February 10, 2016

CONGRESSIONAL RECORD — HOUSE

Mr. Speaker, Americans are right to be angry in the 2016 elections and elect Washington officials who both understand the threat posed by deficits and debt and have the backbone to fix it? The answer to that question determines whether America continues as a great nation and world power or declines into the dustbin of history.

Mr. Speaker, I can’t speak for anyone else, but as for me, Mo Brooks from Alabama’s Fifth District, I fight for financial responsibility and prosperity and against an American bankruptcy and economic depression.

EMERGENCY REQUEST FOR $1.8 BILLION TO FIGHT ZIKA VIRUS

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Hawaii (Ms. GABBARD) for 5 minutes.

Ms. GABBARD. Mr. Speaker, I rise today to strongly urge my colleagues to support the President’s emergency request of $1.8 billion to fight the spread of the Zika virus, a dangerous mosquito-borne disease, like the Zika virus, as well as other mosquito-borne diseases. Like the Zika virus, Dengue fever symptoms include fevers, rashes, joint and muscle pains, severe headaches, and other painful symptoms.

The CDC has reported the harmful symptoms and effects of both Zika and Dengue and the ability of both of these diseases to spread very rapidly through mosquitoes present in many regions of the United States, including in my home district.

So far, there have been around 50 cases of Zika virus confirmed in the United States. But in the past 16 weeks, there have been 252 known cases of Dengue fever on Hawaii Island alone. Now, Mayor Billy Kenoi, Hawaii County’s mayor, on Monday announced a state of emergency for the county to deploy more resources to battle this Dengue fever outbreak.

I have asked our Governor to declare a state of emergency in response to the Zika outbreak that has swept our state in recent months. The Governor has requested $200 million to help fund the response to the Zika outbreak in Hawaii.

The President’s leadership and emergency request on this urgent issue is warranted and necessary to respond aggressively to the Zika virus early on. He is treating this with the seriousness it deserves, recognizing this global public health threat, the impacts, and long-lasting effects of which are not fully known.

At the end of last year, Congress came together and passed a bipartisan omnibus spending bill that increased funding for public health preparedness and response by more than $22 million than the previous fiscal year, but this additional emergency funding request is necessary now in communities like mine on Hawaii Island and in different parts of the country to combat disease-transmitting mosquito viruses like Zika and Dengue fever.

It is imperative that Congress, Federal agencies, local governments, and private sector partners partner together to take action now to deal with the Zika outbreaks we already have and prevent something so worse from occurring.

I look forward to working with my colleagues to push this critical public health funding forward.

PFC JOSEPH P. DWYER VETERANS PEER SUPPORT PROGRAM

The SPEAKER pro tempore. The Chair recognizes the gentleman from New York (Mr. ZELDIN) for 5 minutes.

Mr. ZELDIN. Mr. Speaker, this week I introduced legislation in the House to expand the PFC Joseph P. Dwyer Veterans Peer Support Program to the national level.

PFC Joseph Dwyer was from Mount Sinai, New York, located in my home district of Suffolk County.

PFC Dwyer served in Iraq and received nationwide recognition for a photograph that went viral, showing him hedge a wounded Iraqi boy while his unit was fighting its way up to the capital city of Baghdad.

Sadly, after returning home and struggling with PTSD, PFC Dwyer died in 2008 and left behind a young widow, Matina, and a 2-year-old daughter, Meagan.

In 2012, while serving in the New York State Senate, I created the Dwyer Program as part of the 2012-2013 State budget. Originally in four counties, including Suffolk, this program has since expanded to over a dozen counties throughout New York.

The Dwyer Program is a peer-to-peer support program for veterans suffering from post-traumatic stress disorder and traumatic brain injury. The program provides a safe, confidential, and educational platform where all veterans are welcome to build vet-to-vet relationships, supporting each other’s transition from service to post-service life.

During the first year alone, we were able to conduct 148 group sessions, serving 450 veterans just within Suffolk. Since 2013, the program has...
