

Project transfer will not involve transfer of any facilities associated with the non-reimbursable aspects of the projects.

Through this legislation the Congress would affirm its support to the principle that the State have the primary responsibility for management and use of its water. This legislation also recognizes that it is the States responsibility to ensure that these transfers will relieve the Federal Government of the financial liabilities associated with these projects and help Texas control its water destiny and meet the needs of its citizens.

Thank you for allowing me to issue this statement and support what we believe is needed legislation.●
