FOREWORD

This volume of legislation and related material is part of a five volume set of laws and related material frequently referred to by the Committees on Foreign Relations of the Senate and Foreign Affairs of the House of Representatives, amended to date and annotated to show pertinent history or cross references.

Volumes I (A and B), II (A and B), III and IV contain legislation and related material and are republished with amendments and additions on a regular basis. Volume V, which contains treaties and related material, was last updated through 2005.

We wish to express our appreciation to Matthew C. Weed of the Foreign Affairs, Defense, and Trade Division of the Congressional Research Service of the Library of Congress and Suzanne Kayne of the U.S. Government Printing Office who prepared volume II-B of this year's compilation.

JOHN F. KERRY,
Chairman, Committee on Foreign Relations.

HOWARD L. BERMAN,
Chairman, Committee on Foreign Affairs.

July 23, 2010.

EXPLANATORY NOTE

The body of statutory law set out in this volume was in force, as amended, at the end of 2008.

This volume sets out “session law” as originally enacted by Congress and published by the Archivist of the United States as “slip law” and later in the series *United States Statutes at Large* (as subsequently amended, if applicable). Amendments are incorporated into the text and distinguished by a footnote. Session law is organized in this series by subject matter in a manner designed to meet the needs of the Congress.

Although laws enacted by Congress in the area of foreign relations are also codified by the Law Revision Counsel of the House of Representatives, typically in title 22 United States Code, those codifications are not positive law and are not, in most instances, the basis of further amendment by the Congress. Cross references to the United States Code are included as footnotes for the convenience of the reader.

All Executive orders and State Department delegations of authority are codified and in force as of December 30, 2008.

Corrections may be sent to Matthew C. Weed at Library of Congress, Congressional Research Service, Washington D.C., 20540-7460, or by e-mail at mweed@crs.loc.gov.

SEC. 705. NEW BUILDING IN GENEVA FOR THE USE OF THE UNITED STATES ARMS CONTROL NEGOTIATING TEAMS.

(a) FINDINGS.—The Congress finds that—

(1) the United States is party to vital talks on arms control in Geneva, Switzerland;

(2) these talks include negotiations on strategic nuclear weapons, intermediate range nuclear weapons, space and defense systems, a bilateral United States-Soviet forum, called the Standing Consultative Commission and a multilateral forum, called the Conference on Disarmament;

(3) the United States delegations to these talks occupy buildings and spaces insufficiently secure, modernized, or large enough to permit those delegations to conduct their work efficiently;

(4) the United States delegations to the strategic, intermediate and space and defense talks in particular occupy space in the Botanic Building that is also occupied by offices of numerous other, non-United States organizations, and shares common walls and parking facilities with these delegations;

(5) arms control negotiations require sophisticated security facilities, telecommunications equipment, simultaneous translation capabilities and other specialized services; and

- (6) the Soviet Union, for its part, has made available for its negotiating team a modern, secure, well-equipped building dedicated for the use of its arms control negotiating teams.
- (b) SENSE OF CONGRESS.—It is the sense of the Congress that—
- (1) in order to facilitate the effective work of the United States arms control negotiating teams, and to provide for them a dedicated structure capable of supporting their vital tasks on a permanent basis, the Secretary of State should submit to the Congress a report on the feasibility, cost, location, and requirements of a structure to house the United States arms control negotiating teams in Geneva;
 - (2) this report should be submitted as soon as possible; and
 - (3) this matter should be included in the consideration of the 1985 supplemental appropriation process.

SEC. 706. STUDY OF MEASURES TO ENHANCE CRISIS STABILITY AND CONTROL.

(a) STUDY.—The Secretary of State and the Director of the Arms Control and Disarmament Agency shall conduct a detailed and complete study and evaluation of additional measures which both enhance the security of the United States and reduce the likelihood of nuclear weapons use by contributing to crisis stability or crisis control capabilities, including specific consideration of the following measures:

- (1) Increased redundancy of direct communications link circuits, including the creation of new survivable circuits and terminals, located outside the national capital which have access to the command and control system of the country in which they are located.
- (2) Establishment of redundant, survivable direct communications links between and among all nuclear-armed states.
- (3) Conclusion of an agreement creating “non-target” sanctuaries only for certain direct communications link circuits to enhance survivability of communications.
- (4) Creation in advance of standard operating procedures for communicating, and possibly cooperating, with the Soviet Union and other states in the event of nuclear attacks by third parties on either the United States or Soviet Union.
- (5) Addition to the Incidents At Sea agreement of a prohibition on the “locking on” of fire control radars on ships and planes of the other side, an agreement on the separation of naval forces during specified periods of crisis, and other such measures relevant to the Incidents At Sea agreement.
- (6) Placement by the United States and the Soviet Union of unmanned launch sensors in the land-based missile fields of both countries.
- (7) Establishment of anti-submarine operations free zones designed to enhance the security of ballistic missile submarines.
- (8) Installation of permissive action links aboard the ballistic missile submarines of the United States, which might possibly be activated or deactivated at various levels of alert, and encouragement of the Soviet Union to do the same.
- (9) Establishment of training programs for National Command Authority officials to familiarize them with alert proce-

dures, communications capabilities, nuclear weapons release authority procedures, and the crisis control and stability implications thereof.

(10) Include in standard operating procedure the relocation in a crisis of a National Command Authority official outside Washington, D.C. to a secure location with access to the strategic command and control system, and announce the institution of this procedure to relevant foreign governments.

(b) REPORT.—The Secretary of State and the Director of the Arms Control and Disarmament Agency shall submit a report of the study and evaluation under subsection (a) to the Committees on Armed Services and Foreign Relations of the Senate and the Committees on Armed Services and Foreign Affairs of the House of Representatives¹ by January 1, 1986. Such report should be available in both a classified, if necessary, and unclassified format.

SEC. 707. POLICY TOWARD BANNING CHEMICAL WEAPONS.

(a) FINDINGS. —The Congress finds that—

(1) chemical weapons are among the most terrible weapons in today's military arsenals;

(2) it is the objective of the United States to eliminate the threat of chemical warfare through a comprehensive and verifiable ban on chemical weapons;

(3) the United States is vigorously pursuing a multilateral agreement to ban chemical weapons;

(4) the negotiation of a verifiable, bilateral agreement between the United States and the Soviet Union would be a significant step toward achieving a worldwide ban on chemical weapons;

(5) bilateral discussions relating to a ban on chemical weapons took place in July and August of 1984 between the United States and Soviet delegations to the Conference on Disarmament; and

(6) such endeavors could serve the security interests of humankind.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that the President—

(1) should be commended for his efforts to negotiate a multilateral agreement banning chemical weapons;

(2) should continue to pursue vigorously such an agreement; and

(3) should seek the continuation and development of bilateral discussions between the United States and the Soviet Union to achieve a comprehensive and verifiable ban on chemical weapons.

¹ Sec. 1(a)(1) of Public Law 104-14 (109 Stat. 186) provided that references to the Committee on Armed Services of the House of Representatives shall be treated as referring to the Committee on National Security of the House of Representatives. SEC. 708. POLICY REGARDING A JOINT STUDY BY THE UNITED STATES AND THE SOVIET UNION OF THE CONSEQUENCES OF NUCLEAR WINTER.

It is the sense of the Congress that the President should propose to the Government of the Soviet Union during any arms control talks held with such Government that—

(1) the United States and the Soviet Union should jointly study the atmospheric, climatic, environmental, and biological consequences of nuclear explosions, sometimes known as “nuclear winter”, and the impact that nuclear winter would have on the national security of both nations;

(2) such a joint study should include the sharing and exchange of information and findings on the nuclear winter phenomena and make recommendations on possible joint research projects that would benefit both nations; and

(3) at an appropriate time the other nuclear weapons states (the United Kingdom, France, and the People’s Republic of China) should be involved in the study.

SEC. 1207. REPORT ON OFFENSIVE BIOLOGICAL WARFARE PROGRAM OF THE STATES OF THE FORMER SOVIET UNION.

(a) FINDINGS.—Congress makes the following findings:

(1) The United States has identified nonproliferation of weapons of mass destruction as a high priority in the conduct of United States national security policy.

(2) The United States is seeking universal adherence to global regimes that control nuclear, chemical, and biological weapons and is promoting new measures that provide increased transparency of biological weapons-related activities and facilities in an effort to help deter violations of and enhance compliance with the Biological Weapons Convention.

(3) In early 1992, Russian President Boris Yeltsin indicated to former United States President George Bush that Russia still had an offensive biological weapons program.

(4) A United States Government report dated January 19, 1993, on arms control noncompliance noted that Russian declarations up to that date had dramatically underestimated the size, scope, and maturity of the former Soviet biological weapons program.

(5) Despite President Yeltsin's decree of April 11, 1993, stating that activities in violation of the Biological Weapons Convention are illegal, questions continue to arise regarding offensive biological weapons research, development, testing, production, and storage in Russia as well as in other countries.

(6) A United States Government report, dated June 23, 1994, states the following: "The United States has determined that the offensive biological warfare program that Russia inherited

from the Soviet Union violated the Biological Weapons Convention through at least March 1992. The Soviet offensive biological weapons program was massive, and included production, weaponization, and stockpiling. The status of the program since that time remains unclear and the U.S. remains concerned about the Russian biological warfare program.”

(7) The Joint Statement on Biological Weapons issued by officials of the United States, the United Kingdom, and Russia on September 14, 1992, confirmed the commitment of the three governments to full compliance with the Biological Weapons Convention and outlined steps designed to increase confidence in that commitment.

(8) The Presidents of Russia and the United States are scheduled to hold a summit meeting in Washington during the month of September 1994.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the President should continue to urge all signatories to the Biological Weapons Convention to comply fully with the terms of that convention and with other international agreements relating to the control of biological weapons;

(2) the President should keep the Congress fully and currently informed regarding any Russian activities related to offensive biological weapons;

(3) the President should continue to insist that the Russian Government complete the steps noted and agreed to in the Joint Statement on Biological Weapons issued by officials of the United States, the United Kingdom, and Russia on September 14, 1992;

(4) subsequent meetings of representatives of the United States, the United Kingdom, and Russia on biological weapons and the September 1994 summit meeting in Washington provide opportunities for the President to again emphasize the importance of resolving the issues related to compliance with the Biological Weapons Convention;

(5) in assessing the President's fiscal year 1996 budget request for foreign assistance funds for Russia, and for other programs and activities to provide assistance to Russia, including the Cooperative Threat Reduction programs, Congress will consider United States Government assessments of Russia's compliance with its obligations under the Biological Weapons Convention; and

(6) as the President encourages increased transparency of biological weapons-related activities and facilities to deter violations of, and enhance compliance with, the Biological Weapons Convention, the President should also take appropriate actions to ensure that the United States is prepared to counter the effects of use of biological weapons by others.

(c)⁶ PRESIDENTIAL REPORTS.—Not later than February 1, 1995, not later than June 1, 1995, and not later than October 1, 1995, the President shall submit to Congress a report, in classified and

⁶In a memorandum of February 15, 1995, the President delegated the authority and functions laid out in sec. 1207(c) to the Secretary of State, in consultation with the Secretary of Defense (60 F.R. 10791; February 28, 1995).

unclassified forms, containing an assessment of the extent of compliance of the independent states of the former Soviet Union with the Biological Weapons Convention and other international agreements relating to the control of biological weapons.

(d) CONTENT OF REPORT.—The report shall include the following:

(1) MATTERS RELATED TO COMPLIANCE.—

(A) An evaluation of the extent of control and oversight by the government of the Russian Federation over the former Soviet military and dual civilian-military biological warfare programs.

(B) The extent, if any, of the biological warfare agent stockpile in any of the independent states of the former Soviet Union.

(C) The extent and scope, if any, of continued biological warfare research, development, testing, and production by such states, including the sites and types of activity at those sites.

(D) An evaluation of the effectiveness of possible delivery systems of biological weapons, including tube and rocket artillery, aircraft, and ballistic missiles.

(E) An assessment of measures taken by the Russian Government to complete the steps noted and agreed to in the 1992 Joint Statement on Biological Weapons referred to in subsection (b)(3), including a determination of the extent to which Russia has—

(i) agreed to permit visits to military and non-military biological sites in order to attempt to resolve ambiguities;

(ii) provided information about biological weapons dismantlement accomplished to date, and further clarification of information provided in its United Nations Declarations regarding biological weapons;

(iii) been cooperative in exchanging information on a confidential, reciprocal basis concerning past offensive biological weapons programs not recorded in detail in its declarations to the United Nations;

(iv) cooperated in reviewing potential additional measures to monitor compliance with the Biological Weapons Convention and modalities for testing such measures;

(v) agreed to an examination of the physical infrastructure of its biological facilities to determine whether there is specific equipment or excess capacity inconsistent with their stated purpose;

(vi) helped identify ways to promote cooperation and investment in the conversion of biological weapons facilities; and

(vii) agreed to exchanges of scientists at biological facilities on a long-term basis.

(2) MATTERS RELATED TO UNITED STATES CAPABILITIES.—

(A) An evaluation of United States capabilities to detect and monitor biological warfare research, development, testing, production, and storage.

(B) On the basis of the assessment and evaluations referred to in other provisions of the report, recommendations by the Secretary of Defense and Chairman of the Joint Chiefs of Staff for the improvement of United States biological warfare defense and counter-measures.

(e) LIMITATION.—Of the amount authorized to be appropriated by section 301 for Cooperative Threat Reduction programs, \$25,000,000 may not be obligated until the President submits to Congress the first report required under subsection (c).

SEC. 1208. COORDINATION OF CERTAIN COOPERATIVE THREAT REDUCTION PROGRAMS.

(a) MILITARY-TO-MILITARY CONTACT PROGRAMS.—(1) None of the funds authorized to be appropriated in section 301 for Cooperative Threat Reduction programs may be obligated for activities under a military-to-military contact program until the Secretary of Defense and the Secretary of State submit to Congress a joint report on the coordination of military-to-military contact programs and comparable activities carried out under their respective jurisdictions.

(2) The report shall cover the following programs and activities:

(A) Defense and military-to-military contact programs to be carried out using funds authorized to be appropriated in section 301 for Cooperative Threat Reduction programs.

(B) Military-to-military contacts and comparable activities that are authorized by section 168 of title 10, United States Code, as added by section 1316.

(C) Programs authorized under chapter 5 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2347 et seq.).

(3) The report shall include a discussion of how the programs and activities referred to in paragraph (2) are carried out to maximize—

(A) the effect of such programs and activities in enhancing United States foreign policy objectives; and

(B) cost-efficiency in the conduct of the programs and activities.

(b) REPORT.—Section 1207 of the Cooperative Threat Reduction Act of 1993 (title XII of Public Law 103-160; 107 Stat. 1777; 22 U.S.C. 5956), is amended by adding at the end the following new paragraph: * * *

SEC. 1209. SENSE OF CONGRESS CONCERNING SAFE AND SECURE DISMANTLEMENT OF SOVIET NUCLEAR ARSENAL.

(a) FINDINGS.—Congress makes the following findings:

(1) It is a pressing national security challenge for the United States to expedite the safe and secure dismantlement of the nuclear arsenal of the former Soviet Union.

(2) In particular, it is essential to expedite the return of strategic nuclear warheads from Ukraine, Belarus, and Kazakhstan and to expedite the safe and secure dismantlement of the nuclear delivery vehicles of Ukraine, Belarus, and Kazakhstan.

(3) Leakage of nuclear materials and technology, and the continuing threat of emigration of scientists and technicians from the former Soviet nuclear weapons complex, pose a grave threat to United States national security and to international stability.

(4) Congress has authorized so-called “Nunn-Lugar” funds to enable the Department of Defense to carry out cooperative activities with states of the former Soviet Union to address the threats described in paragraphs (1), (2), and (3).

(b) SENSE OF CONGRESS.—In light of the findings in subsection (a), it is the sense of Congress that—

(1) the Secretary of Defense and the Secretary of State should continue to give their serious attention to carrying out a coordinated strategy for addressing the urgent national security issues described in subsection (a);

(2) the United States should expedite the availability and effective application of so-called “Nunn-Lugar” funds;

(3) although activities conducted with those funds should, to the extent feasible, draw upon United States technology and expertise, the United States should work with local contractors in Belarus, Kazakhstan, Russia, and Ukraine when doing so would expedite more effective use of those funds; and

(4) efforts should be made to make the Science and Technology Centers in Moscow and Kiev, designed to slow the emigration of scientists and technicians from the former Soviet weapons complex, fully operational on an expedited basis.

(2) NATURAL RESOURCES, ETC.—The President shall encourage the satisfaction of such reimbursement arrangements through the provision of natural resources, such as oil and petroleum products and critical and strategic materials, and industrial goods. Materials received by the United States Government pursuant to this subsection that are suitable for inclusion in the Strategic Petroleum Reserve or the National Defense Stockpile may be deposited in the reserve or stockpile without reimbursement. Other material and services received may be sold or traded on the domestic or international market with the proceeds to be deposited in the General Fund of the Treasury.

(TRANSFER OF FUNDS)

SEC. 108.¹ In addition to other transfer authority available to the Department of Defense, the Secretary of Defense may transfer from amounts appropriated to the Department of Defense for fiscal year 1992 for operation and maintenance or from balances in working capital accounts established under section 2208 of title 10, United States Code, not to exceed \$400,000,000, to the appropriate accounts within the Department of Defense for reducing the Soviet nuclear threat and for the purposes set forth in the Soviet Nuclear Threat Reduction Act of 1991 (title II of Public Law 102-228),^{2, 3} and under the terms and conditions of such Act:⁴ *Provided*, That the readiness of the United States Armed Forces shall not be diminished by such transfer of funds.⁵

Sec. 9110(c) of that Act authorized the transfer of another \$15,000,000 from the balances of DOD working capital funds for the purposes authorized in sec. 109. Sec. 9110(e)

Title II of the Department of Defense Appropriations Act, 1995 (Public Law 103–335; 108 Stat. 2606), also provided \$400,000,000. Title I, chapter II, Department of Defense, Operation and Maintenance, of Public Law 104–6 (109 Stat. 77), however, rescinded \$20,000,000 of that which was provided in Public Law 103–335. Title II of the Department of Defense Appropriations Act, 2003 (Public Law 107–248; 116 Stat. 1526) provided \$416,700,000. ⁶In a January 21, 1992, memorandum for the Secretary of Defense (57 F.R. 3111; January 28, 1992), the President stated:

1696),^{3,7} and under the terms and conditions of such section 301:^{3,8} *Provided*, That the readiness of the United States Armed Forces shall not be diminished by such transfer of funds: *Provided further*, That the Committees on Appropriations be notified of transfers under this provision fifteen days in advance.

TITLE II—GENERAL PROVISIONS

* * * * *

SEC. 201. No part of any appropriation contained in this joint resolution shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

CONGRESSIONAL DESIGNATION OF EMERGENCY

SEC. 202. Although the President has only designated portions of the funds in this joint resolution pertaining to the incremental costs of Desert Shield/Desert Storm and certain Federal Emergency Management Agency costs as “emergency requirements”, the Congress believes that the same or higher priority should be given to helping American people recover from natural disasters and other emergency situations as has been given to foreign aid “emergency” needs. The Congress therefore designates all funds in Titles I and II of this joint resolution as “emergency requirements” for all purposes of the Balanced Budget and Emergency Deficit Control Act of 1985.

(3) On December 1, 1991, a republic-wide referendum will be held in Ukraine to confirm the August 24, 1991, declaration of independence.

(4) Ukraine is pursuing a peaceful and democratic path to independence and has pledged to comply with the Helsinki Final Act and other documents of the Conference on Security and Cooperation in Europe.

(5) Ukraine and Russia signed an agreement on August 29, 1991, recognizing each other’s rights to state independence and affirming each other’s territorial integrity.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the President—

(1) should recognize Ukraine’s independence and undertake steps toward the establishment of full diplomatic relations with Ukraine should the December 1, 1991, referendum confirm Ukrainian parliament’s independence declaration; and

SEC. 1801.³ FINDINGS.

The 9/11 Commission has made the following recommendations:

(2) **EXPAND THE PROLIFERATION SECURITY INITIATIVE.**—In carrying out the Proliferation Security Initiative, the United States should—

- (A) use intelligence and planning resources of the North Atlantic Treaty Organization (NATO) alliance;
- (B) make participation open to non-NATO countries; and
- (C) encourage Russia and the People’s Republic of China to participate.

(3) **SUPPORT THE COOPERATIVE THREAT REDUCTION PROGRAM.**—The United States should expand, improve, increase resources for, and otherwise fully support the Cooperative Threat Reduction program.

TITLE II—UNITED STATES ADDITIONAL PROTOCOL IMPLEMENTATION

SEC. 201.¹ SHORT TITLE.

This title may be cited as the “United States Additional Protocol Implementation Act”.

SEC. 202.² FINDINGS.

Congress makes the following findings:

(1) The proliferation of nuclear weapons and other nuclear explosive devices poses a grave threat to the national security of the United States and its vital national interests.

(2) The Nuclear Non-Proliferation Treaty has proven critical to limiting such proliferation.

(3) For the Nuclear Non-Proliferation Treaty to be effective, each of the non-nuclear-weapon State Parties must conclude a comprehensive safeguards agreement with the IAEA, and such agreements must be honored and enforced.

(4) Recent events emphasize the urgency of strengthening the effectiveness and improving the efficiency of the safeguards system. This can best be accomplished by providing IAEA inspectors with more information about, and broader access to, nuclear activities within the territory of non-nuclear-weapon State Parties.

(5) The proposed scope of such expanded information and access has been negotiated by the member states of the IAEA in the form of a Model Additional Protocol to its existing safeguards agreements, and universal acceptance of Additional Protocols by non-nuclear weapons states is essential to enhancing the effectiveness of the Nuclear Non-Proliferation Treaty.

(6) On June 12, 1998, the United States, as a nuclear-weapon State Party, signed an Additional Protocol that is based on the Model Additional Protocol, but which also contains measures, consistent with its existing safeguards agreements with

¹22 U.S.C. 8101 note.

its members, that protect the right of the United States to exclude the application of IAEA safeguards to locations and activities with direct national security significance or to locations or information associated with such activities.

(7) Implementation of the Additional Protocol in the United States in a manner consistent with United States obligations under the Nuclear Non-Proliferation Treaty may encourage other parties to the Nuclear Non-Proliferation Treaty, especially non-nuclear-weapon State Parties, to conclude Additional Protocols and thereby strengthen the Nuclear Non-Proliferation Treaty safeguards system and help reduce the threat of nuclear proliferation, which is of direct and substantial benefit to the United States.

(8) Implementation of the Additional Protocol by the United States is not required and is completely voluntary given its status as a nuclear-weapon State Party, but the United States has acceded to the Additional Protocol to demonstrate its commitment to the nuclear nonproliferation regime and to make United States civil nuclear activities available to the same IAEA inspections as are applied in the case of non-nuclear-weapon State Parties.

(9) In accordance with the national security exclusion contained in Article 1.b of its Additional Protocol, the United States will not allow any inspection activities, nor make any declaration of any information with respect to, locations, information, and activities of direct national security significance to the United States.

(10) Implementation of the Additional Protocol will conform to the principles set forth in the letter of April 30, 2002, from the United States Permanent Representative to the International Atomic Energy Agency and the Vienna Office of the United Nations to the Director General of the International Atomic Energy Agency.

c. Iran Nonproliferation Amendments Act of 2005¹

**Partial text of Public Law 109-112 [S. 1713], 119 Stat. 2366, approved
November 22, 2005**

AN ACT To make amendments to the Iran Nonproliferation Act of 2000 related to International Space Station payments, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Iran Nonproliferation Amendments Act of 2005”.

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) The Director of Central Intelligence’s most recent Unclassified Report to Congress on the Acquisition of Technology Relating to Weapons of Mass Destruction and Advanced Conventional Munitions, 1 July Through 31 December 2003, states “Russian entities during the reporting period continued to supply a variety of ballistic missile-related goods and technical know-how to countries such as Iran, India, and China. Iran’s earlier success in gaining technology and materials from Russian entities helped accelerate Iranian development of the Shahab-3 MRBM, and continuing Russian entity assistance has supported Iranian efforts to develop new missiles and increase Tehran’s self-sufficiency in missile production.”

(2) Vice Admiral Lowell E. Jacoby, the Director of the Defense Intelligence Agency, stated in testimony before the Select Committee on Intelligence of the Senate on February 16, 2005, that “Tehran probably will have the ability to produce nuclear weapons early in the next decade”.

(3) Iran has—

(A) failed to act in accordance with the Agreement Between Iran and the International Atomic Energy Agency for the Application of Safeguards in Connection with the Treaty on the Non-Proliferation of Nuclear Weapons, done at Vienna June 19, 1973 (commonly referred to as the “Safeguards Agreement”);

(B) acted in a manner inconsistent with the Protocol Additional to the Agreement Between Iran and the International Atomic Energy Agency for the Application of Safeguards, signed at Vienna December 18, 2003 (commonly referred to as the “Additional Protocol”);

(C) acted in a manner inconsistent with its obligations under the Treaty on the Non-Proliferation of Nuclear Weapons, done at Washington, London, and Moscow July

¹ 50 U.S.C. 1701 note.

1, 1968, and entered into force March 5, 1970 (commonly referred to as the “Nuclear Non-Proliferation Treaty”); and (D) resumed uranium conversion activities, thus ending the confidence building measures it adopted in its November 2003 agreement with the foreign ministers of the United Kingdom, France, and Germany.

(4) On September 24, 2005, the Board of Governors of the International Atomic Energy Agency (IAEA) formally declared that Iranian actions constituted noncompliance with its nuclear safeguards obligations, and that Iran’s history of concealment of its nuclear activities has given rise to questions that are within the purview of the United Nations Security Council.

(5) The executive branch has on multiple occasions used the authority provided under section 3 of the Iran Nonproliferation Act of 2000 (Public Law 106–178; 50 U.S.C. 1701 note) to impose sanctions on entities that have engaged in activities in violation of restrictions in the Act relating to—

(A) the export of equipment and technology controlled under multilateral export control lists, including under the Australia Group, Chemical Weapons Convention, Missile Technology Control Regime, Nuclear Suppliers Group, and the Wassenaar Arrangement or otherwise having the potential to make a material contribution to the development of weapons of mass destruction or cruise or ballistic missile systems to Iran; and

(B) the export of other items to Iran with the potential of making a material contribution to Iran’s weapons of mass destruction programs or on United States national control lists for reasons related to the proliferation of weapons of mass destruction or missiles.

(6) The executive branch has never made a determination pursuant to section 6(b) of the Iran Nonproliferation Act of 2000 that—

(A) it is the policy of the Government of the Russian Federation to oppose the proliferation to Iran of weapons of mass destruction and missile systems capable of delivering such weapons;

(B) the Government of the Russian Federation (including the law enforcement, export promotion, export control, and intelligence agencies of such government) has demonstrated and continues to demonstrate a sustained commitment to seek out and prevent the transfer to Iran of goods, services, and technology that could make a material contribution to the development of nuclear, biological, or chemical weapons, or of ballistic or cruise missile systems; and

(C) no entity under the jurisdiction or control of the Government of the Russian Federation, has, during the 1-year period prior to the date of the determination pursuant to section 6(b) of such Act, made transfers to Iran reportable under section 2(a) of the Act.

(7) On June 29, 2005, President George W. Bush issued Executive Order 13382 blocking property of weapons of mass destruction proliferators and their supporters, and used the authority of such order against 4 Iranian entities, Aerospace Industries Organization, Shahid Hemmat Industrial Group, Shahid Bakeri Industrial Group, and the Atomic Energy Organization of Iran, that have engaged, or attempted to engage, in activities or transactions that have materially contributed to, or pose a risk of materially contributing to, the proliferation of weapons of mass destruction or their means of delivery (including missiles capable of delivering such weapons), including efforts to manufacture, acquire, possess, develop, transport, transfer, or use such items.

SEC. 3. AMENDMENTS TO IRAN NONPROLIFERATION ACT OF 2000 RELATED TO INTERNATIONAL SPACE STATION PAYMENTS.

(2) any changes that those officials would recommend in the regulations prescribed under that Act.

SEC. 1305. INTERNATIONAL ATOMIC ENERGY AGENCY REGULAR BUDGET ASSESSMENTS AND VOLUNTARY CONTRIBUTIONS.

(a) FINDINGS.—Congress makes the following findings:

(1) The Department has concluded that the International Atomic Energy Agency (in this section referred to as the “IAEA”) is a critical and effective instrument for verifying compliance with international nuclear nonproliferation agreements, and that it serves as an essential barrier to the spread of nuclear weapons.

(2) The IAEA furthers United States national security objectives by helping to prevent the proliferation of nuclear weapons material, especially through its work on effective verification and safeguards measures.

³In Delegation of Authority 291, dated April 7, 2006 (71 F.R. 20432; April 20, 2006), the Secretary of State delegated the authority to approve the submission of reports under this subsection to the Under Secretary of State for Arms Control and International Security.

⁴Sec. 1303 redesignated secs. 584 and 585 of the Foreign Assistance Act of 1961 as secs. 585 and 586, and added a new sec. 584, which deals with nonproliferation and export control training to military and civilian personnel of foreign countries. See *Legislation on Foreign Relations Through 2008*, vol. I-A.

⁵8 U.S.C. 1153 note.

(3) The IAEA can also perform a critical role in monitoring and verifying aspects of nuclear weapons reduction agreements between nuclear weapons states.

(4) The IAEA has adopted a multifaceted action plan, to be funded by voluntary contributions, to address the threats posed by radioactive sources that could be used in a radiological weapon and will be the leading international agency in this effort.

(5) As the IAEA has negotiated and developed more effective verification and safeguards measures, it has experienced significant real growth in its mission, especially in the vital area of nuclear safeguards inspections.

(6) Nearly two decades of zero budget growth have affected the ability of the IAEA to carry out its mission and to hire and retain the most qualified inspectors and managers, as evidenced in the decreasing proportion of such personnel who hold doctorate degrees.

(7) Increased voluntary contributions by the United States will be needed if the IAEA is to increase its safeguards activities and also to implement its action plan to address the worldwide risks posed by lost or poorly secured radioactive sources.

(8) Although voluntary contributions by the United States lessen the IAEA's budgetary constraints, they cannot readily be used for the long-term capital investments or permanent staff increases necessary to an effective IAEA safeguards regime.

(9) The recent United States decision to accept a 25 percent IAEA regular budget assessment was based upon a correct interpretation of existing law. It was not the intent of Congress that the United States contributions to all United Nations-related organizations and activities be reduced pursuant to the Admiral James W. Nance and Meg Donovan Foreign Relations Authorization Act, Fiscal Years 2000 and 2001 (as enacted into law by section 1000(a)(7) of Public Law 106-113; 113 Stat. 1501A-405 et seq.), which sets 22 percent assessment rates as benchmarks for the general United Nations budget, the Food and Agricultural Organization, the World Health Organization, and the International Labor Organization. Rather, contributions for an important and effective agency such as the IAEA should be maintained at levels commensurate with the criticality of its mission.

(10) The Secretary should negotiate a gradual and sustained increase in the regular budget of the International Atomic Energy Agency, which should begin with the 2004 budget.

(b) AUTHORIZATION OF APPROPRIATIONS.—Of the funds authorized to be appropriated for Nonproliferation, Anti-terrorism, Demining, and Related Programs there is authorized to be appropriated \$60,000,000 for fiscal year 2003 for a United States voluntary contribution to the International Atomic Energy Agency, including for the purpose of implementing the Protection Against Nuclear Terrorism program adopted by the International Atomic Energy Agency Board of Governors in March 2002.

TITLE XIII—NONPROLIFERATION AND EXPORT CONTROL ASSISTANCE

* * * * *

Subtitle B—Russian Federation Debt Reduction for Nonproliferation

SEC. 1311.¹ SHORT TITLE.

This subtitle may be cited as the “Russian Federation Debt for Nonproliferation Act of 2002”.

SEC. 1312.¹ FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds the following:

(1) It is in the vital security interests of the United States to prevent the spread of weapons of mass destruction to additional states or to terrorist organizations, and to ensure that other nations’ obligations to modify their stockpiles of such arms in accordance with treaties, executive agreements, or political commitments are fulfilled.

(2) In particular, it is in the vital national security interests of the United States to ensure that—

(A) all stocks of nuclear weapons and weapons-usable nuclear material in the Russian Federation are secure and accounted for;

(B) stocks of nuclear weapons and weapons-usable nuclear material that are excess to military needs in the Russian Federation are monitored and reduced;

(C) any chemical or biological weapons, related materials, and facilities in the Russian Federation are destroyed;

(D) the Russian Federation’s nuclear weapons complex is reduced to a size appropriate to its post-Cold War missions, and its experts in weapons of mass destruction technologies are shifted to gainful and sustainable civilian employment;

(E) the Russian Federation’s export control system blocks any proliferation of weapons of mass destruction, the means of delivering such weapons, and materials, equipment, know-how, or technology that would be used to develop, produce, or deliver such weapons; and

¹ 22 U.S.C. 5952 note.

- (F) these objectives are accomplished with sufficient monitoring and transparency to provide confidence that they have in fact been accomplished and that the funds provided to accomplish these objectives have been spent efficiently and effectively.
- (3) United States programs should be designed to accomplish these vital objectives in the Russian Federation as rapidly as possible, and the President should develop and present to Congress a plan for doing so.
- (4) Substantial progress has been made in United States-Russian Federation cooperative programs to achieve these objectives, but much more remains to be done to reduce the urgent risks to United States national security posed by the current state of the Russian Federation's weapons of mass destruction stockpiles and complexes.
- (5) The threats posed by inadequate management of weapons of mass destruction stockpiles and complexes in the Russian Federation remain urgent. Incidents in years immediately preceding 2001, which have been cited by the Russia Task Force of the Secretary of Energy Advisory Board, include—
- (A) a conspiracy at one of the Russian Federation's largest nuclear weapons facilities to steal nearly enough highly enriched uranium for a nuclear bomb;
 - (B) an attempt by an employee of the Russian Federation's premier nuclear weapons facility to sell nuclear weapons designs to agents of Iraq and Afghanistan; and
 - (C) the theft of radioactive material from a Russian Federation submarine base.
- (6) Addressing these threats to United States and world security will ultimately consume billions of dollars, a burden that will have to be shared by the Russian Federation, the United States, and other governments, if these threats are to be neutralized.
- (7) The creation of new funding streams could accelerate progress in reducing these threats to United States security and help the government of the Russian Federation to fulfill its responsibility for secure management of its weapons stockpiles and complexes as United States assistance phases out.
- (8) The Russian Federation has a significant foreign debt, a substantial proportion of which it inherited from the Soviet Union.
- (9) Past debt-for-environment exchanges, in which a portion of a country's foreign debt is canceled in return for certain environmental commitments or payments by that country, suggest that a debt-for-nonproliferation exchange with the Russian Federation could be designed to provide additional funding for nonproliferation and arms reduction initiatives.
- (10) Most of the Russian Federation's official bilateral debt is held by United States allies that are advanced industrial democracies. Since the issues described pose threats to United States allies as well, United States leadership that results in a larger contribution from United States allies to cooperative threat reduction activities will be needed.

(11) At the June 2002 meeting of the G-8 countries, agreement was achieved on a G-8 Global Partnership against the Spread of Weapons and Materials of Mass Destruction, under which the advanced industrial democracies committed to contribute \$20,000,000,000 to nonproliferation programs in the Russian Federation during a 10-year period, with each contributing country having the option to fund some or all of its contribution through reduction in the Russian Federation's official debt to that country.

(12) The Russian Federation's Soviet-era official debt to the United States is estimated to be \$480,000,000 in Lend-Lease debt and \$2,250,000,000 in debt as a result of credits extended under title I of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1701 et seq.).

(b) PURPOSES.—The purposes of this subtitle are—

(1) to facilitate the accomplishment of the United States objectives described in the findings set forth in subsection (a) by providing for the use of a portion of the Russian Federation's foreign debt to fund nonproliferation programs, thus allowing the use of additional resources for these purposes; and

(2) to help ensure that the resources made available to the Russian Federation are targeted to the accomplishment of the United States objectives described in the findings set forth in subsection (a).

SEC. 1313.¹ DEFINITIONS.

SEC. 1315.¹ RUSSIAN FEDERATION NONPROLIFERATION INVESTMENT AGREEMENT.

(a) IN GENERAL.—

(1) IN GENERAL.—The President is authorized to enter into an agreement with the Russian Federation under which an amount equal to the value of the debt reduced pursuant to section 1314 will be used to promote the nonproliferation of weapons of mass destruction and the means of delivering such weapons. (c) USE OF EXISTING MECHANISMS.—It is the sense of Congress that, to the extent practicable, the boards and administrative

mechanisms of existing threat reduction and nonproliferation programs should be used in the administration and oversight of programs and projects under the Agreement.

(d) **JOINT AUDITING.**—It is the sense of Congress that the United States and the Russian Federation should consider commissioning the United States General Accounting Office and the Russian Chamber of Accounts to conduct joint audits to ensure that the funds saved by the Russian Federation as a result of any debt reduction are used exclusively, efficiently, and effectively to implement agreed programs or projects pursuant to the Agreement.

(e) **STRUCTURE OF THE AGREEMENT.**—It is the sense of Congress that the Agreement should provide for significant penalties—

(1) if funds obligated for approved programs or projects are determined to have been misappropriated; and

SEC. 1316.¹ INDEPENDENT MEDIA AND THE RULE OF LAW.

Notwithstanding section 1315 (a)(1) and (b)(1), up to 10 percent of the amount equal to the value of the debt reduced pursuant to this subtitle may be used to promote a vibrant, independent media sector and the rule of law in the Russian Federation through an endowment to support the establishment of a “Center for an Independent Press and the Rule of Law” in the Russian Federation, which shall be directed by a joint United States-Russian Board of Directors in which the majority of members, including the chairman, shall be United States personnel, and which shall be responsible for management of the endowment, its funds, and the Center’s programs.

(b) **ANNUAL DETERMINATION.**—If, in any annual report to Congress submitted pursuant to section 1321, the President cannot certify that the Russian Federation continues to meet the condition required in subsection (a), then, subject to the provisions of subsection (c), the debt reduction authority provided by section 1314 may not be exercised unless and until such certification is made to the appropriate congressional committees.

(c) **PRESIDENTIAL WAIVER.**—The President may waive the requirements of subsection (a) or (b) for a fiscal year if the President—

(1) determines that application of the subsection for a fiscal year would be counter to the national interest of the United States; and

(2) so reports to the appropriate congressional committees.

SEC. 1318.¹ DISCUSSION OF RUSSIAN FEDERATION DEBT REDUCTION FOR NONPROLIFERATION WITH OTHER CREDITOR STATES.

It is the sense of Congress that the President and such other appropriate officials as the President may designate should pursue discussions with other creditor states with the objectives of—

- (1) ensuring that other advanced industrial democracies, especially the largest holders of Soviet-era Russian debt, dedicate significant proportions of their bilateral official debt with the Russian Federation or equivalent amounts of direct assistance to the G–8 Global Partnership against the Spread of Weapons and Materials of Mass Destruction, as agreed upon in the Statement by G–8 Leaders on June 27, 2002; and
- (2) reaching agreement, as appropriate, to establish a unified Russian Federation official debt reduction fund to manage and provide financial transparency for the resources provided by creditor states through debt reductions.

SEC. 1319.¹ IMPLEMENTATION OF UNITED STATES POLICY.

It is the sense of Congress that implementation of debt-for-nonproliferation programs with the Russian Federation should be overseen by the coordinating mechanism established pursuant to section 1334 of this Act.

SEC. 1320.¹ CONSULTATIONS WITH CONGRESS.

The President shall consult with the appropriate congressional committees on a periodic basis to review the implementation of this subtitle and the Russian Federation's eligibility for debt reduction pursuant to this subtitle.

Subtitle C—Nonproliferation Assistance Coordination

SEC. 1331.¹ SHORT TITLE.

This subtitle may be cited as the “Nonproliferation Assistance Coordination Act of 2002”.

SEC. 1332.² FINDINGS.

Congress finds that—

(1) United States nonproliferation efforts in the independent states of the former Soviet Union have achieved important results in ensuring that weapons of mass destruction, weapons-usable material and technology, and weapons-related knowledge remain beyond the reach of terrorists and weapons-proliferating states;

(2) although these efforts are in the United States national security interest, the effectiveness of these efforts has suffered from a lack of coordination within and among United States Government agencies;

(3) increased spending and investment by the United States private sector on nonproliferation efforts in the independent states of the former Soviet Union, specifically, spending and investment by the United States private sector in job creation initiatives and proposals for unemployed Russian Federation weapons scientists and technicians, are making an important contribution in ensuring that knowledge related to weapons of mass destruction remains beyond the reach of terrorists and weapons-proliferating states; and

(4) increased spending and investment by the United States private sector on nonproliferation efforts in the independent states of the former Soviet Union make advisable the establishment of a coordinating body to ensure that United States public and private efforts are not in conflict, and to ensure that public spending on efforts by the independent states of the former Soviet Union is maximized to ensure efficiency and further United States national security interests.

(4) The only United States laboratory currently designated by the OPCW is the United States Army Edgewood Forensic Science Laboratory.

(5) In order to comply with the Chemical Weapons Convention, the certification submitted pursuant to condition (18) of the resolution of ratification of the Chemical Weapons Convention, and the requirements of section 304(f)(1) of the Chemical Weapons Convention Implementation Act of 1998 (22 U.S.C. 6724(f)(1)), the United States must possess, at a minimum, a second OPCW-designated laboratory.

(6) The possession of a second OPCW-designated laboratory is necessary in view of the potential for a challenge inspection to be initiated against the United States by a foreign nation.

(7) The possession of a third OPCW-designated laboratory would enable the OPCW to implement its normal sample analysis procedures, which randomly assign real and manufactured samples so that no laboratory knows the origin of a given sample.

(8) To qualify as a designated laboratory, a laboratory must be certified under ISO Guide 25 or a higher standard and complete three proficiency tests. The laboratory must have the full capability to handle substances listed on Schedule 1 of the Annex on Schedules of Chemicals of the Chemical Weapons

Convention. In order to handle such substances in the United States, a laboratory also must operate under a bailment agreement with the United States Army.

(9) Several existing United States commercial laboratories have approved quality control systems, already possess bailment agreements with the United States Army, and have the capabilities necessary to obtain OPCW designation.

(10) In order to bolster the legitimacy of United States analysis of samples taken on its national territory, it is preferable that one designated laboratory not be a United States Government facility.

(b) ESTABLISHMENT OF NON-GOVERNMENTAL DESIGNATED LABORATORY.—

(1) REPORT.—Not later than March 1, 2003, the United States National Authority, as designated under section 101 of the Chemical Weapons Convention Implementation Act of 1998 (22 U.S.C. 6711) (referred to in this section as the “National Authority”), shall submit to the appropriate congressional committees a report detailing a plan for securing OPCW designation of a nongovernmental United States laboratory by December 1, 2004.

(2) DIRECTIVE.—Not later than June 1, 2003, the National Authority shall select, through competitive procedures, a nongovernmental laboratory within the United States to pursue designation by the OPCW.

(3) DELEGATION.—The National Authority may delegate the authority and administrative responsibility for carrying out paragraph (2) to one or more of the heads of the agencies described in section 101(b)(2) of the Chemical Weapons Convention Implementation Act of 1998 (22 U.S.C. 6711(b)(2)).

(c) DEFINITIONS.—In this section:

(1) CHEMICAL WEAPONS CONVENTION OR CONVENTION.—The term “Chemical Weapons Convention” or “Convention” means the Convention on the Prohibition of Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction, Opened for Signature and Signed by the United States at Paris on January 13, 1993, including the following protocols and memorandum of understanding:

(A) The Annex on Chemicals.

(B) The Annex on Implementation and Verification.

(C) The Annex on the Protection of Confidential Information.

(D) The Resolution Establishing the Preparatory Commission for the Organization for the Prohibition of Chemical Weapons.

(E) The Text on the Establishment of a Preparatory Commission.

(2) OPCW.—The term “OPCW” means the Organization for the Prohibition of Chemical Weapons established under the Convention.

(2) For purposes of this subsection, the term “maintenance” means activities which cannot be performed by the National Aeronautics and Space Administration and which must be performed in order for the Service Module to provide environmental control, life support, and orbital maintenance functions which cannot be performed by an alternative means at the time of payment.

(3) This subsection shall cease to be effective 60 days after a United States propulsion module is in place at the International Space Station.

(h) EXCEPTION.—Notwithstanding subsections (a) and (b), no agency of the United States Government may make extraordinary payments in connection with the International Space Station, or any other payments in connection with the International Space

CHAPTER 2—MATTERS RELATING TO THE CONTROL OF BIOLOGICAL WEAPONS¹**SEC. 1121. SHORT TITLE.**

This chapter may be cited as the “National Security and Corporate Fairness under the Biological Weapons Convention Act”.

SEC. 1122. DEFINITIONS.

In this chapter:

(1) **BIOLOGICAL WEAPONS CONVENTION.**—The term “Biological Weapons Convention” means the 1972 Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on their Destruction.

(2) **COMPLIANCE PROTOCOL.**—The term “compliance protocol” means that segment of a bilateral or multilateral agreement that enables investigation of questions of compliance entailing written data or visits to facilities to monitor compliance.

(3) **INDUSTRY.**—The term “industry” means any corporate or private sector entity engaged in the research, development, production, import, and export of peaceful pharmaceuticals and bio-technological and related products.

SEC. 1123. FINDINGS.

Congress makes the following findings:

(1) The threat of biological weapons and their proliferation is one of the greatest national security threats facing the United States.

(2) The threat of biological weapons and materials represents a serious and increasing danger to people around the world.

(3) Biological weapons are relatively inexpensive to produce, can be made with readily available expertise and equipment, do not require much space to make and can therefore be readily concealed, do not require unusual raw materials or materials not readily available for legitimate purposes, do not require the maintenance of stockpiles, or can be delivered with low-technology mechanisms, and can effect widespread casualties even in small quantities.

(4) Unlike other weapons of mass destruction, biological materials capable of use as weapons can occur naturally in the environment and are also used for medicinal or other beneficial purposes.

(5) Biological weapons are morally reprehensible, prompting the United States Government to halt its offensive biological weapons program in 1969, subsequently destroy its entire biological weapons arsenal, and maintain henceforth only a robust defensive capacity.

(6) The Senate gave its advice and consent to ratification of the Biological Weapons Convention in 1974.

(7) The Director of the Arms Control and Disarmament Agency explained, at the time of the Senate’s consideration of the Biological Weapons Convention, that the treaty contained

¹ 22 U.S.C. 5601 note.

no verification provisions because verification would be “difficult”.

(8) A compliance protocol has now been proposed to strengthen the 1972 Biological Weapons Convention.

(9) The resources needed to produce, stockpile, and store biological weapons are the same as those used in peaceful industry facilities to discover, develop, and produce medicines.

(10) The raw materials of biological agents are difficult to use as an indicator of an offensive military program because the same materials occur in nature or can be used to produce a wide variety of products.

(11) Some biological products are genetically manipulated to develop new commercial products, optimizing production and ensuring the integrity of the product, making it difficult to distinguish between legitimate commercial activities and offensive military activities.

(12) Only a small culture of a biological agent and some growth medium are needed to produce a large amount of biological agents with the potential for offensive purposes.

(13) The United States pharmaceutical and biotechnology industries are a national asset and resource that contribute to the health and well-being of the American public as well as citizens around the world.

(14) One bacterium strain can represent a large proportion of a company’s investment in a pharmaceutical product and thus its potential loss during an arms control monitoring activity could conceivably be worth billions of dollars.

(15) Biological products contain proprietary genetic information.

(16) The proposed compliance regime for the Biological Weapons Convention entails new data reporting and investigation requirements for industry.

(17) A compliance regime which contributes to the control of biological weapons and materials must have a reasonable chance of success in reducing the risk of production, stockpiling, or use of biological weapons while protecting the reputations, intellectual property, and confidential business information of legitimate companies.

SEC. 1124. TRIAL INVESTIGATIONS AND TRIAL VISITS.

(a) NATIONAL SECURITY TRIAL INVESTIGATIONS AND TRIAL VISITS.—The President shall conduct a series of national security trial investigations and trial visits, both during and following negotiations to develop a compliance protocol to the Biological Weapons Convention, with the objective of ensuring that the compliance procedures of the protocol are effective and adequately protect the national security of the United States. These trial investigations and trial visits shall be conducted at such sites as United States Government facilities, installations, and national laboratories.

(b) UNITED STATES INDUSTRY TRIAL INVESTIGATIONS AND TRIAL VISITS.—The President shall take all appropriate steps to conduct or sponsor a series of United States industry trial investigations and trial visits, both during and following negotiations to develop a compliance protocol to the Biological Weapons Convention, with

the objective of ensuring that the compliance procedures of the protocol are effective and adequately protect the national security and the concerns of affected United States industries and research institutions. These trial investigations and trial visits shall be conducted at such sites as academic institutions, vaccine production facilities, and pharmaceutical and biotechnology firms in the United States.

(c) PARTICIPATION BY DEFENSE DEPARTMENT AND OTHER APPROPRIATE PERSONNEL.—The Secretary of Defense and, as appropriate, the Director of the Federal Bureau of Investigation shall make available specialized personnel to participate—

(1) in each trial investigation or trial visit conducted pursuant to subsection (a); and

(2) in each trial investigation or trial visit conducted pursuant to subsection (b), except for any investigation or visit in which the host facility requests that such personnel not participate,

for the purpose of assessing the information security implications of such investigation or visit. The Secretary of Defense, in coordination with the Director of the Federal Bureau of Investigation, shall add to the report required by subsection (d)(2) a classified annex containing an assessment of the risk to proprietary and classified information posed by any investigation or visit procedures in the compliance protocol.

(d) STUDY.—

(1) IN GENERAL.—The President shall conduct a study on the need for investigations and visits under the compliance protocol to the Biological Weapons Convention, including—

(A) an assessment of risks to national security and United States industry and research institutions of such on-site activities; and

(B) an assessment of the monitoring results that can be expected from such investigations and visits.

(2) REPORT.—Not later than the date on which a compliance protocol to the Biological Weapons Convention is submitted to the Senate for its advice and consent to ratification, the President shall submit to the Committee on Foreign Relations of the Senate a report, in both unclassified and classified form, setting forth—

(A) the findings of the study conducted pursuant to paragraph (1); and

(B) the results of trial investigations and trial visits conducted pursuant to subsections (a) and (b).

(3) describing any implications this may have for the Stockpile Stewardship and Management Program.

(1) arrangements for the establishment of that facility will further United States nuclear nonproliferation objectives and will outweigh the proliferation risks inherent in the use of mixed oxide fuel elements;

(2) a guaranty has been given by Russia that no fuel elements produced, fabricated, reprocessed, or assembled at such facility, and no sensitive nuclear technology related to such facility, will be exported or supplied by Russia to any country in the event that the United States objects to such export or supply; and

(3) a guaranty has been given by Russia that the facility and all nuclear materials and equipment therein, and any fuel elements or special nuclear material produced, fabricated, reprocessed, or assembled at that facility, including fuel elements exported or supplied by Russia to a third party, will be subject to international monitoring and transparency sufficient to ensure that special nuclear material is not diverted.

(c) DEFINITIONS.—

SEC. 1401.¹ SHORT TITLE.

This title may be cited as the “Defense Against Weapons of Mass Destruction Act of 1996”.

SEC. 1402.² FINDINGS.

Congress makes the following findings:

(1) Weapons of mass destruction and related materials and technologies are increasingly available from worldwide sources. Technical information relating to such weapons is readily available on the Internet, and raw materials for chemical, biological, and radiological weapons are widely available for legitimate commercial purposes.

(2) The former Soviet Union produced and maintained a vast array of nuclear, biological, and chemical weapons of mass destruction.

(3) Many of the states of the former Soviet Union retain the facilities, materials, and technologies capable of producing additional quantities of weapons of mass destruction.

(4) The disintegration of the former Soviet Union was accompanied by disruptions of command and control systems, deficiencies in accountability for weapons, weapons-related materials and technologies, economic hardships, and significant gaps in border control among the states of the former Soviet Union. The problems of organized crime and corruption in the states of the former Soviet Union increase the potential for proliferation of nuclear, radiological, biological, and chemical weapons and related materials.

(5) The conditions described in paragraph (4) have substantially increased the ability of potentially hostile nations, terrorist groups, and individuals to acquire weapons of mass destruction and related materials and technologies from within the states of the former Soviet Union and from unemployed scientists who worked on those programs.

(6) As a result of such conditions, the capability of potentially hostile nations and terrorist groups to acquire nuclear, radiological, biological, and chemical weapons is greater than at any time in history.

(7) The President has identified North Korea, Iraq, Iran, and Libya as hostile states which already possess some weapons of mass destruction and are developing others.

¹ 50 U.S.C. 2301 note.

² 50 U.S.C. 2301 note. See also section on Cooperative Threat Reduction programs, sec. 3 of this volume, beginning at page 45.

(8) The acquisition or the development and use of weapons of mass destruction is well within the capability of many extremist and terrorist movements, acting independently or as proxies for foreign states.

(9) Foreign states can transfer weapons to or otherwise aid extremist and terrorist movements indirectly and with plausible deniability.

(10) Terrorist groups have already conducted chemical attacks against civilian targets in the United States and Japan, and a radiological attack in Russia.

(11) The potential for the national security of the United States to be threatened by nuclear, radiological, chemical, or biological terrorism must be taken seriously.

(12) There is a significant and growing threat of attack by weapons of mass destruction on targets that are not military targets in the usual sense of the term.

(13) Concomitantly, the threat posed to the citizens of the United States by nuclear, radiological, biological, and chemical weapons delivered by unconventional means is significant and growing.

(14) Mass terror may result from terrorist incidents involving nuclear, radiological, biological, or chemical materials.

(15) Facilities required for production of radiological, biological, and chemical weapons are much smaller and harder to detect than nuclear weapons facilities, and biological and chemical weapons can be deployed by alternative delivery means other than long-range ballistic missiles.

(16) Covert or unconventional means of delivery of nuclear, radiological, biological, and chemical weapons include cargo ships, passenger aircraft, commercial and private vehicles and vessels, and commercial cargo shipments routed through multiple destinations.

(17) Traditional arms control efforts assume large state efforts with detectable manufacturing programs and weapons production programs, but are ineffective in monitoring and controlling smaller, though potentially more dangerous, unconventional proliferation efforts.

(18) Conventional counterproliferation efforts would do little to detect or prevent the rapid development of a capability to suddenly manufacture several hundred chemical or biological weapons with nothing but commercial supplies and equipment.

(19) The United States lacks adequate planning and countermeasures to address the threat of nuclear, radiological, biological, and chemical terrorism.

(20) The Department of Energy has established a Nuclear Emergency Response Team which is available in case of nuclear or radiological emergencies, but no comparable units exist to deal with emergencies involving biological or chemical weapons or related materials.

(21) State and local emergency response personnel are not adequately prepared or trained for incidents involving nuclear, radiological, biological, or chemical materials.

(22) Exercises of the Federal, State, and local response to nuclear, radiological, biological, or chemical terrorism have revealed serious deficiencies in preparedness and severe problems of coordination.

(23) The development of, and allocation of responsibilities for, effective countermeasures to nuclear, radiological, biological, or chemical terrorism in the United States requires well-coordinated participation of many Federal agencies, and careful planning by the Federal Government and State and local governments.

(24) Training and exercises can significantly improve the preparedness of State and local emergency response personnel for emergencies involving nuclear, radiological, biological, or chemical weapons or related materials.

(25) Sharing of the expertise and capabilities of the Department of Defense, which traditionally has provided assistance to Federal, State, and local officials in neutralizing, dismantling, and disposing of explosive ordnance, as well as radiological, biological, and chemical materials, can be a vital contribution to the development and deployment of countermeasures against nuclear, biological, and chemical weapons of mass destruction.

(26) The United States lacks effective policy coordination regarding the threat posed by the proliferation of weapons of mass destruction.

SEC. 1403.³ DEFINITIONS.

SEC. 821.⁴ IMPOSITION OF PROCUREMENT SANCTION ON PERSONS ENGAGING IN EXPORT ACTIVITIES THAT CONTRIBUTE TO PROLIFERATION.

(a) DETERMINATION BY THE PRESIDENT.—

(1) **IN GENERAL.**—Except as provided in subsection (b)(2), the President shall impose the sanction described in subsection (c) if the President determines in writing that, on or after the effective date of this part, a foreign person or a United States person has materially and with requisite knowledge contributed, through the export from the United States or any other country of any goods or technology (as defined in section 830(2)), to the efforts by any individual, group, or non-nuclear-weapon state to acquire unsafeguarded special nuclear material or to use, develop, produce, stockpile, or otherwise acquire any nuclear explosive device.

(2) **PERSONS AGAINST WHICH THE SANCTION IS TO BE IMPOSED.**—The sanction shall be imposed pursuant to paragraph (1) on—

(A) the foreign person or United States person with respect to which the President makes the determination described in that paragraph;

(B) any successor entity to that foreign person or United States person;

¹22 U.S.C. 3201 note.

²Part A amends the Nuclear Non-Proliferation Act of 1978.

³Sec. 831 of this Act provided:

“SEC. 831. EFFECTIVE DATE.

“The provisions of this part, and the amendments made by this part, shall take effect 60 days after the date of the enactment of this Act.”

⁴22 U.S.C. 6301. In a memorandum dated March 5, 2007 (72 F.R. 11283; March 13, 2007), the President delegated his functions under sec. 821 to the Secretary of State, except the function under sec. 821(c)(2)(A) which he delegated to the Secretary of Defense.

(C) any foreign person or United States person that is a parent or subsidiary of that person if that parent or subsidiary materially and with requisite knowledge assisted in the activities which were the basis of that determination; and

(D) any foreign person or United States person that is an affiliate of that person if that affiliate materially and with requisite knowledge assisted in the activities which were the basis of that determination and if that affiliate is controlled in fact by that person.

(3) OTHER SANCTIONS AVAILABLE.—The sanction which is required to be imposed for activities described in this subsection is in addition to any other sanction which may be imposed for the same activities under any other provision of law.

(4) DEFINITION.—For purposes of this subsection, the term “requisite knowledge” means situations in which a person “knows”, as “knowing” is defined in section 104 of the Foreign Corrupt Practices Act of 1977 (15 U.S.C. 78dd-2).

(b) CONSULTATION WITH AND ACTIONS BY FOREIGN GOVERNMENT OF JURISDICTION.—

(1) CONSULTATIONS.—If the President makes a determination described in subsection (a)(1) with respect to a foreign person, the Congress urges the President to initiate consultations immediately with the government with primary jurisdiction over that foreign person with respect to the imposition of the sanction pursuant to this section.

(2) ACTIONS BY GOVERNMENT OF JURISDICTION.—In order to pursue such consultations with that government, the President may delay imposition of the sanction pursuant to this section for up to 90 days. Following these consultations, the President shall impose the sanction unless the President determines and certifies in writing to the Congress that that government has taken specific and effective actions, including appropriate penalties, to terminate the involvement of the foreign person in the activities described in subsection (a)(1). The President may delay the imposition of the sanction for up to an additional 90 days if the President determines and certifies in writing to the Congress that that government is in the process of taking the actions described in the preceding sentence.

(3) REPORT TO CONGRESS.—Not later than 90 days after making a determination under subsection (a)(1), the President shall submit to the Committee on Foreign Relations and the Committee on Governmental Affairs of the Senate and the Committee on Foreign Affairs⁵ of the House of Representatives a report on the status of consultations with the appropriate government under this subsection, and the basis for any determination under paragraph (2) of this subsection that such government has taken specific corrective actions.

(c) SANCTION.—

⁵Sec. 1(a)(5) of Public Law 104-14 (109 Stat. 186) provided that references to the Committee on Foreign Affairs of the House of Representatives shall be treated as referring to the Committee on International Relations of the House of Representatives.

(1) DESCRIPTION OF SANCTION.—The sanction to be imposed pursuant to subsection (a)(1) is, except as provided in paragraph (2) of this subsection, that the United States Government shall not procure, or enter into any contract for the procurement of, any goods or services from any person described in subsection (a)(2).

(2) EXCEPTIONS.—The President shall not be required to apply or maintain the sanction under this section—

(A) in the case of procurement of defense articles or defense services—

(i) under existing contracts or subcontracts, including the exercise of options for production quantities to satisfy requirements essential to the national security of the United States;

(ii) if the President determines in writing that the person or other entity to which the sanction would otherwise be applied is a sole source supplier of the defense articles or services, that the defense articles or services are essential, and that alternative sources are not readily or reasonably available; or

(iii) if the President determines in writing that such articles or services are essential to the national security under defense coproduction agreements;

(B) to products or services provided under contracts entered into before the date on which the President publishes his intention to impose the sanction;

(C) to—

(i) spare parts which are essential to United States products or production;

(ii) component parts, but not finished products, essential to United States products or production; or

(iii) routine servicing and maintenance of products, to the extent that alternative sources are not readily or reasonably available;

(D) to information and technology essential to United States products or production; or

(E) to medical or other humanitarian items.

(d)⁶ ADVISORY OPINIONS.—Upon the request of any person, the Secretary of State may, in consultation with the Secretary of Defense, issue in writing an advisory opinion to that person as to whether a proposed activity by that person would subject that person to the sanction under this section. Any person who relies in good faith on such an advisory opinion which states that the proposed activity would not subject a person to such sanction, and any person who thereafter engages in such activity, may not be made subject to such sanction on account of such activity.

(e) TERMINATION OF THE SANCTION.—The sanction imposed pursuant to this section shall apply for a period of at least 12 months following the imposition of the sanction and shall cease to apply thereafter only if the President determines and certifies in writing to the Congress that—

⁶The Secretary of State delegated functions authorized under this subsection to the Under Secretary for International Security Affairs (Department of State Public Notice 2086; sec. 2 of Delegation of Authority No. 214; 59 F.R. 50790; October 5, 1994).

(1) reliable information indicates that the foreign person or United States person with respect to which the determination was made under subsection (a)(1) has ceased to aid or abet any individual, group, or non-nuclear-weapon state in its efforts to acquire unsafeguarded special nuclear material or any nuclear explosive device, as described in that subsection; and

(2) the President has received reliable assurances from the foreign person or United States person, as the case may be, that such person will not, in the future, aid or abet any individual, group, or non-nuclear-weapon state in its efforts to acquire unsafeguarded special nuclear material or any nuclear explosive device, as described in subsection (a)(1).

(f) WAIVER.—

(1) CRITERION FOR WAIVER.—The President may waive the application of the sanction imposed on any person pursuant to this section, after the end of the 12-month period beginning on the date on which that sanction was imposed on that person, if the President determines and certifies in writing to the Congress that the continued imposition of the sanction would have a serious adverse effect on vital United States interests.

(2) NOTIFICATION OF AND REPORT TO CONGRESS.—If the President decides to exercise the waiver authority provided in paragraph (1), the President shall so notify the Congress not less than 20 days before the waiver takes effect. Such notification shall include a report fully articulating the rationale and circumstances which led the President to exercise the waiver authority.

PART C—INTERNATIONAL ATOMIC ENERGY AGENCY

SEC. 841.²¹ BILATERAL AND MULTILATERAL INITIATIVES.

It is the sense of the Congress that in order to maintain and enhance international confidence in the effectiveness of IAEA safeguards and in other multilateral undertakings to halt the global proliferation of nuclear weapons, the United States should seek to negotiate with other nations and groups of nations, including the IAEA Board of Governors and the Nuclear Suppliers Group, to—

(1) build international support for the principle that nuclear supply relationships must require purchasing nations to agree to full-scope international safeguards;

²¹22 U.S.C. 6321. Sec. 3631 of the National Defense Authorization Act for Fiscal Year 2004 (Public Law 108-136; 117 Stat. 1825) provided as follows:

“SEC. 3631. PROMOTION OF DISCUSSIONS ON NUCLEAR AND RADIOLOGICAL SECURITY AND SAFETY BETWEEN THE INTERNATIONAL ATOMIC ENERGY AGENCY AND THE ORGANIZATION FOR ECONOMIC COOPERATION AND DEVELOPMENT.

“(a) SENSE OF CONGRESS REGARDING INITIATION OF DIALOGUE BETWEEN THE IAEA AND THE OECD.—It is the sense of Congress that—

“(1) the United States should seek to initiate discussions between the International Atomic Energy Agency and the Organization for Economic Cooperation and Development for the purpose of exploring issues of nuclear and radiological security and safety, including the creation of new sources of revenue (including debt reduction) for states to provide nuclear security; and

“(2) the discussions referred to in paragraph (1) should also provide a forum to explore possible sources of funds in support of the G-8 Global Partnership Against the Spread of Weapons and Materials of Mass Destruction.

“(b) CONTINGENT REPORT.—(1) Except as provided in paragraph (2), the President shall, not later than 12 months after the date of the enactment of this Act, submit to Congress a report on—

“(A) the efforts made by the United States to initiate the discussions described in subsection (a);

“(B) the results of those efforts; and

“(C) any plans for further discussions and the purposes of such discussions.

“(2) Paragraph (1) shall not apply if no efforts referred to in paragraph (1)(A) have been made.”.

(2) encourage each nuclear-weapon state within the meaning of the Treaty to undertake a comprehensive review of its own procedures for declassifying information relating to the design or production of nuclear explosive devices and to investigate any measures that would reduce the risk of such information contributing to nuclear weapons proliferation;

(3) encourage the deferral of efforts to produce weapons-grade nuclear material for large-scale commercial uses until such time as safeguards are developed that can detect, on a timely and reliable basis, the diversion of significant quantities of such material for nuclear explosive purposes;

(4) pursue greater financial support for the implementation and improvement of safeguards from all IAEA member nations with significant nuclear programs, particularly from those nations that are currently using or planning to use weapons-grade nuclear material for commercial purposes;

(5) arrange for the timely payment of annual financial contributions by all members of the IAEA, including the United States;

(6) pursue the elimination of international commerce in highly enriched uranium for use in research reactors while encouraging multilateral cooperation to develop and to use low-enriched alternative nuclear fuels;

(7) oppose efforts by non-nuclear-weapon states to develop or use unsafeguarded nuclear fuels for purposes of naval propulsion;

(8) pursue an international open skies arrangement that would authorize the IAEA to operate surveillance aircraft and would facilitate IAEA access to satellite information for safeguards verification purposes;

(9) develop an institutional means for IAEA member nations to share intelligence material with the IAEA on possible safeguards violations without compromising national security or intelligence sources or methods;

(11) seek agreement among the parties to the Treaty to apply IAEA safeguards in perpetuity and to establish new limits on the right to withdraw from the Treaty.

SEC. 842.²² IAEA INTERNAL REFORMS.

In order to promote the early adoption of reforms in the implementation of the safeguards responsibilities of the IAEA, the Congress urges the President to negotiate with other nations and groups of nations, including the IAEA Board of Governors and the Nuclear Suppliers Group, to—

(1) improve the access of the IAEA within nuclear facilities that are capable of producing, processing, or fabricating special nuclear material suitable for use in a nuclear explosive device;

(2)(A) facilitate the IAEA's efforts to meet and to maintain its own goals for detecting the diversion of nuclear materials

²² 22 U.S.C. 6322.

and equipment, giving particular attention to facilities in which there are bulk quantities of plutonium; and

(B) if it is not technically feasible for the IAEA to meet those detection goals in a particular facility, require the IAEA to declare publicly that it is unable to do so;

(3) enable the IAEA to issue fines for violations of safeguards procedures, to pay rewards for information on possible safeguards violations, and to establish a "hot line" for the reporting of such violations and other illicit uses of weapons-grade nuclear material;

(4) establish safeguards at facilities engaged in the manufacture of equipment or material that is especially designated or prepared for the processing, use, or production of special fissionable material or, in the case of non-nuclear-weapon states, of any nuclear explosive device;

TITLE XV—NONPROLIFERATION

SEC. 1501. SHORT TITLE.

This title may be cited as the “Weapons of Mass Destruction Control Act of 1992”.

SEC. 1502. SENSE OF CONGRESS.

It is the sense of the Congress that—

(1) the proliferation (A) of nuclear, biological, and chemical weapons (hereinafter in this title referred to as “weapons of mass destruction”) and related technology and knowledge and (B) of missile delivery systems remains one of the most serious threats to international peace and the national security of the United States in the post-cold war era;

(2) the proliferation of nuclear weapons, given the extraordinary lethality of those weapons, is of particularly serious concern;

(3) the nonproliferation policy of the United States should continue to seek to limit both the supply of and demand for weapons of mass destruction and to reduce the existing threat from proliferation of such weapons;

(4) substantial funding of nonproliferation activities by the United States is essential to controlling the proliferation of all weapons of mass destruction, especially nuclear weapons and missile delivery systems;

(5) the President’s nonproliferation policy statement of June 1992, and his September 10, 1992, initiative to increase funding for nonproliferation activities in the Department of Energy are praiseworthy;

(6) the Congress is committed to cooperating with the President in carrying out an effective policy designed to control the proliferation of weapons of mass destruction;

(7) the President should identify a full range of appropriate, high priority nonproliferation activities that can be undertaken by the United States and should include requests for full funding for those activities in the budget submission for fiscal year 1994;

(8) the Department of Defense and the Department of Energy have unique expertise that can further enhance the effectiveness of international nonproliferation activities;

(9) under the guidance of the President, the Secretary of Defense and the Secretary of Energy should continue to actively assist in United States nonproliferation activities and in formulating and executing United States nonproliferation policy, emphasizing activities such as improved capabilities (A) to detect and monitor proliferation, (B) to respond to terrorism, theft, and accidents involving weapons of mass destruction, and (C) to assist with interdiction and destruction of weapons of mass destruction and related weapons material; and

(10) in a manner consistent with United States nonproliferation policy, the Department of Defense and the Department of Energy should continue to maintain and to improve their capabilities to identify, monitor, and respond to proliferation of weapons of mass destruction and missile delivery systems.

(B) The same restrictions of subsection (p) of section 6 of the Export Administration Act of 1979 (50 U.S.C. For purposes of this subparagraph, any contract or agreement the performance of which (as

determined by the President) would have the effect of assisting a foreign government in using chemical or biological weapons in violation of international law or in using lethal chemical or biological weapons against its own nationals shall be treated as constituting a breach of the peace that poses a serious and direct threat to the strategic interest of the United States, within the meaning of subparagraph (A) of section 6(p) of that Act.

(2) SANCTIONS APPLIED TO EXISTING CONTRACTS.—The sanctions described in paragraphs (1), (2), and (3) of subsection (a) shall apply to contracts, agreements, and licenses without regard to the date the contract or agreement was entered into or the license was issued (as the case may be), except that such sanctions shall not apply to any contract or agreement entered into or license issued before the date of the presidential determination under section 306(a)(1) if the President determines that the application of such sanction would be detrimental to the national security interests of the United States.

(5) Blocking Property of the Government of the Russian Federation Relating to the Disposition of Highly Enriched Uranium Extracted From Nuclear Weapons

Executive Order 13159, June 21, 2000, 65 F.R. 39279, 50 U.S.C. 1701 note

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the International Emergency Economic Powers Act (IEEPA) (50 U.S.C. 1701 et seq.), the National Emergencies Act (50 U.S.C. 1601 et seq.), and section 301 of title 3, United States Code.

I, WILLIAM J. CLINTON, President of the United States of America, in view of the policies underlying Executive Order 12938 of November 14, 1994, and Executive Order 13085 of May 26, 1998, find that the risk of nuclear proliferation created by the accumulation of a large volume of weapons-usable fissile material in the territory of the Russian Federation constitutes an unusual and extraordinary threat to the national security and foreign policy of the United States, and hereby declare a national emergency to deal with that threat.¹

I hereby order:

Section 1. A major national security goal of the United States is to ensure that fissile material removed from Russian nuclear weapons pursuant to various arms control and disarmament agreements is dedicated to peaceful uses, subject to transparency measures, and protected from diversion to activities of proliferation concern. As reflected in Executive Order 13085, the full implementation of the Agreement Between the Government of the United States of America and the Government of the Russian Federation Concerning the Disposition of Highly Enriched Uranium Extracted from Nuclear Weapons, dated February 18, 1993, and related contracts and agreements (collectively, the “HEU Agreements”) is essential to the attainment of this goal. The HEU Agreements provide for the conversion of approximately 500 metric tons of highly enriched uranium contained in Russian nuclear weapons into low-enriched uranium for use as fuel in commercial nuclear reactors.

¹ The President continued this national emergency in a notice of June 11, 2001 (66 F.R. 32207; June 14, 2001); a notice of June 18, 2002 (67 F.R. 42181; June 20, 2002); a notice of June 10, 2003 (68 F.R. 35149; June 12, 2003); a notice of June 16, 2004 (69 F.R. 34047; June 18, 2004); a notice of June 17, 2005 (70 F.R. 35507; June 20, 2005); a notice of June 19, 2006 (71 F.R. 35489; June 20, 2006); a notice of June 19, 2007 (72 F.R. 34159; June 20, 2007); and a notice of June 18, 2008 (73 F.R. 35335; June 20, 2008).

Consistent with sec. 204(c) of the International Emergency Economic Powers Act (Public Law 95-223; 91 Stat. 1627; 50 U.S.C. 1703(c)) and sec. 401(c) of the National Emergencies Act (Public Law 94-412; 90 Stat. 1257; 50 U.S.C. 1641(c)), the President presents a semi-annual report to Congress concerning this national emergency. In sec. 1(b)(3) of Executive Order 13313 of July 31, 2003 (68 F.R. 46073; August 5, 2003), the President assigned this reporting duty to the Secretary of the Treasury.

In furtherance of our national security goals, all heads of departments and agencies of the United States Government shall continue to take all appropriate measures within their authority to further the full implementation of the HEU Agreements.

Sec. 2. Government of the Russian Federation assets directly related to the implementation of the HEU Agreements currently may be subject to attachment, judgment, decree, lien, execution, garnishment, or other judicial process, thereby jeopardizing the full implementation of the HEU Agreements to the detriment of U.S. foreign policy. In order to ensure the preservation and proper and complete transfer to the Government of the Russian Federation of all payments due to it under the HEU Agreements, and except to the extent provided in regulations, orders, directives, or licenses that may hereafter be issued pursuant to this order, all property and interests in property of the Government of the Russian Federation directly related to the implementation of the HEU Agreements that are in the United States, that hereafter come within the United States, or that are or hereafter come within the possession or control of United States persons, including their overseas branches, are hereby blocked and may not be transferred, paid, exported, withdrawn, or otherwise dealt in. Unless licensed or authorized pursuant to this order, any attachment, judgment, decree, lien, execution, garnishment, or other judicial process is null and void with respect to any property or interest in property blocked pursuant to this order.

Sec. 3. For the purposes of this order: (a) The term "person" means an individual or entity;

(b) The term "entity" means a partnership, association, trust, joint venture, corporation, or other organization;

(c) The term "United States person" means any United States citizen; permanent resident alien; juridical person organized under the laws of the United States or any jurisdiction within the United States, including foreign branches; or any person in the United States; and

(d) The term "Government of the Russian Federation" means the Government of the Russian Federation, any political subdivision, agency, or instrumentality thereof, and any person owned or controlled by, or acting for or on behalf of, the Government of the Russian Federation.

Sec. 4. (a) The Secretary of the Treasury, in consultation with the Secretary of State, the Secretary of Energy, and, as appropriate, other agencies, is hereby authorized to take such actions, including the promulgation of rules and regulations, and to employ all powers granted to me by IEEPA, as may be necessary to carry out the purposes of this order. The Secretary of the Treasury may redelegate any of these functions to other officers and agencies of the United States Government. All agencies of the United States Government are hereby directed to take all appropriate measures within their statutory authority to carry out the provisions of this order.

(b) Nothing contained in this order shall relieve a person from any requirement to obtain a license or other authorization from any department or agency of the United States Government in

compliance with applicable laws and regulations subject to the jurisdiction of the department or agency.

Sec. 5. This order is not intended to create, nor does it create, any right, benefit, or privilege, substantive or procedural, enforceable at law by a party against the United States, its agencies, officers, or any other person.

Sec. 6. (a) This order is effective at 12:01 a.m. eastern daylight time on June 22, 2000.

(b) This order shall be transmitted to the Congress and published in the Federal Register.

(i) the persons listed in the Annex to this order;

(ii)¹ any foreign person determined by the Secretary of State,² in consultation with the Secretary of the Treasury, the Attorney General, and other relevant agencies, to have engaged, or attempted to engage, in activities or transactions that have materially contributed to, or pose a risk of materially contributing to, the proliferation of weapons of mass destruction or their means of delivery (including missiles capable of delivering such weapons), including any efforts to manufacture, acquire, possess, develop, transport, transfer or use such items, by any person or foreign country of proliferation concern;

¹In Public Notice 5739 dated March 28, 2007 (72 F.R. 15930; April 3, 2007), the Assistant Secretary of State for International Security and Nonproliferation designated an Iranian entity, the Defense Industries Organization (DIO) under para. In Public Notice 6301 dated July 7, 2008 (72 F.R. 42401; July 21, 2008), the Acting Under Secretary of State for Arms Control and International Security designated two Iranian persons, Rahim Safavi and Mohsen Fakhrizadeh, and one entity, the TAMAS Company under para. (ii), effective July 8, 2008.

²In Delegation of Authority 295 dated November 14, 2006 (71 F.R. 67702; November 22, 2006), the Secretary of State delegated the functions conferred on the Secretary of State in Executive Order 13382 to the Under Secretary of State for Arms Control and International Security.

(iii) any person determined by the Secretary of the Treasury, in consultation with the Secretary of State, the Attorney General, and other relevant agencies, to have provided, or attempted to provide, financial, material, technological or other support for, or goods or services in support of, any activity or transaction described in paragraph (a)(ii) of this section, or any person whose property and interests in property are blocked pursuant to this order; and

(iv) any person determined by the Secretary of the Treasury, in consultation with the Secretary of State, the Attorney General, and other relevant agencies, to be owned or controlled by, or acting or purporting to act for or on behalf of, directly or indirectly, any person whose property and interests in property are blocked pursuant to this order.

Sec. 4. Section 4(a) of Executive Order 12938, as amended,³ is further amended * * *

Sec. 5. For those persons whose property and interests in property are blocked pursuant to section 1 of this order who might have a constitutional presence in the United States, I find that because of the ability to transfer funds or other assets instantaneously, prior notice to such persons of measures to be taken pursuant to this order would render these measures ineffectual. AN ACT To provide for more efficient and effective control over the proliferation of nuclear explosive capability.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the “Nuclear Non-Proliferation Act of 1978.”

STATEMENT OF POLICY

SEC. 2.¹ The Congress finds and declares that the proliferation of nuclear explosive devices or of the direct capability to manufacture or otherwise acquire such devices poses a grave threat to the security interests of the United States and to continued international progress toward world peace and development. Recent events emphasize the urgency of this threat and the imperative need to increase the effectiveness of international safeguards and controls on peaceful nuclear activities to prevent proliferation. Accordingly, it is the policy of the United States to—

(a) actively pursue through international initiatives mechanisms for fuel supply assurances and the establishment of more effective international controls over the transfer and use of nuclear materials and equipment and nuclear technology for peaceful purposes in order to prevent proliferation, including the establishment of common international sanctions;

¹ 22 U.S.C. 3201.

(b) take such actions as are required to confirm the reliability of the United States in meeting its commitments to supply nuclear reactors and fuel to nations which adhere to effective non-proliferation policies by establishing procedures to facilitate the timely processing of requests for subsequent arrangements and export licenses;

(c) strongly encourage nations which have not ratified the Treaty on the Non-Proliferation of Nuclear Weapons to do so at the earliest possible date;² and

(d) cooperate with foreign nations in identifying and adapting suitable technologies for energy production and, in particular, to identify alternative options to nuclear power in aiding such nations to meet their energy needs, consistent with the economic and material resources of those nations and environmental protection.

STATEMENT OF PURPOSE

SEC. 3.³ It is the purpose of this Act to promote the policies set forth above by—

(a) establishing a more effective framework for international cooperation to meet the energy needs of all nations and to ensure that the worldwide development of peaceful nuclear activities and the export by any nation of nuclear materials and equipment and nuclear technology intended for use in peaceful nuclear activities do not contribute to proliferation;

(b) authorizing the United States to take such actions as are required to ensure that it will act reliably in meeting its commitment to supply nuclear reactors and fuel to nations which adhere to effective non-proliferation policies;

(c) providing incentives to the other nations of the world to join in such international cooperative efforts and to ratify the Treaty; and

(d) ensuring effective controls by the United States over its exports of nuclear materials and equipment and of nuclear technology.

DEFINITIONS

SEC. 4.⁴ (a) As used in this Act, the term—

(1) “Commission” means the Nuclear Regulatory Commission;

(2)⁴ “IAEA” means International Atomic Energy Agency;

I-A). Sec. 507(b), which was repealed in 1981, also called for a report (submitted to Congress on November 19, 1979) from the Secretary of State, on steps taken by the Department of State to encourage nations which are not parties to the treaty to become parties.

TITLE I—UNITED STATES INITIATIVES TO PROVIDE ADEQUATE NUCLEAR FUEL SUPPLY

POLICY

SEC. 101.⁶ The United States, as a matter of national policy, shall take such actions and institute such measures as may be necessary and feasible to assure other nations and groups of nations that may seek to utilize the benefits of atomic energy for peaceful purposes that it will provide a reliable supply of nuclear fuel to those nations and groups of nations which adhere to policies designed to prevent proliferation. Such nuclear fuel shall be provided under agreements entered into pursuant to section 161 of the 1954 Act or as otherwise authorized by law. The United States shall ensure that it will have available the capacity on a long-term basis to enter into new fuel supply commitments consistent with its non-proliferation policies and domestic energy needs. The Commission shall, on a timely basis, authorize the export of nuclear materials and equipment when all the applicable statutory requirements are met.

URANIUM ENRICHMENT CAPACITY

SEC. 102.⁷ The Secretary of Energy is directed to initiate construction planning and design, construction, and operation activities for expansion of uranium enrichment capacity, as elsewhere provided by law. establish and implement procedures which will ensure to the maximum extent feasible, consistent with this Act, orderly processing of subsequent arrangements and export licenses with minimum time delay.

REPORT

SEC. 103. The President shall promptly undertake a study to determine the need for additional United States enrichment capacity to meet domestic and foreign needs and to promote United States nonproliferation objectives abroad. The President shall report to the Congress on the results of this study within twelve months after the date of enactment of this Act.

INTERNATIONAL UNDERTAKINGS

SEC. 104.⁹ (a) Consistent with section 105 of this Act, the President shall institute prompt discussions with other nations and groups of nations, including both supplier and recipient nations, to develop international approaches for meeting future worldwide nuclear fuel needs. In particular, the President is authorized and urged to seek to negotiate as soon as practicable with nations possessing nuclear fuel production facilities or source material, and such other nations and groups of nations, such as the IAEA, as may be deemed appropriate, with a view toward the timely establishment of binding international undertakings providing for—

(1) the establishment of an international nuclear fuel authority (INFA) with responsibility for providing agreed upon fuel services and allocating agreed upon quantities of fuel resources to ensure fuel supply on reasonable terms in accordance with agreements between INFA and supplier and recipient nations;

(2) a set of conditions consistent with subsection (d) under which international fuel assurances under INFA auspices will be provided to recipient nations, including conditions which will ensure that the transferred materials will not be used for nuclear explosive devices;

(3) devising, consistent with the policy goals set forth in section 403 of this Act, feasible and environmentally sound approaches for the siting, development, and management under effective international auspices and inspection of facilities for the provision of nuclear fuel services, including the storage of special nuclear material;

(4) the establishment of repositories for the storage of spent nuclear reactor fuel under effective international auspices and inspection;

(5) the establishment of arrangements under which nations placing spent fuel in such repositories would receive appropriate compensation for the energy content of such spent fuel if recovery of such energy content is deemed necessary or desirable; and

(6) sanctions for violation of the provisions of or for abrogation of such binding international undertakings.

the Director of the Arms Control and Disarmament Agency” and inserted in lieu thereof “and the Secretary of State”.

⁹ 22 U.S.C. 3223.

(b) The President shall submit to Congress not later than six months after the date of enactment of this Act proposals for initial fuel assurances, including creation of an interim stockpile of uranium enriched to less than 20 percent in the uranium isotope 235 (low-enriched uranium) to be available for transfer pursuant to a sales arrangement to nations which adhere to strict policies designed to prevent proliferation when and if necessary to ensure continuity of nuclear fuel supply to such nations. Such submission shall include proposals for the transfer of low-enriched uranium up to an amount sufficient to produce 100,000 MWe years of power from light water nuclear reactors, and shall also include proposals for seeking contributions from other supplier nations to such an interim stockpile pending the establishment of INFA.

(c) The President shall, in the report required by section 103, also address the desirability of and options for foreign participation, including investment, in new United States uranium enrichment facilities. This report shall also address the arrangements that would be required to implement such participation and the commitments that would be required as a condition of such participation. This report shall be accompanied by any proposed legislation to implement these arrangements.

(d) The fuel assurances contemplated by this section shall be for the benefit of nations that adhere to policies designated to prevent proliferation. In negotiating the binding international undertakings called for in this section, the President shall, in particular, seek to ensure that the benefits of such undertakings are available to non-nuclear-weapon states only if such states accept IAEA safeguards on all their peaceful nuclear activities, do not manufacture or otherwise acquire any nuclear explosive device, do not establish any new enrichment or reprocessing facilities under their de facto or de jure control, and place any such existing facilities under effective international auspices and inspection.

(e) The report required by section 601 shall include information on the progress made in any negotiations pursuant to this section.

(f)(1) The President may not enter into any binding international undertaking negotiated pursuant to subsection (a) which is not a treaty until such time as such proposed undertaking has been submitted to the Congress and has been approved by concurrent resolution.

(2) The proposals prepared pursuant to subsection (b) shall be submitted to the Congress as part of an annual authorization Act for the Department of Energy.

REEVALUATION OF NUCLEAR FUEL CYCLE

SEC. 105.¹⁰ The President shall take immediate initiatives to invite all nuclear supplier and recipient nations to reevaluate all aspects of the nuclear fuel cycle, with emphasis on alternatives to an economy based on the separation of pure plutonium or the presence of high enriched uranium, methods to deal with spent fuel storage, and methods to improve the safeguards for existing nuclear tech-

TITLE II—UNITED STATES INITIATIVES TO STRENGTHEN
THE INTERNATIONAL SAFEGUARDS SYSTEM

POLICY

SEC. 201.¹¹ The United States is committed to continued strong support for the principles of the Treaty on the Non-Proliferation of Nuclear Weapons, to a strengthened and more effective International Atomic Energy Agency and to a comprehensive safeguards system administered by the Agency to deter proliferation. Accordingly, the United States shall seek to act with other nations to—

(a) continue to strengthen the safeguards program of the IAEA and, in order to implement this section, contribute funds, technical resources, and other support to assist the IAEA in effectively implementing safeguards;

(b) ensure that the IAEA has the resources to carry out the provisions of article XII of the Statute of the IAEA;

(c) improve the IAEA safeguards system (including accountability) to ensure—

(1) the timely detection of a possible diversion of sources of special nuclear materials which could be used for nuclear explosive devices;

(2) the timely dissemination of information regarding such diversion; and

(3) the timely implementation of internationally agreed procedures in the event of such diversion;

(d) ensure that the IAEA receives on a timely basis the data needed for it to administer an effective and comprehensive international safeguards program and that the IAEA provides timely notice to the world community of any evidence of a violation of any safeguards agreement to which it is a party; and

(e) encourage the IAEA, to the maximum degree consistent with the Statute, to provide nations which supply nuclear materials and equipment with the data needed to assure such nations of adherence to bilateral commitments applicable to such supply.

TRAINING PROGRAM

SEC. 202.¹² The Department of Energy, in consultation with the Commission, shall establish and operate a safeguards and physical security training program to be made available to persons from nations and groups of nations which have developed or acquired, or may be expected to develop or acquire, nuclear materials and equipment for use for peaceful purposes. Any such program shall include training in the most advanced safeguards and physical security techniques and technology, consistent with the national security interests of the United States.

NEGOTIATIONS

SEC. 203.¹³ The United States shall seek to negotiate with other nations and groups of nations to—

(1) adopt general principles and procedures, including common international sanctions, to be followed in the event that a nation violates any material obligation with respect to the peaceful use of nuclear materials and equipment or nuclear technology, or in the event that any nation violates the principles of the Treaty, including the detonation by a non-nuclear-weapon state of a nuclear explosive device; and

(2) establish international procedures to be followed in the event of diversion, theft, or sabotage of nuclear materials or sabotage of nuclear facilities, and for recovering nuclear materials that have been lost or stolen, or obtained or used by a nation or by any person or group in contravention of the principles of the Treaty.

ADDITIONAL REQUIREMENTS

SEC. 402.²³ (a) Except as specifically provided in any agreement for cooperation, no source or special nuclear material hereafter exported from the United States may be enriched after export without the prior approvals of the United States for such enrichment: *Provided*, That the procedures governing such approval shall be identical to those set forth for the approval of proposed subsequent arrangements under section 131 of the 1954 Act, and any commitments from the recipient which the Secretary of Energy and the Secretary of State deem necessary to ensure that such approval will be obtained prior to such enrichment shall be obtained prior to the submission of the executive branch judgment regarding the export in question and shall be set forth in such submission: *And provided further*, That no source or special nuclear material shall be exported for the purpose of enrichment or reactor fueling to any nation or group of nations which has, after the date of enactment of this Act, entered into a new or amended agreement for cooperation with the United States, except pursuant to such agreement.

(b) In addition to other requirements of law, no major critical component of any uranium enrichment, nuclear fuel reprocessing, or heavy water production facility shall be exported under any agreement for cooperation (except an agreement for cooperation pursuant to subsection 91 c., 144 b., or 144 c. of the 1954 Act) unless such agreement for cooperation specifically designates such components as items to be exported pursuant to the agreement for cooperation. For purposes of this subsection, the term "major critical component" means any component part or group of component parts which the President determines to be essential to the operation of a complete uranium enrichment, nuclear fuel reprocessing, or heavy water production facility.

PEACEFUL NUCLEAR ACTIVITIES

SEC. 403.²⁴ The President shall take immediate and vigorous steps to seek agreement from all nations and groups of nations to commit themselves to adhere to the following export policies with respect to their peaceful nuclear activities and their participation in international nuclear trade:

(a) No nuclear materials and equipment and no sensitive nuclear technology within the territory of any nation or group of nations, under its jurisdiction, or under its control anywhere will be transferred to the jurisdiction of any other nation or group of nations unless the nation or group of nations receiving such transfer commits itself to strict undertakings including, but not limited to, provisions sufficient to ensure that—

(1) no nuclear materials and equipment and no nuclear technology in, under the jurisdiction of, or under the control of any non-nuclear-weapon state, shall be used for nuclear explosive devices for any purpose or for research on or development of nuclear explosives devices for any purpose, except as permitted by Article V, the Treaty;

²³ 42 U.S.C. 2153a. The procedures mentioned in the first proviso were issued June 1, 1978. For text, see *Legislation on Foreign Relations Through 2005*, vol. V, sec. L.

²⁴ 42 U.S.C. 2153b.

(2) IAEA safeguards will be applied to all peaceful nuclear activities in, under the jurisdiction of, or under the control of any non-nuclear-weapon state;

(3) adequate physical security measure will be established and maintained by any nation or group of nations on all of its nuclear activities;

(4) no nuclear materials and equipment and no nuclear technology intended for peaceful purposes in, under the jurisdiction of, or under the control of any nation or group of nations shall be transferred to the jurisdiction of any other nation or group of nations which does not agree to stringent undertakings meeting the objectives of this section; and

(5) no nation or group of nations will assist, encourage, or induce any non-nuclear-weapon state to manufacture or otherwise acquire any nuclear explosive device.

(b)(1) No source or special nuclear material within the territory of any nation or group of nations, under its jurisdiction, or under its control anywhere will be enriched (as described in paragraph aa. (2) of section 11 of the 1954 Act) or reprocessed, no irradiated fuel elements containing such material which are to be removed from a reactor will be altered in form or content, and no fabrication or stockpiling involving plutonium, uranium 233, or uranium enriched to greater than 20 percent in the isotope 235 shall be performed except in a facility under effective international auspices and inspection, and any such irradiated fuel elements shall be transferred to such a facility as soon as practicable after removal from a reactor consistent with safety requirements. Such facilities shall be limited in number to the greatest extent feasible and shall be carefully sited and managed so as to minimize the proliferation and environmental risks associated with such facilities. In addition, there shall be conditions to limit the access of non-nuclear-weapon states other than the host country to sensitive nuclear technology associated with such facilities.

(2) Any facilities within the territory of any nation or group of nations, under its jurisdiction, or under its control anywhere for the necessary short-term storage of fuel elements containing plutonium, uranium 233, or uranium enriched to greater than 20 percent in the isotope 235 prior to placement in a reactor or of irradiated fuel elements prior to transfer as required in subparagraph (1) shall be placed under effective international auspices and inspection.

(c) Adequate physical security measures will be established and maintained with respect to all nuclear activities within the territory of each nation and group of nations, under its jurisdiction, or under its control anywhere, and with respect to any international shipment of significant quantities of source or special nuclear material or irradiated source or special nuclear material, which shall also be conducted under international safeguards.

(d) Nothing in this section shall be interpreted to require international control or supervision of any United States military activities.

RENEGOTIATION OF AGREEMENTS FOR COOPERATION

SEC. 404.²⁵ (a) The President shall initiate a program immediately to renegotiate agreements for cooperation in effect on the date of enactment of this Act, or otherwise to obtain the agreement of parties to such agreements for cooperation to the undertakings that would be required for new agreements under the 1954 Act. To the extent that an agreement for cooperation in effect on the date of enactment of this Act with a cooperating party contains provisions equivalent to any or all of the criteria set forth in section 127 of the 1954 Act with respect to materials and equipment transferred pursuant thereto or with respect to any special nuclear material used in or produced through the use of any such material or equipment, any renegotiated agreement with that cooperating party shall continue to contain an equivalent provision with respect to such transferred materials and equipment and such special nuclear material. To the extent that an agreement for cooperation in effect on the date of enactment of this Act with a cooperating party does not contain provisions with respect to any nuclear materials and equipment which have previously been transferred under an agreement for cooperation with the United States and which are under the jurisdiction or control of the cooperating party and with respect to any special nuclear material which is used in or produced through the use thereof and which is under the jurisdiction or control of the cooperating party, which are equivalent to any or all of those required for new and amended agreements for cooperation under section 123 a. of the 1954 Act, the President shall vigorously seek to obtain the application of such provisions with respect to such nuclear materials and equipment and such special nuclear material. Nothing in this Act or in the 1954 Act shall be deemed to relinquish any rights which the United States may have under any agreement for cooperation in force on the date of enactment of this Act.

(b) The President shall annually review each of requirements (1) through (9) set forth for inclusion in agreements for cooperation under section 123 a. of the 1954 Act and the export policy goals set forth in section 401 to determine whether it is in the interest of United States non-proliferation objectives for any such requirements or export policies which are not already being applied as export criteria to be enacted as additional export criteria.

(c) If the President proposed enactment of any such requirements or export policies as additional export criteria or to take any other action with respect to such requirements or export policy goals for the purpose of encouraging adherence by nations and groups of nations to such requirements and policies, he shall submit such a proposal together with an explanation thereof to the Congress.

(d) If the Committee on Foreign Relations of the Senate or the Committee on Foreign Affairs²⁶ of the House of Representatives, after reviewing the President's annual report or any proposed legis-

(A) U.S. Exports of Low-Enriched Uranium Fuel

Public Law 96-280 [S.J. Res. 89], 94 Stat. 550, approved June 18, 1980

JOINT RESOLUTION Permitting the supply of additional low enriched uranium fuel under international agreements for cooperation in the civil uses of nuclear energy, and for other purposes.

Whereas the Nuclear Non-Proliferation Act of 1978 urges the United States to provide a reliable supply of nuclear fuel to those nations which adhere to policies designed to prevent the proliferation of nuclear weapons; and

Whereas the United States, in order to achieve the goals of that Act should be able to continue to supply low-enriched uranium fuel to nations that have entered into good faith negotiations as called for in section 404(a) of the Act; and

Whereas pending such negotiations, limitations now contained in certain agreements for cooperation on the amount of low-enriched uranium which may be supplied thereunder are insufficient to permit adequate assurance of supplies: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1.¹ Limits contained in agreements for cooperation on the amount of low-enriched uranium which may be transferred by or exported from the United States pursuant thereto shall not be construed to preclude transfer or export of amounts of low-enriched uranium in excess of such limits to nations which are parties to the Treaty on the Non-Proliferation of Nuclear Weapons.

SEC. 2.¹ (a) The terms used in this joint resolution shall have the meanings ascribed to them by the Atomic Energy Act of 1954 and by the Nuclear Non-Proliferation Act of 1978.

(b) The term "low-enriched uranium" means uranium enriched to less than 20 per centum in the isotope 235.

AN ACT To amend the Atomic Energy Act of 1946, as amended, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Atomic Energy Act of 1946, as amended, is amended to read as follows:

ATOMIC ENERGY ACT OF 1954

TITLE I—ATOMIC ENERGY¹

CHAPTER 1. DECLARATION, FINDINGS, AND PURPOSE

Section 1.² Declaration.—Atomic energy is capable of application for peaceful as well as military purposes. It is therefore declared to be the policy of the United States that—

a. the development, use, and control of atomic energy shall be directed so as to make the maximum contribution to the general welfare, subject at all times to the paramount objective of making the maximum contributions to the common defense and security; and

b. the development, use, and control of atomic energy shall be directed so as to promote world peace, improve the general welfare, increase the standard of living, and strengthen free competition in private enterprise.

Sec. 2.³ Findings.—The Congress of the United States hereby makes the following findings concerning the development, use, and control of atomic energy:

a. The development, utilization, and control of atomic energy for military and for all other purposes are vital to the common defense and security.

c.⁴ The processing and utilization of source, byproduct, and special nuclear material affect interstate and foreign commerce and must be regulated in the national interest.

¹Sec. 902(a)(8) of the Energy Policy Act of 1992 (Public Law 102-486; 106 Stat. 2944) inserted title designation, and sec. 901 of that Act added “Title II—United States Enrichment Corporation” at 42 U.S.C. 2297 et seq.

²42 U.S.C. 2011.

³42 U.S.C. 2012. Sec. 20 of the Private Ownership of Special Nuclear Materials Act (Public Law 88-489; 78 Stat. 602) read as follows:

“Nothing in this Act shall be deemed to diminish existing authority of the United States, or of the Atomic Energy Commission under the Atomic Energy Act of 1954, as amended, to regulate source, byproduct, and special nuclear material and production and utilization facilities, or to control such materials and facilities exported from the United States by imposition of governmental guarantees and security safeguards with respect thereto, in order to assure the common defense and security and to protect the health and safety of the public, or to reduce the responsibility of the Atomic Energy Commission to achieve such objectives.”

⁴Sec. 1 of Public Law 88-489 (78 Stat. 602) deleted subsec. b., which formerly read as follows:

“b. In permitting the property of the United States to be used by others, such use must be regulated in the national interest and in order to provide for the common defense and security and to protect the health and safety of the public.”

d. The processing and utilization of source, byproduct, and special nuclear material must be regulated in the national interest and in order to provide for the common defense and security and to protect the health and safety of the public.

e. Source and special nuclear material, production facilities, and utilization facilities are affected with the public interest, and regulation by the United States of the production and utilization of atomic energy and of the facilities used in connection therewith is necessary in the national interest to assure the common defense and security and to protect the health and safety of the public.

f. The necessity for protection against possible interstate damage occurring from the operation of facilities for the production or utilization of source or special nuclear material places the operation of those facilities in interstate commerce for the purposes of this Act.

g. Funds of the United States may be provided for the development and use of atomic energy under conditions which will provide for the common defense and security and promote the general welfare.

i.⁵ In order to protect the public and to encourage the development of the atomic energy industry, in the interest of the general welfare and of the common defense and security, the United States may make funds available for a portion of the damages suffered by the public from nuclear incidents, and may limit the liability of those persons liable for such losses.

Sec. 3.⁶ Purpose.—It is the purpose of this Act to effectuate the policies set forth above by providing for—

a. a program of conducting, assisting, and fostering research and development in order to encourage maximum scientific and industrial progress;

b. a program for the dissemination of unclassified scientific and technical information and for the control, dissemination, and declassification of Restricted Data, subject to appropriate safeguards, so as to encourage scientific and industrial progress;

c.⁷ a program for Government control of the possession, use, and production of atomic energy and special nuclear material, whether owned by the Government or others, so directed as to make the maximum contributions to the common defense and security and the national welfare, and to provide continued assurance of the Government's ability to enter into and enforce agreements with nations or groups of nations for the control of special nuclear materials and atomic weapons;

d. a program to encourage widespread participation in the development and utilization of atomic energy for peaceful purposes to the maximum extent consistent with the common defense and security and with the health and safety of the public;

⁵Sec. 2 of Public Law 88-489 (78 Stat. 602) deleted subsec. h., which formerly read as follows: "h. It is essential to the common defense and security that title to all special nuclear material be in the United States while such special material is within the United States."

Sec. 1 of Public Law 88-256 (71 Stat. 576) (1957) added subsec. i.

⁶42 U.S.C. 2013.

⁷Sec. 3 of Public Law 88-489 (78 Stat. 602) amended subsec. c., which formerly read as follows:

"c. A program for Government control of the possession, use, and production of atomic energy and special nuclear material so directed as to make the maximum contribution to the common defense and security and the national welfare;"

e. a program of international cooperation to promote the common defense and security and to make peaceful applications of atomic energy as widely as expanding technology and considerations of the common defense and security will permit; and

f. a program of administration which will be consistent with the foregoing policies and programs, with international arrangements, and with agreements for cooperation, which will enable the Congress to be currently informed so as to take further legislative action as may be appropriate.

CHAPTER 6. SPECIAL NUCLEAR MATERIAL

Sec. 51.³⁷ Special Nuclear Material.—The Commission may determine from time to time that other material is special nuclear material in addition to that specified in the definition as special nuclear material. Before making any such determination, the Commission must find that such material is capable of releasing substantial quantities of atomic energy and must find that the determination that such material is special nuclear material is in the interest of the common defense and security, and the President must have expressly assented in writing to the determination. The Commission's determination, together with the assent of the President, shall be submitted to the Energy Committees³⁸ and a period of thirty days shall elapse while Congress is in session (in computing such thirty days, there shall be excluded the days on which either House is not in session because of an adjournment for more than three days) before the determination of the Commission may become effective: *Provided, however,* That the Energy Committees,³⁸ after having received such determination, may by resolution in writing, waive the conditions of or all or any portion of such thirty-day period.

* * * * *

Sec. 54.³⁹ Foreign Distribution of Special Nuclear Material.—a. The Commission is authorized to cooperate with any nation or group of nations by distributing special nuclear material and to distribute such special nuclear material, pursuant to the terms of an agreement for cooperation to which such nation or group of nations is a party and which is made in accordance with section 123. Unless hereafter otherwise authorized by law the Commission shall be compensated for special nuclear material so distributed at not less than the Commission's published charges applicable to the domestic distribution of such material, except that the Commission to assist and encourage research on peaceful uses or for medical therapy may so distribute without charge during any calendar year only a quantity of such material which at the time of transfer does not exceed in value \$10,000 in the case of one nation or \$50,000 in the case of any group of nations. The Commission may distribute to the International Atomic Energy Agency, or to any group of nations, only such amounts of special nuclear materials and for such period of time as are authorized by Congress: *Provided, however,* That, (i) notwithstanding this provision, the Commission is hereby authorized, subject to the provisions of section 123, to distribute to the Agency five thousand kilograms of

The Commission may agree to repurchase any special nuclear material distributed under a sale arrangement pursuant to this subsection which is not consumed in the course of the activities conducted in accordance with the agreement for cooperation, or any uranium remaining after irradiation of such special nuclear material, at a repurchase price not to exceed the Commission's sale price for comparable special nuclear material or uranium in effect at the time of delivery of such material to the Commission. The Commission may also agree to purchase, consistent with and within the period of the agreement for cooperation, special nuclear material produced in a nuclear reactor located outside the United States through the use of special nuclear material which was leased or sold pursuant to this subsection. Under any such agreement the Commission shall purchase only such material as is delivered to the Commission during any period when there is in effect a guaranteed purchase price for the same material produced in a nuclear reactor by a person licensed under section 104, established by the Commission pursuant to section 56, and the price to be paid shall be the price so established by the Commission and in effect for the same material delivered to the Commission.

The Commission shall not distribute any plutonium containing 80 per centum or more by weight of plutonium-238 to any person under this subsection if, in its opinion, such distribution would be inimical to the common defense and security. The Commission may require such reports regarding the use of material distributed pursuant to the provisions of this subsection as it deems necessary.

c. The Commission is authorized to license or otherwise permit others to distribute special nuclear material to any person outside the United States under the same conditions, except as to charges, as would be applicable if the material were distributed by the Commission.

d.⁴² The authority to distribute special nuclear material under this section other than under an export license granted by the Nuclear Regulatory Commission shall extend only to the following small quantities of special nuclear material (in no event more than five hundred grams per year of the uranium isotope 233, the uranium isotope 235, or plutonium contained in special nuclear material to any recipient):

- (1) which are contained in laboratory samples, medical devices, or monitoring or other instruments; or
- (2) the distribution of which is needed to deal with an emergency situation in which time is of the essence.

e.⁴³ The authority in this section to commit United States funds for any activities pursuant to any subsequent arrangement under section 131 a. (2)(E) shall be subject to the requirements of section 131.

Sec. 55.⁴⁴ Acquisition.—The Commission is authorized, to the extent it deems necessary to effectuate the provisions of this Act, to purchase without regard to the limitations in section 54 or any guaranteed purchase prices established pursuant to section 56, and to take, requisition, condemn, or otherwise acquire any special nuclear material or any interest therein. Any contract of purchase made under this section may be made without regard to the provisions of section 3709 of the Revised Statutes, as amended, upon certification by the Commission that such action is necessary in the interest of the common defense and security, or upon a showing by the Commission that advertising is not reasonably practicable. Sec. 56.⁴⁶ Guaranteed Purchase Prices.—The Commission shall establish guaranteed purchase prices for plutonium produced in a nuclear reactor by a person licensed under section 104 and delivered to the Commission before January 1, 1971. The Commission shall also establish for such periods of time as it may deem necessary but not to exceed ten years as to any such period, guaranteed purchase prices for uranium enriched in the isotope 233 produced in a nuclear reactor by a person licensed under section 103 or⁴⁷ section 104 and delivered to the Commission within the period of the guarantee. Guaranteed purchase prices established under the authority of this section shall not exceed the Commission's determination of the estimated value of plutonium or uranium enriched in the isotope 233 as fuel in nuclear reactors, and such prices shall be established on a nondiscriminatory basis: *Provided*, That the Commission is authorized to establish such guaranteed purchase prices only for such plutonium or uranium enriched in the isotope 233 as the Commission shall determine is produced through the use of special nuclear material which was leased or sold by the Commission pursuant to section 53.

anteed purchase price, guaranteed purchase price period, or criteria for the waiver of such charge shall be submitted to the Energy Committees⁵⁷ and a period of forty-five days shall elapse while Congress is in session (in computing such forty-five days there shall be excluded the days in which either House is not in session because of adjournment for more than three days): *Provided, however*, That the Energy Committees,⁵⁷ after having received the proposed guaranteed purchase price, guaranteed purchase price period, or criteria for the waiver of such charge, may by resolution in writing waive the conditions of, or all or any portion of, such forty-five day period.

CHAPTER 7. SOURCE MATERIAL

Sec. 61.⁵⁸ **Source Material.**—The Commission may determine from time to time that other material is source material in addition to those specified in the definition of source material. Before making such determination, the Commission must find that such material is essential to the production of special nuclear material and must find that the determination that such material is source material is in the interest of the common defense and security, and the President must have expressly assented in writing to the determination. The Commission's determination, together with the assent of the President, shall be submitted to the Energy Committees⁵⁷ and a period of thirty days shall elapse while Congress is in session (in computing such thirty days, there shall be excluded the days on which either House is not in session because of an adjournment of more than three days) before the determination of the Commission may become effective: *Provided, however*, That the Energy Committees,⁵⁷ after having received such determination, may by resolution in writing waive the conditions of or all or any portion of such thirty-day period.

Sec. 62.⁵⁹ **License for Transfers Required.**—Unless authorized by a general or specific license issued by the Commission, which the Commission is hereby authorized to issue, no person may transfer or receive in interstate commerce, transfer, deliver, receive possession of or title to, or import into or export from the United States any source material after removal from its place of deposit in nature, except that licenses shall not be required for quantities of source material which, in the opinion of the Commission, are unimportant.

Sec. 64.⁶⁰ **Foreign Distribution of Source Material.**—The Commission is authorized to cooperate with any nation by distributing source material and to distribute source material pursuant to the terms of an agreement for cooperation to which such nation is a party and which is made in accordance with section 123. The Commission is also authorized to distribute source material outside of the United States upon a determination by the Commission that

The authority to distribute source material under this section other than under an export license granted by the Nuclear Regulatory Commission shall in no case extend to quantities of source material in excess of three metric tons per year per recipient.⁶¹

Sec. 69.⁶² Prohibition.—The Commission shall not license any person to transfer or deliver, receive possession of or title to, or import into or export from the United States any source material if, in the opinion of the Commission, the issuance of a license to such person for such purpose would be inimical to the common defense and security or the health and safety of the public.

CHAPTER 8. BYPRODUCT MATERIAL

Sec. 81.⁶³ Domestic Distribution.—

a. IN GENERAL.—No person may⁶⁴ transfer or receive in interstate commerce, manufacture, produce, transfer, acquire, own, possess, import, or export any byproduct material, except to the extent authorized by this section, section 82 or section 84.⁶⁵ The Commission is authorized to issue general or specific licenses to applicants seeking to use byproduct material for research or development purposes, for medical therapy, industrial uses, agricultural uses, or such other useful applications as may be developed. The Commission may distribute, sell, loan, or lease such byproduct material as it owns to qualified applicants⁶⁶ with or without charge: *Provided, however,* That, for byproduct material to be distributed by the Commission for a charge, the Commission shall establish prices on such equitable basis as, in the opinion of the Commission, (a) will provide reasonable compensation to the Government for such material, (b) will not discourage the use of such material or the development of sources of supply of such material independent of the Commission, and (c) will encourage research and development. In distributing such material, the Commission shall give preference to applicants proposing to use such material either in the conduct of research and development or in medical therapy.⁶⁶ The Commission shall not permit the distribution of any byproduct material to any licensee, and shall recall or order the recall of any distributed material from any licensee, who is not equipped to observe or who fails to observe such safety standards to protect health as may be

“a. IN GENERAL.—No person may”.

⁶⁵ Sec. 205(b) of Public Law 95-604 (92 Stat. 3039) amended and restated the original first sentence of this section, which effectively struck out “by this section or by section 82” and inserted in lieu thereof “by this section, section 82 or section 84”.

⁶⁶ Sec. 4 of Public Law 93-377 (88 Stat. 475) struck out “licensees” and inserted in lieu thereof “qualified applicants” in the third sentence of this section, and struck out the fifth sentence of this section, which formerly read, “Licensees of the Commission may distribute byproduct material only to applicants therefor who are licensed by the Commission to receive such byproduct material.”.

established by the Commission or who uses such material in violation of law or regulation of the Commission or in a manner other than as disclosed in the application therefor or approved by the Commission. The Commission is authorized to establish classes of byproduct material and to exempt certain classes or quantities of material or kinds of uses or users from the requirements for a license set forth in this section when it makes a finding that the exemption of such classes or quantities of such material or such kinds of uses or users will not constitute an unreasonable risk to the common defense and security and to the health and safety of the public.

b.⁶⁷ REQUIREMENTS.—

(1) IN GENERAL.—Except as provided in paragraph (2), byproduct material, as defined in paragraphs (3) and (4) of section 11 e., may only be transferred to and disposed of in a disposal facility that—

(A) is adequate to protect public health and safety; and

(B)(i) is licensed by the Commission; or

(ii) is licensed by a State that has entered into an agreement with the Commission under section 274 b., if the licensing requirements of the State are compatible with the licensing requirements of the Commission.

(2) EFFECT OF SUBSECTION.—Nothing in this subsection affects the authority of any entity to dispose of byproduct material, as defined in paragraphs (3) and (4) of section 11 e., at a disposal facility in accordance with any Federal or State solid or hazardous waste law, including the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.).

c.⁶⁷ TREATMENT AS LOW-LEVEL RADIOACTIVE WASTE.—Byproduct material, as defined in paragraphs (3) and (4) of section 11 e., disposed of under this section shall not be considered to be low-level radioactive waste for the purposes of—

(1) section 2 of the Low-Level Radioactive Waste Policy Act (42 U.S.C. 2021b); or

(2) carrying out a compact that is—

(A) entered into in accordance with that Act (42 U.S.C. 2021b et seq.); and

(B) approved by Congress.

Sec. 82.⁶⁸ Foreign Distribution of Byproduct Material.—

a. The Commission is authorized to cooperate with any nation by distributing byproduct material, and to distribute byproduct material, pursuant to the terms of an agreement for cooperation to which such nation is party an which is made in accordance with section 123.

b. The Commission is also authorized to distribute byproduct material to any person outside the United States upon application therefor by such person and demand such charge for such materials as would be charged for the material if it were distributed within the United States: *Provided, however,* That the Commission shall not distribute any such material to any person under this section if, in its opinion, such distribution would be inimical to the

common defense and security: *And provided further*, That the Commission may require such reports regarding the use of material distributed pursuant to the provisions of this section as it deems necessary.

c. The Commission is authorized to license others to distribute byproduct material to any person outside the United States under the same conditions, except as to charges, as would be applicable if the material were distributed by the Commission.

Sec. 83.⁶⁹ Ownership and Custody of Certain Byproduct Material and Disposal Sites.—

a. Any license issued or renewed after the effective date of this section under section 62 or section 81 for any activity which results in the production of any byproduct material, as defined in section 11 e. (2), shall contain such terms and conditions as the Commission determines to be necessary to assure that, prior to termination of such license—

(1) the licensee will comply with decontamination, decommissioning, and reclamation standards prescribed by the Commission for sites (A) at which ores were processed primarily for their source material content and (B) at which such byproduct material is deposited, and

(2) ownership of any byproduct material, as defined in section 11 e. (2), which resulted from such licensed activity shall be transferred to (A) the United States or (B) in the State in which such activity occurred if such State exercises the option under subsection b. (1) to acquire land used for the disposal of byproduct material.

Any license which is in effect on the effective date of this section and which is subsequently terminated without renewal shall comply with paragraphs (1) and (2) upon termination.⁷⁰

b. (1)(A) The Commission shall require by rule, regulation, or order that prior to the termination of any license which is issued after the effective date of this section, title to the land, including any interests therein (other than land owned by the United States or by a State) which is used for the disposal of any byproduct material, as defined by section 11 e. (2), pursuant to such license shall be transferred to—

(i) the United States, or

(ii) the State in which such land is located, at the option of such State,

unless the Commission determines prior to such termination that transfer of title to such land and such byproduct material is not necessary or desirable to protect the public health, safety, or welfare or to minimize or eliminate danger to life or property. Such determination shall be made in accordance with section 181 of this Act. Notwithstanding any other provision of law or any such determination, such property and materials shall be maintained pursuant to a license issued by the Commission pursuant to section 81 of this Act in such manner as will protect the public health, safety, and the environment.

⁶⁹ 42 U.S.C. 2113. Sec. 202(a) of Public Law 95-604 (92 Stat. 3033) added sec. 83. Sec. 202(b) of that Act delayed the effective date of sec. 83 until November 8, 1981.

⁷⁰ Sec. 22(c) of Public Law 96-106 (93 Stat. 800) amended and restated the last sentence of subsec. a.

(B) If the Commission determines by order that use of the surface or subsurface estates, or both, of the land transferred to the United States or to a State under subparagraph (A) would not endanger the public health, safety, welfare, or environment, the Commission, pursuant to such regulations as it may prescribe, shall permit the use of the surface or subsurface estates, or both, of such land in a manner consistent with the provisions of this section. If the Commission permits such use of such land, it shall provide the person who transferred such land with the right of first refusal with respect to such use of such land.

(2) If transfer to the United States of title to such byproduct material and such land is required under this section, the Secretary of Energy or any Federal agency designated by the President shall, following the Commission's determination of compliance under subsection c., assume title and custody of such byproduct material and land transferred as provided in this subsection. Such Secretary or Federal agency shall maintain such material and land in such manner as will protect the public health and safety and the environment. Such custody may be transferred to another officer or instrumentality of the United States only upon approval of the President.

(3) If transfer to a State of title to such byproduct material is required in accordance with this subsection, such State shall, following the Commission's determination of compliance under subsection d., assume title and custody of such byproduct material and land transferred as provided in this subsection. Such State shall maintain such material and land in such manner as will protect the public health, safety, and the environment.

(4) In the case of any such license under section 62, which was in effect on the effective date of this section, the Commission may require, before the termination of such license, such transfer of land and interest therein (described in paragraph (1) of this subsection) to the United States or a State in which such land is located, at the option of such State, as may be necessary to protect the public health, welfare, and the environment from any effects associated with such byproduct material. In exercising the authority of this paragraph, the Commission shall take into consideration the status of the ownership of such land and interests therein and the ability of the licensee to transfer title and custody thereof to the United States or a State.

(5) The Commission may, pursuant to a license, or by rule or order require the Secretary or other Federal agency or State having custody of such property and materials to undertake such monitoring, maintenance, and emergency measures as are necessary to protect the public health and safety and such other actions as the Commission deems necessary to comply with the standards promulgated pursuant to section 84 of this Act. The Secretary or such other Federal agency is authorized to carry out maintenance, monitoring, and emergency measures, but shall take no other action pursuant to such license, rule or order, with respect to such property and materials unless expressly authorized by Congress after the date of enactment of this Act.

(6) The transfer of title to land or byproduct materials, as defined in section 11 e. (2), to a State or the United States pursuant to this

subsection shall not relieve any licensee of liability for any fraudulent or negligent acts done prior to such transfer.

(7) Material and land transferred to the United States or a State in accordance with this subsection shall be transferred without cost to the United States or a State (other than administrative and legal costs incurred in carrying out such transfer). Subject to the provisions of paragraph (1)(B) of this subsection, the United States or a State shall not transfer title to material or property acquired under this subsection to any person, unless such transfer is in the same manner as provided under section 104(h) of the Uranium Mill Tailings Radiation Control Act of 1978.

(8) The provisions of this subsection respecting transfer of title and custody to land shall not apply in the case of lands held in trust by the United States for any Indian tribe or lands owned by such Indian tribe subject to a restriction against alienation imposed by the United States. In the case of such lands which are used for the disposal of byproduct material, as defined in section 11 e. (2), the licensee shall be required to enter into such arrangements with the Commission as may be appropriate to assure the long-term maintenance and monitoring of such lands by the United States.

c. Upon termination of any license to which this section applies, the Commission shall determine whether or not the licensee has complied with all applicable standards and requirements under such license.

Sec. 84.⁷¹ Authorities of Commission Respecting Certain By-product Material.—

a. The Commission shall insure that the management of any by-product material, as defined in section 11 e. (2), is carried out in such manner as—

(1) the Commission deems appropriate to protect the public health and safety and the environment from radiological and nonradiological hazards associated with the processing and with the possession and transfer of such material, taking into account the risk to the public health, safety, and the environment, with due consideration of the economic costs and such other factors as the Commission determines to be appropriate,⁷²

(2) conforms with applicable general standards promulgated by the Administrator of the Environmental Protection Agency under section 275, and

(3) conforms to general requirements established by the Commission, with the concurrence of the Administrator, which are, to the maximum extent practicable, at least comparable to requirements applicable to the possession, transfer, and disposal of similar hazardous material regulated by the Administration under Solid Waste Disposal Act, as amended.

b. In carrying out its authority under this section, the Commission is authorized to—

⁷²Sec. 22(a) of Public Law 97-415 (96 Stat. 2080) added “, taking into account the risk to the public health, safety, and the environment, with due consideration of the economic costs and such other factors as the Commission determines to be appropriate,” resulting in a double comma.

(1) by rule, regulation, or order require persons, officers, or instrumentalities exempted from licensing under section 81 of this Act to conduct monitoring, perform remedial work, and to comply with such other measures as it may deem necessary or desirable to protect health or to minimize danger to life or property, and in connection with the disposal or storage of such byproduct material; and

(2) make such studies and inspections and to conduct such monitoring as may be necessary.

Any violation by any person other than the United States or any officer or employee of the United States or a State of any rule, regulation, or order or licensing provision, of the Commission established under this section or section 83 shall be subject to a civil penalty in the same manner and in the same amount as violations subject to a civil penalty under section 234. Nothing in this section affects any other authority of the Commission under any other provision of this Act.

c.⁷³ In the case of sites at which ores are processed primarily for their source material content or which are used for the disposal of byproduct material as defined in section 11 e. (2), a licensee may propose alternatives to specific requirements adopted and enforced by the Commission under this Act. Such alternative proposals may take into account local or regional conditions, including geology, topography, hydrology and meteorology. The Commission may treat such alternatives as satisfying Commission requirements if the Commission determines that such alternatives will achieve a level of stabilization and containment of the sites concerned, and a level of protection for public health, safety, and the environment from radiological and nonradiological hazards associated with such sites, which is equivalent to, to the extent practicable, or more stringent than the level which would be achieved by standards and requirements adopted and enforced by the Commission for the same purpose and any final standards promulgated by the Administrator of the Environmental Protection Agency in accordance with section 275.

CHAPTER 9. MILITARY APPLICATION OF ATOMIC ENERGY

Sec. 91.⁷⁴ Authority.—

a. The Commission is authorized to—

(1) conduct experiments and do research and development work in the military application of atomic energy;⁷⁵

(2) engage in the production of atomic weapons, or atomic weapon parts, except that such activities shall be carried on only to the extent that the express consent and direction of the President of the United States has been obtained, which consent and direction shall be obtained at least once each year;⁷⁵

(3)⁷⁵ provide for safe storage, processing, transportation, and disposal of hazardous waste (including radioactive waste) re-

(4)⁷⁵ carry out research on and development of technologies needed for the effective negotiation and verification of international agreements on control of special nuclear materials and nuclear weapons; and

(5)⁷⁵ under applicable law (other than this paragraph) and consistent with other missions of the Department of Energy, make transfers of federally owned or originated technology to State and local governments, private industry, and universities or other nonprofit organizations so that the prospects for commercialization of such technology are enhanced.

b. The President from time to time may direct the Commission (1) to deliver such quantities of special nuclear material or atomic weapons to the Department of Defense for such use as he deems necessary in the interest of national defense, or (2) to authorize the Department of Defense to manufacture, produce, or acquire any atomic weapon or utilization facility for military purposes: *Provided, however*, That such authorization shall not extend to the production of special nuclear material other than that incidental to the operation of such utilization facilities.

c.⁷⁶ The President may authorize the Commission or the Department of Defense, with the assistance of the other, to cooperate with another nation and, notwithstanding the provisions of section 57, 62, or 81, to transfer by sale, lease, or loan to that nation, in accordance with terms and conditions of a program approved by the President.

(1) nonnuclear parts of atomic weapons provided that such nation has made substantial progress in the development of atomic weapons, and other nonnuclear parts of atomic weapons systems involving Restricted Data provided that such transfer will not contribute significantly to that nation's atomic weapon design, development, or fabrication capability; for the purpose of improving that nation's state of training and operational readiness;

(2) utilization facilities for military applications; and

(3) source, byproduct, or special nuclear material for research on, development of, production of, or use in utilization facilities for military applications; and

(4) source, byproduct, or special nuclear material for research on, development of, or use in atomic weapons: *Provided, however*, That the transfer of such material to that nation is necessary to improve its atomic weapon design, development, or fabrication capability: *And provided further*, That such nation has made substantial progress in the development of atomic weapons,

whenever the President determines that the proposed cooperation and each proposed transfer arrangement for the nonnuclear parts of atomic weapons and atomic weapons systems, utilization facilities or source, byproduct, or special nuclear material will promote and will not constitute an unreasonable risk to the common defense

and security, while such other nation is participating with the United States pursuant to an international arrangement by substantial and material contributions to the mutual defense and security: *Provided, however,* That the cooperation is undertaken pursuant to an agreement entered into in accordance with section 123: *And provided further,* That if an agreement for cooperation arranged pursuant to this subsection provides for transfer of utilization facilities for military applications the Commission, or the Department of Defense with respect to cooperation it has been authorized to undertake, may authorize any person to transfer such utilization facilities for military applications in accordance with the terms and conditions of this subsection and of the agreement for cooperation.

Sec. 92.⁷⁷ Prohibition.—

a.⁷⁸ It shall be unlawful, except as provided in section 91, for any person, inside or outside of the United States,⁷⁹ to participate in the development of,⁸⁰ manufacture, produce, transfer, acquire, receive,⁸¹ possess, import,⁸² export, or use, or possess and threaten to use,⁸³ any atomic weapon. Nothing in this section shall be deemed to modify the provisions of subsection 31 a. or section 101.

b.⁸⁴ Conduct prohibited by subsection a. is within the jurisdiction of the United States if—

- (1) the offense occurs in or affects interstate or foreign commerce; the offense occurs outside of the United States and is committed by a national of the United States;

⁷⁷ 42 U.S.C. 2122. Sec. 2 of Public Law 85-479 (72 Stat. 277) amended and restated sec. 92. Sec. 92 previously read as follows:

“**Sec. 92. Prohibition.**—It shall be unlawful for any person to transfer or receive in interstate commerce, manufacture, produce, transfer, acquire, possess, import, or export any atomic weapon, except as may be authorized by the Commission pursuant to the provisions of section 91. Nothing in this section shall be deemed to modify the provisions of subsection 31 a. or section 101.”

⁷⁸ Sec. 6904(a)(1) of the Prevention of Terrorist Access to Destructive Weapons Act of 2004 (subtitle J of title VI of Public Law 108-458; 118 Stat. 3771) inserted the subsection designation “a.” before “It”.

⁷⁹ Sec. 6803(b)(1) of the Weapons of Mass Destruction Prohibition Improvement Act of 2004 (subtitle I of title VI of Public Law 108-458; 118 Stat. 3768) inserted “, inside or outside of the United States,” after “for any person”.

Sec. 6904(a)(2) of the Prevention of Terrorist Access to Destructive Weapons Act of 2004 (subtitle J of title VI of Public Law 108-458; 118 Stat. 3771) sought to insert “knowingly” after “for any person to”. With the execution of the amendment provided in sec. 6803(b)(1), however, the latter amendment becomes unexecutable. Sec. 92 a. should probably read, with all amendments executed, as follows:

“a. It shall be unlawful, except as provided in section 91, for any person, inside or outside of the United States, knowingly to participate in the development of, manufacture, produce, transfer, acquire, receive, possess, import, export, or use, or possess and threaten to use, any atomic weapon. Nothing in this section shall be deemed to modify the provisions of subsection 31 a. or section 101.”

⁸⁰ Sec. 6803(b)(2) of the Weapons of Mass Destruction Prohibition Improvement Act of 2004 (subtitle I of title VI of Public Law 108-458; 118 Stat. 3768) inserted “participate in the development of,” after “interstate or foreign commerce.”

Sec. 6904(a)(4) of the Prevention of Terrorist Access to Destructive Weapons Act of 2004 (subtitle J of title VI of Public Law 108-458; 118 Stat. 3771) subsequently struck out “transfer or receive in interstate or foreign commerce,” before “manufacture”. The amendment is executed, though the amendment in sec. 6803(b)(2) removes “manufacture” from its proximity to the text to be stricken.

⁸¹ Sec. 6904(a)(5) of the Prevention of Terrorist Access to Destructive Weapons Act of 2004 (subtitle J of title VI of Public Law 108-458; 118 Stat. 3771) inserted “receive,” after “acquire”.

⁸² Sec. 6904(a)(3) of the Prevention of Terrorist Access to Destructive Weapons Act of 2004 (subtitle J of title VI of Public Law 108-458; 118 Stat. 3771) struck out “or” before “export”.

⁸⁴ Sec. 6904(a)(7) of the Prevention of Terrorist Access to Destructive Weapons Act of 2004 (subtitle J of title VI of Public Law 108-458; 118 Stat. 3771) added subsec. b.

b. The Commission shall issue such licenses on a nonexclusive basis to persons applying therefor (1) whose proposed activities will serve a useful purpose proportionate to the quantities of special nuclear material or source material to be utilized; (2) who are equipped to observe and who agree to observe such safety standards to protect health and to minimize danger to life or property as the Commission may by rule establish; and (3) who agree to make available to the Commission such technical information and data concerning activities under such license as the Commission may determine necessary to promote the common defense and security and to protect the health and safety of the public. All such information may be used by the Commission only for the purposes of the common defense and security and to protect the health and safety of the public.

c. Each such license shall be issued for a specified period, as determined by the Commission, depending on the type of activity to be licensed, but not exceeding forty years from the authorization to commence operations,⁹² and may be renewed upon the expiration of such period.

d. No license under this section may be given to any person for activities which are not under or within the jurisdiction of the United States, except for the export of production or utilization facilities under terms of an agreement for cooperation arranged pursuant to section 123, or except under the provisions of section 109. No license may be issued to an alien or any⁹³ corporation or other entity if the Commission knows or has reason to believe it is owned, controlled, or dominated by an alien, a foreign corporation, or a foreign government. c. The Commission is authorized to issue licenses to persons applying therefor for utilization and production facilities useful in the conduct of research and development activities of the types specified in section 31 and which are not facilities of the type specified in subsection 104 b. The Commission is directed to impose only such minimum amount of regulation of the licensee as the Commission finds will permit the Commission to fulfill its obligations under this Act to promote the common defense and security and to protect the health and safety of the public and will permit the conduct of widespread and diverse research and development.

d. No license under this section may be given to any person for activities which are not under or within the jurisdiction of the United States, except for the export of production or utilization facilities under terms of an agreement for cooperation arranged pursuant to section 123 or except under the provisions of section 109. Sec. 109.⁹⁷ Component and Other Parts of Facilities.—

a. With respect to those utilization and production facilities which are so determined by the Commission pursuant to subsection 11 v. (2) or 11 cc. (2) the Commission may issue general licenses for domestic activities required to be licensed under section 101, if the Commission determines in writing that such general licensing will not constitute an unreasonable risk to the common defense and security.

(2) and which other items or substances are especially relevant from the standpoint of export control because of their significance for nuclear explosive purposes. Except as provided in section 126 b. (2), no such component, substance, or item which is so determined by the Commission shall be exported unless the Commission issues a general or specific license for its export after finding, based on a reasonable judgment of the assurances provided and other information available to the Federal Government, including the Commission, that the following criteria or their equivalent are met: (1) IAEA safeguards as required by Article III (2) of the Treaty will be applied with respect to such component, substance, or item; (2) no such component, substance, or item will be used for any nuclear explosive device or for research on or development of any nuclear explosive device; and (3) no such component, substance, or item will be retransferred to the jurisdiction of any other nation or group of nations unless the prior consent of the United States is obtained for such retransfer; and after determining in writing that the issuance of each such general or specific license or category of licenses will not be inimical to the common defense and security: *Provided*, That a specific license shall not be required for an export pursuant to this section if the component, item or substance is covered by a facility license issued pursuant to section 126 of this Act.

c. The Commission shall not issue an export license under the authority of subsection b. if it is advised by the executive branch, in accordance with the procedures established under subsection 126 a., that the export would be inimical to the common defense and security of the United States.

e.¹²⁴ The President shall keep the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate fully and currently informed of any initiative or negotiations relating to a new or amended agreement for peaceful nuclear cooperation pursuant to this section (except an agreement arranged pursuant to section 91 c., 144 b., 144 c., or 144 d., or an amendment thereto).

Sec. 124.¹²⁵ **International Atomic Pool.**—The President is authorized to enter into an international arrangement with a group of nations providing for international cooperation in the non-military applications of atomic energy and he may thereafter cooperate with that group of nations pursuant to sections 54 a., 57, 64, 82, 103, 104, or 114 a.: *Provided, however,* That the cooperation is undertaken pursuant to an agreement for cooperation entered into in accordance with section 123.

Sec. 125.¹²⁶ **Cooperation With Berlin.**—The President may authorize the Commission to enter into agreement for cooperation with the Federal Republic of Germany in accordance with section 123, on behalf of Berlin, which for the purposes of this Act comprises those areas over which the Berlin Senate exercises jurisdiction (the United States, British, and French sectors) and the Commission may thereafter cooperate with Berlin pursuant to sections 54 a., 57, 64, 82, 103, or 104: *Provided,* That the guaranties required by section 123 shall be made by Berlin with the approval of the allied commandants.

Sec. 126.¹²⁷ **Export Licensing Procedures.**—

a. No license may be issued by the Nuclear Regulatory Commission (the "Commission") for the export of any production or utilization facility, or any source material or special nuclear material, including distributions of any material by the Department of Energy under section 54, 64, or 82, for which a license is required or requested, and no exemption from any requirement for such an export license may be granted by the Commission, as the case may be, until—

(1) The Commission has been notified by the Secretary of State that it is the judgment of the executive branch that the proposed export or exemption will not be inimical to the common defense and security, or that any export in the category to which the proposed export belongs would not be inimical to the common defense and security because it lacks significance for nuclear explosive purposes. The Secretary of State shall, within ninety days after the enactment of this section, establish orderly and expeditious procedures,¹²⁸ including provision for necessary administrative actions and inter-agency memoranda of understanding, which are mutually agreeable to the Secretaries of Energy, Defense, and Commerce, and the Nuclear Regulatory Commission,¹²⁹ for the preparation of the executive branch judgment on export applications under this section. Such procedures shall include, at a minimum, explicit direction on the handling of such applications, express deadlines for the solicitation and collection of the views of the consulted agencies (with identified officials responsible for meeting such deadlines), an inter-agency coordinating authority to monitor the processing of such applications, predetermined procedures for the expeditious handling of intra-agency and inter-agency disagreements and appeals to higher authorities, frequent meetings of inter-agency administrative coordinators to review the status of all pending applications, and similar administrative mechanisms. To the extent practicable, an applicant should be advised of all the information required of the applicant for the entire process for every agency's needs at the beginning of the process. Potentially controversial applications should be identified as quickly as possible so that any required policy decisions or diplomatic consultations can be initiated in a timely manner. An immediate effort should be undertaken to establish quickly any necessary standards and criteria, including the nature of any required assurances or evidentiary showings, for the decisions required under this section. The processing of any export application proposed and filed as of the date of enactment of this section shall not be delayed pending the development and establishment of procedures to implement the requirements of this section. The executive branch judgment shall be completed in not more than sixty days from receipt of the application or request, unless the Secretary of State in his discretion specifically authorizes additional time for consideration of the application or request because it is in the national interest to allow such additional time. The Secretary shall notify the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs¹¹⁵ of the House of Representatives of any such authorization. In submitting any such judgment, the Secretary of State shall specifically address the extent to which the export criteria then in effect are met and the extent to which the cooperating party has adhered

to the provision of the applicable agreement for cooperation. In the event he considers it warranted, the Secretary may also address the following additional factors, among others:

(A) whether issuing the license or granting the exemption will materially advance the non-proliferation policy of the United States by encouraging the recipient nation to adhere to the Treaty, or to participate in the undertakings contemplated by section 403 or 404(a) of the Nuclear Non-Proliferation Act of 1978;

(B) whether failure to issue the license or grant the exemption would otherwise be seriously prejudicial to the non-proliferation objectives of the United States; and

(C) whether the recipient nation or group of nations has agreed that conditions substantially identical to the export criteria set forth in section 127 of this Act will be applied by another nuclear supplier nation or group of nations to the proposed United States export, and whether in the Secretary's judgment those conditions will be implemented in a manner acceptable to the United States.

The Secretary of State shall provide appropriate data and recommendations, subject to requests for additional data and recommendations, as required by the Commission or the Secretary of Energy, as the case may be; and

(2) the Commission finds, based on a reasonable judgment of the assurances provided and other information available to the Federal Government, including the Commission, that the criteria in section 127 of this Act or their equivalent, and any other applicable statutory requirements, are met: *Provided*, That continued cooperation under an agreement for cooperation as authorized in accordance with section 124 of this Act shall not be prevented by failure to meet the provisions of paragraph (4) or (5) of section 127 for a period of thirty days after enactment of this section, and for a period of twenty-three months thereafter if the Secretary of State notifies the Commission that the nation or group of nations bound by the relevant agreement has agreed to negotiations as called for in section 404(a) of the Nuclear Non-Proliferation Act of 1978; however, nothing in this subsection shall be deemed to relinquish any rights which the United States may have under agreements for cooperation in force on the date of enactment of this section: *Provided further*, That if, upon the expiration of such twenty-four month period, the President determines that failure to continue cooperation with any group of nations which has been exempted pursuant to the above proviso from the provisions of paragraph (4) or (5) of section 127 of this Act, but which has not yet agreed to comply with those provisions would be seriously prejudicial to the achievement of United States non-proliferation objectives or otherwise jeopardize the common defense and security, he may, after notifying the Congress of his determination, extend by Executive order the duration of the above proviso for a period of twelve months, and may further extend the duration of such proviso by one year increments annually thereafter if he again makes such determination and so notifies the Congress. In the event that the

Committee on Foreign Affairs¹¹⁵ of the House of Representatives or the Committee on Foreign Relations of the Senate reports a joint resolution to take any action with respect to any such extension, such joint resolution will be considered in the House or Senate, as the case may be, under procedures identical to those provided for the consideration of resolutions pursuant to section 130 of this Act; *And additionally provided*, That the Commission is authorized to (A) make a single finding under this subsection for more than a single application or request, where the applications or requests involve exports to the same country, in the same general time frame, of similar significance for nuclear explosive purposes and under reasonably similar circumstances and (B) make a finding under this subsection that there is no materially changed circumstance associated with a new application or request from those existing at the time of the last application or request for an export to the same country, where the prior application or request was approved by the Commission using all applicable procedures of this section, and such finding of no materially changed circumstance shall be deemed to satisfy the requirement of this paragraph for findings of the Commission. The decision not to make any such findings in lieu of the findings which would otherwise be required to be made under this paragraph shall not be subject to judicial review: *And provided further*, That nothing contained in this section is intended to require the Commission independently to conduct or prohibit the Commission from independently conducting country or site specific visitations in the Commission's consideration of the application of IAEA safeguards.

b. (1) Timely consideration shall be given by the Commission to requests for export licenses and exemptions and such requests shall be granted upon a determination that all applicable statutory requirements have been met.

(2) If, after receiving the executive branch judgment that the issuance of a proposed export license will not be inimical to the common defense and security, the Commission does not issue the proposed license on a timely basis because it is unable to make the statutory determinations required under this Act, the Commission shall publicly issue its decision to that effect, and shall submit the license application to the President. The Commission's decision shall include an explanation of the basis for the decision and any dissenting or separate views. If, after receiving the proposed license application and reviewing the Commission's decision, the President determines that withholding the proposed export would be seriously prejudicial to the achievement of United States non-proliferation objectives, or would otherwise jeopardize the common defense and security, the proposed export may be authorized by Executive order.¹³⁰ *Provided*, That prior to any such export, the President

¹³⁰Pursuant to Presidential Memorandum of October 3, 1980 (45 F.R. 67629; October 14, 1980), the Secretary of State is authorized to determine the "time, terms, and conditions of exports made pursuant to any Executive Order" issued under this paragraph. This memorandum also authorized the Secretary, on behalf of the President, to issue "such rules, regulations and procedures" as deemed necessary in order to exercise the functions delegated by the memorandum.

shall submit the Executive order, together with his explanation of why, in light of the Commission's decision, the export should nonetheless be made, to the Congress for a period of sixty days of continuous session (as defined in subsection 130 g.) and shall be referred to the Committee on Foreign Affairs¹¹⁵ of the House of Representatives and the Committee on Foreign Relations of the Senate, but any such proposed export shall not occur if during such sixty-day period the Congress adopts a concurrent resolution stating in substance that it does not favor the proposed export. Any such Executive order shall be considered pursuant to the procedures set forth in section 130 of this Act for the consideration of Presidential submissions: *And provided further*, That the procedures established pursuant to subsection (b) of section 304 of the Nuclear Non-Proliferation Act of 1978 shall provide that the Commission shall immediately initiate review of any application for a license under this section and to the maximum extent feasible shall expeditiously process the application concurrently with the executive branch review, while awaiting the final executive branch judgment. In initiating its review, the Commission may identify a set of concerns and requests for information associated with the projected issuance of such licenses and shall transmit such concerns and requests to the executive branch which shall address such concerns and requests in its written communications with the Commission. Such procedures shall also provide that if the Commission has not completed action on the application within sixty days after the receipt of an executive branch judgment that the proposed export or exemption is not inimical to the common defense and security or that any export in the category to which the proposed export beings would not be inimical to the common defense and security because it lacks significance for nuclear explosive purposes, the Commission shall inform the applicant in writing of the reason for delay and provide follow-up reports as appropriate. If the Commission has not completed action by the end of any additional sixty days (a total of one hundred and twenty days from receipt of the executive branch judgment), the President may authorize the proposed export by Executive order, upon a finding that further delay would be excessive and upon making the findings required for such Presidential authorizations under this subsection, and subject to the Congressional review procedures set forth herein. However, if the Commission has commenced procedures for public participation regarding the proposed export under regulations promulgated pursuant to subsection (b) of section 304 of the Nuclear Non-Proliferation Act of 1978, or—within sixty days after receipt of the executive branch judgment on the proposed export—the Commission has identified and transmitted to the executive branch a set of additional concerns or requests for information, the President may not authorize the proposed export until sixty days after public proceedings are completed or sixty days after a full executive branch response to the Commission's additional concerns or requests has been made consistent with subsection a. (1) of this section: *Provided further*, That nothing in this section shall affect the right of the Commission to obtain data and recommendations from the Sec-

retary of State at any time as provided in subsection a. (1) of this section.

c. In the event that the House of Representatives or the Senate passes a joint resolution which would adopt one or more additional export criteria, or would modify any existing export criteria under this Act, any such joint resolution shall be referred in the other House to the Committee on Foreign Relations of the Senate or the Committee on Foreign Affairs¹¹⁵ of the House of Representatives, as the case may be, and shall be considered by the other House under applicable procedures provided for the consideration of resolutions pursuant to section 130 of this Act.

Sec. 127.¹³¹ Criteria Governing United States Nuclear Exports.—

The United States adopts the following criteria which, in addition to other requirements of law, will govern exports for peaceful nuclear uses from the United States of source material, special nuclear material, production or utilization facilities, and any sensitive nuclear technology:

(1) IAEA safeguards as required by Article III(2) of the Treaty will be applied with respect to any such material or facilities proposed to be exported, to any such material or facilities proposed to be exported, to any such material or facilities previously exported and subject to the applicable agreement for cooperation, and to any special nuclear material used in or produced through the use thereof.

(2) No such material, facilities, or sensitive nuclear technology proposed to be exported or previously exported and subject to the applicable agreement for cooperation, and no special nuclear material produced through the use of such materials, facilities, or sensitive nuclear technology, will be used for any nuclear explosive device or for research on or development of any nuclear explosive device.

(3) Adequate physical security measures will be maintained with respect to such material or facilities proposed to be exported and to any special nuclear material used in or produced through the use thereof. Following the effective date of any regulations promulgated by the Commission pursuant to section 304(d) of the Nuclear Non-Proliferation Act of 1978, physical security measures shall be deemed adequate if such measures provide a level of protection equivalent to that required by the applicable regulations.

(4) No such materials, facilities, or sensitive nuclear technology proposed to be exported, and no special nuclear material produced through the use of such material, will be retransferred to the jurisdiction of any other nation or group of nations unless the prior approval of the United States is obtained for such retransfer. In addition to other requirements of law, the United States may approve such retransfer only if the nation or group of nations designated to receive such retransfer agrees that it shall be subject to the conditions required by this section.

¹³¹ 42 U.S.C. 2156. Sec. 305 of the Nuclear Non-Proliferation Act of 1978 (Public Law 95-242; 92 Stat 136) added sec. 127.

(5) No such material proposed to be exported and no special nuclear material produced through the use of such material will be reprocessed, and no irradiated fuel elements containing such material removed from a reactor shall be altered in form or content, unless the prior approval of the United States is obtained for such reprocessing or alteration.

(6) No such sensitive nuclear technology shall be exported unless the foregoing conditions shall be applied to any nuclear material or equipment which is produced or constructed under the jurisdiction of the recipient nation or group of nations by or through the use of any such exported sensitive nuclear technology.

Sec. 128.¹³² Additional Export Criterion and Procedures.—

a. (1) As a condition of continued United States export of source material, special nuclear material, production or utilization facilities, and any sensitive nuclear technology to non-nuclear-weapon states, no such export shall be made unless IAEA safeguards are maintained with respect to all peaceful nuclear activities in, under the jurisdiction of, or carried out under the control of such state at the time of the export.

(2) The President shall seek to achieve adherence to the foregoing criterion by recipient non-nuclear-weapon states.

b. The criterion set forth in subsection a. shall be applied as an export criterion with respect to any application for the export of materials, facilities, or technology specified in subsection a. which is filed after eighteen months from the date of enactment of this section, or for any such application under which the first export would occur at least twenty-four months after the date of enactment of this section, except as provided in the following paragraphs:

(1) If the Commission or the Department of Energy, as the case may be, is notified that the President has determined that failure to approve an export to which this subsection applies because such criterion has not yet been met would be seriously prejudicial to the achievement of United States non-proliferation objectives or otherwise jeopardize the common defense and security, the license or authorization may be issued subject to other applicable requirements of law: *Provided*, That no such export of any production or utilization facility or of any source or special nuclear material (intended for use as fuel in any production or utilization facility) which has been licensed or authorized pursuant to this subsection shall be made to any non-nuclear-weapon state which has failed to meet such criterion until the first such license or authorization with respect to such state is submitted to the Congress (together with a detailed assessment of the reasons underlying the President's determination, the judgment of the executive branch required under section 126 of this Act, and any Commission opinion and views) for a period of sixty days of continuous session (as defined in subsection 130 g. of this Act) and referred to the Com-

mittee on Foreign Affairs¹³³ of the House of Representatives and the Committee on Foreign Relations of the Senate, but such export shall not occur if during such sixty-day period the Congress adopts a concurrent resolution stating in substance that the Congress does not favor the proposed export. Any such license or authorization shall be considered pursuant to the procedures set forth in section 130 of this Act for the consideration of Presidential submissions.

(2) If the Congress adopts a resolution of disapproval pursuant to paragraph (1), no further export of materials, facilities, or technology specified in subsection a. shall be permitted for the remainder of that Congress, unless such state meets the criterion or the President notifies the Congress that he has determined that significant progress has been made in achieving adherence to such criterion by such state or that United States foreign policy interests dictate reconsideration and the Congress, pursuant to the procedure of paragraph (1), does not adopt a concurrent resolution stating in substance that it disagrees with the President's determination.

(3) If the Congress does not adopt a resolution of disapproval with respect to a license or authorization submitted pursuant to paragraph (1), the criterion set forth in subsection a. shall not be applied as an export criterion with respect to exports of materials, facilities and technology specified in subsection a. to that state: *Provided*, That the first license or authorization with respect to that state which is issued pursuant to this paragraph after twelve months from the elapse of the sixty-day period specified in paragraph (1), and the first such license or authorization which is issued after each twelve-month period thereafter, shall be submitted to the Congress for review pursuant to the procedures specified in paragraph (1): *Provided further*, That if the Congress adopts a resolution of disapproval during any review period provided for by this paragraph, the provisions of paragraph (2) shall apply with respect to further exports to such state.

Sec. 129.¹³⁴ Conduct Resulting in Termination of Nuclear Exports.—

a.¹³⁵ No nuclear materials and equipment or sensitive nuclear technology shall be exported to—

(1) any non-nuclear-weapon state that is found by the President to have, at any time after the effective date of this section,

- (A) detonated a nuclear explosive device; or
- (B) terminated or abrogated IAEA safeguards; or
- (C) materially violated an IAEA safeguards agreement;

or

- (D) engaged in activities involving source or special nuclear material and having direct significance for the manufacture or acquisition of nuclear explosive devices, and has failed to take steps which, in the President's judgment, represent sufficient progress toward terminating such activities; or
- (2) any nation or group of nations that is found by the President to have, at any time after the effective date of this section,

(A) materially violated an agreement for cooperation with the United States, or, with respect to material or equipment not supplied under an agreement for cooperation, materially violated the terms under which such material or equipment was supplied or the terms of any commitments obtained with respect thereto pursuant to section 402(a) of the Nuclear Non-Proliferation Act of 1978; or

(B) assisted, encouraged, or induced any non-nuclear-weapon state to engage in activities involving source or special nuclear material and having direct significance for the manufacture or acquisition of nuclear explosive devices, and has failed to take steps which, in the President's judgment, represent sufficient progress toward terminating such assistance, encouragement, or inducement; or

(C) entered into an agreement after the date of enactment of this section for the transfer of reprocessing equipment, materials, or technology to the sovereign control of a non-nuclear-weapon state except in connection with an international fuel cycle evaluation in which the United States is a participant or pursuant to a subsequent international agreement or understanding to which the United States subscribes;

unless the President determines¹³⁶ that cessation of such exports would be seriously prejudicial to the achievement of United States nonproliferation objectives or otherwise jeopardize the common defense and security: *Provided*, That prior to the effective date of any such determination, the President's determination, together with a report containing the reasons for his determination, shall be submitted to the Congress and referred to the Committee on Foreign Affairs¹³³ of the House of Representatives and the Committee on Foreign Relations of the Senate for a period of sixty days of continuous session (as defined in subsection 130 g. of this Act), but any such determination shall not become effective if during such sixty-day period the Congress adopts, and there is enacted, a joint resolution¹³⁷ stating in substance that it does not favor the determination. Any such determination shall be considered pursuant to the procedures set forth in section 130 of this Act for the consideration of Presidential submissions.

b.(1)¹³⁸ Notwithstanding any other provision of law, including specifically section 121 of this Act, and except as provided in paragraphs (2) and (3), no nuclear materials and equipment or sensitive nuclear technology, including items and assistance authorized by section 57 b. of this Act and regulated under part 810 of title 10, Code of Federal Regulations, and nuclear-related items on the Commerce Control List maintained under part 774 of title 15 of the Code of Federal Regulations, shall be exported or reexported, or transferred or retransferred whether directly or indirectly, and no Federal agency shall issue any license, approval, or authorization for the export or reexport, or transfer, or retransfer, whether directly or indirectly, of these items or assistance (as defined in this paragraph) to any country whose government has been identified by the Secretary of State as engaged in state sponsorship of terrorist activities (specifically including any country the government of which has been determined by the Secretary of State under section 620A(a) of the Foreign Assistance Act of 1961 (22 U.S.C. 2371(a)), section 6(j)(1) of the Export Administration Act of 1979 (50 U.S.C. App. 2405(j)(1)), or section 40(d) of the Arms Export Control Act (22 U.S.C. 2780(d)) to have repeatedly provided support for acts of international terrorism).

(2) This subsection shall not apply to exports, reexports, transfers, or retransfers of radiation monitoring technologies, surveillance equipment, seals, cameras, tamper-indication devices, nuclear detectors, monitoring systems, or equipment necessary to safely store, transport, or remove hazardous materials, whether such items, services, or information are regulated by the Department of Energy, the Department of Commerce, or the Commission, except to the extent that such technologies, equipment, seals, cameras, devices, detectors, or systems are available for use in the design or construction of nuclear reactors or nuclear weapons.

(3) The President may waive the application of paragraph (1) to a country if the President determines and certifies to Congress that the waiver will not result in any increased risk that the country receiving the waiver will acquire nuclear weapons, nuclear reactors, or any materials or components of nuclear weapons and—

(A) the government of such country has not within the preceding 12-month period willfully aided or abetted the international proliferation of nuclear explosive devices to individuals or groups or willfully aided and abetted an individual or groups in acquiring unsafeguarded nuclear materials;

(B) in the judgment of the President, the government of such country has provided adequate, verifiable assurances that it will cease its support for acts of international terrorism;

(C) the waiver of that paragraph is in the vital national security interest of the United States; or

“(b) APPLICABILITY TO EXPORTS APPROVED FOR TRANSFER BUT NOT EXPORTED.—Subsection b. of section 129 of Atomic Energy Act of 1954, as added by subsection (a) of this section, shall apply with respect to exports that have been approved for transfer as of the date of the enactment of this Act but have not yet been transferred as of that date.”.

(D) such a waiver is essential to prevent or respond to a serious radiological hazard in the country receiving the waiver that may or does threaten public health and safety.

Sec. 130.¹³⁹ Congressional Review Procedures.—

a. Not later than forty-five days of continuous session of Congress after the date of transmittal to the Congress of any submission of the President required by subsection 126 a. (2), 126 b. (2), 128 b., 129, 131 a. (3), or 131 f. (1)(A) of this Act, the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs¹³³ of the House of Representatives,¹⁴⁰ shall each submit a report to its respective House on its views and recommendations respecting such Presidential submission together with a resolution, as defined in subsection f., stating in substance that the Congress approves or disapproves such submission, as the case may be: *Provided*, That if any such committee has not reported such a resolution at the end of such forty-five day period, such committee shall be deemed to be discharged from further consideration of such submission.¹⁴¹ If no such resolution has been reported at the end of such period, the first resolution, as defined in subsection f., which is introduced within five days thereafter within such House shall be placed on the appropriate calendar of such House.

b. When the relevant committee or committees have reported such a resolution (or have been discharged from further consideration of such a resolution pursuant to subsection a.) or when a resolution has been introduced and placed on the appropriate calendar pursuant to subsection a., as the case may be, it is at any time thereafter in order (even though a previous motion to the same effect has been disagreed to) for any Member of the respective House to move to proceed to the consideration of the resolution. The motion is highly privileged and is not debatable. The motion shall not be subject to amendment, or to a motion to postpone, or to a motion to proceed to the consideration of other business. A motion to reconsider the vote by which the motion is agreed to or disagreed to shall not be in order. If a motion to proceed to the consideration of the resolution is agreed to, the resolution shall remain the unfinished business of the respective House until disposed of.

c. Debate on the resolution, and on all debatable motions and appeals in connection therewith, shall be limited to not more than ten hours, which shall be divided equally between individuals favoring and individuals opposing the resolution. A motion further to limit debate is in order and not debatable. An amendment to a motion to postpone, or a motion to recommit the resolution, or a motion to proceed to the consideration of other business is not in order. A motion to reconsider the vote by which the resolution is agreed to or disagreed to shall not be in order. No amendment to any concur-

¹⁴⁰ At this point, sec. 301(c)(1) of Public Law 99-64 (99 Stat. 160) struck out the following words: “, and in addition, in the case of a proposed agreement for cooperation arranged pursuant to subsection 91 c., 144 b., or 144 c., the Committee on Armed Services of the House of Representatives and the Committee on Armed Services of the Senate,”.

¹⁴¹ At this point, sec. 301(c)(1) of Public Law 99-64 (99 Stat. 160) struck out the following words: “and if, in the case of a proposed agreement for cooperation arranged pursuant to subsection 91 c., 144 b., or 144 c. of this Act, the other relevant committee of that House has reported such a resolution, such committee shall be deemed discharged from further consideration of that resolution”.

rent resolution pursuant to the procedures of this section is in order except as provided in subsection d.

d. Immediately following (1) the conclusion of the debate on such concurrent resolution, (2) a single quorum call at the conclusion of debate if requested in accordance with the rules of the appropriate House, and (3) the consideration of an amendment introduced by the Majority Leader or his designee to insert the phrase, "does not" in lieu of the word "does" if the resolution under consideration is a concurrent resolution of approval, the vote on final approval of the resolution shall occur.

e. Appeals from the decisions of the Chair relating to the application of the rules of the Senate or the House of Representatives, as the case may be, to the procedure relating to such a resolution shall be decided without debate.

f. For the purposes of subsections a. through e. of this section, the term "resolution" means a concurrent resolution of the Congress, the matter after the resolving clause of which is as follows: "That the Congress (does or does not) favor the transmitted to the Congress by the President on,", the blank spaces therein to be appropriately filled, and the affirmative or negative phrase within the parentheses to be appropriately selected.

g. (1) Except as provided in paragraph (2), for¹⁴² the purposes of this section—

(A) continuity of session is broken only by an adjournment of Congress sine die; and

(B) the days on which either House is not in session because of an adjournment of more than three days to a day certain are excluded in the

computation of any period of time in which Congress is in continuous session.

(2)¹⁴³ For purposes of this section insofar as it applies to section 123—

(A) continuity of session is broken only by an adjournment of Congress sine die at the end of a Congress; and

(B) the days on which either House is not in session because of an adjournment of more than three days are excluded in the computation of any period of time in which Congress is in continuous session.

h. This section is enacted by Congress—

(1) as an exercise of the rulemaking power of the Senate and the House of Representatives, respectively, and as such they are deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of resolutions described by subsection f. of this section; and they supersede other rules only to the extent that they are inconsistent therewith; and

(2) with full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner and to the same extent as in the case of any other rule of that House.

¹⁴²Sec. 301(c)(1) of Public Law 99-64 (99 Stat. 160) struck out "For" and inserted in lieu thereof "g. (1) Except as provided in paragraph (2), for".

¹⁴³Sec. 301(c)(2)(A) of Public Law 99-64 (99 Stat. 160) added para. (2).

i.¹⁴⁴(1) For the purposes of this subsection, the term “joint resolution” means—

(A) for an agreement for cooperation pursuant to section 123 of this Act, a joint resolution, the matter after the resolving clause of which is as follows: “That the Congress (does or does not) favor the proposed agreement for cooperation transmitted to the Congress by the President on _____,”

(B) for a determination under section 129 of this Act, a joint resolution, the matter after the resolving clause of which is as follows: “That the Congress does not favor the determination transmitted to the Congress by the President on _____,”
or

(C) for a subsequent arrangement under section 201 of the United States-India Nuclear Cooperation Approval and Nonproliferation Enhancement Act, a joint resolution, the matter after the resolving clause of which is as follows: “That the Congress does not favor the subsequent arrangement to the Agreement for Cooperation Between the Government of the United States of America and the Government of India Concerning Peaceful Uses of Nuclear Energy that was transmitted to Congress by the President on September 10, 2008.”

with the date¹⁴⁵ of the transmission of the proposed agreement for cooperation inserted in the blank, and the affirmative or negative phrase within the parentheses appropriately selected.

(2) On the day on which a proposed agreement for cooperation is submitted to the House of Representatives and the Senate under section 123 d., a joint resolution with respect to such agreement for cooperation shall be introduced (by request) in the House by the chairman of the Committee on Foreign Affairs,¹⁴⁶ for himself and the ranking minority member of the Committee, or by Members of the House designated by the chairman and ranking minority member; and shall be introduced (by request) in the Senate by the majority leader of the Senate, for himself and the minority leader of the Senate, or by Members of the Senate designated by the majority leader and minority leader of the Senate. If either House is not in session on the day on which such an agreement for cooperation is submitted, the joint resolution shall be introduced in that House, as provided in the preceding sentence, on the first day thereafter on which that House is in session.

(3) All joint resolutions introduced in the House of Representatives shall be referred to the appropriate committee or committees, and all joint resolutions introduced in the Senate shall be referred to the Committee on Foreign Relations and in addition, in the case of a proposed agreement for cooperation arranged pursuant to section 91 c., 144 b., or 144 c., the Committee on Armed Services.

¹⁴⁴Sec. 301(c)(2)(B) of Public Law 99-64 (99 Stat. 161) added subsec. (i).

¹⁴⁵Sec. 205(1) of Public Law 110-369 (United States-India Nuclear Cooperation Approval and Nonproliferation Enhancement Act; 122 Stat. 4033) struck out “means a joint resolution, the matter after the resolving clause of which is as follows: “That the Congress (does or does not) favor the proposed agreement for cooperation transmitted to the Congress by the President on _____,” with the date” and inserted in lieu thereof “means—”, followed by new subparas. (A), (B), and (C), and ending with “with the date”.

(4) If the committee of either House to which a joint resolution has been referred has not reported it at the end of 45 days after its introduction (or in the case of a joint resolution related to a subsequent arrangement under section 201 of the United States-India Nuclear Cooperation Approval and Nonproliferation Enhancement Act, 15 days after its introduction),¹⁴⁷ the committee shall be discharged from further consideration of the joint resolution or of any other joint resolution introduced with respect to the same matter, except that, in the case of a joint resolution which has been referred to more than one committee, if before the end of that 45-day period (or in the case of a joint resolution related to a subsequent arrangement under section 201 of the United States-India Nuclear Cooperation Approval and Nonproliferation Enhancement Act, 15-day period)¹⁴⁷ one such committee has reported the joint resolution, any other committee to which the joint resolution was referred shall be discharged from further consideration of the joint resolution or of any other joint resolution introduced with respect to the same matter.

(5) A joint resolution under this subsection shall be considered in the Senate in accordance with the provisions of section 601(b)(4) of the International Security Assistance and Arms Export Control Act of 1976. For the purpose of expediting the consideration and passage of joint resolutions reported or discharged pursuant to the provisions of this subsection, it shall be in order for the Committee on Rules of the House of Representatives to present for consideration a resolution of the House of Representatives providing procedures for the immediate consideration of a joint resolution under this subsection which may be similar, if applicable, to the procedures set forth in section 601(b)(4) of the International Security Assistance and Arms Export Control Act of 1976.

(6) In the case of a joint resolution described in paragraph (1), if prior to the passage by one House of a joint resolution in that House, that House received a joint resolution with respect to the same matter from the other House, then—

(A) the procedures in that House shall be the same as if no joint resolution had been received from the other House; but

(B) the vote on final passage shall be on the joint resolution of the other House.

Sec. 131.¹⁴⁸ Subsequent Arrangements.—

a. (1) Prior to entering into any proposed subsequent arrangement under an agreement for cooperation (other than an agreement for cooperation arranged pursuant to subsection 91 c., 144 b., or 144 c. of this Act), the Secretary of Energy shall obtain the con-

Notice of any proposed subsequent arrangement shall be published in the Federal Register, together with the written determination of the Secretary of Energy that such arrangement will not be inimical to the common defense and security, and such proposed subsequent arrangement shall not take effect before fifteen days after publication. Whenever the Secretary of State is required¹⁵⁰ to prepare a Nuclear Proliferation Assessment Statement pursuant to paragraph (2) of this subsection, notice of the proposed subsequent arrangement which is the subject of the requirement to prepare a Nuclear Proliferation Assessment Statement¹⁵¹ shall not be published until after the receipt by the Secretary of Energy of such Statement or the expiration of the time authorized by subsection c. for the preparation of such Statement, whichever occurs first.¹⁵²

(2) If in the view of the Secretary of State, Secretary of Energy, Secretary of Defense, or the Commission¹⁵³ a proposed subsequent arrangement might significantly contribute to proliferation, the Secretary of State, in consultation with such Secretary or the Commission, shall prepare¹⁵⁴ an unclassified Nuclear Proliferation Assessment Statement¹⁵² with regard to such proposed subsequent arrangement regarding the adequacy of the safeguards and other control mechanisms and the application of the peaceful use assurances of the relevant agreement to ensure that assistance to be furnished pursuant to the subsequent arrangement will not be used to further any military or nuclear explosive purpose. For the purposes of this section, the term “subsequent arrangements” means arrangements entered into by any agency or department of the United States Government with respect to cooperation with any na-

tion or group of nations (but not purely private or domestic arrangements) involving—

(A) contracts for the furnishing of nuclear materials and equipment;

(B) approvals for the transfer, for which prior approval is required under an agreement for cooperation, by a recipient of any source or special nuclear material, production or utilization facility, or nuclear technology;

(C) authorization for the distribution of nuclear materials and equipment pursuant to this Act which is not subject to the procedures set forth in section 111 b., section 126, or section 109 b.;

(D) arrangements for physical security;

(E) arrangements for the storage or disposition of irradiated fuel elements;

(F) arrangements for the application of safeguards with respect to nuclear materials and equipment; or

(G) any other arrangement which the President finds to be important from the standpoint of preventing proliferation.

(3) The United States will give timely consideration to all requests for prior approval, when required by this Act, for the reprocessing of material proposed to be exported, previously exported and subject to the applicable agreement for cooperation, or special nuclear material produced through the use of such material or a production or utilization facility transferred pursuant to such agreement for cooperation, or to the altering of irradiated fuel elements containing such material, and additionally, to the maximum extent feasible, will attempt to expedite such consideration when the terms and conditions for such actions are set forth in such agreement for cooperation or in some other international agreement executed by the United States and subject to congressional review procedures comparable to those set forth in section 123 of this Act.

(4) All other statutory requirements under other sections of this Act for the approval or conduct of any arrangement subject to this subsection shall continue to apply and any other such requirements for prior approval or conditions for entering such arrangements shall also be satisfied before the arrangement takes effect pursuant to subsection a. (1).

b. With regard to any special nuclear material exported by the United States or produced through the use of any nuclear materials and equipment or sensitive nuclear technology exported by the United States—

(1) the Secretary of Energy may not enter into any subsequent arrangement for the retransfer of any such material to a third country for reprocessing, for the reprocessing of any such material, or for the subsequent retransfer of any plutonium in quantities greater than 500 grams resulting from the reprocessing of any such material, until he has provided the Committee on Foreign Affairs¹⁵⁵ of the House of Representa-

tives and the Committee on Foreign Relations of the Senate with a report containing his reasons for entering into such arrangement and a period of 15 days of continuous session (as defined in subsection 130 g. of this Act) has elapsed: *Provided, however,* That if in the view of the President an emergency exists due to unforeseen circumstances requiring immediate entry into a subsequent arrangement, such period shall consist of fifteen calendar days;

(2) the Secretary of Energy may not enter into any subsequent arrangement for the reprocessing of any such material in a facility which has not processed power reactor fuel assemblies or been the subject of a subsequent arrangement therefor prior to the date of enactment of the Nuclear Non-Proliferation Act of 1978 or for subsequent retransfer to a non-nuclear-weapon state of any plutonium in quantities greater than 500 grams resulting from such reprocessing, unless in his judgment, and that of the Secretary of State, such reprocessing or retransfer will not result in a significant increase of the risk of proliferation beyond that which exists at the time that approval is requested. Among all the factors in making this judgment, foremost consideration will be given to whether or not the reprocessing or retransfer will take place under conditions that will ensure timely warning to the United States of any diversion well in advance of the time at which the non-nuclear-weapon state could transform the diverted material into a nuclear explosive device; and

(3) the Secretary of Energy shall attempt to ensure, in entering into any subsequent arrangement for the reprocessing of any such material in any facility that has processed power reactor fuel assemblies or been the subject of a subsequent arrangement therefor prior to the date of enactment of the Nuclear Non-Proliferation Act of 1978, or for the subsequent retransfer to any non-nuclear-weapon state of any plutonium in quantities greater than 500 grams resulting from such reprocessing, that such reprocessing or retransfer shall take place under conditions comparable to those which in this view, and that of the Secretary of State, satisfy the standards set forth in the paragraph (2).

c. The Secretary of Energy shall, within ninety days after the enactment of this section, establish orderly and expeditious procedures, including provision for necessary administrative actions and inter-agency memoranda of understanding, which are mutually agreeable to the Secretaries of State, Defense, and Commerce¹⁵⁶ and the Nuclear Regulatory Commission for the consideration of requests for subsequent arrangements under this section.¹⁵⁷ Such procedures shall include, at a minimum, explicit direction on the handling of such requests, express deadlines for the solicitation and collection of the views of the consulted agencies (with identified officials responsible for meeting such deadlines), an inter-agency coordinating authority to monitor the processing of such requests,

¹⁵⁶Sec. 1225(d)(7)(A) of the Foreign Affairs Agencies Consolidation Act of 1998 (subdivision A of division G of Public Law 105-277; 112 Stat. 2681-775) struck out “, the Director of the Arms Control and Disarmament Agency.”

predetermined procedures for the expeditious handling of intra-agency and inter-agency disagreements and appeals to higher authorities, frequent meetings of inter-agency administrative coordinators to review the status of all pending requests, and similar administrative mechanisms. To the extent practicable, an applicant should be advised of all the information required of the applicant for the entire process for every agency's needs at the beginning of the process. Potentially controversial requests should be identified as quickly as possible so that any required policy decisions or diplomatic consultations can be initiated in a timely manner. An immediate effort should be undertaken to establish quickly any necessary standards and criteria, including the nature of any required assurance or evidentiary showings, for the decisions required under this section. Further, such procedures shall specify that if he intends to prepare a Nuclear Proliferation Assessment Statement, the Secretary of State¹⁵⁸ shall so declare in his response to the Department of Energy. If the Secretary of State¹⁵⁸ declares that he intends to prepare such a Statement, he shall do so within sixty days of his receipt of a copy of the proposed subsequent arrangement (during which time the Secretary of Energy may not enter into the subsequent arrangement), unless pursuant to the Secretary of State's¹⁵⁸ request, the President waives the sixty-day requirement and notifies the Committee on Foreign Affairs¹⁵⁵ of the House of Representatives and the Committee on Foreign Relations of the Senate of such waiver and the justification therefor. The processing of any subsequent arrangement proposed and filed as of the date of enactment of this section shall not be delayed pending the development and establishment of procedures to implement the requirements of this section.

d. Nothing in this section is intended to prohibit, permanently or unconditionally, the reprocessing of spent fuel owned by a foreign nation which fuel has been supplied by the United States, to preclude the United States from full participation in the International Nuclear Fuel Cycle Evaluation provided for in section 105 of the Nuclear Non-Proliferation Act of 1978; to in any way limit the presentation or consideration in that evaluation of any nuclear fuel cycle by the United States or any other participation; nor the prejudice open and objective consideration of the results of the evaluation.

e. Notwithstanding subsection 402(d) of the Department of Energy Organization Act (Public Law 95-91), the Secretary of Energy, and not the Federal Energy Regulatory Commission, shall have sole jurisdiction within the Department of Energy over any matter arising from any function of the Secretary of Energy in this section.

f. (1) With regard to any subsequent arrangement under subsection a. (2)(E) (for the storage or disposition of irradiated fuel elements), where such arrangement involves a direct or indirect commitment of the United States for the storage or other disposition, interim or permanent, of any foreign spent nuclear fuel in the

Sec. 1225(d)(7)(C) of that Act struck out "Director's" and inserted in lieu thereof "Secretary of State's" in the seventh sentence.

United States, the Secretary of Energy may not enter into any such subsequent arrangement, unless:

(A)(i) Such commitment of the United States has been submitted to the Congress for a period of sixty days of continuous session (as defined in subsection 130 g. of this Act) and has been referred to the Committee on Foreign Affairs¹⁵⁵ of the House of Representatives and the Committee on Foreign Relations of the Senate, but any such commitment shall not become effective if during such sixty-day period the Congress adopts a concurrent resolution stating in substance that it does not favor the commitment, any such commitment to be considered pursuant to the procedures set forth in section 130 of this Act for the consideration of Presidential submissions; or (ii) if the President has submitted a detailed generic plan for such disposition or storage in the United States to the Congress for a period of sixty days of continuous session (as defined in subsection 130 g. of this Act), which plan has been referred to the Committee on Foreign Affairs¹⁵⁵ of the House of Representatives and the Committee on Foreign Relations of the Senate and has not been disapproved during such sixty-day period by the adoption of a concurrent resolution stating in substance that Congress does not favor the plan; and the commitment is subject to the terms of an effective plan. Any such plan shall be considered pursuant to the procedures set forth in section 130 of this Act for the consideration of Presidential submissions;

(B) The Secretary of Energy has complied with subsection a.; and

(C) The Secretary of Energy has complied, or in the arrangement will comply with all other statutory requirements of this Act, under sections 54 and 55 and any other applicable sections, and any other requirements of law.

(2) Subsection (1) shall not apply to the storage or other disposition in the United States of limited quantities of foreign spent nuclear fuel if the President determines that (A) a commitment under section 54 or 55 of this Act of the United States for storage or other disposition of such limited quantities in the United States is required by an emergency situation, (B) it is in the national interest to take such immediate action, and (C) he notifies the Committees on Foreign Affairs¹⁵⁵ and Science, Space, and Technology¹⁵⁹ of the House of Representatives and the Committees on Foreign Relations and Energy and Natural Resources of the Senate of the determination and action, with a detailed explanation and justification thereof, as soon as possible.

(3) Any plan submitted by the President under subsection f. (1) shall include a detailed discussion, with detailed information, and any supporting documentation thereof, relating to policy objectives, technical description, geographic information, cost data and justifications, legal and regulatory considerations, environmental im-

fact information and any related international agreements, arrangements or understandings.

(4) For the purposes of this subsection, the term "foreign spent nuclear fuel" shall include any nuclear fuel irradiated in any nuclear power reactor located outside of the United States and operated by any foreign legal entity, government or nongovernment, regardless of the legal ownership or other control of the fuel or the reactor and regardless of the origin or licensing of the fuel or reactor, but not including fuel irradiated in a research reactor.

Sec. 132.¹⁶⁰ Authority to Suspend Nuclear Cooperation with Nations Which Have Not Ratified the Convention on the Physical Security of Nuclear Material.—

The President may suspend nuclear cooperation under this Act with any nation or group of nations which has not ratified the Convention on the Physical Security of Nuclear Material.

Sec. 133.¹⁶¹ Consultation with the Department of Defense Concerning Certain Exports and Subsequent Arrangements.—

a. In addition to other applicable requirements—

(1) a license may be issued by the Nuclear Regulatory Commission under this Act for the export of special nuclear material described in subsection b.; and

(2) approval may be granted by the Secretary of Energy under section 131 of this Act for the transfer of special nuclear material described in subsection b.;

only after the Secretary of Defense has been consulted on whether the physical protection of that material during the export or transfer will be adequate to deter theft, sabotage, and other acts of international terrorism which would result in the diversion of that material. If, in the view of the Secretary of Defense based on all available intelligence information, the export or transfer might be subject to a genuine terrorist threat, the Secretary shall provide to the Nuclear Regulatory Commission or the Secretary of Energy, as appropriate, his written assessment of the risk and a description of the actions the Secretary of Defense considers necessary to upgrade physical protection measures.

b. Subsection a. applies to the export or transfer of more than 2 kilograms of plutonium or more than 5 kilograms¹⁶² of uranium enriched to more than 20 percent in the isotope 233 or the isotope 235.

Sec. 134.¹⁶³ Further Restrictions on Exports.—

¹⁶³ 42 U.S.C. 2160d. Sec. 903(a)(1) of the Energy Policy Act of 1992 (Public Law 102-486; 106 Stat. 2944) added sec. 134.

Sec. 903(b) of that Act further provided the following:

"(b) REPORT TO CONGRESS.—

"(1) IN GENERAL.—Not later than 90 days after the date of the enactment of this Act, the Chairman of the Nuclear Regulatory Commission, after consulting with other relevant agencies, shall submit to the Congress a report detailing the current disposition of previous United States exports of highly enriched uranium, including—

"(A) their location;

"(B) whether they are irradiated;

"(C) whether they have been used for the purpose stated in their export license; and

"(D) whether they have been used for an alternative purpose and, if so, whether such alternative purpose has been explicitly approved by the Commission.

a. IN GENERAL.—Except as provided in subsection b., the Commission¹⁶⁴ may issue a license for the export of highly enriched uranium to be used as a fuel or target in a nuclear research or test reactor only if, in addition to any other requirement of this Act, the Commission determines that—

(1) there is no alternative nuclear reactor fuel or target enriched in the isotope 235 to a lesser percent than the proposed export, that can be used in that reactor;

(2) the proposed recipient of that uranium has provided assurances that, whenever an alternative nuclear reactor fuel or target can be used in that reactor, it will use that alternative in lieu of highly enriched uranium; and

(3) the United States Government is actively developing an alternative nuclear reactor fuel or target that can be used in that reactor.

b.¹⁶⁵ MEDICAL ISOTOPE PRODUCTION.—

(1) DEFINITIONS.—In this subsection:

(A) HIGHLY ENRICHED URANIUM.—The term “highly enriched uranium” means uranium enriched to include concentration of U-235 above 20 percent.

(B) MEDICAL ISOTOPE.—The term “medical isotope” includes Molybdenum 99, Iodine 131, Xenon 133, and other radioactive materials used to produce a radiopharmaceutical for diagnostic, therapeutic procedures or for research and development.

(C) RADIOPHARMACEUTICAL.—The term “radiopharmaceutical” means a radioactive isotope that—

(i) contains byproduct material combined with chemical or biological material; and

(ii) is designed to accumulate temporarily in a part of the body for therapeutic purposes or for enabling the production of a useful image for use in a diagnosis of a medical condition.

(D) RECIPIENT COUNTRY.—The term “recipient country” means Canada, Belgium, France, Germany, and the Netherlands.

(2) Licenses.—The Commission may issue a license authorizing the export (including shipment to and use at intermediate and ultimate consignees specified in the license) to a recipient country of highly enriched uranium for medical isotope production if, in addition to any other requirements of this Act (except subsection a.), the Commission determines that—

(A) a recipient country that supplies an assurance letter to the United States Government in connection with the consideration by the Commission of the export license application has informed the United States Government that

¹⁶⁴“(2) EXPORTS TO EURATOM.—To the maximum extent possible, the report required by paragraph (1) shall include—

“(A) exports of highly enriched uranium to EURATOM; and

“(B) subsequent retransfers of such material within EURATOM, without regard to the extent of United States control over such retransfers.”

¹⁶⁴Sec. 630(1) of the Energy Policy Act of 2005 (subtitle B of title VI of Public Law 109-58; 119 Stat. 785) struck out “a. The Commission” and inserted in lieu thereof “a. IN GENERAL.—Except as provided in subsection b., the Commission”.

¹⁶⁵Sec. 630(2) of the Energy Policy Act of 2005 (subtitle B of title VI of Public Law 109-58; 119 Stat. 785) redesignated subsec. b. as subsec. c., and added a new subsec. b.

any intermediate consignees and the ultimate consignee specified in the application are required to use the highly enriched uranium solely to produce medical isotopes; and

(B) the highly enriched uranium for medical isotope production will be irradiated only in a reactor in a recipient country that—

(i) uses an alternative nuclear reactor fuel; or

(ii) is the subject of an agreement with the United States Government to convert to an alternative nuclear reactor fuel when alternative nuclear reactor fuel can be used in the reactor.

(3) REVIEW OF PHYSICAL PROTECTION REQUIREMENTS.—

(A) IN GENERAL.—The Commission shall review the adequacy of physical protection requirements that, as of the date of an application under paragraph (2), are applicable to the transportation and storage of highly enriched uranium for medical isotope production or control of residual material after irradiation and extraction of medical isotopes.

(B) IMPOSITION OF ADDITIONAL REQUIREMENTS.—If the Commission determines that additional physical protection requirements are necessary (including a limit on the quantity of highly enriched uranium that may be contained in a single shipment), the Commission shall impose such requirements as license conditions or through other appropriate means.

(4) FIRST REPORT TO CONGRESS.—

(A) NAS STUDY.—The Secretary shall enter into an arrangement with the National Academy of Sciences to conduct a study to determine—

(i) the feasibility of procuring supplies of medical isotopes from commercial sources that do not use highly enriched uranium;

(ii) the current and projected demand and availability of medical isotopes in regular current domestic use;

(iii) the progress that is being made by the Department of Energy and others to eliminate all use of highly enriched uranium in reactor fuel, reactor targets, and medical isotope production facilities; and

(iv) the potential cost differential in medical isotope production in the reactors and target processing facilities if the products were derived from production systems that do not involve fuels and targets with highly enriched uranium.

(B) FEASIBILITY.—For the purpose of this subsection, the use of low enriched uranium to produce medical isotopes shall be determined to be feasible if—

(i) low enriched uranium targets have been developed and demonstrated for use in the reactors and target processing facilities that produce significant quantities of medical isotopes to serve United States needs for such isotopes;

(ii) sufficient quantities of medical isotopes are available from low enriched uranium targets and fuel to meet United States domestic needs; and

(iii) the average anticipated total cost increase from production of medical isotopes in such facilities without use of highly enriched uranium is less than 10 percent.

(C) REPORT BY THE SECRETARY.—Not later than 5 years after the date of enactment of the Energy Policy Act of 2005, the Secretary shall submit to Congress a report that—

(i) contains the findings of the National Academy of Sciences made in the study under subparagraph (A); and

(ii) discloses the existence of any commitments from commercial producers to provide domestic requirements for medical isotopes without use of highly enriched uranium consistent with the feasibility criteria described in subparagraph (B) not later than the date that is 4 years after the date of submission of the report.

(5) SECOND REPORT TO CONGRESS.—If the study of the National Academy of Sciences determines under paragraph (4)(A)(i) that the procurement of supplies of medical isotopes from commercial sources that do not use highly enriched uranium is feasible, but the Secretary is unable to report the existence of commitments under paragraph (4)(C)(ii), not later than the date that is 6 years after the date of enactment of the Energy Policy Act of 2005, the Secretary shall submit to Congress a report that describes options for developing domestic supplies of medical isotopes in quantities that are adequate to meet domestic demand without the use of highly enriched uranium consistent with the cost increase described in paragraph (4)(B)(iii).

(6) CERTIFICATION.—At such time as commercial facilities that do not use highly enriched uranium are capable of meeting domestic requirements for medical isotopes, within the cost increase described in paragraph (4)(B)(iii) and without impairing the reliable supply of medical isotopes for domestic utilization, the Secretary shall submit to Congress a certification to that effect.

(7) SUNSET PROVISION.—After the Secretary submits a certification under paragraph (6), the Commission shall, by rule, terminate its review of export license applications under this subsection.

c.¹⁶⁵ As used in this section—

(1) the term “alternative nuclear reactor fuel or target” means a nuclear reactor fuel or target which is enriched to less than 20 percent in the isotope U-235;

(2) the term “highly enriched uranium” means uranium enriched to 20 percent or more in the isotope U-235; and

(3) a fuel or target “can be used” in a nuclear research or test reactor if—

(A) the fuel or target has been qualified by the Reduced Enrichment Research and Test Reactor Program of the Department of Energy, and

(B) use of the fuel or target will permit the large majority of ongoing and planned experiments and isotope production to be conducted in the reactor without a large percentage increase in the total cost of operating the reactor.

CHAPTER 12. CONTROL OF INFORMATION

Sec. 141.¹⁶⁶ **Policy.**—It shall be the policy of the Commission to control the dissemination and declassification of Restricted Data in such a manner as to assure the common defense and security. Consistent with such policy, the Commission shall be guided by the following principles:

a. Until effective and enforceable international safeguards against the use of atomic energy for destructive purposes have been established by an international arrangement, there shall be no exchange of Restricted Data with other nations except as authorized by section 144; and

b. The dissemination of scientific and technical information relating to atomic energy should be permitted and encouraged so as to provide that free interchange of ideas and criticism which is essential to scientific and industrial progress and public understanding and to enlarge the fund of technical information.

Sec. 142.¹⁶⁷ **Classification and Declassification of Restricted Data.**—

a. The Commission shall from time to time determine the data, within the definition of Restricted Data, which can be published without undue risk to the common defense and security and shall thereupon cause such data to be declassified and removed from the category of Restricted Data.

b. The Commission shall maintain a continuous review of Restricted Data and of any Classification Guides issued for the guidance of those in the atomic energy program with respect to the areas of Restricted Data which have been declassified in order to determine which information may be declassified and removed from the category of Restricted Data without undue risk to the common defense and security.

¹⁶⁶ 42 U.S.C. 2161.

¹⁶⁷ 42 U.S.C. 2162. Sec. 3152 of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102-484; 106 Stat. 2644) originally added a subsec. f. to this section. Sec. 3155(c)(3) of Public Law 103-337 (108 Stat. 3092) subsequently repealed subsec. f., which formerly read as follows:

“f. Notwithstanding any other law, the President may publicly release Restricted Data regarding the nuclear weapons stockpile of the United States if the United States and member states of the Commonwealth of Independent States reach reciprocal agreement on the release of such data.”

Sec. 3155 of Public Law 104-106 (110 Stat. 625; 42 U.S.C. 2162 note) provided the following:

“**SEC. 3155. REVIEW OF CERTAIN DOCUMENTS BEFORE DECLASSIFICATION AND RELEASE.**

“(a) **IN GENERAL.**—The Secretary of Energy shall ensure that, before a document of the Department of Energy that contains national security information is released or declassified, such document is reviewed to determine whether it contains restricted data.

“(b) **LIMITATION ON DECLASSIFICATION.**—The Secretary may not implement the automatic declassification provisions of Executive Order 12958 if the Secretary determines that such implementation could result in the automatic declassification and release of documents containing restricted data.

“(c) **RESTRICTED DATA DEFINED.**—In this section, the term ‘restricted data’ has the meaning provided by section 11 y. of the Atomic Energy Act of 1954 (42 U.S.C. 2014(y)).”

c. In the case of Restricted Data which the Commission and the Department of Defense jointly determine to relate primarily to the military utilization of atomic weapons, the determination that such data may be published without constituting an unreasonable risk to the common defense and security shall be made by the Commission and the Department of Defense jointly, and if the Commission and the Department of Defense do not agree, the determination shall be made by the President.

d. The Commission shall remove from the Restricted Data category such data as the Commission and the Department of Defense jointly determine relates primarily to the military utilization of atomic weapons and which the Commission and Department of Defense jointly determine can be adequately safeguarded as defense information: *Provided, however,* That no such data so removed from the Restricted Data category shall be transmitted or otherwise made available to any nation or regional defense organization, while such data remains defense information, except pursuant to an agreement for cooperation entered into in accordance with subsection b. or d. of section 144.¹⁶⁸

e. The Commission shall remove from the Restricted Data category such information concerning the atomic energy programs of other nations as the Commission and the Director of Central Intelligence jointly determine to be necessary to carry out the provisions of section 102(d) of the National Security Act of 1947, as amended, and can be adequately safeguarded as defense information.

Sec. 143.¹⁶⁹ **Department of Defense Participation.**—The Commission may authorize any of its employees, or employees of any contractor, prospective contractor, licensee or prospective licensee of the Commission or any other person authorized access to Restricted Data by the Commission under subsections 145 b. and 145 c.¹⁷⁰ to permit any employee of an agency of the Department of Defense or of its contractors, or any member of the Armed Forces to have access to Restricted Data required in the performance of his duties and so certified by the head of the appropriate agency of the Department of Defense or his designee: *Provided, however,* That the head of the appropriate agency of the Department of Defense or his designee has determined, in accordance with the established personnel security procedures and standards of such agency, that permitting the member or employee to have access to such Restricted Data will not endanger the common defense and security: *And provided further,* That the Secretary of Defense finds that the established personnel and other security procedures and standards of such agency are adequate and in reasonable conformity to the standards established by the Commission under section 145.

Sec. 144.¹⁷¹ **International Cooperation.**—

¹⁶⁸ Sec. 3155(c)(2) of Public Law 103-337 (108 Stat. 3092) struck out “subsection 144 b.” and inserted in lieu thereof “subsection b. or d. of section 144.”

¹⁶⁹ 42 U.S.C. 2163.

¹⁷⁰ Sec. 14 of Public Law 84-1006 (70 Stat. 1069) added the words “or any other person authorized access to Restricted Data by the Commission under subsection 145 b.”. Sec. 5 of Public Law 87-206 (75 Stat. 475) deleted the words “subsection 145 b.” and substituted in lieu thereof “subsections 145 b. and 145 c.”.

- (2) the training of personnel in the employment of and defense against atomic weapons; and other military applications of atomic energy;
- (3) the evaluation of the capabilities of potential enemies in the employment of atomic weapons and other military applications of atomic energy; and

“SEC. 3154. PROHIBITION ON INTERNATIONAL INSPECTIONS OF DEPARTMENT OF ENERGY FACILITIES UNLESS PROTECTION OF RESTRICTED DATA IS CERTIFIED.

“(a) PROHIBITION ON INSPECTIONS.—(1) The Secretary of Energy may not allow an inspection of a nuclear weapons facility by the International Atomic Energy Agency until the Secretary certifies to Congress that no restricted data will be revealed during such inspection.

“(2) For purposes of paragraph (1), the term ‘restricted data’ has the meaning provided by section 11 y. of the Atomic Energy Act of 1954 (42 U.S.C. 2014(y)).”

(4) the development of compatible delivery systems for atomic weapons;
whenever the President determines that the proposed cooperation and the proposed communication of the Restricted Data will promote and will not constitute an unreasonable risk to the common defense and security, while such other nation or organization is participating with the United States pursuant to an international arrangement by substantial and material contributions to the mutual defense and security: *Provided, however,* That the cooperation is undertaken pursuant to an agreement entered into in accordance with section 123.

c.¹⁷⁴ In addition to the cooperation authorized in subsections 144 a. and 144 b., the President may authorize the Commission, with the assistance of the Department of Defense, to cooperate with another nation and—

e.¹⁸² The Secretary shall prepare on a quarterly basis a report to be made available upon the request of any interested person, detailing the Secretary's application during that period of each regulation or order prescribed or issued under this section. In particular, such report shall—

(1) identify any information protected from disclosure pursuant to such regulation or order;

(2) specifically state the Secretary's justification for determining that unauthorized dissemination of the information protected from disclosure under such regulation or order could reasonably be expected to have a significant adverse effect on the health and safety of the public or the common defense and security by significantly increasing the likelihood of illegal production of nuclear weapons, or theft, diversion, or sabotage of nuclear materials, equipment, or facilities, as specified under subsection a.; and

(3) provide justification that the Secretary has applied such regulation or order so as to protect from disclosure only the minimum amount of information necessary to protect the health and safety of the public or the common defense and security.

Hyde United States-India Peaceful Atomic Energy Cooperation Act of 2006; H.R. 5682], 120 Stat. 2726, approved December 18, 2006; as amended by Public Law 110-369 [United States-India Nuclear Cooperation Approval and Nonproliferation Enhancement Act; H.R. 7081], 122 Stat. 4028, approved October 8, 2008

AN ACT To exempt from certain requirements of the Atomic Energy Act of 1954 a proposed nuclear agreement for cooperation with India.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—UNITED STATES AND INDIA NUCLEAR COOPERATION

SEC. 101.¹ SHORT TITLE.

This title may be cited as the “Henry J. Hyde United States-India Peaceful Atomic Energy Cooperation Act of 2006”.

SEC. 102.² SENSE OF CONGRESS.

It is the sense of Congress that—

(1) preventing the proliferation of nuclear weapons, other weapons of mass destruction, the means to produce them, and the means to deliver them are critical objectives for United States foreign policy;

(2) sustaining the Nuclear Non-Proliferation Treaty (NPT) and strengthening its implementation, particularly its verification and compliance, is the keystone of United States nonproliferation policy;

(3) the NPT has been a significant success in preventing the acquisition of nuclear weapons capabilities and maintaining a stable international security situation;

(4) countries that have never become a party to the NPT and remain outside that treaty’s legal regime pose a potential challenge to the achievement of the overall goals of global nonproliferation, because those countries have not undertaken the NPT obligation to prohibit the spread of nuclear weapons capabilities;

(5) it is in the interest of the United States to the fullest extent possible to ensure that those countries that are not States Party to the NPT are responsible in the disposition of any nuclear technology they develop;

(6) it is in the interest of the United States to enter into an agreement for nuclear cooperation arranged pursuant to section 123 of the Atomic Energy Act of 1954 (42 U.S.C. 2153)

¹22 U.S.C. 8001 note.

²22 U.S.C. 8001.

with a country that has never been a State Party to the NPT if—

(A) the country has demonstrated responsible behavior with respect to the nonproliferation of technology related to nuclear weapons and the means to deliver them;

(B) the country has a functioning and uninterrupted democratic system of government, has a foreign policy that is congruent to that of the United States, and is working with the United States on key foreign policy initiatives related to nonproliferation;

(C) such cooperation induces the country to promulgate and implement substantially improved protections against the proliferation of technology related to nuclear weapons and the means to deliver them, and to refrain from actions that would further the development of its nuclear weapons program; and

(D) such cooperation will induce the country to give greater political and material support to the achievement of United States global and regional nonproliferation objectives, especially with respect to dissuading, isolating, and, if necessary, sanctioning and containing states that sponsor terrorism and terrorist groups that are seeking to acquire a nuclear weapons capability or other weapons of mass destruction capability and the means to deliver such weapons;

(7) the United States should continue its policy of engagement, collaboration, and exchanges with and between India and Pakistan;

(8) strong bilateral relations with India are in the national interest of the United States;

(9) the United States and India share common democratic values and the potential for increasing and sustained economic engagement;

(10) commerce in civil nuclear energy with India by the United States and other countries has the potential to benefit the people of all countries;

(11) such commerce also represents a significant change in United States policy regarding commerce with countries that are not States Party to the NPT, which remains the foundation of the international nonproliferation regime;

(12) any commerce in civil nuclear energy with India by the United States and other countries must be achieved in a manner that minimizes the risk of nuclear proliferation or regional arms races and maximizes India's adherence to international nonproliferation regimes, including, in particular, the guidelines of the Nuclear Suppliers Group (NSG); and

(13) the United States should not seek to facilitate or encourage the continuation of nuclear exports to India by any other party if such exports are terminated under United States law.

SEC. 103.³ STATEMENTS OF POLICY.

(a) **IN GENERAL.**—The following shall be the policies of the United States:

(1) Oppose the development of a capability to produce nuclear weapons by any non-nuclear weapon state, within or outside of the NPT.

(2) Encourage States Party to the NPT to interpret the right to “develop research, production and use of nuclear energy for peaceful purposes”, as set forth in Article IV of the NPT, as being a right that applies only to the extent that it is consistent with the object and purpose of the NPT to prevent the spread of nuclear weapons and nuclear weapons capabilities, including by refraining from all nuclear cooperation with any State Party that the International Atomic Energy Agency (IAEA) determines is not in full compliance with its NPT obligations, including its safeguards obligations.

(3) Act in a manner fully consistent with the Guidelines for Nuclear Transfers and the Guidelines for Transfers of Nuclear-Related Dual-Use Equipment, Materials, Software and Related Technology developed by the NSG, and decisions related to the those guidelines, and the rules and practices regarding NSG decisionmaking.

(4) Strengthen the NSG guidelines and decisions concerning consultation by members regarding violations of supplier and recipient understandings by instituting the practice of a timely and coordinated response by NSG members to all such violations, including termination of nuclear transfers to an involved recipient, that discourages individual NSG members from continuing cooperation with such recipient until such time as a consensus regarding a coordinated response has been achieved.

(5) Given the special sensitivity of equipment and technologies related to the enrichment of uranium, the reprocessing of spent nuclear fuel, and the production of heavy water, work with members of the NSG, individually and collectively, to further restrict the transfers of such equipment and technologies, including to India.

(6) Seek to prevent the transfer to a country of nuclear equipment, materials, or technology from other participating governments in the NSG or from any other source if nuclear transfers to that country are suspended or terminated pursuant to this title, the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.), or any other United States law.

(b) **WITH RESPECT TO SOUTH ASIA.**—The following shall be the policies of the United States with respect to South Asia:

(1) Achieve, at the earliest possible date, a moratorium on the production of fissile material for nuclear explosive purposes by India, Pakistan, and the People’s Republic of China.

(2) Achieve, at the earliest possible date, the conclusion and implementation of a treaty banning the production of fissile material for nuclear weapons to which both the United States and India become parties.

(3) Secure India’s—

³ 22 U.S.C. 8002.

 - (B) formal commitment to the Statement of Interdiction Principles of such Initiative;
 - (C) public announcement of its decision to conform its export control laws, regulations, and policies with the Australia Group and with the Guidelines, Procedures, Criteria, and Control Lists of the Wassenaar Arrangement;
 - (D) demonstration of satisfactory progress toward implementing the decision described in subparagraph (C); and
 - (E) ratification of or accession to the Convention on Supplementary Compensation for Nuclear Damage, done at Vienna on September 12, 1997.
- (4) Secure India's full and active participation in United States efforts to dissuade, isolate, and, if necessary, sanction and contain Iran for its efforts to acquire weapons of mass destruction, including a nuclear weapons capability and the capability to enrich uranium or reprocess nuclear fuel, and the means to deliver weapons of mass destruction.
- (5) Seek to halt the increase of nuclear weapon arsenals in South Asia and to promote their reduction and eventual elimination.
- (6) Ensure that spent fuel generated in India's civilian nuclear power reactors is not transferred to the United States except pursuant to the Congressional review procedures required under section 131 f. of the Atomic Energy Act of 1954 (42 U.S.C. 2160 (f)).
- (7) Pending implementation of the multilateral moratorium described in paragraph (1) or the treaty described in paragraph (2), encourage India not to increase its production of fissile material at unsafeguarded nuclear facilities.
- (8) Ensure that any safeguards agreement or Additional Protocol to which India is a party with the IAEA can reliably safeguard any export or reexport to India of any nuclear materials and equipment.
- (9) Ensure that the text and implementation of any agreement for cooperation with India arranged pursuant to section 123 of the Atomic Energy Act of 1954 (42 U.S.C. 2153) meet the requirements set forth in subsections a.(1) and a.(3) through a.(9) of such section.
- (10) Any nuclear power reactor fuel reserve provided to the Government of India for use in safeguarded civilian nuclear facilities should be commensurate with reasonable reactor operating requirements.

SEC. 104.⁴ WAIVER AUTHORITY AND CONGRESSIONAL APPROVAL.

(a) IN GENERAL.—If the President makes the determination described in subsection (b), the President may—

- (1) exempt a proposed agreement for cooperation with India arranged pursuant to section 123 of the Atomic Energy Act of 1954 (42 U.S.C. 2153) from the requirement of subsection a.(2) of such section;

(3) TERMINATION OF NUCLEAR TRANSFERS TO INDIA.—

(A) IN GENERAL.—Notwithstanding the entry into force of an agreement for cooperation with India arranged pursuant to section 123 of the Atomic Energy Act of 1954 (42 U.S.C. 2153) and pursuant to this title, and except as provided under subparagraph (B), exports of nuclear and nuclear-related material, equipment, or technology to India shall be terminated if there is any materially significant transfer by an Indian person of—

(i) nuclear or nuclear-related material, equipment, or technology that is not consistent with NSG guidelines or decisions, or

(C) more than 800,000 separative work units contained in low-enriched uranium transferred under this subsection in any calendar year.

(d) INVENTORY SALES.—(1) In addition to the transfers authorized under subsections (c) and (e), the Secretary may, from time to time, sell natural and low-enriched uranium (including low-enriched uranium derived from highly enriched uranium) from the Department of Energy's stockpile.

(2) Except as provided in subsections (b), (c), and (e), no sale or transfer of natural or low-enriched uranium shall be made unless—

(A) the President determines that the material is not necessary for national security needs,

(B) the Secretary determines that the sale of the material will not have an adverse material impact on the domestic uranium mining, conversion, or enrichment industry, taking into account the sales of uranium under the Russian HEU Agreement and the Suspension Agreement, and

(C) the price paid to the Secretary will not be less than the fair market value of the material.

(e) GOVERNMENT TRANSFERS.—Notwithstanding subsection (d)(2), the Secretary may transfer or sell enriched uranium—

(d) The guarantee by the manufacturer shall be as favorable as any other guarantee offered by the manufacturer for any comparable fuel element within a reasonable time period; and

⁴ Formerly at 42 U.S.C. 2293, now omitted. The U.S. Code no longer includes sec. 4 as it pertained to contracts that expired no later than December 31, 1975.

⁵ Agreement Relating to Programs for Peaceful Applications of Atomic Energy. Signed at Brussels, May 29, 1958, and at Washington, June 18, 1958. Entered into force, August 27, 1958. 9 UST 1116; TIAS 4091; 335 UNTS 161.

The Senate approved the 1958 agreement by Senate Concurrent Resolution 116, 85th Congress, 2d session, adopted August 23, 1958; and extended annually from 1980 through early 1996, most recently by Executive Order 12955 (60 F.R. 13365; March 10, 1995; 42 U.S.C. 2155 note).

The requirement for extension was obviated when a new Agreement for Cooperation in the Peaceful Uses of Nuclear Energy Between the United States of America and the European Atomic Energy Community (EURATOM) was successfully negotiated between the two parties in 1995. The new agreement was ordered executed by Presidential Determination No. 96-4 of November 1, 1995 (60 F.R. 56931; November 13, 1995), signed in Brussels, November 7, 1995 and March 29, 1996, and entered into force on April 12, 1996.

SEC. 3126. SENSE OF CONGRESS ON THE NUCLEAR NON-PROLIFERATION POLICY OF THE UNITED STATES AND THE RELIABLE REPLACEMENT WARHEAD PROGRAM.

It is the sense of Congress that—

(1) the United States should maintain its commitment to Article VI of the Treaty on the Non-Proliferation of Nuclear Weapons, done at Washington, London, and Moscow July 1, 1968, and entered into force March 5, 1970 (in this section referred to as the “Nuclear Non-Proliferation Treaty”);

(2) the United States should initiate talks with Russia to reduce the number of nonstrategic nuclear weapons and further reduce the number of strategic nuclear weapons in the respective nuclear weapons stockpiles of the United States and Russia in a transparent and verifiable fashion and in a manner consistent with the security of the United States;

(3) the United States and other declared nuclear weapons state parties to the Nuclear Non-Proliferation Treaty, together with weapons states that are not parties to the Treaty, should work to reduce the total number of nuclear weapons in the respective stockpiles and related delivery systems of such states;

(4) the United States, Russia, and other states should work to negotiate, and then sign and ratify, a treaty setting forth a date for the cessation of the production of fissile material;

(5) the United States should sustain the science-based stockpile stewardship program, which provides the basis for certifying the United States nuclear deterrent and maintaining the moratorium on underground nuclear weapons testing;

(6) the United States should commit to dismantle as soon as possible all retired warheads or warheads that are planned to be retired from the United States nuclear weapons stockpile;

(7) the United States, along with the other declared nuclear weapons state parties to the Nuclear Non-Proliferation Treaty, should participate in transparent discussions regarding their nuclear weapons programs and plans, including plans for any new weapons or warheads, and how such programs and plans relate to their obligations as nuclear weapons state parties under the Treaty;

(8) the United States and the declared nuclear weapons state parties to the Nuclear Non-Proliferation Treaty should work to decrease reliance on, and the importance of, nuclear weapons; and

Subtitle D—Nuclear Terrorism Prevention

SEC. 3131.¹ DEFINITIONS.

In this subtitle:

(1) The term “Convention on the Physical Protection of Nuclear Material” means the Convention on the Physical Protection of Nuclear Material, signed at New York and Vienna March 3, 1980.

(2) The term “formula quantities of strategic special nuclear material” means uranium–235 (contained in uranium enriched to 20 percent or more in the U–235 isotope), uranium–233, or plutonium in any combination in a total quantity of 5,000 grams or more computed by the formula, grams = (grams contained U–235) + 2.5 (grams U–233 + grams plutonium), as set forth in the definitions of “formula quantity” and “strategic special nuclear material” in section 73.2 of title 10, Code of Federal Regulations.

(3) The term “Nuclear Non-Proliferation Treaty” means the Treaty on the Non-Proliferation of Nuclear Weapons, done at Washington, London, and Moscow July 1, 1968, and entered into force March 5, 1970 (21 UST 483).

¹ 22 U.S.C. 3244 note.

(4) The term “nuclear weapon” means any device utilizing atomic energy, exclusive of the means for transporting or propelling the device (where such means is a separable and divisible part of the device), the principal purpose of which is for use as, or for the development of, a weapon, a weapon prototype, or a weapon test device.

SEC. 3132.¹ SENSE OF CONGRESS ON THE PREVENTION OF NUCLEAR TERRORISM.

It is the sense of Congress that—

(1) the President should make the prevention of a nuclear terrorist attack on the United States a high priority;

(2) the President should accelerate programs, requesting additional funding as appropriate, to prevent nuclear terrorism, including combating nuclear smuggling, securing and accounting for nuclear weapons, and eliminating, removing, or securing and accounting for formula quantities of strategic special nuclear material wherever such quantities may be;

(3) the United States, together with the international community, should take a comprehensive approach to reducing the danger of nuclear terrorism, including by making additional efforts to identify and eliminate terrorist groups that aim to acquire nuclear weapons, to ensure that nuclear weapons worldwide are secure and accounted for and that formula quantities of strategic special nuclear material worldwide are eliminated, removed, or secure and accounted for to a degree sufficient to defeat the threat that terrorists and criminals have shown they can pose, and to increase the ability to find and stop terrorist efforts to manufacture nuclear explosives or to transport nuclear explosives and materials anywhere in the world;

(4) within such a comprehensive approach, a high priority must be placed on ensuring that all nuclear weapons worldwide are secure and accounted for and that all formula quantities of strategic special nuclear material worldwide are eliminated, removed, or secure and accounted for; and

(5) the International Atomic Energy Agency should be funded appropriately to fulfill its role in coordinating international efforts to protect nuclear material and to combat nuclear smuggling.

SEC. 3133.¹ MINIMUM SECURITY STANDARD FOR NUCLEAR WEAPONS AND FORMULA QUANTITIES OF STRATEGIC SPECIAL NUCLEAR MATERIAL.

(a) **POLICY.**—It is the policy of the United States to work with the international community to take all possible steps to ensure that all nuclear weapons around the world are secure and accounted for and that all formula quantities of strategic special nuclear material are eliminated, removed, or secure and accounted for to a level sufficient to defeat the threats posed by terrorists and criminals.

(b) **INTERNATIONAL NUCLEAR SECURITY STANDARD.**—It is the sense of Congress that, in furtherance of the policy described in subsection (a), and consistent with the requirement for “appropriate effective” physical protection contained in United Nations Security Council Resolution 1540 (2004), as well as the Nuclear

Non-Proliferation Treaty and the Convention on the Physical Protection of Nuclear Material, the President, in consultation with relevant Federal departments and agencies, should seek the broadest possible international agreement on a global standard for nuclear security that—

- (2) takes into account the limitations of equipment and human performance; and
- (3) includes steps to provide confidence that the needed measures have in fact been implemented.

(c) INTERNATIONAL EFFORTS.—It is the sense of Congress that, in furtherance of the policy described in subsection (a), the President, in consultation with relevant Federal departments and agencies, should—

- (1) work with other countries and the International Atomic Energy Agency to assist as appropriate, and if necessary work to convince, the governments of any and all countries in possession of nuclear weapons or formula quantities of strategic special nuclear material to ensure that security is upgraded to meet the standard described in subsection (b) as rapidly as possible and in a manner that—

(A) accounts for the nature of the terrorist and criminal threat in each such country; and

(B) ensures that any measures to which the United States and any such country agree are sustained after United States and other international assistance ends;

- (2) ensure that United States financial and technical assistance is available, as appropriate, to countries for which the provision of such assistance would accelerate the implementation of, or improve the effectiveness of, such security upgrades; and

- (3) work with the governments of other countries to ensure that effective nuclear security rules, accompanied by effective regulation and enforcement, are put in place to govern all nuclear weapons and formula quantities of strategic special nuclear material around the world.

SEC. 3134.¹ ANNUAL REPORT.

(a) IN GENERAL.—Not later than September 1 of each year through 2012, the President, in consultation with relevant Federal departments and agencies, shall submit to Congress a report on the security of nuclear weapons and related equipment and formula quantities of strategic special nuclear material outside of the United States.

- (A) A survey of the facilities and sites worldwide that contain nuclear weapons or related equipment, or formula quantities of strategic special nuclear material.
 - (B) A list of such facilities and sites determined to be of the highest priority for security and accounting of nuclear weapons and related equipment, or the elimination, removal, or security and accounting of formula quantities of strategic special nuclear material, taking into account risk of theft from such facilities and sites, and organized by level of priority.
 - (C) A prioritized plan, including measurable milestones, metrics, estimated timetables, and estimated costs of implementation, on the following:
 - (i) The security and accounting of nuclear weapons and related equipment and the elimination, removal, or security and accounting of formula quantities of strategic special nuclear material at such facilities and sites worldwide.
 - (ii) Ensuring that security upgrades and accounting reforms implemented at such facilities and sites worldwide, using the financial and technical assistance of the United States, are effectively sustained after such assistance ends.
 - (iii) The role that international agencies and the international community have committed to play, together with a plan for securing international contributions.
 - (D) An assessment of the progress made in implementing the plan described in subparagraph (C), including a description of the efforts of foreign governments to secure and account for nuclear weapons and related equipment and to eliminate, remove, or secure and account for formula quantities of strategic special nuclear material.

Subtitle C—Chemical Demilitarization Program

**SEC. 921. SENSE OF CONGRESS ON COMPLETION OF DESTRUCTION OF
UNITED STATES CHEMICAL WEAPONS STOCKPILE.**

(a) FINDINGS.—Congress makes the following findings:

(1) The Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction, done at Paris on January 13, 1993 (commonly referred to as the “Chemical Weapons Convention”), requires that destruction of the entire United States chemical weapons stockpile be completed by no later than the extended deadline of April 29, 2012.

(2) On April 10, 2006, the Department of Defense notified Congress that the United States would not meet even the extended deadline under the Chemical Weapons Convention for destruction of the United States chemical weapons stockpile.

(3) Destroying existing chemical weapons is a homeland security imperative and an arms control priority and is required by United States law.

(4) The elimination and nonproliferation of chemical weapons of mass destruction is of utmost importance to the national security of the United States.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the United States is committed to making every effort to safely dispose of its entire chemical weapons stockpile by the Chemical Weapons Convention extended deadline of April 29, 2012, or as soon thereafter as possible, and will carry out all of its other obligations under that Convention;

(2) to prevent further delays in completing the destruction of the United States chemical weapons stockpile, the Secretary of Defense should prepare a comprehensive schedule for the safe destruction of such stockpile and should annually submit that schedule (as currently in effect) to the congressional defense committees, either separately or as part of another required report, until such destruction is completed;

(3) the Secretary of Defense should make every effort to ensure adequate funding to complete the elimination of the United States chemical weapons stockpile in the shortest time possible, consistent with the requirement to protect public health, safety, and the environment; and

(4) when selecting a site for the treatment or disposal of neutralized chemical agent at a location remote from the location where the agent is stored, the Secretary of Defense should propose a credible process that seeks to gain the support of affected communities.

(4) The Secretary’s assessment of Russia’s nuclear force posture under START III compared to its present force, including its size, vulnerability, and capability for launch on tactical warning, and an assessment of whether strategic stability would be enhanced or diminished under START III, including any stabilizing and destabilizing factors and possible incentives or disincentives for Russia to launch a first strike, or otherwise use nuclear weapons, against the United States in a possible future crisis.

(5) The Secretary’s assessment of the nuclear weapon capabilities of China and other potential nuclear weapon “rogue” states in the foreseeable future, and an assessment of the effect of these capabilities on strategic stability, including their ability and inclination to use nuclear weapons against the United States in a possible future crisis.

Subtitle A—Arms Control Matters

SEC. 1501. ONE-YEAR EXTENSION OF LIMITATION ON RETIREMENT OR DISMANTLEMENT OF STRATEGIC NUCLEAR DELIVERY SYSTEMS.

Section 1302 of the National Defense Authorization Act for Fiscal Year 1998 (Public Law 105-85; 111 Stat. 1948) is amended—* * *

SEC. 1502.¹ TRANSMISSION OF EXECUTIVE BRANCH REPORTS PROVIDING CONGRESS WITH CLASSIFIED SUMMARIES OF ARMS CONTROL DEVELOPMENTS.

(a) REPORTING REQUIREMENT.—The Director of the Arms Control and Disarmament Agency (or the Secretary of State, if the Arms

¹ 22 U.S.C. 2593a note.

Control and Disarmament Agency becomes an element of the Department of State) shall transmit to the Committee on Armed Services² of the House of Representatives on a periodic basis reports containing classified summaries of arms control developments.

(b) CONTENTS OF REPORTS.—The reports required by subsection (a) shall include information reflecting the activities of forums established to consider issues relating to treaty implementation and treaty compliance.

SEC. 1503. REPORT ON ADEQUACY OF EMERGENCY COMMUNICATIONS CAPABILITIES BETWEEN UNITED STATES AND RUSSIA.

Not later than 3 months after the date of the enactment of this Act, the Secretary of Defense shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report on the status and adequacy of current direct communications capabilities between the governments of the United States and Russia. The report shall identify each existing direct communications link between those governments and each such link that is designed to be used, or is available to be used, in an emergency situation. The Secretary shall describe in the report any shortcomings with the existing communications capabilities and shall include such proposals as the Secretary considers appropriate to improve those capabilities. In considering improvements to propose, the Secretary shall assess the feasibility and desirability of establishing a direct communications link between the commanders of appropriate United States unified and specified commands, including the United States Space Command and the United States Strategic Command, and their Russian counterparts.

SEC. 1504. RUSSIAN NONSTRATEGIC NUCLEAR WEAPONS.

(a) FINDINGS.—The Congress makes the following findings:

(1) The 7,000 to 12,000 or more nonstrategic (or “tactical”) nuclear weapons estimated by the United States Strategic Command to be in the Russian arsenal may present the greatest threat of sale or theft of a nuclear warhead in the world today.

(2) As the number of deployed strategic warheads in the Russian and United States arsenals declines to just a few thousand under the START accords, Russia’s vast superiority in tactical nuclear warheads—many of which have yields equivalent to strategic nuclear weapons—could become strategically destabilizing.

(3) While the United States has unilaterally reduced its inventory of tactical nuclear weapons by nearly 90 percent since the end of the Cold War, Russia is behind schedule in implementing the steep tactical nuclear arms reductions pledged by former Soviet President Gorbachev in 1991 and Russian President Yeltsin in 1992, perpetuating the dangers from Russia’s tactical nuclear stockpile.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the President should call on Russia to expedite reduction of its tactical

nuclear arsenal in accordance with the promises made in 1991 and 1992.

(c) REPORT.—Not later than March 15, 1999, the Secretary of Defense shall submit to Congress a report on the nonstrategic nuclear weapons of Russia. The report shall include—

(1) estimates regarding the current numbers, types, yields, viability, and locations of those weapons;

(2) an assessment of the strategic implications of Russia's nonstrategic arsenal, including the potential use of those weapons in a strategic role or the use of their components in strategic nuclear systems and the potential of Russian superiority in tactical nuclear weapons to destabilize the overall nuclear balance as strategic nuclear weapons are sharply reduced under the START accords;

(3) an assessment of the extent of the current threat of theft, sale, or unauthorized use of the warheads of those weapons, including an analysis of Russian command and control as it concerns the use of tactical nuclear weapons;

(4) a summary of past, current, and planned efforts to work cooperatively with Russia to account for, secure, and reduce Russia's stockpile of tactical nuclear weapons and associated fissile material;

(5) a summary of how the United States would prevent, or plans to cope militarily with, scenarios in which a deterioration in relations with Moscow causes Russia to redeploy tactical nuclear weapons or in which Russia threatens to employ, or actually employs, tactical nuclear weapons in a local or regional conflict involving the United States or allies of the United States; and

(6) an assessment of the steps that could be taken by the United States to enhance military preparedness in order (A) to deter any potential attempt by Russia to possibly exploit its advantage in tactical nuclear weapons through coercive "nuclear diplomacy" or on the battlefield, or (B) to counter Russia if Russia should make such an attempt to exploit its advantage in tactical nuclear weapons.

(d) VIEWS.—The Secretary of Defense shall include in the report under subsection (c) the views of the Director of Central Intelligence and of the commander of the United States Strategic Command.

Subtitle B—Satellite Export Controls

SEC. 1511.³ SENSE OF CONGRESS.

It is the sense of Congress that—

(1) United States business interests must not be placed above United States national security interests;

(2) United States foreign policy and the policies of the United States regarding commercial relations with other countries should affirm the importance of observing and adhering to the Missile Technology Control Regime (MTCR);

³ 22 U.S.C. 2778 note.

(3) the United States should encourage universal observance of the Guidelines to the Missile Technology Control Regime;

(4) the exportation or transfer of advanced communication satellites and related technologies from United States sources to foreign recipients should not increase the risks to the national security of the United States;

(5) due to the military sensitivity of the technologies involved, it is in the national security interests of the United States that United States satellites and related items be subject to the same export controls that apply under United States law and practices to munitions;

(6) the United States should not issue any blanket waiver of the suspensions contained in section 902 of the Foreign Relations Authorization Act, Fiscal Years 1990 and 1991 (Public Law 101-246), regarding the export of satellites of United States origin intended for launch from a launch vehicle owned by the People's Republic of China;

(7) the United States should pursue policies that protect and enhance the United States space launch industry; and

(8) the United States should not export to the People's Republic of China missile equipment or technology that would improve the missile or space launch capabilities of the People's Republic of China.

SEC. 1512.⁴ CERTIFICATION OF EXPORTS OF MISSILE EQUIPMENT OR TECHNOLOGY TO CHINA.

(a)⁵ CERTIFICATION.—The President shall certify to the Congress at least 15 days in advance of any export to the People's Republic of China of missile equipment or technology (as defined in section 74 of the Arms Export Control Act (22 U.S.C. 2797c)) that—

(1) such export is not detrimental to the United States space launch industry; and

(2) the missile equipment or technology, including any indirect technical benefit that could be derived from such export, will not measurably improve the missile or space launch capabilities of the People's Republic of China.

(b)⁵ EXCEPTION.—The certification requirement contained in subsection (a) shall not apply to the export of inertial reference units and components in manned civilian aircraft or supplied as spare or replacement parts for such aircraft.

SEC. 1513.⁶ SATELLITE CONTROLS UNDER THE UNITED STATES MUNITIONS LIST.

(a) CONTROL OF SATELLITES ON THE UNITED STATES MUNITIONS LIST.—Notwithstanding any other provision of law, all satellites and related items that are on the Commerce Control List of dual-use items in the Export Administration Regulations (15 CFR part

(c) EFFECTIVE DATE.—(1) Subsection (a) shall take effect on March 15, 1999, and shall not apply to any export license issued before such effective date or to any export license application made under the Export Administration Regulations before such effective date.

(2) The amendments made by subsection (b) shall be effective as of October 1, 1998.

(d) REPORT.—Not later than January 1, 1999, the Secretary of State, in consultation with the Secretary of Defense and the Secretary of Commerce, shall submit to Congress a report containing—

(1) a detailed description of the plans of the Department of State to implement the requirements of this section, including any organizational changes that are required and any Executive orders or regulations that may be required;

(2) an identification and explanation of any steps that should be taken to improve the license review process for exports of the satellites and related items described in subsection (a), including measures to shorten the timelines for license application reviews, and any measures relating to the transparency of the license review process and dispute resolution procedures;

(3) an evaluation of the adequacy of resources available to the Department of State, including fiscal and personnel resources, to carry out the additional activities required by this section; and

(4) any recommendations for additional actions, including possible legislation, to improve the export licensing process under the Arms Export Control Act for the satellites and related items described in subsection (a).

RUSSIAN STRATEGIC MISSILES.**

(a) **REQUIRED REPORT.**—Not later than January 1, 1998, the President shall submit to Congress a report concerning detargeting of Russian strategic missiles. The report shall address each of the following:

(1) Whether a Russian ICBM that was formerly, but is no longer, targeted at a site in the United States would be automatically retargeted at a site in the United States in the event of the accidental launch of the missile.

(2) Whether missile detargeting would prevent or significantly reduce the possibility of an unauthorized missile launch carried out by the Russian General Staff and prevent or significantly reduce the consequences to the United States of such a launch.

(3) Whether missile detargeting would pose a significant obstacle to an unauthorized launch carried out by an operational level below the Russian General Staff if missile operators at such an operational level acquired missile launch codes or had the technical expertise to override missile launch codes.

(4) The plausibility of an accidental launch of a Russian ICBM, compared to the possibility of a deliberate missile launch, authorized or unauthorized, resulting from Russian miscalculation, overreaction, or aggression.

(5) The national security benefits derived from detargeting United States and Russian ICBMs.

(6) The relative consequences to the United States of an unauthorized or accidental launch of a Russian ICBM that has been detargeted and one that has not been detargeted.

(A) That the effectiveness of the United States strategic deterrent will not be decreased by reductions in strategic nuclear delivery systems.

(B) That the requirements of the Single Integrated Operational Plan can be met with a reduced number of strategic nuclear delivery systems.

(C) That reducing the number of strategic nuclear delivery systems will not, in the judgment of the President, provide a disincentive for Russia to ratify the START II treaty or serve to undermine future arms control negotiations.

(D) That the United States will retain the ability to increase the delivery capacity of its strategic nuclear delivery systems

¹Sec. 1501 of the National Defense Authorization Act for Fiscal Year 2000 (Public Law 106-65; 113 Stat. 806) amended and restated subsecs. (a) and (b). (B) That the agreement will require early deactivations of strategic forces by the United States to be carried out substantially more rapidly than deactivations of strategic forces by Russia.

(C) That the proposed early deactivations will adversely affect strategic stability.

(2) The limitation in paragraph (1), if effective by reason of a determination by the President described in paragraph (1)(B), shall cease to apply 30 days after the date on which the President notifies Congress that the early deactivations under the agreement are in the national interest of the United States.

States National Authority may provide such reimbursement from amounts available to it. Any such reimbursement shall be credited to amounts available for the On-Site Inspection Agency.

(c) DEFINITIONS.—In this section:

(1) The terms “Chemical Weapons Convention” and “Convention” mean the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction, ratified by the United States on April 25, 1997, and entered into force on April 29, 1997.

SEC. 1304. TRANSFERS OF AUTHORIZATIONS FOR HIGH-PRIORITY COUNTERPROLIFERATION PROGRAMS.

(a) AUTHORITY.—(1) Subject to paragraph (2), the Secretary of Defense may transfer amounts of authorizations made available to the Department of Defense in this division for fiscal year 1998 to any counterproliferation program, project, or activity described in subsection (b).

(2) A transfer of authorizations may be made under this section only upon determination by the Secretary of Defense that such action is necessary in the national interest.

(3) Amounts of authorizations so transferred shall be merged with and be available for the same purposes as the authorization to which transferred.

(b) PROGRAMS TO WHICH TRANSFERS MAY BE MADE.—The authority under subsection (a) applies to any counterproliferation program, project, or activity of the Department of Defense identified as an area for progress in the most recent annual report of the Counterproliferation Program Review Committee established by section 1605 of the National Defense Authorization Act for Fiscal Year 1994 (22 U.S.C. 2751 note).

(e) CONSTRUCTION WITH GENERAL TRANSFER AUTHORITY.—The authority provided by this section is in addition to the transfer authority provided in section 1001.

SEC. 1305.⁹ ADVICE TO THE PRESIDENT AND CONGRESS REGARDING THE SAFETY, SECURITY, AND RELIABILITY OF UNITED STATES NUCLEAR WEAPONS STOCKPILE.

(a) FINDINGS.—Congress makes the following findings:

(1) Nuclear weapons are the most destructive weapons on earth. The United States and its allies continue to rely on nuclear weapons to deter potential adversaries from using weapons of mass destruction. The safety and reliability of the nuclear weapons stockpile are essential to ensure its credibility as a deterrent.

(2) On September 24, 1996, President Clinton signed the Comprehensive Test Ban Treaty.

(3) Effective as of September 30, 1996, the United States is prohibited by section 507 of the Energy and Water Development Appropriations Act, 1993 (Public Law 102-377; 42 U.S.C. 2121 note) from conducting underground nuclear tests “unless a foreign state conducts a nuclear test after this date, at which time the prohibition on United States nuclear testing is lifted”.

(4) Section 1436(b) of the National Defense Authorization Act, Fiscal Year 1989 (Public Law 100-456; 42 U.S.C. 2121 note) requires the Secretary of Energy to “establish and support a program to assure that the United States is in a position to maintain the reliability, safety, and continued deterrent effect of its stockpile of existing nuclear weapons designs in the event that a low-threshold or comprehensive test ban on nuclear explosive testing is negotiated and ratified.”

(5) Section 3138(d) of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103-160; 42 U.S.C. 2121 note) required the President to submit an annual report to Congress which sets forth “any concerns with respect to the safety, security, effectiveness, or reliability of existing United States nuclear weapons raised by the Stockpile Stewardship Program of the Department of Energy”.

(6) President Clinton declared in July 1993 that “to assure that our nuclear deterrent remains unquestioned under a test ban, we will explore other means of maintaining our confidence in the safety, reliability, and the performance of our weapons”. This decision was incorporated in a Presidential Directive.

(7) Section 3138 of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103-160; 42 U.S.C. 2121 note) also requires that the Secretary of Energy establish a “stewardship program to ensure the preservation of the core intellectual and technical competencies of the United States in nuclear weapons”.

(8) The plan of the Department of Energy to maintain the safety and reliability of the United States nuclear weapons stockpile is known as the Stockpile Stewardship and Management Program. The ability of the United States to maintain and certify the safety, security, effectiveness, and reliability of the nuclear weapons stockpile without testing will require utilization of new and sophisticated computational capabilities and diagnostic technologies, methods, and procedures. Current

⁹ 42 U.S.C. 7274p.

diagnostic technologies and laboratory testing techniques are insufficient to certify the safety and reliability of the United States nuclear weapons stockpile into the future. Whereas in the past laboratory and diagnostic tools were used in conjunction with nuclear testing, in the future they will provide, under the Department of Energy's stockpile stewardship plan, the sole basis for assessing past test data and for making judgments on phenomena observed in connection with the aging of the stockpile.

(9) Section 3159 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 42 U.S.C. 7274o) requires that the directors of the nuclear weapons laboratories and the nuclear weapons production plants submit a report to the Assistant Secretary of Energy for Defense Programs if they identify a problem that has significant bearing on confidence in the safety or reliability of a nuclear weapon or nuclear weapon type, that the Assistant Secretary must transmit that report, along with any comments, to the congressional defense committees and to the Secretary of Energy and the Secretary of Defense, and that the Joint Nuclear Weapons Council advise Congress regarding its analysis of any such problems.

(10) On August 11, 1995, President Clinton directed "the establishment of a new annual reporting and certification requirement [to] ensure that our nuclear weapons remain safe and reliable under a comprehensive test ban".

(11) On the same day, the President noted that the Secretary of Defense and the Secretary of Energy have the responsibility, after being "advised by the Nuclear Weapons Council, the Directors of DOE's nuclear weapons laboratories, and the Commander of United States Strategic Command", to provide the President with the information regarding the certification referred to in paragraph (10).

(12) The Joint Nuclear Weapons Council established by section 179 of title 10, United States Code, is responsible for providing advice to the Secretary of Energy and the Secretary of Defense regarding nuclear weapons issues, including "considering safety, security, and control issues for existing weapons". The Council plays a critical role in advising Congress in matters relating to nuclear weapons.

(13) It is essential that the President receive well-informed, objective, and honest opinions, including dissenting views, from his advisers and technical experts regarding the safety, security, effectiveness, and reliability of the nuclear weapons stockpile.

(b) POLICY.—

(1) IN GENERAL.—It is the policy of the United States—

(A) to maintain a safe, secure, effective, and reliable nuclear weapons stockpile; and

(B) as long as other nations control or actively seek to acquire nuclear weapons, to retain a credible nuclear deterrent.

(2) NUCLEAR WEAPONS STOCKPILE.—It is in the security interest of the United States to sustain the United States nuclear weapons stockpile through a program of stockpile stewardship, carried out at the nuclear weapons laboratories and nuclear weapons production plants.

(3) SENSE OF CONGRESS.—It is the sense of Congress that—

(A) the United States should retain a triad of strategic nuclear forces sufficient to deter any future hostile foreign leadership with access to strategic nuclear forces from acting against the vital interests of the United States;

(B) the United States should continue to maintain nuclear forces of sufficient size and capability to implement an effective and robust deterrent strategy; and

(C) the advice of the persons required to provide the President and Congress with assurances of the safety, security, effectiveness, and reliability of the nuclear weapons force should be scientifically based, without regard for politics, and of the highest quality and integrity.

(c) ADDITION OF PRESIDENT TO RECIPIENTS OF REPORTS BY HEADS OF LABORATORIES AND PLANTS.—Section 3159(b) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 42 U.S.C. 7274o) is amended—* * *

(d) TEN-DAY TIME LIMIT FOR TRANSMITTAL OF REPORT.—Section 3159(b) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 42 U.S.C. 7274o) is amended * * *

(e) ADVICE AND OPINIONS REGARDING NUCLEAR WEAPONS STOCKPILE.—In addition to a director of a nuclear weapons laboratory or a nuclear weapons production plant (under section 3159 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 42 U.S.C. 7274o)), any member of the Joint Nuclear Weapons Council or the commander of the United States Strategic Command may also submit to the President, the Secretary of Defense, the Secretary of Energy, or the congressional defense committees advice or opinion regarding the safety, security, effectiveness, and reliability of the nuclear weapons stockpile.

(f) EXPRESSION OF INDIVIDUAL VIEWS.—A representative of the President may not take any action against, or otherwise constrain, a director of a nuclear weapons laboratory or a nuclear weapons production plant, a member of the Joint Nuclear Weapons Council, or the Commander of United States Strategic Command for presenting individual views to the President, the National Security Council, or Congress regarding the safety, security, effectiveness, and reliability of the nuclear weapons stockpile.

(g) DEFINITIONS.—In this section:

(1) The term “representative of the President” means the following:

(A) Any official of the Department of Defense or the Department of Energy who is appointed by the President and confirmed by the Senate.

(B) Any member of the National Security Council.

(C) Any member of the Joint Chiefs of Staff.

(D) Any official of the Office of Management and Budget.

(2) The term “nuclear weapons laboratory” means any of the following:

- (A) Lawrence Livermore National Laboratory, California.
- (B) Los Alamos National Laboratory, New Mexico.
- (C) Sandia National Laboratories.

(3) The term “nuclear weapons production plant” means any of the following:

- (A) The Pantex Plant, Texas.
- (B) The Savannah River Site, South Carolina.
- (C) The Kansas City Plant, Missouri.
- (D) The Y-12 Plant, Oak Ridge, Tennessee.

SEC. 1307. SENSE OF CONGRESS REGARDING THE RELATIONSHIP BETWEEN UNITED STATES OBLIGATIONS UNDER THE CHEMICAL WEAPONS CONVENTION AND ENVIRONMENTAL LAWS.

(a) FINDINGS.—Congress makes the following findings:

(1) The Chemical Weapons Convention requires the destruction of the United States stockpile of lethal chemical agents and munitions by April 29, 2007 (not later than 10 years after the Convention’s entry into force).

(2) The President has substantial authority under existing law to ensure that—

(A) the technologies necessary to destroy the stockpile are developed;

(B) the facilities necessary to destroy the stockpile are constructed; and

(C) Federal, State, and local environmental laws and regulations do not impair the ability of the United States to comply with its obligations under the Convention.

(3) The Comptroller General has concluded (in GAO Report NSIAD 97018 of February 1997) that—

(A) obtaining the necessary Federal and State permits that are required under Federal environmental laws and regulations for building and operating the chemical agents and munitions destruction facilities is among the most unpredictable factors in the chemical demilitarization program; and

(B) program cost and schedule are largely driven by the degree to which States and local communities are in agreement with proposed disposal methods and whether those methods meet environmental concerns.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the President—

(1) should use the authority of the President under existing law to ensure that the United States is able to construct and operate the facilities necessary to destroy the United States stockpile of lethal chemical agents and munitions within the time allowed by the Chemical Weapons Convention; and

(2) while carrying out the obligations of the United States under the Convention, should encourage negotiations between appropriate Federal officials and officials of the State and local governments concerned to attempt to meet their concerns regarding compliance with Federal and State environmental laws and regulations and other concerns about the actions being taken to carry out those obligations.

(c) **CHEMICAL WEAPONS CONVENTION DEFINED.**—For the purposes of this section, the terms “Chemical Weapons Convention” and “Convention” mean the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction, ratified by the United States on April 25, 1997, and entered into force on April 29, 1997.

SEC. 1309.¹⁰ ANNUAL REPORT ON MORATORIUM ON USE BY ARMED FORCES OF ANTIPERSONNEL LANDMINES.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The United States has stated its support for a ban on antipersonnel landmines that is global in scope and verifiable.

(2) On May 16, 1996, the President announced that the United States, as a matter of policy, would eliminate its stockpile of non-self-destructing antipersonnel landmines, except those used for training purposes and in Korea, and that the United States would reserve the right to use self-destructing antipersonnel landmines in the event of conflict.

(3) On May 16, 1996, the President also announced that the United States would lead an effort to negotiate an international treaty permanently banning the use of all antipersonnel landmines.

(4) The United States is currently participating at the United Nations Conference on Disarmament in negotiations aimed at achieving a global ban on the use of antipersonnel landmines.

(5) On August 18, 1997, the administration agreed to participate in international negotiations sponsored by Canada (the so-called “Ottawa process”) designed to achieve a treaty that would outlaw the production, use, and sale of antipersonnel landmines.

(6) On September 17, 1997, the President announced that the United States would not sign the antipersonnel landmine treaty concluded in Oslo, Norway, by participants in the Ottawa process because the treaty would not provide a geographic exception to allow the United States to stockpile and use antipersonnel landmines in Korea or an exemption that would preserve the ability of the United States to use mixed antitank mine systems which could be used to deter an armored assault against United States forces.

¹⁰ 10 U.S.C. 113 note.

(7) The President also announced a change in United States policy whereby the United States—

(A) would no longer deploy antipersonnel landmines, including self-destructing antipersonnel landmines, by 2003, except in Korea;

(B) would seek to field alternatives by that date, or by 2006 in the case of Korea;

(C) would undertake a new initiative in the United Nations Conference on Disarmament to establish a global ban on the transfer of antipersonnel landmines; and

(D) would increase its current humanitarian demining activities around the world.

(8) The President's decision would allow the continued use by United States forces of self-destructing antipersonnel landmines that are used as part of a mixed antitank mine system.

(9) Under existing law (as provided in section 580 of Public Law 104-107; 110 Stat. 751), on February 12, 1999, the United States will implement a one-year moratorium on the use of antipersonnel landmines by United States forces except along internationally recognized national borders or in demilitarized zones within a perimeter marked area that is monitored by military personnel and protected by adequate means to ensure the exclusion of civilians.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the United States should not implement a moratorium on the use of antipersonnel landmines by United States Armed Forces in a manner that would endanger United States personnel or undermine the military effectiveness of United States Armed Forces in executing their missions; and

(2) the United States should pursue the development of alternatives to self-destructing antipersonnel landmines.

(c) ANNUAL REPORT.—Not later than December 31 each year, the Secretary of Defense shall submit to the congressional defense committees a report concerning antipersonnel landmines. Each such report shall include the Secretary's description of the following:

(1) The military utility of the continued deployment and use by the United States of antipersonnel landmines.

(2) The effect of a moratorium on the production, stockpiling, and use of antipersonnel landmines on the ability of United States forces to deter and defend against attack on land by hostile forces, including on the Korean peninsula.

(3) Progress in developing and fielding systems that are effective substitutes for antipersonnel landmines, including an identification and description of the types of systems that are being developed and fielded, the costs associated with those systems, and the estimated timetable for developing and fielding those systems.

(4) The effect of a moratorium on the use of antipersonnel landmines on the military effectiveness of current antitank mine systems.

(5) The number and type of pure antipersonnel landmines that remain in the United States inventory and that are subject to elimination under the President's September 17, 1997, declaration on United States antipersonnel landmine policy.

(6) The number and type of mixed antitank mine systems that are in the United States inventory, the locations where they are deployed, and their effect on the deterrence and warfighting ability of United States Armed Forces.

(7) The effect of the elimination of pure antipersonnel landmines on the warfighting effectiveness of the United States Armed Forces.

(8) The costs already incurred and anticipated of eliminating antipersonnel landmines from the United States inventory in accordance with the policy enunciated by the President on September 17, 1997.

(9) The benefits that would result to United States military and civilian personnel from an international treaty banning the production, use, transfer, and stockpiling of antipersonnel landmines.

(c) FUNDING LIMITATION ON EARLY DEACTIVATION.—(1) If the limitation under paragraphs (2), (3), and (4) of subsection (a) ceases to apply by reason of a waiver under subsection (b), funds available to the Department of Defense may nevertheless not be obligated or expended during fiscal year 1997 to implement any agreement or understanding to undertake substantial early deactivation of a strategic nuclear delivery system specified in subsection (b) until 30 days after the date on which the President submits to Congress a report concerning such actions.

(2) For purposes of this subsection, a substantial early deactivation is an action during fiscal year 1997 to deactivate a substantial number of strategic nuclear delivery systems specified in subsection (b) by—

(A) removing nuclear warheads from those systems; or

(B) taking other steps to remove those systems from combat status.

(3) A report under this subsection shall include the following:

(A) The text of any understanding or agreement between the United States and the Russian Federation concerning substantial early deactivation of strategic nuclear delivery systems under the START II Treaty.

(B) The plan of the Department of Defense for implementing the agreement.

(C) An assessment of the Secretary of Defense of the adequacy of the provisions contained in the agreement for monitoring and verifying compliance of Russia with the terms of the agreement.

(D) A determination by the President as to whether the deactivations to occur under the agreement will be carried out in a symmetrical, reciprocal, or equivalent manner.

(E) An assessment by the President of the effect of the proposed early deactivation on the stability of the strategic balance and relative strategic nuclear capabilities of the United States and the Russian Federation at various stages during deactivation and upon completion.

(d) START II TREATY DEFINED.—For purposes of this section, the term “START II Treaty” means the Treaty Between the United States of America and the Russian Federation on Further Reduction and Limitation of Strategic Offensive Arms, signed at Moscow on January 3, 1993, including the following protocols and memorandum of understanding, all such documents being integral parts of and collectively referred to as the “START II Treaty” (contained in Treaty Document 103-1):

(1) The Protocol on Procedures Governing Elimination of Heavy ICBMs and on Procedures Governing Conversion of Silo Launchers of Heavy ICBMs Relating to the Treaty Between the United States of America and the Russian Federation on Further Reduction and Limitation of Strategic Offensive Arms (also known as the “Elimination and Conversion Protocol”).

(e) **RETENTION OF B-52H AIRCRAFT ON ACTIVE STATUS.**—(1) The Secretary of the Air Force shall maintain in active status (including the performance of standard maintenance and upgrades) the current fleet of B-52H bomber aircraft.

(2) For purposes of carrying out upgrades of B-52H bomber aircraft during fiscal year 1997, the Secretary shall treat the entire current fleet of such aircraft as aircraft expected to be maintained in active status during the six-year period beginning on October 1, 1996.

SEC. 1305. REPORT ON MILITARY CAPABILITIES OF PEOPLE’S REPUBLIC OF CHINA.

(a) **REPORT.**—The Secretary of Defense shall prepare a report, in both classified and unclassified form, on the future pattern of military modernization of the People’s Republic of China. The report shall address both the probable course of military-technological development in the People’s Liberation Army and the development of Chinese military strategy and operational concepts.

(b) **MATTERS TO BE INCLUDED.**—The report shall include analyses and forecasts of the following:

(1) Trends that would lead the People’s Republic of China toward advanced intelligence, surveillance, and reconnaissance capabilities, either through a development program or by gaining access to commercial or third-party systems with militarily significant capabilities.

(2) Efforts by the People’s Republic of China to develop highly accurate and low-observable ballistic and cruise missiles,

and the investments in infrastructure that would allow for production of such weapons in militarily significant quantities, particularly in numbers sufficient to conduct attacks capable of overwhelming projected defense capabilities in the region.

(3) Development by the People's Republic of China of enhanced command and control networks, particularly those capable of battle management that would include long-range precision strikes.

(4) Programs of the People's Republic of China involving unmanned aerial vehicles, particularly those with extended ranges or loitering times.

(5) Exploitation by the People's Republic of China of the Global Positioning System or other similar systems, including commercial land surveillance satellites, for significant military purposes, including particularly for increasing the accuracy of weapons or the situational awareness of operating forces.

(6) Development by the People's Republic of China of capabilities for denial of sea control, such as advanced sea mines or improved submarine capabilities.

(7) Continued development by the People's Republic of China of follow-on forces, particularly those capable of rapid air or amphibious assault.

(c) SUBMISSION OF REPORT.—The report shall be submitted to Congress not later than February 1, 1997.

SEC. 1306. PRESIDENTIAL REPORT REGARDING WEAPONS PROLIFERATION AND POLICIES OF THE PEOPLE'S REPUBLIC OF CHINA.

(a) FINDINGS.—The Congress finds that—

(1) the People's Republic of China acceded to the Treaty on the Non-Proliferation of Nuclear Weapons (hereafter in this section referred to as the "NPT") on March 9, 1992;

(2) the People's Republic of China is not a member of the Nuclear Suppliers Group and remains the only major nuclear supplier that continues to transfer nuclear technology, equipment, and materials to countries that have not agreed to the application of safeguards of the International Atomic Energy Agency (hereafter in this section referred to as the "IAEA") over all of their nuclear materials;

(3) on June 30, 1995, the United States and 29 other members of the Nuclear Suppliers Group notified the Director General of the IAEA that the Government of each respective country has decided that the controls of that Group should not be defeated by the transfer of component parts;

(4) a state-owned entity in the People's Republic of China, the China Nuclear Energy Industry Corporation, has knowingly transferred specially designed ring magnets to an unsafeguarded uranium enrichment facility in the Islamic Republic of Pakistan;

(5) ring magnets are identified on the Trigger List of the Nuclear Suppliers Group as a component of magnetic suspension bearings which are to be exported only to countries that have safeguards of the IAEA over all of their nuclear materials;

(6) these ring magnets could contribute significantly to the ability of the Islamic Republic of Pakistan to produce additional unsafeguarded enriched uranium, a nuclear explosive material;

(7) the Government of the People's Republic of China has transferred nuclear equipment and technology to the Islamic Republic of Iran, despite repeated claims by the Government of the United States that the Islamic Republic of Iran is engaged in clandestine efforts to acquire a nuclear explosive device;

(8) representatives of the Government of the People's Republic of China have repeatedly assured the Government of the United States that the People's Republic of China would abide by the guidelines of the Missile Technology Control Regime (hereafter in this section referred to as the "MTCR");

(9) the Government of China has transferred M-11 missiles to the Islamic Republic of Pakistan; and

(10) the M-11 missile conforms to the definition of a nuclear-capable missile under the MTCR.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that—

(1) the assistance that the People's Republic of China has provided to the Islamic Republic of Iran and to the Islamic Republic of Pakistan could contribute to the ability of such countries to manufacture nuclear weapons;

(2) the recent transfer by the People's Republic of China of ring magnets to an unsafeguarded uranium enrichment facility in the Islamic Republic of Pakistan conflicts with China's obligations under Articles I and III of the NPT, as well as the official nonproliferation policies and assurances by the People's Republic of China and the Islamic Republic of Pakistan with respect to the nonproliferation of nuclear weapons and nuclear-capable missiles;

(3) the transfer of M-11 missiles from the People's Republic of China to the Islamic Republic of Pakistan is inconsistent with longstanding United States Government interpretations of assurances from the Government of the People's Republic of China with respect to that country's intent to abide by the guidelines of the MTCR;

(4) violations by the People's Republic of China of the standards and objectives of the MTCR and global nuclear nonproliferation regimes have jeopardized the credibility of the MTCR and such regimes;

(5) the MTCR and global nuclear nonproliferation regimes require collective international action to impose costs against and to withhold benefits from any country, including the People's Republic of China, that engages in activities that are contrary to the objectives of those regimes;

(6) the President should explore with the governments of other countries new opportunities for collective action in response to activities of any country, including the People's Republic of China, that aid or abet the global proliferation of weapons of mass destruction or their means of delivery; and

(7) the President should communicate to the Government of the People's Republic of China the sense of the Congress that

the stability and growth of future relations between the people, the economies, and the Governments of the United States and the People's Republic of China will significantly depend upon substantive evidence of cooperation by the Government of the People's Republic of China in efforts to halt the global proliferation of weapons of mass destruction and their means of delivery.

(c) REPORT.—Not later than 60 days after the date of the enactment of this Act, the President shall submit to the Congress a report, in both classified and unclassified form, concerning the transfer from the People's Republic of China to the Islamic Republic of Pakistan of technology, equipment, or materials important to the production of nuclear weapons and their means of delivery. The President shall include in the report the following:

(1) The specific justification of the Secretary of State for determining that there was not a sufficient basis for imposing sanctions under section 2(b)(4) of the Export-Import Bank Act of 1945, as amended by section 825 of the Nuclear Proliferation Prevention Act of 1994, by reason of the transfer of ring magnets and other technology, equipment, or materials from the People's Republic of China to the Islamic Republic of Pakistan.

(2) What commitment the United States Government is seeking from the People's Republic of China to ensure that the People's Republic of China establishes a fully effective export control system that will prevent transfers (such as the Pakistan sale) from taking place in the future.

(3) A description of the pledges, assurances, and other commitments made by representatives of the Governments of the People's Republic of China and the Islamic Republic of Pakistan to the Government of the United States since January 1, 1991, with respect to the nonproliferation of nuclear weapons or nuclear-capable missiles, and an assessment of the record of compliance with such undertakings.

(4) Whether, in light of the recent assurances provided by the People's Republic of China, the President intends to make the certification and submit the report required by section 902(a)(6)(B) of the Foreign Relations Authorization Act, Fiscal Years 1990 and 1991 (22 U.S.C. 2151 note), and make the certification and submit the report required by Public Law 99-183, relating to the approval and implementation of the agreement for nuclear cooperation between the United States and the People's Republic of China, and, if not, why not.

(5) Whether the Secretary of State considers the recent assurances and clarifications provided by the People's Republic of China to have provided sufficient information to allow the United States to determine that the People's Republic of China is not in violation of paragraph (2) of section 129 of the Atomic Energy Act of 1954, as required by Public Law 99-183.

(6) If the President is unable or unwilling to make the certifications and reports referred to in paragraph (4), a description of what the President considers to be the significance of

the clarifications and assurances provided by the People's Republic of China in the course of the recent discussions regarding the transfer by the People's Republic of China of nuclear-weapon-related equipment to the Islamic Republic of Pakistan.

(7) A description of the laws, regulations, and procedures currently used by the People's Republic of China to regulate exports of nuclear technology, equipment, or materials, including dual-use goods, and an assessment of the effectiveness of such arrangements.

(8) A description of the current policies and practices of other countries in response to the transfer of nuclear and missile technology by the People's Republic of China to the Islamic Republic of Pakistan and the Islamic Republic of Iran.

SEC. 1307. UNITED STATES-PEOPLE'S REPUBLIC OF CHINA JOINT DEFENSE CONVERSION COMMISSION.

None of the funds appropriated or otherwise available for the Department of Defense for fiscal year 1997 or any prior fiscal year may be obligated or expended for any activity associated with the United States-People's Republic of China Joint Defense Conversion Commission until 15 days after the date on which the first semi-annual report required by section 1343 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106; 110 Stat. 487) is received by Congress.

SEC. 1308. SENSE OF CONGRESS CONCERNING EXPORT CONTROLS.

(a) FINDINGS.—The Congress makes the following findings:

(1) Export controls are a part of a comprehensive response to national security threats. The export of a United States commodity or technology should be restricted in cases in which the export of the commodity or technology would increase the threat to the national security of the United States or would be contrary to the nonproliferation goals or foreign policy interests of the United States.

(2) The export of certain commodities and technology may adversely affect the national security and foreign policy of the United States by making a significant contribution to the military potential of countries or by enhancing the capability of countries to design, develop, test, produce, stockpile, or use weapons of mass destruction and missile delivery systems, and other significant military capabilities. Therefore, the administration of export controls should emphasize the control of these exports.

(3) The acquisition of sensitive commodities and technologies by those countries and end users whose actions or policies run counter to United States national security or foreign policy interests may enhance the military capabilities of those countries, particularly their ability to design, develop, test, produce, stockpile, use, and deliver nuclear, chemical, and biological weapons and missile delivery systems, and other significant military capabilities. This enhancement threatens the security of the United States and its allies. The availability to countries and end users of items that contribute to military capabilities or the proliferation of weapons of mass destruction is a fundamental concern of the United States and should be eliminated

through deterrence, negotiations, and other appropriate means whenever possible.

(4) The national security of the United States depends not only on wise foreign policies and a strong defense, but also a vibrant national economy. To be truly effective, export controls should be applied uniformly by all suppliers.

(5) On November 8, 1995, the President continued the national emergency declared in Executive Order No. 12938 of November 14, 1994, "with respect to the unusual and extraordinary threat to the national security, foreign policy, and economy of the United States posed by the proliferation of nuclear, biological, and chemical weapons and the means of delivering such weapons".

(6) A successor regime to COCOM (the Coordinating Committee for Multilateral Export Controls) has not been established. Currently, each nation is determining independently which dual-use military items, if any, will be controlled for export.

(7) The United States should play a leading role in promoting transparency and responsibility with regard to the transfers of sensitive dual-use goods and technologies.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that—

(1) establishing an international export control regime, empowered to control exports of dual-use technology, is critically important and should be a top priority for the United States; and

(2) the United States should strongly encourage its allies and other friendly countries to—

(A) adopt export controls that are the same or similar to the export controls imposed by the United States on items on the Commerce Control List;

(B) strengthen enforcement of their export controls; and

(C) explore the use of unilateral export controls where the possibility exists that an export could contribute to the enhancement of military capabilities or proliferation described in paragraphs (3) and (5) of subsection (a).

SEC. 1310. SENSE OF CONGRESS CONCERNING ASSISTING OTHER COUNTRIES TO IMPROVE SECURITY OF FISSILE MATERIAL.

(a) FINDINGS.—Congress finds the following:

(1) With the end of the Cold War, the world is faced with the need to manage the dismantling of vast numbers of nuclear weapons and the disposition of the fissile materials that they contain.

(2) If recently agreed reductions in nuclear weapons are fully implemented, tens of thousands of nuclear weapons, containing a hundred tons or more of plutonium and many hundreds of tons of highly enriched uranium, will no longer be needed for military purposes.

(3) Plutonium and highly enriched uranium are the essential ingredients of nuclear weapons.

(4) Limits on access to plutonium and highly enriched uranium are the primary technical barrier to acquiring nuclear weapons capability in the world today.

(5) Several kilograms of plutonium, or several times that amount of highly enriched uranium, are sufficient to make a nuclear weapon.

(6) Plutonium and highly enriched uranium will continue to pose a potential threat for as long as they exist.

(7) Action is required to secure and account for plutonium and highly enriched uranium.

(8) It is in the national interest of the United States to—

(A) minimize the risk that fissile materials could be obtained by unauthorized parties;

(B) minimize the risk that fissile materials could be re-introduced into the arsenals from which they came, halting or reversing the arms reduction process; and

(C) strengthen the national and international control mechanisms and incentives designed to ensure continued arms reductions and prevent the spread of nuclear weapons.

(b) SENSE OF CONGRESS.—In light of the findings contained in subsection (a), it is the sense of Congress that the United States has a national security interest in assisting other countries to improve the security of their stocks of fissile material.

TITLE XIV—ARMS CONTROL MATTERS

SEC. 1401. REVISION OF DEFINITION OF LANDMINE FOR PURPOSES OF LANDMINE EXPORT MORATORIUM.

Section 1423(d) of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103-160; 107 Stat. 1832) is amended—* * *¹

SEC. 1402. REPORTS ON MORATORIUM ON USE BY ARMED FORCES OF ANTIPERSONNEL LANDMINES.

Not later than April 30 of each of 1996, 1997, and 1998, the Chairman of the Joint Chiefs of Staff shall submit to the congressional defense committees a report on the projected effects of a moratorium on the defensive use of antipersonnel mines and antitank mines by the Armed Forces. The report shall include a discussion of the following matters:

(1) The extent to which current doctrine and practices of the Armed Forces on the defensive use of antipersonnel mines and antitank mines adhere to applicable international law.

(2) The effects that a moratorium would have on the defensive use of the current United States inventory of remotely delivered, self-destructing antitank systems, antipersonnel mines, and antitank mines.

(3) The reliability of the self-destructing antipersonnel mines and self-destructing antitank mines of the United States.

(4) The cost of clearing the antipersonnel minefields currently protecting Naval Station Guantanamo Bay, Cuba, and other United States installations.

¹ For amended text, see *Legislation on Foreign Relations Through 2008*, vol. I-B.

(5) The cost of replacing antipersonnel mines in such minefields with substitute systems such as the Claymore mine, and the level of protection that would be afforded by use of such a substitute.

(6) The extent to which the defensive use of antipersonnel mines and antitank mines by the Armed Forces is a source of civilian casualties around the world, and the extent to which the United States, and the Department of Defense particularly, contributes to alleviating the illegal and indiscriminate use of such munitions.

(7) The extent to which the threat to the security of United States forces during operations other than war and combat operations would increase as a result of such a moratorium.

SEC. 1403. EXTENSION AND AMENDMENT OF COUNTER-PROLIFERATION AUTHORITIES.

(a) ONE-YEAR EXTENSION OF PROGRAM.—Section 1505 of the Weapons of Mass Destruction Control Act of 1992 (title XV of Public Law 102-484; 22 U.S.C. 5859a) is amended—* * *

SEC. 1404. LIMITATION ON RETIREMENT OR DISMANTLEMENT OF STRATEGIC NUCLEAR DELIVERY SYSTEMS.

(a) SENSE OF CONGRESS.—It is the sense of Congress that, unless and until the START II Treaty enters into force, the Secretary of Defense should not take any action to retire or dismantle, or to prepare to retire or dismantle, any of the following strategic nuclear delivery systems:

- (1) B-52H bomber aircraft.
- (2) Trident ballistic missile submarines.
- (3) Minuteman III intercontinental ballistic missiles.
- (4) Peacekeeper intercontinental ballistic missiles.

(b) LIMITATION ON USE OF FUNDS.—Funds available to the Department of Defense may not be obligated or expended during fiscal year 1996 for retiring or dismantling, or for preparing to retire or dismantle, any of the strategic nuclear delivery systems specified in subsection (a).

SEC. 1405. CONGRESSIONAL FINDINGS AND SENSE OF CONGRESS CONCERNING TREATY VIOLATIONS.

(a) REAFFIRMATION OF PRIOR FINDINGS CONCERNING THE KRASNOYARSK RADAR.—Congress, noting its previous findings with respect to the large phased-array radar of the Soviet Union known as the “Krasnoyarsk radar” stated in paragraphs (1) through (4) of section 902(a) of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1135) (and reaffirmed in section 1006(a) of the National Defense Authorization Act for Fiscal Years 1990 and 1991 (Public Law 101-189; 103 Stat. 1543)), hereby reaffirms those findings as follows:

- (1) The 1972 Anti-Ballistic Missile Treaty prohibits each party from deploying ballistic missile early warning radars except at locations along the periphery of its national territory and oriented outward.
- (2) The 1972 Anti-Ballistic Missile Treaty prohibits each party from deploying an ABM system to defend its national territory and from providing a base for any such nationwide defense.

(3) Large phased-array radars were recognized during negotiation of the Anti-Ballistic Missile Treaty as the critical long lead-time element of a nationwide defense against ballistic missiles.

(4) In 1983 the United States discovered the construction, in the interior of the Soviet Union near the town of Krasnoyarsk, of a large phased-array radar that has subsequently been judged to be for ballistic missile early warning and tracking.

(b) FURTHER REFERENCE TO 1987 CONGRESSIONAL STATEMENTS.—Congress further notes that in section 902 of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1135) Congress also—

(1) noted that the President had certified that the Krasnoyarsk radar was an unequivocal violation of the 1972 Anti-Ballistic Missile Treaty; and

(2) stated it to be the sense of the Congress that the Soviet Union was in violation of its legal obligation under that treaty.

(c) FURTHER REFERENCE TO 1989 CONGRESSIONAL STATEMENTS.—Congress further notes that in section 1006(b) of the National Defense Authorization Act for Fiscal Years 1990 and 1991 (Public Law 101-189; 103 Stat. 1543) Congress also—

(1) again noted that in 1987 the President declared that radar to be a clear violation of the 1972 Anti-Ballistic Missile Treaty and noted that on October 23, 1989, the Foreign Minister of the Soviet Union conceded that the Krasnoyarsk radar is a violation of the 1972 Anti-Ballistic Missile Treaty; and

(2) stated it to be the sense of the Congress that the Soviet Union should dismantle the Krasnoyarsk radar expeditiously and without conditions and that until such radar was completely dismantled it would remain a clear violation of the 1972 Anti-Ballistic Missile Treaty.

(d) ADDITIONAL FINDINGS.—Congress also finds, with respect to the Krasnoyarsk radar, that retired Soviet General Y.V. Votintsev, Director of the Soviet National Air Defense Forces from 1967 to 1985, has publicly stated—

(1) that he was directed by the Chief of the Soviet General staff to locate the large phased-array radar at Krasnoyarsk despite the recognition by Soviet authorities that the location of such a radar at that location would be a clear violation of the 1972 Anti-Ballistic Missile Treaty; and

(2) that Marshal D.F. Ustinov, Soviet Minister of Defense, threatened to relieve from duty any Soviet officer who continued to object to the construction of a large-phased array radar at Krasnoyarsk.

(e) SENSE OF CONGRESS CONCERNING SOVIET TREATY VIOLATIONS.—It is the sense of Congress that the government of the Soviet Union intentionally violated its legal obligations under the 1972 Anti-Ballistic Missile Treaty in order to advance its national security interests.

(f) SENSE OF CONGRESS CONCERNING COMPLIANCE BY RUSSIA WITH ARMS CONTROL OBLIGATIONS.—In light of subsections (a) through (e), it is the sense of Congress that the United States should remain vigilant in ensuring compliance by Russia with its arms control obligations and should, when pursuing future arms

control agreements with Russia, bear in mind violations of arms control obligations by the Soviet Union.

SEC. 1406. SENSE OF CONGRESS ON RATIFICATION OF CHEMICAL WEAPONS CONVENTION AND START II TREATY.

(a) FINDINGS.—Congress makes the following findings:

(1) Proliferation of chemical or nuclear weapons materials poses a danger to United States national security, and the threat or use of such materials by terrorists would directly threaten United States citizens at home and abroad.

(2) Events such as the March 1995 terrorist release of a chemical nerve agent in the Tokyo subway, the threatened use of chemical weapons during the 1991 Persian Gulf War, and the widespread use of chemical weapons during the Iran-Iraq War of the 1980's are all potent reminders of the menace posed by chemical weapons, of the fact that the threat of chemical weapons is not sufficiently addressed, and of the need to outlaw the development, production, and possession of chemical weapons.

(3) The Chemical Weapons Convention negotiated and signed by President Bush would make it more difficult for would-be proliferators, including terrorists, to acquire or use chemical weapons, if ratified and fully implemented, as signed, by all signatories.

(4) United States military authorities, including Chairman of the Joint Chiefs of Staff General John Shalikashvili, have stated that United States military forces will deter and respond to chemical weapons threats with a robust chemical defense and an overwhelming superior conventional response, as demonstrated in the Persian Gulf War, and have testified in support of the ratification of the Chemical Weapons Convention.

(5) The United States intelligence community has testified that the Convention will provide new and important sources of information, through regular data exchanges and routine and challenge inspections, to improve the ability of the United States to assess the chemical weapons status in countries of concern.

(6) The Convention has not entered into force for lack of the requisite number of ratifications.

(7) Russia has signed the Convention, but has not yet ratified it.

(8) There have been reports by Russian sources of continued Russian production and testing of chemical weapons, including a statement by a spokesman of the Russian Ministry of Defense on December 5, 1994, that "We cannot say that all chemical weapons production and testing has stopped altogether."

(9) The Convention will impose a legally binding obligation on Russia and other nations that possess chemical weapons and that ratify the Convention to cease offensive chemical weapons activities and to destroy their chemical weapons stockpiles and production facilities.

(10) The United States must be prepared to exercise fully its rights under the Convention, including the request of challenge

inspections when warranted, and to exercise leadership in pursuing punitive measures against violators of the Convention, when warranted.

(11) The United States should strongly encourage full implementation at the earliest possible date of the terms and conditions of the United States-Russia bilateral chemical weapons destruction agreement signed in 1990.

(12) The START II Treaty negotiated and signed by President Bush would help reduce the danger of potential proliferators, including terrorists, acquiring nuclear warheads and materials, and would contribute to United States-Russian bilateral efforts to secure and dismantle nuclear warheads, if ratified and fully implemented as signed by both parties.

(13) It is in the national security interest of the United States to take effective steps to make it more difficult for proliferators or would-be terrorists to obtain chemical or nuclear materials for use in weapons.

(14) The President has urged prompt Senate action on, and advice and consent to ratification of, the START II Treaty and the Chemical Weapons Convention.

(15) The Chairman of the Joint Chiefs of Staff has testified to Congress that ratification and full implementation of both treaties by all parties is in the United States national interest and has strongly urged prompt Senate advice and consent to their ratification.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the United States, Russia, and all other parties to the START II Treaty and the Chemical Weapons Convention should promptly ratify and fully implement, as negotiated, both treaties.

SEC. 1407. IMPLEMENTATION OF ARMS CONTROL AGREEMENTS.

(a) FUNDING.—Of the amounts appropriated pursuant to authorizations in sections 102, 103, 104, 201, and 301, the Secretary of Defense may use an amount not to exceed \$239,941,000 for implementing arms control agreements to which the United States is a party.

(b) LIMITATION.—(1) Funds made available pursuant to subsection (a) for the costs of implementing an arms control agreement may not (except as provided in paragraph (2)) be used to reimburse expenses incurred by any other party to the agreement for which (without regard to any executive agreement or any policy not part of an arms control agreement)—

(A) the other party is responsible under the terms of the arms control agreement; and

(B) the United States has no responsibility under the agreement.

(2) The limitation in paragraph (1) does not apply to a use of funds to carry out an arms control expenses reimbursement policy of the United States described in subsection (c).

(c) COVERED ARMS CONTROL EXPENSES REIMBURSEMENT POLICIES.—Subsection (b)(2) applies to a policy of the United States to reimburse expenses incurred by another party to an arms control agreement if—

(1) the policy does not modify any obligation imposed by the arms control agreement;

(2) the President—

(A) issued or approved the policy before the date of the enactment of this Act; or

(B) entered into an agreement on the policy with the government of another country or approved an agreement on the policy entered into by an official of the United States and the government of another country; and

(3) the President has notified the designated congressional committees of the policy or the policy agreement (as the case may be), in writing, at least 30 days before the date on which the President issued or approved the policy or has entered into or approved the policy agreement.

(d) DEFINITIONS.—For the purposes of this section:

(1) The term “arms control agreement” means an arms control treaty or other form of international arms control agreement.

(2) The term “executive agreement” means an international agreement entered into by the President that is not authorized by law or entered into as a Treaty to which the Senate has given its advice and consent to ratification.

(3) The term “designated congressional committees” means the following:

(A) The Committee on Foreign Relations, the Committee on Armed Services, and the Committee on Appropriations of the Senate.

(B) The Committee on International Relations, the Committee on National Security, and the Committee on Appropriations of the House of Representatives.

SEC. 1508. SENSE OF CONGRESS CONCERNING INDEFINITE EXTENSION OF NUCLEAR NON-PROLIFERATION TREATY.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The Treaty on the Non-Proliferation of Nuclear Weapons, signed at Washington, D.C., London, and Moscow on July 1, 1968, is the centerpiece of global efforts to prevent the spread of nuclear weapons.

¹²Sec. 1(a)(1) of Public Law 104-14 (109 Stat. 186) provided that references to the Committee on Armed Services of the House of Representatives shall be treated as referring to the Committee on National Security of the House of Representatives. Sec. 1(a)(5) of that Act provided that references to the Committee on Foreign Affairs shall be treated as referring to the Committee on International Relations.

(2) The United States has demonstrated longstanding support for that treaty and related efforts to prevent the spread of nuclear weapons.

(3) President Clinton has declared that preventing the spread of nuclear weapons is one of the highest priorities of his Administration.

(4) In April 1995, the parties to the Treaty on the Non-Proliferation of Nuclear Weapons will convene a conference in New York City to discuss the indefinite extension of the treaty.

(5) The policy of the President is to seek at that conference the indefinite and unconditional extension of that treaty.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the President has the full support of Congress in seeking the indefinite and unconditional extension of the Treaty on the Non-Proliferation of Nuclear Weapons;

(2) the President, when formulating and implementing other elements of nonproliferation policy of the United States (including United States counterproliferation doctrine, the Nuclear Posture Review, and nuclear testing policy), should take into account the objectives of the United States at the 1995 conference of the parties to the Treaty on the Non-Proliferation of Nuclear Weapons; and

(3) the President and the President's senior national security advisers should dedicate themselves to ensuring the indefinite and unconditional extension of the Treaty on the Non-Proliferation of Nuclear Weapons at the 1995 conference for that treaty.

SEC. 1509. NEGOTIATION OF LIMITATIONS ON NUCLEAR WEAPONS TESTING.

(a) FINDINGS.—Congress makes the following findings:

(1) On January 25, 1994, the United States and 37 other nations began negotiations for a comprehensive treaty to ban permanently all nuclear weapons testing.

(2) On March 14, 1994, the President extended the current United States moratorium on nuclear weapons testing through September 1995.

(3) The United States is seeking to extend indefinitely the Treaty on the Non-Proliferation of Nuclear Weapons at the conference of the parties to the Treaty to be held in New York City in April 1995.

(4) Conclusion of a comprehensive nuclear test ban treaty could contribute toward successful negotiations to extend the Treaty on the Non-Proliferation of Nuclear Weapons.

(5) Agreements to eliminate nuclear weapons testing and to control the spread of nuclear weapons could contribute to the national security of the United States, its allies, and other nations around the world.

(b) STATEMENT OF CONGRESSIONAL POLICY.—In view of the findings set forth in subsection (a), Congress—

(1) applauds the President for maintaining the United States moratorium on nuclear weapons testing and for taking a leadership role toward negotiation of a comprehensive nuclear test ban treaty;

(2) encourages all nuclear powers to refrain from conducting nuclear explosions, before the conclusion of a comprehensive nuclear test ban treaty; and

(3) urges the Conference on Disarmament to make all possible progress toward a comprehensive nuclear test ban treaty by the end of 1994.

Subtitle B—International Nonproliferation Activities

SEC. 1611. NUCLEAR NONPROLIFERATION.

(a) FINDINGS.—The Congress finds the following:

(1) The United States has been seeking to contain the spread of nuclear weapons technology and materials.

²⁷ Sec. 1(a)(1) of Public Law 104-14 (109 Stat. 186) provided that references to the Committee on Armed Services of the House of Representatives shall be treated as referring to the Committee on National Security of the House of Representatives. Sec. 1(a)(5) of that Act provided that references to the Committee on Foreign Affairs shall be treated as referring to the Committee on International Relations.

(2) With the end of the Cold War and the breakup of the Soviet Union, the proliferation of nuclear weapons is now a leading military threat to the national security of the United States and its allies.

(3) The United Nations Security Council declared on January 31, 1992, that "proliferation of all weapons of mass destruction constitutes a threat to international peace and security" and committed to taking appropriate action to prevent proliferation from occurring.

(4) Aside from the five declared nuclear weapon states, a number of other nations have or are pursuing nuclear weapons capabilities.

(5) The IAEA is a valuable international institution to counter proliferation, but the effectiveness of its system to safeguard nuclear materials may be adversely affected by financial constraints.

(6) The Nuclear Non-Proliferation Treaty codifies world consensus against further nuclear proliferation and is scheduled for review and extension in 1995.

(7) The Nuclear Nonproliferation Act of 1978 declared that the United States is committed to continued strong support for the Nuclear Non-Proliferation Treaty and to a strengthened and more effective IAEA, and established that it is United States policy to establish more effective controls over the transfer of nuclear equipment, materials, and technology.

(b) COMPREHENSIVE NUCLEAR NONPROLIFERATION POLICY.—In order to end nuclear proliferation and reduce current nuclear arsenals and supplies of weapons-usable nuclear materials, it should be the policy of the United States to pursue a comprehensive policy to end the further spread of nuclear weapons capability, roll back nuclear proliferation where it has occurred, and prevent the use of nuclear weapons anywhere in the world, with the following additional objectives:

(1) Successful conclusion of all pending nuclear arms control and disarmament agreements with all the republics of the former Soviet Union and their secure implementation.

(2) Full participation by all the republics of the former Soviet Union in all multilateral nuclear nonproliferation efforts and acceptance of IAEA safeguards on all their nuclear facilities.

(3) Strengthening of United States and international support to the IAEA so that the IAEA has the technical, financial, and political resources to verify that countries are complying with their nonproliferation commitments.

(4) Strengthening of nuclear export controls in the United States and other nuclear supplier nations, impose sanctions on individuals, companies, and countries which contribute to nuclear proliferation, and provide increased public information on nuclear export licenses approved in the United States.

(5) Reduction in incentives for countries to pursue the acquisition of nuclear weapons by seeking to reduce regional tensions and to strengthen regional security agreements, and encourage the United Nations Security Council to increase its role in enforcing international nuclear nonproliferation agreements.

(6) Support for the indefinite extension of the Nuclear Non-Proliferation Treaty at the 1995 conference to review and extend that treaty and seek to ensure that all countries sign the treaty or participate in a comparable international regime for monitoring and safeguarding nuclear facilities and materials.

(7) Reaching agreement with the Russian Federation to end the production of new types of nuclear warheads.

(8) Pursuing, once the START I treaty and the START II treaty are ratified by all parties, a multilateral agreement to significantly reduce the strategic nuclear arsenals of the United States and the Russian Federation to below the levels of the START II treaty, with lower levels for the United Kingdom, France, and the People's Republic of China.

(9) Reaching immediate agreement with the Russian Federation to halt permanently the production of fissile material for weapons purposes, and working to achieve worldwide agreements to—

(A) end in the shortest possible time the production of weapons-usable fissile material;

(B) place existing stockpiles of such materials under bilateral or international controls; and

(C) require countries to place all of their nuclear facilities dedicated to peaceful purposes under IAEA safeguards.

(10) Strengthening IAEA safeguards to more effectively verify that countries are complying with their nonproliferation commitments and provide the IAEA with the political, technical, and financial support necessary to implement the necessary safeguard reforms.

(11) Conclusion of a multilateral comprehensive nuclear test ban treaty.

(c) REQUIREMENTS FOR IMPLEMENTATION OF POLICY.—(1) Not later than 180 days after the date of the enactment of this Act, the President shall submit to the Congress a report, in unclassified form, with a classified appendix if necessary, on the actions the United States has taken and the actions the United States plans to take during the succeeding 12-month period to implement each of the policy objectives set forth in this section.

(2) Not later than 180 days after the date of the enactment of this Act, the President shall submit to the Congress a report in unclassified form, with a classified appendix if necessary, which—

(A) addresses the implications of the adoption by the United States of a policy of no-first-use of nuclear weapons;

(B) addresses the implications of an agreement with the other nuclear weapons states to adopt such a policy; and

(C) addresses the implications of a verifiable bilateral agreement with the Russian Federation under which both countries withdraw from their arsenals and dismantle all tactical nuclear weapons, and seek to extend to all nuclear weapons states this zero option for tactical nuclear weapons.

(d) DEFINITIONS.—For purposes of this section:

(1) The term “IAEA” means the International Atomic Energy Agency.

(2) The term “IAEA safeguards” means the safeguards set forth in an agreement between a country and the IAEA, as authorized by Article III(A)(5) of the Statute of the International Atomic Energy Agency.

(3) The term “non-nuclear weapon state” means any country that is not a nuclear weapon state.

(5) The term “nuclear weapon state” means any country that is a nuclear-weapon state, as defined by Article IX(3) of the Treaty on the Non-Proliferation of Nuclear Weapons, signed at Washington, London, and Moscow on July 1, 1968.

(6) The term “weapons-usable fissile materials” means highly enriched uranium and separated or reprocessed plutonium.

(7) The term “policy of no first use of nuclear weapons” means a commitment not to initiate the use of nuclear weapons.

(8) The term “START II treaty” means the Treaty on Further Reductions and Limitations of Strategic Offensive Arms, signed by the United States and the Russian Federation on January 3, 1993.

SEC. 1612.²⁸ CONDITION ON ASSISTANCE TO RUSSIA FOR CONSTRUCTION OF PLUTONIUM STORAGE FACILITY.

(a) **LIMITATION.**—Until a certification under subsection (b) is made, no funds may be obligated or expended by the United States for the purpose of assisting the Ministry of Atomic Energy of Russia to construct a storage facility for surplus plutonium from dismantled weapons.

(b)²⁹ **CERTIFICATION OF RUSSIA’S COMMITMENT TO HALT CHEMICAL SEPARATION OF WEAPON-GRADE PLUTONIUM.**—The prohibition in subsection (a) shall cease to apply upon a certification by the President to Congress that Russia—

(1) is committed to halting the chemical separation of weapon-grade plutonium from spent nuclear fuel; and

(2) is taking all practical steps to halt such separation at the earliest possible date.

(c) **SENSE OF CONGRESS ON PLUTONIUM POLICY.**—It is the sense of Congress that a key objective of the United States with respect to the nonproliferation of nuclear weapons should be to obtain a clear and unequivocal commitment from the Government of Russia that it will (1) cease all production and separation of weapon-grade plutonium, and (2) halt chemical separation of plutonium produced in civil nuclear power reactors.

(d) **REPORT.**—Not later than June 1, 1994, the President shall submit to Congress a report on the status of efforts by the United States to secure the commitments and achieve the objective described in subsections (b) and (c). production reactors with alternative power sources or to convert such reactors to operation with alternative fuels that would permit their operation without generating weapon-grade plutonium.

SEC. 1613. NORTH KOREA AND THE TREATY ON THE NON-PROLIFERATION OF NUCLEAR WEAPONS.

(a) FINDINGS.—The Congress finds the following:

(1) The Treaty on the Non-Proliferation of Nuclear Weapons, to which 156 states are party, is the cornerstone of the international nuclear nonproliferation regime.

(2) Any nonnuclear weapon state that is a party to the Treaty on the Non-Proliferation of Nuclear Weapons is obligated to accept International Atomic Energy Agency safeguards on all source or special fissionable material that is within its territory, under its jurisdiction, or carried out under its control anywhere.

(3) The International Atomic Energy Agency is permitted to conduct inspections in a nonnuclear weapon state that is a party to the Treaty at any site, whether or not declared by that state, to ensure that all source or special fissionable material in that state is under safeguards.

(4) North Korea acceded to the Treaty on the Non-Proliferation of Nuclear Weapons as a nonnuclear weapons state in December 1985.

(5) North Korea, after acceding to that Treaty, refused until 1992 to accept International Atomic Energy Agency safeguards as required under the Treaty.

(6) Inspections of North Korea's nuclear materials by the International Atomic Energy Agency suggested discrepancies in North Korea's declarations regarding special nuclear materials.

(7) North Korea has not given a scientifically satisfactory explanation for those discrepancies.

(8) North Korea refused to provide International Atomic Energy Agency inspectors with full access to two sites for the purposes of verifying its compliance with the Treaty on the Non-Proliferation of Nuclear Weapons.

(9) When called upon by the International Atomic Energy Agency to provide such full access as required by the Treaty, North Korea announced its intention to withdraw from the Treaty, effective after the required three months notice.

(10) After intensive negotiations with the United States, North Korea agreed to suspend its intention to withdraw from the Treaty on the Non-Proliferation of Nuclear Weapons and begin consultations with the International Atomic Energy Agency on providing access to its suspect sites.

(11) In an attempt to persuade North Korea to abandon its nuclear weapons program, the United States has offered to discuss with North Korea specific incentives that could be provided for North Korea once (A) outstanding inspection issues between North Korea and the International Atomic Energy Agency are resolved, and (B) progress is made in bilateral talks between North Korea and South Korea.

(b) CONGRESSIONAL STATEMENTS.—The Congress—

(1) notes that the continued refusal of North Korea nearly eight years after ratification of the Treaty on the Non-Proliferation of Nuclear Weapons to fully accept International Atomic Energy Agency safeguards raises serious questions regarding a possible North Korean nuclear weapons program;

(2) notes that possession by North Korea of nuclear weapons (A) would threaten peace and stability in Asia, (B) would jeopardize the existing nuclear non-proliferation regime, and (C) would undermine the goal of the United States to extend the Treaty on the Non-Proliferation of Nuclear Weapons at the 1995 review conference;

(3) urges continued pressure from the President, United States allies, and the United Nations Security Council on North Korea to adhere to the Treaty and provide full access to the International Atomic Energy Agency in the shortest time possible;

(4) urges the President, United States allies, and the United Nations Security Council to press for continued talks between North Korea and South Korea on denuclearization of the Korean peninsula;

(5) urges that no trade, financial, or other economic benefits be provided to North Korea by the United States or United States allies until North Korea has (A) provided full access to the International Atomic Energy Agency, (B) satisfactorily explained any discrepancies in its declarations of bomb-grade material, and (C) fully demonstrated that it does not have or seek a nuclear weapons capability; and

(6) calls on the President and the international community to take steps to strengthen the international nuclear non-proliferation regime.

SEC. 1614. SENSE OF CONGRESS RELATING TO THE PROLIFERATION OF SPACE LAUNCH VEHICLE TECHNOLOGIES.

(a) FINDINGS.—The Congress finds the following:

(1) The United States has joined with other nations in the Missile Technology Control Regime (MTCR), which restricts the transfer of missiles or equipment or technology that could contribute to the design, development, or production of missiles capable of delivering weapons of mass destruction.

(2) Missile technology is indistinguishable from, and interchangeable with, space launch vehicle technology.

(3) Transfers of missile technology or space launch vehicle technology cannot be safeguarded in a manner that would provide timely warning of diversion for military purposes.

(4) It has been United States policy since agreeing to the guidelines of the Missile Technology Control Regime to treat the sale or transfer of space launch vehicle technology as restrictively as the sale or transfer of missile technology.

(5) Previous congressional action on missile proliferation, notably title XVII of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101-510; 104 Stat. 1738), has explicitly supported the policy described in paragraph (4) through such actions as the statutory definition of the term “missile” to mean “a category I system as defined in the MTCR Annex, and any other unmanned delivery system of similar capability, as

well as the specially designed production facilities for these systems”.

(6) There is strong evidence that emerging national space launch programs in the Third World are not economically viable.

(7) The United States has been successful in dissuading other countries from pursuing space launch vehicle programs in part by offering to cooperate with those countries in other areas of space science and technology.

(8) The United States has successfully dissuaded other MTCR adherents, and countries who have agreed to abide by MTCR guidelines, from providing assistance to emerging national space launch programs in the Third World.

(b) STRICT INTERPRETATION OF MTCR.—The Congress supports the strict interpretation by the United States of the Missile Technology Control Regime concerning—

(1) the inability to distinguish space launch vehicle technology from missile technology under the regime; and

(2) the inability to safeguard space launch vehicle technology in a manner that would provide timely warning of the diversion of such technology to military purposes.

(c) SENSE OF CONGRESS.—It is the sense of Congress that the United States Government and the governments of other nations adhering to the Missile Technology Control Regime should be recognized by the international community for—

(1) the success of those governments in restricting the export of space launch vehicle technology and of missile technology; and

(2) the significant contribution made by the imposition of such restrictions to reducing the proliferation of missile technology capable of being used to deliver weapons of mass destruction.

(d) DEFINITION.—For purposes of this section, the term “Missile Technology Control Regime” or “MTCR” means the policy statement, between the United States, the United Kingdom, the Federal Republic of Germany, France, Italy, Canada, and Japan, announced on April 16, 1987, to restrict sensitive missile-relevant transfers based on the MTCR Annex, and any amendments thereto.

SEC. 1321.¹ NUCLEAR WEAPONS REDUCTION.

(a) FINDINGS.—The Congress makes the following findings:

- (1) On February 1, 1992, the President of the United States and the President of the Russian Federation agreed in a Joint Statement that “Russia and the United States do not regard

¹ 22 U.S.C. 5901 note.

each other as potential adversaries” and stated further that, “We will work to remove any remnants of cold war hostility, including taking steps to reduce our strategic arsenals”.

(2) In the Treaty on the Non-Proliferation of Nuclear Weapons, in exchange for the non-nuclear-weapon states agreeing not to seek a nuclear weapons capability nor to assist other non-nuclear-weapon states in doing so, the United States agreed to seek the complete elimination of all nuclear weapons worldwide, as declared in the preamble to the Treaty, which states that it is a goal of the parties to the Treaty to “facilitate the cessation of the manufacture of nuclear weapons, the liquidation of all their existing stockpiles, and the elimination from national arsenals of nuclear weapons and the means of their delivery” as well as in Article VI of the Treaty, which states that “each of the parties to the Treaty undertakes to pursue negotiations in good faith on effective measures relating to the cessation of the nuclear arms race at an early date and to nuclear disarmament”.

(3) Carrying out a policy of seeking further significant and continuous reductions in the nuclear arsenals of all countries, besides reducing the likelihood of the proliferation of nuclear weapons and increasing the likelihood of a successful extension and possible strengthening of the Treaty on the Non-Proliferation of Nuclear Weapons in 1995, when the Treaty is scheduled for review and possible extension, has additional benefits to the national security of the United States, including—

(A) a reduced risk of accidental enablement and launch of a nuclear weapon, and

(B) a defense cost savings which could be reallocated for deficit reduction or other important national needs.

(4) The Strategic Arms Reduction Talks (START) Treaty and the agreement by the President of the United States and the President of the Russian Federation on June 17, 1992, to reduce the strategic nuclear arsenals of each country to a level between 3,000 and 3,500 weapons are commendable intermediate stages in the process of achieving the policy goals described in paragraphs (1) and (2).

(5) The current international era of cooperation provides greater opportunities for achieving worldwide reduction and control of nuclear weapons and material than any time since the emergence of nuclear weapons 50 years ago.

(6) It is in the security interests of both the United States and the world community for the President and the Congress to begin the process of reducing the number of nuclear weapons in every country through multilateral agreements and other appropriate means.

(7) In a 1991 study, a committee of the National Academy of Sciences concluded that: “The appropriate new levels of nuclear weapons cannot be specified at this time, but it seems reasonable to the committee that U.S. strategic forces could in time be reduced to 1,000–2,000 nuclear warheads, provided that such a multilateral agreement included appropriate levels and

verification measures for the other nations that possess nuclear weapons. This step would require successful implementation of our proposed post-START U.S.-Soviet reductions, related confidence-building measures in all the countries involved, and multilateral security cooperation in areas such as conventional force deployments and planning.”

(b) UNITED STATES POLICY.—It shall be the goal of the United States—

(1) to encourage and facilitate the denuclearization of Ukraine, Byelarus, and Kazakhstan, as agreed upon in the Lisbon ministerial meeting of May 23, 1992;

(2) to rapidly complete and submit for ratification by the United States the treaty incorporating the agreement of June 17, 1992, between the United States and the Russian Federation to reduce the number of strategic nuclear weapons in each country's arsenal to a level between 3,000 and 3,500;

(3) to facilitate the ability of the Russian Federation, Ukraine, Byelarus, and Kazakhstan to implement agreed mutual reductions under the START Treaty, and under the Joint Understanding of June 16–17, 1992 between the United States and the Russian Federation, on an accelerated timetable, so that all such reductions can be completed by the year 2000;

(4) to build on the agreement reached in the Joint Understanding of June 16–17, 1992, by entering into multilateral negotiations with the Russian Federation, the United Kingdom, France, and the People's Republic of China, and, at an appropriate point in that process, enter into negotiations with other nuclear armed states in order to reach subsequent stage-by-stage agreements to achieve further reductions in the number of nuclear weapons in all countries;

(5) to continue and extend cooperative discussions with the appropriate authorities of the former Soviet military on means to maintain and improve secure command and control over nuclear forces;

(6) in consultation with other member countries of the North Atlantic Treaty Organization and other allies, to initiate discussions to bring tactical nuclear weapons into the arms control process; and

(7) to ensure that the United States assistance to securely transport and store, and ultimately dismantle, former Soviet nuclear weapons and missiles for such weapons is being properly and effectively utilized.

(c) ANNUAL REPORT.—By February 1 of each year, the President shall submit to the Congress a report on—

(1) the actions that the United States has taken, and the actions the United States plans to take during the next 12 months, to achieve each of the goals set forth in paragraphs (1) through (6) of subsection (b); and

(2) the actions that have been taken by the Russian Federation, by other former Soviet republics, and by other countries to achieve those goals.

Each such report shall be submitted in unclassified form, with a classified appendix if necessary.

Subtitle G—Other Matters

SEC. 1364. REPORT ON INTERNATIONAL MINE CLEARING EFFORTS IN REFUGEE SITUATIONS.

(a) FINDINGS.—The Congress finds that—

(1) an estimated 10–20 million mines are scattered across Cambodia, Afghanistan, Somalia, Angola, and other countries which have experienced conflict; and

(2) refugee repatriation and other humanitarian programs are being seriously hampered by the widespread use of anti-personnel mines in regional conflicts and civil wars.

(b) REPORT.—(1) The President shall provide a report on international mine clearing efforts in situations involving the repatriation and resettlement of refugees and displaced persons.

(2) The report shall include the following:

(A) An assessment of mine clearing needs in countries to which refugees and displaced persons are now returning, or are likely to return within the near future, including Cambodia, Angola, Afghanistan, Somalia and Mozambique, and an assessment of current international efforts to meet the mine clearing needs in the countries covered by the report.

(B) An analysis of the specific types of mines in the individual countries assessed and the availability of technology and assets within the international community for their removal.

(C) An assessment of what additional technologies and assets would be required to complete, expedite or reduce the costs of mine clearing efforts.

(D) An evaluation of the availability of technologies and assets within the United States Government which, if called upon, could be employed to augment or complete mine clearing efforts in the countries covered by the report.

(E) An evaluation of the desirability, feasibility and potential cost of United States assistance on either a unilateral or multilateral basis in such mine clearing operations.

(3) The report shall be submitted to the Congress not later than 180 days after the date of the enactment of this Act.

SEC. 1365.³ LANDMINE EXPORT MORATORIUM.

(a) FINDINGS.—The Congress makes the following findings:

(1) Anti-personnel landmines, which are specifically designed to maim and kill people, have been used indiscriminately in dramatically increasing numbers, primarily in insurgencies in poor developing countries. Noncombatant civilians, including tens of thousands of children, have been the primary victims.

²For amendment to 10 U.S.C. 1801–1805, see *Legislation on Foreign Relations Through 2008*, vol. I–B. Freestanding subsections of sec. 1322 may also be found in that volume.

³22 U.S.C. 2778 note.

(2) Unlike other military weapons, landmines often remain implanted and undiscovered after conflict has ended, causing untold suffering to civilian populations. In Afghanistan, Cambodia, Laos, Vietnam, and Angola, tens of millions of unexploded landmines have rendered whole areas uninhabitable. In Afghanistan, an estimated hundreds of thousands of people have been maimed and killed by landmines during the 14-year civil war. In Cambodia, more than 20,000 civilians have lost limbs and another 60 are being maimed each month from landmines.

(3) Over 35 countries are known to manufacture landmines, including the United States. However, the United States is not a major exporter of landmines. During the past ten years the Department of State has approved ten licenses for the commercial export of anti-personnel landmines valued at \$980,000, and during the past five years the Department of Defense has approved the sale of 13,156 anti-personnel landmines valued at \$841,145.

(4) The United States signed, but has not ratified, the 1981 Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed To Be Excessively Injurious or To Have Indiscriminate Effects. The Convention prohibits the indiscriminate use of landmines.

(5) When it signed the Convention, the United States stated: "We believe that the Convention represents a positive step forward in efforts to minimize injury or damage to the civilian population in time of armed conflict. Our signature of the Convention reflects the general willingness of the United States to adopt practical and reasonable provisions concerning the conduct of military operations, for the purpose of protecting non-combatants."

(6) The President should submit the Convention to the Senate for its advice and consent to ratification, and the President should actively negotiate under United Nations auspices or other auspices an international agreement, or a modification of the Convention, to prohibit the sale, transfer or export of anti-personnel landmines. Such an agreement or modification would be an appropriate response to the end of the Cold War and the promotion of arms control agreements to reduce the indiscriminate killing and maiming of civilians.

(7) The United States should set an example for other countries in such negotiations, by implementing a one-year moratorium on the sale, transfer or export of anti-personnel landmines.

(b) STATEMENT OF POLICY.—(1) It shall be the policy of the United States to seek verifiable international agreements prohibiting the sale, transfer, or export, and further limiting the use, production, possession, and deployment of anti-personnel landmines.

(2) It is the sense of the Congress that the President should actively seek to negotiate under United Nations auspices or other auspices an international agreement, or a modification of the Convention, to prohibit the sale, transfer, or export of anti-personnel landmines.

(c) MORATORIUM ON TRANSFERS OF ANTI-PERSONNEL LANDMINES ABROAD.—During the 16-year period beginning on October 23, 1992⁴—

(1) no sale may be made or financed, no transfer may be made, and no license for export may be issued, under the Arms Export Control Act, with respect to any anti-personnel landmine; and

(2) no assistance may be provided under the Foreign Assistance Act of 1961, with respect to the provision of any anti-personnel landmine.

(d)⁵ DEFINITION.—For purposes of this section, the term “anti-personnel landmine” means—

(1) any munition placed under, on, or near the ground or other surface area, or delivered by artillery, rocket, mortar, or similar means or dropped from an aircraft and which is designed to be detonated or exploded by the presence, proximity, or contact of a person;

(2) any device or material which is designed, constructed, or adapted to kill or injure and which functions unexpectedly when a person disturbs or approaches an apparently harmless object or performs an apparently safe act;

(3) any manually-emplaced munition or device designed to kill, injure, or damage and which is actuated by remote control or automatically after a lapse of time.

TITLE XIV—GENERAL PROVISIONS

* * * * *

PART D—ARMS CONTROL MATTERS

* * * * *

SEC. 1441. SENSE OF CONGRESS ON ADDITIONAL NUCLEAR RISK REDUCTION MEASURES

- (a) FINDINGS.—Congress makes the following findings:
 - (1) On June 1, 1990, the President of the United States and the President of the Soviet Union signed a document entitled “Joint Statement on Future Negotiations on Nuclear and Space Arms and Further Enhancing Strategic Stability”.
 - (2) In that document, the two nations pledged to pursue additional confidence-building and predictability measures “that would reduce the possibility of an outbreak of nuclear war as a result of accident, miscalculation, terrorism, or unexpected technological breakthrough, and would prevent possible incidents between them”.
 - (3) As a result of the recent increase in ethnic, national, economic, and political tensions within the Soviet Union, concern has heightened regarding the possible unauthorized or accidental use of Soviet nuclear weapons.
 - (4) It has been four years since the Department of Defense conducted a comprehensive review of its nuclear control procedures and failsafe mechanisms.
 - (5) The Joint Chiefs of Staff, in its 1990 Joint Military Net Assessment, concluded that with the recent changes in the global security environment “the risk of nuclear deterrence failing is assessed to be low and at this moment to be decreasing”.
 - (6) While Congress is concerned about continued strategic offensive and defensive modernization by the Soviet Union and the unpredictable status of the domestic situation in the Soviet

Union, at this stage the lessened prospects that nuclear weapons of the United States might have to be employed may afford an opportunity to reconsider past reluctance to use certain positive control measures, such as the installation of permissive action links (PALs) on nuclear weapons deployed at sea by the United States and the installation of post-launch destruct mechanisms on intercontinental ballistic missiles (ICBMs) and submarine launched ballistic missiles (SLBMs) deployed by the United States, as long as appropriate security measures can be developed to protect the integrity of such destruct mechanisms.

(7) On September 15, 1987, the United States and the Soviet Union agreed to establish Nuclear Risk Reduction Centers (NRRCs) in Washington and Moscow.

(8) The NRRCs have made a useful contribution to lowering the risks of accidental or inadvertent nuclear war and are capable of taking on expanded roles.

(b) SENSE OF CONGRESS.—It is the sense of Congress—

(1) that the President of the United States and the President of the Union of Soviet Socialist Republics are to be commended for their June 1, 1990, joint statement to pursue additional nuclear confidence-building measures; and

(2) that, in keeping with that joint statement, the President—

(A) should invite the Soviet Union to join with the United States in conducting separate but parallel, comprehensive reviews of each nation's own nuclear control procedures and failsafe mechanisms; and

(B) should propose to the Soviet Union that representatives of the two nations engage in discussions with the objective of agreeing on additional roles and functions that could be assigned to the Nuclear Risk Reduction Centers to further lessen the risks of the outbreak of nuclear war as the result of misinterpretation, miscalculation, or accident.

(c) REPORT ON ADDITIONAL MEASURES.—Not later than March 1, 1991, the President shall submit to Congress a report (in both classified and unclassified form) assessing additional nuclear risk reduction measures which could be implemented pursuant to the joint statement of June 1, 1990, referred to in subsection (b), including the following:

(1) Assigning to the Nuclear Risk Reduction Centers (NRRCs) such expanded roles as the following:

(A) Serving as a forum for discussions between the two nations on responding to possible nuclear terrorism.

(B) Transmitting notifications that may be required under future arms control treaties.

(C) Transmitting non-urgent notifications and information requests required under Article 5 of the 1971 Agreement on Measures to Reduce the Risk of Outbreak of Nuclear War Between the United States and the Union of Soviet Socialist Republics.

(D) Providing a forum for discussions between the United States and the Soviet Union on restricting nuclear, chemical, and missile proliferation.

- (E) Serving as a meeting place for high-level military discussions on nuclear doctrines, forces and activities, and regional security concerns.
- (2) Installation of post-launch destruct mechanisms on all intercontinental ballistic missiles (ICBMs) and submarine launched ballistic missiles (SLBMs) deployed by the United States.
- (3) Installation by the United States of permissive action links (PALs) on all nuclear weapons at sea.

SEC. 1442. START AND STRATEGIC MODERNIZATION

- (a) FINDINGS.—The Congress makes the following findings:
- (1) The United States and the Soviet Union are engaged in the Strategic Arms Reduction Talks (START) in Geneva.
- (2) In the Joint Statement on the Treaty on Strategic Offensive Arms signed in June 1990, the two sides reaffirmed their determination to have a START agreement completed and ready for signature by the end of 1990.
- (3) Under the provisions of a START agreement, both sides will carry out significant reductions in strategic offensive arms.
- (4) In the Joint Statement on Future Negotiations on Nuclear and Space Arms and Further Enhancing Strategic Stability, the United States and the Soviet Union agreed to pursue new talks on strategic offensive arms, and on the relationship between strategic offensive and defensive arms.
- (5) The objectives of these negotiations will be to reduce further the risk of outbreak of war, particularly nuclear war, and to ensure strategic stability, transparency and predictability through further stabilizing reductions in the strategic arsenals of both countries.
- (6) The President's effort to negotiate such agreements is dependent upon the maintenance of a vigorous research and development and modernization program as required for a prudent defense posture.
- (7) The Soviet Union has maintained a robust strategic modernization program throughout the course of the START negotiations which continues today.
- (b) It is the sense of the Congress that—
- (1) the Congress fully supports United States efforts to enhance strategic stability; and
- (2) the United States should pursue stabilizing strategic arms reduction agreements while maintaining a vigorous research and development and modernization program for United States strategic forces as required for a prudent defense posture.

SEC. 1443. STRATEGIC ARMS REDUCTION TALKS AGREEMENT

- (a) SENSE OF CONGRESS.—It is the sense of the Congress that the President, before concluding an agreement in the Strategic Arms Reduction Talks, should provide to Congress—
- (1) a report on whether the SS-23 INF missiles of Soviet manufacture, which the Soviet Union has confirmed have been stationed in the territory of the former German Democratic Republic and in the territories of Czechoslovakia and Bulgaria, constitute a violation of the INF Treaty or constitute deception

in the INF negotiations, and whether the United States has reliable assurances that those missiles will be destroyed; and

(2) a report on whether the Krasnoyarsk radar, which the Foreign Minister of the Soviet Union admitted is a clear violation of the 1972 ABM Treaty, has been verifiably dismantled in accordance with United States criteria.

(b) FORM OF REPORTS.—The reports under paragraphs (1) and (2) of subsection (a) should be submitted in both classified and unclassified form.

(2) to discourage countries and private persons in other countries from aiding and abetting any states from acquiring such weapons, material, and technology;

(3) to strengthen United States and existing multilateral export controls to prohibit the flow of materials, equipment, and technology that would assist countries in acquiring the ability to produce or acquire missiles that can deliver weapons of mass destruction, including missiles, warheads and weaponization technology, targeting technology, test and evaluation technology, and range and weapons effect measurement technology; and

(4) with respect to the Missile Technology Control Regime (“MTCR”) and its participating governments—

(A) to improve enforcement and seek a common and stricter interpretation among MTCR members of MTCR principles;

(B) to increase the number of countries that adhere to the MTCR; and

(C) to increase information sharing among United States agencies and among governments on missile technology transfer, including export licensing, and enforcement activities.

TITLE X—MATTERS RELATING TO ARMS CONTROL

SEC. 1001. PRESIDENTIAL REPORT ON POSSIBLE EFFECTS OF A STRATEGIC ARMS REDUCTION AGREEMENT ON TRIDENT PROGRAM

(a) REPORT.—Not later than April 1, 1990, the President shall submit to Congress a comprehensive report on the Trident program under a possible Strategic Arms Reduction Talks (START) agreement. The report shall address the following issues:

(1) The objective for the size of the Trident submarine force fleet both with and without a START agreement.

(2) The implications for United States strategic force posture under a START agreement of a fleet of 21 or more Trident submarines, each with 192 warheads on 24 ballistic missiles, under two different assumptions, as follows:

(A) All such warheads are accountable under START limits.

(B) The warheads on one-to-three Trident submarines are not accountable under START limits.

(3) A net assessment of the implications for United States security of a START agreement that allows the Soviet Union as well as the United States to have an equivalent number of warheads on submarines that are not accountable under START limits.

(4) The technical feasibility and cost implications of various options for reducing the number of warheads on Trident submarines, including those submarines already built, those under construction, and those yet to be built.

(5) The verification challenges to the United States posed by such options if the Soviet Union were to adopt them in its ballistic missile submarine forces.

(b) FORM OF REPORT.—The President shall submit the report under subsection (a) in both classified and unclassified versions.

(c) WAIVER.—The President may waive the requirements of subsection (a) if he has signed a START agreement or other strategic

arms reduction agreement with the Soviet Union before the date by which the report is otherwise required to be submitted.

SEC. 1002. PRESIDENTIAL REPORT ON THE VERIFICATION WORK THAT HAS BEEN CONDUCTED WITH REGARD TO MOBILE ICBMs UNDER A START AGREEMENT

(a) FINDINGS.—Congress makes the following findings:

(1) The United States must have confidence that any agreement achieved through the Strategic Arms Limitation Talks (START) in Geneva will be effectively verifiable.

(2) The position of the United States at the START negotiations, from 1985 until September 1989, was to ban the deployment of mobile intercontinental ballistic missiles (ICBMs) under a START regime unless an effective verification regime could be identified and implemented. In September 1989, the United States announced that it was withdrawing its proposal for the ban of mobile ICBMs, contingent upon Congress providing funds for mobile ICBMs to be deployed by the United States.

(3) The Soviet Union has deployed two mobile ICBM systems, the SS–24 and the SS–25.

(4) The President conducted a strategic review during the period between January 20, 1989, and the resumption of the START negotiations on June 15, 1989.

(b) PRESIDENTIAL REPORT.—Not later than March 31, 1990, the President shall submit to Congress a report (in classified and unclassified form) describing all studies that have been performed between March 1985 and August 1989 by agencies of the United States Government with regard to the capability of the United States to monitor and verify a START agreement which allows mobile ICBMs. The report shall include the following:

(1) A description of each study conducted by United States Government agencies during the strategic review referred to in subsection (a)(4) to determine the ability of the United States to verify limitations on mobile ICBMs of the Soviet Union under a START agreement, including a summary of the conclusions reached under each such study.

(2) A description of any so-called “Red Team” study conducted between March 1985 and August 1989 with regard to the existence of mobile ICBMs under a START regime, including a summary of the conclusions reached under each such study.

(3) A description of each study conducted by United States Government agencies between March 1989 and August 1989 to assess the value of various options relating to the verification of mobile ICBMs (such options to include the option known as “tagging” and the establishment of designated deployment areas), including a summary of the conclusions reached under each such study.

SEC. 1003. SENSE OF CONGRESS ON START TALKS

Congress hereby reaffirms the sense of Congress expressed in the second session of the 100th Congress (in section 902 of the National Defense Authorization Act, Fiscal Year 1989 (Public Law

100–456; 102 Stat. 2031))¹ that any agreement negotiated by the President to achieve a reduction and limitation on strategic arms (through the Strategic Arms Reduction Talks in Geneva or otherwise)—

(1) should not prevent the United States from deploying a force structure under the agreement which emphasizes survivable strategic systems and, in particular, should not in any way compromise the security of the United States ballistic-missile carrying submarine force; and

(2) should not prohibit or limit the deployment of non-nuclear cruise missiles.

SEC. 1004. REPORT ON ASYMMETRIES IN CAPABILITIES OF UNITED STATES AND SOVIET UNION TO PRODUCE AND DEPLOY BALLISTIC MISSILE DEFENSE SYSTEMS

(a) **STUDY REQUIRED.**—The Secretary of Defense shall conduct a study on the asymmetry in the near-term capabilities of the United States and the Soviet Union to deploy ballistic missile defenses beyond those permitted under the 1972 ABM Treaty. The study shall be conducted in coordination with the Director of Central Intelligence.

(b) **MATTERS TO BE INCLUDED IN STUDY.**—Subject to subsection (e), the study shall include the following:

(1) An assessment of the likelihood of a breakout by the Soviet Union from the 1972 ABM Treaty in the next five years and the assumptions used for that assessment.

(2) An assessment of the capability of the Soviet Union to exploit a situation in which the limitations of the 1972 ABM Treaty do not apply, including a detailed assessment of the capabilities of the Soviet Union to produce—

(A) space-based anti-ballistic missile (ABM) launchers and interceptors;

(B) ground-based ABM launchers and interceptors; and

(C) the infrastructure for ABM battle management command, control, and communications.

(3) An assessment of the production base of the United States for production of the elements specified in subparagraphs (A), (B), and (C) of paragraph (2), including an estimate of how quickly the United States could respond to a breakout by the Soviet Union in each of those elements.

(c) **STUDY TO ASSESS POSSIBLE UNITED STATES RESPONSE TO SOVIET BREAKOUT.**—(1) The study shall also include an assessment of the immediate and long-term actions that could be taken by the United States to respond to redress any asymmetry in the potential of the United States and the Soviet Union to exploit a breakout by the Soviet Union from the 1972 ABM Treaty.

(2) That assessment shall include an evaluation of the actions that would be necessary to support—

(A) a one-site ABM system (as allowed under the Treaty); or

(B) an expanded ABM system unconstrained by the limitations of the 1972 ABM Treaty.

¹Sec. 902 of Public Law 100–456 stated a sense of the Congress on START talks identical to paras. (1) and (2).

(3) Such assessment shall specifically address the required actions, and the costs associated with those actions, to support both the one-site ABM system and the expanded ABM system to be evaluated under paragraph (2), including (A) the upgrading and expansion of the existing United States radar network, (B) the use of existing inactive ABM components at Grand Forks, North Dakota, and (C) the development and deployment of other required components.

(d) REPORT.—Not later than the date on which the budget for fiscal year 1991 is submitted to Congress pursuant to section 1105 of title 31, United States Code, the Secretary of Defense shall submit to Congress a report on the study under subsection (a). The report shall be submitted in both classified and unclassified form. The report shall specify the results of the study under subsection (a), including each matter required to be included in the study under this section.

(e) WAIVER OF REQUIRED STUDY FEATURE.—The study under subsection (a) need not include the assessment referred to in subsection (b)(1) if, before the date of the submission of the report required by subsection (d) with respect to the study, the President submits to Congress the report required by section 907 of the National Defense Authorization Act, Fiscal Year 1989 (Public Law 100–456; 102 Stat. 2034), regarding antiballistic missile capabilities and activities of the Soviet Union (such report having been required by subsection (c) of such section to be submitted not later than January 1, 1989).

(f) 1972 ABM TREATY DEFINED.—For purposes of this section, the term “1972 ABM Treaty” means the Treaty Between the United States of America and the Union of Soviet Socialist Republics on the Limitations of Anti-Ballistic Missiles, signed at Moscow on May 26, 1972.

SEC. 1005. SENSE OF THE CONGRESS WITH RESPECT TO ACCIDENTAL LAUNCH PROTECTION

(a) FINDINGS.—Congress makes the following findings:

(1) The Strategic Defense Initiative (SDI) has made substantial progress in developing technologies to defend the United States from a possible ballistic missile attack, be it deliberate or accidental.

(2) Ground-based elements and their associated adjuncts and technologies represent the most mature technologies within the SDI program and should therefore receive priority by the Strategic Defense Initiative Organization.

(3) The United States is a signatory to the 1972 Anti-Ballistic Missile Treaty.

(4) There have been several accidents involving ballistic missiles, including the loss of a submarine of the Soviet Union due to inadvertent missile ignition and the inadvertent landing in China of a test missile of the Soviet Union.

(5) The continued proliferation of offensive ballistic missile forces by non-superpower countries hostile to the United States and our allies raises the possibility of future nuclear threats.

(b) REAFFIRMATION OF SENSE OF CONGRESS.—Congress hereby reaffirms the sense of Congress expressed in section 224(b) of the

National Defense Authorization Act, Fiscal Year 1989 (Public Law 100-456; 102 Stat. 1942)² stating—

(1) that the Secretary of Defense should direct the Strategic Defense Initiative Organization to give priority to development of technologies and systems for a system capable of protecting the United States from the accidental launch of a strategic ballistic missile against the continental United States; and

(2) that such development of an accidental launch protection system should be carried out with an objective of ensuring that such system is in compliance with the 1972 Anti-Ballistic Missile Treaty.

(c) SUBMISSION OF PREVIOUSLY REQUIRED REPORT.—The Secretary of Defense shall submit to Congress forthwith the report on the status of planning for development of a deployment option for such an accidental launch protection system that was required by section 224(c) of that Act to be submitted not later than March 1, 1989.

SEC. 1006. CONGRESSIONAL FINDINGS AND SENSE OF CONGRESS CONCERNING THE KRASNOYARSK RADAR

(a) REAFFIRMATION OF PRIOR FINDINGS.—Congress hereby reaffirms the findings made with respect to the large phased-array radar of the Soviet Union known as the “Krasnoyarsk radar” in paragraphs (1) through (6) of section 902(a) of the National Defense Authorization Act for Fiscal Years 1988 and 1989 (Public Law 100-180; 101 Stat. 1135), as follows:

(1) The 1972 Anti-Ballistic Missile Treaty prohibits each party from deploying ballistic missile early warning radars except at locations along the periphery of its national territory and oriented outward.

(2) The 1972 Anti-Ballistic Missile Treaty prohibits each party from deploying an ABM system to defend its national territory and from providing a base for any such nationwide defense.

(3) Large phased-array radars were recognized during negotiation of the Anti-Ballistic Missile Treaty as the critical long lead-time element of a nationwide defense against ballistic missiles.

(4) In 1983 the United States discovered the construction, in the interior of the Soviet Union near the town of Krasnoyarsk, of a large phased-array radar that has subsequently been judged to be for ballistic early warning and tracking.

(5) The Krasnoyarsk radar is more than 700 kilometers from the Soviet-Mongolian border and is not directed outward but instead faces the northeast Soviet border more than 4,500 kilometers away.

(6) The Krasnoyarsk radar is identical to other Soviet ballistic missile early warning radars and is ideally situated to fill the gap that would otherwise exist in a nationwide Soviet ballistic missile early warning radar network.

²Sec. 224(b) of Public Law 100-456, stated the sense of the Congress identical to text in paras. (1) and (2).

(b) **FURTHER FINDINGS.**—In addition to the findings referred to in subsection (a), Congress finds with respect to the Krasnoyarsk radar that—

(1) in 1987 the President declared that radar to be a clear violation of the 1972 Anti-Ballistic Missile Treaty;

(2) until the meeting between the Secretary of State and the Foreign Minister of the Soviet Union at Jackson Hole, Wyoming, in September 1989, the Soviet Union had rejected demands by the United States that it dismantle that radar without conditions, but the joint statement issued following that meeting states that the government of the Soviet Union “had decided to completely dismantle the Krasnoyarsk radar station”; and

(3) on October 23, 1989, the Foreign Minister of the Soviet Union conceded that the Krasnoyarsk radar is a violation of the 1972 Anti-Ballistic Missile Treaty.

(c) **SENSE OF CONGRESS.**—It is the sense of Congress—

(1) that the Soviet Union should dismantle the Krasnoyarsk radar (as announced in the joint statement referred to in subsection (b)(2)) expeditiously and without conditions; and

(2) that until such radar is completely dismantled it will remain a clear violation of the 1972 Anti-Ballistic Missile Treaty.

SEC. 1007. SENSE OF CONGRESS CONCERNING EXPLORING THE FEASIBILITY OF TREATY LIMITATIONS ON WEAPONS CAPABLE OF THREATENING MILITARY SATELLITES

It is the sense of Congress that, as soon as practicable, the President should explore the feasibility of a mutual and verifiable treaty with the Soviet Union which places the strictest possible limitations, consistent with the security interests of the United States and its allies, on the development, testing, production, and deployment of weapons capable of directly threatening United States military satellites.

SEC. 1008. REPORT ON SATELLITE SURVIVABILITY

(a) **REQUIREMENT FOR REPORT.**—The President shall submit to Congress a comprehensive report on United States antisatellite weapon activities and the survivability of United States satellites against current and potential antisatellite weapons deployed by the Soviet Union. The report shall be submitted by March 15, 1990, and shall be submitted in both classified and unclassified versions.

(b) **MATTERS TO BE INCLUDED IN REPORT.**—The report required by subsection (a) shall include the following:

(1) Detailed information (including funding profiles, expected capabilities, and schedules for development, testing, and deployment) on all United States antisatellite weapon programs.

(2) An analysis of the antisatellite potential of the anticipated deployed version of each Strategic Defense Initiative technology capable of damaging or destroying objects in space.

(3) An assessment of the threat that would be posed to satellites of the United States if the technologies described in paragraphs (1) and (2) were to be tested by the Soviet Union, at levels of performance equal to those intended by the United States, and developed into weapons for damaging or destroying objects in space.

(4) A review of arms control options and satellite survivability measures (including cost data) that would improve the survivability of current and future United States military satellite systems.

(5) A review of alternative means of providing the support to military forces of the United States that is currently provided by United States satellites if those satellites become vulnerable to attack as the result of the deployment by the Soviet Union of antisatellite weapons with the levels of performance contemplated in paragraph (3).

SEC. 1009. REPORT ON THE DESIRABILITY OF NEGOTIATIONS WITH THE SOVIET UNION REGARDING LIMITATIONS ON ANTI-SATELLITE CAPABILITIES

(a) **REPORT BY THE PRESIDENT.**—The President shall submit to Congress a comprehensive report regarding the desirability of an agreement with the Soviet Union to impose limitations on antisatellite capabilities. The President shall include in such report his determination of whether a ban or other limitations on some or all antisatellite weapons would be verifiable and, if so, whether such a ban or other limitation would be in the national interest of the United States.

(b) **MATTERS RELATING TO VERIFICATION.**—In making the determination referred to in subsection (a), the President shall—

(1) consider the extent to which on-site inspection measures (as well as national technical means for verification) can increase confidence in the ability of the United States to monitor and verify various agreed-upon antisatellite limitations; and

(2) examine various arms control possibilities, including—

(A) a total ban on antisatellite capability by both the United States and the Soviet Union;

(B) a ban or other limitation on antisatellite weapons with the potential to attack satellites at altitudes above the Van Allen belt; and

(C) a ban or other limitation on antisatellite weapons that operate only in low-Earth orbit.

(c) **MATTERS RELATING TO DETERRENCE AND WAR FIGHTING REQUIREMENTS.**—In the report required by subsection (a), the President shall also address the following:

(1) The contribution an antisatellite capability of the United States can make toward enhancing deterrence.

(2) The contribution an antisatellite capability can make toward meeting the war fighting requirements of the United States and how such a capability enhances force survivability.

(3) The extent to which (based upon a net assessment) the United States would be better able to meet its war fighting requirements and deterrence objectives if—

(A) the Soviet Union possessed an antisatellite capability and the United States did not possess an antisatellite capability;

(B) neither the United States nor the Soviet Union possessed an antisatellite capability;

(C) the United States and the Soviet Union both possessed a limited antisatellite capability;

(D) the United States and the Soviet Union both possessed an unrestricted antisatellite capability.

(d) **SUBMISSION OF REPORT.**—The report required by subsection (a) shall be submitted to Congress not later than May 1, 1990, and shall be submitted in both classified and unclassified versions.

SEC. 1010. REPORT ON VERIFICATION OF COMPLIANCE WITH AGREEMENTS TO LIMIT NUCLEAR TESTING

(a) **REPORT REQUIREMENT.**—The Secretary of Energy shall prepare a report, in classified form, assessing the possible effects on the abilities of the United States to verify compliance by the Soviet Union with any agreement (presently in effect or under negotiation) to limit testing of nuclear devices should any information or data now obtained under any cooperative agreement with any controlled country and used to verify the degree of such compliance be curtailed or become unavailable due to a change in, or severing of, diplomatic relations with such a controlled country. The report shall assess, in particular, whether compliance by the Soviet Union with any such agreement to limit testing of nuclear devices can be fully and reliably verified should such a cooperative agreement be curtailed or terminated. The report shall be prepared in consultation with the Secretary of Defense.

(b) **SUBMISSION OF REPORT.**—The report prepared under subsection (a) shall be submitted to Congress not later than six months after the date of the enactment of this Act.

(c) **CONTROLLED COUNTRY DEFINITION.**—For purposes of this section, the term “controlled country” means a country listed in section 620(f)(1) of the Foreign Assistance Act of 1961 (22 U.S.C. 2370(f)(1)).

SEC. 1011. SENSE OF CONGRESS ON ARMS CONTROL NEGOTIATIONS AND UNITED STATES MODERNIZATION POLICY

(a) **FINDINGS.**—Congress makes the following findings:

(1) The United States is currently engaged in a wide range of arms control negotiations in the areas of strategic nuclear forces, strategic defenses, conventional force levels, chemical weapons, and security and confidence building measures.

(2) On May 30, 1989, the North Atlantic Treaty Organization issued a “Comprehensive Concept on Arms Control and Disarmament” which placed a special emphasis on arms control as a means of enhancing security and stability in Europe.

(3) The President has stated that arms control is one of the highest priorities of the United States in the area of security and foreign policy and that the United States will pursue a dynamic, active arms control dialogue with the Soviet Union and the other Warsaw Pact countries.

(4) The United States has already made major proposals at the Conventional Forces in Europe Talks, convened on March 6, 1989, which would result in a dramatic reduction in Soviet and Warsaw Pact conventional forces.

(5) The President, on September 25, 1989, made a major new arms control proposal in the area of chemical weapons.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the President is to be commended for pursuing a wide array of arms control initiatives in the context of a multitude

of arms control negotiations, all of which have been designed to enhance global security and result in meaningful, militarily significant reductions in military forces;

(2) Congress fully supports the arms control efforts of the President and encourages the government of the Soviet Union to respond favorably to United States arms control proposals which would require the Soviet Union to reduce its massive quantitative superiority in military weaponry;

(3) the President should seek arms control agreements that would not limit the United States to levels of forces inferior to the limits provided for the Soviet Union; and

(4) the President's efforts to negotiate such agreements is dependent upon the maintenance of a vigorous research and development and modernization program as required for a prudent defense posture.

(c) **REAFFIRMATION OF PROHIBITION RELATING TO ENTERING INTO CERTAIN ARMS CONTROL AGREEMENTS.**—Congress hereby reaffirms the proviso in the first sentence of section 33 of the Arms Control and Disarmament Act (22 U.S.C. 2573) that no action may be taken under that Act or any other Act that will obligate the United States to disarm or to reduce or limit the Armed Forces or armaments of the United States, except pursuant to the treaty-making power of the President under the Constitution or unless authorized by further affirmative legislation by the Congress.

SEC. 1012. REPORT ON EFFECT OF SPACE NUCLEAR REACTORS ON GAMMA-RAY ASTRONOMY MISSIONS

Not later than April 30, 1990, the President shall submit to Congress a report on the potential for interference with gamma-ray astronomy missions that could be caused by the placement in Earth orbit of space nuclear reactors.

SEC. 1013. SENSE OF CONGRESS ON CHEMICAL WEAPONS NEGOTIATIONS

(a) **FINDINGS.**—Congress makes the following findings:

(1) The proliferation of chemical weapons and the repeated use of chemical weapons represent a grave threat to the security and interests of the United States.

(2) The most comprehensive and effective response to the threat posed by the proliferation of chemical weapons is the completion of an effectively verifiable treaty banning the production and stockpiling of all chemical weapons.

(3) The successful completion of a treaty banning all chemical weapons through the negotiations at the multinational United Nations Conference on Disarmament in Geneva should be one of the highest arms control priorities of the United States.

(b) **SENSE OF CONGRESS.**—In light of the findings in subsection (a), it is the sense of Congress that—

(1) the President should continue ongoing efforts to establish an agreement with the Soviet Union and other countries establishing a mutual and effectively verifiable agreement to stop the production, proliferation, and stockpiling of all lethal chemical weapons; and

(2) the United States negotiators in Geneva should take concrete steps to initiate proposals regarding the composition of the verification regime for such an agreement that will meet the legitimate concerns of other parties while addressing the security concerns of the United States.

SEC. 1014. UNITED STATES PROGRAM FOR ON-SITE INSPECTIONS UNDER ARMS CONTROL AGREEMENTS

(a) FINDINGS CONCERNING ON-SITE INSPECTION PERSONNEL.—Congress makes the following findings:

(1) The United States is currently engaged in multilateral and bilateral negotiations seeking to achieve treaties or agreements to reduce or eliminate various types of military weapons and to make certain reductions in military personnel levels. These negotiations include negotiations for (A) reductions in strategic forces, conventional armaments, and military personnel levels, (B) regimes for monitoring nuclear testing, and (C) the complete elimination of chemical weapons.

(2) Requirements for monitoring these possible treaties or agreements will be extensive and will place severe stress on the monitoring capabilities of United States national technical means.

(3) In the case of the INF Treaty, the United States and the Soviet Union negotiated, and are currently using, on-site inspection procedures to complement and support monitoring by national technical means. Similar on-site inspection procedures are being negotiated for inclusion in possible future treaties and agreements referred to in paragraph (1).

(4) During initial implementation of the provisions of the INF Treaty, the United States was not fully prepared for the personnel requirements for the conduct of on-site inspections. The Director of Central Intelligence has stated that on-site inspection requirements for any strategic arms reduction treaty or agreement will be far more extensive than those for the INF Treaty. The number of locations within the Soviet Union that would possibly be subject to on-site inspections under a START agreement have been estimated to be approximately 2,500 (compared to 120 for the INF Treaty).

(5) On-site inspection procedures are likely to be an integral part of any future arms control treaty or agreement.

(6) Personnel requirements will be extensive for such on-site inspection procedures, both in terms of numbers of personnel and technical and linguistic skills. Since verification requirements for the INF Treaty are already placing severe stress on current personnel resources, the requirements for verification under START and other possible future treaties and agreements may quickly exceed the current number of verification personnel having necessary technical and language skills.

(7) There is a clear need for a database of the names of individuals who are members of the Armed Forces or civilian employees of the United States Government, or of other citizens and nationals of the United States, who are qualified (by reason of technical or language skills) to participate in on-site inspections under an arms control treaty or agreement.

(8) The organization best suited to establish such a database is the On-Site Inspection Agency (OSIA) of the Department of Defense, which was created by the President to implement (for the United States) the on-site inspection provisions of the INF Treaty.

(b) STATUS OF THE OSIA.—(1) Congress finds that—

(A) the Director of the OSIA (currently a brigadier general of the Army) is appointed by the Secretary of Defense with the concurrence of the Secretary of State and the approval of the President;

(B) the Secretary of Defense provides to the Director appropriate policy guidance formulated by the interagency arms control mechanism established by the President;

(C) most of the personnel of the OSIA are members of the Armed Forces (who are trained and paid by the military departments within the Department of Defense) and include linguists, weapons specialists, and foreign area specialists;

(D) the Department of Defense provides the OSIA with substantially all of its administrative and logistic support (including military air transportation for inspections in the Soviet Union and Eastern Europe); and

(E) the facilities in Europe and the United States at which OSIA personnel escort personnel of the Soviet Union conducting inspections under the on-site inspection terms of the INF Treaty are under the jurisdiction of the Department of Defense (or under the jurisdiction of entities that are contractors with the Department of Defense).

(2) In light of the findings in paragraph (1) and the report submitted pursuant to section 909 of Public Law 100–456 entitled “Report to the Congress on U.S. Monitoring and Verification Activities Related to the INF Treaty” (submitted on July 27, 1989), Congress hereby determines that by locating the On-Site Inspection Agency within the Department of Defense for the purposes of administrative and logistic support and operational guidance, and integrating on-site inspection responsibilities under the INF Treaty with existing organizational activities of that Department, the President has been able to ensure that sensitive national security assets are protected and that obligations of the United States under that treaty are fulfilled in an efficient and cost-effective manner.

(c) ESTABLISHMENT OF PERSONNEL DATABASE.—(1) In light of the findings in subsection (a), the Director of the On-Site Inspection Agency shall establish a database consisting of the names of individuals who could be assigned or detailed (in the case of Government personnel) or employed (in the case of non-Government personnel) to participate in the conduct of on-site inspections under any future arms control treaty or agreement that includes provisions for such inspections.

(2) The database should be composed of the names of individuals with skills (including linguistic and technical skills) necessary for the conduct of on-site inspections.

(d) INF TREATY DEFINED.—For purposes of this section, the term “INF Treaty” means the Treaty Between the United States and the

Union of Soviet Socialist Republics on the Elimination of Their Intermediate-Range and Shorter-Range Missiles, signed in Washington, DC, on December 8, 1987.

TITLE IX—MATTERS RELATING TO ARMS CONTROL

SEC. 901. SENSE OF CONGRESS ON EXPANDING CONFIDENCE-BUILDING MEASURES

(a) FINDINGS.—Congress makes the following findings:

(1) Approximately two years have passed since the Conference on Confidence- and Security-Building Measures and Disarmament in Europe (CDE) adjourned in Stockholm following the adoption of measures designed to increase openness and predictability of military activities in Europe.

(2) To date, there have been seven formal observations and challenge inspections which have been conducted in accordance with the Stockholm agreements.

(3) The military leaders of the North Atlantic Treaty Organization have concluded that the Stockholm observations and inspections have positively contributed to an improved understanding of Warsaw Pact forces and capabilities.

(4) The Conventional Stability Talks (CST), which may begin before the end of 1988, will likely require careful and potentially prolonged negotiation.

(5) New negotiations will also begin under the auspices of the Conference on Security and Cooperation in Europe (CSCE) as a follow-on to the Stockholm conference.

(6) The confidence-building measures established at Stockholm could, if expanded, contribute significantly to the success of the CDE follow-on conference and also to the establishment of a procedural framework for verifying a future CST agreement.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the President should give high priority to developing, in coordination with the North Atlantic Treaty Organization allies of the United States, stabilizing and verifiable proposals for expanding the regime of confidence-building measures in conjunction with the follow-on to the Conference on Confidence- and Security-Building

Measures and Disarmament in Europe (CDE) and the new Conventional Stability Talks (CST).

SEC. 902.¹ SENSE OF CONGRESS ON START TALKS

It is the sense of Congress that any agreement negotiated by the President to achieve a reduction and limitation on strategic arms (through the strategic arms reduction talks in Geneva or otherwise)—

(1) should not prevent the United States from deploying a force structure under the agreement which emphasizes survivable strategic systems and, in particular, should not in any way compromise the security of the United States ballistic-missile carrying submarine force, and

(2) should not prohibit or limit the deployment of non-nuclear cruise missiles.

SEC. 903. SENSE OF CONGRESS CONCERNING ROLE OF CONGRESS IN ARMS CONTROL AND DEFENSE POLICIES

It is the sense of Congress—

(1) that Congress, in exercising its authority under the Constitution “to raise and support Armies” and “provide and maintain Navies” and, in the case of the Senate, to advise and consent to the ratification of treaties, has a role to play in formulating arms control and defense policies of the United States, but

(2) that Congress, in exercising that authority, should not usurp, undermine, or interfere with the authority of the President under the Constitution to negotiate and implement treaties, especially in the case of treaties which affect arms control and defense policies of the United States.

SEC. 904. SENSE OF CONGRESS ON THE FIVE-YEAR ABM TREATY REVIEW

(a) FINDINGS.—Congress makes the following findings:

(1) The Treaty Between the United States of America and the Union of Soviet Socialist Republics on the Limitation of Anti-Ballistic Missile Systems, With Associated Protocol (hereinafter in this section referred to as the “ABM Treaty” or the “Treaty”) in Article XIV, Paragraph 2, reads as follows: “Five years after entry into force of this Treaty, and at five-year intervals thereafter, the Parties shall together conduct a review of this Treaty.”

(2) Such Treaty entered into force on October 3, 1972, and the third five-year anniversary date specified for the conduct of the review contemplated in the Treaty, therefore, was October 3, 1987.

(3) As a fundamental principle of the canons of legal construction, a specified number of years after a specific and determinable date means the specified anniversary of such date and therefore the third five-year review of the ABM Treaty should have begun on or about October 3, 1987.

(4) The Parties to the Treaty have not met as required by the Treaty because the United States refused to meet on the

¹Sec. 1003 of the National Defense Authorization Act for Fiscal Years 1990 and 1991 (Public Law 101-189; 103 Stat. 1541) reaffirmed this sense of the Congress.

date specified in the Treaty for such meeting (October 3, 1987) and has refused since such date to propose a date for the meeting.

(b) SENSE OF CONGRESS.—In light of the findings in subsection (a), it is the sense of Congress that the President should, without any further delay, propose an early date to conduct the overdue five-year review of the ABM Treaty. The President shall inform Congress of the results of that review immediately after it takes place.

SEC. 905. REVISION OF ANNUAL REPORT ON SOVIET COMPLIANCE WITH ARMS CONTROL COMMITMENTS

(a)² * * *

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect beginning with the report to be submitted under section 1002 of the Department of Defense Authorization Act, 1986, in 1990.

SEC. 906.³ * * * [Repealed—1993]

²Sec. 905(a) had amended sec. 1002 of the Department of Defense Authorization Act, 1986 (Public Law 99-145; 22 U.S.C. 2592a). Sec. 403(a)(1) of the Act For Reform In Emerging New Democracies and Support and Help for Improved Partnership with Russia, Ukraine and Other New Independent States ("FRIENDSHIP Act") (Public Law 103-199; 107 Stat. 2325) repealed sec. 1002 of Public Law 99-145.

³Formerly at 22 U.S.C. 2592b. Sec. 403(b)(1) of Public Law 103-199 (107 Stat. 2325) repealed sec. 906. The former sec. 906 read as follows:

"SEC. 906. ANNUAL REPORT ON ARMS CONTROL STRATEGY

"(a) IN GENERAL.—The President shall submit to Congress each year, not later than December 1, a report containing a comprehensive discussion and analysis of the arms control strategy of the United States. The President shall include in each such report the following:

"(1) A description of the nature and sequence of the future arms control efforts of the United States.

"(2) A net assessment of the current effects of arms control agreements on the status of, and trends in, the military balance between the United States and the Soviet Union and between the North Atlantic Treaty Organization (NATO) and the Warsaw Pact.

"(3) A comprehensive data base on the military balance of forces of the United States and the Soviet Union, and the balance of forces of NATO and the Warsaw Pact countries, that are affected by arms control agreements in existence as of the time of the report between the United States and the Soviet Union and between NATO and the Warsaw Pact, including an explanation of the methodology used to analyze the effects on such forces.

"(4) A net assessment of the effect that proposed arms control agreements between the United States and the Soviet Union and between NATO and the Warsaw Pact would likely have on United States force plans and contingency plans, including an assessment of the effect that such proposed agreements would have on the risks and costs to the United States.

"(5) An assessment of the effect that proposed treaty sub-ceilings, asymmetries, and other factors or qualifications affecting a treaty or arms control proposal would have on the military balance between the United States and the Soviet Union and between NATO and the Warsaw Pact, including an assessment of how such factors increase deterrence and reduce the risk and cost of war.

"(6) A statement of the strategy the United States and NATO will use to verify and deter noncompliance with proposed arms control treaties between the United States and the Soviet Union and between NATO and the Warsaw Pact.

"(7) A discussion of the extent to which and the manner in which the United States intends to consult with its allies regarding proposed arms control agreements between the United States and the Soviet Union and between NATO and the Warsaw Pact.

"(8) A discussion of how the United States proposes to tailor its defense structure in order to ensure that the national security can be preserved with or without arms control agreements.

"(b) EXPLANATION OF METHODOLOGY.—In reporting on the current effect of arms control agreements on the status of, and trends in, the military balance of power between the United States and the Soviet Union and between NATO and the Warsaw Pact (required under paragraphs (2) and (3) of subsection (a)), the President shall—

"(1) specify the methodology used in analyzing the military balance between the United States and the Soviet Union and express the results of such analyses in terms of (A) static comparisons, and (B) comparisons that include dynamic factors; and

SEC. 908. ANALYSIS OF ALTERNATIVE STRATEGIC NUCLEAR FORCE POSTURES FOR THE UNITED STATES UNDER A POTENTIAL START TREATY

(a) FINDINGS.—Congress makes the following findings:

- (1) The United States and the Soviet Union are currently engaged in talks regarding the reduction of strategic nuclear arms.
- (2) Such talks could result in a treaty requiring deep reductions in the strategic forces of the United States.
- (3) Any such Strategic Arms Reduction Treaty (START) cannot be ratified without the advice and consent of the Senate.

“(2) discuss all major scenarios, assumptions, and contingencies, including political confrontation, full-scale war, and serious confrontations not involving full-scale war.

“(c) FORM OF REPORT.—The President shall submit such report in both classified and unclassified form.”

⁴Sec. 403(c)(1) of Public Law 103-199 (107 Stat. 2325) repealed sec. 907. The former sec. 907 read as follows:

“SEC. 907. REPORT ON ANTIBALLISTIC MISSILE CAPABILITIES AND ACTIVITIES OF THE SOVIET UNION

“(a) STUDY.—The President shall conduct a study regarding the antiballistic missile capability and activities of the Soviet Union. In conducting the study, the President shall assess each of the following:

“(1) The military capabilities and significance of the extensive network of large-phased array radars of the Soviet Union.

“(2) Whether the Soviet Union is developing or producing mobile or transportable engagement radars in violation of the 1972 Antiballistic Missile Treaty.

“(3) The ability of the Soviet Union to develop an effective exoatmospheric antiballistic missile defense without using widespread deployments of traditional engagement radars.

“(4) The ability of air defense interceptor missiles of the Soviet Union, now and in the future, to destroy warheads of ballistic missiles in flight.

“(5) Whether silos or other hardened facilities of the Soviet Union located outside of the existing antiballistic missile site permitted near Moscow under the terms of the 1972 Antiballistic Missile Treaty are or could be associated with antiballistic missile defenses not permitted under that Treaty.

“(6) Whether the Soviet Union is developing terminal antiballistic missile defenses.

“(7) Whether the existing antiballistic missile site near Moscow that is permitted under the terms of that Treaty conceals or could conceal development, testing, or deployment by the Soviet Union of a widespread antiballistic missile system.

“(8) Activities of the Soviet Union regarding boost-phase intercepts of ballistic missiles.

“(9) The status of laser programs, particle-beam programs, and other advanced technology programs of the Soviet Union comparable to programs conducted by the United States under the Strategic Defense Initiative.

“(10) The consequences for the United States of a successful effort by the Soviet Union to deploy an effective nationwide or limited antiballistic missile system.

“(b) ASSESSMENT OF ABILITY OF UNITED STATES TO COUNTER A SOVIET ABM SYSTEM.—In conducting the study required by subsection (a), the President shall also assess the ability of the United States to counter effectively an effective antiballistic missile system deployed by the Soviet Union. Such assessment shall consider both the deployment by the Soviet Union of a nationwide, and of a limited, antiballistic missile system. In assessing the ability of the United States to counter effectively such a system, the President—

“(1) shall consider the ability of the United States to modify (A) existing strategic offensive forces (including modifications involving the development of additional penetration aids), and (B) current strategic doctrine and tactics; and

“(2) shall consider whether the actions of the United States described in paragraph (1) could be accomplished over the same period of time that the Soviet Union would require to deploy such an antiballistic missile system.

“(c) REPORT.—Not later than January 1, 1989, the President shall submit to Congress a report, in both a classified and an unclassified version, specifying the results of the study conducted pursuant to this section. The report shall include such recommendations as the President considers appropriate, including recommendations with regard to maintaining the deterrent value of the strategic forces of the United States in light of the antiballistic missile capability and activities of the Soviet Union described in the report.”

Sec. 1004(e) of the National Defense Authorization Act for Fiscal Years 1990 and 1991 (Public Law 101-189, 103 Stat. 1542) had waived a requirement for a study outlined in sec. 1004(a) of that Act, if “before the date of submission of the report required by [subsection (d) of that Act] * * * the President submits to Congress the report required by section 907 of the National Defense Authorization Act, Fiscal Year 1989 * * * regarding antiballistic missile capabilities and activities of the Soviet Union * * *”.

(4) Any such START Treaty should result in a stable balance of strategic forces between the United States and the Soviet Union which enhances the security of the United States.

(5) Congress should provide funds for the forces permitted under such a treaty that are required to ensure the stability of the force balance under such a treaty.

(6) Congress faces critical resource choices for fiscal year 1989 and subsequent fiscal years, and the resource choices made by Congress for those years could substantially influence the strategic force posture of the United States in the period after such a treaty goes into effect.

(b) **PRESIDENTIAL REPORT.**—Before entering into any Strategic Arms Reduction Treaty or other agreement with the Soviet Union for the reduction of strategic arms, but not later than September 15, 1988, the President shall submit to Congress a comprehensive report on the implications such a treaty or agreement might have on the strategic force postures of the United States during the 1990s. The report shall include the following:

(1) A description of alternative force postures that might be permitted for the United States under such an arms reduction agreement, including the posture recommended by the President.

(2) The estimated costs, over at least a seven-year period, associated with each alternative force posture.

(3) The damage limitation capability, the survivability, and the retaliatory potential of such force posture, and the implications for strategic stability, assessed with regard to the likely force postures of the Soviet Union under such an agreement and the first-strike potential of such force postures.

(4) The likely effect of a breakout by the Soviet Union from such an arms control agreement on the survivability and of the force posture of the United States under such an agreement recommended by the President under paragraph (1).

(c) **FORM OF REPORT.**—The President shall submit the report under subsection (b) in both classified and unclassified form.

SEC. 909. ON-SITE INSPECTION AGENCY

(c) INF TREATY DEFINED.—For purposes of subsection (b), the term “INF Treaty” means the Treaty Between the United States of America and the Union of Soviet Socialist Republics on the Elimination of Their Intermediate-Range and Shorter-Range Missiles (signed at Washington on December 9, 1987).

(d) BUDGET REQUESTS.—Any request submitted to Congress by the Executive Branch for authorization of appropriations for the On-Site Inspection Agency for any fiscal year shall, as a separate activity, provide details of all funding and of all military and civilian personnel requested for that Agency for that fiscal year, including the number of such personnel of the Department of Defense and other agencies that will be assigned to on-site inspection activities and to support such activities during that fiscal year.

SEC. 910. COORDINATION OF VERIFICATION POLICY AND RESEARCH AND DEVELOPMENT ACTIVITIES

TITLE IX—MATTERS RELATING TO ARMS CONTROL

SEC. 901. MISSILE TECHNOLOGY CONTROL REGIME

(a) FINDINGS.—The Congress finds that—

(1) the proliferation of nuclear weapons and of missiles capable of the delivery of nuclear weapons is a threat to international peace and security;

(2) in the early 1980's, the danger of the proliferation of such weapons and missiles was formally recognized in discussions among the governments of the United States, Canada, France, the Federal Republic of Germany, Italy, Japan, and the United Kingdom; and

(3) these seven governments, after four years of negotiations, on April 7, 1987, concluded an agreement known as the Missile Technology Control Regime, for the purpose of limiting the proliferation of missiles capable of the delivery of nuclear weapons (and hardware and technology related to such missiles) throughout the world.

(b) EXPRESSIONS OF CONGRESS.—The Congress—

(1) expresses its firm support for the Missile Technology Control Regime as a means of enhancing international peace and security;

(2) expresses its strong hope that all nations of the world will adhere to the Guidelines of the Missile Technology Control Regime; and

(3) expresses its expectation that all relevant agencies of the United States Government will ensure the fully effective implementation of this regime.

(c) REPORT ON MANPOWER REQUIRED TO IMPLEMENT THE MISSILE TECHNOLOGY CONTROL REGIME.—(1) Not later than 60 days after the date of enactment of the National Defense Authorization Act

for Fiscal Year 1990,¹ the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives² a report—

(A) identifying the functional responsibilities of the Department of Defense for implementing the Missile Technology Control Regime;

(B) describing the number and skills of personnel currently available in the Department of Defense to perform these functions; and

(C) assessing the adequacy of these resources for the effective performance of these responsibilities.

(2) The report required by paragraph (1) shall identify the total number of current Department of Defense full-time employees or military personnel and the grades of such personnel and the special knowledge, experience, and expertise of such personnel, required to carry out each of the following responsibilities of the Department under the regime:

(A) Review of private-sector export license applications and government-to-government cooperative activities.

(B) Intelligence analysis and activities.

(C) Policy coordination.

(D) International liaison activity.

(E) Enforcement and technology security operations.

(F) Technical review.

(3) The report shall include the Secretary's assessment of the adequacy of staffing in each of the categories specified in subparagraphs (A) through (F) of paragraph (2) and shall make recommendations concerning measures, including legislation if necessary, to eliminate any identified staffing deficiencies and to improve interagency coordination with respect to the regime.

SEC. 902.³ SENSE OF CONGRESS ON THE KRASNOYARSK RADAR

(a) FINDINGS.—The Congress finds the following:

(1) The 1972 Anti-Ballistic Missile Treaty prohibits each party to the Treaty from deploying ballistic missile early warning radars except at locations along the periphery of its national territory and oriented outward.

(2) The 1972 Anti-Ballistic Missile Treaty prohibits each party to the Treaty from deploying an anti-ballistic missile system to defend its national territory and from providing a base for any such nationwide defense.

(3) Large phased-array radars were recognized during negotiation of the 1972 Anti-Ballistic Missile Treaty as the critical long lead-time element of a nationwide defense against ballistic missiles.

(4) In 1983 the United States discovered the construction, in the interior of the Soviet Union near the town of Krasnoyarsk,

¹Sec. 1639(a) of the National Defense Authorization Act for Fiscal Years 1990 and 1991 (Public Law 101–189; 103 Stat. 1612; approved November 29, 1989) struck out “February 1, 1988” and inserted in lieu thereof “60 days after the date of enactment of the National Defense Authorization Act for Fiscal Year 1990”.

²Sec. 1(a)(1) of Public Law 104–14 (109 Stat. 186) provided that references to the Committee on Armed Services of the House of Representatives shall be treated as referring to the Committee on National Security of the House of Representatives.

³Sec. 1003 of the National Defense Authorization Act for Fiscal Years 1990 and 1991 (Public Law 101–189; 103 Stat. 1543) reaffirmed this sense of the Congress.

of a large phased-array radar that has subsequently been judged to be for ballistic missile early warning and tracking.

(5) The Krasnoyarsk radar is more than 700 kilometers from the Soviet-Mongolian border and is not directed outward but instead, faces the northeast Soviet border more than 4,500 kilometers away.

(6) The Krasnoyarsk radar is identical to other Soviet ballistic missile early warning radars and is ideally situated to fill the gap that would otherwise exist in a nationwide Soviet ballistic missile early warning radar network.

(7) The President has certified that the Krasnoyarsk radar is an unequivocal violation of the 1972 Anti-Ballistic Missile Treaty.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that the Soviet Union is in violation of its legal obligation under the 1972 Anti-Ballistic Missile Treaty.

SEC. 903. REPORT ON COMPLIANCE BY THE SOVIET UNION WITH THRESHOLD TEST BAN TREATY

(a) IN GENERAL.—The President shall submit to Congress, not later than 30 days after the date of the enactment of this Act, a report discussing the use of the current official United States method of estimating the yield of Soviet underground nuclear tests to determine the extent to which the Soviet Union is complying with the 150 kiloton limit on underground nuclear tests contained in the Threshold Test Ban Treaty.

(b) FORM AND CONTENT OF REPORT.—The report shall be submitted in both classified form and (if possible) unclassified form and shall include the following matters:

(1) A discussion of whether past assessments made by the United States of the extent of Soviet compliance with the 150 kiloton limit contained in the Threshold Test Ban Treaty would have been different if the United States, in making those assessments, had used the current official United States method of estimating the yield of underground nuclear tests conducted by the Soviet Union.

(2) The number of nuclear tests conducted by the Soviet Union after March 31, 1976, that have a central value exceeding 150 kilotons yield (estimated on the basis of the current official method used by the United States in estimating underground nuclear test yields), the central value of those tests (estimated on such basis), and the dates on which those tests were conducted.

(3) The number, dates, and estimated central values of tests, if any, conducted by the United States after March 31, 1976, which, if measured on the basis of the current official method used by the United States in estimating Soviet underground nuclear test yields (taking into account the differences between the United States and Soviet test sites), would have an indicated central value exceeding 150 kilotons yield.

(4) The number of tests conducted by the United States after March 31, 1976, if any, which actually had yields exceeding 150 kilotons, the estimated central value of each such test, and the date on which each such test was conducted.

(5) A description of all nuclear testing activities of the Soviet Union which the President has found to be likely violations of the legal obligations under the Threshold Test Ban Treaty, the dates on which those activities took place, and the specific legal obligations under the Threshold Test Ban Treaty likely to have been violated by the Soviet Union in conducting such activities.

(6) A discussion of whether and, if so, the extent to which, the President, in arriving at his finding that several nuclear tests conducted by the Soviet Union constituted a likely violation of legal obligations under the Threshold Test Ban Treaty, considered the mutual agreement contained in the Threshold Test Ban Treaty which permits one or two minor, unintended breaches of the 150 kiloton limit per year to be considered non-violations of the Treaty.

(7) A detailed comparison of the current official method used by the United States Government in estimating Soviet underground nuclear test yields with the method replaced by the current method, and the date on which the current official method was adopted by the United States.

SEC. 904. CONGRESSIONAL FINDINGS AND DECLARATIONS CONCERNING ARMS CONTROL NEGOTIATIONS

(a) CONGRESSIONAL FINDINGS.—The Congress makes the following findings:

(1) The United States and the Soviet Union are currently engaged in negotiations to conclude a treaty on intermediate-range nuclear forces (INF) and are continuing serious negotiations on other issues of vital importance to the national security of the United States.

(2) The current negotiations, which reflect delicate compromises on both sides, are a culmination of years of detailed and complex negotiations in which the negotiators for the United States have been pursuing a policy consistently advocated by the past two Presidents regarding nuclear arms control in the European theater.

(3) While recognizing fully that the President, under clause 2, section 2, article II of the Constitution, has the power, by and with the advice and consent of the Senate, to make treaties, the Congress also recognizes the special responsibility conferred by the Founding Fathers on the Senate in requiring that it give its advice and consent before a treaty may be ratified by the United States and that in carrying out this responsibility the Senate is accountable to the people of the United States and has a duty to ensure that no treaty is ratified which would be detrimental to the welfare and security of the United States.

(4) In recognition of this responsibility, the Senate has established a special continuing oversight body, the Arms Control Observer Group, which over the last two and one-half years has functioned to provide advice and counsel to the President and his negotiators, when appropriate, on a continuing basis during the course of the negotiations to achieve an INF treaty.

(5) The Senate and the President both have a role under the Constitution in the making of treaties and Congress as a whole

has a role under the Constitution in the regulating of expenditures, including expenditures for weapons systems that may be the subject of treaty negotiations.

(b) CONGRESSIONAL DECLARATIONS.—In light of the findings in subsection (a), Congress—

(1) fully supports the efforts of the President to negotiate stabilizing, equitable, and verifiable arms reduction treaties with the Soviet Union;

(2) endorses the principle of mutuality and reciprocity in arms control negotiations with the Soviet Union and cautions that neither the Congress nor the President should take actions which are unilateral concessions to the Soviet Union; and

(3) urges the President to take care that no provision is agreed to in those negotiations that would be harmful to the security of the United States or its allies and friends.

(c) DECLARATION OF THE SENATE.—The Senate declares that it will reserve judgment regarding the approval of any arms control treaty until it has conducted a thorough examination of the provisions of the treaty and has assured itself that those provisions—

(1) are effectively verifiable; and

(2) serve to enhance the strength and security of the United States and its allies and friends.

SEC. 905. REPORT ON MILITARY CONSEQUENCES OF THE ELIMINATION OF BALLISTIC MISSILES

(a) REPORT REQUIREMENT.—Not later than 30 days after the date of the enactment of this Act, the Chairman of the Joint Chiefs of Staff shall submit to the Committees on Armed Services of the Senate and House of Representatives⁴ a report examining the military consequences of any arms control agreement between the United States and the Soviet Union that would provide for the elimination of all strategic ballistic missiles of the United States and the Soviet Union.

(b) MATTERS TO BE DISCUSSED.—Such report shall be submitted in both classified and unclassified form and shall include a discussion of the strategic, budgetary, and force structure implications of an agreement described in subsection (a) for—

(1) conventional defenses of the United States and its allies in Europe, the Far East, and other regions vital to the national security of the United States;

(2) tactical nuclear deterrence by the United States in those regions;

(3) strategic offensive retaliatory systems of the United States that would not be affected by such an agreement, including bomber forces and cruise missiles;

(4) air defenses of the United States needed to counter bomber forces and cruise missiles of the Soviet Union;

(5) Strategic Defense Initiative programs designed to provide possible defenses against strategic ballistic missiles; and

(6) any new programs which the Chairman of the Joint Chiefs of Staff may consider necessary in order for the United

States to protect its national security interests in light of the relative advantage conferred by such an agreement on other nations possessing nuclear weapons whose strategic ballistic missile forces would not be affected by the agreement.

SEC. 906. REPORT ON IMPLICATIONS OF CERTAIN ARMS CONTROL POSITIONS

Not later than June 30, 1988, the Secretary of Defense shall submit to Congress a report, in both classified and unclassified versions, containing the following:

(1) A description of the quantitative and qualitative implications for the strategic modernization program of the United States of the publicly-announced position of the United States at the Strategic Arms Reduction Talks in Geneva, giving special, but not exclusive, attention to the implications of such position for the Trident SSBN program, the rail-garrison Peacekeeper program, and the small intercontinental ballistic missile ("Midgetman") program.

(2) A description of the advantages and drawbacks of following the recommendations made in 1983 in the report of the President's Commission on Strategic Forces with regard to research on smaller ballistic-missile carrying submarines, each carrying fewer missiles than the Trident, as a potential follow-on to the Trident submarine force.

(3) The recommendations of the Secretary of Defense with regard to paragraphs (1) and (2) on United States force modernization policy and arms control policy.

SEC. 907. SUPPORT FOR NUCLEAR RISK REDUCTION CENTERS

(a) Congress applauds the recent signing of an agreement between the United States and the Soviet Union on the establishment of nuclear risk reduction centers. Congress regards this agreement as an important and practical first step in reducing the threat of nuclear war due to accident, misinterpretation, or miscalculation. Congress notes that the agreement calls for centers to be established in each nation's respective capital for the routine exchange of information and advanced notification of nuclear and missile testing.

(b) It is the hope of Congress that this first step in nuclear risk reduction will increase the confidence and mutual trust of both parties to the agreement and lead to an expansion in functions to reduce further the chances of accidental war. Such functions may include joint discussions on crisis prevention and the development of strategies to deal with incidents or threats of nuclear terrorism, nuclear proliferation, or other mutually agreed upon issues of concern in reducing nuclear risk.

TITLE X—ARMS CONTROL MATTERS

SEC. 1001. SENSE OF THE CONGRESS RELATING TO SALT II COMPLIANCE

(a) CONTINUED ADHERENCE TO SALT II NUMERICAL SUBLIMITS.—It is the sense of the Congress that it is in the national security interests of the United States to continue voluntary compliance with the central numerical sublimits of the SALT II Treaty as long as the Soviet Union complies with such sublimits.

(b) DEFINITION.—For purposes of this section, the central numerical sublimits of the SALT II Treaty include prohibitions on the deployment of the following:

(1) Launchers for more than 820 intercontinental ballistic missiles carrying multiple independently-targetable reentry vehicles.

(2) Launchers for an aggregate of more than 1,200 intercontinental ballistic missiles carrying multiple independently-targetable reentry vehicles and submarine-launched ballistic missiles carrying multiple independently-targetable reentry vehicles.

(3) An aggregate of more than 1,320 launchers described in paragraph (2) and heavy bombers equipped for air-launched cruise missiles capable of a range in excess of 600 kilometers.

SEC. 1002. SENSE OF THE CONGRESS ON NUCLEAR TESTING

(a) FINDINGS.—The Congress makes the following findings:

(1) The United States is committed in the Limited Test Ban Treaty of 1963 and in the Non-Proliferation Treaty of 1968 to seek to achieve the discontinuance of all test explosions of nuclear weapons for all time.

(2) A comprehensive test ban treaty would promote the security of the United States by constraining the United States-Soviet nuclear arms competition and by strengthening efforts to prevent the proliferation of nuclear weapons.

(3) The Threshold Test Ban Treaty was signed in 1974 and the Peaceful Nuclear Explosions Treaty was signed in 1976,

and both have yet to be considered by the full Senate for its advice and consent to ratification.

(4) The entry into force of the Peaceful Nuclear Explosions Treaty and the Threshold Test Ban Treaty will ensure full implementation of significant new verification procedures and so make completion of a comprehensive test ban treaty more probable.

(5) A comprehensive test ban treaty must be adequately verifiable, and significant progress has been made in methods for detection of underground nuclear explosions by seismological and other means.

(6) At present, negotiations are not being pursued by the United States and the Soviet Union toward completion of a comprehensive test ban treaty.

(7) The past five administrations have supported the achievement of a comprehensive test ban treaty.

(b) SENSE OF CONGRESS.—It is the sense of Congress that, at the earliest possible date, the President should—

(1) request the advice and consent of the Senate to ratification (with a report containing any plans the President may have to negotiate supplemental verification procedures, or if the President believes it necessary, any understanding or reservation on the subject of verification which should be attached to the treaty) of the Threshold Test Ban and Peaceful Nuclear Explosions Treaties, signed in 1974 and 1976, respectively; and

(2) propose to the Soviet Union the immediate resumption of negotiations toward conclusion of a verifiable comprehensive test ban treaty.

In accordance with international law, the United States shall have no obligation to comply with any bilateral arms control agreement with the Soviet Union that the Soviet Union is violating.

SEC. 1003. REPORT BY THE CHAIRMAN OF THE JOINT CHIEFS OF STAFF ON UNITED STATES NON-COMPLIANCE WITH EXISTING STRATEGIC OFFENSIVE ARMS AGREEMENTS

(a) IN GENERAL.—The Chairman of the Joint Chiefs of Staff shall submit to Congress a report containing a detailed assessment of—

(1) the military consequences to the United States of a policy decision by the United States to discontinue compliance with the major provisions of existing strategic offensive arms limitations agreements (including central numerical sublimits on strategic nuclear delivery vehicles in the SALT II accord) would have on the security of the United States; and

(2) the likely military responses of the Soviet Union to such a policy decision.

(b) MATTERS TO BE CONSIDERED.—The assessment required by subsection (a) shall focus on what the likely Soviet military responses would be during the period between 1987 and 1996. In making such assessment, the Chairman shall specifically consider the following:

(1) The effect on the ability of United States strategic forces to accomplish their nuclear deterrent mission (including the effect on the survivability of United States strategic forces and

on the ability of United States strategic forces to achieve required damage expectancies against Soviet targets) of any expansion of Soviet military capabilities undertaken in response to a United States decision to abandon compliance with existing strategic offensive arms agreements.

(2) The additional cost to the United States, above currently projected military expenditures for those periods for which such budget projections are available, of research, development, production, deployment, and annual operations and support for any additional strategic forces required to country any expansion in Soviet military capabilities undertaken in response to a United States decision to abandon compliance with existing strategic offensive arms agreements.

(3) Under average annual real growth projections in defense spending of 0 percent, 1 percent, 2 percent, and 3 percent, the percent of the annual defense budget in each year between fiscal year 1987 and fiscal year 1996 which would be consumed by increased United States strategic forces needed to counter the Soviet force expansions.

(4) The military effect on United States national security of the diversion the funds identified under paragraph (2) away from nonstrategic defense programs and to strategic programs to counter expanded Soviet strategic capabilities, including the military effect of such a diversion on the ability of United States conventional forces to meet the specific non-nuclear defense commitments of the United States as a member of the North Atlantic Treaty Organization and under the 1960 Treaty of Mutual Cooperation and Security with Japan.

(5) The military implications for the United States of Soviet violations of offensive arms control agreements that have been determined.

(c) REPORT REQUIREMENTS.—(1) The Chairman shall—

(A) include in the report required under subsection (a) the individual views of the other members of the Joint Chiefs of Staff; and

(B) submit such report in both classified and unclassified form.

(2) The report required by subsection (a) shall be submitted not later than December 19, 1986.

(e)¹ RESTRICTION ON OBLIGATION OF FUNDS.—If the Chairman of the Joint Chiefs of Staff fails to submit the report required by subsection (a) before December 20, 1986, no funds may be obligated or expended, directly or indirectly, on or after such date by the Organization of the Joint Chiefs of Staff for any study or analysis to be conducted by a civilian contractor until such report is received by Congress.

SEC. 1004. SENSE OF CONGRESS EXPRESSING SUPPORT FOR A CENTRAL ROLE FOR NUCLEAR RISK REDUCTION CENTERS

(a) CONGRESSIONAL STATEMENTS.—The Congress—

(1) has expressed its prior support for the establishment of nuclear risk reduction centers; and

¹ As enrolled; there is no subsec. (d).

(2) supports the President's willingness to negotiate an agreement with the Soviet Union to establish such centers in each nation.

(b) SENSE OF CONGRESS.—It is the sense of Congress that if an agreement on nuclear risk reduction centers is signed, the United States center should—

(1) be assigned the responsibility to serve as the center of activity for United States risk reduction activities under the agreement; and

(2) make recommendations to the Assistant to the President for National Security Affairs regarding additional risk reduction arrangements that might be proposed to the Soviet Union.

TITLE X—MATTERS RELATING TO ARMS CONTROL

SEC. 1001. POLICY ON COMPLIANCE WITH EXISTING STRATEGIC OFFENSIVE ARMS AGREEMENTS

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the United States should vigorously pursue with the Soviet Union the resolution of concerns of the United States over Soviet compliance with existing strategic arms control agreements and should seek corrective actions through confidential diplomatic channels, including, if appropriate, the Standing Consultative Commission and the Nuclear and Space Arms negotiations;

(2) the Soviet Union should take positive steps to resolve the compliance concerns of the United States about existing strategic offensive arms agreements in order to maintain the integrity of those agreements and to strengthen the positive environment necessary for the successful negotiation of a new strategic offensive arms agreement;

(3) the United States should continue, through December 31, 1986, to refrain from undercutting the provisions of existing strategic offensive arms agreements—

(A)(i) to the extent that the Soviet Union refrains from undercutting those provisions; and

(ii) if the Soviet Union actively pursues arms reduction agreements in the Nuclear and Space Arms negotiations;

or

(B) until a new strategic offensive arms agreement between the United States and the Soviet Union is concluded;

(4) the President—

(A) should carefully consider the impact of any change in the current policy of the United States regarding existing strategic offensive arms agreements on the long-term security interests of the United States and its allies; and

(B) should consult with Congress before making any change in that policy; and

(5) any decision by the President to continue the existing United States no-undercut policy beyond December 31, 1986, should be a matter for consultation between the President and Congress and for subsequent review and debate by Congress.

(b) REQUIREMENT FOR REPORT.—Not later than February 1, 1986, the President shall submit to Congress a report containing the following:

(1) A range of projections and comparisons, on a year-by-year basis, of United States and Soviet strategic weapons dismantlements that would be required over the next five years if the United States and the Soviet Union were to adhere to a policy of not undercutting existing strategic arms control agreements.

(2) A range of projections and comparisons, on a year-by-year basis, of likely United States and Soviet strategic offensive force inventories over the next five years assuming a termination at the end of 1985 in the current no-undercut policy.

(3) An assessment of the possible Soviet political, military, and negotiating responses to the termination of the United States no-undercut policy.

(4) Recommendations regarding the future of United States interim restraint policy.

(c) PROPOSAL OF MEASURES.—If the President finds and reports to Congress that—

(1) the Soviet Union has violated the provisions of any strategic arms agreement; and

(2) such violations impair or threaten the security of the United States,

the President may propose to Congress such measures as he considers necessary to protect the security of the United States.

(d) SCOPE OF POLICY.—Nothing in this section shall be construed—

(1) to restrain or inhibit the constitutional powers of the President;

(2) to endorse unilateral United States compliance with existing strategic arms agreements;

(3) as prohibiting the United States from carrying out proportionate responses to Soviet undercutting of strategic arms provisions;

(4) as prohibiting or delaying the development, flight testing, or deployment of the small intercontinental ballistic missile (SICM)¹ as authorized by law; or

(5) as establishing a precedent to continue the no-undercut policy beyond December 31, 1986.

¹ Should read "SICBM".

The former sec. 1002 read as follows:

“SEC. 1002. ANNUAL REPORT ON SOVIET COMPLIANCE WITH ARMS CONTROL COMMITMENTS

TITLE XI—MATTERS RELATING TO ARMS CONTROL

REPORT ON STRATEGIC NUCLEAR SUBMARINE FORCE

SEC. 1101. Not later than April 1, 1985, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives¹ a report on the survivability of the United States strategic nuclear ballistic missile submarine force. The report shall address whether there are grounds for adjusting, in short or long-range terms, strategic force plans of the United States based on any vulnerability or potential vulnerability of such force. The report shall also examine the feasibility and desirability of enhancing the survivability of such force through measures that would affect antisubmarine warfare, including the nature of the patrols and the rules of engagement of attack submarines and the nature of the patrols and the rules of engagement of ballistic missile submarines.

ANNUAL REPORT ON STRATEGIC DEFENSE PROGRAMS

SEC. 1102.² * * * [Repealed—1987]

REPORT ON THEATER NUCLEAR WEAPONS AND FORCE STRUCTURE

SEC. 1103. Not later than January 19, 1985, the President shall submit to Congress a report setting forth reasons why the United States should or should not initiate a long-term program for the renovation of the North Atlantic Treaty Organization (NATO) nuclear deterrent in a manner designed to reduce pressures for early first use of tactical nuclear weapons and to substantially reduce the theater nuclear arsenal to types and numbers of weapons whose

¹Sec. 1(a)(1) of Public Law 104-14 (109 Stat. 186) provided that references to the Committee on Armed Services of the House of Representatives shall be treated as referring to the Committee on National Security of the House of Representatives.

characteristics make for a more stable and credible force. The report (in addition to any other matter covered) should specifically address the following issues:

(1) Whether NATO should not eliminate its reliance on short-range battlefield nuclear weapons (such as the atomic demolition bomb and 155-millimeter and 8-inch nuclear artillery rounds), the exposure of which to early loss from enemy action promotes pressures for early use.

(2) Whether NATO should not refurbish its nuclear deterrent by designing and deploying specific dedicated nuclear launchers of a range which permits the coverage of all potential targets from locations in the rear of the European NATO territory in the territory of the Warsaw Pact short of the territory of the Soviet Union, thereby reducing pressure from enemy action for early first use of nuclear weapons.

(3) Whether NATO should not, as a consequence of a change in policy described in paragraph (2), eliminate its inventory of dual-capable nuclear/conventional weapons in order to allow early use of artillery, aircraft, and surface-to-surface missiles for conventional missions rather than causing them to be withheld for possible nuclear use.

(4) Whether NATO should not place control and operation of tactical nuclear weapons in a single specialized command established for that purpose so that all other NATO force elements could be free to concentrate on pursuing conventional military missions with maximum efficiency.

REPORT ON WITHDRAWAL OF TACTICAL NUCLEAR WARHEADS FROM EUROPE

SEC. 1104. The President shall submit a report to Congress not later than 90 days after the final decision is made (based upon the recommendations of the Supreme Allied Commander, Europe) regarding the net reduction to be made by the United States in the number of tactical nuclear warheads in the territory of North Atlantic Treaty Organization European member nations pursuant to the decision of the Nuclear Planning Group of the North Atlantic Treaty Organization of October 17, 1983. The report shall—

(1) specify the types of warheads to be withdrawn in accordance with that decision, the number of each such warhead to be withdrawn, the schedule for the withdrawal, and the rationale for the selection of the particular warheads to be withdrawn; and

(2) any changes in force structure to be made resulting from the changes in the tactical nuclear warheads positioned in Europe.

REPORT ON UNITED STATES COUNTERFORCE CAPABILITY

SEC. 1105. (a) Not later than April 15, 1985, the President shall submit to Congress a report discussing the required strategic counterforce capability consistent with existing United States policy.

(b) The report under subsection (a) shall be developed taking into consideration current and proposed United States intercontinental

ballistic missiles having an accuracy on the order of the MX missile (including specifically the MX missile, the D-5 Trident missile, and the small single-warhead missile) intended to be procured for United States strategic force modernization and the rationale for the overall counterforce capability that would be attained as a cumulative result of those procurements. The President shall include in the report a specific definition of what United States counterforce capability would constitute a so-called "first-strike capability" against the Soviet Union.

(c) The report shall also include an assessment of corresponding Soviet counterforce and first-strike capabilities.

TRANSMITTAL TO CONGRESS OF REPORT ON SOVIET COMPLIANCE WITH
ARMS CONTROL AGREEMENTS

SEC. 1106. (a) Not later than 30 days after the date of the enactment of this Act, the President shall transmit to Congress the text of the report by the General Advisory Committee on Arms Control of the arms Control and Disarmament Agency entitled "A Quarter Century of Soviet Compliance Practices Under Arms Control Commitments: 1958-1983 (U)", dated November 1983. If the President determines that that report contains material the release of which to Congress would compromise United States intelligence sources, methods of intelligence gathering, or the national security of the United States, the President may furnish the text of such report after deleting or modifying such compromising material.

(b) Not later than 60 days after the date of the enactment of this Act, the President shall transmit to Congress an unclassified version of the report described in subsection (a).

REPORT ON NUCLEAR WINTER FINDINGS AND POLICY IMPLICATIONS

SEC. 1107. (a) The Secretary of Defense shall participate in any comprehensive study of the atmospheric, climatic, environmental, and biological consequences of nuclear war and the implications that such consequences have for the nuclear weapons strategy and policy, the arms control policy, and the civil defense policy of the United States.

(b) Not later than March 1, 1985, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives¹ an unclassified report suitable for release to the public, together with classified addenda (if required), concerning the subject described in subsection (a). The Secretary shall include in such report the following:

(1) A detailed review and assessment of the current scientific studies and findings on the atmospheric, climatic, environmental, and biological consequences of nuclear explosions and nuclear exchanges.

(2) A thorough evaluation of the implications that such studies and findings have on (A) the nuclear weapons policy of the United States, especially with regard to strategy, targeting, planning, command, control, procurement, and deployment, (B) the nuclear arms control policy of the United States, and (C) the civil defense policy of the United States.

(3) A discussion of the manner in which the results of such evaluation of policy implications will be incorporated into the nuclear weapons, arms control, and civil defense policies of the United States.

(4) An analysis of the extent to which current scientific findings on the consequences of nuclear explosions are being studied, disseminated, and used in the Soviet Union.

SENSE OF THE CONGRESS RELATING TO THE ESTABLISHMENT OF NUCLEAR RISK REDUCTION CENTERS IN THE UNITED STATES AND THE SOVIET UNION

SEC. 1108. (a) The Congress makes the following findings:

(1) An increasing number of scenarios (including misjudgment, miscalculation, misunderstanding, possession of nuclear arms by a terrorist group or a State sponsored threat) could precipitate a sudden increase in tensions and the risk of a nuclear confrontation between the United States and the Soviet Union, situations that neither side anticipates, intends, or desires.

(2) There has been a steady proliferation throughout the world of the knowledge, equipment, and materials necessary to fabricate nuclear weapons.

(3) Such proliferation of nuclear capabilities suggests an increasing potential for nuclear terrorism, the cumulative risk of which, considering potential terrorist groups and other threats over a period of years into the future, may be great.

(4) Current communications links represent equipment of the 1960's and as such are relatively outdated and limited in their capabilities.

(5) The President, responding to congressional initiatives, proposed the establishment of additional and improved communications links between the United States and the Soviet Union and other measures to reduce the risk of nuclear confrontation, and has initiated discussions at a working level with the Soviet Union pertaining to—

(A) the addition of a high speed facsimile capability to the direct communication link (hotline);

(B) the creation of a joint military communications link between the Department of Defense and the Soviet Defense Ministry; and

(C) the establishment by the Governments of the United States and Soviet Union of high-rate data communication links between each nation and its embassy in the other nation's capital.

(6) The establishment of nuclear risk reduction centers in Washington and Moscow could reduce the risk of increased tensions and nuclear confrontations, thereby enhancing the security of both the United States and the Soviet Union.

(7) These centers could serve a variety of functions, including—

(A) discussing procedures to be followed in the event of possible incidents involving the use of nuclear weapons by third parties;

(B) maintaining close contact during nuclear threats or incidents precipitated by third parties;

(C) exchanging information on a voluntary basis concerning events that might lead to the acquisition of nuclear weapons, materials, or equipment by subnational groups;

(D) exchanging information about United States-Union of Soviet Socialist Republics military activities which might be misunderstood by the other party during periods of mounting tensions; and

(E) establishing a dialog about nuclear doctrines, forces, and activities.

(8) The continuing and routine implementation of these various activities could be facilitated by the establishment within each Government of facilities, organizations, and bureaucratic relationships designated for these purposes, such as risk reduction centers, and by the appointment of individuals responsible to the respective head of state with responsibilities to manage such centers.

(b) The Congress—

(1) commends the President for his announced support for the confidence building measures described in subsection (a) and his initiation of negotiations which have occurred; and

(2) urges the President to pursue negotiations on these measures with the Government of the Soviet Union and to add to these negotiations the establishment of nuclear risk reduction centers in both nations to be operated under the direction of the appropriate diplomatic and defense authorities.

SENSE OF CONGRESS REGARDING A REPORT TO CONGRESS ON CERTAIN VERIFICATION PROGRAMS RELATING TO BIOLOGICAL AND CHEMICAL WEAPONS

SEC. 1109. (a) The Congress makes the following findings:

(1) The Iran-Iraq war has recently demonstrated a marked increase in the proliferation of technology on the production of chemical weapons and an increase in the willingness of nations to use such weapons in armed conflict.

(2) The President's Report to Congress on Soviet Arms Control Noncompliance concluded that the Soviet Union has refused to respond adequately to United States concerns about the transfer or use by the Soviet Union of lethal chemical warfare agents in Laos, Kampuchea, and Afghanistan and United States concerns about adherence by the Soviet Union to the 1972 Biological and Toxin Weapons Convention.

(3) Experts at the recent annual meeting of the American Association for the Advancement of Science and at the First World Congress on New Compounds in Biological and Chemical Warfare held at Ghent, Belgium, emphasized that better verification of the use of chemical weapons and of the development of biological and toxin weapons was essential to strengthen the 1972 Biological and Toxin Weapons Convention and the Geneva Protocol of 1925.

(4) The 1972 Biological and Toxin Weapons Convention is scheduled for review in 1985.

(5) The United States is anxious to promote and strengthen adherence to the Geneva Protocol of 1925 and the 1972 Biological and Chemical Weapons Convention and is vigorously pursuing a comprehensive, verifiable, international agreement to ban chemical weapons.

(6) Any comprehensive agreement intended to ban the production, storage, and transfer of chemical weapons must provide for effective measures of verification and enforcement and in order for the 1972 Biological and Toxin Weapons Convention to be effective, compliance with the terms of the convention must be verifiable; and

(7) The Congress must be well informed regarding existing and planned programs for verifying compliance with the 1972 Biological and Toxin Weapons Convention and with a chemical weapons ban agreement.

(b) It is the sense of Congress that the President should submit to the Committee on Foreign Relations and the Select Committee on Intelligence of the Senate and to the Committee on Foreign Affairs³ and the Permanent Select Committee on Intelligence of the House of Representatives a comprehensive report identifying and evaluating—

(1) existing and planned programs to support verification requirements necessary to determine compliance with the 1972 Biological and Toxin Weapons Convention and a chemical weapons ban; and

(2) the budget resources necessary to support verification requirements necessary to determine compliance with the 1972 Biological and Toxin Weapons Convention and a chemical weapons ban.

(c) The President is requested to submit the report referred to in subsection (b) to the committees referred to in such subsection not later than December 31, 1984.

SENSE OF CONGRESS EXPRESSING SUPPORT FOR UNITED STATES TO
PURSUE OUTSTANDING ARMS CONTROL COMPLIANCE

SEC. 1110. (a) The Congress makes the following findings:

(1) It is a vital security objective of the United States to limit the Soviet nuclear threat against the United States and its allies.

(2) The President has declared that “as for existing strategic arms agreements, we will refrain from actions which undercut them so long as the Soviet Union shows equal restraint”.

(3) The United States has legitimate concerns about certain Soviet actions and behavior relevant to limitations and other provisions of existing strategic arms agreements.

(4) The President has declared that “the United States will continue to press compliance issues with the Soviet Union

³Sec. 1(a)(5) of Public Law 104-14 (109 Stat. 186) provided that references to the Committee on Foreign Affairs of the House of Representatives shall be treated as referring to the Committee on International Relations of the House of Representatives.

through diplomatic channels, and to insist upon explanations, clarifications, and corrective actions”.

(5) The President has also declared that “the United States is continuing to carry out its obligations under relevant agreements”.

(6) It would be detrimental to the security interests of the United States and its allies and to international peace and stability for the last remaining limitations on strategic offensive nuclear weapons to break down or lapse before replacement by a new strategic arms control agreement between the United States and the Soviet Union.

(7) The continuation of existing restraints on strategic offensive nuclear arms would provide an atmosphere more conducive to achieving an agreement significantly reducing the levels of nuclear arms.

(8) The Soviet Union has not agreed to a date for resumption of the nuclear arms talks in Geneva, and it is incumbent on the Soviet Union to return to the negotiating table.

(9) A termination of existing restraints on strategic offensive nuclear weapons could make the resumption of negotiations more difficult.

(10) Both sides have, to date, abided by important numerical and other limits contained in existing strategic offensive arms agreements, including dismantling operational missile-firing submarines and remaining within the ceilings on multiple-warhead missile launchers and other related limits.

(11) It is in the interest of the United States and its allies for the Soviet Union to continue to dismantle older missile-firing submarines as new ones are deployed and to continue to remain at or below a level of 820 launchers of intercontinental ballistic missiles with multiple independently targeted reentry vehicles, 1,200 launchers of intercontinental ballistic missiles with multiple independently targeted reentry vehicles and submarine launched ballistic missiles, and 1,320 launchers of intercontinental ballistic missiles with multiple independently targeted reentry vehicles and submarine launched ballistic missiles and heavy bombers equipped with air launched cruise missiles, and other related limits in existing strategic offensive arms agreements.

(b) In view of these findings, it is the sense of Congress that—

(1) the United States should vigorously pursue with the Soviet Union the resolution of concerns over compliance with existing strategic and other arms control agreements and should seek corrective actions, where appropriate, through the Standing Consultative Commission and other available diplomatic channels;

(2) The United States should, through December 31, 1985, continue to pursue its stated policy to refrain from undercutting the provisions of existing strategic offensive arms agreements so long as the Soviet Union refrains from undercutting the provisions of those agreements, or until a new strategic offensive arms agreement is concluded;

(3) the President should provide a report to the Congress in both classified and unclassified forms reflecting additional findings regarding Soviet adherence to such a no-undercut policy, by February 15, 1985;

(4) the President shall provide to Congress on or before June 1, 1985, a report that—

(A) describes the implications of the United States Ship Alaska's sea trials, both with and without the concurrent dismantling of older launchers of missiles with multiple independently targeted reentry vehicles with multiple independently targeted reentry vehicles, for the current United States no-undercut policy and strategic arms and United States security interests more generally;

(B) assesses possible Soviet political, military, and negotiating responses to the termination of the United States no-undercut policy;

(C) reviews and assesses Soviet activities with respect to existing strategic offensive arms agreements; and

(D) makes recommendations regarding the future of United States interim restraint policy; and

(5) the President should carefully consider the impact of any change to this current policy regarding existing strategic offensive arms agreements on the long-term security interests of the United States and its allies and should consult with the Congress before making any change in current policy.

POLICY ON THE STATUS OF CERTAIN TREATIES TO PREVENT NUCLEAR TESTING

SEC. 1111. (a) The Senate makes the following findings:

(1) The United States is committed in the Limited Test Ban Treaty of 1963 and in the Non-Proliferation Treaty of 1968 to seek to achieve the discontinuance of all test explosions of nuclear weapons for all time.

(2) A comprehensive test ban treaty would promote the security of the United States by constraining the United States-Soviet nuclear arms competition and by strengthening efforts to prevent the proliferation of nuclear weapons.

(3) The Threshold Test Ban Treaty was signed in 1974 and the Peaceful Nuclear Explosions Treaty was signed in 1976, and both have yet to be considered by the full Senate for its advice and consent to ratification.

(4) The entry into force of the Peaceful Nuclear Explosions Treaty and the Threshold Test Ban Treaty will ensure full implementation of significant new verification procedures and so make completion of a comprehensive test ban treaty more probable.

(5) A comprehensive test ban treaty must be adequately verifiable, and significant progress has been made in methods for detection of underground nuclear explosions by seismological and other means.

(6) At present, negotiations are not being pursued by the United States and the Soviet Union toward completion of a comprehensive test ban treaty.

(7) The past five administrations have supported the achievement of a comprehensive test ban treaty.

(b) It is the sense of the Senate that at the earliest possible date, the President should—

(1) request advice and consent of the Senate to ratification (with a report containing any plans the President may have to negotiate supplemental verification procedures, or if the President believes it necessary, any understanding or reservation on the subject of verification which should be attached to the treaty) of the Threshold Test Ban and Peaceful Nuclear Explosions Treaties, signed in 1974 and 1976, respectively; and

(2) propose to the Soviet Union the immediate resumption of negotiations toward conclusion of a verifiable comprehensive test ban treaty.

(c) In accordance with international law, the United States shall have no obligation to comply with any bilateral arms control agreement with the Soviet Union that the Soviet Union is violating.

JOINT RESOLUTION Concerning the war powers of Congress and the President.

*Resolved by the Senate and House of Representatives of the
United States of America in Congress assembled,*

SHORT TITLE

SECTION 1. This joint resolution may be cited as the "War Powers Resolution".

PURPOSE AND POLICY

SEC. 2.¹ (a) It is the purpose of this joint resolution to fulfill the intent of the framers of the Constitution of the United States and insure that the collective judgment of both the Congress and the President will apply to the introduction of United States Armed Forces into hostilities, or into situations where imminent involvement in hostilities is clearly indicated by the circumstances, and to the continued use of such forces in hostilities or in such situations.

(b) Under article I, section 8, of the Constitution, it is specifically provided that the Congress shall have the power to make all laws necessary and proper for carrying into execution, not only its own powers but also all other powers vested by the Constitution in the Government of the United States, or in any department or officer thereof.

(c) The constitutional powers of the President as Commander-in-Chief to introduce United States Armed Forces into hostilities, or into situations where imminent involvement in hostilities is clearly indicated by the circumstances, are exercised only pursuant to (1) a declaration of war, (2) specific statutory authorization, or (3) a national emergency created by attack upon the United States, its territories or possessions, or its armed forces.

CONSULTATION

SEC. 3.² The President in every possible instance shall consult with Congress before introducing United States Armed Forces into hostilities or into situations where imminent involvement in hostilities is clearly indicated by the circumstances, and after every such introduction shall consult regularly with the Congress until United States Armed Forces are no longer engaged in hostilities or have been removed from such situations.

REPORTING

SEC. 4.³ (a) In the absence of a declaration of war, in any case in which United States Armed Forces are introduced—

(1) into hostilities or into situations where imminent involvement in hostilities is clearly indicated by the circumstances;

(2) into the territory, airspace or waters of a foreign nation, while equipped for combat, except for deployments which relate solely to supply, replacement, repair, or training of such forces; or

(3) in numbers which substantially enlarge United States Armed Forces equipped for combat already located in a foreign nation;

the President shall submit within 48 hours to the Speaker of the House of Representatives and to the President pro tempore of the Senate a report, in writing, setting forth—

(A) the circumstances necessitating the introduction of United States Armed Forces;

(B) the constitutional and legislative authority under which such introduction took place; and

(C) the estimated scope and duration of the hostilities or involvement.

(b) The President shall provide such other information as the Congress may request in the fulfillment of its constitutional responsibilities with respect to committing the Nation to war and to the use of United States Armed Forces abroad.

(c) Whenever United States Armed Forces are introduced into hostilities or into any situation described in subsection (a) of this section, the President shall, so long as such armed forces continue to be engaged in such hostilities or situation, report to the Congress periodically on the status of such hostilities or situation as well as on the scope and duration of such hostilities or situation, but in no event shall he report to the Congress less often than once every six months.

³ 50 U.S.C. 1543.

CONGRESSIONAL ACTION⁴

SEC. 5.⁵ (a) Each report submitted pursuant to section 4(a)(1) shall be transmitted to the Speaker of the House of Representatives and to the President pro tempore of the Senate on the same calendar day. Each report so transmitted shall be referred to the Committee on Foreign Affairs⁶ of the House of Representatives and to the Committee on Foreign Relations of the Senate for appropriate action. If, when the report is transmitted, the Congress has adjourned sine die or has adjourned for any period in excess of three calendar days, the Speaker of the House of Representatives and the President pro tempore of the Senate, if they deem it advisable (or if petitioned by at least 30 percent of the membership of their respective Houses) shall jointly request the President to convene Congress in order that it may consider the report and take appropriate action pursuant to this section.

(b) Within sixty calendar days after a report is submitted or is required to be submitted pursuant to section 4(a)(1), whichever is earlier, the President shall terminate any use of United States Armed Forces with respect to which such report was submitted (or required to be submitted), unless the Congress (1) has declared war or has enacted a specific authorization for such use of United States Armed Forces, (2) has extended by law such sixty-day period, or (3) is physically unable to meet as a result of an armed attack upon the United States. Such sixty-day period shall be extended for not more than an additional thirty days if the President determines and certifies to the Congress in writing that unavoidable military necessity respecting the safety of United States Armed Forces requires the continued use of such armed forces in the course of bringing about a prompt removal of such forces.

(c) Notwithstanding subsection (b), at any time that United States Armed Forces are engaged in hostilities outside the territory of the United States, its possessions and territories without a declaration of war or specific statutory authorization, such forces shall be removed by the President if the Congress so directs by concurrent resolution.

⁴ Consider also sec. 1013 of the Department of State Authorization Act, Fiscal Years 1984 and 1985 (Public Law 98-164; 97 Stat. 1062; 50 U.S.C. 1546a) which provides:

"EXPEDITED PROCEDURES FOR CERTAIN JOINT RESOLUTION AND BILLS

"SEC. 1013. Any joint resolution or bill introduced in either House which requires the removal of United States Armed Forces engaged in hostilities outside the territory of the United States, its possessions and territories, without a declaration of war or specific statutory authorization shall be considered in accordance with the procedures of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976, except that any such resolution or bill shall be amendable. If such a joint resolution or bill should be vetoed by the President, the time for debate in consideration of the veto message on such measure shall be limited to twenty hours in the Senate and in the House shall be determined in accordance with the Rules of the House."

CONGRESSIONAL PRIORITY PROCEDURES FOR JOINT RESOLUTION OR BILL⁴

SEC. 6.⁷ (a) Any joint resolution or bill introduced pursuant to section 5(b) at least thirty calendar days before the expiration of the sixty-day period specified in such section, shall be referred to the Committee on Foreign Affairs⁶ of the House of Representatives or the Committee on Foreign Relations of the Senate, as the case may be, and such committee shall report one such joint resolution or bill, together with its recommendations, not later than twenty-four calendar days before the expiration of the sixty-day period specified in such section, unless such House shall otherwise determine by the yeas and nays.

(b) Any joint resolution or bill so reported shall become the pending business of the House in question (in the case of the Senate the time for debate shall be equally divided between the proponents and the opponents), and shall be voted on within three calendar days thereafter, unless such House shall otherwise determine by yeas and nays.

(c) Such a joint resolution or bill passed by one House shall be referred to the committee of the other House named in subsection (a) and shall be reported out not later than fourteen calendar days before the expiration of the sixty-day period specified in section 5(b). The joint resolution or bill so reported shall become the pending business of the House in question and shall be voted on within three calendar days after it has been reported, unless such House shall otherwise determine by yeas and nays.

(d) In the case of any disagreement between the two Houses of Congress with respect to a joint resolution or bill passed by both Houses, conferees shall be promptly appointed and the committee of conference shall make and file a report with respect to such resolution or bill not later than four calendar days before the expiration of the sixty-day period specified in section 5(b). In the event the conferees are unable to agree within 48 hours, they shall report back to their respective House in disagreement. Notwithstanding any rule in either House concerning the printing of conference reports in the Record or concerning any delay in the consideration of such reports, such report shall be acted on by both Houses not later than the expiration of such sixty-day period.

CONGRESSIONAL PRIORITY PROCEDURES FOR CONCURRENT RESOLUTION

SEC. 7.⁸ (a) Any concurrent resolution introduced pursuant to section 5(c) shall be referred to the Committee on Foreign Affairs⁶ of the House of Representatives or the Committee on Foreign Relations of the Senate, as the case may be, and one such concurrent resolution shall be reported out by such committee together with its recommendations within fifteen calendar days, unless such House shall otherwise determine by the yeas and nays.

(b) Any concurrent resolution so reported shall become the pending business of the House in question (in the case of the Senate the

time for debate shall be equally divided between the proponents and the opponents) and shall be voted on within three calendar days thereafter, unless such House shall otherwise determine by yeas and nays.

(c) Such a concurrent resolution passed by one House shall be referred to the committee of the other House named in subsection (a) and shall be reported out by such committee together with its recommendations within fifteen calendar days and shall thereupon become the pending business of such House and shall be voted upon within three calendar days, unless such House shall otherwise determine by yeas and nays.

(d) In the case of any disagreement between the two Houses of Congress with respect to a concurrent resolution passed by both Houses, conferees shall be promptly appointed and the committee of conference shall make and file a report with respect to such concurrent resolution within six calendar days after the legislation is referred to the committee of conference. Notwithstanding any rule in either House concerning the printing of conference reports in the Record or concerning any delay in the consideration of such reports, such report shall be acted on by both Houses not later than six calendar days after the conference report is filed. In the event the conferees are unable to agree within 48 hours, they shall report back to their respective Houses in disagreement.

INTERPRETATION OF JOINT RESOLUTION

SEC. 8.⁹ (a) Authority to introduce United States Armed Forces into hostilities or into situations wherein involvement in hostilities is clearly indicated by the circumstances shall not be inferred—

(1) from any provision of law (whether or not in effect before the date of the enactment of this joint resolution), including any provision contained in any appropriation Act, unless such provision specifically authorizes the introduction of United States Armed Forces into hostilities or into such situations and states that it is intended to constitute specific statutory authorization within the meaning of this joint resolution; or

(2) from any treaty heretofore or hereafter ratified unless such treaty is implemented by legislation specifically authorizing the introduction of United States Armed Forces into hostilities or into such situations and stating that it is intended to constitute specific statutory authorization within the meaning of this joint resolution.

(b) Nothing in this joint resolution shall be construed to require any further specific statutory authorization to permit members of United States Armed Forces to participate jointly with members of the armed forces of one or more foreign countries in the headquarters operations of high-level military commands which were established prior to the date of enactment of this joint resolution and pursuant to the United Nations Charter or any treaty ratified by the United States prior to such date.

(c) For purposes of this joint resolution, the term “introduction of United States Armed Forces” includes the assignment of members of such armed forces to command, coordinate, participate in the

movement of, or accompany the regular or irregular military forces of any foreign country or government when such military forces are engaged, or there exists an imminent threat that such forces will become engaged, in hostilities.

(d) Nothing in this joint resolution—

(1) is intended to alter the constitutional authority of the Congress or of the President, or the provisions of existing treaties; or

(2) shall be construed as granting any authority to the President with respect to the introduction of United States Armed Forces into hostilities or into situations wherein involvement in hostilities is clearly indicated by the circumstances which authority he would not have had in the absence of this joint resolution.

SEPARABILITY CLAUSE

SEC. 9.¹⁰ If any provision of this joint resolution or the application thereof to any person or circumstances is held invalid, the remainder of the joint resolution and the application of such provision to any other person or circumstance shall not be affected thereby.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the “National Emergencies Act”.

TITLE I—TERMINATING EXISTING DECLARED EMERGENCIES

SEC. 101.² (a) All powers and authorities possessed by the President, any other officer or employee of the Federal Government, or any executive agency, as defined in section 105 of title 5, United States Code, as a result of the existence of this Act are terminated two years from the date of such enactment. Such termination shall not affect—

- (2) any action or proceeding based on any act committed prior to such date; or
- (3) any rights or duties that matured or penalties that were incurred prior to such date.

(b) For the purpose of this section, the words “any national emergency in effect” means a general declaration of emergency made by the President.

national emergency. Such proclamation shall immediately be transmitted to the Congress and published in the Federal Register.

(b) Any provisions of law conferring powers and authorities to be exercised during a national emergency shall be effective and remain in effect (1) only when the President (in accordance with subsection (a) of this section), specifically declares a national emergency, and (2) only in accordance with this Act. No law enacted after the date of enactment of this Act shall supersede this title unless it does so in specific terms, referring to this title, and declaring that the new law supersedes the provisions of this title.

SEC. 202.⁴ (a) Any national emergency declared by the President in accordance with this title shall terminate if—

(1) there is enacted into law a joint resolution terminating the emergency; or

(2) the President issues a proclamation terminating the emergency.

Any national emergency declared by the President shall be terminated on the date specified in any joint resolution referred to in clause (1) or on the date specified in a proclamation by the President terminating the emergency as provided in clause (2) of this subsection, whichever date is earlier, and any powers or authorities exercised by reason of said emergency shall cease to be exercised after such specified date, except that such termination shall not affect—

(C) any rights or duties that matured or penalties that were incurred prior to such date.

(c)(1) A joint resolution to terminate a national emergency declared by the President shall be referred to the appropriate committee of the House of Representatives or the Senate, as the case may be. One such joint resolution shall be reported out by such committee together with its recommendations within fifteen calendar days after the day on which such resolution is referred to such committee, unless such House shall otherwise determine by the yeas and nays.

(2) Any joint resolution so reported shall become the pending business of the House in question (in the case of the Senate the time for debate shall be equally divided between the proponents and the opponents) and shall be voted on within three calendar days after the day on which such resolution is reported, unless such House shall otherwise determine by yeas and nays.

(3) Such a joint resolution passed by one House shall be referred to the appropriate committee of the other House and shall be reported out by such committee together with its recommendations within fifteen calendar days after the day on which such resolution is referred to such committee and shall thereupon become the pending business of such House and shall be voted upon within three calendar days after the day on which such resolution is reported, unless such House shall otherwise determine by yeas and nays.

(4) In the case of any disagreement between the two Houses of Congress with respect to a joint resolution passed by both Houses, conferees shall be promptly appointed and the committee of conference shall make and file a report with respect to such joint resolution within six calendar days after the day on which managers on the part of the Senate and the House have been appointed. Notwithstanding any rule in either House concerning the printing of conference reports or concerning any delay in the consideration of such reports, such report shall be acted on by both Houses not later than six calendar days after the conference report is filed in the House in which such report is filed first. In the event the conferees are unable to agree within forty-eight hours, they shall report back to their respective houses in disagreement.

(5) Paragraphs (1)–(4) of this subsection, subsection (b) of this section, and section 502(b) of this Act are enacted by Congress—

(A) as an exercise of the rulemaking power of the Senate and the House of Representatives, respectively, and as such they are deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in the House in the case of resolutions described by this subsection; and they supersede other rules only to the extent that they are inconsistent therewith; with

(B) with full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner, and to the same extent as in the case of any other rule of that House.

(d) Any national emergency declared by the President in accordance with this title, and not otherwise previously terminated, shall terminate on the anniversary of the declaration of that emergency if, within the ninety-day period prior to each anniversary date, the President does not publish in the Federal Register and transmit to the Congress a notice stating that such emergency is to continue in effect after such anniversary.

**Proclamation 7463 of September 14, 2001, 66 F.R. 48199, 50 U.S.C. 1621 note
By the President of the United States of America**

A Proclamation

A national emergency exists by reason of the terrorist attacks at the World Trade Center, New York, New York, and the Pentagon, and the continuing and immediate threat of further attacks on the United States.

NOW, THEREFORE, I, GEORGE W. BUSH, President of the United States of America, by virtue of the authority vested in me as President by the Constitution and the laws of the United States, I hereby declare that the national emergency has existed since September 11, 2001, and, pursuant to the National Emergencies Act (50 U.S.C. 1601 *et seq.*), I intend to utilize the following statutes: sections 123, 123a, 527, 2201(c), 12006, and 12302 of title 10, United States Code, and sections 331, 359, and 367 of title 14, United States Code.

This proclamation immediately shall be published in the Federal Register or disseminated through the Emergency Federal Register, and transmitted to the Congress.

This proclamation is not intended to create any right or benefit, substantive or procedural, enforceable at law by a party against the United States, its agencies, its officers, or any person.

IN WITNESS WHEREOF, I have hereunto set my hand this fourteenth day of September, in the year of our Lord two thousand one, and of the Independence of the United States of America the two hundred and twenty-sixth.

¹The President continued this national emergency in a Notice of September 12, 2002 (67 F.R. 58317; September 13, 2002); a Notice of September 10, 2003 (68 F.R. 53665; September 12, 2003); a Notice of September 10, 2004 (69 F.R. 55313; September 13, 2004); a Notice of September 8, 2005 (70 F.R. 54229; September 13, 2005); a Notice of September 5, 2006 (71 F.R. 52733; September 7, 2006); a Notice of September 12, 2007 (72 F.R. 52465; September 13, 2007); and a Notice of August 28, 2008 (73 F.R. 51211; September 2, 2008).

(3) National Emergency Construction Authority

Executive Order 13235, 66 F.R. 58343, 10 U.S.C. 2808 note

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the National Emergencies Act (50 U.S.C. 1601 *et seq.*), and section 301 of title 3, United States Code, I declared a national emergency that requires the use of the Armed Forces of the United States, by Proclamation 7463 of September 14, 2001, because of the terrorist attacks on the World Trade Center and the Pentagon, and because of the continuing and immediate threat to the national security of the United States of further terrorist attacks. To provide additional authority to the Department of Defense to respond to that threat, and in accordance with section 301 of the National Emergencies Act (50 U.S.C. 1631), I hereby order that the emergency construction authority at 10 U.S.C. 2808 is invoked and made available in accordance with its terms to the Secretary of Defense and, at the discretion of the Secretary of Defense, to the Secretaries of the military departments.

**c. Authorization for Use of Military Force Against Iraq
Resolution of 2002¹**

**Public Law 107-243 [H.J. Res. 114], 116 Stat. 1498, approved October 16,
2002**

JOINT RESOLUTION To authorize the use of United States Armed Forces against
Iraq.

Whereas in 1990 in response to Iraq's war of aggression against and illegal occupation of Kuwait, the United States forged a coalition of nations to liberate Kuwait and its people in order to defend the national security of the United States and enforce United Nations Security Council resolutions relating to Iraq;

Whereas after the liberation of Kuwait in 1991, Iraq entered into a United Nations sponsored cease-fire agreement pursuant to which Iraq unequivocally agreed, among other things, to eliminate its nuclear, biological, and chemical weapons programs and the means to deliver and develop them, and to end its support for international terrorism;

Whereas the efforts of international weapons inspectors, United States intelligence agencies, and Iraqi defectors led to the discovery that Iraq had large stockpiles of chemical weapons and a large scale biological weapons program, and that Iraq had an advanced nuclear weapons development program that was much closer to producing a nuclear weapon than intelligence reporting had previously indicated;

Whereas Iraq, in direct and flagrant violation of the cease-fire, attempted to thwart the efforts of weapons inspectors to identify and destroy Iraq's weapons of mass destruction stockpiles and development capabilities, which finally resulted in the withdrawal of inspectors from Iraq on October 31, 1998;

Whereas in Public Law 105-235 (August 14, 1998), Congress concluded that Iraq's continuing weapons of mass destruction programs threatened vital United States interests and international peace and security, declared Iraq to be in "material and unacceptable breach of its international obligations" and urged the President "to take appropriate action, in accordance with the Constitution and relevant laws of the United States, to bring Iraq into compliance with its international obligations";

Whereas Iraq both poses a continuing threat to the national security of the United States and international peace and security in the Persian Gulf region and remains in material and unacceptable breach of its international obligations by, among other things, continuing to possess and develop a significant chemical and biological weapons capability, actively seeking a nuclear weapons capability, and supporting and harboring terrorist organizations;

¹ 50 U.S.C. 1541 note.

- Whereas Iraq persists in violating resolution of the United Nations Security Council by continuing to engage in brutal repression of its civilian population thereby threatening international peace and security in the region, by refusing to release, repatriate, or account for non-Iraqi citizens wrongfully detained by Iraq, including an American serviceman, and by failing to return property wrongfully seized by Iraq from Kuwait;
- Whereas the current Iraqi regime has demonstrated its capability and willingness to use weapons of mass destruction against other nations and its own people;
- Whereas the current Iraqi regime has demonstrated its continuing hostility toward, and willingness to attack, the United States, including by attempting in 1993 to assassinate former President Bush and by firing on many thousands of occasions on United States and Coalition Armed Forces engaged in enforcing the resolutions of the United Nations Security Council;
- Whereas members of al Qaida, an organization bearing responsibility for attacks on the United States, its citizens, and interests, including the attacks that occurred on September 11, 2001, are known to be in Iraq;
- Whereas Iraq continues to aid and harbor other international terrorist organizations, including organizations that threaten the lives and safety of United States citizens;
- Whereas the attacks on the United States of September 11, 2001, underscored the gravity of the threat posed by the acquisition of weapons of mass destruction by international terrorist organizations;
- Whereas Iraq's demonstrated capability and willingness to use weapons of mass destruction, the risk that the current Iraqi regime will either employ those weapons to launch a surprise attack against the United States or its Armed Forces or provide them to international terrorists who would do so, and the extreme magnitude of harm that would result to the United States and its citizens from such an attack, combine to justify action by the United States to defend itself;
- Whereas United Nations Security Council Resolution 678 (1990) authorizes the use of all necessary means to enforce United Nations Security Council Resolution 660 (1990) and subsequent relevant resolutions and to compel Iraq to cease certain activities that threaten international peace and security, including the development of weapons of mass destruction and refusal or obstruction of United Nations weapons inspections in violation of United Nations Security Council Resolution 687 (1991), repression of its civilian population in violation of United Nations Security Council Resolution 688 (1991), and threatening its neighbors or United Nations operations in Iraq in violation of United Nations Security Council Resolution 949 (1994);
- Whereas in the Authorization for Use of Military Force Against Iraq Resolution (Public Law 102-1), Congress has authorized the President "to use United States Armed Forces pursuant to United Nations Security Council Resolution 678 (1990) in order to achieve implementation of Security Council Resolution 660, 661, 662, 664, 665, 666, 667, 669, 670, 674, and 677";

Whereas in December 1991, Congress expressed its sense that it “supports the use of all necessary means to achieve the goals of United Nations Security Council Resolution 687 as being consistent with the Authorization of Use of Military Force Against Iraq Resolution (Public Law 102-1),” that Iraq’s repression of its civilian population violates United Nations Security Council Resolution 688 and “constitutes a continuing threat to the peace, security, and stability of the Persian Gulf region,” and that Congress, “supports the use of all necessary means to achieve the goals of United Nations Security Council Resolution 688”;

Whereas the Iraq Liberation Act of 1998 (Public Law 105-338) expressed the sense of Congress that it should be the policy of the United States to support efforts to remove from power the current Iraqi regime and promote the emergence of a democratic government to replace that regime;

Whereas on September 12, 2002, President Bush committed the United States to “work with the United Nations Security Council to meet our common challenge” posed by Iraq and to “work for the necessary resolutions,” while also making clear that “the Security Council resolutions will be enforced, and the just demands of peace and security will be met, or action will be unavoidable”;

Whereas the United States is determined to prosecute the war on terrorism and Iraq’s ongoing support for international terrorist groups combined with its development of weapons of mass destruction in direct violation of its obligations under the 1991 cease-fire and other United Nations Security Council resolutions make clear that it is in the national security interests of the United States and in furtherance of the war on terrorism that all relevant United Nations Security Council resolutions be enforced, including through the use of force if necessary;

Whereas Congress has taken steps to pursue vigorously the war on terrorism through the provision of authorities and funding requested by the President to take the necessary actions against international terrorists and terrorist organizations, including those nations, organizations, or persons who planned, authorized, committed, or aided the terrorist attacks that occurred on September 11, 2001, or harbored such persons or organizations;

Whereas the President and Congress are determined to continue to take all appropriate actions against international terrorists and terrorist organizations, including those nations, organizations, or persons who planned, authorized, committed, or aided the terrorist attacks that occurred on September 11, 2001, or harbored such persons or organizations;

Whereas the President has authority under the Constitution to take action in order to deter and prevent acts of international terrorism against the United States, as Congress recognized in the joint resolution on Authorization for Use of Military Force (Public Law 107-40); and

Whereas it is in the national security interests of the United States to restore international peace and security to the Persian Gulf region: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,

- (1) reliance by the United States on further diplomatic or other peaceful means alone either (A) will not adequately protect the national security of the United States against the continuing threat posed by Iraq or (B) is not likely to lead to enforcement of all relevant United Nations Security Council resolutions regarding Iraq; and

- (2) acting pursuant to this joint resolution is consistent with the United States and other countries continuing to take the necessary actions against international terrorist and terrorist organizations, including those nations, organizations, or persons who planned, authorized, committed or aided the terrorist attacks that occurred on September 11, 2001.

(3) Detention, Treatment, and Trial of Certain Non-Citizens in the War Against Terrorism

**Military Order of November 13, 2001, 66 F.R. 57833, superseded by
Executive Order 13425**

By the authority vested in me as President and as Commander in Chief of the Armed Forces of the United States by the Constitution and the laws of the United States of America, including the Authorization for Use of Military Force Joint Resolution (Public Law 107-40, 115 Stat. 224) and sections 821 and 836 of title 10, United States Code, it is hereby ordered as follows:

Section 1. Findings.

(a) International terrorists, including members of al Qaida, have carried out attacks on United States diplomatic and military personnel and facilities abroad and on citizens and property within the United States on a scale that has created a state of armed conflict that requires the use of the United States Armed Forces.

(b) In light of grave acts of terrorism and threats of terrorism, including the terrorist attacks on September 11, 2001, on the headquarters of the United States Department of Defense in the national capital region, on the World Trade Center in New York, and on civilian aircraft such as in Pennsylvania, I proclaimed a national emergency on September 14, 2001 (Proc. 7463, Declaration of National Emergency by Reason of Certain Terrorist Attacks).¹

(c) Individuals acting alone and in concert involved in international terrorism possess both the capability and the intention to undertake further terrorist attacks against the United States that, if not detected and prevented, will cause mass deaths, mass injuries, and massive destruction of property, and may place at risk the continuity of the operations of the United States Government.

(d) The ability of the United States to protect the United States and its citizens, and to help its allies and other cooperating nations protect their nations and their citizens, from such further terrorist attacks depends in significant part upon using the United States Armed Forces to identify terrorists and those who support them, to disrupt their activities, and to eliminate their ability to conduct or support such attacks.

(e) To protect the United States and its citizens, and for the effective conduct of military operations and prevention of terrorist attacks, it is necessary for individuals subject to this order pursuant to section 2 hereof to be detained, and, when tried, to be tried for violations of the laws of war and other applicable laws by military tribunals.

(f) Given the danger to the safety of the United States and the nature of international terrorism, and to the extent provided by and under this order, I find consistent with section 836 of title 10,

¹ 66 F.R. 48199, 50 U.S.C. 1621 note.

United States Code, that it is not practicable to apply in military commissions under this order the principles of law and the rules of evidence generally recognized in the trial of criminal cases in the United States district courts.

(g) Having fully considered the magnitude of the potential deaths, injuries, and property destruction that would result from potential acts of terrorism against the United States, and the probability that such acts will occur, I have determined that an extraordinary emergency exists for national defense purposes, that this emergency constitutes an urgent and compelling government interest, and that issuance of this order is necessary to meet the emergency.

Sec. 2. Definition and Policy.

(a) The term “individual subject to this order” shall mean any individual who is not a United States citizen with respect to whom I determine from time to time in writing that:

(1) there is reason to believe that such individual, at the relevant times,

(i) is or was a member of the organization known as al Qaida;

(ii) has engaged in, aided or abetted, or conspired to commit, acts of international terrorism, or acts in preparation therefor, that have caused, threaten to cause, or have as their aim to cause, injury to or adverse effects on the United States, its citizens, national security, foreign policy, or economy; or

(iii) has knowingly harbored one or more individuals described in subparagraphs (i) or (ii) of subsection 2(a)(1) of this order; and

(c) Orders and regulations issued under subsection (b) of this section shall include, but not be limited to, rules for the conduct of the proceedings of military commissions, including pretrial, trial, and post-trial procedures, modes of proof, issuance of process, and qualifications of attorneys, which shall at a minimum provide for—

(1) military commissions to sit at any time and any place, consistent with such guidance regarding time and place as the Secretary of Defense may provide;

(2) a full and fair trial, with the military commission sitting as the triers of both fact and law;

(3) admission of such evidence as would, in the opinion of the presiding officer of the military commission (or instead, if any other member of the commission so requests at the time the presiding officer renders that opinion, the opinion of the commission rendered at that time by a majority of the commission), have probative value to a reasonable person;

(4) in a manner consistent with the protection of information classified or classifiable under Executive Order 12958 of April 17, 1995, as amended, or any successor Executive Order, protected by statute or rule from unauthorized disclosure, or otherwise protected by law, (A) the handling of, admission into evidence of, and access to materials and information, and (B) the conduct, closure of, and access to proceedings;

(5) conduct of the prosecution by one or more attorneys designated by the Secretary of Defense and conduct of the defense by attorneys for the individual subject to this order;

(6) conviction only upon the concurrence of two-thirds of the members of the commission present at the time of the vote, a majority being present;

(7) sentencing only upon the concurrence of two-thirds of the members of the commission present at the time of the vote, a majority being present; and

(8) submission of the record of the trial, including any conviction or sentence, for review and final decision by me or by the Secretary of Defense if so designated by me for that purpose.

Sec. 5. *Obligation of Other Agencies to Assist the Secretary of Defense.*

Departments, agencies, entities, and officers of the United States shall, to the maximum extent permitted by law, provide to the Secretary of Defense such assistance as he may request to implement this order.

Sec. 6. *Additional Authorities of the Secretary of Defense.*

(a) As a military function and in light of the findings in section 1, the Secretary of Defense shall issue such orders and regulations as may be necessary to carry out any of the provisions of this order.

(b) The Secretary of Defense may perform any of his functions or duties, and may exercise any of the powers provided to him under this order (other than under section 4(c)(8) hereof) in accordance with section 113(d) of title 10, United States Code.

Executive Order 13425, February 14, 2007, 72 F.R. 7737, 10 U.S.C. 948b note

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the Military Commissions Act of 2006 (Public Law 109–366), the Authorization for Use of Military Force (Public Law 107–40), and section 948b(b) of title 10, United States Code, it is hereby ordered as follows:

Section 1. *Establishment of Military Commissions.* There are hereby established military commissions to try alien unlawful enemy combatants for offenses triable by military commission as provided in chapter 47A of title 10.

Sec. 2. *Definitions.* As used in this order:

(a) “unlawful enemy combatant” has the meaning provided for that term in section 948a(1) of title 10; and

(b) “alien” means a person who is not a citizen of the United States.

Sec. 3. *Supersedure.* This order supersedes any provision of the President’s Military Order of November 13, 2001 (66 *Fed. Reg.* 57,833), that relates to trial by military commission, specifically including:

(a) section 4 of the Military Order; and

(b) any requirement in section 2 of the Military Order, as it relates to trial by military commission, for a determination of:

(5) Interpretation of the Geneva Conventions Common Article 3 as Applied to a Program of Detention and Interrogation Operated by the Central Intelligence Agency

Executive Order 13440, July 20, 2007, 72 F.R. 40707, 18 U.S.C. 2441 note

By the authority vested in me as President and Commander in Chief of the Armed Forces by the Constitution and the laws of the United States of America, including the Authorization for Use of Military Force (Public Law 107-40), the Military Commissions Act of 2006 (Public Law 109-366), and section 301 of title 3, United States Code, it is hereby ordered as follows:

Section 1. General Determinations. (a) The United States is engaged in an armed conflict with al Qaeda, the Taliban, and associated forces. Members of al Qaeda were responsible for the attacks on the United States of September 11, 2001, and for many other terrorist attacks, including against the United States, its personnel, and its allies throughout the world. These forces continue to fight the United States and its allies in Afghanistan, Iraq, and elsewhere, and they continue to plan additional acts of terror throughout the world. On February 7, 2002, I determined for the United States that members of al Qaeda, the Taliban, and associated forces are unlawful enemy combatants who are not entitled to the protections that the Third Geneva Convention provides to prisoners of war. I hereby reaffirm that determination.

(b) The Military Commissions Act defines certain prohibitions of Common Article 3 for United States law, and it reaffirms and reinforces the authority of the President to interpret the meaning and application of the Geneva Conventions.

Sec. 2. Definitions. As used in this order:

(a) "Common Article 3" means Article 3 of the Geneva Conventions.

(b) "Geneva Conventions" means:

(i) the Convention for the Amelioration of the Condition of the Wounded and Sick in Armed Forces in the Field, done at Geneva August 12, 1949 (6 UST 3114);

(ii) the Convention for the Amelioration of the Condition of Wounded, Sick and Shipwrecked Members of Armed Forces at Sea, done at Geneva August 12, 1949 (6 UST 3217);

(iii) the Convention Relative to the Treatment of Prisoners of War, done at Geneva August 12, 1949 (6 UST 3316); and

(iv) the Convention Relative to the Protection of Civilian Persons in Time of War, done at Geneva August 12, 1949 (6 UST 3516).

(c) "Cruel, inhuman, or degrading treatment or punishment" means the cruel, unusual, and inhumane treatment or punishment prohibited by the Fifth, Eighth, and Fourteenth Amendments to the Constitution of the United States.

Sec. 3. *Compliance of a Central Intelligence Agency Detention and Interrogation Program with Common Article 3.* (a) Pursuant to the authority of the President under the Constitution and the laws of the United States, including the Military Commissions Act of 2006, this order interprets the meaning and application of the text of Common Article 3 with respect to certain detentions and interrogations, and shall be treated as authoritative for all purposes as a matter of United States law, including satisfaction of the international obligations of the United States. I hereby determine that Common Article 3 shall apply to a program of detention and interrogation operated by the Central Intelligence Agency as set forth in this section. The requirements set forth in this section shall be applied with respect to detainees in such program without adverse distinction as to their race, color, religion or faith, sex, birth, or wealth.

(b) I hereby determine that a program of detention and interrogation approved by the Director of the Central Intelligence Agency fully complies with the obligations of the United States under Common Article 3, provided that:

(i) the conditions of confinement and interrogation practices of the program do not include:

(A) torture, as defined in section 2340 of title 18, United States Code;

(B) any of the acts prohibited by section 2441(d) of title 18, United States Code, including murder, torture, cruel or inhuman treatment, mutilation or maiming, intentionally causing serious bodily injury, rape, sexual assault or abuse, taking of hostages, or performing of biological experiments;

(C) other acts of violence serious enough to be considered comparable to murder, torture, mutilation, and cruel or inhuman treatment, as defined in section 2441(d) of title 18, United States Code;

(D) any other acts of cruel, inhuman, or degrading treatment or punishment prohibited by the Military Commissions Act (subsection 6(c) of Public Law 109-366) and the Detainee Treatment Act of 2005 (section 1003 of Public Law 109-148 and section 1403 of Public Law 109-163);

(E) willful and outrageous acts of personal abuse done for the purpose of humiliating or degrading the individual in a manner so serious that any reasonable person, considering the circumstances, would deem the acts to be beyond the bounds of human decency, such as sexual or sexually indecent acts undertaken for the purpose of humiliation, forcing the individual to perform sexual acts or to pose sexually, threatening the individual with sexual mutilation, or using the individual as a human shield; or

(F) acts intended to denigrate the religion, religious practices, or religious objects of the individual;

(ii) the conditions of confinement and interrogation practices are to be used with an alien detainee who is determined by the Director of the Central Intelligence Agency:

(A) to be a member or part of or supporting al Qaeda, the Taliban, or associated organizations; and

(B) likely to be in possession of information that:

(1) could assist in detecting, mitigating, or preventing terrorist attacks, such as attacks within the United States or against its Armed Forces or other personnel, citizens, or facilities, or against allies or other countries cooperating in the war on terror with the United States, or their armed forces or other personnel, citizens, or facilities; or

(2) could assist in locating the senior leadership of al Qaeda, the Taliban, or associated forces;

(iii) the interrogation practices are determined by the Director of the Central Intelligence Agency, based upon professional advice, to be safe for use with each detainee with whom they are used; and

(iv) detainees in the program receive the basic necessities of life, including adequate food and water, shelter from the elements, necessary clothing, protection from extremes of heat and cold, and essential medical care.

(c) The Director of the Central Intelligence Agency shall issue written policies to govern the program, including guidelines for Central Intelligence Agency personnel that implement paragraphs (i)(C), (E), and (F) of subsection 3(b) of this order, and including requirements to ensure:

(i) safe and professional operation of the program;

(ii) the development of an approved plan of interrogation tailored for each detainee in the program to be interrogated, consistent with subsection 3(b)(iv) of this order;

(iii) appropriate training for interrogators and all personnel operating the program;

(iv) effective monitoring of the program, including with respect to medical matters, to ensure the safety of those in the program; and

(v) compliance with applicable law and this order.

Sec. 4. *Assignment of Function.* With respect to the program addressed in this order, the function of the President under section 6(c)(3) of the Military Commissions Act of 2006 is assigned to the Director of National Intelligence.

Sec. 5. *General Provisions.* (a) Subject to subsection (b) of this section, this order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity, against the United States, its departments, agencies, or other entities, its officers or employees, or any other person.

(b) Nothing in this order shall be construed to prevent or limit reliance upon this order in a civil, criminal, or administrative proceeding, or otherwise, by the Central Intelligence Agency or by any individual acting on behalf of the Central Intelligence Agency in connection with the program addressed in this order.

(2) that those efforts have not been and would not be successful in obtaining such compliance.

(c) WAR POWERS RESOLUTION REQUIREMENTS.—

(1) SPECIFIC STATUTORY AUTHORIZATION.—Consistent with section 8(a)(1) of the War Powers Resolution, the Congress declares that this section is intended to constitute specific statutory authorization within the meaning of section 5(b) of the War Powers Resolution.

SEC. 3. REPORTS TO CONGRESS.

At least once every 90³ days, the President⁴ shall submit to the Congress a summary on the status of efforts to obtain compliance by Iraq with the resolutions adopted by the United Nations Security Council in response to Iraq's aggression.

²United Nations Security Council Resolution 678, adopted November 29, 1990, recalled and reaffirmed the intentions of earlier U.N. resolutions relating to Iraq's invasion of Kuwait on August 2, 1990. Earlier resolutions, in part, condemned the Iraqi invasion of Kuwait, demanded that Iraq withdraw immediately and unconditionally from Kuwait, and called on Iraq and Kuwait to begin negotiations for the resolution of their differences (Resolution 660 adopted August 2, 1990); prevented trade relations between Iraq and U.N. Member States, or the import of any Iraqi or Kuwaiti products, and established a Committee of the Security Council to examine progress of this trade embargo (Resolution 661 adopted August 6, 1990); determined that the annexation of Kuwait by Iraq had no legal validity (Resolution 662 of August 9, 1990); demanded that Iraq facilitate and permit the immediate departure from Kuwait and Iraq of third country citizens (Resolution 664 adopted August 18, 1990); called upon Member States to blockade maritime activity to the region (Resolution 665 adopted August 25, 1990); considered an exemption of the trade embargo for foodstuffs to Iraq and Kuwait (Resolution 666 adopted September 13, 1990); condemned Iraq's aggressions against international diplomatic premises and personnel in Kuwait (Resolution 667 adopted September 16, 1990); expanded responsibilities of the Committee established under Resolution 661 (Resolution 669 adopted September 14, 1990); further defined the trade embargo to include air traffic, and called upon Member States to detain Iraqi ships in port (Resolution 670 adopted September 25, 1990); condemned the taking of third nation nationals hostage, and condemned the destruction of Kuwaiti property by Iraq (Resolution 674 adopted October 29, 1990); and condemned Iraqi attempts to alter the demographic composition of the Kuwaiti population (Resolution 677 adopted November 28, 1990).

U.N. Security Council Resolution 678, adopted on November 29, 1990, read in part as follows: "Demands that Iraq comply fully with resolutions 660 (1990) and all subsequent relevant resolutions, and decides, while maintaining all its decisions, to allow Iraq one final opportunity, as a pause of goodwill, to do so;

"Authorizes Member States cooperating with the Government of Kuwait, unless Iraq on or before 15 January 1991 fully implements, as set forth in paragraph 1 above, the foregoing resolutions, to use all necessary means to uphold and implement resolution 660 (1990) and all subsequent relevant resolutions and to restore international peace and security in the area;"

³Sec. 207 of the Admiral James W. Nance and Meg Donovan Foreign Relations Authorization Act, Fiscal Years 2000 and 2001 (H.R. 3427, enacted by reference in sec. 1000(a)(7) of Public Law 106-113; 113 Stat. 1536), struck out "60" and inserted in lieu thereof "90".

⁴In a memorandum of July 2, 2004 (69 F.R. 43723; July 21, 2004; 50 U.S.C. 1541 note), the President delegated the reporting obligation in sec. 3 to the Secretary of State.

Public Law 98-119 [S.J. Res. 159], 97 Stat. 805, approved October 12, 1983

A JOINT RESOLUTION Providing statutory authorization under the War Powers Resolution for continued United States participation in the multinational peacekeeping force in Lebanon in order to obtain withdrawal of all foreign forces from Lebanon.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,

SHORT TITLE

SECTION 1. This joint resolution may be cited as the “Multinational Force in Lebanon Resolution”.

FINDINGS AND PURPOSE

SEC. 2. (a) The Congress finds that—

(1) the removal of all foreign forces from Lebanon is an essential United States foreign policy objective in the Middle East;

(2) in order to restore full control by the Government of Lebanon over its own territory, the United States is currently participating in the multinational peacekeeping force (hereafter in this resolution referred to as the “Multinational Force in Lebanon”) which was established in accordance with the exchange of letters between the Governments of the United States and Lebanon dated September 25, 1982;

(3) the Multinational Force in Lebanon better enables the Government of Lebanon to establish its unity, independence, and territorial integrity;

(4) progress toward national political reconciliation in Lebanon is necessary; and

(5) United States Armed Forces participating in the Multinational Force in Lebanon are now in hostilities requiring authorization of their continued presence under the War Powers Resolution.

(b) The Congress determines that the requirements of section 4(a)(1) of the War Powers Resolution became operative on August 29, 1983. Consistent with section 5(b) of the War Powers Resolution, the purpose of this joint resolution is to authorize the continued participation of United States Armed Forces in the Multinational Force in Lebanon.

(c) The Congress intends this joint resolution to constitute the necessary specific statutory authorization under the War Powers

¹ 50 U.S.C. 1541 note.

Resolution for continued participation by United States Armed Forces in the Multinational Force in Lebanon.

AUTHORIZATION FOR CONTINUED PARTICIPATION OF UNITED STATES
ARMED FORCES IN THE MULTINATIONAL FORCE IN LEBANON

SEC. 3. The President is authorized, for purposes of section 5(b) of the War Powers Resolution, to continue participation by United States Armed Forces in the Multinational Force in Lebanon, subject to the provisions of section 6 of this joint resolution. Such participation shall be limited to performance of the functions, and shall be subject to the limitations, specified in the agreement establishing the Multinational Force in Lebanon as set forth in the exchange of letters between the Governments of the United States and Lebanon dated September 25, 1982, except that this shall not preclude such protective measures as may be necessary to ensure the safety of the Multinational Force in Lebanon.

REPORTS TO THE CONGRESS

SEC. 4. As required by section 4(c) of the War Powers Resolution, the President shall report periodically to the Congress with respect to the situation in Lebanon, but in no event shall he report less often than once every three months. In addition to providing the information required by that section on the status, scope, and duration of hostilities involving United States Armed Forces, such reports shall describe in detail—

- (1) the activities being performed by the Multinational Force in Lebanon;
- (2) the present composition of the Multinational Force in Lebanon, including a description of the responsibilities and deployment of the armed forces of each participating country;
- (3) the results of efforts to reduce and eventually eliminate the Multinational Force in Lebanon;
- (4) how continued United States participation in the Multinational Force in Lebanon is advancing United States foreign policy interests in the Middle East; and
- (5) what progress has occurred toward national political reconciliation among all Lebanese groups.

STATEMENTS OF POLICY

SEC. 5. (a) The Congress declares that the participation of the armed forces of other countries in the Multinational Force in Lebanon is essential to maintain the international character of the peacekeeping function in Lebanon.

(b) The Congress believes that it should continue to be the policy of the United States to promote continuing discussions with Israel, Syria, and Lebanon with the objective of bringing about the withdrawal of all foreign troops from Lebanon and establishing an environment which will permit the Lebanese Armed Forces to carry out their responsibilities in the Beirut area.

(c) It is the sense of the Congress that, not later than one year after the date of enactment of this joint resolution and at least once a year thereafter, the United States should discuss with the other

members of the Security Council of the United Nations the establishment of a United Nations peacekeeping force to assume the responsibilities of the Multinational Force in Lebanon. An analysis of the implications of the response to such discussions for the continuation of the Multinational Force in Lebanon shall be included in the reports required under paragraph (3) of section 4 of this resolution.

DURATION OF AUTHORIZATION FOR UNITED STATES PARTICIPATION IN
THE MULTINATIONAL FORCE IN LEBANON

SEC. 6. The participation of United States Armed Forces in the Multinational Force in Lebanon shall be authorized for purposes of the War Powers Resolution until the end of the eighteen-month period beginning on the date of enactment of this resolution unless the Congress extends such authorization, except that such authorization shall terminate sooner upon the occurrence of any one of the following:

(1) the withdrawal of all foreign forces from Lebanon, unless the President determines and certifies to the Congress that continued United States Armed Forces participation in the Multinational Force in Lebanon is required after such withdrawal in order to accomplish the purposes specified in the September 25, 1982, exchange of letters providing for the establishment of the Multinational Force in Lebanon; or

(2) the assumption by the United Nations or the Government of Lebanon of the responsibilities of the Multinational Force in Lebanon; or

(3) the implementation of other effective security arrangements in the area; or

(4) the withdrawal of all other countries from participation in the Multinational Force in Lebanon.

INTERPRETATION OF THIS RESOLUTION

SEC. 7. (a) Nothing in this joint resolution shall preclude the President from withdrawing United States Armed Forces participation in the Multinational Force in Lebanon if circumstances warrant and nothing in this joint resolution shall preclude the Congress by joint resolution from directing such a withdrawal.

(b) Nothing in this joint resolution modifies, limits, or supersedes any provision of the War Powers Resolution or the requirement of section 4(a) of the Lebanon Emergency Assistance Act of 1983, relating to congressional authorization for any substantial expansion in the number or role of United States Armed Forces in Lebanon.

CONGRESSIONAL PRIORITY PROCEDURES FOR AMENDMENTS

SEC. 8. (a) Any joint resolution or bill introduced to amend or repeal this Act shall be referred to the Committee on Foreign Affairs² of the House of Representatives or the Committee on Foreign Relations of the Senate, as the case may be. Such joint resolution

²Sec. 1(a)(5) of Public Law 104-14 (109 Stat. 186) provided that references to the Committee on Foreign Affairs of the House of Representatives shall be treated as referring to the Committee on International Relations of the House of Representatives.

or bill shall be considered by such committee within fifteen calendar days and may be reported out, together with its recommendations, unless such House shall otherwise determine pursuant to its rules.

(b) Any joint resolution or bill so reported shall become the pending business of the House in question (in the case of the Senate the time for debate shall be equally divided between the proponents and the opponents) and shall be voted on within three calendar days thereafter, unless such House shall otherwise determine by the yeas and nays.

(c) Such a joint resolution or bill passed by one House shall be referred to the committee of the other House named in subsection (a) and shall be reported out by such committee together with its recommendations within fifteen calendar days and shall thereupon become the pending business of such House and shall be voted upon within three calendar days, unless such House shall otherwise determine by the yeas and nays.

(d) In the case of any disagreement between the two Houses of Congress with respect to a joint resolution or bill passed by both Houses conferees shall be promptly appointed and the committee of conference shall make and file a report with respect to such joint resolution within six calendar days after the legislation is referred to the committee of conference. Notwithstanding any rule in either House concerning the printing of conference reports in the Record or concerning any delay in the consideration of such reports, such report shall be acted on by both Houses not later than six calendar days after the conference report is filed. In the event the conferees are unable to agree within forty-eight hours, they shall report back to their respective Houses in disagreement.

(2) Agreement Between the United States and Lebanon Regarding U.S. Participation in the Multinational Force, Dated September 25, 1982

Your Excellency: I have the honor to refer to the urgent discussions between representatives of our two Governments concerning the recent tragic events which have occurred in the Beirut area, and to consultations between my Government and the Secretary General of the United Nations pursuant to United Nations Security Council Resolution 521. On behalf of the Republic of Lebanon, I wish to inform your Excellency's Government of the determination of the Government of Lebanon to restore its sovereignty and authority over the Beirut area and thereby to assure the safety of persons in the area and bring an end to violence that has recurred. To this end, Israeli forces will withdraw from the Beirut area.

In its consultations with the Secretary General, the Government of Lebanon has noted that the urgency of the situation requires immediate action and the Government of Lebanon, therefore, is, in conformity with the objectives in U.N. Security Council Resolution 521, proposing to several nations that they contribute forces to serve as a temporary Multinational Force (MNF) in the Beirut area. The mandate of the MNF will be to provide an interposition force at agreed locations and thereby provide the multinational presence requested by the Lebanese Government to assist it and the Lebanese Armed Forces (LAF) in the Beirut area. This presence will facilitate the restoration of Lebanese Government sovereignty and authority over the Beirut area, and thereby further efforts of my Government to assure the safety of persons in the area and bring to an end the violence which has tragically recurred. The MNF may undertake other functions only by mutual agreement.

In the foregoing context, I have the honor to propose that the United States of America deploy a force of approximately 1200 personnel to Beirut, subject to the following terms and conditions:

- The American military force shall carry out appropriate activities consistent with the mandate of the MNF.
- Command authority over the American force will be exercised exclusively by the U.S. Government through existing American military channels.
- The LAF and MNF will form a Liaison and Coordination Committee, composed of representatives of the MNF participating governments and chaired by the representatives of my Government. The Liaison and Coordination Committee will have two essential components: (A) Supervisory liaison; and (B) Military and technical liaison and coordination.
- The American force will operate in close coordination with the LAF. To assure effective coordination with the LAF, the American force will assign liaison officers to the LAF and the Government of Lebanon will assign liaison officers to the American

force. The LAF liaison officers to the American force will, inter alia, perform liaison with the civilian population, and with the U.N. observers and manifest the authority of the Lebanese Government in all appropriate situations. The American force will provide security for LAF personnel operating with the U.S. contingent.

- In carrying out its mission, the American force will not engage in combat. It may, however, exercise the right of self-defense.
- It is understood that the presence of the American force will be needed only for a limited period to meet the urgent requirements posed by the current situation. The MNF contributors and the Government of Lebanon will consult fully concerning the duration of the MNF presence. Arrangements for the departure of the MNF will be the subject of special consultations between the Government of Lebanon and the MNF participating governments. The American force will depart Lebanon upon any request of the Government of Lebanon or upon the decision of the President of the United States.
- The Government of Lebanon and the LAF will take all measures necessary to ensure the protection of the American force's personnel, to include securing assurance from all armed elements not now under the authority of the Lebanese Government that they will refrain from hostilities and not interfere with any activities of the MNF.
- The American force will enjoy both the degree of freedom of movement and the right to undertake those activities deemed necessary for the performance of its mission for the support of its personnel. Accordingly, it shall enjoy the privileges and immunities accorded the administrative and technical staff of the American Embassy in Beirut, and shall be exempt from immigration and customs requirements, and restrictions on entering or departing Lebanon. Personnel, property, and equipment of the American force introduced into Lebanon shall be exempt from any form of tax, duty, charge, or levy.

I have the further honor to propose, if the foregoing is acceptable to your Excellency's Government, that Your Excellency's reply to that effect, together with this note, shall constitute an agreement between our two Governments.

Please accept, Your Excellency, the assurances of my highest consideration.

FOUAD BOUTROS,
Deputy Prime Minister / Minister of Foreign Affairs.

September 25, 1982.

YOUR EXCELLENCY: I have the honor to refer to your Excellency's note of 25 September 1982 requesting the deployment of an American force to the Beirut area. I am pleased to inform you on behalf of my Government that the United States is prepared to deploy temporarily a force of approximately 1,200 personnel as part of a Multinational Force (MNF) to establish an environment which will permit the Lebanese Armed Forces (LAF) to carry out their responsibilities in the Beirut area. It is understood that the presence of such an American force will facilitate the restoration of Lebanese

Government sovereignty and authority over the Beirut area, an objective which is fully shared by my Government, and thereby further efforts of the Government of Lebanon to assure the safety of persons in the area and bring to an end the violence which has tragically recurred.

I have the further honor to inform you that my Government accepts the terms and conditions concerning the presence of the American force in the Beirut area as set forth in your note, and that Your Excellency's note and this reply accordingly constitute an agreement between our two Governments.

ROBERT DILLON,
U.S. Ambassador.

TITLE II—AMERICAN SERVICEMEMBERS' PROTECTION ACT

SEC. 2001.¹ SHORT TITLE.

This title may be cited as the “American Servicemembers’ Protection Act of 2002”.

SEC. 2002.² FINDINGS.

Congress makes the following findings:

(1) On July 17, 1998, the United Nations Diplomatic Conference of Plenipotentiaries on the Establishment of an International Criminal Court, meeting in Rome, Italy, adopted the “Rome Statute of the International Criminal Court”. The vote on whether to proceed with the statute was 120 in favor to 7 against, with 21 countries abstaining. The United States voted against final adoption of the Rome Statute.

(2) As of April 30, 2001, 139 countries had signed the Rome Statute and 30 had ratified it. Pursuant to Article 126 of the Rome Statute, the statute will enter into force on the first day of the month after the 60th day following the date on which the 60th country deposits an instrument ratifying the statute.

(3) Since adoption of the Rome Statute, a Preparatory Commission for the International Criminal Court has met regularly to draft documents to implement the Rome Statute, including Rules of Procedure and Evidence, Elements of Crimes, and a definition of the Crime of Aggression.

(4) During testimony before the Congress following the adoption of the Rome Statute, the lead United States negotiator, Ambassador David Scheffer stated that the United States could not sign the Rome Statute because certain critical negotiating objectives of the United States had not been achieved. As

¹22 U.S.C. 7401 note.

²22 U.S.C. 7421.

a result, he stated: "We are left with consequences that do not serve the cause of international justice."

(5) Ambassador Scheffer went on to tell the Congress that: "Multinational peacekeeping forces operating in a country that has joined the treaty can be exposed to the Court's jurisdiction even if the country of the individual peacekeeper has not joined the treaty. Thus, the treaty purports to establish an arrangement whereby United States armed forces operating overseas could be conceivably prosecuted by the international court even if the United States has not agreed to be bound by the treaty. Not only is this contrary to the most fundamental principles of treaty law, it could inhibit the ability of the United States to use its military to meet alliance obligations and participate in multinational operations, including humanitarian interventions to save civilian lives. Other contributors to peacekeeping operations will be similarly exposed."

(6) Notwithstanding these concerns, President Clinton directed that the United States sign the Rome Statute on December 31, 2000. In a statement issued that day, he stated that in view of the unremedied deficiencies of the Rome Statute, "I will not, and do not recommend that my successor submit the Treaty to the Senate for advice and consent until our fundamental concerns are satisfied".

(7) Any American prosecuted by the International Criminal Court will, under the Rome Statute, be denied procedural protections to which all Americans are entitled under the Bill of Rights to the United States Constitution, such as the right to trial by jury.

(8) Members of the Armed Forces of the United States should be free from the risk of prosecution by the International Criminal Court, especially when they are stationed or deployed around the world to protect the vital national interests of the United States. The United States Government has an obligation to protect the members of its Armed Forces, to the maximum extent possible, against criminal prosecutions carried out by the International Criminal Court.

(9) In addition to exposing members of the Armed Forces of the United States to the risk of international criminal prosecution, the Rome Statute creates a risk that the President and other senior elected and appointed officials of the United States Government may be prosecuted by the International Criminal Court. Particularly if the Preparatory Commission agrees on a definition of the Crime of Aggression over United States objections, senior United States officials may be at risk of criminal prosecution for national security decisions involving such matters as responding to acts of terrorism, preventing the proliferation of weapons of mass destruction, and deterring aggression. No less than members of the Armed Forces of the United States, senior officials of the United States Government should be free from the risk of prosecution by the International Criminal Court, especially with respect to official actions taken by them to protect the national interests of the United States.

(10) Any agreement within the Preparatory Commission on a definition of the Crime of Aggression that usurps the prerogative of the United Nations Security Council under Article 39 of the charter of the United Nations to “determine the existence of any . . . act of aggression” would contravene the charter of the United Nations and undermine deterrence.

(11) It is a fundamental principle of international law that a treaty is binding upon its parties only and that it does not create obligations for nonparties without their consent to be bound. The United States is not a party to the Rome Statute and will not be bound by any of its terms. The United States will not recognize the jurisdiction of the International Criminal Court over United States nationals.

SEC. 2003.³ WAIVER AND TERMINATION OF PROHIBITIONS OF THIS TITLE.

(a) **AUTHORITY TO INITIALLY WAIVE SECTION 2005⁴.**—The President is authorized to waive the prohibitions and requirements of section 2005⁴ for a single period of 1 year. A waiver under this subsection may be issued only if the President at least 15 days in advance of exercising such authority—

(B) has taken no steps to arrest, detain, prosecute, or imprison any person described in clause (i) of subparagraph (A).

(c) **AUTHORITY TO WAIVE SECTIONS 4 AND 6 WITH RESPECT TO AN INVESTIGATION OR PROSECUTION OF A NAMED INDIVIDUAL.**—The President is authorized to waive the prohibitions and requirements of sections 2004 and 2006 to the degree such prohibitions and requirements would prevent United States cooperation with an investigation or prosecution of a named individual by the International Criminal Court. A waiver under this subsection may be issued only if the President at least 15 days in advance of exercising such authority—

(1) notifies the appropriate congressional committees of the intention to exercise such authority; and

(2) determines and reports to the appropriate congressional committees that—

(A) a waiver pursuant to subsection (a) or (b) of the prohibitions and requirements of section 2005⁶ is in effect;

(D) in investigating events related to actions by the named individual, none of the following persons will be investigated, arrested, detained, prosecuted, or imprisoned by or on behalf of the International Criminal Court with respect to actions undertaken by them in an official capacity:

(d) **TERMINATION OF WAIVER PURSUANT TO SUBSECTION (c).**—Any waiver or waivers exercised pursuant to subsection (c) of the prohibitions and requirements of sections 2004 and 2006 shall terminate at any time that a waiver pursuant to subsection (a) or (b) of the prohibitions and requirements of section 2005⁷ expires and is not extended pursuant to subsection (b).

(e) **TERMINATION OF PROHIBITIONS OF THIS TITLE.**—The prohibitions and requirements of sections 2004, 2005, and 2006⁸ shall cease to apply, and the authority of section 2008 shall terminate, if the United States becomes a party to the International Criminal Court pursuant to a treaty made under article II, section 2, clause 2 of the Constitution of the United States.

SEC. 2004.⁹ PROHIBITION ON COOPERATION WITH THE INTERNATIONAL CRIMINAL COURT.

(a) **APPLICATION.**—The provisions of this section—

SEC. 2005.¹⁰ RESTRICTION ON UNITED STATES PARTICIPATION IN CERTAIN UNITED NATIONS PEACEKEEPING OPERATIONS.

(a) POLICY.—Effective beginning on the date on which the Rome Statute enters into force pursuant to Article 126 of the Rome Statute, the President should use the voice and vote of the United States in the United Nations Security Council to ensure that each resolution of the Security Council authorizing any peacekeeping operation under chapter VI of the charter of the United Nations or peace enforcement operation under chapter VII of the charter of the United Nations permanently exempts, at a minimum, members of the Armed Forces of the United States participating in such operation from criminal prosecution or other assertion of jurisdiction by the International Criminal Court for actions undertaken by such personnel in connection with the operation.

(b) RESTRICTION.—Members of the Armed Forces of the United States may not participate in any peacekeeping operation under chapter VI of the charter of the United Nations or peace enforcement operation under chapter VII of the charter of the United Nations, the creation of which is authorized by the United Nations Security Council on or after the date that the Rome Statute enters into effect pursuant to Article 126 of the Rome Statute, unless the President has submitted to the appropriate congressional committees a certification described in subsection (c) with respect to such operation.

(c) CERTIFICATION.—The certification referred to in subsection (b) is a certification by the President that—

¹⁰22 U.S.C. 7424.

(1) members of the Armed Forces of the United States are able to participate in the peacekeeping or peace enforcement operation without risk of criminal prosecution or other assertion of jurisdiction by the International Criminal Court because, in authorizing the operation, the United Nations Security Council permanently exempted, at a minimum, members of the Armed Forces of the United States participating in the operation from criminal prosecution or other assertion of jurisdiction by the International Criminal Court for actions undertaken by them in connection with the operation;

(2) members of the Armed Forces of the United States are able to participate in the peacekeeping or peace enforcement operation without risk of criminal prosecution or other assertion of jurisdiction by the International Criminal Court because each country in which members of the Armed Forces of the United States participating in the operation will be present either is not a party to the International Criminal Court and has not invoked the jurisdiction of the International Criminal Court pursuant to Article 12 of the Rome Statute, or has entered into an agreement in accordance with Article 98 of the Rome Statute preventing the International Criminal Court from proceeding against members of the Armed Forces of the United States present in that country; or

(3) the national interests of the United States justify participation by members of the Armed Forces of the United States in the peacekeeping or peace enforcement operation.

SEC. 2006.¹¹ PROHIBITION ON DIRECT OR INDIRECT TRANSFER OF CLASSIFIED NATIONAL SECURITY INFORMATION AND LAW ENFORCEMENT INFORMATION TO THE INTERNATIONAL CRIMINAL COURT.

(a) **IN GENERAL.**—Not later than the date on which the Rome Statute enters into force, the President shall ensure that appropriate procedures are in place to prevent the transfer of classified national security information and law enforcement information to the International Criminal Court for the purpose of facilitating an investigation, apprehension, or prosecution.

(b) **INDIRECT TRANSFER.**—The procedures adopted pursuant to subsection (a) shall be designed to prevent the transfer to the United Nations and to the government of any country that is party to the International Criminal Court of classified national security information and law enforcement information that specifically relates to matters known to be under investigation or prosecution by the International Criminal Court, except to the degree that satisfactory assurances are received from the United Nations or that government, as the case may be, that such information will not be made available to the International Criminal Court for the purpose of facilitating an investigation, apprehension, or prosecution.

(c) **CONSTRUCTION.**—The provisions of this section shall not be construed to prohibit any action permitted under section 2008.

(b) **PERSONS AUTHORIZED TO BE FREED.**—The authority of subsection (a) shall extend to the following persons:

(1) Covered United States persons.

(2) Covered allied persons.

(3) Individuals detained or imprisoned for official actions taken while the individual was a covered United States person or a covered allied person, and in the case of a covered allied person, upon the request of such government.

(c) **AUTHORIZATION OF LEGAL ASSISTANCE.**—When any person described in subsection (b) is arrested, detained, investigated, prosecuted, or imprisoned by, on behalf of, or at the request of the International Criminal Court, the President is authorized to direct any agency of the United States Government to provide—

JOINT RESOLUTION Expressing the determination of the United States with respect to the situation in Cuba.

Whereas President James Monroe, announcing the Monroe Doctrine in 1823, declared that the United States would consider any attempt on the part of European powers to “extend their system to any portion of this hemisphere as dangerous to our peace and safety”; and

Whereas the Foreign Ministers of the Organization of American States at Punta del Este in January 1962 declared: “the present Government of Cuba has identified itself with the principles of Marxist-Leninist ideology, has established a political, economic, and social system based on that doctrine, and accepts military assistance from extracontinental Communist powers, including even the threat of military intervention in America on the part of the Soviet Union”; and

Whereas the International Communist movement has increasingly extended into Cuba its political, economic, and military sphere of influence: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the United States is determined—

(a) to prevent by whatever means may be necessary, including the use of arms, the Marxist-Leninist regime in Cuba from extending, by force or the threat of force, its aggressive or subversive activities to any part of this hemisphere;

(b) to prevent in Cuba the creation or use of an externally supported military capability endangering the security of the United States; and

(c) to work with the Organization of American States and with freedom-loving Cubans to support the aspirations of the Cuban people for self-determination.

Resolution**

Whereas the United Nations has been unable to assume those responsibilities at this time; and

Whereas a Protocol signed on August 3, 1981, by the Government of the Arab Republic of Egypt and the Government of the State of Israel provides for the creation of an alternative Multinational Force and Observers to implement the Treaty of Peace; and

d. Implementing the United States Proposal for the Early-Warning System in Sinai

Public Law 94-110 [H.J. Res. 683], 89 Stat. 572, approved October 13, 1975¹

JOINT RESOLUTION To implement the United States proposal for the early-warning system in Sinai.

Whereas an agreement signed on September 4, 1975, by the Government of the Arab Republic of Egypt and the Government of Israel may, when it enters into force, constitute a significant step toward peace in the Middle East;

Whereas the President of the United States on September 1, 1975, transmitted to the Government of the Arab Republic of Egypt and to the Government of Israel identical proposals for United States participation in an early-warning system, the text of which has been submitted to the Congress, providing for the assignment of no more than two hundred United States civilian personnel to carry out certain specified noncombat functions and setting forth the terms and conditions thereof;

Whereas that proposal would permit the Government of the United States to withdraw such personnel if it concludes that their safety is jeopardized or that continuation of their role is no longer necessary; and

Whereas the implementation of the United States proposal for the early-warning system in Sinai may enhance the prospect of compliance in good faith with the terms of the Egyptian-Israeli agreements and thereby promote the cause of peace: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the President is authorized to implement the "United States Proposal for the Early Warning System in Sinai": *Provided, however,* That United States civilian personnel assigned to Sinai under such proposal shall be removed immediately in the event of an outbreak of hostilities between Egypt and Israel or if the Congress by concurrent resolution determines that the safety of such personnel is jeopardized or that continuation of their role is no longer necessary. Nothing contained in this resolution shall be construed as granting any authority to the President with respect to the introduction of United States Armed Forces into hostilities or into situations wherein involvement in hostilities is clearly indicated by the circumstances which authority he would not have had in the absence of this joint resolution.

SEC. 2. Any concurrent resolution of the type described in the first section of this resolution which is introduced in either House of Congress shall be privileged in the same manner and to the

¹ 22 U.S.C. 2348 note.

same extent as a concurrent resolution of the type described in section 5(c) of Public Law 93-148 is privileged under section 7 of such law.²

SEC. 3. The United States civilian personnel participating in the early warning system in Sinai shall include only individuals who have volunteered to participate in such system.

SEC. 4. Whenever United States civilian personnel, pursuant to this resolution, participate in an early warning system, the President shall, so long as the participation of such personnel continues, submit written reports to the Congress periodically, but no less frequently than once every six months, on (1) the status, scope, and anticipated duration of their participation, and (2) the feasibility of ending or reducing as soon as possible their participation by substituting nationals of other countries or by making technological changes. The appropriate committees of the Congress shall promptly hold hearings on each report of the President and report to the Congress any findings, conclusions, and recommendations.

SEC. 5. The authority contained in this joint resolution to implement the "United States Proposal for the Early Warning System in Sinai" does not signify approval of the Congress of any other agreement, understanding, or commitment made by the executive branch.

5. Tonkin Gulf Resolution

Public Law 88-408 [H.J. Res. 1145], 78 Stat. 384, approved August 10, 1964

A JOINT RESOLUTION To promote the maintenance of international peace and security in Southeast Asia.

- 【Whereas naval units of the Communist regime in Vietnam, in violation of the principles of the Charter of the United Nations and of international law, have deliberately and repeatedly attacked United States naval vessels lawfully present in international waters, and have thereby created a serious threat to international peace; and
- 【Whereas these attacks are part of a deliberate and systematic campaign of aggression that the Communist regime in North Vietnam has been waging against its neighbors and the nations joined with them in the collective defense of their freedom; and
- 【Whereas the United States is assisting the peoples of southeast Asia to protect their freedom and has no territorial, military or political ambitions in that area, but desires only that these peoples should be left in peace to work out their own destinies in their own way: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Congress approves and supports the determination of the President, as Commander in Chief, to take all necessary measures to repel any armed attack against the forces of the United States and to prevent further aggression.

【SEC. 2. The United States regards as vital to its national interest and to world peace the maintenance of international peace and security in southeast Asia. Consonant with the Constitution of the United States and the Charter of the United Nations and in accordance with its obligations under the Southeast Asia Collective Defense Treaty, the United States is, therefore, prepared, as the President determines, to take all necessary steps, including the use of armed force, to assist any member or protocol state of the Southeast Asia Collective Defense Treaty requesting assistance in defense of its freedom.

【SEC. 3. This resolution shall expire when the President shall determine that the peace and security of the area is reasonably assured by international conditions created by action of the United Nations or otherwise, except that it may be terminated earlier by concurrent resolution of the Congress.】

NOTE.—Sec. 12 of Public Law 91-672, the Foreign Military Sales Act Amendments, approved January 12, 1971, provided that the joint resolution should terminate effective on the day that the second session of the Ninety-first Congress was last adjourned, such day being January 2, 1971. 6. National Commitment

**Senate Resolution 85, 91st Congress, Report No. 91-129, agreed to June 25,
1969**

RESOLUTION

Whereas accurate definition of the term “national commitment” in recent years has become obscured: Now, therefore, be it

Resolved, That (1) a national commitment for the purpose of this resolution means the use of the Armed Forces of the United States on foreign territory, or a promise to assist a foreign country, government, or people by the use of the Armed Forces or financial resources of the United States, either immediately or upon the happening of certain events, and (2) it is the sense of the Senate that a national commitment by the United States results only from affirmative action taken by the executive and legislative branches of the United States Government by means of a treaty, statute, or concurrent resolution of both Houses of Congress specifically providing for such commitment.

7. North Atlantic Alliance

a. NATO Freedom Consolidation Act of 2007¹

Public Law 110-17 [S. 494], 121 Stat. 73, approved April 9, 2007

AN ACT To endorse further enlargement of the North Atlantic Treaty Organization (NATO) and to facilitate the timely admission of new members to NATO, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “NATO Freedom Consolidation Act of 2007”.

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) The sustained commitment of the North Atlantic Treaty Organization (NATO) to mutual defense has made possible the democratic transformation of Central and Eastern Europe. Members of the North Atlantic Treaty Organization can and should play a critical role in addressing the security challenges of the post-Cold War era in creating the stable environment needed for those emerging democracies in Europe.

(2) Lasting stability and security in Europe requires the military, economic, and political integration of emerging democracies into existing European structures.

(3) In an era of threats from terrorism and the proliferation of weapons of mass destruction, the North Atlantic Treaty Organization is increasingly contributing to security in the face of global security challenges for the protection and interests of its member states.

(4) In the NATO Participation Act of 1994 (title II of Public Law 103-447; 22 U.S.C. 1928 note), Congress declared that “full and active participants in the Partnership for Peace in a position to further the principles of the North Atlantic Treaty and to contribute to the security of the North Atlantic area should be invited to become full NATO members in accordance with Article 10 of such Treaty at an early date . . .”.

(5) In the NATO Enlargement Facilitation Act of 1996 (title VI of section 101(c) of title I of division A of Public Law 104-208; 22 U.S.C. 1928 note), Congress called for the prompt admission of Poland, Hungary, the Czech Republic, and Slovenia to the North Atlantic Treaty Organization, and declared that “in order to promote economic stability and security in Slovakia, Estonia, Latvia, Lithuania, Romania, Bulgaria, Albania, Moldova, and Ukraine . . . the process of enlarging NATO to

¹ 22 U.S.C. 1928 note.

include emerging democracies in Central and Eastern Europe should not be limited to consideration of admitting Poland, Hungary, the Czech Republic, and Slovenia as full members of the NATO Alliance”.

(6) In the European Security Act of 1998 (title XXVII of division G of Public Law 105-277; 22 U.S.C. 1928 note), Congress declared that “Poland, Hungary, and the Czech Republic should not be the last emerging democracies in Central and Eastern Europe invited to join NATO” and that “Romania, Estonia, Latvia, Lithuania, and Bulgaria . . . would make an outstanding contribution to furthering the goals of NATO and enhancing stability, freedom, and peace in Europe should they become NATO members [and] upon complete satisfaction of all relevant criteria should be invited to become full NATO members at the earliest possible date”.

(7) In the Gerald B. H. Solomon Freedom Consolidation Act of 2002 (Public Law 107-187; 22 U.S.C. 1928 note), Congress endorsed “. . . the vision of further enlargement of the NATO Alliance articulated by President George W. Bush on June 15, 2001, and by former President William J. Clinton on October 22, 1996”.

(8) At the Madrid Summit of the North Atlantic Treaty Organization in July 1997, Poland, Hungary, and the Czech Republic were invited to join the Alliance, and the North Atlantic Treaty Organization heads of state and government issued a declaration stating “[t]he alliance expects to extend further invitations in coming years to nations willing and able to assume the responsibilities and obligations of membership . . . [n]o European democratic country whose admission would fulfill the objectives of the [North Atlantic] Treaty will be excluded from consideration”.

(9) At the Washington Summit of the North Atlantic Treaty Organization in April 1999, the North Atlantic Treaty Organization heads of state and government issued a communique’ declaring “[w]e pledge that NATO will continue to welcome new members in a position to further the principles of the [North Atlantic] Treaty and contribute to peace and security in the Euro-Atlantic area . . . [t]he three new members will not be the last . . . [n]o European democratic country whose admission would fulfill the objectives of the Treaty will be excluded from consideration, regardless of its geographic location . . .”.

(10) In May 2000 in Vilnius, Lithuania, the foreign ministers of Albania, Bulgaria, Estonia, Latvia, Lithuania, the Republic of Macedonia (FYROM), Romania, Slovakia, and Slovenia issued a statement (later joined by Croatia) declaring that—

(A) their countries will cooperate in jointly seeking membership in the North Atlantic Treaty Organization in the next round of enlargement of the North Atlantic Treaty Organization;

(B) the realization of membership in the North Atlantic Treaty Organization by one or more of these countries would be a success for all; and

(C) eventual membership in the North Atlantic Treaty Organization for all of these countries would be a success for Europe and for the North Atlantic Treaty Organization.

(11) On June 15, 2001, in a speech in Warsaw, Poland, President George W. Bush stated “[a]ll of Europe’s new democracies, from the Baltic to the Black Sea and all that lie between, should have the same chance for security and freedom—and the same chance to join the institutions of Europe—as Europe’s old democracies have . . . I believe in NATO membership for all of Europe’s democracies that seek it and are ready to share the responsibilities that NATO brings . . . [a]s we plan to enlarge NATO, no nation should be used as a pawn in the agenda of others . . . [w]e will not trade away the fate of free European peoples . . . [n]o more Munichs . . . [n]o more Yaltas . . . [a]s we plan the Prague Summit, we should not calculate how little we can get away with, but how much we can do to advance the cause of freedom”.

(12) On October 22, 1996, in a speech in Detroit, Michigan, former President William J. Clinton stated “NATO’s doors will not close behind its first new members . . . NATO should remain open to all of Europe’s emerging democracies who are ready to shoulder the responsibilities of membership . . . [n]o nation will be automatically excluded . . . [n]o country outside NATO will have a veto . . . [a] gray zone of insecurity must not reemerge in Europe”.

(13) At the Prague Summit of the North Atlantic Treaty Organization in November 2002, Bulgaria, Estonia, Latvia, Lithuania, Romania, Slovakia, and Slovenia were invited to join the Alliance in the second round of enlargement of the North Atlantic Treaty Organization since the end of the Cold War, and the North Atlantic Treaty Organization heads of state and government issued a declaration stating “NATO’s door will remain open to European democracies willing and able to assume the responsibilities and obligations of membership, in accordance with Article 10 of the Washington Treaty”.

(14) On May 8, 2003, the United States Senate unanimously approved the Resolution of Ratification to Accompany Treaty Document No. 108-4, Protocols to the North Atlantic Treaty of 1949 on Accession of Bulgaria, Estonia, Latvia, Lithuania, Romania, Slovakia, and Slovenia, inviting Bulgaria, Estonia, Latvia, Lithuania, Romania, Slovakia, and Slovenia to join the North Atlantic Treaty Organization.

(15) At the Istanbul Summit of the North Atlantic Treaty Organization in June 2004, the North Atlantic Treaty Organization heads of state and government issued a communique’ reaffirming that NATO’s door remains open to new members, declaring “[w]e celebrate the success of NATO’s Open Door Policy, and reaffirm today that our seven new members will not be the last. The door to membership remains open. We welcome the progress made by Albania, Croatia, and the former Yugoslav Republic of Macedonia (1) in implementing their Annual National Programmes under the Membership Action Plan, and encourage them to continue pursuing the reforms necessary to progress toward NATO membership. We also commend their

contribution to regional stability and cooperation. We want all three countries to succeed and will continue to assist them in their reform efforts. NATO will continue to assess each country's candidacy individually, based on the progress made towards reform goals pursued through the Membership Action Plan, which will remain the vehicle to keep the readiness of each aspirant for membership under review. We direct that NATO Foreign Ministers keep the enlargement process, including the implementation of the Membership Action Plan, under continual review and report to us. We will review at the next Summit progress by aspirants towards membership based on that report".

(16) Georgia and Ukraine have stated their desire to join the Euro-Atlantic community, and in particular, are seeking to join the North Atlantic Treaty Organization. Georgia and Ukraine are working closely with the North Atlantic Treaty Organization and its members to meet criteria for eventual membership in NATO.

(17) At a press conference with President Mikhail Saakashvili of Georgia in Washington, D.C. on July 5, 2006, President George W. Bush stated that ". . . I believe that NATO would benefit with Georgia being a member of NATO, and I think Georgia would benefit. And there's a way forward through the Membership Action Plan . . . And I'm a believer in the expansion of NATO. I think it's in the world's interest that we expand NATO".

(18) Following a meeting of NATO Foreign Ministers in New York on September 21, 2006, NATO Secretary General Jaap de Hoop Scheffer announced the launching of an Intensified Dialogue on membership between the Alliance and Georgia.

(19) At the NATO-Ukraine Commission Summit in Brussels in February 2005, President of Ukraine Victor Yushchenko declared membership in NATO as the ultimate goal of Ukraine's cooperation with the Alliance and expressed Ukraine's desire to conclude a Membership Action Plan.

(20) At the NATO-Ukraine Commission Foreign Ministerial meeting in Vilnius in April 2005, NATO and Ukraine launched an Intensified Dialogue on the potential membership of Ukraine in NATO.

(21) At the Riga Summit of the North Atlantic Treaty Organization in November 2006, the Heads of State and Government of the member countries of NATO issued a declaration reaffirming that NATO's door remains open to new members, declaring that "all European democratic countries may be considered for MAP (Membership Action Plan) or admission, subject to decision by the NAC (North Atlantic Council) at each stage, based on the performance of these countries towards meeting the objectives of the North Atlantic Treaty. We direct that NATO Foreign Ministers keep that process under continual review and report to us. We welcome the efforts of Albania, Croatia, and the former Yugoslav Republic of Macedonia to prepare themselves for the responsibilities and obligations of membership. We reaffirm that the Alliance will continue with Georgia and Ukraine its Intensified Dialogues which cover the

full range of political, military, financial and security issues relating to those countries' aspirations to membership, without prejudice to any eventual Alliance decision. We reaffirm the importance of the NATO-Ukraine Distinctive Partnership, which has its 10th anniversary next year and welcome the progress that has been made in the framework of our Intensified Dialogue. We appreciate Ukraine's substantial contributions to our common security, including through participation in NATO-led operations and efforts to promote regional cooperation. We encourage Ukraine to continue to contribute to regional security. We are determined to continue to assist, through practical cooperation, in the implementation of far-reaching reform efforts, notably in the fields of national security, defence, reform of the defence-industrial sector and fighting corruption. We welcome the commencement of an Intensified Dialogue with Georgia as well as Georgia's contribution to international peacekeeping and security operations. We will continue to engage actively with Georgia in support of its reform process. We encourage Georgia to continue progress on political, economic and military reforms, including strengthening judicial reform, as well as the peaceful resolution of outstanding conflicts on its territory. We reaffirm that it is of great importance that all parties in the region should engage constructively to promote regional peace and stability.”

(22) Contingent upon their continued implementation of democratic, defense, and economic reform, and their willingness and ability to meet the responsibilities of membership in the North Atlantic Treaty Organization and a clear expression of national intent to do so, Congress calls for the timely admission of Albania, Croatia, Georgia, Macedonia (FYROM), and Ukraine to the North Atlantic Treaty Organization to promote security and stability in Europe.

SEC. 3. DECLARATIONS OF POLICY.

Congress—

(1) reaffirms its previous expressions of support for continued enlargement of the North Atlantic Treaty Organization contained in the NATO Participation Act of 1994, the NATO Enlargement Facilitation Act of 1996, the European Security Act of 1998, and the Gerald B. H. Solomon Freedom Consolidation Act of 2002;

(3) endorses the vision of further enlargement of the North Atlantic Treaty Organization articulated by President George W. Bush on June 15, 2001, and by former President William J. Clinton on October 22, 1996, and urges our allies in the North Atlantic Treaty Organization to work with the United

States to realize a role for the North Atlantic Treaty Organization in promoting global security, including continued support for enlargement to include qualified candidate states, specifically by entering into a Membership Action Plan with Georgia and recognizing the progress toward meeting the responsibilities and obligations of NATO membership by Albania, Croatia, Georgia, Macedonia (FYROM), and Ukraine.

TITLE XXVII—EUROPEAN SECURITY ACT OF 1998³

SEC. 2701. SHORT TITLE.

This title may be cited as the “European Security Act of 1998”.

SEC. 2702. STATEMENT OF POLICY.

(a) **POLICY WITH RESPECT TO NATO ENLARGEMENT.**—Congress urges the President to outline a clear and complete strategic rationale for the enlargement of the North Atlantic Treaty Organization (NATO), and declares that—

(1) Poland, Hungary, and the Czech Republic should not be the last emerging democracies in Central and Eastern Europe invited to join NATO;

(2) the United States should ensure that NATO continues a process whereby all other emerging democracies in Central and Eastern Europe that wish to join NATO will be considered for membership in NATO as soon as they meet the criteria for such membership;

(3) the United States should ensure that no limitations are placed on the numbers of NATO troops or types of equipment, including tactical nuclear weapons, to be deployed on the territory of new member states;

(4) the United States should reject all efforts to condition NATO decisions on review or approval by the United Nations Security Council;

(5) the United States should clearly delineate those NATO deliberations, including but not limited to discussions on arms control, further Alliance enlargement, procurement matters, and strategic doctrine, that are not subject to review or discussion in the NATO-Russia Permanent Joint Council;

(6) the United States should work to ensure that countries invited to join the Alliance are provided an immediate seat in NATO discussions; and

(7) the United States already pays more than a proportionate share of the costs of the common defense of Europe and should obtain, in advance, agreement on an equitable distribution of the cost of NATO enlargement to ensure that the United States does not continue to bear a disproportionate burden.

¹ See also chapter 138 of 10 U.S.C., relating to cooperative agreements with NATO allies and other countries, in *Legislation on Foreign Relations Through 2008*, vol. I-B.

² Title XXVII of division G of Public Law 105-277 (112 Stat. 2681-839).

³ 22 U.S.C. 1928 note.

(b) POLICY WITH RESPECT TO NEGOTIATIONS WITH RUSSIA.—

(1) IMPLEMENTATION.—NATO enlargement should be carried out in such a manner as to underscore the Alliance's defensive nature and demonstrate to Russia that NATO enlargement will enhance the security of all countries in Europe, including Russia. Accordingly, the United States and its NATO allies should make this intention clear in negotiations with Russia, including negotiations regarding adaptation of the Conventional Armed Forces in Europe (CFE) Treaty of November 19, 1990.

(2) LIMITATIONS ON COMMITMENTS TO RUSSIA.—In seeking to demonstrate to Russia NATO's defensive and security-enhancing intentions, it is essential that neither fundamental United States security interests in Europe nor the effectiveness and flexibility of NATO as a defensive alliance be jeopardized. In particular, no commitments should be made to Russia that would have the effect of—

(A) extending rights or imposing responsibilities on new NATO members different from those applicable to current NATO members, including rights or responsibilities with respect to the deployment of nuclear weapons and the stationing of troops and equipment from other NATO members;

(B) limiting the ability of NATO to defend the territory of new NATO members by, for example, restricting the construction of defense infrastructure or limiting the ability of NATO to deploy necessary reinforcements;

(C) providing any international organization, or any country that is not a member of NATO, with authority to delay, veto, or otherwise impede deliberations and decisions of the North Atlantic Council or the implementation of such decisions, including deliberations and decisions with respect to the deployment of NATO forces or the admission of additional members to NATO;

(D) impeding the development of enhanced relations between NATO and other European countries that do not belong to the Alliance;

(E) establishing a nuclear weapons-free zone in Central or Eastern Europe;

(F) requiring NATO to subsidize Russian arms sales, service, or support to the militaries of those former Warsaw Pact countries invited to join the Alliance; or

(G) legitimizing Russian efforts to link concessions in arms control negotiations to NATO enlargement.

(3) COMMITMENTS FROM RUSSIA.—In order to enhance security and stability in Europe, the United States should seek commitments from Russia—

(A) to demarcate and respect all its borders with neighboring states;

(B) to achieve the immediate and complete withdrawal of any armed forces and military equipment under the control of Russia that are deployed on the territories of the independent states of the former Soviet Union without the full and complete agreement of those states;

(C) to station its armed forces on the territory of other states only with the full and complete agreement of that state and in strict accordance with international law; and

(D) to take steps to reduce further its nuclear and conventional forces in Kaliningrad.

(4) CONSULTATIONS.—As negotiations on adaptation of the Treaty on Conventional Armed Forces in Europe proceed, the United States should engage in close and continuous consultations not only with its NATO allies, but also with the emerging democracies of Central and Eastern Europe, Ukraine, and the South Caucasus.

(c) POLICY WITH RESPECT TO BALLISTIC MISSILE DEFENSE COOPERATION.—

(1) IN GENERAL.—As the United States proceeds with efforts to develop defenses against ballistic missile attack, it should seek to foster a climate of cooperation with Russia on matters related to missile defense. In particular, the United States and its NATO allies should seek to cooperate with Russia in such areas as early warning.

(2) DISCUSSIONS WITH NATO ALLIES.—The United States should initiate discussions with its NATO allies for the purpose of examining the feasibility of deploying a ballistic missile defense capable of protecting NATO's southern and eastern flanks from a limited ballistic missile attack.

(3) CONSTITUTIONAL PREROGATIVES.—Even as the Congress seeks to promote ballistic missile defense cooperation with Russia, it must insist on its constitutional prerogatives regarding consideration of arms control agreements with Russia that bear on ballistic missile defense.

SEC. 2703. AUTHORITIES RELATING TO NATO ENLARGEMENT.

(a) POLICY OF SECTION.—This section is enacted in order to implement the policy set forth in section 2702(a).

(b) DESIGNATION OF ADDITIONAL COUNTRIES ELIGIBLE FOR NATO ENLARGEMENT ASSISTANCE.—

(1) DESIGNATION OF ADDITIONAL COUNTRIES.—Romania, Estonia, Latvia, Lithuania, and Bulgaria are each designated as eligible to receive assistance under the program established under section 203(a) of the NATO Participation Act of 1994 (22 U.S.C. 1928 note) and shall be deemed to have been so designated pursuant to section 203(d)(1) of such Act.

(2) RULE OF CONSTRUCTION.—The designation of countries pursuant to paragraph (1) as eligible to receive assistance under the program established under section 203(a) of the NATO Participation Act of 1994—

(A) is in addition to the designation of other countries by law or pursuant to section 203(d)(2) of such Act as eligible to receive assistance under the program established under section 203(a) of such Act; and

(B) shall not preclude the designation by the President of other emerging democracies in Central and Eastern Europe pursuant to section 203(d)(2) of such Act as eligible to receive assistance under the program established under section 203(a) of such Act.

(3) SENSE OF CONGRESS.—It is the sense of Congress that Romania, Estonia, Latvia, Lithuania, and Bulgaria—

(A) are to be commended for their progress toward political and economic reform and meeting the guidelines for prospective NATO members;

(B) would make an outstanding contribution to furthering the goals of NATO and enhancing stability, freedom, and peace in Europe should they become NATO members; and

(C) upon complete satisfaction of all relevant criteria should be invited to become full NATO members at the earliest possible date.

(c) REGIONAL AIRSPACE INITIATIVE AND PARTNERSHIP FOR PEACE INFORMATION MANAGEMENT SYSTEM.—

(1) IN GENERAL.—Funds described in paragraph (2) are authorized to be made available to support the implementation of the Regional Airspace Initiative and the Partnership for Peace Information Management System, including—

(A) the procurement of items in support of these programs; and

(B) the transfer of such items to countries participating in these programs.

(2) FUNDS DESCRIBED.—Funds described in this paragraph are funds that are available—

SEC. 2704. SENSE OF CONGRESS WITH RESPECT TO THE TREATY ON CONVENTIONAL ARMED FORCES IN EUROPE.

It is the sense of Congress that no revisions to the Treaty on Conventional Armed Forces in Europe will be approved for entry into force with respect to the United States that jeopardize fundamental United States security interests in Europe or the effectiveness and flexibility of NATO as a defensive alliance by—

c. NATO Enlargement Facilitation Act of 1996

Title VI of sec. 101(c) of title I of Public Law 104–208 [Omnibus Consolidated Appropriations Act, 1997; H.R. 3610], 110 Stat. 3009, approved September 30, 1996

TITLE VI—NATO ENLARGEMENT FACILITATION ACT OF 1996¹

SEC. 601. SHORT TITLE.

This title may be cited as the “NATO Enlargement Facilitation Act of 1996”.

SEC. 602. FINDINGS.

The Congress makes the following findings:

(1) Since 1949, the North Atlantic Treaty Organization (NATO) has played an essential role in guaranteeing the security, freedom, and prosperity of the United States and its partners in the Alliance.

(2) The NATO Alliance is, and has been since its inception, purely defensive in character, and it poses no threat to any nation. The enlargement of the NATO Alliance to include as full and equal members emerging democracies in Central and Eastern Europe will serve to reinforce stability and security in Europe by fostering their integration into the structures which have created and sustained peace in Europe since 1945. Their admission into NATO will not threaten any nation. America’s security, freedom, and prosperity remain linked to the security of the countries of Europe.

(3) The sustained commitment of the member countries of NATO to a mutual defense has made possible the democratic transformation of Central and Eastern Europe. Members of the Alliance can and should play a critical role in addressing the security challenges of the post-Cold War era and in creating the stable environment needed for those emerging democracies in Central and Eastern Europe to successfully complete political and economic transformation.

(4) The United States continues to regard the political independence and territorial integrity of all emerging democracies in Central and Eastern Europe as vital to European peace and security.

(5) The active involvement by the countries of Central and Eastern Europe has made the Partnership for Peace program an important forum to foster cooperation between NATO and those countries seeking NATO membership.

(6) NATO has enlarged its membership on 3 different occasions since 1949.

¹ 22 U.S.C. 1928 note.

(7) Congress supports the admission of qualified new members to NATO and the European Union at an early date and has sought to facilitate the admission of qualified new members into NATO.

(8) Lasting security and stability in Europe requires not only the military integration of emerging democracies in Central and Eastern Europe into existing European structures, but also the eventual economic and political integration of these countries into existing European structures.

(9) As new members of NATO assume the responsibilities of Alliance membership, the costs of maintaining stability in Europe should be shared more widely. Facilitation of the enlargement process will require current members of NATO, and the United States in particular, to demonstrate the political will needed to build on successful ongoing programs such as the Warsaw Initiative and the Partnership for Peace by making available the resources necessary to supplement efforts prospective new members are themselves undertaking.

(10) New members will be full members of the Alliance, enjoying all rights and assuming all the obligations under the North Atlantic Treaty, signed at Washington on April 4, 1949 (hereafter in this Act referred to as the "Washington Treaty").

(11) In order to assist emerging democracies in Central and Eastern Europe that have expressed interest in joining NATO to be prepared to assume the responsibilities of NATO membership, the United States should encourage and support efforts by such countries to develop force structures and force modernization priorities that will enable such countries to contribute to the full range of NATO missions, including, most importantly, territorial defense of the Alliance.

(12) Cooperative regional peacekeeping initiatives involving emerging democracies in Central and Eastern Europe that have expressed interest in joining NATO, such as the Baltic Peacekeeping Battalion, the Polish-Lithuanian Joint Peacekeeping Force, and the Polish-Ukrainian Peacekeeping Force, can make an important contribution to European peace and security and international peacekeeping efforts, can assist those countries preparing to assume the responsibilities of possible NATO membership, and accordingly should receive appropriate support from the United States.

(13) NATO remains the only multilateral security organization capable of conducting effective military operations and preserving security and stability of the Euro-Atlantic region.

(14) NATO is an important diplomatic forum and has played a positive role in defusing tensions between members of the Alliance and, as a result, no military action has occurred between two Alliance member states since the inception of NATO in 1949.

(15) The admission to NATO of emerging democracies in Central and Eastern Europe which are found to be in a position to further the principles of the Washington Treaty would contribute to international peace and enhance the security of

the region. Countries which have become democracies and established market economies, which practice good neighborly relations, and which have established effective democratic civilian control over their defense establishments and attained a degree of interoperability with NATO, should be evaluated for their potential to further the principles of the Washington Treaty.

(16) Democratic civilian control of defense forces is an essential element in the process of preparation for those states interested in possible NATO membership.

(17) Protection and promotion of fundamental freedoms and human rights is an integral aspect of genuine security, and in evaluating requests for membership in NATO, the human rights records of the emerging democracies in Central and Eastern Europe should be evaluated according to their commitments to fulfill in good faith the human rights obligations of the Charter of the United Nations, the principles of the Universal Declaration on Human Rights, and the Helsinki Final Act.

(18) A number of Central and Eastern European countries have expressed interest in NATO membership, and have taken concrete steps to demonstrate this commitment, including their participation in Partnership for Peace activities.

(19) The Caucasus region remains important geographically and politically to the future security of Central Europe. As NATO proceeds with the process of enlargement, the United States and NATO should continue to examine means to strengthen the sovereignty and enhance the security of United Nations recognized countries in that region.

(20) In recognition that not all countries which have requested membership in NATO will necessarily qualify at the same pace, the accession date for each new member will vary.

(21) The provision of additional NATO transition assistance should include those emerging democracies most ready for closer ties with NATO and should be designed to assist other countries meeting specified criteria of eligibility to move forward toward eventual NATO membership.

(22) The Congress of the United States finds in particular that Poland, Hungary, and the Czech Republic have made significant progress toward achieving the criteria set forth in section 203(d)(3) of the NATO Participation Act of 1994 and should be eligible for the additional assistance described in this Act.

(23) The evaluation of future membership in NATO for emerging democracies in Central and Eastern Europe should be based on the progress of those nations in meeting criteria for NATO membership, which require enhancement of NATO's security and the approval of all NATO members.

(24) The process of NATO enlargement entails the consensus agreement of the governments of all 16 NATO members and ratification in accordance with their constitutional procedures.

(25) Some NATO members, such as Spain and Norway, do not allow the deployment of nuclear weapons on their territory

although they are accorded the full collective security guarantees provided by Article 5 of the Washington Treaty. There is no a priori requirement for the stationing of nuclear weapons on the territory of new NATO members, particularly in the current security climate. However, NATO retains the right to alter its security posture at any time as circumstances warrant.

SEC. 603. UNITED STATES POLICY.

It is the policy of the United States—

(1) to join with the NATO allies of the United States to adapt the role of the NATO Alliance in the post-Cold War world;

(2) to actively assist the emerging democracies in Central and Eastern Europe in their transition so that such countries may eventually qualify for NATO membership;

(3) to support the enlargement of NATO in recognition that enlargement will benefit the interests of the United States and the Alliance and to consider these benefits in any analysis of the costs of NATO enlargement;

(4) to ensure that all countries in Central and Eastern Europe are fully aware of and capable of assuming the costs and responsibilities of NATO membership, including the obligation set forth in Article 10 of the Washington Treaty that new members be able to contribute to the security of the North Atlantic area; and

(5) to work to define a constructive and cooperative political and security relationship between an enlarged NATO and the Russian Federation.

SEC. 604. SENSE OF THE CONGRESS REGARDING FURTHER ENLARGEMENT OF NATO.

It is the sense of the Congress that in order to promote economic stability and security in Slovakia, Estonia, Latvia, Lithuania, Romania, Bulgaria, Albania, Moldova, and Ukraine—

(1) the United States should continue and expand its support for the full and active participation of these countries in activities appropriate for qualifying for NATO membership;

(2) the United States Government should use all diplomatic means available to press the European Union to admit as soon as possible any country which qualifies for membership;

(3) the United States Government and the North Atlantic Treaty Organization should continue and expand their support for military exercises and peacekeeping initiatives between and among these nations, nations of the North Atlantic Treaty Organization, and Russia; and

(4) the process of enlarging NATO to include emerging democracies in Central and Eastern Europe should not be limited to consideration of admitting Poland, Hungary, the Czech Republic, and Slovenia as full members of the NATO Alliance.

SEC. 605. SENSE OF THE CONGRESS REGARDING ESTONIA, LATVIA AND LITHUANIA.

In view of the forcible incorporation of Estonia, Latvia, Lithuania into the Soviet Union in 1940 under the Molotov-Ribbentrop Pact

and the refusal of the United States and other countries to recognize that incorporation for over 50 years, it is the sense of the Congress that—

(1) Estonia, Latvia, and Lithuania have valid historical security concerns that must be taken into account by the United States; and

(2) Estonia, Latvia, and Lithuania should not be disadvantaged in seeking to join NATO by virtue of their forcible incorporation into the Soviet Union.

¹¹Sec. 585(a)(1) of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1996 (Public Law 104-107; 110 Stat. 752), amended and restated subsec. (d). It formerly read as follows:

“(d) DESIGNATION OF PARTNERSHIP FOR PEACE COUNTRIES EMERGING FROM COMMUNIST DOMINATION.—The President may designate countries emerging from communism and participating in the Partnership for Peace, especially Poland, Hungary, the Czech Republic, and Slovakia, to receive assistance under the program established under subsection (a) if the President determines and reports to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate that such countries—

“(1) are full and active participants in the Partnership for Peace;

“(2) have made significant progress toward establishing democratic institutions, a free market economy, civilian control of their armed forces, and the rule of law;

“(3) are likely in the near future to be in a position to further the principles of the North Atlantic Treaty and to contribute to the security of the North Atlantic area; and

“(4) are not selling or transferring defense articles to a state that has repeatedly provided support for acts of international terrorism, as determined by the Secretary of State under section 6(j) of the Export Administration Act of 1979.”

¹²Sec. 585 of Public Law 104-107 (110 Stat. 752) amended and restated subsec. Sec. 612 of the NATO Enlargement Facilitation Act of 1996 (title VI of sec. 101(c) of title I of Public Law 104-208; 110 Stat. 3009) subsequently struck out “countries emerging from communist domination” in subsec. (d)(1), and inserted in lieu thereof “emerging democracies in Central and Eastern Europe”, despite the fact that sec. 585 of Public Law 104-107 had already altered the phrase in subsec. (d)(1) to read “any country” instead of “countries”. In keeping with the intent of the amendment in Public Law 104-208, the amendment here strikes out “any country emerging from communist domination” and inserts in lieu thereof “any emerging democracies in Central and Eastern Europe”.

Public Law 96-8 [H.R. 2479], 93 Stat. 14, approved April 10, 1979; as amended by Public Law 98-164 [Department of State Authorization Act, Fiscal Years 1984 and 1985; H.R. 2915], 97 Stat. 1017 at 1061, approved November 22, 1983

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SHORT TITLE

SECTION 1. This Act may be cited as the “Taiwan Relations Act”.

FINDINGS AND DECLARATION OF POLICY

SEC. 2.² (a) The President having terminated governmental relations between the United States and the governing authorities on Taiwan recognized by the United States as the Republic of China prior to January 1, 1979, the Congress finds that the enactment of this Act is necessary—

(1) to help maintain peace, security, and stability in the Western Pacific; and

(2) to promote the foreign policy of the United States by authorizing the continuation of commercial, cultural, and other relations between the people of the United States and the people on Taiwan.

(b) It is the policy of the United States—

(1) to preserve and promote extensive, close, and friendly commercial, cultural, and other relations between the people of the United States and the people on Taiwan, as well as the people on the China mainland and all other peoples of the Western Pacific area;

(2) to declare that peace and stability in the area are in the political, security, and economic interests of the United States, and are matters of international concern;

(3) to make clear that the United States decision to establish diplomatic relations with the People’s Republic of China rests upon the expectation that the future of Taiwan will be determined by peaceful means;

(5) to provide Taiwan with arms of a defensive character; and

(6) to maintain the capacity of the United States to resist any resort to force or other forms of coercion that would jeopardize the security, or the social or economical system, of the people on Taiwan.

(c) Nothing contained in this Act shall contravene the interest of the United States in human rights, especially with respect to the human rights of all the approximately eighteen million inhabitants of Taiwan. The preservation and enhancement of the human rights of all the people on Taiwan are hereby reaffirmed as objectives of the United States.

IMPLEMENTATION OF UNITED STATES POLICY WITH REGARD TO TAIWAN

SEC. 3.³ (a) In furtherance of the policy set forth in section 2 of this Act, the United States will make available to Taiwan such defense articles and defense services in such quantity as may be necessary to enable Taiwan to maintain a sufficient self-defense capability.⁴

(b) The President and the Congress shall determine the nature and quantity of such defense articles and services based solely upon their judgment of the needs of Taiwan, in accordance with procedures established by law. Such determination of Taiwan's defense needs shall include review by United States military authorities in connection with recommendations to the President and the Congress.

(c) The President is directed to inform the Congress promptly of any threat to the security or the social or economic system of the people on Taiwan and any danger to the interests of the United States arising therefrom. (B) For all purposes under the laws of the United States, including actions in any court in the United States, recognition of the People's Republic of China shall not affect in any way the ownership of or other rights or interests in properties, tangible and intangible, and other things of value, owned or held on or prior to December 31, 1978, or thereafter acquired or earned by the governing authorities on Taiwan.

(4) Whenever the application of the laws of the United States depends upon the law that is or was applicable on Taiwan or compliance therewith, the law applied by the people on Taiwan shall be considered the applicable law for that purpose.

(5) Nothing in this Act, nor the facts of the President's action in extending diplomatic recognition to the People's Republic of China, the absence of diplomatic relations between the people on Taiwan and the United States, or the lack of recognition by the United States, and attendant circumstances thereto, shall be construed in any administrative or judicial proceeding as a basis for any United States Government agency, commission, or department to make a finding of fact or determination of law, under the Atomic Energy Act of 1954 and the Nuclear Non-Proliferation Act of 1978, to deny an export license application or to revoke an existing export license for nuclear exports to Taiwan.

(6) For purposes of the Immigration and Nationality Act, Taiwan may be treated in the manner specified in the first sentence of section 202(b) of that Act.⁶

(7) The capacity of Taiwan to sue and be sued in courts in the United States, in accordance with the laws of the United States, shall not be abrogated, infringed, modified, denied, or otherwise affected in any way by the absence of diplomatic relations or recognition.

(8) No requirement, whether expressed or implied, under the laws of the United States with respect to maintenance of diplomatic relations or recognition shall be applicable with respect to Taiwan.

(c) For all purposes, including actions in any court in the United States, the Congress approves the continuation in force of all treaties and other international agreements, including multilateral conventions, entered into by the United States and the governing authorities on Taiwan recognized by the United States as the Republic of China prior to January 1, 1979, and in force between them on December 31, 1978, unless and until terminated in accordance with law.

(b) Except as provided in subsection (a) of this section, in issuing insurance, reinsurance, loans, or guaranties with respect to investment projects on Taiwan, the Overseas Private Insurance Corporation shall apply the same criteria as those applicable in other parts of the world.

b. Participation of Taiwan in the World Health Organization¹

Public Law 108–235 [S. 2092], 118 Stat. 656, approved June 14, 2004

AN ACT To address the participation of Taiwan in the World Health Organization.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CONCERNING THE PARTICIPATION OF TAIWAN IN THE WORLD HEALTH ORGANIZATION.

(a) FINDINGS.—Congress makes the following findings:

(1) Good health is important to every citizen of the world and access to the highest standards of health information and services is necessary to improve the public health.

(2) Direct and unobstructed participation in international health cooperation forums and programs is beneficial for all parts of the world, especially today with the great potential for the cross-border spread of various infectious diseases such as the human immunodeficiency virus (HIV), tuberculosis, and malaria.

(3) Taiwan's population of 23,500,000 people is greater than that of $\frac{3}{4}$ of the member states already in the World Health Organization (WHO).

(4) Taiwan's achievements in the field of health are substantial, including—

(A) attaining—

(i) ¹ of the highest life expectancy levels in Asia; and

(ii) maternal and infant mortality rates comparable to those of western countries;

(B) eradicating such infectious diseases as cholera, smallpox, the plague, and polio; and

(C) providing children with hepatitis B vaccinations.

(5) The United States Centers for Disease Control and Prevention and its counterpart agencies in Taiwan have enjoyed close collaboration on a wide range of public health issues.

(6) In recent years Taiwan has expressed a willingness to assist financially and technically in international aid and health activities supported by the WHO.

(7) On January 14, 2001, an earthquake, registering between 7.6 and 7.9 on the Richter scale, struck El Salvador. In response, the Taiwanese Government sent 2 rescue teams, consisting of 90 individuals specializing in firefighting, medicine,

Sec. 1(c) of this Act made the one-time reporting requirements in these previous Acts permanent and recurring.

² As enrolled.

and civil engineering. The Taiwanese Ministry of Foreign Affairs also donated \$200,000 in relief aid to the Salvadoran Government.

(8) The World Health Assembly has allowed observers to participate in the activities of the organization, including the Palestine Liberation Organization in 1974, the Order of Malta, and the Holy See in the early 1950's.

(9) The United States, in the 1994 Taiwan Policy Review, declared its intention to support Taiwan's participation in appropriate international organizations.

(10) Public Law 106-137 required the Secretary of State to submit a report to Congress on efforts by the executive branch to support Taiwan's participation in international organizations, in particular the WHO.

(11) In light of all benefits that Taiwan's participation in the WHO can bring to the state of health not only in Taiwan, but also regionally and globally, Taiwan and its 23,500,000 people should have appropriate and meaningful participation in the WHO.

(12) On May 11, 2001, President Bush stated in a letter to Senator Murkowski that the United States "should find opportunities for Taiwan's voice to be heard in international organizations in order to make a contribution, even if membership is not possible", further stating that the administration "has focused on finding concrete ways for Taiwan to benefit and contribute to the WHO".

(13) In his speech made in the World Medical Association on May 14, 2002, Secretary of Health and Human Services Tommy Thompson announced "America's work for a healthy world cuts across political lines. That is why my government supports Taiwan's efforts to gain observership status at the World Health Assembly. We know this is a controversial issue, but we do not shrink from taking a public stance on it. The people of Taiwan deserve the same level of public health as citizens of every nation on earth, and we support them in their efforts to achieve it".

(14) The Government of the Republic of China on Taiwan, in response to an appeal from the United Nations and the United States for resources to control the spread of HIV/AIDS, donated \$1,000,000 to the Global Fund to Fight AIDS, Tuberculosis, and Malaria in December 2002.

(15) In 2003, the outbreak of Severe Acute Respiratory Syndrome (SARS) caused 84 deaths in Taiwan.

(16) Avian influenza, commonly known as bird flu, has re-emerged in Asia, with strains of the influenza reported by the People's Republic of China, Cambodia, Indonesia, Japan, Pakistan, South Korea, Taiwan, Thailand, Vietnam, and Laos.

(17) The SARS and avian influenza outbreaks illustrate that disease knows no boundaries and emphasize the importance of allowing all people access to the WHO.

(18) As the pace of globalization quickens and the spread of infectious disease accelerates, it is crucial that all people, including the people of Taiwan, be given the opportunity to participate in international health organizations such as the WHO.

(19) The Secretary of Health and Human Services acknowledged during the 2003 World Health Assembly meeting that “[t]he need for effective public health exists among all peoples”.

(b) PLAN.—The Secretary of State is authorized to—

(1) initiate a United States plan to endorse and obtain observer status for Taiwan at the annual week-long summit of the World Health Assembly each year in Geneva, Switzerland;

(2) instruct the United States delegation to the World Health Assembly in Geneva to implement that plan; and

(3) introduce a resolution in support of observer status for Taiwan at the summit of the World Health Assembly.

(c) REPORT CONCERNING OBSERVER STATUS FOR TAIWAN AT THE SUMMIT OF THE WORLD HEALTH ASSEMBLY.—Not later than 30 days after the date of the enactment of this Act, and not later than April 1 of each year thereafter, the Secretary of State shall submit a report to the Congress, in unclassified form, describing the United States plan to endorse and obtain observer status for Taiwan at the annual week-long summit of the World Health Assembly (WHA) held by the World Health Organization (WHO) in May of each year in Geneva, Switzerland. Each report shall include the following:

(1) An account of the efforts the Secretary of State has made, following the last meeting of the World Health Assembly, to encourage WHO member states to promote Taiwan’s bid to obtain observer status.

(2) The steps the Secretary of State will take to endorse and obtain observer status at the next annual meeting of the World Health Assembly in Geneva, Switzerland.

c. American Institute in Taiwan Facilities Enhancement Act

Public Law 106–212 [H.R. 3707], 114 Stat. 332, approved May 26, 2000

AN ACT To authorize funds for the construction of a facility in Taipei, Taiwan suitable for the mission of the American Institute in Taiwan.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “American Institute in Taiwan Facilities Enhancement Act”.

SEC. 2. FINDINGS.

The Congress finds that—

(1) in the Taiwan Relations Act of 1979 (22 U.S.C. 3301 et seq.), the Congress established the American Institute in Taiwan (hereafter in this Act referred to as “AIT”), a nonprofit corporation incorporated in the District of Columbia, to carry out on behalf of the United States Government any and all programs, transactions, and other relations with Taiwan;

(2) the Congress has recognized AIT for the successful role it has played in sustaining and enhancing United States relations with Taiwan;

(3) the Taipei office of AIT is housed in buildings which were not originally designed for the important functions that AIT performs, whose location does not provide adequate security for its employees, and which, because they are almost 50 years old, have become increasingly expensive to maintain;

(4) the aging state of the AIT office building in Taipei is neither conducive to the safety and welfare of AIT’s American and local employees nor commensurate with the level of contact that exists between the United States and Taiwan;

(5) AIT has made a good faith effort to set aside funds for the construction of a new office building, but these funds will be insufficient to construct a building that is large and secure enough to meet AIT’s current and future needs; and

(6) because the Congress established AIT and has a strong interest in United States relations with Taiwan, the Congress has a special responsibility to ensure that AIT’s requirements for safe and appropriate office quarters are met.

SEC. 3. AUTHORIZATION OF APPROPRIATIONS.

(a) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated the sum of \$75,000,000 to AIT—

(1) for plans for a new facility and, if necessary, residences or other structures located in close physical proximity to such facility, in Taipei, Taiwan, for AIT to carry out its purposes under the Taiwan Relations Act; and

(2) for acquisition by purchase or construction of such facility, residences, or other structures.

(b) LIMITATIONS.—Funds appropriated pursuant to subsection (a) may only be used if the new facility described in that subsection meets all requirements applicable to the security of United States diplomatic facilities, including the requirements in the Omnibus Diplomatic Security and Anti-Terrorism Act of 1986 (22 U.S.C. 4801 et seq.) and the Secure Embassy Construction and Counterterrorism Act of 1999 (as enacted by section 1000(a)(7) of Public Law 106-113; 113 Stat. 1501A-451), except for those requirements which the Director of AIT certifies to the Committee on International Relations of the House of Representatives and the Committee on Foreign Relations of the Senate are not applicable on account of the special status of AIT. In making such certification, the Director shall also certify that security considerations permit the exercise of the waiver of such requirements.

(c) AVAILABILITY OF FUNDS.—Amounts appropriated pursuant to subsection (a) are authorized to remain available until expended.

d. Maintaining Unofficial Relations With the People of Taiwan

Executive Order 13014, 61 F.R. 42963, August 15, 1996, 22 U.S.C. 3301 note

In light of the recognition of the People's Republic of China by the United States of America as the sole legal government of China, and by the authority vested in me as President of the United States of America by the Taiwan Relations Act (Public Law 96-8, 22 U.S.C. 3301 *et seq.*) ("Act"), and section 301 of title 3, United States Code, in order to facilitate the maintenance of commercial, cultural, and other relations between the people of the United States and the people on Taiwan without official representation or diplomatic relations, it is hereby ordered as follows:

Section 1. *Delegation and Reservation of Functions.*

1-101. Exclusive of the functions otherwise delegated, or reserved to the President by this order, there are delegated to the Secretary of State ("Secretary") all functions conferred upon the President by the Act, including the authority under section 7(a) of the Act to specify which laws of the United States relative to the provision of consular services may be administered by employees of the American Institute on Taiwan ("Institute"). In carrying out these functions, the Secretary may redelegate his authority, and shall consult with other departments and agencies as he deems appropriate.

1-102. There are delegated to the Director of the Office of Personnel Management the functions conferred upon the President by paragraphs (1) and (2) of section 11(a) of the Act. These functions shall be exercised in consultation with the Secretary.

1-103. There are reserved to the President the functions conferred upon the President by section 3, the second sentence of section 9(b), and the determination specified in section 10(a) of the Act.

Sec. 2. *Specification of Laws and Determinations.*

2-201. Pursuant to section 9(b) of the Act, and in furtherance of the purposes of the Act, the procurement of services may be effected by the Institute without regard to the following provisions of law and limitations of authority as they may be amended from time to time:

(a) Sections 1301(d) and 1341 of title 31, United States Code, and section 3732 of the Revised Statutes (41 U.S.C. 11) to the extent necessary to permit the indemnification of contractors against unusually hazardous risks, as defined in Institute contracts, consistent, to the extent practicable, with section 52.228-7 of the Federal Acquisition Regulations;

(b) Section 3324 of title 31, United States Code;

(c) Sections 3709, 3710, and 3735 of the Revised Statutes, as amended (41 U.S.C. 5, 8, and 13);

(d) Section 2 of title III of the Act of March 3, 1933 (41 U.S.C. 10a);

(e) Title III of the Federal Property and Administrative Services Act of 1949, as amended (41 U.S.C. 251–260);

(f) The Contract Disputes Act of 1978, as amended (41 U.S.C. 601–613);

(g) Chapter 137 of title 10, United States Code (10 U.S.C. 2301–2316);

(h) The Act of May 11, 1954 (the “Anti-Wunderlich Act”) (41 U.S.C. 321, 322); and

(i) Section (f) of 41 U.S.C. 423.

2–202. (a) With respect to cost-type contracts with the Institute under which no fee is charged or paid, amendments and modifications of such contracts may be made with or without consideration and may be utilized to accomplish the same things as any original contract could have accomplished, irrespective of the time or circumstances of the making, or the form of the contract amended or modified, or of the amending or modifying contract and irrespective of rights that may have accrued under the contractor, the amendments or modifications thereof.

(b) With respect to contracts heretofore or hereafter made under the Act, other than those described in subsection (a) of this section, amendments and modifications of such contracts may be made with or without consideration and may be utilized to accomplish the same things as any original contract could have accomplished, irrespective of the time or circumstances of the making, or the form of the contract amended or modified, or of the amending or modifying contract, and irrespective of rights that may have accrued under the contract or the amendments or modifications thereof, if the Secretary determines in each case that such action is necessary to protect the foreign policy interests of the United States.

2–203. Pursuant to section 10(a) of the Act, the Taipei Economic and Cultural Representative Office of the United States (“TECRO”), formerly the Coordination Council for North American Affairs (“CCNAA”), is determined to be the instrumentality established by the people on Taiwan having the necessary authority under the laws applied by the people on Taiwan to provide assurances and take other actions on behalf of Taiwan in accordance with the Act. Nothing contained in this determination or order shall affect, or be construed to affect, the continued validity of agreements, contracts, or other undertakings, of whatever kind or nature, entered into previously by CCNAA.

Sec. 3. President’s Memorandum of December 30, 1978.

3–301. Agreements and arrangements referred to in paragraph (B) of President Carter’s memorandum of December 30, 1978, entitled “Relations With the People on Taiwan” (44 F.R. 1075) shall, unless otherwise terminated or modified in accordance with law, continue in force and be performed in accordance with the Act and this order.

Sec. 4. *General.* This order supersedes Executive Order No. 12143 of June 22, 1979.¹

(2) Subject to subsection (b), cash relief under this subsection may not exceed \$1.50 per month for each year of service of the employees so furnished relief, with a maximum of \$45 per month, plus the amount of any cost-of-living increases in such cash relief granted before October 1, 1979, pursuant to section 181 of title 2 of the Canal Zone Code (as in effect on September 30, 1979), nor be paid to any employee who, at the time of termination for disability prior to October 5, 1958, had less than 10 years' service with the Canal

¹⁰²Sec. 3550(d)(6) of Public Law 105-85 (111 Stat. 2074) struck out "retroactivity" and inserted in lieu thereof "retroactively".

¹⁰³Sec. 1244 amended sec. 8384 of title 5, United States Code.

¹⁰⁴22 U.S.C. 3682. Sec. 3538 of Public Law 104-201 (110 Stat. 2864) amended and restated the catchline and all of subsec. (a). Sec. 3548(c)(2) of that Act also amended the catchline to read "ADMINISTRATION OF CERTAIN DISABILITY BENEFITS". Subsec. (a) formerly read as follows:

"(a) The Commission, under the regulation prescribed by the President pursuant to the Act entitled 'An Act authorizing cash relief for certain employees of the Panama Canal not coming within the provisions of the Canal Zone Retirement Act', approved July 8, 1937, as amended (50 Stat. 478; 68 Stat. 17), may continue the payments of cash relief to those individual former employees of the Canal Zone Government or Panama Canal Company or their predecessor agencies not coming within the scope of the former Canal Zone Retirement Act whose services were terminated prior to October 5, 1958, because of unfitness for further useful service by reason of mental or physical disability resulting from age or disease. Subject to subsection (b) of this section, that cash relief may not exceed \$1.50 per month for each year of service of the employees so furnished relief, with a maximum of \$45 per month, plus the amount of any cost-of-living increases in such cash relief granted before October 1, 1979, pursuant to section 181 of title 2 of the Canal Zone Code (as in effect on September 30, 1979), nor be paid to any employee who, at the time of termination for disability prior to October 5, 1958, had less than 10 years' service with the Canal Zone Government, the Panama Canal Company, or their predecessor agencies on the Isthmus of Panama."

Zone Government, the Panama Canal Company, or their predecessor agencies on the Isthmus of Panama.

(b) An additional amount of \$20 per month shall be paid to each person who receives payment of cash relief under subsection (a) of this section and shall be allowed without regard to the limitations contained therein.

(c) Each cash relief payment made pursuant to this section shall be increased on the same effective date and by the same percent, adjusted to the nearest dollar, as civil service retirement annuities are increased under the cost-of-living adjustment provisions of section 8340(b) of title 5, United States Code. Such increase shall apply only to cash relief payments made after October 1, 1979, as increased by annuity increases made after that date under such section 8340(b).

(d) The Commission may pay cash relief to the widow of any former employee of the Canal Zone Government or the Panama Canal Company who, until the time of his death, receives or has received cash relief under subsection (a) of this section, under section 181 of title 2 of the Canal Zone Code (as in effect on September 30, 1979), or under the Act of July 8, 1937, referred to in such subsection (a). The term "widow" as used in this subsection includes only the following:

(1) a woman legally married to such employee at the time of his termination for disability and at his death;

(2) a woman who, although not legally married to such former employee at the time of his termination, had resided continuously with him for at least five years immediately preceding the employee's termination under such circumstances as would at common law make the relationship a valid marriage and who continued to reside with him until his death; and

(3) a woman who has not remarried or assumed a common-law relationship with any other person.

Cash relief granted to such a widow shall not at any time exceed 50 percent of the rate at which cash relief, inclusive of any additional payment under subsection (b) of this section, would be payable to the former employee were he then alive.

(e) Subchapter III of chapter 83 of title 5, United States Code, applies with respect to those individuals who were in the service of the Canal Zone Government or the Panama Canal Company on October 5, 1958, and who, except for the operation of section 13(a)(1) of the Act entitled "An Act to implement item 1 of a Memorandum of Understanding attached to the treaty of January 25, 1955, entered into by the Government of the United States of America and the Government of the Republic of Panama with respect to wage and employment practices of the Government of the United States of America in the Canal Zone", approved July 25, 1958 (72 Stat. 405), would have been within the classes of individuals subject to the Act of July 8, 1937, referred to in subsection (a) of this section.

CHAPTER 3—FUNDS AND ACCOUNTS

Subchapter I—Funds

SEC. 1301.¹¹¹ * * * [Repealed—1996]

PANAMA CANAL REVOLVING FUND

SEC. 1302.¹¹² (a) There is established in the Treasury of the United States a revolving fund to be known as 'Panama Canal Revolving Fund'. The Panama Canal Revolving Fund shall, subject to subsection (b), be available to the Commission to carry out the purposes, functions, and powers authorized by this Act, including for the following purposes:¹¹³

¹¹² 22 U.S.C. 3712. Sec. 3539 of Public Law 104-201 (110 Stat. 2865) amended and restated sec. 1302.

Previously, sec. 5422 of the Omnibus Budget Reconciliation Act of 1987 (Public Law 100-203; 101 Stat. 1330-271) retitled sec. 1302 and inserted new text for subsecs. (a) through (e). Sec. 9 of Public Law 100-705 (102 Stat. 4687), sec. 3521(b)(1) of Public Law 102-484 (106 Stat. 2657), and sec. 3525 of Public Law 104-106 (110 Stat. 640) also amended sec. 1302 prior to its restatement.

¹¹³ Sec. 3528(b)(1) of the Panama Canal Transition Facilitation Act of 1997 (subtitle B of title XXXV of Public Law 105-85; 111 Stat. 2068) struck out "for—" and inserted in lieu thereof "for the following purposes:". Para. (2) of that subsection amended paras. (1) through (9) by capitalizing the first letter of each word in each paragraph. Para. (3) of that subsection struck out a semicolon at the end of each of paras. (1) through (7), and inserted in lieu thereof a period. Para.

- (1) The hire of passenger motor vehicles and aircraft.
- (2) Uniforms or allowances therefor.
- (3) Official receptions and representation expenses of the Board, the Secretary of the Commission, and the Administrator.
- (4) The operation of guide services.

- (6) Disbursements by the Administrator for employee and community projects.
- (7) The procurement of expert and consultant services.

- (9) The purchase and transportation to the Republic of Panama of passenger motor vehicles, including large, heavy-duty vehicles.
- (10)¹¹⁴ Payment to the Panama Canal Authority, not later than the Canal Transfer Date, of such amount as is computed by the Commission to be the future amount of severance pay to be paid by the Panama Canal Authority to employees whose employment with the Authority is terminated, to the extent that such severance pay is attributable to periods of service performed with the Commission before the Canal Transfer Date (and assuming for purposes of such computation that the Panama Canal Authority, in paying severance pay to terminated employees, will provide for crediting of periods of service with the Commission).

(b)(1) There shall be deposited in the Panama Canal Revolving Fund, on a continuing basis, toll receipts (other than amounts of toll receipts deposited into the Panama Canal Commission Dissolution Fund under section 1305) and all other receipts of the Commission. Except as provided in section 1303, no funds may be obligated or expended by the Commission in any fiscal year unless such obligation or expenditure has been specifically authorized by law.

(2) No funds may be authorized for the use of the Commission, or obligated or expended by the Commission in any fiscal year; in excess of—

revenues deposited in the Panama Canal Revolving Fund during such fiscal year.

(c) With the approval of the Secretary of the Treasury, the Commission may deposit amounts in the Panama Canal Revolving Fund in any Federal Reserve bank, any depository for public funds, or such other place and in such manner as the Commission and the Secretary may agree.

(d)(1) It is the sense of the Congress that the additional costs resulting from the implementation of the Panama Canal Treaty of 1977 and related agreements should be kept to the absolute minimum level. To this end, the Congress declares appropriated costs of implementation to be borne by the taxpayers over the life of such Treaty should be kept to a level no greater than the March 1979 estimate of those costs (\$870,700,000) presented to the Congress by the executive branch during consideration of this Act by the Congress, less personnel retirement costs of \$205,000,000, which were subtracted and charged to tolls, therefore resulting in net taxpayer cost of approximately \$665,700,000, plus appropriate adjustments for inflation.

(2) It is further the sense of the Congress that the actual costs of implementation be consistent with the obligations of the United States to operate the Panama Canal safely and efficiently and keep it secure.

(e)(1)¹¹⁵ The Panama Canal Commission and the Office of Transition Administration (described in section 3504 of Public Law 106-65) shall terminate on October 1, 2004.

¹¹⁷Sec. 3548(b)(2) of Public Law 104-201 (110 Stat. 2869) struck out "section 1302(c)(1)" and inserted in lieu thereof "section 1302(b)(1)".

- (4) other expenses which are definitely and accurately shown to have been incurred necessarily and by reason of the accident or injuries.

Agent's fees, or commissions, or other incidental expenses of similar character, or any items which are indefinite, indeterminable, speculative, or conjectural may not be allowed. If a vessel is not operated under charter but by the owner directly, evidence shall be secured if available as to the sum for which vessels of the same size and class can be chartered in the market. If the charter value cannot be determined, the value of the vessel to its owners in the business in which it was engaged at the time of the injuries shall be used as a basis for estimating the damages for the vessel's detention; and the books of the owners showing the vessel's earnings about the time of the accident or injuries shall be considered as evidence of probable earnings during the time of detention. If the books are unavailable, such other evidence shall be furnished as may be necessary.

SEC. 404. PROMOTION OF SOUND FINANCIAL PRACTICES BY THE UNITED NATIONS.

(a) FINDINGS.—Congress makes the following findings:

(1) In the early 1980s, the United States Government began to pay United States assessments to certain international organizations in the last quarter of the calendar year in which they were due. This practice allowed the United States to pay its annual assessment to the United Nations and other international organizations with the next fiscal year's appropriations, taking advantage of the fact that international organizations operate on calendar years. It also allowed the United States to reduce budgetary outlays, making the United States budget deficit appear smaller.

(2) The United States, which is assessed 22 percent of the United Nations regular budget, now pays its dues at least 10 months late, and often later depending on when the relevant appropriation is enacted.

(3) This practice causes the United Nations to operate throughout much of the year without a significant portion of its operating budget. By midyear, the budget is usually depleted, forcing the United Nations to borrow from its separate peacekeeping budget (the organization is prohibited from external borrowing). As a result, countries that contribute to United Nations peacekeeping missions are not reimbursed on a timely basis.

(4) For years, the United States has been encouraging the United Nations and other international organizations to engage in sound, fiscally responsible budgetary practices. In fact, many of the conditions in United States law for paying nearly \$1,000,000,000 in debt to the United Nations and other international organizations are aimed at this goal. But late payment of United States dues forces the United Nations and other international organizations to engage in budgetary practices that are neither sound nor responsible.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the United States should initiate a process to synchronize the payment of its assessments to the United Nations and other international organizations over a multiyear period so that the United States can resume paying its dues to such international organizations at the beginning of each calendar year.

(c) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—In addition to amounts otherwise available for the purpose of payment of the United States assessed contributions to the United Nations and other international organizations, there are authorized to be appropriated such sums

as may be necessary to carry out the policy described in subsection (b).

(2) AVAILABILITY OF FUNDS.—Amounts appropriated pursuant to paragraph (1) are authorized to remain available until expended.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the following laws of the United States are hereby amended in the following particulars: * * *¹

SEC. 2.² All financial contributions by the United States to the normal operations of the international organizations covered by this Act, which member states are obligated to support annually, shall be limited to the amounts provided in this Act: *Provided,* That contributions for special projects not regularly budgeted by such international organizations shall not be subject to the above limitation.

¹This resolution raised funding authorizations for U.S. participation in international organizations: American International Institute for the Protection of Childhood (22 U.S.C. 269b—obsolete), United Nations Food and Agricultural Organization (22 U.S.C. 279a), South Pacific Commission (22 U.S.C. Supp. III, 280b(a)), World Health Organization (22 U.S.C. Supp. III, 290b), and International Labour Conference, International Labor Organization (22 U.S.C. Supp. III, 272a(a) and (b)).

²22 U.S.C. 262a.

³Sec. 405(b)(1) of the Foreign Relations Authorization Act, Fiscal Year 2003 (Public Law 107-228; 116 Stat. 1391), struck out the last sentence of sec. 2, which had read, "The Secretary of State shall report annually to the Congress on the extent and disposition of such contributions."

6. Appropriations Limitation on Contributions to International Organizations

Partial text of Public Law 92-544 [H.R. 14989], 86 Stat. 1109, approved October 25, 1972

AN ACT Making appropriations for the Departments of State, Justice and Commerce, the Judiciary, and related agencies for the fiscal year ending June 30, 1973, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the Departments of State, Justice, and Commerce, the Judiciary, and related agencies for the fiscal year ending June 30, 1973, and for other purposes, namely:

* * * * *

CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS¹

* * * *Provided, That after December 31, 1973, no appropriation is authorized and no payment shall be made to the United Nations or any affiliated agency in excess of 25 per centum¹ of the*

¹ See the Department of State Appropriation Act, 1953 (title I of the Departments of State, Justice, Commerce, and The Judiciary Appropriation Act, 1953; Public Law 82-495; 66 Stat. 550), which also restricts contributions to international organizations not exempted. It reads as follows:

"No representative of the United States Government in any international organization after fiscal year 1953 shall make any commitment requiring the appropriation of funds for a contribution by the United States in excess of 33½ per centum of the budget of any international organization for which the appropriation for the United States contribution is contained in this Act: *Provided, That in exceptional circumstances necessitating a contribution by the United States in excess of 33½ per centum of the budget, a commitment requiring a United States appropriation of a larger proportion may be made after consultation by United States representatives in the organization or other appropriate officials of the Department of State with the Committees on Appropriations of the Senate and House of Representatives; Provided, however, That this section shall not apply to the United States representatives to the Inter-American organizations, Caribbean Commission and the Joint Support program of the International Civil Aviation Organization.*"

This provision, minus the last sentence, first appeared in sec. 602 of the Departments of State, Justice, Commerce, and the Judiciary Appropriation Act, 1952 (Public Law 83-188; 65 Stat. 599; October 22, 1951). See 22 U.S.C. 262b.

The Department of State Appropriation Act, 1954 (Public Law 83-195; 67 Stat. 368) added the exemption granted to the Caribbean Commission and the Joint Support program of the International Civil Aviation Organization.

NOTE: In addition, there are specific legislative limitations on the percentage contribution of the United States to the following organizations:

(1) 33⅓ percent to the World Health Organization (Act of July 14, 1948; 22 U.S.C. 290b). However, sec. 103 of the Foreign Relations Authorization Act, Fiscal Year 1978 (91 Stat. 844), stated that notwithstanding the provisions of Public Law 92-544, \$7,281,583 of the FY 1978 appropriation authorization for "International Organizations and Conferences" is authorized to be paid to the World Health Organization for any unpaid balance of the U.S. assessed contribution to such organization for the calendar years 1974 through 1977.

(2) 33⅓ percent to the Food and Agriculture Organization (Act of July 31, 1945; 22 U.S.C. 279a);

(3) 25 percent to the International Labor Organization (Act of June 30, 1948; 22 U.S.C. 272a);

(4) 25 percent to the NATO Parliamentary Conference (Act of July 11, 1956; 22 U.S.C. 1928b);

and

(5) Not to exceed 20 per centum of the total contributions assessed for any period to administer the International Coffee Agreement (TIAS 5505, 14 UST 1911, September 28, 1962), and

total annual assessment of such organization. Appropriations are authorized and contributions and payments may be made to the following organizations and activities notwithstanding that such contributions and payments are in excess of 25 per centum of the total annual assessment of the respective organization or 33 $\frac{1}{3}$ per centum of the budget for the respective activity: the International Atomic Energy Agency, the joint financing program of the International Civil Aviation Organization, and contributions for international peacekeeping activities conducted by or under the auspices of the United Nations or through multilateral agreements.²

* * * * *

such amount shall not exceed \$150,000 for any fiscal year, to the International Coffee Organization (sec. 6 of Public Law 89-23; 79 Stat. 113; approved May 22, 1965). However, sec. 428 of Public Law 103-236 provides that no funds authorized to be appropriated by that Act may be made available for the ICO.

See also secs. 114 and 115 of the Department of State Authorization Act, Fiscal Years 1984 and 1985 (Public Law 98-164; 97 Stat. 1020), which provided other limitations on certain U.S. contributions to international organizations.

²Sec. 203 of the Foreign Relations Authorization Act, Fiscal Year 1976 (Public Law 94-141), inserted a period after "organization", struck out the text following it, and inserted the language beginning with "Appropriations are authorized". Formerly, the section following "organization" read "except that this proviso shall not apply to the International Atomic Energy Agency and to the joint financing program of the International Civil Aviation Organization."

“SEC. 2. The Congress recognizes that from the beginning of our history as a nation, the police power to investigate, prosecute, and punish common crimes such as murder, kidnapping, and assault has resided in the several States, and that such power should remain with the States.

“The Congress finds, however, that harassment, intimidation, obstruction, coercion, and acts of violence committed against foreign officials or their family members in the United States or against official guests of the United States adversely affect the foreign relations of the United States.

“Accordingly, this legislation is intended to afford the United States jurisdiction concurrent with that of the several States to proceed against those who by such acts interfere with its conduct of foreign affairs.”

States may exercise jurisdiction over the offense if (1) the victim is a representative, officer, employee, or agent of the United States, (2) an offender is a national of the United States, or (3) an offender is afterwards found in the United States.³⁹ As used in this subsection, the United States includes all areas under the jurisdiction of the United States including any of the places within the provisions of section 5 and 7 of this title and section 46501(2) of title 49.⁴⁰ For purposes of this subsection, the term “national of the United States” has the meaning prescribed in section 101(a)(22) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(22)).⁴¹

§ 1602. Findings and declaration of purpose

The Congress finds that the determination by United States courts of the claims of foreign states to immunity from the jurisdiction of such courts would serve the interests of justice and would protect the rights of both foreign states and litigants in United States courts. Under international law, states are not immune from the jurisdiction of foreign courts insofar as their commercial activities are concerned, and their commercial property may be levied upon for the satisfaction of judgments rendered against them in connection with their commercial activities. Claims of foreign states to immunity should henceforth be decided by courts of the United States and of the States in conformity with the principles set forth in this chapter.

§ 1603. Definitions

For purposes of this chapter—

(a) A “foreign state”, except as used in section 1608 of this title, includes a political subdivision of a foreign state or an agency or instrumentality of a foreign state as defined in subsection (b).

(b) An “agency or instrumentality of a foreign state” means any entity—

(1) which is a separate legal person, corporate or otherwise, and

(2) which is an organ of a foreign state or political subdivision thereof, or a majority of whose shares or other ownership interest is owned by a foreign state or political subdivision thereof, and

(3) which is neither a citizen of a State of the United States as defined in section 1332 (c) and (e)¹ of this title, nor created under the laws of any third country.

(c) The “United States” includes all territory and waters, continental or insular, subject to the jurisdiction of the United States.

(d) A “commercial activity” means either a regular course of commercial conduct or a particular commercial transaction or act. The commercial character of an activity shall be determined by reference to the nature of the course of conduct or particular transaction or act, rather than by reference to its purpose.

(e) A “commercial activity carried on in the United States by a foreign state” means commercial activity carried on by such state and having substantial contact with the United States.

§ 1604. Immunity of a foreign state from jurisdiction

Subject to existing international agreements to which the United States is a party at the time of enactment of this Act a foreign state shall be immune from the jurisdiction of the courts of the United States and of the States except as provided in sections 1605 to 1607 of this chapter.

¹Sec. 4(b)(2) of the Class Action Fairness Act of 2005 (Public Law 109–2; 119 Stat. 12) struck out “(d)” and inserted in lieu thereof “(e)”.

§ 1605.² General exceptions to the jurisdictional immunity of a foreign state

(2) in which the action is based upon a commercial activity carried on in the United States by the foreign state; or upon an act performed in the United States in connection with a commercial activity of the foreign state elsewhere; or upon an act outside the territory of the United States in connection with a commercial activity of the foreign state elsewhere and that act causes a direct effect in the United States;

(3) in which rights in property taken in violation of international law are in issue and the property or any property exchanged for such property is present in the United States in connection with a commercial activity carried on in the United States by the foreign state; or that property or any property exchanged for such property is owned or operated by an agency or instrumentality of the foreign state and that agency or instrumentality is engaged in a commercial activity in the United States;

(4) in which rights in property in the United States acquired by succession or gift or rights in immovable property situated in the United States are in issue;³

(5) not otherwise encompassed in paragraph (2) above, in which money damages are sought against a foreign state for personal injury or death, or damage to or loss of property, occurring in the United States and caused by the tortious act or omission of that foreign state or of any official or employee of that foreign state while acting within the scope of his office or employment; except this paragraph shall not apply to—

(A) any claim based upon the exercise on performance or the failure to exercise or perform a discretionary function regardless of whether the discretion be abused, or

Such value shall be determined as of the time notice is served under subsection (b)(1). Decrees shall be subject to appeal

⁷Public Law 105-11 (111 Stat. 22) struck out "the claimant or victim was not" and inserted in lieu thereof "neither the claimant nor the victim was".

⁸Sec. 1(1) of Public Law 100-640 (102 Stat. 3333) inserted text to this point from the semicolon, and struck out the following: "but such notice shall not be deemed to have been delivered, nor may it thereafter be delivered, if the vessel or cargo is arrested pursuant to process obtained on behalf of the party bringing the suit—unless the party was unaware that the vessel or cargo of a foreign state was involved, in which event the service of process of arrest shall be deemed to constitute valid delivery of such notice; and".

§ 1606. Extent of liability

b. Extradition Treaties Interpretation Act of 1998

Title II of Public Law 105-323 [H.R. 4660], 112 Stat. 3029 at 3033, approved October 30, 1998

TITLE II—EXTRADITION TREATIES INTERPRETATION ACT OF 1998¹

SEC. 201. SHORT TITLE.

This title may be cited as the “Extradition Treaties Interpretation Act of 1998”.

SEC. 202. FINDINGS.

Congress finds that—

(1) each year, several hundred children are kidnapped by a parent in violation of law, court order, or legally binding agreement and brought to, or taken from, the United States;

(2) until the mid-1970’s, parental abduction generally was not considered a criminal offense in the United States;

(3) since the mid-1970’s, United States criminal law has evolved such that parental abduction is now a criminal offense in each of the 50 States and the District of Columbia;

(4) in enacting the International Parental Kidnapping Crime Act of 1993 (Public Law 103-173; 107 Stat. 1998; 18 U.S.C. 1204), Congress recognized the need to combat parental abduction by making the act of international parental kidnapping a Federal criminal offense;

(5) many of the extradition treaties to which the United States is a party specifically list the offenses that are extraditable and use the word “kidnapping”, but it has been the practice of the United States not to consider the term to include parental abduction because these treaties were negotiated by the United States prior to the development in United States criminal law described in paragraphs (3) and (4);

(6) the more modern extradition treaties to which the United States is a party contain dual criminality provisions, which provide for extradition where both parties make the offense a felony, and therefore it is the practice of the United States to consider such treaties to include parental abduction if the other foreign state party also considers the act of parental abduction to be a criminal offense; and

(7) this circumstance has resulted in a disparity in United States extradition law which should be rectified to better protect the interests of children and their parents.

SEC. 203. INTERPRETATION OF EXTRADITION TREATIES.

For purposes of any extradition treaty to which the United States is a party, Congress authorizes the interpretation of the terms “kidnaping” and “kidnapping” to include parental kidnapping.

AN ACT To establish procedures to implement the Convention on the Civil Aspects of International Child Abduction, done at The Hague on October 25, 1980, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1.¹ SHORT TITLE.

This Act may be cited as the “International Child Abduction Remedies Act”.

SEC. 2.² FINDINGS AND DECLARATIONS.

(a) FINDINGS.—The Congress makes the following findings:

Nance and Meg Donovan Foreign Relations Authorization Act, Fiscal Years 2000 and 2001 (as enacted by sec. 1000(a)(7) of Public Law 106-113; 113 Stat. 1501A-420), and sec. 212 of the Foreign Relations Authorization Act, Fiscal Year 2003 (Public Law 107-228; 116 Stat. 1365), relating to a report on compliance with the Hague Convention on International Child Abduction. Sec. 2803 provides as follows:

“SEC. 2803. REPORT ON COMPLIANCE WITH THE HAGUE CONVENTION ON INTERNATIONAL CHILD ABDUCTION.

“(a) IN GENERAL.—Beginning 6 months after the date of the enactment of this Act and every 12 months thereafter, the Secretary of State shall submit a report to the appropriate congressional committees on the compliance with the provisions of the Convention on the Civil Aspects of International Child Abduction, done at The Hague on October 25, 1980, by the signatory countries of the Convention. Each such report shall include the following information:

“(1) The number of applications for the return of children submitted by applicants in the United States to the Central Authority for the United States that remain unresolved more than 18 months after the date of filing.

“(2) A list of the countries to which children in unresolved applications described in paragraph (1) are alleged to have been abducted, are being wrongfully retained in violation of United States court orders, or which have failed to comply with any of their obligations under such convention with respect to applications for the return of children, access to children, or both, submitted by applicants in the United States.

“(3) A list of the countries that have demonstrated a pattern of noncompliance with the obligations of the Convention with respect to applications for the return of children, access to children, or both, submitted by applicants in the United States to the Central Authority for the United States.

“(4) Detailed information on each unresolved case described in paragraph (1) and on actions taken by the Department of State to resolve each such case, including the specific actions taken by the United States chief of mission in the country to which the child is alleged to have been abducted.

“(5) Information on efforts by the Department of State to encourage other countries to become signatories of the Convention.

“(6) A list of the countries that are parties to the Convention in which, during the reporting period, parents who have been left-behind [sic] in the United States have not been able to secure prompt enforcement of a final return or access order under a Hague proceeding, of a United States custody, access, or visitation order, or of an access or visitation order

Continued

(1) The international abduction or wrongful retention of children is harmful to their well-being.

(2) Persons should not be permitted to obtain custody of children by virtue of their wrongful removal or retention.

(3) International abductions and retentions of children are increasing, and only concerted cooperation pursuant to an international agreement can effectively combat this problem.

(4) The Convention on the Civil Aspects of International Child Abduction, done at The Hague on October 25, 1980, establishes legal rights and procedures for the prompt return of children who have been wrongfully removed or retained, as well as for securing the exercise of visitation rights. Children who are wrongfully removed or retained within the meaning of the Convention are to be promptly returned unless one of narrow exceptions set forth in the Convention applies. The Convention provides a sound treaty framework to help resolve the problem of international abduction and retention of children and will deter such wrongful removals and retentions.

(b) DECLARATIONS.—The Congress makes the following declarations:

(1) It is the purpose of this Act to establish procedures for the implementation of the Convention in the United States.

(2) The provisions of this Act are in addition to and not in lieu of the provisions of the Convention.

(3) In enacting this Act the Congress recognizes—

(A) the international character of the Convention; and

(B) the need for uniform international interpretation of the Convention.

(4) The Convention and this Act empower courts in the United States to determine only rights under the Convention and not the merits of any underlying child custody claims.

d. Relating to the Implementation of the Convention on the Civil Aspects of International Child Abduction

Executive Order 12648, August 11, 1988, 53 F.R. 30637, 42 U.S.C. 11606 note

The United States of America deposited its instrument of ratification of the Hague Convention on the Civil Aspects of International Child Abduction ("Convention") on April 29, 1988. The Convention entered into force for the United States on July 1, 1988. Article 6 of the Convention imposes upon Contracting States an obligation to designate a "Central Authority" for the purpose of discharging certain specified functions.

In order that the Government of the United States of America may give full and complete effect to the Convention, and pursuant to section 7 of the International Child Abduction Remedies Act, Public Law 100-300 (1988), it is expedient and necessary that I designate a Central Authority within the Executive branch of said Government:

NOW THEREFORE, by virtue of the authority vested in me as President by the Constitution and the laws of the United States, including section 301 of Title 3 of the United States Code and section 7 of the International Child Abduction Remedies Act, it is ordered as follows:

Section 1. *Designation of Central Authority.* The Department of State is hereby designated as the Central Authority of the United States for purposes of the Hague Convention on the Civil Aspects of International Child Abduction. e. Child Health Revolution

Public Law 98-198 [S.J. Res. 111], 97 Stat. 1355, approved December 1, 1983

JOINT RESOLUTION Expressing the sense of the Congress with respect to international efforts to further a revolution in child health.

Whereas the report entitled “State of the World’s Children, 1982–83” of the United Nations Children’s Fund (hereafter in this joint resolution referred to as “UNICEF”) offers unprecedented hope for a “revolution in child health” which could save the lives of up to twenty thousand of the forty thousand children who perish daily around the world from malnutrition and disease;

Whereas the techniques involved in this health revolution including oral rehydration home treatment, low-cost vaccines which do not require refrigeration, promotion of breast-feeding, and use of child growth charts to detect malnutrition, are estimated to cost only a few dollars per child;

Whereas this UNICEF report and the activities of UNICEF have been widely acclaimed by the Secretary General of the United Nations and the heads of the governments of such countries as the United Kingdom, France, Sweden, India, and Pakistan; and

Whereas the President of the United States on April 18, 1983, has issued a statement endorsing this health revolution for children and calling on the cooperation of United States Government agencies with international organizations and agencies associated in this effort: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That it is the sense of the Congress that—

(1) the techniques articulated by UNICEF in its report entitled “The State of the World’s Children, 1982–1983” represent an unprecedented low-cost opportunity to significantly reduce child mortality and morbidity throughout the world, and have the full support and encouragement of the Congress at a time of economic difficulty and constriction for all countries;

(2) the President be commended for taking steps to promote, encourage, and undertake activities to further the objectives of the child health revolution and for directing all appropriate United States Government agencies, including the Department of State, the Agency for International Development, and the Department of Health and Human Services to support and cooperate with UNICEF, the World Health Organization, the United Nations Development Program, and other international financial and assistance agencies participating in fostering this child health revolution; and

(3) other public and private organizations involved in health, education, finance, labor, communications, and humanitarian assistance should cooperate with and support the efforts of the

United States to further the objectives of the child health revolution.
