# Executive Summary

The Community Services Block Grant (CSBG) is authorized by the Community Services Block Grant Act (CSBG Act), as amended<sup>42</sup> U.S.C. 9901 *et seq.* It is administered by the Office of Community Services (OCS), Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS).

The federal fiscal year (FFY) 2021 CSBG Report to Congress, which includes the CSBG Performance Measurement Report, is mandated by sections 678E(b)(2) and 678B(c) of the CSBG Act, 42 U.S.C. 9917(b)(2) and 9914(c). Both reports are required to be submitted together to the Senate Committee on Health, Education, Labor, and Pensions and the House Committee on Education and Labor by section 678B(c) of the CSBG Act.

FFY 2021 data for the CSBG Report to Congress was gathered by the state CSBG Annual Report submitted to OCS. The FFY 2018 is considered baseline data for Modules 2 – 4. In FFY 2021, the states, including the District of Columbia, American Samoa, and Puerto Rico, provided information about the level and uses of CSBG funds, their activities, and the number and characteristics of families and individuals participating in CSBG initiatives.<sup>1</sup> In addition, data were included on tribal uses of direct CSBG funds.

FFY 2021 represents the fourth year that all states submitted the full state CSBG Annual Report. FFY 2021 is also the year in which a global pandemic disrupted operations across the world. As such, this report will not include a trend analysis until more data has been collected in future years for comparison.

## The State CSBG Annual Report

The state CSBG Annual Report is the CSBG Network’s most recent comprehensive revision of CSBG data collection and reporting. OCS and the CSBG Network – composed of CSBG-eligible entities, state CSBG lead agencies, state Community Action Associations, national partners, and others – participated in a multi-year effort to update the state CSBG Annual Report to complement Results Oriented Management and Accountability (ROMA) Next Generation and support and complete the CSBG Performance Management Framework. This framework includes local, state, and federal standards and a national Community Action Theory of Change, in addition to the state CSBG Annual Report and ROMA Next Generation. The information in the state CSBG Annual Report is used at local, state, federal, and national levels to improve performance, track results from year to year, and maintain accountability for critical activities and outcomes at each level of the CSBG Network.

The state CSBG Annual Report builds upon the CSBG Network’s 57-year history of serving individuals, families, and communities across the United States. Analysis of current CSBG data

---

<sup>1</sup> The 50 states, along with the District of Columbia, American Samoa, and the Commonwealth of Puerto Rico, are henceforth referenced as “states” throughout this report (unless otherwise noted). Under the provisions of the CSBG Act, the District of Columbia and Puerto Rico are subject to requirements comparable to those of states, while the U.S. Virgin Islands, Guam, American Samoa, and Northern Mariana Islands may opt to apply for CSBG through the Consolidated Block Grant (CBG). All the aforementioned territories, with the exception of American Samoa, have consolidated their funding under the CBG structure.

collection and reporting, consultation from multiple working groups, two public comment periods,<sup>2</sup> and countless listening sessions and interactions with the CSBG Network have led to the final, OMB-approved state CSBG Annual Report. The state CSBG Annual Report underwent a second OMB approval process and received renewed clearance on February 28, 2020.<sup>3</sup>

CSBG-Information Memorandum (IM)-152<sup>4</sup> provides an outline of the four modules – Module 1: State Administration, Module 2: Agency Expenditures, Capacity and Resources, Module 3: Community-Level Indicators, and Module 4: Individual- and Family-Level Indicators.

Module 1 of the state CSBG Annual Report (which is focused on state administration) was the only data collected in the state CSBG Annual Report in FFY 2016 and FFY 2017. Modules 2-4 (which provide agency-level information on expenditures, services, and strategies), were collected for the first time in FFY 2018. FFY 2021 represents the fourth year Modules 1, 2, and 4 are reported to Congress in this Congressional Report. Module 3 information is not included in this report as not all grantees are required to collect this information.

Unless otherwise specified, data provided in this report span the period of only FFY 2021. The appendices of this report provide more extensive information on the FFY 2021 OCS State Assessments and data pertaining to CSBG uses of funds, services, and client characteristics reported from Modules 2-4 of the state CSBG Annual Report.

## CSBG Mission and Purpose

The CSBG mission is to aid states and local communities, working through a network of CSBG-eligible entities, in the reduction of poverty, the revitalization of low-income communities, and the empowerment of low-income families and individuals in rural and urban areas to become fully self-sufficient. CSBG is administered at the state level and distributed to CSBG-eligible entities which include community action agencies (CAAs), migrant and seasonal farmworker organizations, or other organizations designated by the states. In addition, state and federally recognized tribes may apply for direct federal funding under CSBG. State CSBG administrators coordinate with other federal, state, and local programs, improving efficiency, access, and results for low-income individuals and communities.

## FFY 2021 State CSBG Funding

In FFY 2021, Congress appropriated \$745 million for CSBG.<sup>5</sup> Of this amount, \$684.6 million was allocated to states, \$6.6 million was allocated to tribes, and \$34.8 million was allocated to U.S. territories (including Puerto Rico). In addition, approximately \$11.6 million was reserved for federal training and technical assistance expenditures.

<sup>3</sup> Proposed Information Collection Activity, Community Services Block Grant (CSBG) Annual Report (OMB No.: 0970-0492). October 2, 2019. <https://www.federalregister.gov/documents/2019/10/02/2019-21416/proposed-information-collection-activity-community-services-block-grant-csbg-annual-report-omb-no>

<sup>4</sup> CSBG-IM-152, *CSBG Annual Report*, <https://www.acf.hhs.gov/ocs/resource/csb-g-im-152-annual-report>.

<sup>5</sup> Public Law 116-260: <https://www.congress.gov/116/plaws/publ260/PLAW-116publ260.pdf>.

On March 27, 2020, Congress appropriated \$1 billion as a supplemental to CSBG under the Coronavirus Aid, Relief, and Economic Security (CARES) Act.<sup>6</sup> This supplemental is referred to as CSBG CARES. Of the CSBG CARES amount, \$881.8 million was allocated to states, \$7 million was allocated to tribes, and \$46.8 million was allocated to territories in FFY 2020. Under CSBG CARES, funds are intended to address the consequences of increased unemployment and economic disruption as a result of the COVID-19 pandemic and remain available for expenditure through September 30, 2022, for most grantees and through September 30, 2023, for 12 states affected by the “Minimum and Maximum Allotment” clause of the CSBG Act.<sup>7</sup> Under the provision of the CARES Act, CSBG grantees could increase income eligibility up to 200 percent (increased from 125 percent) of the federal poverty level (FPL) as the criterion of eligibility for programs and services.

Congress appropriated an additional \$25 million for CSBG in the Additional Supplemental Appropriations for Disaster Relief Act, 2019 (Public Law 116-20) to eligible states, territories, and tribes affected by the disasters in 2018 and 2019 with a Presidential declaration and will be referred to throughout this report as CSBG Disaster.<sup>8</sup> OCS released these funds in three stages.<sup>9</sup> Of this amount, \$14.6 million was released to 15 impacted states, and \$350,000 was released to one impacted territory in FFY 2020. The remainder of the funds were released in FFY 2021. CSBG Disaster funds were to address the consequences of Hurricanes Florence and Michael, Typhoon Mangkhut, Super Typhoon Yutu, wildfires, and earthquakes occurring in calendar year 2018, and tornados, and floods occurring in calendar year 2019. CSBG Disaster funds remain available to recipients for obligation through September 30, 2022.

This report provides a summary of all activities from the state CSBG Annual Report, which encompasses regular and supplemental funding for the duration that it was available for this FFY. A separate report detailing accomplishments and use of CARES and Disaster supplemental funds specifically will be provided in future years once all obligation, expenditure, and reporting deadlines have passed for the supplemental funding.

During FFY 2021, the CSBG Network focused on three immediate priorities: protecting the health and well-being of staff; making all CSBG and supplemental funding at federal and state levels available for use; and supporting a robust and flexible community response to urgent needs while ensuring continuity of programs and services. The COVID-19 pandemic brought unique challenges to the CSBG Network during FFY 2021, including: increased requests for emergency assistance, food distribution, housing-related payments, and distribution of personal protective equipment; difficulties in data collection on those assisted; and implementation of service model changes to keep staff and customers healthy while still being able to provide needed assistance. Efforts to address these challenges will continue through FFY 2023.

---

<sup>6</sup> Public Law 116-136: <https://www.congress.gov/116/plaws/publ136/PLAW-116publ136.pdf>

<sup>7</sup> CSBG-DCL-2020-20, *Minimum Allotment Provisions CARES Act Funding*, <https://www.acf.hhs.gov/ocs/policy-guidance/csbg-dcl-2020-20-minimum-allotment-provisions-cares-act-funding>.

<sup>8</sup> Public Law 116-20: <https://www.congress.gov/116/plaws/publ20/PLAW-116publ20.pdf>

<sup>9</sup> CSBG-IM-2020-156, *CSBG Disaster Relief Supplemental Funds*, <https://www.acf.hhs.gov/ocs/policy-guidance/csbg-im-2020-156-disaster-relief-supplemental-funds>.

During FFY 2021, states reported CSBG, CSBG CARES, and CSBG Disaster obligations totaling over \$767.4 million to CSBG-eligible entities. The remainder was allocated for state administrative expenses and discretionary funding or carried over into the respective fiscal year.<sup>10</sup>

Each state designates a state agency to act as the lead agency for the purposes of administering CSBG. State CSBG lead agencies are responsible for developing the state plan, conducting reviews of CSBG-eligible entities, and ensuring CSBG funds are directed toward the statutory purposes of CSBG. The CSBG Act requires that at least 90 percent of the funds that states receive be allocated to CSBG-eligible entities who administer CSBG at the community level.

The remaining funds may be used at the state's discretion for programs that help accomplish CSBG goals. Discretionary funds primarily are used for activities such as statewide initiatives, including research; information dissemination; coalition building; demonstration projects; training and technical assistance; geographic service expansion; volunteer mobilization; disaster relief; health care; and other activities.

## CSBG Performance Measurement

In 2011, the Government Performance and Results Act Modernization Act of 2010 (GPRAMA), Pub. L. 111-352, was implemented, setting new expectations for federal agencies and leaders to set clear and ambitious goals for a limited number of outcome-focused and management priorities; measure, analyze, and communicate performance information to identify successful practices to spread and problematic practices to prevent or correct; and frequently conduct in-depth performance reviews to drive progress on the priorities of CSBG-eligible entities.

Considering these changing performance management expectations in the public and private sectors, OCS moved forward with the implementation of a comprehensive CSBG Performance Management Framework focused on a model of continuous improvement. Implementing a comprehensive CSBG Performance Management Framework not only strengthens the CSBG Network to meet today's challenges but positions the CSBG Network for future growth and increased capabilities to achieve breakthrough outcomes.

As noted previously, CSBG-eligible entities submitted FFY 2021 data using the state CSBG Annual Report in full for the fourth time. As identified in the Community Action Theory of Change, which was presented to the CSBG Network in OCS' CSBG-Information Memorandum (IM)-152,<sup>11</sup> states and CSBG-eligible entities work to achieve three national performance goals:

- Goal 1: Individuals and families with low incomes are stable and achieve economic security.
- Goal 2: Communities where people live are healthy and offer economic opportunity.

---

<sup>10</sup> States and CSBG-eligible entities may expend CSBG funds during the fiscal year in which funds are appropriated and the subsequent fiscal year. For CARES, states and CSBG-eligible entities were allowed to expend funds for two subsequent years after receipt of funding.

<sup>11</sup> CSBG-IM-152, *CSBG Annual Report*, <https://www.acf.hhs.gov/ocs/resource/csbg-im-152-annual-report>.

Goal 3: People with low incomes are engaged and active in building opportunities in communities.

In FFY 2021, states continued collecting and reporting on the new set of National Performance Indicators (NPIs) in the state CSBG Annual Report that support the achievement of the three national goals. The new NPIs are organized by Community indicators (or CNPIs) and Family indicators (or FNPIs) within six core domains and one unique additional domain. Each domain includes its own set of NPIs.

Since this is only the fourth year of reporting under the state CSBG Annual Report for Modules 2-4, trend data will be reported in future years following the collection of additional years of data. The FFY 2018 data is considered baseline data.

## **FFY 2021 CSBG Highlights of Accomplishments and Performance Outcomes**

CSBG-eligible entities provide services using CSBG appropriations, including CARES and Disaster supplementals, and other funding sources. All states measured and reported on outcomes regarding individuals served and the impact on the community using the HHS Secretary's ROMA system or a local or state adaptation of the system as allowed in the CSBG Act. CSBG NPIs were used for reporting data on individual and community outcomes, as well as CSBG performance targets. A separate report on CARES and Disaster accomplishments will be provided in future years once funding is expended.

The following are a few examples of the people served, achievements, and services provided by these entities using CSBG and other funding sources during FFY 2021:<sup>12</sup>

- Over 8.9 million individuals were served by local CSBG-eligible entities.
- CSBG-eligible entities provided services to 813,171 families headed by single women.
- 1,234,055 individuals improved energy efficiency and/or energy burden reduction in their homes.
- 519,627 seniors (65+) maintained an independent living situation.
- 236,726 people with low incomes received services through Volunteer Income Tax Assistance (VITA), EITC, or Other Tax Preparation programs.
- 180,540 individuals obtained safe and affordable housing.
- 34,078 unemployed adults obtained employment (up to a living wage).
- 11,520 unemployed adults obtained employment (with a living wage or higher).
- 8,337 individuals obtained a high school diploma and/or obtained an equivalency certificate or diploma.

---

<sup>12</sup> States use various reporting periods for Modules 2-4: Some use the calendar year (January-December), some use the federal fiscal year (October-September), and some use a state fiscal year (July-June). Refer to Appendix B, Table B-2 for each state's reporting period. All states report on the federal fiscal year for Module 1.

- Volunteers provided nearly 20 million hours of support. If valued at the independent sector wage, which adjusts for skill levels of nonprofit volunteers, the volunteers' time was valued at approximately \$599 million.<sup>13</sup>
- CSBG-eligible entities partnered with nearly 188,000 entities, including faith-based organizations, school districts, for-profit businesses, or corporations, and many more to enhance service delivery to communities and individuals with low incomes.

## Federal Monitoring and Oversight

The CSBG Act requires the HHS Secretary to conduct annual fiscal year assessments of the use of funds received by the states. Accordingly, OCS conducts State Assessments (SAs) to examine the implementation, performance, compliance, and outcomes of a state's use of CSBG funding to certify that the state is adhering to the provisions of the CSBG Act, in accordance with section 678B of the CSBG Act, 42 U.S.C. 9914.

On April 13, 2020, OCS published CSBG-IM-157<sup>14</sup> issuing immediate guidance on the COVID-19 response for CSBG stakeholders. In December 2020, OCS piloted virtual SAs in two states. Given the lessons learned from the virtual State Assessments and the ongoing public health crisis caused by the Coronavirus, all CSBG SAs were conducted virtually for FY 2021. The selection of states to be monitored was based on several criteria, including risk-based issues. Examples of criteria include:

- OCS verified the frequency of previous monitoring visits and prioritized states that were never monitored.
- OCS considered any issues identified through routinely available program monitoring information, including any unresolved findings from prior monitoring.
- OCS considered CSBG funding allocation per state.
- OCS analyzed single-audit results as reported in accordance with MB single-audit requirements.

The SAs are tools for monitoring program integrity and for targeting CSBG discretionary training and technical assistance funds. They are a key component of ongoing program integrity and accountability efforts in CSBG. For example, the SAs demonstrated states generally conducted monitoring of the CSBG-eligible entities in accordance with the CSBG Act. In states where compliance issues were found, states were required to implement corrective action plans to address the findings. Appendix A of this report provides more extensive information on the FFY 2021 SAs.

---

<sup>13</sup> Research by the Independent Sector estimates that the average value of volunteer hours in 2021 was \$29.95—see Value of Volunteer Time (2021), <https://independentsector.org/resource/value-of-volunteer-time/>.

<sup>14</sup> CSBG-IM-157, *Immediate Guidance on COVID-19 Response*, <https://www.acf.hhs.gov/ocs/policy-guidance/csb-g-im-2020-157-immediate-guidance-covid-19-response>.

# Introduction

CSBG supports a nationwide network of local organizations whose purpose is to reduce the causes of poverty in the low-income communities they serve. To be eligible for CSBG funding, local CSBG-eligible entities must meet the following statutory requirements:

- Be governed by a unique tripartite board, a three-part community board consisting of one-third elected public officials and at least one-third representatives of the low-income community, with the balance drawn from leaders in the private sector including businesses, faith-based groups, and civic organizations.<sup>15</sup>
- Conduct periodic assessments of the needs of their communities and serve as a principal source of information about, and advocacy for, poverty-reduction actions.
- Maintain a performance-focused system for assessing and reporting the effectiveness of its anti-poverty strategy.
- Develop strategies for achieving the goals of increasing economic opportunity and security for their communities and residents with low incomes.
- Mobilize and coordinate resources and partnerships to achieve these goals.

CSBG is authorized by the CSBG Act, 42 U.S.C. 9901 *et seq.* It is administered by OCS, ACF, HHS.

This report complies with sections 678E(b)(2) and 678B(c) of the CSBG Act, 42 U.S.C. 9917(b)(2) and 9914(c). The CSBG Act requires that the HHS Secretary annually submit together to Congress the report required at section 678E(b)(2) on the CSBG statistical database (CSBG Annual Report) and the report at section 678B(c) on the results of fiscal year evaluations conducted in several states on the use of CSBG funds (CSBG State Assessments). In addition, section 678E(b)(2)(E) of the CSBG Act requires the Secretary to include in the annual report “a summary of each state’s performance results and the results for the CSBG CSBG-eligible entities, as collected and submitted by the states.” (42 U.S.C. 9917(b)(2)(E)). This report provides the information required for FFY 2021.

State CSBG lead agencies submitted the FFY 2021 data through the state CSBG Annual Report directly to OCS via ACF GrantSolutions.gov.<sup>16</sup> Through the state CSBG Annual Report, the states provided information about the level and uses of CSBG funds, their activities, and the number and characteristics of families and individuals participating in CSBG-supported activities. This is the fourth full submission of the state CSBG Annual Report. State CSBG lead agencies report on the state administration of CSBG via the State Administration Module (Module 1) of the state CSBG Annual Report. CSBG-eligible entities report agency expenditures, capacity and resources in the CSBG-eligible entities Expenditures, Capacity, and Resources Module (Module 2); community level impact in the Community Level Module (Module 3); and individual and family level impact in Individual- and Family-Level Module (Module 4) of the state CSBG Annual Report.

---

<sup>15</sup> This requirement is specific to private CSBG-eligible entities. Public CSBG-eligible entities must adhere to the requirements established in section 676B(b) of the CSBG Act.

<sup>16</sup> This website is available at <https://www.grantsolutions.gov>.

In addition, OCS conducted evaluations of state compliance among all states during the reporting period through a state-by-state survey and in-depth state assessments of the use of CSBG funds in select states. Unless otherwise specified, data provided span the period of FFY 2021 only.

Specifically, the CSBG Act requires HHS to report on the following topics, which are presented in this report:

- A summary of the planned uses of funds by each state and the CSBG-eligible entities in the state (state CSBG Annual Report, State Administration [Module 1]).
- A description of how funds were spent by the state and CSBG-eligible entities, including a breakdown of funds spent on:
  - administrative costs, and
  - delivery of local services and strategies by CSBG-eligible entities (state CSBG Annual Report, all Modules).
- Information on the number of entities eligible for funds, including:
  - the number of low-income people served, and
  - demographic data on low-income populations served by CSBG-eligible entities (state CSBG Annual Report, State Administration [Module 1] and CSBG-eligible entities Expenditures, Capacity, and Resources Module [Module 2]).
- A comparison of the planned and actual uses of the funds by each state (state CSBG Annual Report, State Administration [Module 1]).
- A summary describing training and technical assistance offered by the state to help correct deficiencies during the year covered by the report (state CSBG Annual Report, State Administration [Module 1]).
- A summary of states' performance outcomes of community action as collected and submitted by the states (state CSBG Annual Report, Community Level [Module 3] and Individual and Family Level [Module 4]).
- Results of fiscal year evaluations conducted in several states on the use of CSBG funds (state assessments).

# Definitions

These definitions are drawn from the CSBG Act, IMs issued by OCS, and published works by the National Association for State Community Services Programs (NASCSPP) — a CSBG national training and technical assistance provider. These definitions remain standard and consistent across all programs, entities, and publications as related to CSBG. This section is meant to provide definitions for common terms and acronyms within the CSBG Network.

## Administrative Costs

Administrative costs are equivalent to typical indirect costs or overhead. As distinguished from program administration or management expenditures that qualify as direct costs, administrative costs refer to central executive functions that do not directly support a specific project or service. Incurred for common objectives that benefit multiple programs administered by the grantee organization or the organization, administrative costs are not readily assignable to a particular program funding stream.

OCS' CSBG-IM-37<sup>17</sup> guides the CSBG state administrators and CSBG-eligible entities in their classification of administrative and direct costs.

## Community Action Agencies (CAAs)

CAAs, which are a subset of CSBG Eligible Entities defined below, are local, private, non-profit, and public organizations that carry out the Community Action mission, which was originally outlined and supported through the 1964 Economic Opportunity Act. All CAAs work “to stimulate a better focusing of all available local, state, private, and federal resources upon the goal of enabling low-income families, and low-income individuals of all ages, in rural and urban areas, to attain the skills, knowledge, and motivation to secure the opportunities needed for them to become self-sufficient.”<sup>18</sup> Each CAA focuses its poverty reduction efforts on a specific community.

## Community Services Block Grant (CSBG)

CSBG provides federal funds to states, territories, and tribes for distribution to agencies to support a wide range of community-based activities to reduce poverty. CSBG is authorized by the CSBG Act, as amended, 42 U.S.C. 9901 *et seq.* CSBG funds are allocated to the states and other jurisdictions (including the District of Columbia, the Commonwealth of Puerto Rico, tribes, and territories) based on a statutory formula.

---

<sup>17</sup> CSBG-IM-37, *Definition and Allowability of Direct and Administrative Cost Block Appropriation and Allocations*, <https://www.acf.hhs.gov/ocs/policy-guidance/csbg-im-37-definition-and-allowability-direct-and-administrative-cost-block>.

<sup>18</sup> OEO Instruction 6320-1 is available at [OEO Instruction 6320-1](#)

## CSBG-Eligible Entities

The CSBG Act requires states to allocate block grant funds to “designated” local agencies, defined as “eligible entities”, which, in addition to CAAs, includes limited purpose agencies, migrant and/or seasonal farmworker organizations, local government agencies, and tribes and tribal organizations. Each CSBG-eligible entity is governed by a tripartite board composed of representatives of the low-income neighborhoods being served, elected local officials, and key community resources, such as business and commerce, faith-based organizations, other service providers, and community groups. The CSBG Act requires that not less than 90 percent of state block grant funds be allocated to local CSBG-eligible entities. 42 USC 9907(a)(1). Section 673(1)(A) of the CSBG Act provides a definition of an eligible entity.

## CSBG Network

CSBG supports a state-administered, nationwide network of local organizations whose purpose is to reduce the causes of poverty in the low-income communities they serve. The CSBG Network includes OCS, state CSBG lead agencies, local CSBG-eligible entities, state Community Action Associations, national associations, and related organizations that collaborate and participate with CSBG-eligible entities in their efforts on behalf of people with low incomes.

## Direct Program Costs

Direct program costs can be identified with delivery of a particular project, service, or activity intended to achieve an objective of the grant. Direct program costs are incurred for the service delivery and management components within a particular program or project.

OCS’ CSBG-IM-37<sup>19</sup> guides the state CSBG lead agencies and CSBG-eligible entities in their classification of administrative and direct costs.

## Discretionary Projects

Statewide discretionary projects can include statewide capacity building programs, such as programs that address a particular need and involve state-level planning, research, or training and technical assistance to CSBG-eligible entities, as well as competitive or demonstration programs to eliminate one or more causes of poverty. Funds also may be expended for a broad range of programs run by CSBG-eligible entities and other organizations to address needs identified by state agencies.

## National Performance Indicators (NPIs)

---

<sup>19</sup> CSBG-IM-37, *Definition and Allowability of Direct and Administrative Cost Block Appropriation and Allocations*, <https://www.acf.hhs.gov/ocs/policy-guidance/csbg-im-37-definition-and-allowability-direct-and-administrative-cost-block>.

The NPIs are related to CSBG's three national goals stemming from the purpose and goals of the CSBG Act and as outlined in the CSBG Performance Management Framework and the Community Action National Theory of Change:<sup>20</sup>

- Goal 1: Individuals and families with low incomes are stable and achieve economic security.
- Goal 2: Communities where people live are healthy and offer economic opportunity.
- Goal 3: People with low incomes are engaged and active in building opportunities in communities.

The NPIs are a collection of measures that demonstrate success or incremental progress toward achieving each of these larger goals and provide a common set of measurement tools to report the most universal and significant results across the CSBG Network among states and CAAs. Over the years, the Network has enhanced this list of NPIs to improve performance. The CSBG Annual Report NPIs related to the three national performance goals cover outcomes in the following domains:

- Employment
- Education and Cognitive Development
- Income, Infrastructure, and Asset Building
- Housing
- Health and Social/Behavioral Development
- Civic Engagement and Community Involvement

No CSBG-eligible entity reports on all the NPIs; but rather, each local CSBG-eligible entity selects the NPIs that align with the outcomes they have selected based on the needs of their community and included in their CSBG Community Action Plan.

## **Results-Oriented Management and Accountability (ROMA)**

In 1993, the Government Performance and Results Act (GPRA), Pub. L. 103-62 was enacted to improve performance management across the federal government. To address this emphasis on performance management, the CSBG Network developed the Monitoring and Assessment Task Force — a team of federal, state, and local community action officials. In 1994, the task force developed ROMA, a performance-based initiative designed to preserve the anti-poverty focus of community action and to promote greater effectiveness among state and local agencies receiving CSBG funds. ROMA is a management and evaluation strategy that measures and reports the performance outcomes of CSBG-eligible entities' work toward promoting self-sufficiency, family stability, and community revitalization. In 1998, the CSBG reauthorization required CSBG-eligible entities to implement ROMA or an alternative system for measuring performance and results.

---

<sup>20</sup> The National Theory of Change is available here: <https://nascsp.org/csbg/csbg-resources/theory-of-change/#:~:text=National%20Theory%20of%20Change%20%E2%80%93%20The,Community%20Action%20across%20the%20nation.>

In 2011, the GPRA Modernization Act of 2010 (GPRAMA), Pub. L. 111-352, was implemented and set new expectations for federal agencies to set outcome-focused goals and management priorities and to place a greater emphasis on measuring, analyzing, and communicating performance. In response to this new performance effort, OCS implemented a comprehensive CSBG Performance Management Framework to strengthen the CSBG Network.

The framework includes the four following elements: Organizational standards for local CSBG-eligible entities, accountability measures for states and OCS, a state CSBG Annual Report that includes a refined standard set of outcome measures, and ROMA Next Generation.

In the new era of ROMA, expressed through ROMA Next Generation, basic ROMA principles have not changed, but a greater emphasis on continuous quality improvement along with data evaluation and analysis has been placed on the Network.

## State CSBG Annual Report

An OMB-approved report that includes the following four modules: Module 1: State Administration, Module 2: Agency Expenditures, Capacity and Resources, Module 3: Community-Level Indicators, and Module 4: Individual- and Family-Level Indicators. CSBG state lead agencies collect data from CSBG-eligible entities for Modules 2-4, prior to submitting the Report to OCS.

The state CSBG Annual Report meets the requirement specified in section 678E of the CSBG Act. More information about the CSBG Annual Report is available in CSBG-IM-152.<sup>21</sup>

## The FFY 2021 CSBG Network

CSBG funds are used to address the causes and reduce the conditions of poverty in low-income communities through a nationwide network referred to as the CSBG Network. As referenced in the national Community Action Theory of Change, the CSBG Network includes OCS (federal), the state through which CSBG is administered (state CSBG lead agencies), state associations, the Regional Performance and Innovation Consortiums (RPICs), local CSBG-eligible entities, tribes and tribal organizations, and training and technical assistance (T/TA) providers – referred to as national T/TA partners – NASCSP, National Community Action Partnership (NCAP), Community Action Program Legal Services, Inc. (CAPLAW), the Association of Certified ROMA Trainers (ANCRT), and the National Community Action Foundation (NCAF).

CSBG-eligible entities are funded by state CSBG lead agencies and carry out their missions by creating, coordinating, and delivering a broad array of programs, initiatives, and services to their communities. According to State Administration Module (Module 1) of the state CSBG Annual Report, in FFY 2021, 1,016 CSBG-eligible entities<sup>22</sup> provided services across the United States to low-income families, individuals, and vulnerable communities. The term “CSBG-eligible entity” is used to refer to all local organizations within the CSBG Network. Table 1 shows the number of CSBG-funded CSBG-eligible entities, by type, in the nation. State-specific details can be found in Appendix B.

**Table 1:** CSBG-eligible entities by Type

Category of CSBG-Eligible Entity	Number of Entities Reported	Number of States*
Community Action Agencies (CAAs)	911	53
Limited Purpose Agencies	9	8
Migrant and/or Seasonal Farmworker Organizations	11	8
Local Government Agencies**	70	11
Tribes and Tribal Organizations***	14	3
Other	1	1
<b>Total</b>	<b>1,016</b>	

\*Include 50 states, District of Columbia, American Samoa, and Puerto Rico

\*\* Some eligible entities are both local government agencies *and* CAAs, these are included in the local government agency category.

\*\*\*These are tribes and tribal organizations funded by states and does not include tribes and tribal organizations funded directly by OCS.

---

<sup>22</sup> American Samoa was not included in previous CSBG Reports to Congress, as they reported as part of the Consolidated Block Grant (CBG).

## State Use of CSBG Funds

In FFY 2021, Congress appropriated \$745 million for CSBG.<sup>23</sup> Of this amount, \$684.6 million was allocated to states, \$6.6 million was allocated to tribes, and \$34.8 million was allocated to U.S. territories (including Puerto Rico).<sup>24 25</sup> In addition, approximately \$11.6 million was reserved for federal training and technical assistance expenditures.<sup>26</sup>

In FFY 2020, Congress also appropriated two supplementals to CSBG – \$1 billion as a supplemental to CSBG under the Coronavirus Aid, Relief, and Economic Security (CARES) Act,<sup>27</sup> and an additional \$25 million in the Additional Supplemental Appropriations for Disaster Relief Act, 2019<sup>28</sup> to eligible states, territories, and tribes affected by disasters in 2018 and 2019.

During FFY 2021, states reported all usage of funds and activities for all CSBG funding – including the CARES and Disaster Supplementals – as an aggregate within their state CSBG Annual Report.<sup>29</sup> States reported obligations totaling over \$832.4 million,<sup>30</sup> of which 92.2 percent (approximately \$767.4 million) was obligated to CSBG-eligible entities. The remainder was allocated for state administrative expenses and discretionary funding. Approximately \$134 million was retained by the grant recipient for use in the next FFY. Table 2 provides a breakdown of funding obligated contractually by the states.

**Table 2: Federal CSBG Funds Obligated by State**

Use of Funds	Amount Obligated*	Number of States	Percentage of Funding Obligated
Grants to CSBG-eligible entities	\$767,374,633	53	92.2%
State Administrative Costs	\$29,468,291	52	3.5%
Discretionary Funding	\$35,589,374	46	4.3%
<b>Total Obligated in FFY 2021 *</b>	<b>\$832,432,298</b>	<b>53</b>	<b>100%</b>
Carried Forward to FFY 2022	\$133,896,100	43	N/A

\*Obligated funding may differ from allocated funding based on carryover and other state variances.

<sup>23</sup> Public Law 116-260: <https://www.congress.gov/116/plaws/publ260/PLAW-116publ260.pdf>.

<sup>24</sup> CSBG-DCL-2021-09, *Release of FY 2021 Funds*, <https://www.acf.hhs.gov/ocs/policy-guidance/csbg-dcl-2021-09-release-fy-2021-funds>.

<sup>25</sup> In addition to the funds discussed in this report, the CSBG Act authorizes community economic development and rural community development grants. These funds, which are authorized in section 680 of the CSBG Act, 42 U.S.C. 9921 are administered separately from the block grant. OCS produces a separate report on community economic development and rural community development grants.

<sup>26</sup> Of funds appropriated annually under the CSBG Act, HHS is required to reserve 1.5 percent for training, technical assistance, and other activities such as planning, evaluation, performance activities and monitoring, and reporting and data collection activities.

<sup>27</sup> Public Law 116-136: <https://www.congress.gov/116/plaws/publ136/PLAW-116publ136.pdf>.

<sup>28</sup> Public Law 116-20: <https://www.congress.gov/116/plaws/publ20/PLAW-116publ20.pdf>.

<sup>29</sup> States and CSBG-eligible entities also provided simplified reports for the usage of the CARES and Disaster Supplementals – OCS will provide a final report once all funds have been expended in FFY 2023 and FFY 2022, respectively.

<sup>30</sup> This is total obligations which includes state administrative, discretionary, and the 90 percent funds for all CSBG funding, including CARES and Disaster, and is inclusive of carryover CSBG funds from the previous year.

Each state receives a yearly CSBG allocation, but, by statute, may obligate funds in the fiscal year of award or in the following year. Therefore, the total amount of CSBG funding to which each state has access on a yearly basis includes a yearly allocation, plus carryover from the previous year, and minus any funding the state decides to carry forward into the second-year period.

Additionally, each state operates based on a state fiscal year, which may or may not align with the FFY. These factors combine to create a funding environment in which allocations, obligations, and expenditures are unlikely to match precisely. State fiscal years, additional sources of federal, state, local, and private funding, and additional state-wide breakdowns of funding can be found in Appendix B.

Per the statute, the state is mandated to allocate 90 percent of its yearly allocation to local CSBG-eligible entities. Additionally, the state may reserve up to 5 percent of the annual allocation for state administrative expenses and the remainder for discretionary funding at the state level, which may go to a CSBG-eligible entity. Each CSBG-eligible entity, therefore, has CSBG funding that may have been carried over from the previous year, the current state allocation, and any discretionary funding, as well as other federal, state, local, and private sources of funding, which also vary by year.

## Grants to CSBG-Eligible Entities

The CSBG statute requires that no less than 90 percent of the state block grant be allocated to local CSBG-eligible entities. As shown in Table 2, states obligated \$767.4 million, or 92.2 percent, to the 1,016 CSBG-eligible entities. These funds supported direct services to low-income individuals and communities, as well as the management, infrastructure, and operations of the CSBG-eligible entities. These local agencies coordinate multiple programs, fill gaps in services, manage systems to avoid duplication, and improve the continuity of services and activities for participants. CSBG-funded staff was also assigned to build local partnerships for reducing poverty. In addition, CSBG covered indirect expenses associated with the space, equipment, materials, and services needed for the CSBG-eligible entities to work effectively.

## State Administrative Costs

No state may spend more than 5 percent<sup>31</sup> of the block grant for state administrative costs. This administrative allotment provides states with the resources necessary to maintain strong oversight of CSBG through fiscal reporting, data collection and analysis, and ongoing assessments of CSBG-eligible entities. It also helps states coordinate and establish linkages between and among governmental and other social services programs to ensure the delivery of services to low-income people and avoid duplication of services. As Table 2 shows, states collectively used 3.5 percent for their administrative expenditures.

---

<sup>31</sup> Section 675C(b)(2) of the CSBG Act, 42 U.S.C. 9907(b)(2), specifies that “No State may spend more than the greater of \$55,000, or 5 percent,” of the grant received for administrative expenses, including monitoring activities. Under current minimum allotments all states exceed the \$55,000 allowable threshold.

The block grant funded all or part of 607 state positions and 236.5 full-time equivalent (FTE) state employees. Just as the local agencies administer several federal and state programs in conjunction with CSBG, so do the state CSBG lead agencies – predominantly Low Income Home Energy Assistance Program (LIHEAP), Weatherization Assistance Program (WAP), U.S. Department of Agriculture (USDA), and U.S. Department of Housing and Urban Development (HUD) grants. Altogether, state CSBG offices administered an average of six federal grants per state, in addition to CSBG.

CSBG state administrators are housed in a variety of administrative locations, most often in a state's Social Services and/or Human Services Department or the state's Community Affairs, Community Services, or Community Economic Development Department. A few state CSBG lead agencies are housed in departments related to health or labor, and still others are in a state's executive office. State-specific details showing the administrative locations CSBG state administrators are available in Appendix B.

## Discretionary Projects

The remaining funds may be used at the state's discretion for programs that help accomplish the statutory purposes of the block grant. Discretionary project funding by 46 states accounted for 4.3 percent of CSBG expenditures, or \$35.6 million. These expenditures included:

- Statewide initiatives, such as programs that address a particular need and involve state-level planning, analysis of distribution of CSBG funds, research, information dissemination, coalition building, and/or intra-state coordination.
- Grants awarded to CSBG-eligible entities through a process that supports exemplary innovative, competitive, or demonstration programs designed to eliminate one or more causes of poverty.
- Support to state Community Action Associations to provide training and technical assistance to the CSBG Network.
- State ROMA, data, or planning collaboratives.
- Training and technical assistance to local CSBG-eligible entities.
- Expansion to new geographic areas.

Funding information for state-level initiatives funded by discretionary grants can be found in Appendix B.

# CSBG-Eligible Entities Accomplishments

## Nationwide Resources

In FFY 2021, CSBG-eligible entities administered financial resources totaling over \$18.2 billion, including \$1.3 billion for regular and supplemental CSBG, as detailed in Appendix B. Although CSBG is a small percentage of the total resources managed by CSBG-eligible entities, as CSBG-eligible entities receive funding from federal, local, state, and private sources, CSBG's flexibility allows them to fund staff, infrastructure, innovative programs, community initiatives, and other capacity building activities not supported by other resources. While federal programs, predominantly those of HHS, provided over seventy percent of non-CSBG funding allocations, private partners contributed nearly \$1.7 billion. Additionally, volunteers contributed an additional \$144.6 million in value, bringing total resources provided to approximately \$18.4 billion.<sup>32</sup>

Table 3 shows all allocated resource amounts, as well as the leveraging ratio as compared to CSBG. State-specific details, including federal, state, private, and local allocations, are available in Appendix B.

**Table 3: Resources by Funding Source as Compared to CSBG**

Funding Sources	Allocation	Leveraging Ratio Per \$1 of CSBG*
<b>CSBG<sup>33</sup></b>	\$1,253,788,708	\$1.00**
Other Federal Programs <sup>34</sup>	\$12,232,563,657	\$9.76
Non-Federal Sources	\$4,944,662,148	\$3.94***
<i>State Sources</i>	<i>\$2,023,820,719</i>	<i>\$1.61</i>
<i>Local Sources</i>	<i>\$1,077,147,468</i>	<i>\$0.86</i>
<i>Private Sources</i>	<i>\$1,699,061,700</i>	<i>\$1.35</i>
<i>Value of Volunteer Hours</i>	<i>\$144,632,261</i>	<i>\$0.12</i>
<b>Total Leveraging Ratio</b>		<b>\$13.70</b>

\*Calculated by dividing the funding source allocation by the CSBG allocation.

\*\*This amount not included in leveraging totals below.

\*\*\*Includes value of state, local, and private sources as well as volunteer hours.

<sup>32</sup> The value of volunteer hours can be estimated using the 2021 federal minimum wage of \$7.25 an hour. Calculated in this way, the 19.9 million volunteer hours recorded by agencies in FFY 2021, valued at \$144.6 million, brought the CSBG Network's non-federal resources to \$4.9 billion. This is a conservative estimate, however, to value donations of time and skill at the minimum wage. CSBG-eligible entities organize help offered by medical professionals, CPAs, attorneys, teachers, retired executives, printers, and builders, as well as homemakers and low-wage workers in the community. Research by the Independent Sector estimates that the average value of volunteer hours in 2021 was \$29.95 — see Value of Volunteer Time (2021), <https://independentsector.org/wp-content/uploads/2022/07/Value-of-Volunteer-Time-by-State-2001-2021.pdf>. Using this more realistic figure would mean that CSBG-eligible entities received volunteer support worth \$597.5 million.

<sup>33</sup> CSBG allocations as reported by CSBG-eligible entities may include funds received from the state during the fiscal year or obligated to the eligible entity in the previous fiscal year.

<sup>34</sup> These federal programs are listed under Appendix B and include Weatherization, LIHEAP, and Head Start, among others.

A major function of staff funded by CSBG is developing resources to meet community needs. The high leveraging ratio reflects CSBG-eligible entities' progress towards this goal. CSBG-eligible entities develop partnerships to offer opportunities for private donors, businesses, and volunteers to donate their resources or time to improve the lives of families in their communities. They also generate federal, state, and local government support by obtaining contracts, grants, and partnership agreements. The total financial resources of a given year can reflect the organization's resource development work of the previous fiscal years.

Altogether, based on reporting from CSBG-eligible entities, the allocated non-federal sources of funds matched local CSBG dollars by a ratio of \$3.82 to every dollar of CSBG. If the value of volunteer hours is included, the ratio of the leveraged non-federal resources to each CSBG dollar increases to \$3.94. In FFY 2021, the "leveraging" ratio of CSBG to non-federal funding demonstrates the efficacy and targeted focus of CAAs to strengthen local, state, and private partnerships for maximum impact. Figure 1 shows the non-federal resources leveraged by CSBG funds for FFY 2021 as well as the leveraging trends since 2014.

In FFY 2021, the leveraging ratio decreased from previous years because additional CSBG supplemental funding increased the proportion of CSBG to other funding sources, and volunteer hours decreased due to the pandemic.

**Figure 1: Non-Federal Leveraging per CSBG Dollar (\$1.00) in FFY 2021**

## The CSBG-Eligible Entity Approach

CSBG-eligible entities typically draw upon resources from many limited-purpose programs to support individual participants and families striving to increase their economic security. CSBG-eligible entities' programs can fill gaps in community supports or coordinate existing facilities and services. CSBG-eligible entities conduct a local community needs assessment that guides the initiatives and programs they implement in their communities. CSBG-eligible entities also

mobilize initiatives that benefit entire communities, such as effective responses to predatory lending, or addressing a societal need. Typically, CSBG-eligible entities must develop the investment partnerships or coalitions that support community improvement. The staff, facilities, and equipment needed for this work often are supported by CSBG. The block grant funding permits CSBG-eligible entities to coordinate national and state programs to meet local needs. Although most CSBG-eligible entities manage multiple programs that are classified by the population served (such as the Special Supplemental Nutrition Program for Women, Infants, and Children [WIC]; Crime Victims Assistance Program; or Emergency Services to the Homeless), CSBG-eligible entity projects are classified by the causes and conditions causing poverty that the CSBG statute identifies as major barriers to economic security.

Figure 2 shows how CSBG-eligible entities expended CSBG funds among these categories.<sup>35</sup> A project in any one category might further multiple CSBG-eligible entity goals, and many projects fall into more than one of these categories. To ensure unduplicated figures, funds are reported only under the primary category. The expenditures include agencies' CSBG funds – including CARES and Disaster supplemental funds – and any discretionary funds, as well as any funds carried forward from the previous year and expended during the reporting period. States and CSBG-eligible entities vary in their methods for recording expenditures.

**Figure 2: Local Agency Uses of CSBG Funds Expended in FFY 2021\***

\*The \$946 million spent on direct delivery of local services, supports, and activities represents all CSBG funds expended by CSBG-eligible entities during FFY 2021, including carryover from the previous year. Due to rounding, the total percentage may not equal 100 percent. Full CSBG expenditure amounts by category can be found in Appendix B.

<sup>35</sup> While CSBG-eligible entities may have expended funds prior to the end of the reporting period, they may not have requested reimbursement from the state within the timeframe. Agency funding may also include carryover and carry-forward funding. These factors cause a variation between states' and CSBG-eligible entities' reported CSBG expenditures.

## CSBG-Eligible Entities Expenditures by Domain

Detailed in Appendix B and summarized below is a breakdown of CSBG-eligible entities' spending by NPI domain. CSBG expenditures were mostly spent in services supporting multiple domains (17 percent) and housing (25 percent). The expenditures listed below reflect expenditures as reported in the state CSBG Annual Report, which encompasses all regular and supplemental activities. Uses of CSBG funds are reflected in the data tables contained in this report.

Starting in March 2020, states and CSBG-eligible entities quickly responded to the health and economic crisis brought on by COVID-19. Throughout FFY 2021, states and CSBG-eligible entities continued to engage in rapid response to quickly changing local needs. These pivots required agencies to rethink delivery of many existing programs, pause other services, and create new services and supports. Additional detail about the services supported with CARES and Disaster Supplemental funding specifically will be provided when the grant award period is complete.

### Employment

In FFY 2021, states reported spending approximately \$82.3 million in CSBG funds to support a range of services and strategies designed to assist low-income individuals and communities in obtaining and maintaining employment. These strategies and services include:

- Creation of jobs (including those that offer a living wage) in the community.
- Job search assistance, including coaching, resume development, interview skills training, job referrals, pre-employment physicals, background checks, etc.
- Job development and placement, including finding employers willing to recruit through the agency, facilitating interviews, providing counseling to employees through workshops, and coaching.
- Job retention, including counseling, training, and supportive services, such as the purchase of uniforms, work clothing, or other employment supplies.
- On-the-job training and other opportunities for work.
- Vocational training for high school students and the creation of internships and summer work placements.
- Specialized adult employment training.

### Education and Cognitive Development

In FFY 2021, states reported spending approximately \$116.6 million in CSBG funds to support educational and cognitive outcomes. These strategies and services include:

- Developing new education programs in the community.
- Scholarships for post-secondary education.
- Financial assistance for education expenses such as applications, textbooks, computers, and other needed supplies.

- Providing adult education, including courses in English as a Second Language (ESL) and General Educational Development (GED) preparation with flexible scheduling for working students, and shifting to virtual modes of service delivery.
- Applied Technology courses to help train participants for the modern-day workforce.
- Creating childhood learning opportunities (such as preparing children to enter kindergarten).
- Supplemental support to improve or enhance the quality of Head Start programs for parents or children.
- Before and after school activities, summer education programs, and supports such as school supplies to help children learn.
- Guidance about adult education opportunities in the community.
- Programs to enhance academic achievement of students in grades K–12, while combating drug or alcohol use and preventing violence.

## **Income, Infrastructure, and Asset Building**

In FFY 2021, states reported spending approximately \$36.8 million in CSBG funds on income management, infrastructure, and asset-building initiatives and services. These strategies and services include:

- Additions of needed VITA sites to communities.
- Added banking opportunities.
- Development of household assets, including savings.
- Information, learning, coaching, and counseling to increase financial capabilities, and financial literacy, including budgeting techniques.
- Consumer credit counseling.
- Business development support.
- Homeownership assistance and foreclosure prevention.
- Tax counseling and tax preparation assistance.
- Benefit coordination connecting families to Temporary Assistance for Needy Families (TANF), Supplemental Nutrition Assistance Program (SNAP), and other benefits.
- Direct cash assistance to offset loss of employment income as a result of COVID-19.

## **Housing**

In FFY 2021, states reported spending approximately \$234.8 million in CSBG funds for housing programs to improve the living environment of low-income individuals and families. These strategies and services include:

- Affordable housing development and construction.
- Repairing and rehabilitating dilapidated housing stock.
- Making homes where people with low incomes live more energy efficient and safe.
- Assistance in securing affordable housing through rental assistance, subsidies, deposits and other housing assistance.

- Homeownership counseling and loan assistance.
- Counseling, education, and advocacy about landlord/tenant relations and fair housing concerns.
- Temporary and emergency housing solutions and eviction prevention.
- Transitional shelters and services for the homeless.
- Permanent housing placements.
- Utility assistance including heating, cooling, and water financial support.

## **Health and Social/Behavioral Development**

In FFY 2021, states reported spending approximately \$125.4 million in CSBG funds on health initiatives that are designed to identify and combat a variety of health problems in the communities served. CSBG funds may be used to address gaps in the care and coverage available in the community. These strategies and services include:

- Assistance with paying for prescriptions and doctor visit payments.
- Prenatal care, maternal health, and infant and child health screenings.
- Provision of immunizations and vaccinations.
- Periodic screening for serious health problems, including HIV infection, and mental health disorders.
- Health-related information for all ages, including Medicare/Medicaid enrollment and other outreach and enrollment for greater health care access.
- Other health and behavioral health services, including dental care, counseling, substance abuse treatment, and education about wellness, obesity, and first aid.
- Transportation to health care facilities and medical appointments.
- Opening and operating food banks.
- Assisting food banks of faith-based and civic organization partners with food supplies and/or management support.
- Counseling regarding family and children's nutrition and food preparation.
- Distributing surplus USDA commodities and other food supplies.
- Administering WIC nutrition program.
- Preparing and delivering meals, especially to the homebound elderly.
- Providing meals in group settings.
- Providing services, supports, and education related to domestic violence.
- Initiating self-help projects, such as community gardens, community canneries, and food buying groups.
- Distribution of personal protective equipment.
- Support and delivery of COVID-19 testing and contact tracing.

## **Civic Engagement and Community Involvement**

In FFY 2021, states reported spending approximately \$23.4 million in CSBG funds on civic engagement and community involvement initiatives. Services and strategies supported include:

- Increasing resources to support the CSBG-eligible entity's efforts to address conditions of poverty.
- Increasing the number of people with low incomes who support the CSBG-eligible entity's approaches to addressing poverty and obtain leadership roles within the entity or another organization.
- Leadership training.
- Tri-partite board membership.
- Citizenship classes.
- Getting Ahead classes.
- Volunteer training.

## Services Supporting Multiple Domains

In FFY 2021, states reported spending over \$164.7 million in CSBG funds for services that supported multiple domains to improve the lives of individuals and families with low incomes. Services and strategies supported include:

- Transportation development.
- Case management or coaching that addresses multiple areas such as employment, education, and housing.
- Outreach, navigation, and referral activities designed as comprehensive or to serve as an integrated customer driven approach.
- Transportation services (e.g., bus passes, bus transport, support for auto purchase or repair, including emergency services).
- Childcare subsidies and payments.
- Eldercare.
- Adult day care centers.
- Assistance with identification documents such as birth certificates, Social Security cards, and driver's licenses.
- Criminal record expungement.
- Immigration support services (relocation, food, clothing).
- Legal assistance (includes emergency legal assistance).
- Emergency clothing assistance.
- Mediation/customer advocacy interventions (debt forgiveness, negotiations, or issues with landlords, or coordinating with other services or government).

## Participants of CSBG-Eligible Entity Programs

In FFY 2021, CSBG-eligible entities in every state reported information about the participants in their programs and projects. Over 8.9 million individuals and 4.5 million households<sup>36</sup> participated in CSBG-eligible entity services and strategies. The CSBG Network serves a diverse group of people with low incomes who live in a wide variety of communities, with the most common demographics being white, female, and between the ages of 25 and 44. Participants predominantly had incomes below 100 percent of the Federal Poverty Guidelines (FPG).

The 8.9 million individuals served by CSBG-eligible entities represent nearly 24 percent of the 37.9 million Americans in poverty according to census data.<sup>37</sup> According to the U.S. Census American Community Survey data, 15.4 percent of the U.S. population had incomes below 125 percent of the poverty threshold and 5.5 percent had an income below 50 percent of the poverty threshold.

Out of the approximately 3.5 million households reporting their poverty status to CSBG-eligible entities, over 2.4 million households, or 68.4 percent, were at or below the FPG (\$26,500 for a family of four). Nearly 1.3 million households, 36.7 percent, were “severely poor,” with incomes at or below 50 percent of the FPG, or below \$13,250 for a family of four.<sup>38</sup> Figure 3 shows the proportion of families with incomes at or below percentages of the FPG.

**Figure 3: Poverty Status of FFY 2021 CSBG-Eligible Entity Program Participant Households<sup>39</sup>**

<sup>36</sup> The data presented throughout this section represents unduplicated counts of CSBG-eligible entity participants. Data collection related to participant demographics are reported using the units of individual and households, but for ease of reading and simplicity throughout this report, households may sometimes be referred to as “families.”

<sup>37</sup> Creamer, Burns, and Chen, “Income and Poverty in the United States: 2021,” September 2022, <https://www.census.gov/content/dam/Census/library/publications/2022/demo/p60-277.pdf>.

<sup>38</sup> “Poverty Guidelines, 48 Contiguous States” [https://aspe.hhs.gov/sites/default/files/private/aspe-files/107166/2021-percentage-poverty-tool\\_0.pdf](https://aspe.hhs.gov/sites/default/files/private/aspe-files/107166/2021-percentage-poverty-tool_0.pdf).

<sup>39</sup> Includes income levels reported for all CSBG-eligible entity program participants, including individuals and families/households served with funds leveraged from other federal, state, and local funding sources. Income eligibility limits for other funding sources may differ from the CSBG income eligibility limit of 125 percent of the federal poverty guideline set for CSBG. Furthermore, the CARES Act allowed income eligibility to be increased to 200 percent for CSBG CARES funding. Due to rounding, the total percentage may not equal 100 percent.

## Income Sources

Families may report all sources of income, not just the primary source, to CSBG-eligible entities. Of the households reporting income information, 341,184, or 10 percent, of those households reported zero income. While most families report having a source of income, the number of families with no income underscores the continuous challenges that families with low-incomes face in making ends meet. Families with low incomes experience significantly greater instability in their monthly incomes than families with high incomes. Income can come from a combination of wages, government assistance,<sup>40</sup> social security, pension, and other resources. The following statistics outline key income trends of families in the CSBG Network who reported sources of income.

- Over 37 percent of participant families who reported one or more sources of income indicated that some or all their income came from employment.
- 509,986 participant households relied solely on their wages for income.
- CSBG-eligible entities served 658,283 households living on retirement income from Social Security and 111,233 households living on pensions.
- TANF provided income to only 4 percent of the families served by CSBG-eligible entities that reported other income.

**Figure 4: FFY 2021 CSBG-Eligible Entity Program Participant Households Income Sources\***

\*SSI refers to Supplemental Security Income.

## Family Structure of Participants

Fifty-six percent of participants reporting household structure in CSBG-eligible entity programs were either single or cohabiting as two adults without children. Nearly 65 percent of all CSBG-eligible entity program participants' households who reported having children were single-parent families (with either a male-headed household or female-headed household). As shown in Figure 5, of the 39 percent of participating households who reported household type and whose immediate families included children:

<sup>40</sup> Government assistance may include TANF and/or unemployment insurance.

- 33.4 percent had both parents present.
- 58.9 percent were headed by a single mother.
- 5.8 percent were headed by a single father.
- 1.8 percent were headed by non-related adults.

**Figure 5: Family Composition of FFY 2021 CSBG-eligible entities Program Participants\***

\*Due to rounding, the total percentage may not equal 100 percent.

CSBG-eligible entities served more than 1.3 million two-person and three-person households and 198,134 households with 6 or more members. The most common household size reported was a single person (1,667,525 individuals).

## Race and Ethnicity of Participants

CSBG-eligible entity program participants are racially and ethnically diverse. Ethnicity data indicated that 20.7 percent of individuals who reported ethnicity self-identified as Hispanic or Latino.<sup>41 42</sup> Of the 8.9 million individuals served, over 7.6 million reported their race to CSBG-eligible entities. The following racial breakdown reflects participants' voluntarily provided responses:

<sup>41</sup> It is important to note that Hispanic or Latino is an ethnic identity, and may include individuals who identify as White, Black or African-American, only by ethnicity and not by a racial group at all, or who self-identify as multi-racial or other. Given the racial diversity present in this ethnic group, these responses are not aggregated with racial data, which includes the racial self-identification of some, but not all, individuals who also reported a Hispanic or Latino ethnicity.

<sup>42</sup> This includes Puerto Rico.

- 55.2 percent White
- 28.2 percent Black or African American
- 1.5 percent American Indian or Alaska Native
- 2.9 percent Asian
- 4.1 percent multi-racial
- 0.7 percent Native Hawaiian and Other Pacific Islander
- 7.5 percent reported other

## Children in CSBG-Eligible Entity Programs

The Census Bureau reports that the poverty rate for children under 18 is 15.3 percent.<sup>43</sup> Reflecting this fact, children ages 17 and under made up more than 35 percent of all individuals served who reported age. Nearly 3 million children under the age of 17 were served by CSBG-eligible entity programs across the nation. Additionally, as Figure 6 shows, 968,587, or 11.7 percent of all CSBG-eligible entity program participants who reported age, were 5 years of age or younger.

## Seniors in CSBG-Eligible Entity Programs

More than 2 million people, or 25 percent of CSBG-eligible entity program participants reporting age, were 55 years or older, and 5.8 percent of participants reporting age were 75 years or older. CSBG-eligible entities helped these older participants maintain their independence and remain engaged in their communities.

**Figure 6:** Age Groups of FFY 2021 CSBG-Eligible Entities Program Participants

<sup>43</sup> Creamer, Shrider, Burns, and Chen, "Income and Poverty in the United States: 2021," September 2022, <https://www.census.gov/content/dam/Census/library/publications/2022/demo/p60-277.pdf>.

## Barriers to Self-Sufficiency

Most CSBG-eligible entity program participants face many barriers to achieving economic security. These include:

- **Health risks:** Health insurance data offered by nearly 6 million participants indicated that 14.3 percent were without medical insurance.
- **Disabilities:** Disability data collected from over 6.7 million participants indicated that 21.8 percent of the CSBG-eligible entity program participants who reported disability status had a disability. Recent data from the Current Population Survey shows that among working-age adults with disabilities, only 19.1 percent were employed.<sup>44</sup>
- **Lack of education:** Nearly 27 percent of adult participants older than 24 who reported their educational attainment lacked a high school diploma or equivalency certificate, and 48.7 percent reported high school diploma or a GED as their highest educational attainment.<sup>45</sup>
- **Homelessness:** Housing data provided by nearly 3.4 million participants indicated that 3.5 percent were homeless.

State-specific data on participant characteristics are available in Appendix B.

## **CSBG Training, Technical Assistance, and Related Activities**

Section 674(b)(2) of the CSBG Act, 42 U.S.C. 9903(b)(2), permits the Secretary of HHS to reserve 1.5 percent of appropriated CSBG funds for training, technical assistance, planning, evaluation, performance measurement, monitoring, and reporting and data collection activities. The CSBG Act requires that at least 50 percent of these funds be distributed to CSBG-eligible entities, local organizations, or state associations with demonstrated expertise serving low-income populations.

To carry out the above purposes and activities, OCS used FFY 2021 CSBG funds to make training and technical assistance awards to national organizations and state associations with knowledge and expertise in providing services to and/or working on behalf of low-income individuals and communities. To ensure and document the appropriate use of these funds, OCS funded activities in the following categories:

- CSBG learning communities
- Performance management system development and data collection, analysis, and reporting
- Legal issues and compliance
- Organizational standards
- Regional Performance and Innovation Consortia
- State and CSBG-eligible entity technical assistance services

New and continuation training and technical assistance grants were awarded in the categories below. More information about these awards can be found in Appendix C.

### **Community Services Block Grant (CSBG): National Center of Excellence for Human Capacity and Community Transformation**

FFY 2020 was the first year of a new, 3-year cooperative agreement with NCAP (hereinafter referred to as “award recipient” within this section) for the Human Capacity and Community Transformation Center of Excellence (COE). Through this Cooperative Agreement, the COE provides national coordination and training and technical assistance to identify, highlight, and support implementation of high-impact, transformational efforts that strengthen families and communities. Through collaboration with the award recipients of the CSBG Training and Technical Assistance (T/TA) Program: Regional Performance and Innovation Consortium (RPIC) – Human Capacity and Community Transformation Initiatives cooperative agreement, the COE works to build the capacity of the Community Action Network by identifying promising practice models, highlighting and sharing those models, and creating and disseminating tools, resources, training, and technical assistance to support implementation of similar strategies and models across the CSBG Network.

An important element of this cooperative agreement includes coordination and collaboration with CSBG stakeholders, including RPICs to build CSBG-eligible entity capacity to identify, highlight, and implement innovative strategies that support transformation at the family and community levels. The T/TA coordination efforts promote activities that strengthen the ability of state CSBG lead agencies, state associations, RPICs, and CSBG-eligible entities to build communities by ensuring local stakeholders work together to transform the conditions and outcomes that matter to them.

As a part of this work, the COE worked with RPICs to understand network needs as it relates to training and technical assistance to engage in high-impact, transformational strategies. The COE developed a training and technical assistance plan template that was used by RPICs to identify training needs and inform state, regional, and national training efforts. Based on those results, the COE offered training and technical assistance related to Results Oriented Management & Accountability (ROMA) implementation, data collection and analysis, and community-level transformation. The COE also worked with RPICs to establish criteria for strategies that will be highlighted in future years of the Cooperative Agreement.

The COE was also awarded supplemental funding to expand the activities to include training and technical assistance to the CSBG network in the areas of rapid response, relief, recovery, and resilience related to the COVID-19 pandemic.

## **CSBG Training and Technical Assistance (T/TA) Program: Regional Performance and Innovation Consortium (RPIC) – Human Capacity and Community Transformation Initiatives**

FFY 2020 was the first year of a new, 3-year cooperative agreement with 11 Regional Performance and Innovation Consortia (RPIC) grantees across the 10 ACF federal regions.<sup>46</sup> The RPIC award recipients are funded to serve as geographic T/TA focal points for training and technical assistance (T/TA) to identify, highlight, and support multi-year high-impact, transformational initiatives that strengthen families and communities. RPIC award recipients also are charged with assisting to strengthen relationships between state associations, state CSBG Lead Agencies, and CSBG-eligible entities. Each RPIC serves as fiscal agent and collaborates with CSBG state associations in their regions to help ensure that appropriate T/TA is provided to CSBG-eligible entities.

The awards enable the RPICs to deliver and coordinate T/TA efforts, disseminate T/TA information, assist state associations, and CSBG-eligible entities in analyzing community needs assessment data and documenting outcomes, and assist in the development of service plans in pursuit of supporting innovative, high-impact approaches in the Community Action network. In FFY 2020, RPICs worked with OCS and the COE to establish criteria for selecting highlighted

---

<sup>46</sup> A listing of the states in each of the 10 ACF Federal regions is available at the following weblink: <https://www.acf.hhs.gov/oro/regional-offices>. The 11 award recipients are listed in Appendix C. Although the RPIC cooperative agreements are not administered through ACF regional offices, OCS has organized the RPIC technical assistance cooperative agreements to be consistent with ACF Regions. In Region IV, awards were made for two separate services areas. One service area is Florida, Georgia, Alabama, and Mississippi, and the second service area is North Carolina, South Carolina, Tennessee, and Kentucky.

initiatives that showcase high-impact, innovative, and transformative strategies that can be shared as models and to inform training and technical assistance on key practices and approaches to enable future implementation across the CSBG Network.

## **Implementation of a National Training and Technical Assistance (T/TA) Strategy to Support, Stabilize, Educate and Train CSBG Eligible Entities, and Promote Exemplary Practices and Policies (Legal T/TA Center)**

In response to the COVID-19 pandemic, a supplemental award was made to Community Action Program Legal Services Inc. (CAPLAW), located in Boston, Massachusetts. The purpose of this supplemental was to expand the activities of the original cooperative agreement to include training and technical assistance to the CSBG Network in the areas of rapid response, relief, recovery, and resilience related to the COVID-19 pandemic.

CAPLAW implemented a national T/TA strategy to help CSBG-eligible entities address legal issues. The strategy is focused on organizational stability and support, education and training, knowledge management, and promoting exemplary legal practices and policies. The cooperative agreement is funded to provide direct T/TA as well as to create an enhanced infrastructure to help OCS address the long-term legal assistance needs of CSBG-eligible entities. The cooperative agreement requires CAPLAW to work with other CSBG stakeholders to assure that CSBG-eligible entities have access to updated information to increase accountability and organizational performance, address legal aspects related to the implementation of organizational standards in the CSBG Network, and to assist state CSBG lead agencies in adopting organizational standards.

More information about this cooperative agreement and related activities is available at <http://www.caplaw.org>.

## **Performance Management System Development and Data Collection, Analysis and Reporting for CSBG**

In response to the COVID-19 pandemic, a supplemental award was made to NASCSP (hereinafter referred to as “award recipient” within this section), located in the District of Columbia. The purpose of this supplemental was to expand the activities of the original cooperative agreement to include the creation of data collection tools for the supplemental funding and training and technical assistance to the CSBG Network in the areas of rapid response, relief, recovery, and resilience related to the COVID-19 pandemic.

The purpose of the cooperative agreement is to support a process to update CSBG data systems available to states to meet annual reporting requirements outlined in the CSBG Act. The Act requires states participate in a performance management system and to report on performance, as well as account for expenditures of funds received through CSBG.

During the period covered by this agreement, the award recipient assisted OCS in the continued implementation of an improved performance management system for data collection, analysis, and reporting for CSBG. The goals of the project are to enhance the quality of CSBG reports to Congress, upgrade data collecting by using an online data collection process, improve accountability by upgrading data collection instruments, increase the use of CSBG data for informing management decisions, and improve transparency by developing a publicly accessible website with CSBG data.

The award recipient assisted OCS in continuing implementation and making updates to the new data collection forms for Modules 2 through 4, and the award recipient supported OCS in the review of the data to ensure data quality. The award recipient also provided training and technical assistance to states and local agencies across the CSBG Network on data collection, reporting, and analysis. Additionally, the award recipient continued developing a Performance Management Website that could be accessed in the future to pull data reports on performance, enabling states and local agencies to conduct more robust analysis.

The provision of relevant T/TA to state CSBG lead agencies and CSBG-eligible entities to support the implementation of changes is an important aspect of the project. This data collection and analysis work builds upon the CSBG data collection instruments and procedures developed in FFY 2004.

More information about this cooperative agreement and related activities is available at:  
[www.nascsp.org](http://www.nascsp.org)

## **Community Services Block Grant (CSBG) Training and Technical Assistance (T/TA) Program: National Community Action Partnership (NCAP)**

The Office of Community Services (OCS) within the Administration for Children and Families (ACF) supports one 3-year cooperative agreement to support the National Community Action Partnership (NCAP). This cooperative agreement promotes the creation, implementation, and monitoring of learning communities within the CSBG network. . NCAP responsibilities include::

1. Maintaining, convening, and leading the work of a National Steering Committee that consists of representatives from OCS, state CSBG lead agencies, local CSBG-eligible entities, Regional Performance, and Innovation Consortia (RPIC) grantees, CSBG Training and Technical Assistance (T/TA) providers and other stakeholders providing community-based services.
2. Working with OCS and leading national organizations associated with the CSBG to address specific T/TA issues.
3. Establishing and providing leadership for several specific learning communities.
4. Recommending strategies for enhanced coordination of T/TA supported at federal, state, and community levels to ensure the use of exemplary practices and policies across the CSBG network.

5. Collecting, managing, and disseminating valid T/TA information and resources that employ quality practices; and
6. Facilitating customized T/TA services and referrals.

## Results-Oriented Management and Accountability

The Monitoring and Assessment Task Force (MATF), a task force of federal, state, and local CSBG Network officials, created ROMA in 1994. Based on principles contained in the GPRA, ROMA provides a framework for continuous growth and improvement among local CSBG-eligible entities and a basis for state leadership and assistance.

In 1998, the CSBG Reauthorization Act, section 678E(a)(1), 42 U.S.C. 9917(a)(1), made ROMA implementation a requirement for receiving federal CSBG funds. The CSBG Reauthorization Act established October 1, 2001, as the start date for reporting CSBG Network outcomes in the context of ROMA performance-based management principles. This statutory mandate changed both the nature and pace of ROMA implementation throughout the CSBG Network.

CSBG-IM-152<sup>47</sup> outlines the state CSBG Annual Report and the role of ROMA Next Generation in the new performance management framework. The IM places an enhanced emphasis on analysis and evaluation under ROMA Next Generation. This evaluation and analysis are actualized through the state CSBG Annual Report.

Local CSBG-eligible entities are encouraged to undertake several ROMA implementation actions that focus on results-oriented management and accountability.

### Results-Oriented Management Principles

- Assess poverty needs and conditions within the community.
- Define a clear anti-poverty mission for the CSBG Network and the strategies and services to address those needs, both immediate and longer term, in the context of existing resources and opportunities in the community.
- Identify specific improvements, or results, to be achieved among people with low incomes and communities in which they live.
- Organize and implement programs, services, and strategies within the agency and among partnering organizations to achieve anticipated results.
- Establish systematic reporting to the agency Board for management decision making.

### Results-Oriented Accountability Principles

- Develop and implement processes to identify, measure, and record improvements in the condition of people with low incomes and the communities in which they live that result from CSBG Network intervention.
- Use information about outcomes, or results, among agency tripartite boards and staff to determine overall effectiveness, inform annual and long-range planning, and promote new funding and community partnership activities.

---

<sup>47</sup> CSBG-IM-152, *CSBG Annual Report*, <https://www.acf.hhs.gov/ocs/resource/csbg-im-152-annual-report>

- Encourage state CSBG offices and state associations to work in coordination to advance ROMA performance-based concepts among CSBG-eligible entities through ongoing training and technical assistance.

## National Performance Goals and Indicators

From 2001 to 2003, OCS worked with national, state, and local eligible-entity officials to identify the results and performance targets that best reflected the multifaceted work of CSBG-eligible entities. This work in the early 2000s was carried forward and is the foundation for reporting used today. The NPIs reflect greater understanding of the results and performance targeting practices in use across the CSBG Network today.

To enable greater aggregation and national reporting of the most universal and significant CSBG results among states and CSBG-eligible entities, entities report on a common set of indicators. Starting with FY 2018, the NPIs are reported across six common domains in the new CSBG Annual Report.

The NPIs establish a standardized list of measures for reporting individual-, family-, and community-level improvement and outcomes. These outcomes are the result of the strategic use of a variety of change mechanisms, including service provision and program coordination, both within each CSBG-eligible entity and with partnering organizations in the broader community.

Effective FFY 2018, states collected the new set of NPIs in the state CSBG Annual Report. The new NPIs are organized by community indicators (CNPIs) and individual and family level indicators (FNPIs). The state CSBG Annual Report NPIs are organized by six core domains and one unique additional domain that organize the work of CSBG-eligible entities. The CSBG domains are as follows:

- (1) Employment
- (2) Education and cognitive development
- (3) Income and asset building
- (4) Housing
- (5) Health and social/behavioral development
- (6) Civic engagement and community involvement
- (7) Outcomes and services across multiple domains

Each domain includes its own set of CSBG Annual Report NPIs. The NPIs for each domain are included in this report.

## National Performance Outcomes

The outcomes in this report represent some of the most common activities among CSBG-eligible entities as categorized by the NPIs.<sup>48</sup> CSBG allows agencies that receive funding to participate in a broad range of activities to meet the unique needs of their communities. Each CSBG-

---

<sup>48</sup> The data presented throughout this section represents unduplicated counts of individuals and families served.

eligible entity captured outcome data specific to its individual goals and priorities. It should be noted that not all agencies participated in activities that generated outcomes for every NPI, nor do these indicators represent all the outcomes achieved by CSBG-eligible entities.

## National Performance Data

The CSBG Act provides funds to strengthen community capabilities for planning and coordinating funds related to the elimination of poverty, and to organize a range of services to have a measurable and potentially major impact on the causes of poverty in the community. CSBG-eligible entities organize and operate all programs, services, and activities with the aim of reducing factors contributing to poverty in their specific communities.

CSBG-IM-152<sup>49</sup> introduced the National Community Action Theory of Change, which outlines the three national goals of community action. The goals reflect several important concepts that transcend CSBG as a stand-alone program. The goals convey the same strengths that were present in the previous goals and supported through ROMA and CSBG-IM-49<sup>50</sup> and that the broader concept that community action brings to the Nation's anti-poverty efforts:

- (1) Focusing our efforts on client/community/organizational change, not particular programs, or services. As such, the original six ROMA goals provide a basis for being results-oriented – as opposed to process-based or program-specific – for plans, activities, and reports.
- (2) Understanding the interdependence of programs, clients, and community. The goals recognize that client improvements aggregate to and reinforce community improvements, and that strong and well-administered programs support both.
- (3) Recognizing that CSBG does not exist as an individual program. The goals presume that community action is most successful when activities supported by several funding sources are organized around client and community outcomes, both within an agency and with other service providers.

Considering the CSBG Act and the direction to “report...client and community outcomes that capture the contribution of all entity programs, services, and activities to the achievement of those outcomes,” the following outcomes reflect the work of the entire CSBG Network, including activities funded by CSBG and all other sources.

Outcomes reported from Individual and Family Level Module (Module 4):

## Employment

The following employment outcomes were achieved for people served by the CSBG Network and were supported by 937,708 services in the employment domain:

---

<sup>49</sup> CSBG-IM-152, *CSBG Annual Report*, <https://www.acf.hhs.gov/ocs/resource/csbg-im-152-annual-report>.

<sup>50</sup> CSBG-IM-49, *Program Challenges, Responsibilities and Strategies, FY 2001-FY 2003*, <https://www.acf.hhs.gov/ocs/policy-guidance/csbg-im-49-program-challenges-responsibilities-and-strategies-fy-2001-2003>.

<b>52,076</b>	The number of unemployed youths who obtained employment to gain skills or income.
<b>34,078</b>	The number of unemployed adults who obtained employment (up to a living wage). <sup>51</sup>
<b>15,639</b>	The number of unemployed adults who obtained and maintained employment for at least 90 days (up to a living wage).
<b>9,557</b>	The number of unemployed adults who obtained and maintained employment for at least 180 days (up to a living wage).
<b>11,520</b>	The number of unemployed adults who obtained employment (with a living wage or higher).
<b>6,572</b>	The number of unemployed adults who obtained and maintained employment for at least 90 days (with a living wage or higher).
<b>5,059</b>	The number of unemployed adults who obtained and maintained employment for at least 180 days (with a living wage or higher).
<b>15,478</b>	The number of employed participants in a career-advancement related program who entered or transitioned into a position that provided increased income and/or benefits.
<b>7,143</b>	Of the above, the number of employed participants who increased income from employment through wage or salary amount increase.
<b>3,984</b>	Of the above, the number of employed participants who increased income from employment through hours worked increase.
<b>3,489</b>	Of the above, the number of employed participants who increased benefits related to employment. <sup>52</sup>

## Education and Cognitive Development

The following education and cognitive development outcomes were achieved for people served by the CSBG Network and were supported by 1,362,270 services in the education domain:

<b>179,067</b>	The number of children (0 to 5) who demonstrated improved emergent literacy skills.
----------------	---

<sup>51</sup> There is no definitive national “living wage.” As a result, each state and/or CSBG-eligible entity must define what constitutes a “living wage” and appropriate benefits in their service area.

<sup>52</sup> As this is still a relatively new report, there is a need for ongoing T/TA on how to properly report data points as subsets. Therefore, there may be instances where a subset is exceeding the parent data point, but this will be addressed in ongoing continuous quality improvement efforts.

<b>212,302</b>	The number of children (0 to 5) who demonstrated skills for school readiness.
<b>314,645</b>	The number of children and youth who demonstrated improved positive approaches toward learning, including improved attention skills.
<b>196,085</b>	Early Childhood Education (ages 0–5)
<b>79,199</b>	1st grade–8th grade
<b>39,361</b>	9th grade–12th grade
<b>196,201</b>	The number of children and youth who are achieving at basic grade level (academic, social, and other school success skills).
<b>141,283</b>	Early Childhood Education (ages 0–5)
<b>20,032</b>	1st grade–8th grade
<b>34,886</b>	9th grade–12th grade
<b>89,122</b>	The number of parents/caregivers who improved their home environments.
<b>32,378</b>	The number of adults who demonstrated improved basic education.
<b>8,337</b>	The number of individuals who obtained a high school diploma and/or obtained an equivalency certificate or diploma.
<b>20,670</b>	The number of individuals who obtained a recognized credential, certificate, or degree relating to the achievement of educational or vocational skills.
<b>1,772</b>	The number of individuals who obtained an associate’s degree.
<b>836</b>	The number of individuals who obtained a bachelor’s degree.

## Income and Asset Building

The following income and asset building outcomes were achieved for people served by the CSBG Network and were supported by 677,114 services in the income domain:

<b>119,996</b>	The number of individuals who achieved and maintained capacity to meet basic needs for 90 days.
<b>55,595</b>	The number of individuals who achieved and maintained capacity to meet basic needs for 180 days.

<b>5,391</b>	The number of individuals who opened a savings account or IDA.
<b>18,538</b>	The number of individuals who increased their savings.
<b>3,705</b>	The number of individuals who used their savings to purchase an asset.
<b>2,989</b>	The number of individuals who purchased a home.
<b>4,613</b>	The number of individuals who improved their credit scores.
<b>28,447</b>	The number of individuals who increased their net worth.
<b>108,786</b>	The number of individuals engaged with the Community Action Agency who report improved financial well-being.

## Housing

The following housing outcomes were achieved for people served by the CSBG Network and were supported by 5,931,725 services in the housing domain:

<b>86,863</b>	The number of individuals experiencing homelessness who obtained safe temporary shelter.
<b>180,540</b>	The number of individuals who obtained safe and affordable housing.
<b>164,875</b>	The number of individuals who maintained safe and affordable housing for 90 days.
<b>108,829</b>	The number of individuals who maintained safe and affordable housing for 180 days.
<b>439,809</b>	The number of individuals who avoided eviction.
<b>17,452</b>	The number of individuals who avoided foreclosure.
<b>78,368</b>	The number of individuals who experienced improved health and safety due to improvements within their home (e.g., reduction or elimination of lead, radon, carbon monoxide and/or fire hazards or electrical issues, etc.).
<b>1,234,055</b>	The number of individuals with improved energy efficiency and/or energy burden reduction in their homes.

## Health and Social/Behavioral

The following health and social/behavioral outcomes were achieved for people served by the CSBG Network and were supported by 47,259,419 services in the health domain:

<b>901,809</b>	The number of individuals who demonstrated increased nutrition skills (e.g., cooking, shopping, and growing food).
<b>1,310,213</b>	The number of individuals who demonstrated improved physical health and well-being.
<b>170,347</b>	The number of individuals who demonstrated improved mental and behavioral health and well-being.
<b>137,334</b>	The number of individuals who improved skills related to the adult role of parents/caregivers.
<b>79,696</b>	The number of parents/caregivers who demonstrated increased sensitivity and responsiveness in their interactions with their children.
<b>519,627</b>	The number of seniors (65+) who maintained an independent living situation.
<b>242,659</b>	The number of individuals with disabilities who maintained an independent living situation.
<b>39,352</b>	The number of individuals with chronic illness who maintained an independent living situation.
<b>14,612</b>	The number of individuals with no recidivating event for 6 months.
<b>5,025</b>	Youth (ages 14–17)
<b>9,587</b>	Adults (ages 18+)

## Civic Engagement and Community

The following civic engagement and community involvement outcomes were achieved for people served by the CSBG Network and were supported by 212,586 services in the civic engagement domain:

- 141,926** The number of Community Action program participants who increased skills, knowledge, and abilities to enable them to work with Community Action to improve conditions in the community.<sup>53 54</sup>
- 25,573** Of the above, the number of Community Action program participants who improved their leadership skills.
- 37,545** Of the above, the number of Community Action program participants who improved their social networks.
- 72,824** Of the above, the number of Community Action program participants who gained other skills, knowledge, and abilities to enhance their ability to engage.

## Outcomes Achieved Across One or More Domains

Because CSBG-eligible entities are providing a range of services to individuals and families to move them to stability or economic security, rather than just a single service to meet a short-term need, this section was added to the state CSBG Annual Report. Most individuals and families must achieve outcomes in multiple domains to move to stability and economic security. For instance, achieving improved housing and obtaining a job, or improving education or skills and obtaining a job. The following outcome represents individuals who achieved any outcome due to being involved with a CSBG-eligible entity.

- 3,056,139** The number of individuals who achieved one or more outcomes in the identified National Performance Indicators in one or more domains.

---

<sup>53</sup> CSBG funds cannot be used to support lobbying activities. The NPIs are outcomes from all activities of a CSBG-eligible entity, and many of the agencies typically receive funding from multiple (federal, state, local, and private) sources, not just CSBG. Many of these sources will allow for advocacy activities of different kinds (such as education). In addition, the outcomes reported in FNPI 6 describe the alliances, partnerships, and relationships developed by the CSBG-eligible entity to improve the quality of life and assets of the community and may not indicate lobbying efforts, but rather an increasing awareness and education of the public that influences public policy.

## Local Agency Capacity Building Achievements

The following data is collected in the Agency Expenditures, Capacity, and Resources Module (Module 2) of the state CSBG Annual Report and includes information on agency capacity building achievements by CSBG-eligible entities.

### Community Engagement

The CSBG Network mobilized individuals to work together for community improvement:

**19,949,277** Volunteer hours donated to CSBG-eligible entities.

### Community Enhancement through Maximum Feasible Participation

The CSBG Network mobilized low-income individuals to work together for community improvement:

**12,490,291** Volunteer hours donated by low-income individuals to CSBG-eligible entities.

### Expanding Opportunities Through Community-Wide Partnerships

CSBG-eligible entities work with other public and private organizations to expand services for individuals or families or to achieve community improvement outcomes. In FFY 2021, the CSBG Network worked with 187,857 organizations to promote family and community outcomes.

These partnerships included:

<b>45,943</b>	Nonprofits
<b>18,706</b>	Faith-based organizations
<b>16,602</b>	Local governments
<b>7,380</b>	State governments
<b>4,285</b>	Federal government
<b>45,361</b>	For-profit business or corporations
<b>9,801</b>	Consortiums/collaborations
<b>9,936</b>	School districts
<b>5,654</b>	Institutions of postsecondary education/training

<b>5,049</b>	Financial/banking institutions
<b>14,146</b>	Health service institutions
<b>4,994</b>	Statewide associations or collaborations

## CSBG-Eligible Entity Staff Certifications

The CSBG Network worked to expand agency capacity to achieve results by offering training to staff to obtain certifications. The numbers below represent the number of CSBG-eligible entity staff in the CSBG Network that hold industry certifications.

### Credentialed Staff in Local CSBG-eligible entities

<b>617</b>	Certified Community Action Professionals (CCAP)
<b>400</b>	Nationally Certified ROMA Trainers
<b>598</b>	Nationally Certified ROMA Implementers
<b>5,106</b>	Family development certified staff
<b>16,535</b>	Child development certified staff
<b>159</b>	Pathways Reviewers
<b>2,311</b>	Home Energy Professional certified staff
<b>1,198</b>	Energy Auditors
<b>834</b>	Retrofit Installer technicians
<b>527</b>	Crew Leaders

**169,773** Hours of Board Members in capacity building activities

## Outcomes Summary

The outcomes documented above demonstrate the CSBG Network's widespread impact on the nation's most vulnerable individuals, families, and communities. CSBG-eligible entities use the ROMA performance management cycle to analyze and improve their programs and results. In all, the CSBG Network leveraged a wide range of funding streams, partnerships, services, and strategies to help over 3 million people achieve one or more outcomes in any of the domains and thus improve their lives because of eligible entity work.

While some participants may have received a single service in only one key area to improve their self-sufficiency, many others received multiple and bundled services that helped them to obtain one or more outcomes. For example, someone coming to an eligible entity in need of employment may have required additional education to secure a job and found that transportation and childcare were essential to ensuring they could maintain work.

Employment-related initiatives were a major part of CSBG-eligible entities' efforts to address the conditions of poverty. The CSBG Network assisted clients with finding and maintaining employment and increasing wages or benefits. States report that because of eligible-entity involvement, over 34,000 unemployed adults obtained jobs up to a living wage, and over 11,500 unemployed adults obtained a job with a living wage or higher. Further, over 15,000 employed participants in a career advancement-related program entered or transitioned into a position that provided increased income or benefits. One example of how CSBG-eligible entities supported these outcomes was by partnering with local businesses to provide job training and certifications.

In addition to direct job provision and services, CSBG-eligible entities also work to reduce or remove challenges facing job seekers or people attempting to retain employment. CSBG-eligible entities provided many services that remove barriers to employment, such as education attainment; safe and reliable housing; safe, quality childcare; reduced utility and energy costs; and reliable transportation. For example, the CSBG Network helped over 1.8 million people secure some type of transportation, helped 87,364 people to pay for safe, quality, and affordable childcare, and helped an additional 183,465 children in before- and after-school programs.

Both children and adults benefit from the educational opportunities provided by the CSBG Network. CSBG-eligible entities make education more accessible to low-income individuals through adult basic education (ABE) or general education credentials (GED) courses, college scholarships, skills training, and a multitude of options and support services based on local need. Over 8,300 individuals obtained a high school diploma or an equivalency certificate. An

---

<sup>55</sup> Agency Capacity Building activities may include conducting a community needs assessment, developing a strategic plan, investing in data management and reporting, participating in training and technical assistance, and other activities to help enhance the ability of the agency to better serve individuals, families, and communities.

additional 20,670 individuals obtained a recognized credential, certificate, or degree relating to the achievement of educational or vocational skills as a result of CSBG Network assistance. As well as supporting parents in enrolling their children in before- and after-school programs, CSBG-eligible entities were instrumental in assisting more than 212,000 children to develop necessary school readiness skills through participation in pre-school activities.

The CSBG Network made healthcare more accessible, resulting in over 1.3 million low-income individuals reporting an improved sense of physical health and well-being. CSBG-eligible entities also helped all family members improve and maintain their health – over 739,000 women and children received maternal and child health services, nearly 177,000 individuals received immunizations, and over 157,000 individuals obtained a physical exam.

The CSBG Network provided both emergency and non-emergency energy services to CSBG-eligible entities' participants. Approximately 4.5 million low-income individuals received bill-payment assistance through LIHEAP or other utility programs, and more than 183,000 families received home energy improvements through the WAP or other energy programs.

## National Performance Targets and Trends<sup>56</sup>

In addition to CSBG's performance measurement initiative, the Executive Office of the President, OMB established a government-wide initiative to use performance targets and outcome measures to assess the program efficiency and effectiveness of all federally funded domestic assistance programs. As a result, beginning in FFY 2004, OCS began to report on standard CSBG performance targets, or anticipated levels of result achievement. This section of the FFY 2021 report represents the 17<sup>th</sup> year of collecting standard performance targets in NPIs and the fourth year of the refined set of NPIs, which includes targets within each NPI.

This information serves to gauge the effectiveness and efficiency of eligible entity program activities. This section provides target performance levels for all the NPIs.

Section 678E of the CSBG statute, 42 U.S.C. 9917, requires agencies to measure their overall performance and achievement in carrying out their goals. CSBG-eligible entities set targets for the number of participants they expect to achieve specific goals/outcomes for that year and then collect data on the number of participants who achieve those goals. As the data accrue, agencies gauge their ability to predict performance outcomes by dividing the number of participants achieving the goal (outcome) by the number expected to achieve the goal (target). The resulting percentage, "Performance Target Accuracy," generally assesses CSBG-eligible entities' knowledge of their programs as well as the success of their participants.

The state CSBG Annual Report includes another measure of customer success. It is called "Percent Achieving Outcome." This is measured by dividing the actual results by the number of people served who are working towards achieving the outcome. This measures the success of the customer and offers the CSBG Network more performance data for continued quality improvement. (Note: Many CSBG-eligible entities had been previously using this kind of performance targeting related to participant success, but it was not included in a part of the national report prior to FFY 2018.)

---

<sup>56</sup> The data presented throughout this section represents unduplicated counts of CSBG-eligible entity participants.

## Employment

Table 4 shows performance measures for CSBG FNPI 1: Employment. This table depicts how agencies set and met their outcome goals for Employment in FFY 2021, with 708 CSBG-eligible entities reporting outcomes under this domain. The “Percent Achieving Outcome” column indicates that most employment outcomes were met by less than 50 percent of the people who were served. As noted earlier in the report, based on data from the Bureau of Labor Statistics,<sup>57</sup> given the types of jobs available by sector, there are more jobs available that do not offer immediate gains in movement toward or achievement of a “living wage” job or benefits.

**Table 4:** FNPI 1 Employment

Employment Performance Measures	Number of Individuals Served	Expected to Achieve Outcome (Target)	Actual Results	Percent Achieving Outcome	Performance Target Accuracy
<b>FNPI 1a:</b> The number of unemployed youths who obtained employment to gain skills or income.	70,761	53,606	52,076	73.59%	97.15%
<b>FNPI 1b:</b> The number of unemployed adults who obtained employment (up to a living wage).	88,352	41,728	34,078	38.57%	81.67%
<b>FNPI 1c:</b> The number of unemployed adults who obtained and maintained employment for at least 90 days (up to a living wage).	49,894	25,462	15,639	31.34%	61.42%
<b>FNPI 1d:</b> The number of unemployed adults who obtained and maintained employment for at least 180 days (up to a living wage).	33,416	11,379	9,557	28.60%	83.99%
<b>FNPI 1e:</b> The number of unemployed adults who obtained employment (with a living wage or higher).	52,008	12,653	11,520	22.15%	91.05%

<b>FNPI 2j:</b> The number of individuals who obtained a bachelor's degree.	20,948	1,317	836	3.99%	63.48%

## Income and Asset Building

Table 6 shows performance measures for CSBG FNPI 3: Income and Asset Building. This table depicts how agencies set and achieved their outcome goals for the Income and Asset Building domain in FFY 2021, with 623 CSBG-eligible entities reporting outcomes under this indicator. The NPI tracking the percent of purchase of homes typically results in lower targeting numbers in comparison to the other indicators. Evidence from HUD suggests low-income families “face significant barriers to sustainable homeownership.”<sup>58</sup> As such, the purchase of and saving for homes by CSBG-eligible entity participants typically results in lower numbers in comparison to the other indicators. However, recent data suggests homeownership rates among low-income families are rising faster than homeownership rates for higher income families.<sup>59</sup> It is also important to note that many of these indicators and associated outcomes may take periods of longer than one year to achieve, and many of the individuals enrolled continue to work toward achievement of outcomes over program years.

**Table 6: FNPI 3 Income and Asset Building**

Income and Asset Building Performance Measures	Number of Individuals Served	Expected to Achieve Outcome (Target)	Actual Results	Percent Achieving Outcome	Performance Target Accuracy
<b>FNPI 3a:</b> The number of individuals who achieved and maintained capacity to meet basic needs for 90 days.	170,808	120,998	119,996	70.25%	99.17%
<b>FNPI 3b:</b> The number of individuals who achieved and maintained capacity to meet basic needs for 180 days.	101,709	62,659	55,595	54.66%	88.73%
<b>FNPI 3c:</b> The number of individuals who opened a savings account or IDA.	25,241	6,863	5,391	21.36%	78.55%

<b>FNPI 5h:</b> The number of individuals with chronic illness who maintained an independent living situation.	58,645	41,879	39,352	67.10%	93.97%
<b>FNPI 5i:</b> The number of individuals with no recidivating event for six months. <i>(Auto-calculation of the following two rows).</i>	25,085	14,642	14,612	58.25%	99.80%
<b>FNPI 5i.1:</b> Youth (ages 14 to 17)	8,081	5,291	5,025	62.18%	94.97%
<b>FNPI 5i.2:</b> Adults (ages 18+)	17,004	9,351	9,587	56.38%	102.52%

## Civic Engagement and Community Involvement

Table 9 shows performance measures for CSBG FNPI 6: Civic Engagement and Community Involvement. This table depicts how agencies set and met their outcome goals for Civic Engagement and Community Involvement indicators in FFY 2021, with 498 CSBG-eligible entities reporting outcomes for this domain.

**Table 9: FNPI 6 Civic Engagement and Community Involvement**

Civic Engagement and Community Involvement Performance Measures	Number of Individuals Served	Expected to Achieve Outcome (Target)	Actual Results	Percent Achieving Outcome	Performance Target Accuracy
<b>FNPI 6a:</b> The number of Community Action program participants who increased skills, knowledge, and abilities to enable them to work with Community Action to improve conditions in the community.	185,980	135,006	141,926	76.31%	105.13%
<b>FNPI 6a.1:</b> Of the above, the number of Community Action program participants who improved their leadership skills.	74,529	21,274	25,573	34.31%	120.21%
<b>FNPI 6a.2:</b> Of the above, the number of Community Action program participants who improved their social networks.	88,283	34,803	37,545	42.53%	107.88%
<b>FNPI 6a.3:</b> Of the above, the number of Community Action program participants who gained other skills, knowledge, and abilities to enhance their ability to engage.	123,993	73,886	72,824	58.73%	98.56%

## Outcomes Achieved Across One or More Domains

Table 10 shows performance measures for CSBG FNPI 7: Outcomes Achieved Across One or More Domains. This indicator represents the unduplicated number of people who obtained one or more outcomes across the domains. In FFY 2021, there were 634 CSBG-eligible entities reporting outcomes for this domain. This domain is in its infancy and will be reported on more fully in future years. This is the only domain that does not have the number of individuals served or targets reported on in this report as it is not applicable given that this is a report of the overall impact of CSBG-eligible entities on poverty and not an outcome of any one direct service. As such, neither are the measures of entity success in columns IV and V.

**Table 10:** FNPI 7 Outcomes Across Multiple Domains

Outcomes Achieved One or More Domains Performance Measures	Number of Individuals Served	Expected to Achieve Outcome (Target)	Actual Results	Percent Achieving Outcome	Performance Target Accuracy
<b>FNPI 7a:</b> The number of individuals who achieved one or more outcomes as identified by the National Performance Indicators in various domains.	N/A	N/A	3,056,139	N/A	N/A

## Targeting Summary

It is important to reiterate that many of these indicators and associated outcomes may take periods of longer than 1 year to achieve. Many of the individuals enrolled in programs or receiving services continue to work toward achievement of outcomes over several years. Additionally, the effects of the economy and environment are variables outside of the agency's control and affect targeting projections. CSBG-eligible entities can use trend data and the ROMA cycle to modify and situate their programs and services in anticipation and modify and respond to changes in the communities in which they operate to achieve relatively high percentages of successful anticipation of their projected outcomes.

# Tribal Uses of Direct CSBG Funds

## Overview

CSBG provides American Indian and Alaska Native tribes with funds to lessen poverty in Native American communities by providing a range of services and activities to low-income families and individuals with low incomes. Native American recipients of CSBG funding are among the most vulnerable populations in the country, with 39 percent of Native American families who reside on reservations living in poverty, according to 2010 U.S. Census Data.

Tribes and tribal organizations interested in direct CSBG funding submit a plan and application to OCS annually or biennially (as determined by the tribe or tribal organization) for review and acceptance. Some tribal governments chose to receive CSBG funding through the state rather than directly from OCS, specifically in states where supplemental state funds are made available. OCS directly funded grant amounts to tribal organizations, and tribal organizations are determined based on each state and tribe's poverty populations. In FFY 2021:

- Sixty-five tribal grantees received a combined \$6.6 million in CSBG funds.
  - Eight of the 65 tribal grantees chose to receive consolidated funding through the Public Law 102-47 (Public Law 477).
- Of the 65 tribal grantees, 55 were tribes and 10 were tribal organizations, some serving multiple tribes.
- Tribes across 24 states received direct CSBG funding.

## CORE CSBG Services: Addressing Barriers to Economic Security in Tribal Communities

American Indian and Alaska Native tribes and tribal organizations receiving direct CSBG funds provide services addressing employment, education, housing, nutrition, emergency assistance, substance abuse, energy, and healthcare services to low-income Native American elders, adults, families, adolescents, and young children. CSBG funds may also be used to complement other federal ACF programs, such as Head Start and LIHEAP.

The eight tribal grantees that chose to receive consolidated funding through Public Law 477, are not required to report on CSBG activities. These FFY 2021 activities were reported by the 65 directly funded tribal grantees.

- **Employment programs**, including support for job placement, vocational and skills training, job development, and eliminating barriers to work were funded with CSBG funds by 27 of 65 Tribal grant recipients.
- **Education programs**, including adult education, literacy programs, scholarships, Head Start enhancement, child development programs, and anti-drug education were funded with CSBG funds by 16 of 65 Tribal grant recipients.

- **Income Management services**, including assistance with budgeting, tax preparation, and tax credit information, and medical and other benefit claims assistance for elders were supported with CSBG funds by 11 of 65 Tribal grant recipients.
- **Housing programs**, including homeownership counseling and loan assistance, counseling/advocacy in landlord/tenant relations and fair housing concerns, housing assistance, shelters and services for the homeless, and home repair and rehabilitation were supported with CSBG funds by 26 of 65 Tribal grant recipients.
- **Health and nutrition programs**, including food banks, health and nutrition counseling and education, community gardening, water and food production, emergency medical services, and transportation to medical services were supported with CSBG funds by 35 of 65 Tribal grant recipients.
- **Support for partnership and community engagement**, including development of public and private grassroots partnerships with local law enforcement agencies, local housing authorities, private foundations, and other public and private partners were supported with CSBG funds by 30 of 65 Tribal grant recipients.
- **Youth development programs**, including establishment of violence-free zones, youth intervention, youth mediation, youth mentoring, life skills training, job creation, entrepreneurship, and after-school childcare programs were funded with CSBG funds by 16 of 65 Tribal grant recipients.
- **Self-sufficiency programs**, that offer a continuum of services to assist families in becoming more financially independent, including assessing family needs and resources, developing a plan of support, and identifying resources were supported with CSBG funds by 32 of 65 Tribal grant recipients.
- **Emergency Services programs**, including temporary housing, rent or mortgage assistance, cash assistance/short-term loans, energy or utility assistance, emergency food, clothing and medical services, and disaster response were supported with CSBG funds by 37 of 65 Tribal grant recipients.
- **Support for linkages and coordination**, including eligibility coordination, interagency partnerships, Tribal/State partnerships, and public/private partnerships were supported with CSBG funds by 29 of 65 Tribal grant recipients.

## Conclusion

CSBG provides the infrastructure and resources for state administrators and local leaders to create planned and coordinated interventions to ensure economic opportunity for all Americans. The effort of the CSBG Network helps move low-income families toward self-sufficiency, revitalizes communities through a coordinated approach at the federal, state, and local levels, and provides a range of services and opportunities for individuals and families with low incomes.<sup>60</sup>

CSBG funds programs that address the primary causes of poverty, such as a lack of affordable housing, inadequate access to health care, and too few job opportunities. CSBG helps Americans with low incomes obtain employment, increase their education, access early childhood programs, and maintain their independence. According to research from the University of Michigan and Columbia University, social factors are just as critical to people's well-being and life expectancy as health factors. The negative impact of poverty, such as lack of social support and income inequality, can lead to adverse health outcomes and death in the same way as harmful behaviors such as cigarette smoking.<sup>61</sup>

The CSBG Annual Report NPIs are tools for setting priorities and monitoring progress toward the broader goal of ending poverty. Current data, which is collected annually from the 50 states, American Samoa, the District of Columbia, and Puerto Rico, measures the impact of states in eliminating barriers to family self-sufficiency and community revitalization. Across the CSBG domains ranging from health and housing to employment and education, CSBG-eligible entities helped over 3 million create change in their lives with the goal of ultimately increasing their economic security and making the communities where they live a better place.

The NPIs track outcomes from support services as well as outcomes from more comprehensive and coordinated services, such as employment initiatives, early childhood programs, continuing education programs, and skills training programs. While support services play a significant role in helping people through crises, early evidence suggests that clients who receive coordinated or “bundled” services are three to four times more likely to achieve a major economic outcome, such as staying employed, earning a vocational certification or associate degree, or buying a car, than clients receiving only one type of service.<sup>62</sup>

While support services are necessary to alleviating the conditions of poverty, CSBG-eligible entities are focusing on bundling services, applying intergenerational approaches to alleviating poverty, and providing services to both job seekers and those who are unable to work, such as children and youth, those living with disabilities, and vulnerable seniors. The CSBG Network responded to the national child poverty levels and the increased aging population and provided services to nearly 3 million children under the age of 17 and over 2 million seniors over the age of 55 in FFY 2021. The services provided to those who are unable to work addresses the high

child poverty rate and the aging population across the United States and addresses the rising needs for support targeted at youth, seniors, and those living with disabilities.

Aside from direct employment, education is another major factor in becoming economically secure. During FFY 2021, over 1,700 people obtained an associate's degree and 836 people obtained a bachelor's degree as a result of CSBG Network assistance. Over 8,300 people acquired a high school diploma or equivalency certificate, while more than 937,000 services were provided to people in the employment domain.

CSBG works to reduce dependence on other federal safety net services and increase the number of people contributing to the economy by focusing on helping people build capacities through a range of human development interventions. Therefore, CSBG-eligible entities across the nation are placing increased emphasis on providing coordinated services and long-term stability and self-sufficiency of individuals, families, and communities, as well as essential emergency services.

The coordinated services provided by CSBG go beyond short-term interventions and strengthen long-term economic security for individuals, communities, and the nation. Based on annual reports from CSBG-eligible entities, every dollar invested in CSBG leveraged \$13.70 of other federal, state, local, and private funds, and CSBG's flexibility allows CSBG-eligible entities to fund innovative programs and activities not supported by other resources.

## CSBG State Assessments Overview

The CSBG Act requires that each state designate a lead agency to administer CSBG. Further, the CSBG Act requires the HHS Secretary to conduct evaluations in several states each FFY regarding the use of CSBG funds. In compliance with the CSBG Act, state assessments (SAs) are conducted to examine the implementation, performance, compliance, and outcomes of a state's CSBG and to certify that the state is adhering to the provisions of the CSBG Act, in accordance with sections 678B and 676(b) of the Act, 42 U.S.C. 9914.

On April 13, 2020, OCS published CSBG-IM-157<sup>63</sup> providing immediate guidance on the COVID-19 response for CSBG stakeholders. In this IM, OCS informed the CSBG Network that all on-site monitoring would be postponed in alignment with an OMB directive to postpone non-essential travel. In accordance with the CSBG Act, the SAs examine the states' assurances pursuant to section 676, 42 U.S.C. 9908, including the following:

1. Activities designed to assist and coordinate services to low-income families and individuals, including those receiving assistance under the TANF program, the elderly, homeless, migrant, and seasonal workers, and youth.
2. Coordination of service delivery to ensure linkages among services, such as to employment and training activities, with the LIHEAP, faith-based and other community-based charitable organizations, and other social services programs.
3. Innovative approaches for community and neighborhood-based service provision.
4. Ability to provide emergency food and nutrition to populations served.
5. Adherence to statutory procedures governing the termination and reduction of funding for the local CSBG-eligible entity administering the program.
6. Adequate and appropriate composition of tripartite boards.
7. Appropriate fiscal and programmatic procedures to include a Community Action Plan from the CSBG-eligible entities that identifies how the needs of communities will be met with CSBG funds.
8. Participation in a performance measurement system, such as ROMA initiative.

The SAs also examine fiscal and governance issues of the CSBG-eligible entities that provide CSBG-funded services in local communities as well as the state's oversight procedures for the CSBG-eligible entities. Fiscal and governance issues examined include:

1. Methodology for distribution and disbursement of CSBG funds to the CSBG-eligible entities.

---

<sup>63</sup> CSBG-IM-157, *Immediate Guidance on COVID-19 Response*, <https://www.acf.hhs.gov/ocs/policy-guidance/csbg-im-2020-157-immediate-guidance-covid-19-response>.

2. Fiscal controls and accounting procedures.
3. State administrative expenses.
4. Mandatory public hearings conducted by the state legislature.
5. General procedures for governing the administration of CSBG, including tripartite board governance, non-discrimination provisions, and political activities prohibitions.

The SAs, conducted by OCS, follow a standard monitoring protocol for administrative, programmatic, and fiscal compliance with CSBG requirements. To assure consistency in all aspects of its monitoring protocol, OCS reviewers assess data from the most recent year in which a full record of all financial, administrative, and programmatic data are available.

In FFY 2021 OCS conducted virtual SA reviews of the use of FY 2018 through FY 2019 CSBG funds by the states listed below. The SAs help OCS to assure the smooth operation of the CSBG at the state and local levels.

OCS submitted draft monitoring report of findings and recommendations to each state. OCS incorporated state's responses into the final Monitoring Report.<sup>64</sup>

---

<sup>64</sup> Final Monitoring Reports are available on the OCS website upon release: <https://www.acf.hhs.gov/ocs/report/csbg-state-assessments>.

## State of Colorado

### State Assessment Summary

OCS conducted a virtual SA in the State of Colorado from December 7 to December 11, 2020. OCS reviewed documented procedures and practices for fiscal, program, and administrative operations of FFY 2018. The SA team also interviewed Colorado's state officials responsible for administering CSBG. A review of the information collected during various interviews and documentation received during and after the review identified areas for improvement in the administrative, financial, and program areas of Colorado's CSBG.

### Program Operations

The Governor of Colorado has designated the Colorado Department of Local Affairs (DOLA), as the lead agency for administration of CSBG. DOLA provides CSBG funding, technical assistance, and support to Colorado CSBG-eligible entities. The CSBG-eligible entities provide an array of services according to a community action plan formulated to address local needs. Services may include housing, energy assistance, nutrition, employment and training, transportation, family development, childcare, health care, emergency food and shelter, and domestic violence prevention services. Services also may include financial empowerment and micro-business development.

DOLA allocated approximately 90 percent of funds to its CSBG-eligible entities.

### CSBG-Eligible Entities' Monitoring and Assessments

States are required by the CSBG Act to perform full on-site monitoring reviews at least once every three years for each CSBG-eligible entity. A monitoring report should be sent to the Board Chairperson and the Executive Director of the agency. Follow-up visits should be coordinated with the CSBG-eligible entity if deficiencies were noted during the on-site visit. DOLA performed the required monitoring and follow-up reviews of its 32 CSBG-eligible entities.

## State of Washington

### State Assessment Summary

OCS conducted a virtual SA in the State of Washington from April 19 to April 23, 2021. OCS reviewed documented procedures and practices for fiscal, program, and administrative operations of FFY 2019. The SA team also interviewed Washington's state officials responsible for administering CSBG. A review of the information collected during various interviews and documentation received during and after the review identified areas for improvement in the administrative, financial, and program areas of Washington's CSBG.

### Program Operations

The Governor of Washington has designated the Washington State Department of Commerce, Community Services and Housing Division (CSHD), as the lead agency for administration of CSBG. CSHD provides CSBG funding, technical assistance, and support to 30 CSBG-eligible entities. The CSBG-eligible entities provide an array of services according to a community action plan formulated to address local needs. Services may include housing, energy assistance, nutrition, employment and training, transportation, family development, childcare, health care, emergency food and shelter, and domestic violence prevention services. Services also may include financial empowerment and micro-business development.

CSHD allocated approximately 90 percent of funds to its CSBG-eligible entities.

### CSBG-Eligible Entities' Monitoring and Assessments

States are required by the CSBG Act to perform full on-site monitoring reviews at least once every three years for each CSBG-eligible entity. A monitoring report should be sent to the Board Chairperson and the Executive Director of the agency. Follow-up visits should be coordinated with the CSBG-eligible entity if deficiencies were noted during the on-site visit. CSHD performed the required monitoring and follow-up reviews of its 30 CSBG-eligible entities.

## State of New Mexico

### State Assessment Summary

OCS conducted a virtual SA in the State of New Mexico from May 10 – May 14, 2021. OCS reviewed documented procedures and practices for fiscal, program, and administrative operations of FFY 2019. The SA team also interviewed New Mexico’s state officials responsible for administering CSBG. A review of the information collected during various interviews and documentation received during and after the review identified areas for improvement in the administrative, financial, and program areas of New Mexico’s CSBG.

### Program Operations

The Governor of New Mexico has designated the New Mexico State Department of Commerce, Housing Services Division (HSD) as the lead agency for administration of CSBG. HSD provides CSBG funding, technical assistance, and support to six CSBG-eligible entities. The CSBG-eligible entities provide an array of services according to a community action plan formulated to address local needs. Services may include housing, energy assistance, nutrition, employment and training, transportation, family development, childcare, health care, emergency food and shelter, and domestic violence prevention services. Services also may include financial empowerment and micro-business development.

HSD allocated approximately 90 percent of funds to its CSBG-eligible entities.

### CSBG-Eligible Entities’ Monitoring and Assessments

States are required by the CSBG Act to perform full on-site monitoring reviews at least once every 3 years for each CSBG-eligible entity. A monitoring report should be sent to the Board Chairperson and the Executive Director of the agency. Follow-up visits should be coordinated with the CSBG-eligible entity if deficiencies were noted during the on-site visit. HSD performed the required monitoring and follow-up reviews of its six CSBG-eligible entities.

## State of Maryland

### State Assessment Summary

OCS conducted a virtual SA in the State of Maryland from June 14 through June 18, 2021. OCS reviewed documented procedures and practices for fiscal, program, and administrative operations of FFY 2019. The SA team also interviewed Maryland's state officials responsible for administering CSBG. A review of the information collected during various interviews and documentation received during and after the review identified areas for improvement in the administrative, financial, and program areas of Maryland's CSBG.

### Program Operations

The Governor of Maryland has designated the Maryland Department of Housing and Community Development (DHCD), as the lead agency for administration of CSBG. DHCD provides CSBG funding, technical assistance, and support to 17 CSBG-eligible entities. The CSBG-eligible entities provide an array of services according to a community action plan formulated to address local needs. Services may include housing, energy assistance, nutrition, employment and training, transportation, family development, childcare, health care, emergency food and shelter, and domestic violence prevention services. Services also may include financial empowerment and micro-business development.

DHCD allocated approximately 90 percent of funds to its CSBG-eligible entities.

### CSBG-Eligible Entities' Monitoring and Assessments

States are required by the CSBG Act to perform full on-site monitoring reviews at least once every three years for each CSBG-eligible entity. A monitoring report should be sent to the Board Chairperson and the Executive Director of the agency. Follow-up visits should be coordinated with the CSBG-eligible entity if deficiencies were noted during the on-site visit. DHCD performed the required monitoring and follow-up reviews of its 17 CSBG-eligible entities.

## State of South Dakota

### State Assessment Summary

OCS conducted a virtual SA in the State of South Dakota from June 21 to June 25, 2021. OCS reviewed documented procedures and practices for fiscal, program, and administrative operations of FFY 2019. The SA team also interviewed South Dakota's state officials responsible for administering CSBG. A review of the information collected during various interviews and documentation received during and after the review identified areas for improvement in the administrative, financial, and program areas of South Dakota's CSBG.

### Program Operations

The Governor of South Dakota has designated the South Dakota Department of Social Services, Division of Economic Assistance (DSS), as the lead agency for administration of CSBG. DSS provides CSBG funding, technical assistance, and support to four CSBG-eligible entities. The CSBG-eligible entities provide an array of services according to a community action plan formulated to address local needs. Services may include housing, energy assistance, nutrition, employment and training, transportation, family development, childcare, health care, emergency food and shelter, and domestic violence prevention services. Services also may include financial empowerment and micro-business development.

DSS allocated approximately 90 percent of funds to its CSBG-eligible entities.

### CSBG-Eligible Entities' Monitoring and Assessments

States are required by the CSBG Act to perform full on-site monitoring reviews at least once every three years for each CSBG-eligible entity. A monitoring report should be sent to the Board Chairperson and the Executive Director of the agency. Follow-up visits should be coordinated with the CSBG-eligible entity if deficiencies were noted during the on-site visit. DSS performed the required monitoring and follow-up reviews of its four CSBG-eligible entities.

## State of Oregon

### State Assessment Summary

OCS conducted a virtual SA in the State of Oregon from July 19 to July 23, 2021. OCS reviewed documented procedures and practices for fiscal, program, and administrative operations of FFY 2019. The SA team also interviewed Oregon's state officials responsible for administering CSBG. A review of the information collected during various interviews and documentation received during and after the review identified areas for improvement in the administrative, financial, and program areas of Oregon's CSBG.

### Program Operations

The Governor of Oregon has designated the Oregon State Department of Commerce, Housing and Community Services (OHCS), as the lead agency for administration of CSBG. OHCS provides CSBG funding, technical assistance, and support to 18 CSBG-eligible entities. The CSBG-eligible entities provide an array of services according to a community action plan formulated to address local needs. Services may include housing, energy assistance, nutrition, employment and training, transportation, family development, childcare, health care, emergency food and shelter, and domestic violence prevention services. Services also may include financial empowerment and micro-business development.

OHCS allocated approximately 90 percent of funds to its CSBG-eligible entities.

### CSBG-Eligible Entities' Monitoring and Assessments

States are required by the CSBG Act to perform full on-site monitoring reviews at least once every three years for each CSBG-eligible entity. A monitoring report should be sent to the Board Chairperson and the Executive Director of the agency. Follow-up visits should be coordinated with the CSBG-eligible entity if deficiencies were noted during the on-site visit. OHCS performed the required monitoring and follow-up reviews of its 18 CSBG-eligible entities.

## State of Delaware

### State Assessment Summary

OCS conducted a virtual SA in the State of Delaware from August 2 to August 6, 2021. OCS reviewed documented procedures and practices for fiscal, program, and administrative operations of FFY 2019. The SA team also interviewed Delaware's state officials responsible for administering CSBG. A review of the information collected during various interviews and documentation received during and after the review identified areas for improvement in the administrative, financial, and program areas of Delaware's CSBG.

### Program Operations

The Governor of Delaware has designated the Delaware Health & Social Services, Division of State Services Centers (DSSC), as the lead agency for administration of CSBG. DSSC provides CSBG funding, technical assistance, and support to one CSBG-eligible entity. The CSBG-eligible entities provide an array of services according to a community action plan formulated to address local needs. Services may include housing, energy assistance, nutrition, employment and training, transportation, family development, childcare, health care, emergency food and shelter, and domestic violence prevention services. Services also may include financial empowerment and micro-business development.

DSSC allocated approximately 90 percent of funds to its CSBG-eligible entities.

### CSBG-Eligible Entities' Monitoring and Assessments

States are required by the CSBG Act to perform full on-site monitoring reviews at least once every three years for each CSBG-eligible entity. A monitoring report should be sent to the Board Chairperson and the Executive Director of the agency. Follow-up visits should be coordinated with the CSBG-eligible entity if deficiencies were noted during the on-site visit. DSSC performed the required monitoring and follow-up reviews of its one CSBG-eligible entity.

## State of North Dakota

### State Assessment Summary

OCS conducted a virtual SA in the State of North Dakota from August 30 to September 3, 2021. OCS reviewed documented procedures and practices for fiscal, program, and administrative operations of FFY 2019. The SA team also interviewed North Dakota's state officials responsible for administering CSBG. A review of the information collected during various interviews and documentation received during and after the review identified areas for improvement in the administrative, financial, and program areas of North Dakota's CSBG.

### Program Operations

The Governor of North Dakota has designated the ND Department of Commerce, Division of Community Services (DCS), as the lead agency for administration of CSBG. DCS provides CSBG funding, technical assistance, and support to seven CSBG-eligible entities. The CSBG-eligible entities provide an array of services according to a community action plan formulated to address local needs. Services may include housing, energy assistance, nutrition, employment and training, transportation, family development, childcare, health care, emergency food and shelter, and domestic violence prevention services. Services also may include financial empowerment and micro-business development.

DCS allocated approximately 91 percent of funds to its CSBG-eligible entities.

### CSBG-Eligible Entities' Monitoring and Assessments

States are required by the CSBG Act to perform full on-site monitoring reviews at least once every three years for each CSBG-eligible entity. A monitoring report should be sent to the Board Chairperson and the Executive Director of the agency. Follow-up visits should be coordinated with the CSBG-eligible entity if deficiencies were noted during the on-site visit. DCS performed the required monitoring and follow-up reviews of its seven CSBG-eligible entities.

## State of New Hampshire

### State Assessment Summary

OCS conducted a virtual SA in the State of New Hampshire from September 20 to September 24, 2023. OCS reviewed documented procedures and practices for fiscal, program, and administrative operations of FFY 2019. The SA team also interviewed New Hampshire state officials responsible for administering CSBG. A review of the information collected during various interviews and documentation received during and after the review identified areas for improvement in the administrative, financial, and program areas of New Hampshire's CSBG.

### Program Operations

The Governor of New Hampshire has designated the New Hampshire Department of Health and Human Services (DHHS), as the lead agency for administration of CSBG. DHHS provides CSBG funding, technical assistance, and support to five CSBG-eligible entities. The CSBG-eligible entities provide an array of services according to a community action plan formulated to address local needs. Services may include housing, energy assistance, nutrition, employment and training, transportation, family development, childcare, health care, emergency food and shelter, and domestic violence prevention services. Services also may include financial empowerment and micro-business development.

DHHS allocated approximately 95 percent of funds to its CSBG-eligible entities.

### CSBG-Eligible Entities' Monitoring and Assessments

States are required by the CSBG Act to perform full on-site monitoring reviews at least once every three years for each CSBG-eligible entity. A monitoring report should be sent to the Board Chairperson and the Executive Director of the agency. Follow-up visits should be coordinated with the CSBG-eligible entity if deficiencies were noted during the on-site visit.

## Appendix B Overview

The tables in Appendix B represent the fourth year that states reported Modules 2-4 of the state CSBG Annual Report.

CSBG state lead agencies are not required to collect demographic data for all individuals and families due to differing program requirements, and therefore, the total for each category may be less than the total number of clients served as shown in Table B–11. Due to this, the totals shown in Tables B–12 – B–22 may not equal the totals shown in Table B–11.

TABLE B-1: STATE USES OF CSBG FUNDS

State	Obligations to CSBG-Eligible Entities	Remainder/Discretionary Funds	State Admin Costs	Total Obligations in FY21	Carryover for this Fiscal Year	Prior Year Carryover
Alabama	\$28,575,645	\$0	\$738,935	\$29,314,580	\$13,714,087	\$13,268,600
Alaska	\$2,477,356	\$0	\$130,386	\$2,607,742	\$16,104	\$16,104

<sup>88</sup> The total non-CSBG resources allocated may not equal the sum of the previous columns if the agencies reported an estimated amount for duplicative reporting of resources, which was then removed

<sup>89</sup> Numbers were rounded to the nearest whole dollar, so the totals may exceed or be less than the sum of the numbers presented here.
