

August 1, 2024

The Honorable Kamala D. Harris
Vice President of the United States
President
United States Senate
Washington, DC 20510

Dear Madam Vice President:

I am respectfully submitting the enclosed Report to Congress entitled, *Annual Report to Congress on the Open Payments Program*. This report describes the Centers for Medicare & Medicaid Services' (CMS) program integrity activity with respect to the Open Payments program for Fiscal Year 2023.

Section 6002 of the Affordable Care Act [P.L. 111-148] requires the Secretary of the Department of Health and Human Services (HHS) to submit an annual report summarizing: 1) information aggregated by applicable manufacturers and group purchasing organizations (collectively referred to as industry or reporting entities); and 2) any penalties imposed by HHS directly related to Open Payments. CMS consulted with the HHS Office of the Inspector General in the development of this report.

We look forward to continuing to work with Congress. I am also sending a copy of this report to the Speaker of the House of Representatives. Please do not hesitate to contact me at 202-690-7627 if you have questions or concerns.

Sincerely,

A handwritten signature in blue ink, which appears to read "Melanie Anne Egorin", is written over the typed name and title.

Melanie Anne Egorin, PhD
Assistant Secretary for Legislation

Enclosure

August 1, 2024

The Honorable Mike Johnson
Speaker
United States House of Representatives
Washington, DC 20515

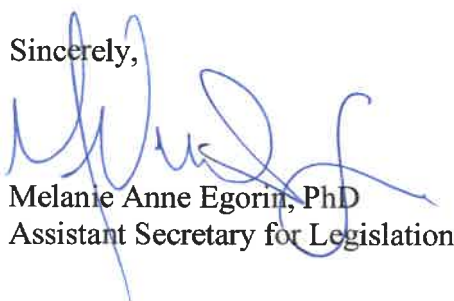

Dear Speaker Johnson:

I am respectfully submitting the enclosed Report to Congress entitled, *Annual Report to Congress on the Open Payments Program*. This report describes the Centers for Medicare & Medicaid Services' (CMS) program integrity activity with respect to the Open Payments program for Fiscal Year 2023.

Section 6002 of the Affordable Care Act [P.L. 111-148] requires the Secretary of the Department of Health and Human Services (HHS) to submit an annual report summarizing: 1) information aggregated by applicable manufacturers and group purchasing organizations (collectively referred to as industry or reporting entities); and 2) any penalties imposed by HHS directly related to Open Payments. CMS consulted with the HHS Office of the Inspector General in the development of this report.

We look forward to continuing to work with Congress. I am also sending a copy of the report to the President of the Senate. Please do not hesitate to contact me at 202-690-7627 if you have questions or concerns.

Sincerely,

A handwritten signature in blue ink, appearing to read "Melanie Anne Egorin", is written over the typed name and title.

Melanie Anne Egorin, PhD
Assistant Secretary for Legislation

Executive Summary

The Secretary of the Department of Health and Human Services (HHS) is required to submit an annual Report to Congress summarizing the information reported to the Open Payments program, aggregated by reporting entities, as well as any penalties imposed by HHS that are directly related to the Open Payments program.

This report summarizes the required information and provides an overview of key program activities and achievements that occurred in Fiscal Year 2023 (October 1, 2022 – September 30, 2023), with a focus on the Program Year 2022 data publication.

The Open Payments program is a statutorily required, national disclosure program that promotes transparency and accountability by making information about the financial relationships between reporting entities¹ and covered recipients² available to the public.

Open Payments data includes payments and other transfers of value made to covered recipients, along with ownership and investment interests held by physicians or their immediate family members in the reporting entities.

Payments are reported across three major reporting categories:

- General Payments: Payments or other transfers of value made that are not in connection with a research agreement or research protocol.
- Research Payments: Payments or other transfers of value made in connection with a formal research agreement or research protocol.
- Physician Ownership Information: Information about the ownership or investment interests that physicians or their immediate family members have in the reporting entities.

On June 30, 2023, the Centers for Medicare & Medicaid Services (CMS) published Program Year 2022 data, the ninth full year of data reported to Open Payments. In addition to the publication of Program Year 2022 data, Program Years 2016 through 2021 were refreshed and republished³ to reflect any updates made by reporting entities during the 2022 program year cycle. Program Year 2015 was archived⁴ during the Program Year 2022 data publication.

¹ Reporting entities refers to applicable manufacturers and group purchasing organizations (GPOs) required to report payments or transfers of value to covered recipients under the Open Payments program (42 USC §1320a-7h)

² For Program Year 2022 and subsequent program years covered recipients collectively refers to physicians, physician assistants and nurse practitioners, clinical nurse specialists, certified registered nurse anesthetists, anesthesiologist assistants, and certified nurse-midwives (excluding medical residents) who are not employees of the applicable manufacturer that is reporting the payment; or teaching hospitals that receive payment for Medicare direct graduate medical education (GME), inpatient prospective payment system (IPPS) indirect medical education (IME), or psychiatric hospital IME programs during the last calendar year for which such information is available.

³ Refreshed and republished data include data corrections made to reported payments since the initial publication of data submitted by applicable manufacturers and GPOs.

⁴ When a program year reaches its fifth full year of data publication it is no longer eligible for new data submissions or edits and is not searchable on within the Open Payments database. Archived program years are accessible with the full dataset available for download on the Open Payments Archived Datasets Page.

In Program Year 2022, reporting entities collectively reported \$12.59 billion in publishable payments and ownership and investment interests. These payments are comprised of 14.11 million payment records attributable to 588,514 physicians, 271,682 Non-Physician Practitioners (NPPs) and 1,240 teaching hospitals.

To encourage timely, complete, and accurate reporting, CMS has the authority to impose civil monetary penalties (CMP) on entities that are not compliant with the Open Payments requirements. In FY 2023, Open Payments did not issue CMPs, but did implement audits.

Table 1. Summary of Active Program Years

	2016	2017	2018	2019	2020	2021	2022
Total Dollar Value of Payments	\$9.82 billion	\$9.97 billion	\$10.88 billion	\$11.23 billion	\$9.77 billion	\$11.94 billion	\$12.59 billion
Total Number of Payment Records	12.60 million	12.25 million	11.73 million	11.27 million	6.51 million	12.23 million	14.11 million

Open Payments Program Overview and Implementation

The Open Payments program is a statutorily required⁵, national disclosure program that promotes transparency and accountability by making information about the financial relationships between reporting entities and covered recipients available to the public.

Reporting entities report payments or transfers of value made to covered recipients, and ownership and investment interests held by physicians or their immediate family members in the reporting entities. Payments are reported across three main categories: general payments, research payments, and ownership and investment interests.

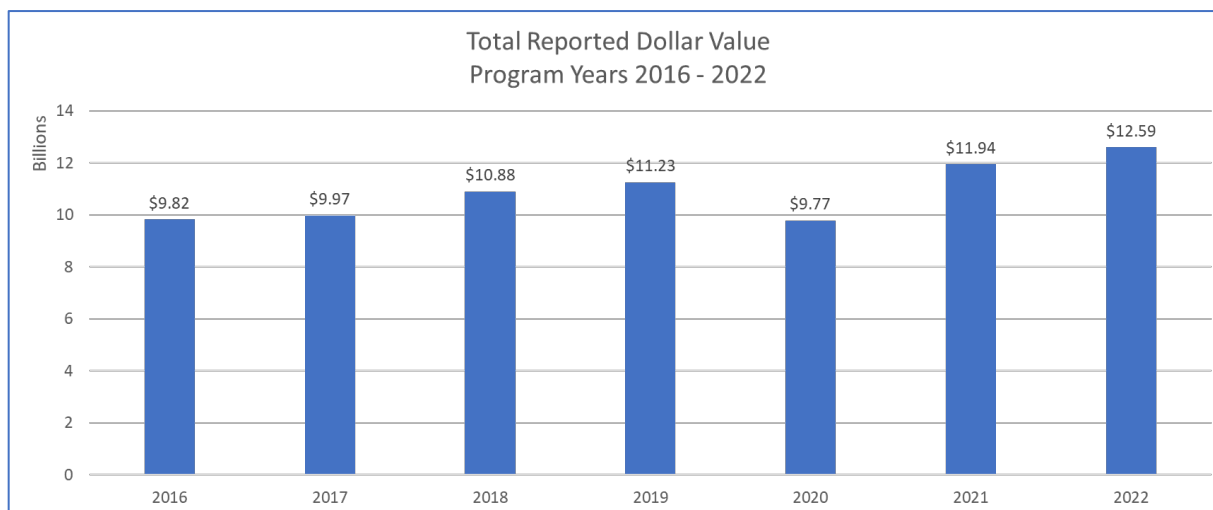

- General Payments: Payments or other transfers of value made that are not in connection with a research agreement or research protocol. General payments may include, but are not limited to honoraria, gifts, meals, consulting fees, and travel compensation.
- Research Payments: Payments or other transfers of value made in connection with a formal research agreement or research protocol.
- Physician Ownership Information: Information about the ownership or investment interests that physicians or their immediate family members have in the reporting entities.

Detailed guidance on reported payment categories is available in the Open Payments Final Rule (CMS, *Transparency Reports and Reporting of Physician Ownership or Investment Interests*, 78 FR 9458, at 9477 (Feb. 8, 2013)) and in regulations at 42 CFR § 403.904.

Since the start of the Open Payments program in FY 2013, reporting entities have reported over \$68 billion in payments and ownership and investment interests.

⁵ Section 1128G of the Social Security Act.

Figure 1. Total Dollar Value of Published Records by Program Year⁶

Program Year 2022

The Open Payments program functions on a yearly cycle of four key activities:

(1) Data Collection, (2) Data Submission, (3) Pre-Publication Review, Dispute and Correction, and (4) Data Publication. The following is an overview of the Program Year 2022 timeline, projects, and achievements.

- Data Collection:** Reporting entities collect data on payments made to covered recipients from January 1 through December 31 of each year, along with any ownership or investment interests held by physicians or their immediate family members in the reporting entity during that time. Data collection for Program Year 2022 took place from January 1, 2022 to December 31, 2022. On January 1, 2023, reporting entities entered a new program cycle and began collecting data for Program Year 2023, which will be published in June 2024.
- Data Submission:** Reporting entities submit the data that they collected to CMS. The Program Year 2022 data submission period was February 1, 2023, through March 31, 2023.
- Pre-publication Review, Dispute, and Correction of Data:** Prior to data publication, covered recipients have an opportunity to review the payments and other transfers of value attributed to them. If they believe a record is inaccurate or incomplete, they may initiate a dispute and work directly with the reporting entity to reach a resolution. Covered recipient review of the data is voluntary; CMS encourages data review to ensure data accuracy. The pre-publication review and dispute period for Program Year 2022 data began on April 1st, 2023, and continued through May 15, 2023.

Reporting entities have an additional 15-day correction period to ensure they accurately respond

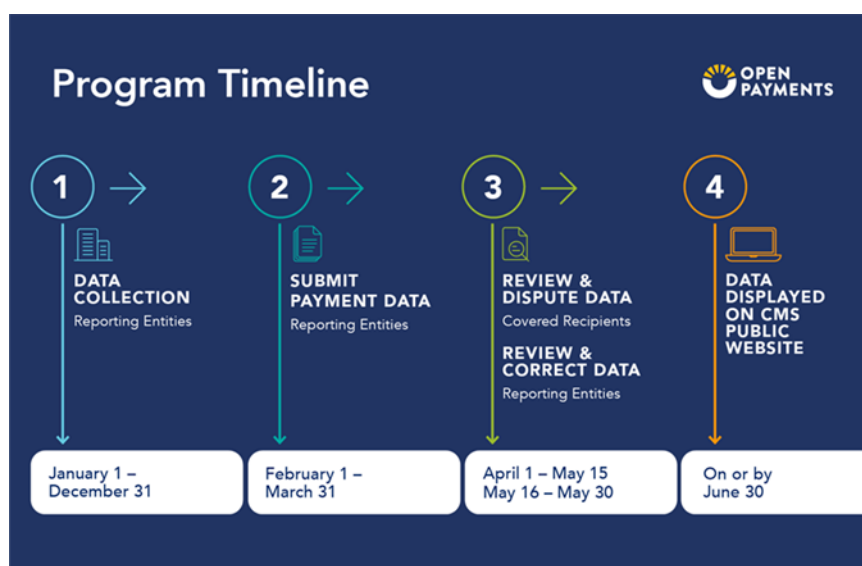

⁶ Individual program years' Open Payments data are calculated by totaling the individual program year's published general payment, research payment, and ownership and investment interest values. Ownership and investment values represent current market value of ownership as of the last feasible valuation across applicable manufacturers and GPOs.

to inquiries or disputes initiated during the pre-publication review and dispute period and make any necessary updates prior to the annual data publication. This additional 15-day correction period continued through May 30, 2023.

The pre-publication review, dispute, and correction period provides an opportunity for data to be reviewed and if necessary, corrected prior to its initial publication. Covered recipients may review the data through the end of the calendar year in which data is initially published and, if necessary, dispute payments they believe to be inaccurately reported. Updates to records that occur outside of the pre-publication review and dispute period are reflected in subsequent data refreshes or data publications.

4. **Data Publication:** The statute requires CMS to publish the data annually by June 30th. The data is displayed on the CMS public website at: <https://openpaymentsdata.cms.gov>. On June 30, 2023, CMS published Program Year 2022 data along with the refreshed⁷ data from previous program years (2016 – 2021). Figure 2 provides a visual representation of the Open Payments Program Cycle.

Figure 2. Open Payments Program Cycle Overview

In Program Year 2022, reporting entities collectively reported \$12.59 billion in publishable payments and ownership and investment interests made to covered recipients. This amount is comprised of 14.11 million total records attributable to 588,514 physicians, 271,682 non-physician practitioners and 1,240 teaching hospitals.

Payments in the three major reporting categories were:

- \$3.71 billion in general payments
- \$7.58 billion in research payments

⁷ Refreshed and republished data include data corrections submitted by reporting entities since the initial publication of data.

- \$1.29 billion of ownership or investment interests held by physicians or their immediate family members.

Over the course of the Open Payments program, CMS has published over 80 million records totaling more than \$68 billion in payments. Table 2 outlines the cumulative reported value by individualized program year data over the past seven data publications.

Table 2. Summary of Open Payments Data - Active Program Years

Reported Metric	Program Year						
	2016	2017	2018	2019	2020	2021	2022
Total Dollar Value of Reported Payments	\$9.82 billion	\$9.97 billion	\$10.88 billion	\$11.23 billion	\$9.77 billion	\$11.94 billion	\$12.59 billion
Total Number of Records	12.60 million	12.25 million	11.73 million	11.27 million	6.51 million	12.23 million	14.11 million
Total Number of Reporting Entities	1,669	1,669	1,748	1,783	1,763	1,829	1,742
Total Number of Physicians with attributed data	640,351	635,620	632,513	625,855	490,884	536,051	588,514
Total Number of Teaching Hospitals with attributed data	1,152	1,164	1,199	1,206	1,219	1,243	1,240
Total Number of NPPs with attributed data	N/A	N/A	N/A	N/A	N/A	235,011	271,682

In Fiscal Year 2021, CMS implemented the process of archiving data older than 5 years from public display. After evaluating program reporting and data maintenance requirements, CMS determined that when a program reaches five full years of publication cycles, the respective program year will be closed and archived. Closed means that the specific program year is no longer eligible for edits or data submission in the Open Payments system. Following the closing of a program year, it is archived and no longer displayed on the Open Payments search tool. Archived datasets are still available for download on the Open Payments dataset Download Page.

Example: Program Year 2013 was closed during calendar year 2020 and reporting entities were not able to submit new records related to Program Year 2013. In June 2021 Program Year 2013 was archived and removed from the Open Payments Search Tool but is still available for download via the Open Payments Dataset Download Page.

Engagement and Outreach Efforts

CMS strives to maintain active and engaging relationships with all program stakeholders. Outreach efforts include electronic listserv distributions, webinars, monthly stakeholder calls, attendance at in person events and working groups. Throughout Fiscal Year 2023, the Open Payments team leveraged these forms of communication to strategically promote the program and keep stakeholders updated and informed on program activity and upcoming changes. CMS recognizes the importance of communication with program participants and stakeholders and works diligently to maintain communication with all parties involved in the Open Payments program. These efforts strengthen CMS' relationship with program participants and positively impact the program.

External Stakeholder Outreach

- Hosted two webinars for reporting entities during the Program Year 2023 data submission period. These webinars focused on relevant program activities including data submission, and review and dispute information. The events provided an opportunity for the Open Payments team to present timely program information and respond to questions that attendees had regarding an array of topics including, but not limited to, reporting requirements, data submission, and review, dispute and correction actions.
- Spoke on CMS provider-focused outreach calls throughout Fiscal Year 2023, to continue communication with the covered recipient community.
- Maintained regular communication with stakeholders via Open Payments email distribution. These emails were distributed via the CMS Open Payments self-subscribe listserv and to the Open Payments system users consisting of reporting entities and covered recipients. Emails provided program timeline reminders and deadlines, as well as general operational updates.
- During the pre-publication review and dispute period there were two major outreach efforts focused on promoting covered recipient pre-publication review of the data.
 - The first outreach was specific for providers that were verified as having Program Year 2022 data attributed to them. An email was distributed to the identified covered recipients notifying them that they had Program Year 2022 data reported. The email provided details on the pre-publication review and dispute process and reminded covered recipients that their participation is voluntary but encouraged to help ensure the accuracy of the data.
 - CMS also ran a paid media campaign with targeted ads specifically to the non-physician practitioner community to educate these providers about the pre-publication review and dispute period and engage covered recipients with the program. The paid campaign ran from March 25, 2023 to May 15, 2023. The 2023 campaign delivered strong results, with most tactics outperforming benchmarks.
- In Fiscal Year 2023 the Open Payments team personally exhibited at six covered recipient focused conferences. This allowed the team to engage directly with covered recipients and educate them about the program and their role in the Open Payments data.
 - The majority of the conferences took place during the pre-publication review and dispute period which provide the opportunity to share pertinent information with covered recipients about reviewing their attributed data prior to the annual data publication. Many covered recipients that visited the exhibit booths were somewhat familiar with Open Payments, but unsure if they had data reported about them. They were able to utilize the Search Tool at the Open Payments booth to run queries and learn more about their data.
 - Open Payments also delivered presentations at three reporting entity focused conferences.

- The Open Payments team continued working with national associations to share information about the program. This outreach included general operational information as well as trainings on how to register and participate in review and dispute activities.

Open Payments Help Desk Activity

The Open Payments help desk supports the program by responding to program related questions and providing technical assistance. The help desk consistently receives positive feedback from those who utilize it. Table 3 outlines the volume the help desk experienced throughout FY 2023.

Table 3. FY 2023 Help Desk Activity Summary

Type of Communication	Total Volume
Inbound Calls ⁸	3,973
Outbound Calls ⁹	1,916
Emails ¹⁰	1,905
All Communication Types	7,794

Throughout FY 2023, the help desk continued to proactively reach out to covered recipients who attempted to register within the Open Payments system, but failed the vetting process. The goal of this outreach is to assist as many covered recipients as possible, in “real time” to complete their Open Payments system registration.

This outreach effort began in 2019. Before this initiative it was common for covered recipients that failed the vetting process to never complete successful registration because they did not take it upon themselves to contact the help desk for assistance. Through the “Failed Vetting Outreach”, the help desk staff initiate contact with covered recipients that failed the vetting process to assist them with successful registration. Since the start of this outreach 48% of contacted covered recipients successfully completed registration. Performing this outreach on an ongoing basis allows Open Payments to have greater access to covered recipients through the full calendar year.

Compliance Initiatives

In Fiscal Year 2023, Open Payments continued compliance efforts focused on improving the timeliness, accuracy, and completeness of the reported data.

The Open Payments team conducted twelve compliance – centric outreaches to 510 unique companies. These efforts encouraged timely, accurate, and complete submission of reportable data and resulted in the inclusion of previously unreported data and the correction of errors in the reported data.¹¹.

⁸ Inbound calls refer to incoming calls received at the help desk, i.e. individuals calling the help desk for assistance

⁹ Outbound calls refer to outgoing calls from the help desk, i.e. members of the help desk conducting calls to assist individuals

¹⁰ Emails refers to emails received at the help desk inbox at openpayments@cms.hhs.gov

¹¹ Applicable manufacturers and applicable group purchasing organizations may submit an assumptions document, explaining the reasonable assumptions made and methodologies used when reporting payments or other transfers of value, or ownership or investment interests. The assumptions documents will not be made available to covered recipients, physician owners or investors, or the public.

In Fiscal Year 2023 CMS did not introduce any new outreach types. The Compliance Team repeated several previously successful compliance efforts including outreaches to the following: 1) entities that stopped reporting without any publicly available reasons; 2) entities that attested to their records late; and 3) entities that were newly registered for Program Year 2022, but may have needed to report records for prior program years. In total, these efforts resulted in the correction or update of 155,748 records.

While the primary goal of Open Payments compliance efforts is to bring organizations into compliance, CMS has the authority to impose CMPs for late¹², inaccurate and/or incomplete reporting. During FY2023, the compliance team sent 4 pre-demand letters, which are warning letters that give reporting entities the opportunity to come into compliance before CMS pursues a civil monetary penalty. All four were resolved successfully without issuing CMPs.

CMS also began its first audits in FY 2023. Six audits were initiated in FY 2023, with results pending.

Open Payments Enhancements

In Fiscal Year 2023, various enhancements were implemented to increase the usability of the Open Payments system and the public facing Open Payments website and to modernize the program's technology infrastructure.

Open Payments System Enhancements

The Open Payments System supports data submission activities, review, dispute and correction activities, and compliance communication. CMS analyzes user feedback to make the system as user friendly as possible. The Fiscal Year 2023 system enhancements focused on the Open Payments System Transition to the new contractor and Open Payments System modernization in the cloud, also known as OPS 2.0. While the system is undergoing modernization, the current system is in operations and maintenance mode to support submissions, review & dispute, corrections, and publication activities. The following provides an overview of the key updates implemented during FY23.

- **Open Payments System Transition:** The Open Payments System contract was recompeted during FY 2023 and transitioned to a new support contractor.
- **System Optimization:** CMS completed an effort to optimize its system and data tools and services stacks to minimize 3rd party reliance and ensure all key resources are housed within CMS-controlled infrastructure. This effort was instrumental in ensuring efficient governance and control of program's data and system resources and facilitate greater transparency throughout CMS's IT enterprise.
- **Help Desk Phone System:** The help desk team uses AWS Connect to receive end-user calls and respond to their queries. This phone system was residing in the previous contractor's cloud infrastructure. This system was migrated to the CMS cloud during the contract transition period. This migration enabled the help desk to continue operations without interruption after the successful contract transition.
- **Open Payments 2.0 System Modernization and transition to Cloud:** CMS is the process of an ambitious modernization of the Open Payments system to capitalize on the benefits and efficiencies provided by cloud technologies. Transition of the Open Payment system to CMS

¹² Late data submissions are inclusive of both submitting and attesting to the submitted data after the close of the program year submission window that were not associated with disputes. The Program Year 2021 submission window closed March 31, 2021.

Cloud with the use of loosely coupled architecture, also known as micro-services architecture, will have multiple advantages including more flexibility in scaling system resources to accommodate usage spikes that come with the program's cyclical nature, fewer dependencies during the development and deployment process allowing for a more agile system enhancement process, less reliance on costly commercial off the shelf (COTS) products, and fewer barriers to adopting newer technologies. Open Payments System 2.0 high-level architecture, preliminary design, and initial vetting by the CMS Technical Review Board have been completed successfully. The iterative product development and testing is currently in progress and anticipated to go-live in Calendar Year 2024.

- **Data Archiving:** CMS completed the work on the long-term strategy for the data archiving process, including offloading data that falls outside of the data retention policy and moving the offloaded data to another storage location to increase efficiencies and improve performance in the data archiving process.
- **2024 Regulatory Changes:** Completed the design and continued development and testing of 2024 system changes and enhancements that are mandated for 2023 Program Year submissions. For more information on what these enhancements entail, see "Updates to the Open Payments Program Regulations" below.

Open Payments Search Tool Enhancements

The Open Payments Search Tool is a crucial feature of the Open Payments public data display. It is a simple, accessible, and comprehensive tool enabling the public to access and interact with Open Payments data. Through the search tool users can search for health care providers and companies reporting data. CMS continues to maintain the search tool and make updates to it for optimal user experience and accessibility. The search tool is available online at <https://openpaymentsdata.cms.gov>.

In Fiscal Year 2023, the Open Payments Search Tool was updated with the addition of several new refinements and features to improve the overall user experience.

- **Search Tool Homepage Updates:** The homepage of the search tool was redesigned with a new tagline that encapsulates the purpose of the search tool. Shortcuts to helpful resources including the Open Payments Overview Video were added to the homepage to improve the overall user experience.
- **Payments by State Dashboard:** The search tool now includes a feature that allows users to search for and view summary-level data of different states through an interactive dashboard. With this feature, users can review state specific data including 'mean/median payment amount', 'total amount', and 'number of payments.' Users can apply different filters on the Payments by State dashboard and view up to five different states at once. The dashboard also offers three different data visualizations including a chart layout, a table, and an interactive map.
- **Dataset Explorer Enhancements:** The Dataset Explorer tool is a feature on the site that allows users to review and download full datasets or filtered datasets. This tool was updated to improve the functionality and accessibility with more efficient filtering designs and formatting changes.

Updates to the Open Payments Program Regulations

The following changes were effective for data collection beginning in Calendar Year 2023 (Program Year 2023) and are applicable to data reported beginning in Calendar Year 2024.¹³

1. Addition of mandatory payment context field for records to teaching hospitals which provides more information on the context of payments made to teaching hospitals. Since teaching hospitals are complex institutions, the inclusion of the non-public context field will help teaching hospitals confirm the accuracy of the data rather than opting to submit a dispute in an effort to gain more information about the payment.
2. Option for reporting entities to annually recertify with the Open Payments System even when they are not reporting records for the respective data submission cycle. This provides communication to CMS that they are aware of the program and maintaining compliance with regulations. This is not a mandatory requirement but was added at the request of the reporting entities.
3. Disallowing record deletions without a substantiated reason. CMS will provide a list of reasons for deletion as well as an “Other” option. Since the reporting entity had already attested that the record was complete, timely, and accurate, this feature is being added in order to verify that the records were appropriately deleted.
4. Added definition for physician-owned-distributorships (PODs) as a subset of reporting entities for increased transparency on PODs. PODs have been a source of focus for the program since its inception, but due to lack of a definition, the visibility of this organization type was insufficient. This rulemaking added a definition as well as a requirement to self-identify should the reporting entity meet the definition. (42 CFR 403.902)
5. Requirement for reporting entities to update their contact information for two years after reporting to allow CMS to contact these entities if needed. This rule was implemented because the compliance team was finding that reporting entities often had outdated contact information, which made contacting them with questions much more difficult. (42 CFR 403.908(c)(3))
6. Disallowing publication delays for general payment records. This change was made to better align with the statute, which specifies that records must be connected to research in order to be delayed.
7. Short-term loan clarification – clarifying that the exception for short term loan applies for 90 total days in a calendar year, regardless of whether the 90 days are consecutive. (42 CFR 403.902)
8. Removal of option to submit and attest to general payment records with an “Ownership” Nature of Payment Category, because the duplication with the “Ownership” record type led to inconsistent and confusing reporting. The “Ownership” nature of Payment Category has been available for general payment records. However, “Ownership” is a specific type of record that should be reported as its own category and not as a “general” payment record. This duplication resulted in inconsistent and confusing reporting. Going forward there will no longer be an option to submit or attest to general payment records with an “Ownership” Nature of Payment Category. (See 42 CFR 403.904(e)(2))

¹³ The Open Payments Changes were finalized with the Calendar Year 2022 Medicare Physician Fee Schedule Final Rule on November 2, 2021.

Appendix A. Aggregate Data by Applicable Manufacturer and Group Purchasing Organization (GPO).

The aggregated data included in this report contains data from Program Year 2022 (January 1, 2022 – December 31, 2022). This dataset has undergone review and dispute for 45 days as per the final rule. CMS has confidence that we are accurately summarizing what has been reported.

Name of Applicable Manufacturer / Group Purchasing Organization Making Payment	Dollar Amounts				Number of Transactions				Number of Covered Recipients		
	General	Research	Investment	Interest	General	Research	Investment	Interest	Physicians	Teaching Hospitals	Non-Physician Practitioners
