AN ACT To provide for the regulation of interstate and foreign communication by wire or radio, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—GENERAL PROVISIONS

SEC. 1. [47 U.S.C. 151] PURPOSES OF ACT, CREATION OF FEDERAL COMMUNICATIONS COMMISSION.

For the purpose of regulating interstate and foreign commerce in communication by wire and radio so as to make available, so far as possible, to all the people of the United States, without discrimination on the basis of race, color, religion, national origin, or sex, a rapid, efficient, Nation-wide, and world-wide wire and radio communication service with adequate facilities at reasonable charges, for the purpose of the national defense, for the purpose of promoting safety of life and property through the use of wire and radio communication, and for the purpose of securing a more effective execution of this policy by centralizing authority heretofore granted by law to several agencies and by granting additional authority with respect to interstate and foreign commerce in wire and radio communication, there is hereby created a commission to be known as the “Federal Communications Commission,” which shall be constituted as hereinafter provided, and which shall execute and enforce the provisions of this Act.

SEC. 2. [47 U.S.C. 152] APPLICATION OF ACT.

(a) The provisions of this act shall apply to all interstate and foreign communication by wire or radio and all interstate and foreign transmission of energy by radio, which originates and/or is received within the United States, and to all persons engaged within the United States in such communication or such transmission of energy by radio, and to the licensing and regulating of all radio stations as hereinafter provided; but it shall not apply to persons en-

gaged in wire or radio communication or transmission in the Canal Zone, or to wire or radio communication or transmission wholly within the Canal Zone. The provisions of this Act shall apply with respect to cable service, to all persons engaged within the United States in providing such service, and to the facilities of cable operators which relate to such service, as provided in title VI.

(b) Except as provided in sections 223 through 227, inclusive, section 276, and section 332, and subject to the provisions of section 301 and title VI, nothing in this Act shall be construed to apply or to give the Commission jurisdiction with respect to (1) charges, classifications, practices, services, facilities, or regulations for or in connection with intrastate communication service by wire or radio of any carrier, or (2) any carrier engaged in interstate or foreign communication solely through physical connection with the facilities of another carrier not directly or indirectly controlling or controlled by, or under direct or indirect common control with such carrier, or (3) any carrier engaged in interstate or foreign communication solely through connection by radio, or by wire and radio, with facilities, located in an adjoining State or in Canada or Mexico (where they adjoin the State in which the carrier is doing business), of another carrier not directly or indirectly controlling or controlled by, or under direct or indirect common control with such carrier, or (4) any carrier to which clause (2) or clause (3) would be applicable except for furnishing interstate mobile radio communication service or radio communication service to mobile stations on land vehicles in Canada or Mexico; except that sections 201 through 205 of this Act, both inclusive, shall, except as otherwise provided therein, apply to carriers described in clauses (2), (3), and (4).

SEC. 3. [47 U.S.C. 153] DEFINITIONS.

For the purposes of this Act, unless the context otherwise requires—

(1) **ADVANCED COMMUNICATIONS SERVICES.**—The term “advanced communications services” means—

- (A) interconnected VoIP service;
- (B) non-interconnected VoIP service;
- (C) electronic messaging service;
- (D) interoperable video conferencing service; and
- (E) any audio or video communications service used by inmates for the purpose of communicating with individuals outside the correctional institution where the inmate is held, regardless of technology used.

(2) **AFFILIATE.**—The term “affiliate” means a person that (directly or indirectly) owns or controls, is owned or controlled by, or is under common ownership or control with, another person. For purposes of this paragraph, the term “own” means to own an equity interest (or the equivalent thereof) of more than 10 percent.

(3) **AMATEUR STATION.**—The term “amateur station” means a radio station operated by a duly authorized person interested in radio technique solely with a personal aim and without pecuniary interest.

(4) **AT&T CONSENT DECREE.**—The term “AT&T Consent Decree” means the order entered August 24, 1982, in the antitrust action styled *United States v. Western Electric*, Civil Action No. 82–0192, in the United States District Court for the District of Columbia, and includes any judgment or order with respect to such action entered on or after August 24, 1982.

(5) **BELL OPERATING COMPANY.**—The term “Bell operating company”—

(A) means any of the following companies: Bell Telephone Company of Nevada, Illinois Bell Telephone Company, Indiana Bell Telephone Company, Incorporated, Michigan Bell Telephone Company, New England Telephone and Telegraph Company, New Jersey Bell Telephone Company, New York Telephone Company, U S West Communications Company, South Central Bell Telephone Company, Southern Bell Telephone and Telegraph Company, Southwestern Bell Telephone Company, The Bell Telephone Company of Pennsylvania, The Chesapeake and Potomac Telephone Company, The Chesapeake and Potomac Telephone Company of Maryland, The Chesapeake and Potomac Telephone Company of Virginia, The Chesapeake and Potomac Telephone Company of West Virginia, The Diamond State Telephone Company, The Ohio Bell Telephone Company, The Pacific Telephone and Telegraph Company, or Wisconsin Telephone Company; and

(B) includes any successor or assign of any such company that provides wireline telephone exchange service; but

(C) does not include an affiliate of any such company, other than an affiliate described in subparagraph (A) or (B).

(6) **BROADCAST STATION.**—The term “broadcast station,” “broadcasting station,” or “radio broadcast station” means a radio station equipped to engage in broadcasting as herein defined.

(7) **BROADCASTING.**—The term “broadcasting” means the dissemination of radio communications intended to be received by the public, directly or by the intermediary of relay stations.

(8) **CABLE SERVICE.**—The term “cable service” has the meaning given such term in section 602.

(9) **CABLE SYSTEM.**—The term “cable system” has the meaning given such term in section 602.

(10) **CHAIN BROADCASTING.**—The term “chain broadcasting” means simultaneous broadcasting of an identical program by two or more connected stations.

(11) **COMMON CARRIER.**—The term “common carrier” or “carrier” means any person engaged as a common carrier for hire, in interstate or foreign communication by wire or radio or in interstate or foreign radio transmission of energy, except where reference is made to common carriers not subject to this Act; but a person engaged in radio broadcasting shall not, insofar as such person is so engaged, be deemed a common carrier.

(12) CONNECTING CARRIER.—The term “connecting carrier” means a carrier described in clauses (2), (3), or (4) of section 2(b).

(13) CONSTRUCTION PERMIT.—The term “construction permit” or “permit for construction” means that instrument of authorization required by this Act or the rules and regulations of the Commission made pursuant to this Act for the construction of a station, or the installation of apparatus, for the transmission of energy, or communications, or signals by radio, by whatever name the instrument may be designated by the Commission.

(14) CONSUMER GENERATED MEDIA.—The term “consumer generated media” means content created and made available by consumers to online websites and services on the Internet, including video, audio, and multimedia content.

(15) CORPORATION.—The term “corporation” includes any corporation, joint-stock company, or association.

(16) CUSTOMER PREMISES EQUIPMENT.—The term “customer premises equipment” means equipment employed on the premises of a person (other than a carrier) to originate, route, or terminate telecommunications.

(17) DIALING PARITY.—The term “dialing parity” means that a person that is not an affiliate of a local exchange carrier is able to provide telecommunications services in such a manner that customers have the ability to route automatically, without the use of any access code, their telecommunications to the telecommunications services provider of the customer’s designation from among 2 or more telecommunications services providers (including such local exchange carrier).

(18) DISABILITY.—The term “disability” has the meaning given such term under section 3 of the Americans with Disabilities Act of 1990 (42 U.S.C. 12102).

(19) ELECTRONIC MESSAGING SERVICE.—The term “electronic messaging service” means a service that provides real-time or near real-time non-voice messages in text form between individuals over communications networks.

(20) EXCHANGE ACCESS.—The term “exchange access” means the offering of access to telephone exchange services or facilities for the purpose of the origination or termination of telephone toll services.

(21) FOREIGN COMMUNICATION.—The term “foreign communication” or “foreign transmission” means communication or transmission from or to any place in the United States to or from a foreign country, or between a station in the United States and a mobile station located outside the United States.

(22) GREAT LAKES AGREEMENT.—The term “Great Lakes Agreement” means the Agreement for the Promotion of Safety on the Great Lakes by Means of Radio in force and the regulations referred to therein.

(23) HARBOR.—The term “harbor” or “port” means any place to which ships may resort for shelter or to load or unload passengers or goods, or to obtain fuel, water, or supplies. This term shall apply to such places whether proclaimed public or not and whether natural or artificial.

(24) INFORMATION SERVICE.—The term “information service” means the offering of a capability for generating, acquiring, storing, transforming, processing, retrieving, utilizing, or making available information via telecommunications, and includes electronic publishing, but does not include any use of any such capability for the management, control, or operation of a telecommunications system or the management of a telecommunications service.

(25) INTERCONNECTED VOIP SERVICE.—The term “interconnected VoIP service” has the meaning given such term under section 9.3 of title 47, Code of Federal Regulations, as such section may be amended from time to time.

(26) INTERLATA SERVICE.—The term “interLATA service” means telecommunications between a point located in a local access and transport area and a point located outside such area.

(27) INTEROPERABLE VIDEO CONFERENCING SERVICE.—The term “interoperable video conferencing service” means a service that provides real-time video communications, including audio, to enable users to share information of the user’s choosing.

(28) INTERSTATE COMMUNICATION.—The term “interstate communication” or “interstate transmission” means communication or transmission (A) from any State, Territory, or possession of the United States (other than the Canal Zone), or the District of Columbia, to any other State, Territory, or possession of the United States (other than the Canal Zone), or the District of Columbia, (B) from or to the United States to or from the Canal Zone, insofar as such communication or transmission takes place within the United States, or (C) between points within the United States but through a foreign country; but shall not, with respect to the provisions of title II of this Act (other than section 223 thereof), include wire or radio communication between points in the same State, Territory, or possession of the United States, or the District of Columbia, through any place outside thereof, if such communication is regulated by a State commission.

(29) LAND STATION.—The term “land station” means a station, other than a mobile station, used for radio communication with mobile stations.

(30) LICENSEE.—The term “licensee” means the holder of a radio station license granted or continued in force under authority of this Act.

(31) LOCAL ACCESS AND TRANSPORT AREA.—The term “local access and transport area” or “LATA” means a contiguous geographic area—

(A) established before the date of enactment of the Telecommunications Act of 1996 by a Bell operating company such that no exchange area includes points within more than 1 metropolitan statistical area, consolidated metropolitan statistical area, or State, except as expressly permitted under the AT&T Consent Decree; or

(B) established or modified by a Bell operating company after such date of enactment and approved by the Commission.

(32) LOCAL EXCHANGE CARRIER.—The term “local exchange carrier” means any person that is engaged in the provision of telephone exchange service or exchange access. Such term does not include a person insofar as such person is engaged in the provision of a commercial mobile service under section 332(c), except to the extent that the Commission finds that such service should be included in the definition of such term.

(33) MOBILE SERVICE.—The term “mobile service” means a radio communication service carried on between mobile stations or receivers and land stations, and by mobile stations communicating among themselves, and includes (A) both one-way and two-way radio communication services, (B) a mobile service which provides a regularly interacting group of base, mobile, portable, and associated control and relay stations (whether licensed on an individual, cooperative, or multiple basis) for private one-way or two-way land mobile radio communications by eligible users over designated areas of operation, and (C) any service for which a license is required in a personal communications service established pursuant to the proceeding entitled “Amendment to the Commission’s Rules to Establish New Personal Communications Services” (GEN Docket No. 90–314; ET Docket No. 92–100), or any successor proceeding.

(34) MOBILE STATION.—The term “mobile station” means a radio-communication station capable of being moved and which ordinarily does move.

(35) NETWORK ELEMENT.—The term “network element” means a facility or equipment used in the provision of a telecommunications service. Such term also includes features, functions, and capabilities that are provided by means of such facility or equipment, including subscriber numbers, databases, signaling systems, and information sufficient for billing and collection or used in the transmission, routing, or other provision of a telecommunications service.

(36) NON-INTERCONNECTED VOIP SERVICE.—The term “non-interconnected VoIP service”—

(A) means a service that—

(i) enables real-time voice communications that originate from or terminate to the user’s location using Internet protocol or any successor protocol; and

(ii) requires Internet protocol compatible customer premises equipment; and

(B) does not include any service that is an interconnected VoIP service.

(37) NUMBER PORTABILITY.—The term “number portability” means the ability of users of telecommunications services to retain, at the same location, existing telecommunications numbers without impairment of quality, reliability, or convenience when switching from one telecommunications carrier to another.

(38)(A) OPERATOR.—The term “operator” on a ship of the United States means, for the purpose of parts II and III of title III of this Act, a person holding a radio operator’s license of the proper class as prescribed and issued by the Commission.

(B) “Operator” on a foreign ship means, for the purpose of part II of title III of this Act, a person holding a certificate as such of the proper class complying with the provision of the radio regulations annexed to the International Telecommunication Convention in force, or complying with an agreement or treaty between the United States and the country in which the ship is registered.

(39) PERSON.—The term “person” includes an individual, partnership, association, joint-stock company, trust, or corporation.

(40) RADIO COMMUNICATION.—The term “radio communication” or “communication by radio” means the transmission by radio of writing, signs, signals, pictures, and sounds of all kinds, including all instrumentalities, facilities, apparatus, and services (among other things, the receipt, forwarding, and delivery of communications) incidental to such transmission.

(41)(A) RADIO OFFICER.—The term “radio officer” on a ship of the United States means, for the purpose of part II of title III of this Act, a person holding at least a first or second class radiotelegraph operator’s license as prescribed and issued by the Commission. When such person is employed to operate a radiotelegraph station aboard a ship of the United States, he is also required to be licensed as a “radio officer” in accordance with the Act of May 12, 1948 (46 U.S.C. 229a–h).

(B) “Radio officer” on a foreign ship means, for the purpose of part II of title III of this Act, a person holding at least a first or second class radiotelegraph operator’s certificate complying with the provisions of the radio regulations annexed to the International Telecommunication Convention in force.

(42) RADIO STATION.—The term “radio station” or “station” means a station equipped to engage in radio communication or radio transmission of energy.

(43) RADIOTELEGRAPH AUTO ALARM.—The term “radiotelegraph auto alarm” on a ship of the United States subject to the provisions of part II of title III of this Act means an automatic alarm receiving apparatus which responds to the radiotelegraph alarm signal and has been approved by the Commission. “Radiotelegraph auto alarm” on a foreign ship means an automatic alarm receiving apparatus which responds to the radiotelegraph alarm signal and has been approved by the government of the country in which the ship is registered: *Provided*, That the United States and the country in which the ship is registered are parties to the same treaty, convention, or agreement prescribing the requirements for such apparatus. Nothing in this Act or in any other provision of law shall be construed to require the recognition of a radiotelegraph auto alarm as complying with part II of title III of this Act, on a foreign ship subject to such part, where the country in which the ship is registered and the United States are not parties to

the same treaty, convention, or agreements prescribing the requirements for such apparatus.

(44) RURAL TELEPHONE COMPANY.—The term “rural telephone company” means a local exchange carrier operating entity to the extent that such entity—

(A) provides common carrier service to any local exchange carrier study area that does not include either—

(i) any incorporated place of 10,000 inhabitants or more, or any part thereof, based on the most recently available population statistics of the Bureau of the Census; or

(ii) any territory, incorporated or unincorporated, included in an urbanized area, as defined by the Bureau of the Census as of August 10, 1993;

(B) provides telephone exchange service, including exchange access, to fewer than 50,000 access lines;

(C) provides telephone exchange service to any local exchange carrier study area with fewer than 100,000 access lines; or

(D) has less than 15 percent of its access lines in communities of more than 50,000 on the date of enactment of the Telecommunications Act of 1996.

(45) SAFETY CONVENTION.—The term “safety convention” means the International Convention for the Safety of Life at Sea in force and the regulations referred to therein.

(46)(A) SHIP.—The term “ship” or “vessel” includes every description of watercraft or other artificial contrivance, except aircraft, used or capable of being used as a means of transportation on water, whether or not it is actually afloat.

(B) A ship shall be considered a passenger ship if it carries or is licensed or certificated to carry more than twelve passengers.

(C) A cargo ship means any ship not a passenger ship.

(D) A passenger is any person carried on board a ship or vessel except (1) the officers and crew actually employed to man and operate the ship, (2) persons employed to carry on the business of the ship, and (3) persons on board a ship when they are carried, either because of the obligation laid upon the master to carry shipwrecked, distressed, or other persons in like or similar situations or by reason of any circumstance over which neither the master, the owner, nor the charterer (if any) has control.

(E) “Nuclear ship” means a ship provided with a nuclear powerplant.

(47) STATE.—The term “State” includes the District of Columbia and the Territories and possessions.

(48) STATE COMMISSION.—The term “State commission” means the commission, board, or official (by whatever name designated) which under the laws of any State has regulatory jurisdiction with respect to intrastate operations of carriers.

(49) STATION LICENSE.—The term “station license,” “radio station license,” or “license” means that instrument of authorization required by this Act or the rules and regulations of the Commission made pursuant to this Act, for the use or oper-

ation of apparatus for transmission of energy, or communications, or signals by radio by whatever name the instrument may be designated by the Commission.

(50) TELECOMMUNICATIONS.—The term “telecommunications” means the transmission, between or among points specified by the user, of information of the user’s choosing, without change in the form or content of the information as sent and received.

(51) TELECOMMUNICATIONS CARRIER.—The term “telecommunications carrier” means any provider of telecommunications services, except that such term does not include aggregators of telecommunications services (as defined in section 226). A telecommunications carrier shall be treated as a common carrier under this Act only to the extent that it is engaged in providing telecommunications services, except that the Commission shall determine whether the provision of fixed and mobile satellite service shall be treated as common carriage.

(52) TELECOMMUNICATIONS EQUIPMENT.—The term “telecommunications equipment” means equipment, other than customer premises equipment, used by a carrier to provide telecommunications services, and includes software integral to such equipment (including upgrades).

(53) TELECOMMUNICATIONS SERVICE.—The term “telecommunications service” means the offering of telecommunications for a fee directly to the public, or to such classes of users as to be effectively available directly to the public, regardless of the facilities used.

(54) TELEPHONE EXCHANGE SERVICE.—The term “telephone exchange service” means (A) service within a telephone exchange, or within a connected system of telephone exchanges within the same exchange area operated to furnish to subscribers intercommunicating service of the character ordinarily furnished by a single exchange, and which is covered by the exchange service charge, or (B) comparable service provided through a system of switches, transmission equipment, or other facilities (or combination thereof) by which a subscriber can originate and terminate a telecommunications service.

(55) TELEPHONE TOLL SERVICE.—The term “telephone toll service” means telephone service between stations in different exchange areas for which there is made a separate charge not included in contracts with subscribers for exchange service.

(56) TELEVISION SERVICE.—

(A) ANALOG TELEVISION SERVICE.—The term “analog television service” means television service provided pursuant to the transmission standards prescribed by the Commission in section 73.682(a) of its regulations (47 C.F.R. 73.682(a)).

(B) DIGITAL TELEVISION SERVICE.—The term “digital television service” means television service provided pursuant to the transmission standards prescribed by the Commission in section 73.682(d) of its regulations (47 C.F.R. 73.682(d)).

(57) TRANSMISSION OF ENERGY BY RADIO.—The term “transmission of energy by radio” or “radio transmission of energy” includes both such transmission and all instrumentalities, facilities, and services incidental to such transmission.

(58) UNITED STATES.—The term “United States” means the several States and Territories, the District of Columbia, and the possessions of the United States, but does not include the Canal Zone.

(59) WIRE COMMUNICATION.—The term “wire communication” or “communication by wire” means the transmission of writing, signs, signals, pictures, and sounds of all kinds by aid of wire, cable, or other like connection between the points of origin and reception of such transmission, including all instrumentalities, facilities, apparatus, and services (among other things, the receipt, forwarding, and delivery of communications) incidental to such transmission.

SEC. 4. [47 U.S.C. 154] PROVISIONS RELATING TO THE COMMISSION.

(a) The Federal Communications Commission (in this Act referred to as the “Commission”) shall be composed of five Commissioners appointed by the President, by and with the advice and consent of the Senate, one of whom the President shall designate as chairman.

(b)(1) Each member of the Commission shall be a citizen of the United States.

(2)(A) No member of the Commission or person employed by the Commission shall—

(i) be financially interested in any company or other entity engaged in the manufacture or sale of telecommunications equipment which is subject to regulation by the Commission;

(ii) be financially interested in any company or other entity engaged in the business of communication by wire or radio or in the use of the electromagnetic spectrum;

(iii) be financially interested in any company or other entity which controls any company or other entity specified in clause (i) or clause (ii), or which derives a significant portion of its total income from ownership of stocks, bonds, or other securities of any such company or other entity; or

(iv) be employed by, hold any official relation to, or own any stocks, bonds, or other securities of, any person significantly regulated by the Commission under this Act;

except that the prohibitions established in this subparagraph shall apply only to financial interests in any company or other entity which has a significant interest in communications, manufacturing, or sales activities which are subject to regulation by the Commission.

(B)(i) The Commission shall have authority to waive, from time to time, the application of the prohibitions established in subparagraph (A) to persons employed by the Commission if the Commission determines that the financial interests of a person which are involved in a particular case are minimal, except that such waiver authority shall be subject to the provisions of section 208 of title 18, United States Code. The waiver authority established in this

subparagraph shall not apply with respect to members of the Commission.

(ii) In any case in which the Commission exercises the waiver authority established in this subparagraph, the Commission shall publish notice of such action in the Federal Register.

(3) The Commission, in determining whether a company or other entity has a significant interest in communications, manufacturing, or sales activities which are subject to regulation by the Commission, shall consider (without excluding other relevant factors)—

(A) the revenues, investments, profits, and managerial efforts directed to the related communications, manufacturing, or sales activities of the company or other entity involved, as compared to the other aspects of the business of such company or other entity;

(B) the extent to which the Commission regulates and oversees the activities of such company or other entity;

(C) the degree to which the economic interests of such company or other entity may be affected by any action of the Commission; and

(D) the perceptions held by the public regarding the business activities of such company or other entity.

(4) Members of the Commission shall not engage in any other business, vocation, profession, or employment while serving as such members.

(5) The maximum number of commissioners who may be members of the same political party shall be a number equal to the least number of commissioners which constitutes a majority of the full membership of the Commission.

(c)(1) A commissioner—

(A) shall be appointed for a term of 5 years;

(B) except as provided in subparagraph (C), may continue to serve after the expiration of the fixed term of office of the commissioner until a successor is appointed and has been confirmed and taken the oath of office; and

(C) may not continue to serve after the expiration of the session of Congress that begins after the expiration of the fixed term of office of the commissioner.

(2) Any person chosen to fill a vacancy in the Commission—

(A) shall be appointed for the unexpired term of the commissioner that the person succeeds;

(B) except as provided in subparagraph (C), may continue to serve after the expiration of the fixed term of office of the commissioner that the person succeeds until a successor is appointed and has been confirmed and taken the oath of office; and

(C) may not continue to serve after the expiration of the session of Congress that begins after the expiration of the fixed term of office of the commissioner that the person succeeds.

(3) No vacancy in the Commission shall impair the right of the remaining commissioners to exercise all the powers of the Commission.

(d) Each Commissioner shall receive an annual salary at the annual rate payable from time to time for level IV of the Executive

Schedule, payable in monthly installments. The Chairman of the Commission, during the period of his service as Chairman, shall receive an annual salary at the annual rate payable from time to time for level III of the Executive Schedule.

(e) The principal office of the Commission shall be in the District of Columbia, where its general sessions shall be held; but whenever the convenience of the public or of the parties may be promoted or delay or expense prevented thereby, the Commission may hold special sessions in any part of the United States.

(f)(1) The Commission shall have authority, subject to the provisions of the civil-service laws and the Classification Act of 1949, as amended, to appoint such officers, engineers, accountants, attorneys, inspectors, examiners, and other employees as are necessary in the exercise of its functions.

(2) Without regard to the civil-service laws, but subject to the Classification Act of 1949, each commissioner may appoint three professional assistants and a secretary, each of whom shall perform such duties as such commissioner shall direct. In addition, the chairman of the Commission may appoint, without regard to the civil-service laws, but subject to the Classification Act of 1949, an administrative assistant who shall perform such duties as the chairman shall direct.

(3) The Commission shall fix a reasonable rate of extra compensation for overtime services of engineers in charge and radio engineers of the Field Engineering and Monitoring Bureau of the Federal Communications Commission, who may be required to remain on duty between the hours of 5 o'clock postmeridian and 8 o'clock antemeridian or on Sundays or holidays to perform services in connection with the inspection of ship radio equipment and apparatus for the purposes of part II of title III of this Act or the Great Lakes Agreement, on the basis of one-half day's additional pay for each two hours or fraction thereof of at least one hour that the overtime extends beyond 5 o'clock postmeridian (but not to exceed two and one-half days' pay for the full period from 5 o'clock postmeridian to 8 o'clock antemeridian) and two additional days' pay for Sunday or holiday duty. The said extra compensation for overtime services shall be paid by the master, owner, or agent of such vessel to the local United States collector of customs or his representative, who shall deposit such collection into the Treasury of the United States to an appropriately designated receipt account: *Provided*, That the amounts of such collections received by the said collector of customs or his representatives shall be covered into the Treasury as miscellaneous receipts; and the payments of such extra compensation to the several employees entitled thereto shall be made from the annual appropriations for salaries and expenses of the Commission: *Provided further*, That to the extent that the annual appropriations which are hereby authorized to be made from the general fund of the Treasury are insufficient, there are hereby authorized to be appropriated from the general fund of the Treasury such additional amounts as may be necessary to the extent that the amounts of such receipts are in excess of the amounts appropriated: *Provided further*, That such extra compensation shall be paid if such field employees have been ordered to report for duty and have so reported whether the actual inspection of the radio

equipment or apparatus takes place or not: *And provided further*, That in those ports where customary working hours are other than those hereinabove mentioned, the engineers in charge are vested with authority to regulate the hours of such employees so as to agree with prevailing working hours in said ports where inspections are to be made, but nothing contained in this proviso shall be construed in any manner to alter the length of a working day for the engineers in charge and radio engineers or the overtime pay herein fixed: and *Provided further*, That, in the alternative, an entity designated by the Commission may make the inspections referred to in this paragraph.

(4)(A) The Commission, for purposes of preparing or administering any examination for an amateur station operator license, may accept and employ the voluntary and uncompensated services of any individual who holds an amateur station operator license of a higher class than the class of license for which the examination is being prepared or administered. In the case of examinations for the highest class of amateur station operator license, the Commission may accept and employ such services of any individual who holds such class of license.

(B)(i) The Commission, for purposes of monitoring violations of any provision of this Act (and of any regulation prescribed by the Commission under this Act) relating to the amateur radio service, may—

(I) recruit and train any individual licensed by the Commission to operate an amateur station; and

(II) accept and employ the voluntary and uncompensated services of such individual.

(ii) The Commission, for purposes of recruiting and training individuals under clause (i) and for purposes of screening, annotating, and summarizing violation reports referred under clause (i), may accept and employ the voluntary and uncompensated services of any amateur station operator organization.

(iii) The functions of individuals recruited and trained under this subparagraph shall be limited to—

(I) the detection of improper amateur radio transmissions;

(II) the conveyance to Commission personnel of information which is essential to the enforcement of this Act (or regulations prescribed by the Commission under this Act) relating to the amateur radio service; and

(III) issuing advisory notices, under the general direction of the Commission, to persons who apparently have violated any provision of this Act (or regulations prescribed by the Commission under this Act) relating to the amateur radio service.

Nothing in this clause shall be construed to grant individuals recruited and trained under this subparagraph any authority to issue sanctions to violators or to take any enforcement action other than any action which the Commission may prescribe by rule.

(C)(i) The Commission, for purposes of monitoring violations of any provision of this Act (and of any regulation prescribed by the Commission under this Act) relating to the citizens band radio service, may—

(I) recruit and train any citizens band radio operator; and

(II) accept and employ the voluntary and uncompensated services of such operator.

(ii) The Commission, for purposes of recruiting and training individuals under clause (i) and for purposes of screening, annotating, and summarizing violation reports referred under clause (i), may accept and employ the voluntary and uncompensated services of any citizens band radio operator organization. The Commission, in accepting and employing services of individuals under this subparagraph, shall seek to achieve a broad representation of individuals and organizations interested in citizens band radio operation.

(iii) The functions of individuals recruited and trained under this subparagraph shall be limited to—

(I) the detection of improper citizens band radio transmissions;

(II) the conveyance to Commission personnel of information which is essential to the enforcement of this Act (or regulations prescribed by the Commission under this Act) relating to the citizens band radio service; and

(III) issuing advisory notices, under the general direction of the Commission, to persons who apparently have violated any provision of this Act (or regulations prescribed by the Commission under this Act) relating to the citizens band radio service.

Nothing in this clause shall be construed to grant individuals recruited and trained under this subparagraph any authority to issue sanctions to violators or to take any enforcement action other than any action which the Commission may prescribe by rule.

(D) The Commission shall have the authority to endorse certification of individuals to perform transmitter installation, operation, maintenance, and repair duties in the private land mobile services and fixed services (as defined by the Commission by rule) if such certification programs are conducted by organizations or committees which are representative of the users in those services and which consist of individuals who are not officers or employees of the Federal Government.

(E) The authority of the Commission established in this paragraph shall not be subject to or affected by the provisions of part III of title 5, United States Code, or section 3679(b) of the Revised Statutes (31 U.S.C. 665(b)).

(F) Any person who provides services under this paragraph shall not be considered, by reason of having provided such services, a Federal employee.

(G) The Commission, in accepting and employing services of individuals under subparagraphs (A) and (B), shall seek to achieve a broad representation of individuals and organizations interested in amateur station operation.

(H) The Commission may establish rules of conduct and other regulations governing the service of individuals under this paragraph.

(I) With respect to the acceptance of voluntary uncompensated services for the preparation, processing, or administration of examinations for amateur station operator licenses, pursuant to subparagraph (A) of this paragraph, individuals, or organizations which

provide or coordinate such authorized volunteer services may recover from examinees reimbursement for out-of-pocket costs.

(5)(A) The Commission, for purposes of preparing and administering any examination for a commercial radio operator license or endorsement, may accept and employ the services of persons that the Commission determines to be qualified. Any person so employed may not receive compensation for such services, but may recover from examinees such fees as the Commission permits, considering such factors as public service and cost estimates submitted by such person.

(B) The Commission may prescribe regulations to select, oversee, sanction, and dismiss any person authorized under this paragraph to be employed by the Commission.

(C) Any person who provides services under this paragraph or who provides goods in connection with such services shall not, by reason of having provided such service or goods, be considered a Federal or special government employee.

(g)(1) The Commission may make such expenditures (including expenditures for rent and personal services at the seat of government and elsewhere, for office supplies, lawbooks, periodicals, and books of reference, for printing and binding, for land for use as sites for radio monitoring stations and related facilities, including living quarters where necessary in remote areas, for the construction of such stations and facilities, and for the improvement, furnishing, equipping, and repairing of such stations and facilities and of laboratories and other related facilities (including construction of minor subsidiary buildings and structures not exceeding \$25,000 in any one instance) used in connection with technical research activities), as may be necessary for the execution of the functions vested in the Commission and as may be appropriated for by the Congress in accordance with the authorizations of appropriations established in section 6. All expenditures of the Commission, including all necessary expenses for transportation incurred by the commissioners or by their employees, under their orders, in making any investigation or upon any official business in any other places than in the city of Washington, shall be allowed and paid on the presentation of itemized vouchers therefor approved by the chairman of the Commission or by such other members or officer thereof as may be designated by the Commission for that purpose.

【Paragraph (2) repealed by section 402(i)(1)(B) of division P of Public Law 115–141.】

(3)(A) Notwithstanding any other provision of law, in furtherance of its functions the Commission is authorized to accept, hold, administer, and use unconditional gifts, donations, and bequests of real, personal, and other property (including voluntary and uncompensated services, as authorized by section 3109 of title 5, United States Code).

(B) The Commission, for purposes of providing radio club and military-recreational call signs, may utilize the voluntary, uncompensated, and unreimbursed services of amateur radio organizations authorized by the Commission that have tax-exempt status under section 501(c)(3) of the Internal Revenue Code of 1986.

(C) For the purpose of Federal law on income taxes, estate taxes, and gift taxes, property or services accepted under the authority of subparagraph (A) shall be deemed to be a gift, bequest, or devise to the United States.

(D) The Commission shall promulgate regulations to carry out the provisions of this paragraph. Such regulations shall include provisions to preclude the acceptance of any gift, bequest, or donation that would create a conflict of interest or the appearance of a conflict of interest.

(h) Three members of the Commission shall constitute a quorum thereof. The Commission shall have an official seal which shall be judicially noticed.

(i) The Commission may perform any and all acts, make such rules and regulations, and issue such orders, not inconsistent with this Act, as may be necessary in the execution of its functions.

(j) The Commission may conduct its proceedings in such manner as will best conduce to the proper dispatch of business and to the ends of justice. No commissioner shall participate in any hearing or proceeding in which he has a pecuniary interest. Any party may appear before the Commission and be heard in person or by attorney. Every vote and official act the Commission shall be entered of record, and its proceedings shall be public upon the request of any party interested. The Commission is authorized to withhold publication of records or proceedings containing secret information affecting the national defense.

(k) All reports of investigations made by the Commission shall be entered of record, and a copy thereof shall be furnished to the party who may have complained, and to any common carrier or licensee that may have been complained of.

(l) The Commission shall provide for the publication of its reports and decisions in such form and manner as may be best adapted for public information and use, and such authorized publications shall be competent evidence of the reports and decisions of the Commission therein contained in all courts of the United States and of the several States without any further proof or authentication thereof.

(m) Rates of compensation of persons appointed under this section shall be subject to the reduction applicable to officers and employees of the Federal Government generally.

(n) For the purpose of obtaining maximum effectiveness from the use of radio and wire communications in connection with safety of life and property, the Commission shall investigate and study all phases of the problem and the best methods of obtaining the cooperation and coordination of these systems.

SEC. 5. [47 U.S.C. 155] ORGANIZATION AND FUNCTIONING OF THE COMMISSION.

(a) The member of the Commission designated by the President as chairman shall be the chief executive officer of the Commission. It shall be his duty to preside at all meetings and sessions of the Commission, to represent the Commission in all matters relating to legislation and legislative reports, except that any commissioner may present his own or minority views or supplemental reports, to represent the Commission in all matters requiring conferences or communications with other governmental officers, de-

partments or agencies, and generally to coordinate and organize the work of the Commission in such manner as to promote prompt and efficient disposition of all matters within the jurisdiction of the Commission. In the case of a vacancy in the office of the chairman of the Commission, or the absence or inability of the chairman to serve, the Commission may temporarily designate one of its members to act as chairman until the cause or circumstance requiring such designation shall have been eliminated or corrected.

(b) From time to time as the Commission may find necessary, the Commission shall organize its staff into (1) integrated bureaus, to function on the basis of the Commission's principal workload operations, and (2) such other divisional organizations as the Commission may deem necessary. Each such integrated bureau shall include such legal, engineering, accounting, administrative, clerical, and other personnel as the Commission may determine to be necessary to perform its functions.

(c)(1) When necessary to the proper functioning of the Commission and the prompt and orderly conduct of its business, the Commission may, by published rule or by order, delegate any of its functions (except functions granted to the Commission by this paragraph and by paragraphs (4), (5), and (6) of this subsection and except any action referred to in sections 204(a)(2), 208(b), and 405(b)) to a panel of commissioners, an individual commissioner, an employee board, or an individual employee, including functions with respect to hearing, determining, ordering, certifying, reporting, or otherwise acting as to any work, business, or matter; except that in delegating review functions to employees in cases of adjudication (as defined in the Administrative Procedure Act), the delegation in any such case may be made only to an employee board consisting of two or more employees referred to in paragraph (8). Any such rule or order may be adopted, amended, or rescinded only by a vote of a majority of the members of the Commission then holding office. Except for cases involving the authorization of service in the instructional television fixed service, or as otherwise provided in this Act, nothing in this paragraph shall authorize the Commission to provide for the conduct, by any person or persons other than persons referred to in paragraph (2) or (3) of section 556(b) of title 5, United States Code, of any hearing to which such section applies.

(2) As used in this subsection (d) the term "order, decision, report, or action" does not include an initial, tentative, or recommended decision to which exceptions may be filed as provided in section 409(b).

(3) Any order, decision, report, or action made or taken pursuant to any such delegation, unless reviewed as provided in paragraph (4), shall have the same force and effect, and shall be made, evidenced, and enforced in the same manner, as orders, decisions, reports, or other actions of the Commission.

(4) Any person aggrieved by any such order, decision, report or action may file an application for review by the Commission within such time and in such manner as the Commission shall prescribe, and every such application shall be passed upon by the Commission. The Commission, on its own initiative, may review in whole or in part, at such time and in such manner as it shall determine,

any order, decision, report, or action made or taken pursuant to any delegation under paragraph (1).

(5) In passing upon applications for review, the Commission may grant, in whole or in part, or deny such applications without specifying any reasons therefore. No such application for review shall rely on questions of fact or law upon which the panel of commissioners, individual commissioner, employee board, or individual employee has been afforded no opportunity to pass.

(6) If the Commission grants the application for review, it may affirm, modify, or set aside the order, decision, report, or action, or it may order a rehearing upon such order, decision, report, or action in accordance with section 405.

(7) The filing of an application for review under this subsection shall be a condition precedent to judicial review of any order, decision, report, or action made or taken pursuant to a delegation under paragraph (1). The time within which a petition for review must be filed in a proceeding to which section 402(a) applies, or within which an appeal must be taken under section 402(b), shall be computed from the date upon which public notice is given of orders disposing of all applications for review filed in any case.

(8) The employees to whom the Commission may delegate review functions in any case of adjudication (as defined in the Administrative Procedure Act) shall be qualified, by reason of their training, experience, and competence, to perform such review functions, and shall perform no duties inconsistent with such review functions. Such employees shall be in a grade classification or salary level commensurate with their important duties, and in no event less than the grade classification or salary level of the employee or employees whose actions are to be reviewed. In the performance of such review functions such employees shall be assigned to cases in rotation so far as practicable and shall not be responsible to or subject to the supervision or direction of any officer, employee, or agent engaged in the performance of investigative or prosecuting functions for any agency.

(9) The secretary and seal of the Commission shall be the secretary and seal of each panel of the Commission, each individual commissioner, and each employee board or individual employee exercising functions delegated pursuant to paragraph (1) of this subsection.

(d) Meetings of the Commission shall be held at regular intervals, not less frequently than once each calendar month, at which times the functioning of the Commission and the handling of its work load shall be reviewed and such orders shall be entered and other action taken as may be necessary or appropriate to expedite the prompt and orderly conduct of the business of the Commission with the objective of rendering a final decision (1) within three months from the date of filing in all original application, renewal, and transfer cases in which it will not be necessary to hold a hearing, and (2) within six months from the final date of the hearing in all hearing cases.

(e) The Commission shall have a Managing Director who shall be appointed by the Chairman subject to the approval of the Commission. The Managing Director, under the supervision and direction of the Chairman, shall perform such administrative and execu-

tive functions as the Chairman shall delegate. The Managing Director shall be paid at a rate equal to the rate then payable for level V of the Executive Schedule.

SEC. 6. [47 U.S.C. 156] AUTHORIZATION OF APPROPRIATIONS.

(a) **AUTHORIZATION.**—There are authorized to be appropriated to the Commission to carry out the functions of the Commission \$333,118,000 for fiscal year 2019 and \$339,610,000 for fiscal year 2020.

(b) **OFFSETTING COLLECTIONS.**—The sum appropriated in any fiscal year to carry out the activities described in subsection (a), to the extent and in the amounts provided for in Appropriations Acts, shall be derived from fees authorized by section 9.

SEC. 7. [47 U.S.C. 157] NEW TECHNOLOGIES AND SERVICES.

(a) It shall be the policy of the United States to encourage the provision of new technologies and services to the public. Any person or party (other than the Commission) who opposes a new technology or service proposed to be permitted under this Act shall have the burden to demonstrate that such proposal is inconsistent with the public interest.

(b) The Commission shall determine whether any new technology or service proposed in a petition or application is in the public interest within one year after such petition or application is filed. If the Commission initiates its own proceeding for a new technology or service, such proceeding shall be completed within 12 months after it is initiated.

SEC. 8. [47 U.S.C. 158] APPLICATION FEES.

(a) **GENERAL AUTHORITY; ESTABLISHMENT OF SCHEDULE.**—The Commission shall assess and collect application fees at such rates as the Commission shall establish in a schedule of application fees to recover the costs of the Commission to process applications.

(b) **ADJUSTMENT OF SCHEDULE.**—

(1) **IN GENERAL.**—In every even-numbered year, the Commission shall review the schedule of application fees established under this section and, except as provided in paragraph (2), set a new amount for each fee in the schedule that is equal to the amount of the fee on the date when the fee was established or the date when the fee was last amended under subsection (c), whichever is later—

(A) increased or decreased by the percentage change in the Consumer Price Index during the period beginning on such date and ending on the date of the review; and

(B) rounded to the nearest \$5 increment.

(2) **THRESHOLD FOR ADJUSTMENT.**—The Commission may not adjust a fee under paragraph (1) if—

(A) in the case of a fee the current amount of which is less than \$200, the adjustment would result in a change in the current amount of less than \$10; or

(B) in the case of a fee the current amount of which is \$200 or more, the adjustment would result in a change in the current amount of less than 5 percent.

(3) **CURRENT AMOUNT DEFINED.**—In paragraph (2), the term “current amount” means, with respect to a fee, the amount of the fee on the date when the fee was established,

the date when the fee was last adjusted under paragraph (1), or the date when the fee was last amended under subsection (c), whichever is latest.

(c) AMENDMENTS TO SCHEDULE.—In addition to the adjustments required by subsection (b), the Commission shall by rule amend the schedule of application fees established under this section if the Commission determines that the schedule requires amendment—

(1) so that such fees reflect increases or decreases in the costs of processing applications at the Commission; or

(2) so that such schedule reflects the consolidation or addition of new categories of applications.

(d) EXCEPTIONS.—

(1) PARTIES TO WHICH FEES ARE NOT APPLICABLE.—The application fees established under this section shall not be applicable to—

(A) a governmental entity;

(B) a nonprofit entity licensed in the Local Government, Police, Fire, Highway Maintenance, Forestry-Conservation, Public Safety, or Special Emergency Radio radio services; or

(C) a noncommercial radio station or noncommercial television station.

(2) COST OF COLLECTION.—If, in the judgment of the Commission, the cost of collecting an application fee established under this section would exceed the amount collected, the Commission may by rule eliminate such fee.

(e) DEPOSIT OF COLLECTIONS.—Moneys received from application fees established under this section shall be deposited in the general fund of the Treasury.

SEC. 9. [47 U.S.C. 159] REGULATORY FEES.

(a) GENERAL AUTHORITY.—The Commission shall assess and collect regulatory fees to recover the costs of carrying out the activities described in section 6(a) only to the extent, and in the total amounts, provided for in Appropriations Acts.

(b) ESTABLISHMENT OF SCHEDULE.—The Commission shall assess and collect regulatory fees at such rates as the Commission shall establish in a schedule of regulatory fees that will result in the collection, in each fiscal year, of an amount that can reasonably be expected to equal the amounts described in subsection (a) with respect to such fiscal year.

(c) ADJUSTMENT OF SCHEDULE.—

(1) IN GENERAL.—For each fiscal year, the Commission shall by rule adjust the schedule of regulatory fees established under this section to—

(A) reflect unexpected increases or decreases in the number of units subject to the payment of such fees; and

(B) result in the collection of the amount required by subsection (b).

(2) ROUNDING.—In making adjustments under this subsection, the Commission may round fees to the nearest \$5 increment.

(d) **AMENDMENTS TO SCHEDULE.**—In addition to the adjustments required by subsection (c), the Commission shall by rule amend the schedule of regulatory fees established under this section if the Commission determines that the schedule requires amendment so that such fees reflect the full-time equivalent number of employees within the bureaus and offices of the Commission, adjusted to take into account factors that are reasonably related to the benefits provided to the payor of the fee by the Commission's activities. In making an amendment under this subsection, the Commission may not change the total amount of regulatory fees required by subsection (b) to be collected in a fiscal year.

(e) **EXCEPTIONS.**—

(1) **PARTIES TO WHICH FEES ARE NOT APPLICABLE.**—The regulatory fees established under this section shall not be applicable to—

(A) a governmental entity or nonprofit entity;

(B) an amateur radio operator licensee under part 97 of the Commission's rules (47 CFR part 97); or

(C) a noncommercial radio station or noncommercial television station.

(2) **COST OF COLLECTION.**—If, in the judgment of the Commission, the cost of collecting a regulatory fee established under this section from a party would exceed the amount collected from such party, the Commission may exempt such party from paying such fee.

(f) **DEPOSIT OF COLLECTIONS.**—

(1) **IN GENERAL.**—Amounts received from fees authorized by this section shall be deposited as an offsetting collection in, and credited to, the account through which funds are made available to carry out the activities described in section 6(a).

(2) **DEPOSIT OF EXCESS COLLECTIONS.**—Any regulatory fees collected in excess of the total amount of fees provided for in Appropriations Acts for a fiscal year shall be deposited in the general fund of the Treasury of the United States for the sole purpose of deficit reduction.

SEC. 9A. [47 U.S.C. 159a] PROVISIONS APPLICABLE TO APPLICATION AND REGULATORY FEES.

(a) **JUDICIAL REVIEW PROHIBITED.**—Any adjustment or amendment to a schedule of fees under subsection (b) or (c) of section 8 or subsection (c) or (d) of section 9 is not subject to judicial review.

(b) **NOTICE TO CONGRESS.**—The Commission shall transmit to Congress notification—

(1) of any adjustment under section 8(b) or 9(c) immediately upon the adoption of such adjustment; and

(2) of any amendment under section 8(c) or 9(d) not later than 90 days before the effective date of such amendment.

(c) **ENFORCEMENT.**—

(1) **PENALTIES FOR LATE PAYMENT.**—The Commission shall by rule prescribe an additional penalty for late payment of fees under section 8 or 9. Such additional penalty shall be 25 percent of the amount of the fee that was not paid in a timely manner.

(2) **INTEREST ON UNPAID FEES AND PENALTIES.**—The Commission shall charge interest, at a rate determined under sec-

tion 3717 of title 31, United States Code, on a fee under section 8 or 9 or an additional penalty under this subsection that is not paid in a timely manner. Such section 3717 shall not otherwise apply with respect to such a fee or penalty.

(3) DISMISSAL OF APPLICATIONS OR FILINGS.—The Commission may dismiss any application or other filing for failure to pay in a timely manner any fee under section 8 or 9 or any interest or additional penalty under this subsection.

(4) REVOCATIONS.—

(A) IN GENERAL.—In addition to or in lieu of the penalties and dismissals authorized by this subsection, the Commission may revoke any instrument of authorization held by any licensee that has not paid in a timely manner a regulatory fee assessed under section 9 or any related interest or penalty.

(B) NOTICE.—Revocation action may be taken by the Commission under this paragraph after notice of the Commission's intent to take such action is sent to the licensee by registered mail, return receipt requested, at the licensee's last known address. The notice shall provide the licensee at least 30 days to either pay the fee, interest, and any penalty or show cause why the fee, interest, or penalty does not apply to the licensee or should otherwise be waived or payment deferred.

(C) HEARING.—

(i) GENERALLY NOT REQUIRED.—A hearing is not required under this paragraph unless the licensee's response presents a substantial and material question of fact.

(ii) EVIDENCE AND BURDENS.—In any case where a hearing is conducted under this paragraph, the hearing shall be based on written evidence only, and the burden of proceeding with the introduction of evidence and the burden of proof shall be on the licensee.

(iii) COSTS.—Unless the licensee substantially prevails in the hearing, the Commission may assess the licensee for the costs of such hearing.

(D) OPPORTUNITY TO PAY PRIOR TO REVOCATION.—Any Commission order adopted under this paragraph shall determine the amount due, if any, and provide the licensee with at least 30 days to pay that amount or have its authorization revoked.

(E) FINALITY.—No order of revocation under this paragraph shall become final until the licensee has exhausted its right to judicial review of such order under section 402(b)(5).

(d) WAIVER, REDUCTION, AND DEFERMENT.—The Commission may waive, reduce, or defer payment of a fee under section 8 or 9 or an interest charge or penalty under this section in any specific instance for good cause shown, where such action would promote the public interest.

(e) PAYMENT RULES.—The Commission shall by rule permit payment—

(1) in the case of fees under section 8 or 9 in large amounts, by installments; and

(2) in the case of fees under section 8 or 9 in small amounts, in advance for a number of years not to exceed the term of the license held by the payor.

(f) ACCOUNTING SYSTEM.—The Commission shall develop accounting systems necessary to make the amendments authorized by sections 8(c) and 9(d).

SEC. 10. [47 U.S.C. 160] COMPETITION IN PROVISION OF TELECOMMUNICATIONS SERVICE.

(a) REGULATORY FLEXIBILITY.—Notwithstanding section 332(c)(1)(A) of this Act, the Commission shall forbear from applying any regulation or any provision of this Act to a telecommunications carrier or telecommunications service, or class of telecommunications carriers or telecommunications services, in any or some of its or their geographic markets, if the Commission determines that—

(1) enforcement of such regulation or provision is not necessary to ensure that the charges, practices, classifications, or regulations by, for, or in connection with that telecommunications carrier or telecommunications service are just and reasonable and are not unjustly or unreasonably discriminatory;

(2) enforcement of such regulation or provision is not necessary for the protection of consumers; and

(3) forbearance from applying such provision or regulation is consistent with the public interest.

(b) COMPETITIVE EFFECT TO BE WEIGHED.—In making the determination under subsection (a)(3), the Commission shall consider whether forbearance from enforcing the provision or regulation will promote competitive market conditions, including the extent to which such forbearance will enhance competition among providers of telecommunications services. If the Commission determines that such forbearance will promote competition among providers of telecommunications services, that determination may be the basis for a Commission finding that forbearance is in the public interest.

(c) PETITION FOR FORBEARANCE.—Any telecommunications carrier, or class of telecommunications carriers, may submit a petition to the Commission requesting that the Commission exercise the authority granted under this section with respect to that carrier or those carriers, or any service offered by that carrier or carriers. Any such petition shall be deemed granted if the Commission does not deny the petition for failure to meet the requirements for forbearance under subsection (a) within one year after the Commission receives it, unless the one-year period is extended by the Commission. The Commission may extend the initial one-year period by an additional 90 days if the Commission finds that an extension is necessary to meet the requirements of subsection (a). The Commission may grant or deny a petition in whole or in part and shall explain its decision in writing.

(d) LIMITATION.—Except as provided in section 251(f), the Commission may not forbear from applying the requirements of section 251(c) or 271 under subsection (a) of this section until it determines that those requirements have been fully implemented.

(e) STATE ENFORCEMENT AFTER COMMISSION FORBEARANCE.—A State commission may not continue to apply or enforce any provision of this Act that the Commission has determined to forbear from applying under subsection (a).

SEC. 11. [47 U.S.C. 161] REGULATORY REFORM.

(a) BIENNIAL REVIEW OF REGULATIONS.—In every even-numbered year (beginning with 1998), the Commission—

(1) shall review all regulations issued under this Act in effect at the time of the review that apply to the operations or activities of any provider of telecommunications service; and

(2) shall determine whether any such regulation is no longer necessary in the public interest as the result of meaningful economic competition between providers of such service.

(b) EFFECT OF DETERMINATION.—The Commission shall repeal or modify any regulation it determines to be no longer necessary in the public interest.

SEC. 12. [47 U.S.C. 162] ADDITIONAL RESEARCH AUTHORITIES OF THE FCC.

In order to carry out the purposes of this Act, the Commission may—

(1) undertake research and development work in connection with any matter in relation to which the Commission has jurisdiction; and

(2) promote the carrying out of such research and development by others, or otherwise to arrange for such research and development to be carried out by others.

SEC. 13. [47 U.S.C. 163] COMMUNICATIONS MARKETPLACE REPORT.

(a) IN GENERAL.—In the last quarter of every even-numbered year, the Commission shall publish on its website and submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the state of the communications marketplace.

(b) CONTENTS.—Each report required by subsection (a) shall—

(1) assess the state of competition in the communications marketplace, including competition to deliver voice, video, audio, and data services among providers of telecommunications, providers of commercial mobile service (as defined in section 332), multichannel video programming distributors (as defined in section 602), broadcast stations, providers of satellite communications, Internet service providers, and other providers of communications services;

(2) assess the state of deployment of communications capabilities, including advanced telecommunications capability (as defined in section 706 of the Telecommunications Act of 1996 (47 U.S.C. 1302)), regardless of the technology used for such deployment;

(3) assess whether laws, regulations, regulatory practices (whether those of the Federal Government, States, political subdivisions of States, Indian tribes or tribal organizations (as such terms are defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304)), or foreign governments), or demonstrated marketplace practices

pose a barrier to competitive entry into the communications marketplace or to the competitive expansion of existing providers of communications services;

(4) describe the agenda of the Commission for the next 2-year period for addressing the challenges and opportunities in the communications marketplace that were identified through the assessments under paragraphs (1) through (3); and

(5) describe the actions that the Commission has taken in pursuit of the agenda described pursuant to paragraph (4) in the previous report submitted under this section.

(c) EXTENSION.—If the President designates a Commissioner as Chairman of the Commission during the last quarter of an even-numbered year, the portion of the report required by subsection (b)(4) may be published on the website of the Commission and submitted to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate as an addendum during the first quarter of the following odd-numbered year.

(d) SPECIAL REQUIREMENTS.—

(1) ASSESSING COMPETITION.—In assessing the state of competition under subsection (b)(1), the Commission shall consider all forms of competition, including the effect of intermodal competition, facilities-based competition, and competition from new and emergent communications services, including the provision of content and communications using the Internet.

(2) ASSESSING DEPLOYMENT.—In assessing the state of deployment under subsection (b)(2), the Commission shall compile a list of geographical areas that are not served by any provider of advanced telecommunications capability.

(3) CONSIDERING SMALL BUSINESSES.—In assessing the state of competition under subsection (b)(1) and regulatory barriers under subsection (b)(3), the Commission shall consider market entry barriers for entrepreneurs and other small businesses in the communications marketplace in accordance with the national policy under section 257(b).

TITLE II—COMMON CARRIERS

PART I—COMMON CARRIER REGULATION

SEC. 201. [47 U.S.C. 201] SERVICE AND CHARGES.

(a) It shall be the duty of every common carrier engaged in interstate or foreign communication by wire or radio to furnish such communication service upon reasonable request therefor; and, in accordance with the orders of the Commission, in cases where the Commission, after opportunity for hearing, finds such action necessary or desirable in the public interest, to establish physical connections with other carriers, to establish through routes and charges applicable thereto and the divisions of such charges, and to establish and provide facilities and regulations for operating such through routes.

(b) All charges, practices, classifications, and regulations for and in connection with such communication service, shall be just and reasonable, and any such charge, practice, classification, or regulation that is unjust or unreasonable is hereby declared to be unlawful: *Provided*, That communications by wire or radio subject to this Act may be classified into day, night, repeated, unrepeated, letter, commercial, press, Government and such other classes as the Commission may decide to be just and reasonable, and different charges may be made for the different classes of communications: *Provided further*, That nothing in this Act or in any other provision of law shall be construed to prevent a common carrier subject to this Act from entering into or operating under any contract with any common carrier not subject to this Act, for the exchange of their services, if the Commission is of the opinion that such contract is not contrary to the public interest: *Provided further*, That nothing in this Act or in any other provision of law shall prevent a common carrier subject to this Act from furnishing reports of positions of ships at sea to newspapers of general circulation, either at a nominal charge or without charge, provided the name of such common carrier is displayed along with such ship position reports. The Commissioner may prescribe such rules and regulations as may be necessary in the public interest to carry out the provisions of this Act.

SEC. 202. [47 U.S.C. 202] DISCRIMINATION AND PREFERENCES.

(a) It shall be unlawful for any common carrier to make any unjust or unreasonable discrimination in charges, practices, classifications, regulations, facilities, or services for or in connection with like communication service, directly or indirectly, by any means or device, or to make or give any undue or unreasonable preference or advantage to any particular person, class of persons, or locality, or to subject any particular person, class of persons, or locality to any undue or unreasonable prejudice or disadvantage.

(b) Charges or services, whenever referred to in this Act, include charges for, or services in connection with, the use of common carrier lines of communication, whether derived from wire or radio facilities, in chain broadcasting or incidental to radio communication of any kind.

(c) Any carrier who knowingly violates the provisions of this section shall forfeit to the United States the sum of \$6,000 for each such offense and \$300 for each and every day of the continuance of such offense.

SEC. 203. [47 U.S.C. 203] SCHEDULES OF CHARGES.

(a) Every common carrier, except connecting carriers, shall, within such reasonable time as the Commission shall designate, file with the Commission and print and keep open for public inspection schedules showing all charges for itself and its connecting carriers for interstate and foreign wire or radio communication between the different points on its own system, and between points on its own system and points on the system of its connecting carriers or points on the system of any other carrier subject to this Act when a through route has been established, whether such charges are joint or separate, and showing the classifications, practices, and regulations affecting such charges. Such schedules shall contain

such other information, and be printed in such form, and be posted and kept open for public inspection in such places, as the Commission may by regulation require, and each such schedule shall give notice of its effective date; and such common carrier shall furnish such schedules to each of its connecting carriers, and such connecting carriers shall keep such schedules open for inspection in such public places as the Commission may require.

(b)(1) No change shall be made in the charges, classifications, regulations, or practices which have been so filed and published except after one hundred and twenty days notice to the Commission and to the public, which shall be published in such form and contain such information as the Commission may by regulations prescribe.

(2) The Commission may, in its discretion and for good cause shown, modify any requirement made by or under the authority of this section either in particular instances or by general order applicable to special circumstances or conditions except that the Commission may not require the notice period specified in paragraph (1) to be more than one hundred and twenty days.

(c) No carrier, unless otherwise provided by or under authority of this Act, shall engage or participate in such communication unless schedules have been filed and published in accordance with the provisions of this Act and with the regulations made thereunder; and no carrier shall (1) charge, demand, collect, or receive a greater or less or different compensation, for such communication, or for any service in connection therewith, between the points named in any such schedule than the charges specified in the schedule then in effect, or (2) refund or remit by any means or device any portion of the charges so specified, or (3) extend to any person any privileges or facilities, in such communication, or employ or enforce any classifications, regulations, or practices affecting such charges, except as specified in such schedule.

(d) The Commission may reject and refuse to file any schedule entered for filing which does not provide and give lawful notice of its effective date. Any schedule so rejected by the Commission shall be void and its use shall be unlawful.

(e) In case of failure or refusal on the part of any carrier to comply with the provisions of this section or of any regulation or order made by the Commission thereunder, such carrier shall forfeit to the United States the sum of \$6,000 for each such offense, and \$300 for each and every day of the continuance of such offense.

SEC. 204. [47 U.S.C. 204] HEARING AS TO LAWFULNESS OF NEW CHARGES; SUSPENSION.

(a)(1) Whenever there is filed with the Commission any new or revised charge, classification, regulation, or practice, the Commission may either upon complaint or upon its own initiative without complaint, upon reasonable notice, enter upon a hearing concerning the lawfulness thereof; and pending such hearing and the decision thereon the Commission, upon delivering to the carrier or carriers affected thereby a statement in writing of its reasons for such suspension, may suspend the operation of such charge, classification, regulation, or practice, in whole or in part but not for a longer period than five months beyond the time when it would otherwise go into effect; and after full hearing the Commission may make such

order with reference thereto as would be proper in a proceeding initiated after such charge, classification, regulation, or practice had become effective. If the proceeding has not been concluded and an order made within the period of the suspension, the proposed new or revised charge, classification, regulation, or practice shall go into effect at the end of such period; but in case of a proposed charge for a new service or a revised charge, the Commission may by order require the interested carrier or carriers to keep accurate account of all amounts received by reason of such charge for a new service or revised charge, specifying by whom and in whose behalf such amounts are paid, and upon completion of the hearing and decision may by further order require the interested carrier or carriers to refund, with interest, to the persons in whose behalf such amounts were paid, such portion of such charge for a new service or revised charges as by its decision shall be found not justified. At any hearing involving a new or revised charge, or a proposed new or revised charge, the burden of proof to show that the new or revised charge, or proposed charge, is just and reasonable shall be upon the carrier, and the Commission shall give to the hearing and decision of such questions preference over all other questions pending before it and decide the same as speedily as possible.

(2)(A) Except as provided in subparagraph (B), the Commission shall, with respect to any hearing under this section, issue an order concluding such hearing within 5 months after the date that the charge, classification, regulation, or practice subject to the hearing becomes effective.

(B) The Commission shall, with respect to any such hearing initiated prior to the date of enactment of this paragraph, issue an order concluding the hearing not later than 12 months after such date of enactment.

(C) Any order concluding a hearing under this section shall be a final order and may be appealed under section 402(a).

(3)¹ A local exchange carrier may file with the Commission a new or revised charge, classification, regulation, or practice on a streamlined basis. Any such charge, classification, regulation, or practice shall be deemed lawful and shall be effective 7 days (in the case of a reduction in rates) or 15 days (in the case of an increase in rates) after the date on which it is filed with the Commission unless the Commission takes action under paragraph (1) before the end of that 7-day or 15-day period, as is appropriate.

(b) Notwithstanding the provisions of subsection (a) of this section, the Commission may allow part of a charge, classification, regulation, or practice to go into effect, based upon a written showing by the carrier or carriers affected, and an opportunity for written comment thereon by affected persons, that such partial authorization is just, fair, and reasonable. Additionally, or in combination with a partial authorization, the Commission, upon a similar showing, may allow all or part of a charge, classification, regulation, or practice to go into effect on a temporary basis pending further order of the Commission. Authorizations of temporary new or in-

¹ Indentation so in original; should be moved 2-ems to the left.

creased charges may include an accounting order of the type provided for in subsection (a).

SEC. 205. [47 U.S.C. 205] COMMISSION AUTHORIZED TO PRESCRIBE JUST AND REASONABLE CHARGES.

(a) Whenever, after full opportunity for hearing, upon a complaint or under an order for investigation and hearing made by the Commission on its own initiative, the Commission shall be of opinion that any charge, classification, regulation, or practice of any carrier or carriers is or will be in violation of any of the provisions of this Act, the Commission is authorized and empowered to determine and prescribe what will be the just and reasonable charge or the maximum or minimum, or maximum and minimum, charge or charges to be thereafter observed, and what classification, regulation, or practice is or will be just, fair, and reasonable, to be thereafter followed, and to make an order that the carrier or carriers shall cease and desist from such violation to the extent that the Commission finds that the same does or will exist, and shall not thereafter publish, demand, or collect any charge other than the charge so prescribed, or in excess of the maximum or less than the minimum so prescribed, as the case may be, and shall adopt the classification and shall conform to and observe the regulation or practice so prescribed.

(b) Any carrier, any officer, representative, or agent of a carrier, or any receiver, trustee, lessee, or agent of either of them, who knowingly fails or neglects to obey any order made under the provisions of this section shall forfeit to the United States the sum of \$12,000 for each offense. Every distinct violation shall be a separate offense, and in case of continuing violation each day shall be deemed a separate offense.

SEC. 206. [47 U.S.C. 206] LIABILITY OF CARRIERS FOR DAMAGES.

In case any common carrier shall do, or cause or permit to be done, any act, matter, or thing in this Act prohibited or declared to be unlawful, or shall omit to do any act, matter, or thing in this Act required to be done, such common carrier shall be liable to the person or persons injured thereby for the full amount of damages sustained in consequence of any such violation of the provisions of this Act, together with a reasonable counsel or attorney's fee, to be fixed by the court in every case of recovery, which attorney's fee shall be taxed and collected as part of the costs in the case.

SEC. 207. [47 U.S.C. 207] RECOVERY OF DAMAGES.

Any person claiming to be damaged by any common carrier subject to the provisions of this Act may either make complaint to the Commission as hereinafter provided for, or may bring suit for the recovery of the damages for which such common carrier may be liable under the provisions of this Act, in any district court of the United States of competent jurisdiction; but such person shall not have the right to pursue both such remedies.

SEC. 208. [47 U.S.C. 208] COMPLAINTS TO THE COMMISSION.

(a) Any person, any body politic or municipal organization, or State commission, complaining of anything done or omitted to be done by any common carrier subject to this Act, in contravention of the provisions thereof, may apply to said Commission by petition

which shall briefly state the facts, whereupon a statement of the complaint thus made shall be forwarded by the Commission to such common carrier, who shall be called upon to satisfy the complaint or to answer the same in writing within a reasonable time to be specified by the Commission. If such common carrier within the time specified shall make reparation for the injury alleged to have been caused, the common carrier shall be relieved of liability to the complainant only for the particular violation of law thus complained of. If such carrier or carriers shall not satisfy the complaint within the time specified or there shall appear to be any reasonable ground for investigating said complaint, it shall be the duty of the Commission to investigate the matters complained of in such manner and by such means as it shall deem proper. No complaint shall at any time be dismissed because of the absence of direct damage to the complainant.

(b)(1) Except as provided in paragraph (2), the Commission shall, with respect to any investigation under this section of the lawfulness of a charge, classification, regulation, or practice, issue an order concluding such investigation within 5 months after the date on which the complaint was filed.

(2) The Commission shall, with respect to any such investigation initiated prior to the date of enactment of this subsection, issue an order concluding the investigation not later than 12 months after such date of enactment.

(3) Any order concluding an investigation under paragraph (1) or (2) shall be a final order and may be appealed under section 402(a).

SEC. 209. [47 U.S.C. 209] ORDERS FOR PAYMENT OF MONEY.

If, after hearing on a complaint, the Commission shall determine that any party complainant is entitled to an award of damages under the provisions of this Act, the Commission shall make an order directing the carrier to pay to the complainant the sum to which he is entitled on or before a day named.

SEC. 210. [47 U.S.C. 210] FRANKS AND PASSES.

(a) Nothing in this Act or in any other provision of law shall be construed to prohibit common carriers from issuing or giving franks to, exchanging franks with each other for the use of, their officers, agents, employees, and their families, or subject to such rules as the Commission may prescribe, from issuing, giving, or exchanging franks and passes to or with other common carriers not subject to the provisions of this Act, for the use of their officers, agents, employees, and their families. The term "employees," as used in this section, shall include furloughed, pensioned, and superannuated employees.

(b) Nothing in this Act or in any other provision of law shall be construed to prohibit common carriers from rendering to any agency of the Government free service in connection with the preparation for the national defense: *Provided*, That such free service may be rendered only in accordance with such rules and regulations as the Commission may prescribe therefor.

SEC. 211. [47 U.S.C. 211] COPIES OF CONTRACTS TO BE FILED.

(a) Every carrier subject to this Act shall file with the Commission copies of all contracts, agreements, or arrangements with

other carriers, or with common carriers not subject to the provisions of this Act, in relation to any traffic affected by the provisions of this Act to which it may be a party.

(b) The Commission shall have authority to require the filing of any other contracts of any carrier, and shall also have authority to exempt any carrier from submitting copies of such minor contracts as the Commission may determine.

SEC. 212. [47 U.S.C. 212] INTERLOCKING DIRECTORATES—OFFICIALS DEALING IN SECURITIES.

It shall be unlawful for any person to hold the position of officer or director of more than one carrier subject to this Act, unless such holding shall have been authorized by order of the Commission, upon due showing in form and manner prescribed by the Commission, that neither public nor private interests will be adversely affected thereby: *Provided*, That the Commission may authorize persons to hold the position of officer or director in more than one such carrier, without regard to the requirements of this section, where it has found that one of the two or more carriers directly or indirectly owns more than 50 per centum of the stock of the other or others, or that 50 per centum or more of the stock of all such carriers is directly or indirectly owned by the same person. After this section takes effect it shall be unlawful for any officer or director of any carrier subject to this Act to receive for his own benefit directly or indirectly, any money or thing of value in respect of negotiation, hypothecation, or sale of any securities issued or to be issued by such carriers, or to share in any of the proceeds thereof, or to participate in the making or paying of any dividends of such carriers from any funds properly included in capital account.

SEC. 213. [47 U.S.C. 213] VALUATION OF CARRIER PROPERTY.

(a) The Commission may from time to time, as may be necessary for the proper administration of this Act, and after opportunity for hearing, make a valuation of all or of any part of the property owned or used by any carrier subject to this Act, as of such date as the Commission may fix.

(b) The Commission may at any time require any such carrier to file with the Commission an inventory of all or of any part of the property owned or used by said carrier, which inventory shall show the units of said property classified in such detail, and in such manner, as the Commission shall direct, and shall show the estimated cost of reproduction new of said units, and their reproduction cost new less depreciation, as of such date as the Commission may direct; and such carrier shall file such inventory within such reasonable time as the Commission by order shall require.

(c) The Commission may at any time require any such carrier to file with the Commission a statement showing the original cost at the time of dedication to the public use of all or of any part of the property owned or used by said carrier. For the showing of such original cost said property shall be classified, and the original cost shall be defined, in such manner as the Commission may prescribe; and if any part of such cost cannot be determined from accounting or other records, the portion of the property for which such cost cannot be determined shall be reported to the Commission; and if the Commission shall so direct, the original cost thereof shall be es-

timated in such manner as the Commission may prescribe. If the carrier owning the property at the time such original cost is reported shall have paid more or less than the original cost to acquire the same, the amount of such cost of acquisition, and any facts which the Commission may require in connection therewith, shall be reported with such original cost. The report made by a carrier under this paragraph shall show the source or sources from which the original cost reported was obtained, and such other information as to the manner in which the report was prepared, as the Commission shall require.

(d) Nothing shall be included in the original cost reported for the property of any carrier under paragraph (c) of this section on account of any easement, license, or franchise granted by the United States or by any State or political subdivision thereof, beyond the reasonable necessary expense lawfully incurred in obtaining such easement, license, or franchise from the public authority aforesaid, which expense shall be reported separately from all other costs in such detail as the Commission may require; and nothing shall be included in any valuation of the property of any carrier made by the Commission on account of any such easement, license, or franchise, beyond such reasonable necessary expense lawfully incurred as aforesaid.

(e) The Commission shall keep itself informed of all new construction, extensions, improvements, retirements, or other changes in the condition, quantity, use, and classification of the property of common carriers, and of the cost of all additions and betterments thereto and of all changes in the investment therein, and may keep itself informed of current changes in costs and values of carrier properties.

(f) For the purpose of enabling the Commission to make a valuation of any of the property of any such carrier, or to find the original cost of such property, or to find any other facts concerning the same which are required for use by the Commission, it shall be the duty of each such carrier to furnish to the Commission, within such reasonable time as the Commission may order, any information with respect thereto which the Commission may by order require, including copies of maps, contracts, reports of engineers, and other data, records, and papers, and to grant to all agents of the Commission free access to its property and its accounts, records, and memoranda whenever and wherever requested by any such duly authorized agent, and to cooperate with and aid the Commission in the work of making any such valuation of finding in such manner and to such extent as the Commission may require and direct, and all rules and regulations made by the Commission for the purpose of administering this section shall have the full force and effect of law. Unless otherwise ordered by the Commission, with the reasons therefor, the records and data of the Commission shall be open to the inspection and examination of the public. The Commission, in making any such valuation, shall be free to adopt any method of valuation which shall be lawful.

(g) Nothing in this section shall impair or diminish the powers of any State commission.

SEC. 214. [47 U.S.C. 214] EXTENSION OF LINES.

(a) No carrier shall undertake the construction of a new line or of an extension of any line, or shall acquire or operate any line, or extension thereof, or shall engage in transmission over or by means of such additional or extended line, unless and until there shall first have been obtained from the Commission a certificate that the present or future public convenience and necessity require or will require the construction, or operation, or construction and operation, of such additional or extended line: *Provided*, That no such certificate shall be required under this section for the construction, acquisition, or operation of (1) a line within a single State unless such line constitutes part of an interstate line, (2) local, branch, or terminal lines not exceeding ten miles in length, or (3) any line acquired under section 221 of this Act: *Provided further*, That the Commission may, upon appropriate request being made, authorize temporary or emergency service, or the supplementing of existing facilities, without regard to the provisions of this section. No carrier shall discontinue, reduce, or impair service to a community, or part of a community, unless and until there shall first have been obtained from the Commission a certificate that neither the present nor future public convenience and necessity will be adversely affected thereby; except that the Commission may, upon appropriate request being made, authorize temporary or emergency discontinuance, reduction, or impairment of service, or partial discontinuance, reduction, or impairment of service, without regard to the provisions of this section. As used in this section the term "line" means any channel of communication established by the use of appropriate equipment, other than a channel of communication established by the interconnection of two or more existing channels: *Provided, however*, That nothing in this section shall be construed to require a certificate or other authorization from the Commission for any installation, replacement, or other changes in plant, operation, or equipment, other than new construction, which will not impair the adequacy or quality of service provided.

(b) Upon receipt of an application for any such certificate, the Commission shall cause notice thereof to be given to, and shall cause a copy of such application to be filed with, the Secretary of Defense, the Secretary of State (with respect to such applications involving service to foreign points), and the Governor of each State in which such line is proposed to be constructed, extended, acquired, or operated, or in which such discontinuance, reduction, or impairment of service is proposed, with the right to those notified to be heard; and the Commission may require such published notice as it shall determine.

(c) The Commission shall have power to issue such certificate as applied for, to refuse to issue it, or to issue it for a portion or portions of a line, or extension thereof, or discontinuance, reduction, or impairment of service, described in the application, or for the partial exercise only of such right or privilege, and may attach to the issuance of the certificate such terms and conditions as in its judgment the public convenience and necessity may require. After issuance of such certificate, and not before, the carrier may, without securing approval other than such certificate, comply with

the terms and conditions contained in or attached to the issuance of such certificate and proceed with the construction, extension, acquisition, operation, or discontinuance, reduction, or impairment of service covered thereby. Any construction, extension, acquisition, operation, discontinuance, reduction, or impairment of service contrary to the provisions of this section may be enjoined by any court of competent jurisdiction at the suit of the United States, the Commission, the State commission, any State affected, or any party in interest.

(d) The Commission may, after full opportunity for hearing, in a proceeding upon complaint or upon its own initiative without complaint, authorize or require by order any carrier, party to such proceeding, to provide itself with adequate facilities for the expeditious and efficient performance of its service as a common carrier and to extend its line or to establish a public office; but no such authorization or order shall be made unless the Commission finds, as to such provision of facilities, as to such establishment of public offices, or as to such extension, that it is reasonably required in the interest of public convenience and necessity, or as to such extension or facilities that the expense involved therein will not impair the ability of the carrier to perform its duty to the public. Any carrier which refuses or neglects to comply with any order of the Commission made in pursuance of this paragraph shall forfeit to the United States \$1,200 for each day during which such refusal or neglect continues.

(e) PROVISION OF UNIVERSAL SERVICE.—

(1) ELIGIBLE TELECOMMUNICATIONS CARRIERS.—A common carrier designated as an eligible telecommunications carrier under paragraph (2), (3), or (6) shall be eligible to receive universal service support in accordance with section 254 and shall, throughout the service area for which the designation is received—

(A) offer the services that are supported by Federal universal service support mechanisms under section 254(c), either using its own facilities or a combination of its own facilities and resale of another carrier's services (including the services offered by another eligible telecommunications carrier); and

(B) advertise the availability of such services and the charges therefor using media of general distribution.

(2) DESIGNATION OF ELIGIBLE TELECOMMUNICATIONS CARRIERS.—A State commission shall upon its own motion or upon request designate a common carrier that meets the requirements of paragraph (1) as an eligible telecommunications carrier for a service area designated by the State commission. Upon request and consistent with the public interest, convenience, and necessity, the State commission may, in the case of an area served by a rural telephone company, and shall, in the case of all other areas, designate more than one common carrier as an eligible telecommunications carrier for a service area designated by the State commission, so long as each additional requesting carrier meets the requirements of paragraph (1). Before designating an additional eligible telecommunications carrier for an area served by a rural telephone company, the

State commission shall find that the designation is in the public interest.

(3) DESIGNATION OF ELIGIBLE TELECOMMUNICATIONS CARRIERS FOR UNSERVED AREAS.—If no common carrier will provide the services that are supported by Federal universal service support mechanisms under section 254(c) to an unserved community or any portion thereof that requests such service, the Commission, with respect to interstate services or an area served by a common carrier to which paragraph (6) applies, or a State commission, with respect to intrastate services, shall determine which common carrier or carriers are best able to provide such service to the requesting unserved community or portion thereof and shall order such carrier or carriers to provide such service for that unserved community or portion thereof. Any carrier or carriers ordered to provide such service under this paragraph shall meet the requirements of paragraph (1) and shall be designated as an eligible telecommunications carrier for that community or portion thereof.

(4) RELINQUISHMENT OF UNIVERSAL SERVICE.—A State commission (or the Commission in the case of a common carrier designated under paragraph (6)) shall permit an eligible telecommunications carrier to relinquish its designation as such a carrier in any area served by more than one eligible telecommunications carrier. An eligible telecommunications carrier that seeks to relinquish its eligible telecommunications carrier designation for an area served by more than one eligible telecommunications carrier shall give advance notice to the State commission (or the Commission in the case of a common carrier designated under paragraph (6)) of such relinquishment. Prior to permitting a telecommunications carrier designated as an eligible telecommunications carrier to cease providing universal service in an area served by more than one eligible telecommunications carrier, the State commission (or the Commission in the case of a common carrier designated under paragraph (6)) shall require the remaining eligible telecommunications carrier or carriers to ensure that all customers served by the relinquishing carrier will continue to be served, and shall require sufficient notice to permit the purchase or construction of adequate facilities by any remaining eligible telecommunications carrier. The State commission (or the Commission in the case of a common carrier designated under paragraph (6)) shall establish a time, not to exceed one year after the State commission (or the Commission in the case of a common carrier designated under paragraph (6)) approves such relinquishment under this paragraph, within which such purchase or construction shall be completed.

(5) SERVICE AREA DEFINED.—The term “service area” means a geographic area established by a State commission (or the Commission under paragraph (6)) for the purpose of determining universal service obligations and support mechanisms. In the case of an area served by a rural telephone company, “service area” means such company’s “study area” unless and until the Commission and the States, after taking into account recommendations of a Federal-State Joint Board instituted

under section 410(c), establish a different definition of service area for such company.

(6) COMMON CARRIERS NOT SUBJECT TO STATE COMMISSION JURISDICTION.—In the case of a common carrier providing telephone exchange service and exchange access that is not subject to the jurisdiction of a State commission, the Commission shall upon request designate such a common carrier that meets the requirements of paragraph (1) as an eligible telecommunications carrier for a service area designated by the Commission consistent with applicable Federal and State law. Upon request and consistent with the public interest, convenience and necessity, the Commission may, with respect to an area served by a rural telephone company, and shall, in the case of all other areas, designate more than one common carrier as an eligible telecommunications carrier for a service area designated under this paragraph, so long as each additional requesting carrier meets the requirements of paragraph (1). Before designating an additional eligible telecommunications carrier for an area served by a rural telephone company, the Commission shall find that the designation is in the public interest.

SEC. 215. [47 U.S.C. 215] TRANSACTIONS RELATING TO SERVICES, EQUIPMENT, AND SO FORTH.

(a) The Commission shall examine into transactions entered into by any common carrier which relate to the furnishing of equipment, supplies, research, services, finances, credit, or personnel to such carrier and/or which may affect the changes made or to be made and/or the services rendered or to be rendered by such carrier, in wire or radio communications subject to this Act, and shall report to the Congress whether any such transactions have affected or are likely to affect adversely the ability of the carrier to render adequate service to the public, or may result in any undue or unreasonable increase in charges or in the maintenance of undue or unreasonable charges for such service; and in order to fully examine into such transactions the Commission shall have access to and the right of inspection and examination of all accounts, records, and memoranda including all documents, papers, and correspondence now or hereafter existing, of persons furnishing such equipment, supplies, research, services, finances, credit, or personnel. The Commission shall include in its report its recommendations for necessary legislation in connection with such transactions, and shall report specifically whether in its opinion legislation should be enacted (1) authorizing the Commission to declare any such transactions void or to permit such transactions to be carried out subject to such modification of their terms and conditions as the Commission shall deem desirable in the public interest; and/or (2) subjecting such transactions to the approval of the Commission where the person furnishing or seeking to furnish the equipment, supplies, research, service, finances, credit or personnel is a person directly or indirectly controlling or controlled by, or under direct or indirect common control with, such carrier; and/or (3) authorizing the Commission to require that all or any transactions of carriers involving the furnishing of equipment, supplies, research, services, finances, credit, or personnel to such carrier be upon competitive

bids on such terms and conditions and subject to such regulations as it shall prescribe as necessary in the public interest.

(b) The Commission shall examine all contracts of common carriers subject to this Act which prevent the other party thereto from dealing with another common carrier subject to this Act, and shall report its findings to Congress, together with its recommendations as to whether additional legislation on this subject is desirable.

SEC. 216. [47 U.S.C. 216] APPLICATION OF ACT TO RECEIVERS AND TRUSTEES.

The provisions of this Act shall apply to all receivers and operating trustees of carriers subject to this Act to the same extent that it applies to carriers.

SEC. 217. [47 U.S.C. 217] LIABILITY OF CARRIER FOR ACTS AND OMISSIONS OF AGENTS.

In construing and enforcing the provisions of this Act, the act, omission, or failure of any officer, agent, or other person acting for or employed by any common carrier or user, acting within the scope of his employment, shall in every case be also deemed to be the act, omission, or failure of such carrier or user as well as that of the person.

SEC. 218. [47 U.S.C. 218] INQUIRIES INTO MANAGEMENT.

The Commission may inquire into the management of the business of all carriers subject to this Act, and shall keep itself informed as to the manner and method in which the same is conducted and as to technical developments and improvements in wire and radio communication and radio transmission of energy to the end that the benefits of new inventions and developments may be made available to the people of the United States. The Commission may obtain from such carriers and from persons directly or indirectly controlling or controlled by, or under direct or indirect common control with, such carriers full and complete information necessary to enable the Commission to perform the duties and carry out the objects for which it was created.

SEC. 219. [47 U.S.C. 219] ANNUAL AND OTHER REPORTS.

(a) The Commission is authorized to require annual reports from all carriers subject to this Act, and from persons directly or indirectly controlling or controlled by, or under direct or indirect common control with, any such carrier, to prescribe the manner in which such reports shall be made, and to require from such persons specific answers to all questions upon which the Commission may need information. Except as otherwise required by the Commission, such annual reports shall show in detail the amount of capital stock issued, the amount and privileges of each class of stock, the amounts paid therefor, and the manner of payment for the same; the dividends paid and the surplus fund, if any; the number of stockholders (and the names of the thirty largest holders of each class of stock and the amount held by each); the funded and floating debts and the interest paid thereon; the cost and value of the carrier's property, franchises, and equipment; the number of employees and the salaries paid each class; the names of all officers and directors, and the amount of salary, bonus, and all other compensation paid to each; the amounts expended for improvements each year, how expended, and the character of such improvements;

the earnings and receipts from each branch of business and from all sources; the operating and other expenses; the balances of profit and loss; and a complete exhibit of the financial operations of the carrier each year, including an annual balance sheet. Such reports shall also contain such information in relation to charges or regulations concerning charges, or agreements, arrangements, or contracts affecting the same, as the Commission may require.

(b) Such reports shall be for such twelve months' period as the Commission shall designate and shall be filed with the Commission at its office in Washington within three months after the close of the year for which the report is made, unless additional time is granted in any case by the Commission; and if any person subject to the provisions of this section shall fail to make and file said annual reports within the time above specified, or within the time extended by the Commission, for making and filing the same, or shall fail to make specific answer to any question authorized by the provisions of this section within thirty days from the time it is lawfully required so to do, such person shall forfeit to the United States the sum of \$1,200 for each and every day it shall continue to be in default with respect thereto. The Commission may by general or special orders require any such carriers to file monthly reports of earnings and expenses and to file periodical and/or special reports concerning any matters with respect to which the Commission is authorized or required by law to act. If any such carrier shall fail to make and file any such periodical or special report within the time fixed by the Commission, it shall be subject to the forfeitures above provided.

SEC. 220. [47 U.S.C. 220] ACCOUNTS, RECORDS, AND MEMORANDA; DEPRECIATION CHARGES².

(a)(1) The Commission may, in its discretion, prescribe the forms of any and all accounts, records, and memoranda to be kept by carriers subject to this Act, including the accounts, records, and memoranda of the movement of traffic, as well as of the receipts and expenditures of moneys.

(2) The Commission shall, by rule, prescribe a uniform system of accounts for use by telephone companies. Such uniform system shall require that each common carrier shall maintain a system of accounting methods, procedures, and techniques (including accounts and supporting records and memoranda) which shall ensure a proper allocation of all costs to and among telecommunications

²Public Law 97-35, 95 Stat. 357, 738-39, Aug. 13, 1981, provided as follows:

UNIFORM SYSTEM OF ACCOUNTS

SEC. 1253. (a)(1) The Federal Communications Commission (hereinafter in this section referred to as the "Commission") shall complete the rulemaking proceeding relating to the revision of the uniform system of accounts used by telephone companies (Common Carrier Docket 78-196; notice of proposed rulemaking adopted June 28, 1978, 43 Federal Register 33560) as soon as practicable after the date of the enactment of this Act.

(2) Such uniform system shall require that each common carrier shall maintain a system of accounting methods, procedures, and techniques (including accounts and supporting records and memoranda) which shall ensure a proper allocation of all costs to and among telecommunications services, facilities, and products (and to and among classes of such services, facilities, and products) which are developed, manufactured, or offered by such common carrier.

(b) The Commission shall submit a report to each House of the Congress not later than one year after the date of the enactment of this Act. Such report shall include a summary of actions taken by the Commission in connection with the rulemaking proceeding specified in subsection (a), together with such other information as the Commission consider appropriate.

services, facilities, and products (and to and among classes of such services, facilities, and products) which are developed, manufactured, or offered by such common carrier.

(b) The Commission may prescribe for such carriers as it determines to be appropriate, the classes of property for which depreciation charges may be properly included under operating expenses, and the percentages of depreciation which shall be charged with respect to each of such classes of property, classifying the carriers as it may deem proper for this purpose. The Commission may, when it deems necessary, modify the classes and percentages so prescribed. Such carriers shall not, after the Commission has prescribed the classes of property for which depreciation charges may be included, charge to operating expenses any depreciation charges on classes of property other than those prescribed by the Commission, or, after the Commission has prescribed percentages of depreciation, charge with respect to any class of property a percentage of depreciation other than that prescribed therefor by the Commission. No such carrier shall in any case include in any form under its operating or other expenses any depreciation or other charge or expenditure included elsewhere as a depreciation charge or otherwise under its operating or other expenses.

(c) The Commission shall at all times have access to and the right of inspection and examination of all accounts, records, and memoranda, including all documents, papers, and correspondence now or hereafter existing, and kept or required to be kept by such carriers, and the provisions of this section respecting the preservation and destruction of books, papers, and documents shall apply thereto. The burden of proof to justify every accounting entry questioned by the Commission shall be on the person making, authorizing, or requiring such entry and the Commission may suspend a charge or credit pending submission of proof by such person. Any provision of law prohibiting the disclosure of the contents of messages or communications shall not be deemed to prohibit the disclosure of any matter in accordance with the provisions of this section. The Commission may obtain the services of any person licensed to provide public accounting services under the law of any State to assist with, or conduct, audits under this section. While so employed or engaged in conducting an audit for the Commission under this section, any such person shall have the powers granted the Commission under this subsection and shall be subject to subsection (f) in the same manner as if that person were an employee of the Commission.

(d) In case of failure or refusal on the part of any such carrier to keep such accounts, records, and memoranda on the books and in the manner prescribed by the Commission, or to submit such accounts, records, memoranda, documents, papers, and correspondence as are kept to the inspection of the Commission or any of its authorized agents, such carrier shall forfeit to the United States the sum of \$6,000 for each day of the continuance of each such offense.

(e) Any person who shall willfully make any false entry in the accounts of any book of accounts or in any record or memoranda kept by any such carrier, or who shall willfully destroy, mutilate, alter, or by any other means or device falsify any such account,

record, or memoranda, or who shall willfully neglect or fail to make full, true, and correct entries in such accounts, records, or memoranda of all facts and transactions appertaining to the business of the carrier, shall be deemed guilty of a misdemeanor, and shall be subject, upon conviction, to a fine of not less than \$1,000 nor more than \$5,000 or imprisonment for a term of not less than one year nor more than three years, or both such fine and imprisonment: *Provided*, That the Commission may in its descretion issue orders specifying such operating, accounting, or financial papers, records, books, blanks, or documents which may, after a reasonable time, be destroyed, and prescribing the length of time such books, papers, or documents shall be preserved.

(f) No member, officer, or employee of the Commission shall divulge any fact or information which may come to his knowledge during the course of examination of books or other accounts, as hereinbefore provided, except insofar as he may be directed by the Commission or by a court.

(g) After the Commission has prescribed the forms and manner of keeping of accounts, records, or memoranda to be kept by any person as herein provided, it shall be unlawful for such person to keep any other accounts, records, or memoranda than those so prescribed or such as may be approved by the Commission or to keep the accounts in any other manner than that prescribed or approved by the Commission. Notice of alterations by the Commission in the required manner or form of keeping accounts shall be given to such persons by the Commission at least six months before the same are to take effect.

(h) The Commission may classify carriers subject to this Act and prescribe different requirements under this section for different classes of carriers, and may, if it deems such action consistent with the public interest, except the carriers of any particular class or classes in any State from any of the requirements under this section in cases where such carriers are subject to State commission regulation with respect to matters to which this section relates.

(i) The Commission, before prescribing any requirements as to accounts, records, or memoranda, shall notify each State commission having jurisdiction with respect to any carrier involved, and shall give reasonable opportunity to each such commission to present its views, and shall receive and consider such views and recommendations.

(j) The Commission shall investigate and report to Congress as to the need for legislation to define further or harmonize the powers of the Commission and of State commissions with respect to matters to which this section relates.

SEC. 221. [47 U.S.C. 221] SPECIAL PROVISIONS RELATING TO TELEPHONE COMPANIES.

[(a) Repealed by Public Law 104-104; 110 Stat. 143.]

(b) Subject to the provisions of sections 225 and 301, nothing in this Act shall be construed to apply, or to give the Commission jurisdiction, with respect to charges, classifications, practices, services, facilities, or regulations for or in connection with wire, mobile, or point-to-point radio telephone exchange service, or any combination thereof even though a portion of such exchange service con-

stitutes interstate or foreign communication, in any case where such matters are subject to regulation by a State commission or by local governmental authority.

(c) For the purpose of administering this Act as to carriers engaged in wire telephone communication, the Commission may classify the property of any such carrier used for wire telephone communication, and determine what property of said carrier shall be considered as used in interstate or foreign telephone toll service. Such classification shall be made after hearing, upon notice to the carrier, the State commission (or the Governor, if the State has no State commission) of any State in which the property of said carrier is located, and such other persons as the commission may prescribe.

(d) In making a valuation of the property of any wire telephone carrier the Commission, after making the classification authorized in this section, may in its discretion value only that part of the property of such carrier determined to be used in interstate or foreign telephone toll service.

SEC. 222. [47 U.S.C. 222] PRIVACY OF CUSTOMER INFORMATION.

(a) IN GENERAL.—Every telecommunications carrier has a duty to protect the confidentiality of proprietary information of, and relating to, other telecommunication carriers, equipment manufacturers, and customers, including telecommunication carriers reselling telecommunications services provided by a telecommunications carrier.

(b) CONFIDENTIALITY OF CARRIER INFORMATION.—A telecommunications carrier that receives or obtains proprietary information from another carrier for purposes of providing any telecommunications service shall use such information only for such purpose, and shall not use such information for its own marketing efforts.

(c) CONFIDENTIALITY OF CUSTOMER PROPRIETARY NETWORK INFORMATION.—

(1) PRIVACY REQUIREMENTS FOR TELECOMMUNICATIONS CARRIERS.—Except as required by law or with the approval of the customer, a telecommunications carrier that receives or obtains customer proprietary network information by virtue of its provision of a telecommunications service shall only use, disclose, or permit access to individually identifiable customer proprietary network information in its provision of (A) the telecommunications service from which such information is derived, or (B) services necessary to, or used in, the provision of such telecommunications service, including the publishing of directories.

(2) DISCLOSURE ON REQUEST BY CUSTOMERS.—A telecommunications carrier shall disclose customer proprietary network information, upon affirmative written request by the customer, to any person designated by the customer.

(3) AGGREGATE CUSTOMER INFORMATION.—A telecommunications carrier that receives or obtains customer proprietary network information by virtue of its provision of a telecommunications service may use, disclose, or permit access to aggregate customer information other than for the purposes

described in paragraph (1). A local exchange carrier may use, disclose, or permit access to aggregate customer information other than for purposes described in paragraph (1) only if it provides such aggregate information to other carriers or persons on reasonable and nondiscriminatory terms and conditions upon reasonable request therefor.

(d) EXCEPTIONS.—Nothing in this section prohibits a telecommunications carrier from using, disclosing, or permitting access to customer proprietary network information obtained from its customers, either directly or indirectly through its agents—

(1) to initiate, render, bill, and collect for telecommunications services;

(2) to protect the rights or property of the carrier, or to protect users of those services and other carriers from fraudulent, abusive, or unlawful use of, or subscription to, such services;

(3) to provide any inbound telemarketing, referral, or administrative services to the customer for the duration of the call, if such call was initiated by the customer and the customer approves of the use of such information to provide such service; and

(4) to provide call location information concerning the user of a commercial mobile service (as such term is defined in section 332(d)) or the user of an IP-enabled voice service (as such term is defined in section 7 of the Wireless Communications and Public Safety Act of 1999 (47 U.S.C. 615b))—

(A) to a public safety answering point, emergency medical service provider or emergency dispatch provider, public safety, fire service, or law enforcement official, or hospital emergency or trauma care facility, in order to respond to the user's call for emergency services;

(B) to inform the user's legal guardian or members of the user's immediate family of the user's location in an emergency situation that involves the risk of death or serious physical harm; or

(C) to providers of information or database management services solely for purposes of assisting in the delivery of emergency services in response to an emergency.

(e) SUBSCRIBER LIST INFORMATION.—Notwithstanding subsections (b), (c), and (d), a telecommunications carrier that provides telephone exchange service shall provide subscriber list information gathered in its capacity as a provider of such service on a timely and unbundled basis, under nondiscriminatory and reasonable rates, terms, and conditions, to any person upon request for the purpose of publishing directories in any format.

(f) AUTHORITY TO USE LOCATION INFORMATION.—For purposes of subsection (c)(1), without the express prior authorization of the customer, a customer shall not be considered to have approved the use or disclosure of or access to—

(1) call location information concerning the user of a commercial mobile service (as such term is defined in section 332(d)) or the user of an IP-enabled voice service (as such term is defined in section 7 of the Wireless Communications and

Public Safety Act of 1999 (47 U.S.C. 615b)), other than in accordance with subsection (d)(4); or

(2) automatic crash notification information to any person other than for use in the operation of an automatic crash notification system.

(g) **SUBSCRIBER LISTED AND UNLISTED INFORMATION FOR EMERGENCY SERVICES.**—Notwithstanding subsections (b), (c), and (d), a telecommunications carrier that provides telephone exchange service or a provider of IP-enabled voice service (as such term is defined in section 7 of the Wireless Communications and Public Safety Act of 1999 (47 U.S.C. 615b)) shall provide information described in subsection (i)(3)(A) (including information pertaining to subscribers whose information is unlisted or unpublished) that is in its possession or control (including information pertaining to subscribers of other carriers) on a timely and unbundled basis, under nondiscriminatory and reasonable rates, terms, and conditions to providers of emergency services, and providers of emergency support services, solely for purposes of delivering or assisting in the delivery of emergency services.

(h) **DEFINITIONS.**—As used in this section:

(1) **CUSTOMER PROPRIETARY NETWORK INFORMATION.**—The term “customer proprietary network information” means—

(A) information that relates to the quantity, technical configuration, type, destination, location, and amount of use of a telecommunications service subscribed to by any customer of a telecommunications carrier, and that is made available to the carrier by the customer solely by virtue of the carrier-customer relationship; and

(B) information contained in the bills pertaining to telephone exchange service or telephone toll service received by a customer of a carrier;

except that such term does not include subscriber list information.

(2) **AGGREGATE INFORMATION.**—The term “aggregate customer information” means collective data that relates to a group or category of services or customers, from which individual customer identities and characteristics have been removed.

(3) **SUBSCRIBER LIST INFORMATION.**—The term “subscriber list information” means any information—

(A) identifying the listed names of subscribers of a carrier and such subscribers’ telephone numbers, addresses, or primary advertising classifications (as such classifications are assigned at the time of the establishment of such service), or any combination of such listed names, numbers, addresses, or classifications; and

(B) that the carrier or an affiliate has published, caused to be published, or accepted for publication in any directory format.

(4) **PUBLIC SAFETY ANSWERING POINT.**—The term “public safety answering point” means a facility that has been designated to receive emergency calls and route them to emergency service personnel.

(5) EMERGENCY SERVICES.—The term “emergency services” means 9–1–1 emergency services and emergency notification services.

(6) EMERGENCY NOTIFICATION SERVICES.—The term “emergency notification services” means services that notify the public of an emergency.

(7) EMERGENCY SUPPORT SERVICES.—The term “emergency support services” means information or data base management services used in support of emergency services.

SEC. 223.³ [47 U.S.C. 223] OBSCENE OR HARASSING TELEPHONE CALLS IN THE DISTRICT OF COLUMBIA OR IN INTERSTATE OR FOREIGN COMMUNICATIONS.

(a) Whoever—

(1) in interstate or foreign communications—

(A) by means of a telecommunications device knowingly—

(i) makes, creates, or solicits, and

(ii) initiates the transmission of,

any comment, request, suggestion, proposal, image, or other communication which is obscene or child pornography, with intent to annoy, abuse, threaten, or harass another person;

(B) by means of a telecommunications device knowingly—

(i) makes, creates, or solicits, and

(ii) initiates the transmission of,

any comment, request, suggestion, proposal, image, or other communication which is obscene or child pornography, knowing that the recipient of the communication is under 18 years of age, regardless of whether the maker of such communication placed the call or initiated the communication;

(C) makes a telephone call or utilizes a telecommunications device, whether or not conversation or communication ensues, without disclosing his identity and with intent to annoy, abuse, threaten, or harass any person at the called number or who receives the communications;

(D) makes or causes the telephone of another repeatedly or continuously to ring, with intent to harass any person at the called number; or

(E) makes repeated telephone calls or repeatedly initiates communication with a telecommunications device, during which conversation or communication ensues, solely to harass any person at the called number or who receives the communication; or

(2) knowingly permits any telecommunications facility under his control to be used for any activity prohibited by paragraph (1) with the intent that it be used for such activity, shall be fined under title 18, United States Code, or imprisoned not more than two years, or both.

³Section 223 was added by Public Law 90–299, approved May 3, 1968, 82 Stat. 112; amended by Public Law 98–214, 97 Stat. 1469, Dec. 8, 1983. Section 223 was amended twice in the 100th Congress: Public Law 100–297, 102 Stat. 424, April 28, 1988; Public Law 100–690, 102 Stat. 4181, Nov. 18, 1988. Printed is the section as amended by the latter amendment.

(b)(1) Whoever knowingly—

(A) within the United States, by means of telephone, makes (directly or by recording device) any obscene communication for commercial purposes to any person, regardless of whether the maker of such communication placed the call; or

(B) permits any telephone facility under such person's control to be used for an activity prohibited by subparagraph (A), shall be fined in accordance with title 18, United States Code, or imprisoned not more than two years, or both.

(2) Whoever knowingly—

(A) within the United States, by means of telephone, makes (directly or by recording device) any indecent communication for commercial purposes which is available to any person under 18 years of age or to any other person without that person's consent, regardless of whether the maker of such communication placed the call; or

(B) permits any telephone facility under such person's control to be used for an activity prohibited by subparagraph (A), shall be fined not more than \$50,000 or imprisoned not more than six months, or both.

(3) It is a defense to prosecution under paragraph (2) of this subsection that the defendant restricted access to the prohibited communication to persons 18 years of age or older in accordance with subsection (c) of this section and with such procedures as the Commission may prescribe by regulation.

(4) In addition to the penalties under paragraph (1), whoever, within the United States, intentionally violates paragraph (1) or (2) shall be subject to a fine of not more than \$50,000 for each violation. For purposes of this paragraph, each day of violation shall constitute a separate violation.

(5)(A) In addition to the penalties under paragraphs (1), (2), and (5), whoever, within the United States, violates paragraph (1) or (2) shall be subject to a civil fine of not more than \$50,000 for each violation. For purposes of this paragraph, each day of violation shall constitute a separate violation.

(B) A fine under this paragraph may be assessed either—

(i) by a court, pursuant to civil action by the Commission or any attorney employed by the Commission who is designated by the Commission for such purposes, or

(ii) by the Commission after appropriate administrative proceedings.

(6) The Attorney General may bring a suit in the appropriate district court of the United States to enjoin any act or practice which violates paragraph (1) or (2). An injunction may be granted in accordance with the Federal Rules of Civil Procedure.

(c)(1) A common carrier within the District of Columbia or within any State, or in interstate or foreign commerce, shall not, to the extent technically feasible, provide access to a communication specified in subsection (b) from the telephone of any subscriber who has not previously requested in writing the carrier to provide access to such communication if the carrier collects from subscribers an identifiable charge for such communication that the carrier remits, in whole or in part, to the provider of such communication.

(2) Except as provided in paragraph (3), no cause of action may be brought in any court or administrative agency against any common carrier, or any of its affiliates, including their officers, directors, employees, agents, or authorized representatives on account of—

(A) any action which the carrier demonstrates was taken in good faith to restrict access pursuant to paragraph (1) of this subsection; or

(B) any access permitted—

(i) in good faith reliance upon the lack of any representation by a provider of communications that communications provided by that provider are communications specified in subsection (b), or

(ii) because a specific representation by the provider did not allow the carrier, acting in good faith, a sufficient period to restrict access to communications described in subsection (b).

(3) Notwithstanding paragraph (2) of this subsection, a provider of communications services to which subscribers are denied access pursuant to paragraph (1) of this subsection may bring an action for a declaratory judgment or similar action in a court. Any such action shall be limited to the question of whether the communications which the provider seeks to provide fall within the category of communications to which the carrier will provide access only to subscribers who have previously requested such access.

(d) Whoever—

(1) in interstate or foreign communications knowingly—

(A) uses an interactive computer service to send to a specific person or persons under 18 years of age, or

(B) uses any interactive computer service to display in a manner available to a person under 18 years of age, any comment, request, suggestion, proposal, image, or other communication that is obscene or child pornography, regardless of whether the user of such service placed the call or initiated the communication; or

(2) knowingly permits any telecommunications facility under such person's control to be used for an activity prohibited by paragraph (1) with the intent that it be used for such activity,

shall be fined under title 18, United States Code, or imprisoned not more than two years, or both.

(e) In addition to any other defenses available by law:

(1) No person shall be held to have violated subsection (a) or (d) solely for providing access or connection to or from a facility, system, or network not under that person's control, including transmission, downloading, intermediate storage, access software, or other related capabilities that are incidental to providing such access or connection that does not include the creation of the content of the communication.

(2) The defenses provided by paragraph (1) of this subsection shall not be applicable to a person who is a conspirator with an entity actively involved in the creation or knowing distribution of communications that violate this section, or who knowingly advertises the availability of such communications.

(3) The defenses provided in paragraph (1) of this subsection shall not be applicable to a person who provides access or connection to a facility, system, or network engaged in the violation of this section that is owned or controlled by such person.

(4) No employer shall be held liable under this section for the actions of an employee or agent unless the employee's or agent's conduct is within the scope of his or her employment or agency and the employer (A) having knowledge of such conduct, authorizes or ratifies such conduct, or (B) recklessly disregards such conduct.

(5) It is a defense to a prosecution under subsection (a)(1)(B) or (d), or under subsection (a)(2) with respect to the use of a facility for an activity under subsection (a)(1)(B) that a person—

(A) has taken, in good faith, reasonable, effective, and appropriate actions under the circumstances to restrict or prevent access by minors to a communication specified in such subsections, which may involve any appropriate measures to restrict minors from such communications, including any method which is feasible under available technology; or

(B) has restricted access to such communication by requiring use of a verified credit card, debit account, adult access code, or adult personal identification number.

(6) The Commission may describe measures which are reasonable, effective, and appropriate to restrict access to prohibited communications under subsection (d). Nothing in this section authorizes the Commission to enforce, or is intended to provide the Commission with the authority to approve, sanction, or permit, the use of such measures. The Commission shall have no enforcement authority over the failure to utilize such measures. The Commission shall not endorse specific products relating to such measures. The use of such measures shall be admitted as evidence of good faith efforts for purposes of paragraph (5) in any action arising under subsection (d). Nothing in this section shall be construed to treat interactive computer services as common carriers or telecommunications carriers.

(f)(1) No cause of action may be brought in any court or administrative agency against any person on account of any activity that is not in violation of any law punishable by criminal or civil penalty, and that the person has taken in good faith to implement a defense authorized under this section or otherwise to restrict or prevent the transmission of, or access to, a communication specified in this section.

(2) No State or local government may impose any liability for commercial activities or actions by commercial entities, nonprofit libraries, or institutions of higher education in connection with an activity or action described in subsection (a)(2) or (d) that is inconsistent with the treatment of those activities or actions under this section: *Provided, however,* That nothing herein shall preclude any State or local government from enacting and enforcing complementary oversight, liability, and regulatory systems, procedures, and

requirements, so long as such systems, procedures, and requirements govern only intrastate services and do not result in the imposition of inconsistent rights, duties or obligations on the provision of interstate services. Nothing in this subsection shall preclude any State or local government from governing conduct not covered by this section.

(g) Nothing in subsection (a), (d), (e), or (f) or in the defenses to prosecution under subsection (a) or (d) shall be construed to affect or limit the application or enforcement of any other Federal law.

(h) For purposes of this section—

(1) The use of the term “telecommunications device” in this section—

(A) shall not impose new obligations on broadcasting station licensees and cable operators covered by obscenity and indecency provisions elsewhere in this Act;

(B) does not include an interactive computer service; and

(C) in the case of subparagraph (C) of subsection (a)(1), includes any device or software that can be used to originate telecommunications or other types of communications that are transmitted, in whole or in part, by the Internet (as such term is defined in section 1104 of the Internet Tax Freedom Act (47 U.S.C. 151 note)).

(2) The term “interactive computer service” has the meaning provided in section 230(f)(2).

(3) The term “access software” means software (including client or server software) or enabling tools that do not create or provide the content of the communication but that allow a user to do any one or more of the following:

(A) filter, screen, allow, or disallow content;

(B) pick, choose, analyze, or digest content; or

(C) transmit, receive, display, forward, cache, search, subset, organize, reorganize, or translate content.

(4) The term “institution of higher education” has the meaning provided in section 101 of the Higher Education Act of 1965.

(5) The term “library” means a library eligible for participation in State-based plans for funds under title III of the Library Services and Construction Act (20 U.S.C. 355e et seq.)⁴.

SEC. 224. [47 U.S.C. 224] REGULATION OF POLE ATTACHMENTS.

(a) As used in this section:

(1) The term “utility” means any person who is a local exchange carrier or an electric, gas, water, steam, or other public utility, and who owns or controls poles, ducts, conduits, or rights-of-way used, in whole or in part, for any wire communications. Such term does not include any railroad, any person who is cooperatively organized, or any person owned by the Federal Government or any State.

(2) The term “Federal Government” means the Government of the United States or any agency or instrumentality thereof.

⁴ So in law. The Library Services and Construction Act (20 U.S.C. 355e et seq.) was repealed by section 708(a) of Public Law 104–208 (110 Stat. 3009–312).

(3) The term “State” means any State, territory, or possession of the United States, the District of Columbia, or any political subdivision, agency, or instrumentality thereof.

(4) The term “pole attachment” means any attachment by a cable television system or provider of telecommunications service to a pole, duct, conduit, or right-of-way owned or controlled by a utility.

(5)⁵ For purposes of this section, the term “telecommunications carrier” (as defined in section 3 of this Act) does not include any incumbent local exchange carrier as defined in section 251(h).

(b)(1) Subject to the provisions of subsection (c) of this section, the Commission shall regulate the rates, terms, and conditions for pole attachments to provide that such rates, terms, and conditions are just and reasonable, and shall adopt procedures necessary and appropriate to hear and resolve complaints concerning such rates, terms, and conditions. For purposes of enforcing any determinations resulting from complaint procedures established pursuant to this subsection, the Commission shall take such action as it deems appropriate and necessary, including issuing cease and desist orders, as authorized by section 312(b) of title III of the Communications Act of 1934, as amended.

(2) The Commission shall prescribe by rule regulations to carry out the provisions of this section.

(c)(1) Nothing in this section shall be construed to apply to, or to give the Commission jurisdiction with respect to rates, terms, and conditions, or access to poles, ducts, conduits, and rights-of-way as provided in subsection (f), for pole attachments in any case where such matters are regulated by a State.

(2) Each State which regulates the rates, terms, and conditions for pole attachments shall certify to the Commission that—

(A) it regulates such rates, terms, and conditions; and

(B) in so regulating such rates, terms, and conditions, the State has the authority to consider and does consider the interests of the subscribers of the services offered via such attachments, as well as the interests of the consumers of the utility services.

(3) For purposes of this subsection, a State shall not be considered to regulate the rates, terms, and conditions for pole attachments—

(A) unless the State has issued and made effective rules and regulations implementing the State’s regulatory authority over pole attachments; and

(B) with respect to any individual matter, unless the State takes final action on a complaint regarding such matter—

(i) within 180 days after the complaint is filed with the State, or

(ii) within the applicable period prescribed for such final action in such rules and regulations of the State, if the prescribed period does not extend beyond 360 days after the filing of such complaint.

⁵ Indentation so in original.

(d)(1) For purposes of subsection (b) of this section, a rate is just and reasonable if it assures a utility the recovery of not less than the additional costs of providing pole attachments, nor more than an amount determined by multiplying the percentage of the total usable space, or the percentage of the total duct or conduit capacity, which is occupied by the pole attachment by the sum of the operating expenses and actual capital costs of the utility attributable to the entire pole, duct, conduit, or right-of-way.

(2) As used in this subsection, the term “usable space” means the space above the minimum grade level which can be used for the attachment of wires, cables, and associated equipment.

(3) This subsection shall apply to the rate for any pole attachment used by a cable television system solely to provide cable service. Until the effective date of the regulations required under subsection (e), this subsection shall also apply to the rate for any pole attachment used by a cable system or any telecommunications carrier (to the extent such carrier is not a party to a pole attachment agreement) to provide any telecommunications service.

(e)(1) The Commission shall, no later than 2 years after the date of enactment of the Telecommunications Act of 1996, prescribe regulations in accordance with this subsection to govern the charges for pole attachments used by telecommunications carriers to provide telecommunications services, when the parties fail to resolve a dispute over such charges. Such regulations shall ensure that a utility charges just, reasonable, and nondiscriminatory rates for pole attachments.

(2) A utility shall apportion the cost of providing space on a pole, duct, conduit, or right-of-way other than the usable space among entities so that such apportionment equals two-thirds of the costs of providing space other than the usable space that would be allocated to such entity under an equal apportionment of such costs among all attaching entities.

(3) A utility shall apportion the cost of providing usable space among all entities according to the percentage of usable space required for each entity.

(4) The regulations required under paragraph (1) shall become effective 5 years after the date of enactment of the Telecommunications Act of 1996. Any increase in the rates for pole attachments that result from the adoption of the regulations required by this subsection shall be phased in equal annual increments over a period of 5 years beginning on the effective date of such regulations.

(f)(1) A utility shall provide a cable television system or any telecommunications carrier with nondiscriminatory access to any pole, duct, conduit, or right-of-way owned or controlled by it.

(2) Notwithstanding paragraph (1), a utility providing electric service may deny a cable television system or any telecommunications carrier access to its poles, ducts, conduits, or rights-of-way, on a non-discriminatory⁶ basis where there is insufficient capacity and for reasons of safety, reliability and generally applicable engineering purposes.

(g) A utility that engages in the provision of telecommunications services or cable services shall impute to its costs of pro-

⁶ So in law. Probably should read “nondiscriminatory”.

viding such services (and charge any affiliate, subsidiary, or associate company engaged in the provision of such services) an equal amount to the pole attachment rate for which such company would be liable under this section.

(h) Whenever the owner of a pole, duct, conduit, or right-of-way intends to modify or alter such pole, duct, conduit, or right-of-way, the owner shall provide written notification of such action to any entity that has obtained an attachment to such conduit or right-of-way so that such entity may have a reasonable opportunity to add to or modify its existing attachment. Any entity that adds to or modifies its existing attachment after receiving such notification shall bear a proportionate share of the costs incurred by the owner in making such pole, duct, conduit, or right-of-way accessible.

(i) An entity that obtains an attachment to a pole, conduit, or right-of-way shall not be required to bear any of the costs of rearranging or replacing its attachment, if such rearrangement or replacement is required as a result of an additional attachment or the modification of an existing attachment sought by any other entity (including the owner of such pole, duct, conduit, or right-of-way).

SEC. 225. [47 U.S.C. 225] TELECOMMUNICATIONS SERVICES FOR HEARING-IMPAIRED AND SPEECH-IMPAIRED INDIVIDUALS.

(a) DEFINITIONS.—As used in this section—

(1) COMMON CARRIER OR CARRIER.—The term “common carrier” or “carrier” includes any common carrier engaged in interstate communication by wire or radio as defined in section 3 and any common carrier engaged in intrastate communication by wire or radio, notwithstanding sections 2(b) and 221(b).

(2) TDD.—The term “TDD” means a Telecommunications Device for the Deaf, which is a machine that employs graphic communication in the transmission of coded signals through a wire or radio communication system.

(3) TELECOMMUNICATIONS RELAY SERVICES.—The term “telecommunications relay services” means telephone transmission services that provide the ability for an individual who is deaf, hard of hearing, deaf-blind, or who has a speech disability to engage in communication by wire or radio with one or more individuals, in a manner that is functionally equivalent to the ability of a hearing individual who does not have a speech disability to communicate using voice communication services by wire or radio.

(b) AVAILABILITY OF TELECOMMUNICATIONS RELAY SERVICES.—

(1) IN GENERAL.—In order to carry out the purposes established under section 1, to make available to all individuals in the United States a rapid, efficient nationwide communication service, and to increase the utility of the telephone system of the Nation, the Commission shall ensure that interstate and intrastate telecommunications relay services are available, to the extent possible and in the most efficient manner, to hearing-impaired and speech-impaired individuals in the United States.

(2) USE OF GENERAL AUTHORITY AND REMEDIES.—For the purposes of administering and enforcing the provisions of this section and the regulations prescribed thereunder, the Com-

mission shall have the same authority, power, and functions with respect to common carriers engaged in intrastate communication as the Commission has in administering and enforcing the provisions of this title with respect to any common carrier engaged in interstate communication. Any violation of this section by any common carrier engaged in intrastate communication shall be subject to the same remedies, penalties, and procedures as are applicable to a violation of this Act by a common carrier engaged in interstate communication.

(c) PROVISION OF SERVICES.—Each common carrier providing telephone voice transmission services shall, not later than 3 years after the date of enactment of this section, provide in compliance with the regulations prescribed under this section, throughout the area in which it offers service, telecommunications relay services, individually, through designees, through a competitively selected vendor, or in concert with other carriers. A common carrier shall be considered to be in compliance with such regulations—

(1) with respect to intrastate telecommunications relay services in any State that does not have a certified program under subsection (f) and with respect to interstate telecommunications relay services, if such common carrier (or other entity through which the carrier is providing such relay services) is in compliance with the Commission's regulations under subsection (d); or

(2) with respect to intrastate telecommunications relay services in any State that has a certified program under subsection (f) for such State, if such common carrier (or other entity through which the carrier is providing such relay services) is in compliance with the program certified under subsection (f) for such State.

(d) REGULATIONS.—

(1) IN GENERAL.—The Commission shall, not later than 1 year after the date of enactment of this section, prescribe regulations to implement this section, including regulations that—

(A) establish functional requirements, guidelines, and operations procedures for telecommunications relay services;

(B) establish minimum standards that shall be met in carrying out subsection (c);

(C) require that telecommunications relay services operate every day for 24 hours per day;

(D) require that users of telecommunications relay services pay rates no greater than the rates paid for functionally equivalent voice communication services with respect to such factors as the duration of the call, the time of day, and the distance from point of origination to point of termination;

(E) prohibit relay operators from failing to fulfill the obligations of common carriers by refusing calls or limiting the length of calls that use telecommunications relay services;

(F) prohibit relay operators from disclosing the content of any relayed conversation and from keeping records of

the content of any such conversation beyond the duration of the call; and

(G) prohibit relay operators from intentionally altering a relayed conversation.

(2) TECHNOLOGY.—The Commission shall ensure that regulations prescribed to implement this section encourage, consistent with section 7(a) of this Act, the use of existing technology and do not discourage or impair the development of improved technology.

(3) JURISDICTIONAL SEPARATION OF COSTS.—

(A) IN GENERAL.—Consistent with the provisions of section 410 of this Act, the Commission shall prescribe regulations governing the jurisdictional separation of costs for the services provided pursuant to this section.

(B) RECOVERING COSTS.—Such regulations shall generally provide that costs caused by interstate telecommunications relay services shall be recovered from all subscribers for every interstate service and costs caused by intrastate telecommunications relay services shall be recovered from the intrastate jurisdiction. In a State that has a certified program under subsection (f), a State commission shall permit a common carrier to recover the costs incurred in providing intrastate telecommunications relay services by a method consistent with the requirements of this section.

(e) ENFORCEMENT.—

(1) IN GENERAL.—Subject to subsections (f) and (g), the Commission shall enforce this section.

(2) COMPLAINT.—The Commission shall resolve, by final order, a complaint alleging a violation of this section within 180 days after the date such complaint is filed.

(f) CERTIFICATION.—

(1) STATE DOCUMENTATION.—Any State desiring to establish a State program under this section shall submit documentation to the Commission that describes the program of such State for implementing intrastate telecommunications relay services and the procedures and remedies available for enforcing any requirements imposed by the State program.

(2) REQUIREMENTS FOR CERTIFICATION.—After review of such documentation, the Commission shall certify the State program if the Commission determines that—

(A) the program makes available to hearing-impaired and speech-impaired individuals, either directly, through designees, through a competitively selected vendor, or through regulation of intrastate common carriers, intrastate telecommunications relay services in such State in a manner that meets or exceeds the requirements of regulations prescribed by the Commission under subsection (d); and

(B) the program makes available adequate procedures and remedies for enforcing the requirements of the State program.

(3) METHOD OF FUNDING.—Except as provided in subsection (d), the Commission shall not refuse to certify a State

program based solely on the method such State will implement for funding intrastate telecommunication relay services.

(4) **SUSPENSION OR REVOCATION OF CERTIFICATION.**—The Commission may suspend or revoke such certification if, after notice and opportunity for hearing, the Commission determines that such certification is no longer warranted. In a State whose program has been suspended or revoked, the Commission shall take such steps as may be necessary, consistent with this section, to ensure continuity of telecommunications relay services.

(g) **COMPLAINT.**—

(1) **REFERRAL OF COMPLAINT.**—If a complaint to the Commission alleges a violation of this section with respect to intrastate telecommunications relay services within a State and certification of the program of such State under subsection (f) is in effect, the Commission shall refer such complaint to such State.

(2) **JURISDICTION OF COMMISSION.**—After referring a complaint to a State under paragraph (1), the Commission shall exercise jurisdiction over such complaint only if—

(A) final action under such State program has not been taken on such complaint by such State—

(i) within 180 days after the complaint is filed with such State; or

(ii) within a shorter period as prescribed by the regulations of such State; or

(B) the Commission determines that such State program is no longer qualified for certification under subsection (f).

SEC. 226. [47 U.S.C. 226] TELEPHONE OPERATOR SERVICES.

(a) **DEFINITIONS.**—As used in this section—

(1) The term “access code” means a sequence of numbers that, when dialed, connect the caller to the provider of operator services associated with that sequence.

(2) The term “aggregator” means any person that, in the ordinary course of its operations, makes telephones available to the public or to transient users of its premises, for interstate telephone calls using a provider of operator services.

(3) The term “call splashing” means the transfer of a telephone call from one provider of operator services to another such provider in such a manner that the subsequent provider is unable or unwilling to determine the location of the origination of the call and, because of such inability or unwillingness, is prevented from billing the call on the basis of such location.

(4) The term “consumer” means a person initiating any interstate telephone call using operator services.

(5) The term “equal access” has the meaning given that term in Appendix B of the Modification of Final Judgment entered August 24, 1982, in *United States v. Western Electric*, Civil Action No. 82–0192 (United States District Court, District of Columbia), as amended by the Court in its orders issued prior to the enactment of this section.

(6) The term “equal access code” means an access code that allows the public to obtain an equal access connection to the carrier associated with that code.

(7) The term “operator services” means any interstate telecommunications service initiated from an aggregator location that includes, as a component, any automatic or live assistance to a consumer to arrange for billing or completion, or both, of an interstate telephone call through a method other than—

(A) automatic completion with billing to the telephone from which the call originated; or

(B) completion through an access code used by the consumer, with billing to an account previously established with the carrier by the consumer.

(8) The term “presubscribed provider of operator services” means the interstate provider of operator services to which the consumer is connected when the consumer places a call using a provider of operator services without dialing an access code.

(9) The term “provider of operator services” means any common carrier that provides operator services or any other person determined by the Commission to be providing operator services.

(b) REQUIREMENTS FOR PROVIDERS OF OPERATOR SERVICES.—

(1) IN GENERAL.—Beginning not later than 90 days after the date of enactment of this section, each provider of operator services shall, at a minimum—

(A) identify itself, audibly and distinctly, to the consumer at the beginning of each telephone call and before the consumer incurs any charge for the call;

(B) permit the consumer to terminate the telephone call at no charge before the call is connected;

(C) disclose immediately to the consumer, upon request and at no charge to the consumer—

(i) a quote of its rates or charges for the call;

(ii) the methods by which such rates or charges will be collected; and

(iii) the methods by which complaints concerning such rates, charges, or collection practices will be resolved;

(D) ensure, by contract or tariff, that each aggregator for which such provider is the presubscribed provider of operator services is in compliance with the requirements of subsection (c) and, if applicable, subsection (e)(1);

(E) withhold payment (on a location-by-location basis) of any compensation, including commissions, to aggregators if such provider reasonably believes that the aggregator (i) is blocking access by means of “950” or “800” numbers to interstate common carriers in violation of subsection (c)(1)(B) or (ii) is blocking access to equal access codes in violation of rules the Commission may prescribe under subsection (e)(1);

(F) not bill for unanswered telephone calls in areas where equal access is available;

(G) not knowingly bill for unanswered telephone calls where equal access is not available;

(H) not engage in call splashing, unless the consumer requests to be transferred to another provider of operator services, the consumer is informed prior to incurring any charges that the rates for the call may not reflect the rates from the actual originating location of the call, and the consumer then consents to be transferred; and

(I) except as provided in subparagraph (H), not bill for a call that does not reflect the location of the origination of the call.

(2) ADDITIONAL REQUIREMENTS FOR FIRST 3 YEARS.—In addition to meeting the requirements of paragraph (1), during the 3-year period beginning on the date that is 90 days after the date of enactment of this section, each presubscribed provider of operator services shall identify itself audibly and distinctly to the consumer, not only as required in paragraph (1)(A), but also for a second time before connecting the call and before the consumer incurs any charge.

(c) REQUIREMENTS FOR AGGREGATORS.—

(1) IN GENERAL.—Each aggregator, beginning not later than 90 days after the date of enactment of this section, shall—

(A) post on or near the telephone instrument, in plain view of consumers—

(i) the name, address, and toll-free telephone number of the provider of operator services;

(ii) a written disclosure that the rates for all operator-assisted calls are available on request, and that consumers have a right to obtain access to the interstate common carrier of their choice and may contact their preferred interstate common carriers for information on accessing that carrier's service using that telephone; and

(iii) the name and address of the enforcement division of the Common Carrier Bureau of the Commission, to which the consumer may direct complaints regarding operator services;

(B) ensure that each of its telephones presubscribed to a provider of operator services allows the consumer to use "800" and "950" access code numbers to obtain access to the provider of operator services desired by the consumer; and

(C) ensure that no charge by the aggregator to the consumer for using an "800" or "950" access code number, or any other access code number, is greater than the amount the aggregator charges for calls placed using the presubscribed provider of operator services.

(2) EFFECT OF STATE LAW OR REGULATION.—The requirements of paragraph (1)(A) shall not apply to an aggregator in any case in which State law or State regulation requires the aggregator to take actions that are substantially the same as those required in paragraph (1)(A).

(d) GENERAL RULEMAKING REQUIRED.—

(1) RULEMAKING PROCEEDING.—The Commission shall conduct a rulemaking proceeding pursuant to this title to prescribe regulations to—

(A) protect consumers from unfair and deceptive practices relating to their use of operator services to place interstate telephone calls; and

(B) ensure that consumers have the opportunity to make informed choices in making such calls.

(2) CONTENTS OF REGULATIONS.—The regulations prescribed under this section shall—

(A) contain provisions to implement each of the requirements of this section, other than the requirements established by the rulemaking under subsection (e) on access and compensation; and

(B) contain such other provisions as the Commission determines necessary to carry out this section and the purposes and policies of this section.

(3) ADDITIONAL REQUIREMENTS TO BE IMPLEMENTED BY REGULATIONS.—The regulations prescribed under this section shall, at a minimum—

(A) establish minimum standards for providers of operator services and aggregators to use in the routing and handling of emergency telephone calls; and

(B) establish a policy for requiring providers of operator services to make public information about recent changes in operator services and choices available to consumers in that market.

(e) SEPARATE RULEMAKING ON ACCESS AND COMPENSATION.—

(1) ACCESS.—The Commission, shall require—

(A) that each aggregator ensure within a reasonable time that each of its telephones presubscribed to a provider of operator services allows the consumer to obtain access to the provider of operator services desired by the consumer through the use of an equal access code; or

(B) that all providers of operator services, within a reasonable time, make available to their customers a “950” or “800” access code number for use in making operator services calls from anywhere in the United States; or

(C) that the requirements described under both subparagraphs (A) and (B) apply.

(2) COMPENSATION.—The Commission shall consider the need to prescribe compensation (other than advance payment by consumers) for owners of competitive public pay telephones for calls routed to providers of operator services that are other than the presubscribed provider of operator services for such telephones. Within 9 months after the date of enactment of this section, the Commission shall reach a final decision on whether to prescribe such compensation.

(f) TECHNOLOGICAL CAPABILITY OF EQUIPMENT.—Any equipment and software manufactured or imported more than 18 months after the date of enactment of this section and installed by any aggregator shall be technologically capable of providing consumers with access to interstate providers of operator services through the use of equal access codes.

(g) FRAUD.—In any proceeding to carry out the provisions of this section, the Commission shall require such actions or measures as are necessary to ensure that aggregators are not exposed to undue risk of fraud.

(h) DETERMINATIONS OF RATE COMPLIANCE.—

(1) FILING OF INFORMATIONAL TARIFF.—

(A) IN GENERAL.—Each provider of operator services shall file, within 90 days after the date of enactment of this section, and shall maintain, update regularly, and keep open for public inspection, an informational tariff specifying rates, terms, and conditions, and including commissions, surcharges, any fees which are collected from consumers, and reasonable estimates of the amount of traffic priced at each rate, with respect to calls for which operator services are provided. Any changes in such rates, terms, or conditions shall be filed no later than the first day on which the changed rates, terms, or conditions are in effect.

(B) WAIVER AUTHORITY.—The Commission may, after 4 years following the date of enactment of this section, waive the requirements of this paragraph only if—

(i) the findings and conclusions of the Commission in the final report issued under paragraph (3)(B)(iii) state that the regulatory objectives specified in subsection (d)(1) (A) and (B) have been achieved; and

(ii) the Commission determines that such waiver will not adversely affect the continued achievement of such regulatory objectives.

(2) REVIEW OF INFORMATIONAL TARIFFS.—If the rates and charges filed by any provider of operator services under paragraph (1) appear upon review by the Commission to be unjust or unreasonable, the Commission may require such provider of operator services to do either or both of the following:

(A) demonstrate that its rates and charges are just and reasonable, and

(B) announce that its rates are available on request at the beginning of each call.

(3) PROCEEDING REQUIRED.—

(A) IN GENERAL.—Within 60 days after the date of enactment of this section, the Commission shall initiate a proceeding to determine whether the regulatory objectives specified in subsection (d)(1) (A) and (B) are being achieved. The proceeding shall—

(i) monitor operator service rates;

(ii) determine the extent to which offerings made by providers of operator services are improvements, in terms of service quality, price, innovation, and other factors, over those available before the entry of new providers of operator services into the market;

(iii) report on (in the aggregate and by individual provider) operator service rates, incidence of service complaints, and service offerings;

(iv) consider the effect that commissions and surcharges, billing and validation costs, and other costs of

doing business have on the overall rates charged to consumers; and

(v) monitor compliance with the provisions of this section, including the periodic placement of telephone calls from aggregator locations.

(B) REPORTS.—(i) The Commission shall, during the pendency of such proceeding and not later than 5 months after its commencement, provide the Congress with an interim report on the Commission's activities and progress to date.

(ii) Not later than 11 months after the commencement of such proceeding, the Commission shall report to the Congress on its interim findings as a result of the proceeding.

(iii) Not later than 23 months after the commencement of such proceeding, the Commission shall submit a final report to the Congress on its findings and conclusions.

(4) IMPLEMENTING REGULATIONS.—

(A) IN GENERAL.—Unless the Commission makes the determination described in subparagraph (B), the Commission shall, within 180 days after submission of the report required under paragraph (3)(B)(iii), complete a rule-making proceeding pursuant to this title to establish regulations for implementing the requirements of this title (and paragraphs (1) and (2) of this subsection) that rates and charges for operator services be just and reasonable. Such regulations shall include limitations on the amount of commissions or any other compensation given to aggregators by providers of operator service.

(B) LIMITATION.—The requirement of subparagraph (A) shall not apply if, on the basis of the proceeding under paragraph (3)(A), the Commission makes (and includes in the report required by paragraph (3)(B)(iii)) a factual determination that market forces are securing rates and charges that are just and reasonable, as evidenced by rate levels, costs, complaints, service quality, and other relevant factors.

(i) STATUTORY CONSTRUCTION.—Nothing in this section shall be construed to alter the obligations, powers, or duties of common carriers or the Commission under the other sections of this Act.

SEC. 227. [47 U.S.C. 227] RESTRICTIONS ON THE USE OF TELEPHONE EQUIPMENT.

(a) DEFINITIONS.—As used in this section—

(1) The term “automatic telephone dialing system” means equipment which has the capacity—

(A) to store or produce telephone numbers to be called, using a random or sequential number generator; and

(B) to dial such numbers.

(2) The term “established business relationship”, for purposes only of subsection (b)(1)(C)(i), shall have the meaning given the term in section 64.1200 of title 47, Code of Federal Regulations, as in effect on January 1, 2003, except that—

(A) such term shall include a relationship between a person or entity and a business subscriber subject to the

same terms applicable under such section to a relationship between a person or entity and a residential subscriber; and

(B) an established business relationship shall be subject to any time limitation established pursuant to paragraph (2)(G)).

(3) The term “telephone facsimile machine” means equipment which has the capacity (A) to transcribe text or images, or both, from paper into an electronic signal and to transmit that signal over a regular telephone line, or (B) to transcribe text or images (or both) from an electronic signal received over a regular telephone line onto paper.

(4) The term “telephone solicitation” means the initiation of a telephone call or message for the purpose of encouraging the purchase or rental of, or investment in, property, goods, or services, which is transmitted to any person, but such term does not include a call or message (A) to any person with that person’s prior express invitation or permission, (B) to any person with whom the caller has an established business relationship, or (C) by a tax exempt nonprofit organization.

(5) The term “unsolicited advertisement” means any material advertising the commercial availability or quality of any property, goods, or services which is transmitted to any person without that person’s prior express invitation or permission, in writing or otherwise.

(b) RESTRICTIONS ON THE USE OF AUTOMATED TELEPHONE EQUIPMENT.—

(1) PROHIBITIONS.—It shall be unlawful for any person within the United States, or any person outside the United States if the recipient is within the United States—

(A) to make any call (other than a call made for emergency purposes or made with the prior express consent of the called party) using any automatic telephone dialing system or an artificial or prerecorded voice—

(i) to any emergency telephone line (including any “911” line and any emergency line of a hospital, medical physician or service office, health care facility, poison control center, or fire protection or law enforcement agency);

(ii) to the telephone line of any guest room or patient room of a hospital, health care facility, elderly home, or similar establishment; or

(iii) to any telephone number assigned to a paging service, cellular telephone service, specialized mobile radio service, or other radio common carrier service, or any service for which the called party is charged for the call, unless such call is made solely to collect a debt owed to or guaranteed by the United States;

(B) to initiate any telephone call to any residential telephone line using an artificial or prerecorded voice to deliver a message without the prior express consent of the called party, unless the call is initiated for emergency purposes, is made solely pursuant to the collection of a debt owed to or guaranteed by the United States, or is exempt-

ed by rule or order by the Commission under paragraph (2)(B);

(C) to use any telephone facsimile machine, computer, or other device to send, to a telephone facsimile machine, an unsolicited advertisement, unless—

(i) the unsolicited advertisement is from a sender with an established business relationship with the recipient;

(ii) the sender obtained the number of the telephone facsimile machine through—

(I) the voluntary communication of such number, within the context of such established business relationship, from the recipient of the unsolicited advertisement, or

(II) a directory, advertisement, or site on the Internet to which the recipient voluntarily agreed to make available its facsimile number for public distribution,

except that this clause shall not apply in the case of an unsolicited advertisement that is sent based on an established business relationship with the recipient that was in existence before the date of enactment of the Junk Fax Prevention Act of 2005 if the sender possessed the facsimile machine number of the recipient before such date of enactment; and

(iii) the unsolicited advertisement contains a notice meeting the requirements under paragraph (2)(D), except that the exception under clauses (i) and (ii) shall not apply with respect to an unsolicited advertisement sent to a telephone facsimile machine by a sender to whom a request has been made not to send future unsolicited advertisements to such telephone facsimile machine that complies with the requirements under paragraph (2)(E); or

(D) to use an automatic telephone dialing system in such a way that two or more telephone lines of a multi-line business are engaged simultaneously.

(2) REGULATIONS; EXEMPTIONS AND OTHER PROVISIONS.—The Commission shall prescribe regulations to implement the requirements of this subsection. In implementing the requirements of this subsection, the Commission—

(A) shall consider prescribing regulations to allow businesses to avoid receiving calls made using an artificial or prerecorded voice to which they have not given their prior express consent;

(B) may, by rule or order, exempt from the requirements of paragraph (1)(B) of this subsection, subject to such conditions as the Commission may prescribe—

(i) calls that are not made for a commercial purpose; and

(ii) such classes or categories of calls made for commercial purposes as the Commission determines—

(I) will not adversely affect the privacy rights that this section is intended to protect; and

(II) do not include the transmission of any unsolicited advertisement;

(C) may, by rule or order, exempt from the requirements of paragraph (1)(A)(iii) of this subsection calls to a telephone number assigned to a cellular telephone service that are not charged to the called party, subject to such conditions as the Commission may prescribe as necessary in the interest of the privacy rights this section is intended to protect;

(D) shall provide that a notice contained in an unsolicited advertisement complies with the requirements under this subparagraph only if—

(i) the notice is clear and conspicuous and on the first page of the unsolicited advertisement;

(ii) the notice states that the recipient may make a request to the sender of the unsolicited advertisement not to send any future unsolicited advertisements to a telephone facsimile machine or machines and that failure to comply, within the shortest reasonable time, as determined by the Commission, with such a request meeting the requirements under subparagraph (E) is unlawful;

(iii) the notice sets forth the requirements for a request under subparagraph (E);

(iv) the notice includes—

(I) a domestic contact telephone and facsimile machine number for the recipient to transmit such a request to the sender; and

(II) a cost-free mechanism for a recipient to transmit a request pursuant to such notice to the sender of the unsolicited advertisement; the Commission shall by rule require the sender to provide such a mechanism and may, in the discretion of the Commission and subject to such conditions as the Commission may prescribe, exempt certain classes of small business senders, but only if the Commission determines that the costs to such class are unduly burdensome given the revenues generated by such small businesses;

(v) the telephone and facsimile machine numbers and the cost-free mechanism set forth pursuant to clause (iv) permit an individual or business to make such a request at any time on any day of the week; and

(vi) the notice complies with the requirements of subsection (d);

(E) shall provide, by rule, that a request not to send future unsolicited advertisements to a telephone facsimile machine complies with the requirements under this subparagraph only if—

(i) the request identifies the telephone number or numbers of the telephone facsimile machine or machines to which the request relates;

(ii) the request is made to the telephone or facsimile number of the sender of such an unsolicited advertisement provided pursuant to subparagraph (D)(iv) or by any other method of communication as determined by the Commission; and

(iii) the person making the request has not, subsequent to such request, provided express invitation or permission to the sender, in writing or otherwise, to send such advertisements to such person at such telephone facsimile machine;

(F) may, in the discretion of the Commission and subject to such conditions as the Commission may prescribe, allow professional or trade associations that are tax-exempt nonprofit organizations to send unsolicited advertisements to their members in furtherance of the association's tax-exempt purpose that do not contain the notice required by paragraph (1)(C)(iii), except that the Commission may take action under this subparagraph only—

(i) by regulation issued after public notice and opportunity for public comment; and

(ii) if the Commission determines that such notice required by paragraph (1)(C)(iii) is not necessary to protect the ability of the members of such associations to stop such associations from sending any future unsolicited advertisements;

(G)(i) may, consistent with clause (ii), limit the duration of the existence of an established business relationship, however, before establishing any such limits, the Commission shall—

(I) determine whether the existence of the exception under paragraph (1)(C) relating to an established business relationship has resulted in a significant number of complaints to the Commission regarding the sending of unsolicited advertisements to telephone facsimile machines;

(II) determine whether a significant number of any such complaints involve unsolicited advertisements that were sent on the basis of an established business relationship that was longer in duration than the Commission believes is consistent with the reasonable expectations of consumers;

(III) evaluate the costs to senders of demonstrating the existence of an established business relationship within a specified period of time and the benefits to recipients of establishing a limitation on such established business relationship; and

(IV) determine whether with respect to small businesses, the costs would not be unduly burdensome; and

(ii) may not commence a proceeding to determine whether to limit the duration of the existence of an established business relationship before the expiration of the 3-month period that begins on the date of the enactment of the Junk Fax Prevention Act of 2005;

(H) may restrict or limit the number and duration of calls made to a telephone number assigned to a cellular telephone service to collect a debt owed to or guaranteed by the United States; and

(I) shall ensure that any exemption under subparagraph (B) or (C) contains requirements for calls made in reliance on the exemption with respect to—

(i) the classes of parties that may make such calls;

(ii) the classes of parties that may be called; and

(iii) the number of such calls that a calling party may make to a particular called party.

(3) PRIVATE RIGHT OF ACTION.—A person or entity may, if otherwise permitted by the laws or rules of court of a State, bring in an appropriate court of that State—

(A) an action based on a violation of this subsection or the regulations prescribed under this subsection to enjoin such violation,

(B) an action to recover for actual monetary loss from such a violation, or to receive \$500 in damages for each such violation, whichever is greater, or

(C) both such actions.

If the court finds that the defendant willfully or knowingly violated this subsection or the regulations prescribed under this subsection, the court may, in its discretion, increase the amount of the award to an amount equal to not more than 3 times the amount available under subparagraph (B) of this paragraph.

(4) CIVIL FORFEITURE.—

(A) IN GENERAL.—Any person that is determined by the Commission, in accordance with paragraph (3) or (4) of section 503(b), to have violated this subsection shall be liable to the United States for a forfeiture penalty pursuant to section 503(b)(1). Paragraph (5) of section 503(b) shall not apply in the case of a violation of this subsection. A forfeiture penalty under this subparagraph shall be in addition to any other penalty provided for by this Act. The amount of the forfeiture penalty determined under this subparagraph shall be determined in accordance with subparagraphs (A) through (F) of section 503(b)(2).

(B) VIOLATION WITH INTENT.—Any person that is determined by the Commission, in accordance with paragraph (3) or (4) of section 503(b), to have violated this subsection with the intent to cause such violation shall be liable to the United States for a forfeiture penalty pursuant to section 503(b)(1). Paragraph (5) of section 503(b) shall not apply in the case of a violation of this subsection. A forfeiture penalty under this subparagraph shall be in addition to any other penalty provided for by this Act. The amount of the forfeiture penalty determined under this subparagraph shall be equal to an amount determined in accordance with subparagraphs (A) through (F) of section 503(b)(2) plus an additional penalty not to exceed \$10,000.

(C) RECOVERY.—Any forfeiture penalty determined under subparagraph (A) or (B) shall be recoverable under section 504(a).

(D) PROCEDURE.—No forfeiture liability shall be determined under subparagraph (A) or (B) against any person unless such person receives the notice required by section 503(b)(3) or section 503(b)(4).

(E) STATUTE OF LIMITATIONS.—Notwithstanding paragraph (6) of section 503(b), no forfeiture penalty shall be determined or imposed against any person—

(i) under subparagraph (A) if the violation charged occurred more than 1 year prior to the date of issuance of the required notice or notice of apparent liability; or

(ii) under subparagraph (B) if the violation charged occurred more than 4 years prior to the date of issuance of the required notice or notice of apparent liability.

(F) RULE OF CONSTRUCTION.—Notwithstanding any law to the contrary, the Commission may not determine or impose a forfeiture penalty on a person under both subparagraphs (A) and (B) based on the same conduct.

(c) PROTECTION OF SUBSCRIBER PRIVACY RIGHTS.—

(1) RULEMAKING PROCEEDING REQUIRED.—Within 120 days after the date of enactment of this section, the Commission shall initiate a rulemaking proceeding concerning the need to protect residential telephone subscribers' privacy rights to avoid receiving telephone solicitations to which they object. The proceeding shall—

(A) compare and evaluate alternative methods and procedures (including the use of electronic databases, telephone network technologies, special directory markings, industry-based or company-specific “do not call” systems, and any other alternatives, individually or in combination) for their effectiveness in protecting such privacy rights, and in terms of their cost and other advantages and disadvantages;

(B) evaluate the categories of public and private entities that would have the capacity to establish and administer such methods and procedures;

(C) consider whether different methods and procedures may apply for local telephone solicitations, such as local telephone solicitations of small businesses or holders of second class mail permits;

(D) consider whether there is a need for additional Commission authority to further restrict telephone solicitations, including those calls exempted under subsection (a)(3) of this section, and, if such a finding is made and supported by the record, propose specific restrictions to the Congress; and

(E) develop proposed regulations to implement the methods and procedures that the Commission determines are most effective and efficient to accomplish the purposes of this section.

(2) REGULATIONS.—Not later than 9 months after the date of enactment of this section, the Commission shall conclude the rulemaking proceeding initiated under paragraph (1) and shall prescribe regulations to implement methods and procedures for protecting the privacy rights described in such paragraph in an efficient, effective, and economic manner and without the imposition of any additional charge to telephone subscribers.

(3) USE OF DATABASE PERMITTED.—The regulations required by paragraph (2) may require the establishment and operation of a single national database to compile a list of telephone numbers of residential subscribers who object to receiving telephone solicitations, and to make that compiled list and parts thereof available for purchase. If the Commission determines to require such a database, such regulations shall—

(A) specify a method by which the Commission will select an entity to administer such database;

(B) require each common carrier providing telephone exchange service, in accordance with regulations prescribed by the Commission, to inform subscribers for telephone exchange service of the opportunity to provide notification, in accordance with regulations established under this paragraph, that such subscriber objects to receiving telephone solicitations;

(C) specify the methods by which each telephone subscriber shall be informed, by the common carrier that provides local exchange service to that subscriber, of (i) the subscriber's right to give or revoke a notification of an objection under subparagraph (A), and (ii) the methods by which such right may be exercised by the subscriber;

(D) specify the methods by which such objections shall be collected and added to the database;

(E) prohibit any residential subscriber from being charged for giving or revoking such notification or for being included in a database compiled under this section;

(F) prohibit any person from making or transmitting a telephone solicitation to the telephone number of any subscriber included in such database;

(G) specify (i) the methods by which any person desiring to make or transmit telephone solicitations will obtain access to the database, by area code or local exchange prefix, as required to avoid calling the telephone numbers of subscribers included in such database; and (ii) the costs to be recovered from such persons;

(H) specify the methods for recovering, from persons accessing such database, the costs involved in identifying, collecting, updating, disseminating, and selling, and other activities relating to, the operations of the database that are incurred by the entities carrying out those activities;

(I) specify the frequency with which such database will be updated and specify the method by which such updating will take effect for purposes of compliance with the regulations prescribed under this subsection;

(J) be designed to enable States to use the database mechanism selected by the Commission for purposes of administering or enforcing State law;

(K) prohibit the use of such database for any purpose other than compliance with the requirements of this section and any such State law and specify methods for protection of the privacy rights of persons whose numbers are included in such database; and

(L) require each common carrier providing services to any person for the purpose of making telephone solicitations to notify such person of the requirements of this section and the regulations thereunder.

(4) CONSIDERATIONS REQUIRED FOR USE OF DATABASE METHOD.—If the Commission determines to require the database mechanism described in paragraph (3), the Commission shall—

(A) in developing procedures for gaining access to the database, consider the different needs of telemarketers conducting business on a national, regional, State, or local level;

(B) develop a fee schedule or price structure for recouping the cost of such database that recognizes such differences and—

(i) reflect the relative costs of providing a national, regional, State, or local list of phone numbers of subscribers who object to receiving telephone solicitations;

(ii) reflect the relative costs of providing such lists on paper or electronic media; and

(iii) not place an unreasonable financial burden on small businesses; and

(C) consider (i) whether the needs of telemarketers operating on a local basis could be met through special markings of area white pages directories, and (ii) if such directories are needed as an adjunct to database lists prepared by area code and local exchange prefix.

(5) PRIVATE RIGHT OF ACTION.—A person who has received more than one telephone call within any 12-month period by or on behalf of the same entity in violation of the regulations prescribed under this subsection may, if otherwise permitted by the laws or rules of court of a State bring in an appropriate court of that State—

(A) an action based on a violation of the regulations prescribed under this subsection to enjoin such violation,

(B) an action to recover for actual monetary loss from such a violation, or to receive up to \$500 in damages for each such violation, whichever is greater, or

(C) both such actions.

It shall be an affirmative defense in any action brought under this paragraph that the defendant has established and implemented, with due care, reasonable practices and procedures to effectively prevent telephone solicitations in violation of the regulations prescribed under this subsection. If the court finds that the defendant willfully or knowingly violated the regulations prescribed under this subsection, the court may, in its

discretion, increase the amount of the award to an amount equal to not more than 3 times the amount available under subparagraph (B) of this paragraph.

(6) RELATION TO SUBSECTION (b).—The provisions of this subsection shall not be construed to permit a communication prohibited by subsection (b).

(d) TECHNICAL AND PROCEDURAL STANDARDS.—

(1) PROHIBITION.—It shall be unlawful for any person with-
in the United States—

(A) to initiate any communication using a telephone facsimile machine, or to make any telephone call using any automatic telephone dialing system, that does not comply with the technical and procedural standards prescribed under this subsection, or to use any telephone facsimile machine or automatic telephone dialing system in a manner that does not comply with such standards; or

(B) to use a computer or other electronic device to send any message via a telephone facsimile machine unless such person clearly marks, in a margin at the top or bottom of each transmitted page of the message or on the first page of the transmission, the date and time it is sent and an identification of the business, other entity, or individual sending the message and the telephone number of the sending machine or of such business, other entity, or individual.

(2) TELEPHONE FACSIMILE MACHINES.—The Commission shall revise the regulations setting technical and procedural standards for telephone facsimile machines to require that any such machine which is manufactured after one year after the date of enactment of this section clearly marks, in a margin at the top or bottom of each transmitted page or on the first page of each transmission, the date and time sent, an identification of the business, other entity, or individual sending the message, and the telephone number of the sending machine or of such business, other entity, or individual.

(3) ARTIFICIAL OR PRERECORDED VOICE SYSTEMS.—The Commission shall prescribe technical and procedural standards for systems that are used to transmit any artificial or prerecorded voice message via telephone. Such standards shall require that—

(A) all artificial or prerecorded telephone messages (i) shall, at the beginning of the message, state clearly the identity of the business, individual, or other entity initiating the call, and (ii) shall, during or after the message, state clearly the telephone number or address of such business, other entity, or individual; and

(B) any such system will automatically release the called party's line within 5 seconds of the time notification is transmitted to the system that the called party has hung up, to allow the called party's line to be used to make or receive other calls.

(e) PROHIBITION ON PROVISION OF MISLEADING OR INACCURATE CALLER IDENTIFICATION INFORMATION.—

(1) IN GENERAL.—It shall be unlawful for any person within the United States, or any person outside the United States if the recipient is within the United States, in connection with any voice service or text messaging service, to cause any caller identification service to knowingly transmit misleading or inaccurate caller identification information with the intent to defraud, cause harm, or wrongfully obtain anything of value, unless such transmission is exempted pursuant to paragraph (3)(B).

(2) PROTECTION FOR BLOCKING CALLER IDENTIFICATION INFORMATION.—Nothing in this subsection may be construed to prevent or restrict any person from blocking the capability of any caller identification service to transmit caller identification information.

(3) REGULATIONS.—

(A) IN GENERAL.—The Commission shall prescribe regulations to implement this subsection.

(B) CONTENT OF REGULATIONS.—

(i) IN GENERAL.—The regulations required under subparagraph (A) shall include such exemptions from the prohibition under paragraph (1) as the Commission determines is appropriate.

(ii) SPECIFIC EXEMPTION FOR LAW ENFORCEMENT AGENCIES OR COURT ORDERS.—The regulations required under subparagraph (A) shall exempt from the prohibition under paragraph (1) transmissions in connection with—

(I) any authorized activity of a law enforcement agency; or

(II) a court order that specifically authorizes the use of caller identification manipulation.

【Paragraph (4) of subsection (e) was repealed by section 402(i)(3) of division P of Public Law 115–141.】

(5) PENALTIES.—

(A) CIVIL FORFEITURE.—

(i) IN GENERAL.—Any person that is determined by the Commission, in accordance with paragraphs (3) and (4) of section 503(b), to have violated this subsection shall be liable to the United States for a forfeiture penalty. A forfeiture penalty under this paragraph shall be in addition to any other penalty provided for by this Act. The amount of the forfeiture penalty determined under this paragraph shall not exceed \$10,000 for each violation, or 3 times that amount for each day of a continuing violation, except that the amount assessed for any continuing violation shall not exceed a total of \$1,000,000 for any single act or failure to act.

(ii) RECOVERY.—Any forfeiture penalty determined under clause (i) shall be recoverable pursuant to section 504(a). Paragraph (5) of section 503(b) shall not apply in the case of a violation of this subsection.

(iii) PROCEDURE.—No forfeiture liability shall be determined under clause (i) against any person unless such person receives the notice required by section 503(b)(3) or section 503(b)(4).

(iv) 4-YEAR STATUTE OF LIMITATIONS.—No forfeiture penalty shall be determined or imposed against any person under clause (i) if the violation charged occurred more than 4 years prior to the date of issuance of the required notice or notice of apparent liability.

(B) CRIMINAL FINE.—Any person who willfully and knowingly violates this subsection shall upon conviction thereof be fined not more than \$10,000 for each violation, or 3 times that amount for each day of a continuing violation, in lieu of the fine provided by section 501 for such a violation. This subparagraph does not supersede the provisions of section 501 relating to imprisonment or the imposition of a penalty of both fine and imprisonment.

(6) ENFORCEMENT BY STATES.—

(A) IN GENERAL.—The chief legal officer of a State, or any other State officer authorized by law to bring actions on behalf of the residents of a State, may bring a civil action, as *parens patriae*, on behalf of the residents of that State in an appropriate district court of the United States to enforce this subsection or to impose the civil penalties for violation of this subsection, whenever the chief legal officer or other State officer has reason to believe that the interests of the residents of the State have been or are being threatened or adversely affected by a violation of this subsection or a regulation under this subsection.

(B) NOTICE.—The chief legal officer or other State officer shall serve written notice on the Commission of any civil action under subparagraph (A) prior to initiating such civil action. The notice shall include a copy of the complaint to be filed to initiate such civil action, except that if it is not feasible for the State to provide such prior notice, the State shall provide such notice immediately upon instituting such civil action.

(C) AUTHORITY TO INTERVENE.—Upon receiving the notice required by subparagraph (B), the Commission shall have the right—

- (i) to intervene in the action;
- (ii) upon so intervening, to be heard on all matters arising therein; and
- (iii) to file petitions for appeal.

(D) CONSTRUCTION.—For purposes of bringing any civil action under subparagraph (A), nothing in this paragraph shall prevent the chief legal officer or other State officer from exercising the powers conferred on that officer by the laws of such State to conduct investigations or to administer oaths or affirmations or to compel the attendance of witnesses or the production of documentary and other evidence.

(E) VENUE; SERVICE OR PROCESS.—

(i) VENUE.—An action brought under subparagraph (A) shall be brought in a district court of the United States that meets applicable requirements relating to venue under section 1391 of title 28, United States Code.

(ii) SERVICE OF PROCESS.—In an action brought under subparagraph (A)—

(I) process may be served without regard to the territorial limits of the district or of the State in which the action is instituted; and

(II) a person who participated in an alleged violation that is being litigated in the civil action may be joined in the civil action without regard to the residence of the person.

(7) EFFECT ON OTHER LAWS.—This subsection does not prohibit any lawfully authorized investigative, protective, or intelligence activity of a law enforcement agency of the United States, a State, or a political subdivision of a State, or of an intelligence agency of the United States.

(8) DEFINITIONS.—For purposes of this subsection:

(A) CALLER IDENTIFICATION INFORMATION.—The term “caller identification information” means information provided by a caller identification service regarding the telephone number of, or other information regarding the origination of, a call made using a voice service or a text message sent using a text messaging service.

(B) CALLER IDENTIFICATION SERVICE.—The term “caller identification service” means any service or device designed to provide the user of the service or device with the telephone number of, or other information regarding the origination of, a call made using a voice service or a text message sent using a text messaging service. Such term includes automatic number identification services.

(C) TEXT MESSAGE.—The term “text message”—

(i) means a message consisting of text, images, sounds, or other information that is transmitted to or from a device that is identified as the receiving or transmitting device by means of a 10-digit telephone number or N11 service code;

(ii) includes a short message service (commonly referred to as “SMS”) message and a multimedia message service (commonly referred to as “MMS”) message; and

(iii) does not include—

(I) a real-time, two-way voice or video communication; or

(II) a message sent over an IP-enabled messaging service to another user of the same messaging service, except a message described in clause (ii).

(D) TEXT MESSAGING SERVICE.—The term “text messaging service” means a service that enables the transmission or receipt of a text message, including a service provided as part of or in connection with a voice service.

(E) VOICE SERVICE.—The term “voice service”—

(i) means any service that is interconnected with the public switched telephone network and that furnishes voice communications to an end user using resources from the North American Numbering Plan or any successor to the North American Numbering Plan adopted by the Commission under section 251(e)(1); and

(ii) includes transmissions from a telephone facsimile machine, computer, or other device to a telephone facsimile machine.

(9) LIMITATION.—Notwithstanding any other provision of this section, subsection (f) shall not apply to this subsection or to the regulations under this subsection.

(f) EFFECT ON STATE LAW.—

(1) STATE LAW NOT PREEMPTED.—Except for the standards prescribed under subsection (d) and subject to paragraph (2) of this subsection, nothing in this section or in the regulations prescribed under this section shall preempt any State law that imposes more restrictive intrastate requirements or regulations on, or which prohibits—

(A) the use of telephone facsimile machines or other electronic devices to send unsolicited advertisements;

(B) the use of automatic telephone dialing systems;

(C) the use of artificial or prerecorded voice messages;

or

(D) the making of telephone solicitations.

(2) STATE USE OF DATABASES.—If, pursuant to subsection (c)(3), the Commission requires the establishment of a single national database of telephone numbers of subscribers who object to receiving telephone solicitations, a State or local authority may not, in its regulation of telephone solicitations, require the use of any database, list, or listing system that does not include the part of such single national database that relates to such State.

(g) ACTIONS BY STATES.—

(1) AUTHORITY OF STATES.—Whenever the attorney general of a State, or an official or agency designated by a State, has reason to believe that any person has engaged or is engaging in a pattern or practice of telephone calls or other transmissions to residents of that State in violation of this section or the regulations prescribed under this section, the State may bring a civil action on behalf of its residents to enjoin such calls, an action to recover for actual monetary loss or receive \$500 in damages for each violation, or both such actions. If the court finds the defendant willfully or knowingly violated such regulations, the court may, in its discretion, increase the amount of the award to an amount equal to not more than 3 times the amount available under the preceding sentence.

(2) EXCLUSIVE JURISDICTION OF FEDERAL COURTS.—The district courts of the United States, the United States courts of any territory, and the District Court of the United States for the District of Columbia shall have exclusive jurisdiction over all civil actions brought under this subsection. Upon proper ap-

plication, such courts shall also have jurisdiction to issue writs of mandamus, or orders affording like relief, commanding the defendant to comply with the provisions of this section or regulations prescribed under this section, including the requirement that the defendant take such action as is necessary to remove the danger of such violation. Upon a proper showing, a permanent or temporary injunction or restraining order shall be granted without bond.

(3) RIGHTS OF COMMISSION.—The State shall serve prior written notice of any such civil action upon the Commission and provide the Commission with a copy of its complaint, except in any case where such prior notice is not feasible, in which case the State shall serve such notice immediately upon instituting such action. The Commission shall have the right (A) to intervene in the action, (B) upon so intervening, to be heard on all matters arising therein, and (C) to file petitions for appeal.

(4) VENUE; SERVICE OF PROCESS.—Any civil action brought under this subsection in a district court of the United States may be brought in the district wherein the defendant is found or is an inhabitant or transacts business or wherein the violation occurred or is occurring, and process in such cases may be served in any district in which the defendant is an inhabitant or where the defendant may be found.

(5) INVESTIGATORY POWERS.—For purposes of bringing any civil action under this subsection, nothing in this section shall prevent the attorney general of a State, or an official or agency designated by a State, from exercising the powers conferred on the attorney general or such official by the laws of such State to conduct investigations or to administer oaths or affirmations or to compel the attendance of witnesses or the production of documentary and other evidence.

(6) EFFECT ON STATE COURT PROCEEDINGS.—Nothing contained in this subsection shall be construed to prohibit an authorized State official from proceeding in State court on the basis of an alleged violation of any general civil or criminal statute of such State.

(7) LIMITATION.—Whenever the Commission has instituted a civil action for violation of regulations prescribed under this section, no State may, during the pendency of such action instituted by the Commission, subsequently institute a civil action against any defendant named in the Commission's complaint for any violation as alleged in the Commission's complaint.

(8) DEFINITION.—As used in this subsection, the term "attorney general" means the chief legal officer of a State.

(h) ANNUAL REPORT TO CONGRESS ON ROBOCALLS AND TRANSMISSION OF MISLEADING OR INACCURATE CALLER IDENTIFICATION INFORMATION.—

(1) REPORT REQUIRED.—Not later than 1 year after the date of the enactment of this subsection, and annually thereafter, the Commission, after consultation with the Federal Trade Commission, shall submit to Congress a report regarding enforcement by the Commission of subsections (b), (c), (d), and (e) during the preceding calendar year.

(2) MATTERS FOR INCLUSION.—Each report required by paragraph (1) shall include the following:

(A) The number of complaints received by the Commission during each of the preceding 5 calendar years, for each of the following categories:

(i) Complaints alleging that a consumer received a call in violation of subsection (b) or (c).

(ii) Complaints alleging that a consumer received a call in violation of the standards prescribed under subsection (d).

(iii) Complaints alleging that a consumer received a call in connection with which misleading or inaccurate caller identification information was transmitted in violation of subsection (e).

(B) The number of citations issued by the Commission pursuant to section 503(b) during the preceding calendar year to enforce subsection (d), and details of each such citation.

(C) The number of notices of apparent liability issued by the Commission pursuant to section 503(b) during the preceding calendar year to enforce subsections (b), (c), (d), and (e), and details of each such notice including any proposed forfeiture amount.

(D) The number of final orders imposing forfeiture penalties issued pursuant to section 503(b) during the preceding calendar year to enforce such subsections, and details of each such order including the forfeiture imposed.

(E) The amount of forfeiture penalties or criminal fines collected, during the preceding calendar year, by the Commission or the Attorney General for violations of such subsections, and details of each case in which such a forfeiture penalty or criminal fine was collected.

(F) Proposals for reducing the number of calls made in violation of such subsections.

(G) An analysis of the contribution by providers of interconnected VoIP service and non-interconnected VoIP service that discount high-volume, unlawful, short-duration calls to the total number of calls made in violation of such subsections, and recommendations on how to address such contribution in order to decrease the total number of calls made in violation of such subsections.

(3) NO ADDITIONAL REPORTING REQUIRED.—The Commission shall prepare the report required by paragraph (1) without requiring the provision of additional information from providers of telecommunications service or voice service (as defined in section 4(a) of the Pallone-Thune TRACED Act).

(i) INFORMATION SHARING.—

(1) IN GENERAL.—Not later than 18 months after the date of the enactment of this subsection, the Commission shall prescribe regulations to establish a process that streamlines the ways in which a private entity may voluntarily share with the Commission information relating to—

(A) a call made or a text message sent in violation of subsection (b); or

(B) a call or text message for which misleading or inaccurate caller identification information was caused to be transmitted in violation of subsection (e).

(2) TEXT MESSAGE DEFINED.—In this subsection, the term “text message” has the meaning given such term in subsection (e)(8)⁷.

(j) ROBOCALL BLOCKING SERVICE.—

(1) IN GENERAL.—Not later than 1 year after the date of the enactment of this subsection, the Commission shall take a final agency action to ensure the robocall blocking services provided on an opt-out or opt-in basis pursuant to the Declaratory Ruling of the Commission in the matter of Advanced Methods to Target and Eliminate Unlawful Robocalls (CG Docket No. 17–59; FCC 19–51; adopted on June 6, 2019)—

(A) are provided with transparency and effective redress options for both—

- (i) consumers; and
- (ii) callers; and

(B) are provided with no additional line item charge to consumers and no additional charge to callers for resolving complaints related to erroneously blocked calls; and

(C) make all reasonable efforts to avoid blocking emergency public safety calls.

(2) TEXT MESSAGE DEFINED.—In this subsection, the term “text message” has the meaning given such term in subsection (e)(8)⁷.

SEC. 228. [47 U.S.C. 228] REGULATION OF CARRIER OFFERING OF PAY-PER-CALL SERVICES.

(a) PURPOSE.—It is the purpose of this section—

(1) to put into effect a system of national regulation and review that will oversee interstate pay-per-call services; and

(2) to recognize the Commission’s authority to prescribe regulations and enforcement procedures and conduct oversight to afford reasonable protection to consumers of pay-per-call services and to assure that violations of Federal law do not occur.

(b) GENERAL AUTHORITY FOR REGULATIONS.—The Commission by regulation shall, within 270 days after the date of enactment of this section, establish a system for oversight and regulation of pay-per-call services in order to provide for the protection of consumers in accordance with this Act and other applicable Federal statutes and regulations. The Commission’s final rules shall—

(1) include measures that provide a consumer of pay-per-call services with adequate and clear descriptions of the rights of the caller;

(2) define the obligations of common carriers with respect to the provision of pay-per-call services;

⁷ Subsections (i) and (j) of section 227 were added by subsections (a) and (b) of section 10, respectively, of Public Law 116–105. Subsection (d) of such section 10 (relating to transitional rule regarding definition of text message) provides: “Paragraph (2) of subsection (i) of section 227 of the Communications Act of 1934 (47 U.S.C. 227), as added by subsection (a) of this section, and paragraph (2) of subsection (j) of such section 227, as added by subsection (b) of this section, shall apply before the effective date of the amendment made to subsection (e)(8) of such section 227 by subparagraph (C) of section 503(a)(2) of division P of the Consolidated Appropriations Act, 2018 (Public Law 115–141) as if such amendment was already in effect.”

(3) include requirements on such carriers to protect against abusive practices by providers of pay-per-call services;

(4) identify procedures by which common carriers and providers of pay-per-call services may take affirmative steps to protect against nonpayment of legitimate charges; and

(5) require that any service described in subparagraphs (A) and (B) of subsection (i)(1) be offered only through the use of certain telephone number prefixes and area codes.

(c) COMMON CARRIER OBLIGATIONS.—Within 270 days after the date of enactment of this section, the Commission shall, by regulation, establish the following requirements for common carriers:

(1) CONTRACTUAL OBLIGATIONS TO COMPLY.—Any common carrier assigning to a provider of pay-per-call services a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) shall require by contract or tariff that such provider comply with the provisions of titles II and III of the Telephone Disclosure and Dispute Resolution Act and the regulations prescribed by the Federal Trade Commission pursuant to those titles.

(2) INFORMATION AVAILABILITY.—A common carrier that by tariff or contract assigns a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) to a provider of a pay-per-call service shall make readily available on request to Federal and State agencies and other interested persons—

(A) a list of the telephone numbers for each of the pay-per-call services it carries;

(B) a short description of each such service;

(C) a statement of the total cost or the cost per minute and any other fees for each such service;

(D) a statement of the pay-per-call service's name, business address, and business telephone; and

(E) such other information as the Commission considers necessary for the enforcement of this section and other applicable Federal statutes and regulations.

(3) COMPLIANCE PROCEDURES.—A common carrier that by contract or tariff assigns a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) to a provider of pay-per-call services shall terminate, in accordance with procedures specified in such regulations, the offering of a pay-per-call service of a provider if the carrier knows or reasonably should know that such service is not provided in compliance with title II or III of the Telephone Disclosure and Dispute Resolution Act or the regulations prescribed by the Federal Trade Commission pursuant to such titles.

(4) SUBSCRIBER DISCONNECTION PROHIBITED.—A common carrier shall not disconnect or interrupt a subscriber's local exchange telephone service or long distance telephone service because of nonpayment of charges for any pay-per-call service.

(5) BLOCKING AND PRESUBSCRIPTION.—A common carrier that provides local exchange service shall—

(A) offer telephone subscribers (where technically feasible) the option of blocking access from their telephone

number to all, or to certain specific, prefixes or area codes used by pay-per-call services, which option—

(i) shall be offered at no charge (I) to all subscribers for a period of 60 days after the issuance of the regulations under subsection (b), and (II) to any subscriber who subscribes to a new telephone number until 60 days after the time the new telephone number is effective; and

(ii) shall otherwise be offered at a reasonable fee; and

(B) offer telephone subscribers (where the Commission determines it is technically and economically feasible), in combination with the blocking option described under subparagraph (A), the option of presubscribing to or blocking only specific pay-per-call services for a reasonable one-time charge.

The regulations prescribed under subparagraph (A)(i) of this paragraph may permit the costs of such blocking to be recovered by contract or tariff, but such costs may not be recovered from local or long-distance ratepayers. Nothing in this subsection precludes a common carrier from filing its rates and regulations regarding blocking and presubscription in its interstate tariffs.

(6) VERIFICATION OF CHARITABLE STATUS.—A common carrier that assigns by contract or tariff a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) to a provider of pay-per-call services that the carrier knows or reasonably should know is engaged in soliciting charitable contributions shall obtain from such provider proof of the tax exempt status of any person or organization for which contributions are solicited.

(7) BILLING FOR 800 CALLS.—A common carrier shall prohibit by tariff or contract the use of any 800 telephone number, or other telephone number advertised or widely understood to be toll free, in a manner that would result in—

(A) the calling party being assessed, by virtue of completing the call, a charge for the call;

(B) the calling party being connected to a pay-per-call service;

(C) the calling party being charged for information conveyed during the call unless—

(i) the calling party has a written agreement (including an agreement transmitted through electronic medium) that meets the requirements of paragraph (8); or

(ii) the calling party is charged for the information in accordance with paragraph (9);

(D) the calling party being called back collect for the provision of audio information services or simultaneous voice conversation services; or

(E) the calling party being assessed, by virtue of being asked to connect or otherwise transfer to a pay-per-call service, a charge for the call.

(8) SUBSCRIPTION AGREEMENTS FOR BILLING FOR INFORMATION PROVIDED VIA TOLL-FREE CALLS.—

(A) IN GENERAL.—For purposes of paragraph (7)(C)(i), a written subscription does not meet the requirements of this paragraph unless the agreement specifies the material terms and conditions under which the information is offered and includes—

- (i) the rate at which charges are assessed for the information;
- (ii) the information provider's name;
- (iii) the information provider's business address;
- (iv) the information provider's regular business telephone number;
- (v) the information provider's agreement to notify the subscriber at least one billing cycle in advance of all future changes in the rates charged for the information; and
- (vi) the subscriber's choice of payment method, which may be by direct remit, debit, prepaid account, phone bill, or credit or calling card.

(B) BILLING ARRANGEMENTS.—If a subscriber elects, pursuant to subparagraph (A)(vi), to pay by means of a phone bill—

- (i) the agreement shall clearly explain that the subscriber will be assessed for calls made to the information service from the subscriber's phone line;
- (ii) the phone bill shall include, in prominent type, the following disclaimer:

“Common carriers may not disconnect local or long distance telephone service for failure to pay disputed charges for information services.”; and

- (iii) the phone bill shall clearly list the 800 number dialed.

(C) USE OF PINS TO PREVENT UNAUTHORIZED USE.—A written agreement does not meet the requirements of this paragraph unless it—

- (i) includes a unique personal identification number or other subscriber-specific identifier and requires a subscriber to use this number or identifier to obtain access to the information provided and includes instructions on its use; and
- (ii) assures that any charges for services accessed by use of the subscriber's personal identification number or subscriber-specific identifier be assessed to subscriber's source of payment elected pursuant to subparagraph (A)(vi).

(D) EXCEPTIONS.—Notwithstanding paragraph (7)(C), a written agreement that meets the requirements of this paragraph is not required—

- (i) for calls utilizing telecommunications devices for the deaf;
- (ii) for directory services provided by a common carrier or its affiliate or by a local exchange carrier or its affiliate; or

(iii) for any purchase of goods or of services that are not information services.

(E) TERMINATION OF SERVICE.—On receipt by a common carrier of a complaint by any person that an information provider is in violation of the provisions of this section, a carrier shall—

(i) promptly investigate the complaint; and

(ii) if the carrier reasonably determines that the complaint is valid, it may terminate the provision of service to an information provider unless the provider supplies evidence of a written agreement that meets the requirements of this section.

(F) TREATMENT OF REMEDIES.—The remedies provided in this paragraph are in addition to any other remedies that are available under title V of this Act.

(9) CHARGES BY CREDIT, PREPAID, DEBIT, CHARGE, OR CALLING CARD IN ABSENCE OF AGREEMENT.—For purposes of paragraph (7)(C)(ii), a calling party is not charged in accordance with this paragraph unless the calling party is charged by means of a credit, prepaid, debit, charge, or calling card and the information service provider includes in response to each call an introductory disclosure message that—

(A) clearly states that there is a charge for the call;

(B) clearly states the service's total cost per minute and any other fees for the service or for any service to which the caller may be transferred;

(C) explains that the charges must be billed on either a credit, prepaid, debit, charge, or calling card;

(D) asks the caller for the card number;

(E) clearly states that charges for the call begin at the end of the introductory message; and

(F) clearly states that the caller can hang up at or before the end of the introductory message without incurring any charge whatsoever.

(10) BYPASS OF INTRODUCTORY DISCLOSURE MESSAGE.—The requirements of paragraph (9) shall not apply to calls from repeat callers using a bypass mechanism to avoid listening to the introductory message: *Provided*, That information providers shall disable such a bypass mechanism after the institution of any price increase and for a period of time determined to be sufficient by the Federal Trade Commission to give callers adequate and sufficient notice of a price increase.

(11) DEFINITION OF CALLING CARD.—As used in this subsection, the term “calling card” means an identifying number or code unique to the individual, that is issued to the individual by a common carrier and enables the individual to be charged by means of a phone bill for charges incurred independent of where the call originates.

(d) BILLING AND COLLECTION PRACTICES.—The regulations required by this section shall require that any common carrier that by tariff or contract assigns a telephone number with a prefix or area code designated by the Commission in accordance with subsection (b)(5) to a provider of a pay-per-call service and that offers billing and collection services to such provider—

- (1) ensure that a subscriber is not billed—
- (A) for pay-per-call services that such carrier knows or reasonably should know was provided in violation of the regulations issued pursuant to title II of the Telephone Disclosure and Dispute Resolution Act; or
- (B) under such other circumstances as the Commission determines necessary in order to protect subscribers from abusive practices;
- (2) establish a local or a toll-free telephone number to answer questions and provide information on subscribers' rights and obligations with regard to their use of pay-per-call services and to provide to callers the name and mailing address of any provider of pay-per-call services offered by the common carrier;
- (3) within 60 days after the issuance of final regulations pursuant to subsection (b), provide, either directly or through contract with any local exchange carrier that provides billing or collection services to the common carrier, to all of such common carrier's telephone subscribers, to all new subscribers, and to all subscribers requesting service at a new location, a disclosure statement that sets forth all rights and obligations of the subscriber and the carrier with respect to the use and payment for pay-per-call services, including the right of a subscriber not to be billed and the applicable blocking option; and
- (4) in any billing to telephone subscribers that includes charges for any pay-per-call service—
- (A) display any charges for pay-per-call services in a part of the subscriber's bill that is identified as not being related to local and long distance telephone charges;
- (B) for each charge so displayed, specify, at a minimum, the type of service, the amount of the charge, and the date, time, and duration of the call; and
- (C) identify the toll-free number established pursuant to paragraph (2).
- (e) LIABILITY.—

(1) COMMON CARRIERS NOT LIABLE FOR TRANSMISSION OR BILLING.—No common carrier shall be liable for a criminal or civil sanction or penalty solely because the carrier provided transmission or billing and collection for a pay-per-call service unless the carrier knew or reasonably should have known that such service was provided in violation of a provision of, or regulation prescribed pursuant to, title II or III of the Telephone Disclosure and Dispute Resolution Act or any other Federal law. This paragraph shall not prevent the Commission from imposing a sanction or penalty on a common carrier for a violation by that carrier of a regulation prescribed under this section.

(2) CIVIL LIABILITY.—No cause of action may be brought in any court or administrative agency against any common carrier or any of its affiliates on account of any act of the carrier or affiliate to terminate any pay-per-call service in order to comply with the regulations prescribed under this section, title II or III of the Telephone Disclosure and Dispute Resolution Act, or any other Federal law unless the complainant demonstrates that the carrier or affiliate did not act in good faith.

(f) SPECIAL PROVISIONS.—

(1) CONSUMER REFUND REQUIREMENTS.—The regulations required by subsection (d) shall establish procedures, consistent with the provisions of titles II and III of the Telephone Disclosure and Dispute Resolution Act, to ensure that carriers and other parties providing billing and collection services with respect to pay-per-call services provide appropriate refunds to subscribers who have been billed for pay-per-call services pursuant to programs that have been found to have violated this section or such regulations, any provision of, or regulations prescribed pursuant to, title II or III of the Telephone Disclosure and Dispute Resolution Act, or any other Federal law.

(2) RECOVERY OF COSTS.—The regulations prescribed by the Commission under this section shall permit a common carrier to recover its cost of complying with such regulations from providers of pay-per-call services, but shall not permit such costs to be recovered from local or long distance ratepayers.

(3) RECOMMENDATIONS ON DATA PAY-PER-CALL.—The Commission, within one year after the date of enactment of this section, shall submit to the Congress the Commission's recommendations with respect to the extension of regulations under this section to persons that provide, for a per-call charge, data services that are not pay-per-call services.

(g) EFFECT ON OTHER LAW.—

(1) NO PREEMPTION OF ELECTION LAW.—Nothing in this section shall relieve any provider of pay-per-call services, common carrier, local exchange carrier, or any other person from the obligation to comply with Federal, State, and local election statutes and regulations.

(2) CONSUMER PROTECTION LAWS.—Nothing in this section shall relieve any provider of pay-per-call services, common carrier, local exchange carrier, or any other person from the obligation to comply with any Federal, State, or local statute or regulation relating to consumer protection or unfair trade.

(3) GAMBLING LAWS.—Nothing in this section shall preclude any State from enforcing its statutes and regulations with regard to lotteries, wagering, betting, and other gambling activities.

(4) STATE AUTHORITY.—Nothing in this section shall preclude any State from enacting and enforcing additional and complementary oversight and regulatory systems or procedures, or both, so long as such systems and procedures govern intrastate services and do not significantly impede the enforcement of this section or other Federal statutes.

(5) ENFORCEMENT OF EXISTING REGULATIONS.—Nothing in this section shall be construed to prohibit the Commission from enforcing regulations prescribed prior to the date of enactment of this section in fulfilling the requirements of this section to the extent that such regulations are consistent with the provisions of this section.

(h) EFFECT ON DIAL-A-PORN PROHIBITIONS.—Nothing in this section shall affect the provisions of section 223 of this Act.

(i) DEFINITION OF PAY-PER-CALL SERVICES.—For purposes of this section—

(1) The term “pay-per-call services” means any service—
(A) in which any person provides or purports to provide—

(i) audio information or audio entertainment produced or packaged by such person;

(ii) access to simultaneous voice conversation services; or

(iii) any service, including the provision of a product, the charges for which are assessed on the basis of the completion of the call;

(B) for which the caller pays a per-call or per-time-interval charge that is greater than, or in addition to, the charge for transmission of the call; and

(C) which is accessed through use of a 900 telephone number or other prefix or area code designated by the Commission in accordance with subsection (b)(5).

(2) Such term does not include directory services provided by a common carrier or its affiliate or by a local exchange carrier or its affiliate, or any service for which users are assessed charges only after entering into a presubscription or comparable arrangement with the provider of such service.

SEC. 229. [47 U.S.C. 229] COMMUNICATIONS ASSISTANCE FOR LAW ENFORCEMENT ACT COMPLIANCE.

(a) **IN GENERAL.**—The Commission shall prescribe such rules as are necessary to implement the requirements of the Communications Assistance for Law Enforcement Act.

(b) **SYSTEMS SECURITY AND INTEGRITY.**—The rules prescribed pursuant to subsection (a) shall include rules to implement section 105 of the Communications Assistance for Law Enforcement Act that require common carriers—

(1) to establish appropriate policies and procedures for the supervision and control of its officers and employees—

(A) to require appropriate authorization to activate interception of communications or access to call-identifying information; and

(B) to prevent any such interception or access without such authorization;

(2) to maintain secure and accurate records of any interception or access with or without such authorization; and

(3) to submit to the Commission the policies and procedures adopted to comply with the requirements established under paragraphs (1) and (2).

(c) **COMMISSION REVIEW OF COMPLIANCE.**—The Commission shall review the policies and procedures submitted under subsection (b)(3) and shall order a common carrier to modify any such policy or procedure that the Commission determines does not comply with Commission regulations. The Commission shall conduct such investigations as may be necessary to insure compliance by common carriers with the requirements of the regulations prescribed under this section.

(d) **PENALTIES.**—For purposes of this Act, a violation by an officer or employee of any policy or procedure adopted by a common carrier pursuant to subsection (b), or of a rule prescribed by the Commission pursuant to subsection (a), shall be considered to be a

violation by the carrier of a rule prescribed by the Commission pursuant to this Act.

(e) **COST RECOVERY FOR COMMUNICATIONS ASSISTANCE FOR LAW ENFORCEMENT ACT COMPLIANCE.**—

(1) **PETITIONS AUTHORIZED.**—A common carrier may petition the Commission to adjust charges, practices, classifications, and regulations to recover costs expended for making modifications to equipment, facilities, or services pursuant to the requirements of section 103 of the Communications Assistance for Law Enforcement Act.

(2) **COMMISSION AUTHORITY.**—The Commission may grant, with or without modification, a petition under paragraph (1) if the Commission determines that such costs are reasonable and that permitting recovery is consistent with the public interest. The Commission may, consistent with maintaining just and reasonable charges, practices, classifications, and regulations in connection with the provision of interstate or foreign communication by wire or radio by a common carrier, allow carriers to adjust such charges, practices, classifications, and regulations in order to carry out the purposes of this Act.

(3) **JOINT BOARD.**—The Commission shall convene a Federal-State joint board to recommend appropriate changes to part 36 of the Commission's rules with respect to recovery of costs pursuant to charges, practices, classifications, and regulations under the jurisdiction of the Commission.

SEC. 230. [47 U.S.C. 230] PROTECTION FOR PRIVATE BLOCKING AND SCREENING OF OFFENSIVE MATERIAL.

(a) **FINDINGS.**—The Congress finds the following:

(1) The rapidly developing array of Internet and other interactive computer services available to individual Americans represent an extraordinary advance in the availability of educational and informational resources to our citizens.

(2) These services offer users a great degree of control over the information that they receive, as well as the potential for even greater control in the future as technology develops.

(3) The Internet and other interactive computer services offer a forum for a true diversity of political discourse, unique opportunities for cultural development, and myriad avenues for intellectual activity.

(4) The Internet and other interactive computer services have flourished, to the benefit of all Americans, with a minimum of government regulation.

(5) Increasingly Americans are relying on interactive media for a variety of political, educational, cultural, and entertainment services.

(b) **POLICY.**—It is the policy of the United States—

(1) to promote the continued development of the Internet and other interactive computer services and other interactive media;

(2) to preserve the vibrant and competitive free market that presently exists for the Internet and other interactive computer services, unfettered by Federal or State regulation;

(3) to encourage the development of technologies which maximize user control over what information is received by

dividuals, families, and schools who use the Internet and other interactive computer services;

(4) to remove disincentives for the development and utilization of blocking and filtering technologies that empower parents to restrict their children's access to objectionable or inappropriate online material; and

(5) to ensure vigorous enforcement of Federal criminal laws to deter and punish trafficking in obscenity, stalking, and harassment by means of computer.

(c) PROTECTION FOR "GOOD SAMARITAN" BLOCKING AND SCREENING OF OFFENSIVE MATERIAL.—

(1) TREATMENT OF PUBLISHER OR SPEAKER.—No provider or user of an interactive computer service shall be treated as the publisher or speaker of any information provided by another information content provider.

(2) CIVIL LIABILITY.—No provider or user of an interactive computer service shall be held liable on account of—

(A) any action voluntarily taken in good faith to restrict access to or availability of material that the provider or user considers to be obscene, lewd, lascivious, filthy, excessively violent, harassing, or otherwise objectionable, whether or not such material is constitutionally protected; or

(B) any action taken to enable or make available to information content providers or others the technical means to restrict access to material described in paragraph (1)⁸.

(d) OBLIGATIONS OF INTERACTIVE COMPUTER SERVICE.—A provider of interactive computer service shall, at the time of entering an agreement with a customer for the provision of interactive computer service and in a manner deemed appropriate by the provider, notify such customer that parental control protections (such as computer hardware, software, or filtering services) are commercially available that may assist the customer in limiting access to material that is harmful to minors. Such notice shall identify, or provide the customer with access to information identifying, current providers of such protections.

(e) EFFECT ON OTHER LAWS.—

(1) NO EFFECT ON CRIMINAL LAW.—Nothing in this section shall be construed to impair the enforcement of section 223 or 231 of this Act, chapter 71 (relating to obscenity) or 110 (relating to sexual exploitation of children) of title 18, United States Code, or any other Federal criminal statute.

(2) NO EFFECT ON INTELLECTUAL PROPERTY LAW.—Nothing in this section shall be construed to limit or expand any law pertaining to intellectual property.

(3) STATE LAW.—Nothing in this section shall be construed to prevent any State from enforcing any State law that is consistent with this section. No cause of action may be brought and no liability may be imposed under any State or local law that is inconsistent with this section.

(4) NO EFFECT ON COMMUNICATIONS PRIVACY LAW.—Nothing in this section shall be construed to limit the application

⁸ So in law. Probably should be subparagraph (A).

of the Electronic Communications Privacy Act of 1986 or any of the amendments made by such Act, or any similar State law.

(5) NO EFFECT ON SEX TRAFFICKING LAW.—Nothing in this section (other than subsection (c)(2)(A)) shall be construed to impair or limit—

(A) any claim in a civil action brought under section 1595 of title 18, United States Code, if the conduct underlying the claim constitutes a violation of section 1591 of that title;

(B) any charge in a criminal prosecution brought under State law if the conduct underlying the charge would constitute a violation of section 1591 of title 18, United States Code; or

(C) any charge in a criminal prosecution brought under State law if the conduct underlying the charge would constitute a violation of section 2421A of title 18, United States Code, and promotion or facilitation of prostitution is illegal in the jurisdiction where the defendant's promotion or facilitation of prostitution was targeted.

(f) DEFINITIONS.—As used in this section:

(1) INTERNET.—The term “Internet” means the international computer network of both Federal and non-Federal interoperable packet switched data networks.

(2) INTERACTIVE COMPUTER SERVICE.—The term “interactive computer service” means any information service, system, or access software provider that provides or enables computer access by multiple users to a computer server, including specifically a service or system that provides access to the Internet and such systems operated or services offered by libraries or educational institutions.

(3) INFORMATION CONTENT PROVIDER.—The term “information content provider” means any person or entity that is responsible, in whole or in part, for the creation or development of information provided through the Internet or any other interactive computer service.

(4) ACCESS SOFTWARE PROVIDER.—The term “access software provider” means a provider of software (including client or server software), or enabling tools that do any one or more of the following:

(A) filter, screen, allow, or disallow content;

(B) pick, choose, analyze, or digest content; or

(C) transmit, receive, display, forward, cache, search, subset, organize, reorganize, or translate content.

SEC. 231. [47 U.S.C. 231] RESTRICTION OF ACCESS BY MINORS TO MATERIALS COMMERCIALY DISTRIBUTED BY MEANS OF WORLD WIDE WEB THAT ARE HARMFUL TO MINORS.⁹

(a) REQUIREMENT TO RESTRICT ACCESS.—

⁹Section 231 of the Communications Act of 1934 was added by section 1403 of the Child Online Protection Act (P.L. 105–277; Oct. 21, 1998; 112 Stat. 2681–736). Sections 1402 and 1405 of that Act contained the following related provisions:

Continued

SEC. 1402. CONGRESSIONAL FINDINGS.

The Congress finds that—

- (1) while custody, care, and nurture of the child resides first with the parent, the widespread availability of the Internet presents opportunities for minors to access materials through the World Wide Web in a manner that can frustrate parental supervision or control;
- (2) the protection of the physical and psychological well-being of minors by shielding them from materials that are harmful to them is a compelling governmental interest;
- (3) to date, while the industry has developed innovative ways to help parents and educators restrict material that is harmful to minors through parental control protections and self-regulation, such efforts have not provided a national solution to the problem of minors accessing harmful material on the World Wide Web;
- (4) a prohibition on the distribution of material harmful to minors, combined with legitimate defenses, is currently the most effective and least restrictive means by which to satisfy the compelling government interest; and
- (5) notwithstanding the existence of protections that limit the distribution over the World Wide Web of material that is harmful to minors, parents, educators, and industry must continue efforts to find ways to protect children from being exposed to harmful material found on the Internet.

SEC. 1405. STUDY BY COMMISSION ON ONLINE CHILD PROTECTION.

(a) **ESTABLISHMENT.**—There is hereby established a temporary Commission to be known as the Commission on Online Child Protection (in this section referred to as the “Commission”) for the purpose of conducting a study under this section regarding methods to help reduce access by minors to material that is harmful to minors on the Internet.

(b) **MEMBERSHIP.**—The Commission shall be composed of 19 members, as follows:

(1) **INDUSTRY MEMBERS.**—The Commission shall include 16 members who shall consist of representatives of—

- (A) providers of Internet filtering or blocking services or software;
- (B) Internet access services;
- (C) labeling or ratings services;
- (D) Internet portal or search services;
- (E) domain name registration services;
- (F) academic experts; and
- (G) providers that make content available over the Internet.

Of the members of the Commission by reason of this paragraph, an equal number shall be appointed by the Speaker of the House of Representatives and by the Majority Leader of the Senate. Members of the Commission appointed on or before October 31, 1999, shall remain members.

(2) **EX OFFICIO MEMBERS.**—The Commission shall include the following officials:

- (A) The Assistant Secretary (or the Assistant Secretary’s designee).
- (B) The Attorney General (or the Attorney General’s designee).
- (C) The Chairman of the Federal Trade Commission (or the Chairman’s designee).

(3) **PROHIBITION OF PAY.**—Members of the Commission shall not receive any pay by reason of their membership on the Commission.

(c) **FIRST MEETING.**—The Commission shall hold its first meeting not later than March 31, 2000.

(d) **CHAIRPERSON.**—The chairperson of the Commission shall be elected by a vote of a majority of the members, which shall take place not later than 30 days after the first meeting of the Commission.

(e) **STUDY.**—

(1) **IN GENERAL.**—The Commission shall conduct a study to identify technological or other methods that—

- (A) will help reduce access by minors to material that is harmful to minors on the Internet; and
- (B) may meet the requirements for use as affirmative defenses for purposes of section 231(c) of the Communications Act of 1934 (as added by this title).

Any methods so identified shall be used as the basis for making legislative recommendations to the Congress under subsection (d)(3).

(2) **SPECIFIC METHODS.**—In carrying out the study, the Commission shall identify and analyze various technological tools and methods for protecting minors from material that is harmful to minors, which shall include (without limitation)—

- (A) a common resource for parents to use to help protect minors (such as a “one-click-away” resource);
- (B) filtering or blocking software or services;
- (C) labeling or rating systems;
- (D) age verification systems;
- (E) the establishment of a domain name for posting of any material that is harmful to minors; and
- (F) any other existing or proposed technologies or methods for reducing access by minors to such material.

(3) **ANALYSIS.**—In analyzing technologies and other methods identified pursuant to paragraph (2), the Commission shall examine—

(1) PROHIBITED CONDUCT.—Whoever knowingly and with knowledge of the character of the material, in interstate or foreign commerce by means of the World Wide Web, makes any communication for commercial purposes that is available to any minor and that includes any material that is harmful to minors shall be fined not more than \$50,000, imprisoned not more than 6 months, or both.

(2) INTENTIONAL VIOLATIONS.—In addition to the penalties under paragraph (1), whoever intentionally violates such paragraph shall be subject to a fine of not more than \$50,000 for each violation. For purposes of this paragraph, each day of violation shall constitute a separate violation.

(3) CIVIL PENALTY.—In addition to the penalties under paragraphs (1) and (2), whoever violates paragraph (1) shall be subject to a civil penalty of not more than \$50,000 for each violation. For purposes of this paragraph, each day of violation shall constitute a separate violation.

(b) INAPPLICABILITY OF CARRIERS AND OTHER SERVICE PROVIDERS.—For purposes of subsection (a), a person shall not be considered to make any communication for commercial purposes to the extent that such person is—

(1) a telecommunications carrier engaged in the provision of a telecommunications service;

- (A) the cost of such technologies and methods;
- (B) the effects of such technologies and methods on law enforcement entities;
- (C) the effects of such technologies and methods on privacy;
- (D) the extent to which material that is harmful to minors is globally distributed and the effect of such technologies and methods on such distribution;
- (E) the accessibility of such technologies and methods to parents; and
- (F) such other factors and issues as the Commission considers relevant and appropriate.

(f) REPORT.—Not later than 2 years after the enactment of this Act, the Commission shall submit a report to the Congress containing the results of the study under this section, which shall include—

- (1) a description of the technologies and methods identified by the study and the results of the analysis of each such technology and method;
- (2) the conclusions and recommendations of the Commission regarding each such technology or method;
- (3) recommendations for legislative or administrative actions to implement the conclusions of the committee; and
- (4) a description of the technologies or methods identified by the study that may meet the requirements for use as affirmative defenses for purposes of section 231(c) of the Communications Act of 1934 (as added by this title).

(g) RULES OF THE COMMISSION.—

(1) QUORUM.—Nine members of the Commission shall constitute a quorum for conducting the business of the Commission.

(2) MEETINGS.—Any meetings held by the Commission shall be duly noticed at least 14 days in advance and shall be open to the public.

(3) OPPORTUNITIES TO TESTIFY.—The Commission shall provide opportunities for representatives of the general public to testify.

(4) ADDITIONAL RULES.—The Commission may adopt other rules as necessary to carry out this section.”.

(h) GIFTS, BEQUESTS, AND DEVISES.—The Commission may accept, use, and dispose of gifts, bequests, or devises of services or property, both real (including the use of office space) and personal, for the purpose of aiding or facilitating the work of the Commission. Gifts or grants not used at the termination of the Commission shall be returned to the donor or grantee.

(1)* TERMINATION.—The Commission shall terminate 30 days after the submission of the report under subsection (d) or November 30, 2000, whichever occurs earlier.

(m)* INAPPLICABILITY OF FEDERAL ADVISORY COMMITTEE ACT.—The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the Commission.

*[So in law as amended by section 401 of the Electronic Signatures in Global and National Commerce Act (P.L. 106–229; 114 Stat 476) and section 5001 of the Intellectual Property and Communications Omnibus Reform Act of 1999 (P.L. 106–113, Appendix I; 113 Stat. 1501A–521). Should have been redesignated as subsections (i) and (j).]

(2) a person engaged in the business of providing an Internet access service;

(3) a person engaged in the business of providing an Internet information location tool; or

(4) similarly engaged in the transmission, storage, retrieval, hosting, formatting, or translation (or any combination thereof) of a communication made by another person, without selection or alteration of the content of the communication, except that such person's deletion of a particular communication or material made by another person in a manner consistent with subsection (c) or section 230 shall not constitute such selection or alteration of the content of the communication.

(c) AFFIRMATIVE DEFENSE.—

(1) DEFENSE.—It is an affirmative defense to prosecution under this section that the defendant, in good faith, has restricted access by minors to material that is harmful to minors—

(A) by requiring use of a credit card, debit account, adult access code, or adult personal identification number;

(B) by accepting a digital certificate that verifies age;

or

(C) by any other reasonable measures that are feasible under available technology.

(2) PROTECTION FOR USE OF DEFENSES.—No cause of action may be brought in any court or administrative agency against any person on account of any activity that is not in violation of any law punishable by criminal or civil penalty, and that the person has taken in good faith to implement a defense authorized under this subsection or otherwise to restrict or prevent the transmission of, or access to, a communication specified in this section.

(d) PRIVACY PROTECTION REQUIREMENTS.—

(1) DISCLOSURE OF INFORMATION LIMITED.—A person making a communication described in subsection (a)—

(A) shall not disclose any information collected for the purposes of restricting access to such communications to individuals 17 years of age or older without the prior written or electronic consent of—

(i) the individual concerned, if the individual is an adult; or

(ii) the individual's parent or guardian, if the individual is under 17 years of age; and

(B) shall take such actions as are necessary to prevent unauthorized access to such information by a person other than the person making such communication and the recipient of such communication.

(2) EXCEPTIONS.—A person making a communication described in subsection (a) may disclose such information if the disclosure is—

(A) necessary to make the communication or conduct a legitimate business activity related to making the communication; or

(B) made pursuant to a court order authorizing such disclosure.

(e) DEFINITIONS.—For purposes of this subsection¹⁰, the following definitions shall apply:

(1) BY MEANS OF THE WORLD WIDE WEB.—The term “by means of the World Wide Web” means by placement of material in a computer server-based file archive so that it is publicly accessible, over the Internet, using hypertext transfer protocol or any successor protocol.

(2) COMMERCIAL PURPOSES; ENGAGED IN THE BUSINESS.—

(A) COMMERCIAL PURPOSES.—A person shall be considered to make a communication for commercial purposes only if such person is engaged in the business of making such communications.

(B) ENGAGED IN THE BUSINESS.—The term “engaged in the business” means that the person who makes a communication, or offers to make a communication, by means of the World Wide Web, that includes any material that is harmful to minors, devotes time, attention, or labor to such activities, as a regular course of such person’s trade or business, with the objective of earning a profit as a result of such activities (although it is not necessary that the person make a profit or that the making or offering to make such communications be the person’s sole or principal business or source of income). A person may be considered to be engaged in the business of making, by means of the World Wide Web, communications for commercial purposes that include material that is harmful to minors, only if the person knowingly causes the material that is harmful to minors to be posted on the World Wide Web or knowingly solicits such material to be posted on the World Wide Web.

(3) INTERNET.—The term “Internet” means the combination of computer facilities and electromagnetic transmission media, and related equipment and software, comprising the interconnected worldwide network of computer networks that employ the Transmission Control Protocol/Internet Protocol or any successor protocol to transmit information.

(4) INTERNET ACCESS SERVICE.—The term “Internet access service” means a service that enables users to access content, information, electronic mail, or other services offered over the Internet, and may also include access to proprietary content, information, and other services as part of a package of services offered to consumers. Such term does not include telecommunications services.

(5) INTERNET INFORMATION LOCATION TOOL.—The term “Internet information location tool” means a service that refers or links users to an online location on the World Wide Web. Such term includes directories, indices, references, pointers, and hypertext links.

(6) MATERIAL THAT IS HARMFUL TO MINORS.—The term “material that is harmful to minors” means any communication, picture, image, graphic image file, article, recording, writing, or other matter of any kind that is obscene or that—

¹⁰So in law. Should probably be “section”.

(A) the average person, applying contemporary community standards, would find, taking the material as a whole and with respect to minors, is designed to appeal to, or is designed to pander to, the prurient interest;

(B) depicts, describes, or represents, in a manner patently offensive with respect to minors, an actual or simulated sexual act or sexual contact, an actual or simulated normal or perverted sexual act, or a lewd exhibition of the genitals or post-pubescent female breast; and

(C) taken as a whole, lacks serious literary, artistic, political, or scientific value for minors.

(7) MINOR.—The term “minor” means any person under 17 years of age.

PART II—DEVELOPMENT OF COMPETITIVE MARKETS

SEC. 251. [47 U.S.C. 251] INTERCONNECTION.

(a) GENERAL DUTY OF TELECOMMUNICATIONS CARRIERS.—Each telecommunications carrier has the duty—

(1) to interconnect directly or indirectly with the facilities and equipment of other telecommunications carriers; and

(2) not to install network features, functions, or capabilities that do not comply with the guidelines and standards established pursuant to section 255 or 256.

(b) OBLIGATIONS OF ALL LOCAL EXCHANGE CARRIERS.—Each local exchange carrier has the following duties:

(1) RESALE.—The duty not to prohibit, and not to impose unreasonable or discriminatory conditions or limitations on, the resale of its telecommunications services.

(2) NUMBER PORTABILITY.—The duty to provide, to the extent technically feasible, number portability in accordance with requirements prescribed by the Commission.

(3) DIALING PARITY.—The duty to provide dialing parity to competing providers of telephone exchange service and telephone toll service, and the duty to permit all such providers to have nondiscriminatory access to telephone numbers, operator services, directory assistance, and directory listing, with no unreasonable dialing delays.

(4) ACCESS TO RIGHTS-OF-WAY.—The duty to afford access to the poles, ducts, conduits, and rights-of-way of such carrier to competing providers of telecommunications services on rates, terms, and conditions that are consistent with section 224.

(5) RECIPROCAL COMPENSATION.—The duty to establish reciprocal compensation arrangements for the transport and termination of telecommunications.

(c) ADDITIONAL OBLIGATIONS OF INCUMBENT LOCAL EXCHANGE CARRIERS.—In addition to the duties contained in subsection (b), each incumbent local exchange carrier has the following duties:

(1) DUTY TO NEGOTIATE.—The duty to negotiate in good faith in accordance with section 252 the particular terms and conditions of agreements to fulfill the duties described in paragraphs (1) through (5) of subsection (b) and this subsection.

The requesting telecommunications carrier also has the duty to negotiate in good faith the terms and conditions of such agreements.

(2) INTERCONNECTION.—The duty to provide, for the facilities and equipment of any requesting telecommunications carrier, interconnection with the local exchange carrier's network—

(A) for the transmission and routing of telephone exchange service and exchange access;

(B) at any technically feasible point within the carrier's network;

(C) that is at least equal in quality to that provided by the local exchange carrier to itself or to any subsidiary, affiliate, or any other party to which the carrier provides interconnection; and

(D) on rates, terms, and conditions that are just, reasonable, and nondiscriminatory, in accordance with the terms and conditions of the agreement and the requirements of this section and section 252.

(3) UNBUNDLED ACCESS.—The duty to provide, to any requesting telecommunications carrier for the provision of a telecommunications service, nondiscriminatory access to network elements on an unbundled basis at any technically feasible point on rates, terms, and conditions that are just, reasonable, and nondiscriminatory in accordance with the terms and conditions of the agreement and the requirements of this section and section 252. An incumbent local exchange carrier shall provide such unbundled network elements in a manner that allows requesting carriers to combine such elements in order to provide such telecommunications service.

(4) RESALE.—The duty—

(A) to offer for resale at wholesale rates any telecommunications service that the carrier provides at retail to subscribers who are not telecommunications carriers; and

(B) not to prohibit, and not to impose unreasonable or discriminatory conditions or limitations on, the resale of such telecommunications service, except that a State commission may, consistent with regulations prescribed by the Commission under this section, prohibit a reseller that obtains at wholesale rates a telecommunications service that is available at retail only to a category of subscribers from offering such service to a different category of subscribers.

(5) NOTICE OF CHANGES.—The duty to provide reasonable public notice of changes in the information necessary for the transmission and routing of services using that local exchange carrier's facilities or networks, as well as of any other changes that would affect the interoperability of those facilities and networks.

(6) COLLOCATION.—The duty to provide, on rates, terms, and conditions that are just, reasonable, and nondiscriminatory, for physical collocation of equipment necessary for interconnection or access to unbundled network elements at the premises of the local exchange carrier, except that the car-

rier may provide for virtual collocation if the local exchange carrier demonstrates to the State commission that physical collocation is not practical for technical reasons or because of space limitations.

(d) IMPLEMENTATION.—

(1) IN GENERAL.—Within 6 months after the date of enactment of the Telecommunications Act of 1996, the Commission shall complete all actions necessary to establish regulations to implement the requirements of this section.

(2) ACCESS STANDARDS.—In determining what network elements should be made available for purposes of subsection (c)(3), the Commission shall consider, at a minimum, whether—

(A) access to such network elements as are proprietary in nature is necessary; and

(B) the failure to provide access to such network elements would impair the ability of the telecommunications carrier seeking access to provide the services that it seeks to offer.

(3) PRESERVATION OF STATE ACCESS REGULATIONS.—In prescribing and enforcing regulations to implement the requirements of this section, the Commission shall not preclude the enforcement of any regulation, order, or policy of a State commission that—

(A) establishes access and interconnection obligations of local exchange carriers;

(B) is consistent with the requirements of this section; and

(C) does not substantially prevent implementation of the requirements of this section and the purposes of this part.

(e) NUMBERING ADMINISTRATION.—

(1) COMMISSION AUTHORITY AND JURISDICTION.—The Commission shall create or designate one or more impartial entities to administer telecommunications numbering and to make such numbers available on an equitable basis. The Commission shall have exclusive jurisdiction over those portions of the North American Numbering Plan that pertain to the United States. Nothing in this paragraph shall preclude the Commission from delegating to State commissions or other entities all or any portion of such jurisdiction.

(2) COSTS.—The cost of establishing telecommunications numbering administration arrangements and number portability shall be borne by all telecommunications carriers on a competitively neutral basis as determined by the Commission.

(3)¹¹ UNIVERSAL EMERGENCY TELEPHONE NUMBER.—The Commission and any agency or entity to which the Commission

¹¹ Paragraph (3) of section 251(e) was added by section 3(a) of the Wireless Communications and Public Safety Act of 1999 (P.L. 106–81; 113 Stat. 3). Subsection (b) of such section provides as follows:

(b) [47 U.S.C. 615] SUPPORT.—The Federal Communications Commission shall encourage and support efforts by States to deploy comprehensive end-to-end emergency communications infrastructure and programs, based on coordinated statewide plans, including seamless, ubiquitous, reliable wireless telecommunications networks and enhanced wireless 9–1–1 service. In encouraging and supporting that deployment, the Commission shall consult and cooperate with State

has delegated authority under this subsection shall designate 9-1-1 as the universal emergency telephone number within the United States for reporting an emergency to appropriate authorities and requesting assistance. The designation shall apply to both wireline and wireless telephone service. In making the designation, the Commission (and any such agency or entity) shall provide appropriate transition periods for areas in which 9-1-1 is not in use as an emergency telephone number on the date of enactment of the Wireless Communications and Public Safety Act of 1999.

(4) UNIVERSAL TELEPHONE NUMBER FOR NATIONAL SUICIDE PREVENTION AND MENTAL HEALTH CRISIS HOTLINE SYSTEM.—9-8-8 is designated as the universal telephone number within the United States for the purpose of the national suicide prevention and mental health crisis hotline system operating through the National Suicide Prevention Lifeline maintained by the Assistant Secretary for Mental Health and Substance Use under section 520E-3 of the Public Health Service Act (42 U.S.C. 290bb-36c) and through the Veterans Crisis Line maintained by the Secretary of Veterans Affairs under section 1720F(h) of title 38, United States Code.

(f) EXEMPTIONS, SUSPENSIONS, AND MODIFICATIONS.—

(1) EXEMPTION FOR CERTAIN RURAL TELEPHONE COMPANIES.—

(A) EXEMPTION.—Subsection (c) of this section shall not apply to a rural telephone company until (i) such company has received a bona fide request for interconnection, services, or network elements, and (ii) the State commission determines (under subparagraph (B)) that such request is not unduly economically burdensome, is technically feasible, and is consistent with section 254 (other than subsections (b)(7) and (c)(1)(D) thereof).

(B) STATE TERMINATION OF EXEMPTION AND IMPLEMENTATION SCHEDULE.—The party making a bona fide request of a rural telephone company for interconnection, services, or network elements shall submit a notice of its request to the State commission. The State commission shall conduct an inquiry for the purpose of determining whether to terminate the exemption under subparagraph (A). Within 120 days after the State commission receives notice of the request, the State commission shall terminate the exemption if the request is not unduly economically burdensome, is technically feasible, and is consistent with section 254 (other than subsections (b)(7) and (c)(1)(D) thereof). Upon termination of the exemption, a State commission shall es-

and local officials responsible for emergency services and public safety, the telecommunications industry (specifically including the cellular and other wireless telecommunications service providers), the motor vehicle manufacturing industry, emergency medical service providers and emergency dispatch providers, transportation officials, special 9-1-1 districts, public safety, fire service and law enforcement officials, consumer groups, and hospital emergency and trauma care personnel (including emergency physicians, trauma surgeons, and nurses). The Commission shall encourage each State to develop and implement coordinated statewide deployment plans, through an entity designated by the governor, and to include representatives of the foregoing organizations and entities in development and implementation of such plans. Nothing in this subsection shall be construed to authorize or require the Commission to impose obligations or costs on any person.

establish an implementation schedule for compliance with the request that is consistent in time and manner with Commission regulations.

(C) LIMITATION ON EXEMPTION.—The exemption provided by this paragraph shall not apply with respect to a request under subsection (c) from a cable operator providing video programming, and seeking to provide any telecommunications service, in the area in which the rural telephone company provides video programming. The limitation contained in this subparagraph shall not apply to a rural telephone company that is providing video programming on the date of enactment of the Telecommunications Act of 1996.

(2) SUSPENSIONS AND MODIFICATIONS FOR RURAL CARRIERS.—A local exchange carrier with fewer than 2 percent of the Nation's subscriber lines installed in the aggregate nationwide may petition a State commission for a suspension or modification of the application of a requirement or requirements of subsection (b) or (c) to telephone exchange service facilities specified in such petition. The State commission shall grant such petition to the extent that, and for such duration as, the State commission determines that such suspension or modification—

(A) is necessary—

(i) to avoid a significant adverse economic impact on users of telecommunications services generally;

(ii) to avoid imposing a requirement that is unduly economically burdensome; or

(iii) to avoid imposing a requirement that is technically infeasible; and

(B) is consistent with the public interest, convenience, and necessity.

The State commission shall act upon any petition filed under this paragraph within 180 days after receiving such petition. Pending such action, the State commission may suspend enforcement of the requirement or requirements to which the petition applies with respect to the petitioning carrier or carriers.

(g) CONTINUED ENFORCEMENT OF EXCHANGE ACCESS AND INTERCONNECTION REQUIREMENTS.—On and after the date of enactment of the Telecommunications Act of 1996, each local exchange carrier, to the extent that it provides wireline services, shall provide exchange access, information access, and exchange services for such access to interexchange carriers and information service providers in accordance with the same equal access and nondiscriminatory interconnection restrictions and obligations (including receipt of compensation) that apply to such carrier on the date immediately preceding the date of enactment of the Telecommunications Act of 1996 under any court order, consent decree, or regulation, order, or policy of the Commission, until such restrictions and obligations are explicitly superseded by regulations prescribed by the Commission after such date of enactment. During the period beginning on such date of enactment and until such restrictions and obligations are so superseded, such restrictions and obligations shall

be enforceable in the same manner as regulations of the Commission.

(h) DEFINITION OF INCUMBENT LOCAL EXCHANGE CARRIER.—

(1) DEFINITION.—For purposes of this section, the term “incumbent local exchange carrier” means, with respect to an area, the local exchange carrier that—

(A) on the date of enactment of the Telecommunications Act of 1996, provided telephone exchange service in such area; and

(B)(i) on such date of enactment, was deemed to be a member of the exchange carrier association pursuant to section 69.601(b) of the Commission’s regulations (47 C.F.R. 69.601(b)); or

(ii) is a person or entity that, on or after such date of enactment, became a successor or assign of a member described in clause (i).

(2) TREATMENT OF COMPARABLE CARRIERS AS INCUMBENTS.—The Commission may, by rule, provide for the treatment of a local exchange carrier (or class or category thereof) as an incumbent local exchange carrier for purposes of this section if—

(A) such carrier occupies a position in the market for telephone exchange service within an area that is comparable to the position occupied by a carrier described in paragraph (1);

(B) such carrier has substantially replaced an incumbent local exchange carrier described in paragraph (1); and

(C) such treatment is consistent with the public interest, convenience, and necessity and the purposes of this section.

(i) SAVINGS PROVISION.—Nothing in this section shall be construed to limit or otherwise affect the Commission’s authority under section 201.

SEC. 252. [47 U.S.C. 252] PROCEDURES FOR NEGOTIATION, ARBITRATION, AND APPROVAL OF AGREEMENTS.

(a) AGREEMENTS ARRIVED AT THROUGH NEGOTIATION.—

(1) VOLUNTARY NEGOTIATIONS.—Upon receiving a request for interconnection, services, or network elements pursuant to section 251, an incumbent local exchange carrier may negotiate and enter into a binding agreement with the requesting telecommunications carrier or carriers without regard to the standards set forth in subsections (b) and (c) of section 251. The agreement shall include a detailed schedule of itemized charges for interconnection and each service or network element included in the agreement. The agreement, including any interconnection agreement negotiated before the date of enactment of the Telecommunications Act of 1996, shall be submitted to the State commission under subsection (e) of this section.

(2) MEDIATION.—Any party negotiating an agreement under this section may, at any point in the negotiation, ask a State commission to participate in the negotiation and to mediate any differences arising in the course of the negotiation.

(b) AGREEMENTS ARRIVED AT THROUGH COMPULSORY ARBITRATION.—

(1) ARBITRATION.—During the period from the 135th to the 160th day (inclusive) after the date on which an incumbent local exchange carrier receives a request for negotiation under this section, the carrier or any other party to the negotiation may petition a State commission to arbitrate any open issues.

(2) DUTY OF PETITIONER.—

(A) A party that petitions a State commission under paragraph (1) shall, at the same time as it submits the petition, provide the State commission all relevant documentation concerning—

- (i) the unresolved issues;
- (ii) the position of each of the parties with respect to those issues; and
- (iii) any other issue discussed and resolved by the parties.

(B) A party petitioning a State commission under paragraph (1) shall provide a copy of the petition and any documentation to the other party or parties not later than the day on which the State commission receives the petition.

(3) OPPORTUNITY TO RESPOND.—A non-petitioning party to a negotiation under this section may respond to the other party's petition and provide such additional information as it wishes within 25 days after the State commission receives the petition.

(4) ACTION BY STATE COMMISSION.—

(A) The State commission shall limit its consideration of any petition under paragraph (1) (and any response thereto) to the issues set forth in the petition and in the response, if any, filed under paragraph (3).

(B) The State commission may require the petitioning party and the responding party to provide such information as may be necessary for the State commission to reach a decision on the unresolved issues. If any party refuses or fails unreasonably to respond on a timely basis to any reasonable request from the State commission, then the State commission may proceed on the basis of the best information available to it from whatever source derived.

(C) The State commission shall resolve each issue set forth in the petition and the response, if any, by imposing appropriate conditions as required to implement subsection (c) upon the parties to the agreement, and shall conclude the resolution of any unresolved issues not later than 9 months after the date on which the local exchange carrier received the request under this section.

(5) REFUSAL TO NEGOTIATE.—The refusal of any other party to the negotiation to participate further in the negotiations, to cooperate with the State commission in carrying out its function as an arbitrator, or to continue to negotiate in good faith in the presence, or with the assistance, of the State commission shall be considered a failure to negotiate in good faith.

(c) STANDARDS FOR ARBITRATION.—In resolving by arbitration under subsection (b) any open issues and imposing conditions upon the parties to the agreement, a State commission shall—

(1) ensure that such resolution and conditions meet the requirements of section 251, including the regulations prescribed by the Commission pursuant to section 251;

(2) establish any rates for interconnection, services, or network elements according to subsection (d); and

(3) provide a schedule for implementation of the terms and conditions by the parties to the agreement.

(d) PRICING STANDARDS.—

(1) INTERCONNECTION AND NETWORK ELEMENT CHARGES.—Determinations by a State commission of the just and reasonable rate for the interconnection of facilities and equipment for purposes of subsection (c)(2) of section 251, and the just and reasonable rate for network elements for purposes of subsection (c)(3) of such section—

(A) shall be—

(i) based on the cost (determined without reference to a rate-of-return or other rate-based proceeding) of providing the interconnection or network element (whichever is applicable), and

(ii) nondiscriminatory, and

(B) may include a reasonable profit.

(2) CHARGES FOR TRANSPORT AND TERMINATION OF TRAFFIC.—

(A) IN GENERAL.—For the purposes of compliance by an incumbent local exchange carrier with section 251(b)(5), a State commission shall not consider the terms and conditions for reciprocal compensation to be just and reasonable unless—

(i) such terms and conditions provide for the mutual and reciprocal recovery by each carrier of costs associated with the transport and termination on each carrier's network facilities of calls that originate on the network facilities of the other carrier; and

(ii) such terms and conditions determine such costs on the basis of a reasonable approximation of the additional costs of terminating such calls.

(B) RULES OF CONSTRUCTION.—This paragraph shall not be construed—

(i) to preclude arrangements that afford the mutual recovery of costs through the offsetting of reciprocal obligations, including arrangements that waive mutual recovery (such as bill-and-keep arrangements); or

(ii) to authorize the Commission or any State commission to engage in any rate regulation proceeding to establish with particularity the additional costs of transporting or terminating calls, or to require carriers to maintain records with respect to the additional costs of such calls.

(3) WHOLESALE PRICES FOR TELECOMMUNICATIONS SERVICES.—For the purposes of section 251(c)(4), a State commis-

sion shall determine wholesale rates on the basis of retail rates charged to subscribers for the telecommunications service requested, excluding the portion thereof attributable to any marketing, billing, collection, and other costs that will be avoided by the local exchange carrier.

(e) APPROVAL BY STATE COMMISSION.—

(1) APPROVAL REQUIRED.—Any interconnection agreement adopted by negotiation or arbitration shall be submitted for approval to the State commission. A State commission to which an agreement is submitted shall approve or reject the agreement, with written findings as to any deficiencies.

(2) GROUNDS FOR REJECTION.—The State commission may only reject—

(A) an agreement (or any portion thereof) adopted by negotiation under subsection (a) if it finds that—

(i) the agreement (or portion thereof) discriminates against a telecommunications carrier not a party to the agreement; or

(ii) the implementation of such agreement or portion is not consistent with the public interest, convenience, and necessity; or

(B) an agreement (or any portion thereof) adopted by arbitration under subsection (b) if it finds that the agreement does not meet the requirements of section 251, including the regulations prescribed by the Commission pursuant to section 251, or the standards set forth in subsection (d) of this section.

(3) PRESERVATION OF AUTHORITY.—Notwithstanding paragraph (2), but subject to section 253, nothing in this section shall prohibit a State commission from establishing or enforcing other requirements of State law in its review of an agreement, including requiring compliance with intrastate telecommunications service quality standards or requirements.

(4) SCHEDULE FOR DECISION.—If the State commission does not act to approve or reject the agreement within 90 days after submission by the parties of an agreement adopted by negotiation under subsection (a), or within 30 days after submission by the parties of an agreement adopted by arbitration under subsection (b), the agreement shall be deemed approved. No State court shall have jurisdiction to review the action of a State commission in approving or rejecting an agreement under this section.

(5) COMMISSION TO ACT IF STATE WILL NOT ACT.—If a State commission fails to act to carry out its responsibility under this section in any proceeding or other matter under this section, then the Commission shall issue an order preempting the State commission's jurisdiction of that proceeding or matter within 90 days after being notified (or taking notice) of such failure, and shall assume the responsibility of the State commission under this section with respect to the proceeding or matter and act for the State commission.

(6) REVIEW OF STATE COMMISSION ACTIONS.—In a case in which a State fails to act as described in paragraph (5), the proceeding by the Commission under such paragraph and any

judicial review of the Commission's actions shall be the exclusive remedies for a State commission's failure to act. In any case in which a State commission makes a determination under this section, any party aggrieved by such determination may bring an action in an appropriate Federal district court to determine whether the agreement or statement meets the requirements of section 251 and this section.

(f) STATEMENTS OF GENERALLY AVAILABLE TERMS.—

(1) IN GENERAL.—A Bell operating company may prepare and file with a State commission a statement of the terms and conditions that such company generally offers within that State to comply with the requirements of section 251 and the regulations thereunder and the standards applicable under this section.

(2) STATE COMMISSION REVIEW.—A State commission may not approve such statement unless such statement complies with subsection (d) of this section and section 251 and the regulations thereunder. Except as provided in section 253, nothing in this section shall prohibit a State commission from establishing or enforcing other requirements of State law in its review of such statement, including requiring compliance with intrastate telecommunications service quality standards or requirements.

(3) SCHEDULE FOR REVIEW.—The State commission to which a statement is submitted shall, not later than 60 days after the date of such submission—

(A) complete the review of such statement under paragraph (2) (including any reconsideration thereof), unless the submitting carrier agrees to an extension of the period for such review; or

(B) permit such statement to take effect.

(4) AUTHORITY TO CONTINUE REVIEW.—Paragraph (3) shall not preclude the State commission from continuing to review a statement that has been permitted to take effect under subparagraph (B) of such paragraph or from approving or disapproving such statement under paragraph (2).

(5) DUTY TO NEGOTIATE NOT AFFECTED.—The submission or approval of a statement under this subsection shall not relieve a Bell operating company of its duty to negotiate the terms and conditions of an agreement under section 251.

(g) CONSOLIDATION OF STATE PROCEEDINGS.—Where not inconsistent with the requirements of this Act, a State commission may, to the extent practical, consolidate proceedings under sections 214(e), 251(f), 253, and this section in order to reduce administrative burdens on telecommunications carriers, other parties to the proceedings, and the State commission in carrying out its responsibilities under this Act.

(h) FILING REQUIRED.—A State commission shall make a copy of each agreement approved under subsection (e) and each statement approved under subsection (f) available for public inspection and copying within 10 days after the agreement or statement is approved. The State commission may charge a reasonable and non-discriminatory fee to the parties to the agreement or to the party

filing the statement to cover the costs of approving and filing such agreement or statement.

(i) **AVAILABILITY TO OTHER TELECOMMUNICATIONS CARRIERS.**—A local exchange carrier shall make available any interconnection, service, or network element provided under an agreement approved under this section to which it is a party to any other requesting telecommunications carrier upon the same terms and conditions as those provided in the agreement.

(j) **DEFINITION OF INCUMBENT LOCAL EXCHANGE CARRIER.**—For purposes of this section, the term “incumbent local exchange carrier” has the meaning provided in section 251(h).

SEC. 253. [47 U.S.C. 253] REMOVAL OF BARRIERS TO ENTRY.

(a) **IN GENERAL.**—No State or local statute or regulation, or other State or local legal requirement, may prohibit or have the effect of prohibiting the ability of any entity to provide any interstate or intrastate telecommunications service.

(b) **STATE REGULATORY AUTHORITY.**—Nothing in this section shall affect the ability of a State to impose, on a competitively neutral basis and consistent with section 254, requirements necessary to preserve and advance universal service, protect the public safety and welfare, ensure the continued quality of telecommunications services, and safeguard the rights of consumers.

(c) **STATE AND LOCAL GOVERNMENT AUTHORITY.**—Nothing in this section affects the authority of a State or local government to manage the public rights-of-way or to require fair and reasonable compensation from telecommunications providers, on a competitively neutral and nondiscriminatory basis, for use of public rights-of-way on a nondiscriminatory basis, if the compensation required is publicly disclosed by such government.

(d) **PREEMPTION.**—If, after notice and an opportunity for public comment, the Commission determines that a State or local government has permitted or imposed any statute, regulation, or legal requirement that violates subsection (a) or (b), the Commission shall preempt the enforcement of such statute, regulation, or legal requirement to the extent necessary to correct such violation or inconsistency.

(e) **COMMERCIAL MOBILE SERVICE PROVIDERS.**—Nothing in this section shall affect the application of section 332(c)(3) to commercial mobile service providers.

(f) **RURAL MARKETS.**—It shall not be a violation of this section for a State to require a telecommunications carrier that seeks to provide telephone exchange service or exchange access in a service area served by a rural telephone company to meet the requirements in section 214(e)(1) for designation as an eligible telecommunications carrier for that area before being permitted to provide such service. This subsection shall not apply—

(1) to a service area served by a rural telephone company that has obtained an exemption, suspension, or modification of section 251(c)(4) that effectively prevents a competitor from meeting the requirements of section 214(e)(1); and

(2) to a provider of commercial mobile services.

SEC. 254. [47 U.S.C. 254] UNIVERSAL SERVICE.¹²**(a) PROCEDURES TO REVIEW UNIVERSAL SERVICE REQUIREMENTS.—**

(1) FEDERAL-STATE JOINT BOARD ON UNIVERSAL SERVICE.— Within one month after the date of enactment of the Telecommunications Act of 1996, the Commission shall institute and refer to a Federal-State Joint Board under section 410(c) a proceeding to recommend changes to any of its regulations in order to implement sections 214(e) and this section, including the definition of the services that are supported by Federal universal service support mechanisms and a specific timetable for completion of such recommendations. In addition to the members of the Joint Board required under section 410(c), one member of such Joint Board shall be a State-appointed utility consumer advocate nominated by a national organization of State utility consumer advocates. The Joint Board shall, after notice and opportunity for public comment, make its recommendations to the Commission 9 months after the date of enactment of the Telecommunications Act of 1996.

(2) COMMISSION ACTION.—The Commission shall initiate a single proceeding to implement the recommendations from the Joint Board required by paragraph (1) and shall complete such proceeding within 15 months after the date of enactment of the Telecommunications Act of 1996. The rules established by such proceeding shall include a definition of the services that are supported by Federal universal service support mechanisms and a specific timetable for implementation. Thereafter, the Commission shall complete any proceeding to implement subsequent recommendations from any Joint Board on universal service within one year after receiving such recommendations.

¹² Section 623 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1998 (P.L. 105–119; Nov. 26, 1997; 111 Stat. 2521) contained the following reporting requirements with respect to universal service:

SEC. 623. REPORT ON UNIVERSAL SERVICE UNDER THE TELECOMMUNICATIONS ACT OF 1996.—
(a) The Federal Communications Commission shall undertake a review of the implementation by the Commission of the provisions of the Telecommunications Act of 1996 (Public Law 104–104) relating to universal service. Such review shall be completed and submitted to the Congress no later than April 10, 1998.

(b) The report required under subsection (a) shall provide a detailed description of the extent to which the Commission interpretations reviewed under paragraphs (1) through (5) are consistent with the plain language of the Communications Act of 1934 (47 U.S.C. 151 et seq.), as amended by the Telecommunications Act of 1996, and shall include a review of—

(1) the definitions of “information service”, “local exchange carrier”, “telecommunications”, “telecommunications service”, “telecommunications carrier”, and “telephone exchange service” that were added to section 3 of the Communications Act of 1934 (47 U.S.C. 153) by the Telecommunications Act of 1996 and the impact of the Commission’s interpretation of those definitions on the current and future provision of universal service to consumers in all areas of the Nation, including high cost and rural areas;

(2) the application of those definitions to mixed or hybrid services and the impact of such application on universal service definitions and support, and the consistency of the Commission’s application of those definitions, including with respect to Internet access under section 254(h) of the Communications Act of 1934 (47 U.S.C. 254(h));

(3) who is required to contribute to universal service under section 254(d) of the Communications Act of 1934 (47 U.S.C. 254(d)) and related existing Federal universal service support mechanisms, and of any exemption of providers or exclusion of any service that includes telecommunications from such requirement or support mechanisms;

(4) who is eligible under sections 254(e), 254(h)(1), and 254(h)(2) of the Communications Act of 1934 (47 U.S.C. 254(e), 254(h)(1), and 254(h)(2)) to receive specific Federal universal service support for the provision of universal service, and the consistency with which the Commission has interpreted each of those provisions of section 254; and

(5) the Commission’s decisions regarding the percentage of universal service support provided by Federal mechanisms and the revenue base from which such support is derived.

(b) **UNIVERSAL SERVICE PRINCIPLES.**—The Joint Board and the Commission shall base policies for the preservation and advancement of universal service on the following principles:

(1) **QUALITY AND RATES.**—Quality services should be available at just, reasonable, and affordable rates.

(2) **ACCESS TO ADVANCED SERVICES.**—Access to advanced telecommunications and information services should be provided in all regions of the Nation.

(3) **ACCESS IN RURAL AND HIGH COST AREAS.**—Consumers in all regions of the Nation, including low-income consumers and those in rural, insular, and high cost areas, should have access to telecommunications and information services, including interexchange services and advanced telecommunications and information services, that are reasonably comparable to those services provided in urban areas and that are available at rates that are reasonably comparable to rates charged for similar services in urban areas.

(4) **EQUITABLE AND NONDISCRIMINATORY CONTRIBUTIONS.**—All providers of telecommunications services should make an equitable and nondiscriminatory contribution to the preservation and advancement of universal service.

(5) **SPECIFIC AND PREDICTABLE SUPPORT MECHANISMS.**—There should be specific, predictable and sufficient Federal and State mechanisms to preserve and advance universal service.

(6) **ACCESS TO ADVANCED TELECOMMUNICATIONS SERVICES FOR SCHOOLS, HEALTH CARE, AND LIBRARIES.**—Elementary and secondary schools and classrooms, health care providers, and libraries should have access to advanced telecommunications services as described in subsection (h).

(7) **ADDITIONAL PRINCIPLES.**—Such other principles as the Joint Board and the Commission determine are necessary and appropriate for the protection of the public interest, convenience, and necessity and are consistent with this Act.

(c) **DEFINITION.**—

(1) **IN GENERAL.**—Universal service is an evolving level of telecommunications services that the Commission shall establish periodically under this section, taking into account advances in telecommunications and information technologies and services. The Joint Board in recommending, and the Commission in establishing, the definition of the services that are supported by Federal universal service support mechanisms shall consider the extent to which such telecommunications services—

(A) are essential to education, public health, or public safety;

(B) have, through the operation of market choices by customers, been subscribed to by a substantial majority of residential customers;

(C) are being deployed in public telecommunications networks by telecommunications carriers; and

(D) are consistent with the public interest, convenience, and necessity.

(2) **ALTERATIONS AND MODIFICATIONS.**—The Joint Board may, from time to time, recommend to the Commission modi-

fications in the definition of the services that are supported by Federal universal service support mechanisms.

(3) SPECIAL SERVICES.—In addition to the services included in the definition of universal service under paragraph (1), the Commission may designate additional services for such support mechanisms for schools, libraries, and health care providers for the purposes of subsection (h).

(d) TELECOMMUNICATIONS CARRIER CONTRIBUTION.—Every telecommunications carrier that provides interstate telecommunications services shall contribute, on an equitable and nondiscriminatory basis, to the specific, predictable, and sufficient mechanisms established by the Commission to preserve and advance universal service. The Commission may exempt a carrier or class of carriers from this requirement if the carrier's telecommunications activities are limited to such an extent that the level of such carrier's contribution to the preservation and advancement of universal service would be de minimis. Any other provider of interstate telecommunications may be required to contribute to the preservation and advancement of universal service if the public interest so requires.¹³

(e) UNIVERSAL SERVICE SUPPORT.—After the date on which Commission regulations implementing this section take effect, only an eligible telecommunications carrier designated under section 214(e) shall be eligible to receive specific Federal universal service support. A carrier that receives such support shall use that support only for the provision, maintenance, and upgrading of facilities and services for which the support is intended. Any such support should be explicit and sufficient to achieve the purposes of this section.

(f) STATE AUTHORITY.—A State may adopt regulations not inconsistent with the Commission's rules to preserve and advance universal service. Every telecommunications carrier that provides intrastate telecommunications services shall contribute, on an equi-

¹³Section 3006 of the Balanced Budget Act of 1997 (P.L. 105–33; 111 Stat. 269), which was repealed by section 622 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act; 1998 (P.L. 105–119; 111 Stat. 2521) contained the following provisions with respect to funds available to carry out section 254 of the Communications Act of 1934:

SEC. 3006. UNIVERSAL SERVICE FUND PAYMENT SCHEDULE.

(a) APPROPRIATIONS TO THE UNIVERSAL SERVICE FUND.—

(1) APPROPRIATION.—There is hereby appropriated to the Commission \$3,000,000,000 in fiscal year 2001, which shall be disbursed on October 1, 2000, to the Administrator of the Federal universal service support programs established pursuant to section 254 of the Communications Act of 1934 (47 U.S.C. 254), and which may be expended by the Administrator in support of such programs as provided pursuant to the rules implementing that section.

(2) RETURN TO TREASURY.—The Administrator shall transfer \$3,000,000,000 from the funds collected for such support programs to the General Fund of the Treasury on October 1, 2001.

(b) FEE ADJUSTMENTS.—The Commission shall direct the Administrator to adjust payments by telecommunications carriers and other providers of interstate telecommunications so that the \$3,000,000,000 of the total payments by such carriers or providers to the Administrator for fiscal year 2001 shall be deferred until October 1, 2001.

(c) PRESERVATION OF AUTHORITY.—Nothing in this section shall affect the Administrator's authority to determine the amounts that should be expended for universal service support programs pursuant to section 254 of the Communications Act of 1934 and the rules implementing that section.

(d) DEFINITION.—For purposes of this section, the term "Administrator" means the Administrator designated by the Federal Communications Commission to administer Federal universal service support programs pursuant to section 254 of the Communications Act of 1934.

table and nondiscriminatory basis, in a manner determined by the State to the preservation and advancement of universal service in that State. A State may adopt regulations to provide for additional definitions and standards to preserve and advance universal service within that State only to the extent that such regulations adopt additional specific, predictable, and sufficient mechanisms to support such definitions or standards that do not rely on or burden Federal universal service support mechanisms.

(g) INTEREXCHANGE AND INTERSTATE SERVICES.—Within 6 months after the date of enactment of the Telecommunications Act of 1996, the Commission shall adopt rules to require that the rates charged by providers of interexchange telecommunications services to subscribers in rural and high cost areas shall be no higher than the rates charged by each such provider to its subscribers in urban areas. Such rules shall also require that a provider of interstate interexchange telecommunications services shall provide such services to its subscribers in each State at rates no higher than the rates charged to its subscribers in any other State.

(h) TELECOMMUNICATIONS SERVICES FOR CERTAIN PROVIDERS.—

(1) IN GENERAL.—

(A) HEALTH CARE PROVIDERS FOR RURAL AREAS.—A telecommunications carrier shall, upon receiving a bona fide request, provide telecommunications services which are necessary for the provision of health care services in a State, including instruction relating to such services, to any public or nonprofit health care provider that serves persons who reside in rural areas in that State at rates that are reasonably comparable to rates charged for similar services in urban areas in that State. A telecommunications carrier providing service under this paragraph shall be entitled to have an amount equal to the difference, if any, between the rates for services provided to health care providers for rural areas in a State and the rates for similar services provided to other customers in comparable rural areas in that State treated as a service obligation as a part of its obligation to participate in the mechanisms to preserve and advance universal service.

(B) EDUCATIONAL PROVIDERS AND LIBRARIES.—All telecommunications carriers serving a geographic area shall, upon a bona fide request for any of its services that are within the definition of universal service under subsection (c)(3), provide such services to elementary schools, secondary schools, and libraries for educational purposes at rates less than the amounts charged for similar services to other parties. The discount shall be an amount that the Commission, with respect to interstate services, and the States, with respect to intrastate services, determine is appropriate and necessary to ensure affordable access to and use of such services by such entities. A telecommunications carrier providing service under this paragraph shall—

(i) have an amount equal to the amount of the discount treated as an offset to its obligation to contribute to the mechanisms to preserve and advance universal service, or

(ii) notwithstanding the provisions of subsection (e) of this section, receive reimbursement utilizing the support mechanisms to preserve and advance universal service.

(2) **ADVANCED SERVICES.**—The Commission shall establish competitively neutral rules—

(A) to enhance, to the extent technically feasible and economically reasonable, access to advanced telecommunications and information services for all public and non-profit elementary and secondary school classrooms, health care providers, and libraries; and

(B) to define the circumstances under which a telecommunications carrier may be required to connect its network to such public institutional telecommunications users.

(3) **TERMS AND CONDITIONS.**—Telecommunications services and network capacity provided to a public institutional telecommunications user under this subsection may not be sold, resold, or otherwise transferred by such user in consideration for money or any other thing of value.

(4) **ELIGIBILITY OF USERS.**—No entity listed in this subsection shall be entitled to preferential rates or treatment as required by this subsection, if such entity operates as a for-profit business, is a school described in paragraph (7)(A) with an endowment of more than \$50,000,000, or is a library or library consortium not eligible for assistance from a State library administrative agency under the Library Services and Technology Act.

(5)¹⁴ **REQUIREMENTS FOR CERTAIN SCHOOLS WITH COMPUTERS HAVING INTERNET ACCESS.**—

¹⁴Section 1721 of the Children's Internet Protection Act (P.L. 106–554; Appendix D; 114 Stat. 2763A–343) added paragraphs (5) and (6) and amended paragraph (7) of section 254(h) of the Communications Act of 1934. The Children's Internet Protection Act also contained the following related provisions:

TITLE XVII—CHILDREN'S INTERNET PROTECTION

SEC. 1701. [20 U.S.C. 6301 note] SHORT TITLE.

This title may be cited as the “Children’s Internet Protection Act”.

SEC. 1702. DISCLAIMERS.

(a) **DISCLAIMER REGARDING CONTENT.**—Nothing in this title or the amendments made by this title shall be construed to prohibit a local educational agency, elementary or secondary school, or library from blocking access on the Internet on computers owned or operated by that agency, school, or library to any content other than content covered by this title or the amendments made by this title.

(b) **DISCLAIMER REGARDING PRIVACY.**—Nothing in this title or the amendments made by this title shall be construed to require the tracking of Internet use by any identifiable minor or adult user.

SEC. 1703. STUDY OF TECHNOLOGY PROTECTION MEASURES.

(a) **IN GENERAL.**—Not later than 18 months after the date of the enactment of this Act, the National Telecommunications and Information Administration shall initiate a notice and comment proceeding for purposes of—

(1) evaluating whether or not currently available technology protection measures, including commercial Internet blocking and filtering software, adequately addresses the needs of educational institutions;

(2) making recommendations on how to foster the development of measures that meet such needs; and

Continued

(3) evaluating the development and effectiveness of local Internet safety policies that are currently in operation after community input.

(b) DEFINITIONS.—In this section:

(1) TECHNOLOGY PROTECTION MEASURE.—The term “technology protection measure” means a specific technology that blocks or filters Internet access to visual depictions that are—

(A) obscene, as that term is defined in section 1460 of title 18, United States Code;

(B) child pornography, as that term is defined in section 2256 of title 18, United States Code; or

(C) harmful to minors.

(2) HARMFUL TO MINORS.—The term “harmful to minors” means any picture, image, graphic image file, or other visual depiction that—

(A) taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;

(B) depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and

(C) taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

(3) SEXUAL ACT; SEXUAL CONTACT.—The terms “sexual act” and “sexual contact” have the meanings given such terms in section 2246 of title 18, United States Code.

Subtitle A—Federal Funding for Educational Institution Computers

SEC. 1711. LIMITATION ON AVAILABILITY OF CERTAIN FUNDS FOR SCHOOLS.

Subtitle B—Universal Service Discounts

SEC. 1721. REQUIREMENT FOR SCHOOLS AND LIBRARIES TO ENFORCE INTERNET SAFETY POLICIES WITH TECHNOLOGY PROTECTION MEASURES FOR COMPUTERS WITH INTERNET ACCESS AS CONDITION OF UNIVERSAL SERVICE DISCOUNTS.

* * * * *

(e) SEPARABILITY.—If any provision of paragraph (5) or (6) of section 254(h) of the Communications Act of 1934, as amended by this section, or the application thereof to any person or circumstance is held invalid, the remainder of such paragraph and the application of such paragraph to other persons or circumstances shall not be affected thereby.

(f) REGULATIONS.—

(1) REQUIREMENT.—The Federal Communications Commission shall prescribe regulations for purposes of administering the provisions of paragraphs (5) and (6) of section 254(h) of the Communications Act of 1934, as amended by this section.

(2) DEADLINE.—Notwithstanding any other provision of law, the Commission shall prescribe regulations under paragraph (1) so as to ensure that such regulations take effect 120 days after the date of the enactment of this Act.

(g) AVAILABILITY OF CERTAIN FUNDS FOR ACQUISITION OF TECHNOLOGY PROTECTION MEASURES.—

(1) IN GENERAL.—Notwithstanding any other provision of law, funds available under part B of title I of the Elementary and Secondary Education Act of 1965, or under section 231 of the Library Services and Technology Act, may be used for the purchase or acquisition of technology protection measures that are necessary to meet the requirements of this title and the amendments made by this title. No other sources of funds for the purchase or acquisition of such measures are authorized by this title, or the amendments made by this title.

(2) TECHNOLOGY PROTECTION MEASURE DEFINED.—In this section, the term “technology protection measure” has the meaning given that term in section 1703.

(h) EFFECTIVE DATE.—The amendments made by this section shall take effect 120 days after the date of the enactment of this Act.

Subtitle C—Neighborhood Children's Internet Protection

SEC. 1731. SHORT TITLE.

This subtitle may be cited as the “Neighborhood Children's Internet Protection Act”.

SEC. 1732. INTERNET SAFETY POLICY REQUIRED.

SEC. 1733. IMPLEMENTING REGULATIONS.

Not later than 120 days after the date of enactment of this Act, the Federal Communications Commission shall prescribe regulations for purposes of section 254(l) of the Communications Act of 1934, as added by section 1732 of this Act.

(A) INTERNET SAFETY.—

(i) IN GENERAL.—Except as provided in clause (ii), an elementary or secondary school having computers with Internet access may not receive services at discount rates under paragraph (1)(B) unless the school, school board, local educational agency, or other authority with responsibility for administration of the school—

(I) submits to the Commission the certifications described in subparagraphs (B) and (C);

(II) submits to the Commission a certification that an Internet safety policy has been adopted and implemented for the school under subsection (1); and

(III) ensures the use of such computers in accordance with the certifications.

(ii) APPLICABILITY.—The prohibition in clause (i) shall not apply with respect to a school that receives services at discount rates under paragraph (1)(B) only for purposes other than the provision of Internet access, Internet service, or internal connections.

(iii) PUBLIC NOTICE; HEARING.—An elementary or secondary school described in clause (i), or the school board, local educational agency, or other authority with responsibility for administration of the school, shall provide reasonable public notice and hold at least one public hearing or meeting to address the proposed Internet safety policy. In the case of an elementary or secondary school other than an elementary school or a secondary school as defined in section 8101 of the Elementary and Secondary Education Act of 1965, the notice and hearing required by this clause may be limited to those members of the public with a relationship to the school.

(B) CERTIFICATION WITH RESPECT TO MINORS.—A certification under this subparagraph is a certification that the school, school board, local educational agency, or other authority with responsibility for administration of the school—

(i) is enforcing a policy of Internet safety for minors that includes monitoring the online activities of minors and the operation of a technology protection measure with respect to any of its computers with

Subtitle D—Expedited Review

SEC. 1741. EXPEDITED REVIEW.

(a) THREE-JUDGE DISTRICT COURT HEARING.—Notwithstanding any other provision of law, any civil action challenging the constitutionality, on its face, of this title or any amendment made by this title, or any provision thereof, shall be heard by a district court of three judges convened pursuant to the provisions of section 2284 of title 28, United States Code.

(b) APPELLATE REVIEW.—Notwithstanding any other provision of law, an interlocutory or final judgment, decree, or order of the court of three judges in an action under subsection (a) holding this title or an amendment made by this title, or any provision thereof, unconstitutional shall be reviewable as a matter of right by direct appeal to the Supreme Court. Any such appeal shall be filed not more than 20 days after entry of such judgment, decree, or order.

Internet access that protects against access through such computers to visual depictions that are—

- (I) obscene;
- (II) child pornography; or
- (III) harmful to minors;
- (ii) is enforcing the operation of such technology protection measure during any use of such computers by minors; and
- (iii) as part of its Internet safety policy is educating minors about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyberbullying awareness and response.

(C) CERTIFICATION WITH RESPECT TO ADULTS.—A certification under this paragraph is a certification that the school, school board, local educational agency, or other authority with responsibility for administration of the school—

- (i) is enforcing a policy of Internet safety that includes the operation of a technology protection measure with respect to any of its computers with Internet access that protects against access through such computers to visual depictions that are—

- (I) obscene; or
 - (II) child pornography; and
- (ii) is enforcing the operation of such technology protection measure during any use of such computers.

(D) DISABLING DURING ADULT USE.—An administrator, supervisor, or other person authorized by the certifying authority under subparagraph (A)(i) may disable the technology protection measure concerned, during use by an adult, to enable access for bona fide research or other lawful purpose.

(E) TIMING OF IMPLEMENTATION.—

- (i) IN GENERAL.—Subject to clause (ii) in the case of any school covered by this paragraph as of the effective date of this paragraph under section 1721(h) of the Children's Internet Protection Act, the certification under subparagraphs (B) and (C) shall be made—

- (I) with respect to the first program funding year under this subsection following such effective date, not later than 120 days after the beginning of such program funding year; and

- (II) with respect to any subsequent program funding year, as part of the application process for such program funding year.

- (ii) PROCESS.—

- (I) SCHOOLS WITH INTERNET SAFETY POLICY AND TECHNOLOGY PROTECTION MEASURES IN PLACE.—A school covered by clause (i) that has in place an Internet safety policy and technology protection measures meeting the requirements necessary for certification under subparagraphs (B) and (C) shall certify its compliance with subpara-

graphs (B) and (C) during each annual program application cycle under this subsection, except that with respect to the first program funding year after the effective date of this paragraph under section 1721(h) of the Children's Internet Protection Act, the certifications shall be made not later than 120 days after the beginning of such first program funding year.

(II) SCHOOLS WITHOUT INTERNET SAFETY POLICY AND TECHNOLOGY PROTECTION MEASURES IN PLACE.—A school covered by clause (i) that does not have in place an Internet safety policy and technology protection measures meeting the requirements necessary for certification under subparagraphs (B) and (C)—

(aa) for the first program year after the effective date of this subsection in which it is applying for funds under this subsection, shall certify that it is undertaking such actions, including any necessary procurement procedures, to put in place an Internet safety policy and technology protection measures meeting the requirements necessary for certification under subparagraphs (B) and (C); and

(bb) for the second program year after the effective date of this subsection in which it is applying for funds under this subsection, shall certify that it is in compliance with subparagraphs (B) and (C).

Any school that is unable to certify compliance with such requirements in such second program year shall be ineligible for services at discount rates or funding in lieu of services at such rates under this subsection for such second year and all subsequent program years under this subsection, until such time as such school comes into compliance with this paragraph.

(III) WAIVERS.—Any school subject to subclause (II) that cannot come into compliance with subparagraphs (B) and (C) in such second year program may seek a waiver of subclause (II)(bb) if State or local procurement rules or regulations or competitive bidding requirements prevent the making of the certification otherwise required by such subclause. A school, school board, local educational agency, or other authority with responsibility for administration of the school shall notify the Commission of the applicability of such subclause to the school. Such notice shall certify that the school in question will be brought into compliance before the start of the third program year after the effective date of this subsection in which the school is applying for funds under this subsection.

(F) NONCOMPLIANCE.—

(i) FAILURE TO SUBMIT CERTIFICATION.—Any school that knowingly fails to comply with the application guidelines regarding the annual submission of certification required by this paragraph shall not be eligible for services at discount rates or funding in lieu of services at such rates under this subsection.

(ii) FAILURE TO COMPLY WITH CERTIFICATION.—Any school that knowingly fails to ensure the use of its computers in accordance with a certification under subparagraphs (B) and (C) shall reimburse any funds and discounts received under this subsection for the period covered by such certification.

(iii) REMEDY OF NONCOMPLIANCE.—

(I) FAILURE TO SUBMIT.—A school that has failed to submit a certification under clause (i) may remedy the failure by submitting the certification to which the failure relates. Upon submittal of such certification, the school shall be eligible for services at discount rates under this subsection.

(II) FAILURE TO COMPLY.—A school that has failed to comply with a certification as described in clause (ii) may remedy the failure by ensuring the use of its computers in accordance with such certification. Upon submittal to the Commission of a certification or other appropriate evidence of such remedy, the school shall be eligible for services at discount rates under this subsection.

(6)¹⁵ REQUIREMENTS FOR CERTAIN LIBRARIES WITH COMPUTERS HAVING INTERNET ACCESS.—

(A) INTERNET SAFETY.—

(i) IN GENERAL.—Except as provided in clause (ii), a library having one or more computers with Internet access may not receive services at discount rates under paragraph (1)(B) unless the library—

(I) submits to the Commission the certifications described in subparagraphs (B) and (C); and

(II) submits to the Commission a certification that an Internet safety policy has been adopted and implemented for the library under subsection (1); and

(III) ensures the use of such computers in accordance with the certifications.

(ii) APPLICABILITY.—The prohibition in clause (i) shall not apply with respect to a library that receives services at discount rates under paragraph (1)(B) only for purposes other than the provision of Internet access, Internet service, or internal connections.

(iii) PUBLIC NOTICE; HEARING.—A library described in clause (i) shall provide reasonable public notice and

¹⁵See footnote for paragraph (5).

hold at least one public hearing or meeting to address the proposed Internet safety policy.

(B) CERTIFICATION WITH RESPECT TO MINORS.—A certification under this subparagraph is a certification that the library—

(i) is enforcing a policy of Internet safety that includes the operation of a technology protection measure with respect to any of its computers with Internet access that protects against access through such computers to visual depictions that are—

- (I) obscene;
- (II) child pornography; or
- (III) harmful to minors; and

(ii) is enforcing the operation of such technology protection measure during any use of such computers by minors.

(C) CERTIFICATION WITH RESPECT TO ADULTS.—A certification under this paragraph is a certification that the library—

(i) is enforcing a policy of Internet safety that includes the operation of a technology protection measure with respect to any of its computers with Internet access that protects against access through such computers to visual depictions that are—

- (I) obscene; or
- (II) child pornography; and

(ii) is enforcing the operation of such technology protection measure during any use of such computers.

(D) DISABLING DURING ADULT USE.—An administrator, supervisor, or other person authorized by the certifying authority under subparagraph (A)(i) may disable the technology protection measure concerned, during use by an adult, to enable access for bona fide research or other lawful purpose.

(E) TIMING OF IMPLEMENTATION.—

(i) IN GENERAL.—Subject to clause (ii) in the case of any library covered by this paragraph as of the effective date of this paragraph under section 1721(h) of the Children's Internet Protection Act, the certification under subparagraphs (B) and (C) shall be made—

(I) with respect to the first program funding year under this subsection following such effective date, not later than 120 days after the beginning of such program funding year; and

(II) with respect to any subsequent program funding year, as part of the application process for such program funding year.

(ii) PROCESS.—

(I) LIBRARIES WITH INTERNET SAFETY POLICY AND TECHNOLOGY PROTECTION MEASURES IN PLACE.—A library covered by clause (i) that has in place an Internet safety policy and technology protection measures meeting the requirements necessary for certification under subparagraphs (B)

and (C) shall certify its compliance with subparagraphs (B) and (C) during each annual program application cycle under this subsection, except that with respect to the first program funding year after the effective date of this paragraph under section 1721(h) of the Children's Internet Protection Act, the certifications shall be made not later than 120 days after the beginning of such first program funding year.

(II) LIBRARIES WITHOUT INTERNET SAFETY POLICY AND TECHNOLOGY PROTECTION MEASURES IN PLACE.—A library covered by clause (i) that does not have in place an Internet safety policy and technology protection measures meeting the requirements necessary for certification under subparagraphs (B) and (C)—

(aa) for the first program year after the effective date of this subsection in which it is applying for funds under this subsection, shall certify that it is undertaking such actions, including any necessary procurement procedures, to put in place an Internet safety policy and technology protection measures meeting the requirements necessary for certification under subparagraphs (B) and (C); and

(bb) for the second program year after the effective date of this subsection in which it is applying for funds under this subsection, shall certify that it is in compliance with subparagraphs (B) and (C).

Any library that is unable to certify compliance with such requirements in such second program year shall be ineligible for services at discount rates or funding in lieu of services at such rates under this subsection for such second year and all subsequent program years under this subsection, until such time as such library comes into compliance with this paragraph.

(III) WAIVERS.—Any library subject to subclause (II) that cannot come into compliance with subparagraphs (B) and (C) in such second year may seek a waiver of subclause (II)(bb) if State or local procurement rules or regulations or competitive bidding requirements prevent the making of the certification otherwise required by such subclause. A library, library board, or other authority with responsibility for administration of the library shall notify the Commission of the applicability of such subclause to the library. Such notice shall certify that the library in question will be brought into compliance before the start of the third program year after the effective date of this subsection in which the library is applying for funds under this subsection.

(F) NONCOMPLIANCE.—

(i) FAILURE TO SUBMIT CERTIFICATION.—Any library that knowingly fails to comply with the application guidelines regarding the annual submission of certification required by this paragraph shall not be eligible for services at discount rates or funding in lieu of services at such rates under this subsection.

(ii) FAILURE TO COMPLY WITH CERTIFICATION.—Any library that knowingly fails to ensure the use of its computers in accordance with a certification under subparagraphs (B) and (C) shall reimburse all funds and discounts received under this subsection for the period covered by such certification.

(iii) REMEDY OF NONCOMPLIANCE.—

(I) FAILURE TO SUBMIT.—A library that has failed to submit a certification under clause (i) may remedy the failure by submitting the certification to which the failure relates. Upon submittal of such certification, the library shall be eligible for services at discount rates under this subsection.

(II) FAILURE TO COMPLY.—A library that has failed to comply with a certification as described in clause (ii) may remedy the failure by ensuring the use of its computers in accordance with such certification. Upon submittal to the Commission of a certification or other appropriate evidence of such remedy, the library shall be eligible for services at discount rates under this subsection.

(7) DEFINITIONS.—For purposes of this subsection:

(A) ELEMENTARY AND SECONDARY SCHOOLS.—The term “elementary and secondary schools” means elementary schools and secondary schools, as defined in section 8101 of the Elementary and Secondary Education Act of 1965.

(B) HEALTH CARE PROVIDER.—The term “health care provider” means—

(i) post-secondary educational institutions offering health care instruction, teaching hospitals, and medical schools;

(ii) community health centers or health centers providing health care to migrants;

(iii) local health departments or agencies;

(iv) community mental health centers;

(v) not-for-profit hospitals;

(vi) rural health clinics;

(vii) skilled nursing facilities (as defined in section 1819(a) of the Social Security Act (42 U.S.C. 1395i-3(a))); and

(viii) consortia of health care providers consisting of one or more entities described in clauses (i) through (vii).

(C) PUBLIC INSTITUTIONAL TELECOMMUNICATIONS USER.—The term “public institutional telecommunications user” means an elementary or secondary school, a library,

or a health care provider as those terms are defined in this paragraph.

(D) MINOR.—The term “minor” means any individual who has not attained the age of 17 years.

(E) OBSCENE.—The term “obscene” has the meaning given such term in section 1460 of title 18, United States Code.

(F) CHILD PORNOGRAPHY.—The term “child pornography” has the meaning given such term in section 2256 of title 18, United States Code.

(G) HARMFUL TO MINORS.—The term “harmful to minors” means any picture, image, graphic image file, or other visual depiction that—

(i) taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;

(ii) depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and

(iii) taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

(H) SEXUAL ACT; SEXUAL CONTACT.—The terms “sexual act” and “sexual contact” have the meanings given such terms in section 2246 of title 18, United States Code.

(I) TECHNOLOGY PROTECTION MEASURE.—The term “technology protection measure” means a specific technology that blocks or filters Internet access to the material covered by a certification under paragraph (5) or (6) to which such certification relates.

(i) CONSUMER PROTECTION.—The Commission and the States should ensure that universal service is available at rates that are just, reasonable, and affordable.

(j) LIFELINE ASSISTANCE.—Nothing in this section shall affect the collection, distribution, or administration of the Lifeline Assistance Program provided for by the Commission under regulations set forth in section 69.117 of title 47, Code of Federal Regulations, and other related sections of such title.

(k) SUBSIDY OF COMPETITIVE SERVICES PROHIBITED.—A telecommunications carrier may not use services that are not competitive to subsidize services that are subject to competition. The Commission, with respect to interstate services, and the States, with respect to intrastate services, shall establish any necessary cost allocation rules, accounting safeguards, and guidelines to ensure that services included in the definition of universal service bear no more than a reasonable share of the joint and common costs of facilities used to provide those services.

(1) INTERNET SAFETY POLICY REQUIREMENT FOR SCHOOLS AND LIBRARIES.—

(1) IN GENERAL.—In carrying out its responsibilities under subsection (h), each school or library to which subsection (h) applies shall—

(A) adopt and implement an Internet safety policy that addresses—

(i) access by minors to inappropriate matter on the Internet and World Wide Web;

(ii) the safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications;

(iii) unauthorized access, including so-called “hacking”, and other unlawful activities by minors online;

(iv) unauthorized disclosure, use, and dissemination of personal identification information regarding minors; and

(v) measures designed to restrict minors’ access to materials harmful to minors; and

(B) provide reasonable public notice and hold at least one public hearing or meeting to address the proposed Internet safety policy.

(2) LOCAL DETERMINATION OF CONTENT.—A determination regarding what matter is inappropriate for minors shall be made by the school board, local educational agency, library, or other authority responsible for making the determination. No agency or instrumentality of the United States Government may—

(A) establish criteria for making such determination;

(B) review the determination made by the certifying school, school board, local educational agency, library, or other authority; or

(C) consider the criteria employed by the certifying school, school board, local educational agency, library, or other authority in the administration of subsection (h)(1)(B).

(3) AVAILABILITY FOR REVIEW.—Each Internet safety policy adopted under this subsection shall be made available to the Commission, upon request of the Commission, by the school, school board, local educational agency, library, or other authority responsible for adopting such Internet safety policy for purposes of the review of such Internet safety policy by the Commission.

(4) EFFECTIVE DATE.—This subsection shall apply with respect to schools and libraries on or after the date that is 120 days after the date of the enactment of the Children’s Internet Protection Act.

SEC. 255. [47 U.S.C. 255] ACCESS BY PERSONS WITH DISABILITIES.

(a) DEFINITIONS.—As used in this section—

(1) DISABILITY.—The term “disability” has the meaning given to it by section 3(2)(A) of the Americans with Disabilities Act of 1990 (42 U.S.C. 12102(2)(A)).

(2) READILY ACHIEVABLE.—The term “readily achievable” has the meaning given to it by section 301(9) of that Act (42 U.S.C. 12181(9)).

(b) MANUFACTURING.—A manufacturer of telecommunications equipment or customer premises equipment shall ensure that the

equipment is designed, developed, and fabricated to be accessible to and usable by individuals with disabilities, if readily achievable.

(c) TELECOMMUNICATIONS SERVICES.—A provider of telecommunications service shall ensure that the service is accessible to and usable by individuals with disabilities, if readily achievable.

(d) COMPATIBILITY.—Whenever the requirements of subsections (b) and (c) are not readily achievable, such a manufacturer or provider shall ensure that the equipment or service is compatible with existing peripheral devices or specialized customer premises equipment commonly used by individuals with disabilities to achieve access, if readily achievable.

(e) GUIDELINES.—Within 18 months after the date of enactment of the Telecommunications Act of 1996, the Architectural and Transportation Barriers Compliance Board shall develop guidelines for accessibility of telecommunications equipment and customer premises equipment in conjunction with the Commission. The Board shall review and update the guidelines periodically.

(f) NO ADDITIONAL PRIVATE RIGHTS AUTHORIZED.—Nothing in this section shall be construed to authorize any private right of action to enforce any requirement of this section or any regulation thereunder. The Commission shall have exclusive jurisdiction with respect to any complaint under this section.

SEC. 256. [47 U.S.C. 256] COORDINATION FOR INTERCONNECTIVITY.

(a) PURPOSE.—It is the purpose of this section—

(1) to promote nondiscriminatory accessibility by the broadest number of users and vendors of communications products and services to public telecommunications networks used to provide telecommunications service through—

(A) coordinated public telecommunications network planning and design by telecommunications carriers and other providers of telecommunications service; and

(B) public telecommunications network interconnectivity, and interconnectivity of devices with such networks used to provide telecommunications service; and

(2) to ensure the ability of users and information providers to seamlessly and transparently transmit and receive information between and across telecommunications networks.

(b) COMMISSION FUNCTIONS.—In carrying out the purposes of this section, the Commission—

(1) shall establish procedures for Commission oversight of coordinated network planning by telecommunications carriers and other providers of telecommunications service for the effective and efficient interconnection of public telecommunications networks used to provide telecommunications service; and

(2) may participate, in a manner consistent with its authority and practice prior to the date of enactment of this section, in the development by appropriate industry standards-setting organizations of public telecommunications network interconnectivity standards that promote access to—

(A) public telecommunications networks used to provide telecommunications service;

(B) network capabilities and services by individuals with disabilities; and

(C) information services by subscribers of rural telephone companies.

(c) COMMISSION'S AUTHORITY.—Nothing in this section shall be construed as expanding or limiting any authority that the Commission may have under law in effect before the date of enactment of the Telecommunications Act of 1996.

(d) DEFINITION.—As used in this section, the term “public telecommunications network interconnectivity” means the ability of two or more public telecommunications networks used to provide telecommunications service to communicate and exchange information without degeneration, and to interact in concert with one another.

SEC. 257. [47 U.S.C. 257] MARKET ENTRY BARRIERS PROCEEDING.

(a) ELIMINATION OF BARRIERS.—Within 15 months after the date of enactment of the Telecommunications Act of 1996, the Commission shall complete a proceeding for the purpose of identifying and eliminating, by regulations pursuant to its authority under this Act (other than this section), market entry barriers for entrepreneurs and other small businesses in the provision and ownership of telecommunications services and information services, or in the provision of parts or services to providers of telecommunications services and information services.

(b) NATIONAL POLICY.—In carrying out subsection (a), the Commission shall seek to promote the policies and purposes of this Act favoring diversity of media voices, vigorous economic competition, technological advancement, and promotion of the public interest, convenience, and necessity.

SEC. 258. [47 U.S.C. 258] ILLEGAL CHANGES IN SUBSCRIBER CARRIER SELECTIONS.

(a) PROHIBITION.—No telecommunications carrier shall submit or execute a change in a subscriber's selection of a provider of telephone exchange service or telephone toll service except in accordance with such verification procedures as the Commission shall prescribe. Nothing in this section shall preclude any State commission from enforcing such procedures with respect to intrastate services.

(b) LIABILITY FOR CHARGES.—Any telecommunications carrier that violates the verification procedures described in subsection (a) and that collects charges for telephone exchange service or telephone toll service from a subscriber shall be liable to the carrier previously selected by the subscriber in an amount equal to all charges paid by such subscriber after such violation, in accordance with such procedures as the Commission may prescribe. The remedies provided by this subsection are in addition to any other remedies available by law.

SEC. 259. [47 U.S.C. 259] INFRASTRUCTURE SHARING.

(a) REGULATIONS REQUIRED.—The Commission shall prescribe, within one year after the date of enactment of the Telecommunications Act of 1996, regulations that require incumbent local exchange carriers (as defined in section 251(h)) to make available to any qualifying carrier such public switched network infrastructure,

technology, information, and telecommunications facilities and functions as may be requested by such qualifying carrier for the purpose of enabling such qualifying carrier to provide telecommunications services, or to provide access to information services, in the service area in which such qualifying carrier has requested and obtained designation as an eligible telecommunications carrier under section 214(e).

(b) **TERMS AND CONDITIONS OF REGULATIONS.**—The regulations prescribed by the Commission pursuant to this section shall—

(1) not require a local exchange carrier to which this section applies to take any action that is economically unreasonable or that is contrary to the public interest;

(2) permit, but shall not require, the joint ownership or operation of public switched network infrastructure and services by or among such local exchange carrier and a qualifying carrier;

(3) ensure that such local exchange carrier will not be treated by the Commission or any State as a common carrier for hire or as offering common carrier services with respect to any infrastructure, technology, information, facilities, or functions made available to a qualifying carrier in accordance with regulations issued pursuant to this section;

(4) ensure that such local exchange carrier makes such infrastructure, technology, information, facilities, or functions available to a qualifying carrier on just and reasonable terms and conditions that permit such qualifying carrier to fully benefit from the economies of scale and scope of such local exchange carrier, as determined in accordance with guidelines prescribed by the Commission in regulations issued pursuant to this section;

(5) establish conditions that promote cooperation between local exchange carriers to which this section applies and qualifying carriers;

(6) not require a local exchange carrier to which this section applies to engage in any infrastructure sharing agreement for any services or access which are to be provided or offered to consumers by the qualifying carrier in such local exchange carrier's telephone exchange area; and

(7) require that such local exchange carrier file with the Commission or State for public inspection, any tariffs, contracts, or other arrangements showing the rates, terms, and conditions under which such carrier is making available public switched network infrastructure and functions under this section.

(c) **INFORMATION CONCERNING DEPLOYMENT OF NEW SERVICES AND EQUIPMENT.**—A local exchange carrier to which this section applies that has entered into an infrastructure sharing agreement under this section shall provide to each party to such agreement timely information on the planned deployment of telecommunications services and equipment, including any software or upgrades of software integral to the use or operation of such telecommunications equipment.

(d) **DEFINITION.**—For purposes of this section, the term “qualifying carrier” means a telecommunications carrier that—

(1) lacks economies of scale or scope, as determined in accordance with regulations prescribed by the Commission pursuant to this section; and

(2) offers telephone exchange service, exchange access, and any other service that is included in universal service, to all consumers without preference throughout the service area for which such carrier has been designated as an eligible telecommunications carrier under section 214(e).

SEC. 260. [47 U.S.C. 260] PROVISION OF TELEMESSAGING SERVICE.

(a) **NONDISCRIMINATION SAFEGUARDS.**—Any local exchange carrier subject to the requirements of section 251(c) that provides telemessaging service—

(1) shall not subsidize its telemessaging service directly or indirectly from its telephone exchange service or its exchange access; and

(2) shall not prefer or discriminate in favor of its telemessaging service operations in its provision of telecommunications services.

(b) **EXPEDITED CONSIDERATION OF COMPLAINTS.**—The Commission shall establish procedures for the receipt and review of complaints concerning violations of subsection (a) or the regulations thereunder that result in material financial harm to a provider of telemessaging service. Such procedures shall ensure that the Commission will make a final determination with respect to any such complaint within 120 days after receipt of the complaint. If the complaint contains an appropriate showing that the alleged violation occurred, the Commission shall, within 60 days after receipt of the complaint, order the local exchange carrier and any affiliates to cease engaging in such violation pending such final determination.

(c) **DEFINITION.**—As used in this section, the term “telemessaging service” means voice mail and voice storage and retrieval services, any live operator services used to record, transcribe, or relay messages (other than telecommunications relay services), and any ancillary services offered in combination with these services.

SEC. 261. [47 U.S.C. 261] EFFECT ON OTHER REQUIREMENTS.

(a) **COMMISSION REGULATIONS.**—Nothing in this part shall be construed to prohibit the Commission from enforcing regulations prescribed prior to the date of enactment of the Telecommunications Act of 1996 in fulfilling the requirements of this part, to the extent that such regulations are not inconsistent with the provisions of this part.

(b) **EXISTING STATE REGULATIONS.**—Nothing in this part shall be construed to prohibit any State commission from enforcing regulations prescribed prior to the date of enactment of the Telecommunications Act of 1996, or from prescribing regulations after such date of enactment, in fulfilling the requirements of this part, if such regulations are not inconsistent with the provisions of this part.

(c) **ADDITIONAL STATE REQUIREMENTS.**—Nothing in this part precludes a State from imposing requirements on a telecommunications carrier for intrastate services that are necessary to further competition in the provision of telephone exchange service or ex-

change access, as long as the State's requirements are not inconsistent with this part or the Commission's regulations to implement this part.

SEC. 262. [47 U.S.C. 262] ENSURING THE INTEGRITY OF VOICE COMMUNICATIONS.

(a) **REGISTRATION AND COMPLIANCE BY INTERMEDIATE PROVIDERS.**—An intermediate provider that offers or holds itself out as offering the capability to transmit covered voice communications from one destination to another and that charges any rate to any other entity (including an affiliated entity) for the transmission shall—

- (1) register with the Commission; and
- (2) comply with the service quality standards for such transmission to be established by the Commission under subsection (c)(1)(B).

(b) **REQUIRED USE OF REGISTERED INTERMEDIATE PROVIDERS.**—A covered provider may not use an intermediate provider to transmit covered voice communications unless such intermediate provider is registered under subsection (a)(1).

(c) **COMMISSION RULES.**—

(1) **IN GENERAL.**—

(A) **REGISTRY.**—Not later than 180 days after the date of enactment of this section, the Commission shall promulgate rules to establish a registry to record registrations under subsection (a)(1).

(B) **SERVICE QUALITY STANDARDS.**—Not later than 1 year after the date of enactment of this section, the Commission shall promulgate rules to establish service quality standards for the transmission of covered voice communications by intermediate providers.

(2) **REQUIREMENTS.**—In promulgating the rules required by paragraph (1), the Commission shall—

(A) ensure the integrity of the transmission of covered voice communications to all customers in the United States; and

(B) prevent unjust or unreasonable discrimination among areas of the United States in the delivery of covered voice communications.

(d) **PUBLIC AVAILABILITY OF REGISTRY.**—The Commission shall make the registry established under subsection (c)(1)(A) publicly available on the website of the Commission.

(e) **SCOPE OF APPLICATION.**—The requirements of this section shall apply regardless of the format by which any communication or service is provided, the protocol or format by which the transmission of such communication or service is achieved, or the regulatory classification of such communication or service.

(f) **RULE OF CONSTRUCTION.**—Nothing in this section shall be construed to affect the regulatory classification of any communication or service.

(g) **EFFECT ON OTHER LAWS.**—Nothing in this section shall be construed to preempt or expand the authority of a State public utility commission or other relevant State agency to collect data, or investigate and enforce State law and regulations, regarding the completion of intrastate voice communications, regardless of the format

by which any communication or service is provided, the protocol or format by which the transmission of such communication or service is achieved, or the regulatory classification of such communication or service.

(h) EXCEPTION.—The requirement under subsection (a)(2) to comply with the service quality standards established under subsection (c)(1)(B) shall not apply to a covered provider that—

(1) on or before the date that is 1 year after the date of enactment of this section, has certified as a Safe Harbor provider under section 64.2107(a) of title 47, Code of Federal Regulations, or any successor regulation; and

(2) continues to meet the requirements under such section 64.2107(a).

(i) DEFINITIONS.—In this section:

(1) COVERED PROVIDER.—The term “covered provider” has the meaning given the term in section 64.2101 of title 47, Code of Federal Regulations, or any successor thereto.

(2) COVERED VOICE COMMUNICATION.—The term “covered voice communication” means a voice communication (including any related signaling information) that is generated—

(A) from the placement of a call from a connection using a North American Numbering Plan resource or a call placed to a connection using such a numbering resource; and

(B) through any service provided by a covered provider.

(3) INTERMEDIATE PROVIDER.—The term “intermediate provider” means any entity that—

(A) enters into a business arrangement with a covered provider or other intermediate provider for the specific purpose of carrying, routing, or transmitting voice traffic that is generated from the placement of a call placed—

(i) from an end user connection using a North American Numbering Plan resource; or

(ii) to an end user connection using such a numbering resource; and

(B) does not itself, either directly or in conjunction with an affiliate, serve as a covered provider in the context of originating or terminating a given call.

PART III—SPECIAL PROVISIONS CONCERNING BELL OPERATING COMPANIES

SEC. 271. [47 U.S.C. 271] BELL OPERATING COMPANY ENTRY INTO INTERLATA SERVICES.

(a) GENERAL LIMITATION.—Neither a Bell operating company, nor any affiliate of a Bell operating company, may provide interLATA services except as provided in this section.

(b) INTERLATA SERVICES TO WHICH THIS SECTION APPLIES.—

(1) IN-REGION SERVICES.—A Bell operating company, or any affiliate of that Bell operating company, may provide interLATA services originating in any of its in-region States (as defined in subsection (i)) if the Commission approves the

application of such company for such State under subsection (d)(3).

(2) OUT-OF-REGION SERVICES.—A Bell operating company, or any affiliate of that Bell operating company, may provide interLATA services originating outside its in-region States after the date of enactment of the Telecommunications Act of 1996, subject to subsection (j).

(3) INCIDENTAL INTERLATA SERVICES.—A Bell operating company, or any affiliate of a Bell operating company, may provide incidental interLATA services (as defined in subsection (g)) originating in any State after the date of enactment of the Telecommunications Act of 1996.

(4) TERMINATION.—Nothing in this section prohibits a Bell operating company or any of its affiliates from providing termination for interLATA services, subject to subsection (j).

(c) REQUIREMENTS FOR PROVIDING CERTAIN IN-REGION INTERLATA SERVICES.—

(1) AGREEMENT OR STATEMENT.—A Bell operating company meets the requirements of this paragraph if it meets the requirements of subparagraph (A) or subparagraph (B) of this paragraph for each State for which the authorization is sought.

(A) PRESENCE OF A FACILITIES-BASED COMPETITOR.—A Bell operating company meets the requirements of this subparagraph if it has entered into one or more binding agreements that have been approved under section 252 specifying the terms and conditions under which the Bell operating company is providing access and interconnection to its network facilities for the network facilities of one or more unaffiliated competing providers of telephone exchange service (as defined in section 3(47)(A), but excluding exchange access) to residential and business subscribers. For the purpose of this subparagraph, such telephone exchange service may be offered by such competing providers either exclusively over their own telephone exchange service facilities or predominantly over their own telephone exchange service facilities in combination with the resale of the telecommunications services of another carrier. For the purpose of this subparagraph, services provided pursuant to subpart K of part 22 of the Commission's regulations (47 C.F.R. 22.901 et seq.) shall not be considered to be telephone exchange services.

(B) FAILURE TO REQUEST ACCESS.—A Bell operating company meets the requirements of this subparagraph if, after 10 months after the date of enactment of the Telecommunications Act of 1996, no such provider has requested the access and interconnection described in subparagraph (A) before the date which is 3 months before the date the company makes its application under subsection (d)(1), and a statement of the terms and conditions that the company generally offers to provide such access and interconnection has been approved or permitted to take effect by the State commission under section 252(f). For purposes of this subparagraph, a Bell operating company shall be considered not to have received any request for access

and interconnection if the State commission of such State certifies that the only provider or providers making such a request have (i) failed to negotiate in good faith as required by section 252, or (ii) violated the terms of an agreement approved under section 252 by the provider's failure to comply, within a reasonable period of time, with the implementation schedule contained in such agreement.

(2) SPECIFIC INTERCONNECTION REQUIREMENTS.—

(A) AGREEMENT REQUIRED.—A Bell operating company meets the requirements of this paragraph if, within the State for which the authorization is sought—

(i)(I) such company is providing access and interconnection pursuant to one or more agreements described in paragraph (1)(A), or

(II) such company is generally offering access and interconnection pursuant to a statement described in paragraph (1)(B), and

(ii) such access and interconnection meets the requirements of subparagraph (B) of this paragraph.

(B) COMPETITIVE CHECKLIST.—Access or interconnection provided or generally offered by a Bell operating company to other telecommunications carriers meets the requirements of this subparagraph if such access and interconnection includes each of the following:

(i) Interconnection in accordance with the requirements of sections 251(c)(2) and 252(d)(1).

(ii) Nondiscriminatory access to network elements in accordance with the requirements of sections 251(c)(3) and 252(d)(1).

(iii) Nondiscriminatory access to the poles, ducts, conduits, and rights-of-way owned or controlled by the Bell operating company at just and reasonable rates in accordance with the requirements of section 224.

(iv) Local loop transmission from the central office to the customer's premises, unbundled from local switching or other services.

(v) Local transport from the trunk side of a wireline local exchange carrier switch unbundled from switching or other services.

(vi) Local switching unbundled from transport, local loop transmission, or other services.

(vii) Nondiscriminatory access to—

(I) 911 and E911 services;

(II) directory assistance services to allow the other carrier's customers to obtain telephone numbers; and

(III) operator call completion services.

(viii) White pages directory listings for customers of the other carrier's telephone exchange service.

(ix) Until the date by which telecommunications numbering administration guidelines, plan, or rules are established, nondiscriminatory access to telephone numbers for assignment to the other carrier's tele-

phone exchange service customers. After that date, compliance with such guidelines, plan, or rules.

(x) Nondiscriminatory access to databases and associated signaling necessary for call routing and completion.

(xi) Until the date by which the Commission issues regulations pursuant to section 251 to require number portability, interim telecommunications number portability through remote call forwarding, direct inward dialing trunks, or other comparable arrangements, with as little impairment of functioning, quality, reliability, and convenience as possible. After that date, full compliance with such regulations.

(xii) Nondiscriminatory access to such services or information as are necessary to allow the requesting carrier to implement local dialing parity in accordance with the requirements of section 251(b)(3).

(xiii) Reciprocal compensation arrangements in accordance with the requirements of section 252(d)(2).

(xiv) Telecommunications services are available for resale in accordance with the requirements of sections 251(c)(4) and 252(d)(3).

(d) ADMINISTRATIVE PROVISIONS.—

(1) APPLICATION TO COMMISSION.—On and after the date of enactment of the Telecommunications Act of 1996, a Bell operating company or its affiliate may apply to the Commission for authorization to provide interLATA services originating in any in-region State. The application shall identify each State for which the authorization is sought.

(2) CONSULTATION.—

(A) CONSULTATION WITH THE ATTORNEY GENERAL.—

The Commission shall notify the Attorney General promptly of any application under paragraph (1). Before making any determination under this subsection, the Commission shall consult with the Attorney General, and if the Attorney General submits any comments in writing, such comments shall be included in the record of the Commission's decision. In consulting with and submitting comments to the Commission under this paragraph, the Attorney General shall provide to the Commission an evaluation of the application using any standard the Attorney General considers appropriate. The Commission shall give substantial weight to the Attorney General's evaluation, but such evaluation shall not have any preclusive effect on any Commission decision under paragraph (3).

(B) CONSULTATION WITH STATE COMMISSIONS.—Before making any determination under this subsection, the Commission shall consult with the State commission of any State that is the subject of the application in order to verify the compliance of the Bell operating company with the requirements of subsection (c).

(3) DETERMINATION.—Not later than 90 days after receiving an application under paragraph (1), the Commission shall issue a written determination approving or denying the author-

ization requested in the application for each State. The Commission shall not approve the authorization requested in an application submitted under paragraph (1) unless it finds that—

(A) the petitioning Bell operating company has met the requirements of subsection (c)(1) and—

(i) with respect to access and interconnection provided pursuant to subsection (c)(1)(A), has fully implemented the competitive checklist in subsection (c)(2)(B); or

(ii) with respect to access and interconnection generally offered pursuant to a statement under subsection (c)(1)(B), such statement offers all of the items included in the competitive checklist in subsection (c)(2)(B);

(B) the requested authorization will be carried out in accordance with the requirements of section 272; and

(C) the requested authorization is consistent with the public interest, convenience, and necessity.

The Commission shall state the basis for its approval or denial of the application.

(4) LIMITATION ON COMMISSION.—The Commission may not, by rule or otherwise, limit or extend the terms used in the competitive checklist set forth in subsection (c)(2)(B).

(5) PUBLICATION.—Not later than 10 days after issuing a determination under paragraph (3), the Commission shall publish in the Federal Register a brief description of the determination.

(6) ENFORCEMENT OF CONDITIONS.—

(A) COMMISSION AUTHORITY.—If at any time after the approval of an application under paragraph (3), the Commission determines that a Bell operating company has ceased to meet any of the conditions required for such approval, the Commission may, after notice and opportunity for a hearing—

(i) issue an order to such company to correct the deficiency;

(ii) impose a penalty on such company pursuant to title V; or

(iii) suspend or revoke such approval.

(B) RECEIPT AND REVIEW OF COMPLAINTS.—The Commission shall establish procedures for the review of complaints concerning failures by Bell operating companies to meet conditions required for approval under paragraph (3). Unless the parties otherwise agree, the Commission shall act on such complaint within 90 days.

(e) LIMITATIONS.—

(1) JOINT MARKETING OF LOCAL AND LONG DISTANCE SERVICES.—Until a Bell operating company is authorized pursuant to subsection (d) to provide interLATA services in an in-region State, or until 36 months have passed since the date of enactment of the Telecommunications Act of 1996, whichever is earlier, a telecommunications carrier that serves greater than 5 percent of the Nation's presubscribed access lines may not

jointly market in such State telephone exchange service obtained from such company pursuant to section 251(c)(4) with interLATA services offered by that telecommunications carrier.

(2) INTRALATA TOLL DIALING PARITY.—

(A) PROVISION REQUIRED.—A Bell operating company granted authority to provide interLATA services under subsection (d) shall provide intraLATA toll dialing parity throughout that State coincident with its exercise of that authority.

(B) LIMITATION.—Except for single-LATA States and States that have issued an order by December 19, 1995, requiring a Bell operating company to implement intraLATA toll dialing parity, a State may not require a Bell operating company to implement intraLATA toll dialing parity in that State before a Bell operating company has been granted authority under this section to provide interLATA services originating in that State or before 3 years after the date of enactment of the Telecommunications Act of 1996, whichever is earlier. Nothing in this subparagraph precludes a State from issuing an order requiring intraLATA toll dialing parity in that State prior to either such date so long as such order does not take effect until after the earlier of either such dates.

(f) EXCEPTION FOR PREVIOUSLY AUTHORIZED ACTIVITIES.—Neither subsection (a) nor section 273 shall prohibit a Bell operating company or affiliate from engaging, at any time after the date of enactment of the Telecommunications Act of 1996, in any activity to the extent authorized by, and subject to the terms and conditions contained in, an order entered by the United States District Court for the District of Columbia pursuant to section VII or VIII(C) of the AT&T Consent Decree if such order was entered on or before such date of enactment, to the extent such order is not reversed or vacated on appeal. Nothing in this subsection shall be construed to limit, or to impose terms or conditions on, an activity in which a Bell operating company is otherwise authorized to engage under any other provision of this section.

(g) DEFINITION OF INCIDENTAL INTERLATA SERVICES.—For purposes of this section, the term “incidental interLATA services” means the interLATA provision by a Bell operating company or its affiliate—

(1)(A) of audio programming, video programming, or other programming services to subscribers to such services of such company or affiliate;

(B) of the capability for interaction by such subscribers to select or respond to such audio programming, video programming, or other programming services;

(C) to distributors of audio programming or video programming that such company or affiliate owns or controls, or is licensed by the copyright owner of such programming (or by an assignee of such owner) to distribute; or

(D) of alarm monitoring services;

(2) of two-way interactive video services or Internet services over dedicated facilities to or for elementary and secondary schools as defined in section 254(h)(5);

(3) of commercial mobile services in accordance with section 332(c) of this Act and with the regulations prescribed by the Commission pursuant to paragraph (8) of such section;

(4) of a service that permits a customer that is located in one LATA to retrieve stored information from, or file information for storage in, information storage facilities of such company that are located in another LATA;

(5) of signaling information used in connection with the provision of telephone exchange services or exchange access by a local exchange carrier; or

(6) of network control signaling information to, and receipt of such signaling information from, common carriers offering interLATA services at any location within the area in which such Bell operating company provides telephone exchange services or exchange access.

(h) LIMITATIONS.—The provisions of subsection (g) are intended to be narrowly construed. The interLATA services provided under subparagraph (A), (B), or (C) of subsection (g)(1) are limited to those interLATA transmissions incidental to the provision by a Bell operating company or its affiliate of video, audio, and other programming services that the company or its affiliate is engaged in providing to the public. The Commission shall ensure that the provision of services authorized under subsection (g) by a Bell operating company or its affiliate will not adversely affect telephone exchange service ratepayers or competition in any telecommunications market.

(i) ADDITIONAL DEFINITIONS.—As used in this section—

(1) IN-REGION STATE.—The term “in-region State” means a State in which a Bell operating company or any of its affiliates was authorized to provide wireline telephone exchange service pursuant to the reorganization plan approved under the AT&T Consent Decree, as in effect on the day before the date of enactment of the Telecommunications Act of 1996.

(2) AUDIO PROGRAMMING SERVICES.—The term “audio programming services” means programming provided by, or generally considered to be comparable to programming provided by, a radio broadcast station.

(3) VIDEO PROGRAMMING SERVICES; OTHER PROGRAMMING SERVICES.—The terms “video programming service” and “other programming services” have the same meanings as such terms have under section 602 of this Act.

(j) CERTAIN SERVICE APPLICATIONS TREATED AS IN-REGION SERVICE APPLICATIONS.—For purposes of this section, a Bell operating company application to provide 800 service, private line service, or their equivalents that—

(1) terminate in an in-region State of that Bell operating company, and

(2) allow the called party to determine the interLATA carrier,

shall be considered an in-region service subject to the requirements of subsection (b)(1).

SEC. 272. [47 U.S.C. 272] SEPARATE AFFILIATE; SAFEGUARDS.

(a) SEPARATE AFFILIATE REQUIRED FOR COMPETITIVE ACTIVITIES.—

(1) IN GENERAL.—A Bell operating company (including any affiliate) which is a local exchange carrier that is subject to the requirements of section 251(c) may not provide any service described in paragraph (2) unless it provides that service through one or more affiliates that—

(A) are separate from any operating company entity that is subject to the requirements of section 251(c); and
(B) meet the requirements of subsection (b).

(2) SERVICES FOR WHICH A SEPARATE AFFILIATE IS REQUIRED.—The services for which a separate affiliate is required by paragraph (1) are:

(A) Manufacturing activities (as defined in section 273(h)).

(B) Origination of interLATA telecommunications services, other than—

(i) incidental interLATA services described in paragraphs (1), (2), (3), (5), and (6) of section 271(g);

(ii) out-of-region services described in section 271(b)(2); or

(iii) previously authorized activities described in section 271(f).

(C) InterLATA information services, other than electronic publishing (as defined in section 274(h)) and alarm monitoring services (as defined in section 275(e)).

(b) STRUCTURAL AND TRANSACTIONAL REQUIREMENTS.—The separate affiliate required by this section—

(1) shall operate independently from the Bell operating company;

(2) shall maintain books, records, and accounts in the manner prescribed by the Commission which shall be separate from the books, records, and accounts maintained by the Bell operating company of which it is an affiliate;

(3) shall have separate officers, directors, and employees from the Bell operating company of which it is an affiliate;

(4) may not obtain credit under any arrangement that would permit a creditor, upon default, to have recourse to the assets of the Bell operating company; and

(5) shall conduct all transactions with the Bell operating company of which it is an affiliate on an arm's length basis with any such transactions reduced to writing and available for public inspection.

(c) NONDISCRIMINATION SAFEGUARDS.—In its dealings with its affiliate described in subsection (a), a Bell operating company—

(1) may not discriminate between that company or affiliate and any other entity in the provision or procurement of goods, services, facilities, and information, or in the establishment of standards; and

(2) shall account for all transactions with an affiliate described in subsection (a) in accordance with accounting principles designated or approved by the Commission.

(d) BIENNIAL AUDIT.—

(1) GENERAL REQUIREMENT.—A company required to operate a separate affiliate under this section shall obtain and pay for a joint Federal/State audit every 2 years conducted by an independent auditor to determine whether such company has complied with this section and the regulations promulgated under this section, and particularly whether such company has complied with the separate accounting requirements under subsection (b).

(2) RESULTS SUBMITTED TO COMMISSION; STATE COMMISSIONS.—The auditor described in paragraph (1) shall submit the results of the audit to the Commission and to the State commission of each State in which the company audited provides service, which shall make such results available for public inspection. Any party may submit comments on the final audit report.

(3) ACCESS TO DOCUMENTS.—For purposes of conducting audits and reviews under this subsection—

(A) the independent auditor, the Commission, and the State commission shall have access to the financial accounts and records of each company and of its affiliates necessary to verify transactions conducted with that company that are relevant to the specific activities permitted under this section and that are necessary for the regulation of rates;

(B) the Commission and the State commission shall have access to the working papers and supporting materials of any auditor who performs an audit under this section; and

(C) the State commission shall implement appropriate procedures to ensure the protection of any proprietary information submitted to it under this section.

(e) FULFILLMENT OF CERTAIN REQUESTS.—A Bell operating company and an affiliate that is subject to the requirements of section 251(c)—

(1) shall fulfill any requests from an unaffiliated entity for telephone exchange service and exchange access within a period no longer than the period in which it provides such telephone exchange service and exchange access to itself or to its affiliates;

(2) shall not provide any facilities, services, or information concerning its provision of exchange access to the affiliate described in subsection (a) unless such facilities, services, or information are made available to other providers of interLATA services in that market on the same terms and conditions;

(3) shall charge the affiliate described in subsection (a), or impute to itself (if using the access for its provision of its own services), an amount for access to its telephone exchange service and exchange access that is no less than the amount charged to any unaffiliated interexchange carriers for such service; and

(4) may provide any interLATA or intraLATA facilities or services to its interLATA affiliate if such services or facilities are made available to all carriers at the same rates and on the

same terms and conditions, and so long as the costs are appropriately allocated.

(f) SUNSET.—

(1) MANUFACTURING AND LONG DISTANCE.—The provisions of this section (other than subsection (e)) shall cease to apply with respect to the manufacturing activities or the interLATA telecommunications services of a Bell operating company 3 years after the date such Bell operating company or any Bell operating company affiliate is authorized to provide interLATA telecommunications services under section 271(d), unless the Commission extends such 3-year period by rule or order.

(2) INTERLATA INFORMATION SERVICES.—The provisions of this section (other than subsection (e)) shall cease to apply with respect to the interLATA information services of a Bell operating company 4 years after the date of enactment of the Telecommunications Act of 1996, unless the Commission extends such 4-year period by rule or order.

(3) PRESERVATION OF EXISTING AUTHORITY.—Nothing in this subsection shall be construed to limit the authority of the Commission under any other section of this Act to prescribe safeguards consistent with the public interest, convenience, and necessity.

(g) JOINT MARKETING.—

(1) AFFILIATE SALES OF TELEPHONE EXCHANGE SERVICES.—A Bell operating company affiliate required by this section may not market or sell telephone exchange services provided by the Bell operating company unless that company permits other entities offering the same or similar service to market and sell its telephone exchange services.

(2) BELL OPERATING COMPANY SALES OF AFFILIATE SERVICES.—A Bell operating company may not market or sell interLATA service provided by an affiliate required by this section within any of its in-region States until such company is authorized to provide interLATA services in such State under section 271(d).

(3) RULE OF CONSTRUCTION.—The joint marketing and sale of services permitted under this subsection shall not be considered to violate the nondiscrimination provisions of subsection (c).

(h) TRANSITION.—With respect to any activity in which a Bell operating company is engaged on the date of enactment of the Telecommunications Act of 1996, such company shall have one year from such date of enactment to comply with the requirements of this section.

SEC. 273. [47 U.S.C. 273] MANUFACTURING BY BELL OPERATING COMPANIES.

(a) AUTHORIZATION.—A Bell operating company may manufacture and provide telecommunications equipment, and manufacture customer premises equipment, if the Commission authorizes that Bell operating company or any Bell operating company affiliate to provide interLATA services under section 271(d), subject to the requirements of this section and the regulations prescribed thereunder, except that neither a Bell operating company nor any of its

affiliates may engage in such manufacturing in conjunction with a Bell operating company not so affiliated or any of its affiliates.

(b) COLLABORATION; RESEARCH AND ROYALTY AGREEMENTS.—

(1) COLLABORATION.—Subsection (a) shall not prohibit a Bell operating company from engaging in close collaboration with any manufacturer of customer premises equipment or telecommunications equipment during the design and development of hardware, software, or combinations thereof related to such equipment.

(2) CERTAIN RESEARCH ARRANGEMENTS; ROYALTY AGREEMENTS.—Subsection (a) shall not prohibit a Bell operating company from—

(A) engaging in research activities related to manufacturing, and

(B) entering into royalty agreements with manufacturers of telecommunications equipment.

(c) INFORMATION REQUIREMENTS.—

(1) INFORMATION ON PROTOCOLS AND TECHNICAL REQUIREMENTS.—Each Bell operating company shall, in accordance with regulations prescribed by the Commission, maintain and file with the Commission full and complete information with respect to the protocols and technical requirements for connection with and use of its telephone exchange service facilities. Each such company shall report promptly to the Commission any material changes or planned changes to such protocols and requirements, and the schedule for implementation of such changes or planned changes.

(2) DISCLOSURE OF INFORMATION.—A Bell operating company shall not disclose any information required to be filed under paragraph (1) unless that information has been filed promptly, as required by regulation by the Commission.

(3) ACCESS BY COMPETITORS TO INFORMATION.—The Commission may prescribe such additional regulations under this subsection as may be necessary to ensure that manufacturers have access to the information with respect to the protocols and technical requirements for connection with and use of telephone exchange service facilities that a Bell operating company makes available to any manufacturing affiliate or any unaffiliated manufacturer.

(4) PLANNING INFORMATION.—Each Bell operating company shall provide, to interconnecting carriers providing telephone exchange service, timely information on the planned deployment of telecommunications equipment.

(d) MANUFACTURING LIMITATIONS FOR STANDARD-SETTING ORGANIZATIONS.—

(1) APPLICATION TO BELL COMMUNICATIONS RESEARCH OR MANUFACTURERS.—Bell Communications Research, Inc., or any successor entity or affiliate—

(A) shall not be considered a Bell operating company or a successor or assign of a Bell operating company at such time as it is no longer an affiliate of any Bell operating company; and

(B) notwithstanding paragraph (3), shall not engage in manufacturing telecommunications equipment or customer

premises equipment as long as it is an affiliate of more than 1 otherwise unaffiliated Bell operating company or successor or assign of any such company.

Nothing in this subsection prohibits Bell Communications Research, Inc., or any successor entity, from engaging in any activity in which it is lawfully engaged on the date of enactment of the Telecommunications Act of 1996. Nothing provided in this subsection shall render Bell Communications Research, Inc., or any successor entity, a common carrier under title II of this Act. Nothing in this subsection restricts any manufacturer from engaging in any activity in which it is lawfully engaged on the date of enactment of the Telecommunications Act of 1996.

(2) PROPRIETARY INFORMATION.—Any entity which establishes standards for telecommunications equipment or customer premises equipment, or generic network requirements for such equipment, or certifies telecommunications equipment or customer premises equipment, shall be prohibited from releasing or otherwise using any proprietary information, designated as such by its owner, in its possession as a result of such activity, for any purpose other than purposes authorized in writing by the owner of such information, even after such entity ceases to be so engaged.

(3) MANUFACTURING SAFEGUARDS.—(A) Except as prohibited in paragraph (1), and subject to paragraph (6), any entity which certifies telecommunications equipment or customer premises equipment manufactured by an unaffiliated entity shall only manufacture a particular class of telecommunications equipment or customer premises equipment for which it is undertaking or has undertaken, during the previous 18 months, certification activity for such class of equipment through a separate affiliate.

(B) Such separate affiliate shall—

(i) maintain books, records, and accounts separate from those of the entity that certifies such equipment, consistent with generally acceptable accounting principles;

(ii) not engage in any joint manufacturing activities with such entity; and

(iii) have segregated facilities and separate employees with such entity.

(C) Such entity that certifies such equipment shall—

(i) not discriminate in favor of its manufacturing affiliate in the establishment of standards, generic requirements, or product certification;

(ii) not disclose to the manufacturing affiliate any proprietary information that has been received at any time from an unaffiliated manufacturer, unless authorized in writing by the owner of the information; and

(iii) not permit any employee engaged in product certification for telecommunications equipment or customer premises equipment to engage jointly in sales or marketing of any such equipment with the affiliated manufacturer.

(4) STANDARD-SETTING ENTITIES.—Any entity that is not an accredited standards development organization and that establishes industry-wide standards for telecommunications equipment or customer premises equipment, or industry-wide generic network requirements for such equipment, or that certifies telecommunications equipment or customer premises equipment manufactured by an unaffiliated entity, shall—

(A) establish and publish any industry-wide standard for, industry-wide generic requirement for, or any substantial modification of an existing industry-wide standard or industry-wide generic requirement for, telecommunications equipment or customer premises equipment only in compliance with the following procedure—

(i) such entity shall issue a public notice of its consideration of a proposed industry-wide standard or industry-wide generic requirement;

(ii) such entity shall issue a public invitation to interested industry parties to fund and participate in such efforts on a reasonable and nondiscriminatory basis, administered in such a manner as not to unreasonably exclude any interested industry party;

(iii) such entity shall publish a text for comment by such parties as have agreed to participate in the process pursuant to clause (ii), provide such parties a full opportunity to submit comments, and respond to comments from such parties;

(iv) such entity shall publish a final text of the industry-wide standard or industry-wide generic requirement, including the comments in their entirety, of any funding party which requests to have its comments so published; and

(v) such entity shall attempt, prior to publishing a text for comment, to agree with the funding parties as a group on a mutually satisfactory dispute resolution process which such parties shall utilize as their sole recourse in the event of a dispute on technical issues as to which there is disagreement between any funding party and the entity conducting such activities, except that if no dispute resolution process is agreed to by all the parties, a funding party may utilize the dispute resolution procedures established pursuant to paragraph (5) of this subsection;

(B) engage in product certification for telecommunications equipment or customer premises equipment manufactured by unaffiliated entities only if—

(i) such activity is performed pursuant to published criteria;

(ii) such activity is performed pursuant to auditable criteria; and

(iii) such activity is performed pursuant to available industry-accepted testing methods and standards, where applicable, unless otherwise agreed upon by the parties funding and performing such activity;

(C) not undertake any actions to monopolize or attempt to monopolize the market for such services; and

(D) not preferentially treat its own telecommunications equipment or customer premises equipment, or that of its affiliate, over that of any other entity in establishing and publishing industry-wide standards or industry-wide generic requirements for, and in certification of, telecommunications equipment and customer premises equipment.

(5) ALTERNATE DISPUTE RESOLUTION.—Within 90 days after the date of enactment of the Telecommunications Act of 1996, the Commission shall prescribe a dispute resolution process to be utilized in the event that a dispute resolution process is not agreed upon by all the parties when establishing and publishing any industry-wide standard or industry-wide generic requirement for telecommunications equipment or customer premises equipment, pursuant to paragraph (4)(A)(v). The Commission shall not establish itself as a party to the dispute resolution process. Such dispute resolution process shall permit any funding party to resolve a dispute with the entity conducting the activity that significantly affects such funding party's interests, in an open, nondiscriminatory, and unbiased fashion, within 30 days after the filing of such dispute. Such disputes may be filed within 15 days after the date the funding party receives a response to its comments from the entity conducting the activity. The Commission shall establish penalties to be assessed for delays caused by referral of frivolous disputes to the dispute resolution process.

(6) SUNSET.—The requirements of paragraphs (3) and (4) shall terminate for the particular relevant activity when the Commission determines that there are alternative sources of industry-wide standards, industry-wide generic requirements, or product certification for a particular class of telecommunications equipment or customer premises equipment available in the United States. Alternative sources shall be deemed to exist when such sources provide commercially viable alternatives that are providing such services to customers. The Commission shall act on any application for such a determination within 90 days after receipt of such application, and shall receive public comment on such application.

(7) ADMINISTRATION AND ENFORCEMENT AUTHORITY.—For the purposes of administering this subsection and the regulations prescribed thereunder, the Commission shall have the same remedial authority as the Commission has in administering and enforcing the provisions of this title with respect to any common carrier subject to this Act.

(8) DEFINITIONS.—For purposes of this subsection:

(A) The term “affiliate” shall have the same meaning as in section 3 of this Act, except that, for purposes of paragraph (1)(B)—

(i) an aggregate voting equity interest in Bell Communications Research, Inc., of at least 5 percent of its total voting equity, owned directly or indirectly

by more than 1 otherwise unaffiliated Bell operating company, shall constitute an affiliate relationship; and

(ii) a voting equity interest in Bell Communications Research, Inc., by any otherwise unaffiliated Bell operating company of less than 1 percent of Bell Communications Research's total voting equity shall not be considered to be an equity interest under this paragraph.

(B) The term "generic requirement" means a description of acceptable product attributes for use by local exchange carriers in establishing product specifications for the purchase of telecommunications equipment, customer premises equipment, and software integral thereto.

(C) The term "industry-wide" means activities funded by or performed on behalf of local exchange carriers for use in providing wireline telephone exchange service whose combined total of deployed access lines in the United States constitutes at least 30 percent of all access lines deployed by telecommunications carriers in the United States as of the date of enactment of the Telecommunications Act of 1996.

(D) The term "certification" means any technical process whereby a party determines whether a product, for use by more than one local exchange carrier, conforms with the specified requirements pertaining to such product.

(E) The term "accredited standards development organization" means an entity composed of industry members which has been accredited by an institution vested with the responsibility for standards accreditation by the industry.

(e) BELL OPERATING COMPANY EQUIPMENT PROCUREMENT AND SALES.—

(1) NONDISCRIMINATION STANDARDS FOR MANUFACTURING.—In the procurement or awarding of supply contracts for telecommunications equipment, a Bell operating company, or any entity acting on its behalf, for the duration of the requirement for a separate subsidiary including manufacturing under this Act—

(A) shall consider such equipment, produced or supplied by unrelated persons; and

(B) may not discriminate in favor of equipment produced or supplied by an affiliate or related person.

(2) PROCUREMENT STANDARDS.—Each Bell operating company or any entity acting on its behalf shall make procurement decisions and award all supply contracts for equipment, services, and software on the basis of an objective assessment of price, quality, delivery, and other commercial factors.

(3) NETWORK PLANNING AND DESIGN.—A Bell operating company shall, to the extent consistent with the antitrust laws, engage in joint network planning and design with local exchange carriers operating in the same area of interest. No participant in such planning shall be allowed to delay the introduction of new technology or the deployment of facilities to provide telecommunications services, and agreement with such

other carriers shall not be required as a prerequisite for such introduction or deployment.

(4) **SALES RESTRICTIONS.**—Neither a Bell operating company engaged in manufacturing nor a manufacturing affiliate of such a company shall restrict sales to any local exchange carrier of telecommunications equipment, including software integral to the operation of such equipment and related upgrades.

(5) **PROTECTION OF PROPRIETARY INFORMATION.**—A Bell operating company and any entity it owns or otherwise controls shall protect the proprietary information submitted for procurement decisions from release not specifically authorized by the owner of such information.

(f) **ADMINISTRATION AND ENFORCEMENT AUTHORITY.**—For the purposes of administering and enforcing the provisions of this section and the regulations prescribed thereunder, the Commission shall have the same authority, power, and functions with respect to any Bell operating company or any affiliate thereof as the Commission has in administering and enforcing the provisions of this title with respect to any common carrier subject to this Act.

(g) **ADDITIONAL RULES AND REGULATIONS.**—The Commission may prescribe such additional rules and regulations as the Commission determines are necessary to carry out the provisions of this section, and otherwise to prevent discrimination and cross-subsidization in a Bell operating company's dealings with its affiliate and with third parties.

(h) **DEFINITION.**—As used in this section, the term “manufacturing” has the same meaning as such term has under the AT&T Consent Decree.

SEC. 274. [47 U.S.C. 274] ELECTRONIC PUBLISHING BY BELL OPERATING COMPANIES.

(a) **LIMITATIONS.**—No Bell operating company or any affiliate may engage in the provision of electronic publishing that is disseminated by means of such Bell operating company's or any of its affiliates' basic telephone service, except that nothing in this section shall prohibit a separated affiliate or electronic publishing joint venture operated in accordance with this section from engaging in the provision of electronic publishing.

(b) **SEPARATED AFFILIATE OR ELECTRONIC PUBLISHING JOINT VENTURE REQUIREMENTS.**—A separated affiliate or electronic publishing joint venture shall be operated independently from the Bell operating company. Such separated affiliate or joint venture and the Bell operating company with which it is affiliated shall—

(1) maintain separate books, records, and accounts and prepare separate financial statements;

(2) not incur debt in a manner that would permit a creditor of the separated affiliate or joint venture upon default to have recourse to the assets of the Bell operating company;

(3) carry out transactions (A) in a manner consistent with such independence, (B) pursuant to written contracts or tariffs that are filed with the Commission and made publicly available, and (C) in a manner that is auditable in accordance with generally accepted auditing standards;

(4) value any assets that are transferred directly or indirectly from the Bell operating company to a separated affiliate or joint venture, and record any transactions by which such assets are transferred, in accordance with such regulations as may be prescribed by the Commission or a State commission to prevent improper cross subsidies;

(5) between a separated affiliate and a Bell operating company—

(A) have no officers, directors, and employees in common after the effective date of this section; and

(B) own no property in common;

(6) not use for the marketing of any product or service of the separated affiliate or joint venture, the name, trademarks, or service marks of an existing Bell operating company except for names, trademarks, or service marks that are owned by the entity that owns or controls the Bell operating company;

(7) not permit the Bell operating company—

(A) to perform hiring or training of personnel on behalf of a separated affiliate;

(B) to perform the purchasing, installation, or maintenance of equipment on behalf of a separated affiliate, except for telephone service that it provides under tariff or contract subject to the provisions of this section; or

(C) to perform research and development on behalf of a separated affiliate;

(8) each have performed annually a compliance review—

(A) that is conducted by an independent entity for the purpose of determining compliance during the preceding calendar year with any provision of this section; and

(B) the results of which are maintained by the separated affiliate or joint venture and the Bell operating company for a period of 5 years subject to review by any lawful authority; and

(9) within 90 days of receiving a review described in paragraph (8), file a report of any exceptions and corrective action with the Commission and allow any person to inspect and copy such report subject to reasonable safeguards to protect any proprietary information contained in such report from being used for purposes other than to enforce or pursue remedies under this section.

(c) JOINT MARKETING.—

(1) IN GENERAL.—Except as provided in paragraph (2)—

(A) a Bell operating company shall not carry out any promotion, marketing, sales, or advertising for or in conjunction with a separated affiliate; and

(B) a Bell operating company shall not carry out any promotion, marketing, sales, or advertising for or in conjunction with an affiliate that is related to the provision of electronic publishing.

(2) PERMISSIBLE JOINT ACTIVITIES.—

(A) JOINT TELEMARKETING.—A Bell operating company may provide inbound telemarketing or referral services related to the provision of electronic publishing for a separated affiliate, electronic publishing joint venture, affiliate,

or unaffiliated electronic publisher: *Provided*, That if such services are provided to a separated affiliate, electronic publishing joint venture, or affiliate, such services shall be made available to all electronic publishers on request, on nondiscriminatory terms.

(B) TEAMING ARRANGEMENTS.—A Bell operating company may engage in nondiscriminatory teaming or business arrangements to engage in electronic publishing with any separated affiliate or with any other electronic publisher if (i) the Bell operating company only provides facilities, services, and basic telephone service information as authorized by this section, and (ii) the Bell operating company does not own such teaming or business arrangement.

(C) ELECTRONIC PUBLISHING JOINT VENTURES.—A Bell operating company or affiliate may participate on a non-exclusive basis in electronic publishing joint ventures with entities that are not a Bell operating company, affiliate, or separated affiliate to provide electronic publishing services, if the Bell operating company or affiliate has not more than a 50 percent direct or indirect equity interest (or the equivalent thereof) or the right to more than 50 percent of the gross revenues under a revenue sharing or royalty agreement in any electronic publishing joint venture. Officers and employees of a Bell operating company or affiliate participating in an electronic publishing joint venture may not have more than 50 percent of the voting control over the electronic publishing joint venture. In the case of joint ventures with small, local electronic publishers, the Commission for good cause shown may authorize the Bell operating company or affiliate to have a larger equity interest, revenue share, or voting control but not to exceed 80 percent. A Bell operating company participating in an electronic publishing joint venture may provide promotion, marketing, sales, or advertising personnel and services to such joint venture.

(d) BELL OPERATING COMPANY REQUIREMENT.—A Bell operating company under common ownership or control with a separated affiliate or electronic publishing joint venture shall provide network access and interconnections for basic telephone service to electronic publishers at just and reasonable rates that are tariffed (so long as rates for such services are subject to regulation) and that are not higher on a per-unit basis than those charged for such services to any other electronic publisher or any separated affiliate engaged in electronic publishing.

(e) PRIVATE RIGHT OF ACTION.—

(1) DAMAGES.—Any person claiming that any act or practice of any Bell operating company, affiliate, or separated affiliate constitutes a violation of this section may file a complaint with the Commission or bring suit as provided in section 207 of this Act, and such Bell operating company, affiliate, or separated affiliate shall be liable as provided in section 206 of this Act; except that damages may not be awarded for a violation that is discovered by a compliance review as required by subsection (b)(7) of this section and corrected within 90 days.

(2) CEASE AND DESIST ORDERS.—In addition to the provisions of paragraph (1), any person claiming that any act or practice of any Bell operating company, affiliate, or separated affiliate constitutes a violation of this section may make application to the Commission for an order to cease and desist such violation or may make application in any district court of the United States of competent jurisdiction for an order enjoining such acts or practices or for an order compelling compliance with such requirement.

(f) SEPARATED AFFILIATE REPORTING REQUIREMENT.—Any separated affiliate under this section shall file with the Commission annual reports in a form substantially equivalent to the Form 10-K required by regulations of the Securities and Exchange Commission.

(g) EFFECTIVE DATES.—

(1) TRANSITION.—Any electronic publishing service being offered to the public by a Bell operating company or affiliate on the date of enactment of the Telecommunications Act of 1996 shall have one year from such date of enactment to comply with the requirements of this section.

(2) SUNSET.—The provisions of this section shall not apply to conduct occurring after 4 years after the date of enactment of the Telecommunications Act of 1996.

(h) DEFINITION OF ELECTRONIC PUBLISHING.—

(1) IN GENERAL.—The term “electronic publishing” means the dissemination, provision, publication, or sale to an unaffiliated entity or person, of any one or more of the following: news (including sports); entertainment (other than interactive games); business, financial, legal, consumer, or credit materials; editorials, columns, or features; advertising; photos or images; archival or research material; legal notices or public records; scientific, educational, instructional, technical, professional, trade, or other literary materials; or other like or similar information.

(2) EXCEPTIONS.—The term “electronic publishing” shall not include the following services:

(A) Information access, as that term is defined by the AT&T Consent Decree.

(B) The transmission of information as a common carrier.

(C) The transmission of information as part of a gateway to an information service that does not involve the generation or alteration of the content of information, including data transmission, address translation, protocol conversion, billing management, introductory information content, and navigational systems that enable users to access electronic publishing services, which do not affect the presentation of such electronic publishing services to users.

(D) Voice storage and retrieval services, including voice messaging and electronic mail services.

(E) Data processing or transaction processing services that do not involve the generation or alteration of the content of information.

- (F) Electronic billing or advertising of a Bell operating company's regulated telecommunications services.
 - (G) Language translation or data format conversion.
 - (H) The provision of information necessary for the management, control, or operation of a telephone company telecommunications system.
 - (I) The provision of directory assistance that provides names, addresses, and telephone numbers and does not include advertising.
 - (J) Caller identification services.
 - (K) Repair and provisioning databases and credit card and billing validation for telephone company operations.
 - (L) 911-E and other emergency assistance databases.
 - (M) Any other network service of a type that is like or similar to these network services and that does not involve the generation or alteration of the content of information.
 - (N) Any upgrades to these network services that do not involve the generation or alteration of the content of information.
 - (O) Video programming or full motion video entertainment on demand.
- (i) ADDITIONAL DEFINITIONS.—As used in this section—
- (1) The term “affiliate” means any entity that, directly or indirectly, owns or controls, is owned or controlled by, or is under common ownership or control with, a Bell operating company. Such term shall not include a separated affiliate.
 - (2) The term “basic telephone service” means any wireline telephone exchange service, or wireline telephone exchange service facility, provided by a Bell operating company in a telephone exchange area, except that such term does not include—
 - (A) a competitive wireline telephone exchange service provided in a telephone exchange area where another entity provides a wireline telephone exchange service that was provided on January 1, 1984, or
 - (B) a commercial mobile service.
 - (3) The term “basic telephone service information” means network and customer information of a Bell operating company and other information acquired by a Bell operating company as a result of its engaging in the provision of basic telephone service.
 - (4) The term “control” has the meaning that it has in 17 C.F.R. 240.12b-2, the regulations promulgated by the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.) or any successor provision to such section.
 - (5) The term “electronic publishing joint venture” means a joint venture owned by a Bell operating company or affiliate that engages in the provision of electronic publishing which is disseminated by means of such Bell operating company's or any of its affiliates' basic telephone service.
 - (6) The term “entity” means any organization, and includes corporations, partnerships, sole proprietorships, associations, and joint ventures.

(7) The term “inbound telemarketing” means the marketing of property, goods, or services by telephone to a customer or potential customer who initiated the call.

(8) The term “own” with respect to an entity means to have a direct or indirect equity interest (or the equivalent thereof) of more than 10 percent of an entity, or the right to more than 10 percent of the gross revenues of an entity under a revenue sharing or royalty agreement.

(9) The term “separated affiliate” means a corporation under common ownership or control with a Bell operating company that does not own or control a Bell operating company and is not owned or controlled by a Bell operating company and that engages in the provision of electronic publishing which is disseminated by means of such Bell operating company’s or any of its affiliates’ basic telephone service.

(10) The term “Bell operating company” has the meaning provided in section 3, except that such term includes any entity or corporation that is owned or controlled by such a company (as so defined) but does not include an electronic publishing joint venture owned by such an entity or corporation.

SEC. 275. [47 U.S.C. 275] ALARM MONITORING SERVICES.

(a) **DELAYED ENTRY INTO ALARM MONITORING.**—

(1) **PROHIBITION.**—No Bell operating company or affiliate thereof shall engage in the provision of alarm monitoring services before the date which is 5 years after the date of enactment of the Telecommunications Act of 1996.

(2) **EXISTING ACTIVITIES.**—Paragraph (1) does not prohibit or limit the provision, directly or through an affiliate, of alarm monitoring services by a Bell operating company that was engaged in providing alarm monitoring services as of November 30, 1995, directly or through an affiliate. Such Bell operating company or affiliate may not acquire any equity interest in, or obtain financial control of, any unaffiliated alarm monitoring service entity after November 30, 1995, and until 5 years after the date of enactment of the Telecommunications Act of 1996, except that this sentence shall not prohibit an exchange of customers for the customers of an unaffiliated alarm monitoring service entity.

(b) **NONDISCRIMINATION.**—An incumbent local exchange carrier (as defined in section 251(h)) engaged in the provision of alarm monitoring services shall—

(1) provide nonaffiliated entities, upon reasonable request, with the network services it provides to its own alarm monitoring operations, on nondiscriminatory terms and conditions; and

(2) not subsidize its alarm monitoring services either directly or indirectly from telephone exchange service operations.

(c) **EXPEDITED CONSIDERATION OF COMPLAINTS.**—The Commission shall establish procedures for the receipt and review of complaints concerning violations of subsection (b) or the regulations thereunder that result in material financial harm to a provider of alarm monitoring service. Such procedures shall ensure that the Commission will make a final determination with respect to any

such complaint within 120 days after receipt of the complaint. If the complaint contains an appropriate showing that the alleged violation occurred, as determined by the Commission in accordance with such regulations, the Commission shall, within 60 days after receipt of the complaint, order the incumbent local exchange carrier (as defined in section 251(h)) and its affiliates to cease engaging in such violation pending such final determination.

(d) **USE OF DATA.**—A local exchange carrier may not record or use in any fashion the occurrence or contents of calls received by providers of alarm monitoring services for the purposes of marketing such services on behalf of such local exchange carrier, or any other entity. Any regulations necessary to enforce this subsection shall be issued initially within 6 months after the date of enactment of the Telecommunications Act of 1996.

(e) **DEFINITION OF ALARM MONITORING SERVICE.**—The term “alarm monitoring service” means a service that uses a device located at a residence, place of business, or other fixed premises—

(1) to receive signals from other devices located at or about such premises regarding a possible threat at such premises to life, safety, or property, from burglary, fire, vandalism, bodily injury, or other emergency, and

(2) to transmit a signal regarding such threat by means of transmission facilities of a local exchange carrier or one of its affiliates to a remote monitoring center to alert a person at such center of the need to inform the customer or another person or police, fire, rescue, security, or public safety personnel of such threat,

but does not include a service that uses a medical monitoring device attached to an individual for the automatic surveillance of an ongoing medical condition.

SEC. 276. [47 U.S.C. 276] PROVISION OF PAYPHONE SERVICE.

(a) **NONDISCRIMINATION SAFEGUARDS.**—After the effective date of the rules prescribed pursuant to subsection (b), any Bell operating company that provides payphone service—

(1) shall not subsidize its payphone service directly or indirectly from its telephone exchange service operations or its exchange access operations; and

(2) shall not prefer or discriminate in favor of its payphone service.

(b) **REGULATIONS.**—

(1) **CONTENTS OF REGULATIONS.**—In order to promote competition among payphone service providers and promote the widespread deployment of payphone services to the benefit of the general public, within 9 months after the date of enactment of the Telecommunications Act of 1996, the Commission shall take all actions necessary (including any reconsideration) to prescribe regulations that—

(A) establish a compensation plan to ensure that all payphone¹⁶ service providers are fairly compensated, and all rates and charges are just and reasonable, for completed intrastate and interstate communications using

¹⁶Section 2(a)(1)(E) of Public Law 117-338 inserts “or other calling device” after “payphone”. It did not specify which occurrence of the word payphone.

their payphone¹⁶ or other calling device, except that emergency calls and telecommunications relay service calls for hearing disabled individuals shall not be subject to such compensation;

(B) discontinue the intrastate and interstate carrier access charge payphone service elements and payments in effect on such date of enactment, and all intrastate and interstate payphone subsidies from basic exchange and exchange access revenues, in favor of a compensation plan as specified in subparagraph (A);

(C) prescribe a set of nonstructural safeguards for Bell operating company payphone service to implement the provisions of paragraphs (1) and (2) of subsection (a), which safeguards shall, at a minimum, include the nonstructural safeguards equal to those adopted in the Computer Inquiry-III (CC Docket No. 90-623) proceeding;

(D) provide for Bell operating company payphone service providers to have the same right that independent payphone providers have to negotiate with the location provider on the location provider's selecting and contracting with, and, subject to the terms of any agreement with the location provider, to select and contract with, the carriers that carry interLATA calls from their payphones, unless the Commission determines in the rulemaking pursuant to this section that it is not in the public interest; and

(E) provide for all payphone service providers to have the right to negotiate with the location provider on the location provider's selecting and contracting with, and, subject to the terms of any agreement with the location provider, to select and contract with, the carriers that carry intraLATA calls from their payphones.

(2) PUBLIC INTEREST TELEPHONES.—In the rulemaking conducted pursuant to paragraph (1), the Commission shall determine whether public interest payphones, which are provided in the interest of public health, safety, and welfare, in locations where there would otherwise not be a payphone, should be maintained, and if so, ensure that such public interest payphones are supported fairly and equitably.

(3) EXISTING CONTRACTS.—Nothing in this section shall affect any existing contracts between location providers and payphone service providers or interLATA or intraLATA carriers that are in force and effect as of the date of enactment of the Telecommunications Act of 1996.

(c) STATE PREEMPTION.—To the extent that any State requirements are inconsistent with the Commission's regulations, the Commission's regulations on such matters shall preempt such State requirements.

(d) DEFINITION.—As used in this section, the term "payphone service" means the provision of public or semi-public pay telephones, the provision of inmate telephone service and advanced communications services described in subparagraphs (A), (B), (D), and (E) of section 3(1) in correctional institutions, and any ancillary services.

TITLE III—SPECIAL PROVISIONS RELATING TO RADIO

PART I—GENERAL PROVISIONS

SEC. 301. [47 U.S.C. 301] LICENSE FOR RADIO COMMUNICATION OR TRANSMISSION OF ENERGY.

It is the purpose of this Act, among other things, to maintain the control of the United States over all the channels of radio transmission; and to provide for the use of such channels, but not the ownership thereof, by persons for limited periods of time, under licenses granted by Federal authority, and no such license shall be construed to create any right, beyond the terms, conditions, and periods of the license. No person shall use or operate any apparatus for the transmission of energy or communications or signals by radio (a) from one place in any State, Territory, or possession of the United States or in the District of Columbia to another place in the same State, Territory, possession, or District; or (b) from any State, Territory, or possession of the United States, or from the District of Columbia to any other State, Territory, or possession of the United States; or (c) from any place in any State, Territory, or possession of the United States, or in the District of Columbia, to any place in any foreign country or to any vessel; or (d) within any State when the effects of such use extend beyond the borders of said State, or when interference is caused by such use or operation with the transmission of such energy, communications, or signals from within said State to any place beyond its borders, or from any place beyond its borders to any place within said State, or with the transmission or reception of such energy, communications, or signals from and/or to places beyond the borders of said State; or (e) upon any vessel or aircraft of the United States (except as provided in section 303(t)); or (f) upon any other mobile stations within the jurisdiction of the United States, except under and in accordance with this Act and with a license in that behalf granted under the provisions of this Act.

SEC. 302. [47 U.S.C. 302a] DEVICES WHICH INTERFERE WITH RADIO RECEPTION.

(a) The Commission may, consistent with the public interest, convenience, and necessity, make reasonable regulations (1) governing the interference potential of devices which in their operation are capable of emitting radio frequency energy by radiation, conduction, or other means in sufficient degree to cause harmful interference to radio communications; and (2) establishing minimum performance standards for home electronic equipment and systems to reduce their susceptibility to interference from radio frequency energy. Such regulations shall be applicable to the manufacture, import, sale, offer for sale, or shipment of such devices and home electronic equipment and systems, and to the use of such devices.¹⁷

¹⁷ Public Law 97-259, 96 Stat. 1087, 1091-92, Sept. 13, 1982, which amended section 302(a), also stated:

Any minimum performance standard established by the Federal Communications Commission under section 302(a)(2) of the Communications Act of 1934, as added by the amend-

(b) No person shall manufacture, import, sell, offer for sale, or ship devices or home electronic equipment and systems, or use devices, which fail to comply with regulations promulgated pursuant to this section.

(c) The provisions of this section shall not be applicable to carriers transporting such devices or home electronic equipment and systems without trading in them, to devices or home electronic equipment and systems manufactured solely for export, to the equipment manufacturer, assembly, or installation of devices or home electronic and systems for its own use by a public utility engaged in providing electric service, or to devices or home electronic equipment and systems for use by the Government of the United States or any agency thereof. Devices and home electronic equipment and systems for use by the Government of the United States or any agency thereof shall be developed, procured, or otherwise acquired, including offshore procurement, under United States Government criteria, standards, or specifications designed to achieve the objectives of reducing interference to radio reception and to home electronic equipment and systems, taking into account the unique needs of national defense and security.

(d)(1) Within 180 days after the date of enactment of this subsection, the Commission shall prescribe and make effective regulations denying equipment authorization (under part 15 of title 47, Code of Federal Regulations, or any other part of that title) for any scanning receiver that is capable of—

(A) receiving transmissions in the frequencies allocated to the domestic cellular radio telecommunications service,

(B) readily being altered by the user to receive transmissions in such frequencies, or

(C) being equipped with decoders that convert digital cellular transmissions to analog voice audio.

(2) Beginning 1 year after the effective date of the regulations adopted pursuant to paragraph (1), no receiver having the capabilities described in subparagraph (A), (B), or (C) of paragraph (1), as such capabilities are defined in such regulations, shall be manufactured in the United States or imported for use in the United States.

(e) The Commission may—

(1) authorize the use of private organizations for testing and certifying the compliance of devices or home electronic equipment and systems with regulations promulgated under this section;

(2) accept as prima facie evidence of such compliance the certification by any such organization; and

(3) establish such qualifications and standards as it deems appropriate for such private organizations, testing, and certification.

(f)(1) Except as provided in paragraph (2), a State or local government may enact a statute or ordinance that prohibits a violation of the following regulations of the Commission under this section:

ment made in subsection (a)(1) [of Sec. 108 of the statute], shall not apply to any home electronic equipment or systems manufactured before the date of the enactment of this Act.

(A) A regulation that prohibits a use of citizens band radio equipment not authorized by the Commission.

(B) A regulation that prohibits the unauthorized operation of citizens band radio equipment on a frequency between 24 MHz and 35 MHz.

(2) A station that is licensed by the Commission pursuant to section 301 in any radio service for the operation at issue shall not be subject to action by a State or local government under this subsection. A State or local government statute or ordinance enacted for purposes of this subsection shall identify the exemption available under this paragraph.

(3) The Commission shall, to the extent practicable, provide technical guidance to State and local governments regarding the detection and determination of violations of the regulations specified in paragraph (1).

(4)(A) In addition to any other remedy authorized by law, a person affected by the decision of a State or local government agency enforcing a statute or ordinance under paragraph (1) may submit to the Commission an appeal of the decision on the grounds that the State or local government, as the case may be, enacted a statute or ordinance outside the authority provided in this subsection.

(B) A person shall submit an appeal on a decision of a State or local government agency to the Commission under this paragraph, if at all, not later than 30 days after the date on which the decision by the State or local government agency becomes final, but prior to seeking judicial review of such decision.

(C) The Commission shall make a determination on an appeal submitted under subparagraph (B) not later than 180 days after its submittal.

(D) If the Commission determines under subparagraph (C) that a State or local government agency has acted outside its authority in enforcing a statute or ordinance, the Commission shall preempt the decision enforcing the statute or ordinance.

(5) The enforcement of statute or ordinance that prohibits a violation of a regulation by a State or local government under paragraph (1) in a particular case shall not preclude the Commission from enforcing the regulation in that case concurrently.

(6) Nothing in this subsection shall be construed to diminish or otherwise affect the jurisdiction of the Commission under this section over devices capable of interfering with radio communications.

(7) The enforcement of a statute or ordinance by a State or local government under paragraph (1) with regard to citizens band radio equipment on board a "commercial motor vehicle", as defined in section 31101 of title 49, United States Code, shall require probable cause to find that the commercial motor vehicle or the individual operating the vehicle is in violation of the regulations described in paragraph (1).

SEC. 303. [47 U.S.C. 303] GENERAL POWERS OF COMMISSION.

Except as otherwise provided in this Act, the Commission from time to time, as public convenience, interest, or necessity requires shall—

- (a) Classify radio stations;
- (b) Prescribe the nature of the service to be rendered by each class of licensed stations and each station within any class;
- (c) Assign bands of frequencies to the various classes of stations, and assign frequencies for each individual station and determine the power which each station shall use and the time during which it may operate;
- (d) Determine the location of classes of stations or individual stations;
- (e) Regulate the kind of apparatus to be used with respect to its external effects and the purity and sharpness of the emissions from each station and from the apparatus therein;
- (f) Make such regulations not inconsistent with law as it may deem necessary to prevent interference between stations and to carry out the provisions of this Act: *Provided, however*, that changes in the frequencies, authorized power, or in the times of operation of any station, shall not be made without the consent of the station licensee unless the Commission shall determine that such changes will promote public convenience or interest or will serve public necessity, or the provisions of this Act will be more fully complied with;
- (g) Study new uses for radio, provide for experimental uses of frequencies, and generally encourage the larger and more effective use of radio in the public interest;
- (h) Have authority to establish areas or zones to be served by any station;
- (i) Have authority to make special regulations applicable to radio stations engaged in chain broadcasting;
- (j) Have authority to make general rules and regulations requiring stations to keep such records of programs, transmissions of energy, communications or signals as it may deem desirable;
- (k) Have authority to exclude from the requirements of any regulations in whole or in part any radio station upon railroad rolling stock, or to modify such regulations in its discretion;
- (l)(1) Have the authority to prescribe the qualifications of station operators, to classify them according to the duties to be performed, to fix the forms of such licenses, and to issue them to persons who are found to be qualified by the Commission and who otherwise are legally eligible for employment in the United States, except that such requirement relating to eligibility for employment in the United States shall not apply in the case of licenses issued by the Commission to (A) persons holding United States pilot certificates; or (B) persons holding foreign aircraft pilot certificates which are valid in the United States, if the foreign government involved has entered into a reciprocal agreement under which such foreign government does not impose any similar requirement relating to eligibility for employment upon citizens of the United States;
- (2) Notwithstanding paragraph (1) of this subsection, an individual to whom a radio station is licensed under the provisions of this Act may be issued an operator's license to operate that station.
- (3) In addition to amateur operator licenses which the Commission may issue to aliens pursuant to paragraph (2) of this subsection, and notwithstanding section 301 of this Act and paragraph (1) of this subsection, the Commission may issue authorizations,

under such conditions and terms as it may prescribe, to permit an alien licensed by his government as an amateur radio operator to operate his amateur radio station licensed by his government in the United States, its possessions, and the Commonwealth of Puerto Rico provided there is in effect a multilateral or bilateral agreement, to which the United States and the alien's government are parties, for such operation on a reciprocal basis by United States amateur radio operators. Other provisions of this Act and of the Administrative Procedure Act shall not be applicable to any request or application for or modification, suspension or cancellation of any such authorization.

(m)(1) Have authority to suspend the license of any operator upon proof sufficient to satisfy the Commission that the licensee—

(A) Has violated, or caused, aided, or abetted the violation of, any provision of any Act, treaty, or convention binding on the United States, which the Commission is authorized to administer, or any regulation made by the Commission under any such Act, treaty, or convention; or

(B) Has failed to carry out a lawful order of the master or person lawfully in charge of the ship or aircraft on which he is employed; or

(C) Has willfully damaged or permitted radio apparatus or installations to be damaged; or

(D) Has transmitted superfluous radio communications or signals or communications containing profane or obscene words, language, or meaning, or has knowingly transmitted—

(1) False or deceptive signals or communications; or

(2) A call signal or letter which has not been assigned by proper authority to the station he is operating; or

(E) Has willfully or maliciously interfered with any other radio communications or signals; or

(F) Has obtained or attempted to obtain, or has assisted another to obtain or attempt to obtain, an operator's license by fraudulent means.

(2) No order of suspension of any operator's license shall take effect until fifteen days' notice in writing thereof, stating the cause for the proposed suspension, has been given to the operator licensee who may make written application to the Commission at any time within said fifteen days for hearing upon such order. The notice to the operator licensee shall not be effective until actually received by him, and from that time he shall have fifteen days in which to mail the said application. In the event that physical conditions prevent mailing of the application at the expiration of the fifteen-day period, the application shall then be mailed as soon as possible thereafter, accompanied by a satisfactory explanation of the delay. Upon receipt by the Commission of such application for hearing, said order of suspension shall be held in abeyance until the conclusion of the hearing which shall be conducted under such rules as the Commission may prescribe. Upon the conclusion of said hearing the Commission may affirm, modify, or revoke said order of suspension.

(n) Have authority to inspect all radio installations associated with stations required to be licensed by any Act, or which the Commission by rule has authorized to operate without a license under

section 307(e)(1), or which are subject to the provisions of any Act, treaty, or convention binding on the United States, to ascertain whether in construction, installation, and operation they conform to the requirements of the rules and regulations of the Commission, the provisions of any Act, the terms of any treaty or convention binding on the United States and the conditions of the license or other instrument of authorization under which they are constructed, installed, or operated.

(o) Have authority to designate call letters of all stations;

(p) Have authority to cause to be published such call letters and such other announcements and data as in the judgment of the Commission may be required for the efficient operation of radio stations subject the jurisdiction of the United States and for the proper enforcement of this Act;

(q) Have authority to require the painting and/or illumination of radio towers if and when in its judgment such towers constitute, or there is a reasonable possibility that they may constitute, a menace to air navigation. The permittee or licensee, and the tower owner in any case in which the owner is not the permittee or licensee, shall maintain the painting and/or illumination of the tower as prescribed by the Commission pursuant to this section. In the event that the tower ceases to be licensed by the Commission for the transmission of radio energy, the owner of the tower shall maintain the prescribed painting and/or illumination of such tower until it is dismantled, and the Commission may require the owner to dismantle and remove the tower when the administrator of the Federal Aviation Agency determines that there is a reasonable possibility that it may constitute a menace to air navigation.

(r) Make such rules and regulations and prescribe such restrictions and conditions, not inconsistent with law, as may be necessary to carry out the provisions of this Act, or any international radio or wire communications treaty or convention, or regulations annexed thereto, including any treaty or convention insofar as it relates to the use of radio, to which the United States is or may hereafter become a party.

(s) Have authority to require that apparatus designed to receive television pictures broadcast simultaneously with sound be capable of adequately receiving all frequencies allocated by the Commission to television broadcasting when such apparatus is shipped in interstate commerce, or is imported from any foreign country into the United States, for sale or resale to the public.

(t) Notwithstanding the provisions of section 301(e), have authority, in any case in which an aircraft registered in the United States is operated (pursuant to a lease, charter, or similar arrangement) by an aircraft operator who is subject to regulation by the government of a foreign nation, to enter into an agreement with such government under which the Commission shall recognize and accept any radio station licenses and radio operator licenses issued by such government with respect to such aircraft.

(u)¹⁸ Require that, if technically feasible—

(1) apparatus designed to receive or play back video programming transmitted simultaneously with sound, if

¹⁸Margin of subsection (u) so in law.

such apparatus is manufactured in the United States or imported for use in the United States and uses a picture screen of any size—

(A) be equipped with built-in closed caption decoder circuitry or capability designed to display closed-captioned video programming;

(B) have the capability to decode and make available the transmission and delivery of video description services as required by regulations reinstated and modified pursuant to section 713(f); and

(C) have the capability to decode and make available emergency information (as that term is defined in section 79.2 of the Commission's regulations (47 CFR 79.2)) in a manner that is accessible to individuals who are blind or visually impaired; and

(2) notwithstanding paragraph (1) of this subsection—

(A) apparatus described in such paragraph that use a picture screen that is less than 13 inches in size meet the requirements of subparagraph (A), (B), or (C) of such paragraph only if the requirements of such subparagraphs are achievable (as defined in section 716);

(B) any apparatus or class of apparatus that are display-only video monitors with no playback capability are exempt from the requirements of such paragraph; and

(C) the Commission shall have the authority, on its own motion or in response to a petition by a manufacturer, to waive the requirements of this subsection for any apparatus or class of apparatus—

(i) primarily designed for activities other than receiving or playing back video programming transmitted simultaneously with sound; or

(ii) for equipment designed for multiple purposes, capable of receiving or playing video programming transmitted simultaneously with sound but whose essential utility is derived from other purposes.

(v) Have exclusive jurisdiction to regulate the provision of direct-to-home satellite services. As used in this subsection, the term “direct-to-home satellite services” means the distribution or broadcasting of programming or services by satellite directly to the subscriber's premises without the use of ground receiving or distribution equipment, except at the subscriber's premises or in the uplink process to the satellite.

(w)¹⁹ Prescribe—

(1) on the basis of recommendations from an advisory committee established by the Commission in accordance with section 551(b)(2) of the Telecommunications Act of 1996, guidelines and recommended procedures for the identification and rating of video programming that contains sexual, violent, or

¹⁹ Amendment adding subsection (w) did not take effect under the provisions of section 551(e)(1) of the Telecommunications Act of 1996 (P.L. 104-104; 110 Stat 142; 47 U.S.C. 303, note).

other indecent material about which parents should be informed before it is displayed to children: *Provided*, That nothing in this paragraph shall be construed to authorize any rating of video programming on the basis of its political or religious content; and

(2) with respect to any video programming that has been rated, and in consultation with the television industry, rules requiring distributors of such video programming to transmit such rating to permit parents to block the display of video programming that they have determined is inappropriate for their children.

(x) Require, in the case of an apparatus designed to receive television signals that are shipped in interstate commerce or manufactured in the United States and that have a picture screen 13 inches or greater in size (measured diagonally), that such apparatus be equipped with a feature designed to enable viewers to block display of all programs with a common rating, except as otherwise permitted by regulations pursuant to section 330(c)(4).

(y) Have authority to allocate electromagnetic spectrum so as to provide flexibility of use, if—

(1) such use is consistent with international agreements to which the United States is a party; and

(2) the Commission finds, after notice and an opportunity for public comment, that—

(A) such an allocation would be in the public interest;

(B) such use would not deter investment in communications services and systems, or technology development; and

(C) such use would not result in harmful interference among users.

(z)²⁰ Require that—

(1) if achievable (as defined in section 716), apparatus designed to record video programming transmitted simultaneously with sound, if such apparatus is manufactured in the United States or imported for use in the United States, enable the rendering or the pass through of closed captions, video description signals, and emergency information (as that term is defined in section 79.2 of title 47, Code of Federal Regulations) such that viewers are able to activate and de-activate the closed captions and video description as the video programming is played back on a picture screen of any size; and

(2) interconnection mechanisms and standards for digital video source devices are available to carry from the source device to the consumer equipment the information necessary to permit or render the display of closed captions and to make encoded video description and emergency information audible.

(aa)²¹ Require—

(1) if achievable (as defined in section 716) that digital apparatus designed to receive or play back video program-

²⁰ Margin of subsection (z) so in law.

²¹ Margin of subsection (aa) so in law.

ming transmitted in digital format simultaneously with sound, including apparatus designed to receive or display video programming transmitted in digital format using Internet protocol, be designed, developed, and fabricated so that control of appropriate built-in apparatus functions are accessible to and usable by individuals who are blind or visually impaired, except that the Commission may not specify the technical standards, protocols, procedures, and other technical requirements for meeting this requirement;

(2) that if on-screen text menus or other visual indicators built in to the digital apparatus are used to access the functions of the apparatus described in paragraph (1), such functions shall be accompanied by audio output that is either integrated or peripheral to the apparatus, so that such menus or indicators are accessible to and usable by individuals who are blind or visually impaired in real-time;

(3) that for such apparatus equipped with the functions described in paragraphs (1) and (2) built in access to those closed captioning and video description features through a mechanism that is reasonably comparable to a button, key, or icon designated for activating the closed captioning or accessibility features; and

(4) that in applying this subsection the term “apparatus” does not include a navigation device, as such term is defined in section 76.1200 of the Commission’s rules (47 CFR 76.1200).

(bb) Require—

(1) if achievable (as defined in section 716), that the on-screen text menus and guides provided by navigation devices (as such term is defined in section 76.1200 of title 47, Code of Federal Regulations) for the display or selection of multi-channel video programming are audibly accessible in real-time upon request by individuals who are blind or visually impaired, except that the Commission may not specify the technical standards, protocols, procedures, and other technical requirements for meeting this requirement;

(2) for navigation devices with built-in closed captioning capability, that access to that capability through a mechanism is reasonably comparable to a button, key, or icon designated for activating the closed captioning, or accessibility features; and

(3)²² that, with respect to navigation device features and functions—

(A) delivered in software, the requirements set forth in this subsection shall apply to the manufacturer of such software; and

(B) delivered in hardware, the requirements set forth in this subsection shall apply to the manufacturer of such hardware.

SEC. 304. [47 U.S.C. 304] WAIVER BY LICENSEE.

No station license shall be granted by the Commission until the applicant therefore shall have waived any claim to the use of

²²Margin for paragraph (3) so in law.

any particular frequency or of the electromagnetic spectrum as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise.

SEC. 305. [47 U.S.C. 305] GOVERNMENT-OWNED STATIONS.

(a) Radio stations belonging to and operated by the United States shall not be subject to the provisions of sections 301 and 303 of this Act. All such Government stations shall use such frequencies as shall be assigned to each or to each class by the President. All such stations, except stations on board naval and other Government vessels while at sea or beyond the limits of the continental United States, when transmitting any radio communication or signal other than a communication or signal relating to Government business, shall conform to such rules and regulations designed to prevent interference with other radio stations and the rights of others as the Commission may prescribe.

(b) All stations owned and operated by the United States, except mobile stations of the Army of the United States, and all other stations on land and sea, shall have special call letters designated by the Commission.

(c) The provisions of sections 301 and 303 of this Act notwithstanding, the President may, provided he determines it to be consistent with and in the interest of national security, authorize a foreign government, under such terms and conditions as he may prescribe, to construct and operate at the seat of government of the United States a low-power radio station in the fixed service at or near the site of the embassy or legation of such foreign government for transmission of its messages to points outside the United States, but only (1) where he determines that the authorization would be consistent with the national interest of the United States and (2) where such foreign government has provided reciprocal privileges to the United States to construct and operate radio stations within territories subject to its jurisdiction. Foreign government stations authorized pursuant to the provisions of this subsection shall conform to such rules and regulations as the President may prescribe. The authorization of such stations, and the renewal, modification, suspension, revocation, or other termination of such authority shall be in accordance with such procedures as may be established by the President and shall not be subject to the other provisions of this Act or of the Administrative Procedure Act.

SEC. 306. [47 U.S.C. 306] FOREIGN SHIPS.

Section 301 of this Act shall not apply to any person sending radio communications or signals on a foreign ship while the same is within the jurisdiction of the United States, but such communications or signals shall be transmitted only in accordance with such regulations designed to prevent interference as may be promulgated under the authority of this Act.

SEC. 307. [47 U.S.C. 307] ALLOCATION OF FACILITIES; TERM OF LICENSES.

(a) The Commission, if public convenience, interest, or necessity will be served thereby, subject to the limitations of this Act, shall grant to any applicant therefor a station license provided for by this Act.

(b) In considering applications for licenses, and modifications and renewals thereof, when and insofar as there is demand for the same, the Commission shall make such distribution of licenses, frequencies, hours of operation, and of power among the several States and communities as to provide a fair, efficient, and equitable distribution of radio service to each of the same.

(c) TERMS OF LICENSES.—

(1) INITIAL AND RENEWAL LICENSES.—Each license granted for the operation of a broadcasting station shall be for a term of not to exceed 8 years. Upon application therefor, a renewal of such license may be granted from time to time for a term of not to exceed 8 years from the date of expiration of the preceding license, if the Commission finds that public interest, convenience, and necessity would be served thereby. Consistent with the foregoing provisions of this subsection, the Commission may by rule prescribe the period or periods for which licenses shall be granted and renewed for particular classes of stations, but the Commission may not adopt or follow any rule which would preclude it, in any case involving a station of a particular class, from granting or renewing a license for a shorter period than that prescribed for stations of such class if, in its judgment, the public interest, convenience, or necessity would be served by such action.

(2) MATERIALS IN APPLICATION.—In order to expedite action on applications for renewal of broadcasting station licenses and in order to avoid needless expense to applicants for such renewals, the Commission shall not require any such applicant to file any information which previously has been furnished to the Commission or which is not directly material to the considerations that affect the granting or denial of such application, but the Commission may require any new or additional facts it deems necessary to make its findings.

(3) CONTINUATION PENDING DECISION.—Pending any administrative or judicial hearing and final decision on such an application and the disposition of any petition for rehearing pursuant to section 405 or section 402, the Commission shall continue such license in effect.

(d) No renewal of an existing station license in the broadcast or the common carrier services shall be granted more than thirty days prior to the expiration of the original license.

(e)(1) Notwithstanding any license requirement established in this Act, if the Commission determines that such authorization serves the public interest, convenience, and necessity, the Commission may by rule authorize the operation of radio stations without individual licenses in the following radio services: (A) the citizens band radio service; (B) the radio control service; (C) the aviation radio service for aircraft stations operated on domestic flights when such aircraft are not otherwise required to carry a radio station; and (D) the maritime radio service for ship stations navigated on domestic voyages when such ships are not otherwise required to carry a radio station.

(2) Any radio station operator who is authorized by the Commission to operate without an individual license shall comply with

all other provisions of this Act and with rules prescribed by the Commission under this Act.

(3) For purposes of this subsection, the terms "citizens band radio service", "radio control service", "aircraft station" and "ship station" shall have the meanings given them by the Commission by rule.

(f) Notwithstanding any other provision of law, (1) any holder of a broadcast license may broadcast to an area of Alaska that otherwise does not have access to over the air broadcasts via translator, microwave, or other alternative signal delivery even if another holder of a broadcast license begins broadcasting to such area, (2) any holder of a broadcast license who has broadcast to an area of Alaska that did not have access to over the air broadcasts via translator, microwave, or other alternative signal delivery may continue providing such service even if another holder of a broadcast license begins broadcasting to such area, and shall not be fined or subject to any other penalty, forfeiture, or revocation related to providing such service including any fine, penalty, forfeiture, or revocation for continuing to operate notwithstanding orders to the contrary.

SEC. 308. [47 U.S.C. 308] APPLICATIONS FOR LICENSES; CONDITIONS IN LICENSE FOR FOREIGN COMMUNICATION.

(a) The Commission may grant construction permits and station licenses, or modifications or renewals thereof, only upon written application therefor received by it: *Provided*, That (1) in cases of emergency found by the Commission involving danger to life or property or due to damage to equipment, or (2) during a national emergency proclaimed by the President or declared by the Congress and during the continuance of any war in which the United States is engaged and when such action is necessary for the national defense or security or otherwise in furtherance of the war effort, or (3) in cases of emergency where the Commission finds, in the non-broadcast services, that it would not be feasible to secure renewal applications from existing licensees or otherwise to follow normal licensing procedure, the Commission may grant construction permits and station licenses, or modifications or renewals thereof, during an emergency so found by the Commission or during the continuance of any such national emergency or war, in such manner and upon such terms and conditions as the Commission shall by regulation prescribe, and without the filing of a formal application, but no authorization so granted shall continue in effect beyond the period of emergency or war requiring it: *Provided further*, That the Commission may issue by cable, telegraph, or radio a permit for the operation of a station on a vessel of the United States at sea, effective in lieu of a license until said vessel shall return to a port of the continental United States.

(b) All applications for station licenses, or modifications or renewals thereof, shall set forth such facts as the Commission by regulation may prescribe as to the citizenship, character, and financial, technical, and other qualifications of the applicant to operate the station; the ownership and location of the proposed station and of the stations, if any, with which it is proposed to communicate; the frequencies and the power desired to be used; the hours of the day or other periods of time during which it is proposed to operate

the station; the purposes for which the station is to be used; and such other information as it may require. The Commission, at any time after the filing of such original application and during the term of any such licenses, may require from an applicant or licensee further written statements of fact to enable it to determine whether such original application should be granted or denied or such license revoked. Such application and/or such statement of fact shall be signed by the applicant and/or licensee in any manner or form, including by electronic means, as the Commission may prescribe by regulation.

(c) The Commission in granting any license for a station intended or used for commercial communication between the United States or any Territory or possession, continental or insular, subject to the jurisdiction of the United States, and any foreign country, may impose any terms, conditions, or restrictions authorized to be imposed with respect to submarine-cable licenses by section 2 of an Act entitled "An Act relating to the landing and operation of submarine cables in the United States," approved May 27, 1921.

(d) SUMMARY OF COMPLAINTS.—Each applicant for the renewal of a commercial or noncommercial television license shall attach as an exhibit to the application a summary of written comments and suggestions received from the public and maintained by the licensee (in accordance with Commission regulations) that comment on the applicant's programming, if any, and that are characterized by the commentator as constituting violent programming.

SEC. 309. [47 U.S.C. 309] ACTION UPON APPLICATIONS; FORM OF AND CONDITIONS ATTACHED TO LICENSES.

(a) Subject to the provisions of this section, the Commission shall determine, in the case of each application filed with it to which section 308 applies, whether the public interest, convenience, and necessity will be served by the granting of such application, and, if the Commission, upon examination of such application and upon consideration of such other matters as the Commission may officially notice, shall find that public interest, convenience, and necessity would be served by the granting thereof, it shall grant such application.

(b) Except as provided in subsection (c) of this section, no such application—

(1) for an instrument of authorization in the case of a station in the broadcasting or common carrier services, or

(2) for an instrument of authorization in the case of a station in any of the following categories:

(A) industrial radio positioning stations for which frequencies are assigned on an exclusive basis,

(B) aeronautical en route stations,

(C) aeronautical advisory stations,

(D) airdrome control stations,

(E) aeronautical fixed stations, and

(F) such other stations or classes of stations, not in the broadcasting or common carrier services, as the Commission shall by rule prescribe,

shall be granted by the Commission earlier than thirty days following issuance of public notice by the Commission of the accept-

ance for filing of such application or of any substantial amendment thereof.

(c) Subsection (b) of this section shall not apply—

(1) to any minor amendment of an application to which such subsection is applicable, or

(2) to any application for—

(A) a minor change in the facilities of an authorized station,

(B) consent to an involuntary assignment or transfer under section 310(b) or to an assignment or transfer thereunder which does not involve a substantial change in ownership or control,

(C) a license under section 319(c) or, pending application for or grant of such license, any special or temporary authorization to permit interim operation to facilitate completion of authorized construction or to provide substantially the same service as would be authorized by such license,

(D) extension of time to complete construction of authorized facilities,

(E) an authorization of facilities for remote pickups, studio links and similar facilities for use in the operation of a broadcast station,

(F) authorizations pursuant to section 325(c) where the programs to be transmitted are special events not of a continuing nature,

(G) a special temporary authorization for nonbroadcast operation not to exceed thirty days where no application for regular operation is contemplated to be filed or not to exceed sixty days pending the filing of an application for such regular operation, or

(H) an authorization under any of the proviso clauses of section 308(a).

(d)(1) Any party in interest may file with the Commission a petition to deny any application (whether as originally filed or as amended) to which subsection (b) of this section applies at any time prior to the day of Commission grant thereof without hearing or the day of formal designation thereof for hearing; except that with respect to any classification of applications, the Commission from time to time by rule may specify a shorter period (no less than thirty days following the issuance of public notice by the Commission of the acceptance for filing of such application or of any substantial amendment thereof), which shorter period shall be reasonably related to the time when the applications would normally be reached for processing. The petitioner shall serve a copy of such petition on the applicant. The petition shall contain specific allegations of fact sufficient to show that the petitioner is a party in interest and that a grant of the application would be prima facie inconsistent with subsection (a) (or subsection (k) in the case of renewal of any broadcast station license). Such allegations of fact shall, except for those of which official notice may be taken, be supported by affidavit of a person or persons with personal knowledge thereof. The applicant shall be given the opportunity to file a reply in which al-

legations of fact or denials thereof shall similarly be supported by affidavit.

(2) If the Commission finds on the basis of the application, the pleadings filed, or other matters which it may officially notice that there are no substantial and material questions of fact and that a grant of the application would be consistent with subsection (a) (or subsection (k) in the case of renewal of any broadcast station license), it shall make the grant, deny the petition, and issue a concise statement of the reasons for denying the petition, which statement shall dispose of all substantial issues raised by the petition. If a substantial and material question of fact is presented or if the Commission for any reason is unable to find that grant of the application would be consistent with subsection (a) (or subsection (k) in the case of renewal of any broadcast station license), it shall proceed as provided in subsection (e).

(e) If, in the case of any application to which subsection (a) of this section applies, a substantial and material question of fact is presented or the Commission for any reason is unable to make the finding specified in such subsection, it shall formally designate the application for hearing on the ground or reasons then obtaining and shall forthwith notify the applicant and all other known parties in interest of such action and the ground and reasons therefor, specifying with particularity the matters and things in issue but not including issues or requirements phrased generally. When the Commission has so designated an application for hearing, the parties in interest, if any, who are not notified by the Commission of such action may acquire the status of a party to the proceeding thereon by filing a petition for intervention showing the basis for their interest not more than thirty days after publication of the hearing issues or any substantial amendment thereto in the Federal Register. Any hearing subsequently held upon such application shall be a full hearing in which the applicant and all other parties in interest shall be permitted to participate. The burden of proceeding with the introduction of evidence and the burden of proof shall be upon the applicant, except that with respect to any issue presented by a petition to deny or a petition to enlarge the issues, such burdens shall be as determined by the Commission.

(f) When an application subject to subsection (b) has been filed, the Commission, notwithstanding the requirements of such subsection, may, if the grant of such application is otherwise authorized by law and if it finds that there are extraordinary circumstances requiring temporary operations in the public interest and that delay in the institution of such temporary operations would seriously prejudice the public interest, grant a temporary authorization, accompanied by a statement of its reasons therefor, to permit such temporary operations for a period not exceeding 180 days, and upon making like findings may extend such temporary authorization for additional periods not to exceed 180 days. When any such grant of a temporary authorization is made, the Commission shall give expeditious treatment to any timely filed petition to deny such application and to any petition for rehearing of such grant filed under section 405.

(g) The Commission is authorized to adopt reasonable classifications of applications and amendments in order to effectuate the purposes of this section.

(h) Such station licenses as the Commission may grant shall be in such general form as it may prescribe, but each license shall contain, in addition to other provisions, a statement of the following conditions to which such license shall be subject: (1) The station license shall not vest in the licensee any right to operate the station nor any right in the use of the frequencies designated in the license beyond the term thereof nor in any other manner than authorized therein; (2) neither the license nor the right granted thereunder shall be assigned or otherwise transferred in violation of this Act; (3) every license issued under this Act shall be subject in terms to the right of use or control conferred by section 706 of this Act.

(i) RANDOM SELECTION.—

(1) GENERAL AUTHORITY.—Except as provided in paragraph (5), if there is more than one application for any initial license or construction permit, then the Commission shall have the authority to grant such license or permit to a qualified applicant through the use of a system of random selection.

(2) No license or construction permit shall be granted to an applicant selected pursuant to paragraph (1) unless the Commission determines the qualifications of such applicant pursuant to subsection (a) and section 308(b). When substantial and material questions of fact exist concerning such qualifications, the Commission shall conduct a hearing in order to make such determinations. For the purposes of making such determinations, the Commission may, by rule, and notwithstanding any other provision of law—

(A) adopt procedures for the submission of all or part of the evidence in written form;

(B) delegate the function of presiding at the taking of written evidence to Commission employees other than administrative law judges; and

(C) omit the determination required by subsection (a) with respect to any application other than the one selected pursuant to paragraph (1).

(3)(A) The Commission shall establish rules and procedures to ensure that, in the administration of any system of random selection under this subsection used for granting licenses or construction permits for any media of mass communications, significant preferences will be granted to applicants or groups of applicants, the grant to which of the license or permit would increase the diversification of ownership of the media of mass communications. To further diversify the ownership of the media of mass communications, an additional significant preference shall be granted to any applicant controlled by a member or members of minority group.

(B) The Commission shall have authority to require each qualified applicant seeking a significant preference under subparagraph (A) to submit to the Commission such information as may be necessary to enable the Commission to make a determination regarding whether such applicant shall be granted such preference. Such information shall be submitted in such form, at such times, and in accordance with such procedures, as the Commission may require.

(C) For purposes of this paragraph:

(i) The term “media of mass communication” includes television, radio, cable television, multipoint distribution service, direct broadcast satellite service, and other services, the licensed facilities of which may be substantially devoted toward providing programming or other information services within the editorial control of the licensee.

(ii) The term “minority group” includes Blacks, Hispanics, American Indians, Alaska Natives, Asians, and Pacific Islanders.

(4)(A) The Commission shall²³, after notice and opportunity for hearing, prescribe rules establishing a system of random selection for use by the Commission under this subsection in any instance in which the Commission, in its discretion, determines that such use is appropriate for the granting of any license or permit in accordance with paragraph (1).

(B) The Commission shall have authority to amend such rules from time to time to the extent necessary too carry out the provisions of this subsection. Any such amendment shall be made after notice and opportunity for hearing.

(C) Not later than 180 days after the date of enactment of this subparagraph, the Commission shall prescribe such transfer disclosures and antitrafficking restrictions and payment schedules as are necessary to prevent the unjust enrichment of recipients of licenses or permits as a result of the methods employed to issue licenses under this subsection.

(5)²⁴ TERMINATION OF AUTHORITY.—(A) Except as provided in subparagraph (B), the Commission shall not issue any license or permit using a system of random selection under this subsection after July 1, 1997.

(B) Subparagraph (A) of this paragraph shall not apply with respect to licenses or permits for stations described in section 397(6) of this Act.

(j) USE OF COMPETITIVE BIDDING.—²⁵

²³This compilation executes amendments made by section 304(a)(9) but not amendments made by section 303(a)(17) of the Communications Assistance for Law Enforcement Act (P.L. 103–414).

²⁴Indentation so in original.

²⁵Section 309(j) of the Communications Act of 1934 was extensively amended by section 3002 of the Balanced Budget Act of 1997 (P.L. 105–33; Aug. 5, 1997). Sections 3002(c), 3007, and 3008 contained the following additional provisions related to spectrum to be made available by competitive bidding:

SEC. 3002. SPECTRUM AUCTIONS.

(c) [47 U.S.C. 925 note] COMMISSION OBLIGATION TO MAKE ADDITIONAL SPECTRUM AVAILABLE BY AUCTION.—

(1) IN GENERAL.—The Commission shall complete all actions necessary to permit the assignment by September 30, 2002, by competitive bidding pursuant to section 309(j) of the Communications Act of 1934 (47 U.S.C. 309(j)), of licenses for the use of bands of frequencies that—

(A) in the aggregate span not less than 55 megahertz;

(B) are located below 3 gigahertz;

(C) have not, as of the date of enactment of this Act—

(i) been designated by Commission regulation for assignment pursuant to such section;

(ii) been identified by the Secretary of Commerce pursuant to section 113 of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 923);

(iii) been allocated for Federal Government use pursuant to section 305 of the Communications Act of 1934 (47 U.S.C. 305);

(iv) been designated for reallocation under section 337 of the Communications Act of 1934 (as added by this Act); or

(1) GENERAL AUTHORITY.—If, consistent with the obligations described in paragraph (6)(E), mutually exclusive applications are accepted for any initial license or construction permit, then, except as provided in paragraph (2), the Commission shall grant the license or permit to a qualified applicant through a system of competitive bidding that meets the requirements of this subsection.

-
- (v) been allocated or authorized for unlicensed use pursuant to part 15 of the Commission's regulations (47 C.F.R. Part 15), if the operation of services licensed pursuant to competitive bidding would interfere with operation of end-user products permitted under such regulations;
 - (D) include frequencies at 2,110–2,150 megahertz; and
 - (E) include 15 megahertz from within the bands of frequencies at 1,990–2,110 megahertz.
- (2) CRITERIA FOR REASSIGNMENT.—In making available bands of frequencies for competitive bidding pursuant to paragraph (1), the Commission shall—
- (A) seek to promote the most efficient use of the electromagnetic spectrum;
 - (B) consider the cost of relocating existing uses to other bands of frequencies or other means of communication;
 - (C) consider the needs of existing public safety radio services (as such services are described in section 309(j)(2)(A) of the Communications Act of 1934, as amended by this Act);
 - (D) comply with the requirements of international agreements concerning spectrum allocations; and
 - (E) coordinate with the Secretary of Commerce when there is any impact on Federal Government spectrum use.
- (3) USE OF BANDS AT 2,110-2,150 MEGAHERTZ.—The Commission shall reallocate spectrum located at 2,110-2,150 megahertz for assignment by competitive bidding unless the Commission determines that auction of other spectrum (A) better serves the public interest, convenience, and necessity, and (B) can reasonably be expected to produce greater receipts. If the Commission makes such a determination, then the Commission shall, within 2 years after the date of enactment of this Act, identify an alternative 40 megahertz, and report to the Congress an identification of such alternative 40 megahertz for assignment by competitive bidding.
- (4) USE OF 15 MEGAHERTZ FROM BANDS AT 1,990-2,110 MEGAHERTZ.—The Commission shall reallocate 15 megahertz from spectrum located at 1,990-2,110 megahertz for assignment by competitive bidding unless the President determines such spectrum cannot be reallocated due to the need to protect incumbent Federal systems from interference, and that allocation of other spectrum (A) better serves the public interest, convenience, and necessity, and (B) can reasonably be expected to produce comparable receipts. If the President makes such a determination, then the President shall, within 2 years after the date of enactment of this Act, identify alternative bands of frequencies totalling 15 megahertz, and report to the Congress an identification of such alternative bands for assignment by competitive bidding.
- (5) NOTIFICATION TO THE SECRETARY OF COMMERCE.—The Commission shall attempt to accommodate incumbent licensees displaced under this section by relocating them to other frequencies available for allocation by the Commission. The Commission shall notify the Secretary of Commerce whenever the Commission is not able to provide for the effective relocation of an incumbent licensee to a band of frequencies available to the Commission for assignment. The notification shall include—
- (A) specific information on the incumbent licensee;
 - (B) the bands the Commission considered for relocation of the licensee;
 - (C) the reasons the licensee cannot be accommodated in such bands; and
 - (D) the bands of frequencies identified by the Commission that are—
 - (i) suitable for the relocation of such licensee; and
 - (ii) allocated for Federal Government use, but that could be reallocated pursuant to part B of the National Telecommunications and Information Administration Organization Act (as amended by this Act).

SEC. 3007. DEADLINE FOR COLLECTION

SEC. 3008. ADMINISTRATIVE PROCEDURES FOR SPECTRUM AUCTIONS.

Notwithstanding section 309(b) of the Communications Act of 1934 (47 U.S.C. 309(b)), no application for an instrument of authorization for frequencies assigned under this title (or amendments made by this title) shall be granted by the Commission earlier than 7 days following issuance of public notice by the Commission of the acceptance for filing of such application or of any substantial amendment thereto. Notwithstanding section 309(d)(1) of such Act (47 U.S.C. 309(d)(1)), the Commission may specify a period (no less than 5 days following issuance of such public notice) for the filing of petitions to deny any application for an instrument of authorization for such frequencies.

(2) EXEMPTIONS.—The competitive bidding authority granted by this subsection shall not apply to licenses or construction permits issued by the Commission—

(A) for public safety radio services, including private internal radio services used by State and local governments and non-government entities and including emergency road services provided by not-for-profit organizations, that—

(i) are used to protect the safety of life, health, or property; and

(ii) are not made commercially available to the public;

(B) for initial licenses or construction permits for digital television service given to existing terrestrial broadcast licensees to replace their analog television service licenses; or

(C) for stations described in section 397(6) of this Act.

(3) DESIGN OF SYSTEMS OF COMPETITIVE BIDDING.—For each class of licenses or permits that the Commission grants through the use of a competitive bidding system, the Commission shall, by regulation, establish a competitive bidding methodology. The Commission shall seek to design and test multiple alternative methodologies under appropriate circumstances. The Commission shall, directly or by contract, provide for the design and conduct (for purposes of testing) of competitive bidding using a contingent combinatorial bidding system that permits prospective bidders to bid on combinations or groups of licenses in a single bid and to enter multiple alternative bids within a single bidding round. In identifying classes of licenses and permits to be issued by competitive bidding, in specifying eligibility and other characteristics of such licenses and permits, and in designing the methodologies for use under this subsection, the Commission shall include safeguards to protect the public interest in the use of the spectrum and shall seek to promote the purposes specified in section 1 of this Act and the following objectives:

(A) the development and rapid deployment of new technologies, products, and services for the benefit of the public, including those residing in rural areas, without administrative or judicial delays;

(B) promoting economic opportunity and competition and ensuring that new and innovative technologies are readily accessible to the American people by avoiding excessive concentration of licenses and by disseminating licenses among a wide variety of applicants, including small businesses, rural telephone companies, and businesses owned by members of minority groups and women;

(C) recovery for the public of a portion of the value of the public spectrum resource made available for commercial use and avoidance of unjust enrichment through the methods employed to award uses of that resource;

(D) efficient and intensive use of the electromagnetic spectrum;

(E) ensure that, in the scheduling of any competitive bidding under this subsection, an adequate period is allowed—

(i) before issuance of bidding rules, to permit notice and comment on proposed auction procedures; and

(ii) after issuance of bidding rules, to ensure that interested parties have a sufficient time to develop business plans, assess market conditions, and evaluate the availability of equipment for the relevant services; and

(F) for any auction of eligible frequencies described in section 113(g)(2) of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 923(g)(2)), the recovery of 110 percent of estimated relocation or sharing costs as provided to the Commission pursuant to section 113(g)(4) of such Act.

(4) CONTENTS OF REGULATIONS.—In prescribing regulations pursuant to paragraph (3), the Commission shall—

(A) consider alternative payment schedules and methods of calculation, including lump sums or guaranteed installment payments, with or without royalty payments, or other schedules or methods that promote the objectives described in paragraph (3)(B), and combinations of such schedules and methods;

(B) include performance requirements, such as appropriate deadlines and penalties for performance failures, to ensure prompt delivery of service to rural areas, to prevent stockpiling or warehousing of spectrum by licensees or permittees, and to promote investment in and rapid deployment of new technologies and services;

(C) consistent with the public interest, convenience, and necessity, the purposes of this Act, and the characteristics of the proposed service, prescribe area designations and bandwidth assignments that promote (i) an equitable distribution of licenses and services among geographic areas, (ii) economic opportunity for a wide variety of applicants, including small businesses, rural telephone companies, and businesses owned by members of minority groups and women, and (iii) investment in and rapid deployment of new technologies and services;

(D) ensure that small businesses, rural telephone companies, and businesses owned by members of minority groups and women are given the opportunity to participate in the provision of spectrum-based services, and, for such purposes, consider the use of tax certificates, bidding preferences, and other procedures;

(E) require such transfer disclosures and antitrafficking restrictions and payment schedules as may be necessary to prevent unjust enrichment as a result of the methods employed to issue licenses and permits; and

(F) prescribe methods by which a reasonable reserve price will be required, or a minimum bid will be established, to obtain any license or permit being assigned pursuant to the competitive bidding, unless the Commission

determines that such a reserve price or minimum bid is not in the public interest.

(5) BIDDER AND LICENSEE QUALIFICATION.—No person shall be permitted to participate in a system of competitive bidding pursuant to this subsection unless such bidder submits such information and assurances as the Commission may require to demonstrate that such bidder's application is acceptable for filing. No license shall be granted to an applicant selected pursuant to this subsection unless the Commission determines that the applicant is qualified pursuant to subsection (a) and sections 308(b) and 310. Consistent with the objectives described in paragraph (3), the Commission shall, by regulation, prescribe expedited procedures consistent with the procedures authorized by subsection (i)(2) for the resolution of any substantial and material issues of fact concerning qualifications.

(6) RULES OF CONSTRUCTION.—Nothing in this subsection, or in the use of competitive bidding, shall—

(A) alter spectrum allocation criteria and procedures established by the other provisions of this Act;

(B) limit or otherwise affect the requirements of subsection (h) of this section, section 301, 304, 307, 310, or 706, or any other provision of this Act (other than subsections (d)(2) and (e) of this section);

(C) diminish the authority of the Commission under the other provisions of this Act to regulate or reclaim spectrum licenses;

(D) be construed to convey any rights, including any expectation of renewal of a license, that differ from the rights that apply to other licenses within the same service that were not issued pursuant to this subsection;

(E) be construed to relieve the Commission of the obligation in the public interest to continue to use engineering solutions, negotiation, threshold qualifications, service regulations, and other means in order to avoid mutual exclusivity in application and licensing proceedings;

(F) be construed to prohibit the Commission from issuing nationwide, regional, or local licenses or permits;

(G) be construed to prevent the Commission from awarding licenses to those persons who make significant contributions to the development of a new telecommunications service or technology; or

(H) be construed to relieve any applicant for a license or permit of the obligation to pay charges imposed pursuant to section 8 of this Act.

(7) CONSIDERATION OF REVENUES IN PUBLIC INTEREST DETERMINATIONS.—

(A) CONSIDERATION PROHIBITED.—In making a decision pursuant to section 303(c) to assign a band of frequencies to a use for which licenses or permits will be issued pursuant to this subsection, and in prescribing regulations pursuant to paragraph (4)(C) of this subsection, the Commission may not base a finding of public interest, convenience, and necessity on the expectation of Federal revenues from

the use of a system of competitive bidding under this subsection.

(B) CONSIDERATION LIMITED.—In prescribing regulations pursuant to paragraph (4)(A) of this subsection, the Commission may not base a finding of public interest, convenience, and necessity solely or predominantly on the expectation of Federal revenues from the use of a system of competitive bidding under this subsection.

(C) CONSIDERATION OF DEMAND FOR SPECTRUM NOT AFFECTED.—Nothing in this paragraph shall be construed to prevent the Commission from continuing to consider consumer demand for spectrum-based services.

(8) TREATMENT OF REVENUES.—

(A) GENERAL RULE.—Except as provided in subparagraphs (B), (D), (E), (F), and (G), all proceeds from the use of a competitive bidding system under this subsection shall be deposited in the Treasury in accordance with chapter 33 of title 31, United States Code.

(B) RETENTION OF REVENUES.—Notwithstanding subparagraph (A), the salaries and expenses account of the Commission shall retain as an offsetting collection such sums as may be necessary from such proceeds for the costs of developing and implementing the program required by this subsection. Such offsetting collections shall be available for obligation subject to the terms and conditions of the receiving appropriations account, and shall be deposited in such accounts on a quarterly basis. Such offsetting collections are authorized to remain available until expended.

(C) DEPOSIT AND USE OF AUCTION ESCROW ACCOUNTS.—Any deposits the Commission may require for the qualification of any person to bid in a system of competitive bidding pursuant to this subsection shall be deposited in the Treasury. Within 45 days following the conclusion of the competitive bidding—

(i) the deposits of successful bidders shall be deposited in the general fund of the Treasury (where such deposits shall be used for the sole purpose of deficit reduction), except as otherwise provided in subparagraphs (D)(ii), (E)(ii), (F), and (G); and

(ii) the deposits of unsuccessful bidders shall be returned to such bidders, and payments representing the return of such deposits shall not be subject to administrative offset under section 3716(c) of title 31, United States Code.

(D) PROCEEDS FROM REALLOCATED FEDERAL SPECTRUM.—

(i) IN GENERAL.—Except as provided in clause (ii), cash proceeds attributable to the auction of any eligible frequencies described in section 113(g)(2) of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 923(g)(2)) shall be deposited in the Spectrum Relocation Fund estab-

lished under section 118 of such Act, and shall be available in accordance with that section.

(ii) CERTAIN OTHER PROCEEDS.—Notwithstanding subparagraph (A) and except as provided in subparagraph (B), in the case of proceeds (including deposits and upfront payments from successful bidders) attributable to the auction of eligible frequencies described in paragraph (2) of section 113(g) of the National Telecommunications and Information Administration Organization Act that are required to be auctioned by section 6401(b)(1)(B) of the Middle Class Tax Relief and Job Creation Act of 2012, such portion of such proceeds as is necessary to cover the relocation or sharing costs (as defined in paragraph (3) of such section 113(g)) of Federal entities relocated from such eligible frequencies shall be deposited in the Spectrum Relocation Fund. The remainder of such proceeds shall be deposited in the Public Safety Trust Fund established by section 6413(a)(1) of the Middle Class Tax Relief and Job Creation Act of 2012.

(E) TRANSFER OF RECEIPTS.—

(i) ESTABLISHMENT OF FUND.—There is established in the Treasury of the United States a fund to be known as the Digital Television Transition and Public Safety Fund.

(ii) PROCEEDS FOR FUNDS.—Notwithstanding subparagraph (A), the proceeds (including deposits and upfront payments from successful bidders) from the use of a competitive bidding system under this subsection with respect to recovered analog spectrum shall be deposited in the Digital Television Transition and Public Safety Fund.

(iii) TRANSFER OF AMOUNT TO TREASURY.—On September 30, 2009, the Secretary shall transfer \$7,363,000,000 from the Digital Television Transition and Public Safety Fund to the general fund of the Treasury.

(iv) RECOVERED ANALOG SPECTRUM.—For purposes of clause (i), the term “recovered analog spectrum” has the meaning provided in paragraph (15)(C)(vi).

(F) CERTAIN PROCEEDS DESIGNATED FOR PUBLIC SAFETY TRUST FUND.—Notwithstanding subparagraph (A) and except as provided in subparagraphs (B) and (D)(ii), the proceeds (including deposits and upfront payments from successful bidders) from the use of a system of competitive bidding under this subsection pursuant to section 6401(b)(1)(B) of the Middle Class Tax Relief and Job Creation Act of 2012 shall be deposited in the Public Safety Trust Fund established by section 6413(a)(1) of such Act.

(G) INCENTIVE AUCTIONS.—

(i) IN GENERAL.—Notwithstanding subparagraph (A) and except as provided in subparagraph (B), the Commission may encourage a licensee to relinquish voluntarily some or all of its licensed spectrum usage

rights in order to permit the assignment of new initial licenses subject to flexible-use service rules by sharing with such licensee a portion, based on the value of the relinquished rights as determined in the reverse auction required by clause (ii)(I), of the proceeds (including deposits and upfront payments from successful bidders) from the use of a competitive bidding system under this subsection.

(ii) LIMITATIONS.—The Commission may not enter into an agreement for a licensee to relinquish spectrum usage rights in exchange for a share of auction proceeds under clause (i) unless—

(I) the Commission conducts a reverse auction to determine the amount of compensation that licensees would accept in return for voluntarily relinquishing spectrum usage rights; and

(II) at least two competing licensees participate in the reverse auction.

(iii) TREATMENT OF REVENUES.—Notwithstanding subparagraph (A) and except as provided in subparagraph (B), the proceeds (including deposits and upfront payments from successful bidders) from any auction, prior to the end of fiscal year 2022, of spectrum usage rights made available under clause (i) that are not shared with licensees under such clause shall be deposited as follows:

(I) \$1,750,000,000 of the proceeds from the incentive auction of broadcast television spectrum required by section 6403 of the Middle Class Tax Relief and Job Creation Act of 2012 shall be deposited in the TV Broadcaster Relocation Fund established by subsection (d)(1) of such section.

(II) All other proceeds shall be deposited—

(aa) prior to the end of fiscal year 2022, in the Public Safety Trust Fund established by section 6413(a)(1) of such Act; and

(bb) after the end of fiscal year 2022, in the general fund of the Treasury, where such proceeds shall be dedicated for the sole purpose of deficit reduction.

(iv) CONGRESSIONAL NOTIFICATION.—At least 3 months before any incentive auction conducted under this subparagraph, the Chairman of the Commission, in consultation with the Director of the Office of Management and Budget, shall notify the appropriate committees of Congress of the methodology for calculating the amounts that will be shared with licensees under clause (i).

(v) DEFINITION.—In this subparagraph, the term “appropriate committees of Congress” means—

(I) the Committee on Commerce, Science, and Transportation of the Senate;

(II) the Committee on Appropriations of the Senate;

(III) the Committee on Energy and Commerce of the House of Representatives; and

(IV) the Committee on Appropriations of the House of Representatives.

(9) USE OF FORMER GOVERNMENT SPECTRUM.—The Commission shall, not later than 5 years after the date of enactment of this subsection, issue licenses and permits pursuant to this subsection for the use of bands of frequencies that—

(A) in the aggregate span not less than 10 megahertz; and

(B) have been reassigned from Government use pursuant to part B of the National Telecommunications and Information Administration Organization Act.

(10) AUTHORITY CONTINGENT ON AVAILABILITY OF ADDITIONAL SPECTRUM.—

(A) INITIAL CONDITIONS.—The Commission's authority to issue licenses or permits under this subsection shall not take effect unless—

(i) the Secretary of Commerce has submitted to the Commission the report required by section 113(d)(1) of the National Telecommunications and Information Administration Organization Act;

(ii) such report recommends for immediate reallocation bands of frequencies that, in the aggregate, span not less than 50 megahertz;

(iii) such bands of frequencies meet the criteria required by section 113(a) of such Act; and

(iv) the Commission has completed the rulemaking required by section 332(c)(1)(D) of this Act.

(B) SUBSEQUENT CONDITIONS.—The Commission's authority to issue licenses or permits under this subsection on and after 2 years after the date of the enactment of this subsection shall cease to be effective if—

(i) the Secretary of Commerce has failed to submit the report required by section 113(a) of the National Telecommunications and Information Administration Organization Act;

(ii) the President has failed to withdraw and limit assignments of frequencies as required by paragraphs (1) and (2) of section 114(a) of such Act;

(iii) the Commission has failed to issue the regulations required by section 115(a) of such Act;

(iv) the Commission has failed to complete and submit to Congress, not later than 18 months after the date of enactment of this subsection, a study of current and future spectrum needs of State and local government public safety agencies through the year 2010, and a specific plan to ensure that adequate frequencies are made available to public safety licensees; or

(v) the Commission has failed under section 332(c)(3) to grant or deny within the time required by such section any petition that a State has filed within 90 days after the date of enactment of this subsection;

until such failure has been corrected.

(11) TERMINATION.—The authority of the Commission to grant a license or permit under this subsection shall expire March 9, 2023, except that, with respect to the electromagnetic spectrum identified under section 1004(a) of the Spectrum Pipeline Act of 2015, such authority shall expire on September 30, 2025, and with respect to the electromagnetic spectrum identified under section 90008(b)(2)(A)(ii) of the Infrastructure Investment and Jobs Act, such authority shall expire on the date that is 7 years after the date of enactment of that Act.

【Paragraph (12) was repealed by section 402(i)(4)(A) of division P of Public Law 115–141.】

(13) RECOVERY OF VALUE OF PUBLIC SPECTRUM IN CONNECTION WITH PIONEER PREFERENCES.—

(A) IN GENERAL.—Notwithstanding paragraph (6)(G), the Commission shall not award licenses pursuant to a preferential treatment accorded by the Commission to persons who make significant contributions to the development of a new telecommunications service or technology, except in accordance with the requirements of this paragraph.

(B) RECOVERY OF VALUE.—The Commission shall recover for the public a portion of the value of the public spectrum resource made available to such person by requiring such person, as a condition for receipt of the license, to agree to pay a sum determined by—

(i) identifying the winning bids for the licenses that the Commission determines are most reasonably comparable in terms of bandwidth, scope of service area, usage restrictions, and other technical characteristics to the license awarded to such person, and excluding licenses that the Commission determines are subject to bidding anomalies due to the award of preferential treatment;

(ii) dividing each such winning bid by the population of its service area (hereinafter referred to as the per capita bid amount);

(iii) computing the average of the per capita bid amounts for the licenses identified under clause (i);

(iv) reducing such average amount by 15 percent; and

(v) multiplying the amount determined under clause (iv) by the population of the service area of the license obtained by such person.

(C) INSTALLMENTS PERMITTED.—The Commission shall require such person to pay the sum required by subparagraph (B) in a lump sum or in guaranteed installment payments, with or without royalty payments, over a period of not more than 5 years.

(D) RULEMAKING ON PIONEER PREFERENCES.—Except with respect to pending applications described in clause (iv) of this subparagraph, the Commission shall prescribe regulations specifying the procedures and criteria by which

the Commission will evaluate applications for preferential treatment in its licensing processes (by precluding the filing of mutually exclusive applications) for persons who make significant contributions to the development of a new service or to the development of new technologies that substantially enhance an existing service. Such regulations shall—

(i) specify the procedures and criteria by which the significance of such contributions will be determined, after an opportunity for review and verification by experts in the radio sciences drawn from among persons who are not employees of the Commission or by any applicant for such preferential treatment;

(ii) include such other procedures as may be necessary to prevent unjust enrichment by ensuring that the value of any such contribution justifies any reduction in the amounts paid for comparable licenses under this subsection;

(iii) be prescribed not later than 6 months after the date of enactment of this paragraph;

(iv) not apply to applications that have been accepted for filing on or before September 1, 1994; and

(v) cease to be effective on the date of the expiration of the Commission's authority under subparagraph (F).

(E) IMPLEMENTATION WITH RESPECT TO PENDING APPLICATIONS.—In applying this paragraph to any broadband licenses in the personal communications service awarded pursuant to the preferential treatment accorded by the Federal Communications Commission in the Third Report and Order in General Docket 90–314 (FCC 93–550, released February 3, 1994)—

(i) the Commission shall not reconsider the award of preferences in such Third Report and Order, and the Commission shall not delay the grant of licenses based on such awards more than 15 days following the date of enactment of this paragraph, and the award of such preferences and licenses shall not be subject to administrative or judicial review;

(ii) the Commission shall not alter the bandwidth or service areas designated for such licenses in such Third Report and Order;

(iii) except as provided in clause (v), the Commission shall use, as the most reasonably comparable licenses for purposes of subparagraph (B)(i), the broadband licenses in the personal communications service for blocks A and B for the 20 largest markets (ranked by population) in which no applicant has obtained preferential treatment;

(iv) for purposes of subparagraph (C), the Commission shall permit guaranteed installment payments over a period of 5 years, subject to—

(I) the payment only of interest on unpaid balances during the first 2 years, commencing not

later than 30 days after the award of the license (including any preferential treatment used in making such award) is final and no longer subject to administrative or judicial review, except that no such payment shall be required prior to the date of completion of the auction of the comparable licenses described in clause (iii); and

(II) payment of the unpaid balance and interest thereon after the end of such 2 years in accordance with the regulations prescribed by the Commission; and

(v) the Commission shall recover with respect to broadband licenses in the personal communications service an amount under this paragraph that is equal to not less than \$400,000,000, and if such amount is less than \$400,000,000, the Commission shall recover an amount equal to \$400,000,000 by allocating such amount among the holders of such licenses based on the population of the license areas held by each licensee.

The Commission shall not include in any amounts required to be collected under clause (v) the interest on unpaid balances required to be collected under clause (iv).

(F) EXPIRATION.—The authority of the Commission to provide preferential treatment in licensing procedures (by precluding the filing of mutually exclusive applications) to persons who make significant contributions to the development of a new service or to the development of new technologies that substantially enhance an existing service shall expire on the date of enactment of the Balanced Budget Act of 1997.

(G) EFFECTIVE DATE.—This paragraph shall be effective on the date of its enactment and apply to any licenses issued on or after August 1, 1994, by the Federal Communications Commission pursuant to any licensing procedure that provides preferential treatment (by precluding the filing of mutually exclusive applications) to persons who make significant contributions to the development of a new service or to the development of new technologies that substantially enhance an existing service.

(14) AUCTION OF RECAPTURED BROADCAST TELEVISION SPECTRUM.—

(A) LIMITATIONS ON TERMS OF TERRESTRIAL TELEVISION BROADCAST LICENSES.—A full-power television broadcast license that authorizes analog television service may not be renewed to authorize such service for a period that extends beyond June 12, 2009.

(B) SPECTRUM REVERSION AND RESALE.—

(i) The Commission shall—

(I) ensure that, as licenses for analog television service expire pursuant to subparagraph (A), each licensee shall cease using electromagnetic spectrum assigned to such service according to the Commission's direction; and

(II) reclaim and organize the electromagnetic spectrum in a manner consistent with the objectives described in paragraph (3) of this subsection.

(ii) Licensees for new services occupying spectrum reclaimed pursuant to clause (i) shall be assigned in accordance with this subsection.

(C) CERTAIN LIMITATIONS ON QUALIFIED BIDDERS PROHIBITED.—In prescribing any regulations relating to the qualification of bidders for spectrum reclaimed pursuant to subparagraph (B)(i), the Commission, for any license that may be used for any digital television service where the grade A contour of the station is projected to encompass the entirety of a city with a population in excess of 400,000 (as determined using the 1990 decennial census), shall not—

(i) preclude any party from being a qualified bidder for such spectrum on the basis of—

(I) the Commission's duopoly rule (47 C.F.R. 73.3555(b)); or

(II) the Commission's newspaper cross-ownership rule (47 C.F.R. 73.3555(d)); or

(ii) apply either such rule to preclude such a party that is a winning bidder in a competitive bidding for such spectrum from using such spectrum for digital television service.

(15) COMMISSION TO DETERMINE TIMING OF AUCTIONS.—

(A) COMMISSION AUTHORITY.—Subject to the provisions of this subsection (including paragraph (11)), but notwithstanding any other provision of law, the Commission shall determine the timing of and deadlines for the conduct of competitive bidding under this subsection, including the timing of and deadlines for qualifying for bidding; conducting auctions; collecting, depositing, and reporting revenues; and completing licensing processes and assigning licenses.

(B) TERMINATION OF PORTIONS OF AUCTIONS 31 AND 44.—Except as provided in subparagraph (C), the Commission shall not commence or conduct auctions 31 and 44 on June 19, 2002, as specified in the public notices of March 19, 2002, and March 20, 2002 (DA 02-659 and DA 02-563).

(C) EXCEPTION.—

(i) BLOCKS EXCEPTED.—Subparagraph (B) shall not apply to the auction of—

(I) the C-block of licenses on the bands of frequencies located at 710–716 megahertz, and 740–746 megahertz; or

(II) the D-block of licenses on the bands of frequencies located at 716–722 megahertz.

(ii) ELIGIBLE BIDDERS.—The entities that shall be eligible to bid in the auction of the C-block and D-block licenses described in clause (i) shall be those entities that were qualified entities, and that submitted applications to participate in auction 44, by May 8,

2002, as part of the original auction 44 short form filing deadline.

(iii) AUCTION DEADLINES FOR EXCEPTED BLOCKS.—Notwithstanding subparagraph (B), the auction of the C-block and D-block licenses described in clause (i) shall be commenced no earlier than August 19, 2002, and no later than September 19, 2002, and the proceeds of such auction shall be deposited in accordance with paragraph (8) not later than December 31, 2002.

【Clause (iv) was repealed by section 402(i)(4)(B) of division P of Public Law 115–141. 】

(v) ADDITIONAL DEADLINES FOR RECOVERED ANALOG SPECTRUM.—Notwithstanding subparagraph (B), the Commission shall conduct the auction of the licenses for recovered analog spectrum by commencing the bidding not later than January 28, 2008, and shall deposit the proceeds of such auction in accordance with paragraph (8)(E)(ii) not later than June 30, 2008.

(vi) RECOVERED ANALOG SPECTRUM.—For purposes of clause (v), the term “recovered analog spectrum” means the spectrum between channels 52 and 69, inclusive (between frequencies 698 and 806 megahertz, inclusive) reclaimed from analog television service broadcasting under paragraph (14), other than—

(I) the spectrum required by section 337 to be made available for public safety services; and

(II) the spectrum auctioned prior to the date of enactment of the Digital Television Transition and Public Safety Act of 2005.

(D) RETURN OF PAYMENTS.—Within one month after the date of enactment of this paragraph, the Commission shall return to the bidders for licenses in the A-block, B-block, and E-block of auction 44 the full amount of all upfront payments made by such bidders for such licenses.

(16) SPECIAL AUCTION PROVISIONS FOR ELIGIBLE FREQUENCIES.—

(A) SPECIAL REGULATIONS.—The Commission shall revise the regulations prescribed under paragraph (4)(F) of this subsection to prescribe methods by which the total cash proceeds from any auction of eligible frequencies described in section 113(g)(2) of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 923(g)(2)) shall at least equal 110 percent of the total estimated relocation or sharing costs provided to the Commission pursuant to section 113(g)(4) of such Act.

(B) CONCLUSION OF AUCTIONS CONTINGENT ON MINIMUM PROCEEDS.—The Commission shall not conclude any auction of eligible frequencies described in section 113(g)(2) of such Act if the total cash proceeds attributable to such spectrum are less than 110 percent of the total estimated relocation or sharing costs provided to the Commission pursuant to section 113(g)(4) of such Act. If the Commission is unable to conclude an auction for the fore-

going reason, the Commission shall cancel the auction, return within 45 days after the auction cancellation date any deposits from participating bidders held in escrow, and absolve such bidders from any obligation to the United States to bid in any subsequent reauction of such spectrum.

(C) **AUTHORITY TO ISSUE PRIOR TO DEAUTHORIZATION.**—In any auction conducted under the regulations required by subparagraph (A), the Commission may grant a license assigned for the use of eligible frequencies prior to the termination of an eligible Federal entity's authorization. However, the Commission shall condition such license by requiring that the licensee cannot cause harmful interference to such Federal entity until such entity's authorization has been terminated by the National Telecommunications and Information Administration.

(17) **CERTAIN CONDITIONS ON AUCTION PARTICIPATION PROHIBITED.**—

(A) **IN GENERAL.**—Notwithstanding any other provision of law, the Commission may not prevent a person from participating in a system of competitive bidding under this subsection if such person—

(i) complies with all the auction procedures and other requirements to protect the auction process established by the Commission; and

(ii) either—

(I) meets the technical, financial, character, and citizenship qualifications that the Commission may require under section 303(l)(1), 308(b), or 310 to hold a license; or

(II) would meet such license qualifications by means approved by the Commission prior to the grant of the license.

(B) **CLARIFICATION OF AUTHORITY.**—Nothing in subparagraph (A) affects any authority the Commission has to adopt and enforce rules of general applicability, including rules concerning spectrum aggregation that promote competition.

(18) **ESTIMATE OF UPCOMING AUCTIONS.**—

(A) Not later than September 30, 2018, and annually thereafter, the Commission shall make publicly available an estimate of what systems of competitive bidding authorized under this subsection may be initiated during the upcoming 12-month period.

(B) The estimate under subparagraph (A) shall, to the extent possible, identify the bands of frequencies the Commission expects to be included in each such system of competitive bidding.

(k) **BROADCAST STATION RENEWAL PROCEDURES.**—

(1) **STANDARDS FOR RENEWAL.**—If the licensee of a broadcast station submits an application to the Commission for renewal of such license, the Commission shall grant the application if it finds, with respect to that station, during the preceding term of its license—

(A) the station has served the public interest, convenience, and necessity;

(B) there have been no serious violations by the licensee of this Act or the rules and regulations of the Commission; and

(C) there have been no other violations by the licensee of this Act or the rules and regulations of the Commission which, taken together, would constitute a pattern of abuse.

(2) CONSEQUENCE OF FAILURE TO MEET STANDARD.—If any licensee of a broadcast station fails to meet the requirements of this subsection, the Commission may deny the application for renewal in accordance with paragraph (3), or grant such application on terms and conditions as are appropriate, including renewal for a term less than the maximum otherwise permitted.

(3) STANDARDS FOR DENIAL.—If the Commission determines, after notice and opportunity for a hearing as provided in subsection (e), that a licensee has failed to meet the requirements specified in paragraph (1) and that no mitigating factors justify the imposition of lesser sanctions, the Commission shall—

(A) issue an order denying the renewal application filed by such licensee under section 308; and

(B) only thereafter accept and consider such applications for a construction permit as may be filed under section 308 specifying the channel or broadcasting facilities of the former licensee.

(4) COMPETITOR CONSIDERATION PROHIBITED.—In making the determinations specified in paragraph (1) or (2), the Commission shall not consider whether the public interest, convenience, and necessity might be served by the grant of a license to a person other than the renewal applicant.

(1) APPLICABILITY OF COMPETITIVE BIDDING TO PENDING COMPARATIVE LICENSING CASES.—With respect to competing applications for initial licenses or construction permits for commercial radio or television stations that were filed with the Commission before July 1, 1997, the Commission shall—

(1) have the authority to conduct a competitive bidding proceeding pursuant to subsection (j) to assign such license or permit;

(2) treat the persons filing such applications as the only persons eligible to be qualified bidders for purposes of such proceeding; and

(3) waive any provisions of its regulations necessary to permit such persons to enter an agreement to procure the removal of a conflict between their applications during the 180-day period beginning on the date of enactment of the Balanced Budget Act of 1997.

SEC. 310. [47 U.S.C. 310] LIMITATION ON HOLDING AND TRANSFER OF LICENSES.

(a) The station license required under this Act shall not be granted to or held by any foreign government or the representative thereof.

(b) No broadcast or common carrier or aeronautical en route or aeronautical fixed radio station license shall be granted to or held by—

- (1) any alien or the representative of any alien;
- (2) any corporation organized under the laws of any foreign government;
- (3) any corporation of which more than one-fifth of the capital stock is owned of record or voted by aliens or their representatives or by a foreign government or representative thereof or by any corporation organized under the laws of a foreign country;
- (4) any corporation directly or indirectly controlled by any other corporation of which more than one-fourth of the capital stock is owned of record or voted by aliens, their representatives, or by a foreign government or representative thereof, or by any corporation organized under the laws of a foreign country, if the Commission finds that the public interest will be served by the refusal or revocation of such license.

(c) In addition to amateur station licenses which the Commission may issue to aliens pursuant to this Act, the Commission may issue authorizations, under such conditions and terms as it may prescribe, to permit an alien licensed by his government as an amateur radio operator to operate his amateur radio station licensed by his government in the United States, its possessions, and the Commonwealth of Puerto Rico provided there is in effect a multilateral or bilateral agreement, to which the United States and the alien's government are parties, for such operation on a reciprocal basis by United States amateur radio operators. Other provisions of this Act and of the Administrative Procedure Act shall not be applicable to any request or application for or modification, suspension, or cancellation of any such authorization.

(d) No construction permit or station license, or any rights thereunder, shall be transferred, assigned, or disposed of in any manner, voluntarily or involuntarily, directly or indirectly, or by transfer of control of any corporation holding such permit or license, to any person except upon application to the Commission and upon finding by the Commission that the public interest, convenience, and necessity will be served thereby. Any such application shall be disposed of as if the proposed transferee or assignee were making application under section 308 for the permit or license in question; but in acting thereon the Commission may not consider whether the public interest, convenience, and necessity might be served by the transfer, assignment, or disposal of the permit or license to a person other than the proposed transferee or assignee.

(e)(1) In the case of any broadcast station, and any ownership interest therein, which is excluded from the regional concentration rules by reason of the savings provision for existing facilities provided by the First Report and Order adopted March 9, 1977 (docket No. 20548; 42 Fed. Reg. 16145), the exclusion shall not terminate solely by reason of changes made in the technical facilities of the station to improve its service.

(2) For purposes of this subsection, the term "regional concentration rules" means the provisions of sections 73.35, 73.240, and 73.636 of title 47, Code of Federal Regulations (as in effect

June 1, 1983), which prohibit any party from directly or indirectly owning, operating, or controlling three broadcast stations in one or several services where any two of such stations are within 100 miles of the third (measured city-to-city), and where there is a primary service contour overlap of any of the stations.

SEC. 311. [47 U.S.C. 311] SPECIAL REQUIREMENTS WITH RESPECT TO CERTAIN APPLICATIONS IN THE BROADCASTING SERVICE.

(a) When there is filed with the Commission any application to which section 309(b)(1) applies, for an instrument of authorization for a station in the broadcasting service, the applicant—

(1) shall give notice of such filing in the principal area which is served or is to be served by the station; and

(2) if the application is formally designated for hearing in accordance with section 309, shall give notice of such hearing in such area at least ten days before commencement of such hearing.

The Commission shall by rule prescribe the form and content of the notices to be given in compliance with this subsection, and the manner and frequency with which such notices shall be given.

(b) Hearings referred to in subsection (a) may be held at such places as the Commission shall determine to be appropriate, and in making such determination in any case the Commission shall consider whether the public interest, convenience, or necessity will be served by conducting the hearing at a place in, or in the vicinity of, the principal area to be served by the station involved.

(c)(1) If there are pending before the Commission two or more applications for a permit for construction of a broadcasting station, only one of which can be granted, it shall be unlawful, without approval of the Commission, for the applicants or any of them to effectuate an agreement whereby one or more of such applicants withdraws his or their application or applications.

(2) The request for Commission approval in any such case shall be made in writing jointly by all the parties to the agreement. Such request shall contain or be accompanied by full information with respect to the agreement, set forth in such detail, form, and manner as the Commission shall by rule require.

(3) The Commission shall approve the agreement only if it determines that (A) the agreement is consistent with the public interest, convenience, or necessity; and (B) no party to the agreement filed its application for the purpose of reaching or carrying out such agreement.

(4) For the purposes of this subsection an application shall be deemed to be “pending” before the Commission from the time such application is filed with the Commission until an order of the Commission granting or denying it is no longer subject to rehearing by the Commission or to review by any court.

(d)(1) If there are pending before the Commission an application for the renewal of a license granted for the operation of a broadcasting station and one or more applications for a construction permit relating to such station, only one of which can be granted, it shall be unlawful, without approval of the Commission, for the applicants or any of them to effectuate an agreement whereby one or more of such applicants withdraws his or their application

or applications in exchange for the payment of money, or the transfer of assets or any other thing of value by the remaining applicant or applicants.

(2) The request for Commission approval in any such case shall be made in writing jointly by all the parties to the agreement. Such request shall contain or be accompanied by full information with respect to the agreement, set forth in such detail, form, and manner as the Commission shall require.

(3) The Commission shall approve the agreement only if it determines that (A) the agreement is consistent with the public interest, convenience, or necessity; and (B) no party to the agreement filed its application for the purpose of reaching or carrying out such agreement.

(4) For purposes of this subsection, an application shall be deemed to be pending before the Commission from the time such application is filed with the Commission until an order of the Commission granting or denying it is no longer subject to rehearing by the Commission or to review by any court.

SEC. 312. [47 U.S.C. 312] ADMINISTRATIVE SANCTIONS.

(a) The Commission may revoke any station license or construction permit—

(1) for false statements knowingly made either in the application or in any statement of fact which may be required pursuant to section 308;

(2) because of conditions coming to the attention of the Commission which would warrant it in refusing to grant a license or permit on an original application;

(3) for willful or repeated failure to operate substantially as set forth in the license;

(4) for willful or repeated violation of, or willful or repeated failure to observe any provision of this Act or any rule or regulation of the Commission authorized by this Act or by a treaty ratified by the United States;

(5) for violation of or failure to observe any final cease and desist order issued by the Commission under this section;

(6) for violation of section 1304, 1343, or 1464 of title 18 of the United States Code; or

(7) for willful or repeated failure to allow reasonable access to or to permit purchase of reasonable amounts of time for the use of a broadcasting station, other than a non-commercial educational broadcast station, by a legally qualified candidate for Federal elective office on behalf of his candidacy.

(b) Where any person (1) has failed to operate substantially as set forth in a license, (2) has violated or failed to observe any of the provisions of this Act, or section 1304, 1343, or 1464 of title 18 of the United States Code, or (3) has violated or failed to observe any rule or regulation of the Commission authorized by this Act or by a treaty ratified by the United States, the Commission may order such person to cease and desist from such action.

(c) Before revoking a license or permit pursuant to subsection (a), or issuing a cease and desist order pursuant to subsection (b), the Commission shall serve upon the licensee, permittee, or person involved an order to show cause why an order of revocation or a

cease and desist order should not be issued. Any such order to show cause shall contain a statement of the matters with respect to which the Commission is inquiring and shall call upon said licensee, permittee, or person to appear before the Commission at a time and place stated in the order, but in no event less than thirty days after the receipt of such order, and give evidence upon the matter specified therein; except that where safety of life or property is involved, the Commission may provide in the order for a shorter period. If after hearing, or a waiver thereof, the Commission determines that an order of revocation or a cease and desist order should issue, it shall issue such order, which shall include a statement of the findings of the Commission and the grounds and reasons therefor and specify the effective date of the order, and shall cause the same to be served on said licensee, permittee, or person.

(d) In any case where a hearing is conducted pursuant to the provisions of this section, both the burden of proceeding with the introduction of evidence and the burden of proof shall be upon the Commission.

(e) The provisions of section 9(b)²⁶ of the Administrative Procedure Act which apply with respect to the institution of any proceeding for the revocation of a license or permit shall apply also with respect to the institution, under this section, of any proceeding for the issuance of a cease and desist order.

(f) For purposes of this section:

(1) The term “willful”, when used with reference to the commission or omission of any act, means the conscious and deliberate commission or omission of such act, irrespective of any intent to violate any provision of this Act or any rule or regulation of the Commission authorized by this Act or by a treaty ratified by the United States.

(2) The term “repeated”, when used with reference to the commission or omission of any act, means the commission or omission of such act more than once or, if such commission or omission is continuous, for more than one day.

(g) If a broadcasting station fails to transmit broadcast signals for any consecutive 12-month period, then the station license granted for the operation of that broadcast station expires at the end of that period, notwithstanding any provision, term, or condition of the license to the contrary, except that the Commission may extend or reinstate such station license if the holder of the station license prevails in an administrative or judicial appeal, the applicable law changes, or for any other reason to promote equity and fairness. Any broadcast license revoked or terminated in Alaska in a proceeding related to broadcasting via translator, microwave, or other alternative signal delivery is reinstated.

SEC. 313. [47 U.S.C. 313] APPLICATION OF ANTITRUST LAWS; REFUSAL OF LICENSES AND PERMITS IN CERTAIN CASES.

(a) All laws of the United States relating to unlawful restraints and monopolies and to combinations, contracts or agreements in restraint of trade are hereby declared to be applicable to the manufacture and sale of and to trade in radio apparatus and devices en-

²⁶ 5 U.S.C. 558(c)(1) and (2)

tering into or affecting interstate or foreign commerce and to interstate or foreign radio communications. Whenever in any suit, action, or proceeding, civil or criminal, brought under the provisions of any of said laws or in any proceedings brought to enforce or to review findings and orders of the Federal Trade Commission or other governmental agency in respect of any matters as to which said Commission or other governmental agency is by law authorized to act, any licensee shall be found guilty of the violation of the provisions of such laws or any of them, the court, in addition to the penalties imposed by said laws, may adjudge, order, and/or decree that the license of such licensee shall, as of the date the decree or judgment becomes finally effective or as of such date as the said decree shall fix, be revoked and that all rights under such license shall thereupon cease: *Provided, however,* That such licensee shall have the same right of appeal or review, as is provided by law in respect of other decrees and judgments of said court.

(b) The Commission is hereby directed to refuse a station license and/or the permit hereinafter required for the construction of a station to any person (or to any person directly or indirectly controlled by such person) whose license has been revoked by a court under this section.

SEC. 314. [47 U.S.C. 314] PRESERVATION OF COMPETITION IN COMMERCE.

After the effective date of this Act no person engaged directly, or indirectly through any person directly or indirectly controlling or controlled by, or under direct or indirect common control with, such person, or through an agent, or otherwise, in the business of transmitting and/or receiving for hire energy, communications, or signals by radio in accordance with the terms of the license issued under this Act, shall by purchase, lease, construction, or otherwise, directly or indirectly, acquire, own, control, or operate any cable or wire telegraph or telephone line or system between any place in any State, Territory, or possession of the United States or in the District of Columbia, and any place in any foreign country, or shall acquire, own, or control any part of the stock or other capital share or any interest in the physical property and/or other assets of any such cable, wire, telegraph, or telephone line or system, if in either case the purpose is and/or the effect thereof may be to substantially lessen competition or to restrain commerce between any place in any State, Territory, or possession of the United States, or in the District of Columbia, and any place in any foreign country, or unlawfully to create monopoly in any line of commerce; nor shall any person engaged directly, or indirectly through any person directly or indirectly controlling or controlled by, or under direct or indirect common control with, such person, or through an agent, or otherwise, in the business of transmitting and/or receiving for hire messages by any cable, wire, telegraph, or telephone line or system (a) between any place in any State, Territory, or possession of the United States, or in the District of Columbia, and any place in any other State, Territory, or possession of the United States; or (b) between any place in any State, Territory, or possession of the United States, or in the District of Columbia, and any place in any foreign country, by purchase, lease, construction, or otherwise, directly or indirectly acquire, own, control, or operate any station or the appa-

ratus therein, or any system for transmitting and/or receiving radio communications or signals between any place in any State, Territory, or possession of the United States, or in the District of Columbia, and any place in any foreign country, or shall acquire, own, or control any part of the stock or other capital share of any interest in the physical property and/or other assets of any such radio station, apparatus, or system, if in either case, the purpose is and/or the effect thereof may be to substantially lessen competition or to restrain commerce between any place in any State, Territory, or possession of the United States, or in the District of Columbia, and any place in any foreign country, or unlawfully to create monopoly in any line of commerce.

SEC. 315. [47 U.S.C. 315] FACILITIES FOR CANDIDATES FOR PUBLIC OFFICE.

(a) If any licensee shall permit any person who is a legally qualified candidate for any public office to use a broadcasting station, he shall afford equal opportunities to all other such candidates for that office in the use of such broadcasting station: *Provided*, That such licensee shall have no power of censorship over the material broadcast under the provision of this section. No obligation is hereby imposed under this subsection upon any licensee to allow the use of its station by any such candidate. Appearance by a legally qualified candidate on any—

- (1) bona fide newscast,
- (2) bona fide news interview,
- (3) bona fide news documentary (if the appearance of the candidate is incidental to the presentation of the subject or subjects covered by the news documentary), or
- (4) on-the-spot coverage of bona fide news events (including but not limited to political conventions and activities incidental thereto),

shall not be deemed to be use of a broadcasting station within the meaning of this subsection. Nothing in the foregoing sentence shall be construed as relieving broadcasters, in connection with the presentation of newscasts, news interviews, news documentaries, and on-the-spot coverage of news events, from the obligation imposed upon them under this Act to operate in the public interest and to afford reasonable opportunity for the discussion of conflicting views on issues of public importance.

(b) ²⁷ CHARGES.—

(1) IN GENERAL.—The charges made for the use of any broadcasting station by any person who is a legally qualified candidate for any public office in connection with his campaign for nomination for election, or election, to such office shall not exceed—

(A) subject to paragraph (2), during the forty-five days preceding the date of a primary or primary runoff election and

²⁷The Bipartisan Campaign Reform Act of 2002 (PL 107-155) amended section 315 of the Communications Act of 1934. Section 201(b) of the Bipartisan Campaign Reform Act of 2002 contained the following provision:

(b) [2 U.S.C. 434 note] RESPONSIBILITIES OF FEDERAL COMMUNICATIONS COMMISSION.—The Federal Communications Commission shall compile and maintain any information the Federal Election Commission may require to carry out section 304(f) of the Federal Election Campaign Act of 1971 (as added by subsection (a)), and shall make such information available to the public on the Federal Communication Commission's website.

during the sixty days preceding the date of a general or special election in which such person is a candidate, the lowest unit charge of the station for the same class and amount of time for the same period; and

(B) at any other time, the charges made for comparable use of such station by other users thereof.

(2) CONTENT OF BROADCASTS.—

(A) IN GENERAL.—In the case of a candidate for Federal office, such candidate shall not be entitled to receive the rate under paragraph (1)(A) for the use of any broadcasting station unless the candidate provides written certification to the broadcast station that the candidate (and any authorized committee of the candidate) shall not make any direct reference to another candidate for the same office, in any broadcast using the rights and conditions of access under this Act, unless such reference meets the requirements of subparagraph (C) or (D).

(B) LIMITATION ON CHARGES.—If a candidate for Federal office (or any authorized committee of such candidate) makes a reference described in subparagraph (A) in any broadcast that does not meet the requirements of subparagraph (C) or (D), such candidate shall not be entitled to receive the rate under paragraph (1)(A) for such broadcast or any other broadcast during any portion of the 45-day and 60-day periods described in paragraph (1)(A), that occur on or after the date of such broadcast, for election to such office.

(C) TELEVISION BROADCASTS.—A candidate meets the requirements of this subparagraph if, in the case of a television broadcast, at the end of such broadcast there appears simultaneously, for a period no less than 4 seconds—

(i) a clearly identifiable photographic or similar image of the candidate; and

(ii) a clearly readable printed statement, identifying the candidate and stating that the candidate has approved the broadcast and that the candidate's authorized committee paid for the broadcast.

(D) RADIO BROADCASTS.—A candidate meets the requirements of this subparagraph if, in the case of a radio broadcast, the broadcast includes a personal audio statement by the candidate that identifies the candidate, the office the candidate is seeking, and indicates that the candidate has approved the broadcast.

(E) CERTIFICATION.—Certifications under this section shall be provided and certified as accurate by the candidate (or any authorized committee of the candidate) at the time of purchase.

(F) DEFINITIONS.—For purposes of this paragraph, the terms “authorized committee” and “Federal office” have the meanings given such terms by section 301 of the Federal Election Campaign Act of 1971 (2 U.S.C. 431).

(c) For purposes of this section—

(1) the term “broadcasting station” includes a community antenna television system; and

(2) the term “licensee” and “station licensee” when used with respect to a community antenna television system mean the operator of such system.

(d) The Commission shall prescribe appropriate rules and regulations to carry out the provisions of this section.

(e)²⁸ POLITICAL RECORD.—

(1) IN GENERAL.—A licensee shall maintain, and make available for public inspection, a complete record of a request to purchase broadcast time that—

(A) is made by or on behalf of a legally qualified candidate for public office; or

(B) communicates a message relating to any political matter of national importance, including—

(i) a legally qualified candidate;

(ii) any election to Federal office; or

(iii) a national legislative issue of public importance.

(2) CONTENTS OF RECORD.—A record maintained under paragraph (1) shall contain information regarding—

(A) whether the request to purchase broadcast time is accepted or rejected by the licensee;

(B) the rate charged for the broadcast time;

(C) the date and time on which the communication is aired;

(D) the class of time that is purchased;

(E) the name of the candidate to which the communication refers and the office to which the candidate is seeking election, the election to which the communication refers, or the issue to which the communication refers (as applicable);

(F) in the case of a request made by, or on behalf of, a candidate, the name of the candidate, the authorized committee of the candidate, and the treasurer of such committee; and

(G) in the case of any other request, the name of the person purchasing the time, the name, address, and phone number of a contact person for such person, and a list of the chief executive officers or members of the executive committee or of the board of directors of such person.

(3) TIME TO MAINTAIN FILE.—The information required under this subsection shall be placed in a political file as soon as possible and shall be retained by the licensee for a period of not less than 2 years.

SEC. 316. [47 U.S.C. 316] MODIFICATION BY COMMISSION OF CONSTRUCTION PERMITS OR LICENSES.

(a)(1) Any station license or construction permit may be modified by the Commission either for a limited time or for the duration of the term thereof, if in the judgment of the Commission such action will promote the public interest, convenience, and necessity, or

²⁸Effective November 6, 2002, section 504 of the Bipartisan Campaign Reform Act of 2002 (P.L. 107-155; 116 Stat. 115) amends section 315 by redesignating subsections (e) and (f) as subsections (f) and (g), respectively, and inserting after subsection (d) a new subsection (e), shown above. The amendment probably should have been to insert subsection (e) at the end of section 315, since subsections (e) and (f) do not appear in law.

the provisions of this Act or of any treaty ratified by the United States will be more fully complied with. No such order of modification shall become final until the holder of the license or permit shall have been notified in writing of the proposed action and the grounds and reasons therefor, and shall be given reasonable opportunity, of at least thirty days, to protest such proposed order of modification; except that, where safety of life or property is involved, the Commission may by order provide, for a shorter period of notice.

(2) Any other licensee or permittee who believes its license or permit would be modified by the proposed action may also protest the proposed action before its effective date.

(3) A protest filed pursuant to this subsection shall be subject to the requirements of section 309 for petitions to deny.

(b) In any case where a hearing is conducted pursuant to the provisions of this section, both the burden of proceeding with the introduction of evidence and the burden of proof shall be upon the Commission; except that, with respect to any issue that addresses the question of whether the proposed action would modify the license or permit of a person described in subsection (a)(2), such burdens shall be as determined by the Commission.

SEC. 317. [47 U.S.C. 317] ANNOUNCEMENT WITH RESPECT TO CERTAIN MATTER BROADCAST.

(a)(1) All matter broadcast by any radio station for which any money, service or other valuable consideration is directly or indirectly paid, or promised to or charged or accepted by, the station so broadcasting, from any person, shall, at the time the same is so broadcast, be announced as paid for or furnished, as the case may be, by such person: *Provided*, That "service or other valuable consideration" shall not include any service or property furnished without charge or at a nominal charge for use on, or in connection with, a broadcast unless it is so furnished in consideration for an identification in a broadcast of any person, product, service, trademark, or brand name beyond an identification which is reasonably related to the use of such service or property on the broadcast.

(2) Nothing in this section shall preclude the Commission from requiring that an appropriate announcement shall be made at the time of the broadcast in the case of any political program or any program involving the discussion of any controversial issue for which any films, records, transcriptions, talent, scripts, or other material or service of any kind have been furnished, without charge or at a nominal charge, directly or indirectly, as an inducement to the broadcast of such program.

(b) In any case where a report has been made to a radio station, as required by section 507 of this Act, of circumstances which would have required an announcement under this section had the consideration been received by such radio station, an appropriate announcement shall be made by such radio station.

(c) The licensee of each radio station shall exercise reasonable diligence to obtain from its employees, and from other persons with whom it deals directly in connection with any program or program matter for broadcast, information to enable such licensee to make the announcement required by this section.

(d) The Commission may waive the requirement of an announcement as provided in this section in any case or class of cases with respect to which it determines that the public interest, convenience, or necessity does not require the broadcasting of such announcement.

(e) The Commission shall prescribe appropriate rules and regulations to carry out the provisions of this section.

SEC. 318. [47 U.S.C. 318] OPERATION OF TRANSMITTING APPARATUS.

The actual operation of all transmitting apparatus in any radio station for which a station license is required by this Act shall be carried on only by a person holding an operator's license issued hereunder, and no person shall operate any such apparatus in such station except under and in accordance with an operator's license issued to him by the Commission: *Provided, however,* That the Commission if it shall find that the public interest, convenience, or necessity will be served thereby may waive or modify the foregoing provisions of this section for the operation of any station except (1) stations for which licensed operators are required by international agreement, (2) stations for which licensed operators are required for safety purposes, and (3) stations operated as common carriers on frequencies below thirty thousand kilocycles: *Provided further,* That the Commission shall have power to make special regulations governing the granting of licenses for the use of automatic radio devices and for the operation of such devices.

SEC. 319. [47 U.S.C. 319] CONSTRUCTION PERMITS.

(a) No license shall be issued under the authority of this Act for the operation of any station unless a permit for its construction has been granted by the Commission. The application for a construction permit shall set forth such facts as the Commission by regulation may prescribe as to the citizenship, character, and the financial, technical, and other ability of the applicant to construct and operate the station, the ownership and location of the proposed station and of the station or stations with which it is proposed to communicate, the frequencies desired to be used, the hours of the day or other periods of time during which it is proposed to operate the station, the purpose for which the station is to be used, the type of transmitting apparatus to be used, the power to be used, the date upon which the station is expected to be completed and in operation, and such other information as the Commission may require. Such application shall be signed by the applicant in any manner or form, including by electronic means, as the Commission may prescribe by regulation.

(b) Such permit for construction shall show specifically the earliest and latest dates between which the actual operation of such station is expected to begin, and shall provide that said permit will be automatically forfeited if the station is not ready for operation within the time specified or within such further time as the Commission may allow, unless prevented by causes not under the control of the grantee.

(c) Upon the completion of any station for the construction or continued construction of which a permit has been granted, and upon it being made to appear to the Commission that all the terms, conditions, and obligations set forth in the application and permit

have been fully met, and that no cause or circumstance arising or first coming to the knowledge of the Commission since the granting of the permit would, in the judgment of the Commission, make the operation of such station against the public interest, the Commission shall issue a license to the lawful holder of said permit for the operation of said station. Said license shall conform generally to the terms of said permit. The provisions of section 309 (a), (b), (c), (d), (e), (f), and (g) shall not apply with respect any station license the issuance of which is provided for and governed by the provisions of this subsection.

(d) A permit for construction shall not be required for Government stations, amateur stations, or mobile stations. A permit for construction shall not be required for public coast stations, privately owned fixed microwave stations, or stations licensed to common carriers, unless the Commission determines that the public interest, convenience, and necessity would be served by requiring such permits for any such stations. With respect to any broadcasting station, the Commission shall not have any authority to waive the requirement of a permit for construction, except that the Commission may by regulation determine that a permit shall not be required for minor changes in the facilities of authorized broadcast stations. With respect to any other station or class of stations, the Commission shall not waive the requirement for a construction permit unless the Commission determines that the public interest, convenience, and necessity would be served by such a waiver.

SEC. 320. [47 U.S.C. 320] DESIGNATION OF STATIONS LIABLE TO INTERFERE WITH DISTRESS SIGNALS.

The Commission is authorized to designate from time to time radio stations the communications or signals of which, in its opinion, are liable to interfere with the transmission or reception of distress signals of ships. Such stations are required to keep a licensed radio operator listening in on the frequencies designated for signals of distress and radio communications relating thereto during the entire period the transmitter of such station is in operation.

SEC. 321. [47 U.S.C. 321] DISTRESS SIGNALS AND COMMUNICATIONS.

(a) The transmitting set in a radio station on shipboard may be adjusted in such a manner as to produce a maximum of radiation, irrespective of the amount of interference which may thus be caused, when such station is sending radio communications or signals of distress and radio communications relating thereto.

(b) All radio stations, including Government stations and stations on board foreign vessels when within the territorial waters of the United States, shall give absolute priority to radio communications or signals relating to ships in distress; shall cease all sending on frequencies which will interfere with hearing a radio communication or signal of distress, and, except when engaged in answering or aiding the ship in distress, shall refrain from sending any radio communications or signals until there is assurance that no interference will be caused with the radio communications or signals relating thereto, and shall assist the vessel in distress, so far as possible, by complying with its instructions.

SEC. 322. [47 U.S.C. 322] INTERCOMMUNICATION IN MOBILE SERVICE.

Every land station open to general public service between the coast and vessels or aircraft at sea shall, within the scope of its normal operations, be bound to exchange radio communications or signals with any ship or aircraft station at sea; and each station on shipboard or aircraft at sea shall, within the scope of its normal operations, be bound to exchange radio communications or signals with any other station on shipboard or aircraft at sea or with any land station open to general public service between the coast and vessels or aircraft at sea: *Provided*, That such exchange of radio communication shall be without distinction as to radio systems or instruments adopted by each station.

SEC. 323. [47 U.S.C. 323] INTERFERENCE BETWEEN GOVERNMENT AND COMMERCIAL STATIONS.

(a) At all places where Government and private or commercial radio stations on land operate in such close proximity that interference with the work of Government stations cannot be avoided when they are operating simultaneously, such private or commercial stations as do interfere with the transmission or reception of radio communications or signals by the Government stations concerned shall not use their transmitters during the first fifteen minutes of each hour, local standard time.

(b) The Government stations for which the above-mentioned division of time is established shall transmit radio communications or signals only during the first fifteen minutes of each hour, local standard time, except in case of signals or radio communications relating to vessels in distress and vessel requests for information as to course, location, or compass direction.

SEC. 324. [47 U.S.C. 324] USE OF MINIMUM POWER.

In all circumstances, except in case of radio communications or signals relating to vessels in distress, all radio stations, including those owned and operated by the United States, shall use the minimum amount of power necessary to carry out the communication desired.

SEC. 325. [47 U.S.C. 325] FALSE DISTRESS SIGNALS; REBROADCASTING; STUDIOS OF FOREIGN STATIONS.

(a) No person within the jurisdiction of the United States shall knowingly utter or transmit, or cause to be uttered or transmitted, any false or fraudulent signals of distress, or communication relating thereto, nor shall any broadcasting station rebroadcast the program or any part thereof of another broadcasting station without the express authority of the originating station.

(b)(1) No cable system or other multichannel video programming distributor shall retransmit the signal of a broadcasting station, or any part thereof, except—

(A) with the express authority of the originating station;

(B) under section 614, in the case of a station electing, in accordance with this subsection, to assert the right to carriage under such section; or

(C) under section 338, in the case of a station electing, in accordance with this subsection, to assert the right to carriage under such section.

(2) This subsection shall not apply—

(A) to retransmission of the signal of a noncommercial television broadcast station;

(B) to retransmission of the signal of a television broadcast station outside the station's local market by a satellite carrier directly to its subscribers, if—

(i) such station was a superstation on May 1, 1991;

(ii) as of July 1, 1998, such station was retransmitted by a satellite carrier under the statutory license of section 119 of title 17, United States Code; and

(iii) the satellite carrier complies with any network nonduplication, syndicated exclusivity, and sports blackout rules adopted by the Commission under section 339(b) of this Act;

(C) to retransmission of the signals of network stations directly to a home satellite antenna under the statutory license of section 119 of title 17, United States Code;

(D) to retransmission by a cable operator or other multi-channel video provider, other than a satellite carrier, of the signal of a television broadcast station outside the station's local market if such signal was obtained from a satellite carrier and—

(i) the originating station was a superstation on May 1, 1991; and

(ii) as of July 1, 1998, such station was retransmitted by a satellite carrier under the statutory license of section 119 of title 17, United States Code; or

(E) during the 6-month period beginning on the date of the enactment of the Satellite Home Viewer Improvement Act of 1999, to the retransmission of the signal of a television broadcast station within the station's local market by a satellite carrier directly to its subscribers under the statutory license of section 122 of title 17, United States Code.

For purposes of this paragraph, the terms "satellite carrier" and "superstation" have the meanings given those terms, respectively, in section 119(d) of title 17, United States Code, as in effect on the date of the enactment of the Cable Television Consumer Protection and Competition Act of 1992²⁹.

(3)(A) Within 45 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, the Commission shall commence a rulemaking proceeding to establish regulations to govern the exercise by television broadcast stations of the right to grant retransmission consent under this subsection and of the right to signal carriage under section 614, and such other regulations as are necessary to administer the limitations contained in paragraph (2). The Commission shall consider in such proceeding the impact that the grant of retransmission consent by television stations may have on the rates for the basic service tier and shall ensure that the regulations prescribed under this sub-

²⁹Section 1003(c)(1) of division P of Public Law 116-94 amended paragraph (2) by striking "and the term 'local market' has the meaning given that term in section 122(j) of such title". Subsection (d) of such section 1003 provides "The amendments made by this section, and the regulations promulgated by the Federal Communications Commission under such amendments, shall not take effect before January 1 of the calendar year after the calendar year in which this Act is enacted" [Enactment date was December 20, 2019].

section do not conflict with the Commission's obligation under section 623(b)(1) to ensure that the rates for the basic service tier are reasonable. Such rulemaking proceeding shall be completed within 180 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992.

(B) The regulations required by subparagraph (A) shall require that television stations, within one year after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992 and every three years thereafter, make an election between the right to grant retransmission consent under this subsection and the right to signal carriage under section 614. If there is more than one cable system which services the same geographic area, a station's election shall apply to all such cable systems.

(C)³⁰ The Commission shall commence a rulemaking proceeding to revise the regulations governing the exercise by television broadcast stations of the right to grant retransmission consent under this subsection, and such other regulations as are necessary to administer the limitations contained in paragraph (2). Such regulations shall—

(i) establish election time periods that correspond with those regulations adopted under subparagraph (B) of this paragraph;

(ii) prohibit a television broadcast station that provides retransmission consent from engaging in exclusive contracts for carriage or failing to negotiate in good faith, and it shall not be a failure to negotiate in good faith if the television broadcast station enters into retransmission consent agreements containing different terms and conditions, including price terms, with different multichannel video programming distributors if such different terms and conditions are based on competitive marketplace considerations;

(iii) prohibit a multichannel video programming distributor from failing to negotiate in good faith for retransmission consent under this section, and it shall not be a failure to negotiate in good faith if the distributor enters into retransmission consent agreements containing different terms and conditions, including price terms, with different broadcast stations if such different terms and conditions are based on competitive marketplace considerations;

(iv) prohibit a television broadcast station from coordinating negotiations or negotiating on a joint basis with another television broadcast station in the same local market to grant retransmission consent under this section to a multichannel video programming distributor, unless such stations are directly or indirectly under common de jure control permitted under the regulations of the Commission;

(v) prohibit a television broadcast station from limiting the ability of a multichannel video programming distributor to carry into the local market of such station a television signal

³⁰ Subsections (a) and (c)(2) of section 1003 of division P of Public Law 116–94 amended subparagraph (C) of section 325(b)(3). Subsection (d) of such section 1003 provides “The amendments made by this section, and the regulations promulgated by the Federal Communications Commission under such amendments, shall not take effect before January 1 of the calendar year after the calendar year in which this Act is enacted” [Enactment date was December 20, 2019]

that has been deemed significantly viewed, within the meaning of section 76.54 of title 47, Code of Federal Regulations, or any successor regulation, or any other television broadcast signal such distributor is authorized to carry under section 338, 339, 340, or 614 of this Act, unless such stations are directly or indirectly under common de jure control permitted by the Commission; and

(vi) not later than 90 days after the date of the enactment of the Television Viewer Protection Act of 2019, specify that—

(I) a multichannel video programming distributor may satisfy its obligation to negotiate in good faith under clause (iii) with respect to a negotiation for retransmission consent under this section with a large station group by designating a qualified MVPD buying group to negotiate on its behalf, so long as the qualified MVPD buying group itself negotiates in good faith in accordance with such clause;

(II) it is a violation of the obligation to negotiate in good faith under clause (iii) for the qualified MVPD buying group to disclose the prices, terms, or conditions of an ongoing negotiation or the final terms of a negotiation to a member of the qualified MVPD buying group that is not intending, or is unlikely, to enter into the final terms negotiated by the qualified MVPD buying group; and

(III) a large station group has an obligation to negotiate in good faith under clause (ii) with respect to a negotiation for retransmission consent under this section with a qualified MVPD buying group.

(4) If an originating television station elects under paragraph (3)(B) to exercise its right to grant retransmission consent under this subsection with respect to a cable system, the provisions of section 614 shall not apply to the carriage of the signal of such station by such cable system. If an originating television station elects under paragraph (3)(C) to exercise its right to grant retransmission consent under this subsection with respect to a satellite carrier, section 338 shall not apply to the carriage of the signal of such station by such satellite carrier.

(5) The exercise by a television broadcast station of the right to grant retransmission consent under this subsection shall not interfere with or supersede the rights under section 338, 614, or 615 of any station electing to assert the right to signal carriage under that section.

(6) Nothing in this section shall be construed as modifying the compulsory copyright license established in section 111 of title 17, United States Code, or as affecting existing or future video programming licensing agreements between broadcasting stations and video programmers.

(7)³¹ For purposes of this subsection, the term—

³¹ Section 1003(b) of division P of Public Law 116–94 amended paragraph (7) of section 325(b). Subsection (d) of such section 1003 provides “The amendments made by this section, and the regulations promulgated by the Federal Communications Commission under such amendments, shall not take effect before January 1 of the calendar year after the calendar year in which this Act is enacted” [Enactment date was December 20, 2019].

(A) “network station” has the meaning given such term under section 119(d) of title 17, United States Code;

(B) “television broadcast station” means an over-the-air commercial or noncommercial television broadcast station licensed by the Commission under subpart E of part 73 of title 47, Code of Federal Regulations, except that such term does not include a low-power or translator television station;

(C) “qualified MVPD buying group” means an entity that, with respect to a negotiation with a large station group for retransmission consent under this section—

(i) negotiates on behalf of two or more multichannel video programming distributors—

(I) none of which is a multichannel video programming distributor that serves more than 500,000 subscribers nationally; and

(II) that do not collectively serve more than 25 percent of all households served by a multichannel video programming distributor in any single local market in which the applicable large station group operates; and

(ii) negotiates agreements for such retransmission consent—

(I) that contain standardized contract provisions, including billing structures and technical quality standards, for each multichannel video programming distributor on behalf of which the entity negotiates; and

(II) under which the entity assumes liability to remit to the applicable large station group all fees received from the multichannel video programming distributors on behalf of which the entity negotiates;

(D) “large station group” means a group of television broadcast stations that—

(i) are directly or indirectly under common de jure control permitted by the regulations of the Commission;

(ii) generally negotiate agreements for retransmission consent under this section as a single entity; and

(iii) include only television broadcast stations that have a national audience reach of more than 20 percent;

(E) “local market” has the meaning given such term in section 122(j) of title 17, United States Code; and

(F) “multichannel video programming distributor” has the meaning given such term in section 602.

(c) No person shall be permitted to locate, use, or maintain a radio broadcast studio or other place or apparatus from which or whereby sound waves are converted into electrical energy, or mechanical or physical reproduction of sound waves produced, and caused to be transmitted or delivered to a radio station in a foreign country for the purpose of being broadcast from any radio station there having a power output of sufficient intensity and/or being so located geographically that its emissions may be received consistently in the United States, without first obtaining a permit from the Commission upon proper application therefor.

(d) Such application shall contain such information as the Commission may by regulation prescribe, and the granting or refusal thereof shall be subject to the requirements of section 309 hereof with respect to applications for station licenses or renewal or modification thereof, and the license or permission so granted shall be revocable for false statements in the application so required or when the Commission, after hearings, shall find its continuation no longer in the public interest.

(e) ENFORCEMENT PROCEEDINGS AGAINST SATELLITE CARRIERS CONCERNING RETRANSMISSIONS OF TELEVISION BROADCAST STATIONS IN THE RESPECTIVE LOCAL MARKETS OF SUCH CARRIERS.—

(1) COMPLAINTS BY TELEVISION BROADCAST STATIONS.—If after the expiration of the 6-month period described under subsection (b)(2)(E) a television broadcast station believes that a satellite carrier has retransmitted its signal to any person in the local market of such station in violation of subsection (b)(1), the station may file with the Commission a complaint providing—

- (A) the name, address, and call letters of the station;
- (B) the name and address of the satellite carrier;
- (C) the dates on which the alleged retransmission occurred;
- (D) the street address of at least one person in the local market of the station to whom the alleged retransmission was made;
- (E) a statement that the retransmission was not expressly authorized by the television broadcast station; and
- (F) the name and address of counsel for the station.

(2) SERVICE OF COMPLAINTS ON SATELLITE CARRIERS.—For purposes of any proceeding under this subsection, any satellite carrier that retransmits the signal of any broadcast station shall be deemed to designate the Secretary of the Commission as its agent for service of process. A television broadcast station may serve a satellite carrier with a complaint concerning an alleged violation of subsection (b)(1) through retransmission of a station within the local market of such station by filing the original and two copies of the complaint with the Secretary of the Commission and serving a copy of the complaint on the satellite carrier by means of two commonly used overnight delivery services, each addressed to the chief executive officer of the satellite carrier at its principal place of business, and each marked “URGENT LITIGATION MATTER” on the outer packaging. Service shall be deemed complete one business day after a copy of the complaint is provided to the delivery services for overnight delivery. On receipt of a complaint filed by a television broadcast station under this subsection, the Secretary of the Commission shall send the original complaint by United States mail, postage prepaid, receipt requested, addressed to the chief executive officer of the satellite carrier at its principal place of business.

(3) ANSWERS BY SATELLITE CARRIERS.—Within five business days after the date of service, the satellite carrier shall file an answer with the Commission and shall serve the answer by a commonly used overnight delivery service and by

United States mail, on the counsel designated in the complaint at the address listed for such counsel in the complaint.

(4) DEFENSES.—

(A) EXCLUSIVE DEFENSES.—The defenses under this paragraph are the exclusive defenses available to a satellite carrier against which a complaint under this subsection is filed.

(B) DEFENSES.—The defenses referred to under subparagraph (A) are the defenses that—

(i) the satellite carrier did not retransmit the television broadcast station to any person in the local market of the station during the time period specified in the complaint;

(ii) the television broadcast station had, in a writing signed by an officer of the television broadcast station, expressly authorized the retransmission of the station by the satellite carrier to each person in the local market of the television broadcast station to which the satellite carrier made such retransmissions for the entire time period during which it is alleged that a violation of subsection (b)(1) has occurred;

(iii) the retransmission was made after January 1, 2002, and the television broadcast station had elected to assert the right to carriage under section 338 as against the satellite carrier for the relevant period; or

(iv) the station being retransmitted is a non-commercial television broadcast station.

(5) COUNTING OF VIOLATIONS.—The retransmission without consent of a particular television broadcast station on a particular day to one or more persons in the local market of the station shall be considered a separate violation of subsection (b)(1).

(6) BURDEN OF PROOF.—With respect to each alleged violation, the burden of proof shall be on a television broadcast station to establish that the satellite carrier retransmitted the station to at least one person in the local market of the station on the day in question. The burden of proof shall be on the satellite carrier with respect to all defenses other than the defense under paragraph (4)(B)(i).

(7) PROCEDURES.—

(A) REGULATIONS.—Within 60 days after the date of the enactment of the Satellite Home Viewer Improvement Act of 1999, the Commission shall issue procedural regulations implementing this subsection which shall supersede procedures under section 312.

(B) DETERMINATIONS.—

(i) IN GENERAL.—Within 45 days after the filing of a complaint, the Commission shall issue a final determination in any proceeding brought under this subsection. The Commission's final determination shall specify the number of violations committed by the satellite carrier. The Commission shall hear witnesses only if it clearly appears, based on written filings by the parties, that there is a genuine dispute about ma-

terial facts. Except as provided in the preceding sentence, the Commission may issue a final ruling based on written filings by the parties.

(ii) **DISCOVERY.**—The Commission may direct the parties to exchange pertinent documents, and if necessary to take prehearing depositions, on such schedule as the Commission may approve, but only if the Commission first determines that such discovery is necessary to resolve a genuine dispute about material facts, consistent with the obligation to make a final determination within 45 days.

(8) **RELIEF.**—If the Commission determines that a satellite carrier has retransmitted the television broadcast station to at least one person in the local market of such station and has failed to meet its burden of proving one of the defenses under paragraph (4) with respect to such retransmission, the Commission shall be required to—

(A) make a finding that the satellite carrier violated subsection (b)(1) with respect to that station; and

(B) issue an order, within 45 days after the filing of the complaint, containing—

(i) a cease-and-desist order directing the satellite carrier immediately to stop making any further retransmissions of the television broadcast station to any person within the local market of such station until such time as the Commission determines that the satellite carrier is in compliance with subsection (b)(1) with respect to such station;

(ii) if the satellite carrier is found to have violated subsection (b)(1) with respect to more than two television broadcast stations, a cease-and-desist order directing the satellite carrier to stop making any further retransmission of any television broadcast station to any person within the local market of such station, until such time as the Commission, after giving notice to the station, that the satellite carrier is in compliance with subsection (b)(1) with respect to such stations; and

(iii) an award to the complainant of that complainant's costs and reasonable attorney's fees.

(9) **COURT PROCEEDINGS ON ENFORCEMENT OF COMMISSION ORDER.**—

(A) **IN GENERAL.**—On entry by the Commission of a final order granting relief under this subsection—

(i) a television broadcast station may apply within 30 days after such entry to the United States District Court for the Eastern District of Virginia for a final judgment enforcing all relief granted by the Commission; and

(ii) the satellite carrier may apply within 30 days after such entry to the United States District Court for the Eastern District of Virginia for a judgment reversing the Commission's order.

(B) APPEAL.—The procedure for an appeal under this paragraph by the satellite carrier shall supersede any other appeal rights under Federal or State law. A United States district court shall be deemed to have personal jurisdiction over the satellite carrier if the carrier, or a company under common control with the satellite carrier, has delivered television programming by satellite to more than 30 customers in that district during the preceding 4-year period. If the United States District Court for the Eastern District of Virginia does not have personal jurisdiction over the satellite carrier, an enforcement action or appeal shall be brought in the United States District Court for the District of Columbia, which may find personal jurisdiction based on the satellite carrier's ownership of licenses issued by the Commission. An application by a television broadcast station for an order enforcing any cease-and-desist relief granted by the Commission shall be resolved on a highly expedited schedule. No discovery may be conducted by the parties in any such proceeding. The district court shall enforce the Commission order unless the Commission record reflects manifest error and an abuse of discretion by the Commission.

(10) CIVIL ACTION FOR STATUTORY DAMAGES.—Within 6 months after issuance of an order by the Commission under this subsection, a television broadcast station may file a civil action in any United States district court that has personal jurisdiction over the satellite carrier for an award of statutory damages for any violation that the Commission has determined to have been committed by a satellite carrier under this subsection. Such action shall not be subject to transfer under section 1404(a) of title 28, United States Code. On finding that the satellite carrier has committed one or more violations of subsection (b), the District Court shall be required to award the television broadcast station statutory damages of \$25,000 per violation, in accordance with paragraph (5), and the costs and attorney's fees incurred by the station. Such statutory damages shall be awarded only if the television broadcast station has filed a binding stipulation with the court that such station will donate the full amount in excess of \$1,000 of any statutory damage award to the United States Treasury for public purposes. Notwithstanding any other provision of law, a station shall incur no tax liability of any kind with respect to any amounts so donated. Discovery may be conducted by the parties in any proceeding under this paragraph only if and to the extent necessary to resolve a genuinely disputed issue of fact concerning one of the defenses under paragraph (4). In any such action, the defenses under paragraph (4) shall be exclusive, and the burden of proof shall be on the satellite carrier with respect to all defenses other than the defense under paragraph (4)(B)(i). A judgment under this paragraph may be enforced in any manner permissible under Federal or State law.

(11) APPEALS.—

(A) IN GENERAL.—The nonprevailing party before a United States district court may appeal a decision under

this subsection to the United States Court of Appeals with jurisdiction over that district court. The Court of Appeals shall not issue any stay of the effectiveness of any decision granting relief against a satellite carrier unless the carrier presents clear and convincing evidence that it is highly likely to prevail on appeal and only after posting a bond for the full amount of any monetary award assessed against it and for such further amount as the Court of Appeals may believe appropriate.

(B) APPEAL.—If the Commission denies relief in response to a complaint filed by a television broadcast station under this subsection, the television broadcast station filing the complaint may file an appeal with the United States Court of Appeals for the District of Columbia Circuit.

(12) SUNSET.—No complaint or civil action may be filed under this subsection after December 31, 2001. This subsection shall continue to apply to any complaint or civil action filed on or before such date.

SEC. 326. [47 U.S.C. 326] CENSORSHIP; INDECENT LANGUAGE.

Nothing in this Act shall be understood or construed to give the Commission the power of censorship over the radio communications or signals transmitted by any radio station, and no regulation or condition shall be promulgated or fixed by the Commission which shall interfere with the right of free speech by means of radio communication.

SEC. 327. [47 U.S.C. 327] USE OF NAVAL STATIONS FOR COMMERCIAL MESSAGES.

The Secretary of the Navy is hereby authorized, unless restrained by international agreement, under the terms and conditions and at rates prescribed by him, which rates shall be just and reasonable, and which, upon complaint, shall be subject to review and revision by the Commission, to use all radio stations and apparatus, wherever located, owned by the United States and under the control of the Navy Department, (a) for the reception and transmission of press messages offered by any newspaper published in the United States, its Territories or possessions, or published by citizens of the United States in foreign countries, or by any press association of the United States, and (b) for the reception and transmission of private commercial messages between ships, between ship and shore, between localities in Alaska and between Alaska and the continental United States: *Provided*, That the rates fixed for the reception and transmission of all such messages, other than press messages between the Pacific coast of the United States, Hawaii, Alaska, Guam, American Samoa, and the Orient, and between the United States and the Virgin Islands, shall not be less than the rates charged by privately owned and operated stations for like messages and service: *Provided further*, That the right to use such stations for any of the purposes named in this section shall terminate and cease as between any countries or localities or between any locality and privately operated ships whenever privately owned and operated stations are capable of meeting the normal communication requirements between such countries or local-

ities or between any locality and privately operated ships, and the Commission shall have notified the Secretary of the Navy thereof.

【Section 328 was repealed by Public Law 103–414, section 304(a)(10), 108 Stat. 4296–7.】

SEC. 329. [47 U.S.C. 329] ADMINISTRATION OF RADIO LAWS IN TERRITORIES AND POSSESSIONS.

The Commission is authorized to designate any officer or employee of any other department of the Government on duty in any Territory or possession of the United States to render therein such service in connection with the administration of this Act as the Commission may prescribe and also to designate any officer or employee of any other department of the Government to render such services at any place within the United States in connection with the administration of title III of this Act as may be necessary: *Provided*, That such designation shall be approved by the head of the department in which such person is employed.

SEC. 330. [47 U.S.C. 330] PROHIBITION AGAINST SHIPMENT OF CERTAIN TELEVISION RECEIVERS.

(a) No person shall ship in interstate commerce, or import from any foreign country into the United States, for sale or resale to the public, apparatus described in paragraph (s) of section 303 unless it complies with rules prescribed by the Commission pursuant to the authority granted by that paragraph: *Provided*, That this section shall not apply to carriers transporting such apparatus without trading in it.

(b) No person shall ship in interstate commerce, manufacture, assemble, or import from any foreign country into the United States, any apparatus described in section 303(u) and (z) of this Act except in accordance with rules prescribed by the Commission pursuant to the authority granted by that section. Such rules shall provide performance and display standards for such built-in decoder circuitry or capability designed to display closed captioned video programming, the transmission and delivery of video description services, and the conveyance of emergency information as required by section 303 of this Act. Such rules shall further require that all such apparatus be able to receive and display closed captioning which have been transmitted by way of line 21 of the vertical blanking interval and which conform to the signal and display specifications set forth in the Public Broadcasting System engineering report numbered E–7709–C dated May 1980, as amended by the Telecaption II Decoder Module Performance Specification published by the National Captioning Institute, November 1985. As new video technology is developed, the Commission shall take such action as the Commission determines appropriate to ensure that closed-captioning service and video description service continue to be available to consumers. This subsection shall not apply to carriers transporting such apparatus without trading it.

(c)(1) Except as provided in paragraph (2), no person shall ship in interstate commerce or manufacture in the United States any apparatus described in section 303(x) of this Act except in accordance with rules prescribed by the Commission pursuant to the authority granted by that section.

(2) This subsection shall not apply to carriers transporting apparatus referred to in paragraph (1) without trading in it.

(3) The rules prescribed by the Commission under this subsection shall provide for the oversight by the Commission of the adoption of standards by industry for blocking technology. Such rules shall require that all such apparatus be able to receive the rating signals which have been transmitted by way of line 21 of the vertical blanking interval and which conform to the signal and blocking specifications established by industry under the supervision of the Commission.

(4) As new video technology is developed, the Commission shall take such action as the Commission determines appropriate to ensure that blocking service continues to be available to consumers. If the Commission determines that an alternative blocking technology exists that—

(A) enables parents to block programming based on identifying programs without ratings,

(B) is available to consumers at a cost which is comparable to the cost of technology that allows parents to block programming based on common ratings, and

(C) will allow parents to block a broad range of programs on a multichannel system as effectively and as easily as technology that allows parents to block programming based on common ratings,

the Commission shall amend the rules prescribed pursuant to section 303(x) to require that the apparatus described in such section be equipped with either the blocking technology described in such section or the alternative blocking technology described in this paragraph.

(d) For the purposes of this section, and sections 303(s), 303(u), and 303(x)—

(1) The term “interstate commerce” means (A) commerce between any State, the District of Columbia, the Commonwealth of Puerto Rico, or any possession of the United States and any place outside thereof which is within the United States, (B) commerce between points in the same State, the District of Columbia, the Commonwealth of Puerto Rico, or possession of the United States but through any place outside thereof, or (C) commerce wholly within the District of Columbia or any possession of the United States.

(2) The term “United States” means the several States, the District of Columbia, the Commonwealth of Puerto Rico, and the possessions of the United States, but does not include the Canal Zone.

SEC. 331.³² [47 U.S.C. 331] VERY HIGH FREQUENCY STATIONS AND AM RADIO STATIONS.

(a) VERY HIGH FREQUENCY STATIONS.—It shall be the policy of the Federal Communications Commission to allocate channels for

³² Former section 331 was added by Public Law 93–107, 87 Stat. 350, Sept. 14, 1973. The statute also set a date (Dec. 31, 1975) when the provision was to be repealed. The former section 331 read as follows:

very high frequency commercial television broadcasting in a manner which ensures that not less than one such channel shall be allocated to each State, if technically feasible. In any case in which licensee of a very high frequency commercial television broadcast station notifies the Commission to the effect that such licensee will agree to the reallocation of its channel to a community within a State in which there is allocated no very high frequency commercial television broadcast channel at the time such notification, the Commission shall, notwithstanding any other provision of law, order such reallocation and issue a license to such licensee for that purpose pursuant to such notification for a term of not to exceed 5 years as provided in section 307(d) of the Communications Act of 1934.

(b) **AM RADIO STATIONS.**—It shall be the policy of the Commission, in any case in which the licensee of an existing AM daytime-only station located in a community with a population of more than 100,000 persons that lacks a local full-time aural station licensed to that community and that is located within a Class I station primary service area notifies the Commission that such licensee seeks to provide full-time service, to ensure that such a licensee is able to place a principal community contour signal over its entire community of license 24 hours a day, if technically feasible.

SEC. 332. [47 U.S.C. 332] MOBILE SERVICES.

(a) In taking actions to manage the spectrum to be made available for use by the private mobile services, the Commission shall consider, consistent with section 1 of this Act, whether such actions will—

BROADCAST OF GAMES OF PROFESSIONAL SPORTS CLUBS

SEC. 331. (a) If any game of a professional sports club is to be broadcast by means of television pursuant to a league television contract and all tickets of admission for seats of such game which were available for purchase by the general public one hundred and twenty hours or more before the scheduled beginning time of such game have been purchased seventy-two hours or more before such time, no agreement which would prevent the broadcasting by means of television of such game at the same time and in the area in which such game is being played shall be valid or have any force or effect. The right to broadcast such game by means of television at such time and in such area shall be made available, by the person or persons having such right, to a television broadcast licensee on reasonable terms and conditions unless the broadcasting by means of television of such game at such time and in such area would be a telecasting which section 3 of Public Law 87-331, as amended (15 U.S.C. 1293), is intended to prevent.

(b) If any person violates subsection (a) of this section, any interested person may commence a civil action for injunctive relief restraining such violation in any United States district court for a district in which the defendant resides or has an agent. In any such action, the court may award the cost of the suit including reasonable attorneys' fees.

(c) For the purpose of this section:

(1) The term "professional sports club" includes any professional football, baseball, basketball, or hockey club.

(2) The term "league television contract" means any joint agreement by or among professional sports clubs by which any league of such clubs sells or otherwise transfers all or any part of the rights of such league's member clubs in the sponsored telecasting of the games engaged in or conducted by such clubs.

(3) The term "agreement" includes any contract, arrangement, or other understanding.

(4) The term "available for purchase by the general public", when used with respect to tickets of admission for seats at a game or games to be played by a professional sports club, means only those tickets on sale at the stadium where such game or games are to be played, or, if such tickets are not sold at such stadium, only those tickets on sale at the box office closest to such stadium.

(d) The Commission shall conduct a continuing study of the effect of this section and shall, not later than April 15 of each year, submit a report to the Committee on Commerce of the Senate and the Committee on Interstate and Foreign Commerce of the House of Representatives with respect thereto. Such report shall include pertinent statistics and data and any recommendations for legislation relating to the broadcasting of professional football, baseball, basketball, and hockey games which the Commission determines would serve the public interest.

- (1) promote the safety of life and property;
 - (2) improve the efficiency of spectrum use and reduce the regulatory burden upon spectrum users, based upon sound engineering principles, user operational requirements, and marketplace demands;
 - (3) encourage competition and provide services to the largest feasible number of users; or
 - (4) increase interservice sharing opportunities between private mobile services and other services.
- (b)(1) The Commission, in coordinating the assignment of frequencies to stations in the private mobile services and in the fixed services (as defined by the Commission by rule), shall have authority to utilize assistance furnished by advisory coordinating committees consisting of individuals who are not officers or employees of the Federal Government.
- (2) The authority of the Commission established in this subsection shall not be subject to or affected by the provisions of part III of title 5, United States Code, or section 3679(b) of the Revised Statutes (31 U.S.C. 665(b)).
- (3) Any person who provides assistance to the Commission under this subsection shall not be considered, by reason of having provided such assistance, a Federal employee.
- (4) Any advisory coordinating committee which furnishes assistance to the Commission under this subsection shall not be subject to the provisions of chapter 10 of title 5, United States Code.
- (c) ³³ REGULATORY TREATMENT OF MOBILE SERVICES.—

³³ Section 6002 of the Omnibus Budget Reconciliation Act of 1993 (P.L. 103–66; Aug. 10, 1993; 107 Stat. 312), subsection (b)(2) of which extensively revised section 332(c) and (d) of the Communications Act of 1934, contained the following effective date and deadlines provisions:

SEC. 6002. AUTHORITY TO USE COMPETITIVE BIDDING.

(a) * * *

* * * * *

(c) [47 U.S.C. 332 note] EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section are effective on the date of enactment of this Act.

(2) EFFECTIVE DATES OF MOBILE SERVICE AMENDMENTS.—The amendments made by subsection (b)(2) shall be effective on the date of enactment of this Act, except that—

(A) section 332(c)(3)(A) of the Communications Act of 1934, as amended by such subsection, shall take effect 1 year after such date of enactment; and

(B) any private land mobile service provided by any person before such date of enactment, and any paging service utilizing frequencies allocated as of January 1, 1993, for private land mobile services, shall, except for purposes of section 332(c)(6) of such Act, be treated as a private mobile service until 3 years after such date of enactment.

(d) DEADLINES FOR COMMISSION ACTION.—

(1) GENERAL RULEMAKING.—The Federal Communications Commission shall prescribe regulations to implement section 309(j) of the Communications Act of 1934 (as added by this section) within 210 days after the date of enactment of this Act.

(2) PCS ORDERS AND LICENSING.—The Commission shall—

(A) within 180 days after such date of enactment, issue a final report and order (i) in the matter entitled “Redevelopment of Spectrum to Encourage Innovation in the Use of New Telecommunications Technologies” (ET Docket No. 92–9); and (ii) in the matter entitled “Amendment of the Commission’s Rules to Establish New Personal Communications Services” (GEN Docket No. 90–314; ET Docket No. 92–100); and

(B) within 270 days after such date of enactment, commence issuing licenses and permits in the personal communications service.

(3) TRANSITIONAL RULEMAKING FOR MOBILE SERVICE PROVIDERS.—Within 1 year after the date of enactment of this Act, the Federal Communications Commission—

(A) shall issue such modifications or terminations of the regulations applicable (before the date of enactment of this Act) to private land mobile services as are necessary to implement the amendments made by subsection (b)(2);

(1) COMMON CARRIER TREATMENT OF COMMERCIAL MOBILE SERVICES.—(A) A person engaged in the provision of a service that is a commercial mobile service shall, insofar as such person is so engaged, be treated as a common carrier for purposes of this Act, except for such provisions of title II as the Commission may specify by regulation as inapplicable to that service or person. In prescribing or amending any such regulation, the Commission may not specify any provision of section 201, 202, or 208, and may specify any other provision only if the Commission determines that—

(i) enforcement of such provision is not necessary in order to ensure that the charges, practices, classifications, or regulations for or in connection with that service are just and reasonable and are not unjustly or unreasonably discriminatory;

(ii) enforcement of such provision is not necessary for the protection of consumers; and

(iii) specifying such provision is consistent with the public interest.

(B) Upon reasonable request of any person providing commercial mobile service, the Commission shall order a common carrier to establish physical connections with such service pursuant to the provisions of section 201 of this Act. Except to the extent that the Commission is required to respond to such a request, this subparagraph shall not be construed as a limitation or expansion of the Commission's authority to order interconnection pursuant to this Act.

(C) As a part of making a determination with respect to the public interest under subparagraph (A)(iii), the Commission shall consider whether the proposed regulation (or amendment thereof) will promote competitive market conditions, including the extent to which such regulation (or amendment) will enhance competition among providers of commercial mobile services. If the Commission determines that such regulation (or amendment) will promote competition among providers of commercial mobile services, such determination may be the basis for a Commission finding that such regulation (or amendment) is in the public interest.

(D) The Commission shall, not later than 180 days after the date of enactment of this subparagraph, complete a rule-making required to implement this paragraph with respect to the licensing of personal communications services, including making any determinations required by subparagraph (C).

(2) NON-COMMON CARRIER TREATMENT OF PRIVATE MOBILE SERVICES.—A person engaged in the provision of a service that

(B) in the regulations that will, after such date of enactment, apply to a service that was a private land mobile service and that becomes a commercial mobile service (as a consequence of such amendments), shall make such other modifications or terminations as may be necessary and practical to assure that licensees in such service are subjected to technical requirements that are comparable to the technical requirements that apply to licensees that are providers of substantially similar common carrier services;

(C) shall issue such other regulations as are necessary to implement the amendments made by subsection (b)(2); and

(D) shall include, in such regulations, modifications, and terminations, such provisions as are necessary to provide for an orderly transition.

is a private mobile service shall not, insofar as such person is so engaged, be treated as a common carrier for any purpose under this Act. A common carrier (other than a person that was treated as a provider of a private land mobile service prior to the enactment of the Omnibus Budget Reconciliation Act of 1993) shall not provide any dispatch service on any frequency allocated for common carrier service, except to the extent such dispatch service is provided on stations licensed in the domestic public land mobile radio service before January 1, 1982. The Commission may by regulation terminate, in whole or in part, the prohibition contained in the preceding sentence if the Commission determines that such termination will serve the public interest.

(3) STATE PREEMPTION.—(A) Notwithstanding sections 2(b) and 221(b), no State or local government shall have any authority to regulate the entry of or the rates charged by any commercial mobile service or any private mobile service, except that this paragraph shall not prohibit a State from regulating the other terms and conditions of commercial mobile services. Nothing in this subparagraph shall exempt providers of commercial mobile services (where such services are a substitute for land line telephone exchange service for a substantial portion of the communications within such State) from requirements imposed by a State commission on all providers of telecommunications services necessary to ensure the universal availability of telecommunications service at affordable rates. Notwithstanding the first sentence of this subparagraph, a State may petition the Commission for authority to regulate the rates for any commercial mobile service and the Commission shall grant such petition if such State demonstrates that—

(i) market conditions with respect to such services fail to protect subscribers adequately from unjust and unreasonable rates or rates that are unjustly or unreasonably discriminatory; or

(ii) such market conditions exist and such service is a replacement for land line telephone exchange service for a substantial portion of the telephone land line exchange service within such State.

The Commission shall provide reasonable opportunity for public comment in response to such petition, and shall, within 9 months after the date of its submission, grant or deny such petition. If the Commission grants such petition, the Commission shall authorize the State to exercise under State law such authority over rates, for such periods of time, as the Commission deems necessary to ensure that such rates are just and reasonable and not unjustly or unreasonably discriminatory.

(B) If a State has in effect on June 1, 1993, any regulation concerning the rates for any commercial mobile service offered in such State on such date, such State may, no later than 1 year after the date of enactment of the Omnibus Budget Reconciliation Act of 1993, petition the Commission requesting that the State be authorized to continue exercising authority over such rates. If a State files such a petition, the State's ex-

isting regulation shall, notwithstanding subparagraph (A), remain in effect until the Commission completes all action (including any reconsideration) on such petition. The Commission shall review such petition in accordance with the procedures established in such subparagraph, shall complete all action (including any reconsideration) within 12 months after such petition is filed, and shall grant such petition if the State satisfies the showing required under subparagraph (A)(i) or (A)(ii). If the Commission grants such petition, the Commission shall authorize the State to exercise under State law such authority over rates, for such period of time, as the Commission deems necessary to ensure that such rates are just and reasonable and not unjustly or unreasonably discriminatory. After a reasonable period of time, as determined by the Commission, has elapsed from the issuance of an order under subparagraph (A) or this subparagraph, any interested party may petition the Commission for an order that the exercise of authority by a State pursuant to such subparagraph is no longer necessary to ensure that the rates for commercial mobile services are just and reasonable and not unjustly or unreasonably discriminatory. The Commission shall provide reasonable opportunity for public comment in response to such petition, and shall, within 9 months after the date of its submission, grant or deny such petition in whole or in part.

(4) REGULATORY TREATMENT OF COMMUNICATIONS SATELLITE CORPORATION.—Nothing in this subsection shall be construed to alter or affect the regulatory treatment required by title IV of the Communications Satellite Act of 1962 of the corporation authorized by title III of such Act.

(5) SPACE SEGMENT CAPACITY.—Nothing in this section shall prohibit the Commission from continuing to determine whether the provision of space segment capacity by satellite systems to providers of commercial mobile services shall be treated as common carriage.

(6) FOREIGN OWNERSHIP.—The Commission, upon a petition for waiver filed within 6 months after the date of enactment of the Omnibus Budget Reconciliation Act of 1993, may waive the application of section 310(b) to any foreign ownership that lawfully existed before May 24, 1993, of any provider of a private land mobile service that will be treated as a common carrier as a result of the enactment of the Omnibus Budget Reconciliation Act of 1993, but only upon the following conditions:

(A) The extent of foreign ownership interest shall not be increased above the extent which existed on May 24, 1993.

(B) Such waiver shall not permit the subsequent transfer of ownership to any other person in violation of section 310(b).

(7) PRESERVATION OF LOCAL ZONING AUTHORITY.—

(A) GENERAL AUTHORITY.—Except as provided in this paragraph, nothing in this Act shall limit or affect the authority of a State or local government or instrumentality thereof over decisions regarding the placement, construc-

tion, and modification of personal wireless service facilities.

(B) LIMITATIONS.—

(i) The regulation of the placement, construction, and modification of personal wireless service facilities by any State or local government or instrumentality thereof—

(I) shall not unreasonably discriminate among providers of functionally equivalent services; and

(II) shall not prohibit or have the effect of prohibiting the provision of personal wireless services.

(ii) A State or local government or instrumentality thereof shall act on any request for authorization to place, construct, or modify personal wireless service facilities within a reasonable period of time after the request is duly filed with such government or instrumentality, taking into account the nature and scope of such request.

(iii) Any decision by a State or local government or instrumentality thereof to deny a request to place, construct, or modify personal wireless service facilities shall be in writing and supported by substantial evidence contained in a written record.

(iv) No State or local government or instrumentality thereof may regulate the placement, construction, and modification of personal wireless service facilities on the basis of the environmental effects of radio frequency emissions to the extent that such facilities comply with the Commission's regulations concerning such emissions.

(v) Any person adversely affected by any final action or failure to act by a State or local government or any instrumentality thereof that is inconsistent with this subparagraph may, within 30 days after such action or failure to act, commence an action in any court of competent jurisdiction. The court shall hear and decide such action on an expedited basis. Any person adversely affected by an act or failure to act by a State or local government or any instrumentality thereof that is inconsistent with clause (iv) may petition the Commission for relief.

(C) DEFINITIONS.—For purposes of this paragraph—

(i) the term “personal wireless services” means commercial mobile services, unlicensed wireless services, and common carrier wireless exchange access services;

(ii) the term “personal wireless service facilities” means facilities for the provision of personal wireless services; and

(iii) the term “unlicensed wireless service” means the offering of telecommunications services using duly authorized devices which do not require individual li-

censes, but does not mean the provision of direct-to-home satellite services (as defined in section 303(v)).

(8) **MOBILE SERVICES ACCESS.**—A person engaged in the provision of commercial mobile services, insofar as such person is so engaged, shall not be required to provide equal access to common carriers for the provision of telephone toll services. If the Commission determines that subscribers to such services are denied access to the provider of telephone toll services of the subscribers' choice, and that such denial is contrary to the public interest, convenience, and necessity, then the Commission shall prescribe regulations to afford subscribers unblocked access to the provider of telephone toll services of the subscribers' choice through the use of a carrier identification code assigned to such provider or other mechanism. The requirements for unblocking shall not apply to mobile satellite services unless the Commission finds it to be in the public interest to apply such requirements to such services.

(d) **DEFINITIONS.**—For purposes of this section—

(1) the term “commercial mobile service” means any mobile service (as defined in section 3) that is provided for profit and makes interconnected service available (A) to the public or (B) to such classes of eligible users as to be effectively available to a substantial portion of the public, as specified by regulation by the Commission;

(2) the term “interconnected service” means service that is interconnected with the public switched network (as such terms are defined by regulation by the Commission) or service for which a request for interconnection is pending pursuant to subsection (c)(1)(B); and

(3) the term “private mobile service” means any mobile service (as defined in section 3) that is not a commercial mobile service or the functional equivalent of a commercial mobile service, as specified by regulation by the Commission.

SEC. 333. [47 U.S.C. 333] WILLFUL OR MALICIOUS INTERFERENCE.

No person shall willfully or maliciously interfere with or cause interference to any radio communications of any station licensed or authorized by or under this Act or operated by the United States Government.

SEC. 334. [47 U.S.C. 334] LIMITATION ON REVISION OF EQUAL EMPLOYMENT OPPORTUNITY REGULATIONS.

(a) **LIMITATION.**—Except as specifically provided in this section, the Commission shall not revise—

(1) the regulations concerning equal employment opportunity as in effect on September 1, 1992 (47 C.F.R. 73.2080) as such regulations apply to television broadcast station licensees and permittees; or

(2) the forms used by such licensees and permittees to report pertinent employment data to the Commission.

(b) **MIDTERM REVIEW.**—The Commission shall revise the regulations described in subsection (a) to require a midterm review of television broadcast station licensees' employment practices and to require the Commission to inform such licensees of necessary im-

provements in recruitment practices identified as a consequence of such review.

(c) **AUTHORITY TO MAKE TECHNICAL REVISIONS.**—The Commission may revise the regulations described in subsection (a) to make nonsubstantive technical or clerical revisions in such regulations as necessary to reflect changes in technology, terminology, or Commission organization.

SEC. 335. [47 U.S.C. 335] DIRECT BROADCAST SATELLITE SERVICE OBLIGATIONS.

(a) **PROCEEDING REQUIRED TO REVIEW DBS RESPONSIBILITIES.**—The Commission shall, within 180 days after the date of enactment of this section, initiate a rulemaking proceeding to impose, on providers of direct broadcast satellite service, public interest or other requirements for providing video programming. Any regulations prescribed pursuant to such rulemaking shall, at a minimum, apply the access to broadcast time requirement of section 312(a)(7) and the use of facilities requirements of section 315 to providers of direct broadcast satellite service providing video programming. Such proceeding also shall examine the opportunities that the establishment of direct broadcast satellite service provides for the principle of localism under this Act, and the methods by which such principle may be served through technological and other developments in, or regulation of, such service.

(b) **CARRIAGE OBLIGATIONS FOR NONCOMMERCIAL, EDUCATIONAL, STATE PUBLIC AFFAIRS, AND INFORMATIONAL PROGRAMMING.**—

(1) **CHANNEL CAPACITY REQUIRED.**—

(A) **IN GENERAL.**—Except as provided in subparagraph (B), the Commission shall require, as a condition of any provision, initial authorization, or authorization renewal for a provider of direct broadcast satellite service providing video programming, that the provider of such service reserve a portion of its channel capacity, equal to not less than 4 percent nor more than 7 percent, exclusively for noncommercial programming of an educational or informational nature.

(B) **REQUIREMENT FOR QUALIFIED SATELLITE PROVIDER.**—The Commission shall require, as a condition of any provision, initial authorization, or authorization renewal for a qualified satellite provider of direct broadcast satellite service providing video programming, that such provider reserve a portion of its channel capacity, equal to not less than 3.5 percent nor more than 7 percent, exclusively for noncommercial programming of an educational or informational nature.

(2) **USE OF UNUSED CHANNEL CAPACITY.**—A provider of such service may utilize for any purpose any unused channel capacity required to be reserved under this subsection pending the actual use of such channel capacity for noncommercial programming of an educational or informational nature.

(3) **PRICES, TERMS, AND CONDITIONS; EDITORIAL CONTROL.**—A provider of direct broadcast satellite service shall meet the requirements of this subsection by making channel capacity available to national educational programming suppliers, upon

reasonable prices, terms, and conditions, as determined by the Commission under paragraph (4). The provider of direct broadcast satellite service shall not exercise any editorial control over any video programming provided pursuant to this subsection.

(4) LIMITATIONS.—In determining reasonable prices under paragraph (3)—

(A) the Commission shall take into account the non-profit character of the programming provider and any Federal funds used to support such programming;

(B) the Commission shall not permit such prices to exceed, for any channel made available under this subsection, 50 percent of the total direct costs of making such channel available; and

(C) in the calculation of total direct costs, the Commission shall exclude—

(i) marketing costs, general administrative costs, and similar overhead costs of the provider of direct broadcast satellite service; and

(ii) the revenue that such provider might have obtained by making such channel available to a commercial provider of video programming.

(5) DEFINITIONS.—For purposes of this subsection—

(A) The term “provider of direct broadcast satellite service” means—

(i) a licensee for a Ku-band satellite system under part 100 of title 47 of the Code of Federal Regulations; or

(ii) any distributor who controls a minimum number of channels (as specified by Commission regulation) using a Ku-band fixed service satellite system for the provision of video programming directly to the home and licensed under part 25 of title 47 of the Code of Federal Regulations.

(B) The term “national educational programming supplier” includes any qualified noncommercial educational television station, other public telecommunications entities, and public or private educational institutions.

(C) The term “qualified satellite provider” means any provider of direct broadcast satellite service that—

(i) provides the retransmission of the State public affairs networks of at least 15 different States;

(ii) offers the programming of State public affairs networks upon reasonable prices, terms, and conditions as determined by the Commission under paragraph (4); and

(iii) does not delete any noncommercial programming of an educational or informational nature in connection with the carriage of a State public affairs network.

(D) The term “State public affairs network” means a non-commercial non-broadcast network or a noncommercial educational television station—

- (i) whose programming consists of information about State government deliberations and public policy events; and
- (ii) that is operated by—
 - (I) a State government or subdivision thereof;
 - (II) an organization described in section 501(c)(3) of the Internal Revenue Code of 1986 that is exempt from taxation under section 501(a) of such Code and that is governed by an independent board of directors; or
 - (III) a cable system.

SEC. 336. [47 U.S.C. 336] BROADCAST SPECTRUM FLEXIBILITY.³⁴

(a) COMMISSION ACTION.—If the Commission determines to issue additional licenses for advanced television services, the Commission—

(1) should limit the initial eligibility for such licenses to persons that, as of the date of such issuance, are licensed to operate a television broadcast station or hold a permit to construct such a station (or both); and

(2) shall adopt regulations that allow the holders of such licenses to offer such ancillary or supplementary services on designated frequencies as may be consistent with the public interest, convenience, and necessity.

(b) CONTENTS OF REGULATIONS.—In prescribing the regulations required by subsection (a), the Commission shall—

³⁴ Section 531 of the Public Health, Security, and Bioterrorism Response Act of 2001 (PL 107-188) provided for additional advanced television channel assignments as follows:

SEC. 531. [47 U.S.C. 336 note] TRANSITION TO DIGITAL TELEVISION.

(a) PAIR ASSIGNMENT REQUIRED.—In order to further promote the orderly transition to digital television, and to promote the equitable allocation and use of digital channels by television broadcast permittees and licensees, the Federal Communications Commission, at the request of an eligible licensee or permittee, shall, within 90 days after the date of enactment of this Act, allot, if necessary, and assign a paired digital television channel to that licensee or permittee, provided that—

(1) such channel can be allotted and assigned without further modification of the tables of allotments as set forth in sections 73.606 and 73.622 of the Commission's regulations (47 CFR 73.606, 73.622); and

(2) such allotment and assignment is otherwise consistent with the Commission's rules (47 CFR part 73).

(b) ELIGIBLE TRANSITION LICENSEE OR PERMITTEE.—For purposes of subsection (a), the term “eligible licensee or permittee” means only a full power television broadcast licensee or permittee (or its successor in interest) that—

(1) had an application pending for an analog television station construction permit as of October 24, 1991, which application was granted after April 3, 1997; and

(2) as of the date of enactment of this Act, is the permittee or licensee of that station.

(c) REQUIREMENTS ON LICENSEE OR PERMITTEE.—

(1) CONSTRUCTION DEADLINE.—Any licensee or permittee receiving a paired digital channel pursuant to this section—

(A) shall be required to construct the digital television broadcast facility within 18 months of the date on which the Federal Communications Commission issues a construction permit therefore, and

(B) shall be prohibited from obtaining or receiving an extension of time from the Commission beyond the construction deadline established by paragraph (1).

(2) PROHIBITION OF ANALOG OPERATION USING DIGITAL PAIR.—Any licensee or permittee receiving a paired digital channel pursuant to this section shall be prohibited from giving up its current paired analog assignment and becoming a single-channel broadcaster and operating in analog on such paired digital channel.

(d) RELIEF RESTRICTED.—Any paired digital allotment and assignment made under this section shall not be available to any other applicant unless such applicant is an eligible licensee or permittee within the meaning of subsection (b).

(1) only permit such licensee or permittee to offer ancillary or supplementary services if the use of a designated frequency for such services is consistent with the technology or method designated by the Commission for the provision of advanced television services;

(2) limit the broadcasting of ancillary or supplementary services on designated frequencies so as to avoid derogation of any advanced television services, including high definition television broadcasts, that the Commission may require using such frequencies;

(3) apply to any other ancillary or supplementary service such of the Commission's regulations as are applicable to the offering of analogous services by any other person, except that no ancillary or supplementary service shall have any rights to carriage under section 614 or 615 or be deemed a multichannel video programming distributor for purposes of section 628;

(4) adopt such technical and other requirements as may be necessary or appropriate to assure the quality of the signal used to provide advanced television services, and may adopt regulations that stipulate the minimum number of hours per day that such signal must be transmitted; and

(5) prescribe such other regulations as may be necessary for the protection of the public interest, convenience, and necessity.

(c) **RECOVERY OF LICENSE.**—If the Commission grants a license for advanced television services to a person that, as of the date of such issuance, is licensed to operate a television broadcast station or holds a permit to construct such a station (or both), the Commission shall, as a condition of such license, require that either the additional license or the original license held by the licensee be surrendered to the Commission for reallocation or reassignment (or both) pursuant to Commission regulation.

(d) **PUBLIC INTEREST REQUIREMENT.**—Nothing in this section shall be construed as relieving a television broadcasting station from its obligation to serve the public interest, convenience, and necessity. In the Commission's review of any application for renewal of a broadcast license for a television station that provides ancillary or supplementary services, the television licensee shall establish that all of its program services on the existing or advanced television spectrum are in the public interest. Any violation of the Commission rules applicable to ancillary or supplementary services shall reflect upon the licensee's qualifications for renewal of its license.

(e) **FEES.**—

(1) **SERVICES TO WHICH FEES APPLY.**—If the regulations prescribed pursuant to subsection (a) permit a licensee to offer ancillary or supplementary services on a designated frequency—

(A) for which the payment of a subscription fee is required in order to receive such services, or

(B) for which the licensee directly or indirectly receives compensation from a third party in return for transmitting material furnished by such third party (other than

commercial advertisements used to support broadcasting for which a subscription fee is not required), the Commission shall establish a program to assess and collect from the licensee for such designated frequency an annual fee or other schedule or method of payment that promotes the objectives described in subparagraphs (A) and (B) of paragraph (2).

(2) COLLECTION OF FEES.—The program required by paragraph (1) shall—

(A) be designed (i) to recover for the public a portion of the value of the public spectrum resource made available for such commercial use, and (ii) to avoid unjust enrichment through the method employed to permit such uses of that resource;

(B) recover for the public an amount that, to the extent feasible, equals but does not exceed (over the term of the license) the amount that would have been recovered had such services been licensed pursuant to the provisions of section 309(j) of this Act and the Commission's regulations thereunder; and

(C) be adjusted by the Commission from time to time in order to continue to comply with the requirements of this paragraph.

(3) TREATMENT OF REVENUES.—

(A) GENERAL RULE.—Except as provided in subparagraph (B), all proceeds obtained pursuant to the regulations required by this subsection shall be deposited in the Treasury in accordance with chapter 33 of title 31, United States Code.

(B) RETENTION OF REVENUES.—Notwithstanding subparagraph (A), the salaries and expenses account of the Commission shall retain as an offsetting collection such sums as may be necessary from such proceeds for the costs of developing and implementing the program required by this section and regulating and supervising advanced television services. Such offsetting collections shall be available for obligation subject to the terms and conditions of the receiving appropriations account, and shall be deposited in such accounts on a quarterly basis.

(4) REPORT.—The Commission shall annually advise the Congress on the amounts collected pursuant to the program required by this subsection.

(f) PRESERVATION OF LOW-POWER COMMUNITY TELEVISION BROADCASTING.—

(1) CREATION OF CLASS A LICENSES.—

(A) RULEMAKING REQUIRED.—Within 120 days after the date of the enactment of the Community Broadcasters Protection Act of 1999, the Commission shall prescribe regulations to establish a class A television license to be available to licensees of qualifying low-power television stations. Such regulations shall provide that—

(i) the license shall be subject to the same license terms and renewal standards as the licenses for full-

power television stations except as provided in this subsection; and

(ii) each such class A licensee shall be accorded primary status as a television broadcaster as long as the station continues to meet the requirements for a qualifying low-power station in paragraph (2).

(B) NOTICE TO AND CERTIFICATION BY LICENSEES.—Within 30 days after the date of the enactment of the Community Broadcasters Protection Act of 1999, the Commission shall send a notice to the licensees of all low-power television licenses that describes the requirements for class A designation. Within 60 days after such date of enactment, licensees intending to seek class A designation shall submit to the Commission a certification of eligibility based on the qualification requirements of this subsection. Absent a material deficiency, the Commission shall grant certification of eligibility to apply for class A status.

(C) APPLICATION FOR AND AWARD OF LICENSES.—Consistent with the requirements set forth in paragraph (2)(A) of this subsection, a licensee may submit an application for class A designation under this paragraph within 30 days after final regulations are adopted under subparagraph (A) of this paragraph. Except as provided in paragraphs (6) and (7), the Commission shall, within 30 days after receipt of an application of a licensee of a qualifying low-power television station that is acceptable for filing, award such a class A television station license to such licensee.

(D) RESOLUTION OF TECHNICAL PROBLEMS.—The Commission shall act to preserve the service areas of low-power television licensees pending the final resolution of a class A application. If, after granting certification of eligibility for a class A license, technical problems arise requiring an engineering solution to a full-power station's allotted parameters or channel assignment in the digital television Table of Allotments, the Commission shall make such modifications as necessary—

(i) to ensure replication of the full-power digital television applicant's service area, as provided for in sections 73.622 and 73.623 of the Commission's regulations (47 CFR 73.622, 73.623); and

(ii) to permit maximization of a full-power digital television applicant's service area consistent with such sections 73.622 and 73.623,

if such applicant has filed an application for maximization or a notice of its intent to seek such maximization by December 31, 1999, and filed a bona fide application for maximization by May 1, 2000. Any such applicant shall comply with all applicable Commission rules regarding the construction of digital television facilities.

(E) CHANGE APPLICATIONS.—If a station that is awarded a construction permit to maximize or significantly enhance its digital television service area, later files a change application to reduce its digital television service area, the

protected contour of that station shall be reduced in accordance with such change modification.

(2) QUALIFYING LOW-POWER TELEVISION STATIONS.—For purposes of this subsection, a station is a qualifying low-power television station if—

(A)(i) during the 90 days preceding the date of the enactment of the Community Broadcasters Protection Act of 1999—

(I) such station broadcast a minimum of 18 hours per day;

(II) such station broadcast an average of at least 3 hours per week of programming that was produced within the market area served by such station, or the market area served by a group of commonly controlled low-power stations that carry common local programming produced within the market area served by such group; and

(III) such station was in compliance with the Commission's requirements applicable to low-power television stations; and

(ii) from and after the date of its application for a class A license, the station is in compliance with the Commission's operating rules for full-power television stations; or

(B) the Commission determines that the public interest, convenience, and necessity would be served by treating the station as a qualifying low-power television station for purposes of this section, or for other reasons determined by the Commission.

(3) COMMON OWNERSHIP.—No low-power television station authorized as of the date of the enactment of the Community Broadcasters Protection Act of 1999 shall be disqualified for a class A license based on common ownership with any other medium of mass communication.

(4) ISSUANCE OF LICENSES FOR ADVANCED TELEVISION SERVICES TO TELEVISION TRANSLATOR STATIONS AND QUALIFYING LOW-POWER TELEVISION STATIONS.—The Commission is not required to issue any additional license for advanced television services to the licensee of a class A television station under this subsection, or to any licensee of any television translator station, but shall accept a license application for such services proposing facilities that will not cause interference to the service area of any other broadcast facility applied for, protected, permitted, or authorized on the date of filing of the advanced television application. Such new license or the original license of the applicant shall be forfeited after the end of the digital television service transition period, as determined by the Commission. A licensee of a low-power television station or television translator station may, at the option of licensee, elect to convert to the provision of advanced television services on its analog channel, but shall not be required to convert to digital operation until the end of such transition period.

(5) NO PREEMPTION OF SECTION 337.—Nothing in this subsection preempts or otherwise affects section 337 of this Act.

(6) INTERIM QUALIFICATION.—

(A) STATIONS OPERATING WITHIN CERTAIN BANDWIDTH.—The Commission may not grant a class A license to a low-power television station for operation between 698 and 806 megahertz, but the Commission shall provide to low-power television stations assigned to and temporarily operating in that bandwidth the opportunity to meet the qualification requirements for a class A license. If such a qualified applicant for a class A license is assigned a channel within the core spectrum (as such term is defined in MM Docket No. 87–286, February 17, 1998), the Commission shall issue a class A license simultaneously with the assignment of such channel.

(B) CERTAIN CHANNELS OFF-LIMITS.—The Commission may not grant under this subsection a class A license to a low-power television station operating on a channel within the core spectrum that includes any of the 175 additional channels referenced in paragraph 45 of its February 23, 1998, Memorandum Opinion and Order on Reconsideration of the Sixth Report and Order (MM Docket No. 87–268). Within 18 months after the date of the enactment of the Community Broadcasters Protection Act of 1999, the Commission shall identify by channel, location, and applicable technical parameters those 175 channels.

(7) NO INTERFERENCE REQUIREMENT.—The Commission may not grant a class A license, nor approve a modification of a class A license, unless the applicant or licensee shows that the class A station for which the license or modification is sought will not cause—

(A) interference within—

(i) the predicted Grade B contour (as of the date of the enactment of the Community Broadcasters Protection Act of 1999, or November 1, 1999, whichever is later, or as proposed in a change application filed on or before such date) of any television station transmitting in analog format; or

(ii)(I) the digital television service areas provided in the DTV Table of Allotments; (II) the areas protected in the Commission's digital television regulations (47 CFR 73.622(e) and (f)); (III) the digital television service areas of stations subsequently granted by the Commission prior to the filing of a class A application; and (IV) stations seeking to maximize power under the Commission's rules, if such station has complied with the notification requirements in paragraph (1)(D);

(B) interference within the protected contour of any low-power television station or low-power television translator station that—

(i) was licensed prior to the date on which the application for a class A license, or for the modification of such a license, was filed;

(ii) was authorized by construction permit prior to such date; or

- (iii) had a pending application that was submitted prior to such date; or
- (C) interference within the protected contour of 80 miles from the geographic center of the areas listed in section 22.625(b)(1) or 90.303 of the Commission's regulations (47 CFR 22.625(b)(1) and 90.303) for frequencies in—
 - (i) the 470–512 megahertz band identified in section 22.621 or 90.303 of such regulations; or
 - (ii) the 482–488 megahertz band in New York.
- (8) PRIORITY FOR DISPLACED LOW-POWER STATIONS.—Low-power stations that are displaced by an application filed under this section shall have priority over other low-power stations in the assignment of available channels.
- (g) EVALUATION.—Within 10 years after the date the Commission first issues additional licenses for advanced television services, the Commission shall conduct an evaluation of the advanced television services program. Such evaluation shall include—
 - (1) an assessment of the willingness of consumers to purchase the television receivers necessary to receive broadcasts of advanced television services;
 - (2) an assessment of alternative uses, including public safety use, of the frequencies used for such broadcasts; and
 - (3) the extent to which the Commission has been or will be able to reduce the amount of spectrum assigned to licensees.
- (h) ³⁵(1) Within 60 days after receiving a request (made in such form and manner and containing such information as the Commission may require) under this subsection from a low-power television station to which this subsection applies, the Commission shall authorize the licensee or permittee of that station to provide digital data service subject to the requirements of this subsection as a pilot project to demonstrate the feasibility of using low-power television stations to provide high-speed wireless digital data service, including Internet access to unserved areas.
 - (2) The low-power television stations to which this subsection applies are as follows:
 - (A) KHLM–LP, Houston, Texas.
 - (B) WTAM–LP, Tampa, Florida.
 - (C) WWRJ–LP, Jacksonville, Florida.
 - (D) WVBG–LP, Albany, New York.
 - (E) KHHI–LP, Honolulu, Hawaii.
 - (F) KPHE–LP (K19DD), Phoenix, Arizona.
 - (G) K34FI, Bozeman, Montana.
 - (H) K65GZ, Bozeman, Montana.
 - (I) WXOB–LP, Richmond, Virginia.
 - (J) WIIW–LP, Nashville, Tennessee.
 - (K) A station and repeaters to be determined by the Federal Communications Commission for the sole purpose

³⁵Section 143 of the Miscellaneous Appropriations Act, 2001 (P.L. 106–554; Appendix D), added subsection (h) to section 336. Section 143(b) of the Miscellaneous Appropriations Act, 2001, provided as follows:

(b) [47 U.S.C. 336 note] The Federal Communications Commission shall submit a report to the Congress on June 30, 2001, and June 30, 2002, evaluating the utility of using low-power television stations to provide high-speed digital data service. The reports shall be based on the pilot projects authorized by section 336(h) of the Communications Act of 1934 (47 U.S.C. 336(h)).

of providing service to communities in the Kenai Peninsula Borough and Matanuska Susitna Borough.

(L) WSPY-LP, Plano, Illinois.

(M) W24AJ, Aurora, Illinois.

(3) Notwithstanding any requirement of section 553 of title 5, United States Code, the Commission shall promulgate regulations establishing the procedures, consistent with the requirements of paragraphs (4) and (5), governing the pilot projects for the provision of digital data services by certain low power television licensees within 120 days after the date of enactment of LPTV Digital Data Services Act. The regulations shall set forth—

(A) requirements as to the form, manner, and information required for submitting requests to the Commission to provide digital data service as a pilot project;

(B) procedures for testing interference to digital television receivers caused by any pilot project station or remote transmitter;

(C) procedures for terminating any pilot project station or remote transmitter or both that causes interference to any analog or digital full-power television stations, class A television station, television translators or any other users of the core television band;

(D) specifications for reports to be filed quarterly by each low power television licensee participating in a pilot project;

(E) procedures by which a low power television licensee participating in a pilot project shall notify television broadcast stations in the same market upon commencement of digital data services and for ongoing coordination with local broadcasters during the test period; and

(F) procedures for the receipt and review of interference complaints on an expedited basis consistent with paragraph (5)(D).

(4) A low-power television station to which this subsection applies may not provide digital data service unless—

(A) the provision of that service, including any remote return-path transmission in the case of 2-way digital data service, does not cause any interference in violation of the Commission's existing rules, regarding interference caused by low power television stations to full-service analog or digital television stations, class A television stations, or television translator stations; and

(B) the station complies with the Commission's regulations governing safety, environmental, and sound engineering practices, and any other Commission regulation under paragraph (3) governing pilot program operations.

(5)(A) The Commission may limit the provision of digital data service by a low-power television station to which this subsection applies if the Commission finds that—

(i) the provision of 2-way digital data service by that station causes any interference that cannot otherwise be remedied; or

(ii) the provision of 1-way digital data service by that station causes any interference.

(B) The Commission shall grant any such station, upon application (made in such form and manner and containing such information as the Commission may require) by the licensee or permittee of that station, authority to move the station to another location, to modify its facilities to operate on a different channel, or to use booster or auxiliary transmitting locations, if the grant of authority will not cause interference to the allowable or protected service areas of full service digital television stations, National Television Standards Committee assignments, or television translator stations, and provided, however, no such authority shall be granted unless it is consistent with existing Commission regulations relating to the movement, modification, and use of non-class A low power television transmission facilities in order—

(i) to operate within television channels 2 through 51, inclusive; or

(ii) to demonstrate the utility of low-power television stations to provide high-speed 2-way wireless digital data service.

(C) The Commission shall require quarterly reports from each station authorized to provide digital data services under this subsection that include—

(i) information on the station's experience with interference complaints and the resolution thereof;

(ii) information on the station's market success in providing digital data service; and

(iii) such other information as the Commission may require in order to administer this subsection.

(D) The Commission shall resolve any complaints of interference with television reception caused by any station providing digital data service authorized under this subsection within 60 days after the complaint is received by the Commission.

(6) The Commission shall assess and collect from any low-power television station authorized to provide digital data service under this subsection an annual fee or other schedule or method of payment comparable to any fee imposed under the authority of this Act on providers of similar services. Amounts received by the Commission under this paragraph may be retained by the Commission as an offsetting collection to the extent necessary to cover the costs of developing and implementing the pilot program authorized by this subsection, and regulating and supervising the provision of digital data service by low-power television stations under this subsection. Amounts received by the Commission under this paragraph in excess of any amount retained under the preceding sentence shall be deposited in the Treasury in accordance with chapter 33 of title 31, United States Code.

(7) In this subsection, the term "digital data service" includes—

(A) digitally-based interactive broadcast service; and

(B) wireless Internet access, without regard to—

(i) whether such access is—

(I) provided on a one-way or a two-way basis;

(II) portable or fixed; or

(III) connected to the Internet via a band allocated to Interactive Video and Data Service; and

(ii) the technology employed in delivering such service, including the delivery of such service via multiple transmitters at multiple locations.

(8) Nothing in this subsection limits the authority of the Commission under any other provision of law.

(i) DEFINITIONS.—As used in this section:

(1) ADVANCED TELEVISION SERVICES.—The term “advanced television services” means television services provided using digital or other advanced technology as further defined in the opinion, report, and order of the Commission entitled “Advanced Television Systems and Their Impact Upon the Existing Television Broadcast Service”, MM Docket 87–268, adopted September 17, 1992, and successor proceedings.

(2) DESIGNATED FREQUENCIES.—The term “designated frequency” means each of the frequencies designated by the Commission for licenses for advanced television services.

(3) HIGH DEFINITION TELEVISION.—The term “high definition television” refers to systems that offer approximately twice the vertical and horizontal resolution of receivers generally available on the date of enactment of the Telecommunications Act of 1996, as further defined in the proceedings described in paragraph (1) of this subsection.

SEC. 337. [47 U.S.C. 337] ALLOCATION AND ASSIGNMENT OF NEW PUBLIC SAFETY SERVICES LICENSES AND COMMERCIAL LICENSES.

(a) IN GENERAL.—Not later than January 1, 1998, the Commission shall allocate the electromagnetic spectrum between 746 megahertz and 806 megahertz, inclusive, as follows:

(1) 34 megahertz of that spectrum for public safety services according to the terms and conditions established by the Commission, in consultation with the Secretary of Commerce and the Attorney General; and

(2) 26 megahertz of that spectrum for commercial use to be assigned by competitive bidding pursuant to section 309(j).

(b) ASSIGNMENT.—The Commission shall commence assignment of licenses for public safety services created pursuant to subsection (a) no later than September 30, 1998.

(c) LICENSING OF UNUSED FREQUENCIES FOR PUBLIC SAFETY SERVICES.—

(1) USE OF UNUSED CHANNELS FOR PUBLIC SAFETY SERVICES.—Upon application by an entity seeking to provide public safety services, the Commission shall waive any requirement of this Act or its regulations implementing this Act (other than its regulations regarding harmful interference) to the extent necessary to permit the use of unassigned frequencies for the provision of public safety services by such entity. An application shall be granted under this subsection if the Commission finds that—

(A) no other spectrum allocated to public safety services is immediately available to satisfy the requested public safety service use;

(B) the requested use is technically feasible without causing harmful interference to other spectrum users entitled to protection from such interference under the Commission's regulations;

(C) the use of the unassigned frequency for the provision of public safety services is consistent with other allocations for the provision of such services in the geographic area for which the application is made;

(D) the unassigned frequency was allocated for its present use not less than 2 years prior to the date on which the application is granted; and

(E) granting such application is consistent with the public interest.

(2) APPLICABILITY.—Paragraph (1) shall apply to any application to provide public safety services that is pending or filed on or after the date of enactment of the Balanced Budget Act of 1997.

(d) CONDITIONS ON LICENSES.—In establishing service rules with respect to licenses granted pursuant to this section, the Commission—

(1) shall establish interference limits at the boundaries of the spectrum block and service area;

(2) shall establish any additional technical restrictions necessary to protect full-service analog television service and digital television service during a transition to digital television service;

(3) may permit public safety services licensees and commercial licensees—

(A) to aggregate multiple licenses to create larger spectrum blocks and service areas; and

(B) to disaggregate or partition licenses to create smaller spectrum blocks or service areas; and

(4) shall establish rules insuring that public safety services licensees using spectrum reallocated pursuant to subsection (a)(1) shall not be subject to harmful interference from television broadcast licensees.

(e) REMOVAL AND RELOCATION OF INCUMBENT BROADCAST LICENSEES.—

(1) CHANNELS 52 TO 69.—Any full-power television station licensee that holds a television broadcast license to operate between 698 and 806 megahertz may not operate at that frequency after June 12, 2009.

(2) INCUMBENT QUALIFYING LOW-POWER STATIONS.—After making any allocation or assignment under this section, the Commission shall seek to assure, consistent with the Commission's plan for allotments for digital television service, that each qualifying low-power television station is assigned a frequency below 698 megahertz to permit the continued operation of such station.

(f) DEFINITIONS.—For purposes of this section:

(1) PUBLIC SAFETY SERVICES.—The term “public safety services” means services—

(A) the sole or principal purpose of which is to protect the safety of life, health, or property;

(B) that are provided—

(i) by State or local government entities; or

(ii) by nongovernmental organizations that are authorized by a governmental entity whose primary mission is the provision of such services; and

(C) that are not made commercially available to the public by the provider.

(2) QUALIFYING LOW-POWER TELEVISION STATIONS.—A station is a qualifying low-power television station if, during the 90 days preceding the date of enactment of the Balanced Budget Act of 1997—

(A) such station broadcast a minimum of 18 hours per day;

(B) such station broadcast an average of at least 3 hours per week of programming that was produced within the market area served by such station; and

(C) such station was in compliance with the requirements applicable to low-power television stations.

SEC. 338. [47 U.S.C. 338] CARRIAGE OF LOCAL TELEVISION SIGNALS BY SATELLITE CARRIERS.

(a) CARRIAGE OBLIGATIONS.—

(1) IN GENERAL.—Each satellite carrier providing, under section 122 of title 17, United States Code, secondary transmissions to subscribers located within the local market of a television broadcast station of a primary transmission made by that station shall carry upon request the signals of all television broadcast stations located within that local market, subject to section 325(b).

(2) REMEDIES FOR FAILURE TO CARRY.—In addition to the remedies available to television broadcast stations under section 501(f) of title 17, United States Code, the Commission may use the Commission’s authority under this Act to assure compliance with the obligations of this subsection, but in no instance shall a Commission enforcement proceeding be required as a predicate to the pursuit of a remedy available under such section 501(f).

(3) LOW POWER STATION CARRIAGE OPTIONAL.—No low power television station whose signals are provided under section 119(a)(14) of title 17, United States Code, shall be entitled to insist on carriage under this section, regardless of whether the satellite carrier provides secondary transmissions of the primary transmissions of other stations in the same local market pursuant to section 122 of such title, nor shall any such carriage be considered in connection with the requirements of subsection (c) of this section.

(4) CARRIAGE OF SIGNALS OF LOCAL STATIONS IN CERTAIN MARKETS.—A satellite carrier that offers multichannel video programming distribution service in the United States to more than 5,000,000 subscribers shall (A) within 1 year after the date of the enactment of the Satellite Home Viewer Extension

and Reauthorization Act of 2004, retransmit the signals originating as analog signals of each television broadcast station located in any local market within a State that is not part of the contiguous United States, and (B) within 30 months after such date of enactment retransmit the signals originating as digital signals of each such station. The retransmissions of such stations shall be made available to substantially all of the satellite carrier's subscribers in each station's local market, and the retransmissions of the stations in at least one market in the State shall be made available to substantially all of the satellite carrier's subscribers in areas of the State that are not within a designated market area. The cost to subscribers of such retransmissions shall not exceed the cost of retransmissions of local television stations in other States. Within 1 year after the date of enactment of that Act, the Commission shall promulgate regulations concerning elections by television stations in such State between mandatory carriage pursuant to this section and retransmission consent pursuant to section 325(b), which shall take into account the schedule on which local television stations are made available to viewers in such State.

(5) NONDISCRIMINATION IN CARRIAGE OF HIGH DEFINITION SIGNALS OF NONCOMMERCIAL EDUCATIONAL TELEVISION STATIONS.—

(A) EXISTING CARRIAGE OF HIGH DEFINITION SIGNALS.—

If, before the date of enactment of the Satellite Television Extension and Localism Act of 2010, an eligible satellite carrier is providing, under section 122 of title 17, United States Code, any secondary transmissions in high definition format to subscribers located within the local market of a television broadcast station of a primary transmission made by that station, then such satellite carrier shall carry the signals in high-definition format of qualified noncommercial educational television stations located within that local market in accordance with the following schedule:

(i) By December 31, 2010, in at least 50 percent of the markets in which such satellite carrier provides such secondary transmissions in high definition format.

(ii) By December 31, 2011, in every market in which such satellite carrier provides such secondary transmissions in high definition format.

(B) NEW INITIATION OF SERVICE.—If, on or after the date of enactment of the Satellite Television Extension and Localism Act of 2010, an eligible satellite carrier initiates the provision, under section 122 of title 17, United States Code, of any secondary transmissions in high definition format to subscribers located within the local market of a television broadcast station of a primary transmission made by that station, then such satellite carrier shall carry the signals in high-definition format of all qualified noncommercial educational television stations located within that local market.

(b) GOOD SIGNAL REQUIRED.—

(1) COSTS.—A television broadcast station asserting its right to carriage under subsection (a) shall be required to bear the costs associated with delivering a good quality signal to the designated local receive facility of the satellite carrier or to another facility that is acceptable to at least one-half the stations asserting the right to carriage in the local market.

(2) REGULATIONS.—The regulations issued under subsection (g) shall set forth the obligations necessary to carry out this subsection.

(c) DUPLICATION NOT REQUIRED.—

(1) COMMERCIAL STATIONS.—Notwithstanding subsection (a)(1), a satellite carrier shall not be required to carry upon request the signal of any local commercial television broadcast station that substantially duplicates the signal of another local commercial television broadcast station which is secondarily transmitted by the satellite carrier within the same local market, or to carry upon request the signals of more than one local commercial television broadcast station in a single local market that is affiliated with a particular television network unless such stations are licensed to communities in different States.

(2) NONCOMMERCIAL STATIONS.—The Commission shall prescribe regulations limiting the carriage requirements under subsection (a) of satellite carriers with respect to the carriage of multiple local noncommercial television broadcast stations. To the extent possible, such regulations shall provide the same degree of carriage by satellite carriers of such multiple stations as is provided by cable systems under section 615.

(d) CHANNEL POSITIONING.—No satellite carrier shall be required to provide the signal of a local television broadcast station to subscribers in that station's local market on any particular channel number or to provide the signals in any particular order, except that the satellite carrier shall retransmit the signal of the local television broadcast stations to subscribers in the stations' local market on contiguous channels and provide access to such station's signals at a nondiscriminatory price and in a nondiscriminatory manner on any navigational device, on-screen program guide, or menu.

(e) COMPENSATION FOR CARRIAGE.—A satellite carrier shall not accept or request monetary payment or other valuable consideration in exchange either for carriage of local television broadcast stations in fulfillment of the requirements of this section or for channel positioning rights provided to such stations under this section, except that any such station may be required to bear the costs associated with delivering a good quality signal to the local receive facility of the satellite carrier.

(f) REMEDIES.—

(1) COMPLAINTS BY BROADCAST STATIONS.—Whenever a local television broadcast station believes that a satellite carrier has failed to meet its obligations under subsections (b) through (e) of this section, such station shall notify the carrier, in writing, of the alleged failure and identify its reasons for believing that the satellite carrier failed to comply with such obligations. The satellite carrier shall, within 30 days after such

written notification, respond in writing to such notification and comply with such obligations or state its reasons for believing that it is in compliance with such obligations. A local television broadcast station that disputes a response by a satellite carrier that it is in compliance with such obligations may obtain review of such denial or response by filing a complaint with the Commission. Such complaint shall allege the manner in which such satellite carrier has failed to meet its obligations and the basis for such allegations.

(2) OPPORTUNITY TO RESPOND.—The Commission shall afford the satellite carrier against which a complaint is filed under paragraph (1) an opportunity to present data and arguments to establish that there has been no failure to meet its obligations under this section.

(3) REMEDIAL ACTIONS; DISMISSAL.—Within 120 days after the date a complaint is filed under paragraph (1), the Commission shall determine whether the satellite carrier has met its obligations under subsections (b) through (e). If the Commission determines that the satellite carrier has failed to meet such obligations, the Commission shall order the satellite carrier to take appropriate remedial action. If the Commission determines that the satellite carrier has fully met the requirements of such subsections, the Commission shall dismiss the complaint.

(g) CARRIAGE OF LOCAL STATIONS ON A SINGLE RECEPTION ANTENNA.—

(1) SINGLE RECEPTION ANTENNA.—Each satellite carrier that retransmits the signals of local television broadcast stations in a local market shall retransmit such stations in such market so that a subscriber may receive such stations by means of a single reception antenna and associated equipment.

(2) ADDITIONAL RECEPTION ANTENNA.—If the carrier retransmits the signals of local television broadcast stations in a local market in high definition format, the carrier shall retransmit such signals in such market so that a subscriber may receive such signals by means of a single reception antenna and associated equipment, but such antenna and associated equipment may be separate from the single reception antenna and associated equipment used to comply with paragraph (1).

(h) ADDITIONAL NOTICES TO SUBSCRIBERS, NETWORKS, AND STATIONS CONCERNING SIGNAL CARRIAGE.—

(1) NOTICES TO AND ELECTIONS BY SUBSCRIBERS CONCERNING GRANDFATHERED SIGNALS.—Any carrier that provides a distant signal of a network station to a subscriber pursuant section 339(a)(2)(A) shall—

(A) within 60 days after the local signal of a network station of the same television network is available pursuant to section 338, or within 60 days after the date of enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004, whichever is later, send a notice to the subscriber—

(i) offering to substitute the local network signal for the duplicating distant network signal; and

(ii) informing the subscriber that, if the subscriber fails to respond in 60 days, the subscriber will lose the distant network signal but will be permitted to subscribe to the local network signal; and

(B) if the subscriber—

(i) elects to substitute such local network signal within such 60 days, switch such subscriber to such local network signal within 10 days after the end of such 60-day period; or

(ii) fails to respond within such 60 days, terminate the distant network signal within 10 days after the end of such 60-day period.

(2) NOTICE TO STATION LICENSEES OF COMMENCEMENT OF LOCAL-INTO-LOCAL SERVICE.—

(A) NOTICE REQUIRED.—Within 180 days after the date of enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004, the Commission shall revise the regulations under this section relating to notice to broadcast station licensees to comply with the requirements of this paragraph.

(B) CONTENTS OF COMMENCEMENT NOTICE.—The notice required by such regulations shall inform each television broadcast station licensee within any local market in which a satellite carrier proposes to commence carriage of signals of stations from that market, not later than 60 days prior to the commencement of such carriage—

(i) of the carrier's intention to launch local-into-local service under this section in a local market, the identity of that local market, and the location of the carrier's proposed local receive facility for that local market;

(ii) of the right of such licensee to elect carriage under this section or grant retransmission consent under section 325(b);

(iii) that such licensee has 30 days from the date of the receipt of such notice to make such election; and

(iv) that failure to make such election will result in the loss of the right to demand carriage under this section for the remainder of the 3-year cycle of carriage under section 325.

(C) TRANSMISSION OF NOTICES.—Such regulations shall require that each satellite carrier shall transmit the notices required by such regulation via certified mail to the address for such television station licensee listed in the consolidated database system maintained by the Commission.

(i) PRIVACY RIGHTS OF SATELLITE SUBSCRIBERS.—

(1) NOTICE.—At the time of entering into an agreement to provide any satellite service or other service to a subscriber and at least once a year thereafter, a satellite carrier shall provide notice in the form of a separate, written statement to such subscriber which clearly and conspicuously informs the subscriber of—

(A) the nature of personally identifiable information collected or to be collected with respect to the subscriber and the nature of the use of such information;

(B) the nature, frequency, and purpose of any disclosure which may be made of such information, including an identification of the types of persons to whom the disclosure may be made;

(C) the period during which such information will be maintained by the satellite carrier;

(D) the times and place at which the subscriber may have access to such information in accordance with paragraph (5); and

(E) the limitations provided by this section with respect to the collection and disclosure of information by a satellite carrier and the right of the subscriber under paragraphs (7) and (9) to enforce such limitations.

In the case of subscribers who have entered into such an agreement before the effective date of this subsection, such notice shall be provided within 180 days of such date and at least once a year thereafter.

(2) DEFINITIONS.—For purposes of this subsection, other than paragraph (9)—

(A) the term “personally identifiable information” does not include any record of aggregate data which does not identify particular persons;

(B) the term “other service” includes any wire or radio communications service provided using any of the facilities of a satellite carrier that are used in the provision of satellite service; and

(C) the term “satellite carrier” includes, in addition to persons within the definition of satellite carrier, any person who—

(i) is owned or controlled by, or under common ownership or control with, a satellite carrier; and

(ii) provides any wire or radio communications service.

(3) PROHIBITIONS.—

(A) CONSENT TO COLLECTION.—Except as provided in subparagraph (B), a satellite carrier shall not use any facilities used by the satellite carrier to collect personally identifiable information concerning any subscriber without the prior written or electronic consent of the subscriber concerned.

(B) EXCEPTIONS.—A satellite carrier may use such facilities to collect such information in order to—

(i) obtain information necessary to render a satellite service or other service provided by the satellite carrier to the subscriber; or

(ii) detect unauthorized reception of satellite communications.

(4) DISCLOSURE.—

(A) CONSENT TO DISCLOSURE.—Except as provided in subparagraph (B), a satellite carrier shall not disclose personally identifiable information concerning any subscriber

without the prior written or electronic consent of the subscriber concerned and shall take such actions as are necessary to prevent unauthorized access to such information by a person other than the subscriber or satellite carrier.

(B) EXCEPTIONS.—A satellite carrier may disclose such information if the disclosure is—

(i) necessary to render, or conduct a legitimate business activity related to, a satellite service or other service provided by the satellite carrier to the subscriber;

(ii) subject to paragraph (9), made pursuant to a court order authorizing such disclosure, if the subscriber is notified of such order by the person to whom the order is directed;

(iii) a disclosure of the names and addresses of subscribers to any satellite service or other service, if—

(I) the satellite carrier has provided the subscriber the opportunity to prohibit or limit such disclosure; and

(II) the disclosure does not reveal, directly or indirectly, the—

(aa) extent of any viewing or other use by the subscriber of a satellite service or other service provided by the satellite carrier; or

(bb) the nature of any transaction made by the subscriber over any facilities used by the satellite carrier; or

(iv) to a government entity as authorized under chapter 119, 121, or 206 of title 18, United States Code, except that such disclosure shall not include records revealing satellite subscriber selection of video programming from a satellite carrier.

(5) ACCESS BY SUBSCRIBER.—A satellite subscriber shall be provided access to all personally identifiable information regarding that subscriber which is collected and maintained by a satellite carrier. Such information shall be made available to the subscriber at reasonable times and at a convenient place designated by such satellite carrier. A satellite subscriber shall be provided reasonable opportunity to correct any error in such information.

(6) DESTRUCTION OF INFORMATION.—A satellite carrier shall destroy personally identifiable information if the information is no longer necessary for the purpose for which it was collected and there are no pending requests or orders for access to such information under paragraph (5) or pursuant to a court order.

(7) PENALTIES.—Any person aggrieved by any act of a satellite carrier in violation of this section may bring a civil action in a United States district court. The court may award—

(A) actual damages but not less than liquidated damages computed at the rate of \$100 a day for each day of violation or \$1,000, whichever is higher;

(B) punitive damages; and

(C) reasonable attorneys' fees and other litigation costs reasonably incurred.

The remedy provided by this subsection shall be in addition to any other lawful remedy available to a satellite subscriber.

(8) RULE OF CONSTRUCTION.—Nothing in this title shall be construed to prohibit any State from enacting or enforcing laws consistent with this section for the protection of subscriber privacy.

(9) COURT ORDERS.—Except as provided in paragraph (4)(B)(iv), a governmental entity may obtain personally identifiable information concerning a satellite subscriber pursuant to a court order only if, in the court proceeding relevant to such court order—

(A) such entity offers clear and convincing evidence that the subject of the information is reasonably suspected of engaging in criminal activity and that the information sought would be material evidence in the case; and

(B) the subject of the information is afforded the opportunity to appear and contest such entity's claim.

(j) REGULATIONS BY COMMISSION.—Within 1 year after the date of the enactment of this section, the Commission shall issue regulations implementing this section following a rulemaking proceeding. The regulations prescribed under this section shall include requirements on satellite carriers that are comparable to the requirements on cable operators under sections 614(b)(3) and (4) and 615(g)(1) and (2).

(k) DEFINITIONS.—As used in this section:

(1) DISTRIBUTOR.—The term “distributor” means an entity which contracts to distribute secondary transmissions from a satellite carrier and, either as a single channel or in a package with other programming, provides the secondary transmission either directly to individual subscribers or indirectly through other program distribution entities.

(2) ELIGIBLE SATELLITE CARRIER.—The term “eligible satellite carrier” means any satellite carrier that is not a party to a carriage contract that—

(A) governs carriage of at least 30 qualified non-commercial educational television stations; and

(B) is in force and effect within 150 days after the date of enactment of the Satellite Television Extension and Localism Act of 2010.

(3) LOCAL RECEIVE FACILITY.—The term “local receive facility” means the reception point in each local market which a satellite carrier designates for delivery of the signal of the station for purposes of retransmission.

(4) LOCAL MARKET.—The term “local market” has the meaning given that term under section 122(j) of title 17, United States Code.

(5) LOW POWER TELEVISION STATION.—The term “low power television station” means a low power television station as defined under section 74.701(f) of title 47, Code of Federal Regulations, as in effect on June 1, 2004. For purposes of this paragraph, the term “low power television station” includes a low power television station that has been accorded primary status

as a Class A television licensee under section 73.6001(a) of title 47, Code of Federal Regulations.

(6) QUALIFIED NONCOMMERCIAL EDUCATIONAL TELEVISION STATION.—The term “qualified noncommercial educational television station” means any full-power television broadcast station that—

(A) under the rules and regulations of the Commission in effect on March 29, 1990, is licensed by the Commission as a noncommercial educational broadcast station and is owned and operated by a public agency, nonprofit foundation, nonprofit corporation, or nonprofit association; and

(B) has as its licensee an entity that is eligible to receive a community service grant, or any successor grant thereto, from the Corporation for Public Broadcasting, or any successor organization thereto, on the basis of the formula set forth in section 396(k)(6)(B) of this title.

(7) SATELLITE CARRIER.—The term “satellite carrier” has the meaning given such term under section 119(d) of title 17, United States Code.

(8) SECONDARY TRANSMISSION.—The term “secondary transmission” has the meaning given such term in section 119(d) of title 17, United States Code.

(9) SUBSCRIBER.—The term “subscriber” has the meaning given that term under section 122(j) of title 17, United States Code.

(10) TELEVISION BROADCAST STATION.—The term “television broadcast station” has the meaning given such term in section 325(b)(7).

(I) MARKET DETERMINATIONS.—

(1) IN GENERAL.—Following a written request, the Commission may, with respect to a particular commercial television broadcast station, include additional communities within its local market or exclude communities from such station’s local market to better effectuate the purposes of this section.

(2) CONSIDERATIONS.—In considering requests filed under paragraph (1), the Commission—

(A) may determine that particular communities are part of more than one local market; and

(B) shall afford particular attention to the value of localism by taking into account such factors as—

(i) whether the station, or other stations located in the same area—

(I) have been historically carried on the cable system or systems within such community; or

(II) have been historically carried on the satellite carrier or carriers serving such community;

(ii) whether the television station provides coverage or other local service to such community;

(iii) whether modifying the local market of the television station would promote consumers’ access to television broadcast station signals that originate in their State of residence;

(iv) whether any other television station that is eligible to be carried by a satellite carrier in such com-

munity in fulfillment of the requirements of this section provides news coverage of issues of concern to such community or provides carriage or coverage of sporting and other events of interest to the community; and

(v) evidence of viewing patterns in households that subscribe and do not subscribe to the services offered by multichannel video programming distributors within the areas served by such multichannel video programming distributors in such community.

(3) CARRIAGE OF SIGNALS.—

(A) CARRIAGE OBLIGATION.—A market determination under this subsection shall not create additional carriage obligations for a satellite carrier if it is not technically and economically feasible for such carrier to accomplish such carriage by means of its satellites in operation at the time of the determination.

(B) DELETION OF SIGNALS.—A satellite carrier shall not delete from carriage the signal of a commercial television broadcast station during the pendency of any proceeding under this subsection.

(4) DETERMINATIONS.—Not later than 120 days after the date that a written request is filed under paragraph (1), the Commission shall grant or deny the request.

(5) NO EFFECT ON ELIGIBILITY TO RECEIVE DISTANT SIGNALS.—No modification of a commercial television broadcast station's local market pursuant to this subsection shall have any effect on the eligibility of households in the community affected by such modification to receive distant signals pursuant to section 339, notwithstanding subsection (h)(1) of this section.

SEC. 339. [47 U.S.C. 339] CARRIAGE OF DISTANT TELEVISION STATIONS BY SATELLITE CARRIERS.

(a) PROVISIONS RELATING TO CARRIAGE OF DISTANT SIGNALS.—

(1) CARRIAGE PERMITTED.—

(A) IN GENERAL.—Subject to section 119 of title 17, United States Code, any satellite carrier shall be permitted to provide the signals of no more than two network stations in a single day for each television network to any household not located within the local markets of those network stations.

(B) ADDITIONAL SERVICE.—In addition to signals provided under subparagraph (A), any satellite carrier may also provide service under the statutory license of section 122 of title 17, United States Code, to the local market within which such household is located. The service provided under section 122 of such title may be in addition to the two signals provided under section 119 of such title.

(2) REPLACEMENT OF DISTANT SIGNALS WITH LOCAL SIGNALS.—Notwithstanding any other provision of paragraph (1), the following rules shall apply after the date of enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004:

(A) RULES FOR GRANDFATHERED SUBSCRIBERS.—

(i) FOR THOSE RECEIVING DISTANT SIGNALS.—In the case of a subscriber of a satellite carrier who is eligible to receive the signal of a network station solely by reason of section 119(e) of title 17, United States Code (in this subparagraph referred to as a “distant signal”), and who, as of October 1, 2009, is receiving the distant signal of that network station, the following shall apply:

(I) In a case in which the satellite carrier makes available to the subscriber the signal of a local network station affiliated with the same television network pursuant to section 338, the carrier may only provide the secondary transmissions of the distant signal of a station affiliated with the same network to that subscriber—

(aa) if, within 60 days after receiving the notice of the satellite carrier under section 338(h)(1) of this Act, the subscriber elects to retain the distant signal; but

(bb) only until such time as the subscriber elects to receive such local signal.

(II) Notwithstanding subclause (I), the carrier may not retransmit the distant signal to any subscriber who is eligible to receive the signal of a network station solely by reason of section 119(e) of title 17, United States Code, unless such carrier, within 60 days after the date of the enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004, submits to that television network the list and statement required by subparagraph (F)(i).

(ii) FOR THOSE NOT RECEIVING DISTANT SIGNALS.—In the case of any subscriber of a satellite carrier who is eligible to receive the distant signal of a network station solely by reason of section 119(e) of title 17, United States Code, and who did not receive a distant signal of a station affiliated with the same network on October 1, 2009, the carrier may not provide the secondary transmissions of the distant signal of a station affiliated with the same network to that subscriber.

(B) RULES FOR OTHER SUBSCRIBERS.—

(i) IN GENERAL.—In the case of a subscriber of a satellite carrier who is eligible to receive the signal of a network station under this section (in this subparagraph referred to as a “distant signal”), other than subscribers to whom subparagraph (A) applies, the following shall apply:

(I) In a case in which the satellite carrier makes available to that subscriber, on January 1, 2005, the signal of a local network station affiliated with the same television network pursuant to section 338, the carrier may only provide the secondary transmissions of the distant signal of a station affiliated with the same network to that

subscriber if the subscriber's satellite carrier, not later than March 1, 2005, submits to that television network the list and statement required by subparagraph (F)(i).

(II) In a case in which the satellite carrier does not make available to that subscriber, on January 1, 2005, the signal of a local network station pursuant to section 338, the carrier may only provide the secondary transmissions of the distant signal of a station affiliated with the same network to that subscriber if—

(aa) that subscriber seeks to subscribe to such distant signal before the date on which such carrier commences to carry pursuant to section 338 the signals of stations from the local market of such local network station; and

(bb) the satellite carrier, within 60 days after such date, submits to each television network the list and statement required by subparagraph (F)(ii).

(ii) SPECIAL CIRCUMSTANCES.—A subscriber of a satellite carrier who was lawfully receiving the distant signal of a network station on the day before the date of enactment of the Satellite Television Extension and Localism Act of 2010 may receive both such distant signal and the local signal of a network station affiliated with the same network until such subscriber chooses to no longer receive such distant signal from such carrier, whether or not such subscriber elects to subscribe to such local signal.

(C) FUTURE APPLICABILITY.—A satellite carrier may not provide a distant³⁶ signal (within the meaning of subparagraph (A) or (B)) to a person who—

(i) is not a subscriber lawfully receiving such secondary transmission as of the date of the enactment of the³⁷ Satellite Television Extension and Localism Act of 2010 and, at the time such person seeks to subscribe to receive such secondary transmission, resides in a local market where the satellite carrier makes available to that person the signal of a local network station affiliated with the same television network pursuant to section 338 (and the retransmission of such signal by such carrier can reach such subscriber); or

(ii) lawfully subscribes to and receives a distant signal on or after the date of enactment of the Satellite Television Extension and Localism Act of 2010, and, subsequent to such subscription, the satellite carrier makes available to that subscriber the signal of a

³⁶The amendment made by section 204(b)(1)(B)(iv)(I) of Public Law 111–175 was executed to the probable intent of Congress. Such section provides for an amendment to strike the term “analog”. The term appeared also appeared in clause (ii).

³⁷So in law. See amendment made by section 204(b)(1)(B)(iv)(II) of Public Law 111–175.

local network station affiliated with the same network as the distant signal (and the retransmission of such signal by such carrier can reach such subscriber), unless such person subscribes to the signal of the local network station within 60 days after such signal is made available.

(D) SPECIAL RULES FOR DISTANT SIGNALS.—

(i) ELIGIBILITY AND SIGNAL TESTING.—A subscriber of a satellite carrier shall be eligible to receive a distant signal of a network station affiliated with the same network under this section if, with respect to a local network station, such subscriber—

(I) is a subscriber whose household is not predicted by the model specified in subsection (c)(3) to receive the signal intensity required under section 73.622(e)(1) or, in the case of a low-power station or translator station transmitting an analog signal, section 73.683(a) of title 47, Code of Federal Regulations, or a successor regulation;

(II) is determined, based on a test conducted in accordance with section 73.686(d) of title 47, Code of Federal Regulations, or any successor regulation, not to be able to receive a signal that exceeds the signal intensity standard in section 73.622(e)(1) or, in the case of a low-power station or translator station transmitting an analog signal, section 73.683(a) of such title, or a successor regulation; or

(III) is in an unserved household, as determined under section 119(d)(10)(A) of title 17, United States Code.

(ii) PRE-ENACTMENT DISTANT SIGNAL SUBSCRIBERS.—Any eligible subscriber under this subparagraph who is a lawful subscriber to such a distant signal as of the date of enactment of the Satellite Television Extension and Localism Act of 2010 may continue to receive such distant signal.

(iii) TIME-SHIFTING PROHIBITED.—In a case in which the satellite carrier makes available to an eligible subscriber under this subparagraph the signal of a local network station pursuant to section 338, the carrier may only provide the distant signal of a station affiliated with the same network to that subscriber if, in the case of any local market in the 48 contiguous States of the United States, the distant signal is the secondary transmission of a station whose prime time network programming is generally broadcast simultaneously with, or later than, the prime time network programming of the affiliate of the same network in the local market.

(iv) SAVINGS PROVISION.—Nothing in this subparagraph shall be construed to affect a satellite carrier's obligations under section 338.

(E) AUTHORITY TO GRANT STATION-SPECIFIC WAIVERS.—

This paragraph shall not prohibit a retransmission of a distant signal of any distant network station to any subscriber to whom the signal of a local network station affiliated with the same network is available, if and to the extent that such local network station has affirmatively granted a waiver from the requirements of this paragraph to such satellite carrier with respect to retransmission of such distant network station to such subscriber.

(F) NOTICES TO NETWORKS OF DISTANT SIGNAL SUBSCRIBERS.—

(i) Within 60 days after the date of enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004, each satellite carrier that provides a distant signal of a network station to a subscriber pursuant to subparagraph (A) or (B)(i) of this paragraph shall submit to each network—

(I) a list, aggregated by designated market area, identifying each subscriber provided such a signal by—

(aa) name;

(bb) address (street or rural route number, city, State, and zip code); and

(cc) the distant network signal or signals received; and

(II) a statement that, to the best of the carrier's knowledge and belief after having made diligent and good faith inquiries, the subscriber is qualified under the existing law to receive the distant network signal or signals pursuant to subparagraph (A) or (B)(i) of this paragraph.

(ii) Within 60 days after the date a satellite carrier commences to carry pursuant to section 338 the signals of stations from a local market, such a satellite carrier that provides a distant signal of a network station to a subscriber pursuant to subparagraph (B)(ii) of this paragraph shall submit to each network—

(I) a list identifying each subscriber in that local market provided such a signal by—

(aa) name;

(bb) address (street or rural route number, city, State, and zip code); and

(cc) the distant network signal or signals received; and

(II) a statement that, to the best of the carrier's knowledge and belief after having made diligent and good faith inquiries, the subscriber is qualified under the existing law to receive the distant network signal or signals pursuant to subparagraph (B)(ii) of this paragraph.

(G) OTHER PROVISIONS NOT AFFECTED.—This paragraph shall not affect the eligibility of a subscriber to receive secondary transmissions under section 340 of this

Act or as an unserved household included under section 119(a)(12) of title 17, United States Code.

(H) AVAILABLE DEFINED.—For purposes of this paragraph, a satellite carrier makes available a local signal to a subscriber or person if the satellite carrier offers that local signal to other subscribers who reside in the same zip code as that subscriber or person.

(3) PENALTY FOR VIOLATION.—Any satellite carrier that knowingly and willfully provides the signals of television stations to subscribers in violation of this subsection shall be liable for a forfeiture penalty under section 503 in the amount of \$50,000 for each violation or each day of a continuing violation,³⁸ except that paragraph (2)(D) of this subsection, relating to the provision of distant digital signals, shall be enforceable under the provisions of section 340(f)

(b) EXTENSION OF NETWORK NONDUPLICATION, SYNDICATED EXCLUSIVITY, AND SPORTS BLACKOUT TO SATELLITE RETRANSMISSION.—

(1) EXTENSION OF PROTECTIONS.—Within 45 days after the date of the enactment of the Satellite Home Viewer Improvement Act of 1999, the Commission shall commence a single rulemaking proceeding to establish regulations that—

(A) apply network nonduplication protection (47 CFR 76.92) syndicated exclusivity protection (47 CFR 76.151), and sports blackout protection (47 CFR 76.67) to the retransmission of the signals of nationally distributed superstations by satellite carriers to subscribers; and

(B) to the extent technically feasible and not economically prohibitive, apply sports blackout protection (47 CFR 76.67) to the retransmission of the signals of network stations by satellite carriers to subscribers.

(2) DEADLINE FOR ACTION.—The Commission shall complete all actions necessary to prescribe regulations required by this section so that the regulations shall become effective within 1 year after such date of enactment.

(c) ELIGIBILITY FOR RETRANSMISSION.—

(2)³⁹ WAIVERS.—A subscriber who is denied the retransmission of a signal of a network station under section 119 of title 17, United States Code, may request a waiver from such denial by submitting a request, through such subscriber's satellite carrier, to the network station asserting that the retransmission is prohibited. The network station shall accept or reject a subscriber's request for a waiver within 30 days after receipt of the request. The subscriber shall be permitted to receive such retransmission under section 119(d)(10)(B) of title 17, United States Code, if such station agrees to the waiver request and files with the satellite carrier a written waiver with respect to that subscriber allowing the subscriber to receive such retransmission. If a television network station fails to ac-

³⁸ So in law. The period following the words "continuing violation" should appear at the end of the paragraph. See amendment made by section 204(a)(4) of the Satellite Home Viewer Extension and Reauthorization Act of 2004 (Public Law 108-447; 118 Stat. 3416).

³⁹ Paragraph (1) of subsection (c) was repealed by section 402(i)(7) of division P of Public Law 115-141.

cept or reject a subscriber's request for a waiver within the 30-day period after receipt of the request, that station shall be deemed to agree to the waiver request and have filed such written waiver.

(3) ESTABLISHMENT OF IMPROVED PREDICTIVE MODEL AND ON-LOCATION TESTING REQUIRED.—

(A) PREDICTIVE MODEL.—Within 270 days after the date of the enactment of the Satellite Television Extension and Localism Act of 2010, the Commission shall develop and prescribe by rule a point-to-point predictive model for reliably and presumptively determining the ability of individual locations, through the use of an antenna, to receive signals in accordance with the signal intensity standard in section 73.622(e)(1) of title 47, Code of Federal Regulations, or a successor regulation, including to account for the continuing operation of translator stations and low power television stations. In prescribing such model, the Commission shall rely on the Individual Location Longley-Rice model set forth by the Commission in CS Docket No. 98–201, as previously revised with respect to analog signals, and as recommended by the Commission with respect to digital signals in its Report to Congress in ET Docket No. 05–182, FCC 05–199 (released December 9, 2005). The Commission shall establish procedures for the continued refinement in the application of the model by the use of additional data as it becomes available.

(B) ON-LOCATION TESTING.—The Commission shall issue an order completing its rulemaking proceeding in ET Docket No. 06–94 within 270 days after the date of enactment of the Satellite Television Extension and Localism Act of 2010. In conducting such rulemaking, the Commission shall seek ways to minimize consumer burdens associated with on-location testing.

(4) OBJECTIVE VERIFICATION.—

(A) IN GENERAL.—If a subscriber's request for a waiver under paragraph (2) is rejected and the subscriber submits to the subscriber's satellite carrier a request for a test verifying the subscriber's inability to receive a signal of the signal intensity referenced in clause (i) of subsection (a)(2)(D), the satellite carrier and the network station or stations asserting that the retransmission is prohibited with respect to that subscriber shall select a qualified and independent person to conduct the test referenced in such clause. Such test shall be conducted within 30 days after the date the subscriber submits a request for the test. If the written findings and conclusions of a test conducted in accordance with such clause demonstrate that the subscriber does not receive a signal that meets or exceeds the requisite signal intensity standard in such clause, the subscriber shall not be denied the retransmission of a signal of a network station under section 119(d)(10)(A) of title 17, United States Code.

(B) DESIGNATION OF TESTER AND ALLOCATION OF COSTS.—If the satellite carrier and the network station or

stations asserting that the retransmission is prohibited are unable to agree on such a person to conduct the test, the person shall be designated by an independent and neutral entity designated by the Commission by rule. Unless the satellite carrier and the network station or stations otherwise agree, the costs of conducting the test under this paragraph shall be borne by the satellite carrier, if the station's signal meets or exceeds such requisite signal intensity standard, or by the network station, if its signal fails to meet or exceed such standard.

(C) AVOIDANCE OF UNDUE BURDEN.—Commission regulations prescribed under this paragraph shall seek to avoid any undue burden on any party.

(D) REDUCTION OF VERIFICATION BURDENS.—Within 1 year after the date of enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004, the Commission shall by rule exempt from the verification requirements of subparagraph (A) any request for a test made by a subscriber to a satellite carrier to whom the retransmission of the signals of local broadcast stations is available under section 338 from such carrier.

(E) EXCEPTION.—A satellite carrier may refuse to engage in the testing process. If the carrier does so refuse, a subscriber in a local market in which the satellite carrier does not offer the signals of local broadcast stations under section 338 may, at his or her own expense, authorize a signal intensity test to be performed pursuant to the procedures specified by the Commission in section 73.686(d) of title 47, Code of Federal Regulations, by a tester who is approved by the satellite carrier and by each affected network station, or who has been previously approved by the satellite carrier and by each affected network station but not previously disapproved. A tester may not be so disapproved for a test after the tester has commenced such test. The tester shall give 5 business days advance written notice to the satellite carrier and to the affected network station or stations. A signal intensity test conducted in accordance with this subparagraph shall be determinative of the signal strength received at that household for purposes of determining whether the household is capable of receiving a signal.

(5) DEFINITION.—Notwithstanding subsection (d)(4), for purposes of paragraphs (2) and (4) of this subsection, the term “satellite carrier” includes a distributor (as defined in section 119(d)(1) of title 17, United States Code), but only if the satellite distributor's relationship with the subscriber includes billing, collection, service activation, and service deactivation. (d) DEFINITIONS.—For the purposes of this section:

(1) LOCAL MARKET.—The term “local market” has the meaning given that term under section 122(j) of title 17, United States Code.

(2) NATIONALLY DISTRIBUTED SUPERSTATION.—The term “nationally distributed superstation” means a television broadcast station, licensed by the Commission, that—

(A) is not owned or operated by or affiliated with a television network that, as of January 1, 1995, offered interconnected program service on a regular basis for 15 or more hours per week to at least 25 affiliated television licensees in 10 or more States;

(B) on May 1, 1991, was retransmitted by a satellite carrier and was not a network station at that time; and

(C) was, as of July 1, 1998, retransmitted by a satellite carrier under the statutory license of section 119 of title 17, United States Code.

(3) NETWORK STATION.—The term “network station” has the meaning given such term under section 119(d) of title 17, United States Code.

(4) SATELLITE CARRIER.—The term “satellite carrier” has the meaning given such term under section 119(d) of title 17, United States Code.

(5) TELEVISION NETWORK.—The term “television network” means a television network in the United States which offers an interconnected program service on a regular basis for 15 or more hours per week to at least 25 affiliated broadcast stations in 10 or more States.

SEC. 340. [47 U.S.C. 340] SIGNIFICANTLY VIEWED SIGNALS PERMITTED TO BE CARRIED.

(a) SIGNIFICANTLY VIEWED STATIONS.—In addition to the broadcast signals that subscribers may receive under section 338 and 339, a satellite carrier is also authorized to retransmit to a subscriber located in a community the signal of any station located outside the local market in which such subscriber is located, to the extent such signal—

(1) has, before the date of enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004, been determined by the Federal Communications Commission to be a signal a cable operator may carry as significantly viewed in such community, except to the extent that such signal is prevented from being carried by a cable system in such community under the Commission’s network nonduplication and syndicated exclusivity rules; or

(2) is, after such date of enactment, determined by the Commission to be significantly viewed in such community in accordance with the same standards and procedures concerning shares of viewing hours and audience surveys as are applicable under the rules, regulations, and authorizations of the Commission to determining with respect to a cable system whether signals are significantly viewed in a community.

(b) LIMITATIONS.—

(1) SERVICE LIMITED TO SUBSCRIBERS TAKING LOCAL-INTO-LOCAL SERVICE.—This section shall apply only to retransmissions to subscribers of a satellite carrier who receive retransmissions of a signal from that satellite carrier pursuant to section 338.

(2) SERVICE LIMITATIONS.—A satellite carrier may retransmit to a subscriber in high definition format the signal of a station determined by the Commission to be significantly viewed under subsection (a) only if such carrier also retrans-

mits in high definition format the signal of a station located in the local market of such subscriber and affiliated with the same network whenever such format is available from such station.

(3) LIMITATION NOT APPLICABLE WHERE NO NETWORK AFFILIATES.—The limitations in paragraphs (1) and (2) shall not prohibit a retransmission under this section to a subscriber located in a local market in which there are no network stations affiliated with the same television network as the station whose signal is being retransmitted pursuant to this section.

(4) AUTHORITY TO GRANT STATION-SPECIFIC WAIVERS.—Paragraphs (1) and (2) shall not prohibit a retransmission of a network station to a subscriber if and to the extent that the network station in the local market in which the subscriber is located, and that is affiliated with the same television network, has privately negotiated and affirmatively granted a waiver from the requirements of paragraph (1) and (2) to such satellite carrier with respect to retransmission of the significantly viewed station to such subscriber.

(c) PUBLICATION AND MODIFICATIONS OF LISTS; REGULATIONS.—

(1) IN GENERAL.—The Commission shall—

(A) within 60 days after the date of enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004—

(i) publish a list of the stations that are eligible for retransmission under subsection (a)(1) and the communities in which such stations are eligible for such retransmission; and

(ii) commence a rulemaking proceeding to implement this section by publication of a notice of proposed rulemaking;

(B) adopt rules pursuant to such rulemaking within 1 year after such date of enactment.

(2) PUBLIC AVAILABILITY OF LIST.—The Commission shall make readily available to the public in electronic form, on the Internet website of the Commission or other comparable facility, a list of the stations that are eligible for retransmission under subsection (a) and the communities in which such stations are eligible for such retransmission. The Commission shall update such list within 10 business days after the date on which the Commission issues an order making any modification of such stations and communities.

(3) MODIFICATIONS.—In addition to cable operators and television broadcast station licensees, the Commission shall permit a satellite carrier to petition for decisions and orders—

(A) by which stations may be added to those that are eligible for retransmission under subsection (a), and by which communities may be added in which such stations are eligible for such retransmission; and

(B) by which network nonduplication or syndicated exclusivity regulations are applied to the retransmission in accordance with subsection (e).

(d) EFFECT ON OTHER OBLIGATIONS AND RIGHTS.—

(1) NO EFFECT ON CARRIAGE OBLIGATIONS.—Carriage of a signal under this section is not mandatory, and any right of a station licensee to have the signal of such station carried under section 338 is not affected by the eligibility of such station to be carried under this section.

(2) RETRANSMISSION CONSENT RIGHTS NOT AFFECTED.—The eligibility of the signal of a station to be carried under this section does not affect any right of the licensee of such station to grant (or withhold) retransmission consent under section 325(b)(1).

(e) NETWORK NONDUPLICATION AND SYNDICATED EXCLUSIVITY.—

(1) NOT APPLICABLE EXCEPT AS PROVIDED BY COMMISSION REGULATIONS.—Signals eligible to be carried under this section are not subject to the Commission's regulations concerning network nonduplication or syndicated exclusivity unless, pursuant to regulations adopted by the Commission, the Commission determines to permit network nonduplication or syndicated exclusivity to apply within the appropriate zone of protection.

(2) LIMITATION.—Nothing in this subsection or Commission regulations shall permit the application of network nonduplication or syndicated exclusivity regulations to the retransmission of distant signals of network stations that are carried by a satellite carrier pursuant to a statutory license under section 119(a)(2)(A) or (B) of title 17, United States Code, with respect to persons who reside in unserved households, under 119(a)(4)(A), or under section 119(a)(12), of such title.

(f) ENFORCEMENT.—

(1) ORDERS AND DAMAGES.—Upon complaint, the Commission shall issue a cease and desist order to any satellite carrier found to have violated this section in carrying any television broadcast station. Such order may, if a complaining station requests damages—

(A) provide for the award of damages to a complaining station that establishes that the violation was committed in bad faith, in an amount up to \$50 per subscriber, per station, per day of the violation; and

(B) provide for the award of damages to a prevailing satellite carrier if the Commission determines that the complaint was frivolous, in an amount up to \$50 per subscriber alleged to be in violation, per station alleged, per day of the alleged violation.

(2) COMMISSION DECISION.—The Commission shall issue a final determination resolving a complaint brought under this subsection not later than 180 days after the submission of a complaint under this subsection. The Commission may hear witnesses if it clearly appears, based on written filings by the parties, that there is a genuine dispute about material facts. Except as provided in the preceding sentence, the Commission may issue a final ruling based on written filings by the parties.

(3) REMEDIES IN ADDITION.—The remedies under this subsection are in addition to any remedies available under title 17, United States Code.

(4) NO EFFECT ON COPYRIGHT PROCEEDINGS.—Any determination, action, or failure to act of the Commission under this subsection shall have no effect on any proceeding under title 17, United States Code, and shall not be introduced in evidence in any proceeding under that title. In no instance shall a Commission enforcement proceeding under this subsection be required as a predicate to the pursuit of a remedy available under title 17.

(g) NOTICES CONCERNING SIGNIFICANTLY VIEWED STATIONS.—Each satellite carrier that proposes to commence the retransmission of a station pursuant to this section in any local market shall—

(1) not less than 60 days before commencing such retransmission, provide a written notice to any television broadcast station in such local market of such proposal; and

(2) designate on such carrier's website all significantly viewed signals carried pursuant to section 340 and the communities in which the signals are carried.

(h) ADDITIONAL CORRESPONDING CHANGES IN REGULATIONS.—

(1) COMMUNITY-BY-COMMUNITY ELECTIONS.—The Commission shall, no later than October 30, 2005, revise section 76.66 of its regulations (47 CFR 76.66), concerning satellite broadcast signal carriage, to permit (at the next cycle of elections under section 325) a television broadcast station that is located in a local market into which a satellite carrier retransmits a television broadcast station pursuant to section 338, to elect, with respect to such satellite carrier, between retransmission consent pursuant to such section 325 and mandatory carriage pursuant to section 338 separately for each county within such station's local market, if—

(A) the satellite carrier has notified the station, pursuant to paragraph (3), that it intends to carry another affiliate of the same network pursuant to this section during the relevant election period in the station's local market; or

(B) on the date notification under paragraph (3) was due, the satellite carrier was retransmitting into the station's local market pursuant to this section an affiliate of the same television network.

(2) UNIFIED NEGOTIATIONS.—In revising its regulations as required by paragraph (1), the Commission shall provide that any such station shall conduct a unified negotiation for the entire portion of its local market for which retransmission consent is elected.

(3) ADDITIONAL PROVISIONS.—The Commission shall, no later than October 30, 2005, revise its regulations to provide the following:

(A) NOTIFICATIONS BY SATELLITE CARRIER.—A satellite carrier's retransmission of television broadcast stations pursuant to this section shall be subject to the following limitations:

(i) In any local market in which the satellite carrier provides service pursuant to section 338 on the date of enactment of the Satellite Home Viewer Extension

sion and Reauthorization Act of 2004, the carrier may notify a television broadcast station in that market, at least 60 days prior to any date on which the station must thereafter make an election under section 76.66 of the Commission's regulations (47 CFR 76.66), of—

(I) each affiliate of the same television network that the carrier reserves the right to retransmit into that station's local market pursuant to this section during the next election cycle under such section of such regulations; and

(II) for each such affiliate, the communities into which the satellite carrier reserves the right to make such retransmissions.

(ii) In any local market in which the satellite carrier commences service pursuant to section 338 after the date of enactment of the Satellite Home Viewer Extension and Reauthorization Act of 2004, the carrier may notify a station in that market, at least 60 days prior to the introduction of such service in that market, and thereafter at least 60 days prior to any date on which the station must thereafter make an election under section 76.66 of the Commission's regulations (47 CFR 76.66), of each affiliate of the same television network that the carrier reserves the right to retransmit into that station's local market during the next election cycle under such section of such regulations.

(iii) Beginning with the 2005 election cycle, a satellite carrier may only retransmit pursuant to this section during the pertinent election period a signal—

(I) as to which it has provided the notifications set forth in clauses (i) and (ii); or

(II) that it was retransmitting into the local market under this section as of the date such notifications were due.

(B) HARMONIZATION OF ELECTIONS AND RETRANSMISSION CONSENT AGREEMENTS.—If a satellite carrier notifies a television broadcast station that it reserves the right to retransmit an affiliate of the same television network during the next election cycle pursuant to this section, the station may choose between retransmission consent and mandatory carriage for any portion of the 3-year election cycle that is not covered by an existing retransmission consent agreement.

(i) DEFINITIONS.—As used in this section:

(1) LOCAL MARKET; SATELLITE CARRIER; SUBSCRIBER; TELEVISION BROADCAST STATION.—The terms “local market”, “satellite carrier”, “subscriber”, and “television broadcast station” have the meanings given such terms in section 338(k).

(2) NETWORK STATION; TELEVISION NETWORK.—The terms “network station” and “television network” have the meanings given such terms in section 339(d).

(3) COMMUNITY.—The term “community” means—

As Amended Through P.L. 117-338, Enacted January 5, 2023

(A) a county or a cable community, as determined under the rules, regulations, and authorizations of the Commission applicable to determining with respect to a cable system whether signals are significantly viewed; or

(B) a satellite community, as determined under such rules, regulations, and authorizations (or revisions thereof) as the Commission may prescribe in implementing the requirements of this section.

SEC. 341. [47 U.S.C. 341] CARRIAGE OF TELEVISION SIGNALS TO CERTAIN SUBSCRIBERS.⁴⁰

(a)(1) **IN GENERAL.**—A cable operator or satellite carrier may elect to retransmit, to subscribers in an eligible county.—

(A) any television broadcast stations that are located in the State in which the county is located and that any cable operator or satellite carrier was retransmitting to subscribers in the county on January 1, 2004; or

(B) up to 2 television broadcast stations located in the State in which the county is located, if the number of television broadcast stations that the cable operator or satellite carrier is authorized to carry under paragraph (1) is less than 3.

(2) **DEEMED SIGNIFICANTLY VIEWED.**—A station described in subsection (a) is deemed to be significantly viewed in the eligible county within the meaning of section 76.54 of the Commission's regulations (47 CFR 76.54).

(3) **DEFINITION OF ELIGIBLE COUNTY.**—For purposes of this section, the term “eligible county” means any 1 of 4 counties that—

(A) are all in a single State;

(B) on January 1, 2004, were each in designated market areas in which the majority of counties were located in another State or States; and

(C) as a group had a combined total of 41,340 television households according to the U.S. Television Household Estimates by Nielsen Media Research for 2003–2004.

(4) **LIMITATION.**—Carriage of a station under this section shall be at the option of the cable operator or satellite carrier.

(b) **CERTAIN MARKETS.**—Notwithstanding any other provision of law, a satellite carrier may not carry the signal of a television station into an adjacent local market that is comprised of only a portion of a county, other than to unserved households located in that county.

SEC. 342. [47 U.S.C. 342] PROCESS FOR ISSUING QUALIFIED CARRIER CERTIFICATION.

(a) **CERTIFICATION.**—The Commission shall issue a certification for the purposes of section 119(g)(3)(A)(iii) of title 17, United States Code, if the Commission determines that—

(1) a satellite carrier is providing local service pursuant to the statutory license under section 122 of such title in each designated market area; and

⁴⁰ The placement of section 341 after section 340 (as added by section 211 of Satellite Home Viewer Extension and Reauthorization Act of 2004; Public Law 108–447; 118 Stat. 3430) reflects the probable intent of Congress even though the amendment instruction provides to insert a new section 341 “after section 339”.

(2) with respect to each designated market area in which such satellite carrier was not providing such local service as of the date of enactment of the Satellite Television Extension and Localism Act of 2010—

(A) the satellite carrier's satellite beams are designed, and predicted by the satellite manufacturer's pre-launch test data, to provide a good quality satellite signal to at least 90 percent of the households in each such designated market area based on the most recent census data released by the United States Census Bureau; and

(B) there is no material evidence that there has been a satellite or sub-system failure subsequent to the satellite's launch that precludes the ability of the satellite carrier to satisfy the requirements of subparagraph (A).

(b) INFORMATION REQUIRED.—Any entity seeking the certification provided for in subsection (a) shall submit to the Commission the following information:

(1) An affidavit stating that, to the best of the affiant's knowledge, the satellite carrier provides local service in all designated market areas pursuant to the statutory license provided for in section 122 of title 17, United States Code, and listing those designated market areas in which local service was provided as of the date of enactment of the Satellite Television Extension and Localism Act of 2010.

(2) For each designated market area not listed in paragraph (1):

(A) Identification of each such designated market area and the location of its local receive facility.

(B) Data showing the number of households, and maps showing the geographic distribution thereof, in each such designated market area based on the most recent census data released by the United States Census Bureau.

(C) Maps, with superimposed effective isotropically radiated power predictions obtained in the satellite manufacturer's pre-launch tests, showing that the contours of the carrier's satellite beams as designed and the geographic area that the carrier's satellite beams are designed to cover are predicted to provide a good quality satellite signal to at least 90 percent of the households in such designated market area based on the most recent census data released by the United States Census Bureau.

(D) For any satellite relied upon for certification under this section, an affidavit stating that, to the best of the affiant's knowledge, there have been no satellite or sub-system failures subsequent to the satellite's launch that would degrade the design performance to such a degree that a satellite transponder used to provide local service to any such designated market area is precluded from delivering a good quality satellite signal to at least 90 percent of the households in such designated market area based on the most recent census data released by the United States Census Bureau.

(E) Any additional engineering, designated market area, or other information the Commission considers nec-

essary to determine whether the Commission shall grant a certification under this section.

(c) CERTIFICATION ISSUANCE.—

(1) PUBLIC COMMENT.—The Commission shall provide 30 days for public comment on a request for certification under this section.

(2) DEADLINE FOR DECISION.—The Commission shall grant or deny a request for certification within 90 days after the date on which such request is filed.

(d) SUBSEQUENT AFFIRMATION.—An entity granted qualified carrier status pursuant to section 119(g) of title 17, United States Code, shall file an affidavit with the Commission 30 months after such status was granted stating that, to the best of the affiant's knowledge, it is in compliance with the requirements for a qualified carrier.

(e) DEFINITIONS.—For the purposes of this section:

(1) DESIGNATED MARKET AREA.—The term “designated market area” has the meaning given such term in section 122(j)(2)(C) of title 17, United States Code.

(2) GOOD QUALITY SATELLITE SIGNAL.—

(A) IN GENERAL.—The term “good quality satellite signal” means—

(i) a satellite signal whose power level as designed shall achieve reception and demodulation of the signal at an availability level of at least 99.7 percent using—

(I) models of satellite antennas normally used by the satellite carrier's subscribers; and

(II) the same calculation methodology used by the satellite carrier to determine predicted signal availability in the top 100 designated market areas; and

(ii) taking into account whether a signal is in standard definition format or high definition format, compression methodology, modulation, error correction, power level, and utilization of advances in technology that do not circumvent the intent of this section to provide for non-discriminatory treatment with respect to any comparable television broadcast station signal, a video signal transmitted by a satellite carrier such that—

(I) the satellite carrier treats all television broadcast stations' signals the same with respect to statistical multiplexer prioritization; and

(II) the number of video signals in the relevant satellite transponder is not more than the then current greatest number of video signals carried on any equivalent transponder serving the top 100 designated market areas.

(B) DETERMINATION.—For the purposes of subparagraph (A), the top 100 designated market areas shall be as determined by Nielsen Media Research and published in the Nielsen Station Index Directory and Nielsen Station Index United States Television Household Estimates or

any successor publication as of the date of a satellite carrier's application for certification under this section.

SEC. 343. [47 U.S.C. 343] CONDITIONS ON COMMERCIAL TERRESTRIAL OPERATIONS.

(a) **IN GENERAL.**—The Commission shall not permit commercial terrestrial operations in the 1525–1559 megahertz band or the 1626.5–1660.5 megahertz band until the date that is 90 days after the Commission resolves concerns of widespread harmful interference by such operations in such band to covered GPS devices.

(b) **NOTICE TO CONGRESS.**—

(1) **IN GENERAL.**—At the conclusion of the decision regarding whether to permit such operations in such band, the Commission shall submit to the congressional committees described in paragraph (2) official copies of the documents containing the final decision of the Commission. If the decision is to permit such operations in such band, such documents shall contain or be accompanied by an explanation of how the concerns described in subsection (a) have been resolved.

(2) **CONGRESSIONAL COMMITTEES DESCRIBED.**—The congressional committees described in this paragraph are the following:

(A) The Committee on Energy and Commerce and the Committee on Armed Services of the House of Representatives.

(B) The Committee on Commerce, Science, and Transportation and the Committee on Armed Services of the Senate.

(c) **COVERED GPS DEVICE DEFINED.**—In this section, the term “covered GPS device” means a Global Positioning System device of the Department of Defense.

SEC. 344. [47 U.S.C. 344] TELECOMMUNICATIONS INTERAGENCY WORKING GROUP.⁴¹

(a) **DEFINITION.**—In this section, the term “telecommunications interagency working group” means the interagency working group established under subsection (b)(1).

(b) **ESTABLISHMENT.**—

(1) **IN GENERAL.**—Not later than 60 days after the date of enactment of this section, the Chairman of the Commission, in partnership with the Secretary of Labor, shall establish within the Commission an interagency working group to develop recommendations to address the workforce needs of the telecommunications industry, including the safety of that workforce.

(2) **DATE OF ESTABLISHMENT.**—The telecommunications interagency working group shall be considered established on the date on which a majority of the members of the working group have been appointed, consistent with subsection (d).

⁴¹ Section 60602(a) of division F of Public Law 117-58 provides for an amendment to add a new section 344 to part I of title III of the Communications Act of 1934. Subsection (b) of such section 60602 provides: “section 344 of the Communications Act of 1934, as added by subsection (a), shall be repealed on the day after the date on which the interagency working group established under subsection (b)(1) of that section submits the report to Congress under subsection (g) of that section.”

(c) DUTIES.—In developing recommendations under subsection (b), the telecommunications interagency working group shall—

(1) determine whether, and if so how, any Federal laws, regulations, guidance, policies, or practices, or any budgetary constraints, may be amended to strengthen the ability of institutions of higher education (as defined in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001)) or for-profit businesses to establish, adopt, or expand programs intended to address the workforce needs of the telecommunications industry, including the workforce needed to build and maintain the 5G wireless infrastructure necessary to support 5G wireless technology;

(2) identify potential policies and programs that could encourage and improve coordination among Federal agencies, between Federal agencies and States, and among States, on telecommunications workforce needs;

(3) identify ways in which existing Federal programs, including programs that help facilitate the employment of veterans and military personnel transitioning into civilian life, could be leveraged to help address the workforce needs of the telecommunications industry;

(4) identify ways to improve recruitment in workforce development programs in the telecommunications industry;

(5) identify Federal incentives that could be provided to institutions of higher education, for-profit businesses, State workforce development boards established under section 101 of the Workforce Innovation and Opportunity Act (29 U.S.C. 3111), or other relevant stakeholders to establish or adopt new programs, expand current programs, or partner with registered apprenticeship programs, to address the workforce needs of the telecommunications industry, including such needs in rural areas;

(6) identify ways to improve the safety of telecommunications workers, including tower climbers; and

(7) identify ways that trends in wages, benefits, and working conditions in the telecommunications industry impact recruitment of employees in the sector.

(d) MEMBERS.—The telecommunications interagency working group shall be composed of the following representatives of Federal agencies and relevant non-Federal industry and labor stakeholder organizations:

(1) A representative of the Department of Education, appointed by the Secretary of Education.

(2) A representative of the National Telecommunications and Information Administration, appointed by the Assistant Secretary of Commerce for Communications and Information.

(3) A representative of the Commission, appointed by the Chairman of the Commission.

(4) A representative of a registered apprenticeship program in construction or maintenance, appointed by the Secretary of Labor.

(5) A representative of a telecommunications industry association, appointed by the Chairman of the Commission.

(6) A representative of an Indian Tribe or Tribal organization, appointed by the Chairman of the Commission.

(7) A representative of a rural telecommunications carrier, appointed by the Chairman of the Commission.

(8) A representative of a telecommunications contractor firm, appointed by the Chairman of the Commission.

(9) A representative of an institution of higher education described in section 371(a) of the Higher Education Act of 1965 (20 U.S.C. 1067q(a)), appointed by the Secretary of Education.

(10) A public interest advocate for tower climber safety, appointed by the Secretary of Labor.

(11) A representative of the Directorate of Construction of the Occupational Safety and Health Administration, appointed by the Secretary of Labor.

(12) A representative of a labor organization representing the telecommunications workforce, appointed by the Secretary of Labor.

(e) NO COMPENSATION.—A member of the telecommunications interagency working group shall serve without compensation.

(f) OTHER MATTERS.—

(1) CHAIR AND VICE CHAIR.—The telecommunications interagency working group shall name a chair and a vice chair, who shall be responsible for organizing the business of the working group.

(2) SUBGROUPS.—The chair and vice chair of the telecommunications interagency working group, in consultation with the other members of the telecommunications interagency working group, may establish such subgroups as necessary to help conduct the work of the telecommunications interagency working group.

(3) SUPPORT.—The Commission and the Secretary of Labor may detail employees of the Commission and the Department of Labor, respectively, to assist and support the work of the telecommunications interagency working group, though such a detailee shall not be considered to be a member of the working group.

(g) REPORT TO CONGRESS.—

(1) REPORT TO CONGRESS.—Not later than 1 year after the date on which the telecommunications interagency working group is established, the working group shall submit a report containing its recommendations to address the workforce needs of the telecommunications industry to—

(A) the Committee on Commerce, Science, and Transportation of the Senate;

(B) the Committee on Health, Education, Labor, and Pensions of the Senate;

(C) the Committee on Energy and Commerce of the House of Representatives;

(D) the Committee on Education and Labor of the House of Representatives;

(E) the Department of Labor; and

(F) the Commission.

(2) MAJORITY SUPPORT.—The telecommunications interagency working group may not submit the report under para-

graph (1) unless the report has the support of not less than the majority of the members of the working group.

(3) VIEWS.—The telecommunications interagency working group shall—

(A) include with the report submitted under paragraph (1) any concurring or dissenting view offered by a member of the working group; and

(B) identify each member to whom each concurring or dissenting view described in subparagraph (A) should be attributed.

(4) PUBLIC POSTING.—The Commission and the Secretary of Labor shall make a copy of the report submitted under paragraph (1) available to the public on the websites of the Commission and the Department of Labor, respectively.

(h) NONAPPLICABILITY OF FACCA.—The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the telecommunications interagency working group.

SEC. 345. [47 U.S. C. 345] PROTECTION OF SURVIVORS OF DOMESTIC VIOLENCE, HUMAN TRAFFICKING, AND RELATED CRIMES.

(a) DEFINITIONS.—In this section:

(1) ABUSER.—The term “abuser” means an individual who has committed or allegedly committed a covered act against—

(A) an individual who seeks relief under subsection (b); or

(B) an individual in the care of an individual who seeks relief under subsection (b).

(2) COVERED ACT.—

(A) IN GENERAL.—The term “covered act” means conduct that constitutes—

(i) a crime described in section 40002(a) of the Violence Against Women Act of 1994 (34 U.S.C. 12291(a)), including domestic violence, dating violence, sexual assault, stalking, and sex trafficking;

(ii) an act or practice described in paragraph (11) or (12) of section 103 of the Trafficking Victims Protection Act of 2000 (22 U.S.C. 7102) (relating to severe forms of trafficking in persons and sex trafficking, respectively); or

(iii) an act under State law, Tribal law, or the Uniform Code of Military Justice that is similar to an offense described in clause (i) or (ii).

(B) CONVICTION NOT REQUIRED.—Nothing in subparagraph (A) shall be construed to require a criminal conviction or any other determination of a court in order for conduct to constitute a covered act.

(3) COVERED PROVIDER.—The term “covered provider” means a provider of a private mobile service or commercial mobile service, as those terms are defined in section 332(d).

(4) PRIMARY ACCOUNT HOLDER.—The term “primary account holder” means an individual who is a party to a mobile service contract with a covered provider.

(5) SHARED MOBILE SERVICE CONTRACT.—The term “shared mobile service contract”—

- (A) means a mobile service contract for an account that includes not less than 2 consumers; and
- (B) does not include enterprise services offered by a covered provider.
- (6) SURVIVOR.—The term “survivor” means an individual who is not less than 18 years old and—
- (A) against whom a covered act has been committed or allegedly committed; or
- (B) who cares for another individual against whom a covered act has been committed or allegedly committed (provided that the individual providing care did not commit or allegedly commit the covered act).
- (b) SEPARATION OF LINES FROM SHARED MOBILE SERVICE CONTRACT.—
- (1) IN GENERAL.—Not later than 2 business days after receiving a completed line separation request from a survivor pursuant to subsection (c), a covered provider shall, as applicable, with respect to a shared mobile service contract under which the survivor and the abuser each use a line—
- (A) separate the line of the survivor, and the line of any individual in the care of the survivor, from the shared mobile service contract; or
- (B) separate the line of the abuser from the shared mobile service contract.
- (2) LIMITATIONS ON PENALTIES, FEES, AND OTHER REQUIREMENTS.—Except as provided in paragraphs (5) through (7), a covered provider may not make separation of a line from a shared mobile service contract under paragraph (1) contingent on any requirement other than the requirements under subsection (c), including—
- (A) payment of a fee, penalty, or other charge;
- (B) maintaining contractual or billing responsibility of a separated line with the provider;
- (C) approval of separation by the primary account holder, if the primary account holder is not the survivor;
- (D) a prohibition or limitation, including one described in subparagraph (A), on number portability, provided such portability is technically feasible, or a request to change phone numbers;
- (E) a prohibition or limitation on the separation of lines as a result of arrears accrued by the account;
- (F) an increase in the rate charged for the mobile service plan of the primary account holder with respect to service on any remaining line or lines; or
- (G) any other limitation or requirement not listed under subsection (c).
- (3) RULE OF CONSTRUCTION.—Nothing in paragraph (2) shall be construed to require a covered provider to provide a rate plan for the primary account holder that is not otherwise commercially available.
- (4) REMOTE OPTION.—A covered provider shall offer a survivor the ability to submit a line separation request under subsection (c) through secure remote means that are easily navi-

gable, provided that remote options are commercially available and technically feasible.

(5) RESPONSIBILITY FOR TRANSFERRED TELEPHONE NUMBERS.—Notwithstanding paragraph (2), beginning on the date on which a covered provider transfers billing responsibilities for and use of a telephone number or numbers to a survivor under paragraph (1)(A) in response to a line separation request submitted by the survivor under subsection (c), unless ordered otherwise by a court, the survivor shall assume financial responsibility, including for monthly service costs, for the transferred telephone number or numbers.

(6) RESPONSIBILITY FOR TRANSFERRED TELEPHONE NUMBERS FROM A SURVIVOR'S ACCOUNT.—Notwithstanding paragraph (2), upon the transfer of a telephone number under paragraph (1)(B) in response to a line separation request submitted by a survivor under subsection (c), the survivor shall have no further financial responsibilities to the transferring covered provider for the services provided by the transferring covered provider for the telephone number or for any mobile device associated with the telephone number.

(7) RESPONSIBILITY FOR MOBILE DEVICE.—Notwithstanding paragraph (2), beginning on the date on which a covered provider transfers billing responsibilities for and rights to a telephone number or numbers to a survivor under paragraph (1)(A) in response to a line separation request submitted by the survivor under subsection (c), unless otherwise ordered by a court, the survivor shall not assume financial responsibility for any mobile device associated with the separated line, unless the survivor purchased the mobile device, or affirmatively elects to maintain possession of the mobile device.

(8) NOTICE TO SURVIVOR.—If a covered provider separates a line from a shared mobile service contract under paragraph (1) and the primary account holder is not the survivor, the covered provider shall notify the survivor of the date on which the covered provider intends to give any formal notice to the primary account holder.

(c) LINE SEPARATION REQUEST.—

(1) IN GENERAL.—In the case of a survivor seeking to separate a line from a shared mobile service contract, the survivor shall submit to the covered provider a line separation request that—

(A) verifies that an individual who uses a line under the shared mobile service contract has committed or allegedly committed a covered act against the survivor or an individual in the survivor's care, by providing—

(i) a copy of a signed affidavit from a licensed medical or mental health care provider, licensed military medical or mental health care provider, licensed social worker, victim services provider, or licensed military victim services provider, or an employee of a court, acting within the scope of that person's employment; or

(ii) a copy of a police report, statements provided by police, including military police, to magistrates or

judges, charging documents, protective or restraining orders, military protective orders, or any other official record that documents the covered act;

(B) in the case of relief sought under subsection (b)(1)(A), with respect to—

(i) a line used by the survivor that the survivor seeks to have separated, states that the survivor is the user of that specific line; and

(ii) a line used by an individual in the care of the survivor that the survivor seeks to have separated, includes an affidavit setting forth that the individual—

(I) is in the care of the survivor; and

(II) is the user of that specific line; and

(C) requests relief under subparagraph (A) or (B) of subsection (b)(1) and identifies each line that should be separated.

(2) COMMUNICATIONS FROM COVERED PROVIDERS.—

(A) IN GENERAL.—A covered provider shall notify a survivor seeking relief under subsection (b) in clear and accessible language that the covered provider may contact the survivor, or designated representative of the survivor, to confirm the line separation, or if the covered provider is unable to complete the line separation for any reason, pursuant to subparagraphs (B) and (C).

(B) REMOTE MEANS.—A covered provider shall notify a survivor under subparagraph (A) through remote means, provided that remote means are commercially available and technically feasible.

(C) ELECTION OF MANNER OF CONTACT.—When completing a line separation request submitted by a survivor through remote means under paragraph (1), a covered provider shall allow the survivor to elect in the manner in which the covered provider may—

(i) contact the survivor, or designated representative of the survivor, in response to the request, if necessary; or

(ii) notify the survivor, or designated representative of the survivor, of the inability of the covered provider to complete the line separation.

(3) ENHANCED PROTECTIONS UNDER STATE LAW.—This subsection shall not affect any law or regulation of a State providing communications protections for survivors (or any similar category of individuals) that has less stringent requirements for providing evidence of a covered act (or any similar category of conduct) than this subsection.

(d) CONFIDENTIAL AND SECURE TREATMENT OF PERSONAL INFORMATION.—

(1) IN GENERAL.—Notwithstanding section 222(c)(2), a covered provider and any officer, director, employee, vendor, or agent thereof shall treat any information submitted by a survivor under subsection (c) as confidential and securely dispose of the information not later than 90 days after receiving the information.

(2) **RULE OF CONSTRUCTION.**—Nothing in paragraph (1) shall be construed to prohibit a covered provider from maintaining, for longer than the period specified in that paragraph, a record that verifies that a survivor fulfilled the conditions of a line separation request under subsection (c).

(e) **AVAILABILITY OF INFORMATION TO CONSUMERS.**—A covered provider shall make information about the options and process described in subsections (b) and (c) readily available to consumers—

(1) on the website and the mobile application of the provider;

(2) in physical stores; and

(3) in other forms of public-facing consumer communication.

(f) **TECHNICAL INFEASIBILITY.**—

(1) **IN GENERAL.**—The requirement to effectuate a line separation request pursuant to subsection (b)(1) shall not apply to a covered provider if the covered provider cannot operationally or technically effectuate the request.

(2) **NOTIFICATION.**—If a covered provider cannot operationally or technically effectuate a line separation request as described in paragraph (1), the covered provider shall—

(A) notify the survivor who submitted the request of that infeasibility—

(i) at the time of the request; or

(ii) in the case of a survivor who has submitted the request using remote means, not later than 2 business days after receiving the request; and

(B) provide the survivor with information about other alternatives to submitting a line separation request, including starting a new line of service.

(g) **LIABILITY PROTECTION.**—

(1) **IN GENERAL.**—A covered provider and any officer, director, employee, vendor, or agent thereof shall not be subject to liability for any claims deriving from an action taken or omission made with respect to compliance with this section and the rules adopted to implement this section.

(2) **COMMISSION AUTHORITY.**—Nothing in this subsection shall limit the authority of the Commission to enforce this section or any rules or regulations promulgated by the Commission pursuant to this section.

PART II—RADIO EQUIPMENT AND RADIO OPERATORS ON BOARD SHIP

SEC. 351. [47 U.S.C. 351] SHIP RADIO STATIONS AND OPERATIONS.

(a) Except as provided in section 352 hereof it shall be unlawful—

(1) For any ship of the United States, other than a cargo ship of less than three hundred gross tons, to be navigated in the open sea outside of a harbor or port, or for any ship of the United States or any foreign country, other than a cargo ship of less than three hundred gross tons, to leave or attempt to leave any harbor or port of the United States for a voyage in the open sea, unless such ship

is equipped with an efficient radio station in operating condition, as specified by subparagraphs (A) and (B) of this paragraph, in charge of and operated by one or more radio officers or operators, adequately installed and protected so as to insure proper operation, and so as not to endanger the ship and radio station as hereinafter provided, and, in the case of a ship of the United States, unless there is on board a valid station license issued in accordance with this Act.

(A) Passenger ships irrespective of size and cargo ships of one thousand six hundred gross tons and upward shall be equipped with a radiotelegraph station complying with the provisions of this part;

(B) Cargo ships of three hundred gross tons and upward but less than one thousand six hundred gross tons, unless equipped with a radiotelegraph station complying with the provisions of this part, shall be equipped with a radiotelephone station complying with the provisions of this part.

(2) For any ship of the United States of one thousand six hundred gross tons and upward to be navigated in the open sea outside of a harbor or port, or for any such ship of the United States or any foreign country to leave or attempt to leave any harbor or port of the United States for a voyage in the open sea, unless such ship is equipped with efficient radio direction finding apparatus approved by the Commission, properly adjusted in operating condition as hereinafter provided.

(b) A ship which is not subject to the provisions of this part at the time of its departure on a voyage shall not become subject to such provisions on account of any deviation from its intended voyage due to stress of weather or any other cause over which neither the master, the owner, nor the charterer (if any) has control.

SEC. 352. [47 U.S.C. 352] EXCEPTIONS.

(a) The provisions of this part shall not apply to—

(1) A ship of war;

(2) A ship of the United States belonging to and operated by the Government, except a ship of the Maritime Administration of the Department of Transportation, the Inland and Coastwise Waterways Service, or the Panama Canal Company;

(3) A foreign ship belonging to a country which is a party to any Safety Convention in force between the United States and that country which ship carries a valid certificate exempting said ship from the radio provisions of that Convention, or which ship conforms to the radio requirements of such Convention or Regulations and has on board a valid certificate to that effect, or which ship is not subject to the radio provisions of any such Convention;

(4) Yachts of less than six hundred gross tons not subject to the radio provisions of the Safety Convention;

(5) Vessels in tow;

(6) A ship navigating solely on any bays, sounds, rivers, or protected waters within the jurisdiction of the United States, or to a ship leaving or attempting to leave any harbor or port of the United States for a voyage solely on any bays, sounds, rivers, or protected waters within the jurisdiction of the United States;

(7) A ship navigating solely on the Great Lakes of North America and the River Saint Lawrence as far east as a straight line drawn from Cap des Rosiers to West Point, Anticosti Island, and, on the north side of Anticosti Island, the sixty-third meridian, or to a ship leaving or attempting to leave any harbor or port of the United States for a voyage solely on such waters and within such area;

(8) A ship which is navigated during the course of a voyage both on the Great Lakes of North America and in the open sea, during the period while such ship is being navigated within the Great Lakes of North America and their connecting and tributary waters as far east as the lower exit of the Saint Lambert lock at Montreal in the Province of Quebec, Canada.

(b) Except for nuclear ships, the Commission may, if it considers that the route or the conditions of the voyage or other circumstances are such as to render a radio station unreasonable or unnecessary for the purposes of this part, exempt from the provisions of this part any ship or class of ships which falls within any of the following descriptions:

(1) Passenger ships which in the course of their voyage do not go more than twenty nautical miles from the nearest land or, alternatively, do not go more than two hundred nautical miles between two consecutive ports;

(2) Cargo ships which in the course of their voyage do not go more than one hundred and fifty nautical miles from the nearest land;

(3) Passenger vessels of less than one hundred gross tons not subject to the radio provisions of the Safety Convention;

(4) Sailing ships.

(c) If, because of unforeseeable failure of equipment, a ship is unable to comply with the equipment requirements of this part without undue delay of the ship, the mileage limitations set forth in paragraphs (1) and (2) of subsection (b) shall not apply: *Provided*, That exemption of the ship is found to be reasonable or necessary in accordance with subsection (b) to permit the ship to proceed to a port where the equipment deficiency may be remedied.

(d) Except for nuclear ships, and except for ships of five thousand gross tons and upward which are subject to the Safety Convention, the Commission may exempt from the requirements, for radio direction finding apparatus, of this part and of the Safety Convention, any ship which falls within the descriptions set forth in paragraphs (1), (2), (3), and (4) of subsection (b) of this section, if it considers that the route on conditions of the voyage or other circumstances are such as to render such apparatus unreasonable or unnecessary.

SEC. 353. [47 U.S.C. 353] RADIO OFFICERS, WATCHES, AUTO ALARM-RADIOTELEGRAPH EQUIPPED SHIPS.

(a) Each cargo ship which in accordance with this part is equipped with a radiotelegraph station and which is not equipped with a radiotelegraph auto alarm, and each passenger ship required by this part to be equipped with a radiotelegraph station, shall, for safety purposes, carry at least two radio officers.

(b) A cargo ship which in accordance with this part is equipped with a radiotelegraph station, which is equipped with a radio-

telegraph auto alarm, shall, for safety purposes, carry at least one radio officer who shall have had at least six months' previous service in the aggregate as a radio officer in a station on board a ship or ships of the United States.

(c) Each ship of the United States which in accordance with this part is equipped with a radiotelegraph station shall, while being navigated in the open sea outside of a harbor or port, keep a continuous watch by means of radio officers whenever the station is not being used for authorized traffic: *Provided, That*, in lieu thereof, on a cargo ship equipped with a radiotelegraph auto alarm in proper operating condition, a watch of at least eight hours per day, in the aggregate, shall be maintained by means of a radio officer.

(d) The Commission shall, when it finds it necessary for safety purposes, have authority to prescribe the particular hours of watch on a ship of the United States which in accordance with this part is equipped with a radiotelegraph station.

(e) On all ships of United States equipped with a radiotelegraph auto alarm, said apparatus shall be in operation at all times while the ship is being navigated in the open sea outside of a harbor or port when the radio officer is not on watch.

SEC. 354. [47 U.S.C. 353a] OPERATORS, WATCHES—RADIOTELEPHONE EQUIPPED SHIPS.

(a) Each cargo ship which in accordance with this part is equipped with a radiotelephone station shall, for safety purposes, carry at least one operator who may be the master, an officer, or a member of the crew.

(b) Each cargo ship of the United States which in accordance with this part is equipped with a radiotelephone station shall, while being navigated in the open sea outside of a harbor or port, maintain continuous watch whenever the station is not being used for authorized traffic.

SEC. 355. [47 U.S.C. 354] TECHNICAL REQUIREMENTS—RADIOTELEGRAPH EQUIPPED SHIPS.

The radiotelegraph station and the radio direction finding apparatus required by section 351 of this part shall comply with the following requirements:

(a) The radiotelegraph station shall include a main installation and a reserve installation, electrically separate and electrically independent of each other: *Provided, That*, in installations on cargo ships of three hundred gross tons and upward but less than one thousand six hundred gross tons, and in installations on cargo ships of one thousand six hundred gross tons and upward installed prior to November 19, 1952, if the main transmitter complies with all the requirements for the reserve transmitter, the latter may be omitted.

(b) The radiotelegraph station shall be so located that no harmful interference from extraneous mechanical or other noise will be caused to the proper reception of radio signals, and shall be placed in the upper part of the ship in a position of the greatest possible safety and as high as practicable above the deepest load waterline. The location of the radiotelegraph operating room or rooms shall be approved by the Commandant of the Coast Guard. The radio-

telegraph installation shall be installed in such a position that it will be protected against the harmful effects of water or extremes of temperature, and shall be readily accessible both for immediate use in case of distress and for repair.

(c) The radiotelegraph operating room shall be of sufficient size and of adequate ventilation to enable the main and reserve radiotelegraph installations to be operated efficiently, and shall not be used for any purpose which will interfere with the operation of the radiotelegraph station. The sleeping accommodation of at least one radio officer shall be situated as near as practicable to the radiotelegraph operating room. In ships the keels of which are laid on or after May 26, 1965, this sleeping accommodation shall not be within the radiotelegraph operating room.

(d) The main and reserve installations shall be capable of transmitting and receiving on the frequencies, and using the classes of emission, designated by the Commission pursuant to law for the purposes of distress and safety of navigation.

(e) The main and reserve installations shall, when connected to the main antenna, have a minimum normal range of two hundred nautical miles and one hundred nautical miles, respectively; that is, they must be capable of transmitting and receiving clearly perceptible signals from ship to ship by day and under normal conditions and circumstances over the specified ranges.

(f) Sufficient electrical energy shall be available at all times to operate the main installation over the normal range required by subsection (e) of this section as well as for the purpose of charging any batteries forming part of the radiotelegraph station.

(g) The reserve installation shall include a source of electrical energy independent of the propelling power of the ship and of any other electrical system and shall be capable of being put into operation rapidly and of working for at least six continuous hours. The reserve source of energy and its switchboard shall be as high as practicable in the ship and readily accessible to the radio officer.

(h) There shall be provided between the bridge of the ship and the radiotelegraph operating room, and between the bridge and the location of the radio direction finding apparatus, when such apparatus is not located on the bridge, an efficient two-way system for calling and voice communication which shall be independent of any other communication system in the ship.

(i) The radio direction finding apparatus shall be efficient and capable of receiving signals with the minimum of receiver noise and of taking bearings from which the true bearing and direction may be determined. It shall be capable of receiving signals on the radio-telegraph frequencies assigned by the radio regulations annexed to the International Telecommunication Convention in force for the purpose of distress, direction finding, and maritime radio beacons, and, in installations made after May 26, 1965, such other frequencies as the Commission may for safety purposes designate.

SEC. 356. [47 U.S.C. 354a] TECHNICAL REQUIREMENTS—RADIO-TELEPHONE EQUIPPED SHIPS.

Cargo ships of three hundred gross tons and upward but less than one thousand six hundred gross tons may, in lieu of the radiotelegraph station prescribed by section 355, be equipped with a radiotelegraph station complying with the following requirements:

(a) The radiotelephone station shall be in the upper part of the ship, so located that it is sheltered to the greatest possible extent from noise which might impair the correct reception of messages and signals, and, unless such station is situated on the bridge, there shall be efficient communication with the bridge.

(b) The radiotelephone installation shall be capable of transmitting and receiving on the frequencies, and using the classes of emission, designated by the Commission pursuant to law for purposes of distress and safety of navigation.

(c) The radiotelephone installation shall have a minimum normal range of one hundred and fifty nautical miles; that is, it shall be capable of transmitting and receiving clearly perceptible signals from ship to ship by day and under normal conditions and circumstances over this range.

(d) There shall be available at all times a main source of electrical energy sufficient to operate the installation over the normal range required by subsection (c) of this section. If batteries are provided they shall have sufficient capacity to operate the transmitter and receiver for at least six continuous hours under normal working conditions. In installations made on or after November 19, 1952, a reserve source of electrical energy shall be provided in the upper part of the ship unless the main source of energy is so situated.

SEC. 357. [47 U.S.C. 355] SURVIVAL CRAFT.

Every ship required to be provided with survival craft radio by treaty to which the United States is a party, by statute, or by regulation made in conformity with a treaty, convention, or statute, shall be fitted with efficient radio equipment appropriate to such requirement under such rules and regulations as the Commission may find necessary for safety of life. For purposes of this section, "radio equipment" shall include portable as well as nonportable apparatus.

SEC. 358. [47 U.S.C. 356] APPROVAL OF INSTALLATIONS.

Insofar as is necessary to carry out the purposes and requirements of this part, the Commission shall have authority, for any ship subject to this part—

(1) To approve the details as to the location and manner of installations of the equipment required by this part of equipment necessitated by reason of the purposes and requirements of this part.

(2) To approve installations, apparatus, and spare parts necessary to comply with the purposes and requirements of this part.

(3) To prescribe such additional equipment as may be determined to be necessary to supplement that specified herein, for the proper functioning of the radio installation installed in accordance with this part or for the proper conduct of radio communication in time of emergency or distress.

SEC. 359. [47 U.S.C. 357] TRANSMISSION OF INFORMATION.

(a) The master of every ship of the United States, equipped with radio transmitting apparatus, which meets with dangerous ice, a dangerous derelict, a tropical storm, or any other direct danger to navigation, or encounters subfreezing air temperatures asso-

ciated with gale force winds causing severe ice accretion on superstructures, or winds of force 10 or above on the Beaufort scale for which no storm warning has been received, shall cause to be transmitted all pertinent information relating thereto to ships in the vicinity and to the appropriate authorities on land, in accordance with rules and regulations issued by the Commission. When they consider it necessary, such authorities of the United States shall promptly bring the information received by them to the knowledge of those concerned, including interested foreign authorities.

(b) No charge shall be made by any ship or station in the mobile service of the United States for the transmission, receipt, or relay of the information designated in subsection (a) originating on a ship of the United States or of a foreign country.

(c) The transmission by any ship of the United States, made in compliance with subsection (a), to any station which imposes a charge for the reception, relay, or forwarding of the required information, shall be free of cost to the ship concerned and any communication charges incurred by the ship for transmission, relay, or forwarding of the information may be certified to the Commission for reimbursement out of moneys appropriated to the Commission for that purpose.

(d) No charge shall be made by any ship or station in the mobile service of the United States for the transmission of distress messages and replies thereto in connection with situations involving the safety of life and property at sea.

(e) Notwithstanding any other provision of law, any station or carrier may render free service in connection with situations involving the safety of life and property, including hydrographic reports, weather reports, reports regarding aids to navigation and medical assistance to injured or sick persons on ships and aircraft at sea. All free service permitted by this subsection shall be subject to such rules and regulations as the Commission may prescribe, which rules may limit such free service to the extent which the Commission finds desirable in the public interest.

SEC. 360. [47 U.S.C. 358] AUTHORITY OF MASTER.

The radio installation, the operators, the regulation of their watches, the transmission and receipt of messages, and the radio service of the ship except as they may be regulated by law or international agreement, or by rules and regulations made in pursuance thereof, shall in the case of a ship of the United States be under the supreme control of the master.

SEC. 361. [47 U.S.C. 359] CERTIFICATES.

(a) Each vessel of the United States to which the Safety Convention applies shall comply with the radio and communication provisions of said Convention at all times while the vessel is in use, in addition to all other requirements of law, and shall have on board an appropriate certificate as prescribed by the Safety Convention.

(b) Appropriate certificates concerning the radio particulars provided for in said Convention shall be issued upon proper request to any vessel which is subject to the radio provisions of the Safety Convention and is found by the Commission to comply therewith. Cargo ship safety radio telegraphy certificates, cargo ship safety

radiotelephony certificates, and exemption certificates with respect to radio particulars shall be issued by the Commission. Other certificates concerning the radio particulars provided for in the said Convention shall be issued by the Commandant of the Coast Guard or whatever other agency is authorized by law to do so upon request of the Commission made after proper inspection or determination of the facts. If the holder of a certificate violates the radio provisions of the Safety Convention or the provisions of this Act, or the rules, regulations, or conditions prescribed by the Commission, and if the effective administration of the Safety Convention or of this part so requires, the Commission, after hearing in accordance with law, is authorized to modify or cancel a certificate which it has issued, or to request the modification or cancellation of a certificate which has been issued by another agency upon the Commission's request. Upon receipt of such request for modification or cancellation, the Commandant of the Coast Guard, or whatever agency is authorized by law to do so, shall modify or cancel the certificate in accordance therewith.

SEC. 362. [47 U.S.C. 360] INSPECTION.

(a) In addition to any other provisions required to be included in a radio station license, the station license of each ship of the United States subject to this title shall include particulars with reference to the items specifically required by this title.

(b) Every ship of the United States that is subject to this part shall have the equipment and apparatus prescribed therein inspected at least once each year by the Commission or an entity designated by the Commission. If, after such inspection, the Commission is satisfied that all relevant provisions of this Act and the station license have been complied with, the fact shall be so certified on the station license by the Commission. The Commission shall make such additional inspections at frequent intervals as the Commission determines may be necessary to ensure compliance with the requirements of this Act. The Commission may, upon a finding that the public interest could be served thereby—

(1) waive the annual inspection required under this section for a period of up to 90 days for the sole purpose of enabling a vessel to complete its voyage and proceed to a port in the United States where an inspection can be held; or

(2) waive the annual inspection required under this section for a vessel that is in compliance with the radio provisions of the Safety Convention and that is operating solely in waters beyond the jurisdiction of the United States: *Provided*, That such inspection shall be performed within 30 days of such vessel's return to the United States.

SEC. 363. [47 U.S.C. 361] CONTROL BY COMMISSION.

Nothing in this title shall be interpreted as lessening in any degree the control of the Commission over all matters connected with the radio equipment and its operation on shipboard and its decision and determination in regard to the radio requirements, installations, or exemptions from prescribed radio requirements shall be final, subject only to review in accordance with law.

SEC. 364. [47 U.S.C. 362] FORFEITURES.

The following forfeitures shall apply to this part, in addition to the penalties and forfeitures provided by title V of this Act:

(a) Any ship that leaves or attempts to leave any harbor or port of the United States in violation of the provisions of this part, or the rules and regulations of the Commission made in pursuance thereof, or any ship of the United States that is navigated outside of any harbor or port in violation of any of the provisions of this part, or the rules and regulations of the Commission made in pursuance thereof, shall forfeit to the United States the sum of \$5,000, recoverable by way of suit or libel. Each such departure or attempted departure, and in the case of a ship of the United States each day during which such navigation occurs shall constitute a separate offense.

(b) Every willful failure on the part of the master of a ship of the United States to enforce or to comply with the provisions of this Act or the rules and regulations of the Commission as to equipment, operators, watches, or radio service shall cause him to forfeit to the United States the sum of \$1,000.

SEC. 365. [47 U.S.C. 363] AUTOMATED SHIP DISTRESS AND SAFETY SYSTEMS.

Notwithstanding any provision of this Act or any other provision of law or regulation, a ship documented under the laws of the United States operating in accordance with the Global Maritime Distress and Safety System provisions of the Safety of Life at Sea Convention shall not be required to be equipped with a radio telegraphy station operated by one or more radio officers or operators. This section shall take effect for each vessel upon a determination by the United States Coast Guard that such vessel has the equipment required to implement the Global Maritime Distress and Safety System installed and operating in good working condition.

PART III—RADIO INSTALLATIONS ON VESSELS CARRYING PASSENGERS FOR HIRE**SEC. 381. [47 U.S.C. 381] VESSELS TRANSPORTING MORE THAN SIX PASSENGERS FOR HIRE REQUIRED TO BE EQUIPPED WITH RADIO TELEPHONE.**

Except as provided in section 382, it shall be unlawful for any vessel of the United States, transporting more than six passengers for hire, to be navigated in the open sea or any tidewater within the jurisdiction of the United States adjacent or contiguous to the open sea, unless such vessel is equipped with an efficient radio-telephone installation in operating condition.

SEC. 382. [47 U.S.C. 382] VESSELS EXCEPTED FROM RADIO TELEPHONE REQUIREMENT.

The provisions of this part shall not apply to—

(1) vessels which are equipped with a radio installation in accordance with the provisions of part II of title III of this Act, or in accordance with the radio requirements of the Safety Convention; and⁴²

⁴²So in law.

(2) vessels of the United States belonging to and operated by the Government, and ⁴²

(3) vessels navigating on the Great Lakes.

SEC. 383. [47 U.S.C. 383] EXEMPTIONS BY COMMISSION.

The Commission shall exempt from the provisions of this part any vessel, or class of vessels, in the case of which the route or conditions of the voyage, or other conditions or circumstances, are such as to render a radio installation unreasonable, unnecessary, or ineffective, for the purposes of this Act.

SEC. 384. [47 U.S.C. 384] AUTHORITY OF COMMISSION; OPERATIONS, INSTALLATIONS, AND ADDITIONAL EQUIPMENT.

The Commission shall have authority with respect to any vessel subject to this part—

(1) to specify operating and technical conditions and characteristics including frequencies, emissions, power, communication capability and range, of installations required by reason of this part;

(2) to approve the details as to the location and manner of installation of the equipment required by this part or of equipment necessitated by reason of the purposes and requirements of this part;

(3) to approve installations, apparatus and spare parts necessary to comply with the purposes and requirements of this part; ⁴³

(4) to prescribe such additional equipment as may be determined to be necessary to supplement that specified herein for the proper functioning of the radio installation installed in accordance with this part or for the proper conduct of radio communication in time of emergency or distress.

SEC. 385. [47 U.S.C. 385] INSPECTIONS.

The Commission or an entity designated by the Commission shall make such inspections as may be necessary to insure compliance with the requirements of this part. In accordance with such other provisions of law as apply to Government contracts, the Commission may enter into contracts with any person for the purpose of carrying out such inspections and certifying compliance with those requirements, and may, as part of any such contract, allow any such person to accept reimbursement from the license holder for travel and expense costs of any employee conducting an inspection or certification.

SEC. 386. [47 U.S.C. 386] FORFEITURES.

The following forfeitures shall apply to this part in addition to penalties and forfeitures provided by title V of this Act:

(a) Any vessel of the United States that is navigated in violation of the provisions of this part or of the rules and regulations of the Commission made in pursuance thereof shall forfeit to the United States the sum of \$5,000 recoverable by way of suit or libel. Each day during which such navigation occurs shall constitute a separate offense.

(b) Every willful failure on the part of the master of a vessel of the United States to enforce or to comply with the provisions of

⁴³ So in law. Probably should be followed by "and".

this part or the rules and regulations of the Commission made in pursuance thereof shall cause him to forfeit to the United States the sum of \$1,000.

PART IV—ASSISTANCE FOR PUBLIC TELECOMMUNICATIONS FACILITIES; TELECOMMUNICATIONS DEMONSTRATIONS; CORPORATION FOR PUBLIC BROADCASTING

Subpart A—Assistance for Public Telecommunications Facilities

SEC. 390. [47 U.S.C. 390] DECLARATION OF PURPOSE.

The purpose of this subpart is to assist, through matching grants, in the planning and construction of public telecommunications facilities in order to achieve the following objectives: (1) extend delivery of public telecommunications services to as many citizens of the United States as possible by the most efficient and economical means, including the use of broadcast and nonbroadcast technologies; (2) increase public telecommunications services and facilities available to, operated by, and owned by minorities and women; and (3) strengthen the capability of existing public television and radio stations to provide public telecommunications services to the public.

SEC. 391. [47 U.S.C. 391] AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated \$42,000,000 for each of the fiscal years 1992, 1993, and 1994, to be used by the Secretary of Commerce to assist in the planning and construction of public telecommunications facilities as provided in this subpart. Sums appropriated under this subpart for any fiscal year shall remain available until expended for payment of grants for projects for which applications approved by the Secretary pursuant to this subpart have been submitted within such fiscal year. Sums appropriated under this subpart may be used by the Secretary to cover the cost of administering the provisions of this subpart.

SEC. 392. [47 U.S.C. 392] GRANTS FOR CONSTRUCTION AND PLANNING.

(a) For each project for the construction of public telecommunications facilities there shall be submitted to the Secretary an application for a grant containing such information with respect to such project as the Secretary may require, including the total cost of such project, the amount of the grant requested for such project, and a 5-year plan outlining the applicant's projected facilities requirements and the projected costs of such facilities requirements. Each applicant shall also provide assurances satisfactory to the Secretary that—

(1) the applicant is (A) a public broadcast station; (B) a noncommercial telecommunications entity; (C) a system of public telecommunications entities; (D) a nonprofit foundation, corporation, institution, or association organized primarily for educational or cultural purposes; or (E) a State or local government (or any agency thereof), or a political or special purpose subdivision of a State;

(2) the operation of such public telecommunication facilities will be under the control of the applicant;

(3) necessary funds to construct, operate, and maintain such public telecommunications facilities will be available when needed;

(4) such public telecommunications facilities will be used primarily for the provision of public telecommunications services and that the use of such public telecommunications facilities for purposes other than the provision of public telecommunications services will not interfere with the provision of such public telecommunications services as required in this part;

(5) the applicant has participated in comprehensive planning for such public telecommunications facilities in the area which the applicant proposes to serve, and such planning has included an evaluation of alternate technologies and coordination with State educational television and radio agencies, as appropriate; and

(6) the applicant will make the most efficient use of the grant.

(b) Upon approving any application under this section with respect to any project for the construction of public telecommunications facilities, the Secretary shall make a grant to the applicant in an amount determined by the Secretary, except that such amounts shall not exceed 75 percent of the amount determined by the Secretary to be the reasonable and necessary cost of such project.

(c) The Secretary may provide such funds as the Secretary deems necessary for the planning of any project for which construction funds may be obtained under this section. An applicant for a planning grant shall provide such information with respect to such project as the Secretary may require and shall provide assurances satisfactory to the Secretary that the applicant meets the eligible requirements of subsection (a) to receive construction assistance.

(d) Any studies conducted by or for any grant recipient under this section shall be provided to the Secretary, if such studies are conducted through the use of funds received under this section.

(e) The Secretary shall establish such rules and regulations as may be necessary to carry out this subpart, including rules and regulations relating to the order of priority in approving applications for construction projects and relating to determining the amount of each grant for such projects.

(f) In establishing criteria for grants pursuant to section 393 and in establishing procedures relating to the order of priority established in subsection (e) in approving applications for grants, the Secretary shall give special consideration to applications which would increase minority and women's ownership of, operation of, and participation in public telecommunications entities. The Secretary shall take affirmative steps to inform minorities and women of the availability of funds under this subpart, and the localities where new public telecommunications facilities are needed, and to provide such other assistance and information as may be appropriate.

(g) If, within 10 years after completion of any project for construction of public telecommunications facilities with respect to which a grant has been made under this section—

(1) the applicant or other owner of such facilities ceases to be an agency, institution, foundation, corporation, association, or other entity described in subsection (a)(1); or

(2) such facilities cease to be used primarily for the provision of public telecommunications services (or the use of such public telecommunications facilities for purposes other than the provision of public telecommunications services interferes with the provision of such public telecommunications services as required in this part);

the United States shall be entitled to recover from the applicant or other owner of such facilities the amount bearing the same ratio to the value of such facilities at the time the applicant ceases to be such an entity or at the time of such determination (as determined by agreement of the parties or by action brought in the United States district court for the district in which such facilities are situated), as the amount of the Federal participation bore to the cost of construction of such facilities.

(h) Each recipient of assistance under this subpart shall keep such records as may be reasonably necessary to enable the Secretary to carry out the functions of the Secretary under this subpart, including a complete and itemized inventory of all public telecommunications facilities under the control of such recipient, and records which fully disclose the amount and the disposition by such recipient of the proceeds of such assistance, the total cost of the project in connection with which such assistance is given or used, the amount and nature of that portion of the cost of the project supplied by other sources, and such other records as will facilitate an effective audit.

(i) The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of any recipient of assistance under this subpart that are pertinent to assistance received under this subpart.

SEC. 393. [47 U.S.C. 393] CRITERIA FOR APPROVAL AND EXPENDITURES BY SECRETARY OF COMMERCE.

(a) The Secretary, in consultation with the Corporation, public telecommunications entities, and as appropriate with others, shall establish criteria for making construction and planning grants. Such criteria shall be consistent with the objectives and provisions set forth in this subpart, and shall be made available to interested parties upon request.

(b) The Secretary shall base determinations of whether to approve applications for grants under this subpart, and the amount of such grants, on criteria developed pursuant to subsection (a) and designed to achieve—

(1) the provision of new telecommunications facilities to extend service to areas currently not receiving public telecommunications services;

(2) the expansion of the service areas of existing public telecommunications entities;

(3) the development of public telecommunications facilities owned by, operated by, and available to minorities and women; and

(4) the improvement of the capabilities of existing public broadcast stations to provide public telecommunications services, including services to underserved audiences such as deaf and hearing impaired individuals and blind and visually impaired individuals.

(c) Of the sums appropriated pursuant to section 391 for any fiscal year, a substantial amount shall be available for the expansion and development of noncommercial radio broadcast station facilities.

SEC. 393A. [47 U.S.C. 393a] LONG-RANGE PLANNING FOR FACILITIES.

(a)⁴⁴ The Secretary, in consultation with the Corporation, public telecommunications entities, and as appropriate with other parties, shall develop a long-range plan to accomplish the objectives set forth in section 390. Such plan shall include a detailed 5-year projection of the broadcast and nonbroadcast public telecommunications facilities required to meet such objectives, and the expenditures necessary to provide such facilities.

Subpart B—National Endowment for Children’s Educational Television

SEC. 394. [47 U.S.C. 394] ESTABLISHMENT OF NATIONAL ENDOWMENT.

(a) It is the purpose of this section to enhance the education of children through the creation and production of television programming specifically directed toward the development of fundamental intellectual skills.

(b)(1) There is established, under the direction of the Secretary, a National Endowment for Children’s Educational Television. In administering the National Endowment, the Secretary is authorized to—

(A) contract with the Corporation for the production of educational television programming for children; and

(B) make grants directly to persons proposing to create and produce educational television programming for children. The Secretary shall consult with the Advisory Council on Children’s Educational Television in the making of the grants or the awarding of contracts for the purpose of making the grants.

(2) Contracts and grants under this section shall be made on the condition that the programming shall—

(A) during the first two years after its production, be made available only to public television licensees and permittees and noncommercial television licensees and permittees; and

(B) thereafter be made available to any commercial television licensee or permittee or cable television system operator, at a charge established by the Secretary that will assure the maximum practicable distribution of such programming, so

⁴⁴ Section 1021(a) of Public Law 104–66 (109 Stat. 712) repealed subsection (b), but did not amend subsection (a).

long as such licensee, permittee, or operator does not interrupt the programming with commercial advertisements.

The Secretary may, consistent with the purpose and provisions of this section, permit the programming to be distributed to persons using other media, establish conditions relating to such distribution, and apply those conditions to any contract or grant made under this section. The Secretary may waive the requirements of subparagraph (A) if the Secretary finds that neither public television licensees and permittees nor noncommercial television licensees and permittees will have an opportunity to air such programming in the first two years after its production.

(c)(1) The Secretary, with the advice of the Advisory Council on Children's Educational Television, shall establish criteria for making contracts and grants under this section. Such criteria shall be consistent with the purpose and provisions of this section and shall be made available to interested parties upon request. Such criteria shall include—

(A) criteria to maximize the amount of programming that is produced with the funds made available by the Endowment;

(B) criteria to minimize the costs of—

(i) selection of grantees,

(ii) administering the contracts and grants, and

(iii) the administrative costs of the programming production; and

(C) criteria to otherwise maximize the proportion of funds made available by the Endowment that are expended for the cost of programming production.

(2) Applications for grants under this section shall be submitted to the Secretary in such form and containing such information as the Secretary shall require by regulation.

(d) Upon approving any application for a grant under subsection (b)(1)(B), the Secretary shall make a grant to the applicant in an amount determined by the Secretary, except that such amounts shall not exceed 75 percent of the amount determined by the Secretary to be the reasonable and necessary cost of the project for which the grant is made.

(e)(1) The Secretary shall establish an Advisory Council on Children's Educational Television. The Secretary shall appoint ten individuals as members of the Council and designate one of such members to serve as Chairman.

(2) Members of the Council shall have terms of two years, and no member shall serve for more than three consecutive terms. The members shall have expertise in the fields of education, psychology, child development, or television programming, or related disciplines. Officers and employees of the United States shall not be appointed as members.

(3) While away from their homes or regular places of business in the performance of duties for the Council, the members of the Council shall serve without compensation but shall be allowed travel expenses, including per diem in lieu of subsistence, in accordance with section 5703 of title 5, United States Code.

(4) The Council shall meet at the call of the Chairman and shall advise the Secretary concerning the making of contracts and grants under this section.

(f)(1) Each recipient of a grant under this section shall keep such records as may be reasonably necessary to enable the Secretary to carry out the Secretary's functions under this section, including records which fully disclose the amount and the disposition by such recipient of the proceeds of such grant, the total cost of the project, the amount and nature of that portion of the cost of the project supplied by other sources, and such other records as will facilitate an effective audit.

(2) The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purposes of audit and examination to any books, documents, papers, and records of the recipient that are pertinent to a grant received under this section.

(g) The Secretary is authorized to make such rules and regulations as may be necessary to carry out this section, including those relating to the order of priority in approving applications for projects under this section or to determining the amounts of contracts and grants for such projects.

(h) There are authorized to be appropriated \$2,000,000 for fiscal year 1991, \$4,000,000 for fiscal year 1992, \$5,000,000 for fiscal year 1993, and \$6,000,000 for fiscal year 1994 to be used by the Secretary to carry out the provisions of this section. Sums appropriated under this subsection for any fiscal year shall remain available for contracts and grants for projects for which applications approved under this section have been submitted within one year after the last day of such fiscal year.

(i) For purposes of this section—

(1) the term "educational television programming for children" means any television program which is directed to an audience of children who are 16 years of age or younger and which is designed for the intellectual development of those children, except that such term does not include any television program which is directed to a general audience but which might also be viewed by a significant number of children; and

(2) the term "person" means an individual, partnership, association, joint stock company, trust, corporation, or State or local governmental entity.

Subpart C—Telecommunications Demonstrations

SEC. 395. [47 U.S.C. 395] ASSISTANCE FOR DEMONSTRATION PROJECTS.

(a) It is the purpose of this subpart to promote the development of nonbroadcast telecommunications facilities and services for the transmission, distribution, and delivery of health, education, and public or social service information. The Secretary is authorized, upon receipt of an application in such form and containing such information as he may by regulation require, to make grants to, and enter into contracts with, public and private nonprofit agencies, organizations, and institutions for the purpose of carrying out telecommunications demonstrations.

(b) The Secretary may approve an application submitted under subsection (a) if he determines that—

(1) the project for which application is made will demonstrate innovative methods or techniques of utilizing non-broadcast telecommunications equipment or facilities to satisfy the purpose of this subpart;

(2) demonstrations and related activities assisted under this subpart will remain under the administration and control of the applicant;

(3) the applicant has the managerial and technical capability to carry out the project for which the application is made; and

(4) the facilities and equipment acquired or developed pursuant to the application will be used substantially for the transmission, distribution, and delivery of health, education, or public or social service information.

(c) Upon approving any application under this subpart with respect to any project, the Secretary shall make a grant to or enter into a contract with the applicant in an amount determined by the Secretary not to exceed the reasonable and necessary cost of such project. The Secretary shall pay such amount from the sums available therefor, in advance or by way of reimbursement, and in such installments consistent with established practice, as he may determine.

(d) Funds made available pursuant to this subpart shall not be available for the construction, remodeling, or repair of structures to house the facilities or equipment acquired or developed with such funds, except that such funds may be used for minor remodeling which is necessary for and incidental to the installation of such facilities or equipment.

(e) For purposes of this section, the term "nonbroadcast telecommunications facilities" includes, but is not limited to, cable television systems, communications satellite systems and related terminal equipment, and other modes of transmitting, emitting, or receiving images and sounds or intelligence by means of wire, radio, optical, electromagnetic or other means.

(f) The funding of any demonstration pursuant to this subpart shall continue for not more than 3 years from the date of the original grant or contract.

(g) The Secretary shall require that the recipient of a grant or contract under this subpart submit a summary and evaluation of the results of the demonstration at least annually for each year in which funds are received pursuant to this section.

(h)(1) Each recipient of assistance under this subpart shall keep such records as may be reasonably necessary to enable the Secretary to carry out the Secretary's functions under this subpart, including records which fully disclose the amount and the disposition by such recipient of the proceeds of such assistance, the total cost of the project or undertaking in connection with which such assistance is given or used, the amount and nature of that portion of the cost of the project or undertaking supplied by other sources, and such other records as will facilitate an effective audit.

(2) The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purposes of audit and examination to any books, doc-

uments, papers, and records of the recipient that are pertinent to assistance received under this subpart.

(i) The Secretary is authorized to make such rules and regulations as may be necessary to carry out this subpart, including regulations relating to the order of priority in approving applications for projects under this subpart or to determining the amounts of grants for such projects.

(j) The Commission is authorized to provide such assistance in carrying out the provisions of this subpart as may be requested by the Secretary. The Secretary shall provide for close coordination with the Commission in the administration of the Secretary's functions under this subpart which are of interest to or affect the functions of the Commission. The Secretary shall provide for close coordination with the Corporation in the administration of the Secretary's functions under this subpart which are of interest to or affect the functions of the Corporation.

(k) There are authorized to be appropriated \$1,000,000 for each of the fiscal years 1979, 1980, and 1981, to be used by the Secretary to carry out the provisions of this subpart. Sums appropriated under this subsection for any fiscal year shall remain available for payment of grants or contracts for projects for which applications approved under this subpart have been submitted within one year after the last day of such fiscal year.

Subpart D—Corporation for Public Broadcasting

SEC. 396. [47 U.S.C. 396] DECLARATION OF POLICY.

(a) The Congress hereby finds and declares that—

(1) it is in the public interest to encourage the growth and development of public radio and television broadcasting, including the use of such media for instructional, educational, and cultural purposes;

(2) it is in the public interest to encourage the growth and development of nonbroadcast telecommunications technologies for the delivery of public telecommunications services;

(3) expansion and development of public telecommunications and of diversity of its programming depend on freedom, imagination, and initiative on both local and national levels;

(4) the encouragement and support of public telecommunications, while matters of importance for private and local development, are also of appropriate and important concern to the Federal Government;

(5) it furthers the general welfare to encourage public telecommunications services which will be responsive to the interests of people both in particular localities and throughout the United States, which will constitute an expression of diversity and excellence, and which will constitute a source of alternative telecommunications services for all the citizens of the Nation;

(6) it is in the public interest to encourage the development of programming that involves creative risks and that addresses the needs of unserved and underserved audiences, particularly children and minorities;

(7) it is necessary and appropriate for the Federal Government to complement, assist, and support a national policy that will most effectively make public telecommunications services available to all citizens of the United States;

(8) public television and radio stations and public telecommunications services constitute valuable local community resources for utilizing electronic media to address national concerns and solve local problems through community programs and outreach programs;

(9) it is in the public interest for the Federal Government to ensure that all citizens of the United States have access to public telecommunications services through all appropriate available telecommunications distribution technologies; and

(10) a private corporation should be created to facilitate the development of public telecommunications and to afford maximum protection from extraneous interference and control.

Corporation Established

(b) There is authorized to be established a nonprofit corporation, to be known as the "Corporation for Public Broadcasting", which will not be an agency or establishment of the United States Government. The Corporation shall be subject to the provisions of this section, and, to the extent consistent with this section, to the District of Columbia Nonprofit Corporation Act.

Board of Directors

(c)(1) The Corporation for Public Broadcasting shall have a Board of Directors (hereinafter in this section referred to as the "Board"), consisting of 9 members appointed by the President, by and with the advice and consent of the Senate. No more than 5 members of the Board appointed by the President may be members of the same political party.

(2) The 9 members of the Board appointed by the President (A) shall be selected from among citizens of the United States (not regular full-time employees of the United States) who are eminent in such fields as education, cultural and civic affairs, or the arts, including radio and television; and (B) shall be selected so as to provide as nearly as practicable a broad representation of various regions of the Nation, various professions and occupations, and various kinds of talent and experience appropriate to the functions and responsibilities of the Corporation.

(3) Of the members of the Board appointed by the President under paragraph (1), one member shall be selected from among individuals who represent the licensees and permittees of public television stations, and one member shall be selected from among individuals who represent the licensees and permittees of public radio stations.

(4) The members of the initial Board of Directors shall serve as incorporators and shall take whatever actions are necessary to establish the Corporation under the District of Columbia Nonprofit Corporation Act.

(5) The term of office of each member of the Board appointed by the President shall be 6 years, except as provided in section 5(c)

of the Public Telecommunications Act of 1992. Any member whose term has expired may serve until such member's successor has taken office, or until the end of the calendar year in which such member's term has expired, whichever is earlier. Any member appointed to fill a vacancy occurring prior to the expiration of the term for which such member's predecessor was appointed shall be appointed for the remainder of such term. No member of the Board shall be eligible to serve in excess of 2 consecutive full terms.

(6) Any vacancy in the Board shall not affect its power, but shall be filled in the manner consistent with this Act.

(7) Members of the Board shall attend not less than 50 percent of all duly convened meetings of the Board in any calendar year. A member who fails to meet the requirement of the preceding sentence shall forfeit membership and the President shall appoint a new member to fill such vacancy not later than 30 days after such vacancy is determined by the Chairman of the Board.

Election of Chairman and Vice Chairman; Compensation

(d)(1) Members of the Board shall annually elect one of their members to be Chairman and elect one or more of their members as a Vice Chairman or Vice Chairmen.

(2) The members of the Board shall not, by reason of such membership, be deemed to be officers or employees of the United States. They shall, while attending meetings of the Board or while engaged in duties related to such meetings or other activities of the Board pursuant to this subpart, be entitled to receive compensation at the rate of \$150 per day, including traveltime. No Board member shall receive compensation of more than \$10,000 in any fiscal year. While away from their homes or regular places of business, Board members shall be allowed travel and actual, reasonable, and necessary expenses.

Officers and Employees

(e)(1) The Corporation shall have a President, and such other officers as may be named and appointed by the Board for terms and at rates of compensation fixed by the Board. No officer or employee of the Corporation may be compensated by the Corporation at an annual rate of pay which exceeds the rate of basic pay in effect from time to time for level I of the Executive Schedule under section 5312 of title 5, United States Code. No individual other than a citizen of the United States may be an officer of the Corporation. No officer of the Corporation, other than the Chairman or a Vice Chairman, may receive any salary or other compensation (except for compensation for services on boards of directors of other organizations that do not receive funds from the Corporation, on committees of such boards, and in similar activities for such organizations) from any sources other than the Corporation for services rendered during the period of his or her employment by the Corporation. Service by any officer on boards of directors of other organizations, on committees of such boards, and in similar activities for such organizations shall be subject to annual advance approval by the Board and subject to the provisions of the Corporation's

Statement of Ethical Conduct. All officers shall serve at the pleasure of the Board.

(2) Except as provided in the second sentence of subsection (c)(1) of this section, no political test or qualification shall be used in selecting, appointing, promoting, or taking other personnel actions with respect to officers, agents, and employees of the Corporation.

Nonprofit and Nonpolitical Nature of the Corporation

(f)(1) The Corporation shall have no power to issue any shares of stock, or to declare or pay any dividends.

(2) No part of the income or assets of the Corporation shall inure to the benefit of any director, officer, employee, or any other individual except as salary or reasonable compensation for services.

(3) The Corporation may not contribute to or otherwise support any political party or candidate for elective public office.

Purposes and Activities of Corporation

(g)(1) In order to achieve the objectives and to carry out the purposes of this subpart, as set out in subsection (a), the Corporation is authorized to—

(A) facilitate the full development of public telecommunications in which programs of high quality, diversity, creativity, excellence, and innovation, which are obtained from diverse sources, will be made available to public telecommunications entities, with strict adherence to objectivity and balance in all programs or series of programs of a controversial nature;

(B) assist in the establishment and development of one or more interconnection systems to be used for the distribution of public telecommunications services so that all public telecommunications entities may disseminate such services at times chosen by the entities;

(C) assist in the establishment and development of one or more systems of public telecommunications entities throughout the United States; and

(D) carry out its purposes and functions and engage in its activities in ways that will most effectively assure the maximum freedom of the public telecommunications entities and systems from interference with, or control of, program content or other activities.

(2) In order to carry out the purposes set forth in subsection (a), the Corporation is authorized to—

(A) obtain grants from and make contracts with individuals and with private, State, and Federal agencies, organizations, and institutions;

(B) contract with or make grants to public telecommunications entities, national, regional, and other systems of public telecommunications entities, and independent producers and production entities, for the production or acquisition of public telecommunications services to be made available for use by public telecommunications entities, except that—

(i) to the extent practicable, proposals for the provision of assistance by the Corporation in the production or ac-

quisition of programs or series of programs shall be evaluated on the basis of comparative merit by panels of outside experts, representing diverse interests and perspectives, appointed by the Corporation; and

(ii) nothing in this subparagraph shall be construed to prohibit the exercise by the Corporation of its prudent business judgement with respect to any grant to assist in the production or acquisition of any program or series of programs recommended by any such panel;

(C) make payments to existing and new public telecommunications entities to aid in financing the production or acquisition of public telecommunications services by such entities, particularly innovative approaches to such services, and other costs of operation of such entities;

(D) establish and maintain, or contribute to, a library and archives of noncommercial educational and cultural radio and television programs and related materials and develop public awareness of, and disseminate information about, public telecommunications services by various means, including the publication of a journal;

(E) arrange, by grant to or contract with appropriate public or private agencies, organizations, or institutions, for interconnection facilities suitable for distribution and transmission of public telecommunications services to public telecommunications entities;

(F) hire or accept the voluntary services of consultants, experts, advisory boards, and panels to aid the Corporation in carrying out the purposes of this subpart;

(G) conduct (directly or through grants or contracts) research, demonstrations, or training in matters related to public television or radio broadcasting and the use of nonbroadcast communications technologies for the dissemination of noncommercial educational and cultural television or radio programs;

(H) make grants or contracts for the use of nonbroadcast telecommunications technologies for the dissemination to the public of public telecommunications services; and

(I) take such other actions as may be necessary to accomplish the purposes set forth in subsection (a).

Nothing contained in this paragraph shall be construed to commit the Federal Government to provide any sums for the payment of any obligation of the Corporation which exceeds amounts provided in advance in appropriation Acts.

(3) To carry out the foregoing purposes and engage in the foregoing activities, the Corporation shall have the usual powers conferred upon a nonprofit corporation by the District of Columbia Nonprofit Corporation Act (D.C. Code, sec. 29-1001 et seq.), except that the Corporation is prohibited from—

(A) owning or operating any television or radio broadcast station, system, or network, community antenna television system, interconnection system or facility, program production facility, or any public telecommunications entity, system, or network; and

(B) producing programs, scheduling programs for dissemination, or disseminating programs to the public.

(4) All meetings of the Board of Directors of the Corporation, including any committee of the Board, shall be open to the public under such terms, conditions, and exceptions as are set forth in subsection (k)(4).

(5) The Corporation, in consultation with interested parties, shall create a 5-year plan for the development of public telecommunications services. Such plan shall be updated annually by the Corporation.

Interconnection Service

(h)(1) Nothing in this Act, or in any other provision of law, shall be construed to prevent United States communications common carriers from rendering free or reduced rate communications interconnection services for public television or radio services, subject to such rules and regulations as the Commission may prescribe.

(2) Subject to such terms and conditions as may be established by public telecommunications entities receiving space satellite interconnection facilities or services purchased or arranged for, in whole or in part, with funds authorized under this part, other public telecommunications entities shall have reasonable access to such facilities or services for the distribution of educational and cultural programs to public telecommunications entities. Any remaining capacity shall be made available to other persons for the transmission of noncommercial educational and cultural programs and program information relating to such programs, to public telecommunications entities, at a charge or charges comparable to the charge or charges, if any, imposed upon a public telecommunications entity for the distribution of noncommercial educational and cultural programs to public telecommunications entities. No such person shall be denied such access whenever sufficient capacity is available.

【Subsection (i) was repealed by section 402(i)(8)(A) of division P of Public Law 115–141.】

Right to Repeal, Alter, or Amend

(j) The right to repeal, alter, or amend this section at any time is expressly reserved.

Financing; Open Meetings and Financial Records

(k)(1)(A) There is hereby established in the Treasury a fund which shall be known as the Public Broadcasting Fund (hereinafter in this subsection referred to as the “Fund”), to be administered by the Secretary of the Treasury.

(B) There is authorized to be appropriated to the Fund, for each of the fiscal years 1978, 1979 and 1980, an amount equal to 40 percent of the total amount of non-Federal financial support received by public broadcasting entities during the fiscal year second preceding each such fiscal year, except that the amount so appropriated shall not exceed \$121,000,000 for fiscal year 1978,

\$140,000,000 for fiscal year 1979, and \$160,000,000 for fiscal year 1980.

(C) There is authorized to be appropriated to the Fund, for each of the fiscal years 1981, 1982, 1983, 1984, 1985, 1986, 1987, 1988, 1989, 1990, 1991, 1992, and 1993, an amount equal to 40 percent of the total amount of non-Federal financial support received by public broadcasting entities during the fiscal year second preceding each such fiscal year, except that the amount so appropriated shall not exceed \$265,000,000 for fiscal year 1992, \$285,000,000 for fiscal year 1993, \$310,000,000 for fiscal year 1994, \$375,000,000 for fiscal year 1995, and \$425,000,000 for fiscal year 1996.

(D)⁴⁵ In addition to any amounts authorized under any other provision of this or any other Act to be appropriated to the Fund, \$20,000,000 are hereby authorized to be appropriated to the Fund (notwithstanding any other provision of this subsection) specifically for transition from the use of analog to digital technology for the provision of public broadcasting services for fiscal year 2001.

(E) Funds appropriated under this subsection shall remain available until expended.

(2)(A) The funds authorized to be appropriated by this subsection shall be used by the Corporation, in a prudent and financially responsible manner, solely for its grants, contracts, and administrative costs, except that the Corporation may not use any funds appropriated under this subpart for purposes of conducting any reception, or providing any other entertainment, for any officer or employee of the Federal Government or any State or local government. The Corporation shall determine the amount of non-Federal financial support received by public broadcasting entities during each of the fiscal years referred to in paragraph (1) for the purpose of determining the amount of each authorization, and shall certify such amount to the Secretary of the Treasury, except that the Corporation may include in its certification non-Federal financial support received by a public broadcasting entity during its most recent fiscal year ending before September 30 of the year for which certification is made. Upon receipt of such certification, the Secretary of the Treasury shall make available to the Corporation, from such funds as may be appropriated to the Fund, the amount authorized for each of the fiscal years pursuant to the provisions of this subsection.

(B) Funds appropriated and made available under this subsection shall be disbursed by the Secretary of the Treasury on a fiscal year basis.

(3)(A)(i) The Corporation shall establish an annual budget for use in allocating amounts from the Fund. Of the amounts appropriated into the Fund available for allocation for any fiscal year—

(I) \$10,200,000 shall be available for the administrative expenses of the Corporation for fiscal year 1989, and for each succeeding fiscal year the amount which shall be available for such administrative expenses shall be the sum of the amount made available to the Corporation under this subclause for

⁴⁵ Margin so in law.

such expenses in the preceding fiscal year plus the greater of 4 percent of such amount or a percentage of such amount equal to the percentage change in the Consumer Price Index, except that none of the amounts allocated under subclauses (II), (III), and (IV) and clause (v) shall be used for any administrative expenses of the Corporation and not more than 5 percent of all the amounts appropriated into the Fund available for allocation for any fiscal year shall be available for such administrative expenses;

(II) 6 percent of such amounts shall be available for expenses incurred by the Corporation for capital costs relating to telecommunications satellites, the payment of programming royalties and other fees, the costs of interconnection facilities and operations (as provided in clause (iv)(I)), and grants which the Corporation may make for assistance to stations that broadcast programs in languages other than English or for assistance in the provision of affordable training programs for employees at public broadcast stations, and if the available funding level permits, for projects and activities that will enhance public broadcasting;

(III) 75 percent of the remainder (after allocations are made under subclause (I) and subclause (II)) shall be allocated in accordance with clause (ii);

(IV) 25 percent of such remainder shall be allocated in accordance with clause (iii).

(ii) Of the amounts allocated under clause (i)(III) for any fiscal year—

(I) 75 percent of such amounts shall be available for distribution among the licensees and permittees of public television stations pursuant to paragraph (6)(B); and

(II) 25 percent of such amounts shall be available for distribution under subparagraph (B)(i), and in accordance with any plan implemented under paragraph (6)(A), for national public television programming.

(iii) Of the amounts allocated under clause (i)(IV) for any fiscal year—

(I) 70 percent of such amounts shall be available for distribution among the licensees and permittees of public radio stations pursuant to paragraph (6)(B);

(II) 7 percent of such amounts shall be available for distribution under subparagraph (B)(i) for public radio programming; and

(III) 23 percent of such amounts shall be available for distribution among the licensees and permittees of public radio stations pursuant to paragraph (6)(B), solely to be used for acquiring or producing programming that is to be distributed nationally and is designed to serve the needs of a national audience.

(iv)(I) From the amount provided pursuant to clause (i)(II), the Corporation shall defray an amount equal to 50 percent of the total costs of interconnection facilities and operations to facilitate the availability of public television and radio programs among public broadcasts stations.

(II) Of the amounts received as the result of any contract, lease agreement, or any other arrangement under which the Corporation directly or indirectly makes available interconnection facilities, 50 percent of such amounts shall be distributed to the licensees and permittees of public television stations and public radio stations. The Corporation shall not have any authority to establish any requirements, guidelines, or limitations with respect to the use of such amounts by such licensees and permittees.

(v) Of the interest on the amounts appropriated into the Fund which is available for allocation for any fiscal year—

(I) 75 percent shall be available for distribution for the purposes referred to in clause (ii)(II); and

(II) 25 percent shall be available for distribution for the purposes referred to in clause (iii)(II) and (III).

(B)(i) The Corporation shall utilize the funds allocated pursuant to subparagraph (A)(ii)(II) and subparagraph (A)(iii)(II) to make grants for production of public television or radio programs by independent producers and production entities and public telecommunications entities, producers of national children's educational programming, and producers of programs addressing the needs and interest of minorities, and for acquisition of such programs by public telecommunications entities. The Corporation may make grants to public telecommunications entities and producers for the production of programs in languages other than English. Of the funds utilized pursuant to this clause, a substantial amount shall be distributed to independent producers and production entities, producers of national children's educational programming, and producers of programming addressing the needs and interests of minorities for the production of programs.

(ii) All funds available for distribution under clause (i) shall be distributed to entities outside the Corporation and shall not be used for the general administrative costs of the Corporation, the salaries or related expenses of Corporation personnel and members of the Board, or for expenses of consultants and advisers to the Corporation.

(iii)(I) For fiscal year 1990 and succeeding fiscal years, the Corporation shall, in carrying out its obligations under clause (i) with respect to public television programming, provide adequate funds for an independent production service.

(II) Such independent production service shall be separate from the Corporation and shall be incorporated under the laws of the District of Columbia for the purpose of contracting with the Corporation for the expenditure of funds for the production of public television programs by independent producers and independent production entities.

(III) The Corporation shall work with organizations or associations of independent producers or independent production entities to develop a plan and budget for the operation of such service that is acceptable to the Corporation.

(IV) The Corporation shall ensure that the funds provided to such independent production service shall be used exclusively in pursuit of the Corporation's obligation to expand the diversity and innovativeness of programming available to public broadcasting.

【Subclause (V) was repealed by section 402(i)(8)(B)(ii) of division P of Public Law 115–141】

(VI) The Corporation shall not contract to provide funds to any such independent production service, unless that service agrees to comply with public inspection requirements established by the Corporation within 3 months after the date of enactment of this subclause. Under such requirements the service shall maintain at its offices a public file, updated regularly, containing information relating to the service's award of funds for the production of programming. The information shall be available for public inspection and copying for at least 3 years and shall be of the same kind as the information required to be maintained by the Corporation under subsection (1)(4)(B).

(4) Funds may not be distributed pursuant to this subsection to the Public Broadcasting Service or National Public Radio (or any successor organization), or to the licensee or permittee of any public broadcast station, unless the governing body of any such organization, any committee of such governing body, or any advisory body of any such organization, holds open meetings preceded by reasonable notice to the public. All persons shall be permitted to attend any meeting of the board, or of any such committee or body, and no person shall be required, as a condition to attendance at any such meeting, to register such person's name or to provide any other information. Nothing contained in this paragraph shall be construed to prevent any such board, committee, or body from holding closed sessions to consider matters relating to individual employees, proprietary information, litigation and other matters requiring the confidential advice of counsel, commercial or financial information obtained from a person on a privileged or confidential basis, or the purchase of property or services whenever the premature exposure of such purchase would compromise the business interests of any such organization. If any such meeting is closed pursuant to the provisions of this paragraph, the organization involved shall thereafter (within a reasonable period of time) make available to the public a written statement containing an explanation of the reasons for closing the meeting.

(5) Funds may not be distributed pursuant to this subsection to any public telecommunications entity that does not maintain for public examination copies of the annual financial and audit reports, or other information regarding finances, submitted to the Corporation pursuant to subsection (1)(3)(B).⁴⁶

(6)(A) The Corporation shall conduct a study and prepare a plan in consultation with public television licensees (or designated representatives of those licensees) and the Public Broadcasting Service, on how funds available to the Corporation under paragraph (3)(A)(ii)(II) can be best allocated to meet the objectives of this Act with regard to national public television programming. The plan, which shall be based on the conclusions resulting from the study, shall be submitted by the Corporation to the Congress not later than January 31, 1990. Unless directed otherwise by an Act of Congress, the Corporation shall implement the plan during the

⁴⁶ So in law. Probably should be (1)(3)(B).

first fiscal year beginning after the fiscal year in which the plan is submitted to Congress.

(B) The Corporation shall make a basic grant from the portion reserved for television stations under paragraph (3)(A)(ii)(I) to each licensee and permittee of a public television station that is on the air. The Corporation shall assist radio stations to maintain and improve their service where public radio is the only broadcast service available. The balance of the portion reserved for television stations and the total portion reserved for radio stations under paragraph (3)(A)(iii)(I) shall be distributed to licensees and permittees of such stations in accordance with eligibility criteria (which the Corporation shall review periodically in consultation with public radio and television licensees or permittees, or their designated representatives) that promote the public interest in public broadcasting, and on the basis of a formula designed to—

(i) provide for the financial needs and requirements of stations in relation to the communities and audiences such stations undertake to serve;

(ii) maintain existing, and stimulate new, sources of non-Federal financial support for stations by providing incentives for increases in such support; and

(iii) assure that each eligible licensee and permittee of a public radio station receives a basic grant.

(7) The funds distributed pursuant to paragraph (3)(A)(ii)(I) and (iii)(I) may be used at the discretion of the recipient for purposes related primarily to the production or acquisition of programming.

(8)(A) Funds may not be distributed pursuant to this subpart to any public broadcast station (other than any station which is owned and operated by a state, a political or special purpose subdivision of a state or a public agency) unless such station establishes a community advisory board. Any such station shall undertake good faith efforts to assure that (i) its advisory board meets at regular intervals; (ii) the members of its advisory board regularly attend the meetings of the advisory board; and (iii) the composition of its advisory board are reasonably representative of the diverse needs and interests of the communities served by such station.

(B) The board shall be permitted to review the programming goals established by the station, the service provided by the station, and the significant policy decisions rendered by the station. The board may also be delegated any other responsibilities, as determined by the governing body of the station. The board shall advise the governing body of the station with respect to whether the programming and other policies of such station are meeting the specialized educational and cultural needs of the communities served by the station, and may make such recommendations as it considers appropriate to meet such needs.

(C) The role of the board shall be solely advisory in nature, except to the extent other responsibilities are delegated to the board by the governing body of the station. In no case shall the board have any authority to exercise any control over the daily management or operation of the station.

(D) In the case of any public broadcast station (other than any station which is owned and operated by a state, a political or special purpose subdivision of a State, or a public agency) in existence on the effective date of this paragraph, such station shall comply with the requirements of this paragraph with respect to the establishment of a community advisory board not later than 180 days after such effective date.

(E) The provision of subparagraph (A) prohibiting the distribution of funds to any public broadcast station (other than any station which is owned and operated by a State, a political or special purpose subdivision of a State, or a public agency) unless such station establishes a community advisory board shall be the exclusive remedy for the enforcement of the provisions of this paragraph.

(9) Funds may not be distributed pursuant to this subsection to the Public Broadcasting Service or National Public Radio (or any successor organization) unless assurances are provided to the Corporation that no officer or employee of the Public Broadcasting Service or National Public Radio (or any successor organization), as the case may be, will be compensated in excess of reasonable compensation as determined pursuant to Section 4958 of the Internal Revenue Code for services that the officer or employee renders to organization,⁴⁷ and unless further assurances are provided to the Corporation that no officer or employee of such an entity will be loaned money by that entity on an interest-free basis.

(10)(A) There is hereby established in the Treasury a fund which shall be known as the Public Broadcasting Satellite Interconnection Fund (hereinafter in this subsection referred to as the "Satellite Interconnection Fund"), to be administered by the Secretary of the Treasury.

(B) There is authorized to be appropriated to the Satellite Interconnection Fund, for fiscal year 1991, the amount of \$200,000,000. If such amount is not appropriated in full for fiscal year 1991, the portion of such amount not yet appropriated is authorized to be appropriated for fiscal years 1992 and 1993. Funds appropriated to the Satellite Interconnection Fund shall remain available until expended.

(C) The Secretary of the Treasury shall make available and disburse to the Corporation, at the beginning of fiscal year 1991 and of each succeeding fiscal year thereafter, such funds as have been appropriated to the Satellite Interconnection Fund for the fiscal year in which such disbursement is to be made.

(D) Notwithstanding any other provision of this subsection except paragraphs (4), (5), (8), and (9), all funds appropriated to the Satellite Interconnection Fund and interest thereon—

(i) shall be distributed by the Corporation to the licensees and permittees of noncommercial educational television broadcast stations providing public telecommunications services or the national entity they designate for satellite interconnection

⁴⁷ Section 701 of the Omnibus Consolidated and Emergency Supplemental Appropriations Act, 1999 (P.L. 105-277, 112 Stat. 2681-389) amended "section 396(k)(9) of Title 47", which is not a codified title, rather than section 396(k)(9) of the Communications Act of 1934. The amendment refers to the "Internal Revenue Code" rather than the Internal Revenue Code of 1986. The amendment is effected in this compilation, but the reference to the Internal Revenue Code is not corrected.

purposes and to those public telecommunications entities participating in the public radio satellite interconnection system or the national entity they designate for satellite interconnection purposes, exclusively for the capital costs of the replacement, refurbishment, or upgrading of their national satellite interconnection systems and associated maintenance of such systems; and

(ii) shall not be used for the administrative costs of the Corporation, the salaries or related expenses of Corporation personnel and members of the Board, or for expenses of consultants and advisers to the Corporation.

(11)(A) Funds may not be distributed pursuant to this subsection for any fiscal year to the licensee or permittee of any public broadcast station if such licensee or permittee—

(i) fails to certify to the Corporation that such licensee or permittee complies with the Commission's regulations concerning equal employment opportunity as published under section 73.2080 of title 47, Code of Federal Regulations, or any successor regulations thereto; or

(ii) fails to submit to the Corporation the report required by subparagraph (B) for the preceding calendar year.

(B) A licensee or permittee of any public broadcast station with more than five full-time employees to file annually with the Corporation a statistical report, consistent with reports required by Commission regulation, identifying by race and sex the number of employees in each of the following full-time and part-time job categories:

- (i) Officials and managers.
- (ii) Professionals.
- (iii) Technicians.
- (iv) Semiskilled operatives.
- (v) Skilled craft persons.
- (vi) Clerical and office personnel.
- (vii) Unskilled operatives.
- (viii) Service workers.

(C) In addition, such report shall state the number of job openings occurring during the course of the year. Where the job openings were filled in accordance with the regulations described in subparagraph (A)(i), the report shall so certify, and where the job openings were not filled in accordance with such regulations, the report shall contain a statement providing reasons therefor. The statistical report shall be available to the public at the central office and at every location where more than five full-time employees are regularly assigned to work.

(12) Funds may not be distributed under this subsection to any public broadcasting entity that directly or indirectly—

(A) rents contributor or donor names (or other personally identifiable information) to or from, or exchanges such names or information with, any Federal, State, or local candidate, political party, or political committee; or

(B) discloses contributor or donor names, or other personally identifiable information, to any nonaffiliated third party unless—

(i) such entity clearly and conspicuously discloses to the contributor or donor that such information may be disclosed to such third party;

(ii) the contributor or donor is given the opportunity, before the time that such information is initially disclosed, to direct that such information not be disclosed to such third party; and

(iii) the contributor or donor is given an explanation of how the contributor or donor may exercise that nondisclosure option.

Records and Audit

(1)(A) The accounts of the Corporation shall be audited annually in accordance with generally accepted auditing standards by independent certified public accountants or independent licensed public accountants certified or licensed by a regulatory authority of a State or other political subdivision of the United States, except that such requirements shall not preclude shared auditing arrangements between any public telecommunications entity and its licensee where such licensee is a public or private institution. The audits shall be conducted at the place or places where the accounts of the Corporation are normally kept. All books, accounts, financial records, reports, files, and all other papers, things, or property belonging to or in use by the Corporation and necessary to facilitate the audits shall be made available to the person or persons conducting the audits; and full facilities for verifying transactions with the balances or securities held by depositories, fiscal agents and custodians shall be afforded to such person or persons.

(B) The report of each such independent audit shall set forth the scope of the audit and include such statements as are necessary to present fairly the Corporation's assets and liabilities, surplus or deficit, with an analysis of the changes therein during the year, supplemented in reasonable detail by a statement of the Corporation's income and expenses during the year, and a statement of the sources and application of funds, together with the independent author's opinion of those statements.

(2)(A) The financial transactions of the Corporation for any fiscal year during which Federal funds are available to finance any portion of its operations may be audited by the General Accounting Office in accordance with the principles and procedures applicable to commercial corporate transactions and under such rules and regulations as may be prescribed by the Comptroller General of the United States. Any such audit shall be conducted at the place or places where accounts of the Corporation are normally kept. The representative of the General Accounting Office shall have access to all books, accounts, records, reports, files, and all other papers, things, or property belonging to or in use by the Corporation pertaining to its financial transactions and necessary to facilitate the audit, and they shall be afforded full facilities for verifying transactions with the balances or securities held by depositories, fiscal agents, and custodians. All such books, accounts, records, reports, files, papers and property of the Corporation shall remain in possession and custody of the Corporation.

(B) A report of each such audit shall be made by the Comptroller General to the Congress. The report to the Congress shall contain such comments and information as the Comptroller General may deem necessary to inform Congress of the financial operations and condition of the Corporation, together with such recommendations with respect thereto as he may deem advisable. The report shall also show specifically any program, expenditure, or other financial transaction or undertaking observed in the course of the audit, which, in the opinion of the Comptroller General, has been carried on or made without authority of law. A copy of each report shall be furnished to the President, to the Secretary, and to the Corporation at the time submitted to the Congress.

(3)(A) Not later than 1 year after the effective date of this paragraph, the Corporation, in consultation with the Comptroller General, and as appropriate with others, shall develop accounting principles which shall be used uniformly by all public telecommunications entities receiving funds under this subpart, taking into account organizational differences among various categories of such entities. Such principles shall be designed to account fully for all funds received and expended for public telecommunications purposes by such entities.

(B) Each public telecommunications entity receiving funds under this subpart shall be required—

(i) to keep its books, records, and accounts in such form as may be required by the Corporation;

(ii)(I) to undergo a biennial audit by independent certified public accountants or independent licensed public accountants certified or licensed by a regulatory authority of a State, which audit shall be in accordance with auditing standards developed by the Corporation, in consultation with the Comptroller General; or

(II) to submit a financial statement in lieu of the audit required by subclause (I) if the Corporation determines that the cost burden of such audit on such entity is excessive in light of the financial condition of such entity; and

(iii) to furnish biennially to the Corporation a copy of the audit report required pursuant to the clause (ii), as well as such other information regarding finances (including an annual financial report) as the Corporation may require.

(C) Any recipient of assistance by grant or contract under this section, other than a fixed price contract awarded pursuant to competitive bidding procedures, shall keep such records as may be reasonably necessary to disclose fully the amount and the disposition by such recipient of such assistance, that total cost of the project or undertaking in connection with which such assistance is given or used, and the amount and nature of that portion of the cost of the projects or undertaking supplied by other sources, and such other records as will facilitate an effective audit.

(D) The Corporation or any of its duly authorized representatives shall have access to any books, documents, papers, and records of any recipient of assistance for the purpose of auditing and examining all funds received or expended for public telecommunications purposes by the recipient. The Comptroller General of the United States or any of his duly authorized representa-

tives also shall have access to such books, documents, papers, and records for the purpose of auditing and examining all funds received or expended for public telecommunications purposes during any fiscal year for which Federal funds are available to the Corporation.

(4)(A) The Corporation shall maintain the information described in subparagraphs (B), (C), and (D) at its offices for public inspection and copying for at least 3 years, according to such reasonable guidelines as the Corporation may issue. This public file shall be updated regularly. This paragraph shall be effective upon its enactment and shall apply to all grants awarded after January 1, 1993.

(B) Subsequent to any award of funds by the Corporation for the production or acquisition of national broadcasting programming pursuant to subsection (k)(3)(A) (ii)(II) or (iii)(II), the Corporation shall make available for public inspection the following:

(i) Grant and solicitation guidelines for proposals for such programming.

(ii) The reasons for selecting the proposal for which the award was made.

(iii) Information on each program for which the award was made, including the names of the awardee and producer (and if the awardee or producer is a corporation or partnership, the principals of such corporation or partnership), the monetary amount of the award, and the title and description of the program (and of each program in a series of programs).

(iv) A report based on the final audit findings resulting from any audit of the award by the Corporation or the Comptroller General.

(v) Reports which the Corporation shall require to be provided by the awardee relating to national public broadcasting programming funded, produced, or acquired by the awardee with such funds. Such reports shall include, where applicable, the information described in clauses (i), (ii), and (iii), but shall exclude proprietary, confidential, or privileged information.

(C) The Corporation shall make available for public inspection the final report required by the Corporation on an annual basis from each recipient of funds under subsection (k)(3)(A)(iii)(III), excluding proprietary, confidential, or privileged information.

(D) The Corporation shall make available for public inspection an annual list of national programs distributed by public broadcasting entities that receive funds under subsection (k)(3)(A)(ii)(III) or (iii)(II) and are engaged primarily in the national distribution of public television or radio programs. Such list shall include the names of the programs (or program series), producers, and providers of funding.

Subpart E—General

SEC. 397. [47 U.S.C. 397] DEFINITIONS.

For the purposes of this part—

(1) The term “construction” (as applied to public telecommunications facilities) means acquisition (including acquisition by lease), installation, and modernization of public telecommunications facilities.

ties and planning and preparatory steps incidental to any such acquisition, installation, or modernization.

(2) The term "Corporation" means the Corporation for Public Broadcasting authorized to be established in subpart D.

(3) The term "interconnection" means the use of microwave equipment, boosters, translators, repeaters, communication space satellites, or other apparatus or equipment for the transmission and distribution of television or radio programs to public telecommunications entities.

(4) The term "interconnection system" means any system of interconnection facilities used for the distribution of programs to public telecommunications entities.

(5) The term "meeting" means the deliberations of at least the number of members of a governing or advisory body, or any committee thereof, required to take action on behalf of such body or committee where such deliberations determine or result in the joint conduct or disposition of the governing or advisory body's business, or the committee's business, as the case may be, but only to the extent that such deliberations relate to public broadcasting.

(6) The terms "noncommercial educational broadcast station" and "public broadcast station" mean a television or radio broadcast station which—

(A) under the rules and regulations of the Commission in effect on the effective date of this paragraph, is eligible to be licensed by the Commission as a noncommercial educational radio or television broadcast station and which is owned and operated by a public agency or nonprofit private foundation, corporation, or association; or

(B) is owned and operated by a municipality and which transmits only noncommercial programs for education purposes.

(7) The term "noncommercial telecommunications entity" means any enterprise which—

(A) is owned and operated by a State, a political or special purpose subdivision of a State, a public agency, or a nonprofit private foundation, corporation, or association; and

(B) has been organized primarily for the purpose of disseminating audio or video noncommercial educational and cultural programs to the public by means other than a primary television or radio broadcast station, including, but not limited to, coaxial cable, optical fiber, broadcast translators, cassettes, discs, microwave, or laser transmission through the atmosphere.

(8) The term "nonprofit" (as applied to any foundation, corporation, or association) means a foundation, corporation, or association, no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual.

(9) The term "non-Federal financial support" means the total value of cash and the fair market value of property and services (including, to the extent provided in the second sentence of this paragraph, the personal services of volunteers) received—

(A) as gifts, grants, bequests, donations, or other contributions for the construction or operation of noncommercial educational broadcast stations, or for the production, acquisition,

distribution, or dissemination of educational television or radio programs, and related activities, from any source other than (i) the United States or any agency or instrumentality of the United States; or (ii) any public broadcasting entity; or

(B) as gifts, grants, donations, contributions, or payments from any State, or any educational institution, for the construction or operation of noncommercial educational broadcast stations or for the production, acquisition, distribution, or dissemination of educational television or radio programs, or payments in exchange for services or materials with respect to the provision of educational or instructional television or radio programs.

Such term includes the fair market value of personal services of volunteers, as computed using the valuation standards established by the Corporation, but only with respect to such an entity in a fiscal year, to the extent that the value of the services does not exceed 5 percent of the total non-Federal financial support of the entity in such fiscal year.

(10) The term “preoperational expenses” means all non-construction costs incurred by new telecommunications entities before the date on which they begin providing service to the public, and all nonconstruction costs associated with expansion of existing entities before the date on which such expanded capacity is activated, except that such expenses shall not include any portion of the salaries of any personnel employed by an operating public telecommunications entity.

(11) The term “Public broadcasting entity” means the Corporation, any licensee or permittee of a public broadcast station, or any nonprofit institution engaged primarily in the production, acquisition, distribution, or dissemination of educational and cultural television or radio programs.

(12) The term “public telecommunications entity” means any enterprise which—

(A) is a public broadcast station or a noncommercial telecommunications entity; and

(B) disseminates public telecommunications services to the public.

(13) The term “public telecommunications facilities” means apparatus necessary for production, interconnection, captioning, broadcast, or other distribution of programming, including, but not limited to, studio equipment, cameras, microphones, audio and video storage or reproduction equipment, or both, signal processors and switchers, towers, antennas, transmitters, translators, microwave equipment, mobile equipment, satellite communications equipment, instructional television fixed service equipment, subsidiary communications authorization transmitting and receiving equipment, cable television equipment, video and audio cassettes and discs, optical fiber communications equipment, and other means of transmitting, emitting, storing, and receiving images and sounds, or intelligence, except that such term does not include the buildings to house such apparatus (other than small equipment shelters which are part of satellite earth stations, translators, microwave interconnection facilities, and similar facilities).

(14) The term “public telecommunications services” means non-commercial educational and cultural radio and television programs, and related noncommercial instructional or informational material that may be transmitted by means of electronic communications.

(15) The term “Secretary” means the Secretary of Commerce when such term is used in subpart A and subpart B, and the Secretary of Health and Human Services when such term is used in subpart C, subpart D, and this subpart.

(16) The term “State” includes the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, and the Trust Territory of the Pacific Islands.

(17) The term “system of public telecommunications entities” means any combination of public telecommunications entities acting cooperatively to produce, acquire, or distribute programs, or to undertake related activities.

SEC. 398. [47 U.S.C. 398] FEDERAL INTERFERENCE OR CONTROL PROHIBITED; EQUAL EMPLOYMENT OPPORTUNITY.

(a) Nothing contained in this part shall be deemed (1) to amend any other provision of, or requirement under, this Act; or (2) except to the extent authorized in subsection (b), to authorize any department, agency, officer, or employee of the United States to exercise any direction, supervision, or control over public telecommunications, or over the Corporation or any of its grantees or contractors, or over the charter or bylaws of the Corporation, or over the curriculum, program of instruction, or personnel of any educational institution, school system, or public telecommunications entity.

(b)(1) Equal opportunity in employment shall be afforded to all persons by the Public Broadcasting Service and National Public Radio (or any successor organization) and by all public telecommunications entities receiving funds pursuant to subpart C (hereinafter in this subsection referred to as “recipients”), in accordance with the equal employment opportunity regulations of the Commission, and no person shall be subjected to discrimination in employment by any recipient on the grounds of race, color, religion, national origin, or sex.

(2)(A) The Secretary is authorized and directed to enforce this subsection and to prescribe such rules and regulations as may be necessary to carry out the functions of the Secretary under this subsection.

(B) The Secretary shall provide for close coordination with the Commission in the administration of the responsibilities of the Secretary under this subsection which are of interest to or affect the functions of the Commission so that, to the maximum extent possible consistent with the enforcement responsibilities of each, the reporting requirements of public telecommunications entities shall be uniformly based upon consistent definitions and categories of information.

(3)(A) The Corporation shall incorporate into each grant agreement or contract with any recipient entered into on or after the effective date of the rules and regulations prescribed by the Secretary pursuant to paragraph (2)(A), a statement indicating that, as a material part of the terms and conditions of the grant agree-

ment or contract, the recipient will comply with the provisions of paragraph (1) and the rules and regulations prescribed pursuant to paragraph (2)(A). Any person which desires to be a recipient (within the meaning of paragraph (1)) of funds under subpart C shall, before receiving any such funds, provide to the Corporation any information which the Corporation may require to satisfy itself that such person is affording equal opportunity in employment in accordance with the requirements of this subsection. Determinations made by the Corporation in accordance with the preceding sentence shall be based upon guidelines relating to equal opportunity in employment which shall be established by rule by the Secretary.

(B) If the Corporation is not satisfied that any such person is affording equal opportunity in employment in accordance with the requirements of this subsection, the Corporation shall notify the Secretary, and the Secretary shall review the matter and make a final determination regarding whether such person is affording equal opportunity in employment. In any case in which the Secretary conducts a review under the preceding sentence the Corporation shall make funds available to the person involved pursuant to the grant application of such person (if the Corporation would have approved such application but for the finding of the Corporation under this paragraph) pending a final determination of the Secretary upon completion of such review. The Corporation shall monitor the equal employment opportunity practices of each recipient throughout the duration of the grant or contract.

(C) The provisions of subparagraph (A) and subparagraph (B) shall take effect on the effective date of the rules and regulations prescribed by the Secretary pursuant to paragraph (2)(A).

(4) Based upon its responsibilities under paragraph (3), the Corporation shall provide an annual report for the preceding fiscal year ending September 30 to the Secretary on or before the 15th day of February of each year. The report shall contain information in the form required by the Secretary. The Corporation shall provide other information in the form which the Secretary may require in order to carry out the functions of the Secretary under this subsection.

(5) Whenever the Secretary makes a final determination, pursuant to the rules and regulations which the Secretary shall prescribe, that a recipient is not in compliance with paragraph (1), the Secretary shall within 10 days after such determination, notify the recipient in writing of such determination and request the recipient to secure compliance. Unless the recipient within 120 days after receipt of such written notice—

(A) demonstrates to the Secretary that the violation has been corrected; or

(B) enters into a compliance agreement approved by the Secretary;

the Secretary shall direct the Corporation to reduce or suspend any further payments of funds under this part to the recipient and the Corporation shall comply with such directive. Resumption of payments shall take place only when the Secretary certifies to the Corporation that the recipient has entered into a compliance agreement approved by the Secretary. A recipient whose funds have

been reduced or suspended under this paragraph may apply at any time to the Secretary for such certification.

(c) Nothing in this section shall be construed to authorize any department, agency, officer, or employee of the United States to exercise any direction, supervision, or control over the content or distribution of public telecommunications programs and services, or over the curriculum or program of instruction of any educational institution or school system.

SEC. 399. [47 U.S.C. 399] SUPPORT OF POLITICAL CANDIDATES PROHIBITED.

No noncommercial educational broadcasting station may support or oppose any candidate for political office.

SEC. 399A. [47 U.S.C. 399a] USE OF BUSINESS OR INSTITUTIONAL LOGOGRAMS.

(a) For purposes of this section, the term “business or institutional logogram” means any aural or visual letters or words, or any symbol or sign, which is used for the exclusive purpose of identifying any corporation, company, or other organization, and which is not used for the purpose of promoting the products, services, or facilities of such corporation, company, or other organization.

(b) Each public television station and each public radio station shall be authorized to broadcast announcements which include the use of any business or institutional logogram and which include a reference to the location of the corporation, company, or other organization involved, except that such announcements may not interrupt regular programming.

(c) The provisions of this section shall not be construed to limit the authority of the Commission to prescribe regulations relating to the manner in which logograms may be used to identify corporations, companies, or other organizations.

SEC. 399B. [47 U.S.C. 399b] OFFERING OF CERTAIN SERVICES, FACILITIES, OR PRODUCTS BY PUBLIC BROADCAST STATIONS.

(a) For purposes of this section, the term “advertisement” means any message or other programming material which is broadcast or otherwise transmitted in exchange for any remuneration, and which is intended—

(1) to promote any service, facility, or product offered by any person who is engaged in such offering for profit;

(2) to express the views of any person with respect to any matter of public importance or interest; or

(3) to support or oppose any candidate for political office.

(b)(1) Except as provided in paragraph (2), each public broadcast station shall be authorized to engage in the offering of services, facilities, or products in exchange for remuneration.

(2) No public broadcast station may make its facilities available to any person for the broadcasting of any advertisement.

(c) Any public broadcast station which engages in any offering specified in subsection (b)(1) may not use any funds distributed by the Corporation under section 396(k) to defray any costs associated with such offering. Any such offering by a public broadcast station shall not interfere with the provision of public telecommunications services by such station.

(d) Each public broadcast station which engages in the activity specified in subsection (b)(1) shall, in consultation with the Corporation, develop an accounting system which is designed to identify any amounts received as remuneration for, or costs related to, such activities under this section, and to account for such amounts separately from any other amounts received by such station from any source.

TITLE IV—PROCEDURAL AND ADMINISTRATIVE PROVISIONS

SEC. 401. [47 U.S.C. 401] JURISDICTION TO ENFORCE ACT AND ORDERS OF COMMISSION.

(a) The district courts of the United States shall have jurisdiction, upon application of the Attorney General of the United States at the request of the Commission, alleging a failure to comply with or a violation of any of the provisions of this Act by any person, to issue a writ or writs of mandamus commanding such person to comply with the provisions of this Act.

(b) If any person fails or neglects to obey any order of the Commission other than for the payment of money, while the same is in effect, the Commission or any party injured thereby, or the United States, by its Attorney General, may apply to the appropriate district court of the United States for the enforcement of such order. If, after hearing, that court determines that the order was regularly made and duly served, and that the person is in disobedience of the same, the court shall enforce obedience to such order by a writ of injunction or other proper process, mandatory or otherwise, to restrain such person or the officers, agents, or representatives of such person, from further disobedience of such order, or to enjoin upon it or them obedience to the same.

(c) Upon the request of the Commission it shall be the duty of any district attorney of the United States to whom the Commission may apply to institute in the proper court and to prosecute under the direction of the Attorney General of the United States all necessary proceedings for the enforcement of the provisions of this Act and for the punishment of all violations thereof, and the costs and expenses of such prosecutions shall be paid out of the appropriations for the expenses of the courts of the United States.

SEC. 402. [47 U.S.C. 402] PROCEEDINGS TO ENJOIN, SET ASIDE, ANNUL, OR SUSPEND ORDERS OF THE COMMISSION.

(a) Any proceeding to enjoin, set aside, annul, or suspend any order of the Commission under this Act (except those appealable under subsection (b) of this section) shall be brought as provided by and in the manner prescribed in chapter 158 of title 28, United States Code.

(b) Appeals may be taken from decisions and orders of the Commission to the United States Court of Appeals for the District of Columbia in any of the following cases:

(1) By any applicant for a construction permit or station license, whose application is denied by the Commission.

(2) By any applicant for the renewal or modification of any such instrument of authorization whose application is denied by the Commission.

(3) By any party to an application for authority to transfer, assign, or dispose of any such instrument of authorization, or any rights thereunder, whose application is denied by the Commission.

(4) By any applicant for the permit required by section 325 of this act whose application has been denied by the Commission, or by any permittee under said section whose permit has been revoked by the Commission.

(5) By the holder of any construction permit or station license which has been modified or revoked by the Commission.

(6) By any other person who is aggrieved or whose interests are adversely affected by any order of the Commission granting or denying any application described in paragraphs (1), (2), (3), (4), and (9) hereof.

(7) By any person upon whom an order to cease and desist has been served under section 312 of this Act.

(8) By any radio operator whose license has been suspended by the Commission.

(9) By any applicant for authority to provide interLATA services under section 271 of this Act whose application is denied by the Commission.

(10)⁴⁸ By any person who is aggrieved or whose interests are adversely affected by a determination made by the Commission under section 717(a)(3).

(c) Such appeal shall be taken by filing a notice of appeal with the court within thirty days from the date upon which public notice is given of the decision or order complained of. Such notice of appeal shall contain a concise statement of the nature of the proceedings as to which the appeal is taken; a concise statement of the reasons on which the appellant intends to rely, separately stated and numbered; and proof of service of a true copy of said notice and statement upon the Commission. Upon filing of such notice, the court shall have jurisdiction of the proceedings and of the questions determined therein and shall have power, by order, directed to the Commission or any other party to the appeal, to grant such temporary relief as it may deem just and proper. Orders granting temporary relief may be either affirmative or negative in their scope and application so as to permit either the maintenance of the status quo in the matter in which the appeal is taken or the restoration of a position or status terminated or adversely affected by the order appealed from and shall, unless otherwise ordered by the court, be effective pending hearing and determination of said appeal and compliance by the Commission with the final judgment of the court rendered in said appeal.

(d) Upon the filing of any such notice of appeal the appellant shall, not later than five days after the filing of such notice, notify each person shown by the records of the Commission to be interested in said appeal of the filing and pendency of the same. The Commission shall file with the court the record upon which the

⁴⁸Margin of paragraph (10) so in law.

order complained of was entered, as provided in section 2112 of title 28, United States Code.

(e) Within thirty days after the filing of any such appeal any interested person may intervene and participate in the proceedings had upon said appeal by filing with the court a notice of intention to intervene and a verified statement showing the nature of the interest of such party, together with proof of service of true copies of said notice and statement, both upon appellant and upon the Commission. Any person who would be aggrieved or whose interest would be adversely affected by a reversal or modification of the order of the Commission complained of shall be considered an interested party.

(f) The record and briefs upon which any such appeal shall be heard and determined by the court shall contain such information and material, and shall be prepared within such time and in such manner as the court may by rule prescribe.

(g) The court shall hear and determine the appeal upon the record before it in the manner prescribed by section 706 of title 5, United States Code.

(h) In the event that the court shall render a decision and enter an order reversing the order of the Commission, it shall remand the case to the Commission to carry out the judgment of the court and it shall be the duty of the Commission, in the absence of the proceedings to review such judgment, to forthwith give effect thereto, and unless otherwise ordered by the court, to do so upon the basis of the proceedings already had and the record upon which said appeal was heard and determined.

(i) The court may, in its discretion, enter judgment for costs in favor of or against an appellant, or other interested parties intervening in said appeal, but not against the Commission, depending upon the nature of the issues involved upon said appeal and the outcome thereof.

(j) The court's judgment shall be final, subject, however, to review by the Supreme Court of the United States upon writ of certiorari on petition therefor under section 1254 of title 28 of the United States Code, by the appellant, by the Commission, or by any interested party intervening in the appeal, or by certification by the court pursuant to the provisions of that section.

SEC. 403. [47 U.S.C. 403] INQUIRY BY COMMISSION ON ITS OWN MOTION.

The Commission shall have full authority and power at any time to institute an inquiry, on its own motion, in any case and as to any matter or thing concerning which complaint is authorized to be made, to or before the Commission by any provision of this Act, or concerning which any question may arise under any of the provisions of this Act, or relating to the enforcement of any of the provisions of this Act. The Commission shall have the same powers and authority to proceed with any inquiry instituted on its own motion as though it had been appealed to by complaint or petition under any of the provisions of this Act, including the power to make and enforce any order or orders in the case, or relating to the matter or thing concerning which the inquiry is had, excepting orders for the payment of money.

SEC. 404. [47 U.S.C. 404] REPORTS OF INVESTIGATIONS.

Whenever an investigation shall be made by the Commission it shall be its duty to make a report in writing in respect thereto, which shall state the conclusions of the Commission, together with its decision, order, or requirements in the premises; and in case damages are awarded such report shall include the findings of fact on which the award is made.

SEC. 405. [47 U.S.C. 405] RECONSIDERATIONS.

(a) After an order, decision, report, or action has been made or taken in any proceeding by the Commission, or by any designated authority within the Commission pursuant to a delegation under section 5(c)(1), any party thereto, or any other person aggrieved or whose interests are adversely affected thereby, may petition for reconsideration only to the authority making or taking the order, decision, report, or action; and it shall be lawful for such authority, whether it be the Commission or other authority designated under section 5(c)(1), in its discretion, to grant such a reconsideration if sufficient reason therefor be made to appear. A petition for reconsideration must be filed within thirty days from the date upon which public notice is given of the order, decision, report, or action complained of. No such application shall excuse any person from complying with or obeying any order, decision, report, or action of the Commission, or operate in any manner to stay or postpone the enforcement thereof, without the special order of the Commission. The filing of a petition for reconsideration shall not be a condition precedent to judicial review of any such order, decision, report, or action, except where the party seeking such review (1) was not a party to the proceedings resulting in such order, decision, report, or action, or (2) relies on questions of fact or law upon which the Commission, or designated authority within the Commission, has been afforded no opportunity to pass. The Commission, or designated authority within the Commission, shall enter an order, with a concise statement of the reasons therefor, denying a petition for reconsideration or granting such petition, in whole or in part, and ordering such further proceedings as may be appropriate: *Provided*, That in any case where such petition relates to an instrument of authorization granted without a hearing, the Commission, or designated authority within the Commission, shall take such action within ninety days of the filing of such petition. Reconsiderations shall be governed by such general rules as the Commission may establish, except that no evidence other than newly discovered evidence, evidence which has become available only since the original taking of evidence, or evidence which the Commission or designated authority within the Commission believes should have been taken in the original proceeding shall be taken on any reconsideration. The time within which a petition for review must be filed in a proceeding to which section 402(a) applies, or within which an appeal must be taken under section 402(b) in any case, shall be computed from the date upon which the Commission gives public notice of the order, decision, report, or action complained of.

(b)(1) Within 90 days after receiving a petition for reconsideration of an order concluding a hearing under section 204(a) or concluding an investigation under section 208(b), the Commission shall issue an order granting or denying such petition.

(2) Any order issued under paragraph (1) shall be a final order and may be appealed under section 402(a).

SEC. 406. [47 U.S.C. 406] MANDAMUS TO COMPEL FURNISHING OF FACILITIES.

The district courts of the United States shall have jurisdiction upon the relation of any person alleging any violation, by a carrier subject to this Act, of any of the provisions of this Act which prevent the relator from receiving service in interstate or foreign communication by wire or radio, or in interstate or foreign transmission of energy by radio, from said carrier at the same charges, or upon terms or conditions as favorable as those given by said carrier for like communication or transmission under similar conditions to any other person, to issue a writ or writs of mandamus against said carrier commanding such carrier to furnish facilities for such communication or transmission to the party applying for the writ: *Provided*, That if any question of fact as to the proper compensation to the carrier for the service to be enforced by the writ is raised by the pleadings, the writ of peremptory mandamus may issue, notwithstanding such question of fact is undetermined, upon such terms as to security, payment of money into the court, or otherwise, as the court may think proper pending the determination of the question of fact: *Provided further*, That the remedy hereby given by writ of mandamus shall be cumulative and shall not be held to exclude or interfere with other remedies provided by this Act.

SEC. 407. [47 U.S.C. 407] PETITION FOR ENFORCEMENT OF ORDER FOR PAYMENT OF MONEY.

If a carrier does not comply with an order for the payment of money within the time limit in such order, the complainant, or any person for whose benefit such order was made, may file in the district court of the United States for the district in which he resides or in which is located the principal operating office of the carrier, or through which the line of the carrier runs, or in any State court of general jurisdiction having jurisdiction of the parties, a petition setting forth briefly the causes for which he claims damages, and the order of the Commission in the premises. Such suit in the district court of the United States shall proceed in all respects like other civil suits for damages, except that on the trial of such suits the findings and order of the Commission shall be *prima facie* evidence of the facts therein stated, except that the petitioner shall not be liable for costs in the district court nor for costs at any subsequent stage of the proceedings unless they accrue upon his appeal. If the petitioner shall finally prevail, he shall be allowed a reasonable attorney's fee, to be taxed and collected as a part of the costs of the suit.

SEC. 408. [47 U.S.C. 408] ORDERS NOT FOR PAYMENT OF MONEY—WHEN EFFECTIVE.

Except as otherwise provided in this Act, all orders of the Commission, other than orders for the payment of money, shall take effect thirty calendar days from the date upon which public notice of the order is given, unless the Commission designates a different effective date. All such orders shall continue in force for the period

of time specified in the order or until the Commission or a court of competent jurisdiction issues a superseding order.

SEC. 409. [47 U.S.C. 409] GENERAL PROVISIONS RELATING TO PROCEEDINGS—WITNESSES AND DEPOSITIONS.

(a) In every case of adjudication (as defined in the Administrative Procedure Act) which has been designated by the Commission for hearing, the person or persons conducting the hearing shall prepare and file an initial, tentative, or recommended decision, except where such person or persons become unavailable to the Commission or where the Commission finds upon the record that due and timely execution of its functions imperatively and unavoidably require that the record be certified to the Commission for initial or final decision.

(b) In every case of adjudication (as defined in the Administrative Procedure Act) which has been designated by the Commission for hearing, any party to the proceeding shall be permitted to file exceptions and memoranda in support thereof to the initial, tentative, or recommended decision, which shall be passed upon by the Commission or by the authority within the Commission, if any, to whom the function of passing upon the exceptions is delegated under section 5(d)(1): *Provided, however*, That such authority shall not be the same authority which made the decision to which the exception is taken.

(c)(1) In any case of adjudication (as defined in the Administrative Procedure Act) which has been designated by the Commission for a hearing, no person who has participated in the presentation or preparation for presentation of such case at the hearing or upon review shall (except to the extent required for the disposition of *ex parte* matters as authorized by law) directly or indirectly make any additional presentation respecting such case to the hearing officer or officers or to the Commission, or to any authority within the Commission to whom, in such case, review functions have been delegated by the Commission under section 5(d)(1), unless upon notice and opportunity for all parties to participate.

(2) The provision in subsection (c) of section 5 of the Administrative Procedure Act which states that such subsection shall not apply in determining applications for initial licenses, shall not be applicable hereafter in the case of applications for initial licenses before the Federal Communications Commission.

(d) To the extent that the foregoing provisions of this section and section 5(d) are in conflict with the provisions of the Administrative Procedure Act, such provisions of this section and section 5(d) shall be held to supersede and modify the provisions of that Act.

(e) For the purposes of this Act the Commission shall have the power to require by subpoena the attendance and testimony of witnesses and the production of all books, papers, schedules of charges, contracts, agreements, and documents relating to any matter under investigation. Witnesses summoned before the Commission shall be paid the same fees and mileage that are paid witnesses in the courts of the United States.

(f) Such attendance of witnesses, and the production of such documentary evidence, may be required from any place in the United States, at any designated place of hearing. And in case of

disobedience to a subpoena the Commission, or any party to a proceeding before the Commission, may invoke the aid of any court of the United States in requiring the attendance and testimony of witnesses and the production of books, papers, and documents under the provisions of this section.

(g) Any of the district courts of the United States within the jurisdiction of which such inquiry is carried on may, in case of contumacy or refusal to obey a subpoena issued to any common carrier or licensee or other person, issue an order requiring such common carrier, licensee, and other person to appear before the Commission (and produce books and papers if so ordered) and give evidence touching the matter in question; and any failure to obey such order of the court may be punished by such court as a contempt thereof.

(h) The testimony of any witness may be taken, at the instance of a party, in any proceeding or investigation pending before the Commission, by deposition, at any time after a cause or proceeding is at issue on petition and answer. The Commission may also order testimony to be taken by deposition in any proceeding or investigation pending before it, at any stage of such proceeding or investigation. Such depositions may be taken before any judge of any court of the United States, or any United States Commissioner, or any clerk of a district court, or any chancellor, justice, or judge of a supreme or superior court, mayor, or chief magistrate of a city, judge of a county court, or court of common pleas of any of the United States, or any notary public, not being of counsel or attorney to either of the parties, nor interested in the event of the proceeding or investigation. Reasonable notice must first be given in writing by the party or his attorney proposing to take such deposition to the opposite party or his attorney of record, as either may be nearest, which notice shall state the name of the witness and the time and place of the taking of his deposition. Any person may be compelled to appear and depose, and to produce documentary evidence, in the same manner as witnesses may be compelled to appear and testify and produce documentary evidence before the Commission, as hereinbefore provided.

(i) Every person deposing as herein provided shall be cautioned and sworn (or affirm, if he so request) to testify the whole truth, and shall be carefully examined. His testimony shall be reduced to writing by the magistrate taking the deposition, or under his direction, and shall, after it has been reduced to writing, be subscribed by the deponent.

(j) If a witness whose testimony may be desired to be taken by deposition be in a foreign country, the deposition may be taken before an officer or person designated by the Commission, or agreed upon by the parties by stipulation in writing to be filed with the Commission. All depositions must be promptly filed with the Commission.

(k) Witnesses whose depositions are taken as authorized in this Act, and the magistrates or other officer taking the same, shall severally be entitled to the same fees as are paid for like services in the courts of the United States.

[(l) Repealed.]

(m) Any person who shall neglect or refuse to attend and testify, or to answer any lawful inquiry, or to produce books, papers,

schedules of charges, contracts, agreements, and documents, if in his power to do so, in obedience to the subpoena or lawful requirement of the Commission, shall be guilty of a misdemeanor and upon conviction thereof by a court of competent jurisdiction shall be punished by a fine of not less than \$100 nor more than \$5,000, or by imprisonment for not more than one year, or by both such fine and imprisonment.

SEC. 410. [47 U.S.C. 410] USE OF JOINT BOARDS—COOPERATION WITH STATE COMMISSIONS.

(a) Except as provided in section 409, the Commission may refer any matter arising in the administration of this Act to a joint board to be composed of a member, or of an equal number of members, as determined by the Commission, from each of the States in which the wire or radio communication affected by or involved in the proceeding takes place or is proposed. For purposes of acting upon such matter any such board shall have all the jurisdiction and powers conferred by law upon an examiner provided for in section 11 of the Administrative Procedure Act, designated by the Commission, and shall be subject to the same duties and obligations. The action of a joint board shall have such force and effect and its proceedings shall be conducted in such manner as the Commission shall by regulations prescribe. The joint board member or members for each State shall be nominated by the State commission of the State or by the Governor if there is no State commission, and appointed by the Federal Communications Commission. The Commission shall have discretion to reject any nominee. Joint Board members shall receive such allowances for expenses as the Commission shall provide.

(b) The Commission may confer with any State commission having regulatory jurisdiction with respect to carriers, regarding the relationship between rate structures, accounts, charges, practices, classifications, and regulations of carriers subject to the jurisdiction of such State commission and of the Commission; and the Commission is authorized under such rules and regulations as it shall prescribe to hold joint hearings with any State commission in connection with any matter with respect to which the Commission is authorized to act. The Commission is authorized in the administration of this Act to avail itself of such cooperation, services, records, and facilities as may be afforded by any State commission.

(c) The Commission shall refer any proceeding regarding the jurisdictional separation of common carrier property and expenses between interstate and intrastate operations, which it institutes pursuant to a notice of proposed rulemaking and, except as provided in section 409 of this Act, may refer any other matter, relating to common carrier communications of joint Federal-State concern, to a Federal-State Joint Board. The Joint Board shall possess the same jurisdiction, power, duties, and obligations as a joint board established under subsection (a) of this section, and shall prepare a recommended decision for prompt review and action by the Commission. In addition, the State members of the Joint Board shall sit with the Commission en banc at any oral argument that may be scheduled in the proceeding. The Commission shall also afford the State members of the Joint Board an opportunity to participate in its deliberations, but not vote, when it has under consid-

eration the recommended decision of the Joint Board or any further decisional action that may be required in the proceeding. The Joint Board shall be composed of three Commissioners of the Commission and of four State commissioners nominated by the national organization of the State commissions and approved by the Commission. The Chairman of the Commission, or another Commissioner designated by the Commission, shall serve as Chairman of the Joint Board.

SEC. 411. [47 U.S.C. 411] JOINDER OF PARTIES.

(a) In any proceeding for the enforcement of the provisions of this Act, whether such proceeding be instituted before the Commission or be begun originally in any district court of the United States, it shall be lawful to include as parties, in addition to the carrier, all persons interested in or affected by the charge, regulation, or practice under consideration, and inquiries, investigations, orders, and decrees may be made with reference to and against such additional parties in the same manner, to the same extent, and subject to the same provisions as are or shall be authorized by law with respect to carriers.

(b) In any suit for the enforcement of an order for the payment of money all parties in whose favor the Commission may have made an award for damages by a single order may be joined as plaintiffs, and all of the carriers parties to such order awarding such damages may be joined as defendants, and such suit may be maintained by such joint plaintiffs and against such joint defendants in any district where any one of such joint plaintiffs could maintain such suit against any one of such joint defendants; and service of process against any one of such defendants as may not be found in the district where the suit is brought may be made in any district where such defendant carrier has its principal operating office. In case of such joint suit, the recovery, if any, may be by judgment in favor of any one of such plaintiffs, against the defendant found to be liable to such plaintiff.

SEC. 412. [47 U.S.C. 412] DOCUMENTS FILED TO BE PUBLIC RECORDS—USE IN PROCEEDINGS.

The copies of schedules of charges, classifications, and of all contracts, agreements, and arrangements between common carriers filed with the Commission as herein provided, and the statistics, tables, and figures contained in the annual or other reports of carriers and other persons made to the Commission as required under the provisions of this Act shall be preserved as public records in the custody of the secretary of the Commission, and shall be received as prima facie evidence of what they purport to be for the purpose of investigations by the Commission and in all judicial proceedings; and copies of and extracts from any of said schedules, classifications, contracts, agreements, arrangements, or reports made public records as aforesaid, certified by the secretary, under the Commission's seal, shall be received in evidence with like effect as the originals: *Provided*, That the Commission may, if the public interest will be served thereby, keep confidential any contract, agreement, or arrangement relating to foreign wire or radio communication when the publication of such contract, agreement, or arrangement would place American communication companies at a

disadvantage in meeting the competition of foreign communication companies.

SEC. 413. [47 U.S.C. 413] DESIGNATION OF AGENT FOR SERVICE.

It shall be the duty of every carrier subject to this Act to designate in writing an agent in the District of Columbia, upon whom service of all notices and process and all orders, decisions, and requirements of the Commission may be made for and on behalf of said carrier in any proceeding or suit pending before the Commission, and to file such designation in the office of the secretary of the Commission, which designation may from time to time be changed by like writing similarly filed; and thereupon service of all notices and process and orders, decisions, and requirements of the Commission may be made upon such carrier by leaving a copy thereof with such designated agent at his office or usual place of residence in the District of Columbia, with like effect as if made personally upon such carrier, and in default of such designation of such agent, service of any notice or other process in any proceeding before said Commission, or of any order, decision, or requirement of the Commission, may be made by posting such notice, process, order, requirement, or decision in the office of the secretary of the Commission.

SEC. 414. [47 U.S.C. 414] REMEDIES IN THIS ACT NOT EXCLUSIVE.

Nothing in this Act contained shall in any way abridge or alter the remedies now existing at common law or by statute, but the provisions of this Act are in addition to such remedies.

SEC. 415. [47 U.S.C. 415] LIMITATIONS AS TO ACTIONS.

(a) All actions at law by carriers for recovery of their lawful charges, or any part thereof, shall be begun, within two years from the time the cause of action accrues, and not after.

(b) All complaints against carriers for the recovery of damages not based on overcharges shall be filed with the Commission within two years from the time the cause of action accrues, and not after, subject to subsection (d) of this section.

(c) For recovery of overcharges action at law shall be begun or complaint filed with the Commission against carriers within two years from the time the cause of action accrues, and not after, subject to subsection (d) of this section, except that if claim for the overcharge has been presented in writing to the carrier within the two-year period of limitation said period shall be extended to include two years from the time notice in writing is given by the carrier to the claimant of disallowance of the claim, or any part or parts thereof, specified in the notice.

(d) If on or before expiration of the period of limitation in subsection (b) or (c) a carrier begins action under subsection (a) for recovery of lawful charges in respect of the same service, or, without beginning action, collects charges in respect of that service, said period of limitation shall be extended to include ninety days from the time such action is begun or such charges are collected by the carrier.

(e) The cause of action in respect of the transmission of a message shall, for the purposes of this section, be deemed to accrue upon delivery or tender of delivery thereof by the carrier, and not after.

(f) A petition for the enforcement of an order of the Commission for the payment of money shall be filed in the district court or the State court within one year from the date of the order, and not after.

(g) The term "overcharges" as used in this section shall be deemed to mean charges for services in excess of those applicable thereto under the schedules of charges lawfully on file with the Commission.

SEC. 416. [47 U.S.C. 416] PROVISIONS RELATING TO ORDERS.

(a) Every order of the Commission shall be forthwith served upon the designated agent of the carrier in the city of Washington or in such other manner as may be provided by law.

(b) Except as otherwise provided in this Act, the Commission is hereby authorized to suspend or modify its orders upon such notice and in such manner as it shall deem proper.

(c) It shall be the duty of every person, its agents and employees, and any receiver or trustee thereof, to observe and comply with such orders so long as the same shall remain in effect.

TITLE V—PENAL PROVISIONS— FORFEITURES

SEC. 501. [47 U.S.C. 501] GENERAL PENALTY.

Any person who willfully and knowingly does or causes or suffers to be done any act, matter, or thing, in this Act prohibited or declared to be unlawful, or who willfully and knowingly omits or fails to do any act, matter, or thing in this Act required to be done, or willfully and knowingly causes or suffers such omission or failure, shall upon conviction thereof, be punished for such offense, for which no penalty (other than a forfeiture) is provided in this Act, by a fine of not more than \$10,000 or by imprisonment for a term not exceeding one year, or both; except that any person, having been once convicted of an offense punishable under this section, who is subsequently convicted of violating any provision of this Act punishable under this section, shall be punished by a fine of not more than \$10,000 or by imprisonment for a term not exceeding two years, or both.

SEC. 502. [47 U.S.C. 502] VIOLATION OF RULES, REGULATIONS, AND SO FORTH.

Any person who willfully and knowingly violates any rule, regulation, restriction, or condition made or imposed by the Commission under authority of this Act, or any rule, regulation, restriction, or condition made or imposed by any international radio or wire communications treaty or convention, or regulations annexed thereto, to which the United States is or may hereafter become a party, shall, in addition to any other penalties provided by law, be punished, upon conviction thereof, by a fine of not more than \$500 for each and every day during which such offense occurs.

SEC. 503. [47 U.S.C. 503] FORFEITURES IN CASES OF REBATES AND OFFSETS.

(a) Any person who shall deliver messages for interstate or foreign transmission to any carrier, or for whom as sender or receiver,

any such carrier shall transmit any interstate or foreign wire or radio communication, who shall knowingly by employee, agent, officer, or otherwise, directly or indirectly, by or through any means or device whatsoever, receive or accept from such common carrier any sum of money or any other valuable consideration as a rebate or offset against the regular charges for transmission of such messages as fixed by the schedules of charges provided for in this Act, shall in addition to any other penalty provided by this Act forfeit to the United States a sum of money three times the amount of money so received or accepted and three times the value of any other consideration so received or accepted, to be ascertained by the trial court; and in the trial of said action all such rebates or other considerations so received or accepted for a period of six years prior to the commencement of the action, may be included therein, and the amount recovered shall be three times the total amount of money, or three times the total value of such consideration, so received or accepted, or both, as the case may be.

(b)(1) Any person who is determined by the Commission, in accordance with paragraph (3) or (4) of this subsection, to have—

(A) willfully or repeatedly failed to comply substantially with the terms and conditions of any license, permit, certificate, or other instrument or authorization issued by the Commission;

(B) willfully or repeatedly failed to comply with any of the provisions of this Act or of any rule, regulation, or order issued by the Commission under this Act or under any treaty, convention, or other agreement to which the United States is a party and which is binding upon the United States;

(C) violated any provision of section 317(c) or 508(a) of this Act; or

(D) violated any provision of section 1304, 1343, 1464, or 2252 of title 18, United States Code;

shall be liable to the United States for a forfeiture penalty. A forfeiture penalty under this subsection shall be in addition to any other penalty provided for by this Act; except that this subsection shall not apply to any conduct which is subject to forfeiture under title II, part II or III of title III, or section 506 of this Act.

(2)(A) If the violator is (i) a broadcast station licensee or permittee, (ii) a cable television operator, or (iii) an applicant for any broadcast or cable television operator license, permit, certificate, or other instrument or authorization issued by the Commission, the amount of any forfeiture penalty determined under this section shall not exceed \$25,000 for each violation or each day of a continuing violation, except that the amount assessed for any continuing violation shall not exceed a total of \$250,000 for any single act or failure to act described in paragraph (1) of this subsection.

(B) If the violator is a common carrier subject to the provisions of this Act or an applicant for any common carrier license, permit, certificate, or other instrument of authorization issued by the Commission, the amount of any forfeiture penalty determined under this subsection shall not exceed \$100,000 for each violation or each day of a continuing violation, except that the amount assessed for any continuing violation shall not exceed a total of \$1,000,000 for

any single act or failure to act described in paragraph (1) of this subsection.

(C) Notwithstanding subparagraph (A), if the violator is—

(i)(I) a broadcast station licensee or permittee; or
(II) an applicant for any broadcast license, permit, certificate, or other instrument or authorization issued by the Commission; and

(ii) determined by the Commission under paragraph (1) to have broadcast obscene, indecent, or profane language, the amount of any forfeiture penalty determined under this subsection shall not exceed \$325,000 for each violation or each day of a continuing violation, except that the amount assessed for any continuing violation shall not exceed a total of \$3,000,000 for any single act or failure to act.

(D) In any case not covered in subparagraph (A), (B), or (C), the amount of any forfeiture penalty determined under this subsection shall not exceed \$10,000 for each violation or each day of a continuing violation, except that the amount assessed for any continuing violation shall not exceed a total of \$75,000 for any single act or failure to act described in paragraph (1) of this subsection.

(E) The amount of such forfeiture penalty shall be assessed by the Commission, or its designee, by written notice. In determining the amount of such a forfeiture penalty, the Commission or its designee shall take into account the nature, circumstances, extent, and gravity of the violation and, with respect to the violator, the degree of culpability, any history of prior offenses, ability to pay, and such other matters as justice may require.

(F)⁴⁹ Subject to paragraph (5) of this section, if the violator is a manufacturer or service provider subject to the requirements of section 255, 716, or 718, and is determined by the Commission to have violated any such requirement, the manufacturer or provider shall be liable to the United States for a forfeiture penalty of not more than \$100,000 for each violation or each day of a continuing violation, except that the amount assessed for any continuing violation shall not exceed a total of \$1,000,000 for any single act or failure to act.

(3)(A) At the discretion of the Commission, a forfeiture penalty may be determined against a person under this subsection after notice and an opportunity for a hearing before the Commission or an administrative law judge thereof in accordance with section 554 of title 5, United States Code. Any person against whom a forfeiture penalty is determined under this paragraph may obtain review thereof pursuant to section 402(a).

(B) If any person fails to pay an assessment of a forfeiture penalty determined under subparagraph (A) of this paragraph, after it has become a final and unappealable order or after the appropriate court has entered final judgment in favor of the Commission, the Commission shall refer the matter to the Attorney General of the United States, who shall recover the amount assessed in any appropriate district court of the United States. In such action, the va-

⁴⁹Margin of subparagraph (F) so in law.

lidity and appropriateness of the final order imposing the forfeiture penalty shall not be subject to review.

(4) Except as provided in paragraph (3) of this subsection, no forfeiture penalty shall be imposed under this subsection against any person unless and until—

(A) the Commission issues a notice of apparent liability, in writing, with respect to such person;

(B) such notice has been received by such person, or until the Commission has sent such notice to the last known address of such person, by registered or certified mail; and

(C) such person is granted an opportunity to show, in writing, within such reasonable period of time as the Commission prescribes by rule or regulation, why no such forfeiture penalty should be imposed.

Such a notice shall (i) identify each specific provision, term, and condition of any Act, rule, regulation, order, treaty, convention, or other agreement, license, permit, certificate, instrument, or authorization which such person apparently violated or with which such person apparently failed to comply; (ii) set forth the nature of the act or omission charged against such person and the facts upon which such charge is based; and (iii) state the date on which such conduct occurred. Any forfeiture penalty determined under this paragraph shall be recoverable pursuant to section 504(a) of this Act.

(5) No forfeiture liability shall be determined under this subsection against any person, if such person does not hold a license, permit, certificate, or other authorization issued by the Commission, and if such person is not an applicant for a license, permit, certificate, or other authorization issued by the Commission, unless, prior to the notice required by paragraph (3) of this subsection or the notice of apparent liability required by paragraph (4) of this subsection, such person (A) is sent a citation of the violation charged; (B) is given a reasonable opportunity for a personal interview with an official of the Commission, at the field office of the Commission which is nearest to such person's place of residence; and (C) subsequently engages in conduct of the type described in such citation. The provisions of this paragraph shall not apply, however, if the person involved is engaging in activities for which a license, permit, certificate, or other authorization is required, or is a cable television system operator, if the person involved is transmitting on frequencies assigned for use in a service in which individual station operation is authorized by rule pursuant to section 307(e), or in the case of violations of section 303(q), if the person involved is a nonlicensee tower owner who has previously received notice of the obligations imposed by section 303(q) from the Commission or the permittee or licensee who uses that tower. Whenever the requirements of this paragraph are satisfied with respect to a particular person, such person shall not be entitled to receive any additional citation of the violation charged, with respect to any conduct of the type described in the citation sent under this paragraph.

(6) No forfeiture penalty shall be determined or imposed against any person under this subsection if—

(A) such person holds a broadcast station license issued under title III of this Act and if the violation charged occurred—

(i) more than 1 year prior to the date of issuance of the required notice or notice of apparent liability; or

(ii) prior to the date of commencement of the current term of such license, whichever is earlier; or

(B) such person does not hold a broadcast station license issued under title III of this Act and if the violation charged occurred more than 1 year prior to the date of issuance of the required notice or notice of apparent liability.

For purposes of this paragraph, “date of commencement of the current term of such license” means the date of commencement of the last term of license for which the licensee has been granted a license by the Commission. A separate license term shall not be deemed to have commenced as a result of continuing a license in effect under section 307(c) pending decision on an application for renewal of the license.

SEC. 504. [47 U.S.C. 504] PROVISIONS RELATING TO FORFEITURES.

(a) The forfeitures provided for in this Act shall be payable into the Treasury of the United States, and shall be recoverable, except as otherwise provided with respect to a forfeiture penalty determined under section 503(b)(3) of this Act, in a civil suit in the name of the United States brought in the district where the person or carrier has its principal operating office or in any district through which the line or system of the carrier runs: *Provided*, That any suit for the recovery of a forfeiture imposed pursuant to the provisions of this Act shall be a trial de novo: *Provided further*, That in the case of forfeiture by a ship, said forfeiture may also be recoverable by way of libel in any district in which such ship shall arrive or depart. Such forfeitures shall be in addition to any other general or specific penalties herein provided. It shall be the duty of the various district attorneys, under the direction of the Attorney General of the United States, to prosecute for the recovery of forfeitures under this Act. The costs and expenses of such prosecutions shall be paid from the appropriation for the expenses of the courts of the United States.

(b) The forfeitures imposed by title II, parts II and III of title III, and sections 503(b) and 506 of this Act shall be subject to remission or mitigation by the Commission, under such regulations and methods of ascertaining the facts as may seem to it advisable, and, if suit has been instituted, the Attorney General, upon request of the Commission, shall direct the discontinuance of any prosecution to recover such forfeitures: *Provided, however*, That no forfeiture shall be remitted or mitigated after determination by a court of competent jurisdiction.

(c) In any case where the Commission issues a notice of apparent liability looking toward the imposition of a forfeiture under this Act, that fact shall not be used, in any other proceeding before the Commission, to the prejudice of the person to whom such notice was issued, unless (i) the forfeiture has been paid, or (ii) a court

of competent jurisdiction has ordered payment of such forfeiture, and such order has become final.

SEC. 505. [47 U.S.C. 505] VENUE OF OFFENSES.

The trial of any offense under this Act shall be in the district in which it is committed; or if the offense is committed upon the high seas, or out of the jurisdiction of any particular State or district, the trial shall be in the district where the offender may be found or into which he shall be first brought. Whenever the offense is begun in one jurisdiction and completed in another it may be dealt with, inquired of, tried, determined, and punished in either jurisdiction in the same manner as if the offense had been actually and wholly committed therein.

SEC. 506. [47 U.S.C. 507] VIOLATION OF GREAT LAKES AGREEMENT.

(a) Any vessel of the United States that is navigated in violation of the provisions of the Great Lakes Agreement or the rules and regulations of the Commission made in pursuance thereof and any vessel of a foreign country that is so navigated on waters under the jurisdiction of the United States shall forfeit to the United States the sum of \$500 recoverable by way of suit or libel. Each day during which such navigation occurs shall constitute a separate offense.

(b) Every willful failure on the part of the master of a vessel of the United States to enforce or to comply with the provisions of the Great Lakes Agreement or the rules and regulations of the Commission made in pursuance thereof shall cause him to forfeit to the United States the sum of \$100.

SEC. 507. [47 U.S.C. 508] DISCLOSURE OF CERTAIN PAYMENTS.

(a) Subject to subsection (d), any employee of a radio station who accepts or agrees to accept from any person (other than such station), or any person (other than such station) who pays or agrees to pay such employee, any money, service or other valuable consideration for the broadcast of any matter over such station shall, in advance of such broadcast, disclose the fact of such acceptance or agreement to such station.

(b) Subject to subsection (d), any person who, in connection with the production or preparation of any program or program matter which is intended for broadcasting over any radio station, accepts or agrees to accept, or pays or agrees to pay, any money, service or other valuable consideration for the inclusion of any matter as a part of such program or program matter, shall, in advance of such broadcast, disclose the fact of such acceptance or payment or agreement to the payee's employer, or to the person for which such program or program matter is being produced, or to the licensee of such station over which such program is broadcast.

(c) Subject to subsection (d), any person who supplies to any other person any program or program matter which is intended for broadcasting over any radio station shall, in advance of such broadcast, disclose to such other person any information of which he has knowledge, or which has been disclosed to him, as to any money, service or other valuable consideration which any person has paid or accepted, or has agreed to pay or accept, for the inclusion of any matter as a part of such program or program matter.

(d) The provisions of this section requiring the disclosure of information shall not apply in any case where, because of a waiver made by the Commission under section 317(d), an announcement is not required to be made under section 317.

(e) The inclusion in the program of the announcement required by section 317 shall constitute the disclosure required by this section.

(f) The term "service or other valuable consideration" as used in this section shall not include any service or property furnished without charge or at a nominal charge for use on, or in connection with, a broadcast, or for use on a program which is intended for broadcasting over any radio station, unless it is so furnished in consideration for an identification in such broadcast or in such program of any person, product, service, trademark, or brand name beyond an identification which is reasonably related to the use of such service or property in such broadcast or such program.

(g) Any person who violates any provision of this section shall, for each such violation, be fined not more than \$10,000 or imprisoned not more than one year, or both.

SEC. 508. [47 U.S.C. 509] PROHIBITED PRACTICES IN CASE OF CONTESTS OF INTELLECTUAL KNOWLEDGE, INTELLECTUAL SKILL, OR CHANCE.

(a) It shall be unlawful for any person, with intent to deceive the listening or viewing public—

(1) To supply to any contestant in a purportedly bona fide contest of intellectual knowledge or intellectual skill any special and secret assistance whereby the outcome of such contest will be in whole or in part prearranged or predetermined.

(2) By means of persuasion, bribery, intimidation, or otherwise, to induce or cause any contestant in a purportedly bona fide contest of intellectual knowledge or intellectual skill to refrain in any manner from using or displaying his knowledge or skill in such contest, whereby the outcome thereof will be in whole or in part prearranged or predetermined.

(3) To engage in any artifice or scheme for the purpose of prearranging or predetermining in whole or in part the outcome of a purportedly bona fide contest of intellectual knowledge, intellectual skill, or chance.

(4) To produce or participate in the production for broadcasting of, to broadcast or participate in the broadcasting of, to offer to a licensee for broadcasting, or to sponsor, any radio program, knowing or having reasonable ground for believing that, in connection with a purportedly bona fide contest of intellectual knowledge, intellectual skill, or chance constituting any part of such program, any person has done or is going to do any act or thing referred to in paragraph (1), (2), or (3) of this subsection.

(5) To conspire with any other person or persons to do any act or thing prohibited by paragraph (1), (2), (3), or (4) of this subsection, if one or more of such persons do any act to effect the object of such conspiracy.

(b) For the purpose of this section—

(1) The term "contest" means any contest broadcast by a radio station in connection with which any money or any other

thing of value is offered as a prize or prizes to be paid or presented by the program sponsor or by any other person or persons, as announced in the course of the broadcast.

(2) The term “the listening or viewing public” means those members of the public who, with the aid of radio receiving sets, listen to or view programs broadcast by radio stations.

(c) Whoever violates subsection (a) shall be fined not more than \$10,000 or imprisoned not more than one year, or both.

[SEC. 509]⁵⁰

SEC. 510. [47 U.S.C. 510] FORFEITURE OF COMMUNICATIONS DEVICES.

(a) Any electronic, electromagnetic, radio frequency, or similar device, or component thereof, used, sent, carried, manufactured, assembled, possessed, offered for sale, sold, or advertised with willful and knowing intent to violate section 301 or 302, or rules prescribed by the Commission under such sections, may be seized and forfeited to the United States.

(b) Any property subject to forfeiture to the United States under this section may be seized by the Attorney General of the United States upon process issued pursuant to the supplemental rules for certain admiralty and maritime claims by any district court of the United States having jurisdiction over the property, except that seizure without such process may be made if the seizure is incident to a lawful arrest or search.

(c) All provisions of law relating to—

(1) the seizure, summary and judicial forfeiture, and condemnation of property for violation of the customs laws;

(2) the disposition of such property or the proceeds from the sale thereof;

(3) the remission or mitigation of such forfeitures; and

(4) the compromise of claims with respect to such forfeitures;

shall apply to seizures and forfeitures incurred, or alleged to have been incurred, under the provisions of this section, insofar as applicable and not inconsistent with the provisions of this section, except that such seizures and forfeitures shall be limited to the communications device, devices, or components thereof.

(d) Whenever property is forfeited under this section, the Attorney General of the United States may forward it to the Commission or sell any forfeited property which is not harmful to the public. The proceeds from any such sale shall be deposited in the general fund of the Treasury of the United States.

SEC. 511. [47 U.S.C. 511] ENHANCED PENALTIES FOR PIRATE RADIO BROADCASTING; ENFORCEMENT SWEEPS; REPORTING.

(a) **INCREASED GENERAL PENALTY.**—Any person who willfully and knowingly does or causes or suffers to be done any pirate radio broadcasting shall be subject to a fine of not more than \$2,000,000.

(b) **VIOLATION OF THIS ACT, RULES, OR REGULATIONS.**—Any person who willfully and knowingly violates this Act or any rule, regulation, restriction, or condition made or imposed by the Commission under authority of this Act, or any rule, regulation, restric-

⁵⁰ Public Law 96–507, 94 Stat. 2747, Dec. 8, 1980, struck out sec. 506 and redesignated secs. 507–509 as secs. 506–508, respectively.

tion, or condition made or imposed by any international radio or wire communications treaty or convention, or regulations annexed thereto, to which the United States is party, relating to pirate radio broadcasting shall, in addition to any other penalties provided by law, be subject to a fine of not more than \$100,000 for each day during which such offense occurs, in accordance with the limit described in subsection (a).

(c) ANNUAL REPORT.—Not later than 1 year after the date of enactment of the PIRATE Act, and annually thereafter, the Commission shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report summarizing the implementation of this section and associated enforcement activities for the previous fiscal year, which may include the efforts by the Commission to enlist the cooperation of Federal, State, and local law enforcement personnel (including United States attorneys and the United States Marshals Service) for service of process, collection of fines or forfeitures, seizures of equipment, and enforcement of orders.

(d) ENFORCEMENT SWEEPS.—

(1) ANNUAL SWEEPS.—Not less than once each year, the Commission shall assign appropriate enforcement personnel to focus specific and sustained attention on the elimination of pirate radio broadcasting within the top 5 radio markets identified as prevalent for such broadcasts. Such effort shall include identifying, locating, and taking enforcement actions designed to terminate such operations.

(2) ADDITIONAL MONITORING.—Within 6 months after conducting the enforcement sweeps required by paragraph (1), the Commission shall conduct monitoring sweeps to ascertain whether the pirate radio broadcasting identified by enforcement sweeps is continuing to broadcast and whether additional pirate radio broadcasting is occurring.

(3) NO EFFECT ON REMAINING ENFORCEMENT.—Notwithstanding paragraph (1), the Commission shall not decrease or diminish the regular enforcement efforts targeted to pirate radio broadcast stations for other times of the year.

(e) STATE AND LOCAL GOVERNMENT AUTHORITY.—The Commission may not preempt any State or local law prohibiting pirate radio broadcasting.

(f) REVISION OF COMMISSION RULES REQUIRED.—The Commission shall revise its rules to require that, absent good cause, in any case alleging a violation of subsection (a) or (b), the Commission shall proceed directly to issue a notice of apparent liability without first issuing a notice of unlicensed operation.

(g) PIRATE RADIO BROADCASTING DATABASE.—

(1) IN GENERAL.—Not later than 90 days after the date of the enactment of this section, and semi-annually thereafter, the Commission shall publish a database in a clear and legible format of all licensed radio stations operating in the AM and FM bands. The database shall be easily accessible from the Commission home page through a direct link. The database shall include the following information:

- (A) Each licensed station, listed by the assigned frequency, channel number, or Commission call letters.
- (B) All entities that have received a notice of unlicensed operation, notice of apparent liability, or forfeiture order issued by the Commission.
- (2) CLEAR IDENTIFICATION.—The Commission shall clearly identify in the database—
- (A) each licensed station as a station licensed by the Commission; and
- (B) each entity described in paragraph (1)(B) as operating without a Commission license or authorization.
- (h) DEFINITION OF PIRATE RADIO BROADCASTING.—In this section, the term “pirate radio broadcasting” means the transmission of communications on spectrum frequencies between 535 and 1705 kilohertz, inclusive, or 87.7 and 108 megahertz, inclusive, without a license issued by the Commission, but does not include unlicensed operations in compliance with part 15 of title 47, Code of Federal Regulations.

TITLE VI—CABLE COMMUNICATIONS⁵¹

PART I—GENERAL PROVISIONS

SEC. 601. [47 U.S.C. 521] PURPOSES.

The purposes of this title are to—

- (1) establish a national policy concerning cable communications;
- (2) establish franchise procedures and standards which encourage the growth and development of cable systems and which assure that cable systems are responsive to the needs and interests of the local community;
- (3) establish guidelines for the exercise of Federal, State, and local authority with respect to the regulation of cable systems;
- (4) assure that cable communications provide and are encouraged to provide the widest possible diversity of information sources and services to the public;

⁵¹Title VI of the Communications Act of 1934 was added by the Cable Communications Policy Act of 1984, Public Law 98–549, 98 Stat. 2780, Oct. 30, 1984. That Act also contained the following provisions:

JURISDICTION

SEC. 13. (a) * * *

(b) The provisions of this Act and amendments made by this Act shall not be construed to affect any jurisdiction the Federal Communications Commission may have under the Communications Act of 1934 with respect to any communication by wire or radio (other than cable service, as defined in section 602(5) of such Act) which is provided through a cable system, or persons or facilities engaged in such communications.

* * * * *

EFFECTIVE DATE

SEC. 19. * * *

(b) Nothing in section 623 or 624 of the Communications Act of 1934, as added by this Act, shall be construed to allow a franchising authority, or a State or any political subdivision of a State, to require a cable operator to restore, retier, or reprice any cable service which was lawfully eliminated, retiered, or repriced as of September 26, 1984.

(5) establish an orderly process for franchise renewal which protects cable operators against unfair denials of renewal where the operator's past performance and proposal for future performance meet the standards established by this title; and

(6) promote competition in cable communications and minimize unnecessary regulation that would impose an undue economic burden on cable systems.

SEC. 602. [47 U.S.C. 522] DEFINITIONS.

For purposes of this title—

(1) the term “activated channels” means those channels engineered at the headend of a cable system for the provision of services generally available to residential subscribers of the cable system, regardless of whether such services actually are provided, including any channel designated for public, educational, or governmental use;

(2) the term “affiliate”, when used in relation to any person, means another person who owns or controls, is owned or controlled by, or is under common ownership or control with, such person;

(3) the term “basic cable service” means any service tier which includes the retransmission of local television broadcast signals;

(4) the terms “cable channel” or “channel” means a portion of the electromagnetic frequency spectrum which is used in a cable system and which is capable of delivering a television channel (as television channel is defined by the Commission by regulation);

(5) the term “cable operator” means any person or group of persons (A) who provides cable service over a cable system and directly or through one or more affiliates owns a significant interest in such cable system, or (B) who otherwise controls or is responsible for, through any arrangement, the management and operation of such a cable system;

(6) the term “cable service” means—

(A) the one-way transmission to subscribers of (i) video programming, or (ii) other programming service, and

(B) subscriber interaction, if any, which is required for the selection or use of such video programming or other programming service;

(7) the term “cable system” means a facility, consisting of a set of closed transmission paths and associated signal generation, reception, and control equipment that is designed to provide cable service which includes video programming and which is provided to multiple subscribers within a community, but such term does not include (A) a facility that serves only to retransmit the television signals of 1 or more television broadcast stations; (B) a facility that serves subscribers without using any public right-of-way; (C) a facility of a common carrier which is subject, in whole or in part, to the provisions of title II of this Act, except that such facility shall be considered a cable system (other than for purposes of section 621(c)) to the extent such facility is used in the transmission of video

programming directly to subscribers, unless the extent of such use is solely to provide interactive on-demand services; (D)⁵² an open video system that complies with section 653 of this title; or (E) any facilities of any electric utility used solely for operating its electric utility systems;

(8) the term “Federal agency” means any agency of the United States, including the Commission;

(9) the term “franchise” means an initial authorization, or renewal thereof (including a renewal of an authorization which has been granted subject to section 626), issued by a franchising authority, whether such authorization is designated as a franchise, permit, license, resolution, contract, certificate, agreement, or otherwise, which authorizes the construction or operation of a cable system;

(10) the term “franchising authority” means any governmental entity empowered by Federal, State, or local law to grant a franchise;

(11) the term “grade B contour” means the field strength of a television broadcast station computed in accordance with regulations promulgated by the Commission;

(12) the term “interactive on-demand services” means a service providing video programming to subscribers over switched networks on an on-demand, point-to-point basis, but does not include services providing video programming prescheduled by the programming provider;

(13) the term “multichannel video programming distributor” means a person such as, but not limited to, a cable operator, a multichannel multipoint distribution service, a direct broadcast satellite service, or a television receive-only satellite program distributor, who makes available for purchase, by subscribers or customers, multiple channels of video programming;

(14) the term “other programming service” means information that a cable operator makes available to all subscribers generally;

(15) the term “person” means an individual, partnership, association, joint stock company, trust, corporation, or governmental entity;

(16) the term “public, educational, or governmental access facilities” means—

(A) channel capacity designated for public, educational, or governmental use; and

(B) facilities and equipment for the use of such channel capacity;

(17) the term “service tier” means a category of cable service or other services provided by a cable operator and for which a separate rate is charged by the cable operator;

(18) the term “State” means any State, or political subdivision, or agency thereof;

(19) the term “usable activated channels” means activated channels of a cable system, except those channels whose use

⁵²This compilation reflects the amendment made by section 302(b)(2)(A) of P.L. 104–104 (110 Stat. 124), even though that amendment strikes “, or (D)” rather than the “; or (D)” that appears in the law.

for the distribution of broadcast signals would conflict with technical and safety regulations as determined by the Commission; and

(20) the term “video programming” means programming provided by, or generally considered comparable to programming provided by, a television broadcast station.

PART II—USE OF CABLE CHANNELS AND CABLE OWNERSHIP RESTRICTIONS

SEC. 611. [47 U.S.C. 531] CABLE CHANNELS FOR PUBLIC, EDUCATIONAL, OR GOVERNMENTAL USE.

(a) A franchising authority may establish requirements in a franchise with respect to the designation or use of channel capacity for public, educational, or governmental use only to the extent provided in this section.

(b) A franchising authority may in its request for proposals require as part of a franchise, and may require as part of a cable operator’s proposal for a franchise renewal, subject to section 626, that channel capacity be designated for public, educational, or governmental use, and channel capacity on institutional networks be designated for educational or governmental use, and may require rules and procedures for the use of the channel capacity designated pursuant to this section.

(c) A franchising authority may enforce any requirement in any franchise regarding the providing or use of such channel capacity. Such enforcement authority includes the authority to enforce any provisions of the franchise for services, facilities, or equipment proposed by the cable operator which relate to public, educational, or governmental use of channel capacity, whether or not required by the franchising authority pursuant to subsection (b).

(d) In the case of any franchise under which channel capacity is designated under subsection (b), the franchising authority shall prescribe—

(1) rules and procedures under which the cable operator is permitted to use such channel capacity for the provision of other services if such channel capacity is not being used for the purposes designated, and

(2) rules and procedures under which such permitted use shall cease.

(e) Subject to section 624(d), a cable operator shall not exercise any editorial control over any public, educational, or governmental use of channel capacity provided pursuant to this section, except a cable operator may refuse to transmit any public access program or portion of a public access program which contains obscenity, indecency, or nudity.

(f) For purposes of this section, the term “institutional network” means a communication network which is constructed or operated by the cable operator and which is generally available only to subscribers who are not residential subscribers.

SEC. 612. [47 U.S.C. 532] CABLE CHANNELS FOR COMMERCIAL USE.

(a) The purpose of this section is to promote competition in the delivery of diverse sources of video programming and to assure that

the widest possible diversity of information sources are made available to the public from cable systems in a manner consistent with growth and development of cable systems.

(b)(1) A cable operator shall designate channel capacity for commercial use by persons unaffiliated with the operator in accordance with the following requirements:

(A) An operator of any cable system with 36 or more (but not more than 54) activated channels shall designate 10 percent of such channels which are not otherwise required for use (or the use of which is not prohibited) by Federal law or regulation.

(B) An operator of any cable system with 55 or more (but not more than 100) activated channels shall designate 15 percent of such channels which are not otherwise required for use (or the use of which is not prohibited) by Federal law or regulation.

(C) An operator of any cable system with more than 100 activated channels shall designate 15 percent of all such channels.

(D) An operator of any cable system with fewer than 36 activated channels shall not be required to designate channel capacity for commercial use by persons unaffiliated with the operator, unless the cable system is required to provide such channel capacity under the terms of a franchise in effect on the date of the enactment of this title.

(E) An operator of any cable system in operation on the date of the enactment of this title shall not be required to remove any service actually being provided on July 1, 1984, in order to comply with this section, but shall make channel capacity available for commercial use as such capacity becomes available until such time as the cable operator is in full compliance with this section.

(2) Any Federal agency, State, or franchising authority may not require any cable system to designate channel capacity for commercial use by unaffiliated persons in excess of the capacity specified in paragraph (1), except as otherwise provided in this section.

(3) A cable operator may not be required, as part of a request for proposals or as part of a proposal for renewal, subject to section 626, to designate channel capacity for any use (other than commercial use by unaffiliated persons under this section) except as provided in sections 611 and 637, but a cable operator may offer in a franchise, or proposal for renewal thereof, to provide, consistent with applicable law, such capacity for other than commercial use by such persons.

(4) A cable operator may use any unused channel capacity designated pursuant to this section until the use of such channel capacity is obtained, pursuant to a written agreement, by a person unaffiliated with the operator.

(5) For the purposes of this section, the term "commercial use" means the provision of video programming, whether or not for profit.

(6) Any channel capacity which has been designated for public, educational, or governmental use may not be considered as des-

ignated under this section for commercial use for purpose of this section.

(c)(1) If a person unaffiliated with the cable operator seeks to use channel capacity designated pursuant to subsection (b) for commercial use, the cable operator shall establish, consistent with the purpose of this section and with rules prescribed by the Commission under paragraph (4), the price, terms, and conditions of such use which are at least sufficient to assure that such use will not adversely affect the operation, financial condition, or market development of the cable system.

(2) A cable operator shall not exercise any editorial control over any video programming provided pursuant to this section, or in any other way consider the content of such programming, except that a cable operator may refuse to transmit any leased access program or portion of a leased access program which contains obscenity, indecency, or nudity and may consider such content to the minimum extent necessary to establish a reasonable price for the commercial use of designated channel capacity by an unaffiliated person.

(3) Any cable system channel designated in accordance with this section shall not be used to provide a cable service that is being provided over such system on the date of the enactment of this title, if the provision of such programming is intended to avoid the purpose of this section.

(4)(A) The Commission shall have the authority to—

(i) determine the maximum reasonable rates that a cable operator may establish pursuant to paragraph (1) for commercial use of designated channel capacity, including the rate charged for the billing of rates to subscribers and for the collection of revenue from subscribers by the cable operator for such use;

(ii) establish reasonable terms and conditions for such use, including those for billing and collection; and

(iii) establish procedures for the expedited resolution of disputes concerning rates or carriage under this section.

(B) Within 180 days after the date of enactment of this paragraph, the Commission shall establish rules for determining maximum reasonable rates under subparagraph (A)(i), for establishing terms and conditions under subparagraph (A)(ii), and for providing procedures under subparagraph (A)(iii).

(d) Any person aggrieved by the failure or refusal of a cable operator to make channel capacity available for use pursuant to this section may bring an action in the district court of the United States for the judicial district in which the cable system is located to compel that such capacity be made available. If the court finds that the channel capacity sought by such person has not been made available in accordance with this section, or finds that the price, terms, or conditions established by the cable operator are unreasonable, the court may order such system to make available to such person the channel capacity sought, and further determine the appropriate price, terms, or conditions for such use consistent with subsection (c), and may award actual damages if it deems such relief appropriate. In any such action, the court shall not consider any price, term, or condition established between an operator and an affiliate for comparable services.

(e)(1) Any person aggrieved by the failure or refusal of a cable operator to make channel capacity available pursuant to this section may petition the Commission for relief under this subsection upon a showing of prior adjudicated violations of this section. Records of previous adjudications resulting in a court determination that the operator has violated this section shall be considered as sufficient for the showing necessary under this subsection. If the Commission finds that the channel capacity sought by such person has not been made available in accordance with this section, or that the price, terms, or conditions established by such system are unreasonable under subsection (c), the Commission shall, by rule or order, require such operator to make available such channel capacity under price, terms, and conditions consistent with subsection (c).

(2) In any case in which the Commission finds that the prior adjudicated violations of this section constitute a pattern or practice of violations by an operator, the Commission may also establish any further rule or order necessary to assure that the operator provides the diversity of information sources required by this section.

(3) In any case in which the Commission finds that the prior adjudicated violations of this section constitute a pattern or practice of violations by any person who is an operator of more than one cable system, the Commission may also establish any further rule or order necessary to assure that such person provides the diversity of information sources required by this section.

(f) In any action brought under this section in any Federal district court or before the Commission, there shall be a presumption that the price, terms, and conditions for use of channel capacity designated pursuant to subsection (b) are reasonable and in good faith unless shown by clear and convincing evidence to the contrary.

(g) Notwithstanding sections 621(c) and 623(a), at such time as cable systems with 36 or more activated channels are available to 70 percent of households within the United States and are subscribed to by 70 percent of the households to which such systems are available, the Commission may promulgate any additional rules necessary to provide diversity of information sources. Any rules promulgated by the Commission pursuant to this subsection shall not preempt authority expressly granted to franchising authorities under this title.

(h) Any cable service offered pursuant to this section shall not be provided, or shall be provided subject to conditions, if such cable service in the judgment of the franchising authority or the cable operator is obscene, or is in conflict with community standards in that it is lewd, lascivious, filthy, or indecent or is otherwise unprotected by the Constitution of the United States. This subsection shall permit a cable operator to enforce prospectively a written and published policy of prohibiting programming that the cable operator reasonably believes describes or depicts sexual or excretory activities or organs in a patently offensive manner as measured by contemporary community standards.

(i)(1) Notwithstanding the provisions of subsections (b) and (c), a cable operator required by this section to designate channel ca-

capacity for commercial use may use any such channel capacity for the provision of programming from a qualified minority programming source or from any qualified educational programming source, whether or not such source is affiliated with the cable operator. The channel capacity used to provide programming from a qualified minority programming source or from any qualified educational programming source pursuant to this subsection may not exceed 33 percent of the channel capacity designated pursuant to this section. No programming provided over a cable system on July 1, 1990, may qualify as minority programming or educational programming on that cable system under this subsection.

(2) For purposes of this subsection, the term “qualified minority programming source” means a programming source which devotes substantially all of its programming to coverage of minority viewpoints, or to programming directed at members of minority groups, and which is over 50 percent minority-owned, as the term “minority” is defined in section 309(i)(3)(C)(ii).

(3) For purposes of this subsection, the term “qualified educational programming source” means a programming source which devotes substantially all of its programming to educational or instructional programming that promotes public understanding of mathematics, the sciences, the humanities, and the arts and has a documented annual expenditure on programming exceeding \$15,000,000. The annual expenditure on programming means all annual costs incurred by the programming source to produce or acquire programs which are scheduled to be televised, and specifically excludes marketing, promotion, satellite transmission and operational costs, and general administrative costs.

(4) Nothing in this subsection shall substitute for the requirements to carry qualified noncommercial educational television stations as specified under section 615.

(j)(1) Within 120 days following the date of the enactment of this subsection, the Commission shall promulgate regulations designed to limit the access of children to indecent programming, as defined by Commission regulations, and which cable operators have not voluntarily prohibited under subsection (h) by—

(A) requiring cable operators to place on a single channel all indecent programs, as identified by program providers, intended for carriage on channels designated for commercial use under this section;

(B) requiring cable operators to block such single channel unless the subscriber requests access to such channel in writing; and

(C) requiring programmers to inform cable operators if the program would be indecent as defined by Commission regulations.

(2) Cable operators shall comply with the regulations promulgated pursuant to paragraph (1).

SEC. 613. [47 U.S.C. 533] OWNERSHIP RESTRICTIONS.

(a) It shall be unlawful for a cable operator to hold a license for multichannel multipoint distribution service, or to offer satellite master antenna television service separate and apart from any

franchised cable service, in any portion of the franchise area served by that cable operator's cable system. The Commission—

(1) shall waive the requirements of this paragraph for all existing multichannel multipoint distribution services and satellite master antenna television services which are owned by a cable operator on the date of enactment of this paragraph;

(2) may waive the requirements of this paragraph to the extent the Commission determines is necessary to ensure that all significant portions of a franchise area are able to obtain video programming; and

(3) shall not apply the requirements of this subsection to any cable operator in any franchise area in which a cable operator is subject to effective competition as determined under section 623(l).

【Subsection (b) repealed by section 302(b)(1) of the Telecommunications Act of 1996 (P.L. 104–104), 110 Stat. 124.】

(c) The Commission may prescribe rules with respect to the ownership or control of cable systems by persons who own or control other media of mass communications which serve the same community served by a cable system.

(d) Any State or franchising authority may not prohibit the ownership or control of a cable system by any person because of such person's ownership or control of any other media of mass communications or other media interests. Nothing in this section shall be construed to prevent any State or franchising authority from prohibiting the ownership or control of a cable system in a jurisdiction by any person (1) because of such person's ownership or control of any other cable system in such jurisdiction; or (2) in circumstances in which the State or franchising authority determines that the acquisition of such a cable system may eliminate or reduce competition in the delivery of cable service in such jurisdiction.

(e)(1) Subject to paragraph (2), a State or franchising authority may hold any ownership interest in any cable system.

(2) Any State or franchising authority shall not exercise any editorial control regarding the content of any cable service on a cable system in which such governmental entity holds ownership interest (other than programming on any channel designated for educational or governmental use), unless such control is exercised through an entity separate from the franchising authority.

(f)(1) In order to enhance effective competition, the Commission shall, within one year after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, conduct a proceeding—

(A) to prescribe rules and regulations establishing reasonable limits on the number of cable subscribers a person is authorized to reach through cable systems owned by such person, or in which such person has an attributable interest;

(B) to prescribe rules and regulations establishing reasonable limits on the number of channels on a cable system that can be occupied by a video programmer in which a cable operator has an attributable interest; and

(C) to consider the necessity and appropriateness of imposing limitations on the degree to which multichannel video pro-

gramming distributors may engage in the creation or production of video programming.

(2) In prescribing rules and regulations under paragraph (1), the Commission shall, among other public interest objectives—

(A) ensure that no cable operator or group of cable operators can unfairly impede, either because of the size of any individual operator or because of joint actions by a group of operators of sufficient size, the flow of video programming from the video programmer to the consumer;

(B) ensure that cable operators affiliated with video programmers do not favor such programmers in determining carriage on their cable systems or do not unreasonably restrict the flow of the video programming of such programmers to other video distributors;

(C) take particular account of the market structure, ownership patterns, and other relationships of the cable television industry, including the nature and market power of the local franchise, the joint ownership of cable systems and video programmers, and the various types of non-equity controlling interests;

(D) account for any efficiencies and other benefits that might be gained through increased ownership or control;

(E) make such rules and regulations reflect the dynamic nature of the communications marketplace;

(F) not impose limitations which would bar cable operators from serving previously unserved rural areas; and

(G) not impose limitations which would impair the development of diverse and high quality video programming.

(g) This section shall not apply to prohibit any combination of any interests held by any person on July 1, 1984, to the extent of the interests so held as of such date, if the holding of such interests was not inconsistent with any applicable Federal or State law or regulations in effect on that date.

(h) For purposes of this section, the term “media of mass communications” shall have the meaning given such term under section 309(i)(3)(C)(i) of this Act.

SEC. 614. [47 U.S.C. 534] CARRIAGE OF LOCAL COMMERCIAL TELEVISION SIGNALS.

(a) CARRIAGE OBLIGATIONS.—Each cable operator shall carry, on the cable system of that operator, the signals of local commercial television stations and qualified low power stations as provided by this section. Carriage of additional broadcast television signals on such system shall be at the discretion of such operator, subject to section 325(b).

(b) SIGNALS REQUIRED.—

(1) IN GENERAL.—(A) A cable operator of a cable system with 12 or fewer usable activated channels shall carry the signals of at least three local commercial television stations, except that if such a system has 300 or fewer subscribers, it shall not be subject to any requirements under this section so long as such system does not delete from carriage by that system any signal of a broadcast television station.

(B) A cable operator of a cable system with more than 12 usable activated channels shall carry the signals of local com-

mercial television stations, up to one-third of the aggregate number of usable activated channels of such system.

(2) SELECTION OF SIGNALS.—Whenever the number of local commercial television stations exceeds the maximum number of signals a cable system is required to carry under paragraph (1), the cable operator shall have discretion in selecting which such stations shall be carried on its cable system, except that—

(A) under no circumstances shall a cable operator carry a qualified low power station in lieu of a local commercial television station; and

(B) if the cable operator elects to carry an affiliate of a broadcast network (as such term is defined by the Commission by regulation), such cable operator shall carry the affiliate of such broadcast network whose city of license reference point, as defined in section 76.53 of title 47, Code of Federal Regulations (in effect on January 1, 1991), or any successor regulation thereto, is closest to the principal headend of the cable system.

(3) CONTENT TO BE CARRIED.—(A) A cable operator shall carry in its entirety, on the cable system of that operator, the primary video, accompanying audio, and line 21 closed caption transmission of each of the local commercial television stations carried on the cable system and, to the extent technically feasible, program-related material carried in the vertical blanking interval or on subcarriers. Retransmission of other material in the vertical blanking interval or other nonprogram-related material (including teletext and other subscription and advertiser-supported information services) shall be at the discretion of the cable operator. Where appropriate and feasible, operators may delete signal enhancements, such as ghost-canceling, from the broadcast signal and employ such enhancements at the system headend or headends.

(B) The cable operator shall carry the entirety of the program schedule of any television station carried on the cable system unless carriage of specific programming is prohibited, and other programming authorized to be substituted, under section 76.67 or subpart F of part 76 of title 47, Code of Federal Regulations (as in effect on January 1, 1991), or any successor regulations thereto.

(4) SIGNAL QUALITY.—

(A) NONDEGRADATION; TECHNICAL SPECIFICATIONS.—The signals of local commercial television stations that a cable operator carries shall be carried without material degradation. The Commission shall adopt carriage standards to ensure that, to the extent technically feasible, the quality of signal processing and carriage provided by a cable system for the carriage of local commercial television stations will be no less than that provided by the system for carriage of any other type of signal.

(B) ADVANCED TELEVISION.—At such time as the Commission prescribes modifications of the standards for television broadcast signals, the Commission shall initiate a proceeding to establish any changes in the signal carriage requirements of cable television systems necessary to en-

sure cable carriage of such broadcast signals of local commercial television stations which have been changed to conform with such modified standards.

(5) **DUPLICATION NOT REQUIRED.**—Notwithstanding paragraph (1), a cable operator shall not be required to carry the signal of any local commercial television station that substantially duplicates the signal of another local commercial television station which is carried on its cable system, or to carry the signals of more than one local commercial television station affiliated with a particular broadcast network (as such term is defined by regulation). If a cable operator elects to carry on its cable system a signal which substantially duplicates the signal of another local commercial television station carried on the cable system, or to carry on its system the signals of more than one local commercial television station affiliated with a particular broadcast network, all such signals shall be counted toward the number of signals the operator is required to carry under paragraph (1).

(6) **CHANNEL POSITIONING.**—Each signal carried in fulfillment of the carriage obligations of a cable operator under this section shall be carried on the cable system channel number on which the local commercial television station is broadcast over the air, or on the channel on which it was carried on July 19, 1985, or on the channel on which it was carried on January 1, 1992, at the election of the station, or on such other channel number as is mutually agreed upon by the station and the cable operator. Any dispute regarding the positioning of a local commercial television station shall be resolved by the Commission.

(7) **SIGNAL AVAILABILITY.**—Signals carried in fulfillment of the requirements of this section shall be provided to every subscriber of a cable system. Such signals shall be viewable via cable on all television receivers of a subscriber which are connected to a cable system by a cable operator or for which a cable operator provides a connection. If a cable operator authorizes subscribers to install additional receiver connections, but does not provide the subscriber with such connections, or with the equipment and materials for such connections, the operator shall notify such subscribers of all broadcast stations carried on the cable system which cannot be viewed via cable without a converter box and shall offer to sell or lease such a converter box to such subscribers at rates in accordance with section 623(b)(3).

(8) **IDENTIFICATION OF SIGNALS CARRIED.**—A cable operator shall identify, upon request by any person, the signals carried on its system in fulfillment of the requirements of this section.

(9) **NOTIFICATION.**—A cable operator shall provide written notice to a local commercial television station at least 30 days prior to either deleting from carriage or repositioning that station. The notification provisions of this paragraph shall not be used to undermine or evade the channel positioning or carriage requirements imposed upon cable operators under this section.

(10) **COMPENSATION FOR CARRIAGE.**—A cable operator shall not accept or request monetary payment or other valuable con-

sideration in exchange either for carriage of local commercial television stations in fulfillment of the requirements of this section or for the channel positioning rights provided to such stations under this section, except that—

(A) any such station may be required to bear the costs associated with delivering a good quality signal or a baseband video signal to the principal headend of the cable system;

(B) a cable operator may accept payments from stations which would be considered distant signals under section 111 of title 17, United States Code, as indemnification for any increased copyright liability resulting from carriage of such signal; and

(C) a cable operator may continue to accept monetary payment or other valuable consideration in exchange for carriage or channel positioning of the signal of any local commercial television station carried in fulfillment of the requirements of this section, through, but not beyond, the date of expiration of an agreement thereon between a cable operator and a local commercial television station entered into prior to June 26, 1990.

(c) **LOW POWER STATION CARRIAGE OBLIGATION.**—

(1) **REQUIREMENT.**—If there are not sufficient signals of full power local commercial television stations to fill the channels set aside under subsection (b)—

(A) a cable operator of a cable system with a capacity of 35 or fewer usable activated channels shall be required to carry one qualified low power station; and

(B) a cable operator of a cable system with a capacity of more than 35 usable activated channels shall be required to carry two qualified low power stations.

(2) **USE OF PUBLIC, EDUCATIONAL, OR GOVERNMENTAL CHANNELS.**—A cable operator required to carry more than one signal of a qualified low power station under this subsection may do so, subject to approval by the franchising authority pursuant to section 611, by placing such additional station on public, educational, or governmental channels not in use for their designated purposes.

(d) **REMEDIES.**—

(1) **COMPLAINTS BY BROADCAST STATIONS.**—Whenever a local commercial television station believes that a cable operator has failed to meet its obligations under this section, such station shall notify the operator, in writing, of the alleged failure and identify its reasons for believing that the cable operator is obligated to carry the signal of such station or has otherwise failed to comply with the channel positioning or repositioning or other requirements of this section. The cable operator shall, within 30 days of such written notification, respond in writing to such notification and either commence to carry the signal of such station in accordance with the terms requested or state its reasons for believing that it is not obligated to carry such signal or is in compliance with the channel positioning and repositioning and other requirements of this section. A local commercial television station that is denied car-

riage or channel positioning or repositioning in accordance with this section by a cable operator may obtain review of such denial by filing a complaint with the Commission. Such complaint shall allege the manner in which such cable operator has failed to meet its obligations and the basis for such allegations.

(2) OPPORTUNITY TO RESPOND.—The Commission shall afford such cable operator an opportunity to present data and arguments to establish that there has been no failure to meet its obligations under this section.

(3) REMEDIAL ACTIONS; DISMISSAL.—Within 120 days after the date a complaint is filed, the Commission shall determine whether the cable operator has met its obligations under this section. If the Commission determines that the cable operator has failed to meet such obligations, the Commission shall order the cable operator to reposition the complaining station or, in the case of an obligation to carry a station, to commence carriage of the station and to continue such carriage for at least 12 months. If the Commission determines that the cable operator has fully met the requirements of this section, it shall dismiss the complaint.

(e) INPUT SELECTOR SWITCH RULES ABOLISHED.—No cable operator shall be required—

(1) to provide or make available any input selector switch as defined in section 76.5(mm) of title 47, Code of Federal Regulations, or any comparable device; or

(2) to provide information to subscribers about input selector switches or comparable devices.

(f) REGULATIONS BY COMMISSION.—Within 180 days after the date of enactment of this section, the Commission shall, following a rulemaking proceeding, issue regulations implementing the requirements imposed by this section. Such implementing regulations shall include necessary revisions to update section 76.51 of title 47 of the Code of Federal Regulations.

(g) SALES PRESENTATIONS AND PROGRAM LENGTH COMMERCIALS.—

(1) CARRIAGE PENDING PROCEEDING.—Pending the outcome of the proceeding under paragraph (2), nothing in this Act shall require a cable operator to carry on any tier, or prohibit a cable operator from carrying on any tier, the signal of any commercial television station or video programming service that is predominantly utilized for the transmission of sales presentations or program length commercials.

(2) PROCEEDING CONCERNING CERTAIN STATIONS.—Within 270 days after the date of enactment of this section, the Commission, notwithstanding prior proceedings to determine whether broadcast television stations that are predominantly utilized for the transmission of sales presentations or program length commercials are serving the public interest, convenience, and necessity, shall complete a proceeding in accordance with this paragraph to determine whether broadcast television stations that are predominantly utilized for the transmission of sales presentations or program length commercials are serving the public interest, convenience, and necessity. In conducting

such proceeding, the Commission shall provide appropriate notice and opportunity for public comment. The Commission shall consider the viewing of such stations, the level of competing demands for the spectrum allocated to such stations, and the role of such stations in providing competition to nonbroadcast services offering similar programming. In the event that the Commission concludes that one or more of such stations are serving the public interest, convenience, and necessity, the Commission shall qualify such stations as local commercial television stations for purposes of subsection (a). In the event that the Commission concludes that one or more of such stations are not serving the public interest, convenience, and necessity, the Commission shall allow the licensees of such stations a reasonable period within which to provide different programming, and shall not deny such stations a renewal expectancy solely because their programming consisted predominantly of sales presentations or program length commercials.

(h) DEFINITIONS.—

(1) LOCAL COMMERCIAL TELEVISION STATION.—

(A) IN GENERAL.—For purposes of this section, the term “local commercial television station” means any full power television broadcast station, other than a qualified noncommercial educational television station within the meaning of section 615(l)(1), licensed and operating on a channel regularly assigned to its community by the Commission that, with respect to a particular cable system, is within the same television market as the cable system.

(B) EXCLUSIONS.—The term “local commercial television station” shall not include—

(i) low power television stations, television translator stations, and passive repeaters which operate pursuant to part 74 of title 47, Code of Federal Regulations, or any successor regulations thereto;

(ii) a television broadcast station that would be considered a distant signal under section 111 of title 17, United States Code, if such station does not agree to indemnify the cable operator for any increased copyright liability resulting from carriage on the cable system; or

(iii) a television broadcast station that does not deliver to the principal headend of a cable system either a signal level of -45dBm for UHF signals or -49dBm for VHF signals at the input terminals of the signal processing equipment, if such station does not agree to be responsible for the costs of delivering to the cable system a signal of good quality or a baseband video signal.

(C) MARKET DETERMINATIONS.—(i) For purposes of this section, a broadcasting station’s market shall be determined by the Commission by regulation or order using, where available, commercial publications which delineate television markets based on viewing patterns, except that, following a written request, the Commission may, with respect to a particular television broadcast station, include

additional communities within its television market or exclude communities from such station's television market to better effectuate the purposes of this section. In considering such requests, the Commission may determine that particular communities are part of more than one television market.

(ii) In considering requests filed pursuant to clause (i), the Commission shall afford particular attention to the value of localism by taking into account such factors as—

(I) whether the station, or other stations located in the same area, have been historically carried on the cable system or systems within such community or on the satellite carrier or carriers serving such community;

(II) whether the television station provides coverage or other local service to such community;

(III) whether modifying the market of the television station would promote consumers' access to television broadcast station signals that originate in their State of residence;

(IV) whether any other television station that is eligible to be carried by a cable system in such community in fulfillment of the requirements of this section provides news coverage of issues of concern to such community or provides carriage or coverage of sporting and other events of interest to the community; and

(V) evidence of viewing patterns in households that subscribe and do not subscribe to the services offered by multichannel video programming distributors within the areas served by such multichannel video programming distributors in such community.

(iii) A cable operator shall not delete from carriage the signal of a commercial television station during the pendency of any proceeding pursuant to this subparagraph.

(iv) Within 120 days after the date on which a request is filed under this subparagraph (or 120 days after the date of enactment of the Telecommunications Act of 1996, if later), the Commission shall grant or deny the request.

(2) **QUALIFIED LOW POWER STATION.**—The term “qualified low power station” means any television broadcast station conforming to the rules established for Low Power Television Stations contained in part 74 of title 47, Code of Federal Regulations, only if—

(A) such station broadcasts for at least the minimum number of hours of operation required by the Commission for television broadcast stations under part 73 of title 47, Code of Federal Regulations;

(B) such station meets all obligations and requirements applicable to television broadcast stations under part 73 of title 47, Code of Federal Regulations, with respect to the broadcast of nonentertainment programming; programming and rates involving political candidates, election issues, controversial issues of public importance, edi-

torials, and personal attacks; programming for children; and equal employment opportunity; and the Commission determines that the provision of such programming by such station would address local news and informational needs which are not being adequately served by full power television broadcast stations because of the geographic distance of such full power stations from the low power station's community of license;

(C) such station complies with interference regulations consistent with its secondary status pursuant to part 74 of title 47, Code of Federal Regulations;

(D) such station is located no more than 35 miles from the cable system's headend, and delivers to the principal headend of the cable system an over-the-air signal of good quality, as determined by the Commission;

(E) the community of license of such station and the franchise area of the cable system are both located outside of the largest 160 Metropolitan Statistical Areas, ranked by population, as determined by the Office of Management and Budget on June 30, 1990, and the population of such community of license on such date did not exceed 35,000; and

(F) there is no full power television broadcast station licensed to any community within the county or other political subdivision (of a State) served by the cable system. Nothing in this paragraph shall be construed to change the secondary status of any low power station as provided in part 74 of title 47, Code of Federal Regulations, as in effect on the date of enactment of this section.

SEC. 615. [47 U.S.C. 535] CARRIAGE OF NONCOMMERCIAL EDUCATIONAL TELEVISION.

(a) CARRIAGE OBLIGATIONS.—In addition to the carriage requirements set forth in section 614, each cable operator of a cable system shall carry the signals of qualified noncommercial educational television stations in accordance with the provisions of this section.

(b) REQUIREMENTS TO CARRY QUALIFIED STATIONS.—

(1) GENERAL REQUIREMENT TO CARRY EACH QUALIFIED STATION.—Subject to paragraphs (2) and (3) and subsection (e), each cable operator shall carry, on the cable system of that cable operator, any qualified local noncommercial educational television station requesting carriage.

(2)(A) SYSTEMS WITH 12 OR FEWER CHANNELS.—Notwithstanding paragraph (1), a cable operator of a cable system with 12 or fewer usable activated channels shall be required to carry the signal of one qualified local noncommercial educational television station; except that a cable operator of such a system shall comply with subsection (c) and may, in its discretion, carry the signals of other qualified noncommercial educational television stations.

(B) In the case of a cable system described in subparagraph (A) which operates beyond the presence of any qualified local noncommercial educational television station—

(i) the cable operator shall import and carry on that system the signal of one qualified noncommercial educational television station;

(ii) the selection for carriage of such a signal shall be at the election of the cable operator; and

(iii) in order to satisfy the requirements for carriage specified in this subsection, the cable operator of the system shall not be required to remove any other programming service actually provided to subscribers on March 29, 1990; except that such cable operator shall use the first channel available to satisfy the requirements of this subparagraph.

(3) SYSTEMS WITH 13 TO 36 CHANNELS.—(A) Subject to subsection (c), a cable operator of a cable system with 13 to 36 usable activated channels—

(i) shall carry the signal of at least one qualified local noncommercial educational television station but shall not be required to carry the signals of more than three such stations, and

(ii) may, in its discretion, carry additional such stations.

(B) In the case of a cable system described in this paragraph which operates beyond the presence of any qualified local noncommercial educational television station, the cable operator shall import and carry on that system the signal of at least one qualified noncommercial educational television station to comply with subparagraph (A)(i).

(C) The cable operator of a cable system described in this paragraph which carries the signal of a qualified local noncommercial educational station affiliated with a State public television network shall not be required to carry the signal of any additional qualified local noncommercial educational television stations affiliated with the same network if the programming of such additional stations is substantially duplicated by the programming of the qualified local noncommercial educational television station receiving carriage.

(D) A cable operator of a system described in this paragraph which increases the usable activated channel capacity of the system to more than 36 channels on or after March 29, 1990, shall, in accordance with the other provisions of this section, carry the signal of each qualified local noncommercial educational television station requesting carriage, subject to subsection (e).

(c) CONTINUED CARRIAGE OF EXISTING STATIONS.—Notwithstanding any other provision of this section, all cable operators shall continue to provide carriage to all qualified local noncommercial educational television stations whose signals were carried on their systems as of March 29, 1990. The requirements of this subsection may be waived with respect to a particular cable operator and a particular such station, upon the written consent of the cable operator and the station.

(d) PLACEMENT OF ADDITIONAL SIGNALS.—A cable operator required to add the signals of qualified local noncommercial educational television stations to a cable system under this section

may do so, subject to approval by the franchising authority pursuant to section 611, by placing such additional stations on public, educational, or governmental channels not in use for their designated purposes.

(e) **SYSTEMS WITH MORE THAN 36 CHANNELS.**—A cable operator of a cable system with a capacity of more than 36 usable activated channels which is required to carry the signals of three qualified local noncommercial educational television stations shall not be required to carry the signals of additional such stations the programming of which substantially duplicates the programming broadcast by another qualified local noncommercial educational television station requesting carriage. Substantial duplication shall be defined by the Commission in a manner that promotes access to distinctive noncommercial educational television services.

(f) **WAIVER OF NONDUPLICATION RIGHTS.**—A qualified local noncommercial educational television station whose signal is carried by a cable operator shall not assert any network nonduplication rights it may have pursuant to section 76.92 of title 47, Code of Federal Regulations, to require the deletion of programs aired on other qualified local noncommercial educational television stations whose signals are carried by that cable operator.

(g) **CONDITIONS OF CARRIAGE.**—

(1) **CONTENT TO BE CARRIED.**—A cable operator shall retransmit in its entirety the primary video, accompanying audio, and line 21 closed caption transmission of each qualified local noncommercial educational television station whose signal is carried on the cable system, and, to the extent technically feasible, program-related material carried in the vertical blanking interval, or on subcarriers, that may be necessary for receipt of programming by handicapped persons or for educational or language purposes. Retransmission of other material in the vertical blanking interval or on subcarriers shall be within the discretion of the cable operator.

(2) **BANDWIDTH AND TECHNICAL QUALITY.**—A cable operator shall provide each qualified local noncommercial educational television station whose signal is carried in accordance with this section with bandwidth and technical capacity equivalent to that provided to commercial television broadcast stations carried on the cable system and shall carry the signal of each qualified local noncommercial educational television station without material degradation.

(3) **CHANGES IN CARRIAGE.**—The signal of a qualified local noncommercial educational television station shall not be repositioned by a cable operator unless the cable operator, at least 30 days in advance of such repositioning, has provided written notice to the station and all subscribers of the cable system. For purposes of this paragraph, repositioning includes (A) assignment of a qualified local noncommercial educational television station to a cable system channel number different from the cable system channel number to which the station was assigned as of March 29, 1990, and (B) deletion of the station from the cable system. The notification provisions of this paragraph shall not be used to undermine or evade the channel po-

sitioning or carriage requirements imposed upon cable operators under this section.

(4) GOOD QUALITY SIGNAL REQUIRED.—Notwithstanding the other provisions of this section, a cable operator shall not be required to carry the signal of any qualified local noncommercial educational television station which does not deliver to the cable system's principal headend a signal of good quality or a baseband video signal, as may be defined by the Commission.

(5) CHANNEL POSITIONING.—Each signal carried in fulfillment of the carriage obligations of a cable operator under this section shall be carried on the cable system channel number on which the qualified local noncommercial educational television station is broadcast over the air, or on the channel on which it was carried on July 19, 1985, at the election of the station, or on such other channel number as is mutually agreed upon by the station and the cable operator. Any dispute regarding the positioning of a qualified local noncommercial educational television station shall be resolved by the Commission.

(h) AVAILABILITY OF SIGNALS.—Signals carried in fulfillment of the carriage obligations of a cable operator under this section shall be available to every subscriber as part of the cable system's lowest priced service tier that includes the retransmission of local commercial television broadcast signals.

(i) PAYMENT FOR CARRIAGE PROHIBITED.—

(1) IN GENERAL.—A cable operator shall not accept monetary payment or other valuable consideration in exchange for carriage of the signal of any qualified local noncommercial educational television station carried in fulfillment of the requirements of this section, except that such a station may be required to bear the cost associated with delivering a good quality signal or a baseband video signal to the principal headend of the cable system.

(2) DISTANT SIGNAL EXCEPTION.—Notwithstanding the provisions of this section, a cable operator shall not be required to add the signal of a qualified local noncommercial educational television station not already carried under the provision of subsection (c), where such signal would be considered a distant signal for copyright purposes unless such station indemnifies the cable operator for any increased copyright costs resulting from carriage of such signal.

(j) REMEDIES.—

(1) COMPLAINT.—Whenever a qualified local noncommercial educational television station believes that a cable operator of a cable system has failed to comply with the signal carriage requirements of this section, the station may file a complaint with the Commission. Such complaint shall allege the manner in which such cable operator has failed to comply with such requirements and state the basis for such allegations.

(2) OPPORTUNITY TO RESPOND.—The Commission shall afford such cable operator an opportunity to present data, views, and arguments to establish that the cable operator has complied with the signal carriage requirements of this section.

(3) REMEDIAL ACTIONS; DISMISSAL.—Within 120 days after the date a complaint is filed under this subsection, the Com-

mission shall determine whether the cable operator has complied with the requirements of this section. If the Commission determines that the cable operator has failed to comply with such requirements, the Commission shall state with particularity the basis for such findings and order the cable operator to take such remedial action as is necessary to meet such requirements. If the Commission determines that the cable operator has fully complied with such requirements, the Commission shall dismiss the complaint.

(k) IDENTIFICATION OF SIGNALS.—A cable operator shall identify, upon request by any person, those signals carried in fulfillment of the requirements of this section.

(l) DEFINITIONS.—For purposes of this section—

(1) QUALIFIED NONCOMMERCIAL EDUCATIONAL TELEVISION STATION.—The term “qualified noncommercial educational television station” means any television broadcast station which—

(A)(i) under the rules and regulations of the Commission in effect on March 29, 1990, is licensed by the Commission as a noncommercial educational television broadcast station and which is owned and operated by a public agency, nonprofit foundation, corporation, or association; and

(ii) has as its licensee an entity which is eligible to receive a community service grant, or any successor grant thereto, from the Corporation for Public Broadcasting, or any successor organization thereto, on the basis of the formula set forth in section 396(k)(6)(B); or

(B) is owned and operated by a municipality and transmits predominantly noncommercial programs for educational purposes.

Such term includes (I) the translator of any noncommercial educational television station with five watts or higher power serving the franchise area, (II) a full-service station or translator if such station or translator is licensed to a channel reserved for noncommercial educational use pursuant to section 73.606 of title 47, Code of Federal Regulations, or any successor regulations thereto, and (III) such stations and translators operating on channels not so reserved as the Commission determines are qualified as noncommercial educational stations.

(2) QUALIFIED LOCAL NONCOMMERCIAL EDUCATIONAL TELEVISION STATION.—The term “qualified local noncommercial educational television station” means a qualified noncommercial educational television station—

(A) which is licensed to a principal community whose reference point, as defined in section 76.53 of title 47, Code of Federal Regulations (as in effect on March 29, 1990), or any successor regulations thereto, is within 50 miles of the principal headend of the cable system; or

(B) whose Grade B service contour, as defined in section 73.683(a) of such title (as in effect on March 29, 1990), or any successor regulations thereto, encompasses the principal headend of the cable system.

SEC. 616. [47 U.S.C. 536] REGULATION OF CARRIAGE AGREEMENTS.

(a) **REGULATIONS.**—Within one year after the date of enactment of this section, the Commission shall establish regulations governing program carriage agreements and related practices between cable operators or other multichannel video programming distributors and video programming vendors. Such regulations shall—

(1) include provisions designed to prevent a cable operator or other multichannel video programming distributor from requiring a financial interest in a program service as a condition for carriage on one or more of such operator's systems;

(2) include provisions designed to prohibit a cable operator or other multichannel video programming distributor from coercing a video programming vendor to provide, and from retaliating against such a vendor for failing to provide, exclusive rights against other multichannel video programming distributors as a condition of carriage on a system;

(3) contain provisions designed to prevent a multichannel video programming distributor from engaging in conduct the effect of which is to unreasonably restrain the ability of an unaffiliated video programming vendor to compete fairly by discriminating in video programming distribution on the basis of affiliation or nonaffiliation of vendors in the selection, terms, or conditions for carriage of video programming provided by such vendors;

(4) provide for expedited review of any complaints made by a video programming vendor pursuant to this section;

(5) provide for appropriate penalties and remedies for violations of this subsection, including carriage; and

(6) provide penalties to be assessed against any person filing a frivolous complaint pursuant to this section.

(b) **DEFINITION.**—As used in this section, the term "video programming vendor" means a person engaged in the production, creation, or wholesale distribution of video programming for sale.

SEC. 617. [47 U.S.C. 537] SALES OF CABLE SYSTEMS.

A franchising authority shall, if the franchise requires franchising authority approval of a sale or transfer, have 120 days to act upon any request for approval of such sale or transfer that contains or is accompanied by such information as is required in accordance with Commission regulations and by the franchising authority. If the franchising authority fails to render a final decision on the request within 120 days, such request shall be deemed granted unless the requesting party and the franchising authority agree to an extension of time.

PART III—FRANCHISING AND REGULATION**SEC. 621. [47 U.S.C. 541] GENERAL FRANCHISE REQUIREMENTS.**

(a)(1) A franchising authority may award, in accordance with the provisions of this title, 1 or more franchises within its jurisdiction; except that a franchising authority may not grant an exclusive franchise and may not unreasonably refuse to award an additional competitive franchise. Any applicant whose application for a second franchise has been denied by a final decision of the fran-

chising authority may appeal such final decision pursuant to the provisions of section 635 for failure to comply with this subsection.

(2) Any franchise shall be construed to authorize the construction of a cable system over public rights-of-way, and through easements, which is within the area to be served by the cable system and which have been dedicated for compatible uses, except that in using such easements the cable operator shall ensure—

(A) that the safety, functioning, and appearance of the property and the convenience and the safety of other persons not be adversely affected by the installation or construction of facilities necessary for a cable system;

(B) that the cost of the installation, construction, operation, or removal of such facilities be borne by the cable operator or subscriber, or a combination of both; and

(C) that the owner of the property be justly compensated by the cable operator for any damages caused by the installation, construction, operation, or removal of such facilities by the cable operator.

(3) In awarding a franchise or franchises, a franchising authority shall assure that access to cable service is not denied to any group of potential residential cable subscribers because of the income of the residents of the local area in which such group resides.

(4) In awarding a franchise, the franchising authority—

(A) shall allow the applicant's cable system a reasonable period of time to become capable of providing cable service to all households in the franchise area;

(B) may require adequate assurance that the cable operator will provide adequate public, educational, and governmental access channel capacity, facilities, or financial support; and

(C) may require adequate assurance that the cable operator has the financial, technical, or legal qualifications to provide cable service.

(b)(1) Except to the extent provided in paragraph (2) and subsection (f), a cable operator may not provide cable service without a franchise.

(2) Paragraph (1) shall not require any person lawfully providing cable service without a franchise on July 1, 1984, to obtain a franchise unless the franchising authority so requires.

(3)(A) If a cable operator or affiliate thereof is engaged in the provision of telecommunications services—

(i) such cable operator or affiliate shall not be required to obtain a franchise under this title for the provision of telecommunications services; and

(ii) the provisions of this title shall not apply to such cable operator or affiliate for the provision of telecommunications services.

(B) A franchising authority may not impose any requirement under this title that has the purpose or effect of prohibiting, limiting, restricting, or conditioning the provision of a telecommunications service by a cable operator or an affiliate thereof.

(C) A franchising authority may not order a cable operator or affiliate thereof—

(i) to discontinue the provision of a telecommunications service, or

(ii) to discontinue the operation of a cable system, to the extent such cable system is used for the provision of a telecommunications service, by reason of the failure of such cable operator or affiliate thereof to obtain a franchise or franchise renewal under this title with respect to the provision of such telecommunications service.

(D) Except as otherwise permitted by sections 611 and 612, a franchising authority may not require a cable operator to provide any telecommunications service or facilities, other than institutional networks, as a condition of the initial grant of a franchise, a franchise renewal, or a transfer of a franchise.

(c) Any cable system shall not be subject to regulation as a common carrier or utility by reason of providing any cable service.

(d)(1) A State or the Commission may require the filing of informational tariffs for any intrastate communications service provided by a cable system, other than cable service, that would be subject to regulation by the Commission or any State if offered by a common carrier subject in whole or in part, to title II of this Act. Such informational tariffs shall specify the rates, terms, and conditions for the provision of such service, including whether it is made available to all subscribers generally, and shall take effect on the date specified therein.

(2) Nothing in this title shall be construed to affect the authority of any State to regulate any cable operator to the extent that such operator provides any communication service other than cable service, whether offered on a common carrier or private contract basis.

(3) For purposes of this subsection, the term "State" has the meaning given it in section 3.

(e) Nothing in this title shall be construed to affect the authority of any State to license or otherwise regulate any facility or combination of facilities which serves only subscribers in one or more multiple unit dwellings under common ownership, control, or management and which does not use any public right-of-way.

(f) No provision of this Act shall be construed to—

(1) prohibit a local or municipal authority that is also, or is affiliated with, a franchising authority from operating as a multichannel video programming distributor in the franchise area, notwithstanding the granting of one or more franchises by such franchising authority; or

(2) require such local or municipal authority to secure a franchise to operate as a multichannel video programming distributor.

SEC. 622. [47 U.S.C. 542] FRANCHISE FEES.

(a) Subject to the limitation of subsection (b), any cable operator may be required under the terms of any franchise to pay a franchise fee.

(b) For any twelve-month period, the franchise fees paid by a cable operator with respect to any cable system shall not exceed 5 percent of such cable operator's gross revenues derived in such period from the operation of the cable system to provide cable serv-

ices. For purposes of this section, the 12-month period shall be the 12-month period applicable under the franchise for accounting purposes. Nothing in this subsection shall prohibit a franchising authority and a cable operator from agreeing that franchise fees which lawfully could be collected for any such 12-month period shall be paid on a prepaid or deferred basis; except that the sum of the fees paid during the term of the franchise may not exceed the amount, including the time value of money, which would have lawfully been collected if such fees had been paid per annum.

(c) Each cable operator may identify, consistent with the regulations prescribed by the Commission pursuant to section 623, as a separate line item on each regular bill of each subscriber, each of the following:

(1) The amount of the total bill assessed as a franchise fee and the identity of the franchising authority to which the fee is paid.

(2) The amount of the total bill assessed to satisfy any requirements imposed on the cable operator by the franchise agreement to support public, educational, or governmental channels or the use of such channels.

(3) The amount of any other fee, tax, assessment, or charge of any kind imposed by any governmental authority on the transaction between the operator and the subscriber.

(d) In any court action under subsection (c), the franchising authority shall demonstrate that the rate structure reflects all costs of the franchise fees.

(e) Any cable operator shall pass through to subscribers the amount of any decrease in a franchise fee.

(f) A cable operator may designate that portion of a subscriber's bill attributable to the franchise fee as a separate item on the bill.

(g) For the purposes of this section—

(1) the term “franchise fee” includes any tax, fee, or assessment of any kind imposed by a franchising authority or other governmental entity on a cable operator or cable subscriber, or both, solely because of their status as such;

(2) the term “franchise fee” does not include—

(A) any tax, fee, or assessment of general applicability (including any such tax, fee, or assessment imposed on both utilities and cable operators or their services but not including a tax, fee, or assessment which is unduly discriminatory against cable operators or cable subscribers);

(B) in the case of any franchise in effect on the date of the enactment of this title, payments which are required by the franchise to be made by the cable operator during the term of such franchise for, or in support of the use of, public, educational, or governmental access facilities;

(C) in the case of any franchise granted after such date of enactment, capital costs which are required by the franchise to be incurred by the cable operator for public, educational, or governmental access facilities;

(D) requirements or charges incidental to the awarding or enforcing of the franchise, including payments for

bonds, security funds, letters of credit, insurance, indemnification, penalties, or liquidated damages; or

(E) any fee imposed under title 17, United States Code.

(h)(1) Nothing in this Act shall be construed to limit any authority of a franchising authority to impose a tax, fee, or other assessment of any kind on any person (other than a cable operator) with respect to cable service or other communications service provided by such person over a cable system for which charges are assessed to subscribers but not received by the cable operator.

(2) For any 12-month period, the fees paid by such person with respect to any such cable service or other communications service shall not exceed 5 percent of such person's gross revenues derived in such period from the provision of such service over the cable system.

(i) Any Federal agency may not regulate the amount of the franchise fees paid by a cable operator, or regulate the use of funds derived from such fees, except as provided in this section.

SEC. 623. [47 U.S.C. 543] REGULATION OF RATES.

(a) COMPETITION PREFERENCE; LOCAL AND FEDERAL REGULATION.—

(1) IN GENERAL.—No Federal agency or State may regulate the rates for the provision of cable service except to the extent provided under this section and section 612. Any franchising authority may regulate the rates for the provision of cable service, or any other communications service provided over a cable system to cable subscribers, but only to the extent provided under this section. No Federal agency, State, or franchising authority may regulate the rates for cable service of a cable system that is owned or operated by a local government or franchising authority within whose jurisdiction that cable system is located and that is the only cable system located within such jurisdiction.

(2) PREFERENCE FOR COMPETITION.—If the Commission finds that a cable system is subject to effective competition, the rates for the provision of cable service by such system shall not be subject to regulation by the Commission or by a State or franchising authority under this section. If the Commission finds that a cable system is not subject to effective competition—

(A) the rates for the provision of basic cable service shall be subject to regulation by a franchising authority, or by the Commission if the Commission exercises jurisdiction pursuant to paragraph (6), in accordance with the regulations prescribed by the Commission under subsection (b); and

(B) the rates for cable programming services shall be subject to regulation by the Commission under subsection (c).

(3) QUALIFICATION OF FRANCHISING AUTHORITY.—A franchising authority that seeks to exercise the regulatory jurisdiction permitted under paragraph (2)(A) shall file with the Commission a written certification that—

(A) the franchising authority will adopt and administer regulations with respect to the rates subject to regulation under this section that are consistent with the regulations prescribed by the Commission under subsection (b);

(B) the franchising authority has the legal authority to adopt, and the personnel to administer, such regulations; and

(C) procedural laws and regulations applicable to rate regulation proceedings by such authority provide a reasonable opportunity for consideration of the views of interested parties.

(4) APPROVAL BY COMMISSION.—A certification filed by a franchising authority under paragraph (3) shall be effective 30 days after the date on which it is filed unless the Commission finds, after notice to the authority and a reasonable opportunity for the authority to comment, that—

(A) the franchising authority has adopted or is administering regulations with respect to the rates subject to regulation under this section that are not consistent with the regulations prescribed by the Commission under subsection (b);

(B) the franchising authority does not have the legal authority to adopt, or the personnel to administer, such regulations; or

(C) procedural laws and regulations applicable to rate regulation proceedings by such authority do not provide a reasonable opportunity for consideration of the views of interested parties.

If the Commission disapproves a franchising authority's certification, the Commission shall notify the franchising authority of any revisions or modifications necessary to obtain approval.

(5) REVOCATION OF JURISDICTION.—Upon petition by a cable operator or other interested party, the Commission shall review the regulation of cable system rates by a franchising authority under this subsection. A copy of the petition shall be provided to the franchising authority by the person filing the petition. If the Commission finds that the franchising authority has acted inconsistently with the requirements of this subsection, the Commission shall grant appropriate relief. If the Commission, after the franchising authority has had a reasonable opportunity to comment, determines that the State and local laws and regulations are not in conformance with the regulations prescribed by the Commission under subsection (b), the Commission shall revoke the jurisdiction of such authority.

(6) EXERCISE OF JURISDICTION BY COMMISSION.—If the Commission disapproves a franchising authority's certification under paragraph (4), or revokes such authority's jurisdiction under paragraph (5), the Commission shall exercise the franchising authority's regulatory jurisdiction under paragraph (2)(A) until the franchising authority has qualified to exercise that jurisdiction by filing a new certification that meets the requirements of paragraph (3). Such new certification shall be effective upon approval by the Commission. The Commission

shall act to approve or disapprove any such new certification within 90 days after the date it is filed.

(7) AGGREGATION OF EQUIPMENT COSTS.—

(A) IN GENERAL.—The Commission shall allow cable operators, pursuant to any rules promulgated under subsection (b)(3), to aggregate, on a franchise, system, regional, or company level, their equipment costs into broad categories, such as converter boxes, regardless of the varying levels of functionality of the equipment within each such broad category. Such aggregation shall not be permitted with respect to equipment used by subscribers who receive only a rate regulated basic service tier.

(B) REVISION TO COMMISSION RULES; FORMS.—Within 120 days of the date of enactment of the Telecommunications Act of 1996, the Commission shall issue revisions to the appropriate rules and forms necessary to implement subparagraph (A).

(b) ESTABLISHMENT OF BASIC SERVICE TIER RATE REGULATIONS.—

(1) COMMISSION OBLIGATION TO SUBSCRIBERS.—The Commission shall, by regulation, ensure that the rates for the basic service tier are reasonable. Such regulations shall be designed to achieve the goal of protecting subscribers of any cable system that is not subject to effective competition from rates for the basic service tier that exceed the rates that would be charged for the basic service tier if such cable system were subject to effective competition.

(2) COMMISSION REGULATIONS.—Within 180 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, the Commission shall prescribe, and periodically thereafter revise, regulations to carry out its obligations under paragraph (1). In prescribing such regulations, the Commission—

(A) shall seek to reduce the administrative burdens on subscribers, cable operators, franchising authorities, and the Commission;

(B) may adopt formulas or other mechanisms and procedures in complying with the requirements of subparagraph (A); and

(C) shall take into account the following factors:

(i) the rates for cable systems, if any, that are subject to effective competition;

(ii) the direct costs (if any) of obtaining, transmitting, and otherwise providing signals carried on the basic service tier, including signals and services carried on the basic service tier pursuant to paragraph (7)(B), and changes in such costs;

(iii) only such portion of the joint and common costs (if any) of obtaining, transmitting, and otherwise providing such signals as is determined, in accordance with regulations prescribed by the Commission, to be reasonably and properly allocable to the basic service tier, and changes in such costs;

(iv) the revenues (if any) received by a cable operator from advertising from programming that is carried as part of the basic service tier or from other consideration obtained in connection with the basic service tier;

(v) the reasonably and properly allocable portion of any amount assessed as a franchise fee, tax, or charge of any kind imposed by any State or local authority on the transactions between cable operators and cable subscribers or any other fee, tax, or assessment of general applicability imposed by a governmental entity applied against cable operators or cable subscribers;

(vi) any amount required, in accordance with paragraph (4), to satisfy franchise requirements to support public, educational, or governmental channels or the use of such channels or any other services required under the franchise; and

(vii) a reasonable profit, as defined by the Commission consistent with the Commission's obligations to subscribers under paragraph (1).

(3) EQUIPMENT.—The regulations prescribed by the Commission under this subsection shall include standards to establish, on the basis of actual cost, the price or rate for—

(A) installation and lease of the equipment used by subscribers to receive the basic service tier, including a converter box and a remote control unit and, if requested by the subscriber, such addressable converter box or other equipment as is required to access programming described in paragraph (8); and

(B) installation and monthly use of connections for additional television receivers.

(4) COSTS OF FRANCHISE REQUIREMENTS.—The regulations prescribed by the Commission under this subsection shall include standards to identify costs attributable to satisfying franchise requirements to support public, educational, and governmental channels or the use of such channels or any other services required under the franchise.

(5) IMPLEMENTATION AND ENFORCEMENT.—The regulations prescribed by the Commission under this subsection shall include additional standards, guidelines, and procedures concerning the implementation and enforcement of such regulations, which shall include—

(A) procedures by which cable operators may implement and franchising authorities may enforce the regulations prescribed by the Commission under this subsection;

(B) procedures for the expeditious resolution of disputes between cable operators and franchising authorities concerning the administration of such regulations;

(C) standards and procedures to prevent unreasonable charges for changes in the subscriber's selection of services or equipment subject to regulation under this section, which standards shall require that charges for changing the service tier selected shall be based on the cost of such

change and shall not exceed nominal amounts when the system's configuration permits changes in service tier selection to be effected solely by coded entry on a computer terminal or by other similarly simple method; and

(D) standards and procedures to assure that subscribers receive notice of the availability of the basic service tier required under this section.

(6) NOTICE.—The procedures prescribed by the Commission pursuant to paragraph (5)(A) shall require a cable operator to provide 30 days' advance notice to a franchising authority of any increase proposed in the price to be charged for the basic service tier.

(7) COMPONENTS OF BASIC TIER SUBJECT TO RATE REGULATION.—

(A) MINIMUM CONTENTS.—Each cable operator of a cable system shall provide its subscribers a separately available basic service tier to which subscription is required for access to any other tier of service. Such basic service tier shall, at a minimum, consist of the following:

(i) All signals carried in fulfillment of the requirements of sections 614 and 615.

(ii) Any public, educational, and governmental access programming required by the franchise of the cable system to be provided to subscribers.

(iii) Any signal of any television broadcast station that is provided by the cable operator to any subscriber, except a signal which is secondarily transmitted by a satellite carrier beyond the local service area of such station.

(B) PERMITTED ADDITIONS TO BASIC TIER.—A cable operator may add additional video programming signals or services to the basic service tier. Any such additional signals or services provided on the basic service tier shall be provided to subscribers at rates determined under the regulations prescribed by the Commission under this subsection.

(8) BUY-THROUGH OF OTHER TIERS PROHIBITED.—

(A) PROHIBITION.—A cable operator may not require the subscription to any tier other than the basic service tier required by paragraph (7) as a condition of access to video programming offered on a per channel or per program basis. A cable operator may not discriminate between subscribers to the basic service tier and other subscribers with regard to the rates charged for video programming offered on a per channel or per program basis.

(B) EXCEPTION; LIMITATION.—The prohibition in subparagraph (A) shall not apply to a cable system that, by reason of the lack of addressable converter boxes or other technological limitations, does not permit the operator to offer programming on a per channel or per program basis in the same manner required by subparagraph (A). This subparagraph shall not be available to any cable operator after—

(i) the technology utilized by the cable system is modified or improved in a way that eliminates such technological limitation; or

(ii) 10 years after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, subject to subparagraph (C).

(C) WAIVER.—If, in any proceeding initiated at the request of any cable operator, the Commission determines that compliance with the requirements of subparagraph (A) would require the cable operator to increase its rates, the Commission may, to the extent consistent with the public interest, grant such cable operator a waiver from such requirements for such specified period as the Commission determines reasonable and appropriate.

(c) REGULATION OF UNREASONABLE RATES.—

(1) COMMISSION REGULATIONS.—Within 180 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, the Commission shall, by regulation, establish the following:

(A) criteria prescribed in accordance with paragraph (2) for identifying, in individual cases, rates for cable programming services that are unreasonable;

(B) fair and expeditious procedures for the receipt, consideration, and resolution of complaints from any franchising authority (in accordance with paragraph (3)) alleging that a rate for cable programming services charged by a cable operator violates the criteria prescribed under subparagraph (A), which procedures shall include the minimum showing that shall be required for a complaint to obtain Commission consideration and resolution of whether the rate in question is unreasonable; and

(C) the procedures to be used to reduce rates for cable programming services that are determined by the Commission to be unreasonable and to refund such portion of the rates or charges that were paid by subscribers after the filing of the first complaint filed with the franchising authority under paragraph (3) and that are determined to be unreasonable.

(2) FACTORS TO BE CONSIDERED.—In establishing the criteria for determining in individual cases whether rates for cable programming services are unreasonable under paragraph (1)(A), the Commission shall consider, among other factors—

(A) the rates for similarly situated cable systems offering comparable cable programming services, taking into account similarities in facilities, regulatory and governmental costs, the number of subscribers, and other relevant factors;

(B) the rates for cable systems, if any, that are subject to effective competition;

(C) the history of the rates for cable programming services of the system, including the relationship of such rates to changes in general consumer prices;

(D) the rates, as a whole, for all the cable programming, cable equipment, and cable services provided by the

system, other than programming provided on a per channel or per program basis;

(E) capital and operating costs of the cable system, including the quality and costs of the customer service provided by the cable system; and

(F) the revenues (if any) received by a cable operator from advertising from programming that is carried as part of the service for which a rate is being established, and changes in such revenues, or from other consideration obtained in connection with the cable programming services concerned.

(3) REVIEW OF RATE CHANGES.—The Commission shall review any complaint submitted by a franchising authority after the date of enactment of the Telecommunications Act of 1996 concerning an increase in rates for cable programming services and issue a final order within 90 days after it receives such a complaint, unless the parties agree to extend the period for such review. A franchising authority may not file a complaint under this paragraph unless, within 90 days after such increase becomes effective it receives subscriber complaints.

(4) SUNSET OF UPPER TIER RATE REGULATION.—This subsection shall not apply to cable programming services provided after March 31, 1999.

(d) UNIFORM RATE STRUCTURE REQUIRED.—A cable operator shall have a rate structure, for the provision of cable service, that is uniform throughout the geographic area in which cable service is provided over its cable system. This subsection does not apply to (1) a cable operator with respect to the provision of cable service over its cable system in any geographic area in which the video programming services offered by the operator in that area are subject to effective competition, or (2) any video programming offered on a per channel or per program basis. Bulk discounts to multiple dwelling units shall not be subject to this subsection, except that a cable operator of a cable system that is not subject to effective competition may not charge predatory prices to a multiple dwelling unit. Upon a prima facie showing by a complainant that there are reasonable grounds to believe that the discounted price is predatory, the cable system shall have the burden of showing that its discounted price is not predatory.

(e) DISCRIMINATION; SERVICES FOR THE HEARING IMPAIRED.—Nothing in this title shall be construed as prohibiting any Federal agency, State, or a franchising authority from—

(1) prohibiting discrimination among subscribers and potential subscribers to cable service, except that no Federal agency, State, or franchising authority may prohibit a cable operator from offering reasonable discounts to senior citizens or other economically disadvantaged group discounts; or

(2) requiring and regulating the installation or rental of equipment which facilitates the reception of cable service by hearing impaired individuals.

(f) NEGATIVE OPTION BILLING PROHIBITED.—A cable operator shall not charge a subscriber for any service or equipment that the subscriber has not affirmatively requested by name. For purposes of this subsection, a subscriber's failure to refuse a cable operator's

proposal to provide such service or equipment shall not be deemed to be an affirmative request for such service or equipment.

(g) **COLLECTION OF INFORMATION.**—The Commission shall, by regulation, require cable operators to file with the Commission or a franchising authority, as appropriate, within one year after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992 and annually thereafter, such financial information as may be needed for purposes of administering and enforcing this section.

(h) **PREVENTION OF EVASIONS.**—Within 180 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, the Commission shall, by regulation, establish standards, guidelines, and procedures to prevent evasions, including evasions that result from retiering, of the requirements of this section and shall, thereafter, periodically review and revise such standards, guidelines, and procedures.

(i) **SMALL SYSTEM BURDENS.**—In developing and prescribing regulations pursuant to this section, the Commission shall design such regulations to reduce the administrative burdens and cost of compliance for cable systems that have 1,000 or fewer subscribers.

(j) **RATE REGULATION AGREEMENTS.**—During the term of an agreement made before July 1, 1990, by a franchising authority and a cable operator providing for the regulation of basic cable service rates, where there was not effective competition under Commission rules in effect on that date, nothing in this section (or the regulations thereunder) shall abridge the ability of such franchising authority to regulate rates in accordance with such an agreement.

(k) **REPORTS ON AVERAGE PRICES.**—

(1) **IN GENERAL.**—The Commission shall publish with its report under section 13 statistical reports on the average rates for basic cable service and other cable programming, and for converter boxes, remote control units, and other equipment of cable systems that the Commission has found are subject to effective competition under subsection (a)(2) compared with cable systems that the Commission has found are not subject to such effective competition.

(2) **INCLUSION IN REPORT.**—

(A) **IN GENERAL.**—The Commission shall include in its report under paragraph (1) the aggregate average total amount paid by cable systems in compensation under section 325.

(B) **FORM.**—The Commission shall publish information under this paragraph in a manner substantially similar to the way other comparable information is published in such report.

(l) **DEFINITIONS.**—As used in this section—

(1) The term “effective competition” means that—

(A) fewer than 30 percent of the households in the franchise area subscribe to the cable service of a cable system;

(B) the franchise area is—

(i) served by at least two unaffiliated multi-channel video programming distributors each of which

offers comparable video programming to at least 50 percent of the households in the franchise area; and

(ii) the number of households subscribing to programming services offered by multichannel video programming distributors other than the largest multichannel video programming distributor exceeds 15 percent of the households in the franchise area;

(C) a multichannel video programming distributor operated by the franchising authority for that franchise area offers video programming to at least 50 percent of the households in that franchise area; or

(D) a local exchange carrier or its affiliate (or any multichannel video programming distributor using the facilities of such carrier or its affiliate) offers video programming services directly to subscribers by any means (other than direct-to-home satellite services) in the franchise area of an unaffiliated cable operator which is providing cable service in that franchise area, but only if the video programming services so offered in that area are comparable to the video programming services provided by the unaffiliated cable operator in that area.

(2) The term “cable programming service” means any video programming provided over a cable system, regardless of service tier, including installation or rental of equipment used for the receipt of such video programming, other than (A) video programming carried on the basic service tier, and (B) video programming offered on a per channel or per program basis.

(m) SPECIAL RULES FOR SMALL COMPANIES.—

(1) IN GENERAL.—Subsections (a), (b), and (c) do not apply to a small cable operator with respect to—

(A) cable programming services, or

(B) a basic service tier that was the only service tier subject to regulation as of December 31, 1994, in any franchise area in which that operator services 50,000 or fewer subscribers.

(2) DEFINITION OF SMALL CABLE OPERATOR.—For purposes of this subsection, the term “small cable operator” means a cable operator that, directly or through an affiliate, serves in the aggregate fewer than 1 percent of all subscribers in the United States and is not affiliated with any entity or entities whose gross annual revenues in the aggregate exceed \$250,000,000.

(n) TREATMENT OF PRIOR YEAR LOSSES.—Notwithstanding any other provision of this section or of section 612, losses associated with a cable system (including losses associated with the grant or award of a franchise) that were incurred prior to September 4, 1992, with respect to a cable system that is owned and operated by the original franchisee of such system shall not be disallowed, in whole or in part, in the determination of whether the rates for any tier of service or any type of equipment that is subject to regulation under this section are lawful.

(o) STREAMLINED PETITION PROCESS FOR SMALL CABLE OPERATORS.—

(1) IN GENERAL.—Not later than 180 days after the date of the enactment of this subsection, the Commission shall complete a rulemaking to establish a streamlined process for filing of an effective competition petition pursuant to this section for small cable operators, particularly those who serve primarily rural areas.

(2) CONSTRUCTION.—Nothing in this subsection shall be construed to have any effect on the duty of a small cable operator to prove the existence of effective competition under this section.

(3) DEFINITION OF SMALL CABLE OPERATOR.—In this subsection, the term “small cable operator” has the meaning given the term in subsection (m)(2).

SEC. 624. [47 U.S.C. 544] REGULATION OF SERVICES, FACILITIES, AND EQUIPMENT.

(a) Any franchising authority may not regulate the services, facilities, and equipment provided by a cable operator except to the extent consistent with this title.

(b) In the case of any franchise granted after the effective date of this title, the franchising authority, to the extent related to the establishment or operation of a cable system—

(1) in its request for proposals for a franchise (including requests for renewal proposals, subject to section 626), may establish requirements for facilities and equipment, but may not, except as provided in subsection (h), establish requirements for video programming or other information services; and

(2) subject to section 625, may enforce any requirements contained within the franchise—

(A) for facilities and equipment; and

(B) for broad categories of video programming or other services.

(c) In the case of any franchise in effect on the effective date of this title, the franchising authority may, subject to section 625, enforce requirements contained within the franchise for the provision of services, facilities, and equipment, whether or not related to the establishment or operation of a cable system.

(d)(1) Nothing in this title shall be construed as prohibiting a franchising authority and a cable operator from specifying, in a franchise or renewal thereof, that certain cable services shall not be provided or shall be provided subject to conditions, if such cable services are obscene or are otherwise unprotected by the Constitution of the United States.

(2) In order to restrict the viewing of⁵³ programming which is obscene or indecent, upon the request of a subscriber, a cable operator shall provide (by sale or lease) a device by which the subscriber can prohibit viewing of⁵³ a particular cable service during periods selected by that subscriber.⁵⁴

(3)(A) If a cable operator provides a premium channel without charge to cable subscribers who do not subscribe to such premium

⁵³The amendments made by section 303(a)(23) and section 304(a)(11) of Public Law 103-414 (108 Stat. 4295 and 4297) added the word “of” several times.

⁵⁴This compilation executes amendments contained in section 304(a)(12)(A) and (B) of the Communications Assistance for Law Enforcement Act (P.L. 103-414) even though such section referred to section 624(d)(2)(B) of the Communications Act of 1934.

channel, the cable operator shall, not later than 30 days before such premium channel is provided without charge—

(i) notify all cable subscribers that the cable operator plans to provide a premium channel without charge;

(ii) notify all cable subscribers when the cable operator plans to offer a premium channel without charge;

(iii) notify all cable subscribers that they have a right to request that the channel carrying the premium channel be blocked; and

(iv) block the channel carrying the premium channel upon the request of a subscriber.

(B) For the purpose of this section, the term “premium channel” shall mean any pay service offered on a per channel or per program basis, which offers movies rated by the Motion Picture Association of America as X, NC-17, or R.

(e) Within one year after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, the Commission shall prescribe regulations which establish minimum technical standards relating to cable systems’ technical operation and signal quality. The Commission shall update such standards periodically to reflect improvements in technology. No State or franchising authority may prohibit, condition, or restrict a cable system’s use of any type of subscriber equipment or any transmission technology.

(f)(1) Any Federal agency, State, or franchising authority may not impose requirements regarding the provision or content of cable services, except as expressly provided in this title.

(2) Paragraph (1) shall not apply to—

(A) any rule, regulation, or order issued under any Federal law, as such rule, regulation, or order (i) was in effect on September 21, 1983, or (ii) may be amended after such date if the rule, regulation, or order as amended is not inconsistent with the express provisions of this title; and

(B) any rule, regulation, or order under title 17, United States Code.

(g) Notwithstanding any such rule, regulation, or order, each cable operator shall comply with such standards as the Commission shall prescribe to ensure that viewers of video programming on cable systems are afforded the same emergency information as is afforded by the emergency broadcasting system pursuant to Commission regulations in subpart G of part 73, title 47, Code of Federal Regulations.

(h) A franchising authority may require a cable operator to do any one or more of the following:

(1) Provide 30 days’ advance written notice of any change in channel assignment or in the video programming service provided over any such channel.

(2) Inform subscribers, via written notice, that comments on programming and channel position changes are being recorded by a designated office of the franchising authority.

(i) Within 120 days after the date of enactment of this subsection, the Commission shall prescribe rules concerning the disposition, after a subscriber to a cable system terminates service, of

any cable installed by the cable operator within the premises of such subscriber.

SEC. 624A. [47 U.S.C. 544a] CONSUMER ELECTRONICS EQUIPMENT COMPATIBILITY.

(a) **FINDINGS.**—The Congress finds that—

(1) new and recent models of television receivers and video cassette recorders often contain premium features and functions that are disabled or inhibited because of cable scrambling, encoding, or encryption technologies and devices, including converter boxes and remote control devices required by cable operators to receive programming;

(2) if these problems are allowed to persist, consumers will be less likely to purchase, and electronics equipment manufacturers will be less likely to develop, manufacture, or offer for sale, television receivers and video cassette recorders with new and innovative features and functions;

(3) cable operators should use technologies that will prevent signal thefts while permitting consumers to benefit from such features and functions in such receivers and recorders; and

(4) compatibility among televisions, video cassette recorders, and cable systems can be assured with narrow technical standards that mandate a minimum degree of common design and operation, leaving all features, functions, protocols, and other product and service options for selection through open competition in the market.

(b) **COMPATIBLE INTERFACES.**—

(1) **REGULATIONS.**—The Commission shall issue such regulations as are necessary to assure compatibility between televisions and video cassette recorders and cable systems, consistent with the need to prevent theft of cable service, so that cable subscribers will be able to enjoy the full benefit of both the programming available on cable systems and the functions available on their televisions and video cassette recorders.

(2) **SCRAMBLING AND ENCRYPTION.**—In issuing the regulations referred to in paragraph (1), the Commission shall determine whether and, if so, under what circumstances to permit cable systems to scramble or encrypt signals or to restrict cable systems in the manner in which they encrypt or scramble signals, except that the Commission shall not limit the use of scrambling or encryption technology where the use of such technology does not interfere with the functions of subscribers' television receivers or video cassette recorders.

(c) **RULEMAKING REQUIREMENTS.**—

(1) **FACTORS TO BE CONSIDERED.**—In prescribing the regulations required by this section, the Commission shall consider—

(A) the need to maximize open competition in the market for all features, functions, protocols, and other product and service options of converter boxes and other cable converters unrelated to the descrambling or decryption of cable television signals;

(B) the costs and benefits to consumers of imposing compatibility requirements on cable operators and tele-

vision manufacturers in a manner that, while providing effective protection against theft or unauthorized reception of cable service, will minimize interference with or nullification of the special functions of subscribers' television receivers or video cassette recorders, including functions that permit the subscriber—

(i) to watch a program on one channel while simultaneously using a video cassette recorder to tape a program on another channel;

(ii) to use a video cassette recorder to tape two consecutive programs that appear on different channels; and

(iii) to use advanced television picture generation and display features; and

(C) the need for cable operators to protect the integrity of the signals transmitted by the cable operator against theft or to protect such signals against unauthorized reception.

(2) REGULATIONS REQUIRED.—The regulations prescribed by the Commission under this section shall include such regulations as are necessary—

(A) to specify the technical requirements with which a television receiver or video cassette recorder must comply in order to be sold as “cable compatible” or “cable ready”;

(B) to require cable operators offering channels whose reception requires a converter box—

(i) to notify subscribers that they may be unable to benefit from the special functions of their television receivers and video cassette recorders, including functions that permit subscribers—

(I) to watch a program on one channel while simultaneously using a video cassette recorder to tape a program on another channel;

(II) to use a video cassette recorder to tape two consecutive programs that appear on different channels; and

(III) to use advanced television picture generation and display features; and

(ii) to the extent technically and economically feasible, to offer subscribers the option of having all other channels delivered directly to the subscribers' television receivers or video cassette recorders without passing through the converter box;

(C) to promote the commercial availability, from cable operators and retail vendors that are not affiliated with cable systems, of converter boxes and of remote control devices compatible with converter boxes;

(D) to ensure that any standards or regulations developed under the authority of this section to ensure compatibility between televisions, video cassette recorders, and cable systems do not affect features, functions, protocols, and other product and service options other than those specified in paragraph (1)(B), including telecommuni-

cations interface equipment, home automation communications, and computer network services;

(E) to require a cable operator who offers subscribers the option of renting a remote control unit—

(i) to notify subscribers that they may purchase a commercially available remote control device from any source that sells such devices rather than renting it from the cable operator; and

(ii) to specify the types of remote control units that are compatible with the converter box supplied by the cable operator; and

(F) to prohibit a cable operator from taking any action that prevents or in any way disables the converter box supplied by the cable operator from operating compatibly with commercially available remote control units.

(d) REVIEW OF REGULATIONS.—The Commission shall periodically review and, if necessary, modify the regulations issued pursuant to this section in light of any actions taken in response to such regulations and to reflect improvements and changes in cable systems, television receivers, video cassette recorders, and similar technology.

SEC. 625. [47 U.S.C. 545] MODIFICATION OF FRANCHISE OBLIGATIONS.

(a)(1) During the period a franchise is in effect, the cable operator may obtain from the franchising authority modifications of the requirements in such franchise—

(A) in the case of any such requirement for facilities or equipment, including public, educational, or governmental access facilities or equipment, if the cable operator demonstrates that (i) it is commercially impracticable for the operator to comply with such requirement, and (ii) the proposal by the cable operator for modification of such requirement is appropriate because of commercial impracticability; or

(B) in the case of any such requirement for services, if the cable operator demonstrates that the mix, quality, and level of services required by the franchise at the time it was granted will be maintained after such modification.

(2) Any final decision by a franchising authority under this subsection shall be made in a public proceeding. Such decision shall be made within 120 days after receipt of such request by the franchising authority, unless such 120-day period is extended by mutual agreement of the cable operator and the franchising authority.

(b)(1) Any cable operator whose request for modification under subsection (a) has been denied by a final decision of a franchising authority may obtain modification of such franchise requirements pursuant to the provisions of section 635.

(2) In the case of any proposed modification of a requirement for facilities or equipment, the court shall grant such modification only if the cable operator demonstrates to the court that—

(A) it is commercially impracticable for the operator to comply with such requirement; and

(B) the terms of the modification requested are appropriate because of commercial impracticability.

(3) In the case of any proposed modification of a requirement for services, the court shall grant such modification only if the cable operator demonstrates to the court that the mix, quality, and level of services required by the franchise at the time it was granted will be maintained after such modification.

(c) Notwithstanding subsections (a) and (b), a cable operator may, upon 30 days' advance notice to the franchising authority, rearrange, replace, or remove a particular cable service required by the franchise if—

- (1) such service is no longer available to the operator; or
- (2) such service is available to the operator only upon the payment of a royalty required under section 801(b)(2) of title 17, United States Code, which the cable operator can document—

(A) is substantially in excess of the amount of such payment required on the date of the operator's offer to provide such service, and

(B) has not been specifically compensated for through a rate increase or other adjustment.

(d) Notwithstanding subsections (a) and (b), a cable operator may take such actions to rearrange a particular service from one service tier to another, or otherwise offer the service, if the rates for all of the service tiers involved in such actions are not subject to regulation under section 623.

(e) A cable operator may not obtain modification under this section of any requirement for services relating to public, educational, or governmental access.

(f) For purposes of this section, the term "commercially impracticable" means, with respect to any requirement applicable to a cable operator, that it is commercially impracticable for the operator to comply with such requirement as a result of a change in conditions which is beyond the control of the operator and the non-occurrence of which was a basic assumption on which the requirement was based.

SEC. 626. [47 U.S.C. 546] RENEWAL.

(a)(1) A franchising authority may, on its own initiative during the 6-month period which begins with the 36th month before the franchise expiration, commence a proceeding which affords the public in the franchise area appropriate notice and participation for the purpose of (A) identifying the future cable-related community needs and interests, and (B) reviewing the performance of the cable operator under the franchise during the then current franchise term. If the cable operator submits, during such 6-month period, a written renewal notice requesting the commencement of such a proceeding, the franchising authority shall commence such a proceeding not later than 6 months after the date such notice is submitted.

(2) The cable operator may not invoke the renewal procedures set forth in subsections (b) through (g) unless—

(A) such a proceeding is requested by the cable operator by timely submission of such notice; or

(B) such a proceeding is commenced by the franchising authority on its own initiative.

(b)(1) Upon completion of a proceeding under subsection (a), a cable operator seeking renewal of a franchise may, on its own initiative or at the request of a franchising authority, submit a proposal for renewal.

(2) Subject to section 624, any such proposal shall contain such material as the franchising authority may require, including proposals for an upgrade of the cable system.

(3) The franchising authority may establish a date by which such proposal shall be submitted.

(c)(1) Upon submittal by a cable operator of a proposal to the franchising authority for the renewal of a franchise pursuant to subsection (b), the franchising authority shall provide prompt public notice of such proposal and, during the 4-month period which begins on the date of the submission of the cable operator's proposal pursuant to subsection (b), renew the franchise or, issue a preliminary assessment that the franchise should not be renewed and, at the request of the operator or on its own initiative, commence an administrative proceeding, after providing prompt public notice of such proceeding, in accordance with paragraph (2) to consider whether—

(A) the cable operator has substantially complied with the material terms of the existing franchise and with applicable law;

(B) the quality of the operator's service, including signal quality, response to consumer complaints, and billing practices, but without regard to the mix or quality of cable services or other services provided over the system, has been reasonable in light of community needs;

(C) the operator has the financial, legal, and technical ability to provide the services, facilities, and equipment as set forth in the operator's proposal; and

(D) the operator's proposal is reasonable to meet the future cable-related community needs and interests, taking into account the cost of meeting such needs and interests.

(2) In any proceeding under paragraph (1), the cable operator shall be afforded adequate notice and the cable operator and the franchise authority, or its designee, shall be afforded fair opportunity for full participation, including the right to introduce evidence (including evidence related to issues raised in the proceeding under subsection (a)), to require the production of evidence, and to question witnesses. A transcript shall be made of any such proceeding.

(3) At the completion of a proceeding under this subsection, the franchising authority shall issue a written decision granting or denying the proposal for renewal based upon the record of such proceeding, and transmit a copy of such decision to the cable operator. Such decision shall state the reasons therefor.

(d) Any denial of a proposal for renewal that has been submitted in compliance with subsection (b) shall be based on one or more adverse findings made with respect to the factors described in subparagraphs (A) through (D) of subsection (c)(1), pursuant to the record of the proceeding under subsection (c). A franchising authority may not base a denial of renewal on a failure to substantially comply with the material terms of the franchise under sub-

section (c)(1)(A) or on events considered under subsection (c)(1)(B) in any case in which a violation of the franchise or the events considered under subsection (c)(1)(B) occur after the effective date of this title unless the franchising authority has provided the operator with notice and the opportunity to cure, or in any case in which it is documented that the franchising authority has waived its right to object, or the cable operator gives written notice of a failure or inability to cure and the franchising authority fails to object within a reasonable time after receipt of such notice.

(e)(1) Any cable operator whose proposal for renewal has been denied by a final decision of a franchising authority made pursuant to this section, or has been adversely affected by a failure of the franchising authority to act in accordance with the procedural requirements of this section, may appeal such final decision or failure pursuant to the provisions of section 635.

(2) The court shall grant appropriate relief if the court finds that—

(A) any action of the franchising authority, other than harmless error, is not in compliance with the procedural requirements of this section; or

(B) in the event of a final decision of the franchising authority denying the renewal proposal, the operator has demonstrated that the adverse finding of the franchising authority with respect to each of the factors described in subparagraphs (A) through (D) of subsection (c)(1) on which the denial is based is not supported by a preponderance of the evidence, based on the record of the proceeding conducted under subsection (c).

(f) Any decision of a franchising authority on a proposal for renewal shall not be considered final unless all administrative review by the State has occurred or the opportunity therefor has lapsed.

(g) For purposes of this section, the term “franchise expiration” means the date of the expiration of the term of the franchise, as provided under the franchise, as it was in effect on the date of the enactment of this title.

(h) Notwithstanding the provisions of subsections (a) through (g) of this section, a cable operator may submit a proposal for the renewal of a franchise pursuant to this subsection at any time, and a franchising authority may, after affording the public adequate notice and opportunity for comment, grant or deny such proposal at any time (including after proceedings pursuant to this section have commenced). The provisions of subsections (a) through (g) of this section shall not apply to a decision to grant or deny a proposal under this subsection. The denial of a renewal pursuant to this subsection shall not affect action on a renewal proposal that is submitted in accordance with subsections (a) through (g).

(i) Notwithstanding the provisions of subsections (a) through (h), any lawful action to revoke a cable operator’s franchise for cause shall not be negated by the subsequent initiation of renewal proceedings by the cable operator under this section.

SEC. 627. [47 U.S.C. 547] CONDITIONS OF SALE.

(a) If a renewal of a franchise held by a cable operator is denied and the franchising authority acquires ownership of the cable

system or effects a transfer of ownership of the system to another person, any such acquisition or transfer shall be—

(1) at fair market value, determined on the basis of the cable system valued as a going concern but with no value allocated to the franchise itself, or

(2) in the case of any franchise existing on the effective date of this title, at a price determined in accordance with the franchise if such franchise contains provisions applicable to such an acquisition or transfer.

(b) If a franchise held by a cable operator is revoked for cause and the franchising authority acquires ownership of the cable system or effects a transfer of ownership of the system to another person, any such acquisition or transfer shall be—

(1) at an equitable price, or

(2) in the case of any franchise existing on the effective date of this title, at a price determined in accordance with the franchise if such franchise contains provisions applicable to such an acquisition or transfer.

SEC. 628. [47 U.S.C. 548] DEVELOPMENT OF COMPETITION AND DIVERSITY IN VIDEO PROGRAMMING DISTRIBUTION.

(a) **PURPOSE.**—The purpose of this section is to promote the public interest, convenience, and necessity by increasing competition and diversity in the multichannel video programming market, to increase the availability of satellite cable programming and satellite broadcast programming to persons in rural and other areas not currently able to receive such programming, and to spur the development of communications technologies.

(b) **PROHIBITION.**—It shall be unlawful for a cable operator, a satellite cable programming vendor in which a cable operator has an attributable interest, or a satellite broadcast programming vendor to engage in unfair methods of competition or unfair or deceptive acts or practices, the purpose or effect of which is to hinder significantly or to prevent any multichannel video programming distributor from providing satellite cable programming or satellite broadcast programming to subscribers or consumers.

(c) **REGULATIONS REQUIRED.**—

(1) **PROCEEDING REQUIRED.**—Within 180 days after the date of enactment of this section, the Commission shall, in order to promote the public interest, convenience, and necessity by increasing competition and diversity in the multichannel video programming market and the continuing development of communications technologies, prescribe regulations to specify particular conduct that is prohibited by subsection (b).

(2) **MINIMUM CONTENTS OF REGULATIONS.**—The regulations to be promulgated under this section shall—

(A) establish effective safeguards to prevent a cable operator which has an attributable interest in a satellite cable programming vendor or a satellite broadcast programming vendor from unduly or improperly influencing the decision of such vendor to sell, or the prices, terms, and conditions of sale of, satellite cable programming or satellite broadcast programming to any unaffiliated multichannel video programming distributor;

(B) prohibit discrimination by a satellite cable programming vendor in which a cable operator has an attributable interest or by a satellite broadcast programming vendor in the prices, terms, and conditions of sale or delivery of satellite cable programming or satellite broadcast programming among or between cable systems, cable operators, or other multichannel video programming distributors, or their agents or buying groups; except that such a satellite cable programming vendor in which a cable operator has an attributable interest or such a satellite broadcast programming vendor shall not be prohibited from—

(i) imposing reasonable requirements for creditworthiness, offering of service, and financial stability and standards regarding character and technical quality;

(ii) establishing different prices, terms, and conditions to take into account actual and reasonable differences in the cost of creation, sale, delivery, or transmission of satellite cable programming or satellite broadcast programming;

(iii) establishing different prices, terms, and conditions which take into account economies of scale, cost savings, or other direct and legitimate economic benefits reasonably attributable to the number of subscribers served by the distributor; or

(iv) entering into an exclusive contract that is permitted under subparagraph (D);

(C) prohibit practices, understandings, arrangements, and activities, including exclusive contracts for satellite cable programming or satellite broadcast programming between a cable operator and a satellite cable programming vendor or satellite broadcast programming vendor, that prevent a multichannel video programming distributor from obtaining such programming from any satellite cable programming vendor in which a cable operator has an attributable interest or any satellite broadcast programming vendor in which a cable operator has an attributable interest for distribution to persons in areas not served by a cable operator as of the date of enactment of this section; and

(D) with respect to distribution to persons in areas served by a cable operator, prohibit exclusive contracts for satellite cable programming or satellite broadcast programming between a cable operator and a satellite cable programming vendor in which a cable operator has an attributable interest or a satellite broadcast programming vendor in which a cable operator has an attributable interest, unless the Commission determines (in accordance with paragraph (4)) that such contract is in the public interest.

(3) LIMITATIONS.—

(A) GEOGRAPHIC LIMITATIONS.—Nothing in this section shall require any person who is engaged in the national or regional distribution of video programming to make such programming available in any geographic area beyond

which such programming has been authorized or licensed for distribution.

(B) **APPLICABILITY TO SATELLITE RETRANSMISSIONS.**—Nothing in this section shall apply (i) to the signal of any broadcast affiliate of a national television network or other television signal that is retransmitted by satellite but that is not satellite broadcast programming, or (ii) to any internal satellite communication of any broadcast network or cable network that is not satellite broadcast programming.

(4) **PUBLIC INTEREST DETERMINATIONS ON EXCLUSIVE CONTRACTS.**—In determining whether an exclusive contract is in the public interest for purposes of paragraph (2)(D), the Commission shall consider each of the following factors with respect to the effect of such contract on the distribution of video programming in areas that are served by a cable operator:

(A) the effect of such exclusive contract on the development of competition in local and national multichannel video programming distribution markets;

(B) the effect of such exclusive contract on competition from multichannel video programming distribution technologies other than cable;

(C) the effect of such exclusive contract on the attraction of capital investment in the production and distribution of new satellite cable programming;

(D) the effect of such exclusive contract on diversity of programming in the multichannel video programming distribution market; and

(E) the duration of the exclusive contract.

(5) **SUNSET PROVISION.**—The prohibition required by paragraph (2)(D) shall cease to be effective 10 years after the date of enactment of this section, unless the Commission finds, in a proceeding conducted during the last year of such 10-year period, that such prohibition continues to be necessary to preserve and protect competition and diversity in the distribution of video programming.

(d) **ADJUDICATORY PROCEEDING.**—Any multichannel video programming distributor aggrieved by conduct that it alleges constitutes a violation of subsection (b), or the regulations of the Commission under subsection (c), may commence an adjudicatory proceeding at the Commission.

(e) **REMEDIES FOR VIOLATIONS.**—

(1) **REMEDIES AUTHORIZED.**—Upon completion of such adjudicatory proceeding, the Commission shall have the power to order appropriate remedies, including, if necessary, the power to establish prices, terms, and conditions of sale of programming to the aggrieved multichannel video programming distributor.

(2) **ADDITIONAL REMEDIES.**—The remedies provided in paragraph (1) are in addition to and not in lieu of the remedies available under title V or any other provision of this Act.

(f) **PROCEDURES.**—The Commission shall prescribe regulations to implement this section. The Commission's regulations shall—

(1) provide for an expedited review of any complaints made pursuant to this section;

(2) establish procedures for the Commission to collect such data, including the right to obtain copies of all contracts and documents reflecting arrangements and understandings alleged to violate this section, as the Commission requires to carry out this section; and

(3) provide for penalties to be assessed against any person filing a frivolous complaint pursuant to this section.

(g) COMMON CARRIERS.—Any provision that applies to a cable operator under this section shall apply to a common carrier or its affiliate that provides video programming by any means directly to subscribers. Any such provision that applies to a satellite cable programming vendor in which a cable operator has an attributable interest shall apply to any satellite cable programming vendor in which such common carrier has an attributable interest. For the purposes of this subsection, two or fewer common officers or directors shall not by itself establish an attributable interest by a common carrier in a satellite cable programming vendor (or its parent company).

(h) EXEMPTIONS FOR PRIOR CONTRACTS.—

(1) IN GENERAL.—Nothing in this section shall affect any contract that grants exclusive distribution rights to any person with respect to satellite cable programming and that was entered into on or before June 1, 1990, except that the provisions of subsection (c)(2)(C) shall apply for distribution to persons in areas not served by a cable operator.

(2) LIMITATION ON RENEWALS.—A contract that was entered into on or before June 1, 1990, but that is renewed or extended after the date of enactment of this section shall not be exempt under paragraph (1).

(i) DEFINITIONS.—As used in this section:

(1) The term “satellite cable programming” has the meaning provided under section 705 of this Act, except that such term does not include satellite broadcast programming.

(2) The term “satellite cable programming vendor” means a person engaged in the production, creation, or wholesale distribution for sale of satellite cable programming, but does not include a satellite broadcast programming vendor.

(3) The term “satellite broadcast programming” means broadcast video programming when such programming is retransmitted by satellite and the entity retransmitting such programming is not the broadcaster or an entity performing such retransmission on behalf of and with the specific consent of the broadcaster.

(4) The term “satellite broadcast programming vendor” means a fixed service satellite carrier that provides service pursuant to section 119 of title 17, United States Code, with respect to satellite broadcast programming.

SEC. 629. [47 U.S.C. 549] COMPETITIVE AVAILABILITY OF NAVIGATION DEVICES.

(a) COMMERCIAL CONSUMER AVAILABILITY OF EQUIPMENT USED TO ACCESS SERVICES PROVIDED BY MULTICHANNEL VIDEO PROGRAMMING DISTRIBUTORS.—The Commission shall, in consultation with appropriate industry standard-setting organizations, adopt regulations to assure the commercial availability, to consumers of

multichannel video programming and other services offered over multichannel video programming systems, of converter boxes, interactive communications equipment, and other equipment used by consumers to access multichannel video programming and other services offered over multichannel video programming systems, from manufacturers, retailers, and other vendors not affiliated with any multichannel video programming distributor. Such regulations shall not prohibit any multichannel video programming distributor from also offering converter boxes, interactive communications equipment, and other equipment used by consumers to access multichannel video programming and other services offered over multichannel video programming systems, to consumers, if the system operator's charges to consumers for such devices and equipment are separately stated and not subsidized by charges for any such service.

(b) PROTECTION OF SYSTEM SECURITY.—The Commission shall not prescribe regulations under subsection (a) which would jeopardize security of multichannel video programming and other services offered over multichannel video programming systems, or impede the legal rights of a provider of such services to prevent theft of service.

(c) WAIVER.—The Commission shall waive a regulation adopted under subsection (a) for a limited time upon an appropriate showing by a provider of multichannel video programming and other services offered over multichannel video programming systems, or an equipment provider, that such waiver is necessary to assist the development or introduction of a new or improved multichannel video programming or other service offered over multichannel video programming systems, technology, or products. Upon an appropriate showing, the Commission shall grant any such waiver request within 90 days of any application filed under this subsection, and such waiver shall be effective for all service providers and products in that category and for all providers of services and products.

(d) AVOIDANCE OF REDUNDANT REGULATIONS.—

(1) COMMERCIAL AVAILABILITY DETERMINATIONS.—Determinations made or regulations prescribed by the Commission with respect to commercial availability to consumers of converter boxes, interactive communications equipment, and other equipment used by consumers to access multichannel video programming and other services offered over multichannel video programming systems, before the date of enactment of the Telecommunications Act of 1996 shall fulfill the requirements of this section.

(2) REGULATIONS.—Nothing in this section affects section 64.702(e) of the Commission's regulations (47 C.F.R. 64.702(e)) or other Commission regulations governing interconnection and competitive provision of customer premises equipment used in connection with basic common carrier communications services.

(e) SUNSET.—The regulations adopted under this section shall cease to apply when the Commission determines that—

(1) the market for the multichannel video programming distributors is fully competitive;

(2) the market for converter boxes, and interactive communications equipment, used in conjunction with that service is fully competitive; and

(3) elimination of the regulations would promote competition and the public interest.

(f) COMMISSION'S AUTHORITY.—Nothing in this section shall be construed as expanding or limiting any authority that the Commission may have under law in effect before the date of enactment of the Telecommunications Act of 1996.

PART IV—MISCELLANEOUS PROVISIONS

SEC. 631. [47 U.S.C. 551] PROTECTION OF SUBSCRIBER PRIVACY.

(a)(1) At the time of entering into an agreement to provide any cable service or other service to a subscriber and at least once a year thereafter, a cable operator shall provide notice in the form of a separate, written statement to such subscriber which clearly and conspicuously informs the subscriber of—

(A) the nature of personally identifiable information collected or to be collected with respect to the subscriber and the nature of the use of such information;

(B) the nature, frequency, and purpose of any disclosure which may be made of such information, including an identification of the types of persons to whom the disclosure may be made;

(C) the period during which such information will be maintained by the cable operator;

(D) the times and place at which the subscriber may have access to such information in accordance with subsection (d); and

(E) the limitations provided by this section with respect to the collection and disclosure of information by a cable operator and the right of the subscriber under subsections (f) and (h) to enforce such limitations.

In the case of subscribers who have entered into such an agreement before the effective date of this section, such notice shall be provided within 180 days of such date and at least once a year thereafter.

(2) For purposes of this section, other than subsection (h)—

(A) the term “personally identifiable information” does not include any record of aggregate data which does not identify particular persons;

(B) the term “other service” includes any wire or radio communications service provided using any of the facilities of a cable operator that are used in the provision of cable service; and

(C) the term “cable operator” includes, in addition to persons within the definition of cable operator in section 602, any person who (i) is owned or controlled by, or under common ownership or control with, a cable operator, and (ii) provides any wire or radio communications service.

(b)(1) Except as provided in paragraph (2), a cable operator shall not use the cable system to collect personally identifiable in-

formation concerning any subscriber without the prior written or electronic consent of the subscriber concerned.

(2) A cable operator may use the cable system to collect such information in order to—

(A) obtain information necessary to render a cable service or other service provided by the cable operator to the subscriber; or

(B) detect unauthorized reception of cable communications.

(c)(1) Except as provided in paragraph (2), a cable operator shall not disclose personally identifiable information concerning any subscriber without the prior written or electronic consent of the subscriber concerned and shall take such actions as are necessary to prevent unauthorized access to such information by a person other than the subscriber or cable operator.

(2) A cable operator may disclose such information if the disclosure is—

(A) necessary to render, or conduct a legitimate business activity related to, a cable service or other service provided by the cable operator to the subscriber;

(B) subject to subsection (h), made pursuant to a court order authorizing such disclosure, if the subscriber is notified of such order by the person to whom the order is directed;

(C) a disclosure of the names and addresses of subscribers to any cable service or other service, if—

(i) the cable operator has provided the subscriber the opportunity to prohibit or limit such disclosure, and

(ii) the disclosure does not reveal, directly or indirectly, the—

(I) extent of any viewing or other use by the subscriber of a cable service or other service provided by the cable operator, or

(II) the nature of any transaction made by the subscriber over the cable system of the cable operator; or

(D) to a government entity as authorized under chapters 119, 121, or 206 of title 18, United States Code, except that such disclosure shall not include records revealing cable subscriber selection of video programming from a cable operator.

(d) A cable subscriber shall be provided access to all personally identifiable information regarding that subscriber which is collected and maintained by a cable operator. Such information shall be made available to the subscriber at reasonable times and at a convenient place designated by such cable operator. A cable subscriber shall be provided reasonable opportunity to correct any error in such information.

(e) A cable operator shall destroy personally identifiable information if the information is no longer necessary for the purpose for which it was collected and there are no pending requests or orders for access to such information under subsection (d) or pursuant to a court order.

(f)(1) Any person aggrieved by any act of a cable operator in violation of this section may bring a civil action in a United States district court.

(2) The court may award—

(A) actual damages but not less than liquidated damages computed at the rate of \$100 a day for each day of violation or \$1,000, whichever is higher;

(B) punitive damages; and

(C) reasonable attorneys' fees and other litigation costs reasonably incurred.

(3) The remedy provided by this section shall be in addition to any other lawful remedy available to a cable subscriber.

(g) Nothing in this title shall be construed to prohibit any State or any franchising authority from enacting or enforcing laws consistent with this section for the protection of subscriber privacy.

(h) Except as provided in subsection (c)(2)(D), a governmental entity may obtain personally identifiable information concerning a cable subscriber pursuant to a court order only if, in the court proceeding relevant to such court order—

(1) such entity offers clear and convincing evidence that the subject of the information is reasonably suspected of engaging in criminal activity and that the information sought would be material evidence in the case; and

(2) the subject of the information is afforded the opportunity to appear and contest such entity's claim.

SEC. 632. [47 U.S.C. 552] CONSUMER PROTECTION AND CUSTOMER SERVICE.

(a) **FRANCHISING AUTHORITY ENFORCEMENT.**—A franchising authority may establish and enforce—

(1) customer service requirements of the cable operator; and

(2) construction schedules and other construction-related requirements, including construction-related performance requirements, of the cable operator.

(b) **COMMISSION STANDARDS.**—The Commission shall, within 180 days of enactment of the Cable Television Consumer Protection and Competition Act of 1992, establish standards by which cable operators may fulfill their customer service requirements. Such standards shall include, at a minimum, requirements governing—

(1) cable system office hours and telephone availability;

(2) installations, outages, and service calls; and

(3) communications between the cable operator and the subscriber (including standards governing bills and refunds).

(c) **SUBSCRIBER NOTICE.**—A cable operator may provide notice of service and rate changes to subscribers using any reasonable written means at its sole discretion. Notwithstanding section 623(b)(6) or any other provision of this Act, a cable operator shall not be required to provide prior notice of any rate change that is the result of a regulatory fee, franchise fee, or any other fee, tax, assessment, or charge of any kind imposed by any Federal agency, State, or franchising authority on the transaction between the operator and the subscriber.

(d) **CONSUMER PROTECTION LAWS AND CUSTOMER SERVICE AGREEMENTS.**—

(1) **CONSUMER PROTECTION LAWS.**—Nothing in this title shall be construed to prohibit any State or any franchising authority from enacting or enforcing any consumer protection law, to the extent not specifically preempted by this title.

(2) CUSTOMER SERVICE REQUIREMENT AGREEMENTS.—Nothing in this section shall be construed to preclude a franchising authority and a cable operator from agreeing to customer service requirements that exceed the standards established by the Commission under subsection (b). Nothing in this title shall be construed to prevent the establishment or enforcement of any municipal law or regulation, or any State law, concerning customer service that imposes customer service requirements that exceed the standards set by the Commission under this section, or that addresses matters not addressed by the standards set by the Commission under this section.

SEC. 633. [47 U.S.C. 553] UNAUTHORIZED RECEPTION OF CABLE SERVICE.

(a)(1) No person shall intercept or receive or assist in intercepting or receiving any communications service offered over a cable system, unless specifically authorized to do so by a cable operator or as may otherwise be specifically authorized by law.

(2) For the purpose of this section, the term “assist in intercepting or receiving” shall include the manufacture or distribution of equipment intended by the manufacturer or distributor (as the case may be) for unauthorized reception of any communications service offered over a cable system in violation of subparagraph (1).

(b)(1) Any person who willfully violates subsection (a)(1) shall be fined not more than \$1,000 or imprisoned for not more than 6 months, or both.

(2) Any person who violates subsection (a)(1) willfully and for purposes of commercial advantage or private financial gain shall be fined not more than \$50,000 or imprisoned for not more than 2 years, or both, for the first such offense and shall be fined not more than \$100,000 or imprisoned for not more than 5 years, or both, for any subsequent offense.

(3) For purposes of all penalties and remedies established for violations of subsection (a)(1), the prohibited activity established herein as it applies to each such device shall be deemed a separate violation.

(c)(1) Any person aggrieved by any violation of subsection (a)(1) may bring a civil action in a United States district court or in any other court of competent jurisdiction.

(2) The court may—

(A) grant temporary and final injunctions on such terms as it may deem reasonable to prevent or restrain violations of subsection (a)(1);

(B) award damages as described in paragraph (3); and

(C) direct the recovery of full costs, including awarding reasonable attorneys’ fees to an aggrieved party who prevails.

(3)(A) Damages awarded by any court under this section shall be computed in accordance with either of the following clauses:

(i) the party aggrieved may recover the actual damages suffered by him as a result of the violation and any profits of the violator that are attributable to the violation which are not taken into account in computing the actual damages; in determining the violator’s profits, the party aggrieved shall be required to prove only the violator’s gross revenue, and the violator shall be required to prove his deductible expenses and the

elements of profit attributable to factors other than the violation; or

(ii) the party aggrieved may recover an award of statutory damages for all violations involved in the action, in a sum of not less than \$250 or more than \$10,000 as the court considers just.

(B) In any case in which the court finds that the violation was committed willfully and for purposes of commercial advantage or private financial gain, the court in its discretion may increase the award of damages, whether actual or statutory under subparagraph (A), by an amount of not more than \$50,000.

(C) In any case where the court finds that the violator was not aware and had no reason to believe that his acts constituted a violation of this section, the court in its discretion may reduce the award of damages to a sum of not less than \$100.

(D) Nothing in this title shall prevent any State or franchising authority from enacting or enforcing laws, consistent with this section, regarding the unauthorized interception or reception of any cable service or other communications service.

SEC. 634. [47 U.S.C. 554] EQUAL EMPLOYMENT OPPORTUNITY.

(a) This section shall apply to any corporation, partnership, association, joint-stock company, or trust engaged primarily in the management or operation of any cable system.

(b) Equal opportunity in employment shall be afforded by each entity specified in subsection (a), and no person shall be discriminated against in employment by such entity because of race, color, religion, national origin, age, or sex.

(c) Any entity specified in subsection (a) shall establish, maintain, and execute a positive continuing program of specific practices designed to ensure equal opportunity in every aspect of its employment policies and practices. Under the terms of its program, each such entity shall—

(1) define the responsibility of each level of management to ensure a positive application and vigorous enforcement of its policy of equal opportunity, and establish a procedure to review and control managerial and supervisory performance;

(2) inform its employees and recognized employee organizations of the equal employment opportunity policy and program and enlist their cooperation;

(3) communicate its equal employment opportunity policy and program and its employment needs to sources of qualified applicants without regard to race, color, religion, national origin, age, or sex, and solicit their recruitment assistance on a continuing basis;

(4) conduct a continuing program to exclude every form of prejudice or discrimination based on race, color, religion, national origin, age, or sex, from its personnel policies and practices and working conditions; and

(5) conduct a continuing review of job structure and employment practices and adopt positive recruitment, training, job design, and other measures needed to ensure genuine equality of opportunity to participate fully in all its organizational units, occupations, and levels of responsibility.

(d)(1) Not later than 270 days after the date of enactment of the Cable Television Consumer Protection and Competition Act of 1992, and after notice and opportunity for hearing, the Commission shall prescribe revisions in the rules under this section in order to implement the amendments made to this section by such Act. Such revisions shall be designed to promote equality of employment opportunities for females and minorities in each of the job categories itemized in paragraph (3).

(2) Such rules shall specify the terms under which an entity specified in subsection (a) shall, to the extent possible—

(A) disseminate its equal opportunity program to job applicants, employees, and those with whom it regularly does business;

(B) use minority organizations, organizations for women, media, educational institutions, and other potential sources of minority and female applicants, to supply referrals whenever jobs are available in its operation;

(C) evaluate its employment profile and job turnover against the availability of minorities and women in its franchise area;

(D) undertake to offer promotions of minorities and women to positions of greater responsibility;

(E) encourage minority and female entrepreneurs to conduct business with all parts of its operation; and

(F) analyze the results of its efforts to recruit, hire, promote, and use the services of minorities and women and explain any difficulties encountered in implementing its equal employment opportunity program.

(3)(A) Such rules also shall require an entity specified in subsection (a) with more than 5 full-time employees to file with the Commission an annual statistical report identifying by race, sex, and job title the number of employees in each of the following full-time and part-time job categories:

- (i) Corporate officers.
- (ii) General Manager.
- (iii) Chief Technician.
- (iv) Comptroller.
- (v) General Sales Manager.
- (vi) Production Manager.
- (vii) Managers.
- (viii) Professionals.
- (ix) Technicians.
- (x) Sales Personnel.
- (xi) Office and Clerical Personnel.
- (xii) Skilled Craftspersons.
- (xiii) Semiskilled Operatives.
- (xiv) Unskilled Laborers.
- (xv) Service Workers.

(B) The report required by subparagraph (A) shall be made on separate forms, provided by the Commission, for full-time and part-time employees. The Commission's rules shall sufficiently define the job categories listed in clauses (i) through (vi) of such subparagraph so as to ensure that only employees who are principal decisionmakers and who have supervisory authority are reported for

such categories. The Commission shall adopt rules that define the job categories listed in clauses (vii) through (xv) in a manner that is consistent with the Commission policies in effect on June 1, 1990. The Commission shall prescribe the method by which entities shall be required to compute and report the number of minorities and women in the job categories listed in clauses (i) through (x) and the number of minorities and women in the job categories listed in clauses (i) through (xv) in proportion to the total number of qualified minorities and women in the relevant labor market. The report shall include information on hiring, promotion, and recruitment practices necessary for the Commission to evaluate the efforts of entities to comply with the provisions of paragraph (2) of this subsection. The report shall be available for public inspection at the entity's central location and at every location where 5 or more full-time employees are regularly assigned to work. Nothing in this subsection shall be construed as prohibiting the Commission from collecting or continuing to collect statistical or other employment information in a manner that it deems appropriate to carry out this section.

(4) The Commission may amend such rules from time to time to the extent necessary to carry out the provisions of this section. Any such amendment shall be made after notice and opportunity for comment.

(e)(1) On an annual basis, the Commission shall certify each entity described in subsection (a) as in compliance with this section if, on the basis of information in the possession of the Commission, including the report filed pursuant to subsection (d)(3), such entity was in compliance, during the annual period involved, with the requirements of subsections (b), (c), and (d).

(2) The Commission shall, periodically but not less frequently than every five years, investigate the employment practices of each entity described in subsection (a), in the aggregate, as well as in individual job categories, and determine whether such entity is in compliance with the requirements of subsections (b), (c), and (d), including whether such entity's employment practices deny or abridge women and minorities equal employment opportunities. As part of such investigation, the Commission shall review whether the entity's reports filed pursuant to subsection (d)(3) accurately reflect employee responsibilities in the reported job classification.

(f)(1) If the Commission finds after notice and hearing that the entity involved has willfully or repeatedly without good cause failed to comply with the requirements of this section, such failure shall constitute a substantial failure to comply with this title. The failure to obtain certification under subsection (e) shall not itself constitute the basis for a determination of substantial failure to comply with this title. For purposes of this paragraph, the term "repeatedly", when used with respect to failures to comply, refers to 3 or more failures during any 7-year period.

(2) Any person who is determined by the Commission, through an investigation pursuant to subsection (e) or otherwise, to have failed to meet or failed to make best efforts to meet the requirements of this section, or rules under this section, shall be liable to the United States for a forfeiture penalty of \$500 for each violation. Each day of a continuing violation shall constitute a separate

offense. Any entity defined in subsection (a) shall not be liable for more than 180 days of forfeitures which accrued prior to notification by the Commission of a potential violation. Nothing in this paragraph shall limit the forfeiture imposed on any person as a result of any violation that continues subsequent to such notification. In addition, any person liable for such penalty may also have any license under this Act for cable auxiliary relay service suspended until the Commission determines that the failure involved has been corrected. Whoever knowingly makes any false statement or submits documentation which he knows to be false, pursuant to an application for certification under this section shall be in violation of this section.

(3) The provisions of paragraphs (3) and (4), and the last 2 sentences of paragraph (2), of section 503(b) shall apply to forfeitures under this subsection.

(4) The Commission shall provide for notice to the public and appropriate franchising authorities of any penalty imposed under this section.

(g) Employees or applicants for employment who believe they have been discriminated against in violation of the requirements of this section, or rules under this section, or any other interested person, may file a complaint with the Commission. A complaint by any such person shall be in writing, and shall be signed and sworn to by that person. The regulations under subsection (d)(1) shall specify a program, under authorities otherwise available to the Commission, for the investigation of complaints and violations, and for the enforcement of this section.

(h)(1) For purposes of this section, the term "cable operator" includes any operator of any satellite master antenna television system, including a system described in section 602(7)(A) and any multichannel video programming distributor.

(2) Such term does not include any operator of a system which, in the aggregate, serves fewer than 50 subscribers.

(3) In any case in which a cable operator is the owner of a multiple unit dwelling, the requirements of this section shall only apply to such cable operator with respect to its employees who are primarily engaged in cable telecommunications.

(i)(1) Nothing in this section shall affect the authority of any State or any franchising authority—

(A) to establish or enforce any requirement which is consistent with the requirements of this section, including any requirement which affords equal employment opportunity protection for employees;

(B) to establish or enforce any provision requiring or encouraging any cable operator to conduct business with enterprises which are owned or controlled by members of minority groups (as defined in section 309(i)(3)(C)(ii) or which have their principal operations located within the community served by the cable operator; or

(C) to enforce any requirement of a franchise in effect on the effective date of this title.

(2) The remedies and enforcement provisions of this section are in addition to, and not in lieu of, those available under this or any other law.

(3) The provisions of this section shall apply to any cable operator, whether operating pursuant to a franchise granted before, on, or after the date of the enactment of this section.

SEC. 635. [47 U.S.C. 555] JUDICIAL PROCEEDINGS.

(a) Any cable operator adversely affected by any final determination made by a franchising authority under section 621(a)(1), 625 or 626 may commence an action within 120 days after receiving notice of such determination, which may be brought in—

(1) the district court of the United States for any judicial district in which the cable system is located; or

(2) in any State court of general jurisdiction having jurisdiction over the parties.

(b) The court may award any appropriate relief consistent with the provisions of the relevant section described in subsection (a) and with the provisions of subsection (a).

(c)(1) Notwithstanding any other provision of law, any civil action challenging the constitutionality of section 614 or 615 of this Act or any provision thereof shall be heard by a district court of three judges convened pursuant to the provisions of section 2284 of title 28, United States Code.

(2) Notwithstanding any other provision of law, an interlocutory or final judgment, decree, or order of the court of three judges in an action under paragraph (1) holding section 614 or 615 of this Act or any provision thereof unconstitutional shall be reviewable as a matter of right by direct appeal to the Supreme Court. Any such appeal shall be filed not more than 20 days after entry of such judgment, decree, or order.

SEC. 635A. [47 U.S.C. 555a] LIMITATION OF FRANCHISING AUTHORITY LIABILITY.

(a) **SUITS FOR DAMAGES PROHIBITED.**—In any court proceeding pending on or initiated after the date of enactment of this section involving any claim against a franchising authority or other governmental entity, or any official, member, employee, or agent of such authority or entity, arising from the regulation of cable service or from a decision of approval or disapproval with respect to a grant, renewal, transfer, or amendment of a franchise, any relief, to the extent such relief is required by any other provision of Federal, State, or local law, shall be limited to injunctive relief and declaratory relief.

(b) **EXCEPTION FOR COMPLETED CASES.**—The limitation contained in subsection (a) shall not apply to actions that, prior to such violation, have been determined by a final order of a court of binding jurisdiction, no longer subject to appeal, to be in violation of a cable operator's rights.

(c) **DISCRIMINATION CLAIMS PERMITTED.**—Nothing in this section shall be construed as limiting the relief authorized with respect to any claim against a franchising authority or other governmental entity, or any official, member, employee, or agent of such authority or entity, to the extent such claim involves discrimination on the basis of race, color, sex, age, religion, national origin, or handicap.

(d) **RULE OF CONSTRUCTION.**—Nothing in this section shall be construed as creating or authorizing liability of any kind, under

any law, for any action or failure to act relating to cable service or the granting of a franchise by any franchising authority or other governmental entity, or any official, member, employee, or agent of such authority or entity.

SEC. 636. [47 U.S.C. 556] COORDINATION OF FEDERAL, STATE, AND LOCAL AUTHORITY.

(a) Nothing in this title shall be construed to affect any authority of any State, political subdivision, or agency thereof, or franchising authority, regarding matters of public health, safety, and welfare, to the extent consistent with the express provisions of this title.

(b) Nothing in this title shall be construed to restrict a State from exercising jurisdiction with regard to cable services consistent with this title.

(c) Except as provided in section 637, any provision of law of any State, political subdivision, or agency thereof, or franchising authority, or any provision of any franchise granted by such authority, which is inconsistent with this Act shall be deemed to be preempted and superseded.

(d) For purposes of this section, the term "State" has the meaning given such term in section 3.

SEC. 637. [47 U.S.C. 557] EXISTING FRANCHISES.

(a) The provisions of—

(1) any franchise in effect on the effective date of this title, including any such provisions which relate to the designation, use, or support for the use of channel capacity for public, educational, or governmental use, and

(2) any law of any State (as defined in section 3) in effect on the date of the enactment of this section, or any regulation promulgated pursuant to such law, which relates to such designation, use or support of such channel capacity, shall remain in effect, subject to the express provisions of this title, and for not longer than the then current remaining term of the franchise as such franchise existed on such effective date.

(b) For purposes of subsection (a) and other provisions of this title, a franchise shall be considered in effect on the effective date of this title if such franchise was granted on or before such effective date.

SEC. 638. [47 U.S.C. 558] CRIMINAL AND CIVIL LIABILITY.

Nothing in this title shall be deemed to affect the criminal or civil liability of cable programmers or cable operators pursuant to the Federal, State, or local law of libel, slander, obscenity, incitement, invasions of privacy, false or misleading advertising, or other similar laws, except that cable operators shall not incur any such liability for any program carried on any channel designated for public, educational, governmental use or on any other channel obtained under section 612 or under similar arrangements unless the program involves obscene material.

SEC. 639. [47 U.S.C. 559] OBSCENE PROGRAMMING.

Whoever transmits over any cable system any matter which is obscene or otherwise unprotected by the Constitution of the United

States shall be fined under title 18, United States Code, or imprisoned not more than 2 years, or both.

SEC. 640. [47 U.S.C. 560] SCRAMBLING OF CABLE CHANNELS FOR NON-SUBSCRIBERS.

(a) **SUBSCRIBER REQUEST.**—Upon request by a cable service subscriber, a cable operator shall, without charge, fully scramble or otherwise fully block the audio and video programming of each channel carrying such programming so that one not a subscriber does not receive it.

(b) **DEFINITION.**—As used in this section, the term “scramble” means to rearrange the content of the signal of the programming so that the programming cannot be viewed or heard in an understandable manner.

SEC. 641. [47 U.S.C. 561] SCRAMBLING OF SEXUALLY EXPLICIT ADULT VIDEO SERVICE PROGRAMMING.

(a) **REQUIREMENT.**—In providing sexually explicit adult programming or other programming that is indecent on any channel of its service primarily dedicated to sexually-oriented programming, a multichannel video programming distributor shall fully scramble or otherwise fully block the video and audio portion of such channel so that one not a subscriber to such channel or programming does not receive it.

(b) **IMPLEMENTATION.**—Until a multichannel video programming distributor complies with the requirement set forth in subsection (a), the distributor shall limit the access of children to the programming referred to in that subsection by not providing such programming during the hours of the day (as determined by the Commission) when a significant number of children are likely to view it.

(c) **DEFINITION.**—As used in this section, the term “scramble” means to rearrange the content of the signal of the programming so that the programming cannot be viewed or heard in an understandable manner.

SEC. 642. [47 U.S.C. 562] REQUIREMENTS RELATING TO CHARGES FOR COVERED SERVICES.

(a) **CONSUMER RIGHTS IN SALES.**—

(1) **RIGHT TO TRANSPARENCY.**—Before entering into a contract with a consumer for the provision of a covered service, a provider of a covered service shall provide the consumer, by phone, in person, online, or by other reasonable means, the total monthly charge for the covered service, whether offered individually or as part of a bundled service, selected by the consumer (explicitly noting the amount of any applicable promotional discount reflected in such charge and when such discount will expire), including any related administrative fees, equipment fees, or other charges, a good faith estimate of any tax, fee, or charge imposed by the Federal Government or a State or local government (whether imposed on the provider or imposed on the consumer but collected by the provider), and a good faith estimate of any fee or charge that is used to recover any other assessment imposed on the provider by the Federal Government or a State or local government.

(2) **RIGHT TO FORMAL NOTICE.**—A provider of a covered service that enters into a contract described in paragraph (1) shall, not later than 24 hours after entering into the contract, send the consumer, by email, online link, or other reasonably comparable means, a copy of the information described in such paragraph.

(3) **RIGHT TO CANCEL.**—A provider of a covered service that enters into a contract described in paragraph (1) shall permit the consumer to cancel the contract, without paying early cancellation fees or other disconnection fees or penalties, during the 24-hour period beginning when the provider of the covered service sends the copy required by paragraph (2).

(b) **CONSUMER RIGHTS IN E-BILLING.**—If a provider of a covered service provides a bill to a consumer in an electronic format, the provider shall include in the bill—

(1) an itemized statement that breaks down the total amount charged for or relating to the provision of the covered service by the amount charged for the provision of the service itself and the amount of all related taxes, administrative fees, equipment fees, or other charges;

(2) the termination date of the contract for the provision of the covered service entered into between the consumer and the provider; and

(3) the termination date of any applicable promotional discount.

(c) **CONSUMER RIGHTS TO ACCURATE EQUIPMENT CHARGES.**—A provider of a covered service or fixed broadband internet access service may not charge a consumer for—

(1) using covered equipment provided by the consumer; or
(2) renting, leasing, or otherwise providing to the consumer covered equipment if—

(A) the provider has not provided the equipment to the consumer; or

(B) the consumer has returned the equipment to the provider, except to the extent that the charge relates to the period beginning on the date when the provider provided the equipment to the consumer and ending on the date when the consumer returned the equipment to the provider.

(d) **DEFINITIONS.**—In this section:

(1) **BROADBAND INTERNET ACCESS SERVICE.**—The term “broadband internet access service” has the meaning given such term in section 8.1(b) of title 47, Code of Federal Regulations, or any successor regulation.

(2) **COVERED EQUIPMENT.**—The term “covered equipment” means equipment (such as a router) employed on the premises of a person (other than a provider of a covered service or fixed broadband internet access service) to provide a covered service or to provide fixed broadband internet access service.

(3) **COVERED SERVICE.**—The term “covered service” means service provided by a multichannel video programming distributor, to the extent such distributor is acting as a multichannel video programming distributor.

PART V—VIDEO PROGRAMMING SERVICES PROVIDED BY TELEPHONE COMPANIES

SEC. 651. [47 U.S.C. 571] REGULATORY TREATMENT OF VIDEO PROGRAMMING SERVICES.

(a) LIMITATIONS ON CABLE REGULATION.—

(1) **RADIO-BASED SYSTEMS.**—To the extent that a common carrier (or any other person) is providing video programming to subscribers using radio communication, such carrier (or other person) shall be subject to the requirements of title III and section 652, but shall not otherwise be subject to the requirements of this title.

(2) **COMMON CARRIAGE OF VIDEO TRAFFIC.**—To the extent that a common carrier is providing transmission of video programming on a common carrier basis, such carrier shall be subject to the requirements of title II and section 652, but shall not otherwise be subject to the requirements of this title. This paragraph shall not affect the treatment under section 602(7)(C) of a facility of a common carrier as a cable system.

(3) **CABLE SYSTEMS AND OPEN VIDEO SYSTEMS.**—To the extent that a common carrier is providing video programming to its subscribers in any manner other than that described in paragraphs (1) and (2)—

(A) such carrier shall be subject to the requirements of this title, unless such programming is provided by means of an open video system for which the Commission has approved a certification under section 653; or

(B) if such programming is provided by means of an open video system for which the Commission has approved a certification under section 653, such carrier shall be subject to the requirements of this part, but shall be subject to parts I through IV of this title only as provided in 653(c).

(4) **ELECTION TO OPERATE AS OPEN VIDEO SYSTEM.**—A common carrier that is providing video programming in a manner described in paragraph (1) or (2), or a combination thereof, may elect to provide such programming by means of an open video system that complies with section 653. If the Commission approves such carrier's certification under section 653, such carrier shall be subject to the requirements of this part, but shall be subject to parts I through IV of this title only as provided in 653(c).

(b) **LIMITATIONS ON INTERCONNECTION OBLIGATIONS.**—A local exchange carrier that provides cable service through an open video system or a cable system shall not be required, pursuant to title II of this Act, to make capacity available on a nondiscriminatory basis to any other person for the provision of cable service directly to subscribers.

(c) **ADDITIONAL REGULATORY RELIEF.**—A common carrier shall not be required to obtain a certificate under section 214 with respect to the establishment or operation of a system for the delivery of video programming.

SEC. 652. [47 U.S.C. 572] PROHIBITION ON BUY OUTS.

(a) **ACQUISITIONS BY CARRIERS.**—No local exchange carrier or any affiliate of such carrier owned by, operated by, controlled by, or under common control with such carrier may purchase or otherwise acquire directly or indirectly more than a 10 percent financial interest, or any management interest, in any cable operator providing cable service within the local exchange carrier's telephone service area.

(b) **ACQUISITIONS BY CABLE OPERATORS.**—No cable operator or affiliate of a cable operator that is owned by, operated by, controlled by, or under common ownership with such cable operator may purchase or otherwise acquire, directly or indirectly, more than a 10 percent financial interest, or any management interest, in any local exchange carrier providing telephone exchange service within such cable operator's franchise area.

(c) **JOINT VENTURES.**—A local exchange carrier and a cable operator whose telephone service area and cable franchise area, respectively, are in the same market may not enter into any joint venture or partnership to provide video programming directly to subscribers or to provide telecommunications services within such market.

(d) **EXCEPTIONS.**—

(1) **RURAL SYSTEMS.**—Notwithstanding subsections (a), (b), and (c) of this section, a local exchange carrier (with respect to a cable system located in its telephone service area) and a cable operator (with respect to the facilities of a local exchange carrier used to provide telephone exchange service in its cable franchise area) may obtain a controlling interest in, management interest in, or enter into a joint venture or partnership with the operator of such system or facilities for the use of such system or facilities to the extent that—

(A) such system or facilities only serve incorporated or unincorporated—

(i) places or territories that have fewer than 35,000 inhabitants; and

(ii) are outside an urbanized area, as defined by the Bureau of the Census; and

(B) in the case of a local exchange carrier, such system, in the aggregate with any other system in which such carrier has an interest, serves less than 10 percent of the households in the telephone service area of such carrier.

(2) **JOINT USE.**—Notwithstanding subsection (c), a local exchange carrier may obtain, with the concurrence of the cable operator on the rates, terms, and conditions, the use of that part of the transmission facilities of a cable system extending from the last multi-user terminal to the premises of the end user, if such use is reasonably limited in scope and duration, as determined by the Commission.

(3) **ACQUISITIONS IN COMPETITIVE MARKETS.**—Notwithstanding subsections (a) and (c), a local exchange carrier may obtain a controlling interest in, or form a joint venture or other partnership with, or provide financing to, a cable system (hereinafter in this paragraph referred to as "the subject cable system"), if—

(A) the subject cable system operates in a television market that is not in the top 25 markets, and such market has more than 1 cable system operator, and the subject cable system is not the cable system with the most subscribers in such television market;

(B) the subject cable system and the cable system with the most subscribers in such television market held on May 1, 1995, cable television franchises from the largest municipality in the television market and the boundaries of such franchises were identical on such date;

(C) the subject cable system is not owned by or under common ownership or control of any one of the 50 cable system operators with the most subscribers as such operators existed on May 1, 1995; and

(D) the system with the most subscribers in the television market is owned by or under common ownership or control of any one of the 10 largest cable system operators as such operators existed on May 1, 1995.

(4) EXEMPT CABLE SYSTEMS.—Subsection (a) does not apply to any cable system if—

(A) the cable system serves no more than 17,000 cable subscribers, of which no less than 8,000 live within an urban area, and no less than 6,000 live within a nonurbanized area as of June 1, 1995;

(B) the cable system is not owned by, or under common ownership or control with, any of the 50 largest cable system operators in existence on June 1, 1995; and

(C) the cable system operates in a television market that was not in the top 100 television markets as of June 1, 1995.

(5) SMALL CABLE SYSTEMS IN NONURBAN AREAS.—Notwithstanding subsections (a) and (c), a local exchange carrier with less than \$100,000,000 in annual operating revenues (or any affiliate of such carrier owned by, operated by, controlled by, or under common control with such carrier) may purchase or otherwise acquire more than a 10 percent financial interest in, or any management interest in, or enter into a joint venture or partnership with, any cable system within the local exchange carrier's telephone service area that serves no more than 20,000 cable subscribers, if no more than 12,000 of those subscribers live within an urbanized area, as defined by the Bureau of the Census.

(6) WAIVERS.—The Commission may waive the restrictions of subsections⁵⁵ (a), (b), or (c) only if—

(A) the Commission determines that, because of the nature of the market served by the affected cable system or facilities used to provide telephone exchange service—

(i) the affected cable operator or local exchange carrier would be subjected to undue economic distress by the enforcement of such provisions;

(ii) the system or facilities would not be economically viable if such provisions were enforced; or

⁵⁵ So in law. Probably should be "subsection".

(iii) the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served; and

(B) the local franchising authority approves of such waiver.

(e) **DEFINITION OF TELEPHONE SERVICE AREA.**—For purposes of this section, the term “telephone service area” when used in connection with a common carrier subject in whole or in part to title II of this Act means the area within which such carrier provided telephone exchange service as of January 1, 1993, but if any common carrier after such date transfers its telephone exchange service facilities to another common carrier, the area to which such facilities provide telephone exchange service shall be treated as part of the telephone service area of the acquiring common carrier and not of the selling common carrier.

SEC. 653. [47 U.S.C. 573] ESTABLISHMENT OF OPEN VIDEO SYSTEMS.

(a) **OPEN VIDEO SYSTEMS.**—

(1) **CERTIFICATES OF COMPLIANCE.**—A local exchange carrier may provide cable service to its cable service subscribers in its telephone service area through an open video system that complies with this section. To the extent permitted by such regulations as the Commission may prescribe consistent with the public interest, convenience, and necessity, an operator of a cable system or any other person may provide video programming through an open video system that complies with this section. An operator of an open video system shall qualify for reduced regulatory burdens under subsection (c) of this section if the operator of such system certifies to the Commission that such carrier complies with the Commission’s regulations under subsection (b) and the Commission approves such certification. The Commission shall publish notice of the receipt of any such certification and shall act to approve or disapprove any such certification within 10 days after receipt of such certification.

(2) **DISPUTE RESOLUTION.**—The Commission shall have the authority to resolve disputes under this section and the regulations prescribed thereunder. Any such dispute shall be resolved within 180 days after notice of such dispute is submitted to the Commission. At that time or subsequently in a separate damages proceeding, the Commission may, in the case of any violation of this section, require carriage, award damages to any person denied carriage, or any combination of such sanctions. Any aggrieved party may seek any other remedy available under this Act.

(b) **COMMISSION ACTIONS.**—

(1) **REGULATIONS REQUIRED.**—Within 6 months after the date of enactment of the Telecommunications Act of 1996, the Commission shall complete all actions necessary (including any reconsideration) to prescribe regulations that—

(A) except as required pursuant to section 611, 614, or 615, prohibit an operator of an open video system from dis-

criminating among video programming providers with regard to carriage on its open video system, and ensure that the rates, terms, and conditions for such carriage are just and reasonable, and are not unjustly or unreasonably discriminatory;

(B) if demand exceeds the channel capacity of the open video system, prohibit an operator of an open video system and its affiliates from selecting the video programming services for carriage on more than one-third of the activated channel capacity on such system, but nothing in this subparagraph shall be construed to limit the number of channels that the carrier and its affiliates may offer to provide directly to subscribers;

(C) permit an operator of an open video system to carry on only one channel any video programming service that is offered by more than one video programming provider (including the local exchange carrier's video programming affiliate): *Provided*, That subscribers have ready and immediate access to any such video programming service;

(D) extend to the distribution of video programming over open video systems the Commission's regulations concerning sports exclusivity (47 C.F.R. 76.67), network non-duplication (47 C.F.R. 76.92 et seq.), and syndicated exclusivity (47 C.F.R. 76.151 et seq.); and

(E)(i) prohibit an operator of an open video system from unreasonably discriminating in favor of the operator or its affiliates with regard to material or information (including advertising) provided by the operator to subscribers for the purposes of selecting programming on the open video system, or in the way such material or information is presented to subscribers;

(ii) require an operator of an open video system to ensure that video programming providers or copyright holders (or both) are able suitably and uniquely to identify their programming services to subscribers;

(iii) if such identification is transmitted as part of the programming signal, require the carrier to transmit such identification without change or alteration; and

(iv) prohibit an operator of an open video system from omitting television broadcast stations or other unaffiliated video programming services carried on such system from any navigational device, guide, or menu.

(2) CONSUMER ACCESS.—Subject to the requirements of paragraph (1) and the regulations thereunder, nothing in this section prohibits a common carrier or its affiliate from negotiating mutually agreeable terms and conditions with over-the-air broadcast stations and other unaffiliated video programming providers to allow consumer access to their signals on any level or screen of any gateway, menu, or other program guide, whether provided by the carrier or its affiliate.

(c) REDUCED REGULATORY BURDENS FOR OPEN VIDEO SYSTEMS.—

(1) IN GENERAL.—Any provision that applies to a cable operator under—

(A) sections 613 (other than subsection (a) thereof), 616, 623(f), 628, 631, and 634 of this title, shall apply,

(B) sections 611, 614, and 615 of this title, and section 325 of title III, shall apply in accordance with the regulations prescribed under paragraph (2), and

(C) sections 612 and 617, and parts III and IV (other than sections 623(f), 628, 631, and 634), of this title shall not apply,

to any operator of an open video system for which the Commission has approved a certification under this section.

(2) IMPLEMENTATION.—

(A) COMMISSION ACTION.—In the rulemaking proceeding to prescribe the regulations required by subsection (b)(1), the Commission shall, to the extent possible, impose obligations that are no greater or lesser than the obligations contained in the provisions described in paragraph (1)(B) of this subsection. The Commission shall complete all action (including any reconsideration) to prescribe such regulations no later than 6 months after the date of enactment of the Telecommunications Act of 1996.

(B) FEES.—An operator of an open video system under this part may be subject to the payment of fees on the gross revenues of the operator for the provision of cable service imposed by a local franchising authority or other governmental entity, in lieu of the franchise fees permitted under section 622. The rate at which such fees are imposed shall not exceed the rate at which franchise fees are imposed on any cable operator transmitting video programming in the franchise area, as determined in accordance with regulations prescribed by the Commission. An operator of an open video system may designate that portion of a subscriber's bill attributable to the fee under this subparagraph as a separate item on the bill.

(3) REGULATORY STREAMLINING.—With respect to the establishment and operation of an open video system, the requirements of this section shall apply in lieu of, and not in addition to, the requirements of title II.

(4) TREATMENT AS CABLE OPERATOR.—Nothing in this Act precludes a video programming provider making use of an open video system from being treated as an operator of a cable system for purposes of section 111 of title 17, United States Code.

(d) DEFINITION OF TELEPHONE SERVICE AREA.—For purposes of this section, the term “telephone service area” when used in connection with a common carrier subject in whole or in part to title II of this Act means the area within which such carrier is offering telephone exchange service.

TITLE VII—MISCELLANEOUS PROVISIONS

SEC. 701. [47 U.S.C. 601] TRANSFER TO COMMISSION OF DUTIES, POWERS, AND FUNCTIONS UNDER EXISTING LAW.

(a) All duties, powers, and functions of the Interstate Commerce Commission under the Act of August 7, 1888 (25 Stat. 382), relating to operation of telegraph lines by railroad and telegraph companies granted Government aid in the construction of their lines, are hereby imposed upon and vested in the Commission: *Provided*, That such transfer of duties, powers, and functions shall not be construed to affect the duties, powers, functions, or jurisdiction of the Interstate Commerce Commission under, or to interfere with or prevent the enforcement of, the Interstate Commerce Act and all Acts amendatory thereof or supplemental thereto.

(b) All duties, powers, and functions of the Postmaster General with respect to telegraph companies and telegraph lines under any existing provision of law are hereby imposed upon and vested in the Commission.

【Section 702 was repealed by Public Law 103–414, section 304(a)(13), 108 Stat. 4296–7.】

【Section 703 was repealed by Public Law 103–414, section 304(a)(13), 108 Stat. 4296–7.】

SEC. 704. [47 U.S.C. 604] EFFECT OF TRANSFERS, REPEALS, AND AMENDMENTS.

(a) All orders, determinations, rules, regulations, permits, contracts, licenses, and privileges which have been issued, made, or granted by the Interstate Commerce Commission, the Federal Radio Commission, or the Postmaster General, under any provision of law repealed or amended by this Act or in the exercise of duties, powers, or functions transferred to the Commission by this Act, and which are in effect at the time this section takes effect, shall continue in effect until modified, terminated, superseded, or repealed by the Commission or by operation of law.

(b) All records transferred to the Commission under this Act shall be available for use by the Commission to the same extent as if such records were originally records of the Commission. All final valuations and determinations of depreciation charges by the Interstate Commerce Commission with respect to common carriers engaged in radio or wire communication, and all orders of the Interstate Commerce Commission with respect to such valuations and determinations, shall have the same force and effect as though made by the Commission under this Act.

SEC. 705. [47 U.S.C. 605] UNAUTHORIZED PUBLICATION OF COMMUNICATIONS.

(a) Except as authorized by chapter 119, title 18, United States Code,⁵⁶ no person receiving, assisting in receiving, transmitting, or

⁵⁶ 18 U.S.C. § 2511(2) authorizes certain interception of communications by communications common carriers and by the Federal Communications Commission. Also, electronic surveillance

Continued

assisting in transmitting, any interstate or foreign communication by wire or radio shall divulge or publish the existence, contents, substance, purport, effect, or meaning thereof, except through authorized channels of transmission or reception, (1) to any person other than the addressee, his agent, or attorney, (2) to a person employed or authorized to forward such communication to its destination, (3) to proper accounting or distributing officers of the various communicating centers over which the communication may be passed, (4) to the master of a ship under whom he is serving, (5) in response to a subpoena issued by a court of competent jurisdiction, or (6) on demand of other lawful authority. No person not being authorized by the sender shall intercept any radio communication and divulge or publish the existence, contents, substance, purport, effect, or meaning of such intercepted communication to any person. No person not being entitled thereto shall receive or assist in receiving any interstate or foreign communication by radio and use such communication (or any information therein contained) for his own benefit or for the benefit of another not entitled thereto. No person having received any intercepted radio communication or having become acquainted with the contents, substance, purport, effect, or meaning of such communication (or any part thereof) knowing that such communication was intercepted, shall divulge or publish the existence, contents, substance, purport, effect, or meaning of such communication (or any part thereof) or use such communication (or any information therein contained) for his own benefit or for the benefit of another not entitled thereto. This section shall not apply to the receiving, divulging, publishing, or utilizing the contents of any radio communication which is transmitted by any station for the use of the general public, which relates to ships, aircraft, vehicles, or persons in distress, or which is transmitted by an amateur radio station operator or by a citizens band radio operator.

(b) The provisions of subsection (a) shall not apply to the interception or receipt by any individual, or the assisting (including the manufacture or sale) of such interception or receipt, of any satellite cable programming for private viewing if—

(1) the programming involved is not encrypted; and

(2)(A) a marketing system is not established under which—

(i) an agent or agents have been lawfully designated for the purpose of authorizing private viewing by individuals, and

(ii) such authorization is available to the individual involved from the appropriate agent or agents; or

(B) a marketing system described in subparagraph (A) is established and the individuals receiving such programming has obtained authorization for private viewing under that system.

(c)⁵⁷ No person shall encrypt or continue to encrypt satellite delivered programs included in the National Program Service of the

for foreign intelligence purposes is addressed in Pub. Law No. 95-511, 92 Stat. 1783 (see §§ 102(a)(4) and 105(f)(2)(C)), Oct. 25, 1978.

⁵⁷ Subsection (c) of section 705 (formerly section 605) was added by section 11 of Public Law 100-626 (the Public Telecommunications Act of 1988). Section 11 of that public law also redesign-

Public Broadcasting Service and intended for public viewing by retransmission by television broadcast stations; except that as long as at least one unencrypted satellite transmission of any program subject to this subsection is provided, this subsection shall not prohibit additional encrypted satellite transmissions of the same program.

(d) For purposes of this section—

(1) the term “satellite cable programming” means video programming which is transmitted via satellite and which is primarily intended for the direct receipt by cable operators for their retransmission to cable subscribers;

(2) the term “agent,” with respect to any person, includes an employee of such person;

(3) the term “encrypt,” when used with respect to satellite cable programming, means to transmit such programming in a form whereby the aural and visual characteristics (or both) are modified or altered for the purpose of preventing the unauthorized receipt of such programming by persons without authorized equipment which is designed to eliminate the effects of such modification or alteration;

(4) the term “private viewing” means the viewing for private use in an individual’s dwelling unit by means of equipment, owned or operated by such individual, capable of receiving satellite cable programming directly from a satellite;

(5) the term “private financial gain” shall not include the gain resulting to any individual for the private use of such individual’s dwelling unit of any programming for which the individual has not obtained authorization for that use; and

(6) the term “any person aggrieved” shall include any person with proprietary rights in the intercepted communication by wire or radio, including wholesale or retail distributors of satellite cable programming, and, in the case of a violation of paragraph (4) of subsection (e), shall also include any person engaged in the lawful manufacture, distribution, or sale of equipment necessary to authorize or receive satellite cable programming.

(e)(1) Any person who willfully violates subsection (a) shall be fined not more than \$2,000 or imprisoned for not more than 6 months, or both.

(2) Any person who violates subsection (a) willfully and for purposes of direct or indirect commercial advantage or private financial gain shall be fined not more than \$50,000 or imprisoned for not more than 2 years, or both, for the first such conviction and shall be fined not more than \$100,000 or imprisoned for not more than 5 years, or both, for any subsequent conviction.

(3)(A) Any person aggrieved by any violation of subsection (a) or paragraph (4) of this subsection may bring a civil action in a United States district court or in any other court of competent jurisdiction.

(B) The court—

noted the following subsections as subsections (d) through (f). However, this redesignation was not reflected in the amendments to those subsections contained in sections 204 and 205 of Public Law 100-667 (the Satellite Home Viewer Act of 1988). This compilation executes those amendments to the redesignated subsections.

(i) may grant temporary and final injunctions on such terms as it may deem reasonable to prevent or restrain violations of subsection (a);

(ii) may award damages as described in subparagraph (C); and

(iii) shall direct the recovery of full costs, including awarding reasonable attorneys' fees to an aggrieved party who prevails.

(C)(i) Damages awarded by any court under this section shall be computed, at the election of the aggrieved party, in accordance with either of the following subclauses;

(I) the party aggrieved may recover the actual damages suffered by him as a result of the violation and any profits of the violator that are attributable to the violation which are not taken into account in computing the actual damages; in determining the violator's profits, the party aggrieved shall be required to prove only the violator's gross revenue, and the violator shall be required to prove his deductible expenses and the elements of profit attributable to factors other than the violation; or

(II) the party aggrieved may recover an award of statutory damages for each violation of subsection (a) involved in the action in a sum of not less than \$1,000 or more than \$10,000, as the court considers just, and for each violation of paragraph (4) of this subsection involved in the action an aggrieved party may recover statutory damages in a sum not less than \$10,000, or more than \$100,000, as the court considers just.

(ii) In any case in which the court finds that the violation was committed willfully and for purposes of direct or indirect commercial advantage or private financial gain, the court in its discretion may increase the award of damages, whether actual or statutory, by an amount of not more than \$100,000 for each violation of subsection (a).

(iii) In any case where the court finds that the violator was not aware and had no reason to believe that his acts constituted a violation of this section, the court in its discretion may reduce the award of damages to a sum of not less than \$250.

(4) Any person who manufactures, assembles, modifies, imports, exports, sells, or distributes any electronic, mechanical, or other device or equipment, knowing or having reason to know that the device or equipment is primarily of assistance in the unauthorized decryption of satellite cable programming, or direct-to-home satellite services, or is intended for any other activity prohibited by subsection (a), shall be fined not more than \$500,000 for each violation, or imprisoned for not more than 5 years for each violation, or both. For purposes of all penalties and remedies established for violations of this paragraph, the prohibited activity established herein as it applies to each such device shall be deemed a separate violation.

(5) The penalties under this subsection shall be in addition to those prescribed under any other provision of this title.

(6) Nothing in this subsection shall prevent any State, or political subdivision thereof, from enacting or enforcing any laws with respect to the importation, sale, manufacture, or distribution of

equipment by any person with the intent of its use to assist in the interception or receipt of radio communications prohibited by subsection (a).

(f) Nothing in this section shall affect any right, obligation, or liability under title 17, United States Code, any rule, regulation, or order thereunder, or any other applicable Federal, State, or local law.

(g) The Commission⁵⁸ shall initiate an inquiry concerning the need for a universal encryption standard that permits decryption of satellite cable programming intended for private viewing. In conducting such inquiry, the Commission shall take into account—

(1) consumer costs and benefits of any such standard, including consumer investment in equipment in operation;

(2) incorporation of technological enhancements, including advanced television formats;

(3) whether any such standard would effectively prevent present and future unauthorized decryption of satellite cable programming;

(4) the costs and benefits of any such standard on other authorized users of encrypted satellite cable programming, including cable systems and satellite master antenna television systems;

(5) the effect of any such standard on competition in the manufacture of decryption equipment; and

(6) the impact of the time delay associated with the Commission procedures necessary for establishment of such standards.

(h) If the Commission finds, based on the information gathered from the inquiry required by subsection (g), that a universal encryption standard is necessary and in the public interest, the Commission shall initiate a rulemaking to establish such a standard.

SEC. 706. [47 U.S.C. 606] WAR EMERGENCY—POWERS OF PRESIDENT.

(a) During the continuance of a war in which the United States is engaged, the President is authorized, if he finds it necessary for the national defense and security, to direct that such communications as in his judgment may be essential to the national defense and security shall have preference or priority with any carrier subject to this Act. He may give these directions at and for such times as he may determine, and may modify, change, suspend, or annul them and for any such purpose he is hereby authorized to issue orders directly, or through such person or persons as he designates for the purpose, or through the Commission. Any carrier complying with any such order or direction or preference or priority herein authorized shall be exempt from any and all provisions in existing law imposing civil or criminal penalties, obligations, or liabilities upon carriers by reason of giving preference or priority in compliance with such order or direction.

(b) It shall be unlawful for any person during any war in which the United States is engaged to knowingly or willfully, by physical force or intimidation by threats of physical force, obstruct or retard

⁵⁸This compilation reflects amendments contained in section 304(a)(15) of the Communications Assistance for Law Enforcement Act (P.L. 103-414).

or aid in obstructing or retarding interstate or foreign communication by radio or wire. The President is hereby authorized, whenever in his judgment the public interest requires, to employ the armed forces of the United States to prevent any such obstruction or retardation of communication: *Provided*, That nothing in this section shall be construed to repeal, modify, or affect either section 6 or section 20 of the Act entitled "An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes", approved October 15, 1914.

(c) Upon proclamation by the President that there exists war or a threat of war, or a state of public peril or disaster or other national emergency, or in order to preserve the neutrality of the United States, the President, if he deems it necessary in the interest of national security or defense, may suspend or amend, for such time as he may see fit, the rules and regulations applicable to any or all stations or devices capable of emitting electromagnetic radiations within the jurisdiction of the United States as prescribed by the Commission, and may cause the closing of any station for radio communication, or any device capable of emitting electromagnetic radiations between 10 kilocycles and 100,000 megacycles, which is suitable for use as a navigational aid beyond five miles, and the removal therefrom of its apparatus and equipment, or he may authorize the use or control of any such station or device and/or its apparatus and equipment, by any department of the Government under such regulations as he may prescribe upon just compensation to the owners. The authority granted to the President, under this subsection, to cause the closing of any station or device and the removal therefrom of its apparatus and equipment, or to authorize the use or control of any station or device and/or its apparatus and equipment, may be exercised in the Canal Zone.

(d) Upon proclamation by the President that there exists a state or threat of war involving the United States, the President, if he deems it necessary in the interest of the national security and defense, may, during a period ending not later than six months after the termination of such state or threat of war and not later than such earlier date as the Congress by concurrent resolution may designate, (1) suspend or amend the rules and regulations applicable to any or all facilities or stations for wire communication within the jurisdiction of the United States as prescribed by the Commission, (2) cause the closing of any facility or station for wire communication and the removal therefrom of its apparatus and equipment, or (3) authorize the use or control of any such facility or station and its apparatus and equipment by any department of the Government under such regulations as he may prescribe, upon just compensation to the owners.

(e) The President shall ascertain the just compensation for such use or control and certify the amount ascertained to Congress for appropriation and payment to the person entitled thereto. If the amount so certified is unsatisfactory to the person entitled thereto, such person shall be paid only 75 per centum of the amount and shall be entitled to sue the United States to recover such further sums as added to such payment of 75 per centum will make such amount as will be just compensation for the use and control. Such

suit shall be brought in the manner provided by paragraph 20 of section 24, or by section 145, of the Judicial Code, as amended.

(f) Nothing in subsection (c) or (d) shall be construed to amend, repeal, impair, or effect existing laws or powers of the States in relation to taxation or the lawful police regulations of the several States, except wherein such laws, powers, or regulations may affect the transmission of Government communications, or the issue of stocks and bonds by any communication system or systems.

(g) Nothing in subsection (c) or (d) shall be construed to authorize the President to make any amendment to the rules and regulations of the Commission which the Commission would not be authorized by law to make; and nothing in subsection (d) shall be construed to authorize the President to take any action the force and effect of which shall continue beyond the date after which taking of such action would not have been authorized.

(h) Any person who willfully does or causes or suffers to be done any act prohibited pursuant to the exercise of the President's authority under this section, or who willfully fails to do any act which he is required to do pursuant to the exercise of the President's authority under this section, or who willfully causes or suffers such failure, shall, upon conviction thereof, be punished for such offense by a fine of not more than \$1,000 or by imprisonment for not more than one year, or both, and, if a firm, partnership, association, or corporation, by fine of not more than \$5,000, except that any person who commits such an offense with intent to injure the United States, or with intent to secure an advantage to any foreign nation, shall, upon conviction thereof, be punished by a fine of not more than \$20,000 or by imprisonment for not more than 20 years, or both.

SEC. 707. [47 U.S.C. 607] EFFECTIVE DATE OF ACT.

This Act shall take effect upon the organization of the Commission, except that this section and sections 1 and 4 shall take effect July 1, 1934. The Commission shall be deemed to be organized upon such date as four members of the Commission have taken office.

SEC. 708. [47 U.S.C. 608] SEPARABILITY CLAUSE.

If any provision of this Act or the application thereof to any person or circumstance is held invalid, the remainder of the Act and the application of such provision to other persons or circumstances shall not be affected thereby.

SEC. 709. [47 U.S.C. 609] SHORT TITLE.

This Act may be cited as the "Communications Act of 1934."

SEC. 710. [47 U.S.C. 610] TELEPHONE SERVICE FOR THE DISABLED.

(a) The Commission shall establish such regulations as are necessary to ensure reasonable access to telephone service by persons with impaired hearing.

(b)(1) Except as provided in paragraphs (2) and (3) and subsection (c), the Commission shall require that customer premises equipment described in this paragraph provide internal means for effective use with hearing aids that are designed to be compatible with telephones which meet established technical standards for

hearing aid compatibility. Customer premises equipment described in this paragraph are the following:

(A) All essential telephones.

(B) All telephones manufactured in the United States (other than for export) more than one year after the date of enactment of the Hearing Aid Compatibility Act of 1988 or imported for use in the United States more than one year after such date.

(C) All customer premises equipment used with advanced communications services that is designed to provide 2-way voice communication via a built-in speaker intended to be held to the ear in a manner functionally equivalent to a telephone, subject to the regulations prescribed by the Commission under subsection (e).

(2)(A) The regulations prescribed by the Commission under paragraph (1) shall exempt from the requirements established pursuant to subparagraphs (B) and (C) of paragraph (1) only—

(i) telephones used with public mobile services;

(ii) telephones used with private radio services; and

(iii) secure telephones.

(B) The Commission shall periodically assess the appropriateness of continuing in effect the exemptions for telephones and other customer premises equipment described in subparagraph (A) of this paragraph. The Commission shall revoke or otherwise limit any such exemption if the Commission determines that—

(i) such revocation or limitation is in the public interest;

(ii) continuation of the exemption without such revocation or limitation would have an adverse effect on hearing-impaired individuals;

(iii) compliance with the requirements of subparagraph (B) or (C) of paragraph (1) is technologically feasible for the telephones to which the exemption applies; and

(iv) compliance with the requirements of subparagraph (B) or (C) of paragraph (1) would not increase costs to such an extent that the telephones to which the exemption applies could not be successfully marketed.

(3) The Commission may, upon the application of any interested person, initiate a proceeding to waive the requirements of paragraph (1)(B) of this subsection with respect to new telephones, or telephones associated with a new technology or service. The Commission shall not grant such a waiver unless the Commission determines, on the basis of evidence in the record of such proceeding, that such telephones, or such technology or service, are in the public interest, and that (A) compliance with the requirements of paragraph (1)(B) is technologically infeasible, or (B) compliance with such requirements would increase the costs of the telephones, or of the technology or service, to such an extent that such telephones, technology, or service could not be successfully marketed. In any proceeding under this paragraph to grant a waiver from the requirements of paragraph (1)(B), the Commission shall consider the effect on hearing-impaired individuals of granting the waiver. The Commission shall periodically review and determine the continuing need for any waiver granted pursuant to this paragraph.

(4) For purposes of this subsection—

(A) the term “essential telephones” means only coin-operated telephones, telephones provided for emergency use, and other telephones frequently needed for use by persons using such hearing aids;

(B) the term “telephones used with public mobile services” means telephones and other customer premises equipment used in whole or in part with air-to-ground radiotelephone services, cellular radio telecommunications services, offshore radio, rural radio service, public land mobile telephone service, or other common carrier radio communication services covered by title 47 of the Code of Federal Regulations, or any functionally equivalent unlicensed wireless services;

(C) the term “telephones used with private radio services” means telephones and other customer premises equipment used in whole or in part with private land mobile radio services and other communications services characterized by the Commission in its rules as private radio services; and

(D) the term “secure telephones” means telephones that are approved by the United States Government for the transmission of classified or sensitive voice communications.

(c) The Commission shall establish or approve such technical standards as are required to enforce this section. A telephone or other customer premises equipment that is compliant with relevant technical standards developed through a public participation process and in consultation with interested consumer stakeholders (designated by the Commission for the purposes of this section) will be considered hearing aid compatible for purposes of this section, until such time as the Commission may determine otherwise. The Commission shall consult with the public, including people with hearing loss, in establishing or approving such technical standards. The Commission may delegate this authority to an employee pursuant to section 5(c). The Commission shall remain the final arbiter as to whether the standards meet the requirements of this section.

(d) The Commission shall establish such requirements for the labeling of packaging materials for equipment as are needed to provide adequate information to consumers on the compatibility between telephones and hearing aids.

(e) In any rulemaking to implement the provisions of this section, the Commission shall specifically consider the costs and benefits to all telephone users, including persons with and without hearing loss. The Commission shall ensure that regulations adopted to implement this section encourage the use of currently available technology and do not discourage or impair the development of improved technology. In implementing the provisions of subsection (b)(1)(C), the Commission shall use appropriate timetables or benchmarks to the extent necessary (1) due to technical feasibility, or (2) to ensure the marketability or availability of new technologies to users.

(f) The Commission shall periodically review the regulations established pursuant to this section. Except for coin-operated telephones and telephones provided for emergency use, the Commission may not require the retrofitting of equipment to achieve the purposes of this section.

(g) Any common carrier or connecting carrier may provide specialized terminal equipment needed by persons whose hearing, speech, vision, or mobility is impaired. The State commission may allow the carrier to recover in its tariffs for regulated service reasonable and prudent costs not charged directly to users of such equipment.

(h) **RULE OF CONSTRUCTION.**—Nothing in the Twenty-First Century Communications and Video Accessibility Act of 2010 shall be construed to modify the Commission's regulations set forth in section 20.19 of title 47 of the Code of Federal Regulations, as in effect on the date of enactment of such Act.

SEC. 711. [47 U.S.C. 611] CLOSED-CAPTIONING OF PUBLIC SERVICE ANNOUNCEMENTS.

Any television public service announcement that is produced or funded in whole or in part by any agency or instrumentality of Federal Government shall include closed captioning of the verbal content of such announcement. A television broadcast station licensee—

(1) shall not be required to supply closed captioning for any such announcement that fails to include it; and

(2) shall not be liable for broadcasting any such announcement without transmitting a closed caption unless the licensee intentionally fails to transmit the closed caption that was included with the announcement.

SEC. 712. [47 U.S.C. 612] SYNDICATED EXCLUSIVITY.

(a) The Federal Communications Commission shall initiate a combined inquiry and rulemaking proceeding for the purpose of—

(1) determining the feasibility of imposing syndicated exclusivity rules with respect to the delivery of syndicated programming (as defined by the Commission) for private home viewing of secondary transmissions by satellite of broadcast station signals similar to the rules issued by the Commission with respect to syndicated exclusivity and cable television; and

(2) adopting such rules if the Commission considers the imposition of such rules to be feasible.

(b) In the event that the Commission adopts such rules, any willful and repeated secondary transmission made by a satellite carrier to the public of a primary transmission embodying the performance or display of a work which violates such Commission rules shall be subject to the remedies, sanctions, and penalties provided by title V and section 705 of this Act.⁵⁹

SEC. 713. [47 U.S.C. 613] VIDEO PROGRAMMING ACCESSIBILITY.

(b)⁶⁰ **ACCOUNTABILITY CRITERIA.**—Within 18 months after such date of enactment, the Commission shall prescribe such regulations as are necessary to implement this section. Such regulations shall ensure that—

(1) video programming first published or exhibited after the effective date of such regulations is fully accessible through the provision of closed captions, except as provided in subsection (d); and

⁵⁹This section was added by Public Law 100-667, 102 Stat. 3949, Nov. 16, 1988, and, pursuant to section 207 of that Act, ceased to be effective on December 31, 1994.

⁶⁰Subsection (a) was repealed by section 402(i)(11) of division P of Public Law 115-141.

(2) video programming providers or owners maximize the accessibility of video programming first published or exhibited prior to the effective date of such regulations through the provision of closed captions, except as provided in subsection (d).

(c) DEADLINES FOR CAPTIONING.—

(1) IN GENERAL.—The regulations prescribed pursuant to subsection (b) shall include an appropriate schedule of deadlines for the provision of closed captioning of video programming once published or exhibited on television.

(2) DEADLINES FOR PROGRAMMING DELIVERED USING INTERNET PROTOCOL.—

(A) REGULATIONS ON CLOSED CAPTIONING ON VIDEO PROGRAMMING DELIVERED USING INTERNET PROTOCOL.—Not later than 6 months after the submission of the report to the Commission required by subsection (e)(1) of the Twenty-First Century Communications and Video Accessibility Act of 2010, the Commission shall revise its regulations to require the provision of closed captioning on video programming delivered using Internet protocol that was published or exhibited on television with captions after the effective date of such regulations.

(B) SCHEDULE.—The regulations prescribed under this paragraph shall include an appropriate schedule of deadlines for the provision of closed captioning, taking into account whether such programming is prerecorded and edited for Internet distribution, or whether such programming is live or near-live and not edited for Internet distribution.

(C) COST.—The Commission may delay or waive the regulation promulgated under subparagraph (A) to the extent the Commission finds that the application of the regulation to live video programming delivered using Internet protocol with captions after the effective date of such regulations would be economically burdensome to providers of video programming or program owners.

(D) REQUIREMENTS FOR REGULATIONS.—The regulations prescribed under this paragraph—

(i) shall contain a definition of “near-live programming” and “edited for Internet distribution”;

(ii) may exempt any service, class of service, program, class of program, equipment, or class of equipment for which the Commission has determined that the application of such regulations would be economically burdensome for the provider of such service, program, or equipment;

(iii) shall clarify that, for the purposes of implementation, of this subsection, the terms “video programming distributors” and “video programming providers” include an entity that makes available directly to the end user video programming through a distribution method that uses Internet protocol;

(iv) and describe the responsibilities of video programming providers or distributors and video programming owners;

(v) shall establish a mechanism to make available to video programming providers and distributors information on video programming subject to the Act on an ongoing basis;

(vi) shall consider that the video programming provider or distributor shall be deemed in compliance if such entity enables the rendering or pass through of closed captions and makes a good faith effort to identify video programming subject to the Act using the mechanism created in (v); and

(vii) shall provide that de minimis failure to comply with such regulations by a video programming provider or owner shall not be treated as a violation of the regulations.

(3) ALTERNATE MEANS OF COMPLIANCE.—An entity may meet the requirements of this section through alternate means than those prescribed by regulations pursuant to subsection (b), as revised pursuant to paragraph (2)(A) of this subsection, if the requirements of this section are met, as determined by the Commission.

(d) EXEMPTIONS.—Notwithstanding subsection (b)—

(1) the Commission may exempt by regulation programs, classes of programs, or services for which the Commission has determined that the provision of closed captioning would be economically burdensome to the provider or owner of such programming;

(2) a provider of video programming or the owner of any program carried by the provider shall not be obligated to supply closed captions if such action would be inconsistent with contracts in effect on the date of enactment of the Telecommunications Act of 1996, except that nothing in this section shall be construed to relieve a video programming provider of its obligations to provide services required by Federal law; and

(3) a provider of video programming or program owner may petition the Commission for an exemption from the requirements of this section, and the Commission may grant such petition upon a showing that the requirements contained in this section would be economically burdensome. During the pendency of such a petition, such provider or owner shall be exempt from the requirements of this section. The Commission shall act to grant or deny any such petition, in whole or in part, within 6 months after the Commission receives such petition, unless the Commission finds that an extension of the 6-month period is necessary to determine whether such requirements are economically burdensome.

(e) UNDUE BURDEN.—The term “undue burden” means significant difficulty or expense. In determining whether the closed captions necessary to comply with the requirements of this paragraph would result in an undue economic burden, the factors to be considered include—

(1) the nature and cost of the closed captions for the programming;

(2) the impact on the operation of the provider or program owner;

(3) the financial resources of the provider or program owner; and

(4) the type of operations of the provider or program owner.

(f) VIDEO DESCRIPTION.—

(1) REINSTATEMENT OF REGULATIONS.—On the day that is 1 year after the date of enactment of the Twenty-First Century Communications and Video Accessibility Act of 2010, the Commission shall, after a rulemaking, reinstate its video description regulations contained in the Implementation of Video Description of Video Programming Report and Order (15 F.C.C.R. 15,230 (2000)), recon. granted in part and denied in part, (16 F.C.C.R. 1251 (2001)), modified as provided in paragraph (2).

(2) MODIFICATIONS TO REINSTATED REGULATIONS.—Such regulations shall be modified only as follows:

(A) The regulations shall apply to video programming, as defined in subsection (h), insofar as such programming is transmitted for display on television in digital format.

(B) The Commission shall update the list of the top 25 designated market areas, the list of the top 5 national non-broadcast networks that have at least 50 hours per quarter of prime time programming that is not exempt under this paragraph, and the beginning calendar quarter for which compliance shall be calculated.

(C) The regulations may permit a provider of video programming or a program owner to petition the Commission for an exemption from the requirements of this section upon a showing that the requirements contained in this section be economically burdensome.

(D) The Commission may exempt from the regulations established pursuant to paragraph (1) a service, class of services, program, class of programs, equipment, or class of equipment for which the Commission has determined that the application of such regulations would be economically burdensome for the provider of such service, program, or equipment.

(E) The regulations shall not apply to live or near-live programming.

(F) The regulations shall provide for an appropriate phased schedule of deadlines for compliance.

(G) The Commission shall consider extending the exemptions and limitations in the reinstated regulations for technical capability reasons to all providers and owners of video programming.

(3) INQUIRIES ON FURTHER VIDEO DESCRIPTION REQUIREMENTS.—The Commission shall commence the following inquiries not later than 1 year after the completion of the phase-in of the reinstated regulations and shall report to Congress 1 year thereafter on the findings for each of the following:

(A) VIDEO DESCRIPTION IN TELEVISION PROGRAMMING.—The availability, use, and benefits of video description on video programming distributed on television, the technical and creative issues associated with providing such video description, and the financial costs of providing

such video description for providers of video programming and program owners.

(B) VIDEO DESCRIPTION IN VIDEO PROGRAMMING DISTRIBUTED ON THE INTERNET.—The technical and operational issues, costs, and benefits of providing video descriptions for video programming that is delivered using Internet protocol.

(4) CONTINUING COMMISSION AUTHORITY.—

(A) IN GENERAL.—The Commission may not issue additional regulations unless the Commission determines, at least 2 years after completing the reports required in paragraph (3), that the need for and benefits of providing video description for video programming, insofar as such programming is transmitted for display on television, are greater than the technical and economic costs of providing such additional programming.

(B) LIMITATION.—If the Commission makes the determination under subparagraph (A) and issues additional regulations, the Commission may not increase, in total, the hour requirement for additional described programming by more than 75 percent of the requirement in the regulations reinstated under paragraph (1).

(C) APPLICATION TO DESIGNATED MARKET AREAS.—

(i) IN GENERAL.—After the Commission completes the reports on video description required in paragraph (3), the Commission shall phase in the video description regulations for the top 60 designated market areas, except that the Commission may grant waivers to entities in specific designated market areas where it deems appropriate.

(ii) PHASE-IN DEADLINE.—The phase-in described in clause (i) shall be completed not later than 6 years after the date of enactment of the Twenty-First Century Communications and Video Accessibility Act of 2010.

(iii) REPORT.—Nine years after the date of enactment of the Twenty-First Century Communications and Video Accessibility Act of 2010, the Commission shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report assessing—

(I) the types of described video programming that is available to consumers;

(II) consumer use of such programming;

(III) the costs to program owners, providers, and distributors of creating such programming;

(IV) the potential costs to program owners, providers, and distributors in designated market areas outside of the top 60 of creating such programming;

(V) the benefits to consumers of such programming;

(VI) the amount of such programming currently available; and

(VII) the need for additional described programming in designated market areas outside the top 60.

(iv) **ADDITIONAL MARKET AREAS.**—Ten years after the date of enactment of the Twenty-First Century Communications and Video Accessibility Act of 2010, the Commission shall have the authority, based upon the findings, conclusions, and recommendations contained in the report under clause (iii), to phase in the video description regulations for up to an additional 10 designated market areas each year—

(I) if the costs of implementing the video description regulations to program owners, providers, and distributors in those additional markets are reasonable, as determined by the Commission; and

(II) except that the Commission may grant waivers to entities in specific designated market areas where it deems appropriate.

(g) **EMERGENCY INFORMATION.**—Not later than 1 year after the Advisory Committee report under subsection (e)(2) is submitted to the Commission, the Commission shall complete a proceeding to—

(1) identify methods to convey emergency information (as that term is defined in section 79.2 of title 47, Code of Federal Regulations) in a manner accessible to individuals who are blind or visually impaired; and

(2) promulgate regulations that require video programming providers and video programming distributors (as those terms are defined in section 79.1 of title 47, Code of Federal Regulations) and program owners to convey such emergency information in a manner accessible to individuals who are blind or visually impaired.

(h) **DEFINITIONS.**—For purposes of this section, section 303, and section 330:

(1) **VIDEO DESCRIPTION.**—The term “video description” means the insertion of audio narrated descriptions of a television program’s key visual elements into natural pauses between the program’s dialogue.

(2) **VIDEO PROGRAMMING.**—The term “video programming” means programming by, or generally considered comparable to programming provided by a television broadcast station, but not including consumer-generated media (as defined in section 3).

(j)⁶¹ **PRIVATE RIGHTS OF ACTIONS PROHIBITED.**—Nothing in this section shall be construed to authorize any private right of action to enforce any requirement of this section or any regulation thereunder. The Commission shall have exclusive jurisdiction with respect to any complaint under this section.

⁶¹So in law. There is no subsection (i) in section 713.

SEC. 714. [47 U.S.C. 614] TELECOMMUNICATIONS DEVELOPMENT FUND.

(a) **PURPOSE OF SECTION.**—It is the purpose of this section—

(1) to promote access to capital for small businesses in order to enhance competition in the telecommunications industry;

(2) to stimulate new technology development, and promote employment and training; and

(3) to support universal service and promote delivery of telecommunications services to underserved rural and urban areas.

(b) **ESTABLISHMENT OF FUND.**—There is hereby established a body corporate to be known as the Telecommunications Development Fund, which shall have succession until dissolved. The Fund shall maintain its principal office in the District of Columbia and shall be deemed, for purposes of venue and jurisdiction in civil actions, to be a resident and citizen thereof.

(c) **INDEPENDENT BOARD OF DIRECTORS.**—The Fund shall have a Board of Directors consisting of 5 people with experience in areas including finance, investment banking, government banking, communications law and administrative practice, and public policy. The Board of Directors shall select annually a Chair from among the directors. A nominating committee, comprised of the Chair and 2 other directors selected by the Chair, shall appoint additional directors. The Fund's bylaws shall regulate the other aspects of the Board of Directors, including provisions relating to meetings, quorums, committees, and other matters, all as typically contained in the bylaws of a similar private investment fund.

(d) **ACCOUNTS OF THE FUND.**—The Fund shall maintain its accounts at a financial institution designated for purposes of this section by the Chairman of the Board. The accounts of the Fund shall consist of—

(1) such sums as may be appropriated to the Commission for advances to the Fund;

(2) any contributions or donations to the Fund that are accepted by the Fund; and

(3) any repayment of, or other payment made with respect to, loans, equity, or other extensions of credit made from the Fund.

(e) **USE OF THE FUND.**—All moneys deposited into the accounts of the Fund shall be used solely for—

(1) the making of loans, investments, or other extensions of credits to eligible small businesses in accordance with subsection (f);

(2) the provision of financial advice to eligible small businesses;

(3) expenses for the administration and management of the Fund (including salaries, expenses, and the rental or purchase of office space for the fund⁶²);

(4) preparation of research, studies, or financial analyses; and

⁶²So in law. Probably should be "Fund".

(5) other services consistent with the purposes of this section.

(f) LENDING AND CREDIT OPERATIONS.—Loans or other extensions of credit from the Fund shall be made available to an eligible small business on the basis of—

(1) the analysis of the business plan of the eligible small business;

(2) the reasonable availability of collateral to secure the loan or credit extension;

(3) the extent to which the loan or credit extension promotes the purposes of this section; and

(4) other lending policies as defined by the Board.

(g) RETURN OF ADVANCES.—Any advances appropriated pursuant to subsection (d)(1) shall be disbursed upon such terms and conditions (including conditions relating to the time or times of repayment) as are specified in any appropriations Act providing such advances.

(h) GENERAL CORPORATE POWERS.—The Fund shall have power—

(1) to sue and be sued, complain and defend, in its corporate name and through its own counsel;

(2) to adopt, alter, and use the corporate seal, which shall be judicially noticed;

(3) to adopt, amend, and repeal by its Board of Directors, bylaws, rules, and regulations as may be necessary for the conduct of its business;

(4) to conduct its business, carry on its operations, and have officers and exercise the power granted by this section in any State without regard to any qualification or similar statute in any State;

(5) to lease, purchase, or otherwise acquire, own, hold, improve, use, or otherwise deal in and with any property, real, personal, or mixed, or any interest therein, wherever situated, for the purposes of the Fund;

(6) to accept gifts or donations of services, or of property, real, personal, or mixed, tangible or intangible, in aid of any of the purposes of the Fund;

(7) to sell, convey, mortgage, pledge, lease, exchange, and otherwise dispose of its property and assets;

(8) to appoint such officers, attorneys, employees, and agents as may be required, to determine their qualifications, to define their duties, to fix their salaries, require bonds for them, and fix the penalty thereof; and

(9) to enter into contracts, to execute instruments, to incur liabilities, to make loans and equity investment, and to do all things as are necessary or incidental to the proper management of its affairs and the proper conduct of its business.

(i) ACCOUNTING, AUDITING, AND REPORTING.—The accounts of the Fund shall be audited annually. Such audits shall be conducted in accordance with generally accepted auditing standards by independent certified public accountants. A report of each such audit shall be furnished to the Secretary of the Treasury and the Commission. The representatives of the Secretary and the Commission shall have access to all books, accounts, financial records, reports,

files, and all other papers, things, or property belonging to or in use by the Fund and necessary to facilitate the audit.

(j) **REPORT ON AUDITS BY TREASURY.**—A report of each such audit for a fiscal year shall be made by the Secretary of the Treasury to the President and to the Congress not later than 6 months following the close of such fiscal year. The report shall set forth the scope of the audit and shall include a statement of assets and liabilities, capital and surplus or deficit; a statement of surplus or deficit analysis; a statement of income and expense; a statement of sources and application of funds; and such comments and information as may be deemed necessary to keep the President and the Congress informed of the operations and financial condition of the Fund, together with such recommendations with respect thereto as the Secretary may deem advisable.

(k) **DEFINITIONS.**—As used in this section:

(1) **ELIGIBLE SMALL BUSINESS.**—The term “eligible small business” means business enterprises engaged in the telecommunications industry that have \$50,000,000 or less in annual revenues, on average over the past 3 years prior to submitting the application under this section.

(2) **FUND.**—The term “Fund” means the Telecommunications Development Fund established pursuant to this section.

(3) **TELECOMMUNICATIONS INDUSTRY.**—The term “telecommunications industry” means communications businesses using regulated or unregulated facilities or services and includes broadcasting, telecommunications, cable, computer, data transmission, software, programming, advanced messaging, and electronics businesses.

SEC. 715. [47 U.S.C. 616] INTERNET PROTOCOL-BASED RELAY SERVICES.

Within one year after the date of enactment of the Twenty-First Century Communications and Video Accessibility Act of 2010, each interconnected VoIP service provider and each provider of non-interconnected VoIP service shall participate in and contribute to the Telecommunications Relay Services Fund established in section 64.604(c)(5)(iii) of title 47, Code of Federal Regulations, as in effect on the date of enactment of such Act, in a manner prescribed by the Commission by regulation to provide for obligations of such providers that are consistent with and comparable to the obligations of other contributors to such Fund.

SEC. 716. [47 U.S.C. 617] ACCESS TO ADVANCED COMMUNICATIONS SERVICES AND EQUIPMENT.

(a) **MANUFACTURING.**—

(1) **IN GENERAL.**—With respect to equipment manufactured after the effective date of the regulations established pursuant to subsection (e), and subject to those regulations, a manufacturer of equipment used for advanced communications services, including end user equipment, network equipment, and software, shall ensure that the equipment and software that such manufacturer offers for sale or otherwise distributes in interstate commerce shall be accessible to and usable by individuals

with disabilities, unless the requirements of this subsection are not achievable.

(2) **INDUSTRY FLEXIBILITY.**—A manufacturer of equipment may satisfy the requirements of paragraph (1) with respect to such equipment by—

(A) ensuring that the equipment that such manufacturer offers is accessible to and usable by individuals with disabilities without the use of third party applications, peripheral devices, software, hardware, or customer premises equipment; or

(B) if such manufacturer chooses, using third party applications, peripheral devices, software, hardware, or customer premises equipment that is available to the consumer at nominal cost and that individuals with disabilities can access.

(b) **SERVICE PROVIDERS.**—

(1) **IN GENERAL.**—With respect to services provided after the effective date of the regulations established pursuant to subsection (e), and subject to those regulations, a provider of advanced communications services shall ensure that such services offered by such provider in or affecting interstate commerce are accessible to and usable by individuals with disabilities, unless the requirements of this subsection are not achievable.

(2) **INDUSTRY FLEXIBILITY.**—A provider of services may satisfy the requirements of paragraph (1) with respect to such services by—

(A) ensuring that the services that such provider offers are accessible to and usable by individuals with disabilities without the use of third party applications, peripheral devices, software, hardware, or customer premises equipment; or

(B) if such provider chooses, using third party applications, peripheral devices, software, hardware, or customer premises equipment that is available to the consumer at nominal cost and that individuals with disabilities can access.

(c) **COMPATIBILITY.**—Whenever the requirements of subsections (a) or (b) are not achievable, a manufacturer or provider shall ensure that its equipment or service is compatible with existing peripheral devices or specialized customer premises equipment commonly used by individuals with disabilities to achieve access, unless the requirement of this subsection is not achievable.

(d) **NETWORK FEATURES, FUNCTIONS, AND CAPABILITIES.**—Each provider of advanced communications services has the duty not to install network features, functions, or capabilities that impede accessibility or usability.

(e) **REGULATIONS.**—

(1) **IN GENERAL.**—Within one year after the date of enactment of the Twenty-First Century Communications and Video Accessibility Act of 2010, the Commission shall promulgate such regulations as are necessary to implement this section. In prescribing the regulations, the Commission shall—

(A) include performance objectives to ensure the accessibility, usability, and compatibility of advanced communications services and the equipment used for advanced communications services by individuals with disabilities;

(B) provide that advanced communications services, the equipment used for advanced communications services, and networks used to provide advanced communications services may not impair or impede the accessibility of information content when accessibility has been incorporated into that content for transmission through advanced communications services, equipment used for advanced communications services, or networks used to provide advanced communications services;

(C) determine the obligations under this section of manufacturers, service providers, and providers of applications or services accessed over service provider networks; and

(D) not mandate technical standards, except that the Commission may adopt technical standards as a safe harbor for such compliance if necessary to facilitate the manufacturers' and service providers' compliance with sections (a) through (c).

(2) PROSPECTIVE GUIDELINES.—The Commission shall issue prospective guidelines for a manufacturer or provider regarding the requirements of this section.

(f) SERVICES AND EQUIPMENT SUBJECT TO SECTION 255.—The requirements of this section shall not apply to any equipment or services, including interconnected VoIP service, that are subject to the requirements of section 255 on the day before the date of enactment of the Twenty-First Century Communications and Video Accessibility Act of 2010. Such services and equipment shall remain subject to the requirements of section 255.

(g) ACHIEVABLE DEFINED.—For purposes of this section and section 718, the term “achievable” means with reasonable effort or expense, as determined by the Commission. In determining whether the requirements of a provision are achievable, the Commission shall consider the following factors:

(1) The nature and cost of the steps needed to meet the requirements of this section with respect to the specific equipment or service in question.

(2) The technical and economic impact on the operation of the manufacturer or provider and on the operation of the specific equipment or service in question, including on the development and deployment of new communications technologies.

(3) The type of operations of the manufacturer or provider.

(4) The extent to which the service provider or manufacturer in question offers accessible services or equipment containing varying degrees of functionality and features, and offered at differing price points.

(h) COMMISSION FLEXIBILITY.—

(1) WAIVER.—The Commission shall have the authority, on its own motion or in response to a petition by a manufacturer or provider of advanced communications services or any interested party, to waive the requirements of this section for any

feature or function of equipment used to provide or access advanced communications services, or for any class of such equipment, for any provider of advanced communications services, or for any class of such services, that—

(A) is capable of accessing an advanced communications service; and

(B) is designed for multiple purposes, but is designed primarily for purposes other than using advanced communications services.

(2) **SMALL ENTITY EXEMPTION.**—The Commission may exempt small entities from the requirements of this section.

(i) **CUSTOMIZED EQUIPMENT OR SERVICES.**—The provisions of this section shall not apply to customized equipment or services that are not offered directly to the public, or to such classes of users as to be effectively available directly to the public, regardless of the facilities used.

(j) **RULE OF CONSTRUCTION.**—This section shall not be construed to require a manufacturer of equipment used for advanced communications or a provider of advanced communications services to make every feature and function of every device or service accessible for every disability.

SEC. 717. [47 U.S.C. 618] ENFORCEMENT AND RECORDKEEPING OBLIGATIONS.

(a) **COMPLAINT AND ENFORCEMENT PROCEDURES.**—Within one year after the date of enactment of the Twenty-First Century Communications and Video Accessibility Act of 2010, the Commission shall establish regulations that facilitate the filing of formal and informal complaints that allege a violation of section 255, 716, or 718, establish procedures for enforcement actions by the Commission with respect to such violations, and implement the recordkeeping obligations of paragraph (5) for manufacturers and providers subject to such sections. Such regulations shall include the following provisions:

(1) **NO FEE.**—The Commission shall not charge any fee to an individual who files a complaint alleging a violation of section 255, 716, or 718.

(2) **RECEIPT OF COMPLAINTS.**—The Commission shall establish separate and identifiable electronic, telephonic, and physical receptacles for the receipt of complaints filed under section 255, 716, or 718.

(3) **COMPLAINTS TO THE COMMISSION.**—

(A) **IN GENERAL.**—Any person alleging a violation of section 255, 716, or 718 by a manufacturer of equipment or provider of service subject to such sections may file a formal or informal complaint with the Commission.

(B) **INVESTIGATION OF INFORMAL COMPLAINT.**—The Commission shall investigate the allegations in an informal complaint and, within 180 days after the date on which such complaint was filed with the Commission, issue an order concluding the investigation, unless such complaint is resolved before such time. The order shall include a determination whether any violation occurred.

(i) If the Commission determines that a violation has occurred, the Commission may, in the order issued

under this subparagraph or in a subsequent order, direct the manufacturer or service provider to bring the service, or in the case of a manufacturer, the next generation of the equipment or device, into compliance with requirements of those sections within a reasonable time established by the Commission in its order.

(ii) NO VIOLATION.—If a determination is made that a violation has not occurred, the Commission shall provide the basis for such determination.

(C) CONSOLIDATION OF COMPLAINTS.—The Commission may consolidate for investigation and resolution complaints alleging substantially the same violation.

(4) OPPORTUNITY TO RESPOND.—Before the Commission makes a determination pursuant to paragraph (3), the party that is the subject of the complaint shall have a reasonable opportunity to respond to such complaint, and may include in such response any factors that are relevant to such determination. Before issuing a final order under paragraph (3)(B)(i), the Commission shall provide such party a reasonable opportunity to comment on any proposed remedial action.

(5) RECORDKEEPING.—(A) Beginning one year after the effective date of regulations promulgated pursuant to section 716(e), each manufacturer and provider subject to sections 255, 716, and 718 shall maintain, in the ordinary course of business and for a reasonable period, records of the efforts taken by such manufacturer or provider to implement sections 255, 716, and 718, including the following:

(i) Information about the manufacturer's or provider's efforts to consult with individuals with disabilities.

(ii) Descriptions of the accessibility features of its products and services.

(iii) Information about the compatibility of such products and services with peripheral devices or specialized customer premise equipment commonly used by individuals with disabilities to achieve access.

(B) An officer of a manufacturer or provider shall submit to the Commission an annual certification that records are being kept in accordance with subparagraph (A).

(C) After the filing of a formal or informal complaint against a manufacturer or provider, the Commission may request, and shall keep confidential, a copy of the records maintained by such manufacturer or provider pursuant to subparagraph (A) of this paragraph that are directly relevant to the equipment or service that is the subject of such complaint.

(6) FAILURE TO ACT.—If the Commission fails to carry out any of its responsibilities to act upon a complaint in the manner prescribed in paragraph (3), the person that filed such complaint may bring an action in the nature of mandamus in the United States Court of Appeals for the District of Columbia to compel the Commission to carry out any such responsibility.

(7) COMMISSION JURISDICTION.—The limitations of section 255(f) shall apply to any claim that alleges a violation of section 255, 716, or 718. Nothing in this paragraph affects or lim-

its any action for mandamus under paragraph (6) or any appeal pursuant to section 402(b)(10).

(8) PRIVATE RESOLUTIONS OF COMPLAINTS.—Nothing in the Commission's rules or this Act shall be construed to preclude a person who files a complaint and a manufacturer or provider from resolving a formal or informal complaint prior to the Commission's final determination in a complaint proceeding. In the event of such a resolution, the parties shall jointly request dismissal of the complaint and the Commission shall grant such request.

(b) REPORTS TO CONGRESS.—

(1) IN GENERAL.—Every two years after the date of enactment of the Twenty-First Century Communications and Video Accessibility Act of 2010, the Commission shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a report that includes the following:

(A) An assessment of the level of compliance with sections 255, 716, and 718.

(B) An evaluation of the extent to which any accessibility barriers still exist with respect to new communications technologies.

(C) The number and nature of complaints received pursuant to subsection (a) during the two years that are the subject of the report.

(D) A description of the actions taken to resolve such complaints under this section, including forfeiture penalties assessed.

(E) The length of time that was taken by the Commission to resolve each such complaint.

(F) The number, status, nature, and outcome of any actions for mandamus filed pursuant to subsection (a)(6) and the number, status, nature, and outcome of any appeals filed pursuant to section 402(b)(10).

(G) An assessment of the effect of the requirements of this section on the development and deployment of new communications technologies.

(2) PUBLIC COMMENT REQUIRED.—The Commission shall seek public comment on its tentative findings prior to submission to the Committees of the report under this subsection.

(c) COMPTROLLER GENERAL ENFORCEMENT STUDY.—

(1) IN GENERAL.—The Comptroller General shall conduct a study to consider and evaluate the following:

(A) The Commission's compliance with the requirements of this section, including the Commission's level of compliance with the deadlines established under and pursuant to this section and deadlines for acting on complaints pursuant to subsection (a).

(B) Whether the enforcement actions taken by the Commission pursuant to this section have been appropriate and effective in ensuring compliance with this section.

(C) Whether the enforcement provisions under this section are adequate to ensure compliance with this section.

(D) Whether, and to what extent (if any), the requirements of this section have an effect on the development and deployment of new communications technologies.

(2) REPORT.—Not later than 5 years after the date of enactment of the Twenty-First Century Communications and Video Accessibility Act of 2010, the Comptroller General shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a report on the results of the study required by paragraph (1), with recommendations for how the enforcement process and measures under this section may be modified or improved.

(d) CLEARINGHOUSE.—Within one year after the date of enactment of the Twenty-First Century Communications and Video Accessibility Act of 2010, the Commission shall, in consultation with the Architectural and Transportation Barriers Compliance Board, the National Telecommunications and Information Administration, trade associations, and organizations representing individuals with disabilities, establish a clearinghouse of information on the availability of accessible products and services and accessibility solutions required under sections 255, 716, and 718. Such information shall be made publicly available on the Commission's website and by other means, and shall include an annually updated list of products and services with access features.

(e) OUTREACH AND EDUCATION.—Upon establishment of the clearinghouse of information required under subsection (d), the Commission, in coordination with the National Telecommunications and Information Administration, shall conduct an informational and educational program designed to inform the public about the availability of the clearinghouse and the protections and remedies available under sections 255, 716, and 718.

SEC. 718. [47 U.S.C. 619] INTERNET BROWSERS BUILT INTO TELEPHONES USED WITH PUBLIC MOBILE SERVICES.

(a) ACCESSIBILITY.—If a manufacturer of a telephone used with public mobile services (as such term is defined in section 710(b)(4)(B)) includes an Internet browser in such telephone, or if a provider of mobile service arranges for the inclusion of a browser in telephones to sell to customers, the manufacturer or provider shall ensure that the functions of the included browser (including the ability to launch the browser) are accessible to and usable by individuals who are blind or have a visual impairment, unless doing so is not achievable, except that this subsection shall not impose any requirement on such manufacturer or provider—

(1) to make accessible or usable any Internet browser other than a browser that such manufacturer or provider includes or arranges to include in the telephone; or

(2) to make Internet content, applications, or services accessible or usable (other than enabling individuals with disabilities to use an included browser to access such content, applications, or services).

(b) **INDUSTRY FLEXIBILITY.**—A manufacturer or provider may satisfy the requirements of subsection (a) with respect to such telephone or services by—

(1) ensuring that the telephone or services that such manufacturer or provider offers is accessible to and usable by individuals with disabilities without the use of third party applications, peripheral devices, software, hardware, or customer premises equipment; or

(2) using third party applications, peripheral devices, software, hardware, or customer premises equipment that is available to the consumer at nominal cost and that individuals with disabilities can access.

SEC. 719. [47 U.S.C. 620] RELAY SERVICES FOR DEAF-BLIND INDIVIDUALS.

(a) **IN GENERAL.**—Within 6 months after the date of enactment of the Twenty-First Century Communications and Video Accessibility Act of 2010, the Commission shall establish rules that define as eligible for relay service support those programs that are approved by the Commission for the distribution of specialized customer premises equipment designed to make telecommunications service, Internet access service, and advanced communications, including interexchange services and advanced telecommunications and information services, accessible by low-income individuals who are deaf-blind.

(b) **INDIVIDUALS WHO ARE DEAF-BLIND DEFINED.**—For purposes of this subsection, the term “individuals who are deaf-blind” has the same meaning given such term in the Helen Keller National Center Act, as amended by the Rehabilitation Act Amendments of 1992 (29 U.S.C. 1905(2)).

(c) **ANNUAL AMOUNT.**—The total amount of support the Commission may provide from its interstate relay fund for any fiscal year may not exceed \$10,000,000.

SEC. 720. [47 U.S.C. 622] OPTIONAL ELECTRONIC LABELING OF COMMUNICATIONS EQUIPMENT.

(a) **DEFINITIONS.**—In this section—

(1) the term “electronic labeling” means displaying required labeling and regulatory information electronically; and

(2) the term “radiofrequency device with display” means any equipment or device that—

(A) is required under regulations of the Commission to be authorized by the Commission before the equipment or device may be marketed or sold within the United States; and

(B) has the capability to digitally display required labeling and regulatory information.

(b) **REQUIREMENT TO PROMULGATE REGULATIONS FOR ELECTRONIC LABELING.**—Not later than 9 months after the date of enactment of the Enhance Labeling, Accessing, and Branding of Electronic Licenses Act of 2014, the Commission shall promulgate regulations or take other appropriate action, as necessary, to allow manufacturers of radiofrequency devices with display the option to use electronic labeling for the equipment in place of affixing physical labels to the equipment.

SEC. 721. [47 U.S.C. 623] CONFIGURATION OF MULTI-LINE TELEPHONE SYSTEMS FOR DIRECT DIALING OF 9-1-1.

(a) **SYSTEM MANUFACTURE, IMPORTATION, SALE, AND LEASE.**—A person engaged in the business of manufacturing, importing, selling, or leasing multi-line telephone systems may not manufacture or import for use in the United States, or sell or lease or offer to sell or lease in the United States, a multi-line telephone system, unless such system is pre-configured such that, when properly installed in accordance with subsection (b), a user may directly initiate a call to 9-1-1 from any station equipped with dialing facilities, without dialing any additional digit, code, prefix, or post-fix, including any trunk-access code such as the digit ‘9’, regardless of whether the user is required to dial such a digit, code, prefix, or post-fix for other calls.

(b) **SYSTEM INSTALLATION, MANAGEMENT, AND OPERATION.**—A person engaged in the business of installing, managing, or operating multi-line telephone systems may not install, manage, or operate for use in the United States such a system, unless such system is configured such that a user may directly initiate a call to 9-1-1 from any station equipped with dialing facilities, without dialing any additional digit, code, prefix, or post-fix, including any trunk-access code such as the digit ‘9’, regardless of whether the user is required to dial such a digit, code, prefix, or post-fix for other calls.

(c) **ON-SITE NOTIFICATION.**—A person engaged in the business of installing, managing, or operating multi-line telephone systems shall, in installing, managing, or operating such a system for use in the United States, configure the system to provide a notification to a central location at the facility where the system is installed or to another person or organization regardless of location, if the system is able to be configured to provide the notification without an improvement to the hardware or software of the system.

(d) **EFFECT ON STATE LAW.**—Nothing in this section is intended to alter the authority of State commissions or other State or local agencies with jurisdiction over emergency communications, if the exercise of such authority is not inconsistent with this Act.

(e) **ENFORCEMENT.**—This section shall be enforced under title V, except that section 501 applies only to the extent that such section provides for the punishment of a fine.

(f) **MULTI-LINE TELEPHONE SYSTEM DEFINED.**—In this section, the term “multi-line telephone system” has the meaning given such term in section 6502 of the Middle Class Tax Relief and Job Creation Act of 2012 (47 U.S.C. 1471).

SEC. 722. [47 U.S.C. 624] DISCLOSURE REQUIREMENTS FOR UNITED STATES-BASED FOREIGN MEDIA OUTLETS.

(a) **REPORTS BY OUTLETS TO COMMISSION.**—Not later than 60 days after the date of the enactment of this section, and not less frequently than every 6 months thereafter, a United States-based foreign media outlet shall submit to the Commission a report that contains the following information:

- (1) The name of such outlet.
- (2) A description of the relationship of such outlet to the foreign principal of such outlet, including a description of the

legal structure of such relationship and any funding that such outlet receives from such principal.

(b) **REPORTS BY COMMISSION TO CONGRESS.**—Not later than 90 days after the date of the enactment of this section, and not less frequently than every 6 months thereafter, the Commission shall transmit to Congress a report that summarizes the contents of the reports submitted by United States-based foreign media outlets under subsection (a) during the preceding 6-month period.

(c) **PUBLIC AVAILABILITY.**—The Commission shall make publicly available on the internet website of the Commission each report submitted by a United States-based foreign media outlet under subsection (a) not later than the earlier of—

(1) the date that is 30 days after the outlet submits the report to the Commission; or

(2) the date on which the Commission transmits to Congress under subsection (b) the report covering the 6-month period during which the report of the outlet was submitted to the Commission under subsection (a).

(d) **DEFINITIONS.**—In this section:

(1) **FOREIGN PRINCIPAL.**—The term “foreign principal” has the meaning given such term in section 1(b)(1) of the Foreign Agents Registration Act of 1938 (22 U.S.C. 611(b)(1)).

(2) **UNITED STATES-BASED FOREIGN MEDIA OUTLET.**—The term “United States-based foreign media outlet” means an entity that—

(A) produces or distributes video programming (as defined in section 602) that is transmitted, or intended for transmission, by a multichannel video programming distributor (as defined in such section) to consumers in the United States; and

(B) would be an agent of a foreign principal (as defined in paragraph (1)) for purposes of the Foreign Agents Registration Act of 1938 (22 U.S.C. 611 et seq.) but for section 1(d) of such Act (22 U.S.C. 611(d)).

TITLE VIII—BROADBAND DATA

SEC. 801. [47 U.S.C. 641] DEFINITIONS.

In this title:

(1) **BROADBAND INTERNET ACCESS SERVICE.**—The term “broadband internet access service” has the meaning given the term in section 8.1(b) of title 47, Code of Federal Regulations, or any successor regulation.

(2) **BROADBAND MAP.**—The term “Broadband Map” means the map created by the Commission under section 802(c)(1)(A).

(3) **CELL EDGE PROBABILITY.**—The term “cell edge probability” means the likelihood that the minimum threshold download and upload speeds with respect to broadband internet access service will be met or exceeded at a distance from a base station that is intended to indicate the ultimate edge of the coverage area of a cell.

(4) **CELL LOADING.**—The term “cell loading” means the percentage of the available air interface resources of a base sta-

tion that are used by consumers with respect to broadband internet access service.

(5) CLUTTER.—The term “clutter” means a natural or man-made surface feature that affects the propagation of a signal from a base station.

(6) FABRIC.—The term “Fabric” means the Broadband Serviceable Location Fabric established under section 802(b)(1)(B).

(7) FORM 477.—The term “Form 477” means Form 477 of the Commission relating to local telephone competition and broadband reporting.

(8) INDIAN TRIBE.—The term “Indian Tribe” has the meaning given the term “Indian tribe” in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304).

(9) MOBILITY FUND PHASE II.—The term “Mobility Fund Phase II” means the second phase of the proceeding to provide universal service support from the Mobility Fund (WC Docket No. 10–90; WT Docket No. 10–208).

(10) PROPAGATION MODEL.—The term “propagation model” means a mathematical formulation for the characterization of radio wave propagation as a function of frequency, distance, and other conditions.

(11) PROVIDER.—The term “provider” means a provider of fixed or mobile broadband internet access service.

(12) QUALITY OF SERVICE.—The term “quality of service” means, with respect to broadband internet access service, the download and upload speeds (and, for relevant services, latency) with respect to that service, as determined by, and to the extent otherwise collected by, the Commission.

(13) SHAPEFILE.—The term “shapefile” means a digital storage format containing geospatial or location-based data and attribute information—

(A) regarding the availability of broadband internet access service; and

(B) that can be viewed, edited, and mapped in geographic information system software.

(14) STANDARD BROADBAND INSTALLATION.—The term “standard broadband installation”—

(A) means the initiation by a provider of fixed broadband internet access service in an area in which the provider has not previously offered that service, with no charges or delays attributable to the extension of the network of the provider; and

(B) includes the initiation of fixed broadband internet access service through routine installation that can be completed not later than 10 business days after the date on which the service request is submitted.

SEC. 802. [47 U.S.C. 642] BROADBAND MAPS.

(a) RULES.—

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this title, the Commission shall issue final rules that shall—

- (A) require the biannual collection and dissemination of granular data, as determined by the Commission—
 - (i) relating to the availability and quality of service with respect to terrestrial fixed, fixed wireless, satellite, and mobile broadband internet access service; and
 - (ii) that the Commission shall use to compile the maps created under subsection (c)(1) (referred to in this section as “coverage maps”), which the Commission shall make publicly available; and
- (B) establish—
 - (i) processes through which the Commission can verify the accuracy of data submitted under subsection (b)(2);
 - (ii) processes and procedures through which the Commission, and, as necessary, other entities or individuals submitting non-public or competitively sensitive information under this title, can protect the security, privacy, and confidentiality of that non-public or competitively sensitive information, including—
 - (I) information contained in the Fabric;
 - (II) the dataset created under subsection (b)(1)(A) supporting the Fabric; and
 - (III) the data submitted under subsection (b)(2);
 - (iii) the challenge process described in subsection (b)(5); and
 - (iv) the process described in section 804(b).
- (2) OTHER DATA.—In issuing the rules under paragraph (1), the Commission shall develop a process through which the Commission can collect verified data for use in the coverage maps from—
 - (A) State, local, and Tribal governmental entities that are primarily responsible for mapping or tracking broadband internet access service coverage for a State, unit of local government, or Indian Tribe, as applicable;
 - (B) third parties, if the Commission determines that it is in the public interest to use such data in—
 - (i) the development of the coverage maps; or
 - (ii) the verification of data submitted under subsection (b); and
 - (C) other Federal agencies.
- (3) UPDATES.—The Commission shall revise the rules issued under paragraph (1) to—
 - (A) reflect changes in technology;
 - (B) ensure the accuracy of propagation models, as further provided in subsection (b)(3); and
 - (C) improve the usefulness of the coverage maps.
- (b) CONTENT OF RULES.—
 - (1) ESTABLISHMENT OF A SERVICEABLE LOCATION FABRIC REGARDING FIXED BROADBAND.—
 - (A) DATASET.—
 - (i) IN GENERAL.—The Commission shall create a common dataset of all locations in the United States

where fixed broadband internet access service can be installed, as determined by the Commission.

(ii) CONTRACTING.—

(I) IN GENERAL.—Subject to subclauses (II) and (III), the Commission may contract with an entity with expertise with respect to geographic information systems (referred to in this subsection as “GIS”) to create and maintain the dataset under clause (i).

(II) APPLICATION OF THE FEDERAL ACQUISITION REGULATION.—A contract into which the Commission enters under subclause (I) shall in all respects comply with applicable provisions of the Federal Acquisition Regulation.

(III) LIMITATIONS.—With respect to a contract into which the Commission enters under subclause (I)—

(aa) the entity with which the Commission enters into the contract shall be selected through a competitive bid process that is transparent and open; and

(bb) the contract shall be for a term of not longer than 5 years, after which the Commission may enter into a new contract—

(AA) with an entity, and for the purposes, described in clause (i); and

(BB) that complies with the requirements under subclause (II) and this subclause; and

(cc) the contract shall—

(AA) prohibit the entity described in item (aa) from selling, leasing, or otherwise disclosing for monetary consideration any personally identifiable information to any other entity other than for purposes authorized under this title; and

(BB) require the entity described in item (aa) to include in any contract with any other entity a provision that prohibits that other entity from engaging in an action that is prohibited under subitem (AA).

(B) FABRIC.—The rules issued by the Commission under subsection (a)(1) shall establish the Broadband Serviceable Location Fabric, which shall—

(i) contain geocoded information for each location identified under subparagraph (A)(i);

(ii) serve as the foundation upon which all data relating to the availability of fixed broadband internet access service collected under paragraph (2)(A) shall be reported and overlaid;

(iii) be compatible with commonly used GIS software; and

(iv) at a minimum, be updated every 6 months by the Commission.

(C) IMPLEMENTATION PRIORITY.—The Commission shall prioritize implementing the Fabric for rural and insular areas of the United States.

(D) AVAILABILITY OF CENSUS DATA.—The Secretary of Commerce shall submit to the Commission, for inclusion in the Fabric, a count of the aggregate number of housing units in each census block, as collected by the Bureau of the Census.

(2) COLLECTION OF INFORMATION.—The rules issued by the Commission under subsection (a)(1) shall include uniform standards for the reporting of broadband internet access service data that the Commission shall collect—

(A) from each provider of terrestrial fixed, fixed wireless, or satellite broadband internet access service, which shall include data that—

(i) documents the areas where the provider—

(I) has actually built out the broadband network infrastructure of the provider such that the provider is able to provide that service; and

(II) could provide that service, as determined by identifying where the provider is capable of performing a standard broadband installation, if applicable;

(ii) includes information regarding download and upload speeds, at various thresholds established by the Commission, and, if applicable, latency with respect to broadband internet access service that the provider makes available;

(iii) can be georeferenced to the GIS data in the Fabric;

(iv) the provider shall report as—

(I) with respect to providers of fixed wireless broadband internet access service—

(aa) propagation maps and propagation model details that—

(AA) satisfy standards that are similar to those applicable to providers of mobile broadband internet access service under subparagraph (B) with respect to propagation maps and propagation model details, taking into account material differences between fixed wireless and mobile broadband internet access service; and

(BB) reflect the speeds and latency of the service provided by the provider; or

(bb) a list of addresses or locations that constitute the service area of the provider, except that the Commission—

(AA) may only permit, and not require, a provider to report the data using that means of reporting; and

(BB) in the rules issued under subsection (a)(1), shall provide a method for using that means of reporting with respect to Tribal areas; and
 (II) with respect to providers of terrestrial fixed and satellite broadband internet access service—

(aa) polygon shapefiles; or

(bb) a list of addresses or locations that constitute the service area of the provider, except that the Commission—

(AA) may only permit, and not require, a provider to report the data using that means of reporting; and

(BB) in the rules issued under subsection (a)(1), shall provide a method for using that means of reporting with respect to Tribal areas; and

(v) the Commission determines is appropriate with respect to certain technologies in order to ensure that the Broadband Map is granular and accurate; and

(B) from each provider of mobile broadband internet access service, which shall include propagation maps and propagation model details that indicate the current (as of the date on which the information is collected) fourth generation Long-Term Evolution (commonly referred to as “4G LTE”) mobile broadband internet access service coverage of the provider, which shall—

(i) take into consideration the effect of clutter; and

(ii) satisfy—

(I) the requirements of having—

(aa) a download speed of not less than 5 megabits per second and an upload speed of not less than 1 megabit per second with a cell edge probability of not less than 90 percent; and

(bb) cell loading of not less than 50 percent; and

(II) any other parameter that the Commission determines to be necessary to create a map under subsection (c)(1)(C) that is more precise than the map produced as a result of the submissions under the Mobility Fund Phase II information collection.

(3) UPDATE OF REPORTING STANDARDS FOR MOBILE BROADBAND INTERNET ACCESS SERVICE.—For the purposes of paragraph (2)(B), if the Commission determines that the reporting standards under that paragraph are insufficient to collect accurate propagation maps and propagation model details with respect to future generations of mobile broadband internet access service technologies, the Commission shall immediately commence a rule making to adopt new reporting standards with respect to those technologies that—

(A) shall be the functional equivalent of the standards required under paragraph (2)(B); and

(B) allow for the collection of propagation maps and propagation model details that are as accurate and granular as, or more accurate and granular than, the maps and model details collected by the Commission under paragraph (2)(B).

(4) CERTIFICATION AND VERIFICATION.—With respect to a provider that submits information to the Commission under paragraph (2)—

(A) the provider shall include in each submission a certification from a corporate officer of the provider that the officer has examined the information contained in the submission and that, to the best of the officer's actual knowledge, information, and belief, all statements of fact contained in the submission are true and correct; and

(B) the Commission shall verify the accuracy and reliability of the information in accordance with measures established by the Commission.

(5) CHALLENGE PROCESS.—

(A) IN GENERAL.—In the rules issued under subsection (a), and subject to subparagraph (B), the Commission shall establish a user-friendly challenge process through which consumers, State, local, and Tribal governmental entities, and other entities or individuals may submit coverage data to the Commission to challenge the accuracy of—

- (i) the coverage maps;
- (ii) any information submitted by a provider regarding the availability of broadband internet access service; or
- (iii) the information included in the Fabric.

(B) CONSIDERATIONS; VERIFICATION; RESPONSE TO CHALLENGES.—In establishing the challenge process required under subparagraph (A), the Commission shall—

(i) consider—

(I) the types of information that an entity or individual submitting a challenge should provide to the Commission in support of the challenge;

(II) the appropriate level of granularity for the information described in subclause (I);

(III) the need to mitigate the time and expense incurred by, and the administrative burdens placed on, entities or individuals in—

(aa) challenging the accuracy of a coverage map; and

(bb) responding to challenges described in item (aa);

(IV) the costs to consumers and providers resulting from a misallocation of funds because of a reliance on outdated or otherwise inaccurate information in the coverage maps;

(V) any lessons learned from the challenge process established under Mobility Fund Phase II,

as determined from comments solicited by the Commission; and

(VI) the need for user-friendly challenge submission formats that will promote participation in the challenge process;

(ii) include a process for verifying the data submitted through the challenge process in order to ensure the reliability of that data;

(iii) allow providers to respond to challenges submitted through the challenge process; and

(iv) develop an online mechanism, which—

(I) shall be integrated into the coverage maps;

(II) allows for an entity described in subparagraph (A) to submit a challenge under the challenge process;

(III) makes challenge data available in both geographic information system and non-geographic information system formats; and

(IV) clearly identifies the areas in which broadband internet access service is available, and the upload and download speeds at which that service is available, as reported to the Commission under this section.

(C) USE OF CHALLENGES.—The rules issued to establish the challenge process under subparagraph (A) shall include—

(i) a process for the speedy resolution of challenges, which shall require that the Commission resolve a challenge not later than 90 days after the date on which a final response by a provider to a challenge to the accuracy of a map or information described in subparagraph (A) is complete; and

(ii) a process for the regular and expeditious updating of the coverage maps and granular data disseminated by the Commission as challenges are resolved.

(D) REPORT TO CONGRESS.—Not earlier than 1 year, and not later than 18 months, after the date on which the rules issued under subsection (a)(1) take effect, the Commission shall, after an opportunity for notice and comment, submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a report that—

(i) evaluates the challenge process described in subparagraph (A); and

(ii) considers whether the Commission should commence an inquiry on the need for other tools to help—

(I) identify potential inaccuracies in the data relating to broadband internet access service that providers report; and

(II) improve the accuracy of the data described in subclause (I).

(6) REFORM OF FORM 477 PROCESS.—

(A) IN GENERAL.—Not later than 180 days after the date on which the rules issued under subsection (a) take effect, the Commission shall—

(i) reform the Form 477 broadband deployment service availability collection process of the Commission—

(I) to achieve the purposes of this title; and

(II) in a manner that—

(aa) enables the comparison of data and maps produced before the implementation of this title with data and coverage maps produced after the implementation of this title; and

(bb) maintains the public availability of data relating to the deployment of broadband internet access service; and

(ii) harmonize reporting requirements and procedures regarding the deployment of broadband internet access service that are in effect on the day before the date on which the rules issued under subsection (a)(1) take effect with those requirements and procedures in those rules.

(B) CONTINUED COLLECTION AND REPORTING.—On and after the date on which the Commission carries out subparagraph (A), the Commission shall continue to collect and publicly report subscription data that the Commission collected through the Form 477 broadband deployment service availability process, as in effect on July 1, 2019.

(7) SHARING DATA WITH NTIA.—The Commission shall establish a process to make the data collected under paragraph (2) available to the National Telecommunications and Information Administration.

(c) MAPS.—The Commission shall—

(1) after consultation with the Federal Geographic Data Committee established under section 753(a) of the Geospatial Data Act of 2018, create—

(A) the Broadband Map, which shall depict—

(i) the extent of the availability of broadband internet access service in the United States, without regard to whether that service is fixed broadband internet access service or mobile broadband internet access service, which shall be based on data collected by the Commission from all providers; and

(ii) the areas of the United States that remain unserved by providers;

(B) a map that depicts the availability of fixed broadband internet access service, which shall be based on data collected by the Commission from providers under subsection (b)(2)(A); and

(C) a map that depicts the availability of mobile broadband internet access service, which shall be based on data collected by the Commission from providers under subsection (b)(2)(B);

(2) after creating the maps under paragraph (1), use such maps—

(A) to determine the areas in which terrestrial fixed, fixed wireless, mobile, and satellite broadband internet access service is and is not available; and

(B) when making any new award of funding with respect to the deployment of broadband internet access service intended for use by residential and mobile customers;

(3) update the maps created under paragraph (1) not less frequently than biannually using the most recent data collected from providers under subsection (b)(2);

(4) consult with—

(A) the Secretary of Agriculture to enable the Secretary of Agriculture to consult the maps created under paragraph (1) when considering the awarding of funds for the deployment of broadband internet access service under any program administered by the Administrator of the Rural Utilities Service; and

(B) the National Telecommunications and Information Administration to enable the Administration to consult the maps created under paragraph (1) when considering the awarding of funds for the deployment of broadband internet access service under any future program administered by the Administration;

(5) make available to any Federal agency, upon request, the maps created under paragraph (1); and

(6) make public, including on a publicly available website, at an appropriate level of granularity—

(A) the maps created under paragraph (1); and

(B) the data collected by the Commission with respect to the availability of broadband internet access service and the quality of service with respect to broadband internet access service.

(d) **DELAYED EFFECTIVE DATE FOR QUALITY OF SERVICE RULES.**—Any requirement of a rule issued under subsection (a)(1) that relates to quality of service shall take effect not earlier than the date that is 180 days after the date on which the Commission issues that rule.

SEC. 803. [47 U.S.C. 643] ENFORCEMENT.

It shall be unlawful for an entity or individual to willfully and knowingly, or recklessly, submit information or data under this title that is materially inaccurate or incomplete with respect to the availability of broadband internet access service or the quality of service with respect to broadband internet access service.

SEC. 804. [47 U.S.C. 644] IMPROVING DATA ACCURACY.

(a) **AUDITS.**—The Commission shall conduct regular audits of information submitted to the Commission by providers under section 802(b)(2) to ensure that the providers are complying with this title.

(b) **CROWDSOURCING.**—

(1) **IN GENERAL.**—The Commission shall develop a process through which entities or individuals in the United States may submit specific information about the deployment and avail-

ability of broadband internet access service in the United States on an ongoing basis so that the information may be used to verify and supplement information provided by providers of broadband internet access service for inclusion in the maps created under section 802(c)(1).

(2) COLLABORATION.—As part of the efforts of the Commission to facilitate the ability of entities and individuals to submit information under paragraph (1), the Commission shall—

(A) prioritize the consideration of data provided by data collection applications used by consumers that the Commission has determined—

(i) are highly reliable; and

(ii) have proven methodologies for determining network coverage and network performance; and

(B) coordinate with the Postmaster General, the heads of other Federal agencies that operate delivery fleet vehicles, and the Director of the Bureau of the Census for assistance with data collection whenever coordination could feasibly yield more specific geographic data.

(c) TECHNICAL ASSISTANCE TO INDIAN TRIBES.—

(1) IN GENERAL.—Subject to paragraph (2), the Commission shall hold workshops for Tribal Governments in each of the 12 Bureau of Indian Affairs regions to provide technical assistance with the collection and submission of data under section 802(a)(2).

(2) ANNUAL REVIEW.—Each year, the Commission, in consultation with Indian Tribes, shall review the need for continued workshops required under paragraph (1).

(d) TECHNICAL ASSISTANCE TO SMALL SERVICE PROVIDERS.—

The Commission shall establish a process through which a provider that has fewer than 100,000 active broadband internet access service connections may request and receive assistance from the Commission with respect to geographic information system data processing to ensure that the provider is able to comply with the requirements under section 802(b) in a timely and accurate manner.

(e) TECHNICAL ASSISTANCE TO STATE, LOCAL, AND TRIBAL GOVERNMENTS AND CONSUMERS.—The Commission shall provide technical assistance to consumers and State, local, and Tribal governmental entities with respect to the challenge process established under section 802(b)(5), which shall include—

(1) detailed tutorials and webinars; and

(2) the provision of staff of the Commission to provide assistance, as needed, throughout the entirety of the challenge process.

(f) GAO ASSESSMENT OF FABRIC SOURCE DATA.—

(1) IN GENERAL.—The Comptroller General of the United States shall conduct an assessment of key data sources that are used for purposes of the Fabric to identify and geocode locations where fixed broadband internet access service can be installed in order for the Comptroller General to develop recommendations for how the quality and completeness of those data sources can be improved as data sources for the Fabric.

(2) SOURCES INCLUDED.—For the purposes of the assessment conducted under paragraph (1), the key data sources described in that paragraph shall include—

(A) any relevant sources of Federal data, including the National Address Database administered by the Department of Transportation;

(B) State- and county-level digitized parcel data; and

(C) property tax attribute recording.

(3) REPORT.—Not later than 1 year after the date of enactment of this title, the Comptroller General of the United States shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a report that contains the recommendations developed under paragraph (1).

SEC. 805. [47 U.S.C. 645] COST.

(a) USF.—The Commission may not use funds from the universal service programs of the Commission established under section 254, and the regulations issued under that section, to pay for any costs associated with this title.

(b) OTHER FUNDS.—The Commission may recover costs associated with this title under section 9 to the extent provided for in an appropriation Act, as required under subsection (a) of that section.

SEC. 806. [47 U.S.C. 646] OTHER PROVISIONS.

(a) OMB.—Notwithstanding any other provision of law, the initial rule making required under section 802(a)(1) shall be exempt from review by the Office of Management and Budget.

(b) PRA.—Subchapter I of chapter 35 of title 44, United States Code (commonly known as the “Paperwork Reduction Act”) shall not apply to any rule making or other action by the Commission required under this title.

(c) EXECUTION OF RESPONSIBILITIES.—Except, with respect to an entity that is not the Universal Service Administrative Company, as provided in section 802(a)(2)(B), section 802(b)(1)(A)(ii), and subsections (c), (d), and (e) of section 804, the Commission—

(1) including the offices of the Commission, shall carry out the responsibilities assigned to the Commission under this title; and

(2) may not delegate any of the responsibilities assigned to the Commission under this title to any third party, including the Universal Service Administrative Company.

(d) REPORTING.—Each fiscal year, the Commission shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a report that summarizes the implementation of this title and associated enforcement activities conducted during the previous fiscal year.

(e) RULE OF CONSTRUCTION.—If the Commission, before the date of enactment of this title, has taken an action that, in whole or in part, implements this title, the Commission shall not be required to revisit such action to the extent that such action is consistent with this title.
