The Congress finds that—

(2) women are less likely to focus on the STEM disciplines in undergraduate and graduate study;

(3) only 26 percent of women who do attain degrees in STEM fields work in STEM jobs;

(4) there is an increasing demand for individuals with STEM degrees to extend their focus beyond the laboratory so they can be leaders in discovery commercialization;

(5) studies have shown that technology and commercialization ventures are successful when women are in top management positions; and

(6) the National Science Foundation’s mission includes supporting women in STEM disciplines.

### SEC. 3. SUPPORTING WOMEN’S ENTREPRENEURIAL PROGRAMS.
