INTRODUCTION

Committees have indicated their interest in having a list of budget-related expiring legislation in their areas of jurisdiction as an aid in preparing their March 15 reports to the House Budget Committee. We have, therefore, asked the Congressional Budget Office to prepare the attached list. It covers the period between January 1, 1977 and September 30, 1978, i.e., the last three quarters of fiscal year 1977 and all of fiscal year 1978.

The March 15 report instructions distributed by the House Budget Committee contain a more limited list of items which the January 1977 Presidential budget identifies as requiring reauthorizations for fiscal year 1978. Expiring authorizations which President Ford did not propose for renewal do not appear on that list, but should appear on the more comprehensive list included here. Where committees plan additional reauthorizations beyond those listed in the attachments to the March 15 report instructions (Format I), they should be described as committee initiatives (Format IV) in the March 15 report.

The information in this list is based upon data compiled by the American Law Division (ALD) of the Congressional Research Service. The ALD has analyzed each public law adopted over approximately the last ten years to identify all expiring sections. Using this information, CBO determined which of the laws have budgetary impact and matched these expiring authorizations to the accounts in the fiscal year 1978 budget. The data were entered into the CBO Legislative Classification System and arranged by committee to prepare the attached list.

Annual appropriations and laws pertaining to the termination of various temporary commissions were not included. For technical reasons, certain regularly recurring annual authorization bills which do not specify expiration dates were omitted from the list (e.g., Military Construction, NASA). If questions arise on these items or if errors are noted, please contact Benson J. Simon (ext. 57252) of the House Budget Committee staff.
