BUSINESS MEETING

WEDNESDAY, JUNE 19, 2019

U.S. SENATE,
COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS,
Washington, DC.

The Committee met, pursuant to notice, at 9:34 a.m. in room 406, Dirksen Senate Building, Hon. John Barrasso (Chairman of the Committee) presiding.

Present: Senators Barrasso, Carper, Inhofe, Capito, Cramer, Braun, Rounds, Sullivan, Boozman, Wicker, Ernst, Cardin, Whitehouse, Booker, and Van Hollen.

OPENING STATEMENT OF HON. JOHN BARRASSO, U.S. SENATOR FROM THE STATE OF WYOMING

Senator BARRASSO. Good morning. I call this business meeting to order.

Today, we are going to consider two nominees, six bills, and 38 General Services Administration resolutions. We will consider three of the GSA resolutions that we noticed on Friday at a later date.

Senator Carper and I have agreed that we will begin voting at 9:40. At that time, I will call up the items on the agenda. We will not debate the items on the agenda while we are voting. Instead, we will debate the items on the agenda before we begin voting at 9:40. I will also be happy to recognize any members who still wish to speak after the voting concludes.

We will consider two nominations, Rob Wallace to be Assistant Secretary for Fish, Wildlife, and Parks at the Department of the Interior; and William Kilbride to be a member of the Board of Directors of the Tennessee Valley Authority.

The full Committee held a hearing on Rob's nomination earlier this month. The Subcommittee on Clean Air and Nuclear Safety held a hearing on Mr. Kilbride's nomination last week.

I would like to thank the Chairman of the Subcommittee, Senator Braun, for holding the hearing and assisting the full Committee in considering Mr. Kilbride's nomination. Both nominees are well qualified and will bring a wealth of experience and expertise to these important positions.

I would like to say a few words about Rob Wallace. I have known Rob for over 35 years. Without question, Rob is the right person for the job as the Assistant Secretary for Fish, Wildlife, and Parks.

Once confirmed, Rob will oversee the U.S. Fish and Wildlife Service and the National Park Service. His confirmation will be especially important because neither of these agencies have Senate

confirmed leadership at this time. He will play a central role in managing fish and wildlife for the American people.

Stakeholders from across the political spectrum agree, Rob is an outstanding choice. I urge my colleagues to support his nomination.

We will also consider six bills: Senator Heinrich's bill to amend and reauthorize the Morris K. Udall and Stewart L. Udall Foundation Act; Senator Braun's Restore the Harmony Way Bridge Act; Senator Duckworth's Route 66 Centennial Commission Act; Senator Collins' Reviving America's Scenic Byways Act, with a substitute amendment; Senator Capito's PFAS Release Disclosure Act, with a substitute amendment; and Senator Booker's bill to transfer certain funds from the Clean Water Revolving Fund of the State to the Drinking Water Revolving Fund of the State.

I would like to say a few words about the PFAS bill. We will report a broad bipartisan package to address pollution from a large class of chemicals, known as PFAS. This pollution is an urgent concern for many communities and States across the country.

This spring, the Committee held two hearings on this issue. In March, we heard from top officials at EPA, as well as the Departments of Defense and Health and Human Services. In May, we heard from State water regulators, water utilities, and others, who are struggling to deal with these contaminants.

The Barrasso-Carper substitute amendment to the Capito bill requires industrial manufacturers and users to disclose to the public when they release these chemicals into the environment. The legislation also requires EPA to set, within 2 years, a national primary drinking water regulation for, at a minimum, two of the most toxic PFAS substances.

The Barrasso-Carper substitute amendment is identical to an amendment that Senator Capito, Ranking Member Carper, Senator Gillibrand, and I filed to the National Defense Authorization Act last week.

I want to thank those members for their leadership on this issue. Our bipartisan package will go a long way to helping the Federal Government and the States combat this pollution.

Last, we will consider 38 resolutions to approve prospectuses providing for General Services Administration leases.

I will now turn to Ranking Member Carper for his statement.

**OPENING STATEMENT OF HON. THOMAS R. CARPER,
U.S. SENATOR FROM THE STATE OF DELAWARE**

Senator CARPER. Thanks, Mr. Chairman.

I want to thank the staffs and all the folks who worked very hard to get us ready for this day. It has been a sometimes frenzied effort, but I think a good one.

We have some important items on our agenda. I am going to be brief as we all have other commitments today.

Today, our Committee is set to consider a number of General Services Administration resolutions, five pieces of legislation, two nominees, and legislation to address widespread contamination of substances that we refer to affectionately as PFAS.

I am going to start by saying that the minority is willing to move this large number of GSA resolutions today only because of GSA's recent efforts to begin providing documents that the minority re-

quested as far back as the beginning of last Congress. I thank the Chairman and his majority staff for their help in motivating GSA to be more responsive to the minority's document requests.

Three of the four pieces of legislation on today's agenda are related to our Nation's transportation system. The fourth piece is a bill introduced by Senator Heinrich that would reauthorize the Morris K. Udall and Stewart L. Udall Foundation Act. This bill was passed in the Senate last year, and this year, I am confident we can get it across the finish line.

The fifth bill is Senator Booker's proposal to allow States a 1-year opportunity to use excess Clean Water State Revolving Loan Fund dollars to address lead contamination in drinking water. This bill would provide immediate relief to a number of States facing extreme cases of lead contamination, and I am proud to support Senator Booker's proposal.

I believe the two nominees our Committee is considering today, Rob Wallace and William Kilbride, are both qualified and ready to lead at their respective agencies. Mr. Wallace has pledged to uphold science and bolster the expertise of the Interior Department career staff that he would oversee. I believe he is up to the challenge of providing badly needed leadership within the Department of the Interior.

I look forward to welcoming Mr. Wallace to Delaware sometime later this year so that he can see and learn firsthand about our national park and wildlife refuges that make the First State home to so many people and visitors and species.

Next, let me take a minute or 2 to focus on the substitute for Senator Capito's bill, which is a package of PFAS contamination legislation. Over the last couple of months, I have come to learn that addressing PFAS contamination is a particularly complicated and multi-faceted problem faced by an ever growing number of communities across America.

During our hearing last month, I said that our Committee would continue to work hard with stakeholders to forge a consensus approach to address head on the PFAS problem. For the most part, that is what we have done. I especially want to thank Chairman Barrasso and the majority staff, as well as our own minority staff, and our colleagues, for their excellent and constructive work in crafting the legislative package that is before us today.

This substitute requires EPA to set a drinking water standard for PFOS and PFOA in 2 years, while also establishing on ramps so the agency can create monitoring requirements and drinking water standards for other PFAS chemicals in the future.

The substitute also immediately adds about 200 PFAS chemicals to the Toxic Release Inventory. By doing so, we can better understand the research, cleanup, and prevention that are needed at every level of government. Furthermore, the substitute includes additional bipartisan measures to require research, monitoring techniques, funding for drinking water cleanup, and guidance on how to properly dispose of PFAS.

Notably, though, there is one critical piece of PFAS legislation missing from this package. That is the bill I introduced with Senator Capito and 30 co-sponsors earlier this spring that designates PFAS as hazardous substances under the Superfund law. This des-

ignation would require DOD to help clean up the PFAS contamination it has caused, and it would unlock EPA resources to clean up sites when no one else can do so.

With that said, I still remain hopeful this last PFAS bill ultimately will be included in the Defense Authorization Act. I hope to have the Chairman agree to join me, along with other members of this Committee, as we strive to reach that goal, given the extensive conversations happening between our staffs, relevant agencies, stakeholders, and constituents who are affected by PFAS contamination.

Let me close with this. When we held our first business meeting of this Congress back in February, I shared my hopes that our Committee would work to reach consensus on important issues, consensus that would help us strengthen protections for our environment and public health while enhancing economic growth.

Nearly half a year later, the legislative work that we have achieved thus far on PFAS gives me renewed cause for hope that this Committee can and will continue to make further progress on the issues that Americans care about the most.

With that, I look forward to a quick markup and a productive session.

Thank you all for your efforts.

Senator BARRASSO. Thank you very much, Senator Carper. Thanks for the kind comments about the commitment of the entire Committee to work together on issues of bipartisan importance to the Nation.

Now that enough members have arrived, I would like to move to a vote on the items on today's agenda. The Ranking Member and I have agreed to vote on two nominees, six bills, and 38 General Services Administration resolutions en bloc by voice vote. Members may choose to have their votes recorded for a specific item in that bloc after the voice vote.

I would like to call up first: Presidential Nomination 718, Rob Wallace of Wyoming to be Assistant Secretary of Fish, Wildlife, and Parks at the Department of the Interior; as well as Presidential Nomination 491, William Kilbride of Tennessee to be a member of the board of directors of the Tennessee Valley Authority; S. 1345, a bill to amend and reauthorize the Morris K. Udall and Stewart L. Udall Foundation Act; S. 1833, Restore the Harmony Way Bridge Act; S. 1014, Route 66 Centennial Commission Act; the Cardin substitute amendment to S. 349, Reviving America's Scenic Byways Act; the Barrasso-Carper substitute amendment to S. 1507, PFAS Release Disclosure Act; S. 1689, a bill to transfer certain funds from the Clean Water Revolving Fund of a State to the Drinking Water Revolving Fund of the State; and 38 General Services Administration resolutions en bloc.

I move to approve and report Presidential Nomination 718, Presidential Nomination 491, S. 1345, S. 1833, S. 1014, and S. 1689, approve the Cardin substitute amendment to S. 349 and report S. 349 as amended, approve the Barrasso-Carper substitute amendment to S. 1507, and report S. 1507 as amended, and approve 38 GSA resolutions en bloc.

Is there a second?

Senator CARPER. I second.

Senator BARRASSO. All those in favor, please say aye.

[Chorus of ayes.]

Senator BARRASSO. All those opposed, nay.

[No audible response.]

Senator BARRASSO. In the opinion of the Chair, the ayes have it.

We have approved Presidential Nomination 718, Presidential Nomination 491, S. 1345, S. 1833, S. 1014, S. 1689, S. 349 as amended, S. 1507 as amended, which were reported favorably to the Senate. We have approved 38 GSA resolutions.

The voting part of this business meeting is finished. I would be happy now to recognize any member who wishes to make a statement on any of the nominations, the legislation, or the resolutions that we have just approved.

Senator WHITEHOUSE. Mr. Chairman.

Senator BARRASSO. Senator Whitehouse.

Senator WHITEHOUSE. I will just speak very briefly about Mr. Wallace.

I was delighted to be able to vote for him. We had a terrific conversation, and he pledged two things to me. One, to work with me on the Blackstone Valley River National Historic Park, which is a complicated thing, because we are developing a park in an existing urban developed area.

This isn't a place where you can just draw lines on a map and say everything inside is park. So we are going to need more attention from his Service to get that completed. He was terrific about that.

The second point we talked about is that even though the organization he works for is called the Department of the Interior, this is a country that has more than interior. It also has edges, and the edges are our coasts, and our coasts are being overlooked by his department. He has agreed to sit down with a bipartisan group of coastal Senators and begin a conversation as to how coastal communities can be treated with more attention and more fairly by his department.

Thank you very much.

Senator BOOKER. Mr. Chairman.

Senator BARRASSO. Senator Capito asked to be recognized.

Senator CAPITO. Go ahead, Senator.

Senator BOOKER. That is very generous of you, Senator Capito.

I just want to say thank you to the Chairman and Ranking Member. You have been tremendous. There are literally thousands of children and families in the State of New Jersey who, because of your partnership with me, will now have the opportunity to have the lead problems addressed.

It really is making a real difference. This is a very, very good day for our State and I know others as well. I want to express my gratitude.

Thank you, Senator Capito.

Senator BARRASSO. Thank you, Senator Booker.

Senator Capito.

Senator CAPITO. Thank you, Mr. Chairman.

I want to thank Ranking Member Carper, Senator Gillibrand, and the staff, too, for the work that we have done on the PFAS leg-

islative package that we see today, but also the work that was done to get it into an amendment for the NDAA.

I did talk with the Chairman and thanked him for his efforts as well, the Chairman of the Armed Services Committee.

I am proud to lead this bipartisan consensus package. It is very important to me.

You have heard me talk about two of the communities in my State, Parkersburg and Martinsburg, who have endured a history of PFAS contamination. We are very concerned about this.

This will hold emitters to account, will provide more transparency, and ensure that Federal agencies, communities, and the public can respond to emissions. Sunlight being the best disinfectant, I think this accountability is really good.

The Manager's Amendment also adds a refined version of the legislation I introduced with Senator Gillibrand to direct the EPA to impose safe drinking water standards for PFOA and PFAS and other PFAS compounds as the science merits.

We have included language ensuring that the EPA can assist rural water systems. This was a concern that came out in our hearing, whether rural water systems could meet the challenges of testing, both financially and with the technical expertise. This will help them so they can meet these standards.

It is regrettable to me that the EPA has been dragging its feet on this issue to the extent that Congress is compelled to act, but ensuring the public's faith in their drinking water is vitally important. This also provides for the facilitation of research into PFAS and effects on human health.

There still remains much to be done. I look forward to continuing work with my colleagues, Senator Carper mentioned this, on getting to an agreement on addressing legacy contamination at industrial and military sites around the country through the CERCLA and Superfund programs.

I believe we need to prioritize development of new mitigation technologies, including destroying PFAS contaminated material in a responsible way that does not change the medium of contamination from soil and water to the air. This will require new sampling methodologies and standards for the sophisticated processes needed to break that carbon fluorine bond that makes these substances useful for commerce but persistent in the environment.

The public needs the confidence that Washington is working to keep their water, soil, and air safe while protecting their economic interests and standards of living. I am very pleased this is in here.

Thank you very much for your dedication and help.

Senator BARRASSO. Thank you, Senator Capito.

Senator Cardin.

Senator CARDIN. Mr. Chairman, I want to thank you and Senator Carper in regard to moving the Reviving American Scenic Byways Act that I introduced with Senator Collins, giving us an opportunity to restart this highly beneficial, grassroots program that has been dormant since 2009.

I also want to thank you for the courtesies in removing three of the prospectuses that were on the list today, one dealing with the Bureau of Fiscal Services at the United States Department of Treasury that we are working in regard to certain employee issues,

and then also removing the consolidated activities, various buildings, to get certain understandings as to the restrictions on the use of those funds.

Again, thank you for the courtesy of giving us the opportunity to clarify those prospectuses.

Senator BARRASSO. Thank you.

Senator Braun.

Senator BRAUN. Thank you, Mr. Chairman and Ranking Member Carper.

The Harmony Way Bridge, which has been closed since 2012, is included in this package. It is the last remaining Federal Bridge Commission responsibility, created in 1941 to manage basically local bridges.

The Commission wasn't up to the task. Over time, the bridge fell into disrepair.

The community of New Harmony, it is vital to them. It gives them the flexibility now to move forward. The Restore the Harmony Way Bridge Act is a prime example of bipartisan cooperation that can happen in DC when leaders come together to solve problems affecting constituents. It eliminates unneeded Federal programs and allows the community of New Harmony to make decisions that are in their own best interest.

Thank you again for the support, and I look forward to this legislation making it to the full Chamber.

Thank you so much.

Senator BARRASSO. Thank you.

Senator Sullivan.

Senator SULLIVAN. Thank you, Mr. Chairman.

I just want to commend you, the Ranking Member, and Senator Capito, in particular, and finally all of us getting our arms around this PFAS issue which I think is going to occupy a lot of our time, but I think it is a good beginning on what is in this legislation, particularly with regard to loans for communities, forbearance for the EPA with regard to penalties on water systems in municipalities and localities.

As Senator Capito mentioned, the next step we need to start focusing on is the CERCLA issue and the responsibility in communities, particularly where we have large military bases, like in my State. I think we are off to a good start, but I want to commend both of you, and her and the other members, Democrats and Republicans, on this Committee for that important legislation. Hopefully we will see it on the floor soon.

Thank you.

Senator BARRASSO. Thank you, Senator Sullivan.

Senator Carper.

Senator CARPER. Mr. Chairman, I enjoy music. Every now and then I hear a song that seems particularly appropriate. I was listening to my favorite radio station driving to the train station this morning and I heard an old Chicago song. It started off, "Only the beginning." It is a great song.

I think we have made good progress here today. As the Senator says, this is only the beginning. We still have work to do, on the challenges that you face in Alaska with respect to PFAS contamination and the huge cleanup responsibilities in almost every State.

Almost every State can tell us some more stories. We need to continue to work. It is a good start, but it is only the beginning.

Thank you.

Senator BARRASSO. I thought you were going to sing the Chicago song "Does Anybody Really Know What Time It Is?"

[Laughter.]

Senator BARRASSO. We could sing it here, but we will not because instead, I am going to ask unanimous consent that we not sing, but that the staff have the authority to make technical and conforming changes to each of the matters approved today.

With that, our business meeting is concluded.

[Whereupon, at 9:52 a.m., the business meeting was concluded.]

To establish the Route 66 Centennial Commission, and for other purposes.

IN THE SENATE OF THE UNITED STATES

APRIL 3, 2019

Ms. DUCKWORTH (for herself and Mr. INHOFE) introduced the following bill;
which was read twice and referred to the Committee on Environment and
Public Works

_____, (legislative day, _____), _____

Reported by Mr. BARRASSO, without amendment

A BILL

To establish the Route 66 Centennial Commission, and for
other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Route 66 Centennial
5 Commission Act”.

1 **SEC. 2. FINDINGS.**

2 Congress finds that—

3 (1) Route 66 was the first all-paved highway in
4 the United States under the United States Highway
5 System connecting the Midwest to California, and
6 has played a major role in the history of the United
7 States;

8 (2) Route 66 was the symbol of opportunity for
9 hundreds of thousands of people seeking escape from
10 the Dust Bowl in the 1930s, serving as a “road to
11 opportunity” in the West, and providing employment
12 during the Great Depression, as thousands were put
13 to work on road crews to pave the road;

14 (3) Route 66 was invaluable in transporting
15 troops, equipment, and supplies across the country
16 to the West, where the Federal Government estab-
17 lished multiple industries and military bases during
18 World War II, and on the conclusion of the war in
19 1945, Route 66 was a key route taken by thousands
20 of troops as they returned home;

21 (4) Route 66 symbolized the positive outlook of
22 the United States during the postwar economic re-
23 covery in the 1950s and 1960s, serving as an icon
24 of free-spirited independence and linking people
25 across the United States;

1 (5) during the 1950s and 1960s, the tourist in-
2 dustry along Route 66 grew tremendously, giving
3 rise to countless tourist courts, motels, service sta-
4 tions, garages, and diners;

5 (6) since June 27, 1985, when Route 66 was
6 decommissioned as a Federal highway, the popu-
7 larity and mythical stature of Route 66 has grown
8 domestically and internationally, as the road has ex-
9 perienceed a rebirth of interest and support; and

10 (7) the year 2026 will be the centennial anni-
11 versary of Route 66, and a commission should be es-
12 tablished to study and recommend in a report to
13 Congress activities that are fitting and proper to cel-
14 ebrate that anniversary in a manner that appro-
15 priately honors the Mother Road of the United
16 States.

17 **SEC. 3. ESTABLISHMENT.**

18 There is established a commission to be known as the
19 “Route 66 Centennial Commission” (referred to in this
20 Act as the “Commission”).

21 **SEC. 4. DUTIES.**

22 The Commission shall—

23 (1) plan, develop a list of, and carry out such
24 activities as the Commission determines to be appro-

2 tennial anniversary;

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. TRANSFER AUTHORITY.**

4 (a) FINDINGS.—Congress finds that—

2

1 (1) lead is a toxic chemical that—

2 (A) is particularly harmful to young chil-
3 dren; and

4 (B) can cause reduced intelligence
5 quotients, attention disorders, and other serious
6 health problems;

7 (2) excessive and harmful levels of lead have
8 been found in water systems across all 50 States
9 and those water systems serve drinking water to mil-
10 lions of people in the United States;

11 (3) hundreds of the water systems described in
12 paragraph (2) are water systems that provide drink-
13 ing water to schools or day care centers;

14 (4) not all States have sufficient funds in the
15 drinking water revolving fund of that State to ad-
16 dress the threat to public health from heightened ex-
17 posure to lead in drinking water; and

18 (5) some States have available funds in the
19 clean water revolving fund of that State that could
20 be used to provide additional resources to help ad-
21 dress lead in drinking water.

22 (b) DEFINITIONS.—In this section:

23 (1) CLEAN WATER REVOLVING FUND.—The
24 term “clean water revolving fund” means a State
25 water pollution control revolving fund established

1 under title VI of the Federal Water Pollution Con-
2 trol Act (33 U.S.C. 1381 et seq.).

3 (2) DRINKING WATER REVOLVING FUND.—The
4 term “drinking water revolving fund” means a State
5 drinking water treatment revolving loan fund estab-
6 lished under section 1452 of the Safe Drinking
7 Water Act (42 U.S.C. 300j-12).

8 (c) AUTHORITY.—In addition to the transfer author-
9 ity in section 302(a) of the Safe Drinking Water Act
10 Amendments of 1996 (42 U.S.C. 300j-12 note; Public
11 Law 104-182), and notwithstanding section 1452(d) of
12 the Safe Drinking Water Act (42 U.S.C. 300j-12(d)),
13 during the 1-year period beginning on the date of enact-
14 ment of this Act, if a State, in consultation with the Ad-
15 ministrator of the Environmental Protection Agency, de-
16 termines that available funds in the clean water revolving
17 fund of the State are necessary to address a threat to pub-
18 lic health as a result of heightened exposure to lead in
19 drinking water, the State may transfer an amount equal
20 to not more than 5 percent of the cumulative clean water
21 revolving fund Federal grant dollars to the State to the
22 drinking water revolving fund of the State. Funds trans-
23 ferred pursuant to this subsection shall be used by the
24 State to provide additional subsidy to eligible recipients

RE: Support of the Senate Committee on Environment Public Works' mark-up of the substitute amendment to the PFAS Release Disclosure Act (S. 1507)

Dear Senator Carper:

The Orange County Water District (OCWD) is in support of the Committee on Environment Public Works' mark-up of the substitute amendment to the Perfluoroalkyl and Polyfluoroalkyl Substances (PFAS) Release Disclosure Act (S. 1507). In light of the significant demand for action, we urge that this amendment be incorporated as part of the National Defense Authorization Act (S. 1790) as the Senate considers S. 1790. OCWD is a national leader in the treatment of safe drinking water supplies and currently is one of only three PFOS/PFOA certified testing laboratories in the nation.

S. 1507 would provide the vital authorities for appropriate actions by the federal government to help local communities ensure a safe and reliable water supply. Of specific note, the mandate to establish a federal Maximum Contaminant Level (MCL) within two years of enactment will clarify for local water managers what level of treatment is necessary based upon scientific review. The authority for the federal government to provide assistance to research health threats is vital to ensure that any MCL that is proposed is grounded in the best available information and science. Last, we believe that the authority to provide grant funding through the Drinking Water State Revolving Loan Fund provides a promising approach. However, we would urge such grant assistance be increased beyond the \$100,000,000 annual authorized level to better reflect the needs throughout the nation to address both contaminants of emerging concern and PFAS.

The Committee's successful mark-up today of S. 1507 is an important step to ensuring communities, like those served by OCWD, have a safe and reliable water supply. In the coming weeks, we look forward to working with you to advance an effective response to the health threats from such contaminants.

Again, we support the Committee on Environment Public Works' mark-up of the substitute amendment to the PFAS Release Disclosure Act (S. 1507) and respectfully request that this amendment be incorporated as part of the National Defense Authorization Act (S. 1790). We appreciate your leadership to protect drinking water from hazardous substances for Orange County and the country.
