of the rule;

7 “(F) the agency’s reasoned final determination
8 that the evidence and other information upon which
9 the agency bases the rule complies with the Informa-
10 tion Quality Act;

11 “(G) the agency’s reasoned final determination
12 that the rule meets the objectives that the agency
13 identified in subsection (d)(1)(E)(iii) or that other
14 objectives are more appropriate in light of the full
15 administrative record and the rule meets those ob-
16 jectives;

17 “(H) the agency’s reasoned final determination
18 that it did not deviate from the metrics the agency
19 included in subsection (d)(1)(E)(iii) or that other
20 metrics are more appropriate in light of the full ad-
21 ministrative record and the agency did not deviate
22 from those metrics;

23 “(I)(i) for any major rule, high-impact rule, or
24 negative-impact on jobs and wages rule, the agency’s
25 plan for review of the rule no less than every ten

1 years to determine whether, based upon evidence,
2 there remains a need for the rule, whether the rule
3 is in fact achieving statutory objectives, whether the
4 rule's benefits continue to justify its costs, and
5 whether the rule can be modified or rescinded to re-
6 duce costs while continuing to achieve statutory ob-
7 jectives; and

8 “(ii) review of a rule under a plan required by
9 clause (i) of this subparagraph shall take into ac-
10 count the factors and criteria set forth in sub-
11 sections (b) through (f) of section 553 of this title;
12 and

13 “(J) for any negative-impact on jobs and wages
14 rule, a statement that the head of the agency that
15 made the rule approved the rule knowing about the
16 findings and determination of the agency or the Ad-
17 ministrator of the Office of Information and Regu-
18 latory Affairs that qualified the rule as a negative
19 impact on jobs and wages rule.

20 All information considered by the agency in connection
21 with its adoption of the rule, and, at the discretion of the
22 President or the Administrator of the Office of Informa-
23 tion and Regulatory Affairs, information provided by that
24 Office in consultations with the agency, shall be placed

1 in the docket for the rule and made accessible to the public
 2 for the public's use no later than when the rule is adopted.

3 “(g) EXCEPTIONS FROM NOTICE AND HEARING RE-
 4 QUIREMENTS.—(1) Except when notice or hearing is re-
 5 quired by statute, the following do not apply to interpre-
 6 tive rules, general statements of policy, or rules of agency
 7 organization, procedure, or practice:

8 “(A) Subsections (c) through (e).

9 “(B) Paragraphs (1) through (3) of subsection
 10 (f).

11 “(C) Subparagraphs (B) through (H) of sub-
 12 section (f)(4).

13 “(2)(A) When the agency for good cause, based upon
 14 evidence, finds (and incorporates the finding and a brief
 15 statement of reasons therefor in the rules issued) that
 16 compliance with subsection (c), (d), or (e) or requirements
 17 to render final determinations under subsection (f) of this
 18 section before the issuance of an interim rule is impracti-
 19 cable or contrary to the public interest, including interests
 20 of national security, such subsections or requirements to
 21 render final determinations shall not apply to the agency's
 22 adoption of an interim rule.

23 “(B) If, following compliance with subparagraph (A)
 24 of this paragraph, the agency adopts an interim rule, it
 25 shall commence proceedings that comply fully with sub-

1 sections (d) through (f) of this section immediately upon
2 publication of the interim rule, shall treat the publication
3 of the interim rule as publication of a notice of proposed
4 rule making and shall not be required to issue supple-
5 mental notice other than to complete full compliance with
6 subsection (d). No less than 270 days from publication
7 of the interim rule (or 18 months in the case of a major
8 rule or high-impact rule), the agency shall complete rule
9 making under subsections (d) through (f) of this sub-
10 section and take final action to adopt a final rule or re-
11 scind the interim rule. If the agency fails to take timely
12 final action, the interim rule will cease to have the effect
13 of law.

14 “(C) Other than in cases involving interests of na-
15 tional security, upon the agency’s publication of an interim
16 rule without compliance with subsection (c), (d), or (e) or
17 requirements to render final determinations under sub-
18 section (f) of this section, an interested party may seek
19 immediate judicial review under chapter 7 of this title of
20 the agency’s determination to adopt such interim rule. The
21 record on such review shall include all documents and in-
22 formation considered by the agency and any additional in-
23 formation presented by a party that the court determines
24 necessary to consider to assure justice.

1 “(3) When the agency for good cause finds (and in-
2 corporates the finding and a brief statement of reasons
3 therefor in the rules issued) that notice and public proce-
4 dure thereon are unnecessary, including because agency
5 rule making is undertaken only to correct a de minimis
6 technical or clerical error in a previously issued rule or
7 for other noncontroversial purposes, the agency may pub-
8 lish a rule without compliance with subsection (c), (d), (e),
9 or (f)(1)–(3) and (f)(4)(B)–(F). If the agency receives sig-
10 nificant adverse comment within 60 days after publication
11 of the rule, it shall treat the notice of the rule as a notice
12 of proposed rule making and complete rule making in com-
13 pliance with subsections (d) and (f).

14 “(h) ADDITIONAL REQUIREMENTS FOR HEARINGS.—
15 When a hearing is required under subsection (c) or is oth-
16 erwise required by statute or at the agency’s discretion
17 before adoption of a rule, the agency shall comply with
18 the requirements of sections 556 and 557 in addition to
19 the requirements of subsection (f) in adopting the rule and
20 in providing notice of the rule’s adoption.

21 “(i) DATE OF PUBLICATION OF RULE.—The required
22 publication or service of a substantive final or interim rule
23 shall be made not less than 30 days before the effective
24 date of the rule, except—

1 “(1) a substantive rule which grants or recog-
2 nizes an exemption or relieves a restriction;

3 “(2) interpretive rules and statements of policy;
4 or

5 “(3) as otherwise provided by the agency for
6 good cause found and published with the rule.

7 “(j) RIGHT TO PETITION.—Each agency shall give
8 an interested person the right to petition for the issuance,
9 amendment, or repeal of a rule.

10 “(k) RULE MAKING GUIDELINES.—(1)(A) The Ad-
11 ministrators of the Office of Information and Regulatory
12 Affairs shall establish guidelines for the assessment, in-
13 cluding quantitative and qualitative assessment, of the
14 costs and benefits of proposed and final rules and other
15 economic issues or issues related to risk that are relevant
16 to rule making under this title. The rigor of cost-benefit
17 analysis required by such guidelines shall be commensu-
18 rate, in the Administrator’s determination, with the eco-
19 nomic impact of the rule.

20 “(B) To ensure that agencies use the best available
21 techniques to quantify and evaluate anticipated present
22 and future benefits, costs, other economic issues, and risks
23 as accurately as possible, the Administrator of the Office
24 of Information and Regulatory Affairs shall regularly up-

1 date guidelines established under paragraph (1)(A) of this
2 subsection.

3 “(2) The Administrator of the Office of Information
4 and Regulatory Affairs shall also issue guidelines to pro-
5 mote coordination, simplification and harmonization of
6 agency rules during the rule making process and other-
7 wise. Such guidelines shall assure that each agency avoids
8 regulations that are inconsistent or incompatible with, or
9 duplicative of, its other regulations and those of other
10 Federal agencies and drafts its regulations to be simple
11 and easy to understand, with the goal of minimizing the
12 potential for uncertainty and litigation arising from such
13 uncertainty.

14 “(3) To ensure consistency in Federal rule making,
15 the Administrator of the Office of Information and Regu-
16 latory Affairs shall—

17 “(A) issue guidelines and otherwise take action
18 to ensure that rule makings conducted in whole or
19 in part under procedures specified in provisions of
20 law other than those of subchapter II of this title
21 conform to the fullest extent allowed by law with the
22 procedures set forth in section 553 of this title; and

23 “(B) issue guidelines for the conduct of hear-
24 ings under subsections 553(d)(4) and 553(e) of this
25 section, including to assure a reasonable opportunity

1 for cross-examination. Each agency shall adopt regu-
2 lations for the conduct of hearings consistent with
3 the guidelines issued under this subparagraph.

4 “(4) The Administrator of the Office of Information
5 and Regulatory Affairs shall issue guidelines pursuant to
6 the Information Quality Act to apply in rule making pro-
7 ceedings under sections 553, 556, and 557 of this title.
8 In all cases, such guidelines, and the Administrator’s spe-
9 cific determinations regarding agency compliance with
10 such guidelines, shall be entitled to judicial deference.

11 “(l) INCLUSION IN THE RECORD OF CERTAIN DOCU-
12 MENTS AND INFORMATION.—The agency shall include in
13 the record for a rule making, and shall make available by
14 electronic means and otherwise, all documents and infor-
15 mation prepared or considered by the agency during the
16 proceeding, including, at the discretion of the President
17 or the Administrator of the Office of Information and Reg-
18 ulatory Affairs, documents and information communicated
19 by that Office during consultation with the Agency.

20 “(m) MONETARY POLICY EXEMPTION.—Nothing in
21 subsection (b)(6), subparagraphs (F) and (G) of sub-
22 section (d)(1), subsection (e), subsection (f)(3), and sub-
23 paragraphs (C) and (D) of subsection (f)(5) shall apply
24 to rule makings that concern monetary policy proposed or

1 implemented by the Board of Governors of the Federal
2 Reserve System or the Federal Open Market Committee.”.

8 States Code, is amended by inserting after section 553 the
9 following new section:

10 **“§ 553a. Agency guidance; procedures to issue major**
11 **guidance; authority to issue guidelines**
12 **for issuance of guidance**

13 “(a) Before issuing any major guidance, or guidance
14 that involves a novel legal or policy issue arising out of
15 statutory mandates, an agency shall—

16 “(1) make and document a reasoned determina-
17 tion that—

18 “(A) assures that such guidance is under-
19 standable and complies with relevant statutory
20 objectives and regulatory provisions (including
21 any statutory deadlines for agency action);

22 “(B) summarizes the evidence and data on
23 which the agency will base the guidance;

24 “(C) identifies the costs and benefits (in-
25 cluding all costs to be considered during a rule

1 making under section 553(b) of this title) of
2 conduct conforming to such guidance and
3 assures that such benefits justify such costs;
4 and

5 “(1) describes alternatives to such guid-
6 ance and their costs and benefits (including all
7 costs to be considered during a rule making
8 under section 553(b) of this title) and explains
9 why the agency rejected those alternatives; and

10 “(2) confer with the Administrator of the Office
11 of Information and Regulatory Affairs on the
12 issuance of such guidance to assure that the guid-
13 ance is reasonable, understandable, consistent with
14 relevant statutory and regulatory provisions and re-
15 quirements or practices of other agencies, does not
16 produce costs that are unjustified by the guidance’s
17 benefits, and is otherwise appropriate.

18 Upon issuing major guidance, or guidance that involves
19 a novel legal or policy issue arising out of statutory man-
20 dates, the agency shall publish the documentation required
21 by subparagraph (1) by electronic means and otherwise.

22 “(b) Agency guidance—

23 “(1) is not legally binding and may not be re-
24 lied upon by an agency as legal grounds for agency
25 action;

1 “(2) shall state in a plain, prominent and per-
2 manent manner that it is not legally binding; and

3 “(3) shall, at the time it is issued or upon re-
4 quest, be made available by the issuing agency to in-
5 terested persons and the public by electronic means
6 and otherwise.

7 Agencies shall avoid the issuance of guidance that is in-
8 consistent or incompatible with, or duplicative of, the
9 agency’s governing statutes or regulations, with the goal
10 of minimizing the potential for uncertainty and litigation
11 arising from such uncertainty.

12 “(c) The Administrator of the Office of Information
13 and Regulatory Affairs shall have authority to issue guide-
14 lines for use by the agencies in the issuance of major guid-
15 ance and other guidance. Such guidelines shall assure that
16 each agency avoids issuing guidance documents that are
17 inconsistent or incompatible with, or duplicative of, the
18 law, its other regulations, or the regulations of other Fed-
19 eral agencies and drafts its guidance documents to be sim-
20 ple and easy to understand, with the goal of minimizing

22 such uncertainty.”.

 10 constitutes the exclusive record for decision in accordance
 11 with section 557 and shall be made available to the parties
 12 and the public by electronic means and, upon payment of
 13 lawfully prescribed costs, otherwise. When an agency deci-
 14 sion rests on official notice of a material fact not appear-

 16 timely request, to an opportunity to show the contrary.

 21 record of proceedings under section 553.

22 “(f) When an agency conducts rule making under this
 23 section and section 557 directly after concluding pro-
 24 ceedings upon an advance notice of proposed rule making

1 under section 553(e), the matters to be considered and
2 determinations to be made shall include, among other rel-
3 evant matters and determinations, the matters and deter-
4 minations described in subsections (b) and (f) of section
5 553.

6 “(g) Upon receipt of a petition for a hearing under
7 this section, the agency shall grant the petition in the case
8 of any major rule, unless the agency reasonably deter-
9 mines that a hearing would not advance consideration of
10 the rule or would, in light of the need for agency action,
11 unreasonably delay completion of the rule making. The
12 agency shall publish its decision to grant or deny the peti-
13 tion when it renders the decision, including an explanation
14 of the grounds for decision. The information contained in
15 the petition shall in all cases be included in the adminis-

15 “(a) Not later than 180 days after the enactment of
16 this section, each agency shall publish in the Federal Reg-

18 of rules issued by the agency which the head of the agency
19 determines have a significant economic impact on a sub-

21 be made without regard to whether the agency performed
22 an analysis under section 604. The purpose of the review
23 shall be to determine whether such rules should be contin-
24 ued without change, or should be amended or rescinded,
25 consistent with the stated objectives of applicable statutes,

1 to minimize any adverse significant economic impacts or
2 maximize any beneficial significant economic impacts on
3 a substantial number of small entities. Such plan may be
4 amended by the agency at any time by publishing the revision in the Federal Register and subsequently placing the
5 amended plan on the agency's website.

7 “(b) The plan shall provide for the review of all such
8 agency rules existing on the date of the enactment of this
9 section within 10 years of the date of publication of the
10 plan in the Federal Register and for review of rules adopted after the date of enactment of this section within 10
12 years after the publication of the final rule in the Federal
13 Register. If the head of the agency determines that completion of the review of existing rules is not feasible by
14 the established date, the head of the agency shall so certify
15 in a statement published in the Federal Register and may
16 extend the review for not longer than 2 years after publication of notice of extension in the Federal Register. Such
17 certification and notice shall be sent to the Chief Counsel
18 for Advocacy of the Small Business Administration and

3 disadvantaged individuals (as such terms are defined in
4 the Small Business Act)) for the purposes of carrying out

14 of the Office of Information and Regulatory Affairs of the
15 Office of Management and Budget. Such report shall in-
16 clude the identification of any rule with respect to which
17 the head of the agency made a determination described
18 in paragraph (5) or (6) of subsection (c) and a detailed
19 explanation of the reasons for such determination.

20 “(e) In reviewing a rule pursuant to subsections (a)
21 through (d), the agency shall amend or rescind the rule
22 to minimize any adverse significant economic impact on
23 a substantial number of small entities or disproportionate
24 economic impact on a specific class of small entities, or
25 maximize any beneficial significant economic impact of the

1 rule on a substantial number of small entities to the great-

3 of applicable statutes. In amending or rescinding the rule,
4 the agency shall consider the following factors:

7 agency from small entities concerning the rule.

8 “(3) Comments by the Regulatory Enforcement
9 Ombudsman and the Chief Counsel for Advocacy of

14 unless the head of the agency determines it to be in-
15 feasible, State, territorial, and local rules.

16 “(6) The contribution of the rule to the cumu-
17 lative economic impact of all Federal rules on the
18 class of small entities affected by the rule, unless the
19 head of the agency determines that such calculations
20 cannot be made and reports that determination in
21 the annual report required under subsection (d).

22 “(7) The length of time since the rule has been
23 evaluated or the degree to which technology, eco-
24 nomic conditions, or other factors have changed in
25 the area affected by the rule.

1 “(f) Each year, each agency shall publish in the Fed-
2 eral Register and on its website a list of rules to be re-
3 viewed pursuant to such plan. The agency shall include
4 in the publication a solicitation of public comments on any
5 further inclusions or exclusions of rules from the list, and
6 shall respond to such comments. Such publication shall
7 include a brief description of the rule, the reason why the
8 agency determined that it has a significant economic im-
9 pact on a substantial number of small entities (without
10 regard to whether it had prepared a final regulatory flexi-
11 bility analysis for the rule), and request comments from
12 the public, the Chief Counsel for Advocacy of the Small
13 Business Administration, and the Regulatory Enforce-

18 (B) how the covered consent decree or set-

20 the discharge of the duties described in sub-
21 paragraph (A); and

22 (C) why the effects of the covered consent
23 decree or settlement agreement on the manner
24 in which the agency discharges its duties is in
25 the public interest.

18 (i) that provides a remedy for a fail-

7 public hearing on the covered consent decree or set-
8 tlement agreement under paragraph (2) or (3) of
9 subsection (d).

10 (2) REVIEW OF DEADLINES.—

11 (A) PROPOSED COVERED CONSENT DE-
12 CREES.—For a proposed covered consent de-
13 cree, a court shall not approve the covered con-
14 sent decree unless the proposed covered consent
15 decree allows sufficient time and incorporates
16 adequate procedures for the agency to comply
17 with chapter 5 of title 5, United States Code,
18 and other applicable statutes that govern rule-
19 making and, unless contrary to the public inter-
20 est, the provisions of any Executive order that
21 governs rulemaking.

22 (B) PROPOSED COVERED SETTLEMENT
23 AGREEMENTS.—For a proposed covered settle-
24 ment agreement, a court shall ensure that the
25 covered settlement agreement allows sufficient

1 time and incorporates adequate procedures for
 2 the agency to comply with chapter 5 of title 5,
 3 United States Code, and other applicable stat-
 4 utes that govern rulemaking and, unless con-
 5 trary to the public interest, the provisions of
 6 any Executive order that governs rulemaking.

7 (g) ANNUAL REPORTS.—Each agency shall submit to
 8 Congress an annual report that, for the year covered by
 9 the report, includes—

10 (1) the number, identity, and content of covered
 11 civil actions brought against and covered consent de-

22 **SEC. 404. MOTIONS TO MODIFY CONSENT DECREES.**

23 If an agency moves a court to modify a covered con-
 24 sent decree or settlement agreement and the basis of the
 25 motion is that the terms of the covered consent decree or

1 settlement agreement are no longer fully in the public in-
 2 terest due to the obligations of the agency to fulfill other
 3 duties or due to changed facts and circumstances, the
 4 court shall review the motion and the covered consent de-

7 This title shall apply to—

8 (1) any covered civil action filed on or after the

13 **DIVISION IV—JUDICIARY**

14 **TITLE I—REGULATIONS FROM**
 15 **THE EXECUTIVE IN NEED OF**
 16 **SCRUTINY**

17 **SEC. 101. SHORT TITLE.**

18 This title may be cited as the “Regulations From the
 19 Executive in Need of Scrutiny Act of 2014”.

20 **SEC. 102. PURPOSE.**

21 The purpose of this title is to increase accountability
 22 for and transparency in the Federal regulatory process.
 23 Section 1 of article I of the United States Constitution
 24 grants all legislative powers to Congress. Over time, Con-
 25 gress has excessively delegated its constitutional charge

1 while failing to conduct appropriate oversight and retain
 2 accountability for the content of the laws it passes. By
 3 requiring a vote in Congress, the REINS Act will result
 4 in more carefully drafted and detailed legislation, an im-
 5 proved regulatory process, and a legislative branch that
 6 is truly accountable to the American people for the laws
 7 imposed upon them. Moreover, as a tax on carbon emis-
 8 sions increases energy costs on consumers, reduces eco-
 9 nomic growth and is therefore detrimental to individuals,
 10 families and businesses, the REINS Act includes in the
 11 definition of a major rule, any rule that implements or
 12 provides for the imposition or collection of a tax on carbon
 13 emissions.

14 **SEC. 103. CONGRESSIONAL REVIEW OF AGENCY RULE-**
 15 **MAKING.**

16 Chapter 8 of title 5, United States Code, is amended
 17 to read as follows:

20 “(4) A nonmajor rule shall take effect as provided
21 by section 803 after submission to Congress under para-
22 graph (1).

23 “(5) If a joint resolution of approval relating to a
24 major rule is not enacted within the period provided in
25 subsection (b)(2), then a joint resolution of approval relat-

1 ing to the same rule may not be considered under this
2 chapter in the same Congress by either the House of Rep-
3 resentatives or the Senate.

4 “(b)(1) A major rule shall not take effect unless the
5 Congress enacts a joint resolution of approval described
6 under section 802.

7 “(2) If a joint resolution described in subsection (a)
8 is not enacted into law by the end of 70 session days or
9 legislative days, as applicable, beginning on the date on
10 which the report referred to in section 801(a)(1)(A) is re-
11 ceived by Congress (excluding days either House of Con-
12 gress is adjourned for more than 3 days during a session
13 of Congress), then the rule described in that resolution
14 shall be deemed not to be approved and such rule shall
15 not take effect.

16 “(c)(1) Notwithstanding any other provision of this
17 section (except subject to paragraph (3)), a major rule
18 may take effect for one 90-calendar-day period if the

11 “(d)(1) In addition to the opportunity for review oth-
12 erwise provided under this chapter, in the case of any rule
13 for which a report was submitted in accordance with sub-
14 section (a)(1)(A) during the period beginning on the date
15 occurring—

16 “(A) in the case of the Senate, 60 session days,
17 or

18 “(B) in the case of the House of Representa-
19 tives, 60 legislative days,

20 before the date the Congress is scheduled to adjourn a
21 session of Congress through the date on which the same
22 or succeeding Congress first convenes its next session, sec-

14 of the first fiscal year beginning after the appointment of
15 the Board of Trustees. As management authority over the
16 surface of estate of the O&C Trust lands is transferred
17 to the O&C Trust during the transition period pursuant
18 to section 331, the transferred lands shall be held in trust
19 for the benefit of the O&C Trust counties.

20 (b) TRUST PURPOSE.—The purpose of the O&C
21 Trust is to produce annual maximum sustained revenues
22 in perpetuity for O&C Trust counties by managing the
23 timber resources on O&C Trust lands on a sustained-yield
24 basis subject to the management requirements of section
25 314.

1 (c) DESIGNATION OF O&C TRUST LANDS.—

2 (1) LANDS INCLUDED.—Except as provided in
3 paragraph (2), the O&C Trust lands shall include all
4 of the lands containing the stands of timber de-
5 scribed in subsection (d) that are located, as of Jan-
6 uary 1, 2013, on Oregon and California Railroad
7 Grant lands and O&C Region Public Domain lands.

8 (2) LANDS EXCLUDED.—O&C Trust lands shall
9 not include any of the following Oregon and Cali-
10 fornia Railroad Grant lands and O&C Region Public
11 Domain lands (even if the lands are otherwise de-
12 scribed in subsection (d)):

13 (A) Federal lands within the National
14 Landscape Conservation System as of January
15 1, 2013.

16 (B) Federal lands designated as Areas of
17 Critical Environmental Concern as of January
18 1, 2013.

19 (C) Federal lands that were in the Na-
20 tional Wilderness Preservation System as of
21 January 1, 2013.

22 (D) Federal lands included in the National
23 Wild and Scenic Rivers System of January 1,
24 2013.

1 (E) Federal lands within the boundaries of
2 a national monument, park, or other developed
3 recreation area as of January 1, 2013.

4 (F) Oregon treasures addressed in subtitle
5 C, any portion of which, as of January 1, 2013,
6 consists of Oregon and California Railroad
7 Grant lands or O&C Region Public Domain
8 lands.

9 (G) Tribal lands addressed in subtitle D.

10 (d) COVERED STANDS OF TIMBER.—

11 (1) DESCRIPTION.—The O&C Trust lands con-
12 sist of stands of timber that have previously been
13 managed for timber production or that have been
14 materially altered by natural disturbances since
15 1886. Most of these stands of timber are 80 years
16 old or less, and all of such stands can be classified
17 as having a predominant stand age of 125 years or
18 less.

19 (2) DELINEATION OF BOUNDARIES BY BUREAU
20 OF LAND MANAGEMENT.—The Oregon and Cali-
21 fornia Railroad Grant lands and O&C Region Public
22 Domain lands that, immediately before transfer to
23 the O&C Trust, were managed by the Bureau of
24 Land Management are timber stands that have pre-
25 dominant birth date attributes of 1886 or later, with

1 boundaries that are defined by polygon spatial data
2 layer in and electronic data compilation filed by the
3 Bureau of Land Management pursuant to paragraph
4 (4). Except as provided in paragraph (5), the bound-
5 aries of all timber stands constituting the O&C
6 Trust lands are finally and conclusively determined
7 for all purposes by coordinates in or derived by ref-
8 erence to the polygon spatial data layer prepared by
9 the Bureau of Land Management and filed pursuant
10 to paragraph (4), notwithstanding anomalies that
11 might later be discovered on the ground. The bound-
12 ary coordinates are locatable on the ground by use
13 of global positioning system signals. In cases where
14 the location of the stand boundary is disputed or is
15 inconsistent with paragraph (1), the location of
16 boundary coordinates on the ground shall be, except
17 as otherwise provided in paragraph (5), finally and
18 conclusively determined for all purposes by the direct
19 or indirect use of global positioning system equip-
20 ment with accuracy specification of one meter or
21 less.

22 (3) DELINEATION OF BOUNDARIES BY FOREST
23 SERVICE.—The O&C Trust lands that, immediately
24 before transfer to the O&C Trust, were managed by
25 the Forest Service are timber stands that can be

1 classified as having predominant stand ages of 125
2 years old or less. Within 30 days after the date of
3 the enactment of this Act, the Secretary of Agri-
4 culture shall commence identification of the bound-
5 aries of such stands, and the boundaries of all such
6 stands shall be identified and made available to the
7 Board of Trustees not later than 180 days following
8 the creation of the O&C Trust pursuant to sub-
9 section (a). In identifying the stand boundaries, the
10 Secretary may use geographic information system
11 data, satellite imagery, cadastral survey coordinates,
12 or any other means available within the time al-
13 lowed. The boundaries shall be provided to the
14 Board of Trustees within the time allowed in the
15 form of a spatial data layer from which coordinates
16 can be derived that are locatable on the ground by
17 use of global positioning system signals. Except as
18 provided in paragraph (5), the boundaries of all tim-
19 ber stands constituting the O&C Trust lands are fi-
20 nally and conclusively determined for all purposes by
21 coordinates in or derived by reference to the data
22 provided by the Secretary within the time provided
23 by this paragraph, notwithstanding anomalies that
24 might later be discovered on the ground. In cases
25 where the location of the stand boundary is disputed

1 or inconsistent with paragraph (1), the location of
2 boundary coordinates on the ground shall be, except
3 as otherwise provided in paragraph (5), finally and
4 conclusively determined for all purposes by the
5 boundary coordinates provided by the Secretary as
6 they are located on the ground by the direct or indi-
7 rect use of global positioning system equipment with
8 accuracy specifications of one meter or less. All ac-
9 tions taken by the Secretary under this paragraph
10 shall be deemed to not involve Federal agency action
11 or Federal discretionary involvement or control.

12 (4) DATA AND MAPS.—Copies of the data con-
13 taining boundary coordinates for the stands included
14 in the O&C Trust lands, or from which such coordi-
15 nates are derived, and maps generally depicting the
16 stand locations shall be filed with the Committee on
17 Energy and Natural Resources of the Senate, the
18 Committee on Natural Resources of the House of
19 Representatives, and the office of the Secretary con-
20 cerned. The maps and data shall be filed—

21 (A) not later than 90 days after the date
22 of the enactment of this Act, in the case of the
23 lands identified pursuant to paragraph (2); and

24 (B) not later than 180 days following the
25 creation of the O&C Trust pursuant to sub-

1 section (a), in the case of lands identified pur-
2 suant to paragraph (3).

3 (5) ADJUSTMENT AUTHORITY AND LIMITA-
4 TIONS.—

5 (A) NO IMPACT ON DETERMINING TITLE
6 OR PROPERTY OWNERSHIP BOUNDARIES.—
7 Stand boundaries identified under paragraph
8 (2) or (3) shall not be relied upon for purposes
9 of determining title or property ownership
10 boundaries. If the boundary of a stand identi-
11 fied under paragraph (2) or (3) extends beyond
12 the property ownership boundaries of Oregon
13 and California Railroad Grant lands or O&C
14 Region Public Domain lands, as such property
15 boundaries exist on the date of enactment of
16 this Act, then that stand boundary is deemed
17 adjusted by this subparagraph to coincide with
18 the property ownership boundary.

19 (B) EFFECT OF DATA ERRORS OR INCON-
20 SISTENCIES.—Data errors or inconsistencies
21 may result in parcels of land along property
22 ownership boundaries that are unintentionally
23 omitted from the O&C Trust lands that are
24 identified under paragraph (2) or (3). In order
25 to correct such errors, any parcel of land that

1 satisfies all of the following criteria is hereby
2 deemed to be O&C Trust land:

3 (i) The parcel is within the ownership
4 boundaries of Oregon and California Rail-
5 road Grant lands or O&C Region Public
6 Domain lands on the date of the enact-
7 ment of this Act.

8 (ii) The parcel satisfies the description
9 in paragraph (1) on the date of enactment
10 of this Act.

11 (iii) The parcel is not excluded from
12 the O&C Trust lands pursuant to sub-
13 section (e)(2).

14 (C) NO IMPACT ON LAND EXCHANGE AU-
15 THORITY.—Nothing in this subsection is in-
16 tended to limit the authority of the Trust and
17 the Forest Service to engage in land exchanges
18 between themselves or with owners of non-Fed-
19 eral land as provided elsewhere in this title.

20 **SEC. 312. LEGAL EFFECT OF O&C TRUST AND JUDICIAL RE-**
21 **VIEW.**

22 (a) LEGAL STATUS OF TRUST LANDS.—Subject to
23 the other provisions of this section, all right, title, and in-
24 terest in and to the O&C Trust lands remain in the United
25 States, except that—

1 (1) the Board of Trustees shall have all author-
2 ity to manage the surface estate of the O&C Trust
3 lands and the resources found thereon;

4 (2) actions on the O&C Trust lands shall be
5 deemed to involve no Federal agency action or Fed-
6 eral discretionary involvement or control and the
7 laws of the State shall apply to the surface estate of
8 the O&C Trust lands in the manner applicable to
9 privately owned timberlands in the State; and

10 (3) the O&C Trust shall be treated as the bene-
11 ficial owner of the surface estate of the O&C Trust
12 lands for purposes of all legal proceedings involving
13 the O&C Trust lands.

14 (b) MINERALS.—

15 (1) IN GENERAL.—Mineral and other sub-
16 surface rights in the O&C Trust lands are retained
17 by the United States or other owner of such rights
18 as of the date on which management authority over
19 the surface estate of the lands are transferred to the
20 O&C Trust.

21 (2) ROCK AND GRAVEL.—

22 (A) USE AUTHORIZED; PURPOSE.—For
23 maintenance or construction on the road system
24 under the control of the O&C Trust or for non-

1 Federal lands intermingled with O&C Trust
2 lands, the Board of Trustees may—

3 (i) utilize rock or gravel found within
4 quarries in existence immediately before
5 the date of the enactment of this Act on
6 any Oregon and California Railroad Grant
7 lands and O&C Region Public Domain
8 lands, excluding those lands designated
9 under subtitle C or transferred under sub-
10 title D; and

11 (ii) construct new quarries on O&C
12 Trust lands, except that any quarry so
13 constructed may not exceed 5 acres.

14 (B) EXCEPTION.—The Board of Trustees
15 shall not construct new quarries on any of the
16 lands transferred to the Forest Service under
17 section 321 or lands designated under subtitle
18 D.

19 (c) ROADS.—

20 (1) IN GENERAL.—Except as provided in sub-
21 section (b), the Board of Trustees shall assume au-
22 thority and responsibility over, and have authority to
23 use, all roads and the road system specified in the
24 following subparagraphs:

1 (A) All roads and road systems on the Or-
2 egon and California Railroad and Grant lands
3 and O&C Region Public Domain lands owned or
4 administered by the Bureau of Land Manage-
5 ment immediately before the date of the enact-
6 ment of this Act, except that the Secretary of
7 Agriculture shall assume the Secretary of Inte-
8 rior's obligations for pro-rata maintenance ex-
9 pense and road use fees under reciprocal right-
10 of-way agreements for those lands transferred
11 to the Forest Service under section 321. All of
12 the lands transferred to the Forest Service
13 under section 321 shall be considered as part of
14 the tributary area used to calculate pro-rata
15 maintenance expense and road use fees.

16 (B) All roads and road systems owned or
17 administered by the Forest Service immediately
18 before the date of the enactment of this Act
19 and subsequently included within the bound-
20 aries of the O&C Trust lands.

21 (C) All roads later added to the road sys-
22 tem for management of the O&C Trust lands.

23 (2) LANDS TRANSFERRED TO FOREST SERV-
24 ICE.—The Secretary of Agriculture shall assume the
25 obligations of the Secretary of Interior for pro-rata

1 maintenance expense and road use fees under recip-
2 rocal rights-of-way agreements for those Oregon and
3 California Railroad Grant lands or O&C Region
4 Public Domain lands transferred to the Forest Serv-
5 ice under section 321.

6 (3) COMPLIANCE WITH CLEAN WATER ACT.—

7 All roads used, constructed, or reconstructed under
8 the jurisdiction of the O&C Trust must comply with
9 requirements of the Federal Water Pollution Control
10 Act (33 U.S.C. 1251 et seq.) applicable to private
11 lands through the use of Best Management Prac-
12 tices under the Oregon Forest Practices Act.

13 (d) PUBLIC ACCESS.—

14 (1) IN GENERAL.—Subject to paragraph (2),
15 public access to O&C Trust lands shall be preserved
16 consistent with the policies of the Secretary con-
17 cerned applicable to the O&C Trust lands as of the
18 date on which management authority over the sur-
19 face estate of the lands is transferred to the O&C
20 Trust.

21 (2) RESTRICTIONS.—The Board of Trustees
22 may limit or control public access for reasons of
23 public safety or to protect the resources on the O&C
24 Trust lands.

1 (e) LIMITATIONS.—The assets of the O&C Trust
2 shall not be subject to the creditors of an O&C Trust com-
3 ty, or otherwise be distributed in an unprotected manner
4 or be subject to anticipation, encumbrance, or expenditure
5 other than for a purpose for which the O&C Trust was
6 created.

7 (f) REMEDY.—An O&C Trust county shall have all
8 of the rights and remedies that would normally accrue to
9 a beneficiary of a trust. An O&C Trust county shall pro-
10 vide the Board of Trustees, the Secretary concerned, and
11 the Attorney General with not less than 60 days notice
12 of an intent to sue to enforce the O&C Trust county's
13 rights under the O&C Trust.

14 (g) JUDICIAL REVIEW.—

15 (1) IN GENERAL.—Except as provided in para-
16 graph (2), judicial review of any provision of this
17 title shall be sought in the United States Court of
18 Appeals for the District of Columbia Circuit. Parties
19 seeking judicial review of the validity of any provi-
20 sion of this title must file suit within 90 days after
21 the date of the enactment of this Act and no pre-
22 liminary injunctive relief or stays pending appeal will
23 be permitted. If multiple cases are filed under this
24 paragraph, the Court shall consolidate the cases.

1 The Court must rule on any action brought under
2 this paragraph within 180 days.

3 (2) DECISIONS OF BOARD OF TRUSTEES.—De-
4 cisions made by the Board of Trustees shall be sub-
5 ject to judicial review only in an action brought by
6 an O&C County, except that nothing in this title
7 precludes bringing a legal claim against the Board
8 of Trustees that could be brought against a private
9 landowner for the same action.

10 **SEC. 313. BOARD OF TRUSTEES.**

11 (a) APPOINTMENT AUTHORIZATION.—Subject to the

24 extent practicable, the Governor shall ensure broad
25 geographic representation among the O&C Trust

1 counties in appointing members to the Board of
2 Trustees.

16 years; and

24 Coos Bay Wagon Road Grant lands, or O&C
25 Trust lands in the preceding five years.

1 (B) At least one of the two representatives se-

(d) TERM, INITIAL APPOINTMENT, VACANCIES.—

(1) TERM.—Except in the case of initial appointments, members of the Board of Trustees shall serve for five-year terms and may be reappointed for one consecutive term.

(2) INITIAL APPOINTMENTS.—In making the first appointments to the Board of Trustees, the Governor shall stagger initial appointment lengths so that two members have three-year terms, two members have four-year terms, and three members have a full five-year term.

(3) VACANCIES.—Any vacancy on the Board of Trustees shall be filled within 45 days by the Gov-

9 (a) IN GENERAL.—Except as otherwise provided in
10 this title, the O&C Trust lands will be managed by the

14 (b) TIMBER SALE PLANS.—The Board of Trustees
15 shall approve and periodically update management and
16 sale plans for the O&C Trust lands consistent with the
17 purpose specified in section 311(b). The Board of Trust-
18 ees may defer sale plans during periods of depressed tim-
19 ber markets if the Board of Trustees, in its discretion,
20 determines that such delay until markets improve is finan-
21 cially prudent and in keeping with its fiduciary obligation
22 to the O&C Trust counties.

23 (c) STAND ROTATION.—

24 (1) 100–120 YEAR ROTATION.—The Board of
25 Trustees shall manage not less than 50 percent of

1 the harvestable acres of the O&C Trust lands on a
2 100–120 year rotation. The acreage subject to 100–
3 120 year management shall be geographically dis-
4 persed across the O&C Trust lands in a manner that
5 the Board of Trustees, in its discretion, determines
6 will contribute to aquatic and terrestrial ecosystem
7 values.

8 (2) BALANCE.—The balance of the harvestable
9 acreage of the O&C Trust lands shall be managed
10 on any rotation age the Board of Trustees, in its
11 discretion and in compliance with applicable State
12 law, determines will best satisfy its fiduciary obliga-
13 tion to provide revenue to the O&C Trust counties.

14 (3) THINNING.—Nothing in this subsection is
15 intended to limit the ability of the Board of Trustees
16 to decide, in its discretion, to thin stands of timber
17 on O&C Trust lands.

18 (d) SALE TERMS.—

19 (1) IN GENERAL.—Subject to paragraphs (2)
20 and (3), the Board of Trustees is authorized to es-
21 tablish the terms for sale contracts of timber or
22 other forest products from O&C Trust lands.

23 (2) SET ASIDE.—The Board of Trustees shall
24 establish a program consistent with the program of
25 the Bureau of Land Management under a March 10,

1 1959 Memorandum of Understanding, as amended,
2 regarding calculation of shares and sale of timber
3 set aside for purchase by business entities with 500
4 or fewer employees and consistent with the regula-
5 tions in part 121 of title 13, Code of Federal Regu-
6 lations applicable to timber sale set asides, except
7 that existing shares in effect on the date of enact-
8 ment of this Act shall apply until the next scheduled
9 recomputation of shares. In implementing its pro-
10 gram that is consistent with such Memorandum of
11 Understanding, the Board of Trustees shall utilize
12 the Timber Sale Procedure Handbook and other ap-
13 plicable procedures of the Bureau of Land Manage-
14 ment, including the Operating Procedures for Con-
15 ducting the Five-Year Recomputation of Small Busi-
16 ness Share Percentages in effect on January 1,
17 2013.

18 (3) COMPETITIVE BIDDING.—The Board of
19 Trustees must sell timber on a competitive bid basis.
20 No less than 50 percent of the total volume of tim-

22 sold by oral bidding consistent with practices of the
23 Bureau of Land Management as of January 1,
24 2013.

25 (c) PROHIBITION ON EXPORT.—

1 (1) IN GENERAL.—As a condition on the sale of
2 timber or other forest products from O&C Trust
3 lands, unprocessed timber harvested from O&C
4 Trust lands may not be exported.

5 (2) VIOLATIONS.—Any person who knowingly
6 exports unprocessed timber harvested from O&C
7 Trust lands, who knowingly provides such unpro-
8 cessed timber for export by another person, or know-
9 ingly sells timber harvested from O&C Trust lands
10 to a person who is disqualified from purchasing tim-
11 ber from such lands pursuant to this section shall be
12 disqualified from purchasing timber or other forest
13 products from O&C Trust lands or from Federal
14 lands administered under this subtitle. Any person
15 who uses unprocessed timber harvested from O&C
16 Trust lands in substitution for exported unprocessed
17 timber originating from private lands shall be dis-
18 qualified from purchasing timber or other forest
19 products from O&C Trust lands or from Federal
20 lands administered under this subtitle.

21 (3) UNPROCESSED TIMBER DEFINED.—In this
22 subsection, the term “unprocessed timber” has the
23 meaning given such term in section 493(9) of the
24 Forest Resources Conservation and Shortage Relief
25 Act of 1990 (16 U.S.C. 620e(9)).

1 (f) INTEGRATED PEST, DISEASE, AND WEED MAN-
2 AGEMENT PLAN.—The Board of Trustees shall develop an
3 integrated pest and vegetation management plan to assist
4 forest managers in prioritizing and minimizing the use of
5 pesticides and herbicides approved by the Environmental
6 Protection Agency and used in compliance with the Or-
7 egon Forest Practices Act. The plan shall optimize the
8 ability of the O&C Trust to re-establish forest stands after
9 harvest in compliance with the Oregon Forest Practices
10 Act and to create diverse early seral stage forests. The
11 plan shall allow for the eradication, containment and sup-
12 pression of disease, pests, weeds and noxious plants, and
13 invasive species as found on the State Noxious Weed List
14 and prioritize ground application of herbicides and pes-
15 ticides to the greatest extent practicable. The plan shall
16 be completed before the start of the second year of the
17 transition period. The planning process shall be open to
18 the public and the Board of Trustees shall hold not less
19 than two public hearings on the proposed plan before final
20 adoption.

21 (g) ACCESS TO LANDS TRANSFERRED TO FOREST
22 SERVICE.—Persons acting on behalf of the O&C Trust
23 shall have a right of timely access over lands transferred
24 to the Forest Service under section 321 and Tribal lands
25 transferred under subtitle D as is reasonably necessary for

1 the Board of Trustees to carry out its management activi-
2 ties with regard to the O&C Trust lands and the O&C
3 Trust to satisfy its fiduciary duties to O&C counties.

4 (h) HARVEST AREA TREE AND RETENTION RE-
5 QUIREMENTS.—

6 (1) IN GENERAL.—The O&C Trust lands shall
7 include harvest area tree and retention requirements
8 consistent with State law.

9 (2) USE OF OLD GROWTH DEFINITION.—To the
10 greatest extent practicable, and at the discretion of
11 the Board of Trustees, old growth, as defined by the
12 Old Growth Review Panel created by section 324,
13 shall be used to meet the retention requirements ap-
14 plicable under paragraph (1).

15 (i) RIPARIAN AREA MANAGEMENT.—

16 (1) IN GENERAL.—The O&C Trust lands shall
17 be managed with timber harvesting limited in ripar-
18 ian areas as follows:

19 (A) STREAMS.—For all fish bearing
20 streams and all perennial non-fish-bearing
21 streams, there shall be no removal of timber
22 within a distance equal to the height of one site
23 potential tree on both sides of the stream chan-
24 nel. For intermittent, non-fish-bearing streams,
25 there shall be no removal of timber within a

1 distance equal to one-half the height of a site
2 potential tree on both sides of the stream chan-
3 nel. For purposes of this subparagraph, the
4 stream channel boundaries are the lines of ordi-
5 nary high water.

6 (B) LARGER LAKES, PONDS AND RES-
7 ERVOIRS.—For all lakes, ponds, and reservoirs
8 with surface area larger than one quarter of
9 one acre, there shall be no removal of timber
10 within a distance equal to the height of one site
11 potential tree from the line of ordinary high
12 water of the water body.

13 (C) SMALL PONDS AND NATURAL WET-
14 LANDS, SPRINGS AND SEEPS.—For all ponds
15 with surface area one quarter acre or less, and
16 for all natural wetlands, springs and seeps,
17 there shall be no removal of timber within the
18 area dominated by riparian vegetation.

19 (2) MEASUREMENTS.—For purposes of para-
20 graph (1), all distances shall be measured along
21 slopes, and all site potential tree heights shall be av-
22 erage height at maturity of the dominant species of
23 conifer determined at a scale no finer than the appli-
24 cable fifth field watershed.

1 (3) RULES OF CONSTRUCTION.—Nothing in
2 paragraph (1) shall be construed—

3 (A) to prohibit the falling or placement of
4 timber into streams to create large woody de-
5bris for the benefit of aquatic ecosystems; or

6 (B) to prohibit the falling of trees within
7 riparian areas as may be reasonably necessary
8 for safety or operational reasons in areas adja-
9 cent to the riparian areas, or for road construc-
10 tion or maintenance pursuant to section
11 312(e)(3).

12 (j) FIRE PROTECTION AND EMERGENCY RE-
13 SPONSE.—

14 (1) RECIPROCAL FIRE PROTECTION AGREE-
15 MENTS.—

16 (A) CONTINUATION OF AGREEMENTS.—
17 Subject to subparagraphs (B), (C), and (D),
18 any reciprocal fire protection agreement be-
19 tween the State or any other entity and the
20 Secretary concerned with regard to Oregon and
21 California Railroad Grant lands and O&C Re-
22 gion Public Domain lands in effect on the date
23 of the enactment of this Act shall remain in
24 place for a period of ten years after such date

1 unless earlier terminated by the State or other
2 entity.

3 (B) ASSUMPTION OF BLM RIGHTS AND DU-
4 TIES.—The Board of Trustees shall exercise the
5 rights and duties of the Bureau of Land Man-
6 agement under the agreements described in
7 subparagraph (A), except as such rights and
8 duties might apply to Tribal lands under sub-
9 title D.

10 (C) EFFECT OF EXPIRATION OF PERIOD.—
11 Following the expiration of the ten-year period
12 under subparagraph (A), the Board of Trustees
13 shall continue to provide for fire protection of
14 the Oregon and California Railroad Grant lands
15 and O&C Region Public Domain lands, includ-
16 ing those transferred to the Forest Service
17 under section 331, through continuation of the
18 reciprocal fire protection agreements, new coop-
19 erative agreements, or by any means otherwise
20 permitted by law. The means selected shall be
21 based on the review by the Board of Trustees
22 of whether the reciprocal fire protection agree-
23 ments were effective in protecting the lands
24 from fire.

1 (D) EMERGENCY RESPONSE.—Nothing in
2 this paragraph shall prevent the Secretary of
3 Agriculture from an emergency response to a
4 fire on the O&C Trust lands or lands trans-
5 ferred to the Forest Service under section 321.

6 (2) EMERGENCY RESPONSE TO FIRE.—Subject
7 to paragraph (1), if the Secretary of Agriculture de-
8 termines that fire on any of the lands transferred
9 under section 321 is burning uncontrolled or the
10 Secretary, the Board of Trustees, or contracted
11 party does not have readily and immediately avail-
12 able personnel and equipment to control or extin-
13 guish the fire, the Secretary, or any forest protective
14 association or agency under contract or agreement
15 with the Secretary or the Board of Trustees for the
16 protection of forestland against fire, shall summarily
17 and aggressively abate the nuisance thus controlling
18 and extinguishing the fire.

19 (k) NORTHERN SPOTTED OWL.—So long as the O&C
20 Trust maintains the 100–120 year rotation on 50 percent
21 of the harvestable acres required in subsection (c), the sec-
22 tion 321 lands representing the best quality habitat for
23 the owl are transferred to the Forest Service, and the O&C
24 Trust protects currently occupied northern spotted owl
25 nest sites consistent with the forest practices in the Or-

1 egon Forest Practices Act, management of the O&C Trust
 2 land by the Board of Trustees shall be considered to com-
 3 ply with section 9 of Public Law 93–205 (16 U.S.C. 1538)
 4 for the northern spotted owl. A currently occupied north-
 5 ern spotted owl nest site shall be considered abandoned
 6 if there are no northern spotted owl responses following
 7 three consecutive years of surveys using the Protocol for
 8 Surveying Management Activities that May Impact North-
 9 ern Spotted Owls dated February 2, 2013.

10 **SEC. 315. DISTRIBUTION OF REVENUES FROM O&C TRUST**
 11 **LANDS.**

12 (a) ANNUAL DISTRIBUTION OF REVENUES.—

13 (1) TIME FOR DISTRIBUTION; USE.—Payments
 14 to each O&C Trust county shall be made available
 15 to the general fund of the O&C Trust county as soon
 16 as practicable following the end of each fiscal year,
 17 to be used as are other unrestricted county funds.

18 (2) AMOUNT.—The amount paid to an O&C
 19 Trust county in relation to the total distributed to
 20 all O&C Trust counties for a fiscal year shall be
 21 based on the proportion that the total assessed value
 22 of the Oregon and California Railroad Grant lands
 23 in each of the O&C Trust counties for fiscal year
 24 1915 bears to the total assessed value of all of the
 25 Oregon and California Railroad Grant lands in the

1 State for that same fiscal year. However, for the
2 purposes of this subsection the portion of the re-
3 vested Oregon and California Railroad Grant lands
4 in each of the O&C Trust counties that was not as-
5 sessed for fiscal year 1915 shall be deemed to have
6 been assessed at the average assessed value of the
7 Oregon and California Railroad Grant lands in the
8 county.

9 (3) LIMITATION.—After the fifth payment made
10 under this subsection, the payment to an O&C Trust
11 county for a fiscal year shall not exceed 110 percent
12 of the previous year's payment to the O&C Trust
13 county, adjusted for inflation based on the consumer
14 price index applicable to the geographic area in
15 which the O&C Trust counties are located.

16 (b) RESERVE FUND.—

17 (1) ESTABLISHMENT OF RESERVE FUND.—The
18 Board of Trustees shall generate and maintain a re-
19 serve fund.

20 (2) DEPOSITS TO RESERVE FUND.—Within 10
21 years after creation of the O&C Trust or as soon
22 thereafter as is practicable, the Board of Trustees
23 shall establish and seek to maintain an annual bal-
24 ance of \$125,000,000 in the Reserve Fund, to be de-
25 rived from revenues generated from management ac-

1 activities involving O&C Trust lands. All annual reve-
 2 nues generated in excess of operating costs and pay-
 3 ments to O&C Trust counties required by subsection
 4 (a) and payments into the Conservation Fund as
 5 provided in subsection (c) shall be deposited in the
 6 Reserve Fund.

7 (3) EXPENDITURES FROM RESERVE FUND.—
 8 The Board of Trustees shall use amounts in the Re-
 9 serve Fund only—

10 (A) to pay management and administrative
 11 expenses or capital improvement costs on O&C
 12 Trust lands; and

13 (B) to make payments to O&C Trust coun-
 14 ties when payments to the counties under sub-
 15 section (a) are projected to be 90 percent or
 16 less of the previous year's payments.

17 (c) O&C TRUST CONSERVATION FUND.—

18 (1) ESTABLISHMENT OF CONSERVATION
 19 FUND.—The Board of Trustees shall use a portion
 20 of revenues generated from activity on the O&C
 21 Trust lands, consistent with paragraph (2), to estab-
 22 lish and maintain a O&C Trust Conservation Fund.
 23 The O&C Trust Conservation Fund shall include no
 24 Federal appropriations.

1 (2) REVENUES.—Following the transition pe-
2 riod, five percent of the O&C Trust's annual net op-
3 erating revenue, after deduction of all management
4 costs and expenses, including the payment required
5 under section 317, shall be deposited to the O&C
6 Trust Conservation Fund.

7 (3) EXPENDITURES FROM CONSERVATION
8 FUND.—The Board of Trustees shall use amounts
9 from the O&C Trust Conservation Fund only—

10 (A) to fund the voluntary acquisition of
11 conservation easements from willing private
12 landowners in the State;

13 (B) to fund watershed restoration, remedi-
14 ation and enhancement projects within the
15 State; or

16 (C) to contribute to balancing values in a
17 land exchange with willing private landowners
18 proposed under section 323(b), if the land ex-
19 change will result in a net increase in ecosystem
20 benefits for fish, wildlife, or rare native plants.

21 **SEC. 316. LAND EXCHANGE AUTHORITY.**

22 (a) AUTHORITY.—Subject to approval by the Sec-
23 retary concerned, the Board of Trustees may negotiate
24 proposals for land exchanges with owners of lands adja-
25 cent to O&C Trust lands in order to create larger contig-

1 nous blocks of land under management by the O&C Trust
2 to facilitate resource management, to improve conserva-
3 tion value of such lands, or to improve the efficiency of
4 management of such lands.

5 (b) APPROVAL REQUIRED; CRITERIA.—The Sec-
6 retary concerned may approve a land exchange proposed
7 by the Board of Trustees administratively if the exchange
8 meets the following criteria:

9 (1) The non-Federal lands are completely with-
10 in the State.

11 (2) The non-Federal lands have high timber
12 production value, or are necessary for more efficient
13 or effective management of adjacent or nearby O&C
14 Trust lands.

15 (3) The non-Federal lands have equal or great-
16 er value to the O&C Trust lands proposed for ex-
17 change.

18 (4) The proposed exchange is reasonably likely
19 to increase the net income to the O&C Trust coun-
20 ties over the next 20 years and not decrease the net
21 income to the O&C Trust counties over the next 10
22 years.

23 (c) ACREAGE LIMITATION.—The Secretary concerned
24 shall not approve land exchanges under this section that,
25 taken together with all previous exchanges involving the

1 O&C Trust lands, have the effect of reducing the total
2 acreage of the O&C Trust lands by more than five percent
3 from the total acreage to be designated as O&C Trust land
4 under section 311(c)(1).

5 (d) INAPPLICABILITY OF CERTAIN LAWS.—Section 3
6 of the Oregon Public Lands Transfer and Protection Act
7 of 1998 (Public Law 105–321; 112 Stat. 3022), the Fed-
8 eral Land Policy and Management Act of 1976 (43 U.S.C.
9 1701 et. seq.), including the amendments made by the
10 Federal Land Exchange Facilitation Act of 1988 (Public
11 Law 100–409; 102 Stat. 1086), the Act of March 20,
12 1922 (16 U.S.C. 485, 486), and the Act of March 1, 1911
13 (commonly known as the Weeks Act; 16 U.S.C. 480 et
14 seq.) shall not apply to the land exchange authority pro-
15 vided by this section.

16 (e) EXCHANGES WITH FOREST SERVICE.—

17 (1) EXCHANGES AUTHORIZED.—The Board of
18 Trustees is authorized to engage in land exchanges
19 with the Forest Service if approved by the Secretary
20 pursuant to section 323(c).

21 (2) MANAGEMENT OF EXCHANGED LANDS.—
22 Following completion of a land exchange under para-
23 graph (1), the management requirements applicable
24 to the newly acquired lands by the O&C Trust or the
25 Forest Service shall be the same requirements under

1 this subtitle applicable to the other lands that are
2 managed by the O&C Board or the Forest Service.

3 **SEC. 317. PAYMENTS TO THE UNITED STATES TREASURY.**

4 As soon as practicable after the end of the third fiscal
5 year of the transition period and in each of the subsequent
6 seven fiscal years, the O&C Trust shall submit a payment
7 of \$10,000,000 to the United States Treasury.

8 **CHAPTER 2—TRANSFER OF CERTAIN**
9 **LANDS TO FOREST SERVICE**

10 **SEC. 321. TRANSFER OF CERTAIN OREGON AND CALI-**
11 **FORNIA RAILROAD GRANT LANDS TO FOREST**
12 **SERVICE.**

13 (a) **TRANSFER REQUIRED.**—The Secretary of the In-
14 terior shall transfer administrative jurisdiction over all Or-
15 egon and California Railroad Grant lands and O&C Re-
16 gion Public Domain lands not designated as O&C Trust
17 lands by subparagraphs (A) through (F) of section
18 311(c)(1), including those lands excluded by section
19 311(c)(2), to the Secretary of Agriculture for inclusion in
20 the National Forest System and administration by the
21 Forest Service as provided in section 322.

22 (b) **EXCEPTION.**—This section does not apply to
23 Tribal lands transferred under subtitle D.

1 **SEC. 322. MANAGEMENT OF TRANSFERRED LANDS BY FOR-**
2 **EST SERVICE.**

3 (a) ASSIGNMENT TO EXISTING NATIONAL FOR-
4 ESTS.—To the greatest extent practicable, management
5 responsibilities for the lands transferred under section 321
6 shall be assigned to the unit of the National Forest Sys-
7 tem geographically closest to the transferred lands. The
8 Secretary of Agriculture shall have ultimate decision-mak-
9 ing authority, but shall assign the transferred lands to a
10 unit not later than the applicable transfer date provided
11 in the transition period.

12 (b) APPLICATION OF NORTHWEST FOREST PLAN.—

13 (1) IN GENERAL.—Except as provided in para-
14 graph (2), the lands transferred under section 321
15 shall be managed under the Northwest Forest Plan
16 and shall retain Northwest Forest Plan land use
17 designations until or unless changed in the manner
18 provided by Federal laws applicable to the adminis-
19 tration and management of the National Forest Sys-
20 tem.

21 (2) EXCEPTION FOR CERTAIN DESIGNATED
22 LANDS.—The lands excluded from the O&C Trust by
23 subparagraphs (A) through (F) of section 311(c)(2)
24 and transferred to the Forest Service under section
25 321 shall be managed as provided by Federal laws
26 applicable to the lands.

1 (c) PROTECTION OF OLD GROWTH.—Old growth, as
2 defined by the Old Growth Review Panel pursuant to rule-
3 making conducted in accordance with section 553 of title
4 5, United States Code, shall not be harvested by the For-
5 est Service on lands transferred under section 321.

6 (d) EMERGENCY RESPONSE TO FIRE.—Subject to
7 section 314(i), if the Secretary of Agriculture determines
8 that fire on any of the lands transferred under section 321
9 is burning uncontrolled or the Secretary or contracted
10 party does not have readily and immediately available per-
11 sonnel and equipment to control or extinguish the fire, the
12 Secretary, or any forest protective association or agency
13 under contract or agreement with the Secretary for the
14 protection of forestland against fire, and within whose pro-
15 tection area the fire exists, shall summarily and aggres-
16 sively abate the nuisance thus controlling and extin-
17 guishing the fire.

18 **SEC. 323. MANAGEMENT EFFICIENCIES AND EXPEDITED**
19 **LAND EXCHANGES.**

20 (a) LAND EXCHANGE AUTHORITY.—The Secretary
21 of Agriculture may conduct land exchanges involving lands
22 transferred under section 321, other than the lands ex-
23 cluded from the O&C Trust by subparagraphs (A) through
24 (F) of section 311(c)(2), in order create larger contiguous
25 blocks of land under management of the Secretary to fa-

1 facilitate resource management, to improve conservation
2 value of such lands, or to improve the efficiency of man-
3 agement of such lands.

4 (b) CRITERIA FOR EXCHANGES WITH NON-FEDERAL
5 OWNERS.—The Secretary of Agriculture may conduct a
6 land exchange administratively under this section with a
7 non-Federal owner (other than the O&C Trust) if the land
8 exchange meets the following criteria:

9 (1) The non-Federal lands are completely with-
10 in the State.

11 (2) The non-Federal lands have high wildlife
12 conservation or recreation value or the exchange is
13 necessary to increase management efficiencies of
14 lands administered by the Forest Service for the
15 purposes of the National Forest System.

16 (3) The non-Federal lands have equal or great-
17 er value to the Federal lands purposed for exchange
18 or a balance of values can be achieved—

19 (A) with a grant of funds provided by the
20 O&C Trust pursuant to section 315(c); or

21 (B) from other sources.

22 (c) CRITERIA FOR EXCHANGES WITH O&C TRUST.—
23 The Secretary of Agriculture may conduct land exchanges
24 with the Board of Trustees administratively under this
25 subsection, and such an exchange shall be deemed to not

1 involve any Federal action or Federal discretionary in-
2 volvement or control if the land exchange with the O&C
3 Trust meets the following criteria:

4 (1) The O&C Trust lands to be exchanged have
5 high wildlife value or ecological value or the ex-
6 change would facilitate resource management or oth-
7 erwise contribute to the management efficiency of
8 the lands administered by the Forest Service.

9 (2) The exchange is requested or approved by
10 the Board of Trustees for the O&C Trust and will
11 not impair the ability of the Board of Trustees to
12 meet its fiduciary responsibilities.

13 (3) The lands to be exchanged by the Forest
14 Service do not contain stands of timber meeting the
15 definition of old growth established by the Old
16 Growth Review Panel pursuant to section 324.

17 (4) The lands to be exchanged are equal in
18 acreage.

19 (d) ACREAGE LIMITATION.—The Secretary of Agri-
20 culture shall not approve land exchanges under this sec-
21 tion that, taken together with all previous exchanges in-
22 volving the lands described in subsection (a), have the ef-
23 fect of reducing the total acreage of such lands by more
24 than five percent from the total acreage originally trans-
25 ferred to the Secretary.

1 (e) INAPPLICABILITY OF CERTAIN LAWS.—Section 3
 2 of the Oregon Public Lands Transfer and Protection Act
 3 of 1998 (Public Law 105–321; 112 Stat. 3022), the Fed-
 4 eral Land Policy and Management Act of 1976 (43 U.S.C.
 5 1701 et. seq.), including the amendments made by the
 6 Federal Land Exchange Facilitation Act of 1988 (Public
 7 Law 100–409; 102 Stat. 1086), the Act of March 20,

 19 academic articles in their field of expertise.

20 (b) PURPOSE OF REVIEW.—Members of the Old
 21 Growth Review Panel shall review existing, published,
 22 peer-reviewed articles in relevant academic journals and
 23 establish a definition or definitions of old growth as it ap-
 24 plies to the ecologically, geographically and climato-
 25 logically unique Oregon and California Railroad Grant

1 lands and O&C Region Public Domain lands managed by
2 the O&C Trust or the Forest Service only. The definition
3 or definitions shall bear no legal force, shall not be used
4 as a precedent for, and shall not apply to any lands other
5 than the Oregon and California Railroad Grant lands and
6 O&C Region Public Domain lands managed by the O&C
7 Trust or the Forest Service in western Oregon. The defini-
8 tion or definitions shall not apply to Tribal lands.

14 date of the enactment of this Act.

15 **SEC. 325. UNIQUENESS OF OLD GROWTH PROTECTION ON**
16 **OREGON AND CALIFORNIA RAILROAD GRANT**

1 **SUBDIVISION B—NATIONAL**
2 **STRATEGIC AND CRITICAL**
3 **MINERALS PRODUCTION**

4 **SEC. 100. SHORT TITLE.**

5 This subdivision may be cited as the “National Strategic and Critical Minerals Production Act of 2014”.

7 **SEC. 100A. FINDINGS.**

8 Congress finds the following:

9 (1) The industrialization of China and India
10 has driven demand for nonfuel mineral commodities,
11 sparking a period of resource nationalism exemplified by China’s reduction in exports of rare-earth
12 elements necessary for telecommunications, military
13 technologies, healthcare technologies, and conventional and renewable energy technologies.

16 (2) The availability of minerals and mineral
17 materials are essential for economic growth, national
18 security, technological innovation, and the manufacturing and agricultural supply chain.

20 (3) The exploration, production, processing,
21 use, and recycling of minerals contribute significantly to the economic well-being, security and general
22 welfare of the Nation.

24 (4) The United States has vast mineral resources, but is becoming increasingly dependent

1 upon foreign sources of these mineral materials, as
2 demonstrated by the following:

3 (A) Twenty-five years ago the United
4 States was dependent on foreign sources for 30
5 nonfuel mineral materials, 6 of which the
6 United States imported 100 percent of the Na-
7 tion's requirements, and for another 16 com-
8 modities the United States imported more than
9 60 percent of the Nation's needs.

10 (B) By 2011 the United States import de-
11 pendence for nonfuel mineral materials had
12 more than doubled from 30 to 67 commodities,
13 19 of which the United States imported 100
14 percent of the Nation's requirements, and for
15 another 24 commodities, imported more than
16 50 percent of the Nation's needs.

17 (C) The United States share of worldwide
18 mineral exploration dollars was 8 percent in
19 2011, down from 19 percent in the early 1990s.

20 (D) In the 2012 Ranking of Countries for
21 Mining Investment, out of 25 major mining
22 countries, the United States ranked last with
23 Papua New Guinea in permitting delays, and
24 towards the bottom regarding government take
25 and social issues affecting mining.

1 **SEC. 100B. DEFINITIONS.**

10 power generation and transmission, and renew-
11 able energy production;

12 (C) to support domestic manufacturing,
13 agriculture, housing, telecommunications,

1 pursuant to 43 CFR 3809 and 36 CFR 228A or the

4 approve the exploration or mine permit does not constitute
5 a major Federal action significantly affecting the quality
6 of the human environment within the meaning of the Na-
7 tional Environmental Policy Act of 1969 if the procedural
8 and substantive safeguards of the permitting process
9 alone, any applicable State permitting process alone, or

12 are taken into account.

13 (c) COORDINATION ON PERMITTING PROCESS.—The
14 lead agency with responsibility for issuing a mineral explo-
15 ration or mine permit shall enhance government coordina-
16 tion for the permitting process by avoiding duplicative re-

18 and stakeholders early in the process. The lead agency
19 shall consider the following best practices:

20 (1) Deferring to and relying upon baseline data,
21 analyses and reviews performed by State agencies
22 with jurisdiction over the proposed project.

23 (2) Conducting any consultations or reviews
24 concurrently rather than sequentially to the extent

1 practicable and when such concurrent review will ex-
2 pedite rather than delay a decision.

3 (d) SCHEDULE FOR PERMITTING PROCESS.—At the
4 request of a project proponent, the lead agency, cooper-
5 ating agencies and any other agencies involved with the
6 mineral exploration or mine permitting process shall enter
7 into an agreement with the project proponent that sets
8 time limits for each part of the permitting process includ-

13 **MENTS.**—The lead agency is not required to address agen-
14 cy or public comments that were not submitted during any
15 public comment periods or consultation periods provided

17 law.

18 (g) **FINANCIAL ASSURANCE.**—The lead agency will
19 determine the amount of financial assurance for reclama-
20 tion of a mineral exploration or mining site, which must
21 cover the estimated cost if the lead agency were to con-
22 tract with a third party to reclaim the operations accord-

24 maintenance costs for any treatment facilities necessary
25 to meet Federal, State or tribal environmental standards.

1 (h) APPLICATION TO EXISTING PERMIT APPLICA-
2 TIONS.—This section shall apply with respect to a mineral
3 exploration or mine permit for which an application was
4 submitted before the date of the enactment of this Act

4 **SEC. 103. CONSERVATION OF THE RESOURCE.**

5 In evaluating and issuing any mineral exploration or
6 mine permit, the priority of the lead agency shall be to
7 maximize the development of the mineral resource, while
8 mitigating environmental impacts, so that more of the
9 mineral resource can be brought to the market place.

10 **SEC. 104. FEDERAL REGISTER PROCESS FOR MINERAL EX-**
11 **PLORATION AND MINING PROJECTS.**

12 (a) PREPARATION OF FEDERAL NOTICES FOR MIN-
13 ERAL EXPLORATION AND MINE DEVELOPMENT
14 PROJECTS.—The preparation of Federal Register notices
15 required by law associated with the issuance of a mineral
16 exploration or mine permit shall be delegated to the orga-
17 nization level within the agency responsible for issuing the
18 mineral exploration or mine permit. All Federal Register
19 notices regarding official document availability, announce-

A BILL

To preserve open competition and Federal Government neutrality towards the labor relations of Federal Government contractors on Federal and federally funded construction projects.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Government Neutrality
5 in Contracting Act”.

6 **SEC. 2. PURPOSES.**

7 It is the purpose of this Act to—

8 (1) promote and ensure open competition on
9 Federal and federally funded or assisted construc-
10 tion projects;

11 (2) maintain Federal Government neutrality to-
12 wards the labor relations of Federal Government
13 contractors on Federal and federally funded or as-
14 sisted construction projects;

15 (3) reduce construction costs to the Federal
16 Government and to the taxpayers;

17 (4) expand job opportunities, especially for
18 small and disadvantaged businesses; and

19 (5) prevent discrimination against Federal Gov-
20 ernment contractors or their employees based upon
21 labor affiliation or the lack thereof, thereby pro-
22 moting the economical, nondiscriminatory, and effi-
23 cient administration and completion of Federal and
24 federally funded or assisted construction projects.

1 **SEC. 3. PRESERVATION OF OPEN COMPETITION AND FED-**
2 **ERAL GOVERNMENT NEUTRALITY.**

3 (a) PROHIBITION.—

4 (1) GENERAL RULE.—The head of each execu-
5 tive agency that awards any construction contract
6 after the date of enactment of this Act, or that obli-
7 gates funds pursuant to such a contract, shall en-
8 sure that the agency, and any construction manager
9 acting on behalf of the Federal Government with re-
10 spect to such contract, in its bid specifications,
11 project agreements, or other controlling documents
12 does not—

13 (A) require or prohibit a bidder, offeror,
14 contractor, or subcontractor from entering into,
15 or adhering to, agreements with 1 or more
16 labor organizations, with respect to that con-
17 struction project or another related construction
18 project; or

19 (B) otherwise discriminate against or give
20 preference to a bidder, offeror, contractor, or
21 subcontractor because such bidder, offeror, con-
22 tractor, or subcontractor—

23 (i) becomes a signatory, or otherwise
24 adheres to, an agreement with 1 or more
25 labor organizations with respect to that

1 construction project or another related
2 construction project; or

3 (ii) refuses to become a signatory, or
4 otherwise adhere to, an agreement with 1
5 or more labor organizations with respect to
6 that construction project or another related
7 construction project.

8 (2) APPLICATION OF PROHIBITION.—The provi-
9 sions of this section shall not apply to contracts
10 awarded prior to the date of enactment of this Act,
11 and subcontracts awarded pursuant to such con-
12 tracts regardless of the date of such subcontracts.

13 (3) RULE OF CONSTRUCTION.—Nothing in
14 paragraph (1) shall be construed to prohibit a con-
15 tractor or subcontractor from voluntarily entering
16 into an agreement described in such paragraph.

17 (b) RECIPIENTS OF GRANTS AND OTHER ASSIST-
18 ANCE.—The head of each executive agency that awards
19 grants, provides financial assistance, or enters into cooper-
20 ative agreements for construction projects after the date
21 of enactment of this Act, shall ensure that—

22 (1) the bid specifications, project agreements,
23 or other controlling documents for such construction
24 projects of a recipient of a grant or financial assist-
25 ance, or by the parties to a cooperative agreement,

1 do not contain any of the requirements or prohibi-
2 tions described in subparagraph (A) or (B) of sub-
3 section (a)(1); or

4 (2) the bid specifications, project agreements,
5 or other controlling documents for such construction
6 projects of a construction manager acting on behalf
7 of a recipient or party described in paragraph (1),
8 do not contain any of the requirements or prohibi-
9 tions described in subparagraph (A) or (B) of sub-
10 section (a)(1).

11 (e) FAILURE TO COMPLY.—If an executive agency,
12 a recipient of a grant or financial assistance from an execu-
13 tive agency, a party to a cooperative agreement with an
14 executive agency, or a construction manager acting on be-
15 half of such an agency, recipient or party, fails to comply
16 with subsection (a) or (b), the head of the executive agency
17 awarding the contract, grant, or assistance, or entering
18 into the agreement, involved shall take such action, con-
19 sistent with law, as the head of the agency determines to
20 be appropriate.

21 (d) EXEMPTIONS.—

22 (1) IN GENERAL.—The head of an executive
23 agency may exempt a particular project, contract,
24 subcontract, grant, or cooperative agreement from
25 the requirements of 1 or more of the provisions of

1 subsections (a) and (b) if the head of such agency
2 determines that special circumstances exist that re-
3 quire an exemption in order to avert an imminent
4 threat to public health or safety or to serve the na-
5 tional security.

6 (2) SPECIAL CIRCUMSTANCES.—For purposes
7 of paragraph (1), a finding of “special cir-
8 cumstances” may not be based on the possibility or
9 existence of a labor dispute concerning contractors
10 or subcontractors that are nonsignatories to, or that
11 otherwise do not adhere to, agreements with 1 or
12 more labor organizations, or labor disputes con-
13 cerning employees on the project who are not mem-
14 bers of, or affiliated with, a labor organization.

15 (3) ADDITIONAL EXEMPTION FOR CERTAIN
16 PROJECTS.—The head of an executive agency, upon
17 application of an awarding authority, a recipient of
18 grants or financial assistance, a party to a coopera-
19 tive agreement, or a construction manager acting on
20 behalf of any of such entities, may exempt a par-
21 ticular project from the requirements of any or all
22 of the provisions of subsection (a) or (b), if the
23 agency head finds—

24 (A) that the awarding authority, recipient
25 of grants or financial assistance, party to a co-

1 operative agreement, or construction manager
2 acting on behalf of any of such entities had
3 issued or was a party to, as of the date of the
4 enactment of this Act, bid specifications, project
5 agreements, agreements with 1 or more labor
6 organizations, or other controlling documents
7 with respect to that particular project, which
8 contained any of the requirements or prohibi-
9 tions set forth in subsection (a)(1); and

10 (B) that 1 or more construction contracts
11 subject to such requirements or prohibitions
12 had been awarded as of the date of the enact-
13 ment of this Act.

14 (c) FEDERAL ACQUISITION REGULATORY COUN-
15 CIL.—With respect to Federal contracts to which this sec-
16 tion applies, not later than 60 days after the date of enact-
17 ment of this Act, the Federal Acquisition Regulatory
18 Council shall take appropriate action to amend the Fed-
19 eral Acquisition Regulation to implement the provisions of
20 this section.

21 (f) DEFINITIONS.—In this section:

22 (1) CONSTRUCTION CONTRACT.—The term
23 “construction contract” means any contract for the
24 construction, rehabilitation, alteration, conversion,

1 extension, or repair of buildings, highways, or other
 2 improvements to real property.

3 (2) EXECUTIVE AGENCY.—The term “executive
 4 agency” has the meaning given such term in section
 5 105 of title 5, United States Code, except that such
 6 term shall not include the Government Account-
 7 ability Office.

8 (3) LABOR ORGANIZATION.—The term “labor
 9 organization” has the meaning given such term in
 10 section 701(d) of the Civil Rights Act of 1964 (42
 11 U.S.C. 2000e(d)).

Mr. CROWLEY. We tried to get our colleagues on the other side of the aisle to see what they were doing. We told them it was a tax on working families. Mr. Ellis, even your boss, Grover Norquist, admitted as much in his letter he sent to Chairman Camp back in 2011, calling this a gross tax increase but then saying never mind. It is okay because it is tucked into a bigger bill. Every time, and they brought it back up repeatedly. We asked them to not put this burden on American families. What did we hear in response? Crickets. We heard nothing. Last summer right around the point that these same colleagues were beginning to change their tune to the so-called sympathy that is on display today, one of my colleagues on the other side of the aisle said that they had been told, and I quote, in a pretty loud tone that this would be a tax increase.

I think that was aimed at me. I, from time to time, use a bel-lowing Queens accent, and I am proud of it. Because you know what I will say is this; I will speak up in a pretty loud tone when my constituents and hardworking Americans across the country are being targeted for baseless attacks.

Mr. Ellis, I see that you are concerned about the, quote, liability the taxpayer will have at the time of tax filing. I share your concern, and that is why each of the numerous times my colleagues on the other side of the aisle tried to scale back or remove altogether protections for working families on how much they would have to pay back, I tried to stop it. Did your organization ever raise this concern to members of the majority? No. In fact, I have a letter here from your boss, as I mentioned earlier, to Mr. Camp reassuring him that your organization was okay with raising taxes on families as long as they also cut taxes and created loopholes for businesses. Your boss may be okay with raising taxes on individuals to cut them for businesses and industry, but my constituents

in Queens and in the Bronx are not okay with that. But maybe I am just using too loud a tone, and I yield back, Madam Chair.

Mrs. BLACK. The gentleman yields back. The gentleman from New York, Mr. Reed, is recognized.

Mr. REED. Thank you, Madam Chair. And being from New York, I don't share that Queens accent. I am from the real part of New York, the country lawyer section of New York. I thank the gentlemen, Mr. Crowley, from New York. His friendship has always been appreciated. I just want to bring this down to day-to-day folks, being that country lawyer from western New York and being an area that is very rural, and I can tell you I remember first getting out of college, getting out of law school, being with my wife, filling out my returns, filling out my tax returns, and, you know, I got a refund check. And like millions of Americans, you know, I got that refund check, and we did a little something with it. My wife and I would go on a trip for the weekend. We would maybe buy something, maybe a new stove or something like that that we needed around the house.

Just so I clearly understand what is going to happen here, and I get a lot of Americans aren't going to do this intentionally. It is not going to be done fraudulently. What is going to happen is someone is going to misreport their income, they will go to fill out their return, their 1040EZ just like I did with my wife, and they are going to get a notice saying you know what, that refund check that you thought you were going to be able to rely on that millions of Americans have grown accustomed to getting every year, they are not going to get it. Is that correct, Mr. Ellis?

Mr. ELLIS. It will at least be smaller because they are going to have to somehow some way, assuming their income is over a certain level, pay back any overage, yeah.

Mr. REED. So they get an excess credit, tax credit, premium support payment, something of that nature, and that is equal to the calculated refund that they would typically get in their tax refund check; they are not going to get that check. Is that fair to say?

Mr. ELLIS. Yes.

Mr. REED. That is going to happen. And that is where, Mr. Pollack, with all due respect, when you say this is much about nothing, I remember those days. I remember those days. And I know millions of Americans are going to be looking at that saying wait a second. I was going to take my kids on a vacation. I was going to take them maybe to the zoo or something like that and spend a weekend with their families. You say, you know, to us this is much about nothing.

Mr. POLLACK. That's not what I said.

Mr. REED. That was your testimony.

Mr. POLLACK. What I said, Mr. Reed—let's get it correct. What I said, Mr. Reed, is that the number of inaccuracies are going to be small, and that is much about very little. I didn't say—

Mr. REED. Sir, with all due respect, I don't appreciate you pointing at me, and I will tell you, you said much about nothing.

Mr. POLLACK. But you are misquoting what I was referring to.

Mr. REED. Why aren't we telling them about it? No one wants to talk about this. All my colleagues on the other side, if you want to stand with the law, I stand for the repeal of the law. I disagree

with it. Doesn't mean I don't care about Americans. I care about Americans. That is why I ran for this job. That is why I am doing this. If they want to stand with this law, why don't you tell Americans what is coming. Why don't you tell them what is coming down the pipeline. What is coming down the pipeline is Americans don't understand what this is going to do to them. What is going to happen in 2015, when they get that notice from the IRS? Are they going to say, oh, I should have seen that coming?

This is what my home State of New York did. The health exchange circulated a notice saying during the following year's tax season you are expected to pay back whatever actual amount you took in the form of health insurance subsidies that you weren't eligible for after your income change. Depending on your situation, this can be a huge amount of money. That is like buried on the health exchange. I can tell you, Americans are working hard, just like me and my wife were. So is this the best that we can do to warn Americans as to what is coming? Mr. Holtz-Eakin, I have a lot of respect for you. Is this the best we can do?

Mr. HOLTZ-EAKIN. No. I think there is a real place for an IRS taxpayer advocacy effort in this regard. I think it has not happened so far and it would be time to get going.

Mr. REED. I have to also make a comment in response to my colleague from New York, that somehow by waiving this overpayment, and that is essentially what he is talking about. He is just saying we are going to just waive it. You don't have to pay it back. What kind of responsible leadership is that? They have developed a system. They have stood by a law that is potentially going to overpay taxpayer dollars to people, and the best solution they can offer is, well, what we are going to say is don't worry about paying it back. Well, someone's got to pay it. That is one of the things I am frustrated in Washington, D.C., about. This is taxpayer dollars. It is not free money. This is their money. Somehow it is their money that they can say wave their magic wand and say we are just not going to pay it back. We are going to waive it. Is that the responsible, sensible solution that you would recommend us to pursue when we deal with this situation in 2015, Mr. Holtz-Eakin?

Mr. HOLTZ-EAKIN. Absolutely not.

Mr. REED. That is why I am frustrated. I am frustrated, and this isn't much about nothing. This is a real problem. I am interested in solutions, but I am interested in responsible solutions that stand up for the hardworking taxpayer and not just say don't worry about it. We are not going to pay it back because your taxpayers are going pay it back. With that I yield back.

Mrs. BLACK. The gentleman's time is expired. The gentleman from Georgia, Mr. Price, is recognized.

Mr. PRICE. Thank you, Madam Chair. And I want to commend these two subcommittees and the committee for holding this hearing. I want to thank the witnesses, and I apologize for not being here earlier. I had a conflicting hearing. I want to draw attention to what title of this hearing is: Verification System For Income and Eligibility For Tax Credits Under the President's Healthcare Law. We are not talking about the health consequences of the healthcare law. As a physician we can go on and on about that. This is about the financial aspect of the healthcare law to real people. I want to

associate myself with Mr. Reed's remarks. This is real stuff for real people. We are going to be harmed in big, big ways. Not just on the healthcare side, but on the financial side personally as well.

Mr. Holtz-Eakin, I had a chance to read part of your testimony, and in your testimony you likened the ACA premium tax credits to the EITC, Earned Income Tax Credit. I wonder if you would explain how the two are the same and how the two are dissimilar?

Mr. HOLTZ-EAKIN. As I mentioned earlier, the EITC is a refundable credit, as are the premium tax credits from the ACA. They are based on family size and earnings in the same way that the ACA has subsidies up to 400 percent of the Federal poverty line, different amount, bigger for lower income individuals. The key difference is that is where the EITC stops. It is based strictly on the household's tax return, and you could do it based on that information. To fully implement the ACA, you need to have employer information as well, particularly the offer of affordable insurance or not, the value of that insurance, and its characteristics. It is a much more complicated system than the EITC for that reason. The matching that will go into multiple employers during a single year, different work hours, all of that complexity will become clear as time passes.

Mr. PRICE. And the error rate in the EITC is, I think, 1 in 5, or about 20 percent?

Mr. HOLTZ-EAKIN. In the ballpark of 20, 23 percent, somewhere in that range.

Mr. PRICE. So you have got a system that is much more complicated than the EITC. We already see how the Federal Government is doing on an error rate for the EITC, which is a simpler system at 20 percent; so what would you estimate the error rate to be for this verification system?

Mr. HOLTZ-EAKIN. We have no track record, so I think it is always important to be conservative. So if you apply the 20-odd percent to the \$700 trillion of insurance subsidies, you are looking at \$200 billion, something in that range.

Mr. PRICE. Hundreds of billions of dollars.

Mr. HOLTZ-EAKIN. Yes.

Mr. PRICE. And, of course, the systems are set up already to verify the income eligibility and the like, are they not, or the ACA, the subsidies?

Mr. HOLTZ-EAKIN. No.

Mr. PRICE. The systems aren't set up?

Mr. HOLTZ-EAKIN. No, sir.

Mr. PRICE. So we have already started this program. We have got an error rate on a program that is similar in some ways of 20 percent; and the systems aren't even set up to provide the income and eligibility verification?

Mr. HOLTZ-EAKIN. Again, I think there is going to be two very big sets of problems that are different. One is the fundamental character of the system, which we have talked about. The second is next year, and the startup when information sharing is incomplete, the employers are not yet required to provide information, and the taxpayers are not yet understanding their obligations under the new law.

Mr. PRICE. So let me take it in a little different direction, if I may. I serve on the Budget Committee as well. This appears to be a huge potential liability to the budget itself, does it not?

Mr. HOLTZ-EAKIN. Yes.

Mr. PRICE. So the amount of money that is projected to have been required to be spent by the American taxpayers to fund this program may, in fact, be expanding significantly; is that correct?

Mr. HOLTZ-EAKIN. That is a concern, yes, sir.

Mr. PRICE. And any quantification of that? Any way to know how much that would be?

Mr. HOLTZ-EAKIN. Well, I mean, the 20 percent error rate is the best estimate that we have at the moment. From your time on the Budget Committee you know that in systems of this type, and the two other great examples are the EITC and then in Medicare where we have set up a system of pay and then go find inappropriate payments. Those estimates are on the order of 10 percent, 60, \$80 billion a year. So \$800 billion over 10 years. You start adding up \$800 billion there, \$200 billion here, another, you know, \$100 billion out of EITC, you can make significant progress on some of our problems.

Mr. PRICE. So at a time when we continue to run significant deficits, at a time when we have an overall debt for the country of over \$17.5 trillion, the spending increases in Washington continue, we have got a program in front of us where we don't even have the systems in place that will continue to add to the national debt?

Mr. HOLTZ-EAKIN. The decision has been made to add to the national debt. My hope is that we would run it efficiently enough to keep it as small as possible.

Mr. PRICE. Mr. Ellis and Mr. Skarlatos, I wonder if in my brief seconds remaining, what tools does the IRS have to provide income and eligibility verification set up right now for this, Mr. Ellis?

Mr. ELLIS. That is still not clear at this point in the middle part of the year. To the extent that they do it retroactively, it is going to have to use the W-2 system, and that is going to have to be a lag system because as you know that goes to the Social Security Administration first. So that remains to be seen.

Mr. SKARLATOS. I am not aware of any other tools, sir.

Mr. PRICE. Sounds like a real headache, Madam Chair. Thank you.

Mrs. BLACK. The gentleman's time has expired. Mr. Pascrell from New Jersey is recognized.

Mr. PASCRELL. Now here is the real headache. Let me tell you what the real headache is. You are sitting over there and talking about taxpayers and liability when you just voted on \$600 billion, \$600 billion in tax relief which is unpaid for. You got a problem. You got a serious problem, and it is not just inconsistency. So I have heard the term "inconsistency," and I have heard the term "premium tax credits" over and over again. Mr. Pollack, you have some friends here. I have heard that over and over again. Here is the problem. Flashback like they do on television at a sporting event, flashback 10 years ago. The Prescription Drug Bill. Do you remember that, Mr. Pollack?

Mr. POLLACK. I do.

Mr. PASCRELL. Do all of you remember that? Mr. Ellis, do you remember it?

Mr. ELLIS. Absolutely.

Mr. PASCRELL. Good. Then you will follow what I am saying. Do you remember what happened in the passage of that bill? Democrats, for the most part, did not accept it, voted against it. We were here until 3:00, 4:00 in the morning, if you will remember that. It passed. And what did Democrats do after the passage? Democrats, after the passage, went back to their districts—I will speak for myself—went to towns which were not Democratic, spoke so the seniors about, yes, I was against this, but now we have to make it work. Here is the equalizer. And you don't understand it. Here is the equalizer, Mr. Ellis.

Instead of sour grapes and instead of burying our heads in the sand, we said we only have one country here. We have been talking about helping seniors out with the prescription drug plan, Plan D, for a long time, and while it wasn't the plan that I voted for—I voted against it—we got to make it work. Here is how it works. Here is how you register for it. Here is how you get involved.

In fact, it was so terrible, talk about a rollout. You guys got short memories. You really do. You really do. You got a major problem here. Not only was it a poor rollout, but you had to depend upon the States to bail you out of the plan, to make it work. The States had to come up with the money.

Mr. PASCRELL. That is only 10 years ago. I am not talking about ancient history. I am talking about the United States of America 10 years ago.

Mr. Pollack, let me ask you this question. This is especially interesting. We have twice tried to repeal a provision in the ACA, the Affordable Care Act, that would place limits on the premium tax credit reconciliation, once as a way to pay for the repeal of the medical device tax and another to pay for the Republican plan to replace defense sequestration cuts.

Mr. Pollack, can you discuss the impact that repealing this provision, the one we are talking about today, would have on consumers?

Mr. POLLACK. Well, there really is an irony. I have heard from on both sides of the aisle concern that people may have a liability in April of 2015 and that liability, mind you, is most likely to come not because of an error, it is more likely to occur because there have been changes of circumstances over the course of this calendar year that were unpredictable. Somebody got a raise, somebody got a bonus, somebody had more overtime pay. And I challenge us on both sides of the aisle, let's work to try and ease the difficulties that people will experience, who provided information with no errors, no fraud, but changes occurred.

And for those changes that occurred where somebody was conscientious, let's try and ease the burden of reconciliation. Let's go in the opposite direction and I think that makes a great deal of sense. It reflects the concerns that people expressed on both sides of the aisle, and I hope this is something we can do in a bipartisan way.

But in response to your question, if we eliminate the protections, particularly for lower income folks, it is going to mean they are going to experience significant hardship.

Mr. PASCARELL. Mr. Eakin—can I have a quick question of Mr. Eakin?

Mrs. BLACK. Your time has expired.

Mr. PASCARELL. What is time?

Mrs. BLACK. I would like to now ask Ms. Mahoney and Mr. Holtz-Eakin a question.

During the regulatory writing process, the E-FLEX Coalition, made a specific recommendation to the administration of the tax credits, to make the tax credits more accurate, and this is what they suggested, and I am going to quote, “giving employers the option of prospectively filing information with the IRS about coverage available to employees through an annual certification process.” Their letter went on to say that “we believe that this is in the collective best interests of individual Americans, employers and the administration to ensure that the accuracy of such upfront determinations to avoid subjecting individuals to unexpected repayments of tax credits for which exchanges incorrectly deemed them to be eligible.”

Now, the Treasury rejected this recommendation. Do you believe that was a mistake and should be revisited, and further, would it help employers and would it help more accurately administer the tax credits if this were put into place? Ms. Mahoney?

Ms. MAHONEY. Thank you. I have very high regard for the members of the E-FLEX Coalition and their efforts. We are not a member of that coalition, but I would imagine that proposals that they put forth have viability and value to different types of employers. Again, it is a coalition that focuses on a certain segment of types of employers, and we continue to believe that there are a variety of different scenarios that employers are looking at and need a variety of different solutions.

Mrs. BLACK. Mr. Holtz-Eakin, do you have an opinion on that?

Mr. HOLTZ-EAKIN. I have no great detail of the specifics. It sounds like the kind of approach that says let's give prior approval before you start sending out payments. There is a lot of merit to those kinds of situations. You can always do audits and other checks to make sure that it has been done in good faith on a regular basis and see how that system works.

Mrs. BLACK. Thank you for that.

Mr. Holtz-Eakin, I want to ask you, do you know how much taxpayer funds that we estimate are being issued every month without a verification system in place? Do you have an idea about that?

Mr. HOLTZ-EAKIN. Off the top of my head, no, but I would be happy to get a number for you.

Mrs. BLACK. Okay. Well, on the estimated number that I have seen in some of the reports is \$10 billion a month, \$10 billion a month and I might say that when this law was initiated, there were two major planks to this law: one is that if someone did not have employer insurance, that they would be eligible for the exchanges and the subsidies, and two, that they would also have to have verification of their income to ensure that whatever those subsidies were accurate.

We have now seen, this was the law, that neither one of these really is in place. One, the employer mandate has now been delayed until 2016. So there is really not a way other than attestation to say that someone does not have employer-sponsored insurance or that what is employer-sponsored insurance that they are unable to afford; and, two, we see a verification system that is not properly in place, yet we have been told by this administration on several occasions and the attestation of the Secretary of HHS as of the first of last year that there were—or first of this year that this verification process was in place.

We now see that either they were incompetent in believing that it was, or we see that perhaps that was a malicious statement to convince us to just get off their backs. Regardless, it is clear that the implementation of the President's health care law under this administration is harming Americans, we have heard that today, placing billions of taxpayer dollars at risk as well.

Now that we know that 1.2 million applicants have inconsistencies on their basis of income, it is time that we put a temporary halt to the issuance of these taxpayer-funded subsidies until HHS can get their act together.

And I specifically want to say that there is a bill out there, a bill that I have offered, H.R. 4805, the No Subsidies Without Verification. It was passed originally by the House and not taken up in the Senate and I do believe if we were to put a stop on this right now, it would protect taxpayers from getting a tax bill that they did not expect.

In addition to that, it would also protect the American taxpayer from subsidies that were inappropriately given to folks either inappropriately because the verification wasn't in place or because there was fraud.

I want to just ask one last question of Mr. Holtz-Eakin, because I know that you have certainly been in the forefront of Government and the monetary piece of what we do here at the government level. What have you seen in other programs where there potentially were fraudulent dollars given out, and in specific in programs like the EITC? Can you tell us what you have seen in the past about when those dollars are fraudulently given out, how much of that money is ever brought back into the Treasury?

Mr. HOLTZ-EAKIN. It is very difficult to recapture funds once they have been inappropriately paid, and the things that have happened with EITC, for example, is it is a refundable credit but there were also efforts to make it advanceable, arrive on a monthly basis. Those proved to be fraught with even more in the way of payment errors and the potential for fraud.

Again, if you look at the Affordable Care Act, its basic intent is to identify, out of 310 million Americans, those who are eligible for subsidies, calculate the subsidy correctly, deliver it in advance each month to the exchange in the state of the residence and the insurance company that has the plan of their choice. It is an extraordinarily difficult task in the best of circumstances, and it will be difficult to do well.

Mrs. BLACK. Thank you very much.

I also want to thank all of our witnesses for their testimony today, and I appreciate their continued assistance in getting an-

swers to the questions that were asked here at committee that you may not have had time to answer.

As a reminder, any member wishing to submit a question for the record will have 14 days to do so. If any questions are submitted, I ask that the witness respond in a timely manner.

Mrs. BLACK. With that, this subcommittee is adjourned.

[Whereupon, at 12:43 p.m., the subcommittees were adjourned.]
