TITLE I—PURPOSES, DEFINITIONS, AND MAPS**PURPOSES**

SEC. 101. (a) In order to preserve for the benefit, use, education, and inspiration of present and future generations certain lands and waters in the State of Alaska that contain nationally sig-

nificant natural, scenic, historic, archeological, geological, scientific, wilderness, cultural, recreational, and wildlife values, the units described in the following titles are hereby established.

(b) It is the intent of Congress in this Act to preserve unrivaled scenic and geological values associated with natural landscapes; to provide for the maintenance of sound populations of, and habitat for, wildlife species of inestimable value to the citizens of Alaska and the Nation, including those species dependent on vast relatively undeveloped areas; to preserve in their natural state extensive unaltered arctic tundra, boreal forest, and coastal rainforest ecosystems; to protect the resources related to subsistence needs; to protect and preserve historic and archeological sites, rivers, and lands, and to preserve wilderness resource values and related recreational opportunities including but not limited to hiking, canoeing, fishing, and sport hunting, within large arctic and subarctic wildlands and on freeflowing rivers; and to maintain opportunities for scientific research and undisturbed ecosystems.

(c) It is further the intent and purpose of this Act consistent with management of fish and wildlife in accordance with recognized scientific principles and the purposes for which each conservation system unit is established, designated, or expanded by or pursuant to this Act, to provide the opportunity for rural residents engaged in a subsistence way of life to continue to do so.

(d) This Act provides sufficient protection for the national interest in the scenic, natural, cultural and environmental values on the public lands in Alaska, and at the same time provides adequate opportunity for satisfaction of the economic and social needs of the State of Alaska and its people; accordingly, the designation and disposition of the public lands in Alaska pursuant to this Act are found to represent a proper balance between the reservation of national conservation system units and those public lands necessary and appropriate for more intensive use and disposition, and thus Congress believes that the need for future legislation designating new conservation system units, new national conservation areas, or new national recreation areas, has been obviated thereby.

(e) Where compatible with the purposes of the refuge unit, the Secretary may permit, subject to reasonable regulations and in accord with sound fisheries management principles, scientifically acceptable means of maintaining, enhancing, and rehabilitating fish stock.

(f)(1) The Secretary is authorized to enter into cooperative management agreements with any Native Corporation, the State, any political subdivision of the State, or any other person owning or occupying land which is located within, or adjacent or near to, any national wildlife refuge. Each cooperative management agreement (hereinafter in this section referred to as an "agreement") shall provide that the land subject to the agreement shall be managed by the owner or occupant in a manner compatible with the major purposes of the refuge to which such land pertains including the opportunity for continuation of subsistence uses by local rural residents.

(2) Each agreement shall—

(A) set forth such uses of the land subject to the agreement which are compatible with the management goals set forth in subsection (f)(1);

(C) permit reasonable access to such land by officers of the State for purposes of conserving fish and wildlife;

(D) set forth those services or other consideration which the Secretary agrees to provide the owner or occupant in return for the owner or occupant entering into the agreement, which services may include technical and other assistance with respect to fire control, trespass control, law enforcement, resource and land use planning, the conserving of fish and wildlife and the protection, maintenance and enhancement of any special values of the land subject to the agreement;

(E) set forth such additional terms and conditions as the Secretary and the owner or occupant may agree to as being necessary and appropriate to carry out the management goals as set forth in subsection (f)(1); and

(g)(1) The Secretary shall prepare, and from time to time, revise, a comprehensive conservation plan (hereinafter in this subsection referred to as the “plan”) for each refuge.

(2) Before developing a plan for each refuge, the Secretary shall identify and describe—

(A) the populations and habitats of the fish and wildlife resources of the refuge;

(B) the special values of the refuge, as well as any other archeological, cultural, ecological, geological, historical, paleontological, scenic, or wilderness value of the refuge;

(C) areas within the refuge that are suitable for use as administrative sites or visitor facilities, or for visitor services, as provided for in sections 1305 and 1306 of this Act;

(D) present and potential requirements for access with respect to the refuge, as provided for in title XI; and

(3) Each plan shall—

(A) be based upon the identifications and the descriptions required to be made under paragraph (2)—

(i) designate areas within the refuge according to their respective resources and values;

(ii) specify the programs for conserving fish and wildlife and the programs relating to maintaining the values referred to in paragraph (2)(B), proposed to be implemented within each such area; and

(iii) specify the uses within each such area which may be compatible with the major purposes of the refuge; and

(B) set forth those opportunities which will be provided within the refuge for fish and wildlife-oriented recreation, ecological research, environmental education and interpretation of refuge resources and values, if such recreation, research, education, and interpretation is compatible with the purposes of the refuge.

(4) In preparing each plan and revisions thereto, the Secretary shall consult with the appropriate State agencies and Native Corporations, and shall hold public hearings in such locations in the State as may be appropriate to insure that residents of local villages and political subdivisions of the State which will be primarily affected by the administration of the refuge concerned have opportunity to present their views with respect to the plan or revisions.

(5) Before adopting a plan for any refuge, the Secretary shall issue public notice of the proposed plan in the Federal Register, make copies of the plan available at each regional office of the United States Fish and Wildlife Service and provide opportunity for public views and comment on the plan.

(6) With respect to refuges established, redesignated, or expanded by section 302 or 303 the Secretary shall prepare plans for—

(A) not less than five refuges within three years after the date of the enactment of this Act;

(B) not less than ten refuges within five years after such date;

(C) all refuges within seven years after such date. With respect to any refuge established in the State after the date of the enactment of this Act, the Secretary shall prepare a plan for the refuge within two years after the date of its establishment; and

(D) in the case of any refuge established, redesignated, or expanded by this title with respect to which a wilderness review is required under this Act, at the same time the President submits his recommendation concerning such unit under such section to the Congress, the Secretary shall submit to the appropriate committees of the Congress the conservation plan for that unit.

PRIOR AUTHORITIES

SEC. 305. All proclamations, Executive orders, public land orders, and other administrative actions in effect on the day before the date of the enactment of this Act with respect to units of the National Wildlife Refuge System in the State shall remain in force and effect except to the extent that they are inconsistent with this Act or the Alaska Native Claims Settlement Act and, in any such case, the provisions of such Acts shall prevail. All land within the boundaries described or depicted in any such action shall, if the unit of the National Wildlife Refuge System concerned is incorporated within any refuge established or redesignated by or described in section 302 or 303, be included within such refuge. All funds available on such date of enactment for administration of any refuge shall remain available for the administration of such refuge.

SPECIAL STUDY

SEC. 306. (a) The Congress finds that the barren-ground caribou are a migratory species deserving of careful study and special protection, and that the Western Arctic and the Porcupine herds of such caribou are of national and international significance.

(b) The Secretary of the Interior shall conduct, and the Governor of Alaska is urged to cooperate with the Secretary in conducting, an ecological study of the barren-ground caribou herds north of the Yukon River and the herds that have been known to migrate between the United States and Canada, including, but not limited to, a determination of the seasonal migration patterns, reproduction and mortality rates, composition and are structure, behavioral characteristics, habitats (including but not limited to calving, feeding, summering and wintering areas, and key migration routes) that are critical to their natural stability and productivity and the effects on the herds of development by man, predation, and disease. In conducting this study the Secretary shall review the experience of other Arctic circumpolar countries with caribou and is authorized to enter into such contracts as he deems necessary to carry out portions or all of this study.

(b) No public lands within the national conservation area shall be transferred out of Federal ownership except by exchange pursuant to section 206 of the Federal Land Policy and Management Act. Where consistent with the land use plans for the area, mineral development may be permitted pursuant to the Mineral Leasing Act of 1920, as amended, and supplemented (30 U.S.C. 181–287) or the Materials Act of 1947, as amended (3) U.S.C. 601–603). [16 U.S.C. 460mm-2]

RIGHTS OF HOLDERS OF UNPERFECTED MINING CLAIMS

SEC. 404. (a) The term "unperfected mining claim" as used in this section, means a mining claim which is located on lands within the boundaries of the White Mountains National Recreation Area or Steese National Conservation Area established pursuant to this title with respect to which a valid mineral discovery within the meaning of the mining laws of the United States, was not made as of the date of the withdrawal of such area from further appropriation under the mining laws of the United States.

(b) MORATORIUM ON CONTEST PROCEEDINGS.—Any holder of an unperfected mining claim seeking to protect such claim pursuant to this section must have maintained and must continue to maintain such claim in compliance with applicable Federal and State laws, and where applicable, must have obtained and complied with any mining access permit requirements imposed by the Department of the Interior during the 1979 mining season. Prior to September 30, 1982, no unperfected mining claim which has been maintained in accordance with this subsection shall be contested by the United States for failure to have made a valid mineral discovery within the meaning of the mining laws of the United States: *Provided*, That such claim shall be diligently prosecuted during this moratorium on contest proceedings as a condition for the moratorium. Any mining operation undertaken pursuant to this subsection, including but not limited to exploration, development, and extraction, shall be subject to such reasonable regulations as the Secretary may prescribe to assure that such operations will, to the maximum extent practicable, be consistent with protection of the scenic, scientific, cultural, and other resources of the Steese National Conservation Area or the White Mountains National Recreation Area or any affected conservation system units established or expanded by this Act.

(c) VALID MINERAL DISCOVERY.—If the holder of an unperfected mining claim notifies the Secretary by filing an application for a patent that, as a result of mining operations in compliance with the requirements of subsection (b), he has made a valid mineral discovery on such claim within the meaning of the mining laws of the United States, and if the Secretary determines that such claim contains a valid mineral discovery, the holder of such claim shall be entitled to the issuance of a patent only to minerals in such claim pursuant to the mining laws of the United States. The holder of

such a patent shall also be entitled to the use of so much of the surface estate of the lands comprising the claim as may be necessary for mining purposes: *Provided*, That all mining operations conducted upon a claim after such a valid mineral discovery has been made, shall be in accordance with such reasonable regulations as may be issued by the Secretary pursuant to the authority granted in subsection (b) of this section.

(d) **VALIDITY DETERMINATION.**—If an application for a patents is filed by the holder of an unperfected mining claim pursuant to subsection (c) or if a contest proceeding is initiated by the United States after September 30, 1982, the validity of each claim shall be determined as of the date of the patent application or September 30, 1982, whichever is earlier. The holder of an unperfected mining claim not subject to a patent application filed prior to September 30, 1982, shall submit to the Secretary within one hundred and eighty days after such date all mineral data compiled during the contest proceeding moratorium which would support a valid mineral discovery within the meaning of the mining laws of the United States. Failure to submit such data within the one-hundred-and-eighty-day period shall preclude its consideration in a subsequent determination of the validity of each affected claim. Except as specifically provided for in this section, nothing shall alter the criteria applied under the general mining laws of the United States to adjudicate the validity of unperfected mining claims.

(e) **ACCESS TO CLAIMS.**—Pursuant to the provisions of this section and section 1110 of this Act, reasonable access shall be granted to an unperfected mining claim for purposes of making a valid discovery of mineral until September 30, 1982.

(f) **PREFERENCE RIGHTS.**—The holder of any unperfected mining claim which was, prior to November 16, 1978, located, recorded, and maintained in accordance with applicable Federal and State laws on lands located within the boundaries of the Steese National Conservation Area, or the White Mountains National Recreation Area established by this title, shall be entitled during a two-year period after the date that the Secretary exercises his authority under section 402 or 1312 to open an area containing such claim to mining, (1) to a preference right to record his claim under applicable law and to develop such claim under section 402 or (2) to obtain a lease to remove nonleasable minerals from the claim under section 1312.

Multiple use activities shall be permitted in a manner consistent with the conservation of fish and wildlife and their habitat as set forth in special regulations which shall be promulgated by the Secretary.

[16 U.S.C. 539]

MINING AND MINERAL LEASING ON CERTAIN NATIONAL FOREST LANDS

SEC. 502. Subject to valid existing rights, the minerals in public lands within the Copper River addition to the Chugach National Forest, are hereby withdrawn from location, entry, and patent under the United States mining laws. With respect to such areas, the Secretary, under such reasonable regulations as he deems appropriate, may permit the removal of nonleasable minerals from the lands in the manner prescribed by Reorganization Plan Numbered 3 of 1946 and the Act of March 4, 1917 (39 Stat. 1150; 16 U.S.C. 520), and the removal of leasable minerals from such lands in accordance with the mineral leasing laws, if the Secretary finds that such disposition would not have significant adverse effects on the administration of the area. All receipts derived from disposal of nonleasable minerals under this section shall be paid into the same funds or accounts in the Treasury of the United States and shall be distributed in the same manner as provided for receipts from national forests.

[16 U.S.C. 539a]

MISTY FJORDS AND ADMIRALTY ISLAND NATIONAL MONUMENTS

SEC. 503. There is hereby establish within the Tongass National Forest, the Misty Fjords National Monument, containing approximately two million two hundred and eighty-five thousand acres of public lands as generally depicted on a map "Misty Fjords National Monument—Proposed", dated July 1980.

(b) There is hereby established within the Tongass National Forest, the Misty Fjords National Monument, containing approximately two million two hundred and eighty-five thousand acres of

public lands as generally depicted on a map entitled “Misty Fjords National Monument—Proposed”, dated July 1980.

(b) There is hereby established within the Tongass National Forest, the Admiralty Island National Monument, containing approximately nine hundred and twenty-one thousand acres of public lands as generally depicted on a map entitled “Admiralty Island National Monument—Proposed”, dated July 1980.

(c) Subject to valid existing rights and except as provided in this section, the National Forest Monuments (hereinafter in this section referred to as the “Monuments”) shall be managed by the Secretary of Agriculture as units of the National Forest System to protect objects of ecological, cultural, geological, historical, pre-historical, and scientific interest.

(d) Within the Monuments, the Secretary shall not permit the sale of harvesting of timber: *Provided*, That nothing in this subsection shall prevent the Secretary from taking measures as may be necessary in the control of fire, insects, and disease.

(e) For the purposes of granting rights-of-way to occupy, use or traverse public land within the Monuments pursuant to title XI, the provisions of section 1106(b) of this Act shall apply.

(f)(1) Subject to valid existing rights and the provisions of this Act, the lands within the Monuments are hereby withdrawn from all forms of entry or appropriation or disposal under the public land laws, including location, entry, and patent under United States mining laws, disposition under the mineral leasing laws, and from future selections by the State of Alaska and Native Corporations;

(2)(A) After the date of enactment of this Act, any person who is the holder of any valid mining claim on public lands located within the boundaries of the Monuments, shall be permitted to carry out activities related to the exercise of rights under such claim in accordance with reasonable regulations promulgated by the Secretary to assure that such activities are compatible, to the maximum extent feasible, with the purposes for which the Monuments were established.

(B) For purposes of determining the validity of a mining claim containing a sufficient quantity and quality of mineral as of November 30, 1978, to establish a valuable deposit within the meaning of the mining laws of the United States within the Monuments, the requirements of the mining laws of the United States shall be construed as if access and mill site rights associated with such claim allow the present use of the Monuments’ land as such land could have been used on November 30, 1978.

(g) MINING IN THE PARKS ACT.—The Act of September 28, 1976 (Public Law 94–249), shall not apply to the Monuments.

(h)(1) Any special use permit for a surface access road for bulk sampling of the mineral deposit at Quartz Hill in the Tongass National Forest shall be issued in accordance with this subsection.

(2) The Secretary of Agriculture, in consultation with the Secretaries of Commerce and the Interior and the State of Alaska, shall prepare a document which analyzes mine development, concepts prepared by United States Borax and Chemical Corporation on the proposed development of a molybdenum mine in the Quartz Hill area of the Tongass National Forest. The draft of such docu-

ment shall be completed within six months after the date of enactment of this Act and be made available for public comment. The analysis shall be completed within nine months after the date of enactment and the results made available to the public. This analysis shall include detailed discussions of but not necessarily be limited to—

(A) the concepts which are under consideration for mine development;

(B) the general foreseeable potential environmental impacts of each mine development concept and the studies which are likely to be needed to evaluate and otherwise address those impacts; and

(C) the likely surface access needs and routes for each mine development concept.

(3) The Secretary shall prepare an environmental impact statement (EIS) under the National Environmental Policy Act of 1969 which covers an access road for bulk sampling purposes and the bulk sampling phase proposed by United States Borax and Chemical Corporation in the Quartz Hill area. A draft of such EIS shall be completed within twelve months after the date of enactment of this Act. This EIS shall incorporate all relevant data and other information included in the EIS previously prepared by the Secretary on access to the Quartz Hill area. Such EIS shall also include but not necessarily be limited to—

(A) an evaluation of alternative surface access routes which may minimize the overall impact on fisheries of both access for bulk sampling and mine development access;

(B) an evaluation of the impacts of the alternatives on fish, wildlife, and their habitats, and measures which may be instituted to avoid or minimize negative impacts and to enhance positive impacts;

(C) an evaluation of the extent to which the alternative can be used for, and the likelihood of each alternative being used as a mine development road, including the impacts of widening a road, realignments and other design and placement options; and

(D) plans to evaluate the water quality and water quantity, fishery habitat, and other fishery values of the affected area, and to evaluate, to the maximum extent feasible and relevant, the sensitivity to environmental degradation from activities carried out under a plan of operations of the fishery habitat as if affects the various life stages of anadromous fish and other foodfish and their major food chain components.

(4)(A) Within four months after the publication of the final environmental impact statement required in subsection (h)(3), the Secretary shall complete any administrative review of a decision on the proposal covered by the EIS and shall issue to the applicant a special use permit for a surface access road for bulk sampling unless he shall determine that construction or use of such a road would cause an unreasonable risk of significant irreparable damage to the habitats of viable populations of fish management indicator species and the continued productivity of such habitats. If the applicant should seek judicial review of any denial of the permit for

a surface access road, the burden of proof on the issue of denying the permit shall be on the Secretary.

(B) The Secretary shall not issue a special use permit until after he has determined that the full field season of work for gathering base line data during 1981 has ended.

(5) It is the intent of Congress that any judicial review of any administrative action pursuant to this section, including compliance with the National Environmental Policy Act of 1969, shall be expedited to the maximum extent possible. Any proceeding before a Federal court in which an administrative action pursuant to this section, including compliance with the National Environmental Policy Act of 1969, is challenged shall be assigned for hearings and completed at the earliest possible date, and shall be expedited in every way by such court, and such court shall render its final decision relative to any challenge within one hundred and twenty days after the date the response to such challenge is filed unless such court determines that a longer period of time is required to satisfy the requirements of the United States Constitution.

(6) Upon application of the United States Borax and Chemical Corporation or its successors in interest, the Secretary shall permit the use of such applicant of such limited areas within the Misty Fjords National Monument Wilderness as the Secretary determines to be necessary for activities, including but not limited to the installation, maintenance, and use of navigation aids, docking facilities, and staging and transfer facilities, associated with the development of the mineral deposit at Quartz Hill. Such activities shall not include mineral extraction, milling, or processing. Such activities shall be subject to reasonable regulations issued by the Secretary to protect the values of the monument wilderness.

(7) Within the Misty Fjords National Monument Wilderness the Secretary of Agriculture shall, to the extent he finds necessary, allow salvage, cleanup, or other activity related to the development of the mineral deposit at Quartz Hill, including activities necessary due to emergency conditions.

(8) Designation by section 703 of this Act of the Misty Fjords National Monument Wilderness shall not be deemed to enlarge, diminish, add, or waive any substantive or procedural requirements otherwise applicable to the use of offshore waters adjacent to the Monument Wilderness for activities related to the development of the mineral deposit at Quartz Hill, including, but not limited to, navigation, access, and the disposal of mine tailings produced in connection with such development.

(i)(1) With respect to the mineral deposits at Quartz Hill and Greens Creek in the Tongass National Forest, the holders of valid mining claims under subsection (f)(2)(B) shall be entitled to a lease (and necessary associated permits) on lands under the Secretary's jurisdiction (including lands within any conservation system unit) at fair market value for use for mining or milling purposes in connection with the milling of minerals from such claims situated within the Monuments only if the Secretary determines—

(A) that milling activities necessary to develop such claims cannot be feasibly carried out on such claims or on other land owned by such holder;

(B) that the use of the site to be leased will not cause irreparable harm to the Misty Fjords or the Admiralty Island National Monument; and

(C) that the use of such leased area for such purposes will cause less environmental harm than the use of any other reasonably available location.

With respect to any lease issued under this subsection, the Secretary shall limit the size of the area covered by such lease to an area he determines to be adequate to carry out the milling process for the mineral bearing material on such claims.

(2) A lease under this subsection shall be subject to such reasonable terms and conditions as the Secretary deems necessary.

(3) A lease under this subsection shall terminate—

(A) at such time as the mineral deposit is exhausted; or

(B) upon failure of the lessee to use the leased site for two consecutive years unless such nonuse is waived annually by the Secretary.

(j) SPECIAL USE PERMITS AND FACILITIES—The Special Use Permit for Thayer Lake Dodge shall be renewed as necessary for the longest of either—

(1) fifteen years after the date of enactment of this Act, or

(2) the lifetime of the permittee, as designated in such permit as of January 1, 1979, or the surviving spouse or child of such permittee, whoever lives longer,

so long as the management of the lodge remains consistent with the purposes of the Admiralty Island National Monument.

FISHERIES ON NATIONAL FOREST LANDS IN ALASKA

SEC. 505. (a) The Secretary of Agriculture shall, in consultation with the Secretaries of Commerce and the Interior, and with the State of Alaska, pursuant to his existing authority to manage surface resources, promulgate such reasonable regulations as he determines necessary after consideration of existing laws and regulations to maintain the habitats, to the maximum extent feasible, of anadromous fish and other foodfish, and to maintain the present and continued productivity of such habitat when such habitats are affected by mining activities on national forest lands in Alaska. The Secretary of Agriculture, in consultation with the State, shall assess the effects on the populations of such fish in determinations made pursuant to this subsection.

(b) Because of the large scale of contemplated mining operations and the proximity of such operations to important fishery resources, with respect to mining operations in the Quartz Hill area of the Tongass National Forest, the regulations of the Secretary shall, pursuant to this subsection, include a requirement that all mining operations involving significant surface disturbance shall be in accordance with an approved plan of operations. Before approving any proposed plan or distinct stages of such plan of operations for any such claims when any fishery habitat or fishery value may be affected, the Secretary shall, in consultation with the Secretaries of Commerce and the Interior and the State of Alaska, determine—

(1) that such plan or stages of such plan are based upon and shall include studies or information which he determines are adequate for—

(A) evaluating the water quality and water quantity, fishery habitat, and other fishery values of the affected area; and

(B) evaluating to the maximum extent feasible and relevant, the sensitivity to environmental degradation from activities carried out under such plan of the fishery habitat as it affects the various life stages of anadromous fish and other foodfish and their major food chain components;

(2) that such plan adequately identifies the risks the operations under such plan or such stages might pose to and the benefits the operations under such plan might provide to—

(A) the natural stability and the present and continued productivity of anadromous fish and other foodfish;

(B) fishery habitat, including but not limited to water quality and water quantity; and

(C) other fishery values;

(3) that such plan includes provisions which he determines are adequate for the purposes of—

(A) preventing significant adverse environmental impacts to the fishery habitat (including but not limited to

water quality and water quantity) or other fishery values; and

(B) maintaining present and continued productivity of the habitat of anadromous fish and other foodfish which might be affected by the mining and other activities proposed to be conducted in accordance with such plan or such stages of the plan of operations;

(4)(A) the Secretary shall ensure, to the maximum extent feasible, that the cumulative effects of activities carried out under the operating plan will not interfere with the ability to collect baseline information needed by the Secretary to evaluate the effects of various stages of the operating plan on the fishery habitat and productivity of such habitats;

(B) the Secretary shall review such plan and mining activities on at least an annual basis. With respect to any mining or associated activities, the Secretary, if he determines upon notice and hearing, that the activities are harmful to the continued productivity of anadromous fish, or other foodfish populations or fishery habitat, shall require a modification of the plan to eliminate or mitigate, if necessary, the harmful effects of such activities; and

(5) upon a finding by the Secretary that a mining activity conducted as a part of a mining operation exists which constitutes a threat of irreparable harm to anadromous fish, or other foodfish populations or their habitat, and that immediate correction is required to prevent such harm, he may require such activity to be suspended for not to exceed seven days, provided the act activity may be resumed at the end of said seven-day period unless otherwise required by a United States district court.

(c) Nothing in this section shall enlarge or diminish the responsibility and authority of the State of Alaska to manage fish and wildlife or to exercise its other responsibilities under applicable law.

(d) Except as specifically provided in subsection (b)(5), nothing in this section shall enlarge or diminish the responsibilities and authorities of the Secretary of Agriculture to manage the national forests.

(b)(1) The Secretary is authorized and directed to establish a special program of insured or guaranteed loans to purchasers of national forest materials in Alaska to assist such purchasers in the acquisition of new technologies which lead to the utilization of wood products which might otherwise not be utilized. The Sec-

⁵ So in law. See section 101 of P.L. 101-626, 104 Stat. 4426.

retary is authorized to promulgate such regulations as he deems appropriate to define eligibility requirements for the participation in the loan program and the terms and conditions applicable to loans made under the program. Except as otherwise provided in this section or regulations promulgated specifically for this loan program, such program shall be carried out in a manner which is consistent with other authorities available to the Secretary.

(2) To carry out the special loan program established by this section, there are hereby authorized beginning after the fiscal year 1980 to be appropriated \$5,000,000 from National Forest Fund receipts, to be deposited in a special fund in the Treasury of the United States to remain available until expended. (e) In order to assure protection of riparian habitat, the Secretary shall maintain a buffer zone no less than one hundred feet in width on each side of all Class I streams in the Tongass National Forest, and on those Class II streams which flow directly into a Class I stream, within which commercial timber harvesting shall be prohibited, except where independent national forest timber sales have already been sold prior to March 1, 1990, or where volume has been released prior to March 1, 1990, to either the Alaska Pulp Corporation or the Ketchikan Pulp Company pursuant to the long-term timber sale contracts numbered 12-11-010-1545 and A10fs-1042 respectively. If such an independent timber sale or released volume is within the buffer zone, the Secretary shall make every effort to relocate such independent sale or released volume to an area outside of the buffer zone. The Secretary shall use best management practices, as defined in the Region 10 Soil and Water Conservation handbook (FSH 2509.22), January 1990, to assure the protection of riparian habitat on streams or portions of streams not protected by such buffer zones. For the purposes of this subsection, the terms "Class I streams" and "Class II streams" mean the same as they do in the Region 10 Aquatic Habitat Management Handbook (FSH 2609.24), June 1968.

tion and to the extent consistent with providing for the multiple use and sustained yield or all renewable forest resources, seek to provide a supply of timber from the Tongass National Forest to those purchasers qualifying as “small business concerns” under the Small Business Act as amended (15 U.S.C. 631 et seq.).

[16 U.S.C. 539d]

(b) Within five years from the date of enactment of this Act and every two years thereafter, the Secretary shall review and report to Congress on the status of the Tongass National Forest in southeastern Alaska. This report shall include, but not be limited to, (1) the timber harvest levels in the forest since the enactment of this Act; (2) the impact of wilderness designation on the timber, fishing, and tourism industry in southeast Alaska; (3) measures instituted by the Forest Service to protect fish and wildlife in the forest; and (4) the status of the small business set aside program in the Tongass Forest, and (5) the impact of timber management on subsistence resources, wildlife, and fisheries habitats..

RARE II RELEASE

SEC. 708. (a) The Congress finds that—

(1) the Department of Agriculture has completed the second roadless area review and evaluation program (RARE II); and

(2) the Congress has made its own review and examination of national forest system roadless areas in Alaska and of the environmental impacts associated with alternative allocations of such areas.

⁶So in law. See section 104(b) of P.L. 101-626, 104 Stat. 4427.

(b) On the basis of such review, the Congress hereby determines and directs that—

(1) without passing on the question of the legal and factual sufficiency of the RARE II Final Environmental Statement (dated January 1979) with respect to national forest lands in States other than Alaska, such statement shall not be subject to judicial review with respect to National Forest System lands in the State of Alaska;

(2) with respect to the National Forest lands in the State of Alaska which were reviewed by the Department of Agriculture in the second roadless area review and evaluation (RARE II), except those lands remaining in further planning upon enactment of this Act or the area listed in section 704 of this Act, that review and evaluation shall be deemed for the purpose of the initial land management plans required for such lands by the Forest and Rangeland Renewable Resources Planning Act of 1974 as amended by the National Forest Management Act of 1976 to be an adequate consideration of the suitability of such lands for inclusion in the National Wilderness Preservation System and Department of Agriculture shall not be required to review the wilderness option prior to the revision of the initial plans and in no case prior to the date established by law for completion of the initial planning cycle;

(3) areas reviewed in such Final Environmental Statement and not designated as wilderness or for study by this Act or remaining in further planning upon enactment of this Act need not be managed for the purpose of protecting their suitability for wilderness designation pending system of the initial plans; and

(4) unless expressly authorized by Congress the Department of Agriculture shall not conduct any further statewide roadless area review and evaluation of National Forest System lands in the State of Alaska for the purpose of determining their suitability for inclusion in the National Wilderness Preservation System.

TITLE VIII—SUBSISTENCE MANAGEMENT AND USE

FINDINGS

SEC. 801. The Congress finds and declares that—

(1) the continuation of the opportunity for subsistence uses by rural residents of Alaska, including both Natives and non-Natives, on the public lands and by Alaska Natives on Native lands is essential to Native physical, economic, traditional, and cultural existence and to non-Native physical, economic, traditional, and social existence;

(2) the situation in Alaska is unique in that, in most cases, no practical alternative means are available to replace the food supplies and other items gathered from fish and wildlife which supply rural residents dependent on subsistence uses;

(3) continuation of the opportunity for subsistence uses of resources on public and other lands in Alaska is threatened by the increasing population of Alaska, with resultant pressure on subsistence resources, by sudden decline in the populations of

some wildlife species which are crucial subsistence resources, by increased accessibility of remote areas containing subsistence resources, and by taking of fish and wildlife in a manner inconsistent with recognized principles of fish and wildlife management.

(4) in order to fulfill the policies and purposes of the Alaska Native Claims Settlement Act and as a matter of equity, it is necessary for the Congress to invoke its constitutional authority over Native affairs and its constitutional authority under the property clause and the commerce clause to protect and provide the opportunity for continued subsistence uses on the public lands by Native and non-Native rural residents; and

(5) the national interest in the proper regulation, protection, and conservation of fish and wildlife on the public lands in Alaska and the continuation of the opportunity for a subsistence way of life by residents of rural Alaska require that an administrative structure be established for the purpose of enabling rural residents who have personal knowledge of local conditions and requirements to have a meaningful role in the management of fish and wildlife and of subsistence uses on the public lands in Alaska.

[16 U.S.C. 3111]

POLICY

SEC. 802. It is hereby declared to be the policy of Congress that—

(1) consistent with sound management principles, and the conservation of healthy populations of fish and wildlife, the utilization of the public lands in Alaska is to cause the least adverse impact possible on rural residents who depend upon subsistence uses of the resources of such lands; consistent with management of fish and wildlife in accordance with recognized scientific principles and the purposes for each unit established, designated, or expanded by or pursuant to titles II through VII of this Act, the purpose of this title is to provide the opportunity for rural residents engaged in a subsistence way of life to do so;

(2) nonwasteful subsistence uses of fish and wildlife and other renewable resources shall be the priority consumptive uses of all such resources on the public lands of Alaska when it is necessary to restrict taking in order to assure the continued viability of a fish and wildlife population or the continuation of subsistence uses of such population, the taking of such population for nonwasteful subsistence uses shall be given preference on the public lands over other consumptive uses; and

(3) except as otherwise provided by this Act or other Federal laws, Federal land managing agencies, in managing subsistence activities on the public lands and in protecting the continued viability of all wild renewable resources in Alaska, shall cooperate with adjacent landowners and land managers, including Native Corporations, appropriate State and Federal agencies, and other nations.

SEC. 804. Except as otherwise provided in this Act and other Federal laws, the taking on public lands of fish and wildlife for nonwasteful subsistence uses shall be accorded priority over the taking on such lands of fish and wildlife for other purposes. Whenever it is necessary to restrict the taking of populations of fish and wildlife on such lands for subsistence uses in order to protect the continued viability of such populations, or to continue such uses, such priority shall be implemented through appropriate limitations based on the application of the following criteria:

- (1) customary and direct dependence upon the populations as the mainstay of livelihood;
- (2) local residency; and
- (3) the availability of alternative resources.

【16 U.S.C. 3114】

LOCAL AND REGIONAL PARTICIPATION

SEC. 805. (a) Except as otherwise provided in subsection (d) of this section, the Secretary in consultation with the State shall establish—

- (2) such local advisory committees within each region as he finds necessary at such time as he may determine, after notice and hearing, that the existing State fish and game advisory committee do not adequately perform the functions of the

local committee system set forth in paragraph (3)(D)(iv) of this subsection; and

(3) a regional advisory council in each subsistence resource region.

Each regional advisory council shall be composed of residents of the region and shall have the following authority:

(A) the review and evaluation of proposals for regulations, policies, management plans, and other matters relating to subsistence uses of fish and wildlife within the region;

(B) the provision of a forum for the expression of opinions and recommendations by persons interested in any matter related to the subsistence uses of fish and wildlife within the region;

(iv) recommendations concerning policies, standards, guidelines, and regulations to implement the strategy. (b) The Secretary shall assign adequate qualified staff to the regional advisory councils and make timely distribution of all available relevant technical and scientific support data to the regional advisory councils and the State fish and game advisory committees or such local advisory committees as the Secretary may establish pursuant to paragraph (2) of subsection (a).

(c) The Secretary, in performing his monitoring responsibility pursuant to section 806 and in the exercise of his closure and other administrative authority over the public lands, shall consider the report and recommendations of the regional advisory councils concerning the taking of fish and wildlife on the public lands within their respective regions for subsistence uses. The Secretary may choose not to follow any recommendations which he determines is not supported by substantial evidence, violates recognized principles of fish and wildlife conservation, or would be detrimental to the satisfaction of subsistence needs. If a recommendation is not adopted by the Secretary, he shall set forth the factual basis and the reasons for his decision.

(d) The Secretary shall not implement subsections (a), (b), and (c) of this section if within one year from December 2, 1980, the State enacts and implements laws of general applicability which are consistent with, and which provide for the definition, preference, and participation specified in, sections 3113, 3114, and 3115 of this title, such laws, unless and until repealed, shall supersede such sections insofar as such sections govern State responsibility pursuant to this subchapter for the taking of fish and wildlife on the public lands for subsistence uses. The regional councils may present recommendations, and the evidence upon which such recommendations are based, to the State rulemaking authority during the course of the administrative proceedings of such authority. The State rulemaking authority may choose not to follow any recommendation which it determines is not supported by substantial evidence presented during the course of its administrative proceedings, violates recognized principles of fish and wildlife conservation or would be detrimental to the satisfaction of rural subsistence needs. If a recommendation is not adopted by the State rulemaking authority, such authority shall set forth the factual basis and the reasons for its decision.

(e)(1) The Secretary shall reimburse the State, from funds appropriated to the Department of the Interior for such purposes, for reasonable costs relating to the establishment and operation of the regional advisory councils established by the State in accordance with subsection (d) and the operation of the State fish and game advisory committees so long as such committees are not superseded by the Secretary pursuant to paragraph (2) of subsection (a). Such reimbursement may not exceed 50 per centum of such costs in any fiscal year. Such costs shall be verified in a statement which the Secretary determines to be adequate and accurate. Sums paid under this subsection shall be in addition to any grants, payments, or other sums to which the State is entitled from appropriations to the Department of the Interior.

- (2) All applications approved pursuant to this section shall be subject to the provisions of the Act of March 8, 1922 (43 U.S.C. 270-11).
- (3) When on or before the one hundred and eightieth day following the effective date of this Act the Secretary determines by notice or decision that the land described in an allotment application may be valuable for minerals, excluding oil, gas, or coal, the allotment application shall be adjudicated pursuant to the provision of the Act of May 17, 1906, as amended, requiring that land allotted under said Act be nonmineral: *Provided*, That "nonmineral", as that term is used in such Act, is defined to include land valuable for deposits of sand or gravel.
- (4) Where an allotment application describes land within the boundaries of a unit of the National Park System established on or before the effective date of this Act and the described land was not withdrawn pursuant to section 11(a)(1) of the Alaska Native Claims Settlement Act, or where an allotment application describes land which has been patented or deeded to the State of Alaska or which on or before December 18, 1971, was validly selected by or tentatively approved or confirmed to the State of Alaska pursuant to the Alaska Statehood Act and was not withdrawn pursuant to section 11(a)(1)(A) of the Alaska Native Claims Settlement Act from those lands made available for selection by section 11(a)(2) of the Act by any Native Village certified as eligible pursuant to section 11(b) of such Act, paragraph (1) of this subsection and subsection (d) of this section shall not apply and the application shall be adjudicated pursuant to the requirements of the Act of May 17, 1906, as amended, the Alaska Native Claims Settlement Act, and other applicable law.
- (5) Paragraph (1) of this subsection and subsection (d) shall not apply and the Native allotment application shall be adjudicated pursuant to the requirements of the Act of May 17, 1906, as amended, it on or before the one hundred and eightieth day following the effective date of this Act—
- (A) A Native Corporation files a protest with the Secretary stating that the applicant is not entitled to the land described in the allotment application, and said land is withdrawn for selection by the Corporation pursuant to the Alaska Native Claims Settlement Act; or
- (B) The State of Alaska files a protest with the Secretary stating that the land described in the allotment application is necessary for access to lands owned by the United States, the State of Alaska, or a political subdivision of the State of Alaska, to resources located thereon, or to a public body of water regularly employed for transportation purposes, and the pro-

test states with specificity the facts upon which the conclusions concerning access are based and that no reasonable alternative for access exist; or

(C) A person or entity files a protest with the Secretary stating that the applicant is not entitled to the land described in the allotment application and that said land is the situs of improvements claimed by the person or entity.

(6) Paragraph (1) of this subsection and subsection (d) shall not apply to any application pending before the Department of the Interior on or before December 18, 1971, which was knowingly and voluntarily relinquished by the applicant thereafter.

(7) Paragraph (1) of this subsection and subsection (d) shall apply, and paragraph (5) of this subsection shall cease to apply, to an application—

(A) that is open and pending on the date of enactment of this paragraph;

(B) if the lands described in the application are in Federal ownership other than as a result of reacquisition by the United States after January 3, 1959; and

(C) if any protest which is filed by the State of Alaska pursuant to paragraph (5)(B) with respect to the application is withdrawn or dismissed either before, on, or after the date of the enactment of this paragraph.

(8)(A) Any allotment application which is open and pending and which is legislatively approved by enactment of paragraph (7) shall, when allotted, be made subject to any easement, trail, or right-of-way in existence on the date of the Native allotment applicant's commencement of use and occupancy.

(B) The jurisdiction of the Secretary is extended to make any factual determinations required to carry out this paragraph.

(b) Where a conflict between two or more allotment applications exists due to overlapping land descriptions, the Secretary shall adjust the descriptions to eliminate conflicts, and in so doing, consistent with other existing rights, if any, may expand or alter the applied-for allotment boundaries or increase or decrease acreage in one or more of the allotment applications to achieve an adjustment which, to the extent practicable, is consistent with prior use of the allotted land and is beneficial to the affected parties: *Provided*, That the Secretary shall, to the extent feasible, implement an adjustment proposed by the affected parties: *Provided further*, That the Secretary's decision concerning adjustment of conflicting land descriptions shall be final and unreviewable in all cases in which the reduction, if any, of the affected allottee's claim is less than 30 percent of the acreage contained in the parcel originally described and the adjustment does not exclude from the allotment improvements claimed by the allottee: *Provided further*, That where an allotment application describes more than one hundred and sixty acres, the Secretary shall at any time prior to or during survey reduce the acreage to one hundred and sixty acres and shall attempt to accomplish said reduction in the manner least detrimental to the applicant.

(c) An allotment applicant may amend the land description contained in his or her application if said description designates land other than that which the applicant intended to claim at the

time of application and if the description as amended describes the land originally intended to be claimed. If the allotment application is amended, this section shall operate to approve the application or to require its adjudication, as the case may be, with reference to the amend land description only: *Provided*, That the Secretary shall notify the State of Alaska and all interested parties, as shown by the records of the Department of the Interior, of the intended correction of the allotment's location, and any such party shall have until the one hundred and eightieth day following the effective date of this Act or sixty days following mailing of the notice, whichever is later, to file with the Department of the Interior a protest as provided in subsection (a)(5) of this section, which protest, if timely, shall be deemed filed within one hundred and eighty days of the effective date of this Act notwithstanding the actual date of filing: *Provided further*, That the Secretary may require that all allotment applications designating land in a specified area be amended, if at all, prior to a date certain, which date shall be calculated to allow for orderly adoption of a plan of survey for the specified area, and the Secretary shall mail notification of the final date for amendment to each affected allotment applicant, and shall provide such other notice as the Secretary deems appropriate, at least sixty days prior to said date: *Provided further*, That no allotment application may be amended for location following adoption of a final plan of survey which includes the location of the allotment as described in the application or its location as desired by amendment.

(d) Where the land described in an allotment application pending before the Department of the Interior on or before December 18, 1971 (or such an application as adjusted for amended pursuant to subsection (b) or (c) of this section), was on the date withdrawn, reserved, or classified for powersite or power-project purposes, notwithstanding such withdrawal, reservation, or classification the described land shall be deemed vacant, unappropriated, and unreserved within the meaning of the Act of May 17, 1906, as amended, and, as such, shall be subject to adjudication or approval pursuant to the terms of this section: *Provided, however*, That if the described land is included as part of a project licensed under part I of the Federal Power Act of June 10, 1920 (41 Stat. 24), as amended, or is presently utilized for purposes of generating or transmitting electrical power or for any other project authorized by Act of Congress, the foregoing provision shall not apply and the allotment applications shall be adjudicated pursuant to the Act of May 17, 1906, as amended: *Provided further*, That where the allotment applicant commenced use of the land after its withdrawal or classification for powersite purposes, the allotment shall be made subject to the right of reentry provided the United States by section 24 of the Federal Power Act, as amended: *Provided further*, That any right of reentry reserved in a certificate of allotment pursuant to this section shall expire twenty years after the effective date of this Act if at that time the allotted land is not subject to a license or an application for a license under part I of the Federal Power Act, as amended, or actually utilized or being developed for a purpose authorized by that Act, as amended, or other Act of Congress.

(e) Prior to issuing a certificate for an allotment subject to this section, the Secretary shall identify and adjudicate any record

entry or application for title made under an Act other than the Alaska Native Claims Settlement Act, the Alaska Statehood Act, or the Act of May 17, 1906, as amended, which entry or application claims land also described in the allotment application, and shall determine whether such entry or application represents a valid existing right to which the allotment application is subject. Nothing in this section shall be construed to affect rights, if any, acquired by actual use of the described land prior to its withdrawal or classification, or as affecting national forest lands.

(f)(1)(A) Notwithstanding paragraphs (1) and (6) of subsection (a), and subject to subparagraph (B), each Alaska Native allotment application made pursuant to the Act entitled “An Act authorizing the Secretary of the Interior to allot homesteads to the natives of Alaska”, approved May 17, 1906 (34 Stat. 197), that—

(i) was pending before the Department of the Interior on or before December 18, 1971; and

(ii) describes lands within the National Petroleum Reserve-Alaska that have been selected, interim conveyed, or patented to a Village Corporation or Regional Corporation, is reinstated only for the purpose of this section, subject to this section.

(B) The reinstatement under subparagraph (A) shall be carried out regardless of whether the application was—

(i) relinquished by the applicant; or

(ii) denied by the Department of the Interior, if the denial was based solely on the grounds that land within the National Petroleum Reserve-Alaska was unavailable.

(2)(A) To the extent that the application describes lands (or any interest in the lands) that have been selected, interim conveyed, or patented to a Village Corporation or Regional Corporation, the Secretary is authorized to accept from the Village Corporation or Regional Corporation the reconveyance or relinquishment of the lands (or any interest in the lands).

(B)(i) To the extent that the application describes lands (or any interest in the lands) that a Village Corporation is not willing to reconvey or relinquish pursuant to subparagraph (A), the applicant may relinquish any claim to any portion of the lands (or any interest in the lands) or may, with the consent of the affected Village Corporation, amend the application to exclude the lands and include in lieu thereof a description of lands selected by, interim conveyed to, or patented to the Village Corporation of an acreage that is not to exceed the amount of land relinquished.

(ii) The Secretary is authorized to accept the reconveyance or relinquishment of the lands (or any interest in the lands) described in the amended application from the Village Corporation or Regional Corporation in lieu of the lands (or any interest in the lands) described in the initial application.

(C) If a Village Corporation or Regional Corporation reconveys lands (or any interest in the lands) to the United States under subparagraph (A) or (B), the Secretary shall reduce the acreage charged against the entitlement of the Village Corporation or Regional Corporation.

(D) The authority of the Secretary to accept the reconveyance or relinquishment of lands (or any interest in the lands) under this

paragraph shall terminate on the date that is 6 years after the date of enactment of this subsection.

(3)(A) Subject to any valid existing rights, to the extent that the application describes lands that are authorized to be reconveyed or relinquished to the United States under paragraph (2), the Village Corporation shall file with the Secretary, not later than 3 years after the date of enactment of this subsection, the name of the applicant and the land description of each allotment proposed to be reconveyed or relinquished.

(B) Upon receipt of the land description, the Secretary shall immediately notify the State of Alaska and all interested parties of the land description proposed to be reconveyed or relinquished, and any such party shall have 60 days following notification in which to file with the Department of the Interior a protest as provided in subsection (a)(5).

(C) The Secretary shall then either—

- (i) if no protest is filed, approve the application; or
- (ii) if a protest is filed, adjudicate the legal sufficiency of any protest timely filed; and—

(I) if the protest is legally insufficient, approve the application; or

(II) if the protest is valid, issue a decision that closes the application and that is final for the Department.

(D) The Secretary shall, with respect to each allotment approved pursuant to this subsection—

- (i) survey the allotment; and
- (ii) following reconveyance or relinquishment, issue a Native allotment certificate to the applicant or heirs of the applicant.

(4)(A) To the extent a Village Corporation or a Regional Corporation reconveys lands (or any interest in the lands) to the United States pursuant to paragraph (2) and the conveyance results in a reduction in the acreage charged against the entitlement of the Village Corporation or Regional Corporation under the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), the Village Corporation or Regional Corporation shall be entitled to make selections in lieu of the reconveyed lands (or any interest in the lands).

(B)(i) The quantity of acreage of the surface estate reconveyed pursuant to paragraph (2) shall be added to the quantity of acreage of underselection, if any, for the Village Corporation. The Secretary shall provide for the selection of lands for replacement in accordance with the procedures for withdrawals and selections under section 22(j)(2) of the Alaska Native Claims Settlement Act (43 U.S.C. 1621(j)(2)).

(ii)(I) A Village Corporation described in clause (i) shall be entitled to select lands for replacement from the lands that have been withdrawn for selection by the Village Corporation pursuant to section 11(a)(1) of the Alaska Native Claims Settlement Act (43 U.S.C. 1610(a)(1)).

(II) In any case in which the lands described in subclause (I) are no longer in Federal ownership and the Village Corporation is entitled to make a selection pursuant to this subparagraph, the Secretary shall withdraw, and the Village Corporation shall select,

Federal lands that are compact and contiguous with lands previously conveyed to the Village Corporation.

(C) Lands (or any interests in the lands) in the replacement of lands (or interests in the lands) reconveyed by the Regional Corporation to the United States under this subsection shall be selected by the Regional Corporation from lands that are—

(i) compact and contiguous with other lands previously conveyed to the Regional Corporation within the National Petroleum Reserve-Alaska; and

(ii) beneath the surface estate of lands selected and conveyed to a Village Corporation.

(D) The Secretary shall convey the lands selected pursuant to this paragraph in accordance with this subsection.

(5)(A) Each Native allotment certificate issued to an applicant or the heirs of the applicant pursuant to paragraph (3) shall be subject to any existing easement or other right that had been reserved, conveyed, transferred, or recognized by the United States prior to the issuance of the certificate.

(B) Each conveyance by the Secretary to any applicant or to the heirs of the applicant under this subsection shall reserve to the United States—

(i) except as provided in subparagraph (C), all interests in oil, gas, and coal in the conveyed lands, and the right of the United States, or a lessee or assignee of the United States, to enter on lands conveyed to the applicant or to the heirs of the applicant, to drill, explore, mine, produce, and remove the oil, gas, or coal; and

(ii) all other rights reasonably incident to the mineral reservations described in clause (i).

(C)(i) If the oil, gas, or coal described in subparagraph (B)(i) was previously conveyed to the Regional Corporation and the Regional Corporation reserves those interests in a reconveyance to the United States, the Secretary shall reserve from the reconveyance to the applicant or to the heirs of the applicant for the benefit of the Regional Corporation the same rights and privileges that would have been reserved for the United States.

(ii) With respect to a reconveyance of lands (or any interest in the lands) by the Regional Corporation to the United States that does not convey the entire mineral estate, the Regional Corporation shall not be entitled—

(I) to a reduction of the acreage charged against the entitlement under the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.); or

(II) to select mineral interests to replace the acreage.

(6) The United States shall not be subject to liability for the presence of any hazardous substance in land or an interest in land solely as a result of any reconveyance to and transfer by the United States of the land or interest pursuant to this subsection.

STATE SELECTIONS AND CONVEYANCES

SEC. 906. (a) EXTENSION OF SELECTION PERIOD.—(1) In furtherance and confirmation of the State of Alaska's entitlement to cer-

tain national forest and other public lands in Alaska for community development and expansion purposes, section 6(a) of the Alaska Statehood Act is amended by substituting “thirty-five years” for “twenty-five years”.

(2) EXTENSION OF SELECTION PERIOD.—In furtherance and confirmation of the State of Alaska’s entitlement to certain public lands in Alaska, section 6(b) of the Alaska Statehood Act is amended by substituting “thirty-five years” for “twenty-five years”.

(b) SCHOOL LANDS SETTLEMENT.—(1) In full and final settlement of any and all claims by the State of Alaska arising under the Act of March 4, 1915 (38 Stat. 1214), as confirmed and transferred in section 6(k) of the Alaska Statehood Act, the State is hereby granted seventy-five thousand acres which it shall be entitled to select until January 4, 1994, from vacant, unappropriated, and unreserved public lands. In exercising the selection rights granted herein, the State shall be deemed to have relinquished all claims to any right, title, or interest to any school lands which failed to vest under the above statutes at the time Alaska became a State (January 3, 1959), including lands unsurveyed on that date or surveyed lands which were within Federal reservations or withdrawals on that date.

(2) Except as provided herein, such selections shall be made in conformance with the provisions for selections under section 6(b) of the Alaska Statehood Act. Selections made under this subsection shall be in units of whole sections as shown on the official survey plats of the Bureau of Land Management, including protraction diagrams, unless part of the section is unavailable or the land is otherwise surveyed, or unless the Secretary waives the whole section requirement.

(3) Lands selected and conveyed to the State under this subsection shall be subject to the provisions of subsections (j) and (k) of section 6 of the Alaska Statehood Act.

(c) PRIOR TENTATIVE APPROVALS.—(1) All tentative approvals of State of Alaska land selections pursuant to the Alaska Statehood Act are hereby confirmed, subject only to valid existing rights and Native selection rights under the Alaska Native Claims Settlement Act, and the United States hereby confirms that all right, title, and interest of the United States in an to such lands is deemed to have vested in the State of Alaska as of the date of tentative approval; except that this subsection shall not apply to tentative approvals which, prior to the date of enactment of this Act, have been relinquished by the State, or have been finally revoked by the United States under authority other than authority under section 11(a)(2), 12(a), or 12(b) of the Alaska Native Claims Settlement Act.

(2) Upon approval of a land survey by the Secretary, such lands shall be patented to the State of Alaska.

(3) If the State elects to receive patent to any of the lands which are the subject of this subsection on the basis of protraction surveys in lieu of field surveys, the Secretary shall issue patent to the State on that basis within six months after notice of such election. For townships having such adverse claims of record, patent on the basis of protraction surveys shall be issued as soon as practicable after such election.

(4) Future tentative approvals of State land selections, when issued, shall have the same force and effect as those existing tentative approvals which are confirmed by this subsection and shall be processed for patent by the same administrative procedures as specified in paragraphs (2) and (3) of this subsection.

(d) PRIOR STATE SELECTIONS.—(1) In furtherance of the State's entitlement to lands under section 6(b) of the Alaska Statehood Act, the United States hereby conveys to the State of Alaska, subject only to valid existing rights and Native selection rights under the Alaska Native Claims Settlement Act, all right, title and interest of the United States in and to all vacant, unappropriated, and unreserved lands, including lands subject to subsection (1) of this section, which are specified in the list entitled "Prior State of Alaska Selections to be Conveyed by Congress", dated July 24, 1978, submitted by the State of Alaska and on file in the Office of the Secretary except those Federal lands which are specified in a list dated October 19, 1979, submitted by the State of Alaska and on file with the Office of the Secretary. If any of those townships listed above contain lands within the boundaries of any conservation system unit, national conservation area, national recreation area, new national forest or forest addition, established, designated, or expanded by this Act, then only those lands within such townships which have been previously selected by the State of Alaska shall be conveyed pursuant to this subsection.

(2) In furtherance of the State's entitlement to lands under section 6(a) of the Alaska Statehood Act, the United States hereby conveys to the State of Alaska, subject only to valid existing rights and Native selection rights under the Alaska's Native Claims Settlement Act, all right, title and interest of the United States in and to all valid land selections made from the national forests under authority of said section 6(a) which have been approved by the Secretary of Agriculture prior to July 1, 1979.

(3) As soon as practicable after the date of enactment of this Act, the Secretary shall issue tentative approvals to such State selections as required by the Alaska Statehood Act and pursuant to subsection (i) of this section. The sequence of issuance of such tentative approvals shall be on the basis of priorities determined by the State.

(4) Upon approval of a land survey by the Secretary, such lands shall be patented to the State of Alaska.

(5) If the State elects to receive patent to any of the lands which are the subject of this subsection on the basis of protraction surveys in lieu of field surveys, the Secretary shall issue patent to the State of that basis within six months after notice of such election for townships having no adverse claims on the public land reports. For townships having such adverse claims to record, patent on the basis of protraction surveys shall be issued as soon as practicable after such election.

(6) Future valid State land selections shall be subject only to valid existing rights and Native selection rights under the Alaska Native Claims Settlement Act.

(e) FUTURE "TOP FILINGS".—Subject to valid existing rights and Native selection rights under the Alaska Native Claims Settlement Act, the State, at its option, may file future selection applications

and amendments thereto, pursuant to section 6 (a) or (b) of the Alaska Statehood Act or subsection (b) of this section, for lands which are not, on the date of filing of such applications, available within the meaning of section 6 (a) or (b) of the Alaska Statehood Act, other than lands within any conservation system unit or the National Petroleum Reserve—Alaska. Each such selection application, if otherwise valid, shall become an effective selection without further action by the State upon the date the lands included in such application become available within the meaning of subsection (a) or (b) of section 6 regardless of whether such date occurs before or after expiration of the State's land selection rights. Selection applications heretofore filed by the State may be refiled so as to become subject to the provisions of this subsection; except that no such refiled shall prejudice any claim of validity which may be asserted regarding the original filing of such application. Nothing contained in this subsection shall be construed to prevent the United States from transferring a Federal reservation or appropriation from one Federal agency to another Federal agency for the use and benefit of the Federal Government.

(f) RIGHT TO OVERSELECT.—(1) The State of Alaska may select lands exceeding by not more than 25 per centum in total area the amount of State entitlement which has not been patented or tentatively approved under each grant or confirmation of lands to the State contained in the Alaska Statehood Act or other law. If its selections under a particular grant exceed such remaining entitlement, the State shall thereupon list all selections for that grant which have not been tentatively approved in desired priority order of conveyance, in blocks no larger than one township in size; except that the State may alter such priorities prior to receipt of tentative approval. Upon receipt by the State of subsequent tentative approvals, such excess selections shall be reduced by the Secretary pro rata by rejecting the lowest prioritized selection blocks necessary to maintain a maximum excess selection of 25 per centum of the entitlement which has not yet been tentatively approved or patented to the State under each grant.

(2) The State of Alaska may, by written notification to the Secretary, relinquish any selections of land filed under the Alaska Statehood Act or subsection (b) of this section prior to receipt by the State of tentative approval, except that lands conveyed pursuant to subsection (g) of this section may not be relinquished pursuant to this paragraph.

(3) Section 6(g) of the Alaska Statehood Act is amended by adding at the end thereof the following new sentence: "As to all selections made by the State after January 1, 1979, pursuant to section 6(b) of this Act, the Secretary of the Interior, in his discretion, may waive the minimum tract selection size where he determines that such a reduced selection size would be in the national interest and would result in a better land ownership pattern."

(g) CONVEYANCE OF SPECIFIED LANDS.—In furtherance of the State's entitlement to lands under section 6(b) of the Alaska Statehood Act, the United States hereby conveys to the State of Alaska all right, title, and interest of the United States in and to all vacant, unappropriated, and unreserved lands, including lands subject to subsection (e) of this section but which lie within those

township outside the boundaries of conservation system units, National Conservation Areas, National Recreation Areas, new national forests and forest additions, established, designated, or expanded by this Act, which are specified in the list entitled "State Selection Lands May 15, 1978", dated July 24, 1978, submitted by the State of Alaska and on file in the office of the Secretary of the Interior. The denomination of lands in such list which are not, on the date of enactment of this Act, available lands within the meaning of section 6(b) of the Alaska Statehood Act and this Act shall be treated as a future selection application pursuant to subsection (e) of this section, to the extent such as application could have been filed under such subsection (e).

(h) LIMITATION OF CONVEYANCES OF SPECIFIED LANDS TENTATIVE APPROVALS; SURVEYS.—(1) Lands identified in subsection (g) are conveyed to the State subject to valid existing rights and Native selection rights under the Alaska Native Claims Settlement Act. All right, title, and interest of the United States in and to such lands shall vest in the State of Alaska as of the date of enactment of this Act, subject to those reservations specified in subsection (1) of this section.

(2) As soon as practicable after the date of enactment of this Act, the Secretary shall issue to the State tentative approvals to such lands as required by the Alaska Statehood Act and pursuant to subsection (i) of this section. The sequence of issuance of such tentative approvals shall be on the basis of priorities determined by the State.

(3) Upon approval of a land survey by the Secretary, those lands identified in subsection (g) shall be patented to the State of Alaska.

(4) If the State elects to receive patent to any of the lands which are identified in subsection (g) on the basis of protraction surveys in lieu of field surveys, the Secretary shall issue patent to the State on that basis within six months after notice of such election for townships having no adverse claims on the public land records. For townships having such adverse claims of record, patent on the basis of protraction surveys shall be issued as soon as practicable after such election.

(i) ADJUDICATION.—Nothing contained in this section shall relieve the Secretary of the duty to adjudicate conflicting claims regarding the lands specified in subsection (g) of this section, or otherwise selected under authority of the Alaska Statehood Act, subsection (b) of this section, or other law, prior to the issuance of tentative approval.

(j) CLARIFICATION OF LAND STATUS OUTSIDE UNITS.—As to lands outside the boundaries of a conservation system with, National Recreation Areas, National Conservation Areas, new national forests and forest additions, the following withdrawals, classifications, or designations shall not, of themselves, remove the lands involved from the status of vacant, unappropriated, and unreserved lands for the purpose of subsection (d) or (g) of this section and future State selections pursuant to the Alaska Statehood Act or subsection (b) of this section:

(1) withdrawals for classification pursuant to section 17(d)(1) of the Alaska Native Claims Settlement Act; except

that, in accordance with the Memorandum of Understanding between the United States and the State of Alaska dated September 2, 1972, to the extent that Public Land Orders Numbered 5150, 5151, 5181, 5182, 5184, 5187, 5190, 5194, and 5388 by their terms continue to prohibit State selections of certain lands, such lands shall remain unavailable for future State selection except as provided by subsection (e) of this Act;⁸

(2) withdrawals pursuant to section 11 of the Alaska Native Claims Settlement Act, which are not finally conveyed pursuant to section 12, 14, or 19 of such Act;

(3) classifications pursuant to the Classification and Multiple Use Act (78 Stat. 987);

(4) classifications or designations pursuant to the National Forest Management Act (90 Stat. 2949) as amended; and

(5) classifications, withdrawals exceeding 5,000 acres (except withdrawals exceeding 5,000 acres which the Congress, by concurrent resolution, approves within 180 days of the withdrawal or the effective date of this Act, whichever occurs later), or designations pursuant to the Federal Land Policy and Management Act (90 Stat. 2743).

(k) INTERIM PROVISIONS.—Notwithstanding any other provision of law, on lands selected by, or granted or conveyed to, the State of Alaska under section 6 of the Alaska Statehood Act or this Act, but not yet tentatively approved to the State:

(1) The Secretary is authorized to make contracts and grant leases, licenses, permits, rights-of-way, or easements, and any tentative approval or patent shall be subject to such contract, lease, license, permit, right-of-way, or easement; except that (A) the authority granted the Secretary by this subsection is that authority the Secretary otherwise would have had under existing laws and regulations had the lands not been selected by the State, and (B) the State has concurred prior to such action by the Secretary.

(2) On and after the date of enactment of this Act, 90 per centum of any and all proceeds derived from contracts, leases, licenses, permits, rights-of-way, or easements or from trespasses originating after the date of selection by the State shall be held by the Secretary until such lands have been tentatively approved to the State. As such lands are tentatively approved, the Secretary shall pay to the State from such account the proceeds allocable to such lands which are derived from contracts, leases, licenses, permits, rights-of-way, easements, or trespasses. The proceeds derived from contracts, leases, licenses, permits, rights-of-way, easements or trespasses and deposited to the account pertaining to lands selected by the State but not tentatively approved due to rejection or relinquishment shall be paid as would have been required by law were it not for the provisions of this Act. In the event that the tentative approval does not cover all of the land embraced within any contract, lease, license, permit, right-of-way, easement, or trespass, the State shall only be entitled to the proportionate amount of the

⁸ So in original. Probably should be "subsection (e) of this section;".

proceeds derived from such contract, lease, license, permit, right-of-way, or easement, which results from multiplying the total of such proceeds by a fraction in which the numerator is the acreage of such contract, lease, license, permit, right-of-way, or easement which is included in the tentative approval and the denominator is the total acreage contained in such contract, lease, license, permit, right-of-way, or easement; in the case of trespass, the State shall be entitled to the proportionate share of the proceeds in relation to the damages occurring on the respective lands.

(3) Nothing in this subsection shall relieve the State or the United States of any obligations under section 9 of the Alaska Native Claims Settlement Act or the fourth sentence of section 6(h) of the Alaska Statehood Act.

(1) EXISTING RIGHTS.—(1) All conveyances to the State under section 6 of the Alaska Statehood Act, this Act, or any other law, shall be subject to valid existing rights, to Native selection rights under the Alaska Native Claims Settlement Act, and to any right-of-way or easement reserved for or appropriated by the United States prior to selection of the underlying lands by the State of Alaska.

(2) Where, prior to a conveyance to the State, a right-of-way or easement has been reserved for or appropriated by the United States or a contract, lease, permit, right-of-way, or easement has been issued for the lands, the conveyance shall contain provisions making it subject to the right-of-way or easement reserved or appropriated and to the contract, lease, license, permit, right-of-way, or easement issued or granted, and also subject to the right of the United States, contractee, lessee, licensee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits previously granted, issued, reserved, or appropriated. Upon issuance of tentative approval, the State shall succeed and become entitled to any and all interests of the United States as contractor, lessor, licensor, permittor, or grantor, in any such contracts, leases, licenses, permits, rights-of-way, or easements, except those reserved to the United States in the tentative approval.

(3) The administration of rights-of-way or easements reserved to the United States in the tentative approval shall be in the United States, including the right to grant an interest in such right-of-way or easement in whole or in part.

(4) Where the lands tentatively approved do not include all of the land involved with any contract, lease, license, permit, right-of-way, or easement issued or granted, the administration of such contract, lease, license, permit, right-of-way, or easement shall remain in the United States unless the agency responsible for administration waives such administration.

(5) Nothing in this subsection shall relieve the State or the United States of any obligations under section 9 of the Alaska Native Claims Settlement Act or the fourth sentence of section 6(h) of the Alaska Statehood Act.

(m) EXTINGUISHMENT OF CERTAIN TIME EXTENSIONS.—Any extensions of time periods granted to the State pursuant to section 17(d)(3)(E) of the Alaska Native Claims Settlement Act are hereby

ALASKA LAND BANK

SEC. 907. (a) ESTABLISHMENT: AGREEMENTS.—(1) In order to enhance the quantity and quality of Alaska's renewable resources and to facilitate the coordinated management and protection of Federal, State, and Native and other private lands, there is hereby established the Alaska Land Bank Program. Any private landowner is authorized as provided in this section to enter into a written agreement with the Secretary if his lands adjoin, or his use of such lands would directly affect, Federal land, Federal and State land, or State land if the State is not participating in the program. Any private landowner described in subsection (d)(1) whose lands do not adjoin, or whose use of such lands would not directly affect either Federal or State lands also is entitled to enter into an agreement with the Secretary. Any private landowner whose lands adjoin, or whose use of such lands would directly affect, only State, or State and private lands, is authorized as provided in this section to enter into an agreement with the State of Alaska if the State is participating in the program. If the Secretary is the contracting party with the private landowner, he shall afford the State an opportunity to participate in negotiations and become a party to the agreement. An agreement may include all or part of the lands of any private landowner: *Provided*, That no lands shall be included in the agreement unless the Secretary, or the State, determines that the purposes of the program will be promoted by their inclusion.

(2) If a private landowner consents to the inclusion in an agreement of the stipulations provided in subsections (b)(1), (b)(2), (b)(4), (b)(5), and (b)(7), and if such owner does not insist on any additional terms which are unacceptable to the Secretary or the State, as appropriate, the owner shall be entitled to enter into an agreement pursuant to this section. If an agreement is not executed within one hundred and twenty days of the date on which a private landowner communicates in writing his consent to the stipulations referred to in the preceding sentence, the appropriate Secretary or State agency head shall execute an agreement. Upon such execution, the private owner shall receive the benefits provided in subsection (c) hereof.

(3) No agreement under this section shall be construed as affecting any land, or any right or interest in land, of any owner not a party to such agreement.

(b) TERMS OF AGREEMENT.—Each agreement referred to in subsection (a) shall have an initial term of ten years, with provisions, if any, for renewal for additional periods of five years. Such agreement shall contain the following terms:

(1) The landowner shall not alienate, transfer, assign, mortgage, or pledge the lands subject to the agreement except as provided in section 14(c) of the Alaska Native Claims Settlement Act, or permit development or improvement on such lands except as provided in the agreement. For the purposes of this section only, each agreement entered into with a landowner described in subsection (d)(1) shall constitute a restriction against alienation imposed by the United States upon the lands subject to the agreement.

(2) Lands subject to the agreement shall be managed by the owner in a manner compatible with the management plan, if any, for the adjoining Federal or State lands, and with the requirements of this subsection. If lands subject to the agreement do not adjoin either Federal or State lands, they shall be managed in a manner compatible with the management plan, if any, of Federal or State lands which would be directly affected by the use of such private lands. If no such plan has been adopted, or if the use of such private lands would not directly affect either Federal or State lands, the owner shall manage such lands in accordance with the provisions in paragraph (1) of this subsection. Except as provided in (3)⁹ of this subsection, nothing in this section or the management plan of any Federal or State agency shall be construed to require a private landowner to grant public access on or across his lands.

(3) If the surface landowner so consents, such lands may be made available for local or other recreational use: *Provided*, That the refusal of a private landowner to permit the uses referred to in this subsection shall not be grounds for the refusal of the Secretary or the State to enter into an agreement with the landowner under this section.

(4) Appropriate Federal and/or State agency heads shall have reasonable access to such privately owned land for purposes relating to the administration of the adjoining Federal or State lands, and to carry out their obligations under the agreement.

(5) Reasonable access to such land by officers of the State shall be permitted for purposes of conserving fish and wildlife.

(6) Those services or other consideration which the appropriate Secretary or the State shall provide to the owner pursuant to subsection (c)(1) shall be set forth.

(7) All or part of the lands subject to the agreement may be withdrawn from the Alaska land bank program not earlier than ninety days after the landowner—

(A) submits written notice thereof to the other parties which are signatory to the agreement; and

(B) pays all Federal, State and local property taxes and assessments which, during the particular term then in effect, would have been incurred except for the agreement, together with interest on such taxes and assessments in an amount to be determined at the highest rate of interest charged with respect to delinquent property taxes by the Federal, State or local taxing authority, if any.

(8) The agreement may contain such additional terms, which are consistent with the provisions of this section, as seem desirable

(2) The provision of section 21(e) of the Alaska Native Claims Settlement Act shall apply to all lands which are subject to an agreement made pursuant to this section so long as the parties to the agreement are in compliance therewith.

(1) assess the potential oil and gas resources of these lands and make recommendations concerning future use and management of those resources including an evaluation of alternative transportation routes needed for oil and gas development;

(2) review the wilderness characteristics, and make recommendations for wilderness designation, of these lands; and

(3) study, and make recommendations for protection of, the wildlife, resources of these lands.

(c) After completion of the study, the Secretary shall make findings on—

(1) the potential oil and gas resources of these lands;

(2) the impact of oil and gas development on the wildlife resources on these lands, particularly the Arctic and Porcupine caribou herds and the polar bear;

(3) the national need for development of the oil and gas resources of all or any portion of these lands;

(4) the national interest in preservation of the wilderness characteristics of these lands; and

(5) the national interest in protection of the wildlife resources of these lands.

(d) In the course of the study, the Secretary shall consult with the Secretary of Energy and other Federal agencies, the State of Alaska, Native Village and Regional Corporations, the North Slope Borough, the Alaska Land Use Council and the Government of Canada. 【16 U.S.C. 1641】

ARCTIC NATIONAL WILDLIFE REFUGE COASTAL PLAIN RESOURCE
ASSESSMENT

SEC. 1002. (a) PURPOSE.—The purpose of this section is to provide for a comprehensive and continuing inventory and assessment of the fish and wildlife resources of the coastal plain of the Arctic National Wildlife Refuge; an analysis of the impacts of oil and gas exploration, development, and production, and to authorize exploratory activity within the coastal plain in a manner that avoids significant adverse effects on the fish and wildlife and other resources.

(b) DEFINITIONS.—As used in this section—

(1) The term “coastal plain” means that area identified as such in the map entitled “Arctic National Wildlife Refuge”, dated August 1980.

(2) The term “exploratory activity” means surface geological exploration or seismic exploration, or both, for oil and gas within the coastal plain.

(c) **BASELINE STUDY.**—The Secretary, in consultation with the Governor of the State, Native Village and Regional Corporations, and the North Slope Borough within the study area and interested persons, shall conduct a continuing study of the fish and wildlife (with special emphasis on caribou, wolves, wolverines, grizzly bears, migratory waterfowl, musk oxen, and polar bears) of the coastal plain and their habitat. In conducting the study, the Secretary shall—

(A) assess the size, range, and distribution of the populations of the fish and wildlife;

(B) determine the extent, location and carrying capacity of the habitats of the fish and wildlife;

(C) assess the impacts of human activities and natural processes on the fish and wildlife and their habitats;

(D) analyze the potential impacts of oil and gas exploration, development, and production of such wildlife and habitats; and

(E) analyze the potential effects of such activities on the culture and lifestyle (including subsistence) of affected Native and other people.

Within eighteen months after the enactment date of this Act, the Secretary shall publish the results of the study as of that date and shall thereafter publish such revisions thereto as are appropriate as new information is obtained.

(d) **GUIDELINES.**—(1) Within two years after the enactment date of this Act, the Secretary shall by regulation establish initial guidelines governing the carrying out of exploratory activities. The guidelines shall be based upon the results of the study required under subsection (c) and such other information as may be available to the Secretary. The guidelines shall include such prohibitions, restrictions, and conditions on the carrying out of exploratory activities as the Secretary deems necessary or appropriate to ensure that exploratory activities do not significantly adversely affect the fish and wildlife, their habitats, or the environment, including, but not limited to—

(A) a prohibition on the carrying out of exploratory activity during caribou calving and immediate post-calving seasons or during any other period in which human activity may have adverse effects;

(B) temporary or permanent closing of appropriate areas to such activity;

(C) specification of the support facilities, equipment and related manpower that is appropriate in connection with exploratory activity; and

(D) requirements that exploratory activities be coordinated in such a manner as to avoid unnecessary duplication.

(2) The initial guidelines prescribed by the Secretary to implement this subsection shall be accompanied by an environmental impact statement on exploratory activities. The initial guidelines shall thereafter be revised to reflect changes made in the baseline study and other appropriate information made available to the Secretary.

(e) EXPLORATION PLANS.—(1) After the initial guidelines are prescribed under subsection (d), any person including the United States Geological Survey may submit one or more plans for exploratory activity (hereinafter in this section referred to as “exploration plans”) to the Secretary for approval. An exploration plan must set forth such information as the Secretary may require in order to determine whether the plan is consistent with the guidelines, including, but not limited to—

(A) a description and schedule of the exploratory activity proposed to be undertaken;

(B) a description of the equipment, facilities, and related manpower that would be used in carrying out the activity;

(C) the area in which the activity would be undertaken; and

(D) a statement of the anticipated effects that the activity may have on fish and wildlife, their habitats and the environment.

(2) Upon receiving any exploration plan for approval, the Secretary shall promptly publish notice of the application and the text of the plan in the Federal Register and newspapers of general circulation in the State. The Secretary shall determine, within one hundred and twenty days after any plan is submitted for approval, if the plan is consistent with the guidelines established under subsection (d). If the Secretary determines that the plan is so consistent, he shall approve the plan: except that no plan shall be approved during the two-year period following the date of enactment of this Act. Before making the determination, the Secretary shall hold at least one public hearing in the State for purposes of receiving the comments and views of the public on the plan. The Secretary shall not approve of any plan submitted by the United States Geological Survey unless he determines that (1) no other person has submitted a plan for the area involved which meets established guidelines and (2) the information which would be obtained is needed to make an adequate report under subsection (h). The Secretary, as a condition of approval of any plan under this section—

(A) may require that such modifications be made to the plan as he considers necessary and appropriate to make it consistent with the guidelines;

(B) shall require that all data and information (including processed, analyzed and interpreted information) obtained as a result of carrying out the plan shall be submitted to the Secretary; and

(C) shall make such data and information, available to the public except that any processed, analyzed and interpreted data or information shall be held confidential by the Secretary for a period of not less than two years following any lease sale including the area from which the information was obtained

and: *Provided*, That the Secretary shall prohibit by regulation any person who obtains access to such data and information from the Secretary or from any person other than a permittee from participation in any lease sale which includes the areas from which the information was obtained and from any commercial use of the information. The Secretary shall require that any permittee shall make available such data to any person at fair cost.¹²

(f) MODIFICATION TO EXPLORATION PLANS.—If at any time while exploratory activity is being carried out under an exploration plan approved under subsection (e), the Secretary, on the basis of information available to him, determines that continuation of further activities under the plan or permit will significantly adversely affect fish or wildlife, their habitat, or the environment, the Secretary may suspend the carrying out of activities under the plan or permit for such time, make such modifications to the plan or to the terms and conditions of the permit (or both suspend and so modify) as he determines necessary and appropriate.

(g) CIVIL PENALTIES.—(1) Any person who is found by the Secretary, after notice and an opportunity for a hearing in accordance with section 554 of title 5, United States Code, to have violated any provision of a plan approved under subsection (e) or any term or condition of a permit issued under subsection (f), or to have committed any act prohibited under subsection (d) shall be liable to the United States for a penalty. The amount of the civil penalty shall not exceed \$10,000 for each violation. Each day of a continuing violation shall constitute a separate offense. The amount of such civil penalty shall be assessed by the Secretary by written notice. In determining the amount of such penalty, the Secretary shall take into account the nature, circumstances, extent, and gravity of the prohibited act committed, and, with respect to the violator, the history of any prior offenses, his demonstrated good faith in attempting to achieve timely compliance after being cited for the violation, and such other matters as justice may require.

(2) Any person against whom a civil penalty is assessed under paragraph (1) may obtain review thereof in the appropriate district court of the United States by filing a notice of appeal in such court within thirty days from the date of such order and by simultaneously sending a copy of such notice by certified mail to the Secretary. The Secretary shall promptly file in such court a certified copy of the record upon which such violation was found or such penalty imposed, as provided in section 2112 of title 28, United States Code. The findings and order of the Secretary shall be set aside by such court if they are not found to be supported by substantial evidence, as provided in section 706(2)(E) of title 5, United States Code.

(3) If any person fails to pay an assessment of a civil penalty against him under paragraph (1) after it has become final, or after the appropriate court has entered final judgment in favor of the Secretary, the Secretary shall refer the matter to the Attorney General of the United States, who shall recover the amount assessed in any appropriate district court of the United States. In

such action, the validity and appropriateness of the final order imposing the civil penalty shall not be subject to review.

(4) The Secretary may compromise, modify, or remit, with or without conditions, any civil penalty which is subject to imposition or which has been imposed under this subsection unless the matter is pending in court for judicial review or recovery of assessment.

(h) REPORT TO CONGRESS.—Not earlier than five years after the enactment date of this Act and not later than five years and nine months after such date, the Secretary shall prepare and submit to Congress a report containing—

(1) The identification by means other than drilling of exploratory wells of those areas within the coastal plain that have oil and gas production potential and estimate of the volume of the oil and gas concerned;

(2) the description of the fish and wildlife, their habitats, and other resources that are within the areas identified under paragraph (1);

(3) an evaluation of the adverse effects that the carrying out of further exploration for, and the development and production of, oil and gas within such areas will have on the resources referred to in paragraph (2);

(4) a description of how such oil and gas, if produced within such area, may be transported to processing facilities;

(5) an evaluation of how such oil and gas relates to the national need for additional domestic sources of oil and gas; and

(6) the recommendations of the Secretary with respect to whether further exploration for, and the development and production of, oil and gas within the coastal plain should be permitted and, if so, what additional legal authority is necessary to ensure that the adverse effects of such activities on fish and wildlife, their habitats, and other resources are avoided or minimized.

(i) EFFECT OF OTHER LAWS.—Until otherwise provided for in law enacted after the enactment date of this Act, all public lands within the coastal plain are withdrawn from all forms of entry or appropriation under the mining laws, and from operation of the mineral leasing laws, of the United States.

WILDERNESS PORTION OF STUDY

SEC. 1004. (a) As part of the study, the Secretary shall review the suitability or nonsuitability for preservation as wilderness of the Federal lands described in section 1001 and report his findings to the President.

(b) The President shall advise the Senate and the House of Representatives of his recommendations with respect to the des-

ignation of the area or any part thereof as wilderness together with a map thereof and a definition of its boundaries.

(c) Subject to valid existing rights and the provisions of section 1002 of this Act, the wilderness study area designated by this section shall, until Congress determines otherwise, be administered by the Secretary so as to maintain presently existing wilderness character and potential for inclusion in the National Wilderness Preservation System. Already established uses may be permitted to continue, subject to such restrictions as the Secretary deems desirable, in the manner and degree in which the same were being conducted on the date of enactment of this Act.

WILDLIFE RESOURCES PORTION OF STUDY AND IMPACT OF POTENTIAL
OIL SPILLS IN THE ARCTIC OCEAN

SEC. 1005. (a) The Secretary shall work closely with the State of Alaska and Native Village and Regional Corporations in evaluating the impact of oil and gas exploration, development, production, and transportation and other human activities on the wildlife resources of these lands, including impacts on the Arctic and Porcupine caribou herds, polar bear, muskox, grizzly bear, wolf, wolverine, seabirds, shore birds, and migratory waterfowl. In addition the Secretary shall consult with the appropriate agencies of the Government of Canada in evaluating such impacts particularly with respect to the Porcupine caribou herd.

(b)(1) The Congress finds that—

(A) Canada has discovered commercial quantities of oil and gas in the Amalagak region of the Northwest Territory;

(B) Canada is exploring alternatives for transporting the oil from the Amalagak field to markets in Asia and the Far East;

(C) one of the options the Canadian Government is exploring involves transshipment of oil from the Amalagak field across the Beaufort Sea to tankers which would transport the oil overseas;

(D) the tankers would traverse the American Exclusive Economic Zone through the Beaufort Sea into the Chuckchi Sea and then through the Bering Straits;

(E) the Beaufort and Chuckchi Seas are vital to Alaska's Native people, providing them with subsistence in the form of walrus, seals, fish, and whales;

(F) the Secretary of the Interior has conducted Outer Continental Shelf lease sales in the Beaufort and Chuckchi Seas and oil and gas exploration is ongoing;

(G) an oil spill in the Arctic Ocean, if not properly contained and cleaned up, could have significant impacts on the indigenous people of Alaska's North Slope and on the Arctic environment; and

(H) there are no international contingency plans involving our two governments concerning containment and cleanup of an oil spill in the Arctic Ocean.

(2)(A) The Secretary of the Interior, in consultation with the Governor of Alaska, shall conduct a study of the issues of recovery

of damages, contingency plans, and coordinated actions in the event of an oil spill in the Arctic Ocean.

(B) The Secretary shall, no later than January 31, 1991, transmit a report to the Congress on the findings and conclusions reached as the result of the study carried out under this subsection.

(c) The Congress calls upon the Secretary of State, in consultation with the Secretary of the Interior, the Secretary of Transportation, and the Governor of Alaska, to begin negotiations with the Foreign Minister of Canada regarding a treaty dealing with the complex issues of recovery of damages, contingency plans, and coordinated actions in the event of an oil spill in the Arctic Ocean.

(d) The Secretary of State shall report to the Congress on the Secretary's efforts pursuant to this section no later than June 1, 1991.

- (2) the prospective oil and gas production potential of this area of Alaska for each alternative transportation route; and
- (3) the environmental and economic costs and other values associated with such alternative routes.

ARCTIC RESEARCH STUDY

SEC. 1007. (a) The Secretary, the Secretary of Defense, and the Secretary of Energy shall initiate and carry out a study of the mission, facilities and administration of the Naval Arctic Research Laboratory (NARL), at Point Barrow, Alaska. The study shall review the historical responsibilities carried out at NARL and their contribution to applied and basic Arctic research. The study shall specifically address and the Secretary shall make recommendations on the need for redirecting the United States Arctic research policy and the role of the NARL facilities in developing and implementing that policy.

(b) The Secretary shall assess the future use of HARL in—

- (1) developing relevant scientific information on the Arctic environment and utilizing applied research to (A) deal with the unique problems the Arctic presents in providing public services; (B) minimize the impact of resource development on the environment and the culture of the Native people; and (C) promote international cooperation among the Nations which share responsibility for the Arctic environment;
- (2) assessing the impact of oil and gas exploration, development, and transportation on the Arctic environment, including impact on fish, marine and land mammals, and migratory waterfowl;

(3) developing advanced design technologies, operational practices, and transportation systems to improve the environmental safety and efficiency of oil and gas exploration and production in the Arctic, including offshore activities;

(4) enlarging the body knowledge on Arctic ice conditions and developing practical and efficient means of dealing with potential oil spills and other hazards associated with resource development in Alaska's Arctic; and

(5) developing a comprehensive Arctic policy for the Federal Government that will accommodate the need for development and use of Arctic resources with appropriate recognition and consideration given to the unique nature of the Arctic environmental and the needs of its Native residents.

(c) After completion of the study, the Secretaries shall make recommendations on—

(1) changes in the mission and management of NARL necessary to accomplish the research and policy goals addressed in the study;

(2) the appropriate Federal agency or agencies that should have primary responsibility for management of NARL;

(3) changes in the organizational structure of NARL that would allow greater involvement by State and private organizations in the use, management and/or funding of NARL; and

(4) the appropriate level of Federal funding for scientific and technological research on the Arctic environment and its uses.

(d) In the course of the study, the Secretaries shall consult with representatives of the Department of Navy, the National Oceanic and Atmospheric Administration, the National Science Foundation, the Smithsonian Institution, the State of Alaska, local governments, representatives of public and private institutions conducting Arctic research, and Native Village and Regional Corporations in the areas now affected by the activities of NARL. The Secretaries shall provide an opportunity for public review and comment on the draft report and proposed recommendations prior to final approval, and shall include any recommendations of the local community in the final study.

(e) The Secretaries shall submit the study and their recommendations to the Congress no later than one year after the date of enactment of this Act.

OIL AND GAS LEASING PROGRAM FOR NON-NORTH SLOPE FEDERAL
LANDS

SEC. 1008. ¹³ (a) The Secretary shall establish, pursuant to the Mineral Leasing Act of 1920, amended, an oil and gas leasing program on the Federal lands of Alaska not subject to the study required by section 1001 of this Act, other than lands included in the

¹³This section exists without subsections (c) and (e) as a result of P.L. 100-203, sec. 5105, 101 Stat. 1330-259 which repealed these subsections.

National Petroleum Reserve—Alaska. Such program shall not be undertaken by the Secretary of those lands where applicable law prohibits such leasing or on those units of the National Wildlife Refuge System where the Secretary determines, after having considered the national interest in producing oil and gas from such lands, that the exploration for and development of oil or gas would be incompatible with the purpose for which such unit was established.

(b)(1)(A) In such areas as the Secretary deems favorable for the discovery of oil and gas, he shall conduct a study, or studies, or collect and analyze information obtained by permittees authorized to conduct studies under this section, of the oil and gas potential of such lands and those environmental characteristics and wildlife resources which would be affected by the exploration for and development of such oil and gas.

(B) The Secretary is authorized to issue permits for study, including geological, geophysical, and other assessment activities, if such activities can be conducted in a manner which is consistent with the purposes for which each affected area is managed under applicable law.

(2) The Secretary shall consult with the Secretary of Energy regarding the national interest involved in exploring for and developing oil and gas from such lands and shall seek the views of the governor of the State of Alaska, Alaska local governments, Native Regional and Village Corporations, the Alaska Land Use Council, representatives of the oil and gas industry, conservation groups, and other interested groups and individuals in determining which land should be studied and/or leased for the exploration and development of oil and gas.

(3) The Secretary shall encourage the State to undertake similar studies on lands associated, either through geological or other land values or because of possible transportation needs, with Federal lands. The Secretary shall integrate these studies, to the maximum extent practicable, with studies on Federal lands so that needs for cooperation between the Federal Government and the State of Alaska in managing energy and other natural resources, including fish and wildlife, can be established early in the program.

(4) The Secretary shall report to the Congress by October 1, 1981, and yearly thereafter, on his efforts pursuant to this Act regarding the leasing of, and exploration and development activities on, such lands.

(c)—Repealed by P.L. 100–203

(d) Pursuant to the Mineral Leasing Act of 1920, as amended, the Secretary is authorized to issue leases, on the Federal lands described in this section, under such terms and conditions as he may, by regulation, prescribe.

(e)—Repealed by P.L. 100–203

(f) Prior to any exploration activities on a lease issued pursuant to this section, the Secretary shall require the lessee to describe exploration activities in an exploration plan. He shall approve such plan if such activities can be conducted in conformity with such requirements as may be made by the Secretary for the

protection and use of the land for the purpose for which it is managed under applicable law.

(g) Subsequent to a discovery of oil or gas in paying quantities, and prior to developing and producing such oil and gas, the Secretary shall require the lessee to describe development and production activities in a development and production plan. He shall approve such plan if such activities may be conducted in conformity with such requirements as may be made by the Secretary for the protection and use of the land for the purpose for which it is managed under applicable law.

(h) The Secretary shall monitor the performance of the lessee and, if he determines that due to significant changes in circumstances regarding that operation, including environmental or economic changes, new requirements are needed, he may require a revised development and production plan.

(i) If the Secretary determines that immediate and irreparable damage will result from continuation to force of a lease, that the threat will not disappear and that the advantages of cancellation outweigh the advantages of continuation in force of a lease, he shall suspend operations for up to five years. If such a threat persists beyond such five-year suspension period, he shall cancel a lease and provide compensation to the lease under such terms as the Secretary establishes, by regulation, to be appropriate.

OIL AND GAS LEASE APPLICATIONS

SEC. 1009. Notwithstanding any other provision of law or regulation, whenever the Secretary receives an application for an oil and gas lease pursuant to the Mineral Leasing Act of 1920 for lands in Alaska within a unit of the National Wildlife Refuge System which are not also part of the National Wilderness Preservation System he shall, in addition to any other requirements of applicable law, follow the procedures set forth in this section.

(b) Any decision to issue or not to issue a lease shall be accompanied by a statement setting forth the reasons for the decision, including the reasons why oil and gas leasing would be compatible or incompatible with the purposes of the refuge.

(c) If the Secretary determines that the requirements of section 102(2)(C) of the National Environment Policy Act of 1969 do not apply to his decision, the Secretary shall render his decision within six months after receipt of a lease application. If such requirements are applicable to the Secretary's decision, he shall render his decision within three months after publication of the final environmental impact statement.

ALASKA MINERAL RESOURCE ASSESSMENT PROGRAM

SEC. 1010. (a) MINERAL ASSESSMENTS.—The Secretary shall, to the full extent of his authority, assess the oil, gas, and other mineral potential on all public lands in the State of Alaska in order to expand the data base with respect to the mineral potential of such lands. The mineral assessment program may include, but shall not be limited to, techniques such as side-looking radar im-

agery and, on public lands other than such lands within the national park system, core and test drilling for geologic information, notwithstanding any restriction on such drilling under the Wilderness Act. For purposes of this Act, core and test drilling means the extraction by drilling of subsurface geologic samples in order to assess the metalliferous or other mineral values of geologic terrain, but shall not be construed as including exploratory drilling of oil and gas test well. To the maximum extent practicable, the Secretary shall consult and exchange information with the State of Alaska regarding the responsibilities of the Secretary under this section and similar programs undertaken by the State. In order to carry out mineral assessments authorized under this or any other law including but not limited to the National Uranium Resource Evaluation program, the Secretary shall allow for access by air for assessment activities permitted in this subsection to all public lands involved in such study. He shall consult with the Secretary of Energy and heads of other Federal agencies carrying out such programs, to determine such reasonable requirements as may be necessary to protect the resources of such area, including fish and wildlife. Such requirements may provide that access will not occur during nesting, calving, spawning or such other times as fish and wildlife in the specific area may be especially vulnerable to such activities. The Secretary is authorized to enter into contracts with public or private entities to carry out all or any portion of the mineral assessment program. This section shall not apply to the lands described in section 1001 of this Act.

(b) REGULATIONS.—Activities carried out in conservation system units under subsection (a) shall be subject to regulations promulgated by the Secretary. Such regulations shall ensure that such activities are carried out in an environmentally sound manner—

(1) which does not result in lasting environmental impacts which appreciably alter the natural character of the units or biological or ecological systems in the units; and

(2) which is compatible with the purposes for which such units are established.

TITLE XI—TRANSPORTATION AND UTILITY SYSTEMS IN AND ACROSS, AND ACCESS INTO, CONSERVATION SYSTEM UNITS

FINDINGS

SEC. 1101. Congress finds that—

(a) Alaska's transportation and utility network is largely undeveloped and the future needs for transportation and utility systems

in Alaska would best be identified and provided for through an orderly, continuous decisionmaking process involving the State and Federal Governments and the public;

(b) the existing authorities to approve or disapprove applications for transportation and utility systems through public lands in Alaska are diverse, dissimilar, and, in some cases, absent; and

(c) to minimize the adverse impacts of siting transportation and utility systems within units established or expanded by this Act and to insure the effectiveness of the decisionmaking process a single comprehensive statutory authority for the approval or disapproval of applications for such systems must be provided in this Act.

[16 U.S.C. 3161]

DEFINITIONS

SEC. 1102. For purposes of this title—

(1) The term “applicable law” means any law of general applicability (other than this title) under which any Federal department or agency has jurisdiction to grant any authorization (including but not limited to, any right-way, permit, license, lease, or certificate) without which a transportation or utility system cannot, in whole or in part, be established or operated.

(2) The term “applicant” means any public or private person, including, but not limited to, any Federal department or agency.

(3) The term “Federal agency” means any Federal department or agency that has any function or duty under applicable law.

(4)(A) The term “transportation or utility system” means any type of system described in subparagraph (B) if any portion of the route of they system will be within any conservation system unit, national recreation area, or national conservation area in the State (and the system is not one that the department or agency having jurisdiction over the unit or area is establishing incident to its management of the unit or area).

(B) The types of systems to which subparagraph (A) applies are as follows:

(i) Canals, ditches, flumes, laterals, pipes, pipelines, tunnels, and other systems for the transportation of water.

(ii) Pipelines and other systems for the transportation of liquids other than water, including oil, natural gas, synthetic liquid and gaseous fuels, and any refined product produced therefrom.

(iii) Pipelines, slurry and emulsion systems and conveyor belts for the transportation of solid materials.

(iv) Systems for the transmission and distribution of electric energy.

(v) Systems for transmission or reception of radio, television, telephone, telegraph, and other electronic signals, and other means of communication.

(vi) Improved rights-of-way for snow machines, air cushion vehicles, and other all-terrain vehicles.

(vii) Roads, highways, railroads, tunnels, tramways, airports, landing strips, docks, and other systems of general transportation.

Any system described in this subparagraph includes such related structures and facilities (both temporary and permanent) along the route of the system as may be minimally necessary for the construction, operation, and maintenance of the system. Such related structures and facilities shall be described in the application required by section 1104, and shall be approved or disapproved in accordance with the procedures set forth in this title.

[16 U.S.C. 3162]

EFFECT OF TITLE

SEC. 1103. Except as specifically provided for in this title, applicable law shall apply with respect to the authorization and administration of transportation or utility systems.

[16 U.S.C. 3163]

PROCEDURAL REQUIREMENTS

SEC. 1104. (a) IN GENERAL.—Notwithstanding any provision of applicable law, no action by any Federal agency under applicable law with respect to the approval or disapproval of the authorization, in whole or in part of any transportation or utility system shall have any force or effect unless the provisions of this section are complied with.

(b)(1) CONSOLIDATED APPLICATIONS.—Within one hundred and eighty days after the date of enactment of this Act, the Secretary, the Secretary of Agriculture, and the Secretary of Transportation, in consultation with the heads of other appropriate Federal agencies, shall jointly prescribe and publish a consolidated application form to be used for applying for the approval of each type of transportation or utility system. Each such application form shall be designed to elicit such information as may be necessary to meet the requirements of this title and the applicable law with respect to the type of system concerned.

(2) For purposes of this section, the heads of all appropriate Federal agencies, including the Secretary of Transportation, shall share decisionmaking responsibility in the case of any transportation or utility system described in section 1102(4)(B)(ii), (iii), or (vii); but with respect to any such system for which he does not have programmatic responsibility, the Secretary of Transportation shall provide to the other Federal agencies concerned such planning and other assistance as may be appropriate.

(c) FILING.—Each applicant for the approval of any transportation or utility system shall file on the same day an application with each appropriate Federal agency. The applicant shall utilize the consolidated form prescribed under subsection (b) for the type of transportation or utility system concerned.

(d) AGENCY NOTICE.—Within sixty days after the receipt of an application filed pursuant to subsection (c), the head of each Federal agency with whom the application was filed shall inform the applicant in writing that, on its face—

(A) the application appears to contain the information required by this title and applicable law insofar as that agency is concerned; or

(B) the application does not contain such information.

(2) Any notice provided under paragraph (1)(B) shall specify what additional information the applicant must provide. If the applicant provides additional information, the head of the Federal agency must inform the applicant in writing, within thirty days after receipt of such information, whether the information is sufficient.

(e) ENVIRONMENTAL IMPACT STATEMENT.—The draft of any environmental impact statement required under the National Environmental Policy Act of 1969 in connection with any applicant filed under this section shall be completed, with nine months from the date of filing, by the head of the Federal agency assigned lead responsibility for the statement. Any such statement shall be jointly prepared by all Federal agencies with which the application was filed under subsection (c). The final environmental impact statement shall be completed within one year from the date of such filing. Such nine-month and one-year periods may be extended for good cause by the Federal agency head assigned lead responsibility for the preparation of such statement if he determines that additional time is necessary for such preparation, notifies the applicant in writing of such determination, and publishes notice of such determination, together with the reasons therefore, in the Federal Register. The provisions of section 304 of the Federal Land Policy and Management Act of 1976 shall apply to each environmental impact statement under this subsection in the same manner as such provisions apply to applications relating to the public lands referred to in such section 304. The Federal agency assigned lead responsibility shall, in conjunction with such other Federal agencies before which the application is pending, hold public hearings in the District of Columbia and appropriate location in the State on each draft joint environmental impact statement and the views expressed therein shall be considered by all Federal agencies concerned before publication of the final joint environmental impact statement.

(f) OTHER VIEWS.—During both the nine-month period, and the succeeding three-month period plus any extension thereof provided for in subsection (e), the heads of the Federal agencies concerned shall solicit and consider the views of other Federal departments and agencies, the Alaska Land Use Council, the State, affected units of local government in the State, and affected corporations formed pursuant to the Alaska Native Claims Settlement Act, and, after public notice, shall receive and consider statements and recommendations regarding the application submitted by interested individuals and organizations.

(g) AGENCY DECISION.—(1) Within four months after the final environmental impact statement is published in accordance with subsection (e) with respect to any transportation or utility system, each Federal agency shall make a decision to approve or disapprove, in accordance with applicable law, each authorization that applies with respect to the system and that is within the jurisdiction of that agency.

(2) The head of each Federal agency, in making a decision referred to in paragraph (1), shall consider, and make detailed findings supported by substantial evidence, with respect to—

(A) the need for, and economic feasibility of, the transportation or utility system;

(B) alternative routes and modes of access, including a determination with respect to whether there is any economically feasible and prudent alternative to the routing of the system through or within a conservation system unit, national recreation area, or national conservation area and, if not, whether there are alternative routes or modes which would result in fewer or less severe adverse impacts upon the conservation system unit;

(C) the feasibility and impacts of including different transportation or utility systems in the same area;

(D) short- and long-term social, economic, and environmental impacts of national, State, or local significance, including impacts of fish and wildlife and their habitat, and on rural, traditional lifestyles;

(E) the impacts, if any, on the national security interests of the United States, that may result from approval or denial of the application for a transportation or utility system;

(F) any impacts that would affect the purposes for which the Federal unit or area concerned was established;

(G) measures which should be instituted to avoid or minimize negative impacts; and

(H) the short- and long-term public values which may be adversely affected by approval of the transportation or utility system versus the short- and long-term public benefits which may accrue from such approval.

【16 U.S.C. 3164】

STANDARDS FOR GRANTING CERTAIN AUTHORIZATION

SEC. 1105. In any case in which there is no applicable law with respect to a transportation or utility system, the head of the Federal agency concerned shall, within four months after the date of filing of any final Environmental Impact Statement, make recommendations, for purposes of section 1106(b), to grant such authorization as may be necessary to establish such system, in whole or in part, within the conservation system unit concerned if he determines that—

(1) such system would be compatible with the purposes for which the unit was established; and

(2) there is no economically feasible and prudent alternative route for the system.

AGENCY, PRESIDENTIAL, AND CONGRESSIONAL ACTIONS

SEC. 1106. (a)(1) AGENCY ACTION IN CASES OTHER THAN THOSE INVOLVING SECTION 1105 OR WILDERNESS AREAS.—In the case of any application for the approval of any transportation or utility system to which section 1105 does not apply or that does not occupy, use, or traverse any area within the National Wilderness Preservation System, if, in compliance with section 1104—

(A) each Federal agency concerned decides to approve each authorization within its jurisdiction with respect to that sys-

tem, then the system shall be deemed to be approved and each such agency shall promptly issue, in accordance with applicable law, such rights-of-way, permits, licenses, leases, certificates, or other authorizations as are necessary with respect to the establishment of the system; or

(B) one or more Federal agencies decide to disapprove any authorization within its jurisdiction with respect, to that system, then the system shall be deemed to be disapproved and the applicant for the system may appeal the disapproval to the President.

(2) If an applicant appeals under paragraph (1)(B), the President, within four months after receiving the appeal, shall decide whether to approve or deny the application. The President shall approve the application if he finds, after consideration of the factors set forth in section 1104(g)(2), that such approval would be in the public interest and that (1) such system would be compatible with the purposes for which the unit was established; and (2) there is no economically feasible and prudent alternative route for the system. In making a decision, the President shall consider any environmental impact statement prepared pursuant to section 1104(e), comments of the public and Federal agencies received during the preparation of such statement, and the findings and recommendations, if any, of each Federal agency that rendered a decision with respect to the application. The President's decision to approve or deny the application shall be published in the Federal Register, together with a statement of the reasons for his determination.

(3) If the President approves an application under paragraph (2), each Federal agency concerned shall promptly issue, in accordance with applicable law, such rights-of-way, permits, licenses, leases, certificates, or other authorizations as are necessary with respect to the establishment of the system.

(4) If the President denies an application under paragraph (2), the applicant shall be deemed to have exhausted his administrative remedies and may file suite in any appropriate Federal court to challenge such decision.

(b) AGENCY ACTION IN CASES INVOLVING SECTION 1005 OR WILDERNESS AREAS.—(1) In the case of any application for the approval of a transportation or utility system to which section 1105 applies or that proposes to occupy, use, or traverse any area within the National Wilderness Preservation System, each Federal agency concerned shall promptly submit to the President notification whether the agency tentatively approved or disapproved each authorization within its jurisdiction that applies with respect to the system. Such notification shall be accompanied by a statement of the reasons and findings supporting the agency position.

(2) Within four months after receiving all notification referred to in paragraph (1) and after considering such notifications, any environmental impact statement prepared pursuant to section 1104(e), and the comments of the public and Federal agencies received during the preparation of such statement, the President shall decide whether or not the application for the system concerned should be approved. If the President denies an application the applicant shall be deemed to have exhausted his administrative remedies, and may file suit in any appropriate Federal court to

challenge such decision. If the President approves the application, he shall submit to Congress his recommendation for approval of the transportation or utility system covered, whereupon the Congress shall consider the application as provided in subsection (c). The President shall include with his recommendation to Congress—

(A) the application which is the subject of his recommendation;

(B) a report setting forth in detail the relevant factual background and the reasons for his findings and recommendation;

(C) the joint environmental impact statement;¹⁴

(D) a statement of the conditions and stipulations which would govern the use of the system if approved by the Congress.

(c) CONGRESSIONAL APPROVAL.—(1) No application for any transportation or utility system with respect to which the President makes a recommendation for approval under subsection (b) shall be approved unless the Senate and House of Representatives approve a resolution described in paragraph (4) within the first period of one hundred and twenty calendar days of continuous session of the Congress beginning on the date after the date of receipt by the Senate and House of Representatives of such recommendation.

(2) For purposes of this subsection—

(A) continuity of session of the Congress is broken only by an adjournment sine die; and

RELINQUISHMENT OF SELECTIONS PARTLY WITHIN CONSERVATION
UNITS

SEC. 1415. Whenever a valid State or Native selection is partly in and partly out of the boundary of a conservation system unit, notwithstanding any other provision of law to the contrary, the State or any Native Corporation may relinquish its rights in any portion of any validly selected Federal land, including land underneath waters, which lies within the boundary of the conservation system unit. Upon relinquishment, the Federal land (including land underneath waters) so relinquished within the boundary of the conservation system unit shall become, and be administered as, a part of the conservation system unit. The total land entitlement

of the State or Native Corporation shall not be affected by such relinquishment. In lieu of the lands and waters relinquished by the State, the State may select pursuant to the Alaska Statehood Act as amended by this Act, an equal acreage of other lands available for such purpose. The Native Corporation may retain an equal acreage from overselection lands on which selection applications were otherwise properly and timely filed. A relinquishment pursuant to this section shall not invalidate as otherwise valid State or Native Corporation land selection outside the boundaries of the conservation system unit, on the grounds that after such relinquishment, the remaining portion of the land selection no longer meets applicable requirements of size, compactness, or contiguity, or that the portion of the selection retained immediately outside the conservation system unit does not follow section lines along the boundary of the conservation system unit. The validity of the selection outside such boundary shall not be adversely affected by the relinquishment.

BRISTOL BAY GROUP CORPORATION LANDS

SEC. 1416. (a) Congress finds that the individual Natives enrolled to Port Alsworth are enrolled at-large in the Bristol Bay Native Corporation. The roll prepared by the Secretary shall be determinative of this fact and such enrollment shall be final.

(b) The individual Natives enrolled to Port Alsworth have formed a group corporation which shall hereafter be referred to as Tanalian Incorporated. The benefits bestowed by this section upon these Natives shall accrue to such group corporation, regardless of its name.

(c) If Tanalian Incorporated is certified as a group under the Alaska Native Claims Settlement Act, Tanalian Incorporated shall be entitled to make selections in accordance with subsection (d) hereof.

(d)(1) Tanalian Incorporated if certified shall be entitled to make selections of the surface estate of public lands as that term is described in section 3(e) of the Alaska Native Claims Settlement Act from the following described lands, except it may not select any land of Power Site Reserve 485 (the Kontrashibuna Power Site), land acquired by the United States after January 1, 1979, or land subject to a valid existing right, in the amount agreed to by Bristol Native Corporation (not to exceed 320 acres per person or 2,240 acres, whichever is less) and charged against Bristol Bay Native Corporation's rights to select under section 14(h) as provided for in 43 CFR 2653.1(b):

Bristol Bay Native Corporation will forego in lieu subsurface selections in that portion of the Nondalton withdrawal area which falls within the Lake Clark Preserve. Selections made by Bristol Bay Native Corporation shall have priority over any selections made by the State after December 18, 1975. Such subsurface selections shall be in a single contiguous and reasonably compact tract and the exterior boundaries of such selections shall be in conformity with the public lands survey systems.

(e) If there is any conflict between selections made by Tanalian Incorporated pursuant to this section and valid Cook Inlet Region, Incorporated or Cook Inlet Region Village selections, the selections of Cook Inlet Region, Incorporated or the Cook INlet Region Village shall prevail.

(f) The Secretary shall convey to Tanalian Incorporated and to Bristol Bay Native Corporation the surface and subsurface estate, respective of the acreage selected by the corporation pursuant to this section.

(g) Nothing contained in this section, or done pursuant to authorizations made by this section, shall after or affect the acreage entitlement of Cook Inlet Region, Incorporated, or Bristol Bay Native Corporation pursuant to section 12(c) of the Alaska Native Claims Settlement Act nor the boundaries of Cook Inlet Region, Incorporated or Bristol Bay Native Corporation, respectively.

(3) these cliff areas, from the line of mean high tide to and including the bluff and areas island from them, and the entirety of otter Island, and Walrus Island, aggregating approximately eight thousand acres, properly ought to be made and be managed as part or parts of the Alaska Maritime National Wildlife Refuge free of any claims of Native Corporation ownership; and

(b) The Secretary is authorized and directed to acquire the lands described in subsection (a)(3) of this section on the terms of and conditions set forth in the Agreement known as the "Pribilof Terms and Conditions", between Tanadgusix, Incorporated, Tanaq, Incorporated, the Aleut Corporation, and the Department of the Interior, incorporated as an Attachment of the Interior, dated August 4, 1980, file reference FWS 1366, addressed to the Aleut, Tanadgusix, and Tanaq Corporations. The "Pribilof Terms and Conditions," as referenced in this subsection, are hereby ratified as to the duties and obligations of the United States and its agencies, Tanadgusix, Incorporated, Tanaq, Incorporated, and the Aleut Corporation: *Provided*, That the "Pribilof Terms and Conditions" may be modified or amended, upon the written agreement of all parties thereto and appropriate notification in writing to the appropriate committees of the Congress, without further action by the Congress. Upon acquisition by the United States, the lands described in such subsection (a)(3) shall be incorporated within, and made a subunit of, the Alaska Maritime National Wildlife Refuge and administered accordingly.

(c) There are hereby authorized to be appropriated for the purposes of this section, out of any money in the Treasury not otherwise appropriated, for the acquisition of such lands, not to exceed \$7,500,000, to remain available until expended, and without regard to fiscal year limitation.

A failure by Doyon, Limited, to select its total land entitlement under subsection (b)(1) shall not affect Doyon's total land entitlement under sections 12(c) and 14(h)(8) of such Act.

(4) Beginning on the date of enactment of this Act, the lands described in subsection (b)(1) hereof shall be withdrawn from all forms of appropriation under the public land laws as if such lands had been withdrawn pursuant to section 11(a) of the Alaska Native Claims Settlement Act. The Secretary is authorized to terminate such withdrawal with respect to lands not selected by by Doyon, Limited, either one year after the Secretary's acreage determination pursuant to subsection (a)(3) hereof or, with respect to the lands subject to such release, upon the giving of notice by Doyon to the Secretary that the corporation is releasing its selection rights under this paragraph to all or part of the withdrawn lands, whichever first occurs. Such withdrawal shall not prevent reasonable surface studies or mineral exploration, including core drilling, by Doyon or its assigns on the lands withdrawn, subject to such rules and regulations as the Secretary may prescribe: *Provided*, That the issuance of regulations under this subparagraph, or any permits thereunder shall not be subject to any requirements for preparation or submission of an environmental impact statement contained in the National Environmental Policy Act of 1969.

14(e) of such Act. The Secretary shall issue a decision to convey title to the lands selected by Doyon pursuant to this subparagraph, subject to valid existing rights, within one hundred and eighty days after each selection.

Upon identification by Doyon, Limited, under this paragraph, such acreage shall no longer be deemed a section 12(c) selection, shall be charged against Doyon's section 14(h)(8) land entitlement and shall be conveyed by the Secretary to Doyon in accordance with the provisions of the Alaska Claims Settlement Act.

(3) In the event Doyon, Limited, effects a relinquishment under subsection (a) hereof, and the provisions of this paragraph thus become operative, the corporation shall not thereafter make selections under section 14(h)(8) of the Alaska Native Claims Settlement Act on lands which were (a) withdrawn pursuant to section 11(a), but not selected under section 12(c) of such Act and (b) lie within a conservation system unit created or expanded pursuant to this Act: *Provided*, That all Doyon's other selection rights under section 14(h)(8) shall not be affected.

(d)(1) In recognition of the potential need of Doyon, Limited, for access in a southerly direction from its landholdings in the watersheds of the Kandik and Nation Rivers across the Yukon River, the Secretary shall review applications submitted by Doyon, Limited, for one or more rights-of-way which, in order to provide such access, would pass through public lands within the Yukon-Charley National Preserve.

(2) The Secretary shall approve an application reviewed under paragraph (1) of this subsection, and shall grant the right-of-way requested in such application, if he determines that there exists no economically feasible or otherwise reasonably available alternative route.

(3) Each right-of-way granted under this subsection shall be subject to such reasonable regulations issued by the Secretary as are necessary to minimize the adverse impact of such right-of-way upon any conservation system unit.

(4) No rights-of-way shall be granted under this subsection which would cross the Charley River or which would involve any lands within the watershed of the Charley River.

SEC. 1420. (a) Subject to the provisions of section 1419 (b) and (c) of this Act, the following described lands, during the period of withdrawal specified in section 1419(b)(4), shall be set aside and managed as a study area by the United States Fish and Wildlife Service in cooperation with Doyon, As Limited:

Beginning at elevation point 2970 which lies within the northeast one-quarter of section 10, township 21 north, range 9 west Fairbanks meridian;

thence westerly following the crest of the ridgeline of which elevation point 2970 is a part through sections 10, 9, 8, 7, and 6 of township 21 north, range 9 west Fairbanks meridian to the true point of beginning which is the intersection of the crest of the ridgeline of which elevation point 2970 is a part with the township line which separates section 6, township 21 north, range 9 west Fairbanks meridian and section 1, township 21 north, range 10 west Fairbanks meridian;

thence from the true point of beginning; westerly following the crest of the ridgeline of which elevation point 2970 is a part through sections 1, 2, 3, 4, 9, 8, 5, 7, and 6 of township 21 north, range 10 west Fairbanks meridian, and through sections 1, 2, and 3 of township 21 north, range 11 west fairbanks meridian to the intersection of the crest of the aforementioned ridgeline with the crest of the ridgeline which is the watershed boundary between the Hodzana River and west flowing tributaries of the South Fork of the Koyukuk River;

thence southerly and westerly along the crest of this watershed boundary through sections 3, 10, 15, 16, 17, 20, 21, 29, 32, and 31 of township 21 north, range 11 west Fairbanks meridian, section 36 of township 21 north, range 12 west Fairbanks meridian, sections 1, 2, 11, 12, 13, 14, 23, 24, 25, 26, 36, 34, and 35 of township 20 north, range 12 west Fairbanks meridian, and to the northeast one-quarter of section 3, township 19 north, range 12 west Fairbanks meridian where the crest of the watershed of the Hodzana River turns in an easterly direction and becomes, first the divide between the watershed of the Hodzana and Kanuti Rivers and then the divide between the Hodzana and Dall Rivers;

thence northeasterly along the crest of Dall Mountain to the intersection of the crest of Dall Mountain with the line between township 20 north, range 9 west Fairbanks meridian and township 20 north, range 10 west Fairbanks meridian which intersection lies approximately on elevation point 3491, the highest point of Dall Mountain on the eastern line of section 36 township 20 north, range 10 west Fairbanks meridian;

thence north along the township line between townships 20 and 21 north, ranges 9 and 10 west Fairbanks meridian to the true point of beginning at the intersection of the crest of the heretofore described west trending ridgeline and this township line, which point lies between section 6 township 21 north, range 9 west Fairbanks meridian.

This description is based upon United States Geological Survey Quadrangle Beaver, Alaska, 1956 with minor revisions 1972, on which land lines represent unsurveyed and unmarked locations predetermined by the Bureau of Land Management folios F-2, F-3, F-6, and F-7 Fairbanks meridian, and United States Geological Survey Quadrangle Bettles, Alaska, 1956 with minor revisions 1973, on which land lines represent unsurveyed and unmarked lo-

cations predetermined by the Bureau of Land Management folios F-3, F-4, F-5, and F-6. The use of these quadrangles and the protracted land thereon is for purposes of convenience in describing the lands within the Hodzana River Study Area. The actual area is to be within the above-described basin, and should any discrepancy appear upon on the ground determination of the location of the watershed boundary, the watershed boundary shall control, not the land lines protracted upon the aforementioned United States Geological Survey Quadrangles.

(b) During the study period herein provided, Doyon, Limited, may, under such reasonable rules and regulations as the Secretary finds necessary to protect the water quality and quantity of the Hodzana River, conduct such investigations within the study area, including core drilling, which will not materially disturb the land surface, as are required to determine the extent of mineralization therein. During the study period, the Fish and Wildlife Service is authorized to undertake such studies of the Hodzana River and its environs as are required to determine the measures to undertake and the regulations necessary to protect and maintain the water quality and quantity of the Hodzana River should lands in its watershed be selected by Doyon, Limited and the minerals therein be developed. Upon agreement with Doyon, Limited, the Secretary is authorized to extend the study period up to an additional two years; if so, the duration of the withdrawal from appropriation for the lands described in subsection (1) hereof and the time during which Doyon, Limited may select such lands or identify such lands for conveyance shall be extended for a like period.

(c) The right of Doyon, Limited to land conveyances within the study area also shall be subject to the provisions of subsection 1419(b)(2) of this Act, unless the results of the study indicate, and Doyon and the Secretary agree, that some or all of such requirements should be waived.

(d) In the event Doyon receives conveyance in the study area, the corporation shall have those rights of access to the lands involved as are reasonably necessary for the economic operation of such mineral developments. Upon final termination of mining activity, Doyon and the Secretary.

(e) The National Environmental Policy Act of 1969 shall not be construed, in whole or in part, as requiring the preparation or submission of an environmental impact statement before the issuance of regulations under this paragraph, or any permit relating to mineral development, the conduct of any investigation in the study area, the conveyance of interests therein to Doyon or the grant of any easement or right-of-way to the lands involved. The Secretary, however, is authorized to promulgate such regulations as may reasonable be necessary to protect the water quality and quantity, and to prevent substantial adverse environmental degradation, of the Hodzana River. Any such regulations shall be coordinated with, and shall not be more stringent than, the applicable requirements under the Federal Water Pollution Control Act.

EKLUTNA VILLAGE CORPORATION LANDS

SEC. 1425. EKLUTNA-STATE AGREEMENTS AND NEGOTIATIONS.—

(a) The purpose of this section is to provide for the settlement of certain claims and litigation, and in so doing to consolidate ownership among the United States, the State of Alaska, the Municipality of Anchorage, Eklutna, Incorporated, and Cook Inlet Region, Incorporated, thereby facilitating land management, a fair implementation of the Alaska Native Claims Settlement Act, the protection of State public park lands and resources, and appropriate development patterns in and about Anchorage, Alaska.

(b) The Secretary shall accept relinquishments and make conveyances of selections in accordance with the specific terms, conditions, covenants, reservations, and other restrictions set forth in any agreement respecting the lands described in subparagraph (1) below, executed by the State of Alaska, by the Municipality of Anchorage, and by Eklutna, Incorporated, and hereafter submitted to the Senate Committee on Energy and Natural Resources and the House Committee on Interior and Insular Affairs and filed with the Secretary, the execution and implementation of which agreement are hereby authorized as to those duties and obligations of the United States, the State of Alaska, the Municipality of Anchorage, and Eklutna, Incorporated, which arise under Federal law: *Provided, however,* That any conveyance under such agreement of lands to Eklutna, Incorporated, shall be only of the surface estate, with a subsequent conveyance to Cook Inlet Region, Incorporated, of the subsurface estate except as otherwise provided in subsection (h). In aid thereof:

(1) The following lands located within the townships described in sections 11(a)(1) and (2) of the Alaska Native Claims Settlement Act with respect to the Native Village of Eklutna are withdrawn,

subject to valid existing rights, from all forms of appropriation under the public land laws, including the mining and mineral leasing laws, and including Public Law 94-204, except section 12 thereof, and from selection under the Alaska Statehood Act, or any statutes authorizing selections by the State of Alaska: (A) lands withdrawn or reserved for national defense purposes; and (B) lands determined by the Secretary under section 3(e)(1) of the Alaska Native Claims Settlement Act not to be public lands for purposes of the Alaska Native Claims Settlement Act. This withdrawal and the agreement shall not affect the administrative jurisdiction of the Department of Defense or any other holding agency over the lands withdrawn, but all forms of disposition other than in accordance with this section and the agreement are prohibited: *Provided*. That the foregoing to the contrary notwithstanding, lands placed prior to July 15, 1979, in the pool contemplated by Part I.C.(2) of the document entitled "Terms and Conditions for Land Consolidation and Management in the Cook in the Cook Inlet Area as clarified 8-13-76", but only to the extent authorized by that document under section 12 of Public Law 94-204 as amended heretofore and in accordance with the procedures and with the consents and approvals required by laws, regulations, and Executive orders in effect on such date of placement, may be selected by Cook Inlet Region, Incorporated, free of the effects of the agreement pursuant to this section; if the lands placed in that pool are not thereafter selected in accordance with part I.C.(2) of that document any agreement pursuant to this section shall govern: *Provided further*, That neither the revocation of certain withdrawals of lands made by subsection (b) effective upon the filing of the agreement, nor the expiration of the withdrawal made by subsection (b) in the event no agreement is reached, shall be deemed an action causing those lands affected thereby to be subject to disposition under such section 12. The withdrawal made by the subsection (b) will expire March 15, 1982, if an executed agreement described in this section is not filed by the parties thereto on or before that date with the Secretary in the Alaska State Office of the Bureau of Land Management; but if an agreement is so executed, rights under the agreement shall vest as of the effective date of this Act, and this withdrawal shall become permanent, except as otherwise provided in the agreement. The agreement shall not impose upon the United States obligations or outlays of funds, as reasonable in the ordinary course of business, or impose any procedural requirements or require the reassignment of personnel; and any of its provisions to the extent to the contrary shall be void as against the Secretary.

(2) Upon termination or revocation of any national defense withdrawal or reservation or of any other withdrawal in effect December 18, 1971, respecting lands described in subsection (b)(1), or upon declaration of their excess status in whole or in part, whichever first occurs, but not before, and from time to time, the lands excessed or as to which the withdrawal is terminated or revoked shall be conveyed to Eklutna, Incorporated, as to the surface estate and Cook Inlet Region, Incorporated as to the subsurface estate, or to the State of Alaska (for reconveyance by the State of Alaska in whole or in part to the Municipality of Anchorage), as may be provided in the agreement described in this subsection: *Provided, how-*

ever, That such conveyance shall not be made of lands in the pool established under part I.C.(2) of the document entitled "Terms and Conditions for Land Consolidation and Management in the Cook Inlet Area as clarified 8-31-76" under section 12 of Public Law 94-204 as amended heretofore, unless and until removed from that pool in accordance with such part I.C.(2). This section and the agreement shall preempt the procedures of the Federal Property Act (40 U.S.C. 471, et seq., and of 41 CFR 101-47.000 et seq.), (other than as to fixtures and personalty) and the preference right for State selection of section 6(g) of the Alaska Statehood Act. The conveyances to Eklutna, Incorporated, of lands withdrawn by this subsection called for by the agreement shall not be subject to section 1613(c) of title 43, United States Code. This section shall revoke PLO 5187 as it pertains to any lands withdrawn by this subsection and any power withdrawals other than Power Project 350 as to such lands, effective upon the date of filing of the agreement. Lands conveyed to the State of Alaska, the surface estate of lands conveyed to Eklutna, Incorporated, and the subsurface estate conveyed to Cook Inlet Region, Incorporated, pursuant to this section and the agreement, shall be charged against their respective entitlements under sections 12 and 14 of the Settlement Act and be considered conveyed and received pursuant to the Settlement Act, and section 6 of the Alaska Statehood Act or section 906(c) of this Act.

(c) If an agreement to the following effect executed by the State of Alaska and Eklutna, Incorporated, is hereafter filed with the Secretary in the Alaska State Office of the Bureau of Land Management on or before April 2, 1982, the public lands as defined in the Settlement Act, located within township 17 north, range 3 west, Seward Meridian, Alaska, shall be deemed to have been withdrawn pursuant to section 11(a) of the Settlement Act as of December 18, 1971, and, selections therein shall be processed by the Secretary as though said selections had been made within a township heretofore validly withdrawn pursuant to section 11(a). If no such agreement is filed, this subsection shall not be held to affect the validity or invalidity of such sections. Whether or not any agreement is filed, this subsection shall not be held to affect the validity or invalidity of any third party interest heretofore created by the State of Alaska.

(d) Notwithstanding other provisions of this Act, the State and Eklutna, Incorporated, are each authorized to relinquish, in whole or in part, pursuant to either or both of the agreements contemplated by subsections (b) and (c), any one or more land selections affecting lands to be conveyed under the agreement to the other whether or not such selections have been previously approved or tentatively approved. The lands affected by the State selections so relinquished shall be deemed public lands as of December 18, 1971, as that term is defined in the Settlement Act.

(e) Eklutna, Incorporated, and the Secretary shall stipulate to dismiss cause number A-78-24 Civil in the United States District Court for the District of Alaska, when the Secretary tenders to Eklutna, Incorporated, a conveyance of all lands in township 17 north, range 3 east, Seward Meridian, which are to be conveyed to

Eklutna, Incorporated, under the agreement referred to in subsection (c).

(f) Eklutna, Incorporated, and the Secretary shall stipulate to dismiss cause number A-78-192 Civil in the United States District Court for the District of Alaska except as to the lands affected thereby which under the agreement referred to in subsection (b) are to remain in litigation in that cause, if any, when the Secretary tenders to Eklutna, Incorporated, a conveyance of all those lands which under the agreement the State agrees are to be conveyed to Eklutna, Incorporated, from among those selected at one time by the State under the authority of the Mental Health Enabling Act of 1956 (70 Stat. 709).

(g) The Secretary shall convey to Eklutna, Incorporated, its entitlement without regard to the acreage or interests which may ultimately be conveyed to Eklutna, Incorporated, under the agreement from within lands withdrawn by subsection (b). The agreement shall, however, require Eklutna, Incorporated, to subject to section 907 of this Act one or more compact tracts of lands of at least equal acreage to that ultimately to be conveyed to Eklutna, Incorporated, under the agreement from those withdrawn by subsection (b). The agreement shall require Eklutna, Incorporated, to reconvey to the State lands from those subject to section 907 in an amount provided by the agreement, upon the occasion of each receipt of lands by Eklutna, Incorporated, from among those withdrawn by subsection (b). Lands received by the State in such a reconveyance from Eklutna, Incorporated, shall be charged, to the extent of the acreage received by Eklutna, Incorporated, in the relevant conveyance to it, against the State's entitlement under section 6 of the Alaska Statehood Act, or section 906(c) of this Act, as the State may elect. If thereby the State receives more than its entitlements under the Act elected, it shall reconvey to the United States a compact tract of unencumbered State lands of equal acreage contiguous to lands belonging to the United States. Eklutna, Incorporated, shall also subject to section 907 of this Act, once an agreement under subsection (c) exists and thereafter from time to time, one or more compact tracts which equals the acreage amount by which Eklutna, Incorporated's entitlement would be over satisfied considering the acreage already conveyed to Eklutna, Incorporated; to the extent such a risk of over entitlement abates the lands may be withdrawn from the Land Bank.

(h) In the event that Eklutna, Incorporated, receives a conveyance from the United States of the surface estate in lands withdrawn by subsection (b) pursuant to the agreement authorized in that subsection, and if a reconveyance from Eklutna, Incorporated, of surface estate in land to the State from those subject to section 90 of this Act is thereby occasioned, a conveyance of the subsurface estate in the lands conveyed to Eklutna, Incorporated, shall be withheld until the Secretary ascertains to whom the subsurface estate is to be conveyed under this subsection. The entity owning the subsurface estate in those reconveyed lands shall retain that interest, unless it in the agreement or separately consents to convey the same to the State. In the event such entity so consents to convey the subsurface to the State, the Secretary shall convey the subsurface estate in the lands conveyed to Eklutna, Incorporated, to

that entity; if such entity does not so consent, the subsurface estate in the lands conveyed to Eklutna, Incorporated, shall be conveyed to the State.

The objectives of the study are: to identify lands, pursuant to guidelines contained in section 1302(h) of this Act, and in section

The inclusion of lands within the areas designated as conservation system units or for wilderness study by this Act within the Chugach region shall not preclude the identification of those lands to meet the study objectives outlined in subsection (a).

(c) PROCEDURE.—The study participants shall hold at least three public hearings, at least one of which shall be in Anchorage and at least two of which shall be in the Chugach region. In conducting the study, the study participants shall seek review and comment from the public, including the residents of the Chugach region, and all meetings of the study participants shall be open to the public.

The consent of the head of any agency administering the land in the area to be withdrawn shall not be necessary prior to such withdrawal. Such withdrawal shall remain in force and effect for one year following the date of enactment of the legislation authorizing implementation of the recommendations in the study report signed by the President unless the Secretary shall earlier determine that the lands of any part thereof included in the withdrawal no longer need the protection of the withdrawal. If lands are selected by Chugach Natives, Incorporated, the withdrawals of the selected lands shall remain in force and effect until the selection is conveyed or finally rejected. The withdrawal and any modification, amendment or revocation thereof shall be published in the Federal Register and shall be effective on the date of publication in the Federal Register.

(3) Prior to conveyance, any lands selected by Chugach Natives, Incorporated pursuant to the study or legislation implementing the study, shall be subject to administration by the Secretary of the Interior or by the Secretary of Agriculture in the case of national forest lands under applicable laws and regulations, and their authority to make contracts and to grant leases, permits, rights-of-way, or easements shall not be impaired by the withdrawal: *Provided, however,* That the Secretary shall not make any contract or grant any lease, permit, right-of-way or easement without prior consultation with Chugach Natives, Incorporated. Any lands irrevocably selected by Chugach Natives, Incorporated, shall not be subject to any contract, lease, permit, right-of-way or easement without the prior consent of Chugach Natives, Incorporated. (5) All lands withdrawn under this subsection shall be subject to section 2 of Public Law 94–204 (43 U.S.C. 1613).

(g) INTERIM MANAGEMENT.—Until Congress takes final action on any legislation transmitted by the President to this section or until lands agreed to by the participants in the study are conveyed, whichever comes first, the Secretary of the Interior and the Secretary of Agriculture shall manage lands under their control in the Chugach region in close consultation with Chugach Natives, Incorporated and, to the maximum extent possible, in such a manner so as not to adversely affect or preclude any option which the participants in the study may consider.

(h) RELINQUISHED AREAS.—Any lands within the exterior boundaries of a conservation system unit or a national forest previously selected by Chugach Natives, Incorporated, but relinquished by Chugach Natives, Incorporated, shall, upon receipt of any such relinquishment become a part of the unit and administered accordingly.

Nothing in this paragraph shall apply to the Village Corporation for the Native village of Klukwan, which Corporation shall receive those rights granted to it by the Act of January 2, 1976 (Public Law 94-204) as amended by the Act of October 4, 1976 (Public Law 94-456).

(4) Subject to valid existing rights and section 903(a) of this Act, and except where such lands are within a National Wildlife Refuge or the National Petroleum Reserve—Alaska, for which the Regional Corporation obtains in-lieu rights pursuant to section 12(a)(1) of the Alaska Native Claims Settlement Act, there is hereby conveyed to and vested in each Regional Corporation which, as a result of a conveyance of a surface estate by operation of paragraphs (1) and (2) of this subsection, is entitled under section 14(f) of the Alaska Native Claims Settlement Act to receive the subsurface estate corresponding to such surface estate, all of the right,

title, and interest of the United States in and to such subsurface estate.

(c) DOCUMENTS.—As soon as possible after the date of enactment of this Act, the Secretary shall issue to each Native Corporation referred to in subsection (b) interim conveyances or patents to the estate or estates conveyed to such Corporation by such subsections, but title shall be deemed to have passed on the date of the filing of a document of election described in subsection (a), notwithstanding any delay in the issuance of the interim conveyances or patents.

(d) RECONVEYANCES; DISPUTES.—A Village Corporation's obligation to reconvey lands under section 14(c) of the Alaska Native Claims Settlement Act shall arise only upon receipt of an interim conveyance or patent, whichever is earlier, under subsection (c) of this section or under such Act. For purposes of the Alaska Native Claims Settlement Act, legislative conveyances made by, or interim conveyances and patents issued pursuant to, this title shall have the same effect as if issued pursuant to sections 14(a), 14(b), 14(f), and 19(b) of the Alaska Native Claims Settlement Act and shall be deemed to have been so issued. Disputes between or among Native Corporations arising from conveyances under this Act shall be resolved by a board of arbitrators of a type described in section 12(e) of the Alaska Native Claims Settlement Act pertaining to disputes over land selection rights and the boundaries of Village Corporations.

(e) EXISTING RIGHTS.—All conveyances made by operation of this section shall be subject to the terms and conditions of the Alaska Native Claims Settlement Act as if such conveyances or patents had been made or issued pursuant to that Act.

In the case of any recommendation for which an environmental impact statement is not required under section 102(2)(C) of the National Environmental Policy Act of 1969, the President may, if he deems it desirable, include such a statement in his transmittal to the Congress.

(d) APPROVAL.—Any recommendation under this section shall take effect only upon enactment of a joint resolution approving such recommendation within the first period of one hundred and twenty calendar days of continuous session of Congress beginning on the date after the date of receipt by the Senate and House of Representatives of such recommendation. Any recommendation of the President submitted by both Houses for purposes of this section on the first day on which both are in session occurring after such recommendation is submitted.

(e) ONE-HUNDRED-AND-TWENTY-DAY COMPUTATION.—For purposes of this section—

(1) continuity of session of Congress is broken only by an adjournment sine die; and

(2) the days on which either House is not in session because of an adjournment of more than three days to a day certain are excluded in the computation of the one-hundred-and-twenty-day calendar period.
