NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2004

The SPEAKER pro tempore (Mr. SWEENEY). Pursuant to House Resolution 245 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the consideration of the bill, H.R. 1588.

The Chair designates the gentleman from Texas (Mr. BONILLA) as chairman of the Committee of the Whole, and requests the gentleman from New York (Mr. SWEENEY) to assume the chair temporarily.

□ 1346

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 1588) to authorize appropriations for fiscal year 2004 for military activities of the Department of Defense, to prescribe military personnel strengths for fiscal year 2004, and for other purposes, with Mr. SWEENEY (Chairman pro tempore) in the chair.

The Clerk read the title of the bill.

The CHAIRMAN pro tempore. Pursuant to the rule, the bill is considered as having been read the first time.

Under the rule, the gentleman from California (Mr. HUNTER) and the gentleman from Missouri (Mr. SKELTON) each will control 60 minutes.

The Chair recognizes the gentleman from California (Mr. HUNTER).

Mr. HUNTER. Mr. Chairman, I yield myself such time as I may consume.

We have an excellent defense bill before us today. We have learned a number of lessons from the conflict we just concluded in Iraq. I think the lessons of the last 15 years are that we must have in this country broad military ca-

pabilities, and that means we have got to be able to handle a conventional armored attack or conventional warfare. We must be able to handle guerilla warfare. We must be able, at the same time, to conduct the war against terrorism, and we have to prepare for the eventuality that ballistic missiles may at some point be launched against the United States.

Mr. Chairman, this bill addresses America's military issues. We address all of the issues that are brought up with respect to personnel. We have a 4.1 percent average pay increase in this bill. We have targeted bonuses where we have critical skills requirements and critical grade requirements. We provide for family housing. We do all the things that are important for people. At the same time, we modernize and we have more money for modernization than we have in years past, Mr. Chairman.

We have lots of old platforms. We know that our Army helicopters average 18.6 years of age. Two-thirds of the Naval aircraft are over 15 years. And if you go down the line you even come up with some antiquities. You come up with B-52 bombers, the youngest of which was built in 1962. So we have many years where modernization is required, and we have embarked on this first step of modernization with this bill that provides a little over \$70 billion for modernization.

Mr. Chairman, we have learned lessons in Iraq, and this committee, which worked very hard, Democrats and Republicans on all of our subcommittees listened to our military after the operation in Iraq, and we asked them what their lessons learned were, what new systems, what new capabilities could we work on to give them even more effectiveness on the battlefield. They talked to us, and we have embedded some of these requests, Mr. Chairman, in this bill.

So this bill reflects not just recommendations from the administration over the last several years, but it reflects what war-fighting leaders need on the battlefields and what they have learned is required as a result of this most recent conflict. So this is a very up-to-date bill.

Mr. Chairman, we need a number of what I would call so-called enablers to continue to fight today's wars and also prepare for tomorrow's wars. We need airlifts. You have to have the ability to move that air bridge and move across that air bridge either from the United States to a military operation around the world, or to move from foreign-based troops, troops in Germany or other places, move them into the battlefields and not only move troops in but move equipment in and provide that bridge of tankers to be able to move strike aircraft in, long-range strike aircraft or short-range tactical aircraft which, combined with precision munitions, can hit those targets, whether it is an al Qaeda cave in Afghanistan or a leadership bunker in
