STATUTORY AUTHORITY FOR RESOLUTIONS BY THE COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

WATER RESOURCES RESOLUTIONS

Title 16, United States Code

Chapter 18. Watershed Protection and Flood Prevention

§ 1002. Definitions

For the purposes of this chapter, the following terms shall mean:
The “Secretary”—the Secretary of Agriculture of the United States.

“Works of improvement”—any undertaking for—

- (1) flood prevention (including structural and land treatment measures),
- (2) the conservation, development, utilization, and disposal of water, or
- (3) the conservation and proper utilization of land, in watershed or subwatershed area not exceeding two hundred and fifty thousand acres and not including any single structure which provides more than twelve thousand five hundred acre-feet of floodwater detention capacity, and more than twenty-five thousand acre-feet of total capacity. No appropriation shall be made for any plan involving an estimated Federal contribution to construction costs in excess of \$5,000,000, or which includes any structure which provides more than twenty-five hundred acre-feet of total capacity unless such plan has been approved by resolutions adopted by the appropriate committees of the Senate and House of Representatives: Provided, That in the case of any plan involving no single structure providing more than 4,000 acre-feet of total capacity the appropriate committees shall be the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Agriculture of the House of Representatives and in the case of any plan involving any single structure of more than 4,000 acre-feet of total capacity the appropriate committees shall be the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives, respectively. Each project must contain benefits directly related to agriculture, including rural communities, that account for at least 20 percent of the total benefits of the project. A number of such subwatersheds when they are component parts of a larger watershed may be planned together when the local sponsoring organizations so desire.

“Local organization”—any State, political subdivision thereof, soil or water conservation district, flood prevention or control district, or combinations thereof, or any other agency having authority under State law to carry out, maintain and operate the works of improvement; or any irrigation or reservoir company, water users’ association, or similar organization having such authority and not being operated for profit that may be approved by the Secretary; or any Indian tribe or tribal organization, as defined in section 450b of title 25, having authority under Federal, State, or Indian tribal law to carry out, maintain, and operate the works of improvement.

Title 16, United States Code

Chapter 18. Watershed Protection and Flood Prevention

§ 1009. Joint investigations and surveys by Secretary of the Army and Secretary of Agriculture; reports to Congress

The Secretary of the Army and the Secretary of Agriculture, when authorized to do so by resolutions adopted by the Committee on Environment and Public Works of the Senate or the Committee on Public Works and Transportation of the House of Representatives, are authorized and directed to make joint investigations and surveys in accordance with their existing authorities of watershed areas in the United States, Puerto Rico, and the Virgin Islands, and to prepare joint reports on such investigations and surveys setting forth their recommendations for the installation of the works of improvement needed for flood prevention or the conservation, development, utilization, and disposal of water, and for flood control and allied purposes. Such joint reports shall be submitted to the Congress through the President for adoption and authorization by the Congress of the recommended works of improvement: Provided, That the project authorization procedure established by this chapter shall not be affected.

* * * * *

Title 33, United States Code

Chapter 12. River and Harbor Improvements

Subchapter I. General Provisions

§ 542. Review by Board of Engineers of reports on examinations and surveys and special reports

All reports on examinations and surveys authorized by law shall be reviewed by the Board of Engineers for Rivers and Harbors as provided for in section 541 of this title, and all special reports ordered by Congress shall, in the discretion of the Chief of Engineers, be reviewed in like manner by said board; and the said board shall also, on request by resolution of the Committee on Environment and Public Works of the Senate or the Committee on Public Works and Transportation of the House of Representatives, submitted to the Chief of Engineers, examine and review the report of any examination or survey made pursuant to any Act or resolution of Congress, and report thereon through the Chief of Engineers, United States Army, who shall submit his conclusions thereon as

in other cases: Provided, That in no case shall the board, in its report thus called for by committee resolution, extend the scope of the project contemplated in the original report upon which its examination and review has been requested, or in the provision of law authorizing the original examination or survey.

* * * * *

Title 33, United States Code
Chapter 15. Flood Control

§ 701b-7. Supplemental reports to Senate Environment and Public Works Committee and House Public Works Committee

After the Secretary of Agriculture has submitted to Congress a regular or formal report made on any examination or survey, pursuant to the Flood Control Act approved June 22, 1936, as amended and supplemented, a supplemental, additional, or review report or estimate may be made if authorized by law or by resolution of the Committee on Public Works and Transportation of the House of Representatives or the Committee on Environment and Public Works of the Senate.

* * * * *

Title 42. United States Code (The Public Health and Welfare)
Chapter 19b. Water Resources Planning
Subchapter IV. Miscellaneous Provisions

§ 1962d-5. Water resources development projects involving navigation, flood control, and shore protection

(a) *Construction, operation, and maintenance; limitation on estimated Federal first cost of construction; Congressional committee approval of projects; reports to Congress*

The Secretary of the Army, acting through the Chief of Engineers, is authorized to construct, operate, and maintain any water resource development project, including single and multiple purpose projects involving, but not limited to, navigation, flood control, and shore protection, if the estimated Federal first cost of constructing such project is less than \$15,000,000. No appropriation shall be made to construct, operate, or maintain any such project if such project has not been approved by resolutions adopted by the Committees on Public Works of the Senate and House of Representatives, respectively. For the purpose of securing consideration of such approval the Secretary shall transmit to Congress a report of such proposed project, including all relevant data and all costs.

(b) *Local cooperation requirements based on certain estimated Federal first cost of construction*

Any water resource development project authorized to be constructed by this section shall be subject to the same requirements of local cooperation as it would be if the estimated Federal first cost of such project were \$15,000,000 or more.

PUBLIC BUILDING RESOLUTIONS

Title 40. United States Code. (Public Buildings, Property, and Works)

Chapter 12. Construction, Alteration, and Acquisition of Public Buildings

§ 606. Approval of proposed projects by Congress

(a) Limitation of funds; transmission to Congress of prospectus of proposed project

In order to insure the equitable distribution of public buildings throughout the United States with due regard for the comparative urgency of need for such buildings, except as provided in section 603 of this title, no appropriation shall be made to construct, alter, purchase, or to acquire any building to be used as a public building which involves a total expenditure in excess of \$1,500,000 if such construction, alteration, purchase, or acquisition has not been approved by resolutions adopted by the Committee on Public Works of the Senate and House of Representatives, respectively. No appropriations shall be made to lease any space at an average annual rental in excess of \$1,500,000 for use for public purposes if such lease has not been approved by resolutions adopted by the Committee on Public Works of the Senate and House of Representatives, respectively. No appropriation shall be made to alter any building, or part thereof, which is under lease by the United States for use for a public purpose if the cost of such alteration would exceed \$750,000 unless such alteration has been approved by resolutions adopted by the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives. For the purpose of securing consideration for such approval, the Administrator shall transmit to the Congress a prospectus of the proposed facility, including (but not limited to)—

- (1) a brief description of the building to be constructed, altered, purchased, acquired, or the space to be leased under this chapter;
- (2) the location of the building or space to be leased and an estimate of the maximum to the United States of the facility to be constructed, altered, purchased, acquired, or the space to be leased;
- (3) a comprehensive plan for providing space for all Government officers and employees in the locality of the proposed facility or the space to be leased, having due regard for suitable space which may continue to be available in existing Government-owned or occupied buildings, especially such of those buildings as enhance the architectural, historical, social, cultural, and economic environment of the locality;
- (4) with respect to any project for the construction, alteration, purchase, or acquisition of any building, a statement by the Administrator that suitable space owned by the Government is not available and that suitable rental space is not available at a price commensurate with that to be afforded through the proposed action;

- (5) a statement by the Administrator of the economic and other justifications for not acquiring or purchasing a building or buildings identified to the Administrator pursuant to section 611(c) of this title as suitable for the public building needs of the Federal Government; and
- (6) a statement of rents and other housing costs currently being paid by the Government for Federal agencies to be housed in the building to be constructed, altered, purchased, acquired, or the space to be leased.

(b) Increase of estimated maximum cost

The estimated maximum cost of any project approved under this section as set forth in any prospectus may be increased by an amount equal to the percentage increase, if any, as determined by the Administrator, in construction, or alteration costs, as the case may be, from the date of transmittal of such prospectus to Congress, but in no event shall the increase authorized by this subsection exceed 10 per centum of such estimated maximum cost.

(c) Rescission of approval for failure to make appropriations for project

In the case of any project approved for construction, alteration, or acquisition by the Committees on Public Works of the Senate and of the House of Representatives, respectively, in accordance with subsection (a) of this section, for which an appropriation has not been made within one year after the date of such approval, either the Committee on Public Works of the Senate or the Committee on Public Works of the House of Representatives, may rescind, by resolution, its approval of such project at any time thereafter before such an appropriation has been made.

(d) Emergency leases by the Administrator

Nothing in this section shall be construed to prevent the Administrator from entering into emergency leases during any period declared by the President to require such emergency leasing authority, except that no such emergency lease shall be for a period of more than 180 days without approval of a prospectus for such lease in accordance with subsection (a) of this section.

(e) Limitation on leasing certain space

(1) General rule

The Administrator may not lease any space to accommodate—

- (A) computer and telecommunications operations;
- (B) secure or sensitive activities related to the national defense or security, except in any case in which it would be inappropriate to locate such activities in a public building or other facility identified with the United States Government; or
- (C) a permanent courtroom, judicial chamber, or administrative office for any United States court; if the average rental cost of leasing such space would exceed \$1,500,000.

(2) Exception

The Administrator may lease any space with respect to which paragraph (1) applies if the Administrator first determines, for reasons set forth in writing, that leasing such space is necessary to meet requirements which cannot be met in public buildings and submits such reasons to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives.

(f) *Dollar amount adjustment*

Any dollar amount referred to in this section and section 603(b) of this title may be adjusted by the Administrator annually to reflect a percentage increase or decrease in construction costs during the preceding calendar year, as determined by the composite index of construction costs of the Department of Commerce. Any such adjustment shall be expeditiously reported to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives.

* * * * *

Title 40. United States Code. (Public Buildings, Property, and Works)

Chapter 12 - Construction, Alteration, and Acquisition of Public Buildings

§ 610. Report to Congress; uncompleted projects; building project surveys

(a) Upon the request of either House of Congress, or any committee thereof, and within a reasonable time, the Administrator shall submit a report showing the location, space, cost, and status, of each public building the construction, alteration, or acquisition of which is to be under authority of this chapter and which was uncompleted as of the date of the request, or as of such other date as the request may designate.

(b) The Administrator and the United States Postal Service are authorized and directed to make such building project surveys as may be requested by resolution by either the Committee on Environment and Public Works of the Senate or the Committee on Public Works and Transportation of the House of Representatives, and within a reasonable time shall make a report thereon to the Congress. Such report shall contain all other information required to be included in a prospectus of the proposed public building project under section 606(a) of this title.

**RESOLUTIONS APPROVED BY THE
SENATE COMMITTEE ON ENVIRONMENT AND

COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

COMMITTEE RESOLUTION

Biloxi Harbor, Mississippi

RESOLVED BY THE COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS OF THE UNITED STATES SENATE

That the Secretary of the Army is requested to review the report of the Chief of Engineers on Biloxi Harbor, Mississippi, published as House Document 513, 89th Congress, 2nd Session, and other pertinent reports, to determine if modifications of any of the recommendations contained therein are advisable at this time in the interest of navigation, with particular reference to deepening the existing channels.

COMMITTEE RESOLUTION

**FEASIBILITY STUDY
 CHESAPEAKE BAY RESTORATION
 ANNAPOLIS, MD**

**RESOLVED BY THE COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS OF THE
 UNITED STATES SENATE**

pursuant to title 40 U.S.C. § 3314(b), the Administrator of General Services, in cooperation with other interested agencies, including the Environmental Protection Agency, U.S. Fish and Wildlife Service, National Park Service, U.S. Geological Survey, National Oceanic and Atmospheric Administration, and U.S. Department of Agriculture, is authorized and directed to investigate the feasibility and need for consolidating the Federal agencies with responsibilities for Chesapeake Bay restoration in Annapolis, Maryland into a single federally-owned or leased building in the area and submit a report to Congress within 90 days.

Approval of this resolution constitutes authority to execute a feasibility study to consolidate the Federal agencies responsible for the Chesapeake Bay restoration.

Provided, that, to the maximum extent practicable, the Administrator shall require that the survey include minimum performance requirements requiring energy efficiency and the use of renewable energy.

Provided further, that the Administrator ensure opportunities for sustainable building principles, including the efficient prevention and management of storm water runoff, environmental education and demonstration practices are considered.

COMMITTEE RESOLUTION

**LEASE
 INTERNAL REVENUE SERVICE
 AUSTIN, TX
 PTX-01-AU08**

**RESOLVED BY THE COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS OF THE
 UNITED STATES SENATE**

that pursuant to the provisions of title 40 U.S.C. § 3307, a prospectus providing for a lease of up to approximately 225,054 rentable square feet for the Internal Revenue Service, currently located in the Southpark G Building, 1821 Director's Boulevard, Austin, TX, at a proposed total annual cost of \$4,726,134 for a lease term of up to 10 years, a description of which is attached hereto and by reference made part of, is approved.

Approval of this prospectus constitutes authority to execute an interim lease for all tenants, if necessary, prior to execution of the new lease.

Provided, that the Administrator shall require that the delineated area of the procurement is identical to the delineated area included in the prospectus, *except that*, if the Administrator determines that the delineated area of the procurement should not be identical to the delineated area included in the prospectus, the Administrator shall provide an explanatory statement to the Committee on Environment and Public Works of the United States Senate prior to exercising any lease authority provided in this resolution.

Provided further, that the Administrator shall not delegate to any other agency the authority granted by this resolution.

LEASE
 INTERNAL REVENUE SERVICE
 SAN JOSE, CA
 PCA-01-SJ08

RESOLVED BY THE COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS OF THE
 UNITED STATES SENATE

that pursuant to the provisions of title 40 U.S.C. § 3307, a prospectus providing for a lease of up to approximately 122,000 rentable square feet of space for the Internal Revenue Service, currently located in downtown San Jose, CA, 55 S. Market Street, for a proposed cost not to exceed \$35.00 per rentable square foot for a total annual cost of \$4,270,000 for a lease term of up to 10 years, a description of which is attached hereto and by reference made part of, is approved.

Approval of this prospectus constitutes authority to execute an interim lease for all tenants, if necessary, prior to execution of the new lease.

Provided, that the Administrator shall require that the delineated area of the procurement is identical to the delineated area included in the prospectus, *except that*, if the Administrator determines that the delineated area of the procurement should not be identical to the delineated area included in the prospectus, the Administrator shall provide an explanatory statement to the Committee on Environment and Public Works of the United States Senate prior to exercising any lease authority provided in this resolution.

Provided further, that the Administrator shall not delegate to any other agency the authority granted by this resolution.

**AMENDED PROSPECTUS - LEASE
 DEPARTMENT OF THE INTERIOR
 BUREAU OF LAND MANAGEMENT
 WASHINGTON, DC
 PDC-07-WA08**

RESOLVED BY THE COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS OF THE
 UNITED STATES SENATE

that pursuant to the provisions of title 40 U.S.C. § 3307, to amend the lease prospectus PDC-09-WA-05, which requested authority to lease up to 74,698 rentable square feet for a lease term of 10 years and a maximum annual rental of \$3,361,410 for the Department of the Interior, Bureau of Land Management (BLM), currently located at 1620 L Street, NW, Washington, DC, to provide the authority to lease up to 94,435 square feet, at a rate not to exceed \$47 per square foot at a proposed annual cost of \$4,438,445, for a lease term of 10 years, a description of which is attached hereto and by reference made part of, is approved.

Approval of this amended prospectus constitutes authority to execute an interim lease for all tenants, if necessary, prior to execution of the new lease.

Provided, that the Administrator shall require that the delineated area of the procurement is identical to the delineated area included in the prospectus, *except that*, if the Administrator determines that the delineated area of the procurement should not be identical to the delineated area included in the prospectus, the Administrator shall provide an explanatory statement to the Committee on Environment and Public Works of the United States Senate prior to exercising any lease authority provided in this resolution.

RESOLVED BY THE COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS OF THE
UNITED STATES SENATE

that pursuant to title 40 U.S.C. §3307, a prospectus providing for a new lease of up to approximately 163,040 rentable square feet for the Federal Bureau of Investigation (FBI) in Salt Lake City, Utah, including a 100-foot setback with 191 structured parking spaces, 27 FBI surface parking spaces, and 30 additional surface parking spaces outside of the secured perimeter for visitor parking, for a proposed cost not to exceed \$38 per rentable square foot for a total annual cost of \$6,195,520, for a lease term of 20 years, a description of which is attached hereto and by reference made part of this resolution, is approved.

Approval of this prospectus constitutes authority to execute an interim lease for all tenants, if necessary, prior to execution of the new lease.

Provided, that, to the maximum extent practicable, the Administrator of General Services shall require that the procurement include requirements requiring energy efficiency as would be required for the construction of a federal building.

Provided further, that the Administrator shall require that the delineated area of the procurement is identical to the delineated area included in the prospectus, *except that*, if the Administrator determines that the delineated area of the procurement should not be identical to the delineated area included in the prospectus, the Administrator shall provide an explanatory statement to the Committee on Environment and Public Works of the Senate prior to exercising any lease authority provided in this resolution.

Provided further, that the Administrator shall not delegate to any other agency the authority granted by this resolution.

New Orleans and Vicinity, Louisiana

that pursuant to section 7012 of the Water Resources Development Act of 2007 (121 Stat 1279 et seq), additional appropriations for the activities listed in subsection 7012(a) are authorized as follows:

- (1) \$2,079,900,000 to raise levee heights where necessary and otherwise enhance the Lake Pontchartrain and Vicinity project and the West Bank and Vicinity project to provide the level of protection necessary to achieve the certification required for a 100-year level of flood protection in accordance with the national flood insurance program under the base flood elevations current at the time of construction of the levee;
- (2) \$704,000,000 to modify the 17th Street, Orleans Avenue, and London Avenue drainage canals in the city of New Orleans and install pumps and closure structures at or near the lakefront at Lake Pontchartrain;
- (3) \$459,000,000 to armor critical elements of the New Orleans hurricane and storm damage reduction system;
- (4) \$456,000,000 to replace or modify certain non-Federal levees in Plaquemines Parish to incorporate the levees into the New Orleans to Venice Hurricane Protection project;
- (5) \$412,000,000 to reinforce or replace flood walls in the existing Lake Pontchartrain and Vicinity project and the existing West Bank and Vicinity project to improve performance of the flood and storm damage reduction systems; and

(6) \$90,000,000 to perform one time stormproofing of interior pump stations to ensure the operability of the stations during hurricanes, storms, and high water events.

GENERAL SERVICES ADMINISTRATION
FEDERAL ACQUISITION SERVICE
BURLINGTON COUNTY, NJ
PNJ-01-BU09

RESOLVED BY THE COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS OF THE
UNITED STATES SENATE

that pursuant to title 40 U.S.C. § 3307, a prospectus for a superseding lease of up to a proposed maximum 1,100,000 rentable square feet, 363 parking spaces, for the General Services Administration, Federal Acquisition Service's Eastern Distribution Center in Burlington County, N.J. at \$8.00 per rentable square foot, at a proposed total annual cost of \$8,800,000, for a lease term of 10 years, a description of which is attached hereto and by reference made part of this resolution, is approved.

Approval of this prospectus constitutes authority to execute an interim lease for all tenants, if necessary, prior to execution of the new lease.

Provided, that, to the maximum extent practicable, the Administrator of General Services shall require that the procurement include requirements requiring energy efficiency as would be required for the construction of a federal building.

Provided further, that the Administrator shall require that the delineated area of the procurement is identical to the delineated area included in the prospectus, *except that*, if the Administrator determines that the delineated area of the procurement should not be identical to the delineated area included in the prospectus, the Administrator shall provide an explanatory statement to the Committee on Environment and Public Works of the Senate prior to exercising any lease authority provided in this resolution.

Provided further, that the Administrator shall not delegate to any other agency the authority granted by this resolution.

AMENDED COMMITTEE RESOLUTION

LEASE
U.S. DISTRICT COURT – 9TH CIRCUIT
BILLINGS, MONTANA
PMT-01-B108

RESOLVED BY THE COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS OF THE
UNITED STATES SENATE

that pursuant to title 40 U.S.C. § 3307, a prospectus providing for a new lease of up to approximately 71,560 rentable square feet and 28 inside parking spaces for the U.S. District Court and court related agencies, including the U.S. District Court, U.S. Attorney, and U.S. Marshals Service, and providing one Magistrate and two District courtrooms for four judges in Billings, Montana, at a proposed total annual cost of \$3,291,760 at \$46 per rentable square foot, for a lease term of up to 20 years, a description of which is attached hereto and by reference made part of this resolution, is approved. This resolution amends the Committee resolution adopted December 18, 2007.

Approval of this prospectus constitutes authority to execute an interim lease for all tenants, if necessary, prior to the execution of the new lease.

Provided, that the Administrator of General Services enters into an agreement with officials of Yellowstone County, Montana, whereby the County provides to the Administrator, under terms and conditions agreed to by the parties, an assignable option for a site of approximately 1.5 acres, located in Billings, Montana.

Provided further, that the Administrator assigns the site option to a competitively selected developer, who will construct upon the aforementioned site of approximately 1.5 acres in Billings, Montana and lease to the Government a facility to house the U.S. District Court and court related agencies, in accordance with the terms and conditions of this resolution.

Provided further, that any lease agreement executed pursuant to this resolution shall include an option to purchase and obtain fee title to the facility leased to the Government, at any time subsequent to the expiration of the leasehold interest.

Provided further, that, to the maximum extent practicable, the Administrator shall require that the procurement include requirements for energy efficiency as would be required for construction of a federal building.

Provided further, that the General Services Administration shall not delegate to any other agency the authority granted by this resolution.
