

must keep our word to the rest of the world. Mr. Chairman, I urge my colleagues to support my amendment.

The Acting CHAIR. The time of the gentleman from New York has expired.

Mr. SHIMKUS. Mr. Chairman, I claim the time in opposition.

The Acting CHAIR. The gentleman from Illinois is recognized for 5 minutes.

Mr. SHIMKUS. Mr. Chairman, I reserve the balance of my time.

The Acting CHAIR. The gentleman from Illinois has the only time remaining. The time of the gentleman from New York has expired.

Mr. SHIMKUS. Mr. Chairman, I will read into the RECORD a statement. This is from the International Energy Agency, Global Energy and CO₂ Status Report 2018, published March of 2019, so it is pretty much fresh off the press. It addresses some of these issues that I have mentioned during this debate today about how we have been doing things; how, overall, missions are decreasing; and how public policy has helped, and the like.

This is on page 10: "In the United States, the emission reductions seen in 2017 were reversed with an increase of 3.1 percent in CO₂ emissions in 2018."

That is what we addressed about the economy going up, more CO₂ emissions.

"Despite this increase, emissions in the United States remain around their 1990 levels, 14 percent and 800 metric tons of CO₂ below their peak in 2000. This is the largest absolute decline among all countries since 2000."

So I think that is instructive when we are here debating a bill that is not going to be reviewed by the Senate and the President is not going to sign it.

We look forward to working with my colleagues on the Committee on Energy and Commerce on things that we can do to work together to even make better strides than what we already have in this country.

We don't get a lot of credit because we don't couch it in, as I said before, Mr. Chairman, "climate change," "Paris accord."

But, you know, facts are important, data is important, and the Energy Information Agency is an independent agency underneath the Department of Commerce, so it is evaluating all countries and all emissions.

Republicans believe in conservation, which would be energy efficiency, new source review, force management, innovation, advanced nuclear power, carbon capture, sequestration, utilization.

To the colleague who brought the amendment up, I don't believe coal will be dead. I think if we bring technology and we use carbon capture, utilization, and sequestration and get it captured, we can still have a coal mining sector. We can still have energy electricity generated by coal. I hope so, because I am from a coal mining region, and I am not going to walk away from the jobs in southern Illinois.

And the adaptation which we have had a lot of debate about today, which

is grid modernization, resiliency, crops, and the like.

The amendment of my colleague is opposite to what Dr. BURGESS and I tried to do in the committee when we marked up this bill. We wanted to have the research and the analysis done before we go back to a climate agreement.

I mean, what good does it do if you go to an agreement and then you find that jobs have been lost, wages have gone down? It is too late. You are in the agreement.

So let's do the research prior, which was our amendment, Dr. BURGESS and I—it wasn't made in order for the floor—to say let's do this research.

So if we are going to move and go back into the climate Paris accord, if we are going to affect jobs in the economy negatively, we should know that beforehand. This amendment does not do that.

Mr. Chairman, I ask for a "no" vote on this amendment, and I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from New York (Mr. ENGEL).

The question was taken; and the Acting Chair announced that the ayes appeared to have it.

Mr. ENGEL. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from New York will be postponed.

The Acting CHAIR. The Committee will rise informally.

The Speaker pro tempore (Mr. PHILLIPS) assumed the chair.

MESSAGE FROM THE SENATE

A message from the Senate by Ms. Lasky, one of its clerks, announced that the Senate has passed a bill of the following title in which the concurrence of the House is required:

S. 406. An act to establish a Federal rotational cyber workforce program for the Federal cyber workforce.

The message also announced that the Senate has agreed to a concurrent resolution of the following title in which the concurrence of the House is requested:

S. Con. Res. 13. Concurrent Resolution reaffirming the United States commitment to Taiwan and to the implementation of the Taiwan Relations Act.

The SPEAKER pro tempore. The Committee will resume its sitting.

CLIMATE ACTION NOW ACT

The Committee resumed its sitting.

AMENDMENT NO. 30 OFFERED BY MR. KRISHNAMOORTHY

The Acting CHAIR (Mr. CASTEN of Illinois). It is now in order to consider amendment No. 30 printed in House Report 116-42.

Mr. KRISHNAMOORTHY. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 6, after line 18, insert the following paragraph:

(7) Essential in achieving this target is a thriving clean energy industry in the United States, which currently employs over 500,000 Americans.

The Acting CHAIR. Pursuant to House Resolution 329, the gentleman from Illinois (Mr. KRISHNAMOORTHY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Illinois.

Mr. KRISHNAMOORTHY. Mr. Chair, I yield myself such time as I may consume.

Mr. Chairman, I rise in support of amendment No. 30 to the Climate Action Now Act.

We are already seeing the economic benefits of taking action on climate change. In the United States, we have already created millions—I say millions—of jobs in the clean economy, from installing wind turbines and solar panels, to retrofitting buildings to make them more energy efficient, to assembling fuel-efficient vehicles and manufacturing the component parts for all of these clean energy technologies that can help drive down emissions.

My amendment acknowledges the important role clean energy jobs play in meeting the United States' commitment under the Paris Agreement.

There are currently more than 500,000 jobs in the renewable job industry alone, just an example of the millions of jobs we are creating in the clean economy as we work to meet our emissions reductions target.

By taking a leadership role in global climate action, we can harness these benefits and see even more economic growth and opportunities for communities everywhere, including in southern Illinois. And we need to make sure we do this in a way that not only creates jobs, but creates good family-sustaining jobs for working families throughout the country, including in my home State of Illinois and in the Eighth District of Illinois.

Economic growth, workforce development, and climate leadership go hand in hand. As cofounder and co-chair of the bipartisan Congressional Solar Caucus, I urge my colleagues to support this amendment.

Mr. Chair, I yield 30 seconds to the gentleman from New York (Mr. ENGEL).

Mr. ENGEL. Mr. Chairman, I thank my friend for yielding, and I want to say unequivocally, on behalf of the Foreign Affairs Committee and the Energy and Commerce Committee, we strongly support this amendment. It is an excellent amendment. I also want to thank the gentleman for working with the committees on this amendment.

Mr. KRISHNAMOORTHY. Mr. Chairman, I thank the gentleman from New York for his excellent remarks.

I have no further comments, and I yield back the balance of my time.

Mr. SHIMKUS. Mr. Chairman, I claim the time in opposition.

The Acting CHAIR. The gentleman from southern Illinois is recognized for 5 minutes.

Mr. SHIMKUS. Mr. Chairman, I think that is the first time I have been directed to my region of the State of Illinois, and I appreciate it.

Illinois has 102 counties. I represent 33 of those, or parts of 33, so it is a little different than north of I-80, as the Chairman knows and as does the author of this amendment. And, of course, you had me at a disadvantage because I have great kinship and friendship with my colleague who is offering this amendment.

I would pause to say sometimes we have a hard time defining “clean.”

What is clean energy? For me, some of this debate is no CO₂ or very limited CO₂ emissions. I think that is in the Paris accord, in the climate change, global warming debate. It is all about CO₂. We have some colleagues come here and talk about the four criteria pollutants and stuff, but this is really about CO₂.

So we also think not just solar, but we ought to make sure we do geothermal provisions. We ought to look at pump storage provisions. We should do the hydroelectric provisions.

As my colleagues know, Mr. Chairman, the Chicagoland area of Illinois has the largest production of electricity through the use of nuclear power—six locations, 11 reactors. How much does it emit of CO₂ into the atmosphere? Zero. Major baseload energy that is beneficial in this debate, because we can't meet these standards unless we have some major generation, some major baseload.

So I think if we look forward to moving forward with a bill that would have a chance to move to the Senate floor that we eventually want to get to the President, we actually look forward to working with my colleagues on provisions and helping us grapple with the definition of clean.

If the definition is little to no CO₂ emissions, solar is great; wind is great. They are small parts of a large portfolio of nuclear energy and hydroelectric, which are the predominant clean energy electricity producers if that definition is CO₂.

So, with that, I ask my colleagues to vote “no” on the amendment, respectfully.

Mr. Chair, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Illinois (Mr. KRISHNAMOORTHY).

The amendment was agreed to.

ANNOUNCEMENT BY THE ACTING CHAIR

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, proceedings will now resume on those amendments printed in House Report 116-42 on which further proceedings were postponed, in the following order:

Amendment No. 2 by Mr. ESPAILLAT of New York.

Amendment No. 10 by Mr. GOSAR of Arizona.

Amendment No. 11 by Mr. GOSAR of Arizona.

Amendment No. 19 by Ms. PORTER of California.

Amendment No. 22 by Mrs. FLETCHER of Texas.

Amendment No. 24 by Ms. SCHRIER of Washington.

Amendment No. 26 by Mr. VAN DREW of New Jersey.

Amendment No. 29 by Mr. ENGEL of New York.

The Chair will reduce to 2 minutes the minimum time for any electronic vote after the first vote in this series.

AMENDMENT NO. 2 OFFERED BY MR. ESPAILLAT

The Acting CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from New York (Mr. ESPAILLAT) on which further proceedings were postponed and on which the ayes prevailed by voice vote.

The Clerk will redesignate the amendment.

The Clerk redesignated the amendment.

RECORDED VOTE

The Acting CHAIR. A recorded vote has been demanded.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 237, noes 185, not voting 15, as follows:

[Roll No. 175]

So the amendment was rejected.
The result of the vote was announced
as above recorded.
Stated against:
Mrs. LEE of Nevada. Madam Chair, I was
unavoidably detained on rolcall 177. Had I
been present, I would have voted "nay" on
rolcall No. 177.

AMENDMENT NO. 19 OFFERED BY MS. PORTER
The Acting CHAIR. The unfinished
business is the demand for a recorded
vote on the amendment offered by the
gentlewoman from California (Ms. POR-
TER) on which further proceedings were
postponed and on which the ayes pre-
vailed by voice vote.

The Clerk will redesignate the
amendment.
The Clerk redesignated the amend-
ment.

RECORDED VOTE
The Acting CHAIR. A recorded vote
has been demanded.

A recorded vote was ordered.
The Acting CHAIR. This will be a 2-
minute vote.

The vote was taken by electronic de-
vice, and there were—ayes 262, noes 163,
not voting 12, as follows:

ANNOUNCEMENT BY THE ACTING CHAIR

The Acting CHAIR (Mr. MCGOVERN)
(during the vote). There is 1 minute re-
maining.

□ 1146

Mr. GAETZ changed his vote from
“no” to “aye.”

So the amendment was agreed to.

The result of the vote was announced
as above recorded.

The Acting CHAIR. There being no
further amendments, under the rule,
the Committee rises.

Accordingly, the Committee rose;
and the Speaker pro tempore (Ms.
BONAMICI) having assumed the chair,
Mr. MCGOVERN, Acting Chair of the
Committee of the Whole House on the
state of the Union, reported that that
Committee, having had under consider-
ation the bill (H.R. 9) to direct the
President to develop a plan for the
United States to meet its nationally
determined contribution under the
Paris Agreement, and for other pur-
poses, and, pursuant to House Resolu-
tion 329, he reported the bill back to
the House with sundry amendments
adopted in the Committee of the
Whole.

The SPEAKER pro tempore. Under
the rule, the previous question is or-
dered.

Is a separate vote demanded on any
amendment reported from the Com-
mittee of the Whole? If not, the Chair
will put them en gros. The question is
on the amendments.

The amendments were agreed to.

The SPEAKER pro tempore. The
question is on the engrossment and
third reading of the bill.

The bill was ordered to be engrossed
and read a third time, and was read the
third time.

MOTION TO RECOMMIT

Mr. BARR. Madam Speaker, I have a
motion to recommit at the desk.

The SPEAKER pro tempore. Is the
gentleman opposed to the bill?

Mr. BARR. I am in its current form.

The SPEAKER pro tempore. The
Clerk will report the motion to recom-
mit.

The Clerk read as follows:

Mr. Barr moves to recommit the bill H.R.
9 to the Committee on Foreign Affairs with
instructions to report the same back to the
House forthwith, with the following amend-
ment:

At the end of the bill, add the following
new section:

SEC. 6. EFFECTIVE DATE.

This Act shall take effect on the date that
the President certifies that meeting the na-
tionally determined contribution of the
United States under the Paris Agreement
will not result in a net transfer of jobs from
the United States to China.

The SPEAKER pro tempore. The gen-
tleman from Kentucky is recognized
for 5 minutes.

Mr. BARR. Madam Speaker, this is
the final amendment to the bill. It

would not kill the bill or send it back to committee. If adopted, the bill would immediately proceed to final passage, as amended.

This motion makes a small but important change to the bill, a change that is necessary to preserve the economic strength of the United States.

The amendment simply states that the act shall not take effect until the President certifies that the United States will not, on net, lose jobs to China as a result of meeting the emissions commitments required under the Paris Agreement.

If, as the majority believes, the Paris Agreement will improve America's economic and technological competitiveness, this should not be a problem.

Madam Speaker, I do not disagree with my colleagues that climate change is a problem that this Nation and other nations need to address. In fact, I believe it is important that we continue to have discussions about serious solutions on how to mitigate these risks through American innovation, conservation, adaptation, and preparation. But, Madam Speaker, H.R. 9 is not a serious solution to these problems.

The truth of the matter is the Paris Agreement would hurt our economy, cost millions of American jobs, weaken our sovereignty, and put us at a disadvantage among international competitors, especially China.

My home State of Kentucky relies heavily on fossil fuels, and the coal industry provides our State with thousands of jobs and delivers over 83 percent of our power. This enables Kentuckians to enjoy some of the lowest-cost electricity rates in the country.

Kentucky is not the only State that relies on carbon-based fuels for its energy. Nationally, our energy mix is made up of about 80 percent fossil fuels, as compared to only 5 percent intermittent and unreliable sources, such as solar and wind.

Let's think about the feasibility of hitting the goals outlined in the Paris Agreement to cut greenhouse emissions by 26 to 28 percent by 2025 or, to push the debate even further, those goals outlined in the Democrats' other climate proposals, such as the Green New Deal, to eliminate fossil fuels completely, a proposal that just yesterday every member of the majority voted against bringing up for debate. That is because the Green New Deal is nothing more than an absurd socialist fantasy that would devastate our economy.

As policymakers, our goal should not be to embrace at all costs the greenest energy. Our goal should be to promote the best energy, the most effective energy, the most reliable energy, and the most affordable energy.

Despite massive technological advances and innovations, any drastic move away from fossil fuel consumption is dangerous. It would mean increased energy prices and decreased reliability. Household electricity expenditures would increase up to 20 percent.

It would mean manufacturing and energy-intensive jobs moving offshore. On average, we would see a shortfall of nearly 200,000 manufacturing jobs and 400,000 jobs overall.

It would mean economic decline and stagnation in communities, yielding an aggregate GDP loss of over \$2.5 trillion and a total income loss for a family of four of over \$20,000.

It is only common sense that we ensure that these economic outcomes will never come to fruition before entering into this agreement, which is what this simple amendment would do.

Remember, between 2000 and 2014, the United States reduced greenhouse gas emissions by 18 percent without being subject to any international agreement.

We should continue to focus on reducing emissions, developing and exporting clean coal technologies, and making our communities more resilient, but 1,000 more pages in the Federal Register will not change the weather. Scientific and technological innovation fueled through free enterprise can.

Finally, if we want to be serious about a global solution to climate change, we need to address the world's largest carbon emissions offenders that have refused to meet the agreement's goals. This agreement fails to address those real polluters.

China, the number one country in the world for greenhouse gas emissions, is perhaps our greatest strategic economic adversary. It is a nation that has been growing in manufacturing and industrial dominance.

Under the Paris Agreement, China has been allowed to increase emissions until 2030. This gives China a leg up. They will spend that decade stealing our jobs. That hits people in my district the hardest. It hits those who can least afford it.

As we confront China economically, we must be sure our environmental goals do not put us at a strategic disadvantage or force us to commit economic self-destruction. We must ensure that our policies do not raise electric rates and drive energy-intensive businesses offshore. We must make sure that China, with its rapacious appetite for dominating all industry and its sweeping efforts to steal U.S. ideas, does not have new reasons to take advantage of American workers.

Madam Speaker, socialism and central planning will never solve the problems of the human race. Vote "yes" on the motion to recommite.

Madam Speaker, I yield back the balance of my time.

Mr. MALINOWSKI. Madam Speaker, I rise in opposition to the motion.

The SPEAKER pro tempore. The gentleman from New Jersey is recognized for 5 minutes.

Mr. MALINOWSKI. Madam Speaker, our Republican colleagues are right about one thing: China is taking advantage of us. But it is not taking advantage of America being in the Paris

accord. It is taking advantage of our retreat.

China is our strategic competitor. It should pain all of us that everywhere around the world, China is being treated like the leader in fighting climate change. It should pain us that China is investing more money in renewable energy than any other country. It should pain us that they are surging ahead of us in electric vehicles. It should pain us that they are racing to dominate the global market in lithium batteries, that they have two-thirds of the world's high-speed rail and have spent over \$100 billion on it in 2018.

Why is China spending hundreds of billions of dollars to make the transition to clean energy? Let me tell you, it is not because the Chinese Communist Party loves trees. It is because they want to win the future.

I want America to win the future. I want us to reap the economic benefits and the jobs that will go to whoever wins the race to a clean energy future.

How do our Republican colleagues propose to win that race? I have looked at their record in the years when they controlled this House. I searched in vain for one free-market-based plan.

What did I find? Nothing, apart from a tax bill filled with giveaways to oil companies to allow more oil drilling, and legislation to allow methane emissions, to gut the Clean Air Act, and to roll back the Clean Power Plan.

That is it. That is all our Republican colleagues did.

Do they know who has left them behind? Do they know who wants us to stay in the Paris accord because they know that our economic future depends on it? I will tell you who. The Dow Chemical Company wants us to stay in Paris. Bank of America wants us to stay. DuPont wants us to stay. Procter & Gamble wants us to stay. General Electric wants us to stay. Cargill wants us to stay. Citigroup wants us to stay. Johnson & Johnson wants us to stay. Coca-Cola wants us to stay. ExxonMobil wants us to stay. The Walt Disney Company wants us to stay.

Not a lot of socialists on their boards, though I do have my doubts about Goofy from time to time.

So that is our choice. We can cling to the past, we can let China win this race, or we can stand with our American companies, our American scientists, and our American innovators and let them lead us into the future.

The SPEAKER pro tempore. Members are reminded to address their remarks to the Chair.

Mr. MALINOWSKI. Madam Speaker, I yield to the gentleman from South Carolina (Mr. CUNNINGHAM).

Mr. CUNNINGHAM. Madam Speaker, as a former ocean engineer, I rise on behalf of South Carolina's First Congressional District, the Low Country. And I rise, quite frankly, as someone who typically votes with Republicans on these motions.

But not today.

I had hoped that my colleagues on the other side of the aisle would want

to engage in a constructive dialogue that addresses the devastating impacts of flooding, intensifying storms, and rising sea levels.

But not today.

This is not the way that it used to be. President Teddy Roosevelt established 150 national forests and five national parks. President Reagan signed into law 38 bills that added more than 10.6 million acres to the National Wilderness Preservation System, all with the support of the distinguished Members of the Grand Old Party.

But not today.

The Grand Old Party has an illustrious history with environmental conservation, a history it should be proud of.

But not today.

This Republican body does a disservice to that environmental record by turning a blind eye to science and facts. There are certain things that go beyond politics, impacts that touch each and every one of us, regardless of partisanship, regardless of ideology. Climate change is one of them. The Low Country knows this more than most.

In downtown Charleston, our medical district, which is home to Charleston's VA hospital and our medical university, is the area that is most prone to flooding. During a recent hurricane, the Medical University of South Carolina was forced to float surgeons across the campus in jon boats to treat patients, including our veterans and our children.

Parris Island is one of the only two bases that makes enlisted marines, and the only base that makes female enlisted marines in our country.

The SPEAKER pro tempore. The time of the gentleman from New Jersey has expired.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will remind all persons in the gallery that they are here as guests of the House and that any manifestation of approval or disapproval of proceedings is in violation of the rules of the House.

Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. BARR. Madam Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 9 of rule XX, the Chair will reduce to 5 minutes the minimum time for any electronic vote on the question of passage.

The vote was taken by electronic device, and there were—ayes 206, noes 214, not voting 11, as follows:

[Roll No. 183]

 Adams Loudermilk Titus
 Crawford Rooney (FL) Vargas
 Fudge Rouda

□ 1216

So the bill was passed.
 The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:
 Mr. HASTINGS. Madam Speaker, as an original co-sponsor of H.R. 9—Climate Action Now Act, I would have voted YES on rollcall #184, had I been present.

REQUEST TO CONSIDER H.R. 962, BORN-ALIVE ABORTION SURVIVORS PROTECTION ACT

Mr. CLINE. Madam Speaker, I ask unanimous consent that the Committee on the Judiciary be discharged from further consideration of H.R. 962, the Born-Alive Abortion Survivors Protection Act, and ask for its immediate consideration in the House.

The SPEAKER pro tempore. Under guidelines consistently issued by successive Speakers, as recorded in section 956 of the House Rules and Manual, the Chair is constrained not to entertain the request unless it has been cleared by the bipartisan floor and committee leaderships.

Mr. CLINE. Madam Speaker, I urge that the Speaker would immediately schedule this important bill that will save lives.

The SPEAKER pro tempore. The gentleman has not been recognized for debate.

HOURLY MEETING ON TOMORROW, AND ADJOURNMENT FROM FRIDAY, MAY 3, 2019, TO TUESDAY, MAY 7, 2019

Mr. HOYER. Madam Speaker, I ask unanimous consent that when the

House adjourns today, it adjourn to meet at 2:30 p.m. tomorrow, and further, when the House adjourns on that day, it adjourn to meet at noon on Tuesday next for morning-hour debate and 2 p.m. for legislative business.

The SPEAKER pro tempore (Ms. SHALALA). Is there objection to the request of the gentleman from Maryland? There was no objection.

THE RISING COST OF HEALTHCARE

(Mr. MCADAMS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MCADAMS. Madam Speaker, I rise to address what, for my constituents, is an urgent concern: the rising cost of healthcare. I hear about it everywhere I go.

Healthcare is personal. Having access to quality, affordable care is central to our quality of life and our ability to decide where we live and where we work.

At a healthcare townhall I held last week, I heard from people such as a small business owner who worried that, while the very poor and wealthy have coverage options, she struggles to find an affordable policy for her family. She said: Please don't forget about people like me.

Another woman talked about how complicated her copays were for the drug treatment prescribed by her doctor, and another asked about the confusion surrounding billing codes and invoices.

Healthcare is probably the most complex issue we will address in Congress. My top goals include to ensure that Federal law continues to protect people with preexisting conditions, to promote coverage and enrollment, and to find solutions to bring down costs.

I believe that a good first step will be passing three bipartisan bills to make the drug market more competitive and prices more transparent:

The CREATES Act, which address an outrageous action by some name-brand companies to unfairly stop generics;

The BLOCKING Act, to stop "first" generic drug "parking"; and

The drug price STAR Act, to improve transparency.

With the cost of prescription drugs increasing dramatically, we need to take steps now.

NATIONAL DAY OF PRAYER

(Mr. SPANO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SPANO. Madam Speaker, I rise today to bring attention to the National Day of Prayer, a day that exists to encourage prayer for America.

Since our country's founding, from Washington to Lincoln to Kennedy to Trump, prayer to our Creator has served as our most important resource during times of celebration and days of trial.
