PREFACE

This revised committee print has been prepared by the Committee on Rules and Administration to assist Senate committee members and staff personnel in arriving at their budget recommendations for the next committee funding year, and in preparing the supporting materials which will be required by this committee. The fiscal year for expenditure authorizations will be the 12-month period from March 1, 1981, through February 28, 1982.

Pursuant to paragraph 9 of rule XXVI of the Standing Rules of the Senate, each Senate committee, excluding the Select Committee on Ethics, must report a resolution authorizing it to make expenditures to meet its expenses. The resolution must be reported to the Senate not later than January 31. The only exception to this requirement would be in the event that committee members are not designated by January 20, in which case committees would have 30 days from the actual designation date to report such resolutions.

In 1980, the Senate agreed to fundamental changes in committee budgeting procedure recommended unanimously by the Rules Committee membership. These changes were enthusiastically supported by the committee in order to simplify committee and disbursing office accounting, enable the funding levels of committees to be easily compared, and enable the full Senate to review and approve the entire budget of its committees every year.

This new procedure must be followed in preparing individual committee resolutions and supporting materials for the next fiscal year. In recent years, Senate standing committees, the Select Committee on Small Business, and the Special Committee on Aging were authorized by statutes at least 12 staff positions, $10,000 per Congress for general administrative expenses, and a $300 per Congress stationery allowance. These statutory authorizations were repealed by Senate Resolution 281 and section 112 of Public Law 96–304, 96th Congress (effective as of the close of Feb. 28, 1981). Beginning March 1, 1981, committees must budget in their annual resolution for *all* expenses anticipated for the fiscal year.

Part I of this committee print provides Senate committees with detailed information on the requirements for expenditure authorizations for the funding year beginning March 1, 1981. Included are sample resolutions and budget forms, regulations in respect to procurement of consultants and the training of professional staff members, and rates of compensation for staffs of Senate committees which were effective October 1, 1980, pursuant to the Order of the President pro tempore of that date.

Part II lists all funds authorized by the Senate from the 83d through the 96th Congresses for inquiries and investigations by Senate committees. Included are the annual and any supplemental expendi-

ture authorizations for Senate standing, select, and special committees, and any joint committees or commissions authorized to make expenditures from the contingent fund of the Senate.

Budgets, supporting materials, and questionnaires.—(1) Committee budgets and questionnaires should be prepared on the standard forms obtainable from the Rules Committee offices; (2) an original and 30 legible duplicate copies of the budget, supporting letter, and questionnaire should be submitted to the Rules Committee at the earliest possible date; (3) the supporting letter should, when feasible, be signed jointly by the chairman and the ranking minority member of the committee; and (4) the questionnaire should be signed jointly by the chairman and ranking minority member or by the staff director and minority staff director of the committee, unless the minority does not concur with the information supplied therein.

Consultants and training.—Any committee desiring authority and funds to hire consultants or to train its professional staff must include appropriate language therefor in its annual resolution. In respect to consultants for a committee, it should be duly noted that the selection of the same must be done jointly by the chairman and the ranking minority member thereof. Also, the Rules Committee must receive five days' advance notice of the intention to appoint in order to consider the request.

Supplemental expenditure resolutions.—While not pertinent at this time, it is important for committees which may eventually seek supplemental funds to be aware of and to comply with the provision that a supplemental resolution must have an accompanying report expressing the reason the funds then requested had not been requested in the committee's annual resolution. This provision is fully explained in the chapter entitled "Supplemental Expenditure Authorizations". (See p. 7.)

Select, special, and joint committees.—In respect to select and special committees of the Senate, and joint committees financed by the Senate, the Committee on Rules and Administration has determined that the procedures and regulations set forth in this document will apply to such committees where appropriate and feasible.

We remind all Senate committee chairmen that if the Senate organizes promptly, the 1981 annual expenditure-authorization resolutions must be reported no later than January 31, 1981. Committees are urged to submit their budgets, supporting materials, and questionnaires to the Rules Committee at the earliest possible date, since it is the Committee's intention to schedule these resolutions as one of its first orders of business.

The cooperation of all involved Members and staff personnel in expediting this procedure will be deeply appreciated. If the Members or staff of the Committee on Rules and Administration can be of any assistance, please do not hesitate to call upon us.

CLAIBORNE PELL,
Chairman.

MARK O. HATFIELD,
Ranking Minority Member,
Committee on Rules and Administration.

RULES, STATUTES, PROCEDURES, AND REGULATIONS

ANNUAL EXPENDITURE AUTHORIZATIONS

Committees of the Senate must request their operating funds for investigative year 1981 (Mar. 1, 1981–Feb. 28, 1982) pursuant to the procedure set forth in paragraph 9 of rule XXVI of the Standing Rules of the Senate, as amended by Senate Resolution 281, 96–2, agreed to March 11, 1980 (effective January 1, 1981). Essentially, the requirement is that each committee must report one annual authorization resolution authorizing it to make expenditures out of the contingent fund of the Senate to defray its expenses, including the compensation of all members of its staff ("permanent" and "temporary") and agency contributions related to such compensation, and all administrative expenses. Funds in addition to and for the same purposes as those obtained pursuant to an annual resolution, must be obtained by *supplemental* expenditure-authorization resolutions (see following chapter).

Authority

That portion of paragraph 9 which relates only to annual resolutions is as follows:

Paragraph 9 of Rule XXVI of the Standing Rules of the Senate

9. Each committee shall report one authorization resolution each year authorizing the committee to make expenditures out of the contingent fund of the Senate to defray its expenses, including the compensation of members of its staff and agency contributions related to such compensation, during the period beginning on March 1 of such year and ending on the last day of February of the following year. Such annual authorization resolution shall be reported no later than January 31 of each year, except that, whenever the designation of members of standing committees of the Senate occurs during the first session of a Congress at a date later than January 20, such resolution may be reported at any time within thirty days after the date on which the designation of such members is completed. * * *

Fiscal Year for Expenditure Authorizations

The fiscal year for expenditure authorizations runs from March 1 through February 28 (29) of the succeeding year. This 12-month period, with an overlap of two months into a new calendar year, has been established by the Committee on Rules and Administration in

order to give the Senate sufficient time at the commencement of each new session to accommodate the several steps in the required procedure.

Submission Date for Annual Resolutions

Annual expenditure-authorization resolutions must be offered by Senate committees not later than January 31 of each year. The only exception obtains when during the first session of a Congress the designation of the members of standing committees occurs later than January 20. In such case the resolution must be offered within 30 days of the date on which the members of a committee have been designated.

Format of Annual Resolutions

In the composition of their annual resolutions, Senate standing committees are required to follow, with any necessary modifications, the sample Resolution Form 1 reproduced at the end of this chapter (page 4). This form is to be used by standing committees requesting funds for expenditures, with or without funds for the procurement of consultants or the training of professional staff.

Select and special committees should submit resolutions which conform with the provisions of their respective creative resolution. (Confer with the Senate Legislative Counsel.)

Provision for Consultants and Staff Training

Committees anticipating the need for consultants or considering training for certain of their professional staff members should note that the authority and funds for those purposes must be expressed in the text of their annual authorization resolutions. The sample resolution form described above is designed to accommodate requests for funds for those purposes.

Committees which do seek funds for either or both of those purposes should note carefully the regulations on procurement of consultants (page 13) and on training of professional staff (page 21), which constitute separate chapters of this compilation.

Provisions for Minority Staff

Minority participation in the appointment of committee personnel pursuant to annual or supplemental resolutions is provided for in paragraphs 1–3 of rule XXVII of the Standing Rules, as amended by Senate Resolution 281, 96–2, agreed to March 11, 1980 (effective as of the close of February 28, 1981).

The text of paragraphs 1–3 of rule XXVII is as follows:

Paragraphs 1–3 of Rule XXVII of the Standing Rules of the Senate

1. Staff members appointed to assist minority members of committees pursuant to authority of a resolution described in paragraph 9 of rule XXVI or other Senate resolution shall be accorded equitable treatment with respect to the

fixing of salary rates, the assignment of facilities, and the accessibility of committee records.

2. The minority shall receive fair consideration in the appointment of staff personnel pursuant to authority of a resolution described in paragraph 9 of rule XXVI.

3. The staffs of committees (including personnel appointed pursuant to authority of a resolution described in paragraph 9 of rule XXVI of other Senate resolution) should reflect the relative number of majority and minority members of committees. A majority of the minority members of any committee may, by resolution, request that at least one-third of all funds of the committee for personnel (other than those funds determined by the chairman and ranking minority member to be allocated for the administrative and clerical functions of the committee as a whole) be allocated to the minority members of such committee for compensation of minority staff as the minority members may decide. The committee shall thereafter adjust its budget to comply with such resolution. Such adjustment shall be equitably made over a four-year period, commencing July 1, 1977, with not less than one-half being made in two years. Upon request by a majority of the minority members of any committee by resolution, proportionate space, equipment, and facilities shall be provided for such minority staff.

Budgets and Supporting Materials

Senate committees offering annual expenditure resolutions are required to submit to the Committee on Rules and Administration accompanying budgets together with supporting materials, in the form of letters or memorandums. All submissions should be in the form of an *original* and *thirty legible duplicate* copies.

Budgets.—The budgets should be prepared on standardized budget forms obtainable from the Rules Committee offices.

Supporting materials.—It is suggested by the Committee on Rules and Administration that, when feasible, supporting letters or memorandums be signed jointly by the *chairman and ranking minority member* of requesting committees.

Questionnaires.—The completed questionnaires should, when feasible, be signed jointly by the *chairman and ranking minority member* or by the *staff director and minority staff director* of the committee, unless the minority does not concur with the information supplied therein.

SUPPLEMENTAL EXPENDITURE AUTHORIZATIONS

Any committees of the Senate requiring funds in addition to those authorized in their annual expenditure-authorization resolutions may request such additional funds pursuant to the procedure set forth in paragraph 9 of rule XXVI of the Standing Rules. Essentially, a supplemental expenditure authorization must be in the form of a resolution amending an annual expenditure-authorization resolution, and must be accompanied by a report stating why the funds now sought were not included in the committee's annual request.

Authority

That portion of paragraph 9 which relates to supplemental expenditure authorizations is as follows:

PARAGRAPH 9 OF RULE XXVI OF THE STANDING RULES OF THE SENATE

> 9. * * * After the annual authorization resolution of a committee for a year has been agreed to, such committee may procure authorization to make additional expenditures out of the contingent fund of the Senate during that year only by reporting a supplemental authorization resolution. Each supplemental authorization resolution reported by a committee shall amend the annual authorization resolution of such committee for that year and shall be accompanied by a report specifying with particularity the purpose for which such authorization is sought and the reason why such authorization could not have been sought at the time of the submission by such committee of its annual authorization resolution for that year.

Accompanying Report Required

Senate committees intending to offer supplemental expenditure-authorization resolutions should note carefully that they must comply with the following requirements stipulated in paragraph 9 of rule XXVI:

(1) Each supplemental resolution reported by a committee must be accompanied by a report to the Senate; and

(2) Each such report must specify with particularity the *purpose* for which the authorization is sought, and the *reason* it was not sought in the committee's annual authorization resolution.

REGULATIONS GOVERNING PROCUREMENT OF CONSULTANTS BY SENATE COMMITTEES

(Restatement of Policy Determinations by the Committee on Rules and Administration)

Statutory Authority

The procedures and conditions under which standing committees of the Senate may procure the services of individual consultants or organizations thereof are set forth in section 202(i) of the Legislative Reorganization Act of 1946, the text of which is as follows:

Section 202(i) of the Legislative Reorganization Act of 1946

(2 U.S.C. 72a)

(i)(1) Each standing committee of the Senate or House of Representatives is authorized, with the approval of the Committee on Rules and Administration in the case of standing committees of the Senate, or the Committee on House Administration in the case of standing committees of the House of Representatives, within the limits of funds made available from the contingent funds of the respective Houses pursuant to resolutions, which shall specify the maximum amounts which may be used for such purposes, approved by such respective Houses, to procure the temporary services (not in excess of one year) or intermittent services of individual consultants, or organizations thereof, to make studies or advise the committee with respect to any matter within its jurisdiction.

(2) Such services in the case of individuals or organizations may be procured by contract as independent contractors, or in the case of individuals by employment at daily rates of compensation not in excess of the per diem equivalent to the highest gross rate of compensation which may be paid to a regular employee of the committee. Such contracts shall not be subject to the provisions of section 3709 of the Revised Statutes (41 U.S.C. 5) or any other provision of law requiring advertising.

(3) With respect to the standing committees of the Senate, any such consultant or organization shall be selected by the chairman and ranking minority member of the committee, acting jointly. With respect to the standing committees of the House of Representatives, the standing committee concerned

shall select any such consultant or organization. The committee shall submit to the Committee on Rules and Administration in the case of standing committees of the Senate, and the Committee on House Administration in the case of standing committees of the House of Representatives, information bearing on the qualifications of each consultant whose services are procured pursuant to this subsection, including organizations, and such information shall be retained by that committee and shall be made available for public inspection upon request.[1]

---

[1] As added, Sec. 303 of Pub. Law 91–510, 84 Stat. 1179, Oct. 26, 1970.

Definition of "Consultant"

For the purposes of section 202(i), the term "consultant" shall be deemed to be a person (or an organization of persons) possessing the necessary professional qualifications and experience to assist a Senate committee in specialized areas of its legislative responsibility.

Prerequisite for Procurement

Any Senate committee desiring to procure the services of individual consultants or of organizations thereof must first seek and obtain the required authority therefor by including within its annual or supplemental expenditure-authorization resolution an express limitation on the amount of the committee's total funding in such resolution which may be used for that purpose. A committee may not exceed that limitation for the procurement of consultants, but it may utilize unexpended funds within that limitation for other authorized purposes.

Selection of Consultants

Paragraph (3) of section 202(i) contains the stipulation that "any such consultant or organization shall be selected by the chairman and ranking minority member of the committee, acting jointly". Senate committees are requested to indicate their compliance with the above provision of law by providing that any required correspondence with the Committee on Rules and Administration (see below) be in the form of letters signed jointly by the chairman and ranking minority member of the full committee.

Rules Committee Responsibility

Section 202(i) also requires (1) that Senate committees desiring to appoint individual consultants to committee payrolls or to procure the services of individuals or organizations by contract as independent contractors must provide the Committee on Rules and Administration information bearing on the qualifications of each consultant or contractor; and (2) that such information be retained by the Committee on Rules and Administration and made available for public inspection upon request.

To assist the Committee on Rules and Administration in considering requests for consultants. letters from committees should equate (1) the proposed consultant's particular qualifications with the specialized area the committees plan to explore. (2) the probable time period the consultant's services will be required, (3) the correlation between the proposed consultant's qualifications and the specific committee activity, and (4) the per day consultant fee proposed to be paid.

Methods of Procurement

Any Senate committee possessing the required authority therefor may procure the services of consultants—

(1) by appointing individual consultants as temporary committee employees (at daily rates of compensation not exceeding the highest such rate which may be paid to a regular committee employee); or

(2) by entering into contracts—

(a) between the full committee and individual consultants as individual contractors, or

(b) between the full committee and organizations of consultants.

Appointment of Individual Consultants

The notification of the committee's intention to appoint an individual consultant to its staff and the information concerning the qualifications of the proposed consultant must be received by the Committee on Rules and Administration *five days in advance* of the appointment date. If during that period the requesting committee receives no notice of disapproval from the Rules Committee, the appointment shall be deemed approved.

Requests to the Committee on Rules and Administration for such approval may be expressed as in the following sample letter:

Honorable ————————;
Chairman, Committee on Rules and Administration,
Room 305, Russell Senate Office Building, Washington, D.C. 20510

Dear Mr. Chairman:

In conformity with section 202(i) of the Legislative Reorganization Act of 1946. as amended, and your regulations pursuant thereto. we are notifying you herewith of the intention of the Committee on ———————— to appoint ———————— as a consultant, effective ————————, and enclose the required information in respect to his/her qualifications.

70-353 O - 81 - 4

[Include data requested in section entitled "Rules Committee Responsibility", pp. 14–15 of this compilation.]

This appointment is made under the authority of S. Res. ——— (Section No. ——), agreed to ——————————————.

Sincerely yours,

——————————————,
Chairman.

——————————————,
Ranking Minority Member.

A copy of such letter should be addressed to the Financial Clerk of the Senate for his information at the same time the request is submitted to the Committee on Rules and Administration.

Procurement of Consultants by Contract

Information concerning the qualifications of individual consultants or organizations thereof intended to be engaged by contract must likewise be supplied to the Committee on Rules and Administration. and should be submitted at the same time the contract itself is sent for approval.

Letters from full committees, not subcommittees, requesting the Committee on Rules and Administration consideration of contracts should (1) be signed jointly by the chairman and ranking minority member; (2) outline the purpose of the contract, the dollar amount, the term of the contract, and the name of the contracting party; (3) be accompanied by the original and three copies of the contract signed jointly by the chairman and ranking minority member; and (4) include the background data supporting the contractor's qualifications.

The contract itself should set forth in full the obligations of the contractor and, where appropriate, incorporate by reference the contractor's detailed proposal.

Contracts (and consultants' qualifications) should be received sufficiently in advance of the contracts' effective date to permit appropriate consideration at a regular meeting of the full Committee on Rules and Administration. When contracts are approved, notice thereof will be given in writing. pursuant to the established practice. Approval of a contract will be deemed to include approval of a consultant's qualifications.

Sample Contracts

The following samples of a *fixed-fee product contract* [1] and a *service contract* [2] are included here to indicate in a general way the type of contract which would be acceptable for the above purpose. In most instances, of course, a form would have to be adapted to the specific needs of a particular committee.

Procedures for Preventing Duplication of Effort Involving Senate Contracts for Private Consultant Studies

(Effective July 23, 1979)

1. The Committee on Rules and Administration will maintain a register of approved contracts on the Senate computer system. The Committee will send the Congressional Research Service updates to the contract file for inclusion in the central index of studies undertaken by the Congressional Budget Office, the Congressional Research Service, the General Accounting Office, and the Office of Technology Assessment.

2. Committees and officers of the Senate considering a study contract will inquire of the Congressional Research Service whether there exist other Senate consultant studies or studies by Congressional staff agencies, underway or completed within the two previous years, which are duplicative, in whole or in part, of the study under consideration. Mr. Edgar Glick, Office of the Director, telephone 287–8924, is the CRS contact person for such inquiries.

3. The Congressional Research Service will research the central index and respond to the inquiry as follows: (a) that no duplicative studies seem to exist; or (b) that a duplicative study seems to exist and the name of the contact person in the committee or the Congressional staff agency who can provide further information. CRS will simultaneously advise the Rules Committee of its findings.

4. Committees and officers of the Senate will include in letters to the Committee on Rules and Administration requesting approval of study contracts a statement that: (a) CRS has been consulted and no duplicative study or data was found to exist, or (b) that a duplicative study or data exists and the differences or other reasons which justify the approval of the study contract.

5. The Congressional Research Service, in response to inquiries which would disclose confidential studies, will advise the inquiring office only that a confidential study exists which appears to be duplicative, and will advise the Committee on Rules and Administration of such additional information as will permit a judgment regarding the merits of approving the requested study contract, including an estimate of when the study would no longer be confidential.

TRAINING OF PROFESSIONAL STAFF

Statutory Authority

Authority for the training of professional staff personnel of standing committees of the Senate is contained in section 202(j) of the Legislative Reorganization Act of 1946. The text of section 202(j) is as follows:

SECTION 202(j) OF THE LEGISLATIVE REORGANIZATION ACT OF 1946

(2 U.S.C. 72a)

(j)(1) Each standing committee of the Senate or House of Representatives is authorized, with the approval of the Committee on Rules and Administration in the case of standing committees of the Senate, and the Committee on House Administration in the case of standing committees of the House of Representatives, and within the limits of funds made available from the contingent funds of the respective Houses pursuant to resolutions, which shall specify the maximum amounts which may be used for such purposes, approved by such respective Houses, to provide assistance for members of its professional staff in obtaining specialized training, whenever that committee determines that such training will aid the committee in the discharge of its responsibilities. Any joint committee of the Congress whose expenses are paid out of funds disbursed by the Secretary of the Senate or by the Clerk of the House, the Committee on Appropriations of the Senate, and the Majority Policy Committee and Minority Policy Committee of the Senate are each authorized to expend, for the purpose of providing assistance in accordance with paragraphs (2), (3), and (4) of this subsection for members of its staff in obtaining such training, any part of amounts appropriated to that committee.[1]

(2) Such assistance may be in the form of continuance of pay during periods of training or grants of funds to pay tuition, fees, or such other expenses of training, or both, as may be approved by the Committee on Rules and Administration or the Committee on House Administration, as the case may be.

---

[1] As added, Sec. 303 of Pub. Law 91–510, 84 Stat. 1179, Oct. 26, 1970.

(3) A committee providing assistance under this subsection shall obtain from any employee receiving such assistance such agreement with respect to continued employment with the committee as the committee may deem necessary to assure that it will receive the benefits of such employee's services upon completion of his training.

(4) During any period for which an employee is separated from employment with a committee for the purpose of undergoing training under this subsection, such employee shall be considered to have performed service (in a nonpay status) as an employee of the committee at the rate of compensation received immediately prior to commencing such training (including any increases in compensation provided by law during the period of training) for the purposes of—

(A) subchapter III (relating to civil service retirement) of chapter 83 of title 5, United States Code,

(B) chapter 87 (relating to Federal employees group life insurance) of title 5, United States Code, and

(C) chapter 89 (relating to Federal employees group health insurance) of title 5, United States Code.[2]

Summary of Essential Requirements

While the provisions of section 202(j) and the regulations issued pursuant thereto by the Committee on Rules and Administration are deemed quite explicit, Senate committees desiring specialized training for any of their professional staff members should especially note the following observations:

(1) As is the case in respect to consultants, committees desiring authority and funds for the training of their professional staffs must include a specific allotment for the same in their annual or supplemental expenditure-authorization resolutions.

(2) That portion of the committee's total funds which is allotted for training may not be exceeded for that purpose. A committee is not precluded, however, from expending funds from that allotment for other authorized purposes.

(3) Approval by the Senate of a resolution containing such a training allotment, however, does not complete the requirements. Specific requests, on an individual basis and in conformity with the regulations which follow below, must be submitted to the Committee on Rules and Administration for final approval.

(4) The Committee on Rules and Administration will consider only those requests for the training of professional staff which do not exceed a period of 30 days.

(5) While the Legislative Reorganization Act of 1970 limited the training privilege to standing committees (except Appropriations), Public Law 92–136 (85 Stat. 378, Oct. 11, 1971) has extended the same privilege to joint committees, to the Senate Appropriations Committee, and to the Senate Majority and Minority Policy Committees.

The regulations issued by the Committee on Rules and Administration in respect to training of professional staff members of Senate committees, including a sample form for the required "Agreement on Continued Employment", are as follows:

Regulations Governing Training of Professional Staff Personnel of Senate Committees

(Adopted by the Committee on Rules and Administration on October 20, 1971; amended July 26, 1979)

Section 202(j) of the Legislative Reorganization Act of 1946, as amended by section 304 of Public Law 91–510, approved October 26. 1970, provides for the expenditure of funds available to standing committees of the Senate for the specialized training of professional staff personnel under certain conditions enumerated therein, including the approval of the Committee on Rules and Administration.

The Committee on Rules and Administration has determined that attendance at conferences, seminars, or briefings by authorized professional staff personnel will not be considered as training under the statutory provisions of section 202(j) when the following conditions apply:

1. The sponsoring organization has been requested to waive or reduce the attendance or registration fee for Government participation;

2. The fee involved (actual or reduced) is not in excess of $100; and

3. The duration of the meeting does not exceed five days.

When all three of the above limitations are met, fees and traveling expenses involved may be incurred by authorized standing committees without specific advance approval of the Committee on Rules and Administration. A fee or time duration for meetings in excess of the aforementioned must be approved in advance by the Committee on Rules and Administration at which time that Committee will determine the classification of the proposed charges as either "training" which requires compliance with all of the provisions of section 202(j), or "non-training".

Under the authority granted to it to supervise staff training, the Committee on Rules and Administration has adopted the following definitions:

1. *Training*

Training means the process of providing for and making available to an employee, and placing or enrolling the employee in, a planned, prepared, and coordinated program, course, curriculum, subject, system, or routine of instruction or education, in scientific, professional, or technical fields which are or will be directly related to the performance by the employee of official duties for the Senate, in order to increase the knowledge, proficiency, ability, skill, and qualifications of the employee in the performance of official duties.

70-353 O - 81 - 5

2. *Training Expenses*

The following will be considered as "Training Expenses":

(*a*) Compensation paid an employee during training periods in excess of 15 days. (Excludes the compensation cost involved in seminar attendance within the two-week range. In these cases, the training expense would be the fees involved and travel expenses incurred, which would be processed on one voucher.)

(*b*) Travel expenses incurred in direct connection with training.

(*c*) Tuition, matriculation and other required fees incident thereto.

(*d*) Such other direct expenses as may be necessary and as approved by the Committee on Rules and Administration.

(*e*) Fund grants, in lieu of actual expenses, as approved by the Committee on Rules and Administration.

The following stipulations shall obtain in respect to agreements on continued employment (section 202(j)(3)):

1. Each request for approval of a training authorization of more than 15 days duration shall be accompanied by a copy of the agreement specifying a continued employment after training period, as required by section 202(j)(3), signed by the employee; and

2. Each such agreement shall contain a warranty by said employee that a repayment of the training expenditure (excluding compensation) on a pro rata basis commensurate with the unexpired portion of the specified continuous employment period will be made by said employee should he leave the Government service prior to the full discharge of his obligation under said agreement. The Committee on Rules and Administration shall be notified immediately of any instance of default.

(A sample form which may be used for such agreement on continued employment is included at the end of these regulations.)

The separation of an employee from a committee for a limited and specified period for the purpose of training, but continuing that employee's benefits as specified by section 202(j)(4), shall also require advance approval of the Committee on Rules and Administration.

A committee desiring to provide assistance for the specialized training of one or more of its professional staff shall submit its request, in writing, to the Committee on Rules and Administration sufficiently in advance of the proposed training date to allow ample time for decision and reply. The requests shall contain complete explanatory details and comply strictly with the requirements of section 202(j) and these regulations.

The Committee on Rules and Administration will consider only those requests for the training of professional staff which do not exceed a period of 30 days.

3. For the purposes of this paragraph, employment with the Committee includes employment with any other department, agency, or establishment of the United States Government with the consent of the Committee.

4. The Committee and the Employee agree that this agreement shall have no effect unless the training expenses referred to in paragraph 1 are approved by the Committee on Rules and Administration of the Senate.

SENATE COMMITTEE STAFFING

Note: The information contained in this chapter relating to the distinction between "permanent" and "temporary" staffs of committees will be effective only through February 28, 1981, and therefore need not be considered in planning for the March 1, 1981–February 28, 1982, budget year. Pursuant to the provisions contained in Senate Resolution 281, 96–2, agreed to March 11, 1980, paragraph 1 of rule XXVII of the Standing Rules was repealed, effective as of the close of February 28, 1981. Thereafter, there will be no distinction between permanent and temporary staffers. Beginning with the 1981 investigative year, all funding for standing, select (excluding the Select Committee on Ethics), and special committees will have to be included in the respective committee's annual expenditure-authorization resolution.

(c)(1) A Senator may designate employees in his office to assist him in connection with his membership on committees of the Senate. An employee may be designated with respect to only one committee.

(2) An employee designated by a Senator under this subsection shall be certified by him to the chairman and ranking minority member of the committee with respect to which such designation is made. Such employee shall be accorded all privileges of a professional staff member (whether permanent or investigatory) of such committee including access to all committee sessions and files, except that any such committee may restrict access to its sessions to one staff member per Senator at a time and require, if classified material is being handled or discussed, that any staff member possess the appropriate security clearance before being allowed access to such material or to discussion of it. Nothing contained in this paragraph shall be construed to prohibit a committee from adopting policies and practices with respect to the application of this subsection which are similar to the policies and practices adopted with respect to the application of section 705 (c)(1) of Senate Resolution 4, 95th Congress, and section 106(c)(1) of the Supplemental Appropriations Act, 1977.

(3) A Senator shall notify the chairman and ranking minority member of a committee whenever a designation of an employee under this subsection with respect to such committee is terminated.

(d) The second sentence of section 105(d)(2) of the Legislative Branch Appropriation Act, 1968, as amended and modified, is amended—

(1) by inserting after "(i)" the following: "the salaries of three employees may be fixed at rates of not more than the rate referred to in subsection (e)(1), (ii)"; and

(2) by striking out "(ii)" and inserting in lieu thereof "(iii)".

The amendments made by this subsection shall have no effect on section 6(c) of the Order of the President pro tempore issued on October 8, 1976, under section 4 of the Federal Pay Comparability Act of 1970.

(e)(1) Section 106 of the Supplemental Appropriations Act, 1977 (other than subsection (f) thereof) is repealed.

(2) As an exercise of the rulemaking power of the Senate, section 705 of Senate Resolution 4, 95th Congress (other than subsection (h) thereof) is repealed.

(f) This section, and the amendments made by subsection (d) and the repeals made by subsection (e), shall take effect on October 1, 1977.

Temporary Staff

Prior to the 1981 investigative year (Mar. 1, 1981–Feb. 28, 1982), Senate committees augmented their permanent staffs by the use of temporary employees, usually authorized for 1 year. Such temporary committee employees were authorized as a consequence of Senate approval of annual or supplemental expenditure authorization resolutions providing its committees with additional funds for inquiries and investigations. Such funds were used by the committees not only to hire personnel but to meet other operating expenses as well.

Unlike other standing committees, the Appropriations Committee had a permanent authorization for funds for inquiries and investigations (S. Res. 193, 78th Cong., Oct. 14, 1943), which funds were provided by the annual legislative appropriation acts.

Information regarding amounts authorized for Senate committees for the employment of temporary personnel, and the payment of expenses for inquiries and investigations may be found in part II of this compilation, which follows on page 41.

REGULATION TO PROVIDE MORE EFFECTIVE CONTROL OVER PAYMENTS MADE FROM CONTINGENT FUND OF THE SENATE

(Adopted by the Committee on Rules and Administration on October 22, 1971)

Each activity authorized to make expenditures from the Contingent Fund of the Senate shall maintain an account of funds so authorized and expended, which account shall be reconciled at least semi-annually with the account maintained for such activity by the Senate Disbursing Office. Each reconciliation shall also include an audit of any and all cash advances made to the respective activity under authority of Public Law 118, 81st Congress (2 U.S.C. 69).

The Financial Clerk is directed to report to the Committee on Rules and Administration each time the accounts are reconciled and identify any exceptions arising from the account reconciliation or audit of cash advances. All activities subject to this regulation are hereby directed to complete the first account reconciliation and audit of cash advances no later than February 29, 1976.

Activities authorized to make expenditures from the Contingent Fund may not obtain cash advances in excess of $5,000 in the aggregate at any time unless otherwise authorized by law. Any such activity having cash advances in excess of $5,000 on the effective date of this regulation shall, on or before February 29, 1976, reduce such advances to the maximum authorized by this regulation unless the activity requests, in writing, authority from the Committee on Rules and Administration to maintain a cash advance in excess of the maximum set forth herein by stating the additional amount required and the need for such additional amount.

The Assistant Chief Clerk (Auditor) of the Committee on Rules and Administration shall (1) maintain a record of the reports filed by the Financial Clerk, (2) examine and investigate all reports containing exceptions and report his findings to the Committee, and (3) notify any activity that has not complied with this regulation.

Activity as used in this regulation includes all standing committees, subcommittees, joint committees, select and special committees, offices and commissions, whether funded by an appropriation or a Senate resolution.

FUNDS AUTHORIZED FOR SENATE COMMITTEES
83D–96TH CONGRESSES

NOTES ON THE TABLES

Scope of the compilation.—The following tables indicate all funds authorized by the Senate from the 83d through the 96th Congresses for inquiries and investigations by Senate committees. Included are the annual and any supplemental expenditure authorizations for Senate standing, select, and special committees, and any joint committees or commissions authorized to make expenditures from the contingent fund of the Senate.

Fiscal year for Senate inquiries.—To provide time at the commencement of each new session of Congress for Senate committees to prepare their budgets for investigations and to have resolutions authorizing such investigations considered and approved by the Senate, the Committee on Rules and Administration has determined that the fiscal year for Senate inquiries shall overlap the calendar year. For many years that overlap was 1 month, and the fiscal year ran from February 1 through January 31 of the following year. During the first session of the 92d Congress the committee temporarily set the fiscal year at 13 months in order to increase the overlap to 2 months. Commencing with the second session of the 92d Congress the fiscal year thus became March 1 through the end of the succeeding February, which continues to be the fiscal year for the purpose.

Unless otherwise indicated by footnote, the authorizations shown in the tables which follow are for periods as expressed above.

Investigative funds.—For the purposes of this compilation the funds received by Senate committees for inquiries and investigations, generally on the fiscal-year basis described above, are termed "investigative funds." Such funds may be used by committees to hire additional personnel and to pay additional expenses incurred by the investigations.

Statutory funds.—In order to complete the picture, the tables include the statutory $10,000 per Congress granted each standing committee of the Senate pursuant to paragraph 1 of rule XXVI of the Standing Rules. Such funds and any increments thereto may be used by committees for the routine purposes specified in the rule, but may not be used to employ additional personnel.

The Select Committee on Small Business and the Special Committee on Aging.—The Select Committee on Small Business and the Special Committee on Aging may be found in this compilation immediately following the standing committees instead of with the respective select and special committees, since each was granted the same stautory $10,000 per Congress for routine purposes as well as the same permanent staff of six professionals and six clerical assistants authorized for standing committees. The Select Committee on Small Business was granted such authority by Public Law 759, 81st Congress, September 6, 1950, 64 Stat. 595 and 597; and the Special Committee on Aging was granted the authority by Senate Resolution 4, 95th Congress, February 4, 1977, as amended.
