History of the Committee on Science & Technology

The Soviet Union launched the first satellite, *Sputnik 1*, into orbit on October 4, 1957, initiating the "Space Race." When the 85th Congress reconvened in 1958, one of its first tasks was the creation of a Select Committee on Astronautics and Space Exploration. This Select Committee wrote the Space Act, which established the National Aeronautics and Space Administration (NASA) and the permanent House Committee on Science and Astronautics, the forerunner of the present Committee on Science and Technology.

The Science and Astronautics Committee was the first standing committee created in the House in 11 years and the first committee since 1892 to be established for an entirely new area of jurisdiction. The Committee's initial jurisdiction included exploration and control of outer space, astronautical research and development, scientific research and development, science scholarships and legislation relating to scientific agencies. The scientific agencies under the Committee initially included the National Bureau of Standards (now the National Institute of Standards and Technology), NASA, the National Aeronautics and Space Council and the National Science Foundation.

In 1974, the Committee's name was changed to the Committee on Science and Technology. At that time, the Committee's jurisdiction was expanded to include legislation related to energy, the environment, the atmosphere, civil aviation research and development and the National Weather Service. The Committee on Science and Technology was also given a "special oversight" function providing for exclusive responsibility among all Congressional Standing Committees to review and study, on a continuing basis, all laws, programs and government activities involving Federal non-military research and development.

Civilian nuclear research and development was added to the Committee's jurisdiction in 1977 when the Joint Committee on Atomic Energy was abolished. The name was again changed at the outset of the 100th Congress to the Committee on Science, Space, and Technology. The Republican Party took control of the House in 1995 and officially changed the name of the Committee to the Committee on Science.

In its early years, the Committee was an important partner in the *Apollo* Program that led to a man landing on the moon and strengthening science education and scientific research. After the Committee's role expanded, the Committee has played an important role in much of the legislation Congress has considered dealing with domestic and international science, technology, standards and competitiveness.

Members of the Committee have gone on to play important roles in Congress and the Executive Branch. Alumni of the Select Committee and the Science Committee have included President Ford, Vice President Gore, Senate Majority Leader Reid, Commerce and Transportation Secretary Mineta and Agriculture Secretary Glickman.

Congressman Bart Gordon (D-TN) was named Chairman of the Committee when Democrats resumed control of Congress in 2007. He subsequently brought the Committee back to its roots with a return to the name of Committee on Science and Technology – a move made to better reflect the broad jurisdiction of the panel.

In the 110th and 111th Congress, the Committee comprises five subcommittees: Energy & Environment; Technology & Innovation; Research & Science Education; Space & Aeronautics; and Investigations & Oversight.

History of Appointments Committee on Science and Technology

January 6, 2009 – H. Res. 8

Bart Gordon, Tennessee was named Chairman of the Science and Technology Committee.

January 6, 2009 – H. Res. 12

Ralph Hall was named Ranking Member of the Science and Technology Committee.

January 9, 2009 – H. Res. 38

Republican Members assigned to the Committee on Science and Technology

Ralph M. Hall, F. James Sensenbrenner, Jr., Lamar S. Smith of Texas,
Dana Rohrabacher, Roscoe G. Bartlett, Vernon J. Ehlers, Frank D. Lucas,
Judy Biggert, W. Todd Akin, Randy Neugebauer, Bob Inglis,
Michael T. McCaul, Mario Diaz-Balart, Brian P. Bilbray,
Adrian Smith of Nebraska, Paul C. Broun, Pete Olson.

January 21, 2009 – H. Res. 74

Democratic Members assigned to the Committee on Science and Technology

Bart Gordon, Jerry F. Costello, Eddie Bernice Johnson, Lynn C. Woolsey, David Wu, Brian Baird, Brad Miller, Daniel Lipinski, Gabrielle Giffords, Donna F. Edwards, Marcia Fudge, Ben Ray Luján, Paul Tonko, Parker Griffith, Steven R. Rothman, Jim Matheson, Lincoln Davis, Ben Chandler, Russ Carnahan, Baron P. Hill, Harry E. Mitchell, Charles A. Wilson, Kathleen A. Dahlkemper, Alan Grayson, Suzanne M. Kosmas, Gary C. Peters.

January 22, 2009 – H. Res. 78

Adrian Smith (NE) appointed to the Committee on Science and Technology.
To be ranked after Mr. Bilbray.

November 19, 2009 – H. Res. 921

John Garamendi to rank immediately after Mr. Griffith.

December 20, 2009

Parker Griffith, Alabama resigned from the Committee on Science and Technology.

May 6, 2010 – H. Res. 1334

Mr. Garamendi to rank immediately after Mr. Peters.

FOSTER, Bill of Illinois

- H.Res. 1097** Supporting the goals and ideals of National Engineers Week, and for other purposes.
- H.R. 1464 *** To require Federal agencies to collaborate in the development of freely-available open source educational materials in college-level physics, chemistry, and math, and for other purposes.
- H.R. 1835** To amend the Internal Revenue Code of 1986 to encourage alternative energy investments and job creation.
- H.R. 2227** To greatly enhance America's path toward energy independence and economic and national security, to conserve energy use, to promote innovation, to achieve lower emissions, cleaner air, cleaner water, and cleaner land, and for other purposes.
- H.R. 2710** To stimulate collaboration with respect to, and provide for coordination and coherence of, the Nation's science, technology, engineering, and mathematics education initiatives.
- H.R. 2759** Waiving the cost-share requirement under the Staffing for Adequate Fire and Emergency Response grant program for grants awarded during fiscal year 2008.
- H.R. 3177** To promote the development of practical fusion energy, and for other purposes.
- H.R. 3246** To provide for a program of research, development, demonstration and commercial application in vehicle technologies at the Department of Energy.
- H.R. 3791** To amend sections 33 and 34 of the Federal Fire Prevention and Control Act of 1974, and for other purposes.
- H.R. 5116** To invest in innovation through research and development, to improve the competitiveness of the United States, and for other purposes.
- H.R. 5163** To amend the Energy Policy Act of 2005 to require the Secretary of Energy to carry out a research program to reduce manufacturing and construction costs relating to nuclear reactors, and for other purposes.
- H.R. 5164** To amend the Energy Policy Act of 2005 to require the Secretary of Energy to carry out programs to develop and demonstrate 2 small modular nuclear reactor designs, and for other purposes.
- H.R. 6003 *** To provide for the establishment of the National Fab Lab Network to build out a network of community based, networked Fabrication Laboratories across the United States to foster a new generation with scientific and engineering skills and to provide a work force capable of producing world class individualized and traditional manufactured goods.

FOXX, Virginia of North Carolina

- H.R. 49** To direct the Secretary of the Interior to establish and implement a competitive oil and gas leasing program that will result in an environmentally sound program for the exploration, development, and production of the oil and gas resources of the Coastal Plain of Alaska, and for other purposes.
- H.R. 1431** To stimulate the economy and create jobs at no cost to the taxpayers, and without borrowing money from foreign governments for which our children and grandchildren will be responsible, and for other purposes.
- H.R. 2828** To provide the United States with a comprehensive energy package to place Americans on a path to a secure economic future through increased energy innovation, conservation, and production.

FOXX, Virginia of North Carolina

- H.R. 2846** To increase energy independence and job creation by increasing safe American energy production, encouraging the development of alternative and renewable energy, and promoting greater efficiencies and conservation for a cleaner environment.

FRANK, Barney of Massachusetts

- H.Res. 793** Supporting the goals and ideals of National Chemistry Week.
- H.R. 14** To provide for ocean acidification research and monitoring, and for other purposes.
- H.R. 2894** To amend the Help America Vote Act of 2002 to require a voter-verified permanent paper ballot under title III of such Act, and for other purposes.
- H.R. 4202** To establish centers of excellence for green infrastructure, and for other purposes.
- H.R. 4914** To promote coastal jobs creation, promote sustainable fisheries and fishing communities, revitalize waterfronts, and for other purposes.
- H.R. 6060** To support innovation and research in the United States textile and fiber products industry.

FRANKS, Trent of Arizona

- H.Res. 447** Recognizing the remarkable contributions of the American Council of Engineering Companies for its 100 years of service to the engineering industry and the Nation.
- H.R. 49** To direct the Secretary of the Interior to establish and implement a competitive oil and gas leasing program that will result in an environmentally sound program for the exploration, development, and production of the oil and gas resources of the Coastal Plain of Alaska, and for other purposes.
- H.R. 1208** To strengthen existing legislation sanctioning persons aiding and facilitating nonproliferation activities by the Government of Iran, and for other purposes.
- H.R. 1431** To stimulate the economy and create jobs at no cost to the taxpayers, and without borrowing money from foreign governments for which our children and grandchildren will be responsible, and for other purposes.
- H.R. 1835** To amend the Internal Revenue Code of 1986 to encourage alternative energy investments and job creation.

FUDGE, Marcia L. of Ohio

H.Res. 558 Supporting the increased understanding of, and interest in, computer science and computing careers among the public and in schools, and to ensure an ample and diverse future technology workforce through the designation of National Computer Science Education Week.

H.Res. 607 Celebrating the Fortieth Anniversary of the Apollo 11 Moon Landing.

H.Res. 797 Expressing the sense of Congress with respect to raising awareness and enhancing the state of cyber security in the United States, and supporting the goals and ideals of the sixth annual National Cyber Security Awareness Month.

H.Res. 1097 Supporting the goals and ideals of National Engineers Week, and for other purposes.

H.Res. 1133 Recognizing the extraordinary number of African-Americans who have overcome significant obstacles to enhance innovation and competitiveness in the field of science in the United States.

H.Res. 1213 * Recognizing the need to improve the participation and performance of America's students in Science, Technology, Engineering, and Mathematics (STEM) fields, supporting the ideals of National Lab Day, and for other purposes.

H.Res. 1714 Congratulating the engineers, scientists, psychologists, and staff of the National Aeronautics and Space Administration (NASA) for helping to successfully rescue 33 trapped Chilean miners from a collapsed mine near Copiapo, Chile.

H.R. 1144 To increase awareness of the existence of and to overcome gender bias in academic science and engineering through research and training, and for other purposes.

H.R. 1145 To implement a National Water Research and Development Initiative, and for other purposes.

H.R. 1709 To establish a committee under the National Science and Technology Council with the responsibility to coordinate science, technology, engineering, and mathematics education activities and programs of all Federal agencies, and for other purposes.

H.R. 2020 To amend the High-Performance Computing Act of 1991 to authorize activities for support of networking and information technology research, and for other purposes.

H.R. 3083 To require the Secretary of Commerce to establish a program for the award of grants to States to establish revolving loan funds for small and medium-sized manufacturers to improve energy efficiency and produce clean energy technology, and for other purposes.

H.R. 4290 To establish the New Economy Grant Program through the Department of Labor to create public works jobs on State and local lands and community-based public interest projects, to direct aid to State and local governments for the retention and rehiring of certain public employees, and provide direct aid to the Departments of Agriculture and Interior to create public works jobs to address their deferred maintenance items.

H.R. 4393 To authorize the Secretary of Commerce to reduce the matching requirement for participants in the Hollings Manufacturing Extension Partnership Program.

FUDGE, Marcia L. of Ohio

H.R. 4413 To provide grants and loan guarantees for the development and construction of science parks to promote the clustering of innovation through high technology activities.

H.R. 4502 To strengthen the capacity of eligible institutions to provide instruction in nanotechnology.

H.R. 4549 To authorize the Administrator of the Small Business Administration to make grants to small business concerns to assist the commercialization of research developed with funds received under the second phase of the Small Business Innovation Research Program.

H.R. 4905 To guide and provide for research activities at the Department of Energy Office of Science, and for other purposes.

H.R. 4906 To reauthorize the Advanced Research Projects Agency-Energy, and for other purposes.

H.R. 4907 To establish Energy Innovation Hubs, and for other purposes.

H.R. 4914 To promote coastal jobs creation, promote sustainable fisheries and fishing communities, revitalize waterfronts, and for other purposes.

H.R. 5116 To invest in innovation through research and development, to improve the competitiveness of the United States, and for other purposes.

H.R. 5534 To authorize the Science, Engineering, Math, and Aerospace Academy Program in the National Aeronautics and Space Administration.

GALLEGLY, Elton of California

H.R. 1208 To strengthen existing legislation sanctioning persons aiding and facilitating nonproliferation activities by the Government of Iran, and for other purposes.

H.R. 1499 To direct the Secretary of Homeland Security to conduct a survey to determine the level of compliance with national voluntary consensus standards and any barriers to achieving compliance with such standards, and for other purposes.
