6 (1) by striking “the normal maximum” the first  
7 place that it appears and all that follows through  
8 “April, 1990.” and inserting the following: “the

1 boundary of FERC Project No. 2179 as it existed  
2 on July 18, 2011, consisting of a point approxi-  
3 mately 2,480 feet downstream of the confluence with  
4 the North Fork of the Merced River, consisting of  
5 approximately 7.4 miles.”; and

6 (2) by striking “the normal maximum operating  
7 pool water surface level of Lake McClure” the sec-  
8 ond time that it occurs and inserting “the boundary  
9 of FERC Project No. 2179 as it existed on July 18,

16 **TITLE II—BONNEVILLE UNIT**  
17 **CLEAN HYDROPOWER FACILI-**  
18 **TATION ACT**

19 **SEC. 201. SHORT TITLE.**

20 This title may be cited as the “Bonneville Unit Clean  
21 Hydropower Facilitation Act”.

22 **SEC. 202. DIAMOND FORK SYSTEM DEFINED.**

1 of the October 2004 Supplement to the 1988 Definite  
2 Plan Report for the Bonneville Unit.

3 **SEC. 203. COST ALLOCATIONS.**

4 Notwithstanding any other provision of law, in order  
5 to facilitate hydropower development on the Diamond

7 to project power in Chapter 6 of the Power Appendix in  
8 the October 2004 Supplement to the 1988 Bonneville Unit  
9 Definite Plan Report, with regard to power development  
10 upstream of the Diamond Fork System, shall be consid-  
11 ered final costs as well as costs in excess of the total max-  
12 imum repayment obligation as defined in section 211 of

20 power produced by the Diamond Fork power plant and  
21 none of the costs associated with development of trans-  
22 mission facilities to transmit power from the Diamond  
23 Fork power plant shall be assigned to power for the pur-  
24 pose of Colorado River Storage Project ratemaking.

1 **SEC. 205. PROHIBITION ON TAX-EXEMPT FINANCING.**

2 No facility for the generation or transmission of hy-  
3 droelectric power on the Diamond Fork System may be

6 (1) the interest on which is exempt from the  
7 tax imposed under chapter 1 of the Internal Rev-

13 If, 24 months after the date of the enactment of this

16 submit a report to the Committee on Natural Resources  
17 of the House of Representatives and the Committee on  
18 Energy and Natural Resources of the Senate stating this  
19 fact, the reasons such production has not yet commenced,  
20 and a detailed timeline for future hydropower production.

21 **SEC. 207. PAYGO.**

22 The budgetary effects of this title, for the purpose  
23 of complying with the Statutory Pay-As-You-Go Act of

8 or construction of transmission facilities developed as a  
9 result of this title.

10 **TITLE III—SOUTHEAST ALASKA**  
11 **NATIVE LAND ENTITLEMENT**  
12 **FINALIZATION AND JOBS**  
13 **PROTECTION ACT**

14 **SEC. 301. SHORT TITLE.**

15 This title may be cited as the “Southeast Alaska Na-  
16 tive Land Entitlement Finalization and Jobs Protection  
17 Act”.

18 **SEC. 302. DEFINITIONS.**

19 In this title:

20 (1) CONSERVATION SYSTEM UNIT.—The term  
21 “conservation system unit” has the meaning given  
22 the term in section 102 of the Alaska National In-  
23 terest Lands Conservation Act (16 U.S.C. 3102).

24 (2) SEALASKA.—The term “Sealaska” means  
25 the Sealaska Corporation, a Regional Native Cor-

1           poration created under the Alaska Native Claims  
2           Settlement Act (43 U.S.C. 1601 et seq.).

3           (3) SECRETARY.—The term “Secretary” means  
4           the Secretary of the Interior.

5 **SEC. 303. FINDINGS; PURPOSE.**

6           (a) FINDINGS.—Congress finds that—

7           (1)(A) in 1971, Congress enacted the Alaska  
8           Native Claims Settlement Act (43 U.S.C. 1601 et  
9           seq.) to recognize and settle the aboriginal claims of  
10          Alaska Natives to land historically used by Alaska  
11          Natives for traditional, cultural, and spiritual pur-  
12          poses; and

13          (B) that Act declared that the land settlement  
14          “should be accomplished rapidly, with certainty, in  
15          conformity with the real economic and social needs  
16          of Natives”;

17          (2) the Alaska Native Claims Settlement Act  
18          (43 U.S.C. 1601 et seq.)—

19                (A) authorized the distribution of approxi-  
20                mately \$1,000,000,000 and 44,000,000 acres of  
21                land to Alaska Natives; and

22                (B) provided for the establishment of Na-  
23                tive Corporations to receive and manage the  
24                funds and that land to meet the cultural, social,  
25                and economic needs of Native shareholders;

1           (3) under section 12 of the Alaska Native  
2           Claims Settlement Act (43 U.S.C. 1611), each Re-  
3           gional Corporation, other than Sealaska (the Re-  
4           gional Corporation for southeast Alaska), was au-  
5           thorized to receive a share of land based on the pro-  
6           portion that the number of Alaska Native share-  
7           holders residing in the region of the Regional Cor-  
8           poration bore to the total number of Alaska Native  
9           shareholders, or the relative size of the area to which  
10          the Regional Corporation had an aboriginal land  
11          claim bore to the size of the area to which all Re-  
12          gional Corporations had aboriginal land claims;

13          (4)(A) Sealaska, the Regional Corporation for  
14          southeast Alaska, 1 of the Regional Corporations  
15          with the largest number of Alaska Native share-  
16          holders, with more than 21 percent of all original  
17          Alaska Native shareholders, received less than 1 per-  
18          cent of the lands set aside for Alaska Natives, and  
19          received no land under section 12 of the Alaska Na-  
20          tive Claims Settlement Act (43 U.S.C. 1611);

21          (B) the Tlingit and Haida Indian Tribes of  
22          Alaska was 1 of the entities representing the Alaska  
23          Natives of southeast Alaska before the date of enact-  
24          ment of the Alaska Native Claims Settlement Act  
25          (43 U.S.C. 1601 et seq.); and

1 (C) Sealaska did not receive land in proportion  
2 to the number of Alaska Native shareholders, or in  
3 proportion to the size of the area to which Sealaska  
4 had an aboriginal land claim, in part because of a  
5 United States Court of Claims cash settlement to  
6 the Tlingit and Haida Indian Tribes of Alaska in  
7 1968 for land previously taken to create the Tongass  
8 National Forest and Glacier Bay National Monu-  
9 ment;

10 (5) the 1968 Court of Claims cash settlement  
11 of \$7,500,000 did not—

12 (A) adequately compensate the Alaska Na-  
13 tives of southeast Alaska for the significant  
14 quantity of land and resources lost as a result  
15 of the creation of the Tongass National Forest  
16 and Glacier Bay National Monument or other  
17 losses of land and resources; or

18 (B) justify the significant disparate treat-  
19 ment of Sealaska under the Alaska Native  
20 Claims Settlement Act (43 U.S.C. 1611) in  
21 1971;

22 (6)(A) while each other Regional Corporation  
23 received a significant quantity of land under sections  
24 12 and 14 of the Alaska Native Claims Settlement  
25 Act (43 U.S.C. 1611, 1613), Sealaska only received

1 land under section 14(h) of that Act (43 U.S.C.  
2 1613(h));

3 (B) section 14(h) of the Alaska Native Claims  
4 Settlement Act (43 U.S.C. 1613(h)) authorized the  
5 Secretary to withdraw and convey 2,000,000-acres  
6 of “unreserved and unappropriated” public lands in  
7 Alaska from which Alaska Native selections could be  
8 made for historic sites, cemetery sites, Urban Cor-  
9 poration land, Native group land, and Native Allot-  
10 ments;

11 (C) under section 14(h)(8) of the Alaska Native  
12 Claims Settlement Act (43 U.S.C. 1613(h)(8)), after  
13 selections are made under paragraphs (1) through  
14 (7) of that section, the land remaining in the  
15 2,000,000-acre land pool is allocated based on the  
16 proportion that the original Alaska Native share-  
17 holder population of a Regional Corporation bore to  
18 the original Alaska Native shareholder population of  
19 all Regional Corporations;

20 (D) the only Native land entitlement of  
21 Sealaska derives from a proportion of leftover land  
22 remaining from the 2,000,000-acre land pool, esti-  
23 mated as of the date of enactment of this Act at ap-  
24 proximately 1,700,000 acres;

1           (E) because at the time of enactment of the  
2 Alaska Native Claims Settlement Act (43 U.S.C.  
3 1601 et seq.) all public land in the Tongass National  
4 Forest had been reserved for purposes of creating  
5 the national forest, the Secretary was not able to  
6 withdraw any public land in the Tongass National  
7 Forest for selection by and conveyance to Sealaska;

8           (F) at the time of enactment of the Alaska Na-  
9 tive Claims Settlement Act (43 U.S.C. 1601 et seq.)  
10 other public lands in southeast Alaska not located in  
11 the Tongass National Forest were not suitable for  
12 selection by and conveyance to Sealaska because  
13 such lands were located in Glacier Bay National  
14 Monument, were included in a withdrawal effected  
15 pursuant to section 17(d)(2) of that Act (43 U.S.C.  
16 1616(d)(2)) and slated to become part of the  
17 Wrangell-St. Elias National Park, or essentially con-  
18 sisted of mountain tops;

19           (G) Sealaska in 1975 requested that Congress  
20 amend the Alaska Native Claims Settlement Act (43  
21 U.S.C. 1601 et seq.) to permit the Regional Cor-  
22 poration to select lands inside of the withdrawal  
23 areas established for southeast Alaska Native vil-  
24 lages under section 16 of that Act (43 U.S.C. 1615);  
25 and

1           (H) in 1976, Congress amended section 16 of  
2           the Alaska Native Claims Settlement Act (43 U.S.C.  
3           1615) to allow Sealaska to select lands under section  
4           14(h)(8) of that Act (43 U.S.C. 1613(h)(8)) from  
5           land located inside, rather than outside, the with-  
6           drawal areas established for southeast Alaska Native  
7           villages;

8           (7) the 10 Alaska Native village withdrawal  
9           areas in southeast Alaska surround the Alaska Na-  
10          tive communities of Yakutat, Hoonah, Angoon,  
11          Kake, Kasaan, Klawock, Craig, Hydaburg, Klukwan,  
12          and Saxman;

13          (8)(A) the existing conveyance requirements of  
14          the Alaska Native Claims Settlement Act (43 U.S.C.  
15          1601 et seq.) for southeast Alaska limit the land eli-  
16          gible for conveyance to Sealaska to the original with-  
17          drawal areas surrounding 10 Alaska Native villages  
18          in southeast Alaska, which precludes Sealaska from  
19          selecting land located—

20                 (i) in any withdrawal area established for  
21                 the Urban Corporations for Sitka and Juneau,  
22                 Alaska; or

23                 (ii) outside the 10 Alaska Native village  
24                 withdrawal areas; and

1 (B) unlike other Regional Corporations,  
2 Sealaska is not authorized to request land located  
3 outside the withdrawal areas described in subpara-  
4 graph (A) if the withdrawal areas are insufficient to  
5 complete the land entitlement of Sealaska under the  
6 Alaska Native Claims Settlement Act (43 U.S.C.  
7 1601 et seq.);

8 (9)(A) the deadline for applications for selection  
9 of cemetery sites and historic places on land outside  
10 withdrawal areas established under section 14 of the  
11 Alaska Native Claims Settlement Act (43 U.S.C.  
12 1613) was July 1, 1976;

13 (B)(i) as of that date, the Bureau of Land  
14 Management notified Sealaska that the total entitle-  
15 ment of Sealaska would be approximately 200,000  
16 acres; and

17 (ii) Sealaska made entitlement allocation deci-  
18 sions for cultural sites and economic development  
19 sites based on that original estimate; and

20 (C) as a result of the Alaska Land Transfer Ac-  
21 celeration Act (Public Law 108-452; 118 Stat.  
22 3575) and subsequent related determinations and  
23 actions of the Bureau of Land Management, it be-  
24 came clear within the last decade that Sealaska will  
25 receive significantly more than 200,000 acres pursu-

1 ant to the Alaska Native Claims Settlement Act (43  
2 U.S.C. 1601 et seq.);

3 (10) in light of the revised Bureau of Land  
4 Management estimate of the total number of acres  
5 that Sealaska will receive pursuant to the Alaska  
6 Native Claims Settlement Act (43 U.S.C. 1601 et  
7 seq.), and in consultation with Members of Alaska's  
8 congressional delegation, Sealaska and its share-  
9 holders believe that it is appropriate to allocate more  
10 of the entitlement of Sealaska to—

11 (A) the acquisition of places of sacred, cul-  
12 tural, traditional, and historical significance;

13 (B) the acquisition of sites with traditional  
14 and recreational use value and sites suitable for  
15 renewable energy development; and

16 (C) the acquisition of lands that are not  
17 within the watersheds of Native and non-Native  
18 communities and are suitable economically and  
19 environmentally for natural resource develop-  
20 ment;

21 (11)(A) pursuant to section 11(a)(1) of the  
22 Alaska Native Claims Settlement Act (43 U.S.C.  
23 1610(a)(1)), Sealaska was not authorized to select  
24 under section 14(h)(1) of that Act (43 U.S.C.  
25 1613(h)(1)) any site within Glacier Bay National

1 Park, despite the abundance of cultural sites within  
2 that Park;

3 (B) Sealaska seeks cooperative agreements to  
4 ensure that cultural sites within Glacier Bay Na-  
5 tional Park are subject to cooperative management  
6 by Sealaska, Village and Urban Corporations, and  
7 federally recognized tribes with ties to the cultural  
8 sites and history of the Park; and

9 (C) Congress recognizes that there is an exist-  
10 ing Memorandum of Understanding (MOU) between  
11 the Park Service and the Hoonah Indian Associa-  
12 tion, and does not intend to circumvent the MOU;  
13 rather the intent is to ensure that this and similar  
14 mechanisms for cooperative management in Glacier  
15 Bay are required by law;

16 (12)(A) the cemetery sites and historic places  
17 conveyed to Sealaska pursuant to section 14(h)(1) of  
18 the Alaska Native Claims Settlement Act (43 U.S.C.  
19 1613(h)(1)) are subject to a restrictive covenant not  
20 required by the Alaska Native Claims Settlement  
21 Act (43 U.S.C. 1601 et seq.) that hinders the ability  
22 of Sealaska to use the sites for cultural, educational,  
23 or research purposes for Alaska Natives and others;

1 (B) historic sites managed by the Forest Serv-  
2 ice are not subject to the limitations referred to in  
3 subparagraph (A); and

4 (C) Alaska Natives of southeast Alaska should  
5 be permitted to use cemetery sites and historic  
6 places in a manner that is—

7 (i) consistent with the sacred, cultural, tra-  
8 ditional, or historic nature of the site; and

9 (ii) not inconsistent with the management  
10 plans for adjacent public land;

11 (13) 44 percent (820,000 acres) of the 10 Alas-  
12 ka Native village withdrawal areas established under  
13 the Alaska Native Claims Settlement Act (43 U.S.C.  
14 1601 et seq.) described in paragraphs (7) and (8)  
15 are composed of salt water and not available for se-  
16 lection;

17 (14) of land subject to the selection rights of  
18 Sealaska, 110,000 acres are encumbered by guber-  
19 natorial consent requirements under the Alaska Na-  
20 tive Claims Settlement Act (43 U.S.C. 1601 et seq.);

21 (15) in each withdrawal area, there exist factors  
22 that limit the ability of Sealaska to select sufficient  
23 land, and, in particular, economically viable land, to  
24 fulfill the land entitlement of Sealaska, including  
25 factors such as—

1 (A) with respect to the Yakutat withdrawal  
2 area—

3 (i) 46 percent of the area is salt  
4 water;

5 (ii) 10 sections (6,400 acres) around  
6 the Situk Lake were restricted from selec-  
7 tion, with no consideration provided for the  
8 restriction; and

9 (iii)(I) 70,000 acres are subject to a  
10 gubernatorial consent requirement before  
11 selection; and

12 (II) Sealaska received no consider-  
13 ation with respect to the consent restric-  
14 tion;

15 (B) with respect to the Hoonah withdrawal  
16 area, 51 percent of the area is salt water;

17 (C) with respect to the Angoon withdrawal  
18 area—

19 (i) 120,000 acres of the area is salt  
20 water;

21 (ii) Sealaska received no consideration  
22 regarding the prohibition on selecting land  
23 from the 80,000 acres located within the  
24 Admiralty Island National Monument; and

1 (iii)(I) the Village Corporation for  
2 Angoon was allowed to select land located  
3 outside the withdrawal area on Prince of  
4 Wales Island, subject to the condition that  
5 the Village Corporation shall not select  
6 land located on Admiralty Island; but

7 (II) no alternative land adjacent to  
8 the out-of-withdrawal land of the Village  
9 Corporation was made available for selec-  
10 tion by Sealaska;

11 (D) with respect to the Kake withdrawal  
12 area—

13 (i) 64 percent of the area is salt  
14 water; and

15 (ii) extensive timber harvesting by the  
16 Forest Service occurred in the area before  
17 1971 that significantly reduced the value  
18 of land available for selection by, and con-  
19 veyance to, Sealaska;

20 (E) with respect to the Kasaan withdrawal  
21 area—

22 (i) 54 percent of the area is salt  
23 water; and

24 (ii) the Forest Service previously har-  
25 vested in the area;

1 (F) with respect to the Klawock with-  
2 drawal area—

3 (i) the area consists of only 5 town-  
4 ships, as compared to the usual withdrawal  
5 area of 9 townships, because of the prox-  
6 imity of the Klawock withdrawal area to  
7 the Village of Craig, which reduces the se-  
8 lection area by 92,160 acres; and

9 (ii) the Klawock and Craig withdrawal  
10 areas are 35 percent salt water;

11 (G) with respect to the Craig withdrawal  
12 area, the withdrawal area consists of only 6  
13 townships, as compared to the usual withdrawal  
14 area of 9 townships, because of the proximity of  
15 the Craig withdrawal area to the Village of  
16 Klawock, which reduces the selection area by  
17 69,120 acres;

18 (H) with respect to the Hydaburg with-  
19 drawal area—

20 (i) 36 percent of the area is salt  
21 water; and

22 (ii) Sealaska received no consideration  
23 under the Haida Land Exchange Act of  
24 1986 (Public Law No. 99-664; 100 Stat.  
25 4303) for relinquishing selection rights to

1 land within the withdrawal area that the  
2 Haida Corporation exchanged to the For-  
3 est Service;

4 (I) with respect to the Klukwan withdrawal  
5 area—

6 (i) 27 percent of the area is salt  
7 water; and

8 (ii) the withdrawal area is only 70,000  
9 acres, as compared to the usual withdrawal  
10 area of 207,360 acres, which reduces the  
11 selection area by 137,360 acres; and

12 (J) with respect to the Saxman withdrawal  
13 area—

14 (i) 29 percent of the area is salt  
15 water;

16 (ii) Sealaska received no consideration  
17 for the 50,576 acres within the withdrawal  
18 area adjacent to the first-class city of  
19 Ketchikan that were excluded from selec-  
20 tion;

21 (iii) Sealaska received no consider-  
22 ation with respect to the 1977 amendment  
23 to the Alaska Native Claims Settlement  
24 Act (43 U.S.C. 1601 et seq.) requiring gu-

1                   bernatorial consent for selection of 58,000  
2                   acres in that area; and

3                   (iv) 23,888 acres are located within  
4                   the Annette Island Indian Reservation for  
5                   the Metlakatla Indian Tribe and are not  
6                   available for selection;

7                   (16) the selection limitations and guidelines ap-  
8                   plicable to Sealaska under the Alaska Native Claims  
9                   Settlement Act (43 U.S.C. 1601 et seq.)—

10                   (A) are inequitable and inconsistent with  
11                   the purposes of that Act because there is insuf-  
12                   ficient land remaining in the withdrawal areas  
13                   to meet the traditional, cultural, and socio-  
14                   economic needs of the shareholders of Sealaska;  
15                   and

16                   (B) make it difficult for Sealaska to se-  
17                   lect—

18                   (i) places of sacred, cultural, tradi-  
19                   tional, and historical significance;

20                   (ii) sites with traditional and recre-  
21                   ation use value and sites suitable for re-  
22                   newable energy development; and

23                   (iii) lands that meet the real economic  
24                   needs of the shareholders of Sealaska;

1           (17) unless Sealaska is allowed to select land  
2           outside designated withdrawal areas in southeast  
3           Alaska, Sealaska will not be able to—

4                   (A) complete the land entitlement selec-  
5                   tions of Sealaska under the Alaska Native  
6                   Claims Settlement Act (43 U.S.C. 1601 et seq.)  
7                   in a manner that meets the cultural, social, and  
8                   economic needs of Native shareholders;

9                   (B) avoid land selections in watersheds  
10                  that are the exclusive drinking water supply for  
11                  regional communities, support world class salm-  
12                  on streams, have been identified as important  
13                  habitat, or would otherwise be managed by the  
14                  Forest Service as roadless and old growth forest  
15                  reserves;

16                  (C) secure ownership of places of sacred,  
17                  cultural, traditional, and historical importance  
18                  to the Alaska Natives of southeast Alaska; and

19                  (D) continue to support forestry jobs and  
20                  economic opportunities for Alaska Natives and  
21                  other residents of rural southeast Alaska;

22           (18)(A) the rate of unemployment in southeast  
23           Alaska exceeds the statewide rate of unemployment  
24           on a non-seasonally adjusted basis;

1 (B) in January 2011, the Alaska Department  
2 of Labor and Workforce Development reported the  
3 unemployment rate for the Prince of Wales—Outer  
4 Ketchikan census area at approximately 16.2 per-  
5 cent;

6 (C) in October 2007, the Alaska Department of  
7 Labor and Workforce Development projected popu-  
8 lation losses between 1996 and 2030 for the Prince  
9 of Wales—Outer Ketchikan census area at 56.6 per-  
10 cent;

11 (D) official unemployment rates severely under-  
12 report the actual level of regional unemployment,  
13 particularly in Native villages; and

14 (E) additional job losses will exacerbate out-  
15 migration from Native and non-Native communities  
16 in southeast Alaska;

17 (19) Sealaska has played, and is expected to  
18 continue to play, a significant role in the health of  
19 the southeast Alaska economy;

20 (20) despite the small land base of Sealaska as  
21 compared to other Regional Corporations (less than  
22 1 percent of the total quantity of land allocated pur-  
23 suant to the Alaska Native Claims Settlement Act  
24 (43 U.S.C. 1601 et seq.)), Sealaska has—

1 (A) provided considerable benefits to Alas-  
2 ka Native shareholders;

3 (B) supported hundreds of jobs for Alaska  
4 Native shareholders and non-shareholders in  
5 southeast Alaska for more than 30 years; and

6 (C) been a significant economic force in  
7 southeast Alaska;

8 (21) pursuant to the revenue sharing provisions  
9 of section 7(i) of the Alaska Native Claims Settle-  
10 ment Act (43 U.S.C. 1606(i)), Sealaska has distrib-  
11 uted more than \$300,000,000 during the period be-  
12 ginning on January 1, 1971, and ending on Decem-  
13 ber 31, 2005, to Native Corporations throughout the  
14 State of Alaska from the development of natural re-  
15 sources, which accounts for 42 percent of the total  
16 revenues shared under that section during that pe-  
17 riod;

18 (22) resource development operations main-  
19 tained by Sealaska—

20 (A) support hundreds of jobs in the south-  
21 east Alaska region;

22 (B) make timber available to local and do-  
23 mestic sawmills and other wood products busi-  
24 nesses such as guitar manufacturers;

1 (C) support firewood programs for local  
2 communities;

3 (D) support maintenance of roads utilized  
4 by local communities for subsistence and recre-  
5 ation uses;

6 (E) support development of new biomass  
7 energy opportunities in southeast Alaska, re-  
8 ducing dependence on high-cost diesel fuel for  
9 the generation of energy;

10 (F) provide start-up capital for innovative  
11 business models in southeast Alaska that create  
12 new opportunities for non-timber economic de-  
13 velopment in the region, including support for  
14 renewable biomass initiatives, Alaska Native ar-  
15 tisans, and rural mariculture farming; and

16 (G) support Native education and cultural  
17 and language preservation activities;

18 (23) if the resource development operations of  
19 Sealaska cease on land appropriate for those oper-  
20 ations, there will be a significant negative impact  
21 on—

22 (A) southeast Alaska Native shareholders;

23 (B) the cultural preservation activities of  
24 Sealaska;

25 (C) the economy of southeast Alaska; and

1 (D) the Alaska Native community that  
2 benefits from the revenue-sharing requirements  
3 under the Alaska Native claims Settlement Act  
4 (43 U.S.C. 1601 et seq.);

5 (24) it is critical that the remaining land enti-  
6 tlement conveyances to Sealaska under the Alaska  
7 Native Claims Settlement Act (43 U.S.C. 1601 et  
8 seq.) are fulfilled to continue to meet the economic,  
9 social, and cultural needs of the Alaska Native  
10 shareholders of southeast Alaska and the Alaska Na-  
11 tive community throughout Alaska;

12 (25) in order to realize cultural preservation  
13 goals while also diversifying economic opportunities,  
14 Sealaska should be authorized to select and receive  
15 conveyance of—

16 (A) sacred, cultural, traditional, and his-  
17 toric sites and other places of traditional cul-  
18 tural significance, including traditional and cus-  
19 tomary trade and migration routes, to facilitate  
20 the perpetuation and preservation of Alaska  
21 Native culture and history;

22 (B) other sites with traditional and recre-  
23 ation use value and sites suitable for renewable  
24 energy development to facilitate appropriate  
25 tourism and outdoor recreation enterprises and

1 renewable energy development for rural south-  
2 east Alaska communities; and

3 (C) lands that are suitable economically  
4 and environmentally for natural resource devel-  
5 opment;

6 (26) on completion of the conveyances of land  
7 of Sealaska to fulfill the full land entitlement of  
8 Sealaska under the Alaska Native Claims Settlement  
9 Act (43 U.S.C. 1601 et seq.), the encumbrances on  
10 327,000 acres of Federal land created by the with-  
11 drawal of land for selection by Native Corporations  
12 in southeast Alaska should be removed, which will  
13 facilitate thorough and complete planning and effi-  
14 cient management relating to national forest land in  
15 southeast Alaska by the Forest Service;

16 (27) although the Tribal Forest Protection Act  
17 (25 U.S.C. 3101 note; Public Law 108–278) defines  
18 the term “Indian tribe” to include Indian tribes  
19 under section 4 of the Indian Self-Determination  
20 and Education Assistance Act (25 U.S.C. 450b), a  
21 term which includes “any Alaska Native village or  
22 regional or village corporation as defined in or estab-  
23 lished pursuant to the Alaska Native Claims Settle-  
24 ment Act . . .”, the Tribal Forest Protection Act  
25 does not define the term “Indian forest land or

1       rangeland” to include lands owned by Alaska Native  
2       Corporations, including Sealaska, which are the pri-  
3       mary Indian forest land owners in Alaska, and  
4       therefore, the Tribal Forest Protection Act should be  
5       amended in a manner that will—

6               (A) permit Native Corporations, including  
7               Sealaska, as Indian forest land owners in Alas-  
8               ka, to work with the Secretary of Agriculture  
9               under the Tribal Forest Protection Act to ad-  
10              dress forest fire and insect infestation issues,  
11              including the spread of the spruce bark beetle  
12              in southeast and southcentral Alaska, which  
13              threaten the health of the Native forestlands;  
14              and

15             (B) ensure that Native Corporations, in-  
16             cluding Sealaska, can participate in programs  
17             administered by the Secretary of Agriculture  
18             under the Tribal Forest Protection Act without  
19             including Native Corporations under the defini-  
20             tion in that Act of “Indian forest land or range-  
21             land” or otherwise amending that Act in a  
22             manner that validates, invalidates, or otherwise  
23             affects any claim regarding the existence of In-  
24             dian country in the State of Alaska; and

1           (28) the National Historic Preservation Act (16  
2           U.S.C. 470 et seq.) defines the term “Indian tribe”  
3           to include any “Native village, Regional Corporation  
4           or Village Corporation, as those terms are defined in  
5           section 3 of the Alaska Native Claims Settlement  
6           Act” but does not define the term “Tribal lands” to  
7           include lands owned by Alaska Native Corporations,  
8           thereby excluding from the National Historic Preser-  
9           vation Act cemetery sites and historical places trans-  
10          ferred to Native Corporations, including Sealaska,  
11          pursuant to the Alaska Native Claims Settlement  
12          Act, and therefore, the National Historic Preserva-  
13          tion Act should be amended in a manner that will—

14                 (A) permit Native Corporations, including  
15                 Sealaska, as owners of Indian cemetery sites  
16                 and historical places in Alaska, to work with  
17                 the Secretary of the Interior under the National  
18                 Historic Preservation Act to secure grants and  
19                 other support to manage their own historic sites  
20                 and programs pursuant to that Act; and

21                 (B) ensure that Native Corporations, in-  
22                 cluding Sealaska, can participate in programs  
23                 administered by the Secretary of the Interior  
24                 under the National Historic Preservation Act  
25                 without including Native Corporations under

1           the definition in that Act of “Tribal lands” or  
2           otherwise amending that Act in a manner that  
3           validates, invalidates, or otherwise affects any  
4           claim regarding the existence of Indian country  
5           in the State of Alaska.

6           (b) **PURPOSE.**—The purpose of this title is to address  
7           the inequitable treatment of Sealaska by allowing Sealaska  
8           to select the remaining land entitlement of Sealaska under  
9           section 14 of the Alaska Native Claims Settlement Act (43  
10          U.S.C. 1613) from designated Federal land in southeast  
11          Alaska located outside the 10 southeast Alaska Native vil-  
12          lage withdrawal areas in a manner that meets the cultural,  
13          social, and economic needs of Native shareholders, includ-  
14          ing the need to maintain jobs supported by Sealaska in  
15          rural southeast Alaska communities.

16          **SEC. 304. SELECTIONS IN SOUTHEAST ALASKA.**

17          (a) **SELECTION BY SEALASKA.**—

18                  (1) **IN GENERAL.**—Notwithstanding section  
19          14(h)(8) of the Alaska Native Claims Settlement Act  
20          (43 U.S.C. 1613(h)(8)), Sealaska is authorized to  
21          select and receive conveyance of the remaining land  
22          entitlement of Sealaska under that Act (43 U.S.C.  
23          1601 et seq.) from Federal land located in southeast  
24          Alaska from each category described in subsections  
25          (b) and (c).

1           (2) TREATMENT OF LAND CONVEYED.—Land  
2           conveyed pursuant to this title are to be treated as  
3           land conveyed pursuant to the Alaska Native Claims  
4           Settlement Act (43 U.S.C. 1601 et seq.) subject to,  
5           but not limited to—

6                   (A) reservation of public easements across  
7           land pursuant to section 17(b) of the Alaska  
8           Native Claims Settlement Act (43 U.S.C.  
9           1616(b));

10                   (B) valid existing rights pursuant to sec-  
11           tion 14(g) of the Alaska Native Claims Settle-  
12           ment Act (43 U.S.C. 1613(g)); and

13                   (C) the land bank protections of section  
14           907(d) of the Alaska National Interest and  
15           Lands Conservation Act (43 U.S.C. 1636(d)).

16           (b) WITHDRAWAL OF LAND.—The following public  
17           land is withdrawn, subject to valid existing rights, from  
18           all forms of appropriation under public land laws, includ-  
19           ing the mining and mineral leasing laws, and from selec-  
20           tion under the Act of July 7, 1958 (commonly known as  
21           the “Alaska Statehood Act”) (48 U.S.C. note prec. 21;  
22           Public Law 85–508), and shall be available for selection  
23           by and conveyance to Sealaska to complete the remaining  
24           land entitlement of Sealaska under section 14(h)(8) of the

1 Alaska Native Claims Settlement Act (43 U.S.C.  
2 1613(h)(8)):

3 (1) Land identified on the maps dated Feb-  
4 ruary 1, 2011, and labeled “Attachment A (Maps 1  
5 through 8)”.

6 (2) Sites with traditional, recreational, and re-  
7 newable energy use value, as identified on the map  
8 entitled “Sites with Traditional, Recreational, and  
9 Renewable Energy Use Value”, dated February 1,  
10 2011, and labeled “Attachment D”, subject to the  
11 condition that not more than 5,000 acres shall be se-  
12 lected for those purposes.

13 (3) Sites identified on the map entitled “Tradi-  
14 tional and Customary Trade and Migration Routes”,  
15 dated February 1, 2011, and labeled “Attachment  
16 C”, which includes an identification of—

17 (A) a conveyance of land 25 feet in width,  
18 together with 1-acre sites at each terminus and  
19 at 8 locations along the route, with the route,  
20 location, and boundaries of the conveyance de-  
21 scribed on the map inset entitled “Yakutat to  
22 Dry Bay Trade and Migration Route” on the  
23 map entitled “Traditional and Customary  
24 Trade and Migration Routes”, dated February  
25 1, 2011, and labeled “Attachment C”;

1 (B) a conveyance of land 25 feet in width,  
2 together with 1-acre sites at each terminus,  
3 with the route, location, and boundaries of the  
4 conveyance described on the map inset entitled  
5 “Bay of Pillars to Port Camden Trade and Mi-  
6 gration Route” on the map entitled “Tradi-  
7 tional and Customary Trade and Migration  
8 Routes”, dated February 1, 2011, and labeled  
9 “Attachment C”; and

10 (C) a conveyance of land 25 feet in width,  
11 together with 1-acre sites at each terminus,  
12 with the route, location, and boundaries of the  
13 conveyance described on the map inset entitled  
14 “Portage Bay to Duncan Canal Trade and Mi-  
15 gration Route” on the map entitled “Tradi-  
16 tional and Customary Trade and Migration  
17 Routes”, dated February 1, 2011, and labeled  
18 “Attachment C”.

19 (c) SITES WITH SACRED, CULTURAL, TRADITIONAL,  
20 OR HISTORIC SIGNIFICANCE.—Subject to the criteria and  
21 procedures applicable to land selected pursuant to section  
22 14(h)(1) of the Alaska Native Claims Settlement Act (43  
23 U.S.C. 1613(h)(1)) and set forth in the regulations pro-  
24 mulgated at section 2653.5 of title 43, Code of Federal

1 Regulations (as in effect on the date of enactment of this  
2 Act), except as otherwise provided in this title—

3 (1) Sealaska shall have a right to identify up to  
4 3,600 acres of sites with sacred, cultural, traditional,  
5 or historic significance, including archeological sites,  
6 cultural landscapes, and natural features having cul-  
7 tural significance; and

8 (2) on identification of the land by Sealaska  
9 under paragraph (1), the identified land shall be—

10 (A) withdrawn, subject to valid existing  
11 rights, from all forms of appropriation under  
12 public land laws, including the mining and min-  
13 eral leasing laws, and from selection under the  
14 Act of July 7, 1958 (commonly known as the  
15 “Alaska Statehood Act”) (48 U.S.C. note prec.  
16 21; Public Law 85–508); and

17 (B) available for selection by and convey-  
18 ance to Sealaska to complete the remaining  
19 land entitlement of Sealaska under section  
20 14(h)(8) of the Alaska Native Claims Settle-  
21 ment Act (43 U.S.C. 1613(h)(8)) subject to the  
22 conditions that—

23 (i) no sites with sacred, cultural, tra-  
24 ditional, or historic significance may be se-

1                   lected from within a unit of the National  
2                   Park System; and

3                   (ii) beginning on the date that is 15  
4                   years after the date of enactment of this  
5                   Act, Sealaska shall be limited to identi-  
6                   fying not more than 360 acres of sites with  
7                   sacred, cultural, traditional, or historic sig-  
8                   nificance under this subsection.

9           (d) FOREST DEVELOPMENT ROADS.—Sealaska shall  
10 receive from the United States, subject to all necessary  
11 State and Federal permits, nonexclusive easements to  
12 Sealaska to allow—

13           (1) access on the forest development road and  
14           use of the log transfer site identified in paragraphs  
15           (3)(b), (3)(c) and (3)(d) of the patent numbered 50–  
16           85–0112 and dated January 4, 1985;

17           (2) access on the forest development road iden-  
18           tified in paragraphs (2)(a) and (2)(b) of the patent  
19           numbered 50–92–0203 and dated February 24,  
20           1992;

21           (3) access on the forest development road iden-  
22           tified in paragraph (2)(a) of the patent numbered  
23           50–94–0046 and dated December 17, 1993;

24           (4) access on the forest development roads and  
25           use of the log transfer facilities identified on the

1 maps dated February 1, 2011, and labeled “Attach-  
2 ment A (Maps 1 through 8)”;

3 (5) a reservation of a right to construct a new  
4 road to connect to existing forest development roads

13          and available for public inspection in the appropriate of-  
14          fices of the National Park Service.

15 **SEC. 505. ADMINISTRATION OF MONUMENT.**

16          (a) IN GENERAL.—The Secretary shall administer  
17          the Monument in accordance with—

18                 (1) this title; and

19                 (2) any cooperative agreements entered into  
20          under subsection (b)(1).

21          (b) AUTHORITIES OF SECRETARY.—

22                 (1) COOPERATIVE AGREEMENTS.—The Sec-  
23          retary may enter into cooperative management  
24          agreements with the University and the City, in ac-

1 cordance with section 3(l) of Public Law 91–383 (16  
2 U.S.C. 1a–2(l)).

3 (2) ACQUISITION OF LAND.—The Secretary  
4 may acquire by donation only from the City any land  
5 or interest in land owned by the City within the pro-  
6 posed boundary of the Monument.

7 (c) GENERAL MANAGEMENT PLAN.—

8 (1) IN GENERAL.—Not later than 3 years after  
9 the date of enactment of this Act, the Secretary, in  
10 consultation with the University and the City, shall  
11 complete a general management plan for the Monu-  
12 ment.

13 (2) INCLUSIONS.—The management plan shall  
14 include, at a minimum—

15 (A) measures for the preservation of the  
16 resources of the Monument;

17 (B) requirements for the type and extent  
18 of development and use of the Monument;

19 (C) identification of the capacity of the  
20 Monument for accommodating visitors; and

21 (D) opportunities for involvement by the  
22 University, City, State, and other local and na-  
23 tional entities in—

24 (i) developing educational programs  
25 for the Monument; and

1 (ii) developing and supporting the  
2 Monument.

3 (d) PROHIBITION OF USE OF FEDERAL FUNDS.—No  
4 Federal funds may be used to pay the costs of—

5 (1) carrying out a cooperative agreement under  
6 subsection (b)(1);

7 (2) acquiring land for inclusion in the Monu-  
8 ment under subsection (b)(2);

9 (3) developing a visitor center for the Monu-  
10 ment;

11 (4) operating or maintaining the Monument;

12 (5) constructing exhibits for the Monument; or

13 (6) developing the general management plan  
14 under subsection (c).

15 (e) USE OF NON-FEDERAL FUNDS.—Non-Federal  
16 funds may be used to pay any costs that may be incurred  
17 by the Secretary or the National Park Service in carrying  
18 out this section.

19 (f) EFFECT ON ELIGIBILITY FOR FINANCIAL ASSIST-  
20 ANCE.—Nothing in this title affects the eligibility of the  
21 Monument for Federal grants or other forms of financial  
22 assistance that the Monument would have been eligible to  
23 apply for had National Park System status not been con-  
24 ferred to the Monument under this title.

1 (g) TERMINATION OF NATIONAL PARK SYSTEM STA-  
2 TUS.—

3 (1) IN GENERAL.—Designation of the Monu-  
4 ment as a unit of the National Park System shall  
5 terminate if the Secretary determines that Federal  
6 funds are required to operate and maintain the  
7 Monument.

8 (2) REVERSION.—If the designation of the  
9 Monument as a unit of the National Park System is  
10 terminated under paragraph (1), any land acquired  
11 by the Secretary from the City under subsection  
12 (b)(2) shall revert to the City.

13 (h) PRIVATE PROPERTY PROTECTION.—No private  
14 property may be made part of the Monument without the  
15 written consent of the owner of that private property.

16 **SEC. 506. NO BUFFER ZONES.**

17 Nothing in this title, the establishment of national  
18 monument, or the management plan shall be construed  
19 create buffer zones outside of the national monument.  
20 That an activity or use can be seen or heard from within  
21 the Monument shall not preclude the conduct of that activ-  
22 ity or use outside the Monument.

1       **TITLE VI—NORTH CASCADES**  
2               **NATIONAL PARK ACCESS**

3   **SEC. 601. FINDINGS.**

4       Congress finds as follows:

5               (1) In 1988, 93 percent of the North Cascades  
6       National Park Complex was designated the Stephen  
7       Mather Wilderness.

8               (2) A road corridor was deliberately excluded  
9       from the wilderness designation to provide for the  
10       continued use and maintenance of the upper  
11       Stehekin Valley Road.

12              (3) The upper Stehekin Valley Road provides  
13       access to Stephen Mather Wilderness trailheads and  
14       North Cascades National Park from the Lake Che-  
15       lan National Recreation Area.

16              (4) Record flooding in 1995 and again in 2003  
17       caused severe damage to the upper Stehekin Valley  
18       Road and led to the closure of a 9.9-mile section of  
19       the road between Car Wash Falls and Cottonwood  
20       Camp.

21              (5) The National Park Service currently does  
22       not have the flexibility to rebuild the upper Stehekin  
23       Valley Road away from the Stehekin River due to  
24       the current location of the non-wilderness road cor-  
25       ridor provided by Congress in 1988.

1           (6) It is a high priority that the people of the  
2           United States, including families, the disabled, and  
3           the elderly, have reasonable access to the National  
4           Parks system and their public lands.

5           (7) The 1995 Lake Chelan National Recreation  
6           Area General Management Plan calls for retaining  
7           vehicle access to Cottonwood Camp.

8           (8) Tourism associated with the North Cas-  
9           cades National Park Complex is an important part  
10          of the economy for rural communities in the area.

11          (9) Additional management flexibility would  
12          allow the National Park Service to consider reten-  
13          tion of the upper Stehekin Valley Road in a manner  
14          that provides for no net loss of wilderness.

15 **SEC. 602. AUTHORIZATION FOR BOUNDARY ADJUSTMENTS.**

16          The Washington Park Wilderness Act of 1988 (Pub-  
17          lic Law 100–668) is amended by inserting after section  
18          206 the following:

19 **“SEC. 207. BOUNDARY ADJUSTMENTS FOR ROAD.**

20          “(a) IN GENERAL.—The Secretary may adjust the  
21          boundaries of the North Cascades National Park and the  
22          Stephen Mather Wilderness in order to provide a 100-foot-  
23          wide corridor along which the Stehekin Valley Road may  
24          be rebuilt—

1           “(1) outside of the floodplain between milepost  
2           12.9 and milepost 22.8;

3           “(2) within the boundaries of the North Cas-  
4           cades National Park; and

5           “(3) outside of the boundaries of the Stephen  
6           Mather Wilderness.

7           “(b) NO NET LOSS OF LANDS.—The boundary ad-  
8           justments made under this section shall be such that equal  
9           acreage amounts are exchanged between the Stephen  
10          Mather Wilderness and the North Cascades National  
11          Park, resulting in no net loss of acreage to either the Ste-  
12          phen Mather Wilderness or the North Cascades National  
13          Park.”.

14       **TITLE VII—ENDANGERED SALM-**  
15       **ON AND FISHERIES PREDA-**  
16       **TION PREVENTION ACT**

17       **SEC. 701. SHORT TITLE.**

18          This title may be cited as the “Endangered Salmon  
19          and Fisheries Predation Prevention Act”.

20       **SEC. 702. FINDINGS.**

21          The Congress finds the following:

22               (1) There are 13 groups of salmon and  
23               steelhead that are listed as threatened species or en-  
24               dangered species under the Endangered Species Act

1 of 1973 that migrate through the lower Columbia  
2 River.

3 (2) The people of the Northwest United States  
4 are united in their desire to restore healthy salmon  
5 and steelhead runs, as they are integral to the re-  
6 gion's culture and economy.

7 (3) The Columbia River treaty tribes retain im-  
8 portant rights with respect to salmon and steelhead.

9 (4) Federal, State, and tribal governments have  
10 spent billions of dollars to assist the recovery of Co-  
11 lumbia River salmon and steelhead populations.

12 (5) One of the factors impacting salmonid pop-  
13 ulations is increased predation by marine mammals,  
14 including California sea lions.

15 (6) The population of California sea lions has  
16 increased 6-fold over the last 3 decades, and is cur-  
17 rently greater than 250,000 animals.

18 (7) In recent years, more than 1,000 California  
19 sea lions have been foraging in the lower 145 miles  
20 of the Columbia River up to Bonneville Dam during  
21 the peak spring salmonid run before returning to the  
22 California coast to mate.

23 (8) The percentage of the spring salmonid run  
24 that has been eaten or killed by California sea lions  
25 at Bonneville Dam has increased 7-fold since 2002.

1           (9) In recent years, California sea lions have  
2 with greater frequency congregated near Bonneville  
3 Dam and have entered the fish ladders.

4           (10) These California sea lions have not been  
5 responsive to extensive hazing methods employed  
6 near Bonneville Dam to discourage this behavior.

7           (11) The process established under the 1994  
8 amendment to the Marine Mammal Protection Act  
9 of 1972 to address aggressive sea lion behavior is  
10 protracted and will not work in a timely enough  
11 manner to protect threatened and endangered  
12 salmonids in the near term.

13           (12) In the interest of protecting Columbia  
14 River threatened and endangered salmonids, a tem-  
15 porary expedited procedure is urgently needed to  
16 allow removal of the minimum number of California  
17 sea lions as is necessary to protect the passage of  
18 threatened and endangered salmonids in the Colum-  
19 bia River and its tributaries.

20           (13) On December 21, 2010, the independent  
21 Pinniped-Fishery Interaction Task Force rec-  
22 ommended lethally removing more of the California  
23 sea lions in 2011.

24           (14) On August 18, 2011, the States of Wash-  
25 ington, Oregon, and Idaho applied to the National

1 Marine Fisheries Service, under section  
2 120(b)(1)(A) of the Marine Mammal Protection Act  
3 of 1972 (16 U.S.C. 1389(b)(1)(A)), for the lethal re-  
4 moval of sea lions that the States determined are  
5 having a “significant negative impact” on the recov-  
6 ery of Columbia River and Snake River salmon and  
7 steelhead.

8 (15) On September 12, 2011, the National Ma-  
9 rine Fisheries Service announced it was accepting  
10 the States’ application for lethal removal of sea lions  
11 and that it would reconvene the Pinniped-Fishery  
12 Interaction Task Force to consider the States’ appli-  
13 cation. This title will ensure the necessary authority  
14 for permits under the Marine Mammal Protection  
15 Act of 1972 to be issued in a timely fashion.

16 (16) During a June 14, 2011, hearing, the  
17 Committee on Natural Resources of the House of  
18 Representatives received testimony from State and  
19 tribal witnesses expressing concern that significant  
20 pinniped predation of important Northwest fish re-  
21 sources other than salmonids is severely impacting  
22 fish stocks determined by both Federal and State  
23 fishery management agencies to be at low levels of  
24 abundance, and that this cannot be addressed by  
25 section 120 of the Marine Mammal Protection Act

1 of 1972 (16 U.S.C. 1389), which as in effect before  
2 the enactment of this Act restricted control of preda-  
3 tory pinnipeds' impact only with respect to endan-  
4 gered salmonids.

5 **SEC. 703. TAKING OF SEA LIONS ON THE COLUMBIA RIVER**  
6 **AND ITS TRIBUTARIES TO PROTECT ENDAN-**  
7 **GERED AND THREATENED SPECIES OF SALM-**  
8 **ON AND OTHER NONLISTED FISH SPECIES.**

9 Section 120 of the Marine Mammal Protection Act  
10 of 1972 (16 U.S.C. 1389) is amended by striking sub-  
11 section (f) and inserting the following:

12 “(f) TEMPORARY MARINE MAMMAL REMOVAL AU-  
13 THORITY ON THE WATERS OF THE COLUMBIA RIVER OR  
14 ITS TRIBUTARIES.—

15 “(1) REMOVAL AUTHORITY.—Notwithstanding  
16 any other provision of this Act, the Secretary may  
17 issue a permit to an eligible entity authorizing the  
18 intentional lethal taking on the waters of the Colum-  
19 bia River and its tributaries of sea lions that are  
20 part of a healthy population that is not listed as an  
21 endangered species or threatened species under the  
22 Endangered Species Act of 1973 (16 U.S.C. 1531 et  
23 seq.), to protect endangered and threatened species  
24 of salmon and other nonlisted fish species.

25 “(2) PERMIT PROCESS.—

1           “(A) IN GENERAL.—An eligible entity may  
2           apply to the Secretary for a permit under this  
3           subsection.

4           “(B) DEADLINE FOR CONSIDERATION OF  
5           APPLICATION.—The Secretary shall approve or  
6           deny an application for a permit under this sub-  
7           section by not later than 30 days after receiving  
8           the application.

9           “(C) DURATION OF PERMIT.—A permit  
10          under this subsection shall be effective for no  
11          more than one year after the date it is issued,  
12          but may be renewed by the Secretary.

13          “(3) LIMITATIONS.—

14                 “(A) LIMITATION ON PERMIT AUTHOR-  
15                 ITY.—Subject to subparagraph (B), a permit  
16                 issued under this subsection shall not authorize  
17                 the lethal taking of more than 10 sea lions dur-  
18                 ing the duration of the permit.

19                 “(B) LIMITATION ON ANNUAL TAKINGS.—  
20                 The cumulative number of sea lions authorized  
21                 to be taken each year under all permits in ef-  
22                 fect under this subsection shall not exceed one  
23                 percent of the annual potential biological re-  
24                 moval level.

1           “(4) DELEGATION OF PERMIT AUTHORITY.—  
2           Any eligible entity may delegate to any other eligible  
3           entity the authority to administer its permit author-  
4           ity under this subsection.

5           “(5) NEPA.—Section 102(2)(C) of the Na-  
6           tional Environmental Policy Act of 1969 (42 U.S.C.  
7           4332(2)(C)) shall not apply with respect to this sub-  
8           section and the issuance of any permit under this  
9           subsection during the 5-year period beginning on the  
10          date of the enactment of this subsection.

11          “(6) SUSPENSION OF PERMITTING AUTHOR-  
12          ITY.—If, 5 years after enactment, the Secretary,  
13          after consulting with State and tribal fishery man-  
14          agers, determines that lethal removal authority is no  
15          longer necessary to protect salmonid and other fish  
16          species from sea lion predation, may suspend the  
17          issuance of permits under this subsection.

18          “(7) ELIGIBLE ENTITY DEFINED.—In this sub-  
19          section, the term ‘eligible entity’ means each of the  
20          State of Washington, the State of Oregon, the State  
21          of Idaho, the Nez Perce Tribe, the Confederated  
22          Tribes of the Umatilla Indian Reservation, the Con-  
23          federated Tribes of the Warm Springs Reservation  
24          of Oregon, the Confederated Tribes and Bands of

1 the Yakama Nation, and the Columbia River Inter-  
2 Tribal Fish Commission.”.

3 **SEC. 704. SENSE OF CONGRESS.**

4 It is the sense of the Congress that—

5 (1) preventing predation by sea lions, recovery  
6 of listed salmonid stocks, and preventing future list-  
7 ings of fish stocks in the Columbia River is a vital  
8 priority;

9 (2) permit holders exercising lethal removal au-  
10 thority pursuant to the amendment made by this  
11 title should be trained in wildlife management; and

12 (3) the Federal Government should continue to  
13 fund lethal and nonlethal removal measures for pre-  
14 venting such predation.

15 **SEC. 705. TREATY RIGHTS OF FEDERALLY RECOGNIZED IN-  
16 DIAN TRIBES.**

17 Nothing in this title or the amendment made by this  
18 title shall be construed to affect or modify any treaty or  
19 other right of any federally recognized Indian tribe.

3 **CY LIBRARY GROUP FOREST**  
4 **RECOVERY ACT**

5 **SEC. 801. REAUTHORIZATION OF HERGER-FEINSTEIN QUIN-**  
6 **CY LIBRARY GROUP FOREST RECOVERY ACT.**

7 (a) EXTENSION.—Subsection (g) of the Herger-Fein-  
8 stein Quincy Library Group Forest Recovery Act (title IV  
9 of the Department of the Interior and Related Agencies  
10 Appropriations Act, 1999, as contained in section 101(e)  
11 of division A of Public Law 105–277; 16 U.S.C. 2104  
12 note) is amended to read as follows:

13 “(g) TERM OF PILOT PROJECT.—

14 “(1) IN GENERAL.—The Secretary shall con-  
15 duct the pilot project until the earlier of the fol-  
16 lowing:

17 “(A) September 30, 2022.

18 “(B) The date on which the Secretary  
19 completes amendment or revision of the land  
20 and resource management plans for the Na-  
21 tional Forest System lands included in the pilot  
22 project area.

23 “(2) FOREST PLAN AMENDMENTS.—When the  
24 Regional Forester for Region 5 initiates the process  
25 to amend or revise the land and resource manage-

1       ment plans for the pilot project area, the process  
2       shall include preparation of at least one alternative  
3       that incorporates the pilot project and area designa-  
4       tions under subsection (b), the resource management  
5       activities described in subsection (d), and other as-  
6       pects of the Quincy Library Group Community Sta-  
7       bility Proposal.”.

8       (b) EXPANSION OF PILOT PROJECT AREA.—Sub-  
9       section (b) of the Herger-Feinstein Quincy Library Group  
10      Forest Recovery Act is amended by adding at the end the  
11      following new paragraph:

12             “(3) EXPANSION OF PILOT PROJECT AREA.—  
13             The Secretary may expand the pilot project area to  
14             include all National Forest System lands within  
15             California or Nevada that lie within the Sierra Ne-  
16             vada and Cascade Province, Lake Tahoe Basin Man-  
17             agement Unit, Humboldt-Toiyabe National Forest,  
18             and Inyo National Forest. These lands may be man-  
19             aged using the same strategy, guidelines and re-  
20             source management activities outlined in this section  
21             or developed to meet local forest and community  
22             needs and conditions.”.

23      (c) ROADLESS AREA PROTECTION.—Subsection  
24      (c)(4) of the Herger-Feinstein Quincy Library Group For-  
25      est Recovery Act is amended by adding at the end the

1 following new sentence: “However, those areas designated  
2 as ‘Deferred’ on the map, but located in Tehama County,  
3 south and west of Lassen Peak, are deemed to be des-  
4 ignated as ‘Available for Group Selection’ and shall be  
5 managed accordingly under subsection (d).”.

6 (d) GROUP SELECTION REQUIREMENT.—Subpara-  
7 graph (A) of subsection (d)(2) of the Herger-Feinstein  
8 Quincy Library Group Forest Recovery Act is amended  
9 to read as follows:

10 “(A) GROUP SELECTION.—After Sep-  
11 tember 30, 2012, group selection on an average  
12 acreage of .57 percent of the pilot project area  
13 land shall occur each year of the pilot project.”.

14 **TITLE IX—YERINGTON LAND**  
15 **CONVEYANCE AND SUSTAIN-**  
16 **ABLE DEVELOPMENT ACT**

17 **SEC. 901. SHORT TITLE.**

18 This title may be cited as the “Yerington Land Con-  
19 veyance and Sustainable Development Act”.

20 **SEC. 902. FINDINGS.**

21 Congress finds that—

22 (1) the city of Yerington, Nevada, which has an  
23 unemployment rate of 16 percent, has the highest  
24 unemployment rate in the State of Nevada;

1           (2) for over 4 years, the city of Yerington and  
2           Lyon County, Nevada, have been working with pri-  
3           vate business partners to develop a sustainable de-  
4           velopment plan that would enable all parties to ben-  
5           efit from the use of private land adjacent to the city  
6           of Yerington for potential commercial and industrial  
7           development, mining activities, recreation opportuni-  
8           ties, and the expansion of community and cultural  
9           events;

10           (3) the sustainable development plan referred to  
11           in paragraph (2) requires the conveyance of certain  
12           Federal land administered by the Bureau of Land  
13           Management to the City for consideration in an  
14           amount equal to the fair market value of the Fed-  
15           eral land;

16           (4) the Federal land to be conveyed to the City  
17           under the sustainable development plan has very few  
18           environmental, historical, wildlife, or cultural re-  
19           sources of value to the public, but is appropriate for  
20           responsible development;

21           (5) the Federal land that would be conveyed to  
22           the City under the sustainable development plan—

23                   (A) is adjacent to the boundaries of the  
24           City; and

25                   (B) would be used—

1 (i) to enhance recreational, cultural,  
2 commercial, and industrial development op-  
3 portunities in the City;

4 (ii) for future economic development,  
5 regional use, and as an open space buffer  
6 to the City; and

7 (iii) to allow the City to provide crit-  
8 ical infrastructure services;

9 (6) commercial and industrial development of  
10 the Federal land would enable the community to  
11 benefit from the transportation, power, and water  
12 infrastructure that would be put in place with the  
13 concurrent development of commercial and industrial  
14 operations;

15 (7) the conveyance of the Federal land would—

16 (A) help the City and County to grow; and

17 (B) provide additional tax revenue to the  
18 City and County;

19 (8) industrial and commercial development of  
20 the Federal land would create thousands of long-  
21 term, high-paying jobs for the City and County; and

22 (9) the Lyon County Commission and the City  
23 unanimously approved resolutions in support of the  
24 conveyance of the Federal land because the convey-

1 equal to the fair market value of the Federal land, all  
2 right, title, and interest of the United States in and to  
3 the Federal land identified on the map.

4 (b) APPRAISAL TO DETERMINE OF FAIR MARKET  
5 VALUE.—The Secretary shall determine the fair market  
6 value of the Federal land to be conveyed—

7 (1) in accordance with the Federal Land Policy  
8 and Management Act of 1976 (43 U.S.C. 1701 et  
9 seq.); and

10 (2) based on an appraisal that is conducted in  
11 accordance with nationally recognized appraisal  
12 standards, including—

13 (A) the Uniform Appraisal Standards for  
14 Federal Land Acquisition; and

15 (B) the Uniform Standards of Professional  
16 Appraisal Practice.

17 (c) AVAILABILITY OF MAP.—The map shall be on file  
18 and available for public inspection in the appropriate of-  
19 fices of the Bureau of Land Management.

20 (d) APPLICABLE LAW.—Beginning on the date on  
21 which the Federal land is conveyed to the City, the devel-  
22 opment of and conduct of activities on the Federal land  
23 shall be subject to all applicable Federal laws (including  
24 regulations).

1 (e) ADMINISTRATIVE COSTS.—The City shall be re-  
2 sponsible for all survey, appraisal, and other administra-  
3 tive costs associated with the conveyance of the Federal  
4 land to the City under this title.
