RECOGNIZING THE ACHIEVEMENTS

HON. HENRY CUellar
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

Mr. CUellar. Mr. Speaker, I rise today to recognize Vandy D. Lawson for her dedication to teaching the students at the Comal Leadership Institute in the Comal Independent School District.

Vandy D. Lawson received her bachelor’s degree in math from the University of Northern Colorado in Greeley and her master’s in statistics from Colorado State University in Fort Collins. Currently she is teaching students grades ninth through twelfth in the subject of math. Through her extraordinary teaching methods she is able to reach students and appeal to their interest like none other—this is what distinguishes her as a great teacher.

The unique teaching style of Mrs. Lawson is one that the teachers of our Nation should regard as an example. As a youth center, the UCC can reach students in a more effective way. It is said that Mrs. Lawson “looks at what she does every day as a being on a treasure hunt, uncovering great treasures and bringing them back to life.” The students she teaches all benefit from Mrs. Lawson’s continuous drive to reach each and every student to make sure they all receive as much assistance as possible.

The math and sciences are two essential fields of study that students around the Nation are exposed to. By offering a unique array of services and programs, the UCC has established itself as a vital center of Hispanic culture in my district. Through all of these activities, the UCC also serves as an ambassador for Hispanic people, reaching out to other communities in Wisconsin to help develop understanding and acceptance of Hispanic culture.

By offering a unique array of services and programs, the UCC has established itself as a vital center of Hispanic culture in my district. On the occasion of this 35th Anniversary, I salute the leaders of the UCC, its current and former volunteers, and its members, for these impressive achievements.

TRIBUTE TO UNITED COMMUNITY CENTER IN CELEBRATION OF ITS 35TH ANNIVERSARY

HON. GWEN MOORE
OF WISCONSIN
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

Ms. MOORE of Wisconsin. Mr. Speaker, I rise today to recognize the achievements of an outstanding community center in my district. This week the United Community Center celebrates its 35th Anniversary.

Since 1970, the UCC has endeavored to provide services and cultural opportunities to members of the Hispanic community in Milwaukee. Founded as a youth center, the UCC has grown into one of the premier social service agencies in our city, with an impressive array of programs designed to serve the needs of Hispanic families and communities.

The UCC attempts to create new opportunities for Hispanic families to move out of poverty and join the ranks of the middle class. Confronting the challenges of poverty requires a multi-faceted approach, a fact that is not lost on the leaders and members of this organization.

The UCC attends to the educational needs of the community, serving hundreds of students in its pre-kindergarten, grade school and middle school programs. Recognizing the importance of physical health, the Center offers prevention and health awareness services designed to reduce smoking, drug abuse, and teen pregnancy. The UCC understands that communities are sustained, in part, by culture, and as a result, regularly exhibits the works of prominent Hispanic artists and stages musical and dance performances. Young people in the community benefit from classes and workshops in theater arts, ceramics, dance and music. The UCC helps us care for our elders, providing assistance with transportation and affordable housing, while also maintaining adult day care for senior citizens.

The UCC understands that caring for families and individuals requires caring for the environment and neighborhood. Through its neighborhood development initiative, the UCC helps build the wealth and desirability of the community by helping families repair their homes, plant trees, and landscape open areas.

Through all of these activities, the UCC also serves as an ambassador for Hispanic people, reaching out to other communities in Milwaukee to develop understanding and acceptance of Hispanic culture. The students she teaches all benefit from Mrs. Lawson’s continuous drive to reach each and every student to make sure they all receive as much assistance as possible.

The math and sciences are two essential fields of study that students around the Nation need exposure to America’s teachers like Mrs. Lawson. Play the most vital role in ensuring students get the necessary skills to become tomorrow’s leaders. I am honored to have this opportunity to distinguish Vandy D. Lawson for her dedication to the perseverance of knowledge in our community.

90TH COMMEMORATION OF THE ARMENIAN GENOCIDE

SPEECH OF
HON. JOHN SHIMKUS
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Tuesday, April 26, 2005

Mr. SHIMKUS. Mr. Speaker, I rise today to recognize the anniversary of the Armenian Genocide and to place in the Record a portion of an opinion article written by Lee Enokian.

ARMENIAN GENOCIDE VICTIMS ARE NOT FORGOTTEN
(By Lee Enokian)

Today is the 90th anniversary of the Armenian Genocide. Between 1915 and 1923, more than 1.5 million Armenians were murdered or forcibly exiled because they were the wrong religion and ethnicity. The world community memorializes the anniversary annually as Armenian Martyrs Day.

Thousands of Armenians were offered their lives in exchange for their conversion to Islam. They refused and died as a result. Their steadfast faithfulness to the Christian faith is not surprising. Armenia was the first Christian nation and remains the only Christian nation in the Middle East.

Various Turkish peoples invaded southwest Asia during the Middle Ages and carved an empire for themselves from lands occupied by the indigenous Semitic and Indo-European inhabitants.

Turkish nationalism grew relentlessly during the following centuries. In the years preceding World War I, they actively sought to Turkify the Ottoman Empire and strengthen their rule by eliminating fractious ethnic minorities.

The western two-thirds of Anatolia was once inhabited by Greeks and other Indo-European peoples. It is now primarily occupied by Turks.

The eastern third of modern Turkey was once Armenian with an Assyrian minority, but is now populated by Turks and Kurds.

Modern Armenia survived only because it was the single province controlled, and protected, by the Russian Empire. The rest of the territory within its historical borders is almost wholly devoid of ethnic Armenians.

The organized depopulation of Christians and non-Turks from Anatolia by the Ottoman government is among the worst incidents of racism and religious intolerance documented in the world.

The Genocide was master-minded by the ultra-nationalist “Young Turk” government of Ottoman Turkey. Mehmet Talaat Pasha was the Minister of the Interior and architect of the Armenian Genocide. He was re-elected to this position during the following centuries in the years preceding World War I, they actively sought to Turkify the Ottoman Empire and strengthen their rule by eliminating fractious ethnic minorities.

The Genocide was master-minded by the ultra-nationalist “Young Turk” government of Ottoman Turkey. Mehmet Talaat Pasha was the Minister of the Interior and architect of the Armenian Genocide. He was re-elected to this position during the following centuries.

On the occasion of this 35th Anniversary, I salute the leaders of the UCC, its current and former volunteers, and its members, for these impressive achievements.

Evil wins when good men turn a blind eye.

IN RECOGNITION OF JOSEPH W. NIGRO, JR.

HON. STEPHEN F. LYNCH
OF MASSACHUSETTS
IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Mr. LYNCH. Mr. Speaker, I rise today in honor of a man whose professional life has been dedicated to improving the lives of working men and women in Massachusetts and across our nation.

Mr. Speaker, it is my duty to inform the Membership of the House that my dear friend, Joseph W. Nigro, Jr. is retiring from the post of General Agent of the Boston Metropolitan Building Trades Council in Boston, Massachusetts.

Mr. Speaker, Joe Nigro is a remarkable leader with a long and illustrious career in the American Labor Movement. Joe Nigro was initiated into and Chartered its Brotherhood of Electrical Workers, Local 103 on November 21, 1960 and from the beginning he has been a shining example of dedicated service to his union, his community and his family and for these reasons is entirely worthy of Congressional recognition as well as the appreciation of this nation. Joe’s personal integrity, hard work and determination illustrate the best characteristics of those who serve the working men and women of this country.

Over the last 18 years in his position as General Agent of the Boston Metropolitan Building Trades Council, Joe Nigro has made enormous contributions to the men and women of the building trades, not just in Massachusetts but across the country. Under Joe Nigro’s leadership, the United States Supreme Court confirmed the legal right to use Project Labor Agreements on public projects creating job opportunities for union construction workers across the nation.

As a member of the Massachusetts State Legislature and Chair of its Commerce and Labor Committee, I witnessed Joe’s passionate advocacy on behalf of working families. From securing benefits for workers who had lost their jobs, to training the next generation of America’s workers, Joe has worked to ensure that the views and interests of working people are at the forefront of our state and national policy.

Mr. Speaker, Joe Nigro has also been a man committed to his community and has dedicated many hours and much energy to various charities including the South Boston Neighborhood House, the Muscular Dystrophy Association, the Boys and Girls Club of Boston, as well as the Fiske Family Inn Foundation.

On a personal note, I believe that one of Joe’s greatest accomplishments has been little recognized over the years: that is, his remarkable ability to maintain “labor peace” among the building trades during times of enormous challenge within the labor movement. As the former President of the Ironworkers Union in Boston, I can assure you that this was a monumental task.

Mr. Speaker, it is my distinct honor to take the floor of the House today to join with Joe’s wonderful family, friends, and brothers and sisters in the Labor Movement to thank him for his service and congratulate him on his much-deserved retirement. I hope my colleagues will join me in celebrating Joe Nigro’s distinguished career and all his future endeavors.

RECOGNIZING HARLINGEN HIGH SCHOOL FOR THE 2005 INSPIRATION AWARD

HON. RUBEN HINOJOSA
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Mr. HINOJOSA. Mr. Speaker, I rise today to ask my colleagues to join me in congratulating Mr. Joe Nigro on his much-deserved retirement. Joe Nigro is retiring from the post of General Agent of the Boston Metropolitan Building Trades Council on April 27, 2005.

Harlingen High School is one of three exemplary high schools in the nation being honored for their steadfast commitment to fostering student success in some of America’s most poverty-stricken communities. Each school receives a prize of $25,000 to use in furthering its academic goals. The Inspiration Awards recognize outstanding work in improving the academic environment and helping all students, especially those who are economically disadvantaged, achieve the promise of higher education. I would like to congratulate the superintendent, Dr. Linda Wade, the principal, Richard Renaud, the teachers, students, and entire school community for this prestigious award.

Harlingen High School’s job market. As the former President of the Ironworkers Union in Boston, I can assure you that this was a monumental task.

Mr. Speaker, it is my distinct honor to take the floor of the House today to join with Joe’s wonderful family, friends, and brothers and sisters in the Labor Movement to thank him for his service and congratulate him on his much-deserved retirement. I hope my colleagues will join me in celebrating Joe Nigro’s distinguished career and all his future endeavors.

Mr. Speaker, I rise today to recognize the 10th anniversary of the Service Learning Program at TVI Community College in my home state of New Mexico. Service Learning is a collaboration of academic instruction, civic engagement and work experience that complements traditional college curriculum. Classroom learning is supplemented with relevant community service followed by self-assessment through group reflection. The concept of Service Learning is not new; the innovation is in promoting it as an essential part of the higher learning experience.

Dr. Rudy Garcia started the TVI Service Learning program in 1995 with 30 local nonprofit agencies and 45 students. Ten years later, over 8,000 students have participated in nearly 42,000 hours of education-based community service. Funded by grants, this initiative has achieved program sustainability by building agency partnerships to deliver unique and relevant learning experiences for students while meeting community needs. The TVI Service Learning program fosters an ethic of civic engagement, best illustrated by the 35% of students who stay on as agency volunteers after completing the required hours for their program.

Service Learning at TVI is more than just volunteerism; students translate what they have learned in the classroom into hands-on experiences that develop skills for future employment. The non-profit community agencies are mentors to the Service Learners and partners to the educators who strive to increase academic success and student retention. Local employers also benefit, as Service Learning helps build a stronger, more experienced labor pool; a college degree combined with related work experience is the key to success in today’s job market.

Dr. Garcia’s Service Learning program has won numerous awards, including the Community Engagement College of the Year and the National Bellwether Award for Best Community College Instruction Program. The Campus Compact has designated TVI a Training College for institutions interested in Service Learning, Civic Responsibility and Community Partnerships. TVI and Dr. Garcia were also selected by the Pew Partnership for Civic Change to provide their Leadership Training program.

Mr. Speaker, I have had many Service Learners in my district offices, and as a public servant I welcome every opportunity to mentor these students on the importance of service and civic responsibility. I endeavor to provide relevant work experience, while recognizing the tremendous contribution of our Service Learning program.
Mr. MILLER of Florida. I rise today to recognize Gulf Islands National Seashore for receiving a grant from the National Park Foundation and Unilever.

Unilever's Recycling at Work competitive grants program funds enhancement projects such as seating, boardwalks, overlooks, pullouts and educational/interpretive displays using sustainable lumber throughout the National Park System. The projects highlight the environmental leadership of the National Park Service in demonstrating how people may live more lightly on the land through the use of sustainable materials and techniques.

In Northwest Florida, Gulf Islands National Seashore is proud to be a part of this program. As a result of the generous grant, the park will construct the only accessible nature trail on the seashore. This trail will be a universal design boardwalk made of recyclable materials which will not only enhance the visitors' experience, but will also protect the fragile underbrush of the forest.

Mr. Speaker, this grant, in conjunction with the Florida National Trails Association's hard work and manpower, will greatly benefit all those who visit Northwest Florida's scenic wonders. I, along with Northwest Florida, am very appreciative of Unilever's generosity.

Mr. MILLER. Mr. Speaker, I rise today to recognize the Medicare mental health benefit to meet the mental health needs of America's elderly and improved physical functioning associated with independent living. Unfortunately, the current structure of Medicare mental health benefits is inadequate and precludes access to critical mental health services.

The Medicare Mental Health Modernization Act of 2005 is a straightforward bill that improves Medicare's mental health benefits as follows:

It reduces the discriminatory co-payment for outpatient mental health services from 50 percent to the 20 percent level charged for most other Part B services.

It eliminates the arbitrary 190-day lifetime cap on inpatient services in psychiatric hospitals.

It improves beneficiary access to mental health services by including within Medicare a number of community-based, residential and day treatment mental health services that characterize today's state-of-the-art clinical practices.

It further improves access to needed mental health services by addressing the shortage of qualified mental health professionals serving older and disabled Americans in rural and other medically underserved areas by allowing state-licensed marriage and family therapists and mental health counselors to provide Medicare-covered services.

Similarly, it corrects a legislative oversight that will facilitate the provision of mental health services by clinical social workers within skilled nursing facilities.

It requires the Secretary of Health and Human Services to conduct a study to examine whether the Medicare criteria to cover therapeutic services to beneficiaries with Alzheimer's and related cognitive disorders discriminates favorably too heavily.

The push for mental health parity is ongoing. We've made important strides forward for the under-65 population. Twenty-three states have already enacted full mental health parity and the Federal Employees Health Benefits Plan was improved in 2001 to assure that all federal employees and members of Congress are provided mental health parity. In April 2002, President Bush called for Congress to enact legislation to provide equivalence for private sector health insurance coverage of mental and physical conditions (though he has yet to endorse any legislation to achieve that goal).

What has been too-often missing from this overall mental health parity debate is the fact that the Medicare program continues to fail to meet the mental health needs of America's seniors and those with disabilities. That's why we've introduced the Medicare Mental Health Modernization Act. That's also why this bill has received support from numerous mental health advocacy and provider organizations, including: the National Alliance for the Mentally Ill, the Federation of Families for Children's Mental Health, the American Association of Geriatric Psychiatry, the American Psychological Association, the American Association for Marriage and Family Therapy, the American Mental Health Counselors Association, and the Clinical Social Work Federation.

It is past time for us to take action with regard to Medicare's inadequate mental health benefits. Over the years, Congress has updated Medicare's benefits to treat mental health conditions as physical illnesses as the practice of medicine has changed. The mental health field has undergone many advances over the past several decades. Effective, research-validated interventions have been developed for many mental conditions that affect stricken beneficiaries. Most mental conditions no longer require long-term hospitalizations, and can be effectively treated in less restrictive community settings. This bill recognizes these advances in clinical treatment practices and adjusts Medicare's mental health coverage to account for them.

The Medicare Mental Health Modernization Act of 2005 removes discriminatory features from the Medicare mental health benefits and helps facilitate access to up-to-date and affordable mental health services for our elderly and disabled. I encourage my colleagues to support its passage into law.

Mr. CUELLAR. Mr. Speaker, I rise to recognize the many accomplishments of Steve La Mantia, Junior Achievement of Laredo Business Hall of Fame Laureate.

Mr. La Mantia grew up in McAllen, Texas, with his three brothers and sisters. He describes himself as having “grown up farming” on his family's farm on Mines Road. From an early age, he loved sports and persistence and competition that sports embody have become guiding values in his life.

He graduated from McAllen high school, where he played football, and attended college at Texas A&M, where he served as a referee. As a businessman, Mr. La Mantia has been tremendously dedicated to giving back to the educational community. Since 1991, he has been raising money for the Hispanic Scholarship Fund. In 2002, his family founded STARS: South Texas Academic Rising Scholars. STARS now provides students from the lower 22 counties of South Texas scholarship money to attend the college of their choice.

Mr. La Mantia is one of this community's most successful businessmen, working as Vice President and part owner of L&F distributors in Laredo. His work is a testament to the power of family businesses to thrive and create growth for our communities.

Mr. Steve La Mantia is a loyal Texan, a dedicated volunteer and philanthropist, and an exemplary businessman. I am happy that he has been chosen to receive the Laredo Junior Achievement Hall of Fame award, and I am proud to have had the chance to recognize him here today.
Mr. HINCHHEY. Mr. Speaker, I rise in remembrance of the Armenian Genocide—one of the most horrific tragedies of the 20th century. Beginning on April 24, 1915, leaders of the Ottoman Empire began murdering thousands of Armenians. By 1923, the number of Armenians murdered was over 1.5 million. Yet, in spite of irrefutable evidence, the United States of America and the Republic of Turkey have consistently refused to officially acknowledge that the Armenians were victims of genocide.

The Armenian Genocide is a historical event that cannot be denied or forgotten. It is vital for Turkey to recognize that this tragedy took place on its soil. Turkey should follow the example of Germany in its swift commendation and acknowledgement of the Holocaust. It is also equally vital for the United States to officially recognize the Armenian Genocide, just as many other countries have.

In 2000 the European Parliament officially recognized the Armenian Genocide. The following year the French Parliament recognized it as well. Many attempts have also been made by the U.S. Congress to officially recognize the Armenian Genocide. These attempts, however, have been scuttled by successive administrations for fear of disrupting our strategic relationship with Turkey. While I certainly value Turkey's friendship, as a world leader, the U.S. must officially acknowledge the Armenian Genocide. Not doing so sets an extremely poor example for the rest of the world and denies the victims of this horrific tragedy the proper reverence they deserve.

Mr. LYNCH. Mr. Speaker, I rise today to join with Armenians throughout the United States, Armenia, and the world in commemorating the 90th anniversary of the Armenian genocide, one of the darkest episodes in Europe's recent past. This week, members and friends of the Armenian community gather to remember April 24, 1915, when the arrest and murder of 200 Armenian politicians, academics, and community leaders in Constantinople marked the beginning of an 8-year campaign of extermination against the Armenian people by the Ottoman Empire.

Between 1915 and 1923, approximately 1.5 million Armenians were killed and more than 500,000 were exiled to the desert to die of thirst or starvation. The Armenian genocide was the first mass murder of the 20th century, a century that was sadly to be marked by many similar attempts at racial or ethnic extermination, from the Holocaust to the Rwandan genocide and now the ongoing genocide in Darfur, Sudan.

In the 90 years since the beginning of this genocide, we have learned the importance of commemorating these tragic events. In 1939, after invading Poland and relocating most Jews to labor or death camps, Hitler cynically defended his own actions by asking, 'Who remembers the Armenians?' Just a few years later, 6 million Jews were dead. Now is the time when we must answer Hitler's question with a clear voice: We remember the Armenians, and we stand resolved that genocide is a crime against all humanity. We must remember the legacy of the Armenian genocide and must speak out against such tragedies to ensure that no similar evil occurs again.

While today is the day in which we solemnly remember the victims of the Armenian genocide, I believe it is also a day in which we can celebrate the extraordinary vitality and strength of the Armenian people, who have fought successfully to preserve their culture and identity for over a thousand years. The Armenian people withstood the horrors of genocide, two world wars, and several decades of Soviet dominance in order to establish modern Armenia. By testifying defiantly rebirth itself as a nation and a society—a triumph of human spirit in the face of overwhelming adversity.

It is my firm belief that it is only by learning from and commemorating the past can we work toward a future free from racial, ethnic, religious, and political hatred. As we honor the victims of the Armenian genocide and speaking out against the principles by which it was conducted, we can send a clear message: never again.

Mr. HINCHHEY. Mr. Speaker, the time has come for the House to formally recognize the Armenian Genocide. Not doing so sets an example worldwide. The Armenian politicians, academics, and community leaders in Constantinople marked the beginning of an 8-year campaign of extermination against the Armenian people. By testifying against such tragedies, we can ensure that no similar evil occurs again.

The House in Committee of the Whole on the House of the Union had under consideration the bill (H.R. 6) to ensure jobs for our future with secure, affordable, and reliable energy.

Mrs. KELLY. Mr. Chairman, I regret that I missed last week's votes during House consideration of the Energy Policy Act of 2005 due to a death in my family. I wanted to take this opportunity to talk about some of the important issues which came up during this debate.

For the past several years, fluctuating and high energy prices have caused a severe burden on American consumers and businesses. Without a comprehensive energy policy in place our economic and national security continues to be affected. Unfortunately, the bill passed by the House falls short regarding some very important issues, and I wanted to take an opportunity to state my concerns on this matter.

I remain opposed to drilling in the Arctic National Wildlife Refuge, ANWR, and will continue to support the removal of this provision from a final energy bill. I have continually supported amendments, similar to the one offered by Mr. MARKEY which protects ANWR from development. Drilling in the Arctic would do little to address our country's long-term energy needs, and the cost to a critical environmental asset would be substantial.

I also support the amendment offered by Rep. CAPPERS regarding MTBE contamination. As we now know, this highly-soluble additive is contaminating our water and posing a threat to our communities by leaking out of underground storage tanks and from gasoline spills and spreading rapidly into groundwater. The current circumstances demonstrate that our reliance on MTBE has resulted in harmful side-effects. We need energy policies which promote the use of cleaner burning fuels that do not endanger our water supply. By phasing out the use of MTBE and allowing states to pursue alternative courses to meeting strong clean air standards, significant strides might be made in our effort to create sensible, well-rounded environmental policies. The Town of Wappinger and the Village of Pawling, two water providers in my district, have filed suit against oil companies because of MTBE contamination of their drinking water sources. I've also heard from residents in the Town of Highlands, who have expressed to me their opposition to a proposal that would retroactively apply the product liability waiver to October 1, 2003. I believe this waiver, when it was included in the energy bill considered by the House in the last Congress. My colleague, Mrs. CAPPERS offered a sound amendment which would ensure that the oil and chemical industries remain fully liable in order to ensure that public health and safety are protected. Though the amendment unfortunately failed, I will continue to work with my colleagues on this provision to ensure my communities are protected.

The time has come for the House to formally recognize the Armenian Genocide. Not doing so sets an example worldwide. The Armenian politicians, academics, and community leaders in Constantinople marked the beginning of an 8-year campaign of extermination against the Armenian people. By testifying against such tragedies, we can ensure that no similar evil occurs again.
Thank you for the opportunity to comment on several key provisions contained in the House-passed energy bill.

LEGISLATION ESTABLISHING THE NORTHERN BORDER COORDINATOR IN THE DEPARTMENT OF HOMELAND SECURITY

HON. LOUISE MCINTOSH SLAUGHTER
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Ms. SLAUGHTER. Mr. Speaker, I am pleased to introduce legislation that would establish the position of Northern Border Coordinator in the Department of Homeland Security. The northern border spans twelve states and over 3,000 miles. My congressional district, which includes Niagara Falls and Buffalo, serves as an annual gateway for 14.5 million individuals who enter the United States across the Niagara River bi-national bridges. The Peace Bridge, connecting Buffalo to Fort Erie, is the country’s busiest border crossing, with over 1.3 million trucks and 20 billion dollars of commerce passing over it each year. More broadly, Canada is our nation’s single largest trading partner, with total trade activity exceeding $400 billion.

Mr. Speaker, in the wake of the September 11, 2001 attacks, there is a new awareness that the northern border can also serve as an opening for terrorists, weapons of mass destruction, and other hazardous materials. Even today, there are many areas along the northern border that lack sufficient personnel and resources to provide border security. Our nation must act to thwart terrorists who attempt to abuse the open relationship between our two countries. It is important that enhanced border security along the U.S.-Canadian border be overseen in a coordinated manner among federal, state and local law enforcement and first responders.

For this reason, I have introduced legislation that would establish the position of Northern Border Coordinator in the Department of Homeland Security. The Northern Border Coordinator would be responsible for increasing the security of the border between the U.S. and Canada; improving the coordination among the agencies responsible for homeland security; serving as the primary liaison with the state and local governments and law enforcement agencies in matters regarding border security; and serving as a liaison with the Canadian government.

It is critical that we devote the personnel and technology necessary to ensure our security while maintaining strong channels for trade. A position within the Department of Homeland Security dedicated towards these goals is a step in the right direction.

HON. HENRY CUELLAR
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Mr. CUELLAR. Mr. Speaker, I rise to recognize the many accomplishments of Buddy Albro, Norma Krueger Elementary School Primary Campus Teacher of the Year.

Mr. Albro decided to enter the profession of teaching relatively late in life. Previously, he had been a successful worker in the oil and gas industry. He decided that he wanted to make a difference in the lives of children, and went back to school at Southwest Texas State University, where he graduated with honors.

He has now been a teacher with the Marion Independent School District for eight years, seven of which were spent teaching the third and fourth grades. Currently, he is the elementary physical education teacher for grades K-5.

Mr. Albro believes that every child has the potential to do great things, and he works hard to make learning fun for his students. He believes that the most important component of an elementary education is becoming a good reader; this skill, he feels, sets the stage for a lifetime of success.

Mr. Buddy Albro is an outstanding educator, dedicated to the welfare and happiness of the children of Marion. His dedication is a tremendous example for other educators, and I am happy to have the opportunity to honor him here today.

TRIBUTE TO THE AMERICAN CANCER SOCIETY ON THE OCCASION OF MAKING STRIDES AGAINST BREAST CANCER

HON. GWEN MOORE
OF WISCONSIN
IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Ms. MOORE of Wisconsin. Mr. Speaker, I rise today to express my gratitude to the American Cancer Society for its outstanding efforts to combat breast cancer.

On May 1, the American Cancer Society will host its annual event, Making Strides Against Breast Cancer. This year, Making Strides Against Breast Cancer will invite local residents to participate in a non-competitive walk along Milwaukee’s lakefront to raise money to fight breast cancer and to educate our citizens about prevention, detection and treatment.

I am particularly thankful for their work because I know the devastating effects of breast cancer on individuals and families in my district. Those who lack awareness of the disease are less likely to follow basic prevention and detection protocols. Too many women die of this disease when early detection and treatment might have saved their lives.

Throughout the year the American Cancer Society works hard to make a difference in the lives of Wisconsin residents, promoting cancer awareness and prevention. It is a pleasure to take this opportunity to recognize their contributions to the communities in the Fourth Congressional District, and to say thank you. I wish them good weather for a successful event and another year of commendable work.

RECOGNIZING THE 20TH ANNIVERSARY OF THE CONGRESSIONAL YOUTH LEADERSHIP COUNCIL

HON. JOHN SHIMKUS
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Mr. SHIMKUS. Mr. Speaker, I rise today to pay tribute to the Congressional Youth Leadership Council (CYLC) as it celebrates its 20th Anniversary. Since its founding in 1985, the Council has been successfully committed to its mission to foster and inspire young people to achieve their full leadership potential.

CYLC has directly impacted over 200,000 young men and women representing all 50 states, the District of Columbia, the American territories, and over 100 countries around the world since its founding. From the State of Illinois alone, more than 3,000 students have participated in at least one of the Council’s dynamic programs. These scholars are well-rounded in their academic achievements and demonstrated leadership abilities.

The educational programs offered by the council create opportunities for leaders of all ages to have a unique experience with each program. Beginning with the Junior National Young Leaders Conference (JNYLC) and the National Young Leaders State Conference (NYLSC), students are challenged to understand their own leadership skills through the context of American history and self-evaluation.

The National Young Leaders Conference (NYLC) and the Global Young Leaders Conference (GYLC), provide outstanding young leaders of tomorrow the opportunity to meet the national and global leaders of today. During that time they explore, question, and discuss critical issues facing all of us.

The comprehensive curriculum focuses on learning through experience—simulations, role playing, debate and, most importantly, personal interaction among students and today’s leaders that fosters open dialog, new perspectives, and cultural exchanges. All of these elements combine to create an atmosphere of inspiration that energizes young men and women to return to their homes, communities, and schools with the tools and drive to be effective leaders both today and for many years to come. Please join me in congratulating the Congressional Youth Leadership Council on 20 years of positively impacting the lives of this nation’s and the world’s future leaders.

STRATEGIC COMMUNICATION ACT

HON. MAC THORNBERRY
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Mr. THORNBERRY. Mr. Speaker, I agree with those who say that the Global War on Terrorism is actually a Global War of Ideas and that terrorism is one of the tactics used in that War. Military power, alone, will not win this War nor can it ensure our safety against those willing to destroy themselves as they murder as many Americans as possible.

The Global War on Ideas must be fought on many fronts—military, diplomatic, economic. It must include intelligence activities abroad and homeland security efforts here at home. It
must involve our allies and friends around the world.

One critical aspect of this War involves what I believe can best be labeled as “Strategic Communication.” Strategic Communication is not marketing; it is not simplistic slogans; it is not simply looking for better ways to tell the story. It is how we communicate with—and thus relate to—the rest of the world.

It includes public diplomacy (how we communicate with people outside of the United States), public affairs (how we communicate with Americans and the media), international broadcasting, and various governmental information operations programs. It must, of course, utilize and take into account ever-evolving technologies.

Any communication begins with listening and understanding, which is certainly where Strategic Communication must begin. We cannot conduct a poll or two and assume we know what the people think. We have to understand history, culture, traditions, values, and attitudes. We must understand, any attempt at communicating, much less influencing, will be futile. Our understanding must extend to networks of influence within societies and to the factors which influence human behavior.

In addition to understanding attitudes and cultures, Strategic Communication involves engaging in a dialogue of ideas, advising policy makers of the implications of various decision choices, and developing and implementing communication strategies that can help shape attitudes and behaviors. It involves the work not only of the Department of State, but also the Department of Defense, the Intelligence Community, and others.

Needless to say, Strategic Communication is a massive job that directly affects the national security of the United States for generations to come.

A number of studies since the 9/11 attacks—and some even prior—have emphasized the importance of Strategic Communications and have also found that the United States lacks a whole-of-government, whole-of-nation, and whole-of-society approach to communication. A recent report, which I found particularly helpful, was issued by the Defense Science Board Task Force on Strategic Communication, chaired by Mr. Vincent Vitto.

The Defense Science Board report provides a context for the importance of Strategic Communications, and it offers a number of recommendations. Many of those recommendations require action by the Executive Branch, but some require Congressional action as well. The report’s bottom line is that the U.S. needs a more whole-of-government, whole-of-nation, whole-of-society, and strategic approach to global communications.

In considering the many aspects of Strategic Communications, there are some things only government can do. But, government does not have all of the answers or all of the expertise needed to successfully wage this War. Those outside government have much to contribute. To be truly successful, there must be a cooperative partnership between government and the private sector.

The following bill creates a nonpartisan, non-profit Center for Strategic Communication to be at the intersection of government and private sector efforts in Strategic Communication. As a nongovernmental entity, the Center can take advantage of the experience and expertise of those outside of government who may be unwilling or unaccountable to work with government but would like the opportunity to contribute. It would also allow greater flexibility than government regulations sometimes permit.

While no one wants to duplicate essential governmental functions, the Defense Science Board’s report on the Nonproliferation Center would have three primary purposes:

1. To provide information and analysis to civilian and military decision-makers;
2. To develop plans and programs to create and implement U.S. communication strategies; and
3. To support government strategic communications. Among the areas in which the Center can contribute are: polling and analysis, cultural influence analysis, media influences analysis, fostering cross-cultural exchanges, determining the impact of evolving technologies, and influencing public understandings of the War of Ideas is about much more than communications strategies. It is also about policies and actions, some of which are not popular in various regions of the world. The Defense Science Board report noted that policies and strategic communications cannot be separated.

But effective communication is also an essential part of any effort to make the world a safer place. As the Defense Science Board noted, “Strategic Communication is a vital component of U.S. national security. It is in crisis and must be transformed with a strength of purpose that matches our commitment to diplomacy, defense, intelligence, law enforcement, and homeland security.”

I believe that this proposal and the entire list of recommendations by the Defense Science Board can make a major contribution to this effort.

ASSAULT WEAPONS BAN

HON. PHIL GINGREY
OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Mr. GINGREY. Mr. Speaker, the so-called Assault Weapons ban passed in 1994 has now been expired for seven months and our nation has yet to feel the ill effects proponent of the '94 legislation predicted. The following article by Deborah Sontag of the New York Times, provides a great description of how little has changed since the ban was lifted. Mr. Speaker, I would like to insert this article into the CONGRESSIONAL RECORD.

[From the New York Times, Apr. 24, 2005]

MANY SAY END OF FIREARM BAN CHANGED LITTLE

(By Deborah Sontag)

Despite dire predictions that the streets would be awash in military-style guns, the expiration of the decade-long assault weapons ban last September has not set off a sustained surge in the weapons’ sales, gun makers and sellers say. It also has not caused a noticeable increase in the past seven months, according to several metropolitan police departments.

The uneventful expiration of the assault weapons ban did not surprise gun owners, nor did it prompt some advocates of gun control. Rather, it underscored what many of them had said all along: that the ban was puerile—so porous that assault weapons remained widely available throughout their prohibition.

“It was drying up that big a deal in the early 90’s, criminals wanted those Rambo-type weapons they could brandish,” said Jim Pasco, executive director of the Fraternal Order of Police. “Today they would much rather have a .50 caliber handgun they can stick in their belt.”

When the ban took effect in 1994, it excluded more than 1,500 types of weapons already in private hands. Over the next 10 years, at least 1.17 million more assault weapons were produced—legitimately—by manufacturers that took advantage of loopholes in the law, according to an analysis of firearms production data by the Violence Policy Center.

Throughout the decade-long ban, for instance, the gun manufacturer DPMS/Panther Arms of Minnesota continued selling assault rifles to civilians by the tens of thousands. In compliance with the ban, the firearms manufacturer “sporterized” the military-style weapons, sawing off bayonet lugs, securing stocks so they were not collapsible and adding muzzle brakes. But the changes did not alter the guns’ essence; they were still semiautomatic rifles with pistol grips.

No production data are yet available for the seven months since the ban expired. And some gun-control advocates say they don’t trust the self-reporting of gun industry representatives, who may want to play down the volume of their sales to ward off a revival of the ban.

Indeed, a replica of the ban is again before the Senate.

“In my view, the assault weapons legislation was working,” Mr. Pasco said. “And Diane Feinstein, Democrat of California, a chief sponsor of the new bill. “It was drying up supply and driving up prices. The number of crime guns dropped from more than 1 million to less than 1 million, because they were less available.”

Assault weapons account for a small fraction of gun crimes: about 2 percent, according to most studies, and more than 1 million were used in many high-profile shooting sprees. The snipers in the 2002 Washington-area shootings, for instance, used semiautomatic assault rifles that were copypawn versions of banned carbines.

Gun crime has plummeted since the early 1990’s. But a study for the National Institute of Justice said that within months of the ban, nearly gun owners began to credit the ban with any of the nation’s recent drops in gun violence.”

Research for the
study in several cities did show a significant decline in the criminal use of assault weapons during the ban. According to the study, however, that decline was offset by the "stealth" purchase of other guns—equipped with high-capacity magazines—ammunition-feeding devices that hold more than 10 rounds.

While the 1994 ban prohibited the manufacture and sale of such magazines, it did not outlaw an estimated 25 million of them already available or did it stop the importation of millions more into the country.

Senator Feinstein said she wished she could outlaw the "flood of big clips" from abroad. "They're called "one big loophole in the ban. But that would require amending the bill, and Republicans like Senator John W. Warner of Virginia and Senator Mike DeWine of Ohio are just not willing to back it only without amendments, she said.

Some gun-control advocates say it is pointless to reintroduce the 1994 ban without amending it to include large magazines and a wider range of guns. They see more promise in enacting or strengthening state or local laws—California, Connecticut, Hawaii, Massachusetts, Maryland, New Jersey and New York—already have bans, most based on the federal one. The model used by some local advocates is a comprehensive one in California (referred to as "Commiifornia" on some gun enthusiast Web sites).

The Fraternal Order of Police has not made a new federal ban a legislative priority, either. Mr. Pasco, the organization's director, said he had not recalled a single "inquiry from the field about the reauthorization of the ban—and we have 330,000 members who are very vocal."

"In 1994, I was the principal administration lobbyist on this ban," said Mr. Pasco, who then worked for the federal Bureau of Alcohol, Tobacco and Firearms. "But here we are 10 years later and weapons do not appear to pose any more significant threat to law enforcement officers than other weapons of similar caliber and capability.

"The ban made it illegal to possess or sell a semiautomatic weapon manufactured after September 1994 if the weapon accepted a detachable magazine and contained at least two features from a list that included protruding pistol grips and threaded muzzles. The ban outlawed 19 weapons by name, among them some foreign semiautomatics already banned under the 1989 firearms importation law, which still stands.

But gun manufacturers increased production of assault weapons while the ban was being debated. Then, by making minor changes in design, they were able to produce, as they called them, "post-ban" assault weapons that were the functional equivalent of the originals.

Mr. Pasco of the police organization disagreed. He "knew exactly what we were doing when we did it", he said, "We went after the high-capacity magazines—use with many guns, have been selling briskly since the ban ended because prices have dropped considerably.

"The only thing Clinton ever did for us was drive up the price of magazines," said a weapons specialist named Stuart at TargetMaster, a shooting range and gun shop in Garden City, Kansas. "I refuse to give it his last name."

"A 17-round Glock magazine crept up to $150 during the ban. It's $75 now."

Since September, the Web site of Taurus Importing & Sales Co., a major maker of small arms, has celebrated the demise of the prohibition on magazines, flash
and bronze hourglass device), Small Arms Expert Marksmanship Ribbon (with Bronze Star), Air Force Training Ribbon Massachusetts Medal of Merit, Massachusetts National Guard Service Medal (with gold eagle), Massachusetts National Guard Desert Storm Service Award and an Award for Heroism for the City of Northampton, Massachusetts.

Major General Keefe has four sons, Gary, James, Patrick and Timothy. Three of his sons are current members of the Massachusetts National Guard. The Commonwealth of Massachusetts and the nation owe Major General Keefe an enormous debt of gratitude for his service to his country. On behalf of my colleagues in the Massachusetts delegation, I commend Major General George W. Keefe for such a distinguished military career and wish him continued success in all his future endeavors.

INTRODUCING A BILL TO ENHANCE THE SECURITY OF THE U.S. PASSENGER AIR TRANSPORTATION SYSTEM

HON. JERRY F. COSTELLO
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

Mr. COSTELLO. Mr. Speaker, yesterday Congressman OBERSTAR, Congressman DEFAZIO and I have introduced a bill to enhance the security of the U.S. passenger air transportation system—The Airport Screener Technology Improvement Act of 2005. We are currently collecting over $1.5 billion a year from the passenger security fee for aviation security. The TSA will put this fee in two funds that will guarantee that TSA will spend the authorized amounts of $650 million a year and $250 million for the installation of in-line baggage screening systems and passenger checkpoint explosive detection, respectively.

Mr. Speaker, last week the Department of Homeland Security Inspector General (DHS IG) and the Government Accountability Office (GAO) both reported that our airport screening system still needs improvement. While the traveling public is more secure today than before September 11th, our airport screening system still needs improvement. Without a significant investment and commitment by Congress and this Administration to upgrade our technology, our screening system will continue to fail. We must do better.

Last year, the National Commission on Terrorist Attacks Upon the United States (“the 9/11 Commission”) specifically recommended that the TSA and the Congress improve the ability of screenings checkpoints to detect explosives on passengers. The Intelligence Reform and Terrorism Prevention Act (P.L. 108–458)千亿d $520 million for the research and deployment of advanced passenger screening technologies, such as trace portals and backscatter x-ray systems. To date, only about $30 million has been appropriated specifically for the general deployment of these technologies.

The 9/11 Commission also recommended that the TSA “expedite the installation of advanced (in-line) baggage screening equipment.” The Chairman of the 9/11 Commission testified before Congress that the Commission supports moving explosives units out of airport lobbies and into a secured area which will allow for movement of bags from the check-in counter to the loading area in a seamless, in-line process, promoting greater security and efficiency.

In addition to these benefits, in-line baggage screening systems have a much higher throughput than stand-alone systems. If we install in-line systems, more bags will be screened by explosive detection systems instead of less reliable, alternative methods.

The TSA and airport operators rely on contracts in lieu of obligations (LOIs) as their principal method for funding the modification of airport facilities to incorporate in-line baggage screening systems. The TSA has issued eight LOIs to cover the costs of installing systems at nine airports for a total cost to the federal government of $957.1 million over four years. The GAO reports that TSA has estimated that in-line baggage screening systems at the nine airports that received LOI funding could save the federal government $1.3 billion over seven years. TSA further estimated that it could recover its initial investment in the in-line systems at these airports in a little over one year.

In total, the GAO reports that 86 of 130 airports surveyed are planning or are considering installing in-line baggage screening systems throughout or at a portion of their airports. Yet, the TSA has stated that it currently does not have sufficient remaining funds in its budget to fund any additional LOIs. While $650 million is authorized for the installation of in-line baggage screening systems, annual appropriations have not allowed for any new LOIs to be signed.

Mr. Speaker, the recommendations, findings and statements of the 9/11 Commission, the DHS IG, GAO and TSA all indicate that we need better technology to improve security at our airports. We have been put on notice, and we must take action now. We must demonstrate leadership and deploy technologies that will keep the American public safe and secure. I urge my colleagues to join me in working to pass this important legislation.

CONGRATULATING MR. BERNIE DITTMAN ON RECEIPT OF THE 2005 ALABAMA BROADCASTERS ASSOCIATION’S BROADCASTER OF THE YEAR AWARD

HON. JO BONNER
OF ALABAMA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

Mr. BONNER. Mr. Speaker, it is with great pride and pleasure that I rise to honor Mr. Bernie Dittman on the occasion of his being honored with the 2005 Alabama Broadcasters Association’s Broadcaster of the Year Award. This award recognizes outstanding contributions made by members of the Alabama radio and television broadcast community in both their professional field and in the life of their local cities and towns. Bernie Dittman, a long-time friend and resident of Alabama’s First Congressional District, as well as an active member of the State Broadcasters’ Association, is a very worthy choice to receive this year’s award.

Bernie purchased WABB—AM in Mobile, Alabama, in 1959. This station, previously owned by the Mobile Register newspaper organization, first went on the air in 1948 with call letters that stand for “Alabama’s Best Broadcasters.” One year later, Bernie moved to Mobile and completely changed the broadcast format of the station. His conversion of WABB from a country station to Top 40 propelled WABB to the position of the leading station in that format and one of the premiere stations anywhere on Alabama’s Gulf Coast. In 1973, Bernie took WABB in a new direction when the station added a new FM signal and began to broadcast a progressive rock format. At a time when most automobiles were not equipped with FM receivers, Bernie and his team ran an extensive series of on-air promotions encouraging the installation of low-cost FM receivers.

Under Bernie Dittman’s leadership, WABB has become one of the longest-running and most successful Top 40 radio stations in the United States. The station has also spearheaded over the years the move to more equality in the hiring of on-air personalities and staff members; in fact, WABB was one of the few stations in south Alabama which early on began to hire women and African-Americans for important announcer positions. WABB has also been a critical part of Mobile’s emergency broadcast community and played a crucial role in providing information to listeners during Hurricane Frederic (1979) and Hurricane Ivan (2004). During Ivan, in fact, WABB was one of the few stations in the area able to transmit continuously during the storm without losing power. Following the end of the storm, the station continued to collect and distribute relief material to neighboring states which had also been severely affected.

Aside from his professional obligations, Bernie has also ensured that WABB and its family of employees take an active role in the life of the Mobile community. For the past 47 years, the station has operated the WABB Community Club Awards Program of Greater Mobile, which distributes over $250,000 in financial awards to local civic, religious, and cultural institutions. Additionally, the station has been a 40-year sponsor of the Greater Gulf State Fair, a 35-year sponsor of the Alabama Deep Sea Fishing Rodeo, and a long-time sponsor of both the Senior Bowl and GMAC Bowl college football games. The Boys and Girls Clubs of Greater Mobile, the United States Marine Corps Toys for Tots program, the Mobile Ronald McDonald House, and numerous other organizations advocating area youth have also benefited tremendously from Bernie Dittman’s leadership and community involvement. In fact, the station’s efforts have resulted in sales over $14,000,000 over the past 47 years.

Mr. Speaker, please join me in congratulating Bernie and WABB on the occasion of their being honored with the Broadcasters’ Association’s Broadcaster of the Year Award.
community than Bernie Dittman. He is an outstanding example of the quality individuals who have devoted their lives to the field of broadcasting, and I ask my colleagues to join with me in congratulating him on this remarkable achievement. I know Bernie’s colleagues, his family, and his many friends join him in praising and extending thanks for his many efforts over the years on behalf of the First Congressional District and the entire state of Alabama.

RECOGNIZING THE ACHIEVEMENTS OF DEBBY LAWSON

HON. HENRY CUellar
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

Mr. CUellar. Mr. Speaker, I rise today to recognize Debby Lawson for her dedication to teaching the students at Frazier Elementary in the Comal Independent School District. Today’s students that go through our nation’s public school systems have an innate right to be taught the necessary skills to tackle all the challenges that will encounter through the course of their lives. Teachers provide them with this right day after day and in Debby Lawson’s case she has been doing this for 30 years now.

Receiving her bachelor’s and master’s degrees from the University of Texas in Austin, she has been able to take these tools learned in the college classroom and turn them into results in the elementary classroom. The learning environment promoted by Mrs. Lawson is one that teaches the students the values of communication between themselves and their fellow students. Her second grade students are encouraged to “support each other and celebrate the successes of their classmates.” This provides our nation’s children with the fundamentals to learning how to understand and work along side their peers, an invaluable asset as they grow older.

Teachers like Debby Lawson give our nation’s children the necessary foundations to help them forge their minds into tomorrow’s great. I am honored to have this opportunity to recognize Debby Lawson for her dedication to teaching our community’s children.

EMERGENCY IMMIGRATION WORKLOAD REDUCTION AND HOMELESS SECURITY ENHANCEMENT ACT OF 2005

HON. SAM GRAVES
OF MISSOURI
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

Mr. GRAVES. Mr. Speaker, I rise today still afraid for our nation’s security. Not because of terror attacks, but because our borders remain porous. The enforcement of our immigration policy is impotent, resulting in a continued flood of illegal immigrants across our borders. It is time for the federal government to stop letting unchecked mass immigration undermine the wages, safety, and benefits in one occupation after another. It is time for the federal government to moderate immigration and to treat American workers, citizen and immigrant, with the respect they deserve.

Our constituents did not elect us to help cheapen the quality of their lives by importing foreign workers at six to eight times the historical average. There is no getting around the fact that when we cheapen labor with unchecked illegal immigration, we cheapen our neighborhoods and the futures of our students alike.

Today, I introduce the Emergency Immigration Workload Reduction and Homeland Security Enhancement Act of 2005. This legislation would suspend certain nonessential visas in order to provide temporary workload reduction critical to the success of the immigration component of the recently established Department of Homeland Security. These suspensions would be lifted following the certification by Secretary of Homeland Security to Congress that specific conditions ensuring the department’s ability to carry out its enforcement responsibilities have been met.

Zealous enforcement of our immigration laws is a critical first step; however, Congress must look at the root causes of our policy flaws. In this era of global terrorism, we must reevaluate our immigration policy and close these outstanding loopholes to give the Department of Homeland Security the tools it needs to protect our soil.

I call on my colleagues to join me in working to reform our immigration policies and to halt the cheapening of America’s citizen and immigrant workers. Without real immigration reform, our borders will not be safe and our citizens will be at risk.

FORTY YEARS OF WORKING FOR PEACE AND INTERNATIONAL UNDERSTANDING

HON. BERNARD SANDERS
OF VERMONT
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

Mr. SANDERS. Mr. Speaker, this year marks the fortieth anniversary of the School for International Training in Brattleboro, Vermont. As one of the foremost schools for cross-cultural education in the world, its record is one trail-blazing effort after another, a whole series of initiatives that have transformed both the world, and the way education about the world is shaped. The SIT, as it is known, was an outgrowth of the Experiment in International Living, which originated in 1932 when Donald Watt took twenty American teenagers to Europe to live together with teenagers from several European nations. Year after year that program grew and prospered.

In the wake of World War Two the Fulbright Program for the international exchange of scholars and the establishment of the Peace Corps increased this Nation’s commitment to the exchange of citizens between different countries and cultures. The SIT was founded in order to provide training and ultimately advanced degrees to those who wanted to work and teach in a global context. It was an early and important resource for Peace Corps training—an unsurprising fact, given that Sergeant Shriver, the first Director of the Peace Corps, had in 1934 been a member of one of the earliest Experiment in International Living programs, both citizens and immigrants alike.

The SIT has remained the same for forty years: language training, field-based practice, and a commitment to internationalism.

The School for International Training is not only about technical training for international exchange and work. It has a central vision and a central mission: world peace. Its motto is, “Building peace through understanding—one person at a time.” It has lived up to this motto by educating individuals to work in a world where human need is more important than political borders, religious groupings, ethnic identities, or geographical boundaries. It tries to construct a new world in which human beings are united rather than divided by working together to shape a more equitable and peaceful society.

Too often our world today is rent by violence or plundered by corporations looking only to make a quick profit. Building peace and community takes time and steadfast effort. It also takes vision, and a deep sense of generosity. The School for International Training—it’s leaders, its teachers, its generation of students—have devoted time, effort, vision and generosity in extraordinary measure.

As it celebrates its first forty years, I, the people of Vermont, and the citizens of both the American Nation and the world, wish the School for International Training forty more years of success.

HONORING MR. GENE A. LUNDQUIST

HON. JIM COSTA
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

Mr. COSTA. Mr. Speaker, I rise today to honor and wish well in retirement Mr. Gene A. Lundquist, of Bakersfield, California. Gene has greatly served his community through the various organizations with which he has been involved.

Gene has recently retired from Calcot, Ltd., following 36 years of work within this corporation. In his most recent capacity, Gene was the Vice President of Calcot’s Legislative and Public Affairs department also a member of Calcot’s management committee, and took part in Board of Directors’ activities.

His career with Calcot began in 1969 and Gene made an impression on all of those who worked with him. He is well known by growers throughout California and Arizona, he represented Calcot at various functions, and he directed the grower relations program.

Gene was always the liaison on which people could count. He guided the public affairs program, and assisted with farm legislation and legislators.

While growing and expanding in his various duties at Calcot, Gene also joined other beneficial organizations. He is the director of the Kern County Water Agency, of which he has been a member for over 20 years. This agency is the second largest contractor of state project water, after the Metropolitan Water District in Los Angeles. The Agricultural Council of California, the National Cotton Council, and the Seed Saving and Pricing Committee of California Cotton Planting Seed Distributors are just a few of the other councils and committees on which Gene has served.

Throughout his career Gene has been committed to providing information to the public on various important issues to work in a world where human need is more important than political borders, religious groupings, ethnic identities, or geographical boundaries. It tries to construct a new world in which human beings are united rather than divided by working together to shape a more equitable and peaceful society.

Too often our world today is rent by violence or plundered by corporations looking only to make a quick profit. Building peace and community takes time and steadfast effort. It also takes vision, and a deep sense of generosity. The School for International Training—it’s leaders, its teachers, its generation of students—have devoted time, effort, vision and generosity in extraordinary measure.

As it celebrates its first forty years, I, the people of Vermont, and the citizens of both the American Nation and the world, wish the School for International Training forty more years of success.
CONGRESSIONAL RECORD — Extensions of Remarks  

April 27, 2005

Although Gene has become well known and quite comfortable with the various agencies in California, he has also expanded his horizons. He participated in the California Agricultural Leadership Program and traveled to Africa and visited Nigeria, South Africa, Ethiopia, Kenya, and Egypt to observe the culture, economies and governments of those nations.

His many experiences both here and abroad have combined to make Gene the all around great guy that he is. His family, wife Susan and son Nels, have graciously shared Gene with the community for many years. While I am sure that Gene will not completely retire from public service, I am sure he will be spending more time with his loved ones.

For us, his retirement is bittersweet—although it is well deserved his efforts will be greatly missed. I congratulate Gene Lundquist, and wish his family all the best.

IN HONOR OF STAFF SERGEANT KIMBERLY FAHNESTOCK VOELZ

HON. BILL SHUSTER  
OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Mr. SHUSTER. Mr. Speaker, I rise today in honor of a young woman who made the ultimate sacrifice for her country. Staff Sergeant Kimberly Fahnestock Voelz of Cumberland County Pennsylvania died December 14, 2003 in Iraq from injuries sustained on the battlefield. A Leader of the Explosive Ordnance Dispos- sal Team, Kimberly was fatally injured performing her duties with the EOD while approaching a suspicious device outside of Fallujah, 40 miles west of Baghdad. She is credited by her superiors as saving countless lives.

Born in Camp Hill, Pennsylvania on August 24, 1976 to Floyd Jr. and Carol (Mardis) Fahnestock Kimberly graduated from Trinity High School and joined the Army after briefly studying at Wilson College in Chambersburg, PA. She was also a member of St. Joseph’s Catholic Church in Mechanicsburg.

Serving with the 2nd Explosive Ordnance Company, 2nd Explosive Ordnance Disposal (EOD) stationed at Fort Knox, Kentucky, Staff Sergeant Voelz began her tour of duty in Iraq in September 2003. During her time of service to her country, she was awarded the Army Commendation Medal, the Army Achievement Medal with one Oak Leaf Cluster, two Good Conduct Medals, and a National Defense Service Medal. Sergeant Voelz was also Post-humously awarded the Bronze Star for Valor, the Purple Heart, and the Global War on Terrorism Expeditionary Medal for her service in Iraq. Kimberly was the first female soldier from Pennsylvania to die serving in Operation Iraqi Freedom.

Described as a bright, talented self-starter, Voelz loved what she did, plain and simple. She reenlisted for another 10 years of service shortly before her death. Voelz chose EOD because it was something different, and it took her all over the world. She was often assigned Secret Security detail ensuring government fa- cilities were free of explosives, including events such as the 2002 Winter Olympics and a visit by the late Pope John Paul II to St. Louis.

Staff Sergeant Kimberly Fahnestock Voelz will be honored in a ceremony at Letterkenny Army Depot in Carlisle, Pennsylvania on May 2nd, 2005. Upon the recent completion of a new security gate, it will now bear Kimberly’s name in honor of her service and sacrifice to the security of this nation. It is a fitting tribute that validates both her distinguished work as an Ordinance Soldier and Lettnerky’s mission to support national security.

Mr. Speaker, I extend my heartfelt con- dolences to her husband Sergeant First Class Max Voelz, who was holding Kimberly in his arms when she died from her injuries. To her parents, brothers Chad, Mark and sister Kelly, I would like to convey my heartfelt sympathy and the thoughts and prayers of the entire 2nd Brigade Combat Team. Kimberly was “their hero”. We are humbly indebted to them for their sacrifice and a grateful nation honors Kimberly’s memory.

COMMENORATING AFRICA MALARIA DAY

HON. BETTY MCCOLLUM  
OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Ms. McCOLLUM of Minnesota. Mr. Speaker, whether you are from Minnesota or Mozambique, Kansas or the Congo—we all want good health for our children and we all want and the hope that tomorrow will be a beautiful day, maybe even better than today. Sadly, for millions of families across the African continent, good health, opportunity and hope are all needlessly diminished or extin- guished by malaria.

Now I’m from Minnesota so I know a lot about cold winters and just as much about mosquito filled summers, but in Minnesota our mosquitoes annoy us—they don’t make us sick and they don’t kill our children.

The human misery and economic destruc- tion caused by malaria in Africa is a reality that must change.

And we have the tools to slow malaria’s de- struction—bed nets, improved sanitation, im- proved drug treatments, appropriate pesticide use and a committed global partnership to pro- vide resources and to help strengthen na- tional health systems to fight malaria as well as tuberculosis and HIV infection.

Every year across the African continent more than one million babies, toddlers and children under five years old die from malaria. This unimaginable number of children dying last year alone is equal to every single child under 15 years of age in my state of Min- nesota.

One million African children dying in a single year from a preventable disease is beyond comprehension, but in fact it is reality and it is a reality that can and must be changed.

For those of us who are moms and dads, we know small children burning with fever don’t scream, they whimper almost silently and they stare into your eyes looking for help. Their voices are not heard.

More than a million African moms stare back into their children’s eyes equally help- less. And tragically they watch them die from a disease that can be prevented, treated and defeated, if, if the world comes together with the resolve to defeat malaria, and we can save lives, complete the health system to fight malaria as well as tuberculosis and HIV infection.

Every year across the African continent more than one million babies, toddlers and children under five years old die from malaria.

One million African children dying in a single year from a preventable disease is beyond comprehension, but in fact it is reality and it is a reality that can and must be changed.

For those of us who are moms and dads, we know small children burning with fever don’t scream, they whimper almost silently and they stare into your eyes looking for help. Their voices are not heard.

More than a million African moms stare back into their children’s eyes equally help- less. And tragically they watch them die from a disease that can be prevented, treated and defeated, if, if the world comes together with the resolve to defeat malaria, and we can save lives, complete the health system to fight malaria as well as tuberculosis and HIV infection.

Today we need to hear those one million tiny voices. Today we need to look back into the eyes of a million mothers with our com- passion and our commitment.

The leadership of the United States, along with other donor nations, when partnered with the Global Fund, the United Nations, W.H.O., UNICEF, along with health ministries and health workers across Africa stand to- gether—can transform the helplessness faced by millions of moms into the promise of sur- viving, thriving children and healthier families.

I am proud of the commitment Congress, the White House and the American people have made and will continue to make to over- come malaria and the suffering and poverty it causes. But there is much more work to be done. On-going American leadership and strong global partnerships are needed for Afri- can leaders, health workers and citizens to successfully control malaria.

So, as we commemorate Africa Malaria Day, let me conclude by paying tribute to our partners—the partners we must not forget. They are the heroes who struggle against ma- laria everyday. They are the community health workers and midwives, the doctors and nurses, the lab technicians and pharmacists. They work in village health centers, urban hospitals and rural clinics and they are saving lives, often times under very, very difficult conditions.

And together—as partners—their work along with our support, our commitment and a col- lective sense of urgency—can save lives, keep families healthier and keep entire com- munities free from malaria’s misery.

HONORING COMMANDER LEDA MEI LI CHONG  
OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Mr. SESSIONS. Mr. Speaker, I rise today to recognize the outstanding efforts of and the recent promotion of Commander Leda Mei Chong of the United States Navy.

Commander Chong was born in Kwoon, Hong Kong and calls San Diego, California her hometown. After graduating from the Uni- versity of California-San Diego with a degree in Mathematics and French literature, she joined the Navy through the Nuclear Propulsion Officer Candidate program and received a direct commission as an Ensign in November 1987.

Commander Chong reported to her first as- signment at Naval Nuclear Power School, Or- lando, Florida as an instructor of mathematics, chemistry, materials engineering, and radi- logical controls. Her second assignment was as the Administrative Department Head at Alisat Training Group Pacific, San Diego. In 1994 she reported to Naval Postgraduate School as a student in the Systems Technol- ogy/Joint C3I curriculum.

Her next assignment was the Navy’s Drug Law Enforcement Agency where she was con- signed to the Coast Guard’s Tele- communications and Information Systems Command (TISCOM). As the liaison to the Coast Guard, she was responsible for military satellite communications interoperability and policy. Following TISCOM, she moved to the Deputy Director for C4 to Commander Iceland De- fense Force and the N6 for Commander, Fleet Air Keflavik.
Commander Chong completed her tour in Keflavik in the Fall of 2000 and transferred to Washington, DC, to work for the Director of Space, Information Warfare, Command and Control (CNO N6). She was the Navy requirement officer for the Teleports program, for Australian, New Zealand/United Kingdom/United States (AUSCZANKUS) allied interoperability, and for Naval Communications and Telecommunications Commands. From 2002 to 2005, she was the Space, C4ISR, and Information Technology Congressional Liaison in the Navy Office of Legislative Affairs. She is currently serves as a Navy Appropriations Congressional Liaison in the office of the Assistant Secretary of the Navy (Financial, Management and Comptroller).

I have personally known Commander Chong since 2000 when she assisted my office and my staff with our work on Navy cybersecurity issues. At that time, as she is now, she displayed an extremely high level of professionalism as well as in-depth knowledge of Navy IT and cybersecurity issues.

Her recent promotion from Lieutenant Commander to Commander is only one instance where her performance has been recognized and I rise here today to express my appreciation for her efforts as well.

Quite simply, the Navy is well served by Commander Chong, as is the staff and members of this body.

TRIBUTE TO MR. JONAS KISBER
HON. JOHN S. TANNER
OF TENNESSEE
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

Mr. TANNER. Mr. Speaker, I rise today to pay tribute to a great American and very dear friend of mine, Mr. Jonas Kisber, of Jackson, Tennessee. Jonas just recently celebrated his 75th birthday, surrounded by family and many friends.

Jonas was born into a family of retail merchants. Kisber’s Department Store, founded in 1905, was a fixture in Jackson for many years. Everyone in West Tennessee was familiar with Kisber’s Store and when the store closed in December of 1991, it was an emotional, as well as economic, loss for the area.

Jonas entered the United States Army in 1952. He served in the Korean conflict, and was honorably discharged in 1954 when he began his career at the family business. Jonas served as President of Kisber’s Department Stores, Inc. from 1974 until 1991. He has been involved in many civic and cultural activities. He and his late wife, Jane Louise Greenberg Kisber, were well known in their community and in the State of Tennessee for being available to help when you needed someone you could count on to get a job done.

Jonas was the founding Treasurer of the Episcopal Day School, has served in various offices for the Friends of the Jackson Madison County Library Foundation, was President of the Tennessee Retail Merchants Association in 1976–1977, is a member of the Tennessee Library Association, the Jackson Lions Club, served on the Board of Directors of the Jackson Area Chamber of Commerce, and is a past President of the Temple B’nai Israel. He is a member of the Board of Directors of Murray Guard, Inc. He is also currently a member of the Tennessee Board of Regents, a position previously held by his wife, Jane, and to which he was appointed at the time of her death in August of 2002.

He and his late wife are the parents of three children, Joan Kisber Haskins of Chicago, Illinois, Matthew Harris Kisber of Nashville, Tennessee, and Rachel Kisber Obermeier of Bad Soden, Germany. Matt, a former Tennessee State Representative for many years, currently serves as Commissioner of the Tennessee Department of Economic and Community Development. Jonas is also the proud grandfather of three boys and a new granddaughter.

Throughout his life, Jonas has contributed much to his community, his state and his nation. He has never shied away from work when his skills and efforts were needed and could make a difference. It is my high honor to recognize his many achievements and contributions, and to say thanks to him for all he has done through the years to make the City of Jackson and the State of Tennessee a better place in which to live.

RECOGNIZING THE ACHIEVEMENTS OF MARJORIE CLAGETT
HON. HENRY CUELLAR
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

Mr. CUELLAR. Mr. Speaker, I rise today to recognize Marjorie Clagett for her dedication to teaching the students at Goodwin Primary School in the Comal Independent School District.

When someone thinks of a teacher, they most often think of someone who is in the classroom lecturing students about reading and arithmetic. Although this is what usually is expected of a teacher, some teachers commit themselves to students in other ways not as frequently seen in the typical classroom setting. Marjorie Clagett is a perfect example of someone who goes the additional mile to educate her students. Not only is she a great teacher to the students but she also serves as an advisor to them in any way she can. She is there for them to talk about any of the problems that they might be encountering in life and it is for this that she truly is a role model to them.

Educated at Upper Iowa University and St. Mary’s University, Mrs. Clagett has the knowledge and experience to help the students in her first grade class not only enrich their minds but also enrich their lives. Her dedication to her class is something that teachers around the world should view as an example of how not only to become a leader to students but also a trusted confidant.

Citizens like Marjorie Clagett provide our nation’s children with a teacher in the classroom while also being a friend and role-model to them. I am honored to have this opportunity to recognize Marjorie Clagett for her continuing service to the children of the Comal community.

UNVEILING AND DEDICATION OF THE MOBILE MAMMOGRAPHY UNIT
HON. CHARLES A. GONZALEZ
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

Mr. GONZALEZ. Mr. Speaker, I rise today to commend CHRISTUS Santa Rosa Health Care for the dedication of the only Mobile Mammography Unit (MMU) in the area of San Antonio and surrounding counties. The MMU will provide breast health services and education to women who otherwise would either have difficulty accessing or not be able to access these services because of financial, transportation, cultural or other constraints.

The CHRISTUS Santa Rosa MMU will assist those who are uninsured and underserved as well as working women who have difficulty leaving the workplace to get a mammogram. All women who have a positive mammogram will be guided to appropriate medical services for follow up care.

As we know, breast cancer is the leading cancer among white and African American women. Statistically, every three minutes a woman in the United States is diagnosed with breast cancer and one out of every eight women in America will develop breast cancer at some time in her life. However, when breast cancer is detected early, a five-year survival rate is 96 percent.

Today, CHRISTUS Santa Rosa Hospital is proud to begin offering assistance for screening mammograms to the women of South and Central Texas to include uninsured and underinsured women of San Antonio and the surrounding counties. The MMU has partnered with community organizations such as the San Antonio Affiliate of the Susan G. Komen Foundation, WINGS (Women Interested in Nutruring, Giving, Sharing), the Alamo Breast Cancer Foundation, the Breast and Cervical Cancer Programs, the San Antonio Metropolitan Health District and many others to provide the full range of services.

Mr. Speaker, once again, I would like to commend CHRISTUS Santa Rosa in San Antonio, Texas for bringing the mobile mammography unit back to the area after three years of not having a unit. I especially want to thank the collaboration of community organizations, the doctors, nurses and staff for their hard work and continued dedication, and wish them well as they continue their life-saving services to the community.

SUPPORTING THE MINUTEMAN PROJECT
HON. DARRELL E. ISSA
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

Mr. ISSA. Mr. Speaker, I rise today to recognize and commend the successes of the Minuteman Project whose efforts have helped shine light on the flood of aliens illegally entering our country each day and the many deficiencies in United States border security.

It is an extraordinary event when citizens around the world should view as an example of how not only to become a leader to students but also a trusted confidant. Citizens like Marjorie Clagett provide our nation’s children with a teacher in the classroom while also being a friend and role-model to them. I am honored to have this opportunity to recognize Marjorie Clagett for her continuing service to the children of the Comal community.
the Arizona desert to stand watch at the border. For years, we have tried to contain the onslaught of illegal immigration and smuggling into the United States, but we have done so with too few personnel and with policies in place that have undermined these efforts and often aided those illegally present in our country. This administration has realized that we cannot be effective in securing our borders if we have the personnel and policies in place to do the job. In just seventeen days, the Minutemen proved that a few dedicated citizens could stifle a significant amount of illegal immigration. They peacefully, unobtrusively, and effectively assisted the United States Border Patrol to intercept numerous illegal border crossings. This was a neighborhood watch program at its finest.

I want to thank the participants in the Minutemen Project for their concern for our country and for their willingness to disrupt their own lives to bring attention to an issue that Congress has not effectively addressed. They have stood their watch on America’s border, now we must decide decisively to expand the Border Patrol and close a hole in our border security that is wide open to those who would harm us.

**TRIBUTE TO THE LATE ANDREW ROLLINS, JR.**

**HON. DENNIS MOORE**

**OF KANSAS**

**IN THE HOUSE OF REPRESENTATIVES**

**Wednesday, April 27, 2005**

Mr. MOORE of Kansas. Mr. Speaker, I rise today to mourn the recent passing Andrew Rollins, Jr., of Kansas City, Kansas.

Andy Rollins was a longtime civic activist in Wyandotte County and Kansas City, Kansas, who spent over 40 years working to improve the lives of his neighbors and the conditions within his community. I am placing in the Congressional Record with this statement two recent newspaper articles from the Kansas City Star and the Kansas City, Kansas, detailing Andy Rollins’ 88 years of good works. He served for 16 years as the president of the Kansas City, Kansas, chapter of the National Association for the Advancement of Colored People, and for 16 years had served as the president of the Kansas City, Kan., chapter of the National Association for the Advancement of Colored People.

He worked over the years to bring a hotel to downtown Kansas City, Kan., next to the Jack Roardon Civic Center. At one time he was instrumental in getting the construction fund that was presented as investors for hotel projects that never materialized. “I loved the city and I loved to see the city grown,” Rollins said in 1992.

Dennis Hays, county administrator Unified Government, said Rollins worked tirelessly to find the money and financial backing to make the hotel project happen. The Hilton Garden Inn was eventually built at the site and opened in September 2002. While Rollins was not involved in the final financing for the project, Hays said, Rollins was very active in searching for financing and should be credited for his work. “Andy was amazing,” Hays said.

Hays said Rollins had a long interest in the area dating back more than 60 years, to the days of World War II.

Those friendships included federal, state and local officials, Hays said. “He had access to those folks and an uncanny ability of getting the right people together to address issues and solve problems,” Hays said. “He was able to pull the right people together.”

Police Chief Ron Miller said he had known Rollins for many years and worked with him on some of the issues surrounding the Police Department. Miller said, and was a good conduit for information on issues facing the community. “Andy Rollins loved Kansas City, Kan., and dedicated his community,” Miller said. “He had national exposure in various groups, but he was always proudest of Kansas City, Kan.”

LaVerd Murray, director the Unified Government’s development department, said Rollins was a mixture between a community activist and a community booster. “He worked hard to better his community,” Murray said. “His desire was to make Kansas City, Kan., the best community that existed in the U.S. and to improve the entire metropolitan area.”

In 1992, Rollins received four medals and ribbons he earned in the U.S. Army during World War II, receiving European, African, and Middle Eastern Theater Ribbons, the Good Conduct Medal, the American Campaign Medal, and the World War II Victory Medal.

Mr. Speaker, Kansas City, Kansas, is a much stronger and richer community for having Andrew Rollins, Jr., as a member of the community. I commend him to you and to the members of this House and I join with his family and his many, many friends in mourning his loss.

[From the Kansas City Star]

**Andrew Rollins’ Passion for Growth Left Mark on KC**

(By Edward A. Cronkleton)

City and county leaders fondly remembered Andrew Rollins Jr., a long-time Kansas City, Kan., activist, who died last week at the age of 88. Rollins helped secure private financing for community projects and had worked for years to promote economic development in Kansas City, Kan., and the metro area. “We had anyone who cared about the community more than Rollins did,” said Don Denney, a spokesman for the Unified Government of Wyandotte County and Kansas City, Kan.

La Vert Murray, Unified Government director of economic development and friend of the late Rollins, said it’s difficult to sum up the amazing impact social Rollins made during his life. Murray said he went to school with Rollins’ sons and had always known him. It wasn’t until he became involved with the UG of Wyandotte County, Kansas City, Kan., that he understood the power of this man.

He encouraged people to live out their dreams, “He wanted to make a better Kansas City, Kan., and he wanted to see African-Americans actively participating in their community. He wanted to inspire.”

Edward said his father’s civic career consisted of many great accomplishments. He said he remembers his father serving as president for the Kansas City, Kan., branch of the NAACP, for 16 years. He also said he was deeply involved in making Wyandotte County a better place to live. The Rev. Andrew Rollins III, one of Rollins’ two sons, said his father was someone who didn’t mind stepping out and taking a chance. He said he was always willing to put his life on the line to make a difference. “He encouraged people to live out their dreams.”

Edward said, “He wanted to make a better Kansas City, Kan., and he wanted to see African-Americans actively participating in their community. He wanted to inspire.”

Edward said his father was extremely involved in politics. He said his father helped finance City Hall, and a plaque hangs on the wall commemorating his achievements. “He was instrumental in getting the hotel to get that building built,” Edward said. “He also secured private funding for other developments within Wyandotte County as well. He was always focused. That’s what he was about.”

Edward said his father slept only four hours a day for the past 30 or 40 years of his life. He said he was very self determined and had a lot more than 100 men behind him. “He led an army,” Edward said. “He has a lot of soldiers with him.”

La Verd Murray, Unified Government director of economic development and friend of the late Rollins, said it’s difficult to sum up the amazing impact Rollins made during his life. Murray said he went to school with Rollins’ sons and had always known him. It wasn’t until he became involved with the UG of Wyandotte County, Kansas City, Kan., that he understood the power of this man.
Murray said Rollins was a very dynamic individual that got things started. He said he helped fund a variety of development initiatives such as the Jersey Creek Project, the Jack Reardon Convention Center, the Hilton Garden Inn/BPU Office Complex and the most recent, the Weed and Seed program, which helps weed out criminal elements in the community. He started the Human Engineering Committee for Kansas and Missouri, which focused on getting the Weed and Seed program going,” Murray said. “The program helped produce positive individuals and communities.

Murray said Rollins was proud of his accomplishment of securing grants to demolish drug houses. He said those areas are more secure because the drug houses have been cleared. “When you look at the areas in the community that are yet redeveloped, at least a number of those areas are more secure because the dilapidated structures are torn down.”

Murray said that oftentimes Rollins came across as a commoner. He said while he gave a number of those areas are more secure because those areas are more secure because the dilapidated structures are torn down.”

Murray said that oftentimes Rollins came across as a commoner. He said while he gave this appearance he was able to effectively communicate across all lines, including those of senators, representatives and the common man.

Andy said it’s hard to believe his father’s life will affect people in the future but he knows he will be remembered.

Edward said his father helped countless amounts of people. He reached out to urban areas, helped black people get involved and showed them how to become active in their community. “God put him on this earth to do something with Wyandotte County,” Edward said. “He made Wyandotte County a positive place to live and raise kids.”

ENERGY POLICY ACT OF 2005

SPEECH OF HON. BOB FILNER OF CALIFORNIA IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Mr. FILNER. Mr. Speaker, today I enter into the CONGRESSIONAL RECORD a report by the Iran Policy Committee (IPC) entitled, “U.S. Policy Options for Iran.” The IPC found that Iran presents a growing challenge to U.S. interests and values in a number of areas. The report examines the U.S. policy options for addressing these concerns and calls for change in Iran based on internal Iranian opposition.

We must foster greater awareness and dialogue in Congress about this critical situation. To that end, I urge my colleagues to review this report and join me developing an effective U.S. policy on Iran.

U.S. POLICY OPTIONS FOR IRAN

PREPARED BY: IRAN POLICY COMMITTEE (IPC)

CO-CHAIRS

Ambassador James Akins, (ret.)
Lt. Col. Bill Cowan, USMC (ret.), CEO, wvc3, inc.
Paul Leventhal, Founder and President Emeritus, Nuclear Control Institute
Dr. Neil Livingstone, CEO, Global Options, Inc.
Bruce McColm, President, Institute for Democratic Strategies and Former President, International Security Council
Lt. General (ret.) Thomas McInerney Former Assistant Vice Chief of Staff of the Air Force
Captain Chuck Nash (ret.) President, Emerging Technologies International
Lt. General Edward Rowny (ret.) Former Ambassador Strategic Arms Reduction Talks Professor Raymond Tanter Former Staff Member, National Security Council
Major General (ret.) Paul Vallely, Military Committee Chairman, Center for Security Policy
Executive Director: Clare Lopez Strategic Policy and Intelligence Analyst

U.S. POLICY OPTIONS FOR IRAN: EXECUTIVE SUMMARY

Iran poses six threats to American interests and ideals:

Drive to acquire nuclear weapons.
Continuing support for and involvement with terrorist networks.
Aid to groups working against the Arab-Israeli peace process.
Disruptive role in Iraq.
Expansionist radical ideology.
Denial of basic human rights to its own population.

With respect to these threats from Iran, Washington circles largely divide between two alternatives—those who favor engagement with and those who support military strikes against the regime. Few favor regime change as an end in itself.

While the Bush administration does not yet explicitly call for changing the regime, it advocates working with the Iranian people who opposed the unelected theocracy in Tehran, which is an implicit policy of regime change.

By calling for change in Tehran based on the Iranian opposition instead of the U.S. military, the Iran Policy Committee (IPC) highlights a third alternative: Keep open diplomatic and military options, while providing a central role in U.S. policymaking regarding Iran.

Comprised of former officials who have worked on the Middle East in the White House, State Department, Pentagon, intelligence agencies, Congress, and experts from think tanks and universities, IPC welcomes the occasion to support the Iranian opposition groups in pursuit of U.S. national interests. But continued designation since 1997 of the main Iranian opposition group, Mujahedeen e-Khalq (MEK), as a foreign terrorist organization by the State Department assures Tehran that regime change is off the table. Removing the MEK’s terrorist designation would be a tangible signal to Tehran and to the Iranian people that a new option is implicitly on the table—regime change.

U.S. POLICY OPTIONS FOR IRAN

INTRODUCTION

“... liberty in our land depends on the success of liberty in other lands... So it is the policy of the United States to seek and support the growth of democratic movements and institutions in every nation and culture.—President George W. Bush, Inaugural Address, 20 January 2005.

“... the American people stand with you.”—President George W. Bush, State of the Union Address, 2 February 2005.

Using the theme of liberty in general from his Inaugural Address, President Bush refers directly to the Iranian people in his State of the Union Address. In so doing, he tacitly "targets" the regime in Tehran.

The question is what means should the President use to decrease threats posed by Iran?

Continued negotiations, including positive and negative incentives.
Future military action.
Support for the Iranian opposition.

These options are neither mutually exclusive nor logically exhaustive; but they do reflect courses of action being considered in Washington.

Because the Iranian regime’s policies pose direct threats to national security interests...
and ideals of the United States Government (USG) and those of its allies and friends, Iran is on the front burner of American foreign policy.

Consider these six Iranian threats to U.S. interests and ideals:

1. Drive to acquire nuclear weapons.
2. Continuing support for and involvement with Iranian opposition groups.
3. Aid to groups working against the Arab-Israeli peace process.
4. Disruptive role in Iraq.
5. Expansionist radical ideology.
6. Denial of basic human rights to its own population.

The Iran Policy Committee (IPC) analyzes these dangers and makes recommendations to meet them. It is not the intention of the IPC to duplicate analysis already receiving considerable attention in other circles. To the contrary, this paper offers a distinct perspective and recommends a course of action that is different in key aspects from what has been proposed to date. IPC seeks to build upon the President’s disposition to work with the Iranian people by broadening options for American policymakers regarding Iran.

For too long, Washington has been divided between those who favor engagement with and aid to support military strikes against the Iranian regime. The Committee stresses the potential for a third alternative: Keep open diplomatic and military options, while diplomatic efforts to engage the Iranian opposition to facilitate regime change.

President Bush’s 2005 State of the Union Address ignores the leadership in Iran in order to converse directly with Iranian people. And it is not his first time doing so; indeed, the President’s radio address of December 2002 began the process of having a conversation with citizens instead of diplomatic discourse with the regime.

The IPC urges the administration to acknowledge the threat posed to American national security interests by the totalitarian theocracy in Tehran and to adopt a policy that proactively steps forward to defend those interests.

Furthermore, the IPC believes that Washington should support the Iranian people in their efforts to participate meaningfully in a representative government that is responsive to them. The Committee is in such support the recognition that the Iranian people have the right to choose and change their own government, as they see fit.

The IPC believes that Washington over Iran policy initiated by think tank reports on Iran—Council on Foreign Relations (CFR), The Committee on the Present Danger (CPD), and The Washington Institute for Near East Policy (TWI). In contrast to the thrust of such reports, IPC suggests that Iran-nation opposition groups ought to play a central role in U.S. policymaking regarding Iran.

Themes running through these think tank reports are the following reasons for dissatisfaction with American policy toward Iran. Critics hold that U.S. policy is not well articulated because of bureaucratic and most urgent.

Regarding impact in the region, the nature of the regime in Tehran is of greater import than its nuclear weapons capability: An Iran with representative institutions with a nuclear weapons capability would not be as destabilizing as nuclear weapons in the hands of the untested, expansionist theocracy. The best outcome is a freely-elected, representative government without nuclear weapons; only with such a government would the six critical threats posed by Iran, its drive to acquire nuclear weapons be the first and most urgent.

According to June 2004 testimony by Undersecretary of State for Arms Control and International Security, John Bolton, defense experts in the United States strongly believe that Iran has a clandestine program to produce nuclear weapons. Speaking in January 2004, Bolton said that the British-Iranian group charged that Iran has obtained materials and expertise to make neutron initiators (“triggers”) for an atomic bomb. A senior official of the National Council of Resistance of Iran (NCRI), speaking in Paris, first being identified by the NCRI in November 2004.

The NCRI has been instrumental in exposing Iran’s secret nuclear facilities in the past. By relying on its network inside Iran of a member organization, the Mujahedeen-e Khalq (MEK), the NCRI revealed a number of significant nuclear sites, including Natanz, Arak, Ab-Ali, and Lavizan.

Despite the fact that Iran is a signatory to the NPT, Tehran has repeatedly violated its provisions and continues to make test and loose with IAEA efforts to monitor compliance. The regime appears to be counting on the apparently inexhaustible patience of the IAEA and the Europeans, who have agreed to compromise after compromise with Iran, to avoid having the issue brought before the United Nations (UN) Security Council, as pursued by the United States. The longer this negotiation takes, the more time Iran has to engage in covert activities, enabling it to build and test nuclear weapons.

In other words, time is on Iran’s side. The world cannot wait for proof “beyond a reasonable doubt” of an Iranian bomb. The risks of delay are too high. The international community should be prepared to act on the recent discoveries of evidence of weapons-relevant nuclear activities. Since the late 1990s, stronger sanctions and the threat of military action have been necessary.

The nightmare scenario is that a nuclear weapons capability in the hands of an aggressive and repressive regime in Tehran would raise the potential for Iran to collaborate with transnational networks to carry out nuclear terrorism. In any event, of the six critical threats posed by Iran, its drive to acquire nuclear weapons is the first and most urgent.

There have been new revelations about the rapid pace of Iran’s nuclear weapons progress since 2002. It is known that Iran is developing its indigenous uranium mining; has built a uranium conversion facility at Isfahan in central Iran; is building a massive uranium enrichment facility at Natanz, which is designed to bring into production at least one hundred centrifuges and one thousand other centrifuges plus numerous centrifuge production workshops, a heavy water production plant at Arak, and a laser enrichment facility.

Revelations by diplomatic sources on February 3, 2005 suggest that Iran is testing components of its centrifuge rotors, despite a November 2004 pledge to freeze all such activities related to enrichment. That pledge led to an agreement among Iran’s European friends and the International Atomic Energy Agency (IAEA) to put a hold on U.S. attempts to report Iran to the UN Security Council for violations of the Treaty on the Non Proliferation of Nuclear Weapons (NPT).

The new revelations deal a serious blow to any hopes that Iran intends to forego uranium enrichment route to a nuclear weapons capability.

In separate developments on February 3, a spokesman for the main Iranian opposition group said that Iran is engaged in the acquisition of materials and expertise to make neutron initiators (“triggers”) for an atomic bomb. A senior official of the National Council of Resistance of Iran (NCRI), speaking in Paris, first being identified by the NCRI in November 2004.

The NCRI has been instrumental in exposing Iran’s secret nuclear facilities in the past. By relying on its network inside Iran of a member organization, the Mujahedeen-e Khalq (MEK), the NCRI revealed a number of significant nuclear sites, including Natanz, Arak, Ab-Ali, and Lavizan.

Despite the fact that Iran is a signatory to the NPT, Tehran has repeatedly violated its provisions and continues to make test and loose with IAEA efforts to monitor compliance. The regime appears to be counting on the apparently inexhaustible patience of the IAEA and the Europeans, who have agreed to compromise after compromise with Iran, to avoid having the issue brought before the United Nations (UN) Security Council, as pursued by the United States. The longer this negotiation takes, the more time Iran has to engage in covert activities, enabling it to build and test nuclear weapons.

In other words, time is on Iran’s side. The world cannot wait for proof “beyond a reasonable doubt” of an Iranian bomb. The risks of delay are too high. The international community should be prepared to act on the recent discoveries of evidence of weapons-relevant nuclear activities. Since the late 1990s, stronger sanctions and the threat of military action have been necessary.
Given the nature and behavior of the regime, the more plausible argument is that unless they feel threatened, the Iranian clerical rulers will continue their nuclear weapons program to try to prevent their opponents from ever getting to it. Only the prospect of severe consequences threatening the very existence of the regime could induce them to forgo nuclear programs out of fear of the consequences.

NUCLEAR DELIVERY SYSTEMS: THE IRANIAN MISSILE PROGRAM

Iran possesses one of the largest missile inventories in the Middle East. It has acquired complete missile systems and developed an infrastructure to build missiles independently. In September 2004, the Iranian Revolutionary Guards successfully test-fired a “strategic missile,” likely the Shahab-3 rocket, which reportedly has a range of up to 2,000 kilometers and is capable of carrying a 700–1,000 kilogram warhead. The Revolutionary Guards is officially armed with the Shahab-3 missile.

Taken in combination with Iran’s drive to achieve a nuclear weapons capability, its continuing support for radical Islamist terrorist organizations, and its demonstrated capability to field an intercontinental ballistic missile, Iran’s nuclear program presents a serious threat among defense officials of many countries.

In December 2004, Iran’s main opposition coalition, the National Council of Resistance of Iran (NCRI), reported a new missile program secretly pursued by Iran, as well as a program to develop a nuclear warhead. The new secret missile, produced at the Hemmat Missile Industries Complex in northeast Tehran, is named Ghadar, NCRI reported. North Korean experts are believed to be assisting the Iranian program at this complex.

The Ghadar missile may have a range of 2,500 to 3,000 kilometers (1,550 to 1,860 miles). NCRI also reported that Iran has improved the guidance and control system of its Shahab-4 missiles, based on a system acquired from China.

In late January 2005, a Romanian legislator alleged that Kiev sold nuclear-capable cruise missiles to Iran and China during the period from 1999–2001. The K-55 cruise missile has a range of 3,000 kilometers and is capable of carrying a 200-kilogram nuclear warhead.

In addition to Iran’s nuclear weapons program, its missile delivery systems remain a second threat posed by the regime as its support for and involvement with international terrorist networks.

REGION SUPPORT FOR INTERNATIONAL TERRORISM

The Islamic Republic of Iran is the world’s number one state-sponsor of terror. It created Hizballah, supports al Qaeda, Abu Musab al-Zarqawi, and Hamas and domes the rejectionist ideology. Tehran was instrumental in the creation of Lebanese Hizballah, which formed in 1982 under the sponsorship of Iran’s Revolutionary Guard Corps (IRGC), which arrived in Lebanon as the vanguard of Khomeini’s Islamic revolution.

Iran continues to provide Hizballah with money, equipment, training locations, and refuge from extradition. Its overall financial support to Hizballah totals tens of millions of dollars in direct subsidies each year.

IRANIAN DESIGNS IN IRAQ

Demography and geography facilitate the impact of Iran’s expansionist ideology. With a population three times Iraq’s and a contiguous territory four times Iraq’s, Iran exerts a naturally powerful influence on its western neighbor. In addition, Iran (over 900 miles), and the vast majority of the Iraqi population lives within a 100-mile distance from the Iranian border, placing it well within the sphere of Tehran’s expansionist ideology.

Shiite pilgrims began flowing once again after 2003 between the holy places in Iran and those in Iraq, especially the holy shrines in Najaf and Karbala. Iranian intelligence agents also flooded the country. They quietly and effectively set up a network of agents across Iraq, recruiting local village people, former Iraqi military officers, politicians, and young men to collect intelligence on Coalition forces and facilities.

A long period of Persian domination in Iraq punctuated by a savage eight-year war between Iran and Iraq countered Iranian political influence in the region. During this time, westward expansion of Iran’s theocratic ideology declined. With the April 2003 collapse of Saddam Hussein’s regime and ensuing breakup of existing security and border patrol forces, Iran seized the chance to spread its influence and launched a multifaceted military, intelligence, and political campaign in Iraq. Along with intelligence agents, the Iranian Revolutionary Guard Corps (IRGC) and the Ministry of Intelligence (MOIS) also sent suicide bombers, money, and weapons to support insurgents fighting against Coalition forces in Iraq. Testimony and documentary evidence show that officials at the highest levels of the Iranian government have been involved in planning and providing support for terrorists and suicide bombers affiliated not only with the startup Shiite cleric, Moqtada al-Sadr, but with the forces of wanted Iranian terrorist and al Qaeda associate, Abu Musab al-Zarqawi, and Ba’athist loyalists as well.

In late 2004, an Iraqi terrorist leader captured in Falluja and accused of carrying out beheadings and deadly attacks, claimed that his group was linked to Tehran. In footage aired January 8, 2005 on the U.S.-run television channel, Al-Hurra, Ahmed Yassin, a leader of the Jaish Mohammed (Mohammed’s Army) and a member of Saddam Hussein’s army, said two members of his group went to Iran in April or May, where they met a number of Iranian intelligence officials and the leader of the Islamic Revolution Supreme Leader Ayatollah Ali Khamenei. Iranian officials provided money, weapons, and even “car bombs.” During December 2004, the Najaf police chief said that members of the Iranian intelligence service, in connection with a car bomb that exploded in the holy city on December 26, had exten- sive connections to Iran’s Ministry of Intelligence.

Tehran also recruited over four thousand volunteers for suicide operations in Iraq in public ceremonies in Iran attended by prominent Revolutionary Guards commanders. Iranian intelligence services have pumped millions of dollars and hundreds of operatives into Iraq. In a press conference in October 2004, Iraq’s national intelligence chief, Mohammed Al Shahwani, accused Iran’s Baghdad embassy of recruiting ele- ments for sabotage operations and assassina- tions. Shahwani also said that documents showed Iran had a $45-million budget for sowing chaos in Iraq. At least 27 people working in the Iranian embassy in Baghdad were providing intelligence gathering operations and assassinations, the spy chief added.

Iranian meddling is aimed at frustrating the emergence of a stable and representative government in Iraq and also at keeping the United States so occupied in dealing with the insurgency that it would have neither the will nor the resources to pressure Iran on the nuclear issue. In the months and weeks leading up to national elections in January 2005, Iraqi Prime Minister Nouri al-Maliki and Jordan’s King Abdullah charged that Iran was heavily involved in attempting to influence the outcome to produce a Shiite dominated government similar to Iran’s. In an interview with the Kuwaiti daily, Al-Qabas on January 6, 2005, Iraqi Defense Minister Hazem Shaalan accused the Iranian regime of “interfering [in Iraq] with money, guns, and intelligence.”

With the apparent success of the Iranian elections, Iraq has now entered a new phase. One year after the elections, Iran’s influence on both Iranian media and web sites claimed victory, comparing the Shiites’ gain in the elections with the Iranian revolution that brought an Islamic system to power or with the rise of Hizballah in the Lebanese political scene in the Middle East.

The first and most pressing post-election challenge is to ensure the selection of a rep- resentative National Assembly that would draft a modern, broadminded constitution for Iraq. The aim would be to reflect Iraq’s ethnic and religious diversity. In addition, the Iraqi media and web sites claimed victory, comparing the Shiites’ gain in the elections with the Iranian revolution that brought an Islamic system to power or with the rise of Hizballah in the Lebanese political scene in the Middle East.

The makeup of the future interim government is equally important and might suc- ceed to avoid Iranian dominance by seeking a diverse participation from all sectors of Iraqi society. In the transitional period before the constitution comes up for a vote and a permanent government and mili- tary and security structure, it will be critical to monitor Iranian efforts to influence the process.

EXPANSIONIST RADICAL IDEOLOGY

Iran’s Velayat e-Faqih system poses an immediate and continuing threat to its neighbors because of its aggressive policy of expansion. This policy is evident in Iranian
actions in Lebanon and Iraq, where calcu-
cultivated cultivation of terrorism is an insep-
arable characteristic of the theocratic sys-
tem.

Export of terrorism and extremism is an
intrinsic attribute of Iran’s theocratic sys-
tem. Tehran’s rulers believe their power lies
in awakening the Islamic world to their Isla-
mic ideology. Iran’s leadership, which be-
lieves the Islamic Republic’s survival de-
da on the support of such a global force.

DENIAL OF BASIC HUMAN RIGHTS TO ITS OWN

The human rights situation in Iran has de-
teriorated severely over the past year. Iron-
ically, the European Union’s “human rights
dialogue” has had the opposite effect from
that intended. The regime has merely exac-
ted its suppression of the Iranian citizenry.

In December 2004, the United Nations in a
resolution criticized Iran for public execu-
tions, arbitrary sentencing, flogging, ston-
ing, and systematic discrimination against
women. The measure also condemned “the execu-
tion of minors below eighteen years of age,
and the use of torture and other forms of cruel,
inhuman and degrading punishment.” It also re-
acked Iran for discrimination
against minorities, including Chris-
tians, Jews, and Baha’is.

Gender discrimination and violence
against women in Iran continue to give
cause for grave concern. The parliament has
called for restrictions on women’s
to and on their social freedoms. Depu-
ties have also called for segregating men
and women at universities and for other lim-
its on women’s activities. The number of
publications closed down and of people ar-
rested, prosecuted and sentenced for the
peaceful expression of their opinion has in-
creased.

While the human rights situation deteri-
rated in Iran, the public discontent has been
on the rise.

POLITICAL DISENTEGRATION

Over the past year, hundreds of anti-
government demonstrations were held in Iran,
thus fostering the regime. Originating
with complaints over municipal issues, a se-
quence of protests erupted in 2004 in many
provincial cities, such as Feraydoun Kenar,
Boukan, and the earthquake-stricken city of
Barn, reportedly targeted government build-
ings, vehicles, and security forces.

In December 2004, students at Tehran
University gave President Khatami an angry
and humbling reception when he admitted
that Washington wants to reach out to the
people.

The anti-regime movement, partly dae-
ried by the false expectations aroused as a result
of the election of Khatami as president in
1997, has now gained a new momentum. The
middle option would open a campaign
of engagement would elicit de-
mands of behavior. Most of these incentives have al-
ready been placed on the table.

This diplomatic approach requires that
Washington cooperate with Europeans to
present a united front to the regime. With
the example of U.S. resolve in Afghanistan
and Iraq before, the Iranian leadership
might be persuaded to reach the appropriate
conclusions, if the principal European inter-
locutors were to emphasize the limits of their ability to
control American foreign policy decisions. In a
version of “good cop— bad cop,” the message
would be conveyed that there are con-
sequences for behavior that are beyond
American ability to control.

An effort to acknowledge the legitimacy
of Iranian national desires for a civilian nu-
clear power program might provide Iran an
opportunity to demonstrate its peaceful
intentions, according to diplomatic approach.

To enhance the acknowledged benefit of exchange of
foreign students and business leaders to the United
States for study and travel opportunities,
Washington should look for ways to expand,
such exchanges, in concert with the
requirements of homeland security.

COERCIVE DIPLOMACY

A frank evaluation of the track record so
far on attempts at diplomatic engagement
with the ruling regime in Tehran must con-
clude that such an approach is not working
and probably will not ever succeed, if not
stiffened with more stringent measures.

Such measures would begin exacting pen-
alties from Iran if it does not comply.

At the top of the list of penalties are eco-
nomic sanctions, which will not succeed un-
cless applied and cooperative fashion by all of Iran’s major Western trad-
ning partners. Such sanctions would include:
ban on financial transaction, bilateral or multilateral
economic assistance, and general trade.

Increased funding and strong congressional
backing for a satellite television
broadcasts into Iran would send the message
that Washington wants to reach out to the
Iranian people. Public statements of support
from American citizens, imprisonment or
exiled Iranian political leaders would be an encouraging sign of support for
the people.

The U.S. State Department can send a
strong message of disapproval to the regime
in Tehran by refusing to issue visas to its
United Nations representatives that would
permit them to travel beyond the immediate
radius surrounding New York City (as occa-
sionally has been done).

The next stage of an American-led cam-
paign to compel compliance with the supe-
rvised norms of behavior would be to encour-
gage opposition groups inside Iran. This option
has never actually been on the table and
has not been explored sufficiently; this
option relies on the Iranian opposition to
challenge the lead role in coordinating a cam-
paign for regime change and establishing
representative institutions as support for ter-
rorism and human rights abuses. This threat
might be made tangible by bringing a legal case against
Supreme Leader Khamenei and his cohorts
in an international tribunal for Iranian leadership
violence. Helping the voices of moderate
Iranians might be heard and protected
from intimidation. An Iranian leader
should go a long way to encourage
emergence of like-minded moderates within
Iran.

As efforts on the diplomatic front are
under way, the United States should accel-
erate its outreach to the Iranian people,
as part of the process to help them change their
future.

DESTABILIZATION

Application of the diplomatic measures
may not alter the regime’s behavior on those
issues of paramount concern to the inter-
national community, such as support for ter-
ror, pursuit of WMD programs, meddling in side
Iraq, and violation of its citizens’
rights. If not, then Washington should be
prepared to embrace a new option, short of
direct military action, but which
might have the best chance for success.

The middle option would open a campaign
of diplomatic engagement, whose aim would be
the weakening of the grip of the ruling regime
over the Iranian people sufficiently that Iranian
opposition groups inside the country and abroad
might become an empowered force to
challenge the lead role. To the extent that any or all of the foregoing
diplomatic measures, coercive or not, are beneficial, the United States
should be sustained during a destabilization phase.

However implausible or unlikely to be
achieved, a new approach toward Iran’s
leadership is to “return to the mosque” might set
the stage and be used as a point of departure for
further negotiations. Such a call might give
the international community a foundation
upon which to build a case against the
regime.

The next stage of an American-led cam-
paign to compel compliance with the super-
rvised norms of behavior would be to encour-
gage opposition groups inside Iran. This option
has never actually been on the table and
has not been explored sufficiently; this
option relies on the Iranian opposition to
challenge the lead role in coordinating a cam-
paign for regime change and establishing
representative institutions as support for ter-
ror, pursuit of WMD programs, meddling in side
Iran, and violation of its citizens’
human rights. If not, then Washington
should be prepared to embrace a new option, short of
direct military action, but which
might have the best chance for success.

regime.
Middle East and Central Asia, Ileana Ros-Lehtinen (R-FL), as well as Tom Lantos (D-CA), Eric Cantor (R-VA), Howard Berman (D-CA), Steve Chabot (R-OH), and Gary Ackerman (D-NY), introduced the Iran Freedom and Support Act (H.R. 282), with more than 50 co-sponsors. It would provide U.S. assistance to independent broadcasts into Iran and to pro-democracy military groups.

The best-known of the Iranian opposition groups is the Mujahideen-e Khalq (MEK). Founded in the 1960s by college students, the MEK made a bid for the 1979 revolution, but was suppressed by the Shah, quickly fell out with Ayatollah Khomeini, who executed thousands of its members and leaders. Following the start of hostilities in June 1981, the group went underground, and many of its leaders fled to Iran from 1981 to 1988, after which the MEK took refuge in Iraq.

While in Iraq, the group formed an army equipped with tanks, armored personnel carriers, and field guns, implementing cross-border attacks against the Iranian regime. The MEK network in Iran also carried out military operations against the Revolutionary Guards and other government targets. The MEK has represented a significant security threat to the Iranian regime ever since the end of the Iran-Iraq War and could continue to do so, were it released from its circumscribed status in Iraq.

United States policymakers toward the MEK has been ambivalent and controversial over the years and reached a nadir in 1997, when the Department of State placed the MEK on its Foreign Terrorist Organizations list. This inclusion was primarily a goodwill gesture to Mohammad Khatami, the newly-elected Iranian president, whose administration was looked to with much hope for its reformist promise. Despite the State Department’s accusations that the MEK murdered Americans in mid-1981, the U.S. military takeover in Tehran in 1980—challenges the organization denial—the MEK has not attacked or targeted U.S. interests since the 1979 Iranian revolution.

Nevertheless, the State Department added the major political wing of the Iranian opposition, NCRI, to the Department’s terrorist designation; previously, NCRI had operated in the United States as a legitimate, registered organization.

Before surrendering hundreds of tanks and armored vehicles to the U.S. military, the MEK had notable mechanized and infantry capabilities. The fledgling Iraqi Army uses some of this equipment, since the MEK uses equipment, since the MEK has not at one point used its forces, the MEK as a terrorist group, which addressed Iran’s security concerns.

Although it is difficult if not impossible to gauge the amount of support MEK enjoys in Iran, this organization is indisputably the largest and most organized Iranian opposition group. By 2005, 35% of its members in Camp Asmara, 60 miles north of Baghdad, Females constitute nearly a third of its rank and file.

As of February 2005, the State Department still listed the MEK as a foreign terrorist organization, despite calls for its removal from the list by many members of the U.S. Congress and agency officials.

THE MEK AND OTHER OPPOSITION GROUPS

SUPPORT OF U.S. INTERESTS

The lack of viable intelligence about Iran continues to plague analysts and planners. As stated earlier, the MEK and NCRI have received unilateral U.S. intelligence and that has been verified by Tehran’s nuclear weapons programs. In this respect, Washington might consider using intelligence made available from opposition groups to lead information, i.e., to be verified using independent means.

16-month investigation by the State Department and other government agencies of the MEK members in Iraq culminated in the 2004 judgment that they were “protected persons under the Geneva Convention” and that there was no basis to charge any of them with terrorist actions.

At this juncture in 2004, therefore, a review of U.S. policy toward the MEK and the overall Iranian opposition is in order. The designation of the MEK as a foreign terrorist organization by the State Department has served, since 1997, as an assurance to the Iranian regime that the United States has removed the regime change option from the table. Removing the terrorist designation from the MEK could serve as the most tangible signal to the Iranian regime, as well as to the Iranian people, that a new option is now on the table. Removal might also have the effect of supporting President Bush’s assertion that America stands with the people of Iran in their struggle to liberate themselves.

In the same way that the United States was receptive to South African anti-apartheid leaders and the Soviet Union’s anti-communist athletics, Washington should adopt a similar political and moral support to student demonstrators in Iran and hold Tehran accountable for the arrest and killing of students during anti-government demonstrations.

Should the United States reach a decision to support an explicit policy of regime change in Iran, a Presidential Finding would be a necessary first step, enabling many activities by U.S. entities that cannot take place without such a finding.

The United States should ensure that Iran understands that neither the Iranian opposition will take any option of the table, if Iran remains unwilling to address adequately international concerns about its nuclear programs in Iran. Tehran is to ensure that democracy, tolerance, and the rule of law are established in an Iran that abjures use of WMD, terrorism, and threats against its neighbors. Brinzing Tehran’s flagrant non-compliance with the NPT before the U.N. Security Council would be an important first step.

IN SEARCH OF A NEW APPROACH: THE MILITARY OPTION

“We do not want American armies marching on Tehran,” then-Secretary of State Colin Powell said in November 2004. Despite the official position of the administration, there are some who suggest that given the failure of the engagement option over the past quarter century and the urgency to counter the Iranian threat, Washington should adopt a military option. Despite its risks and implications, they are willing to absorb the costs and consequences. Proponents of striking believe that United States interests are better served by taking preventive military action in the present than facing the future nightmare of a nuclear Iran with extensive regional dominance armed with a ideology of hate.

Conventional force military options have a broad spectrum upon which to draw, which
individually or collectively might evoke different results and/or responses from the Iranian regime.

Air options include low-end, minimal-risk overflights of unmanned aerial vehicles into Iranian airspace for purposes of reconnaissance, psychological impact, testing of Iranian military capabilities. In total, maximum options consist of airstrikes by manned aircraft and drones as well as cruise missile attacks against targeted facilities, installations, bases, and command or research centers.

Naval options range from low end overt open waters surveillance and harassment of Iranian shipping to maximum options such as introduction of major forces into theater and a full blockade of Iranian ports and waters.

On one hand, ground forces options include a low-end approach of pressuring Iran through the buildup of conventional ground forces and supporting logistics capabilities along borders and at strategic locations within the region. On the other hand, there are high-end options, such as a well-planned, fully available and -executed ground assault into Iran.

On one hand, Special Operations Forces options include low-end clandestine ground operations such as air insertions to gather target information, emplace sensors or precision guidance beacons, or preposition arms and equipment. On the other hand, high-end options consist of direct action missions against preselected targets, link-up with indigenous forces, and their full attack, government facilities, bases, and personnel. In total context, combinations of the various minimal to maximum options provide a wide array of choices that can exert significant impact on Iran and influence the regime economically, diplomatically, and politically.

Given the above capabilities, potential military options include:

Limited Actions: Clandestine insertions of Special Operations Forces to acquire precision target information, emplace remote sensors, and preposition arms/equipment. Such actions offer the ability to gather unobtrusively more reliable information than currently available through other military means; these actions also might establish sustainability for future operations. But, such actions do not cause the regime to react. Furthermore, actions remain clandestine and the regime unaware. There is the possibility of extremely negative reaction from various entities internationally and in Iran, which were activity were compromised or uncovered.

Moderate Actions: Limited naval blockades that overfly conducts surveillance and harasses Iranian flagged shipping; overt overflights of Iranian airspace by U.S. surveillance aircraft and unmanned platforms; limited buildup of U.S. forces, supplies, and equipment in friendly countries adjacent to Iran; stationing of U.S. Marine amphibious forces off the coast; overt equipping of Iranian forces or U.S. forces in direct action against preselected targets, link-up with indigenous forces, and their full attack, government facilities, bases, and personnel. In total context, combinations of the various minimal to maximum options provide a wide array of choices that can exert significant impact on Tehran and influence the regime economically, diplomatically, and politically.

The above capabilities, potential military options include:

Full-scale military invasion on the scale of Iraq or Afghanistan would be a very serious step, embarked upon with only one ultimate objective in mind: the overthrow of the regime in Tehran and the forcible occupation of the country. In addition to its destruct- 

Full-scale military invasion of Iran, even if supported by an international coalition, would be likely to elicit outrage from many corners of the globe. An invasion would be unlikely to succeed and would likely trigger a much longer period of intense, widespread conflict than that experienced in Iraq. Given the size and population of Iran, a full-scale invasion would require a force several times the size of the force in Iraq; continued strain on the overall U.S. military structure and its available resources would affect long-term sustainability of any such operation and the overall ability of U.S. armed forces to respond to crises elsewhere.

CONCLUSION:

Recall the nuclear time clock that is ticking down to reach nuclear weapons capability. If the regime continues to prove intransigent with respect to fulfilling its obligations under the NPT, the United States and international community may not have the luxury of pursuing only a regime change policy. The theocratic leadership in Tehran must know that they will not be permitted to achieve a nuclear bomb status. A military option, which could include limited strikes against Iran’s nuclear program infrastructure, clearly would be a last option but must clearly be considered on the table.

Given the realities in the region and the fact that the United States continues to be engaged in Afghanistan and Iraq, a full-scale military buildup involving all of the options on the table for dealing with Iran. Nevertheless, as the ultimate means of ensuring U.S. national security interests, Iran, and the security of other friends and allies in the region, we must prepare and unambiguously among the options at U.S. disposal.

A military option that includes limited military strikes would at best buy time and at worst enhance the overall threat of the regime in areas like terrorism, opposition to the Arab-Israel peace process, and involvement in Iraq, Syria, Lebanon, and peripheral strikes. Strikes, if executed according to high quality targeting information with minimal collateral damage and casualties might not only set back Iran’s nuclear program to a significant degree but likely would also help destabilize the regime. In addition, diplomacy pursued by the European Union and several other major powers has produced little tangible result over the past quarter century. And unless the potential for a military order comes on the table, diplomacy is likely to yield few results in the future.

While keeping open diplomatic and military options, Washington should consider a third alternative, one that provides a central role for the Iranian opposition to facilitate regime change.

Lt. General Thomas McCom, President Institute for Democratic Strategies and Former President, International Republican Institute: McCom established his own consulting firm, GERT (Government Reform Through Technology) in January 2000. Working with high-tech companies that do business with federal, state, city, and local governments, GERT helps them introduce advanced technology into the private sector.

From 1996–1999, Gen. McInerney was Chief Executive Officer and President of Business Executive National Security Consulting, a national, nonpartisan organization of business and professional leaders, with headquarters in Washington. Prior to joining BENS, he served as Vice President, Emerging Technologies Group, Santa Barbara Applied Research, Inc. For 25 years before that, Capt. Nash served as an officer in the U.S. military, including 700 hours of flight time and 950 civilian carrier flights on nine different aircraft carriers as a Naval Aviator. He served in a variety of military assignments at military installations in the United States, including the Pentagon and U.S. Naval Forces Europe and has filled billets with U.S. and foreign military units in North Africa, North America, and Southeast Asia, among others.

Capt. Nash was named the 2016 Distinguished Achievement Award for the Civilian Executive Panel, Chief of Naval Operations, 1980–1981. He served as the White House on the National Security Council staff, 1981–1983. In 1983–1984, he was per-
Mr. CUELLAR. Mr. Speaker, I rise today to recognize Mr. Life, a charity event that has helped us in the war against cancer.

The Relay for Life celebrates the survivors of cancer and further helps to raise funds for the American Cancer Society. It serves to bring people from every age group, religious denomination, political affiliation, and racial background together in the common cause of fighting cancer.

The American Cancer Society estimates that over 86,880 new cases of cancer will alter the lives of Texans this year. When we look at these numbers it is important to see past the statistics. This number of 86,880 represents 86,880 mothers, 86,880 fathers, sisters, brothers, best friends, and spouses. This number represents the people that we care about the most; this figure impacts our families.

In keeping with my vow and promise to help keep our families strong and healthy, I am honored to provide the participants of this important event with both my presence and blessing. I thank all of you for your passionate dedication for family, friends, state, and nation.

ENERGY POLICY ACT OF 2005

SPREECH OF

HON. TODD TIAHRT
OF KANSAS
IN THE HOUSE OF REPRESENTATIVES

Thursday, April 21, 2005

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 6) to ensure jobs for our future with secure, affordable, and reliable energy.

Mr. TIAHRT. Mr. Chairman, I rise today in strong support of H.R. 6, the Energy Policy Act of 2005. This comprehensive energy bill is a bipartisan effort to bring lower energy prices to consumers while spurring our economy to toward growth for the future. Hundreds of thousands of jobs will be created, and our conservation will be promoted and our environment will be cleaner as a result of the policies in this bill.

House Republicans have a track record of passing energy legislation in both the 107th Congress and the 108th Congress. But we were unfortunately not able to get a bill to the President due to unwillingness by Senate Democrats.

I am hopeful this year will be different and that Congress will finally pass an energy policy that will take our country forward. I know Kansans in my district are tired of paying high prices for gasoline, and they want a good energy bill passed soon. The longer we wait to pass this national energy plan, the longer it will take to counter rising energy costs. The Energy Policy Act of 2005 is a huge step in the right direction and will help both the public and private sector address our energy needs for years to come.

H.R. 6 promotes clean coal technology and provides incentives for renewable energies such as ethanol, biomass, wind, solar and hydroelectricity.

I am very pleased H.R. 6 includes a Renewable Fuels Standard to help introduce five billion gallons a year by 2012. The more ethanol and biodiesel is used by drivers across America, the cleaner our air will be. Plus, we will be providing America’s farming communities with alternative income opportunities for commodities such as corn and soybeans.

I have spoken to numerous Kansas farmers who say over and over again that the ethanol provisions contained in the energy bill are good for our struggling rural communities. Many communities in Kansas have faced years of declining populations. Whenever we can provide increased economic opportunities for rural communities while providing for our nation’s energy needs, we create a win-win situation.

Another provision of renewable energy sources is wind energy. There are plenty of places in the great State of Kansas where landowners are eager and willing to work with private investors to capture this abundant natural resource and turn it into energy. Anyone who has visited our State will know we have plenty of wind. By reauthorizing the Renewable Energy Production Incentive program to provide renewable energy production incentives for wind, we are giving landowners and businesses the assistance needed to tap into this underutilized resource.

This legislation also establishes a Department of Energy rebate program for renewable energy systems installed in homes or small businesses. And the Federal Government is directed to use more renewable energy in future years with a goal of using 7.5 percent or more by 2013.

By promoting forms of renewable energy, we are helping move our country toward a more sustainable energy future.

In addition to promoting renewable energy sources and looking toward the future, this energy bill also addresses the realities of our energy needs today. Americans everywhere are frustrated with high gasoline prices. One of the contributing factors is the fact that the United States has not built a large-scale refinery in over 20 years. And since 1981, half of the refineries have been shut down. When we not only cease building new refineries, but we reduce the number of facilities needed to produce fuel, it is no wonder gasoline prices continue to steadily rise.

H.R. 6 helps address rising fuel costs by providing an accelerated review and approval process for new refinery facilities in a refinery revitalization zone. The energy bill designates certain areas as refinery revitalization zones based on a region’s previous refining or manufacturing experience and current unemployment rate.

The United States depends on foreign sources of oil for 62 percent of our Nation’s supply, and that percentage is projected to increase to 75 percent within 5 years. Not only is our demand for oil rising, but global crude oil demand is increasing, particularly in countries like China. We must take action to reduce our dependency on oil.

This energy bill has several provisions that help us do just that. It expands our domestic supply by increasing domestic oil and gas exploration and development on non-park Federal lands. And by requiring five billion gallons of renewable fuel by 2012, we will save 1.6 billion barrels of oil by 2012.

The Energy Policy Act of 2005 promotes a cleaner environment by encouraging new innovations and the use of alternative power sources by launching a state-of-the-art program to enable hydrogen fuel cell cars to compete in the marketplace by 2020. This is just one example of how we are encouraging ideas to move from conception to application in the marketplace.

H.R. 6 requires the Department of Energy to develop a plan outlining technical milestones as well as technical and non-technical hurdles to hydrogen vehicles and their associated infrastructure. The hydrogen program is to be conducted as a partnership between public and private enterprises to address the production of hydrogen from current sources.

Hydrogen can be produced from fossil fuels, hydrogen-carrier fuels and renewable energy resources, including biomass and nuclear energy. The program also addresses pipeline hydrogen transmission, convenient refueling, advanced vehicle technology, hydrogen storage and the development of necessary codes and standards.

The legislation authorizes $200 million for the “Clean Cities” program, which will provide grants to state and local governments to acquire alternative fueled vehicles.

H.R. 6 will improve our Nation’s electricity transmission capacity and reliability. By providing expedited siting processes on both Federal and private lands, transmission lines will be able to be more efficiently and quickly placed so power can be transmitted across the country. The bill also greatly improves the operation and reliability of electric transmission networks by providing for open access to transmission lines not previously subject to the same open access requirements. The Federal Energy Regulatory Commission is directed to do an incentive rate rulemaking and to provide for participant funding.

The Energy Policy Act of 2005 promotes investment in the electric sector by repealing existing Public Utility Holding Company Act requirements and replacing them with authority for Federal and State regulators to examine relevant books and records.

H.R. 6 promotes more natural gas exploration. Many Kansans rely on natural gas to fuel stoves, furnaces, water heaters, clothes dryers and even backyard barbecues. Natural gas is the cleanest fossil fuel, resulting in approximately 50 percent less carbon dioxide than coal and a third less carbon dioxide than oil. But those who rely on this energy source have seen their bills skyrocket.

Provisions in H.R. 6 allow for more natural gas exploration and development by providing royalty relief for deep and ultra-deep gas wells in the shallow waters of the Gulf of Mexico. Improved access to North America’s abundant
natural gas resources will help reduce high utility bills, create jobs and provide more than $500 million of increased revenues for the U.S. economy.

Businesses depend on natural gas to produce steel, glass, paper, clothing, aluminum, brick and most importantly, electricity. Even farmers rely on it to produce fertilizer needed for the crops that ultimately become food on our tables. And cities rely on natural gas to comply with tough air quality standards.

H.R. 6 also extends daylight savings time by two months. This extension will reduce energy consumption by the equivalent of 100,000 barrels of oil each day. Studies indicate the proposal to adopt extended daylight savings time from the first Sunday in March to the last Sunday in November will lower crime and traffic fatalities. This provision will also give families more daylight hours to enjoy outdoor recreation and opportunity for increased economic activity.

If America wants to be more competitive globally, we must pass a comprehensive energy bill that allows businesses to operate with sustainable, low-cost forms of energy. H.R. 6 moves us in that direction, and I urge my colleagues to help make America more competitive by voting for the Energy Policy Act of 2005.

In 2004, 100 percent of LINC TELACU college seniors earned their degree; 100 percent of high school Scholars graduated, compared to the national Latino average of only 50 percent and the Los Angeles County average of only 39 percent among Latino students; 100 percent of high school Scholars enrolled in post-secondary schools; compared to the Los Angeles County average of only 22 percent among Latinos; and, 100 percent of Health Careers Program senior nursing students completed their degree and received certification.

The Education Foundation has provided strong foundations for young people and allowed Latino students to continue on to higher education. Their dedicated work has hastened the development of our future Latino leaders and allowed the larger national community to see the amazing potential of our Latino youth.

Mr. Speaker, I join today with community members of Southern California in congratulating the valued services of the LINC TELACU Education Foundation. I express my sincere admiration for their organization and am honored by the opportunity to recognize the LINC TELACU Scholars today.

PERSONAL EXPLANATION

HON. BARBARA LEE
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

Ms. LEE. Mr. Speaker, on April 26, 2005 I missed rollcall votes Nos. 133 and 134. Had I been present, I would have voted “aye” on the motion to instruct conference on the FY 2005 supplemental appropriations bill and “aye” on the motion to instruct conference on the FY 2006 Budget Resolution.

HONORING THE SCHUSTER FAMILY AND THE NATIONAL KIDNEY FOUNDATION

HON. RAHM EMANUEL
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

Mr. EMANUEL. Mr. Speaker, I rise today to recognize the contributions of the Schuster Family to the prevention and treatment of kidney and urinary tract disease. On April 27th, the National Kidney Foundation of Massachusetts, Rhode Island, New Hampshire, and Vermont will host a dinner with President Bill Clinton in honor of Gerald and Elaine Schuster and their two sons Mark and Scott for their 35 years of tireless dedication to this important cause.

In 1954, Dr. Joseph Murray performed the first organ transplant in the world at the Brigham and Women’s Hospital in Boston. That same year, the National Kidney Foundation of Massachusetts, which would later expand to include Rhode Island, New Hampshire, and Vermont, was founded.

For more than half a century since then, the National Kidney Foundation and its affiliates have played a crucial role in the prevention and treatment of kidney and urinary tract disease. In particular, the Foundation provides patient services, funding for much-needed research, free early-screening services, professional education, and organ donation information. In addition, the Foundation helps further the prevention and treatment of kidney and urinary tract disease.

The Schuster Family has long played a vital role in the success of the National Kidney Foundation. As President of the National Kidney Foundation of Massachusetts, Elaine Schuster successfully advocated for including organ donation check-off on Massachusetts’ drivers licenses in 1968, a move which has saved countless lives by giving every citizen an opportunity to get involved in an easy and direct way.

In 1978, the Schuster family felt the impact of their work firsthand, when Mark Schuster donated a kidney to save his brother Scott’s life. Twenty-six years later, Scott Schuster is a successful businessman and Chairman of the very Foundation that helped to make his life-saving surgery possible.

Mr. Speaker, I ask my colleagues to join me in recognizing the dedication of the Schuster Family, and the important, lifesaving work of the National Kidney Foundation.

TRIBUTE TO JANE EAGLEN

HON. JIM MCDERMOTT
OF WASHINGTON
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

Mr. MCDERMOTT. Mr. Speaker, I rise today in tribute to Jane Eaglen, the youngest soprano on the stages of international opera, renowned for her performances on concert platforms around the globe, and for her classical recordings.

Teachers in her native England encouraged her musical voice from a young age, and she was trained in the style of both Bellini and Wagner. From the time she joined the English National Opera, Ms. Eaglen garnered acclaim in a variety of roles until her breakthrough casting as Donna Anna in Mozart’s Don Giovanni at the Scottish Opera.

In the two decades since then, she has achieved success in roles such as Isolde (for the Metropolitan Opera, Seattle Opera, Teatro Liceu Barcelona, Lyric Opera of Chicago, and in Puerto Rico). She has won worldwide applause for her rendition of Brunnhilde (performed in Seattle, Chicago, San Francisco, Milan, New York and the United Kingdom), and recently triumphed as Ariadne in Seattle.

Jane Eaglen is equally accomplished as a concert artist. She has worked with distinguished orchestras from Boston to Salzburg, and with the world’s leading maestros including Daniel Barenboim, Zubin Mehta, Danielle Gatti and Claudio Abbado. Her performances with the Seattle Symphony Orchestra, conducted by Gerard Schwartz, have thrilled audiences. Her extensive discography of classical recordings has won over fans of the music of masters from Strauss to Beethoven to Mahler. Her recording of Tannhauser with Barenboim received a Grammy Award in 2003 for Best Opera Recording.

Mr. Speaker, Jane Eaglen has been a resident of my district for the past several years, and it is with pride that the Seattle’s Rainier Club has named her Laureate for 2005–2006. She joins previous laureates author Jonathan Raban, glass artist Dale
Congressional Record — Extensions of Remarks

April 27, 2005

Hon. Don Young
Of Alaska
In the House of Representatives
Wednesday, April 27, 2005

Mr. Young of Alaska. Mr. Speaker, from April 30–May 2, 2005 more than 1200 students from across the United States will visit Washington, D.C. to take part in the national finals of We the People: The Citizen and the Constitution. The competition is an extensive educational program in the country developed specifically to educate young people about the U.S. Constitution and Bill of Rights. Administered by the Center for Civic Education, the We the People program is funded by the U.S. Department of Education.

I am proud to announce that the class from West Anchorage High School will represent the state of Alaska in this prestigious national event. These outstanding students, through their knowledge of the U.S. Constitution, won their statewide competition and earned the chance to compete in our nation’s capital and compete at the national level.

While in Washington, the students will participate in a three-day academic competition that simulates a congressional hearing in which they “testify” before a panel of judges. Students demonstrate their knowledge and understanding of constitutional principles and have opportunities to evaluate, take, and defend positions on relevant historical and contemporary issues. In our day, which is the first time we have had an educational test service (ETS) characterize the We the People program as a “great instructional success.” Independent studies by ETS have revealed that We the People students “significantly outperformed comparison students on every topic of the tests taken.”

Congratulations to Elizabeth DeYoung, Monique Eniero, Roberta Gordaooff, Danielle Johnson, Jayme Johnson, Vassar Louis-Brdford, Gareth Olds, Michael Pascual, Courtney Prokosch, Alexander Richert, Gertriane Villanueva, Jeffery Wittsey and their teacher Pamela Orme.

I wish these students the best of luck at the We the People national finals and applaud their outstanding achievement.

Hon. George Radanovich
Of California
In the House of Representatives
Wednesday, April 27, 2005

Mr. RADANOVICH. Mr. Speaker, I congratulate the people of Kazakhstan on the 10th anniversary of the removal of the last nuclear weapons from their territory within the framework of the Cooperative Threat Reduction program.

I applaud Kazakhstan’s President Nursultan Nazarbayev’s leadership and courage. Today, we can state with great confidence that the decision of Kazakhstan’s leader to renounce the world’s fourth largest arsenal of deadly nuclear weapons was made not only in the interest of the mankind, but it has changed the course of world history. As we all know, proliferation of weapons of mass destruction and international terrorism remain major threats to the world in this new century. It is frightful to imagine a scenario where terrorist organizations such as Al-Qaeda could have gained access to Kazakhstan’s nuclear arsenal.

Mankind is more secure because of the contribution of Kazakhstan and its leader. Kazakhstan is a universally recognized leader and one of the key players in nonproliferation and deserves praise for its actions. We believe Kazakhstan, under the leadership of President Nazarbayev, will continue to strengthen this role.

Kazakhstan stands firmly by its international commitments in nonproliferation and stands ready to expand this cooperation with the United States. Convincing evidence of the growing cooperation was evident in the signing in the December 2004 amendment to the bilateral agreement on the nonproliferation of weapons of mass destruction which brought the two nations to a new level of cooperation in preventing the threat of bio-terrorism.

Today, we mark not only the successful interaction with our nation in non-proliferation, but also the growing relations of the strategic partnership between the United States and Kazakhstan. Since the first days of independence Kazakhstan has chosen to build a truly democratic and market oriented society, and proved itself as a strong and essential partner and ally of the United States. American people will never forget the support of the President and people of Kazakhstan at the critical time following 9/11. I would also like to express my gratitude to Kazakh military engineers who have so far destroyed more than 3 million pieces of ordinance in Iraq, and saved the lives of many Iraqis and those of our brave soldiers.

Kazakhstan’s continued dynamic development is a pledge of prosperity and stability for all of Central Asia. President Nazarbayev rightfully should get credit for transforming his country into an undeniable leader in political and economic reforms.

Mr. Speaker, again I would like to congratulate the President and the people of Kazakhstan on their achievements and wish this young country full achievement of its potential. With a great deal of optimism, I look forward to the years ahead as the partnership between Kazakhstan and the United States strengthens to benefit the people of both nations and the world at large.

Hon. Duncan Hunter
Of California
In the House of Representatives
Wednesday, April 27, 2005

Mr. HUNTER. Mr. Speaker, I rise today to recognize and honor eight brothers who have distinguished service records worthy of commendation. Although men in the same families have served side by side and generation after generation throughout our nation’s history, few families can claim the level of service that is shared by the Castro family. Together, the Castro brothers military service totals 172 years, an average of nearly 22 years each.

As Chairman of the House Armed Services Committee, I want to thank the Castro brothers for their distinguished leadership, dedication and service to our country, community and fellow veterans. My fellow colleagues, I ask that you join me in recognizing: Master Sergeant Abe Castro, Sergeant First Class Carlos Castro, Sergeant Jose Castro, Sergeant Juan Castro, Sergeant Erasmo Castro, Captain Julio Castro, Master Sergeant Basilio Castro, and Sergeant Arthur Castro. While each of the Castro brothers served our nation with honor and distinction, I would like to pay particular attention to the service of Abe and Jose. As a rifleman in World War II and Korea, Abe was wounded a total of five times, received four Purple Hearts, two Combat Infantry Badges, a Silver Star, a Bronze Star, and seven battle stars. His brother Jose, who served in the Korean War, was wounded 3 times in combat, and recommended for the Bronze and Silver Stars.

During this time of conflict, patriotism runs high and many Americans ask what they can do for their country. The Castro brothers, like those on guard today, have made the bold and courageous decision to dedicate a part of their lives to making our nation and the world a safer place for all. They responded to our nation’s call by voluntarily offering their service and contributing their very best.
In his first inaugural message as Governor of California, Ronald Reagan is quoted as saying, “freedom is a fragile thing and is never more than one generation away from extinction. It is not ours by inheritance; it must be fought for and defended constantly by each generation, for it comes only once to a people. Those who have known freedom, and then lost it, have never known it again.” We will continue to rely on individuals and families, like the Castros, that are willing to uphold the tradition of military service and put their nation before themselves.

Families mean many things to different people. To the Castro brothers, family means military service. It is a real pleasure for me—both professionally and personally—to recognize and pay tribute to these brothers and their distinguished service records.

APPRECIATION OF ED GROVES

HON. MARSHA BLACKBURN
OF TENNESSEE
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

MRS. BLACKBURN. Mr. Speaker, after 15 years of devoted service to the North Tennessee Workforce Board, Edgar Ray Groves is stepping down and I wanted to take a moment to thank him for his service.

In 1990, Groves was first appointed to the position and began working to reorganize the way services were provided. Within two short years improvements were already noticeable, and in 1992 the NTWB received the Governor’s cup for its outstanding accomplishment.

By 1996, the NTWB was leading the State in all Workforce Development services and had won national recognition by the U.S. Department of Labor. And that same year, NTWB began operating a Career Center on post at Fort Campbell, delivering dislocated worker services to soldiers exiting the Army.

Although Groves will no longer be serving as chair, he will continue to serve as a member of the local workforce board and the Tennessee State Workforce Board. I join with our community in offering Ed Groves our sincere appreciation for his years of service.

MAYDAY MANUFACTURING AND PRESIDENT MIKE NELSON WIN SBA’S SUBCONTRACTOR OF THE YEAR

HON. MICHAEL C. BURGESS
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

MR. BURGESS. Mr. Speaker, I rise today to commend Mayday Manufacturing Co., Inc., located in the 26th District of Texas, and its President Mike Nelson on being named Regional Subcontractor of the Year by the United States Small Business Association.

This recognition is awarded to ten subcontractors around the country by the U.S. SBA to the highest performing subcontracts. Subcontractors are nominated by the government and prime contractors for outstanding performance in various areas. Mayday Manufacturing won the award for Region 6 which encompasses Arkansas, Louisiana, New Mexico, Oklahoma and Texas. Vought Aircraft Industries, also located in North Texas, nominated Mayday Manufacturing and President Nelson.

Mayday Manufacturing Co., Inc. started in 1966 in a small Texas garage. It has grown over 39 years as a business which now serves hundreds of customers globally. The company specializes in aerospace parts to be used in commercial and military aircraft.

I am proud of Mike Nelson and his company for winning SBA’s Regional Subcontractor of the Year award, as this is a fine example of how small businesses make a profound impact. Mayday Manufacturing is a wonderful example on which other companies should model themselves in order to attain this high level of achievement.

APPLAUDING THE WITHDRAWAL OF SYRIAN TROOPS FROM LIBANON

HON. CHARLES W. BOUSTANY, JR.
OF LOUISIANA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

MR. BOUSTANY. Mr. Speaker, I rise today to applaud the withdrawal of the remaining Syrian troops from Lebanon on April 28, 2005. This withdrawal marks the end of a 29 year military presence which allowed Syria to unduly influence and manipulate Lebanon’s government and people. During these years, dissenters of Syrian influence have been politically persecuted. Some have been abducted and others murdered.

Syria has played a devious role in Lebanon in the past decades. I do appreciate Syria’s decision to recall its final troops in accordance with U.N. Security Council Resolution 1559. However, Syria must completely stop imposing its influence and will on Lebanon. This will clear the way for the Lebanese to exert their rights to self-govern and bring about a more promising era in Lebanon’s history.

I do not pretend that establishing such a government will not be trying for the Lebanese people. The ethnic, religious, and political segmentation which fueled Lebanon’s lengthy civil war still exist within the nation’s borders. Now that the Syrian troops have departed, Maronite, Sunni, and Shia, Opponents and Loyalists will need to work together in order to form a stable and autonomous government for Lebanon.

Overcoming these types of divisions is inevitably a challenging task. However, I have great faith in the ability of the people of Lebanon to do so. In a recent poll conducted in Lebanon, citizens revealed that they derived their primary identification not as their religious or political orientation, but rather as being Lebanese. This is a promising indication of the direction which Lebanon’s politics can take. If the people of Lebanon are able to make their own government, rather than their own group interests their top priority, I am confident that Lebanon’s government will be able to flourish.

TRIBUTE TO FORT BEND, ISD FOR WINNING THE AWARD FOR BEST DISTRICT-WIDE MOCK STUDENT ELECTION PROGRAM

HON. RON PAUL
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

MR. PAUL. Mr. Speaker, I am pleased to congratulate the Fort Bend Independent School District (ISD) for winning the award for having the best district-wide mock student election program in the nation from the American Association of School Administrators and the National Student/Parent Mock Election. Fort Bend ISD’s program is an innovative educational project combining resources from the social studies, math, and education technology departments to create an interactive website containing election resources, an online voting location, and a database of election results.

Fort Bend students can use the database to study election results, create spreadsheets, and draw conclusions about the election process. The website also includes information for parents, including a link to the county registrar’s office for voter registration. Another part of the program involved the county election board deputizing teachers so the teachers could register adults, including eligible high school students, to vote in the 2004 election.

Each school within the Fort Bend ISD individualized its mock election by having candidates debate and the students decorate the polling places. Students also studied potential campaign strategies for the candidates they supported. Student participation were very strong, with over 40,000 votes cast.

The curricula developed to analyze mock election results were made available to elementary, middle and high school students. According to the National Student/Parent Mock Election, which evaluates similar curricula nationwide, Fort Bend ISD’s curricula was very strong. Particularly impressive was Fort Bend ISD’s utilization of Microsoft Excel to analyze and generate summaries of the election results.

Fort Bend ISD’s mock student election project was an innovative use of technology and community support to educate children about the electoral process and thus prepare them to be active, and informed, citizens. I am proud to pay tribute to the teachers, administrators, parents, and especially the students of Fort Bend ISD for winning the award for the best mock student election project in the nation from the American Association of School Administrators and the National Student/Parent Mock Election.

HONORING THE CONTRIBUTIONS OF IKE AND DORIS EPISTEIN

HON. HENRY CUELLAR
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 27, 2005

MR. CUELLAR. Mr. Speaker, I rise to recognize the many accomplishments of Ike and Doris Epstein. Ike, a member of the 1944 D-Day invasion, was the only American on the beach at Normandy who was born in Texas. He is a great American success story. Ike started his business,
Dr. Ike’s. It had one location and an inventory of only $10,000. Today, his business has grown to three locations, with a value of almost $8 million.

Ike and Doris met at the University of Texas in 1951, when they were both attending undergraduate school. They were married in 1954. Ike worked for himself in 1958, after serving in the U.S. Army in Okinawa, and Doris opened her own business, Globetrotter of Laredo Travel Agency, in 1979.

Both of the Epsteins believe in treating their customers and employees like family. It is their own family, however, that they are proudest of. They have two children, Clayton and Karen, and four grandchildren. In spite of both work and family obligations, the Epsteins have also found the time to be enthusiastic community volunteers. The Women’s City Club, Pen- nies for Tennes, Crimestoppers, the Salvation Army, and the United Way are only a few of the organizations that they have supported over the years.

Ike and Doris Epstein are a great success story, and a great team. They are an example for the rest of us of the power of hard work and dedication, and of the importance of treating other people like members of your own family. They are an important part of what makes Laredo such a great city, and I am proud to have had the chance to honor them here today.

MEDAL OF HONOR WINNER LOUIS CAPET SHEPARD

HON. STEVEN C. LA TOURrette

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Mr. LATOURrette. Mr. Speaker, today I had a flag flown over the United States Capitol in honor of Louis Capet Shepard, the only Medal of Honor winner from Ashtribula County, Ohio, which is in my congressional district. Shepard served in the U.S. Navy during the Civil War.

Louis C. Shepard was born in Ashtribula on September 2, 1841, and served in the Navy as an ordinary seaman. Shepard was awarded the Medal of Honor for his valor during the assault on Fort Fisher in North Carolina. The Medal of Honor is the country’s highest award for valor.

Each time a Medal of Honor is awarded, the following words are spoken: “For Conspicuous Gallantry and Intrepidity in Action at the Risk of Life, Above and Beyond the Call of Duty.” These words certainly exemplify Shepard’s actions during the assault on Fort Fisher on January 15, 1865.

According to records, Shepard was honored for advancing gallantly through severe enemy fire while armed only with a revolver and cutlass which made it impossible to return the fire at that range. Shepard succeeded in only reaching the angle of the fort, but in being one of the few to enter it. When the rest of the men to his rear were forced to retreat due to devastating fire, Shepard was forced to withdraw and seek the shelter of one of the mounds near the stockade. Shepard then succeeded in maintaining the safety of his ship. Shepard was just 23 years old at the time.

After the fall of Fort Fisher on January 15, 1865, the Confederate army evacuated its remaining forts in the Cape Fear area, and Union forces soon overtook Wilmington. Once Wilmington fell, the supply line of the Confederacy was severed, and the war soon ended.

It’s a tremendous honor for Ashtribula County to be the home of a Medal of Honor winner. Fewer than 3,500 Medals of Honor have been awarded. The decoration was created in 1861. There were 1,522 awards for the Civil War, and 307 of the medals were awarded to men in the Navy. Of those, 195 medals went to Ohioans, including Shepard, who died at the age of 77 and is buried in Lakeview Cemetery in Port Clinton.

Mr. Speaker, the flag that was flown over the United States Capitol today will be unveiled on Memorial Day during the dedication ceremony for the new Ashtribula County Veteran’s Memorial. I applaud VFW Post 3334 in Jefferson for their efforts on behalf of the new memorial, and for choosing to honor the valor of Louis C. Shepard, the only Medal of Honor winner from Ashtribula County.

PERSONAL EXPLANATION

HON. KEVIN BRADY

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Mr. BRADY of Texas. Mr. Speaker, I regret that I missed rollcall votes No. 133 and No. 134 on April 26, 2005, and rollcall vote No. 140 on April 27, 2005. On April 26, 2005, I was returning from Texas after attending a Social Security workshop in Galveston with President Bush and on April 27, 2005, I was at the White House meeting with President Bush.

Had I been present, I would have voted “yes” on rollcall vote No. 133, a Motion to Instruct Conferences on H.R. 1288, a bill making emergency supplemental appropriations for the fiscal year ending September 30, 2005, and for other purposes; I would have voted “no” on rollcall vote No. 134, a Motion to Instruct Conferences on H. Con. Res. 95, the Congressional Budget Resolution for Fiscal Year 2006; and I would have voted “no” on rollcall vote No. 140, a Motion to Recommit H. Res. 22, expressing the sense of the House of Representatives that American small businesses are entitled to a Small Business Bill of Rights.

HONORING THE CONTRIBUTIONS OF JULIAN MONCEAUX, HOFFMANN LANE ELEMENTARY SCHOOL TEACHER OF THE YEAR

HON. HENRY CUELLAR

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Mr. CUELLAR. Mr. Speaker, I rise to recognize the many accomplishments of Julian Monceaux, Hoffmann Lane Elementary School Teacher of the Year.

Mr. Monceaux earned his Bachelor’s Degree at the University of Texas at San Anto- no. He is a veteran educator, with more than 20 years of teaching experience. Currently, Mr. Monceaux is the Physical Education Teacher for children of all grade levels at Hoffman Lane Elementary School in the Comal Independent School District. Mr. Monceaux believes strongly in the power of physical education to improve the lives of his students. He believes that physical education should provide “opportunities for success to develop physically, mentally, and socially.” The program he teaches includes information and training to promote physical fitness, wellness, nutrition, sportsmanship, motor and manipulative development, specific skills development, coordination, and good lifetime habits.

Julian Monceaux has distinguished himself through his tireless service to the children of Hoffmann Lane Elementary School and the people of Comal. His work as a physical educator is critical to the health and well-being of his students, and I am happy to have the opportunity to honor him here today.
Mr. Speaker, becoming a member of the Huver I. Brown Trial Advocacy Team is one of the highest honors a Howard law student can earn. The Team is named for Huver I. Brown, an African American attorney who in 1939 sued the District of Columbia Bar Association to gain access to the District of Columbia Bar Association Law Library.

During a trial, the presiding judge asked Attorney Brown to provide legal support for an argument he made. Because at that time only white attorneys were allowed to use the law library, African American attorneys had to skillfully argue without the aid of legal precedent.

In his suit, Attorney Brown asserted that a private bar group could not deny black lawyers access to the law library because it was located in a federal courthouse. Therefore, the denial of access was unconstitutional. In 1941, the lawsuit was settled, and African Americans were allowed access to the library.

In winning that lawsuit, Huver I. Brown achieved a phenomenal victory for the entire country and generations yet unborn.

Mr. Speaker, the impressive win by Huver I. Brown students at the national ABA Mock Trial Competition this year is a testament to their commitment of honoring the legacy for which the team is named.

The victory is also a solid confirmation of the recognition of Howard University as a national power. That success is worthy of our admiration and praise.

Let the triumph of the Huver I. Brown students remind us of the rich tradition of African American excellence in the law. I look forward to meeting these future Thurgood Marshalls and Johnnie Cochran's one day, here in the halls of our nation's Capitol, where they would clearly serve well.

Again, I congratulate the members of Howard's American Bar Association Mock Trial Team on their victory. Their success is a testament of the pride and excellence of Howard University.

Mr. BUTTERFIELD. Mr. Speaker, I rise today to recognize one of Eastern North Carolina's great public servants, Bishop J.E. Reddick on the occasion of his seventieth birthday celebration.

Bishop J.E. Reddick was born on Easter Sunday, April 21, 1929. After completing high school in 1941, Bishop Reddick received his collegiate and professional training at Shaw University, A&T State University and Hampton Institute. He is the recipient of the Bachelor of Bible Degree and the Master of Bible Philosophy Degree from the American Baptist Seminary of Kansas City, Missouri and has received two honorary Doctor of Divinity Degrees from the Universal Bible Institute of Alamo, Tennessee and Shaw University Divinity School respectfully. The United Christian College in Goldsboro, North Carolina awarded him the Doctor Humane of Letters.

Aside from his talents as preacher, teacher and leader, Bishop Reddick's main forte is his ability as a builder and administrator. He has set Free Will Baptist precedents in the area of church renovation, construction and programs. Bishop Reddick is founder of the Mt. Calvary Free Will Baptist Church, which today is revered as one of the most functional, practical and attractive churches in the Free Will Baptist connection. He led Maury Chapel Free Will Baptist Church congregation from a deteriorating building into a new church structure. Piney Green and Union Grove Free Will Baptist Churches were remodeled under the leadership of Bishop Reddick.

Bishop J.E. Reddick remains highly active in his community. He presently serves as President of the National Convention of Free Will Baptist USA, General Bishop of the United American Free Will Baptist Denomination and Presiding Annual Bishop of North West "B" annual Conference. He also serves as Board Member for Millenium Community Bank (Greenville, NC) and Kirsten Housing Authority. He previously served as a Board Member Chairman for the North Carolina Department of Social Services. Bishop Reddick retired from the Lenoir County Public School System after serving 30 years. Bishop Reddick was awarded the "Legion of Honor Award" by the National Chaplain's Association, which is presented to a clergyman for outstanding achievements and contributions, and has served 58 years as a Minister of the Gospel.

Bishop Reddick credits his success to faith in God, Christian principles, love from family and support of friends. I ask my colleagues to join me in congratulating this fine man on seventy years of accomplishments, and wish him many more.

CONGRATULATING LLOYD HILL ON HIS INDUCTION TO THE TEXAS HIGH SCHOOL FOOTBALL HALL OF FAME

HON. K. MICHAEL CONAWAY

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Mr. CONAWAY. Mr. Speaker, I congratulate Lloyd Hill on his induction to the Texas High School Football Hall of Fame. Lloyd played high school football at Odessa Permian. In his senior year of high school, Lloyd Hill was a vital cog in Odessa Permian's high powered offense in 1989. The Panthers outscored their opponents 620-97 and won the Texas 5A state championship with a 16-0 record. Permian defeated Houston Aldine 28–14 in the Texas State title game that year. Hill was an all-state receiver in 1989 and was a two-time all-district pick. He was also selected to play in the Texas High School Coaches Association All-Star Game. Lloyd Hill lettered at Texas Tech University from 1990–1993 and still holds school receiving records for—yards in a season (1,261), most 100 yard games in a season (7), and most TDs in a season (12). He ranks second on the Red Raider career yardage list. Hill played professional football for the Shreveport Pirates in the Canadian Football League and with the Houston ThunderBears of the Arena Football League.

Again congratulations to Mr. Lloyd Hill on receiving this recognition for his high school career.

HONORING THE CONTRIBUTIONS OF MARY SILVERS, MT. VALLEY SCHOOL TEACHER OF THE YEAR

HON. RODRÍGUEZ HINOJOSA

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Mr. HINOJOSA. Mr. Speaker, this Saturday the Girl Scouts—Tip of Texas Council will honor Rita K. Roney with the Woman of Distinction Award. This award is given to someone who exemplifies the ideals and characteristics of the Girl Scout movement and Rita Roney is truly deserving of this honor. A native of McAllen, Texas, Mrs. Roney joined the Girl Scouts as a child and has continued to support this fine organization as an adult. Working with the Girl Scout board of directors, she has been instrumental in raising the needed funding for the amphitheatre at the new Rio Grande Valley Girl Scout Camp. The amphitheatre will be used for ceremonies, chapel services and other programs.

Rita Roney has not just confined her efforts to supporting the Girl Scouts. She is well-known throughout the region for her dedication to the community. She serves on numerous boards including the Rio Grande Valley Community Foundation, the McAllen International Museum, the McAllen Medical Center Auxiliary, the McAllen Opera Guild, the Rio Grande Valley International Music Festival and the McAllen Performing Arts.

She has a talent for fundraising that she began honing at the age of 10 when she organized a school fundraiser for the March of Dimes. Over the years, she has been instrumental in raising millions of dollars for groups such as the Boys and Girls Club, the Muscular Dystrophy Association, Mujeres Unidas,
HONORING THE LIFE OF JOHNNIE COCHRAN, JR., ESQUIRE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Mr. CUMMINGS. Mr. Speaker, “You are empowered to do justice. You are empowered to ensure that this great system of ours works. Listen for a moment, will you, please.”—Johnnie Cochran, Closing Statement, O.J. Simpson Trial.

Mr. Speaker, I rise today to pay tribute to Johnnie Cochran, Jr., who died of a brain tumor on March 29, 2005. The New York Times called him “fierce,” “flamboyant,” and “electrifying.” Johnnie certainly was fierce, flamboyant and electrifying. He was also nuanced, principled, and persuasive—a giant in the legal profession.

Mr. Speaker, throughout his life, Johnnie Cochran believed wholeheartedly in the power and promise of the American judicial system. He was born in a charity hospital in Shreveport, Louisiana. His great grandparents had been slaves, his grandparents were sharecroppers, and his father was a pipefitter. When he was still a child, the Cochran family moved to California in search of opportunity and a better life. It was from California that the 11-year-old Johnnie watched Thurgood Marshall prosecute Brown vs. the Board of Education. Inspired by the trial, Johnnie, at only 11 years old, decided he wanted to be a lawyer. As he said in an NPR interview toward the end of his life, “After Brown vs. Board came along, I knew I wanted to use the law to change society for the better.”

Mr. Speaker, throughout his life, Johnnie Cochran was on the frontlines where race, politics and the law intersected. There are some detractors who mistakenly believed Johnnie fostered race divisions, but, in truth, he crusaded against corruption and racism in law enforcement. When the riots broke out after a verdict was reached in the Rodney King trial, Cochran represented Reginald Denny, a white truck driver who had been attacked by a mob, arguing that his civil rights had been violated.

But, Mr. Speaker, Johnnie made a career out of defending African Americans—from the O.J.s to what he called the “No Js,” cases in which the “chances for getting paid are actually pretty slim.” High profile trials made Johnnie Cochran a celebrity, but it was the victories for justice that made him proud. In 1978, Johnnie Cochran traded in his $300,000 salary for a $49,000 job as an Assistant District Attorney in Los Angeles County because he wanted to effect change from inside the system. His most famous triumph was the vindication of Elmer “Geronimo” Pratt, a former Black Panther who served 25 years in prison for murder before being exonerated. In 1997, when the judge read the verdict that set Pratt free, Johnnie said, “It doesn’t get any better than this.”

Mr. Speaker, Johnnie Cochran was a courtroom wizard with a practical sensibility and a lyrical lilt. He was a champion of racial justice, with just a touch of the razzle dazzle. We will miss him.

If I may, I would like to close the way I began. Let Johnnie Cochran’s words serve as a reminder to us today and everyday. “You are empowered to do justice. You are empowered to ensure that this great system of ours works. Listen for a moment, will you, please.”

A TRIBUTE TO BROOKLYN COLLEGE

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Mr. TOWNS. Mr. Speaker, I rise today to honor the seventy-fifth anniversary of Brooklyn College, the first coeducational public college on May 15, 1930, upon the merger of the Brooklyn branches of Hunter College and City College as the first coeducational public college in New York City. At its inception it was a modest institution that has developed tremendously and flourished marvelously.

Brooklyn College provides superb education in the arts and sciences and has served the community by graduating, over the past seventy-five years, more than 140,000 ethnically and culturally diverse students, reflecting New York City’s rich sociological fabric. Brooklyn College has been recognized nationally for its outstanding faculty, rigorous academic standards, innovative curriculum, and beautiful campus, and was recently ranked third among America’s Best Value Colleges by the Princeton Review.

Mr. Speaker, Brooklyn College will be holding many special events throughout the year in celebration of this anniversary, including a birthday party on May 10, 2005, on the College Quadrange.

Mr. Speaker, I believe it is incumbent upon this body to recognize the activities celebrating the seventy-fifth anniversary of Brooklyn College and its ongoing dedication to providing excellence in education, and encourage my colleagues to join the residents of Brooklyn in honoring Brooklyn College and its many alumni, students, faculty, and staff upon this very momentous occasion.

HONORING ARABELLA MARTINEZ

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Mr. STARK. Mr. Speaker, I rise today to pay tribute to Arabella Martinez, a remarkable individual who is retiring after many years of exemplary service and dedicated community involvement in Oakland, California. On May 11, 2005, the community will celebrate Ms. Martinez “The legacy of a Living Legend” at a dinner in her honor.

Arabella Martinez has extensive experience in a wide range of activities affecting the role of minorities and women in the economy and larger society. Her experience in social work, community action programs, and community development led to her conviction that economic development, evolving from strong, community-directed institutions, was the most effective path toward economic self-sufficiency and empowerment. President Jimmy Carter recognized Ms. Martinez’s talent and experience and appointed her Secretary for Human Development Services in the Department of Health Education and Welfare. She became the first Hispanic woman to hold this position.

Ms. Martinez was one of the founders and the first Executive Director of the Spanish Speaking Unity Council. After a fifteen-year absence, she returned to the Unity Council in December 1989, to rescue it from near bankruptcy. The Spanish Speaking Unity Council is now one of the largest and most successful community development corporations in the nation. Besides founding the Unity Council, Ms. Martinez helped build the Women’s Initiative for Self Employment as a Board member and consultant. She raised over $800,000 for the Oakland YWCA’s capital campaign to save its historically significant Julia Morgan building.

Over the past ten years, Ms. Martinez has successfully worked to revitalize the Fruitvale district, an inner-city neighborhood in Oakland, California. The revitalization includes major real estate development projects, community building activities, and a range of community and family asset development programs. Ms. Martinez’s major responsibility has been the successful development of a $100 million mixed use, transit-oriented development around the Fruitvale BART station. The Transit Village includes 245,000 square feet of community facilities, child development and senior centers, a community clinic, a library, technology center, retail space housing and podium parking in two multi-level complexes, bisected by a pedestrian plaza.

The Fruitvale Transit Village has transformed the community and its residents. It provides social services as well as community empowerment for individuals and businesses to thrive.

Arabella Martinez is truly a living legend who continues to work tirelessly for the benefit of others. I join the community in expressing heartfelt appreciation for her noteworthy contributions. She leaves a legacy of talent and commitment that is hard to match.
Mr. Kettani, the man sitting across from me at Rick’s, is also a returnee. Although born and raised in Morocco, he’s spent the best part of the last 15 years in Paris and New York before returning to the previous country to which he had been exiled and from which he was said to have been exiled. Mr. Kettani says, “I would have sworn that I would never have come back to Morocco.” But here he is, moving back to the United States and the EU to raise American money for a planned $35 million Moroccan private-equity fund, which he says is the first of its kind.

Mr. Kettani’s renewed enthusiasm for his country is not unusual in this, the country that claims to be America’s oldest ally. (Morocco’s King has been with the U.S. in 1877 that has been in force ever since.) In February, a bilateral free-trade agreement went into effect between the U.S. and Morocco. Morocco reduced 95 percent of tariffs between the two countries to zero and phasing out the rest over the next several years. A so-called “association agreement” with the EU is likewise gradually lowering trade barriers between Europe and Morocco. Businessmen in the country hope to capitalize on this privileged access to the two largest economies in the world by selling both the United States and Europe farm products to the U.S. and farm products to the U.S. and Europe, thanks to its status and low costs. As for services, he offers an example. “The biggest dental-implant company in Paris is Moroccan. You go to the dentist in Paris, he takes a mold of your teeth and ships it to Casablanca, where the implants are made and shipped back to Paris. We can turn around dental implants in 48 hours. For Mr. Belhaj, good relations with the West are the foundations of Morocco’s economic future.

Morocco is a potential bridge between the West and the Arab world in more than just economic ways. At a time when U.S. President George W. Bush’s Greater Middle East project is viewed by many in both Europe and the Arab world as a “neocconservative” pipe dream, Morocco stands out as a country furiously trying to show that Arab ways and Western modernization are not incompatible.

Morocco is a nigh-absolute monarchy, but one whose king has been steadily if gradually eoding political power. The elections in 2002 are generally viewed, both within Morocco and among Western NGOs such as Freedom House, as the first free and fair ones in the country’s 1,300-year history. And this year, the Parliament is expected to pass and the king is expected to ratify a law strengthening the role of parties in the country. For Mr. Belhaj, a businessman who is trying to found a center-right party dubbed Alliance of Liberties, it is a vital step toward democracy. “We have 26 opposition parties—a real political life in the country.”

Mr. Belhaj says. “The annual budget for the parties $1 million. How can you build a democracy like that?” Even so, he allows, “there are beginnings of democracy in Morocco,” and would like to see the Parliament strengthened.

But in terms of civil rights and freedom of the press, the country has made some real strides, enshrining habeas corpus and the presumption of innocence in law in the last five years. The Parliament is working on a bill to decriminalize libel, meaning disgruntled politicians would no longer be able to lock up journalists for writing things the ruling class would rather not see in print.

In Rabat, the country’s capital, I spoke to Ahmed Abbad, the director of Islamic affairs in the Ministry of Religion, about the role of religion in a modernizing Morocco. Last year, Morocco passed a reform of its so-called Family Law. The new law grants Moroccan women an equal right to divorce their husbands, an equal say in family governance and the right to marry without the consent of a male relative.

There were Islamist elements who had opposed some of these reforms on religious grounds; I asked Mr. Abbad what the government’s response had been on a religious level. “We are concerned with finalities,” he responded. “If you are talking about finalities, you do not get bogged down with the literal words.” He continued: “There is a saying in Islam: ‘Whoever is the interest of the whole, there is no selfishness.’ So bearing in mind the interest of the whole, he said, “We must determine how to implement the general principles of sharia law in a way that is appropriate to our time.” In short, the Ministry of Religion determined that the Family Law, giving women broadly equal rights in the family context, was consonant with Morocco’s official interpretation of Islam. It’s a dose of historical relativism that’s badly needed in much of the Arab world.

What about Abu Musab al-Zarqawi’s claims ahead of the Iraqi elections that democracy was un-Islamic? “He does not have the skills, the knowledge or the class to talk about democracy,” was Mr. Abbad’s response, delivered with just a touch of condescension. And, speaking of Saudi Arabia’s fundamentalist brand of Islam, he observed: “When you have a fundamentalist society, you wind up with a simplistic, superficial interpretation of Islam—like the ‘Bedouin Islam’ in Saudi Arabia.

All of which sounded pretty encouraging. So, did Mr. Abbad see Morocco’s flavor of Islam as a model for the Arab world—a modern, forward-looking alternative to Wahhabism fundamentalism? He didn’t want to go that far, but in the end he allowed, “We believe—humbly—that Morocco could be a model” for others, although they had no inclination to actively export their interpretation.

Morocco is democratizing, liberalizing and modernizing on several fronts. Is it a model for the Arab world? For the question to Bob Holley, a former American diplomat who is now consulting for the Moroccan government in Washington, and who facilitated a number of my meetings in Morocco.

“I think Morocco’s utility as a model is limited,” he admitted.

Mr. Holley may be right, and in any case Morocco’s progress is far from perfect or uniform. After the May 16, 2003, suicide bombings in Casablanca, the police rounded up some 1,000 people and released 900 in one day. When the Moroccan government was impaired to imprison anyone it deemed a threat to the public order. That law, known in the country as Art. 35, has been repealed.)

But model Arab democracy or not, Morocco is nevertheless showing what is possible within an Arab monarchy that looks west and north, rather than only east or inward. Back at Rick’s Cafe, my table-mate, Dr. Bouthaya Iraqui-Houssaini, who owns a medical-supply company here in Casablanca, offers her own appraisal. “Not everything is good, but it is all changing. People believe life is getting better,” she said. And that’s not a bad beginning.
RECOGNIZING RECIPIENTS OF THE BETTER BUSINESS BUREAU OF CENTRAL NEW ENGLAND, INC. TORCH AWARDS FOR MARKETPLACE ETHICS

HON. JAMES P. MCGOVERN OF MASSACHUSETTS IN THE HOUSE OF REPRESENTATIVES Wednesday, April 27, 2005

Mr. Speaker, I rise today to pay tribute to this year’s Better Business Bureau of Central New England, Inc. (BBB) Torch Award for Marketplace Ethics recipients from my hometown area of Worcester County.

Mr. Speaker, the mission of the Better Business Bureau of Central New England, Inc. (BBB) created in 1942, is to promote and foster the highest ethical relationship between businesses and the public through voluntary self-regulation, consumer and business education, and service excellence.

Ten years ago, the BBB established its annual Torch Award for Marketplace Ethics to recognize companies for their outstanding commitment to exceptional standards in relationships to their customers, employees, suppliers, competitors, shareholders, and surrounding communities. These awards are helping to illuminate the importance of corporate conscience and responsibility to upholding a fair and honest marketplace.

Mr. Speaker, two companies are being honored today by the Better Business Bureau for their commitment to marketplace ethics: Apple Home Care Associates, Inc. of Holden, MA. (provider of hospital equipment and supplies; established in 1990; 12 employees; President, Ms. Joni Milluzzo) and Sarkisian Builders, Inc. of Rutland, MA. (building contractor; established in 1962; 6 employees; President, Mr. Pat Sarkisian).

Mr. Speaker, I ask my colleagues in the House of Representatives to join me in honoring Apple Home Care Associates, Inc. and Sarkisian Builders, Inc. for this outstanding recognition of business ethics and solid reputations within the communities they serve. It is through the efforts and leadership of companies like these that businesses throughout Massachusetts, both large and small, are reminded that ethical behavior in the marketplace counts.

TRIBUTE TO DR. ANNE J. MATULA OF TEXAS IN THE HOUSE OF REPRESENTATIVES Wednesday, April 27, 2005

Mr. ORTIZ. Mr. Speaker, I rise today to pay special tribute to a woman in Odem, Texas: Dr. Anne J. Matula, who is greatly admired for her leadership in education and is retiring from her work in education and service.

Dr. Matula is the former Dean of Business Career and Technology Programs at Del Mar College. Presently, she serves as an adjunct instructor at the University of the Incarnate Word.

Her deep conviction and strong character were apparent even when she graduated as valedictorian from Odem High School. She obtained a Bachelor of Science degree, Summa Cum Laude (the highest honors) and a master’s degree in Business Administration from Texas A&M University in Corpus Christi. Following that, she completed a Joint Doctoral Program in Educational Leadership at the Texas A&M Universities at Corpus Christi and Kingsville, Texas.

Her educational background clearly supports her firm belief in education. Thriving to pursue this endeavor, she devoted a major part of her life to teaching. She began her teaching experiences at H.M. King High School in Kingsville, TX and Gregory-Portland High School in Gregory, TX. Just prior, she began teaching at Del Mar College in Corpus Christi as an instructor, assistant professor, and associate professor. Later on, she became an adjunct instructor at the college as needed. Dr. Matula served a tenure of 23 years at Del Mar College, which she led with incomparable competence. She was also an adjunct instructor at Texas A&M University in Corpus Christi.

Her participation in a number of civic organizations, such as the Coastal Bend Council of Governments and the San Patricio Economic Development Corporation, reflect her commitment to help the community. She has given many years of service on boards and forums, including the Junior League of Corpus Christi Advisory Board, the Regional Community Leaders Forum, the National Conference for Community and Justice, and the Board of Trustees of the Gregory-Portland Independent School District, on which she served for five elected terms. Dress for Success South Texas is another important board on which she served and of which she was the founding member.

She has also been distinguished for her membership in various professional organizations, such as the Delta Kappa Gamma Society International (of which she is a member), Phi Alpha Kappa, the Texas Association of School Boards, the Texas Community College Teachers Association, and the Texas Association of College Technical Educators (TACTE).

As a woman of great talent and dedication, Dr. Matula has been presented with various awards and prominent recognitions. It is a pleasure and privilege to honor Dr. Matula, whose passion and dedication to help others is immeasurable. Her years of commitment to higher education make her a distinctive and unique voice in our community. Dr. Matula is loved by all the students whose lives she has touched and who will remain in their hearts as a prominent figure in their education and future success.

I ask my colleagues to join me in honoring Dr. Anne J. Matula on the occasion of her retirement.

WOMEN'S HEART HEALTH

HON. MICHAEL BILIRAKIS OF FLORIDA IN THE HOUSE OF REPRESENTATIVES Wednesday, April 27, 2005

Mr. BILIRAKIS. Mr. Speaker, I rise today to bring attention to a critically-important public health issue, cardiovascular disease among women.

I recently attended a women’s heart health symposium in my district and was surprised to learn that heart disease is the number one cause of death for American women. Heart disease kills more than 366,000 women each year, more than all types of cancer combined. One in every 5 women has some form of cardiovascular disease. One woman dies from it every minute.

There are also troubling trends for women who survive heart attacks. I was astonished to learn that 38 percent of women who have heart attacks will die within the year, having had that heart attack. Forty-six percent of women who have heart attacks will be disabled with heart failure within 6 years of having a heart attack. These statistics are simply unacceptable.

There is good news, however. There are some simple steps both women and men can take to greatly reduce their risk for heart disease. We can lower our risk for heart disease
simply by not smoking, exercising regularly, and eating a nutritionally-balanced diet because smoking, high blood pressure, obesity, and sedentary lifestyles are major risk factors for heart disease in us all, particularly women.

As former Chairman of the Energy and Commerce Health Subcommittee, I am pleased to have been able to help double funding for the National Institutes of Health and support the work done by its National Heart, Lung, and Blood Institute, which currently is sponsoring a public awareness campaign on women and heart disease called “The Heart Truth.” This initiative is designed to spread the word that heart disease is not just a man’s disease, motivate women to take their heart health seriously and encourage them to lower their risk for cardiovascular disease.

Mr. Speaker, I believe that we should help raise public awareness about women’s heart health issues and support policies which promote the early diagnosis and proper treatment of women with cardiovascular disease. I hope that our colleagues join me in bringing attention to the importance of women’s heart health. Our mothers, wives, sisters, and daughters depend on it.

EXPRESSING THE SENSE OF CONGRESS REGARDING THE TWO-YEAR ANNIVERSARY OF THE HUMAN RIGHTS CRACKDOWN IN CUBA

HON. SAM FARR
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 27, 2005

Mr. FARR. Mr. Speaker, I have long been a staunch supporter of human rights throughout the world. Consistent with my strong record opposing human rights abuses around the world, I deplore the draconian actions President Castro has taken to curb the civil rights of Cubans. Unfortunately, it is impossible to have a legitimate debate about human rights abuses in Cuba because of the extreme politicalization of U.S.-Cuba policy that the Bush Administration has championed.

If we are truly serious about instilling a democratic influence and respect for the rule of law, U.S. policy should permit unrestricted travel to the island that is only 90 miles from our shores. Cuban Americans should be able to freely visit their loved ones, tourism should be allowed to flourish, cultural and educational exchanges should be encouraged, and agricultural trade should be unrestricted, thereby creating new markets for U.S. farmers and growers. Unfortunately, the current policy toward Cuba is not only counterproductive to American economic interests, but actually helps prop up President Castro by continuing to isolate Cubans from the rest of the world. The House of Representatives should be pressing far greater political and economic freedoms for Cubans that would truly improve their human rights instead of meaningless resolutions that reinforce a flawed strategy.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, April 28, 2005 may be found in the Daily Digest of today’s RECORD.

MEETINGS SCHEDULED

MAY 10

2:30 p.m. Energy and Natural Resources National Parks Subcommittee
To hold hearings to examine the National Park Service’s funding needs for administration and management of the national park system.

MAY 11

9:30 a.m. Indian Affairs
To hold an oversight hearing to examine Federal recognition of Indian tribes.

10 a.m. Judiciary
To hold an oversight hearing to examine the Federal Bureau of Investigation’s translation program.

SEPTEMBER 20

10 a.m. Veterans’ Affairs
To hold joint hearings with the House Committee on Veterans Affairs to examine the legislative presentation of the American Legion.
