

FEDERAL WATER PROJECT RECREATION ACT

[Public Law 89–72; Enacted July 9, 1965]

[As Amended Through P.L. 113–287, Enacted December 19, 2014]

【Currency: This publication is a compilation of the text of Public Law 89–72. It was last amended by the public law listed in the As Amended Through note above and below at the bottom of each page of the pdf version and reflects current law through the date of the enactment of the public law listed at <https://www.govinfo.gov/app/collection/comps/>】

【Note: While this publication does not represent an official version of any Federal statute, substantial efforts have been made to ensure the accuracy of its contents. The official version of Federal law is found in the United States Statutes at Large and in the United States Code. The legal effect to be given to the Statutes at Large and the United States Code is established by statute (1 U.S.C. 112, 204).】

AN ACT To provide uniform policies with respect to recreation and fish and wildlife benefits and costs of Federal multiple-purpose water resource projects, and other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That it is the policy of the Congress and the intent of this Act that (a) in investigating and planning any Federal navigation, flood control, reclamation, hydroelectric, or multiple-purpose water resource project, full consideration shall be given to the opportunities, if any, which the project affords for outdoor recreation and for fish and wildlife enhancement and that, wherever any such project can reasonably serve either or both of these purposes consistently with the provisions of this Act, it shall be constructed, operated, and maintained accordingly; (b) planning with respect to the development of the recreation potential of any such project shall be based on the coordination of the recreational use of the project area with the use of existing and planned Federal, State, or local public recreation developments; and (c) project construction agencies shall encourage non-Federal public bodies to administer project land and water areas for recreation and fish and wildlife enhancement purposes and operate, maintain, and replace facilities provided for those purposes unless such areas or facilities are included or proposed for inclusion within a national recreation area, or are appropriate for administration by a Federal agency as a part of the national forest system, as a part of the public lands classified for retention in Federal ownership, or in connection with an authorized Federal program for the conservation and development of fish and wildlife.

【16 U.S.C. 460l–12】

SEC. 2. (a) If, before authorization of a project, non-Federal public bodies indicate their intent in writing to agree to administer project land and water areas for recreation or fish and wildlife en-

hancement or for both of these purposes pursuant to the plan for the development of the project approved by the head of the agency having administrative jurisdiction over it and to bear not less than one-half the separable costs of the project allocated to recreation, and to bear one-quarter of such costs allocated to fish and wildlife enhancement, and not less than one-half the costs of operation, maintenance, and replacement incurred therefor—

(1) the benefits of the project to said purpose or purposes shall be taken into account in determining the economic benefits of the project;

(2) costs shall be allocated to said purpose or purposes and to other purposes in a manner which will insure that all project purposes share equitably in the advantages of multiple-purpose construction: *Provided*, That the costs allocated to recreation or fish and wildlife enhancement shall not exceed the lesser of the benefits from those functions or the costs of providing recreation or fish and wildlife enhancement benefits of reasonably equivalent use and location by the least costly alternative means; and

(3) not more than one-half the separable costs of the project allocated to recreation and exactly three-quarters of such costs allocated to fish and wildlife enhancement and all the joint costs of the project allocated to recreation and fish and wildlife enhancement shall be borne by the United States and be nonreimbursable.

Projects authorized during the calendar year 1965 may include recreation and fish and wildlife enhancement on the foregoing basis without the required indication of intent. Execution of an agreement as aforesaid shall be a prerequisite to commencement of construction of any project to which this subsection is applicable.

(b) The non-Federal share of the separable costs of the project allocated to recreation and fish and wildlife enhancement shall be borne by non-Federal interests, under either or both of the following methods as may be determined appropriate by the head of the Federal agency having jurisdiction over the project: (1) payment, or provision of lands, interests therein, or facilities for the project; or (2) repayment, with interest at a rate comparable to that for other interest-bearing functions of Federal water resource projects, within fifty years of first use of project recreation or fish and wildlife enhancement facilities: *Provided*, That the source of repayment may be limited to entrance and user fees or charges collected at the project by non-Federal interests if the fee schedule and the portion of fees dedicated to repayment are established on a basis calculated to achieve repayment as aforesaid and are made subject to review and renegotiation at intervals of not more than five years.

[16 U.S.C. 460l-13]

SEC. 3. (a) No facilities or project modifications which will furnish recreation or fish and wildlife enhancement benefits shall be provided in the absence of the indication of intent with respect thereto specified in subsection 2(a) of this Act unless (1) such facilities or modifications serve other project purposes and are justified thereby without regard to such incidental recreation or fish and

wildlife enhancement benefits as they may have or (2) they are minimum facilities which are required for the public health and safety and are located at access points provided by roads existing at the time of project construction or constructed for the administration and management of the project. Calculation of the recreation and fish and wildlife enhancement benefits in any such case shall be based on the number of visitor-days anticipated in the absence of recreation and fish and wildlife enhancement facilities or modifications except as hereinbefore provided and on the value per visitor-day of the project without such facilities or modifications. Project costs allocated to recreation and fish and wildlife enhancement on this basis shall be nonreimbursable.

(b) Notwithstanding the absence of an indication of intent as specified in subsection 2(a), lands may be provided in connection with project construction to preserve the recreation and fish and wildlife enhancement potential of the project:

(1) If non-Federal public bodies execute an agreement after initial operation of the project (which agreement shall provide that the non-Federal public bodies will administer project land and water areas for recreation or fish and wildlife enhancement or both pursuant to the plan for the development of the project approved by the head of the agency having administrative jurisdiction over it and will bear not less than one-half the costs of lands, facilities, and project modifications provided for recreation, and will bear one-quarter of such costs for fish and wildlife enhancement, and not less than one-half the costs of planning studies, and the costs of operation, maintenance, and replacement attributable thereto) the remainder of the costs of lands, facilities, and project modifications provided pursuant to this paragraph shall be nonreimbursable. Such agreement and subsequent development, however, shall not be the basis for any reallocation of joint costs of the project to recreation or fish and wildlife enhancement.

(2) If, within ten years after initial operation of the project, there is not an executed agreement as specified in paragraph (1) of this subsection, the head of the agency having jurisdiction over the project may utilize the lands for any lawful purpose within the jurisdiction of his agency, or may offer the land for sale to its immediate prior owner or his immediate heirs at its appraised fair market value as approved by the head of the agency at the time of offer or, if a firm agreement by said owner or his immediate heirs is not executed within ninety days of the date of the offer, may transfer custody of the lands to another Federal agency for use for any lawful purpose within the jurisdiction of that agency, or may lease the lands to a non-Federal public body, or may transfer the lands to the Administrator of General Services for disposition in accordance with the surplus property laws of the United States. In no case shall the lands be used or made available for use for any purpose in conflict with the purposes for which the project was constructed, and in every case except that of an offer to purchase made, as hereinbefore provided, by the prior owner or his heirs preference shall be given to uses which will preserve and promote the recreation and fish and wildlife enhancement

potential of the project or, in the absence thereof, will not detract from the potential.

(c)(1) Any recreation facility constructed under this Act may be expanded or modified if—

(A) the facility is inadequate to meet recreational demands; and

(B) a non-Federal public body executes an agreement which provides that such public body—

(i) will administer the expanded or modified facilities pursuant to a plan for development for the project that is approved by the agency with administrative jurisdiction over the project; and

(ii) will bear not less than one-half of the planning and capital costs of such expansion or modification and not less than one-half of the costs of the operation, maintenance, and replacement attributable to the expansion of the facility.

(2) The Federal share of the cost of expanding or modifying a recreational facility described in paragraph (1) may not exceed 50 percent of the total cost of expanding or modifying the facility.

【16 U.S.C. 460l-14】

SEC. 4. At projects, the construction of which has commenced or been completed as of the effective date of this Act, where non-Federal public bodies agree to administer project land and water areas for recreation and fish and wildlife enhancement purposes and to bear the¹ not less than one-half the costs of operation, maintenance, and replacement of existing facilities serving those purposes, such facilities and appropriate project lands may be leased to non-Federal public bodies.

【16 U.S.C. 460l-15】

SEC. 5. Nothing herein shall be construed as preventing or discouraging postauthorization development of any project for recreation or fish and wildlife enhancement or both by non-Federal public bodies pursuant to agreement with the head of the Federal agency having jurisdiction over this project. Such development shall not be the basis for any allocation or reallocation of project costs to recreation or fish and wildlife enhancement.

【16 U.S.C. 460l-16】

SEC. 6. (a) The views of the Secretary of the Interior developed in accordance with section 3 of this Act of May 28, 1963 (77 Stat. 49), with respect to the outdoor recreation aspects shall be set forth in any report of any project or appropriate unit thereof within the purview of this Act. Such views shall include a report on the extent to which the proposed recreation and fish and wildlife development conforms to and is in accord with the State comprehensive plan developed pursuant to section 200305(d) of title 54, United States Code.

(b) The first proviso of subsection 2(d) of the Act of August 12, 1958 (72 Stat. 563; 16 U.S.C. 662(d)), is amended to read as follows: *Provided*, That such cost attributable to the development and

¹ So in original. The word “the” should be deleted.

improvement of wildlife shall not extend beyond that necessary for (1) land acquisition, (2) facilities as specifically recommended in water resource project reports, (3) modification of the project, and (4) modification of protect operations, but shall not include the operation of wildlife facilities.” The second proviso of subsection 2(d) of said Act is hereby repealed.

(c) Expenditures for lands or interests in lands hereafter acquired by project construction agencies for the establishment of migratory waterfowl refuges recommended by the Secretary of the Interior at Federal water resource projects, when such lands or interests in lands would not have been acquired but for the establishment of a migratory waterfowl refuge at the project, shall not exceed \$28,000,000: *Provided*, That the aforementioned expenditure limitation in this subsection shall not apply to the costs of mitigating damages to migratory waterfowl caused by such water resource project.

(d) This Act shall not apply to the Tennessee Valley Authority, but the Authority is authorized to recognize and provide for recreational and other public uses at any dams and reservoirs heretofore or hereafter constructed in a manner consistent with the promotion of navigation, flood control, and the generation of electrical energy, as otherwise required by law, nor to projects constructed under authority of the Small Reclamation Projects Act, as amended, or under authority of the Watershed Protection and Flood Prevention Act, as amended.

(e) Sections 2, 3, 4, and 5 of this Act shall not apply to nonreservoir local flood control projects, beach erosion control projects, small boat harbor projects, hurricane protection projects, or to project areas or facilities authorized by law for inclusion within a national recreation area or appropriate for administration by a Federal agency as a part of the national forest system, as a part of the public lands classified for retention in Federal ownership, or in connection with an authorized Federal program for the conservation and development of fish and wildlife.

(f) As used in this Act, the term “nonreimbursable” shall not be construed to prohibit the imposition of entrance, admission, and other recreation user fees or charges.

(g) Subsection 6(a)(2) of the Land and Water Conservation Fund Act of 1965 (78 Stat. 897)² shall not apply to costs allocated to recreation and fish and wildlife enhancement which are borne by the United States as a nonreimbursable project cost pursuant to subsection 2(a) or subsection 3(b)(1) of this Act.

(h) All payments and repayment by non-Federal public bodies under the provisions of this Act shall be deposited in the Treasury as miscellaneous receipts, and revenue from the conveyance by deed, lease, or otherwise, of lands under subsection 3(b)(2) of this Act shall be deposited in the Land and Water Conservation Fund.

【16 U.S.C. 460l–17】

²Section 5(d)(1)(B) of Public Law 113-287 provides for an amendment to strike “Subsection 6(a)(2) of the Land and Water Development Fund Act of 1965 (78 Stat. 897)” and substitute “section 200306(a)(3) of title 54, United States Code.”. The amendment probably should have struck “Subsection 6(a)(2) of the Land and Water Conservation Fund Act of 1965 (78 Stat. 897)” and should have uppcased the letter “s” in the word “section” in the substituted matter.

SEC. 7. (a) The Secretary is authorized, in conjunction with any reservoir heretofore constructed by him pursuant to the Federal reclamation laws or any reservoir which is otherwise under his control, except reservoirs within national wildlife refuges, to investigate, plan, construct, operate and maintain, or otherwise provide for public outdoor recreation and fish and wildlife enhancement facilities, to acquire or otherwise make available such adjacent lands or interests therein as are necessary for public outdoor recreation or fish and wildlife use, and to provide for public use and enjoyment of project lands, facilities, and water areas in a manner coordinated with the other project purposes³. Lands, facilities and project modifications for the purposes of this subsection may be provided only after an agreement in accordance with subsection (b) or (c) of section 3 of this Act has been executed.

(b) The Secretary of the Interior is authorized to enter into agreements with Federal agencies or State or local public bodies for the administration of project land and water areas and the operation, maintenance, and replacement of facilities and to transfer project lands or facilities to Federal agencies or State or local public bodies by lease agreement or exchange upon such terms and conditions as will best promote the development and operation of such lands or facilities in the public interest for recreation and fish and wildlife enhancement purposes.

(c) No lands under the jurisdiction of any other Federal agency may be included for or devoted to recreation or fish and wildlife purposes under the authority of this section without the consent of the head of such agency; and the head of any such agency is authorized to transfer any such lands to the jurisdiction of the Secretary of the Interior for purposes of this section. The Secretary of the Interior is authorized to transfer jurisdiction over project lands within or adjacent to the exterior boundaries of national forests and facilities thereon to the Secretary of Agriculture for recreation and other national forest system purposes; and such transfer shall be made in each case in which the project reservoir area is located wholly within the exterior boundaries of a national forest unless the Secretaries of Agriculture and Interior jointly determine otherwise. Where any project lands are transferred hereunder to the jurisdiction of the Secretary of Agriculture, the lands involved shall become national forest lands: *Provided*, That the lands and waters within the flow lines of any reservoir or otherwise needed or used for the operation of the project for other purposes shall continue to be administered by the Secretary of the Interior to the extent he determines to be necessary for such operation. Nothing herein shall limit the authority of the Secretary of the Interior granted by existing provisions of law relating to recreation or fish and wildlife development in connection with water resource projects or to disposition of public lands for such purposes.

【16 U.S.C. 460l-18】

³The amendment made to this subsection by section 2804(e)(1) of the Reclamation Projects Authorization and Adjustment Act of 1992 (P.L. 102-575; 106 Stat. 4692) is unexecutable and was substantively similar to the earlier amendment made by section 206 of the Energy and Water Development Appropriations Act, 1993 (P.L. 102-377; 106 Stat. 1332).

SEC. 8. Effective on and after July 1, 1966, neither the Secretary of the Interior nor any bureau nor any person acting under his authority shall engage in the preparation of any feasibility report under reclamation law with respect to any water resource project unless the preparation of such feasibility report has been specifically authorized by law, any other provision of law to the contrary notwithstanding.

【16 U.S.C. 460l-19】

SEC. 9. Nothing contained in this Act shall be taken to authorize or to sanction the construction under the Federal reclamation laws or under any Rivers and Harbors or Food Control Act of any project in which the sum of the allocations to recreation and fish and wildlife enhancement exceeds the sum of the allocations to irrigation, hydroelectric power, municipal, domestic and industrial water supply, navigation, and flood control, except that this section shall not apply to any such project for the enhancement of anadromous fisheries, shrimp, or for the conservation of migratory birds protected by treaty, when each of the other functions of such a project has, of itself, a favorable benefit-cost ratio.

【16 U.S.C. 460l-20】

SEC. 10. As used in this Act:

(a) The term “project” shall mean a project or any appropriate unit thereof.

(b) The term “separable costs,” as applied to any project purpose, means the difference between the capital cost of the entire multiple-purpose project and the capital cost of the project with the purpose omitted.

(c) The term “joint costs” means the difference between the capital cost of the entire multiple-purpose project and the sum of the separable costs for all project purposes.

(d) The term “feasibility report” shall mean any report of the scope required by the Congress when formally considering authorization of the project of which the report treats.

(e) The term “capital cost” includes interest during construction, wherever appropriate.

【16 U.S.C. 460l-21】

SEC. 11. Section 2, subsection (a) of the Land and Water Conservation Fund Act of 1965 (78 Stat. 897) is hereby amended by striking out the words “notwithstanding any provision of law that such proceeds shall be credited to miscellaneous receipts of the Treasury:” and inserting in lieu thereof the words “notwithstanding any other provision of law:” and by striking out the words “or any provision of law that provides that any fees or charges collected at particular Federal areas shall be used for or credited to specific purposes or special funds as authorized by that provision of law” and inserting in lieu thereof “or affect any contract heretofore entered into by the United States that provides that such revenues collected at particular Federal areas shall be credited to specific purposes”.

SEC. 12. This Act may be cited as the “Federal Water Project Recreation Act”.
