

African Americans (38 percent) and Latinos (35 percent) are over twice as likely as whites (13 percent) to hold no financial assets at all and to have no or negative net worth.

At no point in our nation's history has a single human been more capable of inflicting massive death and misery, and our society is producing more individuals who seek to employ such means to carry out their ill intentions.

While it is certainly true that violent crime and homicide rates in this country have been declining in recent years, they are still far above those in other industrialized nations.

Most recently, the horrible attack on a Planned Parenthood in Colorado Springs that took the lives of 3 Americans, including a mother and an Iraqi war Veteran.

That is just one horrific example of why we must act now to stop gun violence, protect citizens, and end the urban warfare.

And we have a plan of action.

1. Require universal background checks to keep guns out of dangerous hands; an estimated 40% of gun transfers—6.6 million transfers—are conducted without a background check. 1/3 of “want-to-buy” ads online are posted by people with a criminal record. More than 4 times the rate at which prohibited gun buyers try to buy guns in stores. That would equate to 25,000 guns in illegal hands.

2. Ban military-style assault weapons;

3. Closing of the gun-show loophole; and

4. Increase access to mental health services. We must work to reduce access to firearms for people with suicidal tendencies. 90% of suicide victims should have been diagnosed with a psychiatric disorder. Firearms are the most common method of suicide—51%. We need to ensure that mental health professionals know their options for reporting threats of violence—even as we acknowledge that someone with a mental illness is far more likely to be the victim of a violent crime than the perpetrator.

Every day, 48 children and teens are shot in murders, assaults, suicides & suicide attempts, unintentional shootings, and police intervention. Every day, 7 children and teens die from gun violence.

Over 17,000 (17,499) American children and teens are shot in murders, assaults, suicides & suicide attempts, unintentional shootings, or by police intervention each year. 2,677 kids die from gun violence each year. Every day, 297 people in America are shot in murders, assaults, suicides & suicide attempts, unintentional shootings, and police intervention. Every day, 89 people die from gun violence.

Over 108,000 (108,476) people in America are shot in murders, assaults, suicides & suicide attempts, unintentional shootings, or by police intervention. 32,514 people die from gun violence each year.

The senseless killings in Bamako, Mali, Beirut, and the Bataclan Theater in Paris are the most current examples of global terrorism.

The terror attacks that unfolded across Paris continue to tear at the hearts of all Americans.

Those who think that they can terrorize the people of France or the values that they stand for are wrong. The American people draw strength from the French people's commitment to life, liberty, the pursuit of happiness.

In response to these disgusting attacks, I call on my colleagues to pass my bill H.R. 48 the No Fly for Foreign Fighters Act.

This would require the Director of the Terrorist Screening Center to review the com-

pleteness of the Terrorist Screening Database and the terrorist watch list utilized by the Transportation Security Administration.

Despite the recent terrorist attacks around the world, ISIS is not the most deadly terrorist organization.

The 2015 Global Terrorism Index found that Boko Haram in Nieria killed 6,644 people in 2014. 77% of deaths were private citizens.

This compared to 6,073 at the hands of ISIS.

Boko Haram was formed in 2002 and became armed in 2009.

In the last six years, Boko Haram has carried out more than 500 violent attacks against a broad array of targets: Christian and Muslim communities, government installations, schools, hospitals and medical facilities, aid workers, and journalists.

Their latest attack on Yola, Nigeria, left more than 30 people dead.

Boko Haram became well-known on a global stage when they kidnapped 200 school girls.

During my visit to Nigeria over the summer I met with government officials, including President Muhammadu Buhari, and others to discuss what is currently being done to bring these girls back to their families as soon as possible.

Children's rights are human rights, and these types of attacks, specifically targeting of schools, are strictly prohibited under international law and cannot be justified under any circumstances.

Girls and young women around the world absolutely must be allowed to go to school peacefully and free from intimidation, persecution and all other forms of discrimination.

I have introduced H. Res. 528, Expressing the sense of the House of Representatives regarding to the Victims of the Terror Protection fund, which expresses the sense of the House of Representatives that: Boko Haram and other terrorist organizations be declared an existential threat to the human rights and security of the Nigerian people and their regional neighbors; the global strategy for ending the suffering and creating solutions for displaced persons in Africa includes a Victims of Terror Protection Fund, which should provide humanitarian assistance to Boko Haram victims; military technical assistance be provided to Nigeria and its neighbors; and the Victims of Terror Support Fund should be modeled after the cases of Khazakhstan and Equatorial Guinea where prior kleptocracy initiatives have been created to benefit communities and victims in need of support.

I also wear red every Wednesday to stand in solidarity with Representative WILSON in our combined effort to #BringBackOurGirls.

A terrible blow was dealt to the Voting Rights Act on June 25, 2013, when the Supreme Court handed down the decision in *Shelby County v. Holder*, 537 U.S. 193 (2013), which invalidated Section 4(b), the provision of the law determining which jurisdictions would be subject to Section 5 “pre-clearance.” The reason the Court gave for its ruling “times have changed.”

Times have changed, but what the Court did not fully appreciate is that the positive changes it cited were due almost entirely to the existence and vigorous enforcement of the Voting Rights Act.

In the 50 years since its passage in 1965, the Voting Rights Act has safeguarded the

right of Americans to vote and stood as an obstacle to many of the more egregious attempts by certain states and local jurisdictions to game the system by passing discriminatory changes to their election laws and administrative policies.

I am a sponsor of the H.R. 2867, the Voting Rights Advancement Act of 2015, a bill that restores and advances the Voting Rights Act of 1965 by providing a modern day coverage test that will extend federal oversight to jurisdictions which have a history of voter suppression and protects vulnerable communities from discriminatory voting practices.

I am also a sponsor of H.R. 12, the Voter Empower Act of 2015, which protects voters from suppression, deception, and other forms of disenfranchisement by modernizing voter registration, promoting access to voting for individuals with disabilities, and protecting the ability of individuals to exercise the right to vote in elections for federal office.

This year I had the honor to present the Barbara Jordan Gold Medallion for Public-Private Leadership to a pioneer in her own right Hillary Rodham Clinton.

This prestigious award is presented annually to a woman of demonstrated excellence in the public or private sector whose achievements are an example and inspiration to people everywhere, but especially to women and girls.

Ms. KELLY of Illinois. Mr. Speaker, I yield back the balance of my time.

“(4) develop and implement procedures for monitoring the quality of services provided by direct student service providers; and

“(5) establish and implement clear criteria describing the course of action for direct student service providers that are not successful in improving student academic outcomes, which, for a high-quality academic tutoring provider, may include a process to remove State approval under paragraph (2).”

the Secretary determines that the State has fulfilled those requirements.

“(8) PUBLIC COMMENT.—Each State shall make the State plan publicly available for public comment for a period of not less than 30 days, by electronic means and in an easily accessible format, prior to submission to the Secretary for approval under this subsection. The State, in the plan it files under this subsection, shall provide an assurance that public comments were taken into account in the development of the State plan.

“(b) CHALLENGING ACADEMIC STANDARDS AND ACADEMIC ASSESSMENTS.—

“(1) CHALLENGING STATE ACADEMIC STANDARDS.—

“(V) are aligned to ensure that a student who meets the alternate academic achievement standards is on track to pursue postsecondary education or employment, consistent with the purposes of Public Law 93–112, as in effect on July 22, 2014.

“(ii) PROHIBITION ON ANY OTHER ALTERNATE OR MODIFIED ACADEMIC ACHIEVEMENT STAND-

ARDS.—A State shall not develop, or implement for use under this part, any alternate academic achievement standards for children with disabilities that are not alternate academic achievement standards that meet the requirements of clause (i).

“(F) ENGLISH LANGUAGE PROFICIENCY STANDARDS.—Each State plan shall demonstrate that the State has adopted English language proficiency standards that—

“(i) are derived from the 4 recognized domains of speaking, listening, reading, and writing;

“(H) EXISTING STANDARDS.—Nothing in this part shall prohibit a State from revising, consistent with this section, any standards adopted under this part before or after the date of enactment of the Every Student Succeeds Act.

“(2) ACADEMIC ASSESSMENTS.—

“(A) IN GENERAL.—Each State plan shall demonstrate that the State educational agency, in consultation with local educational agencies, has implemented a set of high-quality student academic assessments in mathematics, reading or language arts, and science. The State retains the right to implement such assessments in any other subject chosen by the State.

“(B) REQUIREMENTS.—The assessments under subparagraph (A) shall—

“(i) except as provided in subparagraph (D), be—

“(I) the same academic assessments used to measure the achievement of all public elementary school and secondary school students in the State; and

“(II) administered to all public elementary school and secondary school students in the State;

“(ii) be aligned with the challenging State academic standards, and provide coherent and timely information about student attainment of such standards and whether the student is performing at the student’s grade level;

“(iii) be used for purposes for which such assessments are valid and reliable, consistent with relevant, nationally recognized professional and technical testing standards, objectively measure academic achievement, knowledge, and skills, and be tests that do not evaluate or assess personal or family beliefs and attitudes, or publicly disclose personally identifiable information;

“(iv) be of adequate technical quality for each purpose required under this Act and consistent with the requirements of this section, the evidence of which shall be made public, including on the website of the State educational agency;

“(v)(I) in the case of mathematics and reading or language arts, be administered—

“(aa) in each of grades 3 through 8; and

“(bb) at least once in grades 9 through 12;

“(II) in the case of science, be administered not less than one time during—

“(III) in the case of any other subject chosen by the State, be administered at the discretion of the State;

“(vi) involve multiple up-to-date measures of student academic achievement, including measures that assess higher-order thinking skills and understanding, which may include measures of student academic growth and may be partially delivered in the form of portfolios, projects, or extended performance tasks;

“(vii) provide for—

“(I) the participation in such assessments of all students;

“(II) the appropriate accommodations, such as interoperability with, and ability to use, assistive technology, for children with disabilities (as defined in section 602(3) of the Individuals with Disabilities Education Act (20 U.S.C. 1401(3))), including students with the most significant cognitive disabilities, and students with a disability who are provided accommodations under an Act other than the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.), necessary to measure the academic achievement of such children relative to the challenging State academic standards or alternate academic achievement standards described in paragraph (1)(E); and

“(III) the inclusion of English learners, who shall be assessed in a valid and reliable manner and provided appropriate accommodations on assessments administered to such students under this paragraph, including, to the extent practicable, assessments in the language and form most likely to yield accurate data on what such students know and can do in academic content areas, until such students have achieved English language proficiency, as determined under subparagraph (G);

“(viii) at the State’s discretion—

“(I) be administered through a single summative assessment; or

“(II) be administered through multiple statewide interim assessments during the course of the academic year that result in a single summative score that provides valid, reliable, and transparent information on student achievement or growth;

“(ix) notwithstanding clause (vii)(III), provide for assessments (using tests in English) of reading or language arts of any student who has attended school in the United States (not including the Commonwealth of Puerto Rico) for 3 or more consecutive school years, except that if the local educational agency determines, on a case-by-case individual basis, that academic assessments in another language or form would likely yield more accurate and reliable information on what such student knows and can do, the local educational agency may make a determination to assess such student in the appropriate language other than English for a period that does not exceed 2 additional consecutive years, provided that such student has not yet reached a level of English language proficiency sufficient to yield valid and reliable information on what such student knows and can do on tests (written in English) of reading or language arts;

“(x) produce individual student interpretive, descriptive, and diagnostic reports, consistent with clause (iii), regarding achievement on such assessments that allow parents, teachers, principals, and other school leaders to understand and address the specific academic needs of students, and that are provided to parents, teachers, and school leaders, as soon as is practicable after the assessment is given, in an understandable and uniform format, and to the extent practicable, in a language that parents can understand;

“(xi) enable results to be disaggregated within each State, local educational agency, and school by—

“(I) each major racial and ethnic group;

“(II) economically disadvantaged students as compared to students who are not economically disadvantaged;

“(III) children with disabilities as compared to children without disabilities;

“(IV) English proficiency status;

“(V) gender; and

“(VI) migrant status,

except that such disaggregation shall not be required in the case of a State, local educational agency, or a school in which the number of students in a subgroup is insufficient to yield statistically reliable information or the results

would reveal personally identifiable information about an individual student;

“(xii) enable itemized score analyses to be produced and reported, consistent with clause (iii), to local educational agencies and schools, so that parents, teachers, principals, other school leaders, and administrators can interpret and address the specific academic needs of students as indicated by the students’ achievement on assessment items; and

“(xiii) be developed, to the extent practicable, using the principles of universal design for learning.

“(C) EXCEPTION FOR ADVANCED MATHEMATICS IN MIDDLE SCHOOL.—A State may exempt any 8th grade student from the assessment in mathematics described in subparagraph (B)(v)(I)(aa) if—

“(i) such student takes the end-of-course assessment the State typically administers to meet the requirements of subparagraph (B)(v)(I)(bb) in mathematics;

“(ii) such student’s achievement on such end-of-course assessment is used for purposes of subsection (c)(4)(B)(i), in lieu of such student’s achievement on the mathematics assessment required under subparagraph (B)(v)(I)(aa), and such student is counted as participating in the assessment for purposes of subsection (c)(4)(B)(vi); and

“(iii) in high school, such student takes a mathematics assessment pursuant to subparagraph (B)(v)(I)(bb) that—

“(I) is any end-of-course assessment or other assessment that is more advanced than the assessment taken by such student under clause (i) of this subparagraph; and

“(II) shall be used to measure such student’s academic achievement for purposes of subsection (c)(4)(B)(i).

“(D) ALTERNATE ASSESSMENTS FOR STUDENTS WITH THE MOST SIGNIFICANT COGNITIVE DISABILITIES.—

“(i) ALTERNATE ASSESSMENTS ALIGNED WITH ALTERNATE ACADEMIC ACHIEVEMENT STANDARDS.—A State may provide for alternate assessments aligned with the challenging State academic standards and alternate academic achievement standards described in paragraph (1)(E) for students with the most significant cognitive disabilities, if the State—

“(I) consistent with clause (ii), ensures that, for each subject, the total number of students assessed in such subject using the alternate assessments does not exceed 1 percent of the total number of all students in the State who are assessed in such subject;

“(II) ensures that the parents of such students are clearly informed, as part of the process for developing the individualized education program (as defined in section 614(d)(1)(A) of the Individuals with Disabilities Education Act (20 U.S.C. 1414(d)(1)(A))—

“(aa) that their child’s academic achievement will be measured based on such alternate standards; and

“(bb) how participation in such assessments may delay or otherwise affect the student from completing the requirements for a regular high school diploma;

“(III) promotes, consistent with the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.), the involvement and progress of students with the most significant cognitive disabilities in the general education curriculum;

“(IV) describes in the State plan the steps the State has taken to incorporate universal design for learning, to the extent feasible, in alternate assessments;

“(V) describes in the State plan that general and special education teachers, and other appropriate staff—

“(aa) know how to administer the alternate assessments; and

“(bb) make appropriate use of accommodations for students with disabilities on all assessments required under this paragraph;

“(VI) develops, disseminates information on, and promotes the use of appropriate accom-

modations to increase the number of students with significant cognitive disabilities—

“(aa) participating in academic instruction and assessments for the grade level in which the student is enrolled; and

“(bb) who are tested based on challenging State academic standards for the grade level in which the student is enrolled; and

“(VII) does not preclude a student with the most significant cognitive disabilities who takes an alternate assessment based on alternate academic achievement standards from attempting to complete the requirements for a regular high school diploma.

“(ii) SPECIAL RULES.—

“(I) RESPONSIBILITY UNDER IDEA.—Subject to the authority and requirements for the individualized education program team for a child with a disability under section 614(d)(1)(A)(i)(VI)(bb) of the Individuals with Disabilities Education Act (20 U.S.C. 1414(d)(1)(A)(i)(VI)(bb)), such team, consistent with the guidelines established by the State and required under section 612(a)(16)(C) of such Act (20 U.S.C. 1412(c)(16)(C)) and clause (i)(II) of this subparagraph, shall determine when a child with a significant cognitive disability shall participate in an alternate assessment aligned with the alternate academic achievement standards.

“(II) PROHIBITION ON LOCAL CAP.—Nothing in this subparagraph shall be construed to permit the Secretary or a State educational agency to impose on any local educational agency a cap on the percentage of students administered an alternate assessment under this subparagraph, except that a local educational agency exceeding the cap applied to the State under clause (i)(I) shall submit information to the State educational agency justifying the need to exceed such cap.

“(III) STATE SUPPORT.—A State shall provide appropriate oversight, as determined by the State, of any local educational agency that is required to submit information to the State under subclause (II).

“(IV) WAIVER AUTHORITY.—This subparagraph shall be subject to the waiver authority under section 8401.

“(E) STATE AUTHORITY.—If a State educational agency provides evidence, which is satisfactory to the Secretary, that neither the State educational agency nor any other State government official, agency, or entity has sufficient authority, under State law, to adopt challenging State academic standards, and academic assessments aligned with such standards, which will be applicable to all students enrolled in the State’s public elementary schools and secondary schools, then the State educational agency may meet the requirements of this subsection by—

“(i) adopting academic standards and academic assessments that meet the requirements of this subsection, on a statewide basis, and limiting their applicability to students served under this part; or

“(ii) adopting and implementing policies that ensure that each local educational agency in the State that receives grants under this part will adopt academic content and student academic achievement standards, and academic assessments aligned with such standards, which—

“(I) meet all of the criteria in this subsection and any regulations regarding such standards and assessments that the Secretary may publish; and

“(II) are applicable to all students served by each such local educational agency.

“(F) LANGUAGE ASSESSMENTS.—

“(i) IN GENERAL.—Each State plan shall identify the languages other than English that are present to a significant extent in the participating student population of the State and indicate the languages for which annual student academic assessments are not available and are needed.

“(ii) SECRETARIAL ASSISTANCE.—The State shall make every effort to develop such assessments and may request assistance from the Sec-

retary if linguistically accessible academic assessment measures are needed. Upon request, the Secretary shall assist with the identification of appropriate academic assessment measures in the needed languages, but shall not mandate a specific academic assessment or mode of instruction.

“(G) ASSESSMENTS OF ENGLISH LANGUAGE PROFICIENCY.—

“(i) IN GENERAL.—Each State plan shall demonstrate that local educational agencies in the State will provide for an annual assessment of English proficiency of all English learners in the schools served by the State educational agency.

“(ii) ALIGNMENT.—The assessments described in clause (i) shall be aligned with the State’s English language proficiency standards described in paragraph (1)(F).

“(H) LOCALLY-SELECTED ASSESSMENT.—

“(i) IN GENERAL.—Nothing in this paragraph shall be construed to prohibit a local educational agency from administering a locally-selected assessment in lieu of the State-designed academic assessment under subclause (I)(bb) and subclause (II)(cc) of subparagraph (B)(v), if the local educational agency selects a nationally-recognized high school academic assessment that has been approved for use by the State as described in clause (iii) or (iv) of this subparagraph.

“(ii) STATE TECHNICAL CRITERIA.—To allow for State approval of nationally-recognized high school academic assessments that are available for local selection under clause (i), a State educational agency shall establish technical criteria to determine if any such assessment meets the requirements of clause (v).

“(iii) STATE APPROVAL.—If a State educational agency chooses to make a nationally-recognized high school assessment available for selection by a local educational agency under clause (i), which has not already been approved under this clause, such State educational agency shall—

“(I) conduct a review of the assessment to determine if such assessment meets or exceeds the technical criteria established by the State educational agency under clause (ii);

“(II) submit evidence in accordance with subsection (a)(4) that demonstrates such assessment meets the requirements of clause (v); and

“(III) after fulfilling the requirements of subclauses (I) and (II), approve such assessment for selection and use by any local educational agency that requests to use such assessment under clause (i).

“(iv) LOCAL EDUCATIONAL AGENCY OPTION.—

“(I) LOCAL EDUCATIONAL AGENCY.—If a local educational agency chooses to submit a nationally-recognized high school academic assessment to the State educational agency, subject to the approval process described in subclause (I) and subclause (II) of clause (iii) to determine if such assessment fulfills the requirements of clause (v), the State educational agency may approve the use of such assessment consistent with clause (i).

“(II) STATE EDUCATIONAL AGENCY.—Upon such approval, the State educational agency shall approve the use of such assessment in any other local educational agency in the State that subsequently requests to use such assessment without repeating the process described in subclauses (I) and (II) of clause (iii).

“(v) REQUIREMENTS.—To receive approval from the State educational agency under clause (iii), a locally-selected assessment shall—

“(I) be aligned to the State’s academic content standards under paragraph (1), address the depth and breadth of such standards, and be equivalent in its content coverage, difficulty, and quality to the State-designed assessments under this paragraph (and may be more rigorous in its content coverage and difficulty than such State-designed assessments);

“(II) provide comparable, valid, and reliable data on academic achievement, as compared to

the State-designed assessments, for all students and for each subgroup of students defined in subsection (c)(2), with results expressed in terms consistent with the State's academic achievement standards under paragraph (I), among all local educational agencies within the State;

“(III) meet the requirements for the assessments under subparagraph (B) of this paragraph, including technical criteria, except the requirement under clause (i) of such subparagraph; and

“(IV) provide unbiased, rational, and consistent differentiation between schools within the State to meet the requirements of subsection (c).

“(vi) PARENTAL NOTIFICATION.—A local educational agency shall notify the parents of high school students served by the local educational agency—

“(I) of its request to the State educational agency for approval to administer a locally-selected assessment; and

“(II) upon approval, and at the beginning of each subsequent school year during which the locally selected assessment will be administered, that the local educational agency will be administering a different assessment than the State-designed assessments under subclause (I)(bb) and subclause (II)(cc) of subparagraph (B)(v).

“(I) DEFERRAL.—A State may defer the commencement, or suspend the administration, but not cease the development, of the assessments described in this paragraph, for 1 year for each year for which the amount appropriated for grants under part B is less than \$369,100,000.

“(J) ADAPTIVE ASSESSMENTS.—

“(i) IN GENERAL.—Subject to clause (ii), a State retains the right to develop and administer computer adaptive assessments as the assessments described in this paragraph, provided the computer adaptive assessments meet the requirements of this paragraph, except that—

“(I) subparagraph (B)(i) shall not be interpreted to require that all students taking the computer adaptive assessment be administered the same assessment items; and

“(II) such assessment—

“(aa) shall measure, at a minimum, each student's academic proficiency based on the challenging State academic standards for the student's grade level and growth toward such standards; and

“(bb) may measure the student's level of academic proficiency and growth using items above or below the student's grade level, including for use as part of a State's accountability system under subsection (c).

“(ii) STUDENTS WITH THE MOST SIGNIFICANT COGNITIVE DISABILITIES AND ENGLISH LEARNERS.—In developing and administering computer adaptive assessments—

“(I) as the assessments allowed under subparagraph (D), a State shall ensure that such computer adaptive assessments—

“(aa) meet the requirements of this paragraph, including subparagraph (D), except such assessments shall not be required to meet the requirements of clause (i)(II); and

“(bb) assess the student's academic achievement to measure, in the subject being assessed, whether the student is performing at the student's grade level; and

“(II) as the assessments required under subparagraph (G), a State shall ensure that such computer adaptive assessments—

“(aa) meet the requirements of this paragraph, including subparagraph (G), except such assessment shall not be required to meet the requirements of clause (i)(II); and

“(bb) assess the student's language proficiency, which may include growth towards such proficiency, in order to measure the student's acquisition of English.

“(K) RULE OF CONSTRUCTION ON PARENT RIGHTS.—Nothing in this paragraph shall be construed as preempting a State or local law regarding the decision of a parent to not have the parent's child participate in the academic assessments under this paragraph.

“(L) LIMITATION ON ASSESSMENT TIME.—Subject to Federal or State requirements related to assessments, evaluations, and accommodations, each State may, at the sole discretion of such State, set a target limit on the aggregate amount of time devoted to the administration of assessments for each grade, expressed as a percentage of annual instructional hours.

“(3) EXCEPTION FOR RECENTLY ARRIVED ENGLISH LEARNERS.—

“(A) ASSESSMENTS.—With respect to recently arrived English learners who have been enrolled in a school in one of the 50 States in the United States or the District of Columbia for less than 12 months, a State may choose to—

“(i) exclude—

“(I) such an English learner from one administration of the reading or language arts assessment required under paragraph (2); and

“(II) such an English learner's results on any of the assessments required under paragraph (2)(B)(v)(I) or (2)(G) for the first year of the English learner's enrollment in such a school for the purposes of the State-determined accountability system under subsection (c); or

“(ii)(I) assess, and report the performance of, such an English learner on the reading or language arts and mathematics assessments required under paragraph (2)(B)(v)(I) in each year of the student's enrollment in such a school; and

“(II) for the purposes of the State-determined accountability system—

“(aa) for the first year of the student's enrollment in such a school, exclude the results on the assessments described in subclause (I);

“(bb) include a measure of student growth on the assessments described in subclause (I) in the second year of the student's enrollment in such a school; and

“(cc) include proficiency on the assessments described in subclause (I) in the third year of the student's enrollment in such a school, and each succeeding year of such enrollment.

“(B) ENGLISH LEARNER SUBGROUP.—With respect to a student previously identified as an English learner and for not more than 4 years after the student ceases to be identified as an English learner, a State may include the results of the student's assessments under paragraph (2)(B)(v)(I) within the English learner subgroup of the subgroups of students (as defined in subsection (c)(2)(D)) for the purposes of the State-determined accountability system.

“(C) STATEWIDE ACCOUNTABILITY SYSTEM.—

“(I) IN GENERAL.—Each State plan shall describe a statewide accountability system that complies with the requirements of this subsection and subsection (d).

“(2) SUBGROUP OF STUDENTS.—In this subsection and subsection (d), the term ‘subgroup of students’ means—

“(A) economically disadvantaged students;

“(B) students from major racial and ethnic groups;

“(C) children with disabilities; and

“(D) English learners.

“(3) MINIMUM NUMBER OF STUDENTS.—Each State shall describe—

“(A) with respect to any provisions under this part that require disaggregation of information by each subgroup of students—

“(i) the minimum number of students that the State determines are necessary to be included to carry out such requirements and how that number is statistically sound, which shall be the same State-determined number for all students and for each subgroup of students in the State;

“(ii) how such minimum number of students was determined by the State, including how the State collaborated with teachers, principals, other school leaders, parents, and other stakeholders when determining such minimum number; and

“(iii) how the State ensures that such minimum number is sufficient to not reveal any personally identifiable information.

“(4) DESCRIPTION OF SYSTEM.—The statewide accountability system described in paragraph (1)

shall be based on the challenging State academic standards for reading or language arts and mathematics described in subsection (b)(1) to improve student academic achievement and school success. In designing such system to meet the requirements of this part, the State shall carry out the following:

“(A) ESTABLISHMENT OF LONG-TERM GOALS.—Establish ambitious State-designed long-term goals, which shall include measurements of interim progress toward meeting such goals—

“(i) for all students and separately for each subgroup of students in the State—

“(I) for, at a minimum, improved—

“(aa) academic achievement, as measured by proficiency on the annual assessments required under subsection (b)(2)(B)(v)(I); and

“(bb) high school graduation rates, including—

“(AA) the four-year adjusted cohort graduation rate; and

“(BB) at the State's discretion, the extended-year adjusted cohort graduation rate, except that the State shall set a more rigorous long-term goal for such graduation rate, as compared to the long-term goal set for the four-year adjusted cohort graduation rate;

“(II) for which the term set by the State for such goals is the same multi-year length of time for all students and for each subgroup of students in the State; and

“(III) that, for subgroups of students who are behind on the measures described in items (aa) and (bb) of subclause (I), take into account the improvement necessary on such measures to make significant progress in closing statewide proficiency and graduation rate gaps; and

“(v)(I) For all public schools in the State, not less than one indicator of school quality or student success that—

“(aa) allows for meaningful differentiation in school performance;

“(bb) is valid, reliable, comparable, and state-wide (with the same indicator or indicators used for each grade span, as such term is determined by the State); and

“(cc) may include one or more of the measures described in subclause (II).

“(II) For purposes of subclause (I), the State may include measures of—

“(III) student engagement;

“(IV) educator engagement;

“(V) student access to and completion of advanced coursework;

“(VI) postsecondary readiness;

“(iii) include differentiation of any such school in which any subgroup of students is consistently underperforming, as determined by the State, based on all indicators under subparagraph (B) and the system established under this subparagraph.

“(D) IDENTIFICATION OF SCHOOLS.—Based on the system of meaningful differentiation described in subparagraph (C), establish a State-determined methodology to identify—

“(i) beginning with school year 2017–2018, and at least once every three school years thereafter, one statewide category of schools for comprehensive support and improvement, as described in subsection (d)(1), which shall include—

“(I) not less than the lowest-performing 5 percent of all schools receiving funds under this part in the State;

“(II) all public high schools in the State failing to graduate one third or more of their students; and

“(ii) For the purpose of measuring, calculating, and reporting on the indicator described in subparagraph (B)(i), include in the denominator the greater of—

“(II) the number of students participating in the assessments.

“(iii) Provide a clear and understandable explanation of how the State will factor the requirement of clause (i) of this subparagraph into the statewide accountability system.

“(F) PARTIAL ATTENDANCE.—(i) In the case of a student who has not attended the same school within a local educational agency for at least half of a school year, the performance of such student on the indicators described in clauses (i), (ii), (iv), and (v) of subparagraph (B)—

“(I) may not be used in the system of meaningful differentiation of all public schools as described in subparagraph (C) for such school year; and

“(II) shall be used for the purpose of reporting on the State and local educational agency report cards under subsection (h) for such school year.

“(ii) In the case of a high school student who has not attended the same school within a local educational agency for at least half of a school year and has exited high school without a regular high school diploma and without transferring to another high school that grants a regular high school diploma during such school year, the local educational agency shall, in order to calculate the graduation rate pursuant to subparagraph (B)(iii), assign such student to the high school—

“(I) at which such student was enrolled for the greatest proportion of school days while enrolled in grades 9 through 12; or

“(II) in which the student was most recently enrolled.

“(5) ACCOUNTABILITY FOR CHARTER SCHOOLS.—The accountability provisions under this Act shall be overseen for charter schools in accordance with State charter school law.

“(d) SCHOOL SUPPORT AND IMPROVEMENT ACTIVITIES.—

“(1) COMPREHENSIVE SUPPORT AND IMPROVEMENT.—

“(A) IN GENERAL.—Each State educational agency receiving funds under this part shall notify each local educational agency in the State of any school served by the local educational agency that is identified for comprehensive support and improvement under subsection (c)(4)(D)(i).

“(B) LOCAL EDUCATIONAL AGENCY ACTION.—Upon receiving such information from the State, the local educational agency shall, for each school identified by the State and in partnership with stakeholders (including principals and other school leaders, teachers, and parents), locally develop and implement a comprehensive support and improvement plan for the school to improve student outcomes, that—

“(i) is informed by all indicators described in subsection (c)(4)(B), including student performance against State-determined long-term goals;

“(ii) includes evidence-based interventions;

“(iii) is based on a school-level needs assessment;

“(iv) identifies resource inequities, which may include a review of local educational agency and school-level budgeting, to be addressed through implementation of such comprehensive support and improvement plan;

“(v) is approved by the school, local educational agency, and State educational agency; and

“(vi) upon approval and implementation, is monitored and periodically reviewed by the State educational agency.

“(C) STATE EDUCATIONAL AGENCY DISCRETION.—With respect to any high school in the State identified under subsection (c)(4)(D)(i)(II), the State educational agency may—

“(i) permit differentiated improvement activities that utilize evidence-based interventions in the case of such a school that predominantly serves students—

“(I) returning to education after having exited secondary school without a regular high school diploma; or

“(II) who, based on their grade or age, are significantly off track to accumulate sufficient academic credits to meet high school graduation requirements, as established by the State; and

“(ii) in the case of such a school that has a total enrollment of less than 100 students, permit the local educational agency to forego implementation of improvement activities required under this paragraph.

“(D) PUBLIC SCHOOL CHOICE.—

“(i) IN GENERAL.—A local educational agency may provide all students enrolled in a school

identified by the State for comprehensive support and improvement under subsection (c)(4)(D)(i) with the option to transfer to another public school served by the local educational agency, unless such an option is prohibited by State law.

“(ii) PRIORITY.—In providing students the option to transfer to another public school, the local educational agency shall give priority to the lowest-achieving children from low-income families, as determined by the local educational agency for the purposes of allocating funds to schools under section 1113(a)(3).

“(iii) TREATMENT.—A student who uses the option to transfer to another public school shall be enrolled in classes and other activities in the public school to which the student transfers in the same manner as all other students at the public school.

“(iv) SPECIAL RULE.—A local educational agency shall permit a student who transfers to another public school under this paragraph to remain in that school until the student has completed the highest grade in that school.

“(v) FUNDING FOR TRANSPORTATION.—A local educational agency may spend an amount equal to not more than 5 percent of its allocation under subpart 2 of this part to pay for the provision of transportation for students who transfer under this paragraph to the public schools to which the students transfer.

“(2) TARGETED SUPPORT AND IMPROVEMENT.—

“(A) IN GENERAL.—Each State educational agency receiving funds under this part shall, using the meaningful differentiation of schools described in subsection (c)(4)(C)—

“(i) notify each local educational agency in the State of any school served by the local educational agency in which any subgroup of students is consistently underperforming, as described in subsection (c)(4)(C)(iii); and

“(ii) ensure such local educational agency provides notification to such school with respect to which subgroup or subgroups of students in such school are consistently underperforming as described in subsection (c)(4)(C)(iii).

“(B) TARGETED SUPPORT AND IMPROVEMENT PLAN.—Each school receiving a notification described in this paragraph, in partnership with stakeholders (including principals and other school leaders, teachers and parents), shall develop and implement a school-level targeted support and improvement plan to improve student outcomes based on the indicators in the statewide accountability system established under subsection (c)(4), for each subgroup of students that was the subject of notification that—

“(i) is informed by all indicators described in subsection (c)(4)(B), including student performance against long-term goals;

“(ii) includes evidence-based interventions;

“(iii) is approved by the local educational agency prior to implementation of such plan;

“(iv) is monitored, upon submission and implementation, by the local educational agency; and

“(v) results in additional action following unsuccessful implementation of such plan after a number of years determined by the local educational agency.

“(C) ADDITIONAL TARGETED SUPPORT.—A plan described in subparagraph (B) that is developed and implemented in any school receiving a notification under this paragraph from the local educational agency in which any subgroup of students, on its own, would lead to identification under subsection (c)(4)(D)(i)(I) using the State’s methodology under subsection (c)(4)(D) shall also identify resource inequities (which may include a review of local educational agency and school level budgeting), to be addressed through implementation of such plan.

“(D) SPECIAL RULE.—The State educational agency, based on the State’s differentiation of schools under subsection (c)(4)(C) for school year 2017–2018, shall notify local educational agencies of any schools served by the local educational agency in which any subgroup of students, on its own, would lead to identification

under subsection (c)(4)(D)(i)(I) using the State's methodology under subsection (c)(4)(D), after which notification of such schools under this paragraph shall result from differentiation of schools pursuant to subsection (c)(4)(C)(iii).

“(3) CONTINUED SUPPORT FOR SCHOOL AND LOCAL EDUCATIONAL AGENCY IMPROVEMENT.—To ensure continued progress to improve student academic achievement and school success in the State, the State educational agency—

“(A) shall—

“(i) establish statewide exit criteria for—

“(I) schools identified by the State for comprehensive support and improvement under subsection (c)(4)(D)(i), which, if not satisfied within a State-determined number of years (not to exceed four years), shall result in more rigorous State-determined action, such as the implementation of interventions (which may include addressing school-level operations); and

“(II) schools described in paragraph (2)(C), which, if not satisfied within a State-determined number of years, shall, in the case of such schools receiving assistance under this part, result in identification of the school by the State for comprehensive support and improvement under subsection (c)(4)(D)(i)(III);

“(ii) periodically review resource allocation to support school improvement in each local educational agency in the State serving—

“(I) a significant number of schools identified for comprehensive support and improvement under subsection (c)(4)(D)(i); and

“(II) a significant number of schools implementing targeted support and improvement plans under paragraph (2); and

“(ii) consistent with State law, establish alternative evidence-based State determined strategies that can be used by local educational agencies to assist a school identified for comprehensive support and improvement under subsection (c)(4)(D)(i).

“(4) RULE OF CONSTRUCTION FOR COLLECTIVE BARGAINING.—Nothing in this subsection shall be construed to alter or otherwise affect the rights, remedies, and procedures afforded to school or local educational agency employees under Federal, State, or local laws (including applicable regulations or court orders) or under the terms of collective bargaining agreements, memoranda of understanding, or other agreements between such employers and their employees.

“(I) IN GENERAL.—Subject to subclause (II), a heavily impacted local educational agency that met the requirements of clause (i) for a fiscal year shall be ineligible to receive a basic support payment under subparagraph (A) if the agency fails to meet the requirements of clause (i) for a subsequent fiscal year, except that such agency shall continue to receive a basic support payment under this paragraph for the fiscal year for which the ineligibility determination is made.

“(II) LOSS OF ELIGIBILITY DUE TO FALLING BELOW 95 PERCENT OF THE AVERAGE TAX RATE FOR GENERAL FUND PURPOSES.—In the case of a heavily impacted local educational agency described in subclause (II) or (V) of clause (i) that

is eligible to receive a basic support payment under subparagraph (A), but that has had, for 2 consecutive fiscal years, a tax rate for general fund purposes that falls below 95 percent of the average tax rate for general fund purposes of comparable local educational agencies in the State, such agency shall be determined to be ineligible under clause (i) and ineligible to receive a basic support payment under subparagraph (A) for each fiscal year succeeding such 2 consecutive fiscal years for which the agency has such a tax rate for general fund purposes, and until the fiscal year for which the agency resumes such eligibility in accordance with clause (iii).

“(III) TAKEN OVER BY STATE BOARD OF EDUCATION.—In the case of a heavily impacted local educational agency that is eligible to receive a basic support payment under subparagraph (A), but that has been taken over by a State board of education in any 2 previous years, such agency shall be deemed to maintain heavily impacted status for 2 fiscal years following the date of enactment of the Every Student Succeeds Act.

“(iii) RESUMPTION OF ELIGIBILITY.—A heavily impacted local educational agency described in clause (i) that becomes ineligible under such clause for 1 or more fiscal years may resume eligibility for a basic support payment under this paragraph for a subsequent fiscal year only if the agency meets the requirements of clause (i) for that subsequent fiscal year, except that such agency shall not receive a basic support payment under this paragraph until the fiscal year succeeding the fiscal year for which the eligibility determination is made.

“(C) MAXIMUM AMOUNT FOR HEAVILY IMPACTED LOCAL EDUCATIONAL AGENCIES.—

“(i) IN GENERAL.—Except as provided in subparagraph (D), the maximum amount that a heavily impacted local educational agency is eligible to receive under this paragraph for any fiscal year is the sum of the total weighted student units, as computed under subsection (a)(2) and subject to clause (ii), multiplied by the greater of—

“(I) four-fifths of the average per-pupil expenditure of the State in which the local educational agency is located for the third fiscal year preceding the fiscal year for which the determination is made; or

“(II) four-fifths of the average per-pupil expenditure of all of the States for the third fiscal year preceding the fiscal year for which the determination is made.

“(ii) CALCULATION OF WEIGHTED STUDENT UNITS.—

“(I) IN GENERAL.—

“(aa) PERCENTAGE ENROLLMENT.—For a local educational agency in which 35 percent or more of the total student enrollment of the schools of the agency are children described in subparagraph (D) or (E) (or a combination thereof) of subsection (a)(1), and that has an enrollment of children described in subparagraph (A), (B), or (C) of such subsection equal to at least 10 percent of the agency’s total enrollment, the Secretary shall calculate the weighted student units of those children described in subparagraph (D) or (E) of such subsection by multiplying the number of such children by a factor of 0.55.

“(bb) EXCEPTION.—Notwithstanding item (aa), a local educational agency that received a payment under this paragraph for fiscal year 2013 shall not be required to have an enrollment of children described in subparagraph (A), (B), or (C) of subsection (a)(1) equal to at least 10 percent of the agency’s total enrollment and shall be eligible for the student weight as provided for in item (aa).

“(II) ENROLLMENT OF 100 OR FEWER CHILDREN.—For a local educational agency that has an enrollment of 100 or fewer children described in subsection (a)(1), the Secretary shall calculate the total number of weighted student units for purposes of subsection (a)(2) by multiplying the number of such children by a factor of 1.75.

“(III) ENROLLMENT OF MORE THAN 100 CHILDREN BUT LESS THAN 1000.—For a local educational agency that is not described under subparagraph (B)(i)(I) and has an enrollment of more than 100 but not more than 1,000 children described in subsection (a)(1), the Secretary shall calculate the total number of weighted student units for purposes of subsection (a)(2) by multiplying the number of such children by a factor of 1.25.

“(D) MAXIMUM AMOUNT FOR LARGE HEAVILY IMPACTED LOCAL EDUCATIONAL AGENCIES.—

“(i) IN GENERAL.—

“(I) FORMULA.—Subject to clause (ii), the maximum amount that a heavily impacted local educational agency described in subclause (I) is eligible to receive under this paragraph for any fiscal year shall be determined in accordance with the formula described in paragraph (1)(C).

“(II) HEAVILY IMPACTED LOCAL EDUCATIONAL AGENCY.—A heavily impacted local educational agency described in this subclause is a local educational agency that has a total student enrollment of not less than 25,000 students, of which not less than 50 percent are children described in subsection (a)(1) and not less than 5,000 of such children are children described in subparagraphs (A) and (B) of subsection (a)(1).

“(ii) FACTOR.—For purposes of calculating the maximum amount described in clause (i), the factor used in determining the weighted student units under subsection (a)(2) with respect to children described in subparagraphs (A) and (B) of subsection (a)(1) shall be 1.35.

“(E) DATA.—For purposes of providing assistance under this paragraph, the Secretary shall use student, revenue, expenditure, and tax data from the third fiscal year preceding the fiscal year for which the local educational agency is applying for assistance under this paragraph.

“(F) DETERMINATION OF AVERAGE TAX RATES FOR GENERAL FUND PURPOSES.—

“(i) IN GENERAL.—Except as provided in clause (ii), for the purpose of determining the average tax rates for general fund purposes for local educational agencies in a State under this paragraph, the Secretary shall use either—

“(I) the average tax rate for general fund purposes for comparable local educational agencies, as determined by the Secretary in regulations; or

“(II) the average tax rate of all the local educational agencies in the State.

“(ii) FISCAL YEARS 2010–2015.—

“(I) IN GENERAL.—For fiscal years 2010 through 2015, any local educational agency that was found ineligible to receive a payment under subparagraph (A) because the Secretary determined that it failed to meet the average tax rate requirement for general fund purposes in subparagraph (B)(i)(II)(cc), shall be considered to have met that requirement, if its State determined, through an alternate calculation of average tax rates for general fund purposes, that such local educational agency met that requirement.

“(II) SUBSEQUENT FISCAL YEARS AFTER 2015.—For any succeeding fiscal year after 2015, any local educational agency identified in subclause (I) may continue to have its State use that alternate methodology to calculate whether the average tax rate requirement for general fund purposes under subparagraph (B)(i)(II)(cc) is met.

“(III) AVAILABILITY OF FUNDS.—Notwithstanding any other provision of law limiting the period during which the Secretary may obligate funds appropriated for any fiscal year after 2012, the Secretary shall reserve a total of \$14,000,000 from funds that remain unobligated under this section from fiscal years 2015 or 2016 in order to make payments under this clause for fiscal years 2011 through 2014.

“(G) ELIGIBILITY FOR HEAVILY IMPACTED LOCAL EDUCATIONAL AGENCIES AFFECTED BY PRIVATIZATION OF MILITARY HOUSING.—

“(i) ELIGIBILITY.—For any fiscal year, a heavily impacted local educational agency that received a basic support payment under this para-

graph for the prior fiscal year, but is ineligible for such payment for the current fiscal year under subparagraph (B) due to the conversion of military housing units to private housing described in clause (iii), or as the direct result of base realignment and closure or modularization as determined by the Secretary of Defense and force structure change or force relocation, shall be deemed to meet the eligibility requirements under subparagraph (B) for the period during which the housing units are undergoing such conversion or during such time as activities associated with base closure and realignment, modularization, force structure change, or force relocation are ongoing.

“(ii) AMOUNT OF PAYMENT.—The amount of a payment to a heavily impacted local educational agency for a fiscal year by reason of the application of clause (i), and calculated in accordance with subparagraph (C) or (D), as the case may be, shall be based on the number of children in average daily attendance in the schools of such agency for the fiscal year and under the same provisions of subparagraph (C) or (D) under which the agency was paid during the prior fiscal year.

“(iii) CONVERSION OF MILITARY HOUSING UNITS TO PRIVATE HOUSING DESCRIBED.—For purposes of clause (i), ‘conversion of military housing units to private housing’ means the conversion of military housing units to private housing units pursuant to subchapter IV of chapter 169 of title 10, United States Code, or pursuant to any other related provision of law.”;

(C) in paragraph (3)—

(i) in subparagraph (B), by striking clause (iii) and inserting the following:

“(iii) In the case of a local educational agency providing a free public education to students enrolled in kindergarten through grade 12, that enrolls students described in subparagraphs (A), (B), and (D) of subsection (a)(1) only in grades 9 through 12, and that received a final payment for fiscal year 2009 calculated under section 8003(b)(3) (as such section was in effect on the day before the date of enactment of the Every Student Succeeds Act) for students in grades 9 through 12, the Secretary shall, in calculating the agency’s payment, consider only that portion of such agency’s total enrollment of students in grades 9 through 12 when calculating the percentage under clause (i)(I) and only that portion of the total current expenditures attributed to the operation of grades 9 through 12 in such agency when calculating the percentage under clause (i)(II).”;

(ii) in subparagraph (C), by striking “subparagraph (D) or (E) of paragraph (2), as the case may be” and inserting “subparagraph (C) or (D) of paragraph (2), as the case may be”; and

(iii) by striking subparagraph (D) and inserting the following:

“(D) RATABLE DISTRIBUTION.—For fiscal years described in subparagraph (A), for which the sums available exceed the amount required to pay each local educational agency 100 percent of its threshold payment, the Secretary shall distribute the excess sums to each eligible local educational agency that has not received its full amount computed under paragraphs (1) or (2) (as the case may be) by multiplying—

“(i) a percentage, the denominator of which is the difference between the full amount computed under paragraph (1) or (2) (as the case may be) for all local educational agencies and the amount of the threshold payment (as calculated under subparagraphs (B) and (C)) of all local educational agencies, and the numerator of which is the aggregate of the excess sums, by

“(ii) the difference between the full amount computed under paragraph (1) or (2) (as the case may be) for the agency and the amount of the threshold payment (as calculated under subparagraphs (B) or (C)) of the agency, except that no local educational agency shall receive more than 100 percent of the maximum payment calculated under subparagraph (C) or (D) of paragraph (2).

“(E) INSUFFICIENT PAYMENTS.—For each fiscal year described in subparagraph (A) for which the sums appropriated are insufficient to pay each local educational agency all of the local educational agency’s threshold payment described in subparagraph (B), the Secretary shall ratably reduce the payment to each local educational agency under this paragraph.

“(F) INCREASES.—

“(i) INCREASES BASED ON INSUFFICIENT FUNDS.—If additional funds become available under 7014(b) for making payments under paragraphs (1) and (2) and those funds are not sufficient to increase each local educational agency’s threshold payment above 100 percent of its threshold payment described in subparagraph (B), payments that were reduced under subparagraph (E) shall be increased by the Secretary on the same basis as such payments were reduced.

“(ii) INCREASES BASED ON SUFFICIENT FUNDS.—If additional funds become available under section 7014(b) for making payments under paragraphs (1) and (2) and those funds are sufficient to increase each local educational agency’s threshold payment above 100 percent of its threshold payment described in subparagraph (B), the payment for each local educational agency shall be 100 percent of its threshold payment. The Secretary shall then distribute the excess sums to each eligible local educational agency in accordance with subparagraph (D).

“(G) PROVISION OF TAX RATE AND RESULTING PERCENTAGE.—As soon as practicable following the payment of funds under paragraph (2) to an eligible local educational agency, the Secretary shall provide the local educational agency with a description of—

“(i) the tax rate of the local educational agency; and

“(ii) the percentage such tax rate represents of the average tax rate for general fund purposes of comparable local educational agencies in the State as determined under subclauses (II)(cc), III(aa), or (V)(bb) of paragraph (2)(B)(i) (as the case may be).”; and

“(aa) subparagraph (A), (B), (C), or (D) of subsection (a)(1); or

“(2) AMOUNT OF REDUCTION.—Subject to paragraph (3), a local educational agency described in paragraph (1) shall receive—

“(B) for the second year following such reduction, an amount that is not less than 85 percent of the total amount that the local educational agency received under subparagraph (A); and

“(C) for the third year following such reduction, an amount that is not less than 80 percent of the total amount that the local educational agency received under subparagraph (B).

“(3) SPECIAL RULE.—For any fiscal year for which a local educational agency would receive a payment under subsection (b) in excess of the amount determined under paragraph (2), the payment received by the local educational agency for such fiscal year shall be calculated under paragraph (1) or (2) of subsection (b).”; and

PART B—MISCELLANEOUS; OTHER LAWS

SEC. 9201. FINDINGS AND SENSE OF CONGRESS ON SEXUAL MISCONDUCT.

(a) FINDINGS.—Congress finds the following:

(1) There are significant anecdotal reports that some schools and local educational agencies have failed to properly report allegations of sexual misconduct by employees, contractors, or agents.

(2) Instead of reporting alleged sexual misconduct to the appropriate authorities, such as the police or child welfare services, reports suggest that some schools or local educational agencies have kept information on allegations of sexual misconduct private or have entered into confidentiality agreements with the suspected employee, contractor, or agent who agrees to terminate employment with or discontinue work for the school or local educational agency.

(3) The practice of withholding information on allegations of sexual misconduct can facilitate the exposure of other students in other jurisdictions to sexual misconduct.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) confidentiality agreements between local educational agencies or schools and child predators should be prohibited;

(2) local educational agencies or schools should not facilitate the transfer of child predators to other local educational agencies or schools; and

(3) States should require local educational agencies and schools to report any and all information regarding allegations of sexual misconduct to law enforcement and other appropriate authorities.

SEC. 9202. SENSE OF CONGRESS ON FIRST AMENDMENT RIGHTS.

It is the sense of Congress that a student, teacher, school administrator, or other school employee of an elementary school or secondary school retains the individual’s rights under the First Amendment to the Constitution of the United States during the school day or while on the grounds of an elementary school or secondary school.

SEC. 9203. PREVENTING IMPROPER USE OF TAXPAYER FUNDS.

To address the misuse of taxpayer funds, the Secretary of Education shall—

(1) require that each recipient of a grant or subgrant under the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6301 et seq.) display, in a public place, the hotline contact information of the Office of Inspector General of the Department of Education so that any individual who observes, detects, or suspects improper use of taxpayer funds can easily report such improper use;

(2) annually notify employees of the Department of Education of their responsibility to report fraud; and

(3) require any applicant—

(A) for a grant under such Act to provide an assurance to the Secretary that any information submitted when applying for such grant and responding to monitoring and compliance reviews is truthful and accurate; and

(B) for a subgrant under such Act to provide the assurance described in subparagraph (A) to the entity awarding the subgrant.

SEC. 9204. ACCOUNTABILITY TO TAXPAYERS THROUGH MONITORING AND OVERSIGHT.

To improve monitoring and oversight of taxpayer funds authorized for appropriation under the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6301 et seq.), and to deter and prohibit waste, fraud, and abuse with respect to such funds, the Secretary of Education shall—

(1) notify each recipient of a grant under such Act (and, if applicable, require the grantee to inform each subgrantee) of its responsibility to—

(A) comply with all monitoring requirements under the applicable program or programs; and

(B) monitor properly any subgrantee under the applicable program or programs;

(2) review and analyze the results of monitoring and compliance reviews—

(A) to understand trends and identify common issues; and

(B) to issue guidance to help grantees address such issues before the loss or misuse of taxpayer funding occurs;

(3) publicly report the work undertaken by the Secretary to prevent fraud, waste, and abuse with respect to such taxpayer funds; and

(4) work with the Office of Inspector General of the Department of Education, as needed, to help ensure that employees of the Department understand how to adequately monitor grantees and to help grantees adequately monitor any subgrantees.

SEC. 9205. REPORT ON DEPARTMENT ACTIONS TO ADDRESS OFFICE OF INSPECTOR GENERAL REPORTS.

(a) IN GENERAL.—Not later than 6 months after the date of enactment of this Act, the Secretary of Education shall prepare and submit to the Committee on Health, Education, Labor, and Pensions of the Senate, the Committee on Education and the Workforce of the House of Representatives, and the public through the website of the Department of Education, a report containing an update on the Department’s implementation of recommendations contained in reports from the Office of Inspector General of the Department of Education.

(b) CONTENTS.—The report under subsection (a) shall include—

(1) a general review of the work of the Department of Education to implement or address findings contained in reports from the Office of Inspector General of the Department of Education to improve monitoring and oversight of Federal programs, including—

(A) the March 9, 2010, final management information report of the Office of Inspector General of the Department of Education addressing oversight by local educational agencies and authorized public chartering agencies; and

(B) the September 2012 report of the Office of Inspector General of the Department of Education entitled “The Office of Innovation and Improvement’s Oversight and Monitoring of the Charter Schools Program’s Planning and Implementation Grants Final Audit Report”;

(2) a description of the actions the Department of Education has taken to address the concerns described in reports of the Office of Inspector General of the Department of Education, including the reports described in paragraph (1).

SEC. 9206. POSTHUMOUS PARDON.

(a) FINDINGS.—Congress finds the following:

(1) John Arthur “Jack” Johnson was a flamboyant, defiant, and controversial figure in the history of the United States who challenged racial biases.

(2) Jack Johnson was born in Galveston, Texas, in 1878 to parents who were former slaves.

(3) Jack Johnson became a professional boxer and traveled throughout the United States, fighting White and African-American heavyweights.

(4) After being denied (on purely racial grounds) the opportunity to fight 2 White champions, in 1908, Jack Johnson was granted an opportunity by an Australian promoter to fight the reigning White title-holder, Tommy Burns.

(5) Jack Johnson defeated Tommy Burns to become the first African-American to hold the title of Heavyweight Champion of the World.

(6) The victory by Jack Johnson over Tommy Burns prompted a search for a White boxer who could beat Jack Johnson, a recruitment effort that was dubbed the search for the "great white hope".

(7) In 1910, a White former champion named Jim Jeffries left retirement to fight Jack Johnson in Reno, Nevada.

(8) Jim Jeffries lost to Jack Johnson in what was deemed the "Battle of the Century".

(9) The defeat of Jim Jeffries by Jack Johnson led to rioting, aggression against African-Americans, and the racially-motivated murder of African-Americans throughout the United States.

(10) The relationships of Jack Johnson with White women compounded the resentment felt toward him by many Whites.

(11) Between 1901 and 1910, 754 African-Americans were lynched, some simply for being "too familiar" with White women.

(12) In 1910, Congress passed the Act of June 25, 1910 (commonly known as the "White Slave Traffic Act" or the "Mann Act") (18 U.S.C. 2421 et seq.), which outlawed the transportation of women in interstate or foreign commerce "for the purpose of prostitution or debauchery, or for any other immoral purpose".

(13) In October 1912, Jack Johnson became involved with a White woman whose mother disapproved of their relationship and sought action from the Department of Justice, claiming that Jack Johnson had abducted her daughter.

(14) Jack Johnson was arrested by Federal marshals on October 18, 1912, for transporting the woman across State lines for an "immoral purpose" in violation of the Mann Act.

(15) The Mann Act charges against Jack Johnson were dropped when the woman refused to cooperate with Federal authorities, and then married Jack Johnson.

(16) Federal authorities persisted and summoned a White woman named Belle Schreiber, who testified that Jack Johnson had transported her across State lines for the purpose of "prostitution and debauchery".

(17) In 1913, Jack Johnson was convicted of violating the Mann Act and sentenced to 1 year and 1 day in Federal prison.

(18) Jack Johnson fled the United States to Canada and various European and South American countries.

(19) Jack Johnson lost the Heavyweight Championship title to Jess Willard in Cuba in 1915.

(20) Jack Johnson returned to the United States in July 1920, surrendered to authorities, and served nearly a year in the Federal penitentiary in Leavenworth, Kansas.

(21) Jack Johnson subsequently fought in boxing matches, but never regained the Heavyweight Championship title.

(22) Jack Johnson served the United States during World War II by encouraging citizens to buy war bonds and participating in exhibition boxing matches to promote the war bond cause.

(23) Jack Johnson died in an automobile accident in 1946.

(24) In 1954, Jack Johnson was inducted into the Boxing Hall of Fame.

(25) Senate Concurrent Resolution 29, 111th Congress, agreed to July 29, 2009, expressed the sense of the 111th Congress that Jack Johnson should receive a posthumous pardon for his racially-motivated 1913 conviction.

(b) RECOMMENDATIONS.—It remains the sense of Congress that Jack Johnson should receive a posthumous pardon—

(1) to expunge a racially-motivated abuse of the prosecutorial authority of the Federal Government from the annals of criminal justice in the United States; and

(2) in recognition of the athletic and cultural contributions of Jack Johnson to society.

SEC. 9211. STUDY ON THE TITLE I FORMULA.

(a) FINDINGS.—Congress finds the following:

(1) Part A of title I of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311 et seq.) provides funding to local educational agencies through four separate formulas that have been added to the law over time, and which have “distinct allocation patterns, providing varying shares of allocated funds to different types of local educational agencies or States,” according to a 2015 report from the Congressional Research Service.

(2) Minimal effort has been made by the Federal Government to determine if the four formulas are adequately delivering funds to local educational agencies with the highest district-wide poverty averages.

(3) The formulas for distributing Targeted Grants and Education Finance Incentive grants use two weighting systems, one based on the percentage of children included in the determination of grants to local educational agencies (percentage weighting), and another based on the absolute number of such children (number weighting). Both weighting systems have five quintiles with a roughly equal number of children in each quintile. Whichever of these weighting systems results in the highest total weighted formula child count for a local educational agency is the weighting system used for that agency in the final allocation of Targeted and Education Finance Incentive Grant funds.

(4) The Congressional Research Service has also said the number weighting alternative is generally more favorable to large local educational agencies with much larger geographic boundaries and larger counts of eligible children than smaller local educational agencies with smaller counts, but potentially higher percentages, of eligible children, because large local educational agencies have many more children in the higher weighted quintiles.

(5) In local educational agencies that are classified by the National Center for Education Statistics as “Large City”, 47 percent of all students attend schools with 75 percent or higher poverty.

(b) STUDY.—

(1) IN GENERAL.—Not later than 18 months after the date of enactment of this Act, the Director of the Institute of Education Sciences shall complete a study on the effectiveness of the four part A of title I formulas, described in subsection (a), to deliver funds to the most economically disadvantaged communities.

(2) CONTENTS.—The study described in paragraph (1) shall include—

(A) an analysis of the distribution of part A of title I funds under the four formulas;

(B) an analysis of how part A of title I funds are distributed among local educational agencies in each of the 12 locale types classified by the National Center on Education Statistics.

(C) the extent to which the four formulas unduly benefit or unduly disadvantage any of the local educational agencies described in subparagraph (B);

(D) the extent to which the four formulas unduly benefit or unduly disadvantage high-poverty eligible school attendance areas in the local educational agencies described in subparagraph (B);

(E) the extent to which the four formulas unduly benefit or unduly disadvantage lower population local educational agencies with relatively high percentages of districtwide poverty;

(F) the impact of number weighting and percentage weighting in the formulas for distributing Targeted Grants and Education Finance Incentive Grants on each of the local educational agencies described in subparagraph (B);

(G) the impact of number weighting and percentage weighting on targeting part A of title I funds to eligible school attendance areas with the highest concentrations of poverty in local educational agencies described in subparagraph (B), and local educational agencies described in subparagraph (B) with higher percentages of districtwide poverty;

(H) an analysis of other studies and reports produced by public and non-public entities examining the distribution of part A of title I funds under the four formulas; and

(I) recommendations, as appropriate, for amending or consolidating the formulas to better target part A of title I funds to the most economically disadvantaged communities and most economically disadvantaged eligible school attendance areas.

(C) Exception for Advanced Mathematics in Middle School. —For purposes of implementing subparagraph (B)(v)(I)(aa) for grade 8 with respect to mathematics, the State may exempt any 8th grade student from such assessment if—

(i) such student takes advanced mathematics during such student’s 8th grade year and takes the end-of-course assessment the State typically administers to meet the requirements of subparagraph (B)(v)(I)(bb) in that subject;

(ii) such student’s achievement on such end-of-course assessment shall be used for purposes of subsection [(c)(2)(B)(i)], in lieu of their achievement on the mathematics assessment required in subparagraph (B)(v)(I)(aa), and such student shall be counted as participating in the assessment for purposes of subsection [(c)(4)(B)(vi)]; and

(iii) such student takes an additional mathematics assessment in high school, which may be any end-of-course assessment in advanced mathematics that is more advanced than the assessment taken by such student to fulfill the requirement of subclause (I), to meet the requirements of subparagraph (B)(v)(I)(bb), which shall be used to measure such student’s academic achievement for purposes of subsection [(c)(2)(B)(i)].

119. The Senate bill and House amendment have different subparagraph headings.

HR/SR with an amendment to strike subparagraph (D) and replace with the following:

(D) Alternate assessments for students with the most significant cognitive disabilities.—

(i) Alternate assessments aligned with alternate academic achievement standards.—A State may provide for alternate assessments aligned with the challenging State academic content standards and alternate academic achievement standards described in paragraph (1)(E) for students with the most significant cognitive disabilities, if the State—

(I) consistent with clause (ii), ensures that, for each subject, the total number of students assessed in such subject using the alternate assessments does not exceed 1 percent of the total number of all students in the State who are assessed in such subject;

(II) ensures that the parents of such students are clearly informed, as part of the process for developing the Individualized Education Program (as defined in section 614(d)(1)(A) of the Individuals with Disabilities Education Act (20 U.S.C. 1414(d)(1)(A))), that—

(aa) their child’s academic achievement will be measured against such alternate standards; and

(bb) how participation in such assessments may delay or otherwise affect the student from completing the requirements for a regular high school diploma;

(III) promotes, consistent with the Individuals with Disabilities Education Act, the involvement and progress of students with the most significant cognitive disabilities in the general education curriculum;

(IV) describes in the State plan the steps the State has taken to incorporate universal design for learning, to the extent feasible, in alternate assessments;

(V) describes in the State plan how that general and special education teachers and other appropriate staff know how to administer the alternate assessments, and make appropriate use of accommodations for children with disabilities on all assessments required under this paragraph;

(VI) develops, disseminates information on, and promotes the use of appropriate accommodations to increase the number of students with significant cognitive disabilities participating in academic instruction and assessments and increase the number of students with significant cognitive disabilities who are tested against challenging State academic achievement standards for the grade level in which a student is enrolled; and

(VII) does not preclude a student with the most significant cognitive disabilities who takes an alternate assessment based on alternate academic achievement standards from attempting to complete the requirements for a regular high school diploma.

(ii) Special rules.—

(I) Responsibility under idea.—Subject to the authority and requirements for the individualized education program team for a child with a disability under section 614(d)(1)(A)(i)(VI)(bb) of the Individuals with Disabilities Education Act, such team shall, consistent with the guidelines established by the State and required under section

612(a)(16)(C) of the Individuals with Disabilities Education Act and clause (i)(II) of this subparagraph, determine when a child with a significant cognitive disability shall participate in the alternate assessment aligned to the alternate academic achievement standards.

(II) Prohibition on local cap.—Nothing in this subparagraph shall be construed to permit the Secretary or a State educational agency to impose on any local educational agency a cap on the percentage of students administered the alternate assessment under this subparagraph, except that a local educational agency exceeding the cap applied to the state under clause (i)(I) shall submit information to the State educational agency justifying the need to exceed such cap.

(III) State support.—A State shall provide appropriate oversight, as determined by the State, of any local educational agency that must submit information to the State under subclause (II).

(IV) Waiver authority.—This subparagraph shall be subject to the Secretary's waiver authority under section [8XXX] of this Act.

120. The Senate bill and House amendment both include a requirement for alignment of the alternate assessment with the State standards. However, the Senate bill, but not the House amendment, clarifies the alternate assessment must be aligned with both the same content standards developed for all students and the alternate academic achievement standards developed for students with the most significant cognitive disabilities.

See note 119.

121. The Senate bill, but not the House amendment, sets an upper limit for the number of children who can be assessed in each subject using the alternate assessment at one percent of the total number of students in the State who are assessed in that subject.

See note 119.

122. The Senate bill and House amendment include similar language related to establishing and monitoring guidelines for individualized education program teams to use when determining whether a child's significant cognitive disability justifies using the alternate assessment.

See note 119.

123. The Senate bill, but not the House amendment, requires that parents are involved in the decision to use the alternate assessment for their child, as required by the Individuals with Disabilities Education Act.

See note 119.

124. The House amendment, but not the Senate bill, include a requirement that parents are informed that their child's academic achievement will be measured against alternate standards and whether participation in the alternate assessment will preclude the student from completing the requirements for a high school diploma.

See note 119.

125. The Senate bill, but not the House amendment, includes requirements on making progress in the general curriculum. The House amendment, but not the Senate bill, requires the students are included in the general curriculum.

See note 119.

126. The Senate bill, but not the House amendment, requires a state plan description on ensuring access.

See note 119.

127. The Senate bill, but not the House amendment, requires the State to include a description of the steps the State has taken to incorporate universal design for learning in the alternate assessment.

See note 119.

128. The Senate bill and House amendment both require that teachers and other appropriate staff know how to administer assess-

ments and make appropriate use of accommodations. The Senate bill extends this requirement to all assessments, whereas the House amendment extends this requirement to the alternate assessment only.

See note 119.

129. The Senate bill and House amendment both include a requirement to develop, disseminate information about, and promote the use of accommodation. The Senate bill and House amendment both specify these accommodations should increase the number of students tested against the State academic achievement standards. The House amendment, but not the Senate bill, clarifies these standards should be for the grade in which the student is enrolled. The Senate bill, but not the House amendment, specifies these accommodations should also promote participation in academic instruction and requires the State to describe in their State plan how appropriate accommodations will be provided.

See note 119.

130. The Senate bill and House amendment have a similar requirement about students who are assessed using the alternate assessment not being precluded from attempting to complete a high school diploma, but the House amendment refers to a "secondary school diploma". The House amendment, but not the Senate bill, clarifies that a State determines the specific requirements for a diploma.

See note 119.

131. The Senate bill, but not the House amendment, includes a limitation on including the 1 percent of students tested against the alternate assessment in the State accountability system.

See note 119.

132. The Senate bill, but not the House amendment, includes language on State authority.

HR

133. The Senate bill requires each State plan to identify the languages that are "present to a significant extent" in the population, while the House amendment requires identification of languages that are "present".

HR

134. The House amendment, but not the Senate bill, includes language on Secretary assistance upon a State's request. The Senate bill includes this provision as subparagraph (F) and the House amendment includes it as subparagraph (E).

SR

135. The Senate bill and House amendment have different requirements for English language proficiency assessments.

SR

136. The House amendment, but not the Senate bill, includes this provision on locally designed assessment systems.

SR with amendment to strike (G) and replace with the following:

(G) **LOCALLY-SELECTED ASSESSMENT.**—

(i) **IN GENERAL.**—Nothing in this paragraph shall be construed to prohibit a local educational agency from administering a locally-selected assessment in lieu of the State-designed academic assessment under subclause (I)(bb) and subclause (II)(cc) of clause (v) of subparagraph (B), if the local educational agency selects a nationally-recognized high school academic assessment that has been approved for use by the state as described in clauses (iii) or (iv).

(ii) **STATE TECHNICAL CRITERIA.**—The State educational agency, in order to allow for State approval of nationally-recognized high school academic assessments that are available for local selection, shall establish technical criteria to determine if any such assessment meets the requirements of clause (v).

(iii) **STATE APPROVAL.**—If a State educational agency chooses to make a nationally-recognized high school assessment available for local selection, such agency shall—

(I) conduct a review of each assessment to determine if such assessment meets or exceeds such technical criteria established by the state under clause (ii);

(II) submit evidence in accordance with section 1111(a)(3) that demonstrates such assessment meets the requirements of clause (v) of this paragraph; and

(III) after fulfilling the requirements of subclause (I) and subclause (II), approve such assessment for selection and use by any local educational agency that requests to use such assessment consistent with clause (i).

(iv) **LOCAL EDUCATIONAL AGENCY OPTION.**—

(I) if a local educational agency chooses to submit a nationally-recognized high school academic assessment to the State educational agency, subject to the approval process described in subclause (I) and subclause (II) of clause (iii) to determine if such assessment fulfills the requirements of clause (v), the State educational agency may approve the use of such assessment consistent with clause (i); and

(II) upon such approval, the State educational agency shall approve the use of such assessment in any other local educational agency in the State that subsequently requests to use such assessment without repeating the process described in subclause (I) and subclause (II) of clause (iii).

(v) **REQUIREMENTS.**—in order to receive approval from the State educational agency, such locally-selected assessments shall—

(I) be aligned to the State's academic content standards under section 1111(b)(1), address the depth and breadth of such standards, and be equivalent in their content coverage, difficulty, and quality to the State-designed assessments, and may be more rigorous in their content coverage and difficulty;

(II) provide comparable, valid, and reliable data on academic achievement, as compared to the State-designed assessments, for all students and for each subgroup of students described in subsection (c)(2), with results expressed in terms consistent with the State's academic achievement standards described in subsection (b)(1), among all local educational agencies within the State;

(III) meet the requirements for the assessments under subparagraph (B), including technical criteria, except the requirement under clause (ii) of such subparagraph; and

(IV) provide unbiased, rational, and consistent differentiation between schools within the State to meet the requirements of section 1111(c).

(iv) **PARENTAL NOTIFICATION.**—A local educational agency shall notify parents—

(I) of its request to the State educational agency for approval to administer a locally selected assessment; and

(II) upon approval, and at the beginning of each subsequent school year during which the locally selected assessment will be implemented, that the local educational agency will be administering a different assessment than the State-designed assessments under subclause (I)(bb) and subclause (II)(cc) of clause (v) of subparagraph (B).

Report language: "It is the intent of the Conferees to allow flexibility for States and local educational agencies to select and use any nationally-recognized high school assessment that is approved for selection after meeting the requirements of this paragraph. It is the intent of the Conferees that existing assessments already widely recognized as validly measuring student performance, such

as ACT or SAT exams, may, subject to approval described in this subparagraph, be selected and used."

137. The Senate bill, but not the House amendment, includes this deferral language.

HR

138. The Senate bill and House amendment include similar rules of construction regarding use of assessments for student promotion or graduation. The House amendment includes this as a section 1111(k).

SR

139. The Senate bill and House amendment have different language on computer adaptive assessments; in addition, the Senate bill includes this as subparagraph (J) and the House amendment includes it as subparagraph (F).

HR/SR with an amendment to strike and replace with the following:

[J/F] ADAPTIVE ASSESSMENTS.—

(i) IN GENERAL.—Subject to clause (ii), a State retains the right to develop and administer computer adaptive assessments as the assessments described in this paragraph, as long as the computer adaptive assessments meet the requirements of this paragraph, except that—

(I) subparagraph [(B)(ii)] shall not be interpreted to require that all students taking the computer adaptive assessment be administered the same assessment items; and

(II) such assessment—

(aa) shall measure, at a minimum, each student's academic proficiency against the State's academic standards for the student's grade level and growth toward such standards; and

(bb) may measure the student's level of academic proficiency and growth using items above or below the student's grade level, including for use as part of a State's accountability system under paragraph (3).

Report Language: "It is the Conferees' intent that adaptive assessments may use items above or below the student's grade level, but, for purposes of determining and reporting overall proficiency in the accountability system, the adaptive assessment must measure academic proficiency within a student's enrolled grade level academic standards."

140. The Senate bill, but not the House amendment, contains a provision describing the applicability of computer adaptive assessments for students with the most significant cognitive disabilities.

HR/SR with an amendment to read as follows:

(ii) students with the most significant cognitive disabilities and english learners.—In developing and administering computer adaptive assessments.—

(I) as the assessments allowed under subparagraphs (D), a State shall ensure that such computer adaptive assessments—

(aa) meet the requirements of this paragraph, including subparagraph (D), except such assessments shall not be required to meet the requirements of clause (i)(II); and

(bb) assess the student's academic achievement in order to measure, in the subject being assessed, whether the student is performing at the student's grade level.

(II) as the assessments described under subparagraph (G), a State shall ensure that such computer adaptive assessments—

(aa) meet the requirements of this paragraph, including subparagraph (G), except such assessment shall not be required to meet the requirements of clause (i)(II); and

(bb) assess the student's language proficiency in order to measure the student's acquisition of English.

141. The Senate bill, but not the House amendment, includes this language on parent and guardian rights.

HR with an amendment to strike "part" and insert "paragraph" and strike "state-wide"

142. The Senate bill, but not the House amendment, includes this provision on assessment time.

SR with an amendment to insert the following at the end of section 1111(b)(2):

() LIMITATION ON ASSESSMENT TIME.—Subject to Federal or State requirements related to assessments, evaluations, and accommodations, each State may, at the sole discretion of such State, set a target limit on the aggregate amount of time devoted to the administration of assessments for each grade, expressed as a percentage of annual instructional hours.

Report Language: "It is the Conferees' intent that nothing in the language allowing a State to set a target limit on time spent on assessments shall ever be construed to mandate that a State set such a target limit. Setting a target limit will always be a choice the State makes. Additionally, the Conferees intend that the target limit set include assessments adopted pursuant to this subsection, other assessments required by the State, and assessments required district-wide by the local educational agency."

143. The Senate bill refers to "System" while the House amendment refers to "Systems" in the paragraph heading.

HR/SR with an amendment to strike paragraph (3) and insert the following:

(C) STATEWIDE ACCOUNTABILITY SYSTEM.—

(1) IN GENERAL.—Each state plan shall describe a Statewide Accountability System that complies with the requirements of this subsection and subsection (d).

(2) SUBGROUP OF STUDENTS.—In this subsection, the term 'subgroup of students' means—

(A) economically disadvantaged students;

(B) students from major racial and ethnic groups;

(C) children with disabilities; and

(D) English learners.

(3) MINIMUM NUMBER OF STUDENTS.—Each State shall describe—

(A) with respect to any provisions under this part that require disaggregation of information by each subgroup of students, as defined in paragraph (2)—

(i) the minimum number of students that the State determines are necessary to be included to carry out such requirements and how that number is statistically sound, which shall be the same State-determined number for all students and for each subgroup of students in the state;

(ii) how such minimum number of students was determined by the State, including how the State collaborated with teachers, principals, other school leaders, parents, and other stakeholders when determining such minimum number; and

(iii) how the State ensures that such minimum number does not reveal any personally identifiable information;

(4) DESCRIPTION OF SYSTEM.—The statewide accountability system described in paragraph (1)

(A) shall be based on the challenging State academic standards described in subsection (b)(1)

(C) to improve student academic achievement and school success. In designing such system to meet the requirements of this part, the State shall—

(A) Establish ambitious State-designed long term goals, which shall include measurements of interim progress toward meeting such goals—

(i) for all students and separately for each subgroup of students in the State—

(I) for, at a minimum, improved—

(aa) academic achievement, as measured by proficiency on the annual assessments required under subsection (b)(2)(B)(v)(I); and

(bb) high school graduation rates, including—

(AA) the 4-year adjusted cohort graduation rate; and

(BB) at the State's discretion, the extended-year adjusted cohort graduation rate, except that the state shall set a more rigorous long term goal for such graduation rate;

(II) for which the term set by the state in designing such goals is the same multi-year length of time for all students and for each subgroup of students in the state; and

(III) that, for subgroups of students who are behind on the measures described in clause (i), take into account the improvement necessary on such measures to make significant progress in closing statewide proficiency and graduation rate gaps; and

(ii) for English learners, increases in the percentage of students making progress in achieving English language proficiency, as defined by the State, as measured by the assessments described in subsection (b)(2)(G), within a State-determined timeline.

(B) Annually measure, for all students and separately for each subgroup of students, except that the indicator described in clause

(iv) shall be measured only for the subgroup of students described in paragraph (2)(D), indicators of—

(i) For all public schools, academic achievement, as measured by proficiency, and at the State's discretion, student growth for high schools, on the annual assessments required under subsection (b)(2)(B)(v)(I), based on the long term goals established pursuant to subparagraph (A);

(ii) For elementary schools and secondary schools that are not high schools, a measure of student growth, if determined appropriate by the state, or another valid and reliable statewide academic indicator that allows for meaningful differentiation in school performance;

(iii) For high schools, the 4 year adjusted cohort graduation rate, and, at the State's discretion, the extended-year adjusted cohort graduation rate, based on State-designed long term goals established pursuant to subparagraph (A);

(iv) English language proficiency for all English learners in each of the grades 3 through 8 and in the grade for which such English learners are otherwise assessed under paragraph (2)(B)(v)(I) during the grade 9 through 12 period, which may include measures of student growth toward such proficiency; and

(v) For all schools, not less than one indicator of school quality or student success that allows for meaningful differentiation in school performance and is valid, reliable, comparable, and statewide, which may include measures of—

(I) Student engagement;

(II) Educator engagement;

(III) Student access to and completion of advanced coursework;

(IV) Postsecondary readiness;

(V) School climate and safety; and

(VI) any other indicator the state chooses that meets the requirements of this clause; and

(vi) for all schools, the participation of at least 95 percent of all students and at least 95 percent of students in each subgroup of students in the assessments required under subsection (b)(2).

(C) Establish a system of annually meaningfully differentiating all public schools in the State, which shall—

(i) be based on all indicators in the State's accountability system under subparagraph (B), for all students and for each of subgroup of students, consistent with the requirements of such subparagraph;

(ii) afford substantial weight to each of the indicators described in clauses (i) through (iv) of subparagraph (B), and in the aggregate greater weight than is afforded to the indicator or indicators utilized by the state and described in subparagraph (B)(v), in the aggregate, with the weight given to the indicator described in clause (vi) of such subparagraph determined solely by the State; and

(iii) include differentiation of any school in which any subgroup of students is consistently underperforming, as determined by the State, based on all indicators under subparagraph (B) and pursuant to the system established under this subparagraph; and

(D) Based on the system of meaningful differentiation described in subparagraph (C), establish a State-determined methodology to identify—

(i) at least once every three years, one statewide category of schools for comprehensive support and improvement as described in subsection (d)(1), which shall include—

(I) at least the lowest-performing 5% of all Title I schools in the state;

(II) all high schools in the state failing to graduate one third or more of their students; and

(III) Schools described under subsection (d)(3)(A)(i)(II); and

(ii) at the discretion of the state, additional statewide categories of schools.

(E) SPECIAL RULES.—

(i) The State educational agency shall begin identification of schools described in subparagraph (D) beginning with the 2017–2018 academic year; and

(ii) For any student who has not attended the same school within a local educational agency for at least half of the academic year, the performance of any such student on the indicators described in clause (i) through clause (v) of subsection (c)(4)(B) may not be used in the system of meaningful differentiation of all public schools as described in subsection (c)(4)(C), except that such performance of any such student shall be used for the purpose of reporting on the State and local educational agency report cards required under subsection (h).

Report Language: “The Conferees intend that States may have opt out policies if they so choose, but any student that opts out shall be included in the denominator for the purposes of calculating the 95 percent participation rate requirement and for measuring, calculating, and reporting proficiency for the purpose of accountability under section 1111 (c) and (d). The State will make the decision regarding the consequences for a school that fails to comply with the requirement described in subparagraph (E).”

(d) SCHOOL SUPPORT AND IMPROVEMENT ACTIVITIES.—

(1) COMPREHENSIVE SUPPORT AND IMPROVEMENT.—

(A) IN GENERAL.—Each State educational agency receiving funds under this part shall notify each local educational agency in the state of any school within the local educational agency that is identified for comprehensive support and improvement under subsection (c)(4)(D)(i).

(B) LOCAL EDUCATIONAL AGENCY ACTION.—Upon receiving such information from the State, the local educational agency shall, for each school identified by the state and in partnership with stakeholders (including principals and other school leaders, teachers and parents), locally develop and implement a comprehensive support and improvement plan for the school to improve student outcomes based on all indicators in the statewide accountability system established under subsection (c)(4), that—

(i) is informed by all indicators in the statewide accountability system described in

subsection (c)(4)(B), including student performance against State-determined long term goals;

(ii) includes evidence-based interventions;

(iii) is based on a school-level needs assessment;

(iv) identifies resource inequities, which may include a review of local educational agency and school level budgeting, to be addressed through implementation;

(v) is approved by the school, local educational agency, and State educational agency; and

(vi) upon approval and implementation, is monitored and periodically reviewed by the State educational agency.

(C) STATE EDUCATIONAL AGENCY DISCRETION.—The State educational agency may—

(i) permit differentiated improvement activities that utilize evidence-based interventions in any high schools identified pursuant to subsection (c)(4)(D)(i)(II) that predominantly serve students—

(I) returning to education after having exited secondary school without a regular high school diploma; or

(II) who, based on their grade or age, are significantly off track to accumulate sufficient academic credits to meet high school graduation requirements, as established by the State; and

(ii) for any high school in the State identified pursuant to subsection (c)(4)(D)(i)(II) that has a total enrollment of less than 100 students, permit the local educational agency to forgo implementation of improvement activities required under this paragraph.

(D) PUBLIC SCHOOL CHOICE.—

(i) IN GENERAL.—A local educational agency may provide all students enrolled in a school identified by the State for comprehensive support and improvement pursuant to subsection (c)(4)(D)(i) with the option to transfer to another public school served by the local educational agency, unless such an option is prohibited by State law.

(ii) PRIORITY.—In providing students the option to transfer to another public school, the local educational agency shall give priority to the lowest-achieving children from low-income families, as determined by the local educational agency for the purposes of allocating funds to schools under section 1113(a)(3).

(iii) TREATMENT.—Students who use the option to transfer to another public school shall be enrolled in classes and other activities in the public school to which the students transfer in the same manner as all other children at the public school.

(iv) SPECIAL RULE.—A local educational agency shall permit a child who transfers to another public school under this paragraph to remain in that school until the child has completed the highest grade in that school.

(v) FUNDING FOR TRANSPORTATION.—A local educational agency may spend an amount equal to not more than 5 percent of its allocation under subpart 2 to pay for the provision of transportation for students who transfer under this paragraph to the public schools to which the students transfer.

(2) TARGETED SUPPORT AND IMPROVEMENT.—

(A) IN GENERAL.—Each State educational agency receiving funds under this part shall, using the meaningful differentiation of schools described in subsection (c)(4)(C), notify each local educational agency in the state of any school within the local educational agency in which any subgroup of students is consistently underperforming as described in paragraph (4)(C)(iii) of such subsection, and such local educational agencies shall provide notification to any such school.

(B) TARGETED SUPPORT AND IMPROVEMENT PLAN.—Each school receiving a notification described in this paragraph must, in partnership with stakeholders including principals

and other school leaders, teachers and parents, develop and implement a school-level targeted support and improvement plan to improve student outcomes based on the indicators in the statewide accountability system established under subsection (c)(4), for the one or more student subgroup that caused the notification that—

(i) is informed by all indicators in the statewide accountability system described in subsection (c)(4)(B), including student performance against long term goals;

(ii) includes evidence-based interventions;

(iii) is approved by the local educational agency prior to implementation; and

(iv) is monitored, upon submission and implementation, by the local educational agency; and

(v) result in additional action following unsuccessful implementation of such plan after a number of years determined by the local educational agency.

(C) ADDITIONAL TARGETED SUPPORT.—Plans described in subparagraph (B) that are developed and implemented in any school receiving a notification from the local educational agency in which the performance of any subgroup of students would lead to identification for comprehensive support and improvement using the State’s methodology under subsection (c)(4)(D) shall also identify resource inequities, which may include a review of local educational agency and school level budgeting, to be addressed through implementation of such plan;

(D) SPECIAL RULE.—The State educational agency shall begin annual differentiation of and notification to local educational agencies of any schools described in subparagraph (C) beginning with the 2017–2018 academic year.

(3) CONTINUED SUPPORT FOR SCHOOL AND LOCAL EDUCATIONAL AGENCY IMPROVEMENTS.—To ensure continued progress to improve student academic achievement and school success in the state, the State educational agency—

(A) shall—

(i) establish statewide exit criteria for—

(I) schools identified by the state for comprehensive support and improvement under subsection (c)(4)(D)(i), which, if not satisfied within a state-determined number of years (not to exceed four years), shall result in more rigorous state-determined action, such as the implementation of interventions which may include addressing school-level operations; and

(II) schools described in paragraph (2)(C), which, if not satisfied within a state-determined number of years, shall, in the case of such schools receiving assistance under this part, result in identification of the school by the state for comprehensive support and improvement under subsection (c)(4)(D)(i)(III);

(ii) periodically review resource allocation to support school improvement in local educational agencies in the state with a significant number of schools identified for comprehensive support and improvement under subsection (c)(4)(D)(i) and schools implementing targeted support and improvement plans under paragraph (2); and

(iii) provide technical assistance to local educational agencies in the state with a significant number of schools implementing comprehensive support and improvement plans under paragraph (1) or schools implementing targeted support and improvement plans under paragraph (2); and

(B) may—

(i) take action to initiate additional improvement in any local educational agency with a significant number of schools that are consistently identified by the state for comprehensive support and improvement under subsection (c)(4)(D)(i) and not meeting exit

criteria established by the state under subparagraph (A)(i)(I) and a significant number of schools implementing targeted support and improvement plans under paragraph (2); and

(ii) consistent with State law, establish alternative evidence-based State determined strategies that can be used by local educational agencies to assist a school identified for comprehensive improvement under subsection (c)(4)(D)(i).

(4) **RULE OF CONSTRUCTION FOR COLLECTIVE BARGAINING.**—Nothing in this subsection shall be construed to alter or otherwise affect the rights, remedies, and procedures afforded to school or local educational agency employees under Federal, State, or local laws (including applicable regulations or court orders) or under the terms of collective bargaining agreements, memoranda of understanding, or other agreements between such employers and their employees.

Report Language: “The Conferees intend for the provisions of this section to establish minimum requirements for State accountability systems, but not to preclude States from including additional elements or methods for identifying student and school performance, which may include using additional categories of students. Such additional elements or methods must not prevent the State from meeting the minimum requirements for meaningful differentiation, identification for improvement, and school support and interventions under this section, and the State must not use such additional elements or methods to reduce the number or percentage, or change, the schools that would otherwise be subject to the requirements of the State’s accountability system as described under 1111(c) and 1111(d).”

144. The Senate bill, but not the House amendment, includes a definition for “category of students.” The definition includes the same categories as are included in the House amendment in paragraph (3)(B)(ii)(II).

See note 143.

145. The Senate bill and House amendment have different language requiring States to establish accountability systems.

See note 143.

146. The Senate bill and House amendment have different requirements for State accountability systems.

See note 143.

147. The Senate bill, but not the House amendment, requires States to include graduation rates, an academic indicator for elementary and middle schools, and English proficiency in their accountability systems.

See note 143.

148. The House amendment identifies the subgroups a State’s accountability system must identify. The subgroups are mostly identical to the “category of students” definition in the Senate bill, except that the Senate bill says “children with disabilities” and the House amendment says “students with disabilities”. See note 145.

See note 143.

149. The Senate bill permits States to measure student growth in their accountability systems. The House amendment includes a mention of student growth in the assessment paragraph of the House amendment. See note 102.

See note 143.

150. The House amendment requires a system of school improvement for low-performing public schools receiving Title I funds as part of states’ accountability systems. The Senate bill includes section 1114 regarding school identifications, interventions, and supports to improve low-performing schools. See note 238.

See note 143.

151. The Senate bill, but not the House amendment, details the other indicator of

school quality states must include in their accountability systems.

See note 143.

152. The Senate bill, but not the House amendment, includes requirements related to amount certain indicators must weigh in the State-designed accountability systems.

See note 143.

153. The Senate bill, but not the House amendment, requires State accountability systems to comply with Sec. 1114 of the Senate bill.

See note 143.

154. The Senate bill, but not the House amendment, requires State accountability systems to include a clear and understandable explanation of school identification and differentiation.

See note 143.

155. The Senate bill includes the requirement for states to assess 95 percent of their students within the accountability system. The House amendment included this provision within the assessment requirements of the House amendment. See note 115.

See note 143.

156. The House amendment and the Senate bill contain different language related to prohibitions on the Secretary.

HR/SR with an amendment to strike paragraph (6) and insert a new subsection (e) of section 1111 as follows:

(e) **PROHIBITION.**

(1) **IN GENERAL.**—Nothing in this act shall be construed to authorize or permit the Secretary—

(A) when promulgating any rule or regulation, to promulgate any rule or regulation on the development or implementation of the statewide accountability system established under this section that would—

(i) add new requirements that are inconsistent with or outside the scope of this part;

(ii) add new criteria that are inconsistent with or outside the scope of this part; or

(iii) be in excess of Statutory authority granted to the Secretary;

(B) to, as a condition of approval of the State plan, or revisions or amendments to, the State plan, or approval of a waiver request submitted under section 8xxx, to—

(i) require a State to add any requirements that are inconsistent with or outside the scope of this part;

(ii) require a State to add or delete one or more specific elements of the State’s academic standards; or

(iii) prescribe—

(I) numeric long-term goals or measurements of interim progress that states establish for all students, for any subgroups of students, and for English learners with respect to English language proficiency, under this part, including—

(aa) the length of terms set by states in designing such goals; or

(bb) the progress expected from any subgroups of students in meeting such goals;

(II) specific academic assessments or assessment items that States or local educational agencies use to meet the requirements of subsection (b)(2) or otherwise use to measure student academic achievement or student growth under this part;

(III) indicators that States use within the State accountability system under this section, including any requirement to measure student growth, if a State chooses to measure student growth, or the specific metrics used to measure such growth under this part;

(IV) the specific weight of any measure or indicator used to identify or meaningfully differentiate schools, under this part;

(V) the specific methodology used by States to meaningfully differentiate or identify schools under this part;

(VI) any specific school support and improvement strategies that State or local edu-

cational agencies establish and implement to intervene, support, and improve schools and student outcomes under this part;

(VII) exit criteria established by States under subsection (d)(3)(A)(i);

(VIII) provided that the State meets the requirements in subsection (c)(3), a minimum number of students;

(IX) any aspect or parameter of a teacher, principal, or other school leader evaluation system within a State or local educational agency; or

(X) indicators or specific measures of teacher, principal, or other school leader effectiveness or quality; or

(C) to issue new non-regulatory guidance that—

(i) in seeking to provide explanation of requirements under this section for State or local educational agencies, either in response to requests for information or in anticipation of such requests, provides a strictly limited or exhaustive list to illustrate successful implementation of provisions under this section; or

(ii) purports to be legally binding; or

(D) to require data collection under this part beyond data derived from existing Federal, State, and local reporting requirements.

(2) **DEFINING TERMS.**—In carrying out this part, the Secretary shall not, through regulation or as a condition of approval of the State plan or revisions or amendments to the State plan, promulgate a definition of any term used in this part, or otherwise prescribe any specification for any such term, that is inconsistent with or outside the scope of this part or is in violation of paragraph (1).

Report Language: “While it is the intent of the Conferees to allow the Secretary to issue regulations and guidance to clarify the intent and implement the law, Conferees intend to prohibit any such regulation that would create new requirements inconsistent with or outside the scope of the law, including regulations that would take from a State the authority to establish a Statewide Accountability System, thus undermining the intent of Congress that States establish and make decisions regarding the Statewide Accountability System required under this part. For example, the Secretary may issue regulations to implement or clarify the statutory requirement that the State meaningfully differentiate all public schools (such as requiring a statewide accountability system to indicate levels of school performance that are distinct and easy for parents to understand); however, in issuing such regulation, the Secretary may not, for example, require a State to meaningfully differentiate schools using an A–F grading system or other specific scoring rubric.”

157. The Senate bill includes this provision as subsection (b)(4), while the House amendment includes it as paragraph (3)(E).

HR/SR with an amendment to read as follows:

(4) **EXCEPTIONS FOR ENGLISH LEARNERS.**—

(A) **ACCOUNTABILITY.**—With respect to recently arrived English learners, a State may choose to—

(i) exclude—

(I) a recently arrived English learner who has attended school in one of the 50 States in the United States or in the District of Columbia for less than 12 months from one administration of the reading or language arts assessment required under paragraph (2); and

(II) the results of a recently arrived English learner who has attended school in one of the 50 States in the United States or in the District of Columbia for less than 12 months on either or both of the assessments under paragraph (2)(B)(v)(I) and paragraph (2)(F) for the first year of the English learner’s enrollment in a school in the United

States for the purposes of the State-determined accountability system under subsection (c); or

(ii)(I) assess, and report the performance of, a recently arrived English learner who has attended school in one of the 50 States in the United States or in the District of Columbia for less than 12 months on the reading or language arts and mathematics assessments required under paragraph (2)(B)(v)(I) in each year of the student's enrollment in a school in the United States; and

(II) for the purposes of the State-determined accountability system—

(aa) for the first year of the student's enrollment in a school in the United States, exclude the results on these assessments;

(bb) include a measure of student growth on the reading or language arts and mathematics assessments in the second year of the student's enrollment; and

(cc) include proficiency on the reading or language arts and mathematics assessments in the third year of the student's enrollment.

(B) ENGLISH LEARNER SUBGROUP.—A State may include the results on the assessments under paragraph (2)(B)(v)(I), except for results on the English language proficiency assessments required under paragraph (2)(G), of former English learners for not more than 4 years after the student is no longer identified as an English learner within the English learner subgroup of the subgroups of students, as defined in paragraph XX for the purposes of the State-determined accountability system.

158. The Senate bill, but not the House amendment, allows a State to exclude recently arrived English learners from one administration of the State's reading or language arts assessment.

See note 157.

(C) how low-income and minority children enrolled in schools assisted under this part are not served at disproportionate rates by ineffective, out-of-field, and inexperienced teachers, and the measures the State educational agency will use to evaluate and publicly report the progress of the State educational agency with respect to such description; however, nothing in this subparagraph shall be construed as requiring a State to develop or implement a teacher, principal, or other school leader evaluation system;

(iii) the use of aversive behavioral interventions that compromise student health and safety;

(E) how the State will support local educational agencies receiving assistance under this part in meeting the needs of students at all levels of schooling, particularly students in the middle grades and high school, including how the State will work with such local educational agencies to provide effective transitions to middle grades and high school in order to decrease student risk of dropping out;

Report Language: "It is the Conferees' intent that States describe how the unique needs of students are met, particularly those students in the middle grades and high schools. The Conferees intend that States will work with local educational agencies receiving assistance under this part to assist in identifying students who are at-risk of dropping out using indicators such as attendance and student engagement data, to ensure effective student transitions from middle to high school, including by aligning curriculum and student supports, and to assist in effective transitions from high school to postsecondary education through strategies such as partnerships between local educational agencies and institutions of higher education. Such strategies to improve transitions may include integration of rigorous academics, career and technical education, and work-based learning. In order to accomplish these priorities, the Conferees intend that States will provide professional development to teachers, principals, other school leaders, and other school personnel to ensure that the academic and developmental needs of middle and high school students are met."

(F) the steps a State educational agency will take to ensure collaboration with the State agency responsible for administering the State plans under parts B and E of title IV of the Social Security Act (42 U.S.C. 621 et seq. and 670 et seq.) to ensure the educational stability of children in foster care, including assurances that—

(i) any such child enrolls or remains in such child's school of origin, unless a determination is made that it is not in such child's best interest to attend the school of origin, which decision shall be based on all factors relating to the child's best interest, including consideration of the appropriateness of the current educational setting and the proximity to the school in which the child is enrolled at the time of placement;

(ii) when a determination is made that it is not in such child's best interest to remain in the school of origin, the child is immediately enrolled in a new school, even if the child is unable to produce records normally required for enrollment;

(iii) the enrolling school shall immediately contact the school last attended by any such child to obtain relevant academic and other records; and

(iv) the State educational agency will designate an employee to serve as a point of contact for child welfare agencies and to oversee implementation of the State agency responsibilities required under this subparagraph, and such point of contact shall not be the State's Coordinator for Education of Homeless Children and Youths under section 722(d)(3) of the McKinney-Vento Homeless Assistance Act;

(F) how the State educational agency will provide support to local educational agencies in the identification, enrollment, attendance, and school stability of homeless children and youths; and

(G) such other factors the State educational agency determines appropriate to provide students an opportunity to achieve the knowledge and skills described in the challenging State academic standards.

Report Language: "It is the Conferees' intent that each State describes how it will support local educational agencies and schools by providing resources and guidance, professional development, and technical assistance to reduce techniques, strategies, interventions, and policies that compromise the health and safety of students, such as seclusion and restraint."

167. The Senate bill, but not the House amendment, restructures these provisions as a paragraph (2). The Senate bill and House amendment have different lead-ins.

HR

168. The Senate bill and House amendment include different assurances.

HR with an amendment to strike and insert the following:

(2) ASSURANCES.—Each State plan shall contain assurances that.—

(A) the State will make public any methods or criteria the State is using to measure teacher, principal, and other school leader effectiveness for the purpose of meeting the requirements described in paragraph (1)(C);

(i) may be accomplished by including such information on the annual State report card described subsection (d)(1)(C)); and

(ii) shall be presented in a manner that—

(I) is first anonymized and does not reveal personally identifiable information about an individual student;

(II) does not include a number of students in any subgroup of students that is insufficient to yield statistically reliable information or that would reveal personally identifiable information about an individual student; and

(III) is consistent with the requirements of section 444 of the General Education Provisions Act (20 U.S.C. 1232g, commonly known as the ‘Family Educational Rights and Privacy Act of 1974’).

Report Language: “As used in section 8546, Prohibition on Aiding and Abetting Sexual Abuse, the phrase “has probable cause to believe” means that the person knows facts that would lead a reasonable person to conclude that a school employee, contractor, or agent has previously engaged in, or is currently engaging in, sexual misconduct.”

169. The Senate bill, but not the House amendment, includes this rule of construction related to cross tabulation of data.

Report Language: “The Conferees recognize that achievement data for the subgroups of students described in subsection 1111(c)(2) can mask particular challenges that ethnic minorities within each subgroup face. The Conferees encourage States that collect disaggregated data on ethnic minorities within individual subgroups, such as disaggregated data for Asian and Native Hawaiian/Pacific Islander students using the same race response categories as the decennial census of the population to make such information publicly available, so long as such disclosure does not reveal any personally identifiable information for any student.”

HR with an amendment to redesignate this program as Title I, Part E, and redesignate Part E of Title I as Part F, and amend the language of the program as follows:

PART E—FLEXIBILITY FOR EQUITABLE PER-PUPIL FUNDING

SEC. [1xxx]. FLEXIBILITY FOR EQUITABLE PER-PUPIL FUNDING

(a) PURPOSE.—The purpose of the program under this section is to provide local educational agencies with flexibility to consolidate eligible Federal funds and State and local education funding in order to create a single school funding system based on weighted per-pupil allocations for low-income and otherwise disadvantaged students.

(b) AUTHORITY.—(1) IN GENERAL.—The Secretary is authorized to enter into local flexibility demonstration agreements—

(A) for not more than 3 years with local educational agencies that are selected under subsection (c) and submit proposed agreements that meet the requirements of subsection (d); and

(B) under which such agencies may consolidate and use funds in accordance with subsection (d) in order to develop and implement a school funding system based on weighted per-pupil allocations for low-income and otherwise disadvantaged students.

(2) FLEXIBILITY.—Except as described in subparagraph (J) of subsection (d)(1), the Secretary is authorized to waive for local educational agencies entering into agreements under this section any provision of this Act that would otherwise prevent such agency from using eligible Federal funds as part of such agreement.

(c) SELECTION OF LOCAL EDUCATIONAL AGENCIES.—

(1) IN GENERAL.—The Secretary may enter into local flexibility demonstration agreements with not more than 50 local educational agencies with an approved application under subsection (d).

(2) **SELECTION.**—Each local educational agency shall be selected based on such agency—

(A) submitting a proposed local flexibility demonstration agreement under subsection (d);

(B) demonstrating that the agreement meets the requirements of subsection (d); and

(C) agreeing to meet the continued demonstration requirements under subsection (e).

(3) **EXPANSION.**—Beginning with the 2019–2020 academic year, the Secretary may extend funding flexibility authorized under this part to any local educational agency that submits and has approved an application under subsection (d), so long as the demonstration agreements with local educational agencies described in paragraph (1) meet the requirements of subsection (d)(2) and subsection (e)(1).

(d) **REQUIRED TERMS OF LOCAL FLEXIBILITY DEMONSTRATION AGREEMENT.**—

(1) **APPLICATION.**—Each local educational agency that desires to participate in the program under this section shall submit, at such time and in such form as the Secretary may prescribe, an application to enter into a local flexibility demonstration agreement with the Secretary in order to develop and implement a school funding system based on weighted per-pupil allocations that meets the requirements of this section. The application shall include—

(A) a description of the school funding system based on weighted per-pupil allocations, including the weights used to allocate funds within the system, the local educational agency's legal authority to use local and State education funds consistent with this section, how the system will meet the requirements under paragraph (2), and how the system will support the academic achievement of students, including low-income students, the lowest-achieving students, English learners, and students with disabilities;

(B) a list of funding sources, including eligible Federal funds the local educational agency will include in such system;

(C) a description of the amount and percentage of total local educational agency funding, including State, local, and eligible Federal funds, that will be allocated through such system;

(D) the per-pupil expenditures (including actual personnel expenditures, including staff salary differentials for years of employment, and actual nonpersonnel expenditures) of State and local funds for each school served by the agency for the preceding fiscal year;

(E) the per-pupil amount of eligible Federal funds each school served by the agency, disaggregated by program, received in the preceding fiscal year;

(F) a description of how the system will ensure that any eligible Federal funds allocated through the system will meet the purposes of each Federal funding stream, including serving students from low-income families, English learners, migratory children, and children who are neglected, delinquent, or at risk, as applicable;

Report Language: “It is the Conferees’ intent that eligible Federal funds will be used with State and local education funds to meet the needs of students from low-income families, English learners, migratory children, and children who are neglected, delinquent, or at risk, as applicable. This should not be interpreted to require that every dollar a local educational agency receives under a Federal program be allocated to a student who otherwise would have been identified under that program, but should be interpreted to require that the weighted student funding system under this section will broad-

ly serve the students and the purposes for which the funding is provided.”

(H) an assurance that the local educational agency developed and will implement the local flexibility demonstration agreement in consultation with teachers, principals, other school leaders, including charter school leaders (in a local educational agency that has charter schools), administrators of Federal programs impacted by the agreement, parents, community leaders, and other relevant stakeholders;

(I) an assurance that the local educational agency will use fiscal control and sound accounting procedures that ensure proper disbursement of, and accounting for, eligible Federal funds consolidated and used under such system;

(J) an assurance that the local educational agency will continue to meet the fiscal provisions in section [1118] and the requirements under sections 1120 and [9501]; and

(K) an assurance that the local educational agency will meet the requirements of all applicable Federal civil rights laws in carrying out the agreement and in consolidating and using funds under the agreement.”

(2) **REQUIREMENTS OF SYSTEM.**—A local educational agency's school funding system based on weighted per-pupil allocations shall meet each of the following requirements:

(A) The system shall—

(i) except as allowed under subparagraph (B), allocate a significant portion of funds, including State, local, and eligible Federal funds, to the school level based on the number of students in a school and a formula developed by the agency under this section that determines per-pupil weighted amounts; and

(ii) use weights or allocation amounts that allocate substantially more funding to English learners and students from low-income families, and students with any other characteristics chosen by the local education agency, than to other students; and

(iii) ensure that each high-poverty school received more per-pupil funding, including from Federal, State, and local sources, for low-income students and at least as much per-pupil funding, including from Federal, State, and local sources, for English learners as the school received in the year prior to carrying out the pilot program.

(B) The system shall be used to allocate to schools a significant portion, which percentage shall be agreed upon during the application process and shall include all school-level actual personnel expenditures for instructional staff and actual nonpersonnel expenditures, of all the local educational agency's local and State education funds, and eligible Federal funds; and

(C) In establishing the percentage in subparagraph (B), the district shall demonstrate that the percentage under such subparagraph is sufficient to carry out the purposes of the pilot and to meet each of the requirements of (d) and that the percentage of local and State education funds, and eligible Federal funds that are not allocated through the formula does not undermine or conflict with the requirements of the pilot including (d)(2)(C).

Report Language: “The Conferees intend that the single school funding system will be used to, from the beginning, allocate a significant portion of all the local educational agency's local and State education funds, as well as eligible Federal funds, and that this portion will continue to increase over time. Reporting on how funds not allocated through the system are being spent will continue to occur. The Conferees intend that the negotiation between the Secretary and school district to establish the initial portion will be based on best practices in the field.”

(D) After allocating funds through the school funding system, the local educational agency shall charge schools for the per-pupil expenditures of Federal, State, and local funds, including actual personnel expenditures for instructional staff and actual non-personnel expenditures.

(e) **CONTINUED DEMONSTRATION.**—Each local educational agency with an approved application under subsection (d) shall annually—

(1) demonstrate to the Secretary that no high-poverty school served by the agency received less per-pupil funding, including from Federal, State, and local sources, for low-income students or less per-pupil funding, including from Federal, State, and local sources, for English learners than the school received in the previous year;

(2) make public and report to the Secretary the per-pupil expenditures (including actual personnel expenditures that include staff salary differentials for years of employment, and actual non-personnel expenditures) of State, local, and Federal funds for each school served by the agency, and disaggregated by student poverty quartile and by minority student quartile for the preceding fiscal year; and

(3) make public the total number of student enrolled in each school served by the agency and the number of students enrolled in each such school disaggregated by each of the subgroups of students, as defined in section 1111(c)(2).

(f) **ELIGIBLE FEDERAL FUNDS.**—In this section, the term ‘eligible Federal funds’ means funds received by a local educational agency under titles I, II, and III, Part A of IV, and Part C of Title V of this Act.

(g) **LIMITATIONS ON ADMINISTRATIVE EXPENDITURES.**—Each local educational agency that has entered into a local flexibility demonstration agreement with the Secretary under this section may use, for administrative purposes, from eligible Federal funds not more than the percentage of funds allowed for such purpose under any of titles I, II, or III, Part A of Title IV, or Part C of Title V.

(h) **PEER REVIEW.**—The Secretary may establish a peer-review process to assist in the review of a proposed local flexibility demonstration agreement.

(i) **NONCOMPLIANCE.**—The Secretary may, after providing notice and an opportunity for a hearing (including the opportunity to provide information as provided for in subsection (j)), terminate a local flexibility demonstration agreement under this section if there is evidence that the local educational agency has failed to comply with the terms of the agreement and the requirements under subsections (d) and (e).

(j) **EVIDENCE.**—If a local educational agency believes that the Secretary's determination under subsection (i) is in error for statistical or other substantive reasons, the local educational agency may provide supporting evidence to the Secretary, and the Secretary shall consider that evidence before making a final termination determination.

(k) **PROGRAM EVALUATION.**—From the amount reserved for evaluation activities in section [9601], the Secretary, acting through the Director of the Institute of Education Sciences, shall, in consultation with the relevant program office at the Department, evaluate the implementation and impact of the local flexibility demonstration agreements under this section, consistent with section [9601] and specifically on improving the equitable distribution of State and local funding and increasing student achievement.

(l) **RENEWAL OF LOCAL FLEXIBILITY DEMONSTRATION AGREEMENT.**—The Secretary may renew for additional 3-year terms a local flexibility demonstration agreement under this section if—

(1) the local educational agency has met the requirements under subsections (d)(2) and (e) and agrees to and has a high likelihood of continuing to meet such requirements; and

(2) the Secretary determines that renewing the local flexibility demonstration agreement is in the interest of students served under titles I and III, including students from low-income families, English learners, migratory children, and children who are neglected, delinquent, or at risk.

(m) DEFINITION OF HIGH-POVERTY SCHOOL.— In this section, the term ‘high-poverty school’ means a school that is in the highest 2 quartiles of schools served by a local educational agency, based on the percentage of enrolled students from low-income families.”

SR with an amendment to insert the following:

SEC. 9204. STUDY ON THE TITLE I FORMULA.

(a) FINDINGS.—Congress finds the following:

(1) Part A of Title I provides funding to local educational agencies through four separate formulas that have been added to the law over time, and which have “distinct allocation patterns, providing varying shares of allocated funds to different types of local educational agencies or States,” according to a 2015 report from the Congressional Research Service.

(2) Minimal effort has been made by the Federal government to determine if the four formulas are adequately delivering funds to local educational agencies with the highest district wide poverty averages.

(3) The formulas for distributing Targeted Grants and Education Finance Incentive grants use two weighting systems, one based on the percentage of children included in the determination of grants to local educational agencies (percentage weighting), and another based on the absolute number of such children (number weighting). Both weighting systems have five quintiles with a roughly equal number of children in each quintile. Whichever of these weighting systems results in the highest total weighted formula child count for a local educational agency is the weighting system used for that agency in the final allocation of Targeted and Education Finance Incentive Grant funds.

(4) The Congressional Research Service has also said the number weighting alternative is generally more favorable to large local

educational agencies with much larger geographic boundaries and larger counts of eligible children than smaller local educational agencies with smaller counts, but potentially higher percentages, of eligible children, because large local educational agencies have many more children in the higher weighted quintiles.

(5) In local educational agencies that are classified by the National Center for Education Statistics as "Large City", 47 percent of all students attend schools with 75 percent or higher poverty.

(b) STUDY.—

(1) IN GENERAL.—Not later than 18 months after the date of enactment of this Act, the Director of the Institute of Education Sciences shall complete a study on the effectiveness of the four existing title I formulas to deliver funds to the most economically disadvantaged communities.

(2) CONTENTS.—Such study shall include—

(A) an analysis of the distribution of title I funds under the four current formulas;

(B) an analysis of how title I funds are distributed among local educational agencies in each of the 12 locale types classified by the National Center on Education Statistics.

(C) the extent to which the four formulas unduly benefit or unduly disadvantage any of the local educational agencies described in subparagraph (B);

(D) the extent to which the four formulas unduly benefit or unduly disadvantage high-poverty eligible school attendance areas in the local educational agencies described in subparagraph (B);

(E) the extent to which the four formulas unduly benefit or unduly disadvantage lower population local educational agencies with relatively high percentages of districtwide poverty;

(F) the impact of number weighting and percentage weighting in the formulas for distributing Targeted Grants and Education Finance Incentive Grants on each of the local educational agencies described in subparagraph (B);

(G) The impact of number weighting and percentage weighting on targeting Title I-A funds to eligible school attendance areas with the highest concentrations of poverty in local educational agencies described in subparagraph (B), and local educational agencies described in subparagraph (B) with higher percentages of districtwide poverty;

(H) an analysis of other studies and reports produced by public and non-public entities examining the distribution of title I funds under the four current formulas; and

(I) recommendations, as appropriate, for amending or consolidating the existing formulas to better target title I funds to the most economically disadvantaged communities and most economically disadvantaged eligible school attendance areas.

(3) PUBLIC DISSEMINATION.—The Director of the Institute of Education Sciences shall widely disseminate the findings of the study conducted under this section—

(A) in a timely fashion;

(B) to—

(i) the public; and

(ii) the Committee on Education and the Workforce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate; and

(C) through electronic transfer and other means, such as posting to the website of the Institute of Education Sciences or the Department of Education.

DOMESTIC ENERGY STRATEGY

The SPEAKER pro tempore (Mr. ZELDIN). Under the Speaker's announced policy of January 6, 2015, the gentleman from Ohio (Mr. JOHNSON) is recognized for 60 minutes as the designee of the majority leader.

GENERAL LEAVE

Mr. JOHNSON of Ohio. Mr. Speaker, because of the number of Members wishing to participate this evening, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous materials on the topic of this Special Order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

Mr. JOHNSON of Ohio. Mr. Speaker, as the House begins to consider and debate important energy legislation this week, I want to take just a moment to reflect on the opportunities America has in energy development.

Our energy landscape has tremendously changed in recent years. Thanks to new innovative technologies, we have gone from a Nation of scarcity to one of energy abundance. Our new and existing natural resources have created jobs, lowered energy costs, and spurred new investments in manufacturing and chemical industries.

Today the United States has an opportunity to take advantage of this era of energy abundance. Congress must first ensure our laws reflect this new energy-abundant era so that we can fully harness our potential as the world's dominant energy superpower. The legislation we are considering this week will allow our country to do just that.

Unfortunately, the rules and regulations coming out of this administration conflict with this type of energy-independent and secure vision. Most concerning is the Office of Surface Mining's proposed rule to further regulate the coal mining industry, which has already lost more than 40,000 jobs since 2011. If the administration allows this rule to go into effect, an additional 40,000 to 78,000 coal mining jobs will be at risk.

Dubbed the stream protection rule, this regulation will amend or modify 475 existing rules and add new rules on top of that. Make no mistake about it. This is not an effort to protect streams. It is an effort to regulate the coal mining industry out of business. In fact, between 95 and 100 percent of coal operations occurring in the States that account for almost 75 percent of the Nation's coal production have no offsite impacts.

So what does this rule accomplish? This rule means increased energy costs for families and small businesses. At least 22 States, including mine, Ohio, rely on coal for their primary fuel

source. Not surprisingly, these States' electricity prices are well below the national average. I fear, however, that will no longer be the case if we allow this rule to go into effect.

Consequently, companies will be forced to pay more for their energy bills instead of hiring additional employees. Families will be forced to make tougher decisions as well, like paying the increasing electric bill or putting food on the table, clothes on the kids, and providing for their education.

Furthermore, U.S. household income is stagnant and the economy remains mired by sluggish economic growth. We need to be enacting policies that encourage an economic recovery, not promoting further stagnation by shutting down access to America's most abundant and lowest cost energy resource. What is worse, this is not the only regulation currently threatening our energy security, reliability, and low electricity costs.

The Environmental Protection Agency's Clean Power Plan will also change how we generate, distribute, and consume electricity by forcing States to comply with CO₂ targets through a Federal takeover of electric power generation.

It is for this reason I will be voting in favor of S.J. Res. 23 and 24 this week. These resolutions of disapproval send a clear message to the President that a majority of the Senate, the House, and America do not approve of higher electricity prices and an unreliable electric grid.

Mr. Speaker, America was built on ingenuity and resourcefulness. Unlike the stream protection rule and the Clean Power Plan, H.R. 8, the North American Energy Security and Infrastructure Act, will encourage that entrepreneurial spirit, not hinder it.

It will pave the way for a resurgence of manufacturing where new innovative products are designed and built right here in America, and it will keep America in our rightful place as a leader in the global economy.

I am proud to support this legislation, which the House will be considering this week. H.R. 8 will modernize our energy infrastructure, protect the electricity grid and the delivery system, improve energy efficiency, and strengthen our energy diplomacy.

Based on language that I have introduced and that previously passed the House with bipartisan support, this legislation includes a streamlined process for natural gas export projects currently pending before the Department of Energy.

This language will help strengthen America's standing as a world-class exporter of natural gas, create tens of thousands of new jobs, add billions to our economy, and help our allies abroad by providing a reliable source of energy.

I am honored to lead this Special Order that will highlight the House's approach to a truly all-of-the-above do-

mestic energy strategy, a strategy that focuses on a secure and reliable energy sector with affordable electricity rates for hardworking taxpayers as well as small businesses.

Mr. Speaker, I yield to the gentleman from the great State of Colorado (Mr. TIPTON).

Mr. TIPTON. Mr. Speaker, I thank my friend from Ohio for the opportunity to be able to provide some remarks this evening.

It is no secret that American coal production and coal-fired electric generation is experiencing regulatory and legal obstacles at every turn. In 2008, the President famously outlined an energy vision in which he stated, "So if someone wants to build a coal-fired power plant, they can. It is just that it will bankrupt them." There is no ambiguity in that statement. The administration is certainly not seeking to encourage coal production. Indeed, it is just the opposite.

The Environmental Protection Agency just finalized its so-called Clean Power Plan, a carbon emissions rule that will force States to submit complex plans to meet federally mandated emission goals. The EPA estimates the annual cost of this rule to be anywhere from \$5.5 billion to \$8.8 billion annually, but other credible estimates are much higher, ranging from \$366 billion to \$479 billion from 2017 to 2031.

Now, why is this important? Oftentimes, when we are talking about fees about taxes that are going to be applied, we assume that someone else gets to pay them. Here is the reality: These costs are being shouldered by hardworking Americans who will see their energy bills increase.

They impact the most vulnerable people in our society, including senior citizens on fixed incomes and low-income families who will have to make tough decisions in their already tight household budgets just to be able to heat their homes.

In my own district in rural western Colorado, upwards of 500 coal mining jobs in Delta County, with wages and benefits exceeding 66 million, have already been lost and more are threatened due to anticompetitive lawsuits. Another 220 are threatened in Moffat and Rio Blanco Counties for the same reason. There is no shortage of examples such as these in the coal-producing States.

Now, I think we need to be very clear. As Americans, people in Colorado, we want to be able to see blue skies and clear streams. Here is the opportunity for us to be able to demonstrate that we can create a win-win with the technologies in place.

If you want to be able to see blue skies and a coal-fired power plant, come with me to Moffat County, visit Craig, Colorado, to be able to see hardworking people in the coal mining industry and a coal-fired power plant being able to do it the right way and being able to provide affordable electricity for the citizens at home.
