

THE SECRETARY OF VETERANS AFFAIRS
WASHINGTON

February 27, 2023

The Honorable Jon Tester
Chairman
Committee on Veterans' Affairs
United States Senate
Washington, DC 20510

Dear Mr. Chairman:

In accordance with the requirements of 38 U.S.C. §8119, enclosed is the Department of Veterans Affairs (VA) Fiscal Year 2022 Annual Report to Congress on VA Outpatient Clinics. VA remains committed to honoring the Nation's Veterans by ensuring a safe environment to deliver exceptional health care.

In addition, as required by 38 U.S.C. §116, a statement of the cost for preparing the report is also included. This report has been sent to the leaders of the House and Senate Committees on Veterans' Affairs.

Sincerely,

A handwritten signature in black ink, appearing to read "Denis McDonough".

DEPARTMENT OF VETERANS AFFAIRS

Congressionally Mandated Report: Community Based Outpatient Clinics (CBOC) February 2023

Table of Contents

Introduction	1
Statutory Requirement	1
Report Summary	1
Conclusion	2

Introduction

The annual report on community-based outpatient clinics (CBOC) summarizes all clinics currently operated by the Department of Veterans Affairs (VA) Veterans Health Administration (VHA), which includes clinics that VHA activated during fiscal year (FY) 2022; clinics that VHA is in the process of activating; and other clinic locations approved by the Secretary through the Strategic Capital Investment Plan.

Statutory Requirement

VA is required by 38 U.S.C. § 8119 to submit to Congress an annual report on VA CBOCs and other outpatient clinics. Each report required under subsection (a) shall include the following:

- (1) A list of each CBOC and other outpatient clinics of the Department, and for each such clinic, the type of clinic, location, size, number of health professionals employed by the clinic, workload, whether the clinic is leased or constructed and operated by the Secretary and the annual cost of operating the clinic.
- (2) A list of CBOCs and other outpatient clinics that the Secretary opened during the fiscal year preceding the fiscal year the report is submitted and a list of clinics the Secretary proposes opening during the fiscal year the report is submitted and the subsequent fiscal year, together with the cost of activating each such clinic and the information required to be provided under paragraph (1) for each such clinic and proposed clinic.
- (3) A list of proposed CBOCs and other outpatient clinics that are, as of the date of the submission of the report, under review by the National Review Panel, and a list of possible locations for future clinics identified in the Department's strategic planning process, including any identified locations in rural and underserved areas.
- (4) A prioritized list of sites of care that the Secretary could establish without carrying out construction or entering into a lease, including:
 - (A) Any such sites that could be expanded by hiring additional staff or allocating staff to Federal facilities or facilities operating in collaboration with the Federal Government; and
 - (B) Any sites established, or able to be established, under sections 8111 and 8153 of this title.

Report Summary

Attachment A lists the 1,134 outpatient clinics active in the VA inventory for FY 2022. Attachment A also provides a breakdown of full-time employee equivalents (FTEE) at each site. As in prior reports, FTEE have historically been estimated using workload (encounters) at each outpatient clinic. This methodology was continued this year. Please note that the ongoing impacts of the Coronavirus Disease, 2019 pandemic may

have resulted in a lower than usual number of encounters at some locations, and artificially depressing the FTEE numbers.

- 26 outpatient clinics have greater than 100 FTEE (2.3% of all open clinics)
- 50 outpatient clinics have between 50 and 99 FTEE (4.4% of all open clinics)
- 88 outpatient clinics have between 26 and 49 FTEE (7.8% of all open clinics)
- 341 outpatient clinics have between 10 and 25 FTEE (30.0% of all open clinics)
- 629 outpatient clinics have fewer than 10 FTEE (55.5% of all open clinics)

It is important to note that FTEE data is approximate or undetermined in the case of planned clinics. We are unable to provide the exact number of health professionals, as staffing is not always fully dedicated to a specific clinic or site.

VHA activated 28 clinic locations this fiscal year, which are outlined in Attachment B.

VHA's planned clinic list (Attachment C) includes 165 clinic locations that are currently in the planned phase or are in the process of being worked toward award. Additionally, VHA's proposed clinic list (Attachment D) represents VA's minor lease request, which was included in the 2023 VA Budget Submission. This list identifies 156 new or replacement minor lease requests that VHA will continue planning, developing or executing in FY 2023.

There were no sites identified that could be established without carrying out construction or entering into a lease in this fiscal year.

Conclusion

Managing VHA's CBOCs continues to be a top priority for the Administration. Understanding workload and demographics to ensure the proper locations of CBOCs will continue to be a priority to ensure Veterans nationwide continue to receive world class care.
