“(3)(A) The Secretary of Defense shall develop and implement a comprehensive strategy to optimize management practices across the defense commissary system and the exchange system that reduce reliance of those systems on appropriated funding without reducing benefits to the patrons of those systems or the revenue generated by nonappropriated fund entities or instrumentalities of the Department of Defense for the morale, welfare, and recreation of members of the armed forces.

“(B) The Secretary shall ensure that savings generated due to such optimization practices are shared by the defense commissary system and the exchange system through contracts or agreements that appropriately reflect the participation of the

systems in the development and implementation of such practices.

“(C) If the Secretary determines that the reduced reliance on appropriated funding pursuant to subparagraph (A) is insufficient to maintain the benefits to the patrons of the defense commissary system, and if the Secretary converts the defense commissary system to a nonappropriated fund entity or instrumentality pursuant to paragraph (1) of section 2484(j) of this title, the Secretary shall transfer appropriated funds pursuant to paragraph (2) of such section to ensure the maintenance of such benefits.

“(4) On not less than a quarterly basis, the Secretary shall provide to the congressional defense committees a briefing on the defense commissary system, including—

Notwithstanding the amount of the uniform surcharge assessed in subsection (d), the Secretary may provide for an alternative surcharge of not more than five percent of sales proceeds under the variable pricing program to be made available for the purposes specified in subsection (h).

“(2) Subject to subsection (k), before establishing a variable pricing program under this subsection, the Secretary shall establish the following:

“(A) Specific, measurable benchmarks for success in the provision of high quality grocery merchandise, discount savings to patrons, and levels of customer satisfaction while achieving savings for the Department of Defense.

“(B) A baseline of overall savings to patrons achieved by commissary stores prior to the initiation of the variable pricing program, based on a comparison of prices charged by those stores on a regional basis with prices charged by relevant local competitors for a representative market basket of goods.

“(3) The Secretary shall ensure that the defense commissary system implements the variable pricing program by conducting price comparisons using the methodology established for paragraph (2)(B) and adjusting pricing as necessary to ensure that pricing in the variable pricing program achieves overall savings to patrons that are consistent with the baseline savings established for the relevant region pursuant to such paragraph.

“(j) CONVERSION TO NONAPPROPRIATED FUND ENTITY OR INSTRUMENTALITY.(1) Subject to subsection (k), if the Secretary of Defense determines that the variable pricing program has met the benchmarks for success established pursuant to paragraph (2)(A) of subsection (i) and the savings requirements established pursuant to paragraph (3) of such subsection over a period of at least six months, the Secretary may convert the defense commissary system to a nonappropriated fund entity or instrumentality, with operating expenses financed in whole or in part by receipts from the sale of products and the sale of services. Upon such conversion, appropriated funds shall be transferred to the defense commissary system only in accordance with paragraph (2) or section 2491 of this title. The requirements of section 2483 of this title shall not apply to the defense commissary system operating as a nonappropriated fund entity or instrumentality.

“(2) If the Secretary determines that the defense commissary system operating as a nonappropriated fund entity or instrumentality is likely to incur a loss in any fiscal year as a result of compliance with the savings requirement established in subsection (i), the Secretary shall authorize a transfer of appropriated funds available for such purpose to the commissary system in an amount sufficient to offset the anticipated loss. Any funds so transferred shall be considered to be nonappropriated funds for such purpose.

“(3)(A) The Secretary may identify positions of employees in the defense commissary system who are paid with appropriated funds whose status may be converted to the status of an employee of a nonappropriated fund entity or instrumentality.

“(B) The status and conversion of employees in a position identified by the Secretary under subparagraph (A) shall be addressed as provided in section 2491(c) of this title for employees in morale, welfare, and recreation programs, including with respect to requiring the consent of such employee to be so converted.

 “(A) use funds appropriated pursuant to section 2483 of this title to reimburse a nonappropriated fund entity or instrumentality for the portion of the cost of a contract or agreement entered by the nonappropriated fund entity or instrumentality that is attributable to the defense commissary system; and

 “(B) authorize the defense commissary system to accept reimbursement from a nonappropriated fund entity or instrumentality for the portion of the cost of a contract or agreement entered by the defense commissary system that is attributable to the nonappropriated fund entity or instrumentality.”.

“(a) MODULAR OPEN SYSTEM APPROACH REQUIREMENT. A major defense acquisition program that receives Milestone A or Milestone B approval after January 1, 2019, shall be designed and developed, to the maximum extent practicable, with a modular open system approach to enable incremental development and enhance competition, innovation, and interoperability.

“(b) DEFINITIONS. In this chapter:

“(1) The term ‘modular open system approach’ means, with respect to a major defense acquisition program, an integrated business and technical strategy that—

“(A) employs a modular design that uses major system interfaces between a major system platform and a major system component, between major system components, or between major system platforms;

“(B) is subjected to verification to ensure major system interfaces comply with, if available and suitable, widely supported and consensus-based standards;

“(C) uses a system architecture that allows severable major system components at the appropriate level to be incrementally added, removed, or replaced throughout the life cycle of a major system platform to afford opportunities for enhanced competition and innovation while yielding—

“(i) significant cost savings or avoidance;

“(ii) schedule reduction;

“(iii) opportunities for technical upgrades;

“(iv) increased interoperability, including system of systems interoperability and mission integration; or

“(v) other benefits during the sustainment phase of a major weapon system; and

“(D) complies with the technical data rights set forth in section 2320 of this title.

“(2) The term ‘major system platform’ means the highest level structure of a major weapon system that is not physically mounted or installed onto a higher level structure and on which a major system component can be physically mounted or installed.

“(3) The term ‘major system component’—

“(A) means a high level subsystem or assembly, including hardware, software, or an integrated assembly of both, that can be mounted or installed on a major system platform through well-defined major system interfaces; and

“(B) includes a subsystem or assembly that is likely to have additional capability requirements, is likely to change because of evolving technology or threat, is needed for interoperability, facilitates incremental deployment of capabilities, or is expected to be replaced by another major system component.

“(4) The term ‘major system interface’—

“(A) means a shared boundary between a major system platform and a major system component, between major system components, or between major system platforms, defined by various physical, logical, and functional characteristics, such as electrical, mechanical, fluidic, optical, radio frequency, data, networking, or software elements; and

“(B) is characterized clearly in terms of form, function, and the content that flows across the interface in order to enable technological innovation, incremental improvements, integration, and interoperability.

“(5) The term ‘program capability document’ means, with respect to a major defense acquisition program, a document that specifies capability requirements for the program, such as a capability development document or a capability production document.

“(6) The terms ‘program cost targets’ and ‘fielding target’ have the meanings provided in section 2448a(a) of this title.

“(7) The term ‘major defense acquisition program’ has the meaning provided in section 2430 of this title.

“(b) ANALYSIS OF ALTERNATIVES. The Director of Cost Assessment and Performance Evaluation, in formulating study guidance for analyses of alternatives for major defense acquisition programs and performing such analyses under section 139a(d)(4) of this title, shall ensure that any such analysis for a major defense acquisition program includes consideration of evolutionary acquisition, prototyping, and a modular open system approach.

“(c) ACQUISITION STRATEGY. In the case of a major defense acquisition program that uses a modular open system approach, the acquisition strategy required under section 2431a of this title shall—

“(1) clearly describe the modular open system approach to be used for the program;

“(2) differentiate between the major system platform and major system components being developed under the program, as well as major system components developed outside the pro-

gram that will be integrated into the major defense acquisition program;

“(3) clearly describe the evolution of major system components that are anticipated to be added, removed, or replaced in subsequent increments;

“(4) identify additional major system components that may be added later in the life cycle of the major system platform;

“(5) clearly describe how intellectual property and related issues, such as technical data deliverables, that are necessary to support a modular open system approach, will be addressed; and

“(6) clearly describe the approach to systems integration and systems-level configuration management to ensure mission and information assurance.

“(d) REQUEST FOR PROPOSALS. The milestone decision authority for a major defense acquisition program that uses a modular open system approach shall ensure that a request for proposals for the development or production phases of the program shall describe the modular open system approach and the minimum set of major system components that must be included in the design of the major defense acquisition program.

“(e) MILESTONE B. A major defense acquisition program may not receive Milestone B approval under section 2366b of this title until the milestone decision authority determines in writing that—

“(1) in the case of a program that uses a modular open system approach—

“(A) the program incorporates clearly defined major system interfaces between the major system platform and major system components, between major system components, and between major system platforms;

“(B) such major system interfaces are consistent with the widely supported and consensus-based standards that exist at the time of the milestone decision, unless such standards are unavailable or unsuitable for particular major system interfaces; and

“(C) the Government has arranged to obtain appropriate and necessary intellectual property rights with respect to such major system interfaces upon completion of the development of the major system platform; or

“(2) in the case of a program that does not use a modular open system approach, that the use of a modular open system approach is not practicable.

“SEC. 2446c. [10 U.S.C. 2446c] REQUIREMENTS RELATING TO AVAILABILITY OF MAJOR SYSTEM INTERFACES AND SUPPORT FOR MODULAR OPEN SYSTEM APPROACH

“The Secretary of each military department shall—

“(1) coordinate with the other military departments, the defense agencies, defense and other private sector entities, national standards-setting organizations, and, when appropriate, with elements of the intelligence community with respect to the specification, identification, development, and maintenance of major system interfaces and standards for use in major system platforms, where practicable;

“(2) ensure that major system interfaces incorporate commercial standards and other widely supported consensus-based standards that are validated, published, and maintained by recognized standards organizations to the maximum extent practicable;

“(3) ensure that sufficient systems engineering and development expertise and resources are available to support the use of a modular open system approach in requirements development and acquisition program planning;

SEC. 1088. SENSE OF CONGRESS REGARDING CONNECTICUT'S SUBMARINE CENTURY.

(a) **FINDINGS.**—Congress makes the following findings:

(1) On March 2, 1867, Congress enacted a naval appropriations Act that authorized the Secretary of the Navy to “receive and accept a deed of gift, when offered by the State of Connecticut, of a tract of land with not less than one mile of shore front on the Thames River near New London, Connecticut, to be held by the United States for naval purposes”.

(2) The people of Connecticut and the towns and cities in the southeastern region of Connecticut subsequently gifted land to establish a military installation to fulfil the Nation’s need for a naval facility on the Atlantic coast.

(3) On April 11, 1868, the Navy accepted the deed of gift of land from Connecticut to establish a naval yard and storage depot along the eastern shore of the Thames River in Groton, Connecticut.

(4) Between 1868 and 1912, the New London Navy Yard supported a diverse range of missions, including berthing inactive Civil War era ironclad warships and serving as a coaling station for refueling naval ships traveling in New England waters.

(5) Congress rejected the Navy's proposal to close New London Navy Yard in 1912, following an impassioned effort by Congressman Edwin W. Higgins, who stated that "this action proposed is not only unjust but unreasonable and unsound as a military proposition".

(6) The outbreak of World War I and the enemy use of submarines to sink allied military and civilian ships in the Atlantic sparked a new focus on developing submarine capabilities in the United States.

(7) October 18, 1915, marked the arrival at the New London Navy Yard of the submarines G-1, G-2, and G-4 under the care of the tender USS Ozark and the arrival of submarines E-1, D-1, and D-3 under the care of the tender USS Tonopah. November 1, 1915, marked the arrival of the first ship built as a submarine tender, the USS Fulton (AS-1).

(8) On June 21, 1916, Commander Yeates Stirling assumed the command of the newly designated Naval Submarine Base New London, the New London Submarine Flotilla, and the Submarine School.

(9) In the 100 years since the arrival of the first submarines to the base, Naval Submarine Base New London has grown to occupy more than 680 acres along the east side of the Thames River, with more than 160 major facilities, 15 nuclear submarines, and more than 70 tenant commands and activities, including the Submarine Learning Center, Naval Submarine School, the Naval Submarine Medical Research Laboratory, the Naval Undersea Medical Institute, and the newly established Undersea Warfighting Development Center.

(10) In addition to being the site of the first submarine base in the United States, Connecticut was home to the foremost submarine manufacturers of the time, the Lake Torpedo Boat Company in Bridgeport and the Electric Boat Company in Groton, which later became General Dynamics Electric Boat.

(11) General Dynamics Electric Boat, its talented workforce, and its Connecticut-based and nationwide network of suppliers have delivered more than 200 submarines from its current location in Groton, Connecticut, including the first nuclear-powered submarine, the USS Nautilus (SSN 571), and nearly half of the nuclear submarines ever built by the United States.

(12) The Submarine Force Museum, located adjacent to Naval Submarine Base New London in Groton, Connecticut, is the only submarine museum operated by the United States Navy and today serves as the primary repository for artifacts, documents, and photographs relating to the bold and coura-

geous history of the Submarine Force and highlights as its core exhibit the Historic Ship Nautilus (SSN 571) following her retirement from service.

(13) Reflecting the close ties between Connecticut and the Navy that began with the gift of land that established the base, the State of Connecticut has set aside \$40,000,000 in funding for critical infrastructure investments to support the mission of the base, including construction of a new dive locker building, expansion of the Submarine Learning Center, and modernization of energy infrastructure.

(14) On September 29, 2015, Connecticut Governor Dannel Malloy designated October 2015 through October 2016 as Connecticut's Submarine Century, a year-long observance that celebrates 100 years of submarine activity in Connecticut, including the Town of Groton's distinction as the Submarine Capital of the World, to coincide with the centennial anniversary of the establishment of Naval Submarine Base New London and the Naval Submarine School.

(15) Whereas Naval Submarine Base New London still proudly proclaims its motto of "The First and Finest".

(16) Congressman Higgins' statement before Congress in 1912 that "Connecticut stands ready, as she always has, to bear her part of the burdens of the national defense" remains true today.

(b) SENSE OF CONGRESS.—Congress—

(1) commends the longstanding dedication and contribution to the Navy and submarine force by the people of Connecticut, both through the initial deed of gift that established what would become Naval Submarine Base New London and through their ongoing commitment to support the mission of the base and the Navy personnel assigned to it;

(2) honors the submariners who have trained and served at Naval Submarine Base New London throughout its history in support of the Nation's security and undersea superiority;

(3) recognizes the contribution of the industry and workforce of Connecticut in designing, building, and sustaining the Navy's submarine fleet; and

(4) encourages the recognition of Connecticut's Submarine Century by Congress, the Navy, and the American people by honoring the contribution of the people of Connecticut to the defense of the United States and the important role of the submarine force in safeguarding the security of the United States for more than a century.

(2) the Deputy Secretary of Defense Robert O. Work did an excellent job reviewing the investigations of such mishap and concluded that there was a misrepresentation of facts by the media which incorrectly identified pilot error as the cause of the mishap which the Deputy Secretary publicly made known in March 2016; and

SEC. 1671. SENSE OF CONGRESS ON NUCLEAR DETERRENCE.

It is the sense of Congress that—

(1) the nuclear forces of the United States continue to play a fundamental role in deterring aggression against the interests of the United States and the allies of the United States in an increasingly dangerous world in which foreign adversaries, including the Russian Federation, are making explicit nuclear threats against the United States and such allies;

(2) strong United States nuclear forces assure the allies of the United States that the extended deterrence guarantees of the United States are credible and that the resolve of the United States remains strong even in the face of nuclear provocations, including nuclear coercion and blackmail;

(3) the prevention of war through effective deterrence requires survivable and flexible nuclear forces that are well exercised and ready to respond to nuclear escalation if necessary;

(4) possessing a range of capabilities and options to counter nuclear threats assures the allies of the United States and enhances the credibility of United States nuclear deterrence by reinforcing the resolve of the United States in the minds of such allies and potential adversaries;

(5) the declared policy of the United States with respect to the use of nuclear weapons must be coordinated and communicate clearly that the use of nuclear weapons against the United States or its vital interests would ultimately fail and subject the aggressor to incalculable consequences;

(6) in support of a strong and credible nuclear deterrent, the United States must—

(A) maintain a nuclear force with a diverse, flexible range of nuclear yield and delivery modes that are ready, capable, and credible;

(B) afford the highest priority to the modernization of the nuclear triad, dual-capable aircraft, and related command and control elements; and

(C) ensure the broadest participation of allies of the United States in nuclear defense planning, training, and exercises to demonstrate the commitment of the United States and such allies and their solidarity against nuclear threats and coercion; and

(7) with respect to the North Atlantic Treaty Organization (NATO)—

(A) NATO has made it clear at the NATO summit in Warsaw, Poland, in July 2018, that—

(i) “the fundamental purpose of NATO’s nuclear capability is to preserve peace, prevent coercion, and deter aggression”; and

(ii) “Nuclear weapons are unique. Any employment of nuclear weapons against NATO would fundamentally alter the nature of a conflict. The circumstances in which NATO might have to use nuclear weapons are extremely remote. If the fundamental security of any of its members were to be threatened however, NATO has the capabilities and resolve to impose costs on an adversary that would be unacceptable and far outweigh the benefits that an adversary could hope to achieve.”; and

(B) accordingly, effective deterrence requires that NATO conduct realistic nuclear planning and exercises, and modernize the full suite of dual-capable aircraft and associated command and control networks and facilities.

SEC. 1672. SENSE OF CONGRESS ON IMPORTANCE OF INDEPENDENT NUCLEAR DETERRENT OF UNITED KINGDOM.

It is the sense of Congress that—

(1) the United States believes that the independent nuclear deterrent and decision-making of the United Kingdom provides a crucial contribution to international stability, the

North Atlantic Treaty Organization alliance, and the national security of the United States;

(2) nuclear deterrence is and will continue to be the highest priority mission of the Department of Defense and the United States benefits when the closest ally of the United States clearly and unequivocally sets similar priorities;

(3) the United States sees the nuclear deterrent of the United Kingdom as central to trans-Atlantic security and to the commitment of the United Kingdom to NATO to spend two percent of gross domestic product on defense;

(4) the commitment of the United Kingdom to maintain a continuous at-sea deterrence posture today and in the future complements the deterrent capabilities of the United States and provides a credible “second center of decision making” which ensures potential attackers cannot discount the solidarity of the mutual relationship of the United States and the United Kingdom;

(5) the United States Navy must execute the Ohio-class replacement submarine program on time and within budget, seeking efficiencies and cost savings wherever possible, to ensure that the program delivers a Common Missile Compartment, the Trident II (D5) Strategic Weapon System, and associated equipment and production capabilities, that support the successful development and deployment of the Dreadnought submarines of the United Kingdom; and

(6) the close technical collaboration, especially expert mutual scientific peer review, provides valuable resilience and cost effectiveness to the respective deterrence programs of the United States and the United Kingdom.

SMALL BUSINESS PROCUREMENTS.**

Section 15(a) of the Small Business Act (15 U.S.C. 644(a)) is amended to read as follows:

“(a) SMALL BUSINESS PROCUREMENTS.

“(1) IN GENERAL. For purposes of this Act, small business concerns shall receive any award or contract if such award or contract is, in the determination of the Administrator and the contracting agency, in the interest of—

“(A) maintaining or mobilizing the full productive capacity of the United States;

“(B) war or national defense programs; or

“(C) assuring that a fair proportion of the total purchase and contracts for goods and services of the Government in each industry category (as defined under paragraph (2)) are awarded to small business concerns.

“(2) INDUSTRY CATEGORY DEFINED.

“(A) IN GENERAL. In this subsection, the term ‘industry category’ means a discrete group of similar goods and services, as determined by the Administrator in accordance with the North American Industry Classification System codes used to establish small business size standards, except that the Administrator shall limit an industry category to a greater extent than provided under the North American Industry Classification System codes if the Administrator receives evidence indicating that further segmentation of the industry category is warranted—

“(i) due to special capital equipment needs;

“(ii) due to special labor requirements;

“(iii) due to special geographic requirements, except as provided in subparagraph (B);

“(iv) due to unique Federal buying patterns or requirements; or

“(v) to recognize a new industry.

“(B) EXCEPTION FOR GEOGRAPHIC REQUIREMENTS. The Administrator may not further segment an industry category based on geographic requirements unless—

“(i) the Government typically designates the geographic area where work for contracts for goods or services is to be performed;

“(ii) Government purchases comprise the major portion of the entire domestic market for such goods or services; and

“(iii) it is unreasonable to expect competition from business concerns located outside of the general geographic area due to the fixed location of facilities, high mobilization costs, or similar economic factors.

“(3) DETERMINATIONS WITH RESPECT TO AWARDS OR CONTRACTS. Determinations made pursuant to paragraph (1) may be made for individual awards or contracts, any part of an award or contract or task order, or for classes of awards or contracts or task orders.

“(4) INCREASING PRIME CONTRACTING OPPORTUNITIES FOR SMALL BUSINESS CONCERNS.

“(A) DESCRIPTION OF COVERED PROPOSED PROCUREMENTS. The requirements of this paragraph shall apply to a proposed procurement that includes in its statement of work goods or services currently being supplied or performed by a small business concern and, as determined by the Administrator—

“(i) is in a quantity or of an estimated dollar value which makes the participation of a small business concern as a prime contractor unlikely;

“(ii) in the case of a proposed procurement for construction, seeks to bundle or consolidate discrete construction projects; or

“(iii) is a solicitation that involves an unnecessary or unjustified bundling of contract requirements.

“(B) NOTICE TO PROCUREMENT CENTER REPRESENTATIVES. With respect to proposed procurements described in subparagraph (A), at least 30 days before issuing a solicitation and concurrent with other processing steps required before issuing the solicitation, the contracting agency shall provide a copy of the proposed procurement to the procurement center representative of the contracting agency (as described in subsection (1)) along with a statement explaining—

“(i) why the proposed procurement cannot be divided into reasonably small lots (not less than economic production runs) to permit offers on quantities less than the total requirement;

“(ii) why delivery schedules cannot be established on a realistic basis that will encourage the participation of small business concerns in a manner consistent with the actual requirements of the Government;

“(iii) why the proposed procurement cannot be offered to increase the likelihood of the participation of small business concerns;

“(iv) in the case of a proposed procurement for construction, why the proposed procurement cannot be offered as separate discrete projects; or

“(v) why the contracting agency has determined that the bundling of contract requirements is necessary and justified.

“(C) ALTERNATIVES TO INCREASE PRIME CONTRACTING OPPORTUNITIES FOR SMALL BUSINESS CONCERNS. If the procurement center representative believes that the proposed

procurement will make the participation of small business concerns as prime contractors unlikely, the procurement center representative, within 15 days after receiving the statement described in subparagraph (B), shall recommend to the contracting agency alternative procurement methods for increasing prime contracting opportunities for small business concerns.

“(D) FAILURE TO AGREE ON AN ALTERNATIVE PROCUREMENT METHOD. If the procurement center representative and the contracting agency fail to agree on an alternative procurement method, the Administrator shall submit the matter to the head of the appropriate department or agency for a determination.

“(5) CONTRACTS FOR SALE OF GOVERNMENT PROPERTY. With respect to a contract for the sale of Government property, small business concerns shall receive any such contract if, in the determination of the Administrator and the disposal agency, the award of such contract is in the interest of assuring that a fair proportion of the total sales of Government property be made to small business concerns.

“(6) SALE OF ELECTRICAL POWER OR OTHER PROPERTY. Nothing in this subsection shall be construed to change any preferences or priorities established by law with respect to the sale of electrical power or other property by the Federal Government.

“(7) COSTS EXCEEDING FAIR MARKET PRICE. A contract may not be awarded under this subsection if the cost of the contract to the awarding agency exceeds a fair market price.”.

“(i) IN GENERAL. To assist in the implementation of this section, the Administrator shall have access to information collected through the Federal Procurement Data System, Federal Subcontracting Reporting System, or any new or successor system.

“(ii) GSA REPORT. On the date that the Administrator makes available the report required under paragraph (2), the Administrator of the General Services Administration shall submit to the President and Congress, and shall make available on a public website, a report in the same form and manner, and including the same information, as the report required under paragraph (2). The report shall include all procurements made for the period covered by the report and may not exclude any contract awarded.

“(B) AGENCY PROCUREMENT DATA SOURCES. To assist in the implementation of this section, the head of each contracting agency shall provide, upon request of the Administrator, procurement information collected through agency data collection sources in existence at the time of the re-

quest. Contracting agencies shall not be required to establish new data collection systems to provide such data.”.

“(B) shall, unless the contracting agency requests a review, limit the scope of review by the procurement center representative for any solicitation of a contract or task order if such solicitation is awarded by or for the Department of Defense and—
