**SEC. 1687. PLAN FOR THE REDESIGNED KILL VEHICLE REPLACEMENT.**

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the decision by the Department of Defense to terminate the redesigned kill vehicle contract on August 22, 2019, due to technological problems encountered during development will result in a delay to the fielding of an additional 20 ground-based interceptors at Fort Greely, Alaska, which had been planned to be emplaced by the end of calendar year 2023;

(2) to ensure that the future next-generation improved homeland defense interceptor program will deliver the required capability, have rigorous technical and acquisition oversight, and maintain schedule milestones, thereby mitigating the risk of similar issues as experienced with the redesigned kill vehicle, the acquisition strategy for such program should be reviewed and jointly approved by both the Under Secretary of Defense for Research and Engineering and the Under Secretary of Defense for Acquisition and Sustainment, with input by stakeholders across the Department of Defense prior to proceeding with development efforts and awarding a contract; and

(3) the Department, including the Missile Defense Agency, should uphold “fly before you buy” principles in such new acquisition strategy to ensure the overall system and components have been rigorously flight-tested prior to making procurement decisions.

(b) LIMITATION.—Of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2020 for the Missile Defense Agency for the next-generation improved homeland defense interceptor, not more than 50 percent may be obligated or expended until the date on which the Secretary of Defense submits the report under subsection (c).

(B) an evaluation of the technical readiness level of the overall system and the components for each course of action considered.

(4) Options considered to address reliability efforts of the current fleet, understanding known deficiencies, and the impact of not addressing such efforts and deficiencies until the delivery of the next-generation improved homeland defense interceptors.

(5) An obsolescence, refurbishment, and sustainment plan for all ground-based interceptor silos, including any impacts to the construction, delivery, and sustainment of missile field 4 located at Fort Greely, Alaska, taking into account the delay to emplacing additional interceptors.

(6) Possible opportunities as a result of the impacts described in paragraph (4) for improvements to missile fields located at Fort Greely other than missile field 4, including additional infrastructure or components required, and estimated schedules and costs for such opportunities.

(7) A determination of the appropriate fleet mix of ground-based interceptor kill vehicles and boosters to maximize overall system effectiveness and increase capacity and capability, including the costs and benefits of continued inclusion of capability enhancement II block 1 interceptors after the fielding of the next-generation improved homeland defense interceptor.

(B) affect any water right of the Tribe in existence before the date of the enactment of this Act; or

(C) terminate or limit any access in any way to any right-of-way or right-of-use issued, granted, or permitted before the date of the enactment of this Act.

(5) RESTRICTED USE OF TRANSFERRED LANDS.—The Tribe may not conduct, on the land described in paragraph (3) taken into trust for the Tribe pursuant to this section, gaming activities—

(A) as a matter of claimed inherent authority; or

(B) under any Federal law, including the Indian Gaming Regulatory Act (25 U.S.C. 2701 et seq.) and regulations

promulgated by the Secretary or the National Indian Gaming Commission under that Act.

(6) DEFINITIONS.—For the purposes of this subsection:

(A) SECRETARY.—The term “Secretary” means the Secretary of the Interior.

(B) TRIBE.—The term “Tribe” means the Santa Ynez Band of Chumash Mission Indians.

**SEC. 2869. LANDS TO BE TAKEN INTO TRUST AS PART OF THE RESERVATION OF THE LYTTON RANCHERIA.**

(a) FINDINGS.—Congress finds the following:

(1) The Lytton Rancheria of California is a federally recognized Indian tribe that lost its homeland after its relationship to the United States was unjustly and unlawfully terminated in 1958. The Tribe was restored to Federal recognition in 1991, but the conditions of its restoration have prevented it from regaining a homeland on its original lands.

(2) Congress needs to take action to reverse historic injustices that befell the Tribe and that have prevented it from regaining a viable homeland for its people.

(3) Prior to European contact there were as many as 350,000 Indians living in what is now the State of California. By the turn of the 19th century, that number had been reduced to approximately 15,000 individuals, many of them homeless and living in scattered bands and communities.

(4) The Lytton Rancheria’s original homeland was purchased by the United States in 1926 pursuant to congressional authority designed to remedy the unique tragedy that befell the Indians of California and provide them with reservations called Rancherias to be held in trust by the United States.

(5) After the Lytton Rancheria lands were purchased by the United States, the Tribe settled on the land and sustained itself for several decades by farming and ranching.

(6) By the mid-1950s, Federal Indian policy had shifted back towards a policy of terminating the Federal relationship with Indian tribes. In 1958, Congress enacted the Rancheria Act of 1958 (72 Stat. 619), which slated 41 Rancherias in California, including the Lytton Rancheria, for termination after certain conditions were met.

(7) On August 1, 1961, the Federal Government terminated its relationship with the Lytton Rancheria. This termination was illegal because the conditions for termination under the Rancheria Act had never been met. After termination was implemented, the Tribe lost its lands and was left without any means of supporting itself.

(8) In 1987, the Tribe joined three other tribes in a lawsuit against the United States challenging the illegal termination of their Rancherias. A Stipulated Judgment in the case, *Scotts Valley Band of Pomo Indians of the Sugar Bowl Rancheria v. United States*, No. C-86-3660 (N.D.Cal. March 22, 1991), restored the Lytton Rancheria to its status as a federally recognized Indian tribe.

(9) The Stipulated Judgment provides that the Lytton Rancheria would have the “individual and collective status and rights” which it had prior to its termination and expressly con-

templated the acquisition of trust lands for the Lytton Rancheria.

(10) The Stipulated Judgment contains provisions, included at the request of the local county governments and neighboring landowners, that prohibit the Lytton Rancheria from exercising its full Federal rights on its original homeland in the Alexander Valley.

(11) In 2000, approximately 9.5 acres of land in San Pablo, California, was placed in trust status for the Lytton Rancheria for economic development purposes.

(12) The Tribe has since acquired, from willing sellers at fair market value, property in Sonoma County near the Tribe's historic Rancheria. This property, which the Tribe holds in fee status, is suitable for a new homeland for the Tribe.

(13) On a portion of the land to be taken into trust, which portion totals approximately 124.12 acres, the Tribe plans to build housing for its members and governmental and community facilities.

(14) A portion of the land to be taken into trust is being used for viniculture, and the Tribe intends to develop more of the lands to be taken into trust for viniculture. The Tribe's investment in the ongoing viniculture operation has reinvigorated the vineyards, which are producing high-quality wines. The Tribe is operating its vineyards on a sustainable basis and is working toward certification of sustainability.

(15) No gaming shall be conducted on the lands to be taken into trust by this section.

(16) No gaming shall be conducted on any lands taken into trust on behalf of the Tribe in Sonoma County after the date of the enactment of this Act.

(17) By directing that these lands be taken into trust, the United States will ensure that the Lytton Rancheria will finally have a permanently protected homeland on which the Tribe can once again live communally and plan for future generations. This action is necessary to fully restore the Tribe to the status it had before it was wrongfully terminated in 1961.

(18) The Tribe and County of Sonoma have entered into a Memorandum of Agreement as amended in 2018 in which the County agrees to the lands in the County being taken into trust for the benefit of the Tribe in consideration for commitments made by the Tribe.

(b) DEFINITIONS.—For the purpose of this section, the following definitions apply:

(1) COUNTY.—The term “County” means Sonoma County, California.

(2) SECRETARY.—The term “Secretary” means the Secretary of the Interior.

(3) TRIBE.—The term “Tribe” means the Lytton Rancheria of California.

(c) LANDS TO BE TAKEN INTO TRUST.—

(1) IN GENERAL.—The land owned by the Tribe and generally depicted on the map titled “Lytton Fee Owned Property to be Taken into Trust” and dated May 1, 2015, is hereby taken into trust for the benefit of the Tribe, subject to valid ex-

isting rights, contracts, and management agreements related to easements and rights-of-way.

(2) LANDS TO BE MADE PART OF THE RESERVATION.—Lands taken into trust under paragraph (1) shall be part of the Tribe's reservation and shall be administered in accordance with the laws and regulations generally applicable to property held in trust by the United States for an Indian tribe.

(d) GAMING.—

(1) LANDS TAKEN INTO TRUST UNDER THIS SECTION.—Lands taken into trust for the benefit of the Tribe under subsection (c) shall not be eligible for gaming under the Indian Gaming Regulatory Act (25 U.S.C. 2701 et seq.).

(2) OTHER LANDS TAKEN INTO TRUST.—Lands taken into trust for the benefit of the Tribe in Sonoma County after the date of the enactment of this Act shall not be eligible for gaming under the Indian Gaming Regulatory Act (25 U.S.C. 2701 et seq.).

(e) APPLICABILITY OF CERTAIN LAW.—Notwithstanding any other provision of law, the Memorandum of Agreement entered into by the Tribe and the County concerning taking land in the County into trust for the benefit of the Tribe, which was approved by the County Board of Supervisors on March 10, 2015, and any addenda and supplement or amendment thereto, is not subject to review or approval of the Secretary in order to be effective, including review or approval under section 2103 of the Revised Statutes (25 U.S.C. 81).

#### **SEC. 2870. LITTLE SHELL TRIBE OF CHIPPEWA INDIANS OF MONTANA.**

(a) FINDINGS.—Congress finds that—

(1) the Little Shell Tribe of Chippewa Indians is a political successor to signatories of the Pembina Treaty of 1863, under which a large area of land in the State of North Dakota was ceded to the United States;

(2) the Turtle Mountain Band of Chippewa of North Dakota and the Chippewa-Cree Tribe of the Rocky Boy's Reservation of Montana, which also are political successors to the signatories of the Pembina Treaty of 1863, have been recognized by the Federal Government as distinct Indian tribes;

(3) the members of the Little Shell Tribe continue to live in the State of Montana, as their ancestors have for more than 100 years since ceding land in the State of North Dakota as described in paragraph (1);

(4) in the 1930s and 1940s, the Tribe repeatedly petitioned the Federal Government for reorganization under the Act of June 18, 1934 (25 U.S.C. 5101 et seq.) (commonly known as the "Indian Reorganization Act");

(5) Federal agents who visited the Tribe and Commissioner of Indian Affairs John Collier attested to the responsibility of the Federal Government for the Tribe and members of the Tribe, concluding that members of the Tribe are eligible for, and should be provided with, trust land, making the Tribe eligible for reorganization under the Act of June 18, 1934 (25 U.S.C. 5101 et seq.) (commonly known as the "Indian Reorganization Act");

(6) due to a lack of Federal appropriations during the Depression, the Bureau of Indian Affairs lacked adequate financial resources to purchase land for the Tribe, and the members of the Tribe were denied the opportunity to reorganize;

(7) in spite of the failure of the Federal Government to appropriate adequate funding to secure land for the Tribe as required for reorganization under the Act of June 18, 1934 (25 U.S.C. 5101 et seq.) (commonly known as the "Indian Reorganization Act"), the Tribe continued to exist as a separate community, with leaders exhibiting clear political authority;

(8) the Tribe, together with the Turtle Mountain Band of Chippewa of North Dakota and the Chippewa-Cree Tribe of the Rocky Boy's Reservation of Montana, filed 2 law suits under the Act of August 13, 1946 (60 Stat. 1049) (commonly known as the "Indian Claims Commission Act"), to petition for additional compensation for land ceded to the United States under the Pembina Treaty of 1863 and the McCumber Agreement of 1892;

(9) in 1971 and 1982, pursuant to Acts of Congress, the tribes received awards for the claims described in paragraph (8);

(10) in 1978, the Tribe submitted to the Bureau of Indian Affairs a petition for Federal recognition, which is still pending as of the date of enactment of this Act; and

(11) the Federal Government, the State of Montana, and the other federally recognized Indian tribes of the State have had continuous dealings with the recognized political leaders of the Tribe since the 1930s.

(b) DEFINITIONS.—In this section:

(1) MEMBER.—The term "member" means an individual who is enrolled in the Tribe pursuant to subsection (f).

(commonly known as the "Indian Reorganization Act"), shall apply to the Tribe and members.

(d) FEDERAL SERVICES AND BENEFITS.—

(1) IN GENERAL.—Beginning on the date of enactment of this Act, the Tribe and each member shall be eligible for all services and benefits provided by the United States to Indians and federally recognized Indian tribes, without regard to—

(A) the existence of a reservation for the Tribe; or

(B) the location of the residence of any member on or near an Indian reservation.

(2) SERVICE AREA.—For purposes of the delivery of services and benefits to members, the service area of the Tribe shall be

considered to be the area comprised of Blaine, Cascade, Glacier, and Hill Counties in the State of Montana.

(2) CLAIMS OF TRIBE.—Except as otherwise provided in this section, nothing in this section alters or affects any legal or equitable claim of the Tribe to enforce any right or privilege reserved by, or granted to, the Tribe that was wrongfully denied to, or taken from, the Tribe before the date of enactment of this Act.

(f) MEMBERSHIP ROLL.—

(1) IN GENERAL.—As a condition of receiving recognition, services, and benefits pursuant to this section, the Tribe shall submit to the Secretary, by not later than 18 months after the date of enactment of this Act, a membership roll consisting of the name of each individual enrolled as a member of the Tribe.

(2) DETERMINATION OF MEMBERSHIP.—The qualifications for inclusion on the membership roll of the Tribe shall be determined in accordance with sections 1 through 3 of article 5 of the constitution of the Tribe dated September 10, 1977 (including amendments to the constitution).

(g) ACQUISITION OF LAND.—

(1) HOMELAND.—The Secretary shall acquire, for the benefit of the Tribe, trust title to 200 acres of land within the service area of the Tribe to be used for a tribal land base.

(2) ADDITIONAL LAND.—The Secretary may acquire additional land for the benefit of the Tribe pursuant to section 5 of the Act of June 18, 1934 (25 U.S.C. 5108) (commonly known as the “Indian Reorganization Act”).

**SEC. 5323. [50 U.S.C. 3369] COOPERATIVE ACTIONS TO DETECT AND COUNTER FOREIGN INFLUENCE OPERATIONS.**

(a) FINDINGS.—Congress makes the following findings:

(1) The Russian Federation, through military intelligence units, also known as the “GRU”, and Kremlin-linked troll organizations often referred to as the “Internet Research Agency”, deploy information warfare operations against the United States, its allies and partners, with the goal of advancing the strategic interests of the Russian Federation.

(2) One line of effort deployed as part of these information warfare operations is the weaponization of social media platforms with the goals of intensifying societal tensions, undermining trust in governmental institutions within the United States, its allies and partners in the West, and generally sowing division, fear, and confusion.

(3) These information warfare operations are a threat to the national security of the United States and that of the allies and partners of the United States. As former Director of National Intelligence Dan Coats stated, “These actions are persistent, they are pervasive and they are meant to undermine America’s democracy.”.

(4) These information warfare operations continue to evolve and increase in sophistication.

(5) Other foreign adversaries and hostile non-state actors are increasingly adopting similar tactics of deploying information warfare operations against the West, such as recent state-

backed operations from China around the Hong Kong protests identified by social media companies.

(6) Technological advances, including artificial intelligence, will only make it more difficult in the future to detect fraudulent accounts, deceptive material posted on social media, and malign behavior on social media platforms.

(7) Because these information warfare operations are deployed within and across private social media platforms, the companies that own these platforms have a responsibility to detect and facilitate the removal or neutralization of foreign adversary networks operating clandestinely on their platforms.

(8) The social media companies are inherently technologically sophisticated and adept at rapidly analyzing large amounts of data and developing software-based solutions to diverse and ever-changing challenges on their platforms, which makes them well-equipped to address the threat occurring on their platforms.

(9) Independent analyses confirmed Kremlin-linked threat networks, based on data provided by several social media companies to the Select Committee on Intelligence of the Senate, thereby demonstrating that it is possible to discern both broad patterns of cross-platform information warfare operations and specific fraudulent behavior on social media platforms.

(10) General Paul Nakasone, Director of the National Security Agency, emphasized the importance of these independent analyses to the planning and conducting of military cyber operations to frustrate Kremlin-linked information warfare operations against the 2018 mid-term elections. General Nakasone stated that the reports “were very, very helpful in terms of being able to understand exactly what our adversary was trying to do to build dissent within our nation.”

(11) Institutionalizing ongoing robust, independent, and vigorous analysis of data related to foreign threat networks within and across social media platforms will help counter ongoing information warfare operations against the United States, its allies, and its partners.

(12) Archiving and disclosing to the public the results of these analyses by the social media companies and trusted third-party experts in a transparent manner will serve to demonstrate that the social media companies are detecting and removing foreign malign activities from their platforms while protecting the privacy of the people of the United States and will build public understanding of the scale and scope of these foreign threats to our democracy, since exposure is one of the most effective means to build resilience.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the social media companies should cooperate among themselves and with independent organizations and researchers on a sustained and regular basis to share and analyze data and indicators relevant to foreign information warfare operations within and across their platforms in order to detect and counter foreign information warfare operations that threaten the national security of the United States and its allies and partners;

(2) information from law enforcement and the intelligence community is also important in assisting efforts by these social media companies to identify foreign information warfare operations;

(3) these analytic efforts should be organized in such a fashion as to meet the highest standards of ethics, confidentiality, and privacy protection of the people of the United States, while still allowing timely research access to relevant data;

(4) these analytic efforts should be undertaken as soon as possible to facilitate countering ongoing state or state-backed foreign information warfare operations and to aid in preparations for the United States Presidential and congressional elections in 2020 and beyond;

(5) the structure and operations of social media companies make them well positioned to work with independent organizations and researchers to address foreign adversary threat networks within and across their platforms, and these efforts could be conducted without direct Government involvement, direction, or regulation; and

(6) if the social media industry fails to take sufficient action to address foreign adversary threat networks operating within or across their platforms, Congress would have to consider additional safeguards for ensuring that this threat is effectively mitigated.

(c) REQUIREMENT TO FACILITATE ESTABLISHMENT OF SOCIAL MEDIA DATA AND THREAT ANALYSIS CENTER.—

(1) REQUIREMENT.—Not later than June 1, 2021, the Director of National Intelligence, in coordination with the Secretary of Defense, shall facilitate, by grant or contract or under an existing authority of the Director, the establishment of a Social Media Data and Threat Analysis Center with the functions described in paragraph (2) at an independent, nonprofit organization.

(E) Determining jointly with the social media companies what data and metadata related to indicators of foreign adversary threat networks from their platforms and business operations will be made available for access and analysis.

(F) Developing and making public the criteria and standards that must be met for companies, other organizations, and individual researchers to access and analyze data relating to foreign adversary threat networks within and across social media platforms and publish or otherwise use the results.

(G) Developing and making public the ethical standards for investigation of foreign threat networks and use of analytic results and for protection of the privacy of the customers and users of the social media platforms and of the proprietary information of the social media companies.

(H) Developing technical, contractual, and procedural controls to prevent misuse of data, including any necessary auditing procedures, compliance checks, and review mechanisms.

(I) Developing and making public criteria and conditions under which the Center shall share information with the appropriate Government agencies regarding threats to national security from, or violations of the law involving, foreign activities on social media platforms.

(c) CLEARANCE IN PERSON CONCEPT.—The clearance in person concept—

(1) permits an individual who once held a security clearance to maintain his or her eligibility for access to classified information, networks, and facilities for up to 3 years after the individual's eligibility for access to classified information would otherwise lapse; and

(d) CONTENTS.—The report required under subsection (b) shall address—

(1) requirements for an individual to voluntarily remain in a continuous vetting program validated by the Security Executive Agent even if the individual is not in a position requiring access to classified information;

(4) now more than ever, therefore, the broken security clearance process badly needs fundamental reform; and

(5) in the meantime, to ensure the ability of elements of the intelligence community to hire and retain highly qualified personnel, elements should consider, to the extent possible and consistent with national security, permitting new employees to enter on duty immediately or nearly so, and to perform, on a temporary basis pending final adjudication of their security clearances, work that either does not require a security clearance or requires only a low-level interim clearance.
