# Report to Congress: Medicare Beneficiary Enrollment by Congressional District and State

January 2025

CMS must report to Congress on the original Medicare Fee-for-Service (FFS) beneficiaries, Medicare Advantage (MA) enrollees, and Part D enrollees residing in each congressional district and state.

## Overview and Assumptions

### Methodology

To produce the results contained in this file, the following approach was used:

1. Beneficiary address data were extracted from the Centers for Medicare & Medicaid Services' (CMS) Integrated Data Repository (IDR). Data included street address, city, state, and 9-digit zip code. The data were pulled as of July 1, 2024.
2. Using address data, beneficiaries were geocoded and assigned a latitude and longitude coordinate.
3. The coordinate was then used to assign a congressional district by performing a lookup with the TIGER/Line® Shapefiles provided by the Census Bureau. About six percent of beneficiaries were not geocoded to a precise location because their address was a PO box, or the data were otherwise unusable. In these cases, beneficiaries were geocoded at the zip code level based on the population patterns of each zip code.
4. Once a congressional district was assigned for each beneficiary, the data were summarized at the congressional district level and beneficiaries were counted by the characteristics shown in each table.

### Geocoding Results

- 93.9 percent of Medicare beneficiaries were geocoded to their exact location.
- 5.3 percent were geocoded at the zip code level based on the population patterns of each zip code.
- 0.8 percent of beneficiaries had an address that was located outside of the United States.
- Only 8,988 out of 67,659,154 records were excluded due to invalid geographic information.

Status	Beneficiary Count	Percent of Total (%)
Geocoded at a precise location	63,533,105	93.9
Geocoded at the zip code level based on the population patterns of each zip code	3,550,133	5.3
Not assignable to a Congressional District	196	0.0
Not located within the United States	566,732	0.8
Invalid data—Unable to geocode	8,988	0.0
<b>Total</b>	<b>67,659,154</b>	<b>100.0</b>

### Notes

- Beneficiaries residing in the United States, Puerto Rico, and the U.S. Virgin Islands are included in this report. Due to data limitations, beneficiaries residing in other territories are excluded from this report.
- TIGER/Line® Shapefiles were updated on January 9, 2023. Legal boundaries and names are up to date, as of January 1, 2023.
- Previous year's totals should be compared using the same pull date as the current analysis, which is July 1, 2024.
- Beneficiary enrollment totals by plan type can change between years due to adjustments in the market and plan availability. This report reflects enrollment in the Medicare market during contract year 2024.
- Total Medicare Advantage (MA) enrollment as a percent of Medicare Eligible values may differ from other reports based on the timing of data collection, inclusion criteria, and type of Medicare eligibility used.
- Nationwide, about 5,700 Medicare eligible beneficiaries are enrolled in a Medicare Advantage plan and, within that plan, participate in a state demonstration. Although CMS's IDR reports the coverage status for the beneficiaries as being in a demonstration, this report totals beneficiaries by their contract type to better align with other CMS enrollment extracts.
- The US Virgin Islands and Puerto Rico do not have Medicare Savings Programs or Part D LIS.

MA and FFS	Medicare Eligible	Medicare beneficiaries that are eligible for MA and Medicare Fee-for-Service (FFS).
MA and FFS	MA-Only	Medicare Advantage (MA) beneficiaries that are enrolled in a Local Coordinated Care Plan (CCP), Regional CCP, Private Fee-for-Service (PFFS), or Medical Savings Account (MSA) that are enrolled in just an MA-only plan or enrolled in an MA-only plan and a stand-alone Prescription Drug Plan (PDP).

Cost plan enrollees in a PDP are included in the “PDP Enrolled” column.
Part D	Medicare Retiree Drug Subsidy	Medicare beneficiaries for whom their employer receives subsidies to provide a prescription drug benefit.
MSP and LIS	Total MSP	<p>Medicare Savings Programs (MSPs) consist of four Medicaid eligibility groups under which Medicaid pays the Medicare Part A and/or Part B premiums and, in some cases, cost-sharing for low-income Medicare beneficiaries. The MSP eligibility groups are: Qualified Medicare Beneficiary (QMB), Specified Low-Income Medicare Beneficiary (SLMB), Qualified Disabled and Working Individual (QDWI), and Qualifying Individual (QI).</p> <p>MSP + Medicaid: QMB plus full-benefit Medicaid (QMB-Plus) and SLMB plus full-benefit Medicaid (SLMB-Plus) beneficiaries are individuals who simultaneously meet the requirements for QMB or SLMB and full-benefit Medicaid eligibility groups covered under the state Medicaid plan.</p> <p>The chart uses the Common Medicare Environment (CME) “Dual Status Code” field, sourced from the months states submitted Medicare Modernization Act (MMA) files, to determine the number of duals at a point in time (which in our case is July 1st, 2023). With this method, Dual-eligible/MSP status is typically determined month to month.</p> <p>Qualified Medicare Beneficiaries without other Medicaid (QMB-only) individuals are entitled to Medicare Part A, generally have income up to 100 percent Federal poverty level (FPL), and have resources that do not exceed three times the limit for Supplemental Security Income (SSI) eligibility (adjusted for inflation). Medicaid benefits are limited to coverage of their Medicare Part A premiums, if any, Medicare Part B premiums, and to the extent consistent with the Medicaid State plan, Medicare deductibles and</p>

Medicare providers may not bill QMBs for Medicare Part A and B cost sharing amounts, including deductibles, coinsurance, and copays.</p> <p>Specified Low-Income Medicare Beneficiary without other Medicaid (SLMB-only) individuals are entitled to Medicare Part A, have income between 100 percent FPL and 120 percent FPL and have resources that do not exceed three times the limit for SSI eligibility (adjusted for inflation). Medicaid covers their Medicare Part B premiums only.</p> <p>Qualified Disabled and Working Individuals (QDWI) are individuals who remain disabled but who have lost their Medicare premium-free Part A benefits due to their return to work. They are eligible to purchase Medicare Part A benefits, have income of 200 percent FPL or less, and resources that do not exceed twice the limit for SSI eligibility, and are not otherwise eligible for Medicaid. Medicaid covers their Medicare Part A premiums only.</p> <p>Qualifying Individuals (QI) are individuals who are entitled to Medicare Part A, have income of between 120 percent FPL and 135 percent FPL, and resources that do not exceed three times the limit for SSI eligibility (adjusted for inflation). Medicaid covers their Medicare Part B premiums only.</p> <p>QMB Plus Full Medicaid Benefits (QMB-Plus) individuals meet both the eligibility requirements for the QMB program and a full-benefit group covered under the state plan. Medicaid pays their Medicare Part A premiums, if any, Medicare Part B premiums, and, to the extent consistent with the Medicaid state plan, Medicare deductibles copays, and coinsurance, and provides full Medicaid benefits. These individuals pay no more than the Medicaid coinsurance (if applicable) for services covered in the state plan (i.e., care that is furnished by a Medicaid provider and that either (1) Medicare and Medicaid or (2) Medicaid, but not Medicare, cover).</p> <p>SLMB plus Full Medicaid Benefits (SLMB-plus) individuals meet both eligibility requirements for the SLMB program and a full-benefit group covered under the state plan. Medicaid pays their Medicare Part B premiums. These individuals pay no more than the Medicaid coinsurance (if applicable) for services covered in the state plan (i.e., care that is furnished by a Medicaid provider and that either (1) Medicare and Medicaid or (2) Medicaid but not Medicare, cover). These individuals pay Medicare cost sharing for Medicare-covered care not included in the state plan unless the state chooses to pay these costs.</p>
MSP and LIS	LIS Total	<p>The Low-Income Subsidy (LIS) program consists of individuals who fall into the following categories: Deemed LIS Beneficiaries (i.e., Full-Benefit Dual Eligibles, Partial Dual Eligibles, and Supplemental Security Income (SSI) recipients) and LIS Awardees.</p> <p>Full-Benefit Dual Eligibles are enrolled in Medicare Part A and/or B and a full-benefit Medicaid group under the state plan. Medicare pays primary to Medicaid for Medicare Part A (inpatient hospital and skilled nursing facility services) and Medicare Part B (outpatient medical care). Federal law permits states to limit payment for Medicare cost sharing to the amount necessary to provide a total payment to the provider equal to the amount a state would have paid for the service under the Medicaid state plan. Medicaid may cover care that Medicare does not cover. These individuals automatically qualify for LIS and Part D.</p> <p>Partial Dual Eligibles are enrolled in Medicare Part A and/or Part B and the MSPs. Their Medicaid benefits are limited to coverage of Medicare Part A and/or B premiums and often, out-of-pocket Medicare cost-sharing expenses. They automatically qualify for LIS and Part D.</p> <p>Supplemental Security Income (SSI) recipients are individuals who receive income from the SSI program but who do not have Medicaid coverage. To be eligible for SSI, the person must be 65 and older, blind or disabled, with limited income and resources, a U.S. citizen, and a resident of one of the 50 states, including the District of Columbia. They automatically qualify for LIS and Part D.</p> <p>Social Security Administration (SSA) LIS Awardees are low-income individuals who do not meet the qualifications to be deemed for LIS (i.e., they are not Full-Benefit Dual Eligibles, Partial Dual Eligibles, or SSI), and apply for LIS through the SSA or their state. The vast majority apply through SSA.</p>
