WASHINGTON, WEDNESDAY, DECEMBER 5, 2012

No. 155

House of Representatives

The House met at 9 a.m. and was called to order by the Speaker pro tempore (Mr. DOLD).

DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
December 5, 2012.

I hereby appoint the Honorable ROBERT J. DOLD to act as Speaker pro tempore on this day.

JOHN A. BOEHNER,
Speaker of the House of Representatives.

PRAYER

The Chaplain, the Reverend Patrick J. Conroy, offered the following prayer: Loving and gracious God, we give You thanks for giving us another day.

We ask today that You bless the Members of the people's House to be the best and most faithful servants of the people they serve.

May they be filled with gratitude at the opportunity they have to serve in this place. We thank You for the abilities they have been given to do their work to contribute to the common good. May they use their talent as good stewards of Your many gifts and thereby be true servants of justice and partners in peace.

As this second session of the 112th Congress draws near its end and pressing legislative business once again weighs heavily on this Hill and throughout our land, withhold not Your spirit of wisdom and truth from this assembly. Give each Member clarity of thought and purity of motive so that they may render their service as their best selves.

May all that is done this day in the people's House be for Your greater honor and glory.

Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Tennessee (Mr. FLEISCHMANN) come forward and lead the House in the Pledge of Allegiance.

Mr. FLEISCHMANN led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain up to five requests for 1-minute speeches on each side of the aisle.

REMEMBERING CALEB LOGAN COOKE

(Mr. FLEISCHMANN asked and was given permission to address the House for 1 minute.)

Mr. FLEISCHMANN. Mr. Speaker, I rise today in remembrance of Caleb Logan Cooke. Caleb was born January 22, 1997, and passed away Saturday, December 1, 2012, at the age of 15. Caleb was a blessing to his parents and entire family from the day God placed him on His Earth. Though life was often a struggle for Caleb, he met every challenge head-on and always with a thoughtful and caring disposition. He was an accomplished Boy Scout, earned his black belt in tae kwon do, and was recognized for having the highest GPA in his freshman class.

In addition to all of his high school and extracurricular accomplishments, Caleb was engaged politically and always ready to discuss the day's news. A civically active young man, he was truly a shining example of our youth. Most of all, Caleb was a good friend to my son, Jeffrey, a delightful son to his parents, a loving sibling to his sister and brothers, a blessing to his entire family.

Caleb will be missed by all and always remembered.

AMERICANS WANT JOBS, NOT UNEMPLOYMENT CHECKS

(Mr. KUCINICH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KUCINICH. Nearly 50 million Americans—over 10 million children—live in poverty and 46 million Americans on food stamps. According to the Census Bureau, without Social Security over 50 percent of people 65 and older would live and die in poverty. Why do we accept poverty? Why do we accept massive unemployment? Over 20 million Americans are without work. You cannot escape poverty without a job. Americans want jobs, not unemployment checks. If you don't have a source of income, you can't own a home.

The middle class is disappearing. An unfair tax system is causing wealth to accelerate upwards, which is why I oppose the Bush tax cuts. But more tax increases and no massive jobs program are a prescription for disaster. We need more taxpayers, not more tax increases. You can't rebuild America by retaxing America. Poverty and joblessness constitute a national emergency. The private sector is not creating sufficient jobs. Congress has a constitutional obligation and power to coin or create money. We can use our power to put millions back to work rebuilding our infrastructure.

H6625

H.R. 2990, the National Employment Emergency Act, can accomplish this. It's our choice: increase taxes, cut spending, put the economy in a stall, or put millions back to work.

CONGRATULATING MOELLER HIGH SCHOOL FOOTBALL CHAMPIONS

(Mrs. SCHMIDT asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. SCHMIDT. Mr. Speaker, I rise today to congratulate the Ohio High School Athletic Association's 2012 Division I State football champions, the Moeller Crusaders. Last Saturday, the Crusaders, led by Head Coach John Rodenberg, defeated Toledo Whitmer 20-12 to capture Moeller's eighth State football championship title.

Archbishop Moeller High School, a Catholic institution in the Marianist tradition, currently has a student enrollment of 925 outstanding young men. Since its inception in 1960, Moeller High School has earned itself a well-deserved reputation for promoting both academic excellence and athletic prowess. Under their very first coach, Gerry Faust, who later went on to coach for Notre Dame, the Crusaders compiled a record of 178 wins, 23 losses, and two ties, while winning four national football championships, five State football championships, and enjoying seven undefeated seasons. One of Coach Faust's most favorite players was our very own JOHN BOEHNER. Speaker BOEHNER played as a linebacker for the Crusaders.

Following Coach Faust's tenure at the helm, the Crusaders have won three additional State championships, including the one last weekend in front of a crowd of 8,834 people at Fawcett Stadium in Canton, Ohio.

So to the Moeller High School football players, coaching staff, parents, student body, school administrators, teachers, faculty members, and fans, I offer you my heartfelt congratulations on this auspicious occasion of winning your eighth State championship. God bless you. God bless the Moeller Crusaders. God bless the men of Moeller. Take care.

Go Crusaders!

CREATING JOBS FOR AMERICA

(Mr. DUNCAN of Tennessee asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DUNCAN of Tennessee. Mr. Speaker, no Republican in Congress is trying to protect millionaires or billionaires. In fact, Republicans lose most of the wealthiest counties and neighborhoods by very large margins. Much of the impasse in the current negotiations is over who is going to spend the money. Republicans do not want higher taxes simply because so much of what the Federal Government spends is lost to waste, fraud, and abuse.

The most wasteful, inefficient way to spend money is to turn it over to the Federal Government. The best way to create jobs and hold prices steady is to let private citizens spend and invest as they choose. The wealthy do all right even in socialist countries. But lower-income and working people come out much better in countries that allow the most free enterprise. Millionaires and billionaires can take care of themselves. Republicans are simply trying to help create jobs and keep the cost of living from going out of sight for ordinary people.

MIDDLE CLASS TAX CUTS

(Mr. CICILLINE asked and was given permission to address the House for 1 minute.)

Mr. CICILLINE. Mr. Speaker, Democrats and Republicans agree that we should preserve tax cuts for all Americans on the first \$250,000 of family income. This will protect 98 percent of Americans from a tax increase and 97 percent of small businesses.

We have different ideas on the best and fairest way to set rates for the top 2 percent, the wealthiest Americans. Let's have that debate in the coming weeks, but let's act on the overwhelming areas of agreement today. This is not about a Democratic or Republican victory in this Chamber. It's about a victory for the American people.

Instead of moving forward with middle class tax cuts, our friends on the other side of the aisle are trying again to put forth a plan that gives tax breaks to the richest Americans at the expense of our seniors, veterans, the disabled, and the middle class.

It's time for the partisan games to end. Let's prove to the American people that this is the people's House. Pass the middle class tax cuts today.

MIDDLE CLASS TAX CUTS

(Ms. TSONGAS asked and was given permission to address the House for 1 minute.)

Ms. TSONGAS. Mr. Speaker, yesterday I was proud to join my colleagues in signing a petition to bring the middle class tax cuts to the House floor for an up-or-down vote. While there is much left to negotiate, there is one step that we can take today. It will provide millions of families and 97 percent of all small businesses with the security of knowing that their income taxes will not rise on January 1.

Both parties and the American people agree on the need to pass an extension of the tax cuts for every family on the first \$250,000 of income. The Senate has passed such a bill, the President stands ready to sign it today, and I have heard from hundreds of constituents urging support for this now.

I urge my Republican colleagues to join us today in protecting middle class

Americans and send the Senate-passed bill to the President.

THE GIFT OF FREQUENT FLYER MILES

(Mr. BARROW asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BARROW. Mr. Speaker, the holidays are a time to reflect on the things for which we are grateful. As we enjoy the company of family and friends, we should also take time to thank the brave men and women serving in our Armed Forces.

Every one of us knows the tremendous debt we owe our military families. This year, as a token of my thanks, I'm donating over 79,000 frequent flyer miles that I received for congressional travel to the Fisher House's Hero Miles program, which provides free airline tickets to American soldiers and their families.

Flying to Washington is part of our job, and there's no better way to use the miles we accumulate from those trips than to help our troops and their families see each other. I encourage all of my colleagues to donate their miles to the Fisher House or a similar charity that helps make a difference this holiday season.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Record votes on postponed questions will be taken later.

(3) recommendations on whether to harmonize any such differences.

(c) CONSULTATION.—In preparing the assessment under subsection (a), the Commandant may consider the views of representatives of the owners or operators of vessels documented in the United States and the organizations representing the employees employed on such vessels.

(a) IN GENERAL.—The Commandant of the Coast Guard shall assess the increased vessel traffic in the Salish Sea (including Puget Sound, the Strait of Georgia, Haro Strait, Rosario Strait, and the Strait of Juan de Fuca), that may occur from the transport of Canadian oil sands oil.

(b) SCOPE.—The assessment required under subsection (a) shall, at a minimum, consider—

(1) the extent to which vessel (including barge, tanker, and supertanker) traffic may increase due to Canadian oil sands development;

(2) whether the transport of oil from Canadian oil sands within the Salish Sea is likely to require navigation through United States territorial waters;

(3) the rules or regulations that restrict supertanker traffic in United States waters, including an assessment of whether there are methods to bypass those rules or regulations in such waters and adjacent Canadian waters;

(4) the rules or regulations that restrict the amount of oil transported in tankers or barges in United States waters, including an assessment of whether there are methods to bypass those rules or regulations in such waters and adjacent Canadian waters;

(5) the spill response capability throughout the shared waters of the United States and Canada, including oil spill response planning requirements for vessels bound for one nation transiting through the waters of the other nation;

(6) the vessel emergency response towing capability at the entrance to the Strait of Juan de Fuca;

(7) the agreement between the United States and Canada that outlines requirements for laden tank vessels to be escorted by tug boats;

(8) whether oil extracted from oil sands has different properties from other types of oil, including toxicity and other properties, that may require different maritime clean up technologies;

(9) a risk assessment of the increasing supertanker, tanker, and barge traffic associated with Canadian oil sands development or expected to be associated with Canadian oil sands development; and

(10) the potential costs and benefits to the United States public and the private sector of maritime transportation of oil sands products.

(c) CONSULTATION REQUIREMENT.—In conducting the assessment required under this section, the Commandant shall consult with the State of Washington, affected tribal governments, and industry, including vessel operators, oil sands producers, and spill response experts. The Commandant may consult with the Secretary of State.

(d) DEADLINE FOR SUBMISSION.—Not later than 180 days after the date of enactment of

this Act, the Commandant shall submit the assessment required under this section to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. LOBIONDO) and the gentleman from Washington (Mr. LARSEN) each will control 20 minutes.

The Chair recognizes the gentleman from New Jersey.

GENERAL LEAVE

Mr. LOBIONDO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on House Resolution 825.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. LOBIONDO. Mr. Speaker, I yield to the chairman of the full committee, Mr. MICA, such time as he may consume.

Mr. MICA. I thank the gentleman for yielding.

First, I want to take a moment to thank Mr. LOBIONDO for his outstanding leadership of the Coast Guard Committee, and also Mr. LARSEN, the ranking member from Washington. I know FRANK LOBIONDO has a great love for the United States Coast Guard. He has worked diligently, long, and tirelessly for one of our most important branches and most historic branches of government over the years and dedicated part of his time, but a full commitment, to the United States Coast Guard.

As we take up H.R. 2838 today, as we consider that reauthorization for the United States Coast Guard—and Congress must authorize every program. We create the Coast Guard by law. We must also set the policy and the programs and the funding levels through our committee, an important responsibility.

Now, we have an important responsibility, but we're reminded again, even in the last few days, of the death of one of our Coast Guard officers, Chief Mate Terrell Horne. He was killed protecting the United States. I think it was drug smugglers who took his life in southern California while a small boat was trying to stop their activities. Here again we are painfully reminded of the sacrifice of those men and women in service to the United States. So this morning, I really would like to dedicate this reauthorization to his memory and the memory of all the men and women who have served in the Coast Guard.

I had lost one young lady from St. Augustine in the Arctic. I remember that tragic loss of her life and so many others who have served us well in the United States Coast Guard, an important national security and safety agency that protects us day in and day out, 24/7. So we are reminded of their sacrifices and, today, of our responsibility.

To succeed at the many jobs that we assign members of the Coast Guard, they must have the resources on the water and the docks to complete their important mission. This bill authorizes the Coast Guard for fiscal years 2013 and 2014. It's a total of \$8.6 billion. Of course, when you talk about trillions in our Federal budget and activities, it's a small amount for the more than 50,000 Coast Guard men and women and for the programs that they undertake again each day.

□ 0920

One of the things we've tried to do is make the regulatory burden on fishermen more reasonable by extending some of the time they undergo to have dockside examinations. Again, in addition to serving national security purposes and maritime safety, we also serve an important economic activity, and that's the fishing community.

This bill also looks towards helping others that we're responsible for in the maritime industry. One of the problems we've had is in developing a TWIC card. A TWIC card is a Transportation Worker Identification Credential. We've had great problems with trying to get that installed so that we could find out who is entering our ports and to ensure that is done safely and securely, particularly with the threats that we face, the huge coastline of ports, the exposure that we face from maritime threats. And I think we've, hopefully, lessened some of the burdensome time required by multiple trips to get folks that need these cards to go to these enrollment centers—again, trying to help those who we're supposed to serve and to help them do their job in an expedited fashion.

As you know, our committee published a report. When we were in the minority, we helped author it. The title of the report was, "The Federal Government Must Stop Sitting on Its Assets." And in each of the categories and areas we're responsible for in the Transportation Committee, whether it's empty public buildings that have sat there, properties underutilized, we want to make sure that taxpayers' resources are used in the best possible way.

So this bill follows up our report by requiring the Coast Guard, which has currently sidelined one of our heavy icebreakers, to make a decision on either being reactivated or decommissioned. Again, we can't sit on valuable assets in any of our agencies.

Finally, this bill restricts the use of post-construction of future National Security Cutters until our National Security Cutters meet long-promised mission performance capabilities. We started producing a small number of National Security Cutters—bigger than 100-plus-foot cutters—after 9/11. We've had some problems with that program. It's our responsibility to straighten out those problems, to make certain that the long-promised mission performance capabilities are met, and this bill hope-

fully leads us in that positive direction.

Unfortunately, the bill does not restrict the ability of foreign seamen injured outside the United States on non-U.S.-flagged vessels from suing in United States courts, paid for by United States taxpayers. It was something we had hoped to achieve. We couldn't put it in this bill.

There are some other measures I would have liked to have had in this bill. It does not, unfortunately, establish—but we passed in the House—a uniform national standard for ballast water discharges. And that provision is supported by many in the House and by the U.S. and international maritime industries.

So we've done a good part of the job. I think we've met our responsibility, and I am pleased that we are here to authorize, for a period of 2 years, the United States Coast Guard, its operations and its programs, and support the men and women who support us. So, with that, I urge the passage of H. Res. 825.

Mr. SMITH of Washington. Mr. Speaker, I yield myself as much time as I may consume.

I rise in support of the resolution introduced by my colleague from New Jersey (Mr. LOBIONDO), the chairman of the subcommittee.

Before I begin my remarks, I want to join the gentleman from Florida (Mr. MICA), and of course the many others, in offering my condolences to the entire Coast Guard family for the tragic loss of one of their shipmates during a drug interdiction operation in the waters off of southern California this past weekend. We all recognize that the servicemen and -women of the Coast Guard willingly and routinely expose themselves to highly dangerous conditions on behalf of our Nation. Nevertheless, it is a profound tragedy when a servicemember makes that sacrifice, and our thoughts and prayers are with the Coast Guard at this time.

The legislation I stand in support of today has been developed as a compromise over the past 2 months during negotiations with the Senate. It would amend H.R. 2838, the Coast Guard and Maritime Transportation Act of 2012, that passed the House last November, and it also incorporates numerous provisions from the amendments to H.R. 2838 that cleared the Senate in September. And I appreciate the gentleman from New Jersey (Mr. LOBIONDO) for his willingness to work with me on this legislation in a bipartisan and open manner. I'm confident in saying that this bill embodies a fair and bipartisan compromise for everyone involved and that we can feel proud of this work.

As the ranking member of the Coast Guard Subcommittee, it's been a high priority for me to advance policies to revitalize and expand our domestic maritime industries, and this legislation marks a significant achievement in doing just that. It creates jobs in the

shipbuilding industry by taking vital steps towards improving our icebreaker fleet and finishing the program of record for Response Boat-Medium.

Earlier this year, I had a chance to visit job-creating shipyards that will be a part of the modernization effort of the Coast Guard. These shipyards provide good-paying jobs for hardworking engineers, welders, electricians, and mechanics all over the Northwest and throughout the country. The reauthorization of the Maritime Administration will improve the fortunes of those shipyards, and I am pleased that that is included in this bill as well.

But we've also, in authorizing the Coast Guard, reformed a number of key programs. The Coast Guard has one of the most expansive missions in the Federal Government. This multimission maritime military service is responsible for a broad range of activities, including mariner licensing, emergency oil spill response, vessel inspections, and navigation safety. The Coast Guard remains indispensable to the maintenance of a reliable and secure marine supply chain that supports maritime cargo operations, which contribute \$649 billion annually to the U.S. GDP, sustaining more than 13 million jobs.

This legislation authorizes funding levels for both the Coast Guard and the Reserve that provide for increased funding levels in fiscal years '13 and '14 over the fiscal year '12 level.

I believe the funding levels in the bill remain insufficient to address the documented needs of the Coast Guard. The Coast Guard has been asked to do more with less, and I'm afraid that their only choice during this time of budget uncertainty is to do less with less, and that's just wrong. So while I would prefer these levels to be higher, I understand that these funding levels are likely the best that can be provided under the constraints.

We must be aware, however, that funding levels in this legislation are absent any consideration of what will be needed to address the estimated \$260 million in damages to Coast Guard facilities in the Northeast as a result of Hurricane Sandy. These costs will be addressed in the future, I assume.

And I want to highlight, as well, that this legislation contains several provisions that will improve the Coast Guard's readiness and capabilities in the increasingly important Arctic region. Specifically, this bill directs the Coast Guard to complete a business case analysis to assess the cost-effectiveness of reactivating its heavy icebreaker, the Polar Sea. This analysis is overdue and it is vitally important.

At present, the Coast Guard has only one icebreaker, the Healy. Although the Coast Guard expects, in 2013, to reactivate the other heavy icebreaker, the Polar Star, the plain fact remains that the Coast Guard's icebreaker fleet remains severely undercapitalized and overextended. As it will be years before a new icebreaker can be delivered, it's

essential that we make informed decisions on the Polar Sea now in order to have a balanced assessment of Coast Guard polar icebreaker capabilities in the near term.

This legislation also advances provisions that address many administrative, personnel, procurement, and regulatory issues affecting the Coast Guard; specifically, several new authorities to bring the Coast Guard into parity with the other armed services have been included. Additionally, this legislation contains new authorities that will improve the efficiency and oversight of the Coast Guard's major acquisition programs, especially new advanced procurement authority and development of multiyear capital investment programs.

The bill includes language I authored that requires the Coast Guard to complete the procurement of 180 Response Boat-Mediums, or RB-Ms, as originally planned in the program of record for this vessel. This is a critical piece of maritime security, and the completion of these boats will lead to additional job creation in small shipyards.

Besides addressing the needs of the Coast Guard, this legislation also advances several important initiatives to support the U.S. Merchant Marine:

Title III of the legislation protects the Jones Act by strengthening the review and notice requirements for future administrative waivers. This provision, originally called for in H.R. 3202, the American Mariner Jobs Protection Act, should help preserve more opportunities for U.S. carriers and seafarers. The title also provides for a formal authorization for the Committee on the Maritime Transportation System;

Title IV of the legislation includes several provisions that will improve the Maritime Administration's ability to accept, manage, and recycle vessels held in the National Defense Reserve Fleet;

I'm also pleased title VI reauthorizes the Marine Debris Research, Reduction, and Prevention Act. More and more marine debris from the 2011 Japanese tsunami continues to wash up on the shores of the Pacific coast, including in my State of Washington. Japan, in the midst of a recovery from this disaster, though, has shown extraordinary leadership and friendship with the United States by recently announcing that they will donate directly \$5 million to debris cleanup.

□ 0930

It is important that we reauthorize the Marine Debris Act to ensure that the National Oceanic and Atmospheric Administration has the authority it needs to work with States to address this threat.

I very much appreciate the cooperation of Chairman LOBIONDO for including this important environmental measure, and I also applaud my colleagues, Mr. THOMPSON and Mr. FARR, for their work to see this program reauthorized.

In closing, Mr. Speaker, this legislation reflects a fair and balanced compromise. We have an obligation to support the Coast Guard and support our U.S. merchant marine. A safe and secure maritime environment is good for job creation, good for the economy, and good for the American people. In my estimation, this legislation fulfills that obligation. I urge its passage today, and I just briefly want to thank once again Mr. LOBIONDO for his incredible work to be bipartisan, open, and transparent in working to bring this legislation to passage.

With that, I reserve the balance of my time.

Mr. LOBIONDO. I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of House Resolution 825.

H.R. 2838 reauthorizes the activities of the Coast Guard through the fiscal year 2014 at levels that will allow for the administration's requested 1.7 percent military pay increase for fiscal year 2013 and provide for a military pay increase for fiscal year 2014 at a level consistent with CBO's estimate on the rate of inflation. The bill provides funding for the Coast Guard at levels that will reverse the irresponsible cuts proposed by the Obama administration and will ensure the service has what it needs to successfully conduct its missions.

The legislation includes critical provisions that will give the Coast Guard, its servicemembers, and its dependents great parity with their counterparts in the Department of Defense, something that we've worked very hard to achieve. H.R. 2838 also contains reforms and improvements to the Coast Guard's acquisition program and activities. The bill encourages job growth in the maritime sector by cutting EPA, TSA, and Coast Guard regulatory burdens on small businesses. Finally, the bill enhances the security of U.S. vessels and crews transiting high-risk waters, reauthorizes the national security aspects of the Maritime Administration for fiscal year 2013, and makes several important improvements to NOAA's marine debris program, as noted by Mr. LARSEN.

H.R. 2838 was put together in cooperation with the minority and with our counterparts in the Senate. I'd like to thank Mr. MICA, chairman of the full committee; I'd like to thank Mr. RAHALL, the ranking member of the full committee; I especially want to thank Mr. LARSEN. We've had, I think, a model for how a committee or a subcommittee should operate. We've been focused on results. We've been focused on incorporating good ideas. Rick, I very much appreciated your cooperation in moving forward on these very important issues for the Nation.

Finally, I would like to thank the staff on both sides for their work and their help in this legislation. We rely on them a great deal. They've worked in an extraordinary manner, and it's very much appreciated, and hopefully we get the results we need.

I also want to take a moment to underscore the very dangerous work that the Coast Guard does to keep our Nation and our shores safe. We were all shocked and very saddened to hear the news this weekend that a Coastie lost his life in the line of duty. This underscores how our Coast Guard men and women put their life at risk each and every day. They're really underrecognized and underappreciated for the work they do. And with drugs being such a great scourge in our country, it sounds like this Coastie was just brutally murdered. So our heart goes out to the men and women of the Coast Guard, his colleagues, his family, and his friends. Chief Petty Officer Terrell Horne was serving his country and gave his life for his country. Again, our thoughts and prayers go out to his family and friends. We're tremendously thankful for all the brave men and women of the Coast Guard and the work that they do each and every day.

I urge all Members to support H.R. 2838, and I reserve the balance of my time.

Mr. LARSEN. Mr. Speaker, I yield 2 minutes to the gentlewoman from California (Ms. HAHN).

Ms. HAHN. Thank you, Mr. LARSEN and Mr. LOBIONDO, for your work on this.

Mr. Speaker, I rise to offer my support for the House and Senate agreement on the Coast Guard reauthorization for fiscal year 2013 and 2014.

The United States Coast Guard plays an integral role in our Nation's homeland security. They are on the front lines each and every day ensuring that our ports and waterways remain safe and secure.

As a cofounder and cochair of the congressional bipartisan PORTS Caucus, we're learning more and more every day about the critical role that our Coast Guard plays in the security of our ports. Our caucus members had a very productive conversation with Vice Admiral Peter Neffenger of the U.S. Coast Guard in April, whom I got to know very well in Los Angeles when he was the captain of the ports of Los Angeles and Long Beach. He discussed the Coast Guard's critical role in providing security and disaster preparedness at our Nation's ports. That's why providing the Coast Guard with the necessary ships and gear they need is so important.

However, it's neither the ships nor the gear that make up the heart of the United States Coast Guard. It is the men and women who fight every day to make this country a safer place. They serve with bravery and poise, and are sometimes called upon to make the ultimate sacrifice. And as has been talked about this morning, unfortunately that is what occurred this past weekend when a brave Coast Guardsman gave his life for this country. On December 2, Chief Petty Officer Horne was killed when he and his team came upon a boat suspected of drug smuggling and were rammed upon approach-

ing it. The impact knocked Officer Horne and another Coast Guardsman into the water, inflicting Horne with a severe traumatic head injury that ultimately proved to be fatal.

Chief Petty Officer Terrell Horne was a distinguished Coast Guardsman, and his life is deeply cherished by our Nation as we reflect on his unwavering commitment to protecting our country. He and his family were from Redondo Beach, which is in my current congressional district. His sacrifice serves as a stark reminder of the extraordinary sacrifices our men and women in uniform make boldly for this country each and every day.

As my colleagues consider this bill before us, I ask that we all keep Officer Horne's family, friends, and fellow officers in the Coast Guard in your thoughts and prayers and never forget the sacrifices that our men and women make for us each and every day. I appreciate all the comments that have been made this morning reflecting this same thought.

Mr. LOBIONDO. I continue to reserve the balance of my time.

Mr. LARSEN. Mr. Speaker, I yield 2 minutes to the gentlewoman from Oregon (Ms. BONAMICI).

Ms. BONAMICI. Thank you very much, Mr. Chair and Mr. Ranking Member.

Mr. Speaker, I rise today in support of the underlying bill which reauthorizes important programs to keep our waterways safe and navigable, protect our marine economy, defend our maritime borders, and support the brave Coast Guard personnel, including the personnel of the U.S. Coast Guard sector Columbia River, which is headquartered in Oregon's First Congressional District. They all work in pursuit of these vital missions. I also thank the chairman and ranking member of the Coast Guard Subcommittee for their work on this, as well as the chair and ranking member of the full Transportation and Infrastructure Committee.

In addition to supporting the basic mission of the Coast Guard, this legislation includes language to reauthorize another important mission carried out by our Federal Government that is worthy of this body's support, NOAA's marine debris program. In June of this year, coastal residents in my home State of Oregon found a 66-foot dock resting on a beach near the town of Newport, Oregon. The dock was just one piece of many that scientists have estimated to be a debris field with as much as 1.5 million tons of debris that were washed into the ocean by the tsunami that struck Japan in March of 2011.

Beyond the obvious navigational dangers posed by the dock and the other debris that has been discovered in States on the Pacific coastline, the debris also brings with it invasive species that could harm our maritime environment. Not only is this debris dangerous, it's costly to remove, and the

threat of a significant increase in debris arriving on our coasts has caused many State and local governments serious budgetary concerns. Oregon spent nearly \$80,000 just removing that one dock.

Since the arrival of the Japanese dock on Agate Beach, Oregon, other members and I have heard from constituents who call on us to provide them with some assistance in dealing with this unprecedented situation.

□ 0940

The Marine Debris Program at NOAA makes some funding available through grants provided to coastal communities and to State and local governments to assist with debris response and removal. The bill we are considering today reauthorizes NOAA's Marine Debris Program. That's very important.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Mr. LARSEN of Washington. I yield the gentlelady an additional 30 seconds.

Ms. BONAMICI. In addition to that, I've introduced bipartisan legislation with Congresswoman HERRERA BEUTLER from Washington, the Marine Debris Emergency Act, to expedite that funding, which can currently take about a year from proposal to award. This bill will shorten the window to 60 days, which could be very important.

So I urge my colleagues to support our coastal communities by supporting this legislation and the bill before us today. Thank you to the chairs and ranking member for their hard work.

Mr. LOBIONDO. I continue to reserve the balance of my time.

Mr. LARSEN of Washington. I yield 3 minutes to the gentleman from California (Mr. FARR).

Mr. FARR. Thank you for yielding.

Mr. Speaker, I rise today to highlight title VI of the Coast Guard and Maritime Transportation Act of 2012, which amends the Marine Debris Program.

This partnership between NOAA and the United States Coast Guard has been hugely beneficial to our Nation's coastal communities. It has improved research and debris removal activities at sea and has built a greater understanding of the challenges we face in addressing this threat. There are so many successful projects funded by the Marine Debris Program, which is astounding considering that the program spends far less than \$10 million.

I want to highlight the National Fish and Wildlife Foundation NOAA grant program for Marine Debris Research and Technology. From 2005 to 2011, this program supported 46 projects involving fishermen, ports, and marinas, and they leveraged \$2.7 million in NOAA funding with \$2.9 million in non-Federal matching funds.

Another program, Fishing for Energy, is one innovative program that installs collection bins for commercial fishermen to dispose of old or unwanted fishing gear. To date, this program has disposed of more than 700

tons of obsolete or derelict gear, which annually accounts for \$250 million in lost marketable lobster and which saves up to \$792 million in damages to boat propellers from derelict fishing gear. If that isn't enough, an Energy-from-Waste facility recycles the gear and harnesses electricity from the recycling process. It doesn't cost the fishermen anything to dispose of this gear, and that's why it's such a successful program.

This small Federal investment results in a huge cost savings. Marine debris is a much larger and growing problem. With the disaster in Japan last year and with recent storms like Sandy, cleaning up debris requires both resources and coordination between agencies and States. While I commend the bipartisan support and leadership of my colleagues to get this bill to the President, I am disappointed that the program's authorization has not been extended. I will continue to work for the permanent reauthorization of the Marine Debris Program because it is a critical program for coastal communities.

I urge my colleagues to support this bill, which is one of bipartisan-bicameral compromise. I thank Chairman MICA, Chairman HASTINGS, Ranking Member RAHALL, and Ranking Member MARKEY for their leadership in bringing my bill, H.R. 1171, to the floor for passage out of the House. I thank Chairman LOBIONDO and Ranking Member LARSEN for including this important language in the Coast Guard and Maritime Transportation Act of 2012. I urge your support.

Mr. LOBIONDO. I continue to reserve the balance of my time.

Mr. LARSEN of Washington. I yield myself such time as I may consume.

Mr. Speaker, thank you so much for an opportunity to speak on this important resolution. I want to urge everyone to support its passage.

Finally, I want to thank the staff for its great work in putting this together. It's a bit of a dance to put all of the pieces together in legislation like this, but they did a great job, so I want to extend my thanks to them as well.

With that, I yield back the balance of my time.

Mr. LOBIONDO. Mr. Speaker, in closing, I would like to thank everyone who has been involved in this process. Again, I especially thank Mr. LARSEN for the cooperative initiatives and efforts that we've been able to undertake. I hope that all the Members of the House of Representatives will think about the sacrifices that the men and women of the Coast Guard make and will vote affirmatively for this bill.

I yield back the balance of my time.

Mr. CUMMINGS. Mr. Speaker, I applaud Chairmen MICA and LOBIONDO and Ranking Members RAHALL and LARSEN for their work on the Coast Guard and Maritime Transportation Act of 2012 and for their leadership. I also thank our colleagues in the Senate for their work.

The bill before us contains provisions in Section 301 that are substantially similar to

H.R. 3202, the American Mariners Job Protection Act, which I introduced with Congressman JEFF LANDRY.

These provisions will significantly expand transparency surrounding the issuance of waivers allowing non-Jones Act qualified vessels to carry cargoes between two ports in the United States.

While the Jones Act can be waived in the interest of national defense, the Maritime Administration (MARAD) is required to assess whether Jones Act-qualified vessels are available to carry the cargo under consideration. However, recent experience suggests that such assessments have been cursory at best.

The provisions included in Section 301 will require MARAD to publicize the results of such assessments, including detailing the actions that could be taken to enable American vessels to carry the cargo for which a waiver is sought. MARAD will also be required to publish its determinations on its website and provide notification to Congress when a Jones Act waiver is requested or issued.

I thank my colleagues for working with me and Congressman LANDRY to make these important improvements in the administration of the Jones Act.

While I applaud the inclusion of these provisions, the bill before us does contain provisions that I do not support. In particular, I am deeply disappointed that this bill eliminates provisions in the Coast Guard Authorization of 2010 that I authored to establish an ombudsman in each Coast Guard District.

These ombudsmen were intended to serve as liaisons between the Coast Guard and ports, terminal operators, shipowners, and labor representatives to enable these stakeholders to seek further review of disputes regarding the application of Coast Guard regulations. They would have given the port community another mechanism to engage with the Coast Guard to ensure that the application of regulations achieves critical safety and security objectives while having the least possible impact on commerce.

I am also disappointed that this legislation delays the introduction of modern survival craft that ensure that all parts of the body are out of the water. Instead, the bill allows the continued use of equipment that pre-dates World War II.

We would never think of using pre-World War II technology in other aspects of our lives when significantly more advanced technology is available. For that reason, I am shocked that my colleagues believe such antiquated equipment is appropriate for those whose lives are at risk at sea—particularly the disabled, the elderly and children. This is not a subject that needs more study. It has been studied numerous times—and the National Transportation Safety Board (NTSB) explicitly opposes the continued use of life floats and non-inflatable buoyant apparatus as primary lifesaving devices.

Similarly, I am disappointed by provisions in this bill that delay the requirement that fishing vessels undergo dockside exams—and that will reduce the frequency of such exams once they are implemented. Five years between dockside examinations will do little to reduce the unconscionably high casualties suffered by commercial fishermen in what remains our nation's most dangerous profession.

Finally, I am disappointed that we could not include legislation Congressman LANDRY and I

introduced to restore the cuts to cargo preference programs made in the MAP-21 legislation. Cargo preference requirements are critical to the maintenance of a robust U.S.-flagged fleet and these cuts should never have been made.

While I will not oppose this legislation, I believe it could have been significantly better than it is in its current form—and I hope we can address these matters promptly in the 113th Congress.

Mr. ROHRBACHER. Mr. Speaker, I rise in support of H. Res. 825, a resolution providing for the concurrence by the House in the Senate amendments to H.R. 2838, the Coast Guard Authorization Act of 2012, with an amendment.

For many years I have directed my district staff in Huntington Beach, California, to organize regular briefings for me as well as public informational meetings about homeland and border security, particularly security of the coastline I have the honor to represent in Congress. On April 4 of this year, I had one such briefing in the American Legion Post in Newport Beach that featured presentations by the Department of Homeland Security Office of Intelligence and Analysis, U.S. Coast Guard and U.S. Border Patrol. The briefings were attended by police, sheriff, fire and marine safety personnel from San Diego to Los Angeles.

These briefings are always foremost in my mind when I urge my colleagues in Congress to summon the political will to stop giving our country away by failing to enforce our borders. The southern California shoreline is the destination for a brazen invasion of contraband and illegal labor smugglers by sea. The brazenness is exceeded only by the shocking multiplier effect of violent crime to persons and property that emanates from the "stash" (safe) houses and sweat shops that proliferate along a clandestine network extending north from San Diego.

The stakes have been rising in recent years as hundreds of "panga" boats ply the waters of Orange County's most treasured beachfront locations, looking for scouts and convoys forward positioned to make a pick-up of exploited workers or drugs shipments. Some panga boats are small, seating 6 to 8 passengers, and sometimes the boats are huge and hold up to 40 people. To suggest it is a sophisticated operation would be an understatement. That is why we enlist the public as well as our protective law enforcement services to spread the word of warning and alert the citizenry to the threat we face as individuals and as a society.

On December 2, 2012, we were tragically reminded of what is at stake when news from the U.S. Coast Guard reached my desk that a brave member of the United States Coast Guard, Chief Petty Officer Terrell Horne III, was killed in action while defending our coastline from the wave of unlawful foreign incursions. As I did in my letter to Admiral Papp, Commandant of the USCG, I want to convey here the most heartfelt condolences from my family and me, as well as millions of Americans living on this coastline, to Chief Petty Officer Horne's family, to the crew of the Cutter *Halibut* on which Petty Officer Horne served, and to the larger USCG community.

Reports indicate that Chief Petty Officer Horne was in a chase boat pursuing a panga when it turned and rammed his craft, killing him and injuring other USCG members doing

their jobs for us. This violence against our coastal defenders is yet another wake up call to America, sounding anew a warning that we must as a nation summon courage to defend our border equal to the devotion to duty Chief Petty Officer Horne exemplified. There was no price he was unwilling to pay to protect our nation, and we must honor him by rising in the same degree to the cause for which he died.

Every day courageous men and women of the USCG are on the front line of the struggle to restore the rule of law in the navigable waters of our nation. As the daily assault on our coastal communities escalates, the USCG stands between us and lawlessness on the open seas and along the shorelines where our very civil order now is under siege. This tragic loss of one of American's finest is the terrible price we pay to turn back those emboldened to violate our border security and threaten our homeland in desperate criminal enterprises, profiting from trafficking in drugs and human beings.

Unyielding in our vigilance against these modern day pirates and slave traders, we pause to mourn the loss of a fellow American whose service to our nation humbles us and deepens our resolve to prevail against the perpetrators of violence and crime making landfall on our coast from the sea.

That can and must be done to honor Chief Petty Officer Horne and all those who have sacrificed all so we may remain a sovereign nation and free people. We owe it to Terrell Horne and each and every one of our fallen heroes. I again urge my colleagues to support H. Res. 825 in honor of Terrell and all those who sacrifice so much for all of us.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New Jersey (Mr. LoBiondo) that the House suspend the rules and agree to the resolution, H. Res. 825.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

SENSE OF CONGRESS ON GOVERNANCE OF THE INTERNET

Mrs. BLACKBURN. Mr. Speaker, I move to suspend the rules and concur in the concurrent resolution (S. Con. Res. 50) expressing the sense of Congress regarding actions to preserve and advance the multistakeholder governance model under which the Internet has thrived.

The Clerk read the title of the concurrent resolution.

The text of the concurrent resolution is as follows:

S. CON. RES. 50

Whereas given the importance of the Internet to the global economy, it is essential that the Internet remain stable, secure, and free from government control;

Whereas the world deserves the access to knowledge, services, commerce, and communication, the accompanying benefits to economic development, education, and health care, and the informed discussion that is the bedrock of democratic self-government that the Internet provides;

Whereas the structure of Internet governance has profound implications for competi-

tion and trade, democratization, free expression, and access to information;

Whereas countries have obligations to protect human rights, which are advanced by online activity as well as offline activity;

Whereas the ability to innovate, develop technical capacity, grasp economic opportunities, and promote freedom of expression online is best realized in cooperation with all stakeholders;

Whereas proposals have been put forward for consideration at the 2012 World Conference on International Telecommunications that would fundamentally alter the governance and operation of the Internet;

Whereas the proposals, in international bodies such as the United Nations General Assembly, the United Nations Commission on Science and Technology for Development, and the International Telecommunication Union, would attempt to justify increased government control over the Internet and would undermine the current multistakeholder model that has enabled the Internet to flourish and under which the private sector, civil society, academia, and individual users play an important role in charting its direction;

Whereas the proposals would diminish the freedom of expression on the Internet in favor of government control over content;

Whereas the position of the United States Government has been and is to advocate for the flow of information free from government control; and

Whereas this and past Administrations have made a strong commitment to the multistakeholder model of Internet governance and the promotion of the global benefits of the Internet: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That it is the sense of Congress that the Secretary of State, in consultation with the Secretary of Commerce, should continue working to implement the position of the United States on Internet governance that clearly articulates the consistent and unequivocal policy of the United States to promote a global Internet free from government control and preserve and advance the successful multistakeholder model that governs the Internet today.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Tennessee (Mrs. BLACKBURN) and the gentlewoman from California (Ms. ESHOO) each will control 20 minutes.

The Chair recognizes the gentlewoman from Tennessee.

GENERAL LEAVE

Mrs. BLACKBURN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and insert extraneous material in the RECORD for S. Con. Res. 50.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Tennessee?

There was no objection.

Mrs. BLACKBURN. Mr. Speaker, I yield myself such time as I may consume.

This week, representatives from 193 countries are meeting in Dubai to reexamine an international treaty dealing with telecommunications. Several hostile countries are seeking to use this opportunity to impose new international regulations on the Internet.

We need to send a strong message to the world that the Internet has thrived under a decentralized, bottom-up,

multistakeholder governance model. That is why I stand in strong support of Senator RUBIO's Senate Concurrent Resolution 50. The U.S. is united in its opposition to international control over Internet governance, and we've seen leadership pushing back against ceding more power to the International Telecommunication Union. It is referred to as the "ITU." It's a branch of the United Nations.

Some want to give it new powers. Several countries see the Internet as a tool for political and/or economic control that they want to exploit. For example, Russia's Vladimir Putin has openly stated his intention to seek "international control over the Internet using the monitoring and supervisory capabilities of the ITU." Just last week, the Syrian Government shut off Internet access as the regime sought to suppress the free exchange of information among its private citizens. But it's because the Internet is the ultimate tool of political and economic liberation that we should foster and protect it, not give those who fear its impact on politics and the economy the power to repress its continued innovation and untapped potential.

I also want to make an important point about our legitimacy in the fight to keep the Internet thriving, democratic, and decentralized. Unfortunately, we did undermine our credibility when the Federal Communications Commission imposed net neutrality regulations without the proper statutory authority to do so. Even Ambassador Verveer at the State Department had made the point. He said in 2010 that the net neutrality proceeding "is one that could be employed by regimes that don't agree with our perspectives about essentially avoiding regulation of the Internet and trying to be sure not to do anything to damage its dynamism and its organic development. It could be employed as a pretext or as an excuse for undertaking public policy activities that we would disagree with pretty profoundly."

□ 0950

We need to pass S. Con. Res. 50 and rebuild our credibility in support of Internet freedom. Regulating beyond our authority at home sets a very bad example when we want to oppose truly devastating regulations at the international level. Despite our domestic disagreements on telecom policy, one thing both sides of the aisle can agree on is that we should uphold the Internet governance model that's working. Let's not try to fix what's not broken.

In Dubai, we want our country promoting private markets and U.S. interests. Let's encourage the decentralized governance model that's been successful in the past, and let's show leadership instead of giving away broad regulatory powers to those who don't deserve and who should not have it.

I reserve the balance of my time.

Ms. ESHOO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, it's fitting that on the week in which the World Conference on International Telecommunications convenes in Dubai that the House will once again take up a resolution demonstrating the bipartisan commitment of Congress to preserve the open structure and multistakeholder approach that has guided the Internet over the past two decades.

I think we are all very, very proud that there is not only bipartisan but bicameral support underlying this resolution, and there is complete support across the executive branch of our government. In other words, the United States of America is totally unified on this issue of an open structure, a multistakeholder approach that has guided the Internet over the past two decades.

The Senate resolution before us today, Mr. Speaker, makes a minor technical change to a resolution that the House passed unanimously in August by a vote of 414-0. I have no objection to this change, and I ask my colleagues to support this bipartisan measure.

I yield back the balance of my time. Mrs. BLACKBURN. Mr. Speaker, at this time I yield 4 minutes to the gentleman from Oregon (Mr. WALDEN), who is the chairman of the Subcommittee on Telecommunications and the Internet.

Mr. WALDEN. I thank my colleague and friend for the time.

I rise today in support of Senate Concurrent Resolution 50, which, as you've heard, opposes international regulation of the Internet. It is virtually identical to the language that our friend and colleague Representative MARY BONO MACK put forward in H. Con. Res. 127, which was introduced earlier this year and passed by my subcommittee and in the full Energy and Commerce Committee and went on to pass this House without opposition. With this vote, we unify that language and we send a strong bipartisan, bicameral signal about America's commitment to an unregulated Internet.

I want to thank Representative BONO MACK for championing this important legislation to keep the Internet free from government regulation. I also wish to thank FCC Commissioner Robert McDowell, who has tirelessly sounded the call, not only about the peril we face if we stand idly by as countries like Russia and China seek to exert control over the Internet, but also about how FCC's own actions adopting network neutrality rules regulating the Internet undermine America's case abroad.

I also fear that recent talks of cybersecurity executive orders here at home may be cited back to us by some foreign nations with them accusing us of telling them to do as we say but not as we do.

The historical hands-off regulatory policy has allowed the Internet to become the greatest vehicle for global, social, and economic liberty since the

printing press. And despite the current economic climate, it continues to grow at an astonishing pace.

FCC Commissioner McDowell and Chairman Genachowski are in Dubai this week as U.S. delegates to the World Conference on International Telecommunications. Our committee has also sent representatives from both parties to keep an eye on the proceedings. There, the 193 member countries of the United Nations are considering whether to apply to the Internet a regulatory regime that the International Telecommunications Union created in the 1980s for old-fashioned telephone service, as well as whether to swallow the Internet's nongovernmental organizational structure whole and make it part of the United Nations. Neither of these are acceptable outcomes and must be strongly opposed by our delegation.

Among those supportive of such regulation is Russian President Vladimir Putin, who spoke positively about the idea of "establishing international control over the Internet," to use his own words. Some countries have even proposed regulations that would allow them to read citizens' email in the name of security, require citizens to register their email addresses for tracking purposes, and to charge for Internet access to their countries on a per-click basis.

This resolution rejects these proposals by taking the radical position that if the most revolutionary advance in technology, commerce, and social discourse of the last century is not broken, as you've heard others say, there's no reason to "fix" it.

The ability of the Internet to grow at this staggering pace is due largely to the flexibility of the multistakeholder model that governs the Internet so successfully today. Nongovernmental institutions now manage the Internet's core functions with input from private and public sector participants, and this structure prevents governmental or nongovernmental actors from controlling the design of the network or the content that it carries. Without one entity in control, the Internet has become a driver of jobs, information, business expansion, investment, and innovation. Moving away from the multistakeholder model would harm these abilities, preventing the Internet from spreading prosperity and the cause of freedom.

As the United States delegation continues its work at the WCIT, this resolution is an excellent bipartisan demonstration of our Nation's commitment to preserve the multistakeholder governance model and keep the Internet free from international regulation. I encourage my colleagues to support passage of this measure.

Mrs. BLACKBURN. Mr. Speaker, at this time I would like to yield 4 minutes to the gentleman from Louisiana (Mr. SCALISE), who is a member of the Telecommunications and Internet Subcommittee.

Mr. SCALISE. Mr. Speaker, I want to thank the gentlelady from Tennessee for yielding and for her leadership on this issue.

As has been noted, right now, in Dubai, an arm of the United Nations is considering trying to take international control over parts of the Internet. If you look at the struggling economy we have right now in the United States, one of the few bright spots is the telecommunications industry. One of the reasons—as a computer science major, I would argue that one of the reasons that the telecommunications and technology industry has been so successful even in a tough economy is because the government hasn't figured out how to regulate it and slow it down.

And yet here you have a proposal by the United Nations, coming out of the United Nations, to interfere with that multistakeholder organization which has been and allowed this industry to be so successful and allowed the Internet to shape and dramatically improve so many people's lives. So many of the things we can do today and all of the conveniences that have been added through great new apps and great new technology have come from this multistakeholder governance of the Internet. And yet here you have the United Nations try to step in.

And let's be real clear about who some of these countries are that want to do this and what they're intending to do if they are successful. Countries like Russia and China are leading this. Some of the Arab nations right now where you see uprisings, and many of those uprisings, by the way, have been brought through social media, through an open and free Internet where people can come together in cyberspace and hold their leadership accountable and in some cases rise up against oppressive governments, and those governments would like nothing more than to be able to shut that down by taking over control of the Internet.

I know it's been brought up before by the gentlelady from Tennessee and others, but I think it's important to know that Vladimir Putin, when he was meeting with the ITU Secretary-General said his goal, the reason that he and others like China are pursuing this, is to establish international control over the Internet through these new ITU rules.

And so while these discussions are going on in Dubai, I think it's critical that this piece of legislation is something we can arm our supporters with, those who stand up for Internet freedom, to say it is the United States Congress' bipartisan agreement that we want to maintain that freedom. We don't want United Nations control over the Internet.

□ 1000

Mrs. BLACKBURN. Mr. Speaker, we have no further speakers, and as I close, I want to thank Ms. ESHOO for the leadership that she has given. She's

the ranking member of the Telecommunications and Internet Subcommittee.

I also want to draw attention to the outstanding work that Representative MARY BONO MACK did as she led the debate and the discussion and pushed for the resolution, authored the resolution that the House passed earlier on this very issue. I also want to thank her for her work with Senator RUBIO and having a resolution that would be agreed to by both Chambers.

As Ms. ESHOO indicated earlier, the Senate resolution makes a technical change, a small technical change, in the resolution that was passed by the House. This is where the U.S. needs to stand firm. It's a way that we, in a bipartisan manner, can stand firm for freedom. I encourage the passage of this resolution; and I encourage that we, as a body, will continue to stand for a free and open Internet.

With that, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Tennessee (Mrs. BLACKBURN) that the House suspend the rules and concur in the concurrent resolution, S. Con. Res. 50.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mrs. BLACKBURN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

FORMER PRESIDENTS PROTECTION ACT OF 2012

Mr. SMITH of Texas. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 6620) to amend title 18, United States Code, to eliminate certain limitations on the length of Secret Service Protection for former Presidents and for the children of former Presidents.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 6620

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Former Presidents Protection Act of 2012".

SEC. 2. ELIMINATING CERTAIN LIMITATIONS ON THE LENGTH OF SECRET SERVICE PROTECTION FOR FORMER PRESIDENTS AND FOR THE CHILDREN OF FORMER PRESIDENTS.

(a) FORMER PRESIDENTS.—Section 3056(a)(3) of title 18, United States Code, is amended by striking "unless the former President did not" and all that follows through "warrant such protection".

(b) CHILDREN OF FORMER PRESIDENTS.—Section 3056(a)(4) of title 18, United States Code, is amended by striking "for a period" and all that follows through "comes first".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from

Texas (Mr. SMITH) and the gentleman from Michigan (Mr. CONYERS) each will control 20 minutes.

The Chair recognizes the gentleman from Texas.

GENERAL LEAVE

Mr. SMITH of Texas. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous materials on H.R. 6620, currently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. SMITH of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 6620, the Former Presidents Protection Act of 2012, amends Federal law to uniformly provide lifetime Secret Service protection to all of America's former Presidents.

I want to thank the gentleman from South Carolina (Mr. GOWDY) and the gentleman from Virginia (Mr. SCOTT) for sponsoring this commonsense, bipartisan legislation.

America has a responsibility to protect its Presidents and their families, and not simply while they serve in office. We also have a duty to ensure the ongoing safety of those who serve in America's highest elected office after they leave office.

In 1958, Congress first authorized Secret Service protection for former Presidents, which was limited to a reasonable period of time after a President leaves office. Congress expanded this to lifetime protection in 1965.

But in 1994, Congress once again limited Secret Service protection for former Presidents, this time to 10 years after a President leaves office. This 10-year restriction applied to Presidents who took office after January 1, 1997.

The role of a former President has changed throughout the years. Former Presidents now have a global presence, and they are often seen as de facto representatives of the United States.

Whether it's former President Carter's work in peace negotiations with other countries or President Clinton's global initiative, former Presidents have a valuable role in using their experience and knowledge to help the U.S. in both a public and private capacity.

The world has changed dramatically since the 9/11 terrorist attacks. The threats to American personnel and interests continue as terrorists wage a war against the United States. Arbitrarily limiting Secret Service protection to 10 years may have made sense in 1994, after the Cold War had ended and before the war on terror had begun.

In a world where Americans who serve the public interest are considered targets, we must make sure that the safety and security of our former Chief Executives is not jeopardized. H.R. 6620 recognizes that those who serve as President are symbols of America and

American freedoms and deserve to be protected.

There are only a handful of Americans who will be called upon to serve this country as President. These individuals represent America, not only while serving in office, but remain in the public consciousness long after they leave. H.R. 6620, simply recognizes that unique role and reinstates lifetime protection for all of our former Presidents.

I want to again thank Mr. GOWDY and Mr. SCOTT for their work on this issue, and I urge my colleagues to support the bill.

I reserve the balance of my time.

Mr. CONYERS. Mr. Speaker, I yield myself such time as I may consume.

Ladies and gentlemen, H.R. 6620 is a commonsense bill that will ensure the continued safety of our Presidents after they leave the White House by extending the ability of the Secret Service to protect former Presidents; and I'm proud to join with the chairman, Mr. SMITH, of Judiciary, in support of this bill.

For Presidents who didn't serve prior to 1997, current Federal law provides that the Secret Service's protection terminates 10 years after the President leaves office. The 10-year limitation was enacted in 1994, when the nature of threats to former Presidents was more limited. But times have changed, and it's an unfortunate fact that former Presidents will require Secret Service protection for the rest of their lives. Therefore, this bill would simply restore the law to its prior form.

When a President of the United States completes his term, he remains a symbol of our Nation. Sadly, our Presidents who've worked hard to protect us from those who would harm our Nation may, themselves, continue to be in harm's way even after they complete their terms in office.

Most former Presidents remain prominently in the public eye, continuing to represent our country in significant ways and providing leadership on important issues. We should recognize and encourage their continued service by providing them with the protection they need.

This bill would also expand the Secret Service's authorization to protect the children of former Presidents until they reach 16 years of age. This also makes good sense under the current circumstances.

I want to recognize the Secret Service for their excellent and tireless job that they perform in protecting our national leaders. The men and women of the Secret Service conduct themselves with valor, while carrying out the protective function of their agency. They provide protection for a variety of people and events, including the President and special national security events as well.

The Secret Service has other important functions which also deserve recognition. For example, the investigative role of the Secret Service has expanded greatly, from protecting the

currency against counterfeiting, to investigating a wide variety of crimes related to this country's financial institutions and credit systems.

□ 1010

I, too, join in commending the gentleman from South Carolina, a member of our committee, TREY GOWDY, for his special work on this bill; and I urge my colleagues to support H.R. 6620.

Mr. Speaker, I reserve the balance of my time.

Mr. SMITH of Texas. Mr. Speaker, I yield such time as he may consume to the gentleman from South Carolina (Mr. GOWDY), who is the sponsor of this legislation.

Mr. GOWDY. Mr. Speaker, I would like to first thank Chairman LAMAR SMITH. This may be my last opportunity to thank him for his service as chairman of the Judiciary Committee, not just for this bill but for the work he's done in the full 2 years. He has done a fantastic job, and I would like to thank the chairman for that.

Mr. Speaker, two things are clear: protection, security, and public safety—those are the fundamental obligations of government; and, secondly, we live in an increasingly dangerous world with increasing threats against our citizens and targets that are viewed as high profile. For those reasons, Mr. Speaker, and others, I earnestly believe those who serve this country as President should never have to worry about their personal safety.

Under current law, protection for President Obama and President George W. Bush will cease after 10 years. Both men are young, enjoy good health, and have long lives ahead of them post-Presidency. This bill proposes to extend that security for the remainder of their lives. There's an unintended anomaly, Mr. Speaker, that if current law were not changed, Hillary Clinton, Barbara Bush and Laura Bush would receive more protections by virtue of being First Lady than they would if they had served as President themselves. So I hope my colleagues will make sure that the person and the symbol of our Presidency is safe and secure for the duration of their natural lives.

Mr. CONYERS. Mr. Speaker, before I yield to the distinguished gentlelady from Texas, I would like to observe the great relationship that has been formed on Judiciary between myself and the distinguished gentleman from San Antonio, Texas. For 4 years he was the ranking member on his side, while I was chair. We worked together. And for the 2 years he served as chair, I worked as his ranking member. We had a cordial and, I think, important relationship in framing and putting forward the issues for the Committee on the Judiciary, and I thank him.

Mr. SMITH of Texas. Will the gentleman yield?

Mr. CONYERS. I will yield to the gentleman, with pleasure.

Mr. SMITH of Texas. Mr. Speaker, I wanted to thank the former chairman

of the Judiciary Committee himself for those generous comments and say I've certainly enjoyed our working relationship over the last 6 years, and I know that that will continue as well.

Mr. CONYERS. I yield such time as she may consume to the gentlelady from Texas, a senior member of Judiciary, Ms. SHEILA JACKSON LEE.

Ms. JACKSON LEE of Texas. This is an enormously positive exhibition of the working relationship of the members of the House Judiciary Committee. And I thank both the chairman and the ranking member for the evidence of collegiality in these waning moments of the 112th Congress.

I'm going to follow my ranking member and acknowledge appreciation for the service of Judiciary Committee Chairperson LAMAR SMITH, who happens to be a tall Texan. And so we are delighted to thank him very much for the work that he has done, and to join with an established icon of Judiciary prominence in JOHN CONYERS. The two match well in their excellence, and I thank the ranking member and the former chairperson for his work and service. There is great work being done by the Judiciary Committee, and I think it is enormously important that we are the holders and protectors of the Constitution on behalf of not only our Members but on behalf of the United States of America.

Now is not the time, but I do want to acknowledge and hope that the House will consent at the appropriate time to acknowledge one of our fallen of great prominence of this committee, someone who I sat in his office as a baby Member of Congress, the Honorable Jack Brooks, who has passed. I hope there will be an appropriate moment for us to honor him before we leave today.

I rise to be able to thank the sponsor of this legislation—he attracted my interest in it—to correct something that probably was thought to be of good direction, but was not, in the limitation of the coverage of the President and the President's children, the First Family's children.

As a member of the Homeland Security Committee, let me say that we are celebratory of the fact that we have not had another attack on our soil since 9/11. If we look at it in a global perspective, we've not fought a war on our soil since—I believe at least an intense one—since the Civil War. But certainly we know that terrorism and danger have taken a new direction in this country and the world. And for those of us who spend time on these issues on a regular basis, this is a forward-thinking and smart initiative to ensure that the security of the men and/or women who have served as President of the United States and their children can be fully protected.

Let me acknowledge, as well, the service of the men and women of the United States Secret Service. And to be very frank, having jurisdiction over the Secret Service and Homeland Secu-

rity and having interacted with them on a number of occasions, certainly we note that there was a moment in this last year that did not reflect well upon the decades of service of the United States Secret Service. But they have done their job well. They have been dutiful servants and protectors of the men that have held the highest office, along with the First Ladies and their children. This legislation speaks to a modern-day world where you never know where danger may approach someone and can be utilized in an untoward manner, such as being held hostage and used to threaten the sanctity and democracy and freedom of this Nation.

So this legislation reflects our smartness and astuteness in correcting what was probably thought to be good but upon reflection does not reflect on the goodness of this Congress, the goodness of the American people, who respect the service of their public servants to the highest office in this land.

With that, Mr. Speaker, I want to ask my colleagues to support the underlying legislation. And as this exhibits our opportunity that we can work together, I know that we'll find the right solution for solving our issues of middle class tax cuts and the fiscal deadline and make sure we move in a very positive direction.

Mr. CONYERS. Mr. Speaker, we have no further requests for time, and I yield back the balance of my time.

Mr. SMITH of Texas. Mr. Speaker, we have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. SMITH) that the House suspend the rules and pass the bill, H.R. 6620.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. SMITH) and the gentleman from Michigan (Mr. CONYERS) each will control 20 minutes.

The Chair recognizes the gentleman from Texas.

GENERAL LEAVE

Mr. SMITH of Texas. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous materials on H.R. 6602, currently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. SMITH of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the rules of the House entrust to the Judiciary Committee the responsibilities of revision and codification of the statutes of the United States.

□ 1020

This power does not give our committee substantive legislative jurisdiction over all areas of law; it merely confers the authority to organize duly enacted laws into an efficient codification system.

The nonpartisan Office of the Law Revision Counsel is responsible for properly codifying public laws into titles and sections of the United States Code. From time to time, that office provides the Judiciary Committee advice as to how to enact a more user-friendly and cohesive statutory system.

This spring, Republican and Democratic committee staff worked cooperatively with the Office of Law Revision Counsel to develop H.R. 6602. The bill makes technical changes to title 36 of the United States Code, the laws that govern patriotic and national observances.

Codification laws do not make any substantive changes to existing law. Industries, government agencies, and

interested parties commented on the draft of H.R. 6602 before its consideration today. I am confident this bill will improve our legislative codification system, and I encourage my colleagues to support the bill.

I reserve the balance of my time.

Mr. CONYERS. Mr. Speaker, I yield myself such time as I may consume.

H.R. 6602 makes revisions in title 36 to the United States Code that are necessary to keep the title current, as well as to make technical corrections and improvements. H.R. 6602 was prepared by the Office of the Law Revision Counsel as part of its ongoing responsibility under 2 U.S.C., section 285b, to prepare and submit to the Committee on the Judiciary one title at a time a complete compilation, restatement, and revision of the general and permanent laws of the United States.

This legislation gathers provisions relating to patriotic and national observances and ceremonies, patriotic and national organizations, and treaty obligation organizations under the current title 36. The amendments strike the existing abbreviated table of contents of the title and insert a more comprehensive title-wide table of contents, update the format of the chapter headings of reserved chapters, and make other necessary technical corrections.

H.R. 6602 is not intended to make any substantive changes to the law. As is typical with the codification process, a number of nonsubstantive revisions are made, including the reorganization of sections into a more coherent overall structure, but these changes are not intended to have any substantive effect.

I am pleased again to have worked with Chairman LAMAR SMITH to draft this legislation, and I thank him for moving it to the House floor and urge my colleagues to support this measure.

Mr. Speaker, I yield back the balance of my time.

Mr. SMITH of Texas. Mr. Speaker, I have no further speakers on this side. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. SMITH) that the House suspend the rules and pass the bill, H.R. 6602.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. CONYERS. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

ELIMINATION OF A REPORTING REQUIREMENT FOR UNFUNDED DNA IDENTIFICATION GRANT PROGRAM

Mr. SMITH of Texas. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 6605) to eliminate an unne-

sary reporting requirement for an unfunded DNA Identification grant program.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 6605

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ELIMINATION OF REPORT REQUIREMENT.

Section 2406 of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3796kk-5) is repealed.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. SMITH) and the gentleman from Michigan (Mr. CONYERS) each will control 20 minutes.

The Chair recognizes the gentleman from Texas.

GENERAL LEAVE

Mr. SMITH of Texas. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous materials on H.R. 6605, currently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. SMITH of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I join the ranking member, Mr. CONYERS, in cosponsoring this commonsense, bipartisan bill which eliminates an unnecessary reporting requirement on the States from an unfunded Federal grant program.

Earlier this year, I cosponsored, with Mr. CONYERS, H.R. 6189, the Reporting Efficiency Improvement Act. In response to a specific request from the administration, H.R. 6189 eliminated two reports that the Department of Justice was required to prepare for grant programs that have not been funded by Congress for many years. One of these grant programs is the DNA Identification Act of 1994. On October 5, the President signed into law H.R. 6189.

H.R. 6605, the bill before the House today, does for the States what H.R. 6189 did for the Federal Government: It eliminates the statutory requirement for States to report to the Attorney General about grants from the DNA Identification Act of 1994. Because Congress has not funded this grant program in nearly a decade, this statutory reporting requirement is unnecessary.

I again thank Mr. CONYERS, the ranking member of the Judiciary Committee, for his initiative on this issue, and I urge my colleagues to support this bill.

I reserve the balance of my time.

Mr. CONYERS. Mr. Speaker, I yield myself such time as I may consume.

To our colleagues, this measure before us now, H.R. 6605, is a noncontroversial bill that makes a single technical correction to the U.S. Code. Under the Government Performance

and Results Modernization Act of 2010, the Department of Justice conducts an annual review of statutory reporting requirements that are outdated, duplicative, or otherwise no longer useful to Congress. After conducting that review, the Department recommended we eliminate two reports, both related to programs that have not received funding from Congress for the better part of a decade. Last September, with the support of Chairman LAMAR SMITH, Congress passed H.R. 6189, the Reporting Efficiency Improvement Act, to remove these two reporting requirements from the Federal code. President Obama signed H.R. 6189 into law on October 5 of this year.

The bill before us today makes a single technical correction to the Federal code in order to reflect the changes we made earlier this year. Specifically, the legislation eliminates a cross-reference to a report that, after the enactment of H.R. 6189, no longer exists. This bill is a housekeeping measure and nothing more.

I urge my colleagues to support the legislation, and I yield back the balance of my time.

Mr. SMITH of Texas. Mr. Speaker, I have no further speakers on this side, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. SMITH) that the House suspend the rules and pass the bill, H.R. 6605.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

CLARIFICATION WITH RESPECT TO ABSENCE FROM THE UNITED STATES DUE TO CERTAIN EMPLOYMENT BY CHIEF OF MISSION OR ARMED FORCES

Mr. SMITH of Texas. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 6223) to amend section 1059(e) of the National Defense Authorization Act for Fiscal Year 2006 to clarify that a period of employment abroad by the Chief of Mission or United States Armed Forces as a translator, interpreter, or in an executive level security position is to be counted as a period of residence and physical presence in the United States for purposes of qualifying for naturalization if at least a portion of such period was spent in Iraq or Afghanistan, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 6223

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CLARIFICATION WITH RESPECT TO ABSENCE FROM THE UNITED STATES DUE TO CERTAIN EMPLOYMENT BY CHIEF OF MISSION OR ARMED FORCES.

(a) IN GENERAL.—Section 1059(e) of the National Defense Authorization Act for Fiscal Year 2006 (8 U.S.C. 1101 note) is amended to read as follows:

“(e) NATURALIZATION.—

“(1) IN GENERAL.—A period of absence from the United States described in paragraph (2)—

“(A) shall not be considered to break any period for which continuous residence or physical presence in the United States is required for naturalization under title III of the Immigration and Nationality Act (8 U.S.C. 1401 et seq.); and

“(B) shall be treated as a period of residence and physical presence in the United States for purposes of satisfying the requirements for naturalization under such title.

“(2) PERIOD OF ABSENCE DESCRIBED.—A period of absence described in this paragraph is a period of absence from the United States due to a person’s employment by the Chief of Mission or United States Armed Forces, under contract with the Chief of Mission or United States Armed Forces, or by a firm or corporation under contract with the Chief of Mission or United States Armed Forces, if—

“(A) such employment involved supporting the Chief of Mission or United States Armed Forces as a translator, interpreter, or in a security-related position in an executive or managerial capacity; and

“(B) the person spent at least a portion of the time outside the United States working directly with the Chief of Mission or United States Armed Forces as a translator, interpreter, or in a security-related position in an executive or managerial capacity.”

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect as if included in the enactment of section 1059(e) of the National Defense Authorization Act for Fiscal Year 2006 (8 U.S.C. 1101 note).

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. SMITH) and the gentleman from Virginia (Mr. SCOTT) each will control 20 minutes.

The Chair recognizes the gentleman from Texas.

GENERAL LEAVE

Mr. SMITH of Texas. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous materials on H.R. 6223, as amended, currently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. SMITH of Texas. Mr. Speaker, I yield myself as much time as I may consume.

Mr. Speaker, I support this bill and thank Representative DENT for introducing it.

Many men and women put their lives at risk to serve our nation with the Department of State in U.S. Embassies abroad. They contribute directly to the security of our country.

As we have become aware, conflicts from across the globe affect these employees in countries such as Tunisia, Syria, Egypt, Israel, and most recently, Libya. Our embassies have been attacked. Our flags have been burned. And our ambassador to Libya and three other Americans have been murdered.

Regrettably, service to the United States in our embassies abroad often occurs under dangerous conditions and in threatening environments.

The work of our foreign officers and agents assures us that we are kept safe each and every day. We are fortunate to have men and women willing to sacrifice and serve in the embassies. These individuals often accept posts on the front lines overseas as they serve to defend our freedoms. And for that we are grateful.

To ensure that our nation has the tools and resources it needs, such as linguistic expertise or knowledge of a specific geographic area, legal permanent residents serve the United States in critical capacities in some of the most vulnerable parts of the world.

Unfortunately, their loyalty, dedication and success can come at a price if they intend on naturalizing and becoming a United States citizen.

Under the Immigration and Nationality Act, an applicant for naturalization must be a lawfully admitted permanent resident for at least five years, have continuous residence in the U.S. during that time and be physically present in the U.S. for at least half of that five year period.

Continuous residence is the time that the applicant has maintained official residence within the United States. Physical presence is the time the applicant has been actually and physically located in the United States.

A permanent resident may become ineligible to naturalize because they have not been “physically present and residing in the United States, after being lawfully admitted for permanent residence, for an uninterrupted period of at least one year.”

Any departure from the United States prevents the establishment of “an uninterrupted period of one year” after lawful admission for permanent residence.

This means that a legal permanent resident who is serving in our embassies overseas cannot qualify for naturalization.

This bill resolves this issue. It allows legal permanent residents’ time in embassies abroad to count towards both the “continuous residence” requirement and the “physical presence” requirement for naturalization.

This is a common sense change that brings certain national security professionals in our embassies abroad in line with their military counterparts. Military service members’ time overseas currently counts towards physical presence.

Like their military colleagues, senior and managerial legal permanent residents who serve in embassies, regardless of duration, are now regarded as being legally physically present in the U.S. during the period they serve the Department of State.

Additionally, under current law, a person who provides translator or interpreter services to the U.S. Armed Forces or the Chief of Mission in Iraq or Afghanistan can count that period of absence from the United States toward the “continuous residence.” However, that time does not count towards the one year continuous physical presence requirement for naturalization.

This bill allows people who work in a security-related position in an executive or managerial capacity for the Armed Forces and Chief of Mission to benefit in the same way as people who work as interpreters or translators.

It also permits interpreters and translators who serve the Armed forces or Chief of Mission in places other than Iraq or Afghanistan to receive this benefit.

I again thank Mr. DENT for his work on this bill as it honors the legal permanent residents who serve our nation abroad and facilitates their path to citizenship. I urge my colleagues to support this bill.

I, again, just want to thank the gentleman from Pennsylvania (Mr. DENT) for sponsoring this bill, and I yield him the balance of my time.

Mr. DENT. Mr. Speaker, I am here today to rise in support of H.R. 6223, a bill I introduced earlier this year as well as in the 111th Congress.

I would especially like to thank Chairman LAMAR SMITH for his service as chairman of this committee for the past 2 years. He has been a great leader, and I will miss him as chairman. I just wanted to thank him for his help with this legislation, as well as his staff, Dimple Shah and others, Kristin Dini from my own office. I wanted to thank them all for their support and help with this measure. They have taken a lot of time to understand the difficulty the current policy poses to highly skilled and committed men and women serving in some of the most volatile regions of the world.

As the chairman briefly described, H.R. 6223 would amend current law to allow legal permanent residents working for the chief of mission in an interpreter, translator, or in an executive or managerial security-related position overseas to count their time of service toward the continuous residence and physical presence requirement for naturalization as a United States citizen.

While this change is seemingly minor in the grand scheme of immigration policy, it is one that should be addressed by Congress—if for no other reason than to recognize the critical contribution these men and women are making for our country in the war against terrorism in unstable regions across the globe.

Quite candidly and truthfully, I didn’t give much thought to this issue until a few years ago when I was made aware of the selfless and highly skilled service being provided by a constituent and legal permanent resident from Pennsylvania, George Bou Jaoudeh, who happens to be a Lebanese national working with the State Department security overseas in Iraq since 2005.

Mr. Bou Jaoudeh spends 4 months in Iraq and then 20 days in the United States. As a green card holder with a desire to naturalize as a U.S. citizen, he has been unable to meet continuous residency and physical presence requirements because of his time working abroad in support of our country in a very dangerous place, I think we would all agree.

Consequently, even though he works inside the American embassy in Baghdad, George Bou Jaoudeh has not met his 1-year continuous residency requirement, which is absurd because he is serving our Nation on American territory in the embassy. It’s a shame

that we have to use legislation to address this, but that's the situation we find ourselves in.

In September, the world watched as a violent raid on our embassy in Benghazi, Libya, took the life of Ambassador Chris Stevens and three other brave Americans, two of whom have served as diplomatic security officers. Committed to serving our Nation, these men gave their lives to provide security for American diplomats in an unstable country, struggling in the midst of historic change.

There is a real enemy working to, at the very least, threaten American ideals and our way of life. Let's ensure the policies shaping our immigration laws do not create a greater hindrance to us in this fight.

With this bill under consideration today, we have the opportunity to recognize the legal permanent residents who have proven their commitment to our Nation's ideals and missions, should they be working with the State Department as executive-level security personnel, interpreter, or translator, regarding their continuous residence and physical presence requirements.

I ask the House to support this commonsense, reasonable legislation to make sure that we recognize individuals who are serving our country, legal residents who are serving in very dangerous places, serving in our State Department, that they be given the recognition they deserve and a proper pathway to citizenship.

Mr. SCOTT of Virginia. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 6223, a bill that would expand upon a small, but important provision in our immigration laws and alleviate one barrier often faced by certain persons applying for naturalization.

Under our immigration laws, a lawful permanent resident who is applying to become a U.S. citizen generally must reside continuously in the United States for 5 years. Persons who are naturalizing by virtue of their marriage to a U.S. citizen or battered spouses or children may naturalize after a 3-year period of residence. A person must also be physically present in the United States for at least one-half of that time.

In 2007, Congress enacted a law to ensure that when a person works as an interpreter or translator in Iraq or Afghanistan for the U.S. chief of mission or the Armed Forces—either directly or by contract—that time should count toward the “continuous residence” requirement for naturalization.

This makes sense. Why should we penalize a lawful permanent resident for choosing to provide critical translation or interpretative services in Iraq or Afghanistan by saying that the person failed to reside continuously in the United States?

Today's bill builds on that commonsense provision in law in three ways:

First, it eliminates the geographical restriction in current law and says that

time spent providing qualifying services to the U.S. chief of mission or Armed Forces anywhere in the world should be considered for naturalization purposes. Lawful permanent residents provide important services to our government all around the world, and it makes little sense to limit the provision only to service in those two countries.

Second, the current law applies only to the work of translators or interpreters, but lawful permanent residents assist our chiefs of mission and Armed Forces in a variety of important ways. To the current list of qualifying jobs, this bill adds certain high-level security-related work.

Finally, although the provision in current law only allows the time abroad not to count as a break in the “continuous residence” requirement for naturalization, this bill would allow the time also to count toward the “physical presence” requirement.

I thank the gentleman from Pennsylvania for his work on the bill. I urge my colleagues to support the legislation, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. SMITH) that the House suspend the rules and pass the bill, H.R. 6223, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The title was amended so as to read: “A bill to amend section 1059(e) of the National Defense Authorization Act for Fiscal Year 2006 to clarify that a period of employment abroad by the Chief of Mission or United States Armed Forces as a translator, interpreter, or in a security-related position in an executive or managerial capacity is to be counted as a period of residence and physical presence in the United States for purposes of qualifying for naturalization, and for other purposes.”

A motion to reconsider was laid on the table.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. SMITH of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the Senate ratified both The Hague Agreement on Industrial Designs and the Patent Law Treaty in December of 2007. Each treaty is non-controversial and helps American inventors who need overseas patent protection.

However, the treaties cannot take effect until we amend our national patent law to cohere with our new obligations. Now that patent reform is behind us, we turn to implement both treaties through S. 3486. And I thank Ranking Member CONYERS, Senator LEAHY, Senator GRASSLEY, and PTO Director Kappos for their work on this bill.

The Hague Agreement makes the process of registering industrial designs in other countries much easier for American applicants. Its signature provision allows a design owner to apply for protection in a number of African, Asian, and European nations through a single filing.

Currently, an American design applicant must file separate applications for design protection in each country or intergovernmental organization. The centralized registration procedure under the agreement will bring substantial cost savings to American industrial design owners.

In addition, the filing of a single application that is accepted by a centralized office will lead to fewer processing mistakes and delays by the applicant and foreign patent offices.

□ 1040

The Hague Agreement also specifies administrative procedures to be followed by design patent applicants seeking multinational registration under the act. This allows us to provide the United States with the administrative benefits of a multinational design protection system and still retain our own substantive system.

The Patent Law Treaty, or PLT, also simplifies the formal obligations imposed on inventors and reduces cost for patent applicants and owners. The PLT furthers our policy of strong and intellectual property protection. It simplifies national and international formal requirements associated with patent applications and patents. This makes it easier for American patent applicants and owners to obtain and maintain patents throughout the world, as well as in the United States.

The drafting of S. 3486 was a collaborative effort that included the bipar-

tisan and bicameral participation of the House and Senate Judiciary Committees, the Patent and Trademark Office, and the House legislative counsel. I again want to thank Ranking Member CONYERS, Senator LEAHY, Senator GRASSLEY, and PTO Director Kappos for their contributions to the project.

S. 3486 saves American inventors money and expands their patent protection outside the United States. I urge my colleagues to support the bill, and I reserve the balance of my time.

Mr. SCOTT of Virginia. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of S. 3486 because it will decrease the barriers that U.S. innovators and businesses confront when they pursue patent protection in foreign countries. Specifically, the legislation will standardize the application procedures of the U.S. Patent and Trademark Office and will make them consistent with The Hague Agreement concerning the international registration of industrial designs known as The Hague Treaty and the Patent Law Treaty.

The bill implements The Hague Treaty and Patent Law Treaty, which were ratified by the Senate unanimously on December 7, 2007. Unfortunately, neither of these treaties have yet to take effect in the United States because we have not passed implementing legislation. This bill addresses this problem in the following respects.

To begin with, the bill standardizes the application procedures so they’re consistent with the procedures in other countries that are signatories to the treaties. Under current law, U.S. designers must file separate applications in each jurisdiction where they want to receive rights. This procedure is burdensome, complicated, and often involves several languages. Under this measure, the U.S. creators of industrial designs will be able to use a simplified application system by filing a single English language international design application with the Patent and Trademark Office. This modification will not affect the standard for attaining a design patent, but it will aid small companies in seeking to expand their businesses overseas by streamlining the application process. Additionally, the bill will extend the term of the design patent from 14 years to 15 years, which will benefit U.S. patent holders.

Second, the bill implements provisions under the Patent Law Treaty that revive applications which have been unintentionally abandoned.

Finally, by implementing the Patent Law Treaty, several hurdles which disadvantage American businesses will be removed. Implementing the Patent Law Treaty will amend patent application procedures for filing dates, fees, surcharges for fees, as well as for oaths, declarations, and claims submitted after the filing date. These modifications should save innovators precious resources.

In conclusion, the bill would benefit our Nation’s economy by helping

American innovators and businesses better protect their inventions overseas.

I urge my colleagues to support the legislation, and I yield back the balance of my time.

Mr. SMITH of Texas. Mr. Speaker, we have no other speakers on this side, and I yield back the balance of my time, as well.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. SMITH) that the House suspend the rules and pass the bill, S. 3486.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. SMITH) and the gentleman from Virginia (Mr. SCOTT) each will control 20 minutes.

The Chair recognizes the gentleman from Texas.

GENERAL LEAVE

Mr. SMITH of Texas. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous materials on S. 2367, currently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. SMITH of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the 21st Century Language Act is a relatively simple bill. It strikes the word "lunatic" from the United States Code.

The term "lunatic" derives from the Latin word for "moon." Before the modern era, it was used to describe a person who suffers from mental disease because of the belief that lunar cycles had an impact on brain function. But as science and medicine have progressed, society has come to understand mental illness with more clarity.

Senator CONRAD and Senator CRAPO introduced the legislation under consideration to strike the word "lunatic" from the United States Code. I thank them for their effort, and I encourage my colleagues to join me in support of this bill to modernize our codified law to reflect a 21st-century understanding of mental illness.

With that, I reserve the balance of my time.

Mr. SCOTT of Virginia. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this bill eliminates outdated references in the U.S. Code that stigmatize individuals with mental illness issues. This legislation easily passed the Senate with strong bipartisan support.

The bill eliminates the word "lunatic" from several sections of the United States Code in order for our Code to reflect meanings which are much more appropriate and up to date in the 21st century.

In the past, Members of Congress from both sides of the aisle have worked together to address similar terms in the Code which negatively describe individuals with mental health issues. For example, in 2010, Rosa's Law passed in Congress with bipartisan support and was later signed into law. The law replaced parts of the Code containing the phrase "having mental retardation" with the phrase "having intellectual disabilities."

The term "lunatic" holds a place in antiquity and should no longer have a prominent place in our U.S. Code. Although the bill does not replace the word with another term, it follows the precedence of Congress to study semantics and continuously improves the status and appropriateness of our Nation's laws by addressing pejorative terms.

I applaud the bipartisan group of Senators—Senators CONRAD, CRAPO, and JOHANNIS—for their work on this

legislation. In addition, the bill shares strong support among our Nation's leading mental health advocates.

I urge my colleagues to support the legislation, and I yield back the balance of my time.

Mr. SMITH of Texas. Mr. Speaker, I yield back the balance of my time, as well.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. SMITH) that the House suspend the rules and pass the bill, S. 2367.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. SCOTT of Virginia. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 10 o'clock and 48 minutes a.m.), the House stood in recess.

Mr. HOYER. Mr. Speaker, I would be glad to yield to my friend, the majority

leader, for his favorite 10 or 15 or 20 minutes of the week to inquire of the schedule for the week to come.

Mr. CANTOR. I thank the gentleman from Maryland, the Democratic whip, for yielding.

Mr. Speaker, on Monday, no votes are expected in the House. On Tuesday, the House will meet at noon for morning-hour and at 2 p.m. for legislative business. Votes will be postponed until 6:30 p.m. On Wednesday, the House will meet at 10 a.m. for morning-hour and at noon for legislative business. On Thursday, the House will meet at 9 a.m. for legislative business. Last votes of the week are expected no later than 3 p.m. on Thursday. Members are advised that this is a change from the original House calendar.

Mr. Speaker, the House will consider a number of bills under suspension of the rules, a complete list of which will be announced by the close of business Friday. Additionally, the House will appoint conferees for the National Defense Authorization Act now that the Senate has completed its work.

As was announced last week, the House has a number of outstanding legislative items that we must resolve, and first amongst them is the so-called “fiscal cliff.” Though the House’s target adjournment set in October of last year was December 14, that is no longer the case. Instead, Members are advised that the House will now be in session the week of December 17. Exact days will be announced next week. Members are further reminded that the House will not adjourn the 112th Congress until a credible solution to the fiscal cliff has been found.

Mr. HOYER. I thank the gentleman for his comments. I thank him for the early notice on next Friday.

First, Mr. Leader, if I could, we have the ending as next Thursday. I want to clarify for Members so that they know: we will not be in session next Friday. Is that accurate?

Mr. CANTOR. Mr. Speaker, I would say to the gentleman that is correct.

Mr. HOYER. Thank you for that information.

I also want to congratulate the gentleman for providing for the week of the 17th. I know none of us want to do that, but I appreciate the majority’s focus on the business that has not been done. I also appreciate the gentleman’s focus on the fiscal cliff and for indicating that we need to resolve that prior to leaving the 112th Congress. I think those are both positive announcements. I applaud him for that.

On the fiscal cliff—we discuss this all the time—but I want to inform the majority leader that there are now 175 signatures—we hope to have more, and we would obviously welcome people on your side of the aisle—on the discharge petition for the Walz bill, which mirrors the Senate bill, as the majority leader, I’m sure, knows, to ensure that no individual who makes \$200,000 or less on net taxable income or that a family who makes \$250,000 or less will

see a tax increase on January 1. Hopefully, we will resolve the fiscal cliff and get an agreement.

I again ask my friend: the Walz bill will be compliant with the rules and will not have a blue slip problem, obviously, and hopefully we could move that bill. Again, for the purposes of giving confidence to the 98 percent of our taxpayers who are making less than the sums put forward in the bill—\$200,000 and \$250,000—I understand and anticipate the gentleman’s response that we are all concerned with growing the economy and creating jobs and that we don’t want to dampen that dam; and we understand the gentleman’s concern about small businesses, particularly those 3 percent of small businesses that make more than this and report it on a personal income basis.

I would hope that we could give serious consideration to trying to act sooner than the end of the year and as soon as possible, frankly, on—as we call it—the middle class tax cut, the \$250,000 and under.

I yield to my friend to see whether or not, perhaps, the actions that have been taken this week have any bearing on his thoughts on whether we could schedule that bill.

Mr. CANTOR. Mr. Speaker, I would say to the gentleman that I don’t think it is a good thing right now to bring that bill to the floor because we hope that we can have successful negotiations with the White House.

I think, as the gentleman said earlier this week, Mr. Speaker, that our side actually put on the table, in our letter to the President, some specific proposals that actually deserve a response from the White House. That’s what we’re looking for: Are we going to get a response to our proposal about putting revenues of \$800 billion on the table, of putting out there a framework for spending reduction?

I know, Mr. Speaker, the gentleman has agreed with me that we’ve got to do something to address the spending problem because you can’t keep taxing and borrowing without doing the other side, which is to take care of the problem of spending. I think that the letter and the proposal that we sent to the President deserve a response, Mr. Speaker; and if we don’t get a response, then perhaps the President will be willing to meet with us—one or the other—because it doesn’t seem to me to be upholding the obligation to the American people that we’re going to resolve this issue if we just stand still.

□ 1210

We put these specifics out on the table. The President has not responded. We ask the President to respond, Mr. Speaker. And I’d say to the gentleman that I hope that that’s what can happen, either a response from the President—not just a summary rejection but a specific, serious response in the nature of our proposal—or if the President would agree to sit down and talk

about it. That's what we've got to do to fulfill our obligation. I don't think bringing that bill to the floor, Mr. Speaker, is going to further that likelihood.

Mr. HOYER. I thank the gentleman for his observation.

He and I do share the view that we need to address both the revenue side and spending side of our budget. My view is, and I've said this on a regular basis, what we really have is not necessarily a taxing problem or a spending problem; we have a paying for problem. The actions we take, we ought to pay for them. We haven't done that through the years. Frankly, we haven't done it on both sides of the aisle. I don't want to get into that specific argument, but the fact is, if we pay for things, you don't create debt. And if you cut revenues and you cut spending, you don't create debt. If you cut revenues and don't cut spending, you create debt just as surely as if you spend money and buy things and don't pay for them. In either instance, you create debt, and we need to get this country on a fiscally sustainable path.

So I congratulate the gentleman—not the gentleman specifically, but I was pleased, and the gentleman and I would disagree on the specificity of the offer that was included or the suggestion that was included in your letter. For instance, the President has put forward, as you know, in his budget and in his further proposals, an extensive list of reductions in spending that he proposed. In addition, he has put forward very specific proposals vis-a-vis revenues. His most specific proposal, of course, has been widely debated and discussed, and there was a difference of opinion on whether or not we ought to cap the taxes on \$250,000 and under families and \$200,000 and under individuals. There was a very robust debate on that during the campaign. The voters voted, and that's a very specific proposal.

In the \$800 billion that you suggest in the letter that you jointly signed with the Speaker and others, there is a suggestion of \$800 billion in revenues, which I believe is insufficient to get us to where we need to be. But having said that, it is certainly a good start, but it is not a good start if all it is is conceptual.

The President, as I said, has made very specific proposals. He wants taxes on those making over \$250,000 to go up. That produces a certain amount of revenue, somewhere in the neighborhood of the \$800 billion of which you speak. The fact is, though, in your proposal, we don't have the specifics other than to know that you're focused on preferences or loopholes—describe them as you may—which would be a reduction.

The gentleman knows the three largest of those is the health care, the mortgage interest, and the pension benefits that can be taken off your taxes. I don't know whether the gentleman suggests reducing those specifically, and I don't ask him to respond to

that now, but I do tell my friend that if we don't have those specifics, as you have very specifically from the President, he also recommended capping deductions at 28 percent, a very specific revenue-generating proposal. He has also, as I said, agreed to very substantial spending cuts which he has outlined in his budget. And, as the gentleman also knows, we've cut a trillion dollars, give or take some billions of dollars, in expenditures pursuant to the debt limit extension of 2011. So we have addressed very substantial reductions in funding for 2011, for 2012, for 2013, and for out-years after that.

So I would urge my friend, when he says he's given specifics, as far as I know, the letter essentially has five lines in it. The letter is longer than that, but five lines of spending and/or tax-cutting proposals, but they are all generic, not specific. And that is, I think, the problem we have in these negotiations, to the extent that they exist. Unfortunately, we're not doing as much as I think we ought to be doing. We don't have specifics, and, therefore, conceptually everybody can say, well, we want to get \$800 billion. The President and, apparently, your letter agree on that. How you get there is the key. And if you don't have specifics—the President has offered specifics on how to get there. I would respectfully suggest you have not offered specifics other than we're going to deal with preference items. But they're very controversial: charitable deductions, very controversial; other deductions, controversial. We have to really get down to the nitty-gritty of, okay, how are you going to do it?

I would urge the gentleman, in furtherance of what he and his party have already done, to perhaps be specific in how we get the \$800 billion. The President has said how we get the \$800 billion. I think that would be very helpful, and I yield to my friend.

Mr. CANTOR. I thank the gentleman. That's what, really, discussions are for; that's what meetings are for. It's to try to get to the specifics. And although he and I differ, Mr. Speaker, the gentleman and I differ about the specifics of our proposal and the President's proposal because, frankly, I know and I think both sides know where each other are on taxes right now. Certainly the President was in a different place back in the summer of 2011 when he had indicated that—what was said was, Give us \$1 trillion in additional revenues which could be accomplished without hiking tax rates is what the President said. Certainly the position he's taking now, that absolutely we have to have rate increases, is different than that. But that's what the President has said this time. So we know where each other is there. It's the specifics on the spending.

The gentleman points out, Mr. Speaker, that the President has submitted budgets in the past. There's been no discussions of specifics whatsoever, even when the Speaker or I have

suggested in meetings that we've had as to where are your specifics. They have just not been forthcoming. So if the President is serious to actually do something about the problem, then I think we do need to come together and say to the American people we're willing to cut the wasteful spending here and, in the gentleman's own words, Mr. Speaker, to pay for what we actually spend, not to just keep spending what we don't have. I think it could really move the ball forward on these negotiations.

So I accept the spirit in which the gentleman suggests we should have more discussions to get the ball moving forward; it's just the White House doesn't seem willing to do so. And instead, we see the President going on a television interview and saying that he summarily rejects our position instead of trying to get down to the specifics of the problem, which is reducing wasteful spending.

Mr. HOYER. I thank the gentleman.

I want to say two things. First of all, I want to clarify, and I think I did clarify, that \$800 billion clearly is in your proposal. When I said the President agrees with that \$800 billion, he agrees to getting to at least \$800 billion. He thinks we need more. I agree with the President; we need more.

When the gentleman says the problem is wasteful spending, I disagree with the gentleman very substantially on that. The problem is not wasteful spending; the problem is spending. Whether it's not wasteful or not, if it's good spending, we need to pay for it.

Now, where the gentleman and I have a very substantial disagreement, I know, is that when the gentleman and his party voted to reduce revenues by over \$2 trillion, they didn't reduce spending by \$2 trillion. As I said at the outset, inevitably, if you reduce revenues by \$2 trillion and you up spending, which is what happened, frankly, as all of us know from 2001 to 2008, and particularly 2001 to 2006, if you up spending and reduce revenues, inevitably you have debt, just as if you buy stuff and don't pay for it, you have debt. So whether you reduce revenues or don't pay for what you buy, the result is exactly the same—debt. So that's why I say paying for is the problem.

The gentleman and I have a very substantive disagreement on whether or not you ought to have to pay for tax cuts. You have to pay for it one way or the other. You're either going to pay for it by having additional debt on which you'll pay substantial interest, or you'll pay for it by reducing programs. It's not wasteful spending. I'd like to get rid of all wasteful spending.

□ 1220

But I suggest to the gentleman, and he knows the figures as well as I do because we've been through a lot of meetings together on this, the issue is not wasteful spending. The issue is we've decided to buy things, a lot of which I think we ought to be buying, including

Social Security, including Medicare, including investment in education, including investment in infrastructure, including investment in innovation to grow our economy, which, in turn, will help our deficit situation as the economy grows, without raising any taxes.

But the fact of the matter is, I know the gentleman has historically not felt that tax cuts ought to be paid for, either by cutting spending, which didn't occur, or by offsetting revenues.

So I want to make it clear the President does not agree with the \$800 billion level because he doesn't think the math works. I share the President's view. The math doesn't work.

And ultimately, in my opinion, the most useful effort will be if we all agree on the objective, whether it's \$4 trillion, whether it's 70 percent debt to GDP ratio, which most economists, or a little less than that, say is sustainable and will have us on a sustainable path.

If we all agreed on the objective and then, Mr. Majority Leader, simply made the math work to get there in a way that we could agree on, I think America would be advantaged, I think the economy would be advantaged, and we would see a renaissance of job creation in this country as we did in the 2000s.

I'll be glad to yield to my friend.

Mr. CANTOR. I accept the gentleman's good intentions, and I know that he doesn't think that we ought to be imposing additional obligations on the American people to pay more of their money into Washington if the money is not going to be spent in a way that is something that they would like.

So if it's wasteful spending, or if it's spending just to aggravate the deficit situation, and that's from the perspective that we come, fix the problem. If the obsession is to raise taxes, you know we don't agree with that, but fix the problem.

So if you're asking for somebody to give more of their money to Washington, then at least be able to tell them that we are going to manage down the debt. That's what we're about here, which is why the focus is on spending, and how we have to ratchet down the spending in this town.

That's where we've heard no specifics or willingness on the part of the President to engage in discussions about specifics on spending.

As far as the math is concerned, again, it was a very different President in the summer of 2011 when he said \$1.2 trillion in additional revenues could be accomplished without hiking tax rates. That's what he said. So, again, all of a sudden that math doesn't work, but it worked for 1.2 before.

Regardless, we sort of understand now, at least this round, where everyone is on taxes. Let's get to the problem, and maybe then we can resolve the taxes question.

Mr. HOYER. Well, we have a fundamental disagreement because the gentleman continues to want to focus on

spending. I think that's right that we focus on spending. But again, debt is not caused by spending; it is caused by buying things that you don't pay for, or it's caused by cutting revenues that you don't offset either by cuts in spending, by cutting revenues. That's what causes debt. It's not buying things that causes debt. It's not paying for things.

The discipline, I will tell my friend, in the system for the American public is, if they want things, for us having the honesty to say, okay, if you want a tax cut or you want a strong defense, it costs money, both of them cost money. And if you're willing to pay for it, we will do that. If you're not willing to pay for it, we ought not to do it.

That's not been our practice, unfortunately, and we dropped the PAYGO requirement, as the gentleman knows, in 2001, actually 2003 legally. De facto, we dropped it in 2001, because we had substantial tax cuts without paying for them. We waived that requirement, and I think that, frankly, got us into the problem we have on either side of the aisle, whether it's spending or revenue reductions.

I don't think the President's changed his position. I think the positions have changed. Mr. Bowles indicated that. Others have indicated that. The situation has changed its dynamic in the sense that it's not the situation we were confronting in 2011.

But this is an important discussion because it really requires us to come to make a commonsense, math decision, not an ideological decision driven by debate about spending or taxes, but on how we have a budget that is a sustainable budget for our kids and for our grandkids and for our country over the long term. And I think that's what this discussion ought to be about. And if it is, I think we can get this challenge resolved, and Americans and America will say finally, finally, those representatives we've sent to Washington have sat down together with one another and made sense.

Again, I want to say to the gentleman, I can't read it either, and you certainly can't read it from there. But you can see that, perhaps, the five lines here, and then the very long lines the President has proposed in terms of cuts and revenues.

I think if you're expecting the President to come and say, well, we can get your \$800 billion this way, that way and the other way, he's not going to do that because he's not going to negotiate with himself.

On the other hand, if you come to us and say specifically this is how we're going to get the \$800 billion, we're going to eliminate the charitable deduction. This is how we're going to get the \$800 billion, we're going to eliminate the mortgage deduction, that's something we can discuss. But if we don't have specifics on what you're going to do, but just a conclusionary "we're going to get 800 billion," then it's hard to negotiate because we don't

know what the negotiation parameters are.

I yield to my friend.

Mr. CANTOR. I'd just say, the gentleman is really saying there is a need for discussions, and that's what I'm saying today, Mr. Speaker.

Mr. HOYER. We agree.

Mr. CANTOR. We need to sit down and discuss. We do agree on that. Obviously, the White House doesn't agree on that, and we're trying to urge some real serious commitment to resolving this on the part of the White House.

Mr. HOYER. The gentleman has indicated there is other business that needs to be done. Let me briefly address those.

The farm bill, obviously, continues to be not resolved, not addressed. The Senate passed a bill, as the gentleman so well knows, 64-35, two-thirds of the Senate voting for it. We would be hopeful that that Senate bill could be put on the floor. I've talked to Chairwoman STABENOW. She and her ranking member worked very hard on that. I know our committee's reported out a bill 35-11, but that has not come to the floor. That was passed out almost 6 months ago, 5 months ago.

So I would hope that the farm bill could be moved. I know I'm going to be talking to some of my ag community today. They're very hopeful that a—not a stopgap but a farm bill of a sufficient length—and I think they would opt—I don't want to speak for them before I meet with them—but for the Senate bill, we need to pass that. Milk prices, as you know, will spike dramatically on January 1 if we don't pass the farm bill.

Also, on the Violence Against Women Act, I know last week we had the sponsor in the chair. I didn't know that. I thank the gentleman for reminding me.

But the Violence Against Women Act has been passed by this House and by the Senate. I would urge the majority to get us to conference on that. Rather than go through why I think the Senate bill's a good bill and you think the House bill's a good bill, the way to resolve that is to go to conference. I would urge the gentleman to go to conference on the Violence Against Women Act.

I believe the President is going to come down in very short order with some preliminary numbers on the supplemental. I think I'm going to New York tomorrow to spend time with some of our Members there and see the devastation that has occurred. The gentleman, I know, is very aware of that as well. We need to do a supplemental, so we need to have time to do that.

And lastly, although we haven't discussed it very often—it's not a very sexy issue, postal reform, again, is another issue that we're talking about balancing. The postal department has not been able to balance its budget, as we know. Part of it is dealing with the retirement programs that they're funding.

But I'm wondering if the gentleman has any thoughts on any one of those four bills.

I yield to my friend.

Mr. CANTOR. Mr. Speaker, I'll try and be brief. On the farm bill, the gentleman is correct. We're going to face some very dire consequences if we don't act on the issue prior to leaving here. And part of what I had indicated last week is that is something we are focused on and know we've got to deal with the issue prior to the end of the year.

On the issue of VAWA, as the gentleman and I have discussed many times on the floor, he knows that we can't go to conference with the Senate bill. The Senate bill has a blue slip problem.

I am speaking with the Vice President and his office and trying to resolve the issue of the differences surrounding the VAWA bill. This week I've actually been encouraged to see that we could very well see agreement on VAWA, and I'm very hopeful that that comes about. But I am encouraged about the discussions that my office is having with the Vice President's office right now, that bill being a high priority of Vice President BIDEN.

□ 1230

On the issue of the supplemental, I imagine, Mr. Speaker, the gentleman has seen the press reports that I have that the White House is anticipating sending up a \$60 billion supplemental request for damages related to Sandy, and I think tomorrow would be that day, at least according to press reports. As the gentleman may know, the FEMA Director testified to the House yesterday that the agency can meet its needs associated with the disaster through the spring. Approximately \$2 billion has been delivered, with about \$5 billion remaining in the disaster relief fund.

So, again, no one is here saying that we don't want to deliver the necessary aid to the victims, because that is a priority. But we're looking forward to receiving that request and taking a look at the numbers and the need to make sure we can move forward on that as well.

Lastly, Mr. Speaker, postal reform. The gentleman and I have, yes, talked about this a lot and know that the issue has to do with the obligations of the Postal Service and how we can address those to create a more balanced prospect for the future to allow for its continuance, so we're looking at that as well. And the gentleman knows there's a lot of discussions, both bipartisan and bicameral, on that issue as well.

Mr. HOYER. I thank the gentleman.

Obviously, we are coming here to meet and we're focused on the fiscal cliff, but there are other things that we could be, hopefully, resolving in the time that we have available to us between now and the end of the year, and I would hope that we would do that.

I yield back the balance of my time.

ADJOURNMENT TO FRIDAY,
DECEMBER 7, 2012

Mr. CANTOR. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at 11 a.m. on Friday, December 7, 2012, and further when the House adjourns on that day, it adjourn to meet at noon on Tuesday, December 11, 2012, for morning-hour debate and 2 p.m. for legislative business.

The SPEAKER pro tempore (Mr. BERG). Is there objection to the request of the gentleman from Virginia?

There was no objection.

CONGRATULATING RYAN DEVLIN
ON RECEIVING 2013 PENNSYLVANIA
TEACHER OF THE YEAR
AWARD

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I rise today to congratulate Ryan Devlin of Brockway, Pennsylvania, on receiving the 2013 Pennsylvania Teacher of the Year Award. Ryan is the youngest educator to receive this esteemed award. His recognition also marks the 2nd consecutive year in which the recipient is from the Fifth District of Pennsylvania, which I'm proud to represent.

In 2009, Ryan completed his master's degree in education at California University of Pennsylvania. The following year he was hired by the English Department at Brockway Area School District. Today, he teaches British literature, creative writing, digital media, and computer science, and also serves as the adviser to the senior high gifted program.

Ryan is a teacher that goes above and beyond, a characteristic he has demonstrated year after year. For example, he's played an active role in introducing new technology to both students and staff and has worked to develop 21st century learning skills in a classroom environment that fosters creativity, innovation, and critical thinking. Most importantly, Ryan works tirelessly to help his students achieve success in the classroom.

Ryan Devlin, thank you for your commitment to the teaching profession. Congratulations.

TRIBUTE TO CONGRESSMAN JACK
BROOKS

(Mr. GENE GREEN of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GENE GREEN of Texas. Mr. Speaker, as announced earlier by Congressman RALPH HALL, we lost a memorable Texas legislator, Congressman Jack Brooks, who proudly served his

southeast Texas district for 42 years after he was first elected in 1952, ultimately serving as dean of this House of Representatives and dean of our congressional delegation.

I knew Jack Brooks from my days in the State legislature, and he was one of my mentors when I first came to the House of Representatives. Representative Brooks was known for his tough persona and for chewing on his cigar while commanding a room. But he had a heart of gold. I remember sitting down with him when I first came to the House of Representatives. When he asked me what committee I wanted to serve on, I thought, well, I'll get what I need. I told him I wanted Energy and Commerce. He chewed on his cigar and said, You'll get Ed and Labor and like it.

But Jack was a great leader and a role model. He supported civil rights bills, refused to sign the segregationist Southern Manifesto in 1956, and helped write the historic Civil Rights Act of 1964 that banned racial segregation.

May we always remember Congressman Jack Brooks. He was a great man, political figure, U.S. Marines veteran, and a friend that I'll never forget.

PULSE OF TEXAS: GLENN FROM
SPRING, TEXAS

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, Glenn from Spring, Texas, wrote me this:

Starting at the age of 15, I worked any job I could to help support myself through college—manually dug ditches, construction work, plant work. After college, I found an entry-level position in the field I studied. With hard work, I have been constantly employed for 36 years and now nearing retirement. I have never requested or received any Federal financial assistance. I enjoy contributing to my community and church. This is my American Dream.

Now the administration wants to increase the taxes I pay for being successful. As my grandmother would say, "If you can work, do so, and never let your pride or laziness get in your way to earn an honest living, and you will be rewarded in life."

Mr. Speaker, this administration wants to punish those who have lived the American Dream. During a recession, no one's taxes should be increased. This administration cannot tax and spend America into prosperity.

And that's just the way it is.

THREE YEARS OF CAPTIVITY FOR
CUBAN HOSTAGE ALAN GROSS

(Mr. RIVERA asked and was given permission to address the House for 1 minute.)

Mr. RIVERA. This week marked the 3-year anniversary that a United States citizen, Alan Gross, has been held hostage in Cuba. He was arrested on December 3, 2009, for engaging in humanitarian activities to help the oppressed Cuban people.

Once again, the specter of a swap for Cuban spies being held in prison here has been raised. I would continue to encourage the administration to reject that notion, particularly when these Cuban spies are being held for participating in a murder conspiracy against other American citizens that were shot down over international water.

I would remind the administration that Cuba remains on the list of terrorist nations—nations that are specific enemies of this country and want to do harm to this country; a country that is harboring fugitives from U.S. justice, and a country where, just this week, peaceful dissidents in Cuba were attacked once again, according to reports from Cuba, by relatives of a political police captain on the island that attacked supporters of the peaceful group the Ladies in White.

Once again, I would urge, as I have done so many times, that the international community continue to denounce the atrocious human rights abuses on the island nation of Cuba.

FOREST SERVICE IN TOMBSTONE, ARIZONA

(Mr. SCHWEIKERT asked and was given permission to address the House for 1 minute.)

Mr. SCHWEIKERT. How many of us have heard of a little town called Tombstone? It's popped up in movies, American folklore. Guess what? The Forest Service seems hell-bent on ending its existence. This town is older than my State. Its water rights are older than my State. Yet the Forest Service is restricting the town from 87 percent of its water supply because there's Forest Service land around Tombstone.

This picture isn't a picture of a bunch of cowboys out having fun. They're not allowed to take a little Bobcat up the mountainside to get the springs to fix their water, so you have to go up by hand up a mountainside to remove the boulders.

Is there an adult in the Forest Service who has a lick of sense?

REMEMBERING THE LIFE OF COLD SPRING OFFICER TOM DECKER

(Mr. PAULSEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAULSEN. Mr. Speaker, I rise today to lend my voice to the chorus of Minnesotans that are grieving at the loss of one of our finest, Cold Spring Police Officer Tom Decker, who was senselessly murdered while responding to a call for help.

A 6-year veteran of the force and a father of four, Officer Decker exemplified what it means to serve and protect. He loved his job and the community that he served, and those he served admired and respected him in return. He was absolutely one of the good guys: a dedicated husband, father, and police officer.

So today, Mr. Speaker, let us honor Officer Decker's life and the incredible devotion he gave to his community. He was a hero. But more importantly, he was an incredible human being. He and his service will be absolutely and deeply missed. Let us all keep Officer Decker and his loved ones, fellow officers, and community in our prayers.

THE 147TH ANNIVERSARY OF THE ABOLITION OF SLAVERY

(Mr. BUTTERFIELD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BUTTERFIELD. Mr. Speaker, I rise today to recognize an important day in American history. Tomorrow, we will celebrate the 147th anniversary of the abolition of that regrettable institution of slavery. On 6 December 1865, the State of Georgia became the 27th State to ratify the 13th Amendment, marking the three-fourths supermajority necessary to amend the Constitution. The 13th Amendment accomplished something that the Emancipation Proclamation did not and perhaps could not do. It declared the non-existence of slavery in the whole of the "United States, or any place subject to their jurisdiction."

The triumph of the 13th Amendment represents not just for African Americans but for all Americans should be celebrated every December 6.

[From the Raleigh News & Observer, Dec. 5, 2012]

THE DAY SLAVERY OFFICIALLY ENDED (By James A. Wynn Jr.)

The movie "Lincoln" highlights the struggle over the passage and ratification of the Thirteenth Amendment, the historic proviso that officially ended slavery in America. The triumph that the Thirteenth Amendment represents—not just for African-Americans but for all Americans—should be celebrated, and we should celebrate it tomorrow, December 6.

No amendment has a greater or simpler declarative force than the Thirteenth. It states uncompromisingly that "Neither slavery nor involuntary servitude . . . shall exist within the United States." The amendment also empowered Congress to enact laws to enforce its substantive protections.

The significance of the Thirteenth Amendment cannot be overstated. Among other things, it extended the phrase "We the People" in the Preamble to the Constitution to all Americans, it ended the implicit sanctioning of slavery in the original Constitution and it made clear that abolishing slavery was the sovereign will of the people.

The U.S. Supreme Court, with its notorious 1857 Dred Scott decision, left no doubt that the phrase "We the People" in the Preamble did not include slaves. According to the court, African-Americans were not intended to be included in "We the People" because "[t]hey had for more than a century before been regarded as an inferior order . . . and so far inferior, that they had no rights which the white man was bound to respect; and that the Negro might justly and lawfully be reduced to slavery for his benefit."

The Thirteenth Amendment repudiated and effectively overruled Dred Scott and all it stood for, making clear that neither African-Americans, nor anyone else, could "just-

ly and lawfully" be enslaved in this great country.

Further, the Thirteenth Amendment ended the original Constitution's implicit sanctioning of slavery. Although the word "slave" appears nowhere in the original Constitution, the document tacitly accepted slavery. For example, as a result of an infamous compromise between Northern and Southern states, Article I of the Constitution based political representation in the House of Representatives on the population of "free Persons" and three-fifths "of all other Persons" in each State.

Thus, despite the Declaration of Independence's majestic pronouncement that "all men are created equal," the original Constitution indicated otherwise. With the Thirteenth Amendment, the Constitution expressly rejected slavery.

Finally, the Thirteenth Amendment, "ratified by the Legislatures of three-fourths of the several states," as required by Article V of the Constitution, abolished slavery through the sovereign will of the people and the democratic process. By contrast, the Emancipation Proclamation, an 1863 declaration freeing slaves in Confederate territory, was a wartime measure issued unilaterally by Lincoln.

The Thirteenth Amendment has been the subject of far less litigation than the Fourteenth. As a result, it has suffered unjust obscurity. And to the extent we celebrate it at all, we do so on the wrong day, February 1—the anniversary of the day President Abraham Lincoln signed a joint resolution submitting the proposed amendment to the states for ratification.

Addressing a crowd outside the White House after he signed the joint resolution, Lincoln remarked that the occasion was one "of congratulation to the country and to the whole world." In 1948, President Harry Truman declared February 1 "National Freedom Day."

Yet despite the symbolic significance of Lincoln's act, the Thirteenth Amendment had no legal effect until the states adopted it. Indeed, Lincoln's signature was unnecessary, and no other proposed amendment has been submitted to a president for signature.

The Thirteenth Amendment was put to all 36 states, including those formerly part of the Confederacy. Georgia became the 27th state to ratify the amendment, on Dec. 6, 1865, marking the achievement of the three-fourths supermajority necessary to amend the Constitution. The Supreme Court has held that constitutional amendments take legal effect when ratified. Thus, Dec. 6, 1865, marks the arguably most significant, and yet perhaps most unrecognized, date in African-American history.

Sadly, Lincoln never lived to see the Thirteenth Amendment ratified: He was assassinated on April 15, 1865, nearly eight months before Georgia provided the decisive vote in favor of ratification. No doubt Lincoln would have celebrated the day our nation constitutionally enshrined an abhorrence of slavery, the evil institution against which Lincoln had fought so hard.

No longer should the Thirteenth Amendment rest in silence. We should begin our holiday season by celebrating on Thursday the 147th anniversary of the Thirteenth Amendment's ratification. It is a day not just for African-Americans, but for all Americans, to commemorate our bettering our Constitution by spelling out the truth that Dr. Martin Luther King Jr. rightly called self-evident: "All men are created equal."

TAXING AND SPENDING

The SPEAKER pro tempore. Under the Speaker's announced policy of January 5, 2011, the gentleman from Georgia (Mr. WOODALL) is recognized for 60 minutes as the designee of the majority leader.

Mr. WOODALL. Mr. Speaker, I appreciate the hour, and I appreciate you being here with us this afternoon.

You know, it seems like just yesterday to me that you and I showed up here on Capitol Hill. It was that giant freshman class of 2010, and golly we came to do something.

I remember back in freshman orientation, folks hadn't even been sworn in yet and they were already trying to get focused on what the first votes in January 2011 would be about and the constant noise in the room was about how do we make a difference, how do we make it matter. This was a freshman class full of people who didn't come because they wanted a business card that says "Congressman." They didn't come because this was just part of a career path they had been planning since they were kids. They came because they were men and women, moms and dads, small business owners, big business employees, folks from back home who said: golly, the country is in trouble, and if we don't have leadership who's willing to stand up and do the right thing for the right reasons, this country might just go over the edge.

There were 99 of us, Mr. Speaker. You remember. It was Republicans and Democrats. Now, there were more of us as Republicans than there were of them, but we came together in those early days to say: What can we do to make a difference?

Mr. Speaker, you can't see it here, but I have a chart of our spending as a percent of the share of our economy and tax revenue as a percent of the share of our economy. Now, Mr. Speaker, what you see on the chart with the green line is historical tax revenue. What you see is, going back to World War II, going back to the mid-1940s, that it really has not mattered in the history of this Nation whether the top tax rate was 90 percent as it was before the Kennedy years, or 70 percent as it was at the beginning of the Kennedy years, or 28 percent as it was in the Reagan years. It really has not mattered what the top bracket is. All Americans are willing to give to government is about 18 percent of GDP.

It turns out, Mr. Speaker—this will be no surprise to you—it turns out Americans are pretty smart. If what you decide, as the Federal Government, is we're going to tax this behavior, well, Americans start engaging in this other behavior instead. If what you say is, no, I'm going to tax that behavior, they say, well, that's okay, I'll go do this instead. Americans are pretty smart, and they change their behavior to maximize the benefit for themselves

and their families, their kids and their grandkids.

So, going back—just a historical truth—through modern American history, post-World War II history, no matter what we've done with the Tax Code, Americans have only contributed about 18 percent of GDP. That distinguishes it, Mr. Speaker, from our spending trajectory in this country.

Now, on the chart I have our spending in red. Historical spending is represented by this jagged line. Projected future spending is that big smooth line that rises right off the chart. This red line, Mr. Speaker, represents what happens to Federal spending if we do nothing. That's important. What does it mean to do nothing? What I mean is, if we were to close down the White House tomorrow and not sign one new law; if we were to close down the U.S. House of Representatives tomorrow and not pass one new law; if we were to close the United States Senate—and I know what you're thinking, Mr. Speaker, you're thinking we're not going to be able to tell much difference there anyway, that's not true—if we close the United States Senate and pass not one new bill through the United States Senate, this trajectory of spending is what faces America. This trajectory of spending is what happens if we do nothing.

Mr. Speaker, there is no set of circumstances, not a historical set of circumstances, not a set of circumstances that we could conjure up where we could possibly raise enough money through the Tax Code to pay for the spending that this Congress, past Congresses, this President, past Presidents have promised the American people.

Here's the thing, Mr. Speaker: you and I are lovers of freedom, so we would never propose such a plan; but if we were to go out today and nationalize everything, if we were to put a 100 percent tax on every American worker in this land, if we were to put a 100 percent tax on every business in this land, if we were to take everything from everybody—their house, their business, their stocks, their bonds—if we were to sell every business in America at the auction block, if we took it all, the present value of that wealth would not be enough to pay the future promises that Presidents and Congresses have made.

We are in a spending-driven crisis. The question is: How do you tackle that, Mr. Speaker? Candidly, coming up with a clever idea to raise taxes is pretty easy. You just look at what taxes are today, and you say let's make them higher tomorrow. It doesn't take a lot of thoughtfulness to put that together. We can all agree on a plan that has the number that taxes are today and we make that number higher tomorrow. That's not an intellectual challenge. It's the wrong tax policy, and we see it in the President's budget from 2012.

I tell every town hall meeting, Mr. Speaker, that I have, every audience

that's there that I appreciate this President. I appreciate this President because the law of the land is that every year the President of the United States will submit to the Congress his or her proposed budget, and every year this President has been in office he has done exactly that.

That's important, because a budget is a statement of your values, Mr. Speaker. You know that. I mean, when we talk about where we're going to spend the tax dollars that we take in, what those priorities are, that tells us what our values are. When we talk about how much money we're going to take from the American people—who those folks are who are going to have to pay more, who those folks are who are going to have to pay less—we talk about our values. So every single year the President has put his values statement forward.

Now, that distinguishes him from a body that has disappointed me so terribly much, Mr. Speaker, in my 2 short years in this Congress, and that's the United States Senate. In the 2 years I've been here, I've never seen a Senate budget. I thought that was odd until I talked to colleagues who had been here longer and they said, actually, Congressman, we haven't seen a budget in almost 4 years from the United States Senate. No budget in 4 years. No statement of values. No statement of solutions. No recognition that there is a problem and then a proposal to make it better.

But what I have here, Mr. Speaker, is a chart that represents the President's budget from February. As he has done faithfully for these 4 years in office, he submitted his budget in February that would take us through the 2013 year. In that budget he raised taxes by \$2 trillion. Now, that's not a values statement about that. If I were to issue a values statement, I would tell you I don't want taxes to go up by \$2 trillion. I think it's a bad plan, I think it's bad for the economy, I think it's bad for the American people. But the President laid that plan out there for the American people to decide. In fact, he ran a campaign on that all spring, all summer and all fall, and the American people sent him back to service for another 4 years.

But what you see in his budget, Mr. Speaker, as represented on this chart, is facing \$16 trillion in public debt—largest public debt in American history, about \$55,000 for every man, woman and child in this country, their burden of the debt, a debt that's threatening to sink our economy. Thank goodness we're the best of all the worst economies in the world, Mr. Speaker, because folks are still investing here. Whenever the rest of the world bounces back, we're going to be in bad, bad shape. You don't know how fast that spiral is going to get started.

□ 1250

But the President, looking at that same set of facts that I have just

shared and the same set of facts that you and I look at here in this body, Mr. Speaker, he proposed a budget that raised taxes by \$2 trillion but increased spending by just as much.

Here it is, Mr. Speaker: this white dotted line represents the trajectory of debt accumulation for America. Again, if we do nothing, this is the debt accumulation for America. The red line represents the debt accumulation under the President's budget proposal. And what you see is that in 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, and 2020, under the President's proposed budget, after raising taxes on the American people by \$2 trillion, the debt of this Nation actually grows faster than if we had done nothing at all because the President takes all of those tax dollars and spends them on his priorities.

Going back to that first chart, Mr. Speaker. The problem that we have in America is not a tax revenue problem; it's a spending problem. And if we refuse to grapple with the spending problem, we'll go nowhere. The President refused to grapple with that spending problem except—and I blew it up on here so that everybody could see it—way out past 2021, kind of between 2021 and 2022, the debt gets just a little bit smaller under the President's plan than it is currently if we do nothing at all.

Now my experience in just 2 short years, Mr. Speaker, is that those good things that we promise are going to happen 10 years from now, those tough decisions we promise we are going to make 10 years from now, those never get made. We spend the money in year one, but we never make the cuts in year 10. I don't know if we can count on that at all.

But, again, the President is a smart guy. I think he cares about this country. The American people just endorsed him for a second term. His 10-year budget plan does nothing, nothing to improve our deficit trajectory, our debt accumulation over the next 9 years.

Which brings us to where we are right now, Mr. Speaker, with this so-called fiscal cliff. It's not really a fiscal cliff. And the truth is, we have a tax decision coming up, and we have a spending decision coming up. And, truthfully, we need to have even more spending decisions coming up. But we're calling it the fiscal cliff. And "sequester" is a new word that we brought into the American parlance as a result of that.

The sequester, as you recall, Mr. Speaker, was the hammer that we put in place. It was one of the first big votes that you and I took way back in August of 2011. As part of an agreement, the President wanted to raise the debt ceiling. There were bills that needed to be paid. The Speaker of the House, JOHN BOEHNER, said, We are not going to expand America's credit card until we get serious about curbing spending. And he said to the President, No, Mr. President, I will not raise the limit on America's credit card unless

you agree to dollar-for-dollar reductions on the spending side of the ledger so that we're not just making the problem worse; we're creating a pathway to solve the problem altogether. I admire the Speaker for that.

And the Speaker and the President agreed on this proposal. It was called the Budget Control Act of 2011. And what it did was it created for the first time ever a little committee here on Capitol Hill, a committee that was going to report language directly to the House floor and the Senate floor—no filibusters, no prevention of it coming by amendments, no monkey business—just directly to the floor for an up-or-down vote.

There were six House Members and six Senate Members on this panel. Mr. Speaker, you will recall it was six Republicans and six Democrats, serious men and women on this panel. And they looked at not just the \$3.8 trillion annual Federal budget. They looked not just at the more than \$50 trillion that would be represented in a 10-year budget. They looked at hundreds of trillions of dollars in Federal spending and commitments over a three-generational window. They worked on it for 3½ months; and collectively, at the end of the day, they agreed on not \$1 in changes. Not \$1, not \$1.

The greatest disappointment of my 2 years here has been the failure of that joint select committee to succeed. Call it politics. I don't know what you want to call it. Again, these were serious men and women. They were tasked with solving our Nation's fiscal crisis, and they failed.

So then what? Well, the Speaker had the wisdom back in 2011 to make sure that we were really getting dollar-for-dollar changes on the spending side and on the savings side when we were going to raise the debt limit. And what the Speaker and the President ultimately agreed to was this crazy hammer called the sequester, an across-the-board cut on discretionary spending.

Discretionary spending is about one-third of our budget. Mandatory spending—Medicare, Medicaid, Social Security, interest on the national debt, those programs—represents about two-thirds of the spending in the country.

But they envisioned this across-the-board cut that would come on discretionary spending—that one-third of our budget—if the joint select committee failed to reach an agreement. And the cuts were designed to be so severe that no self-respecting joint select committee would ever fail to reach an agreement because they needed to prevent these cuts from happening. Well, they didn't reach an agreement, as you know, Mr. Speaker, as history has now told us. And I want to show you where these sequester cuts are coming.

As I just talked about, we have discretionary spending. It's broken up into defense and non-defense discretionary spending. And then we have mandatory spending which, again, is Medicare, Medicaid, Social Security,

those mandatory programs where the money goes out the door whether Congress meets or not.

Well, look at how we've decided to take control of spending in this agreement, Mr. Speaker. Defense discretionary spending, we all know national security is a constitutional obligation that this Congress has. It is one of the few constitutionally delineated responsibilities this Congress must fulfill. Defense spending represents less than 17 percent of all the spending America does. That means 17 percent of our \$3.8 trillion annual budget is defense spending, 17 percent of the spending. But these sequestration cuts, Mr. Speaker, are going to fall 50 percent on the Defense Department. We're asking the Defense Department, our men and women in uniform, to bear the lion's share of that burden.

Now, I don't think that's right. I voted in favor of this hammer to take place, this hammer that was going to be so severe and so draconian that no one would ever let it happen. They would sit down at a table and agree, as people who represent America should be able to do.

But when they failed and we saw these defense cuts were going to come, we brought out in May of last year—these last-minute negotiations in December drive me crazy, Mr. Speaker. And I want the American people to know—and I know you tell them on a regular basis that it doesn't have to be this way. It was May of 2012—7 months ago—that this House looked at the size of these defense cuts, looked at the impact it would have on our men and women in uniform and their families, and we said, There's a better way.

We didn't kick the can down the road. We didn't say, Oh, let's just put these cuts off altogether; America doesn't really have a spending problem. We don't really need to control that side of the balance sheet. No, we passed a bill in this House in May of this year that didn't just replace the defense spending with smarter cuts on the mandatory side of the ledger but, actually, over time was going to make even bigger reductions in spending, create even larger savings to the American people—savings that we know we have to have if we are to succeed as an economy. And we did that back in May.

Now, Mr. Speaker, as you know, the Senate has not passed a proposal to do that very same thing—not in May, not in June, not in July, not this fall. The President hasn't proposed—well, I guess in the proposal he made last week, he said, Well, let's just kick that can down the road for another year. That's not an answer. That's a frequent go-to place that we go to in this body—Republicans and Democrats alike. Let's just kick it down the road for another year. But that's not the answer. You and I know that the time for kicking cans down the road is gone.

So in May of this year, we passed this replacement. It has yet to see any action. But I just wanted to be clear. As

you know, Mr. Speaker, this body laid a proposal out, detailed line by line by line of how it is that we can both protect our men and women in uniform, continue to serve them and their families, and take our spending responsibilities and our saving responsibilities here seriously.

We'll go on here, Mr. Speaker. Non-defense discretionary spending, it represents about 13 percent of that \$3.8 trillion annual pot. Where do the spending cuts fall there? This 13.4 percent of the spending is going to have to bear 35.1 percent of the cuts. Golly, that's not going to be easy, Mr. Speaker. I mean, these are programs that folks care about.

□ 1300

Take the food stamp program, for example, Mr. Speaker, the SNAP program. That's an important program, and I think we can all agree that there's some waste, there's some fraud, there's some abuse, and there's some things we can fix in that program. We did that in the bill we passed in May. It's an important support program to make sure that the most vulnerable among us are cared for and they can bounce back up. It's one of those programs where we try to reach out, Mr. Speaker, not to prop folks up, but to give them a hand up so that they can succeed.

These programs across the board are facing a 35 percent cut. Why is that? In fact, in the 2 years you and I have been here, Mr. Speaker, we've seen discretionary spending start—it started in 2010 at some of the highest levels in American history. You and I, in a bipartisan way, brought it down in 2011, we brought it down again in 2012, and we brought it down again for FY 2013.

I open up those newspapers, Mr. Speaker, and folks talk about how there's no agreement here, how it's just folks arguing and fighting with each other. In a bipartisan way, this House, that Senate, and our President have seen discretionary spending drop 3 years in a row. Never before in my lifetime have we seen such a thing. I credit this body with being a driving force in that because we're elected by the American people, who want to see their fiscal books put back in order, but we've succeeded on the discretionary side.

Discretionary turns out to be the easier nut to crack because that money doesn't go out the door unless this U.S. House of Representatives acts. That distinguishes it, Mr. Speaker, from mandatory spending. That's the third set of columns on my chart. Mandatory spending, as I said, is two-thirds of our budget, 63.8 percent to be precise. And of all the sequestration cuts, 63.8 percent of the budget is only going to bear 14.4 percent of the pain. The back story there, Mr. Speaker, is that's only 14.4 percent of the pain. As I said, discretionary spending has been on the chopping block in 2011, 2012, and now again in 2013. But mandatory spending we

haven't had a single agreement about, and I don't hear the White House talking about it either.

The White House put together a group, and it was called the Simpson-Bowles Commission. It was named after Erskine Bowles, who is a former Clinton chief of staff, and Alan Simpson, who is a former Republican senator. They came together in what the President called his deficit-reduction commission to give the President an idea of what we could do to get our fiscal house in order. I just want to show you here on this chart, Mr. Speaker, the chronic deficits that we've had in this country. It goes back to 1970. All of this red ink represents the inflation adjusted—these are all in 2012 dollars. So we're comparing apples to apples all the way across this chart. The deficits that we've had in this country—and you'll see going back to 1970, Mr. Speaker, which happens to be the year of my birth, we've run a deficit every single year through 1998.

Do you remember 1998? We had Newt Gingrich leading the first Republican U.S. House of Representatives in modern times. We had Bill Clinton in the White House. They came together to solve some big problems: welfare reform, health insurance reform. Folks forget about health insurance reform for the 1990s. We did away with pre-existing conditions, and we did away with all of the impediments in the large group markets, what they call ERISA plans. They had great success back in that area, and they finally got back into some positive territory.

To be truthful, this assumes that all the Social Security revenues and the Medicare revenues are getting spent on other projects rather than going in the trust funds and being preserved. We didn't really have a surplus. We were spending Social Security and Medicare revenues to create a surplus, but we did have some better years then.

Then we go into the Bush years, and this is important. Of course, 9/11 changed the way this country deals with national security. There were a lot of programs going on, much to my surprise, Mr. Speaker. You'll remember we created a brand new Federal department with a Republican House, a Republican Senate, and a Republican President. We created a brand new entitlement program in Medicare part D with a Republican House and a Republican President. And we ran during the Bush years—and they're represented right here—we ran at that time what were the largest deficits in American history. The largest deficits in American history were run during the Bush administration with a Republican House, a Republican President, and we began to get a hold of that. Of course, that was after September 11, 2001. Again, we had a dramatic uptick in spending on homeland security concerns, on national security concerns. That's an explanation; it's not an excuse. We reached those massive deficits, the largest deficits in American

history, and we began to bring those back down.

Enter 2007. From 2007–2008, we had a Republican President in the White House, and we had a Democratic Speaker here in the U.S. House. Spending began to tick back up. And as we entered the Obama years, Mr. Speaker, here is the largest deficit in American history recorded during the Bush administration. This is the annual deficit recorded in the Obama administration. Not twice as large as the largest deficit in American history, not three times as large as the largest deficit in American history, but almost four times larger than the previous largest annual deficit in American history was the first-year deficit recorded in the Obama administration. That was the first time ever that we had run trillion-dollar deficits, and we've continued to run trillion-dollar deficits during that time.

Tax policy hasn't changed during that time. Tax policy is exactly the same. You hear in the newspaper all the time, Mr. Speaker, about the Bush tax cuts. I don't know that that has meaning anymore. Of course, in 2001 and 2003, we did do some dramatic changes to tax policy. President Obama extended all of those changes in 2010. So that's the law of the land still today.

Tax policy has been exactly the same over this continuum. What has changed, Mr. Speaker, is the spending. The reason deficits have grown not one, not two, not three, but almost four times larger than the previous record deficit in American history is not because tax policy has changed—it hasn't. It's because Federal spending policy has changed, and that's what we have to get our arms around here in this body.

What I show going forward, Mr. Speaker—I put a little square around the annual budget deficits that have been run during the first 4 years of the Obama administration, but I also project for the Congressional Budget Office—that's the nonpartisan budget planning group we have here on Capitol Hill—what they believe is in store for us in the future if we continue under current policy. That's trillion-dollar deficits going out for years to come. The problem is not tax policy, Mr. Speaker. The problem is spending policy.

Can we improve tax policy? You better believe it. Mr. Speaker, you know I'm a cosponsor—in fact, I'm the main sponsor of H.R. 25, The Fair Tax. That's the largest, most popularly cosponsored fundamental tax reform proposal on either the House side or the Senate side. In fact, it's the largest, most popularly cosponsored tax proposal on both sides of the United States Congress. It would fundamentally change the way we tax. We can absolutely improve our tax system. But don't be misled. The problem in America is not bad tax policy. The problem is bad spending policy. We

have to move the focus away from taxation, which again has been the same for the last 12 years, and move it towards spending, which has changed dramatically just in the last 4 years.

I'm not one just to point the finger of blame, Mr. Speaker. You know, this freshman class came about results. They didn't come about whose fault it was. There is plenty of blame on both sides of the aisle. There is plenty of blame in the Congress and the White House. There is plenty of blame going back decades. But finding a solution is a priority for every man and woman in this body. All 435 men and women in this body are focused on finding a solution.

I'm just so proud, Mr. Speaker. I start to grin every time I start to talk about it. When you and I got here in this body, Mr. Speaker, we tackled fundamental spending reform for the first time in my lifetime. And we didn't pass it just once, Mr. Speaker. When we came in in 2011, we passed it twice. This House has passed the only budget to pass anywhere in this town. In the 2 years I've been in Congress, we didn't do it once, we did it twice. We didn't do it one year, we did it both years. And in each, Mr. Speaker, we didn't just complain about those before us who left us a current path of deficit and despair going forward—which is what happens if we fail to tackle our spending concerns—we passed that path to prosperity here in this House of Representatives that provided a solution. Not a solution 10 years from now, not a solution 5 years from now, but a solution that begins to administer tough love because that's the only kind that is left here, in year one.

□ 1310

You can't kick the cans down the road. You have to take these challenges head on.

But it's not just about the blame. Again, Mr. Speaker, there are solutions. We proposed that solution in the Ryan budget. I say the "Ryan budget." I'm proud of him. He's my chairman. I sit on the Budget Committee. It was actually a very cooperative process. He laid out his ideas. He had this great committee of Democrats and Republicans there who gave input, who made changes. We passed that bill in the Budget Committee. We then brought it to the House floor, and we had a free-for-all in which every Member of the House who wanted to introduce a budget could introduce a budget, and there were several. Hear that. Every man and woman in this body who thought he had a better way to solve America's fiscal crisis could introduce a budget, and many of them did. Only one of those budgets passed this body. That's now the House budget—passed not once but twice—which provided real solutions.

Here is our spending represented in a different way because there are so many red herrings in this body. I want to say, Mr. Speaker, if you'd help me spread the word with my colleagues on

the left, I say this from the heart. You know, we get down here, I'm on the Rules Committee, and I often handle the Rules debates here on the floor. It gets kind of toxic from time to time. Folks are trying to make their points. Everybody has got his talking points. It turns into an argument instead of a discussion about how to make America better. I do hope in this coming time, whether we use Special Order time to do it or whether we use some time off the floor to do it, that we will find an opportunity to have more of a discussion, because the facts are what the facts are. We ought to be able to agree on what the facts are, and then we ought to be able to disagree about what those solutions are. We ought to be able to question each other's judgment without questioning each other's motivations, and I hope we'll be able to spend some time on that. I heard folks say, Mr. Speaker, Oh, the problem is that global war on terror. It's all those war-fighting efforts. That's what has put us in this deficit circumstance that we're in.

This blue represents base spending going back to 2002. I started it right there when the wars began. This yellow line represents the spending that was done on the global war on terror. It's a big number because our commitment to our men and women in uniform is unequivocal. We stand behind the men and women who have been asked by their Commander in Chief to go overseas and defend our freedom and to protect our Nation. We defend them here in this House, unequivocally, with our budget votes, but it's a small number compared to all the other spending that goes on. Clearly, this yellow line is not what has created our trillion-dollar budget deficits—the largest budget deficits in American history by a factor of 4. It's the base spending that does that.

Here are the financial bailouts. I would have voted "no" on those bailouts had I been here, Mr. Speaker. You and I were not, but it wasn't the financial bailouts. As good or bad as they were, they're just this little green line right here. That is not what created these massive deficits. It's this giant blue line here. Then, finally, there was the 2009 stimulus bill, which is, actually, the largest portion here in the recent history of what we're spending on. We spent more on the stimulus bill than we spent on our men and women fighting two wars overseas. But even that is not responsible for this continuing growing line of Federal spending.

We're spending more than we've ever spent before. In fact, in the 10 years from 2012 to 2022—again, if we do nothing, Federal spending is expected to rise by 33 percent. I don't know if your salary is expected to rise by 33 percent, Mr. Speaker, if you're working in middle America. I know my community's salaries are not. This is 33 percent the size and scope of government, and the President is proposing to grow it more,

to spend more. The problem isn't tax policy. The problem is spending.

We hear a lot about fairness, and I want to talk a little bit about that now. I'm going to switch to tax policy because that's what everybody seems to be obsessed with in the media, and I want to make sure we dispel some of the myths of what's going on there. I went to Dictionary.com, as I'm apt to do, and I printed out what "fair" is.

They said: "(1) Free from bias, dishonesty, or injustice" as their first definition. "(2) Legitimately sought, pursued, done, given, etc.; proper under the rules." Fair.

I think we all support fairness—in fact, I'm certain that we do—but I'm absolutely certain that what President Obama believes is "fairness" is very different from what the people whom I represent believe is "fairness."

What I've brought here, Mr. Speaker, is a chart from the Joint Committee on Taxation. That's the group here on Capitol Hill that is in charge of measuring all the tax policies. It's a non-partisan group, and they just try to tell you what the facts are about tax policy. This chart represents what the facts were in 2010 about the taxes and tax rates. That was the most recent year for which they had a study. It counts all the tax returns turned in in America. There were 155 million of them. There were 155 million tax returns turned in in America. Adjusted gross income, that's not actually your total income—it's a machination you go through there on your tax returns—but we break it out into different categories. Out of 155 million tax returns turned in, just under 6 million reported an income of \$200,000 or above. What's even more interesting, though, is the number of returns below \$10,000 because we're going to talk about fairness.

As for those folks with tax returns under \$10,000, I don't think there is a man or a woman in this body, Mr. Speaker, who believes that if there are families of four trying to get by on \$10,000 that they don't need some help, because they're not going to be able to make it. I pinch pennies as tight as anybody can. Everything I get is free with a rebate from Walgreens, from CVS, OfficeMax, and right on down the line. I've not met a sale that I won't travel to. That's tough to do in today's economy, \$10,000, so that's why it's so interesting.

Look out here. Of the almost 21 million tax returns filed, only 14 of them ended up having a tax associated with them, and 425,000 were itemized. I want you to think about that, Mr. Speaker. Most Americans don't itemize on their taxes. They have what is called the standard exemption, the standard deduction. Most Americans take that, even homeowners. Of course, the mortgage interest deduction is the largest itemized deduction that most American families take, followed by the charitable deduction, but most American families don't itemize at all.

So you have to ask yourself, Mr. Speaker: Who are the folks who are reporting under \$10,000 a year in income who are doing all this itemizing?

Look at that ratio: Taxable returns to itemized returns, it's about 30-1. Even down here among the richest of Americans, Mr. Speaker, it's 1-1. So, 30-1. Folks are gaming this Tax Code to participate not at all in the funding of our government. When we get together here to try to think about how we take care of the poorest among us, when we get together here to think about how to reach out to those less fortunate among us, we look at this category. Sure, folks making under \$10,000 a year, don't they need our help? I tell you, if they're itemizing because they're doing such clever, crazy things on the Tax Code that the standard deduction and the standard exemption are not good enough for them, and if they're going to maximize their returns even more so they can get to zero, those folks are not the ones who need our help. We need to consider that in the context of fairness: 155 million returns with 6 million of them over \$200,000 a year.

We're in a Republic, Mr. Speaker—some folks say “democracy.” Obviously, it's a Republic—but the majority can rule here. I'm just doing the math in my head. If there are 155 million people filing tax returns but only 6 million of them are making more than \$200,000 a year, I'm pretty sure that I can find 51 percent who say, Let's not tax us, but let's tax them instead. I want you to think about that in the context of fairness.

Just in the spirit of full disclosure, Mr. Speaker, I'm not in the 1 percent. I have aspirations one day to make it into the 1 percent, but I'm not in the 1 percent. I never have been in my adult working life. I don't think I'm going to make it in anytime soon, but I aspire to fiscal success. I hope I have those good ideas that folks want to pay for. I hope that, by the sweat of my brow and by the power of my work ethic, I can generate some wealth, but I'm not part of the “them” who folks want to tax. I'm part of the “us” who folks don't want to tax and who are going to get a free ride in this proposal from the President.

□ 1320

I want to talk about that in the context of fairness. Let me tell you something you may not know, Mr. Speaker. Jimmy Carter was the last President from the great State of Georgia, so I'm going to start in the last of the Carter years, 1979.

What I have here on this chart is the percentage of all Federal income tax liability paid by citizens of the United States of America, what are we doing as citizens of America to pay for our government. And in the last year of the Carter administration, the bottom 80 percent of American income earners, which is most of us, that's the middle class, that's everybody there, the bot-

tom 80 percent, was paying 35 percent of all the bills in this country. So 80 percent of Americans were paying 35 percent of the bills. That top 1 percent, Mr. Speaker, that top 1 percent of America was paying 18 percent of the bills.

Now, again, we talk about fairness. Again, I'm not in the 1 percent; although, again, I might like to be one day. For the 1 percent to be paying 18 percent of all of the burdens of this country, is that fair? Is that fair? For the 1 percent to pay 18 percent, is that fair? Again, we can look at the numbers. We can look at income distribution. We can look at all sorts of things. But think about that in the context of we always talk about people paying their fair share. In the last year of the Carter administration, the top 1 percent were paying 18 percent of the burden of America. But this is what's really interesting and, to me, Mr. Speaker, troubling, as a first-term Member in this United States House of Representatives. Look from 1979 out to today, and what you see, beginning in the 1990s, is that the majority of us, the 80 percent, begin to pay less of our Federal burden than do the 1 percent. In fact—and it's staggering to me, Mr. Speaker, and so I went and pulled the numbers. As we sit here, again, for the last year for which CBO is able to produce numbers—it's 2009. In 2009, the 80 percent of us who are in the middle, the 80 percent of us who form all of our communities back home and all of our clubs, the 80 percent of us who show up to church on Sunday and polls on Tuesday to make sure that we're doing our spiritual and civic duty, the 80 percent of us, we're only shouldering 6 percent of the total income tax burden in this land.

Now, I just want to ask you, Mr. Speaker, we're all smart folks. Again, I drive a long way to get something free with rebate at Walgreens. And for folks, Mr. Speaker, listening at Walgreens, I really don't like the new policy they have with those coupons that expire. I want to get back to the gift card program. That's not something we're going to do here on the floor; we're not going to mandate that for them. But 80 percent of us are paying 6 percent of the burden. What do you think that does to elections? You see it in the children in your life, right?

When your children have skin in the game, when they have some candy they might have to give up, when they have some chores they might not have to do if they negotiate properly, when you have skin in the game, you make different decisions. You find when you give the children in your life some money in their pocket and you're going through those impulse rows as you're walking out of the supermarket, Mr. Speaker, if they've got a dollar in their pocket, they're looking hard at those prices, seeing what's on two for one today, seeing what the discounts are. If it's their dollar, they're going to really

think about what it is they're going to purchase in the candy aisle on the way out of the grocery store. But when they don't have any money in their pocket and they're just asking Mom and Dad to pick up the tab, there's no limit to what it is they're interested in having, right? The Snickers bar looks good. How about some of these sour things? My breath is bad; I need some gum. All across the board, there's no limit to what it is they might want.

What's going to happen to our Republic, Mr. Speaker, if we, the 80 percent, allow ourselves to only be burdened with 6 percent of the job of paying for the obligations of this country? Completely inverted there, Mr. Speaker. Today, again, 2009, the last year for which we had numbers, the top 1 percent paid 39 percent of all the bills. But again, if the 80 percent are only paying 6 percent of all the bills, that means the top 20 percent are paying 94 percent of all the bills. Again, what election is it that we're going to have where folks say, You know what, that guy over there shouldn't be picking up the tab for me.

What's happening to us as a Republic? Who are we now as a people? Do we want to help the least among us? Absolutely, we do. We always have; we always will. We can argue about whether we should do it from the Federal Government or from the State government or from our communities and from our churches, but of course we're committed to fulfilling those goals.

But we cannot, it is not fair, and I would argue it is immoral to face the kind of challenges that we're facing and say, You know what; we, the 80 percent of America, aren't going to help at all. We're already paying 6 percent of all the bills. There are 80 percent of us, we're the primary beneficiaries of it all, but we're paying 6 percent of all the bills; we don't want to pay more. Tax them. That is incredibly dangerous and antithetical to who we are as a Republic.

You know, this isn't new, Mr. Speaker. This isn't new. We can go back to Ben Franklin. He is often cited as saying that when the people find that they can vote themselves money, that will herald the end of the Republic.

That makes sense; right? It only takes 51 percent to win an election. So if 51 percent of the people can make sure that the other 49 percent have to bear all burdens and pay all the bills and do all the fighting and work out all the problems, then the 51 percent can just take the day off. Now that's not where we are in America, Mr. Speaker, but Ben Franklin worried about that over 200 years ago.

Milton Friedman, a Nobel Prize winning economist passed away, but his words are still with us. I think he said it well. In his “Free to Choose” statement, Mr. Speaker, back in 1990, he said this:

There is all the difference in the world, however, between two kinds of assistance through government that seem superficially

similar: first, 90 percent of us agree to impose taxes on ourselves in order to help the bottom 10 percent; and second, 80 percent voting to impose taxes on the top 10 percent to help the bottom 10 percent.

There's all the difference in the world, Milton Friedman says, between when 90 percent of us choose to burden ourselves so that we can help others, and when 80 percent decide they want to burden a different 10 percent so that they can help yet another 10 percent. And it is different. It's morally different.

And I've got to tell you, Mr. Speaker, and that's what I love about our freshman class, Republicans and Democrats alike, nobody came here to pass the buck. Nobody came here to say that decisions are easy and somebody should have made them earlier. They came here and said these decisions are really hard, but we're going to make them anyway.

What's the morality of deciding that our country is in peril and the people who ought to solve it are them; not us, but them; not me, but someone else; not in my family, but in my neighbor's family. There's a morality there.

Now, listen, I'm the first to tell you, Mr. Speaker, we need more revenue in this country. And the reason we don't have much revenue today is because folks don't have jobs. Guess what. If you don't have a job, you don't have any income. If you don't have any income, you can't pay any income taxes. That's not rocket science. That's basic economics, and it's at work every day in this country. We've got to get folks back to work. And more of them, Mr. Speaker.

□ 1330

If you're a family of four and you're earning \$30,000 a year, you can't afford to pay the bills of this country in the same way that someone making \$200,000 a year can. That's okay. We understand that. That's why there are graduated rates in the Income Tax Code. Some people pay 10 percent, some people pay 15 percent, some people pay 25 percent, some people pay in the 30s. The more you have, the more we think you're able to contribute.

But here we are in what every American economist would agree is one of the most dire economic circumstances of our time, and what I hear described as leadership from the President is don't change anything for the 80 percent. In fact, spend more on the 80 percent, and go tap that last 1 percent to pay all the bills. The top 1 percent are already paying all the bills.

This chart, which again I would say demonstrates a moral imperative that we investigate and grapple with as American citizens, as members of the greatest self-ruling Nation in the history of the world, what we've already seen is just, in my lifetime, born in 1970, just in my lifetime, through self-governance, we have completely turned on its head who pays the bills for America. And more and more and more

and more we've said, It doesn't need to be me; it doesn't need to be us; it can be them; they can do it all.

That is not who we are. That's not who we teach our children to be, and it's not the legacy that we want to leave behind. Eighty percent of us, including me, in this country are paying only 6 percent of the burden of being an American citizen.

This chart, Mr. Speaker, reflects what happens if we roll off this fiscal cliff. They describe it as a cliff. Again, it's a spending decision and a tax decision, but I've listed them both up here. This chart comes from the Congressional Research Service.

A couple of interesting things I want to point out here. First and foremost, if we do nothing, there are going to be tax increases of about \$400 billion. There are going to be spending reductions of about \$102 billion. There are some other changes that would happen at the end of the year that aren't associated with policy decisions. So, at the end of the day, we change the scope of our deficit by about \$607 billion if we do nothing.

That's what makes this such a hard issue to grapple with, Mr. Speaker. If we do nothing, if we reach no agreement, changes that happen automatically and burden us all in different ways will create \$607 billion for the U.S. Treasury that we didn't have before. And that's only half of the annual deficit.

You see all the pandemonium that folks are describing, all the frightful words that are used to describe the fiscal cliff. If we roll over that fiscal cliff and all of those bad things come to bear, the tax increases and the spending reductions, collectively, they make \$607 billion. And if we apply that to next year's deficit, we still won't reduce next year's annual deficit to the level of what used to be the highest deficit in American history run up under the Bush administration. We can roll right over the fiscal cliff, create \$607 billion in taxes and savings that we didn't have before, and we still won't have reduced our annual budget deficit to what was formerly the highest budget deficit in American history before the Obama administration. That's how far out of whack we are.

I'm not trying to blame the President for that. I think there is some blame there. There's blame here. There's blame everywhere. I only say the Obama administration so folks understand this is a problem that has existed. As long as I've been alive, we've been running systemic deficits. But in the Bush administration, we were running the highest deficit in American history, and today it's four times larger. And if we roll over the fiscal cliff that everyone says is going to be so awful, we only solve half the problem. Still don't get back to what used to be the most profligate spending days in American history, used to be the largest American deficits in American history, the Bush administration. That's

Number 1 that I want to get from this chart.

Here's Number 2, Mr. Speaker, going back to the grappling with fairness, who we are as a people, what we're about. I put up that chart earlier that showed how some folks were getting away with paying zero. Even though they had lots of money, they were just itemizing it all away so they didn't have to pay anything on the tax burden; certainly their right as an American citizen to take advantage of those Federal tax laws.

But we tried that. Back in the late sixties, early seventies, we created what was called the alternative minimum tax, Mr. Speaker. The alternative minimum tax, and it was designed—and you can go back and read about it in the CONGRESSIONAL RECORD. It's all right there. It was designed to get them.

We've talked a lot about who the "us" are and who the "them" are. The "them" are the people with the money who aren't paying their fair share. Again, we can argue about what fair share is, but that's why we created the alternative minimum tax. The "them" weren't making the proper payments. And what it turned out to be was they really were making a lot of money and they really were itemizing a lot of deductions. So, really, they were wealthy folks who were doing all the things the Tax Code encouraged them to do, but they ended up paying zero, and the 80 percent of us didn't like it. We thought, Golly, they have lots of money; they shouldn't be paying zero; we should do better. So we created the alternative minimum tax.

Here's the thing. The alternative minimum tax is still on the books today. We did such a crummy job of trying to attack the rich back when we created the alternative minimum tax, it's grown out of control, and it now hits middle-income Americans all across the country, except that the Congress fixes it 1 year at the time.

That's one of the crazy things that you learn when you become a Congressman is that you don't actually solve problems long term; you apparently just fix them 1 year at the time so you can come back again next year and fix the same problem in the same way once again.

All the taxes in the Bush administration, all these taxes we talk about, the ones that President Bush passed in 2001 and 2003, the ones that President Obama extended in 2010, all of those taxes combined create \$104 billion for next year. That's a \$104 billion change.

Fixing the AMT, fixing the alternative minimum tax, solving this thing that we created in order to tax the rich, to keep it now from impacting the middle class, is going to cost 117. All the Bush tax cuts combined are 104. Fixing this problem that Congress created back in the early 1970s, 117. We don't do that well when we try to attack the "them" in order to avoid the burden on the "us," and we're going to

see that when we do the AMT patch again this year.

I want to close with this, Mr. Speaker. I have a chart here of who benefits from tax loopholes. Again, I'm a Fair Tax guy. H.R. 25, Mr. Speaker, I hope you'll go and pull it out, think about being a cosponsor if you're not already.

I want to change the way we do taxes in this country. But just by closing loopholes—and I hear the newspaper asking all the time: Which loopholes? What loopholes? How are you going to do that?

This shows who benefits from the loopholes, Mr. Speaker, in the Tax Code. It's not the bottom 20 percent. It's not the second 20 percent or the third or the fourth. It's not really even the top 20 percent. It's the top 1 percent.

So I would just encourage you, Mr. Speaker, to ask the President—as we're going through these discussions, he clearly has campaigned on getting more money out of the 1 percent.

I showed this chart, Mr. Speaker, that questions the morality of where we end up, questions what it means to our Republic at the end of the day if we continue to give so much of the burden to the few and leave the rest of us with none of the burden at all.

But if he is intent on doing that, he doesn't have to raise tax rates. He can do it through abolishing tax loopholes, which makes the Code fairer and more transparent to us all. We have a right to know what we have to pay in a tax code. These loopholes obscure it.

Mr. Speaker, I don't know what's going to happen in these final days. I know that the Speaker of this House is committed to doing the things that matter, to making a big difference for our children and for our grandchildren, to not kick the can down the road one more time. I pledge to support that plan, Mr. Speaker. I, too, did not come here to kick the can down the road. I came here to make the tough decisions.

And I say to my friends, and there are a lot of them out there who made tough decisions and they paid an electoral price for it. That's not a short list of folks. That's a long list of folks, and it happens every 2 years. You see people who had the courage to do what they thought was right, and they pay a price for that in terms of their political career.

□ 1340

But what I love about this institution, Mr. Speaker, these freshmen that I was elected with—you and I were elected with—these new freshmen that are coming in after this past election, I see men and women who care so much less about a political career and care so much more about doing things that matter for this Republic. I'm proud to be associated with them. And I'm convinced if we get past the rhetoric and get back to the discussion, we're going to be able to come up with a solution that the American people will be proud of and that we can be proud to tell our

children and our grandchildren that we were a part of.

With that, Mr. Speaker, I yield back the balance of my time.

HONORING THE 50TH ANNIVERSARY OF LA ROCHE COLLEGE

The SPEAKER pro tempore (Mrs. BLACK). Under the Speaker's announced policy of January 5, 2011, the gentleman from Pennsylvania (Mr. ALTMIRE) is recognized for 60 minutes as the designee of the minority leader.

Mr. ALTMIRE. I will not speak for nearly 60 minutes. I'm tempted to engage the gentleman, my good friend, Mr. WOODALL, in debate. But I won't do that because I know he's still smarting from his Bulldogs' loss over the weekend. And I'll let him continue to think about that. I very much enjoy the friendship and camaraderie with Mr. WOODALL, although we do have a difference of opinion on some of those issues.

Before we start, Madam Speaker, I would say to the individual who will be speaking following my presentation that I plan to only speak for about 5 minutes or less. This will not be an hour-long presentation. So the speaker who will follow me on the majority side, I recommend he hang near the floor because I will be wrapping up shortly.

Madam Speaker, I rise to commemorate the 50th anniversary of La Roche College. Founded in 1963 by the Sisters of Divine Providence in McCandless, Pennsylvania, a suburb of Pittsburgh, it was named in honor of Marie de la Roche, the first superior of the Congregation of the Sisters of Divine Providence. Originally a college for religious sisters, it now educates a diverse group of students from around the world, offering high-quality educational opportunities that continue to reflect its Catholic heritage.

Soon after its founding, La Roche experienced financial difficulties that threatened the school's existence. Due to the financial strain, the congregation at that time seriously considered permanently closing the college. However, because of the profound and positive impact the school made on the community in the short time its doors had been opened, the students, State officials, and the community leaders urged the congregation and the school's leadership to continue the mission of the school and to keep the school open.

Thankfully, due to the outpouring of support from the community, in 1970 the board amended its charter to establish La Roche College as an independent, coeducational Catholic institution, which it remains today. It also joined with the Art Institute of Pittsburgh and diversified its course offerings, expanding the areas of study the college would offer, including graphic and interior design programs that are among La Roche College's most popular programs today.

I was proud to serve on the Board of Trustees at La Roche College. It was during my time as a trustee that I had the wonderful opportunity to get to know the late Monsignor William Kerr, who served as La Roche's president for 12 years. It was during his tenure that the college established the Pacem in Terris Institute, a scholarship program for outstanding college-age men and women from conflict and post-conflict nations such as Rwanda and Bosnia. The institute allows students to receive an education at La Roche College to study leadership and diplomacy in return for their agreement to return to their home country after graduation to help engage in the peace process and rebuild their nations.

The institute successfully reflects the college's vision and mission to "foster global citizenship." That program over the years has created a bond with some countries that is unlike any other institution of higher learning in America. It has had students go through the program that have gone back to their home countries and have very successfully become leaders in those countries. We are better off as a Nation and as a global community because of their work and because of that program which initiated and continues at La Roche College.

It was also during my time on the Board of Trustees in 2004 that La Roche College Board of Trustees appointed Sister Candace Introcaso as the college's seventh president. Sister Candace began her career in education at La Roche in the late 1980s, and it's under her leadership that the college has continued to expand its global footprint while placing a renewed focus on serving the needs of those in the Pittsburgh region. I had the privilege of working closely with Sister Candace during my time as a trustee and as the Congressman who now represents La Roche College. The future is bright for the college under her continued leadership.

La Roche College improves upon itself year after year. It continues to expand its academic offerings, with more than 50 undergraduate majors, 20 undergraduate minors, and three graduate programs. For six consecutive years, it has been named one of the Best Northeastern Colleges by the Princeton Review, and it fields 12 intercollegiate teams.

On many occasions my office used their facilities for workshops and town hall meetings. Over the years, La Roche students and faculty, as well as Sister Candace, came to visit my office on a number of occasions to discuss the importance of education to our country and their efforts to collaborate with the greater Pittsburgh and western Pennsylvania community for the betterment of our entire region.

Next year marks the 50th anniversary of La Roche College. Despite early financial troubles, the leadership of the college persevered, kept the doors open, and always stayed true to the

mission of the school. La Roche College is a tremendous asset to our community, and we look forward to many, many more years of continued success. I wish them nothing but the best, and congratulations on their 50th anniversary at La Roche College.

I yield back the balance of my time.

A GAME OF CAT AND MOUSE WITH THE ECONOMY

The SPEAKER pro tempore. Under the Speaker's announced policy of January 5, 2011, the Chair recognizes the gentleman from Texas (Mr. GOHMERT) for 30 minutes.

Mr. GOHMERT. Thank you, Madam Speaker.

It's a pleasure to follow my friend from Pennsylvania (Mr. ALTMIRE) and before that my friend from Georgia (Mr. WOODALL). It made a lot of sense. In fact, the last vote we took today was to eliminate the word "lunatic" from our Federal law. I don't have a problem with lunatic being used in the Federal law. Apparently, I was the only one here on the floor that didn't have a problem with using the term "lunatic." In fact, it occurred to me that not only should we not eliminate the term lunatic at a time when we are facing national bankruptcy if we don't get serious about our issues but we should also use the term to identify those who want to continue doing business as usual around this town.

It's time we got serious. One of the things that would help the administration get serious, because it is a big deal and not because CBO has no clue what it's going to cost, as illustrated by them initially scoring, I believe, \$1.1 trillion, then \$800 billion, and now \$1.6 trillion taking effect. Maybe \$1.8 trillion. They don't have a clue. They're not allowed to use real historical reality, real rules to score. They use a fictitious static rule that is just so inaccurate. It would be a joke if it weren't so sad as to what it's done to good legislation.

Because of the emphasis on tax and all the people that are going to be hit with a tax because this administration and the Democratic Senators down the Hall—at least their leadership—continue to play games of cat and mouse and of chicken with the future of our financial stability and economy, I think it's important to look at taxes.

□ 1350

The President, for example, and Majority Leader REID in the Senate say they want to help the middle class, the poor working folks. So, apparently—and I know former Speaker PELOSI said we need to pass the bill so we can find out what's in it, but it's obvious from Leader REID's comments and the President's comments, those two people never read the ObamaCare bill.

It's a bit of interesting reading. I did go through it all before I voted against it; a lot of interesting stuff. I don't know why the President needs his own

commission, the Noncommissioned Officer Corps. There were toss-outs to the big pharmaceuticals, AARP. If you saw somebody endorse this bill, then you could find a provision in here, if you knew what to look for, where they got their little pound of pork. So it's quite interesting. But Mr. Speaker, I would encourage the President and HARRY REID, since they have slapped this bill on the backs of every American, they really ought to read what they've done to Americans. There are a lot of people that have.

There was a good article, it seemed to be—I don't know Guy Benson, but a political editor for Townhall.com wrote on September 20, 2012, he was talking about the President:

Barack Obama's re-election racket has been running millions of dollars worth of advertisements claiming that Mitt Romney's "plan" will raise taxes on middle class Americans. This isn't true; Romney promises precisely the opposite, and FactCheck.org has called out Democrats for repeating the debunked charge. But to paraphrase Bill Clinton's DNC speech in Charlotte, it takes some brass to preemptively criticize someone for doing what you've already done yourself. Before we get to the latest dreary punch line, let's go back to the video tape.

And online it had a video that could be punched, and it was President Barack Obama speaking. Part of his quote says:

I can make a firm pledge: Under my plan, no family making less than \$250,000 a year will see any form of tax increase. Not your income tax, not your payroll tax, not your capital gains taxes, not any of your taxes.

The article goes on:

This man's "firm pledges" aren't worth very much, are they? Kate touched on this last night, but it's worth another spin, if only to marvel at the sheer hypocrisy of it all. The Congressional Budget Office has determined that millions of Americans will get socked by the ObamaCare mandate tax, 80 percent of whom are middle-income citizens. Nearly 6 million Americans—significantly more than first estimated—will face a tax penalty under President Barack Obama's health overhaul for not getting insurance, congressional analysts said Wednesday. Most would be in the middle class. The new estimate amounts to an inconvenient fact for the administration, a reminder of what critics see as broken promises. And the Budget Office analysis found that nearly 80 percent of those who'll face the penalty would be making up to or less than five times the Federal poverty level. Currently that would work out to \$55,850 or less for an individual and \$115,250 or less for a family of four. Average penalty: about \$1,200 in 2016.

It goes on to point out:

CBO also said there will be 30 million people without insurance, though all but the 6 million will be exempt from the tax. The exempt Americans are a combination of illegal immigrants and those with incomes too low to pay income tax.

The article says:

Just so we're clear: ObamaCare raids \$716 billion from almost-insolvent Medicare to chip in toward its own \$2 trillion price tag, raises premiums on average families, increases national health care spending faster than doing nothing would have, swells the deficit, exacerbates the national doctor shortage, is insanely costly and difficult to

comply with, and raises taxes by \$500 billion on the backs of millions of middle class families—and the country will still have 30 million people lacking health insurance. What a deal! And most of that dysfunction doesn't kick in until 2014.

If it had kicked in in 2012, you would have seen a different President elected, I'm sure. But in any event, what the ObamaCare bill requires—and one further comment. When a bill is based on a fraud, it's probably not going to end up being a good bill. The ObamaCare bill—and I hear people talk about 2,700 pages, 2,500, 2,600—let's see. My version here—this is one we got from the official printer—2,407 pages. But it's interesting, the title of the bill:

Resolved, That the bill from the House of Representatives (H.R. 3590) entitled "An Act to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes," do pass with the following amendments: Strike out all after the enacting clause and insert—ObamaCare.

So they took House bill 3590 that was an act to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes—this is a tax credit for our military members—they struck, as it says: "Strike out all after the enacting clause and insert" ObamaCare. That's a fraudulent bill. That bill did not originate in the House, it originated in the Senate. The Constitution requires that any bill that raises revenue must originate in the House. It started as a fraud. This bill became a fraud when it was enacted and it was asserted that this originated in the House. It did not.

We had a tax credit for first-time homebuyers for our military. There was nothing germane about ObamaCare to a tax credit for our military. That's why I say a bill that starts out as a fraud is probably not going to be real good for a lot of folks.

So, though the President promised people all across America over and over that if you make less than \$250,000 then you will not see your taxes go up, well, let's take a breather from the so-called fiscal cliff—the truth of the matter is we went off of that back in August 2011 when we passed that ridiculous debt ceiling bill that is going to further gut Medicare, on top of what ObamaCare did to it, and also gut our national security. But looking back at ObamaCare and the tax consequences—and Madam Speaker, that's why I keep saying the President really ought to read the bill that bears his name, that people refer to as ObamaCare. He really ought to read it. Majority Leader REID really ought to read the bill because he'll get to the part that has a mandatory provision that the Supreme Court had to take up: Is this mandate a penalty or a tax? And of course the intellectual gymnastics that our Chief Justice had to go through to say, between

pages 11 and 15 of the opinion, that this is a penalty, it's not a tax. Because under the anti-injunction statute, no Federal court would have jurisdiction to take up the case if it's a tax because you would have to wait until 2014. Because under the anti-injunction statute, under Federal law, no Federal court could take it up until the tax is actually imposed and the person filing suit is actually someone against whom that tax is imposed. So they would have to wait until 2014 in the intellectual gymnastics of the Chief Justice, he says, between pages 11 and 15.

□ 1400

So Congress called it a penalty. It is really a penalty. They knew what it was. It's a penalty. It's not a tax for these purposes because, you know, it's just being assessed against someone if they don't buy this basic health insurance policy. And it's estimated that will cost thousands and thousands of dollars.

Then, of course, you get on over to around page 60. And after he said, It's a penalty; therefore the anti-injunction statute doesn't prevent us from taking jurisdiction. And now that we have jurisdiction, we'll take it up. And now we take it up, and we say, It's really a tax, so it's okay. Boy, that kind of intellectual lack of integrity in any Federal entity is a danger to the ongoing of the Nation.

But for those of us that did read the bill, you will find that if someone is making 133 percent of the poverty level or more, they must buy the basic ObamaCare policy. Well, 133 percent of the poverty level for one person would be \$14,856. So anyone in America who makes more than \$14,856, as an individual—and in case those at the White House don't know, \$14,856 is less than and not even equal to \$250,000—but if you make \$14,856, as an individual, when the tax fully kicks in, you will pay an extra 2.5 percent income tax as a penalty for not buying the ObamaCare health insurance bill. And so you will get popped with an extra 2.5 percent tax, which will be \$371 slapped on the people that can afford it the least. This ObamaCare bill slaps \$371 extra on somebody that can't afford health insurance at a time when they can't afford to pay the extra tax. Well, congratulations.

That's why I really wish the Senate majority leader and the President themselves would read this bill so they know what they're doing to people so that when they say, This isn't going to hit anybody with any extra tax if you make less than \$250,000—if they continue to say it, they'll know that is simply not true.

If you are a couple and you make \$20,123 and you cannot afford—between the two of you, you are just scraping by with \$20,000; gas prices are up because of all the money flooded into the market created by our Federal Reserve; inflation is going to be kicking in big time this next year; and it's

going to be a struggle for any couple that's making \$20,000. It's going to be tough. Prices of everything are going to be going up.

So at a time when they will not be able, probably, to afford several thousand dollars for the ObamaCare basic policy—some estimates have been that it will be around \$12,000—well, then, you are going to pay an extra \$503 in a tax penalty because ObamaCare mandates it.

Let's go to a family of six. If you are a family of six and you make \$41,190 and you cannot afford thousands and thousands of dollars for the basic ObamaCare health insurance policy, then this poor family, struggling with six folks—I grew up in a family with four kids. When times were good, we ate beef. When times were not, we would have Beane Weenee. I happen to like it just fine, but it's still a struggle.

For those who continue to struggle, as I heard Jay Leno once say, Four words: Kraft Macaroni and Cheese, one of my favorite meals. But, nonetheless, it is going to be hard to afford even macaroni and cheese.

If you have a family of six, you are making \$41,190, and you can't afford thousands and thousands of dollars for the ObamaCare basic policy, then, hello, you are going to pay over \$1,000 additionally in your income tax.

I hope and pray that somebody in the majority—because I know the hearts of so many of my friends across the aisle. They care deeply about people suffering in America. I know they do. They really do care. That's why I want them to read ObamaCare, as I did, and see what you are doing to the poor and the downtrodden in America.

The President is still running around saying, you know, if you are making less than \$250,000, you are not going to have any extra tax. Wrong. Read your own bill. Speaker PELOSI said, We will pass the bill to find out what's in it. They still don't know what's in it. That's why somebody has got to stand up and tell them what's in this bill is taxes on people that cannot afford it.

If they cannot afford thousands of dollars for a health insurance policy, they're not going to be able to afford \$1,030 in extra income tax that our President and all the Democrats passed without a single Republican vote. They're not going to be able to afford that.

I guess that's why ObamaCare is going to provide for an additional 17,000 or so IRS agents. Because with this poor family of six making 133 percent of the poverty level, you are probably going to have to chase those two adults down in that family of six and get blood from a turnip because they don't have the \$1,030 to pay in extra income tax. If they did, they might try to buy some form of health insurance. But even if they spent \$1,030 on the health insurance policy, from the estimates we've seen, that still would not be anywhere near enough to buy the basic

policy required by ObamaCare. This is going to devastate the working poor in America.

And again, I go back. Any bill that starts as a fraud is probably not going to be good for America.

So we come back to all of the rhetoric about taxes. Look, too many people in the House and Senate have forgotten that in July of 2011—that's the real time we were facing a fiscal cliff. And S&P made clear, Look, if you don't cut at least \$4 trillion over 10 years, which is \$400 billion a year, we were running a deficit at that time around \$1.5 trillion over what we were bringing in. And they were saying—and I thought it was pretty modest—if you don't cut at least \$400 billion of the \$1.5 trillion you are overspending, then you are going to get downgraded.

Leaders in both parties really didn't take that seriously. So they came back with a proposal for a supercommittee; and if the supercommittee didn't reach an agreement on \$1.2 trillion over 10 years, a \$120 billion reduction from the overspending of \$1.5 trillion—that should have been a drop in the bucket. That's nothing. We should have been able to cut that much, and we didn't do it. So now the sequestration is looming, and we come back to this issue again. But I'm shocked that so many people have already forgotten.

When we failed to cut \$4 trillion over 10 years from our budget back in the summer of 2011, we got downgraded, and things got more expensive.

□ 1410

Tim Geithner back then was saying, August 2, the world comes to an end financially. We're going to hit the financial ceiling. It's going to be disastrous. Then, basically, the interpretation of what he was saying is, when we get to August 2, Just kidding. We're going to be okay for a little longer, but we're about to hit it anyway.

The financial cliff was approached, and we went over it. Now we're bouncing down the cliff from ledge to ledge. I'm hopeful that at some point we'll say we've fallen far enough. Let's not go all the way down to the bottom of the abyss. Let's start climbing out of this vast hole we've dug for ourselves that we've been plummeting down. Let's get back on top. You're never going to do that bringing in \$2.4 or \$2.5 trillion and spending over \$3.5 trillion. And we want to eliminate the word "lunatic" from the Federal code? That's lunacy to think you can keep spending over a trillion dollars more than you bring in, when you're bringing in about \$2.5 trillion, and not pay the price.

It is immoral for one generation to be spending money that the next generations haven't even had an opportunity to earn. It is narcissistic to say we are so important in our generation that we are going to lavish money on ourselves uncontrollably so that future generations will pay for our self-indulgence.

The history of America is one generation after another making sure that the generations that follow would have it better than they did. When we come to this generation, my generation—and it's embarrassing, but we've been so self-indulgent, so self-absorbed that we would spend future generations' money. They are kids, some of them are not even born, and they are going to have to bear the cost of what we're doing. As one of our Republican friends said just about an hour ago, Be quite sure any deficit spending now will be a tax on someone at some point. It's just the way it is.

We keep hearing that everybody needs to pay their fair share, and I hope that beginning now when people hear "fair share," they'll think about a flat tax. Steve Forbes has been talking about it for years. RAND PAUL had an article out a year or so ago proposing a flat tax. My friend, MIKE BURGESS, has a proposal. Many of us have proposals.

Look, you talk about wanting Warren Buffett to pay what his secretary does, yet you haven't made one proposal that will bring Warren Buffett to paying what his secretary does. That's crazy. That's why we shouldn't eliminate the word "lunatic." It really has application around this town.

Warren Buffett ought to take heed. He runs around telling people, yeah, rich people should pay more taxes. Well, he's not. He's not going to pay more, not on any of the proposals that the President has him running around endorsing. How about a flat tax that says 15 percent for capital gains tax, what Warren Buffett normally pays, 15 percent for his secretary in income tax, 15 percent for gift tax, and a 15 percent corporate tax. Let's just go 15 percent across the board. The irony is that the economy would so explode—so many more people would be employed, so many more people would be making more money—that the revenue would actually come in in greater amounts. We would actually get greater revenue, and there would be less pain and less suffering in America.

A couple of years or so ago, an 80-year-old lady in east Texas said:

I grew up here in east Texas in a home that had no electricity, no power. We had a wood-burning stove; and now the electricity, propane, everything is so expensive, my Social Security doesn't cover it. It looks like I'm going to have to go back to a wood-burning stove just to exist. This could be a cold winter.

It doesn't have to be like that. It ought to be an economic renaissance. The more fair we are here in Washington—you make more, you pay more; you make less, you pay less. I'm one of those that likes two deductions: one for charitable giving and the other for the mortgage interest deduction.

We can negotiate over numbers. That's not a problem. We could compromise. We can reach an agreement, a compromise over numbers, but let's don't compromise on a principle that is so basic and simply says, if you make

more, you pay more. It's an easy concept. You make more, you pay more; you make less, you pay less. That's fair.

For Heaven's sake, let's do this. Let's take that ObamaCare burden off the working poor in America that are going to get socked with that tax. We were told for so long, if we don't do something, there will be maybe 30 million people in America who won't have insurance. Then we get to the bottom of it and we find out, well, now we're going to have lots of people paying lots more taxes and we're still—oh, and we're gutting Medicare. Because of ObamaCare, we're gutting Medicare by \$716 billion so the seniors will have less health care. Oh, I know, some of our Democrat friends have said not to worry, we're only taking that from the health care providers—the doctors, the hospitals. We're taking that from them. We're not taking it from you, seniors. You don't have to worry. You will have Medicare. My foot.

Those health care providers who have \$716 billion sucked out of the system will not be able to provide service to all the seniors, and that's why we start hearing stories now about how ObamaCare is going to work. Some say the age may be 75 that is tossed out by the panel. It won't be a death panel, but it will be a panel that says, You're 75. No hip. No, no. You're too old. You don't get a hip. You don't get a knee. You're just going to have to suffer because you're not productive anymore.

That is outrageous. Every individual has value.

I would just like to conclude with words from my friend Dick Morris, who said:

I know there is a disagreement on when life begins in America, but for Heaven's sake, we ought to agree that life ends when you die.

That's why ObamaCare needs to go.

With that, I yield back the balance of my time.

PROCEEDINGS AND DEBATES OF THE 112th CONGRESS, SECOND SESSION

Vol. 158

WASHINGTON, WEDNESDAY, DECEMBER 5, 2012

No. 155

Senate

The Senate met at 9:30 a.m. and was called to order by the Honorable KIRSTEN E. GILLIBRAND, a Senator from the State of New York.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

God, You have truly been good to us. Even when we stumble and fall, Your mercy continues to sustain us. Lead our lawmakers to realize that the abilities You have given them are only maximized when they are used for Your purposes. Show them the best way to use their talents and opportunities to honor and serve You. Lord, keep them from being so mired in political gridlock that they fail to do what is best for this land we love. May they speak today words that are constructive and helpful, bringing encouragement, as well as vision, to their work. Let Your glory be seen in this place.

We pray in Your holy Name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable KIRSTEN E. GILLIBRAND led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

To the Senate:

DANIEL K. INOUE,
President pro tempore.

Mrs. GILLIBRAND thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. REID. Madam President, following leader remarks, the Senate will be in a period of morning business for up to 4 hours. The reason for that is we have been on a Defense bill for a considerable number of days, and people haven't had the opportunity to come to express their views on a number of different issues, so we are going to extend that morning business for a longer time than normal.

Following morning business, about 2 o'clock, we will begin consideration of H.R. 6156, the Russia trade bill. We hope we are able to complete action on that matter today.

DISABILITIES TREATY

Mr. REID. Madam President, across the country Americans are lamenting the lack of progress in negotiations to avoid a massive tax increase on middle-class families, and I share that frustration. But for insight into why negotiations have been difficult, consider yesterday's failure of the disabilities convention at the hands of the tea party. This shouldn't have been a battle, but extreme elements of the Republican Party picked a fight when there was nothing to fight about. Thirty-eight Republicans voted against the convention, including several who were

on record supporting it, even cosponsored it. This treaty, already ratified by 125 countries, would hold foreign nations to the same high standard and treatment the United States already maintains for people with disabilities.

It would safeguard American citizens traveling, working, and serving abroad, and that is hundreds of thousands of people right now. The treaty has the support of veterans groups, disability groups from around the country, virtually all of them. It wouldn't cost the taxpayers a single penny. It wouldn't require any changes to existing United States law, and the issue is as bipartisan as they come.

Here is what one Senator said about the treaty:

Protecting the rights of persons with disabilities, any person's, is not a political issue. It is a human issue, regardless of where in the world a disabled person strives to live a normal, independent life where basic rights and accessibilities are available. Disability rights and protections have always been a bipartisan issue and ratifying this treaty should be no different.

This wasn't some ultraliberal speaking, it was Senator JOHN MCCAIN, a disabled veteran, a hero from the Vietnam conflict, who broke with extremists and tea partiers and voted to ratify the treaty.

The convention also has the strong support from a number of other leading Republicans, including George H.W. Bush, the first President Bush. He, by the way, of course, was a World War II veteran and did heroic things during that war.

It also has the support of former Senate Majority Leader Bob Dole, certainly a patriot. Senator Dole, a disabled veteran from World War II, who led the fight to pass the treaty, was here yesterday urging Republican support.

Think about that. Robert Dole, who was grievously injured in World War II, spent more than 2 years in a hospital, came to this Senate floor, and the first speech he gave was on disabilities. We

need to do something about it. He was here leading the fight to pass the treaty, urging Republicans to support it.

A few Republicans greeted him as he was in his wheelchair here. They greeted this 89-year-old war hero—I repeat, a patriot—who just last week was in Walter Reed Hospital. Then one by one all but a handful of them voted against the treaty, ensuring its failure. But their professed reasons for opposing it had no basis in fact—none.

Most Republicans acknowledged that. Some used an excuse, well, it is a lameduck, we shouldn't be doing it in a lameduck. I mean, wow.

There is no justification for sending a message that every individual around the world who strives to lead a productive life in spite of a disability does not deserve the same just treatment. There is no justification for telling disabled Americans, especially those who have sacrificed their bodies for our freedom, our veterans, that they don't deserve the same protections abroad they do here at home. Yet that is the message 38 of my Republican colleagues sent yesterday.

TAX INCREASES

These are the same Republicans with whom Democrats are supposed to reach an agreement to protect middle-class families from a tax increase. It is difficult to engage in rational negotiations when one side holds well-known facts and proven truths in such low esteem. Hopefully, compromise is not out of reach, but as negotiations continue, I hope my Republican colleagues will keep in mind the oft-repeated words of Senator Daniel Patrick Moynihan who said, You are entitled to your own opinion, but you are not entitled to your own facts.

I know how high the stakes are. The days run short. There is still a quick, easy way out of this. The House must take up the Senate-passed middle-class tax cut. A few reasonable Republicans who are left agree we need to give certainty to middle-class families now.

Yesterday OLYMPIA SNOWE, a very courageous legislator for more than two decades, who is retiring, said Congress should fight about tax rates for the top 2 percent after we have reassured the middle class. Americans "should not even be questioning that we will ultimately raise taxes on low-to middle-income people." That is her quote.

People are questioning this. If House Republican leaders allow a vote on our legislation, it will pass; every Democrat will vote for it. It will only take 26 Republican votes. It is a huge body, 435 Members. We only need 26 Republicans for this to pass. I know there are 26 Republicans who would vote for this. We have one conservative Republican serving in the House who has said more than half would vote for it. I believe there are 26 reasonable Republicans willing to put their promise to serve constituents ahead of their pledge to serve Grover Norquist.

So I say to my friend, JOHN BOEHNER, in the House of Representatives, you

control matters on the floor. No one else does. You have the ability, and you are the only one who has the ability, to put this on the floor for a vote.

He should do that. That would be the American way.

RESERVATION OF LEADER TIME

Mr. REID. Would the Chair announce the business for the day?

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore.

Under the previous order, the Senate will be in a period of morning business for up to 4 hours with Senators permitted therein up to 10 minutes each, with the majority controlling the first 30 minutes.

Mr. REID. Madam President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Ms. STABENOW. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The Senator from Michigan.

THE FISCAL CLIFF

Ms. STABENOW. Madam President, I rise today to once again speak about the fact that in July, July 25 of this year, the Senate passed a middle-class tax cut bill guaranteeing that the first \$250,000 dollars of income any American has would be exempted from any tax increase. We all know that the vast majority—in fact 98 percent—of Americans, makes less than that amount of money. We are talking about 98 percent of Americans receiving tax cuts under that proposal.

Back in July we passed this proposal, and it is now still waiting in the House of Representatives. So far the House leadership has refused to even let the bill come up for a vote, even though we all know that there is a majority of Members in the House who would vote for this and guarantee that as we go into Christmas, middle-class families across America would know they would have \$2,200 in their pockets, more in their pocket right now, next year, than they will have if their tax cuts expire. We have passed this bill, and we are urging the House of Representatives to do the right thing and to pass this bill.

Even Republicans in the House say they support this effort. We all know that Representative TOM COLE from Oklahoma said last week, "I think we ought to take the 98 percent deal right now." It is a pretty good deal.

Let us start. We know we have a large deficit reduction effort that

needs to take place. There is a lot of give and take that needs to take place. We know what the elements are. But let us do step one, which is something overwhelmingly we agree with. The Senate has passed it on a bipartisan basis. There are enough votes in the House of Representatives. Let us get that piece done and not hold middle-class families hostage to the idea that the wealthiest among us should get additional tax cuts. Let us agree that 98 percent of families in America should be secure in knowing they are not going to have \$2,200 more taken out of their pockets next year.

Now, we have just a few days to get this done. In fact, right now we have 27 days until middle-class taxes go up. In 27 days, we will see taxes go up for middle-class families. So this needs to get done now.

There are numerous House Members now agreeing with us—Republican House Members—and I commend them. In addition to Representative COLE, Representative WALTER JONES from North Carolina said yesterday that he would vote for the Senate's middle-class tax cut bill. Representative STEVE LATOURETTE, Representative CHARLES BASS, Representative MARY BONO MACK, Representative MIKE SIMPSON, and Representative ROBERT DOLD have all said the Senate plan is a responsible approach that protects middle-class families from a massive tax hike.

We now have a situation where the Democratic leader in the House is putting forward what is called a discharge petition. As our distinguished Presiding Officer knows and as I know, having been House Members, if a majority of the House signs a petition, that can essentially force a vote even if the Speaker and the Republican leadership don't want to bring it up.

I am hopeful that 218 Members on both sides of the aisle will sign this petition and that we will be able to guarantee before Christmas that middle-class families across this country are not going to have to worry about spending \$2,200 more on taxes next year. We need to get this done, and I am hopeful that the House Members will sign that discharge petition if the Speaker does not take this up.

What does this \$2,200 mean? It is the difference between paying the bills or not. It is the difference between getting ready for Christmas—buying the tree and the decorations and the presents. So many families these days are back doing layaway, which, for me, when my kids were little and we were trying to budget and figure out how to do things, meant picking out something back in September or in the summer and putting it on layaway and hoping to pay for it so the kids would have the Christmas I wanted for them. Families are doing that today, budgeting every single dollar to make sure they can provide the Christmas they want for their children. As they are budgeting all that, they need to know

they do not have to budget a tax increase starting in January, which is what will happen if the House doesn't act within the next 27 days.

One constituent of mine indicated to me that \$2,200 was 4 months of her grocery bill. That is a lot of money. We are talking about 4 months of her family eating. We have also figured out that \$2,200 would buy 650 gallons of gas. For the average commuter, that is enough gas to get back and forth to work every day for 3 years. That is a lot of money—\$2,200, 650 gallons of gas. And \$2,200 will buy families in Michigan 550 gallons of milk for their families. So we are talking about a significant amount of money for the average middle-class family, those aspiring to get into the middle class, and those struggling across the country. This is a lot of money for the families we are talking about.

The Republicans in the House can stop this tax increase if they want to. They have 27 days to do it, 27 days to stop a tax increase on middle-class families, 27 days to stop an increase and make sure \$2,200 more is not taken out of the pockets of families next year.

Let me stress again as well that we are talking about middle-class tax cuts that would allow every American to get a tax cut on their first \$250,000 of income. For the majority of people—98 percent of Americans—that is their income, or less. They do not make more than \$250,000 a year. But for everybody who does, it would continue to make sure their taxes don't go up.

For those above that, we would say: You know, for the last decade you have had extra tax cuts, and we are going to ask you now, in the face of the largest deficits our country has ever seen, to do your part, to share in solving the problem.

I know an awful lot of people who are ready to say: Absolutely. I want to do my part.

That is what we are talking about—those wealthiest few being at the table to do their part so we can solve the biggest deficit crisis we have had as a country.

So we are talking about every American earning \$250,000 or less or earning an income of \$250,000 or less being exempt from tax increases, and that covers, as I said, 98 percent of Americans.

There is agreement on both sides of the aisle. I congratulate and appreciate very much Senator SNOWE's comments in which she indicated we should just get this done. She said Americans should not even be questioning that we will ultimately raise taxes on low- to middle-income people. We should take it off the table while grappling with tax cuts for the wealthy.

I couldn't agree more. We are going to miss Senator SNOWE in the Senate. She, as usual, is right on the money in terms of the common sense of this situation.

In July the Senate passed a middle-class tax cut. I believe we now have a

majority in the House of Representatives, on a bipartisan basis, believes middle-class taxpayers should get tax cuts next year. The House needs to bring it up and vote on it now so we get that off the table. That is step one.

Then, of course, we have larger issues on which we have to agree. We have to sit down and come together on those issues. Last year we agreed on \$1 trillion in spending reductions. This step gets middle-class taxpayers off the hook, being held as pawns, held hostage to whether the wealthiest among us will get additional tax cuts next year. Let's just say middle-class families get \$2,200 next year, they get to continue their tax cuts, and then we will go on to the next step.

It seems to me—and we certainly saw this as we were doing the farm bill—you don't have to agree on everything to do something. You start with what you agree on. Everybody says they agree middle-class families in this country should get tax cuts next year and beyond. Then let's just do it. What are we waiting for? Let's do that, and then we will look for the next set of issues we can agree on to solve the large problems we have in terms of our fiscal situation and economic growth, by the way, because we will never get out of debt with 12 million people out of work. So we better continue to be focused on jobs, which I know is a huge focus for our caucus—making sure people can lift themselves out of poverty into the middle class and have the opportunity for good-paying jobs for themselves and their families.

So we have a lot of issues to talk about, but since everybody says they agree middle-class taxpayers should not get a \$2,200 tax increase next year, why don't we just do that? We shouldn't have to run the clock out and get closer and closer to the holidays, closer and closer to Christmas, with families not knowing what they are going to have to budget for next year. Let's just do it and let families know we can actually work together and get things done because that is really what people are asking us to do.

I believe that is the message of this past election, that people want us to sit down and be reasonable and work together. They also sent a message through the reelection of our President, who campaigned saying the wealthiest among us should be part of solving the problem and can afford to pay a little more to make sure we are not asking middle-class families to bear the entire burden of resolving the deficit in our country. The President won. The public said: Yes, that makes common sense. Everybody ought to be participating, not just middle-class families or senior citizens, who have been hit the hardest in the recession. With everything that has happened in the last decade, they have been hit the hardest or carried the brunt of it.

We are simply saying: You know what. Everybody ought to be in this. As Americans, we all benefit from this

great country, the blessings of this country, and everybody ought to be part of the solution.

So I believe that was a very strong message. I believe it was a very strong message to say people want us to work together.

I also know, in looking at the proposal the Speaker has given, it is a nonstarter, saying we are taking off the table any effort that would stop more tax cuts for the wealthiest among us, and instead what we want to focus on is closing loopholes and deductions, because that falls right back to the middle class again—home mortgage deduction, college deduction, the mortgage tax relief bill I have which makes sure that in a short sale or another situation where a family is coming to some agreement with the bank on loan forgiveness, they do not pay taxes on that as income. So we have a whole range of what they call tax deductions they can close that fall smack-dab on the middle class, and that is a nonstarter.

In conclusion, let me say once again that we have 27 days to stop a tax hike on middle-class families across America—\$2,200 that will hit people next year. It makes no sense. If they pass the Senate bill, they will be guaranteeing that 98 percent of American people don't have a tax hike. We need to get it done, and I would urge in the strongest possible way that the Speaker bring this up right away and pass it.

I thank the Chair.

The ACTING PRESIDENT pro tempore. The Senator from Illinois.

Mr. DURBIN. Madam President, I wish to thank the Senator from Michigan for her leadership on this issue—21 days until Christmas, 27 days until “cliffmas.” That is the fiscal cliff—December 31—and people are counting down. Two-thirds of Americans are watching this debate on Capitol Hill because it affects every single family, every individual. One has to think, could Congress possibly step back and let taxes go up on working families? What are they thinking?

We know what working families are dealing with. Many working families across America struggle paycheck to paycheck. The Pugh Institute did a study last year and asked working families how many could come up with \$2,000 in 30 days for an emergency expenditure. It is easy to imagine one—a car repair, a quick trip to the hospital emergency room costing \$2,000. Only half of working families could come up with \$2,000 in 30 days. That shows how close to the edge many people live. And now we have before us the possibility that these very same families struggling with these issues are in fact going to see their taxes go up on December 31.

There is one person who will decide that: Speaker JOHN BOEHNER, the Republican Speaker of the House of Representatives. Now, why am I putting all this on poor JOHN BOEHNER, a Congressman from Ohio, from a working

family himself? Well, because it is within his power to call before the House of Representatives a measure that passed the Senate last July. We passed on a bipartisan vote a measure to protect all families making less than \$250,000 a year from any income tax increase on December 31. We sent it over to the House of Representatives in July. Speaker BOEHNER has refused to call up this measure that would protect working families. As a result, if he does nothing, their tax bill will go up \$2,200 next year. How do you explain that? It is not only unfair to those families who are working and struggling, it is really not good for this country. All of us know the issue of income inequality. How many working families are falling further and further behind every single year despite their best efforts, despite their hard work? We also know that many families are looking ahead and wondering how in the world they are going to pay for a college education for their kids or maybe even stay in their homes.

Those are life-and-death, day-to-day, paycheck-to-paycheck decisions families face. And let me be even more specific. The failure of Speaker JOHN BOEHNER to call this bill for a vote in the House of Representatives before December 31 endangers our economy. That is right. The failure to pass this bill in the House of Representatives before December 31 will endanger our economy. Why? Because we are in the midst of recovery from a recession. People are getting their jobs back. Businesses are getting a little stronger. But if Speaker BOEHNER refuses to call this bipartisan measure that passed the Senate and we see a downturn in consumer confidence because people think their taxes are going up, if we see a downturn in consumer purchasing because people aren't sure about that next paycheck, then we are going to see a stall in this economy. It will be Speaker BOEHNER's stall, and it is not something he should take lightly.

This is a delicate recovery moving in the right direction, but if it is going to gain strength there has to be some certainty, and it should start with the passage of this measure.

The House Republican leadership is bargaining with the President now. The President said the wealthiest among us who have realized the American dream should be willing to pay a little bit more so others get a chance at the American dream. That is not unfair. I think many of us who came from working families and have done well with our lives believe, yes; we owe it to our kids and we owe it to the next generation to give them a fighting chance. If that is going to happen, then Speaker BOEHNER and the House Republican leadership have to take this very seriously very quickly.

I understand the pressure the Speaker is under, and I guess my colleague, Senator MCCASKILL of Missouri, said it very concisely and effectively last Sunday on one of the talk shows. She said

it is a hard political choice for JOHN BOEHNER. He has to decide what is more important, the survival of his speakership or the survival of this Nation. That is a pretty stark choice but not a hard choice for a real leader.

I will say this to Speaker BOEHNER: If you step up and do the right thing for the working families across America, if you step up and do the right thing for this country, Democrats will stand with you on a bipartisan basis to make it happen. That is the only way we are ever going to achieve the right result in this debate over the fiscal cliff.

So we call on Speaker BOEHNER: Before you go home to relax in Ohio for Christmas, let families across America relax knowing that they are not going to see their income tax rates go up on January 1. This is worth \$2,200 to the average family in my home State of Illinois. And I say to the Speaker, it is worth that to families across the United States. For the good of this Nation, for the good of the economy, for the good of these working families, for goodness' sake, pass this measure, this bipartisan measure that passed the Senate last July. Get this part done. We can debate the rest, but give peace of mind to these working families and middle-income families so that tomorrow they are not going to see their income taxes go up.

DISABILITIES CONVENTION

Madam President, it was a disappointing day yesterday when the Senate failed by five votes to pass the convention on disabilities. It is a measure I worked on with former California Congressman Tony Coelho, who has been an outstanding advocate for the disabled in America throughout his career in the Congress and Senate. But it was also an effort for one particular friend in Illinois, Marca Bristo.

Marca is an exceptional person, confined to a wheelchair, but one would never know it. This woman is everywhere, all the time, working night and day to help the disabled in my State and around the Nation. She came to me as well and said: Can you help pass this convention on disabilities?

I said: It is going to be hard because a lot of Members just don't want to take up a measure and consider something like this.

She said: We will put together a strong group supporting it.

When it was all over, virtually every veterans organization in America supported this convention on disabilities. In addition, every disabilities group also endorsed it—the chamber of commerce and so many others—because 125 nations have already ratified this convention on disabilities.

What is it? It is a treaty that was drawn up by President George Herbert Walker Bush and signed by him but needs to be ratified by the Senate, and we failed to do it. Years and years have passed since President Bush, and we haven't taken it up. One hundred twenty-five nations took it up and passed it but not the United States.

There was one real champion for this, and he came to the Senate floor yesterday. It was good to see him again—what an outstanding man and individual—Senator Robert Dole. We have had our differences politically, but I am an admirer of Robert Dole and what he has given to America.

A disabled veteran from World War II, he came back having been shattered by that war and built a life of public service that he gave to the people of Kansas and here in the Senate Chamber. He and his wife, former Senator Liddy Dole, came to the floor of the Senate before the vote. They were just over here in the well. I looked at him and I thought: We have to do this for Bob Dole. This man speaks for disabled veterans and the disabled community. He was with Senator TOM HARKIN, one of the lead persons when it came to passing the Americans with Disabilities Act 22 years ago.

It was a solemn moment in the Senate, with Senator Dole sitting right there in the well begging his colleagues to pass this disabilities convention, maybe his last lobbying effort that he would undertake. It meant so much to the Dole family and to Robert Dole, and he came to the floor and we called the measure. Those who witnessed it will remember that most Members came and sat in their chairs to cast a vote, which is rare here, and it tells the story that this was more than just an ordinary routine vote.

We listened as the rollcall was made, and we watched the Senators stand and vote. Then toward the end, I turned to TOM HARKIN sitting over here and said: We don't have it. We missed it.

We did. We failed to ratify this by five votes. We had 61 votes, and we needed 66, because Senator KIRK is absent because of illness. Sixty-six votes were needed to pass this.

There were only eight Republicans who would stand with all of the Democrats to pass this convention on disabilities. Senator JOHN MCCAIN led that effort—JOHN MCCAIN, a person who knows the cost of war and the price that is paid and who showed extraordinary political courage. Senator JOHN KERRY also joined him, another Vietnam war veteran who stood up for these disabled veterans, for their conflict and World War II and Korea and so many others.

What a disappointment. What a disappointment that the Senate, which on a bipartisan basis passed the Americans with Disabilities Act with more than 90 votes 22 years ago, couldn't even ratify this treaty which would not change a single law in America, which would not infringe on our freedoms in any way—that we couldn't pass that on the Senate floor. What a sad testament to what has happened to the Senate in the last two decades that a man like Bob Dole would witness this. I am sure it broke his heart. It broke mine too.

I went out afterwards and saw the disabled gathered in the lobby out here. Many of them were crying. They

couldn't believe it. At a time in America when we are giving the disabled chances they have never had, opportunities they have deserved for decades and generations, that we would turn down this convention on disabilities here—it was a sad moment in the history of the Senate that only eight Republicans would join every Democratic Senator in voting for the ratification of this treaty on disabilities.

Some of these colleagues may have another chance. Maybe next year we will have another go at it. I certainly hope Senator Dole will be here to join us and see that happy day. But yesterday was a sad day for the Senate and a sad day for our Nation.

We owe a debt of gratitude to the disabled who work so hard, to the disabled veterans who testified and worked so hard for the passage of this treaty, and we owe it to them and the disabled around the world to give them a chance—a chance for an opportunity which has become the law in America and needs to be the law across this Nation. Whatever the petty political squabbles were that led to this vote yesterday, we need to put them behind us. It is important for us in the 21st century to speak as one on a bipartisan basis for the disabled.

Madam President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Utah.

Mr. HATCH. Madam President, in less than 1 month American taxpayers face the greatest tax increase in our Nation's history.

Two years ago the President and the Senate Democrats opted to postpone these tax increases for 2 years. They did so knowing that raising taxes in a weak economy is an unnecessary and counterproductive jolt to the system. Forty Democrats supported doing that.

Since then, however, the President has been single-minded in arguing for tax increases on certain wealthy taxpayers. He and his Democratic friends promoted these tax hikes in the name of a so-called balanced approach to deficit reduction. Now, with the country fast approaching the fiscal cliff, it is time to pay the piper. But as the President issues ultimatums about what kind of tax increases are necessary to avert the fiscal cliff, it is worth noting that he has abandoned any pretense of seeking a balanced approach to deficit reduction.

Last week's proposal from the White House amounts to little more than a massive set of tax increases—by the way, far in excess of the tax hikes he ran on or anything that Senate Democrats would support, coupled with new spending. Even Democrats don't support what he called for. And his response to Speaker BOEHNER's balanced plan is raise taxes today, and next year we will come back and discuss raising taxes again.

The President's commitment to a balanced approach to new tax revenue and spending reforms has morphed postelection into new tax revenue and

increased spending. To cap it off, they have thrown in a fresh demand that would eliminate any limit on the Federal debt.

The proposal outlined by Treasury Secretary Geithner last week shows that, if given a chance, Democrats will never use new taxes to reduce the deficit. They will instead use it to pay for larger government, more public workers, and more government waste.

We need to have a serious conversation about our Federal debt, which is now over \$16.3 trillion and going up every day. How do we get that number under control? The President and his Democratic friends have suggested for years that they can do it on the revenue side specifically by taxing the wealthy. Yet the new taxes on the rich promised by the President during the campaign would reduce the next 10 years' of deficits by only 8 percent, assuming they didn't do any more spending.

So where is the rest of the money going to come from? We need to have a serious conversation about spending, but so far the President, congressional Democrats, and the liberal interest groups who support them have refused to engage.

All I can say is that Republicans are here, and we are ready to talk. We are ready to reach a balanced resolution that would spare the American people from the consequences of going over the fiscal cliff.

I have only been here 36 years, but I have seen every President willing to meet on a regular basis at budget crunch time with people on both sides of the table over and over and over until they gradually whittle it down to where they can agree. I haven't seen that with President Obama. I have even heard Democrats complain that he never talks to them.

We cannot do this kind of work without very strong Presidential effort. That is what Presidents are for. And it can't just be laying down a gauntlet or saying: You can't cross over that, drawing a line in the sand. You have two programs now, and those two sides need to get together. That includes the President and whatever Democrats he cares to put in the equation, and also Speaker BOEHNER, Leader MCCONNELL, and others.

As we attempt to reach a meaningful resolution of this debate in the coming weeks, there are three guideposts that I will keep in sight.

First is the cliff itself. Going over it would be the height of irresponsibility. According to the Congressional Budget Office, going over the cliff will reduce GDP to a negative one-half of 1 percent next year, throwing us back into a recession and causing unemployment to surge to 9.1 percent or more. But it seems increasingly clear that the President and Democrats in Congress are content to go over the cliff regardless of the outcome. I can't believe that is so, but I have heard them say it. They think they will have an advantage if we go over the cliff.

Well, I hate to tell you, there will be no advantage to that. Leading Democrats have expressed on several occasions their openness toward going over the cliff. The question is, Why? Why would the President do this? Why would Democrats jeopardize the livelihoods of hundreds of thousands of American workers and the economic security of their families? Why are they putting raising tax rates on a few ahead of the well-being of all?

Republicans are working to avoid this outcome. We want to avoid raising tax rates because we know once they are raised they will stay there or there will be another demand next year to raise them higher. We have a good argument for that. We believe it hurts the economy by harming incentives to work, save, and invest.

Republicans have expressed some willingness to work with the President to raise revenue without raising tax rates, but the President refuses to budge. After all, he argued during his reelection that the deficit reduction math does not work otherwise.

This leads me to my second guidepost in this debate. It is the President's math that does not work, and his math is off in a multiplicity of ways. Let's start at the beginning. Last year's deficit was \$1.3 trillion. Next year's deficit is likely to exceed \$1 trillion for a fifth year in a row.

So what would the President's tax hikes proposal raise in terms of revenue? What would it have done to last year's \$1.3 trillion deficit, and what would it do to reduce our debt over the long term? If all of the 2001 and 2003 tax relief were to expire, it would reduce the deficit by \$426 billion over 1 year.

To put it another way, the full extension of the current bipartisan tax relief would cost \$426 billion over 1 year.

Now, that is a lot of revenue. But the President and congressional Democrats—or at least most of them—have no desire to see all of this tax relief expire. In fact, their plan, should we go over the cliff, is to reinstate almost all of it. They say they only want to raise taxes on the rich.

So how much would it cost if we extended current tax relief for everyone but those making over \$250,000, which some have said is the line for being rich? Assuming the estate tax stays where it is—a fair assumption, given the level of support for that policy even among Senate Democrats—the cost of extending all of the tax relief except for those individuals would be \$358 billion. And given that certain Senators from high-income blue States are uncomfortable designating families making \$250,000 a year as rich, it has been suggested that the current tax relief might be extended for everyone but so-called millionaires. Warren Buffett has said those earning \$500,000 a year or more, but others have said millionaires. And how much would that cost? The 1-year cost of that tax relief would be \$383 billion.

There are a few different ways we can look at these numbers. One way is to

compare the cost of the Democrats' tax plan with that of the Republicans'. The 1-year difference between the Republican proposal of extending all tax relief and the Democrats' proposal to raise taxes on the rich is, at most, \$68 billion and perhaps as low as \$23 billion. With the deficit over \$1 trillion, is the President willing to send us over the cliff for as little as \$23 billion in additional revenue? I cannot believe he is, but he is.

Another way to look at the numbers is to compare the cost of the Democrats' actual plan with the President's stated desire to raise revenue by \$1.6 trillion. He cannot get that from just the rich. Even if he took every dollar every millionaire earns this next year, he probably would have a little less than \$900 billion. That may be high.

I look forward to some enterprising reporter getting to the bottom of this one. The President says he wants to raise taxes by \$1.6 trillion and his Treasury Secretary suggests Democrats are on board with this strategy. I do not believe that for 1 minute. I don't believe his program would pass the Senate, and I don't think many Democrats would vote for it. I know at least 20 who will not. Yet the revenue generated by the proposal supported by real live Democrats seems to raise only between \$353 billion and \$383 billion.

Here is the question: Where is the President going to come up with another \$1.2 trillion or so in tax increases that his fellow Democrats will support? We have seen three budgets the President has sent up, and they have not received one vote from either Republicans or Democrats—not one. Where is the President going to come up with another \$1.2 trillion or so in tax increases and be able to get Democrats to support him? I do not mean supported by Democratic pundits; I mean supported by the 20 Democratic Senators who will be facing their constituents in 2014. The \$1.6 trillion tax increase is lifted from the President's own budget that has been rejected on a bipartisan vote—100 percent in both the House and the Senate—and that budget received no votes at all, Democrat or Republican, in either the House or the Senate. As I said, it is the President's numbers, the numbers Secretary Geithner sent here last week to promote that do not add up.

The President's insistence on a \$1.6 trillion tax hike that is neither supported by the American people nor even elected Democrats is not about deficit reduction. The President and congressional Democrats think they can bludgeon Republicans as an out-of-touch party of the rich because we support tax relief for everybody.

Let me say a few words in our defense. First off, and I want to say this loudly and clearly: I could not care less about the financial well-being of the Nation's rich. Whether Warren Buffett is able to maintain his corporate jet is no concern of mine, although he is a friend. The continued ability of actors

and entertainment industry executives to summer at Lake Como and winter at Saint Kitts is not on my list of priorities. In fact, I believe when we do finally engage in fundamental tax reform it is worth our while to look at how these superrich are sheltering their wealth from the full burden of income taxation while the middle class continues to suffer on both the income tax and increasingly the alternative minimum tax, which is going to hit about 28 million regular people who are not millionaires on January 1, if we go over the cliff.

Still, I, along with most of my Republican colleagues, continue to promote the seamless extension of current tax policy. That is because of the impact of increasing marginal rates on small business owners and the consequent impact on job creation and economic growth. We know it is going to hit approximately 1 million small business owners very hard; most of whom put their money back into the business so they can grow it and hire more people.

Republicans support low marginal rates because we know that by raising rates we hamper the efforts of investors, small business owners and, most importantly, the American workers they employ. Republicans are averse to rate hikes that would have a detrimental impact on people's livelihoods. We are averse to rate hikes that would undermine the prospects of fundamental tax reform that promotes fairness and economic growth, and we are certainly averse to a discussion about increased revenue in the absence of serious talk about spending reform—something that is not, except in minuscule ways, in the President's suggestions.

We keep hearing Republicans are dug in on the issue of taxes and that their resistance to increased revenues has been holding back the big balance deal set by the President. This has to be one of the most misreported stories in my memory. Many Republicans have stated openness to increased revenues. There is a difference between revenues and tax rate increases that we Republicans continue to point out. But we are only willing to be open to increased revenues as part of a balanced deal and only if revenue increases are coupled with entitlement spending reform.

This brings me to my third guidepost for this debate. The President has shown a real stubbornness toward any reform of the spending programs that are the main drivers of our deficit and debt. We hear constantly about the intransigence of Republicans with their antitax rate increase views. Yet we do not see the same front page stories documenting the over-my-dead-body resistance of Richard Trumka, the head of the AFL/CIO, and the head of the AARP toward entitlement spending reform which everybody knows we have to do if we are going to keep Medicare going. I don't think there is anyone in this body who doesn't know that with-

in 10 years it will be broke, unless we make the appropriate structural reforms now.

The President continues to call for a balanced approach to deficit reduction, but in practice he is offering all tax increases and no spending discipline. He has offered nothing meaningful on entitlement reform. The proposal put forward last week by Secretary Geithner was embarrassing.

I happen to like Secretary Geithner. I stood up for him under some trying circumstances on the Finance Committee before he was approved by the Senate. I did it because I believe he is a hard worker. I believe he is an intelligent man, and I personally like him. But, my gosh, if I were the Treasury Secretary and the President gave me that plan to go and show it to the leader of the House, the Speaker of the House, I would have said: No, Mr. President, you can't do this. This is an insult. If the President said you have to do this for me, I would say I think it is better for me to resign at this point.

It is embarrassing. I think Secretary Geithner knows it. If he does not, then he is not the man whom I have always thought he was. That proposal did nothing to address spending, aside from wanting to increase it. But that is where the Democrats are.

I understand the Democrats' predicament. Right after the election it appeared the door was open. The President seemed willing to address tax revenue in a responsible manner, a manner respectful of the legitimate concerns of the House majority and the 62.6 million individuals who did not vote for him. But within 1 week he was read the riot act by the unions and the AARP, who will resist any meaningful changes to the retirement spending programs that are now bankrupting our country.

Later this week I will outline a series of entitlement changes that could and should be supported on a bipartisan basis. The President told the American people he wants a balanced approach. My hope is the President comes forward on his own with his own details on how he would fix the entitlement spending programs; I mean real details on real proposals with real teeth, not the window dressing in the President's budget that even the Democrats reject and have rejected in the past.

The President has demanded a balanced approach. It is what he promised the American people and it is what we Republicans are prepared to give him. If the President wants to avoid going over the fiscal cliff, he can steer us away from it. The special interests and his liberal base will no doubt cry foul, but they will follow him if he will lead, and I don't see the leadership, between you and me.

Not to put too fine a point on it, but if we go over the cliff, it will be because the President wanted it to happen and he thinks he will get political points for doing it. With the Main

Street media, it is likely they will ignore the actual facts. Even though the President will never again run for any public office, he will have put cheap political points ahead of a reasonable deal he claims to support.

This is deeply cynical, and the President should understand that when the history of this episode is written, he will be portrayed not as a strong leader but one who wilted in the face of our generation's greatest challenge, caving in to the special interests over the well-being of the country. When he faced the choice of tough statesmanship or easy accolades from his household cable news network and a dead-ender base, he chose the latter.

I think it is time for the President to start leading and to put away his campaign talking points and talk to us rather than talking from a toy factory and trying to make his points. He needs to put away his campaign talking points, and he needs to engage in finding a balanced solution to our debt crisis. He needs to lead the country, and he needs to protect American small business, their workers, and their children from an increasingly dim fiscal future.

I am concerned about it. As I study it, the difference between the President's plan and what Senator McCONNELL and I have suggested, putting it over for 1 year and giving us 1 year to dedicate that to tax reform, the difference is about \$23 billion. At the most, it is \$68 billion. We are going to go to the cliff, \$23 billion? We would have to be nuts, even if our illustrious media will cover it up.

I yield the floor.

The PRESIDING OFFICER (Ms. KLOBUCHAR). The Senator from Iowa is recognized.

RULES OF THE SENATE

Mr. GRASSLEY. Madam President, there has been a lot of discussion lately about how the Senate is not working properly. This is evident to even a casual observer. On the other hand, to understand how the Senate was intended to work and what has gone wrong requires some knowledge of the history and the rules of the Senate. I would put more emphasis upon the history than the present rules of the Senate, particularly the history and purpose of the Senate expressed in the Federalist Papers by the people who were advising the States at that point, the colonies, to approve the Constitution.

To many people, this subject, no doubt, seems arcane and confusing. The simplistic explanation we get from the other side of the aisle—and it is a steady drumbeat—is that Republicans are filibustering everything just willy-nilly; thereby, grinding the Senate to a halt.

Various vague and nefarious motivations are suggested as to why Republicans would do such a thing, but the point they want Americans to take away is that Republicans are abusing

the filibuster. This message has been repeated ad nauseam by Democrats in the hope it will sink into the public's consciousness by rote. In fact, the story goes that Republicans have so abused the filibuster, the Democrats have no choice but to take it away, even if it means violating the Senate rules in order to change the rules. Can you imagine a political party saying it is OK to ignore the rules or to change the rules?

In order to discuss this topic, it is very important to establish what we mean by the word "filibuster" and how it fits into how the Senate operates today and has operated historically. I hope everyone will bear with me as we try to understand this because I ultimately want to get down to how the proposed changes to the Senate rules threaten the very principle underlying our system of government, particularly the checks and balances within our system of government.

First, I have a legitimate question: What is a filibuster? We talk about it so much that we would think it referred to a very specific activity that is easily understood by everyone. It can actually refer to different types of activities. Of course, this leads to confusion, and that confusion is reflected in some of the speeches from colleagues on the other side of the aisle, intentionally or not.

When most Americans think of a filibuster, they probably think of Jimmy Stewart in the classic film "Mr. SMITH Goes to Washington," standing and talking without stopping for an extended period of time to delay proceedings and to take a lot of theater just to make a point. This is the classic understanding of a filibuster. Unless all Senators have agreed to waive Senate rules, it is a fact that a Senator who has been recognized to speak may retain the floor as long as he continues to speak. This is the basis in the Senate rules for a classic filibuster, but this is not the rule some Democrats want to change.

When the Members of the majority party complain about how many filibusters the Republicans have engaged in, they actually mean how many times the Senate has voted on a motion to bring debate to a close, and that motion is called the cloture motion. When debate comes to an end, it also means no more opportunities for amendments. If Republicans don't agree to end debate and force a final vote when the majority leader decides we should end debate and vote, he calls that a filibuster. In fact, even when every single Republican votes in favor of ending debate, he still calls it a filibuster. It ends up in those statistics that add up to numbers that are not very intellectually honest. Think of Republicans voting in favor of ending debate and it is still called a filibuster.

We just voted a day or two ago, 93 to 0, to end debate on the Defense authorization bill. Is he still going to call that a filibuster as well? How can he

accuse Republicans of filibustering when he is the one who made the cloture motion? This is a key point. When the Democrats talk about Republicans launching a filibuster, it is important to note it is the Senate majority leader who almost exclusively makes the motion to invoke cloture. I understand it takes a petition of 16, but not very many Senators I know ever initiate such a petition unless the Republican leader, when we are in the majority, or the Democratic leader, when they are in the majority, provoked that. This means the number the majority leader is so fond of quoting as a number of so-called Republican filibusters is the number of times he has attempted to shut down debate and block further amendments from being considered. Again, we are talking about a process launched by the majority leader intended to shut off debate and amendments, not some process initiated by Republicans.

If every time the majority leader made the motion to close debate we had been considering a bill for days or weeks with dozens of amendments and no end in sight, then there is a legitimacy to such a decision by the majority leader in the petition for cloture. He might then have a point. However, the recent history of the Senate cloture votes tells an entirely different story.

The majority leader has filed a motion to cut off debate in the same day a bill has been taken up over 220 times since he became majority leader. How can this be justified, considering the history of the Senate and given that it is a deliberative body? He certainly cannot claim Republicans are delaying action with excessive debate when he moves to cut off debate before that debate has ever begun. As I said, by forcing a final vote, a cloture motion also ultimately cuts off the amendments.

The right of a Senator to offer an amendment for consideration has been enshrined in the Senate rules from the very beginning. It is true that about half the cloture votes I cited were on the motion to proceed to consider a bill which is before the stage where amendments can be offered. I will say more on that point later. However, the majority leader has moved to cut off debate on amendments on a measure other than the motion to proceed over 100 times. In my judgment, he can hardly claim Republicans forced his hand by offering too many amendments when few, if any, amendments have even been considered when he attempts to cut off amendments.

What is more, the majority leader has consistently used the tactic called filling the tree, where he offers blocker amendments that block any other Senator from offering their own amendments unless the majority leader or somebody speaking for him agrees to set aside a blocker amendment so the other Senator can offer an amendment. This way he is able to get in line first to put his blocker amendments in place

because of a tradition that the majority leader has priority to be recognized by the Presiding Officer. This doesn't happen to appear anyplace in the rules. In fact, the rules make very clear that whatever Senator seeks recognition first should be recognized and that any Senator has a right to offer an amendment. This so-called filling the tree tactic was relatively rare before Senator REID became majority leader, but he has made it routine.

Technically, some germane amendments can be considered during a short window after cloture has been invoked and before final vote. But by using the blocker amendment tactic, along with a motion to invoke cloture, the majority leader can block any Senator from offering any amendment while shutting off debate. That means the Senate would take a final vote on a bill without a single amendment having been offered.

The abuse of this tactic is at the heart of the Senate's current gridlock. This is confirmed by a chart—and I don't have a copy of this chart with me—published with a recent New York Times article. Here is what the caption said:

The use of filibusters has risen since the 1970s, especially when Republicans have been in the Senate minority.

That would tend to blame Republicans, but listen to the rest of this quote.

But the most recent spike of Republican filibusters has coincided with the Democrats' unprecedented moves to limit amendments on the Senate floor.

This doesn't even tell the whole story because much of the time the Senate majority leader doesn't have to actually use his amendment-blocking tactics. He simply informs Republicans he will block amendments or refuses to commit to allow Republican amendments before making the motion to consider a bill. In this all-too-common scenario, the majority leader tells the Republicans he intends to move to consider a bill and will immediately move to cut off debate on that motion. By the way, if we do vote to take up this bill, we will not be allowed to offer any amendments. So that kind of puts everybody on this side of the aisle in a take-it-or-leave-it situation. Why on Earth would Republicans take that deal and vote for cloture on proceeding to a bill on which we are told we will be allowed no input, contrary to the deliberative tradition of the Senate?

Just to be clear, some Democrats have proposed eliminating the filibuster entirely. Others have proposals to limit it in various ways. Majority Leader REID wants to start by eliminating it on the motion to proceed. But as we have seen, the real problem is the way Republicans have been blocked from participating in the process. If we are looking to reform how the Senate operates, maybe we ought to start by considering doing away with the tradition that the majority leader can block amendments. That is something which

is already contrary to the letter of the Senate rules.

Again, there is no doubt that the Senate is not functioning properly. However, the complaints I hear from Iowans are not that the Senate is considering too many amendments and working too hard to make sure the legislation we pass is worded properly. In fact, I hear quite the opposite. A great many Iowans have told me they are not happy with legislation being rammed through the Congress without their elected representatives even having an opportunity to read it. If Members of Congress don't have a chance to read a bill, we can bet the American public doesn't have a chance to understand it. I suppose that is fine if we believe we should pass a bill first and let the American people find out what is in it later, as Speaker PELOSI once famously suggested about the health care reform bill. We have to pass it, she said, and then we will find out what is in it. And then there is a rude awakening that now in this 2,700-page health care reform bill, we are finding out there are a lot of bad things in it, a lot of bad things that we warned the public about and warned the Democrats about as well. However, if one thinks, as I do, that we should be listening to those who elect us, one would have to conclude that a more deliberative process is needed, not less.

The rules of the House allow for quick consideration of legislation, but the Senate is supposed to be different and historically has been different. When the majority leader says the Senate is not operating efficiently, he means we are not approving the legislation he wants on the timetable he demands. The simple historical fact is the Senate is not designed for that kind of efficiency. However, for a period after the 2008 elections, the Democrats had 60 Members in the Senate. That is enough votes to shut off debate and amendments without a single Republican cooperating. Naturally, the majority party couldn't resist the temptation and shut Republican voices out of every aspect of the legislative process because they had the votes to do it. Not only did they use their supermajority to prevent Republican amendments on the floor of the Senate, but since they didn't need Republican votes to pass a bill, they cut us out of the process of developing the legislation.

In my experience as a former chairman and now ranking member, some of the best examples of bipartisanship happen at the committee level. The Senate committees are where Senators of both parties often work in a bipartisan way to delve into the details of the legislation and iron out imperfections. This is how most bills are supposed to be handled.

I often tell people who are cynical about all the partisanship they see on TV that there is a lot of bipartisan work that goes on that they never see because only controversial things get

on television. When a committee process is working and the Democrats and Republicans are working together to get a bill and everything is going smoothly, no journalist is going to pay any attention to that. But that goes on in the committee process, and that process can be dry and it can be technical. Senators of both parties sitting around a table discussing where to place a comma doesn't make the breaking-news alerts. Nevertheless, the committees are where much of the hard bipartisan work of the Senate is done.

In recent years the Democratic leaders prefer to write bills behind closed doors without Republican input. I suppose the health care reform bill is the best example of that, but there are others as well. They have then used a parliamentary trick to bring them right to the Senate floor. I suppose I shouldn't use the words "parliamentary trick" because there is a rule XIV, but that bypasses the usual committee process where we build consensus between the political parties. If Republicans are shut out of having any significant input on the front end and are blocked from having any amendments on the back end, is it any wonder we don't vote for the majority leader's motion to cut off debate?

Despite the bad blood caused by the tactics I have described, I had hoped and believed that after the 2010 elections, things would be different. When Americans elected Republicans to a sizeable majority in the House of Representatives—larger than any election since 1938—and at the same time enlarged our representation in the Senate to 47 Members, I thought the majority party would recognize that they had to work with Republicans. With 47 Members, it was no longer possible under the Senate rules for the majority party to shut Republicans out of the legislative process and still expect to ram their agenda through. So I naturally assumed the Senate would resume its usual tradition of bipartisan cooperation involving open debate and amendments from both sides—in other words, the way the Senate had historically functioned.

The majority leader didn't see it that way and continued to shut Republicans out of the process. In fact, if he had allowed an open debate and amendment process on many of the bills he sought to bring up, we could have gotten a lot more accomplished than we have. One week in June last year, we passed four controversial pieces of legislation because that process worked. It involved Republicans seeking things. But most of the time that doesn't happen. Sure, it would have taken more time under that amendment process and the deliberative process to consider each bill than the majority leader might have preferred to be given to it. He and his caucus might also have had to vote on Republican proposals instead of only legislation of his choosing. But is there anything wrong with a Republican offering an amendment now and then,

even if that amendment loses? Some Republican amendments might have embarrassed Democrats by forcing them to vote on issues they would rather avoid. Is there anything wrong with voting on some tough issues from time to time? Some Republican amendments might have attracted enough Democratic votes to actually pass. Perhaps that is exactly what the majority leader might want to avoid. He seems to want total control over the agenda. Majority Leader REID has said as much in private. He told Senator MCCAIN flatout that “the amendment days are over.” How can he say that?

There is a longstanding tradition here in the Senate that all voices be heard and that amendments get full hearing regardless of the party of the sponsor. For example, tax and trade policies aren’t exactly areas of natural agreement between the two parties. Despite that fact, when I was chairman of the Senate Finance Committee, I helped put together several bipartisan bills. I, a Republican, worked in partnership with Senator BAUCUS, a Democrat, to produce bipartisan bills that we could both live with. Even when we were starting with a bipartisan bill, Senator BAUCUS wanted to make sure his fellow Democrats had a chance to offer amendments, and I respected that, and if he were chairman, he would have respected that for us Republicans. It took a lot of time and effort, but that is what we have to do in the Senate if we actually want to get something done rather than simply blame the other side if we fail.

The Senate has been called the greatest deliberative body in the world because it was specifically designed to proceed at a measured pace and guarantee that the rights of the minority party are protected from what political philosophers called the “tyranny of the majority.”

In 1788, the father of the Constitution, James Madison, wrote in *Federalist Paper No. 10*:

Complaints are everywhere heard from our most considerate and virtuous citizens, equally the friends of public and private faith and of public and personal liberty, that our governments are too unstable, that the public good is disregarded in the conflicts of rival parties, and that measures are too often decided not according to the rules of justice and the rights of the minor party, but by the superior force of an interested and overbearing majority.

In 1788 James Madison was warning us about the superior force of an overbearing majority, the reason the Senate was set up to make sure the overbearing majority of the other body, where the majority rules, didn’t do stupid things.

Those arguing for abolishing the filibuster sometimes talk about majority rule as though this is some fundamental principle. On the contrary, the aim of our Constitution is to protect the individual rights of all Americans, not the right of the majority to impose its will on an unwilling minority. In fact, James Madison was very con-

cerned about what he called factions gathering together to impose their will on others. So I wish to quote again from *Federalist No. 10*. Before I start that quote, let me say for the benefit of people that I think when he used the word “faction,” for the most part he was speaking about political parties.

If a faction consists of less than a majority, relief is supplied by the Republican principle, which enables the majority to defeat its sinister views by regular vote. It may clog the administration, it may convulse the society; but it will be unable to execute and mask its violence under the forms of the Constitution.

When a majority is included in a faction, the form of popular government, on the other hand, enables it to sacrifice to its ruling passion or interest both the public good and the rights of other citizens.

To secure the public good and private rights against the dangers of such a faction, and at the same time preserve the spirit and the form of popular government, is then the great object to which our inquiries are directed.

That was a long quote, so let me say that in other words, Madison is saying that an important goal of the U.S. Constitution is to protect “the public good and the private rights” from a temporary majority trying to impose its will on the minority. This is evidenced throughout the Constitution. We call it checks and balances. We see it in the separation of powers between the three branches of government, and we see it in our system of federalism dividing power between States and the Federal Government. It also helps explain our bicameral legislative branch, and, of course, what I am talking about here is the unique structure of the Senate.

In *Federalist No. 62*, also usually attributed to the father of the Constitution, James Madison, he explains:

The necessity of a Senate is not less indicated by the propensity of all single and numerous assemblies to yield to the impulse of sudden and violent passions, and to be seduced by factious leaders into intemperate and pernicious resolutions.

Examples of this subject might be cited without number; and from proceedings within the United States, as well as from the history of other nations.

Madison wrote that in 1788, but it is still applicable in 2012.

So kind of repeating, the purpose of the Senate is to save us from “the impulse of sudden and violent passions, and to be seduced by factious leaders into intemperate and pernicious resolutions.”

There is a place for the passions of the moment in any republican form of government or any democratic society, and that place for the passions of the moment to be reflected is in our House of Representatives. But imagine if our only legislative body were the House of Representatives. Right now, that would mean Speaker BOEHNER would control the entire legislative agenda, and the priorities of the House Republicans would be the only legislation that would have a chance of passing.

Then, once the Democrats gained control in some future election, Repub-

licans would have virtually no ability to have their views considered.

This is a teeter-totter approach to governing. This teeter-totter would not lead to thoughtful legislation that protects individual rights and balances the views of all Americans.

You will also note that Madison references examples from proceedings within the United States at that particular time. Many State legislatures in the early days of our Republic were unicameral, with frequent elections and also with weak executives. This led to many instances where a temporary majority faction would gain control and quickly pass legislation that advantaged the majority at the expense of the minority.

It is also the case that the Congress, under the Articles of Confederation, was unicameral, which caused a lot of instability as described, again, by Madison in *Federalist 62*:

Every new election in the States is found to change one-half of the representatives.

From this change of men must proceed a change of opinions; and from a change of opinions, a change of measures.

But a continual change even of good measures is inconsistent with every rule of prudence and every prospect of success.

The remark is verified in private life, and becomes more just, as well as more important, in national transactions.

The staggering of the terms of Senators was partly done to provide stability, preventing temporary majorities from acting hastily and trampling on the rights of the minority.

Only one-third of the Senators are up for reelection every 2 years, unlike the House of Representatives, where all Members are up for reelection every 2 years. Because only one-third of the Senators are up for reelection at once, it is less likely that one party can sweep the election and gain control of the entire legislative branch of government in one election. Here we see how the Senate was specifically designed to prevent the tyranny of the majority.

In *Federalist Paper 66*, Madison, the father of the Constitution, continues his explanation of the unique role of the Senate—the unique role of the Senate—

... there are particular moments in public affairs when the people, stimulated by some irregular passion, or some illicit advantage, or misled by the artful misrepresentations of interested men, may call for measures which they themselves will afterwards be the most ready to lament and condemn.

In these critical moments, how salutary will be the interference of some temperate and respectable body of citizens, in order to check the misguided career, and to suspend the blow meditated by the people against themselves, until reason, justice, and truth can regain their authority over the public mind?

Now, I want you to contrast—with these quotes from Madison—the role the father of our Constitution says the Senate is intended to play to the present debate going on in the Senate that the rules ought to be changed and the majority leader’s vision for how a newly altered Senate would operate.

One faction, the Democratic Party, would be able to ram through massive pieces of legislation with little or no input from duly elected Senators who happen to be from another political party. And what if Republicans are not happy with being shut out of the legislative process at every stage? Well, the majority leader explained to one freshman Republican Senator: "You can always vote against the bill."

Not only does this take-it-or-leave-it approach effectively disenfranchise all those Americans who elected Senators from the minority party to represent their views, it also leads to poorly thought out legislation. Since the proposed changes to the Senate rules would make the body more like the House of Representatives, let's take another look at how that Chamber operates.

Although the House is designed to reflect the will of the current majority, the trend toward the majority party shutting out the minority party in that body has increased over time. Some people trace this trend to the last decade of the 19th century when the Speaker of the House was a man named Thomas Brackett Reed.

Then-Speaker Reed strengthened the power of the Speaker of the House of Representatives and sought to diminish the rights of the minority party. He once used his position to unilaterally change the interpretation of the quorum rule to prevent Members of the minority party from blocking a measure by refusing to vote in a quorum call. This incident was called the "Battle of the Reed Rules."

Then-Speaker Reed famously said: "The best system is to have one party govern and the other party watch." This attitude earned that Speaker of the House, whose name was Reed—they called him Czar Reed.

Do we really want another "Battle of the Reed Rules" like we had over a century ago in the House of Representatives? Wouldn't that be going backwards?

Ironically, the House of Representatives under Speaker BOEHNER has actually allowed more opportunity for the minority party to affect legislation than the current Senate majority leader. Senate Minority Leader MCCONNELL has cited data from the Congressional Research Service showing that the Democrat minority party in the House has had 214 occasions to affect legislation this year compared to only 67 for the Republican minority in the Senate.

When the House of Representatives allows for more input from the minority party than the Senate, which is supposed to be the deliberative body, it seems to me something is very wrong.

It is true that the cloture rule and the various different procedures that are called filibusters are not found in the Constitution. But changes to the Senate rules that some in the Democratic caucus are proposing would fundamentally transform the character of the Senate in a way that the Founders

never intended and best expressed by James Madison.

The proposed gutting of the Senate's historic rules and traditions threatens to replace the principle of the rights of the minority, so important to James Madison and our other Founders, with a new principle that the might of the majority makes right. The fact that the majority leader is contemplating doing so on a partisan basis by ignoring existing Senate rules is outrageous. Can you imagine ignoring the rules to change the rules?

I know this unprecedented power grab makes even Democratic Senators uneasy. Other Democrats who find this proposal tempting and who have not yet served in the minority will find they have a rude awakening once they have to live under the new regime they might help create.

To all my colleagues who might be inclined to support this fundamental transformation of the Senate, I will repeat once more Madison's warning about temporary majorities in the heat of passion enacting legislation: "... measures which they themselves will afterwards be the most ready to lament and condemn."

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Minnesota.

THE FARM BILL

Ms. KLOBUCHAR. Madam President, I am here today to talk about the need for action on a 5-year farm bill for our farmers and our rural communities. The Senator from Iowa, who just spoke, understands how important this farm bill is. I know the Acting President pro tempore, from the State of New York, understands how important this farm bill is.

This summer, farmers in the Corn Belt of our country waited, sometimes in vain, for rain that could either make or break an entire year of work. Many of them lost their entire crop.

This fall, sugar beet farmers along the Red River Valley in Minnesota and North Dakota waited for dry weather because they needed that to pull out the last of their crop. And right now, at this very moment, farmers, ranchers, and rural communities throughout the country continue to wait. But this time they are not waiting for weather. They are not recovering from weather. They are waiting for a new farm bill. In fact, they have waited 167 days since the Senate passed the bipartisan farm bill this June, and they have waited 66 days since the 2008 farm bill expired in September.

Unlike the drought this summer and the hurricane that hit the State of the Acting President pro tempore this fall, the failure to complete a farm bill is entirely preventable. Inaction in the House of Representatives is hurting farmers right now. Without a new farm bill, dairy farmers have lost their safety net. In fact, prices may go to the 1939 levels. Talk about moving back-

ward; that is what will happen if we do not get this farm bill done.

Livestock producers operate without key disaster programs without this farm bill, and farmers and rural communities are left guessing about what rules they will operate under as they plan next year's crop.

These are not small things. What kind of crop insurance are they going to be qualified for? Is there going to be some kind of safety net? They have absolutely no idea because we wait and we wait and we wait for the House of Representatives to act. They did pass a farm bill through their committee. I liked ours better, but they got it through the committee. But guess what. They have not been able to bring it to the floor for a vote, and our farmers and our ranchers and our people in our rural communities wait, and they wait, and they wait.

I believe there are good reasons we can finish the farm bill this year. There is already a path forward to complete work on a farm bill and have it signed by the President at the end of this year. The farm bill passed in the Senate, as we all know. It passed with strong bipartisan support. It was approved by a vote of 64 to 35. Thanks to Chairman STABENOW's leadership and the leadership of Ranking Member ROBERTS, we were able to get this bill through. We voted on nearly 80 amendments. We did our job in the Senate.

The Senate farm bill saves money. It would reduce the deficit by \$23 billion over the next 10 years. That is a savings over the last farm bill. The Senate farm bill also makes major reforms, such as eliminating direct payments and further focusing farm payments on our family farmers.

It extends disaster programs for livestock producers and it continues credit provisions to help our farmers get through tough times. It creates a public-private partnership to fund agricultural research to give farmers the tools they need to stay competitive and feed a growing world.

When Bill Gates comes and talks to me about the farm bill, you know this farm bill is more than just about some farmers in Minnesota. It is about feeding our country, it is about feeding the world, it is about the research we need to do to make sure we have the most efficient crops; that we are developing crops and we are developing livestock and varieties of crops and farm products that can feed the world.

This farm bill works to eliminate fraud and waste throughout the farm bill to ensure these programs are efficient and targeted. Passing this farm bill is important, and that is why 235 agriculture, conservation, research, and energy organizations signed a letter this November to leadership in the House urging that they pass a farm bill before the end of the year.

Our farmers and agricultural communities understand that tough budgetary choices need to be made. That is why the Senate Agriculture Committee actually came forward and said: OK, we

are going to find a way to do this very differently. We are going to eliminate direct payments, and we are going to strengthen our crop insurance. We are going to still make sure we maintain our nutrition programs—something for which the Acting President pro tempore fought so hard as a Senator from New York—and we also made sure there were incredibly strong conservation programs in the bill, but we still found a way to cut \$23 billion.

I am also opposed to playing red light-green light with agriculture policy which prevents our farmers and ranchers from making long-term capital investments that help them remain competitive in today's marketplace.

Ms. KLOBUCHAR. It might be easy to forget as we sit in this Chamber all that goes into growing the most abundant, safest food supply in the world. But when I travel across our State, I am impressed by the work and planning that goes into making each farm and ranch operate in the face of market failures, in the face of natural disasters, in the face of volatile weather. Well, guess what. This is the time when that planning goes on. It goes on right now.

Anyone who learned in kindergarten about how we plant crops and how we get things done knows that the fall and winter is the time when you plan ahead, and then you plant your crops, then you move ahead, and then pretty soon you are harvesting them. Well, they need to know what the rules of the game are to get this done.

Each year family farmers make tough decisions about which crops to plant, what equipment to purchase, and when to market their crops. Congress should be no less committed to completing work on the farm bill, which provides the safety net and certainty for farmers, for ranchers, for rural communities. The stakes are high for Minnesota. Agriculture is our State's leading export, accounting for \$75 billion in economic activity every year and supporting more than 300,000 jobs.

Minnesota is No. 3 in the country for hogs and soybeans. It is also home to pork processors and biodiesel plants. Minnesota is No. 4 in corn, and it is also home to 21 ethanol plants that produce over 1 billion gallons of ethanol every single year. We are No. 1 for sugar beets, we are No. 1 for sweet corn.

But as we all know, this is not just an issue in our State. Our Nation's farms and ranches are responsible for a \$42 billion trade surplus. This is one of the jewels of our economy and our country. We actually are making things, producing things, and exporting to the world. Why would we want to pull the rug from underneath one of our most promising and successful exporting industries in this country? And that is the business of farming.

This is so promising. We are already doing well. We can even do better. With

the critical role farming plays in our country's economy, there is no excuse to further delay the consideration of the farm bill. Agriculture is a bright spot in our economy. We cannot jeopardize the economic future of rural America and of our entire country just to score political points over in the House.

I continue to believe that the carefully crafted bill we did in the Senate finds a good balance between a number of priorities. I urge the House of Representatives to complete work, to work with the Senate, so we can make sure as we come to the year end we have a major deal which we must have on the fiscal cliff, that we also include the farm bill, because with the farm bill we save \$23 billion over what we have been spending in the last few years. So let's get to work and get this done.

I yield the floor and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REED. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

THE FISCAL CLIFF

Mr. REED. Madam President, we all recognize the country faces many challenges. Too many of our neighbors are still looking for work, and too often those with a job have not seen a raise in quite some time. Indeed, for many years people in Rhode Island and across the country have a growing sense that there is too much focus on the powerful few and not on the average family playing by the rules.

A quality higher education seems more unaffordable each year. Working men and women do not often feel the government understands their struggles and the need to move the country forward. They also want us to begin to balance the books, just as we did under President Clinton, with a sensible balanced approach, one that led to increasing wages across the board, increasing productivity, increasing employment, and a budget surplus before George W. Bush's policies took over.

Last year we took a step in balancing the books. We cut \$1 trillion of Federal spending. We do not hear much about it, particularly from the other side of the aisle. But what it means is that every discretionary program will see less funding for the next decade, which will have a huge impact on my State and every State in the country.

If we are going to cut spending on education, research, and transportation to the tune of approximately \$1 trillion, I think most Americans recognize that the other side of the equation has to be considered. Revenue needs to be part of a balanced plan to reduce the debt. The simple fact of the matter is that virtually every expert panel and commentator has said clearly that in

order to reduce the deficit to a sustainable level, revenues have to go up. It is a matter of arithmetic. So the question that presents itself to us is, where does the revenue come from? I believe at the end of the day, the President's plan to continue to provide tax breaks for 98 percent of all Americans and let tax rates for the wealthiest return to the Clinton-era levels is about as fair a proposal as is possible at the moment. First, it recognizes that the middle class should not be the one on the chopping block where there are other options. Second, it asks those making more than a quarter of a million dollars to return to the same top rates we had for most of the 1990s. Third, it cuts everyone's taxes on the first quarter of a million dollars that you make.

What is sometimes lost in this debate is because of our progressive tax system, there will be no changes to the tax rates on income up to \$250,000. The benefits of those tax cuts which were enacted in the early decades of the 2000s will still be there for 98 percent of Americans, and they will still be there for those paying additional revenue because of the reversal of the top two upper income tax rates. Yet our Republican colleagues in the House seem to have adopted a posture of obstruction and holding the middle class hostage in order to preserve nearly \$1 trillion in tax cuts for the top 2 percent of Americans. If we do not extend these tax cuts for the middle class as the President has proposed, the typical Rhode Island family of four could see their taxes raised by an average of \$2,200 in the year 2013. This would be a setback for our very fragile economic recovery. It is simply not fair to have these middle-income Rhode Islanders who are trying to make ends meet in this economy be further subject to a tax increase.

I think I listen pretty well to my colleagues on the other side of the aisle. It seems they agree that, yes, these taxes should not go up on 98 percent of Americans. Indeed, in July they dropped their filibuster, enabling the Senate to pass the Middle Class Tax Cut Act. The bill prevents taxes from going up on 98 percent of Americans and 97 percent of small businesses, and would cut the deficit by nearly \$1 trillion.

As I mentioned, if the House does not pass this bill, middle-class families will see their taxes go up by an average of about \$2,200. All the House has to do—and they can do it very quickly under their procedures—is take up the Senate-passed bill and pass it. We will put a significant downpayment on deficit reduction. We will provide certainty to 98 percent of Americans that their taxes will remain the same, and we can get onto other sensible appropriate reductions and expenditures and move the Nation forward.

It is heartening to hear some Republicans in the House such as TOM COLE of Oklahoma and MIKE SIMPSON of Idaho talk about accepting this commonsense approach and locking in these tax rates for middle-income

Americans. Indeed, if the House, as I suggested, had an up-or-down vote on the Senate bill, I would suspect there would be enough Republicans willing to join the House Democrats in passing a tax cut for 98 percent of Americans and giving the business community the certainty it needs. Unfortunately, we have yet to see an indication from Speaker BOEHNER that he will let the Senate approved middle-class tax cut legislation have an up-or-down vote—despite the fact that by passing this bill every American, including the wealthiest, will get a tax break on the first quarter of a million dollars of income, and the Tax Code would become a bit fairer.

I am worried that there are too many on the other side of the aisle who are willing to let taxes increase on the middle class in order to stop the top two marginal tax rates from returning to Clinton-era levels for the wealthiest 2 percent of Americans. That, to me, is unfair. Indeed, it is an uncalled-for imposition on the vast majority of Americans.

Republicans would jeopardize our economic recovery by creating uncertainty around letting these tax provisions lapse for all Americans. It could hamper demand, restrict commerce, and impede recovery at a time when our economy is making fragile gains. Indeed, it would be similar to what we are seeing in other parts of the world, where austerity measures in Europe have already caused many of their economies to slip back into recession.

We can't do that. We have got to provide both confidence and the resources for consumers to go into the marketplace and continue to strengthen our recovery. And I would hope to accelerate this recovery because we need more demand, more jobs, more activity, not less.

Unfortunately, the record of some of our colleagues on the other side has suggested that when it comes to making difficult decisions on behalf of the majority of Americans they balk. I have seen in this Congress—the other side threaten a government shutdown and the other side seriously consider defaulting on the debts of the United States. I have seen threats to end unemployment insurance, which would harm our economy and tremendously disadvantage so many Americans who are looking for work. I am hopeful the House of Representatives can respond both thoughtfully and decisively by passing the legislation the Senate has already passed and continue the tax cuts for middle-income Americans while beginning to raise revenues from those who are the wealthiest amongst us.

In the spring of 2011, we were faced with the possibility of a government shutdown. In the summer of that same year, we were faced with the issue of the debt ceiling and government default. All of these attempts to disrupt and undercut the process of government had costs, real costs to our economy, real costs to our sense and the

sense of the American people that we are effectively able to manage their affairs, for the welfare not of the very few but for all Americans.

Republicans have also blocked the American Jobs Act. A plan that analysts predicted would lead to the creation of nearly 2 million jobs—and at a time when those new jobs were and still urgently needed. Now with the accumulation of all these different threats to our economy, all these different dramatic moments, we are looking at automatic increases in taxes if the Middle Class Tax Cut Act is not adopted. Failure to pass the bill could severely impede or even reverse the economic recovery we have seen to date. And again, this economic recovery is not as strong as we want to see it, but it is heading at least in a positive direction.

We have to move forward decisively, with a balanced approach to ensure that the vast majority of Americans do not see their taxes go up. And that revenue is raised from those who are most able to afford it.

The President has been very clear that he will be strong in resisting overtures to extend the tax benefits for the wealthiest two percent of Americans. The American people agree. They re-elected him and they consistently, in just about every type of public survey, support his proposal.

Unfortunately, the Republican leadership in the House of Representatives are out of step and out of tune with the American public.

Speaker BOEHNER has not proposed a sensible, balanced approach that mixes revenues and expenditure reductions. Instead, he once again raises the spectre of cuts to Medicare and Social Security benefits. That is not the approach we have to take.

What we can do, what we should do, what we must do is simply ask the House of Representatives to take up what we have already passed here in the Senate, the Middle Class Tax Cut Act, immediately. That would provide the breakthrough we need to go forward, to continue to build on our economic recovery, and continue to respond to the legitimate needs of men and women all across this country. I hope House Republicans do that. I know I will be here, along with my colleagues, urging them to do that as quickly as possible.

Madam President, I ask unanimous consent that the remaining time under Democratic control be allocated as follows: Senator BOXER for 15 minutes, Senator CASEY for 10 minutes, and Senator SCHUMER for 5 minutes.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. REED. Madam President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from California.

Mrs. BOXER. Madam President, I think we are trying to make the case here today that there is a very easy

way for us to climb down from this fiscal cliff. The Senate already passed a bill that would extend tax cuts to 98 percent of the American people and the House will not take it up. This will mean, over 10 years, about \$1 trillion in savings, and it won't hurt the millionaires and billionaires. They have told us that over and over.

This is when the Senate passed the middle-class tax cuts, July 25, 2012. The Republicans over in the House have been sitting on it. They didn't do anything in July, August, September, October, November, and December. Here we are 6 months later and they refuse to allow a vote on this for reasons that go to their internal disputes.

It is time for them to put country over party. It is time for them to put country over their ideological battles. That was a mouthful. I am going to try it again. It is time for them to put country over their ideological battles. It is time for them to make a decision that favors the American people.

I served in the House for 10 proud years. It was wonderful, fascinating, interesting. I served there when Tip O'Neill was the Speaker of the House. Tip O'Neill understood the magic of 218.

What do I mean by that? The magic of 218 was finding 218 votes to get something done. Tip didn't care if he got it from a liberal, from a conservative, from a moderate, from an independent, from a whacko. It didn't matter. He didn't care who you were, what you were, if you thought you were great or bright or not. He had to put together 218 for the good of the country, and he did it when Ronald Reagan was President. He did it when there was a President who had different views from his own, and they worked together for the good of the country.

I look over at the House, and I don't know what I see. There are a few brave voices there speaking out and saying let us do this, let us extend the middle-class tax cuts. But let me tell you, we have 27 days left to do this before people start facing higher taxes. On average, it is \$2,200 a family, and that is a lot of money for a middle-class family.

I want to be completely honest here and bring up an issue, which is that I never voted for the Bush-era tax cuts—I was one of the few in the minority—because I worried that it would destroy our fiscal responsibility. I hate to say it now: I was right. I was right.

There were surpluses that Bill Clinton left us. But because George W. Bush went in front of the microphone and said, I have political capital, I am going to cut everybody's taxes, he then put two wars on the credit card, and that was the end of surpluses. We went into deficits, deficits as far as the eye could see, deeper and deeper in debt. So you might ask then, Senator BOXER, why are you now supporting those tax cuts being renewed for 98 percent of the people? The answer is it is a different time and a different place. We are getting out of a recession. We can make

up the monies we need to balance this budget by going just to the top rate, going to the people over \$250,000.

Remember, this plan that we passed in July gives a tax break on the first \$250,000 of income, in essence giving everybody a break on that first \$250,000. It is only after that that the taxes go back to the Clinton era. Because this is a different time and place, I support giving a tax break, continuing it, for 98 percent, but asking the wealthiest to pay their fair share for the greatest country on the face of this Earth.

My father was born into dire poverty. He was the only one of nine children born in America. He was the only one of nine children to go to college at night in your great State, City College, at night, while he supported a family by day. He became a CPA. After he got his bachelor's, he went at night to a place called Brooklyn Law School, where he got his law degree in 5 years. I was about 10. This is America. He was able to do that.

When he was a CPA, he would oversee everybody's taxes in the family. I was a kid and I got my first job working for a long time when I was a telephone operator for Hilton Hotels one summer. I will never forget it. I was not good at it. I kept putting those wires into the wrong places, but I managed to get through. When I got my first paycheck, I went to my dad, as I was earning minimum wage—I think it was 75 cents an hour, I don't know. I know I am dating myself here. It is okay. I said, "Dad, why is it I have to pay a whole bunch of money somewhere else, to the government?" He said, "Well, we all, when we earn money, pay taxes. If at the end of the year we pay too much, we get a refund."

But he said, "Honey, I want to tell you something. You are so fortunate and blessed to be a citizen of the United States of America. I know people will laugh at you when you say this, but people who live here, who work here and have the privilege of that freedom and the privilege to grab the dream, they should kiss the ground of this country every time they pay taxes."

I once said that on the campaign trail, and I got booed. They said, She is telling us to kiss the ground of America when we pay taxes? That was how my father felt.

Clearly, he also believed in a progressive tax system. He was a smart man, and he believed that those at the bottom end shouldn't pay anything at all and, as you go up, you pay a little more.

That is what President Obama ran on. We had a huge election for the Senate where the Democrats picked up seats. A race for the Presidency that was supposed to be Governor Romney's, according to his people, was President Obama's. This was mainly because President Obama stood up for the middle class and said, When it comes to taxes, we all have to pay our fair share, no more, no less.

When you tell your friends the President wants to give a tax cut, tell them also it is being held up by the Republicans in Congress who are sitting on a bill that passed the Senate on July 25, 2012, where 98 percent of the American people will get their tax break continued and only income over \$250,000 will be taxed at the same rate when Bill Clinton was President.

Let's take a look back at those days. Were they harsh for people? No. We had more millionaires created, I remember in those days, than we had in generations. You know why? Because the middle class is strong—and President Clinton invested in the middle class; he invested in our people—they get good jobs, they pay enough taxes, they go to the mall, they take a trip across the country to see all the great landmarks, and people across this country who have businesses do well also. That is why we see so many businesspeople, including small businesspeople, standing at President Obama's side saying it is good for business to give the middle class their tax breaks.

What are these Republicans thinking over there? If we are having an argument, and I tell you I will give you 98 percent of what you want and you walk away from me, I say you are unreasonable. Who gets 98 percent of what they want? No one. In an argument, usually we meet each other halfway—50-50. We are giving the Republicans 98 percent of what they want on the tax cuts, but they are holding the 98 percent hostage for their friends, the Koch brothers, Sheldon Adelson—the billionaires. That is wrong, and we had an election about it.

This is a country of, by, and for the people, not of, by, and for the billionaires. I am going to say to my Republican friends—and they are my friends; I have served with them for a long time, I have worked with them—what are you thinking? What are you doing?

Let me talk about one of the things they offered in their package. This is outrageous. They want to raise the eligibility age of Medicare by 2 years. I cannot tell you how many people come up to me—and it shocks me when I hear it—and say: I am praying for my 65th birthday so I can get on Medicare because I have no insurance. There is a huge number of people uninsured between the ages of 55 and 65. So this is their Christmas present? This is the happy holiday gift from Speaker BOEHNER?

In the Speaker's tax package, not only is he giving the tax break to the wealthiest, he is even cutting their taxes further but paying for it by raising the Medicare age. What does that do? It is surprising just how bad it is. When we raise the age of Medicare from 65 to 67, ipso facto, 300,000 senior citizens go uninsured. Merry Christmas to all. It would increase the cost to businesses by \$4.5 billion because they have to keep people on their plans. Merry Christmas to you, too, businesspeople. It will increase the out-

of-pocket costs for those between 65 and 66 by \$3.7 billion. It would increase costs to the States by \$700 million, and millions—millions—would pay an average of \$2,200 more for their health care.

I will use every tool at my disposal to prevent the destruction of Medicare. What kind of counterproposal is that? It takes my breath away the pain that would be felt if this went through. I can't help remembering—and I am sure the Chair remembers as well—the attack leveled by Representative PAUL RYAN, who was the Republican nominee for Vice President—he is chairman of the House Budget Committee—against President Obama for "cutting" \$700 billion out of Medicare, when, in fact, the President got savings from people who were cheaters—the providers who were ripping off Medicare—and then put it back into Medicare and extended the life of the program by 8 years.

These are the same people who ran ads against Democrats—maybe they did it to the Chair as well, I don't know—all across the country saying Democrats voted to cut Medicare. These same people who were crying these bitter tears are now suggesting destroying Medicare as we know it. I can't believe it. I truly can't believe it. I wonder whom they fight for? That is the basic question. Why are they here? Whom do they fight for? Do they fight for the middle class? I believe we do on our side of the aisle. I believe President Obama does.

I believe, if we look at the tax package that came over from Speaker BOEHNER and all the cuts to Medicare—and by the way, the Presiding Officer is a leader in protecting children—we will see there are cuts to child nutrition in there, major cuts. I have to say: Why do they have to cut food to poor kids? Why do they have to kick people out of Medicare? Their answer is, if they were honest, to protect the billionaires and the millionaires. Because that is what it is about. We know it. It is a fact in evidence.

I believe we owe more to the American people. We need to find a way back to the fiscal responsibility and the economic growth we had when Bill Clinton was President. I have served with five Presidents already—it is amazing—in my time in this Congress, and I have seen people come together in moments of crisis, such as when Social Security needed to be strengthened, when Medicare needed to be strengthened, when we had deficits as far as the eye could see and we had to resolve that. I have seen all that happen. We have 27 days left to see something good happen about this fiscal cliff.

When people say, oh, it is very complicated, don't believe it. Don't believe it. It is not complicated. There are several parts to this fiscal cliff. The biggest one is the Bush-era tax cuts that are expiring on 100 percent of the people, and if they expire, it means people will have to pay more in taxes at a time when we don't want them to have

to struggle. We want them to have disposable income because it is good for their families, it is good for the economy, it is good for business, and it is good for economic growth. The Bush-era tax cuts are expiring on December 31. Why don't we find the common ground, get rid of that issue, get those tax cuts to 98 percent of the middle class who need them and fight about the millionaires and the billionaires later? They are OK. They are fine.

We need to do that simple step. The House must pass the Senate's bill which we passed on July 25. We did it. It is done. We don't have to worry about it. We did our job over here. We got the votes. So the House needs to pick it up and pass it over there.

I understand that Democratic Leader PELOSI has done something very interesting. She has taken this bill, the same exact bill, and put it at the desk in the House and started what they call a discharge petition. What that means is, since Speaker BOEHNER will not bring up this bill, if 218 people sign the discharge petition, there will be an immediate vote on the floor. I wish to urge Republicans and Democrats and Independents over in the House to sign the discharge petition to have a vote. We have a few days left until the end of the year—27—to get this done.

Then we can talk about the automatic spending cuts, and there are ways to stop those. People are upset about those. Personally, I think we have to make spending cuts, but I think we can soften the blow of those spending cuts by bringing home the money from the wars in Iraq and Afghanistan to this country. That would soften the blow of those cuts. We also need to be making some more investments in infrastructure, which we desperately need after superstorm Sandy hit New York, New Jersey, Connecticut, Delaware, and Maryland. We now see our infrastructure has to be what we call hardened, made stronger. We can do that if we invest in our people.

The President has offered a very clear plan that is fair that takes us off the fiscal cliff. We have 27 days to do the right thing. The Senate already passed the tax cuts for 98 percent of the people. All we are asking is for the House to do that, to match us, and then we can get back to the table and figure out a way to soften the blow of the automatic spending cuts. We can look at tax reform.

Let me just say this about tax reform. When our colleagues complain about tax rates and say: We would rather close loopholes, watch out. In order to raise the kind of funds needed to lower this deficit, we would be looking at the two of the biggest "deductions." One is for your mortgage and one is for charitable contributions. I would ask rhetorically: What billionaire do you know who has a mortgage? I don't, frankly, know any. They own their own homes. They are not hurt by that. But who does get hurt? The middle class.

So let's do the right thing. We passed the right thing on July 25, 2012. We have 27 days left before taxes on the middle class go up. I know we have the wherewithal to do that.

I yield the floor.

The PRESIDING OFFICER (Mr. FRANKEN). The Senator from Pennsylvania.

Mr. CASEY. Mr. President, I rise to talk about where we are with regard to the end of the year and especially where we are with regard to the focus we should bring to bear on middle-income families. We have had a lot of discussion in the last couple weeks, using terms such as "fiscal cliff" and terms that involve tax policy. All that is important to debate, but sometimes what is lost in the midst of all that is what is happening to middle-income families.

The sense I have, in talking to a lot of those families in Pennsylvania, is they have been asking their representatives in Washington to do at least two things: No. 1 is to try to work together to get agreements, not just in the near term but over a long period of time; and No. 2—and not in second place, because they are as fervent about this as they are about No. 1—they ask me all the time to do something to create jobs at a faster pace, to put in place strategies that will lead to job creation that is more accelerated.

The good news is we have had some progress. If we look at the numbers for August, September, and October, it is right around 511,000 jobs created. That is good news and it is good progress. It is a lot better than where we were in the spring. If memory serves me, in the time period of April, May, and June, we had only created about 200,000. So this 3-month period with more than half a million jobs created is progress.

But we have a long way to go, and we need to move the job-creation pace or the pace has to be accelerated. We have in the midst of all that a good bit of uncertainty. Middle-income families look at Washington and don't see enough progress on jobs, they don't see folks coming together yet. I think we will, but until they see that, until they have a sense there is something substantial that is decided that affects their lives, they are going to be very uncertain. I hear this from taxpayers. I also hear a lot about uncertainty from small business owners.

At the same time, the House has something they can do about it right now. On July 24 we passed in the Senate a tax cut for middle-income families, meaning we would continue tax rates for those families. That kind of certainty is badly needed right now. So one of the best things that could happen right now is the House could vote and then the President would sign into law legislation that would provide certainty for middle-income families—98 percent of American families and some 97 percent of small businesses. So it is time for the House to act.

Secondly, we have to take steps to make sure we are creating jobs at a

faster pace. As I mentioned before, I am introducing legislation today to help middle-class families and to boost hiring. The bill is called the Middle-Class and Small Business Tax Cut Act, and it would expand the payroll tax cut from last year for 1 year and give employers a tax credit for hiring.

The payroll tax cut we put into place last year had a number of benefits. I won't go through all those today, but the Joint Economic Committee—the committee of which I am the chairman—put out a fact sheet in the last 24 hours that highlights some of the benefits of the payroll tax cut. I wish to highlight a few of those.

I ask unanimous consent to have printed in the RECORD the Joint Economic Committee fact sheet on the payroll tax cut dated December 4, 2012.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

FACT SHEET: PAYROLL TAX CUT, JOINT ECONOMIC COMMITTEE, UNITED STATES CONGRESS, SENATOR ROBERT P. CASEY, JR., CHAIRMAN, DECEMBER 4, 2012

THE PAYROLL TAX CUT SUPPORTED THE ECONOMIC RECOVERY, CREATED JOBS AND BOLSTERED THE SOCIAL SECURITY TRUST FUND IN 2012

Last winter, Congress took action to prevent a temporary two-percentage-point reduction in payroll taxes from lapsing at the end of 2011, extending the tax cut through the end of 2012. The payroll tax cut for 2012 increased take-home pay for over 120 million American households, providing tangible benefits as the economy continued to recover from the Great Recession. The additional money in individuals' pockets contributed to increased consumer spending in 2012, supporting economic recovery and job growth. Including October, the private sector has added jobs nationwide for 32 consecutive months. Finally, the boost in employment due to the payroll tax cut, coupled with transfers from the General Fund, helped to fortify the balance of the Social Security Trust Fund.

Benefits of the Payroll Tax Cut in 2012

122 million households received additional take-home pay. Cutting payroll taxes immediately increased the income of everyone who received a paycheck. By the end of 2012, the two-percentage-point payroll tax cut will give an additional \$1,000 to the average American family.

The payroll tax cut boosted consumer spending. Additional take-home pay allowed working families to make purchases that supported economic growth and job creation. In the third quarter of 2012, real consumer spending grew 2.0 percent at an annual rate, following gains of 2.4 percent and 1.5 percent in the first and second quarters.

Middle-class families are responsible for the bulk of consumer spending. The most current data show that families making under \$150,000 are responsible for the vast majority (81.9%) of consumer spending. Moreover, families earning less than \$70,000 per year are responsible for nearly half (44.8%) of all consumer spending.

The payroll tax cut targets those most likely to spend it. Compared with reducing the tax rates of the highest income earners, cutting payroll taxes puts more money in the hands of middle- and lower-income working families. Over half of the benefits of the payroll tax cut went to households earning less than \$100,000 annually, and 85 percent of

the benefits went to those making less than \$200,000.

Economic growth and job gains were stronger in 2012 due to the payroll tax cut. The two-percentage-point payroll tax cut for 2012 boosted economic growth nationally by an estimated one-half of a percentage point in 2012. The payroll tax cut also saved or created an estimated 400,000 jobs.

The payroll tax cut bolstered the Social Security Trust Fund. The annual OASDI Trustee's report for 2012 confirms that the payroll tax cut has no negative effect on the balance of the Social Security Trust Fund in the short or long term. All reduced revenues are recovered through transfers from the Treasury General Fund.

Furthermore, the additional jobs generated by the payroll tax cut added to the Social Security Trust Fund's balance. The JEC estimates that the boost in employment driven by the payroll tax cut contributed at least \$1 billion in additional Social Security tax withholding and payments. This assumes a majority of the jobs created or saved because of the payroll tax cut, as during the recovery more generally, were in occupations such as food services, retail and employment services. The additional Trust Fund revenue could be much larger—as much as \$3 billion—if those jobs were in higher-wage industries such as manufacturing or professional services, or if the number of additional jobs was greater than previously estimated.

Mr. CASEY. Mr. President, just a couple of points when you look at the economic impact on families when

they have dollars to spend. The payroll tax cut puts \$1,000 on average in the pockets of most families in America. Families making under \$150,000 are responsible for almost 82 percent of consumer spending. So the reason we are creating jobs with the payroll tax cut or a tax credit—the idea I mentioned before—is because we are giving consumers, families, and small businesses the opportunity to create jobs because of economic activity.

I mentioned the job impact of the payroll tax cut. It created or saved 400,000 jobs in the last year, and it didn't in any way harm the Social Security trust fund. In fact, it enhanced our ability to have more payroll revenue over time because of that job creation.

So I think we should do both—continue the payroll tax cut as well as have a tax credit for businesses so that if they hire in year one versus a year after the year the credit is in place, that hiring can be given credit and they can be incentivized to hire more.

Tomorrow our Joint Economic Committee will be engaged in a hearing on fiscal cliff issues. We will discuss strategies to create jobs, and we will discuss the implications of the fiscal cliff and what will happen if we don't get some work done by the House to pass the middle-income tax cut that was passed here in a bipartisan fashion. So we have a lot of work to do, but I think one thing we have to make sure we do is to continue to focus on middle-income families, their lives, their struggles, and what we can do to make sure they have more dollars in their pockets to continue economic growth.

Mr. President, I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant bill clerk proceeded to call the roll.

Mr. SCHUMER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SCHUMER. Mr. President, I would like to thank my great colleague from Pennsylvania. I enjoyed sharing a table last night with him and his beautiful, charming, intelligent wife, whom he would be the first to admit he is lucky to have married, and their four great girls. I also thank him for his excellent on-target remarks. We have a great chairman of the JEC, and every time he comes to the floor it shows.

Senator OLYMPIA SNOWE, Bill Kristol of the Weekly Standard, Congressman MIKE SIMPSON of Idaho, David Brooks, Congresswoman BONO MACK, Congressman WALTER JONES, and the National Review, we are here to say that passing the Senate's middle-class tax cut is the right thing to do, but you don't need to take our word for it. Two thirds of the American public agrees with us, but you don't need to take their word for it either. Just listen to the voices within Speaker BOEHNER's own party.

It is clear that Speaker BOEHNER needed cover from his right flank before he could agree to any deal on taxes with the President. The Speaker didn't have it before, but he sure has it now. When the Wall Street Journal editorial page says that decoupling would not go against conservatives' antitax principles, that gives a whole lot of cover to the Speaker. When Grover Norquist refuses to declare whether decoupling would violate his group's pledge, that, too, gives a whole lot of cover to the Speaker. And when more and more rank-and-file Republicans come out publicly every day in favor of passing the Senate bill, that, too, gives cover to the Speaker.

You really have to salute Congressman TOM COLE. He was the first one on the other side to dare speak the truth about what should be done on taxes, and he has been on TV almost every day making the case to his party in public. The day after Congressman COLE went public, he was dismissed as having a minority opinion. Well, that is not true anymore. His comments sparked a trend. In addition to those Republicans who have spoken out publicly, there are probably dozens of other TOM COLES in the House who just don't feel free to speak their mind but agree with him privately.

Just this morning, in an appearance on cable television, the junior Senator from Oklahoma, an unquestioned conservative, came out on higher tax rates on the wealthy. He said:

Personally, I know we have to raise revenue; I don't really care which way we do it. Actually, I would rather see the rates go up than do it the other way, because it gives us greater chance to reform the tax code and broaden the base in the future.

Well, if Senator COBURN does not provide conservative cover, I don't know who does.

The House Republican leadership is like generals hunkered away in a bunker who don't realize their army has already laid down their arms. The Republican leaders are in search of an exit strategy, while they have one in the form of a discharge petition that has been filed in the House. It is an out for the Speaker. With the discharge petition, the Speaker doesn't have to outright endorse the Senate bill; all he needs to do is tell his Members: Sign your conscience. If you believe in the discharge petition, sign it, and there will be no recrimination against you.

If Speaker BOEHNER does that, I am confident the discharge petition will get 218 signatures and then we will get 218 votes on the floor. We may not get a majority of the majority, but we will definitely get 218 votes. So we may never win over the PAUL RYANS in the other Chamber, but they aren't necessary—they can vote no or they can even vote present.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. SCHUMER. I ask unanimous consent that I be given 1 additional minute.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SCHUMER. Put the bill on the floor, let rank-and-file Republicans vote their conscience, and this bill can pass.

In the New York Times today, it was reported that senior aides on the Republican side are considering just such a strategy to give them a soft landing on this tax debate—agree to the President's offer on the tax, the thinking goes, and live to fight another day on spending cuts.

We agree that a tax hike on middle-class Americans should be taken off the table. Once Republicans agree to higher rates on the wealthy, an agreement on the other sticking points of a grand bargain can quickly fall into place. So let's stop with the offers and the counteroffers that are leaked only to manufacture headlines in the press. Let's get serious and cross the biggest item of our to-do list off and get the Senate tax cut bill passed.

I yield the floor.

The PRESIDING OFFICER. The Senator from Texas.

Mr. CORNYN. Mr. President, I ask unanimous consent the next 45 minutes be devoted to a colloquy between myself and my colleagues on this side of the aisle.

The PRESIDING OFFICER. Without objection, it is so ordered.

STEM JOBS ACT

Mr. CORNYN. Mr. President, this last week the House of Representatives passed a bipartisan piece of legislation called the STEM Jobs Act. For those who are unfamiliar with the term STEM, it stands for science, technology, engineering, and math—the hard sciences programs that we have too few graduates from in our colleges and universities. This bill passed in the House of Representatives with 245 votes and was originally sponsored by my friend and colleague LAMAR SMITH of Texas. It is very similar to a piece of legislation I myself introduced earlier this year.

The goal of this legislation is one that I think enjoys broad bipartisan support, and that is to help the United States retain more of the highly skilled immigrants who come to study at our colleges and universities. In particular, this bill would make eligible for a green card those who graduate from the STEM fields who get a master's degree or a Ph.D. We would not add to the net number of green cards that would be eligible. There are 55,000 diversity lottery visa green cards that would be substituted for by these STEM green cards.

We all know America's immigration system is broken. Unfortunately, it causes self-inflicted wounds in many respects, but particularly by driving away highly skilled foreign workers who want to start businesses and create jobs right here in America. This is not about hiring foreign workers to

perform jobs where we have qualified Americans waiting in line for these jobs. The fact of the matter is, we do not produce enough American-born workers to fill the job vacancies in these fields.

Many of these potential job creators and entrepreneurs attend our colleges and universities. You might even say that the American taxpayer helps subsidize their education because many of them received world-class training at our public and private colleges and universities and then reluctantly return home to pursue their careers because they cannot get a visa or cannot get a green card here in America. We are cultivating human capital and then sending those individuals back home.

This is an area where there is broad support. My colleague Senator MORAN recently wrote a "Dear Colleague" letter which points out that roughly—he cites in the letter that more than three-quarters of voters support a STEM-type visa. He quotes in this letter, dated July 20, 2012, 87 percent of Democrats polled, 72 percent of Republicans polled, and 65 percent of Independents support the creation of a STEM visa. Of course if you think about it, it is common sense. Why in the world would we want to subsidize the education of these students from other countries, train them in these highly specialized and highly desirable fields, and then simply send them home?

I have introduced legislation over the past years that would increase the number of H1B visas, which are not green cards. They are actually temporary visas that would allow more of these foreign national students, trained in these STEM fields, to stay here in the United States and help create jobs here in the United States. This bill actually goes a step further. What it does is it provides them a green card, which is the first step toward a path to citizenship.

If you believe our current policy is a self-inflicted wound on our economy, you are exactly right. We are educating brilliant students and then compelling them to go to work in Shanghai or Singapore rather than San Antonio or the Silicon Valley. Meanwhile, we are handing out tens of thousands of diversity visas to immigrants chosen by random lottery, without regard to any qualifications they may have when it comes to job creation and entrepreneurship. It makes absolutely no sense.

I believe we need an immigration policy that serves our national interests. If there is one thing that we need more than anything else now, we need job creators and entrepreneurs in the United States. We know in the global economy it is people with special skills in science, technology, engineering, and mathematics who are the ones who are going to help us create jobs and grow the economy—not just for these individuals but for the people who are hired by the startup businesses they will create.

The STEM Jobs Act would mitigate the problem with the diversity lottery visa, which again does not distinguish between immigrants based upon the qualifications they have or their ability to create jobs or be entrepreneurs. It would mitigate this problem by making our immigration system more economically sensible. It would establish new visa categories for 55,000 STEM graduates of American research institutions and would eliminate the random diversity lottery visa to offset these new green cards.

Our competitors abroad are observing this brain drain that America is experiencing and they are taking advantage of it. In a global economy they are more than happy to take the best and the brightest foreign students who come and train in the United States and to encourage them to come to their countries and create jobs and economic growth there. This relatively minor change to our immigration system could deliver a major boost to U.S. economic growth. I realize many of our colleagues have different priorities when it comes to fixing our broken immigration system, but the reforms contained in the STEM Jobs Act enjoy bipartisan support.

I urge my colleagues, let's show the world we can agree on this common-sense, bipartisan immigration reform. Let's do something for our economy and let's take this first step in solving our broken immigration system.

Before I turn the floor over to my colleague from Kentucky, who I know has some comments on this topic, let me address two issues quickly. I can anticipate hearing from some of our colleagues that this does not solve all of what is broken in our immigration system, and I concede that is correct. But what we need more than anything is to develop some confidence-building measures for the American people to demonstrate that we can come together, Republicans and Democrats alike, and do what needs to be done which almost everybody agrees is common sense and then we can follow on with other solutions on a targeted basis for our broken immigration system.

I once believed, back in 2005, when Senator JON KYL from Arizona and I introduced something we called the Comprehensive Border Security and Immigration Reform Act of 2005, we should address this issue comprehensively. We tried in 2007. That bill failed on the Senate floor when Senator REID pulled the bill from the floor.

I believe now, given the temper of the times and given the skepticism with which the American people view us here in Congress, the only way we are going to crack this nut is to start small in targeted reforms such as the STEM Jobs Act. I believe this is the beginning and not the end of fixing what is broken about our immigration reform system. But if we cannot do this—if we cannot do this—I have next to no confidence we can do the rest that needs to be done as well.

A final point. I believe we should be family-friendly when it comes to our immigration system. This STEM Jobs Act takes a very important step in making sure families can be unified. Under the current law, someone who has a green card is not entitled to bring their immediate family into the United States to live with them while they are waiting for their eligibility for a green card. The STEM Jobs Act, though, addresses that by recreating the V visa, which would help us retain more of the potential job creators but it would also help unify the immediate families of U.S. permanent residents. Right now, the spouses and children of U.S. permanent residents have to wait outside, to wait in line for their green card, which causes families to be separated—something that none of us believes is an optimal situation. The STEM Jobs Act would let them wait inside the United States, unified with their loved ones until they are off the waiting list, which takes several years, and thus would promote family unification. That is yet another reason why this bill deserves our support.

I yield to my distinguished colleague from Kentucky, who I know supports this approach, for any comments he would care to make.

The PRESIDING OFFICER. The Senator from Kentucky.

Mr. PAUL. I compliment the Senator from Texas for being a leader in immigration reform. There are many of us in the Republican Party who wish to have immigration reform. I do wish it be noted for the RECORD today that we can take a small step forward toward immigration reform today. This bill that would allow Ph.D.s, master's, successful graduates to come into this country with a green card could be passed today. This bill is at the desk and we will ask consent from the majority party today to pass this bill.

I will also note the President and the Members of the majority party will object. The President has said he will not pass this unless he can get everything he wants. When I go home or when I talk to folks with the media, they say: Why can't you guys get along? Why can't you do anything in Washington? Why is this system so horribly broken?

This is precisely why. We agree on this bill. I think the other side will stand and say they like the concept, but they do not want to do it yet. They want to wait until we agree on everything. Guess what. We are never going to agree on everything so we are never going to get immigration reform if we cannot start agreeing to some things and moving the ball forward.

This is the same on tax reform. This is the same on entitlement reform. We lurch from deadline to deadline. There will be a deadline, the so-called fiscal cliff coming up, and the President has announced that we do not have enough time to do entitlement reform. We don't have enough time to do tax reform. We don't have enough time to do immigration reform.

When are we going to start? When is there going to be a committee hearing designated toward entitlement reform? I have been here 2 years. There is no such committee. When will there be hearings on immigration reform? There will not be time. Deadlines will pass.

But not break things up into smaller pieces? Why have to have some enormous fiscal cliff or whatever that everybody has to agree to a thousand moving parts? We are of different persuasions, of different parties, of different beliefs. We are never going to agree on a thousand things. Why don't we start passing some things we can agree to? This is a small step forward. We can pass this bill today.

Does the Senator have an explanation that can help me understand why we have to have empty partisanship, why we cannot move forward to pass some small things for immigration reform?

Mr. CORNYN. Mr. President, I would say in response to the Senator from Kentucky that I have been in the Senate for some time now. I have been engaged in the immigration debates for a long time. I think one of the biggest challenges is we have tried to deal with this in a comprehensive way that has so many moving parts it is almost impossible to find a majority in the Senate, much less the House, in order to support all the various components of it. That is one of the things I like about this bill. It is narrow, it deals with a consensus reform—common-sense reform—and it avoids a lot of the controversy associated with other parts of the immigration subject. I do believe we owe it to the American people not to stop here, but it is a good place to start. Once we pass this legislation and people see that we have acted responsibly and in America's best interests, then we can regain their confidence that we can deal with other broken parts of the immigration system.

Mr. PAUL. I think another important point to make about this is we truly have different philosophical differences with people on the other side. But what people at home ask me is when you agree with the other side, when the other side says we want this part of immigration reform, why can't we do it? That to me is empty partisanship. Are we afraid to give Republicans credit for introducing immigration reform in the Republican-controlled House? Are we afraid it might be perceived as a Republican idea? That to me is empty partisanship. I routinely vote with the other side on some issues that some on this side object to because I believe in the issue. This is an issue where we all should be able to agree on immigration reform. Yet the other side will object to moving the ball forward on immigration reform. That I don't understand and that I see as empty partisanship, and that is the dysfunction of this body when we agree on something we still cannot pass it.

Mr. SCHUMER. Mr. President, will my colleague yield for a question?

The PRESIDING OFFICER. Does the Senator yield?

UNANIMOUS CONSENT REQUEST—H.R. 6429

Mr. CORNYN. I ask the Senator to withhold for a moment because I do have a unanimous consent request. I understand the Senator likely will have an objection to that. We have other Senators who are going to speak. Given the limitation on our time, what I wish to do, Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 559, H.R. 6429, that the bill be read a third time and passed, the motion to reconsider be made and laid on the table, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Is there objection?

Mr. SCHUMER. Reserving the right to object, and I will object and explain my objection.

The PRESIDING OFFICER. OK.

Mr. SCHUMER. Very simply, I heard my colleague from Kentucky say if we agree on something, let's pass it. We do agree on increasing STEM visas. I am offering a proposal that does that and does it in a more fulsome way than the proposal of my friend from Texas. But what we do not do is take away other visas or add in other extraneous positions.

I would say the logic of my friend from Kentucky is impeccable, but because of constraints on the other side they could not pass a plain bill that just added STEM visas. They had to take away other visas that my colleague from Texas does not like—but many people do. They had to add in a few other provisions.

I would simply say that if my colleague from Kentucky says we should join together on something we agree with, I will bet he agrees with our proposal as well. And I will bet he agrees with it even more than the other proposal because we add two things that are not in the bill of the Senator from Texas. No. 1, we allow unused STEM visas to be used to reduce the backlog of employment green cards. There are 200,000 people waiting. It may well be that the 55,000 visas in the bill of the Senator from Texas are not going to be used up. That is what experts say. Second, we allow STEM green cards to be used by entrepreneurs, a bill that has been introduced by I believe Senator COONS, Senator MORAN—bipartisan—Senator WARNER as well.

I am going to object to this bill, not because it increases STEM visas and not for some larger purpose—although I do understand that if we pick off all the pieces each of us wants, we are not going to get comprehensive reform, and that is why the Hispanic Caucus opposes the bill of the Senator from Texas but supports our bill. I understand that. But if we just want to do STEM and do it in the best way possible without other provisions, because that is what we agree on, I would urge my friend from Kentucky, and those

Members on the other side, to support our bill.

So I object to the Cornyn bill, and I will be offering a bill on the same subject that is purer, cleaner, and more full on STEM visas than the proposal that was made by my good friend from Texas.

The PRESIDING OFFICER. Objection is heard. The Senator from Texas.

Mr. CORNYN. Mr. President, I understand that the Senator from New York has objected, and of course here we go again making the perfect the enemy of the good and not moving forward on commonsense immigration reform in an area where there is a consensus.

There are several problems with the Senator's proposal. One is that it has not passed the House and this one has. It also has a 2-year sunset provision, as I understand, and there is no family unification provision. Also, it doesn't eliminate the diversity lottery visa which allows people to get green cards without regard to the qualifications that they bring to this country to create jobs and start new businesses.

I know we have the distinguished Senator from North Dakota here.

Mr. SCHUMER. Mr. President, if I might be recognized to offer my proposal? I have let my friend from Texas respond, but I have the—

The PRESIDING OFFICER. Will the Senator from Texas yield?

Mr. CORNYN. Mr. President, we have four Senators who are prepared to speak, and I just want to make sure we have adequate time to speak. I ask that any time that is used by the distinguished Senator from New York not be added to or subtracted from our time. We have retained a total of 45 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CORNYN. Under those circumstances, I agree to yield the floor.

The PRESIDING OFFICER. The Senator from New York.

UNANIMOUS CONSENT REQUEST— S. 3553

Mr. SCHUMER. Mr. President, I ask unanimous consent that the Judiciary Committee be discharged from further consideration of S. 3553, the BRAINS Act, and the Senate proceed to its consideration; that the bill be read a third time and passed; and that the motion to reconsider be laid upon the table, with no intervening action or debate.

I will be brief because I don't want to take away from my colleagues' time. What this bill does is provide more STEM visas than the previous bill. It provides an entrepreneurship visa which the other bill does not. It does not take away existing visas, which the Senator from Texas doesn't like, but many other people find popular, good, and necessary. The unemployment rate for those on the diversity visas coming in is much lower than that of the national average.

If we want to pass a pure STEM bill without extraneous provisions added

by people who are anti-immigration because they don't want to see any net increase in immigration, I urge the support of our bill.

The PRESIDING OFFICER. Is there objection?

The Senator from Texas.

Mr. CORNYN. Mr. President, reserving the right to object, the problem with the Senator's proposal is that this piece of legislation he has referred to has not passed out of committee in the Senate. It has not passed the House. This bill, the STEM Act, has passed the House. Theirs has a 2-year sunset provision; this is permanent legislation. Also, it has no family unification provision that will allow the immediate family members of the green card holder to wait the time when they will become eligible for a green card in the United States as opposed to back in their country of origin, and it does nothing to promote merit-based immigration reform. We ought to be looking at immigration reform from the standpoint of not just how it can help the immigrant but how it can help America create jobs and entrepreneurship.

For those reasons, I object.

The PRESIDING OFFICER. Objection is heard.

Mr. CORNYN. Mr. President, at this time I yield to the distinguished Senator from North Dakota and then, following that, the distinguished Senator from Iowa for any comments he cares to make.

Mr. HOEVEN. Mr. President, I thank the esteemed Senator from Texas and the Senator from Kentucky. I see the Senator from Iowa has joined us as well.

I rise to speak in support of the STEM Act but also to respond to the Senator from New York. I see the Senator has left, but I also want to respond to some of the points in support of the Senator from Texas.

The STEM Act passed the House; it was H. Res. 6429, sponsored by Congressman LAMAR SMITH. I argue that it accomplishes both of the things we are talking about today. It provides us with the opportunity to have a greater pool of employees with training in science, technology, engineering, and mathematics, which is what we need in this country. It also accomplishes the diversity that was referred to by the Senator from New York.

So what the Senators from Texas, Kentucky, Iowa, and myself are proposing is to accomplish both goals. We are saying we can have the students who have graduated with either a doctorate degree or a master's degree in science, technology, engineering, and mathematics, which is what we very much need to get our economy growing. A growing economy creates more employment. It also creates the revenue without raising taxes that we need to address our deficit and debt. So this legislation accomplishes both those goals and still provides an increase in diversity which is what the Senator from New York was talking about.

The additional point is the point that the Senator from Texas very clearly made. This legislation passed the House. The last time I checked, legislation has to pass the Senate and the House. That is a pretty important distinction.

Referring back to the comments of the Senator from Kentucky, who said if we cannot do it all at once because of disagreements, let's start getting done what we can get done, here is a bill that provides us with people in the science and technology fields who can help our economy grow. These are people we need very much. It will increase diversity, just as the Senator from New York said, and it has passed the House. Common sense says let's go. Let's pass the bill.

So we want to join with the Senator from New York, the Senator from Delaware, and the other sponsors to whom he referred, but let's join on something we can actually get done, meaning a bill that passes the House as well as the Senate. I think that logic is compelling.

I look at my own State of North Dakota. We are doing amazing things in energy. As a matter of fact, we are hot on the trail of the State of Texas when it comes to oil development. I am telling you, we are after you.

So what is that going to take? It is going to take continued development of the technologies that not only helps us produce more energy, but helps us do it with good environmental stewardship. What we are talking about is when we have the engineers, scientists, technicians, and mathematicians who graduate from our great universities with doctorate and master's degrees, they can stay and help us here rather than help someone else in some other country that would then get ahead of the United States. This will help us solve the fundamental challenges we face today, which is getting this economy growing so we get people back to work and creating the revenue the right way with economic growth to help us address our deficit and debt.

With that, I yield the floor to the esteemed Senator from Texas.

Mr. CORNYN. How much time remains?

The PRESIDING OFFICER. Twenty minutes.

Mr. CORNYN. Mr. President, I yield to the distinguished Senator from Iowa for any comments he cares to make.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. GRASSLEY. Mr. President, today, I'm proud to speak in support of the STEM Jobs Act of 2012, a bill passed by the House of Representatives last week. This bill would make available up to 55,000 green cards each year for foreign students who have received doctorates or master's degrees in science, technology, engineering, or math, also known as STEM, from a U.S. university. The bill would not increase overall immigration levels, but rather, would move our immigration

system toward one in which we reward the best and brightest of the world with the chance to remain, live, and work in this country.

Without a doubt, our immigration system is flawed. I have long argued that we need to enhance and expand legal avenues for U.S. employers to hire foreign workers. While I am a champion for rooting out fraud and abuse from many of our visa programs, I'm also supportive of finding ways to allow people to enter this country through legal channels.

It makes sense to allow foreign students who have been trained and educated on U.S. soil to remain here. These students have advanced degrees in science, technology, engineering, and math, and this bill will ensure that we keep those highly skilled and sought-after students here for employers in need.

Our economy cannot wait. We need to enact solutions today that create economic growth.

We also have no reason to wait for next year's likely debate on immigration. Attracting and retaining high-skilled workers should not be a partisan issue. The senior Senator from New York has a similar proposal to grant green cards to STEM students. I can only assume that many people on the other side of the aisle would support this bill if the majority leader gave it a chance. Nearly 30 Democrats in the House crossed the aisle to help this bill pass last week.

Finally, as we look ahead to immigration reform, it will be important to consider ways our policies benefit future generations, not just solve the problems of the day. Our immigration system should be structured in a way to recruit people with skills in STEM fields. This bill is a good first step to changing our system to a merit-based one. Enhancing our legal immigration channels should be a top priority, and I am committed to working on ways to do that for all sectors of the economy.

I hope the majority will reconsider, and allow the Senate to call up and pass the STEM Jobs Act and send it to the President. It would be a signal to the American people that we can work together to enact needed immigration reforms.

I yield the floor.

The PRESIDING OFFICER. The Senator from Texas.

Mr. CORNYN. Mr. President, I appreciate the remarks of the distinguished Senators from Iowa, North Dakota, and Kentucky.

I think what people find so maddening about Congress and Washington, DC, is even when we agree, we still cannot seem to get anything done. How is it that we can agree on the importance of additional STEM green cards and still not be able to get anything done? This is not about what is perfect, but this is about what is possible given what has happened in the House of Representatives.

We could do this today and send it to the President of the United States in

the next couple of days so he can sign it. The question is, How many more years will pass while we have these highly qualified students who graduate from our own colleges and universities with master's degrees and Ph.D.s in science, technology, engineering, and math before we finally address the problem?

I realize there is other legislation people would like to have considered, but this has actually passed the House of Representatives.

I remember the hearing we had in the Senate Judiciary Subcommittee on Immigration of which I am the ranking member. The Senator from New York said at that time—and this would not be a surprise to him since these are his own words, and it is consistent with what he said on the Senate floor:

If we do not enact an immigration policy that continues to attract the world's best minds, we will cease to be the world's economic leader.

That is why I call this a self-inflicted wound. If we agree that American workers should get the right of first refusal, but there are not sufficient American workers with the qualifications in these important fields, why in the world would we not allow the creation of jobs and new enterprises that would come with the STEM Jobs Act that has passed the House?

I have a series of letters: one from the chancellor of the University of Texas System, Texas A&M University System, Texas Tech University System, the University of Houston System, the University of North Texas, and the Texas State University System in support of STEM legislation. I also have a letter from Rice University president David Leebron supporting this same type of legislation.

I have a letter dated June 25, 2012, addressed to President Obama, Leader REID, Leader MCCONNELL, Speaker BOEHNER and then-Leader PELOSI from the Partnership for a New American Economy signed by the presidents or chancellors of 42 public and private universities. I have a letter to Congress from the Information Technology Industry Council, Partnership for a New American Economy, and the U.S. Chamber of Commerce supporting STEM immigration reform such as this bill.

I have another letter dated November 15, 2012, to Members of Congress from the American Council on International Personnel and the Society for Human Resource Management supporting this type of STEM legislation. I have another letter dated September 19, 2012, to Speaker BOEHNER, Leader CANTOR, Whip MCCARTHY, Minority Leader PELOSI, and Minority Whip HOYER from CONNECT, a U.S. San Diego tech transfer commercialization enterprise.

I also have a letter from the president of Baylor University in support of STEM legislation.

I ask unanimous consent that the letters I just referenced be printed in the RECORD at this time.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

DECEMBER 4, 2012.

STATEMENT ON VISAS FOR STEM GRADUATES FROM TEXAS PUBLIC UNIVERSITY SYSTEM CHANCELLORS

As chancellors of the six Texas public university systems, we recognize the important role the fields of science, technology, engineering, and mathematics (STEM) play in American competitiveness.

We understand Senator John Cornyn plans to pursue legislation during the remaining days of the 112th Congress aimed at providing more visas for foreign graduates of American universities in the STEM fields. Industry and academia, particularly in Texas, face critical shortages in the availability of qualified job applicants in these fields. While we are actively engaged—through education outreach and engineering extension—in preparing Texas residents for success in the STEM fields, we recognize the need to address existing shortages in these critical fields through a pathway for international students already enrolled at our institutions in these disciplines.

The severity of this situation was highlighted in the recently published National Research Council report, *Ten Breakthrough Actions Vital to Our Nation's Prosperity and Security*. The report focuses on the role research universities play in protecting the future of America and recommends actions that should be taken separately and jointly by universities, states, and the federal government. The report specifically calls on the federal government to streamline the processes that impact the ability of international innovators to remain in our country and contribute to its prosperity.

We applaud Senator Cornyn for his leadership and focus on this issue. We urge Congress to work toward a bipartisan solution to this important component of job growth and our nation's innovation agenda.

RICE UNIVERSITY,
Houston, TX, December 4, 2012.

Hon. JOHN CORNYN,
U.S. Senate, Hart Senate Office Building, Washington, DC.

DEAR SENATOR CORNYN, I write on behalf of Rice University to support the STAR Act and all efforts to make it easier for foreign students who receive advanced degrees in the STEM fields to remain in the United States and put their educations and skills to work on behalf of the country. These students are among the best and brightest in the world and, equipped with a Rice University or other U.S. education, will have much to contribute to business and job creation and economic growth.

Rice University is proud to be based in Houston, Texas, and to educate leaders and generate research and knowledge that contribute in major ways to the vigor of our state and country. We are equally proud to have more than 10 percent of our undergraduate students and about 40 percent of our graduate students from other countries. The fact that we can attract the best and the brightest from throughout the world is a significant strength, but to lose those students after graduation because of overly restrictive immigration policies is a distinct weakness for our state and country. We should not send that education and talent away.

There is a case to be made for comprehensive immigration reform, but the STAR Act makes significant progress towards that goal. We would be happy to contribute our faculty expertise if you would find that helpful. Thank you for your leadership on this issue.

Sincerely,

DAVID W. LEEBRON,
President.

PARTNERSHIP FOR A NEW
AMERICAN ECONOMY,

President BARACK OBAMA,
*The White House, 1600 Pennsylvania Ave.,
Washington, DC.*
Sen. HARRY REID,
*Senate Majority Leader, Hart Senate Office
Building, Washington, DC.*
Hon. JOHN BOEHNER,
*Speaker of the House, U.S. Capitol,
Washington, DC.*
Sen. MITCH MCCONNELL,
*Senate Republican Leader, Russell Senate Of-
fice Building, Washington, DC.*
Hon. NANCY PELOSI,
*Democratic Leader, U.S. Capitol,
Washington, DC.*

DEAR MR. PRESIDENT, MAJORITY LEADER REID, REPUBLICAN LEADER MCCONNELL, SPEAKER BOEHNER, AND DEMOCRATIC LEADER PELOSI: As leaders of universities educating the creators of tomorrow's scientific breakthroughs, we call on you to address a critical threat to America's preeminence as a global center of innovation and prosperity: our inability under current United States immigration policy to retain and benefit from many of the top minds educated at our universities.

From the industrial revolution to today's information age, the United States has led the world in creating the inventions and ideas that drive economic prosperity. America's universities are responsible for 36 percent of all research in the country, including 53 percent of all basic research, and they help keep America at the forefront of the 21st century economy. The Federal Government has recognized the importance of university research by providing roughly 60 percent of all academic R&D funding.

American academic research has benefited from the fact that the US remains a top magnet for the world's best and brightest students and graduates 16 percent of all PhDs worldwide in scientific and technical fields. In 2009, students on temporary visas were 45 percent of all graduate students in engineering, math, computer science and physical sciences—earning 43 percent of all master's degrees and 52 percent of all PhDs. New research shows that in 2011, foreign-born inventors were credited contributors on more than 75 percent of patents issued to the top 10 patent-producing universities in the United States—irrefutable proof of the important role immigrants play in American innovation. These inventions lead to new companies and new jobs for American workers, and are an enormous boon to our economy.

But after we have trained and educated these future job creators, our antiquated immigration laws turn them away to work for our competitors in other countries. Low limits on visas leave immigrants with no way to stay or facing untenable delays for a permanent visa. Top engineers from India and China face wait times of up to 9 years to get a permanent visa, and new applicants from these countries may face considerably longer waits. And while we turn away these American-educated, trained and funded scientists and engineers, there is a growing skill gap across America's industries. One quarter of US science and engineering firms already report difficulty hiring, and the problem will only worsen: the US is projected to face a shortfall of 230,000 qualified advanced-degree workers in scientific and technical fields by 2018.

The US cannot afford to wait to fix our immigration system. Even as we send away highly skilled workers trained at American universities, competing economies are welcoming these scientists and engineers with streamlined visa applications and creating dedicated visas to ensure that the foreign students who graduate from their own universities can stay and contribute to the local economy. We ask you to work together to develop a bipartisan solution that ensures our top international graduates have a clear path to a green card, so they can stay and create new American jobs. Recent polls show that there is broad, bipartisan support for this reform, and that the American people want our leaders in Washington to act. Now is the time to do so and ensure that the US remains the world's leading home for innovators.

Sincerely,

DECEMBER 4, 2012.

TO THE MEMBERS OF THE UNITED STATES CONGRESS: The Information Technology Industry Council, the Partnership for a New American Economy, and the U.S. Chamber of Commerce recently joined together to prepare a new report, released last week, "Help Wanted: The Role of Foreign Workers in the Innovation Economy". According to the report, foreign-born professionals in the fields of Science, Technology, Engineering, and Mathematics (STEM) are complementing—not displacing—their U.S. counterparts and the U.S. economy is in need of more STEM talent.

As Congress deliberates initiatives to reform our immigration system—including expanding visas for those with advanced STEM degrees earned at U.S. universities—the report provides evidence of critical labor force needs in America's innovation economy.

There is universal agreement that reforming U.S. education and job training to encourage more U.S. students to enter STEM occupations is essential to a strong economy. Yet these fixes will take years to yield results, and many of the talented STEM workers who could fill the gaps in our labor force are already here training in American universities. Reforming American immigration laws to allow foreign-born STEM students who earn advanced degrees from U.S. universities to stay and work in jobs where there are no available qualified American workers will fill an immediate need and promote economic growth and job creation.

Our report analyzes data from the U.S. Census and the U.S. Department of Education Integrated Post-Secondary Education Data System (WEDS) to examine employment in the STEM fields. The report confirms that:

There is full employment for U.S. STEM workers with advanced degrees: While the current national unemployment rate hovers

around 8 percent, the unemployment rate for United States citizens with PhDs in STEM fields is just 3.15 percent, and 3.4 percent for those with master's degrees in STEM fields. Given that the U.S. government has defined "full-employment" to be 4 percent, this suggests a skills shortage of STEM professionals with advanced degrees.

In many STEM occupations, unemployment is virtually non-existent: Unemployment is particularly low in STEM occupations such as Petroleum Engineers (0.1 percent), Computer Network Architects (0.4 percent), Nuclear Engineers (0.5 percent), Environmental Scientists and Geoscientists (1.2 percent), Database Administrators (1.3 percent), Statisticians (1.6 percent), Engineering Managers (1.6 percent), and Aerospace Engineers (1.9 percent).

STEM fields employ a far higher proportion of foreign workers than non-STEM fields: In STEM fields, 26.1 percent of workers with PhDs are foreign born, as are 17.7 percent of workers with master's degrees. In comparison, in non-STEM fields, just 6.4 percent of doctoral workers and 5.2 percent of master's workers are foreign born.

STEM fields with high percentages of foreign STEM workers have low unemployment rates for US workers: Although nearly 25 percent of medical scientists are foreign born, United States medical scientists enjoy an unemployment rate of just 3.4 percent, fully five percentage points lower than the non-STEM unemployment rate (8.4 percent). Similar stories exist for STEM occupations such as physical scientists and computer software designers, where immigrants make up more than 20 percent of the field and unemployment is just 4 percent. Unemployment across all STEM occupations is just 4.3 percent, and the unemployment rate is even lower in 10 of the 11 STEM occupations with the largest proportion of foreign workers.

Foreign-born STEM workers are paid on par with US STEM workers: There is no verifiable evidence that foreign-born STEM workers adversely affect the wages of American workers by providing a less expensive source of labor. The average STEM worker actually makes slightly more than his or her United States counterpart, earning on average \$61 more per week.

These findings reaffirm a December 2011 report, "Immigration and American Jobs," released by the American Enterprise Institute and the Partnership for a New American Economy, which found that every foreign graduate with an advanced degree from a U.S. university who stays and works in a STEM field, creates an average of 2.62 new jobs for American workers.

We are committed to reforming our immigration system in ways that advance U.S. competitiveness, innovation, and job creation, and look forward to working with you to achieve this important goal.

Sincerely,

AMERICAN COUNCIL ON INTER-
NATIONAL PERSONNEL AND SOCIETY
FOR HUMAN RESOURCE MANAGE-
MENT

November 15, 2012.

DEAR MEMBER OF CONGRESS: As you consider measures in the lame-duck congressional session to restore America's fiscal health and put our economy back on track, the American Council on International Personnel (ACIP) and the Society for Human Resource Management (SHRM) urge you to act on a key high-skilled legal immigration reform that has bipartisan support and the

backing of the U.S. business community, and that will help jumpstart U.S. growth and job creation: making green cards available for foreign-born holders of U.S. STEM advanced degrees who have a job offer.

Highly educated, foreign-born professionals have a long history of making great contributions to our economy, and this legislation will help U.S. employers to more easily recruit, hire and retain these job creators and innovators. The visas would be immediately available to these professionals, helping them avoid the decades-long green card backlog that currently plagues top talent trying to contribute to our country. This legislation will help reenergize America's competitiveness at an extremely critical time.

Our organizations, now strategic affiliates, represent thousands of employers across the country working hard to grow America's economy. While there is much to be done in the next session, this small step now will pay big dividends in keeping our economy on the right track until more comprehensive reforms can be enacted.

We encourage Congress to start building the necessary consensus needed for future immigration legislation by sending this bipartisan reform to the president for enactment before year's end.

Sincerely,

LYNN SHOTWELL,
Executive Director,
ACIP.

CONNECT,
September 19, 2012.

Speaker JOHN BOEHNER,
Majority Leader ERIC CANTOR,
Majority Whip KEVIN MCCARTHY,
Minority Leader NANCY PELOSI,
Minority Whip STENY HOYER,
House of Representatives,
Washington, DC.

DEAR LEADERS OF THE U.S. HOUSE OF REPRESENTATIVES, As a leading voice for tech start-up and emerging companies, CONNECT applauds you for your efforts to address a critical innovation policy issue by bringing to a vote the STEM Jobs Act of 2012, H.R. 6429. This important legislation will spark innovation across the U.S. and assist start-up company growth, which remains America's best job-creating engine.

CONNECT was birthed out of the University of California—San Diego over twenty-five years ago with the mission to propel creative ideas and emerging technologies to the marketplace by training entrepreneurs and connecting them to the comprehensive resources they need to sustain viability and business vibrancy. Since 1985, CONNECT has assisted in the formation and development of over 3,000 companies and is recognized as one of the world's most successful regional innovation development programs. In 2010, CONNECT won the Innovation in Economic Development Award in the Regional Innovation Clusters category presented by the U.S. Department of Commerce's Economic Development Administration.

Although much of the discussion regarding STEM visa reform centers around the benefits that will accrue to larger companies in the tech sector, it should not be overlooked that a STEM visa reform proposal like H.R. 6429 will facilitate new STEM grads to also be hired by startup and emerging companies. As both the Small Business Administration and the Kauffman Foundation have confirmed, the vast majority of America's net job growth in recent years has come from startup and emerging companies. Allowing

foreign-born STEM graduates to stay in the U.S. to work in startup and emerging companies will help keep America at the edge of the frontier of global competitiveness. However, that edge is being aggressively trimmed by our foreign competitors. Thus, it is imperative we retain U.S.-educated, foreign-born STEM talent instead of forcing them to find jobs overseas with global competitors.

There is much talk in Washington about helping start-up businesses, but the STEM Jobs Act takes tangible action toward achieving that goal. We commend you for advancing this solution that will have real-world benefits for America's entrepreneurs and innovators.

In CONNECT's "Innovation Agenda for the 112th Congress" and "Seven Innovation Policy Ideas to Spark an American Recovery," we endorsed STEM visa reform. Continuing that long-term commitment in support of the issue, we encourage the House to pass the bill and we stand ready to assist the Senate in its consideration of H.R. 6429.

Sincerely,

TIMOTHY TARDIBONO, M.A., J.D.,
Vice President of Public Policy, CONNECT.

BAYLOR UNIVERSITY,
Waco, TX, December 5, 2012.

Senator JOHN CORNYN,
Hart Senate Office Building,
Washington, DC.

DEAR SENATOR CORNYN: Since 1845, Baylor University has promoted academic excellence and Christian service, and its achievements have been recognized around the world. As a nationally ranked research institution, Baylor is also dedicated to scientific discovery and training the inventors and entrepreneurs who will create the jobs of the future. We now have more than 70 masters and doctoral degree programs, including eleven science, technology, engineering, and math (STEM) programs. Of the Masters and PhD students enrolled in our STEM programs, 13 percent are foreign nationals. Many of these students are listed as co-inventors in patent applications filed by Baylor research teams.

Unfortunately, our innovation efforts are being undermined by U.S. immigration laws. Many of our STEM Masters and PhD students may not be able to obtain an appropriate work visa in industry because of the low cap on the number of such new visas that can be issued. They would have to return to their home country after graduation or obtain a visa in an occupation that is unrelated to their education. The House-passed STEM Jobs Act would create 55,000 additional visas for foreign nationals with an advanced STEM degree from a U.S. research institution. It represents an important step in fixing America's broken immigration system.

I encourage the Senate to pass this legislation.

Sincerely,

KENNETH WINSTON STARR.

Mr. CORNYN. Mr. President, I think the record should be clear that our side of the aisle believes we should act today and not wait and not delay further this important STEM Jobs Act for the very reason I said earlier, which is that it will help job creators and entrepreneurs.

The reason STEM visas are particularly powerful is because these individuals with special expertise in math, technology, engineering, and the like are uniquely qualified to be able to start up new enterprises and to attract and create jobs for other people. In other words, there is a multiplier ef-

fect. For every 1 of the 55,000 green cards that would be created by this act, there are hundreds of thousands of people who would enjoy jobs as a result of the economic activity in this country.

I hope we don't sacrifice another crop of science, technology, and engineering graduates in the hope that we can get the perfect immigration bill. In fact, we know this is a difficult area in which to legislate, and both sides of the aisle know we need to deal with all of the different facets of our broken immigration system. But this bill has passed the House. It is here and now. We could pass it today by unanimous consent but for the objection of our friends across the aisle and the objection, amazingly enough, of the President of the United States who himself has claimed for at least the last 4 years that he is in favor of immigration reform.

It is also an important confidence builder in terms of the acceptance of this legislation by the American people. The American people are justifiably skeptical of Congress passing another omnibus or comprehensive piece of legislation. We tried that before, and we found out that even if people have read bills going into the thousands of pages in length, many times there are unintended consequences.

So I believe it is very important that we start with this important STEM Jobs Act, that we demonstrate we are worthy of the confidence and trust of the American people when it comes to addressing our broken immigration system, in an area where we have consensus such as the STEM jobs field. I tell my colleagues they have my personal commitment that I will be there to work with them to deal with other parts of our broken immigration system as we go forward.

The best way to do that, in my opinion, is to start here. If we can't pass this legislation—and I am skeptical based upon the objection we have heard today—I wonder if we will ever be able to pass immigration reform. If we can't do this consensus bill, tell me one other piece of legislation we could pass in this field by agreement of the political parties and send it on to the President. Indeed, I think there is room to wonder whether some people in this Chamber would prefer to have this an issue they can wield in the next election rather than to join together on a bipartisan basis and to solve what is broken in our immigration system.

Let's start here. Let's build on this. We can do it today if we can just somehow avoid the objections and pass this legislation that has been passed by the House. It passes the STEM visa bill, it keeps families together, and it represents values I would think both sides of the aisle would applaud.

With that, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mrs. MURRAY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. UDALL of New Mexico). Without objection, it is so ordered.

MIDDLE-CLASS TAX CUTS

Mrs. MURRAY. Mr. President, middle-class families in our country today are paying very close attention to what we are doing here in Washington, DC. They really understand what is at stake. They know the impact our decisions will have on their lives, and they keep hoping their elected officials will finally come together around a budget deal that works for them.

Less than a month ago, we concluded an election season that engaged our Nation in a conversation about this very issue. Candidates for the Presidency and for the Senate on down all laid out their positions on some of the key questions we are now hoping to answer. Should the middle-class tax cuts be extended? Should the Bush tax cuts on the rich end? Should we end the Medicare guarantee for our seniors and the next generation?

Well, those big questions were discussed, argued, and clear positions were taken, and voters went to polling places on election day to render their verdict. The outcome was clear. Candidates who stood for the middle class won. Candidates who advocated for our seniors came out ahead. And in exit polls across the country, voters made very clear that they strongly supported the idea that the wealthy should pay higher tax rates and their fair share.

And everyone—Democrat, Republican, Independent; wealthy, low income, middle class; students, workers, retirees; older, younger, and in between—everyone supports extending the tax cuts for the middle class. Nobody thinks the taxes should go up for 98 percent of our workers and 97 percent of our small business owners.

This ought to be easy. The American people just weighed in supporting a continuation of the Bush tax cuts for the middle class. It is a policy Democrats and Republicans agree on, and it would cushion millions of middle-class families across the country from a significant portion of the upcoming so-called fiscal cliff.

So why isn't it already in law? Why aren't middle-class families already able to feel confident in their taxes not going up? Well, for one reason, and one reason alone. House Republicans continue to hold the middle class hostage in a desperate and deeply misguided attempt to buck the will of the people, ignore the results of this election, and protect the wealthiest Americans from paying their fair share. That is all there is to it.

If Republicans truly cared about keeping taxes low for the middle class, they can do it right now. The Senate passed a bill that would extend the tax cuts for 98 percent of families and 97

percent of workers. President Obama said he would sign it into law. He even showed us the pen. All the House has to do is let this bill come up for a vote and pass it and middle-class families can go into these holidays with the certainty they deserve.

I want to be very clear about something because some of my Republican colleagues seem intent on confusing the issue. Republicans do not have to support taxes going up on the rich in order to vote for our bill to keep taxes low on the middle class. Let me repeat that. Republicans can believe that the Bush tax cuts for the rich should be extended, they can remain committed to fighting for that misguided policy, in my opinion, and they can still vote on the portion of the tax cuts we all agree should be extended for the middle class. Then middle-class families would win, we would have worked together to extend tax cuts for 98 percent of workers and 97 percent of small business owners. Then when the middle class is taken care of, I would be happy to engage my Republican colleagues in a debate about extending the Bush tax cuts for the top 2 percent.

But the first step, the most obvious step, is for the Republican House to take the 98 percent both sides agree on, pass our Senate bill, and send it to the President for his signature.

Recently there have been some cracks in the Republican rhetorical armor that has held fast against compromise for years. More and more Republicans have begun to accept in their rhetoric what Democrats—and, frankly, every bipartisan group that has examined this issue—have known all along: A deficit deal is going to have to be balanced. It is going to have to include new revenue from the wealthiest Americans.

Grover Norquist calls these “impure thoughts,” but to most Americans it is common sense. Now the onus is on Republicans—and especially their leadership—to follow this encouraging rhetoric with some action. So far that has been lacking.

The lengths to which Republicans are now going in order to protect the rich from paying higher rates would be comical if it were not so detrimental. They say they have accepted that revenue needs to be on the table, but then the proposal that Speaker BOEHNER made to the President would actually cut rates for the rich. It lacks any details about where that claimed revenue would come from. And just as independent analysts confirmed about the Ryan plan, and just as we saw in the Romney plan, when you are talking about simply closing loopholes and ending deductions, either the math does not add up or the middle class ends up bearing the entire burden.

Republicans are tying themselves in knots to avoid the obvious: The easiest way to raise revenue from the wealthiest Americans is simply to allow the Bush tax cuts for the top 2 percent to expire as scheduled. That is what the

Democrats want, it is what the American people support, and it would move us a long way toward the balanced and bipartisan deal we are all working to get to.

My colleague in the House of Representatives, Minority Leader PELOSI, is circulating a discharge petition to bring the Senate bill to the House floor. I strongly support this move, and I urge House Republicans to sign on and allow this legislation to come to the floor for a vote.

Democrats have proven we are willing to make the tough compromises that a balanced and bipartisan deal will require. And we have been very clear we will not allow Republicans to push through a bad deal that forces seniors and the middle class to bear this burden all alone.

I am hopeful Speaker BOEHNER and House Republicans will decide to stop holding the middle class hostage, allow the Senate bill to come to the floor, put it up for a vote, and give our middle-class families the tax cuts on which we all agree.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. COONS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MALI

Mr. COONS. Mr. President, I rise today to address a challenging situation in Mali. Mali is a west African country, a country of nearly ½ million square miles, a vast country that stretches from the Sahara Desert to the Niger River area and is home to roughly 15 million people. Yet it is not at the top of the list of concerns for many Americans.

This spring, back in March, a rogue element in Mali's security forces launched a coup and forcefully overthrew a longstanding, democratically elected government in the nation of Mali, our ally. This may seem inconsequential to the average American, but it could have big implications for our security, as well that of our regional and global allies, because in the power vacuum created in that spring coup, al-Qaida saw an opportunity, and they stepped in. Three different extremist groups, all linked to or controlled by al-Qaida in the Islamic Mahgreb, or AQIM, now control an area the size of Texas in the northern part of Mali. They succeeded in fracturing a formerly stable democracy and contributing to broad security, political, and humanitarian crises that I believe have grave implications for the Sahel region and for America's interests. To put it simply, this matters.

Mali, a relatively strong democracy for more than two decades and an ally

to the United States, is now embroiled in turmoil. The United States, in partnership with the international community, must show leadership in helping it rebuild its democracy and restore its territorial integrity by reclaiming northern Mali from terrorists and extremists. So this morning, as the chair of the African Affairs Subcommittee of the Foreign Relations Committee, I chaired a hearing to assess the developments and the path forward for U.S. policy in Mali.

What I heard from our experts, from the Department of Defense, from the State Department, from the USAID, as well as a range of outside experts and one witness who testified from Bamako, the capital of Mali, was of real concern to me.

Northern Mali today is the largest terrorist-controlled area in the world. In the north, extremists have imposed a harsh and strict version of Sharia or Islamic law and committed gross violations of human rights. Many folks have heard of Timbuktu but don't know that it is an ancient city in northern Mali, a site where these Islamic extremists have behaved much as the Taliban did in Afghanistan before 9/11. They destroyed sacred religious and historic artifacts in Timbuktu, imposing a harsh version of Sharia that has meant amputations, stonings, violations of women's rights of free speech, religious exercise of rights, fundamentally changing the tolerance and exclusive history of Mali.

This created a humanitarian crisis as more than 400,000 Malians have fled, either internally displaced within Mali or going into neighboring countries as refugees.

With growing ties between these terrorists and Nigeria, Libya, and throughout the region, AQIM, we believe, may now use its safe haven in northern Mali to plan for regional or transnational terrorist attacks. Just as we should not have ignored developments in Afghanistan, which seemed a remote and troubled country when the Taliban took it over more than a dozen years ago, so too we would ignore the chaos in northern Mali at our peril.

In fact, Secretary Clinton has said that Mali has now become a powder keg of potential instability in the region and beyond. The top American military commander in Africa, GEN Carter Ham, said publicly just this week that al-Qaida is operating terrorist camps in northern Mali and is providing arms, explosives, and financing to other terrorist groups in the region. So I believe it is critical that the United States has a strong and comprehensive policy to deal with this threat.

I am concerned that the current U.S. approach may not be forward leaning enough to address all three crises—security, political, and humanitarian—in a coordinated, comprehensive, and effective way at the same time. Given the compelling U.S. interest in stability, security, and good governance

in Mali, we must ensure that we don't miss the bigger picture of what this situation means for the future of Mali, to our allies, and to our security.

The U.N. Security Council is now considering what they call a concept of operations for an African-led military operation. The United States can and should play a more active role in supporting this and preventing the country from becoming a permanent home for extremists and a safe haven for terrorists.

An active role does not mean putting American boots on the ground. Instead, we can provide operational support for a regionally led, multilateral, African-led force being organized by ECOWAS, the Economic Community of West African States, and the African Union. In the weeks ahead the U.N. Security Council will likely vote on a resolution authorizing this coalition to lead a military intervention to dislodge the terrorists in the north. We have seen models like this work in Cote d'Ivoire and Somalia, so there is reason to believe in the potential of a regional military solution to the security crisis in the north.

However, even if this intervention works, it will take time to train, equip, and assemble the regional force and to develop the appropriate plans for what happens during and after a military intervention. Frankly, Mr. President, security and stability can't be restored to Mali with military action alone. The current crisis is as much about governance as it is about security. A stronger Malian democracy is the best way to ensure security and societal gains in the short term and the long term, but democracy doesn't just begin or end with an election.

One of the reasons Mali's democracy crumbled so quickly was that Malians didn't feel connected to, represented, or well served by their government. Voter turnout in the last few elections was lower and lower, with the government viewed as corrupt, social services not benefiting the relatively sparsely populated north, and institutions nationwide that were weak.

The political and security challenges in Mali are two sides of the same coin; they are not separate issues. I will urge that we break down silos between departments and agencies in our government and take a comprehensive view.

If we focus on the political only and insist on Mali moving forward briskly with an election even when the security situation will prevent most northern Malians from meaningfully participating, I think we risk unintentionally strengthening the hands of those who want to ensure that Mali's regional divide is permanent and hand a symbolic victory to al-Qaida.

On the other hand, if we rush forward with a security solution, with a regional military intervention before it is adequately planned, before they are responsibly trained and equipped, we risk defeat on that front as well.

I think we can and should do better. We can work closely with our allies,

with regional partners in the international community to address all the security, political, and humanitarian crises unfolding in Mali. Effective, inclusive elections early next year should be one goal but not the only one. We also have to address the ongoing humanitarian crisis of the 400,000 displaced persons and refugees, the more than 4.5 million people in need of emergency food aid in the region, and the security crisis of terrorists controlling an area this large.

To bring long-term peace and stability to Mali and to ensure northern Mali doesn't slide into being the base of operations for the next al-Qaida attack on our allies, our interests abroad, or even the United States, we can't afford to ignore any of the pieces of this complex puzzle. The United States simply cannot afford, despite the many distractions and other priorities facing us, to ignore Mali.

I pledge to work in close partnership with my colleagues in the Senate and with my friends on the Senate Foreign Relations Committee to ensure an effective engagement by the United States in this important area.

I yield the floor.

EXTENSION OF MORNING HOUR

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent morning business be extended until 2 p.m., with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

The PRESIDING OFFICER. The Senator from Rhode Island.

CLIMATE CHANGE

Mr. WHITEHOUSE. Mr. President, last week I came to the floor and spoke about our Nation's military and intelligence leaders acknowledging, along with our Nation's scientific leaders, the clear evidence that carbon pollution is changing our climate. Unfortunately, there continues to be some confusion among many Americans regarding the clear scientific consensus, but that is confusion caused by coordinated and deliberate attempts to mislead the American people.

For more than two decades now, the climate denial movement has been well-organized and funded by the fossil fuel industry and conservative ideologues and foundations. The mission of these paid-for deniers is to "manufacture uncertainty," to manufacture doubt so the polluters can keep on polluting.

This isn't a new strategy. We have seen self-serving strategies such as this before. These strategies questioned the merits of requiring seat belts in cars. They questioned CFCs causing deterioration of the ozone layer. They questioned the toxic effects of lead exposure for children. They questioned whether tobacco was really bad for people—the same strategy to manufacture

doubt, and often, actually, the same cast of characters was involved.

While the Congress of the United States has been distracted and deceived by these ploys, climate change marches on. The laws of chemistry and the laws of physics don't care about the nonsense we are up to in this building. They do what the laws of chemistry and physics say. Precious time is wasting. In the balance hangs lives and jobs. This nonsense has gone on long enough.

The public is being misled. Special-interest dollars pull the strings of sophisticated campaigns to give the public the impression that there is a real scientific debate regarding whether climate change is happening. Well, there isn't. There just isn't. The real scientific debate is about how bad the changes will be.

Here is one example out of my home State, the Warwick Beacon, in an article entitled, "Sandy: A wake up call to climate change." It describes the head of our Coastal Resources Council, saying—he is talking about the sea level rise:

I can tell you that it is real. I can't tell you how fast or how bad it is.

That is what I said. The real scientific debate is actually about how bad the changes are going to be.

To manufacture doubt to allow the polluters to keep polluting, skeptics with little training in climate science are promoted as experts. Front groups such as the Global Climate Coalition, Information Council for the Environment, Heartland Institute, Annapolis Center and Cooler Heads Coalition are created or enlisted to propagate this message of doubt. Deniers question the motives and engage in harassment of the real credentialed climate scientists.

Well, for the record, there has been scientific debate regarding climate change. Ideas have been tested, theories have been ventured, and the evidence keeps coming back to the same conclusion: Increased carbon dioxide in the atmosphere from human-related sources is strengthening the greenhouse effect, adding to recent warming and acidifying the oceans.

Actually, the evidence coming in tends to confirm the worst and most dangerous projections. Claims, for instance, that solar activity is causing recent global warming, and even about whether the atmosphere is really warming, have been settled. But when the scientific research doesn't work out for the skeptics, they turn to straw man arguments. One straw man is that extreme weather events such as hurricanes and droughts aren't proof of climate change.

Well, let's be clear. No credible source is arguing that extreme events are proof of climate change. But extreme events are associated with what has been staring us in the face for years: The average global temperature is increasing, average sea level is rising, and average ocean acidity is in-

creasing. When averages change, extremes usually change with them, and a warming climate, to use the best example, loads the dice—loads the dice for extreme weather.

So let's look at some of the games that the deniers display to try to manipulate public opinion. One gimmick they have reverted to is the observation that there has been no warming trend in the last 10 years—no warming trend, they say, in the last 10 years.

In 2010, a Republican Senator said: I don't think that anyone disagrees with the fact that we actually are in a cold period that started about 9 years ago.

Well, let's look at the facts. Let's start with the green line on this graph. The green line is the global surface temperature data. It is not a projection, it is not a hypothesis, it is a measurement. This is global surface temperature data. As you can see, it changes monthly.

The red line that goes through it is the trend line that is mathematically developed from that data. That trend line is the product of basic and undeniable mathematics.

The trend is extremely clear.

So let's look at what the deniers do with the very same data. Here they take the very same data, and the green line is unchanged. It is exactly the same data, and this is how they get to saying that we have had a cooling period for the past 10 years. They pick a high point, and they pick a low point out of this data, and they say that is their 10-year cooling period.

The problem is, if you go back, here is another one, here is another one, here is another one, and here is another one. It is interesting how all the cooling periods stack up to an increase.

It is a little bit like—who was the guy on the radio? He explained something to you, and it didn't seem quite right. Then he would say: "Paul Harvey, what's the rest of the story?"

So the rest of the story is that if someone picks one piece of data out of a line that is going like this and then they go forward and pick a lower one later, they can manufacture the hypothesis there has been no warming trend in the last 10 years. But if we do it legitimately, if we run an actual trend line with mathematical precision through the data, it shows this theory is nothing but misleading bunk—misleading bunk—designed for the purpose of creating confusion.

This period, of course, is only a recent portion of the temperature record. When skeptics and deniers look deeper into the past, they find even more strawmen—that the Earth's climate always changes; that it has been warmer in the past. Yes, the Earth has seen different climates in the past, not all ones we would necessarily want to live in, by the way. The reason we know about these climates is because of the excellent work done by scientists—the same scientists who tell us that recent climate change can only be explained by increased carbon dioxide in the atmos-

phere. The final classic is that more carbon in the atmosphere is good because it provides more food for plants, the old plant food theory.

The fact is we have changed the composition of our atmosphere, pushing the concentration of carbon dioxide beyond the range it has been in for 8,000 centuries. For 8,000 centuries, it has been between 170 and 300 parts per million. For the first time this past year, it touched 400 parts per million in the Arctic. To give a time scale of what 8,000 centuries means, the practice of agriculture has been around for about 100 centuries. That is 8,000 centuries in this safe zone of carbon concentration of our atmosphere, with only 100 centuries of those with the human species, even farmers. Modern humans began to migrate out of Africa 600 centuries ago. Once again, 8,000 centuries of this safe climate belt of carbon concentration and 600 centuries of our species leaving Africa and migrating to populate the rest of our planet. Homo sapiens, our species, appeared around 2,000 centuries ago.

We are messing with planetary concentrations of atmospheric carbon that go back four times longer than our species has inhabited this planet. In all that time, in those 8,000 centuries, the Earth has never reached carbon dioxide concentrations as we have caused now through human activity.

Deniers also tend to just flat ignore the facts they can't explain away or gimmick the data for. For example, the increased acidification of the oceans, that is something that is simple to measure. It is undeniably chemically linked to carbon concentrations in the atmosphere. So we hear nothing about ocean acidification from the deniers. But ocean acidification is possibly the most disastrous consequence of our carbon pollution. The rate of change in acidity of our oceans is already thought to be faster than at any time in the past 50 million years.

I was talking a moment ago about being outside a boundary of carbon concentration or atmosphere that has persisted for 8,000 centuries. We are talking now about a rate of change of acidity in the ocean that hasn't been seen on this planet in the past 50 million years. A paper published this March in "Science" concluded the current rate of carbon dioxide emissions could drive chemical changes in the ocean unparalleled in the last 300 million years.

We are effecting changes in our atmosphere and in our oceans that only compare to ancient periods of geologic time. When we consider the implications for food security, biodiversity, and ocean-based industries, we cannot ignore these changes in our oceans.

Coincidentally, just last Friday, the National Oceanic and Atmospheric Administration proposed listing 66 species of coral as endangered or threatened and cited climate change as driving three key threats: disease, warmer seas, and more acidic seas.

It might be worth reminding the deniers what NASA says. The National Aeronautics and Space Administration—NASA—says this about climate change and our global temperature rising.

All three global surface temperature reconstructions show that Earth has warmed since 1880. Most of this warming has occurred since the 1970s, with the 20 warmest years having occurred since 1981 and with all 10 of the warmest years occurring in the past 12 years. Even though the 2000s witnessed a solar output decline resulting in an unusually deep solar minimum in 2007–2009, surface temperatures continue to increase.

On ocean temperatures and sea level rise, NASA said:

The oceans have absorbed much of this increased heat, with the top 2,300 feet showing warming of 0.302 degrees Fahrenheit since 1969. Global sea level rose about 6.7 inches in the last century. The rate in the last decade, however, is nearly double that of the last century.

On ocean acidification, this quote from NASA:

Since the beginning of the Industrial Revolution, the acidity of surface ocean waters has increased by about 30 percent. This increase is the result of humans emitting more carbon dioxide into the atmosphere.

Let me say that again:

This increase is the result of humans emitting more carbon dioxide into the atmosphere. The amount of carbon dioxide absorbed by the upper layer of the oceans is increasing by about 2 billion tons per year.

NASA scientists put a man on the Moon. NASA scientists have a rover right now driving around on the surface of the planet Mars. They are not the quacks. Our Nation's best and brightest minds accept the evidence of climate change and they are urging us to act.

Yet still, for some in this body, the deniers carry the day. Why? In a weekend editorial entitled "Flight from Facts"—"Flight from Facts"—my home State Providence Journal said:

[The] GOP is winning the race to avoid evidence—some of this escapism based on a desire to hold on to what had been comforting, if error-based, traditional beliefs, and some of it to avoid policies that might be economically and otherwise inconvenient.

Whatever the reason, the price of our folly will be very high for future generations.

One of the things I have noticed on this floor is that when it is a question of putting the cost of taking care of their grandparents on our children and grandchildren, oh, how the Republican crocodile tears flow about that unfair burden on children and grandchildren. In one of their attacks on Medicare and Social Security, which the Republicans like to call entitlements, we heard this:

We have got a serious spending problem here . . . and we need to have an impact on entitlements . . . if we're going to have entitlements for our children and grandchildren when they reach retirement age, we have got to change the trajectory.

The minority leader has also spoken about what appears in his remarks to be the health care bill—the ObamaCare

bill—and he worried about it "creating a more precarious future for our children."

The minority leader has said this about the stimulus effort to get our economy back on its feet: "This needs to stop for the future of our country and for our children and for our grandchildren."

When it is the deficit, he has urged us "to make sure we have the same kind of country for our children and grandchildren that our parents left for us." He has even talked about "the Europeanization of America," and as a result of that Europeanization of America—whatever that is—he has said, "Our children and grandchildren could no longer expect to have the same opportunities that we've had."

On virtually every traditional anti-Obama Republican tea party bugbear—Medicare, ObamaCare, the stimulus, the deficit, even this Europeanization of America—out come the children and grandchildren. Let's assume they are sincere. Let's assume they have a sincere concern for what we are leaving to our children and grandchildren.

So when it comes to big corporate polluters of today leaving our children and grandchildren a damaged and more dangerous planet, where then is the concern for those children and grandchildren? To have children and grandchildren pay for the care of their grandparents through Medicare and Social Security is some kind of sin or outrage, but to force on those same children and grandchildren the untold costs and consequences of the harms done by today's corporate polluters, what do they have to say about that? For that, the future generations' interests receive nothing from the Republican Party but stony silence or phony and calculated denial.

But the cost will be on them. The cost of our negligence and folly in not addressing our carbon pollution will fall on our children and our grandchildren. The cost will be on them and the shame will be on us.

I yield the floor, and I suggest the absence of a quorum.

RUSSIA TRADE RELATIONS

Mr. WICKER. Mr. President, in a few moments the distinguished chair of the Finance Committee and the Senator from Utah will commence debate on H.R. 6156, the Russia and Moldova

Jackson-Vanik Repeal and Sergei Magnitsky Rule of Law Accountability Act of 2012. Because of scheduling concerns, I am speaking on this in morning business, and that will allow time for other Members to speak.

I come to the floor today to support this bill. It has a very important twofold purpose: It approves normal trade relations with Russia, and at the same time the legislation insists that the Russian Government adhere to the rule of law. It does so by putting consequences in place for those in Russia who abuse basic human rights.

Granting PNTR to Russia is a big win for Americans. If Congress does not act, American workers, including millions employed by small businesses, stand to lose out to foreign competitors as Russia opens its market as a new member of the WTO.

Many in my home State of Mississippi and around the country deserve to benefit from increased trade that this new relationship would bring. More jobs and greater economic growth are our potential rewards here in the United States. Last year Mississippi's \$55 million in exports to Russia helped support an estimated 170 jobs. Certainly this number needs to grow, and I believe it will under this legislation.

Yet in realizing the immense trade potential at hand, we cannot ignore the urgent need to address serious concerns about Russia's appalling human rights record. Most agree that the Jackson-Vanik amendment currently in place is an outdated restriction on trade which could hurt American competitiveness. But repeal alone will not suffice when dealing with a country that continues to protect corrupt officials, and that is what the Russian Government continues to do.

The Sergei Magnitsky Rule of Law Accountability Act is a necessary replacement for Jackson-Vanik. The legislation targets human rights violators by imposing restrictions on their financial activities and travel. It recognizes that the privilege of using America's banking system and acquiring a U.S. visa should be denied to those who disgrace human dignity and justice.

Facts need to be retold today about the case of Sergei Magnitsky after whom this legislation is named. Sergei Magnitsky was a lawyer and partner with an American-owned law firm based in Moscow. He was married and had two children. In his investigative work on behalf of the Hermitage Fund, the largest foreign portfolio investor in Russia, Mr. Magnitsky uncovered the largest tax rebate fraud in Russian history. He found that Russian Interior Ministry officers, tax officials, and organized criminals had worked together to steal \$230 million in public funds.

In 2008 Mr. Magnitsky voluntarily gave sworn testimony against officials from the Interior Ministry, Russian tax departments, and the private criminals whom he discovered were complicit in the fraud. A month later, instead of being commended for doing the right

thing, Mr. Magnitsky was arrested in front of his wife and children and placed in pretrial detention. He was held without a trial for 1 year. The Russian Federal Security Service deemed Mr. Magnitsky was a flight risk to prolong his detention, based on false claims that he had a U.K. visa application.

While in custody, Mr. Magnitsky was tortured by officials, hoping he would withdraw his testimony, and falsely incriminate himself and his client. Refusing to do so, his conditions and his health worsened. He stayed in an overcrowded cell with no heat, no sunlight, and no toilet. The lights were kept on throughout the night to deprive him of sleep. Mr. Magnitsky lost 40 pounds and suffered from severe pancreatitis and gallstones.

Months went by without any access to medical care. Despite hundreds of petitions, requests for medical examination and surgery were denied by Russian Government officials. So were family visits. After his arrest Mr. Magnitsky saw his wife once and never again saw his children.

On November 13, 2009, Sergei Magnitsky's condition deteriorated dramatically. Doctors saw him on November 16. He was transferred to a Moscow detention center that had medical facilities and, instead of being treated there immediately, he was placed in an isolation cell, handcuffed, beaten, and subsequently Sergei Magnitsky died.

After his death, Russian officials repeatedly denied the facts surrounding his health condition. Requests by his family for an independent autopsy were rejected. Detention center officials said Mr. Magnitsky's abdominal membrane had ruptured and that he died from toxic shock. The official cause of death would blame heart failure.

According to the Russian State Investigative Committee, Mr. Magnitsky was not pressured and tortured but died naturally of heart disease. The committee said his death was "nobody's fault."

For 3 years not a single person has been prosecuted for Mr. Magnitsky's false arrest, torture, murder, or for the massive fraud that he had the courage to expose. Like many of my colleagues, I continue to have real concerns about the current state of human rights and rule of law in Russia. I have come to the floor on numerous occasions demanding accountability for Russia's rampant extrajudicial offenses.

Tragically, Mr. Magnitsky is not the only victim of the country's criminal regime. The cases of Mikhail Khodorkovsky and Planton Lebedev, who remain in prison, are also poignant examples of the corruption that pervades the Russian Government. My friend, the junior Senator from Maryland, has shown tremendous leadership on this issue and I commend him for his steadfast dedication to the highest standard of democracy and justice. I have long supported Senator CARDIN's

efforts to use the Magnitsky Act as a way to protect human rights globally.

The Magnitsky Act is a simple straightforward call for justice. It signals to the world that America will uphold its commitment to the protection of human rights and the rule of law. It is a tool that could be extremely powerful in penalizing human rights violators everywhere. Many of us had hoped to achieve a bicameral consensus in applying the Magnitsky Act globally. Although global language is not included in the House bill being considered today, sanctions against human rights violations in Russia and within the Russian Government are still an important victory. It moves us in the right direction.

I hope we can work in the next Congress to consider broadening the reach of the Magnitsky Act. Russia is not alone in its human rights abuses and the United States' unwavering stance against corruption should not stop there.

PNTR with Russia is an important vehicle for American trade and it should serve as a reminder of our country's role in promoting the advancement of human rights. At the same time, I remain committed to supporting this role as we move forward.

Mr. HATCH. I suggest the absence of a quorum.

RUSSIA-MOLDOVA PNTR

Mr. KERRY. Mr. President, the chairman of the Finance Committee, Senator BAUCUS, is tied up right now with a scheduling conflict, working on the fiscal cliff issue, so he asked me if I would kick off the debate with respect to the Russia PNTR, H.R. 6156, the Russia and Moldova Jackson-Vanik Repeal and Sergei Magnitsky Rule of Law Accountability Act of 2012.

I am very happy to do this on behalf of Senator BAUCUS. We share a great partnership together as chairman of our two committees focused on trade and on the relationship with Russia, both of which come together in the legislation today.

I would be remiss, however, if I didn't say a word about what consumed us yesterday with the vote on the disabilities treaty. It is certainly a moment that stands out in my memories of my time in the Senate. I can't think of any other time when a former majority leader has come to the floor—a veteran—who sought to have his colleagues join together in supporting something that would improve the lives of people with disabilities.

I am not going to go back and reargue it now. That would be fruitless and I think not helpful to where we want to move to. What we want to move to is a place where we can pass this. I can say—I believe this—I can say to Senator Robert Dole that we will pass the disabilities treaty and we will pass it, I believe, early next year. I base that on the fact that some Senators had difficulties with the fact that we are in a lame-duck session and they had signed a letter which, regrettably, some of them didn't digest completely but nevertheless signed, saying they wouldn't take up a treaty in a lame-duck session and I think some felt compelled by that and others felt compelled by other things.

But here is what I think we can do. Starting next year, I believe we can move to additional hearings that can make crystal clear to all colleagues the state, as it may not have been yesterday in some cases, with respect to both the law and the facts as it applies to persons with disabilities. I pledge now to make certain that within the resolution of advice and consent, any concern that was not adequately addressed—I personally believe they were addressed—it is possible we can find the language that will address the concerns of any Senator who yesterday felt—whether it was the United Nations or homeschooling, I believe those things can be adequately addressed. I do know a number of Senators said they would be prepared to vote for it after we are out of the lame-duck session, and I am confident we will pass the disabilities treaty in a different atmosphere and in a different time.

One of the things I learned from my senior colleague Ted Kennedy, who did this for so many years, is that perseverance pays off when the issue is worth fighting for and we always have another day and another vote in the Senate. That always affords us the opportunity to make things right. We are certainly going to try and do that.

This PNTR-Magnitsky bill is, in fact, one of those opportunities where we can start to put the Senate on the right track, and I think all of us look forward to the chance to be able to do that.

This bill passed the House of Representatives by a huge margin of 365 to 43. What it would do is establish permanent normal trade relations for Russia, and it would require the identification and imposition of sanctions on individuals who are responsible for the detention, abuse and death of Sergei

Magnitsky and other gross violations of human rights.

Let me make my best argument, if I can, in favor of the bill, and then I wish to turn the discussion over to the ranking member, Senator HATCH, to present his case for passage. After that, the Presiding Officer of the Senate at this moment, the Senator from Maryland, Mr. CARDIN, will lead a discussion of the provisions of the act related to honoring the memory of Sergei Magnitsky and combating the types of human rights abuses that led to his premature and tragic death. I wish to congratulate the Presiding Officer and salute him for his significant efforts. He has been dogged, and that component of this legislation would not be here today if it weren't for the efforts of the Senator from Maryland. Chairman BAUCUS will then have been able to return to manage the rest of the consideration on the floor at that time.

As the Presiding Officer knows, Chairman BAUCUS and I lead the two Senate committees that are charged with overseeing the twin pillars of America's unique role in the world. Our commitment to open, transparent and free markets and our commitment to democracy and open discourse is a force for international peace. We believe our global economic interests and our foreign policy values are closely tied together. They should be closely tied together. That is why we urge our colleagues to seize this opportunity that Russia's accession to the World Trade Organization presents for both job creation and our ability to bind Russia to a rule-based system of trade and dispute resolution.

Granting Russia permanent normal trade relations is as much in our interests as it is in theirs. Frankly, that is what ought to guide the choices we make in the Senate. The upside of this policy is clear on an international landscape. It is one that rarely offers this kind of what I would call, frankly, a kind of one-sided trade deal—one that promises billions of dollars in new U.S. exports and thousands of new jobs in America. That is certainly in our interests.

Today, Russia is the world's seventh largest economy. Having officially joined the WTO on August 22, Russia is now required by its membership in the WTO to lower tariffs and open to new imports. That sudden jump in market access is, frankly, important to any country that is the first country through the door, and if we don't pass this trade legislation, we will not be among those countries.

I can tell my colleagues Massachusetts, speaking for my State, welcomes access to the Russian market, and we want that access to be played out on a level playing field. The State of Massachusetts exported \$120 million worth of goods to Russia last year, and those exports obviously support hundreds of jobs. But if we don't pass this bill, those exports will face competition from other countries that will not pay

the same high-level tariff we currently pay.

Let's take one specific example. Massachusetts exported \$18.5 million in medical equipment to Russia in 2011, but we face strong competition from China, which has increased its share of the Russian market in each of the last 10 years. We don't shy away from strong competition, but we want that competition to be able to be played out on an even playing field. As long as we don't have normal permanent trade relations with Russia, we are disadvantaging ourselves. It simply doesn't make sense. Since joining the WTO, Russia agreed to reduce average tariffs on medical equipment to 4.3 percent and to cut its top tariffs from 15 percent down to 7 percent. As it stands now, that is a benefit China will get and we will not. It simply doesn't make sense to anybody.

To grant Russia PNTR status requires us to repeal the 1974 Jackson-Vanik amendment. A lot of our staff members, I hasten to say, were not even born back when Jackson-Vanik was put in place. Many of our colleagues and a lot of our staff have studied the Soviet Union but have never experienced that period of time. What we are living with is a complete and total relic of a bygone era.

Congress passed Jackson-Vanik during the Cold War to pressure the Soviet Union to allow Russian Jews to be able to emigrate freely. It was very successful. It worked, and as a result, the Kremlin worked with us and others to help Jews be able to emigrate. As a result, every single U.S. President has, regardless of political party, waived Jackson-Vanik's requirements for Russia since 1994. The American-Israel Public Affairs Committee, the National Conference on Soviet Jewry, and the Government of Israel now all support the repeal of Jackson-Vanik for Russia. With too many Americans still searching for jobs all across our country, our manufacturing sector needs every boost it can get. We cannot afford to retain Jackson-Vanik any longer. This is in America's interest. Despite progress, our trade deficit remains too wide, and I think that seizing this opportunity to increase exports to Russia is one very obvious way to be able to make concrete progress in reducing that trade deficit.

U.S. exports to Russia total more than \$9 billion a year. Establishing PNTR for Russia could double that number in just 5 years, according to one recent study. That could mean thousands of new jobs across every sector of our economy. With the Russian economy's impressive growth, it is actually—Russia is expected to outgrow Germany by about 2029, so it is steadily growing in the world marketplace. The long-run gains for everybody would be even greater.

None of us is going to suggest that every issue with respect to Russia has been resolved. We know there are still points of tension, and some of them in

the foreign policy area are very relevant today, for instance, over Syria. We understand that. We hope recent events in Syria may be moving Russia and the United States closer in terms of our thinking. But it is only a good thing to bring Russia into a rules-based system with mechanisms for peaceful, transparent dispute resolution.

There is no debate—and I think the Presiding Officer knows this full well—that the very tragic and senseless death of anticorruption lawyer Sergei Magnitsky, who died while in Russian custody—is simply unacceptable. It is appalling, and it highlights a human rights problem that has grown in its scope, not diminished. It is one we hope to be able to resolve with good relationships and good discussions.

Senator CARDIN, the sponsor of that legislation in the House and in the Senate, is going to speak shortly about it, and I will leave him to describe in full the nature of that particular component of this bill. But suffice it to say that human rights, democracy, and transparency activists in Russia favor the passage of constructive human rights legislation in our Congress, and they also see WTO membership and increased trade for the United States as an avenue toward progress. So there is no contradiction in what is happening. They understand, as we all should, that repealing Jackson-Vanik is not a blanket acceptance of any particular policy or approach in Russia. It is certainly not an acceptance of what happened with respect to Sergei Magnitsky and that is because of the Magnitsky legislation.

Repealing the bill—repealing Jackson-Vanik—is not an economic giveaway to Russia. To the contrary, it represents, as I have described, an enormous opportunity for the United States to compete on a fair playing field with other countries and to create more jobs in the United States. By establishing PNTR with Russia, U.S. businesses will win increased market access without giving up anything in return. There would be no tariff changes, no market concessions, nothing. It, frankly, diminishes the willingness of some hard-liners in Russia to distort the current dialog and to distort the possibilities of a better relationship, which we want with Russia. By taking this away, we will reduce the abuse of Jackson-Vanik as a rhetorical tool to rally anti-American sentiment in Russia. I believe we can do something very important here today and both our economy and our foreign policy will be better for the effort.

I yield the floor.

THE PRESIDING OFFICER (Mr. MERKLEY). The Senator from Utah.

Mr. HATCH. Mr. President, we will soon vote on H.R. 6156, the Russia and Moldova Jackson-Vanik Repeal and Sergei Magnitsky Rule of Law Accountability Act of 2012. The trade elements of the bill are identical to legislation which passed the Senate Finance Committee by unanimous vote on July

18, 2012. The bill repeals the application of the Jackson-Vanik amendment to Russia and Moldova, which will enable U.S. workers and job creators to fully benefit from Russia and Moldova's accession to the World Trade Organization. The bill will also put into place new tools to help stop human rights abuse and battle systemic corruption within Russia.

After 18 years of hard fought negotiations under both Republican and Democratic administrations, President Obama finalized the terms of Russia's accession to the WTO on November 10, 2011. Russia was invited to join the organization on December 16, 2011, and officially joined in August of this year. Now that Russia is a member of the WTO, for our workers to benefit Congress has no choice but to extend permanent normal relations to Russia through repeal of the application of the Jackson-Vanik amendment.

Russia is now a member of the WTO, but they are under no obligation to extend the economic benefits of their membership to the United States unless we have permanent normal trade relations. Simply put, if Congress does not act, our workers and exporters will be at a serious disadvantage in trying to export their goods and services to the Russian market, and that will cost us jobs at home. Given our weak economic recovery, if it is a recovery, it is critical that Congress does everything it can to help U.S. workers to compete.

There are many economic benefits to Russia's WTO accession. Under the terms of its accession, Russia must cut tariffs on manufactured products, reduce duties on farm products, open its service markets to U.S. firms, meet international intellectual property rights standards, and reduce customs clearance fees. If Russia fails to meet any of its commitments, Russia will be subject to WTO dispute settlement proceedings.

Russia is an attractive market for American exporters. It is the world's 11th largest economy with more than 140 million consumers and the last major economy to join the World Trade Organization. American companies and workers must compete on a level playing field with their foreign competitors in Russia to succeed.

When President Obama first asked Congress to remove Russia from long-standing human rights legislation and grant permanent normal trade relations for Russia, he suggested that we do it unconditionally. Even before Russia joined the WTO, President Obama and his team argued that Congress should quickly pass a clean bill. Given the myriad problems we have with Russia, it has always been very hard for me to understand this position. President Obama and his team appeared almost manic in their attempts to avoid offending President Putin and his government or doing anything at all to upset their failed reset policy.

Fortunately, just as Congress did in 1974 when they created Jackson-Vanik,

we insisted on more. Working side by side with our Senate and House colleagues in both parties, we drafted a bill which serves our economy and replaces the application of the Jackson-Vanik amendment with policies more appropriate for the realities in Russia today. We should all be justly proud of our bipartisan effort. Basically, the bill we will vote on fills many of the gaps in President Obama's policy toward Russia.

For example, rather than ignore continuing human rights abuses and corruption in Russia, my friends and colleagues, Senators MCCAIN and CARDIN, joined together with many others to craft a bill to help combat deep-rooted and institutionalized corruption within Russia. This bill became the Sergei Magnitsky Rule of Law and Accountability Act. By the end of this debate, the American people will be intimately familiar with the name Sergei Magnitsky.

Briefly, Sergei was a Russian tax lawyer investigated by the Russian Government for alleged tax evasion and fraud. In reality, Sergei was targeted by government officials for his role in uncovering tax fraud and corruption within the Russian Government. Sergei was arrested and held for 11 months without trial. While in prison, Sergei was subject to mistreatment and torture and was eventually beaten to death. Unfortunately, such sad stories are all too common in Russia today.

Rather than tolerate such injustice, my friends, Senators MCCAIN and CARDIN, introduced legislation to impose sanctions on individuals responsible for, or who benefited financially from, the detention, abuse, and/or death of Sergei Magnitsky, as well as other human rights abusers. Their efforts resulted in the inclusion of provisions in this bill which impose visa restrictions and asset freezes on those involved in human rights abuses in Russia.

This will be a powerful new tool to battle corruption within Russia, as corrupt Russian officials will no longer be able to travel to the United States or hide their ill-gotten gains in many Western institutions.

The Magnitsky Act represents an admirable replacement of the Jackson-Vanik amendment, and it is designed to address the situation in Russia today. President Obama opposed efforts to include these provisions, concerned that holding Russian Government officials accountable for their crimes might offend President Putin and undermine the administration's ill-conceived reset policy.

I am proud that my House and Senate colleagues stood firm on the side of justice and demanded that these provisions be included. Jackson-Vanik served its purpose with respect to Russia and should be revoked, but in its place we should respond to Russia's continued corruption and human rights violations.

There were many other gaps in President Obama's Russia policy. To help fill these gaps, I worked with my Senate Finance Committee colleagues to add provisions to the permanent normal trade relations bill introduced by our chairman, Mr. BAUCUS, that address a number of these issues.

First, I worked with Senator KYL to develop language to further advance anti-corruption efforts in Russia by requiring the U.S. Trade Representative and the Secretary of State to report annually on their efforts to promote the rule of law and U.S. investment in Russia. We also included a provision to assist U.S. businesses, especially small businesses, to battle corruption in Russia by requiring the Secretary of Commerce to devote a phone hotline and secure Web site to allow U.S. citizens and businesses to report on corruption, bribery, and attempted bribery in Russia and to request the assistance of the U.S. Government if needed.

I was also highly disappointed that the administration did not finalize an SPS equivalency agreement with Russia before agreeing to let them join the WTO. Under an SPS equivalency agreement, Russia would recognize our food safety standards as equivalent to its own, thereby reducing costs and burdensome paperwork on U.S. exporters. Today's bill requires the Trade Representative to continue efforts to negotiate a bilateral SPS equivalency agreement with Russia. In an effort to apply continued pressure on the administration to resolve these problems, we included language requiring the Trade Representative to report to Congress annually on Russia's implementation of its WTO sanitary and phyto-sanitary obligations.

Intellectual property rights protection in Russia remains poor. To make sure that Russia meets its commitments in this area, we included language requiring the Trade Representative to report annually on Russia's compliance with its WTO intellectual property rights obligations. As part of its accession package, Russia committed to joining the WTO Information Technology Agreement. Once they are a member, this agreement will allow a number of additional U.S. high-technology products to be exported to Russia duty free. Unfortunately, Russia has to date failed to fully live up to this commitment, even though Russia became a member of the WTO in August. To ensure that the administration holds Russia's feet to the fire, the Trade Representative must report annually on Russia's compliance with this commitment as well as its commitment to join the WTO Government Procurement Agreement.

When Ambassador Ron Kirk testified before the committee in June, he committed to continue efforts to develop an intellectual property rights action plan which implements Russia's obligations under a 2006 bilateral IPR agreement with the United States. That agreement goes beyond Russia's WTO

commitments, requiring, among other things, that Russia take enforcement actions against Russia-based Web sites posting infringing content, implement the World Intellectual Property Organization copyright treaty and performances and phonograms treaty, and enact a system of data exclusivity for pharmaceuticals.

I understand the administration is working on completing that action plan quickly and that our workers will soon be able to benefit from the agreement reached in 2006. To ensure that this is the case, this bill requires the administration to continue efforts to finalize that agreement.

Russia's WTO commitments go far beyond intellectual property rights. Given President Obama's past reluctance to hold Russia accountable for its actions, I wanted to make a tool available to Congress and the American people to put pressure on the administration to make sure that Russia lives up to its international commitments. So we included language which provides an opportunity for public comment and hearings on Russia's compliance with its obligations. If there are areas where Russia is not in compliance with its obligations, the administration is required to develop an action plan to address them and then provide an annual report on their enforcement efforts to bring Russia into compliance.

I believe this package of modifications vastly improves the bill. The Trade Representative's general counsel apparently agrees, stating during congressional testimony that "this bill provides the strongest package of enforcement measures for us at USTR to move forward and ensure full compliance once Russia joins the WTO."

It was over 30 years ago that Senator Henry Jackson and Congressman Charles Vanik stood up to their President and demanded that the administration address policies that denied individuals, especially Jews, the right to emigrate from Russia and other communist nations. Their work became known as the Jackson-Vanik amendment. The policies embodied in that amendment helped create the environment for literally hundreds of thousands of Jews to emigrate from the former Soviet Union, many of them to their homeland of Israel.

Jackson-Vanik served its purpose in Russia, but today we act to address the issues on the ground in Russia as we debate this bill. Today Congress will once again lead the way to help shape the future of U.S.-Russian relations. Approval of this bill will help establish a framework for addressing the myriad economic problems we face with Russia's Government. If the administration uses these tools effectively, we will see the fruits of our efforts, as we one day work side by side with a Russia free from corruption and in full compliance with its international obligations. I urge my colleagues to join me—and my colleagues on the other side of the

floor and my colleagues here who are for this bill—in support of this bill.

I yield the floor.

Mr. CARDIN. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant bill clerk proceeded to call the roll.

Mr. BAUCUS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAUCUS. I understand we are, in effect, debating Russian PNTR. Robert Louis Stevenson once said, "The mark of a good action is that it appears inevitable in retrospect." When I traveled to Russia in February, many doubted that Congress would establish permanent normal trade relations, known as PNTR, with Russia this year. But in July the Senate Finance Committee unanimously approved legislation to do just that. And last month the House of Representatives passed very similar Russia PNTR legislation with 365 "yes" votes. Passing PNTR clearly is a good action for the United States. It is also an obvious one. Why obvious? Jobs. PNTR will mean more job opportunities for American farmers, ranchers, businesses, and workers.

Russia is a fast-growing market. For the United States to share in that growth, we must first pass PNTR. If we do, American exports to Russia are projected to double in 5 years. When Russia joined the World Trade Organization in August, it lowered its trade barriers to all WTO members who have PNTR with Russia. This is no small matter.

It includes lower tariffs on aircraft and auto exports, larger quotas for beef exports and greater access to Russian telecommunications and banking markets. It also includes strong commitments to protect intellectual property and to follow sound science on agricultural imports. It includes greater transparency on Russian laws and binding WTO dispute settlement. All very important.

One hundred fifty-five countries already receive these benefits in Russia. They receive those benefits right now. That is to say, every single member of the World Trade Organization—all 155 countries—except one, the United States of America, receives those benefits. So right now, companies and workers in China, Canada, and Europe can take full advantage of these export opportunities in Russia, the world's sixth largest economy. But U.S. companies and workers cannot.

We cannot let this stand. When Russia joined the World Trade Organization in August, we Americans gave up nothing. We will give up nothing if we pass PNTR legislation now. We change no U.S. tariffs, we change no U.S. trade laws. This is a one-sided deal in favor of American exporters.

In my home State of Montana, one out of five 5 jobs today is tied to agri-

culture. Ranching is a major driver of our agricultural economy. When Montana ranchers can sell more beef in Russia, they can support more workers in Montana. It is that simple. It is a similar story in States all across our country.

I know that passing PNTR will not solve all of our trade problems with Russia, but it gives us new tools to tackle these problems, such as binding dispute settlements. Thanks to the efforts of Senators HATCH, STABENOW, ROCKEFELLER, BROWN of Ohio, and others, this bill includes strong measures to ensure Russian compliance with its WTO obligations and that the administration enforces them.

This legislation also includes the Sergei Magnitsky Rule of Law Accountability Act to help fight criminal rights abuses in Russia. In 1974, Senator Jackson and Congressman Vanik teamed together to pass legislation called the Jackson-Vanik bill, which this legislation repeals. Jackson-Vanik addressed one of the biggest human rights abuses in Russia at that time. And it succeeded. For the last 20 years, Jews have been able to freely emigrate from Russia, what Jackson-Vanik was trying to address.

Jackson-Vanik is outdated. Jews can emigrate from Russia and this is no longer an issue. Senator CARDIN has courageously pushed the Magnitsky legislation for years. I commend him. The Magnitsky provisions in this legislation address one of the biggest human rights abuses in Russia today. The bill would punish those responsible for the death of anticorruption lawyer Sergei Magnitsky and others who commit human rights violations in Russia. It would do so by restricting their U.S. visas and freezing their U.S. assets.

Passing PNTR along with these provisions is the right thing to do. In closing, I urge my colleagues to follow the words of Robert Louis Stevenson and take good action. Every day we wait, U.S. farmers, ranchers, businesses, and workers fall farther behind their competitors. We owe it to them to pass this legislation. We owe it to them to make it inevitable.

I yield the floor and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant bill clerk proceeded to call the roll.

Mr. BAUCUS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAUCUS. Mr. President, I wonder if the Senator from Ohio is ready to speak?

Mr. BROWN of Ohio. Yes.

Mr. BAUCUS. How much time does the Senator wish to have?

Mr. BROWN of Ohio. Five minutes.

Mr. BAUCUS. I ask unanimous consent that the Senator from Ohio be allowed to speak for 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BROWN of Ohio. Mr. President, the bill extending permanent normal trade relations to Russia is a positive step for American business and American workers. I have been critical of both Democratic and Republican administration approaches to trade negotiations and enforcement in the past. I think the improved enforcement reporting requirements in this legislation are a step in the right direction toward monitoring and toward enforcement of Russia's commitments made as part of its new membership in the World Trade Organization.

For too long, both Democratic and Republican administrations have negotiated trade agreements that undermine rather than maximize American job creation. Too often these agreements have failed to demand that our partners follow the same rules we do. Too often our government has not held our trade partners accountable when they do not meet commitments to which they have already agreed. We have seen this in our trade relationship with China for more than a decade. From currency manipulation to intellectual property theft, to failing to offer reciprocal access to its government procurement market, to hoarding rare earth materials, the People's Republic of China has ignored its international commitments and obligations.

For more than a decade, American workers and manufacturers, especially in a State such as mine, Ohio, have paid the price. There were thousands of lost jobs, a trade deficit that grew from \$83 billion in 2001 to \$295 billion in 2011 and a deficit in auto parts alone that went from about \$1 billion a decade ago to about \$10 billion today.

More recently, though, President Obama stood up to China issues on steel, which led to a new steel mill in Youngstown, OH; more steel jobs in Cleveland and Lorain, OH; on tires, which have translated into more jobs in Findlay, OH; and on aluminum, which has meant more jobs in Heath and Sidney, OH. That is obviously good news in my State and around the country. But our experience in China proves we must more closely monitor our trade partners' commitments before workers and businesses are injured by them.

As part of its WTO accession, Russia committed to lower tariffs on manufactured goods to ensure predictability by capping quota levels and to meet international standards on intellectual property rights. I am pleased to see the legislation extending Russia PNTR includes enforcement measures much stronger than the China PNTR, several based on legislation I introduced earlier this year.

By requiring the U.S. Trade Representative to monitor Russia's compliance with its WTO obligations to publish an annual report and our actions to promote compliance and establish a formal and public process for workers to weigh in on Russia's progress in anticipation and before vio-

lations or failing to follow the rule of law might take place, we can ensure that our trade relations with Russia put our interests first to build confidence, that our government can enforce the rules. Again, prior to potential misbehavior—as we saw with China—we will likely not see this from Russia because of this. Similar to any trade agreement, commitments must be adhered to; otherwise, they are not worth negotiating.

As an additional measure of commitment, I appreciate the administration's response to my request. Senior personnel at the Office of the U.S. Trade Representative, at USTR, who have served our government in Russia and are fluent in Russian are held accountable for monitoring Russia's compliance with its WTO commitments. Again, this is something we didn't do a decade-plus ago with the People's Republic of China.

Japan and Europe have already threatened to take Russia to the WTO over a number of unfair trade restrictions, including on autos. The United States will need to be vigilant on these issues as well. This work that Chairman BAUCUS did, that the House Ways and Means did, and the administration has done and will continue to do gives us that opportunity to be more vigilant and more effective.

Our workers, our farmers, our ranchers, and producers should have confidence that the trade deal signed will actually be enforced. For companies in my State, such as Proctor & Gamble, Goodyear or Alcoa, that stand to export more goods to Russia because of PNTR, enforcement of the rules matter. Whether economic opportunities for our businesses and our workers from Russia's PNTR, we can't ignore the Russian Government's consolidation of power and crackdown on political opponents, including the Russian media. Despite these challenges, though, we should not turn our backs as Russia continues breaking free from its totalitarian past. These are strong economic and democratic forces that are moving forward in Russia. These forces for change must be supported and must be allowed to grow. We must not forget how far Russia has come or how far it has to go.

About 40 years ago, Senator Jackson from Washington State and Congressman Vanik from my State of Ohio—the son of a Cleveland butcher—offered an amendment to a trade bill that used the leverage of the U.S. market to deny favorable trade status.

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. BROWN of Ohio. Mr. President, I ask unanimous consent for 1 additional minute.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BROWN of Ohio. This was to deny favorable trade status to countries that restrict immigration. Jackson-Vanik became antiquated more than a decade ago, but it proved that

trade can be an instrument for improving human rights and the rule of law.

PNTR now includes the important Magnitsky legislation, which will impose travel and financial penalties on officials responsible for human rights abuses abroad. I commend Senator CARDIN for his leadership on this issue, on this important amendment.

As the administration looks ahead to trade initiatives such as TPP and the United States-European Union Trade Agreement, Congress can take steps now, new steps, to assure the benefits of expanded trade reach workers, reach small manufacturers, not just large corporations. Several colleagues and I have proposed legislation updating our negotiating objectives on labor, on the environment, on import safety, and to restore congressional oversight to future trade negotiations to agreements and especially to their enforcement. It is time we practice trade so it achieves real results for middle-class families in promoting job creation.

While the Russia PNTR represents a positive step forward, we must build on this step to ensure that over the long term, promises made are promises kept.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. KYL. Mr. President, tomorrow this body will vote to advance legislation that will grant permanent normal trade relations with Russia and, in so doing, repeal the Cold War-era Jackson-Vanik sanctions that denied most-favored nation status to China.

As part of this comprehensive package, the Senate will also pass the so-called Magnitsky bill. This piece of legislation was inspired by a young Russian attorney, Sergei Magnitsky, who died in police custody in 2009 after he was jailed on trumped-up charges for exposing a vast web of corruption and tax fraud by some of Russia's most senior officials.

Sergei's story, extensively reported and documented by human rights activists, business leaders, journalists, and others, helped stir a bipartisan group of Senators led by our colleague Senator BEN CARDIN to draft legislation to hold accountable officials from all over the world who disregard basic human rights and fail to uphold the rule of law, including those responsible for the murder of Sergei Magnitsky.

Unfortunately, the legislation before us is deficient. While I do not intend to make perfection the enemy of the good, this bill falls short of the long-standing objective of this body to demonstrate a sustained commitment to the long tradition of U.S. leadership in the fight against corruption and human rights abuses around the world.

Regrettably, the House-passed bill deals only with Russian officials. Sergei Magnitsky's story could have been lost. It was kept alive by impassioned and inspired friends and supporters in Russia.

But from Pyongyang to Minsk, to Harare, and elsewhere, there are many

who remain voiceless under despots and strongmen and lack the advocates and resources to detail their abuses and seek justice, whether through documentary film or newspaper stories.

That is why the Senate bill went beyond the particular case of Sergei Magnitsky. Much like Jackson-Vanik forced Budapest, Warsaw, and Moscow to allow citizens to freely emigrate or travel, I believe a global approach would help to deter future abuses throughout the world. I am puzzled and, frankly, disappointed that our House colleagues did not recognize our government needs tools that will allow it to stand up for these individuals regardless of where they are in the world.

Because some have elevated the subject of commerce above human rights, there is a view that it is more important to pass PNTR than a global Magnitsky bill; thus, we should settle for a Russia-only bill. While the Jackson-Vanik sanctions we are about to repeal have obviously outlived their usefulness, there is an urgent need for additional tools to protect the invisible around the world.

I hope our collective failure to give voice to their struggles, except in Russia, will not discourage these brave men and women, whether in Beijing, Tehran or elsewhere, from their continued efforts to root out corruption or expose rule of law abuses.

For now, at least, we address the problem in Russia. While I will not be here next year, I hope my colleagues in both the House and Senate will seek to uphold U.S. values and to do justice to Sergei Magnitsky and his legacy by passing a global bill sometime in the future.

The PRESIDING OFFICER. The Senator from Maryland.

Mr. CARDIN. Mr. President, first, let me thank Senator KYL for his leadership on this issue. He knows I share his views on the global aspect of the legislation. I wish to thank him for his extraordinary leadership as we have been working this issue. We have worked it hard to try to get as far as we possibly could. He will be missed in the next Congress.

We will take up this cause again, but I wanted to thank Senator KYL for his commitment on this issue and finding a way that we could advance this bill to the floor. I do look forward to the day we will make this bill global.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant bill clerk called the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER OF BUSINESS

Mr. REID. As provided under the previous order, at 5 p.m., the Senate will proceed to executive session to consider Calendar No. 676.

For the information of all Senators, we expect a rollcall vote on the nomination of Michael Shea, a district court judge for the District of Connecticut, at approximately 5:30.

We will go into executive session at 5 and move toward that.

UNANIMOUS CONSENT AGREEMENT—H.R. 6156

Mr. REID. Mr. President, I ask unanimous consent that no amendments be in order to H.R. 6156; that following the reporting of the bill, there be up to 5 hours of debate, equally divided by the two leaders or their designees during today's session; that on Thursday, December 6, at a time to be determined by the majority leader, after visiting with and consulting with the Republican leader, there be up to 10 minutes of debate, equally divided by the two leaders or their designees; and that upon the use or yielding back of time the Senate proceed to vote on passage of the bill.

The PRESIDING OFFICER. Is there objection?

The minority leader.

Mr. MCCONNELL. Mr. President, reserving the right to object, last week, Secretary Geithner brought up for the President an offer that was so not serious it makes me wonder what the point of it was. In light of that offer, I would like to see if our Democratic friends are willing to support it. It includes a \$2 trillion tax increase over 10 years, which would be the biggest real-dollar tax increase in U.S. history. It increases taxes on nearly 1 million small businesses and increases the taxes paid by family farmers and small businesses at death in the middle of a jobs crisis.

Most outrageous of all, it gives the President of the United States unilateral power—unilateral power—to raise the limit on the Federal credit card, the so-called debt ceiling, whenever he wants, for as much as he wants.

I don't think we should have to speculate how Democrats might feel about this. I think we should give them a chance to demonstrate for themselves how serious the President's plan was and how serious they are.

I would like to ask consent to offer an amendment to the Russia trade bill—this is Secretary Geithner's proposal right here—an amendment to the Russia trade bill that gives our friends on the other side of the aisle a chance to vote on this proposal Secretary Geithner brought up last Thursday. It gives the President's proposal to solve the fiscal cliff, as delivered by Secretary Geithner and outlined in the President's budget, an opportunity to be voted upon.

I should note I would be happy to have this vote right here or as an amendment to the next bill or as a stand-alone. It will not slow down what I hope is swift passage of PNTR for Russia. If this proposal was made in good faith, our friends on the other side, I am sure, would be happy to vote for it.

Let me just say I expect my good friend, the majority leader, to decline this chance to support the President and this laughable proposal because they know it couldn't even pass if it was sent to their majority.

The PRESIDING OFFICER. The majority leader.

Mr. REID. I reserve the right to object.

Just a minute ago, Mr. President, I moved to the Russia trade bill. The purpose of moving this bill is to protect American jobs. If we don't do this legislation, we will lose American jobs for sure and put American companies in even worse shape than they are with Chinese and European companies. So the question is really this: Are we going to get serious here and legislate or is this more of the obstructionism we have felt so much of during this last Congress? The answer to that is really obvious. The answer is yes. Are we going to continue the sort of political stunts the minority leader is trying to pull here and now?

On the substance, the Senate has passed a bill that will go a long way to address the fiscal cliff. It has already passed here. Last July the Senate passed a bill to continue tax cuts for 98 percent of all Americans and 90 percent of all American small businesses. If the Republican leader were serious about preventing us from going over the fiscal cliff, he would urge his colleague, the Speaker, to get the House to take up the Senate-passed bill now. There are Republicans who have already said that is the right thing to do. Conservatives, more moderate Republicans—we even had one Republican Senator today say she thinks that will happen and it should happen.

In the meantime, the Republican leader's request is just a stunt. But the election is over. It is time to get down to business. These pieces of paper he has—Secretary Geithner didn't bring that stack of stuff to me. It was a private meeting—a private meeting—trying to work something out with this very troublesome issue facing this country—the deficit, the debt. And this private meeting turned out to be a publicity stunt for the Republicans talking about what he had said in private.

So, Mr. President, I object.

The PRESIDING OFFICER. Objection is heard.

Is there objection to the original request?

The Republican leader.

Mr. MCCONNELL. Mr. President, I would add one comment about the consent I just offered. I think it would not be inaccurate to assert that the proposal the Secretary of the Treasury brought up last Thursday would not have passed the House when NANCY PELOSI was Speaker. This was an unserious proposal. And I can understand why my good friend the majority leader would rather not vote on it because I can't imagine that it would get many, if any, votes here in the Senate as well.

Having made that point, with regard to PNTR for Russia, when the two parties first sat down to discuss the so-called fiscal cliff, it was widely assumed among Republicans that President Obama and Democrats actually wanted to avoid it. That was the premise on which any possible agreement hinged. That was the common goal—or so we thought. Over the past couple of weeks, it has become increasingly clear to many of us that we were simply wrong about that. Incredibly, many top Democrats seem perfectly happy—perfectly happy—to go off the cliff. That is why the President has been more interested in campaign rallies than actually negotiating a deal, and it explains why the President is now stubbornly insisting on raising tax rates when he himself said just last year that you could raise more revenue from capping deductions and closing loopholes.

Look, this isn't about the deficit for them or balance. It is about an ideological campaign most Americans thought would have ended on November 6. And that is also why the President sent Secretary Geithner up here last week with a proposal so completely ridiculous it wouldn't have passed the House, as I indicated earlier, if NANCY PELOSI were still Speaker. It was more of a provocation than a proposal, to be perfectly frank about it. It was a message that the President really doesn't want to deal at all.

To date, not a single Democrat has come forward to support the Geithner proposal, and anybody who looks at the details would certainly understand why. As I just indicated, it includes a \$2 trillion tax increase over 10 years—the biggest real-dollar tax increase in U.S. history. It increases taxes on nearly 1 million small businesses in the middle of a jobs crisis. According to Ernst & Young, this type of rate hike would cause more than 700,000 Americans to lose their jobs. It raises taxes on investment income, harming economic growth even more. It includes tens of billions of dollars in more Washington spending in a deal supposedly to cut the deficit. And most outrageous of all, it gives the President of the United States unilateral power to raise the limit on the Federal credit card—the so-called debt ceiling—whenever he wants, for as much as he wants.

While I am flattered that the administration has taken to calling this the “McConnell provision,” they seem to have forgotten how this provision worked in the Budget Control Act. Yes, we gave the President the authority then to request a debt ceiling increase, but that was only after the White House agreed to \$2 trillion in cuts to Washington spending and agreed to be bound by the timing and amount set by Congress.

This time, the request is for the President to have the ability to raise the debt ceiling whenever he wants, for as much as he wants, with no fiscal responsibility or spending cuts attached.

This is an idea opposed by Democrats and Republicans alike. It is a power grab that has no support here, and so it is not only completely dishonest, it is juvenile to compare it to last year's debt ceiling agreement. It would also be incredibly irresponsible since history shows that the only major deficit-cutting deals we ever do around here—ever—come after debates over the debt ceiling. It may be a good idea if you don't care about the debt, but it is a nonstarter for those of us who do. It also represents a dangerous attempt by the President to grab more power over spending—power Congress must not and will not cede.

Beyond these details, not only would the President's plan raise taxes on certain individuals, it would also cap their ability to deduct donations they make to charities, the interest they pay on mortgages, the contributions they make to retirement accounts, and the value of employer-based health insurance. Don't get me wrong, you have heard me say that if Democrats insist on getting more money to Washington, capping these deductions is a better way to raise revenue, but capping deductions and raising taxes is a recipe for economic disaster.

The President's proposal would also subject tens of thousands of small businesses and family farms to a massive tax hike to be paid by the family upon the deaths of the owners. It would impose a crushing tax increase on industries that employ millions of Americans, including manufacturers in my State, businesses that operate abroad, the insurance industry, and would raise the price at the pump by targeting the oil and gas industry for special tax treatment.

It is so ridiculous, as I have said repeatedly, it wouldn't have passed the House under Speaker PELOSI, and that is why even the most liberal Members of Congress, the President's most ardent supporters, haven't come forward to support it. So for the White House to demand a response shows they are just playing games at this point.

If you don't believe me, ask yourself this: How many Democrats would vote for this bill? Not many. But I didn't think we should have to speculate. I still think we should give Democrats a chance to demonstrate for themselves just how serious the President's plan was and how serious they are.

That is why I just asked consent to offer an amendment to the Russia trade bill that gave them that opportunity. As I noted, I would be happy to have this vote here or as an amendment to the next bill or as a stand-alone. It will not slow down what I hope is swift passage of PNTR for Russia. If the President's proposal was made in good faith, our friends should be eager to vote for it. So I am surprised the majority leader just declined the chance for them to support it with their votes. I guess we are left to conclude that it couldn't even pass by a bare majority of votes and they would

rather take the country off the cliff than actually work out a good-faith agreement that reflects tough choices on both sides.

To be fair to the Secretary and to the President, we didn't just put together a bill that included his \$2 trillion tax increase, we also added the almost \$400 billion in new tax stimulus measures he wanted as well. This bill contains a continuation of the payroll tax holiday, a 10-percent credit on new wages that will go to businesses large and small, and it included a fix to one of the many flawed provisions of ObamaCare, an expansion of the tax credit for businesses that no one uses. This proposal reflected exactly what was in the President's budget and his various submissions to Congress. I, for one, was eager to see this vote, to see if Senate Democrats were ready to support it. I think folks should know who actually wants to raise taxes on family farmers and manufacturers and who thinks we can solve our fiscal problems without doing anything serious to our real long-term liabilities.

Our Democratic friends are so focused on the politics of this debate that they seem to forget there is a cost. They are feeling so good about the election, they have forgotten they have a duty to govern. A lot of people are going to suffer—a lot—if we go off this cliff. That is why we assumed Democrats would have preferred to avoid it. We thought this was the perfect opportunity to do something. Apparently, we were wrong.

I yield the floor.

The PRESIDING OFFICER. Is there objection to the original request?

Hearing none, it is so ordered.

The majority leader.

Mr. REID. Mr. President, there is no Geithner proposal. This is all made up.

Mr. President, I remember Dorothy in “The Wizard of Oz”—I think she was from Kansas and she wound up in Oz. We are here in Washington, DC, and yet suddenly we are in Oz—a real strange place.

The Republican leader is an expert in ways to kill legislation, and people who are watching can see he is trying to torpedo the fiscal cliff negotiations which are ongoing.

Republican Senators have spoken to people in the White House today. This is no serious way to negotiate, out here on the Senate floor. At the end, the Republican leader is complaining because President Obama wants the rich to pay their fair share, and as usual Republicans are defending the rich, holding tax cuts for the middle class hostage.

At the first of the year, unless we work something out, taxes will go up for people making less than \$250,000 a year, an average of \$2,200 each—not per family but each person. The Senate has already passed the centerpiece of President Obama's offer, and his offer has always been the same.

We are not going to go through the same thing we have gone through here for years where we lay out different

ways to cut spending and there is never any revenue. The President has made it very, very clear. They have already passed the President's proposal, which is to make sure people making less than \$250,000 a year are not burdened with an extra \$2,200 each after the first of the year. That passed in July. The House could take that up. Every Democrat in the House has agreed they will vote for that. We need only 25 or 26 Republicans in the House to make life something that is stable for people making less than \$250,000 a year.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. McCAIN. Mr. President, may I ask my friend from Maryland if he has spoken on the Magnitsky portion of this bill?

The PRESIDING OFFICER. The Senator from Maryland.

Mr. CARDIN. We have not yet gotten to the bill. I believe we are now prepared to go to H.R. 6156. I know the Senator from Connecticut would like to speak for 5 minutes, and I was hoping we could get some time where we could go back and forth and talk about the Magnitsky aspects of that legislation now.

Am I correct, Mr. President, that the bill has not yet been reported or it will be reported now and that perhaps we can enter into a consent agreement as to the next 30 or 40 minutes?

CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Morning business is closed.

RUSSIA AND MOLDOVA JACKSON-VANIK REPEAL AND SERGEI MAGNITSKY RULE OF LAW ACCOUNTABILITY ACT OF 2012

The PRESIDING OFFICER. Under the previous order, the Senate will proceed to consideration of H.R. 6156, which the clerk will report by title.

The assistant bill clerk read as follows:

A bill (H.R. 6156) to authorize the extension of nondiscriminatory treatment (normal trade relations treatment) to products of the Russian Federation and Moldova and to require reports on the compliance of the Russian Federation with its obligations as a member of the World Trade Organization, and for other purposes.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. McCAIN. Mr. President, I also note several of our friends, including Senator LIEBERMAN, who are on the floor. Senator LIEBERMAN also has had a major role in this legislation, and I would ask unanimous consent that he be included in the colloquy.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. McCAIN. Mr. President, I ask my friend, Senator CARDIN, I had a statement I wanted to make before the colloquy and I know the Senator has a statement. Since it is his legislation, I

would be glad to wait with my remarks until the Senator from Maryland completes his. And how much time, could I ask, of my colleague?

Mr. CARDIN. I think my initial comments would be about 10 minutes.

Mr. McCAIN. And I would have about 10 minutes, if that is agreeable to my friend from Connecticut—who, obviously, is jobless and homeless. So I ask unanimous consent that the Senator from Maryland make his remarks, followed by mine, and then the Senator from Connecticut.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

The Senator from Maryland.

Mr. CARDIN. Mr. President, first, let me thank Senator McCAIN for not just working this out but for his leadership on this issue. He has provided the moral leadership we need on dealing with human rights issues. He is a co-sponsor of the Sergei Magnitsky Accountability Act, and I thank him for that.

Today we close a chapter in the U.S. history on the advancing of human rights with the repeal basically of Jackson-Vanik. It served its purpose. Today, we open a new chapter in U.S. leadership for human rights with the Sergei Magnitsky Rule of Law Accountability Act.

As the Presiding Officer has heard, this involves a lawyer named Sergei Magnitsky who had U.S. interests that he was representing in Russia. He discovered the largest tax fraud in Russia's history. He did what a lawyer should do: He brought it to the attention of the authorities.

As a result of his bringing this corruption in local government to the authorities, he was arrested. He was tortured because they wanted him to recant what he had said. They wanted him to basically not tell the truth. He refused to do that. He needed medical attention; he was denied medical attention; and on November 16, 2009, he lost his life in a Russian prison, being denied the opportunity to get needed health care. He was 37 years old, with a wife and two children. Those who were responsible for his death and those who were responsible for the coverup have never been brought to justice. They have gone unpunished, and in some cases they have even been promoted.

The facts are well known. These are not hidden facts. The international community knows the people who were involved, knows about the coverup, and knows that they have not been held accountable, and this has gained international attention. That is why I filed legislation aimed at the individuals responsible for the Magnitsky tragedy. It says, quite clearly, that those involved would be held accountable by being denied certain international rights.

It also includes those involved in extrajudicial killings, torture, or violations of internationally recognized human rights. The legislation says, Look, we are not going to let you have

the fruits of your corruption. We are going to deny you the opportunity to hold your illegal gains in our banking system—which is where they prefer; they don't want to hold rubles, they want to hold dollars—and that we will not let you have a visa, a privilege, to visit our country, to visit your property in our country or your family in this country. It targets the individuals who committed the gross human rights violation, and it recognizes the failure of the host country to deal with those violations.

I want to thank all those who have been involved in the development of this legislation. Senator McCAIN has been one of the great leaders on these human rights issues. This is not a partisan division. We have strong bipartisan support. I have already acknowledged Senator KYL, who recently spoke. I know Senator WICKER took the floor a little earlier and I thank him, the ranking member on the Helsinki Commission. I want to thank Senator SHAHEEN, the chair of the European Subcommittee of the Senate Foreign Relations Committee for her work, and Senator BOB MENENDEZ on the Foreign Relations Committee. All those individuals were very instrumental in dealing with this. Senator DURBIN has been a real champion on human rights. I want to acknowledge Kyle Parker, staff person from the Helsinki Commission, who was very instrumental in the development of this legislation. I want to also acknowledge Senator LIEBERMAN's work. I know he will be speaking in a few minutes.

It was Senator LIEBERMAN, Senator McCAIN, and myself who first suggested that we should pass the Magnitsky bill. It is the right thing to do, but we certainly shouldn't let PNTR go without attaching the Magnitsky bill. I thank Senator LIEBERMAN and Senator McCAIN for raising that connection. It was the right thing to do. First, it allowed us to get this human rights tool enacted. Secondly, I think it gave us the best chance to get the PNTR bill done in the right form. So I thank both of them for their leadership.

In 1974, we passed the Jackson-Vanik law that dealt with the failure of the Soviet Union to allow for the emigration of its citizens, affecting mainly Soviet Jews. It was controversial in its time. People said, Why are we connecting human rights to trade? Why is the United States doing that? After all, trade is so important.

Well, we did it. It made a huge difference, and we were able to get Soviet Jews out of the Soviet Union. We spoke for Western values in our trade legislation. We protected the rights of individuals who refused this.

When I first came to Congress 26 years ago, I joined the congressional caucus for Soviet Jewry. I wore the wrist bands of refuseniks, joined by many of our colleagues. Twenty-five years ago, I marched in Washington, a march for Soviet Jews. We stood for basic rights, and we changed the landscape on this issue. I had a chance to

be with Natan Sharansky and celebrate what he meant to people who loved freedom around the world. We initiated that with Jackson-Vanik. It was a proud chapter in American history.

Today we end that chapter, because Jackson-Vanik is no longer relevant to the human rights challenges of our time. But with the passage of the Sergei Magnitsky Accountability Act, we meet the challenges of our time. We meet those individuals who are committing gross human rights violations. This act is a global standard for the advancement of human rights.

Unfortunately, the Magnitsky tragedy is not unique within Russia. We know of other circumstances within the country. We saw the results of last year's elections and the attitude of government toward journalists. We need the protection of the Magnitsky standards for human rights violations within Russia.

But it doesn't end with Russia. Human rights violations are global, and we should have these tools available globally. We need to prevent Russia and other countries from regressing on their commitments to human rights.

I must tell you, when you take a look at the legislation that came out of our two committees, S. 1039, coming out of the Senate Foreign Relations Committee and coming out of the Senate Finance Committee—I serve on both of those committees—it says very clearly that the law would apply to those responsible for extrajudicial killings, torture, or other gross violations of internationally recognized human rights committed against individuals seeking to obtain, exercise, defend, or promote internationally recognized human rights and freedoms, such as the freedom of religion, expression, association, assembly, and the rights to a fair trial and democratic elections anywhere in the world. That was the legislation we reported in two of our committees. And I might tell you, there was overwhelming support that we should make it global. Senator KYL talked about that, and I am sure others will also.

In H.R. 6156, you will see the exact language we have in our Magnitsky bill with one exception: "Anywhere in the world" is changed to "Russia." I am disappointed in that, and I join with Senator KYL in that disappointment. I think it would have been much better if we would have incorporated the international standards and global provisions.

I think it is very important Congress pass this bill. I strongly support it. I support the effort to get this to the President as quickly as possible. But there is a clear message here: This bill is our standard. We will be holding countries to this standard. We will look for other opportunities to attach these provisions to other trade bills. We will look for other opportunities to reinstitute the global application of the Magnitsky standards. It is the

right thing. The world is on notice. Other countries are following our leadership. We expect other countries will be acting with similar standards.

I might point out, as I did over 2 years ago, there is existing authority within the State Department to deny visas to human rights violators. I think we should make that very clear and we should enact a law that makes it clear. We have to pass the Magnitsky law as relates to Russia. But there is authority, and we expect the administration will follow that authority.

I am hopeful people understand that although the language of the law is not as broad as we would like it to be, many of us consider this to be the international standard, and we will be asking to hold other countries accountable for violators of human rights that that country does not deal with in denying them the right to visit our country or to use our banking system.

One last point. There are some who say, Well, aren't we interfering with the internal affairs of a sovereign country? Nothing could be further from the truth. We have a right—I would say a responsibility—to challenge internationally recognized human rights violations in other countries. It is well established. Both Russia and the United States are members of the Organization for Security and Cooperation in Europe. I had the honor of a senate chair in the Helsinki Commission, our implementing arm. That organization gives us the right to raise human rights problems in other countries. We have used that to advance efforts to stop human trafficking, to deal with antisemitism, to deal with corruption issues in other countries. We have that right. We have that responsibility. And our actions today are for the Russian people and for its government.

I have heard from so many human rights activists in Russia, from Russian business leaders to ordinary citizens, who tell me Russia can do better, and they urge us to move forward with the Magnitsky Accountability Act.

The United States, by the passage of this bill, will be on the right side of history. It will deepen our relationship with the Russian people. Yes, we are ending a chapter with the repeal of Jackson-Vanik, but we are starting a new chapter on human rights—one which we can be proud of where America once again is establishing a basic principle that we will not tolerate those who violate internationally recognized human rights standards. We will not let them go without being held accountable. And we certainly will not let them have the privileges of our country if they violate internationally recognized human rights standards.

Madam President, I yield the floor.

The PRESIDING OFFICER (Ms. KLOBUCHAR). The Senator from Arizona is recognized.

Mr. MCCAIN. Madam President, it is my pleasure to rise today to speak in favor of H.R. 6156—the Russia and

Moldova Jackson-Vanik Repeal and Sergei Magnitsky Rule of Law Accountability Act. This day has been a long time in coming, and the fact that it has now come is thanks to the great work of many of my colleagues, and I want to take a minute to recognize a few of them personally.

First and foremost is the Senator from Maryland. It is not an exaggeration in the least to say that, were it not for Senator CARDIN's leadership on behalf of human rights in Russia and his tireless dedication to memorializing the courageous dissent of one remarkable man—Sergei Magnitsky—we would not be here today. Senator CARDIN is the original author of the Sergei Magnitsky Rule of Law Accountability Act. He passionately educated his colleagues about the need for this legislation, which is why it eventually won 25 bipartisan cosponsors in the Senate. The Senator from Maryland has my deepest respect and gratitude for his efforts on behalf of human rights in Russia. He has established himself as a leading voice in our country on these issues. I have been honored to be his partner in this endeavor from the very beginning as the original lead Republican co-sponsor of the Magnitsky Act. And when this legislation is passed, as I am confident that it will be, Senator CARDIN deserves all the credit in the world for this historic achievement.

I also want to recognize the efforts of the Senator from Montana. I appealed to Senator BAUCUS last year to join the Magnitsky Act together with the repeal of Jackson-Vanik for Russia and Moldova and the extension of Permanent Normal Trade Relations status to both countries. He agreed, and in a letter to me, as well as a few of my colleagues, the Senator from Montana pledged to marry the 2 pieces of legislation together and to do everything in his power to see that the Senate could act on them together. He has been true to his word at every step of the way, and I am pleased to stand here today as an original co-sponsor of the repeal of Jackson-Vanik for Russia and Moldova, as well as the Magnitsky Act.

Finally, the person I want to acknowledge above all is Sergei Magnitsky—whose remarkable life and tragic death is the reason that brings us here today. Sergei Magnitsky was a tax attorney working for an international company, Hermitage Capital, that had invested in Russia. He did not spend his life as a human rights activist or an outspoken critic of the Russian government. He was an ordinary man, but he became an extraordinary champion of justice, fairness and the rule of law in a Russia where those principles have lost nearly all meaning.

What Mr. Magnitsky uncovered was that a collection of Russian government officials and criminals associated with them colluded to defraud the Russian state of \$230 million. The Russian government in turn blamed the crime

on Hermitage Capital and threw Mr. Magnitsky in prison in 2008. Mr. Magnitsky was detained for 11 months without trial. Russian officials pressured him to deny what he had uncovered—to lie and recant. But he refused. He was sickened by what his government had done, and he refused to surrender principle to brute power.

As a result, Mr. Magnitsky was transferred to increasingly more severe and more horrific prison conditions. He was forced to eat unclean food and drink unsanitary water. He was denied basic medical care as his health worsened. In fact, he was placed in increasingly worse conditions until, on November 16, 2009, having served 358 days in prison, Sergei Magnitsky died. He was 37 years old.

What is even more tragic is that the case of Mr. Magnitsky is only one of the most extreme examples of the broad and dramatic deterioration of rule of law in Russia, and its replacement with arbitrary and nearly unchecked state power, which is increasingly concentrated in the hands of one man, President Vladimir Putin.

What is emerging in Russia today can only be described as a culture of impunity—a sense among those who control the levers of power that Russia is theirs for the taking, and the only question left to debate is how government officials and other elites will divide up the wealth, the power, and the spoils. This culture of impunity begins, first and foremost, with President Putin. He sets the tone in the country. And right now, with his return to the presidency, and with many of the actions that the Russian government has taken recently, the signal is being sent across the country, especially to every petty tyrant and aspiring autocrat in the Russian state, that Putin is doing what he wishes. He is using the instruments of the state to crush his critics. He is getting away with it. And you can too.

This culture of impunity in Russia has been growing worse and worse over many years. It has been deepened by the increased surveillance and harassment of members of opposition and civil society groups . . . by the continued violent attacks on brave journalists who dare to publish the truth about official corruption and other state crimes in Russia today . . . and of course, by the continued detention of numerous political prisoners, not least Mikhail Khordokovsky and his associate Platon Lebedev, who remain locked away but not forgotten. I continue to fear for the health and safety of both men. And I pray for them.

The culture of impunity in Russia can also be seen in Russia's recent elections—the parliamentary election last December and the presidential election in March—which were criticized for their flaws and irregularities by impartial, objective international organizations. It can be seen in the recent NGO law passed by the Russian legislature, which requires any civil society group

in Russia that receives international funding to register as a “foreign agent.” The vast majority of these civil society groups have nothing to do with politics. Clearly, the intent of this law is nothing less than to demonize, and marginalize, and stigmatize as treasonous whatever independent civil society organizations still remain in Russia.

The culture of impunity in Russia can also be seen in the government's new and growing interpretation of its law against extremism. A law that may once have been designed to address real concerns with terrorism and violent extremism is now being broadened to put pressure on civil society groups and religious minority groups, even including the Jehovah's Witnesses. A Russian court even went so far as to classify as an extremist organization the punk rock band of Russian girls that staged a protest performance this year in Moscow's Christ the Savior Cathedral. Any media outlet in Russia that would dare to broadcast this group's material could now be subject to having their outfit closed down by the Russian state.

This culture of impunity was extended even further last month in Russia's new law against treason. That term has now been defined so broadly that it allows the state to ban websites and impose fines, and likely worse penalties, against Russians who participate in unregistered demonstrations, who fail to register as foreign agents where now required under Russian law, and even to those who are suspected of giving advice to foreigners. Many Russians rightly believe that this new treason law is so expansive that the government can use it to stifle the legitimate rights and freedoms of anyone they deem to be an enemy of the state.

This culture of impunity also extends to the recent decision by the Russian government to terminate the presence and all programming of USAID in Russia. Whatever the stated reason for this decision, there should be no doubt why it was done—to try to further isolate, and marginalize, and emasculate civil society groups in Russia by denying them an ability to work in partnership with the United States, as many of these groups have freely done and wish to continue doing.

Ultimately, this culture of impunity in Russia is why Sergei Magnitsky is dead. That is why, even now, no one has yet been held accountable for his murder. And I suspect no one ever will. What is worse, the Russian government has done the opposite: It has put Sergei Magnitsky, a dead man, on trial, perhaps in an effort to prove that he got what he deserved. They have even required Mr. Magnitsky's mother and family to appear at the trial, which sinks this case to a whole new low. This culture of impunity is why videos are surfacing even now that document the brutal conditions of Russia's prison system, and the systematic abuse and torture to which detainees are sub-

jected there at the hands of midlevel tyrants who want to run their small part of the Russian state just as their president does.

This is why we need to pass the Magnitsky Act. If citizens and civil society groups in Russia do not have a path to justice in Russia, then the international community has a responsibility to show these people that there can still be accountability, that there can still be consequences, for what they are suffering.

The Magnitsky Act does that. And I want to be clear: What is so important about this legislation is that its provisions would not simply apply to those Russian officials responsible for the torture and murder of Sergei Magnitsky; it would also apply to other persons in Russia who commit human rights abuses. In short, this is not just about historical accountability; it is also about preventing future Magnitsky cases. It is about imposing consequences on all human rights violators in Russia.

The allegation that this legislation infringes on Russian sovereignty is nonsense. The Magnitsky Act does not require the Russian government or Russian citizens to do anything they do not wish to do. It cannot force human rights abusers in Russia to stop what they are doing. But if they continue, what this legislation does do is tell those individuals that they cannot bank their money in the United States, that they are not welcome in this country, that they cannot visit this country, and that they will have no access to the U.S. financial system.

Now, I know we have had a debate about whether to make this bill globally applicable—a tool that could be used to apply these same kinds of penalties to human rights abusers anywhere in the world. This is a worthy goal, and I believe we should have such a debate in the next Congress. It is important now, however, that the Magnitsky Act remain focused squarely and exclusively on Russia. That is what Russian democrats and civil society groups tell me they want right now. They want Congress to send their government a message on human rights, and by keeping the Magnitsky Act focused for now on Russia, we can do just that.

Furthermore, the administration can use its own executive authority at this time to apply similar kinds of pressures contained in the Magnitsky Act to human rights abusers in other countries. I, for one, will be watching closely to see if they do, for many other cases are crying out for greater U.S. leadership on behalf of human rights. And if the administration does not take the initiative to apply the leverage at our disposal to these other cases beyond Russia, that is the surest way to ensure that the Congress will act to globalize the Magnitsky Act next year.

There are still many people who look at the Magnitsky Act as anti-Russia. I

disagree. I believe it is pro-Russia. I believe it is pro-Russia because this legislation is about the rule of law, and human rights, and accountability, which are values that Russians hold dear. I believe it is pro-Russia because it does not make all Russians pay for the crimes of a small handful of corrupt officials, and in this way, the Magnitsky Act is an improvement on Jackson-Vanik and an ideal replacement for it. I believe the Magnitsky Act is pro-Russia in the same way that Permanent Normal Trade Relations is also pro-Russia—because both measures are ultimately about strengthening ordinary Russians who long for greater opportunity, greater freedom, and greater protections for their rights under the rule of law.

I am not under any illusion that the passage of either the Magnitsky Act or PNTR for Russia will ensure the success of rule of law in Russia. Not at all. But while both measures are very different and present very different kinds of benefits to the Russian people—one a material benefit, the other a moral benefit—both of these measures, I firmly believe, are nonetheless beneficial to Russia. Both create high standards to which we and others can hold the Russian government, both on the trade front and on matters of human rights. Both provisions create levers for international accountability where few currently remain in Russia. In other words, the Magnitsky Act and PNTR for Russia can serve as tools that will help to empower ordinary Russians who do not want their lives or their livelihoods to be determined solely by the predatory elites in the Russian state.

Ultimately, passing this legislation will place the United States squarely on the side of the Russian people and the right side of Russian history, which appears to be approaching a crossroads. I remind my colleagues that today is the anniversary of the massive protests that rocked Russia one year ago. As I have said before, I do not believe that the demand for freedom and dignity that have so profoundly shaken the Arab world are unique to that part of the world. I think the effects of these upheavals will be global, because the values and aspirations at their heart are universal. I think this makes Mr. Putin and his cronies very nervous—and it should. The desire for peaceful change and democratic and legal reform can be delayed for a time. They can be delayed, but they cannot be denied. This legislation is a vote in favor of a brighter, better future for the Russian people—a future that they can determine, freely and independently, for themselves.

Finally, I would be remiss if I did not conclude with a word on Moldova, because this legislation would also take the long overdue step of repealing Jackson-Vanik for Moldova and granting it Permanent Normal Trade Relations as well. This should have been done years ago. I have been an advo-

cate for this action for many years. I have continually insisted that the Congress should not be allowed to pass PNTR for Russia without doing the same for Moldova. That was a condition of my co-sponsorship of this legislation, and I am proud that the Senate is now on the verge of clearing the way for normal trade relations between the United States and Moldova. That small country has taken enormous strides toward democratic and economic reform, and toward deeper integration in the European community. Passing this legislation will be a critical vote of confidence in Moldova's political and economic reforms and in support of its democratic future.

For all of these reasons, and for the many more that I have listed with regards to Russia, I urge my colleagues to support this legislation.

Finally, I say to my three colleagues on the floor, there are times when we do a lot of things for the people we represent and a lot of things for the country. I think what we are doing here, which will be rapidly approved and has already been approved by the House and will be made into law, is something we are doing for people in Russia who need our help now, our voice and our commitment. Many of the great and wonderful ideas, promises, and prospects after the fall of the Soviet Union that was the case of Russia have been dashed. Maybe we should take responsibility for not playing a more constructive role in the 1990s when Russia was going through a critical phase.

I promise today, not just to Sergei Magnitsky's widow, but to all people throughout Russia who will be encouraged by this message because, as they were years ago, the legislation we are now repealing, the Jackson-Vanik act, was a call to the people in Russia who were being held under terrible conditions that they would now be able to freely immigrate to a land with promise of a better future. I believe that today this legislation is one of the most important ones that in years to come we can be proud we were a small part of.

The PRESIDING OFFICER. The Senator from Maryland.

Mr. CARDIN. Madam President, I compliment the Senator from Arizona on the moral clarity of his statement. I think the Senator is absolutely right. The moral clarity here is clear: Those who commit gross violations of internationally recognized human rights are on notice. As the Senator pointed out, this legislation applies beyond the Magnitsky tragedy, it applies to Russia, and it is a standard that we intend to use for other opportunities whether it is trade bills or other legislation.

I hope we will make this statutorily global. We will have that debate at a later point. We will have other opportunities to make it clear that those who violate human rights are internationally recognized, that the clarity here is clear, and that there will be repercussions on the rights of our own country.

We cannot determine how Russia will treat its violators under their laws; they will have to handle that. But we have the moral certainty that we are not going to assist those violators and deny their opportunities to come to America and use our banking system.

Mr. MCCAIN. Madam President, a quick response to my friend from Maryland, and that is we talk a lot about the globalization. Don't think that dictators, brutal rulers, and oligarchies all over the world are not paying attention to this legislation. Our message to them is: Keep it up; you are next.

The PRESIDING OFFICER. The Senator from Montana is recognized.

Mr. BAUCUS. Madam President, before the Senator leaves the floor, I thank him very much for his leadership. He is a stalwart leader in protecting human rights all over the world, but in this case Russia. I think he is right in suggesting that it is a good follow-on to protecting human rights, and certainly in this case Russia.

I thank the Senator very much.

Madam President, I ask unanimous consent that under the time to be controlled on the Democratic side, the following Senators be given the time listed: Senator LEVIN, 15 minutes, and Senator CARDIN, 50 minutes. I understand that he has already used a certain amount of time, so the total will be 50 minutes. Senator DURBIN will be given 10 minutes and Senator LIEBERMAN 10 minutes; further, all time used for debate on the bill earlier today during morning business be counted toward the 5 hours allocated under the unanimous consent agreement.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. BAUCUS. Madam President, I yield 10 minutes to the Senator from Connecticut.

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. LIEBERMAN. Madam President, I thank my friend, the chair of the Finance Committee. I thank him for yielding me 10 minutes. While I am expressing gratitude, may I express gratitude to the Senator from Maryland. Talk about moral clarity, which is a term he just used for our friend from Arizona, he showed real moral clarity for this and so many other issues. I thank him for that.

As I begin my final month in the U.S. Senate, it gives me great confidence to know that people such as Senator CARDIN and Senator MCCAIN are going to be here to continue to hold America to the standard that our founding doctrines hold us to, which is to be a beacon of human rights and a protector of those who fight for human rights around the world. So my thanks and compliments to Senator CARDIN.

I rise to join those who are supporting this bill, which is two measures brought together in a mutually productive partnership. The case for granting

PNTR to Russia is clear and straightforward.

Russia became a full member of the World Trade Organization over 3 months ago, and in doing so was bound to pledge to cut tariffs for manufactured imports and open its service sector to foreign competition. In order for American companies to realize these benefits, we must grant permanent normal trade relations, PNTR, to Russia. For this reason the only country that will be disadvantaged if we fail to pass this bill will be our own, and that particularly means our own businesses. Of course, that is why generally American businesses and leading business advocacy groups such as the chamber of commerce, in particular, have supported this legislation so strongly. It is also why the Governors of 14 of our States, including Connecticut, and six former U.S. Trade Representatives have urged the Senate to follow the House and swiftly pass this bill.

I also note that this legislation will grant permanent normal trade relations to the country of Moldova, a country that has demonstrated tremendous democratic progress over the past two decades. Deepening our economic ties with Moldova is good for American business and will help keep Moldova on the path of democracy as well as development. So PNTR for Russia and Moldova is necessary and good for the United States.

For me, and I hope many others—eloquently expressed by Senator CARDIN and Senator MCCAIN—the case for this bill is sealed because of its incorporation of separate legislation, the Magnitsky Rule of Law and Accountability Act, of which I am privileged to be a cosponsor.

I must say that as I look back over the 24 years in the Senate, which I have been doing a lot lately, there are not too many pieces of legislation that I have been prouder to be associated with than the Magnitsky Act.

As many of you know, this legislation is named for a 37-year-old Russian tax lawyer named Sergei Magnitsky whose tragic murder 3 years ago is among the most horrible examples of corruption and thuggishness that continues to afflict Russia. Mr. Magnitsky is rightfully the namesake of this legislation. It will impose a visa ban and asset freeze not only against those officials whom we have good reason to believe are responsible for his murder, but also against Russian officials responsible for any and all human rights abuses that are too regularly taking place in that country.

Senator MCCAIN, Senator CARDIN, and I have had the privilege of meeting with Russian dissidents, political activists, and human rights leaders over the years. What they have told me and my colleagues over and over is that there is one thing above all others we can do here in the United States to help support the cause of human rights and the rule of law in Russia, and that is to pass the Magnitsky Act.

So today I join my colleagues who support this legislation and say to those in Russia who are striving courageously to secure their fundamental freedoms—the same rights to life, liberty, and the pursuit of happiness that our Founders said in our declaration were the endowment of our Creator to every human being—that we have not and will not forget them and their cause. We know and will remember their names. We will stand in solidarity with them and in support of them until they achieve their goal, which is a goal we share. That goal is the spread of democracy and a democratic Russia that respects the rule of law, protects human rights, and is free of corruption.

I want to echo what my friends said a moment ago. I was thinking about it. I am not sure anybody has mentioned the name of Natan Sharansky, a famous Russian dissident of an earlier time, a refusenik placed in a Russian gulag and who served so much time in solitary confinement. I have had the honor to get to know him. If you read his books, there is a very moving series of sections where he talks about the fact that when Jackson-Vanik passed and they learned about it, they would communicate with each other in the most primitive ways when news came in, and what an inspiration it was. In some sense it kept not just hope alive but kept them alive, that the U.S. Congress had adopted this law which would impose penalties on the Soviet Union unless it allowed people to freely emigrate. Disproportionately at that time it was dealing with Jews.

It was also stated that they wanted to leave because they were so oppressed in the Soviet Union. It was actually stated in global terms at that time. Maybe sometime we will come back and address that.

I remember what Sharansky said about the day while in solitary confinement somebody was able to convey to him by tapping pipes that President Reagan had called Russia—and the Soviet Union, really—the evil empire. And knowing that the leader of the free world—the most powerful person in the world—would call out this oppressive government that had locked him up for no reason other than he had advocated for human rights, he said this would sustain his hope.

In some small way I hope the passage of this Magnitsky Act will do the same for those who are fighting for the many people whose freedom of expression has already been compromised by the government in Russia and for the people whose businesses have been essentially taken by the government.

I think one of the great disappointments over the last quarter century is the hope that we had after the fall of the Berlin wall and the collapse of the Soviet Union, that this great country of Russia, this great people whose history and culture is so proud and so strong, would finally be able to be free of tyranny. Well, they are freer than

they were during Soviet times. I guess that is some small consolation. But increasingly the central government and President Putin have compromised human rights.

Incidentally, going to the other part of this bill, the PNTR part for free trade, there are a lot of businesses in the United States and elsewhere in the world that will be hesitant to invest as much as they would otherwise invest in Russia so long as the Russian Government is as autocratic, irrational, suppressive, repressive, and corrupt as this Russian Government is. So in all these respects, I would say that the Magnitsky Act is a worthy successor to Jackson-Vanik, which was such a crusading human rights measure in its own day and, may I add, bears the name of a truly great Senator, Henry M. “Scoop” Jackson, a personal role model to me and others. Today the Jackson-Vanik amendment no longer makes sense because there is free emigration from Russia; therefore, we are right to lift it. But it is equally right that we replace it with a law that will address the primary human rights facing Russia today. May I say in repealing Jackson-Vanik, we actually honor his proud legacy and keep it alive.

Just over a year ago, when the Russian people responded to a fraudulent parliamentary election by taking peacefully to the streets, the Kremlin responded with thuggish brutality. Instead of at least respecting the legitimate demands of his people or listening to them, President Putin falsely accused the United States of creating this opposition in Russia and began a campaign of stifling dissent that continues to escalate to this day. Independent media outlets have been targeted, including American broadcasting services. Journalists and opposition activists have been harassed and arrested and put in jail, and the Russian Duma has passed a law that grants sweeping power to authorities to close Web sites and limit freedom of expression, and another law passed by the Duma expands the definition of treason so broadly that human rights groups believe it could be used to punish anyone who questions the government.

Meanwhile, the nongovernmental organization community has come under increasing attack. Our own Agency for International Development has been evicted from Russia recently, and Russian NGOs are now required by law to register as foreign agents if they receive any money from abroad or engage in political activity.

This is a sorry state of affairs, and it is very important that we heed Senator CARDIN’s call to act as best we can to speak out against it and to do something that the dissidents of Russia have told us will really affect the elite class, the leadership class in Russia, which is to seize their assets if they are human rights violators and to prohibit them from freedom of travel. When we pass this, as I am confident we will—this is one of the days when I am sure

everybody in the Senate feels grateful we are here because what we do here matters. Sometimes we wonder, I think, in the gridlock and partisanship and complexity of politics in our country these days. But as I have traveled around the world over the last 24 years, I have been struck by how many places democracy has taken root where few predicted it was possible, and the voices of Members of Congress or Congress as a body have encouraged the dissidents to show the courage they needed to achieve what they wanted. From Indonesia to Chile, from East Germany to South Korea, authoritarian regimes have been supplanted by flourishing free societies in just about every corner of the Earth. We in the United States and everybody in the world are a lot better off for it.

Unfortunately, that can't be said of Russia, and that is why this Magnitsky act is so important to adopt. Despite the democratic setbacks in Russia I have just described and the repressive acts by its government, I remain confident that the future of these great people does not belong to those who would impose upon them a system of tyranny, of corruption, of abuse without impunity. The future of Russia belongs to Russians who believe they have the right to decide their destiny for themselves, to the Russian people who are sick of corruption and who demand the rule of law—fairness, justice under law. In short, it belongs to people like the late Sergei Magnitsky, whose name will be immortalized when we pass this legislation.

In supporting this legislation, I say to my colleagues, we stand with them in their noble cause. That is why I hope and I am confident that we will all join together, Democrats and Republicans and an occasional Independent, and pass this legislation overwhelmingly.

I thank the Chair, and I yield the floor.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. PORTMAN. Madam President, I rise today in support of the legislation before us and in support of the comments my Independent colleague from Connecticut just made which had to do with the Magnitsky provision, which I also support. I heard my colleague from Arizona, Senator McCAIN, talking about it passionately earlier. It is an important part of this legislation. But with regard to the trade part of the legislation, I would like to say that I think this is also a great opportunity for us. I see my colleague from Maryland here who, along with Senator McCAIN, has taken the lead on the Magnitsky provision encouraging better human rights in Russia, and I think we will see over time that this will have an impact globally.

With regard to the trade side of this debate we are having today, I hope we all recognize that one of the great, untapped opportunities for our economy and for adding jobs is to expand exports. We have a great, untapped po-

tential here because America still is not exporting at the level it should be. We do face stubbornly high unemployment. We do have stagnant growth rates. We are looking at some tough economic numbers even as we head toward the fiscal cliff which could make it even worse. So we need to do all we can to ensure that our workers and our farmers have access to the 95 percent of consumers who live outside of our borders. That adds jobs. When companies consider whether they are going to get into the export business or not, which again creates opportunity here, they want to know if they are going to be treated with certainty, predictability, and fairness in the marketplace. Exporters need to know that if a country doesn't play by the rules, then that country will then face consequences. Those consequences really are what the World Trade Organization is all about. That is why this discussion is so important, because by today or tomorrow, voting to authorize permanent normal trade relations with Russia, we then can take advantage of the World Trade Organization rules as they relate to Russia and to our trade with them.

Russia joined the WTO on August 22, and the United States was a big part of that accession. We worked with Russia for 18 years to ensure that they were willing to go along with certain fairness provisions on trade to be able to enter the WTO, and we need to be sure now that we can take advantage of those provisions. Without passing this legislation, America and our farmers and our workers could get left behind. By joining it, Russia did agree to abide by a certain set of common rules, and when they break those rules, other countries can then take them to court—the World Trade Organization—and help hold their feet to the fire.

It means Russia will be required to better protect intellectual property rights, which is a major concern for U.S. companies. It means Russia must treat fairly the highly technical services sector where the United States has a great opportunity, including telecommunications, insurance, energy services, and retail services. There we have a lot of competitive advantages and we are looking for a level playing field. It means they have to give rules-based treatment to our agricultural exports so they are not trumped by internal Russian agricultural politics. It means Russia has to improve its transparency and the rulemaking process so regulations are not taking place without an adequate comment period and input from job creators, including American companies that want to do business in Russia. These were all concessions that were secured, again, over this 18-year period by the United States and other countries, but primarily the United States took a role here—Republican and Democratic administrations alike—in ensuring that as Russia entered the WTO, we had the opportunity to have a fair trading system with them.

By the way, I was part of that as U.S. Trade Representative negotiating with my Russian counterpart, Secretary JOHANNIS—then Secretary, now colleague from Nebraska—was part of that as U.S. Agriculture Secretary. Others here in the Congress have been part of that as members of the Finance Committee.

So currently we have these trade rules that apply to the rest of the world but not to us because Russia is part of the WTO but we haven't granted this important PNTR status. So of the more than 150 countries in the World Trade Organization, we are the only ones that are outside of this agreement at this point. American exporters will only receive those benefits with total certainty if we pass this bill to provide these normal trade relations with Russia. If we fail to do so, we really hold back American workers and businesses from growing in the Russian marketplace, which, by the way, has 140 million consumers. Our European and Asian competitors would have that reliability and certainty that we would lack. When Russia doesn't play by the rules, our competitors around the globe would be able to take them to the world trade court, but we wouldn't. If we think about it, in a way we are shooting ourselves in the foot if we don't move forward with permanent normal trade relations with Russia.

Russia is now the ninth largest economy. Unfortunately, we are underperforming in the Russian market. The United States, the world's greatest exporter, now only accounts for less than 5 percent of Russia's imports. Our competitors in Europe have a 40-percent share of the Russian market. China holds a 16-percent share of that market. So, again, it is a growth economy; it is an economy where we have tremendous opportunities.

I know Chairman BAUCUS talked about this earlier today. I watched him on C-SPAN where he talked about the opportunities in this market and about the need for us to help our exporters here in the United States by opening this potential market for our workers and our farmers. We can do much better if we pass this PNTR bill.

This is certainly true in my home State of Ohio. Ohio already exports about \$200 billion a year in goods to Russia, and we want to retain those sales and add even more. This bill impacts a number of businesses with a large Ohio footprint.

Caterpillar, the world's leading manufacturer of construction and mining equipment, is one of them. Caterpillar employs nearly 1,000 Ohioans, including in the Miami Valley in Clayton, and is a great example of the certainty the PNTR bill will bring. With Russia's entrance into the WTO, tariffs on American-made Caterpillar trucks exported to Russia will fall from 15 percent to 5 percent. That allows Caterpillar to be much more competitive in the Russian market. For Caterpillar's off-highway trucks, the tariff reductions exceed

\$100,000 per truck. That is a real difference. It is a substantial margin. But if we don't pass this bill, we have no idea how Russia will treat our U.S. exports and we will have no way to hold them accountable.

Other Ohio businesses that will benefit include Procter & Gamble, which sells more than 50 brands in Russia, including detergents, shampoos, and diapers. They have the leading market share, by the way, in 75 percent of the categories in which they compete.

Eaton, which is a company in the Cleveland area and has thousands of employees in northeast Ohio, exports industrial clutches and brakes to Russia and looks forward, again, to the certainty this bill will bring when working with our customers in Russia. They need that certainty.

GE Aviation in Ohio employs about 9,000 people in Cincinnati and has a great opportunity to compete as Russia acquires over 1,000 new civilian aircraft over the next decade.

Ohio's cattlemen strongly support this legislation. Russia has made some important concessions in the negotiations that will help meet the growing demand for U.S. beef in Russia. Russia is currently the fifth largest export market for U.S. beef. According to the USDA, over 48,000 head of U.S. live cattle were sold to Russia just this year. In 2011 Ohio exported over 3,000 cattle to Russia, and we expect that number to rise dramatically.

The bill also contains some items the Russian Government opposes, including the human rights provisions which were discussed earlier here on the floor, inspired by the treatment of Russian lawyer Sergei Magnitsky. Senators CARDIN, MCCAIN, and others have put the spotlight on the corruption and the lack of transparency in Russia. These provisions will clamp down on human rights abusers, denying them visas and putting them on notice that their corruption won't be tolerated by freedom-loving countries such as the United States. The House passed this bill last month on the anniversary of Magnitsky's death, and it is time the Senate does the same.

We also have some provisions in this legislation that will ensure that our trade negotiators keep Russia's feet to the fire in implementing all the various commitments Russia has made, particularly with regard to agriculture. Russia has not always played by the rules. It has been a point of friction between our countries. We need to be sure they do the heavy lifting back home to bring their laws into compliance, including their pervasive use over time of non-science-based standards to discriminate against our U.S. agricultural exports.

I also wish to note my strong concern with Russia's involvement on another front; that is, their involvement in the continuing Syrian conflict. As a member of the Senate Armed Services Committee, I have watched the Syrian situation with alarm, particularly as we

have seen it unfolding this week. Russia has been anything but an ally in this case with the support of the Assad regime. They vetoed three U.N. Security Council resolutions aimed at imposing tough sanctions on the Assad regime. When Russia isn't using their veto power to support their Syrian friends, they are arming the Assad dictatorship with over \$1 billion, we are told, in weaponry, including attack helicopters, that they are using to continue their terror against their own citizens in Syria.

Let me be clear. While I fully oppose Russia's actions in Syria, this bill is no gift to Russia. In fact, this bill has teeth. It brings Russia into a rules-based system. It is good for America and our economy and our jobs, and I think it strikes a critical balance by giving critical assistance to American companies that want to export their products to Russia's growing middle class, supporting good-paying jobs here at home, while forcing Russia to play by the rules and, again, providing binding penalties if they fail to live up to these international standards.

While I am pleased we are finally moving forward on this bill, I am also disappointed we haven't made more progress over the last 4 years on trade. We didn't make opening new export markets a high priority in the President's first term. I am hoping that will change over the next 4 years because helping U.S. job creators export shouldn't be a partisan issue. Over 100 bilateral trade agreements are being negotiated today as we speak here on the floor. The United States is a party to none of them. We are a party to one multilateral trade agreement which I support, but we need to get back and engage in these bilateral agreements and open markets for our products. We have been sitting on our hands on the side lines in an increasingly global and dynamic economy. This is the first administration actually since FDR not to ask for the ability to negotiate export agreements and bring them to Congress under expedited procedures, which is now called trade promotion authority. And this is something unique. This administration has yet to even ask for it over the last 4 years.

Last year, we finally passed the Korea, Colombia, and Panama export agreements. Hopefully, our bipartisan actions today to boost exports to Russia will signal a new chapter for us to engage as a Congress and with the administration in a much more ambitious and proactive trade policy.

I am pleased this bipartisan bill received such broad support from Republicans and Democrats in the House, getting 365 votes, and I urge my colleagues on both sides of the aisle to now support this legislation before us.

Mr. HATCH. Madam President, I rise to highlight an important provision in the PNTR legislation that requires the United States Trade Representative and the State Department to provide an annual report to Congress on the

steps they are taking to advocate for American investors in Yukos Oil, the Russian oil company that was effectively expropriated by the Russian Federation in 2007. The annual report would also include a report on the status of the petition filed by American investors in Yukos to request that the State Department formally "espouse" the debt—meaning to make compensation for American investors a matter of bilateral negotiations between the United States and Russia.

More than 40 bipartisan Members of the House and Senate have written letters to Secretary Clinton in favor of the State Department taking up the cause of American investors. The State Department has been closely watching international tribunals adjudicating the claims of non-American international investors in Yukos to help guide its own decision-making. On July 25, 2012, an international tribunal established pursuant to the Spain-Russia bilateral investment treaty ordered the Russian government to compensate a group of Spanish investors for the losses they suffered from the expropriation of Yukos. Likewise, an investor from the United Kingdom prevailed in a similar proceeding in September 2010. These rulings would appear to indicate that there is merit to the claims of the American investors.

When a government abuses its tax and regulatory authority to nationalize the property of foreign investors, it is required to provide compensation to those investors. To date, none of the American owners of Yukos has received any compensation.

I insisted that the Russia PNTR bill incorporate new trade tools and I hope that these will be used to assist in the satisfactory resolution of the claims of American investors in the Yukos case, as well as to assist other American businesses and investors who may struggle with Russian corruption and rule of law issues.

Ms. SNOWE. Madam President, I rise to both support the bill we are considering today but also to discuss the implications of Russia's accession to the World Trade Organization, WTO. I was proud to be part of a unanimous vote for this measure coming out of the Finance Committee and I expect tomorrow we will see a similarly strong showing of support for this significant trade measure. It is not often these days that we see such bipartisan agreement and I welcome it and encourage its expansion into other key areas.

Russia was formally invited to join the WTO on December 16, 2011, and its entry into the WTO became official and effective this past August. There are more than 150 countries in the WTO, and with Russia's entry, now each of those countries have gained an improvement in trade conditions with Russia in the form of lower tariff barriers, easier access to markets and credit, and a variety of less tangible but certainly meaningful benefits including greater transparency and more

enforceable mechanisms for securing property and other rights. We are promised that all WTO member countries will enjoy these privileges in their trading with Russia, but so far we are not among them: if the Congress does not take the opportunity to enact the bill before us, then we are only harming ourselves, as American businesses will be at a serious disadvantage relative to other nations' enterprises in terms of their ability to access the Russian markets. This is not merely theoretical, as my own home State of Maine exported \$13.9 million worth of goods to Russia in 2011 alone.

To recognize Russia's entry into the WTO and gain the advantages for American interests that such recognition brings, we must now consider the granting of Permanent Normal Trade Relations or PNTR with Russia. The United States provides PNTR to nearly all nations, but routinely has denied PNTR to communist or non-market countries. Specifically, this restriction has reflected our desire as a Nation that all peoples should be allowed to move freely in and out of their own countries—and the restriction is a reaction to the regimes that do not allow the free movement and emigration of their citizens. America memorialized this freedom-of-emigration concept in the Jackson-Vanik amendment, in large part as a response to the then-Soviet Union's consistent and often harsh limitations on the free movement of its people. The Soviet Union is no more, and now we must repeal Jackson-Vanik before PNTR can be granted. The bill before us accomplishes this significant objective.

But we cannot simply applaud this vote without also accounting for some very troubling issues that remain with Russia. This year and the recent past for Russia have been clouded by a disturbingly long list of concerns about just how modern and democratic Russia may truly be. There are very serious questions regarding the integrity of Russia's electoral process, its support for brutal regimes such as in Syria, its abuse of human rights within its own borders and with its neighbors, its new promise of a massive arms and nuclear warhead build-up, and its near-flagrant disregard for intellectual property rights. We are told that entry into the WTO establishes Russia's willingness to abide by a rules-based system, but reports of corruption throughout Russia seem to belie its ability or willingness to follow the rules it set for itself—so we must ask, how can we trust them to follow the rules when working with others? I am saddened at the thought that, by taking action to provide PNTR to Russia, we are potentially condoning if not rewarding outright the manifold abuses that Russia continues to perpetrate under the guise of, but seemingly in defiance of, the concept of an open and lawful democracy.

It is with that firmly in mind that I applaud our colleague Senator CARDIN,

along with Senator MCCAIN, for identifying one way to deal with at least some of our serious concerns about Russia. I am speaking of the Sergei Magnitsky Rule of Law Accountability Act of 2011, or S. 1039. This bill recognizes the tremendous courage that Mr. Magnitsky showed in seeking to expose corruption and fraud in Russia, for which he paid the ultimate price. He was imprisoned and allegedly tortured in an attempt to make him recant the charges he was making, charges that turned out to be accurate, and he died in the hands of his jailers. The legislation would impose visa and asset forfeiture restrictions on those responsible for these foul deeds, and it could set a new standard for addressing future human rights abuses in Russia. I am proud to see this measure included in the bill we are voting on today and its inclusion was critical to my support and, I am sure, that of many of my colleagues. I believe its inclusion helps make this bill a holistic approach that does not punish honest American interests while also not rewarding questionable actors within Russia.

Mr. President, thank you and my colleagues for this vital vote. I look forward to today's debate.

Mrs. FEINSTEIN. Madam President, today I wish to express my support for legislation granting permanent normal trade relations, PNTR, to Russia.

We need to act now so that our exporters can take advantage of Russia's accession to the World Trade Organization, WTO, in August.

The House voted to approve PNTR for Russia on November 16th on a 365-43 vote. The Senate Finance Committee approved its version of the bill on a 24-0 vote in July.

The legislation enjoys widespread support among manufacturers, service providers, and farmers.

It has been endorsed by, among others, the U.S. Chamber of Commerce, the National Association of Manufacturers, and the American Farm Bureau.

As a part of joining the WTO, Russia negotiated agreements with each member, including the United States, making commitments to eliminate non-tariff barriers, protect intellectual property, liberalize key sectors such as services, and improve its business climate.

For example, Russia agreed to: lower tariffs on industrial products from an average rate of 10 percent to 7 percent; not raise tariffs on 90 percent of agricultural products and keep them at 15 percent or lower; join the WTO Information Technology Agreement and eliminate tariffs on major IT products within 3 years; abide by WTO rules on enforcement of intellectual property rights; and remove limitations on foreign equity in telecommunications companies, insurance companies, banks, and wholesale and retail enterprises.

These commitments will be subject to the WTO's dispute settlement proc-

ess and help promote greater transparency and a more stable business environment for foreign investors.

Since the United States is a member of the WTO, this agreement includes only concessions by Russia. The United States will not lower a single tariff, provide any market access benefits, or make any changes to U.S. trade law.

Under WTO rules, however, in order for the United States to take advantage of Russia's commitments, it must enact permanent normal trade relations for Russia.

Currently, Russia enjoys normal trade relations, NTR, status—the status enjoyed by a trading partner that faces the most favorable U.S. tariffs in exchange for similar benefits for U.S. exports.

This status must be renewed on an annual basis due to a provision enacted in the Trade Act of 1974—the so-called “Jackson-Vanik” amendment—in response to concerns about Jewish emigration from the former Soviet Union.

That law conditions normal trade relations status on a country allowing its citizens to emigrate freely.

Russia has consistently met the requirements of Jackson-Vanik since the fall of the Soviet Union and its NTR status has been renewed annually without debate since 1994.

Yet, WTO rules mandate that its members provide each other with unconditional or “permanent” normal trade relations. That is, we have to treat each member equally, extending them the most favorable U.S. tariffs in exchange for similar benefits without restrictions.

Otherwise, they are under no obligation to extend the same favorable treatment to U.S. exports.

Since the United States only grants Russia conditional or annual normal trade relations status, the United States is not in compliance with these rules and Russia can refuse to extend the market access commitments it made to join the WTO to U.S. exports.

This is putting our exports at a competitive disadvantage because every other WTO member—155 in total—has permanent normal trade relations with Russia and has been receiving the benefits of Russian membership in the WTO since August.

So while we delay, our manufacturers, service providers, farmers, and workers are losing out on a fast-growing market.

Russia has a gross domestic product of \$2.2 trillion, the sixth largest in the world. Its economy is expected to grow by 4 percent annually through 2015, according to the International Trade Administration.

U.S.-Russia trade grew by 37.9 percent in 2011 and total U.S.-Russia trade stood at \$42.9 billion.

This mutually beneficial relationship will continue to grow by enacting this legislation.

Let me repeat: for those who may be concerned about this legislation's effects on U.S. jobs, it is important to

point out that the United States will not have to lower a single tariff or make any market concessions on Russian imports by approving permanent normal trade relations.

All concessions will be made by Russia as a part of its agreement to join the WTO.

What does this legislation mean for my home State of California?

Among U.S. States, California is currently the 4th largest exporter to Russia, according to the Coalition for U.S. Russia Trade. According to the Business Roundtable, California exported \$665 million worth of goods to Russia in 2011, supporting 2,000 California jobs.

In 2011 California's exported \$156 million of computers and electronics to Russia, our top export. Yet, U.S. companies only held 4.2 percent of the Russian import market compared to 36.5 percent for the European Union, EU.

As part of its WTO accession, Russia agreed to eliminate tariffs on IT products and take additional actions to protect IPR, including joining the WTO Information Technology Agreement.

In 2011, California exported \$47 million of pharmaceuticals to Russia, but the EU held 77 percent of the import market. As a part of its WTO accession, Russia agreed to lower its tariff to 4.4 percent.

In 2011, California exported \$90 million of cars to Russia, the world's 6th largest car market. U.S. cars, however, make up only 4 percent of Russian imports while Japan has 40 percent of the market and the EU has 35 percent.

As a part of its WTO accession, Russia agreed to reduce its tariff on cars from 20–35 percent to 15 percent.

In addition, for California agriculture, Russia has agreed to: lower tariffs on dairy from 19.8 percent to 14.9 percent; reduce its tariff on grapes from 10 percent to 5 percent within 3 years; lower tariffs on cereals from 15.1 percent to 10 percent; and establish lower in-quota tariff rates for pork, poultry, and beef.

Unless we pass permanent normal trade relations, our foreign competitors will be able to use the concessions Russia made when joining the WTO to protect their companies and workers and increase their market share, while the United States will not be able to do the same for our companies and workers.

As a result, failure to pass this legislation will only make it harder for California and U.S. companies to compete in Russia.

The legislation would also impose sanctions on individuals linked to the incarceration and death of Russian lawyer Sergei Magnitsky.

Sergei Magnitsky was a Russian attorney who was arrested in 2008 after alleging wide-scale tax fraud by several law enforcement and government officials. He died in prison a year later due to health complications while awaiting trial.

Investigations later found that Mr. Magnitsky was beaten and did not re-

ceive proper medical attention. His case gained international attention and was used to highlight systematic violations of human rights in the Russian judicial system.

It is my hope that this provision will help bring those responsible for Mr. Magnitsky's death to justice and encourage Russia to do more to tackle corruption and promote a greater respect for human rights and the rule of law.

This is critical if Russia is to enjoy the full benefits of WTO membership and attract more foreign investment.

I urge my colleagues to support this legislation.

I yield the floor.

The PRESIDING OFFICER. The Senator from Michigan is recognized.

Mr. LEVIN. Madam President, I understand now under the existing unanimous consent agreement we are going to be proceeding to debating a judge. I ask unanimous consent that immediately after the disposition of that nomination, I be the first Democratic Senator recognized when we return to the pending trade bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXECUTIVE SESSION

NOMINATION OF MICHAEL P. SHEA TO BE UNITED STATES DISTRICT JUDGE FOR THE DISTRICT OF CONNECTICUT

The PRESIDING OFFICER. Under the previous order, the Senate will proceed to executive session to consider Calendar No. 676, which the clerk will report.

The legislative clerk read the nomination of Michael P. Shea, of Connecticut, to be United States District Judge for the District of Connecticut.

The PRESIDING OFFICER. The Senator from Vermont is recognized.

Mr. LEAHY. Madam President, the Senate is finally being allowed to vote today on the nomination of Michael Shea to be a district judge on the U.S. District Court for the District of Connecticut. It has taken far too long for this day to come, but he will be confirmed and I congratulate him and his family on his confirmation and I congratulate the two Senators from Connecticut on finally having this nomination come to a vote.

I mention this not to urge that we confirm him because we will—and I will very proudly vote for him—but Michael Shea is another nominee whose nomination was stalled for months for no good reason. The Judiciary Committee—and the distinguished Presiding Officer serves on that committee and will recall—we gave his nomination strong bipartisan support more than 7 months ago. He has the support of both home State Senators—both Senator LIEBERMAN and Senator BLUMENTHAL. He has significant litigation experience. He is a graduate of

Yale Law School. He clerked for the conservative Judge James Buckley in the U.S. Court of Appeals for the DC Circuit following graduation.

We have to ask, why did it take 7 months for the Senate to finally consider his nomination—after waiting 7 months, we will talk about it for 20 minutes, and then we will vote on his nomination. Why the 7-month delay? Republican obstruction.

After this vote, the Senate remains backlogged with 17 judicial nominations that go back to before the August recess. Senate Republicans are establishing another harmful precedent by refusing to proceed on judicial nominees with bipartisan support before the end of the session. They held up judicial nominees 3 years ago, they did it 2 years ago, they did it last year, and now they are doing it again this year.

They have found a new way to employ their old trick of a pocket filibuster. They stall nominees into the next year, and then they force the Senate, in the new year, to work on nominees from the past year. They delay and delay and push other confirmations back in time and then cut off Senate consideration of any nominees.

How else does anyone explain the Republican Senate opposition to William Kayatta of Maine, who is supported by the two Republican Senators from Maine? How else to explain the Republican filibuster and continuing opposition to Robert Bacharach of Oklahoma, who has the support of Senator INHOFE and Senator COBURN, the two Republican Senators from Oklahoma? How else to explain their adamant refusal to consider the nomination of Richard Taranto to the Federal Circuit, when the Judiciary Committee had seven of the eight Republican Senators voting for him? One, Senator LEE, cast a “no” vote but said it was a protest on another matter. But every single Democrat voted for him.

These delays may serve some petty political purpose, but the American people do not want petty political purposes. They want our Nation's courts to be staffed. They want the American people who seek justice to be able to get it. So we should take action on all pending nominees and reduce the damagingly high number of judicial vacancies. Federal judicial vacancies remain above 80. By this point in President Bush's first term, we had reduced judicial vacancies to 28.

There were more than 80 vacancies when the year began. There were more than 80 vacancies this past March when the majority leader was forced to take the extraordinary step of filing cloture motions on 17 district court nominations—something I had never seen in my 37 years here. There are going to be at least 80 vacancies after today. Before we adjourn, we ought to at least vote on the 17 pending nominations that could have been and should have been confirmed before the August recess.

From 1980 until this year, when a lame duck session followed a Presidential election, every single judicial nominee reported with bipartisan Judiciary Committee support has been confirmed. That is whether there was a Republican or Democratic President or a Republican-controlled or Democratic-controlled Senate.

According to the nonpartisan Congressional Research Service, no consensus nominee reported prior to the August recess has ever been denied a vote—before now. Somehow, this President is treated differently than all the other Presidents before him. I have been here with President Ford, President Carter, President Reagan, the first President Bush, President Clinton, the second President Bush, and now President Obama. None of those other Presidents were treated in the way this President is treated. It is something Senate Democrats have never done in any lame duck session, whether after a Presidential or midterm election.

In fact, Senate Democrats allowed votes on 20 of President George W. Bush's judicial nominees, including 3 circuit court nominees, in the lame duck session after the election in 2002. I remember. I was the chairman of the Judiciary Committee. I moved forward with those votes, including one on a very controversial circuit court nominee. The Senate proceeded to confirm judicial nominees in lameduck sessions after the elections in 2004 and 2006. Actually, in 2006, we confirmed another circuit court nominee.

We proceeded to confirm 19 judicial nominees in a lame duck session after the elections of 2010, including five circuit court nominees. The reason I am not listing confirmations for the lame duck session at the end of 2008 is because that year we had proceeded to confirm the last 10 judicial nominees approved by the Judiciary Committee in September and long before the lame duck session.

That is our history. That is our recent precedent. Those across the aisle who contend that judicial confirmation votes during lame duck sessions do not take place are wrong. The facts are facts. It is past time for votes on the 4 circuit court nominees and the other 13 district court nominees still pending on the Executive Calendar.

Let's do our job. This is what the American people pay us to do. Let's vote up or vote down, but let's vote.

I yield the floor.

The PRESIDING OFFICER (Mr. WHITEHOUSE). The Senator from Iowa.

Mr. GRASSLEY. Mr. President, today, the Senate turns to the confirmation of another U.S. district judge. According to the Congressional Research Service, the Senate rarely confirms judicial nominees during a lameduck session in a Presidential election year. It did so in a very limited fashion in 1944, 1980, and 2004.

The last time a President was re-elected—President Bush in 2004—only

three judicial nominees were confirmed following the election. That year, following President Bush's re-election, 23 judicial nominations that were pending either on the Senate Executive Calendar or in the Judiciary Committee were returned to the President when the Congress adjourned in December.

Today's vote, the second post-election judicial confirmation, is somewhat of a milestone for this President. It is the 100th judicial confirmation during this Congress. That happens to be the same number of confirmations during President Bush's first term when the Democrats controlled the Senate and chaired the Judiciary Committee. I have heard the chairman rightfully take pride in that accomplishment. Today we match that record. So I think that the continued complaints we hear about how unfairly this President has been treated are unfounded.

Despite our cooperation, we continue to hear the other side argue that since the President won re-election, we shouldn't follow past practice, but rather we should confirm a large number of nominations during this lame-duck session. Recently one of my colleagues on the other side stated: "From 1980 until this year, when a lame duck session followed a presidential election, every single judicial nominee reported with bipartisan Judiciary Committee support has been confirmed."

I suppose this is meant to imply there is some long record of routine confirmations following a Presidential election. But again, that is simply not the case. The record is one circuit confirmation in 1980, and three district confirmations in 2004. That is it. From 1980 through 2008, those four nominations represent the entire list. With today's vote we will add two more confirmations to that exclusive list.

This year we have already confirmed 32 district judges and 5 circuit judges. Today's vote meets or exceeds the confirmations for Presidential election years in recent memory. In fact, going back to 1984, there has been only one Presidential election year in which more district judges were confirmed. Let me emphasize that point: In only one of the past eight Presidential elections have more district nominees been confirmed.

Today we vote on the nomination of Michael P. Shea, to be U.S. district judge for the District of Connecticut. With this confirmation, the Senate will have confirmed 160 of President Obama's nominees to the district and circuit courts. During the last Presidential election year, 2008, the Senate confirmed a total of 28 judges—24 district and 4 circuit. This Presidential election year we have exceeded those numbers. We have confirmed 5 circuit nominees, and Mr. Shea's confirmation will be the 33rd district judge confirmation. That is a total of 38 judges this year versus 28 in the last Presidential election year.

Finally, I would note that Mr. Shea was not reported out of committee by a unanimous vote. There were concerns about part of his record, and that resulted in a few "no" votes in committee. I supported the nomination in committee and will do so again today. But for those who argue that the Republicans have delayed this nomination just to obstruct, that is not the case.

Mr. Shea received his B.A. from Amherst College in 1989 and his J.D. from Yale Law School in 1993. Following graduation from law school, he clerked for James Buckley, U.S. circuit judge for the District of Columbia Circuit. Mr. Shea began his legal career in 1994 at Clearly, Gottlieb Steen & Hamilton in Washington, DC where he worked primarily on civil and criminal antitrust matters. In October 1995, he moved to Clearly Gottlieb's Brussels, Belgium, office, where he continued to work on antitrust matters, including European Union antitrust issues, as well as international business transactions in Eastern Europe and Africa. In the summer of 1998, he returned to the DC office where he assisted in defending a corporate client in a large money laundering prosecution.

In September 1998, Mr. Shea returned to Connecticut, accepting a position as an associate at Day, Berry & Howard, now known as Day Pitney. In 2003, he became a partner with the firm. His career there has spanned a broad range of civil and criminal litigation. His practice included trials and appeals in commercial, civil rights, personal injury, criminal, family, and other cases.

He has tried nine cases to verdict, judgment or final decision. In the past decade, he argued 20 appeals, including 6 at the U.S. Court of Appeals for the Second Circuit. The American Bar Association's Standing Committee on the Federal Judiciary gave him a Unanimous Qualified rating.

Again, I support this nomination and congratulate Mr. Shea on his anticipated confirmation.

I yield the floor.

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. LIEBERMAN. Mr. President, I rise to express my strong support for the nomination of Michael Shea to serve as the next Federal district court judge for the District of Connecticut. As the Presiding Officer heard—and I did as well—Chairman LEAHY and Senator GRASSLEY expressed very different analyses of the pace at which this Senate is confirming judicial nominations of President Obama, but I note, with gratitude, that both of them expressed support for this particular judge, Michael Shea, and it gives me confidence that he will receive the confirmation vote today that he deserves.

I suppose, because I am at the end of the privilege of serving as a Senator for 24 years, I am looking back at various opportunities and experiences I have had.

It strikes me at this moment that I should say what I am sure is felt by all

of my colleagues; that is, while it is often said of Presidents of the United States that the most important decisions they make are the people they put on the Federal bench, particularly Justices of the Supreme Court because those Justices and judges serve long after a President has left office and continue to affect the course of our country of justice under law, the same really can be said with regard to Senators and the role we play in proposing nominees for the Federal district courts in our States.

I must say as I look back at the time I have been privileged to be in the Senate, working with Senator Dodd and now with Senator BLUMENTHAL, I am proud of the people we have helped onto the district courts for the District of Connecticut, obviously, with a lot of support from nominating Presidents of both parties and from people of both parties in the Senate Judiciary Committee and on the Senate floor.

The district court bench in Connecticut is an impressive group and quite a diverse one as well. Michael Shea, if confirmed, will add to its excellence and its legal heft. In November of last year, Judge Christopher Droney left the district court when the Senate confirmed his nomination to serve on the Federal Court of Appeals for the Second Circuit. Judge Droney's vacancy gave Senator BLUMENTHAL and me the opportunity to recommend his replacement.

We took this responsibility seriously. We brought together an advisory panel of nine Connecticut citizens who considered more than 20 candidates for this spot. The panel included a former chief justice of the Connecticut Supreme Court, a former U.S. attorney, several partners at major Connecticut and national law firms, and academic, business, and community leaders throughout the State. Their insights and hard work throughout the process were invaluable to my colleague from Connecticut and I. I express on this floor my gratitude to them for their service.

Based on the work of the advisory panel and our review of its recommendations, Senator BLUMENTHAL and I recommended Michael Shea to the President for nomination. I will say that Michael was ranked very high among the highly qualified applicants for this position by all members of the advisory panel. I should say right at the outset that we are grateful to President Obama for nominating him for this place on our court.

Michael Shea is a native of West Hartford, CT, a graduate of Amherst College and Yale Law School, served as a clerk to Judge James Buckley, though a resident of Connecticut, and sat on the U.S. Court of Appeals for the District of Columbia. Michael Shea clerked for Judge Buckley in 1993 and 1994. I will say that Judge Buckley sent our advisory committee and, I believe, the Judiciary Committee and Senator BLUMENTHAL and me a very thoughtful,

positive, personal letter of recommendation on Mr. Shea's behalf.

After concluding his clerkship, Michael Shea joined the firm of Cleary, Gottlieb, Steen & Hamilton as an associate, where he stayed for 4 years working on both criminal and civil cases and for a period of time was dispatched to the Brussels, Belgium, office of the firm working on an anti-trust investigation. But much more significant than his legal work, in Brussels he met his wife Frederique, and together they now have three wonderful children.

Since 1998, Michael Shea has been a partner at Day Pittney, LLP, where his practice has included trials and appeals in commercial, civil rights, personal injury, criminal, and other cases. He is currently the chair of the firm's Appellate Practice Group. But we found in talking to lawyers and judges around Connecticut on the State and Federal bench that Michael Shea is quite simply one of the most experienced and broadly respected litigators in our State.

If confirmed, he will bring to the district bench an enormous background of experience in our courts. I want to add that Michael Shea also serves his community in various charitable organizations, including the Nutmeg Big Brothers and Sisters, and the Supreme Court Historical Society.

In 2008, as a result of pro bono work Michael has consistently done representing indigent criminal defendants, he received the Connecticut Bar Association's Pro Bono Award for successfully protecting a young mother from having to return her children to an abusive father who lived abroad.

First, I thank Michael Shea for his interest in serving on the Federal bench of Connecticut. I am honored to present him, along with Senator BLUMENTHAL, to our colleagues in the Senate. He is a first class nominee.

Again, I thank the President for nominating him. I am confident that the President's trust in Mr. Shea will be more than vindicated by the years of judicial service that he will give our State and country.

I am now glad to yield the floor to my colleague from Connecticut, Senator BLUMENTHAL, who I am sure, with my successor, CHRIS MURPHY, will continue to fill vacancies as they arise. There is one now with the same high level of nominee as we have been privileged to do together in this case.

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. BLUMENTHAL. Mr. President, let me first thank my colleague, Senator LIEBERMAN, for the extraordinary work he and my predecessor, Senator Dodd, have done in filling our U.S. District Courts with some of the most eminent jurists in the United States.

As he has remarked so eloquently, part of the living legacy of the Senate and of individual Senators is, in fact, the men and women whom we recommend to serve in this critically important decision.

As someone who has been a trial lawyer, who has practiced for a few decades in the Federal district courts of our country, I know personally that these men and women for most Americans are the voice and face of justice in our Federal courts. The U.S. Supreme Court may be the highest Court in the land, but most litigants go no higher than the U.S. District Court, and for them fairness and justice is the voice and face of the U.S. district judge.

So I thank the Senator for the great work he has done. In decisions based on merit, without regard to personality or politics, he has participated in recommending some of the best of the best men and women to serve on our Federal bench.

Michael Shea epitomizes that quality of fairness, intellect, and dedication to public service. He is a native of Connecticut, but his experience is national and international in scope. I am not going to repeat all of the extraordinary credentials that Senator LIEBERMAN has described so well. I just want to say that on a level that is as important as any professional credentials in terms of temperament, he is the kind of person we want on our bench. He is unassuming, unassuming, self-effacing, understated, but powerfully attentive to individual facts and personal circumstances.

He has compassion and conviction, principle and impeccable honesty and integrity, and he has an empathy for people who are in distress, who are in need of somebody to listen. That may be a quality that is preeminently important on the bench, the ability to listen and the attention to detail.

Mr. Shea has served as counsel for criminal defendants. He has argued 20 appeals, including 6 to the Second Circuit. He has tried 9 cases to verdict. He has served as counsel to the Bridgeport Roman Catholic Diocese in first amendment matters. I worked with him personally in a professional capacity when I was attorney general of the State of Connecticut. I know him as someone who will do justice and love mercy.

He is a man whom we can be proud to support. I am proud to support him. I thank President Obama for nominating him and the chairman of the Judiciary Committee, PATRICK LEAHY, for his leadership on our committee in making sure he had a hearing and a vote, and now this vote is here.

I thank also our ranking member, Senator GRASSLEY, for his graciousness in stating that he would support him. My hope is that the U.S. District Court of Connecticut, which faces a backlog now, will have the good fortune to have remaining vacancies filled at the earliest possible date by lawyers as eminently qualified as soon-to-be judge Michael Shea. I thank this body in advance for approving him.

I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BINGAMAN. I yield back all remaining time and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The question is, Will the Senate advise and consent to the nomination of Michael P. Shea, of Connecticut, to be U.S. District Judge for the District of Connecticut?

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. ROCKEFELLER) and the Senator from Virginia (Mr. WEBB) are necessarily absent.

Mr. KYL. The following Senators are necessarily absent: the Senator from Illinois (Mr. KIRK), the Senator from South Carolina (Mr. DEMINT), and the Senator from Tennessee (Mr. ALEXANDER).

Further, if present and voting, the Senator from South Carolina (Mr. DEMINT) would have voted "nay," and the Senator from Tennessee (Mr. ALEXANDER) would have voted "nay."

The PRESIDING OFFICER (Mr. BENNET). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 72, nays 23, as follows:

Mr. COBURN. Mr. President, I wish to explain my vote against Mr. Michael

Shea, nominee to the District Court of Connecticut. My decision is based on Mr. Shea's assistance in drafting an anticus brief in the Supreme Court case of *Kelo v. New London* on behalf of the Connecticut Conference of Municipalities and other municipalities.

The *Kelo* decision delivered a serious blow to private property rights by upholding a municipality's use of eminent domain to seize private homes and transfer the property to a pharmaceutical company for purposes of "economic development." As Justice Sandra Day O'Connor stated in her dissent, the "Court abandoned its long-held, basis limitation on government power" in the *Kelo* case. The Fifth Amendment of the Constitution states: "No person shall be . . . deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use, without just compensation." The *Kelo* decision altered what was traditionally viewed as "public use." As Justice O'Connor noted, as a result of this decision, "Nothing is to prevent the State from replacing any Motel 6 with a Ritz-Carlton, any home with a shopping mall, or any farm with a factory. . . . Any property may now be taken for the benefit of another private party, but the fallout from this decision will not be random. The beneficiaries are likely to be those citizens with disproportionate influence and power in the political process, including large corporations and development firms."

In contrast, Mr. Shea's amicus brief argued the eminent domain action taken by New London was constitutional and should be upheld. He asserted the "taking of some of the petitioners' homes" is "undeniably a genuine cost of realizing the City's goal of improving the economic well-being of its citizens?" But, the Public Use Clause "sweeps as broadly as the [State's] police powers." He said siding with the *Kelo* plaintiffs in the case would "contort" the Public Use Clause. Justice Stevens, the author of the 5-4 majority opinion in *Kelo*, cited Mr. Shea's brief in his opinion.

Perhaps the saddest aspect of this case is the "economic development" that was key to the taking being a "public use" never happened because the developer could not get funding. Susette Kelo lost her property for nothing. The site of her former home is a garbage dump. This fact exposes another reason the takings clause was only intended for public use, because the government is more likely to have the funding ready to use the property. Normally, I would not hold a lawyer responsible for the legal views of his clients, but the *Kelo* decision dealt such a serious blow to private property rights, a crucial element of our founding principles, and so clearly departs from the original understanding of the Constitution, I feel I must vote no.

The PRESIDING OFFICER. Under the previous order, the motion to reconsider is considered made and laid

upon the table. The President shall be immediately notified of the Senate's action.

LEGISLATIVE SESSION

The PRESIDING OFFICER. The Senate shall resume legislative session. The Senator from Michigan.

RUSSIA AND MOLDOVA PNTR

Mr. LEVIN. Mr. President, the Russia PNTR bill that is before us takes a long overdue action by ending the application of Jackson-Vanik sanctions to Russia. Jackson-Vanik is no longer relevant to Russia because Russia no longer restricts the free emigration of its people.

The Soviet Union began to relax its restrictions on Jewish emigration in 1987, during Gorbachev's perestroika. Following the collapse of the Soviet Union in 1991, millions of Soviet Jews were permitted to leave. Since then, Russia has allowed free emigration.

I have felt for a long time that we should have graduated Russia from Jackson-Vanik when Jackson-Vanik's noble purpose was achieved, rather than waiting years, often in the effort to make other points relative to Russia on other issues. First some history.

In 2007, I met with Rabbi Lazar, chief rabbi of Russia, regarding Jackson-Vanik. He urged passage of legislation ending the application of Jackson-Vanik to Russia.

Also in 2007, I received a letter from the chairman of the Federation of Jewish Communities, which represents presidents and rabbis of over 200 Jewish communities in Russia, a letter which urged me to work to graduate Russia from the Jackson-Vanik amendment in view of the fact that its goals had already been met. Part of his letter reads as follows:

[We are thankful for all your efforts toward gaining freedom for our country's Jews. We will always appreciate the role of Jackson-Vanik in bringing about change. We also remain grateful to those who forced the U.S.S.R.'s Communist regime to permit Jews to emigrate, and to end discrimination. For us this was a huge morale boost—Jews behind the Iron Curtain were thrilled that Americans were willing to risk political and economic confrontation, in order to stand up for the freedom and rights of their fellow human beings.

He continued:

Nevertheless, in the last 15 years the situation has changed, radically. The freedom for Soviet Jews to live wherever they desire was fully obtained; nearly a million Jews from the F.S.U. now live in Israel, while hundreds of thousands live in other countries throughout the world. We are positive that these developments were in part thanks to the American lawmakers who supported the Jackson-Vanik amendment. Yet we now see a backward migration, when Jews from abroad move back to Russia. This proves that Jews in Russia feel as confident as those inhabiting other countries of the Free World.

The rabbi added: "The provisions of the Jackson-Vanik amendment have

already achieved the goals of its initiators." That was in 2007. Mr. President, I ask unanimous consent that the letter from the Federation of Jewish Communities of Russia be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

FEDERATION OF
JEWISH COMMUNITIES OF RUSSIA,
APRIL 16, 2007.

Hon. Senator CARL LEVIN,
*Russell Bldg.,
Washington, DC.*

DEAR SENATOR LEVIN: I am writing this letter in my name and in the name of the Presidents and Rabbis of over 200 Jewish communities throughout our country which comprise the Federation of Jewish Communities. I am writing to you on behalf of our constituency, to ask you to work to graduate Russia from the Jackson-Vanik amendment in view of the fact that its goals have already been met.

We know that the fate of Soviet Jewry is important to you, and we are thankful for all your efforts towards gaining freedom for our country's Jews. We will always appreciate the role of Jackson-Vanik in bringing about change. We also remain grateful to those who forced the USSR's Communist regime to permit Jews to emigrate, and to end discrimination. For us this was a huge morale boost—Jews behind the Iron Curtain were thrilled that Americans were willing to risk political and economic confrontation, in order to stand up for the freedom and rights of their fellow human beings.

Nevertheless, in the last 15 years the situation has changed, radically. The freedom for Soviet Jews to live wherever they desire was fully obtained; nearly a million Jews from the F.S.U. now live in Israel, while hundreds of thousands live in other countries throughout the world. We are positive that these developments were in part thanks to the American lawmakers who supported the Jackson-Vanik amendment. Yet we now see a backward migration, when Jews from abroad move back to Russia. This proves that Jews in Russia feel as confident as those inhabiting other countries of the Free World.

Today the Jewish people have equal rights with the general population. Jewish life in our country has experienced dynamic growth. While it is well known that during the years that Communism ruled we were forbidden to pray in synagogues, and to learn the Torah or Hebrew, now, most of the larger cities have built community centers, Jewish schools, day care centers, humanitarian facilities, and artistic collectives, in addition to synagogues. The country's leaders, inducting the President, regularly visit Jewish communities. Russia's Jews are treated as equal citizens and any outburst of anti-Semitism is met with harsh consequences.

The provisions of the Jackson-Vanik amendment have already achieved the goals of its initiators. At this point a public ceremony marking the official graduation of Russia from the provisions of the amendment would be a tremendous opportunity to remind the rest of the world that the U.S. has successfully completed a policy initiative, and will continue to look after the needs of the Jewish people and to defend them from discrimination. At the same time, the abolishment of this amendment in respect to Russia would reiterate to the rest of the world that America is ready to commit the resources necessary to the needs of the Jewish people. It would also demonstrate fairness, acknowledging that when a "carrot and stick" policy is pursued, the reward for compliance will, in fact, be paid as promised.

Thanking you in advance for your kind help, I remain,

ALEXANDER BORODA,
Chairman, FJC Russia.

Mr. LEVIN. So I am glad, very glad, that finally, the Jackson-Vanik law is no longer going to apply to Russia.

Not only does the bill under consideration grant Russia PNTR, it also contains enforcement provisions that my brother, Congressman SANDER LEVIN, fought for to address concerns about Russia's compliance with its WTO obligations and other trade concerns such as Russia's persistent failure to stop intellectual property rights infringement, and to help promote the rule of law in Russia. These are important enforcement tools that will give us a chance to monitor Russia's progress in fulfilling its commitments. I have looked forward to getting these actions accomplished in PNTR legislation.

The bill before us also includes the Sergei Magnitsky Rule of Law Accountability Act of 2012 which was inspired by the Russian whistleblower Sergei Magnitsky, who was ruthlessly murdered. The legislation would require that human rights violators in Russia be identified and that we deny them U.S. visas as well as freeze their U.S. assets.

However, and here's the problem for me, the Magnitsky language before us is not the Magnitsky language adopted by our Finance and Foreign Relations committees. Their Magnitsky language applied the same sanctions to human rights violators wherever they might be—whether in Russia, or Syria, or Sudan, or North Korea, or China, or in any other country.

In other words, the Senate committee-approved bill wisely adopted a global Magnitsky standard. The reasoning for this is sound, because while the mechanism of U.S. visa denial for human rights violators was inspired by a single case in a single nation, the principles that it seeks to advance are universal. This bipartisan Senate committee bill, unlike the House-passed version of the Magnitsky Act that we will soon vote on, does not single out Russian human-rights violators for visa denial, but would apply the visa denial mechanism to people from any country who violate important human rights standards. The United States should be clear and firm in its commitment to protecting human rights, wherever the violations occur, and to holding those who violate those rights accountable to the best of our ability, including denying them visas to come to our country. Human rights do not end at the borders of Russia, and anyone who violates those standards, as so many did so blatantly in the case of Sergei Magnitsky, should be held accountable.

Applying the Magnitsky provisions globally, as the Senate bill approved by our committees did, follows in the spirit of Jackson-Vanik, which, while inspired by events in the Soviet Union, was not limited to the Soviet Union.

The Senate Foreign Relations Committee and the Senate Finance Committee both voted unanimously to report a version of the Magnitsky bill that applies its sanctions globally. Senators CARDIN and KYL have worked, on a bipartisan basis, to build support for that global standard, and I strongly support their effort. I commend them on their effort.

So why is that Senate committee-reported bill not before the Senate? Why would we deny visas only to Russian human rights violators? Why diminish the universality of the values the Magnitsky bill seeks to uphold?

Applying the sanctions contained in this bill solely to Russians, as the House version does, not only diminishes a universal value. Because it adds a political twist, it will stoke a nationalistic response in Russia. If this bill does not apply the same rule to all human rights violators, if it singles out Russian human rights violators, President Putin will no doubt appeal to the nationalistic passions of many Russians by saying that our bill isn't aimed at protecting human rights, but is aimed at Russia. We should not hand President Putin that argument.

The Senate bill, as approved by our committees, very appropriately pays tribute to the man whose tragic death inspired the legislation, and applies its message universally. I deeply regret that the House bill before us does not take that approach.

I don't understand why we are not taking up the Senate version, the version approved by our two committees, and applying these standards universally. The only answer I get is that the House of Representatives might not accept the Senate version. Well, we should do what we believe in, as reflected in two unanimous votes in two committees, and not be derailed by a prediction that the House will not accept our version. There is time left in this session to test that prediction. The failure to do so is inexplicable to me. The House of Representatives did not have a vote focusing on the issue of applying these sanctions globally. We should give them a chance to do so.

In summary, it is important that we lift the Jackson-Vanik sanctions. It is important that we speak out on the tragic death of Sergei Magnitsky and hold those responsible to account. These are issues on which I believe so strongly and that I have worked long and hard, particularly on Jackson-Vanik, to achieve. Taking these steps should be a cause of celebration.

But the violations of human rights that the Magnitsky bill seeks to remedy are far too widespread for us to apply remedies only to Russians human rights violators. The United States has an opportunity here to make a strong, unmistakable statement about the sanctity of human rights. We should want that statement to ring out not just in Moscow, but around the world.

I know some of my colleagues have expressed hope that we can pass legislation to address this issue in the next Congress. I know of no reason to believe that we will have significantly greater chances of accomplishing this goal next year than we do today.

Mr. President, over the next few weeks, we have time to conference and pass a defense authorization bill. We have time to debate and avoid the fiscal cliff. We have time to address a farm bill and dozens of other important issues. And we have time to address the transcendent issue of the universal rights of mankind.

I yield the floor.

The PRESIDING OFFICER. The Senator from South Dakota.

Mr. THUNE. Mr. President, I rise today in strong support of the legislation before us to enact permanent normal trade relations with respect to Russia and Moldova. This legislation will also put in place a new mechanism for combating human rights abuses and strengthening the ruling of law in Russia commonly known as the Magnitsky bill. The economic argument for the legislation before us is clear. Russia is the world's sixth largest economy; the world's fifth largest global importer of agricultural products, and home to 140 million potential customers, the largest consumer market in Europe.

Russia is already an important and growing market for U.S. businesses. Of the top 15 U.S. trading partners, Russia was the market where American companies enjoyed the fastest export growth last year, at 38 percent. If we enact PNTR, it is estimated that U.S. exports of goods and services to Russia could literally double over the next 5 years. That is why groups ranging from the American Farm Bureau to the National Association of Manufacturers to the National Corn Growers, just to name a few, strongly support PNTR.

Just last week I met with representatives from the South Dakota Soybean Association, and I was reminded of the importance of Russia as a growing export market to my State of South Dakota. While greater access to the Russian market will benefit a wide range of U.S. companies, such as manufacturers and service providers, I would be remiss not to point out the enormous opportunity for America's agricultural producers in Russia. Consider that Russia is the world's largest importer of beef on a quantity basis, with imports of nearly \$4 billion last year. Russia is the world's fifth largest importer of pork products as well as the world's largest importer of dairy products.

Despite the problems we have encountered recently with respect to our poultry exports, America remains the single largest supplier of poultry to the Russian market, accounting for 50 percent of Russian poultry imports last year.

Under the terms of Russia's WTO accession, which occurred last year, Russia is obligated to reduce tariffs across a wide range of agricultural products

while also adhering to WTO rules regarding sanitary and phyto-sanitary measures. Once we have enacted PNTR the United States will have the ability to enforce visa commitments through the World Trade Organization dispute settlement process.

It is important to note that our vote on passage of this bill is different than voting on a trade agreement where both sides make concessions in order to reach a conclusion. In contrast, our vote on the House-passed Russia PNTR bill is entirely one-sided in favor of the United States. Russia joined the World Trade Organization in August and will remain a member of the WTO regardless of what we do with respect to PNTR.

We are not giving Russia anything new because they have received PNTR on a recurring annual basis for the past 20 years. The only issue today is whether we will now allow U.S. businesses to take full advantage of the new trade commitments that Russia has made as part of joining the World Trade Organization. If we do not act, American manufacturers, farmers, ranchers, and service providers will remain at a competitive disadvantage relative to their foreign competitors doing business in Russia.

At a time when our economy is growing more slowly than any postrecession recovery since World War II, failure to enact PNTR makes no sense. American export growth has been one of the true bright spots since the great recession.

According to the Department of Commerce, jobs supported by exports increased by 1.2 million between 2009 and 2011.

If we are serious about encouraging job creation, we need to continue to open new job markets abroad for American exports. Normalizing our trade relationship with Russia is an important step in the right direction.

While this legislation is about supporting American jobs by promoting our exports, we should also recognize the importance of the Magnitsky provision included in this bill at the insistence of Senators CARDIN, KYL, MCCAIN, and WICKER, among others. By replacing the outdated Jackson-Vanik law with a new mechanism to support democratic reforms in Russia, this legislation will strengthen the rule of law while combating corruption and human rights abuses.

The only thing surprising about this vote is that it did not happen sooner. Nearly 6 months ago, on June 12, I joined Senators BAUCUS, MCCAIN, and KERRY in introducing legislation to enact PNTR. With the leadership of Senator HATCH and others, we approved the PNTR legislation in the Finance Committee by a unanimous vote on July 18.

Unfortunately, many of us believe the administration did not push forcefully enough for enactment of PNTR before Russia joined the World Trade Organization in August. As a result, we are just now finally considering this

legislation more than 3 months after Russia's WTO accession.

Nevertheless, I look forward to enactment of this bill, especially considering the overwhelming bipartisan vote of approval for this legislation in the House of Representatives just a few weeks ago. While today's vote is specific to Russia and Moldova, I hope this vote will remind us of the importance of moving forward on trade in general. It is an unfortunate reality that when America stands still on trade, we are actually falling behind relative to the rest of the world. There are more than 100 new free-trade agreements currently under negotiation around the world. Yet the United States is party to only one of those negotiations, the Trans-Pacific Partnership.

The United States has not successfully negotiated a single new trade agreement during the 4 years of the Obama administration, and this administration has not yet asked Congress for a renewal of trade promotion authority, despite the fact that TPA expired over 5 years ago. The cost of inaction on trade is high because we live in a global economy where American producers rely on access to foreign markets. More than 95 percent of global consumers live outside the United States.

Consider that in 1960 exports accounted for only 3.6 percent of GDP. Exports account for 12.5 percent of our GDP. Exports of U.S. goods and services supported over 10 million American jobs. If we do not aggressively pursue new market opening agreements on behalf of American workers, we will see new export opportunities go to foreign businesses and foreign workers.

So while I am pleased that we are considering PNTR today, I hope President Obama in his second term will recognize the potential for increased trade opportunities through a more aggressive trade agenda. I look forward to the President signing this legislation into law, and I urge all of my colleagues to vote for the legislation before us when that vote comes up tomorrow at noon.

I yield the floor.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. DURBIN. The bill before us, the permanent normal trade relations with Russia, is important legislation to expand trading opportunities. I was thinking, as the Senator from South Dakota spoke about this debate on the floor and what it was like around this Chamber several decades ago when this issue was raised and there was a strong feeling for the Jackson-Vanik provisions which prohibited certain trade between the United States and so-called communist countries of their day, there were those voices on the other side, many from the Heartland such as Senator THUNE and myself. Senator Humphrey used to say, sell anything that can't shoot back at us, and that meant a lot of wheat sometimes and other agricultural commodities.

I will speak to that trade relation aspect in a second, but before I do, I want to address an aspect of this bill that is very important to me and should be to every Member of the Senate.

I am honored to be the chair of the Judiciary Committee Subcommittee on the Constitution, Human Rights and Civil Rights. We have had a series of hearings on the issues of human rights and laws in the United States that affect them. I have also been honored to join with Senator CARDIN of Maryland who chairs our Helsinki Commission Senate Delegation and has been on several trips overseas. He has made human rights a part of that commission and part of the United States.

One of the aspects of this bill is so important. Sadly today in the country of Russia we are seeing evidence of brutal and horrific treatment of individuals and abuse of human rights. Senator CARDIN—who I said earlier is a great voice of human rights in the Senate—introduced legislation in this Congress that would impose U.S. visa bans and asset freezes on those who commit gross human rights violations around the world. That is a Cardin amendment which I thought was a good one. The idea was simple: Those who commit such acts that are so contradictory to American values should not be allowed to visit or stash their wealth in our country, period.

The inspiration of this came from a terrible episode which occurred in Russia. A lawyer named Sergei Magnitsky died a tragic death while in custody in Russia after being arrested for uncovering official corruption. Magnitsky was working for Hermitage Capital, once the largest Russian-only fund in the world. Drawn into the feud between the fund and Russian law enforcement authorities, he testified that senior Russian Interior Ministry officers had used his employer's companies to embezzle \$230 million from the Russian treasury.

Later the same police officers he accused arrested him. They held him without bail on charges of evading taxes. After 11 months in custody, repeatedly being denied medical care, he died at age 37. Russia's top investigative commission said that he died of heart disease and hepatitis that he could have survived with basic medical care. A parallel Russian Presidential advisory report said that he may have died because of a beating while in prison.

Over time prison officials were dismissed but got jobs elsewhere. Russian authorities have also occasionally raised the prospect of a more thorough investigation, but they ignored extensive evidence linking police officials to Magnitsky's death. Incredibly, some of those involved have even received medals for meritorious service by the Russian Government.

Sergei Magnitsky's death is part of a deeply troubling retreat on basic political freedom and human rights in Russia. Activists and human rights leaders

were harassed, often threatened with new sweeping treason laws for speaking up against fraud, corruption, or denial of basic rights. We saw what happened to Sergei Magnitsky when he tried to speak out against corruption. I am saddened that the leadership of a great nation such as Russia is resorting to these hideous tactics. They are a throwback of the worst of the Soviet era. Our friends the Russian people deserve a vision that looks forward to a new future that includes freedom and human rights, not the past which adds sad chapters of the denial of both of these.

I am pleased today to speak in support of this bill. Unfortunately, it doesn't include the original Cardin amendment. The original Cardin amendment had a global reach and said that we would treat virtually anyone guilty of these crimes the same way, denying visas and freezing their assets in the United States. Incidentally, that provision is said to be similar to an amendment that I just offered on the Defense authorization bill as it related to supporting the M23 rebels causing mayhem in the Congo.

Unfortunately, the new provision modification of Senator CARDIN's original limits the activities to those that occurred in Russia. He and I both wish it had gone farther, but often those imposing harsh and arbitrary violations of their own people like to travel and hide their money. They should not be allowed to do it in the United States. If they want to enjoy the benefits of the United States, respect our basic democracy and values.

Let me say a word about the overall bill. It is an important step forward and creates more opportunity for trade. I believe trade opens the doors for exchanges of ideas, people, culture, and opens the doors to democracy.

The United States exported nearly \$43 billion in goods to Russia in 2011. My State of Illinois exported \$287 million in heavy equipment alone, such as bulldozers and tractors. Extending permanent normal trade relations to Russia will ensure business not only in Illinois but across America to make sure we don't suffer a disadvantage of trade with Russia.

Russia has made a dramatic break with the Soviet past. The United States can help Russia on its path to an even better future, one that is more integrated socially and economically.

I again commend Senator CARDIN for ensuring that our Nation's intolerance for human rights violations is not part of this process. And to the many Russian people who are trying to push for a more open and transparent country, we applaud their noble and courageous efforts.

I yield the floor.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mrs. SHAHEEN. Mr. President, I rise today in strong support of the legislation before us, the repeal for Jackson-Vanik for Russia and Moldova and the

Sergei Magnitsky Rule of Law Accountability Act.

The two main components of this package represent a win-win for U.S. businesses and for human rights defenders in Russia. Chairman BAUCUS and Chairman KERRY deserve a lot of credit for working together to get us to this point.

I also want to join my colleague Senator DURBIN in singling out and commending Senator CARDIN of Maryland for his tremendous effort to bring this historic piece of human rights legislation to the floor tonight.

As one of the original cosponsors of the Magnitsky Act, I remember back in May of last year when Senator CARDIN first introduced the bill. Since that time, he has been the driving force that has pushed this measure forward. It has taken a lot of patience, a lot of perseverance, but his work on behalf of human rights in Russia has paid off, and he is a big reason why we are here debating this bill today.

This legislation comes at a complex time in the bilateral relationship between the United States and Russia. The truth is the history of this relationship has always been full of complexity and seeming contradictions, and today is no different.

Over the last 4 years the subtle change in tone brought on by the reset has allowed us to establish substantial progress on some limited areas of mutual interests including the New START Treaty, Afghanistan, and Iran.

In addition, Russia has finally joined the World Trade Organization, which is another mutually beneficial outcome. Russia will become a more fully engaged member of the global trade community, and in exchange it will be forced to abide by internationally recognized rules on trade and investment, including international property enforcement, the elimination of some key tariffs, and greater transparency in its laws and regulations.

Despite these obvious advantages for the United States, our businesses are currently stuck on the sidelines and unable to benefit from Russia's accession because of the outdated Jackson-Vanik legislation. Although it was successful in its time, Jackson-Vanik remains the last obstacle for U.S. businesses to gain critical access to Russian markets and create jobs here at home.

The legislation before us now retires Jackson-Vanik and lets American businesses compete with the rest of the world to sell exports to and attract investment from Russia. Each and every State stands to gain from this legislation. In my home State of New Hampshire, exports to Russia have been on the rise over the last 2 years, particularly with respect to transportation equipment, computers, electronics, and machinery. If given the opportunity, I am confident that New Hampshire businesses will be able to successfully compete in the growing Russian market, and this legislation will help them

to do that. So even as we seek areas of mutual interest with Russia, we should be honest and admit that areas of disagreement remain.

Perhaps the most pressing issue for today's relationship with Russia is the human rights situation there. Indeed, over the last 6 months we have seen perhaps the worst deterioration in Russia's human rights record since the breakup of the Soviet Union. The Putin government has enacted a series of laws that restrict protests and public expression and severely constrain civil society in the country.

As some may know, my home State of New Hampshire has a motto that is well known throughout this country. It is: "Live free or die." We are not ambiguous regarding how we feel about the principles on which this country was founded. The United States is not, should not, and will not be shy about our staunch support for democratic values around the world. When it comes to Russia, we should be no different.

The Magnitsky bill before us is an important tool to raise the profile of human rights in Russia. It is supported almost unanimously by opposition and civil society figures across Russia. The case of Mr. Magnitsky is a tragic one, as so many people have eloquently talked about today. We are here as part of this legislation to press for accountability in his death. However, this is really more than simply a question of one man's tragic case.

The State Department's human rights report annually describes countless human rights violations, including attacks on journalists, physical abuse of citizens, politically motivated imprisonments, and government harassment and violence. There are numerous cases like Magnitsky and, unfortunately, there are likely to be many more.

That is why this bill before us is so important. It seeks to ensure that no human rights abusers in Russia are granted the privilege of traveling to this country or using our financial system. A strong, successful, and transparent Russia that protects the rights of its citizens is squarely in the interest of the United States. The Magnitsky Act will demonstrate that we stand unambiguously for the rule of law, for democracy, and for respect for human rights in Russia.

As we look forward and think about our relationship with Russia, we have to be both pragmatic and principled. A successful policy with Russia will find a way to both protect our interests and defend our values. I think the legislation that is before us today is a perfect example of how we can do both, and I certainly hope my colleagues will strongly support its passage and send it directly to the President for his signature.

Thank you very much.

The PRESIDING OFFICER. The Senator from Maryland.

Mr. CARDIN. Mr. President, I thank Senator SHAHEEN for her leadership on

this issue. We have had many discussions about how to advance human rights and what is the best strategy to get the Magnitsky bill enacted into law. She has been a real champion with her leadership on the Senate Foreign Relations Committee on Europe and her leadership on the Helsinki Commission. I thank her for her good advice for allowing us to be able to get to this day.

I am convinced tomorrow the Senate will pass this legislation, the President is going to sign it, and we will achieve a great victory for human rights.

I thank the Senator for her observations as we were talking about how to move forward with this bill in connection with PNTR for Russia. I know Senator LIEBERMAN talked about it a little bit earlier. I am convinced, as important as this bill was, that the Magnitsky bill by itself would have been extremely difficult for us to get through to the President and for the President to sign into law and that in combining it with PNTR, we got it done. I also believe that PNTR without Magnitsky would not have gotten done. So I think the marriage of these two bills was the right choice. They allow us to move forward, as Senator LEVIN said, repealing a provision that is not relevant for Russia, while also allowing us to make a new standard for Russia that is relevant for our problems we are confronting not just in Russia but throughout the globe.

I wish to comment a little bit about Senator LEVIN's point. Senator LEVIN raised the issue of why couldn't we make this global. As Senator MCCAIN said, countries are on notice, particularly those countries that are known for their human rights violations. They now know what the standard is, and they know what action the United States will take if they don't meet that standard.

The standard is very clear. I will just read it into the RECORD one more time so every country knows and every individual knows we will be taking action against those who violate human rights. It says any individual who "is responsible for extrajudicial killings, torture, or other gross violations of internationally recognized human rights committed against individual seeking . . . to obtain, exercise, defend, or promote internationally recognized human rights. . . ."

That is the standard. That is what is in this bill. That is what we will be voting on tomorrow. That is what has been approved by the House of Representatives and I believe will be approved tomorrow by this body and will be signed into law by the President of the United States. We are establishing the standard that will be used to deny human rights violators the right to visit our country, to obtain a visa, and to use our banking system.

Senator LEVIN is absolutely correct. The bill that came out of the Senate Foreign Relations Committee and the Finance Committee made it crystal

clear by statute that it applied globally. I strongly supported that. I support that now. I would love to see that in our bill, but we need to get this bill done. I would have preferred to see us take up the amendment, hopefully pass the amendment, and work it out with the House. However, it was the collective wisdom that in order to get this bill done, particularly with the administration's position on it—they did not support the global legislative solution at this point—that it was unlikely we would reach the finish line and get that done.

That doesn't diminish the global impact of this bill. I need to underscore that. It does not diminish the global impact of this bill. Senator MCCAIN is right. Countries and individuals are on notice. I can tell my colleagues that as a Member of this body, I will be monitoring, and if there are individual people who have committed these gross violations and who are seeking to come to America and use our banking system, I am going to take action. It may be filing additional legislation. I hope we get it done. I hope we will find an opportunity to get the Senate language into law, that the legislative standard specifically applies globally.

Let me point out we already have authority. The Secretary of State already has authority to deny human rights violators the right to come to America. Before I filed the Magnitsky bill, I sent a letter to the Secretary of State saying we know who the perpetrators of the crimes against Mr. Magnitsky are; deny them the right. They want to come to America. They are planning to come to America. Don't let them. We went back and forth a little bit as to what they were going to do.

What is interesting is that I filed this legislation with Senator MCCAIN and many others. Secretary Clinton took action. She said we will deny them the opportunity of coming to America; we have that authority. The Secretary of the Treasury has certain authorities to deny the rights of our banking system. So we have—our agencies have the inherent authority to block human rights violators from coming to America or using our banking system. Should we legislate to make that clear? Absolutely. Should we pass legislation that is global? Absolutely. I hope we will do that.

Today we have the opportunity to make a major advancement to establish the standard in statute that we expect will be honored internationally, globally, to provide the tools to act against Russia because this is a PNTR Russia bill. We will be able to do that. We also have the tools in place to be able to take further action.

So what I said earlier I think is absolutely true. This isn't an end of a chapter of U.S. leadership. I can tell my colleagues when Senator Jackson and Congressman Vanik suggested the use of trade as a leverage to block trade with countries if they didn't respect the basic human right of allowing their

people to leave, there were many people who said: Why are you doing that? Can't we just talk it out? That bill produced incredible results not only on the individuals who were able to leave the Soviet Union, but it spoke to America's leadership.

I honestly believe it helped establish the principles where the United States used trade to open and eliminate the apartheid government of South Africa. We were the leaders on that. We have been very strong on protecting human rights and saying: We will use every tool at our disposal to protect people's basic rights. We did that in South Africa and we did that in the Soviet Union and we are doing it again today. That is where America's leadership shines. That is where America's leadership will be followed by other countries. We are already seeing other European capitals pass similar legislation as the Magnitsky bill to make this clear. We are ending a chapter with Jackson-Vanik and we should be very proud of what America stood for, what we stand for today, and our leadership in the lives of real people and how it has helped keep people safer.

Now we are starting a new chapter and that new chapter is not just Russia. That new chapter is global. We are putting the international community on notice that we will not tolerate individuals who violate basic human rights, and we will use every tool at our disposal, including trade, including the right to come to America, including the right to use our banking system, including putting as much pressure as we possibly can on countries to take action against those who violate rights.

We respect the rights of individual countries. We want to work with those countries, but America will not give up its values and on promoting these values internationally. That is what this legislation is.

I understand the disappointment that we don't have everything in this bill we would like. I am certainly disappointed. I fought hard. I spoke to so many Members in both the House and the Senate about trying to make this bill even better. I am proud of how far we were able to get, and I can tell my colleagues this: The activists who are risking their lives today in countries around the world to protect the rights of citizens, to question the actions of their government, to dare to say we should have competitive elections, we should respect the religious freedoms of individuals, we should be able to speak out, these people are putting their lives at risk. They are looking at what the Senate is doing today, and they are looking at us and saying: Pass this bill. Pass this bill because it gives us hope. It lets our countries know America will stand for us, that America's leadership will be there to keep us safe.

I know we have had a spirited discussion this evening. We will have a chance tomorrow to vote on this bill. I

do believe we will have the opportunity to show America's leadership will be continuing to advance human rights. This legislation will make a difference not just in the trade relationships between Russia and the United States—it will help that—but it will help advance international respect for human rights. I am proud to be part of that effort.

With that, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. CARDIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. CARDIN. Mr. President, I ask unanimous consent that the Senate proceed to a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

HONORING OUR ARMED FORCES

SERGEANT FIRST CLASS DARREN LINDE
SPECIALIST TYLER ORGAARD

Mr. BAUCUS. Mr. President, I wish to say a few words that deserve our attention. On Monday, an attack on U.S. troops in Afghanistan claimed the lives of SFC Darren Linde and SPC Tyler Orgaard of the North Dakota National Guard.

Sergeant Linde was a graduate of Sidney High School in Montana. He earned many honors throughout his career, including the Bronze Star, Purple Heart, Army Commendation, and Army Good Conduct medals. He was a hero and a family man who put service to others above all.

May all of us honor the sacrifice and service of Sergeant Linde and Specialist Orgaard by looking for ways we can circle around our troops and their families. There are no words to express how thankful we are for the ongoing commitment and dedication they show every day.

Please join my wife Melodee and me in praying for the servicemembers and families devastated by this attack.

REMEMBERING WARREN B. RUDMAN

Mr. LEVIN. Mr. President, I want to join my colleagues in extending condolences to the family of Senator Warren Rudman, and add my voice to those saluting a distinguished, effective and principled member of this body.

It has been hard in the last few months, for those of us who knew and served with him, not to think of Warren Rudman. More than 2 decades ago, our circumstances were strikingly similar to the situation in which we

find ourselves today. Rising Federal budget deficits were the cause of alarm. Almost everyone agreed that we needed to bring them down. The difficulty was how. Meeting the widely differing priorities among members of Congress—and the American people we represented—seemed impossible.

Senator Rudman, along with Senator Ernest Hollings and Senator Phil Gramm, crafted a solution. It is fair to say no one liked it very much. None of us here at the time, including me, voted for it with great enthusiasm. That was its genius. By establishing a mechanism for automatic, across-the-board spending cuts that would take place in the absence of a more tailored program of deficit reduction, they sought to force all of us to make the difficult choices required to reduce the deficit.

The arrangement Senators Rudman, Gramm and Hollings concocted was disagreeable to everybody, and so we looked for ways to avoid it. I voted for the 1985 agreement in part because I believed it would help force elected officials to get serious about the fact that revenue was an important part of the deficit-reduction formula. It was true then, it was true now, and Warren Rudman helped clarify that important fact. We borrowed from Warren Rudman's playbook with the sequestration provisions which are now the subject of so much debate and concern here. I dislike the blind, Draconian cuts of sequestration today as much as I disliked them in the 1980s. Now, as then, I am hopeful that members of good will can reach across the aisle to reach compromise solutions—solutions that we may dislike in part, in order to avoid even worse outcomes. If we do so, it will be because of the Sword of Damocles called sequestration that hangs over our heads. I know that is what Senator Rudman would hope for, and be working hard for, if he were still serving here.

We should reflect on Senator Rudman's career today for another reason. When he decided not to stand for reelection in 1992, he did so, in the words of the New York Times, because "the Federal Government was not functioning" and that it was impossible to get anything done in a Senate rife with posturing and partisanship."

Maybe the lesson is that the present always looks more partisan and polarized than the past. I hope all of us can reflect on Senator Rudman's efforts to achieve practical solutions to difficult problems, his willingness to compromise, and his integrity, and keep those qualities in mind as we struggle with the many and complex problems we face today.

Barbara and I were terribly saddened to learn of Warren Rudman's passing. Our thoughts are with his family and the many close friends who mourn him.

COMMEMORATING THE 84TH BIRTHDAY OF HIS MAJESTY KING BHUMIBOL ADULYADEJ

Mr. LUGAR. Mr. President, on behalf of myself as ranking member of the Senate Foreign Relations Committee and Senator JAMES INHOFE, the ranking member of the East Asia and Pacific Subcommittee, I rise today to commemorate the 85th birthday anniversary of His Majesty King Bhumibol Adulyadej who has reigned for 66 years as King of Thailand.

Over 50 years ago, the King, also known as Rama IX, a long-time and proven friend of the United States, addressed a Joint Session of Congress. He and the people of Thailand have partnered with the people of the United States in war and in peace. As noted in the recent Thailand-U.S. Joint Vision Statement preceding President Obama's recent trip to Thailand, "... the Thai-U.S. defense alliance has promoted regional stability by fostering cooperation in areas that enables both nations to address shared security concerns effectively".

The King has been internationally recognized for his consistent dedication to promote the well-being of the Thai people. Among the awards received is the U.N. Development Program First Human Development Lifetime Achievement Award. Over the last 60 years the King has initiated thousands of development projects throughout Thailand addressing a wide range of challenges including public health and education, agricultural development and reforestation.

Mr. President, in the Congress extensive time and effort are dedicated to the consideration of major challenges to the United States, domestically and overseas. Endless debate carries on to determine how to deal with leaders in those countries who do not share democratic values, and in fact are opposed to the United States actively engaging in global free trade and the promotion of our national security.

Consequently, it is a pleasure and an honor on behalf of Senator INHOFE and myself to highlight the life of His Majesty King Bhumibol Adulyadej, who has been steadfast in his friendship to the American people. He is the longest-reigning monarch in the history of Thailand and currently the world's longest-reigning monarch as well.

Mr. President I was pleased to recently visit Thailand and meet with government officials regarding Thailand's participation in the Nunn-Lugar Cooperative Threat Reduction, CTR, Program. Thailand is actively working to counter biological threats. Among other areas, the U.S. will also continue to work to help Thailand control infectious disease that could become the source of a pandemic or the target of terrorists seeking to create a biological weapon.

In conclusion, I am grateful for the overall relationship between our two countries, and look forward to developments in the future which will bring us closer together.

• Mr. WEBB. Mr. President, December 5 marks the 85th birthday of His Majesty King Bhumibol Adulyadej of Thailand. I would like to offer my sincerest congratulations to His Majesty and to the people of Thailand as they commemorate his 66-year reign of Thailand.

The United States and Thailand have had an extensive, close relationship for nearly 200 years, beginning with the Treaty of Amity and Cooperation in 1833. This treaty—the first U.S. treaty in Asia—cemented the friendship between the American and Thai people. King Bhumibol has nurtured this relationship in line with our shared values of democracy and rule law. He has been a vital supporter of a free and open society in Thailand and a stabilizing force in the government's transitions of political power. As the world's longest serving monarch, he has placed his commitment to the Thai people above all.

I have visited Thailand many times over a span of more than 30 years. As chairman of the East Asia and Pacific Affairs Subcommittee, I was fortunate to continue this close relationship, visiting Thailand numerous times to meet Thai leaders, and reaffirm my support for a strong alliance with the United States. I would like to thank King Bhumibol and the Thai government for the courtesies extended to me over the past 6 years of my service in the U.S. Senate. Going forward, I am confident that the U.S.-Thai alliance will continue to be a critical partnership in guaranteeing stability in the Asia-Pacific region.

Mr. President, I am so pleased to join the people of Thailand in celebrating the birthday of His Majesty King Bhumibol Adulyadej, and extend my best wishes to His Majesty for his good health.●

GREEN BUILDING STANDARDS

Mr. PRYOR. Mr. President, I would like to thank Senator WICKER for bringing attention to the need for the Department of Defense, and all Federal agencies, to include American-made wood products in green building standards and rating systems.

I would also like to express my continued support for Federal Government measures designed to spur the design and construction of high-performance green buildings.

However, I am concerned that discouraging certain wood building products and materials from use in Federal buildings because they do not comply with the LEED standard but are otherwise acceptable for U.S. building projects, may undermine the Federal Government's energy efficiency goals.

Wood products are among the most "green" of all building materials.

With the green building market estimated to reach as high as \$140 billion by 2013, securing a strong place for wood is essential to the wood products industry's future growth.

Wood is an ideal green building material because it is renewable, stores carbon that reduces greenhouse gases, and is energy efficient.

There are several green building rating systems being used by Federal agencies and the private marketplace now, and the competition among these systems has resulted in improvements in all of the green building standards. Some of these rating systems recognize the benefits of American-made wood products in their scoring system.

It is important that the Department of Defense, General Services Administration and other Federal agencies ensure that multiple green building standards be considered for the design and construction of Federal buildings.

I believe the best approach is to permit the marketplace to decide which rating system is best suited for each project and Congress should encourage all of the rating systems to compete for government contracts.

REMEMBERING NORMA HOLMGREN

Mr. HATCH. Mr. President, I appreciate the opportunity today to pay tribute to a wonderful woman, devoted mother and grandmother, loyal friend, exceptional employee, and patriotic American Norma Holmgren. Norma was my Northern Utah Area Director for 26 years and was devoted to our state and nation.

Sadly, Norma passed away this past weekend, as a result of a tragic accident as she was taking her daily walk. Norma kept herself very active and physically fit and you could often find Norma walking the streets of her neighborhood enjoying her surroundings and neighbors.

Norma retired from public service almost 10 years ago, however her retirement did not stop her from participating in her community and continuing her interest in republican politics. In fact, my staff contacted her last week to seek her advice on a constituent's request. She was always available and happy to share her knowledge. She spent many years working for the ideas and philosophy of the Republican Party, and assumed numerous leadership positions to further the cause. Norma loved politics and even after leaving the government and political arena, she still loved a good political conversation and was keenly interested in what was happening in our state and nation.

Norma was a ferocious reader, and it was not unusual for Norma to visit her local Costco and buy up to 20 books at a time. She loved to learn and continue her education on so many issues, and would spend hours curled up with a good book.

She also loved antiques and was widely known for her collections that she beautifully displayed throughout her home. She would often invite friends to come and see her latest find or beautiful item and she was very proud of her life-long interest of antiques.

Norma accomplished many great things in her life, yet perhaps her greatest accomplishment was the loving care and nurture she always displayed to her son Randy and his wife, whom she dearly loved. She also adored being a grandmother, and took great pride in her family and the relationships they shared. I had the pleasure of hosting Norma's granddaughter Emily as a Senate page several years ago and I could see first-hand the great traits Norma had instilled in her granddaughter.

I am grateful I had the opportunity to work with Norma for many years, and consider her a true friend. She believed in public service and demonstrated her commitment to excellence on so many occasions. She was a fierce advocate for the military and spent years working as a liaison for me at Hill Air Force Base where she garnered the respect and admiration of the military leaders on the Base. Her influence in so many areas will never be forgotten.

Norma's life touched many and she will be forever remembered as someone who truly cared about her family, her friends, and in doing good for her community. Elaine and I would like to extend our deepest sympathies to Norma's family at the loss of their mother and grandmother; and pray that they will find some peace and comfort in the memories they have shared.

TRIBUTE TO MARREEN CASPER

Mr. HATCH. Mr. President, thank you for the opportunity today to pay tribute to a wonderful woman, dedicated public servant and loyal friend Marreen Casper. Marreen is retiring from my staff at the end of the year and she will be very missed.

Marreen joined my staff in 1999 and has been a shining star. She has tackled some of the most difficult assignments that have faced my Utah Senate Offices. She started as a Federal grants coordinator and caseworker. However, when a need arose to fill a very important position in my organization, she willingly sold her house, and packed up and moved to St. George, UT to become my Southern Utah Field Director.

Marreen has filled this position with dogged determination, and a noteworthy attention to details. She quickly immersed herself into the community and became a true Southern Utahn. She was always available to meet with and listen to the citizens of this area of our State. She has attended literally hundreds of local government meetings, and discussed the issues affecting Southern Utah with many mayors, county commission and council members, and community leaders every day she served. She has such a warm demeanor and accepting personality that people from all walks of life and positions felt comfortable to discuss with Marreen the issues important to them, and know that she would try to do something to help. She has

made friends in every nook and cranny of southern Utah and earned the respect of many.

One aspect of her job that many do not realize, is the travel she undertook to fulfill her duties to the best of her ability. Marreen's field area includes one of the most remote and unpopulated areas in the continental United States. Traveling in her area can get very harrowing at times, but Marreen never let it stop her from doing her job. She has traveled the icy roads in the dead of winter, attended outdoor meetings in the searing heat, and even crashed on an ATV she was riding on for an event that sent her to the Emergency Room.

And some of the issues Marreen has worked on might seem trivial to some, but have long-ranging impacts on rural Utah. These issues have ranged from prairie dogs, desert tortoises, and Mexican wolves; to fighting with the Army Corps of Engineers over whether a dry wash is a "navigable body of water." I am not sure that she will miss the tedious nature of some of these issues, but I am certain she will miss the people in the many communities she worked with to find solutions to the problems.

There has been no assignment ever given to Marreen that she did not fulfill willingly and with a great determination to see it through. In fact, Marreen has undertaken one of the most tedious, yet important projects every year the Hatch Family Christmas Card. This is a project I am certain she would like to have run from, yet year after year she planned, organized, and ensured that this card was sent to thousands of Utahns helping me stay in touch with so many constituents. For this seemingly thankless task, I want to sincerely convey my appreciation to her for her wonderful assistance that has meant so much to me and to the many who received it.

Although Marreen has accomplished many great things in her professional life perhaps her greatest accomplishments have come because of her wonderful partnership with her husband Ron, and her loving and tender care of her 5 children and 22 grandchildren. She dearly loves her family and expresses it often. She sincerely strives to be at every important function in the lives of her family and is often traveling great distances so she can be there for the noteworthy milestones.

She has also made her belief in the Church of Jesus Christ of Latter-day Saints central to her life and has served countless neighbors and friends through the goodness of her heart. In fact, when other folks might think their days of working with the youth in church service are over, Marreen accepted a call from her local Bishop to lead the Young Women's organization in her Ward. She then spent several years mentoring and helping these young women in various ways and through her beautiful example.

I am truly grateful for the tremendous service Marreen Casper has given

to me, to her community, and to our great State. I will miss Marreen greatly but know that life holds many exciting and wonderful new opportunities for her to enjoy. I want to wish Marreen the very best in retirement and want her to know that I will be forever grateful for her good work and loyal friendship. May Heavenly Father bless Marreen and her family for the honorable person she is and the service she has rendered to so many.

TRIBUTE TO TOBY HYMAN

Mr. KERRY. Mr. President, Toby Hyman has become something of an institution in the Senate over the course of her 17 odd years of service in the Office of the Senate Chief Counsel for Employment. I understand that she has consistently and tirelessly devoted herself to ensuring fairness for both Senate employees and their offices, helping them sort through anything from day-to-day concerns that arise to courtroom arguments to union disputes, even in the midst of an anthrax attack on her own office.

Those who know her best say that she displays compassion for employers and employees alike, a deep understanding of employment law and conflict, and great skill resolving disputes and achieving fair outcomes for all involved parties. By all accounts, the Senate body is better today for her efforts, which is why her retirement is received with bittersweet, much deserved well-wishes for the future by her colleagues.

Before her time here, Toby spent 20 years as a fine attorney at the prestigious Proskauer Rose firm in New York City. Prior to that, she served as the first female law clerk for the Honorable District Court Judge John F. Dooling, Jr. And prior to that, she was a fine young citizen of the great State of Massachusetts.

Toby grew up in a family like so many in Boston. She is a proud product of Boston's public schools, including the Girls' Latin School in Roxbury, who excelled in her studies and earned admittance to the government program at Radcliffe College, from which she graduated magna cum laude. Toby then continued to impress her friends and peers at Harvard Law School, where she performed as an able editor of the Harvard Law Review and, once again, graduated with distinction.

To afford these years of schooling, Toby simultaneously pursued a degree in Jewish Education from Hebrew College in order to earn money teaching in Hebrew schools. She wanted to give back to her community, pass on an education that she so enjoyed to the coming generation, and work with children, all while making a little money to sustain her during college. And so she made it happen. Pleased parents affectionately labeled one of her classes the "Hebrew Sesame Street."

Service to others—standing up for fairness and justice—has been a common thread running through Toby's

life. From her days back home in her native Massachusetts, to her career in New York City, to her visit to the Soviet Union in the late 1970s where she greeted oppressed Soviet Jews with encouragement and a helping hand, Toby has treated people with compassion and respect and has stood up for their rights and dignity. Most recently, during her time as an advocate for us all here in the Senate family, she worked with our offices to ensure a good and fair relationship between employers and employees.

So it is no surprise that Toby intends for the next chapter of her life to involve volunteer work teaching young children. She will continue in the example she has set throughout her life and career as an educator, mediator, and advocate for fairness. I thank Toby for dedicating so many years of her life to service in the Senate and look forward to all that she has yet to accomplish—and wish her congratulations on a well deserved retirement.

ADDITIONAL STATEMENTS

REMEMBERING WILLIAM MEEHAN

● Mr. KERRY. Mr. President I come to the floor today to remember William Meehan, an “icon” of Somerset, in the words of former fire chief Steven Rivard. He was a loving, and beloved, husband to JoAnne, brother to Robert and John, father to John and Steve, and grandfather to Jake, Owen, and Liam. William is remembered by those who knew him best as an impassioned cheerleader and reliable presence on the sidelines of his grandchildren’s sports games, as a thoughtful and compassionate voice on the Board of Selectmen, as an affable, warm family man armed with a lively Irish humor.

William was an anchor of his family and of his town. His care for his town shone through his work and was reflected in his daily life. The people of Somerset recall a dedicated public servant who embodied the most noble qualities of a community advocate while eschewing the divisive demagoguery that too often finds its way into politics. In his 15 years as one of three selectmen for his town, he proved time and again that he was more interested in understanding the concerns of others and finding a just solution to any problem than he was in political bickering. And his example inspired those around him, with his son Michael venturing into public service and actually serving in my office for many years with great distinction.

In his last year on the board of selectmen, William was a part of the opening of the Veterans Memorial Bridge, a decade’s long project to connect Fall River with Somerset over the Taunton River. And he was intimately involved in the process that put into motion plans for the new Somerset Berkley Regional High School. His interest was always in community over

conflict, in people rather than politics, and that is to what he devoted his life.

Friends remember William having lunch every day with peers or first responders or community leaders, and he would often be found chatting with neighbors and storekeepers around town or among the stands at local sporting events. He was a sportsman himself, with baseball second only to family and community. When he wasn’t coaching Somerset Little League, as he did for many years, he could be found out on the golf course.

I understand that William would make time each day after lunch to venture to the park and watch the boats sailing the Taunton River. I imagine the gentle breeze off the water, the parade of ships coming and going with the sun high in the sky, and William sitting along the shore facing the water, breathing in the air and taking in the moment. We won’t see him there any longer, but when we look out at the boats drifting by, we will think of William and remember the goodness he shared with the people of Somerset and beyond.

To JoAnne and William’s family, I extend my deepest condolences. And to William, I wish him eternal rest watching over his family and all those he cared about so deeply. And I wish him the same peace he found along the river’s edge.●

RECOGNIZING HOLY ROSARY CHURCH

● Ms. MIKULSKI. Mr. President, I rise to honor the Holy Rosary Church of Baltimore as it marks its 125th anniversary.

Holy Rosary Church was consecrated on December 8, 1887. From the beginning, the church provided a spiritual home for new Americans who emigrated from Poland. My own family were parishioners from the beginning. The church was the center of the community. It was the school. It is where new Americans came to practice their faith in their new home. While facing all the challenges of life in a new country, Holy Rosary provided a place of comfort and spiritual guidance. The Church provided a place to practice the beloved traditions of their Catholic faith. It became one of the largest Polish parishes in Baltimore. Its priests were beloved in the community. The church also had a parochial school staffed by the beloved Felician nuns. They not only taught the three R’s—religion, reading, writing—they helped young people get on the path of citizenship. They were a bridge between the old world and the new.

My great grandmother was one of those immigrants who worshiped at Holy Rosary. Like so many, she came with little money in her pocketbook, but big dreams in her heart for a new and better life. And that life was nurtured by the Polish American community at Holy Rosary parish. In the 1920s and 1930s, Holy Rosary parish was the

largest of six Polish parishes in Baltimore and the largest in the Archdiocese. Over time, my family continued to attend Holy Rosary Church. My parents were married there.

Holy Rosary Church played a part in Baltimore’s history. It is where we prayed through two World Wars and the Great Depression. It is where we prayed that the Iron Curtain would be lifted and Poland would be liberated. It is where we organized to help the Solidarity movement. It is where we welcomed Pope John Paul II to Holy Rosary when he was the Bishop of Krakow. That was the first time I met the Holy Father.

Holy Rosary was also where a stunning miracle occurred. It was where the Vatican recognized the healing of Fr. Ronald Pytel as a miracle through the intercession of Blessed Faustina Kowalska, one of the miracles that led to her canonization in 2000.

Today I honor the past, celebrate the present and have high hopes for the future of Holy Rosary parish. The members continue to live their faith of charity and hope. One hundred and twenty-five years ago the people of Holy Rosary came together to forge a parish community anchored on the beliefs of Roman Catholicism and the values of hard work, neighbor-helping-neighbor and patriotism.●

TRIBUTE TO TOM CASEY

● Mrs. MURRAY. Mr. President, I rise today to acknowledge the 30 years of service of Grays Harbor Public Utility District Commissioner Tom Casey and to congratulate him on his retirement. Commissioner Casey is the longest-serving Grays Harbor PUD Commissioner and is concluding his fifth term in office.

Commissioner Casey was elected to the Grays Harbor PUD Board of Commissioners in 1982. Prior to serving in public office, he was actively involved in energy and public utility issues from his home in Satsop, WA. Commissioner Casey also worked as a Policy Analyst in the Washington State House of Representatives.

Commissioner Casey’s commitment to public power was not limited to only the Grays Harbor Public Utility District. Commissioner Casey served on the Board of Directors of Energy Northwest for 12 years, 8 of which were on the executive board. Commissioner Casey also served on the Executive Council of the Public Power Council for 16 years.

Commissioner Casey was also a key leader in the effort to create a Public Development Authority to transform the non-operational nuclear plant site in Grays Harbor County into an industrial park for economic development in a part of the state with high unemployment.

Commissioner Casey has been a fierce advocate for public power for decades. That spirit of advocacy for public power has been a keystone for

Commissioner Casey for as long as I have known him. As he retires from public service, I join with others throughout the Northwest in thanking Commissioner Casey for his years of service and his steadfast belief in the unique value of public power.●

TRIBUTE TO WILMA JINKS

●Mr. PRYOR. Mr. President, it is with the greatest pleasure that I rise today to honor Wilma Jinks, of Piggott, AR, who is celebrating her 100th birthday.

Wilma grew up on a farm north of Piggott, AR. Her rural location required her to walk 2 miles for school daily, an incomprehensible feat in the modern age of transportation, but to Wilma, it was something you just had to do. As you will see, this approach to life would serve Wilma well in later years. Following her graduation from Piggott High School in 1930, Wilma went on to serve as deputy county clerk. In this capacity, Wilma and her colleague, Ruth Ballard, would make town history when they issued 101 marriage licenses in one day, leaving some to joke that Piggott should change its name to "Marrying Town". It was not long after that Wilma would join those 101 newlyweds. In 1935, she would meet her future husband, Harold, while working as a secretary in his brother's office. They would remain devoted to each other until his death in 1995.

In 1962, President Kennedy appointed Harold as director of the Postmasters and Rural Appointments Division of the United States Post Office, and in April of the same year, Harold and Wilma moved to Washington, D.C. While in the District, the Jinks enjoyed the same social circles as the Nation's leaders, and routinely attended the same events as President Kennedy and President Johnson. Yet, Wilma and Harold still missed Arkansas. After four years of rubbing elbows on the national stage, they moved back to Piggott in April of 1966 and partnered with former Arkansas Governor Orvil Faubus in purchasing Piggott's newspaper, The Piggott Banner in 1967.

Even after Harold's retirement, there was no slowing down "Team Jinks". Wilma and Harold's can do attitude was infectious throughout the State, earning the friendship of every major officeholder in Arkansas, as well as two of our Nation's great leaders, President Carter and President Clinton. Senator Dale Bumpers said of Harold "if the term yellow-dog' were in the dictionary, Harold Jinks would be listed as the definition." Harold went on to form several grassroots organizations in Arkansas and served as chairman of the Arkansas Joint Legislative Committee of the National Retired Teachers Association and AARP. Wilma was proudly by his side for every step.

Mr. President, Wilma Jinks truly is one of Arkansas's gems and we are blessed to have her. I ask my colleagues to join me today in congratulating Wilma Jinks as she and her family celebrates her 100th birthday.●

RECOGNIZING THE BANKERY

● Ms. SNOWE. Mr. President, our Nation's entrepreneurs understand the rigors and fears of starting a new business from scratch. The creativity, adaptability, and courage it takes to open a business are immense. However, because of that risk and uncertainty, the rewards seem all the greater. The drive and determination required of a new business can be seen prevalently in the entrepreneurs of my home State of Maine. Many of today's businesses create a meeting ground where classic and traditional meets the new and innovative; refurbishing nostalgia and re-vamping tradition. I rise to recognize a business steeped in history which embraces the challenges of today with youthful vigor.

The Bankery located in downtown Skowhegan, ME seamlessly blends antique charm and history with an innovative repurposing of space. Opened in 2008 by owners Michael Hunt, graduate from the University of Maine, and Matthew DuBois, alumnus of the Connecticut Culinary Institute. The Bankery is more than a classic bakery. The sweets and confections of this bakery are kept under lock and key, literally. The Bankery is housed in a renovated bank that was built in 1864. The owners preserved the history of the architecture by carefully restoring the original vaults and displaying many nostalgic mementos from the building's original purpose.

After expanding from a simple menu of classic baked goods to include meal items such as soups, sandwiches, and meat pies, The Bankery continues on an upward and outward trajectory. In 2010, Michael and Matthew acquired their next door neighbor, Skowhegan Fleuriste, a florist and formal wear shop. Now they offer a one-stop-shop for many events. It is their ambition and continued desire to pursue the next challenge and grow in new ways that gives them a competitive edge and is so characteristic of Maine's small business owners.

With an eye to the future and a nod to the past, The Bankery has met the challenges of growing a new business with excellence. I know that, through their hard work and delicious products, this Skowhegan staple will continue to flourish. I offer Matthew and Michael and everyone at The Bankery congratulations on their success and best wishes for a sweet future.●

S. RES. 610

Whereas the United States is a world leader in science, technology, engineering, and

mathematics (STEM) fundamental research and related education;

Whereas an excellent STEM higher-education system is critical to the development of a robust and inclusive U.S. STEM workforce and to U.S. global science and engineering preeminence;

Whereas the GRFP, the country's oldest graduate fellowship program, supports outstanding graduate students pursuing masters and doctoral degrees in research at accredited U.S. institutions;

Whereas the GRFP has contributed to the development of outstanding U.S. scholars, entrepreneurs, teachers, mentors, and inventors who continue to support and promote the Nation's science and engineering enterprise and the next generation of scientists and engineers;

Whereas this flagship program helps maintain high-quality and highly skilled graduates who enter the Nation's STEM workforce prepared to innovate and collaborate in the global scientific arena;

Whereas NSF has funded more than 46,500 competitive graduate research fellows with selection criteria based on the intellectual merit of their research and its potential broader impacts for society;

Whereas of the more than 200 NSF-supported Nobel laureates, 40 were selected as graduate research fellows, and more than 440 graduate research fellows have become members of the National Academy of Sciences;

Whereas graduate research fellows have an exceptionally high rate of doctorate completion;

Whereas since 2001, graduate research fellows have filed more than 1,000 patents while working toward their graduate degrees, thus contributing directly to scientific advancement and discovery;

Whereas since 2007, 1145 graduate research fellows were selected from Experimental Program to Stimulate Competitive Research jurisdictions; and

SEC. 130. SENSE OF CONGRESS ON MARINE CORPS AMPHIBIOUS LIFT AND PRESENCE REQUIREMENTS.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The United States Marine Corps is a combat force which leverages maneuver from the sea as a force multiplier allowing for a variety of operational tasks ranging from major combat operations to humanitarian assistance.

(2) The United States Marine Corps is unique in that, while embarked upon Naval vessels, they bring all the logistic support necessary for the full range of military operations, operating “from the sea” they require no third party host nation permission to conduct military operations.

(3) The Department of the Navy has a requirement for 38 amphibious assault ships to meet this full range of military operations.

(4) Due to fiscal constraints only, that requirement of 38 vessels was reduced to 33 vessels, which adds military risk to future operations.

(5) The Department of the Navy has been unable to meet even the minimal requirement of 30 operationally available vessels and has submitted a shipbuilding and ship retirement plan to Congress which will reduce the force to 28 vessels.

(6) Experience has shown that early engineering and design of naval vessels has significantly reduced the acquisition costs and life-cycle costs of those vessels.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the Department of Defense should carefully evaluate the maritime force structure necessary to execute demand for forces by the commanders of the combatant commands;

(2) the Department of the Navy carefully evaluate amphibious lift capabilities to meet current and projected requirements;

(3) the Department of the Navy should consider prioritization of investment in and pro-

urement of the next generation of amphibious assault ships, as a component of the balanced battle force;

(4) the next generation amphibious assault ships should maintain survivability protection;

(5) operation and maintenance requirements analysis, as well as the potential to leverage a common hull form design, should be considered to reduce total ownership cost and acquisition cost; and

(6) maintaining a robust amphibious ship building industrial base is vital for the future of the national security of the United States.

Subtitle C—Missile Defense Matters

SEC. 231. HOMELAND BALLISTIC MISSILE DEFENSE.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The Ballistic Missile Defense Review of February 2010 stated as its first policy priority that “the United States will continue to defend the homeland against the threat of limited ballistic missile attack” and that “an essential element of the United States’ homeland ballistic missile defense strategy is to hedge against future uncertainties, including both the uncertainty of future threat capabilities and the technical risks inherent to our own development plans”.

(2) The United States currently has an operational Ground-based Midcourse Defense (GMD) system with 30 Ground-Based Interceptors (GBIs) deployed in Alaska and California, protecting the United States against the potential future threat of limited ballistic missile attack from countries such as North Korea and Iran.

(3) As Deputy Assistant Secretary of Defense for Nuclear and Missile Defense Policy Bradley Roberts testified before the Committee on Armed Services of the Senate on April 25, 2012, “[w]ith 30 GBIs in place, the United States is in an advantageous position vis-à-vis the threats from North Korea and Iran,” and “neither has successfully tested

an ICBM or demonstrated an ICBM-class warhead”.

(4) Deputy Assistant Secretary Roberts testified that maintaining this advantageous position “requires continued improvement to the GMD system, including enhanced performance by the GBIs and the deployment of new sensors. It also requires the development of the Precision Tracking Space System (PTSS) to handle larger raid sizes and the Standard Missile-3 (SM-3) Block IIB as the ICBM threat from states like Iran and North Korea matures. These efforts will help to ensure that the United States possesses the capability to counter the projected threat for the foreseeable future”.

(5) As its highest priority, the Missile Defense Agency is designing a correction to the problem that caused a December 2010 flight test failure of the Ground-based Midcourse Defense system using the Capability Enhancement II (CE-II) model of exo-atmospheric kill vehicle, and plans to demonstrate the correction in two flight tests before resuming production or assembly of additional Capability Enhancement II kill vehicles.

(6) The Department of Defense has a program to improve the performance and reliability of the Ground-based Midcourse Defense system, including a plan to test every component of the Ground-Based Interceptors for reliability. According to Department of Defense officials, the goal of the Ground-Based Interceptor reliability program is to double the number of threat Intercontinental Ballistic Missiles (ICBMs) that our current inventory of Ground-Based Interceptors could defeat, thereby effectively doubling the capability of our current Ground-based Midcourse Defense system.

(7) The Missile Defense Agency, working with the Director of Operational Test and Evaluation and with United States Strategic Command, has developed a comprehensive Integrated Master Test Plan (IMTP) for missile defense, with flight tests for the Ground-based Midcourse Defense system planned through fiscal year 2022, including salvo testing, multiple simultaneous engagement testing, and operational testing.

(8) The Director of Operational Test and Evaluation, who must review, approve, and sign each semi-annual version of the Integrated Master Test Plan, testified that the Test Plan is “a robust and rigorous test plan”. He also testified that the current pace of Ground-based Midcourse Defense system testing of one flight test per year is the “best that we’ve been able to achieve over a decade”.

(9) The Director of the Missile Defense Agency testified before the Committee on Armed Services of the Senate on April 25, 2012, that flight testing the Ground-based Midcourse Defense system more often than once per year could cause “greater risk of further failure and setbacks to developing our homeland defense capability as rapidly as possible”.

(10) As part of its homeland defense hedging strategy, the Department of Defense has already decided upon or implemented a number of actions to improve the missile defense posture of the United States in case the threat of Intercontinental Ballistic Missiles from North Korea or Iran emerges sooner or in greater numbers than anticipated. These include the following actions:

(A) The Missile Defense Agency has completed construction of Missile Field-2 at Fort Greely, Alaska, with eight extra silos available to deploy additional operational Ground-Based Interceptors, if needed.

(B) With its request for 5 additional Ground-Based Interceptors in the budget of the President for fiscal year 2013, the Missile Defense Agency plans to have enough test and spare Ground-Based Interceptors to em-

place in the 8 extra silos from 2014 through 2025, and will keep the Ground-Based Interceptor production line active for 5 additional years, thus allowing additional Ground-Based Interceptor purchases in the future, if needed.

(C) The Department has decided not to de-commission prototype Missile Field-1 at Fort Greely but, instead, to keep it in a storage status that would permit it to be refurbished and reactivated within a few years if future threat developments make that necessary.

(D) The Missile Defense Agency plans to build an in-flight interceptor communications terminal at Fort Drum, New York, to enhance the performance of Ground-Based Interceptors defending the eastern United States against possible future missile threats from Iran.

(E) The Missile Defense Agency is continuing the development and testing of the two-stage Ground-Based Interceptor for possible deployment in the future, if needed.

(F) The Missile Defense Agency is upgrading early warning radars in Clear, Alaska, and Cape Cod, Massachusetts, to enhance the ability to defend against potential multiple future Intercontinental Ballistic Missile threats from North Korea and Iran.

(G) The Missile Defense Agency is pursuing development of the Standard Missile-3 Block IIB interceptor for Phase 4 of the European Phased Adaptive Approach. It is intended to augment the Ground-based Midcourse Defense system as a cost-effective first layer of defense of the homeland against a possible future Intercontinental Ballistic Missile threat from Iran.

(H) The Missile Defense Agency is pursuing development of the Precision Tracking Space System, a satellite sensor system to provide persistent tracking of large numbers of missiles in flight, and fire-control quality targeting data to various missile defense interceptor systems. According to the Director of the Missile Defense Agency, “the greatest future enhancement for both homeland and regional defense in the next ten years is the development of the Precision Tracking Space System satellites”.

(I) As part of its homeland defense hedging strategy review, the Department of Defense is considering other options to enhance the future United States posture to defend the homeland, including the feasibility, advisability and affordability of deploying additional Ground-Based Interceptors, either in Alaska or at a missile defense site on the East Coast of the United States.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) it is a national priority to defend the homeland against the potential future threat of limited ballistic missile attack from countries such as North Korea and Iran;

(2) the currently deployed Ground-based Midcourse Defense system, with 30 Ground-Based Interceptors deployed in Alaska and California, provides protection of the United States homeland against the potential future threat of limited ballistic missile attack from North Korea and Iran;

(3) it is essential for the Ground-based Midcourse Defense system to achieve the levels of reliability, availability, sustainability, and operational performance that will allow it to continue providing protection of the United States homeland against limited ballistic missile attack;

(4) the Missile Defense Agency should, as its highest priority, correct the problem that caused the December 2010 Ground-based Midcourse Defense system flight test failure and demonstrate the correction in flight tests before resuming production of the Capability

Enhancement-II kill vehicle, in order to provide confidence that the system will work as intended;

(5) the Department of Defense should continue to enhance the performance and reliability of the Ground-based Midcourse Defense system, and enhance the capability of the Ballistic Missile Defense System, to provide improved capability to defend the homeland against possible increased future missile threats from North Korea and Iran;

(6) the Missile Defense Agency should continue its robust, rigorous, and realistic testing of the Ground-based Midcourse Defense system at a pace of one flight test per year, as described in the Integrated Master Test Plan, including salvo testing, multiple simultaneous engagement testing, and operational testing;

(7) if successfully developed, the Standard Missile-3 Block IIB interceptor would provide an essential first layer of defense of the homeland against an emerging Intercontinental Ballistic Missile threat from Iran, using a cost-effective forward-based early intercept system that could permit holding Ground-Based Interceptors in reserve, and if such interceptor could be deployed on ships, it would also provide a significant enhancement to defense against possible future threats from North Korea;

(8) the Precision Tracking Space System has the potential to improve dramatically the capability of homeland and regional missile defense systems against large numbers of missiles launched simultaneously, and should remain a high priority for development;

(9) the Department of Defense has taken a number of prudent, affordable, cost-effective, and operationally significant steps to hedge against the possibility of future growth in the missile threat to the homeland from North Korea and Iran; and

(10) the Department of Defense should continue to evaluate the evolution of the long-range missile threat from North Korea and Iran and consider other possibilities for prudent, affordable, cost-effective, and operationally significant steps to improve the posture of the United States to defend the homeland against possible future growth in the threat.

(c) REPORT.—

(1) REPORT REQUIRED.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report on the status of efforts to improve the homeland ballistic missile defense capability of the United States.

(2) ELEMENTS OF REPORT.—The report required by paragraph (1) shall include the following:

(A) A detailed description of the actions taken or planned to improve the reliability, availability, and capability of the Ground-based Midcourse Defense system.

(B) A description of any improvements achieved as a result of the actions described in subparagraph (A).

(C) A description of the results of the two planned flight tests of the Ground-based Midcourse Defense system (Control Test Vehicle flight test-1, and GMD Flight Test-06b) intended to demonstrate the success of the correction of the problem that caused the flight test failure of December 2010, and the status of any decision to resume production of the Capability Enhancement-II kill vehicle.

(D) A detailed description of actions taken or planned to improve the homeland defense posture of the United States to hedge against potential future Intercontinental Ballistic Missile threat growth from North Korea and Iran.

(E) Any other matters the Secretary considers appropriate.

(3) FORM OF REPORT.—The report shall be submitted in unclassified form, but may include a classified annex.

SEC. 232. REGIONAL BALLISTIC MISSILE DEFENSE.

(a) FINDINGS.—Congress makes the following findings:

(1) In the introduction to the Ballistic Missile Defense Review of February 2010, Secretary of Defense Robert Gates states that “I have made defending against near-term regional threats a top priority of our missile defense plans, programs and capabilities”.

(2) In describing the threat of regional ballistic missiles, the report of the Ballistic Missile Defense Review states that “there is no uncertainty about the existence of regional threats. They are clear and present. The threat from short-range, medium-range, and intermediate-range ballistic missiles (SRBMs, MRBMs, and IRBMs) in regions where the United States deploys forces and maintains security relationships is growing at a particularly rapid pace”.

(3) In testimony before the Committee on Armed Services of the Senate on April 25, 2012, Dr. Bradley Roberts, Deputy Assistant Secretary of Defense for Nuclear and Missile Defense Policy stated, with respect to regional missile defense, that “the need arises from the rapidly emerging threats to our armed forces in Europe, the Middle East, and East Asia from regional missile proliferators and the basic challenge such proliferation poses to the safety and security of our forces and allies and to our power projection strategy”.

(4) Iran has the largest inventory of regional ballistic missiles in the Middle East, with hundreds of missiles that can reach southeastern Europe and all of the Middle East, including Israel. Iran is improving its existing missiles and developing new and longer-range missiles.

(5) North Korea has a large and growing inventory of short-range and medium-range ballistic missiles that can reach United States forces and allies in South Korea and Japan. North Korea is improving its existing missiles and developing new and longer-range missiles.

(6) In September 2009, President Barack Obama announced that he had accepted the unanimous recommendation of the Secretary of Defense and the Joint Chiefs of Staff to establish a European Phased Adaptive Approach to missile defense, designed to protect deployed United States forces and allies and partners in Europe against the large and growing threat of ballistic missiles from Iran.

(7) In November 2010, at the Lisbon Summit, the North Atlantic Treaty Organization (NATO) decided to adopt the core mission of missile defense of its population, territory and forces. The North Atlantic Treaty Organization agreed to enhance its missile defense command and control system, the Active Layered Theater Ballistic Missile Defense, to provide a North Atlantic Treaty Organization command and control capability. This is in addition to contributions of missile defense capability from individual nations.

(8) During 2011, the United States successfully implemented Phase 1 of the European Phased Adaptive Approach, including deployment of an AN/TPY-2 radar in Turkey, deployment of an Aegis Ballistic Missile Defense ship in the eastern Mediterranean Sea with Standard Missile-3 Block IA interceptors, and establishment of a missile defense command and control system in Germany.

(9) During 2011, the United States successfully negotiated all the international agreements with North Atlantic Treaty Organization allies needed to permit future phases of the European Phased Adaptive Approach, in-

cluding agreements with Romania and Poland to permit the deployment of Aegis Ashore missile defense systems on their territory, an agreement with Turkey to permit deployment of an AN/TPY-2 radar on its territory, and an agreement with Spain to permit the forward stationing of four Aegis Ballistic Missile Defense ships at Rota.

(10) Phase 2 of the European Phased Adaptive Approach is planned for deployment in 2015, and is planned to include the deployment of Standard Missile-3 Block IB interceptors on Aegis Ballistic Missile Defense ships and at an Aegis Ashore site in Romania.

(11) Phase 3 of the European Phased Adaptive Approach is planned for deployment in 2018, and is planned to include the deployment of Standard Missile-3 Block IIA interceptors on Aegis Ballistic Missile Defense ships and at an Aegis Ashore site in Poland.

(12) Phase 4 of the European Phased Adaptive Approach is planned for deployment in 2020, and is planned to include the deployment of Standard Missile-3 Block IIB interceptors at Aegis Ashore sites. This interceptor is intended to protect both Europe and the United States against potential future long-range ballistic missiles from Iran.

(13) At the North Atlantic Treaty Organization Summit in Chicago in 2012, the North Atlantic Treaty Organization plans to announce it has achieved an “interim capability” for the North Atlantic Treaty Organization missile defense system, including initial capability of its Active Layered Theater Ballistic Missile Defense system at a command and control facility in Germany.

(14) The United States has a robust program of missile defense cooperation with Israel, including joint development of the Arrow Weapon System and the new Arrow-3 upper tier interceptor, designed to defend Israel against ballistic missiles from Iran. These jointly developed missile defense systems are designed to be interoperable with United States ballistic missile defenses, and these interoperable systems are tested in large military exercises. The United States has deployed an AN/TPY-2 radar in Israel to enhance missile defense against missiles from Iran.

(15) The United States is working with the nations of the Gulf Cooperation Council on enhanced national and regional missile defense capabilities against growing missile threats from Iran. As part of this effort, the United Arab Emirates plans to purchase two batteries of the Terminal High Altitude Air Defense (THAAD) system, as well as other equipment.

(16) The United States has a strong program of missile defense cooperation with Japan, including the co-development of the Standard Missile-3 (SM-3) Block IIA interceptor for the Aegis Ballistic Missile Defense system, intended to be deployed by Japan and in Phase 3 of the European Phased Adaptive Approach. Japan’s fleet of Aegis Ballistic Missile Defense ships using the SM-3 Block IA interceptors, and the United States deployment of an AN/TPY-2 radar in Japan.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the threat from regional ballistic missiles, particularly from Iran and North Korea, is serious and growing, and puts at risk forward-deployed United States forces and allies and partners in Europe, the Middle East, and the Asia-Pacific region;

(2) the Department of Defense has an obligation to provide force protection of forward-deployed United States forces, assets, and facilities from regional ballistic missile attack;

(3) the United States has an obligation to meet its security commitments to its allies,

including ballistic missile defense commitments;

(4) the Department of Defense has a balanced program of investment and capabilities to provide for both homeland defense and regional defense against ballistic missiles, consistent with the Ballistic Missile Defense Review and with the prioritized and integrated needs of the commanders of the combatant commands;

(5) the European Phased Adaptive Approach to missile defense is an appropriate and necessary response to the existing and growing ballistic missile threat from Iran to forward deployed United States forces and allies and partners in Europe;

(6) the Department of Defense—

(A) should, as a high priority, continue to develop, test, and plan to deploy all four phases of the European Phased Adaptive Approach, including all variants of the Standard Missile-3 interceptor; and

(B) should also continue with its other phased and adaptive regional missile defense efforts tailored to the Middle East and the Asia-Pacific region;

(7) European members of the North Atlantic Treaty Organization are making valuable contributions to missile defense in Europe, by hosting elements of United States missile defense systems on their territories, through individual national contributions to missile defense capability, and by collective funding and development of the Active Layered Theater Ballistic Missile Defense system; and

(8) the Department of Defense should continue with the development of the key enablers of enhanced regional missile defense, including the Precision Tracking Space System.

(c) REPORT.—

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report describing the status and progress of regional missile defense programs and efforts.

(2) ELEMENTS OF REPORT.—The report required by paragraph (1) shall include the following:

(A) An assessment of the adequacy of the existing and planned European Phased Adaptive Approach to provide force protection for forward deployed United States forces in Europe against ballistic missile threats from Iran, and an assessment whether adequate force protection would be available absent the European Phased Adaptive Approach.

(B) An assessment whether the European Phased Adaptive Approach and other planned regional missile defense approaches of the United States meet the integrated priorities of the commanders of the regional combatant commands in an affordable and balanced manner.

(C) A description of the progress made in the development and testing of elements of systems intended for deployment in Phases 2 through 4 of the European Phased Adaptive Approach, including the Standard Missile-3 Block IB interceptor and the Aegis Ashore system.

(D) A description of the manner in which elements of regional missile defense architectures, such as forward-based X-band radars in Turkey and Japan, contribute to the enhancement of homeland defense of the United States.

(E) A description of the current and planned contributions of North Atlantic Treaty Organization allies, both collectively and individually, to missile defense in Europe.

(3) FORM.—The report required by paragraph (1) shall be submitted in unclassified form, but may include a classified annex.

SEC. 233. MISSILE DEFENSE COOPERATION WITH RUSSIA.

(a) FINDINGS.—Congress makes the following findings:

(1) For more than a decade, the United States and Russia have discussed a variety of options for cooperation on shared early warning and ballistic missile defense. For example, on May 1, 2001, President George W. Bush spoke of a “new cooperative relationship” with Russia and said “it should be premised on openness, mutual confidence and real opportunities for cooperation, including the area of missile defense. It should allow us to share information so that each nation can improve its early warning capability, and its capability to defend its people and territory. And perhaps one day, we can even cooperate in a joint defense”.

(2) Section 1231 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (as enacted into law by Public Law 106-398; 1654A–329) authorized the Department of Defense to establish in Russia a “joint center for the exchange of data from systems to provide early warning of launches of ballistic missiles and for notification of launches of such missiles”, also known as the Joint Data Exchange Center (JDEC).

(3) On March 31, 2008, Deputy Secretary of Defense Gordon England stated that “we have offered Russia a wide-ranging proposal to cooperate on missile defense—everything from modeling and simulation, to data sharing, to joint development of a regional missile defense architecture—all designed to defend the United States, Europe, and Russia from the growing threat of Iranian ballistic missiles. An extraordinary series of transparency measures have also been offered to reassure Russia. Despite some Russian reluctance to sign up to these cooperative missile defense activities, we continue to work toward this goal”.

(4) On July 6, 2009, President Barack Obama and Russian President Dmitry Medvedev issued a joint statement on missile defense issues, which stated that “Russia and the United States plan to continue the discussion concerning the establishment of cooperation in responding to the challenge of ballistic missile proliferation. . . We have instructed our experts to work together to analyze the ballistic missile challenges of the 21st century and to prepare appropriate recommendations”.

(5) The February 2010 report of the Ballistic Missile Defense Review established as one of its central policy pillars that increased international missile defense cooperation is in the national security interest of the United States and, with regard to cooperation with Russia, the United States “is pursuing a broad agenda focused on shared early warning of missile launches, possible technical cooperation, and even operational cooperation”.

(6) at the November 2010 Lisbon Summit, the North Atlantic Treaty Organization (NATO) decided to develop a missile defense system to “protect NATO European populations, territory and forces” and also to seek cooperation with Russia on missile defense. In its Lisbon Summit Declaration, the North Atlantic Treaty Organization reaffirmed its readiness to “invite Russia to explore jointly the potential for linking current and planned missile defense systems at an appropriate time in mutually beneficial ways”. The new NATO Strategic Concept adopted at the Lisbon Summit states that “we will actively seek cooperation on missile defense with Russia”, that “NATO-Russia cooperation is of strategic importance”, and that “the security of the North Atlantic Treaty Organization and Russia is intertwined”.

(7) In a December 18, 2010, letter to the leadership of the Senate, President Obama wrote that the North Atlantic Treaty Organization “invited Russia to cooperate on missile defense, which could lead to adding Russian capabilities to those deployed by NATO to enhance our common security against common threats. The Lisbon Summit thus demonstrated that the Alliance’s missile defenses can be strengthened by improving NATO-Russian relations. This comes even as we have made clear that the system we intend to pursue with Russia will not be a joint system, and it will not in any way limit United States’ or NATO’s missile defense capabilities. Effective cooperation with Russia could enhance the overall efficiency of our combined territorial missile defenses, and at the same time provide Russia with greater security”.

(8) Section 221(a)(3) of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383; 124 Stat. 4167) states that it is the sense of Congress “to support the efforts of the United States Government and the North Atlantic Treaty Organization to pursue cooperation with the Russian Federation on ballistic missile defense relative to Iranian missile threats”.

(9) In a speech in Russia on March 21, 2011, Secretary of Defense Robert Gates cited “the NATO-Russian decision to cooperate on defense against ballistic missiles. We’ve disagreed before, and Russia still has uncertainties about the European Phased Adaptive Approach, a limited system that poses no challenges to the large Russian nuclear arsenal. However, we’ve mutually committed to resolving these difficulties in order to develop a roadmap toward truly effective anti-ballistic missile collaboration. This collaboration may include exchanging launch information, setting up a joint data fusion center, allowing greater transparency with respect to our missile defense plans and exercises, and conducting a joint analysis to determine areas of future cooperation”.

(10) In testimony to the Committee on Armed Services of the Senate on April 13, 2011, Deputy Assistant Secretary of Defense for Nuclear and Missile Defense Policy Bradley H. Roberts stated that the United States has been pursuing a Defense Technology Cooperation Agreement with Russia since 2004, and that such an agreement is necessary “for the safeguarding of sensitive information in support of cooperation” on missile defense, and to “provide the legal framework for undertaking cooperative efforts”. Further, Dr. Roberts stated that the United States would not provide any classified information to Russia without first conducting a National Disclosure Policy review. He also stated that the United States is not considering sharing “hit-to-kill” technology with Russia.

(11) In a March 2012 answer to a question from the Committee on Armed Services of the Senate on missile defense cooperation with Russia, Acting Under Secretary of Defense for Policy Jim Miller wrote that “I support U.S.-Russian cooperation on missile defenses first and foremost because it could improve the effectiveness of U.S. and NATO missile defenses, thereby improving the protection of the United States, our forces overseas, and our Allies. Missile defense cooperation with Russia is in the security interests of the United States, NATO, and Russia, first and foremost because it could strengthen capabilities across Europe to intercept Iranian missiles”. He also wrote that “[t]he United States has pursued missile defense cooperation with Russia with the clear understanding that we would not accept constraints on missile defense, and that we would undertake necessary qualitative and quantitative improvements to meet U.S. security needs”.

(12) In February 2012, an international group of independent experts known as the Euro-Atlantic Security Initiative issued a report proposing missile defense cooperation between the United States (with its North Atlantic Treaty Organization allies) and Russia. The group, whose leaders included Stephen Hadley, the National Security Advisor to President George W. Bush, proposed that the nations share satellite and radar early warning data at joint cooperation centers in order to improve their ability to detect, track, and defeat medium-range and intermediate-range ballistic missiles from the Middle East.

(13) In a letter dated April 13, 2012, Robert Nabors, Assistant to the President and Director of the Office of Legislative Affairs, wrote that “it is Administration policy that we will only provide information to Russia that will enhance the effectiveness of our missile defenses. The Administration will not provide Russia with sensitive information that would in any way compromise our national security, including hit-to-kill technology and interceptor telemetry”.

(14) The United States and Russia already engage in substantial cooperation on a number of international security efforts, including nuclear nonproliferation, anti-piracy, counter-narcotics, nuclear security, counter-terrorism, and logistics resupply through Russia of coalition forces in Afghanistan. These areas of cooperation require each side to share and protect sensitive information, which they have both done successfully.

(15) The United States currently has shared early warning agreements and programs of cooperation with eight nations in addition to the North Atlantic Treaty Organization. The United States has developed procedures and mechanisms for sharing early warning information with partner nations while ensuring the protection of sensitive United States information.

(16) Russia and the United States each have missile launch early warning and detection and tracking sensors that could contribute to and enhance each others' ability to detect, track, and defend against ballistic missile threats from Iran.

(17) The Obama Administration has provided regular briefings to Congress on its discussions with Russia on possible missile defense cooperation.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) it is in the national security interest of the United States to pursue efforts at missile defense cooperation with Russia that would enhance the security of the United States, its North Atlantic Treaty Organization allies, and Russia, particularly against missile threats from Iran;

(2) the United States should pursue ballistic missile defense cooperation with Russia on both a bilateral basis and a multilateral basis with its North Atlantic Treaty Organization allies, particularly through the NATO-Russia Council;

(3) missile defense cooperation with Russia should not “in any way limit United States' or NATO's missile defense capabilities”, as acknowledged in the December 18, 2010, letter from President Obama to the leadership of the Senate, and should be mutually beneficial and reciprocal in nature;

(4) the United States should not provide Russia with sensitive missile defense information that would in any way compromise United States national security, including “hit-to-kill” technology and interceptor telemetry; and

(5) the United States should pursue missile defense cooperation with Russia in a manner that ensures that—

(A) United States classified information is appropriately safeguarded and protected from unauthorized disclosure;

(B) prior to sharing classified information with Russia, the United States conducts a National Disclosure Policy review and determines the types and levels of information that may be shared and whether any additional procedures are necessary to protect such information;

(C) prior to entering into missile defense technology cooperation projects, the United States enters into a Defense Technology Cooperation Agreement with Russia that establishes the legal framework for a broad spectrum of potential cooperative defense projects; and

(D) such cooperation does not limit the missile defense capabilities of the United States or its North Atlantic Treaty Organization allies.

SEC. 234. NEXT GENERATION EXO-ATMOSPHERIC KILL VEHICLE.

(a) PLAN FOR NEXT GENERATION KILL VEHICLE.—The Director of the Missile Defense Agency shall develop a long-term plan for the Exo-atmospheric Kill Vehicle (EKV) that addresses both modifications and enhancements to the current Exo-atmospheric Kill Vehicle and options for the competitive development of a next generation Exo-atmospheric Kill Vehicle for the Ground-Based Interceptor (GBI) of the Ground-based Mid-course Defense (GMD) system and any other interceptor that might be developed for the defense of the United States against long-range ballistic missiles.

(b) DEFINITION OF PARAMETERS AND CAPABILITIES.—

(1) ASSESSMENT REQUIRED.—The Director shall define the desired technical parameters and performance capabilities for a next generation Exo-atmospheric Kill Vehicle using an assessment conducted by the Director for that purpose that is designed to ensure that a next generation Exo-atmospheric Kill Vehicle design—

(A) enables ease of manufacturing, high tolerances to production processes and supply chain variability, and inherent reliability;

(B) will be optimized to take advantage of the Ballistic Missile Defense System architecture and sensor system capabilities;

(C) leverages all relevant kill vehicle development activities and technologies, including from the current Standard Missile-3 Block IIB (SM-3 IIB) program and the previous Multiple Kill Vehicle technology development program;

(D) seeks to maximize, to the greatest extent practicable, commonality between subsystems of a next generation Exo-atmospheric Kill Vehicle and other exo-atmospheric kill vehicle programs; and

(E) meets Department of Defense criteria, as established in the February 2010 Ballistic Missile Defense Review, for affordability, reliability, suitability, and operational effectiveness to defend against limited attacks from evolving and future threats from long-range missiles.

(2) EVALUATION OF PAYLOADS.—The assessment required by paragraph (1) shall include an evaluation of the potential benefits and drawbacks of options for both unitary and multiple Exo-atmospheric Kill Vehicle payloads.

(3) STANDARD MISSILE-3 BLOCK IIB INTERCEPTOR.—As part of the assessment required by paragraph (1), the Director shall evaluate whether there are potential options and opportunities arising from the Standard Missile-3 Block IIB interceptor development program for development of an exo-atmospheric kill vehicle, or kill vehicle technologies or components, that could be used for potential upgrades to the Ground-Based Interceptor or

for a next generation Exo-atmospheric Kill Vehicle.

(c) REPORT.—

(1) IN GENERAL.—Not later than one year after the date of the enactment of this Act, the Director shall submit to the congressional defense committees a report setting forth the plan developed under subsection (a), including the results of the assessment under subsection (b), and an estimate of the cost and schedule of implementing the plan.

(1) An assessment of the integrated air and missile defense capabilities required to meet the demands of evolving and emerging threats.

(2) A plan for the introduction of changes to the Patriot air and missile defense system program to achieve reductions in the life-cycle cost of the Patriot air and missile defense system.

SEC. 236. MEDIUM EXTENDED AIR DEFENSE SYSTEM.

None of the funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2013 for the Department of Defense may be obligated or expended for the Medium Extended Air Defense System (MEADS).

SEC. 237. AVAILABILITY OF FUNDS FOR IRON DOME SHORT-RANGE ROCKET DEFENSE PROGRAM.

Of the amounts authorized to be appropriated for fiscal year 2013 by section 201 for research, development, test, and evaluation, Defense-wide, and available for the Missile Defense Agency, \$210,000,000 may be provided to the Government of Israel for the Iron Dome short-range rocket defense program as specified in the funding table in section 4201.

SEC. 238. READINESS AND FLEXIBILITY OF INTERCONTINENTAL BALLISTIC MISSILE FORCE.

The Secretary of Defense may, in a manner consistent with the obligations of the United States under international agreements—

(1) retain intercontinental ballistic missile launch facilities currently supporting deployed strategic nuclear delivery vehicles within the limit of 800 deployed and non-deployed strategic launchers;

(2) maintain intercontinental ballistic missiles on alert or operationally deployed status; and

(3) preserve intercontinental ballistic missile silos in operational or warm status.

SEC. 239. SENSE OF CONGRESS ON THE SUBMITTAL TO CONGRESS OF THE HOMELAND DEFENSE HEDGING POLICY AND STRATEGY REPORT OF THE SECRETARY OF DEFENSE.

(a) FINDINGS.—Congress makes the following findings:

(1) Section 233 of the National Defense Authorization Act for Fiscal Year 2012 (Public Law 112-81; 125 Stat. 1340) requires a homeland defense hedging policy and strategy report from the Secretary of Defense.

(2) The report was required to be submitted not later than 75 days after the date of the enactment of the National Defense Authorization Act for Fiscal Year 2012, namely by March 16, 2012.

(3) The Secretary of Defense has not yet submitted the report as required.

(4) In March 2012, General Charles Jacoby, Jr., Commander of the United States Northern Command, the combatant command responsible for operation of the Ground-based Midcourse Defense system to defend the homeland against ballistic missile threats, testified before Congress that “I am confident in my ability to successfully defend the homeland from the current set of limited long-range ballistic missile threats”, and that “[a]gainst current threats from the Middle East, I am confident we are well postured”.

(5) Phase 4 of the European Phased Adaptive Approach (EPAA) is intended to augment the currently deployed homeland defense capability of the Ground-based Midcourse Defense system against a potential future Iranian long-range missile threat by deploying an additional layer of forward-deployed interceptors in Europe in the 2020 timeframe.

(6) The Director of National Intelligence, James Clapper, has testified to Congress that, although the intelligence community does “not know if Iran will eventually decide to build nuclear weapons”, it judges “that Iran would likely choose missile delivery as its preferred method of delivering a nuclear weapon”. He also testified that “Iran already has the largest inventory of ballistic missiles in the Middle East, and it is expanding the scale, reach, and sophistication of its ballistic missile forces, many of which are inherently capable of carrying a nuclear payload”.

(7) The 2012 Annual Report to Congress on the Military Power of Iran by the Department of Defense states that, in addition to increasing its missile inventories, “Iran has boosted the lethality and effectiveness of its existing missile systems with accuracy improvements and new submunitions payloads”, and that it continues to develop missiles that can strike Israel and Eastern Europe. It also states that “Iran has launched multistage space launch vehicles that could serve as a testbed for developing long-range ballistic missiles technologies”, and that “[w]ith sufficient foreign assistance, Iran may be technically capable of flight-testing an intercontinental ballistic missile by 2015”.

(8) Despite the failure of its April 2012 satellite launch attempt, North Korea warned the United States in October 2012 that the United States mainland is within range of its missiles.

(9) The threat of limited ballistic missile attack against the United States homeland from countries such as North Korea and Iran is increasing.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that—

(1) the homeland defense hedging policy and strategy report required by section 233 of the National Defense Authorization Act for Fiscal Year 2012 is necessary to inform Congress on options to protect the United States homeland against the evolving ballistic missile threat, including potential options prior to the deployment of Phase 4 of the European Phased Adaptive Approach to missile defense; and

(2) the Secretary of Defense should comply with the requirements of section 233 of the National Defense Authorization Act for Fiscal Year 2012 by submitting the homeland defense hedging policy and strategy report to Congress.

SEC. 868. SENSE OF SENATE ON THE CONTRIBUTIONS OF LATVIA AND OTHER NORTH ATLANTIC TREATY ORGANIZATION MEMBER NATIONS TO THE SUCCESS OF THE NORTHERN DISTRIBUTION NETWORK.

(a) **FINDINGS.**—The Senate makes the following findings:

(1) The remote and austere environments in which United States troops are required to operate as part of the International Security Assistance Force (ISAF) mission in Afghanistan have increased the need for reliable lines of supply in southwest Asia.

(2) The country of Afghanistan presents unique logistics challenges, which have precipitated the development of several redundant lines of supply.

(3) United States Transportation Command and the Defense Logistics Agency (DLA), in consultation with United States Embassy officials and other parties, have successfully established memoranda of understanding and other agreements with nations in and around southwest Asia to ensure the reliability of lines of supply to Afghanistan.

(4) The lines of supply through Pakistan have been repeatedly threatened by insta-

bility in that country. Airlifting goods to Afghanistan, while safer, is expensive.

(5) The Northern Distribution Network (NDN) was established in late 2008 to ensure that a safe and cost-effective line of supply is available for United States troops in Afghanistan.

(6) The two prongs of supply provided by the Northern Distribution Network ship non-lethal goods from the Baltic ports in the north and the Caucasuses in the west to southwest Asia and Afghanistan.

(7) The Northern Distribution Network has been successful and now handles more than 50 percent of cargo shipped to Afghanistan.

(8) North Atlantic Treaty Organization (NATO) member nations along the Northern Distribution Network routes have contributed significantly to the success of the Northern Distribution Network.

(9) The United States has strong economic ties to Northern Distribution Network nations that are members of the North Atlantic Treaty Organization, and these nations may be able to provide quality goods and services for near and long-term use by the Department of Defense.

(10) Since 2009 the port of Riga, on the Baltic Sea, has been a critical overland entry point for goods being shipped using the Northern Distribution Network. Latvia is a member of the North Atlantic Treaty Organization and has been an ally of the United States in the region for many years.

(11) In September 2010, the Defense Logistics Agency, the General Services Administration, and other parties hosted a local procurement conference in Riga, Latvia.

(12) One hundred nine Latvian vendors attended the September 2010 conference in Riga, and contracts with Latvian vendors have been entered into as a result.

(13) In May 2012, Latvia hosted an international workshop in Riga to examine ways of transforming the Northern Distribution Network from a route for the delivery of United States and other Allies’ non-lethal goods to Afghanistan into a commercial route that would support the economic growth of Afghanistan and the southwest Asia region.

(b) **SENSE OF SENATE.**—It is the sense of the Senate that—

(1) Latvia and other North Atlantic Treaty Organization member nations along the Northern Distribution Network routes are key economic and security partners of the United States and are to be commended for their contribution to ensuring United States and International Security Assistance Force troops have reliable lines of supply to achieve the mission in Afghanistan;

(2) when quality products at competitive prices are available, significant effort should be made to procure goods locally from Latvia and other North Atlantic Treaty Organization member nations along the Northern Distribution Network routes; and

(3) Latvia and other North Atlantic Treaty Organization member nations along the Northern Distribution Network routes remain allies of the United States in the region, and a mutually beneficial relationship should continue to be cultivated between the United States and Latvia and such other nations in the future.

(3) **ADDITIONAL ELEMENTS.**—In developing the plan required by paragraph (1), the Secretary shall also—

(A) identify targets for the number of personnel to be reassigned to tasks related to offensive cyber operations, and the rate at which such personnel shall be added to the workforce for such tasks; and

(B) identify targets for use of National Guard personnel to support cyber workforce rationalization and the actions taken under subsection (a).

(4) **SUBMITTAL TO CONGRESS.**—The Secretary shall submit the plan required by paragraph (1) to the congressional defense committees at the time of the submittal to Congress of the budget of the President for fiscal year 2014 pursuant to section 1105(a) of title 31, United States Code.

(a) **STRATEGY FOR ACQUISITION OF SYSTEM REQUIRED.**—The Chief Information Officer of the Department of Defense shall, in coordination with the Under Secretary of Defense for Acquisition, Technology, and Logistics, develop a strategy to acquire next-generation host-based cybersecurity tools and capabilities (in this section referred to as a “next-generation system”) for the Department of Defense.

(b) **ELEMENTS OF SYSTEM.**—It is the sense of Congress that any next-generation system acquired under the strategy required by subsection (a) should meet the following requirements:

(1) To overcome problems and limitations in current capabilities, the system should not rely on anti-virus or signature-based threat detection techniques that—

(A) cannot address new or rapidly morphing threats;

(B) consume substantial amounts of communications capacity to remain current with known threats and to report current status; or

(C) consume substantial amounts of resources to store rapidly growing threat libraries.

(2) The system should provide an open architecture-based framework for so-called “plug-and-play” integration of a variety of types of deployable tools in addition to cyber intrusion detection tools, including tools for—

(A) insider threat detection;

(B) continuous monitoring and configuration management;

(C) remediation following infections; and

(D) protection techniques that do not rely on detection of the attack, such as virtualization, and diversification of attack surfaces.

(3) The system should be designed for ease of deployment to potentially millions of host devices of tailored security solutions depending on need and risk, and to be compatible with cloud-based, thin-client, and virtualized environments as well as battlefield devices and weapons systems.

(c) **SUBMITTAL TO CONGRESS.**—The Chief Information Office shall submit to Congress a report setting forth the strategy required by subsection (a) together with the budget justification materials of the Department of Defense submitted to Congress with the budget of the President for fiscal year 2015 pursuant to section 1105(a) of title 31, United States Code.

(A) storing software code owned by the government, or to which it has use rights, together with all associated documentation and quality and security test results;

(B) minimizing duplicative investment in software code development infrastructure while promoting common, high-quality development practices and facilitating sharing of best practices; and

(C) promoting software re-use and competition for software capability insertion, upgrades, and maintenance;

(2) establish rules and procedures for depositors in the repositories and environments provided for under paragraph (1) to keep the software code base current, if the depositors are not already using such a repository or environment for software development and life-cycle management; and

(3) ensure that the repositories and environments provided for under paragraph (1) provide automated tools for software reverse engineering, functionality analysis, and static and dynamic vulnerability analysis of source code and binary code in order to enable users to search for software relevant to their requirements, understand what the code does and how it functions, and assess its quality and security.

(B) conduct a business case analysis of each data link system contained in the inventory under subparagraph (A) to determine whether—

(i) the maintenance, upgrade, new deployment, or replacement of such system should be open to competition; or

(ii) the data link should be converted to an open architecture, or a different data link standard should be adopted to enable such competition;

(C) for each data link system for which competition is determined advisable under clause (i) or (ii) of subparagraph (B), develop a plan (with specific objectives, actions, and schedules) to achieve such competition, including a plan to address any policy, legal, programmatic, or technical barriers to such competition; and

(D) for each data link system for which competition is determined not advisable under subparagraph (B), prepare a justification for the determination that it is not practical to conduct such competition or to convert the data link standard to open architecture or adopt a different data link standard for which competition is feasible.

(2) ELEMENT OF BUSINESS CASE ANALYSES.—In conducting a business case analysis for purposes of paragraph (1)(B), the Under Secretary shall solicit the views of industry on the merits and feasibility of introducing competition for the maintenance, upgrade, new deployment, or replacement for the data link system in question.

(a) IN GENERAL.—Notwithstanding section 2401 of title 10, United States Code, the Secretary of the Air Force may extend or renew the lease of aircraft supporting the Blue Devil intelligence, surveillance, and reconnaissance program after the date of the expiration of the current lease of such aircraft for a term that is the shorter of—

(1) the period beginning on the date of the expiration of the current lease and ending on the date on which the Commander of the United States Central Command notifies the

Secretary that a substitute is available for the capabilities provided by the lease, or that the capabilities provided by such aircraft are no longer required; or

SEC. 934. SENSE OF SENATE ON POTENTIAL SECURITY RISKS TO DEPARTMENT OF DEFENSE NETWORKS.

(a) **FINDINGS.**—The Senate makes the following findings:

(1) Cybersecurity threats are pervasive and serious, including through the supply chain of information technology equipment and software.

(2) Semiconductor manufacturing is already dominated by foreign producers, presenting supply chain risk management challenges.

(3) In a number of instances, foreign manufacturers of telecommunications equipment, including advanced wireless technology, are gaining global market share due to high quality and low prices. Competitive market forces ensure that commercial providers of consumer, business, and government systems and services will choose equipment and associated software from these manufacturers. In some cases, like Huawei Industries, this competitive position stems in part from inappropriate government subsidies and other forms of assistance.

(4) Some of these companies also present clear cybersecurity supply chain risks that the Government must address.

(5) The Committee on Foreign Investment in the United States has blocked the attempt by Huawei to acquire United States technology firms on two occasions and the National Security Agency and the Secretary of Commerce have advised two major United States telecommunications carriers against selecting Huawei as a supplier.

(6) The Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383) provided authority and mechanisms for the Secretary of Defense to control these supply chain risks, but only for National Security Systems, leaving many information technology systems and missions exposed to supply chain risks.

(7) Blocking sales from providers of information technology systems and services due to concerns about cybersecurity risks, while maintaining our commitment to free trade and fair and transparent competition, poses difficult policy challenges.

(b) **SENSE OF SENATE.**—It is the sense of the Senate that the Department of Defense—

(1) must ensure it maintains full visibility and adequate control of its supply chain, including subcontractors, in order to mitigate supply chain exploitation; and

(2) needs the authority and capability to mitigate supply chain risks to its information technology systems that fall outside the scope of National Security Systems.

SEC. 935. SENSE OF CONGRESS ON THE UNITED STATES CYBER COMMAND.

(a) **FINDINGS.**—Congress makes the following findings:

(1) On June 23, 2009, the Secretary of Defense directed the Commander of the United States Strategic Command to establish the United States Cyber Command, which became operational on May 21, 2010, and operates as a sub-unified command subordinate to the United States Strategic Command.

(2) In May 2012, media reports indicated that General Martin Dempsey, the Chairman of the Joint Chiefs of Staff, planned to rec-

ommend to Secretary of Defense Leon Panetta that the two-year-old United States Cyber Command be elevated to full combatant command status.

(3) On August 14, 2012, General Keith Alexander, the Commander of the United States Cyber Command and the Director of the National Security Agency, addressed the TechNet Land Forces conference and stated that “[i]n 2007 we drafted . . . a paper . . . about establishing a Cyber Command . . . [which concluded that] . . . the most logical is to set it up as a sub unified and grow it to a unified, and I think that’s the process that we’re going to work our way through”.

(4) On October 11, 2012, Secretary of Defense Leon Panetta discussed cybersecurity in a speech to the Business Executives for National Security in New York, New York, specifically calling for a strengthening of the United States Cyber Command and stating that the Department of Defense “must ensure that [the United States Cyber Command] has the resources, that it has the authorities, that it has the capabilities required to perform this growing mission. And it must also be able to react quickly to events unfolding in cyberspace and help fully integrate cyber into all of the department’s plans and activities.”.

(b) **SENSE OF CONGRESS.**—Congress—

(1) recognizes the serious cyber threat to national security and the need to work both offensively and defensively to protect the Nation’s networks and critical infrastructure;

(2) acknowledges the importance of the unified command structure of the Department in directing military operations in cyberspace and recognizes that a change in the status of the United States Cyber Command has Department-wide and national security implications, which require careful consideration;

(3) expects to be briefed and consulted about any proposal to elevate the United States Cyber Command to a unified command before a decision by the Secretary make such a proposal to the President and to receive, at a minimum—

(A) a clear statement of mission and related legal definitions;

(B) an outline of the specific national security benefits of elevating the sub-unified United States Cyber Command to a unified command;

(C) an estimate of the cost of creating a unified United States Cyber Command and a justification of the expenditure; and

(D) if the Secretary considers it advisable to continue the designation of the Commander of the United States Cyber Command as also being the Director of the National Security Agency—

(i) an explanation of how a single individual could serve as a commander of a combatant command that conducts overt, albeit clandestine, cyber operations under title 10, United States Code, as well as the director of an intelligence agency that conducts covert cyber operations under the National Security Act of 1947 (50 U.S.C. 401 et seq.) in a manner that affords deniability to the United States; and

(ii) a statement of whether the Secretary believes it is appropriate either to appoint a line officer as the Director of the National Security Agency or to take the unprecedented step of appointing an intelligence officer as a unified commander; and

(4) believes that appropriate policy foundations and standing rules of engagement must be in place before any decision to create a unified United States Cyber Command.

SEC. 936. REPORTS TO DEPARTMENT OF DEFENSE ON PENETRATIONS OF NETWORKS AND INFORMATION SYSTEMS OF CERTAIN CONTRACTORS.

(a) **PROCESS FOR REPORTING PENETRATIONS.**—The Under Secretary of Defense for Intelligence shall, in coordination with the officials specified in subsection (c), establish a process by which cleared defense contractors shall report to elements of the Department of Defense designated by the Under Secretary for purposes of the process when a network or information system of such contractors designated pursuant to subsection (b) is successfully penetrated.

(b) **DESIGNATION OF NETWORKS AND INFORMATION SYSTEMS.**—The Under Secretary of Defense for Intelligence shall, in coordination with the officials specified in subsection (c), establish criteria for designating the cleared defense contractors’ networks or information systems that contain or process information created by or for the Department of Defense to be subject to the reporting process established pursuant to subsection (a).

(c) **OFFICIALS.**—The officials specified in this subsection are the following:

(1) The Under Secretary of Defense for Policy.

(2) The Under Secretary of Defense for Acquisition, Technology, and Logistics.

(3) The Chief Information Officer of the Department of Defense.

(4) The Commander of the United States Cyber Command.

(d) **PROCESS REQUIREMENTS.**—

(1) **RAPID REPORTING.**—The process required by subsection (a) shall provide for rapid reporting by contractors of successful penetrations of designated network or information systems.

(2) **REPORT ELEMENTS.**—The report by a contractor on a successful penetration of a designated network or information system under the process shall include the following:

(A) A description of the technique or method used in the penetration.

(B) A sample of the malicious software, if discovered and isolated by the contractor.

(3) **ACCESS.**—The process shall include mechanisms by which Department of Defense personnel may, upon request, obtain access to equipment or information of a contractor necessary to conduct a forensic analysis to determine whether information created by or for the Department in connection with any Department program was successfully exfiltrated from a network or information system of the contractor and, if so, what information was exfiltrated.

(4) **LIMITATION ON DISSEMINATION OF CERTAIN INFORMATION.**—The process shall prohibit the dissemination outside the Department of Defense of information obtained or derived through the process that is not created by or for the Department except with the approval of the contractor providing such information.

(e) **CLEARED DEFENSE CONTRACTOR DEFINED.**—In this section, the term “cleared defense contractor” means a private entity granted clearance by the Defense Security Service to receive and store classified information for the purpose of bidding for a contract or conducting activities under a contract with the Department of Defense.

SEC. 1003. AUDIT READINESS OF DEPARTMENT OF DEFENSE STATEMENTS OF BUDGETARY RESOURCES.

(a) OBJECTIVE.—Section 1003(a)(2)(A)(ii) of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84; 123 Stat. 2439; 10 U.S.C. 2222 note) is amended by inserting “, and the statement of budgetary resources of the Department of Defense is validated as ready for audit by not later than September 30, 2014” after “September 30, 2017”.

(b) AFFORDABLE AND SUSTAINABLE APPROACH.—

(1) IN GENERAL.—The Chief Management Officer of the Department of Defense and the Chief Management Officers of each of the military departments shall ensure that plans to achieve an auditable statement of budgetary resources of the Department of Defense by September 30, 2014, include appropriate steps to minimize one-time fixes and manual work-arounds, are sustainable and affordable, and will not delay full auditability of financial statements.

SEC. 1004. REPORT ON EFFECTS OF BUDGET SEQUESTRATION ON THE DEPARTMENT OF DEFENSE.

(a) FINDINGS.—Congress makes the following findings:

(1) The inability of the Joint Select Committee on Deficit Reduction to find \$1,200,000,000 in savings will trigger automatic funding reductions known as “sequestration” to the Department of Defense of \$492,000,000 between 2013 and 2021 under section 251A of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 USC 901a).

(2) These reductions are in addition to reductions of \$487,000,000 already being implemented by the Department of Defense, and would decrease the readiness and capabilities of the Armed Forces while increasing risks to the effective implementation of the National Security Strategy of the United States.

(3) The leaders of the Department of Defense have consistently testified that threats to the national security of the United States have increased, not decreased. Secretary of Defense Leon Panetta said that these reductions would “inflict severe damage to our national defense for generations”, comments that have been echoed by the Secretaries of the Army, Navy, and Air Force.

(4) While reductions in funds available for the Department of Defense will automatically commence January 2, 2013, uncertainty regarding the reductions has already exacerbated Department of Defense efforts to plan future defense budget.

(5) Sequestration will have a detrimental effect on the industrial base that supports the Department of Defense.

(b) REPORT.—

(1) IN GENERAL.—Not later than August 15, 2012, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a detailed report on the impact on the Department of Defense of the sequestration of funds authorized and appropriated for fiscal year 2013 for the Department of Defense, if automatically triggered on January 2, 2013, under section 251A of the Balanced Budget and Emergency Deficit Control Act of 1985.

(2) ELEMENTS.—The report required by paragraph (1) shall include the following:

(A) An assessment of the potential impact of sequestration on the readiness of the Armed Forces, including impacts to steaming hours, flying hours, and full spectrum training miles, and an estimate of the increase or decrease in readiness (as defined in the C status C-1 through C-5).

(B) An assessment of the potential impact of sequestration on the ability of the Department of Defense to carry out the National Military Strategy of the United States, and any changes to the most recent Risk Assessment of the Chairman of the Joint Chiefs of Staff under section 153(b) of title 10, United States Code arising from sequestration.

(C) A list of the programs, projects, and activities across the Department of Defense, the military departments, and the elements and components of the Department of Defense that would be reduced or terminated as a result of sequestration.

(D) An estimate of the number and value of all contracts that will be terminated, restructured, or revised in scope as a result of sequestration, including an estimate of potential termination costs and of increased contract costs due to renegotiation and reinstatement of contracts.

(3) ASSUMPTIONS.—The report required by paragraph (1) shall assume the following:

(A) Except as provided in subparagraph (B), the funds subject to sequester are the funds in all 050 accounts, including all unobligated balances.

(B) The funds exempt from the sequester are the following:

(i) Funds in accounts for military personnel.

(ii) Funds in accounts for overseas contingency operations.

(4) PRESENTATION OF CERTAIN INFORMATION.—In listing programs, projects, and activities under paragraph (2)(C), the report required by paragraph (1) shall set forth for each the following:

(A) The most specific level of budget item identified in applicable appropriations Acts.

(B) Related classified annexes and explanatory statements.

(C) Department of Defense budget justification documents DOD P-1 and R-1 as subsequently modified by congressional action, and as submitted by the Department of Defense together with the budget materials for the budget of the President for fiscal year 2013 (as submitted to Congress pursuant to section 1105(a) of title 31, United States Code).

(d) CONSTRUCTION OF AUTHORITY.—The transfer authority in this section is in addition to any other transfer authority provided in this Act.

Subtitle G—Nuclear Matters

SEC. 1071. STRATEGIC DELIVERY SYSTEMS.

(a) FINDINGS.—Congress makes the following findings:

(1) The Nuclear Posture Review of 2010 said, with respect to modernizing the triad, “for planned reductions under New START, the United States should retain a smaller Triad of SLBMs, ICBMs, and heavy bombers. Retaining all three Triad legs will best maintain strategic stability at reasonable cost, while hedging against potential technical problems or vulnerabilities”.

(2) The Senate stated in Declaration 12 of the Resolution of Advice and Consent to Ratification of the New START Treaty that “In accordance with paragraph 1 of Article V of the New START Treaty, which states that, ‘Subject to the provisions of this Treaty, modernization and replacement of strategic offensive arms may be carried out,’ it is the sense of the Senate that United States deterrence and flexibility is assured by a robust triad of strategic delivery vehicles. To this end, the United States is committed to accomplishing the modernization and replacement of its strategic nuclear delivery vehicles, and to ensuring the continued flexibility of United States conventional and nuclear delivery systems”.

(3) The Senate required the President, prior to the entry into force of the New START Treaty, to certify to the Senate that the President intended to modernize or replace the triad of strategic nuclear delivery systems.

(4) The President made this certification in a message to the Senate on February 2, 2011, in which the President stated, “I intend to (a) modernize or replace the triad of strategic nuclear delivery systems: a heavy bomber and air-launched cruise missile, an ICBM, and a nuclear-powered ballistic missile submarine (SSBN) and SLBM; and (b) maintain the United States rocket motor industrial base”.

(b) REQUIREMENTS.—

(1) IN GENERAL.—Chapter 23 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 491. Strategic delivery systems

“(a) ANNUAL CERTIFICATION.—Beginning in fiscal year 2013, the President shall annually certify in writing to the congressional defense committees whether plans to modernize or replace strategic delivery systems are fully funded at levels equal to or more than the levels set forth in the November 2010 update to the plan referred to in section 1251 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111–84; 123 Stat. 2549), including plans regarding—

“(1) a heavy bomber and air-launched cruise missile;

“(2) an intercontinental ballistic missile;

“(3) a submarine-launched ballistic missile;

“(b) ADDITIONAL REPORT MATTERS FOLLOWING CERTAIN CERTIFICATIONS.—If the President certifies under subsection (a) that plans to modernize or replace strategic delivery systems are not fully funded, the President shall include in the next annual report submitted to Congress under section 1043 of the National Defense Authorization Act for Fiscal Year 2012 the following:

“(1) A determination whether or not the lack of full funding will result in a loss of military capability when compared with the November 2010 update to the plan referred to in section 1251 of the National Defense Authorization Act for Fiscal Year 2010.

“(2) If the determination under paragraph (1) is that the lack of full funding will result in a loss of military capability—

“(A) a plan to preserve or retain the military capability that would otherwise be lost; or

“(B) a report setting forth—

“(i) an assessment of the impact of the lack of full funding on the strategic delivery systems specified in subsection (a); and

“(ii) a description of the funding required to restore or maintain the capability.

“(3) A certification by the President whether or not the President is committed to accomplishing the modernization and replacement of strategic delivery systems and will meet the obligations concerning nuclear modernization as set forth in declaration 12 of the Resolution of Advice and Consent to Ratification of the New START Treaty.

“(c) TREATMENT OF CERTAIN REDUCTIONS.—Any certification under subsection (a) shall not take into account the following:

“(1) Reductions made to ensure the safety, security, reliability, and credibility of the nuclear weapons stockpile and strategic delivery systems, including activities related to surveillance, assessment, certification, testing, and maintenance of nuclear warheads and delivery systems.

“(2) Strategic delivery systems that are retired or awaiting dismantlement on the date of the certification under subsection (a).

“(d) DEFINITIONS.—In this section:

SEC. 1083. SENSE OF CONGRESS ON NON-UNITED STATES CITIZENS WHO ARE GRADUATES OF UNITED STATES EDUCATIONAL INSTITUTIONS WITH ADVANCED DEGREES IN SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS.

(a) FINDINGS.—Congress makes the following findings:

(1) It is a national security concern that more than half of all graduates with advanced scientific and technical degrees from United States institutions of higher education are non-United States citizens who have very limited opportunities upon graduation to contribute to the science and technology activities of the Department of Defense and the United States defense industrial base.

(2) The capabilities of the Armed Forces are highly reliant upon advanced technologies that provide our forces with a technological edge on the battlefield.

(3) In order to maintain and advance our military technological superiority, the United States requires the best and brightest scientists, mathematicians, and engineers to discover, develop, and field the next generation of weapon systems and defense technologies.

(4) The Department of Defense and the defense industrial base compete with other sectors for a limited number of United States citizens who have appropriate advanced degrees and skills.

(5) While an overarching national priority is to increase the numbers of United States citizens who have appropriate advanced degrees in science, technology, engineering, and mathematics (STEM), it would be beneficial if the Department of Defense and the defense industrial base were able to access the pool of talent of non-United States citizens with advanced scientific and technical degrees from United States institutions of higher education, many of whom are otherwise returning to their home countries.

(b) SENSE OF CONGRESS.—It is the sense of Congress—

(1) that the Department of Defense should make every reasonable and practical effort to increase the number of United States citizens who pursue advanced degrees in science, technology, engineering, and mathematics; and

(2) to strongly urge the Department of Defense to investigate innovative mechanisms (subject to all appropriate security requirements) to access to the pool of talent of non-United States citizens with advanced scientific and technical degrees from United States institutions of higher education, espe-

cially in those scientific and technical areas that are most vital to the national defense (such as those identified by the Assistant Secretary of Defense for Research and Engineering and the Armed Forces).

SEC. 1084. SENSE OF SENATE ON THE MAINTENANCE BY THE UNITED STATES OF A TRIAD OF STRATEGIC NUCLEAR DELIVERY SYSTEMS.

(a) FINDINGS.—The Senate finds the following:

(1) The April 2010 Nuclear Posture Review concluded that even with the reductions specified in the New START Treaty, the United States should retain a nuclear “Triad” of land-based intercontinental ballistic missiles, submarine-launched ballistic missiles and nuclear capable heavy bombers, noting that “[r]etaining all three Triad legs will best maintain strategic stability at reasonable cost, while hedging against potential technical problems or vulnerabilities”.

(2) The resolution of ratification for the New START Treaty, which the Senate approved on December 22, 2010, stated that “it is the sense of the Senate that United States deterrence and flexibility is assured by a robust triad of strategic delivery vehicles. To this end, the United States is committed to accomplishing the modernization and replacement of its strategic nuclear delivery vehicles, and to ensuring the continued flexibility of United States conventional and nuclear delivery systems”.

(3) In a message to the Senate on February 2, 2011, President Obama certified that he intended to “modernize or replace the triad of strategic nuclear delivery systems: a heavy bomber and air-launched cruise missile, an ICBM, and a nuclear-powered ballistic missile submarine (SSBN) and SLBM” and to “maintain the United States rocket motor industrial base”.

(b) SENSE OF SENATE.—It is the sense of the Senate that—

(1) the United States should maintain a triad of strategic nuclear delivery systems; and

(2) the United States is committed to modernizing the component weapons and delivery systems of that triad.

SEC. 1085. PLAN TO PARTNER WITH STATE AND LOCAL ENTITIES TO ADDRESS VETERANS CLAIMS BACKLOG.

(a) FINDINGS.—Congress makes the following findings:

(1) The Department of Veterans Affairs defines any claim for benefits under laws administered by the Secretary of Veterans Affairs as backlogged if the claim has been pending for 125 days or more.

(2) According to the Department, as of November 24, 2012, there were 899,540 pending claims, with 604,583 (67.2 percent) of those considered backlogged.

(3) The Department’s data further shows that, on November 22, 2010, there were 749,934 claims pending, with only 244,129 (32.6 percent) of those considered backlogged.

(4) During the past two years, both the overall number of backlogged claims and the percentage of all pending claims that are backlogged have doubled.

(5) In order to reduce the claims backlog at regional offices of the Department of Veterans Affairs located in Texas, the Texas Veterans Commission announced two initiatives on July 19, 2012, to partner with the Department of Veterans Affairs—

(A) to assist veterans whose claims are already backlogged to complete development of those claims; and

(B) to help veterans who are filing new claims to fully develop those claims prior to filing them, shortening the processing time required.

(6) The common goal of the two initiatives of the Texas Veterans Commission, called

the “Texas State Strike Force Team” and the “Fully Developed Claims Team Initiative”, is to reduce the backlog of claims pending in Texas by 17,000 within one year.

(7) During the first two months of these new initiatives, the Texas Veterans Commission helped veterans complete development of more than 2,500 backlogged claims and assisted veterans with the submission of more than 800 fully developed claims.

(8) In testimony before the Subcommittee on Disability Assistance and Memorial Affairs of the Committee on Veterans’ Affairs of the House of Representatives on September 21, 2012, Diana Rubens, Deputy Under Secretary for Field Operations of the Veterans Benefits Administration, indicated that the Department of Veterans Affairs has experienced positive outcomes in projects with the Texas Veterans Commission, stating that both Veterans Service Organizations “and state and county service officers . . . are important partners in VBA’s transformation to better serve Veterans.”.

(9) At the same hearing, Mr. John Limpose, director of the regional office of the Department of Veterans Affairs in Waco, Texas, testified that the “TVC is working very, very well” with regional offices of the Department in Texas, calling the Texas Veterans Commission a “very positive story that we can branch out into . . . all of our stakeholders.”.

(b) REPORT.—

(1) IN GENERAL.—Not later than 60 days after the date of the enactment of this Act, the Secretary of Veterans Affairs shall submit to Congress a plan to reduce the current backlog of pending claims for benefits under laws administered by the Secretary and more efficiently process claims for such benefits in the future.

(2) CONTENTS.—The report required by paragraph (1) shall include the following:

(A) A summary of all steps the Secretary has taken thus far to partner with non-Federal entities in support of efforts to reduce the backlog described in paragraph (1) and more efficiently process claims described in such paragraph in the future, including two previous initiatives by the Texas Veterans Commission, namely the 2008–2009 Development Assistant Pilot Project and the 2009–2011 Claims Processing Assistance Team.

(B) A plan for the Secretary to partner with non-Federal entities to support efforts to reduce such backlog and more efficiently process such claims in the future, including the following:

(i) State and local agencies relating to veterans affairs.

(ii) Organizations recognized by the Secretary for the representation of veterans under section 5902 of title 38, United States Code.

(iii) Such other relevant government and non-government entities as the Secretary considers appropriate.

(C) A description of how the Secretary intends to leverage partnerships with non-Federal entities described in subparagraph (B) to eliminate such backlog, including through increasing the percentage of claims that are fully developed prior to submittal to the Secretary and ensuring that new claims are fully developed prior to their submittal.

(D) A description of what steps the Secretary has taken and will take—

(i) to expedite the processing of claims that are already fully developed at the time of submittal; and

(ii) to support initiatives by non-Federal entities described in subparagraph (B) to help claimants gather and submit necessary evidence for claims that were previously filed but require further development.

(E) A description of how partnerships with non-Federal entities described in subparagraph (B) will fit into the Secretary's overall claims processing transformation plan.

It is the sense of the Senate that—

(1) Department of Defense airfields, training airspace, and air training routes are national treasures that must be protected from encroachment;

(2) placement or emplacement of obstructions near or on Department of Defense airfields, training airspace, or air training routes has the potential of increasing risk to military aircraft and personnel as well as impacting training and readiness; and

(3) the Department of Defense should develop comprehensive rules and regulations to address construction and use of land in close proximity to Department of Defense airfields, training areas, or air training routes to ensure compatibility with military aircraft operations.

SEC. 1249. PLAN FOR PROMOTING THE SECURITY OF AFGHAN WOMEN AND GIRLS DURING THE SECURITY TRANSITION PROCESS.

(a) FINDINGS.—Congress makes the following findings:

(1) According to the Department of Defense’s April 2012 Report on Progress Toward Security and Stability in Afghanistan:

(A) “U.S. and coalition forces will continue to degrade the Taliban-led insurgency in order to provide time and space to increase the capacity of the Afghan National Security Forces and the Afghan Government so they can assume full responsibility for Afghanistan’s security by the end of 2014.”

(B) “Transition to Afghan security lead began in July 2011 and transition to full Afghan security responsibility will be complete country-wide by the end of 2014.”

(C) “The security of the Afghan people and the stability of the government are used to judge provincial readiness to move to each successive stage of transition implementation.”

(D) For each area designated for transition, a transition implementation plan is developed by the Government of Afghanistan, NATO, and ISAF and approved by the Joint Afghan-NATO Inteqal Board (JANIB). JANIB is also responsible for recommending areas to enter and exit the transition process.

(2) According to a 2002 study on Women, Peace and Security submitted by the Secretary-General of the United Nations pursuant to Security Council resolution 1325 (2000), “the suspension of or restriction on women’s enjoyment of their human rights” can act as an early-warning indicator of impending or renewed conflict. In Afghanistan, restrictions on women’s mobility and rights can signal the presence of extremist or insurgent elements in a community.

(3) The security of Afghan women and girls in areas undergoing security transitions will be an important gauge of the transition strategy’s success. Indicators by which to measure women’s security include the mobility of women and girls, the participation of women in local government bodies, the rate of school attendance for girls, women’s access to government services, and the prevalence of violence against women.

(4) Maintaining and improving physical security for Afghan women and girls throughout the country is critical in order for women and girls to take advantage of opportunities in education, commerce, politics, and other areas of public life, which in turn is essential for the future stability and prosperity of Afghanistan.

(5) Women who serve as public officials at all levels of the Government of Afghanistan face serious threats to their personal security and that of their families. Many female officials have been the victims of violent crimes, but they are generally not afforded official protection by the Government of Afghanistan or security forces.

(6) Protecting the security and human rights of Afghan women and girls requires the involvement of Afghan men and boys through education about the important benefits of women’s full participation in social, economic, and political life. Male officials and security personnel can play a particularly important role in supporting and protecting women and girls.

(7) The Chicago Summit Declaration issued by NATO in May 2012 states: “As the Afghan National Police further develop and professionalize, they will evolve towards a sustainable, credible, and accountable civilian law enforcement force that will shoulder the main responsibility for domestic security. This force should be capable of providing policing services to the Afghan population as part of the broader Afghan rule of law system.”

(8) Women face significant barriers to full participation in the ANA and ANP, including a discriminatory or hostile work environment and the lack of separate facilities designed for female personnel.

(9) As of September 2012, female recruitment and retention rates for the Afghan National Security Forces are far below published targets, as follows:

(A) Approximately 1,700 women serve in the Afghan National Security Forces, or less than half of one percent of the total force.

(B) In 2010, President Hamid Karzai announced plans to recruit and train 5,000 women in the Afghan National Police, or approximately 3 percent of the force, by 2014. Currently, there are approximately 1,370 women in the ANP, or 0.87 percent of the police force.

(C) Approximately 350 women currently serve in the Afghan National Army, representing only 0.17 percent of the force. The Government of Afghanistan has said that its goal is to achieve a force that is 10 percent female. As of May 2012, approximately 3 percent of new ANA recruits were women.

(10) Male security personnel often do not respond to threats or incidences of violence against women, particularly at the local level. They largely lack the training and understanding needed to respond appropriately and effectively to situations involving women. According to the Department of Defense’s April 2012 Report on Progress Toward Security and Stability in Afghanistan:

(A) The Afghan Ministry of Defense “lacks the combination of policies, procedures, and execution to promote opportunity and fair and respectful treatment of women in the force”.

(B) The Afghan Ministry of Interior “faces significant challenges in fully integrating

and protecting women in the ANP workforce, especially among operational units at the provincial and district levels”.

(C) In the Afghan National Police, “Many Provincial Headquarters Commanders do not accept policewomen, as they prefer male candidates and lack adequate facilities to support females.”

(D) “While women are greatly needed to support police operations, a combination of cultural impediments, weak recruitment, and uneven application of policies hinder significant progress.”

(E) “Although stronger documentation, implementation, and enforcement of policies, procedures, and guidance to better integrate women will help, time will be needed to change the cultural mores that form the basis of many of the current impediments.”

(11) The United States, the North American Treaty Organization, and United States coalition partners have made firm commitments to support the human rights of the women and girls of Afghanistan, as evidenced by the following actions:

(A) According to the United States National Action Plan on Women, Peace and Security, “integrating women and gender considerations into peace-building processes helps promote democratic governance and long-term stability,” which are key United States strategic goals in Afghanistan.

(B) The National Action Plan also states that “the engagement and protection of women as agents of peace and stability will be central to United States efforts to promote security, prevent, respond to, and resolve conflict, and rebuild societies.” This policy applies to United States Government efforts in Afghanistan, where addressing the security vulnerabilities of Afghan women and girls during the period of security transition is an essential step toward long-term stability.

(C) The Chicago Summit Declaration issued by NATO in May 2012 states: “We emphasize the importance of full participation of all Afghan women in the reconstruction, political, peace and reconciliation processes in Afghanistan and the need to respect the institutional arrangements protecting their rights. We remain committed to the implementation of United Nations Security Council Resolution (UNSCR) 1325 on women, peace and security. We recognize also the need for the protection of children from the damaging effects of armed conflict as required in relevant UNSCRs.”

(12) The Strategic Partnership Agreement signed between the United States and Afghanistan by President Obama and President Karzai in June 2012 states, “Consistent with its Constitution and international obligations, Afghanistan shall ensure and advance the essential role of women in society, so that they may fully enjoy their economic, social, political, civil and cultural rights.”

(b) PLAN TO PROMOTE SECURITY OF AFGHAN WOMEN.—

(1) IN GENERAL.—Not later than 120 days after the date of the enactment of this Act, the Secretary of Defense, in concurrence with the Secretary of State, shall submit to the appropriate congressional committees a plan to promote the security of Afghan women during the security transition process.

(2) ELEMENTS.—The plan required under paragraph (1) shall include the following elements:

(A) A plan to monitor and respond to changes in women’s security conditions in areas undergoing transition, including the following actions:

(i) Seeking to designate a Civilian Impact Advisor on the Joint Afghan-NATO Inteqal

Board (JANIB) to assess the impact of transition on male and female civilians and ensure that efforts to protect women's rights and security are included in each area's transition implementation plan.

(i) Reviewing existing indicators against which sex-disaggregated data is collected and, if necessary, developing additional indicators, to ensure the availability of data that can be used to measure women's security, such as—

- (I) the mobility of women and girls;
- (II) the participation of women in local government bodies;
- (III) the rate of school attendance for girls;
- (IV) women's access to government services; and
- (V) the prevalence of violence against women; and incorporating those indicators into ongoing efforts to assess overall security conditions during the transition period.

(ii) Integrating assessments of women's security into current procedures used to determine an area's readiness to proceed through the transition process.

(iv) Working with Afghan partners, coalition partners, and relevant United States Government departments and agencies to take concrete action to support women's rights and security in cases of deterioration in women's security conditions during the transition period.

(B) A plan to increase gender awareness and responsiveness among Afghan National Army and Afghan National Police personnel, including the following actions:

(i) Working with Afghan and coalition partners to utilize training curricula and programming that addresses the human rights of women and girls, appropriate responses to threats against women and girls, and appropriate behavior toward female colleagues and members of the community; assessing the quality and consistency of this training across regional commands; and assessing the impact of this training on trainee behavior.

(ii) Working with national and local ANA and ANP leaders to develop and utilize enforcement and accountability mechanisms for ANA and ANP personnel who violate codes of conduct related to the human rights of women and girls.

(iii) Working with Afghan and coalition partners to implement the above tools and develop uniform methods and standards for training and enforcement among coalition partners and across regions.

(C) A plan to increase the number of female members of the ANA and ANP, including the following actions:

(i) Providing, through consultation with Afghan partners, realistic and achievable objectives for the recruitment and retention of women to the ANA and ANP by the end of the security transition period in 2014.

(ii) Working with national and local ANA and ANP leaders and coalition partners to address physical and cultural challenges to the recruitment and retention of female ANA and ANP personnel, including through targeted recruitment campaigns, expanded training and mentorship opportunities, parity in pay and promotion rates with male counterparts, and availability of facilities for female personnel.

(iii) Working with national and local ANA and ANP leaders to increase understanding about the unique ways in which women members of the security forces improve the force's overall effectiveness.

(iv) Working with national and local ANA and ANP leaders to develop a plan for maintaining and increasing the recruitment and retention of women in the ANA and ANP following the completion of the security transition.

(3) REPORT.—The Secretary of Defense shall include in each report on progress toward security and stability in Afghanistan that is submitted to Congress under sections 1230 and 1231 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181; 122 Stat. 385, 390) a section describing actions taken to implement the plan required under this subsection.

(c) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this section, the term "appropriate congressional committees" means—

(1) the Committee on Armed Services and the Committee on Foreign Relations of the Senate; and

(2) the Committee on Armed Services and the Committee on Foreign Affairs of the House of Representatives.

SEC. 1250. SENSE OF CONGRESS ON THE ISRAELI IRON DOME DEFENSIVE WEAPON SYSTEM.

(a) FINDINGS.—Congress makes the following findings:

(1) The citizens of Israel have suffered under a continual barrage of missiles, rockets, and mortar shells from the Hamas-controlled Gaza Strip.

(2) Hamas has been designated by the Secretary of State as a Foreign Terrorist Organization.

(3) Hamas and other terrorist groups in Gaza have routinely used human shields and launched rockets from civilian areas.

(4) Israel has gone to extraordinary lengths to avoid Palestinian civilian casualties, including aborting attacks on military targets because of the presence of civilians, alerting civilians to leave areas of potential conflict, and allowing the importation of medical and other supplies into Gaza.

(5) Israel faces additional rocket and missile threats from Lebanon and Syria.

(6) The Government of Iran has supplied Hamas with advanced longer range missiles such as the Fajar-5.

(7) Hamas has deployed these weapons to be fired from within their own civilian population.

(8) The Government of Israel, taking seriously the threat of short range rockets and mortars, designed, developed, and produced the Iron Dome system to address those threats.

(9) The Iron Dome system has successfully intercepted hundreds of rockets targeting population centers in Israel.

(10) The Iron Dome system has maintained a success rate of close to 90 percent.

(11) The Government of Israel currently maintains 5 Iron Dome batteries, a number insufficient to protect all of Israel.

(12) It appears that approximately 10 additional Iron Dome batteries are needed to protect all of Israel.

(13) The United States Government, recognizing the threat to Israeli citizens and desirous of promoting peace, approved funding to assist the Government of Israel in procuring Iron Dome batteries.

(14) Israel maintains a significant inventory of Iron Dome interceptors which has been reduced due to attacks from Gaza.

(15) Israel used a significant number of precision-guided munitions in order to destroy military targets while minimizing civilian casualties in its recent defensive effort in Gaza.

(16) President Barack Obama has expressed his intention to seek additional funding for Iron Dome and other United States-Israel missile defense systems.

(b) SENSE OF CONGRESS.—Congress—

(1) reaffirms its commitment to the security of our ally and strategic partner, Israel;

(2) fully supports Israel's right to defend itself against acts of terrorism;

(3) sympathizes with the families of Israelis who have come under the indiscriminate rocket fire from Hamas-controlled Gaza;

(4) recognizes the exceptional success of the Iron Dome Missile Defense system in defending the population of Israel;

(5) desires to help ensure that Israel has the means to defend itself against terrorist attacks, including through the acquisition of additional Iron Dome batteries and interceptors; and

(6) urges the Departments of Defense and State to explore with their Israeli counterparts and alert Congress of any needs the Israeli Defense Force may have for additional Iron Dome batteries, interceptors, or other equipment depleted during the current conflict.

SEC. 1251. SENSE OF THE SENATE ON THE SITUATION IN THE SENKAKU ISLANDS.

It is the sense of the Senate that—

(1) the East China Sea is a vital part of the maritime commons of Asia, including critical sea lanes of communication and commerce that benefit all nations of the Asia-Pacific region;

(2) the peaceful settlement of territorial and jurisdictional disputes in the East China Sea requires the exercise of self-restraint by all parties in the conduct of activities that would complicate or escalate disputes and destabilize the region, and differences should be handled in a constructive manner consistent with universally recognized principles of customary international law;

(3) while the United States takes no position on the ultimate sovereignty of the Senkaku islands, the United States acknowledges the administration of Japan over the Senkaku Islands;

(4) The unilateral action of a third party will not affect the United States' acknowledgment of the administration of Japan over the Senkaku Islands;

(5) the United States has national interests in freedom of navigation, the maintenance of peace and stability, respect for international law, and unimpeded lawful commerce;

(6) the United States supports a collaborative diplomatic process by claimants to resolve territorial disputes without coercion, and opposes efforts at coercion, the threat of use of force, or use of force by any claimant in seeking to resolve sovereignty and territorial issues in the East China Sea; and

(7) the United States reaffirms its commitment to the Government of Japan under Article V of the Treaty of Mutual Cooperation and Security that "[e]ach Party recognizes that an armed attack against either Party in the territories under the administration of Japan would be dangerous to its own peace and safety and declares that it would act to meet the common danger in accordance with its constitutional provisions and processes".

SEC. 3133. REGIONAL RADIOLOGICAL SECURITY ZONES.

(a) FINDINGS.—Congress makes the following findings:

(1) A terrorist attack using high-activity radiological materials, such as in a dirty bomb, could inflict billions of dollars of economic costs and considerable societal and economic dislocation, with effects and costs possibly lasting for years.

(2) It may be easier for terrorists to obtain the materials for, and to fabricate, a dirty bomb than an improvised nuclear device.

(3) Radiological materials are in widespread use worldwide, with estimates of the number of radiological sources ranging from 100,000 to millions.

(4) Many nations have a security and regulatory regime for their radiological sources that is much less developed than that of the United States.

(5) Radiological materials are used at many civilian sites including hospitals, industrial sites, and other locations that have little security, placing these materials at risk of theft.

(6) Many radiological materials have become lost, disused, unwanted, or abandoned, with the Global Threat Reduction Initiative of the National Nuclear Security Administration having recovered more than 30,000 radioactive sources in the United States, repatriated more than 2,400 United States-origin sources from other countries, and helped recover more than 13,000 radioactive sources and radioisotope thermoelectric generators in other countries.

(7) High-activity radiological materials can be used in a dirty bomb.

(b) SENSE OF CONGRESS.—It is the sense of Congress that United States and global non-proliferation efforts should place a high priority on programs to secure high-activity radiological sources to reduce the threat of radiological terrorism.

(c) STUDY.—

(1) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Administrator of the National Nuclear Security Administration shall submit to the appropriate committees of Congress a study in accordance with paragraph (3).

(2) CONSULTATION.—The Administrator may, in conducting the study required under paragraph (1), consult with the Secretary of Homeland Security, the Secretary of State, the Nuclear Regulatory Commission, and such other departments and agencies of the United States Government as the Administrator considers appropriate.

(3) MATTERS INCLUDED.—The study under paragraph (1) shall include the following:

(A) An assessment of the radioactive isotopes and associated activity levels that present the greatest risk to national and international security.

(B) A review of current United States Government efforts to secure radiological materials abroad, including coordination with foreign governments, the European Union, the International Atomic Energy Agency, other international programs, and nongovernmental organizations that identify, register, secure, remove, and provide for the disposition of high-risk radiological materials worldwide.

(C) A review of current United States Government efforts to secure radiological materials domestically at civilian sites, including hospitals, industrial sites, and other locations.

(D) A definition of regional radiological security zones, including the subset of the materials of concern to be the immediate focus and the security best practices required to achieve that goal.

(E) An assessment of the feasibility, cost, desirability, and added benefit of establishing regional radiological security zones in high priority areas worldwide in order to facilitate regional collaboration in—

(i) identifying and inventorying high-activity radiological sources at high-risk sites;

(ii) reviewing national level regulations, inspections, transportation security, and security upgrade options; and

(iii) assessing opportunities for the harmonization of regulations and security practices among the nations of the region.

(F) An assessment of the feasibility, cost, desirability, and added benefit of establishing remote regional monitoring centers that would receive real-time data from radiological security sites, would be staffed by trained personnel from the countries in the region, and would alert local law enforcement in the event of a potential or actual terrorist incident or other emergency.

(G) A list and assessment of the best practices used in the United States that are most critical in enhancing domestic radiological material security and could be used to enhance radiological security worldwide.

(H) An assessment of the United States entity or entities that would be best suited to lead efforts to establish a radiological security zone program.

(I) An estimate of the costs associated with the implementation of a radiological security zone program.

(J) An assessment of the known locations outside the United States housing high-risk radiological materials in excess of 1,000 curies.

(4) FORM.—The study required under paragraph (1) shall be submitted in unclassified form, but may include a classified annex.

(d) APPROPRIATE COMMITTEES OF CONGRESS DEFINED.—In this section, the term “appropriate committees of Congress” means—

(1) the Committee on Armed Services, the Committee on Homeland Security and Governmental Affairs, and the Committee on Foreign Relations of the Senate; and

(2) the Committee on Armed Services, the Committee on Homeland Security, and the Committee on Foreign Affairs of the House of Representatives.

SEC. 3134. REPORT ON LEGACY URANIUM MINES.

(2) MATTERS TO BE ADDRESSED.—The report shall describe and analyze—

(A) the location of the legacy uranium mines on Federal, State, tribal, and private land, taking into account any existing inventories undertaken by Federal agencies, States, and Indian tribes, and any additional information available to the Secretary;

(B) the extent to which the legacy uranium mines—

(i) may pose a potential and significant radiation health hazard to the public;

(ii) may pose some other threat to public health and safety hazard;

Subtitle D—Other Matters

SEC. 3141. SENSE OF CONGRESS ON OVERSIGHT OF THE NUCLEAR SECURITY ENTERPRISE.

(a) FINDINGS.—Congress makes the following findings:

(1) In 2000, the National Nuclear Security Administration was established as an independent entity within the Department of Energy to manage and secure the nuclear weapons stockpile of the United States and to manage nuclear nonproliferation and naval reactor programs.

(2) Serious security and health incidents continue to occur at sites of the National Nuclear Security Administration.

(3) In September 2012, an official of the Government Accountability Office testified to Congress that lax laboratory attitudes toward safety procedures, laboratory inadequacies in identifying and addressing safety

problems with appropriate corrective actions, and inadequate oversight by site offices of the National Nuclear Security Administration were responsible for nearly 100 safety incidents since 2000.

(4) On July 28, 2012, three unarmed individuals compromised security at the Y-12 National Security Complex in Oak Ridge, Tennessee, and according to the Government Accountability Office, “gained access to the protected security area directly adjacent to one of the nation’s most critically important nuclear weapons-related facilities”.

(5) In June 2006, hackers attacked an unclassified computer system at the National Nuclear Security Administration’s Service Center in Albuquerque, New Mexico, and gained access to a file containing the names and social security numbers of more than 1,500 employees of the National Nuclear Security Administration.

(6) As early as February 2005, the Inspector General of the Department of Energy identified problems with the retrieval of badges from terminated employees at Los Alamos National Laboratory and other sites of the National Nuclear Security Administration.

(7) In 2004, a pattern of safety and security incidents that occurred over the course of a year prompted the stand-down of Los Alamos National Laboratory.

(8) The National Nuclear Security Administration, independent of the safety and security reform efforts of the Department of Energy, has launched an overhaul of its contracting oversight, placing an emphasis on contractor self-policing through an untested “contractor assurance” approach.

(9) The Government Accountability Office has given the contractor administration and project management capabilities of the National Nuclear Security Administration a “high risk” designation and found there to be insufficient qualified Federal acquisition professionals to “plan, direct, and oversee project execution”.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) there is a need for strong, independent oversight of the United States nuclear security enterprise;

(2) any attempt to reform oversight of the nuclear security enterprise that transfers oversight from the Department of Energy to the National Nuclear Security Administration, reduces protections for worker health and safety at facilities of the National Nuclear Security Administration to levels below the standards of the Department of Energy, or transfers construction appropriations for the nuclear security enterprise from the Department of Energy appropriation account to the military construction appropriation account, should be carefully evaluated;

(3) the Office of Health, Safety, and Security of the Department of Energy, which reports to the Secretary of Energy but is also accountable for routinely reporting to Congress on the performance with respect to safety and security of the Department, including the National Nuclear Security Administration, and the role of that Office in overseeing safety and security at the National Nuclear Security Administration, should not be diminished but should be routinely evaluated;

(4) any future modifications to the management or structure of the nuclear security enterprise should be done in a way that maintains or increases oversight of critical construction, security, and acquisition capabilities;

(5) to the extent possible, oversight of programs of the National Nuclear Security Administration by the Department of Defense should increase to ensure current and future warfighting requirements are met; and

(6) the Nuclear Weapons Council should provide proper oversight in the execution of its responsibilities under section 179 of title 10, United States Code.

SEC. 3154. EXPORTS.

Section 134 of the Atomic Energy Act of 1954 (42 U.S.C. 2160d) is amended by striking subsection c. and inserting the following:

“c. Effective 7 years after the date of enactment of the American Medical Isotopes Production Act of 2012, the Commission may not issue a license for the export of highly enriched uranium from the United States for the purposes of medical isotope production.

“d. The period referred to in subsection b. may be extended for no more than 6 years if, no earlier than 6 years after the date of enactment of the American Medical Isotopes Production Act of 2012, the Secretary of Energy certifies to the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate that—

“(1) there is insufficient global supply of molybdenum-99 produced without the use of highly enriched uranium available to satisfy the domestic United States market; and

“(2) the export of United States-origin highly enriched uranium for the purposes of medical isotope production is the most effective temporary means to increase the supply of molybdenum-99 to the domestic United States market.

“e. To ensure public review and comment, the development of the certification described in subsection c. shall be carried out through announcement in the Federal Register.

“f. At any time after the restriction of export licenses provided for in subsection b. becomes effective, if there is a critical shortage in the supply of molybdenum-99 available to satisfy the domestic United States medical isotope needs, the restriction of export licenses may be suspended for a period of no more than 12 months, if—

“(1) the Secretary of Energy certifies to the Congress that the export of United States-origin highly enriched uranium for the purposes of medical isotope production is the only effective temporary means to increase the supply of molybdenum-99 necessary to meet United States medical isotope needs during that period; and

“(2) the Congress enacts a Joint Resolution approving the temporary suspension of the restriction of export licenses.

“g. As used in this section—

“(1) the term ‘alternative nuclear reactor fuel or target’ means a nuclear reactor fuel or target which is enriched to less than 20 percent in the isotope U-235;

“(2) the term ‘highly enriched uranium’ means uranium enriched to 20 percent or more in the isotope U-235;

“(3) a fuel or target ‘can be used’ in a nuclear research or test reactor if—

“(A) the fuel or target has been qualified by the Reduced Enrichment Research and Test Reactor Program of the Department of Energy; and

“(B) use of the fuel or target will permit the large majority of ongoing and planned experiments and medical isotope production to be conducted in the reactor without a large percentage increase in the total cost of operating the reactor; and

“(4) the term ‘medical isotope’ includes molybdenum-99, iodine-131, xenon-133, and

other radioactive materials used to produce a radiopharmaceutical for diagnostic or therapeutic procedures or for research and development.”.

SEC. 3155. REPORT ON DISPOSITION OF EXPORTS.

- (1) their location;
- (2) whether they are irradiated;
- (3) whether they have been used for the purpose stated in their export license;
- (4) whether they have been used for an alternative purpose and, if so, whether such alternative purpose has been explicitly approved by the Commission;
- (5) the year of export, and reimportation, if applicable;
- (6) their current physical and chemical forms; and

“(A) there is no alternative medical isotope production target, enriched in the isotope U-235 to less than 20 percent, that can be used in that reactor; and

“(B) the proposed recipient of the medical isotope production target has provided assurances that, whenever an alternative medical isotope production target can be used in that reactor, it will use that alternative in lieu of highly enriched uranium; and

“(2) the Secretary of Energy has certified that the United States Government is actively supporting the development of an alternative medical isotope production target that can be used in that reactor.

“b. As used in this section—

“(1) the term ‘alternative medical isotope production target’ means a nuclear reactor target which is enriched to less than 20 percent of the isotope U-235;

“(2) a target ‘can be used’ in a nuclear research or test reactor if—

“(A) the target has been qualified by the Reduced Enrichment Research and Test Reactor Program of the Department of Energy; and

DIVISION F—STOLEN VALOR ACT TITLE LI—STOLEN VALOR ACT

SEC. 5011. SHORT TITLE.

This division may be cited as the “Stolen Valor Act of 2012”.

SEC. 5012. FINDINGS.

Congress find the following:

(1) Because of the great respect in which military service and military awards are rightfully held by the public, false claims of receiving such medals or serving in the military are especially likely to be harmful and material to employers, voters in deciding to whom paid elective positions should be entrusted, and in the award of contracts.

(2) Military service and military awards are held in such great respect that public and private decisions are correctly influenced by claims of heroism.

(3) False claims of military service or military heroism are an especially noxious means of obtaining something of value because they are particularly likely to cause tangible harm to victims of fraud.

(4) False claims of military service or the receipt of military awards, if believed, are especially likely to dispose people favorably toward the speaker.

(5) False claims of military service or the receipt of military awards are particularly likely to be material and cause people to part with money or property. Even if such claims are unsuccessful in bringing about this result, they still constitute attempted fraud.

(6) False claims of military service or the receipt of military awards that are made to secure appointment to the board of an organization are likely to cause harm to such organization through their obtaining the services of an individual who does not bring to that organization what he or she claims, and whose falsehood, if discovered, would cause the organization's donors concern that the organization's board might not manage money honestly.

(7) The easily verifiable nature of false claims regarding military service or the receipt of military awards, the relative infrequency of such claims, and the fact that false claims of having served in the military or received such awards are rightfully condemned across the political spectrum, it is especially likely that any law prohibiting such false claims would not be enforced selectively.

(8) Congress may make criminal the false claim of military service or the receipt of military awards based on its powers under article I, section 8, clause 2 of the Constitution of the United States, to raise and support armies, and article I, section 8, clause 18 of the Constitution of the United States, to enact necessary and proper measures to carry into execution that power.

“(2) TANGIBLE BENEFIT OR PERSONAL GAIN.—For purposes of this subsection, the term ‘tangible benefit or personal gain’ includes—

“(A) a benefit relating to military service provided by the Federal Government or a State or local government;

“(B) public or private employment;

“(C) financial remuneration;

“(D) an effect on the outcome of a criminal or civil court proceeding;

“(E) election of the speaker to paying office; and

“(F) appointment to a board or leadership position of a non-profit organization.

“(c) DEFINITION.—In this section, the term ‘Armed Forces of the United States’ means the Army, Navy, Air Force, Marine Corps, and Coast Guard, including the reserve components named in section 10101 of title 10.”.

SEC. 5014. SEVERABILITY.

If any provision of this division, any amendment made by this division, or the application of such provision or amendment to any person or circumstance is held to be unconstitutional, the remainder of the provisions of this division, the amendments made by this division, and the application of such provisions or amendments to any person or circumstance shall not be affected.

Subtitle C—Sense of Congress Regarding Spectrum

SEC. 5317. SENSE OF CONGRESS REGARDING SPECTRUM.

It is the sense of Congress that—

(1) the Nation’s mobile communications industry is a significant economic engine, by one estimate directly or indirectly supporting 3,800,000 jobs, or 2.6 percent of all United States employment, contributing \$195,500,000,000 to the United States gross domestic product and driving \$33,000,000,000 in productivity improvements in 2011;

(2) while wireless carriers are continually implementing new and more efficient technologies and techniques to maximize their existing spectrum capacity, there is a pressing need for additional spectrum for mobile broadband services, with one report predicting that global mobile data traffic will increase 18-fold between 2011 and 2016 at a compound annual growth rate of 78 percent, reaching 10.8 exabytes per month by 2016;

(3) as the Nation faces the growing demand for spectrum, consideration should be given to both the supply of spectrum for licensed networks and for unlicensed devices;

(4) while this additional demand can be met in part by reallocating spectrum from existing non-governmental uses, the long-term solution must include reallocation and sharing of Federal Government spectrum for private sector use;

(5) recognizing the important uses of spectrum by the Federal Government, including for national and homeland security, law enforcement and other critical federal uses, existing law ensures that Federal operations are not harmed as a result of a reallocation of spectrum for commercial use, including through the establishment of the Spectrum Relocation Fund to reimburse Federal users for the costs of planning and implementing relocation and sharing arrangements and, with respect to spectrum vacated by the Department of Defense, certification under section 1062 of P.L. 106-65 by the Secretaries of Defense and Commerce and the Chairman of the Joint Chiefs of Staff that replacement spectrum provides comparable technical characteristics to restore essential military capability; and

(6) given the need to determine equitable outcomes for the Nation in relation to spectrum use that balance the private sector’s demand for spectrum with national security and other critical federal missions, all interested parties should be encouraged to continue the collaborative efforts between industry and government stakeholders that

have been launched by the National Telecommunications and Information Administration to assess and recommend practical frameworks for the development of relocation, transition, and sharing arrangement and plans for 110 megahertz of federal spectrum in the 1695–1710 MHz and the 1755–1850 MHz bands.

IMMEDIATE AND UNCONDITIONAL RELEASE OF UNITED STATES CITIZEN ALAN PHILLIP GROSS

Mr. CARDIN. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of S. Res. 609, which was submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 609) calling for the immediate and unconditional release of United States citizen Alan Phillip Gross from detention in Cuba and urging the Government of Cuba to address his medical issues.

There being no objection, the Senate proceeded to consider the resolution.

Mr. CARDIN. Mr. President, 2 days ago—December 3, 2012—marked the third anniversary of Alan Gross’ arrest by the Cuban Government. Over the past 3 years, Alan’s case has been of deep personal concern to me and many in my State. Alan, an American citizen and Marylander, was in Cuba to help the small Jewish community there establish improved access to the Internet, which would allow the community to go online without fear of censorship or monitoring. After being held for 14 months without charge and then a cursory 2-day trial, he was convicted and sentenced to 15 years in prison. In August 2012, a petition to the United Nations Working Group on Arbitrary Detention was filed on his behalf.

Last week, officials with the Cuban Ministry for Foreign Affairs claimed that Alan Gross is in good health. But the Cuban Government has not allowed Mr. Gross to receive an independent medical evaluation. To date, Alan has lost 105 pounds, suffers from degenerative arthritis, and has a mass behind his shoulder. Alan also suffers from severe mental anguish because of the separation from his family.

To say that the Gross family has been on a rollercoaster would be an understatement. His mother and daughter are both battling cancer. His wife Judy is struggling to make ends meet. Judy Gross has fought for Alan’s release every day for the last 3 years. Judy has called, e-mailed, and met with everyone imaginable. She has been on news programs and written letters. Judy has never given up hope; she has remained strong for her family and for Alan. As many of our colleagues will attest, she will stop at nothing to see Alan return home. Due in no small part to Judy’s perseverance, the U.S. Senate has been actively involved in this matter.

Over the past 3 years, U.S. officials have traveled to Cuba, we have written to numerous Cuban dignitaries, and we have employed other creative means to encourage Mr. Gross’ release. In September, my colleague Senator MORAN and I, along with a bipartisan group of

44 Senators, sent a letter to Raul Castro urging the Cuban Government in the strongest possible terms to release Alan Gross immediately and unconditionally. But these attempts have been futile. Alan Gross remains in prison, caught in the middle of a conflict between two nations with a complex, often frustrating relationship.

Tonight, the Senate is adopting a resolution unanimously, a resolution Senator MORAN and I have submitted with a long list of bipartisan sponsors. The resolution calls for Mr. Gross’ immediate and unconditional release and urges the Cuban Government to address his medical issues, including allowing an independent medical examination to be completed. Alan’s personal freedoms are being violated every day that he continues to be incarcerated, and we can no longer tolerate his being denied an independent medical evaluation. Alan Gross should no longer be forced to suffer the consequences of political gamesmanship. Enough is enough.

Today the Senate has spoken once again. Alan Gross is a husband, a father, a son, and an American. We call on the Cuban Government to release Alan Gross immediately.

Mr. President, I know of no further debate on this measure.

The PRESIDING OFFICER. Is there further debate?

If not, the question is on agreeing to the resolution.

The resolution (S. Res. 609) was agreed to.

Mr. CARDIN. Mr. President, I ask unanimous consent that the preamble be agreed to, the motions to reconsider be laid upon the table, and any statements relating to the matter be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 609

Whereas, Alan Phillip Gross, a citizen of the United States, was born in New York on May 2, 1949, and is a resident of the State of Maryland;

Whereas Mr. Gross has devoted his professional life to helping others through his work in international development and has served in more than 50 countries and territories worldwide;

Whereas, in 2001, Mr. Gross founded JBDC, LLC to support Internet connectivity in locations with little or no access;

Whereas, on February 10, 2009, JBDC, LLC received a subcontract with the United States Agency for International Development (USAID);

Whereas, working as a subcontractor for the United States Agency for International Development, Mr. Gross sought to establish wireless networks and improve Internet and Intranet access and connectivity for a small, peaceful, non-dissident, Cuban Jewish community;

Whereas Mr. Gross made 5 trips to Cuba in furtherance of the United States Agency for International Development project he was subcontracted to support;

Whereas the last time Mr. Gross was in the United States was on November 24, 2009;

Whereas Mr. Gross was arrested on December 3, 2009, in Havana, Cuba;

Whereas Mr. Gross was detained without charge for 14 months;

Whereas Mr. Gross was charged in February 2011 with "actions against the independence or the territorial integrity of the state";

Whereas Mr. Gross's trial lasted only 2 days, after which he was sentenced to 15 years in prison;

Whereas Mr. Gross and his wife Judy have 2 daughters, one of which was diagnosed with breast cancer in 2010;

Whereas Mr. Gross's 90-year old mother was diagnosed with inoperable cancer in February 2011;

Whereas, in 2011, Mr. Gross's wife Judy underwent surgery, causing her to miss considerable time from work and putting further financial strain on their family;

Whereas Mr. Gross is 63 years old and has lost more than 105 pounds since being detained in Cuba;

Whereas Mr. Gross has developed degenerative arthritis in his leg and a mass behind his shoulder;

Whereas the Government of Cuba has denied requests by Mr. Gross for an independent medical examination;

TEEN CANCER AWARENESS WEEK

Mr. CARDIN. Mr. President, I ask unanimous consent that the Judiciary Committee be discharged from further consideration of S. Res. 573 and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 573) designating the third week of January 2013 as "Teen Cancer Awareness Week."

There being no objection, the Senate proceeded to consider the resolution.

Mr. CARDIN. Mr. President, I ask unanimous consent the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, with no intervening action or debate, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 573) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 573

Whereas cancer among adolescents is rare, but is still the leading cause of death from disease for teenagers between the ages of 15 and 19;

Whereas teenage cancer patients receive treatment at various types of medical establishments, including pediatric hospitals, pediatric oncology centers, and adult cancer facilities;

Whereas teenage cancer patients may feel out of place in any of these settings if their clinical and psychosocial needs are not met;

Whereas 40 percent of cancer patients aged 14 and younger are enrolled in clinical trials, compared with only 9 percent of cancer patients between the ages of 15 and 24;

Whereas teenagers with cancer have unique concerns about their education, social lives, body image, and infertility, among other concerns, and their needs may be misunderstood or unacknowledged;

Whereas many adolescent cancer survivors have difficulty readjusting to school and social settings, experience anxiety, and in some cases face increased learning difficulties; and

Whereas it is important to understand the biological and clinical needs of teenagers with cancer, seek the prevention of cancer in teenagers, and increase awareness in the general public of the unique challenges facing teenagers with cancer: Now, therefore, be it

Resolved, That the Senate designates the third week of January 2013 as "Teen Cancer Awareness Week" to promote awareness of teenage cancer and the unique medical and social needs of teenagers with cancer.

NATIONAL ADOPTION DAY AND NATIONAL ADOPTION MONTH

Mr. CARDIN. Mr. President, I ask unanimous consent that the HELP Committee be discharged from further consideration of S. Res. 595 and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 595) expressing support for the goals of National Adoption Day and National Adoption Month by promoting national awareness of adoption and the children awaiting families, celebrating children and families involved in adoption, and encouraging the people of the United States to secure safety, permanency, and well-being for all children.

There being no objection, the Senate proceeded to consider the resolution.

Mr. CARDIN. I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be considered made and laid upon the table, with no intervening action or debate, and that any statements be printed in the RECORD as if read.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 595) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 595

Whereas there are millions of unparented children in the world, including 400,540 chil-

dren in the foster care system in the United States, approximately 104,000 of whom are waiting for families to adopt them;

Whereas 59 percent of the children in foster care in the United States are age 10 or younger;

Whereas the average length of time a child spends in foster care is approximately 2 years;

Whereas for many foster children, the wait for a loving family in which they are nurtured, comforted, and protected seems endless;

Whereas in 2011, nearly 26,000 youth "aged out" of foster care by reaching adulthood without being placed in a permanent home;

Whereas every day, loving and nurturing families are strengthened and expanded when committed and dedicated individuals make an important difference in the life of a child through adoption;

Whereas a 2007 survey conducted by the Dave Thomas Foundation for Adoption demonstrated that though "Americans overwhelmingly support the concept of adoption, and in particular foster care adoption . . . foster care adoptions have not increased significantly over the past five years";

Whereas while 4 in 10 Americans have considered adoption, a majority of Americans have misperceptions about the process of adopting children from foster care and the children who are eligible for adoption;

Whereas 71 percent of those who have considered adoption consider adopting children from foster care above other forms of adoption;

Whereas 45 percent of Americans believe that children enter the foster care system because of juvenile delinquency, when in reality the vast majority of children who have entered the foster care system were victims of neglect, abandonment, or abuse;

Whereas 46 percent of Americans believe that foster care adoption is expensive, when in reality there is no substantial cost for adopting from foster care and financial support is available to adoptive parents after the adoption is finalized;

Whereas family reunification, kinship care, and domestic and inter-county adoption promote permanency and stability to a far greater degree than long-term institutionalization and long-term, often disrupted foster care;

Whereas both National Adoption Day and National Adoption Month occur in the month of November;

Whereas National Adoption Day is a collective national effort to find permanent, loving families for children in the foster care system;

Whereas since the first National Adoption Day in 2000, nearly 40,000 children have joined forever families during National Adoption Day;

Whereas in 2011, a total of 365 events were held in 47 States and the District of Columbia, finalizing the adoptions of 4,187 children from foster care and celebrating an additional 1,030 adoptions finalized during November or earlier in the year; and

Whereas the President traditionally issues an annual proclamation to declare the month of November as National Adoption Month, and National Adoption Day is on November 17, 2012: Now, therefore, be it

Resolved, That the Senate—

(1) supports the goals and ideals of National Adoption Day and National Adoption Month;

(2) recognizes that every child should have a permanent and loving family; and

(3) encourages the people of the United States to consider adoption during the month of November and all throughout the year.

COMMEMORATING THE 60TH ANNIVERSARY OF THE GRADUATE RESEARCH FELLOWSHIP PROGRAM

Mr. CARDIN. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 610 submitted earlier today by Senators ROCKEFELLER and HUTCHISON.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 610) commemorating the 60th anniversary of the Graduate Research Fellowship Program of the National Science Foundation.

There being no objection, the Senate proceeded to consider the resolution.

Mr. CARDIN. I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be considered made and laid upon the table, with no intervening action or debate, and any statements be printed in the RECORD as if read.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 610) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 610

Whereas the United States is a world leader in science, technology, engineering, and mathematics (STEM) fundamental research and related education;

Whereas an excellent STEM higher-education system is critical to the development of a robust and inclusive U.S. STEM workforce and to U.S. global science and engineering preeminence;

Whereas Congress and President Harry S. Truman created the National Science Foundation (NSF), an independent Federal agency, 62 years ago specifically to advance scientific discovery and innovation through the Nation's basic research and STEM education infrastructure;

Whereas fundamental research supported by NSF across all scientific disciplines have resulted in many significant contributions to Americans' health and security, as well as to technological innovation and U.S. economic prosperity;

Whereas advances in knowledge are made possible by researchers who focus on the fundamental properties of nature, and who mentor and educate the next generation of scientists and engineers;

Whereas 60 years ago, NSF purposefully created the Graduate Research Fellowship Program (GRFP) as an instrument to prepare the Nation's reservoir of science and engineering talent;

Whereas the GRFP, the country's oldest graduate fellowship program, supports outstanding graduate students pursuing masters and doctoral degrees in research at accredited U.S. institutions;

Whereas the GRFP has contributed to the development of outstanding U.S. scholars, entrepreneurs, teachers, mentors, and inventors who continue to support and promote the Nation's science and engineering enterprise and the next generation of scientists and engineers;

Whereas this flagship program helps maintain high-quality and highly skilled grad-

uates who enter the Nation's STEM workforce prepared to innovate and collaborate in the global scientific arena;

Whereas NSF has funded more than 46,500 competitive graduate research fellows with selection criteria based on the intellectual merit of their research and its potential broader impacts for society;

Whereas of the more than 200 NSF-supported Nobel laureates, 40 were selected as graduate research fellows, and more than 440 graduate research fellows have become members of the National Academy of Sciences;

Whereas graduate research fellows have an exceptionally high rate of doctorate completion;

Whereas since 2001, graduate research fellows have filed more than 1,000 patents while working toward their graduate degrees, thus contributing directly to scientific advancement and discovery;

Whereas since 2007, 1145 graduate research fellows were selected from Experimental Program to Stimulate Competitive Research jurisdictions; and

Whereas NSF's GRFP continues to be an essential component of the Nation's discovery and innovation ecosystem, and is instrumental in STEM workforce development: Now, therefore, be it

Resolved, That the Senate—

(1) commemorates the 60th anniversary of the Graduate Research Fellowship Program of the National Science Foundation; and

(2) continues to recognize U.S. STEM graduate education as central to U.S. workforce competitiveness and our country's international leadership and economic prosperity.

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mr. VISCLOSKY. Mr. Speaker, on November 30, 2012, I was absent from the House and missed rollcall vote 613.

Had I been present for rollcall vote 613, on passage of H.R. 6429, to amend the Immigration and Nationality Act to promote innovation, investment, and research in the United States, to eliminate the diversity immigrant program, and for other purposes, I would have voted "no."

HON. JEAN SCHMIDT

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mrs. SCHMIDT. Mr. Speaker, I rise today to recognize one of my constituents, Mr. Ronald Morrison. Mr. Morrison has dedicated an incredible 50 years of his life to his community and, specifically, to the Felicity-Franklin Fire Department, located in Clermont County, Ohio.

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mr. GINGREY of Georgia. Mr. Speaker, I rise today in recognition of honoring Gardner Wright, a community leader who has served Rome and Floyd County throughout his entire lifetime.

Gardner is affectionately known as the Grandfather of Floyd County, a name befitting the man whose great-great-grandfather, Colonel Daniel R. Mitchell, gave Rome its name.

Gardner served 23 years in the armed services, rising from a private in the U.S. Marine Reserves all the way to the rank of captain in the Army Reserves. He ultimately retired as a sergeant in the Army National Guard.

Mr. Speaker, Gardner exemplifies service and leadership in his community through his work for the American Cancer Society, Boy Scouts of America, and countless local philanthropies.

I am proud to call him a fellow Georgian, but more importantly, a friend.

CONGRATULATING THE OHIO STATE UNIVERSITY FOOTBALL TEAM

HON. STEVE STIVERS

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mr. STIVERS. Mr. Speaker, I rise today to congratulate The Ohio State University football team on a perfect record during the 2012 season. The Buckeyes have now recorded six undefeated seasons in a 123-year history. The determination of this team to win, despite the fact that a postseason was not possible, is truly inspiring.

I would also like to commend Head Coach Urban Meyer on his success with the Buckeyes in his first season with the team. Coach Meyer has shown Ohio State fans that he means business and I look forward to many more perfect seasons under Coach Meyer's watch.

In Columbus, football is a tradition and we take it very seriously—the Buckeyes' perfect season proves that once again. The football team at Ohio State means so much to the people of Ohio and we are truly proud of their perfect season this year. Go Bucks!

HON. DANIEL WEBSTER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mr. WEBSTER. Mr. Speaker, I rise today to honor the life and service of a dear friend, Mr. Talmadge "Tal" Johnson. Mr. Johnson passed away at the age of 87 in Orlando, Florida on November 28, 2012.

Mr. Johnson was born in Bonny Blue, Virginia on February 5, 1925 to the late Ralph and Edrie Johnson. He was a man of great character who honorably served his country in the United States Navy. After his military service, he moved to the private sector where he dedicated 35 years of hard work to AT&T and also worked at Transglobal Communications as a courier for some time.

The numerous contributions that Mr. Johnson made to his community will not be forgotten. He was a charter member of First Baptist Church of Central Florida, previously known as First Baptist Church of Pine Hills, where he was a faithful and active member for 58 years.

He was a loving and dedicated father, son, brother, grandfather, and great-grandfather. On behalf of the citizens of Central Florida, my prayers and condolences go out to his loving wife of 65 years Anna, his daughter Ruth, sister Dorothy, his four grandchildren, and one great-grandchild. May God bless them through this time of remembrance.

GRATEFUL APPRECIATION TO THE
PEOPLE OF TAIWAN**HON. TOM REED**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mr. REED. Mr. Speaker, I speak today in grateful appreciation for the strong gesture of generosity and humanity by the people and government of the Republic of China, Taiwan, for their donation of \$1.3 million for the Hurricane Sandy recovery efforts. The Taiwanese donation will be received by the States of New York, New Jersey and Connecticut, as well as Habitat for Humanity and United Way International.

Although a small amount compared to the damage from the storm, it is a symbol of the true friendship and solidarity between the Taiwanese and American people. My sincere thanks and appreciation to the people and government of the Republic of China, Taiwan for this aid in our time of need.

IN RECOGNITION OF JEANETTE
HUTCHINSON**HON. PHIL GINGREY**

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mr. GINGREY of Georgia. Mr. Speaker, I stand before you today to recognize the retirement of a wonderful woman and true champion of constituent service, Jeanette Hutchinson. For more than 30 years, Jeanette Hutchinson has worked tirelessly assisting constituents from both Georgia and Iowa. As many of you know, we would not be able to accomplish nearly half as much as we do without the help of our congressional staff—especially employees like Jeanette. Her career in constituent services spans 2 states and includes three Congressmen, two Senators, and thousands of grateful constituents.

Jeanette launched her congressional career in the Hawkeye State with the offices of Congressman Cooper Evans and Senator CHUCK GRASSLEY. Following years of service to the people of Iowa, Jeanette moved to Atlanta and began serving the people of Georgia with Senator Paul Coverdell's office. Former Congressman Bob Barr claims he "stole" Jeanette from Senator Coverdell's office in 1995, and upon his retirement I was fortunate to have Jeanette join my staff. For the past 10 years, Jeanette thoroughly managed my constituent case work and my case work staff.

Jeanette's job is not for the light hearted. It requires great attention to detail, an immeasurable amount of patience, and the determination to cut through bureaucratic red tape. But this did not dissuade Jeanette. She approached each constituent case as if it were her own, providing Georgians with service that was second to none. Whatever the case may be, Jeanette knows who to ask for, which form to complete, and each deadlines she must comply with. I doubt there is a government agency Jeanette has not called.

Public service has always been a staple in Jeanette's life. Her late husband, Thomas Sellner, to whom she was married for 28 years, served our country as a pilot for the

U.S. Navy. Jeanette and Thomas raised six children together, and as many selfless military families do, lived in numerous States and foreign countries fighting for our freedoms. Her ability to adapt to different environments and handle a variety of situations with ease has been reflected throughout her career. Following the loss of her husband, Jeanette wed Marion Hutchinson and began her congressional career.

Jeanette has been an instrumental member of my staff and we will miss her dearly. Mr. Speaker, I wish Jeanette Hutchinson the best of luck in her retirement and thank her for her hard work over her extensive career.

HONORING SHERIFF DWIGHT E.
RADCLIFF**HON. STEVE AUSTRIA**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mr. AUSTRIA. Mr. Speaker, I rise today to recognize Sheriff Dwight E. Radcliff on the celebration of his retirement and for his outstanding years of service to Pickaway County and the state of Ohio.

It is an honor to congratulate Sheriff Radcliff on this momentous occasion as the longest-serving sheriff in the United States of America. Serving as Pickaway County Sheriff since 1965, Radcliff has been committed to the citizens of Pickaway County by protecting life and property, preventing and solving crime and responding to all requests for assistance.

Following in his father's footsteps, Radcliff became the second Radcliff to be sheriff for Pickaway County and the family name has held the position for 66 of the past 70 years. Over the past several decades, Radcliff has had trying and memorable moments—living in the county jail with his family to apprehending the rarest of criminals. Because of his great dedication and reputation for law enforcement, Pickaway County is also referred to as "Putaway Pickaway" by local and state-wide residents.

Beyond his commitment to public service, Radcliff is the husband of 51 years to Betty, the father of 3 and grandfather of 8.

Thus, I join the people of Ohio's Seventh Congressional District in congratulating and honoring Sheriff Dwight E. Radcliff for his many years of dedication and exemplary service to Pickaway County and the state of Ohio, and extend best wishes to he and his family for much success in the future.

CONGRATULATING DR. MICHAEL S.
GORDON, M.D., PH.D. ON HIS RE-
TIREMENT**HON. DANIEL WEBSTER**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mr. WEBSTER. Mr. Speaker, I am pleased to take this opportunity to recognize a close friend of mine and a highly accomplished leader in American medical education. Dr. Michael S. Gordon, M.D., Ph.D. is the founder and Professor Emeritus at the Gordon Center for Research in Medical Education and is a Pro-

fessor of Cardiology at the University of Miami's Miller School of Medicine.

Known internationally for his pioneering work in medical simulation, Dr. Gordon has dedicated his life's work to incorporating advanced technology and simulation into medical education. In 1968, Dr. Gordon presented to the medical community a simulator known as "Harvey." Harvey is a Cardiopulmonary Patient Simulator, a life-sized mannequin able to simulate venous, carotid, and precordial pulsations as well as heart sounds of 27 different cardiac diseases. Since Harvey's introduction in 1968, he has been used to effectively train medical students worldwide and is currently used in over 300 medical schools.

In 2007, the University of Miami established the state-of-the-art Michael S. Gordon Center for Research in Medical Education (GCRME) with the mission of developing training curricula for health professionals, applying advanced technology to medical education, and serving as a resource for medical centers in Florida and throughout the world. GCRME is today the home of an "All-New Harvey," capable of simulating additional diseases and conditions and possessing the ability to talk.

Under Dr. Gordon's leadership, curricula and instructional materials developed by the GCRME are in use in over 1,800 medical centers and agencies worldwide. For over 40 years, the center has pioneered and pursued the center's mission statement: "Saving Lives Through Simulation Technology." They have accomplished this through their dedication to incorporating simulation and technology into medical education.

American medicine and the University of Miami are fortunate to have such dedicated and innovative medical professionals and educators as Dr. Gordon. His commitment to excellence, leadership and service is to be admired, and may it inspire others to follow in his footsteps.

THANKING TAIWAN FOR RELIEF
FUNDS DONATED TOWARD RE-
COVERY AFTER SUPERSTORM
SANDY**HON. CAROLYN MCCARTHY**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mrs. MCCARTHY of New York. Mr. Speaker, I wish to extend my sincere gratitude for the relief funds donated by Taiwan which have been designated to aid in the United States' recovery after Superstorm Sandy. This generous donation comes at a time when collaboration and unity among people is the most important step toward recovery, and it is humbling to witness a global effort for relief.

As my colleagues may know, many citizens, including many of my own constituents in Long Island, are still struggling to rebuild their lives after the devastation caused by Superstorm Sandy. The aid offered by Taiwan will directly assist in repairing the coastal region and our nation, both in short term and long term efforts. From a pledge of \$1.3 million, \$100,000 will be given to New York City, New York State and New Jersey each. The additional \$1 million will be split between Washington charities the United Way and Habitat for Humanity, which have been working tirelessly to aid and rebuild the hardest hit areas.

Again, I thank Taiwan for the generosity they have shown to the United States during these difficult times. Relief funds are one of the most important ways in which help can be brought to the storm-stricken areas. I stand alongside the victims of this storm, as well as those who have already dedicated so much time and effort to rebuilding the region, in thanking Taiwan. These resilient people, with the assistance of the relief funds, will see a steady, efficient, and full recovery.

CELEBRATING THE 100TH ANNIVERSARY OF THE ARKANSAS NURSES ASSOCIATION

HON. TIM GRIFFIN

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mr. GRIFFIN of Arkansas. Mr. Speaker, I rise today to recognize and congratulate the Arkansas Nurses Association (ARNA) on their 100 years of continued leadership in and dedication to the nursing profession in Arkansas.

Nurses play a vital role in our health care system, providing essential patient care and improving the quality of their patients' lives. Nearly all—if not all—Americans have been or will be cared for by a nurse at some point in their lives. And, according to a recent survey by Gallup, nursing was recognized as the most trusted profession in the United States.

For their centennial celebration, ARNA has built their anniversary year around a celebration of "The Year of the Nurse," which has included a celebration of their past, their present, and their future. For the past 100 years, it has been the mission of Arkansas nurses to ensure a healthy Arkansas population and a stronger nursing profession, and with ARNA's service, education, and advocacy, the nursing profession has continued to improve the quality of care delivered throughout Arkansas's 75 counties.

Even after the centennial celebration has concluded, ARNA will continue their efforts in promoting and ensuring developments in advanced education, clinical competency, nursing research, and patient and nurse advocacy.

As ARNA celebrates its centennial anniversary, I honor the efforts of Arkansas nurses who have created a professional organization that continues to advance the nursing profession in Arkansas and throughout the country, and I look forward to another 100 years of their success.

PERSONAL EXPLANATION

HON. RODNEY P. FRELINGHUYSEN

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mr. FRELINGHUYSEN. Mr. Speaker, I missed two votes on Tuesday, November 27, 2012. While I was unable to cast recorded votes on legislation considered by the House, I ask that the record reflect my intentions.

On Tuesday, November 27, the House considered the Senate amendment to H.R. 915, the Jaime Zapata Border Enforcement Security Task Force Act. On rollcall vote No. 609, final passage of H.R. 915 under suspension of the rules, I would have voted "yes."

The House also considered H.R. 5997, the Medical Preparedness Allowable Use Act. On rollcall vote No. 610, final passage of H.R. 5997 under suspension of the rules, I would have voted "yes."

Further, on November 30, 2012, the House considered H.R. 6429, the STEM Jobs Act. Unfortunately, I failed to cast a vote on final passage and I would like the record to reflect that I would have voted "aye" on rollcall vote No. 613, final passage of H.R. 6429.

IN RECOGNITION OF THE PLYMOUTH COUNCIL ON AGING SENIOR CENTER

HON. WILLIAM R. KEATING

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mr. KEATING. Mr. Speaker, I rise today to recognize the Plymouth Council on Aging as the organization opens its new Senior Center.

The Plymouth Council on Aging first opened its doors in July 1973 following the passage of the Older Americans Act, a landmark piece of legislation which allowed local communities to fund supportive services for their senior citi-

zens. The Plymouth Senior Center was an instant success, and before long the organization began to see over 2,500 residents each month. The Center provided such vital services as health and wellness programs, legal assistance, community meals, and assistance with Social Security and Medicare benefits, to name a few. While the Council's board members were thrilled with this success, they realized that the organization was quickly outgrowing its facility on Court Street. After several decades of use, it became clear to both the Council's directors and its patrons that it was time to start planning a new facility that could better serve the needs of the town. Following more than a dozen years of working toward this goal, the Plymouth Council on Aging is proud to officially open its new facility this December.

This new Plymouth Senior Center will be better equipped to handle the needs of a large and diverse population of senior citizens. As Plymouth is home to more than 12,000 individuals over the age of sixty, this is certainly no easy task. The new building is conveniently situated next to Plymouth North High School, and students are excited to be able to more easily volunteer at the Senior Center. The Council on Aging will continue to provide many necessary services to Plymouth senior citizens, and all who are connected with this organization are excited to see its continued growth in the future.

Mr. Speaker, please join me in thanking the Plymouth Council on Aging for its many years of dedicated service to the citizens of Plymouth. I ask that my colleagues join me in recognizing this accomplishment, and in congratulating the organization upon the opening of its new Senior Center.

IN HONOR OF MAJOR JOHN SHIPE AND HIS SERVICE TO OUR COUNTRY

HON. TIMOTHY J. WALZ

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mr. WALZ of Minnesota. Mr. Speaker, I rise to pay tribute to Major John Shipe, of the United States Army for his extraordinary dedication to duty and service to our Nation. Major Shipe will be moving on from his present assignment as a Congressional Liaison for the Army to Office of the Secretary of Defense to work on Reserve Affairs.

A native of Jacksonville, Florida, Major Shipe graduated from Jacksonville University and earned his Bachelor's Degree in Business Administration. He later earned a Master's in Legislative Affairs from George Washington University. His awards and decorations include: Bronze Star Medal, Meritorious Service Medal, Army Commendation Medal (1 Oak Leaf Cluster), Army Achievement Medal (1 Oak Leaf Cluster), the Parachutist Badge, and the German Armed Forces Proficiency Badge (Gold).

Following his graduation from Jacksonville University in May 2001, Major Shipe was commissioned in the Army Reserve as a Military Police Officer. His first assignment was with 351st Military Police Company in Ocala, FL where he served as a Platoon Leader and Company Commander. He left his job as an

Account manager for the General Electric Company to deploy in support of Operation Iraqi Freedom from May 2003 to June 2004. During his time in the combat zone, he was responsible for training Iraqi Security Forces and providing security to convoys throughout Southern Iraq. After returning from his tour in Iraq, John choose to go onto active duty as an Army Reserve Officer and move to Lubbock, Texas where he served in the 413th Civil Affairs Battalion from 2006 to 2008. In 2008, John moved to Columbus, Ohio to take command of the 342nd Military Police Company. As its commander, Major Shipe deployed to Iraq for a second time in 2008. This time John served in Tikrit and was partnered with the Iraqi Security Forces for more twelve months. Upon completion of his second combat tour, John was selected for the prestigious Army Congressional Fellowship Program. During his fellowship he was chosen to serve on my staff where he utilized his extensive military experience to provide expert advice on military and veterans' issues. In May 2011, he arrived in the House Army Liaison Division where he assumed his role as a Legislative Liaison and continued to honorably serve as a conduit between the Army and Congress.

Mr. Speaker, it has been a pleasure to work closely with Major Shipe over the last few years of his decorated career. On behalf of a grateful Nation, I join my colleagues today in recognizing and commending Major Shipe for dedicating his life in service to his country. For all he and his family, have given and continue to give to our country; we are in their debt. We wish him, his wife Kelli, and their three children Jacob, John and Kinsley all the best as they continue their journey to his next assignment in the United States Army.

HONORING THE HARD TIMES CAFÉ

HON. KEITH ELLISON

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mr. ELLISON. Mr. Speaker, I rise today in honor of the Hard Times Cafe on the occasion of their 20th anniversary to recognize its contribution to the culture and economy of the great state of Minnesota.

Founded in 1992 as a 24-hour restaurant, the Hard Times Cafe has become a staple of the Cedar-Riverside neighborhood of Minneapolis. The Cafe was started by eight employees out of the vestiges of a failing restaurant in the same location, The Urban Peasant. They came together to form a new cooperatively owned business that has become known for its gritty ambiance, affordable prices, and large selection of vegan and vegetarian food. The Cafe is open 22 hours a day, only closing between the hours of 4 am and 6 am.

After closing in August 2007 for required maintenance that was meant to last a few weeks, the Hard Times Cafe was forced to remain closed for a matter of months. With some assistance from a fellow Minneapolis worker cooperative, the Seward Community Café, they were able to reopen their doors at midnight on December 16, 2007 with many new improvements. The resilience of the workers at the Hard Times Café is a testament to the vitality of the American entrepreneurial

spirit and the ingenuity of Minnesotans. I applaud them for taking the initiative and creating an atmosphere that is truly unique to Minneapolis.

The Hard Times Café also contributes to the civic engagement of the city of Minneapolis; Cam Gordon, the Minneapolis Second Ward City Council Member, holds his open office hours in the Café on the first Tuesday morning of each month.

I truly appreciate everything that the Hard Times Café has contributed to Minneapolis, and I thank them for their contributions.

Mr. GRAVES of Missouri. Mr. Speaker, I proudly pause to recognize Barbara Koirtyohann upon her retirement and to reflect on her years of service to her community.

Barbara has served as the longtime Director of Public Affairs at Hallmark Cards, Ltd. THE AMERICAN ENERGY MANUFACTURING TECHNICAL CORRECTIONS ACT

SPEECH OF

HON. RON KIND

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 4, 2012

Mr. KIND. Mr. Speaker, I rise in strong support of H.R. 6582, the American Energy Manufacturing Technical Corrections Act as it provides technical corrections and regulatory certainty to a number of domestic manufacturers. The legislation, which I am proud to cosponsor, has bi-partisan and bi-cameral support, not to mention the support of manufacturers and the NGO community. More specifically I would like to thank Chairman Whitfield and Mr. ADERHOLT for including H.R. 482, the Water Heater Rating Improvement Act of 2011, or Section 3 of the underlying bill, that will fix a regulatory problem related to the test method-

ology that the Department of Energy uses to calculate the efficiency levels of water heaters, which the Department has acknowledged is broken. The legislation will also level the playing field for domestic water heater manufacturers vs. foreign manufacturers and provide the necessary regulatory and business certainty that domestic water heater manufacturers have been calling for over four years. This will also lead to significant energy saved by highly efficient U.S. produced water heaters, many of which were designed in my home state of Wisconsin. In addition, Mr. Speaker, the legislation has the potential of adding up to 1,000 jobs in domestic water heater factories, one of which is in Wisconsin, and thousands of more indirect jobs associated with the manufacturers supply chain.

Finally Mr. Speaker, I'd again like to thank Chairman WHITFIELD and Mr. WAXMAN for their hard work on the bill and steering an accommodative process, and Mr. ADERHOLT and Mr. CARNAHAN for their leadership on the legislation.

A TRIBUTE TO DINA MANFREDINI

HON. TOM LATHAM

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mr. LATHAM. Mr. Speaker, I rise today to recognize Iowan and supercentenarian Dina Manfredini on being named the most senior person in the world by the Gerontology Research Group. Dina is 115 years, 244 days young and resides in Johnston, Iowa.

Dina was born in April of 1897 in Italy before moving to the United States at age 23 where she would go on to marry and have four children. Ms. Manfredini has worked in Iowa to support her family since the 1940's when her husband was injured in Des Moines' coal mine, even cleaning houses for additional income well into her tenth decade of life.

Our world has changed a great deal during the course of Dina's 115 years. Since her birth, we have revolutionized air travel and walked on the moon. We have invented the television, cellular phones and the internet. We have fought in wars overseas, seen the rise and fall of Soviet communism and witnessed the birth of new democracies. Dina has lived in three separate centuries through twenty U.S. Presidents and twenty-six Governors of Iowa. In her lifetime, the population of the United States has more than tripled and, as of today, none can claim to be older than Dina.

Mr. Speaker, it is my distinct pleasure to honor Dina's amazing life. I invite my colleagues in the House to join me in congratulating Dina on reaching this incredible milestone, and wishing her even more health and happiness in the years to come.

IN HONOR OF THE CONNECTICUT VETERANS HALL OF FAME INDUCTEES

HON. JOE COURTNEY

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mr. COURTNEY. Mr. Speaker, on November 28th twelve new members were inducted

into the Connecticut Veterans Hall of Fame. I am happy to represent three of them in Congress. Manuel Michael Cardoza Jr. of Preston, Paul Francis Dillon of Gales Ferry, and Herbert Thomas Schacht of Quaker Hill have all served their country with distinction both in and out of uniform and each is well-deserving of their recent induction.

Manuel Cardoza served in the United States Army from 1951 to 1953, including eight months stationed in Korea. Since returning home over fifty years ago, Manuel has actively assisted his fellow veterans. He served as a commander of the Veterans of Foreign Wars posts in Norwich and Preston, as well as the American Legion Post 4. As a corporal medical technician in Korea, Manuel showed his commitment to public health through the organization of numerous health screenings throughout the state. He also served as President of the Connecticut Sickle Cell and New London Chapter Disease Research Foundation and sat on the Backus Hospital Board of Directors.

Paul Dillon is a retired Navy master chief radioman who served from 1956 to 1980. During his service in the Vietnam War, Dillon and many of his shipmates fell ill with diseases related to Agent Orange. Paul was troubled by the treatment and lack of care received for some of his colleagues. This inspired him to devote countless volunteer hours with veteran and military groups and to become a leader in the National Association for Uniformed Services. Even while he was battling prostate cancer, Paul worked hard to ensure that other Vietnam veterans received the benefits and treatments that they needed. He continues to assist retired service members and their families each Wednesday at the Retired Activities Office on the submarine base in Groton.

Herbert Schacht spent three years as a medical/surgical tech in during World War II, working stateside in Army hospitals. Upon leaving the military in 1946, Herbert returned home to work at the Waterford Country School. Although he intended to stay for a few short months, Herbert spent the next forty years aiding children with special needs and mental health issues. After retiring as the school's director, Herbert continued to dedicate much of his free time to volunteer work. He worked as a SCORE counselor where he assisted small businesses get off the ground, participated in AIDS work in Africa, and assisted an adoption service in Guatemala.

As veterans return home from serving abroad, they bring valuable skills and strength back to their communities and continue their services to the country. Their induction into the Connecticut Veterans Hall of Fame is a powerful statement of their service to our country both in active duty and as veterans. It is a small elite who receive this honor, and they will be forever remembered at the State Capitol in Hartford as true leaders and examples for future generations. I ask my colleagues to join with me in recognizing and congratulating these extraordinary veterans.

HONORING SALVATORE
CIARAMITARO

HON. JANICE HAHN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Ms. HAHN. Mr. Speaker. I rise today to honor the memory of Salvatore "Sam" Ciaramitaro, who passed away on November 27, 2012, at 73 years of age. Sam was born on March 22, 1939, in his native town of Terrasini, Sicily. He was a long-term resident of San Pedro, where he was married and raised his children. During his time in San Pedro, he worked as a commercial fisherman and was known for having the sharpest eyes on the ocean.

Sam was a master of many trades. He poured his heart into any task and completed each and every one with perfection and precision. He was his happiest when spending time with his children and grandchildren who were his pride and joy.

Sam Ciaramitaro is survived by his wife Grace; his daughter GERALYN and her husband, the recently elected Los Angeles Councilman Joe Buscaino who represents the 15th Council District in the City of Los Angeles; his daughter Mary Cammareri and her husband Mike Cammareri; his son Donny Ciaramitaro and his wife Sandra Ciaramitaro; his daughter Anna Moore; and his seven grandchildren, Paola, Gracelyn, Sammy, Brandon, Matteo, Gia, and Lucas. He will be truly missed by his friends and loved ones.

HONORING FORMER
CONGRESSMAN JACK BROOKS

HON. EDDIE BERNICE JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise today to honor the life of former Congressman Jack Brooks, the renowned Member of Congress from Beaumont, Texas. Congressman Brooks served the American people in the U.S. Congress for 42 years of his life. He was 89 years of age when he passed away last night.

Congressman Brooks was first elected to the U.S. House of Representatives in 1952. Almost immediately, Congressman Brooks turned his attention to increasing government transparency and efficiency, and this devotion became a guiding principle of his career. Congressman Brooks was pivotal in the passing of legislation that established the independent Offices of Inspector General, which oversee federal agencies in an effort to prevent fraud and waste. Congressman Brooks also crafted the standard by which the government must award federal contracts in an openly competitive process. By the end of his career, he was attributed with saving the American taxpayer billions of dollars by curbing government excess, and streamlining operations within the Executive and Legislative branches of the U.S. Government.

Congressman Brooks was also a renowned leader of social justice. Defying most of his colleagues in the Texas delegation, Congressman Brooks saw a greater future for America

through equality, and helped draft the Civil Rights Act of 1964 and the Voting Rights Act of 1965. As a true public servant devoted to the pursuit of the greater good, Congressman Brooks earned the support of labor unions, minorities, and pro-choice activists in a region that otherwise lacked the unified support for such progressive views at the time.

Mr. Speaker, Congressman Brooks was a leader among leaders, and was well regarded for his uncompromising character and integrity. As a fierce advocate for the American people, Congressman Brooks has left a lasting legacy and the indelible mark of progress in U.S. history. A true statesman, he set the bar to which all Members of Congress should aspire. I wish to extend my appreciation for his contributions to this body and to his country.

HON. LOUISE MCINTOSH SLAUGHTER

Ms. SLAUGHTER. Mr. Speaker, it is my esteemed honor to congratulate Dr. Todd Pagano, an associate professor and director of the Laboratory Science Technology program at Rochester Institute of Technology's (RIT) National Technical Institute for the Deaf (NTID), for being named the 2012 U.S. Professor of the Year by the Council for Advancement and Support of Education and the Carnegie Foundation for the Advancement of Teaching. The U.S. Professors of the Year Awards Program, created in 1981, is the only national initiative specifically designed to recognize excellence in undergraduate teaching and mentoring. Todd was selected from more than 300 applicants for this award. He is the first RIT faculty member to receive this award.

The world's first technological college for deaf students, NTID provides a world-class college education leading to jobs and career advancement for deaf and hard-of-hearing students from all 50 states. Though not deaf or hard-of-hearing, Professor Pagano's conviction to learn American Sign Language (ASL) in record time after receiving his Doctorate in Chemistry from Tufts University was already a feat in itself. His ability to effectively communicate with and inspire his students—who have a near 100 percent employment rate after graduation—is unparalleled.

While serving as Director of the Laboratory Science Technology Program and teaching a full-time class load, Professor Pagano has made it his personal mission to provide mentorship and opportunities for deaf and hard-of-hearing students to excel in the study of chemistry. He has championed the advancement of deaf and hard-of-hearing students attending NTID and witnessed the betterment and employment of countless students. As Dr. Pagano has said, "Knowing my students have acquired knowledge that can make a difference in their lives by helping them obtain a job is truly rewarding."

I am so proud of Professor Pagano and NTID and am grateful to have had the privilege to congratulate Todd and his wife—also

an educator at Rochester Institute of Technology (RIT)—personally for this prestigious recognition when they came to Washington, DC last month to accept the award.

Today, on the floor of the U.S. House of Representatives, I congratulate Professor Todd Pagano of the Rochester Institute of Technology's National Technical Institute for winning the highly celebrated 2012 U.S. Professor of the Year Award. I ask my colleagues to join me in celebration of this momentous honor.

RECOGNITION OF TAIWAN'S SUPPORT FOR HURRICANE SANDY VICTIMS

HON. ALBIO SIRE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mr. SIRE. Mr. Speaker, Hurricane Sandy was an unprecedented storm that left a dev-

astating impact on our communities in New Jersey—damaging homes, businesses, and leaving millions without power. Hudson, Essex, Middlesex, and Union counties, were hit particularly hard by Sandy. We have been fortunate to have a large team of federal, state, and local responders to assist in recovery efforts.

Beyond, the recovery and assistance efforts led by federal, state, and local responders, fellow American citizens from all over the country donated their time and money to aid Sandy victims. In addition, international aid also poured into our communities. Worthy of particular mention is the assistance provided by the government of The Republic of China (Taiwan).

On November 16, Taiwan announced that it had decided to donate \$1.3 million in relief and reconstruction aid to the United States. One million dollars will be given to United Way International and Habitat for Humanity International, charities based in Washington, D.C. These two organizations are addressing near term and long term recovery needs of communities most affected by Sandy. The rest of the funds will be distributed to the states of New Jersey and New York. A special ceremony marking the transfer of the funds to those organizations will be held in Washington, D.C. on December 6.

We are grateful to the people of Taiwan and the ROC government for extending a helping hand during this difficult time. The people of Taiwan and their government have always been charitable and generous during our times of need. Taiwan gave generously in the aftermath of Hurricane Katrina in 2005 and it was a major international donor to the Twin Towers Fund, as well as the Pentagon Memorial Fund. Taiwan was also a heavy contributor to humanitarian aid in Iraq and Afghanistan.

On behalf of my constituents and fellow Americans, I say "thank you" to our friends in Taiwan.

HONORING LAWRENCE THOMAS GUYOT, JR.

HON. BENNIE G. THOMPSON

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mr. THOMPSON of Mississippi. Mr. Speaker, I rise today to pay tribute to Mr. Lawrence Thomas Guyot who stood as one of the ideal example of a politically-engaged activist with a relentless desire to change history. Mr. Guyot's noble contributions to the Civil Rights movement gained him notoriety as one of the great champions for justice and equality in this country.

Born July 17, 1939 in Pass Christian, Mississippi, Mr. Lawrence Thomas Guyot Jr. earned his high school diploma in 1957 from Randolph High School where he was a member of the debate and basketball teams. He later attended Tougaloo College, where he earned his Bachelor of Science degree in Biology and Philosophy in 1964.

Mr. Guyot's interest in social justice issues developed while he was a student at Tougaloo College which, at that time, stood for many as a safe haven during the Civil Rights movement. Mr. Guyot, along with several other students took an active role in combating the mistreatment and exclusion of African Americans who were pursuing their right to vote; demonstrating their adamant objection to these social ills.

Mr. Guyot became an original member of the Student Nonviolent Coordinating Committee (SNCC) where he served as a field secretary working on voter education and registration throughout Mississippi. Mr. Guyot was repeatedly challenged, jailed and often beaten as he helped lead fellow members of the SNCC and student volunteers from around the nation in organizing African Americans to vote. His works impacted many of the state's counties where no African Americans were ever registered.

Through the difficult times and constant opposition, Mr. Guyot courageously continued his work in civil rights. In 1964, Mr. Guyot served as director of the 1964 Freedom Summer Project which brought thousands of young people to the state to register African Americans to vote in opposition to the state's traditional habits of excluding most African Americans from voting through acts of violence and intimidation by authorities. In the same year, Mr. Guyot further pushed the campaign for greater African American participation in politics by serving as chairman of the integrated Mississippi Freedom Democratic Party. It lost its challenge to the established Mississippi party at the Democratic National Convention in 1964, but its efforts were seen as paving the way for the landmark passage of the Voting Rights Act of 1965. Later that year, Guyot was

elected as delegate to the 1964 Democratic National Convention (DNC) in Atlantic City, New Jersey which he was unable to attend due to having been jailed following a meeting held to register a group of African American voters. However, the Mississippi Freedom Democratic Party's actions and involvement at the convention would charter in the desegregation of future conventions and an expansion on the inclusion of minorities within the Democratic Party.

After serving as a delegate of Mississippi's first integrated delegation to the Democratic National Convention in 1968, Guyot graduated from Rutgers Law School in Newark, New Jersey, served as an Advisory Neighborhood Commissions' (ANC) Commissioner in Washington, District of Columbia, and continued his efforts as a Civil Rights activist working tirelessly to educate numerous young people about the importance of voting and voting rights up until his death on November 23, 2012.

Mr. Guyot was a soldier of the people and a mentor of the youth. He spent a lifetime vigorously fighting to increase access to the voting booth and the rights of all to have their voice heard in the electoral process.

Mr. speaker, I ask my colleagues to join me in paying tribute to the outstanding life time achievements and legacy of Mr. Lawrence Thomas Guyot, Jr. His dedication and unwavering service to the underserved, underprivileged and the youths of tomorrow is laudable and more than worthy of our recognition.

Mr. CARTER. Mr. Speaker, I rise to pay tribute to Colonel (Retired) Herbert A. Coley, a member of the Senior Executive Service, for his exceptional dedication to duty and service to the United States Army and to the United States of America. On December 31st, Colonel (Retired) Herbert Coley will be leaving Federal Service after a total of 39 years of selfless and dedicated service to our Nation as an Army Officer and as a government civilian. His distinguished career is culminating as the Chief of Staff of the Army Medical Command where he ensured that Army Medicine met the needs of our Soldiers, their Families, and others entrusted to the Army's care.

The son of an Army Medic and an Army Nurse and a native of San Antonio, Texas, Colonel (Retired) Coley had more than 28 assignments over his 39 years of government service. He entered active duty in 1970 commissioned as a Second Lieutenant in the Army Medical Service Corps after graduating from Trinity University. He served 28 years as an Army Officer as an aero medical evacuation pilot, healthcare administrator and commander. His active duty Army assignments included: Air Ambulance Section Leader at Fort Stewart, Georgia and Camp Mosier, Korea; Operations Officer and Platoon Leader for the 507th Medical Company (Air Ambulance);

Commander, Headquarters and Support Company, 25th Medical Battalion, 25th Infantry Division; Commander, 507th Medical Company (Air Ambulance); Commander, 41st Combat Support Hospital; Chief of Manpower Programming and Analysis, Office of The Army Surgeon General; and, Director, Program Analysis and Evaluation, Army Medical Command. While on active duty he received a Master of Health Administration from Baylor University, graduated from the Armed Forces Staff College and was a fellow at the RAND Arroyo Center. Herbert Coley returned to government service shortly after retiring from the military and provided another 11 years of service. He had served as the Chief of Manpower Division, Army Medical Command and in 2009 he entered the Senior Executive Service as the Chief of Staff, Army Medical Command.

Colonel (Retired) Herbert A. Coley has devoted his life to the Army and our Nation's men and women in uniform. As the Chief of Staff of the U.S. Army Medical Command his skilled leadership was essential to improving the care of our Wounded Warriors and the readiness of our Army. He led this global organization with unwavering energy and compassion that endeared him to all, inspired trust and improved millions of lives. HONORING COUNCILMEMBER
NANCY PYLE UPON HER RETIREMENT
FROM THE SAN JOSE CITY
COUNCIL

HON. ZOE LOFGREN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Ms. LOFGREN of California. Mr. Speaker, I rise with my colleagues, Congresswoman ANNA ESHOO and Congressman MIKE HONDA, to acknowledge and honor Councilmember Nancy Pyle upon her retirement from the San Jose City Council.

Nancy has been the San Jose City Councilmember for District 10 since 2005, representing approximately 100,000 residents from Almaden and Blossom Valley. She graduated from LeMoyné College in Syracuse, New York, where she majored in French. She received her Masters Degree in Educational Administration from the U.S. International University in San Diego. In 1960, Nancy moved to San Jose with her family where she served as a teacher, Community Relations Manager, and Legislative Analyst for San Jose Unified School District. Nancy is a former San Jose/ Evergreen Community College Board Trustee.

On the City Council, Nancy worked hard to maintain our streets and parks, keep our neighborhoods safe, invest resources in youth and senior programs, and make city government more accountable. When the City's general fund deficit threatened to eliminate the Domestic Violence Prevention Program, Nancy pledged \$20,000 from her office budget

to help temporarily fund the City's Domestic Violence Prevention Coordinator position. When San Jose Family Camp was struggling to meet the cost-recovery requirements set by the City Council, she sought the help of Congresswoman ESHOO, Congressman HONDA, and myself. At her request, we sent a letter to the National Forest Service for a special five-year permit for San Jose's Family Camp at Yosemite. In November 2010, in order to increase public safety, Nancy proposed that San Jose adopt a Social Host Ordinance to hold adults accountable for underage drinking on private property. After advocating for nearly a year and a half, the City Council passed the ordinance last spring.

In 2010, Nancy worked with the San Jose Redevelopment Agency to open the first Whole Foods in San Jose. The opening brought new life and energy to the area and paved the way for many other businesses to successfully open their doors in the same shopping center. Nancy was honored this spring to accept the City's largest gift to date, \$4.2 million dollars privately donated to help fund a City partnership with the San Jose Unified School District for two more turf fields at Allen at Steinbeck School.

Councilmember Nancy Pyle is retiring and we wish her all the best in the years to come. We commend Nancy for her valuable service. The community is very fortunate to have benefited from her advocacy, passion, and commitment. She has left her mark in San Jose and we know she will continue to play a positive role in our community during her retirement.

REMARKS CELEBRATING THE 85TH
BIRTHDAY OF HIS MAJESTY
KING BHUMIBOL ADULYADEJ

HON. EDWARD R. ROYCE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 5, 2012

Mr. ROYCE. Mr. Speaker, on December 5th His Majesty King Bhumibol Adulyadej of Thailand celebrated his 85th birthday. I would like to take this opportunity to express my well wishes and best regards to him and to the people of Thailand.

Throughout his 66-year reign, King Bhumibol—currently the world's longest reigning monarch—has been a strong proponent for Thailand's development. Since the 1950s, he has initiated more than 4,000 development projects throughout Thailand, ranging from public health, agriculture productivity, environment, flood and drought, education and job creation.

These activities have helped raise the standard of living of Thais, particularly those in rural and difficult-to-reach areas.

King Bhumibol's hard work and contributions have earned him admiration worldwide. In 2006, the United Nations Development Programme awarded King Bhumibol its first-ever Human Development Lifetime Achievement Award.

Born in Cambridge, Massachusetts on December 5th, 1927, King Bhumibol has played an important role in promoting Thai-U.S. friendship, including his two state visits to the United States in 1960 and 1967.

As we celebrate King Bhumibol's birthday, it is an opportunity to look forward to next year's

celebration of the 180th Anniversary of the U.S.-Thailand treaty alliance. Thailand is our longest standing ally in Asia, and has been a reliable partner and friend in the region.

The United States and Thailand's partnership is wide ranging; we are economic partners, we participate in military training exercises together, and our cultural and people-to-people exchanges are on the rise. The two

countries have cooperated on counterterrorism.

As our relationship continues to strengthen, we are delighted to join our friends in Thailand in celebrating the 85th birthday of His Majesty King Bhumibol Adulyadej on December 5, 2012.
