## House of Representatives

### EXPLANATORY STATEMENT SUBMITTED BY MR. ROGERS OF KENTUCKY, CHAIRMAN OF THE HOUSE COMMITTEE ON APPROPRIATIONS REGARDING THE HOUSE AMENDMENT TO THE SENATE AMENDMENT ON H.R. 3547, CONSOLIDATED APPROPRIATIONS ACT, 2014

The following is an explanation of the Consolidated Appropriations Act, 2014.

This Act contains the twelve regular appropriations bills for fiscal year 2014. The divisions contained in the Act are as follows:

- Division A—Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2014;
- Division B—Commerce, Justice, Science, and Related Agencies Appropriations Act, 2014;
- Division C—Department of Defense Appropriations Act, 2014;
- Division D—Energy and Water Development and Related Agencies Appropriations Act, 2014;
- Division E—Financial Services and General Government Appropriations Act, 2014;
- Division F—Department of Homeland Security Appropriations Act, 2014;
- Division G—Department of the Interior, Environment, and Related Agencies Appropriations Act, 2014;
- Division H—Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2014;
- Division I—Legislative Branch Appropriations Act, 2014;
- Division J—Military Construction and Veterans Affairs and Related Agencies Appropriations Act, 2014;
- Division K—Department of State, Foreign Operations, and Related Programs Appropriations Act, 2014; and
- Division L—Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2014.

Section 3 of the Act states that, unless expressly provided otherwise, any reference to “this Act” contained in any division shall be treated as referring only to the provisions of that division.

Section 4 of the Act specifies that this explanatory statement shall have the same effect with respect to the allocation of funds and implementation of this legislation as if

it were a joint explanatory statement of a committee of conference.

Section 5 of the Act provides a statement of appropriations.

Section 6 of the Act states that each amount designated by Congress as being for Overseas Contingency Operations/Global War on Terrorism is contingent on the President so designating all such amounts and transmitting such designations to Congress. The provision is consistent with the requirements in the Budget Control Act of 2011 for Overseas Contingency Operations/Global War on Terrorism designations by the President.

Section 7 of the Act addresses possible technical scorekeeping differences for fiscal year 2014 between the Office of Management and Budget and the Congressional Budget Office.

Section 8 of the Act includes the text of the Senate amendment to H.R. 3547, relating to launch liability extension.

The Act does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined by clause 9 of rule XXI of the Rules of the House of Representatives.

### DIVISION A—AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2014

#### CONGRESSIONAL DIRECTIVES

The explanatory statement remains silent on provisions that were in both the House Report (H.Rpt. 113-116) and Senate Report (S.Rpt. 113-46) that remain unchanged by this agreement, except as noted in this explanatory statement.

The agreement restates that executive branch wishes cannot substitute for Congress’ own statements as to the best evidence of congressional intentions, which are the official reports of the Congress. The agreement further points out that funds in this Act must be used for the purposes for which appropriated, as required by section 1301 of title 31 of the United States Code, which provides: “Appropriations shall be applied only to the objects for which the appropriations were made except as otherwise provided by law.”

The House and Senate report language that is not changed by the explanatory statement is approved and indicates congressional intentions. The explanatory statement, while repeating some report language for emphasis, does not intend to negate the

language referred to above unless expressly provided herein.

In cases in which the House or the Senate have directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations no later than 60 days after enactment, unless otherwise directed.

Hereafter, in Division A of this statement, the term ‘the Committees’ refers to the Committees on Appropriations of the House of Representatives and the Senate.

#### TITLE I—AGRICULTURAL PROGRAMS PRODUCTION, PROCESSING AND MARKETING OFFICE OF THE SECRETARY

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$43,778,000 for the Office of the Secretary.

The following table reflects the agreement:

OFFICE OF THE SECRETARY (Dollars in thousands)	
Office of the Secretary .....	\$5,051
Office of Tribal Relations .....	498

<b>Total, Office of the Secretary .....</b>	<b>\$43,778</b>

During fiscal year 2013, the Department of Agriculture (USDA) failed to communicate to the Committees information related to a number of Congressional priorities. In particular, the Department failed to provide timely updates on major spending changes for the Modernize and Innovate the Delivery of Agricultural Systems and the Rental Assistance Program among others. In fiscal year 2014 and beyond, it is incumbent upon USDA to promptly notify the Committees in writing and via briefing on major changes in projects or programs in order for the Committees to fulfill their oversight responsibilities.

The agreement reiterates that reports requested by the Committees are an important part of congressional oversight. The Department is consistently delinquent in submitting these reports, especially due to excessively long reviews in the Office of the Secretary. The Secretary is directed to ensure that the dates and directives, which are

mandatory, in the House and Senate Committee reports and this agreement are met. Any agency that does not submit its report on time may be called upon to explain its actions before Congress.

In order to leverage existing capacity and expertise within the Department, the Secretary is directed to explore the creation of a Center of Excellence for loan servicing support functions in order to provide consolidated customer service, field office support, and centralized loan services to USDA agencies and other Federal agencies. The Secretary shall consult with employee representatives and management in the Farm Service Agency Farm Loan Information Technology, Accounting, and Finance Office loan servicing support functions; the Rural Development Deputy Chief Financial Officer and Deputy Chief Information Officer functions; and the Rural Housing Centralized Servicing Center. The Department is reminded that any consolidation of effort or functions is subject to the reprogramming requirements of this Act.

In accordance with the America COMPETES Reauthorization Act of 2010 (Public Law 111—358) and Office of Science and Technology Policy (OSTP) guidance, USDA has submitted a plan to make federally funded research publicly available. OSTP has yet to publish the coordinated, government-wide plan to make federally funded research publicly available. USDA is directed to report to the Committees within 30 days of the release of the OSTP report on its efforts to make such research available.

The agreement includes the full funding request for GSA Rental Payments. However, there is concern that despite a decline in staff years of over 12 percent in the past decade, rental costs have risen during this same period of time. The Department is directed to perform a comprehensive review of its rental space needs and report back to the Committees within 90 days of enactment with proposed options to reduce the total rental space and corresponding funding needs across the Department in fiscal year 2015 and beyond. The report should provide specific recommendations on where the Department may be able to consolidate space needs and where they can work with the General Services Administration to negotiate lower rental rates.

Since 2012, NASS has suspended or eliminated a number of reports due to budget constraints and has been unable to carry out

four Current Industrial Reports formerly compiled by the U.S. Census Bureau. The funding level provided will allow NASS to resume or begin compilation of these reports at the frequency levels assumed in fiscal year 2012. NASS is directed to resume all of these reports immediately upon enactment of this Act. Further, this funding level will allow NASS to carry out its full plan for fiscal year 2014 reports as presented in the budget.

AGRICULTURAL RESEARCH SERVICE

SALARIES AND EXPENSES

The agreement provides \$1,116,924,000 for the Agricultural Research Service, Salaries and Expenses.

The agreement does not accept the President's budget request regarding the termination of extramural research, reallocation of funds, or closure of six research locations. The agreement expects extramural research to be funded without the reductions assessed in fiscal years 2012 and 2013.

The agreement includes funding increases for human nutrition research, sustainable water use research, the National Agricultural Library, agroforestry, forage production, forest products, FOV Race 4, and improved scientific capacity.

OFFICE OF THE UNDER SECRETARY FOR MARKETING AND REGULATORY PROGRAMS

The agreement provides \$893,000 for the Office of the Under Secretary for Marketing and Regulatory Programs.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

SALARIES AND EXPENSES (INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$821,721,000 for the Animal and Plant Health Inspection Service (APHIS), Salaries and Expenses.

The agreement does not support the request in the President's fiscal year 2014 budget for APHIS to fund two separate accounts for Equine and Cervid Health and Sheep and Goat Health.

The latest data from 2007 indicate that the cervid industry in the U.S. accounts for 5,600 deer farms and 1,900 elk farms, has an economic value of \$894,000,000, and supports nearly 30,000 jobs. This industry is currently adapting to a 2012 interim final rule that established a national, voluntary herd certification program (HCP) that provides uniform herd certification standards and will support the domestic and international marketability of U.S. cervid herds. The agreement believes that the industry requires additional support to ensure that the newly implemented chronic wasting disease HCP is successful. Therefore, APHIS should spend no less than \$3,000,000 for cervid health activities. Within the funds provided, APHIS should give consideration to indemnity payments if warranted.

The agreement acknowledges the growing economic and ecological damage caused by feral swine across the United States. Conservative estimates indicate feral swine are present in 44 States, and agricultural losses

and control efforts cost \$1,500,000,000 annually. The agreement understands that computer models have shown that lethal methods combined with contraception could significantly reduce feral swine populations over several years. In addition to the agreement's support for the Department's proposed increased funding for feral swine management, the agreement encourages Wildlife Services to explore development and field testing of non-hormonal, species-specific oral contraceptives, such as phaged-peptide constructs.

The agreement provides funding for the animal disease traceability system within the Animal Health Technical Services line item. APHIS is directed to submit quarterly reports to the Committees with system updates on the traceability framework, State and Tribal coordination, specific cost information, assessments of progress, and any deviations from the scheduled completion dates.

The National Clean Plant Network is instrumental in ensuring that safe, virus-free plant materials are available to orchards, vineyards, and other growers. Clean plant materials are critical to keeping our agriculture industry competitive in a global marketplace. The agreement recognizes the value of the National Clean Plant Network to improve detection and eradication of viruses, encourages the Department to continue its work on this important program, and includes funding for these purposes in Plant Protection Methods Development.

The agreement provides (Sec. 748) one-time funding of \$20,000,000 for the efforts of the multi-agency coordination involving the citrus industry, Federal and State regulatory personnel, and researchers to combat the spread and eventual eradication of citrus greening. APHIS is encouraged to use reimbursable and cooperative agreements with Federal and State entities as necessary to respond to this growing threat. The Department is directed to provide the Committees with a spending plan for these one-time funds within 90 days of enactment. Funds are available until September 30, 2015.

The agreement provides \$26,900,000 for the agriculture quarantine inspections function, including pre-departure and interline inspections.

BUILDINGS AND FACILITIES

The agreement provides \$3,175,000 for Animal and Plant Health Inspection Service Buildings and Facilities.

AGRICULTURAL MARKETING SERVICE

MARKETING SERVICES

The agreement provides \$79,914,000 for the Agricultural Marketing Service.

The agreement does not approve of USDA's continued implementation, enforcement, and the associated spending related to the mandatory country of origin labeling regulation for certain meat products during the pending World Trade Organization (WTO) dispute with Canada and Mexico. When USDA responded to a WTO arbitration ruling with a final rule entitled "Mandatory Country of Origin Labeling of Beef, Pork . . ." 78 Federal Register 31367, on May 24, 2013, the final rule estimated implementation costs of

\$123,300,000 at the midpoint and ranging from \$53,100,000 at the low end to \$192,100,000 at the high end. In addition to the high cost of implementing the rule, the complainants have responded by formally stating that the revised final regulation does not address the international trade compliance concerns raised by the two countries in their WTO case. On June 7, 2013, Canada issued a list of U.S. products (agricultural and non-agricultural exports to Canada) that would face higher tariffs totaling up to \$1,100,000,000. Mexico is expected to issue a similar list of U.S. exports totaling several hundred million dollars. If the complainants do prevail, industry may be forced to change their labels and practices once again and the Nation will suffer the economic impact of approximately \$2,000,000,000 in retaliation actions affecting agriculture and non-agriculture jobs and industries across the U.S. It is strongly recommended that USDA not force increased costs on industry and consumers and that the Department delay implementation and enforcement of the final rule (78 Federal Register 31367) until the WTO has completed all decisions related to cases WT/DS384 and WT/DS386.

The agreement includes a \$1,000,000 increase above the fiscal year 2012 level for the National Organic Program.

LIMITATION ON ADMINISTRATIVE EXPENSES

The agreement includes a limitation on administrative expenses of \$60,435,000.

In addition to base funds, these supplemental contributions should provide the maximum benefit for USDA programs and other users of these images. TITLE IV—DOMESTIC FOOD PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR FOOD, NUTRITION AND CONSUMER SERVICES

The agreement provides \$811,000 for the Office of the Under Secretary for Food, Nutrition and Consumer Services.

USDA is directed to work with States to ensure full compliance with the law that all WIC and SNAP participants meet all program eligibility requirements. USDA is also directed to ensure these programs are not being promoted to ineligible individuals, which would increase program costs.

FOOD AND NUTRITION SERVICE

CHILD NUTRITION PROGRAMS

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$19,287,957,000 for Child Nutrition Programs. Included in the total is an appropriated amount of \$11,276,388,000 and a transfer from Section 32 of \$8,011,569,000.

In lieu of the language in the House and Senate reports on School Meals, the Secretary is directed to establish a waiver approval process within 90 days of enactment for States to grant waivers for the 2014-15 school year to any local educational agency that certifies it cannot operate a food service program without incurring increased costs in order to comply with the interim final rule entitled "National School Lunch Program and School Breakfast Program: Nutrition Standards for All Foods Sold in School" and/or Part 220 of title 7, Code of Federal Regulations as such part relates to establishing new nutrition standards for the school breakfast program. The Secretary is further directed to provide schools that are granted a waiver technical assistance to help with implementation in future years.

USDA is directed to provide sufficient guidance and training so that States can ensure that all approved CACFP sites providing at-risk, after-school snacks and suppers, are in full compliance with the eligibility requirements for participating in the program.

There continues to be concern about high error and improper payment rates in the National School Lunch Program (NSLP) and the School Breakfast Program (SBP). For fiscal year 2013, the NSLP had an error rate of 15.69 percent totaling \$1,800,000,000 in improper payments, and the SBP had an error rate of 25.26 percent totaling \$831,000,000 in improper payments. The agreement provides the requested funding to support USDA's efforts to reduce erroneous payments. USDA is directed to work with States and local educational agencies and submit a plan to the Committees within 60 days of enactment detailing the steps it will take to reduce high error and improper payment rates.

The agreement provides the following for Child Nutrition Programs:

**SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN (WIC)**

The agreement provides \$6,715,841,000 for the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC).

WIC regulations require the State agency conduct an on-site visit prior to or at the time of a vendor's initial authorization. The visit is part of the application review process that could take up to 90 days. USDA has taken strong actions to impose vendor moratoriums in States where questionable vendor practices have been identified. The agreement includes language to address a backlog of vendor applications that exists in States that have a federally imposed vendor moratorium. It is understood the Secretary will establish terms and conditions focusing on existing retailers that are in good standing, are at a low risk for fraud, and have existing master agreements in place.

The agreement expects the Secretary to amend 7 CFR 246.10 in order for state agencies to include all varieties of fresh, whole, or cut vegetables, except for vegetables with added sugars, fats, oils; provided that inclusion of such vegetables contribute towards meeting the special nutritional needs of program participants and increases the availability of low-cost, high-nutrient alternatives for participants throughout the year. Within 15 days of any decision not to comply, the Secretary shall submit a report to the Committees explaining such decision.

**SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM**

The agreement provides \$82,169,945,000 for the Supplemental Nutrition Assistance Program. The agreement includes \$3,000,000,000 to be made available for a contingency reserve. The agreement provides a funding level for SNAP benefits as reflected in OMB's mid-session review of the budget.

There is concern about the use of valuable tax dollars to promote enrollment of SNAP through radio, television, and other advertisements as well as outreach activities with foreign governments to encourage the use of SNAP. USDA is strongly encouraged to cease these types of government-sponsored recruitment activities.

USDA is directed to maintain restrictions for hot prepared foods and other foods intended for immediate on-premise consumption, including hot beverages and fountain drinks.

The agreement provides the following for the Supplemental Nutrition Assistance Program:

The agreement directs that not less than \$24,504,000 shall be available for FDA's Medical Countermeasures Initiative.

The agreement includes full funding as requested for implementation of the Mammography Quality Standards Act. FDA is urged to follow up the November 2011 meeting of the National Mammography Quality Assurance Advisory Committee by promptly reviewing the evidence supporting including information related to an individual's breast density in the mammogram patient report and physician report.

One of the most critical issues facing FSMA implementation is proper training of Federal and State inspection personnel. FDA is expected to implement a comprehensive training program about what the regulations require, the conduct of inspections, and the type of observations that are appropriate to include on FDA Form 483.

FDA is to be commended for its recent decision to revise language in proposed rules affecting farmers including changes to proposed regulations regarding water quality standards and testing, the use of raw manure and compost, mixed use facilities, and qualified exemptions.

There is concern that FDA's analysis of the implementation costs for the Preventive Controls for Human Food rule [FDA-2011-N-0920] significantly underestimates the cost to those entities as demonstrated in comments filed with the agency on November 22, 2013. The agency did not include regulations or a cost benefit analysis for environmental, ingredient, and finished product testing. The agency has indicated that significant changes will be needed in key provisions and is encouraged to re-propose a rule that provides the necessity, location, and frequency of testing based upon risk/cost benefit and other established verification activities. FDA is urged to stay within the framework specified in law, ensure food safety rules are risk-based, and make certain that food safety improvements are economically feasible to both the agency and the industry.

It has been determined that FDA user fee programs are subject to sequester, although they are not normal tax revenue. It is important to maintain industry support for user fee programs and for FDA to continue to meet negotiated performance standards. The Administration is thereby encouraged to reconsider the inclusion of FDA user fees when calculating sequester.

The Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010 (P.L. 111-80) included a new provision appropriating prescription drug user fees collected in excess of the fiscal year 2010 limitations stated in such Act. These fees were to be credited to the Food and Drug Administration Salaries and Expenses account and remain available until expended. It is understood that excess prescription drug fees collected prior to fiscal year 2010 remain unobligated. The intent of P.L. 111-80 was to make available such prior year excess collections. FDA is directed to make these funds, which are in excess of the fiscal year 2010 limitations, available for obligation to support the prescription drug review and approval process.

#### BUILDINGS AND FACILITIES

The agreement provides \$8,788,000 for the Food and Drug Administration Buildings and Facilities.

DIVISION B—COMMERCE, JUSTICE, SCIENCE, AND RELATED AGENCIES APPROPRIATIONS ACT, 2014

Report language included in House Report 113-171 (“the House report”) or Senate Report 113-78 (“the Senate report”) that is not changed by this explanatory statement or this Act is approved. The explanatory statement, while repeating some language for emphasis, is not intended to negate the language referred to above unless expressly provided herein. In cases where both the House report and the Senate report address a particular issue not specifically addressed in the explanatory statement, the House report and the Senate report should be read as consistent and are to be interpreted accordingly. In cases where the House report or the Senate report directs the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations (“the Committees”).

Each department and agency funded in this Act shall follow the directions set forth in this Act and the accompanying statement and shall not reallocate resources or reorganize activities except as provided herein. Reprogramming procedures shall apply to funds provided in this Act; unobligated balances from previous appropriations Acts that are available for obligation or expenditure in fiscal year 2014; and non-appropriated resources such as fee collections that are used to meet program requirements in fiscal year 2014. These procedures are specified in section 505 of this Act.

Any reprogramming request shall include any out-year budgetary impacts and a separate accounting of program or mission impacts on estimated carryover funds. Any program, project or activity cited in this statement, or in the House report or the Senate report and not changed by this Act or statement, shall be construed as the position of the Congress and shall not be subject to reductions or reprogramming without prior approval of the Committees. Further, any department or agency funded in this Act which plans a reduction-in-force shall notify the Appropriations Committees of the House and Senate by letter no later than 30 days in advance of the date of any such planned personnel action.

When a department or agency submits a reprogramming or transfer request to the Appropriations Committees of the House and Senate and does not receive identical responses by the House and Senate, it shall be the responsibility of the department or agency seeking the reprogramming to reconcile the differences between the two bodies before proceeding. If reconciliation is not possible, the items in disagreement in the reprogramming or transfer request shall be considered unapproved.

In compliance with section 535 of this Act, the Departments of Commerce and Justice, the National Aeronautics and Space Administration and the National Science Foundation shall submit spending plans, signed by the respective department or agency head, for the Committees’ review not later than 30 days after enactment of this Act.

TITLE I—DEPARTMENT OF COMMERCE  
INTERNATIONAL TRADE ADMINISTRATION  
OPERATIONS AND ADMINISTRATION

This Act includes \$470,000,000 in total resources for the programs of the International Trade Administration (ITA). This amount is offset by \$9,439,000 in estimated fee collections, resulting in a direct appropriation of \$460,561,000. Within this amount, no less than \$320,000,000 shall be designated for Global Market activities, subject to section 505 reprogramming requirements of this Act. Language in the House and Senate reports re-

garding U.S. Export Assistance Centers is adopted but modified to clarify that ITA shall brief the Committees on Appropriations regarding these matters no later than 90 days after enactment of this Act.

**SelectUSA.**—The agreement includes up to \$7,000,000 for SelectUSA activities. SelectUSA activities shall not encourage investment in the United States by state-owned entities.

**Interagency Trade Enforcement Center (ITEC).**—The agreement includes up to \$7,500,000 for ITEC. The agreement acknowledges the concerns in the House report regarding reimbursements and clarifies that agencies may transfer or reprogram funds in accordance with existing authorities and section 505 of this Act. However, the agreement underscores concerns raised with respect to transferring funds to other agencies. Further guidance regarding this matter is included elsewhere in this statement under the heading “Office of the United States Trade Representative.” ITA shall submit detailed spending plans for SelectUSA and ITEC with the fiscal year 2014 Department of Commerce spending plan.

<b>Total .....</b>	<b>\$209,500,000</b>

**Assistance for coal mining communities.**—The agreement includes House report language regarding efforts to assist communities impacted by economic dislocation in the coal and timber industries. In addition, the agreement includes no less than \$3,000,000 to enhance regional business development in areas negatively impacted by the downturn in the coal industry. Priority shall be given to those distressed counties whose coal mining job losses since July 1, 2011, as determined by data compiled by the Department of Labor, Mine Safety and Health Administration, Mine Data Retrieval System, exceed the average for job losses in the entire economy. Funds may be used for small business technical assistance, training development programs, export assistance, and other related programs.

**Regional and Innovative Manufacturing Programs.**—The agreement adopts and reiterates all House report language regarding loan guarantees under section 26 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3721), and all Senate report language regarding grants under section 27 of such Act (15 U.S.C. 3722). For these programs, and for loan guarantees under section 27 of such Act (15 U.S.C. 3722), all available

funding from fiscal year 2014 and prior years shall be centrally administered by EDA rather than by the regions. Program delays are unacceptable, and EDA is directed to work expeditiously to implement these programs and obligate the funds. In addition, the agreement clarifies that funding for all section 26 loan guarantees and section 27 grants and loan guarantees shall be administered and awarded in accordance with the requirements of 15 U.S.C. 3721-3722 rather than the Public Works and Economic Development Act (PWEDA). Other EDA programs shall continue to be implemented under the requirements of PWEDA and the Trade Adjustment Assistance Extension Act and administered through the regional offices and in compliance with related application eligibility requirements.

SALARIES AND EXPENSES

This Act includes \$37,000,000 for EDA salaries and expenses. The agreement modifies Senate report language regarding vacancies to note that EDA is expected to fill mission critical vacancies in both headquarters and the field as quickly as possible. In lieu of Senate language regarding the Advanced Manufacturing Technology Consortia (AMTech), \$15,000,000 is for ongoing AMTech activities. The agreement does not address the administration's proposal for National Network of Manufacturing Institutes (NNMI) because the NNMI legislative proposal has not been considered or approved by the Congress.

#### CONSTRUCTION OF RESEARCH FACILITIES

This Act includes \$56,000,000 for NIST construction.

#### NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

This Act includes a total of \$5,314,606,000 for the National Oceanic and Atmospheric Administration (NOAA).

#### OPERATIONS, RESEARCH, AND FACILITIES

##### (INCLUDING TRANSFER OF FUNDS)

This Act includes a total program level of \$3,287,392,000 under this account for the coastal, fisheries, marine, weather, satellite and other programs of NOAA. This total funding level includes \$3,157,392,000 in direct appropriations; a transfer of \$115,000,000 from balances in the "Promote and Develop Fishery Products and Research Pertaining to American Fisheries" account; and \$15,000,000 is derived from recoveries of prior year obligations.

The following narrative descriptions and tables identify the specific activities and funding levels included in this Act.

**National Ocean Service.**—\$471,946,000 is for National Ocean Service operations, research, and facilities. The agreement does not adopt House report language regarding a National Academy of Sciences review of NOAA's ocean and coastal data systems. Rather, this review shall commence upon completion of a GAO analysis of these same systems.

**Navigation, Observations and Positioning.**—The agreement includes the full requested level for the Navigation Response Teams and \$4,000,000 for competitive geospatial modeling grants. The agreement includes Senate report language requiring NOAA to provide a report on the establishment of two additional joint ocean and coastal mapping centers and clarifies that any fiscal year 2014 funding used to establish these centers shall be subject to approval by the Committees on Appropriations.

**Marine debris.**—NOAA shall spend up to \$6,000,000 for marine debris programs as described in the House and Senate reports.

**Ocean and Coastal Management and Services.**—Within the amounts for Coastal Zone Management Grants, no funding is for Regional Ocean Partnership grants.

**National Marine Fisheries Service (NMFS).**—\$812,560,000 is for NMFS operations, research, and facilities.

**Regional fisheries office.**—Senate report language regarding the closure of the NMFS Northeast Regional Office is not adopted. Since the Senate report was filed, NOAA has submitted its plan for how NMFS will improve its core functions in the Mid-Atlantic region. NOAA has made progress implementing this plan and shall continue making improvements in fiscal year 2014. The agreement modifies Senate report language by continuing operations at the Northeast Regional Fisheries Office, but directs NOAA to change the name of the office to the Greater Atlantic Regional Fisheries Office to better reflect the geographic region that office represents, which includes New England, the Mid-Atlantic and Great Lakes areas. The agreement further recommends that NMFS improve services to the fishing industry, as described in Senate report language, by enhancing operations at fishery science centers and fishery statistics offices to give NMFS stronger local connections throughout the region. With minimum investments and changes over time, such efforts could provide fishermen with more immediate access to NMFS support services at existing local offices in their home States and homeports.

**Electronic logbooks.**—The agreement reiterates Senate language that NOAA shall maintain full funding for the continued installation of electronic logbooks and monitoring systems, which are both inherent to NOAA's core mission and essential to the implementation of current fishery regulations. The electronic monitoring systems shall be part of an integrated at-sea monitoring program and shall serve as an alternative to observers for vessels carrying such electronic monitoring systems. The agreement clarifies that NMFS shall work in fiscal year 2014 with the small boat fixed gear fleet to implement a cooperative research program designed to test the functionality of available electronic monitoring systems. This cooperative research program shall address data quality, costs, species identification capabilities, and the reliability of hardware. NMFS shall ensure that this effort is adequately resourced for the fiscal year 2014 work program. Further, when evaluating requests by small boat fixed gear vessels seeking a release from the

requirement to carry a human observer due to a lack of physical space or other operational constraint, NMFS is encouraged to exercise reasonable discretion in making such determinations.

<i>National Weather Service (NWS).—</i>	
\$953,627,000 is for NWS operations, research, and facilities. Funding for the core life and safety missions fulfilled by the National Weather Service remains a high priority for the Committees on Appropriations. Investments in improved forecasting capabilities included in this Act and in Public Law 113-2, the Disaster Relief Appropriations Act, demonstrate the Committees' continued commitment to NOAA's weather enterprise. The agreement reiterates both House and Senate report language regarding the National Weather Service, including concerns raised about prior Antideficiency Act violations, transition of research capabilities, and consolidation of information technology activities in the context of a broader examina-	

tion of a future staffing model for the National Weather Service. NOAA shall brief the Committees on Appropriations on no less than a quarterly basis regarding ongoing activities at the National Weather Service. Senate report language regarding data agreements and software development as a means to ingest, process, and assimilate data is modified to remove specific reference to geostationary hyperspectral data.

*National Mesonet Program.*—The continuation of the mesonet program through an open competitive process is supported. Senate language regarding a single, multiyear type of award is not adopted, and is further clarified in that any mesonet award competition should ensure that awardees provide data in formats that NWS may use in forecasts and severe weather alerts. The agreement recommends that NOAA conduct a study of how mesonet data can be integrated into the Advanced Weather Interactive Processing System. Within the funds provided, NOAA may, but is not required to, expand network coverage and add additional observations.

**PROCUREMENT, ACQUISITION AND CONSTRUCTION**

This Act includes a total program level of \$2,029,864,000 in direct obligations for NOAA Procurement, Acquisition and Construction (PAC), of which \$2,022,864,000 is appropriated from the general fund and \$7,000,000 is derived from recoveries of prior year obligations. The following narrative description and table identify the specific activities and funding levels included in this Act:

**NOAA weather satellites.**—The agreement provides the full requested amounts for NOAA's flagship weather satellites, including the Geostationary Operational Environmental Satellite-R (GOES-R) program and the Joint Polar Satellite System (JPSS). The Committees are aware that a recent analysis by the Independent Review Team found that NOAA has made significant progress and improvements in overall program management and interagency collaboration and that the GOES-R and JPSS programs are proceeding well and being effectively executed. However, this assessment also concludes, along with prior assessments made by the Commerce Inspector General and the Government Accountability Office, that critical issues remain to be addressed, namely JPSS gap mitigation and program fragility. The Committees expect NOAA to present a strategy with the fiscal year 2015 budget that fully addresses both the short- and long-term challenges associated with the gap and fragility of the program. Such a strategy shall examine the proposed polar free flyer mission, which the agreement does not fund due to fiscal constraints. NOAA is expected to focus on the weather mission and to better address the weather gap in its fiscal year 2015 budget. In addition, NOAA may

use JPSS funds included in this Act and prior appropriations for the procurement of additional spare instruments and spacecraft as necessary to ensure the continuity of polar observations. NOAA shall consult with the Committees on Appropriations prior to beginning this effort. NOAA shall continue to provide quarterly updates to the Committees on the status of its weather satellite portfolio.

This Act includes \$65,000,000 for Pacific Coastal Salmon Recovery.

**FISHERIES DISASTER ASSISTANCE**

This Act includes \$75,000,000 for Fisheries Disaster Assistance. The agreement modifies Senate report language by clarifying that eligibility for this funding includes fishery disasters declared by the Secretary of Commerce in calendar years 2012 and 2013. Funding in this bill for fisheries disaster assistance is a one-time occurrence and responds to the specific disaster declarations in 2012 and 2013. The Department shall continue working with States and Tribes in the future with respect to fishery disaster determinations and shall continue to work with the

Congress on future fisheries disasters funding requests, as necessary, consistent with existing Federal laws and authorities.

**FISHERMEN'S CONTINGENCY FUND**

This Act includes \$350,000 for the Fishermen's Contingency Fund.

**FISHERIES FINANCE PROGRAM ACCOUNT**

This Act includes language under this heading limiting obligations of direct loans to \$24,000,000 for Individual Fishing Quota loans and not to exceed \$100,000,000 for traditional direct loans.

**DEPARTMENTAL MANAGEMENT**

**SALARIES AND EXPENSES**

This Act includes \$55,500,000 for Departmental Management salaries and expenses. The agreement adopts House and Senate language regarding a Commerce Inspector General report on the monitoring of obligation balances. This report shall be provided to the Committees on Appropriations no later than 60 days after enactment of this Act.

**Working Capital Fund.**—The agreement does not support the level requested for the Department's Working Capital Fund. Instead, the Department shall submit with its fiscal year 2014 spending plan a list of transfers to and activities to be funded from the Working Capital Fund based on funding levels provided in this Act. Within these amounts, the agreement supports the proposed plan to establish the Enterprise Security Operations Center from the Working Capital Fund.

**Repatriation and manufacturing initiatives.**—

The agreement includes House bill and report language on repatriation and manufacturing initiatives and further directs the Department, in conjunction with the task force on job repatriation and manufacturing growth established in Public Law 112-55, to work with the agencies funded in this division to issue a report specifying the legislative and regulatory authorities available to ensure that the Federal Government reaps the maximum benefit from intellectual property developed as a result of Federally funded research. The report, to be issued within 180 days after enactment of this Act, shall describe how the agencies funded in this division could use these authorities to ensure that agency research discoveries yield commercial technologies that are manufactured domestically. The report shall additionally include specific recommendations for improving domestic intellectual property transfer and retention, and advancing related domestic manufacturing derived from such intellectual property. In addition, the Secretary of Commerce is expected to convene a National Manufacturing Repatriation summit to focus on best practices from States and industry on how the Department can encourage more American companies to return their manufacturing operations to the United States. The Secretary shall provide the Committees on Appropriations with a report summarizing any findings and recommendations of this event no later than 120 days following the first day of its convening.

**RENOVATION AND MODERNIZATION**

This Act includes \$4,000,000 for continuing renovation activities only at the Herbert C. Hoover Building.

TITLE II—DEPARTMENT OF JUSTICE

GENERAL ADMINISTRATION  
SALARIES AND EXPENSES

This Act includes \$110,000,000 for General Administration, Salaries and Expenses.

Since January 1, 2011, the Department of Justice (DOJ) has experienced more than 3,500 vacancies of core staff positions due to retirement or separation—about 3 percent of the workforce. Funding included in this Act for component agencies will allow hiring to improve readiness at the Department. It is expected that DOJ will prioritize hiring to fill vacant operational positions in the field including FBI, ATF and DEA Special Agents; Deputy U.S. Marshals; intelligence analysts; and Federal prosecutors.

In lieu of the House proposal to transfer funds to the Office of Inspector General (OIG) for an independent review of the management and policies of the Civil Rights Division, the agreement includes funding for such activity under the OIG appropriation as described below.

This Act includes language under general provisions requiring a Department-wide spending plan that encompasses plans for all Department agencies and activities, which supersedes direction in the Senate report.

To counter growing cyber threats, the agreement bolsters resources for DOJ capabilities to investigate and prosecute cases against cyber criminals, organized crime, and nation-state actors. To better inform budget formulation and help DOJ apply resources precisely and efficiently, the Department shall provide the Committees on Appropriations, not later than 120 days after the date of enactment of this Act, a multiyear strategic plan that identifies re-

sources, programs and coordination structures needed to enable DOJ to prevent and respond more rapidly to future attacks. The plan should include recommendations for the DOJ cybersecurity workforce; collaboration with Federal agencies, State and local law enforcement, and the private sector; intelligence sharing among DOJ components and with other Federal agencies; and how DOJ can target technology procurement to maximize impact and minimize waste.

The Department shall review its existing legal penalties for companies associated with industrial espionage, as proposed in the House report, and brief the Committees on Appropriations on the efficacy of current penalties and recommendations for their improvement, in lieu of the report proposed by the House.

The Justice Department and the administration are encouraged to work with Congress, as proposed in the Senate report, on ways to reform DOJ enforcement and incarceration policies in order to address the burden of funding and supporting a rapidly growing inmate and detention population. Further direction is provided under “Federal Prison System, Salaries and Expenses” and “State and Local Law Enforcement Assistance” with regard to new assessments of Federal corrections policies, and DOJ shall take into account the results of such efforts and similar ones in developing its strategies and policies with regard to stemming the growth of the incarcerated population.

The Department shall brief the Committees on Appropriations not later than 120 days after the enactment of this Act on registration requirements and the number of lobbyists registered under the Foreign Agents Registration Act and the Lobbying Disclosure Act, as specified in the House report, in lieu of the House requirement to submit a report.

The Department shall submit a comprehensive report on all Department of Justice anti-human trafficking activities no later than 60 days after the date of enactment of this Act, as specified in the House report, with the exception that any information on sensitive matters pertinent to a full description of such activities may be provided to the Committees on Appropriations in a briefing before that date.

The Department shall brief the Committees on Appropriations not later than 120 days after enactment of this Act on Justice Department personnel and budgetary resources based in or assigned to support law enforcement efforts in Puerto Rico and the U.S. Virgin Islands as specified in the House report, in lieu of the report proposed by the House.

The Department shall brief the Committees on Appropriations not later than 120 days after enactment of this Act on its actions to establish and implement a policy for all Department of Justice agencies and officials that aligns with FBI policy restricting non-investigative relations with groups found to have provided material support for terrorist organizations, as specified in the House report.

JUSTICE INFORMATION SHARING TECHNOLOGY

This Act includes \$25,842,000 for Justice Information Sharing Technology, and includes a Senate proviso permitting the Attorney General to transfer funds to this account from funds available to the Department for enterprise-wide information technology initiatives.

ADMINISTRATIVE REVIEW AND APPEALS  
(INCLUDING TRANSFER OF FUNDS)

This Act includes \$315,000,000 for the Executive Office for Immigration Review (EOIR) and the Office of the Pardon Attorney, of

which \$4,000,000 is derived by transfer from fee collections.

Within the amounts provided, EOIR shall take steps as specified in the House and Senate reports to better serve vulnerable populations such as children, improve court efficiency through pilot efforts aimed at improving legal representation including support for custodians of unaccompanied and undocumented children, continue efforts to enhance the Legal Orientation Program, and expand its adjudication capacity.

OFFICE OF INSPECTOR GENERAL

This Act includes \$86,400,000 for the Office of Inspector General (OIG). Within this amount, \$1,000,000 shall be used to select an independent entity to conduct an assessment of the operation and management of the Department's Civil Rights Division (CRT). The results of this review shall be submitted to the Committees on Appropriations not later than one year after enactment of this Act, and shall address shortcomings identified in the March, 2013 OIG report, “A Review of the Operations of the Voting Section of the Civil Rights Division,” and include recommendations for specific management and policy remedies for management and operations issues in the Division dating from at least December, 2000.

This Act includes \$8,245,802,000 for the salaries and expenses of the Federal Bureau of Investigation (FBI), including \$1,690,000,000 for Intelligence, \$3,335,000,000 for Counterterrorism/Counterintelligence, \$2,645,000,000 for Criminal Enterprises and Federal Crimes, and \$575,802,000 for Criminal Justice Services. The agreement does not include a rescission of \$71,000,000 in prior year funds proposed in the Senate bill.

*Liaison partnerships.*—The Office of Inspector General, in a September 2013 report (I-2013-007R), found significant failures by the FBI to implement the policy it established in 2008 that prohibits non-investigative relations with a group found to have provided material support for terrorist organizations, documented violations of the policy at several field offices, and recommended action to ensure effective enforcement of existing policy and educate personnel who are involved with executing the policy. The FBI shall brief the Committees on Appropriations not later than 60 days after the enactment of this Act on how the OIG recommendations have been implemented, and what action the FBI has taken in response to any violations.

*9/11 Commission recommendations.*—The agreement includes \$1,000,000 to continue the comprehensive external review of the implementation of recommendations for the FBI proposed in the report by the National Commission on Terrorist Attacks Upon the United States (the "9/11 Commission"). The deadline to report to Congress on the findings of the independent review specified in the explanatory statement accompanying the fiscal year 2013 Department of Justice appropriations is extended until such time as the review is complete, or one year after the date of enactment of this Act, whichever is earlier. It is expected that the FBI will provide those conducting this congressionally directed review the independence, flexibility and resources required to conduct their review, and to enable reviewers to communicate their findings and recommendations to the FBI and to the Congress.

*Next Generation Cyber Initiative.*—The FBI shall, within funding provided, continue efforts at a level above fiscal year 2013 to support its Next Generation Cyber Initiative and cyber task forces, as specified in the House and Senate reports.

Committees on Appropriations on the possible role of the Chinese government or its political entities in controlling or influencing international educational, cultural or professional exchanges in which U.S. officials participate.

*Human trafficking.*—The FBI shall follow directions in both House and Senate reports with regard to increasing its human trafficking cases and enhancing its cooperation with other law enforcement agencies and improving crime reporting. In addition, the FBI shall submit a report on its agent utilization and staff resources devoted to investigations and prosecutions and include actual and estimated data covering the period 2011 through 2014.

*Anti-gang efforts.*—The FBI shall continue to sustain its National Gang Intelligence Center from within the total appropriation provided, as specified in the House report. In addition, the FBI shall sustain at no less than current levels its participation and leadership in Safe Streets Task Forces and similar cooperative anti-gang programs.

*Insider threats.*—The FBI shall submit to the Committees on Appropriations a classified report, with a summary unclassified to the greatest extent possible, on trends in espionage in U.S. laboratories, industry, and academia, as specified in the House report, not later than 120 days after the enactment of this Act.

*Financial fraud.*—The FBI shall, from within funding provided, make it a priority to sustain its financial and mortgage fraud investigations at not less than the fiscal year 2013 level.

*Criminal Justice Information Services Division (CJIS).*—Within funding provided, and including user fees, the FBI should sustain CJIS at no less than the fiscal year 2013 level.

*FBI headquarters consolidation.*—The agreement adopts, by reference, Senate language regarding FBI headquarters consolidation. FBI headquarters consolidation is expected to result in a full consolidation of FBI headquarters so that employees currently located at the J. Edgar Hoover building may be collocated with colleagues who are currently spread out across 20 leased offices in the region.

*Surveillance.*—Within funding provided, the FBI shall strive to meet the level of effort and funding proposed in the Senate report concerning surveillance.

*National Instant Criminal Background Check System (NICS).*—Within the amount provided, the FBI is expected to increase resources by \$60,000,000 to expand the capacity of the existing NICS system to meet the rising volume of requests for NICS checks.

*Innocent Images.*—Within funding provided, the FBI shall sustain efforts to investigate those who prey on children online, as specified in the Senate report, at a level no less than that supported in fiscal year 2013.

*Terrorist Explosive Device Analytical Center (TEDAC).*—The agreement provides \$30,000,000 to continue ongoing FBI counter-improvised explosive device (IED) initiatives, including \$16,500,000 under Construction and \$13,500,000 under this account for recurring operations and maintenance, permanent change of station expenses, and staffing for facilities that will be complete in 2014. The FBI may propose a transfer between these two accounts, as necessary, in accordance with the standard reprogramming guidelines, to address changing requirements.

*Assessments of mobile phones in-flight.*—The FBI shall coordinate with the Department of Homeland Security, the Federal Aviation Administration, and the Federal Communications Commission (FCC) to ensure any relevant research or threat assessments are taken into account as the FCC considers

changes to rules regarding in-flight use of mobile phones.

CONSTRUCTION

This Act includes \$97,482,000 for FBI Construction, of which up to \$16,500,000 is included for additional facilities to support the exploitation and warehousing of IEDs by the TEDAC. This is in lieu of the Senate proposal to transfer funds to the “Salaries and Expenses” account.

DRUG ENFORCEMENT ADMINISTRATION  
SALARIES AND EXPENSES

This Act includes a direct appropriation of \$2,018,000,000 for the salaries and expenses of the Drug Enforcement Administration (DEA). DEA expects to derive \$360,917,000 from fees deposited in the Diversion Control Fund to carry out the Diversion Control Program. The agreement includes language under the Community Oriented Policing Services (COPS) program transferring \$10,000,000 to DEA for methamphetamine lab cleanup. DEA shall continue anti-gang enforcement efforts, including collaboration with other Federal, State and local law enforcement agencies, from within the amounts provided.

BUREAU OF ALCOHOL, TOBACCO, FIREARMS AND EXPLOSIVES

SALARIES AND EXPENSES

This Act includes \$1,179,000,000 for the salaries and expenses of the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF). ATF shall continue cooperative anti-gang enforcement efforts with other Federal, State and local law enforcement agencies from within the amounts provided.

*Firearms tracing, enforcement and regulatory oversight.*—Within the amount provided, ATF is expected to undertake an enhancement of its enforcement and regulatory efforts, to include updating and expanding the National Integrated Ballistic Imaging Network (NIBIN), as proposed in both House and Senate reports. ATF shall provide a briefing, in lieu of the report called for in the House report, to the Committees on Appropriations no later than 60 days after the date of enactment of this Act on the allocation of fiscal year 2014 funding for violent crime enforcement, regulatory efforts and firearms tracing, to include NIBIN.

FEDERAL PRISON SYSTEM  
SALARIES AND EXPENSES  
(INCLUDING TRANSFER OF FUNDS)

This Act includes \$6,769,000,000 for the salaries and expenses of the Federal Prison System, including \$2,492,500,000 for Inmate Care and Programs, \$2,951,000,000 for Institution Security and Administration, \$1,114,500,000 for Contract Confinement, and \$211,000,000 for Management and Administration. The Bureau of Prisons (BOP) shall give top priority in this account to filling existing and new vacancies to ensure safe and secure operations at existing facilities.

Senate report language regarding a Government Accountability Office (GAO) assessment of the growing cost of housing Federal inmates and detainees is adopted by reference, as is the requirement for the BOP to submit a comprehensive plan to address prison population growth. Further direction on Federal corrections reform is provided under “State and Local Law Enforcement Assistance” in this statement.

Within funding provided, BOP is expected to use contract confinement funding at no less than the fiscal year 2013 level to alleviate overcrowding. Similarly, within the funding provided, BOP should continue efforts to expand Second Chance Act and Residential Drug Abuse Program capacity.

BOP shall include detailed, project-specific information on activations in the Departmental spending plan required by this Act.

BUILDINGS AND FACILITIES

This Act includes \$90,000,000 for the construction, acquisition, modernization, maintenance and repair of prison and detention facilities housing Federal inmates.

BOP is directed to include detailed project-specific spending plans for both the New Construction and the Modernization and Repair decision units, along with a comprehensive report on the current modernization and repair backlog, in the Department’s spending plan required by this Act. The agreement adopts Senate language requiring BOP to use the findings from the GAO report on prison overcrowding in preparing a long-term plan to address needs, including, where warranted, the construction of new facilities; and House language directing BOP to move forward with ongoing facilities planning for future prison construction to meet projected capacity requirements.

LIMITATION ON ADMINISTRATIVE EXPENSES,  
FEDERAL PRISON INDUSTRIES, INCORPORATED

This Act includes a limitation on administrative expenses of \$2,700,000 for Federal Prison Industries, Incorporated (FPI).

STATE AND LOCAL LAW ENFORCEMENT  
ACTIVITIES

In total, this Act includes \$2,274,300,000 for State and local law enforcement and crime prevention programs. This amount includes \$2,193,300,000 in discretionary budget authority and \$81,000,000 scored as mandatory for Public Safety Officer Benefits.

House and Senate report language regarding management and administration expenses is adopted by reference, and it is clarified that the Department’s methodology for assessing these costs should be both fair and equitable across all grant programs.

*Spending plan.*—The Department shall submit a spending plan and related materials for each program funded under this heading to the Committees on Appropriations not later than 30 days after the enactment of this Act, along with the overall spending plan required by this Act. In matters in the House report under this heading that call for a plan for the use of funds for a specific grant program, such requirement shall be satisfied by inclusion in the overall spending plan unless otherwise provided herein.

*Vision 21.*—The agreement includes \$12,500,000 in discretionary funding under State and Local Law Enforcement Assistance for Vision 21, which seeks to bring better technology, planning, research and data into the crime victims services field. House report language regarding Vision 21 is not adopted.

DOJ shall coordinate its forensics initiative activities with NIST.

There is concern that the administration’s forensic sciences initiative, as proposed in the budget request, lacks the involvement of the State and local practitioner community, making the community an observer—not a participant—in addressing forensic reform, and thereby running the risk that the initiative will not take into consideration existing, proven standards and processes used within the community. It is expected that the Forensic Science Advisory Committee will consider the need to exercise independent scientific judgment and, among other factors, recommendations from leading scientific organizations and leading professional organizations in the field of forensic science. It is also expected that the Forensic Science Advisory Committee will consult with key and relevant stakeholder groups prior to advancing forensic science solutions or reforms.

*Human trafficking.*—The agreement includes \$14,250,000 for victims of human trafficking. OJP shall consult with stakeholders in determining the overall allocation of this funding, including amounts allocated to assist foreign national victims, and such details shall be included in the spending plan required by this Act.

*DNA grants.*—Senate bill language regarding certain requirements for Debbie Smith Act grants is not included. OJP shall ensure that labs receiving funds made available through the Debbie Smith DNA Backlog Grant Program are operating in good standing and properly accredited before disbursing grant funding.

*Byrne-Justice Assistance Grant (JAG) sub-grantees.*—The agreement includes Senate report language regarding State-imposed matching requirements on Byrne-JAG sub-grantees, and DOJ is urged to work with States to find alternatives to such requirements.

*Violent Gang and Gun Crime Reduction.*—The agreement provides \$8,500,000 for competitive grants aimed at reducing homicides and gun-related violent crime in communities overwhelmed by gangs of national significance and illegally purchased and trafficked guns.

*National Instant Criminal Background Check System (NICS) Initiative grants.*—The agreement includes \$58,500,000 for grants to improve records in the NICS system. These funds will strengthen NICS by assisting States in finding ways to add more records to the system, especially mental health records. This will help close gaps in Federal and State records currently available in NICS, which hinder the ability to confirm quickly whether a prospective purchaser is prohibited from acquiring a firearm.

The agreement consolidates the National Criminal History Improvement Program and the NICS Act Record Improvement Program

(NARIP), allowing grants to be made under both authorities. Not less than \$12,000,000 shall be available only for States meeting the requirements for NARIP.

*Comprehensive School Safety Initiative.*—The agreement includes \$75,000,000 for a Comprehensive School Safety Initiative, a research-focused initiative to increase the safety of schools nationwide. The Initiative shall bring together the Nation's best minds to research the root causes of school violence, develop technologies and strategies for increasing school safety, and provide pilot grants to test innovative approaches to enhance school safety across the Nation. The National Institute of Justice (NIJ) shall develop and implement the Initiative and shall report to the Committees on Appropriations no later than 90 days after the date of enactment of this Act on its implementation plans.

NIJ shall collaborate with key partners from law enforcement, mental health, and education disciplines to develop a strategy and model for comprehensive school safety. The model should take into account concerns about the "school-to-prison pipeline" discussed in the Senate report. NIJ shall provide to the Committees on Appropriations a report detailing the results of this effort and an outline of the model not later than 90 days after the date of enactment of this Act. Immediately following the development of this model the NIJ shall make it available via the Department of Justice website.

Of the amounts provided, \$50,000,000 shall be for pilot grants to improve school safety aligned with the model described in the preceding paragraph. These grants may be used to: test and evaluate technologies and strategies to improve school safety; develop and update school safety assessments and plans; provide technical assistance or training; and support and assess other programs and technologies that are intended to enhance overall school safety efforts. Schools, in consultation with law enforcement and school mental health professionals, should coordinate when applying for funding. Uses of such funding should conform to the schools' own comprehensive school safety assessments and plans, and should advance the goal of developing, testing and discerning best practices for school safety. In awarding such grants, NIJ shall take into account the extent to which the activities to be funded by the grants align with the model, are informed by research, and are designed with a rigorous evaluation component to ensure that taxpayer funds are being spent effectively.

In addition, not less than \$25,000,000 shall be for research and evaluation. Such research shall analyze potential root causes of violence in schools, including gaps in the Nation's mental health system and exposure to violence in media. In addition, the Initiative shall examine promising new approaches and technologies to determine the most effective measures for the improvement of school safety, such as the development of comprehensive school safety assessments; the development and implementation of appropriate training modules; effectiveness of surveillance cameras; or new ways of designing schools to improve survivability in the event of a mass shooting incident. NIJ shall disseminate its research results, in both urban and rural areas, so school administrators and local officials can implement proven methods to keep schools and communities safe.

The Department's OIG shall conduct audits and oversight of funds provided under this Initiative. The OIG shall also review concerns raised by the public about specific investments using funds made available in this program, and relay findings of their reviews to the Director of the NIJ and the Committees on Appropriations.

*Colson Task Force.*—Of the amount provided for justice reinvestment, not less than \$1,000,000 is included to establish and support the operations of a nine-person, bipartisan, blue ribbon Charles Colson Task Force on Federal Corrections to address challenges in the Federal corrections system, as described in the House report. To create this task force the Department shall, no later than 60 days after enactment of this Act, choose an organization that will convene individuals with recognized relevant expertise in justice reinvestment and corrections reform. Not later than 12 months after its first meeting, the task force shall prepare and submit a report that contains a statement of its findings, conclusions, and recommendations to the Congress, Attorney General and President.

The task force shall develop practical, data-driven policy options to increase public safety, improve offender accountability, reduce recidivism, and control growth of spending on corrections. Such findings should include legislative actions for the Congress to consider. As part of its work, the task force shall examine: overcrowding in BOP facilities and options to avert continued growth in the system population; measures to address overcrowding within facilities; violence in the system, including gang violence, and improved public safety measures; prison rehabilitation and employment programs; and reentry programs and policies to reduce recidivism. The task force shall also undertake a comprehensive analysis of relevant criminal justice data; identify factors driving the growth in prison populations; study "lessons learned" from successful State-level justice reinvestment initiatives; and evaluate current and potential criminal justice policies, including the cost-effectiveness of spending on corrections.

*Part B—State Formula Grants.*—The agreement provides \$55,500,000 for Part B—State Formula Grants, which help States implement the Juvenile Justice and Delinquency Prevention Act and improve their juvenile justice systems. As the agreement terminates funding for the Juvenile Accountability Block Grant (JABG) program, the Act allows up to \$10,000,000 provided under the Part B subparagraph to be used for building, expanding, renovating, or operating temporary or permanent juvenile correction, detention, or community corrections facilities, which are authorized activities under the former JABG program. OJP shall ensure that States using funding under this program for operating juvenile facilities include

in their grant reporting a plan to transition away from using Juvenile Justice grant funding for such purposes in future fiscal years. In addition, OJP shall work with States to understand how Part B funding can be used for purpose areas where JABG and Part B overlap. OJP shall also ensure that States are aware of JABG purpose areas for which Byrne-JAG funding may be used. OJP should encourage States to pay particular attention to activities that are evidence based as well as those that increase offender accountability.

*New initiatives.*—The agreement includes \$5,000,000 for Juvenile Justice and Education Collaboration Assistance, which will help encourage evidence-based responses to youth discipline in schools and lessen the need for involvement of police and courts in youth misbehavior. The agreement also includes \$1,000,000 for Competitive Grants for Girls in the Justice System, which will focus on the unique needs of female offenders.

*Grantee audit recommendations.*—The efforts of OJP and OIG to ensure that Federal grant funding is efficiently and effectively spent are strongly supported. OJP is urged to continue working with both OIG and affected grantees to review and implement audit recommendations as quickly as practicable in order to minimize the administrative and financial burden on those grantees and the disruption of services to the community.

In addition, \$16,300,000 is provided for disability benefits for public safety officers permanently and totally disabled as a result of a catastrophic injury and for education benefits for the spouses and children of officers killed in the line of duty or permanently and totally disabled as a result of a catastrophic injury sustained in the line of duty.

**TITLE III—SCIENCE**

**OFFICE OF SCIENCE AND TECHNOLOGY POLICY**

This Act includes \$5,555,000 for the Office of Science and Technology Policy (OSTP).

*Science, Technology, Engineering and Math (STEM) education reorganization.*—While the Congress is supportive of attempts to improve efficiency and effectiveness in Federal STEM education programs, the proposed reorganization of these programs contained in the budget request was incomplete and lacked sufficient detail. The proposal contained no clearly defined implementation plan, had no buy-in from the education community and failed to sufficiently recognize

or support a number of proven, successful programs. Accordingly, the agreement does not adopt the reorganization; all STEM activities are funded in their existing programmatic structures unless explicitly noted otherwise elsewhere in this statement or through language in either the House or Senate report that is not modified or superseded by this statement.

OSTP shall reexamine other possible reorganizations of Federal STEM programs for consideration in a future fiscal year after engaging in an inclusive development process (involving the interagency community and major external stakeholders) and taking into consideration evaluations and other evidence of program success.

*Dissemination of STEM findings.*—The report on the dissemination of STEM education findings requested in the House report shall be provided no later than 90 days after the enactment of this Act.

*Interagency Working Group on Neuroscience (IWGN).*—The agreement incorporates language from the House report regarding OSTP’s commendable efforts to coordinate and increase neuroscience research throughout the Federal government. In recognition of the international interest in furthering neuroscience research, OSTP shall, to the extent possible, identify possible opportunities for international collaboration to further the goals and efforts of the IWGN.

*Public access to federally funded research.*—Major Federal research agencies are in the process of drafting and implementing plans to enable public access to federally funded research findings in accordance with guidance issued by OSTP in February, 2013. OSTP shall report to the Committees on each agency’s progress in developing and implementing its plan. The first such report shall be submitted within 45 days of the enactment of this Act, with semi-annual updates thereafter.

**NATIONAL AERONAUTICS AND SPACE ADMINISTRATION**

This Act includes \$17,646,500,000 for the National Aeronautics and Space Administration (NASA).

*Asteroid Redirect Mission (ARM).*—NASA has proposed a new mission known as the ARM that would engage both scientific and human exploration activities. While the ARM is still an emerging concept, NASA has not provided Congress with satisfactory justification materials such as detailed cost estimates or impacts to ongoing missions. The completion of significant preliminary activities is needed to appropriately lay the groundwork for the ARM prior to NASA and Congress making a long-term commitment to this mission concept.

*Reprogrammings and transfers.*—Reprogramming and transfer authorities exist so that NASA can respond to unexpected, exigent circumstances that may arise during the fiscal year, not so that NASA can pursue its internal priorities at the expense of congressional direction. If NASA persists in abusing its reprogramming and transfer authorities, those authorities will be eliminated in future appropriations acts.

A table of specific funding allocations for NASA is delineated below, and additional detail may be found under the relevant account headings.

SCIENCE

This Act includes \$5,151,200,000 for Science. *Education and Public Outreach (EPO).*—Consistent with longstanding NASA practice, the agreement maintains EPO funding within the Science Mission Directorate (SMD). The current method of distributing EPO funds within SMD, however, may not produce the most efficient allocation of limited resources. For fiscal year 2015 and future years, NASA shall consider consolidating EPO funding within each SMD division and allocating funds to individual activities based on an assessment of division-wide priorities and program effectiveness.

*Earth Science.*—Within the amounts provided for Earth Science, NASA shall comply with direction from the Senate report on land imaging; the Soil Moisture Active Passive mission; Ice, Cloud and Land Elevation Satellite-2; the Pre-Aerosol, Clouds, Ecosystem mission; carbon monitoring; and SERVIR.

The language contained in the House report regarding funding for the Deep Space Climate Observatory and for climate sensors previously planned for inclusion in NOAA's Joint Polar Satellite System (JPSS) is not adopted. Prior to expending any funds on the development of the JPSS climate sensors, however, NASA shall submit to the Committees a development plan for each sensor, including a notional budget and schedule profile covering the budget run-out period as well as a description of the effect this funding will have on the achievement of existing NASA priorities as recommended in the 2007 Earth Science decadal survey.

*Planetary Science.*—In lieu of any amounts included for specific Planetary Science activities in the House and Senate reports, the agreement provides \$130,000,000 for Research and Analysis; up to \$40,500,000 for Near Earth Object Observation; \$285,000,000 for Discovery; \$258,000,000 for New Frontiers, including \$218,700,000 for OSIRIS-REx; \$288,000,000 for Mars Exploration, including \$65,000,000 for the development of the Mars 2020 Rover; \$159,000,000 for Outer Planets, including \$80,000,000 for a Jupiter Europa mission as described in the House report; and

\$146,000,000 for Technology, including up to the requested level for Plutonium-238 production.

NASA shall use the funds provided for the Discovery program to support extended operations for the Messenger program and to increase the tempo by which Announcements of Opportunity (AOs) are released and missions are selected from those AOs. NASA is encouraged to initiate a new Discovery AO no later than May 1, 2014 with final phase two selection and award of one or more missions by September, 2015.

NASA's discontinuation of Advanced Stirling Radioisotope Generator (ASRG) flight system development activities may disadvantage individuals or teams whose Planetary Science mission proposals assumed, based on NASA's previous AOs and development schedule, that ASRG technology would be available to them when needed. NASA shall take steps to mitigate the impact on such proposers and ensure that they have sufficient opportunities to compete for funds in the future with adjusted mission concepts that no longer rely on ASRG technology.

*Astrophysics.*—Within the amounts provided for Astrophysics, NASA shall comply with direction from the Senate report regarding the Hubble Space Telescope, the Balloon Project and the Wide Field InfraRed Survey Telescope.

*Heliophysics.*—Within the amounts provided for Heliophysics, NASA shall comply with direction from the Senate report regarding the Magnetospheric MultiScale mission, Solar Probe Plus and the Explorer program.

AERONAUTICS

This Act includes \$566,000,000 for Aeronautics.

SPACE TECHNOLOGY

This Act includes \$576,000,000 for Space Technology.

EXPLORATION

This Act includes \$4,113,200,000 for Exploration.

*Human Exploration Capabilities.*—The following language pertaining to the Space Launch System (SLS) and Orion Multi-Purpose Crew Vehicle supersedes all positions expressed in either the House or Senate report unless otherwise noted.

The agreement reiterates disappointment in NASA's SLS budget submissions and its failure to follow congressional direction to base the SLS budget on NASA's own independent cost assessment (ICA). Adequate funding for SLS, a top NASA priority, is necessary to support program goals, preserve progress already made toward achieving the upcoming test flight and maintain a schedule that supports accomplishing an initial operating capability in 2017. The agreement provides \$1,600,000,000 under the "Exploration" heading to maintain critical forward momentum for the core development of SLS and, where practicable, components that will allow SLS to become a 130 metric ton vehicle, including the J2-X engine, upper stage, advanced boosters and SLS-related infrastructure. Due to continuing concerns regarding the diversion of funding intended for vehicle development to activities with only tangential relevance to SLS, NASA shall not use SLS funds for engineering or other activities that are not directly related to SLS vehicle development. Further, NASA shall leverage its existing investments and find common designs that will limit the number of changes necessary during SLS development.

Until such time that NASA can produce sufficient information to the Committees that accurately reflects known funding requirements, NASA should not rely on anything other than its own ICA to guide its

funding recommendations for SLS for fiscal year 2015.

NASA shall provide the quarterly SLS spending reports and the report on additional potential uses of the 130 metric ton SLS configuration as originally described in the House report. The quarterly spending reports shall also track key milestones and schedules in vehicle development and activities related to all SLS vehicle and ground systems work.

The agreement also provides \$1,200,000,000 for the Orion Multi-Purpose Crew Vehicle, including \$3,000,000 under the "Construction and Environmental Compliance and Restoration" heading. This funding will allow NASA to keep Orion development on schedule with SLS to meet upcoming testing milestones and to achieve initial operational readiness in 2017.

*Commercial crew.*—The agreement provides \$696,000,000 for the Commercial Crew Program (CCP) and confirms the intent of the House and Senate reports on Federal Acquisition Regulation—based contracts, private investment, safety standards and the number of CCP partners. In addition, NASA shall comply with language from the Senate report regarding rocket testing infrastructure.

The primary purpose of the CCP has always been to develop a national capability to restore domestic access to the International Space Station (ISS) as quickly and safely as possible. Currently, the ISS is scheduled to complete its mission by 2020, and NASA has no definitive plan yet to extend the mission beyond that date. This uncertainty has a substantial impact on planning and financial requirements in the CCP that must be addressed. To that end, the agreement withholds from obligation a portion of CCP funds until NASA certifies that the program has undergone an independent benefit-cost analysis that takes into consideration the total Federal investment in the CCP and the expected operational life of the ISS. "Expected operational life" shall be defined by NASA based on an ISS sustainability plan that includes a comprehensive systems assessment, identification of critical functional and scientific capabilities and long term funding projections as described in the Senate report. Benefits and costs shall be examined in relation to current ISS crew transportation practices.

In addition to the certification itself, both the ISS sustainability plan used to derive the ISS expected operational life and an unredacted copy of the independent benefit-cost analysis shall be provided to the Committees.

SPACE OPERATIONS

This Act includes \$3,778,000,000 for Space Operations.

*International Space Station.*—The agreement does not include the specific funding level for the ISS contained in the Senate report. However, the agreement maintains strong support for the ISS, and the operational and financial concerns expressed in both the House and Senate reports stand. The agreement also modifies financial reports required by both the House and Senate reports pertaining to the operational costs of the ISS to include one reporting requirement detailed under the "Exploration" heading of this statement.

*Satellite servicing.*—The agreement supports the Senate's direction on satellite servicing but modifies the total amount to \$100,000,000, including the requested amounts in both the Space Technology and Human Exploration and Operations Mission Directorates and carryover funding from fiscal year 2013.

*Space and Flight Support.*—The agreement provides the requested levels for the 21st Century Space Launch Complex and Rocket Propulsion Testing programs.

**ISS intellectual property (IP).**—The agreement encourages more research on the ISS but acknowledges that current IP rules may encumber the commercial application of such research. NASA shall submit to the Committees within 45 days of the enactment of this Act, or provide within its fiscal year 2015 budget request, proposed policies or legislation that appropriately address concerns regarding the ownership of IP, including inventions and data, developed through the use of the ISS. NASA shall take into consideration regulations and policies currently in place for industries that have an interest in using the ISS as a research platform.

#### EDUCATION

This Act includes \$116,600,000 for Education.

**Space Grant.**—Any Space Grant funds available in excess of the amount needed to fulfill base awards shall be made available to all consortia on a competitive basis.

**Experimental Program to Stimulate Competitive Research (EPSCoR).**—NASA shall consider and incorporate the findings of the November, 2013 report of the National Academy of Sciences on the EPSCoR program into its fiscal year 2015 budget request.

**STEM Education and Accountability Projects (SEAP).**—Consistent with language from the Senate report, NASA may reorganize and consolidate Office of Education activities funded within SEAP as proposed in the budget request.

#### CROSS AGENCY SUPPORT

This Act includes \$2,793,000,000 for Cross Agency Support.

**Security.**—In fiscal year 2013, NASA commissioned a review of its security policies and procedures by the National Academy of Public Administration (NAPA). Upon receipt of the final NAPA report, NASA shall submit to the Committees a list of NAPA's recommendations for action along with a proposed response to each recommendation. This report shall be updated on a quarterly basis to document NASA's progress in implementing its responses.

**Infrastructure.**—The NASA Office of Inspector General (OIG) recently released a number of reports, including IG-12-20, IG-13-008 and a memorandum dated December 11, 2013, examining NASA's real property management. These reports found, in part, that NASA needs to revise its leasing guidance to ensure public notification of leasing opportunities, use competitive awarding practices whenever possible and help ensure the appropriate application of ancillary lease benefits such as aviation fueling. NASA shall report to the Committees on the status of each recommendation contained in the OIG reports, as well as any further steps taken by the agency to improve its real property management practices outside of the OIG recommendations. This report shall be provided no later than 120 days after the enactment of this Act.

As NASA continues its efforts to find non-governmental entities to take over its underutilized infrastructure, NASA should make that infrastructure available, to the greatest extent possible, through means that maximize flexibility and access for all interested users.

**Reports.**—All reports directed by the Committees shall be provided in electronic form as well as hard copy.

#### CONSTRUCTION AND ENVIRONMENTAL COMPLIANCE AND RESTORATION

This Act includes \$515,000,000 for Construction and Environmental Compliance and Restoration. Within the amount provided, up to \$142,000,000 shall be for Exploration Construction of Facilities.

#### OFFICE OF INSPECTOR GENERAL

This Act includes \$37,500,000 for the Office of Inspector General.

#### ADMINISTRATIVE PROVISIONS

This Act includes the following administrative provisions for NASA:

- a provision that makes funds for announced prizes available without fiscal year limitation until the prize is claimed or the offer is withdrawn;
- a provision that establishes terms and conditions for the transfer of funds; and
- a provision that subjects the NASA spending plan and specified changes to that spending plan to reprogramming procedures under section 505 of this Act.

#### NATIONAL SCIENCE FOUNDATION

This Act includes \$7,171,918,000 for the National Science Foundation (NSF).

#### RESEARCH AND RELATED ACTIVITIES

This Act includes \$5,808,918,000 for Research and Related Activities (R&RA).

**Terminations and reductions.**—NSF's R&RA termination and reduction proposals are incorporated unless specifically noted otherwise in this statement or in language in either the House or Senate report that is not modified or superseded by this statement.

**International Ocean Discovery Program (IODP).**—The agreement provides the requested amount for IODP.

**Cross-Foundation initiatives.**—Limits on the implementation of OneNSF initiatives as proposed in the Senate report are not included. However, future growth in interdisciplinary research should not come at the expense of adequate support for infrastructure and core research programs in each of NSF's individual scientific disciplines. NSF is urged to assess and refine the balance among these activities in its budget request for fiscal year 2015 and future years.

#### MAJOR RESEARCH EQUIPMENT AND FACILITIES CONSTRUCTION

This Act includes \$200,000,000 for Major Research Equipment and Facilities Construction. Funds are provided at the request level for all projects for which construction has already begun, and remaining funds are for the initiation of the Large Synoptic Survey Telescope (LSST) project. If NSF determines that LSST requires additional funding in fiscal year 2014, NSF may submit a transfer proposal to provide such funds.

#### EDUCATION AND HUMAN RESOURCES

This Act includes \$846,500,000 for Education and Human Resources (EHR).

**Terminations and reductions.**—NSF's EHR termination and reduction proposals are incorporated unless specifically noted otherwise in this statement or in language in either the House or Senate report that is not modified or superseded by this statement.

**Broadening participation programs.**—The agreement includes funding at the fiscal year 2013 current plan level for Centers for Research Excellence in Science and Technology and at the Senate level for the Historically Black Colleges and Universities Program, the Louis Stokes Alliance for Minority Participation, the Tribal Colleges and Universities Program and the Alliance for Graduate Education and the Professoriate.

NSF shall comply with both House direction to report on current and potential future efforts to meet the needs of Hispanic Serving Institutions (HSIs) through existing NSF programs and Senate direction to consider the establishment of an HSI-specific program similar to NSF's other broadening participation programs.

**Advancing Informal STEM Learning (AISL).**—The agreement includes \$55,000,000 for AISL.

#### AGENCY OPERATIONS AND AWARD MANAGEMENT

This Act includes \$298,000,000 for Agency Operations and Award Management.

##### (INCLUDING TRANSFER OF FUNDS)

This Act includes \$9,000,000 for the Commission on Civil Rights.

**Oversight.**—The fiscal year 2012 and 2013 appropriations Acts provided for an inspector general (IG) for the Commission, to be filled by the Inspector General of the Government Accountability Office (GAO). This Act provides for an orderly conclusion of the GAO IG's fulfillment of this responsibility, including \$70,000 for the completion of any ongoing IG activities. House and Senate report language directing a new GAO review of the Commission is adopted by reference, but clarified to specify that the report on this review shall be due no later than 180 days after enactment of this Act. Senate language regarding additional elements of the review, such as an examination of the organizational structure of the Commission and any material differences between the work of the Commission and other work done within the Federal Government, is adopted by reference.

##### EQUAL EMPLOYMENT OPPORTUNITY

##### COMMISSION

##### SALARIES AND EXPENSES

This Act includes \$364,000,000 for the Equal Employment Opportunity Commission (EEOC). Up to \$29,500,000 shall be for payments to State and local enforcement agencies to ensure that the EEOC provides adequate resources to its State and local partners.

**Reasonable factors other than age.**—Section 538 of the House bill regarding an EEOC rule on age discrimination is not included. However, there is concern about this rule's implementation with regard to public safety personnel. EEOC shall provide a report to the Committees on Appropriations, no later than 90 days after enactment of this Act, on the steps it is taking to ensure application of this rule does not have an adverse impact on the necessary employment policies of public safety agencies.

##### INTERNATIONAL TRADE COMMISSION

##### SALARIES AND EXPENSES

This Act includes \$83,000,000 for the International Trade Commission.

OFFICE OF THE UNITED STATES TRADE  
REPRESENTATIVE

This Act includes \$52,601,000 for the Office of the U.S. Trade Representative (USTR).

There has been an increase in Economy Act transfers of funds from federal agencies to USTR, including transfers that appear to reimburse USTR for carrying out activities that fall solely under USTR's mission. USTR is directed to isolate reimbursements for payments or travel expenditures as individual transfers, and to submit documentation of and justification for all Economy Act transfers, regardless of amount, to and from other federal agencies, to the House and Senate Committees on Appropriations not less than 15 days before such transfers of sums are made.

The agreement also adopts and clarifies Senate report language urging USTR to leverage the existing resources and expertise of other Federal agencies, when appropriate, to strengthen the U.S. negotiating position, including consulting subject matter experts and utilizing available information resources at relevant Federal agencies for the purpose of supporting trade negotiating positions and saving taxpayer dollars. However, the agreement does not support solicitation of monetary resources from other Federal agencies for the purpose of carrying out USTR's own mission.

STATE JUSTICE INSTITUTE  
SALARIES AND EXPENSES

This Act includes \$4,900,000 for the State Justice Institute.

TITLE V—GENERAL PROVISIONS  
(INCLUDING RESCISSIONS)

This Act includes the following general provisions:

Section 501 prohibits the use of funds for publicity or propaganda purposes unless expressly authorized by law.

Section 502 prohibits any appropriation contained in this Act from remaining available for obligation beyond the current fiscal year unless expressly provided.

Section 503 provides that the expenditure of any appropriation contained in this Act for any consulting service through procurement contracts shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law or existing Executive Order issued pursuant to existing law.

Section 504 provides that if any provision of this Act or the application of such provision to any person or circumstance shall be held invalid, the remainder of this Act and the application of other provisions shall not be affected.

programming of funds. Language is included requiring the Department of Justice to notify the Committees 45 days in advance of any such reprogramming.

Section 506 provides that if it is determined that any person intentionally affixes a "Made in America" label to any product that was not made in America that person shall not be eligible to receive any contract or subcontract with funds made available in this Act. Section 509 prohibits funds made available in this Act from being used to promote the sale or export of tobacco or tobacco products or to seek the reduction or removal of foreign restrictions on the marketing of tobacco products, except for restrictions which are not applied equally to all tobacco or tobacco products of the same type. This provision is not intended to impact routine international trade services to all U.S. citizens, including the processing of applications to establish foreign trade zones.

Section 515 prohibits funds for acquisition of certain information systems unless the acquiring department or agency has reviewed and assessed certain risks. Any acquisition of such an information system is contingent upon the development of a risk mitigation strategy and a determination that the acquisition is in the national interest. Each department or agency covered under section 515 shall submit a quarterly report to the Committees on Appropriations describing reviews and assessments of risk made pursuant to this section and any associated findings or determinations.

Section 516 prohibits the use of funds in this Act to support or justify the use of torture by any official or contract employee of the United States Government.

Section 521 requires congressional notification for any project within the Departments of Commerce or Justice, the National Science Foundation or the National Aeronautics and Space Administration totaling more than \$75,000,000 that has cost increases of at least 10 percent.

Section 522 deems funds for intelligence or intelligence-related activities as authorized by the Congress until the enactment of the Intelligence Authorization Act for fiscal year 2014.

(RESCISSIONS)

Section 524 provides for rescissions of unobligated balances.

Section 525 prohibits the use of funds in this Act for the purchase of first class or premium air travel.

Section 526 prohibits the use of funds to pay for the attendance of more than 50 department or agency employees at any single conference outside the United States, unless the conference is a law enforcement training or operational event where the majority of Federal attendees are law enforcement personnel stationed outside the United States.

Section 528 includes language regarding detainees held at Guantanamo Bay.

Section 529 includes language regarding facilities for housing detainees held at Guantanamo Bay.

Section 530 includes language regarding the purchase of light bulbs.

Section 531 requires any department, agency or instrumentality of the United States Government receiving funds appropriated under this Act to track and report on undisbursed balances in expired grant accounts.

Section 532 prohibits the use of funds by the National Aeronautics and Space Administration or the Office of Science and Technology Policy to engage in bilateral activities with China or a Chinese-owned company or effectuate the hosting of official Chinese visitors at certain facilities unless the activities are authorized by subsequent legislation or NASA or OSTP have made a certification pursuant to subsections (c) and (d) of this section.

Section 533 prohibits funds made available by this Act from being used to deny the importation of shotgun models if no application for the importation of such models, in the same configuration, had been denied prior to January 1, 2011, on the basis that the shotgun was not particularly suitable for or readily adaptable to sporting purposes.

Section 535 requires the Departments of Commerce and Justice, the National Aeronautics and Space Administration and the National Science Foundation to submit spending plans.

Section 536 prohibits funds made available by this Act from being used to enter into a contract, memorandum of understanding, or cooperative agreement with, make a grant to, or provide a loan or loan guarantee to, any corporation that was convicted of a felony criminal violation under any Federal law within the preceding 24 months, unless the agency has considered suspension or debarment of the corporation and has made a determination that this further action is not necessary to protect the interests of the government.

Section 537 prohibits funds made available by this Act from being used to enter into a

contract, memorandum of understanding, or cooperative agreement with, make a grant to, or provide a loan or loan guarantee to, any corporation that has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability, unless the agency has considered suspension or debarment of the corporation and has made a determination that this further action is not necessary to protect the interests of the government.

Section 538 of the House bill, regarding an EEOC rule on age discrimination, is not included. Direction to EEOC on this subject is provided under title IV of this statement.

Section 541 of the House bill, expressing the sense of the Congress, is not included. Among agencies funded in this Act, those that aim to help create prosperity and/or promote economic development in distressed

communities are urged to work diligently and creatively toward advancing these goals. In addition, these agencies are urged to continue improving their metrics for measuring mission success, including the relationship between agency resources and jobs created or preserved.

Section 523 of the Senate bill, regarding Office of Inspector General websites, is not included. The requirements of this provision were enacted into permanent law in the Inspector General Reform Act of 2008 (Public Law 110-409).

Section 539 of the Senate bill, regarding vehicle fleets, is not included. Instead, all agencies and departments funded under this Act shall submit to the Committees on Appropriations, at the end of the fiscal year, a report containing a complete inventory of the total number of vehicles owned, permanently retired, and purchased during fiscal year 2014 as well as the total cost of the vehicle fleet, including maintenance, fuel, storage, purchasing, and leasing.

DIVISION C—DEPARTMENT OF DEFENSE  
APPROPRIATIONS ACT, 2014

The agreement on the Department of Defense Appropriations Act, 2014, incorporates some of the provisions of both the House-passed and the Senate-reported versions of the bill. The language and allocations set forth in House Report 113-113 and Senate Report 113-85 shall be complied with unless specifically addressed to the contrary in the accompanying bill and explanatory statement.

DEFINITION OF PROGRAM, PROJECT, AND  
ACTIVITY

The agreement delineates that, for the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119) and by the Budget Enforcement Act of 1990 (Public Law 101-508), the terms “program, project, and activity” for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 2014, the related classified annexes and explanatory statements, and the P-1 and R-1 budget justification documents as subsequently modified by congressional action. The following exception to the above definition shall apply: the military personnel and the operation and maintenance accounts, for which the term “program, project, and activity” is defined as the appropriations accounts contained in the Department of Defense Appropriations Act.

At the time the President submits the budget for fiscal year 2015, the Secretary of Defense is directed to transmit to the congressional defense committees budget justification documents to be known as the “M-1” and “O-1” which shall identify, at the budget activity, activity group, and sub-activity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel and operation and maintenance in any budget request, or amended budget request, for fiscal year 2015.

CLASSIFIED ANNEX

Adjustments to classified programs are addressed in the accompanying classified annex.

CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in the explanatory statement.

REPROGRAMMING GUIDANCE

The Secretary of Defense is directed to continue to follow the reprogramming guidance for acquisition accounts as specified in the report accompanying the House version of the fiscal year 2008 Department of Defense Appropriations bill (House Report 110-279). For operation and maintenance accounts, the Secretary of Defense shall continue to follow the reprogramming guidelines specified in the conference report accompanying H.R. 3222, the Department of Defense Appropriations Act, 2008. The dollar threshold for reprogramming funds shall remain at \$15,000,000 for operation and maintenance; \$20,000,000 for procurement; and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees annual DD Form 1416 reports for titles I and II and quarterly, spreadsheet-based DD Form

1416 reports for service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of an operation and maintenance (O-1), a procurement (P-1), or a research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

FUNDING INCREASES

The funding increases outlined in the tables for each appropriation account shall be provided only for the specific purposes indicated in the tables.

CIVILIAN FURLOUGHES

In fiscal year 2013, the Secretary of Defense furloughed most Department of Defense civilian employees for up to six days due to budgetary shortfalls caused primarily by sequestration. There is concern that the negative impact on productivity, morale, and readiness substantially outweighed the savings generated from civilian furloughs. The Bipartisan Budget Act (BBA) replaced sequester in fiscal years 2014 and 2015 with new spending limits and raised the budget limit for National Defense (Function 050) spending above the sequestration level. While the agreement does not include provisions to prohibit the use of funds to furlough civilian employees, it is assumed that the passage of the BBA and the passage of this Act will eliminate entirely any need to furlough civilian employees in fiscal year 2014.

MARINE CORPS EMBASSY SECURITY GROUP  
EXPANSION

The National Defense Authorization Act for fiscal year 2013 directed the Secretary of Defense to develop and implement a plan to increase the number of Marines assigned to the Marine Corps Embassy Security Group by up to 1,000 Marines. The agreement provides full funding, based on the Marine Corps' most recent projected fiscal year 2014 requirement, in the military personnel, operation and maintenance, and procurement accounts to support this plan. The Secretary of Defense is directed to fully fund the expansion plan in the fiscal year 2015 budget request and the Future Years Defense Plan.

REVIEW OF MILITARY SERVICE ACADEMY  
SUPERINTENDENTS

The agreement includes a provision directing a review of the role of a modern military service academy superintendent, including the criteria for selecting and evaluating the performance of a superintendent. The review shall be conducted by the Under Secretary of Defense (Personnel and Readiness) and shall examine the role of a superintendent; the criteria for selecting a superintendent; the criteria for evaluating the performance of a superintendent; the actions necessary to ensure that the military is cultivating effective superintendents; the role diversity plays in the selection of a superintendent; the ability of superintendents to adapt and respond to changes in the military; and the extent to which the nature of the work of a super-

intendent is changing, including what skills are needed to adapt to an evolving leadership role.

In conducting the review, the Under Secretary of Defense (Personnel and Readiness) should consult with a wide variety of outside experts on this issue, including current and former university presidents and former military service academy superintendents. The Under Secretary of Defense (Personnel and Readiness) is directed to submit the findings of this review to the Secretary of Defense and the congressional defense committees not later than 180 days after the enactment of this Act.

PATRIOT MODERNIZATION

The fiscal year 2014 budget request includes \$70,053,000 in Research, Development, Test and Evaluation, Army and \$256,438,000 in Missile Procurement, Army for modifications to the Patriot missile air defense system. While support for modification and modernization of the aging Patriot system continues, concerns persist regarding the Army's acquisition and funding strategies for this program.

First, while the Army has updated its decades-old requirements document, the new requirements document lacks details of the specific technologies required, the development and fielding schedules, and the costs of the overall effort. Further, the current modernization spiral is budgeted at close to \$2,000,000,000 over the next five years, with an additional \$800,000,000 required thereafter. The scope and cost of additional spirals are still to be determined, but the current spiral's costs are significant, and when combined with the costs of future spirals, the total modernization program will likely breach thresholds for what ordinarily would be an Acquisition Category I program. Therefore, there is concern that the Army plans to sole-source most of its modification program and bypass full and open competition, a practice that has historically resulted in reduced costs. Finally, it is noted that contrary to previously stated intentions from Army leaders, the Army does not have a funded plan to harvest technologies developed from Army programs previously terminated for use in the Patriot Modernization program, such as the Surface Launched Advanced Medium Range Air to Air Missile, the Joint Land Attack Cruise Missile Defense Elevated Netted Sensor System, and the Medium Extended Air Defense System. These acquisition programs were terminated after a combined investment of approximately \$6,000,000,000.

Recognizing the urgent need to address current capability gaps, the agreement recommends \$361,491,000 for modifications to the Patriot system. It is directed that not more than 50 percent of research and development funds for Patriot modification or modernization may be obligated until 30 days after the Secretary of the Army, in conjunction with the Under Secretary of Defense (Acquisition, Technology, and Logistics), provides to the congressional defense committees a plan that establishes an open system software architecture for future upgrades and technology refresh to the Patriot system in the near-term. Further, the Secretary of the Army, in conjunction with the Under Secretary of Defense (Acquisition, Technology and Logistics), is directed to provide an acquisition and funding strategy that incorporates full and open competition for Patriot modernization in the near-, mid-, and long-term with the fiscal year 2015 budget submission.

SHIP MODERNIZATION, OPERATIONS AND  
SUSTAINMENT FUND

In the fiscal year 2014 budget submission, the Navy again proposes to prematurely retire seven Ticonderoga class guided missile

cruisers and two amphibious dock landing ships that have a combined remaining service life of over 100 years. It is noted that this proposal was rejected by Congress in the National Defense Authorization Act for fiscal year 2014, as well as in Public Law 112-239, the National Defense Authorization Act for fiscal year 2013, and in Division C of Public Law 113-6, the Consolidated and Further Continuing Appropriations Act, 2013, and that Congress previously appropriated considerable funds to man, operate, sustain, and modernize these ships. As previously expressed in Senate Reports 113-85 and 112-196, and in House Reports 113-113 and 112-493, the House and Senate Appropriations Committees are concerned with this proposed elimination of force structure and believe this change is disconnected from the strategic shift to the Asia-Pacific region. Additionally, this force structure change would likely create future unaffordable shipbuilding requirements and exacerbate force structure shortfalls that negatively impact the Department's ability to meet Combatant Command requirements.

It is noted that some key assumptions that led the Navy to propose prematurely retiring these ships have changed. This includes the material condition of at least one ship being superior to what the Navy had assumed, as well as the scope and cost of modernization efforts required for these platforms to maintain their operational relevance for the balance of their service lives. It is believed that further adjustments to projected modernization efforts could be made, resulting in cost savings while retaining valuable operational capability in the near-term. Therefore, these proposed premature retirements are again denied, and the agreement directs the Secretary of the Navy to retain this force structure in its entirety. The agreement provides \$2,244,400,000 to man, operate, sustain, upgrade, and modernize only CG-63, CG-64, CG-65, CG-66, CG-68, CG-69, CG-73, LSD-41 and LSD-46 in the Ship Modernization, Operations and Sustainment Fund, as specified by Section 8107 of this Act. Recognizing the time required to plan and execute shipyard availabilities and modernization periods, these funds are made available until September 30, 2021.

However, upgrades to these ships have been delayed for too long, and therefore the Secretary of the Navy is directed to upgrade at least one of the above listed Ticonderoga class cruisers starting in fiscal year 2014. Further, the Secretary of the Navy is directed to provide to the congressional defense committees, not later than 30 days after enactment of this Act, and every 90 days thereafter, a written report, unclassified to the greatest extent possible and with a classified annex if required, detailing for each of the nine ships listed above its readi-

ness, operational and manning status, planning efforts for modernization, deployment schedules, as well as scheduled shipyard induction periods dating back to fiscal year 2012 and going forward for each fiscal year until 2021. The agreement provides the fiscal relief required by the Navy to maintain this critical force structure and allows the Navy sufficient time to budget for this force structure in future budget submissions. Therefore, no funds provided in this Act shall be used to prepare a budget submission to retire the above-listed ships.

#### NATIONAL SECURITY AGENCY

The Director of the National Security Agency (NSA) is directed to provide the following to the congressional intelligence committees, the Senate Committee on the Judiciary, and the House Committee on the Judiciary, not later than 90 days after the enactment of this Act:

(1) A report, unclassified to the greatest extent possible, which sets forth for the last five years, on an annual basis, the number of records acquired by the NSA as part of the bulk telephone metadata program authorized by the Foreign Intelligence Surveillance Court, pursuant to section 215 of the USA PATRIOT Act, and the number of such records that have been reviewed by NSA personnel in response to a query of such records. Additionally, this report shall provide, to the greatest extent possible, an estimate of the number of records of United States citizens that have been acquired by NSA as part of the bulk telephone metadata program and the number of such records that have been reviewed by NSA personnel in response to a query.

(2) A report, unclassified to the greatest extent possible and with a classified annex if necessary, describing all NSA bulk collection activities, including when such activities began, the cost of such activities, the types of records that have been collected in the past, the types of records that are currently being collected, and any plans for future bulk collection.

(3) A report, unclassified to the greatest extent possible and with a classified annex if necessary, listing terrorist activities that were disrupted, in whole or in part, with the aid of information obtained through NSA's telephone metadata program and whether this information could have been promptly obtained by other means.

#### GLOBAL HAWK BLOCK 30

The agreement supports the continuation of the Global Hawk Block 30 mission. The Secretary of the Air Force is directed to fully comply with current law, including Section 8118 of this Act prohibiting the retirement, divestment, realignment, or transfer of Global Hawk Block 30 aircraft and requiring the Air Force to maintain the operational capability of each such aircraft.

The agreement includes \$10,000,000 in Research, Development, Test and Evaluation, Air Force for the Air Force to conduct a study on the potential adaptation of U-2 sensors to the Global Hawk Block 30 airframe for flight test and demonstration. This study shall consider the technical aspects of each feasible method of adapting U-2 sensors (with particular focus on the SYERS-2 electro-optical/infrared sensor) to the Global Hawk Block 30 airframe and provide an estimated cost and schedule for each such method; assess the availability of SYERS-2 sensors to support a demonstration on the Block 30 platform and the availability of alternative sensors of comparable capability; and compare the concept of operations for using such sensors on the U-2 and Global Hawk with attention to how differences in flight performance would affect sensor performance. The Secretary of the Air Force is directed to report to the congressional defense committees on the results of this study not later than 180 days after the enactment of this Act. This report may be submitted in classified form if necessary.

#### C-130 AVIONICS MODERNIZATION PROGRAM

MILITARY RECRUITMENT AND ENLISTMENT OF  
GRADUATES OF SECONDARY SCHOOLS

The National Defense Authorization Act for fiscal year 2014 requires the Secretary of Defense to implement a means for ensuring that graduates of a secondary school, including graduates who receive diplomas from secondary schools that are legally operating or who otherwise complete a program of secondary education in compliance with state law, are required to meet the same standard of any test, assessment, or screening tool used to identify persons for recruitment and enlistment in the armed forces. The recommendation supports this provision, and the Secretary is encouraged to ensure its timely implementation.

DEPARTMENT OF DEFENSE GUIDANCE FOR THE  
APPOINTMENT OF CHAPLAINS

The agreement supports the Department of Defense Guidance for the Appointment of Chaplains for the Military Departments as currently written upon enactment of this Act. This Guidance requires all applicants to fulfill the requirements to become a chaplain, which includes endorsement by a religious organization that completes and maintains all administrative requirements as laid out by the Guidance.

HAZING IN THE ARMED FORCES

The agreement reiterates the concerns expressed in the report accompanying the House-passed Fiscal Year 2014 Department of

Defense Appropriations bill (H.R. 113-113) on hazing in the military. The act of hazing is inconsistent with the values of the military and undermines the cohesion and discipline of a unit. The Secretary of Defense is reminded that a report providing data on the rates of incidence of hazing was directed by the Consolidated and Further Continuing Appropriations Act, 2013. This report is overdue, and the Secretary of Defense is directed to provide this report, which should include a review of ways to prevent and respond to incidents, without further delay.

REPROGRAMMING GUIDANCE FOR OPERATION  
AND MAINTENANCE ACCOUNTS

The Secretary of Defense is directed to submit the Base for Reprogramming (DD Form 1414) for each of the fiscal year 2014 appropriation accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Appropriations Committees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' operation and maintenance accounts between O-1 budget activities in excess of \$15,000,000. In addition, the Secretary of Defense should follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 out of the following budget sub-activities:

*Army:*

Maneuver units  
Modular support brigades  
Land forces operations support  
Force readiness operations support  
Land forces depot maintenance  
Base operations support  
Facilities Sustainment, Restoration, and Modernization

*Navy:*

Ship depot maintenance  
Facilities Sustainment, Restoration, and Modernization

*Marine Corps:*

*Air Force:*

Primary combat forces  
Combat enhancement forces  
Combat communications  
Facilities Sustainment, Restoration, and Modernization

*Air Force Reserve:*

*Air National Guard:*

Depot maintenance

Additionally, the Secretary of Defense should follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 into the following budget sub-activity:

*Operation and Maintenance, Army National Guard:*

Other personnel support/recruiting and advertising

During fiscal year 2014, the Secretary of the Air Force is required to submit written notification and justification to the congressional defense committees not later than 30 days prior to implementing transfers in excess of \$15,000,000 out of the following budget sub-activities:

Operating forces depot maintenance  
Mobilization depot maintenance  
Training and recruiting depot maintenance  
Administration and service-wide depot maintenance

These transfers may be implemented 30 days after congressional notification unless an objection is received from a congressional defense committee.

Finally, with respect to Operation and Maintenance, Defense-Wide, proposed transfers of funds to or from the levels specified for defense agencies in excess of \$15,000,000 shall be subject to prior approval reprogramming procedures, unless otherwise specified in this explanatory statement.

JUNIOR RESERVE OFFICER TRAINING CORPS

The agreement designates the funding requested and appropriated for the Junior Reserve Officer Training Corps as a special interest item in fiscal year 2014. As such, funds are to be so designated on the DD Form 1414 (Base for Reprogramming), and any transfer of funds from this program will require a prior approval reprogramming action.

TUITION ASSISTANCE

The agreement designates the funding requested and appropriated for the Tuition Assistance program as a special interest item in fiscal year 2014. As such, funds are to be so designated on the DD Form 1414 (Base for Reprogramming), and any transfer of funds from this program will require a prior approval reprogramming action.

The agreement does not include the funding floor for tuition assistance as directed in House report 113-113. However, in order to maintain visibility of this funding, the Secretary of Defense is directed to include the prior year actual, current year estimate, and budget year request for tuition assistance in the performance criteria for the budget line item in which it is requested.

SEXUAL ASSAULT IN THE MILITARY

Sexual assault remains a pervasive problem in the military. While the military must do more to stop assaults from occurring in the first place, it must also ensure that when they do occur, assaults are investigated properly so cases may be effectively prosecuted and perpetrators held fully accountable. A 2013 Department of Defense Inspector General report evaluating the Military Criminal Investigative Organizations' sexual assault investigations found that while 89 percent of investigations completed in 2010 met or exceeded investigative standards, 11 percent of cases had significant deficiencies. The agreement directs the Secretary of Defense and the Service Secretaries to fully implement the recommendations of the Inspector General Report DODIG-2013-091, dated July 9, 2013. From the funds provided, the agreement directs the Service Secretaries to fully fund programs to train investigators on how to properly investigate sexual assault-related offenses as directed by the Inspector General report.

There are also concerns of reports in which mental health diagnoses were misused to administratively discharge or retaliate against victims of sexual assault. Victims of sexual assault should not be punished for reporting crimes committed against them. The Secretary of Defense is directed to review separation records of servicemembers who made an unrestricted report of sexual assault and to correct records of service in those cases in which the victims were improperly discharged.

The agreement also retains a provision contained in the House and Senate bills to provide an additional \$25,000,000 for the Department of Defense and made available for transfer to the Army, Navy, Marine Corps, and Air Force for the expansion of a Special Victims' Counsel program to every military Service, including the National Guard and reserve components, as authorized by the section 1716 of the National Defense Authorization Act for fiscal year 2014.

MILITARY INFORMATION SUPPORT OPERATIONS

The agreement includes an allocation of funds by combatant command and funding levels for certain programs as delineated in the classified annex. The agreement reiterates direction included in House report 113-113 designating amounts as congressional special interest items subject to sections

8005, 8006, and 9002 of this Act and the requirement for submission of a report detailing the execution of funding provided for these programs. Further direction regarding certain matters is contained in the classified annex.

VOLUNTARY MILITARY EDUCATION PROGRAMS—  
ADVERTISING AND MARKETING

The agreement underscores the importance of Department of Defense oversight to prevent abusive advertising and aggressive recruitment practices by higher education institutions that accept Tuition Assistance and My Career Advancement Account education benefits from the Department. The Department's Memorandum of Understanding [MOU] effective December 6, 2012, requires institutions participating with the Department to adopt policies in section 3g, 3h, and 3i of the MOU as "part of efforts to eliminate aggressive marketing aimed at Service members." The Secretary of Defense is directed to submit a report documenting its oversight, evaluation and enforcement of these provisions, along with institutional data on advertising and marketing budgets. The report shall be submitted not later than June 1, 2014, and shall include the number of participating institutions investigated for potential violations of section 3g, section 3h, or section 3i of the MOU and the results of those investigations; an assessment on the effectiveness of the provision in eliminating aggressive marketing targeting servicemembers or their spouses; a detailed description of the procedures and guidelines for conducting oversight of these provisions; and a voluntary accounting of the ten participating institutions who have received the most Tuition Assistance program funds in fiscal year 2013. The accounting shall establish the institution's total dollar value of its marketing, advertising and recruitment budget, and the percentage of that budget targeting servicemembers, including resources dedicated to advertising in military publications, billboards near bases, and internet lead generation efforts.

ENERGY INDEPENDENCE AND SECURITY ACT

The agreement does not include a provision proposed by the House on the Energy Independence and Security Act of 2007. It is noted that the enforcement of section 526 of the Energy Independence and Security Act of 2007 may lead to higher fuel costs for federal fleets in the absence of competitively priced new generation fuels that emit fewer emissions. In carrying out this statute, the Secretary of Defense and the Service Secretaries should work to ensure that costs associated with fuel purchases necessary to carry out the missions of their respective departments and agencies should be minimized to the greatest extent possible under the law.

MAINTENANCE OF REAL PROPERTY

The agreement directs that none of the funds made available by this Act may be used to maintain or improve Department of Defense real property with a zero percent utilization rate according to the Department's real property inventory database, except in the case of maintenance of an historic property as required by the National Historic Preservation Act (16 U.S.C. 470 et seq.) or maintenance to prevent a negative environmental impact as required by the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

CYBER COMMAND FUNDING

Funding for the United States Cyber Command, a subordinate unified command under the United States Strategic Command, currently is not discretely visible in the Air Force's budget justification material. With the increased emphasis on cyber activities

and related resourcing, the Secretary of the Air Force is directed to separately report and separately justify funds not later than the submission of the fiscal year 2016 budget justification material to support Cyber Command in sub-activity Group 015A, "Combatant Commands Direct Mission Support" and

in sub-activity Group 015B, "Combatant Command Core Operations".

## GLOBAL SECURITY CONTINGENCY FUND

The agreement includes \$30,000,000 for the Global Security Contingency Fund and maintains the current authorization amount of \$200,000,000 from within the Operations and Maintenance, Defense-Wide account.

The request for an appropriation in this account is precedent setting and was included in the fiscal year 2014 request for the first time. The reduction to this request for a direct appropriation is taken without prejudice to the fund and maintains the requested authorization ceiling.

## MEALS READY TO EAT

The Defense Logistics Agency is commended for initiating action to study the Meals Ready to Eat (MRE) War Reserve and industrial base, and the Director is to be applauded for the decision to maintain stockage levels at five million cases through at least fiscal year 2015. In order to meet this objective, and at the same time ensure the industrial base is able to meet surge requirements, the Director is encouraged to establish an annual minimum rate of 2.5 million cases as part of the current five year industry contract. The Director of the Defense Logistics Agency shall provide the congressional defense committees written notification 30 days prior to making reductions to the War Reserve after September 30, 2014.

## STEM EDUCATION AND STARBASE

The agreement finds that consolidation of Science, Technology, Engineering, and Mathematics (STEM) education and significant changes to the STARBASE program are not advisable at this time. STARBASE provides a unique low-cost leveraging of community and military resources that another federal agency will not be able to duplicate. The benefits of cooperative community and

military relationships stimulate the long-term interest of youth in STEM careers. The recommendation therefore provides \$25,000,000 to continue the Department of Defense STARBASE program in fiscal year 2014. The agreement encourages the Secretary of Defense to continue the STARBASE program through fiscal year 2015.

## SPECIAL OPERATIONS COMMAND DIRECTION

The agreement reiterates the direction included in House report 113-113 regarding the Special Operations Command National Capital Region.

The agreement transfers \$17,000,000 in funding to the Defense Health Program and directs the Service Surgeons General to work with the Commander, Special Operations Command to implement an embedded behavioral health program for special operations units during fiscal year 2014 that is consistent with Service programs.

## SPECIAL OPERATIONS COMMAND BUDGET JUSTIFICATIONS

The agreement directs that budget activities be established for the Special Operations Command operation and maintenance budget in fiscal year 2015. Additionally, the Commander, Special Operations Command, is directed to submit an OP-5 Operation and Maintenance Detail exhibit and OP-32 Summary of Price and Program Changes exhibit for each budget sub-activity. Finally, the agreement directs that normal prior approval reprogramming procedures be used to transfer funds between budget activities in excess of \$15,000,000. The following table assigns the budget activity and budget sub-activity structure:

Budget Activity 1 includes sub-activities:  
Combat development activities

Flight operations  
Other operations  
Ship/boat operations  
Base support  
Communications  
Force related training  
Intelligence  
Maintenance  
Management/operational headquarters  
Operational support  
Budget Activity 3 includes sub-activities:  
Professional development  
Specialized skill training  
Budget Activity 4 includes sub-activity:  
Acquisition/program management

The House and Senate Appropriations Committees look forward to working with the Under Secretary of Defense (Comptroller) and the Commander, Special Operations Command, to improve budget justification materials. This structure shall be the starting point and may be revised in future years based on mutually agreed upon recommendations.

## TRANS-REGIONAL WEB INITIATIVE

The agreement provides \$2,000,000 for the Trans-Regional Web Initiative in fiscal year 2014. The Commander, Special Operations Command is directed to continue expenditure of fiscal year 2013 funds for this program and transition this effort to the Geographic Combatant Commands or other agencies of the United States Government, as appropriate, starting in fiscal year 2014.

CONTRACTOR LOGISTICS SUPPORT FOR DEPOT MAINTENANCE

The Consolidated and Further Continuing Appropriations Act, 2013 consolidated all depot maintenance funding contained in the Air Force Reserve and Air National Guard budget requests in the respective Depot Maintenance sub-activity Groups (SAGs) and directed the Secretary of the Air Force to display all depot maintenance funds requested in the fiscal year 2014 budget request in the Depot Maintenance SAG. While the Air National Guard fiscal year 2014 budget request displayed all depot maintenance funds requested in the Depot Maintenance SAG, it failed to capture costs and quantities for weapons systems that rely on Contractor Logistics Support (CLS) for Depot Maintenance. This severely limits both visibility of funding for this program and the ability to conduct oversight of a program which is critical to military readiness. While funding is not reduced due to unjustified cost increases for CLS, concerns remain that the Air National Guard is unable to properly justify requested increases in CLS funding for Depot Maintenance or to differentiate between flight line activities, for which funding should be requested in the Aircraft Operations and Mission Support SAGs in the budget request, and depot maintenance activities, for which funding should be requested in the Depot Maintenance SAG.

The Secretary of the Air Force is directed to continue to display all depot maintenance funds (and only depot maintenance funds) re-

quested in fiscal year 2015 in the Depot Maintenance SAG. Funds which support flight line spares and/or repairs shall be displayed in the budget request in the appropriate SAG. The agreement further directs the Secretary to fully display costs and quantities for weapons systems that rely on CLS for Depot Maintenance in the budget request to provide full visibility of depot maintenance funding and enable effective management and oversight of this critical program.

UNITED STATES COURT OF APPEALS FOR THE ARMED SERVICES

The agreement provides \$13,606,000 for the United States Court of Appeals for the Armed Services.

ENVIRONMENTAL RESTORATION, ARMY

The agreement provides \$298,815,000 for Environmental Restoration, Army.

ENVIRONMENTAL RESTORATION, NAVY

The agreement provides \$316,103,000 for Environmental Restoration, Navy.

VIEQUES ISLAND ENVIRONMENTAL RESTORATION

The Navy is conducting environmental restoration at sites on Vieques Island associated with former Navy activities. The agreement recognizes that the Navy is working with the Puerto Rico Environmental Quality Board, the United States Environmental Protection Agency, and the Fish and Wildlife Service to select by consensus a final remedy for those sites. There remains concern regarding the current pace of cleanup action, and the Secretary of the Navy is encouraged

to accelerate cleanup efforts once a consensus is achieved. The agreement reiterates direction included in House Report 113-113 that the Secretary of the Navy shall inform the congressional defense committees on the progress of site cleanup. Additionally, the Secretary of the Army shall inform the congressional defense committees on cleanup measures occurring on the island of Culebra, Puerto Rico.

ENVIRONMENTAL RESTORATION, AIR FORCE

The agreement provides \$439,820,000 for Environmental Restoration, Air Force.

ENVIRONMENTAL RESTORATION, DEFENSE-WIDE

The agreement provides \$10,757,000 for Environmental Restoration, Defense-Wide.

COOPERATIVE THREAT REDUCTION PROGRAM

The Department of Defense Cooperative Threat Reduction (CTR) program has proven highly successful in its efforts to secure and dismantle weapons of mass destruction and their associated infrastructure in the former Soviet Union and former Soviet bloc countries. On June 17, 2013, the Russian Federation chose not to renew the umbrella agreement with the United States. Therefore, the fiscal year 2014 program has changed substantially from the fiscal year 2014 budget request.

For many years, the CTR program has been unable to obligate funding in a timely manner. Furthermore, the program has sig-

nificant flexibility which impedes oversight. For example, in fiscal year 2013, the program realigned 25 percent of its budget across different sub-accounts after enactment. This flexibility allows for dynamic changes in spending. The Congress has had little opportunity to practice due diligence in its oversight role due to the late receipt of funding changes. Section 1302 of the National Defense Authorization Act (NDAA) for fiscal year 2014 directs that no fiscal year 2014 Cooperative Threat Reduction funds may be obligated or expended for a purpose other than appropriated without submitting a report. In addition to the NDAA requirements, the agreement directs that the report include ad-

ditional justification regarding risks associated with the funding sources, cumulative accounting of changes, and the impact for each funding realignment.

DEPARTMENT OF DEFENSE ACQUISITION WORKFORCE DEVELOPMENT FUND

The agreement provides \$51,031,000 for the Department of Defense Acquisition Workforce Development Fund.

## SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in the explanatory statement.

## REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Secretary of Defense is directed to continue to follow the reprogramming guidance as specified in the report accompanying the House version of the fiscal year 2008 Department of Defense Appropriations bill (House Report 110-279). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department

shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Department of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

## ARSENAL SUSTAINMENT INITIATIVE

The agreement supports the ongoing efforts of the Department of the Army to develop the Army Organic Industrial Base Strategy. This process is identifying manufacturing capabilities at the arsenals that are critical for this country to sustain in wartime and peacetime. However, there is concern that while the Army Organic Industrial Base Strategy identified needed capabilities, the Army will not fund these capabilities at a level adequate to maintain them. To address these concerns, the agree-

ment provides \$150,000,000 to the Army Defense Working Capital Fund for the Industrial Mobilization Capacity Account to address the issue of non-competitive rates at the arsenals to better allow them to compete for public/private partnerships and other business to help sustain capacity, cost efficiency and technical competence in peacetime, while preserving the ability to provide an effective and timely response to mobilizations, national defense contingency situations, and other emergent requirements. Additionally, the Secretary of the Army is directed to release the Army Organic Industrial Base Strategy Report not later than 30 days after the enactment of this Act. Further, the Secretary of the Army is directed to assign the arsenals sufficient workload to maintain the critical capabilities identified in the Army Organic Industrial Base Strategy Report, and to brief the congressional defense committees not later than 90 days after the enactment of this Act to ensure sufficient workload for the efficient operation (also known as the “blue line level”) of the arsenals. This is also addressed in Section 8141 of this Act.

DESTROYER MODERNIZATION

The agreement fully funds the budget request for destroyer modernization and expects the Navy to continue with its original strategy of working through the inventory of oldest ships in its modernization efforts. There is concern that the Navy will attempt

a premature retirement of capable Arleigh Burke class guided missile destroyers as is being proposed for Ticonderoga class guided missile cruisers. Therefore, the Secretary of the Navy is directed to prioritize the modernization of older, Flight I and II Arleigh Burke class ships over newer Flight IIA

ships, dependent on ship availability, in order to ensure the operational readiness of the older ships throughout their projected service lives.

## SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in the explanatory statement.

## REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Secretary of Defense is directed to continue to follow the reprogramming guidance specified in the report accompanying the House version of the fiscal year 2008 Department of Defense Appropriations bill (House Report 110-279). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with guidance

specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

## JOINT STRIKE FIGHTER FOLLOW-ON DEVELOPMENT

The agreement finds that a formal capability development document for Block 4, defining the next increment of warfighting capability to be integrated into the F-35 platform, must be approved before any funding may be used to begin Block 4 development.

The agreement provides \$6,000,000 only to perform the work necessary to produce, staff, and gain approval of a Block 4 capability development document.

## COMMON DATA LINK

The agreement strongly supports increased competition for Common Data Link (CDL) devices, which are vital for securely conveying intelligence, surveillance, and reconnaissance information in the field. Accordingly, the agreement directs that no funds be obligated or expended for CDL solicitations unless they are compliant with Section 157 of the National Defense Authorization Act for fiscal year 2013. Recognizing that efforts are underway to increase competition and eliminate reliance on proprietary solutions for CDL, the agreement directs the Under Secretary of Defense (Acquisition, Technology, and Logistics) to submit a report updating the congressional defense committees on these efforts not later than 60 days following the enactment of this Act.

## BONE MARROW REGISTRY

The agreement provides \$31,500,000 for the Department of the Navy to be administered by the Bone Marrow Registry, also known as and referred to within the Naval Medical Research Center as the C.W. Bill Young Marrow Donor Recruitment and Research Program. Funds appropriated for the Bone Marrow Registry shall remain available only for the purposes for which they are appropriated and may only be obligated for the Bone Marrow Registry. This Department of Defense donor center has recruited more than 750,000 Department of Defense volunteers and provides more marrow donors per week than any other donor center in the nation. More than 5,600 servicemembers and other Department volunteers from this donor center have provided marrow to save the lives of patients. The success of this national and international life-saving program for military and civilian patients, which now includes more than 11,000,000 potential volunteer donors, is admirable. Further, the agencies involved in contingency planning are encouraged to continue to include the Bone Marrow Registry in the development and testing of their contingency plans. The Secretary of Defense shall show this as a congressional interest item on the DD Form 1414 (Base for Reprogramming). The Secretary of Defense is further directed to release all the funds appropriated for this purpose to the Bone Marrow Registry not later than 60 days after the enactment of this Act.

## NEXT GENERATION JAMMER

Senate Report 112-196 directed the Government Accountability Office (GAO) to conduct a review of the Next Generation Jammer (NGJ) program to determine if there are redundancies across the Services and to assess whether this effort should become a joint Service solution. The agreement concurs with the following GAO recommendations: the Secretary of Defense should require the NGJ capabilities development document to consider potential redundancies be-

tween the NGJ program and existing and proposed programs across all of the planned roles and to ensure that the Electronic Warfare Strategy report to Congress includes information on potentially overlapping capabilities. In addition, the GAO recently upheld the technology development bid protest highlighting four recommendations, and the agreement directs that all four recommendations be implemented. Due to the fact that the Navy is limiting competition early in the NGJ acquisition program, the Navy should acquire the necessary technical data rights and allow for an open systems architecture approach that would facilitate continued competition for the remainder of the NGJ acquisition program. As a result of the bid protest being upheld and a six month program delay, the agreement reduces the NGJ program by \$100,000,000.

## VIRGINIA PAYLOAD MODULE

The fiscal year 2014 budget request for the Virginia Payload Module (VPM) is \$59,000,000. The agreement fully funds the budget request; however, concerns remain over increasing the Virginia-class submarine size to accommodate a 93.7 foot module in the submarine's center. The module's requirements are not defined, which likely will result in instability to a proven submarine design, disrupt a stable production line, and add significant cost to the current estimates. These concerns are raised due to a history of cost growth on previous submarine development efforts. For instance, in 1999, the Navy began designing the conversion of four SSBN submarines to SSGN configurations with the initial cost estimates for a four-boat program of \$2,400,000,000. By the time these submarines were converted, the cost was \$4,000,000,000, or an increase of 66 percent above the initial estimates. Similarly, when the Navy modified SSN-23, it increased the submarine's cost by \$887,000,000 for a total of \$3,300,000,000 for one submarine.

The Department of the Navy recently received Joint Requirements Oversight Com-

mittee approval of the capabilities development document for the VPM. The document includes two additional key performance parameters for controlling costs: the non-recurring engineering cost to design the modification is limited to \$800,000,000 in constant fiscal year 2010 dollars for development, and the production cost is limited to \$475,000,000 for the lead ship and \$350,000,000 for the follow-on ships. The Navy is directed not to exceed these cost thresholds.

The Secretary of the Navy shall create a separate budget line item to enable additional congressional oversight and increase transparency into the costs of VPM. Furthermore, the Secretary shall submit a bi-annual report to the congressional defense committees describing the actions the Navy is taking to minimize costs. The agreement fences \$20,000,000 until the first bi-annual report is provided to the congressional defense committees.

## NAVY SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS PROGRAM

The agreement encourages the Office of Naval Research (ONR) to support America's Ocean Exploration Program as recommended by the Presidential Commission on Ocean Policy, which includes the development of advanced remotely controlled and autonomously operated vehicles down to 6,000 meters as well as telepresence technology. Additionally, the Secretary of the Navy is encouraged to expand the Navy's Science, Technology, Engineering, and Mathematics (STEM) Educational Outreach program to include the United States Naval Academy, thereby providing opportunities for midshipmen to participate in America's Exploration Program and serve as role models for ONR's STEM Program.

## COMBAT RESCUE HELICOPTER

The agreement includes \$333,558,000 for the Combat Rescue Helicopter (CRH) program and directs that the funds provided shall be considered a congressional special interest item. The CRH will replace the aging fleet of Pave Hawk helicopters that support not only the Air Force but combat missions across all the Services. These helicopters need to be replaced. However, in a period of fiscal austerity, the program must be affordable to ensure that it is not canceled due to insufficient funding in future years. The Air Force must continue to assess its acquisition strategy to find ways to control costs and ensure that the program remains on track to deliver these helicopters to the fleet.

Prior to any decision to terminate the CRH program due to insufficient funding in future years, the Secretary of the Air Force and the Chief of Staff of the Air Force are directed to review the threshold and objective

requirements as established in the capability development document and to review alternative acquisition strategies using cost-benefit analysis in order to establish an affordable program. The Secretary of the Air Force is directed to brief the outcome of this review to the congressional defense committees.

## HARD TARGET MUNITIONS

The Secretary of the Air Force is directed to report to the congressional defense committees on the results of the hard target munitions analysis of alternatives (AoA) not later than 15 days after the AoA is approved and to include in the report a discussion of how the fiscal year 2014 new start efforts for the 5,000-pound Joint Direct Attack Munitions demonstration and the advanced 2,000-pound penetrator demonstration are consistent with the AoA. The agreement provides that the Secretary may obligate and

expend funds for these new start efforts prior to completion of the AoA.

## HUMAN PERFORMANCE SENSING

The agreement supports Air Force Research Laboratory (AFRL) research into human performance sensing. Accordingly, the agreement encourages AFRL to continue its research into the manufacture of nanobiomaterial sensors.

## NATIONAL SECURITY SPACE PROGRAM PLANNING AND EXECUTION

The Director of Cost Assessment and Program Evaluation is directed to submit the report required by House Report 113-113 to the congressional defense committees not later than July 1, 2014.

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE

The agreement on items addressed by either the House or the Senate is as follows:

**CONVENTIONAL PROMPT GLOBAL STRIKE**

The agreement includes \$65,440,000 to continue the Prompt Global Strike program, a decrease from the \$200,383,000 appropriated in fiscal year 2013. The program achieved a significant milestone on November 17, 2011, when the Army conducted a successful flight test of the advanced hypersonic weapon (AHW). The Secretary of Defense is directed

to follow through on the stated intent of additional fiscal year 2013 funding provided for continued planning and completion of a second, longer range AHW flight test to validate the design and further confirm previously demonstrated AHW flight technology. Also, considering the fiscal constraints under which the Department of Defense is operating, the Secretary is directed to avoid

commitments that will cause funds to be used for design or development efforts intended to support a significant departure from HTV-2 or the Army's AHW payload delivery vehicle designs.

HEALTH PROGRAM

There remain concerns regarding the transfer of funds from Direct (or In-house) Care to pay for contractor-provided medical care. To limit such transfers and improve oversight within the Defense Health Program operation and maintenance account, a provision is included which caps the funds available for Private Sector Care under the TRICARE program subject to prior approval reprogramming procedures. The provision and accompanying explanatory statement language should not be interpreted by the Department as limiting the amount of funds that may be transferred to the Direct Care System from other budget activities within the Defense Health Program. In addition, funding for the Direct Care System continues to be designated as a special interest item. Any transfer of funds from the Direct (or In-house) Care budget activity into the Private Sector Care budget activity or any other budget activity will require the Secretary of Defense to follow prior approval reprogramming procedures.

The Secretary of Defense also shall provide written notification to the congressional defense committees of cumulative transfers in excess of \$15,000,000 out of the Private Sector Care budget activity.

CARRYOVER

For fiscal year 2014, the agreement recommends one percent carryover authority for the operation and maintenance account of the Defense Health Program. The Assistant Secretary of Defense (Health Affairs) is directed to submit a detailed spending plan for any fiscal year 2013 designated carryover funds to the congressional defense committees not less than 30 days prior to executing the carryover funds.

PEER-REVIEWED CANCER RESEARCH PROGRAM

The agreement provides \$25,000,000 for a peer-reviewed cancer research program to research cancers not addressed in the breast, prostate, ovarian, and lung cancer research programs currently executed by the Department of Defense.

The funds provided in the peer-reviewed cancer research program are directed to be used to conduct research in the following areas: blood cancer, colorectal cancer, genetic cancer research, kidney cancer, listeria vaccine for cancer, melanoma and other skin cancers, mesothelioma, myeloproliferative disorders, neuroblastoma, pancreatic cancer, pediatric brain tumors, and cancers related to radiation exposure.

PEER-REVIEWED MEDICAL RESEARCH PROGRAM

The agreement provides \$200,000,000 for a peer-reviewed medical research program. The Secretary of Defense, in conjunction with the Service Surgeons General, is directed to select medical research projects of clear scientific merit and direct relevance to military health. Research areas considered under this funding are restricted to the fol-

lowing areas: acupuncture, arthritis, chronic migraine and post-traumatic headache, congenital heart disease, DNA vaccine technology for postexposure prophylaxis, dystonia, epilepsy, food allergies, Fragile X syndrome, hereditary angioedema, illnesses related to radiation exposure, inflammatory bowel disease, interstitial cystitis, lupus, malaria, metabolic disease, neuroprosthetics, pancreatitis, polycystic kidney disease, post-traumatic osteoarthritis, psychotropic medications, respiratory health, rheumatoid arthritis, segmental bone defects, and tinnitus. The additional funding provided under the peer-reviewed medical research program shall be devoted only to the purposes listed above.

INTEGRATED ELECTRONIC HEALTH RECORD

The agreement includes a provision restricting the amount of funding that may be obligated for the Interagency Program Office (IPO) and the Defense Healthcare Management Systems Modernization (DHMSM) program to 25 percent of the funding provided until the Secretary of Defense provides the House and Senate Appropriations Committees an expenditure plan that includes elements such as a budget and cost baseline for full operating capability and the total life cycle costs of the program. The expenditure plan should also describe how the forthcoming Request for Proposal (RFP) for DHMSM will require adherence to data standardization as defined by the IPO. This is critical to ensure interoperability between current and future Department of Veterans Affairs and Department of Defense electronic health record systems.

It is concerning that after five years of working to establish a joint framework to collaborate and develop an integrated Electronic Health Record, the program was restructured in February 2013, with the Departments of Defense and Veterans Affairs each pursuing their own core systems. The IPO also took on a more limited but still vital role after the restructure and is now responsible for establishing, monitoring, and approving the clinical and technical data standards to ensure seamless integration of health data between the two Departments and private health care providers. The IPO is directed to deliver to the congressional defense committees, the House and Senate Subcommittees on Appropriations for Military Construction, Veterans Affairs, and Related Agencies, and the Government Accountability Office (GAO) a quarterly report that includes a detailed explanation of it is working to fulfill this new role.

As the Department of Defense prepares to release an RFP for the DHMSM in fiscal year 2014, it is imperative that it does not lose sight of the ultimate goal of interoperability with Department of Veterans Affairs health records. The Program Executive Officer (PEO) of the Defense Healthcare Management Systems (DHMS), in conjunction with the DHMSM Program Manager, is directed to

provide quarterly reports to the congressional defense committees and the GAO on the cost and schedule of the program, to include milestones, knowledge points, and acquisition timelines, as well as quarterly obligation reports. PEO DHMS is further directed to continue briefing the House and Senate Defense Appropriations Subcommittees on a quarterly basis, coinciding with the report submission. Additionally, the GAO is directed to review these quarterly reports and provide an annual report to the congressional defense committees and the House and Senate Subcommittees on Appropriations for Military Construction, Veterans Affairs, and Related Agencies on the cost and schedule of the program.

RADIATION EXPOSURE

Recent reports of sailors who have developed cancer and other health conditions linked to radiation exposure after serving on the USS *Ronald Reagan* during Operation Tomodachi, which provided humanitarian assistance following the earthquake and subsequent tsunami in Japan in March 2011, are disconcerting. The Assistant Secretary of Defense (Health Affairs) is directed to submit a report to the congressional defense committees not later than April 15, 2014, on the number of sailors serving on the USS *Ronald Reagan* during Operation Tomodachi who were potentially exposed to increased levels of radiation during the humanitarian mission. The report should include a complete inventory of any adverse medical conditions experienced by these sailors since Operation Tomodachi, as well as a description of the actions taken before, during, and after the mission to ensure the safety of sailors from nuclear radiation. It should also include a breakdown of the number of sailors who participated in Operation Tomodachi who are still Navy servicemembers, including reserve component, as well as the number of sailors who have since separated.

The Secretary of the Navy is directed to take all necessary steps to ensure that any health effects resulting from this humanitarian mission are fully addressed. The agreement includes \$200,000,000 for the peer-reviewed medical research program, \$100,000,000 for the joint warfighter medical research program, and \$25,000,000 for the peer-reviewed cancer research program. A portion of these funds should be utilized, if necessary, to carry out additional research on the health effects of radiation exposure. Further, the Secretary of the Navy is directed to report to the congressional defense committees on any research efforts related to radiation exposure, not later than 30 days after additional funds are provided to new or existing research efforts.

DEFENSE SECURITY COOPERATION AGENCY—  
COALITION SUPPORT FUND

The agreement reduces the budget request for the Coalition Support Fund by \$243,000,000. This undistributed reduction is taken without prejudice to the current year allocation but is an effort to bring balance to the account due to carryover of fiscal year 2011 unexpired funds in the same amount. When combined with the fiscal year 2011 unexpired funds, funding in the full amount requested should be available upon the enactment of this Act.

## AFGHANISTAN SECURITY FORCES FUND

The agreement reduces the budget request for the Afghanistan Security Forces Fund (ASFF) by \$365,000,000 to address requested “enablers.” Specifically, this reduction was taken due to the new position announced by the Department of Defense that it no longer intends to purchase the Mi-17 rotary wing aircraft as part of the Interior Forces equipment request. Concurrent with this decision, and following the original budget request, the Department of Defense reevaluated the total \$2,615,000,000 request for “enablers” and found that the request exceeded current requirements. Therefore, the Department notified Congress of its intent to reduce the previously requested enablers by nearly 60 percent, including eliminating requests for several platforms.

Additionally, the budget requests for the ASFF have been greatly overstated for the past four years. Excess appropriations in this

account have been carried into the following fiscal years for obligation. Because of the previously unknown demand for the needs of the Afghanistan Security Forces, Congress allowed the Department of Defense to maintain this excess funding to offset unforeseen expenses. This carryover, however, has become a constant, as have the recurring costs associated with maintaining a military and police force in Afghanistan. Therefore, an additional undistributed reduction of \$2,635,000,000 is taken in the ASFF account to eliminate continued excess carryover.

Rather than rescinding the funds from prior year appropriations, the agreement reduces the current year request as a mechanism to obtain balance within the program and is done without prejudice to the current year’s need.

## AFGHANISTAN SPECIAL MISSION WING

The Secretary of Defense is directed to provide a report to the House and Senate Appropriations Committees not later than 180 days after the enactment of this Act that details personnel, maintenance, and logistics milestones met and still to be achieved so that the Afghan Special Mission Wing (SMW) is able to operate and maintain its fleet of aircraft as well as an analysis of alternative platforms that may be able to meet SMW mission requirements over the long-term.

## AFGHANISTAN INFRASTRUCTURE FUND

The agreement reduces the budget request for the Afghanistan Infrastructure Fund

(AIF) by \$80,000,000. Amendments included during the House of Representatives floor debate reduced the requested amount by nearly 80 percent. The agreement takes into consideration the lack of granularity provided by the Department of Defense regarding projects to be completed, anticipated fuel costs or remedies for payment thereof, and anticipated projects not included in the original budget request. The lack of a detailed strategy was further compounded by a House-passed amendment that restricts the AIF to no new projects beyond those currently underway. As late as 75 days into fiscal year 2014, the Department issued the Committees a verbal and unofficial notification that it was considering two notional hydroelectric projects. No funding is provided for these projects.

BUILDING PARTNERSHIP CAPACITY—LIGHT AIR  
SUPPORT AIRCRAFT

The agreement does not include the language in Senate Report 113-85 regarding the Building Partnership Capacity Program and instead directs the Secretary of the Air Force to report to the congressional defense committees 30 days prior to entering into a contract for any future Light Air Support aircraft.

DIVISION D—ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2014 EXPLANATORY STATEMENT

The following statement to the House of Representatives and the Senate is submitted in explanation of the agreed upon Act making appropriations for energy and water development for the fiscal year ending September 30, 2014, and for other purposes.

The language and allocations set forth in House Report 113–135 and Senate Report 113–47 should be complied with unless specifically addressed to the contrary in the Act and explanatory statement. Report language included by the House which is not contradicted by the report of the Senate or the explanatory statement, and Senate report language which is not contradicted by the report of the House or the explanatory statement, is approved. The explanatory statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where both the House report and Senate report address a particular issue not specifically addressed in the Act or explanatory statement, the House report and Senate report are not inconsistent and are to be interpreted accordingly. In cases in which the House or Senate have directed the submission of a report, such report is to be submitted to both the Committees on Appropriations of the House of Representatives and the Senate. The agreement does not include direction to the National Nuclear Security Administration to submit a separate efficiencies report to the Commit-

tees on Appropriations of the House of Representatives and the Senate for fiscal years 2014 and 2015.

Funds for the individual programs and activities within the accounts in this Act are displayed in the detailed table at the end of the explanatory statement for this Act. Funding levels that are not displayed in the detailed table are identified in this explanatory statement.

In fiscal year 2014, for purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99–177), the following information provides the definition of the term “program, project, or activity” for departments and agencies under the jurisdiction of the Energy and Water Development Appropriations Act. The term “program, project, or activity” shall include the most specific level of budget items identified in the Energy and Water Development Appropriations Act, 2014 and the explanatory statement accompanying the Act.

TITLE I—CORPS OF ENGINEERS—CIVIL  
DEPARTMENT OF THE ARMY  
CORPS OF ENGINEERS—CIVIL

The summary tables included in this title set forth the dispositions with respect to the individual appropriations, projects, and activities of the Corps of Engineers. Additional items of the Act are discussed below.

Concerns persist that the effort to update the Water Resources Principles and Guidelines is not proceeding consistent with the language or intent of section 2031 of the Water Resources Development Act of 2007. No funds provided to the Corps of Engineers

shall be used to develop or implement rules or guidance to support implementation of the final Principles and Requirements for Federal Investments in Water Resources released in March 2013. The Corps shall continue to use the document dated March 10, 1983, and entitled “Economic and Environmental Principles and Guidelines for Water and Related Land Resources Implementation Studies” during the fiscal year period covered by the Energy and Water Development Appropriations Act for 2014. If Interagency Guidelines for implementing the March 2013 Principles and Requirements are finalized, the Corps shall be ready to report to the appropriate committees of Congress not later than 120 days after finalization on the impacts of the revised Principles and Requirements and Interagency Guidelines. The Corps shall be prepared to explain the intent of each revision, how each revision is or is not consistent with section 2031 of the Water Resources Development Act of 2007, and the probable impact of each revision on water resources projects carried out by the Secretary including specific examples of application to at least one project from each main mission area of the Corps.

INVESTIGATIONS

The agreement includes \$125,000,000 for Investigations. The agreement includes legislative language regarding parameters for new study starts.

*Updated Capability.*—The agreement adjusts some project-specific allocations downward from the budget request based on updated information regarding the amount of work that could be accomplished in fiscal year 2014.

*Missouri River Authorized Purposes Study, Iowa, Kansas, Missouri, Montana, Nebraska, North Dakota, and South Dakota.*—The agreement includes neither support for nor a prohibition on funding for the study of the Missouri River Projects authorized in section 108 of the Energy and Water Development and Related Agencies Appropriations Act, 2009 (division C of Public Law 111-8).

*Additional Funding.*—The fiscal year 2014 budget request does not reflect the extent of need for project studies funding. The Corps has numerous continuing studies that will be suspended or slowed unnecessarily under the limits of the budget request. These studies could lead to projects with significant economic benefits, particularly by increasing national competitiveness through marine transportation improvements and by avoiding damages caused by flooding and coastal storms. The agreement includes additional funds for work that either was not included in the administration's request or was inadequately budgeted. The direction that follows shall be the only direction used for additional funding provided in this account.

A study shall be eligible for this funding if: (1) it has received funding, other than through a reprogramming, in at least one of the previous three fiscal years; (2) it was previously funded and could reach a significant milestone or produce significant outputs in fiscal year 2014; or (3) it is selected as one of the new starts allowed in accordance with this Act and the additional direction provided below. None of these funds may be used for any item where funding was specifically denied. None of these funds may be used to alter any existing cost-share requirements. While this additional funding is shown in the feasibility column, the Corps should use these funds in recon, feasibility, and PED, as applicable. Funding associated with each category may be allocated to any eligible study within that category; funding associated with each subcategory may be allocated only to eligible studies within that subcategory. The list of subcategories is not meant to be exhaustive.

The Corps is directed to develop a rating system or systems for use in evaluating studies for allocation of the additional funding provided in this account. These evalua-

tion systems may be, but are not required to be, individualized for each category or subcategory. Each study eligible for funding shall be evaluated under the applicable ratings system. A study may not be excluded from evaluation for being "inconsistent with administration policy." The Corps retains complete control over the methodology of these ratings systems, but shall consider giving priority to completing or accelerating ongoing studies or to initiating new studies which will enhance the nation's economic development, job growth, and international competitiveness; are for projects located in areas that have suffered recent natural disasters; or are for projects to address legal requirements. The executive branch retains complete discretion over project-specific allocation decisions within the additional funds provided.

Not later than 45 days after enactment of this Act, the Corps shall provide to the Committees on Appropriations of the House of Representatives and the Senate a work plan including the following information: (1) a detailed description of the ratings system(s) developed and used to evaluate studies, including the weighting given to each factor or criterion if multiple factors or criteria are used; (2) delineation of how these funds are to be allocated; (3) a summary of the work to be accomplished with each allocation, including phase of work; and (4) a list of all studies that were considered eligible for funding but did not receive funding, including an explanation of whether each study could have used funds in fiscal year 2014, whether the study was rated as highly or more highly than other studies that did receive funding, and the specific reasons each study was considered as being less competitive for an allocation of funds. For any study excluded from funding for being "inconsistent with administration policy," the work plan shall include a detailed explanation of why each such study is inconsistent with administration policy. No funds shall be obligated for any study under this program that has not been justified in such a work plan.

*New Starts.*—The agreement includes up to nine new study starts to be balanced across the three main mission areas of the Corps (navigation, flood and storm damage reduction, and environmental restoration). Each new start shall be funded from the appropriate additional funding line item. Consideration of the nine shall not be limited to only those proposed in the administration's

budget request. In addition to the priority factors used to allocate all additional funding provided, the Corps should give careful consideration to the out-year budget impacts of the studies chosen as new starts, as well as whether there appears to be an identifiable local sponsor that will be ready and able to provide the necessary cost shares in a timely manner for the feasibility and preconstruction engineering and design phases of the study phase. Any follow-on feasibility studies should be conducted utilizing the Corps' 3 3 3 approach, as appropriate, and completed as expeditiously as possible.

As all of these studies are to be chosen by the Corps, it should be understood that all are considered of equal importance. The expectation is that future budget submissions will include funding appropriate to meet the goals of the 3 3 3 approach for the feasibility study, as well as seamlessly fund the reconnaissance, feasibility, and preconstruction engineering and design phases. The Corps may not change or substitute the new study starts selected once the work plan has been provided to the Committees.

*Water Resources Priority Study.*—No funds shall be used for this new activity or the proposed new National Flood Risk Assessment Study.

#### CONSTRUCTION

The agreement includes \$1,656,000,000 for Construction. The agreement includes legislative language regarding funding for Olmsted Lock and Dam, Ohio River, Illinois and Kentucky. The agreement includes legislative language regarding parameters for new construction starts.

The Inland Waterways System is a vital component of the nation's freight transportation network. Much of the system is in dire need of modernization due to physical infrastructure long past its design life. The funding situation, however, is insufficient and a permanent, comprehensive solution is necessary to undertake a major recapitalization effort. Unfortunately, seven budget cycles have passed with no solutions enacted. Therefore, the agreement includes legislative language and funding intended to provide temporary assistance to help avoid catastrophic infrastructure failures. The administration, authorizing committees, and industry are encouraged to enact a permanent, comprehensive solution.

The allocation for projects and activities within the Construction account is shown in the following table:

*Updated Capability.*—The agreement adjusts some project-specific allocations downward from the budget request based on updated information regarding the amount of work that could be accomplished in fiscal year 2014.

*Savannah Harbor Expansion, Georgia.*—The budget request for this item that was proposed in the Investigations account has been moved to this account where it has been funded since fiscal year 2009. In light of this funding history, the Corps is directed to consider the project an ongoing construction project for purposes of developing future budget requests.

*Additional Funding.*—The Corps has ongoing, authorized construction projects that would cost tens of billions of dollars to complete, yet the administration continues to request a mere fraction of the funding necessary to complete those projects. The agreement includes additional funds for projects and activities to enhance the nation's economic growth and international competitiveness. The intent of these funds is for work that either was not included in the administration's request or was inadequately budgeted. The direction that follows shall be the only direction used for additional funding provided in this account.

A project shall be eligible for this funding if: (1) it has received funding, other than through a reprogramming, in at least one of the previous three fiscal years; (2) it was previously funded and could reach a significant milestone or produce significant outputs in fiscal year 2014; or (3) it is selected as one of the new starts allowed in accordance with this Act and the additional direction provided below. None of these funds may be used for any item where funding was specifically denied, for projects in the Continuing Authorities Program, or to alter any existing cost-share requirements. Funding associated with each category may be allocated to any eligible project within that category; funding associated with each subcategory may be allocated only to eligible projects within that subcategory. The list of subcategories is not meant to be exhaustive.

The Corps is directed to develop a rating system or systems for use in evaluating projects for allocation of the additional funding provided in this account. These evaluation systems may be, but are not required to be, individualized for each category or subcategory. Each project eligible for funding shall be evaluated under the applicable ratings system. A project may not be excluded from evaluation for being "inconsistent with administration policy." The Corps retains complete control over the methodology of these ratings systems, but shall consider giving priority to the following: the benefits of the funded work to the national economy; extent to which the work will enhance national, regional, or local economic development; number of jobs created directly by the funded activity; ability to obligate the funds allocated within the fiscal year, including consideration of the ability of the non-federal sponsor to provide any required cost-share; ability to complete the project, separable element, or project phase with the funds allocated; for flood and storm damage reduction projects (including authorized nonstructural measures and periodic beach renourishments), population, economic activity, or public infrastructure at risk, as appropriate; for flood and storm damage reduction projects (including authorized nonstructural measures and periodic beach renourishments), the severity of risk of flooding or the frequency with which an area has experienced flooding; for navigation projects, the number of jobs or level of economic activity to be supported by completion of the project, separable element, or

project phase; for Inland Waterways Trust Fund projects, the economic impact on the local, regional, and national economy if the project is not funded, as well as discrete elements of work that can be completed within the funding provided in this line item; and for environmental infrastructure, projects with the greater economic impact, projects in rural communities, and projects in counties or parishes with high poverty rates.

Not later than 45 days after enactment of this Act, the Corps shall provide to the Committees on Appropriations of the House of Representatives and the Senate a work plan including the following information: (1) a detailed description of the ratings system(s) developed and used to evaluate projects within this account, including the weighting given to each factor or criterion if multiple factors or criteria are used; (2) delineation of how these funds are to be allocated; (3) a summary of the work to be accomplished with each allocation; and (4) a list of all projects that were considered eligible for funding but did not receive funding, including an explanation of whether each project could have used funds in fiscal year 2014, whether the project was rated as highly or more highly than other projects that did receive funding, and the specific reasons each project was considered as being less competitive for an allocation of funds. For any project excluded from funding for being "inconsistent with administration policy," the work plan shall include a detailed explanation of why each such project is inconsistent with administration policy. No funds shall be obligated for any project under this program that has not been justified in such a work plan.

*New Starts.*—The agreement includes up to four new project starts, including one each from the navigation, flood and storm damage reduction, and environmental restoration mission areas (a second navigation or flood and storm damage reduction new project start also may be selected). Each new start shall be funded from the appropriate additional funding line item. Consideration of the four shall not be limited to only those new starts proposed in the administration's budget request. When considering new starts, only those that can execute a project cost sharing agreement not later than August 29, 2014, shall be chosen.

In addition to the priority factors used to allocate all additional funding provided, factors that should be considered for all new starts include: the cost sharing sponsor's ability and willingness to promptly provide the cash contribution (if any) as well as required lands, easements, rights-of-way, relocations, and disposal areas; the technical and financial ability of the non-federal sponsor to implement the project without assistance from the Corps, including other sources of funding available for the project purpose; whether the project provides benefits from more than one benefit category; and the out-year budget impacts of the selected new starts. To ensure that the new starts selected are affordable and will not unduly delay completion of any ongoing projects, the Secretary is required to submit to the Committees on Appropriations of the House of Representatives and the Senate a realistic out-year budget scenario prior to issuing a work allowance for a new start. It is understood that specific budget decisions are made on an annual basis and that this scenario is neither a request for nor a guarantee of future funding for any project. Nonetheless, this scenario shall include an estimate of annual funding for each new start utilizing a realistic funding scenario through completion of the project, as well as the specific impacts of that estimated funding on the ability of the Corps to make continued progress

on each previously funded construction project (including impacts to the optimum timeline and funding requirements of the ongoing projects) and on the ability to consider initiating new projects in the future. The scenario shall assume a Construction account funding level at the average of the past three enacted fiscal years (excluding disaster relief, emergency, and supplemental funding).

As all of these new starts are to be chosen by the Corps, it should be understood that all are considered of equal importance and the expectation is that future budget submissions will include appropriate funding for all new starts selected. The Corps may not change or substitute the new project starts selected once the work plan has been provided to the Committees. Any project for which the new start requirements are not met by the end of fiscal year 2014, or by the earlier date as specified, shall be treated as if the project had not been selected as a new start; such a project shall be required to compete again for new start funding in future years.

*Continuing Authorities Program.*—The various sections of the Continuing Authorities Program (CAP) provide a useful tool for the Corps to undertake small projects without the lengthy study and authorization process typical of most larger Corps projects. The agreement includes a total of \$53,000,000 spread over eight CAP sections, rather than \$29,000,000 spread over five CAP sections as proposed in the budget request. These funds should be expended for the purposes for which they were appropriated and should be executed as quickly as possible.

*Continuing Authorities Program Direction.*—Management of the Continuing Authorities Program should continue consistent with direction provided in fiscal year 2012. The direction is restated here for convenience.

For each CAP section, available funds shall be allocated utilizing this sequence of steps until the funds are exhausted:

- capability-level funds for ongoing projects that have executed cost-sharing agreements for the applicable phase;

- capability-level funds for projects that are ready for execution of new cost-sharing agreements for the applicable phase and for which Corps headquarters authorizes execution of the agreements;

- funds, as permitted by Corps policies, for other projects previously funded for the applicable phase but not ready for execution of new cost-sharing agreements; and

- funds, as permitted by Corps policies, for projects not previously funded for the applicable phase.

Funds shall be allocated by headquarters to the appropriate Field Operating Agency (FOA) for projects requested by that FOA. If the FOA finds that the study/project for which funds were requested cannot go forward, the funds are to be returned to Corps headquarters to be reallocated based on the nationwide priority listing. In no case should the FOA retain these funds for use on a different project than the one for which the funds were requested without the explicit approval of the Corps' headquarters.

Within the step at which available funds are exhausted for each CAP section, funds shall be allocated to the projects in that section that rank high according to the following factors: high overall performance based on outputs; high percent fiscally complete; and high unobligated carry-in. Section 14 funds shall be allocated to the projects that address the most significant risks and adverse consequences, irrespective of phase or previous funding history.

The Corps shall continue the ongoing process for suspending and terminating inactive projects. Suspended projects shall not be reactivated or funded unless the sponsor reaffirms in writing its support for the project

and establishes its willingness and capability to execute its project responsibilities.

In order to provide a mix of studies, design, and construction within each CAP section, the Corps is directed to divide the funding generally 80/20 between the Design and Implementation and the Feasibility phases within each authority. The Chief of Engineers shall provide a report to the Committees on Appropriations of the House of Representatives and the Senate not later than 30 days after enactment of this Act detailing how funds will be distributed to the individual items in the various CAP sections for the fiscal year. The Chief shall also provide

an annual report at the end of each fiscal year detailing the progress made on the backlog of projects. The report should include the completions and terminations as well as progress of ongoing work.

The Corps may initiate new continuing authorities projects in all sections as funding allows. New projects may be initiated after an assessment is made that such projects can be funded over time based on historical averages of the appropriation for that section and after prior approval by the Committees on Appropriations of the House of Representatives and the Senate.

*Wood River Levee, Illinois.*—Serious concerns have been expressed about the impacts of Melvin Price Locks and Dam on seepage issues at the Wood River levee. The Corps is encouraged to address these seepage problems and implement solutions as soon as practicable.

*Additional Funding for Ongoing Work.*—The fiscal year 2014 budget request reflects neither the need nor the importance of the Mississippi River and Tributaries Project. Therefore, the agreement includes additional funds to continue ongoing studies, projects, and maintenance activities. These funds should be used for flood control, navigation, water supply, ground water protection, waterfowl management, bank stabilization, erosion and sedimentation control, and environmental restoration work. The intent of these funds is for ongoing work primarily along the Mississippi River tributaries that either was not included in the administration's request or was inadequately budgeted. The direction that follows shall be the only direction used for additional funding provided in this account.

A project shall be eligible for this funding if: (1) it has received funding, other than through a reprogramming, in at least one of the previous three fiscal years; or (2) it was previously funded and could reach a significant milestone or produce significant outputs in fiscal year 2014. None of these funds may be used to start new studies, projects, or activities or for any item where funding was specifically denied. While this additional funding is shown under remaining items, the Corps should utilize these funds in any applicable phase of work.

The Corps is directed to develop a rating system or systems for use in evaluating studies and projects for allocation of the additional funding provided in this account. These evaluation systems may be, but are

not required to be, individualized for each category or subcategory. Each study and project eligible for funding shall be evaluated under the applicable ratings system. A study or project may not be excluded from evaluation for being "inconsistent with administration policy." The Corps retains complete control over the methodology of these ratings systems, but shall consider giving priority to completing or accelerating ongoing work that will enhance the nation's economic development, job growth, and international competitiveness, or are for studies or projects located in areas that have suffered recent natural disasters. The executive branch retains complete discretion over project-specific allocation decisions within the additional funds provided.

Not later than 45 days after enactment of this Act, the Corps shall provide to the Committees on Appropriations of the House of Representatives and the Senate a work plan including the following information: (1) a detailed description of the ratings system(s) developed and used to evaluate studies and projects, including the weighting given to each factor or criterion if multiple factors or criteria are used; (2) delineation of how these funds are to be allocated; (3) a summary of the work to be accomplished with each allocation, including phase of work; and (4) a list of all studies and projects that were considered eligible for funding but did not receive funding, including an explanation of whether each study or project could have used funds in fiscal year 2014, whether the study or project was rated as highly or more highly

than other studies or projects that did receive funding, and the specific reasons each study or project was considered as being less competitive for an allocation of funds. For any study or project excluded from funding for being "inconsistent with administration policy," the work plan shall include a detailed explanation of why each such study or project is inconsistent with administration policy. No funds shall be obligated for any study or project under this program that has not been justified in such a work plan.

#### OPERATION AND MAINTENANCE

The agreement includes \$2,861,000,000 for Operation and Maintenance.

The Secretary of the Army is encouraged to expedite the completion and implementation of Memoranda of Agreement that are pending with the Corps of Engineers and the Assistant Secretary of the Army for cost sharing of harbor operation and maintenance.

Many communities face serious drought conditions which damage agricultural production, habitat protection, and recreational opportunities. Where evidence supports the ability to increase water storage in these areas during winter months without significantly increasing flood risk, the Corps is encouraged to work with such communities to arrive at a modern flood control curve that reflects an updated balance between these priorities.

The allocation for projects and activities within the Operation and Maintenance account is shown in the following table:

*Additional Funding for Ongoing Work.*—The fiscal year 2014 budget request does not fund operation, maintenance, and rehabilitation of our nation's aging infrastructure sufficiently to ensure continued competitiveness in a global marketplace. Federal navigation channels maintained at only a fraction of authorized dimensions, and navigation locks and hydropower facilities well beyond their design life results in economic inefficiencies and risks infrastructure failure, which can cause substantial economic losses. Investing in operation, maintenance, and rehabilitation of infrastructure today will save taxpayers money in the future.

The agreement includes additional funds to continue ongoing projects and activities. The intent of these funds is for ongoing work that either was not included in the administration's request or was inadequately budgeted. The direction that follows shall be the only direction used for additional funding provided in this account.

None of these funds may be used for any item where funding was specifically denied, to initiate new projects or programs, or to alter any existing cost-share requirements. Funding associated with each category may be allocated to any eligible project within that category; funding associated with each subcategory may be allocated only to eligible projects within that subcategory. The list of subcategories is not meant to be exhaustive.

The Corps is directed to develop a rating system or systems for use in evaluating projects for allocation of the additional funding provided in this account. These evaluation systems may be, but are not required to be, individualized for each category or subcategory. Each project eligible for funding shall be evaluated under the applicable ratings system. A project may not be excluded from evaluation for being "inconsistent with administration policy." The Corps retains complete control over the methodology of these ratings systems, but shall consider giving priority to the following: ability to complete ongoing work maintaining authorized depths and widths of harbors and shipping channels, including where contaminated sediments are present; ability to address critical maintenance backlog; presence of the U.S. Coast Guard; extent to which the work will enhance national, regional, or local economic development, including domestic manufacturing capacity; extent to which the work will promote job growth or international competitiveness; for harbor maintenance activities, total tonnage handled, total exports, total imports, dollar value of cargo handled, energy infrastructure and national security needs served, lack of alternative means of freight movement, and savings over alternative means of freight movement; number of jobs created directly by the funded activity; ability to obligate the funds allocated within the fiscal year; ability to complete the project, separable element, or project phase within the funds allocated; and the risk of imminent failure or closure of the facility. The executive branch retains complete discretion over project-specific allocation decisions within the additional funds provided.

Concerns persist that the administration's criteria for navigation maintenance do not allow small, remote, or subsistence harbors and waterways to properly compete for scarce navigation maintenance funds. The Corps is urged to revise the criteria used for determining which navigation projects are funded in order to develop a reasonable and equitable allocation under this account. The criteria should include the economic impact that these projects provide to local and regional economies, in particular those with national defense or public health and safety importance.

Not later than 45 days after enactment of this Act, the Corps shall provide to the Committees on Appropriations of the House of Representatives and the Senate a work plan including the following information: (1) a detailed description of the ratings system(s) developed and used to evaluate projects, including the weighting given to each factor or criterion if multiple factors or criteria are used; (2) delineation of how these funds are to be allocated; (3) a summary of the work to be accomplished with each allocation; and (4) a list of all projects that were considered eligible for funding but did not receive funding, including an explanation of whether each project could have used funds in fiscal year 2014, whether the project was rated as highly or more highly than other projects that did receive funding, and the specific reasons each project was considered as being less competitive for an allocation of funds. For any project excluded from funding for being "inconsistent with administration policy," the work plan shall include a detailed explanation of why each such project is inconsistent with administration policy. No funds shall be obligated for any project under this program that has not been justified in such a work plan.

*Reducing Civil Works Vulnerability.*—No funding shall be used for this new activity.

#### REGULATORY PROGRAM

The agreement includes \$200,000,000 for the Regulatory Program.

The Corps is directed to report to the Committees on Appropriations of the House of Representatives and the Senate not later than 90 days after enactment of this Act the ways in which compensatory mitigation for critical infrastructure projects is calculated in the various field operating agencies of the Corps. The report should also include recommendations for computing compensatory mitigation more equitably across the Corps, alternative mitigation strategies, and opportunities to make compensatory mitigation less costly and more cost-effective.

In 1977, Congress made a deliberate policy choice to exempt ordinary farming, silviculture, ranching, and mining related activities from the requirements to obtain Clean Water Act permits when undertaken as normal activities to prepare and maintain land, roads, ponds, or ditches. A "recapture provision" also was included to provide reasonable limits on the scope of these statutory exemptions, but not to nullify the exemptions. Concerns have been raised that in recent years the Corps has changed its implementation of these provisions to significantly reduce the application of the statutory exemptions. The Corps is directed to ensure that the original balance intended by statute is implemented by all field offices.

#### FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM

The agreement includes \$103,499,000 for the Formerly Utilized Sites Remedial Action Program.

#### FLOOD CONTROL AND COASTAL EMERGENCIES

The agreement includes \$28,000,000 for Flood Control and Coastal Emergencies.

#### EXPENSES

The agreement includes \$182,000,000 for Expenses.

Multiple Division Offices recently initiated efforts to restructure or consolidate civil works functions within certain District Offices, including Little Rock, Chicago, Buffalo, and Detroit. These efforts were described as needed to address declining budgets. Recent budget requests, however, have made no mention of the administration's intent to pursue such activities. The Corps is expected to notify the Committees on Appropriations of the House of Representatives

and the Senate prior to initiating any such restructuring or consolidation activities. Information provided should include details on the functions to be affected, estimated cost savings, relevant timelines, impact on jobs, and plans to ensure proposed activities do not diminish critical functions.

#### OFFICE OF THE ASSISTANT SECRETARY OF THE ARMY FOR CIVIL WORKS

The agreement includes \$5,000,000 for the Office of the Assistant Secretary of the Army for Civil Works.

#### ADMINISTRATIVE PROVISION

The agreement includes a provision relating to the replacement and hire of passenger motor vehicles.

*Central Valley Project, Friant Division, San Joaquin River Restoration.*—The agreement does not include a separate account for this item. Funding is included in the Water and Related Resources account as a separate line item under the Friant Division of the Central Valley Project.

*Rural Water.*—Voluntary funding in excess of legally required cost shares for rural water projects is acceptable, but shall not be used by Reclamation as a criteria for budgeting in future years.

*Additional Funding for Water and Related Resources Work.*—The agreement includes additional funds above the budget request for Water and Related Resources studies, projects, and activities. Priority in allocating these funds should be given to advance and complete ongoing work; improve water supply reliability; improve water deliveries; enhance national, regional, or local economic development; promote job growth; advance tribal and nontribal water settlement studies and activities; or address critical backlog maintenance and rehabilitation activities. For rural water projects, Reclamation shall not use the ability of a non-Federal sponsor to contribute funds in excess of the authorized non-Federal cost-share as a criterion for prioritizing these funds. Not later than 30 days after enactment of this Act, Reclamation shall provide to the Committees on Appropriations of the House of Representatives and the Senate a report delineating how these funds are to be distributed, in which phase the work is to be accomplished, and an explanation of the criteria and rankings used to justify each allocation.

*Indian Water Rights Settlements.*—The agreement includes funds for these activities in the Water and Related Resources account, instead of in a separate account as proposed in the budget request. To maintain the visibility of these projects, the agreement includes the five projects under the Regional Programs heading with a subheading called Indian Water Rights Settlements.

#### CENTRAL VALLEY PROJECT RESTORATION FUND

The agreement provides \$53,288,000 for the Central Valley Project Restoration Fund.

#### CALIFORNIA BAY-DELTA RESTORATION (INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$37,000,000 for the California Bay-Delta Restoration Program.

#### POLICY AND ADMINISTRATION

The agreement provides \$60,000,000 for Policy and Administration.

#### ADMINISTRATIVE PROVISION

The agreement includes a provision limiting the Bureau of Reclamation to purchase not more than five passenger vehicles for replacement only.

#### GENERAL PROVISIONS—DEPARTMENT OF THE INTERIOR

The agreement includes a provision outlining the circumstances under which the Bureau of Reclamation may reprogram funds.

The agreement includes a provision regarding the San Luis Unit and Kesterson Reservoir in California.

The agreement includes a provision regarding pipeline reliability standards. Reclamation is reminded again that the joint explanatory statement accompanying the fiscal year 2012 Act was very specific that Reclamation should not use Technical Memorandum 8140-CC-2004-1 (“Corrosion Considerations for Buried Metallic Water Pipe”) as the sole basis to deny funding or approval of a project or to disqualify any material from use in highly corrosive soils. Yet another claim that Reclamation has always been in compliance with this directive and no

changes are necessary is not a satisfactory response. Therefore, the agreement includes legislative language reiterating this directive. Reclamation shall be prepared to submit to the Committees on Appropriations of the House of Representatives and the Senate not later than 30 days after enactment of this Act a detailed plan for complying with the fiscal year 2012 joint explanatory statement and this agreement.

Concerns persist regarding the appearance of bias in the efforts to comply with the fiscal year 2012 joint explanatory statement requirement regarding the assembly and analysis of data on pipeline reliability. Therefore, Reclamation is directed to ensure that these efforts are conducted by an appropriate independent third-party. Concerns also have been raised that Reclamation may be requiring different reliability standards for different pipe materials. Reclamation is directed to report to the Committees not later than 30 days after enactment of this Act as to the reliability standards that are being utilized for the analysis required by the fiscal year 2012 joint explanatory statement. Prior to completion, the study required and its underlying analysis shall be subject to an independent peer review to ensure that the uniform reliability standard, in addition to the analysis of economics, cost-effectiveness, and life-cycle costs, is accurate and consistent across all referenced materials.

If the analysis on pipeline reliability suggests that changes to Technical Memorandum 8140-CC-2004-1 (“Corrosion Considerations for Buried Metallic Water Pipe”) are appropriate, Reclamation is directed to update the memorandum. Legislative language is included ensuring that such updates will be subject to peer review and public review. To avoid even the appearance of bias in this process, Reclamation shall commission an independent entity to manage the peer review process (including the selection of peer reviewers) in accordance with the Office of Management and Budget document “Final Information Quality Bulletin for Peer Review.”

The agreement includes a provision regarding non-Federal groundwater banking programs.

The agreement includes a provision regarding water transfers.

The agreement includes a provision extending authorization of the Reclamation States Emergency Drought Relief Act.

The agreement includes a provision extending authorization of the Calfed Bay-Delta Authorization Act.

The agreement includes a provision allowing Joint Powers Authorities to participate in water storage studies.

The agreement includes a provision concerning the Fort Peck/Dry Prairie, Montana, project.

Not later than 90 days after enactment of this Act, the Department shall provide a comprehensive list of its educational activities funded with fiscal year 2013 appropriations, including all fellowships, scholarships, workforce training programs, and primary and secondary school activities, and to report on the funding level, purpose, out-year mortgages, and Department account and program within which the activity resides. This

report shall be submitted in future fiscal years unless contradicted by the Committees on Appropriations of the House of Representatives and the Senate.

#### REPROGRAMMING REQUIREMENTS

The agreement carries the Department's reprogramming authority in statute to ensure that the Department carries out its programs consistent with congressional direction. Unless addressed below, the Department shall continue to follow direction under this heading in the fiscal year 2012 joint explanatory statement. The agreement modifies the fiscal year 2012 direction by combining notification provisions carried in previous fiscal years in order to encourage the Department to submit consolidated, cumulative notifications to the Committees on Appropriations of the House of Representatives and the Senate. The agreement also clarifies direction on multi-year funding agreement notifications. The notifications are expected to include, at a minimum, the information provided in the notifications complying with sections 301(b) and 311 of the Energy and Water Development Appropriations Act, 2012.

The group shall provide a report with the results of its analysis to the Committees on Appropriations of the House of Representatives and the Senate not later than 180 days after enactment of this Act.

WEAPONS ACTIVITIES

(INCLUDING RESCISSION OF FUNDS)

The agreement provides \$7,845,000,000 for Weapons Activities. The agreement includes a rescission of \$64,000,000 of prior-year balances and a provision restricting the amounts available for B83 Stockpile Systems to not more than \$40,000,000 until the Nuclear Weapons Council certifies that the B83 gravity bomb will be retired by fiscal year 2025, or as soon as confidence in the B61-12 stockpile is gained. The certification is intended to hold the Administration to its current plan to retire the B83 gravity bomb by 2025, by which time the NNSA estimates it will establish confidence in the long term safety, security, and reliability of the B61-12 stockpile. However, the certification requirement recognizes that unforeseen technical issues may delay the date upon which confidence is established, and thus allows the NNSA to address that possibility.

The agreement includes a general provision that establishes clear expectations for the level of detail required to be submitted to the Defense Committees with respect to a major warhead refurbishment upon approval of Phase 6.3 and clarifies that the reporting requirement applies to the ongoing B61 life extension program. This provision supersedes previous reporting requirements for further analysis of the B61 life extension program alternatives.

*Insensitive High Explosives.*—The NNSA is directed to employ the JASONS defense advisory group to assess the feasibility, certification risks, and other factors to be considered in replacing conventional high explosives with insensitive high explosives in all future life extension programs, and to report to the Committees on Appropriations of the House of Representatives and the Senate not later than October 30, 2014, instead of previous direction. In conjunction with the result of the JASONS assessment, the NNSA shall provide a cost/benefit analysis of using insensitive high explosives in all systems, the certification strategy required to repurpose pits to carry out such conversions, and any other programmatic changes that might justify this approach.

*W78 Life Extension Program.*—The agreement provides \$38,000,000 to continue to study options to extend the life of the W78.

*Production Support.*—The agreement provides \$345,000,000 and includes funding to modernize production capabilities as in previous years, instead of providing funding for these activities in a new budget structure as in the budget request.

*Tritium Readiness.*—The agreement provides \$80,000,000 within Directed Stockpile Work and does not include further restrictions on the use of funding for these activities. The agreement includes a general provision for submission of a tritium and enriched uranium plan which supersedes previous tritium reporting requirements.

*Readiness in Technical Base and Facilities (RTBF).*—The agreement provides \$2,067,425,000 and continues funding for projects and activities within RTBF as in previous years, instead of funding these activities in a new budget structure as in the budget request. Funding for maintenance and infrastructure recapitalization that was included within Operations of Facilities in previous years has been separately distinguished to provide greater transparency. The NNSA is directed to submit a full list of projects and activities to be funded under Maintenance and Repair and Recapitalization in fiscal year 2014 to the Committees on Appropriations of the House of Representatives and the Senate not later than 30 days after enactment of this Act. The NNSA is further directed to submit a report to the Committees on Appropriations of the House of Representatives and the Senate that explains the costs and benefits for a pit environmental testing capability at Lawrence Livermore National Laboratory not later than May 1, 2014.

*Uranium Processing Facility.*—The agreement provides \$309,000,000 to support the full funding requirements for continued facility design and is an adjustment due to the Department of Energy's recent decision to consider additional alternatives to meet the uranium infrastructure needs at Y-12 that might save costs and lead to a replacement facility for Building 9212 in a shorter period of time.

*Site Stewardship.*—The agreement provides \$87,326,000. Within these funds, \$14,531,000 is provided for the Minority Serving Institution Partnerships Program. The agreement provides funding to continue Corporate Project Management. However, the NNSA is directed to include future funding requests for this activity under the Office of the Administrator and to submit to the Committees on Appropriations of the House of Representatives and the Senate not later than 180 days after enactment of this Act a report that describes NNSA's plans for improving the skills of federal project managers and provides a timeframe for completing the transition from reliance on outside contrac-

tors to a highly skilled federal workforce that can provide effective project oversight.

*Safeguards and Security.*—The agreement does not include a reporting requirement on overhead rates and contracting for protective forces at Y-12. Within the amounts provided in the table under Information Technology and Cyber Security, \$105,441,000 is provided for Cyber Security.

Funding was included within Defense Nuclear Nonproliferation in prior years. Additional funding in fiscal year 2014 shall be considered only after submission of a request to transfer funds and approval by the Committees on Appropriations of the House of Representatives and the Senate, and the Act contains a provision which provides special transfer authority for this purpose. The Department has yet to provide a clear explanation of its strategy to ensure the continued supply of tritium and enriched uranium to meet defense needs. Therefore, the agreement includes a general provision that requires the Department to submit a full accounting of its plans not later than June 30, 2014.

*Nonproliferation and International Security.*—The agreement provides no funding for the Global Security through Science Partnerships program. Within available funds, the NNSA may use up to \$5,000,000 to assist in implementing International Atomic Energy Agency nuclear safeguards in Iran.

*Mixed Oxide (MOX) Fuel Fabrication Facility.*—The agreement provides \$343,500,000. The Department of Energy is directed to undertake a root cause analysis that identifies the underlying causes of the cost increases for the MOX and Waste Solidification Building projects and that includes the identification and prioritization of recommended solutions and corrective measures. The Department shall submit a report on the results of its analysis to the Committees on Appropriations of the House of Representatives and the Senate not later than 180 days after enactment of this Act.

*Global Threat Reduction Initiative (GTRI).*—The agreement specifies new reprogramming controls and does not include a further distribution of funding within GTRI.

The OMB Director shall report within 60 days of enactment of this Act to the House and the Senate Appropriations Committees on any agencies not adhering to the policies mentioned above.

The head of each agency, as defined in section 306(f) of title 5, should, in preparing funding requests as part of the President's annual budget, and in consultation with the Government Accountability Office, directly link the agency's performance plan under 31 U.S.C. 1115(b) and performance goals designated as agency priority goals under 31 U.S.C. 1120(b) to such funding requests. Performance measures in future budget justifications should clearly demonstrate the extent to which performance reporting under 31 U.S.C. 1116 demonstrates that prior year investments in programs, projects, and activities are tied to progress toward achieving performance and priority goals and include estimates for how proposed investments will contribute to additional progress. In particular, performance measures should examine outcome measures, output measures, efficiency measures and customer service measures as defined in 31 U.S.C. 1115(h).

The OMB is directed to issue guidance, consistent with section 735 of division D of the Omnibus Appropriations Act, 2009, Public Law 111-8, and section 739(a)(1) of division D of the Consolidated Appropriations Act, 2008 (Public Law 110-161), and section 327 of the 2008 National Defense Authorization Act (Public Law 110-181), regarding use of direct conversions to contract out, in whole or in part, activities or functions last performed by Federal employees.

In lieu of House report language regarding the submission of quarterly reports on obligations by object class and full-time equivalents (FTE), OMB is directed to submit quarterly reports to the House and Senate Appropriations Committees on personnel and obligations consisting of on-board staffing levels, estimated staffing levels by office for the remainder of the fiscal year, total obligations incurred to date, and estimated total obligations for the remainder of the fiscal year.

**INFORMATION TECHNOLOGY OVERSIGHT AND REFORM**

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$8,000,000 for Office of Management and Budget (OMB) information technology oversight and reform activities. The bill continues language requiring the submission of quarterly reports outlining the savings achieved through the Administration's information technology reform efforts.

Over the past few years, the Administration has had some successes improving the development of information technology projects through the use of TechStats and the IT dashboard. The Administration is looking for and achieving savings in existing programs through data center consolidation, the use of cloud computing, and PortfolioStat.

However, failures in the development of information technology systems historically have been embarrassingly pervasive throughout the Federal government. Processes need to be improved to ensure that these failures do not continue. The experience that citizens have engaging with the Federal government using information technology must be improved. Using information technology to engage citizens can be a powerful and efficient tool but only if the systems work and citizens have confidence in them.

Therefore, OMB is directed to submit a report, no later than 180 days after enactment of this Act, to the House and Senate Appropriations Committees on how the oversight processes for the development of information technology systems can be improved. OMB should have processes in place to monitor closely the development of systems that are critical to the functioning of the Federal government, particularly those that are high-cost, high-risk, or high-priority. The report shall also discuss steps to improve the accuracy of information reported in the IT dashboard.

In addition, the bill provides mandatory costs as authorized by current law for the salaries of circuit and district judges (including judges of the territorial courts of the United States), bankruptcy judges, and justices and judges retired from office or from regular active service. The bill also provides \$5,327,000 from the Vaccine Injury Compensation Trust Fund.

The bill provides not to exceed \$50,000,000 for cost containment initiatives and includes language prohibiting the obligation of funds until the Director of the Administrative Office of the United States Courts has submitted an analysis to the House and Senate Appropriations Committees outlining how the future year savings estimated to occur as a result of each initiative will exceed the up-front costs. The funds are provided to pay up-front costs associated with information technology and facilities projects that, when implemented, will reduce costs and result in lower future funding requests. For information technology projects, the Director's analysis is expected to include potential costs and savings in areas such as staffing, facilities, energy, operations and maintenance, contracting and equipment. For facilities initiatives, the Director's analysis is expected to outline how the project will increase space utilization rates (the number of staff per square foot) and decrease rental payments. The costs of these initiatives are

expected to be recaptured in less than five years.

The Judicial Conference is directed to develop a space management plan. There are concerns relating to the cost and amount of space occupied by the Judiciary. In spite of staffing reductions in recent years, during fiscal year 2014 the Court of Appeals, District Courts and Other Judicial Services, Salaries and Expenses account is estimated to occupy an additional 78,000 square feet. Still, it is recognized that the Judiciary cannot reduce its space footprint in the short-term. There are previously approved projects in process that will add square footage to the Judiciary's space footprint between fiscal year 2014 and fiscal year 2018. The Judiciary does have valid new space needs due to deteriorating and unsafe buildings and new courthouse construction projects may be funded and authorized in future years. However, the Judiciary is directed to develop a plan to manage its space rental costs and the Judicial Conference is directed to develop a plan to reduce its space footprint. This plan should include identifying opportunities to reduce the amount of square footage under commercial lease; increasing occupancy rates by using space more efficiently as a result of changing work styles and staffing reductions; and reducing the amount of square footage in aging and energy-inefficient buildings. The Judiciary is expected to optimize occupancy rates to the maximum extent possible when developing plans to replace aging courthouses or perform major alteration projects.

The bill provides the Judiciary with additional resources for the costs associated with reducing the space footprint.

The General Services Administration is directed to work collaboratively with the Judiciary to accept space that the Judiciary identifies for release and to find tenants for that space in a timely manner.

The Judiciary shall provide an initial space reduction plan to the House and Senate Committees on Appropriations within 90 days of enactment of this Act.

TITLE I—DEPARTMENTAL MANAGEMENT AND OPERATIONS  
OFFICE OF THE SECRETARY AND EXECUTIVE MANAGEMENT

A total of \$122,350,000 is provided for the Office of the Secretary and Executive Management (OSEM). Not to exceed \$45,000 of the funds provided under this heading shall be for official reception and representation expenses. The amount provided for this appropriation by PPA is as follows:

Expenditure Plans

As mandated by the bill, the Secretary shall submit, not later than 90 days after the date of enactment of this Act, expenditure plans for fiscal year 2014 for the Office of Policy, the Office of Intergovernmental Affairs, the Office for Civil Rights and Civil Liberties (OCRCL), the Citizenship and Immigration Services Ombudsman, and the Privacy Officer. New bill language is included requiring submittal of annual expenditure plans for these offices concurrent with the submittal of the President's budget request for fiscal year 2015. The Office of Policy shall submit such expenditure plans according to the direction contained in both the House and Senate reports. Unlike previous fiscal years, no funds from OSEM are withheld from obligation until submittal of these expenditure plans to afford the new leadership of the Department an opportunity to demonstrate compliance with the law.

Office of Policy

For the second consecutive year, both the House and Senate deny the request to fund the Office of International Affairs, the Office of State and Local Law Enforcement, and the Private Sector Office via separate budget line items. The bill upholds the House and Senate denials and instead continues to provide funding for these offices within the Office of Policy. The Assistant Secretary for Policy is directed to display any budgetary savings, efficiencies, or elimination of duplicative functions realized by retaining these three offices within the Office of Policy in the expenditure plan required in the preceding paragraph.

Office of International Affairs

In lieu of the direction contained in the House report, the Office of Policy expenditure plan shall include information on the costs and locations of all DHS attaché positions in fiscal year 2014. In addition, the expenditure plan shall include the costs and locations of all DHS secondment positions posted since fiscal year 2008. Further, the DHS Chief Financial Officer (CFO) shall include with the fiscal year 2015 budget justification for the Office of Policy a detailed breakout of funding and funding sources associated with all DHS attaché positions and secondment positions across the Department. No funding in fiscal year 2014 is provided for further secondment positions.

Office of Public Affairs

The bill includes a \$3,000,000 increase to the Office of Public Affairs to expand the “If You See Something, Say Something” public awareness campaign. This increase shall be devoted to expanding and improving efforts to prevent, mitigate, and respond to mass casualty events, including those involving active shooters and improvised explosive devices. Not later than 30 days after the date of enactment of this Act, the Office of Public Affairs shall submit to the Committees an expenditure plan for these funds.

Office for Civil Rights and Civil Liberties

A total of \$21,500,000 is provided for the OCRCL. Included within this amount is a total of \$2,394,000 for activities related to 287(g) agreements and Secure Communities. House report language related to avoiding

overlap between OCRCL efforts and those of other oversight elements of the Department is affirmed, as is Senate report language requiring a briefing on the use of these funds. In addition, a total of \$1,962,000, as requested, is included for OCRCL efforts to counter domestic violent extremism, as noted in the Senate report.

Travel Costs

Per the direction in the House report, the costs of official travel and non-official travel using government aircraft by both the Secretary and Deputy Secretary shall be provided to the Committees quarterly, beginning on April 1, 2014. OSEM and the Coast Guard are directed to expeditiously complete an updated memorandum of agreement on the use of Coast Guard Command and Control aircraft, as per the House report. As directed in the House report, the Assistant Secretary for Policy shall submit an annual report on travel by the Office of Policy's political appointees, not later than 30 days after the end of the fiscal year. In addition, the Department is expected to significantly reduce the number of offline travel bookings in fiscal year 2014, as directed in the Senate report. The OIG is directed to examine Department-wide travel costs and to identify excessive expenditures and potential savings.

Automated Biometric Identification System

The Office of Biometric Identity Management (OBIM) is the lead entity in DHS responsible for biometric identity management services and the steward of the Automated Biometric Identification System (IDENT). IDENT, along with the Department of Justice's Integrated Automated Fingerprint Identification System and the Department of Defense's (DoD) Automated Biometric Identification System, enables the U.S. Government to identify and verify individuals through encounters across operations. It is critical to our Nation's security and public safety, as well as to the efficiency and customer service of DHS operations, that DHS enforce policies directing components to use IDENT services where appropriate, including requiring a Department-level decision by DHS for any project or activity that does not adhere to such policies. Further, DHS should prioritize the long-term health and viability of IDENT, which requires modernization in order to meet the needs of DHS and inter-agency customers.

Reception and Representation Expenses

In recognition of a more constrained budget environment and to limit opportunities for waste and abuse, the 12 percent reduction to reception and representation expenses implemented over the past two fiscal years is maintained. The Department shall review its reception and representation expenses, as directed in the House report, and shall continue the submittal of quarterly reports to the Committees listing obligations for all reception and representation expenses, as directed in the Senate report. The Department shall refrain from using funds available for reception and representation to purchase unnecessary collectables or memorabilia.

Event-Related Spending

Oversight requirements for the Department's event-related spending contained in the House report are superseded by the direction contained in Division E of this Act, pertaining to appropriations for Financial Services and General Government.

Performance Metrics

Direction regarding performance metrics contained within the House report is superseded by the direction contained in Division E of this Act, pertaining to appropriations for Financial Services and General Government.

**Anti-Corruption Efforts**

The Deputy Secretary, in conjunction with U.S. Customs and Border Protection (CBP) and U.S. Immigration and Customs Enforcement (ICE), is directed to submit a report not later than 60 days after the date of enactment of this Act outlining efforts to further address the investigation of DHS employee corruption, as detailed in the Senate report. Further, the Department is directed to develop a hiring strategy, as specified in the Senate report, detailing steps for background investigations on potential new hires. The OIG shall review the efficacy of this hiring strategy with respect to integrity and provide relevant input.

**Federally Funded Research and Development Centers**

As detailed in the Senate report, though on an annual rather than semiannual basis, the Department shall report to the Committees each year, concurrent with the submittal of the President's budget request and beginning with the fiscal year 2015 submittal to Congress, on current projects tasked to Federally Funded Research and Development Centers.

**E-Verify**

Unlike previous years, the bill does not include a provision regarding the use of E-Verify for new Federal hires. As per section 402(e) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1324a note) and Office of Management and Budget (OMB) Memorandum M-07-21, all Federal hires must be verified through E-Verify. In 2009, the Federal Acquisition Regulation (FAR case 2007-013, Employment Eligibility Verification) was amended to further require Federal contractors to confirm through E-Verify that all of the contractors' new hires and all employees (existing and new) directly performing work under Federal contracts are authorized to work in the United States.

**TWIC**

The Department is directed, specifically the Coast Guard and the Transportation Security Administration (TSA), to take all action necessary to expand Universal Enrollment Centers and, as described in the House report, to successfully complete the security assessment recommended by GAO (GAO-13-198) not later than 90 days after the date of enactment of this Act. As required in the Senate report, TSA is directed to remain focused on its efforts to implement the requirements under section 709 of the Coast Guard and Maritime Transportation Act of 2012, and to comply with the statutory deadlines established under that Act. Not later than 60 days after the date of enactment of this Act, the Administrator of TSA shall submit to the Committees a report on the plan and timeline for implementing the requirements under section 709, to include data regarding processing times for renewals of expired Transportation Worker Identification Credentials (TWIC) and measures being taken to ensure an individual's TWIC is issued within a reasonable period of time.

**Inflight Mobile Services**

The proposed policy on consumer access to inflight mobile services, permitting personal cell phones to be used by passengers during the course of a flight, would represent a change in longstanding policy that has potential safety and security implications. Accordingly, the Secretary shall consult with the Federal Communications Commission (FCC), the Secretary of Transportation, and the Federal Bureau of Investigation on the safety and security implications, and advise the Chairman of the FCC of any concerns prior to any rulemaking. The Secretary shall

report to the Committees not later than 60 days after the date of enactment of this Act on the specific actions that are being taken as a consequence of those consultations.

**Unaccompanied Alien Children**

DHS shall support the Department of Health and Human Services (HHS) as it develops, in coordination with OMB and the Department of State, a long-term, interagency strategy on the challenges presented by the growing number of unaccompanied alien children that arrive in the United States each year. DHS shall participate in an interagency briefing led by HHS to the relevant subcommittees of the House and Senate Committees on Appropriations not later than 60 days after the date of enactment of this Act on the potential solutions available to better manage this multifaceted issue.

**U.S. Security Interests in the Caribbean**

There are significant concerns about public safety and security in the Caribbean, as outlined in the House report. Consequently, the Secretary shall allocate resources, assets, and personnel to Puerto Rico and the U.S. Virgin Islands in a manner and to a degree consistent with those concerns. Further, DHS is encouraged to work with DoD to address surveillance capabilities, as specified in the House report under a different heading.

**OFFICE OF THE UNDER SECRETARY FOR MANAGEMENT**

A total of \$196,015,000 is provided for the Office of the Under Secretary for Management (USM). Not to exceed \$2,250 of the funds provided under this heading shall be for official reception and representation expenses. Unlike previous fiscal years, no funds from USM are withheld from obligation until submittal of required expenditure plans to afford the new leadership of the Department an opportunity to demonstrate compliance with the law. Reductions to offices within this appropriation are due to disproportionately high lapsed balances at the end of fiscal year 2013 as well as other funding needs across the Department. The amount provided for this appropriation by PPA is as follows:

	Budget estimate (\$000)	Final bill (\$000)
Immediate Office of the Under Secretary for Management .....	\$2,735	\$2,700
Office of the Chief Security Officer .....	66,025	64,000
Office of the Chief Procurement Officer .....	66,915	65,000
Subtotal .....	135,675	131,700
Office of the Chief Human Capital Officer:		
Salaries and Expenses .....	22,276	22,000
Human Resources Information Technology .....	9,213	7,815
Subtotal .....	31,489	29,815
Office of the Chief Readiness Support Officer:		
Salaries and Expenses .....	30,793	30,000
Nebraska Avenue Complex .....	4,729	4,500
Subtotal .....	35,522	34,500
Total, Office of the Under Secretary for Management .....	\$202,686	\$196,015

**Headquarters Consolidation**

Pursuant to a general provision in Title V of this Act, \$35,000,000 is provided for costs associated with headquarters consolidation and mission support consolidation. Interrelated funding for the headquarters consolidation project is provided within the General Services Administration (GSA) appropriation in Division E of this Act. Not later than 90 days after the date of enactment of this Act, the USM shall submit to the Committees an expenditure plan detailing how this funding will be allocated, including revised

schedule and cost estimates for the headquarters consolidation project. Particularly in light of the inexcusably late submittal of the fiscal year 2013 expenditure plan for the headquarters consolidation project, the Department is directed to strictly comply with the required deadline. Quarterly briefings are required on headquarters and mission support consolidation activities, which should highlight any deviation from the expenditure plan.

**Buy American Act Compliance**

Section 572 of the House bill, related to the origin of U.S. flags purchased by the Department, is not included in the bill. Under current statutory requirements, Departmental procurements must comply with the Buy American Act (41 U.S.C. Chapter 83) and section 604 of Public Law 111-5 (6 U.S.C. 453b). In addition to these requirements, it is expected that the Department will endeavor, consistent with current trade laws, to purchase only U.S. flags that are considered domestic end products. A general provision is included in Title V of this Act requiring the Department to comply with the Buy American Act, consistent with prior DHS Appropriations Acts.

**Research and Development**

DHS is to comply with language outlined in the House and Senate reports regarding the Department's R&D prioritization and review process and not later than May 1, 2014, both brief the Committees on its schedule and plans for future portfolio reviews and, in accordance with the recommendations in GAO-12-837, implement policies and guidance for defining and overseeing R&D department-wide.

**OFFICE OF THE CHIEF FINANCIAL OFFICER**

A total of \$46,000,000 is provided for the Office of the Chief Financial Officer (OCFO). Unlike previous fiscal years, no funds from OCFO are withheld from obligation until submittal of required expenditure plans to afford the new leadership of the Department an opportunity to demonstrate compliance with the law. It is assumed that the cost of living adjustment for Federal employees directed by the President for 2014 will be funded from within the amounts provided for each relevant appropriation in this Act.

**Financial Systems Modernization**

The CFO is directed to continue briefing the Committees at least semiannually on its Financial Systems Modernization (FSM) efforts, as directed in the House and Senate reports. A new general provision is included in Title V of this Act to consolidate funding for the FSM activity and thus enable the Secretary to allocate resources according to fluctuations in the FSM program execution plan. In lieu of the direction in the House report, the CFO shall submit a detailed expenditure plan for FSM not later than 45 days after the date of enactment of this Act.

**Working Capital Fund**

In lieu of the direction in the House report requiring initiatives funded by multiple DHS organizations to be included in the WCF, the Department is instead directed to base inclusion or exclusion of an activity in the WCF on a thorough business case that justifies the efficiency or effectiveness of such inclusion or exclusion. Further, the Department is not required to formally provide justifications to the Committees identifying initiatives or activities that are not included in the WCF. Section 504 of this Act eliminates the longstanding requirement that the WCF is subject to the reprogramming requirements contained in section 503 of this Act and instead directs quarterly reporting on obligations, expenditures, and the projected annual operating level for each WCF activity. In addition, the Department shall notify

the Committees when an initiative or activity is added to or removed from the WCF. These changes will provide increased insight into the real-time operations of the WCF and provide Congress the information necessary to conduct robust oversight.

Annual Budget Justifications

The CFO is directed to ensure that fiscal year 2015 budget justifications for classified and unclassified budgets of all Department components are submitted concurrently with the President's budget submission to Congress, as directed in both the House and Senate reports. The justifications shall include detailed information and explanations that reflect the requirements set forth under this heading in the Senate report. In addition, the Department is directed to inform the Committees of the base funding level of any activity for which the budget request proposes to increase or decrease funding for an activity within a PPA, as specified in the House report.

Future Years Homeland Security Program

Bill language is included requiring the Secretary to submit with the fiscal year 2015 budget submission a Future Years Homeland Security Program (FYHSP), as directed in the House report. GAO shall review the FYHSP and submit its findings to the Committees within 90 days of receipt of the FYHSP.

OFFICE OF THE CHIEF INFORMATION OFFICER

A total of \$257,156,000 is provided for the Office of the Chief Information Officer (OCIO), of which \$142,156,000 is available until September 30, 2015. A general provision is included in Title V of this Act requiring the submission of a multi-year investment justification and management plan. This plan should include investments funded through this account as well as those overseen by the CIO through the WCF. However, the plan should not include investments funded under other appropriations, as such information is provided in other reports. The amount provided for this appropriation by PPA is as follows (additional direction is contained in the classified annex accompanying this statement):

	Budget estimate (\$ 000)	Final bill (\$ 000)
Salaries and Expenses .....	\$117,347	\$115,000
Information Technology Services ..	32,712	34,000
Infrastructure and Security Activities .....	100,063	45,000
Homeland Secure Data Network ...	77,132	63,156
<b>Total, Office of the Chief Information Officer .....</b>	<b>\$327,254</b>	<b>\$257,156</b>

Data Center Migration

A total of \$42,200,000 is provided for data center migration (DCM) under a general provision in Title V of this Act. When this funding is combined with unobligated balances, the total amount available for this effort will enable the Department to execute the DCM program well into fiscal year 2015. In lieu of the direction in the House report, the CIO shall submit a detailed expenditure plan for DCM not later than 45 days after the date of enactment of this Act. As per the revised WCF direction contained in this Act, DCM operations and maintenance is not required to be funded through the WCF.

Sharing and Safeguarding Classified Information

The bill provides \$21,024,000 to implement information sharing and safeguarding measures to protect classified national security information. As directed in the Senate report, the CIO shall brief the Committees on its program execution plan for this funding and strategy for improving the protection of national security information held by DHS.

ANALYSIS AND OPERATIONS

A total of \$300,490,000 is provided for Analysis and Operations, of which \$129,540,000 shall remain available until September 30, 2015. Not more than \$3,825 of the funds provided under this heading shall be for official reception and representation expenses. Other funding details are included within the classified annex accompanying this explanatory statement.

OFFICE OF INSPECTOR GENERAL

A total of \$139,437,000 is provided for the OIG, including \$115,437,000 in direct appropriations and \$24,000,000 transferred from the Federal Emergency Management Agency (FEMA) Disaster Relief Fund (DRF) for audits and investigations related to the DRF. The OIG is directed to submit an expenditure plan for all fiscal year 2014 funds not later than 30 days after the date of enactment of this Act, and, thereafter, is directed to submit an expenditure plan within its annual budget justification, as specified in the Senate report. This plan shall include proposed expenditures for integrity oversight, as specified in the House and Senate reports. The OIG is directed to include DRF transfers in the CFO's monthly budget execution reports submitted to the Committees, which shall satisfy the requirements for notification of DRF transfers under a general provision in Title V of this Act.

FEMA Audits

FEMA and the OIG have embarked on a process to identify preventative measures to eliminate waste, fraud, and abuse instead of the current disruptive nature of identifying both project-specific and systemic problems well after the fact. This is essential for protection of taxpayer dollars and effective disaster preparedness and recovery. In lieu of the requirement in the Senate report for the FEMA Administrator and the OIG to provide a joint report, FEMA and the OIG are directed to jointly brief the Committees on a quarterly basis on improvements to better guard against waste, fraud, and abuse in all FEMA programs. The briefings shall include a framework to make the audit process preventative; changes to audit procedures to ensure cost effective findings and to address root causes found in after-the-fact reports; specific steps needed to implement systemic improvements by all recommendation categories, beginning with business transformation, unsupported cost, and ineligible work or costs; and timeframes to complete specific goals.

Anti-Corruption Efforts

The OIG shall review the efficacy of the hiring strategy being developed by the Department for background investigations on potential new hires and provide relevant input.

Travel

The OIG is directed to examine Department-wide travel costs and to identify excessive expenditures and potential savings, as detailed in the Senate report.

TITLE II—SECURITY, ENFORCEMENT, AND INVESTIGATIONS

U.S. CUSTOMS AND BORDER PROTECTION

SALARIES AND EXPENSES

A total of \$8,145,568,000 is provided for Salaries and Expenses, of which \$2,237,000,000 is derived from the merchandise processing fee. Not to exceed \$34,425 of the funds under this heading shall be for official reception and representation expenses. Of the total, \$1,000,000 is included for the Office of Border Patrol horse patrol, as recommended in the Senate report, and \$1,000,000 is included for inland Border Patrol stations, as recommended in the House report. As intended

under the Consolidated Omnibus Budget Reconciliation Act of 1985, the bill includes a provision from the President's budget request providing CBP with access to an estimated \$110,000,000 in fee revenue pursuant to the Colombia Free Trade Agreement.

Border Security Inspections and Trade Facilitation is funded at \$3,215,844,000, of which \$2,856,573,000 is for Inspections, Trade, and Travel at Ports of Entry. For frontline operations, the bill provides \$255,715,000 to hire not less than 2,000 new CBP officers (CBPO). In addition \$10,000,000 is provided for business transformation initiatives, targeting efforts, and traveler enhancement programs, as specified in the House and Senate reports respectively and \$10,000,000 is provided to restore proposed reductions to mission support. A total of \$40,912,000 is provided for the Customs-Trade Partnership Against Terrorism (C-TPAT) program, the same as fiscal year 2013. As per the Senate report, \$16,741,000 is included to account for the transfer of the Arrival Departure Information System (ADIS) from OBIM to CBP.

Border Security and Control between Ports of Entry is funded at \$3,730,794,000, which includes \$3,675,236,000 for Border Security and Control and \$55,558,000 for training. This level supports the legislatively-mandated floor of not less than 21,370 Border Patrol agents. CBP and ICE are directed to provide a briefing on their respective roles and responsibilities regarding medical care of CBP's detainees, including programs for medical triage at Border Patrol Stations for individuals apprehended by the Border Patrol, not later than 90 days after the date of enactment of this Act.

As outlined in the Senate report, funding for Automated Targeting Systems (ATS) is transferred from Salaries and Expenses to Automation Modernization so that CBP may take advantage of the longer availability of these funds for contracting purposes.

As described in the House report, CBP is directed to submit quarterly staffing and hiring reports to the Committees. Briefings on progress in implementing enhancements to ATS, as stated in the House report, shall be semiannual.

**Administratively Uncontrollable Overtime**

CBP is directed to support the Department's review of the rampant use of Administratively Uncontrollable Overtime (AUO) across the Department. Recognizing the particular challenges of the Border Patrol, the Commissioner shall work with the National Border Patrol Council to expeditiously develop a pay reform proposal and submit it to Congress. Until such proposal is enacted, CBP shall be judicious in the use of AUO, consistent with current law, policies, and operational needs and cognizant of budgetary constraints.

**CBP Staffing**

To meet the workload created by the increasing volume of trade and travel, the bill provides \$255,715,000 to increase the CBPO workforce by not fewer than 2,000 new officers by the end of fiscal year 2015. Without adversely impacting mission support, the Department is directed to include, within its forthcoming budget proposal, funds sufficient to fully annualize the cost of all new CBPOs to be hired in fiscal year 2014, and to submit a description of the hiring process and timetable for bringing all of the new officers on board. A schedule for conducting background investigations and polygraphs shall be included in the required expenditure plan.

Customs wait times have reached record highs at U.S. international airports. To stem this increasing problem while maintaining security, a new general provision is included in Title V of this Act requiring CBP to evaluate the efficiency and effectiveness of current passenger processing methods. To ensure the entire passenger experience is represented in this evaluation, including factors and challenges beyond CBP's control, the provision directs CBP to develop operations plans with stakeholders that incorporate wait times at each step in the process, such as the time it takes to deplane, reach the Federal Inspection Service area, complete customs and immigration processing, and claim luggage.

Finally, in assigning these new officers, CBP is directed to be mindful of the critical importance of adequately supporting operations in the cargo environment, which generates more than \$2,237,000,000 in revenue as a result of the Merchandise Processing Fee and is critical to expanding the nation's gross domestic product on an annual basis. As specified in the Senate report, not later than 90 days after the date of enactment of this Act, CBP is directed to brief the Committees on its plan to deploy additional equipment and officers, and on the anticipated impact the increased operations will have on reducing wait times.

**Preventing Human Trafficking**

The agreement strongly supports DHS efforts to broaden human trafficking awareness, including through CBP's Blue Lightning Initiative. In lieu of language in the House report, CBP is urged to provide additional resources to the initiative, as appropriate, to help ensure that airline personnel are trained to identify the signs of human trafficking. In addition, CBP shall provide a briefing to the Committees on the programs it operates to support the Blue Campaign, and shall include a specific funding proposal for such programs in the President's budget request, as required by the House report.

**Public-Private Partnerships**

The Senate bill included two general provisions authorizing CBP to receive funding from outside sources to reimburse the costs of certain CBP services and to accept donations of real and personal property and non-personal services. Both provisions responded to CBP's efforts to find alternate sources of funding and to mitigate against the growing demand for new and expanded facilities and, in particular, the ongoing modernization needs of CBP's land port of entry portfolio.

To address these concerns, the bill establishes a five-year pilot program to permit CBP to enter into partnerships with private sector and government entities related to ports of entry. The legislation requires that CBP and GSA: 1) establish criteria that identify and document their respective roles and responsibilities; 2) identify, allocate, and manage potential risks; 3) define clear, measurable objectives; and 4) publish procedures for evaluating partnership projects. Annual reports to Congress are required to ensure proper programmatic review and oversight. Moreover, CBP is required to provide notification to the Committees prior to announcing any new partnership agreements resulting from this section, consistent with the direction provided in section 560 of Public Law 113-6.

The pilot program enables CBP to be reimbursed for services and to accept donations. With regard to reimbursable service agreements, however, the bill does not provide any new authority for CBP to provide services outside the United States. While there is no specific limit on the number of partnerships related to land or sea ports authorized under the pilot program, CBP may enter into no more than five agreements at CBP-serviced air ports of entry for overtime costs only. Funds collected must be deposited as offsetting collections and will remain available without fiscal year limitation.

**Cargo Security Strategy and Inspecting High Risk Cargo Overseas**

After testifying to the infeasibility of implementing the 9/11 Act requirement to scan 100 percent of containers bound for the United States prior to loading them on a vessel in a foreign port, the former Secretary extended the deadline for complying with this requirement for two years. The new Secretary should reevaluate the feasibility of implementing the 100 percent scanning requirement and either issue a 100 percent scanning strategy or propose an alternative strategy for consideration by Congress. The Department shall brief the Committees regarding a proposed cargo security strategy not later than 90 days after the date of enactment of this Act.

**Border Patrol Staffing Plan**

CBP submitted a five-year staffing and deployment plan for Border Patrol agents that provided factors for deployment decisions and priorities. However, it failed to provide a true strategy for future years to justify Border Patrol staffing requirements and deployment decisions. The Border Patrol shall develop a staffing model similar to the one used by the Office of Field Operations in justifying and allocating CBPOs. CBP shall brief the Committees not later than 120 days after the date of enactment of this Act on its plan for developing the model, including cost and schedule.

**Trade Enforcement**

Both the House and Senate reports contain specific guidance—including briefing and reporting requirements—regarding resources dedicated to cargo inspection and commercial fraud, including circumvention of duties and misclassification of entries of goods from China; collection of outstanding duties;

the use of single entry transaction bonds; coordination with the Departments of the Treasury and Commerce on the use of new shipper reviews and improvement of liquidation instructions; and enhanced trade enforcement efforts. CBP is directed to adhere to these requirements and, to the extent practicable, publish the report on collection of outstanding duties on the CBP website.

**Jones Act**

CBP is directed to brief the Committees on the steps it is taking to adhere to the guidance in the Senate report with regard to the Jones Act.

**Advanced Training Center**

The bill provides \$39,853,000 for the National Training Plan at the Advanced Training Center.

**AUTOMATION MODERNIZATION**

A total of \$816,523,000 is provided for Automation Modernization. Of that amount, \$358,655,000 is for Information Technology; \$116,932,000 is transferred from Salaries and Expenses for ATS, including \$7,000,000 for enhancements to targeting capabilities and continuous data quality improvement and enrichment initiatives, as specified in the House report; \$200,174,000 is for Current Operations Protection and Processing Support; and \$899,300 is for five technical FTE to support moving ADIS to CBP. CBP, jointly with ICE, is directed to brief the Committees semiannually on TECS modernization. CBP shall also brief on all information technology improvements planned, funded, and implemented since fiscal year 2011 and how the funds provided in this Act shall enhance all Automation Modernization efforts.

**BORDER SECURITY FENCING, INFRASTRUCTURE, AND TECHNOLOGY**

A total of \$351,454,000 is provided for Border Security Fencing, Infrastructure, and Technology (BSFIT). Bill language is included restricting additional deployments of integrated fixed towers (IFT) until the Chief of the Border Patrol certifies that the capability meets the Border Patrol's operational requirements. Of the amount provided for Development and Deployment, \$77,366,000 is included for IFTs; \$40,000,000 is included for tactical communications; and \$1,765,000 is included to mitigate impacts from deploying BSFIT assets. Eight Tethered Aerostat Radar Systems (TARS) were transferred from DoD in July. These blimp-mounted radars are cost effective and valuable tools for maintaining persistent surveillance of the border. CBP shall provide a briefing to the Committees on whether a different configuration of the TARS capability may have application in Puerto Rico or elsewhere along the southern and coastal/maritime borders.

**AIR AND MARINE OPERATIONS**

A total of \$805,068,000 is provided for Air and Marine Operations. The funding includes \$286,818,000 for Salaries and Expenses; \$392,000,000 for Operations and Maintenance to sustain no fewer than 107,000 flight hours; and \$126,250,000 for Procurement. The Procurement funds include: \$35,000,000 for Blackhawk conversions; \$17,300,000 for two synthetic aperture radar systems; \$24,000,000 for the P-3 Service Life Extension Program; \$3,500,000 for sensor upgrades; \$43,000,000 for two Multi-Role Enforcement Aircraft; and \$3,450,000 for various marine vessels.

**CONSTRUCTION AND FACILITIES MANAGEMENT**

A total of \$456,278,000 is provided for Construction and Facilities Management. Of that amount, \$375,398,000 is for Facilities Construction and Sustainment and \$80,880,000 is for Program Oversight and Management. Because GSA has not yet delegated authority to CBP for oversight of some CBP facilities, Facilities Construction and

Sustainment is reduced by \$10,000,000, and Program Oversight and Management is reduced by \$5,000,000. Both the House and Senate reports include specific guidance—including briefing and reporting requirements—regarding CBP’s real property inventory, annual plan, and collaboration with GSA on land border ports of entry (LPOE). In addition to these requirements, CBP, jointly with GSA, shall provide a briefing to the Committees on the delegation of authority plan for LPOEs not later than 90 days after the date of enactment of this Act. As per the Senate report, the Department shall encourage the use of small businesses, including the use of public-private partnerships, in all phases of the contracting process for construction and renovation of LPOEs.

U.S. IMMIGRATION AND CUSTOMS ENFORCEMENT  
SALARIES AND EXPENSES

A total of \$5,229,461,000 is provided for Salaries and Expenses to ensure robust enforcement of our Nation’s immigration laws. Within this amount, the bill provides \$168,531,000 above the request to ensure that no fewer than 34,000 detention beds are maintained and supported, as mandated in statutory language. In addition, the agreement restores many of the proposed reductions in the President’s budget for law enforcement agents, operations, investigations, and mission support. Not to exceed \$11,475 of the funds provided under this heading shall be for official reception and representation expenses.

The amount provided for this appropriation by PPA is as follows:

Headquarters Management and Administration

A total of \$335,717,000 is provided for Headquarters Management and Administration. ICE shall submit staffing and hiring updates to the Committees on a quarterly basis.

287(g)

The agreement fully funds the current 287(g) program, which allows ICE to leverage participating state and local law enforcement personnel for the identification of criminal aliens and other unlawfully present aliens in state and local jails and correctional facilities who pose a danger to our

communities. ICE should consider whether the program can be expanded and improved to more efficiently and effectively enforce immigration laws.

Domestic Investigations

A total of \$1,672,220,000 is provided for Domestic Investigations. The agreement restores cuts proposed in the President’s budget to investigations related to money laundering, seizure of drugs and illegal firearms, indictments for child exploitation and pornography, and worksite enforcement, including reductions proposed in the number of associated agents and investigative and mission support personnel. Within the total, an increase of \$15,000,000 is provided for the prevention and disruption of human smuggling and trafficking, including Angel Watch, and for counter-proliferation, anti-gang, and drug smuggling investigations, and the Child Exploitation Investigations Unit. Of the \$15,000,000, not less than \$2,000,000 shall be for visa overstay enforcement. ICE is encouraged to prioritize pre-adjudication visa vetting operations.

ICE is directed to submit an expenditure plan for Domestic Investigations not later than 90 days after the date of enactment of this Act that clearly details the number of agents and all other personnel classifications supported by this funding level, including the number of personnel on board, new hires to backfill positions lost to attrition since the beginning of fiscal year 2013, and new hires to restore positions lost during prior fiscal years. The plan shall outline the financial resources by object class and the personnel dedicated to each mission area. To the extent funds restored in this bill are not used to hire additional agents, ICE is directed to provide a detailed breakout of the activities supported. ICE shall continue to provide quarterly data on investigative activities and expenditures.

Additionally, ICE is directed to brief the Committees not later than October 31, 2014, on commercial fraud and intellectual property rights investigations, as described in the House report.

International Investigations

A total of \$131,282,000 is provided for International Investigations. ICE shall ensure not less than \$8,000,000 is utilized to support vetted units.

Detention and Removal Operations

A total of \$2,785,096,000 is provided for Detention and Removal Operations.

In general, ICE should refrain from administratively moving individuals who have been placed in other than short-term detention to a less restrictive form of supervision, except based on compelling factors and when such individuals are eligible for a particular, non-detention form of supervision. The Committees must be informed within 30 days of any such administrative releases of long-term detainees.

The Committees continue to direct ICE, in conjunction with CBP and U.S. Citizenship and Immigration Services (USCIS), to improve its capabilities to provide comprehensive reporting on enforcement actions. ICE shall provide additional data as it is available in the Border Security Status and Detention and Removal Operations reports.

Custody Operations

A total of \$1,993,770,000 is provided for Custody Operations, including an increase of \$147,531,000 to support the requirement to maintain 34,000 detention beds.

ICE shall take all steps necessary to reduce the daily bed rate cost through a competitive process and brief the Committees on the steps it has taken to reduce the costs of detention and removal. ICE is also expected to ensure all detention contracts and agree-

ments implement the Use of Force exception for all pregnant women in ICE detention.

As proposed in the House report, the bill provides funds for medical care of CBP’s detainees, as necessary. The Committees direct CBP and ICE to provide a briefing on the responsibilities for both agencies in this arena, including pilot programs for medical triage at Border Patrol stations for individuals apprehended by the Border Patrol, not later than 90 days after the date of enactment of this Act.

Fugitive Operations

A total of \$128,802,000 is provided for Fugitive Operations, including \$4,000,000 above the request to ensure procurement of mobile biometric readers for use by Fugitive Operations Teams.

Criminal Alien Program

A total of \$294,155,000 is provided for the Criminal Alien Program, including an increase of \$5,000,000 for the Law Enforcement Support Center to ensure robust support of Secure Communities now that it is fully deployed.

Alternatives to Detention

A total of \$91,444,000 is provided for the Alternatives to Detention (ATD) program, equal to the amount available for this program in fiscal year 2013. ICE is expected to make full use of ATD, based on appropriate considerations of flight risk and danger to the community. ICE shall provide a briefing to the Committees on the results of its electronic monitoring pilot program by July 31, 2014. The briefing should include estimates on how increased use of electronic monitoring methods can increase the capacity of the ATD program while reducing costs. In addition, the GAO is directed to provide a report evaluating ICE’s implementation of the ATD program by September 15, 2014, including any recommendations for how the program could be improved.

Transportation and Removal Program

A total of \$276,925,000 is provided for the Transportation and Removal Program, including an increase of \$21,000,000 as proposed in the House report.

Secure Communities

A total of \$25,264,000 is provided for Secure Communities, as specified in the House report, which includes \$4,930,000 above the request to improve Enforcement and Removal Operations’ (ERO) analytical, planning, reporting and performance management processes, particularly as they relate to detention and removal activities. ERO is directed to provide quarterly briefings to the Committees on its progress.

The Department shall update the Committees not later than 60 days after the date of enactment of this Act on the number of jurisdictions failing to honor ICE detainers, the number of individuals released as a result, delineated by ICE priority category, and the number of such individuals remaining at large.

AUTOMATION MODERNIZATION

A total of \$34,900,000 is provided for Automation Modernization. The Committees direct ICE and CBP to continue semiannual briefings on TECS modernization. The initial briefing shall include an update on the progress of the electronic health records initiative.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate (\$ 000)	Final Bill (\$ 000)
IT Investment .....		\$8,400
TECS Modernization .....	\$34,900	23,000
Electronic Health Records .....		3,500

	Budget Estimate (\$ 000)	Final Bill (\$ 000)

**CONSTRUCTION**

A total of \$5,000,000 is provided for Construction, as requested.

**TRANSPORTATION SECURITY ADMINISTRATION  
AVIATION SECURITY**

A total of \$4,982,735,000 is provided for Aviation Security. Not to exceed \$7,650 of the funds provided under this heading shall be for official reception and representation expenses.

In addition to the discretionary appropriation for aviation security, a mandatory appropriation totaling \$250,000,000 is available through the Aviation Security Capital Fund. Statutory language reflects the collection of \$2,120,000,000 from aviation security fees, as authorized.

The amount provided for this appropriation by PPA is as follows:

**Privatized Screening**

A total of \$158,190,000 is provided for the Screening Partnership Program (SPP). TSA is expected to more proactively utilize the SPP, to expeditiously approve the applications of airports seeking to participate in the program that meet legislatively mandated criteria, and to notify the Committees if it expects to spend less than the appropriated amount.

TSA is directed to implement generally accepted accounting methodologies for cost and performance comparisons. As detailed in the House report, this includes, but is not limited to, comprehensive and accurate comparisons of Federal employee retirement costs and the administrative overhead associated with Federal screening services. TSA is directed to provide a report to the Committees not later than 90 days after the date of enactment of this Act on how it is implementing GAO recommendations to compare cost and performance of SPP airports and non-SPP airports.

As detailed in the Senate report, TSA is directed to allocate resources for an independent study of the performance of federalized compared to privatized screening. The study shall include, but not be limited to, security effectiveness, cost, throughput, wait times, management efficiencies, and customer satisfaction. With respect to TSA cost estimates, the study shall include indirect costs as recommended by GAO (GAO-09-27R). A copy of the study shall be provided to GAO for review and GAO shall brief the Committees within 90 days of receipt of the study on its strengths and weaknesses. TSA is di-

rected to consult with, and fully inform, stakeholders at SPP airports prior to the implementation of any status changes to the SPP and to brief the Committees on any proposed changes being considered. TSA is to provide the Committees semiannual reports on its execution of the SPP and the processing of applications for participation.

**Screener Personnel, Compensation, and Benefits**

A total of \$3,033,526,000 is provided for Screener Personnel, Compensation, and Benefits. Consistent with the President's budget request, the House and Senate bills did not include funds for Federal screeners to secure exit lanes. By accepting the savings associated with shifting the responsibility of staffing exit lanes to airport operators, the House and Senate bills assumed a reduction in the total number of Federal screeners by 1,487 FTE and, accordingly, included a reduction in the total funding for TSA. In contrast, the Bipartisan Budget Act of 2013 requires TSA to continue monitoring exits from the sterile areas at the airports that currently receive this service, which TSA estimates will cost the government an additional \$60,200,000 in fiscal year 2014. Additional funds are provided in the bill to address this requirement. In lieu of the direction in the Senate report related to technology pilots, TSA, in coordination with its airport partners, shall continue to evaluate cost effective solutions to secure exit lanes. In addition, the total amount provided under this heading reflects a reduction of \$28,000,000 for staffing of Advanced Imaging Technology (AIT) that is no longer necessary.

**Uniforms**

TSA shall provide a report not later than 60 days after the date of enactment of this Act describing in detail how it is complying with the Buy American Act (41 U.S.C. Chapter 83) and section 604 of Public Law 111-5 (6 U.S.C. 453b), including what measures it is taking to ensure compliance, and the total number of uniforms and screener consumables purchased in fiscal years 2012 and 2013.

**Risk-Based Approaches to Passenger Screening**

TSA is to be commended for its progress in implementing risk-based approaches to passenger screening, including expedited passenger screening for many categories of generally lower-risk populations. TSA set a goal for 2013 of screening 25 percent of commercial air travelers by expedited screening techniques and committed to doubling the percentage of passengers eligible for expedited screening by the end of 2014. These changes, as well as TSA's plans for further risk-based security measures, will substantially improve the experience of air travelers. Given the significant potential for risk-based screening measures to economize TSA operations, the bill includes statutory language requiring the Administrator to certify when TSA has reached the goal of making one in four members of the traveling public eligible for expedited screening, requiring a strategy to expand the expedited screening eligibility to 50 percent by the end of 2014, and directing TSA to provide the Committees with semiannual reports starting not later than April 15, 2014, on the resource implications of expedited passenger screening associated with risk-based security initiatives.

**Customer Service**

As detailed in the Senate report, TSA is directed to include passenger support specialist training in basic training for Transportation Security Officers.

**Explosives Detection Systems**

A total of \$73,845,000 is provided for Explosives Detection Systems (EDS) Procurement

and Installation. Including the existing mandatory Aviation Security Capital Fund appropriation of \$250,000,000, the total appropriation for fiscal year 2014 for EDS Procurement and Installation is \$323,845,000. As required by the 9/11 Act, TSA is directed to give funding consideration to airports that incurred eligible costs for EDS but were not recipients of funding agreements. As detailed in the House report, TSA is to provide a report not later than 60 days after the date of enactment of this Act detailing the steps being taken to resolve claims from airports for reimbursement for previously incurred eligible costs associated with the construction and deployment of in-line baggage screening systems. The fiscal year 2014 EDS expenditure plan shall also identify airports eligible for funding pursuant to section 1604(b)(2) of Public Law 110-53 and funding, if any, allocated to reimburse those airports. As detailed in the Senate report, TSA is directed to submit not later than 30 days after the date of enactment of this Act its formal EDS recapitalization plan as described in the budget request and to brief the Committees not later than 60 days after the date of enactment of this Act on its timeline and progress toward completion of operational testing and evaluation of next generation Explosive Trace Detection (ETD) systems. Recognizing that TSA has significantly reduced its large carryover balances for EDS procurement and installation, monthly updates as directed in the Senate report are not required.

**Expenditure Plans for Purchase and Deployment of Explosive Detection Equipment**

The bill withholds \$20,000,000 from obligation for Headquarters Administration until TSA submits to the Committees, not later than 60 days after the date of enactment of this Act, detailed expenditure plans for fiscal year 2014 for air cargo, checkpoint security, and EDS refurbishment, procurement, and installations on an airport-by-airport basis. The withholding is included to encourage timely submittal of materials necessary for robust and informed oversight. As described in the House and Senate reports, the plans shall include specific technologies for purchase; program schedules and major milestones; a schedule for obligation of the funds; recapitalization priorities; the status of operational testing for each passenger screening technology under development; and a table detailing actual versus anticipated unobligated balances at the close of the fiscal year. The plan shall also include details on passenger screening pilot programs that are in progress or being considered for implementation in fiscal year 2014. As described in the Senate report, information in this section is to include a summary of each pilot program.

**Aviation Regulation and Other Enforcement**

A total of \$354,437,000 is provided for Aviation Regulation and Other Enforcement. Of this amount, \$89,950,000 is for the National Canine Program, an increase of \$1,250,000, which, in total, supports 921 teams in fiscal year 2014, and not fewer than 10 additional canine teams for domestic inspections in the air cargo and aviation regulation environments. Funds are also provided for the National Canine Program within the Surface Transportation Security appropriation. TSA-funded canine teams have proven to be a reliable, effective, and efficient way to screen for explosive devices.

**Perimeter Security**

TSA is directed to report to the Committees not later than 90 days after the date of enactment of this Act on its efforts to work with state and local law enforcement, airport authorities, and other land owners and

tenants to secure all perimeters at the nation's airports.

**Airport Management and Support**

A total of \$587,000,000 is provided for Airport Management and Support, including the requested realignment of funds from the Transportation Security Support, Surface Transportation, and Federal Air Marshals (FAMs) appropriations to merge like costs into one account.

**Advanced Integrated Screening Technologies**

TSA is directed to continue providing a report on advanced integrated passenger screening technologies for the most effective security of passengers and baggage not later than 90 days after the date of enactment of this Act. As detailed in the Senate report and directed in the bill, the report is to include projected funding levels for the next five fiscal years for each technology dis-

cussed. By adding a multi-year requirement to this report, a separate five-year strategic plan of investments is no longer required. The information contained in this report should be shared with TSA's industry partners, to the maximum extent practicable, to allow for necessary research, planning, and development of passenger and baggage screening technologies.

**SURFACE TRANSPORTATION SECURITY**

A total of \$108,618,000 is provided for Surface Transportation Security. Within the amount appropriated, the bill provides \$35,262,000 for Staffing and Operations and \$73,356,000 for Surface Transportation Security Inspectors and Canines.

**TRANSPORTATION THREAT ASSESSMENT AND CREDENTIALING**

A total of \$176,489,000 is provided for Transportation Threat Assessment and

Credentialing (TTAC). To facilitate oversight, TSA shall brief the Committees not later than 60 days after the date of enactment of this Act on the status of TTAC Infrastructure Modernization.

**Secure Flight**

A total of \$93,202,000 is provided for Secure Flight. Due to delays in implementing the Large Aircraft and Charter Screening Program, increased funding requested is not provided.

**Other Vetting**

A total of \$83,287,000 is provided for Other Vetting. Included in this amount are funds necessary for emerging requirements to expand the number of lower-risk passengers eligible for expedited screening.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate (\$ 000)	Final Bill (\$ 000)

**TRANSPORTATION SECURITY SUPPORT**

A total of \$962,061,000 is provided for Transportation Security Support, which includes the requested realignment of funds from the

Federal Air Marshals (FAMs) appropriation to merge like costs into one account. The bill withholds \$20,000,000 from obligation until TSA submits detailed expenditure plans for air cargo, checkpoint security, and

EDS refurbishment, procurement and installation.

The amount provided for this appropriation by PPA is as follows:

	Budget Estimate (\$ 000)	Final Bill (\$ 000)
Headquarters Administration .....	\$284,942	\$272,250

**FEDERAL AIR MARSHALS**

A total of \$818,607,000 is provided for FAMs, including \$708,004,000 for Management and Administration and \$110,603,000 for Travel and Training. The amount provided under this heading reflects current attrition rates within FAMs and the realignment of FAMs support functions from this appropriation into the Aviation Security Direction and Enforcement and Transportation Security Support appropriations. This level of funding is adequate to ensure coverage of all high-risk international and domestic flights. Although the bill does not include a general provision from the House bill related to FAMs, the Department is required to deploy FAMs on flights determined by the Secretary to present high security risks, and to make nonstop, long distance flights, including inbound international flights, a priority, as per 49 U.S.C. 44917.

**COAST GUARD**

**OPERATING EXPENSES**

A total of \$7,011,807,000 is provided for Operating Expenses, including \$567,000,000 for defense activities, of which \$227,000,000 is designated for overseas contingency operations (OCO) and the global war on terrorism (GWOT). Funds provided in support of GWOT and OCO under this heading may be allocated, notwithstanding section 503 in Title V of this Act.

The amount provided for this appropriation includes the following changes to the budget request: an additional \$25,000,000 to reduce the backlog in critical depot level maintenance, including \$15,000,000 for cutters and \$10,000,000 for aircraft; \$28,000,000 for training; \$7,322,000 to maintain one of the two High Endurance Cutters proposed for decommissioning; \$1,000,000 for the Sexual As-

Acquisition Portfolio Review and Mission Needs

As directed in the Senate report, in conducting the portfolio review described in the Capital Investment Plan, the Department shall use more appropriate outyear funding levels that are reflective of the fiscal year 2013 enacted level for the Acquisition, Construction, and Improvements appropriation, as adjusted by the pre-sequester caps set in the Budget Control Act of 2011. The review is to include acquisition cost, asset capability and quantity tradeoffs, the overall impact to the Coast Guard's ability to carry out all of its statutory missions, and how it addresses gaps in capability based on the most recent mission needs statement. The results of the review shall be validated by an independent third party selected by the Secretary and the Commandant to ensure that a realistic budget outlook does not censor necessary data on mission needs and tradeoffs. The portfolio review and independent third party assessment

shall be provided to the Committees not later than April 15, 2014.

As directed by section 1098 of the National Defense Authorization Act for Fiscal Year 2014, DoD is to transfer 14 C-27J aircraft to the Coast Guard. In return, six HC-130H Coast Guard aircraft are to be transferred to DoD for various upgrades prior to a final transfer to the Department of Agriculture for aerial firefighting. The Coast Guard shall provide regular updates on the status of the new program as a part of the Quarterly Acquisition Briefs.

**Mission Systems for Fixed Wing Aircraft**

The bill does not adopt the PPA restructuring for NPPD submitted as an addendum to the President's budget request because recent Executive Orders and realignments may require further changes to the budget structure. However, NPPD should continue its efforts to consolidate analysis capabilities that evaluate potential impacts from all hazards that could disrupt the nation's cyber and physical critical infrastructure, including efforts to establish the appropriate organizational structure to facilitate that consolidation.

It is critical that NPPD maintain a robust infrastructure information and analysis capability to guide decision making to prevent and respond to incidents. Therefore, it is expected that a portion of the increase provided for the Infrastructure Analysis and Planning PPA shall be used to ensure NPPD has readily accessible data available for rapid analysis in the areas of highest risk. NPPD shall brief the Committees not later than 60 days after the date of enactment of this Act on planned expenditures within the PPA.

The Office of Bombing Prevention (OBP) shall be funded at not less than \$10,504,000 to sustain activities. In lieu of the House report requirement for an expenditure plan from OBP, NPPD is directed to analyze the efficiencies gained through coordination with the National Guard, work with DoD on capabilities related to counter explosives, and continue to explore applicable capabilities from defense programs that comply with domestic policies and address domestic protections.

The National Infrastructure Simulation and Analysis Center shall be funded at not less than \$15,650,000, as requested.

Of the total amount provided for Infrastructure Protection, \$10,450,000 is provided for sector specific management. On August 1, 2013, the President issued Executive Order 13650 to improve chemical facility safety and security. NPPD is directed to continue implementing the requirements designated in Executive Order 13650 in lieu of the requirement in the Senate report for the Chemical Sector Coordination Council to develop recommendations to improve coordination on chemical security and safety. NPPD is expected to provide regular updates on the progress of implementing improvements, the status of corrective measures being taken to ensure awareness of facilities that fall under the purview of the Chemical Facilities Anti-Terrorism Standards (CFATS) program, and the need for any additional funding requirements that emerge to address coordination needs.

A total of \$81,000,000 is provided for Infrastructure Security Compliance to implement the CFATS program. As detailed in the House report, NPPD is directed to provide a report to the Committees and the relevant authorizing committees, including the House Committee on Homeland Security, the House Energy and Commerce Committee, and the Senate Committee on Homeland Security and Governmental Affairs, not later than 90 days after the date of enactment of this Act, explaining how the NPPD Infrastructure Security Compliance Division (ISCD), will further improve the review process for facilities within the CFATS program. In lieu of language in the House report directing NPPD to provide a detailed expenditure plan, the Under Secretary of NPPD is directed to provide a report on the implementation of the CFATS program to the Committees on a semiannual basis, as detailed in the Senate report. The first report shall be submitted not later than 90 days after the date of enactment of this Act.

In lieu of language in the House report, NPPD is directed to report to the Commit-

tees semiannually on the status of its progress in complying with all the recommendations made in an OIG report on ISCD's management practices related to CFATS (OIG-13-55). As detailed in the House report, NPPD is directed to provide a report to the Committees and the relevant authorizing committees, including the House Committee on Homeland Security, the House Energy and Commerce Committee, and the Senate Committee on Homeland Security and Governmental Affairs, not later than April 15, 2014, on the steps NPPD is taking to avoid costly duplication of programs. In addition, the report shall describe how NPPD is helping to ensure the safety of facilities and whether DHS intends to mandate how a covered chemical facility meets the personnel surety standard, particularly in cases where the facility has already adopted strong and identifiable personnel measures designed to verify identity, check criminal history, validate legal authorization to work, and identify individuals with terrorist ties.

As detailed in the House report, NPPD is directed to undertake a critical review of the Department's implementation of the Ammonium Nitrate Security Program and to report to the Committees and the relevant authorizing committees, including the House Committee on Homeland Security, the House Energy and Commerce Committee, and the Senate Committee on Homeland Security and Governmental Affairs, not later than 90 days after the date of enactment of this Act.

In lieu of language in the House report, ISCD is directed to improve the compliance of current Top Screen registrants, such as through ongoing, proactive risk monitoring, data management, and the verification of business information.

Within the amount provided, \$199,725,000 is for Federal Network Security to deploy technology to improve the information security of Federal computer systems, sustain the new continuous monitoring and diagnostic system, and continue the procurement and operations of the system. A general provision is included in Title V of this Act requiring quarterly reports on the monitoring and diagnostic program.

Within the total amount provided, \$382,252,000 is for Network Security Deployment for the Einstein program and related activities. Pursuant to the Senate report, GAO shall complete an in-depth review of the National Cybersecurity Protection System.

#### Outreach to Veterans

Recruiting an able workforce is critical in the face of a growing cyber threat. Of the Department's new hires in fiscal year 2012, 24.9 percent were veterans and 8.2 percent were disabled veterans, respectively exceeding and meeting the goals set by the President's Council on Veterans Employment. In lieu of the requirement in the House report, NPPD is directed to provide a briefing not later than 60 days after the date of enactment of this Act on actual hiring for fiscal year 2013 and hiring goals for fiscal years 2014 and 2015, specifically in the cybersecurity field.

#### Cybersecurity Partnerships

NPPD is directed to review the possible advantages of establishing cooperative cybersecurity partnerships with DoD's National Cyber Range and software engineering centers to enhance the development of innovative software that improves the Nation's ability to counter threats to our cybersecurity. NPPD shall provide a report to the Committees not later than 180 days after the date of enactment of this Act on its efforts in this area.

#### FEDERAL PROTECTIVE SERVICE

A total of \$1,301,824,000 is provided for the Federal Protective Service (FPS), as re-

quested. The amount provided is fully offset by collections of security fees. A provision is included requiring the Secretary and the Director of OMB to certify, not later than February 14, 2014, that FPS will collect sufficient revenue and fees to fully fund operations, including 1,371 FTE, of which 1,007 are law enforcement, as requested in the budget.

Should sufficient revenues not be collected to fully fund operations, a provision has been included to ensure revenue for not less than 1,300 FTE, if the Secretary determines vacancies should not be filled in lieu of more effective security measures. In the event the Secretary determines vacancies should not be filled, an expenditure plan is required describing how security risks to federal employees are adequately addressed.

A provision is included requiring FPS to include with the submission of the fiscal year 2015 budget request, a strategic human capital plan that aligns fee collections to personnel requirements based on a current threat assessment.

GAO is directed to review the size of the FPS workforce in conjunction with its law enforcement responsibilities and provide a report to the Committees on areas of risk FPS should consider addressing, pursuant to the Senate report.

#### OFFICE OF BIOMETRIC IDENTITY MANAGEMENT

A total of \$227,108,000 is provided for OBIM. This amount reflects the transfer of ADIS to CBP. Within the funds provided, not less than \$4,000,000 shall be dedicated to IDENT system improvements that ensure continued operation of the legacy system and support future capability development. In particular, OBIM is facing significant challenges with IDENT database management, including storage, image separation, and transaction volume. OBIM shall keep the Committees informed on how it is continuing to address such challenges.

Not to exceed \$2,250 of the funds provided under this heading shall be for official reception and representation expenses.

#### BioWatch Generation 3

OHA is directed to brief the Committees not later than January 31, 2014, on the results of the Analysis of Alternatives. The briefing shall provide an explanation of the reevaluation of the program's mission and a clear path forward for developing the next generation of technology, including improvements, after consultation with other Federal agencies that have technical or program expertise. The briefing is in lieu of a report required by the Senate on the cost-benefit of the current BioWatch capability or alternative options.

#### FEDERAL EMERGENCY MANAGEMENT AGENCY SALARIES AND EXPENSES

Pursuant to the Senate report, FEMA shall not proceed with any realignment or reorganization of the ONCRC until it has appropriate approval from Congress. Stakeholder input and concurrence with any proposed changes will be critical for Congress to seriously consider any such approval.

**Office of External Affairs**

Not to exceed \$14,542,000 of the funds provided for Administrative and Regional Of-

**Preparedness**

The work of the Local, State, Tribal, and Federal Preparedness Task Force and resulting recommendations have charted a valuable course for FEMA. FEMA shall continue to engage stakeholders and consult with members of the Task Force on matters of national preparedness. However, FEMA is not directed to reconvene the Task Force per the Senate report. While the majority of the recommendations have been completed, additional time is needed to resolve remaining issues so that the Task Force can be used most productively if needed in the future.

**FEMA Audits**

FEMA and the OIG have embarked on a process to identify preventative measures to eliminate waste, fraud, and abuse instead of the current disruptive nature of identifying both project-specific and systemic problems

well after the fact. This is essential for protection of taxpayer dollars and effective disaster preparedness and recovery. In lieu of the requirement in the Senate report for the FEMA Administrator and the OIG to provide a joint report, FEMA and the OIG are directed to jointly brief the Committees on a quarterly basis on improvements to better guard against waste, fraud, and abuse in all FEMA programs. The briefings shall include a framework to make the audit process preventative; changes to audit procedures to ensure cost effective findings and to address root causes found in after-the-fact reports; specific steps needed to implement systemic improvements by all recommendation categories, beginning with business transformation, unsupported cost, and ineligible work or costs; and timeframes to complete specific goals.

In accordance with section 2003 of the Homeland Security Act, the Department shall provide metropolitan statistical areas an opportunity to submit information regarding the threats, vulnerabilities, and consequences they face from acts of terrorism. It is expected that the Urban Area Security Initiative (UASI) program will continue to be explicitly focused on urban areas that are

subject to the greatest terrorism risk, and that resources will continue to be allocated in proportion to risk. If the Secretary determines that risk can be more effectively addressed through a change in the number of urban areas receiving UASI funding when compared to the number funded in fiscal year 2013, the specific factors that led to the determination shall be briefed to the Committees five days prior to the announcement of funding. Any such change should be consistent with more efficiently and effectively targeting resources to address risk.

A provision is included transferring \$24,000,000 to the OIG for audits and investigations related to all disasters. Provisions are also included requiring reports on disaster related expenditures.

A general provision is included in Title V of this Act that rescinds \$300,522,000 from amounts provided for non-major disaster programs in prior years due to the significant balances carried over from fiscal year 2013 and amounts recovered from previous disasters during project closeouts. The remaining balances, combined with the amount appropriated in this bill, fully fund all known requirements, to include recovery from Hurricane Sandy, the Colorado wildfires, the Oklahoma tornadoes, and other previous disasters, as well as relief efforts for future disasters.

As directed in the House report, FEMA shall submit a report to the Committees, the House Committee on Transportation and Infrastructure, and the Senate Committee on Homeland Security and Governmental Affairs, describing options for making housing cooperative and condominium associations eligible for Federal disaster assistance.

TITLE V—GENERAL PROVISIONS  
(INCLUDING RESCISSIONS OF FUNDS)

Section 501. A provision proposed by the House and Senate is continued that no part of any appropriation shall remain available for obligation beyond the current year unless expressly provided.

Section 502. A provision proposed by the House and Senate is continued that unexpended balances of prior appropriations may be merged with new appropriation accounts and used for the same purpose, subject to reprogramming guidelines.

Section 503. A provision proposed by the House and Senate is continued and modified that provides authority to reprogram appropriations within an account and to transfer up to 5 percent between appropriations accounts with 15-day advance notification to the Committees. A detailed funding table identifying programs, projects, and activities is included at the end of this statement. This table along with funding levels specified in the report shall serve as the control level for all reprogrammings. These reprogramming guidelines shall be complied with by all agencies funded by this Act.

The Department shall submit reprogramming requests on a timely basis and provide complete explanations of the reallocations proposed, including detailed justifications of the increases and offsets, and any specific

impact the proposed changes will have on the budget request for the following fiscal year and future-year appropriations requirements. Each request submitted to the Committees should include a detailed table showing the proposed revisions at the account, program, project, and activity level to the funding and staffing (full-time equivalent position) levels for the current fiscal year and to the levels requested in the President's budget for the following fiscal year.

The Department shall manage its programs and activities within the levels appropriated. The Department should only submit reprogramming or transfer requests in the case of an unforeseeable emergency or situation that could not have been predicted when formulating the budget request for the current fiscal year. When the Department submits a reprogramming or transfer request to the Committees and does not receive identical responses from the House and Senate, it is the responsibility of the Department to reconcile the House and Senate differences before proceeding, and if reconciliation is not possible, to consider the reprogramming or transfer request not approved.

Unless an initial notification has been provided, the Department is not to submit a reprogramming or transfer of funds after June 30 except in extraordinary circumstances, which imminently threaten the safety of human life or the protection of property. If a reprogramming or transfer is needed after June 30, the submittal should contain sufficient documentation as to why it meets this statutory exception.

Subsection (e) is included to ensure that funds that are deobligated by the Department are also subject to the reprogramming and transfer guidelines and requirements set forth in this section.

Section 504. A provision proposed by the House and Senate is continued and modified that prohibits funds appropriated or otherwise made available to the Department to make payment to the Working Capital Fund (WCF), except for activities and amounts allowed in the President's fiscal year 2014 request. Funds provided to the WCF are available until expended. The Department can only charge components for direct usage of the WCF and these funds may be used only for the purposes consistent with the contributing component. Any funds paid in advance or reimbursed must reflect the full cost of each service. The Department shall submit a notification for the addition or removal of any activity to the fund and shall submit quarterly execution reports with activity level detail.

Section 505. A provision proposed by the House and Senate is continued and modified that not to exceed 50 percent of unobligated balances remaining at the end of fiscal year 2014 from appropriations made for salaries and expenses shall remain available through fiscal year 2015 subject to section 503 reprogramming guidelines.

Section 506. A provision proposed by the House and Senate is continued that funds for intelligence activities are deemed to be specifically authorized during fiscal year 2014 until the enactment of an Act authorizing intelligence activities for fiscal year 2014.

Section 507. A provision proposed by the House and Senate is continued requiring notification of the Committees three days before grant allocations, grant awards, contract awards, other transactional agreements, letters of intent, a task or delivery order on a multiple contract award totaling \$1,000,000 or more, a task or delivery order greater than \$10,000,000 from multi-year funds, or sole-source grant awards, are announced by the Department, including contracts covered by the Federal Acquisition Regulation. **DIVISION G—DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2014**

The following statement is an explanation of the effects of Division G, which makes appropriations for the Department of the Interior, the Environmental Protection Agency (EPA), the Forest Service, the Indian Health Service, and related agencies for fiscal year 2014.

In cases where this explanatory statement directs the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations. Where this explanatory statement refers to the Committees or the Committees on Appropriations, unless otherwise noted, this reference is to the House Subcommittee on Interior, Environment and Related Agencies and the Senate Subcommittee on Interior, Environment and Related Agencies.

The Committees direct each department and agency funded in this Act to follow the directions set forth in this Act and the accompanying statement, and not reallocate resources or reorganize activities except as provided herein or otherwise approved by the Committees through the reprogramming process as described in this explanatory statement. This explanatory statement addresses only those agencies and accounts for which there is a need for greater explanation than provided in the Act itself. Funding levels for appropriations by account, program, and activity, with comparisons to the fiscal year 2014 budget request, can be found in the table at the end of this division.

**National Ocean Policy.**—The Committees direct the Department of the Interior, EPA, and Council on Environmental Quality to: (1) submit a report to the House and Senate Committees on Appropriations within 60 days of enactment of this Act identifying all expenditures in fiscal years 2012 and 2013 for the development, administration and implementation of the National Ocean Policy as defined by Executive Order 13547; and (2) clearly identify funding proposed for the implementation of the National Ocean Policy in future budget submissions.

**State Wildlife Data.**—The Department of the Interior and the Forest Service are expected to cooperatively engage State fish and wildlife agencies to utilize State fish and wildlife data and analyses as a significant source of information to inform land use, planning, and related natural resource decisions involving wildlife, since the States retain primary jurisdiction over most wildlife on Federal, State, and private lands. Federal agencies should not unnecessarily duplicate raw data, but when appropriate, evaluate existing analyses of data prepared by the States and reciprocally, share data with State wildlife managers, to ensure that the most complete data are available for decision support systems.

**Federal Lands Recreation Enhancement.**—The agreement does not address an extension of the current recreation fee authority. A one-year extension of this authority was contained in the Continuing Appropriations Act, 2014 (PL 113-46).

**Making Litigation Costs Transparent.**—The Department of the Interior, EPA, and the Forest Service are directed to provide to the House and Senate Committees on Appropriations, and make publicly available no later than 60 days after enactment of this Act, detailed Equal Access to Justice Act (EAJA) fee information as specified in House Report 112-151.

**Public Access.**—The Committees believe that it is essential for the Department of the Interior and the Forest Service to provide opportunities on public lands for hunting, fishing, recreational shooting, and other out-

door activities. Within 120 days of enactment of this Act, the Department and the Forest Service are directed to report back to the House and Senate Committees on Appropriations regarding actions to preserve and improve access to public lands for hunting, fishing, shooting and other recreational activities, including proposed improvements for public involvement in agency decision-making and coordination with State and local governments.

**REPROGRAMMING GUIDELINES**

The following are the procedures governing reprogramming actions for programs and activities funded in the Department of the Interior, Environment and Related Agencies Appropriations Act. The Committees remind the agencies funded in this Act that these reprogramming guidelines are in effect, and must be complied with, until such time as the Committees modify them through bill or report language.

**Definitions.**—“Reprogramming,” as defined in these procedures, includes the reallocation of funds from one budget activity, budget line-item or program area, to another within any appropriation funded in this Act.

For construction, land acquisition, and forest legacy accounts, a reprogramming constitutes the reallocation of funds, including unobligated balances, from one construction, land acquisition, or forest legacy project to another such project.

A reprogramming shall also consist of any significant departure from the program described in the agency’s budget justifications. This includes proposed reorganizations, especially those of significant national or regional importance, even without a change in funding. Any change to the organization table presented in the budget justification shall be subject to this requirement.

**General Guidelines for Reprogramming.**—

(a) A reprogramming should be made only when an unforeseen situation arises, and then only if postponement of the project or the activity until the next appropriation year would result in actual loss or damage.

(b) Any project or activity, which may be deferred through reprogramming, shall not later be accomplished by means of further reprogramming, but instead, funds should again be sought for the deferred project or activity through the regular appropriations process.

(c) Except under the most urgent situations, reprogramming should not be employed to initiate new programs or increase allocations specifically denied or limited by Congress, or to decrease allocations specifically increased by the Congress.

(d) Reprogramming proposals submitted to the House and Senate Committees on Appropriations for approval shall be considered approved 30 calendar days after receipt if the Committees have posed no objection. However, agencies will be expected to extend the approval deadline if specifically requested by either Committee.

**Criteria and Exceptions.**—A reprogramming must be submitted to the Committees in writing prior to implementation if it exceeds \$1,000,000 annually or results in an increase or decrease of more than 10 percent annually in affected programs, with the following exceptions:

(a) With regard to the tribal priority allocations of the Bureau of Indian Affairs and Bureau of Indian Education, there is no restriction on reprogrammings among these programs. However, the Bureaus shall report on all reprogrammings made during a given fiscal year no later than 60 days after the end of the fiscal year.

(b) With regard to the EPA, State and Tribal Assistance Grants account, the Committees do not require reprogramming re-

quests associated with States and Tribes Partnership Grants.

**Assessments.**—“Assessment” as defined in these procedures shall refer to any charges, reserves, or holdbacks applied to a budget activity or budget line item for costs associated with general agency administrative costs, overhead costs, working capital expenses, or contingencies.

(a) No assessment shall be levied against any program, budget activity, sub-activity, budget line item, or project funded by the Interior, Environment, and Related Agencies Appropriations Act unless such assessment and the basis therefor are presented to the Committees on Appropriations in the budget justifications and are subsequently approved by the Committees. The explanation for any assessment in the budget justification shall show the amount of the assessment, the activities assessed, and the purpose of the funds.

(b) Proposed changes to estimated assessments, as such estimates were presented in annual budget justifications, shall be submitted through the reprogramming process and shall be subject to the same dollar and reporting criteria as any other reprogramming.

(c) The Committees direct that each agency or bureau which utilizes assessments shall submit an annual report to the Committees which provides details on the use of all funds assessed from any other budget activity, line item, sub-activity, or project.

(d) In no case shall contingency funds or assessments be used to finance projects and activities disapproved or limited by Congress, or to finance programs or activities that could be foreseen and included in the normal budget review process.

(e) New programs requested in the budget should not be initiated before enactment of the bill without notification to, and the approval of, the Committees on Appropriations. This restriction applies to all such actions regardless of whether a formal reprogramming of funds is required to begin the program.

**Quarterly Reports.**—All reprogrammings between budget activities, budget line-items, program areas, or the more detailed activity levels shown in this agreement, including those below the monetary thresholds established above, shall be reported to the Committees within 60 days of the end of each quarter and shall include cumulative totals for each budget activity, budget line item, or construction, land acquisition, or forest legacy project.

**Land Acquisitions, Easements, and Forest Legacy.**—Lands shall not be acquired for more than the approved appraised value (as addressed in section 301(3) of Public Law 91-646), unless such acquisitions are submitted to the Committees on Appropriations for approval in compliance with these procedures.

**Land Exchanges.**—Land exchanges, wherein the estimated value of the Federal lands to be exchanged is greater than \$1,000,000, shall not be consummated until the Committees have had a 30-day period in which to examine the proposed exchange. In addition, the Committees shall be provided advance notification of exchanges valued between \$500,000 and \$1,000,000.

**Budget Structure.**—The budget activity or line item structure for any agency appropriation account shall not be altered without advance approval of the House and Senate Committees on Appropriations.

**TITLE I—DEPARTMENT OF THE INTERIOR**

**BUREAU OF LAND MANAGEMENT  
MANAGEMENT OF LANDS AND RESOURCES**

The bill provides \$956,875,000 for Management of Lands and Resources. In addition to

the funding allocation table at the end of this explanatory statement, the agreement includes the following instructions:

**Rangeland Management.**—Within funding provided, the Bureau is expected to improve its completion of grazing permit renewals; conduct annual and trend monitoring of grazing allotments; and improve the quality of Bureau work on environmental and other documents related to livestock grazing. The Committees direct the Bureau, to the greatest extent practicable, to make vacant grazing allotments available to a holder of a grazing permit or lease when lands covered by the holder of the permit or lease are unusable because of drought or wildfire.

The Committees support the Bureau moving expeditiously to convene a meeting with the key stakeholders within the California Desert Conservation Area, including the High Desert Ranchers, to resolve outstanding issues required for the implementation of the grazing mitigation program as intended by Congress under section 122(b) of Division E of Public Law 112-174, in order to bring this matter to a close in a manner that benefits public lands and all interested parties.

The Bureau is urged to collaborate with the Forest Service and the Agricultural Research Service on research involving the risk of disease transmission between domestic and bighorn sheep.

**Wild Horse and Burro Management.**—The Committees are concerned about rising costs without evidence of tangible improvements in the program.

**Wildlife Management.**—The agreement includes \$52,338,000 for wildlife management, including \$15,000,000 as requested for sage-grouse. The Committees support the implementation of State sage-grouse conservation plans that prevent the need for an Endangered Species Act listing designation. The Bureau is urged to work in partnership with States to develop and implement such plans, and to support advanced collaboration efforts that could be models for conservation strategies in other places.

The Committees are concerned about the rapid spread of white-nose syndrome in bats. The Bureau is directed to continue its research, inventory, and monitoring of bat resources on Bureau-administered lands.

The Committees are concerned that current seed procurement procedures and priorities are duplicative and add unnecessary costs to Bureau programs. The Bureau is instructed to establish a system to publicly communicate its yearly estimated seed needs by variety.

**Energy and Minerals Management.**—The Committees have provided \$80,877,000 for oil and gas management including amounts to correct inspection deficiencies in this program identified by the Government Accountability Office and the Inspector General.

#### LAND ACQUISITION

The bill provides \$19,463,000 for Land Acquisition. The detailed allocation of funding by activity is included in the table at the end of this statement. This amount will fully fund the first five projects and partially fund the sixth project as prioritized by the Bureau pursuant to the Administration's consolidated request list for fiscal year 2014, as shown in the table below. In future budget submissions, the Bureau should prioritize and rank projects in different management units separately, even if they are part of a landscape collaborative planning process or other multi-unit program. The Bureau can utilize funds within "Inholdings, Emergencies, and Hardships" for hunter and angler access projects.

State	Bureau of Land Management	Budget Request	This Bill

	Additional project requests	8,331,000	0
	Total, Acquisitions	29,104,000	15,949,000

#### OREGON AND CALIFORNIA GRANT LANDS

The bill provides \$114,467,000 for Oregon and California Grant Lands. Within 180 days of enactment of this Act, the Bureau shall provide a report to the Congress on its plan to ensure funding and personnel needs to complete the Western Oregon Resource Management Plans while sustaining the timber sale program.

#### RANGE IMPROVEMENTS

The bill provides \$10,000,000 to be derived from public lands receipts and Bankhead-Jones Farm Tenant Act lands grazing receipts.

#### SERVICE CHARGES, DEPOSITS, AND FORFEITURES

The bill provides an indefinite appropriation estimated to be \$32,465,000 for Service Charges, Deposits, and Forfeitures.

#### MISCELLANEOUS TRUST FUNDS

The bill provides an indefinite appropriation estimated to be \$24,000,000 for Miscellaneous Trust Funds.

#### UNITED STATES FISH AND WILDLIFE SERVICE

##### RESOURCE MANAGEMENT

The bill provides \$1,188,339,000 for Resource Management. In addition to the funding allocation table at the end of this explanatory statement, the agreement includes the following instructions:

**Candidate Conservation.**—The Committees support the implementation of State sage-grouse conservation plans that prevent the need for an Endangered Species Act listing designation. The Service is urged to work in partnership with States to develop and implement such plans, and to support advanced collaboration efforts that could be models for conservation strategies in other places.

**Endangered Species.**—The agreement includes bill language capping funds for Endangered Species Act listings, critical habitat designations, and petitions, as requested. The Committees note that the Service's settlement agreements and corresponding workplans are subject to the Federal budget process. The Service is urged to file requisite workplan amendments with the courts as necessary to extend deadlines in order to ensure that the Service can continue to meet its obligations for thorough biological and economic analysis; fair public consultation; and transparent decision-making, within the budget provided.

The agreement includes \$1,000,000 to continue the livestock loss demonstration program as authorized by Public Law 111-11. States with de-listed wolf populations shall continue to be eligible for funding, provided that those States continue to meet the eligibility criteria contained in Public Law 111-11.

The agreement includes not less than \$2,000,000 for white-nose syndrome activities in coordination with other Federal partners.

The Service is urged to continue its efforts with non-governmental partners to recover northern aplomado falcons, California condors, and other listed species.

The Committees are concerned that the Service's 2011 revised survey protocol for the Northern Spotted Owl could have adverse economic impacts on timber companies' abil-

ity to harvest on private lands in California or respond to fluctuating market conditions. The Committees appreciate the Service's willingness to work with States and landowners to consider options that provide greater flexibility and streamline project review for timber harvesting plans, as expressed in the Pacific Regional Office's February 21, 2012 letter to the California Department of Forestry and Fire Protection (CAL FIRE). The Service is urged to: (1) develop survey protocols in cooperation with industry that minimize delays in processing timber harvesting plan permits; (2) exercise its discretion to offer exemptions from the 2-year survey protocol on a case-by-case basis where sufficient data exists to determine potential risks to the species; and (3) develop clear guidelines that explicitly define the conditions, criteria, and procedures for applying for an exemption from the 2-year survey protocol.

**National Wildlife Refuge System.**—The Committees direct the Service to work collaboratively with interested parties, including the Congress, States, local communities, Tribal governments and others in making refuge designations and in adjusting refuge boundaries.

The agreement includes \$2,835,000 for the subsistence management program.

The Service is encouraged to establish an invasive species strike team to cover the Gulf Coast region as it has with other regions of the United States.

**Conservation, Enforcement, and Science.**—The Committees are concerned about the surge in wildlife poaching and illicit wildlife trafficking, particularly of elephant ivory and rhino horn in sub-Saharan Africa, and understand that these activities provide a significant source of financing for armed insurgencies and groups with links to transnational organized crime and terrorism. The agreement includes full funding for international coordination, as requested.

The agreement accepts the proposed budget structure change to move the Science line item. Within Science, \$2,500,000 is provided for white-nose syndrome activities.

**Fisheries and Aquatic Resource Conservation.**—The agreement includes \$135,319,000 for Fisheries and Aquatic Resource Conservation, of which \$46,528,000 is to continue operations at every facility in the National Fish Hatchery System as requested. None of the funds may be used to terminate operations or to close any facility. The Committees recognize the reimbursable agreements the Service has entered into with the U.S. Army Corps of Engineers, the Tennessee Valley Authority, the Department of the Interior's Central Utah Project, and the Bonneville Power Administration in order to continue to operate mitigation hatcheries, and have provided the requested funding in the Energy and Water Development division of this Act.

The agreement includes \$1,000,000 for the Klamath Basin Restoration Agreement; \$711,000 for the sea lamprey program; and \$2,000,000 for prevention, containment, and enforcement activities prescribed in the February 2010 Quagga-Zebra Mussel Action Plan for Western U.S. Waters.

The agreement includes \$9,554,000 for the subsistence management program. The Service should continue high priority work including improvement of stock assessments; estimates of Chinook salmon escapement and run size; better understanding of salmon stock dynamics; and the assessment of biological and environmental factors influencing productivity of Chinook salmon.

The Committees continue to support the National Fish Passage Program and its flexibility to form unique partnerships for both prevention and restoration activities.

The Committees are aware that during both House and Senate consideration of H.R.

3080, the Water Resources Development Act of 2013, language was adopted to establish a multiagency effort to slow the spread of Asian carp in the Upper Mississippi River and Ohio River Basins and tributaries. The Committees urge the agencies to move quickly to initiate this effort to help control the spread of Asian carp. The agreement includes not less than \$3,500,000 to prevent the spread of Asian carp in the Upper Mississippi River, Ohio River, and Great Lakes Basins and tributaries.

*Landscape Conservation Cooperatives (LCC).*—The Committees are concerned about a recent Inspector General report finding “areas of concern that could potentially place millions of dollars at risk and jeopardize future funding and support for LCC activities overall.” From within the funds provided for LCC activities, the Service is directed to contract with the National Academy of Sciences to evaluate: (1) the purpose, goals, and scientific merits of the program within the context of other similar programs; and (2) whether there have been

measurable improvements in the health of fish, wildlife, and their habitats as a result of the program.

CONSTRUCTION

The bill provides \$15,722,000 for Construction. The detailed allocation of funding by activity is included in the table at the end of this statement. The Service is expected to follow the construction project priority list included in the President’s fiscal year 2014 budget request, and as shown in the table below.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

The bill provides \$2,236,753,000 for the Operation of the National Park System. The detailed allocation of funding by program area and activity is included in the table at the end of the statement.

*Operating Plan.*—The Committees direct the Service to submit to the House and Senate Committees on Appropriations, within 60 days of enactment of this Act, an operating plan for the Operation of the National Park System appropriations account that includes any necessary adjustments to the amounts provided to maintain park operations of all units budgeted in the fiscal year 2014 request. Such plan shall be subject to the reprogramming guidelines contained in this explanatory statement.

*Wild bison.*—The Service is directed to continue to consult with Native American Tribes to develop an updated conservation and management plan for Yellowstone bison that utilizes sound management practices.

*Resource Stewardship.*—The Committees direct the Service to provide no less than \$2,000,000 within available funds for quagga and zebra mussel containment, prevention,

and enforcement as prescribed in the February 2010 Quagga-Zebra Mussel Action Plan for Western U.S. Waters. The Committees further urge the Service to provide no less than \$3,000,000 within available funds for monitoring and surveillance activities associated with white-nose syndrome in bats.

*Park Partnerships.*—The Committees encourage the use of public-private partnerships as an important tool in the successful operation of land management agencies. These partnerships, which leverage Federal dollars with State, local, nonprofit, and philanthropic entities, have proven effective at achieving partner and Service goals and objectives. The Committees urge the Department and Service to reassess recent policy interpretations and review procedures to facilitate partnerships that have historically proven beneficial to national parks and partners. The Committees support ongoing efforts by the Service to enter into cooperative partnerships with Native American Tribes to enhance the management and operation of its parks and facilities.

*Historic leases.*—The Committees applaud the efforts of the Service and private partners to successfully implement such leases, and encourage the broader use of this important authority to mitigate the maintenance backlog of historic structures.

*Flight 93 Memorial.*—The Committees are committed to the timely completion of the Flight 93 Memorial and urge the Service to

complete all phases of the Memorial in conjunction with private fundraising efforts.

**National Capital Area Performing Arts Program.**—Within the amounts provided, the Committees direct the Service to maintain funding for the National Capital Area Performing Arts Program, including the summer concert series staged on the U.S. Capitol grounds, at the fiscal year 2012 enacted level.

**Enhanced Security for National Icons.**—The Committees support funding at the budget request level for enhanced security at national icons including the Statue of Liberty and the Martin Luther King, Jr. Memorial.

**Historic Properties.**—The Committees are concerned that a proposal to remove the Fresnel lens currently installed at the Block Island Southeast Lighthouse in Rhode Island will have an adverse impact on this historic property. The Service is directed to report to and consult with the House and Senate Committees on Appropriations prior to facilitating the transfer of the lens or accepting the lens for display at any unit within the System.

**Abandoned Mines.**—The Service is encouraged to prioritize the closure of abandoned mines which present the greatest threat to public safety, in particular those mines with dangerous vertical shafts that pose risks to unsuspecting visitors.

**Park Police Firearms Investigations.**—The Inspector General of the Department of the Interior recently reported that the United States Park Police (USPP) could not account for its inventory of firearms, indicating that USPP leadership has a lackadaisical attitude toward firearms management

that created conditions that would allow for theft and misuse of firearms. The Service is directed to develop a plan to be submitted to the House and Senate Committees on Appropriations within 90 days of enactment of this Act that comprehensively addresses the internal management weaknesses that have led to each of the Inspector General's findings, including organizational changes, actions, and a timeline required to correct them.

**Water Quality.**—The Committees urge the Service to work with the Miccosukee Tribe of Indians of Florida to examine the water quality of the L-28 canal system.

**NATIONAL RECREATION AND PRESERVATION**

The bill provides \$60,795,000 for National Recreation and Preservation with the following specific directives:

**Chesapeake Gateways and Trails Program.**—As requested, the bill includes \$1,997,000 for the Chesapeake Gateways and Trails Program. The Committees have included language within Title IV General Provisions to extend the authorization of this program through fiscal year 2015.

**Heritage Partnership Program.**—The bill provides \$18,289,000 for the Heritage Partnership Program. The bill restores funding for long-standing, tier 3 areas to each area's fiscal year 2012 level; provides a total of \$300,000 to each of the tier 2 areas including those with recently approved management plans; and provides \$150,000 to each tier 1 area that has been authorized and is still in the process of having a management plan approved. No additional reallocation of funds from long-standing areas shall be implemented by the

Service. The Committees have included language within Title I General Provisions to extend the authorization of 12 expiring National Heritage Areas through fiscal year 2015.

**HISTORIC PRESERVATION FUND**

The bill provides \$56,410,000 for the Historic Preservation Fund with the following specific directives:

**State and Tribal Historic Preservation Offices.**—The bill provides \$47,425,000 for State Historic Preservation Offices, of which \$500,000 is for grants to underserved communities, and \$8,985,000 for Tribal Historic Preservation Offices.

**CONSTRUCTION**

The bill provides \$137,461,000 for Construction with the following specific directives:

**Line Item Construction.**—The bill provides \$60,563,000 in funding for line item construction projects in the fiscal year 2014 budget request and as shown in the table below. Requests for reprogramming will be considered pursuant to the guidelines in the front of this statement.

**Everglades Restoration.**—The Committees have been informed by the Service that instead of the \$30,000,000 requested in the Construction account for the Tamiami Trail bridging, only \$15,000,000 is needed in fiscal year 2014. In keeping with the Federal/non-Federal partnership for funding this project, the Committees have provided the necessary \$7,500,000 to move this project forward in fiscal year 2014.

**LAND AND WATER CONSERVATION FUND (RESCISSION)**

The bill includes a rescission of \$28,000,000 in annual contract authority. This authority has not been used in recent years and there are no plans to use this authority in fiscal year 2014.

**LAND ACQUISITION AND STATE ASSISTANCE**

The bill provides \$98,100,000 for Land Acquisition and State Assistance. The detailed allocation of funding by activity is included in the table at the end of this statement. This amount will fully fund the first six projects and partially fund the seventh project as prioritized by the Service pursuant to the Administration's consolidated request list for fiscal year 2014, as shown in the table below. In future budget submissions, the Service should prioritize and rank projects in different management units separately, even if they are part of a landscape collaborative planning process or other multi-unit program. In addition to the traditional State Conservation Grants, the Committees have provided \$3,000,000 for a competitive grant program. The Secretary is directed to brief the Committees on the design of the program and the grant criteria to be used prior to issuing requests for proposals.

**UNITED STATES GEOLOGICAL SURVEY**

**SURVEYS, INVESTIGATIONS, AND RESEARCH**

The bill provides \$1,032,000,000 for Surveys, Investigations, and Research of the U.S. Geological Survey. In addition to the funding allocation table at the end of this explanatory statement, the agreement includes the following instructions:

**Ecosystems.**—Within the Ecosystems activity, an additional \$505,000 is provided to address white-nose syndrome in bats, and an increase of \$1,000,000 is included for Asian carp control efforts.

**Energy, Minerals, and Environmental Health.**—The Committees encourage the Survey to continue to analyze the distribution and magnitude of endocrine-disrupting chemicals impacting fish and wildlife in the Chesapeake Bay Watershed and have there-

fore included \$1,000,000 for Emergency Contaminants/Endocrine Disruptors within the funding provided for Contaminant Biology. The Committees recognize that the Survey's mineral reports are highly valued by governmental and nongovernmental entities and encourage the Survey to consider additional sources of funds to support these reports and other aspects of the minerals program.

**Natural Hazards.**—Funding for Natural Hazards programs includes \$1,000,000 for earthquake risks assessments, \$1,200,000 for Eastern U.S. earthquakes research and monitoring, \$900,000 for volcano and landslide disaster response network activities, and \$1,000,000 for coastal Lidar imaging. The Committees support the Natural Hazards program and urge the Survey to continue its research and outreach efforts both within the Survey and with State and university partners, including investments and improvements to the Advanced National Seismic System. The Committees support efforts to continue developing an earthquake early warning prototype system on the West Coast. The Committees note that several of the Survey's seismic stations associated with the North Pacific volcano observatory network are currently inoperable, with additional sites expected to lose monitoring capability in the near future. The Survey

should maintain a sufficient level of funding for the program so that seismic activities continue to be detected rapidly and important information can be disseminated to the public, including information critical to civil and military air routes.

**Water Resources.**—Within Water Resources, \$600,000 is provided for groundwater availability studies, \$6,000,000 is included for expansion of the National Streamgauge Network, and the Water Resources Research Institutes are funded at \$6,500,000.

**Core Science Systems.**—Within the funding provided for Science, Synthesis, Analysis and Research, an increase of \$400,000 is for data preservation, and \$764,000 of the amount requested is included for the expansion of mapping activities in Alaska.

BUREAU OF OCEAN ENERGY MANAGEMENT  
OCEAN ENERGY MANAGEMENT

The bill provides \$166,891,000 for Ocean Energy Management to be partially offset with the collection of rental receipts and cost recovery fees totaling \$97,891,000, for a net discretionary appropriation of \$69,000,000. The request did not include any funds for coastal marine spatial planning and accordingly the bill provides no funds for such activities. The agreement includes the following additional guidance:

**Renewable Energy.**—The Bureau should continue to work with the Department of Energy to identify and permit a national offshore wind test site that incorporates new technology related to the structural material of transitional depth and floating wind turbines. The Bureau is also expected to continue working with coastal States and other stakeholders to study new wind energy areas, including in shallow, transitional, and deep (over 200 feet) waters.

**Conventional Energy.**—The Bureau should continue to work with industry on efficient and transparent standards for plan review, to improve technical accuracy, reduce the administrative burden, and identify common errors and ways to avoid them.

BUREAU OF SAFETY AND ENVIRONMENTAL ENFORCEMENT  
OFFSHORE SAFETY AND ENVIRONMENTAL ENFORCEMENT

The bill provides \$187,715,000 for Offshore Safety and Environmental Enforcement to be partially offset with the collection of rental receipts, cost recovery fees and inspection fees totaling \$123,970,000, for a net discretionary appropriation of \$63,745,000.

OIL SPILL RESEARCH

The bill provides \$14,899,000 for Oil Spill Research. The Bureau is directed to continue studying the full suite of possible strategies and their effectiveness in responding to oil spills, including dispersants, mechanical recovery, in-situ burn, use of autonomous underwater vehicles that detect and track the location of liquid hydrocarbons, and remote sensing technologies that could be used to assess the effectiveness of applied dispersants.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT  
REGULATION AND TECHNOLOGY

The bill provides \$122,713,000 for regulation and technology. Within this amount, the bill funds regulatory grants at \$68,590,000, equal to the fiscal year 2012 enacted level. The Committees find the budget proposal to reduce regulatory grants would undermine the State-based regulatory system. It is imperative that States continue to operate protective regulatory programs as delegation of authority to the States is the cornerstone of the surface mining regulatory program. Further, the agreement does not provide funds to expand and enhance Federal oversight activities of State programs.

ABANDONED MINE RECLAMATION FUND

The bill provides \$27,399,000 for the Abandoned Mine Reclamation Fund.

BUREAU OF INDIAN AFFAIRS AND BUREAU OF INDIAN EDUCATION

OPERATION OF INDIAN PROGRAMS  
(INCLUDING TRANSFER OF FUNDS)

The bill provides \$2,378,763,000 for Operation of Indian Programs. The agreement includes the following instructions:

**Contract Support Costs.**—The agreement includes funding to implement the Indian Self-Determination and Education Assistance Act of 1975 (25 U.S.C. 450 et seq.) as in prior years which, among other things, authorizes discretionary appropriations for contract support costs. The agreement does not include statutory language carried in prior year appropriations bills, which limited the amount available in any given fiscal year for the payment of contract support costs, nor does it include the proposal put forth in the Administration's fiscal year 2014 budget request that would place a cap on the contract support cost amounts available for each tribal contract or compact. That proposal was developed without tribal consultation and the Committees heard from numerous Tribes voicing their strong opposition.

Instead, the question of contract support cost amounts to be paid from within the fiscal year 2014 appropriation is remanded back to the agencies to resolve, while the underlying contradictions in current law remain to be addressed by the House and Senate committees of jurisdiction. Until such matters are resolved, the House and Senate Committees on Appropriations are in the untenable position of appropriating discretionary funds for the payment of any legally obligated contract support costs. Typically obligations of this nature are addressed through mandatory spending, but in this case since they fall under discretionary spending, they have the potential to impact all other programs funded under the Interior and Environment Appropriations bill, including other equally important tribal programs. The Committees therefore direct the Department of the Interior and the Department of Health and Human Services to consult with the Tribes and work with the House and Senate committees of jurisdiction, the Office of Management and Budget, and the Committees on Appropriations to formulate long-term accounting, budget, and legislative strategies to address the situation. In the Committees' view, each Department's solution should consider a standardized approach that streamlines the contract negotiation process, provides consistent and clear cost categories, and ensures efficient and timely cost documentation for the Departments and the Tribes. Within 120 days of enactment of this Act, the Departments shall develop work plans and announce consultation with Tribes on this issue.

The Department of the Interior is directed to submit an operating plan to the Committees within 30 days of enactment of this Act displaying funding allocations to the activity level. The plan should consider the ability of the offices and bureaus overseen by the Assistant Secretary.—Indian Affairs to accommodate the streamlining reduction proposed in the fiscal year 2014 budget considering the progress made thus far, while ensuring adequate administrative support at the national and regional level for administrative functions.

**Indian Self-Determination Fund.**—The agreement includes funding for this program in the two-year appropriation, as opposed to the no-year appropriation as was done in prior years.

**Housing Improvement Program.**—The agreement includes \$8,000,000 to partially restore the proposed cut to the program.

**Trust.—Real Estate Services.**—The Committees expect the Bureau of Indian Affairs to support the Klamath Basin Restoration Agreement.

**Education.**—The bill provides \$591,234,000 for forward-funded education but does not include funding for the proposed turnaround schools pilot project.

The Committees are concerned that management challenges within the Department, the Bureau of Indian Affairs, and the Bureau of Indian Education (collectively, "Indian Affairs"), as identified in a September 2013 report by the Government Accountability Office (GAO-13-774), may impact the overall success of the students in the system. Although the Committees are encouraged that Indian Affairs concurred with all of GAO's recommendations and that a full-time director of the Bureau of Indian Education is in place after a vacancy of more than a year, the Committees expect the Secretary to oversee the implementation of these management reforms. Indian Affairs underwent an administrative realignment in October 2013, but failed to keep the Committees apprised of its implementation. The Committees direct the Department to submit a report on this recent implementation within 30 days of enactment of this Act.

The bill retains language preventing the Bureau of Indian Education from funding new schools, including charter schools. The Committees remain willing to consider any proposal that will help more students graduate and succeed without spreading the already limited appropriations among more schools. Alternative education organizations and Tribes are encouraged to work together to take advantage of the flexibilities in curricula that the Bureau's tribal grant school model offers.

The Committees continue to support the Johnson O'Malley program, including the need for up-to-date student counts and a full-time coordinator. The Bureau is directed to conduct an accurate student count in fiscal year 2014 and publish the results before the end of the fiscal year.

The Committees are aware that during school year 2013-14 the Bureau of Indian Education will conduct an internal review of early education programs as well as the Family and Child Education (FACE) program in order to explore ways to provide more services to additional children. The Committees expect the results of this review to be reflected in the fiscal year 2016 budget request.

**Indian Employment, Training and Related Services.**—The Committees remain concerned that an agreement has not been reached between Tribes and the Administration concerning the future management of the Public Law 102-477 program. Language in the explanatory statement accompanying Division E of Conference Report 112-331 established a framework for resolving this dispute. While significant efforts were made by the Public Law 102-477 Working Group, the parties appear to be at an impasse. Accordingly, within 60 days of enactment of this Act, the Bureau of Indian Affairs shall submit a report to the House and Senate Committees on Appropriations describing the current status of the negotiations, listing those items that have been mutually agreed to and those that remain to be resolved, and outlining the path that will be taken to move the process forward in the months ahead.

**Spirit Lake Tribe Social Services.**—The Bureau is directed to report to the House and Senate committees of jurisdiction on the progress of its efforts and the adequacy of child placement and judicial review by the Tribe and the Bureau. The Secretary is expected to take all necessary steps to ensure that children at the Spirit Lake Reservation are placed in safe and secure homes.

*Public Safety and Justice.*—For the purpose of addressing the needs of American Indian youth in custody at tribal detention centers operated or administered by the Bureau of Indian Affairs, the Committee considers educational services to juveniles in custody to be allowable costs for detention/corrections program funding.

*Office of Indian Energy and Economic Development.*—The Office is urged to consult with Tribes about improving and increasing the use of the one-stop-shop model for expediting energy development on tribal lands, and to utilize Public Law 93-638 and similar authorizations where possible.

*Indian Arts and Crafts Board.*—Funding for the Indian Arts and Crafts Board is retained within the Office of the Secretary rather than transferred to the Bureau as requested. The Committees are told that the transfer could likely improve the efficiency and effectiveness of enforcement of the Indian Arts and Crafts Act of 1990 and other program activities. However, the Committees remain concerned about the lack of consultation with the Board and ask that the Department evaluate this issue and report to the Congress in the fiscal year 2015 budget request.

#### CONSTRUCTION

##### (INCLUDING TRANSFER OF FUNDS)

The bill provides \$110,124,000 for Construction. In addition to the funding allocation table at the end of this explanatory statement, the agreement includes the following instructions:

*Education.*—The agreement includes \$55,285,000, of which \$954,000 is for design costs within replacement school construction, \$3,818,000 is for employee housing repair, and \$50,513,000 is for facilities improvement and repair.

Significant health and safety hazards exist at Indian educational facilities across the country, including the Bug-O-Nay-Ge-Shig School of the Leech Lake Band of Ojibwe. The Bureau is urged to continue to work with Tribes to repair and replace substandard educational facilities.

*Public Safety and Justice.*—The Committees continue to encourage the Bureau to consider establishing regional detention centers at new or existing facilities, such as the Shoshone-Bannock Tribes' Justice Center, as it works to combat the crime problem in Indian Country.

#### INDIAN LAND AND WATER CLAIMS SETTLEMENTS AND MISCELLANEOUS PAYMENTS TO INDIANS

The bill provides \$35,655,000 for Indian Land and Water Claims Settlements and Miscellaneous Payments to Indians.

#### INDIAN GUARANTEED LOAN PROGRAM ACCOUNT

The bill provides \$6,731,000 for the Indian Guaranteed Loan Program Account.

#### DEPARTMENTAL OFFICES

##### OFFICE OF THE SECRETARY

##### DEPARTMENTAL OPERATIONS

The bill provides \$264,000,000 for Departmental Offices, Office of the Secretary, Departmental Operations. The detailed allocation of funding by program area and activity is included in the table at the end of the statement. The bill also provides \$12,168,000 for the Office of Valuation Services.

*National Monument Designations.*—The Committees direct the Department to work collaboratively with interested parties, including the Congress, States, local communities, Tribal governments and others in making national monument designations.

*Made in America.*—The Committees direct the Department, including the National Park Service, to explore viable ways to encourage the sale of American-made products by concessioners. To support this objective, the Department is encouraged to examine

the viability of purchasing supplies from Federal Prison Industries (FPI), a wholly owned U.S. government corporation that uses inmates from the Federal Bureau of Prisons to produce goods sold to Federal government agencies that otherwise would be manufactured and sold outside the United States. The Committees encourage the Department to the maximum extent possible to consider the purchase of FPI items as existing contracts expire.

*Fleet vehicles.*—The Committees note that idle reduction strategies and technologies currently being utilized by the private sector may offer a net cost savings to the end user, and thus direct the Department to provide the Committees with a report no later than 180 days after enactment of this Act on the potential benefits, cost effectiveness, and role of idle reduction in its Performance Plan for fleet vehicles.

*Indian Arts and Crafts Board.*—The Committees have provided funding for the Indian Arts and Crafts Board within the Office of the Secretary rather than moving it to the Bureau of Indian Affairs as proposed in the budget request.

*Payments in Lieu of Taxes (PILT).*—The Payments in Lieu of Taxes (PILT) program provides compensation to local governments for the loss of tax revenue resulting from the presence of Federal land in their county or State. In 2013, 49 States, the District of Columbia, Guam, the Commonwealth of Puerto Rico, and the U.S. Virgin Islands received PILT payments. PILT has been a mandatory program since fiscal year 2008. The Committees have been given assurances that PILT payments for fiscal year 2014 will be addressed expeditiously by the appropriate authorizing committees of jurisdiction in the House and Senate.

*Freedom of Information Act and Other Costs.*—The Committees are concerned that Freedom of Information Act and other document production requests may be consuming Department resources and delaying important departmental actions. The Committees fully support access to Federal government information pursuant to such requests but remain obligated to monitor their impacts on the Federal budget. Within 60 days of enactment of this Act, the Department shall brief the Committees on its efforts to date to account for the costs and offsetting fee collections of such requests.

#### INSULAR AFFAIRS

##### ASSISTANCE TO TERRITORIES

The bill provides \$85,976,000 for Assistance to Territories. In addition to the funding allocation table at the end of this explanatory statement, the agreement includes the following instructions:

The Department recently closed the Federal Labor Ombudsman Office in Saipan, CNMI. The Department is expected to continue technical assistance support to allow labor oversight activities to continue in concert with other Federal and non-Federal partners. Further, the Department shall provide a status report on its activities to maintain labor oversight to the House and Senate Committees on Appropriations within 90 days of enactment of this Act.

*Compact Impact.*—The agreement includes \$3,000,000 as requested to continue discretionary grants to mitigate the impact of Compact-related migration on affected jurisdictions, as authorized by section 104(e) of Public Law 108-188. The Department shall allocate these grants in conjunction with other currently authorized mandatory grants for the same purpose.

#### COMPACT OF FREE ASSOCIATION

The bill provides \$16,465,000, which includes \$2,818,000 for obligations related to the Com-

pact of Free Association. Language has been included in Title I General Provisions to extend the eligibility for the Republic of Palau to receive Federal aid until a new Compact of Free Association is enacted by the Congress. It is imperative that the committees of jurisdiction, together with the Administration, work with urgency to enact a new Palau Compact and provide a more permanent funding solution.

#### OFFICE OF THE SOLICITOR

##### SALARIES AND EXPENSES

The bill provides \$65,800,000 for the Office of the Solicitor.

#### OFFICE OF INSPECTOR GENERAL

##### SALARIES AND EXPENSES

The bill provides \$50,831,000 for the Office of Inspector General. The detailed allocation of funding by program and activity is included in the table at the end of this statement.

#### OFFICE OF THE SPECIAL TRUSTEE FOR AMERICAN INDIANS

##### FEDERAL TRUST PROGRAMS

##### (INCLUDING TRANSFER OF FUNDS)

The bill provides \$139,677,000 for the Office of the Special Trustee for American Indians. The detailed allocation of funding by activity is included in the table at the end of this explanatory statement.

#### DEPARTMENT-WIDE PROGRAMS

##### WILDLAND FIRE MANAGEMENT

##### (INCLUDING TRANSFERS AND RESCISSION OF FUNDS)

The bill provides \$740,982,000 for Department of the Interior Wildland Fire Management. The amount provided, combined with \$92,000,000 in the FLAME Wildfire Suppression Reserve Fund, fully funds the Department's 10-year average expenditure for fire suppression. In addition, \$36,000,000 was provided in the Continuing Appropriations Act, 2014 (PL 113-46) for fire transfer reimbursements in fiscal year 2013, of which this bill rescinds \$7,500,000 because these funds were not needed to repay accounts where funds cannot be used for their designated purposes. Total funding provided in fiscal year 2014 for Department-wide wildland fire accounts is \$861,482,000. The detailed allocation of funding for these accounts is included in the table at the end of this statement. The Committees also provide the following directions:

The bill provides \$145,024,000 for Hazardous Fuels activities. The Department is directed to implement effective treatments in frequent fire forests that restore forest resiliency and reduce hazardous fuels. Treatments should be placed to effectively modify fire behavior and protect assets at risk including life and property.

The Committees are supportive of the Department's efforts to become more cost-effective and efficient within Wildland Fire Management. The Committees, however, continue to be concerned by the duplication that exists within the Department's wildland fire programs; the growth of the Office of Wildland Fire Coordination in Boise, Idaho; and the delay of funding to the field for emergency stabilization and rehabilitation.

The Committees are also concerned by the delay of emergency stabilization and rehabilitation funds to State and/or regional offices and direct the Department to more expeditiously allocate funds so critical work can be completed in a timely manner.

#### FLAME WILDFIRE SUPPRESSION RESERVE FUND

##### (INCLUDING TRANSFER OF FUNDS)

The bill provides \$92,000,000 for the FLAME Wildfire Suppression Reserve Fund.

#### CENTRAL HAZARDOUS MATERIALS FUND

The bill provides \$9,598,000 for the Central Hazardous Materials Fund.

## GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR

## (INCLUDING TRANSFERS OF FUNDS)

## TITLE II—ENVIRONMENTAL PROTECTION AGENCY

The bill provides \$8,200,000,000 for the Environmental Protection Agency (EPA). Unless explicitly stated in the explanatory statement or included in the table accompanying the statement, funds have only been provided for fixed cost needs and for existing programs and activities.

*Congressional Budget Justification.*—The Agency is directed to continue to include the information requested in House Report 112-331 and any proposals to change State allocation formulas that affect the distribution of appropriated funds in future budget justifications.

*Reprogramming.*—The Agency is held to the reprogramming limitation of \$1,000,000 and should continue to follow the reprogramming directives as provided in the front of this statement. Further, the Agency may not use any amount of deobligated funds to initiate a new program, office, or initiative, without the prior approval of the Committees.

Within 30 days of enactment of this Act, the Agency is directed to submit to the House and Senate Committees on Appropriations its annual operating plan for fiscal year 2014, which shall detail how the Agency plans to allocate funds at the program project level.

## SCIENCE AND TECHNOLOGY

The bill provides \$759,156,000 for Science and Technology programs and transfers \$19,216,000 from the Hazardous Substance Superfund account to this account. The bill provides the following specific funding levels and direction:

*Indoor Air and Radiation.*—The bill provides \$6,449,000. The proposed elimination of radon activities has been rejected.

*Research: National Priorities.*—The bill provides \$4,234,000 which shall be used for extramural research grants, independent of the Science to Achieve Results grant program, to fund high-priority water quality and availability research by not-for-profit orga-

nizations who often partner with the Agency. Funds shall be awarded competitively with priority given to partners proposing research of national scope and who provide a 25 percent match. The Agency is directed to allocate funds to grantees within 180 days of enactment of this Act.

*Research: Safe and Sustainable Water Resources.*—The bill provides \$111,018,000. The proposed elimination of the beach program has been rejected and funding for this program has been restored within the funds provided.

*Research: Sustainable and Healthy Communities.*—The bill provides \$154,978,000. Funding is included for the Agency's STAR and the Greater Research Opportunities fellowship programs consistent with fiscal year 2013 levels.

*Additional Guidance.*—The agreement includes the following additional guidance:

*Endocrine Disruptor Research.*—There has been longstanding interest in EPA's effort in determining possible health and environmental effects of chemicals. To improve analysis of chemicals, EPA needs to improve its scientific understanding of chemical properties in order to better inform the Agency's Contaminant Candidate List as required by the Safe Drinking Water Act; Air Toxics Strategy as required under the Clean Air Act; and all required activities under the Toxic Substances Control Act. EPA is directed to follow the directives and recommendations in House Report 112-589 with respect to Endocrine Disruptor Research.

*Integrated Risk Information System (IRIS).*—The Committees note that House Report 112-331 directed EPA to contract with the National Academy of Sciences (NAS) to conduct reviews of IRIS assessments with the goal of improving EPA's IRIS assessments. The Committees recognize that the agreed-upon NAS review is ongoing and that the Agency is taking steps to address previous NAS recommendations. To that end, the Agency shall include in each draft and final IRIS assessment released in fiscal year 2014, documentation describing how EPA has implemented or addressed NAS Chapter 7 recommendations. If any recommendations were not incorporated, the Agency should explain its rationale.

Further, EPA should ensure the new draft of the formaldehyde assessment reflects those recommended improvements. Specifically, EPA should adhere to the recommendation in Chapter 7 of the NAS report that "strengthened, more integrative and more transparent discussions of weight of the evidence are needed." Conducting a risk assessment for formaldehyde presents many challenges, due largely to the significant database for this compound. Although several evaluations have been conducted, none has formally integrated toxicological and epidemiological evidence. EPA should ensure the forthcoming revised draft IRIS assessment of formaldehyde is a model of transparency and represents an objective and robust integration of the scientific evidence.

The Committees understand EPA has decided to make further revisions to the acrylonitrile assessment to more fully address scientific issues in the assessment. Therefore, the Agency is directed to review methods previously used to evaluate and interpret the body of available scientific data, including the weight-of-evidence approach. Further, and no later than May 1, 2014, the Agency shall provide to the House and Senate Committees on Appropriations a progress report that describes the Agency's implementation of NAS Chapter 7 recommendations for fiscal years 2012 and 2013.

The progress report shall include a chapter on whether there are more appropriate scientific methods to assess, synthesize and

draw conclusions regarding likely human health effects associated with likely exposures to substances. The Agency should also discuss the current re-evaluation of the formaldehyde and acrylonitrile assessments as well as any other assessments that may be relevant as case studies. This chapter should include a discussion of the methods previously used by the Agency to evaluate and interpret the body of available scientific data, and include descriptions of any quantitative methods used to combine evidence to support hypotheses, such as the weight-of-evidence approach.

**Laboratory Workforce Planning.**—In July 2011, the Government Accountability Office (GAO) found that EPA needs a more coordinated approach to managing its laboratories and that EPA does not use a comprehensive process for managing its laboratories' workforce (GAO-11-347). Consistent with GAO findings, EPA should develop a comprehensive workforce planning process for all laboratories that is based on reliable workforce data in order to identify future needs across all Agency laboratories.

**Nanomaterial Research.**—Given the increased capabilities of the Food and Drug Administration (FDA) concerning nanomaterials, the Agency is encouraged to explore future research collaboration with the FDA which benefits the missions of both organizations in studies related to the environment, health, and safety of nanomaterials and in sustainable molecular design research.

**Public Access to Research.**—In February 2013, the Office of Science and Technology Policy, Executive Office of the President issued guidelines on increasing public access to the results of federally funded scientific research. Given the importance of research funded by EPA, the Agency is encouraged to comply expeditiously.

#### ENVIRONMENTAL PROGRAMS AND MANAGEMENT

The bill provides \$2,624,149,000 for Environmental Programs and Management and includes the following specific funding levels and direction:

**Clean Air and Climate.**—The bill provides \$277,491,000. Funding is included for the Sunwise program consistent with the fiscal year 2013 level.

**Environmental Protection: National Priorities.**—The bill provides \$12,700,000 for a competitive grant program to provide technical assistance for improved water quality or safe drinking water to rural and urban communities or individual private well owners. The Agency is directed to provide \$11,000,000 for grants to qualified not-for-profit organizations, on a national or multi-State regional basis, for on-site training and technical assistance for water systems in rural or urban communities. The Agency is also directed to provide \$1,700,000 for grants to qualified not-for-profit organizations for technical assistance for individual private well owners, with priority given to organizations that currently provide technical and educational assistance to individual private well owners. The Agency shall require each grantee to provide a minimum 10 percent match, including in-kind contributions. The Agency is directed to allocate funds to grantees within 180 days of enactment.

**Geographic Programs.**—The bill provides \$415,737,000, as distributed in the table at the end of this division, and includes the following direction:

**Great Lakes Restoration Initiative.**—The bill provides \$300,000,000. EPA shall follow the direction provided in House Report 112-589 for fiscal year 2014. The Agency is directed to continue funding the Great Lakes mass marking program, at or above current levels of \$1,500,000 per year, as a part of the Great Lakes Restoration Initiative. Further, the

Committees encourage EPA and the Bureau of Indian Affairs to explore ways to improve efficient distribution and use of Great Lakes Restoration Initiative funds by eligible Tribes and tribal organizations, such as through the use of mechanisms authorized by the Indian Self-Determination and Education Assistance Act of 1975.

**Chesapeake Bay.**—The bill provides \$70,000,000. From within the amount, \$5,000,000 is for nutrient and sediment removal grants and \$5,000,000 is for small watershed grants to control polluted runoff from urban, suburban and agricultural lands.

**Puget Sound.**—The bill provides \$25,000,000. Funds shall be allocated in the same manner as directed in House Report 112-331. The Agency is directed to expeditiously obligate funds, in a manner consistent with the authority and responsibilities under Section 320 and the National Estuary Program.

**Community Action for a Renewed Environment (CARE).**—No funds have been provided for the CARE Program.

**Indoor Air and Radiation.**—The bill provides \$28,081,000. The proposed elimination of radon activities has been rejected.

**Information Exchange.**—The bill provides \$128,569,000. The Committees are aware that a backlog of responses to congressional inquiries exists and urge the Agency to expedite formal responses to ensure that committees and Member offices have the information they need to remain responsive to constituencies and ensure appropriate congressional oversight on programs of interest. To help inform the Committees with respect to workload, the Committees direct the Office of Congressional and Intergovernmental Relations (OCIR) to submit a quarterly report to the House and Senate Committees on Appropriations that shows the date when congressional requests for information were received, a short description of the requested information, number of days since receipt of request, and the office currently responsible for drafting/reviewing the response.

**Resource Conservation and Recovery Act.**—The bill provides \$107,738,000. Funding to develop the e-manifest system has been consolidated within the new Hazardous Waste Electronic Manifest System Fund account. The Committees strongly support efforts to build a cost-effective IT system to manage manifest transactions electronically.

**Water: Ecosystems.**—The bill provides \$46,163,000. The Committees expect that EPA will use the funds provided to accelerate the review and comment period for consultations provided as part of the Section 404 permitting process. The Committees direct EPA, in consultation with the Corps of Engineers, to report monthly on the number of Section 404 permits under EPA's review. The report should include the information requested under this heading in House Report 112-589.

**Water: Human Health Protection.**—The bill provides \$100,088,000. The proposed elimination of the beach program has been rejected and funding for this program has been restored within the funds provided.

**Additional Guidance.**—The agreement includes the following additional guidance:

**Administrator Priorities.**—Funding for Administrator priorities shall not exceed the fiscal year 2012 enacted level. The Agency is directed to submit a report within 90 days of enactment of this Act that identifies how the fiscal year 2012 and 2013 funding was used by account, program area and program project and includes a description of the activities and any anticipated results. Future congressional budget justifications should identify funding in each program project that has been set aside for Administrator priorities, and include a justification for the effort and any anticipated results.

**Aerial Compliance Monitoring.**—The Agency is directed to submit a report to the House

and Senate Committees on Appropriations within 180 days of enactment of this Act that identifies by fiscal year: the amount of funding spent to contract for aerial over-flights, the contractor performing the work, the number of flights performed, geographical areas (county and State) that the contracted flights surveyed, and data that identifies by fiscal year the number of enforcement actions where aerial survey information was utilized as contributing evidence, and the outcome of each action. The report shall include data from fiscal year 2003 to fiscal year 2013.

**Brown Marmorated Stink Bug.**—The Committees encourage the Agency to continue to work collaboratively with the U.S. Department of Agriculture, including the Agricultural Research Service, the National Institute of Food and Agriculture, and the Animal and Plant Health Inspection Service, and State partners to expeditiously approve a control program for the brown marmorated stink bug as soon as the appropriate agents are evaluated for release.

**Confidential Business Information.**—The Committees urge EPA to enhance and update its current guidance on the use and development of structurally-descriptive generic names to be used in lieu of confidential chemical identity and provide no further directives.

**Colony Collapse Disorder.**—The declining health of bees is impacting the ability of U.S. beekeepers to maintain adequate bee supplies that are essential for the production of honey and for pollination. Honey bees and other pollinators perform a vital function for a substantial portion of fruit and vegetable production. There is ongoing collaboration between the EPA and the U.S. Department of Agriculture to address the complex issues surrounding bee health. The comprehensive scientific report on honey bee health issued in 2013 highlighted several key issues, including the impact of parasites and disease, the need for increased genetic diversity, and the need for land management to provide sufficient nutrition for bee colonies. The report also identifies the most pressing pesticide research questions related to determining pesticide exposures and effects of pesticides to bees and the potential for impacts on bee health and productivity of whole honey bee colonies. To build on the collaborative work in 2013, EPA shall improve its risk assessment approaches as a part of its pesticide registration process to protect honey bees, bumble bees, and solitary bees in all life stages. Further, EPA has already taken action in regard to improving pesticide labels and is expected to continue to regularly evaluate its policies to ensure the protection of pollinators and all species critical to food production.

**Drinking Water Treatment Compliance Flexibility.**—The Committees recognize that the Long Term 2 Enhanced Water Treatment Rule presents significant costs and technical challenges for systems serving fewer than 100,000 persons while current timeframes present significant challenges for communities seeking to annualize the capital investment. The Committees direct EPA and the States to work with municipalities that are progressing in good faith to comply with the rule and need additional time to minimize volatility in water utility rates for ratepayers. The Committees direct EPA to convene a working group of Federal, State, and local stakeholders to discuss options for compliance schedules and report to the Committees within 180 days of enactment of this Act about interim options for ensuring protection of human health and the environment under the rule without the use of an enforcement action or an administrative order.

*Energy STAR.*—The Agency is directed to work with the appropriate Federal agencies and standards bodies to develop, to the maximum extent practicable, uniform labeling standards particularly as the labeling requirements apply to Energy STAR lamps.

*Lead Recordkeeping Requirements.*—The Agency is directed to review the requirements contained within 40 CFR 745.86 and submit a report to the House and Senate Committees on Appropriations that identifies potentially duplicative requirements particularly in situations where multiple entities (home retailers, contractors and subcontractors) are involved in a renovation. The report shall include options for reducing recordkeeping and reporting burdens at large, and address findings of duplication. The report shall be due 120 days after the date of enactment unless the Agency opts to solicit formal public comment wherein the report shall then be due one year following the date of enactment of this Act.

*Protection of Personal Information.*—The Committees are concerned about EPA's recent release of personal data on concentrated animal feeding operations (CAFOs) pursuant to a Freedom of Information Act (FOIA) request. The Committees direct the Government Accountability Office to (1) describe EPA's process for screening and protecting personal information prior to responding to FOIA requests, (2) describe EPA's procedures for remedying the release of personal information once known, including those procedures in effect in fiscal year 2013, and (3) describe the status of EPA actions to improve its procedures related to managing personal information pursuant to FOIA requests.

*Regional Haze.*—The process for reviewing State implementation plans is well-served when EPA, States, and industry work collaboratively to ensure that dispersion models are continually improved and updated to ensure the most accurate predictions of visibility impacts, as well as a uniform set of cost estimates. To that end, EPA shall begin development of a seventh edition of the document entitled "EPA Air Pollution Control Cost Manual." The Administrator shall consult, and seek comment from State, local, and tribal departments of environmental quality during development of such seventh edition, and provide opportunity for public comment. In addition, EPA shall publish in the Federal Register a notice to solicit comment on revising the Agency's "Guideline on Air Quality Models" under appendix W to part 51 of title 40, Code of Federal Regulations, to allow flexible modeling approaches and to adopt updates to the CALPUFF modeling system (or portions thereof) or other modeling tools as may be appropriate under such Guideline. Within six months of enactment of this Act, if EPA finds the requirements above cannot be accomplished without causing delay in the approval of State implementation plans, the Agency shall certify such to the Committees. The certification from EPA shall include documentation on how the directives would cause delay in a particular State and also an estimate of when the directives can be carried out without causing delays in the program.

*Renewable Identification Number (RIN) fraud.*—The Agency is directed to continue to make RIN integrity and enforcement a high priority as RIN fraud is damaging to legitimate biodiesel market participants and the value of the biodiesel market. Additionally, the Agency is directed to collaborate with other appropriate government agencies to closely monitor exported volumes to ensure compliance with the law given allegations of RIN abuse in the biodiesel export market.

*Risk Management Plans.*—EPA is directed to maintain its practice of only releasing

Risk Management Plan information pursuant to a FOIA request or in EPA reading rooms.

*State Role in Clean Air Act Implementation.*—Not later than 180 days after the date of enactment of this Act, the Agency is directed to provide the House and Senate Committees on Appropriations a report that lists by region, all State implementation plan submissions that are currently before EPA, the date received, and any deadline for required action.

#### HAZARDOUS WASTE ELECTRONIC MANIFEST SYSTEM FUND

The bill provides \$3,674,000 for the Hazardous Waste Electronic Manifest System Fund. Funds from the request have been consolidated in this account. The Committees direct EPA to move forward expeditiously with system development.

#### OFFICE OF INSPECTOR GENERAL

The bill provides \$41,849,000 for the Office of Inspector General (OIG). Based on the fiscal year 2013 quarterly staffing report submitted to the Committees, OIG had 330 on-board full time equivalents (FTE) at the end of the fourth quarter, a reduction of 15 FTE from the first quarter of the fiscal year. Given the reductions in the office, the level of funding provided is expected to at least fund current FTE levels.

#### BUILDINGS AND FACILITIES

The bill provides \$34,467,000 for Buildings and Facilities.

#### HAZARDOUS SUBSTANCE SUPERFUND (INCLUDING TRANSFERS OF FUNDS)

The bill provides \$1,088,769,000 for the Hazardous Substance Superfund account and includes bill language to transfer \$9,939,000 to the Office of Inspector General account and \$19,216,000 to the Science and Technology account. The bill provides the following additional direction:

*Financial Assurance.*—Prior to proposing any rule pursuant to section 108(b) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9608(b)), the Administrator is directed to collect and analyze information from the commercial insurance and financial industries regarding the use and availability of necessary instruments (including surety bonds, letters of credit and insurance) for meeting any new financial responsibility requirements and to make that analysis available to the House and Senate Committees on Appropriations and to the general public on the Agency website 90 days prior to a proposed rulemaking. In addition, the analysis shall include the Agency's plan to avoid requiring financial assurances that are duplicative of those already required by other Federal agencies.

*Superfund Special Accounts.*—The Agency is directed to continue to provide Special Account information as part of the budget request. Further, the Agency is directed to report to the House and Senate Committees on Appropriations within 120 days of enactment of this Act on the practical and legal implications of re-prioritizing funds planned for future-year activities (such as five year reviews) to cleanup activities addressing human health and environmental concerns in the near-term. The report should evaluate alternative uses for these funds, including short-term activities to reduce or eliminate human exposures and groundwater migration.

#### LEAKING UNDERGROUND STORAGE TANK TRUST FUND PROGRAM

The bill provides \$94,566,000 for the Leaking Underground Storage Tank Trust Fund Program (LUST). The Committees note that EPA offered no opportunity for congress-

sional review prior to changing the allocation formula by which LUST cooperative agreements are distributed to States in fiscal year 2013. As such, the Agency is directed to allocate funds for this program using the same formula as fiscal year 2012.

#### INLAND OIL SPILL PROGRAMS

The bill provides \$18,209,000 for Inland Oil Spill Programs.

#### STATE AND TRIBAL ASSISTANCE GRANTS

The bill provides \$3,535,161,000 for the State and Tribal Assistance Grants (STAG) program and includes the following specific funding levels and direction:

*Infrastructure Assistance.*—The bill provides \$2,480,783,000 for infrastructure assistance, including \$1,448,887,000 for the Clean Water State Revolving Fund and \$906,896,000 for the Drinking Water State Revolving Fund. The Agency is directed within 180 days of enactment of this Act to submit a report to the House and Senate Committees on Appropriations on how EPA and the States have used the additional subsidization authority, including information on the number and amounts of loans awarded with additional subsidization, recipient communities, and descriptions of projects funded.

*Alaska Native Villages.*—The bill provides \$10,000,000. The bill continues language from prior years directing that not less than 25 percent of funds provided for the program be used for projects in regional hub communities.

*Categorical Grants.*—The bill provides \$1,054,378,000 for Categorical Grants and funding levels are specified in the table at the end of this division. The amount also includes \$228,219,000 for the State and Local Air Quality Management grant program. The Agency is directed to allocate funds for this program using the same formula as fiscal year 2012.

*Bill Language.*—The bill includes modified language specifying amounts made available under the State revolving fund programs for additional subsidization, and amounts made available for the green infrastructure reserve in the Clean Water State Revolving Fund program. The bill does not provide the requested mandatory set-aside for green infrastructure projects within the Drinking Water State Revolving Fund program but does include language allowing States to continue to fund these types of projects at their discretion.

*Use of Iron and Steel.*—The bill includes language in Title IV General Provisions that stipulates requirements for the use of iron and steel in State Revolving Fund projects. The Committees acknowledge that EPA may issue a waiver of said requirements for de minimis amounts of iron and steel building materials.

#### ADMINISTRATIVE PROVISIONS—ENVIRONMENTAL PROTECTION AGENCY

#### (INCLUDING TRANSFER OF FUNDS)

The bill includes language that addresses the collection and expenditure of pesticide fees, allows cooperative agreements to Tribes, allows transfer of funds for the Great Lakes Restoration Initiative, and authorizes amounts for one-time facility repairs. The bill also increases the cap for Title 42 slots from 30 to 50 persons. The Agency should identify where critical talent gaps exist and actively recruit accredited scientists with the knowledge and expertise needed by the Agency. As such, the Committees continue to direct EPA to use Title 42 authority to recruit external talent to the Agency.

TITLE III—RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

FOREST AND RANGELAND RESEARCH

*Grazing Management.*—The bill provides \$55,356,000 for the Grazing Management program. The Committees direct the Forest Service, to the greatest extent practicable, to make vacant grazing allotments available to a holder of a grazing permit or lease when lands covered by the holder of the permit or lease are unusable because of drought or wildfire.

*Forest Products.*—The bill provides \$339,130,000 for the Forest Products program. The Committees expect the Forest Service to increase vegetative and timber management activities and believe that there needs to be dramatic improvement in forest management to improve forest health, increase timber production, and restore forest jobs.

*Vegetation and Watershed Management.*—The bill provides \$184,716,000 for Vegetation and Watershed Management activities.

*Integrated Resource Restoration (IRR).*—The Committees continue the proof of concept established in fiscal year 2012. The Forest Service is directed to provide an assessment of the IRR pilot that reports on performance measures and outcomes in Regions 1, 3, and 4. The report should evaluate successes and challenges related to the agency's ability to accomplish maintenance and restoration goals and achieve efficiencies and cost savings. The Forest Service is encouraged to use multi-party monitoring and evaluation to assess the effectiveness of the pilot. The Forest Service is directed to brief the Committees on Appropriations of the House of Representatives and the Senate on its IRR plan for fiscal year 2014 within 90 days of enactment of this Act.

*Valles Caldera National Preserve.*—The bill provides \$3,364,000 for management of the Valles Caldera National Preserve.

*Bill Language.*—The Committees have included language within Title IV General Pro-

visions to return to the policy that existed for Forest Service categorical exclusions prior to March 19, 2012. This language does not grant any new or expanded authority for the use of categorical exclusions by the Forest Service. The Committees direct the Secretary of Agriculture to require scoping and early notice of upcoming proposals to interested and affected persons for all Forest Service proposed actions, including those that would appear to be categorically excluded from further analysis and documentation in an environmental assessment or an environmental impact statement. Additionally, the Secretary shall give timely notice to interested and affected persons, Federal agencies, State and local governments, and organizations of the availability of environmental and accompanying decision documents. The Secretary will also provide notice and comment as provided for by the agency's National Environmental Policy Act implementing regulations for projects or activities implementing a land and resource management plan developed under the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1604).

CAPITAL IMPROVEMENT AND MAINTENANCE

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$350,000,000 for capital improvement and maintenance programs offset by a \$17,000,000 scoring credit related to the road and trail fund. The Committees also provide the following directions:

*Facilities.*—The bill provides \$71,000,000 for Facilities including \$12,000,000 for construction and \$59,000,000 for maintenance.

*Roads.*—The bill provides \$166,000,000 for Roads including \$22,546,000 for construction and \$143,454,000 for maintenance.

*Trails.*—The bill provides \$75,000,000 for Trails including \$58,000,000 for maintenance and \$17,000,000 for construction.

*Legacy Roads.*—The bill provides \$35,000,000 for the Legacy Roads and Trails program.

*Gifford Pinchot National Forest.*—Within the Gifford Pinchot National Forest, the Forest Service is encouraged to give preference to the reduction of a road to Maintenance Level 1 over decommissioning and to decommission only after final plantation restoration work in Late Successional Reserve habitat development, or on a portion of road where resource protection cannot be adequately met by closing and stabilizing.

LAND ACQUISITION

The bill provides \$43,525,000 for Land Acquisition. The detailed allocation of funding by activity is included in the table at the end of this statement. This amount provides funding for the first three projects as prioritized by the Service from the President's fiscal year 2014 budget request. In future budget submissions, the Forest Service should prioritize and rank projects in different management units separately, even if they are part of a landscape collaborative planning process or other multi-unit program. The Committees expect funding for inholdings, exchanges, and recreational access to be used to acquire high priority lands that maximize benefits to the public through consolidated Federal ownership that provides recreational access, creates management efficiencies, or protects critical resources, including wilderness.

	State	Forest Unit	Budget Request	This Bill

The bill provides \$217,000 for the Acquisition of Lands to Complete Land Exchanges.

MANAGEMENT OF NATIONAL FOREST LANDS FOR  
SUSTISTENCE USES

The bill provides \$2,500,000 for the Management of National Forest Lands for Subsistence Uses and does not support the proposed elimination of this appropriation.

WILDLAND FIRE MANAGEMENT

(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$2,162,302,000 for Forest Service Wildland Fire Management. The amount provided, combined with \$315,000,000 in the FLAME Wildfire Suppression Reserve Fund, fully funds the Forest Service's 10-year average expenditures for fire suppression. In addition, \$600,000,000 was provided in the Continuing Appropriations Act, 2014 (PL 113-46) for fire transfer reimbursements in fiscal year 2013. Total funding provided in fiscal year 2014 for Forest Service wildland fire accounts is \$3,077,302,000. In the fiscal year 2015 and all future budget submissions, the Committees direct the Forest Service to include a detailed table of actual and proposed spending on fire operations, which should also include a breakout of spending on aviation resources, for both preparedness and suppression appropriations. The Committees also provide the following directions:

*Other Operations.*—Biomass utilization grants are only for the development of new or existing high value markets for low value wood, including biomass for energy, wood-based nanotechnology, green building construction, and other forest products to increase the utilization of hazardous fuel wood, accelerate forest restoration and reduce the rate and size of catastrophic fire.

*Fire and Aviation Management.*—The Committees note that progress has been made this year to augment the Forest Service's aviation assets but how this will impact the Service's future budgets is not clear and is a cause for concern. As a result of the National Defense Authorization Act for Fiscal Year 2014, the Forest Service will receive seven demilitarized HC-130H aircraft with aerial fire retardant dispersal modifications and 15 demilitarized C-23B Sherpa aircraft for firefighting purposes.

In spite of this progress, the Committees remain concerned that the Service's near- and long-term plans for aviation fall short in terms of setting out the timeline, funding, and specific steps required to meet the Service's stated goals. A long-term plan, to meet the Service's needs for next generation aircraft, as well as a short-term plan for the next five years, is necessary in light of more active fire seasons. Therefore, the Service is directed to provide within 90 days of enactment of this Act both a five-year aviation plan and a long-term aviation plan detailing

anticipated needs. The Service is further directed to provide 1) a report addressing the Service's near- and long-term large airtanker strategy including funding needs related to current contracts for next generation large airtankers and options associated with those contracts to fulfill the large airtanker modernization strategy, including acquisitions costs, flight hour costs, and projected annual costs, and 2) an evaluation of currently available technologies to make aerial firefighting more efficient and cost-effective.

*Hazardous Fuels.*—The bill provides \$306,500,000 for Hazardous Fuels activities. The Forest Service is directed to implement effective treatments in frequent fire forests that restore forest resiliency and reduce hazardous fuels. Treatments should be placed to effectively modify fire behavior and protect assets at risk, including life and property.

*Federal Coordination with State and Local Fire Managers.*—The Committees are aware that the facility housing the Forest Service's Southern California Geographical Coordination Center, which has been condemned, houses a number of fire emergency managers including the California Department of Forestry and Fire Protection (CAL FIRE). The Committees note that CAL FIRE has expressed its desire to continue this collocation and encourages the Forest Service to continue working with CAL FIRE to collocate their operations at the new Southern California Geographical Coordination Center.

*Fire retardant.*—The Committees urge the Forest Service to provide firefighting personnel with access to training on the use of fire retardant and other fire chemicals to fight wildfire.

FLAME WILDFIRE SUPPRESSION RESERVE FUND  
(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$315,000,000 for the FLAME Wildfire Suppression Reserve Fund.

ADMINISTRATIVE PROVISIONS, FOREST SERVICE  
(INCLUDING TRANSFERS OF FUNDS)

The bill continues administrative provisions from previous years. The Committees have made language regarding the National Forest Foundation and interest earned from Federal funds permanent. The Committees have included bill language regarding reimbursable agreements with the U.S. Department of Agriculture.

The Forest Service is directed to include tables in the fiscal year 2015 and future budget justifications that clearly display the source of funding for cost pools by budget line item, the amount for each cost pool, and direct and indirect expenditures from each cost pool by region, station, and area (RSA). The prior, current, and future budget years should be shown for each table.

The bill includes a provision related to management of wild horses and burros from National Forest System lands by the Bureau of Land Management (BLM). In future budget submissions, the Forest Service should include actual and projected transfers of funds to the BLM for these activities.

DEPARTMENT OF HEALTH AND HUMAN SERVICES  
INDIAN HEALTH SERVICE  
INDIAN HEALTH SERVICES

The bill provides \$3,982,842,000 for Indian Health Services. The agreement includes the following instructions:

*Contract Support Costs.*—The Committees' disposition of contract support costs is discussed under "Bureau of Indian Affairs and Bureau of Indian Education, Operation of In-

dian Programs" earlier in this explanatory statement. The Service is directed to follow the instructions therein. The Service is further directed to submit an operating plan to the Committees within 30 days of enactment of this Act displaying funding allocations to the activity level.

*Staffing costs for new and expanded health care facilities.*—The agreement includes funding for staffing costs for new and expanded health care facilities. Funds are limited to facilities funded through the Health Care Facilities Construction Priority System or the Joint Venture Construction Program that are newly opened in fiscal year 2013 or that open in fiscal year 2014. None of the funds may be allocated to a facility until such facility has achieved beneficial occupancy status.

*Dental Health.*—The agreement includes funding for the early childhood caries initiative. The Service is encouraged to work with the Bureau of Indian Education (BIE) and to consult with Tribes about increasing preventive dental care for children by bringing dentists and hygienists into BIE schools. The Service should continue to make significant strides towards completion of electronic dental records. The Service is encouraged to explore establishing a centralized credentialing system to address workforce needs similar to those of the Departments of Defense and Veterans Affairs, to consider a pilot program for the credentialing of dentists, and to propose funding for fiscal year 2015.

*Urban Indian Health.*—The Committees continue to support grants for urban Indian health in light of the disparity in health funding for urban Indians.

*Coordinated health care for American Indian and Alaska Native veterans.*—The Department of Veterans Affairs (VA) and the Indian Health Service have developed mechanisms to implement and monitor their memorandum of understanding (MOU) regarding the provision of health care to Native American veterans. However, the Government Accountability Office (GAO) reported that the performance metrics developed to assess the MOU's implementation could limit the ability of VA and Service managers to gauge progress and make decisions relating to the expansion or modification of their programs and activities. Both agencies are encouraged to implement the recommendations contained in the GAO report to the extent possible and provide the Committees with an update by March 1, 2014.

INDIAN HEALTH FACILITIES

The bill provides \$451,673,000 for Indian Health Facilities. In addition to the funding allocation table at the end of this explanatory statement, the agreement includes the following instruction:

*Staffing of New Facilities.*—The agreement includes funding for staffing costs for new and expanded health care facilities. The stipulations included in the "Indian Health Services" account regarding the allocation of funds for the staffing of new facilities pertain to the funds in this account as well.

NATIONAL INSTITUTES OF HEALTH  
NATIONAL INSTITUTE OF ENVIRONMENTAL  
HEALTH SCIENCES

The bill provides \$77,349,000 for the National Institute of Environmental Health Sciences (NIEHS). The Committees direct NIEHS to explore the feasibility of incorporating a nominal fee to recoup administrative or other costs associated with the worker training program. NIEHS should include a report that summarizes findings and recommendations with the fiscal year 2016 budget request.

AGENCY FOR TOXIC SUBSTANCES AND DISEASE  
REGISTRY

TOXIC SUBSTANCES AND ENVIRONMENTAL  
PUBLIC HEALTH

The bill provides \$74,691,000 for the Agency for Toxic Substances and Disease Registry.

OTHER RELATED AGENCIES

EXECUTIVE OFFICE OF THE PRESIDENT

COUNCIL ON ENVIRONMENTAL QUALITY AND  
OFFICE OF ENVIRONMENTAL QUALITY

The bill provides \$3,000,000 for the Council on Environmental Quality and Office of Environmental Quality.

CHEMICAL SAFETY AND HAZARD INVESTIGATION  
BOARD

SALARIES AND EXPENSES

The bill provides \$11,000,000 for the Chemical Safety and Hazard Investigation Board (CSB). The Committees are hopeful that the recent Presidential Executive Order on chemical safety and security will lead to better coordination among the CSB and other agencies in preventing and responding to chemical incidents. The Committees encourage the CSB to work with the authorizing committees on any additional legislative authority needed to effectively carry out its mission.

OFFICE OF NAVAJO AND HOPI INDIAN  
RELOCATION

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$7,341,000 for the Office of Navajo and Hopi Indian Relocation (ONHIR). The Committees note with concern that less than half (\$2,600,000) of the Administration's proposal for fiscal year 2014 is for new relocations, despite a long backlog of waiting families. Thus the agreement includes new bill language transferring funds to the Department of the Interior's Office of Inspector General to audit and investigate ONHIR's operations.

INSTITUTE OF AMERICAN INDIAN AND ALASKA  
NATIVE CULTURE AND ARTS DEVELOPMENT

PAYMENT TO THE INSTITUTE

The bill provides \$9,369,000 for the Institute of American Indian and Alaska Native Culture and Arts Development.

SMITHSONIAN INSTITUTION

SALARIES AND EXPENSES

The bill provides a total of \$805,000,000 for all Smithsonian Institution accounts, of which \$647,000,000 is provided for salaries and expenses. The Committees support the Smithsonian Latino Center's goal of promoting the inclusion of Latino contributions in Smithsonian Institution programs, exhibitions, collections, and public outreach. The Committees urge greater collaboration between the Smithsonian Latino Center and appropriate Federal and local organizations in order to advance these goals. No funds have been provided for the Smithsonian's participation in the Administration's Science, Technology, Engineering and Mathematics (STEM) initiative. The work of the Smithsonian by its very nature supports the STEM initiative. Future STEM proposals that bolster existing Smithsonian programs and outreach activities would be welcomed. The Smithsonian is directed to submit a report to the Committees that describes the achievements and challenges of its Asian Pacific American Center. The report should describe the progress the Center has made in developing partnerships that could establish a physical presence beyond the Washington, DC area and expand the Smithsonian's collections, exhibitions, outreach, and education efforts in a cost-effective manner.

FACILITIES CAPITAL

The bill provides \$158,000,000 for the Facilities Capital account, of which \$55,000,000 is to

continue the construction of the National Museum of African American History and Culture (NMAAHC).

NATIONAL GALLERY OF ART

SALARIES AND EXPENSES

The bill provides \$118,000,000 for the Salaries and Expenses account of the National Gallery of Art, of which not to exceed \$3,533,000 is for the special exhibition program.

REPAIR, RESTORATION AND RENOVATION OF  
BUILDINGS

The bill provides \$15,000,000 for the Repair, Restoration and Renovation of Buildings account. Within the funds provided, the Gallery is directed to address the highest priority needs relating to critical fire safety and life safety improvements in accordance with the Master Facilities Plan.

JOHN F. KENNEDY CENTER FOR THE PERFORMING  
ARTS

OPERATIONS AND MAINTENANCE

The bill provides \$22,193,000 for the Operations and Maintenance account.

CAPITAL REPAIR AND RESTORATION

The bill provides \$12,205,000 for the Capital Repair and Restoration account.

WOODROW WILSON INTERNATIONAL CENTER FOR  
SCHOLARS

SALARIES AND EXPENSES

The bill provides \$10,500,000 for the Woodrow Wilson International Center for Scholars.

NATIONAL FOUNDATION ON THE ARTS AND THE  
HUMANITIES

NATIONAL ENDOWMENT FOR THE ARTS

GRANTS AND ADMINISTRATION

The bill provides \$146,021,000 for the National Endowment for the Arts (NEA). The Committees urge the NEA to work constructively with States in developing and implementing arts education programs and priorities. The Committees commend the NEA for its collaboration with the Walter Reed National Military Center in creating the NEA/Walter Reed Healing Arts Partnership. The Committees direct that priority be given to providing services and grant funding for projects, productions, or programs that encourage public knowledge, education, understanding, and appreciation of the arts. Any reduction in support to the States for arts education should be no more than proportional to other funding decreases taken in other NEA programs. Reforms originally instituted by the Committees in Public Law 108-447 relating to grant guidelines and program priorities are fully restated in Sections 414 and 415 of Title IV General Provisions. These reforms maintain broad bipartisan support and the Committees expect the NEA to adhere to them fully. The Committees have also included bill language in Title IV General Provisions addressing grant award matching requirements and waiver procedures.

NATIONAL ENDOWMENT FOR THE HUMANITIES

GRANTS AND ADMINISTRATION

The bill provides \$146,021,000 for the National Endowment for the Humanities (NEH). The Committees commend the NEH Federal/State partnership for its ongoing, successful collaboration with State humanities councils in each of the 50 States as well as Washington, DC, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, the Commonwealth of the Northern Mariana Islands, and American Samoa.

COMMISSION OF FINE ARTS

SALARIES AND EXPENSES

The bill provides \$2,396,000 for the Commission of Fine Arts.

NATIONAL CAPITAL ARTS AND CULTURAL  
AFFAIRS

The bill provides \$2,000,000 for the National Capital Arts and Cultural Affairs program.

ADVISORY COUNCIL ON HISTORIC PRESERVATION  
SALARIES AND EXPENSES

The bill provides \$6,531,000 for the Advisory Council on Historic Preservation. Although the Council has made significant efforts to work with the United States Postal Service (USPS) for almost two years to develop a consistent, transparent, and consultative process to preserve historic post offices, no comprehensive process has been developed. In light of this, the Committees direct the Council to provide, within 90 days of enactment of this Act, a report on how the Council will ensure compliance by the USPS of Section 106 responsibilities for these historic properties.

NATIONAL CAPITAL PLANNING COMMISSION  
SALARIES AND EXPENSES

The bill provides \$8,084,000 for the National Capital Planning Commission.

UNITED STATES HOLOCAUST MEMORIAL MUSEUM  
HOLOCAUST MEMORIAL MUSEUM

The bill provides \$52,385,000 for the United States Holocaust Memorial Museum.

DWIGHT D. EISENHOWER MEMORIAL COMMISSION  
SALARIES AND EXPENSES

The bill provides \$1,000,000 for the Salaries and Expenses account. The Committees urge the Commission to work with all constituencies—including Congress and the Eisenhower family—as partners in the planning and design process. In order for the Committees to remain informed as to the status of fund raising efforts, the Commission is directed to include a table in its fiscal year 2015 congressional justification providing the total amount of private (non-Federal) contributions to date, and the total obligations and total expenditures of those funds. The agreement includes in Section 437 of Title IV General Provisions bill language contained in the Continuing Appropriations Act, 2014 (PL 113-46).

TITLE IV—GENERAL PROVISIONS

(INCLUDING TRANSFERS OF FUNDS)

The agreement includes various legislative provisions in Title IV of the bill. A number of these provisions have been carried in previous years and others are newly proposed this year. The provisions are:

Section 422 prohibits funds from being used to enter into contracts or agreements with any corporation where the agency is aware of a conviction of a felony under any Federal law within the preceding 24 months.

Section 423 prohibits funds for contracts or agreements with any corporation where the agency is aware of any unpaid Federal tax liability that is not being paid in a timely manner pursuant to a payment agreement.

Section 424 continues current authorities for operations of Indian Health Service programs in Alaska.

Section 425 extends Forest Service cost recovery and rights-of-way authorities.

**DIVISION H—DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2014**

The Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2014, put in place by this division incorporates the following agreements. Funds for the individual programs and activities within the accounts in this division are displayed in the detailed table at the end of the explanatory statement for this division. Funding levels that are not displayed in the detailed table are identified within this explanatory statement.

In implementing this agreement, the Departments and agencies should be guided by the language and instructions set forth in Senate Report 113-71 accompanying the bill, S. 1284, unless specifically addressed in this statement. In cases where the language and instructions in the Senate report specifically address the allocation of funds, each has been reviewed and those that are jointly concurred on have been endorsed in this statement.

**TITLE I—DEPARTMENT OF LABOR  
EMPLOYMENT AND TRAINING ADMINISTRATION  
TRAINING AND EMPLOYMENT SERVICES  
(INCLUDING TRANSFER OF FUNDS)**

The agreement modifies a provision increasing the amount of Workforce Investment Act (WIA) State grant funding that may be set aside by Governors to 8.75 percent to support statewide and regional projects. The agreement is supportive of Governors' Reserve funding being used to support on-the-job and incumbent training to improve the skills of workers, avert layoffs, or lead to employment in in-demand occupations or industries.

**OFFICE OF JOB CORPS**

Contracts provided for the operation and maintenance of Job Corps facilities are generally let on a two-year basis, with as many as three option years depending on the quality of performance. When evaluating contract renewals or re-bids, due consideration should be provided to the federal investment already made in high-performing incumbent contractors as a part of a full, fair, and open competitive process. As part of this process, the Department of Labor (DOL) should consider documented past performance of student outcomes and cost-effective administration as important factors in Job Corps procurements.

The agreement recognizes that construction on a new Job Corps center will be substantially completed in December 2014 and provides sufficient funds to ensure that competitively awarded contracts will be in place to keep the process of opening the new center on course.

The agreement includes increased funding for Job Corps Administration to strengthen financial management, oversight, and monitoring of the program.

**STATE UNEMPLOYMENT INSURANCE AND  
EMPLOYMENT SERVICE OPERATIONS**

To the extent that funds not needed for workload become available at the end of the fiscal year, the Department is encouraged to make funding available to States for program integrity, performance improvement, and technology investments, with a portion of funds not needed for workload to be distributed to all States proportionally based on each State's base allocation.

**OCCUPATIONAL SAFETY AND HEALTH  
ADMINISTRATION**

The bill continues the exemption of small farming operations from Occupational Safety and Health Administration (OSHA) regu-

lation. The OSHA is encouraged to work with the Department of Agriculture before moving forward with any attempts to redefine and regulate post-harvest activities, to include, but not limited to, storing, drying, grinding, and other activities necessary to market farm products to subsequent users in the agricultural value chain, and clarify that this exemption shall apply to on farm post-harvest activities.

**MINE SAFETY AND HEALTH ADMINISTRATION**

The agreement includes new language setting aside not less than \$8,441,000 for State assistance grants and modifies language relating to the Mine Safety and Health Administration (MSHA)'s existing authority to collect certain fees. The agreement also includes new language relating to relocation of the Office of the Solicitor.

Coal production within the United States has shifted across regions. Unfortunately, mine inspectors are not always distributed in a manner that keeps pace with existing mining activity needs. Certain areas of the country in which mines have closed may have the same number of inspectors that existed when all mines were operational, while some areas opening new mining operations may not have appropriate coverage. MSHA should do a better job in allocating mining inspectors in proportion to the actual mining activity and need occurring in various regions. While MSHA has taken initial steps to address this discrepancy, in part to address a coming retirement wave of inspectors, MSHA is directed to accelerate these efforts to better align enforcement resources with current mining activity and workload demand across regions.

The Government Accountability Office (GAO) is currently conducting a study to examine existing technological options for reducing coal mine dust and the costs, advantages and disadvantages of various methods for reducing the concentration of dust in coal mines. The MSHA is directed to provide to GAO any information or assistance requested in connection with this study. In addition, MSHA should take any pertinent information from GAO into account in developing the rule now under consideration regarding lowering miners' exposure to coal dust, to the extent that GAO completes its work before the rule is finalized. In any event, MSHA should take into consideration all relevant information and conclusions from the GAO study when addressing compliance assistance, training, or post-implementation needs in connection with any such rule. The MSHA is further directed to consider the feasibility of all available technologies and work practices that would allow mine operators to comply with the rule in a manner that is not economically prohibitive for the long-term viability of the affected mines, while reducing miners' exposure to respirable mine dust.

**BUREAU OF LABOR STATISTICS**

The data produced through National Longitudinal Surveys of Labor Market Experience (NLS) are an essential source for both long-term and ongoing analysis of the economic health of America and are an invaluable resource for Congress and the public and private sectors, especially during these times of economic uncertainty. As such, the bill provides sufficient funding necessary to ensure that the frequency of NLS data collection occurs not less than biennially.

Within available resources, the Bureau of Labor Statistics is encouraged to add an annual supplement to the Current Population Survey, including contingent work and alternative work arrangements, as proposed in the budget request.

**DEPARTMENTAL MANAGEMENT**

Within available resources, agencies of DOL should take steps to improve the qual-

ity of information on workplace safety violations, including steps to clearly and correctly identify entities that are penalized for any type of violation of federal labor laws. These improvements could assist federal contracting officers with using accurate data to determine whether or not a prospective contractor has a record of compliance with federal labor law.

**VETERANS EMPLOYMENT AND TRAINING**

The agreement modifies language relating to Veterans Employment and Training specifying amounts for various activities within this account.

A September 2013 GAO report highlighted that the Department has yet to implement fully the recommendations in its October 2010 report assessing the employment needs of Native American veterans living on tribal lands, including Indian reservations, Alaska Native villages, and Hawaiian Home Lands. The agreement directs the Secretary to submit a report to the House and Senate Appropriations Committees by June 30, 2014 that includes a strategy to implement the October 2010 report's recommendations, including goals, benchmarks, costs, and time frames. If recommendations are disputed by the Department, the Committee requests the report include information on why the recommendations cannot be implemented. The agreement encourages the Department to continue to work with the Departments of Defense and Veterans Affairs and other agencies to develop or obtain data to assess the employment needs of Native American veterans returning to live on tribal lands.

**GENERAL PROVISIONS**

**HI-B VISA PROGRAM**

The bill modifies a provision related to the H-1B visa program.

**TRANSFER AUTHORITY FOR TECHNICAL  
ASSISTANCE**

The bill modifies a provision providing the Employment and Training Administration with authority to transfer funds provided for technical assistance services to grantees to program administration, so that it does not apply to section 173A(f)(2) of the WIA.

**TRANSFER AUTHORITY FOR EVALUATION  
PURPOSES**

The bill modifies a provision that allows up to 0.5 percent of discretionary appropriations provided in this act for all DOL agencies to be used by the Chief Evaluation Office for evaluation purposes consistent with the terms and conditions in this act applicable to such office.

**TRADE ADJUSTMENT ASSISTANCE COMMUNITY  
COLLEGE AND CAREER TRAINING GRANT  
PROGRAM**

The bill includes a new provision allowing the Secretary to reserve up to three percent of funds provided for the Trade Adjustment Assistance Community College and Career Training Grant program to be used for evaluation and technical assistance purposes and to allow grantees to award subgrants.

**WAGE AND HOUR SALARY CAP**

The bill includes a new provision adjusting the salary level for the Administrator of the Wage and Hour Division to reflect a reorganization within the Department.

**TEMPORARY NONIMMIGRANT VISA PROGRAMS**

The bill includes a new provision related to the H-2A temporary agricultural program. The bill also includes a provision providing flexibility with respect to the crossing of H-2B nonimmigrants working in the seafood industry.

**TITLE II—DEPARTMENT OF HEALTH AND  
HUMAN SERVICES**

The agreement includes tables within and at the end of the statement allocating funding for the programs, projects, and activities

in this act. The agencies within this act are directed to fully implement these allocations in accordance with the statement, except as permitted by the reprogramming and transfer authorities provided in this act. Any action to eliminate or consolidate programs, projects, and activities should be pursued through a proposal in the President's budget so it can be considered by the Committees on Appropriations.

The Department is directed to include in its fiscal year 2015 congressional budget justification the amount of expired unobligated balances available for transfer to the non-recurring expenses fund (NEF) and the amount of any such balances transferred to the NEF. This should include actual or estimated amounts for the prior, current, and budget years.

#### HEALTH RESOURCES AND SERVICES ADMINISTRATION

##### PRIMARY HEALTH CARE

Bill language also requires the aforementioned funding levels to be obligated by October 1, 2014. Within the funds provided for Primary Health Care, the agreement provides not less than the fiscal year 2013 level of funding for the Native Hawaiian Health Care Program.

The Administrator is directed to provide a report within 60 days of enactment outlining the requirements for allowing Community Health Centers to add a new or expand an existing dental facility. Finally, the agreement suggests that CDC evaluate the feasibility of developing a national reporting system on Lyme disease, including laboratory reporting and to expand prevention of Lyme and tick-borne diseases through increased community-based public education as well as physician and healthcare provider programs based on the latest scientific research on the diseases.

**Consolidated Chronic Disease Prevention and Health Promotion.**—The CDC is encouraged to continue its efforts to coordinate grant requirements in ways that increase efficiency at the State and local level. The agreement continues to reject the consolidation of CDC chronic disease programs and expects CDC to demonstrate that funds are spent in the exact amounts allocated and for the purposes specified in this statement. The CDC shall ensure any efforts to consolidate include an audit trail, measureable outcomes, monitoring and coordination to all support the funding allocations provided herein.

**Diabetes/Heart Disease.**—The agreement includes a significant increase for grants to

States in these programs. The CDC is urged to put procedures in place to ensure that some portion of the increase in funding is sub-granted to the local level.

**Obesity Outreach.**—While some indicators show that slight drops in obesity rates have occurred recently, concern remains that too little is occurring in the areas with the highest obesity rates, particularly in rural areas. For that reason, \$5,000,000 in competitive funding is provided to conduct pilot programs that focus on the use of existing extension and outreach services in the counties with the highest prevalence of obesity. All counties with an obesity prevalence of over 40 percent, as determined by CDC's latest county level data in the Behavioral Risk Factor Surveillance System, shall be eligible to participate in this extension and outreach program.

The agencies are expected to jointly develop, coordinate, plan, and prioritize global health research activities with specific measurable metrics and to track the progress toward agreed upon global health goals that are based on sound scientific methods.

**National Public Health Institutes (NPHIs).**—The agreement includes \$7,500,000 to assist other nations in setting up and strengthening NPHIs. The agreement intends this initiative to be an organizational effort, and in no way limit capacity building work in other programs of CDC.

**Strategic National Stockpile (SNS).**—The agreement directs CDC to initiate a comprehensive Institute of Medicine (IOM) evaluation of the SNS distribution system that compares the current design to methods used by other federally supported stockpiles (at a minimum comparing methods used by Department of Veterans Affairs and Department of Defense), and to make recommendations to improve the efficiency, effectiveness, and methods used by HHS to ensure the SNS distribution chain of custody, warm distribution, and other related issues are the most effective and efficient to support measurable SNS goals and objectives. The IOM review should also explore how CDC can undertake public-private collaborations in the purchase, warehousing, management and distribution of countermeasures to increase efficiencies and faster dispensing of medications during times of need. The CDC is encouraged to establish periodic program evaluations conducted by outside organizations like IOM to provide on-going expert third party recommendations for this critical pro-

gram. The agreement urges CDC to verify that procedures are in place to ensure that adequate supplies of medications for children are part of its ongoing stewardship of the SNS.

**CDC-WIDE ACTIVITIES**

The agreement includes \$677,570,000 for CDC-wide activities, which includes \$517,570,000 in discretionary appropriations and \$160,000,000 made available through the PPH Fund.

Within this total, the agreement includes the following amounts:

Business Services Support/Working Capital Fund .....	380,000,000
Buildings and Facilities .....	24,000,000
Public Health Leadership and Support .....	113,570,000

**Budget Information.**—The agreement recognizes CDC’s value to public health and preparedness and strongly supports budget processes that link programs and activities to measurable public health and preparedness goals. The agreement directs CDC to explain in the congressional budget request how sound scientific data are linked to measurable public health and preparedness goals and objectives for each program, and how those goals directly relate to the budget request. In addition, the agreement directs CDC to provide the following information in the fiscal year 2015 and future budget requests:

**Program evaluations.**—An identification of the timeframes and criteria used to evaluate each program;

**User fee, reimbursement, and other sources of funding.**—An itemization of the actual and estimated collections for each activity and the actual annual costs related to each associated user fee, reimbursement, and other funding sources used to support CDC activities;

**Accounting.**—A more detailed accounting of how funds are spent in each program. The budget justification should not only be an accounting of how funds will be spent in the coming fiscal year, but also how funds have been spent in the previous fiscal years, potentially under different budget structures or organizations;

**Types of activities supported.**—The breakdown of intramural and extramural funding for each program; and

**Working Capital Fund (WCF).**—The object class breakout of annual WCF resource inputs, assets, expenditures, carryover, WCF-supported full-time equivalents, WCF-supported contract full-time equivalents, and WCF-supported overhead for the prior year actual, current year, and budget year at each Center, Institute, or Office, in addition to the CDC aggregate levels. The budget justification should include the projected and actual reserve with a breakout justification to explain the projected use and identification of any reserve and residual funds for the prior year actual, current year, and budget year estimates. Further, the CDC is directed to provide a joint briefing to the House and Senate Appropriations Committees no later than July 15, 2014 on the WCF governance structure and rules in place to ensure appropriate activity and accounting.

**Repairs and Improvements.**—The categorization of the needed repairs for CDC facilities in areas such as security, life/safety repairs, condition index, and other repairs.

**CDC Director’s Discretionary Fund.**—The CDC Director shall provide timely quarterly reports on all obligations made with the Director’s Discretionary Fund to the House and Senate Appropriations Committees.

**Community Preventive Task Force.**—Within 90 days of enactment, CDC shall provide the House and Senate Appropriations Committees a comprehensive report on the funding and program activities of the Community Preventive Task Force, including 1) annual budgets and funding sources for the previous five fiscal years; 2) details on the procedures and personnel involved in budget allocation, grant selection, and evaluation methods; 3) a list of all grant recipients from the previous five fiscal years; and 4) funded activities related to dissemination of the Community Guide.

**Data Reporting.**—The agreement notes that significant opportunities exist to create administrative and economic efficiencies in the reporting of public health data. For that reason, the Director of CDC is directed to work with State and local health officials to submit a report to the House and Senate Appropriations Committees no later than 180 days after enactment of this act on the opportunities for consolidating the various data collection systems in CDC. The report should include the opportunities and costs, advantages and barriers, and projected timeline to such a consolidated data reporting system, along with recommendations for adoption. The report should include full consideration of a single Web-based data collection information technology platform.

**Scientific Research Coordination with NIH.**—The CDC programs are directed to actively coordinate with the Institutes and Centers of the NIH to identify scientific gaps to accelerate understanding of diseases and their prevention knowledge across NIH and CDC research portfolios.

**Underground and Surface Coal Mining Facilities.**—It is vital to ensure good stewardship of public resources, especially buildings and facilities that provide vital research for the nation. It is understood that the underground and surface coal mining research facilities are aging. The Director of CDC shall develop a report evaluating options for the future of their coal mining research facilities within 180 days of enactment. The report should consider consolidation, making better use of National Institute of Occupational Safety and Health-owned properties that are under-utilized, and other similar measures to reduce operational costs and improve productivity. Further, the report shall provide an update on the steps CDC has taken and a timeline to ensure the research capability lost from the now closed Lake Lynn facility will be relocated to ensure the full level of mine safety research is quickly restored.

**NATIONAL INSTITUTES OF HEALTH**

The National Institutes of Health (NIH) receives a total of \$29,926,104,000 in this agreement. Within this total, increases are generally distributed proportionately among NIH Institutes and Centers (ICs). Additional amounts have been added to the National Institute on Aging (NIA), in recognition of the Alzheimer’s disease research initiative throughout NIH, and several institutes have received funding in anticipation of research in connection with the Brain Research through Application of Innovative Neurotechnologies (BRAIN) initiative.

Further, within the National Institute of General Medical Sciences (NIGMS) \$273,325,000 is allocated for the Institutional Development Awards (IDeA) program. Amounts have also been added to the National Center for Advancing Translational Sciences (NCATS) to reflect movement of programs from the Common Fund to that center and to consolidate all support for the Clinical and Translational Science Awards (CTSA) program in NCATS rather than continuing to have part of the core funding provided through other ICs.

In accordance with longstanding tradition, funding is not directed to any specific disease research area. The NIH is expected to base its funding decisions only on scientific opportunities and the peer review process.

The NIH is further expected to adopt a reasonable NIH-wide policy for non-competing and competing inflation rates that is consistent with the overall funding increase. Further, NIH is expected to support as many scientifically meritorious new and competing research project grants as possible, at a reasonable award level.

All NIH ICs are expected to continue to support the Pathways to Independence program, which provides new investigators with mentored grants that later convert into independent research project grants. In addition, the House and Senate Appropriations Committees continue to support New Innovator Awards, Director's Pioneer Awards, and the Transformative R01 Program through the Common Fund. The NIH is directed to provide inflationary increases to research training stipends that are not below the federal pay policy. The Office of the Director (OD) shall ensure the programs and offices within OD receive increases proportional to the overall increase, unless otherwise specified. The NIH Director shall provide timely quarterly reports on all obligations made with the NIH Director's Discretionary Fund to the House and Senate Appropriations Committees and any other appropriate committees.

It is recognized that NIH's Intramural program is subject to fixed cost increases, such as a federal pay raise. However, NIH is expected to ensure that the proportion of resources shifted out of the extramural program to intramural, outside of the recognized fixed costs, are based on specific scientific criteria and include advanced consultation with the extramural community. Further, NIH is directed to continue to provide notifications of adjustment to the NIH mechanism tables.

*Accelerating Commercialization of Therapies to Patients.*—The NIH shall provide an update in the fiscal year 2015 budget request on the models and next steps that resulted from the trans-NIH workshop with key research organizations, venture capitalists, pharmaceutical firms, Patent and Trademark Office, and Food and Drug Administration, which was held to examine ways to work together and foster private sector drug development. The update should identify how market risk and commercial viability criteria are factored into the NIH decisions to create or select projects within its drug repurposing and de-risking activity.

*Administrative Burden Reduction Workgroup.*—The Director of NIH should establish a workgroup that includes coordination and participation of universities, not-for-profits, and institutes receiving support from the NIH to develop a method to track and measure the administrative burden on entities participating in NIH supported activities with the goal of developing a plan to reduce such administrative burden as practicable.

*Alzheimer's Disease.*—The fiscal year 2014 budget request calls for a \$80,000,000 increase over the fiscal year 2012 funding level for Alzheimer's disease research at NIA. In keeping with longstanding practice, the House and Senate Appropriations Committees do not recommend a specific amount of NIH funding for this purpose or for any other individual disease. Doing so would establish a dangerous precedent that could politicize the NIH peer review system. Nevertheless, in recognition that Alzheimer's disease poses a serious threat to the Nation's long-term health and economic stability, the agreement expects that a significant portion of

the recommended increase for NIA should be directed to research on Alzheimer's. The exact amount should be determined by the scientific opportunity of additional research on this disease and the quality of grant applications that are submitted for Alzheimer's relative to those submitted for other diseases. The NIA is encouraged to continue addressing the research goals set forth in the National Plan to Address Alzheimer's Disease, as well as the recommendations from the Alzheimer's Disease Research Summit in 2012. In addition, NIH is urged to take advantage of existing well-characterized, longitudinal, population-based cohort studies to provide new insights into risk factors and protective factors related to cognitive decline and dementia. The NIH is encouraged to support additional research in minority populations that are at particularly high risk for cognitive decline and dementia.

*Basic Biomedical Research.*—The NIH is expected to maintain funding support for basic biomedical research. Basic biomedical research is an important investment in the future health, wealth, and international competitiveness of our Nation and plays a critical role in the Nation's economy. The purpose of basic research is to discover the nature and mechanics of disease and identify potential therapeutic avenues likely to lead to the prevention and treatment of human disease. Without this early scientific investigation, future development of treatments and cures would be impossible. Basic biomedical research must remain a key component of both the intramural and extramural research portfolio at NIH.

*Big Data.*—The NIH Director shall provide a report on Core Techniques and Technologies for Advancing Big Data within 180 days of enactment to the House and Senate Appropriations Committees and appropriate authorizing committees. The report shall describe the policies, procedures, and processes in place to safeguard all the biomedical data, tools, analysis, and other similar forms of data that are or will be accessible by or through the Big Data initiative. Further, it should detail how NIH plans to ensure that all of the data accessible by or through the initiative are not used for any other purpose than biomedical research. Specifically, it should describe how the policies will ensure the data remains anonymized. Further, it should explain how NIH policies address the ethical, legal, and societal issues surrounding the use of such data. The Director is to provide assurances that safeguards are in-place to ensure that the Big Data Initiative or any similar initiative supported by the NIH does not allow use of biomedical information by law enforcement or any organization not using the data in a manner that benefits biomedical research.

*BRAIN Initiative.*—The bill provides support to the BRAIN Initiative, a multi-agency effort that also involves the National Science Foundation, the Defense Advanced Research Projects Agency and several private sector partners. This work may take decades before it results in cures or treatments, but it holds promise to unlock the secrets behind diseases such as Alzheimer's and epilepsy. The National Institute of Neurological Disorders and Stroke and the National Institute of Mental Health are expected to collaborate with the other ICs that are anticipated to participate in the project. Further, NIH shall provide a detailed report within 120 days of enactment that identifies the overall program manager, detailed timeline, annual goals and annual objectives, detailed five year budget estimates (including anticipated sources of funds), milestones, decision points to continue projects, and the business analysis used to determine annually if this is the best use of

research funds given other scientific opportunities.

*Buildings and Facilities.*—The agreement provides up to \$7,000,000 for the planned demolition of vacant buildings 7 and 9 on the NIH campus. The NIH and HHS are expected to provide the House and Senate Appropriations Committees a plan within 90 days of enactment of this act to address the NIH facility maintenance and repair backlog over the next five years. The plan should include the uses of the NEF and other resources that may reduce the requirement for other discretionary funds.

*Clinical Center and Intramural Research (IR).*—The NIH Clinical Center and Intramural Research (IR) program are national resources to support bio-medical research. The NIH shall include a non-add sub-line below the IR line on all NIH and IC mechanism tables to display funding provided to operate the NIH Clinical Center (referred to as the "Clinical Center") to improve transparency.

*Clinical Trials Patient Enrollment.*—The NIH is encouraged to take steps to improve the efficiency and effectiveness of NIH clinical trials related to patient enrollment and retention. Specifically, NIH is directed to conduct a trans-NIH workshop with public foundations currently working in this area, the NIH Foundation, and other appropriate organizations to discuss challenges related to clinical trials enrollment and retention. Topics to be discussed include: outside coordination with NIH supported clinical trials and public foundations, funding models to locate and support clinical trial patients, and potential public-private partnerships. Further, the workshop should examine methods to increase participation, including under-represented and uninsured populations, in clinical trials. Finally, the workshop participants should explore potential measures to track and monitor participation in NIH supported clinical trials. A summary report of the workshop and next steps should be provided to the House and Senate Appropriations Committees by September 1, 2014.

*Clinical and Translational Science Awards (CTSA).*—The agreement provides a specific funding level for the core CTSA program within the NCATS statutory language. This change removes the funding flexibility provided during the establishment years of NCATS. The ICs are expected to continue to use and provide support to the CTSA infrastructure for clinical trials and other scientifically appropriate activity. In addition, NCATS should continue to collaborate with all ICs on the overall CTSA program. The 2013 Institute of Medicine (IOM) report recommends the development of a comprehensive strategic plan with measurable objectives. The NCATS is expected to move forward with implementing the IOM recommendations in consultation with the CTSA community. Any significant changes to the program should be done with transparent and ongoing consultation with the CTSA community and NIH ICs. NCATS shall provide an update in the fiscal year 2015 budget request of all planned and expected changes since the release of the IOM report through fiscal year 2015 to include a specific plan on how NCATS will communicate and coordinate with the CTSA community.

*Common Fund.*—Specific funding is continued within the NIH Office of the Director account to support the critical incubator research activity. The Drug Repurposing, BRIDGs, and Molecular Libraries programs are transferred fully out of the Common Fund and into NCATS.

*Consolidated Communications Activities.*—The NIH has an important role in communications activities. The NIH Director is expected to develop an NIH wide process to reduce duplication of effort, consolidate, improve efficiencies, improve coordination of messages and generally reduce costs in this area.

*Cures Acceleration Network (CAN).*—The NIH shall provide additional details in the fiscal year 2015 and future budget requests. In particular, the request should breakout all CAN supported activity with funding details, performance measures, details on activities and partnerships, and criteria used to select projects. The request should describe the relationship of CAN activities with other NIH programs and projected termination dates.

*Dental Materials Research.*—The United Nations (UN) Environmental Programme, International Negotiating Committee completed deliberations in January 2013 on a global legally binding treaty on mercury. The UN agreement contains provisions for the reduction in the use of dental amalgam, as a mercury-added product, and calls for increased dental research into alternative materials. Given the global commitment to reduce all uses of mercury, the NIH Director is expected to make the development of alternative dental restorative materials a high priority.

*Extramural and Intramural Research.*—The NIH has announced plans to impose an additional level of scrutiny on extramural principal investigators with grants of \$1,500,000 or more. The NIH is directed to ensure that this policy, and any other new measures which are intended to improve oversight and accountability for extramural researchers, should apply equally to intramural researchers as well. The NIH shall include an update on this topic in the fiscal year 2015 budget justifications. In addition, peer reviewers for extramural research would benefit from knowing the scope of intramural activities that are related to the subjects under consideration to reduce the possibility of duplication. Therefore, NIH is directed to make such information available to extramural peer review study sections. The NIH shall include an update in the fiscal year 2015 budget request on this action.

*HIV/AIDS Funding and Office of AIDS Research.*—The NIH continues to be the world's leader in research in responding to the critical needs of the AIDS pandemic, both in the U.S. and around the world, and is to be commended for supporting the NIH AIDS and non-AIDS funding allocation at the current relative rate and is urged to continue that policy. In addition, with its trans-NIH budget authority and status as a unique "institute without walls", the Office of AIDS Research is to be commended for its leadership in setting trans-NIH AIDS research priorities, including important new basic science initiatives in the area of genomics, and its ongoing support for innovative research and community outreach to address the complex issues of AIDS in racial and ethnic minority populations in the U.S.

*Improved Coordination and Dissemination of Research.*—The NIH Director and IC Directors are directed to work with the other HHS operating divisions to establish a more systematic means of disseminating research results.

*Institute & Center Office of Director Costs.*—The NIH is expected to provide, in the fiscal year 2015 and future budget requests, a table that lists the total funding provided to the Director's Office of each IC and the NIH Director that breaks out the cost of travel, personnel, and performance bonuses by IC. The initial table should include the last three years of actual obligations, projections for the current year, and the fiscal year 2015 estimate.

*Institutional Development Award (IdeA).*—The agreement continues specific support for the IdeA program in bill language. The NIH is expected to maintain the current level for the Centers of Biomedical Research Excellence (COBRE), IdeA Networks of Biomedical Research Excellence, and the IdeA Clinical Trial and Translation Program programs. The NIH is expected to split the increase for IdeA between a new COBRE competition, additional awards for the IdeA Clinical Trial and Translation Program, and support for the INBRE program. In 2012, NIH was urged to give the IdeA Director the flexibility to include all States that qualify for the Experimental Program to Stimulate Competitive Research (EPSCoR) program in the IdeA program. Given the lack of a full response, NIH is directed to review whether changes to the eligibility criteria of the EPSCoR program are warranted and to report its recommendations to the House and Senate Appropriations Committees and the relevant authorizing committees no later than 120 days after enactment. In addition, NIH and IC Directors should work with the IdeA Director to implement a plan to improve coordination and co-funding in this program. The NIH Director is encouraged to increase opportunities for IdeA designated states participation in the CTSA program.

*Kennedy's Disease.*—Continued research in this area is encouraged to better understand the causes of this disease, along with animal testing for possible avenues for treatment. The National Institute of Neurological Disorders and Stroke shall provide an update on the state of the science in the fiscal year 2015 budget justification.

*NIH Third Party Collection Pilot.*—The NIH is expected to implement the third party collection pilot in a manner that allows intramural clinical trial participants the opportunity to opt into this pilot.

*Opioid Drug Abuse.*—Opioid narcotics are frequently abused through injection, inhalation, crushing, or oral overdose to create a highly addictive euphoria. According to some reports, more than 35 million Americans have abused prescription opioids at some point in their lifetimes. In addition, the June 2011 Institute of Medicine report on relieving pain indicates that such abuse and misuse resulted in an annual estimated cost to the nation of \$72.5 billion. The National Institute of Drug Abuse (NIDA) is expected to support meritorious scientific activities that provide companies with the basic science to develop and implement innovative strategies to reduce opioid drug abuse. Such strategies may include new chemical molecule structures, coatings, agents, or other appropriate scientifically sound processes with a goal of providing barriers to abuse while still providing the pain relief necessary for appropriate patient care. The NIDA is strongly urged to continue its support of research on pain, including the development of pain medications with reduced abuse liability. In addition, NIDA should continue to fund research to better prevent and treat prescription drug abuse. The NIDA shall provide an update in the fiscal year 2015 budget request on activities related to addressing the opioid drug abuse problem.

*Oxalosis and Hyperoxaluria.*—Oxalate metabolism remains incompletely understood and elucidated in humans. The National Institute of Diabetes and Digestive and Kidney Diseases is encouraged to promote the study of additional aspects of oxalate metabolism in humans, especially the newly discovered type PH3, and to fund research into novel pathways with special attention to specific abnormalities in enzymes of the hydroxyproline pathway.

*Pediatric Brain Tumors.*—The National Cancer Institute (NCI) is encouraged to continue

its focus on obtaining high-quality biospecimens for all cancer types and the sharing of tissues for research purposes, while exploring how genetic model and xenograft models can be used for biology studies and drug testing studies. In addition, NCI shall provide an update on the advantages and disadvantages of a time-limited special emphasis panel in the fiscal year 2015 budget request.

*Pediatric Cancer Informatics Program.*—Efforts to establish a more personalized medicine platform to improve treatment for pediatric cancer research patients in community hospitals may require the development of pediatric cancer informatics systems. The NIH shall provide an update in the fiscal year 2015 budget request on any such effort and how the effort could utilize cost-effective cloud or other types of technologies.

*Priority Setting Review.*—The House and Senate Appropriations Committees have long supported the peer-review process. The NIH Director is directed to conduct an NIH-wide priority setting review as authorized under sections 402(b)(3) and 402(b)(4) of the PHS Act. The NIH is directed to examine how the post peer review priority setting process, resource allocation process, and the portfolio evaluation data and information ensure that the priority setting process provides decision makers with answers to key questions, such as:

- (a) how the proposed activity significantly advance the body of biomedical science;
- (b) how the proposed activity could contribute to expanding knowledge to improve human health;
- (c) the relationship and impact of the proposed activity to the program goals and objectives; and
- (d) how the proposed activity could impact the overall research portfolio of the NIH and the national research institute or national center involved.

The Director of the NIH shall provide a report on the review within 180 days of enactment to the House and Senate Appropriations Committees and appropriate authorizing committees. The report should include an executive summary of the review, findings, recommendations, and planned actions with a timeline, including actions related to developing and implementing improved NIH-wide portfolio analysis procedures, policies, and tools.

*Research Centers in Minority Institutions Program (RCMI).*—Minority institutions play a critical role, especially, at the graduate level in addressing the health research and training needs of the nation. The NIH is expected to continue to support this program at no less than the fiscal year 2013 level.

*Scientifically Based Strategic Planning.*—The National Institutes of Health Reform Act of 2006 included a provision that requires the NIH Director to ensure implementation of scientifically based strategic planning (Sec. 402(b)(5) of the PHS Act). The agreement directs the NIH Director to provide a report on the actions taken or planned to ensure that the requirement for scientifically based NIH-wide strategic planning is fully implemented. The report should describe: the years to be covered by the NIH-wide plan or proposed planning process; how the long-term goals and annual objectives are measured, tracked, and reported through NIH-wide leadership; how the plan is implemented through resource allocation as described in section 402(b)(6) PHS Act; how the prioritization process addresses rare and neglected diseases while also maintaining a focus balance between translational and basic bio-medical science; and how the plan is harmonized across the NIH ICs to ensure a balanced portfolio that is free of unnecessary duplication and takes advantage of cross-cutting bio-medical research. The Director

of NIH shall provide a report on the review within 180 days of enactment to the House and Senate Appropriations Committees and appropriate authorizing committees.

**STEM Programs.**—The President’s fiscal year 2014 budget recommends eliminating the Science Education and Partnership Awards (SEPA) program within the Office of the Director (OD) and consolidating it within the Education Department as part of a government wide reorganization of Science, Technology, Engineering and Mathematics (STEM) education activities. The STEM proposed consolidation would also affect the Office of Science Education within OD and several other smaller STEM programs throughout NIH. The NIH is directed to continue funding these programs in fiscal year 2014 and sufficient funding is provided within OD to include the Office of Science Education. The NIH shall continue these programs based on the same policies that existed at the start of fiscal year 2013. The agreement does not support NIH’s proposed new educational programs.

**Usher Syndrome.**—The agreement supports research activities to prevent and correct the health related issues of Usher Syndrome. An update is requested in the fiscal year 2015 congressional budget request on the planned and on-going activities related to this syndrome. The update should address the funding level and manner in which the various ICs coordinate on common goals and objectives.

**Valley Fever.**—The upcoming joint NIH and CDC efforts to combat this disease are supported, which includes a field state of the science meeting and workshop. Specifically, the NIH and CDC are encouraged to work together to identify and intensify research into scientific gaps and to maximize public-private partnerships toward the development of a coccidioidomycosis vaccine and more effective treatments, which may include conducting a randomized controlled trial. The NIH shall provide an update in the fiscal year 2015 budget request that outlines the joint NIH and CDC recommendations, on-going efforts, and coordinated plans to further progress toward an effective Valley Fever treatment and vaccine.

**SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION**

The agreement includes bill language instructing the Administrator of the Substance Abuse and Mental Health Services Administration (SAMHSA) and the Secretary to exempt the Mental Health Block Grant and the Substance Abuse Prevention and Treatment Block Grant from being used as a source for the PHS evaluation set-aside in fiscal year 2014, as was done prior to fiscal year 2012. Furthermore, the Administrator shall not make changes to any program, project, or activity as outlined by the budget tables included in this statement without prior notification to the House and Senate Appropriations Committees.

The set-aside is for evidence-based programs that address the needs of individuals with early serious mental illness, including psychotic disorders, as proposed in Senate Report 113-71. It is expected that in implementing this set-aside, SAMHSA will collaborate with NIMH to develop guidance to States so that funds are used for programs showing strong evidence of effectiveness. It is expected that SAMHSA and NIMH brief the House and Senate Appropriations Committees on implementation status of this set-aside no later than 90 days after enactment of this act.

The Administrator is directed to ensure that all new grants awarded for the Primary and Behavioral Health Integration program are funded under the authorities in section 520K of the PHS Act.

The agreement provides funding for suicide prevention grants in American Indian/Alaska Native populations as proposed in Senate Report 113-71.

The Administrator is directed to focus on a broad public safety approach when implementing the Mental Health First Aid program that offers training for both school officials and the range of actors in the public sphere that interact with youth.

The Administrators of SAMHSA and HRSA are directed to brief the House and Senate Appropriations Committees throughout fiscal year 2014 on the implementation timeline for all the Now is the Time initiatives and progress made once such programs are established. Because the success of these programs is dependent upon interagency cooperation, the Department is strongly encouraged to include representatives from the Departments of Education and Justice in such briefings. The implementation briefing should occur within 30 days of enactment.

**SUBSTANCE ABUSE PREVENTION**

Within the total provided for Substance Abuse Prevention Programs of Regional and National Significance, the agreement includes the following amounts:

The agreement does not intend for SPFSIG/Partnerships for Success grantees to use funding to address trauma, as this would serve to redirect the program’s purpose.

The Administrator is commended for providing funding for the STOP Act within the budget request this year; however, the Administrator is strongly encouraged to eliminate the requirement for Community Enhancement Grant program applicants to provide evidence of State collaboration in the grant application. This program was intended by law to be a community program.

As described in Senate Report 113-71, the update requested in the fiscal year 2015 budget request regarding the use of psychotropic medications should include a description of collaboration between the Centers for Medicare and Medicaid Services and ACF as part of SAMHSA’s efforts to promote the most appropriate treatment approaches for children, especially those in foster care settings.

Eligible entities for the Mental and Behavioral Health Education and Training Grant program shall include accredited programs that train Master’s level social workers, psychologists, marriage and family therapists, psychology doctoral interns, as well as behavioral health paraprofessionals. The Administrator is directed to ensure that the funding opportunities are distributed relatively equally amongst the aforementioned health professionals.

**AGENCY FOR HEALTHCARE RESEARCH AND QUALITY**

**HEALTHCARE RESEARCH AND QUALITY**

The agreement provides \$371,008,000 for the Agency for Healthcare Research and Quality

(AHRQ), which includes \$364,008,000 in funds made available through section 241 of the PHS Act and \$7,000,000 made available through the PPH Fund.

Within the total for Health Costs, Quality and Outcomes, the agreement includes the following amounts:

Within the total for the Patient Safety portfolio, the agreement provides \$5,000,000 for research grants authorized by section 933 of the PHS Act as proposed in Senate Report 113-71.

Within the total for the Crosscutting Activities Related to Quality, Effectiveness and Efficiency Research portfolio, the agreement provides \$45,882,000 for investigator-initiated research.

Within the total for the Health IT portfolio, the agreement provides \$4,000,000 for research on the impact of health IT on patient safety, as proposed in Senate Report 113-71.

The agreement recognizes that the new AHRQ Director may be interested in refocusing the agency's research away from its traditional core areas such as improving patient safety and preventing healthcare associated infections. However, it is expected that before any such changes take place, they will be proposed in a transparent fashion in the fiscal year 2015 budget request so they can be considered during next year's appropriations process.

CENTERS FOR MEDICARE AND MEDICAID SERVICES

PROGRAM MANAGEMENT

The agreement includes \$3,669,744,000 for the Program Management account.

**Budget Request.**—The agreement expects the Centers for Medicare and Medicaid Services (CMS) to provide the detailed plans for all of the agency's mandatory and discretionary resources. The CMS tables should include the prior year actual, current year request level, current year actual (based on the operating plan) and budget request year level. Further, please include a description in the fiscal year 2015 budget request on CMS's fiscal management processes in place.

**CMS Policy Guidance.**—The CMS uses Medicare Administrative Contractors (MACs) as its agent in lieu of Federal employees to process reimbursement activity. It is understood that the MACs may develop and implement independent policies, which can be perceived as being inconsistent with CMS guidance. The CMS is requested to provide a detailed description in the fiscal year 2015 budget request of the mechanisms CMS has in place or plans to put in place to ensure its contracting agents consistently adhere to CMS policies.

**CMS Testing Industry Solutions Initiative.**—The agreement continues support for this initiative and requests an update in the fiscal year 2015 congressional budget request on the status of the initiative.

**Critical Access Hospitals.**—It is expected that CMS will provide a list of critical access hospitals that would be re-designated under the Administration's proposal to remove critical access hospital status from facilities located less than 10 miles from another hospital. The CMS is encouraged to work with the Office of Rural Health Policy at Health

Resources and Services Administration to ensure that rural patients maintain access to necessary health services.

**Fraud, Waste, and Abuse.**—The agreement urges CMS to implement a process across all operations to increase its focus on preventing improper payments and paying claims right the first time. A 2010 GAO report found that CMS had no formal process in place to ensure that vulnerabilities identified by the Recovery Audit Contractor (RAC) program are addressed. The CMS is directed to include in its annual report to Congress the steps it has taken to implement a systematic process across all operations to prevent fraud, waste, and abuse in both federal and contractor-operated program and administrative activities and an accounting of RAC-reported vulnerabilities.

**Food Allergies and Disease Management.**—In the United States, a patient visits an emergency department every three minutes for the treatment of a food-related allergic reaction. Proper management of food allergies could improve patient outcomes, reduce costs, and decrease the incidence of preventable death. The CMS is encouraged to consider food allergy patients in other disease management pilot programs.

**Hospital Outpatient Prospective Payment System.**—There continues to be concern regarding how the CMS 2014 Hospital Outpatient Prospective Payment System rule may expand packaged payment policies. Recognizing the need to increase efficiency and decrease cost, there is specific concern regarding the criteria under which a drug or biologic associated with a hospital outpatient procedure would be packaged. It is expected that within 90 days after enactment of this act, CMS will provide a briefing for Senate and House Appropriations Committees on the criteria used to form the new rule, specifically how a drug or biologic associated with a hospital outpatient procedure was packaged together.

**Recovery Audit Contractors (RACs).**—There is concern that the CMS RAC program has created incentives for RACs to take overly aggressive actions. Information received from the Office of Medicare Hearings and Appeals (OMHA) indicates that about 50 percent of the estimated 43,000 appeals were fully or partially overturned at its level. The fiscal year 2015 budget request should include a plan with a timeline, goals, and measurable objectives to improve the RAC process. In addition, CMS is expected to work with Congress and stakeholders to identify challenges and additional reforms. Further, CMS should establish a systematic feedback process with the OMHA, CMS programs, and the RACs to prevent the appearance that RACs are selecting determinations to increase their fees. The CMS is urged to stay focused on improvements to all operations that prevent improper payments in lieu of chasing dollars after the fact.

**Rural Policy Decisions.**—There is concern that CMS does not sufficiently account for the realities of rural health care in rule making. Small and rural hospitals, where medical workforce shortages are most severe, need reasonable flexibility to appropriately staff their facilities so they can continue to provide a full range of services to their communities. It is expected that within 90 days of enactment CMS will brief the House and Senate Appropriations Committees on how they will coordinate with HRSA's Office of Rural Health Policy to balance proper care while allowing small and rural hospitals more flexibility in CMS' rule making process.

HEALTH CARE FRAUD AND ABUSE CONTROL ACCOUNT

The agreement includes \$293,588,000 from the Medicare Trust Fund for the Health Care Fraud and Abuse Control account.

**Medicare Fraud Prevention.**—The agreement urges CMS to develop a more robust set of tools to prevent fraud, such as using the latest technology to ensure only valid beneficiaries and valid providers receive benefits. The statement directs GAO to review the feasibility, cost, benefits, and barriers for CMS to implement a Medicare transactional system with "smart card" type technology. The review must examine technology related to beneficiary and provider validation and authentication at point of entry for provider care within the Medicare program and consider ease of implementation, impact on the beneficiary, provider, ease of use, cost attributes (long and short term), and other criteria relevant to decision making, sourcing, and implementation. The GAO is expected to publish a report within one year of enactment. The CMS is expected to provide a report on its plans for implementing the GAO recommendations within 90 days after the report is published.

ADMINISTRATION FOR CHILDREN AND FAMILIES REFUGEE AND ENTRANT ASSISTANCE

**Unaccompanied Alien Children Program.**—The Secretary, in coordination with the Office of Management and Budget and the Secretaries of State and Homeland Security, is directed to develop an interagency strategy to address the challenges presented by the growing number of unaccompanied alien children arriving in the United States each year. The Secretary's designee and representatives from the Office of Management and Budget and the Departments of State and Homeland Security are directed to brief the House and Senate Appropriations Committees within 60 days of enactment on the potential solutions available to better manage this multifaceted issue.

In addition, HHS should continue to support efforts that provide pro bono legal representatives and child advocates for unaccompanied alien children. In doing so, HHS should consider the needs of both released and detained children. Given that the vast majority of children are released to a family member or sponsor pending resolution of their immigration status, HHS should ensure a proper balance in services for children accordingly.

**Victims of Trafficking.**—The Secretary is directed to dedicate a significant amount of the increase for the Victims of Trafficking program to improve services for foreign national trafficking victims.

CHILD CARE AND DEVELOPMENT BLOCK GRANT

**Technical Assistance.**—The agreement allows for technical assistance to be provided under the Child Care and Development Block Grant Act directly, or through contracts, grants, cooperative agreements or interagency arrangements.

CHILDREN AND FAMILY SERVICES

**Head Start.**—The bill includes language that restores funding for current grantees to their fiscal year 2012 funding level and, in addition, allows for an approximately 1.3 percent cost of living adjustment. The agreement also includes up to \$25,000,000 for transition-related costs associated with the Head Start Designation Renewal System.

Within the total for Head Start, \$500,000,000 is for expanding Early Head Start (EHS), including EHS-Child Care Partnerships where appropriate. In awarding these funds HHS should prioritize organizations that seek to develop a unified birth-to-school-entry continuum through alignment with other federally, State, or locally funded early childhood care and education programs. The Department should allocate these funds to States by considering the number of young children from families whose income is below the poverty line. Further, the Secretary shall reserve no less than 3 percent for Indian Head

Start programs and no less than 4.5 percent for migrant and seasonal Head Start programs.

Through EHS-Child Care Partnerships, new or existing EHS providers will partner with local center and family-based child care providers, leveraging current investments through the Child Care and Development Fund, to increase the quality of existing child care programs. The EHS providers shall enter into contractual relationships with local child care programs to provide training, technical assistance, and funding to raise the bar on the quality of those programs to meet EHS program performance standards. The Department should establish standards to ensure that the responsibilities and expectations of the EHS provider and partnering child care providers, respectively, are clearly defined. The Department should prioritize organizations that seek to partner with local child care providers across settings, including center and home-based programs.

The Department is directed to provide the House and Senate Appropriations Committees a briefing no later than two weeks prior to the release of the Funding Opportunity Announcement regarding how the direction provided above will be fulfilled and the expected timeframe for the award process.

**Adoption Opportunities.**—Within the total, \$4,000,000 shall be for discretionary grants to test intensive and exhaustive child-focused adoptive parent recruitment strategies for children in foster care, in accordance with the language in Senate Report 113-71.

**Child Abuse Discretionary Grants.**—Within the total, \$3,000,000 is provided above the request for competitive grants to support the implementation of research-based court team models that include the court system, child welfare agency, and community organizations in order to better meet the needs of infants and toddlers in foster care.

**Developmental Disabilities Programs.**—The agreement reflects the Department's transfer of Developmental Disabilities programs from ACF to the Administration for Community Living (ACL) and funds these programs within ACL accordingly.

ADMINISTRATION FOR COMMUNITY LIVING  
AGING AND DISABILITY SERVICES PROGRAMS  
(INCLUDING TRANSFER OF FUNDS)

The agreement transfers the State Health Insurance Assistance Program from the Centers for Medicare and Medicaid Services to the Administration for Community Living (ACL).

The agreement transfers funding and administrative responsibility for the Paralysis Resource Center to ACL from CDC, as requested by the administration.

The agreement includes \$1,000,000 for a competitive grant or contract for the purpose of providing generally available technical assistance to local government and nonprofit transportation providers to ensure the disabled of any age have access to transportation assistance. The agreement concurs with the description of this grant or contract as specified in the Senate Report 113-71.

OFFICE OF THE SECRETARY

GENERAL DEPARTMENTAL MANAGEMENT

The Department is directed to include in its annual budget justification for fiscal year 2015 and each year thereafter the amount of administrative and overhead costs spent by the Department for every major budget line.

The agreement includes not less than \$1,500,000 for the Office of Adolescent Health to coordinate activities within the Department with respect to adolescent health, including program design and support, trend monitoring and analysis, research projects, the training of healthcare professionals, and demonstration projects.

The agreement includes \$2,000,000 to continue the national health education program on lupus for healthcare providers, with the goal of improving diagnosis for those with lupus and reducing health disparities. The program is intended to engage healthcare providers, educators, and schools of health professions in working together to improve lupus diagnosis and treatment through education.

The agreement includes \$2,300,000 to continue the health initiative to prevent violence against women in the Office of Women's Health.

OFFICE OF INSPECTOR GENERAL

The agreement includes \$71,000,000 for the HHS Office of the Inspector General (OIG) account.

The agreement recognizes that the OIG is responsible for more than 300 programs that spend more than \$900 billion, ranging from health care insurance and clinical research to epidemiology, public health services and education. The agreement notes that the complexity of discretionary OIG oversight continues to expand. While the agreement does not direct any specific allocation or resources, the OIG is expected to continue and expand its work on discretionary programs along with its other areas of responsibility.

**Enhanced Enforcement Tools.**—The agreement requests the OIG develop specific recommendations on methods, tools, and approaches to enhance its oversight and enforcement efforts, particularly for issues related to contract or grant fraud. The OIG should contemplate how authorities similar to the civil money penalties used for Medicare program integrity activities might be beneficial or modified for other programs. If legislative action is required, the OIG is expected to submit technical assistance along with supporting information to the appropriate House and Senate Committees with the fiscal year 2015 budget request.

**Health Reform Oversight.**—The agreement provides increased support, in part to support the OIG oversight activities related to health reform. The OIG is expected to provide a plan of how it will conduct these oversight activities within 60 days after enactment to the House and Senate Appropriations Committees and appropriate authorizing committees.

**Top-25 Unimplemented Recommendations.**—While HHS accepted about 190 OIG recommendations in fiscal year 2012, it left over 1,200 unimplemented recommendations outstanding. Within 60 days after enactment of this act, the OIG shall prepare a report to the Secretary, as well as the House and Senate Appropriations Committees and appropriate authorizing committees, with the top 25 unimplemented recommendations that, based on the professional opinion of the OIG, would best protect the integrity of departmental programs if implemented. Further, within 60 days of this OIG report, the HHS Secretary is directed to respond in writing to the House and Senate Appropriations Committees and appropriate authorizing committees with a plan and timeline to implement these recommendations.

PUBLIC HEALTH AND SOCIAL SERVICES  
EMERGENCY FUND

The agreement includes a new general provision requested by the Administration for extended multi-year contracting authority for Project BioShield. The Secretary is directed to note instances in which this multi-year authority is used as part of its monthly reports on the obligations and status of actions taken for BARDA and Project BioShield. These reports were requested by the Joint Explanatory Statement accompanying the FY 2009 Omnibus Appropriations (P.L. 111-8), but have not been submitted to the

House and Senate Appropriations Committees in a timely fashion. The Secretary should include in these reports a rationale for contracts extending beyond five years and how they are in the best interest of the federal government.

The agreement represents Congress' commitment to ensuring that the nation is adequately prepared against chemical, biological, radiological, and nuclear (CBRN) attacks, as well as to the use of a public-private partnership to develop medical countermeasures for the Strategic National Stockpile. The agreement provides Project BioShield with no-year funds; therefore, BARDA is expected to issue multi-year contracts providing for cancellation as appropriate. The Secretary is directed to submit the Project BioShield spend plan referenced in Senate report 113-71 no later than 90 days after enactment of this act.

Public trust requires that personal information collected from citizens must be safeguarded. The agreement recognizes that HHS has greatly expanded the amount and volume of information it collects from the public. The Secretary shall ensure that all information technology (IT) systems, data accessible through such systems, and data stored on any HHS system is fully protected, to include appropriate IT security safeguards, procedures, policies, and guidelines to ensure the security of all information collected from the public.

GENERAL PROVISIONS

PREVENTION AND PUBLIC HEALTH FUND

The agreement includes a modification to a provision requiring a publicly available website that details expenditures from the Prevention and Public Health Fund.

PREVENTION AND PUBLIC HEALTH TRANSFER  
TABLE

The agreement includes a new provision that directs the transfer of all available Prevention and Public Health (PPH) funds. In fiscal year 2014, the level appropriated for the fund is \$1,000,000,000, the same as the fiscal year 2013 level. The provision prohibiting further transfer of funds is not intended to affect reimbursable agreements. Agencies receiving PPH funds may execute the programs using standard execution mechanisms.

The agreement includes bill language in section 219 of this act requiring funds be transferred within 45 days of enactment to the following accounts, for the following activities, and in the following amounts:

Agency	Budget Activity	FY 2014 Agreement
ACL	Alzheimer's Disease Prevention Education and Outreach .....	\$14,700,000
ACL	Chronic Disease Self Management .....	8,000,000
ACL	Falls Prevention .....	5,000,000

**FTE INFORMATION**

The agreement includes a new provision requiring fiscal year 2015 budget justifications to include certain FTE information with respect to the Affordable Care Act.

**NATIONAL HEALTH SERVICE CORPS CONTRACTS**

The agreement includes a new provision allowing National Health Service Corps contracts to be cancelled up to 60 days after award.

**ACA EXCHANGE FUNDING TRANSPARENCY**

The agreement includes a new provision related to ACA exchange funding transparency.

**SUPPORT FOR SENIORS IN TRADITIONAL MEDICARE**

The agreement includes a new provision to support CMS administrative costs related to the growth in Medicare beneficiaries and implementation of the Medical Sustainable Growth Rate formula adjustment. The language prohibits the use of these funds for the Affordable Care Act.

**TEMPORARY ASSISTANCE FOR NEEDY FAMILIES**

The agreement extends the authorization for the Temporary Assistance for Needy Families program.

**PUBLIC HEALTH SERVICE ANALYSIS**

The agreement includes a new provision requiring that, in the FY 2016 budget justification, the Secretary include an analysis of how section 2713 of the Public Health Service Act will impact discretionary HHS programs.

**TITLE III—DEPARTMENT OF EDUCATION**

**EDUCATION FOR THE DISADVANTAGED**

The agreement recognizes the federal trust responsibility to provide education for American Indians and Alaska Natives. It is noted that over the past decade Bureau of Indian Education schools have received approximately 0.7 percent of each year's appropriation for Elementary and Secondary Education Act (ESEA) Title I Grants to local educational agencies (LEAs). The Department is urged to continue to use its existing formula in allocating these funds and to follow this practice in any relevant future emergency funding that provides it the same authority and discretion.

The bill includes a new provision clarifying that title I funds may be used to address the transportation needs of homeless children and youth, as well as support homeless liaisons.

The bill includes new language under the School Improvement Grants (SIG) program that allows funds to be used to implement a research-proven, whole-school reform model; enables State educational agencies, with the approval of the Secretary of Education, to establish an alternative State-determined school improvement strategy that may be used by LEAs; and provides flexibility to LEAs eligible to receive services under the Rural Education Achievement program.

The bill also includes new language allowing States to make 5-year awards under the SIG program. This language will allow schools additional time to plan, effectively implement and sustain their turnaround efforts. The language is not intended to allow schools to delay any action necessary to improve outcomes for its students. The Depart-

ment shall provide effective guidance, support and oversight related to this provision.

**SCHOOL IMPROVEMENT PROGRAMS**

The bill modifies a set-aside for the Supporting Effective Educator Development program under the Improving Teacher Quality State Grants program, which provides competitive awards to national not-for-profit organizations for recruiting and training, or providing professional enhancement activities for teachers or school leaders, particularly for high-need schools most likely to face shortages in these areas. These funds may be used to support such activities in civic learning.

**INNOVATION AND IMPROVEMENT**

The bill includes \$250,000,000 for Race to the Top, which shall be available for obligation through December 31, 2014. Funds may be used for competitive awards to States to develop, enhance, or expand high-quality preschool programs and early childhood education programs for children from low- and moderate-income families, including children with disabilities. If awards are made to States to build capacity related to high-quality preschool programs, the Secretary of Education shall award two types of grants to States, one to low-capacity States with small or no State-funded preschool programs and another to high-capacity States that have a larger State-funded preschool program. Additionally, new bill language specifies that high-quality preschool programs should include comprehensive services and family engagement. As such, it is expected that funds will be used to help programs meet and sustain nationally recognized standards in those areas. Funds may also be used to help early childhood educators to attain higher credentials and degrees. The bill does not provide authority for funding to be used for construction, renovation, modernization, or related activities.

In addition, the bill permits States to determine the amount of funding distributed in subgrants to eligible entities for implementation of high-quality preschool programs from low- and moderate-income families. A State receiving an award for this purpose shall ensure that any use of assessment conforms with the recommendations of the National Research Council's reports on early childhood. The bill also requires that the Secretary submit a report outlining the proposed competition and priorities to the House and Senate Appropriations Committees. It is expected that the Department will consult with the House and Senate Appropriations Committees, Committee on Education and Workforce, and the Committee on Health, Education, Labor, and Pensions (HELP), prior to the submission of the required report, including on the criteria to be used under a competition to define a high-quality preschool infrastructure and program. In addition, the Secretary shall continue to provide, on a timely and periodic basis, the findings from evaluations, including impact evaluations and interim progress evaluations, of activities conducted using any Race to the Top funds to the House and Senate Appropriations Committees.

Within the Fund for the Improvement of Education, the agreement includes funding for the following activities in the following amounts:

Budget Activity	Agreement
Arts in Education .....	\$25,000,000
Data Quality Initiative .....	1,276,000
Full Service Community Schools .....	10,000,000
Educational Facilities Clearinghouse .....	1,000,000
Peer Review .....	100,000
Innovative Approaches to Literacy .....	25,000,000
Javits Gifted and Talented Education .....	5,000,000
TOTAL .....	67,376,000

Within the funds provided for the Javits Gifted and Talented Students Education pro-

gram, the Department is directed to support a National Research Center on the Gifted and Talented.

The bill also includes new language related to the educational facilities clearinghouse, the use of charter school funds for preschool, and the availability of performance-based awards of up to a total of six years under the Investing in Innovation program. Lastly, it modifies existing language related to charters or performance based contracts between schools and charter authorizers.

**SAFE SCHOOLS AND CITIZENSHIP EDUCATION**

Not later than 30 days after enactment of this act, the Department shall provide to the House and Senate Appropriations Committees an operating plan describing the use of funds available for safe and drug free national activities. The Department also is directed to consult the House and Senate Appropriations Committees on possible uses of these funds prior to the submission of the plan.

**SPECIAL EDUCATION**

The bill includes new language clarifying that the level of effort under Part B that a LEA must meet in the year after it fails to maintain its fiscal effort is the level that it should have met in the prior year. This language clarifies congressional intent and is consistent with the Office of Special Education Program's April 4, 2012, informal guidance letter on this issue. The bill also includes new language clarifying that funds reserved under section 611(c) of the IDEA may be used to help improve State capacity to meet data collection requirements under IDEA and improve data collection, quality and use under the act.

**REHABILITATION SERVICES AND DISABILITY RESEARCH**

The agreement modifies language allowing Vocational Rehabilitation State grant unmatched funds in excess of any funds requested during the reallocation process to be available for the Promoting Readiness of Minors in Supplemental Security Income program's continuation and technical assistance costs and for other innovative activities. Such funds used for these purposes will remain available for obligation through September 30, 2015.

The agreement includes \$5,796,000 for Demonstration and Training programs. Within this amount, the agreement provides \$750,000 to support a new competition for the parent information and training program.

The agreement includes increased funding for the Protection and Advocacy of Individual Rights and Client Assistance programs to help individuals with disabilities receive the services and supports they need to be able to work in competitive, integrated workplaces.

The agreement continues to support the Traumatic Brain Injury Model Systems (TBIMS) program funded by the National Institute on Disability and Rehabilitation Research so that the Nation's valuable TBI research capacity is not diminished and to build upon the 18 existing competitively-awarded Centers across the country. The TBIMS program is the only source of non-proprietary longitudinal data on what happens to people with brain injury. The Centers are a key source of evidence-based medicine, and will benefit both the civilian and military populations.

The agreement includes \$33,000,000 for the Assistive Technology program. This includes \$25,704,000 for State grant activities authorized under section 4 of the Rehabilitation Act of 1973; \$4,300,000 for protection and advocacy systems authorized under section 5; and \$996,000 for technical assistance activities authorized under section 6. The agreement

also includes \$2,000,000 within the Assistive Technology program for competitive grants to support alternative financing programs that provide for the purchase of assistive technology devices. The goal in providing these funds is to allow greater access to affordable financing to help people with disabilities purchase the specialized technologies needed to live independently, to succeed at school and work, and to otherwise live active and productive lives. Applicants should incorporate credit building activities in their programs, including financial education and information about other possible funding sources. Successful applicants must emphasize consumer choice and control and build programs that will provide financing for the full array of assistive technology devices and services and ensure that all people, regardless of type of disability or health condition, age, level of income and residence have access to the program.

#### SPECIAL INSTITUTIONS FOR PERSONS WITH DISABILITIES

The agreement includes \$66,291,000 for the National Technical Institute for the Deaf. Funding for construction will be considered in the future as needs may warrant.

#### CAREER, TECHNICAL, AND ADULT EDUCATION

The Department is urged to strengthen adult education programs to increase the focus on adults with the lowest literacy and numeracy skills. The Department should work with national adult literacy organizations to identify and promote new capacity building initiatives on adult learner leadership and advisory roles in local programs and assist in evaluating program effectiveness.

The agreement provides \$13,712,000 for national leadership activities, including \$3,000,000 to support new awards for prisoner re-entry education models as described in Senate Report 113-71.

#### STUDENT FINANCIAL ASSISTANCE

The Department shall provide \$8,390,000 within the Federal Work-Study program for the Work Colleges program authorized under section 448 of the Higher Education Act (HEA).

The National Student Loan Data System (NSLDS) is the Department's central database for the tracking of student aid, including the enrollment status of student aid recipients. In March 2012, the Department announced changes to the NSLDS Enrollment Reporting roster files to allow for improved evaluation of the Pell Grant program. Beginning with the 2012-2013 Pell Grant Award Year, the NSLDS Enrollment Reporting roster files will include, in addition to an institution of higher education's Title IV loan recipients, a separate category for an institution's Pell Grants-only recipients. This revision is aimed at improving the enrollment reporting process for Pell Grant recipients to the Department, which is responsible for overseeing the performance and effectiveness of the Pell Grant program.

Recognizing the importance of improving the enrollment reporting process, the Department is directed to submit a report to the House and Senate Appropriations Committees, no later than 120 days after the enactment of this act, on enrollment and graduation information for Pell Grant recipients for the 2012-2013 Pell Grant Award Year. The Department is also directed to continue to provide enrollment and graduation information to the House and Senate Appropriations Committees in the future as more robust and useful information becomes available. Since Pell Grant recipient enrollment and graduation information was not included until the 2012-2013 Pell Grant Award Year, it is understood that six year graduation cohort rates will not be available for analysis until 2019.

Additionally, while understanding the limitation of the data as the Department will only be able to report on student enrollment and graduation information for the 2012-2013 Pell Grant Award Year, the report should include enrollment and graduation information for Pell Grant recipients included in the NSLDS Enrollment Reporting roster files by each institution of higher education. The report should also include a plan to minimize the burden of these recent changes on institutions of higher education, a proposal to improve the tracking of enrollment and graduation rates for students that transfer and nontraditional students, and strategies to increase enrollment rates and improve graduation rates for Pell Grant recipients.

#### STUDENT AID ADMINISTRATION

The Department is directed to continue to provide quarterly reports detailing its obligation plan by quarter for spending discretionary funding for student aid administrative activities broken out by servicer and activity.

The Bipartisan Budget Act of 2013 (BBA) eliminated sections of the HEA that required the Department to enter into contracts with not-for-profit (NFP) student loan servicers; the definition of eligible NFPs; and, the NFP mandatory funding source, which supported the NFP program and two of the Title IV Additional Servicers (TIVAs) contracts. The Department recently announced that as long as discretionary funding is provided, it will continue the existing NFP contracts. This agreement provides sufficient funding to continue the servicing of student loans by NFPs. The Secretary shall continue to comply with the terms of the Department's existing contracts with NFP servicers or teams of NFP servicers to service student loans through fiscal year 2014.

Congressional colloquies stated that the BBA permits NFPs to compete with TIVAs for additional accounts. This agreement directs the Secretary to develop a plan that streamlines the metrics by which NFP servicers and the TIVAs are measured to ensure consistency among and demonstrated effectiveness of all servicing contracts as authorized under the HEA, in order to inform future competitions. The Secretary is directed to submit a report detailing the plan to the House and Senate Appropriations Committees as well as to the Committee on Education and the Workforce and the Committee on HELP no later than March 31, 2014, and before any new proposed metrics (or modified metrics) are announced or implemented.

The report shall also include the following information:

- (1) How the Secretary will ensure consistent application of any proposed performance metrics to both the NFP servicers and the TIVAs given differing portfolios;
- (2) The timeline by which the proposed metrics will be implemented and the evaluation process by which all existing servicers will be measured in accordance with these new metrics in order to move forward on a competitive basis;
- (3) The anticipated challenges in moving servicers to one set of metrics and recommended solutions to those challenges; and
- (4) The impact of the plan on borrowers and the steps the Secretary will take to ensure any new metrics will be implemented with minimum disruption or negative effect to borrowers.

#### HIGHER EDUCATION

The agreement includes \$72,164,000 for International Education and Foreign Language Studies and encourages the Department to look for ways to support study abroad programs as authorized by section 604(b) of the HEA.

The agreement includes \$79,400,000 for the Fund for the Improvement of Postsecondary Education (FIPSE). Within the amount for FIPSE, the bill includes \$75,000,000 for the First in the World initiative, which will provide grants to institutions of higher education to help ensure that they have access to and implement innovative strategies and practices shown to be effective in improving educational outcomes and making college more affordable for students and families. The agreement includes up to \$20,000,000 to be set aside for minority-serving institutions to improve their students' persistence and completion rates while keeping costs under control. The agreement expects the Department to prioritize applications that target innovative strategies at low-income students. The agreement directs the Department to provide a briefing and submit a report detailing information on priorities and the proposed competition to the House and Senate Appropriations Committees not later than 30 days prior to announcing the competition.

Within the remaining amounts for FIPSE, the bill includes \$1,126,000 for the Training of Realtime Writers program; \$1,500,000 for Centers for the Study of Distance Education and Technological Advancements as authorized by section 741(a)(3) of the HEA and described in Senate Report 113-71; \$500,000 for a Center for Best Practices to Support Single Parent Students as authorized by section 741(c) of the HEA; \$1,000,000 for the Secretary to enter into an agreement with the National Research Council of the National Academy of Sciences to conduct a study on the impact of Federal regulations and reporting requirements on institutions of higher education as authorized under section 1106 of the Higher Education Opportunity Act of 2008 and described in Senate Report 113-71; and, \$274,000 in continuation costs for the FIPSE database.

The agreement continues language allowing funds awarded under the Graduate Assistance in Areas of National Need program to be used to fund continuation costs for the Javits Fellowship program.

The agreement includes new language allowing the Department to increase the Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP) evaluation set-aside to up to 1.5 percent to work with the GEAR UP community and grantees to standardize data collection, including through the use of third-party data systems. HISTORICALLY BLACK COLLEGE AND UNIVERSITY (HBCU) CAPITAL FINANCING PROGRAM ACCOUNT

The agreement includes new language allowing funds for the HBCU Capital Financing Program to remain available through September 30, 2015.

#### GENERAL PROVISIONS

##### OFFICE OF CAREER, TECHNICAL, AND ADULT EDUCATION

The agreement includes a new general provision renaming the Office of Vocational and Adult Education as the Office of Career, Technical, and Adult Education.

##### EVALUATION AUTHORITY

The agreement includes a new general provision that clarifies the Department's authority to reserve up to 0.5 percent of each ESEA appropriation in the bill, except for titles I and III of the ESEA, for evaluation of ESEA programs funded in this act. The Department is directed to provide the House and Senate Appropriations Committees, Committee on Education and Workforce, and Committee on HELP an operating plan describing the proposed uses of this new evaluation authority, as well as the source appropriation for such activities. In addition,

not later than 45 days prior to the submission of the required operating plan, the Department shall brief the House and Senate Appropriations Committees, the Committee on Education and Workforce, and Committee on HELP on the programs and activities being considered for inclusion in the plan. Further, the operating plan shall be submitted to the relevant committees not later than 10 days prior to the obligation of funds for this purpose. The Department is expected to include in future congressional budget justifications a discussion of the planned use of this new authority.

IMPACT AID

The bill includes a new general provision allowing a district to carry its section 8002 eligibility to a new school district that was formed as a result of district consolidation.

FREE APPLICATION FOR FEDERAL STUDENT AID

The agreement includes a new general provision that modifies the Free Application for Federal Student Aid and requires the Department to inform foster youth of their eligibility for certain financial aid programs.

TITLE IV—RELATED AGENCIES

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

The increase provided for the Retired Senior Volunteer Program is intended to rebuild capacity that was lost due to the sequestration cuts in fiscal year 2013. The CNCS is directed to provide a description of the proposed use of funds for Pay for Success activities 30 days in advance of making any obligations under this authority.

FEDERAL MEDIATION AND CONCILIATION SERVICE

The bill includes \$400,000 for activities authorized by the Labor-Management Cooperation Act.

INSTITUTE OF MUSEUM AND LIBRARY SERVICES

Within the total for IMLS, the bill includes funds for the following activities in the following amounts:

Budget Activity	Agreement
Library Services Technology Act:	
Grants to States .....	\$154,848,000

Total .....	226,860,000

Within the amount provided for Program Administration, the bill includes \$1,820,000 for research, data collection, and evaluation activities.

RAILROAD RETIREMENT BOARD

The bill includes language giving the Railroad Retirement Board the authority to hire new attorneys in the excepted service.

SOCIAL SECURITY ADMINISTRATION  
SUPPLEMENTAL SECURITY INCOME

*Research and Demonstration.*—The Social Security Administration (SSA) is encouraged to test the impact of providing community outreach on Social Security programs, particularly to students, individuals just entering the workforce, and new parents, on the public’s understanding of Social Security programs.

LIMITATION ON ADMINISTRATIVE EXPENSES

*Work Incentives Planning and Assistance (WIPA) and Protection and Advocacy for Beneficiaries of Social Security (PABSS).*—The bill includes not less than \$23,000,000 for the WIPA program and \$7,000,000 for the PABSS program.

*Social Security Statements.*—The Commissioner is directed to develop a plan to significantly increase the number of individuals receiving Social Security Statements annually, either electronically or by mail. This should include a significant restoration of the mailing of statements to ensure that individuals are informed of their contributions and benefits under Social Security programs and have an opportunity to review their earnings records and correct any errors in a timely manner. The Commissioner or her designee is directed to brief the House and Senate Appropriations Committees within 60 days of enactment of this act on this plan, including the intended plan for mailing statements in fiscal year 2014.

*Field Office Closings.*—Concerns remain that in recent years SSA has lacked comprehensive, transparent policies regarding field office closings, including data on specific populations impacted by office closures and plans to mitigate the effects of closures. The Commissioner is directed to submit a report to the House and Senate Appropriations Committees within 90 days of enactment of this act on its policies and procedures for closing and consolidating field offices, including any policies and procedures related to assessing the community impacts of closing or consolidating offices, and the metrics used to calculate short- and long-term cost savings. In addition, the Commissioner is directed to provide a readily available public notice of proposed field office closures to ensure that impacted communities are aware

of proposed changes and allow an opportunity for public input on the proposed changes and possible mitigation to ensure continued access to SSA services.

*Social Security Number (SSN) Printouts and Benefit Verification Letters.*—The Commissioner is directed to continue to make SSN Printouts available at field offices through at least July 31, 2014 and Benefit Verification Letters available at field offices through at least September 30, 2014. The SSA should continue to encourage third parties that currently require these documents to use alternative means and existing online tools to verify the same information provided in these documents. However, concerns remain that third parties will not significantly change their behavior in a short period of time and instead individuals who are expected to provide these documents, for a variety of purposes, will be adversely impacted. The Commissioner or her designee is directed to brief the House and Senate Appropriations Committees within 30 days of enactment of this act on planned initiatives to decrease the reliance on field offices providing these documents, including a detailed explanation of what assurances will be provided that individuals will not be adversely impacted. Further, the Commissioner shall notify the House and Senate Committees on Appropriations no later than two weeks prior to any announcement of significant changes to current policies regarding the availability of these documents at field offices.

DIVISION I—LEGISLATIVE BRANCH  
APPROPRIATIONS ACT, 2014

The following is an explanation of the effects of Division I, which makes appropriations for the Legislative Branch for fiscal year 2014. Unless otherwise noted, reference to the House and Senate reports are to House Report 113-173 and Senate Report 113-70. The language included in House Report 113-173 and Senate Report 113-70 should be complied with and carry the same emphasis as the language included in the explanatory statement, unless specifically addressed to the contrary in this explanatory statement. While repeating some report language for emphasis, this explanatory statement does not intend to negate the language referred to above unless expressly provided herein.

**Reprogramming Guidelines.**—It is expected that all agencies notify the Committees on Appropriations of the House and the Senate of any significant departures from budget plans presented to the Committees in any agency's budget justifications. In particular, agencies funded through this bill are required to notify the Committees prior to each reprogramming of funds in excess of the lesser of 10 percent or \$500,000 between programs, projects or activities, or in excess of \$500,000 between object classifications (except for shifts within the pay categories, object class 11, 12, and 13 or as further specified in each agency's respective section). This includes cumulative reprogrammings that together total at least \$500,000 from or to a particular program, activity, or object classification as well as reprogramming FTEs or funds to create new organizational entities within the Agency or to restructure entities which already exist. The Committees desire to be notified of reprogramming actions which involve less than the above-mentioned amounts if such actions would have the effect of changing an agency's funding requirements in future years or if programs or projects specifically cited in the Committees' reports are affected.

TITLE I—SENATE

The agreement includes \$859,118,054 for Senate operations. This item relates solely to the Senate, and is in accordance with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention.

Within the account titled "Contingent Expenses of the Senate, Inquiries and Investigations", \$720,000 is provided to enhance oversight of intelligence matters. A report, classified and unclassified, regarding findings shall be provided to the Senate Committee on Appropriations.

ADMINISTRATIVE PROVISION

The agreement provides authority to use prior year funds for workers compensation.

**DIVISION J—MILITARY CONSTRUCTION AND VETERANS AFFAIRS, AND RELATED AGENCIES APPROPRIATIONS ACT, 2014**

*Matters Addressed by Only One Committee.*—The language and allocations set forth in House Report 113-90 and Senate Report 113-48 should be complied with unless specifically addressed to the contrary in this explanatory statement. Report language included by the House, which is not changed by the report of the Senate or this explanatory statement, and Senate report language, which is not changed by this explanatory statement, is approved by the Committees on Appropriations of both Houses of Congress. This explanatory statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where the House or the Senate has directed the submission of a report, such report is to be submitted to both Houses of Congress. House or Senate reporting requirements with deadlines prior to, or within 15 days after, enactment of this Act shall be submitted no later than 60 days after enactment of this Act. All other reporting deadlines not changed by this explanatory statement are to be met.

**TITLE I—DEPARTMENT OF DEFENSE**

*Incrementally Funded Projects.*—The Administration requested several large military construction projects that can be incrementally funded, but were instead submitted as large single-year requests, in accordance with a directive from the Office of Management and Budget to the Department of Defense to severely restrict the use of incremental funding for military construction. The Committees on Appropriations of both Houses of Congress have previously notified the Administration that they reserve the prerogative to provide incremental funding where appropriate, in accordance with authorizing legislation. In general, the Committees support full funding for military construction projects. In some cases, however, incremental funding makes fiscal and programmatic sense. The agreement therefore incrementally funds the following projects: Fort Knox Ambulatory Health Center, Kentucky; Fort Bliss Hospital Replacement, Texas and Rhine Ordnance Barracks Medical Center Replacement, Germany.

*Additional reductions.*—The military construction funding allocation resulting from the congressional budget agreement is \$1,203,633,000 below the fiscal year 2014 budget request. The agreement reflects the necessity to reduce or eliminate funding for a number of otherwise meritorious projects to meet the budget constraints. Of note, many of these projects are authorized in the National Defense Authorization Act for Fiscal Year 2014. In accordance with section 115 of this title, the Committees encourage the Department of Defense to submit reprogramming requests for authorized projects that under other circumstances would have been funded should adequate funding become available within the Department.

*European Consolidation Study.*—The Committees are aware that the Department of Defense (DOD) is conducting a European Consolidation Study in an effort to reduce DOD's infrastructure in Europe. The study is ongoing, and the projected completion date remains uncertain. Nevertheless, DOD's fiscal year 2014 budget request included nearly \$631,000,000 for 14 projects in Germany and the United Kingdom that could be affected by the outcome of the study. The agreement does not provide funding for several of these projects which require further strategic evaluation, and fences funding for the remaining projects pending completion of the consoli-

ation study and certification by the Secretary of Defense of the continued requirement of each of the relevant projects.

*Pacific Air Resiliency (PAR) Initiative.*—The Department of Defense is conducting a PAR study to assess requirements to protect U.S. air assets in the Pacific, including Anderson Air Force Base in Guam. The study is focused on a three-pronged approach including hardening of key facilities, dispersal of aircraft, and rapid runway repair. Although the study has not been completed or its findings validated, the budget request included six Air Force PAR projects in Guam and Saipan. The Committees believe it is premature to assess air resiliency priorities without the final results of the PAR plan encompassing the entire Pacific Command Area of Responsibility. The agreement therefore fences funding for the pertinent Air Force projects in Guam and Saipan until the final PAR plan is transmitted to Congress, and the Secretary of Defense certifies the requirement for each of the projects.

*Special Operations Command Resiliency and Human Performance Centers.*—The agreement does not include funding for the three Performance Centers requested in the budget submission. While the Committees support the overall concept of the Centers there are still questions as to the requirements of the program and the associated facility requirements. As requested in House Report 113-90, the Command Surgeon US Special Operations Command is directed to provide the congressional defense committees a master plan for these facilities by installation and fiscal year including unit cost, square footage and how treatment will be incorporated into the servicemembers' Service Treatment Record no later than 90 days after enactment of this Act.

*Real Property.*—The Committees recognize the importance of eliminating wasteful spending on unused Department of Defense (DOD) facilities and properties that have been rated at zero percent utilization. The DOD is urged to manage its facilities and properties in a responsible manner that does not waste taxpayer resources.

*Competitive Contracts.*—The Committees note the importance of competitive bidding for Department of Defense construction projects. The Department, including the Military Services and related agencies, is encouraged to award contracts through the use of competitive procedures as appropriate. The Secretary of Defense is urged to use these and other duly established legislative and regulatory guidelines for construction contracts and to keep accurate records of contracts that receive multiple bids.

*DOD Unified Facilities Criteria (UFC) Implementation Report Update.*—The agreement urges the Department to provide an assessment of the progress and barriers to the implementation of UFC 2-100-01. This assessment should include the status of each installation's master plan and its plan elements; the status of compliance with Military Development Sustainability criteria for all completed area development plans; and the status of master planning training for installation commanders and master planners.

## TITLE II—DEPARTMENT OF VETERANS AFFAIRS

*Disability Claims Backlog.*—The backlog of veterans compensation claims for service-connected disabilities remains one of the most pressing problems at the Department of Veterans Affairs (VA). Despite progress made over the past six months and the efforts of the VA to improve its processes, increase staffing, and increase automation, it is clear that problems persist, and more needs to be done to ensure that veterans are receiving timely access to the benefits they have earned. To that end, the agreement incorporates the Senate-proposed 10-point action plan to give VA additional tools to address the backlog and strengthen accountability by enhancing equipment and access to electronic medical records, and by strengthening training, personnel resources, quality oversight, and accountability. This plan is focused not only on production but also on accuracy in an effort to ensure veterans receive fair compensation at the outset and do not encounter additional delays by having to appeal decisions.

The plan includes the following elements:

Provides \$20,000,000 above the budget request to upgrade computer hardware, such as servers, at regional offices to handle the advanced program requirements of the Veterans Benefits Management System (VBMS). Hardware upgrades are needed to achieve maximum VBMS system performance, now that VBMS has been installed in all regional offices.

Makes available a total of \$90,000,000, as requested, for overtime for claims processors, as well as an additional \$10,000,000 over the budget request for training of claims processors and resources to maintain office functions during periods of training, in order to increase production and help eliminate the claims backlog.

Directs the VA to increase training of claims processors to achieve not only expedited production but also to ensure quality and accuracy to reduce claims appeals. Additionally, training programs are to be accompanied by regular testing and monitoring of poorly performing regional offices to identify and remediate performance problems.

Directs the VA to provide quality review teams and to conduct spot audits at regional offices to assess the performance of claims processing operations and flag any management or operational weaknesses.

Directs the VA to create specialized staff functions at selected regional offices for certain types of complex claims, such as claims for posttraumatic stress disorder (PTSD) or traumatic brain injury (TBI) compensation. With the VBMS paperless claims system, these specialized staff will be able to use their expertise to field targeted claims nationwide.

Directs the VA to have the data management capability to receive all Department of Defense (DOD) records in an electronic format by February, 2014. The DOD is implementing a program to have all service treatment records digitized and sent electronically to VA. DOD must accelerate this effort to achieve full electronic transmission of records by February, 2014, and VA must be prepared to accept them.

Requires the VA to provide rigorous, publicly available Web-based monthly reports to the Committees on performance measures for each regional office, including the number of backlogged claims, the average number of days to complete a claim, and error rates.

Requires the VA to submit quarterly reports that include the number of claims personnel in each regional office, corrective action taken to remedy any problems at poorly

performing offices, training programs undertaken by regional offices, and quality review team audits performed during the quarter.

Directs the VA Inspector General, in coordination with the DOD Inspector General, to examine the processes and procedures involved in the transmission of medical and other records from DOD to VA to identify any problem areas and provide recommendations for improvements. Similar language is included in the DOD appropriations division.

Provides \$88,294,000 for the Board of Veterans Appeals, \$12,862,000 over the request, to support additional personnel to address the backlog of appeals.

The Committees strongly believe that eradicating the veterans benefits claims backlog must remain a top priority of the VA, and will continue to closely monitor the agency's progress on this front. The initiatives outlined above are intended to provide the necessary resources and checkpoints to assist the VA in expediting the processing of claims while ensuring the accuracy and oversight of the process.

*Military Sexual Trauma.*—The agreement incorporates the language in the Senate report directing the Department to submit a report to the Committees regarding the Veterans Benefits Administration's (VBA) review of denied military sexual trauma cases in which posttraumatic stress disorder was the condition claimed by the veteran. In addition, the agreement incorporates House language strongly encouraging the VA to strengthen the resources provided to veterans who were victims of military sexual assault and directs the Department to submit to the Committees within 180 days of enactment of this Act a report detailing the VA's strategy to ensure that appropriate mental health services are readily available for these veterans.

*Budget Justifications.*—The agreement incorporates the directions given in the House report regarding the medical care obligations budget display; provision of an expenditure plan within 20 days of receiving a full-year appropriation; and quarterly full-time equivalent (FTE) employee reporting. The FTE quarterly reports should include FTE funded through reimbursement as well as FTE supported through direct appropriation. The agreement also incorporates the directions given in the Senate report regarding data modifications for the updated actuarial model; actual operational savings; and a zero-based budget build for components within the Medical Support and Compliance account. The direction given in both the House and Senate reports regarding the allocation of health funding distributed to the Veterans Integrated Service Networks (VISNs), headquarters, and medical centers is expanded to include Medical Support and Compliance and Medical Facilities funding.

VETERANS BENEFITS ADMINISTRATION  
COMPENSATION AND PENSIONS  
(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$71,476,104,000 for Compensation and Pensions, reflecting new estimates provided in the Administration's mid-session review. Of the amount provided, not more than \$17,049,000 is to be transferred to General Operating Expenses, Veterans Benefits Administration and Information Technology Systems for reimbursement of necessary expenses in implementing provisions of title 38.

READJUSTMENT BENEFITS

The agreement provides \$13,135,898,000 for Readjustment Benefits.

VETERANS INSURANCE AND INDEMNITIES

The agreement provides \$77,567,000 for Veterans Insurance and Indemnities.

VETERANS HOUSING BENEFIT PROGRAM FUND

The agreement provides such sums as may be necessary for costs associated with direct

and guaranteed loans for the Veterans Housing Benefit Program Fund. The agreement limits obligations for direct loans to not more than \$500,000 and provides that \$158,430,000 shall be available for administrative expenses.

VOCATIONAL REHABILITATION LOANS PROGRAM  
ACCOUNT

The agreement provides \$5,000 for the cost of direct loans from the Vocational Rehabilitation Loans Program Account, plus \$354,000 to be paid to the appropriation for General Operating Expenses, Veterans Benefits Administration. The agreement provides for a direct loan limitation of \$2,500,000.

NATIVE AMERICAN VETERAN HOUSING LOAN  
PROGRAM ACCOUNT

The agreement provides \$1,109,000 for administrative expenses of the Native American Veteran Housing Loan Program Account.

VETERANS HEALTH ADMINISTRATION  
MEDICAL SERVICES

The agreement provides \$45,015,527,000 in advance for fiscal year 2015 for Medical Services. The agreement also provides \$40,000,000 for fiscal year 2014 in addition to the advance appropriation provided last year. The agreement incorporates direction given in the House and Senate reports with regard to vet centers, suicide prevention outreach, and the National Centers for Posttraumatic Stress Disorder. As such, the agreement has provided an additional \$15,000,000 in fiscal year 2014 for vet centers, \$20,000,000 for suicide prevention outreach, and additional funds for the National Centers for Posttraumatic Stress Disorder.

The agreement includes \$250,000,000 for rural health care, as requested. This funding continues the Rural Health Initiative established by Congress in fiscal year 2009 to ensure that the VA dedicates sufficient resources to reach veterans residing in rural and highly rural areas who do not have immediate access to a veterans medical center or community based outpatient clinic. The Committees strongly encourage the VA to continue to improve the accessibility, efficiency and effectiveness of care for rural veterans, including an expansion of telemedicine, mobile clinics, vet centers, and, in the case of medically underserved areas, contracting with local providers, particularly in the area of mental health.

*Mental Health Community Service Demonstrations.*—The agreement incorporates the mental health demonstration to expand services through community partnerships described in the House report. Applicants and awardees should be evaluated on the basis of service improvement metrics that include (1) reductions in access time to routine and urgent treatment; (2) reductions in readmission rates to behavioral and chemical dependency treatment programs; (3) reductions in the level of substance abuse and related co-occurring behavioral health conditions; and (4) improved linkages to employment and housing services.

*Opioid Prescription Drug Abuse Among Veterans.*—To address the serious problem of opioid prescription overuse and misuse for the veterans population, the VA is directed to provide data no later than 90 days after enactment of this Act identifying the number and percentage of all VA physicians who have taken continuing medical education courses on opioid prescribing in the management of acute and chronic pain, as well as the mechanisms used to track how and when physicians complete courses related to pain management or opioid prescribing.

MEDICAL SUPPORT AND COMPLIANCE

The agreement provides \$5,879,700,000 in advance for fiscal year 2015 for Medical Support and Compliance.

## MEDICAL FACILITIES

The agreement provides \$4,739,000,000 in advance for fiscal year 2015 for Medical Facilities. The agreement also provides \$85,000,000 for fiscal year 2014 in addition to the advance appropriation provided last year, to be used to address the backlog of non-recurring maintenance needs at existing VA hospitals and clinics.

## MEDICAL AND PROSTHETIC RESEARCH

The agreement provides \$585,664,000 for Medical and Prosthetic Research.

*Traumatic Brain Injury Research.*—In recognition of the tremendous toll TBI and PTSD take on veterans, the agreement provides increased resources for research to identify innovative new medicines and enhanced diagnostics for these disabling conditions.

*Annual Disease Areas Research Spending Report.*—To increase the transparency of how research funding is allocated, the Department is directed to submit on an annual basis a report detailing how funding provided within the Medical and Prosthetic Research account is allocated by disease area.

## NATIONAL CEMETERY ADMINISTRATION

The agreement provides \$250,000,000 for the National Cemetery Administration. Of the amount provided, \$25,000,000 is available until September 30, 2015.

## DEPARTMENTAL ADMINISTRATION

## GENERAL ADMINISTRATION

## (INCLUDING TRANSFER OF FUNDS)

The agreement provides \$415,885,000 for General Administration. Of the amount provided, \$20,151,000 is available for obligation until September 30, 2015. The agreement includes language permitting the transfer of funds from this account to General Operating Expenses, Veterans Benefits Administration.

The agreement includes bill language designating not less than \$88,294,000 for the Board of Veterans Appeals, an increase of \$12,862,000 above the budget request for additional personnel to address the backlog of appeals. The Department is directed to provide to the Committees within 30 days of enactment of this Act a fiscal year 2014 staffing plan for the Board.

The agreement includes the following funding levels:

(In thousands of dollars)

Office	Amount
Office of the Secretary .....	10,032
Board of Veterans Appeals .....	88,294
Office of General Counsel .....	80,365
Office of Management .....	44,098
Office of Human Resources and Administration .....	68,064
Office of Policy and Planning .....	25,009
Office of Operations, Security and Preparedness .....	17,901
Office of Public and Intergovernmental Affairs .....	22,279
Office of Congressional and Legislative Affairs .....	5,969
Office of Acquisition, Logistics and Construction .....	53,874
Total .....	415,885

*Board of Veterans Appeals Backlog.*—The agreement provides \$88,294,000 for the Board of Veterans Appeals to support increased staffing levels and provide additional staff training. However, current projections estimate a 229 percent increase in the year-end remaining inventory of appeals by 2017—a situation that additional staffing alone will not be able to manage. Therefore, process inefficiencies must be identified to decrease the length of time to process appeals. VA is directed to extend and expand the one-year pilot launched in 2012 which identified six areas of efficiencies that were possible. This pilot resulted in a decrease in appeal processing time from 1,445 to 193 days—a decrease equivalent to three years. In addition, VA is directed to conduct a review of the variation in the length of time it takes veterans service organizations (VSOs) to assist veterans

in their appeals—which averages 194 days, but is as high as 360 days at some VSOs. The VA review should identify the successful practices used by some VSOs to minimize delays and prioritize their adoption by the VSOs.

The VA Departmental Strategic Plan does not address efforts to reduce appeals backlogs, and the Board does not have an official strategic plan for addressing the current backlog or the projected wave of future case receipts. Since 76 percent of the time it takes to resolve appeals is under control of the VBA rather than the Board, it is essential that the Secretary's office be the entity to develop the appeals strategic plan. The plan should address issues such as whether the regional offices should retain their authority to allocate staff resources between claims processing and appeals activities. The strategic plan approved by the Secretary should be provided to the Committees no later than 180 days after enactment of this Act.

*VA Contractor Problems.*—There continue to be issues with the contracting practices of the VA. The agreement directs the Department to submit a report not later than 60 days after enactment of this Act describing the number of active prime contractors that, despite alleged review by VA, do not have a satisfactory performance record; do not have a satisfactory record of integrity and business ethics; or have a pending civil lawsuit or have had a lawsuit brought by subcontractors and material suppliers for failure to make timely payments.

*Third Party Health Billing Collection.*—The Department is required to submit an annual report identifying the amount of third party health billings that are owed to VA and the annual amount collected. The report should describe VA's plan to capture the third party billings that currently go uncollected.

*Senior VA Staff Performance Lapses.*—Congress has been alarmed by instances of VA Senior Executive Service (SES) employees receiving performance bonuses even when negligence in medical care or failure to meet performance standards have been identified within the employee's facility or office. Members in both the House and Senate have expressed their serious concern about particular awards, and multiple oversight hearings have highlighted the Department's flawed evaluation process. However, recent actions taken by VA have attempted to address Congress's concerns. All Senior Executive award decisions are now centrally managed, using a new award methodology that makes meaningful distinctions within each of the five rating levels. The Secretary emphasized the linkage between organizational results (or lack thereof) when he made the decision to withhold performance awards for the entire Veterans Benefits Administration Senior Executive cadre based on its failure to meet targets to reduce the claims backlog. This message was also communicated when the Secretary elected not to submit any Senior Executive nominations to the Presidential Rank Award program in 2013. The Department also added a step prior to the issuance of final ratings—conducting a review across the Department to determine if any issues had surfaced which would indicate that a final rating should be deferred. The central office is responsible for conducting this review to ensure its breadth and depth. In addition, the Inspector General, the General Counsel, and the Equal Employment Opportunity Commission are contacted to determine if issues have been reported concerning any SES employees. Finally, VA has reduced the value of its highest award and average award by almost 50 percent since 2009. These are positive steps, but the Congress will remain vigilant in the coming

months to ensure that this corrective action is sufficient.

## GENERAL OPERATING EXPENSES, VETERANS BENEFITS ADMINISTRATION

The agreement provides \$2,465,490,000 for General Operating Expenses, Veterans Benefits Administration and makes available not to exceed \$123,000,000 of this funding until the end of fiscal year 2015. The agreement includes \$10,000,000 above the budget request to train claims processors in the lowest performing regional offices and to provide personnel resources to keep those offices open during the time period training occurs.

*Claims Backlog Reporting Requirements.*—The VA is directed to provide monthly reports to the Committees on claims processing performance measures for each regional office, including the number of backlogged claims, the percentage of total pending claims that are backlogged, the average number of days to complete a claim, the accuracy rate, and the origination date of the oldest claim in each regional office's inventory. This report should be submitted electronically in a computable spreadsheet format and posted on the agency's Web site. Each report is due no later than 10 calendar days after the end of the month. In addition, the agreement includes administrative provision section 230 requiring the VA to submit quarterly reports for each regional office describing claims processing performance, size of workforce, error rates, training programs, and audit measures.

The VA is directed to submit a report to the Committees no later than April 1, 2014, identifying the percentage of all records that are transmitted electronically from the DOD to VA.

The agreement requires VA to submit a report to the Committees no later than 60 days after enactment of this Act on the agency's plans to implement both mandatory and voluntary overtime for claims processors and the metric to be used to allocate these overtime resources by regional office. Following this initial report, VA should report quarterly about the actual execution of its overtime plans.

The VA is directed to provide a report to the Committees no later than 120 days after enactment of this Act on the pilot conducted in the Newark, NJ regional office to implement a completely paperless claims processing system. This report shall include description of the pilot's impact on staff workload and distribution, changes in length of processing time and accuracy, and changes in physical environment requirements.

*Job Training Efforts.*—The agreement highlights the important job training and placement opportunities the VA provides for veterans through its Vocational Rehabilitation and Employment program, its Transition Goals, Plans, Success (GPS) program, and the VetSuccess Web site.

## INFORMATION TECHNOLOGY SYSTEMS

## (INCLUDING TRANSFER OF FUNDS)

The agreement provides \$3,703,344,000 for Information Technology (IT) Systems. The agreement identifies separately the funding available for pay (\$1,026,400,000); operations and maintenance (\$2,181,653,000); and systems development, modernization, and enhancement (\$495,291,000). The agreement makes \$30,792,000 of pay funding available until the end of fiscal year 2015; \$151,316,000 of operations and maintenance funding available until the end of fiscal year 2015; and all IT systems development, modernization and enhancement funding available until the end of fiscal year 2015.

The agreement provides \$20,000,000 above the budget request in the operations and maintenance subaccount for VBA to increase

server capacity and provide other hardware upgrades at all regional offices.

The agreement includes language prohibiting the obligation of IT development, modernization, and enhancement funding until the VA submits a certification of the amounts to be obligated, in part or in full, for each development project.

The agreement includes language permitting funding made available for the three IT subaccounts to be transferred among them after the VA requests and receives approval from the Committees.

The agreement includes language providing that funding may be transferred between development projects or to new projects subject to the Committees' approval.

**Interoperable Health Record.**—The actions of the Departments of Defense and Veterans Affairs in developing an electronic health record continue to be of concern to the Committees. In February 2013, citing cost and schedule issues, both Department Secretaries announced an agreement to take the electronic health record in a different direction by focusing on creating an interoperable health record by pursuing individual Department core systems rather than building a single integrated core system and subsequent integrated electronic health record as previously agreed. The Committees understand the Departments may still end up with the same operating system, however, each Department is moving forward independently at this time: one to procure a new system and the other to evolve an existing system.

The Committees want to be very clear with both Departments: an interoperable record between the two Departments is the chief end-goal for Congress. The evolution and/or procurement of new health record systems is an important project for the Departments to undertake, but it will end up being a futile exercise if the result is not the development of systems that will be interoperable, defined as the ability to exchange computable information electronically. There is rising concern the Departments will spend years and billions of dollars on their own electronic health record systems and lose sight of the end-goal of an interoperable record. The Committees direct the Department of Veterans Affairs to remain dedicated to the development of a core system that is interoperable with the core system procured by the Department of Defense.

The fiscal year 2014 budget request included a \$251,882,000 request for the integrated Electronic Health Record (iEHR). Since this project no longer exists and has taken a new form, the agreement instead appropriates funding at the same level as the original request for iEHR in two different lines for (1) the Department to evolve its current health record system, VistA ("VistA Evolution") at \$219,000,000, and (2) the interoperability actions taking place within the Interagency Program Office and the execution of the Virtual Lifetime Electronic Health Record (VLER) Health at \$32,882,000. Like the fiscal year 2013 bill, the fiscal year 2014 agreement includes a prohibition on obligation or expenditure of more than 25 percent of fiscal year 2014 funds for VistA Evolution until the Department meets the requirements outlined below. The Committees believe it is prudent for the Department to submit a detailed plan for VistA Evolution before allowing funds to be obligated.

Therefore, the agreement directs that of the funds provided for information technology systems development, modernization, and enhancement of the Department's VistA electronic health record not more than 25 percent may be obligated until the Department submits a plan for expenditure to the

Committees which is signed by the Secretary and approved by the Committees that: defines the budget and cost for full operating capability and the total lifecycle cost of the project; identifies the deployment timeline, including benchmarks for full operating capability; describes how VistA Evolution will adhere to data standardization as defined by the Interagency Program Office (IPO) and how testing will be conducted in order to ensure interoperability between current and future DOD and VA systems; has been submitted to the Government Accountability Office (GAO) for review; and complies with the acquisition rules, requirements, guidelines, and systems acquisition management practices of the Federal Government.

The GAO is further directed to provide a quarterly review to the Committees throughout project development to ensure that the electronic health record systems of the two Departments will be interoperable.

The agreement for the Department of Defense appropriations bill includes similar electronic health record requirements, including a requirement that the request for proposals for the new system DOD intends to procure include the data standardization defined by the IPO.

Since the Department has expressed confidence in its ability to provide the above information to the Committees in a relatively quick timeframe, the Committees believe these requirements should not adversely affect the Department's internal timeline to evolve its current version of VistA.

The Committees believe that an accurate accounting of the total cost of evolving VA's current electronic health record and developing interoperability with the Department of Defense must be transparent to ensure proper budget oversight and protect against dramatic cost escalations. While funding provided to the Information Technology Systems account for past efforts to develop an integrated electronic health record was readily apparent, related costs associated with the Veterans Health Administration (VHA) was not. Therefore, the agreement also includes bill language limiting the amount of funds the VHA may obligate for the electronic health record interoperability project and VistA Evolution to \$70,943,000. However, the Department may obligate funds in addition to this amount upon written notification to the Committees stating the total amount intended to be obligated in excess of the cap and the reasons for the additional amount.

The Committees continue to expect quarterly briefings from the IPO on the electronic health record interoperability project, including the development and timeline for the creation of the standard data terminology reference model, and the execution of VLER Health.

Bill language is included making funds available for IT development, modernization, and enhancement for the projects and in the amounts specified in the following table:

The agreement appropriates \$121,411,000 for the Office of Inspector General. Of the amount provided, \$10,000,000 is available for obligation until September 30, 2015. The increase above the budget request is intended to be used for review of the transmittal of service treatment and other records from DOD to VA and for VHA audit and field review activities.

The agreement includes bill language requiring the VA Inspector General, in conjunction with the DOD Inspector General, to examine the procedures currently in place to transmit service treatment and other records from DOD to VA. VA is directed to submit a report by September 8, 2014, on this bill language directive.

DIVISION K—DEPARTMENT OF STATE, FOREIGN OPERATIONS, AND RELATED PROGRAMS APPROPRIATIONS ACT, 2014

In implementing this agreement, Federal departments, agencies, and other entities shall comply with the directives, reporting requirements, and allocations contained in H. Rept. 113-185 (House report) accompanying H.R. 2855 (House bill) and S. Rept. 113-81 (Senate report) accompanying S. 1372 (Senate bill) as though stated in this explanatory statement unless specifically directed to the contrary. This explanatory statement, while repeating some House and Senate report language for emphasis or clarification, does not negate such language unless expressly provided herein.

With respect to reporting requirements in prior years that were submitted prior to the enactment of this Act that were also referenced in the House and Senate reports, the reporting agency shall consult with the Committees on Appropriations to determine if an additional report is required in fiscal year 2014.

The Department of State, the United States Agency for International Development (USAID), and other agencies are directed to submit their respective congressional budget justifications (CBJs) concurrent with the President's fiscal year 2015 budget request. Such documents must also include information on funding available from proceeds of sale, including the total amount available and the amounts for each of the proposed uses of such funding. The Secretary of State and the USAID Administrator are expected to continue to consult with the Committees on Appropriations on the content of the fiscal year 2015 and future CBJs.

The following information, as applicable, shall be included in the CBJs: estimated savings from any proposed office or mission closing; prior year actual representation expenses for each department and agency that is authorized representation expenses; justification for any multi-year funding that is requested for an operations account; and the information on the Working Capital Funds specified in the explanatory statement accompanying Public Law 112-74.

The regular notification procedures of the Committees on Appropriations, including CBJ documents and operating and spend plans shall not suffice for purposes of satisfying special notification requirements contained in this Act.

Prior to the submission of any operating or spend plan or congressional notification (CN), Federal departments and agencies shall consult with the Committees on Appropriations on the content, format, and manner of submission of such documents, and such plans and notifications for funds that expire at the end of this fiscal year should be submitted to the Committees on Appropriations not later than July 31, 2014. Operating and spend plans and CNs shall provide, as applicable, a comparison between the most recent congressional directives or approved funding levels and the funding level proposed by the department or agency; integrate information on title VIII funds with enduring operations and assistance funds; identify applicable legislative references, including the authority to spend funds in a manner notwithstanding any other provision of law; and include a clear, concise, and informative description/justification. Regarding the requirements of sections 7015 and 7019 of this Act, the Department of State, USAID, and other agencies shall notify the Committees on Appropriations at the most detailed level specified in this Act, explanatory statement, or the CBJ. The departments and agencies funded by this Act shall notify the Committees on Approp-

priations of any significant departure from the CBJ, the final report submitted pursuant to section 653(a) of the Foreign Assistance Act of 1961, or of any new commitment that will require significant funding in future years.

The agreement continues to support the merging of assistance for countries formerly funded under Assistance for Europe, Eurasia and Central Asia into the traditional funding accounts: Global Health Programs, Economic Support Fund, and International Narcotics Control and Law Enforcement. This modification does not diminish congressional interest in and support for the region or the coordinating role of the Office of the Coordinator of United States Assistance to Europe and Eurasia.

For purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), as amended, with respect to appropriations contained in this Act, the term "program, project, and activity" shall mean any item for which a dollar amount is specified in this Act or explanatory statement. In addition, the definition of "program, project, and activity" in section 7023 of this Act shall apply to the accounts listed in that section.

The term "appropriate congressional committees" is defined in section 7034(t) of this Act.

The MCC is directed to improve its eligibility criteria in this area, and to closely consult and coordinate with relevant offices at the Departments of State, Treasury, and Commerce, the Office of the United States Trade Representative, and USAID regarding their assessments and evaluations of corruption and rule of law in MCC candidate countries. This information, including data on barriers to investment and financial crimes, should be provided to the MCC Board as supplemental information as it reviews existing and potential country partnerships.

In implementing subsection (f) of this section, the Secretary of State and USAID Administrator are directed to comply with the reporting requirement included in the House report, and shall address in such report the items listed under Development Assistance in the Senate report. Such consultation shall also include consideration of direct vetting and a strategy for evaluation of the pilot program.

In addition to the directives in subsection (k) of this section and with respect to the implementation of section 203(a)(2) of Public Law 110-457, the Secretary of State is directed to consider the failure to provide a replacement passport within a reasonable period of time to a T-visa recipient; the exist-

ence of multiple concurrent civil suits against members of the diplomatic mission; or failure to satisfy a civil judgment against an employee of the diplomatic mission as sufficient to determine that such mission "tolerated such actions".

Subsection (l) modifies section 620M of the Foreign Assistance Act of 1961 for purposes of consistency, and is not intended to modify the current vetting procedures of the Department of State. Not later than 30 days after enactment of this Act, the Secretary of State shall submit a report to the Committees on Appropriations describing such vetting procedures.

Sec. 7040. Limitation on Assistance for the Palestinian Authority (Modified)

The agreement includes language modifying a prior year certification requirement for assistance for the Palestinian Authority. All parties to the Israeli-Palestinian conflict should refrain from incitement of violence in order to promote peaceful coexistence in the region.

Sec. 7041. Middle East and North Africa (Modified)

Egypt.—The agreement includes conditions, limitations, and exceptions in subsection (a) related to assistance for Egypt made available by this Act and prior Acts making appropriations for the Department of State, foreign operations, and related programs.

Paragraph (1) requires the Secretary of State to certify that the Government of Egypt is sustaining the strategic relationship with the United States and meeting its obligations under the 1979 Egypt-Israel Peace Treaty prior to the availability of funds appropriated by this Act.

Paragraph (2) recommends assistance for Egypt under Economic Support Fund, and includes funding for higher education programs, including scholarships. Funds may also be made available for democracy programs.

Such assistance made available by this Act and prior Acts is provided for education and economic growth programs in Egypt, notwithstanding any provision of law restricting assistance for Egypt, including restrictions contained in this subsection, and subject to prior consultation with the appropriate congressional committees. If such assistance is provided for higher education programs, including scholarships, the Secretary of State and USAID Administrator should prioritize educational opportunities for Egyptian students that focus on public sector management, business administration, and entrepreneurship. Cash transfer assistance and budget support made available by this Act and prior Acts may not be made available unless the Secretary of State certifies that the Government of Egypt is taking steps to stabilize the economy and implement economic reforms. The Secretary of State shall consider whether such economic reforms are market-based and promote individual property rights and the rule of law.

In addition, the Secretary of State may reduce funds provided under Economic Support Fund to the central Government of Egypt by an amount equivalent to that expended by the United States Government for bail, and by nongovernmental organizations for legal and court fees, associated with democracy-related trials in Egypt.

Paragraph (3) recommends assistance for Egypt under Foreign Military Financing Program, to remain available for two years, and which may be transferred to an interest bearing account in the Federal Reserve Bank of New York, if the Secretary of State certifies to the Committees on Appropriations that Egypt is meeting its commitments to a democratic transition, as described in paragraph (6). However, if the Secretary is unable

to make such certifications, authority is provided to continue existing contracts at the minimum rate necessary with fiscal year 2014 funds, notwithstanding any provision of law restricting assistance for Egypt, subject to consultation with the Committees on Appropriations, except that defense articles and services from such contracts shall not be delivered until the certifications in subparagraph (6)(A) or (B) are made.

Paragraph (4) provides that prior year funds under Foreign Military Financing Program may be available at the minimum rate necessary to continue existing contracts, following consultation with the Committees on Appropriations.

Paragraph (5) provides for certain security exemptions for assistance made available for Egypt in this and prior acts, including for counterterrorism, border security, and non-proliferation programs, and development activities in the Sinai.

Paragraph (6) provides that assistance for the Government of Egypt appropriated by this Act may only be made available in the following manner: up to \$975,000,000 may be made available if the Secretary of State certifies that the Government of Egypt has held a constitutional referendum, and is taking steps to support a democratic transition in Egypt; and up to \$576,800,000 is made available if the Secretary certifies that the Government of Egypt has held parliamentary and presidential elections, and that a newly elected Government of Egypt is taking steps to govern democratically. The amounts provided by subparagraph (6)(A) should be sufficient to allow payment of existing contracts at the minimum rate necessary through fiscal year 2014.

For purposes of this paragraph, the certification in subparagraph (6)(A) should also include consideration of the conduct of the referendum, including voter participation, and the support by the Government of Egypt for the development of democratic political processes and basic freedoms, including civil society and the media. The certification in subparagraph (6)(B) should include consideration of the conduct of parliamentary and presidential elections, including voter participation and election monitoring, and steps taken by the newly elected Government to protect human rights and the rule of law, including the rights of women and religious minorities. The Secretary of State should encourage the Government of Egypt to continue to support religious minority communities and the places where they congregate.

Funds from this Act may be made available for the Secretary of State to conduct a multi-year strategic review of military and economic assistance for Egypt, if authorized by a subsequent act of Congress.

Not later than 30 days after enactment of this Act, the Secretary of State shall submit a report to the Committees on Appropriations describing the defense articles withheld from delivery to Egypt as of the date of enactment of this Act, and the conditions and timeline under which the delivery of such items will resume.

Not later than 30 days after enactment of this Act and every 90 days thereafter until September 30, 2014, the Secretary of State shall submit an analysis to the Committees on Appropriations of actions by the Government of Egypt to prosecute and bring to trial officials of previous Egyptian governments. The report should take into consideration the views of relevant human rights and other organizations monitoring such trials.

Iran.—The Secretary of State shall fulfill the requirements contained in section 7041(b)(1) and (2) of the Senate bill, including consulting with the appropriate congressional committees.

*Iraq.*—The Secretary of State is directed to continue to implement cost-matching requirements on assistance for Iraq in a manner similar to prior years, and should require the Government of Iraq to assume a greater share of such costs.

*Lebanon.*—The Secretary of State shall regularly consult with the Committees on Appropriations on the activities of the Lebanese Armed Forces and assistance provided by the United States.

*Libya.*—The Secretary of State is directed to include in any notification for assistance for Libya from funds made available in title IV of this Act a detailed justification for such assistance and a description of the vetting procedures used for any individual or unit receiving such assistance.

*Loan Guarantees and Enterprise Funds.*—The third proviso of section 7041(b) of division I of Public Law 112-74 shall apply to this section annually.

*Yemen.*—Assistance for the Armed Forces of Yemen should be made available only if such forces are cooperating with the United States on counterterrorism efforts against Al Qaeda and other terrorist organizations.

**Sec. 7042. Africa (Modified)**

*Africa Programs.*—In implementing subsection (g) of this section, the Secretary of State shall follow the directives contained in the provisos in section 7042(f)(3) of the Senate bill, and the guidance in the Senate report under “Africa Pilot Programs”.

*Lord’s Resistance Army.*—Not later than 90 days after enactment of this Act, the Secretary of State, in consultation with the Secretary of Defense and the USAID Administrator, shall submit a report to the Committees on Appropriations detailing progress toward implementation of the Administration’s counter-LRA strategy and the policy objectives included in Public Law 111-172, and shall include the amounts and description of the assistance provided for such purposes.

*Natural Resource Transparency.*—The agreement does not include the House provision on Natural Resource Transparency under this section, but does make funds available for such purposes under section 7060(c) of this Act.

*Somalia.*—The agreement modifies the Senate provision on Somalia and funds made available for assistance for Somalia shall be programmed in a manner that does not exacerbate regional, clan, or ethnic tensions in the country.

*Rwanda and Uganda.*—The Department of State is directed to inform the Committees on Appropriations of any credible information that the governments of Rwanda or Uganda are providing political, military, financial, or other support to armed groups in the Democratic Republic of Congo, including M23 or its successors, that have violated human rights or are involved in other illegal activity.

*South Sudan.*—The Secretary of State shall consult with the Committees on Appropriations on the impact of ongoing violence on United States assistance for South Sudan and plans for such assistance in fiscal year 2014. The Department of State and USAID should continue to update the Committees on efforts to mitigate such unrest and to address the humanitarian needs of the people of South Sudan.

**Sec. 7043. East Asia and the Pacific (Modified)**

*Burma.*—Section 7043(b) of the Act includes language similar to that proposed by the House and Senate regarding assistance for Burma.

In addition to programs specified in section 7043(b)(2) of this Act, the Department of State and USAID shall support programs for former political prisoners (including health,

education, and vocational training activities); women’s development and empowerment; and programs to monitor the number of political prisoners in Burma.

The President did not request assistance for Burma under International Military Education and Training and Foreign Military Financing Program, and the agreement includes no such assistance. Consideration for such assistance shall be based on submission of such a request by the President in subsequent fiscal years and the continuation of reform in Burma, including progress by the armed forces of Burma to address human rights violations, particularly against ethnic groups; efforts to bring to justice military officials involved in such violations; and the adherence to conditions of ceasefire agreements.

Section 7043(b)(6) of the Act continues the requirement that any new program or activity in Burma initiated in fiscal year 2014 is subject to prior consultation with the appropriate congressional committees, including for programs for ethnic groups and civil society to help sustain ceasefire agreements and further prospects for reconciliation and peace.

*Cambodia.*—Section 7043(c) includes language similar to that proposed in the Senate bill regarding assistance for Cambodia, which is intended to continue to assist the people of Cambodia. Assistance to the central government is conditioned on resolution of disputes in the conduct of July 2013 parliamentary elections, or the seating in parliament of winning political parties.

Section 7043(c)(5) of the Act requires the Secretary of the Treasury to report to the Committees on Appropriations regarding World Bank agreements with Cambodia and appropriate redress for Boeung Kak Lake families, as defined in the Senate report under Economic Support Fund.

*People’s Republic of China.*—The Secretary of State and USAID Administrator are directed to provide no assistance to the central government of the PRC under Global Health Programs, Development Assistance, and Economic Support Fund, except for assistance to detect, prevent, and treat infectious diseases.

*Philippines.*—Prior to the obligation of funds appropriated by this Act under Foreign Military Financing Program that are available for assistance for the Philippines, the Secretary of State shall submit a report to the Committees on Appropriations describing steps taken by the Government of the Philippines, including the military, during the previous 12 months to—

- (1) prosecute and punish those responsible for extrajudicial executions and forced disappearances, and strengthen government institutions working to eliminate such crimes;
- (2) implement a policy of promoting military personnel who demonstrate professionalism and respect for human rights, and investigate, prosecute, and punish military personnel who have been credibly alleged to have violated such rights; and
- (3) prevent acts of violence or intimidation against journalists or members of legal and other civil society organizations and communities who advocate for human rights.

**Sec. 7044. South and Central Asia (Modified)**

*Afghanistan.*—Funds carried forward from prior years, in addition to the funds made available by this Act, will provide the Department of State and USAID with the resources necessary to meet the requested operating levels in fiscal year 2014 for Afghanistan. These funding levels support the anticipated security costs and the planned Department and agency staff for fiscal year 2014. In addition, the Department of State and the USAID Offices of Inspectors General and the

Special Inspector General for Afghanistan Reconstruction (SIGAR), which are critical for proper oversight, are fully funded at the request level.

The agreement includes a total of \$1,123,193,000 for assistance for Afghanistan, which represents a fifty percent reduction from the fiscal year 2013 level. The agreement takes the necessary step of reducing new budget authority for Afghanistan to a more sustainable level that can be responsibly programmed and subject to effective oversight. In developing this agreement, data was reviewed for programs funded in previous appropriations Acts indicating that many assistance programs have significant funding pipelines that could take many years to obligate and expend.

The mobility of Department of State and USAID personnel is severely limited due to security constraints, and oversight of programs will become increasingly difficult as the United States military draws down its forces. The ability of third party monitors to adequately monitor assistance programs in such a challenging environment may be restricted and programs should not be initiated in areas where the security situation precludes adequate oversight. The Secretary of State and the USAID Administrator shall consult with the Committees on Appropriations prior to the obligation of assistance for Afghanistan on the use of third party monitors for oversight of programs and activities.

The funding provided by this Act reflects what can be effectively programmed during this fiscal year, and demonstrates a continued commitment to the people of Afghanistan. The Department of State and USAID should prioritize programs that have a record of success that support women and girls, the rule of law, free and fair elections, education, health, trade and investment, counter-narcotics, and anti-trafficking. No new major infrastructure projects should be undertaken with fiscal year 2014 funds.

Transfer authority is provided to the Department of State in title VIII of this Act to increase humanitarian assistance for Afghanistan should the security situation deteriorate. In addition, transfer authority is provided for up to \$150,000,000 for programs in Central and South Asia relating to the transition in Afghanistan.

For the purposes of paragraph (1) in subsection (a), the determination required in the House report on security requirements for implementing partners in Afghanistan shall include organizations implementing programs for USAID and the Department of State.

The spend plan required for Afghanistan by section 7076 of this Act shall include achievable and sustainable goals, benchmarks for measuring progress, and expected results. The Secretary of State is directed to report to the Committees on Appropriations 6 months after the spend plan is submitted on the status of achieving these goals and benchmarks.

Submission of CNs for assistance for water, energy, and transportation programs in excess of \$5,000,000 shall include criteria on how projects are based on best development practices and will be sustained by the Government of Afghanistan.

The agreement does not include the directive proposed by the Senate to include security-related assistance in calculations of budget support provided by the United States to the Government of Afghanistan. The Department of State should refrain from establishing arbitrary percentages for budget support levels at future donor coordinating conferences.

*Pakistan.*—Subsection (d) of the agreement includes certification requirements for assistance for Pakistan. Due to a significant

and continuing concern about the capabilities of the Haqqani Network, the Secretary of State is directed to coordinate a government-wide effort to use all appropriate measures available to disrupt and degrade the operations and finances of the Haqqani Network.

**Sec. 7045. Western Hemisphere (Modified)**  
*Colombia.*—The agreement recommends assistance for Colombia in accordance with the requirements of section 7045(a)(2) of this Act. Of the funds appropriated by this Act under Foreign Military Financing Program that are available for assistance for Colombia, 25 percent may be obligated only if the Secretary of State consults with, and subsequently certifies and submits a report to, the Committees on Appropriations that—

(1) cases involving members of the Colombian military who have been credibly alleged to have violated human rights, or to have aided, abetted, or benefitted from criminal or illegal armed groups are subject only to civilian jurisdiction during investigation and prosecution, and the Colombian military is not opposing civilian jurisdiction in such cases and is cooperating with civilian prosecutors and judicial authorities;

(2) the Government of Colombia is upholding its international obligations by investigating, prosecuting, and punishing persons responsible for crimes against humanity, war crimes, and other gross violations of human rights, and is not offering amnesty to such persons; and

(3) the Government of Colombia is taking effective steps to dismantle paramilitary successor groups and to protect the rights of human rights defenders, journalists, trade unionists, and other social activists, and is respecting the rights and territory of indigenous and Afro-Colombian communities.

*Cuba.*—In subsection (b), the agreement includes up to \$17,500,000 for programs and activities in Cuba, and of such funds, not less than \$7,500,000 shall be provided directly to the NED. Not to exceed \$10,000,000 shall be administered by DRL and the Bureau of Western Hemisphere Affairs at the Department of State. Funds should be programmed at a rate that allows for proper management and oversight.

*Guatemala.*—There is concern with the failure of the Government of Guatemala to implement the Reparations Plan for Damages Suffered by the Communities Affected by the Construction of the Chixoy Hydroelectric Dam (April 2010). Section 7045(c) of this Act restricts assistance for the Guatemalan army and requires a certification by the Secretary of State. In addition, funds appropriated under Foreign Military Financing Program may be obligated for assistance for the army only if the Secretary of State also certifies that the army—

(1) has a narrowly defined mission focused on border security and external threats, and a credible plan to end the army's involvement in internal law enforcement;

(2) is cooperating with civilian investigations and prosecutions of human rights cases involving current and retired military officers, with the Inter-American Court on Human Rights, and with the International Commission Against Impunity in Guatemala, including providing timely access for investigators to witnesses, documents, forensic evidence, and other relevant information; and

(3) is publicly disclosing all military archival documents relating to the internal armed conflict in a timely manner in response to requests by civilian judicial authorities.

The agreement includes additional conditions on assistance for the Guatemalan Armed Forces relating to international adoption cases.

*Honduras.*—The agreement modifies language in the Senate bill regarding Honduras

in subsection (e). There is concern with the security challenges facing Honduras, which has become a transit hub for illicit drugs from South America. The assistance provided by this Act is intended to help stem the trafficking and address related violence, corruption, and impunity.

The agreement recognizes the need for fundamental reform of Honduran law enforcement and judicial systems. In accordance with section 7045(e) of this Act, 35 percent of funds that are available for assistance for the Honduran military and police may be obligated only if the Secretary of State certifies that—

(1) the Government of Honduras is reducing corruption including by prosecuting corrupt officials and removing them from office;

(2) agreements between the United States and Honduras concerning counter-narcotics operations, including assistance for innocent victims of such operations, are being implemented;

(3) the Government of Honduras is protecting freedom of expression, association, and assembly, and due process of law, including in the Bajo Aguan Valley;

(4) the Government of Honduras is investigating and prosecuting in the civilian justice system military and police personnel who are credibly alleged to have violated human rights, including forced evictions, or to have aided or abetted other armed groups involved in such acts; and

(5) the Honduran military and police are cooperating with civilian judicial authorities in such cases.

*Mexico.*—The agreement supports assistance for Mexico to combat drug trafficking and related violence and corruption, and for law enforcement and judicial reform. There is concern with reports of abuses by Mexican security forces, and subsection (f) requires that of the funds appropriated by this Act under International Narcotics Control and Law Enforcement and Foreign Military Financing Program that are available for assistance for the Mexican military and police, 15 percent may be obligated only if the Secretary of State reports in writing to the Committees on Appropriations that—

(1) the Government of Mexico is investigating and prosecuting military personnel who are credibly alleged to have committed human rights violations, and is taking the necessary steps to codify this practice into law by reforming Mexico's military code of justice, in accordance with rulings by Mexico's Supreme Court and the Inter-American Court of Human Rights;

(2) the Government of Mexico is enforcing prohibitions against torture and the use of testimony obtained through torture;

(3) the Mexican military and police are promptly transferring detainees to the custody of civilian judicial authorities, in accordance with Mexican law, and are cooperating with such authorities in such cases; and

(4) the Government of Mexico is searching for the victims of forced disappearances and is investigating and prosecuting those responsible for such crimes.

**Sec. 7048. United Nations (Modified)**  
**Sec. 7052. Aircraft Transfer and Coordination (Modified)**

**Sec. 7054. Landmines and Cluster Munitions (Modified)**

**Sec. 7058. Global Health Activities (Modified)**

**Sec. 7059. Gender Equality (Modified)**  
**Sec. 7060. Sector Allocations (Modified)**

The agreement provides not less than \$1,153,500,000 for bilateral and multilateral environment programs in this Act, including not less than \$123,500,000 for sustainable landscapes, not less than \$212,500,000 for biodiversity, and not less than \$45,000,000 to

combat wildlife poaching and trafficking. Funds for certain bilateral environment programs are allocated according to the following table and are subject to section 7019 of this Act:

ENVIRONMENT PROGRAMS	
(Budget authority in thousands of dollars)	
Program/Activity	Budget authority
Andean Amazon .....	20,000
Brazilian Amazon .....	10,500
United States Forest Service .....	3,500

The rapid increase in the destruction of wildlife habitat and wildlife poaching and trafficking has serious implications for endangered species and international security and stability. The agreement includes additional funding to address this crisis and support implementation of the United States strategy to address these challenges. Expertise from across the United States Government should be coordinated and used to maximize the impact of these efforts. Funds are directed to support regional wildlife enforcement networks; address consumer demand, including in Asia; strengthen law enforcement; and enhance regional cooperation and anti-trafficking networks. The Secretary of State, USAID Administrator, and Director of the United States Fish and Wildlife Service (USFWS) are directed to consult with the Committees on Appropriations, not later than 45 days after enactment of this Act, on the uses of funds for these purposes. The Secretary of State is further directed to submit a report to the Committees on Appropriations, not later than 180 days after enactment of this Act, on implementation of the United States strategy.

The agreement includes funds to support the work of the Department of State Bureau of Counterterrorism, International Narcotics and Law Enforcement Affairs, and Political and Military Affairs in strengthening the capacity of law enforcement and security services to combat wildlife poaching and trafficking.

ADMINISTRATIVE PROVISIONS—OFFICE OF THE SECRETARY OF TRANSPORTATION

Section 101 prohibits funds available to the Department of Transportation from being obligated for the Office of the Secretary of Transportation to approve assessments or reimbursable agreements pertaining to funds appropriated to the modal administrations, except for activities underway on the date of enactment of this Act, unless such assessments or agreements have completed the normal reprogramming process for Congressional notification.

Section 102 allows the Secretary of Transportation or his designee to engage with states to consider proposals related to the reduction of motorcycle fatalities.

Section 103 allows the Department of Transportation Working Capital Fund to provide payments in advance to vendors for the Federal transit pass fringe benefit program.

<b>Total .....</b>	<b>9,707,000,000</b>	<b>9,651,422,000</b>

*Air traffic controller and safety inspector hiring.*—The agreement includes funding to maintain the FAA’s workforce of air traffic controllers and safety inspectors, and to restore controller and inspector staffing losses associated with prior funding shortfalls. The funding level will allow the FAA to replace controllers and inspectors who retire or leave the agency for other reasons, and to train new hires and developmental controllers. Further, the FAA is expected to submit to the House and Senate Committees on Appropriations a request for approval before redirecting any of the funding provided to restore controller or inspector staffing levels.

*Controller staffing.*—The Inspector General is expected to conduct a follow-up review of its fiscal year 2012 study of controller staffing at the FAA’s most critical facilities and provide an update to the Committees on Appropriations no later than 180 days after enactment of this Act.

*AeroNav.*—The agreement prohibits AeroNav from implementing new charges on AeroNav products until the FAA provides the House and Senate Committees on Appropriations a report that describes: (1) the estimated cost of producing only its digital products, on a product-by-product basis for use on computers, tablets, and other displays; (2) the cost of producing both digital products and paper products, on a product-by-product basis; (3) safety and operational benefits of using digital products; and (4) how AeroNav’s actions conform with the direction in Executive Order 13642 to support open data for entrepreneurship, innovation, and scientific discovery.

*Unmanned aerial systems (UAS).*—The primary mission of the FAA is to protect the safety of civil aviation and provide an efficient national airspace. Nothing in the agreement is intended to change that mission or hinder the FAA’s ability to fulfill it. However, the FAA also has a responsibility to provide the Congress with information and analysis on civil aviation issues. The FAA’s unique role in supporting our civil aviation system places the agency in a position to inform the Congress on the policy considerations of developing technologies. Without adequate safeguards, expanded use of UAS and their integration into the national airspace raise a host of concerns with respect to the privacy of individuals. For this reason, the FAA is directed to conduct a study on the implications of UAS integration into national airspace on individual privacy. The study should address the application of existing privacy law to UAS integration; identify gaps in existing law, especially with regard to the use and retention of personally identifiable information and imagery; and recommend next steps for how the FAA can address the impact of widespread use of UAS on individual privacy as it prepares to facilitate the integration of UAS into the national airspace. The FAA shall consult other federal agencies with expertise in privacy protections and submit a report on its findings to the House and Senate Committees on Appropriations no later than eighteen months after enactment. In conducting its work, the agency may partner with an organization such as the National Academy of Sciences. This requirement is included in the agreement with the understanding that it will not disrupt the FAA’s work with UAS test sites or current certification processes, and that the report will be

completed well in advance of the FAA's schedule for developing final regulations on the integration of UAS into the national airspace.

*Drug and alcohol intervention programs.*—The agreement includes \$2,103,000 for the Human Intervention Motivation Study and the Flight Attendant Drug and Alcohol Program.

*Asiana Airlines Flight 214.*—The National Transportation Safety Board (NTSB) continues to investigate the human and technological factors that contributed to the Asiana Airlines Flight 214 crash that occurred on July 6, 2013. Although the NTSB will determine the probable cause of the crash, one potential factor could be that the speed of the aircraft may have been too low on its final approach into the airport. The FAA is directed to carefully consider the recommendations of the NTSB, including the efficacy and appropriateness of low airspeed audible and visual alert systems. The FAA is

directed to provide a letter report to the House and Senate Committees on Appropriations on the agency's evaluation of low air-speed alert systems and response to the NTSB's recommendations.

*Automatic deployable flight recorders.*—In accordance with Public Law 110-53, "Implementing Recommendations of the 9/11 Commission Act of 2007", the Transportation Security Administration conducted a pilot program that successfully tested in concept, the ability of automatic deployable flight recorders (ADFRs) to improve rapid access to flight data following commercial aviation crashes, while also providing the location of downed aircraft and potential survivors. These findings were confirmed by international studies following the Air France Flight 447 tragedy. The International Civil Aviation Organization (ICAO) currently has efforts underway to enable the installation of ADFRs on international commercial passenger aircraft as one method of providing

rapid access to data and location of wreckage. The FAA is encouraged to carefully evaluate the costs and benefits of ADFR technology and to work with NTSB to support U.S. and international initiatives in the development of standards for this safety technology on commercial passenger aircraft.

FACILITIES AND EQUIPMENT

(AIRPORT AND AIRWAY TRUST FUND)

The agreement includes \$2,600,000,000 for FAA facilities and equipment. Of the total amount available, \$450,250,000 is available until September 30, 2014 and \$2,149,750,000 is available until September 30, 2016. The agreement includes language directing FAA to transmit a detailed five-year capital investment plan to Congress with its fiscal year 2015 budget submission.

**Joint Planning and Development Office.**—The agreement does not include funding for the

Joint Planning and Development Office. Funding is provided in the operations account to absorb personnel and activities from this office into the "NextGen and operations planning" activity.

**Commercial Space Center of Excellence.**—The agreement includes \$1,000,000 above the budget request in the "NextGen: Air Ground Integration" activity for further development of a commercial space center of excellence. Funding for this activity was requested in the operations account, but it is included in this account to be consistent with other FAA centers of excellence.

**Alternative Fuels Center of Excellence.**—The agreement includes \$5,000,000 in the "NextGen: Environmental Research" activity to establish a center of excellence for alternative jet fuel research.

**GRANTS-IN-AID FOR AIRPORTS**  
(LIQUIDATION OF CONTRACT AUTHORIZATION)  
(LIMITATION ON OBLIGATIONS)  
(AIRPORT AND AIRWAY TRUST FUND)  
(INCLUDING TRANSFER OF FUNDS)

*Small Community Air Service Development Program.*—The agreement includes \$5,000,000 under the obligation limitation to continue the Small Community Air Service Development Program (SCASDP) and directs the FAA to transfer funds to the Office of the Secretary salaries and expenses appropriation.

*Cost share.*—The agreement includes a provision that allows small airports to continue contributing five percent of the total cost for unfinished phased projects that were underway prior to the passage of the FAA Modernization and Reform Act of 2012, which raised the cost share from five to ten percent.

ADMINISTRATIVE PROVISIONS—FEDERAL AVIATION ADMINISTRATION

Section 110 allows no more than 600 technical staff-years at the Center for Advanced Aviation Systems Development.

Section 111 prohibits funds for adopting guidelines or regulations requiring airport sponsors to provide FAA “without cost” building construction or space.

Section 112 allows reimbursement for fees collected and credited under 49 U.S.C. 45303.

Section 113 allows reimbursement of funds for providing technical assistance to foreign aviation authorities to be credited to the operations account.

Section 114 prohibits funds for Sunday premium pay unless work was actually performed on a Sunday.

Section 115 prohibits funds in the Act from being used to buy store gift cards with Government issued credit cards.

Section 116 allows all airports experiencing the required level of boardings through charter and scheduled air service to be eligible for funds under 49 U.S.C. 47114(c).

Section 117 prohibits funds from being obligated or expended for retention bonuses for FAA employees without prior written approval of the DOT Assistant Secretary for Administration.

Section 119B prohibits the FAA from increasing fees under 49 U.S.C. 44721 until the FAA provides a report to the Committees on Appropriations on the production of digital aeronautical navigation products, as described earlier in this explanatory statement under “Federal Aviation Administration—Operations”.

Section 119C prohibits funds from being used to change weight restrictions or prior permission rules at Teterboro Airport in New Jersey.

Section 119D requires FAA to take measures relating to helicopter noise in Los Angeles County, California.

Section 119E extends war risk insurance through September 30, 2014. The FAA is working with authorizing committees and industry stakeholders on proposals to reauthorize the war risk insurance program. These discussions include proposals to reform the program and allow the private sector to provide coverage. However, this work is ongoing, and the agreement includes language to extend the current war risk insurance program through the end of fiscal year 2014 so that coverage does not expire in the meantime. The agreement includes this extension with the expectation that the FAA will continue to work with the relevant com-

mittees and stakeholders on solutions that can spread the risk of providing war risk insurance.

FEDERAL HIGHWAY ADMINISTRATION  
LIMITATION ON ADMINISTRATIVE EXPENSES  
(HIGHWAY TRUST FUND)  
(INCLUDING TRANSFER OF FUNDS)

The agreement limits obligations for the administrative expenses of the Federal Highway Administration (FHWA) to \$416,100,000. The agreement provides this level with the understanding that FHWA’s obligations will include balances of contract authority from prior years as well as contract authority provided for fiscal year 2014. In addition, the agreement provides \$3,248,000 above this limitation for the administrative expenses of the Appalachian Regional Commission in accordance with 23 U.S.C. 104.

The agreement does not specify funding levels for the modernization of FHWA’s financial management systems or for training and development activities. However, it is important that FHWA continue prioritizing these undertakings, particularly the modernization of its financial reporting system.

FEDERAL-AID HIGHWAYS  
(LIMITATION ON OBLIGATIONS)  
(HIGHWAY TRUST FUND)

The agreement limits obligations for the Federal-aid highways program to \$40,256,000,000 in fiscal year 2014, which is the authorized level under MAP-21, P.L. 112-141.

*Project selection and prioritization.*—In instances where the Secretary exercises discretion in project selection or federal credit approval, the Secretary is directed to give stronger consideration to projects where state and local governments collaborate with private organizations to deliver a significant improvement to a national or regional transportation network.

*Technology transfer of paving materials.*—The Department is encouraged to use funds authorized to carry out section 503(b) of title 23, United States Code, to carry out the activities listed in paragraph (3)(C)(ix) of such section. Such activities may include: testing of high-traffic permeable pavements using infiltration concrete or asphalt bases; validation of hydrologic/hydraulic/pollutant removal performance data and modeling; data collection and reporting on permeable pavements; and installation, maintenance and life cycle costs. If funds are used in this manner, the Department is directed to make available the results of such research to help State and municipal transportation agencies overcome technical barriers to adoption of permeable infiltration pavements in the transportation infrastructure.

*Bridge safety.*—The agreement includes direction for two reports designed to examine factors that may affect the safety of our nation’s bridges. The Government Accountability Office (GAO) is directed to conduct a survey of the State departments of transportation on their treatment of oversize loads, including their permitting process and oversight regime. GAO is directed to issue a report on its findings to the House and Senate Committees on Appropriations not later than 18 months after enactment of this Act. In its report, GAO is expected to detail its findings, offer recommendations and best practices, and address the appropriate role of the Federal and State governments. The Federal Highway Administration is directed to reevaluate Federal and State requirements for marking bridge height, including standards related to the position and design of such signs and the enforcement of such standards. The agency is directed to report its findings and recommendations to the House and Senate Committees on Appropria-

tions not later than 1 year following enactment. In conducting its evaluation, the agency is expected to consult with the American Association of State Highway and Transportation Officials, the American Society of Civil Engineers, and other relevant organizations.

(LIQUIDATION OF CONTRACT AUTHORIZATION)  
(HIGHWAY TRUST FUND)

The agreement provides a liquidating cash appropriation of \$40,995,000,000, which is available until expended, to pay the outstanding obligations of the various highway programs at the levels provided in this Act and prior appropriations Acts. This level reflects the obligation limitation that is provided in this Act and the level of contract authority exempt from obligation limitation that is provided under MAP-21.

ADMINISTRATIVE PROVISIONS—FEDERAL HIGHWAY ADMINISTRATION

Section 120 distributes the Federal-aid highways program obligation limitation.

Section 121 allows funds received by the Bureau of Transportation Statistics from the sale of data products to be credited to the Federal-aid Highways account.

Section 123 prohibits tolling in Texas, with exceptions.

Section 124 prohibits funds from being used to provide credit assistance under sections 603 and 604 of title 23, United States Code, unless the Secretary notifies the House and Senate Committees on Appropriations, the Senate Committee on Environment and Public Works, the Senate Committee on Banking, Housing and Urban Affairs, and the House Committee on Transportation and Infrastructure at least three days prior to credit application approval.

Section 125 changes title 23, United States Code, to allow states meeting certain conditions to use their Congestion Mitigation and Air Quality Improvement program funding on transit or rail operating assistance without time limitations.

FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION

MOTOR CARRIER SAFETY OPERATIONS AND PROGRAMS

(LIQUIDATION OF CONTRACT AUTHORIZATION)  
(LIMITATION ON OBLIGATIONS)  
(HIGHWAY TRUST FUND)

The agreement includes a liquidation of contract authorization and a limitation on obligations of \$259,000,000 for the operating and program expenses of the Federal Motor Carrier Safety Administration (FMCSA), which is the authorized level under MAP-21, P.L. 112-141. Of this limitation, \$9,000,000 is for the research and technology program and will remain available for obligation until September 30, 2016, \$34,545,000 is for information management and shall be available until September 30, 2016, and \$1,000,000 is for commercial motor vehicle operator’s grants. The agreement includes a provision requiring FMCSA to report to Congress on the agency’s ability to meet requirements to conduct compliance reviews on mandatory carriers.

The agreement does not reduce FMCSA’s obligation limitation by \$100,000 per day for each day a report required is past due. However, FMCSA is expected to diligently submit all required reports by their specified deadlines.

*Chameleon carriers.*—FMCSA is directed to report to the House and Senate Committees on Appropriations by March 31, 2014, on the implementation of a risk-based methodology to identify chameleon motor carriers and the extent to which independent commercially-

available data sources would enhance the agency's capabilities.

*Hours of service study.*—FMCSA is not required to revisit work already completed in fulfilling the requirements of Section 32301 of P.L. 112-141 (MAP-21).

*ADA compliance.*—FMCSA has made notable progress in its oversight of motor coach compliance with the Americans with Disabilities Act (ADA). FMCSA has developed guidelines and set conditions to suspend or revoke operating assistance based on ADA non-compliance. FMCSA is expected to continue to vigorously enforce these guidelines and track non-compliant carriers. An annual report is no longer required as long as the agency provides comprehensive information when requested by the House and Senate Committees on Appropriations.

*Safety fitness determination rule.*—FMCSA is expected to make every effort possible to meet its targeted deadline of May 2014 for issuance of a safety fitness determination rule.

The agreement provides \$184,500,000 for safety and operations of the Federal Railroad Administration (FRA). Of the funds provided, \$12,400,000 is available until expended.

*Commuter and passenger rail safety oversight.*—Within the last eight months, there have been four rail accidents on Metro-North's system in New York and Connecticut which resulted in five deaths and nearly 130 injuries. In the aftermath of the December 1,

2013 derailment, the FRA issued an emergency order on Metro-North's passenger train procedures and initiated a 60-day comprehensive safety assessment of the railroad. These incidents underscore the importance of exercising vigorous and continuous oversight of commuter and passenger rail operations. The FRA is directed to provide the agency's safety review findings, recommended action plan and timeline for completed action items to the House and Senate Committees on Appropriations by March 17, 2014. In addition, the Federal Transit Administration (FTA), with its new safety authority and expertise in asset management, is participating in FRA's safety review. As part of this review, FTA is expected to determine whether safety investments in Metro-North's system were appropriately prioritized. FRA and FTA are further directed to incorporate appropriate lessons learned from this safety review into oversight plans for all commuter and passenger rail operations.

RAILROAD RESEARCH AND DEVELOPMENT

The agreement provides \$35,250,000 for railroad research and development.

RAILROAD REHABILITATION AND IMPROVEMENT FINANCING PROGRAM

The agreement authorizes the Secretary to issue notes or other obligations pursuant to section 501 through 504 of P.L. 94-210. The agreement prohibits new direct loans or loan guarantee commitments using Federal funds for the credit risk premium.

The agreement provides \$340,000,000 in operating grants to Amtrak, to remain available until expended. Before approving funding to cover operating losses, the agreement requires the Secretary to review a grant request for each specific train route. The agreement includes bill language that prohibits Amtrak from discounting tickets at more than 50 percent off the normal peak fare, unless the operating loss due to the discounted fare is covered by a State.

The agreement directs FRA to submit a report to the House and Senate Committees on Appropriations by April 1, 2014 detailing improvements it will make to its budget estimating process.

CAPITAL AND DEBT SERVICE GRANTS TO THE NATIONAL RAILROAD PASSENGER CORPORATION

The agreement provides \$1,050,000,000 for capital and debt service grants to Amtrak, to remain available until expended. Within the funds provided, the agreement includes \$199,000,000 for Amtrak's debt service payment and not less than \$50,000,000 for investments to comply with the Americans with Disabilities Act. In addition, the agreement provides for an initial distribution of \$200,000,000 for a working capital account. The agreement allows up to \$40,000,000 to be used by the Secretary for grants to Amtrak to subsidize operating losses should operating losses in fiscal year 2014 exceed amounts provided under the previous heading. The agreement allows the Secretary to retain up to one-half of one percent of the funds provided under this heading for oversight of both operating activities and capital expenditures, including capital amounts that can be used to subsidize operating losses. The agreement also allows the Secretary to retain up to \$5,000,000 to fund the costs associated with implementing section 212 of division B of Public Law 110-432. The agreement retains the requirement that both the Corporation and the Northeast Corridor Infrastructure and Operations Advisory Commission submit a fiscal year 2015 budget request.

Section 151 allows the FRA safety and operations account to receive and use cash or spare parts to repair and replace damaged track inspection cars.

Section 152 authorizes the Secretary to allow the issuer of preferred stock sold to the Department to redeem or repurchase such stock upon the payment to the Department as determined by the Secretary.

Section 153 limits overtime to \$35,000 per employee, but allows Amtrak's president to waive this restriction for specific employees for safety or operational efficiency reasons, and requires Amtrak to provide quarterly reports on cap waivers for each month and reasons for such waivers. It also requires the Corporation to provide an annual report by March 17, 2014 that summarizes total overtime expenses by month, and details overtime cap waivers and overtime payments associated with those waivers for each month of the calendar year 2013 and two prior years. Section 154 amends P.L. 113-2.
