(A) evaluate the demonstration program regarding frequency of inspections authorized under section 354(g) of the Public Health Service Act (42 U.S.C. 263b(g)), including the effect of the program on compliance with the MQSA;

(B) evaluate the factors that contributed to the closing of the approximately 700 mammography facilities nationwide since 2001, whether those closings were due to consolidation or were a true reduction in mammography availability, explore the relationship between certified units and facility capacity, and evaluate capacity issues, and determine the effect these and other closings have had on the accessibility of mammography services, including for underserved populations, since the April 2002 General Accounting Office report on access to mammography; and

(C) evaluate the role of States in acting as accreditation bodies or certification bodies,

or both, in addition to inspection agents under the MQSA, and in acting as accreditation bodies for facilities in other States and determine whether and how these roles affect the system of checks and balances within the MQSA.

(D)(i) How data currently collected under the MQSA could be used to improve the quality, interpretation of, and access to mammography.
