COMMITTEE ON SCIENCE AND ASTRONAUTICS

GEORGE P. MILLER, California, *Chairman*

- OLIN E. TEAGUE, Texas
- JOSEPH E. KARTH, Minnesota
- KEN HECHLER, West Virginia
- EMILIO Q. DADDARIO, Connecticut
- J. EDWARD ROUSH, Indiana
- *BOB CASEY, Texas
- JOHN W. DAVIS, Georgia
- WILLIAM F. RYAN, New York
- THOMAS N. DOWNING, Virginia
- JOE D. WAGGONER, Jr., Louisiana
- DON FUQUA, Florida
- CARL ALBERT, Oklahoma
- ROY A. TAYLOR, North Carolina
- GEORGE E. BROWN, Jr., California
- WALTER H. MOELLER, Ohio
- WILLIAM R. ANDERSON, Tennessee
- *BROCK ADAMS, Washington
- LESTER L. WOLFF, New York
- WESTON E. VIVIAN, Michigan
- GALE SCHISLER, Illinois
- *WILLIAM J. GREEN, Pennsylvania
- *EARLE CABELL, Texas
- JOSEPH W. MARTIN, JR., Massachusetts
- JAMES G. FULTON, Pennsylvania
- CHARLES A. MOSHER, Ohio
- RICHARD L. ROUDEBUSH, Indiana
- ALPHONZO BELL, California
- THOMAS M. PELLY, Washington
- DONALD RUMSFELD, Illinois
- EDWARD J. GURNEY, Florida
- JOHN W. WYDLER, New York
- BARBER B. CONABLE, JR., New York

CHARLES F. DUCANDER, *Executive Director and Chief Counsel*

JOHN A. CARSTARPHEN, Jr., *Chief Clerk and Counsel*

PHILIP B. YEAGER, *Counsel*

FRANK R. HAMMILL, Jr., *Counsel*

W. H. BOONE, *Chief Technical Consultant*

RICHARD P. HINES, *Staff Consultant*

PETER A. GERARDI, *Technical Consultant*

JAMES E. WILSON, *Technical Consultant*

HAROLD A. GOULD, *Technical Consultant*

PHILIP P. DICKINSON, *Technical Consultant*

JOSEPH M. FELTON, *Assistant Counsel*

ELIZABETH S. KERNAN, *Scientific Research Assistant*

FRANK J. GIROUX, *Clerk*

DENIS C. QUIGLEY, *Publications Clerk*

*Mr. Casey and Mr. Adams resigned from committee effective Mar. 8, 1966, and Mr. Green and Mr. Cabell named to committee by H. Res. 755.

PART 1

INDEX OF PERSONAL NAMES

	A	Page
Adams, Dr. Mac C.:		
General testimony-----		169-178, 184, 185
	B	
Buckley, Edmond C.:		
General testimony-----		179-184, 187, 188, 192, 193
Prepared statement-----		195-216
	C	
Cabell, Hon. Earle-----		1, 28, 193, 256
Conable, Hon. Barber B-----		24
	D	
Daddario, Hon. Emilio Q-----		20, 21, 156, 184, 250, 263-266
Davis, Hon. John W-----		25
Dembling, Paul G.:		
General testimony-----		250, 251
Dryden, Hugh L.:		
Air Force-NASA agreement-----		266, 267
	F	
Fulton, Hon. James G-----		6, 11-15, 28, 256, 257
	H	
Hechler, Hon. Ken-----		17-19, 187, 188, 192-194, 248, 258, 259, 264, 273
	K	
Karth, Hon. Joseph E-----		15, 186, 187, 247-250, 272, 273
	M	
Malaga, Joseph F.:		
General testimony-----		264, 265
Martin, Hon. Joseph W., Jr-----		11
Miller, Hon. George P-----		1,
2, 9-11, 15, 16, 19-22, 24, 25, 27-29, 156, 169, 178, 184, 186, 187,		193, 194, 217, 244-254, 256-259, 263, 266, 267, 270, 273.
Letter from Paul H. Robbins-----		276, 277
Mosher, Hon. Charles A-----		15, 16
Mueller, Dr. George E.:		
General testimony-----		29-36, 156, 186, 187, 193
Prepared statement-----		37-156
	N	
Newell, Dr. Homer E.:		
General testimony-----		156-169, 185
	R	
Robbins, Paul H.:		
Letter to Hon. George P. Miller-----		276, 277
Roudebush, Hon. Richard L-----		19, 20
Roush, Hon. J. Edward-----		24, 193, 251, 259
Rumsfeld, Hon. Donald-----		22, 23, 184-186
Ryan, Hon. William F-----		25-27

	S	Page
Schisler, Hon. Gale		28
Seamans, Dr. Robert C., Jr.:		
General testimony	217-219, 244-275	
Management instruction for tracking and data acquisition	188-191	
Prepared statement	220-244, 246-274, 275	
	T	
Teague, Hon. Olin E.		10, 11
	V	
Vivian, Hon. Weston E.		27, 28, 270-272
	W	
Waggonner, Hon. Joe D., Jr.		265, 266
Webb, James E.:		
General testimony	1-28	
Wolff, Hon. Lester L.		251, 252
Wylder, Hon. John W.	245, 246, 248-250, 257, 258	
	Z	
Zuckert, Eugene M.:		
Air Force-NASA agreement	266, 267	

SUBJECT INDEX

A

AACB. (See Aeronautics and Astronautics Coordinating Board.)	
ABL. (See Automated Biological Laboratory.)	
A. C. Spark Plug Division, General Motors Corp.:	Page
Apollo contractors meeting	66
Ad hoc Committee on Scientific Qualifications and Selection of Scientist-Astronauts	58
Administrative operations:	
Appropriations and budget:	
Coverage	261
Fiscal year 1966	261, 262
Personnel compensation and benefits:	
Budget increase	263-266
Western Operations Office, funding	241-244
Advanced manned missions program, OMSF (see also Manned Orbiting Research Laboratory):	
Appropriations and budget	13
Background	137, 138
Balance program	142-147
Funding	150
Program alternatives	138-141
Advanced Manned Missions Program Office:	
Manned space flight experiment development coordination	51
Advanced Orbiting Solar Observatory (AOSO):	
Cancellation	7, 159, 160
Advanced research and technology program (see also Office of Advanced Research and Technology):	
Administrative operations budget	267
Importance	18
Program planning	7
Research and development, funding	17
ADP. (See Automatic data processing.)	
AEC. (See Atomic Energy Commission.)	
Aeronautics and Astronautics Coordinating Board (AACB):	
Objectives	60
Aeronautics program, OART (see also Hypersonic aircraft; supersonic transport):	
Program planning	171, 172
Air Force, Department of (see also Electronic Systems Division; Manned Orbiting Laboratory; National Range Division; Space Systems Division):	
Cooperation with NASA:	
Instrumentation aircraft	181, 203
Loan of personnel	264
Text of agreement	266, 267
Medical personnel for Gemini project	60, 63
Medical program coordination	59, 60
Military personnel at Manned Spacecraft Center	47
MOL program	62, 76, 77
Modular maneuvering unit	77
Support for Ascension Island and Antigua tracking stations	213
Aircraft. (See specific aircraft.)	
Alphonsus crater	157

Ames Research Center, Moffett Field, Calif.:	
Administrative operations:	Page
Lands and structures, funding	283
Automatic data processing:	
End of year inventory of computers, table	308, 316
Summary of requirements	324, 325
Omission as locational line item	238
Antigua tracking station:	
Additional instrumentation	128
Air Force support	213
Construction of facilities	180, 200
AOSO. (<i>See</i> Advanced Orbiting Solar Observatory.)	
Apollo applications project (<i>see also</i> Saturn-Apollo Applications Office):	
Accomplishments, 1965	121
Alternate and followon missions	118, 119, 120
Apollo capabilities use	109
Appropriations and budget	13-15
Background	110, 111
OAO telescope use	114
Objectives	112-114
Operational capabilities	111, 112
Extended lunar exploration operations	117, 118
Long duration manned flight operations	116, 117
Manned synchronous and high inclination orbit operations	113, 114
Orbital assembly and resupply	114, 116
Payload integration	119, 120
Phased project planning	53
Planned activities, 1966	122
Planning schedules	119
Post-Apollo applications alternatives	36
Program options for future funding	8, 11, 275
Science and Technology Advisory Committee action	59
Apollo project (<i>see also</i> Instrumentation aircraft; instrumentation ships; Saturn I-B; Saturn V):	
Abort tests	7
Accomplishments	31
All-out systems testing	6, 7, 10
Applicability of Gemini hardware and technology	77, 78
Astronauts:	
Flight crew training	135
Command and service modules:	
Contract with North American Aviation, Inc	102
Communications	183, 212, 213
Programing problems	268
Reprogramed funds	247, 249-251
Construction of facilities:	
Total commitments to date	95
Contractors	66
Facility capability	95
Flight controller training	135
Funding requirements	149
Incentive contracts	91, 92
Industry executive group	63-65
Launch crew training	131, 135
Launch vehicles	13-15
Lunar excursion module (LEM):	
Contract with Grumman Aircraft	102
Development	102
Lunar landing program:	
Current status	31
Management	86, 87
Capabilities	94
Change control system	88, 91
Data management	91
Personnel interchange	92, 94
Review of end item hardware	87, 88
Scheduling system	88

	Page
Apollo project—Continued	
Manned missions	131-135
Manufacturing Engineering Liaison Office	66
Objectives	6
Personnel capability	94
Post-Apollo objectives	35
Schedule	119
Science and Technology Advisory Committee action	59
Spacecraft:	
Checkout	88
Funding	149
Testing at White Sands Test Facility	104
Systems applications	34, 35
Subsystems applicability to MOL program	62
Telescope mount (ATM)	160
Tracking and data acquisition network	126-137, 180, 198-200
Unmanned missions	126-128
Applications technology satellites (ATS) (<i>see also</i> Communications and applications technology satellites program):	
Tracking and data acquisition network	210
Appropriations and budget (<i>see also</i> specific centers and programs):	
Authorization bills, fiscal years 1966 and 1967, differences	218, 235-238
Authorization request for 1967	5
Budget reduction	27, 28
Facility planning and design:	
Budget request and analysis	219, 233-235
Headquarters budget request	218, 220-233
Major options kept open	275
Presidential actions	11, 16
Appropriations Committee	20, 21
Army, Department of:	
Cooperation with NASA:	
Medical personnel for Gemini project	60, 63
Astronauts:	
Scientist-astronaut selection	58
Ascension Island tracking station:	
Air Force support	213
Apollo project support	183, 213
Construction of facilities	200
Atomic Energy Commission (AEC):	
Architect-engineering contract limitation exemption	253
Cooperation with NASA:	
Irradiation studies	63
Nuclear Rocket Development Station	218, 236, 253
ATS. (<i>See</i> Applications technology satellites.)	
ATS-B:	
Tracking and data acquisition support	210
Automatic data processing (ADP):	
End of year inventory of computers, tables	306-323
Equipment funding:	
Fiscal year, 1965, table	288, 289, 294, 295, 300, 301
Fiscal year, 1966, table	290, 291, 296, 297, 302, 303
Fiscal year, 1967, table	292, 293, 298, 299, 304, 305
Equipment purchase decrease	267
Equipment use	287
Automated Biological Laboratory (ABL):	
Voyager missions to Mars	16, 163
Australia (<i>see also</i> Canberra ground station; Carnarvon ground station; Parkes ground station; Toowoomba ground station; Woomera ground station):	
Tracking stations agreement	180, 200
Avondale Shipyard, New Orleans, La.:	
Instrumentation ships shipyard work	202

Zero gravity. (See Weightlessness.)

PART II
INDEX OF PERSONAL NAMES

A	
Able, Charles R.:	Page
General testimony.....	788-792, 806, 833, 839, 846, 853, 854, 857, 864-866
Adams, Hon. Brock.....	312, 358-360
B	
Bell, Hon. Alphonzo.....	532, 533, 536, 544, 553
Bergen, W. B.:	
Letter to Hon. Olin E. Teague.....	1071
Brown, Hon. George, Jr.....	1270, 1271
Buchanan, Col. Robert S.:	
General testimony.....	1269-1272
C	
Casey, Hon. Bob.....	472-474, 477, 478, 486, 487, 728, 729, 783, 900-902, 906, 918, 919, 923, 926, 927.
D	
Daddario, Hon. Emilio Q.....	1, 2, 6, 257, 260-271, 273-277, 279, 282-285, 288, 291-295, 309, 310, 312-316, 320, 322, 323, 325, 328, 333, 334, 336, 339, 341, 342, 346-349, 351, 352, 364, 367, 373, 374, 376, 377, 380, 382, 384, 443, 444, 446-452, 454, 458, 466-472, 474, 475, 477, 480, 484-487, 489-494, 496-499, 501-507, 510, 512-522, 524-528, 531-538, 541, 542, 544-551, 553, 554, 1207, 1210-1214, 1216, 1219, 1220, 1224, 1226, 1228, 1229, 1231-1233, 1235, 1236.
Debus, Dr. Kurt H.:	
Prepared statement.....	613-637
Dorrenbacker, C. J.:	
General testimony.....	792, 806, 845-864, 866-869
Douglas, Donald W., Jr.:	
General testimony.....	788, 791, 792, 833, 834, 846, 847, 853, 854
Letter to Hon. Olin Teague.....	785
F	
Faget, Maxime A.:	
Prepared statement.....	674, 675
Felberg, F. H.:	
Prepared statement.....	764-781
Freitag, Capt. Robert F.:	
General testimony.....	833, 901, 965
Fulton, Hon. James G.....	339- 341, 448-451, 466-468, 470, 477-479, 484-487, 504, 505, 507, 508, 511-516, 518, 519, 1212, 1213, 1219, 1220, 1228-1232.
Fuqua, Hon. Don.....	283
G	
Giberson, W. E.:	
Prepared statement.....	730-739
Gilruth, Dr. Robert R.:	
Prepared statement.....	659, 660
Girardi, Peter A.....	728, 729
Goddard, F. E.:	
Prepared statement.....	743-757
Gurney, Hon. Edward J.....	496, 497, 511, 512

792, 806, 817, 833, 834, 853, 854, 1263, 1264, 1268, 1270-1272		
Letter from Donald W. Douglas, Jr.....		785
Letter from Ralph J. Watson.....		885
Letter from W. B. Bergen.....		1071
	V	
Von Braun, Dr. Wernher:		
Prepared statement.....		555-563
	W	
Waggonner, Hon. Joe D., Jr.....		294,
309-311, 314, 315, 494, 497, 501, 505, 507,		
551-553, 806, 807, 1225, 1226, 1231, 1264.		
Watson, Ralph J.:		
Letter to Hon. Olin E. Teague.....		885
Wilson, James E.....		924, 925
Wydler, Hon. John W.....		1210, 1211, 1222, 1227, 1228
	Y	
Yeager, Col. Charles E.:		
General testimony.....		1261, 1272

SUBJECT INDEX

A		Page
A-V Corp., Houston, Tex.:		
Manned Spacecraft Center support contract	-----	694
AACB. (See Aeronautics and Astronautics Coordinating Board.)		
Accident Investigation Board:		
Investigation of astronauts' flight training crash	-----	470
Administrative operations:		
Appropriations and budget:		
Budget reduction	-----	426, 427
Fiscal year, 1966	-----	525, 529
Fiscal year, 1967	-----	4, 242, 243, 256
Equipment:		
Computer costs, table	-----	400
Funding reduction	-----	438
Funding	-----	8
Organizational changes	-----	20, 21, 258-261
Other services	-----	435, 436, 538
Personnel compensation and benefits	-----	428, 429, 537
Appropriations and budget	-----	530
Rents, communications, and utilities	-----	431, 433
Reprogramming	-----	426, 528-536
Trans World Airlines service contract, funding	-----	426, 428, 429, 530
Travel and transportation of persons:		
Funding increase	-----	430, 431
ADP. (See Automatic Data Processing.)		
Advanced manned missions program, OMSF:		
Accomplishments	-----	406-408
Apollo hardware applications	-----	352, 353, 355-357, 468, 469
Appropriations and budget, fiscal year 1967	-----	242
Budget reduction	-----	411
Earth orbital program	-----	224-227
Established capabilities projections	-----	360-363
Experiments	-----	266
Funding	-----	8, 410
Table	-----	411
Launch vehicles	-----	230, 358-360
Lunar exploration program	-----	225, 228
Management	-----	410
Maximum effort program	-----	225
Objectives	-----	352-354
Meteorological and oceanographic	-----	854-856
Planetary exploration program	-----	224, 225, 229
Apollo applications technology	-----	357
Mars manned mission	-----	266
Post-Apollo applications	-----	409, 468, 469
Power supply backup	-----	1079
Program alternatives	-----	223, 224, 354
Relation to Apollo applications program	-----	401-404
Research and development:		
Budget estimate, fiscal year 1967, table	-----	232
Spacecraft reusability	-----	410, 863, 864
Studies	-----	404-410
Utilization of present facilities	-----	162, 163
Advanced Manned Missions Program Office:		
Experiment development program	-----	263
MSF experiment coordination, chart	-----	24

Advanced research and technology program (<i>see also</i> Office of Advanced Research and Technology):	
Apollo applications project activity.....	22, 165
Chrysler Corp. status report on optical system.....	1126-1130
Douglas Aircraft studies.....	845-864
Pegasus satellite development.....	122
750-pound solid propellant rocket motor.....	753
Advisory ADP committee.....	440
AEC. (<i>See</i> Atomic Energy Commission.)	
AEDC. (<i>See</i> Arnold Engineering Development Center.)	
Aerobee sounding rocket:	
Little Joe II launch facilities use.....	463
Aerojet-General Corp:	
Apollo project subcontractor.....	930
Gemini launch vehicle contract.....	385
Incentive contract.....	272
Aeronautics and Astronautics Coordinating Board (AACB):	
Objectives.....	30, 269
Aerospace Corp., Santa Monica, Calif.:	
Agena target vehicle testing.....	61
Aero Spacelines, Inc.:	
Super Guppy production.....	829
Aerospace Research Pilot School, Edwards Air Force Base, Calif.:	
Administration.....	1263
Basic astronaut training program establishment effect.....	1270
Biomedical monitoring of students.....	1267
Curriculum.....	1263-1265
Gemini simulator.....	294
History.....	1261, 1262
MOL astronauts:	
Selection.....	1263, 1264
Training.....	1263, 1267, 1268
NASA military astronauts training.....	1268
Purpose.....	1261
Relationship with Flight Research Center.....	1261, 1262
Space conditions simulation.....	1265-1267
Staff.....	1263
Students:	
Foreign students.....	1265
NATO students.....	1263
Selection.....	1262, 1263, 1269, 1271
Training aircraft.....	1264, 1268, 1269
Agena D launch vehicle:	
Cost-performance comparison, chart.....	846
Agena target vehicle:	
Back-up vehicle.....	64
Failure.....	14, 61, 256
Gemini project use.....	291-293
Modifications.....	388
Production completion date.....	64
Agriculture, Department of:	
Cooperation with NASA:	
LRL administration.....	1222
LRL recommendations.....	419, 481
World communications.....	1204
Aircraft. (<i>See</i> specific aircraft.)	
AiResearch Manufacturing Co.:	
Apollo applications project subcontractor.....	958
Air Force, Department of (<i>see also</i> Aerospace Research Pilot School; Arnold Engineering Development Center; Eastern Test Range; Manned Orbiting Laboratory; School of Aerospace Medicine; Strategic Air Command; Western Test Range; specific basis):	
Cooperation with NASA:	
ADP utilization.....	543
Agena target vehicle studies.....	388
Apollo mapping and survey systems.....	408
Bioastronautics program.....	29, 30

Air Force—Continued	
Cooperation with NASA—Continued	Page
Downey, Calif., industrial plant	461
Edwards Air Force Base land use	781
Facilities transfer	435
Gemini launches, 1965	613
MOL project	386-388
Personnel exchange	19, 260, 399, 430
Rents, communications, and utilities	502
Tours of Cape Kennedy	635
Use of land by Kennedy Space Center	495, 496
Decompression tests	283
Incentive contract with Douglas Aircraft Co.	789
Unified radio systems technology transferred from JPL	758
Alouette II:	
Western Test Range launch	614
American Institute of Architects:	
Cooperation with Kennedy on Visitor Information Center	635
American Machine & Foundry Co.:	
Crawler contractor	447
Ames Research Center, Moffett Field, Calif.:	
Interagency Committee for Back Contamination	1216, 1217
LRL potential location	1218
Site evaluation	1233, 1247, 1248
Lunar and planetary experiment equipment	487
<i>Annual procurement report, fiscal year 1965</i>	1133-1193
Antigua Island tracking station:	
Apollo instrumentation	202
Apollo applications project (<i>see also</i> Saturn-Apollo Applications Office):	
Accomplishments	373, 408, 409
Alternate and follow-on missions	179, 364, 394
Apollo hardware modification	363, 364
Appropriations and budget, fiscal year 1968	395, 397
Artificial gravity experiment	377, 380
Astronomical observatories	265
Bioscience experiments	399, 400
Contracting and procurement	382, 1130, 1131
Earth orbital missions	176, 177, 226, 227
Experiments	22, 399
Extravehicular activities	176
Field centers coordination, chart	23
Flight operations support requirements studies	677
Funding	262, 367-369, 371, 397
Alternate options	181
Future missions	395, 397
Hardware procurement	180
Industrial management	32
Kennedy launch operations management	616
Launch vehicle funding	382
Long duration manned flight operations	175-177, 377, 380, 400, 401
Lunar missions	178, 228, 401
Manned synchronous and high inclination orbit operations	172-
	174, 374, 401
Manpower, fiscal year 1967	400
Mission Assignment Document	399
North American Aviation status report	956-965
Objectives	5, 6, 170, 171, 364, 366
Operational capabilities	165-169, 364-366, 369
Orbital assembly and resupply	174, 175, 374-377
Payload integration	182
Planned activities, 1966	183, 374
Planning schedules	179-182
Post-Apollo applications:	
Alternatives	409
Space stations	355, 356
Program cost	181, 182, 368-372
Program development	21, 165

Testing	93, 325, 936
Schedule	234, 256, 334
Testing	91, 92, 99, 100, 103, 118, 123-126, 133, 194, 326, 327
Saturn V launch vehicle:	
Ablative engine qualification tests	133
Accomplishments	333, 1198
Apollo project use	4, 14
Automatic checkout equipment	392
Boeing Co. status report	973-977

	Page
Saturn V launch vehicle—Continued	
Checkout facilities.....	87
Computer programming.....	136
Engine development.....	393, 394
Funding.....	512-514
Instrument units.....	126
Qualification testing.....	102
Launch operations:	
Boeing Co. status report.....	1024-1035
Mission assignments, table.....	394
Objectives.....	75-76
Organization, chart.....	562
Payload capability.....	853
Adaptability to Voyager.....	1012
Procurement leadtime.....	400
Program office.....	557
Program plans, 1966.....	144
Program review.....	239-242
Saturn I-B effect.....	392, 393
S-II stage:	
Dynamic test stage.....	136, 137
Facilities.....	134, 148, 506
Failure.....	131, 393
Manufacturing problems.....	137
North American Aviation contract.....	150, 461
North American Aviation status report.....	891-927
Program rephasing.....	136-139
Testing.....	95, 102, 131, 132, 393, 423, 461
S-IC stage:	
Boeing Co. contract.....	150, 456
Boeing Co. status report.....	978-1007
Facilities.....	506
Program review.....	148, 513
Testing.....	95, 101, 127, 128, 261, 423
S-IVB stage:	
Ablative engine use.....	133
Apollo applications project use.....	373
Douglas Aircraft Co. contract.....	150, 458
Douglas Aircraft status report.....	792-844
Facilities.....	423, 424, 506, 507
Insulation.....	895
Restart and injection maneuver.....	208
Technological advances.....	424
Testing.....	95, 102, 133
Schedule.....	234, 235
Stage assembly at Kennedy.....	615
Systems mission support:	
Boeing Co. status report.....	1008-1023
Testing.....	95, 96, 100, 101, 103, 118, 325, 327, 328
Upgrading for advanced missions.....	360
Vehicle design.....	793
Voyager launch.....	726
School of Aerospace Medicine, Brooks Air Force Base, Tex.:	
LRL potential location.....	1218, 1232, 1245-1247
Test pilot training.....	1265
Science and Technology Advisory Committee functions.....	27, 269
Scientific satellites. (<i>See</i> specific satellites.)	
Scout launch vehicle:	
Cost versus reliability.....	806, 807
Langley Research Center management.....	616
Seal Beach, Calif., facility:	
S-II stage:	
Fabrication and assembly.....	134, 150, 461
Electromechanical mockup.....	87
Testing.....	131, 136, 137, 917
Vertical checkout facility.....	255

PART III
INDEX OF PERSONAL NAMES

	Page
A	
Anderson, Hon. William R.-----	19, 20, 462, 605, 747
C	
Clark, Dr. John F.:	
General testimony-----	705-733, 740
Conable, Hon. Barber B., Jr.-----	13- 15, 17, 18, 26-28, 38, 41, 62, 63, 66-68, 70, 75, 87, 92, 188, 195-197, 202, 209, 217, 235-237, 302, 306, 361, 372, 447-450, 459, 462, 468, 643, 644, 646, 648, 650-52, 657-660, 662, 672, 673, 683-688, 690, 695, 696, 700, 701, 704, 713, 714, 765, 770, 771.
Cortwright, Edgar M.:	
Biography-----	13
Clarification of testimony-----	877
General testimony-----	13, 14, 19, 24-58, 61-101, 188-191, 197-199, 202-239, 241-244, 297- 307, 309-312, 360-364, 369-373, 443-451, 454-457, 459-471, 581- 585, 605-607, 611-613, 642-644, 646-654, 656-678, 684-687, 689-694, 697-707, 713, 714, 740-767, 768-775, 780-787, 789, 792, 793, 798-802, 804-807, 825.
D	
Daniels, Richard-----	698
Downing, Hon. Thomas N.-----	10, 11, 208, 218, 736, 741, 742, 745, 748
G	
Garbarini, Robert F.:	
General testimony-----	191-197, 219
Gould, Col. Harold A.-----	700-703, 733-736, 764-769, 775, 777-791, 793-795, 797-804
H	
Hammill, Frank R., Jr.-----	42, 43, 67, 94, 219, 360, 361, 760, 761
K	
Karth, Hon. Joseph E.-----	1, 5-8, 10-12, 17-20, 22-28, 34-37, 39-44, 48-54, 56-79, 82, 85-91, 94-101, 188-194, 197-199, 202-205, 208, 215-220, 222-230, 232, 234-239, 241, 243, 244, 297, 300, 303-307, 309-312, 360-364, 369- 373, 442, 443, 446-453, 456, 457, 459-464, 468-471, 581, 583, 584, 605, 607, 642-644, 646-654, 656-668, 670, 671, 673-705, 709-719, 723-726, 727, 730-737, 740-760, 762-765, 768-774, 785, 791-793, 799, 801-807.
Written question answered by H. E. Newell-----	876
M	
Miller, Hon. George P.-----	5, 16, 19, 20, 24
Letter from Maj. Gen. Frederick W. Boye-----	654, 655
Moeller, Hon. Walter H.-----	34, 35, 38, 39
Mosher, Hon. Charles A.-----	7, 8, 15, 16, 18, 19, 27, 28, 37, 38, 41, 42, 52, 53, 62, 68, 193, 194, 204, 205, 215, 219, 221, 237, 243, 244, 300, 302-304, 306, 307, 447, 462, 687, 688, 691, 695, 696, 715, 716, 724, 725, 732, 733, 752, 755- 757, 768, 771, 772.

N	
Naugle, Dr. John E.:	Page
General testimony-----	9,
52, 63, 64, 67, 70, 71, 85, 95, 97, 99, 219, 235-237, 241, 242, 310,

Supporting research and technology (SRT)—Continued	
Physics and astronomy project, funding-----	658, 659
Sterilization:	
Limitations-----	237
Mariner capsule lander-----	234, 235
Spinout benefits-----	235
Technology utilization-----	236
Surinam:	
NASA assistance for launches-----	798
Surveyor project (<i>see also</i> SC-1 spacecraft; SC-2 spacecraft; SC-5 spacecraft):	
Appropriations and budget-----	190, 202, 219, 663, 664, 690, 806, 807
Contributions to Apollo:	
Lunar surface conditions information-----	274, 275
Landing technology-----	274
Cost estimate distribution-----	751
Funding increase-----	190-193, 222, 629, 630, 650, 663, 664, 817
Initial effort-----	670, 752, 753
Instrumentation-----	50, 191-197, 201, 216, 218, 274, 275, 752
Payload for lunar exploration-----	274, 275
Launch plans-----	752
Launch support-----	273
Launch schedule-----	26, 197, 198, 273, 282, 283, 669, 754
Luna 9 influence-----	17, 18, 669, 670
Lunar exploration program:	
Surface studies-----	230, 754, 755
Lunar roving vehicle project-----	822
Managed by Jet Propulsion Laboratory-----	273, 636, 772
Objectives-----	17, 282, 283
Payload capacity-----	752
Plum Brook Reactor Facility use-----	769
Priority-----	671
Project review-----	275-282, 805, 806
Relation to Apollo program-----	670
Soft-landing plans-----	838, 839
Spacecraft-----	203-205, 211, 212
Comparison with U.S.S.R. spacecraft-----	204, 205, 210, 212
Contract with Hughes Aircraft Co.-----	20, 64, 273
Design-----	199-201, 212
Funding missions H-J-----	751, 752
Heavyweight model funding-----	751, 753
Heavyweight versus lightweight-----	751-756
Systems test at General Dynamics Corp.-----	20
T-21 prototype spacecraft model-----	275-277
Technology utilization-----	824-826, 831
Terminal descent test program-----	279, 280, 841
Test vehicles-----	280, 282
Testing procedures-----	192, 194-197
Sustaining university programs:	
Achievements-----	45, 580
Appropriations and budget-----	562, 563, 571, 700-704
Chart-----	465, 564, 628
Cooperation with NSF, NIH, and Office of Education-----	572-575
Description-----	47, 561-581
Difference from supporting research and technology program-----	660
Experiment selection by NASA-----	49, 50
Facility grants-----	699-703
Funding-----	468, 469, 650, 700-704
Goddard Institute for Space Studies support-----	565, 566, 577
Objectives-----	464-468, 560, 561, 566
Participating institutions, table-----	569-570
Predoctoral training program-----	465-469, 564-571
Research activities-----	188, 467, 577-580
Facilities-----	566, 572-577
Lunar and planetary studies-----	266-270
Research grants-----	703
Table-----	468, 567, 580, 581
University Explorers-----	48, 170-172, 651, 658

INDEX OF PERSONAL NAMES

A	
Adams, Dr. Mac C.:	Page
Biography-----	23, 24
General testimony-----	20, 24-32, 34-37, 39, 99, 100, 194, 195, 197-199, 233, 234, 423-425, 461, 462, 474, 476, 477, 480, 482, 495, 496, 500, 501, 510, 524, 573, 575, 576, 723.
Prepared statement-----	40-98
Ames, Milton B., Jr.:	
General testimony-----	100, 124-145
Prepared statement-----	101-123, 127, 128
B	
Boone, W. H.-----	32, 126, 213, 214, 233, 240, 372, 378-380, 383, 385-390, 422, 426-428, 509, 510, 521-524, 575-577, 625-630, 675-684, 686, 687, 717, 719-722.
Letter from Richard L. Callaghan-----	577
Written questions answered by Richard L. Callaghan-----	577-580
Brown, Hon. George E., Jr.-----	13, 14, 20-23, 33, 133, 139, 197, 208, 213, 214, 225, 239, 252, 256, 257, 259, 268, 269, 376-378, 385, 390, 501, 519-521, 523, 571, 572, 614-616, 649-654, 715.
Buckley, Edmond C.:	
General testimony-----	603-612, 615-620, 622-624, 629-631
Prepared statement-----	630-632, 725-739
C	
Callaghan, Richard L.:	
Letter to W. H. Boone-----	577
Written answers to questions submitted by W. H. Boone-----	577-580
D	
Davis, Hon. John W.-----	7-9, 30-32, 36, 189, 191, 192, 194, 195, 199, 222, 229, 237-239, 244, 251, 252, 266-268, 466, 514, 518, 519, 523, 524, 569, 570, 572-575, 708-715, 722.
Deutsch, George C.:	
General testimony-----	570
Dickinson, Philip P.-----	715-717
E	
Eggers, Dr. Alfred J., Jr.:	
General testimony-----	355, 356, 373, 374, 379-381, 384, 386, 387
F	
Fascell, Hon. Dante B.:	
Statement for NASA-----	356-358
Finger, Harold B.:	
General testimony-----	203-269
Prepared statement-----	235, 269-353

H	
Haber, Wolf:	Page
General testimony-----	474, 475, 509
Harper, Charles W.:	
General testimony-----	145, 180-201, 671, 679-683, 686-688
Prepared statement-----	145-179
Hechler, Hon. Ken-----	1-3,
6-11, 13, 14, 17, 18, 20, 23, 25, 27-30, 32-34, 38, 39, 98-100,	
125, 127, 128, 131-133, 136-139, 145, 180, 189, 192-195, 197-	
201, 203, 213-215, 232-240, 251, 252, 259, 265-269, 355, 356,	
358, 359, 361, 368-376, 378-387, 389, 390, 413, 415, 418-429,	
461, 462, 466, 471-474, 479, 481, 482, 491-501, 504, 505, 603,	
606, 607, 609-614, 616, 617, 620, 622-626, 631-633, 638, 643-	
645, 647-649, 652, 655, 661, 663, 664, 666, 667, 670-675, 677,	
679-681, 683, 684, 687, 697, 699, 701-709, 715, 717-720, 722-724.	
J	
Jones, Dr. Walton L.:	
General testimony-----	511-524
Prepared statement-----	525-559
K	
Kerr, Breene M.:	
General testimony-----	633-640, 643-645, 647-655, 661-664, 666, 667
Prepared statement-----	655-661, 664, 665, 667
Kurzweg, Dr. Hermann H.:	
General testimony-----	524, 559-577
Prepared statement-----	581-602
L	
Lesher, Dr. Richard L.:	
General testimony-----	640-643, 651, 653, 666
Lucas, Thomas V.:	
General testimony-----	620-622
M	
Miller, Hon. George P.:	
Letter from Hon. John W. Wydler-----	645-647
Myers, Boyd C., II:	
General testimony-----	462-482,
491-510, 574, 667-677, 683, 684, 686, 688, 699-722	
Prepared statement-----	482-289,
499, 671, 673, 675-678, 685-696, 706, 712, 720, 721, 723	
P	
Pelly, Hon. Thomas M.-----	10-13,
32, 33, 133, 138, 192, 194, 238, 269, 358, 496-501, 519, 570, 571	
R	
Roush, Hon. J. Edward-----	100,
138, 141, 193, 194, 375, 376, 425, 426, 473-475, 479, 501, 510,	
511, 514, 519-521, 523, 524, 559, 569, 570-577, 612-614, 624,	
625, 648, 649.	
Ryan, Hon. William F-----	715, 719
S	
Seamans, Dr. Robert C., Jr.:	
General testimony-----	3-23, 31-34, 37-39
Prepared statement-----	10, 11
Sullivan, Francis J.:	
General testimony-----	413-429, 461, 473, 477, 480, 481, 496, 523
Prepared statement-----	424, 430-461, 477

T

	Page
Tischler, Adelbert O.:	
General testimony-----	30, 359-390, 677, 678
Prepared statement-----	390-412
Truszynski, Gerald M.:	
General testimony-----	611-614, 618, 619, 621, 622, 624-629

W

Wolff, Hon. Lester L.-----	33, 34, 139-141, 145, 198, 199, 479, 480, 572-574, 618-622, 631, 661- 663, 666, 667, 674, 675, 677.
Wydler, Hon. John W.-----	11, 15-20, 29, 31, 34-38, 126, 129-132, 141-145, 189, 190, 195-197, 199, 461, 462, 464, 467, 470, 474-481, 498, 501-510, 514, 515, 520, 521.
Letter to Hon. George P. Miller-----	645-647

SUBJECT INDEX

A

AACB. (See Aeronautics and Astronautics Coordinating Board.)	
AAP. (See Apollo applications project.)	
Administrative operations:	Page
Administrative communications	604, 606
Budget restrictions	704
Increase of funds	32-34, 38, 39
Personnel increase	617
ADP. (See Automatic Data Processing.)	
Advanced manned missions program, OMSF:	
Brayton cycle system implementation	285
Mars landing mission:	
Nuclear rocket implementation	315-318
Objectives	15, 16
Planetary flyby missions	218, 219
Advanced research and technology program (see also Office of Advanced Research and Technology):	
Advanced reactors	260-263, 265-267, 346-350
Budget	140
Projections	579, 580
Construction of facilities, funding, table	685
Large antenna research	423-427
Antenna array experiments	427
Cost	427
Nuclear rockets development	342
Objectives	4-6, 8, 25
Power conversion systems	272, 273
Program planning process	78
Programs	25-28, 76, 98
Propulsion storage	267
Radio astronomy, applications	422-424
Reentry parachute research	137
Research and development:	
ADP equipment funding	718
Funding, fiscal year 1967	7
Space Science Board instrumentation recommendations	428
Support program for OMSF	356
Advanced Research Projects Agency (ARPA):	
Cooperation with NASA on reentering objects detection	123
Advanced Orbiting Solar Observatory (AOSO):	
Cancellation	16
AEC. (See Atomic Energy Commission.)	
Aerojet-General Corp.:	
260-inch solid motor testing	357, 368
Cold Flow Development Test Station (CFDTS)	253, 335, 336
NERVA research and development	263, 264
Phoebus 2 nozzle development	330, 333
SNAP-8 contract	236, 289, 580
Technology utilization	264, 351
Aeronautics and Astronautics Coordinating Board (AACB):	
AEC/NASA/DOD space power program	272
Life Sciences Subpanel	519, 559

Aeronautics program, OART (<i>see also</i> Hypersonic aircraft, Subsonic transport; Supersonic transport; specific aircraft):	Page
Accomplishments.....	5
Advanced research.....	146-151
Applied technology research.....	156-164
Appropriations and budget.....	81-83
Budget increase.....	25
Percent of NASA budget.....	200
Flight dynamics:	
Program review.....	42-50, 154-156
Funding.....	78, 79
Helicopter research program.....	45-48, 162, 163
Noise research.....	151-154
Objectives.....	5, 25, 79, 80
Program coverage.....	80
Simulator use.....	25, 26
X-15 program.....	50
XB-70 and F-111 research.....	167-169
Aeronautical Research Advisory Group:	
Exchange of V/STOL information.....	193
Aerospace Medical Division, Wright-Patterson AFB, Ohio:	
Sonic boom research.....	198
Aerospace Medical Institute, Navy:	
Bioinstrumentation.....	71
Cardiovascular research.....	529, 530
Vestibular physiology research.....	534, 535
Aerospace Research Pilot School, Air Force:	
Bioinstrumentation.....	71
Cardiovascular response research.....	529
AGARD. (<i>See</i> Aeronautical Research Advisory Group.)	
Agena launch vehicle. (<i>See</i> Atlas-Agena launch vehicle.)	
Agriculture, Department of:	
Cooperation with NASA:	
ADP services.....	710
Air Force, Department of (<i>see also</i> Aerospace Medical Division; Aerospace Research Pilot School; Interagency cooperation; Manned Orbiting Laboratory; specific bases):	
Cooperation with NASA:	
Apollo tracking.....	613, 614
Coordination of manned effort.....	18
Electrostatic gyro studies.....	414, 433
Engine development.....	364, 372, 403
Flight simulator program.....	43
Gaseous core reactors.....	269
Gemini astronauts training.....	434, 435
Guidance and navigation studies.....	433-435
Lifting body research.....	115, 143
Loan of personnel.....	611
MOL tracking.....	614, 618
Thrust vector control research.....	376, 378, 379
V/STOL aircraft.....	157-160, 188
Cooperation with Navy and NASA:	
Respiratory physiology research.....	530
Radiobiology research.....	533
XC-142A testing.....	45
Air Force Systems Command:	
Cooperation with NASA:	
Hypersonic technology.....	170, 171
Aircraft (<i>see also</i> specific aircraft):	
Design evaluation.....	26
High-subsonic-speed aircraft.....	48-50
Technology utilization:	
Tire tests.....	28, 31, 32
Airways Engineering Corp., Washington, D.C.:	
Langley facility construction contract.....	672
Alabama A. & M. University:	
Radiobiological research.....	534

ALSEP. (See Apollo project/Lunar surface experiment package.)	
Ames Research Center, Moffett Field, Calif.:	Page
Ablation material research.....	596
Administrative operations:	
Budget increase factors.....	706
ADP equipment:	
Centralization.....	715
Funding.....	716, 717
Aerothermodynamics of meteors and tektites.....	583
Animals studies.....	513
Appropriations and budget.....	76, 77
Blood flow research.....	585
Cooperation with Air Force:	
Gemini astronauts training.....	434
Apollo astronauts training.....	434
Entry vehicle aerothermodynamics and structures research:	
Funding.....	577
Flight simulator studies.....	43, 45
Human research and performance.....	64, 521
Cardiovascular research.....	528
Guidance optimization studies.....	432
Radiobiology research.....	533
Respiratory physiology studies.....	97, 530
Stress hormone measuring research.....	531
Vision research.....	534
Water metabolism research.....	537
Life support research.....	65
Food regeneration research.....	546, 547
Water electrolysis research.....	542
LTV Aerospace Corp. contract:	
Advanced flight simulator capsule.....	548, 549
Lunar mission simulation studies.....	429
Man-systems integration:	
Otolith organ studies.....	517, 518, 557, 558
Spacesuit research.....	548
Manual control of launch vehicle studies.....	438
OART institutional management.....	699
Remote measurement technology.....	448, 449
Safety program.....	284
Space environment problems meeting.....	538, 539
Space nutrition meeting.....	538
STOL aircraft research.....	190
Technology utilization.....	655, 656
Tektite research.....	560
V/STOL transport study.....	161
VTOL wind tunnel research.....	158
XB-70 and F-111 research.....	168
Antigua Island tracking station:	
Establishment.....	612, 622, 628
AOSO. (See Advanced Orbiting Solar Observatory.)	
Apollo applications project (AAP):	
Current status.....	144, 145
Objectives.....	15, 16
Rendezvous with Pegasus.....	131
Space Science Board recommendations.....	12
Tracking and data acquisition equipment utilization.....	615
Apollo project:	
ADP utilization.....	225, 732
Advanced antenna system backup.....	739
Aerosol particle analyzer.....	558
Apollo/Range instrumentation aircraft (A/RIA).....	625, 626
Applicable project FIRE flight results.....	54, 68
Communication centralized control.....	731
Current status.....	14
Effect of schedule change.....	14, 579
Electric power level.....	90

Apollo project—Continued	
Experiments:	Page
Otolith organ studies.....	557, 558
Weightlessness research.....	518
Fuel cell implementation.....	212
Future hardware applications.....	22
Instrumentation ships and aircraft.....	613, 614, 728, 732, 733
Lunar excursion module (LEM):	
Brushless d.c. motor application.....	72
Lunar supply delivery.....	125
Lunar simulation studies.....	436
Lunar surface experiment package (ALSEP).....	217, 285
Nephelometer use.....	96
OART support.....	429
Open system life support.....	94
Personnel.....	611
Reentry ships:	
Funding.....	624, 625
Schedule.....	626, 627
Rendezvous plans.....	137
Spacecraft:	
Apollo applications use.....	144
Meteoroid protection.....	137
Space suit development.....	64
Titanium tanks.....	27, 576
Tracking and data acquisition, funding.....	609
Applications technology satellite (ATS):	
Electric thruster implementation.....	228, 229, 302, 303
Ion systems implementation.....	229
Tracking and data acquisition.....	728, 729, 736
Applied Physics Laboratory, Johns Hopkins University, Silver Spring, Md.:	
Advanced spacesuit design research.....	555, 556
Appropriations and budget (<i>see also</i> specific centers and programs):	
Budget reduction.....	4
Administrative operations.....	38, 39, 704
Construction of facilities:	
Budget plan by location, table.....	669
Future budget reductions.....	14
Percentage of national budget.....	17
ARCAS-ROBIN meteorological rocket:	
Testing.....	730
Arecibo, Puerto Rico antenna array.....	425, 426
Army, Department of (<i>see also</i> Corps of Engineers):	
Cooperation with NASA:	
Helicopter research.....	163
Water distribution project.....	628, 629
Army Natick Laboratories, Mass.:	
Food dehydration techniques.....	516, 546
Arnold Engineering Development Center:	
Cooperation with NASA:	
Supersonic transport development.....	166, 681
ARPA. (<i>See</i> Advanced Research Projects Agency.)	
Ascension Island tracking station:	
Communication satellite services.....	731
Association of Universities, Inc. (AUI):	
National Radio Astronomy Observatory (NRAO) operators.....	631, 632
Astro Research Corp., Santa Barbara, Calif.:	
Contract on orbiting radio telescope.....	217
Atlas-Agena launch vehicle:	
Jupiter flyby mission.....	308, 309
Chemical versus electric propulsion.....	308
Failures.....	578
Surveyor spacecraft.....	388
Atlas launch vehicle:	
Contract with General Dynamics/Astronautics.....	388
Testing status.....	387, 388
Atmospheric Explorer. (<i>See</i> Explorer XVII).	

Atomic Energy Commission (AEC):	
Cooperation with NASA:	Page
Ground experimental engine development.....	255
NASA contractors insurance coverage.....	216
Nuclear power research.....	271-273, 282-285, 288, 293, 298-300
Photovoltaic systems research.....	91
Reactor testing.....	222
SNAP development.....	214-216
SNAP funding.....	234-236
Technology utilization.....	647
Radiobiology research.....	533
Radioisotope propulsion studies.....	350
Atomics International:	
AEC SNAP reactor contract.....	289, 580
ATS. (See Applications Technology Satellite.)	
Automatic Data Processing (ADP):	
Automatic mathematical translator (amtran).....	600, 602
Computer control.....	707, 708, 710, 714
Control by GSA.....	709
Cost per computer hour.....	712
Digital control systems.....	658
Electronic systems applications.....	416, 417
Funding.....	38, 39, 629-631, 704, 705, 713, 714, 725, 727, 731, 736
Management.....	606
Objectives.....	37, 38
Personnel utilization.....	617
Procurement.....	703, 704, 726, 736
Program responsibilities.....	725, 726, 731, 732, 736-738
Purchase versus lease.....	712
Reimbursement policy for interagency services.....	711
Selective dissemination of data.....	623, 624
Australia:	
Cooperation with NASA:	
Tracking stations.....	617
Tektite research.....	584
B	
Basic research program, OART:	
Applied mathematics research.....	61, 62, 93, 568, 569, 600, 602
Appropriations and budget.....	93
Biophysics research.....	576, 577
Computer research techniques.....	65, 68, 69
Electrophysics research.....	93, 563-565, 591
Fluid physics research.....	60, 61, 63, 93, 560-563, 570, 571, 582-590
Funding.....	77, 575
In-house versus outside program.....	569
Materials research.....	27, 70, 93, 361-363, 368, 378, 394-396, 564-568, 569, 570, 591, 593-599, 641, 657, 658
Program justification.....	576
Program review.....	559, 560
Technology utilization.....	572-575
Battelle Memorial Institute:	
Electrolyte cell development.....	65, 542
Beacon Explorer. (See Explorer XXVII.)	
Bendix Corp.:	
Gyro technology research contract.....	415, 438
Tracking station contractor.....	617
Biomedical applications:	
Lunar Walker.....	643, 655
Sight switch.....	643, 655
Telemetry research.....	642, 655
Biosatellite project:	
ADP equipment requirements.....	716
Tracking and data acquisition.....	728, 729
Bioscience program, OSSA (see also Biomedical applications; Biosatellite project):	
Appropriations and budget.....	522

Biotechnology and human research program, OART. (See Human factors systems program.)	
Block Engineering Inc., Cambridge, Mass.:	Page
Aerosol particle analyzer development contract.....	96, 558
Blossom Point (Md.) tracking station:	
Deactivation.....	607, 729
Boeing 707:	
Supersonic transport research.....	188
British P1127 aircraft.....	45
Brunswick, Ga.....	368, 407
Bureau of the Budget:	
M-1 engine fund reprogramming.....	723, 724
Bureau of Public Roads:	
Cooperation with NASA:	
Applications of aeronautic research.....	28, 72-75
Bureau of Standards:	
Cooperation with NASA:	
ADP services.....	710
Wallops Island instrumentation support.....	730
C	
C-5A aircraft:	
Flight simulator testing.....	26, 43
Improved aerodynamic efficiency.....	49
California Institute of Technology, Pasadena. (See Jet Propulsion Laboratory.)	
California University:	
Germanium detector development.....	427, 428
"Radio pill" development.....	515, 537, 538
Radiobiology research.....	533
Technology utilization:	
Lunar walker adaptations.....	643, 655
Cambridge Redevelopment Authority (CRA).....	464, 465, 474, 475, 484, 502, 503
Canada. (See Churchill Research Range.)	
Canary Island tracking station:	
Communication satellite services.....	731
Construction of facilities.....	628
Canberra, Australia tracking station:	
Consolidation with Woomera station.....	729
Network collocation.....	607
Operations.....	727, 729, 736
Carnarvon, Australia tracking station:	
Systems modification.....	731, 733, 736
Centaur launch vehicle. (See Atlas-Centaur launch vehicle; Saturn IB/Centaur launch vehicle.)	
Charles Luckman Associates:	
Langley facility evaluation survey.....	672
Charleston, W. Va.....	201
"Chemical Engineering" magazine.....	572, 595
Chemical propulsion program, OART (see also Launch vehicle propulsion technology project; Large solid motor project):	
Advantages.....	87
Appropriations and budget.....	88
Auxiliary propulsion system.....	366-368, 406, 407
Construction of facilities.....	88
Experimental engineering.....	364, 389, 400-406
Funding.....	2, 77
Program balance.....	379, 380
Liquid/solid systems comparison.....	387, 389
Post-Apollo missions.....	373
Program elements.....	273
Program review.....	279-282, 359-372, 390-393
Research and technology.....	203-205, 361, 393
Liquid propellants.....	361-363, 394-397
Solid propellants.....	363, 383, 397-400
Spacecraft propulsion.....	365, 366, 403-406
Utilization of basic research.....	61, 84, 86

Chrysler Corp.:	
Marshall Space Flight Center contractor:	Page
Optical technology.....	416, 447
Churchill Research Range, Fort Churchill, Canada:	
Ground support equipment.....	730
Clark, Buhr & Nexen, Norfolk, Va.:	
STADAN Operations Building estimate.....	628
Commerce, Department of (<i>see also</i> Environmental Science Service Administration; Maritime Administration; Weather Bureau):

Thermionic converter system	204, 209

Solid rockets. (See Large solid motor program.)	
Sounding rockets. (See Arcas-Robin; Nike-Cajun.)	
Southeast State College, Durant, Okla.:	
Technology utilization:	
Regional dissemination center	Page 637, 651
Southern California University:	
Cryogenic bolometers development	427
Southwest Research Institute:	
Cryogenic bolometer development	427
Soviet Union. (See U.S.S.R.)	
Space Flight Operations Facility (SFOF), Pasadena, Calif.:	
Mariner IV and Ranger IX transmission	608
Network control center	729, 735, 736
Space medicine, OMSF:	
Bioinstrumentation	71, 72
Hydrodynamic analysis of blood flow	63, 93
Space Nuclear Propulsion Office (SNPO):	
OART institutional management	699
Space power and electric propulsion program, OART (see also Fuel cells; Solar cells):	
Appropriations and budget	89
Battery power systems	90, 91, 210
Brayton cycle systems	91, 205, 217, 218, 233
Chemical versus electric propulsion	308
Electric thruster systems	27, 92, 228-230, 302-310
Energy sources and limitations	203-205
Glossary	311-312
Liquid propellant storage	268
Planetary missions implementation	207, 231, 306-308
Power system selection and application	270, 271
Rankine cycle	91, 226-228
Research and development	89-91, 259-262, 270, 271, 388, 399
Solid propulsion accomplishments	5
Technology utilization	205, 232, 233
Thermocoupled system	217
Space program:	
Accomplishments	4, 26, 27
Objectives	4-6, 13
Public relations	21-23
Relation to national objectives	20, 21
Space radiation:	
Effects on spacecraft and shielding	106-108
Space Radiation Effects Laboratory	87, 106
Space science and applications program (see also Office of Space Science and Applications):	
Automatic microscope research	519
Objectives report	13
Space Science Board:	
Human factors research recommendations	514, 522
Instrumentation recommendations	126, 428
Radio astronomy recommendations	424, 425
Space nutrition panel	538
Space vehicles program, OART (see also M-2 lifting body; HL-10 lifting body; Space Radiation Effects Laboratory):	
Advanced launch vehicles	102, 103
Appropriations and budget	86
Design criteria program	120-122
Flight research	122-123
Funding	140
Mars landing technology	118, 120
Objective	124, 125
Orbiting radio telescope research	127, 128
Program elements	86, 101, 102
Reentry research	51-53, 86
Manned vehicles	112, 118

Space vehicles program, OART—Continued	
Space environment research:	Page
Advanced space structures.....	109-112
Meteoroid detection.....	104-106
Radiation effects and shielding.....	106-108, 133, 134
Thermal scale modeling.....	108, 109
Sterilization.....	524
Supporting research and development:	
Appropriations and budget.....	577, 578
Sperry Gyroscope Co.:	
Marshall Space Flight Center contractor:	
Laser gyro research.....	432
SST. (See Supersonic transport.)
