The official version of Federal law is found in the United States Statutes at Large and in the United States Code. The legal effect to be given to the Statutes at Large and the United States Code is established by statute (1 U.S.C. 112, 204).】

AN ACT To direct the Attorney General to develop crisis intervention training tools for use by first responders related to interacting with persons who have a traumatic brain injury, another form of acquired brain injury, or post-traumatic stress disorder, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. [34 U.S.C. 10101 note] SHORT TITLE.

This Act may be cited as the “Traumatic Brain Injury and Post-Traumatic Stress Disorder Law Enforcement Training Act” or the “TBI and PTSD Law Enforcement Training Act”.

SEC. 2. [34 U.S.C. 10653 note] FINDINGS.

Congress finds the following:

(1) According to the Centers for Disease Control and Prevention, there were approximately 2.9 million traumatic brain injury-related emergency department visits, hospitalizations, and deaths in the United States in 2014.

(2) Effects of traumatic brain injury (TBI) can be short-term or long-term, and include impaired thinking or memory, movement, vision or hearing, or emotional functioning, such as personality changes or depression.

(3) Currently, between 3.2 million and 5.3 million persons are living with a TBI-related disability in the United States.

(4) About 7 or 8 percent of Americans will experience post-traumatic stress disorder (PTSD) at some point in their lives, and about 8 million adults have PTSD during the course of a given year.

(5) TBI and PTSD have been recognized as the signature injuries of the Wars in Iraq and Afghanistan.

(6) According to the Department of Defense, 383,000 men and women deployed to Iraq and Afghanistan sustained a brain injury while in the line of duty between 2000 and 2018.

Sec. 3 TBI and PTSD Law Enforcement Training Act**2**

(7) Approximately 13.5 percent of Operations Iraqi Freedom and Enduring Freedom veterans screen positive for PTSD, according to the Department of Veteran Affairs.

(8) About 12 percent of Gulf War Veterans have PTSD in a given year while about 30 percent of Vietnam Veterans have had PTSD in their lifetime.

(9) Physical signs of TBI can include motor impairment, dizziness or poor balance, slurred speech, impaired depth perception, or impaired verbal memory, while physical signs of PTSD can include agitation, irritability, hostility, hypervigilance, self-destructive behavior, fear, severe anxiety, or mistrust.

(10) Physical signs of TBI and PTSD often overlap with physical signs of alcohol or drug impairment, which complicate a first responder's ability to quickly and effectively identify an individual's condition.

SEC. 3. CREATION OF A TBI AND PTSD TRAINING FOR FIRST RESPONDERS.

Part HH of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (34 U.S.C. 10651 et seq.) is amended—

(1) **[34 U.S.C. 10651]** in section 2991—

(A) in subsection (h)(1)(A), by inserting before the period at the end the following: “, including the training developed under section 2993”; and

(B) in subsection (o), by amending paragraph (1) to read as follows:

“(1) **IN GENERAL.**—There is authorized to be appropriated to the Department of Justice to carry out this section \$54,000,000 for each of fiscal years 2023 through 2027.”; and

(2) by inserting after section 2992 the following new section:

“SEC. 2993. [34 U.S.C. 10653] CREATION OF A TBI AND PTSD TRAINING FOR FIRST RESPONDERS

“(a) **IN GENERAL.**—Not later than one year after the date of the enactment of this section, the Attorney General, acting through the Director of the Bureau of Justice Assistance, in consultation with the Director of the Centers for Disease Control and Prevention and the Assistant Secretary for Mental Health and Substance Use, shall solicit best practices regarding techniques to interact with persons who have a traumatic brain injury, an acquired brain injury, or post-traumatic stress disorder from first responder, brain injury, veteran, and mental health organizations, health care and mental health providers, hospital emergency departments, and other relevant stakeholders, and shall develop crisis intervention training tools for use by first responders (as such term is defined in section 3025) that provide—

“(1) information on the conditions and symptoms of a traumatic brain injury, an acquired brain injury, and post-traumatic stress disorder;

“(2) techniques to interact with persons who have a traumatic brain injury, an acquired brain injury, or post-traumatic stress disorder; and

“(3) information on how to recognize persons who have a traumatic brain injury, an acquired brain injury, or post-traumatic stress disorder.

“(b) **USE OF TRAINING TOOLS AT LAW ENFORCEMENT MENTAL HEALTH LEARNING SITES.**—The Attorney General shall ensure that not less than one Law Enforcement Mental Health Learning Site designated by the Director of the Bureau of Justice Assistance uses the training tools developed under subsection (a).

“(c) **POLICE MENTAL HEALTH COLLABORATION TOOLKIT.**—The Attorney General shall make the training tools developed under subsection (a) available as part of the Police-Mental Health Collaboration Toolkit provided by the Bureau of Justice Assistance.”.

SEC. 4. STUDY ON FIRST RESPONDERS WITH TBI.

Not later than 24 months after the date of the enactment of this Act, the Secretary of Health and Human Services, acting through the Director of the Centers for Disease Control and Prevention and the Director of the National Institutes of Health and in consultation with the Secretary of Defense and the Secretary of Veterans Affairs, shall conduct a study and submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor and Pensions of the Senate a report on the prevalence and incidence of concussion among first responders (as such term is defined in section 3025 of the Omnibus Crime Control and Safe Street Act of 1968 (34 U.S.C. 10705)). The report shall include data on the incidence of concussion among first responders and recommendations for resources for first responders who have experienced traumatic brain injury.
