What happens is when a person finishes their time in the penitentiary. They are taken back to the city in which they were convicted and released back in our community. So here we have a person illegally in the United States committed a crime against someone in the United States, goes to our State penitentiary, does time in our pen. When they get out, rather than just automatically deport them, send them back home, wherever they came from, we release them back into the community.
