

Continental Shelf Lease Sale 181; to the Committee on Energy and Natural Resources.

SENATE CONCURRENT RESOLUTION NO. 34

Whereas, A strong domestic oil and gas industry is vitally important to the United States economy and national defense; and

Whereas, This nation's domestic oil and gas production has decreased by 2.7 million barrels per day during the last 13 years, a 17 percent decline, at the same time that domestic consumption of oil has increased by more than 14 percent; and

Whereas, Currently, the United States imports approximately 55 percent of the oil needed for the American economy, while the demand for refined petroleum products is projected to increase by more than 35 percent and the demand for natural gas is projected to increase by more than 45 percent over the next two decades; and

Whereas, Much of the nation's greatest potential for future domestic production lies in areas that are currently off limits to oil and natural gas exploration and development, including areas under congressional or presidential moratoria in the federal Outer Continental Shelf (OCS), where vast amounts of oil and natural gas may be available for extraction; and

Whereas, For the first time since 1988, the Minerals Management Service, a bureau of the United States Department of the Interior that manages the nation's oil, gas, and other mineral resources in the OCS, has proposed an OCS lease sale for the eastern Gulf of Mexico, in the portion of the Gulf 100 miles southwest of the Florida Panhandle and 15 miles south of the Alabama coastline; the bureau's tentative schedule calls for bid opening and reading in December 2001; and

Whereas, The oil and gas industry has demonstrated that it can be a good steward of the environment while operating in the Gulf of Mexico; and

Whereas, Oil and gas production from this area of the Gulf of Mexico would help offset current domestic energy production declines and assist the nation in meeting future energy demand; and

Whereas, Numerous positive economic benefits for the State of Texas have been created by oil and gas industry activities in the Gulf, and many of the exploration and production companies that would participate in the OCS Lease Sale 181 are headquartered in Texas as are many of the oil field supply and service companies that would benefit by increased activities; and

Whereas, The economic benefits that would result from oil and natural gas exploration, development, and production of leases acquired in OCS Lease Sale 181 would continue to benefit the State of Texas and all the states bordering the Gulf of Mexico; now, therefore, be it

*Resolved*, That the 77th Legislature of the State of Texas hereby declare support for the Minerals Management Service plan to proceed with the Outer Continental Shelf Lease Sale 181 for the eastern Gulf of Mexico scheduled for December 5, 2001; and, be it further

*Resolved*, That the Texas secretary of state forward official copies of this resolution to the Director of the Minerals Management Service, to the Secretary of the Interior, to the President of the United States, to the speaker of the house of representatives and the president of the senate of the United States Congress, and to all the members of the Texas delegation to the Congress with the request that this resolution be officially entered in the Congressional Record as a memorial to the Congress of the United States of America.
