

Emergency Evaluation Committee, director of the Ohio State Employment Relations Board and Cuyahoga County personnel director.

Furthermore, Mr. Denihan is serving on the advisory boards of the Levin College's Local Officials Leadership Academy and Public Works Management Program.

Mr. Speaker, I know that my colleagues will join me in honoring Mr. Denihan's tremendous career and wish him healthy and productive continuation of his career.

**CONGRATULATIONS ON THE COMPLETION OF THE HUMAN GENOME PROJECT**

**HON. SHEILA JACKSON-LEE**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Monday, June 26, 2000*

Ms. JACKSON-LEE of Texas. Mr. Speaker, today I recognize the tremendous accomplishment of our world's scientific community under the leadership of the United States' private and public research resources at their completion of the historic Human Genome Project's mapping of human Deoxyribonucleic Acid (DNA).

The complete map of human DNA, which is a collection of 100,000 genes, marks the beginning of a new era for mankind. This momentous day may seem ordinary to those who do not know what the world was like without the wheel, penicillin, electric light bulb, radio, television, or computers. Because of the work done by the laboratories and researchers primarily in this country in conjunction with partners in other nations have completed the diagram for the human body's operating instructions.

Today, when the sun rose in the East the world was fundamentally no different than it had been from the start of the previous century. However, at the setting of the sun in the West, the world now has bold new horizons in human health improvements and medical breakthroughs, because of the President' announcement that the Human Genome Project had assembled a working draft of the sequence of the human genome.

Today's announcement means that 97% of the human genome is known, which precedes the process of finding out what are proper and improper arrangements of DNA links for health persons. We know that keys to cures of dreaded human illnesses such as cancer, diabetes, and degenerative brain disorders reside in the DNA of human beings. However, along with the crippling physical debilitating conditions caused by spinal cord injury and brain trauma can now at long last not be seen as an end to promising lives.

I would like to make special mention of the contributions of Dr. Richard A. Gibbs and his colleagues at the Human Genome Project at the Baylor College of Medicine Human Genome Sequencing Center, located in the City of Houston, Texas. Through their collaborative work with hundreds of other researchers around the country the meticulous process was begun that created by concatenation cDNA sequencing the blueprint for human DNA. The blueprints for human DNA. The blueprints were reproduced in the form of clones that could represent segments of human DNA to create maps. After the study of

sections of DNA the process has begun to understand how each of us is different. The critical questions of survival and death can be found in those links, which form human DNA.

More than anything else today's announcement gives each of us hopes that our children's tomorrow will be brighter than all of our yesterday's. We must be sure that we legislate the proper application of the medical achievements, which come from this effort, which must also remain within the reach of the poor of our nation. This goal should be a centerpiece of the continued federal support of the Human Genome Project and spin off medical technologies.

Therefore, I encourage my colleagues to join me in celebrating a momentous accomplishment and offering well wishes for the work, which must follow.

**SUPERINTENDENT LARRY WILE**

**HON. FRED UPTON**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Monday, June 26, 2000*

Mr. UPTON. Mr. Speaker, it is my distinct pleasure to come today before this House and the American people to formally recognize and honor Superintendent Larry Wile of the Kalamazoo Regional Educational Service Agency for his 40 year dedication to educating Michigan's children. He has been a friend of mine and a steady friend of education. He has always had the interests of the students first.

Superintendent Wile began his career as a teacher and administrator in the Climax-Scots Schools, a community in my district. This June, after 40 years of service, he will retire as Superintendent of the Kalamazoo Regional Educational Service Agency.

Larry Wile has had a distinguished professional life. He served as an administrator in Michigan's Comstock Public Schools. For twenty-eight years, he has served southwest Michigan first as the Assistant Superintendent and then Superintendent of the Kalamazoo Regional Educational Service Agency.

Mr. Speaker, I'm here to acknowledge Superintendent Wile as a brilliant example for many young Michiganders. Throughout his service, Larry Wile has exemplified leadership, perseverance, and above all, hopefulness for the future of our great country.

In addition to serving as an educator, Larry Wile has also served as the Chairman of three notable organizations: the State Association of Intermediate School District Administrators, the Regional Principal's Organization, and the Kalamazoo County School Officers Association. He continued his tradition of excellence as a member of the Kalamazoo County Chamber of Commerce Legislative Committee. Superintendent Wile personifies what it means to be a true public servant in today's society. For forty years, and indeed, his entire life, Larry Wile has shown a concern and a proactive attitude in regard to his community, a passion for instilling ethics and knowledge into his students, and ultimately, a love for his family.

Mr. Speaker, I believe I speak for every member of this Congress and all those who have been touched by Superintendent Wile's care and intellect when I extend to his wife Rosie, his children and grandchildren our congratulations and best wishes for a retirement

filled with happiness and productivity. I now respectfully ask you to make these remarks a part of the permanent record of the Congress in order to ensure that future generations of educators, students, and the American public have the opportunity to be inspired by the contributions of Superintendent Larry Wile of Kalamazoo, Michigan.

**TRIBUTE TO REVEREND MONSIGNOR CLYDE HOLTMAN**

**HON. RON PAUL**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Monday, June 26, 2000*

Mr. PAUL. Mr. Speaker, today I pay tribute to the Rev. Msgr. Clyde Holtman on the occasion of his retirement. The Reverend Holtman was born in Westphalia, Texas. He was also baptized, made his First Communion, was confirmed, was ordained to the priesthood May 15, 1949, and offered his first Mass in the Church of the Visitation in that same community.

Msgr. Holtman has served in eleven parishes in the Austin Diocese for over 50 years. He has also served as Dean of the LaGrange Deanery, Judge of the Marriage Tribunal, Diocesan Resettlement Director, Diocesan Consultant and President of the Infirm Priest's Fund.

On May 30, 1985, Msgr. Holtman was invested as a Prelate of Honor in the Church by Pope John Paul II.

Msgr. Holtman has touched thousands of lives in the central Texas area. I ask my colleagues to join me in congratulating Reverend Holtman on his retirement.

**HONORING ROY AND JUDY TRIVETT**

**HON. SCOTT McINNIS**

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Monday, June 26, 2000*

Mr. McINNIS. Mr. Speaker, it is with personal privilege that I enter this tribute in acknowledgment of Roy and Judy Trivett, great Americans and superb business leaders.

The Trivetts' family business was recognized by the Greater Pueblo Chamber of Commerce as the Small Business of the Year. The Trivetts were recognized for their tireless efforts developing a successful electrical business. In 1994, the Trivetts started Royal Electrical from one room in their home. Today, Royal Electrical is a successful business with 23 employees and \$1.5 million in gross revenues.

The depth of this family goes far beyond the business community. They have been equally active in trade and community organizations. Their company, in conjunction with Electrical Contractors, Inc., provides training for select employees, and they also work with Pueblo Community College providing various other types of training.

In addition, Roy is also the current President of the Rock Mountain chapter of the Electrical Apparatus Service Association, and both the Trivetts are active leaders in the Trinity Lutheran Church and serve on the board of the Rare Breed Foundation.
