(f) As of September 30 of each fiscal year, the number of members of the Armed Forces on active duty assigned to permanent duty ashore in Japan and the Republic of Korea may not exceed 94,450 (the number of members of the Armed Forces on active duty assigned to permanent duty ashore in Japan and the Republic of Korea on September 30, 1987). (g)(1) After fiscal year 1990, budget submissions to Congress under section 1105 of title 31, United States Code, shall identify funds requested for Department of Defense personnel and units in permanent duty stations ashore outside the United States that exceed the amount of such costs incurred in fiscal year 1989 and shall set forth a detailed description of (A) the types of expenditures increased, by appropriation account, activity and program;

Such notification shall describe: (A) the type of expenditures that increased; and (B) the source of funds (including prior year unobligated balances) by appropriation account, activity and program, proposed to finance these costs.

(3) In computing the costs incurred for maintaining Department of Defense personnel and forces in permanent duty stations ashore outside the United States compared with the amount of such costs incurred in fiscal year 1989, the Secretary shall—

(A) exclude increased costs resulting from increases in the rates of pay provided for members of the Armed Forces and civilian employees of the United States Government and exclude any cost increases in supplies and services resulting from inflation; and

(B) include (i) the costs of operations and maintenance and of facilities for the support of Department of Defense overseas personnel, and (ii) increased costs resulting from any decline in the foreign exchange rate of the United States dollar.
